A Message from the President

The University of Southern California offers a tremendous range of academic and intellectual opportunities, and this catalogue should serve as your roadmap. In it you will find information on classes offered by our Dana and David Dornsife College of Letters, Arts and Sciences, the Graduate School and 17 different professional schools. I hope you will feel inspired to consider innovative and creative ways of pursuing your education.

To our undergraduates: You are fortunate to have advisors and professors who wholeheartedly encourage you to explore different disciplines and departments. These years should be a time of discovery, for stretching yourself intellectually, creatively and socially. One of USC’s distinctive traits is its emphasis at the baccalaureate level on what we call “depth with breadth” — that is, promoting the creative combination of majors (or majors and minors) that seem far apart in the intellectual landscape. USC offers more than 150 minors, and we encourage you to examine those that challenge you, perhaps taking your studies in an entirely new direction.

To our graduate students: Your courses — though designed to focus rigorously on various specialties — are intended to deepen and expand your knowledge. We urge you to pursue interdisciplinary connections and to build relationships with your peers in other fields. These relationships will enrich your work, and increase the tremendously vibrant academic culture on our campuses.

Intellectual breadth and agility are the tools you will need to succeed in the century ahead, and the education you receive at USC will certainly equip you well. Be bold in designing your USC education — and in creating your future!

C. L. Max Nikias
President
Board of Trustees

Chairman
Edward P. Roski Jr., President and Chief Executive Officer, Majestic Realty Company

Members
Wallis Annenberg, President and Chief Executive Officer, Annenberg Foundation
Wanda M. Austin, President and Chief Executive Officer, The Aerospace Corporation

Academic Deans

William W. Holder, Dean, Lusenohl School of Accounting

Pinchas Cohen, Dean, Davis School of Gerontology

Robert A. Curtiotta, Dean, Thornton School of Music

Elizabeth M. Daley, Dean, School of Cinematic Arts

James G. Ellis, Dean, Marshall School of Business

Marilyn L. Flynn, Dean, School of Social Work

Karen Symms Gallagher, Dean, Rossier School of Education

Selma Holo, Director, USC Fisher Museum of Art

Steve A. Kay, Dean, Doris Duke College of Letters, Arts and Sciences

Jack H. Knott, Dean, Price School of Public Policy

Qingyun Ma, Dean, School of Architecture

Carmen A. Puliafito, Dean, Keck School of Medicine

Madeline Puzo, Dean, School of Theatre

Catherine Quinlan, Dean, USC Libraries

Robert K. Rasmussen, Dean, Gould School of Law

Avishai Sadan, Dean, Ostrow School of Dentistry

Arvind Soni, Dean, Religious Life

Rochelle Striner, Dean, Roski School of Fine Arts

R. Pete Vanderveen, Dean, School of Pharmacy

Ernest James Wilson III, Dean, Annenberg School for Communication and Journalism

Yannis C. Yortsos, Dean, Viterbi School of Engineering

University Professor

This title is awarded to a small number of professors who, because of their multidisciplinary interests and significant accomplishments in several disciplines, qualify for an appointment which transcends any single field of study. Generally, a faculty member accorded this title also has a regular faculty appointment in a specific academic unit.

The following faculty members have been awarded the title of University Professor:

Michael A. Arbib, University Professor; Fletcher Jones Chair in Computer Science, and Professor of Biological Sciences and Biomedical Engineering

Lloyd Armstrong Jr., University Professor, Professor of Physics, and Professor of Education

George A. Bekesy, University Professor Emeritus, and Professor Emeritus of Computer Science

Warren Bennett, University Professor and Distinguished Professor of Business Administration

Leo B. Braudy, University Professor, and Leo S. Bing Chair in English and American Literature

Alexander Morgan Capron, University Professor; Scott H. Bice Chair in Healthcare Law, Policy and Ethics, and Professor of Law and Medicine

Manuel Castells, University Professor, Wallis Annenberg Chair in Communication Technology and Society, and Professor of Communication, Sociology, Planning, and International Relations

Marshall Cohen, University Professor Emeritus, and Professor Emeritus of Philosophy and Law

Geoffrey Cowan, University Professor, Wallis Annenberg Family Chair in Communication Leadership, and Professor of Communication

Antonio Damasio, University Professor, David Doris Duke Professor of Neuroscience, and Professor of Psychology, Neuroscience and Neurology

Hanna Damasio, University Professor, Dana Doris Duke Professor of Neuroscience, and Professor of Psychology, Neuroscience and Neurology

Richard A. Easterlin, University Professor, and Professor of Economics

Caleb Finch, University Professor, ARCO/William F. Keck Chair in the Neurobiology of Aging, and Professor of Gerontology, Biological Sciences, Anthropology and Psychology

Solomon W. Golomb, University Professor, Distinguished Professor of Electrical Engineering and Mathematics, and Andrew and Edna Viterbi Chair in Communications

Robert W. Hellwarth, University Professor, George T. Pfleger Chair in Electrical Engineering, and Professor of Physics

Mark Humayun, University Professor, Cornelius J. Pings Chair in Biomedical Sciences, and Professor of Ophthalmology, Biomedical Engineering, and Cell and Neurobiology

Thomas H. Jordan, University Professor, W.M. Keck Foundation Professor of Geophysics, and Professor of Earth Sciences

Malcolm C. Pike, University Professor, and Professor of Preventive Medicine

Steven B. Sample, University Professor, Professor of Electrical Engineering, and President Emeritus

Jean C. Shih, University Professor, Boyd P. and Elsie D. Wilin Professor of Pharmaceutical Sciences, and Professor of Cell and Neurobiology

Kevin O. Starr, University Professor, and Professor of History, and Public Policy

Larry Swanson, University Professor, Milo Don and Lucille Appleman Professor of Biological Sciences, and Professor of Biological Sciences, Neurology, and Psychology
The following faculty members have been awarded the title of Distinguished Professor:

- Leonard M. Adleman, Henry Salsatori, Distinguished Chair in Computer Science
- Norman Arnheim, Distinguished Professor of Biological Sciences, Molecular Biology and Biochemistry, and Ester Dornsife Chair in Biological Sciences
- Warren Bennis, University Professor and Distinguished Professor of Business Administration
- T. Coraghessan Boyle, Distinguished Professor of English
- P. Daniel Dapkus, William M. Keck, Distinguished Professor of Engineering and Professor of Electrical Engineering and Physics and Astronomy
- Percival Everett II, Distinguished Professor of English
- Solomon W. Golomb, University Professor, Distinguished Professor of Electrical Engineering and Mathematics, and Andrew and Edna Viterbi Chair in Communications
- Midori Goto, Distinguished Professor of Strings/Harp and Jascha Heifetz Chair in Violin
- Mark Jonathan Harris, Distinguished Professor of Cinematic Arts
- Stephen Hartke, Distinguished Professor of Composition
- Brian E. Henderson, Distinguished Professor of Preventive Medicine, and Kenneth T. Norris Jr., Chair in Cancer Prevention
- James T. Higginbotham, Distinguished Professor of Philosophy and Linguistics, and Linda MacDonald Hill Chair in Philosophy
- Peter A. Jones, Distinguished Professor of Biochemistry and Molecular Biology, and H. Leslie Hoffman and Elaine S. Hoffman Chair in Cancer Research
- Francine R. Kaufman, Distinguished Professor Emerita of Pediatrics
- Michael M.C. Lai, Distinguished Professor Emeritus of Molecular Microbiology and Immunology, and Neurology
- Morten J. Lauridsen, Distinguished Professor of Composition
- Edward E. Lawler III, Distinguished Research Professor of Business
- George A. Olah, Distinguished Professor of Chemistry and Donald P. and Katherine B. Loker Chair in Organic Chemistry
- Shahbudin H. Rahimtoola, Distinguished Professor of Medicine and George C. Griffith Chair in Cardiology
- Stephen J. Ryan, Grace and Emery Beardsley Distinguished Chair of Ophthalmology
- Scott Soames, Distinguished Professor of Philosophy
- Vaughn A. Starnes, Distinguished Professor of Cardiothoracic Surgery, and H. Russell Smith Foundation Chair for Stem Cell and Cardiovascular Thoracic Research
- Arieh Warshel, Distinguished Professor of Chemistry and Biochemistry
- Walter Woll, Distinguished Professor of Pharmaceutical Sciences

Faculty Endowments

Sigmund Aelson, G. Donald Montgomery, Professor of Dentistry, Ostrow School of Dentistry
Leonard M. Adleman, Henry Salsatori Chair in Computer Science, Viterbi School of Engineering
Paul Adler, Harold Quinton Chair in Business Policy, Marshall School of Business
Ron Allice, Ted Banks Chair for the Director of Track and Field Program, Department of Intercollegiate Athletics
Scott A. Altman, Virginia S. and Fred H. Rice Professor of Law, Gould School of Law
Murali Annavaram, Robert G. & Mary G. Lane Early Career Chair, Viterbi School of Engineering
Michael L. J. Apuzzo, M.D., Todd-Wells Professor of Neurosurgery, Keck School of Medicine
Michael A. Arbib, Fletcher Jones Chair in Computer Science, Viterbi School of Engineering
Andrea Armani, Fluor Early Career Chair in Engineering, Viterbi School of Engineering
Jody David Armour, Roy P. Crocker Professor of Law, Gould School of Law
Norman Arnheim, Ester Dornsife Chair in Biological Sciences, Dornsife College of Letters, Arts and Sciences
Sami Assaf, Ph.D., Gabilan Assistant Professor of Mathematics, Dornsife College of Letters, Arts and Sciences
Ron Avi Astor, Richard M. and Ann L. Thor Endowed Professor of Urban Social Development, School of Social Work
Larry Auerbach, The Larry Auerbach Endowed Chair, School of Cinematic Arts
Tidibib Banerjee, James Irvine Chair in Urban and Regional Planning, Price School of Public Policy
Arthur C. Bartner, Arthur C. Bartner Trojan Marching Band Director’s Chair
Ralph Boech, TRW Chair of Software Engineering, Viterbi School of Engineering
Sarah Bonner, USC Accounting Associates Professor of Accounting, Marshall School of Business
Zeia Bork, Ralph Edgington Chair in Medicine, Keck School of Medicine
Edward R. Bosley, James N. Gamble Director of the Gamble House, School of Architecture
Todd Boyd, The Katherine and Frank Price Endowed Chair for the Study of Race and Popular Culture, School of Cinematic Arts
Laurie Brand, Robert Grandford Wright Professor, Dornsife College of Letters, Arts and Sciences
Leo B. Braudy, Leo S. Bing Chair in English and American Literature, Dornsife College of Letters, Arts and Sciences
John Brekke, Frances G. Larson Professor of Social Work Research, School of Social Work
Melvin Breuer, Charles Lee Powell Chair in Electrical Engineering and Computer Science, Viterbi School of Engineering
Dominic Brewster, Clifford H. and Betty C. Allen Professor of Urban Leadership, Rossier School of Education
Robert Diaz Brinton, R. Pete Vandercook Endowed Chair in Therapeutic Discovery and Development, School of Pharmacy
John L. Brodhead Jr., M.D., George N. and Mary Lou Boone Professor of Medical Excellence, Keck School of Medicine
Rebecca L. Brown, Newton Professor of Constitutional Law, Gould School of Law
Enrique Cadenas, Charles KnauerPharmacy Alumni Professor of Pharmaceutical Sciences, School of Pharmacy
Douglas G. Capone, William and Julie Wrigley Chair in Environmental Studies, Dornsife College of Letters, Arts and Sciences
Alexander Morgan Capron, Scott H. Rice Chair in Healthcare Law, Policy and Ethics, Gould School of Law
Drew Casper, Alma and Alfred Hitchcock Chair, School of Cinematic Arts
Rudy Castruita, Ivecing R. Melbo Chair in Education, Rossier School of Education
Manuel Castells, Wallis Annenberg Chair in Communication Technology and Society, Annenberg School for Communication and Journalism
Yang Chai, George and Mary Lou Boone Chair in Craniofacial Molecular Biology, Ostrow School of Dentistry
Dan Mazmanian, Judith & John Bedrosian Chair in Governance & Public Enterprise, Price School of Public Policy
Edward J. McLaughlin, Robert C. Packard Trustee Chair in Law, Gould School of Law
Jacquelyn McCloskey, John Milner Professor of Child Welfare, School of Social Work
Mathew D. McCubbins, Provost Professor of Business, Law, and Political Economy, Marshall School of Business
Daniel McFadden, Presidential Professor of Health Economics, Dornsify College of Letters, Arts and Sciences, Price School of Public Policy
Andrew P. McMahon, Provost Professor and W. M. Keck Professor of Stem Cell Biology and Regenerative Medicine, Keck School of Medicine
Dan Meis, Nancy M. and Edward D. Fox Urban Design Critic, School of Architecture
Glenn A. Melnick, Blue Cross of California Chair in Health Care Finance, Price School of Public Policy
Ellis Meng, Viterbi Early Career Chair in Engineering, Viterbi School of Engineering
Kenneth A. Merchant, Deloitte & Touche LLP Chair in Accountancy, Marshall School of Business
Donald Miller, Leonard K. Firestone Professor of Religion, Dornsify College of Letters, Arts and Sciences
Gene Miller, Orfeda Director’s Chair in Entrepreneurship, Marshall School of Business
Norman Miller, Mendel B. Silberberg Professor of Social Psychology, Dornsify College of Letters, Arts and Sciences
Bob Mintz, Bozen H. “Buzz” McCoy and Barbara M. McCoy Endowed Chair in Jazz, Thornton School of Music
Daniel R. Mishell Jr., M.D., Lyle G. McNeile Professor of Obstetrics, Keck School of Medicine
Sanjot Mitra, Stephen and Etta Varra Professor, Viterbi School of Engineering
Tania Modleski, Florence R. Scott Professor of English, Dornsify College of Letters, Arts and Sciences
Michaëlle E. Mor Barak, Lenore Stein-wood and William S. Wood Professor in Social Work and Business in a Global Society, School of Social Work
C. Paul Morrow, M.D., Charles F. and Helen Ann Langmade Professor of Obstetrics and Gynecology, Keck School of Medicine
Roseann Mulligan, Charles M. Goldstein Professor of Community Dentistry, Ostrow School of Dentistry
E. Phillip Munz, Arthur B. Freeman Professor of Engineering, Viterbi School of Engineering
Kevin J. Murphy, Kevin L. Trefitz Chair in Finance, Marshall School of Business
Rev. Cecil (Chip) Murray, John R. Tunsey Chair in Christian Ethics, Dornsify College of Letters, Arts and Sciences
Juliet Musso, Houston Flournoy Professor of State Government, Price School of Public Policy
Shrikanth Narayanan, Viterbi Professor of Engineering, Viterbi School of Engineering
Robert S. Nelson, Provost Professor of Art History and Classics, Dornsify College of Letters, Arts and Sciences
Kenneth H. Nealson, Wrigley Chair in Environmental Studies, Dornsify College of Letters, Arts and Sciences
Chester A. Newland, Frances R. and John J. Duggan Distinguished Professor of Public Administration, Price School of Public Policy
John T. Nicoll, M.D., Bernard J. Hanley Chair in Medicine, Keck School of Medicine
C. L. Max Nikias, Robert C. Packard President’s Chair, Office of the President
Steven R. Nutt, M.C. Gill Chair in Composite Materials, Viterbi School of Engineering
George A. Olah, Donald P. and Katherine B. Loker Chair in Organic Chemistry, Dornsify College of Letters, Arts and Sciences
Michael L. Paine, D.D.S., USC Associates Assistant Professor of Dentistry, Ostrow School of Dentistry
Lawrence A. Palinkas, Frances L. and Albert G. Feldman Endowed Professor of Social Policy and Health, School of Social Work
C.W. Park, Joseph A. DeBella Chair in Business Administration, Marshall School of Business
Carlos N. Paton, M.D., Frank Alexander Professor of Psychiatry, Keck School of Medicine
Michele T. Paton, M.D., Della Martin Chair in Psychiatry, Keck School of Medicine
Michael J. Patzakis, M.D., Vincent and Julia Meyer Chair in Orthopaedic Surgery, Keck School of Medicine
Donald M. Paul, William M. Keck Professor of Energy Resources, Price School of Public Policy, Viterbi School of Engineering
Martin Pera, William M. Keck Chair in Medicine, Keck School of Medicine
M. Hashem Pesaran, John Elliott Chair in Economics, Dornsify College of Letters, Arts and Sciences
Nicos Petasis, Harold and Lillian Mouton Chair in Chemistry, Dornsify College of Letters, Arts and Sciences
John M. Peters, Hastings Professor of Medicine, Keck School of Medicine
Zbigniew Petrovich, M.D., Albert Soslund Professor of Radiation Biology, Keck School of Medicine
Joan Piggott, Gordon L. MacDonald Chair in History, Dornsify College of Letters, Arts and Sciences
Michelle Povinelli, Women in Science and Engineering Junior Garabedian Chair, Viterbi School of Engineering
G.K. Prusty Prakash, George A. and Judith A. Olah Nobel Laureate Chair in Hydrocarbon Chemistry, Dornsify College of Letters, Arts and Sciences
Viktor Prasanna, Charles Lee Powell Chair in Engineering, Viterbi School of Engineering
Michael Press, M.D., Harold E. Lee Chair in Cancer Research, Keck School of Medicine
Carmen A. Puliafito, M.D., May S. and John Hoovac Dean’s Chair in Medicine, Keck School of Medicine
Jon Pynoos, UPS Foundation Chair in Gerontology, Davis School of Gerontology
S. Joe Qin, Floor Professor of Process Engineering, Viterbi School of Engineering
Catherine Quinlan, Valerie and Ronald Sugar Dean’s Chair of the USC Libraries, USC Libraries
Shahbudin H. Rahimtoola, M.D., George C. Griffith Chair in Cardiology, Keck School of Medicine
Nandini Rajagopalan, Capt. Henry W. Simonsen Chair in Strategic Entrepreneurship, Marshall School of Business
Simon Ramo, Presidential Chair, Viterbi School of Engineering
Narsing Rao, M.D., Rupert and Gertrude Stigler Vision Research Chair, Keck School of Medicine
Robert K. Rasmussen, Carl Mason Franklin Dean’s Chair in Law, Gould School of Law
Hanna Reisler, Lloyd Armstrong, Jr. Chair for Science and Engineering, Dornsify College of Letters, Arts and Sciences
Aristides A. G. Requicha, Gordon S. Marshall Chair in Engineering, Viterbi School of Engineering
H. Robert Reynolds, H. Robert Reynolds Chair in Wind Conducting, Thornton School of Music
Dale H. Rice, M.D., Leon J. Tiber and David S. Alpert Chair in Medicine, Keck School of Medicine
Harry W. Richardson, James Irvine Chair in Urban and Regional Planning, Price School of Public Policy
Daria Rothmayer, George T. and Harriet E. Pfleger Chair in Law, Gould School of Law
Sheldon M. Ross, Daniel J. Epstein Chair; Viterbi School of Engineering
John Carlos Rowe, USC Associates Chair in Humanities, Dornsify College of Letters, Arts and Sciences
Robert Ruwedel, Stephen Crocker Professor of Education, Rossier School of Education
Stephen J. Ryan, M.D., Grace and Emery Beardsley Chair in Ophthalmology, Keck School of Medicine
Avishek Sadan, G. Donald and Marian James Montgomery Dean’s Chair in Dentistry, Ostrow School of Dentistry
Alfredo A. Sadun, M.D., Flora L. Thornton Chair in Vision Research, Keck School of Medicine
Muhammad Sahimi, N.I.O.C. Chair in Petroleum Engineering, Viterbi School of Engineering
Elyse R. Saks, Orrin B. Evans Professor of Law, Gould School of Law
Jonathan M. Samet, M.D., Flora L. Thornton Chair in Preventive Medicine, Keck School of Medicine
Terence David Sanger, Provost Associate Professor of Biomedical Engineering, Neurology, and Biokinesiology and Physical Therapy, Viterbi School of Engineering
Alexander A. Sawchuck, Leonard Silverman Chair, Viterbi School of Engineering
Lawrence Scarpa, Jon Adams Jerde, FAIA Chair in Architecture, School of Architecture
Leonard D. Schaeffer, Judge Widney Professor and Chair, Price School of Public Policy
Alice Schoenfeld, Alice and Eleanor Schoenfeld Endowed Chair in String Instruction, Thornton School of Music
Robert A. Schultz, Fred H. Cole Professor of Electrical Engineering, Viterbi School of Engineering
Oliver Schulze, A.C. Martin Visiting Professor of Architectural Design, School of Architecture
Ellen Seiter, Stephen K. Nenno Endowed Chair in Television Studies, School of Cinematic Arts
F. Stan Settles, IBM Chair in Engineering Management, Viterbi School of Engineering
Michael H. Shapiro, Dorothy W. Nelson Professor of Law, Gould School of Law
Wei-Chiang Shen, John A. Biles Professor of Pharmaceutical Sciences, School of Pharmacy
Randolph Sherman, M.D., Audrey Skirball-Kenis Chair in Plastic and Reconstructive Surgery, Keck School of Medicine
Jean Chen Shih, Boyd P. and Elsie D. Wein Professor of Pharmaceutical Sciences, School of Pharmacy
Stuart E. Siegel, M.D., Stuart E. Siegel Chair in Pediatric Oncology, Keck School of Medicine
Leonard M. Silverman, Fred W. O'Green Chair of Pharmaceutical Sciences, School of Pharmacy
Melvin Silverstein, M.D., Henrietta C. Lee Chair in Cancer Research, Keck School of Medicine
James H.S. Simon, Wayne G. and Margaret L. Bemis Professor of Endodontics, Ostrow School of Dentistry
Larry G. Simon, Herbert W. Armstrong Professor of Constitutional Law, Gould School of Law
Uttam Sinha, M.D., Watt Family Chair in Head and Neck Cancers, Keck School of Medicine
Constantinos Sioussas, Fred Champion Professor of Cardiac and Environmental Engineering, Viterbi School of Engineering
Donald Skinner, M.D., Hanson-White Chair in Medical Research, Keck School of Medicine
W. David Slawson, Terry S. Webb Professor of Law, Emeritus, Gould School of Law
Bruce Smith, Dean’s Professor of English, Dornsife College of Letters, Arts and Sciences
Edwin M. Smith, Leon Bouwell Professor of Law, Gould School of Law
Ronald E. Smith, Charles S. and Hildegard Warren Chair in Vision Research, Keck School of Medicine
Vaughn A. Starnes, H. Russell Smith Foundation Chair for Stem Cell and Cardiovacular Thoracic Research, Keck School of Medicine
Nancy Staufft, Edward G. Lewis Endowed Chair in Law, Gould School of Law
William H. Steier, William M. Hogue Professor of Electrical Engineering, Viterbi School of Engineering
Nomi M. Stolzenberg, Nathan and Lilly Shapell Chair in Law, Gould School of Law
Christopher D. Stone, J. Thomas McCarthy Trustee Chair in Law, Gould School of Law
K.R. Subramanyam, KPMG Foundation Professor of Accounting, Marshall School of Business
Larry Swanson, Milo Don and Luville Appleman Professor of Biological Sciences, Dornsife College of Letters, Arts and Sciences
Mary Sweeney, M.A., The Dino and Martha De Laurentis Endowed Professorship, School of Cinematic Arts
Shui-Yan Tang, Frances R. and John J. Dugan Distinguished Professor of Public Administration, Price School of Public Policy
Simon Tavare, George and Louise Kazamato Chair in Biological Sciences, Dornsife College of Letters, Arts and Sciences
Gerard J. Tellis, Jerry and Nancy Neely Chair in American Enterprise, Marshall School of Business
Shang-Hua Teng, Seeley G. Mudd Professor of Engineering, Viterbi School of Engineering
Dickran M. Tevrezian Jr., Judge Widney Chair, Office of the Provost
Duncan Thomas, Verna R. Richter Chair in Cancer Research, Keck School of Medicine
Richard F. Thompson, University Professor Emeritus and William M. Keck Chair Emeritus in Psychology and Biological Sciences, Dornsife College of Letters, Arts and Sciences
James Tibone, M.D., Moss Foundation Professor of Sports Medicine in Memory of Dr. Robert K. Kerlan, Keck School of Medicine
William G. Tierney, Leslie Willbur and Norma Lask Willbur-Evelyn Kieffer Professor of Higher Education, Rossier School of Education
Penelope Trickett, David Lawrence Stein/ Violet Goldberg Sachs Professor of Social Work, School of Social Work
Debasish Tripathy, Dr. Arthur and Priscilla Ulene Chair in Women's Cancer, Keck School of Medicine
Theodore T. Tsotsis, Robert E. Vivian Chair in Energy Resources, Viterbi School of Engineering
Lawrence Turman, Fren and Ray Stark Endowed Chair, School of Cinematic Arts
Mark Urata, Audrey Skirball-Kenis Chair for Colorectal Disease, Keck School of Medicine
R. Pete Vanderven, John Stauffer Dean's Chair in Pharmaceutical Sciences, School of Pharmacy
William Armando Vega, Procrast Professor of Social Work, Preventative Medicine, Psychiatry, Family Medicine and Gerontology, Office of the Provost
Andrew J. Viterbi, Presidential Chair in Engineering, Viterbi School of Engineering
Hai Wang, Northrop Chair in Engineering, Viterbi School of Engineering
Michael S. Waterman, USC Associates Chair in Natural Sciences, Dornsife College of Letters, Arts and Sciences
Gary Watson, Provost Professor of Philosophy and Law, Dornsife College of Letters, Arts and Sciences
John Watson, Dana and Albert “Cubby” Broccoli Endowed Chair in Producing, School of Cinematic Arts
Leslie P. Weimer, M.D., Richard Angus Grant, Sr., Chair in Neurology, Leslie P. Weimer Chair in Neurology, Keck School of Medicine
Ruth Weissberg, Ruth Weissberg Professorship in Drazing, Roski School of Fine Arts
Martin H. Weiss, M.D., Martin H. Weiss Chair in Near Surgery, Keck School of Medicine
A. Joshua West, Wilford and Daris Zinsmeyer Early Career Chair in Marine Studies, Dornsife College of Letters, Arts and Sciences
Randolph W. Westerfield, Charles B. Thornton Professor of Finance, Marshall School of Business
Kathleen H. Wilber, Mary Pickford Foundation Professor of Gerontology, Dornsief School of Gerontology
Alan Willner, Steven and Kathryn Sample Chair in Engineering, Viterbi School of Engineering
Ernest James Wilson III, Walter H. Annenberg Chair in Communication, Annenberg School for Communication and Journalism
Diane Winston, Knight Chair in Media and Religion, Annenberg School for Communication and Journalism
Curt Wittig, Paul A. Miller Chair in Letters, Arts and Sciences, Dornsife College of Letters, Arts and Sciences
Priscilla Wohlstetter, Diane and MacDonal Becket Professor of Educational Policy, Rossier School of Education
Michael K. Wong, M.D., Berle and Lucy Adams Chair in Cancer Research, Keck School of Medicine
Wendy Wood, Provost Professor of Psychology and Business, Marshall School of Business and Dornsife College of Letters, Arts and Sciences
Yannis C. Yortzas, Zahrah A. Kaprielian Dean’s Chair in Engineering and Chester F. Dolley Chair in Petroleum Engineering, Viterbi School of Engineering
S. Mark Young, George Bozanic and Holman G. Hart Chair in Sports and Entertainment Business, Marshall School of Business
Fernando Zapatero, Robert C. Kirby Chair in Behavioral Finance, Marshall School of Business
Elizabeth M. Zielinski, Rita and Edward Polsky Chair in Education and Aging, Dornsief School of Gerontology
Robert Zemeckis, Judge Widney Professor, Office of the Provost
Bruce Zucker, Myron and Marian Caden Directorship of the Caden Institute for the Study of the Jewish Role in American Life, Dornsief College of Letters, Arts and Sciences
About USC
USC Today

Located near the heart of Los Angeles, the University of Southern California is one of the top private research universities in the United States, attracting students from around the globe and operating an integrated academic medical center that serves more than a million patients each year.

Since its establishment in 1880, USC has conferred degrees on more than a quarter-million students — leaders who have helped Southern California emerge as an international trendsetter in public policy, economic and business affairs, urban planning and engineering, scientific research, health care, communications and the arts.

Today, USC and its graduates carry forward this heritage of leadership — developing innovative opportunities for learning, exploring new fields of scholarship and investigation, and establishing a widening network of service and partnership among the nations of the Pacific Rim.

The traditional function of the university is to teach students — and at USC, teaching takes place in the classroom, studio, laboratory, seminar room and on the playing field, as well as where students live. USC is committed to promoting lifelong learning and to the principle that education is most effectively carried out in a context that encourages the creation of new knowledge.

USC places a premium on research and scholarship and on the professional and scholarly credentials of its faculty. Since 1969, USC has been a member of the Association of American Universities, the elective body that unites the 61 premier research universities in the United States and Canada.

The University of Southern California is accredited by the Western Association of Schools and Colleges, 985 Atlantic Ave., Suite 100, Alameda, CA 94501, (510) 748-9001. Students may review USC’s accreditation documents by contacting associate provost Robin Romans.

Throughout its history, USC has performed a wide variety of roles in service to its constituencies — contributing to the welfare of its own students, faculty, staff and alumni, as well as to Southern California, the nation and the world. In particular, the university’s hospitals, affiliated hospitals and partnerships with business and nonprofit organizations help make USC’s expertise available to the community at large.

Academic Programs
The University of Southern California upholds a tradition of academic strength at all levels — from the earliest explorations of the undergraduate to the advanced scholarly research of the postdoctoral fellow.

USC offers bachelor’s degrees in 162 undergraduate majors, and, as of fall 2011, graduate students were enrolled in nearly 380 master’s, certificate, doctoral and professional degree programs. Hand in hand with this wide array of majors, USC has developed 155 different academic and professional minors — the broadest selection of any U.S. university — to encourage students to study subjects across widely separated fields. Students may select from a variety of degree combinations under the direction of the USC Dornsife College of Letters, Arts and Sciences, the Graduate School and the university’s 17 professional schools.

The USC Dornsife College of Letters, Arts and Sciences is at the heart of the university’s commitment to teaching and research in the humanities, social sciences and sciences. The largest and most diverse of USC’s academic divisions — in terms of both student enrollment and faculty — the college serves nearly 6,700 undergraduates and 1,700 graduate students, and offers more than 130 undergraduate and graduate courses of study and a full range of master’s and doctoral degree programs. In addition to the undergraduate degrees offered by the college, many of the university’s professional schools also offer bachelor’s degree programs.

Faculty
USC’s full-time faculty numbers nearly 3,400. In addition, more than 4,500 volunteer faculty members are affiliated with the Keck School of Medicine of USC, and more than 430 volunteer faculty are affiliated with the USC School of Pharmacy. Research, teaching, patient care and community service are supported by a staff of more than 11,800.

USC’s faculty includes Nobel laureates George A. Olah, Murray Gell-Mann and Daniel McFadden as well as National Medal of Arts winner Morten Lauridsen, National Humanities Medal winner Kevin Starr, National Medal of Science winner Andrew Viterbi, Turing Prize recipient Leonard Adleman, Pritzker Prize honoree Frank Gehry, MacArthur fellows Elyn Saks and Luis Alfaro, renowned violinist Midori Goto, Michael Waterman (a founder of computational genomics), Manuel Castells (interpreter of the Internet age), and Antonio Damasio (pioneer in the neural bases of emotions). More than 200 faculty members have received prestigious academic and professional awards from organizations as varied as the National Institutes of Health, the National Science Foundation, the Department of Homeland Security, the National Endowment for the Humanities, the Alfred P. Sloan Foundation, the John Simon Guggenheim Foundation and the Academy of Motion Picture Arts and Sciences. Also on the faculty are members of the National Academy of Sciences (15), National Academy of Engineering (35), Institute of Medicine (14) and American Academy of Arts and Sciences (28).

Students
Diversity is a hallmark of the USC student community. USC students come from all 50 states, five territories and 115 countries. There are 38,000 students enrolled at the university, including some 17,500 undergraduates and 20,500 graduate and professional students. In fall 2011, nearly 50 percent of new freshmen were from California. Approximately 40 percent of the university’s total enrollment is composed of American minorities; a further 19 percent are international students. For 10 consecutive years, USC has been at the top of American universities in terms of international enrollment. Among undergraduates, approximately 50 percent are men and 50 percent are women.

The middle 50 percent SAT range of the 2011 enrolled freshman class was 1970–2180. The average unweighted GPA was 3.72. In fall 2011, there were 247 National Merit Scholars.

USC students consistently earn nationally competitive scholarships and fellowships, including Fulbright, Luce, Marshall, Truman, Rhodes and Churchill scholarships.
Libraries are also home to the Boeckmann rarest books from his library. The USC features an extensive collection of Lion history, marine science, philosophy, and formations in the areas of cinema, international and information resources to develop materials for Leavey, librarians and staff provide faculty and students with tools to accomplish research using both auditorium and more than 1,400 reader seats with nearly 200 computer workstations, more than 50 collaborative workspaces, two hands-on learning classrooms, a multimedia auditorium and more than 1,400 reader seats in a variety of formal and informal arrangements. Leavey provides faculty and students with tools to accomplish research using both traditional and electronic resources. Within Leavey, librarians and staff provide faculty with assistance in using technology and information resources to develop materials for instruction and scholarly research.

The USC Libraries have noteworthy collections in the areas of cinema, international and public affairs, American literature, regional history, marine science, philosophy, and Latin American and Korean studies, among others. The Feuchtwanger Memorial Library features an extensive collection of Lion Feuchtwanger's own works along with the rarest books from his library. The USC Libraries are also home to the Boeckmann Center for Iberian and Latin American Studies, as well as an extensive collection of photographs chronicling the history of Southern California. A complete list of all libraries and updated hours is available online at usc.edu/libraries.

USC's electronic resources, available online at usc.edu/libraries, include a collection of databases, electronic books, electronic journals and visual materials. USC's online library catalog, HOMER, provides a list of books, periodicals, government documents and dissertations held in libraries on the University Park Campus. The USC Libraries are also engaged in numerous digital initiatives, such as the USC Digital Library. To access these resources and learn about additional services, visit digitallibrary.usc.edu.

USC Libraries' Ask-A-Librarian service provides 24-hour-a-day professional reference assistance to students, faculty and staff. Patrons receive expert answers in person, via phone, email and online chat sessions. Ask-A-Librarian is located online at usc.edu/libraries/services/ask_a_librarian.

Computing Resources
Before activating their USC computing account, students must be registered for classes or have paid their tuition deposit and certified that they will be attending USC. Students must also agree to observe the university's computing policies, which are available at usc.edu/its/policies. Students should go to usc.edu/first/login to activate their USC computing account.

Peer-to-Peer File Sharing
Information Technology Services (ITS) provides a variety of resources to help students understand how peer-to-peer (P2P) file sharing programs function and the risks involved in using them. P2P file sharing is a complicated technology, and there are significant differences in the ways that P2P programs operate. For more information, see usc.edu/its/copyright.

USC’s Wireless Network
Most common areas at USC are configured for wireless technology. There are two ways to connect to the USC wireless network: USC Wireless and USC Wireless Plus.

USC Wireless
USC Wireless is an open network. You can connect without entering your USC username and password. Because USC wireless is an open network, ITS recommends that you use USC's Virtual Private Network (VPN) software to protect your personal information when using this network. See usc.edu/its/cpn for instructions.

USC Wirelan
USC Wireless Plus is a faster, encrypted network, available only to USC account holders. When connecting to USC Wireless Plus for the first time, you may need to configure your wireless device. For instructions, see usc.edu/its/wirelessplus.

ResNet
All the rooms in USC residence halls are connected to ResNet, USC's high-speed residential computer network. For more information, see usc.edu/its/resnet.

Email
USC students are eligible for special Gmail accounts that provide more than 7 gigabytes of online storage and allow them to use their @usc.edu email address. These accounts, which are called Google Apps at USC accounts, also provide access to Google's online word processing and spreadsheet programs, sharable calendars and more. Once students have completed the first login process, they can visit usc.edu/google for more information, or go directly to https://gs怅.net to set up their Gmail account.

Antivirus and Other Software
For free antivirus, firewall and other software, visit software.usc.edu. (A USC login is required.) An overview of software resources is available at usc.edu/its/software. For tips on secure computing, go to usc.edu/its/security.

Blackboard
The Blackboard Website (blackboard.usc.edu) is the online learning management system used by USC professors to provide students with digital copies of syllabi, other course-related resources and hosted discussion forums. Blackboard allows students to upload assignments, take quizzes, communicate with classmates and track progress in their classes.

MyUSC
MyUSC is the university’s portal, designed to provide personalized access to ranging campus resources in a single location. These include university and departmental announcements, along with national news, online registration, Blackboard and other services. MyUSC is available at my.usc.edu.

Lynda.com
USC students have free access to Lynda.com, an online training provider offering more than 1,100 video-based courses on a broad range of computing and technology topics, including Google Apps, Adobe products, Microsoft Office, Web design and development, audio/video production, computer programming and mobile devices. For more information, visit usc.edu/its/lynda.
USC mobile

USC mobile (mobile.usc.edu) provides access to a broad range of USC content from Internet-enabled phones, including campus directories, maps, news, events, tram routes and arrival times, and more.

Computing Documentation, Network Alerts and ITS Announcements

In addition to documentation on connecting to the USC network and using supported software programs, the ITS Website provides information about network performance issues and announcements about scheduled maintenance. Visit usc.edu/its.

USC Computing Centers

USC’s computing centers offer technology-enhanced collaboration spaces, computers, wireless networking and wireless printing services for USC students, faculty and staff. For more information, visit usc.edu/its/spaces/computing_centers.

Getting Help

For help with network connectivity and software, contact the ITS Customer Support Center at 740-5555 or consult@usc.edu. Walk-in support is available from 9 a.m. to 5 p.m., Monday through Friday, in Leavy Library’s Information Commons, on the lower level. For more information, see usc.edu/its/us.

Hospitals and Patient Care

The schools of medicine, pharmacy and dentistry, together with the divisions of biokinesiology and physical therapy and of occupational science and occupational therapy, train professionals in the health care fields, conduct original research in all aspects of biomedicine and health care, and provide high-quality patient care to the Southern California community.

The Health Sciences Campus is home to the newly-named Keck Medical Center of USC. The medical center includes university-owned Keck Hospital of USC and USC Norris Cancer Hospital, Healthcare Consultation Centers I and II and the Doheny Eye Institute. The 411-bed Keck Hospital of USC is an ultra-modern facility offering many specialized services and procedures that are beyond the scope of most community hospitals.

The Keck School of Medicine of USC also provides medical staffing for the adjacent Los Angeles County+USC Medical Center, which is one of the largest teaching hospitals in the country and the largest single provider of health care in Los Angeles County. Owned and operated by Los Angeles County, the medical center treats more than 28 percent of the region’s trauma victims. In addition, it operates one of only three burn centers in the county, a Level I trauma center and one of the few Level III neo-natal intensive care units in Southern California. At LAC+USC, Keck School faculty care for patients and train more than 900 medical residents and fellows.

USC Care Medical Group, Inc. is the private medical practice in which more than 500 physicians who are faculty members of the Keck School of Medicine provide care in a wide range of medical specialties from the most complex diagnoses and treatments to primary care for the entire family. Besides seeing patients on the Health Sciences Campus, clinical satellites exist in downtown Los Angeles, La Cañada, Beverly Hills and Pasadena.

The USC School of Pharmacy operates pharmacies in the Gwynn Wilson Student Union on the University Park Campus and the Medical Plaza Pharmacy (in Healthcare Consultation Center I building) on the Health Sciences Campus. These pharmacies provide full pharmacy services including disease screenings, immunizations, medication therapy management, medication compounding and an international travel clinic. School of Pharmacy faculty, residents and students also provide pharmacy services and patient consultations at the Keck Hospital of USC, USC Norris Cancer Hospital, the LAC+USC Medical Center and other hospitals, clinics, skilled nursing facilities, home health care agencies and pharmacies throughout Southern California.

Faculty, students and residents of the Ostrow School of Dentistry of USC practice at the Norris Dental Science Center on the University Park Campus (UPC) and faculty see patients at the USC Oral Health Center located in University Village adjacent to UPC and other locations throughout Southern California.

Biokinesiology and physical therapy faculty see patients at the USC Physical Therapy Associates clinics in University Village, at Keck Hospital of USC and clinical offices in the USC Clinical Research Organization building adjacent to the Health Sciences Campus.

The USC Occupational Therapy Faculty Practice sees patients at Keck Hospital of USC and in the Clinical Sciences Center on the Health Sciences Campus. The faculty also offers a number of lifestyle redesign programs at both the University Park and Health Science campuses.

Civic Engagement

The oldest research university in Southern California, USC has been an integral part of its community for more than 130 years. Today, USC is the largest private employer in Los Angeles and is renowned for innovative university-community partnerships aimed at strengthening the neighborhoods around its University Park and Health Sciences campuses, deepening its ties to these diverse communities and fostering positive relations between the university and the people who are most directly affected by USC’s presence there. Implemented in partnership with community agencies, leaders and public officials, USC’s university-community initiatives focus on providing special educational, cultural and developmental opportunities for children who live in the immediate neighborhoods; working with neighbors, city and county officials, and other agencies to provide safer streets; encouraging more entrepreneurs, and especially minority entrepreneurs, to establish businesses in the immediate vicinity of the campuses; and striving to employ at USC more persons who live in the areas surrounding the two campuses.

Today, academic and administrative units across the university are involved with some 400 community service programs that are making a real difference in the lives of USC’s neighbors. Through the USC Family of Schools, for example, the university partners with 15 local schools, improving the classroom experience for more than 16,000 K-12 students. Since 1997, the USC Neighborhood Academic Initiative (NAI), a six-year pre-college-enrichment program designed to prepare low-income neighborhood students to succeed in college, has graduated more than 640 students, 100 percent of whom have earned their high school diplomas and 99 percent of whom have gone on to college. NAI graduates who are accepted to USC receive a full financial package, minus loans. Kid Watch, launched in 1996, brings together the university, the Los Angeles Police Department, the Los Angeles Unified School District Police Department and more than 950 community volunteers to watch over more than 8,500 students as they walk to and from school.

Additionally, since 1994, employees, alumni and friends have lent their support to the university-community initiatives by making voluntary contributions to the annual USC Good Neighbors Campaign. As of 2011, the campaign has raised more than $13.9 million, funding 459 university-community partnership projects.

For more information about USC’s community-engagement efforts, visit usc.edu/community.
Cultural Life
USC and its graduates play an important role in making Los Angeles one of the world’s great centers for arts and culture. The USC Thornton School of Music is the most active producer of live music performances in the city, presenting more than 500 music events annually. The USC School of Theatre produces a full schedule of performances as well, the USC Fisher Museum of Art regularly offers exhibitions ranging from contemporary works to antiquities, and the USC School of Cinematic Arts presents film screenings and other events, many of which are open to the public. USC’s storied Doheny Memorial Library also hosts a wide variety of lectures, readings, conferences, concerts and special exhibits. In addition, Visions and Voices, USC’s campus-wide arts and humanities initiative, attracts nearly 30,000 students each year to theatrical productions, music and dance performances, conferences, lectures, film screenings, and other activities both on and off campus. For up-to-date information about cultural programming at USC, call the University Ticket Office at (213) 740-GOSC (4672) or visit the online arts and events calendar (usc.edu/calendar).

Athletics
USC sponsors nine varsity sports for men and 12 for women, involving more than 600 of the nation’s top-ranked athletes. In their pursuit of athletic and academic excellence, USC varsity teams have won more national championships than all but two NCAA member institutions: 23 women’s team titles and 93 men’s team titles — including 11 unofficial football titles. USC is one of only three universities in intercollegiate athletic history to win at least five national championships in one year (1962-63 and 1976-77). Fifty-one USC athletes have been awarded NCAA postgraduate scholarships.

In Olympic competition, USC has fielded more athletes than any other institution. Since 1904, 393 Trojan athletes have participated in the Olympic games, accumulating a total of 122 gold, 76 silver and 60 bronze medals.

At least one USC athlete has won a gold medal in every summer Olympiad since 1912, making USC the only university in the world with this distinction.

USC Alumni Association
The USC Alumni Association’s mission is to support the overall advancement of the University of Southern California by engaging all alumni for life, building a culture of philanthropy among the Trojan Family, and being the representative voice for all USC alumni.

With more than 300,000 members worldwide, the USC Alumni Association supports more than 100 affiliated alumni clubs, alumnae support groups, and multicultural and generational alumni communities. These groups collectively distribute more than two million dollars each year in scholarships for USC students. The USC Alumni Association annually hosts hundreds of events and programs around the world, and provides benefits and services to all USC alumni.

Every summer in July and August, alumni clubs around the world host Scend Offs, a USC tradition, welcoming new students and connecting current students, families and friends to the Trojan Family. Our student outreach program, Society 53, offers programs and events that link students to USC’s vast alumni network. These events include the Trojan SCuppers — alumni-hosted dinners with students. We also offer great benefits to students such as a car rental program and test preparation discounts. To learn more about the USC Alumni Association and its student programs, visit alumni.usc.edu/students or call (213) 740-2300.

Environment
University Park Campus
Located at the same site since USC’s establishment in 1880 on eight acres of land in the city of Los Angeles, the University Park Campus has grown to its present size of 261 acres. Situated three miles south of the Angeles Civic Center, the campus is adjacent to the museums and recreational facilities of Exposition Park and is served by a network of freeways that provides access to most cultural, business and recreational areas of Southern California.

The University Park Campus consists of 155 buildings and residence halls totaling approximately 8.1 million gross square feet. Some 69 additional university buildings are located off campus, in the immediate vicinity.

Health Sciences Campus
Located three miles northeast of downtown Los Angeles, the USC Health Sciences Campus is a focal point for students, patients, physicians and scientists from around the world. Here a blend of clinical, classroom and laboratory resources forms a dynamic, interactive environment that is shaping the future of health care.

The 72-acre Health Sciences Campus is home to the region’s first and oldest medical and pharmacy schools, as well as to highly respected programs in biokinesiology and physical therapy and in occupational science and occupational therapy. Medical care is provided by faculty physicians in outpatient clinics and at two university-owned hospitals — the state-of-the-art Keck Hospital of USC and USC Norris Cancer Hospital — as well as at the Doheny Eye Institute and the adjacent Los Angeles County+USC Medical Center, the primary teaching hospital for the Keck School of Medicine for more than a century. The acclaimed Children’s Hospital Los Angeles, staffed by Keck School faculty, is often referred to as USC’s third campus. Health sciences faculty, residents and students also provide services at affiliated hospitals and health-care providers throughout Southern California, and at the USC University Park Campus, a collaborative partner in numerous health sciences-related programs.

Other Locations
USC’s other teaching facilities include the Orange County Center (Irvine), State Capital Center (Sacramento) and Wrigley Marine Science Center (Catalina Island).

Orange County Center (949) 437-0000, 2300 Michelson, Irvine, CA 92612, Business, Education, Pharmacy and Social Work.

State Capital Center (916) 442-6911, 1201 J Street, Sacramento, CA 95814, Public Policy and Education.

Philip K. Wrigley Marine Science Center on Catalina Island (310) 510-1364, Wrigley Marine Science Center, P.O. Box 5009, Avalon, CA 90704.

In addition, the USC Washington, D.C., Center, located in the nation’s capital, houses the Office of Federal Relations, which serves as the liaison between the university and the federal government, and the Washington, D.C., Office of Research Advancement, which strengthens ties between the university’s investigators and federal as well as philanthropic research sponsors.

USC Washington, D.C., Center (202) 824-5860, 701 Pennsylvania Avenue, N.W., Suite 540, Washington D.C., 20004
Los Angeles was little more than a frontier town in the 1870s, when a group of public-spirited citizens with a reverence for learning first sought to establish a university in the region. Although the “city” still lacked paved streets, electric lights, telephones and a reliable fire alarm system, the effort to create an institution of higher education, led by members of the Southern California Conference of the Methodist Episcopal Church, found an enthusiastic reception among the more far-sighted residents, who were eager to advance their community.

Among the founders of USC, the prime mover was Judge Robert Maclay Widney, a leading Los Angeles businessman who had come to the area to practice law and develop real estate. It was Widney who, after 11 years, succeeded in forming the future university’s Board of Trustees and took up the challenge of securing a donation of property for the fledgling enterprise.

In 1879, three civic leaders — Ozro W. Childs, a Protestant horticulturist; former California governor John G. Downey, an Irish-Catholic businessman; and Isaia W. Hellman, a German-Jewish banker and philanthropist — deeded to the Board of Trustees 308 lots located in an area designated as “West Los Angeles,” near the intersection of today’s Vermont Avenue and Exposition Boulevard. A portion of the land was to be reserved for the actual campus, while sales of the remaining lots would create an endowment to provide the seeds of financial support for the institution. More than an act of generosity, the gift of land was an expression of assuredness about the future.

In a similar vote of confidence, not to mention a display of audacity, the Board of Trustees named the nascent institution, rather grandiosely, the University of Southern California.

The Era of the Founders (1880-1921)

On September 4, 1880 — 99 years to the day after the founding of El Pueblo de Nuestra Señora la Reina de los Ángeles — nearly a tenth of the city’s population braved the late summer heat and dust to witness the laying of the cornerstone for the university’s first building. Just days after the construction was completed, on October 6, 1880, USC opened its doors to welcome 53 students.

Marion McKinley Bovard became USC’s first president, under an initial agreement that put him in charge of the internal organization of the university as well as its educational program for a period of five years. Bovard presided over seven boom years prior to 1887 and then over an extended period of fiscal uncertainty and near collapse, until his untimely death in December 1891.

The man who took on the task of leading the university through the impending financial crisis was Joseph P. Widney, brother of Robert Maclay Widney and the first dean of USC’s medical school (founded in 1885). Widney served as president for three years, accepting no salary and paying most of his own expenses. In 1889, he stepped down from his post to resume his medical practice.

During the presidency of George W. White, USC continued to progress both financially and educationally. Although White returned to the Methodist ministry in 1899, the momentum built during his administration sustained the university throughout a four-year interregnum during which the Board of Trustees sought a suitable replacement.

George Finley Bovard, younger brother of USC’s first president, took the helm of the young university in 1903. Dedicated to keeping up with the demands of Southern California’s rapidly expanding population — which grew from 11,000 in 1880 to 319,000 in 1910 — USC began to evolve from a small, struggling institution into one of the principal seats of learning on the Pacific Coast.

While elsewhere in the country, the Carnegies, Cornells, Rockefellers, Vanderbilts and Stanfords had been heavily endowing universities during the late 19th century, USC forged ahead largely on the energies of its faculty, deans, presidents and trustees. Likewise, as challenging as the years of World War I proved to be, they demonstrated — as did the financial panic of the 1890s — that USC was vulnerable to economic cycles but nevertheless resilient in difficult times.

During the era of the founders, the forerunners to today’s schools or departments of architecture, business, dentistry, education, engineering, fine arts, journalism, law, marine biology, music, pharmacy, philosophy, religion and sociology were added to the university.

USC marked another high point when Los Angeles Times sportswriter Owen R. Bird dubbed the university’s spirited athletic teams the “Trojans” in 1912.

The von KleinSmid Years (1921-1947)

Rufus Bernhard von KleinSmid — or “Dr. Von” as he was affectionately known — became USC’s fifth president in 1921. By the end of his first decade in office, USC had attained full national accreditation, established a graduate school to unify graduate work across the university and become a large non-denominational institution. Additionally, the university implemented a number of pioneering academic initiatives.

Von KleinSmid created an extension division at USC in 1922, offering classes in locations ranging from Glendale to San Diego. In 1924, he founded the first school of international relations in the United States; in 1929, the nation’s second school of public administration was established at USC. Also in 1929, USC initiated the country’s first college-level program in cinematography. The first Ph.D. degree conferred in Southern California was awarded at USC in 1923.

Whereas the first priority of von KleinSmid’s administration was to expand professional training programs, the Great Depression arrived at decade’s end, and, once again, USC was forced to retrench. Non-essential courses were eliminated, and USC debuted the “University of the Air,” an educational outreach program broadcast on radio. Thanks to donors, von KleinSmid was able to proceed with an ambitious plan of capital expansion that added several major buildings to the campus, including Edward L. Doheny Jr. Memorial Library.

During World War II, military units took over several university buildings and the curriculum was reconfigured to include a wartime emphasis on aerospace science, geography, international relations, languages, photography and the like.

After the war, USC faced yet another challenge as the G.I. Bill brought former service-men to campus for study. Enrollment soared from 8,500 in 1945 to more than 24,000 in 1947. Von KleinSmid, now 70 years old, announced that he would step down and become chancellor of the university for life.

A Brief History
The Fagg Years (1947-1957)

Taking the helm of the university in September 1947, President Fred D. Fagg Jr. joined an institution whose facilities were stretched to the limit to accommodate what became known as the “GI Bulge.” He immediately turned his attention to easing space shortages, and in April 1948, USC dedicated some 29 buildings donated by the Federal Works Agency and relocated from Santa Ana Air Base. Fagg also initiated the construction of six new buildings, including a cafeteria and residence halls as well as classrooms and research facilities.

As support for higher education increased during the post-war years, USC entered a new, modern era that brought increased significance both nationally and internationally. Fagg hastened the process by instituting modern cost-accounting practices, establishing a development office and increasing library holdings by two-thirds. He also began a program of land acquisition, expanding the boundaries of the University Park Campus and purchasing land near the county hospital to create the Health Sciences Campus.

The Topping Years (1958-1970)

In 1958, Norman H. Topping succeeded Fagg as president of USC, embarking on one of the most dynamic periods in the university’s history. Topping established a comprehensive planning commission that produced, in May 1961, the “Master Plan for Enterprise and Excellence in Education.” This courageous and forward-looking academic blueprint set a goal of raising $106,675,000 in new funds. Although Topping predicted that it might take 20 years to accomplish this goal, it was reached and surpassed in little more than five. All told, the campaign doubled USC’s endowment and added 30 new buildings to the university’s two campuses.

The crowning achievement of the Topping years was USC’s election to the Association of American Universities, an organization today made up of 63 leading public and private universities. The AAU bases membership on general excellence, with an emphasis on graduate and research programs.

The Hubbard Years (1970-1980)

When Topping stepped down in 1970, the mantle of leadership passed to John R. Hubbard, who charted his priority as bringing USC to even higher levels of academic distinction. Toward this end, Hubbard launched the “Toward Century II” campaign, an overwhelmingly successful fund-raising effort that brought in more than $309 million.

Although American higher education in the 1970s was characterized by lowered enrollments and a drop-off in funding, USC rose to new heights during this time. Ten major buildings were begun or completed; USC’s total number of endowed chairs and professorships rose to 67; applications for admission soared from 4,100 in 1970 to more than 11,000 in 1979; and the mean grade point average for admitted freshmen rose to 3.4 on a 4.0 scale.

The Hubbard administration also brought a renewed dedication to USC’s urban community. As an outward sign of this commitment, the university’s Joint Educational Project was founded in 1972.

The Zumberge Years (1980-1991)

James H. Zumberge was inaugurated as USC’s ninth president on May 10, 1981, during a ceremony that was the capstone of a year of celebrations marking the centennial of the university.

Building on an academic planning process that began early in his tenure, Zumberge focused on strengthening undergraduate education; expanding key doctoral, research, professional and health sciences programs; and forging stronger community connections. The Zumberge years also saw USC’s highly successful participation in the 1984 Olympics.

In addition, Zumberge launched “The Campaign for USC,” which at the time was the biggest fund-raising program in the university’s history. When it concluded in June 1990, the campaign had raised $641.6 million, contributing over $188 million to USC’s endowment and boosting annual support of university programs to unprecedented levels.

USC made major strides in funding for research during the Zumberge years as well. Sponsored research grew from $71.5 million in 1981 to $174.5 million in 1990 — a 144 percent increase. Major research efforts, such as the USC-based National Center for Integrated Photonic Technology and the Southern California Earthquake Center, contributed significantly to USC’s emergence as one of the nation’s premier research universities.

Among the more than a dozen major new buildings completed during Zumberge’s tenure were the Hedco Neurosciences Building, General William Lyon University Center, the Cinematic Arts Complex, Pertussi University Bookstore and Kaprielian Hall, as well as major additions to the architecture and fine arts library and the law school building. Plans for a new teaching library also got under way.

USC’s Health Sciences Campus, too, underwent dramatic transformations during the Zumberge decade, nearly doubling in size with the acquisition of land and existing buildings from Los Angeles County. As Zumberge stepped down, the USC Norris Comprehensive Cancer Center, which opened in 1983, was in the final stages of fund-raising for a major building addition. Additionally, construction was nearing completion on Richard K. Eamer Medical Plaza, a cooperative project of the university and National Medical Enterprises that included the 284-bed USC University Hospital and USC Healthcare Consultation Center I.

The Sample Years (1991-2010)

Steven B. Sample took office as USC’s 10th president in March 1991.

Despite a first year fraught with earthquakes, riots and fiscal difficulties, he personally drafted USC’s Role and Mission Statement and set in motion a strategic planning process that identified four initiatives — undergraduate education, interdisciplinary research and education, programs building upon the resources of Southern California and Los Angeles, and internationalization — for guiding USC to new heights throughout the 1990s.

Under Sample’s leadership, the university developed a distinctive core curriculum as well as a broad array of academic and professional minors that made “breadth with depth” the hallmark of undergraduate education at USC. Thanks to these and other enhancements, USC became regarded nationally as a pacesetter in undergraduate education and enrolled some of the most academically talented freshman classes in the country.

Sample sharpened the university’s focus on improving schools and promoting safe streets in the neighborhoods immediately surrounding its two campuses. Among the flagship programs developed to meet these goals were the USC Good Neighbors Campaign, which channels faculty and staff giving into support of USC-community partnerships, and the Family of Schools, an alliance between the university and local schools that provides educational, cultural and development opportunities for neighborhood schoolchildren. This approach to community service became a national mark of distinction when the editors of Time magazine and the Princeton Review named USC “College of the Year 2000” in recognition of its ambitious social-outreach programs.

Sample also steered USC to new fund-raising heights. Under the banner of “Building on Excellence,” the university mounted a $2.85 billion fund-raising drive that concluded in 2002 as the most successful campaign in the history of American higher education. At the time, USC was the only university to have received four nine-figure gifts — $120 million from the Annenberg Foundation to create the USC Annenberg Center for Communication;
$113 million (later increased to $163 million) from Alfred Mann to establish the Mann Institute for Biomedical Engineering; $110 million from the W. M. Keck Foundation for the Keck School of Medicine of USC; and a second gift from the Annenberg Foundation of $100 million. In 2006, USC received a fifth nine-figure gift: $175 million from the Lucasfilm Foundation to endow the USC School of Cinematic Arts and construct a new building for the school.

Among the major facilities opened during the Sample administration were the Thomas and Dorothy Leavey Library, Jane Hoffman Popovich and J. Kristoffer Popovich Hall, the International Residential College at Parkside, Zilkha Neurogenetic Institute, Ronald Tutor Hall, Ray R. Irani Hall, USC Healthcare Consultation Center II, the Galen Center, the Arts and Humanities Residential College at Parkside, and the USC School of Cinematic Arts complex. Additionally, fulfilling a long-held Trojan dream, ground was broken for the Ronald Tutor Campus Center in May 2008.

Sample oversaw a dramatic gain in USC's academic prowess as well. In 1994, George Olah, director of the USC Loker Hydrocarbon Research Institute, won the Nobel Prize in chemistry. The number of National Academy members on the USC faculty more than doubled during the Sample years, and sponsored research by USC investigators rose from $183.3 million to $464 million. USC also became world-renowned in the fields of communication, multimedia technologies and the life sciences as well as in cross-disciplinary teaching and research.

Sample stepped down from the presidency of USC effective August 2, 2010, taking a yearlong sabbatical before resuming his teaching and research work as a tenured member of the faculty of the USC Viterbi School of Engineering.

A New Era: President C. L. Max Nikias (2010- )

C. L. Max Nikias became the University of Southern California’s 11th president on August 3, 2010. He is the holder of the Robert C. Packard President’s Chair and the Malcolm R. Currie Chair in Technology and the Humanities.

As president, Nikias remains committed to strengthening USC’s position as a major engine of economic, cultural and social development in the United States; as a preeminent global American university and a dynamic crossroads within an emerging Pacific era; as a top center for academic medicine; and as a world leader in innovations that are fueled by the creative encounter of a vast range of disciplines.

Toward this end, Nikias has launched the most ambitious fundraising campaign in the history of USC. The Campaign for the University of Southern California aims to raise $6 billion to advance the university’s academic priorities and expand its positive impact on the community and the world. During Nikias’ first year as president, USC received more than $1 billion in gifts—a record for any institution of higher education.

Before assuming the presidency, Nikias had served as USC’s chief academic officer since June 2005. In that role, he was credited with recruiting new academic leadership, strengthening the academic medical enterprise, attracting a series of major donations to the university, creating innovative cross-disciplinary programs and enhancing USC's globalization efforts as well as increasing support for students at the undergraduate, graduate and doctoral levels.

Nikias was instrumental in bringing the Shoah Foundation, originally established by filmmaker and USC trustee Steven Spielberg, to USC. The USC Shoah Foundation Institute’s repository of 52,000 testimonies of Holocaust survivors represents the world's largest visual archives digital library. Nikias also established the Edward R. Royal Institute for Applied Gerontology, the Stevens Institute for Innovation, the U.S.-China Institute, and the Levan Institute for Humanities and Ethics. He launched Visions and Voices, USC’s campus-wide arts and humanities initiative, as well as a grant program to advance scholarship in the humanities and social sciences. In addition, he teaches freshmen about ancient Athenian democracy and drama.

With the goal of advancing medical and biological sciences and patient care at USC, Nikias spearheaded the integration of faculty practice plans at the Keck School of Medicine of USC, oversaw the transfer of Keck Hospital of USC and USC Norris Cancer Hospital from Tenet Healthcare Corporation to the university, and recruited a new leadership team for the university’s medical enterprise. He currently chairs the USC Hospitals Governing Board.

In 2011, the university received a transformative $150 million naming gift from the W. M. Keck Foundation, a gift that unified USC's medical enterprise under the name Keck Medicine of USC. This further aligned the missions of the Keck School of Medicine and Keck Medical Center (Keck Hospital of USC, USC Norris Cancer Hospital and the university’s faculty practices).

Nikias joined the university faculty in 1991. As dean of the USC Viterbi School of Engineering from 2001 to 2005, he solidified the school’s top-tier position, oversaw the expansion of its biomedical engineering enterprise and developed its distance-learning program into one of the largest in the country. He also established key partnerships with corporations, among them Pratt and Whitney, Airbus, Boeing, Chevron and Northrop Grumman, and led a fund-raising campaign that brought in more than $250 million, including the historic $52 million school-naming gift from Andrew and Erna Viterbi.

Over his two-decade career as an active scholar, Nikias has been internationally recognized for his pioneering research on digital signal processing, digital media systems and biomedicine. He was founding director of two national research centers at USC: the NSF-funded Integrated Media Systems Center and the Department of Defense (DoD)-funded Center for Research on Applied Signal Processing. He has served as a senior consultant to a wide range of corporations and as a high-level consultant to the U.S. government, holding a security clearance for 15 years. The DoD has adopted a number of his innovations and patents in sonar, radar and communication systems.

The author of more than 275 journal articles and conference papers, three textbooks and eight patents, Nikias has mentored more than 30 Ph.D. and postdoctoral students. Three of his publications have received best papers awards. Before coming to USC, he held faculty appointments at the University of Connecticut and Northeastern University.

Nikias is a member of the National Academy of Engineering and a fellow of the Institute of Electrical and Electronics Engineers, the American Association for the Advancement of Science, and the California Council on Science and Technology. Among other honors, he has received the IEEE Simon Ramo Medal, the University at Buffalo’s Clifford C. Furnas Memorial Award, the American Hellenic Council’s Aristio Award and the USC Black Alumni Association’s Thomas Kilgore Service Award. He also received a commendation for cutting-edge research from the governor of California.

Nikias graduated with honors from Famagusta Gymnasium, a school that emphasized sciences, history and Greco-Roman classics. He received a diploma from the National Technical University of Athens (also known as National Metsovon Polytechnic, the oldest and most prestigious institution of higher education in Greece) and later earned his M.S. and Ph.D. from the State University of New York at Buffalo. He holds an honorary doctorate from the University of Cyprus.
The Student Affairs Division has as its fundamental purpose the provision of services and resources to students which will assist them in their total development: physical, social, emotional, cultural, moral and intellectual. As such, the division complements and serves the educational, research and service objectives of faculty and students by designing programs that are an extension of the academic experience. Consistent with this charge, the division has adopted the following statement that informs and guides its policies and actions regarding the USC community.

Principles of Community
The University of Southern California’s Division of Student Affairs bears a central responsibility for providing students services and resources that will assist in all aspects of their development. We further seek to foster a scholarly community in which an individual’s participation in academic dialogue will be considered on its merits — and not denigrated or disregarded based on personal characteristics or group identity. Consistent with this charge, the division has adopted the following statement of guiding principles:

USC is a multicultural community of scholars from diverse racial, ethnic and class backgrounds, national origins, religious and political beliefs, physical abilities and sexual orientations. This diversity enriches all of our activities and everyday interactions, and we strive to learn from each other in an atmosphere of positive engagement and mutual respect. As a scholarly community, we aspire to create an environment in which racism, sexism, ageism, xenophobia and homophobia do not go unchallenged.

All who work, live, study and teach in the USC community are here by choice. As part of that choice, we share a commitment to these principles as an integral part of USC’s mission.

Student Affairs Academic Support
As the university admits a student body increasingly qualified and motivated academically, Student Affairs is providing increased levels of support for the coordination of honors programs, development of residential hall study space, tutorial support, linkage of career guidance with academic advising, and involvement of faculty in student residence halls and all campus community activities. Such programs are described in the sections which follow. The thematic nature of the individual programs is captured by the guiding principle of “academic community.”

Career Center
The USC Career Center provides information and counseling to help students explore career options including internships, full-time employment and networking opportunities. The Career Center offers assistance in resume writing, interviewing techniques and sponsors such programs as the Career Fair, Internship Week, Career Fest, numerous “diversity in the workplace” events, the Global Fellows and Dream Dollars programs and the Trojan Network. In addition, the center offers comprehensive career assessments. The Career Center is located on the first floor of the Student Union Building, Room 110, and is open Monday through Friday, 8:30 a.m. to 5 p.m. For more information, call (213) 740-9111 or visit careers.usc.edu.

Job Opportunities
Through connectSC, the Career Center lists internships and job postings for USC students and alumni. The listings include part- and full-time positions, on- and off-campus opportunities, as well as Work Study positions. Students can also use connectSC to participate in on-campus recruiting. Students interested in obtaining a job or internship should access the online job listing service, available 24 hours a day, by visiting the Career Center Website and registering for connectSC at careers.usc.edu.

Center for Academic Support
The Center for Academic Support (CAS) is the location of the central resource and referral agency for learning enrichment at USC. CAS staff work with USC faculty, staff and students to complement and enhance optimal use of the educational resources of the university. The goals of this program are to facilitate independent learning, critical thinking, integrative understanding and responsible action.

CAS contributes to a collaborative approach to learning in USC’s academic community. The staff at CAS works to meet individual student needs as they relate to learning enrichment. Services available include: tutoring and assistance in learning strategies and study skills. CAS offers weekly learning enrichment workshops in goal setting, time management, study skills and concentration and memory, writing skills, test-taking anxiety and note taking. Students can also schedule private workshops for small groups. Services are free to all USC students. A list of learning enrichment workshops is available in the Schedule of Classes.

CAS is located on the third floor of the Student Union Building, Room 301, (213) 740-0776. The center’s email address is study@usc.edu. The hours are 8:30 a.m. to 5 p.m., Monday through Friday.

Cultural Centers
USC is strongly committed to enhancing the quality of life for all students attending the university. Multifaceted resources and support are available to build on the cultural diversity present in our student body. These efforts are coordinated through the cultural centers within the Division of Student Affairs. Their focus provides opportunities for cross-cultural learning experiences for all students and a broad range of support services and educational programs for students of color. The cultural centers provide academic and personal support and identity and leadership development programs to support our diverse students.

El Centro Chicano
A department within Student Affairs, El Centro Chicano (El Centro) serves as a resource center for all Latina/o and USC students. Founded in 1972, the center fosters a community of critically thinking, socially conscious Chicana/o and Latina/o leaders, providing personal, social and academic support through graduation and beyond. El Centro Chicano also provides social and cultural programming, student advocacy, assistance for Latina/o student groups, transitional/beyond USC programming and community outreach that fosters and promotes the academic and personal success of Latina/o students. In addition, they strive to educate the campus about Latina/o issues and the ethnic diversity represented within the community (i.e., Central and South America, Cuba, Dominican Republic, Mexico and Puerto Rico) by serving as a resource to the entire USC family.

Through the Latino Resource Handbook, handed out to all new Latina/o students, and the weekly El Centro E-newsletter, they inform students about information such as scholarship opportunities, internships, cultural events and student organizations that will help
improve their university experience. (See Website.) El Centro serves as headquarters for approximately 21 Chicano/Latino student organizations as well as the Latino Parent Association. All students, including commuter, transfer and graduate students, are welcome to use the student lounge, kitchenette and study room.

Programs and services offered include the Unity Through Community: Latino New Student Symposium, Latino Floors (special interest housing program for first-year students), Class Reunions (academic and personal support program), Project ReMix: Exploring the Mixed Race Generation, L.A. Power Trips, Latino Speaker Series, Latino Student Empowerment Conference, Black and Latino Overnight Experience, Latino Honor Society, La Posada: Celebrating Latin American Holiday Traditions and Giving Back, Latino Parent Association and the Chicano/Latino Graduate Celebration. Programs and services consider gender, class, religion/spirituality, bi/multilingual, continuing generations, sexual orientation, disabilities and biracial/ethnic identities.

El Centro Chicano is located on the third floor of the United University Church (UUC). For more information, contact (213) 740-1480 or visit usc.edu/elcentro.

Asian Pacific American Student Services
The Asian Pacific American Student Services (APASS) department is a multifaceted unit focused on the education, engagement and empowerment of students.

APASS has a two-fold mission: facilitating Asian Pacific American participation, dialogue, community-building and empowerment, while at the same time serving as a source of cross-cultural educational programming for the entire campus.

APASS programs include orientation, leadership development, service-learning and community immersion, career and peer mentoring, cross-cultural and educational programs, academic collaborations, and individual and collective advocacy.

APASS is located in the Student Union Building, Room 410, (213) 740-9999. For more information, email apass@usc.edu or visit usc.edu/apass.

Center for Black Cultural and Student Affairs
The mission of the Center for Black Cultural and Student Affairs (CBCSA) is to create an afro-centric, holistic learning environment for academic, social and professional development, as well as to provide civic engagement opportunities for all members of the USC community.

CBCSA meets its goal by targeting five major areas of focus: cultural and community development, leadership, professional development, retention and social enrichment. All CBCSA services and programs are initiated in accordance with the Division of Student Affairs’ five strategic initiatives.

CBCSA, the Black Student Assembly and almost 40 black student organizations partner to offer a variety of informative academic and personal development programs, social activities and cultural events. These programs and events promote academic excellence and encourage unity among students, staff, faculty and the surrounding USC community. CBCSA provides many opportunities for students to become leaders both on and off campus. It continues to make a difference by exploring the diverse spectrum of our cultural community and encouraging students to do the same.

CBCSA is located in the Student Union Building, Room 415, (213) 740-8257. For more information, email cbcsa@usc.edu or visit usc.edu/cbcsa.

International Services
The Office of International Services (OIS), located in the Student Union Building, Room 300, assists more than 7,000 non-immigrant students, scholars, faculty and staff associated with USC in achieving their educational, professional and personal objectives. In addition, academic departments and research units receive assistance from OIS in completing the immigration formalities for hiring foreign nationals for both short-term and career appointments. OIS recognizes the many benefits of international educational exchange, and promotes these benefits both within the university and throughout the local community. On campus, OIS aims to provide opportunities for interaction among international and domestic students, scholars, faculty and staff through programs and activities with an international and intercultural focus.

These programs include:

LA Today – several outings each semester to places in Los Angeles not included on the typical tourist path

English Language Program – English language instruction, field trips and social activities for spouses and scholars of the USC international community

Living in the US – a series of educational workshops given each semester that address issues of cultural adjustment and navigating life in the United States

Thanksgiving Match-up – host families invite international students into their homes to celebrate Thanksgiving and help students learn more about American culture in general

International Graduation Reception – a reception and awards ceremony for all graduating international students

For more information about any of OIS’ services or programs, refer to the Website usc.edu/ois.

Parking and Transportation
Parking
USC Transportation is committed to creating the best USC experience for all students, faculty, staff and campus guests by offering affordable and convenient parking and transportation options to the campus community. USC Transportation maintains more than 7,600 on-campus parking spaces and approximately 1,300 off-campus spaces at the University Park Campus. In addition, there are approximately 1,600 parking spaces available at the Health Sciences Campus. If driving to and from campus is not an option, USC Transportation offers numerous alternate rideshare programs, most of which are subsidized by the university. Alternate rideshare programs offered include vanpools, carpools and carpool matching through Zimride, car sharing via Zipcar rentals, and mass transit ticket sales. USC Transportation also hosts a full-service Enterprise Rental Car kiosk inside its sales office for short- and long-term rentals (including students 18 years and older). For intercampus transportation, free tram shuttles and free Campus Cruiser services are available after hours and on weekends.

For more information, contact: USC Transportation Office, 620 W. 35th Street (PSX), usc.edu/parking. UPC phone number: (213) 740-3575, HSC phone number: (323) 442-1201, Toll-free: (888) SC4-TRAN.

Recreational Sports
Recreational Sports (a.k.a. Rec Sports) welcomes the university community to participate in its extensive services and sports programs. The office provides students, faculty, staff and guests with numerous opportunities for sports and recreational activities. Rec Sports educates individuals in the meaningful use of leisure time through its various programs and services.

Recreational Facilities
The University Park Campus offers recreational facility choices including: the Lyon University Center, McDonalds Swim Stadium, Cromwell Field, Loker Track Stadium, Marks Tennis Stadium, a student tennis court complex, and the Physical Education Building, which houses an indoor swimming pool, basketball court and aerobic/dance studios.
The Lyon University Center, the largest recreational facility on campus, includes the McDonalds Swim Stadium, sauna and jacuzzi; group exercise fitness studio; the newly renovated second-floor fitness area and the Robinson Exercise Room, Klug Family fitness center (weight room); gymnasium space for basketball and volleyball, racquetball and squash courts; climbing wall; and a cardiovascular center equipped with new audiovisual equipment. The equipment includes stationary bicycles, stair climbers, elliptical machines, rowing machines, and cross training equipment. There is no fee for currently registered students. However, before they can use the facility, all students must complete a general recreational facility waiver available online at usc.edu/recsports. A summer student membership is available.

The new HSC Fitness Center is a highlight on the Health Sciences Campus. Located in the 2001 Soto Street Building, the 10,000-square-foot HSC Fitness Center houses a variety of cardiovascular and fitness equipment, weights, two group exercise rooms, restrooms, showers and day-use-only lockers.

Adjacent to the fitness center, a lighted basketball court and multipurpose area (with amphitheatre) is available for drop-in, intramural programs and reservations. The HSC Fitness Center is one of the newest additions to the university's enhancement of the quality of campus life.

Programs
The staff directs more than 100 sporting programs that attract 9,800 students, staff and faculty participants and 900 club sport members. Intramural Sports offers a wide array of activities including flag football, basketball, soccer, volleyball, racquet sports and softball. More than 56 club sports are hosted by the department, including teams such as badminton, lacrosse, soccer, golf, ice hockey, cricket, dance, ultimate Frisbee, crew, surfing and water skiing.

Services
Fitness classes and wellness programs such as group exercise, pilates mat, yoga, martial arts, personal training, health and wellness sessions, Masters Swim, and massage therapy are available. Locker rental and towel service are provided for a fee. Guests, alumni and emeriti faculty are welcome to become members of the center and participate in its programs. The Pro Shop in the Lyon Center provides limited equipment rental and sales of sports items. Outdoor Adventure Rental (OAR) is a new service that provides outdoor equipment such as tents, lanterns and sleeping bags for a rental fee.

For information regarding student employment and volunteer opportunities, guest policies, conferences, recreational services, summer youth sports programs and facility reservations, call (213) 740-5127 or visit the recreational sports Website at usc.edu/recsports.

Residential Choices
USC provides attractive residence opportunities which complement its educational objectives. The university believes that the living experiences in residential colleges and university apartments offer a desirable and important part of the total educational experience. University housing provides the setting for students, faculty and staff to come together and create an academic residential community. The goal is to combine a high degree of informal contact and a strong desire to explore the world of ideas in the development of an intellectually stimulating environment. USC recommends that students consider the advantages of these programs and live in USC Housing in one of these facilities for at least a portion of the time in which they are enrolled.

USC Housing
The goal of the university is to offer applicants housing in a variety of living alternatives. USC houses more than 6,500 students in over 45 university-owned housing facilities. Freshmen live primarily on campus in residence halls and suites. All of these buildings have been converted to residential colleges for fall 2012. Residential colleges add the additional element of faculty-in-residence, who contribute to the educational environment in housing. All rooms in USC Housing are furnished and designed to accommodate two students each. In those residential colleges that exist in traditional residence halls, bathrooms are usually communal and dining services are in close proximity. Three residential colleges exist in large suite-style buildings that bring five to eight students together in double and single occupancy rooms around shared facilities, such as bathrooms and, in some cases, small common areas. Upperclassmen and graduates reside in apartment buildings on or near campus, and the apartment-style living requires more independence. The apartment units are furnished, with most having standard kitchens, bathroom facilities and living areas. Units are designed to house two, three, four or five students per apartment, depending on the number and size of bedrooms. A limited number of furnished apartments for students with families is also available.

First-year students who apply by the freshman housing application deadline are assured of receiving university housing during their first two years at USC. There is also typically enough housing to meet the needs of most juniors and seniors, but space limitations restrict from guaranteeing the entire class housing during those years. Freshmen who apply after the deadline will be housed as space permits, but everything possible is done to provide them with university housing.

Once students are in university housing, they may continue in housing by participating in the USC Housing Renewal (UHR) process each winter. This process varies considerably from how one applies for housing as a recently admitted freshman, so it is important to follow the process and meet deadlines. Incoming fall 2012 freshmen who participate in the renewal process are guaranteed housing for their sophomore year. Selection of student housing assignments will be based on a lottery process.

Housing assignments for incoming non-freshman students for the fall semester are made throughout the summer. Assignments are made on a first-come, first-served basis and subject to space availability.

Housing Services Office
USC Housing Services is responsible for processing the housing applications for students for the academic year and summer sessions. The Housing Services Office makes assignments, issues housing contracts and assignments, and handles all billing.

New students may apply for housing once they have been admitted to the university and are urged to take advantage of the simple and convenient online application available at housing.usc.edu. Those who wish to submit a paper application will find a form on the Website that can be printed out, completed and mailed in. Applicants may request roommates on their applications; those using the online application system may take advantage of a roommate matching feature, which sorts potential roommates based on living preferences and offers them the chance to exchange email prior to formally requesting each other. Housing assignments occur based on application date, so students are encouraged to apply early.

Questions may be directed to USC Housing, Parking Structure X, (213) 740-2546 or (800) 872-4632; fax (213) 740-8488, email housing@usc.edu. Or visit the housing Website at housing.usc.edu.

Residential Education
Residential Education supervises the overall student experience through live-in staff and faculty in the USC housing system. All special-interest housing and programs that support faculty-student interaction, including residential colleges, are coordinated by this office.
Residential Colleges
USC established its first comprehensive residential college in 1987 and will open in fall 2012 with all on-campus facilities and one off-campus apartment building functioning as residential colleges. The university’s stated goal is to provide the residential college experience to all incoming freshmen.

North Residential College and New Residential College provide faculty interaction and close proximity to classrooms. Home to the wellness and cinema special interest floors, New and North house mostly freshmen.

The International Residential College at Parkside provides a venue where undergraduate students and live-in USC faculty and visiting professors come together to promote stimulating cultural and intellectual exchanges among individuals from many countries residing alongside American students. This prepares students for a future that has taken on more and more the sense of a global community.

The Arts and Humanities Residential College at Birnkran opened in fall 2011. Each year, invitations to this program are offered to USC’s trustee and presidential scholars. Diverse programming, cultural opportunities and faculty-led trips are a regular part of the Birnkran experience.

Beginning in fall 2012, Marks Tower, Pardee Tower, Marks Hall, Trojan Hall, Webb Tower and Fluor Tower will open as residential colleges. At press time, some of USC’s most prestigious faculty have submitted applications to serve as residents of these communities.

Special Interest Housing
Other residential faculty programs include Annenberg House, Honors House, Hillview, Founders and Sierra apartments, which bring together highly motivated upperclassmen and interested faculty to increase faculty-student interaction.

Programs that bring together students with a special common interest include: the Wellness Floor, SChalom (Jewish religion and culture) Housing, Great Outdoor Floors, Law Program (first year law students only), Occupational Therapy Program (majors only), Chemistry (first year Ph.D. students only), and the Muslim, Latino, African-American, Business, Women in Science and Engineering, Rainbow (LGBT), Trojan Academy honors program, Music, Arts and Architecture, Dance and Drama, Creative Writing and Cinema floors. Information on these special interest housing programs is available in the Living at USC brochure, which students receive with their acceptance packet, and the housing Website at housing.usc.edu/HousingOptions/SpecialInterest.aspx. Call Residential Education at (213) 740-2080 for details about these programs.

A supplemental application is required for acceptance into many of these programs. Supplemental applications are available online at housing.usc.edu/HousingOptions/SpecialInterest.aspx.

Contact
Residential Education is located in the Student Union, Suite 200. Call (213) 740-2080 or visit the Website at usc.edu/student-affairs/ResEd.

Fraternities and Sororities
Fraternities and sororities also offer a residential experience for student members. USC fraternity and sorority chapter houses are primarily located on or near 28th Street. “The Row.” The cost to members living in one of these houses is comparable to the cost of living in the residence halls. Those members not living in the fraternity or sorority chapter house pay dues that provide them with most membership privileges other than housing. Housing in most fraternities and sororities is limited; students who plan to participate in Rush (membership recruitment) should not plan on immediate occupancy in the house. Please note: Joining a fraternity or sorority is not sufficient reason to be released from a university housing contract. Further information regarding housing and activities in fraternities or sororities may be obtained from the Office for Fraternity and Sorority Leadership Development, Student Union Building, Room 200, (213) 740-2080, usc.edu/student-affairs/greeklife.

Family Housing
Students with families who would like university housing should apply to the Housing Services Office, Parking Structure X, (213) 740-2546. Family housing is located north of campus and has furnished one-bedroom and a very limited number of two-bedroom apartments.

Child Care
Students with families can apply to enroll their children in the Anna Bing Arnold Child Care Centers. The program operates in two sites on the Health Sciences and University Park Campuses. Programs for infants, toddlers and pre-school children are offered at both sites. University Park Campus also offers a Transitional-Kindergarten program. The focus is on personal and social growth, developing motor coordination and positive self-image and providing a good first school experience. Full- and part-time enrollment is available and a monthly fee is charged.

Student Athlete Academic Services
The SAAS program was established to provide student athletes with the academic support necessary for them to achieve their goal of a USC degree. By providing services through the Athletic Department such as general counseling, advisement and problem solving along with orientation, registration assistance, grade monitoring, study table and tutoring, SAAS helps student athletes fulfill the university’s academic expectations for them and also helps each of them to achieve their own personal academic goals.

Student Judicial Affairs and Community Standards
Procedural and advisory matters, as well as the integrity of the student conduct system, are the responsibility of the Office of Student Judicial Affairs and Community Standards.

The Office of Student Judicial Affairs and Community Standards reviews student conduct and academic integrity matters. A complete description of the student conduct system is printed in The Guide. USC’s student guidebook. Additional information can also be found on the Website at usc.edu/student-affairs/SAAGS.

Students with Disabilities
Disability Services and Programs (DSP) is dedicated to maintaining an environment that ensures all students with documented disabilities at USC equal access to its educational programs, activities and facilities. Accommodations are designed to level the playing field for students with disabilities, while maintaining the integrity and standards of each of our academic programs.

Accommodations are determined on a case-by-case basis, but some examples of typical accommodations include: assistance in providing note-takers, sign language interpreters, readers, scribes, advocacy with faculty, exam proctoring, assistance with architectural barriers, accessible seating at USC sporting events, alternative text formats, adaptive technology, referrals to community resources, support groups and other support services for individual needs that are unique to a student’s disability.

The office is located in Student Union Building, Room 301, and is open Monday through Friday; 8:30 a.m. to 5 p.m., (213) 740-0776 (voice) or email ability@usc.edu.
Kortschak Center for Learning and Creativity
The USC Kortschak Center for Learning and Creativity (KCLC) is for students who learn “differently” and wish to receive academic support. Students who have disability-related learning challenges are encouraged to use the KCLC. At the KCLC, students are paired with a learning assistant and/or tutor, have access to assistive technology, can study in a quiet environment and receive guidance to their preferred way of learning.

The KCLC is located in Student Union 311 and can be reached at (213) 740-7884 (voice), (213) 740-7952 (fax) or email kmlhcarr@usc.edu.

Student Health and Counseling Centers
At USC every effort is made to help students achieve and maintain good physical, mental and social health. The University Park Health Center (UPHC) offers direct medical care and psychological counseling, as well as prevention programs to assist students in assuming responsibility for their personal well-being. For more information, contact the center at (213) 740-8742 or consult the center’s Website (usc.edu/uhpc).

University Park Health Center Medical Services is located at 849 West 34th Street. During the fall semester, the center is open Monday, Tuesday and Thursday from 8:30 a.m. to 7 p.m.; Wednesday from 9:30 a.m. to 7 p.m.; Friday from 9:30 a.m. to 4:30 p.m.; Saturday and Sunday (urgent care only) 10 a.m. to 2 p.m. Please note that hours of operation are subject to change. All changes will be posted one week in advance. You may also call (213) 740-8742 for current hours.

The University Park Health Center will be moving in January 2013 to the new Engemann Student Health Center.

Eligibility for Services
All domestic students carrying 6 units or more during the fall and spring semesters are automatically assessed the student health fee. Students with less than 6 units may choose to purchase the health fee and receive services at the health center on their campus. All international students and Health Sciences students are automatically assessed the student health fee regardless of the number of units taken. Students enrolled in the USC student health insurance plan are required to pay the student health fee. Most services are covered by the student health fee. However, there may be moderate charges for selected services such as laboratory tests, prescriptions, orthopedic appliances, copies of X-rays and medical records. These will be explained at the time of the visit. Students may use the services of the University Park Health Center throughout the semester, as well as during breaks between academic sessions, as long as they are continuing students and are registered for the following semester.

During the summer months, students may use the services of the University Park Health Center if they are continuing students and pay the summer fee.

Note: Students enrolled in classes on the University Park Campus will receive their health care service at the University Park Student Health Center. Students enrolled in classes on the Health Sciences Campus will receive their health care service at the Eric Cohen Student Health Center on the Health Sciences Campus.

Primary Care
For the treatment of most acute illnesses and injuries, a primary care appointment can be scheduled Monday through Friday. Students can schedule appointments online at usc.edu/mydr, by calling (213) 740-2778 or in person at the University Park Health Center.

Specialty Care
Dermatology, allergy, nutrition, internal medicine, orthopedics, acupuncture, chiropractic services and physical therapy appointments are made by a referral from a primary care practitioner only. Routine gynecology appointments may be made without a referral.

Urgent and Emergency Services
For students who have an illness or injury, which requires urgent medical attention, the University Park Health Center Acute Care Clinic is open during regular clinic hours. If a student’s medical condition requires attention during the hours the University Park Health Center is closed, they may call (213) 740-9355 and follow the recorded instructions to speak with a registered nurse. In the event of a life-threatening medical emergency, on or near the USC campus, call the USC Department of Public Safety at (213) 740-4321. For off-campus emergencies, contact emergency services by dialing 911.

Auxiliary Services
A clinical laboratory and a digital radiology unit support the practitioners’ services. Students must pay any charges incurred for diagnostic tests and occasionally may be referred to outside facilities.

Prescriptions may be filled, for a charge, at the campus pharmacy located in the Student Union Building on the University Park Campus.

Office for Wellness and Health Promotion (OWHP)
The mission of the Office for Wellness and Health Promotion (OWHP) is to support USC’s University Park Campus with health promotion that advances wellness, student learning and the unique USC student experience. OWHP assesses student health behaviors, collaborates with campus partners and delivers best practice prevention initiatives.

Participation in OWHP initiatives can promote individual health and the development of a healthy and supportive campus community. OWHP offers one-on-one consultations, as well as skills-based workshops with student groups on campus, including student organizations, athletic teams, greek organizations and residence halls. On- and off-campus resources and referrals are also available. Issues addressed include stress management, healthy relationships, alcohol and other drug use, nutrition, sexual health, sleep and sexual assault prevention.

OWHP houses a resource room in the Student Health Center, Room 206, which provides a place for students to study, read, pick up safer sex supplies and other free self-care resources, check out books and pamphlets, or just sit and relax. Peer Health Educators are available to talk or answer questions. Anonymous HIV testing, with pre- and post-test counseling, is also available to USC students for a small fee.

For more information, call (213) 740-4777 or visit usc.edu/owhp.

Immunizations
The USC University Park Health Center strongly recommends that all incoming freshmen receive the meningococcal meningitis vaccination before coming to campus, or as soon as possible after arrival.

Meningococcal meningitis is a serious illness that can lead to brain damage, disability and death. College freshmen, particularly those who live in residence halls, have a modestly increased risk of getting this disease. Presently, two vaccines are available in the U.S. that provide protection against four of the five most common strains. For more information, refer to usc.edu/uhpc.

Student Counseling Services
Counseling services are available on the University Park Campus at the Student Counseling Center located in Stonier Hall, 837 Downey Way, 315.
Services are provided to help enhance students’ skills and attitudes in adapting to college life, creatively handling stresses and challenges, relating to new and different people and making their USC experience satisfying and productive. Eligible students may be seen in a group, as a couple or individually, and all personal information discussed in counseling is kept confidential.

The professional staff of the Counseling Center is an ethnically and educationally diverse group which includes psychologists, social workers and staff psychiatrists. They are highly trained and experienced in helping students successfully cope with a variety of issues and concerns that are common during their college experience. Additionally, advanced graduate interns in clinical and counseling psychology and social work trainees provide a variety of services to students.

Further information is available by calling (213) 740-7711 or by visiting the Student Counseling Services’ Website at usc.edu/counseling. For evening or weekend emergencies, please call (213) 740-7711 and follow the recorded directions for after-hour assistance.

Student Involvement
USC offers broad and diverse opportunities for student involvement and leadership development, ranging from formal and highly organized elective offices to very informal sharing of common interests and enthusiasms. For more information, visit the Website at usc.edu/studentactivities.

Undergraduate Student Government
The campus-wide Undergraduate Student Government consists of legislative, programming, judicial and executive branches, whose collective purpose is to provide comprehensive representation that fosters maximum student participation. It exists to represent the interests of the students to the administration on campus issues through an extensive programming and committee structure.

Opportunities for involvement and leadership can be found in several committees such as campus affairs, community affairs, minority affairs and academic affairs, to name a few. Offices are located in the Ronald Tutor Campus Center, room 224. Or visit the Website at uscprogramboard.com.

Recreation Club Council
The Recreation Club Council (RCC) is a collective organization of more than 50 club teams recognized by the Office of Campus Activities. The RCC provides organizational development, leadership opportunities, program coordination and administrative support by offering sport opportunities not necessarily met through existing academic, recreational, intramural or varsity programming. Club lists and additional RCC information is available online at usc.edu/recsports.

Graduate Student Government
The Graduate Student Government (GSG) is recognized as the official voice of the graduate student body. Representatives to the senate are elected by their peers according to academic departments and meet regularly to address the issues and concerns of the graduate student population. GSG allocates graduate student programming fee monies to academic-based student organizations as well as to students traveling to present papers at professional conferences. GSG appoints graduate and professional students to university committees, and maintains three funding boards to encourage cross-disciplinary programs, social and recreational activities and community service.

An executive committee oversees the daily operations of the senate and offers graduate students an opportunity to become involved in the university community outside their academic discipline. Graduate and professional students wishing to become involved should call (213) 740-5649 or visit gsg.usc.edu for more information.

Student Organizations
More than 750 clubs and organizations exist with new ones added each year. Participation affords new experiences, new friendships and the opportunity to pursue an interest to higher levels of understanding and accomplishment. These organizations address a wide range of political, academic, religious, social service and recreational interests. For more information, visit usc.edu/studentorgs.

Honor Societies
Most departments and schools have an academic organization oriented toward a specific discipline. Honor societies have a selective membership process that is usually based on one or more of the following requirements: area of study, grade point average, university involvement, leadership and community service. A comprehensive list of academic honor societies is included in USC Spectrums.

Spectrum
USC Spectrum, a program of the Division of Student Affairs, presents an annual season of the finest in arts and entertainment by nationally and internationally known attractions for the education and enjoyment of the USC community and its neighbors in Los Angeles.

Over the past 15 years, renowned performers including Yo-Yo Ma, Itzhak Perlman, Wayne Shorter, Rufus Wainwright, Andrew Bird and Esperanza Spalding, as well as distinguished guests Deepak Chopra, Tom Brokaw, Ted Turner, Sherman Alexie, David Gergen and many more, have appeared at USC, presented by USC Spectrum.

Visit usc.edu/spectrum for a list of current events and programs.

Facilities
Student programs at USC are accommodated by a number of indoor and outdoor facilities including Bovard Auditorium, Ground Zero Performance Café, academic classrooms, Hahn Plaza, Alumni Park, Founders Park, Associates Park, E.F. Hutton Park, McCarthy Quad, and the Tutor Campus Center featuring meeting rooms, a multipurpose ballroom and Tommy’s Place.

Immediately adjoining the campus is Exposition Park with its extensive complex of museums, gardens and athletic facilities. Each represents an important educational and recreational adjunct to the campus itself. The Los Angeles Coliseum is home to Trojan football, as is the Sports Arena to basketball. The grounds of Exposition Park are used by students for picnics, games and other informal events.

USC Volunteer Center (UVC)
The Volunteer Center organizes several community service projects, identifies volunteer opportunities for USC students, faculty and staff, and houses an extensive database of over 100 entries of service agencies that provide volunteer opportunities to the USC family. Programs include Jumpsstart, Friends and Neighbors Service Days, Alternative Break programs during winter and spring breaks, mentoring opportunities and more. Individuals wishing to volunteer may visit the USC Volunteer Center, Monday through Friday, Ronald Tutor Campus Center 425, from 8:30 a.m. to 5 p.m. or call (213) 740-7012. For more information, visit usc.edu/volunteer or email volunteer@usc.edu.
Student Media Organizations
A number of on-campus media facilities are operated by students, allowing them to develop their journalistic talents and air their opinions while providing a service to the campus community.

Campus Newspaper
The Daily Trojan is the official student campus newspaper. Its coverage includes campus news, editorials, sports, features about campus activities and events, an entertainment section, and letters to the editor. Published Monday through Friday, the paper is distributed free in kiosks located in various parts of the campus and in the Student Publications Office, Student Union Building, Room 404, (213) 740-2707.

USC Yearbook
El Rodeo, USC’s yearbook, highlights events of the year. Students may pre-order copies of El Rodeo during the fall semester by visiting www.uscrodeo.com. The yearbook is distributed in the late spring. The El Rodeo office is located in the Student Union Building, Room 405, (213) 740-2707.

Radio Station
KXSC Radio is the official campus student radio station broadcasting live at 1560 AM. KXSC is also available live via the Internet and can be accessed at kxsc.org. It is the student source for music, news, sports and campus information. Located in the basement of the Ronald Tutor Campus Center, the station broadcasts seven days a week. Students may work in sales, engineering, public relations and programming. Call (213) 740-1483 for music requests and additional information.

Trojan Marching Band
At 325 members strong, the Trojan Marching Band is the largest student spirit group on campus and a highly visible ambassador representing USC in the local community, the nation and the world. The band’s history dates back to 1881. Since that time, the band has developed into one of the most innovative marching bands in the country.

Nicknamed The Spirit of Troy, the band presents a new, energetic halftime show at every home football game and sends a portion of the band to each away football game — with the full band traveling annually to the Bay Area and biennially to South Bend, Indiana for the game against Notre Dame.

The Spirit of Troy is busy year-round supporting the USC athletic teams as well as appearing in movies, on television and at special events throughout the world. In 2003, the band was the first marching band from the United States to appear at the internationally televised Chinese New Year Parade in Hong Kong. The band has also performed at Super Bowls, the World Series, the World Cup and the Olympics.

The band is also frequently referred to as “Hollywood’s Band” because of its many appearances on the silver and small screens. The Spirit of Troy has appeared in such feature films as Forrest Gump and The Naked Gun and has performed at three Academy Awards telecasts, two Grammy Awards, and on Glee, American Idol, Dancing With the Stars and The Tonight Show.

The Trojan Marching Band is the only collegiate marching band to possess two platinum albums for its collaboration with the rock group Fleetwood Mac on the hit single “Tusk.” In 2010, the band also performed at the Coachella music festival with the metal group Coheed and Cambria. The Spirit of Troy has traveled to 17 countries on six continents for such events as the 50th Anniversary of D-Day in Normandy and World Expositions in Australia, Spain, Portugal, Japan and China. For more information about the Trojan Marching Band, visit its Website at uscband.com.

Travel Service
STA Travel is USC’s designated student travel agency. STA is located in University Gateway and provides a complete range of travel services to the entire USC community, particularly to the cost-conscious student consumer.

For family and friends visiting the campus for special events such as graduation, orientation and Trojan Family weekend, STA Travel offers discounted airfare rates, discounted rental cars and special rates at nearby hotels.

STA Travel is involved in developing a wide variety of travel products for students traveling, studying and/or working abroad. STA Travel works closely with USC’s Overseas Study program and can coordinate travel arrangements for those planning to study abroad.

STA Travel is the world’s largest student travel agency, operating more than 200 travel agencies on or near university campuses around the world. Visit STA Travel in University Gateway (next door to Subway) or call (213) 254-2662. STA Travel is open Monday, Tuesday, Thursday and Friday, 9 a.m.-6 p.m., and Wednesday, 10 a.m.-6 p.m. Further information is available at statravel.com.
Students are expected to be familiar with university policies and to monitor their own academic progress. They should keep all records of official grades earned, degree requirements met, transfer credits accepted and actions taken on requests for substitutions or exceptions to university policies and regulations.
Academic Calendar

Summer Session 2012
- May 14-15: Registration
- May 16: Classes Begin
- May 28: Memorial Day, University Holiday
- July 1: Thesis/Dissertation Submission
- July 4: Independence Day, University Holiday
- August 7: Classes End

Fall Semester 2012
- August 20-24: Open Registration
- August 27: Classes Begin
- September 3: Labor Day, University Holiday
- November 1: Thesis/Dissertation Submission
- November 21-24: Thanksgiving Break
- December 7: Classes End
- December 8-11: Study Days
- December 12-19: Exams
- December 20-January 13: Winter Recess

Spring Semester 2013
- January 10-11: Open Registration
- January 14: Classes Begin
- January 21: Martin Luther King Day, University Holiday
- February 18: Presidents’ Day, University Holiday
- March 18-23: Spring Recess
- April 1: Thesis/Dissertation Submission
- May 3: Classes End
- May 4-7: Study Days
- May 8-15: Exams
- May 17: Commencement

Summer Session 2013
- May 20-21: Registration
- May 22: Classes Begin
- May 27: Memorial Day, University Holiday
- July 1: Thesis/Dissertation Submission
- July 4-5: Independence Day, University Holiday
- August 13: Classes End

Fall Semester 2013
- August 19-23: Open Registration
- August 26: Classes Begin
- September 2: Labor Day, University Holiday
- November 1: Thesis/Dissertation Submission
- November 27-30: Thanksgiving Break
- December 6: Classes End
- December 7-10: Study Days
- December 11-18: Exams
- December 19-January 12: Winter Recess

Spring Semester 2014
- January 9-10: Open Registration
- January 13: Classes Begin
- January 20: Martin Luther King Day, University Holiday
- February 17: Presidents’ Day, University Holiday
- March 17-22: Spring Recess
- April 1: Thesis/Dissertation Submission
- May 2: Classes End
- May 3-6: Study Days
- May 7-14: Exams
- May 16: Commencement

Summer Session 2014
- May 19-20: Registration
- May 21: Classes Begin
- May 26: Memorial Day, University Holiday
- July 1: Thesis/Dissertation Submission
- July 4: Independence Day, University Holiday
- August 12: Classes End

Academic Calendars of the Professional Schools

Certain professional schools schedule the academic year according to differing calendars. These differences affect the deadlines for certain student actions (e.g., dropping or adding courses, registering for courses, obtaining refunds of tuition). Detailed information on these academic calendars is available from the individual schools.

**Medicine**
Consult the Office of Student Affairs, Keck School of Medicine, for the academic calendars of professional medical degree programs. The graduate programs (Master of Science and Doctor of Philosophy) as well as the Primary Care Physician Assistant Program follow the university calendar.

**Dentistry**
The academic year of the Ostrow School of Dentistry is divided into three 14-week trimesters. The graduate program in craniofacial biology follows the university calendar.

**Independent Health Professions**
Programs in occupational science and occupational therapy and biokinesiology and physical therapy follow the university calendar. However, certain programs require entrance to a post-summer session.
Publications

The USC Catalogue
The USC Catalogue is the document of authority for all students. The degree requirements listed in the USC Catalogue supersede any information that may be contained in any bulletin or viewbook of any school or department. The university reserves the right to change its policies, rules, regulations and course offerings at any time. The catalogue is distributed during Orientation, for sale at the Bookstore and is available online at usc.edu/catalogue.

Other University Publications
Bulletins and Viewbooks
The bulletins and viewbooks published by the schools provide program descriptions and information about other topics of interest to the prospective student. Publications may be obtained by contacting the individual schools.

Schedule of Classes
The Schedule of Classes lists the courses offered during any given term and provides detailed information on registration procedures. It also includes course descriptions, cross-listed courses, distance education information, course syllabi, textbook information and faculty biographies. It is available online at usc.edu/soc approximately two weeks before the registration period for each session.

SCampus
This annual publication contains both general guidebook information for students and university policies concerning student conduct, administrative procedures, and student rights and responsibilities. Students are responsible for understanding and abiding by policies contained in SCampus. SCampus may be obtained at the Undergraduate Student Government Office, Ronald Tutor Campus Center 224, or online at usc.edu/scampus.

Orientation

New Student Orientation
The university strongly recommends that all new students attend Orientation. Attending Orientation is the best way for new students to acclimate themselves to life at USC. Orientation provides students a chance to become familiar with campus, learn about student life, and register for first semester course work. In addition, new students will receive academic advisement and meet current faculty, staff and students. Program descriptions and session dates are mailed to newly admitted students in their Welcome Packet, and can also be accessed online at usc.edu/orientation.

Orientation Programs offers a variety of orientation sessions for incoming students. On-campus programs for freshman and transfer students are offered in June, July, December and January. An additional charge to cover meals, refreshments and overnight housing will apply when the Orientation session selected includes meals and/or an overnight stay. Students with financial need may receive a partial fee waiver for their Orientation reservation.

During Orientation, students learn about the university, our wide-ranging student resources and our academic programs and expectations. Students will meet with their academic advisors and plan their first semester’s schedules. Parents and family members are invited to attend Orientation to become acquainted with the university. Separate workshops, programs and lectures are offered to address the special needs and concerns of parents and family members.

International students are required to attend international student orientation, which is offered prior to the beginning of each semester. More details can be found on the Orientation Website at usc.edu/orientation. International freshman students living in Beijing, Hong Kong, Shanghai or the surrounding areas may also choose to participate in the International Kickstart programs held in May in order to meet current faculty and students and receive online academic advisement in preparation for course registration.

USC also offers a centralized graduate Orientation in August. In addition, a number of academic departments and professional schools offer orientation sessions for graduate students, in addition to those offered by Orientation Programs. Visit the Orientation Website at usc.edu/orientation for a list of department and professional school orientation sessions. Sessions are also available for graduate assistants through the Center for Excellence in Teaching (CET). For information about CET’s programs, see page 90 or visit usc.edu/cet. Email usccet@usc.edu to subscribe to the Friends of CET weekly update.

All new entering students are assessed a mandatory one-time orientation fee, payable during their first semester of enrollment, along with tuition charges and other fees. This fee covers special services, programs and publications throughout the student’s continued enrollment at USC.
Registration

Registration Procedures and Current Course Offerings
The Fall, Spring and Summer issues of the Schedule of Classes contain details describing registration procedures, including the Web registration process, courses offered, course descriptions, faculty listings, time and meeting place of classes, textbook information and course syllabi. The Schedule of Classes is available before registration each semester at usc.edu/oasis. It is recommended that students register as early as possible using Web registration to save time and avoid inconvenience. Registration appointment times and permit to register information are available to continuing students in October and March on Oasis at my.usc.edu and usc.edu/oasis. New students will receive their permits to register during their orientation sessions. Open registration for all students continues the week prior to the start of the semester.

Enrollment Status
A student is considered to be enrolled full time in a semester when the student has registered for 12 or more units as an undergraduate student, eight or more units as a master’s level student or six or more units as a doctoral level student. All graduate assistants are classified as full-time students during the semester(s) of their appointments as long as they are enrolled for the minimum units required for their assistantship. The number of courses for which a student has registered is not a basis for determining full-time enrollment status. Units taken for audit do not apply to enrollment status calculation. Other than units, there are additional circumstances that confer full-time enrollment status. These include enrollment in: 594 Master’s Thesis, 794 Doctoral Dissertation, GRSC 800 Studies for the Qualifying Examination and GRSC 810 Studies for the Master’s Examination, as well as other courses and programs as determined by the Dean of Academic Records and Registrar. Verification of student enrollment status is provided by the Office of Academic Records and Registrar (Registration Building Lobby), usc.edu/dept/ARR/verification. Third-party requests for degree and enrollment information are provided by National Student Clearinghouse, studentclearinghouse.org. Enrolled students can also obtain a verification on OASIS, usc.edu/OASIS, record ordering services.

Extra Units
A normal academic load is 16 units per semester for undergraduate students and 8 units (500-level) for graduate students. The university recommends that undergraduate students register for no more than 18 units and graduate students for no more than 16 units. Permission to enroll in more than 20 units requires written approval from the school or home department of the student’s major.

Declaration of Major
All undergraduate students must record their primary major by the start of their junior year (on completion of 64 semester units). All major and minor programs of study should be recorded three semesters before the intended graduation date. Undergraduate academic departments can also perform changes of major for their students.

Declaration of Minor
Application for a minor must be made to the department or professional school offering the minor.

Classification and Numbering of Courses
The first digit of the course number indicates the year level of the course: 000 — non-credit preparatory courses, 100 — first undergraduate year, 200 — second undergraduate year, 300 — third and fourth undergraduate years without graduate credit, 400 — third and fourth undergraduate years with graduate credit for graduate students, 500 — first graduate year, 600 — second graduate year, 700 — third graduate year.

Upper division courses (300- and 400-level courses) are generally more sophisticated and demanding. They may have prerequisites or other limitations on enrollment and are usually intended for students who have some preparation, either in the specific discipline or more generally in academic study. They tend to concentrate more narrowly and intensively in scope than lower division courses in the same discipline.

The lowercase letters ab, abcd, etc., indicate the semesters of a course more than one semester in length. In such courses the a semester is prerequisite to the b semester, and so on. Courses designated g are available for general education credit. Courses designated m for multiculturalism meet the diversity requirement. Capital L indicates that all or part of the work is supervised laboratory or other work. Courses designated x are restricted in some manner. The course description will specify the restriction. Courses designated with a z are for repeated registrations for 0 credit, for which two units of tuition are charged.

The following are not available for graduate credit: courses numbered 000-399 and 490, courses designated g (general education), Senior Seminar courses, courses designated x where the description specifically excludes graduate credit.

Unit Value
The unit value of courses is indicated for each term of the course by a numeral in parentheses after the course title. All courses are on the semester unit basis. It is the student’s responsibility to verify with the instructor that the number of units in which he or she has registered in any variable unit course is correct. If the units are incorrect, the student must correct them through Web registration or in person at the Registration building.

Repeating Courses
Ordinarily, courses may not be repeated for credit. For courses that may be repeated for credit, the maximum amount of credit is indicated after the unit value. Courses that may be repeated for credit reflect instances in which the subject matter is progressive in nature, or where special topics or directed research offerings exist, all reflecting unique course work.

Appropriate Course Enrollment
It is recommended that students register in courses appropriate to their academic standing — lower division students in courses below 300, upper division students in courses below 500, graduate students in courses numbered 500 or higher.

Preparatory Courses
Preparatory courses (course numbers below 100) impart the minimum skills required for college-level work. Students completing preparatory course work may receive unit credit toward enrollment status but do not receive degree credit.
Prerequisites
Prerequisites are courses that must be passed and/or specific background that must be demonstrated prior to advancing to the next course in a prescribed sequence of courses. Passage of appropriate examinations or consent of the academic unit offering the course will waive prerequisites. However, a prerequisite course within the same discipline taken after the higher level course has been passed will not be available for unit or grade point credit.

Corequisites
Corequisites are courses that must be taken at the same time as, or passed prior to, the designated course. Passage of the appropriate examinations or consent of the academic unit offering the course will waive corequisites. However, a corequisite course within the same discipline taken after the designated course has been passed will not be available for unit or grade point credit.

Recommended Preparation
Recommended preparation indicates course work or specific background that is advisable but not mandatory in preparing the student for the designated course.

Guaranteeing a Space in a Class
Registration in a class does not by itself guarantee a space in that class. An instructor may replace any student who without prior consent does not attend class sessions: (a) the first two class sessions of the semester, or (b) the first class session of the semester for once-a-week classes. It is then the student’s responsibility to withdraw officially from the course. Any class added, whether by Web registration or in person, after the first week of classes should receive the approval of the instructor.

Pass/No Pass Enrollment Option
During the first three weeks of the semester (or the third week equivalent for any session that is scheduled for less than 15 weeks), students may elect to take a course numbered below 500 on a Pass/No Pass basis. All graduate students should contact their academic advisors before enrolling in a graduate course on a Pass/No Pass basis. Refer to the Pass/No Pass Graded Work section, page 61 (undergraduate) or page 88 (graduate), for details on degree credit restrictions on courses taken on a Pass/No Pass basis. Students should consult their academic advisor before enrolling in any course on a Pass/No Pass basis.

In cases where a student has registered for a course on a Pass/No Pass (P/NP) basis and an academic integrity violation has occurred, a penalty letter grade may be assigned (i.e., “F”), rather than assigning a mark of Pass or No Pass.

Credit/No Credit Courses
Certain courses have been authorized by the University Committee on Curriculum to be graded Credit/No Credit. Students may not enroll in a course on a Credit/No Credit basis unless the course is listed as being offered as Credit/No Credit.

Courses Numbered 490x and 390
Many academic units offer courses numbered 490x and 390. These courses are offered on a letter-graded basis only and carry certain restrictions which are uniformly applied throughout the university.

490x Directed Research (2-8, max 8)
Courses numbered 490x are open to students who have demonstrated the ability to do independent work in the discipline. The courses require consent of the instructor and a written contract of course requirements signed by both the instructor and department chair. They are not available for graduate credit and are not open to students with less than 2.0 GPA overall or in any restricted academic status (such as probation, Structured Curriculum Program [SCP] and the like). A student may accumulate a maximum of eight units of 490x in any one department and 16 units toward the degree.

390 Special Problems (1-4, max 4)
Courses numbered 390 are available only to seniors in their last semester who are made aware of a unit shortage after the enrollment period for that semester has passed. Students notified of a unit shortage prior to the close of the enrollment period are expected to attend classes and register for regularly scheduled classes. Enrollment in a 390 class is available only by petition to the Committee on Academic Policies and Procedures (CAPP). A 390 is a supervised, individual studies course. The student and instructor must prepare a written contract of course requirements for presentation with the petition to CAPP. The petition must be recommended by the dean of the academic unit in which the student is seeking a degree. Evidence must be provided that the unit shortage was the result of circumstances beyond the student’s control. Credit for only one 390 registration is accepted toward the student’s baccalaureate degree.

Audited Courses
Students may elect to audit courses during the first three weeks of the semester (or the third week equivalent for any session that is scheduled for less than 15 weeks). A course taken for audit (V) will be assessed at the current tuition rate. A course taken for audit (V) will not receive credit and will not appear on the USC transcript or grade report. A course taken for audit is not included in enrollment for purposes of receiving financial aid.

A course taken for audit is not included in enrollment for purposes of receiving financial aid.

Limited Status Enrollment
Limited status enrollment allows persons who have not been admitted to the university to take a limited number of courses at USC.

Eligibility for Limited Status Enrollment
Students who have not yet completed a bachelor's degree are not eligible for limited status enrollment if they have been denied admission to USC or if they have been academically disqualified or suspended from any community college, college or university.

At the post-baccalaureate level, limited status enrollment is not available to students who have been denied admission to the department offering the course unless prior approval is granted by the department and the appropriate dean.

International Students
Limited status enrollment does not fulfill requirements for issuing a student visa. International students (students studying or wishing to study in the U.S. on a non-immigrant visa) must have the approval of the Office of Admission (Hubbard Hall 218A) before registering for classes.

Restrictions on Limited Status Enrollment
A pre-baccalaureate limited status student may not register for more than 16 units; a post-baccalaureate limited status student may not register for more than 12 units.

Exceptions to this policy will be considered by the Office of Admission for USC employees and for post-baccalaureate students who submit a disclaimer of intent to pursue a USC degree.

Prior approval of the department offering the course is required for all limited status enrollment. If a limited status student is subsequently admitted to regular standing, no more than the first 16 undergraduate or the first 12 graduate units taken through limited status enrollment can be applied toward a degree. In very rare situations, individual undergraduate exceptions may be approved by the dean of the degree-conferring unit. For graduate students, the rare exception must be approved by the Vice Provost for Graduate Programs.
Academic Integrity at USC

The university as an instrument of learning is predicated on the existence of an environment of integrity. As members of the academic community, faculty, students and administrative staff share the responsibility for maintaining this environment. Faculty have the primary responsibility for establishing and maintaining an atmosphere and attitude of academic integrity such that the enterprise may flourish in an open and honest way. Students share this responsibility for maintaining standards of academic performance and classroom behavior conducive to the learning process. Administrative staff are responsible for the establishment and maintenance of procedures to support and enforce those academic standards. Thus, the entire university community bears the responsibility for maintaining an environment of integrity and for confronting incidents of academic dishonesty.

Specific guidelines governing academic integrity are described in Scampus. Additional information can also be found on the Student Judicial Affairs and Community Standards Website at asu.edu/student-affairs/SJACS.

Family Educational Rights and Privacy Act

The University of Southern California maintains the privacy of student education records and allows students the right to inspect their education records as stated in the university's Student Education Records policy, consistent with the requirements of the Family Educational Rights and Privacy Act of 1974 (FERPA). The entire text of the university’s policy is located in the Office of the General Counsel, Office of the Vice President for Student Affairs and the Registrar’s Office. A summary also appears in the current edition of the student guidebook, Scampus. Additional information regarding FERPA is also available on the Registrar’s Website, uca.edu/ferpa.
Faculty and staff who request access to student academic records in order to execute their normal duties must first review the information found on the FERPA Website and complete the tutorial before access will be granted.

Students wishing to review or seeking to amend their education records should submit a written request to the university office in which the record is maintained.

At the discretion of university officials, USC may release certain information classified as directory information unless the student requests that such information not be released. A complete listing of directory information is published in Student Directory and is also found in the FERPA section of the Registrar’s Website, usc.edu/ferpa.

Students wishing to restrict release of directory information may do so by completing the appropriate form provided by the Registrar’s Office (Registration Building Lobby). Such requests remain in effect for the academic year. Students wishing only to have their information withheld from the online USC Student Directory should contact the Registrar’s Office (Registration Building).

Recognizing that many students wish to share information from their educational records with their parents and family members, USC has developed an online system that will accomplish the following:

- allow students to grant their parents access to education and medical records in one step;
- allow parents to view elements of the education records that are available in USC’s central student information system.

Students may log in to my.usc.edu and click on OASIS, USC’s Web-based student information system, and use the “Establish Guest Access” feature to grant parents permission to education and medical records. Instructions for logging into OASIS and granting access are provided on the university’s FERPA Website at usc.edu/ferpa.

Parents who wish to gain access to information from the education records of their son or daughter will not be provided the information unless the student has granted access through OASIS or has completed the appropriate release form authorizing the university to release specific information from their education records to approved individuals.

If students grant access through OASIS, parents and family members may access education records information online through the OASIS for Guests Website. For more information regarding FERPA, including forms and instructions to log in to OASIS or OASIS for Guests, parents and students should visit the university’s FERPA Website at usc.edu/ferpa.

Policy on Accommodations for Students with Disabilities

The University of Southern California is committed to full compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act (ADA). As part of the implementation of this law, the university will continue to provide reasonable accommodation for academically qualified students with disabilities so that they can participate fully in the university’s educational programs and activities. Although USC is not required by law to change the “fundamental nature or essential curricular components of its programs in order to accommodate the needs of disabled students,” the university will provide reasonable academic accommodation. It is the specific responsibility of the university administration and all faculty serving in a teaching capacity to ensure the university’s compliance with this policy.

The general definition of a student with a disability is any person who has “a physical or mental impairment which substantially limits one or more of such person’s major life activities,” and any person who has “a history of, or is regarded as having, such an impairment.” Reasonable academic and physical accommodations include but are not limited to: extended time on examinations; advance notice regarding booklists for visually impaired; note-takers and sign language interpreters; accessibility for students who use wheelchairs and those with mobility impairments; and need for special classroom furniture or special equipment in the classroom.

Procedures for Obtaining Accommodations

Students with disabilities are encouraged to contact Disability Services and Programs (DSP) prior to or during the first week of class attendance or as early in the semester as possible. The office will work with the course instructor and his or her department, and the student to arrange for reasonable accommodations. It is the student’s responsibility to provide documentation verifying disability in a timely way.

See suj.usc.edu/academicsupport/centerprograms/ dsp/home_index.html for documentation guidelines, policies and procedures.

Academic Accommodations

Students seeking academic accommodations due to a disability should make the request to the course instructor prior to or during the first week of class attendance or as early in the semester as possible. Course instructors should require that a student present verification of documentation of a disability from Disability Services and Programs if academic accommodations are requested. The USC Gould School of Law has a unit-specific policy for handling requests for academic accommodations; however, all students with disabilities should register with DSP. Refer to the Law School Student Handbook.

For assistance in how to provide reasonable accommodations for a particular disability, course instructors are encouraged to consult with the staff at DSP. Students requesting academic accommodations must have verification of disability.

Grievance Procedures

Detailed information about processing a grievance is found in the Student Grievance Procedure section of Scampus, a guidebook for USC students, and in a brochure available in the Disability Services and Programs office, STU 301.
Examinations

Final Examinations Make-up Policy
When a final examination falls at a time that conflicts with a student's observance of a holy day, faculty members must accommodate a request for an alternate examination date at a time that does not violate the student's religious creed.

A student must discuss a final examination conflict with the professor no later than two weeks prior to the scheduled examination date to arrange an acceptable alternate examination date.

Administrative Examinations
The following administrative examinations are given at USC:

Placement Examinations
Placement examinations determine the student's level of ability in order to establish the appropriate placement level in subjects such as mathematics, chemistry and foreign languages. No unit credit is available.

Placement tests are administered by the USC Center for Testing and Assessment in the following areas: mathematics, chemistry and foreign languages as well as the International Student English Examination. The tests are given for placement and/or counseling and/or subject credit (which may fulfill a required or elective subject area). They are administered on scheduled dates on the USC campus. A USC ID is required. If a non-USC ID is presented, proof of USC enrollment is required.

For additional information concerning these tests, contact the USC Center for Testing and Assessment, STU 301, (213) 740-7166, sat.usc.edu/academicsupport/ctat.

Placement in elementary and intermediate foreign language courses is made by the Foreign Language Placement Tests. Transfer courses equivalent to a USC language course fulfill the prerequisite for the next course in the sequence, but students are required to take the USC placement exam.

Transfer students may be advised (although not required) to repeat, without additional credit, a semester or semesters of instruction to qualify for the next level in the sequence if their skills are judged insufficient at the time of testing. Questions concerning foreign language placement should be directed to the chair of the appropriate Language department.

Placements in mathematics for the following classes (MATH) 040x, 108, 116, 117, 118 and 125 are determined by the test results. The placement in chemistry for CHEM 050, 102, 105a or 105 is also determined by test results.

University Writing Examination
Students who score below specified levels on certain sections of the SAT or ACT exams and students completing American Language Institute course work are required to take the University Writing Examination to determine if they must complete preparatory course work before enrolling in Writing 140. See the Writing Program section on page 487.

Equivalency Examinations
Equivalency examinations are given at the discretion of the academic unit to determine whether upper division transferred course work may be applied as subject credit to the major requirements for the degree. Passing the examination does not provide additional unit credit. Contact the appropriate academic unit for specific details.

Subject Credit by Special Examination
Special examinations for subject credit establish subject credit in a subject area in which the student is sufficiently prepared but in which no previous credit has been accepted or attempted toward the USC degree.

Students who would like to request a waiver from the normal course requirements may request that the chair of the department in which the course is offered allow them to take a special examination challenging the course for subject credit only. The fee for the examination is one half of a unit per examination.

With the permission of the dean of the academic unit in which the student is a degree candidate, the student may file a Request for Credit by Special Examination form in the Grade Department (Hubbard Hall 106). The following rules apply:

1. Credit by special examination is available to undergraduate students only.
2. No more than one special examination may be taken in a given course.
3. Special examinations will not be allowed in any course for which a student has received an unsatisfactory grade or mark on the transcript (e.g., W, UW, IN, IX, F or D) at USC or elsewhere.
4. A special examination will not be allowed if the course is a prerequisite to or sequentially precedes a course or courses that appear on a college level transcript, unless USC allows similar courses to be taken out of sequence.
5. Credit cannot be earned by special examination for the writing requirement, the first three semesters of any foreign language or Mathematics 040x.
6. Native speakers of a foreign language may challenge only literature or linguistics courses offered through the respective language department.
7. Results of all special examinations taken for subject credit only will appear on the USC transcript with a grade of "CR" (credit) or "NC" (no credit) and will not reflect unit value.
Academic Standards

Definition of Grades

The following grades are used: A – excellent; B – good; C – fair in undergraduate courses and minimum passing in courses for graduate credit; D – minimum passing in undergraduate courses; F – failed. In addition, plus and minus grades may be used, with the exceptions of A plus, F plus and F minus. The grade of F indicates that the student failed at the end of the semester or was doing failing work and stopped attending the course after the twelfth week of the semester. Minimum passing grades are D- for undergraduate credit and C for graduate credit. Additional grades include: CR – credit (passing grade for non-letter-graded courses equivalent to C- quality or better for undergraduate courses and B (3.0) quality or better for graduate courses); NC – no credit (less than the equivalent of a C for an undergraduate and A for a graduate, non-letter-graded course); P – pass (passing grade equivalent to C- quality or better for undergraduate letter-graded courses and B (3.0) quality or better for graduate courses taken on a Pass/No Pass basis); NP – no pass (less than the equivalent of a C- for an undergraduate and B (3.0) for a graduate, letter graded course taken on a Pass/No Pass basis).

The following marks are also used: W – withdrawn; IP – interim mark for a course exceeding one semester (failure to complete courses in which marks of IP [in progress] appear will be assigned grades of NC); UW – unofficial withdrawal (assigned to students who stopped attending prior to the drop deadline but failed to withdraw); MG – missing grade (an administrative mark used in cases when the instructor fails to submit a final course grade for a student); IN – incomplete (work not completed because of documented illness or some other emergency occurring after the twelfth week of the semester; arrangements for the IN and its completion should be initiated by the student and agreed to by the instructor prior to the final exam); IX – lapsed incomplete.

Grade Point Average Categories and Class Levels

A system of grade points is used to determine a student’s grade point average. Grade points are assigned to grades as follows for each unit in the credit value of a course: A, 4 points; A-, 3.7 points; B+, 3.3 points; B, 3.0 points; B-, 2.7 points; C+, 2.3 points; C, 2 points; C-, 1.7 points; D+, 1.3 points; D, 1 point; D-, 0.7 points; F, 0 points; UW, 0 points; IX, 0 points. Wherever these letter grades appear in this catalogue or other university documents, they represent the numerical equivalents listed above. Marks of CR, NC, P, NP, W, IP, MG and IN do not affect a student’s grade point average.

There are four categories of class level: Undergraduate, Graduate, Law and Other. Undergraduate comprises freshman (less than 32 units earned); sophomore (32-63.9 units earned); junior (64-95.9 units earned) and senior (at least 96 units earned). Graduate comprises any course work attempted while pursuing a master’s and/or doctoral degree. Law comprises any course work (offered by the USC Gould School of Law) attempted while pursuing a Juris Doctor or Master of Laws degree. Other comprises any course work attempted while not admitted to a degree program or course work not available for degree credit.

Grades of Incomplete (IN)

Conditions for Completing a Grade of Incomplete

If an IN is assigned as the student’s grade, the instructor will fill out the Assignment of an Incomplete (IN) and Requirements for Completion form which will specify to the student and to the department the work remaining to be done, the procedures for its completion, the grade in the course to date and the weight to be assigned to the work remaining to be done when computing the final grade. A student may complete the IN by completing only the portion of required work not finished as a result of documented illness or emergency occurring after the twelfth week of the semester. Previously graded work may not be repeated for credit.

Time Limit for Completion of an Incomplete

One calendar year is allowed to complete an IN. Individual academic units may have more stringent policies regarding these time limits. If the IN is not completed within the designated time, the course is considered “lapsed,” the grade is changed to an “IX” and will be calculated into the grade point average as 0 points. Courses offered on a Credit/No Credit basis for which a mark of Incomplete is assigned will be lapsed with a mark of NC or NP and will not be calculated into the grade point average.

Correction of Grades

A grade once reported to the Office of Academic Records and Registrar may not be changed except by request of the faculty member to the Committee on Academic Policies and Procedures (CAPP) for an extension of time for the completion of an IN. Extensions beyond the specified time are rarely approved if the student has enrolled in subsequent semesters.

In all cases, a petition for an extension of time for completion of an IN must have departmental approval and include a statement from the instructor explaining what is needed to complete the course and why the instructor feels the student should be given even further time for completion.

Missing Grades

Marks of MG must be resolved before a degree or certificate will be awarded. If a student wishes to graduate and chooses not to resolve the mark(s) of MG, the mark(s) will be defaulted to mark(s) of UW and will be calculated into the grade point average as 0 grade points.

Time Limit for Resolution of a Missing Grade

One calendar year is allowed to resolve an MG. If an MG is not resolved within one year, the grade is changed to UW and it will be calculated into the grade point average as 0 grade points. Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which an MG was not resolved within one year will be changed to a mark of NC or NP and will not be calculated into the grade point average.

Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which an MG was not resolved within one year will be changed to a mark of NC or NP and will not be calculated into the grade point average.
Disputing a Grade
The instructor’s evaluation of the performance of each individual student is the final basis for assigning grades. Through orderly appeal procedures, students have protection against prejudiced or capricious academic evaluation. See the student guidebook SCampus for details of the procedure.

Academic Dishonesty Sanctions
When a student is found responsible for a violation of the USC Student Conduct Code standards pertaining to academic dishonesty, the Vice President for Student Affairs (or designee) will inform the Office of Academic Records and Registrar. In appropriate cases, the Office of Academic Records and Registrar will post the sanction information on the student’s academic records. Disciplinary sanctions noted on student records include suspension and expulsion from the university and revocation of admission and degree. Disciplinary grade sanctions (e.g., F in course) are not distinguished on a student’s transcript from marks assigned for academic work accomplished. In cases of suspension or expulsion, the student’s registration for the current term may be cancelled with marks of “W.” More information can be found in SCampus in the University Governance section.

Repeated Course Work at USC
Under certain conditions, a student may repeat a course for grade point credit. In no case will additional unit credit be allowed for repeated courses or duplicated work. No student may repeat a course for grade point credit in which a grade of B- or better was received. A prerequisite course may not be repeated after a student has completed a course for which it is designated a prerequisite. (See prerequisites on page 33.)

Undergraduate students who want to repeat a course in which a grade of C+ or C- was received and have the subsequent grade calculated in the grade point average must petition the Committee on Academic Policies and Procedures (CAPP) for permission to do so prior to re-registering in the course. Post hoc approval will not be granted.

Graduate students may repeat a course in which a grade of C- or below was received, but both grades will be calculated in the grade point average. Graduate students who want to repeat a course in which a grade of C+ or C was received and have the subsequent grade calculated in the grade point average must petition the Committee on Academic Policies and Procedures (CAPP) for permission to do so prior to re-registering in the course. Post hoc approval will not be granted.

A special provision governs the repeat of courses by students who enter USC as first-time freshmen. These students may repeat a maximum of three courses taken during the first two semesters at USC in which grades of D+ or below (including UW and IX) were received, and only the subsequent letter grade, even if lower, will be calculated in the grade point average. The courses must be repeated at USC for a letter grade, and both courses with the grades received will appear on the transcript. The same course may be repeated no more than once for the benefit of substitution of grade. Students must notify the Degree Progress Department if they wish to utilize this provision. Students who have been assigned a grade as a result of a Student Conduct sanction may not repeat the course under this provision. Students who were admitted for spring and were first-time freshmen elsewhere in the previous fall may repeat a maximum of two courses taken during the first semester at USC in which grades of D+ or below were received with the same set of provisions stated above. An exception is the case in which a student earns a grade of C- in a course for which a grade of C or higher is required for application to major or minor requirements. In this case the subsequent grade will be calculated in the grade point average without the requirement of a petition.

Excessive Withdrawals (Marks of W)
An undergraduate student who withdraws (a mark of W) from at least 8 units in one semester or from at least 16 units overall must undergo mandatory academic advisement before the student can enroll in a subsequent semester. A restriction enforces this requirement. A student must have his or her academic adviser remove the restriction. This is a one-time requirement. Students will not be denied registration in future terms once advisement has taken place. This advisement is intended to provide students with information and guidance on the negative consequences that excessive withdrawals have on successful and timely completion of degree programs.

The Dean’s List
Any undergraduate student who earns a grade point average of 3.5 or higher on 12 units or more of letter-graded course work in any one semester is placed on the Dean’s List for that semester. Grades of IN must be removed before eligibility is determined for that semester. Academic transcripts do not carry the Dean’s List notation.

Class Rank
The University of Southern California does not calculate or support a class rank for its undergraduate students. While most graduate programs do not rank students, requests for graduate student class rankings should be directed to the dean of the particular school in which the graduate degree was earned.

Student Good Standing
Students are considered to be in good academic standing if they are eligible to register for classes. Disciplinary good standing is determined by the office of Student Judicial Affairs and Community Standards.

Probation and Disqualification of Undergraduate Students
An overall USC grade point average (GPA) of at least C (2.0) on course work taken at USC is required for completion of undergraduate degrees.

Academic Probation
A student whose overall USC GPA falls below 2.0 is placed on academic probation. Continued enrollment requires clearance from an academic review counselor. Actions such as Corrections of Grades, Completion of Incompletes, Removal of Missing Grades and Exceptions Requests will not result in academic statuses being retroactively changed.

Mandatory Advisement
A student whose overall GPA falls below 2.0 is required to seek academic advisement prior to course selection each semester. Proof of advisement must be filed with the Academic Review Department before any registration request will be processed. The Academic Review Department will only accept an official Academic Review Advisement Record form with an authorized school signature as proof of advisement. This form may be obtained in Trojan Hall 101.

Academic Disqualification
Students on academic probation who do not raise their overall GPA to 2.0 after two semesters of enrollment, exempting summer enrollment, will be academically disqualified. However, if a student earns a minimum semester GPA of 2.3 in the second or any subsequent probation semester but has not yet reached the overall 2.0 GPA, the student will not be disqualified and will be allowed to enroll for an additional semester.

Readmission after Academic Disqualification
Petitions for readmission after academic disqualification are initiated by the student through the Academic Review Department. Completion of approved course work from another institution is a requirement for petitioning for readmission. Disqualified students must meet with an academic review counselor before enrolling in courses at another institution. The counselor will provide the Readmission Pre-Approval Form on which both Academic Review and the student’s academic department must sign approval.
Before petitioning for readmission, a disqualified student must complete a minimum of 12 semester units of pre-approved, transferable course work applicable to USC degree requirements with a minimum 3.0 GPA. As readmission to the university is never guaranteed, any indication of strong academic performance beyond the 12 units required would strengthen a readmission petition. All grade issues at USC (IN, MG, etc.) must be resolved prior to submission of a readmission petition.

Students must petition for readmission by December 30 for spring semester, by May 1 for summer session and by August 15 for fall semester. Since a student’s readmission petition must be reviewed and approved by CAPP before he or she can register, under no circumstances will a petition be accepted after the deadline. A non-refundable fee of $50 must accompany the readmission petition.

Academic Warning and Dismissal of Graduate Students
Faculty advisers and departments take factors other than satisfactory grades and adequate GPAs into consideration in determining a student’s qualifications for an advanced degree. A student’s overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental decisions regarding a student’s continuation in a master’s or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress will be informed by their department or committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission. Procedures on disputed academic evaluations are described in SCampus.

Ethics Guidelines for Graduate Study
As participants in an enterprise that depends on academic freedom and integrity, faculty members and graduate students have a special obligation to promote conditions that maintain free inquiry and the highest standards of integrity. USC faculty have developed guidelines to serve as a resource for students finding their way through the often complex academic relationships of a major research university. These guidelines for ethical faculty and graduate student relations are available from the Graduate School.

Research Involving Human Subjects
Graduate student researchers are required to obtain approval from the USC Institutional Review Boards whenever research, whether funded or unfunded, involving human subjects is proposed. The Institutional Review Boards (IRBs) are fully authorized to review all proposals and projects which involve the use of human subjects. “Human subject” means a living individual about whom an investigator conducting research obtains (a) data through intervention or interaction with the individual or (b) identifiable private information. The university IRBs have been established to meet federal regulations. The IRBs are required to assure that: (1) research methods are appropriate to the objectives of the research; (2) research methods are the safest, consistent with sound research design; (3) risks are justified in terms of related benefits to the subjects; (4) subjects’ privacy is protected; (5) subjects participate willingly and knowingly to the extent possible; and (6) research projects are “monitored” by the IRBs.

Language of Instruction
English is the language of instruction at USC. All courses are taught in English with the exception of a few advanced language courses.

Exception Procedures

Exceptions to particular university regulations and degree requirements will be considered only if there is no prohibition stated in this catalogue. Where exceptions are specifically prohibited, none will be granted. A student who wants an individual exception must follow the procedure specified in this catalogue for the particular regulation or requirement. If no procedure is specified, it may still be possible to request an exception. Such exceptions, however, are rarely granted.

Requests for exception to established university academic regulations or procedures are generally heard by: (1) the Committee on Academic Policies and Procedures (CAPP); (2) the dean of the academic unit in which the student is seeking a degree; or (3) the dean or director of the office responsible for administering the policy. Requests for credit for courses taken out of sequence are heard by the dean of the academic unit offering the course that was taken out of sequence.

Students who wish to request an exception should first consult an academic adviser about the appropriate process to follow.

While the university is sensitive to the educational advantages of a flexible curriculum, it is also conscious of a responsibility to ensure equity for all students. Permission to deviate from published regulations is neither automatic nor pro forma; each request is considered on its own merits and in light of the petitioner’s complete academic record.

USC Committee on Academic Policies and Procedures
The Committee on Academic Policies and Procedures (CAPP), a representative group of faculty, students and administrators, reviews or delegates the review of most general petitions. CAPP studies the effects of university academic requirements, regulations and policies; recommends improved student academic policies and procedures; and regularizes policies and procedures so that the number of petitions can be reduced. As part of this charge, CAPP has specific responsibility for oversight and review of the University Policy on Accommodations for Students with Disabilities. CAPP also rules through Academic Petitions Committees on requests for exceptions to academic regulations and requirements printed in the University Catalogue. In most instances, the Academic Petitions Committee acts as the body with original jurisdiction, but in some cases delegates authority for approvals to another.

The assumptions and procedures which guide Academic Petition Committee actions are the following:

- The student is responsible for complying with deadlines established in the academic calendar.
- All academic work should be accurately reflected in the student’s record. The record is to be faithful to the actual experience. Cosmetic corrections or adjustments are not sanctioned.
• Care must be taken not to establish the petition process as an alternative to being held to the adopted academic requirements.
• Decisions should be focused on the academic basis for petition, rather than the consequences (real or imagined) that may face the student.
• Registration and enrollment related petitions are presented by the registrar’s staff.
• Academic petitions are presented by a representative of the student's school.
• The Committee on Academic Policies and Procedures receives reports from the degree progress department, the academic review department and the Academic Petitions Committee.
• The committee reports to the office of the president through the provost.

Registration-related Exceptions
Requests for exception to published registration procedures and enrollment deadlines are heard by the Dean of Academic Records and Registrar. Such requests are generated in the Academic Review Department, Trojan Hall 101. Requests that are not approved by the dean are referred to a CAPP panel for review. Any request to change the official registration for a semester retroactively must be submitted within 24 months of the end of the semester in question. The 24-month period starts with the last day of final examinations for the semester in question. If appropriate, the time limit can be waived by the dean of the academic unit in which the student is seeking a degree for a period not to exceed a total of five years. Deans may not request waivers of the two-year time limit rule if the course(s) in question occurred longer than five years previously.

General Education Petitions
Students may petition to waive individual general education requirements or apply one or more courses not listed in the USC Catalogue toward general education requirements. If the course or courses to be substituted was or will be taken at USC, a General Petition may be initiated in the student’s home department; if the course was taken at another institution, an Articulation Petition may be initiated at usc.edu/OASIS. See Transfer Credit on page 59.

Degree Requirement-related Exceptions
Requests for exception to specific degree requirements are generated in the academic unit. Most requests will be forwarded by the adviser to CAPP for review. Some exceptions are made by the dean of the academic unit and are recorded on the Student Academic Record System (STARS) report by the academic department, using the exception process.

The Graduate School
Requests for an exception to the policies and procedures governing Graduate School degree programs will be considered upon submission of a general petition to the Graduate School stating the specific request, supported by adequate reasons and information. The signatures and recommendations of the faculty adviser or committee chair and department chair are required.

Graduate and Professional Programs
Requests for exception to the policies and procedures governing graduate degree programs that do not fall under the jurisdiction of the Graduate School should be directed to the dean of the degree-conferring unit.
Tuition and Fees
Tuition and Fees (Estimated), Fall 2012

Tuition is payable in advance unless special arrangements are made for deferred payments as described below. Tuition is the same for resident and nonresident students. Registration is completed when the bill has been settled.

Auditors pay the regular tuition rate. Auditors are not required to participate in class exercises (discussions and examinations); they receive no grades or credit and there is no transcript notation of courses taken for audit. An instructor, dean or university officer may give permission to an individual to attend a class as a guest. Otherwise, attendance in class is limited to enrolled students.

These fees are based upon current information available at the time of publication and are subject to possible later change. The university reserves the right to change without notice any of the terms stated herein.

The number of units for which tuition is charged is indicated by the number in parentheses after the title of each course listed under Courses of Instruction.

Mandatory Fees (Estimated)

Application Fee, undergraduate (not refundable) | $70.00 |
Application Fee, graduate applicants (not refundable)* | $85.00 |
Application Fee, Marshall graduate applicants (not refundable) | $150.00 |
Commitment Deposit, freshman and transfer only (not refundable but applicable to tuition and fees) | $300.00 |
Orientation Fee | $5.00 |
New Student Orientation Publications and Programs Fee (undergraduate) | $150.00 |
New Student Orientation Publications and Programs Fee (graduate) | $35.00 |
New Student Orientation Publications Fee (graduate students in business, law, dentistry) | $5.00 |
Student Health Service, per semester (for students with load of six units or more) | $253.00 |
Summer, $17 per week, 12-week maximum | $204.00 |
Student Programming Fee, per semester (for students with load of six units or more) | $57.50 |
Student Services Fee, per semester (graduate students in business, law, dentistry) | $20.50 |
Norman H. Topping Student Aid Fund, per semester (graduate students) | $12.50 |

Student Health Insurance

Fall semester** | $516.00 |
Spring semester and summer session** | $772.00 |
Dental insurance (optional) per year** | $136.00 |
See page 45.

*Some academic programs have a higher application fee, which is noted on the application.

**Students who are registered for classes at off-campus locations (i.e., Skirball Center or Orange County) will follow a different health plan structure. Please see the 2012-2013 plan description for a listing of those rates, as well as the available dependent rates.

Special Fees (Estimated)

Parking Fee, per semester (10% city parking tax included) | $274.50 |
Dental hygiene (optional) | $85.00 |

Special Subject Examination
(one-half per-unit rate regardless
of units per course) ....................... 736.50
Transcript Fee
Official ........................................ 10.00
Academic Record Summary ................ 5.00

Late Registration and Late Settlement Fees
First week ..................................... 100.00
Second week ................................... 100.00
Third week ..................................... 100.00
Registration is not permitted after the third
week of classes.

The university currently assesses a monthly
finance charge on all past due balances. The
current annual rate is 12 percent, subject to
change.

A “returned check charge” of $25 is assessed
for a check or e-check returned by the bank
for any reason. Under California Civil Code
#1719, a returned check may create liability
for treble (three times) the amount owed, but
not less than $100.

Obligation for Payment
Request for registration constitutes a legal
financial obligation to which students will be
held liable if they do not follow the proper
procedure to change or cancel their registra-
tion through the Office of Academic Records
and Registrar. They must receive written
confirmation (the Registration Confirmation
form) to verify that their requested change
has been made.

By registering, students agree to be held
responsible for all tuition and fees, includ-
ing, but not limited to, payments denied by
the California Student Aid Commission,
student loan lenders, agencies of the United
States government, and agencies of foreign
governments.

Tuition and fees for all students, includ-
ing those whose tuition has been deferred,
become an obligation in accordance with the
provisions of the Withdrawal Refund Policy:
Tuition and fees are due, in full, by the settle-
ment deadline. Failure to make payments of
any indebtedness to the university when due,
including but not limited to tuition, deferred
tuition, housing, student loans, lab fees and
USC Card, is considered sufficient cause, until
the debt is settled with the university to
(1) bar the student from classes and examina-
tions; (2) withhold diploma, scholastic certifi-
cate or transcripts; (3) bar the student from
university housing; (4) suspend all university
services and privileges; (5) suspend the stu-
dent; (6) assign the student to a collection
agency (students who have been assigned to
an outside collection agency may be required
to pay in advance for all future registrations
and services); and (7) report the student to
a credit bureau. This policy will be equally
enforced against debts discharged through
bankruptcy.

Permission to cancel enrollment does not
constitute, nor shall it be construed as, a
waiver by the university of a student’s finan-
cial obligation. Students are still responsible
for all outstanding debts and contracts with
the university. Furthermore, a student must
not have any delinquent financial obligations
to USC at the time classes begin or his or her
registration may be revoked.

For additional information please con-
tact the Cashier’s Office, King Hall 200,
(213) 740-7471.

Methods of Payment
You may pay your bill via the Internet (using
the USCePay service on OASIS or myUSC),
by mail or in person. If you are paying by mail,
please follow the instructions on your monthly
billing statement. Be sure to mail your pay-
ment early enough for the university to receive
it by the settlement deadline.

USCePay allows you to manage your student
account online. You can pay your tuition and
fees by transferring funds from your savings
or checking account, or by charging to your
American Express, VISA, MasterCard or
Discover card. You can also print e-receipts
and view your billing statements or current
account information. In addition, you can
set up individual guest user access for par-
ents or anyone else you choose so they can
make payments on your account. For more
information or to login to your account, view
usc.edu/uscepay.

In fall and spring semesters, USC offers a
monthly payment plan. An application must
be made each term after the student has reg-
istered for classes but before the settlement
deadline.

More detailed information about student
accounts, settlement options and procedures
is available at usc.edu/life.

American Express, VISA/MasterCard and
Discover Card
You should present the credit card (and
parent’s written authorization if the card is
not in your name), as well as a valid driver’s
license. Presentation of any credit card does
not constitute payment of tuition and fees.
Authorization must be obtained from the
credit card institution in order to be posted to
the student account. Declined authorizations
are your responsibility. See Late Fees and
Billing Information.

Cashier’s Short Term Deferment
Thirty day deferments are granted for up
to $2,000 of the tuition balance. You must
take three or more units (or the equivalent)
to receive any type of deferment. There is
a non-refundable service charge of five per-
cent of the deferred amount, due at the time
the deferment is granted, in addition to the
remaining billing balance.

The number of units for which tuition is
charged is generally the same as the number
of academic units indicated after each course
in the Schedule of Classes.

However, some courses with no academic
credit require payment of tuition. Most classes
with course numbers ending in E (e.g., 594E
and 794E) require 2 units of tuition. GRSC 800
and GRSC 201 each require 1 unit of tuition.

In sessions offering different tuition rates or
mandatory fees for undergraduate and gradu-
ate students, the student’s Program of Study
(POST) will determine the tuition rate and
fees to be charged. Students with more than
one active post will be charged as undergrad-
uate students if at least one POST is design-
ated as undergraduate.

Financial Aid
Financial aid recipients will find most of their
available aid, such as scholarships, grants,
loans, and graduate assistantship tuition
awards, applied to their university account
each semester as direct credits against their
total charges. Federal and state funds, such as
the Pell Grant, SEOG Grant, Cal Grant,
Direct Stafford Loan, Direct PLUS Loan and
Perkins Loan, are applied to student accounts
no sooner than 10 days before the beginning
of the fall and spring semesters. During the
summer, federal aid is applied to student
accounts no sooner than the first day of the
earliest session of enrollment. Students must
complete all application steps and meet all
disbursement requirements before funds will
be applied to their accounts. For details, visit
usc.edu/financialaid.

Federal Work-Study awards are not reflected
as credits on the university account. Federal
Work-Study awards are earned through
employment, either on-campus or off-campus.
The student is paid by check or direct deposit
bi-weekly for hours worked and may earn up
to the amount awarded.

Billing Information
Monthly billing notifications on all active
student accounts are emailed to the student’s
official USC email address (ends in @usc.edu)
and to their designated guest users. USC
does not mail printed statements to currently
enrolled students.
In accordance with the Family Educational Rights and Privacy Act, university representatives will not disclose any specific information about a student's account to any third party (including family members) without the student's permission. Information about granting permission is available on the Student Financial Services Website's FAQs for parents and sponsors (usc.edu/sfs).

Although the university will accept payments from a third party, the student is responsible for settling all debts to the university by the appropriate deadlines.

Refund of Tuition

Tuition is refundable entirely at the discretion of the university. Refunds will be computed as of the date on which a student cancels or drops a course through the Registration Department. Request for a refund must be made to the Cashier's Office.

Full (100 percent) refunds for the regular/ general 12- to 15-week fall or spring session are made through the end of the third week of classes (the refund deadline). No refunds are issued for classes canceled after the deadline.

If you are enrolled in any other fall or spring session, or if you are enrolled in the summer, a different refund deadline may apply. See the academic department for specific information.

Students who are recipients of Title IV federal financial aid funds (Federal ACG Grant, Pell Grant, SMART Grant, SEOG, Direct Stafford Loan, Direct PLUS Loan, Perkins Loan) and who withdraw from all classes after the refund deadline, may be required to return any “unearned” Title IV federal financial aid, even if they are not entitled to a refund of tuition. Refer to Withdrawal Implications for Recipients of Financial Aid on page 56 for more information.

Tuition Refund Insurance

Elective insurance is available that provides full coverage for tuition and mandatory fees if students suffer serious illnesses or accidents that necessitate leaving the university before the semester is completed. The Tuition Refund Plan is offered through a private insurance carrier, Dewars, Inc. You must choose to accept or opt out of this plan the first time you register for each term. If you accept the plan, the charge is added to your student account. Further information is available from the Cashier’s Office, the Registration Department and at usc.edu/dept/financels/insurance. See page 56 for additional information. This insurance is not offered during the summer term.

Exit Loan Counseling

All students who borrowed a Federal Direct Stafford Loan or Federal Direct Graduate PLUS Loan must complete exit loan counseling when they cease to be enrolled at least half time. Exit loan counseling is a two-part requirement for Federal Direct Stafford and Federal Direct Graduate PLUS Loans. First, all students must complete online exit loan counseling information sessions or the exit loan counseling webinar. Information about the webinar and the schedule for in-person exit loan counseling are available online at usc.edu/financialaid at the end of each semester.

In addition, students who have borrowed a Federal Perkins Loan, Health Professions Student Loan, Loan for Disadvantaged Students, Primary Care Loan or any institutional loan, must complete an online session at usc.edu/sfs (click on Financial Counselor). Diplomas and transcripts will not be released if the student does not complete this step.

Tuition Assistance Benefits

The Tuition Assistance Benefits program provides USC tuition payments for eligible faculty and staff and their spouses or registered domestic partners and children. The amount of tuition payment varies based on who is taking the class, the type of class and the maximum number of units eligible for assistance. Tuition assistance is limited to tuition, and does not apply to any fees or books.

Tuition assistance eligibility does not guarantee the student admission to the university. The prospective student must apply for university admission through the USC Admission Office.

Only those USC classes for which a student may register and receive a registration confirmation are eligible for Tuition Assistance Benefits. Special education programs, seminars and other classes not listed in the USC Catalogue are not eligible for tuition remission.

An employee must be employed by the university in a tuition-benefits-eligible position on or before the first day of classes in the semester for which application is made. Please note that the "first day of classes" refers to the first day classes are in session for the semester, not the first day the specific class in which the student is enrolled meets. This includes the summer semester, which has different “sessions” but still has very specific semester start and end dates (see Academic Calendar). A student who receives tuition assistance is responsible for payment of a prorated amount of tuition assistance if certain changes in employment status of the employee or sponsoring employee occur during the semester. See the Tuition Assistance Benefits Policy available online at usc.edu/benefits for complete information about eligibility and requirements. General information about the tax liability for certain types of tuition assistance is included in the policy. For additional information, contact the Benefits Office on the University Park Campus. Application forms for tuition assistance may be found on the Benefits Website at usc.edu/benefits by clicking the icon “Forms” and then “Tuition Assistance Application Forms.”

Cancellations

Defined as complete withdrawal from the semester or session, cancellation refunds are computed based on the date the application to cancel enrollment is presented to the Registration Department.

Drops

Drops are defined as withdrawal from one class or part of registration. The refund schedule applies as of the date the drop is processed by the Registration Department.

This policy is enforced equally for settled and unsettled registrations.

Financing Alternatives

Tuition Prepayment Program (TPP)

This option offers individuals the opportunity to stabilize tuition costs by avoiding future tuition increases. Under this plan, the university will accept the prepayment of the student’s total USC tuition plus mandatory fees at the current tuition rate for up to the next four or five years. The student must be admitted to the university before establishing a tuition prepayment account. For further information, contact Student Financial Services, (213) 740-4077.

USC Payment Plan

The USC Payment Plan, administered by Student Financial Services, enables students and parents to pay tuition, fees and university housing and meal plan charges in monthly installments rather than in a single payment at the beginning of each semester. Payments are made over a five-month period for each semester, beginning August 1 for the fall semester and January 1 for the spring semester, and may be made by electronic transfer or credit card. There is a small application fee each semester. The student must be in good financial standing at the university.
For further information, contact Student Financial Services, (213) 740-4077. You may also access the Website at usc.edu/finaid/payplan.

Private and Federal Financing
USC participates in a number of long-term financing options that are available to all families regardless of eligibility for scholarships or financial aid. These programs can relieve students’ and families’ cash-flow restrictions and enable them to meet their expected contributions for the cost of college education. Information about loan programs is available online at usc.edu/finaid or at the USC Financial Aid Office.

Student Health Insurance
USC student health insurance plan coverage periods:
- Fall coverage: August 20, 2012 through January 13, 2013
- Spring/Summer coverage: January 14, 2013 through August 18, 2013

Premiums for the 2012-13 academic year may be obtained July 9, 2012 by visiting the University Park Health Center’s Website (usc.edu/phc) and selecting “student health insurance.” The University requires that all students have supplemental health insurance to help cover the cost of health care that cannot be obtained at the health center, especially in emergency situations where hospitalization may be required.

All domestic students carrying 6 units or more should be automatically enrolled in the USC student health insurance plan. Some class registration codes, for example Special Tuition programs, do not generate this automatic charge. All students are required to review their fee bill after registering for classes and if the automatic insurance charge does not appear, must contact the insurance office by the drop/add date to enroll in this plan if they wish to continue coverage for the semester. Domestic students carrying less than 6 units or who drop classes before the drop/add date resulting in enrollment in less than 6 units, must enroll themselves in the plan by the drop/add date if they wish to continue coverage for the semester. All international and/or health sciences students are automatically enrolled in the USC student health insurance plan regardless of the number of units in which they are enrolled. Distance Education students studying remotely must contact the USC Student Health Insurance Office for current eligibility information no later than the drop/add date at the beginning of each semester.

The USC student health insurance plan works in conjunction with the university’s student health centers. All students enrolled in the USC student health insurance plan are assessed the student health center fee and are required to access their primary care at the student health center on their campus. Referrals are required in order to see providers outside the student health centers for non-emergency situations.

Waiver Requirements
Enrollment in the USC student health plan will only be waived and the premium charge removed from the fee bill if documented proof of health coverage from another plan is presented using the online waiver application by the deadline date of September 14, 2012. In order to receive a waiver of the USC student health insurance, the insurance presented must meet all the following requirements:

Criteria:
- Must provide at least $500,000 in lifetime aggregate coverage (no per incident maximums)
- Policy must have no major exclusions – pharmacy coverage, mental health coverage and maternity coverage (female students) are required
- Must have effective dates covering the entire semester for which the waiver is requested (verification may be requested by the USC student health insurance office)
- Must have a policy year deductible of $2,500 or less
- Must pay for at least 70% of all covered expenses to providers in the Los Angeles area. Emergency coverage only in Los Angeles is not accepted for waiver.
- Maximum out-of-pocket expense on the policy (deductible plus out-of-pocket maximum) must not exceed $7,500
- Identification card or policy with student name listed and/or policy information allowing USC to confirm eligibility must be provided
- Plan documents must be in English with currency amounts converted to U.S. dollars and an insurance company contact phone number and claims address in the U.S. must be provided
- The waiver must be submitted using the online waiver request program by September 14, 2012. Log-in is through OASIS.

The waiver must be submitted using the online waiver request program by September 14, 2012. Log-in is through OASIS.

For further information, contact Student Health Insurance Office at b.well@usc.edu or call (213) 740-0551.

Veterans’ Benefits
Veterans must register with the Office of Veteran Affairs each semester in order to receive benefits. Students may expect an educational allowance based only on courses that are a legitimate part of the degree program approved for veterans. The student must notify the Office of Veteran Affairs immediately upon any change in unit load or change of major. The office is located in John Hubbard Hall 114, (213) 740-4619, (213) 821-3760 FAX. Office hours are 8:30 a.m. to 5 p.m. Monday–Friday or contact vets@usc.edu.

For more information, visit our Website at usc.edu/vets, stop by the office, or call (213) 740-4619.

Students may visit gibill.va.gov for more information regarding the GI Bill Educational Assistance.
**Naval ROTC (NROTC)**
The Department of Naval Science offers courses for all undergraduate students, although the courses are structured primarily for those who are participating in the Naval Reserve Officers Training Corps. This program eventually leads to a commission as an officer in the United States Navy or the United States Marine Corps. Most NROTC midshipmen at USC are the recipients of four-year scholarships earned through national competition while seniors in high school. These grants pay full tuition, fees, a book stipend and a $250 to $400 monthly subsistence stipend to help defray living expenses. The university also provides an additional automatic scholarship of $4,000 per year for each NROTC scholarship recipient to help pay for living expenses. Navy/Marine Corps scholarships are also available on a competition basis to students who enroll directly in the NROTC college program at the university. College program students receive no NROTC financial aid until they are selected for a scholarship. College program students who are not selected for a scholarship or who opt not to pursue one, may apply for advanced standing status during the sophomore year which makes them eligible to receive a subsistence stipend beginning in the junior year. Upon completion of the bachelor's degree, students are commissioned as Ensigns in the U.S. Navy or as Second Lieutenants in the U.S. Marine Corps, and proceed to advanced training in Navy Unrestricted Line Officer specialties including aviation, submarines, surface ships, special warfare and special operations or Marine Corps Military Occupational specialties such as aviation, infantry, intelligence, artillery, etc. For specific information, contact the Department of Naval Science at (213) 740-2663 or visit usc.edu/dept/nrotc.

**Air Force Reserve Officers’ Training Corps (AFROTC)**
AFROTC offers a variety of scholarships, many of which pay the full cost of tuition, books and fees. Successful completion of AFROTC academic classes and leadership laboratories leads to a commission as a second lieutenant in the United States Air Force. The program is open to most students pursuing a baccalaureate degree. Classes consist of one hour of academics and two hours of laboratory for freshmen and sophomores; three hours of academics and two hours of laboratory for juniors and seniors. AFROTC cadets under scholarship and all juniors and seniors receive a monthly tax-free stipend and a textbook allowance. USC also offers a matching $4,000 scholarship per year for all AFROTC scholarship recipients. For more information, contact the Department of Aerospace Studies (AFROTC) at (213) 740-2670 or visit the Physical Education building 112 or usc.edu/dept/afrotc.

**Army Reserve Officers’ Training Corps (AROTC)**
Army ROTC is one of the most demanding and successful leadership programs in the country. The training a student receives in Army ROTC teaches leadership development, military skills and career training. Courses take place both in the classroom and in the field, and are mixed with normal academic studies. Students may also attend additional summer programs, such as Airborne School. Upon completion, an Army ROTC graduate is awarded officer status as a second lieutenant in the U.S. Army. The USC Army ROTC program has a limited number of full-tuition scholarships for full-time undergraduate and graduate students. Scholarships are offered on a competitive basis to all qualified applicants and are not based on financial need. Students (cadets) will have the option of active duty, U.S. Army Reserve or National Guard duty. All cadets receive a monthly stipend ($300, $350, $450, $500) based on the cadet's academic year and a book stipend of $600 per semester. All enrolled cadets receive uniforms, military science textbooks and any other required items from the department. Students may select any major offered by the university. Prior to the completion of their degree and commissioning, students will choose from the 17 different career fields (branches) the U.S. Army has to offer. Veterans, Reservists and National Guard members and AROTC graduates qualify for advanced placement. For further information, visit the Army ROTC office located in the Physical Education building 115A, call (213) 740-1850 or visit the Website at usarmyrotc.org.
Undergraduate Education
Office of Admission and Financial Aid  
(213) 740-1111

Admission to undergraduate programs is granted by the USC Office of Admission. This office receives and processes all applications, evaluates credentials, and mails letters of acceptance to applicants who qualify for entrance. Admission to the university’s degree programs must be granted in all cases by the USC Office of Admission and the appropriate selection committees. Only a letter from the Office of Admission grants official admission.

The University of Southern California admits qualified men and women as students regardless of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran. After admission, students are accorded equal rights to participate in all university-sponsored programs and activities. The university does not discriminate on the basis of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran in the administration of its educational policies, scholarship and loan programs, athletics and other student activities.

Applicants with Disabilities

In compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act (ADA), USC offers equal access to its degree programs to academically qualified applicants with documented disabilities. Applicants will be expected to have demonstrated by their record in a college preparatory high school curriculum or in an appropriate transferable college course of study that they can perform well in a competitive academic environment. See page 24 and page 35 for a discussion of possible accommodations. USC is committed to providing reasonable accommodations to students with disabilities.

Retention of Records

Credentials submitted to the Office of Admission become the property of the university and cannot be returned to the student or duplicated for any purpose.

Application Procedures

Students submit applications online through the Common Application at commonapp.org. Alternatively, students may download the forms from the Common Application Website and submit them via mail to: Office of Admission, University of Southern California, University Park, Los Angeles, CA 90089-0911. A nonrefundable fee will be charged with the completed application, although students with financial need may request a fee waiver. For specific application deadlines and requirements, refer to usc.edu/admission or the Applying to USC brochure.

Credentials for admission must include complete records of all previous high school and college or university work and the required test scores. Consult the Applying to USC brochure for detailed information about forwarding official records directly to the Office of Admission and requesting that testing agencies forward appropriate scores.

USC does not undertake the collection of these credentials. The application for admission and complete credentials should be submitted to the Office of Admission by the appropriate deadlines.

Factors given prime consideration for admission to undergraduate study are an applicant’s previous academic success and the quality of all records presented. To ensure diversity in the composition of the student body, other considerations may include outstanding talent and abilities, extracurricular activities and letters of recommendation.

Deferring Admission

A student is accepted only for the semester and program specified in the letter of admission. If a different semester is desired or if the student cannot arrive on campus in time for the specified semester, students may defer admission for one year by submitting a USC Admission Deferral Request Form to the Admission Office. A deferral may be requested within one year of the original semester of application. (Example: A student applied for the fall 2012 semester and wishes to have admission deferred to the fall 2013 semester.) Longer gaps required for religious reasons or for compulsory military service will also be considered.

Once students have been admitted, they complete, sign and date the Admission Deferral Request Form and submit it to the Office of Admission as soon as possible. Only students who have been formally admitted to USC may request a deferral.

As a private university, USC seeks a wide geographical distribution among its student body, and evaluates its out-of-state applicants using the same criteria as those used for California residents. Tuition and fees are the same for all students, regardless of state or country of residence.

School and Department Application Requirements

Because of strong competition for admission, several schools and academic departments require supplementary application materials and may employ separate deadlines.

Leventhal School of Accounting Transfer applicants interested in accounting must first apply to business administration. A formal request to transfer to the Leventhal School of Accounting can be made once the resident accounting course(s) are successfully completed. In some cases, high school students who have demonstrated exceptional scholastic aptitude for the accounting major will be considered for admission as freshmen. For more information, write or call the USC Marshall School of Business, Office of Undergraduate Admission, Los Angeles, CA 90089-0805, (213) 740-8885, email lsso_undergrad@marshall.usc.edu or visit marshall.usc.edu/lsso.

School of Architecture (B.Arch., B.L.Arch., B.S., Architectural Studies) Transfer students should note that the core curriculum will take five years to complete. A portfolio is required of all applicants. For more information, write or call the USC School of Architecture, Los Angeles, CA 90089-0291, (213) 740-2420, email uscarch@usc.edu or visit arch.usc.edu.

Marshall School of Business Students may be admitted as incoming freshmen, as USC undergraduates transferring from another major or as students transferring from another college or university. Transfer students will be considered for admission to the Marshall School of Business once they have completed the prerequisite college writing and business calculus courses. Students should contact the
Marshall School for a detailed list of equivalent courses. For further information, write or call the USC Marshall School of Business, Office of Undergraduate Admission, Los Angeles, CA 90089-0805, (213) 740-8885, send email to busadm@marshall.usc.edu or refer to marshall.usc.edu.

School of Cinematic Arts (Animation and Digital Arts, Critical Studies, Interactive Entertainment, Production, and Writing for Screen and Television) Supplemental materials are due December 1. Transfer students applying to the writing program should note that the core curriculum takes four years to complete. For specific instructions on applications and required supplemental material, contact the USC School of Cinematic Arts, Student Affairs Office, Los Angeles, CA 90089-2211, (213) 740-2911, email admissions@cinema.usc.edu or visit cinema.usc.edu.

Ostrow School of Dentistry (Dental Hygiene) All prerequisite and general education course work must be completed prior to entering dental hygiene classes, which begin in the fall of the student's junior year. Contact the department about completing necessary courses at USC or elsewhere. Admission is for the full semester only. The supplemental application deadline is February 1.

For further information and a supplemental application, write or call the Ostrow School of Dentistry, Office of Admissions and Student Affairs, 925 West 34th Street, Room 201, Los Angeles, CA 90089-0641, (213) 740-2841 or visit usc.edu/dental.

Roski School of Fine Arts (BFA and B.A.) The Roski section of the USC Supplement to the Common Application and slide portfolios are required of all applicants to the BFA and B.A. (Studio Arts) programs. Applicants may contact the USC Roski School of Fine Arts, Watt Hall 104, Los Angeles, CA 90089-0292, (213) 740-2787, for questions about applications and required supplementary materials.

Annenberg School for Communication and Journalism (includes majors in broadcast journalism, print journalism and public relations) All applicants to Journalism and Public Relations must submit a one-page statement of intent explaining their reasons for pursuing an education and a career in journalism or public relations. Statements are read with great attention to commitment and literacy. Students whose first language is not English and whose secondary school instruction was not in English must submit TOEFL results. For more information, contact the USC Annenberg School for Communication and Journalism, Recruitment Office, Los Angeles, CA 90089-0281, (213) 821-0770, email ascadm@usc.edu or visit annenberg.usc.edu.

Thornton School of Music The deadline for all music majors (freshman and transfer) is December 1. All required supplementary materials must be received by this date. The Thornton departmental section in the USC Supplement to the Common Application is required for all majors. An audition is required for most majors. Audition requirements and dates can be found at usc.edu/music or by contacting the Thornton School of Music Office of Admission, University Park, UUC 218, Los Angeles, CA 90089-2991, (213) 740-8986. Applicants are urged to apply as early as possible.

Division of Occupational Science and Occupational Therapy Admission to the program is competitive. Students may apply as early as their freshman year, but no later than their junior year. Students should indicate their interest as soon as possible to receive proper academic advisement. Contact the division to schedule an appointment with an undergraduate adviser. For information about admission criteria, program course sequence and application procedures, visit usc.edu/ots. Alternatively, write or call the USC Division of Occupational Science and Occupational Therapy at 1540 Alcazar Street, Los Angeles, CA 90089-9083, (866) 385-4250.

School of Pharmacy The Trojan Admission Pre-Pharmacy (TAP) program is a unique program for entering freshmen: a pre-pharmacy/doctor of pharmacy curriculum that affords students continuity in their professional education. Students admitted to TAP begin their pre-pharmacy course work at USC in the freshman year and are guaranteed admission to the USC School of Pharmacy, provided they meet specified criteria. First-year applicants to TAP must submit the Common Application by the January 10 deadline. In addition, applicants must file all departmental materials with the School of Pharmacy by February 15. For more information about TAP, see page 484. All applicants should contact the School of Pharmacy for instructions at USC School of Pharmacy, 1985 Zonal Avenue, PSC 206A, Los Angeles, CA 90089-9121, (323) 442-1466 or pharmacyschool.usc.edu/programs/pretap.

Viterbi School of Engineering Applicants to engineering and computer science majors must respond to the two short-answer questions on the USC Supplement to the Common Application. For first-year applicants to all majors in engineering and computer science, four years of mathematics are required for admission consideration, preferably with calculus in progress or completed by senior year. Three years of natural sciences are also required. Transfer applicants to all majors in engineering and computer science should have completed one or more semesters of college-level calculus and meet USC admission requirements. Transfer students are encouraged to complete additional pre-engineering course work as available; visit viterbi.usc.edu/admission for a list of relevant courses. For more information, contact the Viterbi School of Engineering Admission and Student Affairs Office at (213) 740-4530 or viterbi.admission@usc.edu

School of Theatre (BFA and B.A.) All first-year and transfer applicants must complete the School of Theatre section of the USC Supplement to the Common Application. The deadline for all first-year and transfer applicants to BFA programs is December 1. B.A. applicants can apply by the regular first-year and transfer deadlines. An audition/interview is required for admission to the BFA program; applicants will be notified of the dates and locations for auditions and interviews after the departmental application is received. Additional information is available by calling (213) 740-1286 or visiting theatre.usc.edu.

Admission from Secondary Schools Prospective freshmen are evaluated on the content and rigor of their high school course work, their grades, standardized test scores, activity summary, essay, short answers and counselor/teacher recommendations. There are no absolute “cutoffs” or minimums for grades, rank in class or test scores. We are interested in the interplay of these elements as well as personal accomplishments and potential for success.

Academic Expectations The most fundamental expectation of each entering student at USC is that she or he will have completed a rigorous high school curriculum in English, mathematics, science, social studies, foreign language and the arts. We realize, of course, that individual talents, circumstances and opportunities vary greatly. Therefore, no specific curriculum is prescribed. However, we do expect that prospective students will take advantage of the highest level of classes offered to them in their secondary schools.

Grade Point Average When assessing grade point average, consideration is also given to class rank and to the strength and frequency of Advanced Placement/International Baccalaureate course work in a student’s curriculum. Naturally, we are interested in consistently strong academic performance throughout the four-year high school record. However, we realize that some bright students, for one reason or another, may encounter difficulties in ninth grade. In these cases, special attention is given to steady and substantial improvement throughout the sophomore, junior and senior years.
Standardized Test Requirement

SAT and ACT
USC requires either SAT or ACT scores (with the optional writing test) from all first-year applicants, and from transfer students who have accumulated fewer than 30 transferable semester units since finishing high school. For students who take the SAT more than once, USC records the highest scores for each section — critical reading, mathematics and writing — even if achieved in different settings. For students taking the ACT, USC will record the highest composite score.

If test information and application forms are not readily available, write to the College Board SAT Program, 901 South 42nd Street, Mount Vernon, IL 62824; or the American College Testing Program, P.O. Box 414, Iowa City, IA 52240. For the SAT, visit collegeboard.org; for the ACT visit act.org.

SAT Subject Tests
We only require SAT subject tests from freshman applicants who do not attend a regionally accredited high school, e.g., home schools, some private, parochial or even some new schools. These students must submit three SAT Subject exams, including one in mathematics, in addition to the SAT or ACT. For all other applicants, these exams are optional. We find them helpful in evaluating applications for merit scholarships.

AP Exams
Freshman applicants who have taken Advanced Placement (AP) examinations are encouraged to provide those results.

TOEFL
International freshman applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL). International freshman applicants with minimum scores of 600 on the SAT Critical Reading or a 27 on the ACT English are exempt from taking the TOEFL. The TOEFL must be taken within two years of the application date.

Credit by Examination
Students may earn a total of 32 semester units of credit toward their bachelor’s degree by examination. Advanced Placement and International Baccalaureate credit is granted at USC for exams taken before matriculation at a two-year or four-year college and will be evaluated solely according to USC’s Advanced Placement and International Baccalaureate policies.

Students who have also earned credit for college courses taken while in high school should refer to page 58.

Advanced Placement Examinations (AP)
USC grants college credit for the Advanced Placement Examinations of the Educational Testing Service. A student may be granted four semester units of credit for most AP tests with scores of four or five. For specific AP credit information call the Office of Admission, (213) 740-1111 or visit usc.edu/articulation.

International Baccalaureate
USC grants either 20 units of credit to students who earn the International Baccalaureate diploma with a score of 30 or higher, or six units for each score of 5 or higher on the IB Higher Level exams, for a maximum of four exams, whichever is higher. International Baccalaureate results should be sent directly from the International Baccalaureate Organization to: University of Southern California, Articulation Office, Los Angeles, CA 90089-0912. For more information, visit usc.edu/articulation.

Subject Credit by Special Examination
See the Subject Credit by Special Examination section (page 36) for further information.

College Level Examination Program (CLEP)
USC does not grant credit on the basis of the College Level Examination Program (CLEP).

Admission from Colleges and Universities
An applicant may be admitted by transfer from a fully accredited college, university or community college, under the following conditions: (1) if the applicant has completed 30 or more transferable college semester units with an appropriately strong grade point average in an academically rigorous selection of courses; (2) if the applicant is not under the penalty of academic or disciplinary disqualification at any college or university previously attended and is entitled to an honorable dismissal; and (3) if proof of high school graduation on a high school transcript has been provided as part of the application materials. If fewer than 30 transferable semester units have been completed at the time of application, the applicant must submit — in addition to the high school transcript — the results of the SAT or the ACT assessment.

Students intending to transfer to USC should refer to the brochure Transferring to USC for detailed information about the university’s transfer, admission and credit policies. Call the USC Office of Admission at (213) 740-1111 or visit usc.edu/transferring.

The amount of advanced standing granted to a student transferring from another institution is determined in each individual case by the Office of Academic Records and Registrar. A minimum of 64 units toward the bachelor’s degree must be earned in residence at USC. For a degree in Architecture, a minimum of 80 units must be earned in residence at USC. A maximum of 70 of the transferable units for this program may be earned at two-year colleges. For students in Engineering’s “3-2” Program, at least 48 units must be earned in residence at USC. Two-thirds of any transferable course work must be completed at one of USC’s four-year partner institutions.

It is the student’s responsibility to report all college-level course work completed outside USC to the Office of Admission when completing the application form. Omitting such information constitutes a violation of the applicant’s affidavit and may result in the revocation of admission to the university.

Records of all courses including correspondence study, extension or summer session courses taken in other institutions after the student’s admission to USC must also be filed with the Office of Academic Records and Registrar immediately following the completion of the work.
Admission of International Students

The University of Southern California has an outstanding record of commitment to international education. From a small presence during our early history, our international enrollment grew to an average of 200 students by the 1930s. After declining international enrollments in the years surrounding World War II, USC began rebuilding and in 1951 began providing specialized admission services to international students. By 1964, more than 1,000 international students were enrolled at USC.

Today, the Office of Admission serves thousands of prospective students each year by providing both general and specialized information and by maintaining the expertise necessary to evaluate academic records from the various educational systems around the world. The Office of Admission also issues the required eligibility certificates for students to enter the United States.

At USC, an international student is an individual of foreign nationality who will be entering or has already entered the United States with a student visa. However, students already residing in the U.S. and holding other non-immigrant visas (such as E2, H2 or L2) are also international students. International students do not qualify for need-based financial aid. U.S. permanent residents, naturalized U.S. citizens and U.S. citizens residing and attending school outside the United States are not considered international students and are eligible for need-based financial aid.

For complete information, see Admission of International Students, page 81.

Resident Honors Program

College Academic Services Building 200
(213) 740-2961
(800) 872-2961

Director: Pennelope Von Helmolt, Ph.D.

Each year, USC admits a small number of exceptional and highly motivated high school seniors to begin their college careers a year early as part of the Resident Honors Program. The program accepts students interested in all majors, but looks particularly for mature individuals who are ready for the challenges of a university. The typical resident honors student has a cumulative SAT score above 2100 and an “A” high school GPA.

The application process for the Resident Honors Program begins during a student’s junior year of high school. SAT scores are an important part of the application and students are encouraged to take the SAT (or the ACT) in October or November. In addition to an expanded university application, the program also requires a nomination form from the student’s high school counselor and two letters of recommendation from high school teachers (one from the student’s English teacher). The application is available online at usc.edu/rhp.

For more information, contact Pennelope Von Helmolt at (213) 740-2961 or (800) 872-2961, or vonhelm@usc.edu.

Financial Aid for Undergraduate Students

Students at USC benefit from federal, state and university financial aid programs administered by the Financial Aid Office and from scholarships, administered by the Office of Admission and various academic departments. USC also offers an interest-free monthly payment plan, a tuition pre-payment plan, and participates in long-term student and parent educational loan programs.

Although international students cannot receive financial aid, they may be eligible for scholarships offered by their schools or departments. International students should contact their departments directly for information about existing opportunities. International students may also be eligible for some private educational loans.

Application Procedures and Eligibility Requirements for Financial Aid

Detailed information, application procedures and deadlines for financial aid are available online at usc.edu/financialaid. To be eligible for federal, state and university financial aid programs students must be U.S. citizens, permanent residents or other eligible non-citizens; have a valid Social Security number; meet Selective Service registration requirements; have a high school diploma, GED or equivalent; meet Satisfactory Academic Progress requirements; and meet all other eligibility requirements. Students must also complete all application requirements by the relevant deadline(s). For most federal and state awards, a minimum of half-time enrollment is required. Full-time enrollment is required for most university awards.

Scholarships

Scholarships awarded by the Office of Admission on the basis of academic achievement, leadership, service and talent are available through the Office of Admission, most academic departments at USC, alumni groups and outside agencies and foundations. Some of these awards require a separate application. In some cases, financial need is also considered. For more information, visit usc.edu/financialaid.
Grants
The Financial Aid Office may award University Grants to eligible students who meet all financial aid application deadlines.

Federal Pell Grants and Federal Supplemental Educational Opportunity Grants (SEOG) are available for students with exceptional financial need. The SEOG is awarded only to eligible students who meet all application deadlines.

Cal Grants A and B are administered by the California Student Aid Commission. All undergraduate aid applicants who are residents of California are required to apply. Cal Grant A provides funds for partial tuition and fees. Cal Grant B recipients receive a subsistence award the first year and receive a subsistence award and tuition award in subsequent years.

Federal Work-Study
The Federal Work-Study program enables eligible students to earn part of their financial aid award through employment either on campus or with an approved off-campus employer. Only students who meet all application deadlines are considered for this program.

Federal Student and Parent Loans
Federal Perkins Loans may be awarded to eligible students who meet all application deadlines. Repayment begins nine months after the borrower ceases to be enrolled at least half time.

Subsidized and Unsubsidized Federal Direct Stafford Loans are also available to eligible students. Repayment begins six months after the borrower ceases to be enrolled at least half time.

Federal Direct Parent PLUS Loans are available to parents of dependent undergraduate students. Payments may be deferred while the student is enrolled at least half time.

Private Financing Programs
Private financing programs are available to help students and parents meet the costs of education by providing long-term financing options. Students should exhaust all federal Title IV assistance available, including Federal Pell Grants, the Federal Direct Stafford Loan and the Federal Direct Parent PLUS Loan before considering a private student loan program. The repayment terms of federal programs may be more favorable than the terms of private loan programs.

Financial Aid for a Second Bachelor's Degree
Students who are pursuing their second bachelor's degree are eligible for a limited number of financial aid programs, specifically the Subsidized and Unsubsidized Federal Direct Stafford Loan programs. Parents of dependent students may also borrow Federal Direct Parent PLUS Loans.

Financial Aid for Enrollment in a Progressive Degree Program
In most cases, students admitted to a progressive degree program will be classified as undergraduate students for financial aid and registration purposes during the first eight semesters of college enrollment, regardless of whether they enroll in undergraduate or graduate courses. Beginning in the ninth semester, students will be considered graduate students for financial aid and registration purposes and are ineligible for undergraduate financial aid. Students are immediately classified as graduate students and are ineligible for undergraduate financial aid once all undergraduate degree requirements have been completed or the undergraduate degree is posted, even if they have completed fewer than eight semesters. For this reason, financial aid applicants may wish to schedule their courses such that undergraduate degree requirements are not completed prior to the eighth semester and the exhaustion of their undergraduate financial aid eligibility. Students who receive a research assistant or a teaching assistant award before completing eight semesters will be classified as graduate students and will be ineligible to receive undergraduate financial aid.

Financial Aid for Limited Status Enrollment
Students not admitted to a degree-seeking program who enroll as limited status students are not eligible for federal, state or university financial aid unless they meet one of the exceptions noted below.

Financial Aid Consortium Agreements
Students admitted to a degree-seeking or eligible certificate program at USC who enroll at another eligible institution in courses applicable to their USC degree or certificate may have those courses considered in USC's determination of their eligibility for limited federal financial aid. The student's total USC and/or non-USC enrollment must be at least half-time and a financial Aid Consortium Agreement must be completed. Contact the Financial Aid Office for more information.

Visiting students enrolled at USC as limited-status students may be eligible for limited federal financial aid through a Financial Aid Consortium Agreement if: 1) they are admitted to a degree-seeking or eligible certificate program at their home school; 2) their USC courses apply to their degree or certificate; and 3) their total USC and/or non-USC enrollment is at least half-time. Contact the Financial Aid Office for more information.

Financial Aid for Students Enrolled in Preparatory Course Work
Students enrolled at least half-time in undergraduate courses required for admission to a degree program may be eligible for limited Federal Direct Stafford Loan program funds. For more information, contact the Financial Aid Office.

Satisfactory Academic Progress

Purpose of Satisfactory Academic Progress Regulations
To be eligible for federal, state and university aid, students are required by the U.S. Department of Education and the state of California to maintain satisfactory academic progress toward their degree objectives. In compliance with prescribed regulations, USC has established guidelines designed to promote timely advancement toward a specific degree objective.

The following guidelines provide academic progress criteria for all students receiving financial aid at USC. Although the requirements for students receiving financial aid are somewhat more restrictive than for the general student population, they are based on reasonable expectations of academic progress toward a degree. Accordingly, these guidelines should not be a hindrance to any student in good academic standing.

The Financial Aid Office may change these policies at any time to ensure continued compliance with changes in federal and state regulations regarding student financial aid. As a result, students must refer to the current catalogue regulations. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.
Financial Aid Programs Subject to Satisfactory Academic Progress

Academic progress criteria apply both to recipients of financial aid programs created under Title IV regulations of the Higher Education Act of 1965, as amended, as well as to recipients of those other programs used by the USC Financial Aid Office to provide students with financial assistance. Specifically included are the Federal Pell Grant, Federal ACG Grant, Federal SMART Grant, Federal Supplemental Educational Opportunity Grant, Federal Perkins Loan program, and Federal Work-Study programs. These standards of satisfactory academic progress also apply to students maintaining eligibility for Federal Direct Stafford Loans and for Federal Direct Parent PLUS Loans. Satisfactory academic progress standards also apply to students receiving state-supported grants, either within or outside California; to students receiving agency-sponsored assistance; and to students participating in all scholarship, grant, loan or employment programs provided through university funds.

Recipients of tuition assistance benefits and departmental awards who are not receiving any other federal, state or university funds are not bound by these guidelines.

Definition of Satisfactory Academic Progress (SAP)

At USC, satisfactory academic progress is defined by the following three criteria:

(1) Meeting a minimum grade point average requirement.

(2) Earning a minimum number of units for credit per semester (yearly progress).

(3) Completing the degree objective within a maximum number of semesters enrolled and a maximum number of attempted units (maximum time allowance).

Grade Point Average Requirement

To maintain satisfactory academic progress, students must meet the grade point average requirements for continued enrollment at USC, as stated in the Academic Standards and the Requirements for Graduation sections of this catalogue.

Yearly Progress Requirement

To maintain satisfactory progress, undergraduate students must complete a minimum number of units for credit each semester as illustrated in the following table:

<table>
<thead>
<tr>

</table>

Students pursuing a five-year, single-degree program or enrolled in a program of study leading to two diplomas will be eligible to receive financial aid for a maximum of 176 attempted units or 11 SAP semesters, whatever comes first. Students will not receive funding for more than one undergraduate degree program if they lose eligibility for financial aid due to insufficient progress or grade point average, then regain eligibility on a probationary basis as a result of an approved appeal. For these students, no allowances will be made to maximum semesters or units to support the addition of a second major or a minor program of study.

The following guidelines have been established for students who change majors and for students pursuing a second bachelor’s degree.

Students Who Change Majors

If a continuing USC student changes from one major to another, a one-time-only reevaluation of the student’s unit and semester allowances is made. The student, together with his or her academic adviser, must complete a Satisfactory Academic Progress Appeal form and submit it to the Financial Aid Office. The maximum increase that will be made for any student is 16 units and one semester.

Students Who Declare Minors

If a USC student declares or changes a minor program of study, no adjustment will be made to the student’s unit and semester allowances. Minors must be completed within the same time frame as the student’s major program(s) of study.

Students Pursuing a Second Bachelor’s Degree

Students pursuing a second bachelor’s degree are eligible for a limited number of financial aid programs. Refer to the Financial Aid for a Second Bachelor’s Degree section of this catalogue. Students seeking financial aid for a second bachelor’s degree are monitored for satisfactory academic progress based on the following:

(1) Students who have received their first bachelor’s degree from another institution will be granted a maximum of 64 additional units or five semesters, whichever comes first, to complete their second bachelor’s degree at USC.

(2) Students who have received their first bachelor’s degree from USC will be granted a maximum of 44 additional units or four semesters, whichever comes first, to complete their second bachelor’s degree at USC.
(3) The maximum unit and semester allowances for a second bachelor's degree may be reconsidered if additional units are required for completion of a specific program of study. The student, together with his or her academic adviser, must complete a Satisfactory Academic Progress Appeal form and submit it to the USC Financial Aid Office.

**How Satisfactory Academic Progress is Monitored**

Satisfactory academic progress is monitored for all students at the end of each enrolled semester. The Office of Academic Review monitors the minimum grade point average requirement as well as declarations of primary majors by the completion of 64 units. The Financial Aid Office monitors yearly progress and the maximum time allowance.

The following guidelines have been established for treatment of non-credit grades, repeated course work, transfer course work and summer course work.

**Incomplete, Withdrawals, Repetitions, Remedial Work and Other Non-credit Grades**

Students should be aware that academic units given grades of W, UW, IN, F, IX, MG, NC, NR, NP and V do not apply toward a degree. Students should therefore exclude from their calculations of completed SAP units any classes in which they received these grades. Units awarded these grades will be counted toward the maximum time allowance. Please refer to the Academic Standards section of this catalogue (page 37) for a detailed definition of these grades.

Students required to complete remedial work (Chemistry 040, Math 040, Physics 040, Composition 040, English 075) may apply up to 10 units of course work toward yearly progress unit requirements. These units are only counted for satisfactory academic progress (SAP) purposes and will not count toward graduation. Remedial course work will be counted toward the maximum time allowance. Semester and unit allowances will not be increased for students enrolled in remedial course work.

**Repeated Course Work**

All repeated course work counts toward the student’s maximum time allowance. The maximum unit and semester allowances for repeated course work may be reconsidered if repeated course work is necessary for basic degree completion. The student, together with his or her academic adviser, must complete a Satisfactory Academic Progress Appeal form and submit it to the USC Financial Aid Office. Regular funding may not be available for repeated course work.

Course Work Completed Prior to Matriculation at USC

Students with a significant number of prior college credits are encouraged to contact the Financial Aid Office early in their academic career. All AP units taken prior to matriculation at USC will count toward the student's satisfactory academic progress (SAP) cumulative maximum unit allowance, but will not count toward the semester allowance.

All other non-USC college credits taken prior to matriculation at USC will count toward both the student’s SAP cumulative maximum unit and semester allowances. The non-AP transfer units are divided by 14 to calculate the number of SAP semesters the student completed prior to enrollment at USC. These numbers, subtracted from the student’s maximum SAP unit and semester allowances, determine the number of units and semesters the student has remaining. This, in turn, determines the number of units required per term to maintain satisfactory academic progress. (Refer to the table in the Yearly Progress Requirement section.)

**Summer Course Work**

One hundred percent of units attempted at USC during the summer session will count toward the student’s cumulative maximum unit allowance, and the term will count as an SAP semester. Transferable summer classes taken outside of USC are treated in the same way. Transferable summer classes will not improve a student’s USC grade point average; only summer courses taken at USC can be used to improve the USC grade point average. Students are encouraged to consult with the Financial Aid Office regarding funding options prior to enrolling at USC for the summer, as regular funding is generally not available. Students are also encouraged to consult with their academic adviser regarding allowable transfer summer work prior to enrolling outside USC.

**Classes Taken Outside of USC by a Continuing Student**

One hundred percent of session work accepted by USC for a continuing student will count toward the student’s cumulative maximum unit and semester allowances. See page 60 for residence requirements for courses taken in fall and spring semesters.

**Failure to Maintain Satisfactory Academic Progress**

The Financial Aid Office will evaluate Satisfactory Academic Progress at the end of every enrolled semester. Students who do not meet satisfactory academic progress requirements are notified, via email at their USC email address, by the Financial Aid Office. Students who have reached the maximum time allowance are ineligible for further financial aid. Students who are academically disqualified from the university are ineligible for further financial aid. Students who do not meet the yearly progress requirement are placed on a one-time, one-semester financial aid warning period. Students who are placed on academic probation will also be placed on a one-time, one-semester financial aid warning period.

**Financial Aid Warning Period**

Students on academic probation for GPA or those who do not meet the yearly progress requirement will be placed on a one-time, one-semester financial aid warning period. Students may continue to receive financial aid while in their one-semester warning period. Students who are placed on the financial aid warning period are encouraged to seek both academic and financial aid advisement. By the end of the financial aid one-semester warning period, the student must meet all satisfactory academic progress requirements. If, at the end of the one-semester warning period, the student does not meet the minimum requirements, he or she will no longer be considered to be making satisfactory academic progress and will become ineligible for financial aid. Students will be allowed only one, one-semester warning period during the course of their enrollment. Students in their one-semester warning period who receive grades of D, W, UW, IN, F, IX, MG, NC, NR, NP and V will no longer be considered to be making satisfactory academic progress and will become ineligible for financial aid. Students who subsequently fall below the standard will be considered ineligible for financial aid.

**Regaining Financial Aid Eligibility**

Students who have lost eligibility for financial aid due to insufficient GPA or lack of yearly progress can be reinstated by successfully completing sufficient units or bringing their GPA up to meet the accepted standards. The student must notify the Financial Aid Office once the requirements have been met.

Maximum time limitations may be appealed if there is an increased unit requirement for completion of a specific program, or if the student is pursuing a double major. Maximum time limitations will not be increased for a student pursuing a minor. The student and the academic adviser must submit a Satisfactory Academic Progress Appeal form along with supporting documentation to the Financial Aid Office. Students who have changed majors may also request a maximum time extension, explained in the Students Who Change Majors section on page 53.
Students may appeal the determination that they are not meeting satisfactory academic progress requirements. The following can be considered: extended illness; one-time extenuating circumstances that have since been resolved; and enrollment limitations due to academic advisement. The student and the academic adviser must submit a Satisfactory Academic Progress Appeal form with complete supporting documentation to the Financial Aid Office. The student must also provide a letter that includes the following information/explanation: (a) What caused the work at USC to fall below acceptable standards? Students should be specific. (b) How have those conflicts been resolved? (c) How does the student intend to maintain good academic standards and progress toward his or her degree if the appeal is granted?

The appeal will be evaluated and the student will be notified of the decision. Appeal for insufficient progress and/or GPA are approved through the use of a semester-by-semester SAP Contract. Students placed on an SAP Contract are eligible for financial aid strictly according to the terms of the contract. The SAP Contract is a written agreement between the student, the academic adviser and the Financial Aid Office, in which the student commits to following a specific academic plan. Reinstated eligibility through a contract can alter the quantity and quality of the financial aid for which a student is eligible. Terms of the SAP Contract may be stricter than the standard SAP regulations cited in this section. Acceptance of the approved SAP Contract supersedes all other SAP regulations. Any deviation by the student from the terms of the contract results in the forfeiture of future financial aid eligibility.

Students who have lost eligibility for financial aid due to an insufficient grade point average must obtain guidance from the Academic Review Office. If the student is readmitted to the university by the Academic Review Office following academic disqualification, the student must notify the Financial Aid Office for financial aid processing to resume.

Any student who is appealing his or her Satisfactory Academic Progress status must meet all financial aid application deadlines and other eligibility requirements and must regain eligibility before the end of the semester for which the aid is sought. Financial aid cannot be reinstated retroactively for a past semester. As with any type of financial aid appeal, Satisfactory Academic Progress appeals are funded on a funds-available basis.

Financial Aid Policy Regarding Falsification of Financial Aid Information

The types of information covered by this policy include all documents and information submitted to apply for and/or receive need-based financial aid, scholarships and private financing funds. These documents and information include, but are not limited to, the following:

- Free Application for Federal Student Aid
- Student Aid Report (SAR)
- CSS Financial Aid/PROFILE Application
- Supplemental Form for Financial Aid
- Parent and parent federal income tax forms and other income documentation
- Documentation of U.S. citizenship or eligible non-citizen status
- Documentation of housing/living arrangements
- Academic documents relating to high school diploma or college course work
- Loan applications, promissory notes and related documentation
- Specific program applications
- Federal Work-Study time sheets
- Any university financial aid forms and related documentation
- Any written, electronic or verbal statements sent to or made to a university employee regarding the student’s financial aid application or other financially related documents

The integrity of the documents and the honesty of the information presented through them are critical to the financial aid process. Students should be aware that they will be held responsible for the integrity of any financial aid information submitted either by them or on their behalf.

If the university determines that a student or parent has provided falsified information, or has submitted forged documents or signatures, the following steps may be taken without prior notification to the student or parent:

1. An incident report will be filed with USC’s Office of Student Judicial Affairs and Community Standards, following procedures outlined in the University Student Conduct Code. (The University Student Conduct Code is published in iCampus, the student guidebook.) Pending resolution of the complaint, the Financial Aid Office may restrict the distribution of any further aid to the accused student.

2. If the Financial Aid Office or the student conduct review process finds that a violation has occurred, the consequences may include, but are not limited to, the following:
   - The student will be required to make full restitution of any and all federal, state, private and/or university scholarship, grant, loan or work funds to which he or she was not entitled.
   - Until full restitution is made, all federal, state and university funds will be withheld from the student, including all funds disbursed in past or in current terms.
   - No arrangements will be made with the Cashier’s Office or Collections Office on the student’s behalf to settle their account. The student will be responsible for all charges on the student’s account incurred because of the loss of federal, state or institutional financial aid funds.

3. In addition to any consequences directly related to the student’s financial aid, the student may be assigned disciplinary sanctions as described in the Student Conduct Code (11.80).

4. As required by federal and state law, the USC Financial Aid Office will report any infraction to the appropriate office or agency. These include, but are not limited to, the U.S. Department of Education Office of the Inspector General, state agencies or other entities that may take whatever action is required by federal and state law. In this report, the Financial Aid Office will describe in detail the incident, the response from the Financial Aid Office and any additional actions taken by or pending with the university.
Withdrawal Implications for Recipients of Financial Aid

During the Drop/Add Period
During the university's published drop/add period, students who withdraw or reduce their enrollment may be eligible for a 100 percent refund of tuition for classes dropped.

Financial aid recipients must immediately notify the Financial Aid Office in writing when a withdrawal from one or more classes during the drop/add period results in an enrollment status different from that on which their current financial aid eligibility was based. The same applies if one or more courses are cancelled.

The Financial Aid Office will review the student's new enrollment and, if appropriate, revise the student's eligibility based on the new enrollment status.

If a financial aid recipient withdraws from all classes or drops to less than half-time status during the drop/add period, all financial aid awards must be returned to their respective programs. If the student was given financial aid funds for other expenses, he or she will be expected to return those funds to the university.

After the Drop/Add Period
Students who are recipients of Title IV federal financial aid are also covered by federal policies. Title IV federal financial aid is awarded to a student under the assumption that the student will attend for the entire period for which the assistance is awarded and thereby "earn" the award. When a student ceases academic attendance prior to the end of that period, the student may no longer be eligible for the full amount of federal funds that the student was originally scheduled to receive.

If recipients withdraw from all classes on or before the 60 percent point in the session, based on their last date of attendance, federal policy may require them to return any "unearned" Title IV federal financial aid to the U.S. Treasury, even if they are not entitled to a refund of tuition.

A student is required to immediately notify the Registrar and the Financial Aid Office when he or she stops attending classes. If the student fails to notify either office, it is possible that the 50 percent point in the term will be used to determine the student's last date of attendance, in accordance with federal regulations. If a student withdraws from all classes, the Financial Aid Office will determine if that student's period of attendance resulted in the earning of all federal financial aid originally awarded. If it is determined that not all the scheduled federal aid has in fact been earned, then the Financial Aid Office will calculate the amount to be returned to the federal financial aid programs. The Financial Aid Office will bill the student via his or her university account for the amount returned. It is the student's responsibility to contact the Cashier's Office to settle the bill.

Additional Responsibilities of Students Who Withdraw
Any time a student withdraws from one or more courses, the student should consider the potential effect on his or her satisfactory academic progress (SAP) status. See page 52 for more information about SAP requirements.

Whenever a student's enrollment drops to less than half time or the student withdraws completely, or if a student takes a leave of absence, he or she must notify the lender or holder of any loans. Student borrowers of federal or university loans must also satisfy exit counseling requirements.

It is also the student's responsibility upon withdrawal from all classes to notify the Student Financial Services Office, the Housing Services Office, the Transportation Services Office and/or the USCard Office, if the student has charges from these offices on his or her student account. Students who have withdrawn from studies may be entitled to a prorated cancellation of charges from these offices.

Leaves of Absence
Financial aid recipients considering a leave of absence should be aware of the financial aid implications. Although obtaining an approved Leave of Absence from their programs does allow students to re-enroll in the university without formal re-admission, it does not allow them to defer their loan repayment. The university reports student enrollment to the National Student Clearinghouse throughout the academic year. Lenders subsequently query this database to determine if a student has maintained continuous half-time or greater enrollment.

If students are on a leave of absence from the university, their lender will move their loan from an "in-school" status to a grace or repayment status as required. While on a leave of absence, students may be able to postpone repayment by obtaining a deferment or forbearance from their lenders as a result of unemployment or economic hardship. Students should contact their lenders for more information about repaying their loans. Once they re-enroll at a half-time or greater basis, they may be able to request deferment for "in-school" status.

Tuition Refund Insurance Plan
To complement its own refund policy, the university makes available to students the Tuition Refund Plan (TRP), an insurance policy designed to protect the investment students and their families make in education. The Financial Aid Office strongly encourages all financial aid recipients to take advantage of this plan. If a student formally withdraws from all classes after the end of the drop/add period and he or she is covered by TRP, the student may receive:

- A credit to his or her student account equal to 100 percent of charges for tuition and mandatory fees, if the withdrawal is the result of documented personal illness or accident; or
- A credit to his or her student account equal to 60 percent of the charges for tuition and mandatory fees, if the withdrawal is the result of a documented mental/nervous disorder.

The TRP insurance credit will be first applied to any outstanding charges on the student's university account, including any charges resulting from Title IV federal aid returns. Recipients of university and/or federal financial aid will then receive a cash refund equal to the amount of cash payments made to the account plus any loan payments still on the account (after all returns of Title IV aid have been made in accordance with federal policies, if applicable). The remainder of the TRP insurance credit will be used to repay university financial aid grant or scholarship programs.

Brochures about TRP requirements and claim forms are available in the Cashier's Office and the Registrar's Office. All questions about the Tuition Refund Plan should be directed to these offices.

Notes on Federal Policy
Title IV Federal Financial Aid
Students are considered recipients of Title IV federal financial aid if they have used funds from one or more of the following programs to meet educational expenses for the semester in question: Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (SEOG), Federal ACG Grant, Federal SMART Grant, Federal Perkins Loan, Federal Direct Stafford Loan (Subsidized or Unsubsidized), or Federal Direct Graduate or Parent PLUS Loan.
Period of Enrollment
At USC, the periods of enrollment are generally measured using the session(s) in which the student enrolled on a semester basis, starting on the first day of classes and ending on the final day of examinations for a given term. For purposes of Title IV federal aid, any scheduled break of five or more days will not be included in the measurement of the enrollment period.

Measurement of Earned Title IV Federal Financial Aid
When a student withdraws from all classes, the Financial Aid Office will calculate the percentage of earned Title IV federal aid using the point of withdrawal. The earnings calculation is based on the number of days of enrollment, up to and including the day of withdrawal, divided by the total number of days in the enrollment period. In most cases, when a total withdrawal is determined to occur on or before the 60 percent point in a semester, some federal aid will need to be returned.

Title IV Federal Financial Aid Returns
To satisfy federal regulation, returns to Title IV financial aid programs must be made in the following order:

- Federal Direct Unsubsidized Stafford Loan
- Federal Direct Subsidized Stafford Loan
- Federal Perkins Loan
- Federal Direct PLUS Loan
- Federal Pell Grant
- Federal ACG Grant
- Federal SMART Grant
- Federal SEOG
- Other Title IV federal programs

| # Day in Term | % of Term Attended | USC Return of Aid Policy | Federal Return of Aid Policy | 24th | 25th | 26th | 27th | 28th | 29th | 30th | 31st | 32nd | 33rd | 34th | 35th | 36th | 37th | 38th | 39th | 40th | 41st | 42nd | 43rd | 44th | 45th | 46th | 47th | 48th | 49th | 50th | 51st | 52nd | 53rd | 54th | 55th | 56th | 57th | 58th | 59th | 60th | 61st | 62nd | 63rd | 64th | 65th | 66th | 67th | 68th |

| Before the 1st day of class | 0% | 100% | 100% | 21.2 | 0% | 78.8% | 22.1 | 0% | 77.9% | 23.0 | 0% | 77.0% | 23.9 | 0% | 76.1% | 24.8 | 0% | 75.2% | 25.7 | 0% | 74.3% | 26.5 | 0% | 73.5% | 27.4 | 0% | 72.6% | 28.3 | 0% | 71.7% | 29.2 | 0% | 70.8% | 30.1 | 0% | 69.9% | 31.0 | 0% | 69.0% | 31.9 | 0% | 68.1% | 32.7 | 0% | 67.3% | 33.6 | 0% | 66.4% | 34.5 | 0% | 65.5% | 35.4 | 0% | 64.6% | 36.3 | 0% | 63.7% | 37.2 | 0% | 62.8% | 38.1 | 0% | 61.9% | 38.9 | 0% | 61.1% | 39.8 | 0% | 60.2% | 40.7 | 0% | 59.3% | 41.6 | 0% | 58.4% | 42.3 | 0% | 57.7% | 43.4 | 0% | 56.6% | 44.2 | 0% | 55.8% | 45.1 | 0% | 54.9% | 46.0 | 0% | 54.0% | 46.9 | 0% | 53.1% | 47.8 | 0% | 52.2% | 48.7 | 0% | 51.3% | 49.6 | 0% | 50.4% | 50.4 | 0% | 49.6% | 51.3 | 0% | 48.7% | 52.2 | 0% | 47.8% | 53.1 | 0% | 46.9% | 54.0 | 0% | 46.0% | 54.9 | 0% | 45.1% | 55.8 | 0% | 44.2% | 56.6 | 0% | 43.4% | 57.5 | 0% | 42.5% | 58.4 | 0% | 41.6% | 59.3 | 0% | 40.7% | 60.2 | 0% | 0.0% | 61.9 | 0% | 61.1% | 62.8 | 0% | 61.1% | 63.7 | 0% | 60.2% | 64.6 | 0% | 59.3% | 65.5 | 0% | 58.4% | 66.4 | 0% | 57.7% | 67.3 | 0% | 56.6% | 68.2 | 0% | 55.8% | 69.1 | 0% | 55.1% | 70.0 | 0% | 54.0% | 70.9 | 0% | 53.1% | 71.8 | 0% | 52.2% | 72.7 | 0% | 51.3% | 73.6 | 0% | 50.4% | 74.5 | 0% | 49.6% | 75.4 | 0% | 48.7% | 76.3 | 0% | 47.8% | 77.2 | 0% | 46.9% | 78.1 | 0% | 46.0% | 79.0 | 0% | 45.1% | 80.0 | 0% | 44.2% |

Note: If the length of the academic term is either longer or shorter than the standard 113 day term, students may request their refund table from the Financial Aid Office.
Course Work Taken Elsewhere

Admitted students receive a transfer credit report prepared by the Degree Progress Department showing unit and subject credit granted for college courses and relevant exams, such as AP, IB and A-levels.

Students are required to submit complete, official transcripts of all course work attempted at any postsecondary institution as soon as final grades are posted. All post-secondary transcripts must be submitted regardless of the type of course(s) or the quality of the work. A student's failure to provide transcripts for all course work attempted prior to enrollment at USC or while away from USC may result in denial of transferred course work and a charge of a violation of the university’s academic integrity policies.

Accreditation
The University of Southern California affirms the practice of accreditation of American post-secondary academic institutions by the six regional accreditation agencies: the Middle States Association of Colleges and Schools, the North Central Association of Colleges and Schools, the New England Association of Schools and Colleges, the Northwest Association of Schools and Colleges, the Southern Association of Colleges and Schools, and the Western Association of Schools and Colleges. Acceptance of course work and/or degrees completed by undergraduate and graduate students applying to the University of Southern California will be based on accreditation by these six agencies. Certain graduate schools, seminaries, conservatories and professional institutions of national renown that are not accredited by a regional agency may be considered for graduate transfer work by the Articulation Office in consultation with the USC department or professional school to which the student is applying.

Acceptance of course work and/or degrees from post-secondary institutions overseas will be based on the recognition and approval of the college or university as a degree-granting institution by the Ministry of Education within the respective country.

Non-transferable Course Work
USC's transfer policies have been established to enable students to achieve either an undergraduate or graduate degree that will reflect traditional academic study and research. For that reason, the following types of non-traditional course work will not transfer to USC for undergraduate credit:

- Life experience; portfolio work; continuing education; work experience; formally structured courses offered by civilian non-collegiate sponsors such as businesses, corporations, government agencies and labor unions, even if evaluated by the American Council on Education (ACE).
- Extension courses not accepted toward a degree by the offering institution.
- Equivalency examinations.
- Remedial (e.g., mathematics below college algebra), college preparatory and personal development/life skills courses.
- Independent study, directed study, internships and correspondence courses from two-year schools.

- Areas of study offered by other accredited institutions toward the baccalaureate but not offered by USC, such as agriculture, business office procedures, hotel management, interior design, food services, industrial mechanics, fire science, police academy and similar technical or professional programs.
- Undergraduates will not receive credit for graduate level transfer courses.

In addition, no more than 4 units of English as a Second Language (toward the maximum of 12 ESL/ALI units which may apply to a degree) will transfer. Also, a maximum of 4 units of physical education activity courses and music ensemble will transfer. A maximum of 8 units of dance, 12 units of physical education theory courses and 16 units of individual instruction in music will transfer.

Course Work Requiring Review
USC will determine on a case-by-case basis whether to grant credit for certain types of courses taken at accredited institutions. Courses which require review by the Articulation Office include:

- Independent study, directed study and internships taken at four-year schools.
- Courses in which the traditionally expected number of contact hours may not have occurred, including distance learning, televised, online or correspondence courses, and courses taught in non-traditional time modes such as concentrated “intensive” sessions or special weekend modules.
- Transfer credit from studio courses in fine arts, music and theatre is limited. See articulation agreements at usc.edu/articulation.

Articulation Agreements
Articulation agreements with California community colleges are issued by the Articulation Office and indicate courses available for transfer to USC. These agreements can be found at usc.edu/articulation. These agreements are revised periodically and are subject to change, depending on course content, availability and changes in USC’s academic policies. Articulation agreements are not issued for four-year colleges and universities.

Credit for Military Education
The university evaluates courses completed through the armed services and may grant credit for such courses. Consult the Degree Progress Department regarding the possibility of receiving credit for these courses.

College Courses Taken During High School Enrollment
All undergraduate students entering USC may receive a combined maximum of 32 elective units for college courses taken before high school graduation and/or examinations (e.g., AP or IB) taken before matriculation at a two-year or four-year college. A maximum of 16 of these 32 units will be allowed for college courses taken before high school graduation. These courses must appear on the college transcript as part of the regular college curriculum and are expected to be taught on the college campus by college faculty and not used toward high school graduation. Students whose courses are taken at a college and were not used toward high school graduation may file an articulation petition to request more than 16 units. These courses (as well as AP and IB exams) will not receive course equivalence or credit toward writing, diversity or foreign language requirements, although they may fulfill general education categories I, II, III or V where appropriate. However, departments may use them as a basis to waive prerequisites or specific course requirements on a case-by-case basis.
Transfer Credit

Transfer Credit Report
A transfer credit report is prepared prior to enrollment for every new undergraduate transfer student admitted to regular standing. To ensure completion of evaluation of transfer courses, it is the student’s responsibility to submit complete, official transcripts from all post-secondary schools in which course work was completed as soon as final grades are posted. All post-secondary transcripts must be submitted regardless of the type of course(s) or the quality of the work. The purpose of the credit report is to acknowledge officially all transferable work toward the USC degree sought by the student.

Students should review their transfer credit reports for accuracy and report any missing courses or incorrect information to Degree Progress, Hubbard Hall 010. To request a change in the way a transfer credit report has been evaluated, students may initiate articulation petitions at usc.edu/OASIS.

Total transferable units attempted and total transferable units accepted toward the degree are posted on the credit report. For the purposes of making an admissions decision, all grades (including grades of D and below) are calculated into the grade point average and are used in calculating a total grade point average for graduation. Neither subject nor unit credit will be granted for courses that have been graded with less than a C- (1.7).

For limitations on use of transfer courses to fulfill general education and writing requirements see General Education Program, page 63.

Subject Credit and Degree Credit
Subject credit does not carry unit value toward units required for a degree but may fulfill a required or elective subject area. Degree credit is defined as units that may be applied toward the units required for a USC degree.

4 or 5 on AP tests in modern languages if taken in spring 2007 or later will satisfy the third-semester foreign language requirement. Details will be reported on the student’s transfer credit report.

Students who began full-time college study at four-year institutions before completing their high school diplomas can submit transcripts for special evaluation. These programs, which typically are conducted on a college campus and are taught by regular faculty, will be evaluated on an individual basis. More than 16 units may be granted. Students entering full-time college programs at two-year colleges before graduating from high school are subject to the 16 unit maximum stated above.

Transfer Unit Limitations
A student may earn a maximum of 64 units of credit toward a bachelor's degree from other accredited institutions. The B.Arch. degree and the Engineering "3-2" Program allow a maximum of 80 units of transfer credit, of which a maximum of 70 may be from two-year colleges. Students will receive only subject credit for work completed in excess of the unit limitations.

After completion of 64 college-level units applicable to the undergraduate degree, no more than 8 additional units may be allowed for transfer credit. In the case of the B.Arch. degree, no more than 8 additional units may be allowed for transfer credit after completion of 84 college-level units.

Transfer Credit for Repeated Course Work
Degree credit will not be given for a transferred undergraduate course that a student has previously taken at USC. (This regulation does not apply to a USC course that a student withdraws from and then takes at another institution.)

Subject credit only will be given for a transferred undergraduate course previously taken at USC, under the following conditions: (1) When the student took the course at USC, he or she received a grade or mark which fails to meet departmental or university requirements. (2) The student obtained prior approval from the department offering the USC course on the USC transfer course work pre-approval form at usc.edu/transfercredit.

Once the course work has been completed elsewhere, students must request the other institution to send an official transcript to USC so that the course work can be evaluated and transferred.

Students are required to provide transcripts of all course work attempted at any post-secondary institution, regardless of the type of course(s) or the quality of the work. A student’s failure to provide transcripts for all course work attempted while away from USC may result in denial of transferred course work and a charge of a violation of the university’s academic integrity policies.

Permission to Register at Another Institution
Undergraduate Transfer Credit Limitations
As defined in the Residence Requirement, once students enroll at USC, only courses taken during a summer semester will be considered for transfer credit. No transfer work may be used to satisfy any general education requirements or the writing requirement if those courses are taken after a student has enrolled at USC. In addition, transfer courses taken after enrollment at USC cannot be used to fulfill upper division requirements in the major without prior approval, using the request for exception to residence form available from the student’s major adviser or, for undeclared students, from the Office of the Dornsife College of Letters, Arts and Sciences associate dean for academic programs. Transfer courses may not fulfill upper division requirements in the minor under any circumstances.

Students are advised to consult their major department or College Academic Services before taking college course work at another institution. Students should also consult the Degree Progress Department to ensure that the work will transfer.

Procedure
If students wish to take summer course work elsewhere after admission to USC, they must first obtain appropriate pre-approval. Even if there is an articulation agreement, pre-approval is necessary to assure the student’s eligibility. Most students can use the online pre-approval process available on OASIS. In some cases, the paper pre-approval form must be used. It is available at usc.edu/transfercredit.

Details will be reported on the student’s transfer credit report. In some cases, the paper pre-approval form must be used. It is available at usc.edu/transfercredit.

Once the course work has been completed elsewhere, students must request the other institution to send an official transcript to USC so that the course work can be evaluated and transferred.

Students are required to provide transcripts of all course work attempted at any post-secondary institution, regardless of the type of course(s) or the quality of the work. A student’s failure to provide transcripts for all course work attempted while away from USC may result in denial of transferred course work and a charge of a violation of the university’s academic integrity policies.
Students should request that a transcript be sent to the Degree Progress Department, Hubbard Hall 010, 700 Child’s Way, Los Angeles, CA 90089-0912. All transcripts must arrive in a sealed envelope from the issuing institution.

To avoid a possible delay in graduation, official transcripts from post-secondary institutions should be submitted as soon as the course work is completed and graded by the transfer institution. It is advisable to complete all transfer work prior to the final semester of enrollment at USC. If transcripts for transfer course work are not available during the final USC semester, it will likely delay degree posting and result in a later degree date.

Students who have questions concerning the transfer credit shown on the transfer credit report should inquire at the Degree Progress Department. Any questions regarding the applicability of previous course work toward major requirements should be referred to the student’s academic adviser.

**Leave of Absence**

Interruptions of enrollment can cause problems in the continuity of course work within a student’s program. Therefore, leaves of absence are generally discouraged. A student who must interrupt studies for compelling reasons may request a leave for a stated period. Students who find it necessary to be excused from registration in fall or spring semesters should request a leave of absence and withdraw from their classes by the last day to drop or add courses. Students should contact their academic adviser, ask for a Leave of Absence Student Handbook and complete the Leave of Absence form in the back of the handbook (also available at usc.edu/abour). Completed forms should be submitted to the student’s academic adviser for review and approval. If, as a result of the leave, the student exceeds the time limits for completion of degree or general education requirements, he or she may not be allowed automatically to continue to follow the original catalogue of enrollment. Students who fail to apply for a leave of absence may encounter difficulties with residence requirements and financial aid when returning to USC. A leave of absence does not exempt students from the residence requirement described below.

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. For more information, refer to the Withdrawal Implications for Recipients of Financial Aid section.

**Program Reactivation**

Students who have failed to attempt course work for at least one semester within an academic year without filing a Leave of Absence form will have their POST (Program of Study) expired. Returning undergraduates will be required to meet with their department adviser and complete and sign a POST Reactivation form before registration will be permitted. Graduate students who wish to return will be governed by applicable university policies, including the continuous enrollment requirement.

**Residence Requirement**

A minimum of 64 units toward the bachelor’s degree must be earned in residence at USC, with the following exceptions: Students earning a bachelor’s degree in architecture must earn 80 units in residence; students in engineering’s “3-2” Program must earn at least 48 units in residence.

Once students matriculate at USC, all courses taken for subject or unit credit in the fall and spring semesters must be taken in residence. Only transfer work that appears on the transfer institution’s transcript for a summer term will be accepted. In addition, all upper-division units required for the major and minor must be earned in residence. However, a student’s department may apply upper-division courses taken elsewhere prior to matriculation to major requirements on a case-by-case basis.

In rare circumstances, permission may be granted in advance to take a course out of residence. This permission is documented on the Request for Exception to Residence form. The form, which is available from the student’s major adviser or, for undeclared students, from the Office of the Dornsife College of Letters, Arts and Sciences associate dean, is used to record major department approval to use the course toward the major. Questions about the residency policy may be addressed to the Degree Progress Department, JHH 010, (213) 740-1328. Questions regarding exceptions to this policy may be directed to the Academic Review Department, TRO 101, (213) 749-7741.

Academically disqualified students must meet with an academic review counselor for advisement and forms for departmental preapproval rather than using the request for exception to residency form.

After completion of 64 college-level units applicable to the undergraduate degree, no more than eight additional units may be allowed for transfer credit. In the case of the B.Arch. degree, no more than eight additional units may be allowed for transfer credit after completion of 84 college-level units.

Units earned in overseas studies programs approved by USC’s University Committee on Curriculum and in courses approved by consortial or other institutional agreements are considered to be taken in residence.

**Residence Requirement for a Second Bachelor’s Degree**

*For students with their first bachelor’s degree from USC,* 32 units applicable to the degree beyond the number of units required for the first USC bachelor’s degree must be completed in residence.

*For students with their first bachelor’s degree from another institution,* the second bachelor’s degree requires 64 units applicable to the degree completed in residence, except for the B.Arch. degree, which when earned concurrently with the M.Arch. degree requires 32 units applicable to the degree completed in residence.
Requirements for Graduation

Catalogue Regulations, Policies and Procedures
In addition to degree requirements outlined below, undergraduate and graduate students are also subject to current catalogue regulations, policies and procedures. Examples include, but are not limited to, the policy on the grade of incomplete and graduation with honors. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Graduation Date
A student will be awarded the graduation date for the term in which degree requirements, including submission of supporting documents, have been met. Although coursework may have been completed in a prior term, the degree will be awarded only for the term for which all academic and administrative requirements have been fulfilled. Students wishing to change the degree date from that indicated on the STARS Report should file a Change of Information card with the revised degree date. The cards are available in the Degree Progress Department in Hubbard Hall 101. Degrees are not awarded retroactively.

Discontinued Degree Programs
Students pursuing major or minor programs that the university discontinues will be allowed to complete them within a specified time limit. The time limit will be specified at the point of discontinuance of a major or minor program and begins at that point. It is determined according to the student’s progress toward degree completion and will not exceed five years for any student.

Closed Record
The academic record of a student who has completed the program of study or ceased attendance is considered closed. Once a student’s record is closed, no further additions or changes may be made. This includes, but is not limited to, such things as change of name, registering in additional course work, resolution of marks of incomplete (IN) and missing grade (MG), declaration of minors, etc.

Degree Requirements
Undergraduate degree requirements consist of grade point averages, residence requirements, general education requirements, the writing requirement, the diversity requirement, pre-major and major requirements, and minor requirements. Undergraduate students may elect to follow (a) the degree requirements in the catalogue current in their first term of enrollment after admission or readmission at USC or (b) degree requirements in a subsequent catalogue as long as they were enrolled in a term in which it was in effect. However, students may not mix catalogues. An exception is that students may follow the requirements for a minor from a different catalogue year than the major; and students pursuing two majors may follow major requirements from different catalogue years.

While there are no specific time limits for completing the bachelor’s degree, over the years many departments change their major requirements in accordance with developments in the field and department. Occasionally, general education requirements are changed or a degree program is discontinued.

Therefore, undergraduate students who do not complete their degrees within six consecutive years from the beginning of the semester of their first completed USC course work will not be allowed automatically to continue following their pre-major, major and minor requirements as specified above. (This time limit includes semesters during which students are not enrolled.) The pertinent department chair will decide what pre-major, major and minor requirements each student must follow and communicate the decision to the student in writing.

Students who do not complete their degrees within 10 consecutive years from the beginning of the semester of their first completed USC course work will not be allowed automatically to continue following their general education requirements. (This time limit includes semesters during which students are not enrolled.) The General Education Office will decide what general education requirements each student must follow and communicate the decision to the student in writing.

An appeal of a department’s decision may be made to the dean of the appropriate academic unit or the Provost’s Office for academic units without departments. An appeal of a general education decision may be made to the Committee on Academic Policies and Procedures (CAPP).

Grade Point Average Requirement
A grade point average of at least C (2.0) on all baccalaureate units attempted at USC, as well as on the combined USC-transfer GPA, is required for undergraduate degrees. A minimum cumulative grade point average of 2.0 in all upper division courses applied toward the major is also required, regardless of the department in which the courses are taken. The university will not deviate from policies governing the calculation of the grade point average through inclusion or exclusion of course work.

Unit Requirement
Students are required to take a minimum of 128 baccalaureate units at the undergraduate level (of which not more than four units may be physical education units). A student may earn a maximum of 16 units for individual instruction in music at the 101/201/301 levels and comparable transfer courses. No more than 8 units of dance technique courses (THTR 181 through THTR 189 and comparable transfer courses) may be applicable toward an undergraduate degree. Of the 128 unit minimum at least 32 units must be upper division course work. Students must also complete all upper division course work in the major at USC. The university will not deviate from the minimum unit requirements stated above or the additional unit-specific requirements. Some disciplines require more than the minimum requirements. Check individual department listings for specific requirements.

Unit credit indicates the number of semester units earned in the course; these units may or may not be applicable to the degree. Degree credit indicates the units are applicable to the degree.

Pass/No Pass Graded Work
A maximum of 24 units of undergraduate course work taken on a pass/no pass basis may be used toward an undergraduate degree and a maximum of 4 of these 24 units may be applied to the general education requirements. WRIT 130, WRIT 140, and WRIT 340 will not fulfill undergraduate writing requirements if taken on a Pass/No Pass (P/NP) basis.
Use of Pass/No Pass course work to fulfill major requirements must be approved in writing by the academic department. Course work required for a minor may not be taken on a P/NP basis. Individual academic departments may have placed further restrictions on whether a course taken on a Pass/No Pass basis can be used to fulfill specific requirements.

In cases where a student has registered for a course on Pass/No Pass (P/NP) basis, and the student is subsequently found to have committed an academic integrity violation in the course, the instructor may elect to assign a penalty letter grade, rather than assign a mark of Pass or No Pass.

**General Education Requirements**

General education and writing requirements for all students are provided on pages 63-65. Additional specific information is included with the information on individual majors.

**Diversity Requirement**

The diversity requirement must be met by all students who began college at USC or elsewhere in fall 1993 or later. It can be met by passing any one course carrying the designation “m” for multiculturalism. The list of courses and further details about meeting the diversity requirement are found on pages 63 and 66-67.

**Gateway Course**

A gateway course is a lower division 3-4 unit course that introduces and showcases the minor or major curricula of an academic field of study. It is intended to be a student’s first exposure to a field of study.

**Upper Division Major Course Work**

The university requires that all undergraduate students successfully complete at USC all the upper division courses that are applied to their major. Substitution of a comparable upper division course for a required one may be entered in the STARS exception process by the departmental adviser with the support of the department. Substitutions and waivers of USC or transfer courses for upper division requirements for majors are to be limited to a combination of 25 percent. Substitution of courses with the same departmental prefix are exempted from this limit. Lower division courses cannot be substituted for upper division course requirements.

**Minor Programs**

Application for a minor must be made to the department or professional school and an appropriate endorsement must appear on a change/addition of major or minor degree objectives form. Students who decide not to complete a declared minor must formally drop the minor program. Failure to drop a declared minor may delay the awarding of the student’s degree.

The following guidelines apply to minor programs:

1. Minor programs are available to students matriculated in an undergraduate degree program and must be completed simultaneously with the major degree program.

2. Minors constituted of course work from a single department may not be earned by students majoring in that department.

3. Students may take an interdepartmental minor in which their major unit participates as long as at least four courses (at least 16 units) required for the minor are not courses offered by the major department.

4. Students must take at least four courses (at least 16 units) which are unique to the minor (i.e., not required to fulfill the student’s major, another minor or general education requirements).

5. All upper-division course work required for the minor must be taken at USC.

6. Departments at their discretion may substitute no more than 25 percent of the required units defined in the catalogue for a given minor program. Substitution of courses with the same departmental prefix are exempted from this limit. Lower division courses cannot be substituted for upper division course requirements.

7. Departments at their discretion may waive no more than 4 units for minor programs with 17 to 20 units or no more than 8 units for minor programs with more than 20 units for each student. The number of units unique to the minor after any departmental waivers or substitutions must total at least 16 units.

8. No course work required for the minor may be taken on a Pass/No Pass basis.

9. A minimum cumulative 2.0 GPA must be achieved in all courses applied toward the minor. A higher minimum may be required by the sponsoring department or unit.

10. Students whose major degree programs do not include a language requirement need not satisfy that requirement to earn a minor from the USC Dornsife College of Letters, Arts and Sciences or a professional school that has a language requirement unless the minor specifically requires the language.

11. Completion of the minor program will be recorded on the transcript. The student receives a separate minor certificate for each minor program completed.

12. Undergraduate students may elect to follow the minor requirements in (a) the catalogue current in their first term of enrollment after admission or readmission to USC, or (b) a subsequent catalogue year if the minor was newly introduced or revised after their term of admission or readmission. This does not affect the catalogue year they follow for their major.

**Honors Programs**

**Departmental Honors**

The following departments have received approval from the university Undergraduate Curriculum Committee for their majors to graduate with departmental honors:

- Anthropology; Art History; Biochemistry; Biological Sciences (B.A. and B.S.); Broadcast and Digital Journalism; Chemistry (B.A. and B.S.); Cinematic Arts; Classics; Communication; Comparative Literature; Earth Sciences; Economics; English; French; Gender Studies; Geological Sciences; History; Human Development and Aging (B.S.); International Relations; Linguistics; Mathematics (B.A. and B.S.); Neuroscience; Philosophy, Philosophy (Ethics, Law and Value Theory); Political Science; Print and Digital Journalism; Psychology; Public Policy, Management, and Planning; Public Relations; Religion; Sociology; and Spanish.

The minimal requirements for receiving departmental honors are that the student: (1) satisfactorily completes course work for an honors project and (2) achieves no less than a 3.5 GPA (A = 4.0) in the major at the time of graduation. Each program, department or school will designate what it considers the appropriate course work and honors project.

Departmental honors are noted on academic transcripts but not on the diploma.

**Renaissance Scholar Honors**

The Steven and Kathryn Sample Renaissance Scholars program recognizes select undergraduate students who have excelled in their studies while completing a major and a minor (or two majors) in widely separated fields of study. In order to be designated a USC Renaissance Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must have his or her fields of study certified to meet the breadth with depth requirement.

To be designated a Renaissance Scholar upon graduation, a student must graduate within five years of matriculation at USC, with a minimum 3.5 overall grade point average, a minimum 3.5 grade point average in each of the major(s) and/or minor(s) course requirements and with university honors. A student with multiple certified program combinations
understand the present in historical and cultural perspective – to become generally well-educated people. To achieve this goal, students in all undergraduate programs must complete one course that satisfies each of the following categories:

**Foundations:**
I. Western Cultures and Traditions
II. Global Cultures and Traditions
III. Scientific Inquiry

**Case Studies:**
IV. Science and Its Significance
V. Arts and Letters
VI. Social Issues

For more information about the general education requirements, see the course lists on pages 64-66 and the description of the program on page 250.

Writing Requirement
In their writing classes, students learn to think critically, to build sound arguments and to express their ideas with clarity. The writing requirement comprises two courses; most students meet this requirement with:

- **Lower-division requirement:** WRIT 140 Writing and Critical Reasoning
- **Upper-division requirement:** WRIT 340 Advanced Writing

Certain groups of students may meet this requirement with other course work. For more information on the writing requirement, see page 487.
Diversity Requirement
The diversity requirement is designed to provide undergraduate students with the background knowledge and analytical skills to enable them to understand and respect differences between groups of people and to understand the potential resources and/or conflicts arising from human differences on the contemporary American and international scene. Students will increasingly need to grapple with issues arising from different dimensions of human diversity such as age, disability, ethnicity, gender, language, race, religion, sexual orientation, nationality and social class. These dimensions and their social and cultural consequences will have important ramifications for students’ personal, professional and intellectual lives, both for the time they are students and in later life. Students will gain exposure to analytical frameworks within which these issues are to be understood and addressed, including social, political, cultural, ethical and public policy analyses. It is the university’s goal to prepare students through the study of human differences for responsible citizenship in an increasingly pluralistic and diverse society.

Course Requirement
The diversity requirement can be met by passing any one course from the list of courses carrying the designation “m” for multiculturalism. In addition to fulfilling the diversity requirement, some of the courses on the list also meet general education requirements; others also meet major requirements; still others meet only the diversity requirement but count for elective unit credit. Courses that meet the diversity requirement are listed on pages 66-67.

Undergraduate Degree Programs

USC is a major university providing diverse academic programs. As such it has evolved into a complex organization. The basic underlying principle in its organization is simple: groups of faculty with similar areas of knowledge and interest are grouped together to form departments or schools. These units work together in determining the courses to be offered, requirements for degrees, and the content and rationale underlying their curricula.

In practice, the organization becomes more complex. Certain areas of study are based on broad areas of knowledge which need to draw faculty from several departments. The following list of undergraduate degrees provides a guide to the organization of USC. The index includes all degrees offered, and the school which administers the degree.

The basic undergraduate degrees are the Bachelor of Arts and the Bachelor of Science. Students may obtain these degrees in a variety of majors that have been formally approved. More specialized degrees, such as a Bachelor of Music, require more undergraduate study devoted to professional training.

**Area of Emphasis**
An Area of Emphasis is a specific focus within a major. Areas of Emphasis are listed within parentheses following the appropriate majors and do not appear on diplomas but are indicated on transcripts.

**Combined Program**
A combined program is an organized set of requirements from two academic units in a single undergraduate degree program that combines two majors. Examples are: Linguistics/Psychology and Physics/Computer Science.

**Double Major Within the Dornsife College of Letters, Arts and Sciences**
A double major consists of two majors, which allow the student to earn the same degree, either a B.A. or B.S. degree, conferred by the Dornsife College of Letters, Arts and Sciences. The Dornsife College of Letters, Arts and Sciences offers two kinds of majors, "departmental" and "interdepartmental" (see page 247). A double major may consist of two departmental majors, two interdepartmental majors, or one departmental and one interdepartmental major. All double majors require a minimum of 12 upper division courses. Some upper division courses may count for both majors. For double departmental majors two upper division courses may count toward both majors. For departmental and interdepartmental majors, three upper division courses may count toward both majors. The student receives a single diploma.

**Other Double Majors**
Double majors may be offered in other schools. The two majors must be offered by different departments but lead to the same degree, such as a Bachelor of Science or Bachelor of Music. Double majors consisting of two majors in the same department are not permitted. The student receives a single diploma.

**Progressive Degree Programs**
The progressive degree plan enables an undergraduate student to begin an integrated program of study joining bachelor's degree and master's degree programs in the same or different departments. This option is available to outstanding USC undergraduates who have completed 64 units of course work at USC, and often results in a more expeditious completion of the master's degree than otherwise would be possible.

Students are admitted to the master's degree at the completion of the sixth semester. Progressive degree students must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined total number of units for the degrees. The bachelor's degree can be awarded first. Further details about progressive degrees can be found on page 87.

**Second Bachelor's Degree**
A second bachelor's degree requires a minimum of 32 units beyond the number required for the first. If the first bachelor's degree was earned at USC, a minimum of 32 units for the second must be completed at USC. If the first bachelor's degree was earned at another institution, a minimum of 64 units toward the second must be completed at USC. (See the policy on residence requirements for a second bachelor's degree, page 60.)
For some degrees, more than the 32 units beyond the first bachelor’s degree will be required because all requirements for both degrees must be met. The student receives a separate diploma for each degree upon completion.

The first and second bachelor’s degrees may be completed at the same time but there is no requirement that they be.

Minor Programs
In addition to the degree programs listed, many academic units offer minor programs. A list of minors appears after the list of undergraduate degrees. The requirements for each minor are listed in the appropriate school section. A separate minor certificate is issued for each minor a student completes. Minors are also recorded on the student’s transcript. See page 62 for more detailed information about minor programs.

The Undergraduate Degree Programs List
All degrees are listed alphabetically by the school which provides the program for the degree objective. All degrees are listed alphabetically in the index at the end of this catalogue. Areas of emphasis do not appear on diplomas but are indicated on transcripts.

Degree Programs

Program descriptions and degree requirements may be found in the sections of this catalogue under the units listed in boldface type. Unless otherwise noted, each program is under the jurisdiction of the school or division under which that degree is listed. All degrees are listed alphabetically in the index.

Jazz Studies (Thornton School of Music)
Jewish American Studies (Dornsife College of Letters, Arts and Sciences, American Studies and Ethnicity)
Judaic Studies (Dornsife College of Letters, Arts and Sciences, Judaica Studies/Hebrew Union College)
Kinesiology (Dornsife College of Letters, Arts and Sciences, Kinesiology)
Korean Studies (Dornsife College of Letters, Arts and Sciences, East Asian Languages and Cultures)
Landscape Architecture (School of Architecture)
Latin American Studies (Dornsife College of Letters, Arts and Sciences, Spanish and Portuguese)
Law and Public Policy (Price School of Public Policy)
Law and Society (Dornsife College of Letters, Arts and Sciences, Political Science)
Linguistics (Dornsife College of Letters, Arts and Sciences, Linguistics)
Management Consulting (Marshall School of Business)
Managing Human Relations (Dornsife College of Letters, Arts and Sciences, Sociology)
Marketing (Marshall School of Business)
Materials Science (Viterbi School of Engineering, Materials Science)
Mathematical Finance (Dornsife College of Letters, Arts and Sciences, Mathematical Finance)
Mathematics (Dornsife College of Letters, Arts and Sciences, Mathematics)
Medical Anthropology (Dornsife College of Letters, Arts and Sciences, Anthropology)
Middle East Studies (Dornsife College of Letters, Arts and Sciences, International Relations)
Music Industry (Thornton School of Music)
Music Recording (Thornton School of Music)
Musical Studies (Thornton School of Music)
Musical Theatre (Thornton School of Music)
Natural Science (Dornsife College of Letters, Arts and Sciences, Biological Sciences)
Neuroscience (Dornsife College of Letters, Arts and Sciences, Neuroscience)
News Media and Society (Annenberg School for Communication and Journalism)
Nonprofits, Philanthropy and Volunteerism (Price School of Public Policy/Dornsife College of Letters, Arts and Sciences, International Relations/Annenberg School for Communication and Journalism)
Nutrition and Health Promotion (Keck School of Medicine, Preventive Medicine)
Occupational Science (Occupational Science and Occupational Therapy)
Operations and Supply Chain Management (Marshall School of Business)
Organizational Leadership and Management (Marshall School of Business)
Painting (Roski School of Fine Arts)
Performing Arts Studies (School of Theatre)
Petroleum Engineering (Viterbi School of Engineering, Petroleum Engineering)
Philosophy (Dornsife College of Letters, Arts and Sciences, Philosophy)
Philosophy for Business, Law and the Professions (Dornsife College of Letters, Arts and Sciences, Philosophy)
Photography (Roski School of Fine Arts)
Photography and Social Change (Dornsife College of Letters, Arts and Sciences, Anthropology/Annenberg School for Communication and Journalism)
Physics (Dornsife College of Letters, Arts and Sciences, Physics and Astronomy)
Playwriting (School of Theatre)
Political Organizing in the Digital Age (Dornsife College of Letters, Arts and Sciences, Political Science and International Relations/Annenberg School of Engineering, Information Technology Program/Annenberg School for Communication and Journalism/Price School of Public Policy)
Political Science (Dornsife College of Letters, Arts and Sciences, Political Science)
Popular Music Studies (Thornton School of Music)
Professional and Managerial Communication (Annenberg School for Communication and Journalism)
Psychology (Dornsife College of Letters, Arts and Sciences, Psychology)
Psychology and Law (Gould School of Law/ Dornsife College of Letters, Arts and Sciences, Psychology)
Public Health (Keck School of Medicine, Preventive Medicine)
Race, Ethnicity and Politics (Dornsife College of Letters, Arts and Sciences, Political Science)
Real Estate Development (Price School of Public Policy)
Religion (Dornsife College of Letters, Arts and Sciences, Religion)
Russian (Dornsife College of Letters, Arts and Sciences, Slavic Languages and Cultures)

International Study Options

International Study Programs
USC’s undergraduate international study programs, many of which are administered by the Dornsife Office of Overseas Studies, enable students to learn in a different educational and cultural context. Some of the programs require a background in the language of the host country; others are conducted entirely in English. Units earned are considered USC units and affect residency in the same manner. However, overseas courses are not offered for general education credit. Students receive regular USC credit and may apply financial aid and scholarships to the semester and year programs described here. The semester and year programs detailed below are offered through the Dornsife Office of Overseas Studies unless they are identified as being offered by the Annenberg School for Communication and Journalism. Please visit the Office of Overseas Studies located in the College House (CLH), Room 201, call (213) 740-3636, email overseas@usc.edu or visit dornsife.usc.edu/overseasstudies for more information. The Office of Overseas Studies can also direct students to various academic units that offer summer or short-term international programs for undergraduates.

Argentina
Fall Semester in Buenos Aires
This semester program offers students the opportunity to study Latin American culture and study at the Universidad de San Andrés, a small liberal arts college in the suburbs of Buenos Aires. Students will live and learn in this vibrant metropolis while taking communication courses that count toward major credit at USC. Buenos Aires is one of the largest cities in Latin America and will give students the chance to explore the world view of Latin America and how it relates to communication, mass media and the world at large.

The program will immerse students in South American culture, with classes being taught exclusively in Spanish. This program requires a high degree of proficiency in Spanish, both written and oral (2.5 years of college-level Spanish or the equivalent required), and no special arrangements will be made for students who cannot meet language requirements. An optional five-week preparatory program is offered by the Universidad de San Andrés for students who need to strengthen their Spanish skills. For further information, contact the Annenberg School for Communication and Journalism, Room 140, call (213) 821-2180, email ascintl@usc.edu or visit annenberg.usc.edu/international.

Australia
Semester or Year in Brisbane
The University of Queensland (UQ) is one of Australia’s premier higher education institutions. Brisbane, with more than one million residents, is Australia’s third-largest and fastest-growing city. USC undergraduates enroll in regular university courses in a wide variety of subjects. Courses are available in the humanities, social sciences, science and engineering. Kinesiology majors can take courses for major credit. Students may choose to live on or off campus.
Semester or Year in Canberra
Located in the capital city of Canberra, the Australian National University (ANU) offers USC undergraduates the opportunity to study alongside Australian students for a semester or year. Courses are available in the schools of arts and social sciences, Asian studies, economics and commerce, engineering and computer science, law and science. Fine arts majors may pursue studio arts courses at the ANU School of Art. Students live in university-affiliated residence halls.

Semester in Canberra (Public Sector Internship)
The Australian National Internship Program, administered by the Australian National University, is available to students who wish to combine academics and practical experience in an internship in Australian Parliament, the Australian Public Service or a nongovernmental organization. Students attend academic seminars and complete a research project in addition to the intern duties they perform. Students earn 12 USC units for the internship and may take one 4-unit course at ANU. Students live in university-affiliated residence halls. Students must have at least junior standing by the start of the program.

Semester at the University of New South Wales, Sydney
This spring semester program offers students the chance to live and study in Australia’s most exciting city. Students choose from a wide variety of courses offered at the University of New South Wales (UNSW), one of Australia’s “Group of Eight” premier universities. UNSW is located close to the hub of Sydney’s central business district. The program will give students the chance to explore mass media and communication in a challenging environment with a distinct world view, very different from that of the United States, but is also open to all majors. For further information, contact the Annenberg School for Communication and Journalism, Room 140, call (213) 821-2180, email ascsintl@usc.edu or visit annenberg.usc.edu/international.

Semester in Yangon
The School for Field Studies, students spend a semester at a field station in a rain forest in far northern Queensland, home to an amazing variety of exotic birds, plants and wildlife. Students enroll in four courses: Rainforest Ecology, Principles of Forest Management, Economic Policy and Socioeconomic Values, and Directed Research. The courses involve a great deal of hands-on fieldwork, and the directed research projects provide invaluable experience for students interested in graduate studies or in work dealing with the environment. Students share four-to-eight-person cabins.

Botswana
Semester or Year in Gaborone
USC students may enroll in the Arts and Sciences or Community Public Health tracks offered at the University of Botswana (UB) through the Council on International Educational Exchange (CIEE). Arts and Sciences students directly enroll in UB courses, choosing from a wide array of courses within the faculties of engineering and technology, humanities, natural sciences and social sciences. Students in the Community Public Health track take a combination of specialized CIEE public health courses, a field practicum and direct enrollment courses at UB. All students are required to take Setswana Language and Culture Practicum. As Gaborone is a hub for international development agencies and local NGOs, students are encouraged to commit to regular volunteering assignments, where they engage with the community and gain a greater understanding of contemporary Botswana culture and its role in Southern Africa. Students live in UB residence halls or with a host family in Gaborone.

Brazil
Semester or Year in Salvador da Bahia
Students may spend a semester or year in Salvador da Bahia in northeastern Brazil through the Council on International Educational Exchange (CIEE). Salvador da Bahia, a city of 2.1 million, was once the capital of Brazil and is now considered the center of Afro-Brazilian culture. The semester and year programs begin with several weeks of intensive Portuguese language training before the start of regular university courses. During the semester, students take one Portuguese language class, one CIEE course and two to three courses alongside Brazilian students at the Universidade Católica do Salvador. All courses are taught in Portuguese. Courses are available in such areas as anthropology, Afro-Brazilian studies, economics, history, literature, religion, sociology and theatre. Students live with Brazilian host families. Students who have completed four semesters of college-level Spanish or two semesters of Portuguese are eligible to apply.

Semester or Year in São Paulo
Students may spend a semester or year in São Paulo, Brazil, a city of approximately 16 million inhabitants, through the Council on International Educational Exchange (CIEE). The semester and year programs begin with several weeks of intensive Portuguese language training prior to the start of regular university courses. During the semester students take one Portuguese class, one CIEE course and two to three courses alongside Brazilian students at the Pontificia Universidade Católica de São Paulo. All courses are taught in Portuguese. Courses are available in such disciplines as anthropology, archaeology, communications, economics, history, geography, international relations, linguistics, literature, philosophy, political science and sociology. Students live with Brazilian host families. Students who have completed four semesters of Spanish or two semesters of Portuguese are eligible to apply.

Chile
Semester or Year in Santiago
In conjunction with the Council on International Educational Exchange (CIEE), USC provides the opportunity for study at the Universidad de Chile, the Pontificia Universidad Católica de Chile, and/or the Universidad Diego Portales, all located in Santiago, the capital of Chile. All courses are taught in Spanish. Courses are available in such disciplines as art, anthropology, economics, geography, history, international relations, literature, philosophy, political science, psychology, sociology, Spanish, and theology. Students live with Chilean host families. Students who have completed six semesters of Spanish, or the equivalent, are eligible to apply.

China
Semester or Year in Beijing
The program at Peking University in Beijing, offered through the CIEE, provides students with the opportunity to study at China’s most prestigious liberal arts institution and to improve their Mandarin Chinese in a city where the standard dialect is used. The focus of the program is intensive language learning, with instruction available at many levels of ability. Students may take one English-taught area studies course. Students who have a very advanced level of Chinese and attend the program in the spring semester may take regular Peking University courses alongside Chinese students in Chinese language and literature and international relations. As a supplement to classroom language instruction, each program participant is paired with a Peking University student for weekly one-on-one Chinese language tutorials. Students live with other American students in dormitories on the Peking University campus or in a homestay with a Chinese family. Students must have completed three semesters of Mandarin or the equivalent in order to be eligible for the program.

Fall or Spring Semester in Hong Kong
This semester program offers students the opportunity to study Chinese culture and interact with Chinese people in a multicultural context at the Chinese University of Hong Kong, a bilingual institution. Students gain the invaluable experience of witnessing China’s “one country, two systems” experiment first hand. Courses in English are offered in fine arts, literature, history,
Japanese studies, intercultural studies, music, philosophy, computer science, anthropology, economics, international relations, as well as journalism and communication. For students interested in Chinese language, courses are offered in Putonghua (Mandarin) or Cantonese. Students take five classes worth 3 units each, for a maximum of 15 USC units. Extracurricular activities include the opportunity to teach English in rural China, monthly dinner talks with Asian studies specialists and excursions to local areas of interest. Students reside in dormitories with Chinese roommates. For further information, contact the Annenberg School for Communication and Journalism, Room 140, call (213) 821-2180, email ascintl@usc.edu or visit annenberg.usc.edu/international.

**Semester or Year in Nanjing**
Students may spend a semester or year through CIEE in Nanjing, China, a city of more than three million people set along the banks of the Yangtze River. Nanjing University is well-regarded for its liberal arts and social sciences education. Students take 12 units of Mandarin and a 3-unit Chinese studies course. Advanced language students may take courses in Chinese at Nanjing University’s Institute for International Students. In the fall semester there is an extended field trip to Yunnan and Sichuan provinces in southwest China, and in the spring semester the extended field trip is to Qinghai and Xining provinces in northwest China. Each student shares a double room with a Chinese student. Students may also choose to live with a host family.

**Costa Rica**

**Semester in Atenas**
In conjunction with the School for Field Studies (SFS), students spend a semester abroad in Atenas, Costa Rica. The SFS Center for Sustainable Development Studies focuses on students issues of tropical ecology and sustainable development through a case study approach and fieldwork, as well as a directed research project. The program also includes a 10-day field study in neighboring Nicaragua. Students live in cabins in walking distance to Atenas and get involved in projects with the local community.

**Czech Republic**

**Semester or Year in Prague**
USC provides the opportunity to pursue course work in central European studies and/or film studies in Prague in conjunction with the Council on International Educational Exchange (CIEE), which is housed at Charles University, the premier institution of higher learning in the Czech Republic. Students with an interest in cinema studies may take up to 6 units at the Film & Television Academy of the Performing Arts (FAMU), the oldest film school in Central Europe. Students spend the first two weeks of the semester in an orientation session devoted to intensive language study. Although there is no language prerequisite, all students are required to enroll in conversational Czech. The remainder of the courses may be chosen from such fields as Czech and Central European history, art history, political science, sociology, international relations, Jewish studies and film. Students can opt to live in a dormitory, an apartment or with a Czech host family.

**Egypt**

**Semester or Year in Cairo**
Students may study for a semester or year at the American University in Cairo (AUC). About 5,200 students attend AUC, and about 87 percent of the student body is Egyptian. Visiting students may take courses in any of AUC’s departments. With the exception of Arabic language and literature courses, the language of instruction at AUC is English. Fields of particular interest to USC students include Arabic language, history, Middle Eastern studies (including international relations and politics) and Egyptology. USC students must have completed at least two semesters of college-level Arabic or the equivalent in order to study at AUC, and they must take at least one Arabic language course at AUC. AUC’s campus is located in New Cairo, at the far edge of the Cairo metropolitan area. Visiting students may live in AUC housing on campus or in the Zamalek residence hall in central Cairo. Students who live in central Cairo can expect to commute an hour or more each way to the AUC campus.

**England**

**Spring Semester or Year at the University of Sussex in Brighton**
The University of Sussex is especially strong in American studies, computer science, English, international relations, neuroscience, biological sciences, psychology and sociology. USC students are directly enrolled in courses with British students. Situated near the seaside resort town of Brighton, the university is only an hour away by train from London and just a half hour from Gatwick Airport. Brighton has a very active arts scene and a lively nightlife, and 10 percent of the residents are university students. Students live in university housing either on or off campus.

**Year at the London School of Economics and Political Science (LSE)**
Juniors and seniors can spend a year at LSE, which has an outstanding international reputation in all of the social sciences, including anthropology, economics, international history, international relations, philosophy and sociology. Students spend an academic year at LSE on the general course, where they take four yearlong courses alongside British and other international students. More than half of the 6,000 full-time students come from outside the United Kingdom, lending to a very international atmosphere. University housing is located throughout central London. Students must have at least junior standing and a cumulative GPA of 3.3 or higher to be eligible for this program; students in quantitative majors such as economics and mathemtics need a 3.5 GPA in major courses.

**Semester or Year at King's College, London**
(Biological Sciences, English, International Relations and Neuroscience Majors Only)
Juniors and seniors in the majors listed above can directly enroll at King's College, one of the top universities in the United Kingdom. King's is strong in biological sciences and offers a special class for pre-med students, which combines classroom study with clinical attachments focusing on different aspects of medical practice. Students interested in security or peace and conflict studies can enroll in the War Studies Department, one of the few university departments in the world devoted to the study of war as a phenomenon. USC students must plan to take at least three courses for major credit to be eligible for this program. As the fields of study available to USC students may change, please check the Office of Overseas Studies Website for updated information. University housing is located throughout central London, and students can expect to commute to campus. Students must have a cumulative GPA of 3.3 or higher to be eligible for this program.

**Fall or Spring Semester in London**
(Communication)
Undergraduate communication students may spend a spring or fall semester at the USC London Center in the Bloomsbury area of London. Students enroll in 16 units of upper division communication course work taught by USC and British faculty. Students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to British media, culture and civilization. The program also includes group excursions to such places as Bath, Oxford, Cambridge, Stratford-upon-Avon, Stonehenge, Salisbury, Hastings and Paris. For further information, contact the Annenberg School for Communication and Journalism, Room 140, (213) 821-2180, email ascintl@usc.edu, or visit annenberg.usc.edu/international.
Spring Semester in London (Journalism)
USC journalism students spend a spring semester at City University in London, where they have a privileged vantage of British culture and media. Through social science course work and an intensive and integrated journalism project, they have the opportunity for personal and direct comparison between the relatively structured and governmentally controlled media of the United Kingdom and the comparatively laissez-faire approach to media regulation in the United States. Students earn a total of 8 USC journalism elective units and 8 social science electives units. For further information, contact the Annenberg School for Communication and Journalism, Room 140, (213) 821-2180, email ascintl@usc.edu, or visit annenberg.usc.edu/international.

Spring Semester in London (Public Relations)
In the spring of their junior year, USC Annenberg public relations students spend a spring semester at the University of Westminster in London, one of the leading British institutions for the academic and professional study of public relations and media, culture and society. Students will be integrated into the University of Westminster and will take courses across the four Westminster campus locations around central London. Students will live in the central London district of Bloomsbury, and will be immersed into the public relations and media hub that is London. Students earn a total of 16 units at Westminster; up to 8 USC upper division journalism elective units toward their public relations major and 8 general elective units. For further information, contact the Annenberg School for Communication and Journalism, Room 140, (213) 821-2180, email ascintl@usc.edu, or visit annenberg.usc.edu/international.

Semester at University College London (UCL) (Art History, Earth Sciences, Geology, Neuroscience and Psychology Majors Only)
Juniors and seniors in the majors listed above may spend a semester at UCL, one of the top universities in the United Kingdom. Students will have a home department at UCL and must take two of their four courses in their home department. Remaining courses can be taken in any department except English (unless one is also an English major) and fine arts. USC students are directly enrolled in courses with British students. University housing is located throughout central London, and students can expect to commute to campus. A GPA of 3.3 or higher is required to be eligible for this program.

Semester or Year in London (Theatre)
In conjunction with Sarah Lawrence College and the British American Drama Academy (BADA), USC theatre majors and minors spend a semester or year in London. The London Theatre program is designed to expose American undergraduates to the rigor of professional British training in acting by helping them improve their ability to perform plays from the classical repertoire and develop techniques and approaches to acting that will stand them in good stead in any role. The program is taught by a faculty that includes some of Britain’s most distinguished actors and directors. Students will take courses which include scene study workshops in Shakespeare, high comedy, modern drama, acting in performance, voice, movement, stage fighting, theatre history and dramatic criticism. Students attending a one-year program will add classical acting for stage and screen to their academic program for the second semester. Students live in flats with other program participants. Students must audition for the program, and admission is competitive.

Semester or Year in Norwich
Students may spend a semester or year studying at the University of East Anglia (UEA) in Norwich, England. UEA is a top-ranked British university and offers courses in almost all disciplines; its creative writing, environmental science and American studies departments are of particular note. UEA boasts a sprawling campus with excellent sports facilities and plenty of on-campus housing. The city of Norwich has been voted one of Britain’s top cities for quality of life; London is about two hours away by train. Students live on campus in university housing.

France
Year in Paris
USC is a member of the Sweet Briar Junior Year in France Consortium, which enables USC undergraduates to spend an academic year in Paris, taking courses at the University of Paris and other institutions in the Parisian system of higher education. Courses are offered in most areas of the social sciences, the humanities and the arts. The year is preceded by a two-week intensive language orientation in the city of Tours, and internship opportunities are available in the second semester. To apply, students must have completed four semesters of college French or the equivalent.

Semester or Year in Paris
USC students can study for a semester or year on the USC Paris program. In addition to French language courses at the Sorbonne, the program offers USC upper-division French courses and English-taught USC courses in art history and international relations.

Students at an advanced level of French may take one or two courses alongside French university students at the Institut Catholique. Courses are available in the following areas: history, sociology and art history. Program costs include weekend and day excursions to sites of cultural importance, as well as visits connected with individual classes and social activities. Students live with French host families. Students must have completed two semesters of college-level French.

Spring Semester or Year in Paris (Economics, International Relations and Political Science Majors Only)
USC international relations, political science and economics majors may spend the spring semester or academic year studying at the Institut d’Etudes Politiques de Paris (Sciences Po), one of the top-ranked universities in France. Students choose the English track, English/French track or French track for their courses in international relations, political science and economics. All students take a French language course or elective course taught in French each semester regardless of which track they are in. Students live in private accommodation throughout Paris. To be eligible for this program, students need a 3.3 USC GPA, junior standing, and three to five semesters of French (depending on the track selected). Students must make their own housing arrangements.

Germany
Semester or Year in Berlin
In conjunction with the Institute for the International Education of Students (IES), USC offers a program of study at the IES Center and Humboldt University, perfectly situated for exploring the city. Students receive intensive German language instruction during the first three weeks of the program, then enroll for the remainder of the semester at Humboldt University (in the spring semester) and/or courses offered at the IES Center (in the fall or spring semester). All courses are taught in German and are available in such disciplines as German economics, history, politics, art history, business, classics, international relations, political science, psychology, religion and sociology. Students are housed in private German homes and apartments. Students must have completed four semesters of college-level German to be eligible for this program.

Spring Semester or Year in Dresden
Students may spend the spring semester or full year with the Boston University-Dresden University Studies Program (DRUSP) at Technische Universität Dresden (TUD). Students spend six weeks in an intensive German course prior to the start of the TUD
semester. Students who have completed two or three semesters of college-level German are placed in the Level 1 program. Level 1 students take courses in the TUD Department of German as Foreign Language, where courses include German for the Humanities and Social Sciences, German for the Technical and Natural Sciences, Business German, Speaking Practice and intensive multi-skills German courses. Students who have completed four or more semesters of college-level German are placed into the Level 2 program, where they take regular TUD courses. Areas of study available include art history, economics, German literature, history, international relations, philosophy, political science and sociology. Students live in university housing.

**Germany**

### Semester or Year in Berlin

Students who have completed two or three semesters of college-level German are placed in the Level 1 program. Level 1 students take courses in the TUD Department of German as Foreign Language, where courses include German for the Humanities and Social Sciences, German for the Technical and Natural Sciences, Business German, Speaking Practice and intensive multi-skills German courses. Students who have completed four or more semesters of college-level German are placed into the Level 2 program, where they take regular TUD courses. Areas of study available include art history, economics, German literature, history, international relations, philosophy, political science and sociology. Students live in university housing.

**Greece**

### Semester or Year in Athens

Students may spend a semester or year in Athens, Greece, where the ancient world comes alive. A vibrant capital city, Athens is a center of international business and the hub of an efficient and extensive transportation system that makes the beauty of Greece readily accessible. This program is administered by College Year in Athens, and students take courses with other American students. All students are required to enroll in Modern Greek as one of their five courses. The program is organized into three tracks: Ancient Greek Civilization, Byzantine and Modern Greek Studies, and European and East Mediterranean Studies. Students may choose courses from any of the tracks. Students may choose courses from any of the tracks. Students live in simply furnished apartments with other American students.

**Italy**

### Semester or Year in Florence

Through the Institute for the International Education of Students (IES), USC undergraduates have the opportunity to spend a semester or year studying in Florence, Italy. IES' main partner institution in Florence is the Università Cattolica, located near the historic center of Florence. While in Florence students participate in weekly open drawing sessions and field trips to sites throughout Italy, including day trips to Pisa, Siena and Lucca, and weekend trips to Rome, Venice and Naples. The program offers the finest and most challenging training to the next generation of digital artists, animators, art historians and art conservators. For more information see SACI's Website at saci-florence.org.
Students in the advanced Italian track select from IES area studies courses taught in Italian and are encouraged to choose one or two courses from among a wide variety of offerings at several universities in Milan. Students are housed in apartments with Italian roommates, some of whom are enrolled in local universities and others who are young professionals. Students must have completed two semesters of college-level Italian to be eligible for this program.

Semester in Rome (Classics and Archeology Majors Only)
USC classics majors may study in Rome for a semester at the Intercollegiate Center for Classical Studies (ICCS), a program administered by Duke University. Students study ancient history and archaeology, intermediate and advanced Greek and Latin, basic Italian language, and Renaissance and Baroque art history. Field trips and extended study tours are essential components of the program. Students live and study at the ICCS Center, a three-story building located a few minutes by bus from the center of Rome.

Japan
Semester or Year in Nagoya
A program of study is available at the Center for Japanese Studies at Nanzan University in Nagoya. The program for international students is well known for its strength in Japanese language training. Nagoya is two hours from Tokyo by bullet train and one hour from the ancient capital city of Kyoto. Courses are available in such disciplines as Japanese arts, business, culture, economics, history, international relations, linguistics, literature, religion and political science. Intensive language training is offered at all levels of proficiency. Students live in Japanese homes or dormitories.

Year at Waseda University in Tokyo
Students may study for an academic year at Waseda University, one of Japan’s foremost private institutions of higher learning. The university is located in the Shinjuku area of Tokyo. The academic program at Waseda’s School of International Liberal Studies combines Japanese language courses and English-taught lecture courses on the history, culture, literature, arts, politics and economics of Japan and East Asia. The intensive Japanese language courses, offered at eight levels of proficiency, assist students in the development of listening, speaking, reading and writing skills. Students live with Japanese families or in the university’s international dormitory.

Spring Semester or Year at Sophia University in Tokyo
Students may spend the spring semester or full year at Sophia University in Tokyo through the Council on International Educational Exchange. Students can experience life in Tokyo and take courses alongside Japanese students and other international students. Sophia University is a top-ranked Japanese university and is conveniently located in west-central Tokyo. Students are enrolled in Sophia’s Faculty of Liberal Arts on the main Yotsuya campus, where they take Japanese language courses as well as English-taught courses in Asian Studies (anthropology, art history, comparative literature, economics, history, international relations, linguistics, literature, religion, philosophy, political science and sociology). Students highly proficient in Japanese can take courses in Japanese linguistics. Students live in Japanese homes or privately owned dormitories throughout the Tokyo area.

Semester or Year at Tokyo International University near Tokyo
Founded in 1965, Tokyo International University is located in the city of Kawagoe, about 25 miles from central Tokyo. The university offers a program for international students through the Japanese Studies Program in the International Center. Students enroll in an 8-unit Japanese language course and select the remainder of their courses, taught in English, from anthropology, cinema, culture, economics, history, literature, philosophy and political science. In the spring semester, students with a very advanced level of Japanese may take some courses in Japanese alongside Japanese students. Students live in Japanese homes.

Jordan
Semester or Year in Amman (Language and Culture Program)
Students may study for a semester or year at the CIEE Study Center at the University of Jordan. This program provides a challenging academic course combined with in-country cultural experience and intensive Arabic study. Students gain a better understanding of the Middle East, with specific emphasis on the Jordanian perspective and experience. All participants take language courses in modern standard and colloquial Jordanian Arabic. In addition, students take two area studies courses taught in English. Fields of study include archaeology, economics, history, international relations, literature, religion, and sociology. Students choose to live with a Jordanian host family or in an apartment with other students. Two semesters of college-level Arabic or the equivalent are required to participate in this program.

Semester or Year in Amman (Arabic Language Program)
This is an intensive Arabic program offered by CIEE at the University of Jordan. Students must have completed at least five semesters of Arabic with a 3.3 GPA or better to be eligible for this program. Students take 6 units of advanced Modern Standard Arabic and a 4-unit course called Advanced Topics in Arabic Conversation, which includes the use of colloquial Jordanian Arabic. Students take two 3-unit electives taught entirely in Arabic. Electives include Business Communication, Contemporary Arab Media, Readings in Arabic Literature, Arabic Poetry, and Introduction to Islam. In addition, students take a 1-unit course, taught in English, on intercultural communication. Students participate in a mid-semester Arabic language rural retreat. Students live with a Jordanian host family.

Kenya
Semester in Mombasa
USC students may participate in the School of International Training’s Islam and Swahili Cultural Identity program in Mombasa. As the heart of Kenya’s commercial and cultural connections with other Indian Ocean ports, Mombasa is an ideal base from which to study Kenya’s coastal cultures. The program’s curriculum encompasses Kenyan history, politics and economics; the Swahili language; coastal cultures; rural development; and field study methods. Toward the end of the semester, each student completes an independent study project of his or her choice. Students travel throughout Kenya on field trips and excursions.

Kenya/Tanzania
Semester at Field Stations in Kenya and Tanzania
Through the School for Field Studies, USC offers undergraduates the opportunity to study for half a semester in Kenya and half a semester in Tanzania. At both sites students live in close proximity to wildlife and local Masai communities on an African savanna. Through conducting research and fieldwork and attending lectures, students explore human-wildlife conflicts from the perspective of local ranchers, communities and park managers. The site in Kenya is the Kilimanjaro Bush Camp near Kimana, and the site in Tanzania is the Haven Nature Camp west of Arusha.

The Netherlands
Semester or Year in Amsterdam
The University of Amsterdam (UvA), founded in 1632 as the Athenaeum Illustre, is the largest and one of the most prestigious universities in the Netherlands and has a strong commitment to international education.
Through the Council on International Educational Exchange (CIEE), USC students enroll in one course offered by CIEE and three courses from the extensive English-language course offerings of the University of Amsterdam. Students earn USC units in communication and other disciplines including art history, economics, natural sciences, philosophy, psychology, international relations, political science, gender studies, sociology and others. Dutch language courses are available, and students fluent in Dutch, French, German, Spanish or Italian may elect to take classes at the university offered in those languages. Courses are worth 3 academic units each, for a total of 15-18 units per semester. Students live in single rooms in dormitories or with local families in central Amsterdam. For further information, contact the Annenberg School for Communication and Journalism, Room 140, (213) 821-2180, email ascintl@usc.edu, or visit our Website, annenberg.usc.edu/international.

**New Zealand**

**Spring Semester in Auckland**

This spring semester program offers students the opportunity to travel to New Zealand and experience its liveliest city as well as its natural wonders. Students will study at Auckland University of Technology (AUT), located centrally in Auckland, the largest and most cosmopolitan city in New Zealand. Students take a variety of courses while taking in the sights and sounds of indigenous Maori culture and modern New Zealand. This program is open to all majors. For further information, contact the Annenberg School for Communication and Journalism, Room 140, (213) 821-2180, email ascintl@usc.edu or visit annenberg.usc.edu/international.

**Semester or Year in Dunedin**

Founded in 1869, the University of Otago is the oldest established university in New Zealand. It has an international reputation for the quality of its teaching and research. Study abroad students are able to take a broad range of subjects across the university’s four academic divisions: commerce, health sciences, humanities and sciences. Students majoring in English, anthropology, psychology, and natural and environmental sciences will find strong programs offering a wide variety of courses. Kinesiology students can take classes in the physical education department at Otago. The university offers a true campus lifestyle and the city of Dunedin, in which the university is located, offers a rich cultural life as well as proximity to outdoor activities. Students live in university-affiliated apartments.

**Nicaragua**

**Semester in Managua**

USC students may participate in the Revolution, Transformation, and Civil Society program run by the School for International Training (SIT). Throughout the program, lectures and field visits illustrate how social and political movements, including women’s movements, are responding to both domestic and external influences, including U.S. foreign policy. Students are based in Managua, where they study Spanish intensively and take an interdisciplinary course that includes Nicaragua’s political history, social movements, civil society, economies and development. Students participate in extended educational excursions to a rural agricultural cooperative in northern Nicaragua, the Caribbean coast and El Salvador. They are introduced to field study methods and dedicate several weeks to completing an independent study project toward the end of the semester. All courses are conducted in Spanish. Students must have completed three semesters of college-level Spanish and be able to follow course work in Spanish in order to be eligible for the program.

**Northern Ireland**

**Spring Semester in Belfast**

Trinity College Dublin offers USC undergraduates a spring semester peace and conflict studies program in Belfast, Northern Ireland. Trinity College Dublin’s Irish School of Ecumenics (ISE) has a branch campus in Belfast, which is an ideal location for the in-depth study of peace and conflict. Students take three courses — Conflict and Conflict Resolution, Social and Political Reconciliation, and Lessons from the Peace Process in Northern Ireland, for a total of 15 USC units. The program includes several field trips and conflict resolution workshops in Ireland as well as a trip to either the International Criminal Court in The Hague, Netherlands or to the United Nations in Geneva, Switzerland. This program is well-suited for students interested in peace and conflict studies, political science, international relations, sociology, history and religion, as well as students with a general interest in Ireland. Students must have a 3.3 GPA and must have completed two years of university study prior to participation in the program.

**Russia**

**Semester or Year in St. Petersburg**

USC offers undergraduates a semester or yearlong opportunity to study at St. Petersburg State University through CIEE. Students with two or more semesters of Russian can participate in the Russian Area Studies Program, which is ideal for students of history, international relations and political science. The Russian Language Program is for students with four or more semesters of Russian and focuses on language, literature and Russian culture. Students have their own room with a Russian family in a private apartment. The program includes many day trips to important sites and overnight excursions to locations such as Moscow, Novgorod, the Pskov region and Tallinn (Estonia).

**Scotland**

**Semester or Year in Edinburgh**

The University of Edinburgh was founded in 1583 and offers excellence in teaching and research over a wide range of disciplines. USC students are directly enrolled in courses with British students. Courses are available in more than 50 disciplines including archaeology, architecture, biological sciences, classics, computer science, ecology, economics, engineering, international relations, linguistics, mathematics, physics, psychology and religious studies. USC students live in university residence halls, student houses or university flats.

**Semester in Edinburgh (Political Internship)**

The University of Edinburgh offers qualified undergraduates the opportunity to serve as interns to Members of the Scottish Parliament (MSPs). During the first five weeks of the program, students enroll in courses that provide a background in British and Scottish politics and government. Following completion of the course work, students will be assigned to an MSP, under whose direction they complete a 10-week internship and research project. This program is highly competitive; strong candidates should have taken at least two political science or international relations courses and have internship experience, preferably in politics. Students can earn 13.5 USC units on this program.

**South Africa**

**Semester or Year in Cape Town**

Students may spend a semester or year studying at the University of Cape Town (UCT) through the Council on International Educational Exchange. Situated on the southern tip of Africa, Cape Town is a vibrant multicultural city and is also a microcosm of the challenges facing the country: how to successfully operate within a global economy while at the same time grappling with the vast socioeconomic inequalities that are the legacy of the colonial and apartheid past. All program participants are required to take at least one course with specific African content. Courses may be taken in all UCT faculties except health sciences and law. Students live with South African or other international students in residence halls, with other American students in apartments close to campus, or with a South African host family. Students must have at least junior standing at the start of the program.
Fall or Spring Semester in Durban
USC students may participate in the Community Health and Social Policy program run by the School for International Training (SIT). The program is based in the city of Durban in the KwaZulu-Natal province, a hub for health teaching, research and practice in both Western and traditional healing systems. Through extensive field visits, lectures and an independent research project, students examine the historical, political, economic, cultural and geographic forces that shape the history of public health interventions in South Africa. Students are introduced to field study methods and spend the last several weeks of the semester completing an independent study project. Students also enroll in intensive Zulu language study, which emphasizes speaking and comprehension skills through classroom and field instruction. Applicants’ course work should be related to the health and science fields.

South Korea
Semester or Year in Seoul
Students who have completed two semesters of college-level Korean have the opportunity to spend a semester or year at Yonsei University in Seoul. Students enroll in a Korean language course and two or three English-taught Asian studies courses available from the following areas: anthropology, art history, business, economics, history, international relations, literature, philosophy, politics, religion, and sociology. Students live in the international student dormitory on campus.

Spain
Semester or Year in Bilbao
USC offers undergraduates the opportunity to study for either a semester or year at the University of Deusto, which was founded by Jesuits in 1886 and is among Spain's top universities. Bilbao is considered the financial and cultural center of the Basque country in northern Spain. Students with two to four semesters of Spanish focus on intensive language study and take additional course work in Spanish, Basque and European studies. Students with five or more semesters of Spanish may take some courses alongside degree-seeking Deusto students. Students may choose to live in dormitories or homestays.

Semester or Year in Madrid
USC offers its own fall and spring semester program in Madrid. Based at a study center in central Madrid, students may take regular USC courses in art history, history, international relations, political science and Spanish. These courses are taught mostly by local faculty and some are taught in English. The program offers a strong cultural component including several excursions to different regions of Spain and day trips to sites near Madrid in addition to outings to cultural events in Madrid. For enhanced cultural insight, students live in a homestay with Spanish hosts. To be eligible for the program, students need to have completed, be enrolled in or test out of at least second-semester Spanish within one year before the start of the program.

Taiwan
Semester or Year in Taipei
USC students may spend a semester or year studying at National Chengchi University in Taipei, Taiwan, through the Council on International Educational Exchange. Students study Mandarin intensively and take one English-taught interdisciplinary core course about Taiwan or an additional Chinese course. Students live in dormitories with Chengchi University students or in a homestay. The program offers one of the best opportunities to understand the contemporary economic, political and cultural issues facing this dynamic Pacific Rim island.

Turks and Caicos
Semester on South Caicos Island
In conjunction with the School for Field Studies (SFS), students spend a semester abroad on South Caicos Island, located between the Bahamas and the Dominican Republic. The SFS Center for Marine Resource Studies focuses students on issues of tropical marine ecology, principles of resource management, and environmental policy and socioeconomic values through a case study approach and fieldwork, as well as a directed research project. Students live three or four to a room in a rustic former hotel.

Other Programs
Units other than Dornsife that offer semester and year international study programs for undergraduates include the Annenberg School for Communication and Journalism (see pages 494 and 512), the School of Architecture (see pages 494 and 512), the School of Business (see page 145) and the Viterbi School of Engineering (see page 581).

Non-USC Programs
Students who wish to participate in a non-USC approved semester or year overseas study program and receive credit transferable to USC must initiate a Request for Exception to Residency in their academic department or school. Students who wish to earn credit in transfer from a non-USC overseas summer program must request pre-approval of transfer course work on the form available at usc.edu/transferring.
Graduate and Professional Education
Admission

Office of Admission and Financial Aid
(213) 740-1111
gradadm@usc.edu
www.usc.edu/admission/graduate

At the graduate level, admission to graduate and professional programs is granted by the dean of the school conferring the degree. However, only a letter from the university’s Office of Graduate Admission constitutes an official offer of admission; correspondence with department chairs or individual faculty members does not constitute admission.

The University of Southern California admits qualified men and women as students regardless of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran. After admission, students are accorded equal rights to participate in all university-sponsored programs and activities. The university does not discriminate on the basis of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran in the administration of its educational policies, scholarship and loan programs, athletics and other student activities.

Application
The USC Application for Graduate Admission should be used by all applicants to all programs except law and some programs in the schools of dentistry, pharmacy and medicine. Applicants should confirm application requirements with their intended school or academic program before application submission.

Online Graduate Programs
Admission to the University of Southern California’s online graduate programs is offered to candidates meeting the university’s admission standards. USC’s online programs are designed to be as rigorous and comprehensive as their traditional on-campus counterparts. Official offers of admission to these programs will come directly from the administering school or college.

Prospective online program students must submit an application for admission, application fee, official academic records and supplemental documents as required by their intended program. Applicants are encouraged to contact the department or school to which they are applying for further program information and additional requirements.

Applicants with Disabilities
In compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act (ADA), USC offers equal access to its degree programs to academically qualified applicants with physical, psychological or learning disabilities. Applicants will be expected to have demonstrated by their record in a college preparatory high school curriculum, or in an appropriate transferable college course of study, that they can perform well in a competitive academic environment. See page 24 and page 35 for a discussion of possible accommodations. USC is committed to providing appropriate, reasonable accommodations to students with disabilities.

Retention of Records and All Application Documents
Credentials submitted to the Office of Admission become the property of the university and cannot be returned to the student or duplicated for any purpose.

Conditional Admission
The minimum standard for graduate admission is a U.S. bachelor’s degree, or its equivalent, from an accredited institution. The Graduate School and some professional schools have additional minimum requirements for applicants seeking degrees. Conditional admission status is applied to those students who have not yet met all requirements for admission to full graduate status or who have not filed all relevant documents with the appropriate school or department. Students admitted in this status must satisfy their conditions by the end of the first term of enrollment, or within the time period deemed appropriate by the department or Office of Degree Progress. Students who fail to satisfy their conditions of admission will not be allowed to register for classes.

Students who have been conditionally admitted for academic requirements must complete at least 6 units of graduate level course work with no grade below a B in each class, and must be recommended for regular admission by a faculty committee. Once those conditions have been met, the department chair can authorize registration for the second semester. If the conditions are not met, the student may be dismissed from the program. Individual exceptions must be approved by the dean of the degree-conferring unit.

Doctoral Admission with Advanced Standing
Some doctoral programs at USC admit students with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution).

A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation preparation, is required for the doctoral degree if students are admitted with Advanced Standing. Additional course work may be required if deemed necessary by the student’s faculty. See Doctoral Admission with Advanced Standing in the Graduate School section on page 97.

Admission to Candidacy
Admission to graduate study does not imply admission to candidacy for an advanced degree and gives no right or claim to be so admitted. Candidacy is determined after the student has demonstrated by work done at USC the ability to do graduate work with originality and independence.

University Faculty
Faculty members shall not be candidates for degrees in the same schools in which they have appointments. In addition, assistant professors on the tenure track should not simultaneously be candidates for degrees anywhere at the university. Individual exceptions to either of these policies may be made only with the approval of the provost or of a special committee appointed by the president. Individual exceptions are considered when the individual submits a request for tuition waiver, which is forwarded for approval to the vice provost for faculty affairs. The form should be accompanied by a memo from the dean of the school. For candidacy within the same school, the dean’s memo explains how conflict of interest issues will be dealt with; for assistant professors on the tenure-track, the memo explains how pursuit of the degree will advance rather than detract from meeting the criteria for tenure.

The Graduate School
The Graduate School establishes and monitors the standards under which students are admitted for study in degree programs under its jurisdiction. An alphabetical listing of degree programs by school can be found under Degree Programs on page 92 of this section.
That listing also indicates the specific degrees which are conferred by the Graduate School. Details of admission standards are provided in the Graduate School section of this catalogue and in the sections of schools and departments providing the curricula for these programs.

**Professional Master's and Doctoral Degrees**

Details of admission standards to professional degrees available at USC are detailed in appropriate school listings. See page 92 for a list of degree programs.

**Dual Degree Programs**

Applicants wishing to pursue a dual degree program offered by the university must apply separately to each degree program, meet the admission requirements of each school, and be admitted by both academic units. Applicants to a professional degree program should consult the particular school for information on admission requirements and programs of study.

---

**Admission of International Students**

The University of Southern California has an outstanding record of commitment to international education. From a small presence during our early history, our international enrollment grew to an average of 200 students by the 1930s. After declining international enrollments in the years surrounding World War II, USC began rebuilding and in 1951 began providing specialized admission services to international students. By 1964, more than 1,000 international students were enrolled at USC. Today, the Office of Graduate Admission serves thousands of prospective students each year by providing both general and specialized information and by maintaining the expertise necessary to evaluate academic records from the various educational systems around the world. The Office of Graduate Admission also issues the required certificates of eligibility (I-20 or DS-2019) to admitted students so that they can apply for a student or scholar visa to enter the United States.

At USC, an international student is an individual of foreign nationality who will be entering or has already entered the United States with a student visa. However, students already residing in the U.S. and holding other non-immigrant visas (such as E2, H1 or L2) are also international students. International students do not qualify for need-based financial aid. U.S. permanent residents, naturalized U.S. citizens and U.S. citizens residing abroad and attending school outside the United States are not considered to be international students and are eligible for need-based financial aid.

**Admission**

International applicants (those who are or will be in the United States on non-immigrant visas) are required to submit the following documents. Additional information may be required by the academic departments. Admission requirements by country are available on the USC Graduate Admission Website and subject to change without prior notice.

1. Application for Admission;
2. Application fee paid by credit card, check or money order drawn on a U.S. bank in U.S. currency and made payable to the University of Southern California must accompany the application; the fee is non-refundable and cannot be deferred;
3. Scores on all examinations required for admission (e.g., SAT, GRE, GMAT, TOEFL, etc.) must be sent to USC by the testing agency;
4. One official copy of academic records with certified English translation;
5. Documented evidence of financial support (see financial guarantee statement);
6. Graduate students must submit letters of recommendation directly to the appropriate academic department, if requested.

**Financial Guarantee Statement**

The United States government requires all international applicants to provide proof of ability to pay tuition and living expenses before a formal letter of admission or the forms needed for obtaining a visa will be issued. International students are also required to have health and accident insurance. The cost of university-provided insurance will be added to the student’s fees unless he or she presents proof of adequate coverage.

Each applicant relying on personal or family support must furnish, at the time of application, an original financial-guarantee letter — preferably a bank letter — indicating the sponsor’s name and address and verifying the ability to pay the annual cost in education-related expenses for the first academic year. This document must be verified by a bank seal. It is crucial for students to submit their financial-guarantee letters with their applications if they wish to receive notification of admission in the most timely manner possible.

Applicants whose financial support will come from their home governments or other official agencies (e.g., AMIDEAST, IIE, etc.) must submit similarly appropriate documents from their sponsors at the time of application.

International students cannot meet the full amount of their educational expenses by working while in the United States. The U.S. Citizenship and Immigration Services (USCIS) rarely allows students to work off-campus, and employment opportunities are further limited by legislation that requires holders of student visas to be full-time students.

**Deadline for International Applications**

Students should send completed applications with the required documents and fee to the Office of Graduate Admission. All international students must follow the deadlines in the application for their particular program of study.

Only an admission letter from the Office of Admission grants official admission; correspondence with department chairs or individual faculty members does not constitute admission.

**Official Document to Enter the United States**

The Office of Admission will issue the I-20 (for the F-1 visa) or DS-2019 (for the J-1 visa), whichever is appropriate, for the student to apply for the visa required to enter the United States. Any students entering the United States by means of these documents issued by USC must register for the semester to which they are admitted to USC. Failure to register disqualifies the student from reapplying for one year from that semester to which admitted and the student’s absence is reported to the Department of Homeland Security in accordance with the U.S. government’s SEVIS regulations.

**Registration Requirements for International Students**

International students must maintain full-time student status as determined by the Office of International Services and the departmental adviser. Such students are not eligible to be considered students without formal registration and are in violation of immigration laws when not properly registered.
Any international student having questions about registration requirements should consult the Office of International Services, Student Union Building 300.

**Admission Evaluations**
Admission evaluations for international students are completed by the Office of Admission. All official transcripts of previous work completed should be directed to the Office of Admission.

**English Language Requirements**
Academic success at USC is strongly dependent upon the ability to communicate in English. Listening, speaking, reading and writing proficiency must be well developed in order to assimilate large amounts of difficult material under limited time conditions with full comprehension. Such proficiency is much greater than that required for ordinary everyday living. Therefore, every effort should be made to acquire English proficiency prior to entering the university.

Admitted international students whose first language is not English are normally required to take the International Student English Examination (ISE Exam), administered by the USC Center for Testing and Assessment at the beginning of the first term of study. The results on the examination determine whether or not students must take special courses in English.

International students who have completed their entire bachelor's degree programs at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the only official language of the country are exempt from having to take the ISE Exam. Also exempt are students who have achieved an Internet-based TOEFL (IBT) score of 100 or higher with no less than a score of 20 on each individual section of the test.

International students applying for a USC teaching assistantship must demonstrate their competence in spoken English before assuming classroom duties. Normally, new international teaching assistants (ITA) demonstrate their English proficiency by taking the ITA Oral Interview Exam, administered by the American Language Institute (ALI) located on the USC campus. Teaching assistantship funding is contingent on international students passing this examination.

The exam must be taken before the first day of classes and must be passed with a score of at least a 5 in order for the student to serve as a teaching assistant. The exam is graded on a scale of 1 to 7. Those who achieve a score of 6 or higher are cleared for classroom duties and have no English requirement. Those who score 5 or 5.5 are cleared for classroom duties, but are required to enroll in an English language course through ALI while performing their ITA responsibilities. Those who score below 5 on the interview are not cleared for classroom duties. These students are normally required to enroll in an English language course offered by ALI until adequate English proficiency is obtained. For more information, call (213) 740-0079 or visit ALI's Website at dornsife.usc.edu/ali.

American Language Institute
Any student not demonstrating adequate English proficiency will be required to enroll in the American Language Institute (ALI) at USC. The ALI provides courses designed to improve an international student's oral and written communication skills in English. The extent to which a student may be required to take courses at the ALI is determined by his or her performance on the International Student English Examination (ISE Exam).

ALI tuition units are charged at the regular university rate. Entering students who need English language classes should be aware that the ALI course requirements will likely increase the overall cost of their degree program. ALI classes can normally be taken concurrently with a student's other university classes and must be completed at the earliest opportunity.

**USC Language Academy**
The USC Language Academy intensive English program offers full-time study in academic English and English for specific purposes. Applicants who wish to study English may apply to the USC Language Academy, 950 W. Jefferson Blvd., JEF 206, Los Angeles, CA 90089-1292. For further information about admissions, courses and program dates, visit the academy's Website at usc.edu/langacad or call (213) 740-0080. Students attending the Academy are issued an I-20 by the USC Language Academy for this course of study only. Those who wish to apply to a graduate-level program must complete the USC Graduate Application. A transfer I-20 will be issued upon admission to the University of Southern California.

---

### Financial Aid for Graduate Students

Graduate students at USC benefit from federal financial aid programs administered by the Financial Aid Office and from scholarships, fellowships and assistantships administered by the Graduate School and various academic departments. In support of the university’s commitment to diversity, fellowships are available for students from groups now under-represented in doctoral study. Several federal agencies and private foundations offer support for students engaged in research in specific fields of study. In addition, many corporations provide fellowships or tuition reimbursements for their employees. USC also offers an interest-free monthly payment plan and participates in long-term loan programs. Students may apply for one or more kinds of aid, depending on eligibility.

Although international students cannot receive federal financial aid, they may be eligible for some scholarships, fellowships and graduate assistantships offered by their schools or departments. International students should contact their departments directly for information about existing opportunities. International students may also be eligible for some private educational loans.

**Financial Support through Graduate Fellowships and Assistantships**
Prospective and continuing students seeking financial support will find opportunities to fund their graduate study through individual schools and departments and through the Graduate School. In general, fellowships and graduate assistantships are offered only to students pursuing the Ph.D. degree.

**Acceptance of Offers of Financial Assistance**
USC subscribes to the following resolution of the Council of Graduate Schools in the United States regarding deadlines and acceptance of offers for graduate scholars, fellows, trainees and assistantships.
Acceptance of an offer of financial assistance (such as graduate scholarship, fellowship, traineeship or assistantship) for the next academic year by an actual or prospective graduate student completes an agreement that both the student and the university are expected to honor. In those instances in which the student accepts the offer before April 15, and subsequently desires to withdraw, the student may submit in writing a resignation of the appointment at any time through April 15. An acceptance given or left in force after April 15, however, commits the student to not accept another offer without first obtaining written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer.

Graduate Assistantships
Graduate assistantships are awarded each year by departments of the university to Ph.D. students on the basis of scholastic accomplishment, academic promise and competence. They fall under the jurisdiction of the Graduate School. Procedures and practices can be found in The Graduate Assistant Handbook on the Graduate School Website. Only students in good academic standing with GPAs of 3.0, acceptable TOEFL scores, and who are regularly enrolled in USC graduate degree programs are eligible for appointment as graduate assistants and may be offered a semester-by-semester appointment up to a maximum of one year at a time. All graduate assistants are under direct and assigned supervision of regular faculty members and report regularly on the conduct and performance of their responsibilities to the supervising faculty. These awards include positions as teaching assistants, research assistants and assistant lecturers. Assistant lecturers may be appointed only with the approval of the vice provost for graduate programs. The Graduate Assistant Handbook can be found at usc.edu/colleges/GraduateSchool/current_guidelines_form.html.

Application Procedures and Eligibility Requirements for Federal Financial Aid
Detailed information, application procedures and deadlines for federal financial aid are available online at usc.edu/financialaid. To be eligible for federal financial aid programs students must be U.S. citizens, permanent residents or other eligible non-citizens; have a valid Social Security number; meet Selective Service registration requirements; enroll at least half-time; meet Satisfactory Academic Progress requirements; and meet all other eligibility requirements. Students must also complete all application requirements by the relevant deadline. With certain exceptions, as noted below, students must be enrolled in a degree-seeking program or eligible certificate program at USC to be eligible for federal financial aid.

Federal Work-Study
The Federal Work-Study program enables eligible students to earn funds through employment either on campus or with an approved off-campus employer. Only full-time (eight or more units) students with high financial need who meet all application deadlines are considered for this program.

Federal Loans
Subsidized* and Unsubsidized Federal Direct Stafford Loans and Federal Direct Graduate PLUS Loans are available to eligible students. The Health Professions Student Loan, Loans for Disadvantaged Students and Primary Care Loan programs provide loans to students in the health professions. Federal Perkins Loans may be awarded to eligible students who meet all application deadlines. For details about federal loan programs and application requirements, visit usc.edu/financialaid/loans.

*Recent changes in federal law will prohibit graduate and professional students from receiving Subsidized Federal Direct Stafford Loans for enrollment periods beginning on or after July 1, 2012.

Private Financing Programs
Private financing programs are available to help students meet the costs of education by providing long-term financing options. Students should exhaust all federal Title IV assistance available, including the Federal Direct Stafford Loan and Federal Direct Parent PLUS Loan before considering a private student loan program. The repayment terms of federal programs may be more favorable than the terms of private loan programs.

Teacher Education Assistance for College and Higher Education (TEACH) Grant
The TEACH Grant is available for students in the Masters of Arts, Teaching (MAT) program. It is awarded to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families.

Financial Aid for Enrollment in a Progressive Degree Program
In most cases, students admitted to a progressive degree program will be classified as undergraduate students for financial aid and registration purposes during the first eight semesters of college enrollment, regardless of whether they enroll in undergraduate or graduate courses. Beginning in the ninth semester, students will be considered graduate students for financial aid and registration purposes and are ineligible for undergraduate financial aid. Students are immediately classified as graduate students and are ineligible for undergraduate financial aid once all undergraduate degree requirements have been completed or the undergraduate degree is posted, even if they have completed fewer than eight semesters. For this reason, financial aid applicants may wish to schedule their courses such that undergraduate degree requirements are not completed prior to the eighth semester and the exhaustion of their undergraduate financial aid eligibility. Students who receive a research assistant or a teaching assistant award before completing eight semesters will be classified as graduate students and will be ineligible to receive undergraduate financial aid.

Financial Aid for Enrollment in a Certificate Program
Students enrolled at least half-time in a graduate certificate program may be eligible for the Federal Direct Stafford Loan and Federal Direct Graduate PLUS Loan if the program has been determined to be eligible for federal financial aid. Contact your academic department or the Financial Aid Office for information about whether your program qualifies for financial aid.

Financial Aid for Limited Status Enrollment
Students not admitted to a degree-seeking program or eligible certificate program at USC who enroll as limited-status students are not eligible for federal financial aid, unless they meet one of the exceptions noted in the Consortium Agreements and preparatory course work sections.

Financial Aid Consortium Agreements
Students admitted to degree-seeking or eligible certificate programs at USC who enroll at another eligible institution in courses applicable to their USC degrees or certificates may have those courses considered in USC’s determination of their eligibility for limited federal financial aid. The student's total USC and/or non-USC enrollment must be at least half-time and a financial Aid Consortium Agreement must be completed. Contact the Financial Aid Office for more information.

Visiting students enrolled at USC as limited-status students may be eligible for limited federal financial aid through a Financial Aid Consortium Agreement if: 1) they are admitted to a degree-seeking or eligible certificate program at their home school; 2) their USC courses apply to their degree or certificate; and 3) the student's total USC and/or non-USC enrollment is at least half-time. Contact the Financial Aid Office for more information.
Financial Aid for Students Enrolled in Preparatory Course Work
Students enrolled at least half-time in undergraduate courses required for admission to a degree program may be eligible for limited Federal Direct Stafford Loan funds. For more information, contact the Financial Aid Office.

Withdrawal Implications for Recipients of Financial Aid
For complete information, see page 56.

Financial Aid Policy Regarding Falsification of Financial Aid Information
For the complete policy, see page 55.

Satisfactory Academic Progress

Satisfactory Academic Progress Policy
Eligibility
To be eligible for federal financial aid, graduate and professional students must maintain satisfactory academic progress (SAP), which includes maintaining the academic standards and degree progress required for their programs of study, as well as completing the degree within a maximum number of attempted units and a maximum number of semesters enrolled.

Reasonable Degree Progress
To be eligible for financial aid, graduate and professional students must be making reasonable degree progress. Reasonable degree progress for graduate and professional students is defined by their respective programs in accordance with university policy as stated in the Catalogue.

Maximum Unit Allowance
Students pursuing graduate and professional degrees can apply for financial aid for up to the maximum number of units of course work required for the particular program of study. Course work transferred to the university in partial fulfillment of the degree requirements will be subtracted from the unit allowance.

Maximum Semester Allowance
Students pursuing graduate and professional degrees can apply for financial aid for the equivalent of up to eight full-time semesters for a master's degree and 10 full-time semesters for a doctoral degree.

Students in authorized dual-degree programs of generally longer duration than single-degree programs may be granted an increase in the semester allowances commensurate with the additional program requirements.

Failure to Maintain Satisfactory Academic Progress
Students whose academic standing or degree progress falls below the standard will be placed on financial aid warning during the next semester of registration. If their academic standing or degree progress is not raised to the standard by the end of the financial aid warning semester, the student will be considered ineligible and all financial aid will be terminated for this student until the requirements have been met. In addition, students on warning who receive grades of D, W, UW, IN, F, IX, MG, NC, NR, NP and V will no longer be considered to be making satisfactory academic progress and will become immediately ineligible for financial aid. Students who exceed the maximum unit or semester allowance are ineligible for financial aid. Only one, one-semester financial aid warning is available to students throughout their degree programs. Students who subsequently fall below the standard will be considered ineligible for financial aid.

Regaining Financial Aid Eligibility
Students who are notified that they are on financial aid warning should consult their academic adviser. Students who are no longer eligible for financial aid may have their eligibility reinstated if they successfully complete sufficient units and/or improve their academic averages to meet stated requirements.

Students with extenuating circumstances may appeal the determination that they are not meeting satisfactory academic progress requirements. The following can be considered: extended illness; one-time extenuating circumstances that have since been resolved; and enrollment limitations due to academic advisement. The student and adviser must submit a Satisfactory Academic Progress Appeal form with complete supporting documentation to the Financial Aid Office. The student must also provide a written appeal that includes the following information/explanation: (a) What caused the work at USC to fall below acceptable standards? Students should be specific. (b) How have those conflicts been resolved? (c) How does the student intend to maintain good academic standards and progress toward his or her degree if the appeal is granted? The appeal will be evaluated and the student will be notified of the decision. Some appeals are approved semester-by-semester by SAP Contract. Students placed on a SAP Contract are eligible for financial aid strictly according to the terms of the contract. The contract is an agreement between the student, the academic adviser and the Financial Aid Office in which the student commits to following a specific academic plan. Any deviation by the student from the terms of the contract will result in the forfeiture of future financial aid eligibility.

Students who are not meeting satisfactory academic progress standards and degree progress required for their programs of study, as well as completing the degree within a maximum number of attempted units and a maximum number of semesters enrolled.

Reasonable Degree Progress
To be eligible for financial aid, graduate and professional students must be making reasonable degree progress. Reasonable degree progress for graduate and professional students is defined by their respective programs in accordance with university policy as stated in the Catalogue.

Maximum Unit Allowance
Students pursuing graduate and professional degrees can apply for financial aid for up to the maximum number of units of course work required for the particular program of study. Course work transferred to the university in partial fulfillment of the degree requirements will be subtracted from the unit allowance.

Maximum Semester Allowance
Students pursuing graduate and professional degrees can apply for financial aid for the equivalent of up to eight full-time semesters for a master's degree and 10 full-time semesters for a doctoral degree.

Students in authorized dual-degree programs of generally longer duration than single-degree programs may be granted an increase in the semester allowances commensurate with the additional program requirements.

Satisfactory Academic Progress

Satisfactory Academic Progress Policy
Eligibility
To be eligible for federal financial aid, graduate and professional students must maintain satisfactory academic progress (SAP), which includes maintaining the academic standards and degree progress required for their programs of study, as well as completing the degree within a maximum number of attempted units and a maximum number of semesters enrolled.

Reasonable Degree Progress
To be eligible for financial aid, graduate and professional students must be making reasonable degree progress. Reasonable degree progress for graduate and professional students is defined by their respective programs in accordance with university policy as stated in the Catalogue.

Maximum Unit Allowance
Students pursuing graduate and professional degrees can apply for financial aid for up to the maximum number of units of course work required for the particular program of study. Course work transferred to the university in partial fulfillment of the degree requirements will be subtracted from the unit allowance.

Maximum Semester Allowance
Students pursuing graduate and professional degrees can apply for financial aid for the equivalent of up to eight full-time semesters for a master's degree and 10 full-time semesters for a doctoral degree.

Students in authorized dual-degree programs of generally longer duration than single-degree programs may be granted an increase in the semester allowances commensurate with the additional program requirements.

Failure to Maintain Satisfactory Academic Progress
Students whose academic standing or degree progress falls below the standard will be placed on financial aid warning during the next semester of registration. If their academic standing or degree progress is not raised to the standard by the end of the financial aid warning semester, the student will be considered ineligible and all financial aid will be terminated for this student until the requirements have been met. In addition, students on warning who receive grades of D, W, UW, IN, F, IX, MG, NC, NR, NP and V will no longer be considered to be making satisfactory academic progress and will become immediately ineligible for financial aid. Students who exceed the maximum unit or semester allowance are ineligible for financial aid. Only one, one-semester financial aid warning is available to students throughout their degree programs. Students who subsequently fall below the standard will be considered ineligible for financial aid.

Regaining Financial Aid Eligibility
Students who are notified that they are on financial aid warning should consult their academic adviser. Students who are no longer eligible for financial aid may have their eligibility reinstated if they successfully complete sufficient units and/or improve their academic averages to meet stated requirements.

Students with extenuating circumstances may appeal the determination that they are not meeting satisfactory academic progress requirements. The following can be considered: extended illness; one-time extenuating circumstances that have since been resolved; and enrollment limitations due to academic advisement. The student and adviser must submit a Satisfactory Academic Progress Appeal form with complete supporting documentation to the Financial Aid Office. The student must also provide a written appeal that includes the following information/explanation: (a) What caused the work at USC to fall below acceptable standards? Students should be specific. (b) How have those conflicts been resolved? (c) How does the student intend to maintain good academic standards and progress toward his or her degree if the appeal is granted? The appeal will be evaluated and the student will be notified of the decision. Some appeals are approved semester-by-semester by SAP Contract. Students placed on a SAP Contract are eligible for financial aid strictly according to the terms of the contract. The contract is an agreement between the student, the academic adviser and the Financial Aid Office in which the student commits to following a specific academic plan. Any deviation by the student from the terms of the contract will result in the forfeiture of future financial aid eligibility.

Students who are not meeting satisfactory academic progress standards and degree progress required for their programs of study, as well as completing the degree within a maximum number of attempted units and a maximum number of semesters enrolled.

Reasonable Degree Progress
To be eligible for financial aid, graduate and professional students must be making reasonable degree progress. Reasonable degree progress for graduate and professional students is defined by their respective programs in accordance with university policy as stated in the Catalogue.

Maximum Unit Allowance
Students pursuing graduate and professional degrees can apply for financial aid for up to the maximum number of units of course work required for the particular program of study. Course work transferred to the university in partial fulfillment of the degree requirements will be subtracted from the unit allowance.

Maximum Semester Allowance
Students pursuing graduate and professional degrees can apply for financial aid for the equivalent of up to eight full-time semesters for a master's degree and 10 full-time semesters for a doctoral degree.

Students in authorized dual-degree programs of generally longer duration than single-degree programs may be granted an increase in the semester allowances commensurate with the additional program requirements.
**Course Work Taken Elsewhere**

Admitted students receive a transfer credit report showing unit and subject credit granted for graduate courses.

For course work taken at universities within the United States, the Degree Progress Department will prepare the transfer credit report. For course work taken at universities outside the United States, the Graduate Admissions Office will review the academic credentials and the academic department will determine subject credit granted.

**Accreditation**

The University of Southern California affirms the practice of accreditation of American post-secondary academic institutions by the six regional accreditation agencies: the Middle States Association of Colleges and Schools, the North Central Association of Colleges and Schools, the New England Association of Schools and Colleges, the Northwest Association of Schools and Colleges, the Southern Association of Colleges and Schools, and the Western Association of Schools and Colleges. Acceptance of course work and/or degrees completed by undergraduate and graduate students applying to the University of Southern California will generally be based on accreditation by these six agencies. Certain graduate schools, seminars, conservatories and professional institutions of national renown that are not accredited by a regional agency may be considered for graduate transfer work by the Articulation Office in consultation with the USC department or professional school to which the student is applying.

Acceptance of course work and/or degrees from post-secondary institutions overseas will be based on the recognition and approval of the college or university as a degree-granting institution by the Ministry of Education within the respective country.

**Transfer Credit**

**Transfer of Course Work**

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. Faculty of the student's degree program determine whether such credit is applicable toward a specific graduate degree, subject to approval by the dean of the degree-conferring unit. The faculty's decision should be made no later than the end of the first year in a master's program or the second year in a doctoral program.

Credit will only be allowed for courses (1) from an accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and (4) logically fitting into the program for the degree. Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation.

Graduate transfer credit will not be granted for life experience, credit by examination, extension courses not accepted toward a degree by the offering institution, correspondence courses or thesis supervision. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC unless the student receives prior written approval from the department. Students may not take courses elsewhere as a substitute for courses in which they have received grades that fail to meet departmental or university requirements.

Transfer work must have been completed within seven years of admission to a USC master's degree program (or 10 years for a doctoral program) to be applied toward that degree. Departments have the option of reevaluating transfer work when a student is readmitted to a USC graduate degree program. Requests for exceptions should be directed to the dean of the degree program for approval.

The faculty of a degree program may establish limits on the number of transfer credits stricter than those of the university, which follow:

1. Courses used toward a degree completed elsewhere may not be applied toward a master's degree at USC. If courses were not used toward a completed degree, the maximum number of transfer credits that may be applied toward a master's degree, subject to departmental approval, is: four units in degree programs requiring 24-32 units; eight units in programs requiring 33-40 units; 12 units in programs requiring 41 or more units. Except in formally designated dual degree programs, the same limits apply if a student wishes to transfer credits from any advanced degree previously completed at USC toward a master's degree.

2. A maximum of 30 units of transfer credit may be applied toward a doctoral degree.

3. It is not permitted to apply more than 6 units of transfer credit toward a doctoral degree with Advanced Standing. Admission with Advanced Standing is based upon a completed graduate degree. The only course work available for transfer credit is course work taken after completion of that degree. No exceptions are allowed.

4. A maximum of 4 units of transfer credit may be applied toward an approved dual degree program.

**Proof of Prior Degree**

Students applying for graduate degrees conferred by the Graduate School must hold a baccalaureate degree or its equivalent from an accredited college or university comparable in standard to that awarded at USC. Students who have earned a master's degree from an accredited U.S. institution with a GPA of 3.0 or higher may have the baccalaureate degree requirement waived after review. Diplomas granted for a preponderance of life experience, portfolio or equivalency examinations are not considered appropriate preparation for acceptance into USC's graduate degree programs and are not the equivalent of USC's undergraduate degrees. Verification of a completed undergraduate degree must be provided before enrollment in a second semester at USC.
The University Committee on Curriculum (UCOC) must approve policies and procedures for considering individual exceptions within any specific program of study. Program exceptions to the transfer of course work policies require the approval of the UCOC and are listed in the departmental sections of this catalogue. Departments establishing lower maximum limits may waive their own policy (within the university’s limits) by approval of the dean of the degree-conferring unit.

**Application of Previous USC Course Work to a Current Degree**

USC course work taken prior to matriculation to a current USC degree program must have been completed within seven years of admission or readmission to a master’s degree program (or 10 years for a doctoral program) to be applied toward that degree. Exceptions require approval from the vice provost for graduate programs.

**Credit Evaluation**

The purpose of the evaluation is to verify all previously earned degrees and may list graduate course work completed at other institutions which is available for consideration toward the USC degree. Students who intend to apply transfer course work toward a USC degree program can request a comprehensive credit evaluation through the Degree Progress Department. Only courses with a grade of B (3.0) and above are available for transfer. These courses do not apply toward a specific USC degree unless approved by the student’s major department and school.

---

### Requirements for Graduation

**Catalogue Regulations, Policies and Procedures**

In addition to degree requirements outlined below, undergraduate and graduate students are also subject to current catalogue regulations, policies and procedures. Examples include, but are not limited to, the policies on the grades of incomplete (IN), missing grade (MG) and continuous enrollment for graduate students. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

**Graduation Date**

A student will be awarded the graduation date for the term in which degree requirements, including submission of supporting documents, have been met. Although course work may have been completed in a prior term, the degree will be awarded only for the term for which all academic and administrative requirements have been fulfilled. Application for the degree is a requirement for all graduate degrees. Students wishing to change the degree date from that indicated on the STARS report should file a Change of Information card with the revised degree date. The cards are available in the Degree Progress Department in Hubbard Hall 1010. Degrees are not awarded retroactively.

**Discontinued Degree Programs**

Students pursuing major programs that the university discontinues will be allowed to complete them within a specified time limit. The time limit will be specified at the point of discontinuance of a major program and begins at that point. It is determined according to the student’s progress toward degree completion and will not exceed five years for any student.

**Closed Record**

The academic record of a student who has completed the program of study or ceased attendance is considered closed. Once a student’s record is closed, no further additions or changes may be made. This includes, but is not limited to, such things as change of name, registering in additional course work, resolution of marks of incomplete (IN), missing grade (MG), etc.

**Degree Requirements**

All graduate students must meet both university degree requirements and those degree requirements specific to their program of study to receive an advanced degree. University degree requirements consist of grade point averages, unit, residence and time limit requirements. Degree requirements specific to a student’s program of study consist of course, examination and research requirements. University degree requirements and degree requirements specific to the program of study are collectively defined as degree requirements. Graduate students may elect to follow (a) the degree requirements in the catalogue current for the semester of their admission to the degree program or (b) degree requirements in subsequent catalogues as long as they are continuously enrolled (see Continuous Enrollment, page 88). However, they may not mix catalogues. Graduate students who discontinue their enrollment without a leave of absence approved by the dean of the degree program (see Leave of Absence, page 89) will be subject to the degree requirements in effect for the semester of their readmission to the program. Students requesting exceptions to the catalogue year should petition the dean of the degree program.

**Time Limit for Degree Completion**

Students must maintain satisfactory progress toward their stated degree objective at all times. Progress is measured from the beginning of the first course at USC applied toward a specified degree, and all requirements for that degree must be completed within a specified time. The maximum time limit allowed for each degree is considerably greater than what is needed to complete all requirements. Departments may set more stringent time limits than those specified in this section.

The time limit for completing the master’s degree is five years. The time limit for completing the doctoral degree is eight years. For students who earned an applicable master’s degree within five years prior to admission to the doctoral program, the time limit for completing the doctoral degree is six years from the date of admission to the doctoral program. An academic department may grant an extension of one semester at a time, up to a maximum of two years. For Ph.D. students all extensions must also have the approval of the dean of the degree program.
In unusual cases, a student's committee and the department chair may petition the Graduate School for further extensions.

Students who have exceeded the time limit for completing their degree program will not be permitted any further registrations. If granted an extension of time, the dean of the degree-conferring unit will permit registration for the specified period of extension. Approved leaves of absence (up to a total of two years or four semesters) are not counted in the time allowed for completion of degree requirements.

The time limits apply unless otherwise designated by the faculty and previously approved by the University Committee on Curriculum for a particular degree program.

### Progressive Degree Programs

Applicants for a progressive degree program must have completed 64 units of course work applicable to their undergraduate degree since graduating from high school. (AP, IB units and course work taken prior to high school graduation are excluded.) Applicants must submit their application before completing 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. Applicants do not have to submit GRE scores but are expected to have at least a 3.0 GPA at the time of application.

The Application for Admission to a Progressive Master's Program must be approved by the deans of the bachelor’s and the master’s degree-granting schools at USC and submitted to the Degree Progress Department. An approved course plan proposal and letters of recommendation from two USC faculty members must be submitted with the application, with at least one of the recommendations coming from a faculty member in the student's bachelor’s degree major department.

Progressive degree program students must fulfill all the requirements for both the bachelor’s degree and the master’s degree. The total number of units for the master’s degree, however, may be reduced by a maximum of one-third. A minimum of two-thirds of the units required for the master's degree must be at or above the 500 level. Students will be subject to undergraduate academic progress standards while in undergraduate status and master's academic progress standards while in graduate status. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree. The time limit for completing a progressive degree program is 12 semesters.

In most cases, students will be classified as undergraduate students for the first eight semesters of college enrollment. In the ninth semester, students will be changed to graduate status. While classified as an undergraduate, students will be assessed the undergraduate tuition rate and the enrollment status will be determined by undergraduate standards. While classified as graduate students, students will be assessed the graduate tuition rate appropriate for their master's degree program and the enrollment status will be determined by graduate standards.

Students are immediately classified as graduate students and are ineligible for undergraduate financial aid once the undergraduate degree posts, even if they have completed fewer than eight semesters. Financial aid applicants may wish to postpone the posting of the undergraduate degree until they have exhausted their undergraduate financial aid eligibility.

Students who have completed the 128 units to be eligible for a research assistant or teaching assistant award. (AP, IB and transfer units may be used in the calculation of the degree.

Detailed information about specific progressive degree programs is listed in the corresponding school section.

### Dual Degree Programs

Dual degree programs offer graduate students the opportunity to concurrently complete requirements for two degrees. Students enrolled in dual degree programs must complete all requirements for the dual degree program and then be awarded both diplomas at the same time. The academic units that offer these programs frequently adjust the requirements for each degree to take into account the correlations between required course work. Students who have completed all the requirements for one of the degree programs and who decide to withdraw from the dual degree program may receive the appropriate single diploma. Students who have withdrawn from the dual degree program to receive the appropriate single diploma and later decide to complete the second degree must apply for admission, be admitted and then fulfill all requirements for the second degree. Detailed information regarding dual degree programs is listed in the appropriate school section. A list of dual degrees is on page 94.

### Grade Point Average Requirement

At no time should the overall GPA drop below 3.0. A minimum grade of C (2.0) is required in a course to receive graduate credit. Work graded C- or below is not acceptable for subject or unit credit toward any master's or doctoral program. An overall grade point average of at least 3.0 on all units attempted at USC while a graduate student is required for graduation, whether or not all such units are applied toward the degree. In some cases, the University Committee on Curriculum has approved different GPA requirements for professional schools. The university will not deviate from policies governing the calculation of the grade point average through inclusion or exclusion of course work.

### Unit Requirement

The course of study for the master's degree must include at least 24 units in required and elective courses. In addition, students in a program requiring a thesis must register for four units of 594ab Master’s Thesis. The minimum unit requirement for a master’s degree is established at the time the program is approved and may not be waived. At least 20 of these units must be completed at USC. The minimum number of units for a doctoral degree is 60, at least 24 of which (exclusive of Doctoral Dissertation 794) must be completed at USC. In addition, at least one-half of the total number of units applied toward a graduate degree must be completed at USC. The minimum number of units for a doctoral degree with Advanced Standing upon entrance is 36. No exceptions are allowed.

A department or school which has a graduate program approved by the university requiring a higher minimum may not waive that requirement. The unit requirement for a dual degree program is established at the time the program is approved by the university and may not be waived.

Regardless of the number of units specified in the university catalogue as required for a graduate degree, at least two-thirds of the units applied toward the degree (including transfer work and not including 594 or 794) must be at the 500 level or higher. Students with Advanced Standing in doctoral programs may not apply additional 400-level course work toward that degree; individual exceptions will not be allowed. Some degree programs, where designated by the faculty and approved by the University Committee on Curriculum, permit a higher maximum number of 400-level units.

Unit credit indicates the number of semester units earned in the course; these units may or may not be applicable to the degree. Degree credit indicates the units are applicable to the degree.
Residence Requirements
A minimum of 20 graduate units at USC is required for the master’s degree; 24 units for the doctoral degree.

Residence for a graduate degree program at USC is a period of intensive study completed on the University Park Campus, the Health Sciences Campus and/or at one of the approved off-campus study centers. Each degree-conferring unit may establish a school residence policy. School residence requirements as presented in the USC Catalogue are approved by the University Committee on Curriculum and are to be interpreted consistent with university policies on continuous enrollment, leaves of absence, transfer of credit and time limits for completion of graduate degrees. Individual exceptions must be approved by the vice provost for graduate programs.

Pass/No Pass Graded Work
Graduate students may elect to enroll in courses on a pass/no pass basis with department approval. Course work taken on a pass/no pass basis cannot be applied toward a graduate degree. If a student later requires the course for a degree program (because of a change in degree objective or a decision to obtain an additional degree), the degree-granting unit can decide to allow subject credit for the course and require a substitute course for the unit credit. Individual departments may have placed further restrictions on whether a course taken on a pass/no pass basis can be used to fulfill specific requirements.

All students should consult their academic advisers before enrolling in any course on a pass/no pass basis.

Waiver and Substitution of Course Requirements
Students admitted to graduate degree programs are expected to complete the degree requirements listed in the USC Catalogue. A maximum of 25 percent of the stated degree course requirements (exclusive of 594 Master’s Thesis and 794 Doctoral Dissertation) may be approved for waiver or substitution by other USC course work, directed research or transfer course work. Substitution of courses with the same prefix are exempted from this limit, as are transfer courses in the same discipline and graduate degree programs with three or fewer specified required courses as part of the entire degree program.

Individual academic programs/departments may approve substitutions and waivers within this limit for their programs. In rare instances, the program or department can request approval of additional substitutions from the dean of the degree program. Waivers or substitutions of over 25 percent should be very rare and will be periodically reviewed by the vice provost for graduate programs.

The very exceptional case of waivers or substitutions over 50 percent must be approved by the vice provost for graduate programs.

Programs establishing a lower maximum substitution limit may waive their own policy by approval of the dean of the academic school. Waiver or substitution of course requirements does not reduce the minimum number of units required for the degree.

Second Master’s Degree
A “second master’s degree” is any master’s degree pursued after a first master’s degree is earned at USC. The maximum number of units which may be applied toward the second master’s degree for course work taken from a first master’s degree at USC is: 4 units toward degree programs requiring 24-32 units; 8 units toward programs requiring 33-40 units; 12 units toward programs requiring 41 or more units. Second master’s degrees are not allowed in the same program of study for students who earned their first master’s degree at USC.

For students who earned their first master’s degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master’s degree. Subject credit could be awarded if approved through a petition process to the dean of the degree program. Program exceptions require approval of the University Committee on Curriculum and are listed in the departmental sections of this catalogue. No individual exceptions are allowed.

Enrollment Status
To be considered full time, a master’s level student must be enrolled in a minimum of eight units of 400- and 500-level course work, and a doctoral level student must be enrolled in a minimum of six units of 500-level and above course work. All graduate assistants are classified as full-time students during the semester(s) of their appointments as long as they are enrolled for the minimum units required for their assistantship. In order to make normal progress toward the timely completion of course work for a graduate degree, most students will be enrolled for 12 units; 16 units will constitute a maximum load. Students wishing to carry more than 16 units must have prior permission from the degree-conferring unit; such permission will be granted only in exceptional circumstances.

A student who has completed all course work for the master’s degree will be considered full time when properly enrolled in either 594 Master’s Thesis or GRSC 810 Studies for the Master’s Examination.

A student who has completed all course work for the doctoral degree (except dissertation registration) will be considered full time during the semester in which the student is preparing for the doctoral qualifying examination, provided the Request to Take the Qualifying Examination has been submitted and approved for that semester and the student is enrolled in the course GRSC 800 Studies for the Qualifying Examination. Students should not enroll in more than three semesters of GRSC 800. Doctoral students who have been advanced to candidacy, that is, who have completed all course work and have passed the qualifying examination, will be considered full time when properly enrolled in 794 Doctoral Dissertation. In addition to GRSC 800/810 and 594 Master’s Thesis and 794 Doctoral Dissertation, there are several other courses and programs as determined by the Dean of Academic Records and Registrar for which enrollment confers full-time status. Students should consult their academic unit for this information.

International students on student visas must be enrolled as full-time students or must receive authorization from the Office of International Services to enroll in fewer than the minimum units. Such students are not eligible to be considered students without formal registration and are in violation of immigration laws when not properly enrolled. Any international student having questions about his or her registration should consult the Office for International Services.

Continuous Enrollment
Students are considered to be pursuing advanced degrees only when they are formally enrolled. Students admitted to a graduate degree objective are required to be enrolled at USC for fall and spring semesters each year until all degree requirements have been satisfactorily completed within the time limit. Enrollment in graduate-level course work is necessary to meet this requirement. Graduate students who fail to register are no longer considered to be enrolled in a graduate degree program. After an unauthorized absence, formal readmission is required. Students who have been granted a leave of absence do not need to apply for readmission following the approved leave. Where appropriate to the design of a given academic program, the faculty of the program may obtain the permission of the University Committee on Curriculum for a different definition of continuous enrollment.
A master's candidate who is writing a thesis and has completed all course work for the degree must enroll each fall and spring semester in the appropriate thesis registration until the thesis has been approved. A doctoral candidate who has passed the qualifying examination must enroll each fall and spring semester in 794 Doctoral Dissertation until the dissertation has been approved. It is expected that students will enroll in no more than eight semesters of 794 Doctoral Dissertation. Please note that some courses with no academic credit require payment of tuition. Most classes with course numbers ending in z (e.g., 594z and 794z) require payment of 2 units of tuition.

Exceptions to continuous enrollment are subject to policies governing continuous enrollment and readmission.

Leave of Absence

Interruptions of enrollment can cause problems in the continuity of course work within a student’s graduate program and, therefore, leaves of absence are generally discouraged.

A student in good standing and making satisfactory progress toward a degree who must interrupt studies for compelling reasons (e.g., approved study abroad, sustained illness) may petition for a leave of absence for a stated period, usually one semester. Students who find it necessary to be excused from registration must request a leave of absence by the last day to drop or add courses. The request should include a plan for academic progress upon return. A leave must be requested before the drop-add deadline and approved by the dean of the degree program, the committee chair and the department chair, if applicable. During the period of leave a student is not entitled to assistance from the faculty or use of university facilities. If granted, the leave is recorded on the student’s transcript and the period of leave is not counted in the time allowed for the completion of degree requirements. Within the degree time limit, a leave of absence may be allowed for one semester at a time, up to a maximum of four semesters. A student who does not return to enrolled status at the end of an approved period of leave is no longer considered to be pursuing an advanced degree. Students who fail to apply for a leave of absence or for whom a leave has been denied (or has expired) are subject to policies governing continuous enrollment and readmission.

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. For more information, refer to the Withdrawal Implications for Recipients of Financial Aid section, page 56.

Readmission

A student who leaves the university without obtaining a formal leave of absence from graduate study is not automatically readmitted. A student wishing to apply for readmission to a graduate degree program must first get the recommendation of the department chair and submit an Application for Readmission to the dean of the degree program. However, if the cumulative GPA is below 3.0, or if readmission is sought after more than two years of an unapproved absence, the Application for Readmission must be sent to the Graduate School for approval. The readmission approval process must be completed by the first day of classes for the term in which resumption of graduate studies is sought. Approvals are to be based on the academic merits of the student’s request. If readmitted, the student will be subject to all of the current University Catalogue requirements for the degree in effect at the time of readmission. Individual exceptions to the Catalogue year require the approval of the dean of the degree program. Students seeking readmission after an absence of more than 10 years may be required to re-apply to the university.

A student may not be readmitted into a program of study that has been terminated. The student must either be subject to retroactive enrollment or admission to the new program of study with the corresponding catalogue requirements.

Comprehensive and Qualifying Examinations

In graduate degree programs that require a comprehensive examination and for all doctoral qualifying examinations, a student who fails the examination may be permitted, at the discretion of the faculty, to take it a second time. For time limits on retaking the comprehensive examinations, consult the individual school’s policy. For more information on the Ph.D. qualifying examination, consult the Graduate School section of the Catalogue, page 97.

Requests for exception must be approved by the department chair.

A student may not take the comprehensive or qualifying examination more than twice and must be appropriately enrolled at USC during the semester in which any such examination is taken or retaken. A student who fails the comprehensive or qualifying examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

Application for Graduate Degrees

Application for the degree is required for all graduate degrees. Application for the master’s degree should be made in the student’s academic unit in the semester preceding the one in which the student hopes to graduate and prior to enrolling in 594a. Application for the Ph.D. should be made when the student has passed the qualifying exam and been admitted to candidacy. At least one semester prior to expected graduation, the student must contact his or her academic advisor and have the application submitted online. When the application is received by the Degree Progress office, a STARS report will be issued to the student. The degree cannot be conferred if no application has been submitted.

Theses and Dissertations

See the Theses and Dissertation section in the Graduate School section on page 100.

International Study

Graduate Study Abroad

The Graduate School provides referral to information sources about nationally competitive fellowships, grants, awards, and opportunities for graduate study abroad.

Any non-USC administered overseas study programs or any courses taken abroad by currently enrolled USC students must be reviewed and pre-approved by the Office of Admission and Degree Progress prior to enrollment.

School Programs

Many schools and departments offer international study opportunities and internships. Refer to the school sections of the Catalogue for specific information.

Director: Edward Finegan, Ph.D.

Program Manager: Dana Coyle

Faculty Fellows: Eric Ben-Isaac, Clinical Pediatrics; Edward Finegan, Linguistics and Law; Steven Finkel, Molecular Biology; Wayne Glass, International Relations; Brenda Goodman, Cinematic Arts; Win May, Medical Education; Tara McPherson, Cinematic Arts; Najm Meshkati, Civil and Environmental Engineering; Geoffrey Middlebrook, The Writing Program; Sally Pratt, Slavic Languages and Literature; Steven Ross, History; Sam Safadi, Aerospace and Mechanical Engineering; Karen Sternheimer, Sociology; Katherine Sullivan, Biokinesiology and Physical Therapy; Theresa Woehrle, Family Medicine

Distinguished Faculty Fellows: J. Lawford Anderson, Earth Sciences; Sarah Banet-Weiser, Communication; Warren Bennis, Management and Organization; Nelson Eugene (Gene) Bickers, Physics; Sharon M. Carnicke, Theatre; Steven Chen, Pharmacy; Delores Conway, Information and Operations Management; Frank Corsetti, Earth Sciences; Gerald C. Davison, Psychology; William Deverell, History; Donna Elliott, Pediatrisc-Kck; Judy Garnez, Cell and Neurobiology; Howard Gillman, Political Science; Stephan Haas, Physics and Astronomy; Heather James, English; Mark E. Kann, Political Science; James Kincaid, English; Paul W. Knoll, History; Steven L. Lamy, International Relations; Nancy Lutkehaus, Anthropology; Debbie MacInnis, Business; Frank Manis, Psychology; Doe Mayer, Cinematic Arts; William O. McClure, Biological Sciences; William F. McComas, Education; Charles McKenna, Chemistry; Beth Meyerowitz, Psychology; Danielle Milram, French and Italian; Michael W. Quick, Biological Sciences; Nandini Rajagopalan, Management and Organization; Alison Dunes Renteln, Political Science; Margaret Rosenthal, French and Italian; Steven B. Sample, Honorary Distinguished Faculty Fellow; Joel E. Schechter, Cell and Neurobiology; Terry Lee Seip, History; Geoffrey Spedding, Aerospace and Mechanical Engineering; Craig B. Stanford, Anthropology; Peter Starr, French and Comparative Literature; Nelly Stromquist, Education; Armand R. Tanguay, Jr., Engineering; S. Mark Young, Accounting; John Walsh, Gerontology; Bruce E. Zuckerman, Religion

Committed to the development and advancement of learner-centered education, CET’s mission is to provide shared vision, support and leadership across the University of Southern California. Dedicated to the advancement of teaching in a learner-centered environment, the center encourages discovery and promulgation of the most effective pedagogies among faculty and students. Its mentoring and other structured programs foster development among junior and senior faculty and doctoral students aspiring to academic careers. Unique among centers with similar purposes at major U.S. colleges and universities, CET’s programs are conceived and implemented by faculty fellows, teaching assistant fellows and undergraduate fellows, who together comprise an interdisciplinary community of practice across the curriculum inside and outside the classroom.

CET strives to encourage the full integration of the university’s research mission into teaching, both in and outside of the classroom. Excellence in research requires commitment to the development of superior communication and instructional skills in all fields, as well as in the training of our students for their future in academia. The scholarly activities of the faculty may lead directly to opportunities to foster university-wide discourse on the commitment to excellence in teaching.

The objectives of CET’s Fellows are to:
• Form, as a group, an interdisciplinary forum for the discussion of common pedagogical approaches and disciplinary differences
• Share teaching strategies, successes and challenges
• Serve as mentors available to faculty and students
• Serve as advocates for a university-wide discourse on the commitment to excellence in teaching
• Foster recognition of the importance of teaching as an indispensable dimension of undergraduate and graduate education

Faculty fellows serve students directly via mentoring and indirectly as evangelists for teaching excellence throughout the university, by sharing ideas in workshops and offering advisement on effective teaching methods to junior faculty. In addition, the fellows collectively seek to provide an intellectual resource on instructional theory and policy evaluation for university administrators tasked with responding to challenges posed by the changing national educational environment.

The Teaching Assistant Fellows (TAF) program for outstanding USC teaching assistants (TAs) primarily produces teaching assistant (TA) training materials and offers programs to enhance TA instruction across the university and beyond. The TAF’s work collaboratively combining their personal teaching expertise with research on best practices to create cutting-edge materials. The TAF-created wiki exemplifies the work of the TAFs. The USC TA wiki provides information by TAs for TAs. The TAF-created wiki can be found at usta.wikidot.com.

Secondarily, the TAF program provides professional development for the TA’s through monthly workshops. TAFs receive advanced training in the modern theory and practice of pedagogy as well as mentoring from CET Fellows and other USC experts.

The CET Undergraduate Fellows program is designed to support CET’s mission by establishing a group of undergraduates committed to improving USC’s undergraduate educational experience. The CET Undergraduate Fellows program provides students with a way to provide input and support for the betterment of the undergraduate academic experience. Undergraduate fellows also receive mentoring from faculty fellows.

CET trains new teaching assistants at the beginning of each semester and assists in the creation and operation of teaching assistant training programs within each school. The center is also asked to develop better ways to
evaluate teaching effectiveness and student learning. In its capacity as principal advocate for and promoter of an excellent teaching and learning environment on campus, CET provides recognition and awards for excellent teachers and mentors nominated and selected by faculty and students.

Each year CET solicits nominations for and selects the winners of several university-wide awards and grants for teaching excellence: The Associates Award for Excellence in Teaching is the highest honor the university faculty can bestow on its members for outstanding teaching. It recognizes career achievements in teaching with emphasis on concrete accomplishments and proven results; it is not intended as a “teacher of the year” award. A maximum of two awards of $7,500 each are presented each year at the Academic Honors Convocation in April to emphasize the university’s recognition of the significant role that teaching plays in its mission.

The University Outstanding Teaching Assistant Awards of $1,000 are presented each year to three graduate teaching assistants who have exhibited consistent excellence in the classroom and symbolizes the university’s dedication to the education of scholar-teachers.

The Fund for Innovative Undergraduate Teaching is a program designed to foster new ideas in university instruction. Funding from the Vice Provost’s Office of Undergraduate Programs is awarded to innovative projects. Such projects are ones that are not part of the faculty member’s usual teaching commitment (either in content or instructional mode), and, as such, make a significant addition to USC’s pedagogical effort.

CET also arranges consultations, symposia, institutes, conferences, demonstrations and other kinds of programmatic activities to support excellence in teaching and learning on behalf of the university.

The USC Office of Postdoctoral Affairs works closely with the academic units, the USC Career Center and USC postdoctoral scholars to disseminate university initiatives and policies, and to help make USC the university of choice for all postdoctoral scholars. It is the central resource on campus, serving as a liaison between the Office of the Provost, postdoctoral scholars, faculty and staff. The office manages the Provost’s Postdoctoral Scholars in the Humanities program and provides an annual programming budget to the USC Postdoctoral Association to assist with creating a connected and trained postdoctoral community through professionalization and social events. More details can be found on the Office of Postdoctoral Affairs Website at postdocs.usc.edu.

Graduate Degree Programs

USC is a major research university providing diverse academic programs. As such it has evolved into a complex organization. The basic underlying principle in its organization is simple: groups of faculty with similar areas of knowledge and interest are grouped together to form departments or schools. The faculty in these units work together in determining the courses to be offered, requirements for degrees, and the content and rationale underlying their curricula.

In practice, the organization becomes more complex. Certain areas of study are based on broad areas of knowledge which need to draw faculty from several departments. The following list of undergraduate and graduate degrees provides a guide to the organization of graduate study at USC. The index includes all degrees offered, and the school which administers the degree.

The basic graduate degrees are the Master of Arts, Master of Science, the Doctor of Philosophy and the professional doctoral degree. At USC there are approximately nine professional doctoral degrees, including law, dentistry and medicine. The Master of Arts degree is normally given for study in the humanities and social sciences. All Master of Arts degrees fall under the jurisdiction of the Graduate School.

At USC, the Master of Science degree is normally given for study in the natural sciences and engineering. Some of the Master of Science degree programs and several specialized master’s degree programs are also under the jurisdiction of the Graduate School.

Other master’s degrees are granted by USC for proficiency in professional fields. These professional master’s degrees are not generally conferred by the Graduate School.

Each school may provide programs for several types of degree objectives in similar areas of study. For example, the Thornton School of Music provides curricula for the Master of Arts with a major in early music performance and also offers Master of Music degree programs. These many shades of distinction between the types of degrees offered are to provide flexibility to students. Students must select degree objectives based on consideration of what will best prepare them for the career or further study they wish to pursue.

While many schools provide curricula leading to the Doctor of Philosophy degree, all Doctor of Philosophy degrees are conferred by and are under the jurisdiction of the Graduate School. All Ph.D. candidates must meet the standards of scholarship and other regulations established by the Graduate School.

Other doctorates, which prepare students for leadership and expert service in certain fields of science, art and public welfare, are under the jurisdiction of the several schools. Professional doctorates, which are generally not under the jurisdiction of the Graduate School, include: Doctor of Dental Surgery, Doctor of Education, Juris Doctor, Doctor of Medicine, Doctor of Music, Doctor of Occupational Therapy, Doctor of Planning and Development Studies, Doctor of Pharmacy and Doctor of Physical Therapy.
University Certificates
In addition to the degree programs listed in the index, the university also offers a number of graduate certificate programs. Graduate credit certificate programs must be approved by the University Committee on Curriculum and meet the following requirements: (1) a minimum of 12 units is required; the maximum number of units may vary; (2) for certificate programs of 16 units or fewer, all course work must be at the 500 level or above. For programs of more than 16 units, not more than 25 percent of the total units for the program may be at the 400 level; (3) for completion, a minimum cumulative USC grade point average of 3.0 must be achieved on all course work applied to the certificate; (4) all course work must be earned at USC, except for programs of more than 16 units, in which case not more than 25 percent of the course work may be transfer credit.

Area of Emphasis
An Area of Emphasis is a specific focus within a major that has been formally approved. Areas of Emphasis are listed within parentheses following the appropriate majors and do not appear on diplomas but are indicated on transcripts.

Dual Degree
A dual degree program joins two distinct graduate degree programs under a single, new program and POST (program of study) code. (Applicants to dual degree programs must apply separately to each degree and be admitted to both programs. After admission to both degree programs, the student is assigned the single, dual degree POST code.) Upon completion of the dual degree program, two degrees (and two diplomas) are awarded. Both degrees in a dual degree program must be awarded with the same conferral date.

Progressive Degree Programs
A progressive degree program enables a USC undergraduate to begin work on a master’s degree while completing requirements for the bachelor’s degree. The degree may be in the same or different departments but should be in a similar field of study. Students in a progressive degree program must fulfill all requirements for both the bachelor’s degree and the master’s degree except for the combined total number of units for the degrees. The master’s degree may be awarded simultaneously with but not before the bachelor’s degree is awarded. See Progressive Degree Programs, page 87, for additional information.

The Graduate Degree Programs List
All degrees are listed alphabetically by the school that provides the program for the degree objective. All degrees are listed alphabetically in the index at the end of this catalogue.

Degree Programs
Program descriptions and degree requirements may be found in the sections of this catalogue under the units listed in boldface type. Unless otherwise noted, each program is under the jurisdiction of the school or division under which that degree is listed. All Ph.D. (Doctor of Philosophy) degrees are under the jurisdiction of the Graduate School. All degrees are listed alphabetically in the index.

School of Architecture
Architecture (M.Arch., Ph.D.*)
Building Science (M.B.S.)
Heritage Conservation (M.H.C.)
Landscape Architecture (M.L.Arch.)

Leventhal School of Accounting
Accounting (M.Acc.)
Business Taxation (M.B.T.)

Division of Biokinesiology and Physical Therapy
Biokinesiology (M.S.*, Ph.D.*)
Biokinesiology and Physical Therapy (Ph.D.*)
Physical Therapy (D.P.T.)

Marshall School of Business
Business Administration (M.B.A., M.S., Ph.D.*)
Business Research (M.S.)
Business for Veterans (M.B.V.)
Digital Supply Chain Management (M.D.S.C.M.)
Management Studies (M.M.S.)
Medical Management (M.M.M.)

School of Cinematic Arts
Cinematic Arts, (Film and Television Production) (M.F.A.)
Cinematic Arts (M.A.*)
Cinematic Arts (Critical Studies) (Ph.D.*)
Cinematic Arts (Media Arts and Practice) (Ph.D.*)
Animation and Digital Arts (M.F.A.)
Interactive Media (M.F.A.)
Producing for Film, Television, and New Media (M.F.A.)
Writing for Screen and Television (M.F.A.)

Annenberg School for Communication and Journalism
Communication (M.A.*, Ph.D.*)
Communication Management (M.C.M.*)
Global Communication (M.A.*)
Journalism (M.A.*)

The USC Graduate School

The USC Graduate School is responsible for those academic and professional affairs of the university that relate to the degree programs offered through the Graduate School. The Graduate School also participates in general university affairs relating to graduate and professional education and research.
its Provost’s and Annenberg Graduate Fellowship program, the Graduate School partners excellent students with excellent faculty across the spectrum of disciplines and awards fellowships to incoming students who show outstanding promise for academic careers in research and teaching, and who serve to increase the representation of under-represented groups in their disciplines.

The vice provost for graduate programs has academic oversight responsibility for all graduate programs at the university. Excellence in graduate and professional education is critically dependent on the exchange of scholarly ideas among an increasingly diverse community of faculty and students. The values that characterize these interactions include dedication to excellence, mutual respect, fairness, collegiality, honesty and integrity.

Common threads in all Graduate School activities are: promoting academic excellence; advocating on behalf of graduate students; and the fostering of the sense of community (composed of students, faculty, staff, alumni and administrators) that characterizes graduate education at USC as a place for students of all backgrounds. Facilitating the participation of under-represented groups in all areas of research and graduate studies is critical to the mission.

Graduate School Policies and Requirements

Admission
Admission to degree or certificate programs in the Graduate School is processed through the USC Office of Graduate Admission, which receives and processes all applications, evaluates credentials and issues notification letters. Only a letter from the office of Graduate Admission grants official admission to a graduate degree objective in the university. The Graduate School establishes and monitors the standards under which students are admitted for study in degree programs under its jurisdiction. Admission to the university, under the standards of the Graduate School, is determined by the Office of Graduate Admission on the recommendation of the appropriate academic department. The following are the basic requirements: (1) a bachelor's degree or its equivalent from an accredited college or university, comparable in standard to that awarded at USC; (2) satisfactory scores on the Graduate Record Examinations (GRE); (3) intellectual promise, including evaluation of grade point averages (GPA) that indicates an ability to do acceptable graduate work; (4) strong personal qualifications, including good moral character. Credentials for admission must include a complete record of all previous college or university work.

It must be stressed that while every student must be qualified for admission to the Graduate School, the fact of qualification does not guarantee admission. Consequently, the higher an applicant’s qualifications, the better the prospects of securing a place will be. Admission documents are reviewed by the applicant’s prospective department. Applicants are advised that individual departments may establish additional admission standards, such as requiring the submission of the appropriate GRE Subject Test and letters of recommendation from professors in their major field to the chair of the appropriate department at USC. The applicant should contact the department in which graduate work is to be done for information on supplementary documents required. See the departmental sections of this catalogue or visit the departmental Website.

The Graduate Record Examinations
As a supplement to other evidence of an applicant’s preparation for successful graduate study, the General Test of the Graduate Record Examinations (GRE) is an integral part of the admission procedure. Individual departments may also require the appropriate Subject Test.

The analytical portion of the GRE now requires a writing sample. The results are conveyed to any institution requesting an applicant’s test results. Applicants should take the package of General Interest measures containing the Mathematical Reasoning or Quantitative Reasoning Test as appropriate for their intended program.

Test scores on the GRE that are more than five years old at the time of application are not accepted. Students are advised to repeat the GRE if they have not taken the test within five years.

Deadlines and Notification
The completed application for admission and all required supporting documents should be submitted to the Office of Graduate Admission based on the published deadline for the program of interest. In the case of a student enrolled in the last semester of the baccalaureate program, all credentials, including evidence of work in progress, should be submitted.

Some departments only admit graduate students to begin study in the fall semester and require completed applications as early as November 15. Departmental deadlines are listed on the departmental Websites. Priority consideration for Ph.D. student funding will be given to those applicants who submit all application materials by December 1. The university will continue to accept and consider applications submitted after December 1. Those who wish to submit applications after the deadline should check with the intended major department first to insure that applications will be accepted. Applications received subsequent to closing dates will be considered for the next available semester.
Notification of an admission decision depends upon the method of application review used in each department. Some departments send an informal notice of departmental recommendation for admission; official notice of admission, however, is sent only by the USC Office of Graduate Admission. For federal financial aid deadlines, please see Financial Aid for Graduate Students in the Graduate and Professional section on page 82.

Correspondence with department chairpersons or individual faculty members does not constitute admission. Only a letter from the Office of Graduate Admission grants official admission to a degree objective in the university.

Acceptance with a Degree Objective
Students will be admitted with a specified degree objective. Admission to a degree objective and permission to enroll does not imply that the student is or will be automatically guaranteed the right to continue in a degree program or to be a candidate for an advanced degree.

Classification of Admission Status

Full Graduate Standing
Students who have been accepted for admission, have met all the basic admission requirements and filed all relevant documents with the Office of Graduate Admission are considered admitted to full graduate standing. Occasionally, applicants for admission may lack one of the qualifications listed above or may have difficulty producing appropriate documentation; such students may be conditionally admitted.

Conditional Admission
Conditional admission is a status for those students who have not yet met all requirements for admission to full graduate status or who have not filed all relevant documents with the office handling graduate admission. See page 80 in the Graduate and Professional Education section for policies governing enrollment as a conditionally admitted student. Full graduate student standing is not granted until all conditions have been met within the time limit given.

Limited Status Students
Some students may wish to enroll in graduate-level courses for personal satisfaction or professional enhancement without at the same time wishing to seek a graduate degree. Other students may be permitted to enroll with permission from the department. Such students should obtain a special Limited Status form from the Office of Academic Records and Registrar at the time of registration. This will permit them to register in the classification limited status. See page 33 in the Academic Policies section for policies governing limited status enrollment. Limited status enrollment is not to be construed as admission.

Doctoral Admission with Advanced Standing
Students can be admitted with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution) to all programs in which the Ph.D. degree is conferred by the Graduate School at USC with approval from the vice provost for graduate programs. See page 85 in the Graduate and Professional Education section under “Transfer of Course Work” for more information.

Advancement to Candidacy
Admission to graduate study does not imply advancement to candidacy for an advanced degree and gives no right or claim to be so admitted. Candidacy is determined after the student has demonstrated, by work done at this university, the ability to do graduate work with originality and independence.

General Requirements for Graduate Degrees
The foundation for the master's degree or the Ph.D. degree is a baccalaureate degree or its equivalent comparable in standard to that awarded at USC from a regionally accredited college or university. Many doctoral students, of course, will already have received a master's degree.

University policies governing unit, grade point average and time limit requirements are stated in the Academic Policies section of this catalogue (see page 29). Graduate students should also consult this section for policies on transfer of credit, concurrent enrollment, continuous enrollment, leaves of absence, readmission, and waiver and substitution of course requirements.

Unit Requirements
The course of study for the master’s degree must include at least 24 units in required and elective courses. In addition, students in a program requiring a thesis must register for four units of 594ab Master’s Thesis.

A minimum of 60 units of course work beyond the baccalaureate is required for the Ph.D. degree, including research courses and four units of 794ab Doctoral Dissertation. No more than 8 units of 794 may be received or applied toward the degree.

A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation, is required for doctoral degree students admitted with Advanced Standing. Additional course work may be required if deemed necessary by the student's faculty.

Residence
Residence is a period of intensive study completed at USC. For the master’s degree a minimum of 20 units of course work applicable toward the degree must be completed on the University Park and/or Health Sciences Campuses and/or at one of the university’s approved off-campus study centers.

For the Ph.D. degree a minimum of 24 units applicable toward the degree, exclusive of 794 Doctoral Dissertation, must be completed on the University Park and/or Health Sciences Campuses. Internships, fieldwork and other off-campus experiences do not count toward residency.

It is not intended that the Ph.D. degree be conferred as a certificate of residence, however faithful or extended, or as a certificate of the satisfaction of unit requirements, which are to be regarded as largely preliminary. It has been found that the scholastic requirements for the degree cannot be completed in less than the equivalent of three full years of work devoted wholly to graduate study and research with appropriate facilities and under university supervision.

Communication Skills Requirement
All candidates for advanced degrees awarded by the Graduate School must demonstrate the ability to communicate and transfer knowledge. The specific method(s) for satisfying this requirement will be established by each individual academic unit.

Exception to Graduate School Policy
Requests for exception to certain policies and procedures governing Graduate School degree programs will be considered upon the submission of a petition stating the specific request, supported by adequate reasons and information. The signatures and recommendation of the faculty adviser or committee chair and department chair are required. The petition is available on the Graduate School’s Website at usc.edu/schools/GraduateSchool.

General Requirements for Progressive Degree Programs
A progressive degree program enables a USC undergraduate to begin work on a master’s degree while completing requirements for the bachelor’s degree. The degree may be in the same or different departments but should be in a similar field of study. See page 87 in the Graduate and Professional Education section for detailed information.
Departmental Requirements
The requirements and regulations set forth in this portion of the catalogue are to be construed only as minimal requirements established by the Graduate School. In addition, the student is obligated to meet all the requirements established by the individual department as described in the departmental sections.

Advisement and Program of Study
Academic advisement of entering graduate students will be provided by a designated faculty member in the student’s home department. Ideally, during the first semester of graduate enrollment a formal program of study should be developed and agreed upon in writing. This academic plan should include: (1) the sequence of required and elective courses, with a diversity of faculty instruction and a reasonable balance between course work and directed research appropriate for the degree; (2) evaluation of available transfer credit for application toward the degree; and (3) the schedule and procedures for departmental evaluation of the student. The program of study should be on file in the student’s department and may be modified in keeping with the student’s progress toward the degree objective. This should become the responsibility of the student’s guidance committee when it has been established.

Foreign Language/Research Tool Requirements
Although the Graduate School does not require a foreign language examination, some departments do have specific language requirements for their graduate programs.

The foreign language requirement is determined by the individual departments or schools, subject to approval by the University Committee on Curriculum. For the Ph.D. student, these requirements should be met well in advance of the qualifying examination.

When proficiency in a foreign language or a research tool is required, the evidence attesting to proficiency may not be more than five years old. This regulation applies regardless of the form of the evidence.

For specific information, see Foreign Language/Research Tool Requirement under the appropriate department and program sections of this catalogue.

Academic Warning and Dismissal
Faculty advisers and departments take factors other than satisfactory grades and adequate GPAs into consideration in determining a student’s qualifications for an advanced degree. A student’s overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental decisions regarding a student’s continuation in a master’s or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress will be so informed by their department or committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission.

Theses and Dissertations
Submission of Theses and Dissertations
Candidates are required to submit their manuscripts to the Graduate School electronically as one PDF file for review by the thesis editor. Permission to submit electronically will be granted by the thesis editor after all required documentation is first submitted in person to the Graduate School by the deadline date and time. Once the paperwork is reviewed and is complete, the candidate is cleared to submit the manuscript electronically and must do so by the deadline date and time.

Manuscripts submitted electronically without Graduate School permission will be rejected. Only electronic PDF versions of the manuscript will be accepted for review. The university does not provide copies of theses and dissertations.

The following items must first be submitted to the Graduate School before a candidate will be cleared to upload the manuscript: Approval to Submit Defended and Final Copy of Doctoral Work form or the Approval to Submit Final Copy of Master’s Thesis form; Signature Page; Documentation Review form; Survey of Earned Doctorates (Ph.D. candidates only); receipt for paid publication fee; copy of the latest Appointment or Change of Committee form (for candidates whose degrees fall under the jurisdiction of the Graduate School) and the Ph.D. Exit Survey. A final form which is not required for the submission of the manuscript, but which is required before a candidate will be cleared to graduate, is the Verification of Completion of the Requirements for the Doctoral Degree form or the Verification of Completion of the Requirements for the Master’s Degree form. This form can either be submitted with the original packet of graduation paperwork or within three weeks of the date that a candidate is cleared to upload the manuscript.

Candidates have three months from the date the committee chair signs the Approval to Submit Defended and Final Copy of Doctoral Work form or the Approval to Submit Final Copy of Master’s Thesis form to complete all their corrections required by the thesis editor. If the thesis/dissertation is not approved by the thesis editor within three months, a late submission fee of $100 will be assessed for each month thereafter. Manuscripts are reviewed and graduation paperwork is processed in the order that they are received. Candidates are strongly urged to submit their paperwork and manuscript as soon as possible after their manuscript has been approved by their committee.

Candidates wishing to avoid registration in 594, 794 or the equivalent (provided that they have complied with the minimum registration requirements) must first submit their completed and signed graduation paperwork to the Graduate School and then, once cleared, upload their manuscript to the Graduate School by the Add/Drop date of the fall or spring semesters. Registration in 594, 794 or the equivalent is required in each term (excluding summer) until the candidate completes, defends, makes any post-defense revisions and submits the thesis or dissertation to the thesis editor. Candidates who do not submit all their graduation paperwork and upload their manuscripts before the Add/Drop date for the fall and spring semesters must register for 594, 794 or the equivalent for that semester.

International students must check with the Office of International Services to confirm their eligibility.

Acceptance by the University
The university must accept all theses and dissertations in an approved, final and electronic form before the degree can be conferred. The candidate’s committee must have approved all documents before submission to the Graduate School. After complying with the submission process described above, the student must remain in contact with the Graduate School during the corrections process.

At the time of submission, all manuscripts should be formatted and edited according to a recommended style manual and strict adherence to the Guidelines for Format and Presentation of Theses and Dissertations, available from the Graduate School Website. The university thesis editor reviews the final electronic copy for conformance to university regulations, which takes precedence over all other style formats and issues. The editor does not function as a proofreader or copy editor.
At least two of the members, including the thesis chair, must be from the student’s home department and first be approved by the chair of the student’s home department. All members must then be approved by the dean of the degree program. Those departments which allow a comprehensive examination in lieu of thesis and administer that comprehensive examination on a departmental, rather than an individual basis, may substitute a single adviser for the three-person guidance committee.

Application for the Master’s Degree
At least one semester preceding the one in which the student expects to receive the degree and prior to registration in 594a Master’s Thesis, the student should ask the academic department to request an online degree check from Degree Progress. Application is made online by the academic department and then transmitted to the Degree Progress Department following approval of the program of studies by the student’s home department. Degree Progress will prepare a Degree Audit Report (STARS Report) reflecting course work and requirements completed and those remaining to be met. A copy of the Credit Summary is sent to the student and the home department.

Master’s Examinations
A student who fails the master’s examination may be permitted, at the discretion of the faculty, to take it a second time. The retaking of a failed master’s examination must be completed before the end of the second consecutive semester (excluding summer session) following the first examination. Requests for exception must be approved by the department chair. A student may not take the master’s examination more than twice and must be appropriately enrolled at USC during the semester in which such an examination is taken or retaken. A student who fails the master’s examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

Master’s Thesis
The thesis is supervised throughout its preparation by the student’s guidance committee. It is desirable for the student to have a conference with each committee member promptly following the approval of the topic. Thereafter, thesis work is normally under the immediate supervision of the committee chair. Final acceptance is based upon the unanimous recommendation of all members of the committee.
A student who is required to write a thesis must submit a satisfactory outline and comprehensive bibliography for the proposed thesis and demonstrate a mastery of the subject satisfactory to the guidance committee. The student’s thesis or guidance committee is responsible for the content and bibliographical consistency of the thesis.

During the five-year time limit allowed for completion of the degree and following the completion of all course work, the student must enroll in 594 Master’s Thesis for two semesters and for each semester thereafter, excluding summer, until the thesis has been approved and the approval of the master’s thesis form has been signed by the student’s guidance committee. Registration for the thesis in two semesters, excluding summer, is the minimum requirement entitling the student to thesis supervision by the guidance committee. No more than four units of credit in 594 may be received regardless of the number of semesters the student may be required to be enrolled. Students may enroll in 594 during one summer session but may not register for more than two units of 594 during a given semester; individual exceptions require the approval of the dean of the degree program.

Students who find it necessary to be excused from registration in 594 for a semester must request a leave of absence by petition to the dean of the degree program prior to the beginning of the semester. See Leave of Absence on page 89. Approval of the committee chair, department chair and dean of the degree program are required. During a leave of absence students will not be entitled to assistance from the guidance committee or to the use of university facilities. Considerations for approving a leave of absence include the student’s progress to date in meeting the time schedules for the completion of degree requirements.

Master’s Thesis Submission
Please refer to the Theses and Dissertations section on page 100 for information on the submission process.

General Requirements for the Doctor of Philosophy Degree
Qualified students will be received as applicants for candidacy for the Doctor of Philosophy degree with a major in departments which are adequately equipped with staff, library and laboratory facilities to furnish the necessary training and opportunities for original research.

Screening Procedures
A screening examination or other procedure designated by the department or program is to be administered before the student has taken more than 24 units (including research courses). Passing this procedure is prerequisite to continuation in the doctoral program. Students who fail the screening procedure will be advised that they are not recommended to continue in the Ph.D. program and that any additional work may not be counted toward the degree. Failure to undertake the screening procedure before completion of 24 units of course work may jeopardize additional units. Ideally, a faculty member will be appointed to serve as the student’s administrative adviser until the student establishes an approved guidance committee.

Course Requirements
The subject or field of concentration is called a major. The major is usually a departmental major, although several interdepartmental majors have been authorized.

Undergraduate prerequisite and graduate course work will be required in accordance with the regulations of the major department or program and the recommendation of the student’s guidance committee. Consult the appropriate departmental section of this catalogue for specific course requirements.

Guidance Committee
The student’s program of studies is under the direction of a guidance committee. The guidance committee should be established within the home department (program of study) at least one semester prior to taking the qualifying examination. An appointment of committee form, which can be obtained from the Graduate School Website, should be used to establish the guidance committee. The program of study initiates the paperwork, which includes the signatures of the department chair or the program director and the dean. The signed form is filed in the student’s home department.

The guidance committee is composed of at least five members; a minimum of three, including at least one tenured member and the committee chair, must be from the student’s home department. In the case of schools which are organized into several departments (e.g., business, education, music), but for which a single Ph.D. program is authorized, the outside member must be from outside the school. The vice provost for graduate programs is an ex officio member of all guidance committees.

Normally, all members of the guidance-dissertation committee must be the rank of assistant professor or above in departments offering the Ph.D. degree at USC. In exceptional cases, faculty in departments or schools not offering the Ph.D. degree; research, adjunct and emeritus faculty; and faculty from other universities may be acceptable as members of guidance committees. Such exceptions should be rare and must be approved on an individual basis by the dean of the degree program. Approval will be based on the special expertise and academic relevance afforded the individual student’s research. A current curriculum vitae of the proposed member must be submitted to the dean of the degree program with a letter from the student’s committee chair citing the particular academic merits of the requested appointment. Such a member must meet the standards of academic training and research experience expected of faculty members serving on such committees. A specially approved member may serve as co-chair of the committee but may not serve as the outside member representing the vice provost for graduate programs.

The outside member must hold the rank of assistant professor or above. The outside member is defined as a person from a discipline different from that of the student’s department and whose own department affiliation is different from that of the student. A faculty member who holds a joint appointment in the student’s department may only serve as an outside member when the primary appointment is in a department or school outside of the student’s degree objective. The outside member serves as the representative of the vice provost for graduate programs. As such, the outside member determines if the qualifying examination and dissertation processes are conducted at a level that warrants awarding the Ph.D. degree. The outside member also ensures that the student is justly and fairly treated by a committee and department.

When the student and the guidance committee have determined that the qualifying examination can be taken, the Request to Take the Qualifying Examination form should be downloaded from the Graduate School Website. When completed and signed, it indicates that the student has been given permission to take the formal qualifying examination. Ideally, the signed form should be filed with the department chair or the program director’s office not later than 30 days before the beginning date of the examination.

The guidance committee has the responsibility for supervising the student’s program of studies and preparation for the qualifying examination, and the administration and evaluation of the written and oral parts of the qualifying examination. The committee continues to serve until the qualifying examination has been passed, the dissertation topic approved, and the student is advanced to candidacy.
Changes in Guidance Committees
A Change of Committee form, which can be obtained from the Graduate School Website, must be completed whenever a change is made in the guidance committee. All such changes must be made in advance of the qualifying examinations. Informal substitutions for either the written or oral parts of the qualifying examination are not permitted. Changes in the guidance committee are not permitted between the written and oral portions of the examination. The examinations must be scheduled at times when it is possible for all members of the committee, including the outside member, to participate. Changes made without the prior approval of the dean of the degree program are not recognized and may result in the invalidation of the examination.

A student may not change committee members after failing the qualifying examination the first time. The student must be reexamined by the same faculty on the same subject matter. If a faculty member is unable to serve on the committee (for example, due to serious illness, retirement, or transfer to another institution), the dean of the degree program must be notified in writing in advance of the rescheduled exam in order to approve the change. The faculty replacement must be approved by the dean of the degree program and the student must file a change of committee form well in advance of the exam.

Qualifying Examination
The examination qualifying a student for candidacy for the Ph.D. degree is comprehensive in nature, partly written and partly oral, designed, at least in part, to test the student’s fitness to undertake independent research. Prior to taking the qualifying examination, the student must have met all of the departmental requirements for doing so and have the recommendation of the guidance committee. The qualifying examination should be taken no later than during the fifth semester.

To be eligible to take the qualifying examination, the student must have completed at least 24 units applicable toward the degree in residence at USC; must have achieved a GPA of at least 3.0 on all USC course work available for graduate credit; and must have the assurance that the guidance committee has determined readiness to take the qualifying examination. Students with a master’s degree in the same or very similar field may be approved to take the qualifying examination after the completion of 12 units and successful passage through the screening process; the GPA and guidance committee approval requirements are the same as for students without a prior master’s degree in the field of study. If not otherwise enrolled, a student must enroll in GRSC 800 during the semester in which the qualifying examination is to be taken. Students are strongly encouraged to take the qualifying examination during the first semester in which they are enrolled in GRSC 800, and should not enroll in more than three semesters of GRSC 800 before taking the qualifying examination.

All portions of the examination, both written and oral, should be completed within 60 days. Postponement of the examination after permission has been granted must have approval of the dean of the degree program.

The written examination will be prepared, administered on campus and read by the guidance committee. In a few departments there will be a department-wide committee examining all doctoral students. When the student’s written examination is satisfactory, an oral examination is given on the topics discussed in the written examination and/or touching upon additional material. If additional material is to be covered, the student should be notified of the content expectations in advance. A student must pass both the written and oral portions of the qualifying examination in order to pass the examination. The fact that a student has done well on the written examination is not to be construed to mean that the oral examination is to be a pro forma exercise.

The oral examination is a serious and integral part of the qualifying procedure and is administered on campus. Remote participation of a committee member requires approval from the vice provost for graduate programs. If on the written examination the judgment of the committee is such that an oral examination cannot counterbalance a poor performance, the committee is not obliged to give an oral examination and the report to the Graduate School will be one of failure. In the case where the written examination is marginal, the committee may use the oral examination as an opportunity to confirm or alter its judgment of the student’s performance.

The examination may not be reported as being passed if there is more than one dissenting vote. Ph.D. examinations cannot be passed conditionally. A pass on the examination cannot be made contingent upon other factors such as the completion of additional course work, the preparation of extra research projects, etc.

During the oral examination, all members of the guidance committee must be present and must render a judgment on the student’s qualifying examination. Only the guidance committee may participate in the oral portion of the examination.

A student who fails a qualifying examination may be permitted, at the discretion of the faculty, to take it a second time. The student may not be required to repeat parts of the qualifying examination which were passed on the first administration. The retaking of a failed qualifying examination must be scheduled at a time mutually satisfactory and not less than six months from the date of the first examination.

The second examination must be completed before the end of the second consecutive semester (excluding summer session) following the first examination. Requests for an exception must be approved by the vice provost for graduate programs. A student may not take the qualifying examination more than twice and must be appropriately enrolled at USC during the semester in which such an examination is taken or retaken. A student who fails the qualifying examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

Advancement to Candidacy
Graduate students are officially advanced to candidacy for the Ph.D. degree when they have completed the residency requirement and passed the written and oral portions of the Ph.D. qualifying examination upon the favorable recommendation of the guidance committee to the Graduate School. All Ph.D. candidates are required to engage in original research.

Application for the Ph.D.
After being advanced to candidacy, students must contact their academic department to initiate an online degree check which is transmitted to the Degree Progress Department. Degree Progress counselors prepare a Degree Audit Report (STARS Report) for each student listing any remaining requirements. The requirements will not be checked or the degree conferred if the student has not applied.

Dissertation Committee
As soon as possible after the qualifying examination has been passed and a dissertation topic approved, the dissertation committee should be appointed. This must take place no later than one month before the dissertation defense. The dissertation committee must consist of at least three members, upon the approval of the dean of the degree program. Two committee members must be from the home department, at least one of whom must be tenured, and one of the three members must be a faculty member from outside the major department. The committee chair must be from the student’s home department.
An appointment of committee form, which can be obtained from the Graduate School Website, should be used to establish the dissertation committee. The program of study initiates the paperwork, which includes the signatures of the department chair or the program director and the dean. The signed form is filed in the student’s home department. The dissertation committee should be appointed as soon as possible after the student has passed the qualification exam. Until a dissertation committee has been appointed, the guidance committee will take responsibility for the student’s program of study.

Refer to the Guidance Committee section for additional membership requirements. The vice provost for graduate programs is an ex officio member of all dissertation committees.

Special permission for a member of the research faculty to serve as chair of a Ph.D. student’s dissertation committee may be granted by the dean of the degree program or his or her nominee, on an individual case basis upon the written request of the department chair establishing that (1) the person has a research appointment in the student’s home department; (2) no tenure-track faculty in the department has the necessary knowledge or expertise required; and (3) the researcher has demonstrated special expertise in the particular area of the proposed dissertation. The dissertation and its defense, or final oral, must have the unanimous approval of the dissertation committee.

**Doctoral Dissertation**

A dissertation is an original contribution to current knowledge in the field and a demonstration that the Ph.D. candidate has achieved sufficient mastery in the field to pursue independent research and scholarship. A dissertation represents the individual candidate’s research and writing. In fields where collaborative research has become the norm, the candidate is the sole author of the dissertation and specifies his or her contribution to the research and also delineates colleagues’ contributions.

Dissertations are expected to be written in English. Exceptions require the approval of the vice provost for graduate programs or her nominee prior to beginning the work and will be granted only when there is strong scholarly justification.

The student is expected to be enrolled in 794 Doctoral Dissertation each semester, except summer sessions, after admission to candidacy until all degree requirements are completed. Registration for 794 for the two semesters (excluding summer sessions), immediately following admission to candidacy, is the minimum requirement entitling the candidate to dissertation supervision by the dissertation committee. Enrollment in 794 prior to admission to candidacy is not permitted and such registration is invalid. If the dissertation is not completed and accepted within two semesters the candidate must continue to register for 794 each semester thereafter until the dissertation has been approved and the approval of the Ph.D. dissertation has been signed by the dissertation committee. Students are expected to complete and defend their dissertation before they have enrolled in no more than five semesters of 794. Students may enroll in 794 during one summer session but may not register for more than two units of 794 during a given semester; individual exceptions require the approval of the dean of the degree program. No more than eight units of credit in 794 may be received regardless of the number of semesters the candidate may be required to be enrolled. Department approval is required for registration in 794.

A candidate who finds it necessary to be excused from registration in 794 for a semester must request a leave of absence by petition to the dean of the program of study prior to the beginning of the semester. See Leave of Absence, page 89. Endorsements from the dissertation committee chair and department chair are required. During a leave of absence the candidate will not be entitled to assistance from the dissertation committee or to the use of university facilities. Considerations for approving a leave of absence include the student’s progress to date in meeting the time schedules for the completion of degree requirements.

**Defense of the Dissertation**

After passing all required courses and the qualifying examination, and after meeting all other requirements, the candidate must write and defend the dissertation. The doctoral dissertation must be an original contribution to scholarship or scientific knowledge and must exemplify the high degree of scholarly advancement and power of investigation demanded by the university. Final recommendation to the doctorate. The dissertation defense is the culminating activity in the assessment of whether this standard has been met.

While the oral examination is open to the general university community, only the members of the dissertation committee have the authority to recommend acceptance of the dissertation. During the oral defense, all members of the dissertation committee must be present and must give a judgment on the student’s defense. The recommendation must be unanimous.

If the defense is satisfactory, the committee then signs the Approval to Submit Defended and Final Copy of Dissertation form. If additional work is required, the form must be signed only on full completion. Departments differ concerning the time of the defense of the dissertation. The student’s dissertation committee is responsible for the content and bibliographical consistency of the dissertation.

**Dissertation Submission**

Refer to the Theses and Dissertations section on page 100, for more information on the submission process.

**Diploma in Innovation**

The USC Diploma in Innovation is a signature one-year program designed to enable current USC Ph.D. students to collaborate in translating their academic interests into innovative projects with tangible benefits to society. This selective program is offered free of charge to current USC Ph.D. students in good standing from all disciplines, whose proposals are accepted by a faculty committee.

All USC Ph.D. students admitted to the Diploma in Innovation program will be required to register in GRSC 791ab Directed Study Leading to the Diploma in Innovation. In addition to satisfactory completion of these courses, students will present their final projects to a faculty committee, which will determine whether the students receive Diplomas in Innovation.
Courses of Instruction

**GRADUATE STUDIES (GRSC)**

The terms listed are *expected* but are not *guaranteed*. For the courses offered during any given term, consult the *Schedule of Classes*.

**GRSC 596 Internship for Curricular Practical Training (1, FaSpSm)** Part-time or full-time, practical work experience in the student’s field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Graduate standing. Graded CR/NC.

**GRSC 610 The Innovation Process: Development, Diffusion and Leadership (4, Fa)** Exploration of general principles and evolution of innovation, theoretical perspectives on the innovation process, organizing and leadership for innovation, and practical tools for innovation development, diffusion, market acceptance, and business planning. Open only to doctoral students.

**GRSC 612 Legal Issues and Financing of Innovation (4, Fa)** Exploration of legal issues of innovation as well as issues surrounding financing the development and commercialization of innovation. Open only to doctoral students.

**GRSC 615 Disciplinary Perspectives on Innovation (4, Fa)** A deeper understanding of the innovation process via a survey of various disciplines’ approaches to the subject. Open only to doctoral students.

**GRSC 791ab Directed Studies (2-2)** Directed studies leading to the Diploma in Innovation. Graded IP/CR/NC. Open only to doctoral students.

**GRSC 800 Studies for the Qualifying Examination (0, FaSpSm)** Prerequisite: permission of the Graduate School. Graded CR/NC.

**GRSC 810 Studies for Master’s Examination (0, FaSpSm)** Prerequisite: completion of all course work for the master’s degree. Permission of the Graduate School. Graded CR/NC.

**GRSC 850ab The Professoriate: Preparing for the Future (2,2,FaSp)** Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Graded IP/CR/NC. Open only to doctoral students.

Pharmaceutical Sciences (see Pharmacy, page 854)
Physiology and Biophysics (see Medicine, page 789)
The USC School of Architecture offers undergraduate, graduate and doctoral education in architecture and architectural studies, landscape architecture, heritage conservation and building science. Its faculty is active in professional practice, in design research, in the supervision of programs at the Gamble House and Freeman House and in extended professional education.

Work in the school is conducted in an intellectual climate, which promotes inquiry, introduces principles and values and teaches the disciplines necessary to work in collaboration with other professionals and to develop the common vocabulary essential to effective teamwork in later years.

Significantly, the school is located in the center of the second largest urban region in the country, which offers a unique understanding of 21st century growth and change. In such an environment the possibilities for teaching and learning are extraordinary.

The school is highly selective in its admissions and enjoys the strong support of alumni and the professions it serves. The opportunity exists for students to have close contact with faculty, other students and the practicing architects who assist them in their apprentice training.

An architecture curriculum was initiated at USC in 1914. In 1919, a Department of Architecture was created and a separate School of Architecture was organized in 1925. The school shares Watt and Harris Halls with the USC Roski School of Fine Arts and the Fisher Museum of Art.
A.C. Martin Visiting Professor of Architectural Critic: Gehry, FAIA, M.Arch.

Judge Widney Professor of Architecture: McDonald and Diane Rusling Becket Professor of Community Design: Lawrence Scarpa, M.Arch.

Faculty
Della and Harry MacDonald Dean's Chair in Architecture: Charles A. Lagreco, MFA (Arch.)

Emeritus Professors: James Ambrose, M.S.; Frank Dimster, M.Arch.; Robert Harris, MFA (Arch.); Samuel T. Hurst, M.Arch.; Ralph Knowles, M.Arch. ; Roger Sherwood, M.S.Arch., M.C.R.P.

*Recipient of university-wide or school teaching award.

Faculty
Della and Harry MacDonald Dean's Chair in Architecture: Qingyun Ma, M.Arch.

Emeritus Professors: James Ambrose, M.S.; Frank Dimster, M.Arch.; Robert Harris, MFA (Arch.); Samuel T. Hurst, M.Arch.; Ralph Knowles, M.Arch. ; Roger Sherwood, M.S.Arch., M.C.R.P.

*Recipient of university-wide or school teaching award.

Professors: Kim Coleman, M.Arch.; Diane Ghirardo, Ph.D.; John V. Mutch, M.Arch. (U.D.); Victor Regnier, M.Arch.; Goetz Schierle, M.Arch.; Marc Schiler, M.Arch.Sci.; James Steele, Ph.D.; John Wilson, Ph.D.

Associate Professors: Charles Lagreco, MFA (Arch.); Travis Longcore, Ph.D.; Graeme M. Morland, Dipl.Arch.; Amuy Murphy, MFA; Douglas E. Noble, Ph.D.

Visiting Professors: Manuel Delanda, Ph.D.; Mia Lehrer, FASLA, M.L.Arch.; Jennifer Siegal, M.Arch.

Visiting Assistant Professors: Troy Peters, M.Arch.; Kristine Mun, Ph.D.

Professor of the Practice of Architecture: Stefano de Martino, A.A.Dipl.

Associate Professors of the Practice of Architecture: Alice Kimm, M.Arch.; Lee Olivera, M.Arch.; Trudi Sandmeier, M.A.; Selwyn Ting, M.Arch.

Assistant Professor of the Practice of Architecture: Lauren Matchison, M.A.

Senior Lecturers: Michael Arden, M.A.; Richard Corsini, M.Arch.; David Gray, M.Arch.; Edward Liefson, M.A.; Susanna Seierup, M.Arch.

Assistant Lecturers: Liz Lagedrost, MLA; Dylan Wood, B.Arch.
Degree Programs
The School of Architecture offers curricula leading to the following degrees.

Bachelor of Architecture: a five-year undergraduate accredited professional degree program.

Bachelor of Science in Architectural Studies: a four-year undergraduate non-professional architectural studies degree program providing specialization in related fields and an alternative path to graduate studies in architecture and other design fields.

Bachelor of Landscape Architecture: a four-year undergraduate degree program concentrating on design of spaces in the urban environment.

Minor in Architecture: provides the flexibility of complementing a student's major with an area of specialization. Not available for architecture majors.

Minor in Landscape Architecture: provides students with the ability to integrate the natural and cultural profession of landscape architecture into their course of study. Not available for architecture majors.

Master of Architecture (two tracks): The first track is a 48-unit, three-semester program for students who hold a first professional degree from an accredited school of architecture. The second track is a 64-unit, two-year accredited degree for students holding a pre-professional degree with a major in architecture.

Master of Heritage Conservation: a 48-unit program designed to prepare individuals for work in heritage conservation and its allied disciplines, including architecture, urban planning, cultural resource management, real estate development, construction and materials conservation.

Master of Landscape Architecture: a 48-unit, three-semester curriculum for students who hold an accredited Bachelor of Landscape Architecture degree or the equivalent; a 64-unit, four-semester curriculum for students who hold a first non-accredited degree in architecture, landscape architecture or environmental design; a 96-unit, six-semester curriculum for students with no prior degree in architecture, landscape architecture or environmental design.

Master of Building Science: a 48-unit, two-year program for applicants who hold an architecture, engineering or science-related degree (e.g., Bachelor of Architecture, Bachelor of Architectural Engineering, Bachelor of Science in Engineering, Environmental Studies, Physics or Mathematics). Students with five-year professional degrees in architecture and a minimum of five years of experience may be given advanced standing.

Dual Degree in Architecture and Planning: a 72-unit program leading to the post-professional Master of Architecture and the Master of Planning degrees. Admission to both degree programs is required.

Dual Degree in Landscape Architecture and Planning: a 66-, 82- or 108-unit program leading to the Master of Landscape Architecture and Master of Planning degrees. Admission to both degree programs is required.

Doctor of Philosophy in Architecture: This program is designed to prepare individuals for university level teaching and professional research and for leadership positions in industry and professional architectural practice.

Certificate in Architecture: The focus of this program is on understanding the broad and complex role of architecture within the urban and cultural context. Studies focus on cities and architecture throughout the world where conditions of increasing density, environmental challenges and cultural complexity require design initiatives that support amenity, sustainability and cultural meaning. The certificate is open to graduate students not pursuing a Master of Architecture degree.

Certificate in Building Science: This program is intended as a supplementary credential for students enrolled in graduate course work in architecture, landscape architecture, historic preservation, urban planning or related disciplines, and also for practicing design and planning professionals with undergraduate or graduate degrees and related experience.

Certificate in Heritage Conservation: This program is for those who wish to augment their current work in heritage conservation, and for graduate students who wish to obtain a complementary specialization in conjunction with their degree.

Certificate in Landscape Architecture: This program provides an opportunity for professionals and graduate students to develop understandings and skills related to the basic subjects inherent in the field of landscape architecture.

National Architecture Accrediting Board Statement
In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture and the Doctor of Architecture. A program may be granted a six-year, three-year or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Southern California School of Architecture offers the following NAAB-accredited degree programs:

B. Arch. (160 undergraduate credits)
Next accreditation visit for B.Arch: 2013

M. Arch. (pre-professional degree + 64 graduate credits)
Next accreditation visit for M. Arch.: 2014

National Landscape Architecture Accreditation Board Statement
The USC Master of Landscape Architecture first professional curricula (three-year and two-year curricula) are accredited by the American Society of Landscape Architects Landscape Architecture Accreditation Board (LAAB). The LAAB conditions of accreditation (including the student performance criteria) are posted on the ASLA Website, www.asla.org/Accreditation/ LAAB.aspx.
Undergraduate Degrees

Bachelor of Architecture

The bachelor’s degree program begins intensively with architectural studies in the first year and provides for a mix of architectural and general university studies throughout the program. The curriculum includes two cycles of development. The first cycle of six semesters provides a foundation in understanding architecture, concluding with integrative studies after two years of introductory work. The second cycle, four semesters, provides the opportunity to explore many aspects of architecture and to develop individual strengths and interests. The second cycle, and the program, concludes with a comprehensive project with a component of directed research defined by the student based on choice and initiative.

Admission as a First Year Student
All applicants to the School of Architecture must complete the university application and submit it to the USC Office of Admission along with Scholastic Aptitude Test (SAT) or other test scores. All applicants, including international students, must submit a portfolio.

Admission with Advanced Placement
It is possible, in selected instances, that a transfer student from an accredited community college or other university may be eligible for advanced placement at the second-year level if previous work includes a minimum of 32 semester units of acceptable academic credit in a pre-architecture program. The academic credit must include 8 semester units in architectural design or environmental design. Students accepted for advanced placement must still comply with all requirements for the degree.

Advanced placement applicants are required to submit a design portfolio to the School of Architecture.

Summer Transfer Courses
A summer design studio and drawing course allows highly qualified students transferring from community college or other university programs to be evaluated for advanced placement in the fall semester. Applicants must submit a university application and portfolio by February 1 for consideration. During the summer transfer courses, students must demonstrate significant design and drawing skills to justify advanced placement. Successfully completing these summer transfer courses allows students to reduce the required 10-semester design sequence by two semesters, reducing USC residency to four years. This either provides for advanced placement into the second year or gives credit for ARCH 102abL and ARCH 105L if these courses are passed with grades of B or above. For more information, contact the school at (213) 740-2420.

Transfer students who are admitted with fewer than 32 units of college level work and who have only limited drawing or design skills may be considered for placement in the first year of the five-year design sequence. Previous academic work may in part be applied toward required and elective courses for the five-year Bachelor of Architecture program.

Advisement
The School of Architecture maintains student advisers for the benefit of all students in the school. Soon after being accepted, new students are advised to make an appointment for pre-registration advisement. A complete record is kept of the progress for each student while in attendance. An individual appointment with an adviser may be scheduled at any time during the academic year. In addition, students are strongly encouraged to attend a university orientation session.

Degree Requirements
Accredited degree programs awarding the B.Arch. degree must require a minimum of 150 semester credit hours or the quarter-hour equivalent, in academic course work in general studies, professional studies and electives. The curriculum leading to the architecture degree must include at least 45 credit hours, or the quarter-hour equivalent, outside of architectural studies either as general studies or as electives with content other than architectural.

Design Studio Grade Point Average Requirement
Less than average work in design is not considered sufficient for a professional degree. Students must receive a grade of C (2.0) or above in each semester of design (ARCH 102abL, ARCH 202abL, ARCH 302abL, ARCH 402abL, ARCH 502abL) in order to continue in the design sequence and to graduate. Students will be required to repeat the course until such a grade is achieved.

Transfer Limit for Design Studio Credit
School of Architecture majors enrolling for a semester of study off campus are limited to the transfer of only one design studio course within the ARCH 402abL sequence. Approval of transfer credit will be dependent upon portfolio review by an appointed faculty review committee.

Pass/No Pass Courses
Architecture students are permitted to take a maximum of 24 units of non-architecture electives, exclusive of the writing requirements, MATH 108 and the PHYS 125L requirement, on a pass/no pass basis. No more than 4 units of pass/no pass courses may be applied to general education requirements; no more than 4 units may be taken in one semester. Students who have taken non-architecture courses pass/no pass in the past (i.e., before admission to architecture) may count such pass/no pass courses toward, but not in addition to, the maximum of 24 units.

Schedule Choices
Students in upper division (ARCH 402abL) may substitute any fall or spring semester by completing degree requirements, including design studio, by enrolling during summer session. This substitution does not provide for acceleration of the degree but does allow for make up so that students may get back on schedule for the five-year degree.

Time Limits
While there are no specific time limits for completing the bachelor’s degree (except in the case of discontinued programs) the School of Architecture may require additional course work of students who remain in the degree program beyond six years.

Allocating Elective Units
A total of 60 units of electives are required.

Professional Electives
An additional 12 units in any category of professional courses, humanities, social sciences, and communication and natural sciences. Natural sciences include astronomy, biological sciences, chemistry, computer science, geological sciences, mathematics (excluding MATH 108) and physics (excluding PHYS 125L or PHYS 135abL). One of these courses must satisfy the diversity requirement.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which together comprise the USC Core. See pages 63 and 250 for more information.

Students who are required to take MATH 108 during the freshman year may take their Social Issues course in the fall and WRIT 130 separately in the spring.

Bachelor of Science, Architectural Studies

The Bachelor of Science in Architectural Studies program begins intensively with architectural studies in the first two years and provides a mix of architectural and general university studies throughout the program. The curriculum includes a core program in the first two years identical to the Bachelor of Architecture professional degree program. The last two years provide the opportunity to explore many aspects of architecture and related fields and to develop individual strengths and interests. Students take an introductory course in specialization in the second year, which provides an introduction to related fields and alternative degree options.

Students can elect to move into the four-year non-professional B.S. in Architectural Studies program with a degree plan identifying electives fulfilling an area of concentration. The program is concluded with a seminar with all degree candidates, allowing for collaborative work on areas of common interest.
Admission as a First Year Student
All applicants to the School of Architecture must complete the university application and submit it to the USC Office of Admission along with Scholastic Aptitude Test (SAT) or other test scores. All applicants, including international students, must submit a portfolio.

Admission with Advanced Placement
It is possible, in selected instances, that a transfer student from an accredited community college or other university may be eligible for advanced placement at the second-year level if previous work includes a minimum of 32 semester units of acceptable academic credit in a pre-architecture program. The academic credit must include 8 semester units in architectural design or environmental design. Students accepted for advanced placement must still comply with all requirements for the degree.

Advanced placement applicants are required to submit a design portfolio to the School of Architecture.

Summer Transfer Studio
A summer design studio allows highly qualified students transferring from community college or other university programs to be evaluated for advanced placement in the fall semester. Applicants must submit a university application and portfolio by February 1 for consideration. During the summer studio, transfer students must demonstrate significant design and drawing skill to justify advanced placement. Transfer students who are admitted with fewer than 32 units of college level work and who have only limited drawing or design skills may be considered for placement in the first year of the four-year program. Previous academic work may in part be applied toward required and elective courses for the four-year B.S. in Architectural Studies program. For more information about this program, contact the school at (213) 740-2420.

Advisement
The School of Architecture maintains student advisers for the benefit of all students in the school. Soon after being accepted, new students are advised to make an appointment for pre-registration advisement. A complete record is kept of the progress for each student while in attendance. Appointments with an adviser may be scheduled at any time during the academic year.

Design Studio Grade Point Average Requirement
Less than average work in design studio is not considered sufficient for a continuation in the design studio sequence. Students must receive a grade of C (2.0) or above in each semester of design in order to continue in the design sequence. Students in the first two years of the program are required to repeat the course until such a grade is achieved.

Pass/No Pass Courses
Architecture students are permitted to take a maximum of 24 units of non-architecture electives, exclusive of the writing requirements, MATH 108 and the PHYS 125L requirement, on a pass/no pass option. No more than 4 units of pass/no pass courses may be applied to general education requirements; no more than 4 units may be taken in one semester. Students who have taken non-architecture courses pass/no pass in the past (i.e., before admission to architecture) may count such pass/no pass courses toward, but not in addition to, the maximum of 24 units.

Time Limits
While there are no specific time limits for completing the B.S. in Architectural Studies degree (except in the case of discontinued programs) the School of Architecture may require additional course work of students who remain in the degree program beyond six years.

Total minimum units required: 128

*All students must enroll in WRIT 140 in the fall except those who are required to take MATH 108. These students must take WRIT 130 the following spring.

**PHYS 125L fulfills the General Education requirement in Category II. The PHYS 125L requirement can also be fulfilled by PHYS 135LAB, 4 units will be applied toward the B.S. and 4 will count as electives.

***Students who take WRIT 130 are advised to fulfill their sixth General Education requirement concurrently with the Diversity requirement or with a Professional Architecture elective, or with their free electives.
Requirements for B.S. in Architectural Studies degree

A total of 25 units of professional electives, including ARCH 470 Capstone Seminar, are required in an area of specialization, which must be selected from the accepted professional elective offerings in the School of Architecture or with consultation and approval of the program adviser. This is in addition to the core, elective and general education requirements of the Bachelor of Architecture degree, which are identical for the first two years of the Bachelor of Science in Architectural Studies.

In the third and fourth year of the program, the requirements for the Bachelor of Architecture design studios, ARCH 302abL and ARCH 402ab – 24 units – are changed to the professional electives requirement. The full degree requirements are described above.

Core Requirements

Students must complete the following core courses as a prelude to the upper division professional electives and degree requirements: ARCH 102abL, ARCH 105L, ARCH 114, ARCH 202abL, ARCH 211, ARCH 213a, ARCH 214ab, and ARCH 370, MATH 108, PHYS 125L, and WRIT 140 or WRIT 130.

Bachelor of Landscape Architecture

The degree in landscape architecture provides the ability to critically examine and creatively respond to a wide array of environmental issues and purposes. New professionals must be equipped to take on the challenge of working in interdisciplinary fields, mediating between the goals and desires of diverse groups while soliciting their participation. Generating creative solutions for forming a supportive and humane urban environment requires certain fundamental skills. This program encourages development of students’ skills and abilities so that they can flourish in a professional setting:

- Knowledge of the physical world and the interrelationships between humans and the natural systems of which they are part.
- The ability to define the critical issues of places and sites through inventory, analysis and resolution of physical, social and cultural forces and meanings.
- The ability to use knowledge and experience to creatively respond to the problems that confront them and the dedication to understand great purpose and to take effective action.
- The ability to effectively communicate with peoples of diverse backgrounds through both words and images.
- The ability to interact collaboratively with individuals, community groups, public agencies or large corporations.
- Familiarity with new technologies, their impacts and their potential for the profession of landscape architecture and land planning.
- Awareness of the constant evolution of knowledge and a commitment to continually reexamine assumptions.

The Bachelor of Landscape Architecture is a four-year program of lectures, seminars and studio courses in conjunction with general education courses. Through academic research, personal participation and group endeavor, the program will introduce students to historic and contemporary issues in landscape architecture. Projects will concentrate on the design of spaces in the urban landscape. This emphasis derives from our location in Southern California, at the very heart of an exuberant and dynamic metropolitan area.

Each semester, the design studio will be paired with courses that develop technical skills, expand the students’ working knowledge of plant materials and natural systems, and explore the history and theory of design. A component of each studio project will be team-oriented to develop the ability to work collectively.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses, in different categories, plus writing and diversity requirements, which together comprise the USC Core. See pages 63 and 250 for more information. Students who are required to take MATH 108 during the freshman year may take their Social Issues course in the fall and WRIT 130 separately in the spring. Others will take WRIT 140 in the fall and will take Social Issues with it.

*Taken concurrently
Minors in Architecture

Minor in Architecture
The minor in architecture provides the flexibility of complementing a student’s major with an area of specialization. Taking a minor in architecture is a unique opportunity for a student to stimulate his or her imagination and learn creative approaches to problem solving.

Admission Requirements
Students in good academic standing who have completed the freshman year are eligible.

Course Requirements
The requirements for the minor include three required courses (8 units) and a minimum of 12 units of upper division courses.

Required Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARCH 106x</td>

</tr>
<tr>
<td>ARCH 304x</td>
<td>Intensive Survey: Prehistory to the Present</td>
<td>4</td>
</tr>
</tbody>
</table>

Students may elect to take the upper division courses in an area of specialization, such as architectural history and theory, historic preservation, computers and design, visual communication, landscape architecture, public places – urban spaces, housing or practice management. This minor is not available to architecture majors.

Minor in Landscape Architecture
The minor is intended to help students understand the role of landscape architecture as a means for the integration of natural systems and landscapes with cultural values and purposes. Studies about natural resources and their importance in the built environment are joined with studies of the art of the garden. Landscape design, literature, music, painting and sculpture will be presented as it relates to physical settings, patterns of inhabitation and cultural rituals and meanings. This is an excellent emphasis for students in environmental studies, civil engineering, planning and anthropology. This minor is not available to architecture majors.

Admission Requirements
Students in good academic standing who have completed the freshman year are eligible.

Course Requirements
The minor in landscape architecture consists of three required courses (9 units) and a minimum of 14 units of upper division courses.

Global Programs and Other Enrichment Opportunities

Each year, a set of different global programs are offered to our fourth- and fifth-year undergraduate students during their three topic studio semesters. There are typically one to two programs offered each semester (fall, spring and summer), with recent locations being in Italy, China, Indonesia, France and Spain.

Each offering consists of a coordinated 15-unit, full semester program which includes a studio course in design and several required seminars in history and theory; technology; and cultural studies. Students must be in good academic standing to be considered and to participate.

Some examples of recent programs include:

Spring Program in Italy: Milan-Como
For many years, selected students have been able to participate in the Anthony A. Marnell II Italian Architecture Studies Program,
located in Milan, a city at the forefront of Italian modern architecture and the center of Italian design. Students are housed and have classroom and studio space in Como, a small and pleasant lakeside town about 30 miles from Milan. The Milan-Como Program is one of only two U.S. school of architecture programs in this part of Italy; Strong relationships are fostered with the place, its people and its culture. Visits are planned within Italy and throughout Europe to expose the students to the full range of historical and contemporary architecture.

**Fall Program in Spain: Barcelona**
The School of Architecture’s study abroad program in Barcelona provides a place for 16 to 20 fourth- and fifth-year architecture students in a course of study in urbanism and architecture of the city. The goal is to provide a broad overview of that city’s major urban and architectural sites, topography and systems of urban organization. Students will be immersed in the issues of urban design and architecture that have shaped the city, and will develop critical thinking and methodologies of analysis by designing in the urban context. The course of study will examine this fascinating culture that is committed to design and architectural practices that engage and challenge European traditional and modernist orthodoxies.

Barcelona is both a modern and historical site, beginning as a small Roman colony from the time of Augustus, and surviving Visigothic, Moorish and Frankish invasions. Its political and economic history has shaped the city, with the most forceful expression of its national aspiration occurring in the 19th century, the time most associated with the architect Antonio Gaudí. It is city committed to a culture of visual design that has realized a contemporary manifestation. Participants in this fascinating culture that is committed to design and architectural practices that engage and challenge European traditional and modernist orthodoxies.

Examples of public space and architecture from antiquity to the 21st century will be studied as part of the context of a city that has successfully projected its future without neglecting its past and present. Visits are planned within Spain and throughout Europe to expose students to the full range of historical and contemporary architecture.

**Fall Program in Asia: Emphasis on China and Urbanism**
The Asia Architecture and Urbanism program provides participating students the opportunity to engage and comprehend the full depth and global ramifications of the rapid changes that are taking place in China and other cities in Asia. The complex and multiple factors that inform urbanism and define the built environment will be explored and analyzed both in terms of historical cultural source and contemporary manifestation. Participants in these academic engagements will include regional as well as international professionals, academics, historians, economists and local inhabitants through direct engagements required of the course curriculum. Students will bring this knowledge and point of view back to the school after their semester away to expand the discussion of urbanism to the larger community of students and faculty at the School of Architecture.

**Summer Semester in Asia: Emphasis on Southeast Asia and Development**
The School of Architecture offers a summer program, established in 1988, based at the Universiti Malaya, which includes travel throughout Asia before arriving at Kuala Lumpur at the mid-term point. USC students work on a studio project in collaboration with students from the School of Architecture at the Universiti Malaya as part of a full 15-unit, five-course curriculum.

The purpose of this program is to offer students the opportunity to:

- work on a real project in a country where development is a prime goal of the government and where opportunities for architecture students to complete internships and gain employment after graduation are expanding;
- work with the physical requirements, governmental regulations and economic situations that affect the design of projects that can be realized;
- become familiar with local practitioners in order to learn about architectural practice in these areas; and
- expand appreciation of the importance of Asian development in the current world market and show practitioners USC graduates’ ability to contribute to development in Asia.

**Summer Graduate Studies Abroad**
The School of Architecture offers programs for summer graduate study abroad. The purpose of the programs is to offer graduate architecture students the opportunity to study the built fabric of another culture firsthand and engage in a focused urban studies problem in that culture. The programs also strive to expand appreciation of the importance of development in the current world market and show practitioners USC graduates’ ability to engage in and contribute to international development.

**Exhibits of Student Work**
Throughout the year, selected students are given the opportunity to show work in organized exhibitions, as well as to be included in our ongoing student work publication *IDWKS*. The school seeks multiple formats and opportunities to have student work shown in the community at large and at cultural institutions throughout the city and the world, with recent exhibits in Shanghai, France, Italy and Washington, DC. The school uses new technologies whenever possible, including real-time video streams and YouTube, to share the accomplishments and new ideas of our students off campus and outside of the traditional classroom limits. Students provide such work voluntarily and at their own risk. Work that is lost, damaged or stolen is not the responsibility of the school.

**Field Trips**
Many field trips are organized each year in support of various aspects of the academic program. During the past several years, students have made trips to locations in the larger California region (such as San Francisco, La Jolla to see the Salk Institute and Catalina Island) as well as throughout the United States, including New Orleans and other important cities. In addition, students regularly visit the many sites of significance in the local Los Angeles area on an almost weekly basis for their general course work and personal interest.

**Lectures and Exhibitions**
The school provides significant service to the community and profession through public programs, and the participation of faculty members in community and professional activities. With the support and cooperation of the Architectural Guild, the school generates a vigorous program of lectures, exhibitions and tours.

Some of the world’s most distinguished and emerging architects, landscape architects and designers have lectured at USC. These include Frank Gehry, Mario Botta, Yona Friedman, Peter Cook, Yung Ho Chang, Thom Mayne, Michael Maltzan, Hitoshi Abe, Mia Lehrer, Fumihioko Maki, Jean Nouvel, Will Bruder, Francois Roche, Enrique Norten, Adriaan Geuze, Kazuyo Sejima, Ai Wei Wei, Rem Koolhaas, Shigeru Ban, Hans Hollein, Charles Waldhem, Nader Tehrani, Cesar Pelli, Javier Sanchez, Laurie Olin, Eric Owen Moss and Pei Zhu.

The school also provides the Helen Lindhurst Architecture Gallery for major architectural exhibitions. Recent shows have included important international architects such as Christoph Kapeller, Renzo Piano, Santiago Calatrava, Herman Hertzberger and Alvaro Siza, as well as USC faculty, students and alumni.
Other Programs

Exploration of Architecture Summer Program for High School Students

The School of Architecture offers two- and four-week programs for high school students (must have completed ninth grade by the start of the program) who have no previous experience but are interested in architecture. The program, which began in 1983, is particularly rewarding for students who are contemplating a career in architecture. However, all students find the exposure to the unique problem-solving methodologies of architecture a benefit regardless of their final career choice. Living on campus in a USC residence hall, high school students experience what it is like to be a university student. They participate in studio classes with professional critics and present their ideas in reviews attended by parents and friends.

The program also exposes them, through case studies, sketching exercises and field trips, to some of the most dramatic and impressive historical and modern architecture of Los Angeles. International students have especially appreciated the opportunity to pursue this summer program of study that is not highly dependent on English language skills. Limited financial assistance is available.

Obtain program details by visiting the School of Architecture Website or by calling (800) 281-8616.

Summer Program in Heritage Conservation

This program offers 15 days of classes with noted experts from Southern California and the United States. Taken together the courses act as a general introduction to the field of heritage conservation. In addition to examining the history and philosophy of the conservation movement as it has evolved during the past century, lectures and field trips to historic sites throughout the Los Angeles area will introduce students to a broad range of legal, economic, aesthetic and technical issues associated with the documentation, conservation and interpretation of historic structures, landscapes and communities.

For more information, call (213) 821-2168.

Graduate Programs

The school offers interrelated graduate programs in architecture, landscape architecture, building science and historic preservation as well as two dual degree programs with the USC Price School of Public Policy.

Admission to Graduate Programs

Credentials for admission must include a complete record of all previous college or university work. The applicant must request the registrar of each college or university attended to forward official transcripts of record directly to the Office of Admission.

Priority for admission and financial aid is given to applications that are complete by January 2. The School of Architecture will continue to accept and consider applications submitted after January 2.

Following are the basic requirements for admission to the graduate programs: (1) the appropriate degree from an accredited college or university; (2) satisfactory scores on the verbal, analytical and quantitative portions of the aptitude test of the Graduate Record Examinations; (3) intellectual promise and clear study intentions that indicate an ability to do acceptable graduate work; (4) a portfolio of design work; (5) strong personal qualifications.

All students must speak and write English. Foreign students must demonstrate such ability by taking the TOEFL test before leaving their home countries, and, if necessary, by further tests upon arrival on campus.

International students may be required to enroll in American Language Institute (ALI) English courses, based on scores on the English Placement Tests. The cost of these additional courses is the responsibility of the student. In addition, international students should be aware that they may have to defer enrollment in some major courses because of the ALI courses, extending the number of semesters required to complete the program and increasing the overall tuition expense. International students are urged to read with care all information sent to them about English requirements and to take as many English language courses as possible prior to coming to the United States.

*The Master of Building Science and Master of Heritage Conservation programs accept computer programs, papers and other work as portfolio work.

Correspondence with the dean or individual faculty members does not constitute admission to the Graduate School or to the School of Architecture. Only a letter from the Director of Admissions grants official admission.

Graduate Program Policies

Graduate students are expected to complete between 12 and 16 units per semester, spring and fall, depending on the program in which they are enrolled.

A minimum grade of C (2.0) is required in a course to receive graduate credit. A grade point average of at least B (3.0) on all units attempted at USC toward a graduate degree is required for graduation. A total grade point average of at least a B (3.0) in all courses applied toward completion of a certificate is required prior to being awarded a particular certificate. Course work taken on a pass/no pass basis cannot be applied toward a graduate degree or a certificate. If a student does not meet these minimum grades the faculty member should meet with the student to provide timely advisory reviews.
Failure to complete program course work on schedule will result in the loss of financial awards from the School of Architecture and/or may result in suspension from the program upon recommendation from the program director and approval by the Dean of the School of Architecture and the Associate Vice Provost for Graduate Programs. Additional semesters may be taken to complete the thesis or directed design research when appropriate.

All appeals will be reviewed initially by the director(s) of the appropriate graduate program and then by a committee consisting of all graduate program directors (with the exception that design courses will be reviewed by the design review committee). Their recommendation(s) will be forwarded to the dean for consideration and action, and then forwarded to the Associate Vice Provost for Graduate Programs. All communications must be in writing.

**Certificate in Architecture**

The focus of this program is on understanding the broad and complex role of architecture within the urban context. Studies focus on cities throughout the world where conditions of increasing density, environmental challenges and cultural complexity require design initiatives that support amenity, sustainability and cultural meaning. The certificate is open to graduate students not pursuing a Master of Architecture degree.

**Course Requirements**

Completion of the certificate program requires a minimum of 16 units.

**For current USC graduate students not enrolled in a master's degree program in the School of Architecture**

**Certificate in Building Science**

Building science at USC recognizes that exemplary architecture requires a creative response to natural forces, based on informed good judgment in the areas of architectural technology. The Certificate in Building Science is intended as a supplement for students enrolled in graduate course work in architecture, landscape architecture, historic preservation, urban planning or related disciplines.
Course Requirements
Completion of the certificate requires a minimum of 16 units. Students must take three core courses. Electives in building science may be taken to complete the program requirements.

*Students from outside the School of Architecture are required to take ARCH 543 Research Methods as one of their 16 units.

Certificate in Landscape Architecture
This program is intended to introduce at the graduate level the basic subjects inherent to the field of landscape architecture: plant materials suitable to urban conditions; urban utility and transportation systems in relation to topography, natural drainage and pathways; plant and wildlife communities; as well as inquiries about landscape infrastructure and ecology, and the history of human settlement in the evolution of urban landscapes. Southern California and Los Angeles provide an exceptionally valuable natural and socio-cultural laboratory for landscape architecture studies.

**Course Requirements**
Completion of the certificate program requires a minimum of 16 units. Students must take four core courses and select 5 units of electives from the approved list approved by the director of the graduate landscape architecture program.

Sustainable Cities Graduate Certificate
This multidisciplinary certificate program is open to USC students pursuing graduate degrees in disciplines including anthropology, architecture, biology, chemistry, communication, earth sciences, economics, education, engineering, geography, international relations, political science, public policy, sociology, urban planning and others. See the USC Price School of Public Policy, page 893, for course requirements.
Master of Architecture

Programs
Two Master of Architecture programs are offered: the "+2" track in Architecture for students with pre-professional architecture degrees, and a post-professional program for students who already hold a professional Bachelor of Architecture or its equivalent.

Master of Architecture +2 Program
Admitted students must have a four-year architectural studies degree from: a U.S. school with an accredited professional architecture program; a U.S. school that is accredited by a regional accrediting body; without an accredited professional architecture program; or an international program that is deemed equivalent. A minimum of four semesters of Architectural Design studio, five of the Basic Studies course equivalents from the list outlined below (or approximately 15 units), and 40 of non-architectural content must be completed in the previous degree. All students must matriculate in the fall semester and be in residence for a minimum of two years (four semesters).

Degree Requirements
To meet NAAB accreditation requirements, all graduates must complete a combined total of 168 credit hours of study at the undergraduate and graduate level, of which at least 30 semester credit hours must be at the graduate level as well as a minimum of 45 units of non-architectural content. Master’s students must meet established standards for graduate study at USC, and complete a total of 64 credit units, which may include Basic Studies not completed at the undergraduate level as well as Advanced Studies and approved electives.

If a student has completed the equivalent of the ARCH 213ab Building Structures and Seismic Design, ARCH 313 Design of Building Structures sequence in his or her undergraduate studies, yet this work did not include Seismic Design, the student must then take ARCH 313 for its seismic content or ARCH 573 Seismic Design, if offered.

(2) Advanced Studies courses include:

(3) Electives: courses may be taken at the 400, 500 or 600 level. If the total 45 units of non-architectural content, as required by NAAB, have not been completed during undergraduate studies, students will be expected to take those units during the course of the Master of Architecture +2 program.

Thesis or Directed Design Research Option
M.Arch. +2 students may elect to complete an independent thesis or a directed design research project (DDR). An independent thesis or DDR option will allow students to substitute ARCH 693aL or ARCH 695aL for 10 credit units of electives. This option requires residency of a minimum of five instead of four semesters.

*Students electing the independent thesis/DDR option should take ARCH 693aL or ARCH 695aL at this time.

**For students who have elected the independent study option.**

Master of Architecture: Post-Professional
Candidates for admission must have a five-year Bachelor of Architecture degree or its equivalent. Completion of the degree requires 49 units, including 23 units of required courses, 10 units of thesis or directed design research, and 16 units of approved electives.

The required courses are ARCH 410 Computer Transformations; ARCH 543 Research Methods; ARCH 605aL Graduate Architecture Design; ARCH 606 Advanced Architectural Theory; ARCH 607 Advanced Computation; ARCH 608 Urban Theory: Los Angeles Case Study; and ARCH 609 Advanced Fabrication.

Thesis or Directed Research Option
In addition to the opportunity to initiate an independent thesis, students are provided the option to undertake independent design research related to important urban projects already in progress within the school. Whichever option is taken, students are supported in their work by a three-member faculty advisory team including a principal critic.

Diploma of Landscape Architecture

USC offers an international laboratory for the study of place in an extraordinary natural landscape, at the center of an unparalleled multicultural region, within the context of a great urban university. Thus, the study of landscape architecture at USC has a particular focus on urban place-making in relation to three principles.

First, the programs are intended for students who already have earned a first degree or the equivalent in landscape architecture or architecture, as well as students entering design studies after obtaining a degree in another field. The emphasis is on truly advanced study based on the knowledge and skills to engage complex issues and to undertake ambitious explorations. Graduates are prepared for leadership opportunities in professional practice as well as in higher education.

A second emphasis is on urban landscapes, and on the responsibility of design professions to create the qualities and meanings of our urban futures and to make critical contributions to the reclamation of degraded natural systems and places.

Third, place-making is a collaborative responsibility that requires leadership from professionals across the entire domain of planning and design. This requires seamless relationships between programs, students and faculty engaged in architecture, landscape architecture, preservation, building science and planning studies.

Admission with No Previous Professional Education (+3)

Individuals who have completed a four-year Bachelor of Arts or Bachelor of Science degree, or its equivalent, with no prior degree in landscape architecture, architecture or environmental design, are eligible for admission to the program. Preference for admission is given to those who have completed a balanced undergraduate education that includes study in the arts, sciences and humanities. Applicants must document successful completion of a college-level course in the natural sciences. Preparation in the visual arts is strongly encouraged. A minimum of a one-semester, college-level course in the visual arts, such as drawing, sculpture, graphics and/or basic design, is required before beginning the first semester of study. Courses in the humanities, ecology, history of art, landscape architecture and architecture are strongly encouraged, although not required.

96-Unit Curriculum +3

Students admitted with no previous professional education must complete 96 units, including 62 units of specified courses, 24 units of electives of which a minimum of 16 must be from the School of Architecture, and 10 units of Thesis Option I or II. Electives must be part of a curricular plan approved by the program director.

Sample Curriculum +3 (for students with no previous professional education)

</tr>
</tbody>
</table>

*ARCH 606 and ARCH 607 will be taken the first eight weeks of the semester and ARCH 608 and ARCH 609 in the latter half of the semester.
### Admission with Advanced Placement (+2)

Applicants who have completed a non-accredited, pre-professional undergraduate degree in architecture, landscape architecture or environmental design may be granted advanced placement of one or two semesters, subject to the review of the admission committee. Applicants granted advanced placement may be able to waive certain course requirements for the MLA program by demonstrating equivalencies in any of the required courses. The program director and faculty in charge of the specific curriculum areas will determine the studio and professional course requirements for each MLA student admitted with advanced placement. The following courses are prerequisites to be completed prior to matriculation or, on specific notice, in the first year of the program: history of landscape architecture (ARCH 565 or equivalent), landscape architecture construction (ARCH 534, ARCH 535 or equivalent), plant materials (ARCH 537, ARCH 538 or equivalent).

#### 64-Unit Curriculum +2

Advanced placement students must complete 64 units, including 36 units of specified courses, 18 units of electives of which a minimum of 12 must be from the School of Architecture, and 10 units of Thesis Option I or II. Electives must be part of a curricular plan approved by the program director.

### Admission with a First Professional Degree in Landscape Architecture: Advanced Standing (+1.5)

Students who hold an accredited Bachelor of Landscape Architecture degree or the equivalent may be granted advanced standing in a post-professional 48-unit, three-semester sequence of studies.

#### 48-Unit Curriculum +1.5

Advanced standing students must complete 48 units, including 21 units of specified courses, 17 units of electives of which a minimum of 10 must be from the School of Architecture, and 10 units of Thesis Option I or II. Electives must be part of a curricular plan approved by the program director.

**Thesis or Directed Research Option**

In addition to the opportunity to initiate an independent written thesis, students are provided the option to undertake independent design research on important urban issues and projects already in progress within the School of Architecture. Whichever option is taken, students are supported in their work by a three-member faculty advisory team including a principal critic.

**Requirements for Advanced Standing**

Students must have one of the following: an accredited graduate certificate in historic preservation or heritage conservation; professional degree or professional registration in architecture or engineering; graduate degree in a related field, such as architectural history, planning or history; and at least five years of teaching or practice (may be combined).

Each student will be considered individually. Qualified students will be admitted to a three-semester program at the time of review of admission. Students with advanced standing must complete 36 units.

### Master of Building Science

#### Degree Requirements

Completion of this degree requires 48 units and includes 16 units of specified courses to include three core seminars and one research seminar; 17 units of elective courses; and 15 units of thesis and thesis preparation.

The core seminars are:

- ARCH 511L Building Systems, or
- ARCH 611 Advanced Building Systems Integration
- ARCH 513L Seminar: Advanced Structures
- ARCH 515L Seminar: Advanced Environmental Systems

Research seminars are:

- ARCH 613L Seminar: Structures Research, or
- ARCH 615L Seminar: Environmental Systems Research

### Advanced Standing for Students with a Five-Year Professional Degree in Architecture

Applicants who have completed a five-year Bachelor of Architecture degree and at least five years of teaching or practice (may be combined), may be qualified for advanced standing. Each student will be considered individually. In such cases, the degree requirements are 36 units, including 8 units of specified courses, 15 units of thesis and thesis preparation and 13 units of electives. Students with advanced standing will typically be able to complete the degree program in three regular semesters. Admission with advanced standing is determined at the time of review for admission to the program.

Dual Degrees

**Master of Architecture/Master of Planning**
The Master of Planning/Master of Architecture dual degree program facilitates highly related cross-disciplinary studies in architecture and in planning at the master's level. This program offers students interested in developing a career in urban design an opportunity to make more substantial commitments in both disciplines and to achieve a more coherent and extensive knowledge in the design of built environments and public policy. This dual degree program normally requires five semesters in residence.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program. Such students must already possess a five-year professional degree in architecture.

**Requirements**
Requirements for completion of the dual degree program are 72 units, including 36 units in architecture and 36 units in planning, as follows:

<table>

Note: 2-unit courses may be offered in seven-and-a-half week blocks.

**Concentration Methodology:** A 4-unit course selected from the concentration list shown in the Master of Planning program.

**Planning Studies:** PPD 531L (4, 4) to total 8 units. Students must complete 8 units of domestic or international planning studies under PPD 531L (4) to satisfy this requirement. A maximum of 12 units may be taken.

**Electives:** A total of 8 units of electives taken within the USC Price School of Public Policy.

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

**Master of Landscape Architecture/Master of Planning**
Qualified students who are admitted to the Master of Landscape Architecture program in the School of Architecture and to the graduate program in the USC Price School of Public Policy may complete both degrees in a highly integrated five-seven semester program.

Completion of the dual degree requires 24 units of courses in urban planning, 10 units of thesis option I or II and either 32 units of landscape architecture (for those students admitted with advanced standing); 48 units of landscape architecture (for those students admitted with advanced placement); or 74 units of landscape architecture (for those students admitted to the three-year curriculum).

**Master of Landscape Architecture (Advanced Standing)/Master of Planning**
Qualified students with a professional degree in landscape architecture who are admitted to the graduate program in the School of Architecture with advanced standing and to the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program.

Completion of the dual degree requires 66 units, including 32 units of courses in landscape architecture, 24 units of courses in urban planning, and 10 units of thesis option I or II.

**Electives:** 8 units of elective courses taken within the USC Price School of Public Policy.

*Electives: 8 units of elective courses taken within the School of Architecture.

**Electives:** 8 units of elective courses taken within the USC Price School of Public Policy.

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

Total units for dual degree: 66
Master of Landscape Architecture (Advanced Placement)/Master of Planning

Qualified students who have completed a pre-professional undergraduate degree in landscape architecture or environmental design, or a professional degree in architecture and are admitted to the graduate program in the School of Architecture with advanced placement and to the USC Price School of Public Policy may complete both degrees in a highly integrated six-semester program.

Completion of the dual degree requires 82 units, including 48 units of courses in landscape architecture, 24 units of courses in urban planning, and 10 units of thesis option I or II.

**Electives:** 12 units of elective courses taken in the School of Architecture.

*Electives must be 400-level and above.

Doctor of Philosophy in Architecture

The School of Architecture offers the Ph.D. in Architecture, designed to prepare individuals for university level teaching and professional research and for leadership positions in industry and professional architectural practice. Doctoral students must consult the Graduate School section, page 97, for regulations and requirements pertaining to its degrees. Students should also consult the Academic Policies section, page 29, for additional information.

Completion of degree requirements is assumed to take a minimum of three years of approved graduate study and research beyond the bachelor’s degree in a related field or a bachelor’s degree and related practical experience. For the Ph.D. student without Advanced Standing, a minimum of 48 graduate units completed in residence on the University Park Campus in Los Angeles is required. Full-time study is represented by enrollment in six units during the semester. Usually, the school and the student’s guidance committee insist on a clear and mutually understood commitment of time and energy by the student to ensure significant involvement in the doctoral learning experience.

Application and Admission
Admission to the Ph.D. is granted by the Dean of the School of Architecture. However, only a letter from the Office of Graduate Admission constitutes an official offer of admission; correspondence with department chairs or individual faculty members does not constitute admission.

Priority consideration for Ph.D. student funding will be given to those applicants who submit all application materials by December 1. The university will continue to accept and consider applications submitted after December 1. Those who wish to submit applications after the deadline should check with the School of Architecture, Applications for admission to the Ph.D. program are made once each year for fall semester admission.

The admission decision is made using criteria which include verification that the applicant has a bachelor’s degree from an accredited college or university, has maintained a high grade point average in the last 60 units of undergraduate work and has earned a competitive score on the verbal and quantitative portions of the Graduate Record Examinations (GRE). Other elements of the applicant’s educational and experiential background are also evaluated, including performance in other advanced degrees.

Each applicant should submit the following: (1) one copy of original transcripts of all previous college and university work (be sure that these official transcripts show an awarded degree where appropriate); (2) one copy of GRE scores; (3) copy of TOEFL scores for international students whose first language is not English; (4) a 1000-word essay discussing the applicant’s background; reasons for wanting to pursue a doctoral degree; and identifying his or her personal, educational and professional goals; (5) an up-to-date resume, including academic and professional accomplishments; (6) three letters of recommendation, at least two from previous instructors, others from instructors or from professional supervisors or colleagues (the letters should indicate the applicant’s academic and professional accomplishments and potential); (7) a completed USC Graduate Admission Application, along with the nonrefundable application fee; and (8) samples of work such as a portfolio, publications, software programs, etc. The program is intended for people with considerable intellectual interests. Additional requirements for international students are listed under Admission of International Students.

Upon admission to the program, each student will be assigned a faculty adviser who will oversee his or her program.

Doctoral Admission with Advanced Standing
Students entering with a Master of Architecture degree or Master of Building Science degree (or their equivalent) from USC or another university may be admitted with Advanced Standing. A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation preparation, is required for doctoral degree students with a USC Master of Building Science degree admitted with Advanced Standing. For those students entering with a Master of Architecture degree or Master of Building Science degree (or their equivalent) from another university and admitted with Advanced Standing, a minimum of 40 units of course work beyond the first graduate degree is required. Additional course work may be required if deemed necessary by the student’s faculty. See Doctoral Admission with Advanced Standing in the Graduate School section on page 99.

Transfer Credits
The application of any available transfer credits toward a graduate degree at USC will be determined by the School of Architecture, based on the semester units available for transfer as shown in the Transfer Credit Statement. Work experience in architecture or closely related activities should be of benefit to the students involved, but will not be considered equivalent to academic education. A maximum of 6 units of transfer credit may be applied toward a doctoral degree for those admitted with Advanced Standing. Admission with Advanced Standing is based upon a completed master’s degree. The only course work available for transfer credit is course work taken after completion of that degree. No exceptions are allowed.

Students entering the doctoral program with a master’s degree or graduate course work in a field other than architecture work may receive up to 12 units of transfer credit toward the Ph.D.

Deferral of Enrollment
Admission to the university is granted for a specified semester, and it is expected that students will begin their programs during that semester. The school will normally allow students to defer their enrollment up to one year from the admission semester. Students who wish to defer enrollment should notify the school in writing no more than 60 days before the beginning of the semester of admission or they may be required to reapply for admission. Please note that more stringent regulations apply to international students. See the Graduate Admission section, page 80, for further information.

Admission to Candidacy
Acceptance to graduate standing does not in itself imply that the student is admitted or will be admitted to candidacy for an advanced degree. Application for admission as a candidate for an advanced degree is a separate and subsequent step. See the Graduate School section, page 99, for further information.

General Requirements for the Ph.D. Degree
Screening Procedures
Ph.D. students are required to pass a screening procedure before the student has taken more than 24 units (including research courses). Passing this procedure is prerequisite to continuation in the doctoral program. This is designed to ensure that only those students who have demonstrated intellectual and scholarly potential continue in the program. Students who fail the screening procedure will be advised that they have not been recommended to continue in the Ph.D. program and that any additional work may not be counted toward the degree.
Prior to screening, each student prepares a resume and a preliminary statement describing the fields of specialization. After passing the written screening examination, the student meets with the committee to discuss the proposal for course work, fields of specialization and research interests. The committee chair serves as the student’s principal adviser in preparing for the qualifying examination.

Guidance Committee
Each student selects a guidance committee, which officially oversees the student’s academic program through the qualifying examination. The guidance committee should be established at least one semester prior to taking the qualifying examination. This should be accomplished by the beginning of the second year, following successful screening. An appointment of committee form, which can be obtained from the Graduate School Website (www.usc.edu/schools/GraduateSchool), should be used to establish the guidance committee. Students initiate the paperwork and submit the signed form to the dean’s office.

Five committee members are designated to provide guidance in the field developed by the student. A minimum of three members, including at least one tenured member, must be from among the faculty participating in the Ph.D. in Architecture degree program, and at least one member must be from outside the School of Architecture. This committee bears responsibility for recommending the student for admission to candidacy. After approval of the student’s program and time schedule, the program is submitted in writing to the doctoral director. Students will formalize their relationship with their committees through the development of a study plan which specifies all courses completed, date of screening decision, the area of concentration, and which courses will be taken and when, in order to prepare for the qualifying examination. This study plan will be signed by the student, the members of the guidance committee and the faculty doctoral director. It will be filed in the doctoral office.

Qualifying Examination
Students must complete at least 24 units of course work in the doctoral program with a GPA of at least 3.0 before attempting the qualifying exam.

The guidance committee prepares a comprehensive written examination covering the field of study. The exact format for the written portion is determined by each committee in advance. Answers to the questions in the written portion are graded by all committee members. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student.

Upon passing both portions of the qualifying examination, the student becomes a candidate for the Ph.D. degree.

The objective of the qualifying examination is to evaluate the student’s knowledge and to serve as an instrument to demonstrate competence in the student’s chosen field of concentration in preparation for candidacy. Qualifying examinations are scheduled once each year during August. The oral phase of the examination must be completed within 60 days following the written segment. Both parts of the examination must be passed in order to qualify. Failure on one of the two parts of the examination does not require retaking both parts. Only the part failed must be redone.

The examination will be collaboratively designed by the instructors of the core courses and oriented toward testing students’ ability to integrate material from these courses. A portion of this examination will focus on methodological issues. The written portion of the examination will be administered during a full-day session.

The process of grading examinations will be accomplished in two ways. For the written examination, the grading will be done by a committee comprising the core course instructors and the doctoral director. For the oral examination, grading will stay with the guidance committee. Upon passing both the core and oral portions of the examination, the student will be expected to reduce the guidance committee to a dissertation committee. See General Requirements for the Doctor of Philosophy Degree, page 102.

Dissertation Committee
Once students pass the qualifying examination, the guidance committee recommends the student for candidacy and a dissertation topic is approved, a dissertation committee must be formed as soon as possible. The size may range from three to five members, one member of which must be from outside the school.

Dissertation Proposal
After the successful completion of the qualifying examination, the doctoral student will be required to present a complete research proposal for the dissertation. The proposal will be circulated for review and evaluation by the dissertation committee. This proposal should include the methodology, research design, literature review and instrumentation (if applicable). After this step has been completed, further work leading to the completion of the dissertation is authorized.

Defense of the Dissertation
Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft. After the dissertation committee has approved the dissertation in substance, the candidate must defend it before the committee and other interested doctoral program faculty and colleagues. Successful completion of the oral defense marks the ultimate step for the candidate within the School of Architecture. The candidate must be certain that the dissertation also meets specific university requirements before acceptance by the Graduate School. See the Graduate School section, page 97, for further information.

All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation.

Unit Requirement and Time Limit
The Ph.D. degree in Architecture requires a minimum of 72 units (including a minimum of 4 units of ARCH 794) of graduate level course work, and has a minimum residency requirement of three years. Students must maintain a 3.0 average GPA and complete all required course work within five years. The maximum time for the completion of all requirements for the doctoral degree is eight years.

A leave of absence can be granted upon approval of the guidance or dissertation committees. There is no automatic readmission if the student fails to maintain continuous registration or fails to meet academic standards.

Core Curriculum
Year 1: Basic and professional studies
Acquire at a minimum the knowledge that is characteristic of the master’s degree students or equivalent and define the research program.

Year 2: Advanced studies

Year 3: Research and dissertation
While a Master of Architecture or related degree is not a prerequisite for admission, those students entering the doctoral program without a master’s degree in architecture or related field will be required to complete a core curriculum.
Courses of Instruction

ARCHITECTURE (ARCH)

All courses must be taken in sequential order, a before b.

The terms indicated are expected but are not guaranteed. For courses offered during any given term, consult the Schedule of Classes.

ARCH 102abL Architectural Design I (4-4, FaSpSm) Introduction to principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the design of simplified architectural projects.

ARCH 105L Fundamentals of Design Communication (2, FaSp) Visual communication techniques applicable to the design of the built environment; drawing, photography, modeling.

ARCH 106x Workshop in Architecture (2, FaSp) Introduction to the ways architecture is created and understood, for minors and non-majors. Hands-on discussion and laboratory session with some drawing and model building. Not available for credit to architecture majors.

ARCH 114 Architecture: Culture and Community (2, FaSp) Introduction to the ways architecture represents aspirations of culture, satisfies practical and spiritual needs, shapes the social and urban environment, and helps preserve the planet.

ARCH 202abL Architectural Design II (6-6, FaSpSm) Continuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 102abL.

ARCH 205abL Building Science I (4-4, FaSp) The process and communication of building design: physical building shell, systems for structure, enclosure, and space ordering. Prerequisite: CE 107.

ARCH 206L Landscape Architecture Design (6, FaSpSm) The architect's sketchbook as a portable laboratory for perceiving and documenting space introduces the study of the built environment. On-site sessions develop drawing, observation, and visualization skills.

ARCH 211 Materials and Methods of Building Construction (3, Sp) Basic considerations and design implications of the problem of determination of the materials and construction details and processes for buildings.

ARCH 213ab Building Structures and Seismic Design (3-3, FaSp) a) Investigation and design of elements and systems for building structures; applied mechanics, strength of materials, structural investigation as a design tool. b) Investigation and design of structure systems: their resistance to seismic and wind forces and integration with architectural design for synergy of form and structure. Recommended preparation: PHYS 125 and MATH 108.

ARCH 214ab World History of Architecture (a: 3, Sp; b: 3, Fa) A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, a: 4500 BCE to 1500 CE; b: 1500 CE to present.

ARCH 215 Design for the Thermal and Atmospheric Environment (3, Fa) Ideas, problems, and computations related to the design of buildings in response to the thermal and atmospheric environment; passive solar systems, mechanical control systems.

ARCH 220 The Architect's Sketchbook (2, FaSp) The architect's sketchbook as a portable laboratory for perceiving and documenting space introduces the study of the built environment. On-site sessions develop drawing, observation, and visualization skills.

ARCH 260L Landscape Architecture Design I (6, Sp) Development of principles and processes for the design of gardens and parks and the definition of open space in the built environment. Prerequisite: ARCH 202a.

ARCH 302abL Architectural Design III (6-6, FaSp) Special integrative year including design issues relating to housing. Prerequisite: ARCH 202abL.

ARCH 304x Intensive Survey: Prehistory to the Present (4, FaSp) An intensive historical overview of architecture from prehistory to the present, emphasizing interrelationships of various global cultures and how social considerations were translated into form. Not available for credit to architecture majors.

ARCH 305abL Building Science II (4-4, FaSp) The design of a building as a complex of interacting systems; relations of subsystems; influences of production and marketing on design. Prerequisite: ARCH 205abL.

ARCH 306 Shelter (4, Sp) Investigation of issues, processes, and roles of individuals, groups and communities in relation to present and future shelter needs and aspirations. (Duplicates credit in former ARCH 206.)

ARCH 307 Digital Tools for Architecture (3, FaSp) Exploration of digital tools with an emphasis on building information modeling (BIM), parametric modeling, and interoperability including special topics in Architecture/Engineering/Construction (AEC) and sustainable design. Recommended preparation: basic computer skills.

ARCH 313 Design of Building Structures (3, Fa) Problems and processes of design of building structures; structural investigation for design; codes and standards; design of elements and systems of wood, steel, masonry, and concrete for gravity and lateral loads. Prerequisite: ARCH 215a.
ARCH 314 History of Architecture: Contemporary Issues (3, FaSm) Examination of the buildings, issues and images, the polemics and personalities that are animating current architectural discourse and practice. Prerequisite: ARCH 214b.

ARCH 315 Design for the Luminous and Sonic Environment (3, Sp) Ideas, problems, and computations related to the design of buildings in response to the luminous and sonic environment.

ARCH 316 Place and Culture (3, FaSpSm) (Study abroad programs only) Study of the relationships between places and culture through readings, lectures, discussion and weekly field trips.

ARCH 326 The Modern Movement in Architecture (4, Sp) Major theories of modern architecture are presented by studying the work of masters such as Gropius, Mies van der Rohe, Corbusier, and Kahn.

ARCH 341 History of Italian Architecture 1400-1990 (4, Sp) Introduction to the important buildings, architects and architectural movements in Italy from the Renaissance to the present.

ARCH 360abl Landscape Architecture Design II (6-6, FaSp) a: Principles, policies and practice of planned community design focusing on site planning. Prerequisite: ARCH 260. b: Principles and design of conservation and enhancement of cultural and natural resources. Studio investigates historic landscape landmarks, conservation programs and urban landscape renewal. Prerequisite: ARCH 360a.

ARCH 361 Ecological Factors in Design (3, Fa) Lectures, laboratory exercises and field trips introduce basic knowledge of incorporating ecological factors in urban design and interaction of landscape science with the human environment.

ARCH 362 Landscape Architecture Construction (3, Sp) An investigation of construction processes, horizontal and vertical control of space, site detailing control of space, site detailing and materials and construction drawings. Prerequisite: ARCH 211 and ARCH 213a.

ARCH 363 Plant Material Identification: Horticulture (4, Fa) Introduction to 300 species of plantings. Learn visual characteristics, nomenclature, cultural considerations, and design applications through visits to existing gardens.

ARCH 364 Materials and Methods of Landscape Architecture (3, Fa) Aesthetic and ecological concepts for planting design. Methods of selecting appropriate plants for site development and an understanding of irrigation techniques for a given site. Prerequisite: ARCH 363.

ARCH 370 Architectural Studies – Expanding the Field (2) Survey of opportunities, specializations, and professions related to architecture provides a resource for professional growth for architecture majors, and introduction to the field for non-majors.

ARCH 390 Special Problems (1-4, FaSp) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ARCH 402abcd Architectural Design IV (6-6-6-6, FaSpSm) Selected areas of specialization; three projects chosen with advisement; prerequisite: ARCH 363.

ARCH 404 Topics in Modern Architecture in Southern California (3, FaSp) Investigation of modern architecture in southern California within its cultural and historic contexts.

ARCH 405ab Architectural Design III (4-4, FaSp) Design of building systems as an experimental process. Prerequisite: ARCH 302bL.

ARCH 407 Advanced Computer Applications (4, FaSp) Investigation of computer graphic applications, emphasizing the role of computers in helping designers create and communicate using color (rendering), form (modeling), and time (animation) and the implications of future technological advancements. Prerequisite: ARCH 207 and ARCH 307; CADD studio or departmental approval.

ARCH 410 Computer Transformations (2) To explore the potential of computer-integrated design software; to develop techniques for critical analysis of architectural precedents; to expand the ability to visualize options; to expand perception; and to learn the basics of computer-integrated design. Prerequisite: ARCH 202b.

ARCH 411 Architectural Technology (3, Sp) Architectural design considered as a technological problem; influence of technology on design; buildings as integrated sets of systems. Prerequisite: ARCH 313.

ARCH 414 Perspectives in History and Theory in Architecture (2, max 6) Perspectives in Architecture and Urbanism is an advanced course that allows students to delve deeply into one aspect of world history, theory and/or contemporary issues to develop more focused and critical understanding of that discourse. Prerequisite: ARCH 214a, ARCH 214b or ARCH 304.

ARCH 417 Computer Programming in Architecture (3, Fa) Principles underlying computer programming, emphasizing algorithms, procedures, and program structures applicable to architecture.

ARCH 418 Designing with Natural Forces (3, Fa) Investigation of natural force effects and their relationships to architecture; laboratory work includes drawing, photography, model building and tests on models.

ARCH 419 Architectural Sustainability Tools and Methods (3, FaSp) Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems.

ARCH 420 Visual Communication and Graphic Expression (3, Fa) An exploratory study of fundamental and innovative visual communication principles and graphic expression techniques to facilitate the design enquiry process for architects. Prerequisite: ARCH 302L.

ARCH 421 Digital Architectural Photogra phy (2, FaSp) Perceiving and documenting the built environment through the perspective and frame of the digital camera. Mastering the basic principles of the digital image through an understanding of frame, light, exposure, color correction, and printing output.

ARCH 422 Architectural Photography (2, FaSp) Perceiving and documenting the built environment through the perspective and frame of the camera. Abilities with 35mm and large format cameras, lighting, and black and white lab techniques will be developed. Recommended preparation: knowledge of 35mm camera.

ARCH 423 Light, Color and the Character of Material (2, FaSp) Color theory, constructed drawings, constructed shadows, descriptive geometry, constructed perspective drawing, and layered wash techniques lead to experimentation with methods representing materiality and construction in design projects. Prerequisite: ARCH 165L.
ARCH 424L Field Studies in Architecture (2, FaSpSm) (Study abroad programs only.) Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings in architecture. Department approval. Recommended preparation: core curriculum.

ARCH 425L Field Studies in Urbanism (2, FaSpSm) (Study abroad programs only.) Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings in urbanism. Departmental approval. Recommended preparation: core curriculum.

ARCH 426L Field Studies in Tectonics (2, FaSpSm) (Study abroad programs only.) Field studies using direct observation, site recordings/documentation, analysis and evaluation supplemented by discussions and readings in tectonics. Departmental approval. Recommended preparation: core curriculum.

ARCH 430 Design Teaching Methods (2, FaSp) The teaching of architectural design is introduced through readings, seminar discussions, and the observation of teaching in action. In addition to a one hour per week seminar, each student will participate in a design practicum. Prerequisite: ARCH 302L.

ARCH 432 People, Places and Culture: Architecture of the Public Realm (4, Sp) Critical observation of the architecture of public buildings and places and the importance of design in promoting a better contemporary public life.

ARCH 434 City Cine: Visuality, Media and Urban Experience (3, FaSp) This seminar explores the relationship between urban experience and visual media (from the photographic, to the filmic, to the digital) from circa 1880 to the present.

ARCH 440m Literature and the Urban Experience (4, FaSp) Post-industrial revolution urban environments and dynamic relationships in cities such as Manchester, Paris, St. Petersburg, New York, and Los Angeles, as revealed in novels, architecture, and urban forms.

ARCH 441 A History of Architectural Theory: 1400-1914 (2, FaSp) A seminar on architectural theory from Alberti to Scott, reviewing primary texts and subsequent criticisms.

ARCH 442m Women’s Spaces in History: “Hussies,” “Haremns” and “Housewives” (4, FaSp) Methods for studying patterns of spatial differentiation of women throughout history from home to city embodied in gender specific language and gendered spaces.

ARCH 444 Great Houses of Los Angeles (4, FaSp) An introduction to the architectural philosophies of seven influential California architects through readings and site visits to significant case studies. (Duplicates credit in former ARCH 322.)

ARCH 454 Contemporary Asian Architecture (4) Exploration of various “Asian” architectures, comparisons of areas, identifying current trends and impact of Asia on Southern California and Los Angeles.

ARCH 460L Landscape Planning Studio (6, Fa) Studio examining basic concepts and stimulating ecological landscape project planning. Preparation for landscape project and land management project. Prerequisite: ARCH 360b.

ARCH 461L Landscape Architecture Comprehensive Project (6, Sp) Preparation of an individual comprehensive design project under a faculty adviser to demonstrate knowledge of landscape architecture principles and professional skills. Prerequisite: ARCH 460L.

ARCH 463 Plant Material Identification: California Plant Communities (4, FaSp) Expand plant material vocabulary to include native plants of Southern California. Emphasis on bioengineering techniques for site design. Prerequisite: ARCH 363.

ARCH 465 History of Landscape Architecture (4, FaSp) Provides understanding of design of landscape in the Western world. Includes case studies on general and specific projects. Students develop personal theory of landscape design. (Duplicates credit in former ARCH 365.)

ARCH 466 Nature, Landscape and Gardens in Non-Western Cultures (4, Sp) Critical analysis and appreciation of landscape as cultural interpretation of nature and the representation of landscape as garden and public space in Asian, Islamic, and Pre-Columbian American civilizations. (Duplicates credit in former ARCH 366.)

ARCH 470 Concentration Capstone Seminar (4, FaSp) Collaborative research project and research paper in an area of concentration. Senior standing.

ARCH 481 Furniture Design (2, FaSp) An investigation into 20th century furniture design and its relationships to architecture, art, and design.

ARCH 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

ARCH 499 Special Topics (2-4, max 8, FaSpSm) Selected topics in various specialty areas of architecture.

ARCH 501 Critical Topics in Architecture (2, FaSpSm) Seminar supporting the research, development, and writing of Degree Project Paper provides a comprehensive base of information for the final Bachelor of Architecture studio. Prerequisite: ARCH 402bL.

ARCH 502azL Architectural Design V (6-6, FaSpSm) The final comprehensive architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Graded IP/L. a: Prerequisite: ARCH 402azL; corequisite: ARCH 501; z: Prerequisite: ARCH 502a.

ARCH 505ab Graduate Architecture Design (6-6, FaSp) Emphasis on comprehensive architectural design; attention to theories and skills appropriate for practice in contemporary urban conditions. Open to graduate architecture majors only. Prerequisite: a Bachelor of Science degree in Architecture or its equivalent; recommended preparation: six semesters of architecture design.

ARCH 507 Theories of Computer Technology (3, FaSp) Fundamental theories and meanings of computation as a technique in architectural design. Lecture/discussion.

ARCH 510 Independent Degree Project Preparation (1, FaSpSm) Research and analysis, including written and graphic components, that tests a question/proposition in detail in preparation for Independent Degree Project Document. Prerequisite: ARCH 402b; corequisite: ARCH 402L.

ARCH 511L Building Systems (4, Fa) Studies of construction system development within the architectural design context: processes and issues of selection, evaluation, optimization, integration, design control, and innovation.

ARCH 513L Seminar: Advanced Structures (4, Fa) Issues and problems in the development of structural systems for buildings; design criteria, system choice, design development, optimization, subsystem integration.

ARCH 514 Contemporary Issues in Architecture: A Critical Dialectic (3, Fa) Issues that are important to the contemporary built environment are explored using a dialectical format to encourage debate, augmented by invited speakers and topical readings.
ARCH 515L Seminar: Advanced Environmental Systems (4, Sp) A compressed course in design criteria and calculation methods for mechanical and passive solar systems (loads, plant system, duct, and storage sizing) and lighting and acoustics (CIE and IES methods, DBA and NC systems).

ARCH 517 Current Topics in Building Science (1, max 6, Fa) Critical studies in building science ranging from sustainability, lighting, acoustics, materials and methods, structures, energy issues, digital media, and fabrication. Students focus on minimum of two topics.

ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure (2, Fa) Studies in contemporary building systems through analysis, research, and computational methods leading to the design of a prototypical building surface. Recommended preparation: A prior knowledge of fundamental building systems and 3D modeling.

ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings (3, FaSp) Methodologies and exercises on contextual design and environmentally sound technologies (EST’s) applications for the sustainability of urban infrastructures, operative landscapes, and building integration in the urban system.

ARCH 520 Housing and Community Design for an Aging Population (2, Fa) Exploration of the role design plays in enhancing independence and well-being for older people by examining cross-cultural models of housing and community design.

ARCH 524 Professional Practicum (1, max 2, FaSpSm) Comparative studies of professional practice between U.S. firms and firms in other countries. Open to international upper-division and graduate architecture students only. Graded CR/NC. Prerequisite: ARCH 302L.

ARCH 525 Professional Practice: Pre-Design, Project and Office Administration (3, Fa) Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect’s responsibilities during construction. (Duplicates credit in former ARCH 520 and ARCH 522.) Prerequisite: ARCH 302L.

ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation (3, Sp) The laws and regulations that affect the practice of architecture and building economics and the development of comprehensive project documentation, detailing, specifications, drawing formats and organizations. (Duplicates credit in former ARCH 521 and ARCH 523.) Prerequisite: ARCH 302L.

ARCH 527 Case Studies: The Development of Urban Housing (2, FaSp) An exploration of the various elements and stages of the housing development process. Recommended preparation: a preliminary understanding of real estate or housing.

ARCH 528 Urban Housing: Types and Typologies (2, Fa) Applications and precedents for the architect interested in designing multifamily housing. Review of the sources of modern housing types, the impact of building codes and technology on the form and construction of housing, and study of housing densities; comparative analysis of multifamily residential patterns. Major emphasis on critical knowledge of historic housing typologies as they are applied to site conditions and groupings, building form, section, organization, and the design of individual dwellings. Recommended preparation: two years of undergraduate architectural studies.

ARCH 529 Urban Housing: Programs, Precedents, and Recent Case Studies (2, Fa) Historical overview of the major domestic and international housing developments and innovations since the early 20th century. Case study format examining a wide range of issues that determine the form of urban housing in various cultures. Major emphasis on the detail analysis of social, technical, and design factors affecting recent housing developments. Recommended preparation: two years of undergraduate architectural studies.

ARCH 530 Landscape Architecture Practice (3, FaSp) Introduction to the principles and ethics, scope and activities, and types of organization for landscape architecture practice. (Duplicates credit in former ARCH 630.)

ARCH 531 The Natural Landscape (3, FaSp) Lectures, laboratory exercises and field trips introducing basic knowledge of the continually transforming landscape as a base for human settlement.

ARCH 532 Elements of the Urban Landscape (2, Fa) Study of the basic spatial and infrastructure elements of the city, and how urban places are formed. Typological analysis of buildings, open space, and urban patterns.

ARCH 533 Urban Landscape Case Studies (2, Sp) Lectures, discussion, and individual research on the physical, formal, and spatial characteristics of historical urban centers.

ARCH 534 Landscape Intervention: Construction Methods (3, Fa) Preparing the site: soils, grading, drainage, irrigation, surface; building the place: materials, utilities, plants, and processes of construction. (Duplicates credit in former ARCH 535a.)

ARCH 535 Landscape Reclamation: Construction Materials (3, Sp) Assessing existing conditions and site repair imperatives; opportunities for reestablishment of natural system continuities; alternative techniques for soil remediation, regrading, and stabilization; selection of materials and methods of construction for site development. (Duplicates credit in former ARCH 535b.)

ARCH 536 The Landscape Planning Process (3, FaSp) Methods of assessing urban places regarding natural, social, cultural and political factors; identification of landscape architecture planning and project implementation issues and strategies.

ARCH 537 Urban Plant Ecology (3, Fa) Aesthetic and ecological concepts for urban planting design; introduction to plant species and communities including nomenclature, visual characteristics, cultural considerations, and design case studies with visits to existing sites.

ARCH 538 Urban Plant Ecology: California Plant Communities (3, Sp) Emphasizes plant material vocabulary regarding native plants of Southern California in relation to ecological conditions of urban settings. (Duplicates credit in ARCH 463.)

ARCH 539L Media for Landscape Architecture (2, Fa) Development of methods and skills for the study of landscape architecture design and for project presentation, including natural resource and urban mapping.

ARCH 540L Topics in Media for Landscape Architecture (2, max 4, FaSp) Exploration of emerging techniques for landscape architecture study, presentation and documentation; topics vary from year to year; may be repeated for credit when subject matter is different.

ARCH 541LbL Landscape Architecture Design (6-6, FaSp) a: Projects on urban sites with emphasis on cultural and ecological purpose and on urban place and form; use of traditional and digital media. b: Projects in urban settings with emphasis on landscape continuities as well as development of integrative schematic proposals and detailed open space design.
ARCH 542abL Landscape Architecture Design (6-6, FaSp): a: Project strategies for urban infrastructure repair and intervention, phasing, and design of initial catalytic projects. Prerequisite: ARCH 541L; b: Projects for the public realm with emphasis on urbanity and connectivity, place and meaning.

ARCH 543 Research Methods (1, Fa) Introduction to methods of inquiry and documentation including critical review of published materials, techniques for systematic observation, generating findings from comparative studies of relevant precedents and problems, and legible presentation of outcomes.

ARCH 550 Heritage Conservation Policy and Planning (3, Sp) Conservation practice within an economic, political, and cultural context looking at the regulatory environment, public advocacy and policy, real estate development, heritage tourism, environmental sustainability, cultural diversity, and interpretation. Recommended preparation: ARCH 549.

ARCH 552 Introduction to Historic Site Documentation (2, Sp) Survey of basic guidelines and standards for documentation in historic preservation, including cultural resource surveys, historic structures reports and Historic American Building Survey and Historic American Engineering Record recordation.

ARCH 554 Heritage Conservation Practicum – Advanced Documentation (3, max 6, FaSp) Heritage conservation practicum utilizing in-depth documentation methodology to explore the historic built environment of greater Los Angeles. Topics will vary from year to year.

ARCH 556 Readings in Heritage Conservation Theory (2, Fa) Trans-disciplinary intensive reading and discussion course related to issues in contemporary heritage conservation. Prerequisite: ARCH 549.

ARCH 561 Architecture in the Urban Landscape: Projects and Places (2, Fa) Study of the basic spatial and infrastructure elements of the city, and how urban places are formed: Focus on incremental development, public-private collaboration, community incentives and controls, project implementation strategies. (Duplicates credit in former ARCH 532b)

ARCH 563 Architecture in the Urban Landscape: Comparative Theories (2, Sp) A comparative study of design theories of the physical, formal and spatial characteristics of historic city types from ancient to modern.

ARCH 565 Global History of Landscape Architecture (3, Fa) Understanding of the global history of landscape design in relation to social, political, religious, environmental and aesthetic principles; current design theory, projects and their historical references are critically reviewed and analyzed. (Duplicates credit in ARCH 463.)

ARCH 566 Cross Cultural Topics in Landscape Architecture History (3, max 6, FaSp) Comparative analysis and appreciation of landscape architecture as a manifestation of nature, society, and design. Topics and world regions vary from year to year; may be repeated for credit when subject matter is different.

ARCH 573 Seismic Design (2, Fa) Theory, design methodology and practice of how seismicity affects architecture and structural system selection required for robust earthquake performance and seismic sustainability. Prerequisite: ARCH 313; recommended preparation: basic knowledge of physics and exposure to architectural design and building structures.

ARCH 577L Lighting Design (4, Sp) The physics, technical knowledge, professional knowledge, design, and documentation processes used in architectural lighting design, including first principles, manual calculations and computer simulations. Recommended preparation: Some knowledge of physics and exposure to the design process and design presentation skills.

ARCH 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ARCH 596 Building Science Thesis Preparation (1, FaSp) Exploration of topics leading to the development of a thesis prospectus. Topics may be in the areas of building structures, seismic design, environmental control, passive and active energy, or other relevant topics. Graded CR/NC.

ARCH 599 Special Topics (2-4, max 8, FaSpSm) Selected topics in various specialty areas of architecture.

ARCH 605abL Graduate Architecture Design (6-6, FaSpSm): a: Comprehensive project emphasizing the interaction between general principles and local sites, building technologies and total building design. b: Advanced topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Graded IP/L.

ARCH 606 Advanced Architectural Theory (2, Fa) Interrogates the architectural and cultural landscape of our contemporary cities through a combination of lectures and seminars on theories of place, identity, aesthetics, and technology.

ARCH 607 Advanced Computation (2, Fa) Introduction to a range of new technologies and techniques examining their technical and theoretical implications including advanced computational design techniques and geographic information systems.

ARCH 608 Urban Theory: Los Angeles Case Study (2, Fa) Critically investigates the urban condition of Los Angeles through lectures, readings, and field visits. Aims to heighten awareness of the enwrapping of environment, culture, architecture and the contemporary city.

ARCH 609 Advanced Fabrication (2, Fa) Introduction to a range of new technologies and techniques examining technical and theoretical implications including a range of digital fabrication technologies, robotics and film-making techniques.

ARCH 610L Advanced Graduate Architecture Design (6, FaSpSm) Elective advanced design and research studio investigations. As faculty-led topical themes, the design-based projects will engage critical topics engaging diverse areas of specialization. Prerequisite: ARCH 605a.

ARCH 613 Urban Design (3, Fa) Urban design intervention in Los Angeles, with emphasis on understanding the context and critically evaluating the process of urban design. Recommended preparation: ARCH 541L or equivalent, intermediate level urban design learning.

ARCH 614 Urban Infrastructure (3, FaSpSm) Urban infrastructure repair and intervention, phasing, and design of initial catalytic projects. Recommended preparation: ARCH 541L or equivalent, intermediate level urban design learning.

ARCH 641 Theories of Architecture (6, FaSpSm) Critical discussion of the history of architectural thought, the current state of the field, and the role of the architect. Recommended preparation: ARCH 241/242 or equivalent, intermediate level architectural history learning.

ARCH 651 Modern Architecture (3, Fa) Introduction to the development of modern architecture in Europe and the United States, with an emphasis on the work of Le Corbusier. Recommended preparation: ARCH 241/242 or equivalent, intermediate level architectural history learning.

ARCH 660 Sustainability in Architecture (3, Fa) Overview of technologies and methodologies for the sustainable design of buildings, with an emphasis on the planning, design, and construction of sustainable projects. Recommended preparation: ARCH 241/242 or equivalent, intermediate level architectural history learning.

ARCH 670 Urban Theory: San Francisco Case Study (2, Fa) Critically investigates the urban condition of San Francisco through lectures, readings, and field visits. Aims to heighten awareness of the enwrapping of environment, culture, architecture and the contemporary city.
ARCH 611 Advanced Building Systems Integration (4, Fa) Design criteria development, material and construction process methods, occupancy based load profiles, performance/material life-cycle-mandates, durability for advanced building systems including integrity in sustainable urban systems.

ARCH 613L Seminar: Structures Research (4, FaSp) An overview of research topics in building structures; detailed investigation of selected major issues.

ARCH 615L Seminar: Environmental Systems Research (4, Sp) A detailed examination of current issues in the thermal, acoustical, and radiant environment; recent developments in criteria, systems, controls, design tools and simulations; an understanding of the relationships between environmental factors, economics, and architectural goals.

ARCH 642L Landscape Architecture Design (6, Fa) Fully integrated landscape place design; reclamation sites at significant urban or natural locations. Prerequisite: ARCH 542ab.

ARCH 690ab Directed Research (a: 2-8; b: 2-8, FaSpSm) Graded CR/NC.

ARCH 691abz Heritage Conservation Thesis Preparation and Thesis (2-6-0, 5p) Introduction to, and exploration of, topics leading to the development of a thesis prospectus and directed research towards the completion of the master's thesis in heritage conservation. Credit on acceptance of thesis. Registration restricted to Master of Heritage Conservation students who have satisfactorily completed 12 hours of graduate course work and have permission of the Program Director. Graded IP/CR/NC. Prerequisite: ARCH 549, ARCH 553.

ARCH 693abzL M.Arch. Thesis, Option I (2-8-0, FaSpSm) Directed research option for M.Arch. degree. Credit on acceptance of research project. Graded IP/CR/NC.

ARCH 697abzL M.L.Arch. Thesis, Option II (2-8-0, FaSpSm) Field studies and thesis for the M.L.Arch. degree. Credit on completion of thesis. Graded IP/CR/NC.

ARCH 790 Doctoral Research (1-12, FaSp) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the School of Architecture. Graded CR/NC.

ARCH 791 Proposal for Doctoral Dissertation (1, Fa) Credit on acceptance of dissertation proposal. Graded CR/NC.

ARCH 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded CR/NC.
USC Marshall School of Business

With its international student body, world-class faculty and strategic location at the gateway to the Pacific Rim, the USC Marshall School of Business offers an unparalleled, hands-on education in global business, providing course work in accounting, communications, economics, entrepreneurship, finance, information systems, marketing, management, operations and statistics. As it educates students to navigate the global economy, USC Marshall also fosters an understanding of the role and relevance of business in society, a core component of the school’s vital mission.

Founded in 1920, USC Marshall is one of the nation’s oldest and most prominent business schools. Through its broad range of academic offerings and the work of its Centers of Excellence, USC Marshall continues to set the standard in the 21st century for leadership and innovation in business education.

USC Marshall places strong emphasis on experiential learning. All graduate students are required to have international experience as part of their degree programs. Undergraduate students also have access to numerous overseas programs, including study abroad, international internships and week-long foreign travel experiences, combined with course work focused on the economy, business practices, language and history of the host country.

USC Marshall trains professionals at every level of their careers, in multiple locations and on a full-time, part-time or weekend schedule. U.S. News & World Report ranks its undergraduate program in the top 10. And The Wall Street Journal puts its Executive MBA program, offered in Los Angeles, San Diego and Shanghai, number one for leadership and management and number four overall.

USC Marshall offers a complete array of degree options for every kind of student — and a dynamic academic environment that places it at the forefront of leading business schools around the world.

MBA students Jacob LaJoie (left) and Brooks Hansen gave kindergarten students at 93rd St. Elementary School their first business lesson as part of Junior Achievement in a Day, which attracted 92 volunteers from the Marshall student group, Challenge for Charity. USC Marshall recently developed a social entrepreneurship minor for students who want to change the world with their business savvy.

Undergraduate Degrees

Bachelor of Science

The business major combines a strong grounding in business fundamentals and expertise in select functional areas with extensive exposure to the liberal arts. The curriculum is designed with significant flexibility so that students can complement their studies in business with a minor in a field outside business.

Marshall School programs lead to a Bachelor of Science degree; the most common major is Business Administration. Marshall students may major in Accounting through the Viterbi School of Engineering (part of the Marshall School).

The Marshall School offers three joint programs: the program with the School of Cinematic Arts leads to a B.S. in Business Administration with an emphasis in Cinematic Arts; the program with the School of International Relations leads to a B.S. in Business Administration with an emphasis in International Relations; and the program with East Asian Studies leads to a B.S. in International Relations; and the program with the School of Cinematic Arts leads to a B.S. in Business Administration with an emphasis in East Asian Studies. The Marshall School and Viterbi School of Engineering offer a combined degree program leading to a B.S. in Business Administration/Computer Science; this degree is administered by the Viterbi School of Engineering. The Marshall School also offers a variety of minors for non-business students.

Admission

Students may be admitted to the program as incoming freshmen, as USC undergraduates transferring from another major or as students transferring from another college or university. Admission to the Marshall School requires admission to the university and depends on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or a minor in the Marshall School may complete a maximum of 12 units from the Marshall School and/or the Leventhal School. Information and guidelines for applicants to the Marshall School are available at the USC Undergraduate Admissions and USC Marshall Undergraduate Admissions Websites.

Degree Requirements

Educational Objectives

The undergraduate programs in business have three main goals: (1) graduates will have a grounding in skills and concepts that are fundamental to business; (2) graduates will have deep expertise in one or more specific areas of business, selected according to the student's personal and professional goals and objectives; and (3) graduates will have extensive exposure to the liberal arts, usually with a formal minor in a field outside business.

USC Core Requirements

All undergraduates take the USC Core, comprising general education, the writing program and the diversity requirement. The general education program requires six courses in different categories. The writing program requires two courses, WRIT 140 and WRIT 340. The diversity requirement is met by passing any course with the “m” designation. See page 63 and page 250 for more information.

Business Core Requirements

Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and economics; functional courses in business disciplines such as finance, marketing and operations; and integrative courses in strategy and data analysis.

*Placement into MATH 118x is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam or AP calculus or IB mathematics exam. The Math 118x requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.
**Business Electives Requirement**
In addition to business core courses, students are required to gain a deeper understanding of a specific aspect of business in which they have an interest. Business administration majors must complete 12 units of upper-division elective courses (typically three 4-unit courses) offered by the Marshall School, specifically 300- or 400-level courses with a prefix ACCT, BAEP, non-core BUAD, BUCO, FBE, FIM, IOM, MKT or MOR. Students can also satisfy the business electives requirement through participation in a Marshall School sponsored international exchange program.

Electives should be selected based on a student’s personal and professional goals and in consultation with an academic adviser. The Marshall School’s academic departments and centers can help students select courses that are particularly useful for careers in fields covered by the department or center. Electives are normally clustered in a particular field, but may be spread across different fields.

**Additional Requirements**
Sixty units of non-business course work are required for any of the undergraduate degrees conferred by the Marshall School of Business.

A maximum of 24 units of undergraduate course work may be taken pass/no pass and used toward the B.S. degree in Business Administration. However, MATH 118x, WRIT 140, WRIT 340, ECON 351x, ECON 352x and all courses required for the major must be taken for a letter grade.

In addition to meeting university GPA requirements, a minimum grade point average of 2.0 (A = 4.0) in upper-division business courses is required for graduation.

**Free Electives**
The business curriculum allows for 32 units of free electives. Students are strongly encouraged to pursue a minor, study a language and/or take advantage of the university’s many opportunities to study abroad.

**Minors**
USC offers more than 150 minors, spanning a wide variety of fields. The business curriculum is designed to allow every student enough flexibility to pursue a minor outside of business, in the belief that a strong undergraduate education must be well-rounded and incorporate the liberal arts as well as business classes. Minors allow students to gain substantial expertise in a field outside business by taking classes in another of USC’s top-ranked departments and schools.

Students with an officially declared minor may apply for the honor of being named a Renaissance Scholar if they meet the other program conditions.

Because some classes required for particular minors may have limited availability, students are encouraged to work closely with their academic advisers to develop plans for their minors. The Marshall Office of Undergraduate Advising can help plan for minors and provide information on the various minors offered throughout the university and how they complement different business tracks.

**Marshall School Academic Departments and Centers**
The Marshall School’s academic departments and centers listed and described below can help students select courses that are particularly useful for careers in the fields covered by the department or center.

- **Center for Management Communication**
The center offers classes in a variety of topics relating to communication in organizations, ethics, business presentations, business writing, interpersonal interactions, group processes and teamwork, persuasion and leadership. The importance of effective communication to the success of business leaders and organizations has increased exponentially in the age of globalization, the Internet and instant media reporting that takes business news to the world in seconds. Communication theory, practice and skills will help students advance themselves and their organizations regardless of their positions or industries. Business leaders at all levels need the ability to communicate strategically in times of crisis or calm.

- **Department of Finance and Business Economics**
The department offers classes in the fields of finance, business economics, business law and real estate. Subjects include microeconomics, macroeconomics, economic forecasting, corporate finance, investments and valuation, financial institutions and markets, risk management, and real estate finance, among others. These subjects are important for business planning and consulting, evaluation of capital investments and corporate strategies, and securities investment analysis, advising and trading.

- **Department of Information and Operations Management**
The department offers classes in operations management, statistics and information systems. These three areas are critical to the success of any firm in a globalized economy: technology and information management, gathering and understanding data, and effective management of day-to-day operations. Students learn to leverage technology and information systems to gather critical market data on a global basis; use statistics to turn this data into critical forecasts and competitive analysis; and manage projects with international teams, develop innovative products, and skillfully manage the creation and delivery of goods and services to anywhere on the globe. Career opportunities in these areas include consulting, product development, supply chain management, global marketing and manufacturing. Course work in this department is especially important to students interested in one day running their own companies.

**Department of Management and Organization**
The department offers classes in human resources, negotiations, organizational behavior and management strategy. The management function is concerned with setting corporate strategy to gain competitive advantage in a dynamic, global environment; designing the organization to implement the strategy; and leading organizational members to achieve strategic objectives. In carrying out their responsibilities, managers must balance the demands of the competitive environment with the resources and capabilities inside the organization. The department’s classes help students learn how to be effective managers by developing skills in team building, decision-making, strategy formulation, organizational design, motivating employees and human resource development.

**Department of Marketing**
Marketing is the process of planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges that satisfy individual and organizational objectives. Modern marketing stresses research and analysis to understand consumer behavior and to identify customer needs, new product research and development, competitive pricing, coordinated promotional or sales programs, and efficient logistics and distribution. Students interested in careers in marketing management, logistics management, retailing or wholesaling, sales program administration, advertising or marketing research will find courses in marketing valuable.

**Lloyd Greif Center for Entrepreneurial Studies**
The Greif Center offers a multiclass entrepreneur program designed for students who want to start or own a high-growth business, join an emerging business or participate in an entrepreneurial venture in a mature corporation (intrapreneurship). The overall goals of the program are to open students’ minds to the advantages of entrepreneurial thinking, to instill confidence that they can be successful entrepreneurs, to increase their awareness of the entrepreneurial process and to enhance their conceptual skills to take advantage of business opportunities. Wide exposure is
given to all types of entrepreneurs and industries. The program actively supplies contact with and support to its alumni. The program is designed to teach relevant concepts and theory, to develop conceptual ability and to let the student experience what is being taught. A significant part of the program is each student’s development of a working business plan. Applications for admission to this program are mandatory and must be completed at the start of the spring semester of the junior year.

**Leventhal School of Accounting**

The Leventhal School offers classes in accounting information systems, financial accounting, managerial accounting and tax accounting. The Leventhal School also offers a Bachelor of Science degree in Accounting. See page 191 for a complete listing of information regarding courses, programs and requirements.

**International Studies**

The Marshall School offers students a variety of opportunities to cultivate a global mind. Classes like international trade and commercial policy, financial management of multinational corporations, international finance, multinational marketing, and international management practices and negotiation broaden students’ understanding of managing a global business. Opportunities to travel and study outside the United States allow students to develop skills for functioning in different cultures, societies and economic environments, and to understand a wide variety of international business practices. Contact the office of Undergraduate Student Services for information about international study opportunities at Marshall, including:

**GLP/LINC**

All first-year students are encouraged to enroll in one of Marshall’s international experiential learning programs, GLP or LINC. Each includes a 10-day faculty-led trip to a city outside the United States, where students meet with business, political and civic leaders. The Learning about International Commerce (LINC) Program is a 2-unit class open to freshman students who apply. The Global Leadership Program (GLP) is a two-course sequence open by invitation to select first-year students in the incoming freshman class.

**International Exchange Program**

The international exchange program is a one-semester exchange program with a host institution in Asia, Australia or Europe during either the fall or spring semester. Exposure to international cultures and practices in business and non-business settings provides another level of understanding of international business. Students complete between four to eight courses at the host institution (15-18 USC units). All instruction is in English, so foreign language proficiency is not required. Courses completed at the host school are graded credit/no credit on the student’s USC transcript. The courses are selected from a list approved by the Marshall School of Business and satisfy the business elective requirement.

**International Summer Program**

The Marshall School offers unpaid international internship programs in London, Madrid, Dublin, Sydney and Singapore during the summer session. The program provides students with theoretical and practical experiences working and navigating within the international global environment. The program consists of an eight-week internship abroad. In addition, unpaid social entrepreneurship internships are offered in Kenya, South Africa, Rwanda and Ghana. Paid internships in Bangkok and Jakarta are also offered.

**Research Opportunities for Undergraduates**

BUAD 490x Directed Research provides an opportunity to pursue research above and beyond the normal course offerings. This course is open to juniors and seniors with a 3.0 or better grade point average who have obtained approval from a faculty sponsor, the department chair and the director of the Office of Academic Advising by the semester prior to enrollment. Units are assigned on a variable basis with a maximum of 8 units toward an undergraduate degree, 4 units per semester.

Students may also work with faculty as research assistants. Research opportunities are made available through various departments at Marshall and through the university’s undergraduate research program found at www.usc.edu/regresearch.

**Marshall Honors**

Marshall Honors, available upon graduation to majors in business administration or accounting, provides a special designation of departmental honors on a student’s transcript. Marshall Honors requires completion of BUAD 491 Honors Seminar (2 units) and a minimum 3.5 GPA in upper division Marshall School and Leventhal School courses. To enroll in BUAD 491 requires senior standing, a minimum overall 3.3 GPA and completion of at least 32 units of upper division business courses with a minimum 3.5 GPA. Contact the Office of Undergraduate Advising for additional information.

**Marshall Undergraduate Academic Advising**

Academic advisement is provided through the Marshall School of Business Office of Undergraduate Advising located in Bridge Hall 104, (213) 740-0690 or undergard. advising@marshall.usc.edu. Incoming freshman and new transfer students are required to meet with an academic adviser before registering, and this requirement will be in effect until 24 USC units are completed. All students are encouraged to see an academic adviser on a regular basis, and continuing Marshall students may schedule appointments throughout the year.

**Registration**

Students may register for business courses directly using the Web registration system, according to their scheduled appointment times. Appointment times are based on number of units completed. For example, seniors have the first opportunity to register for a course. It is important to register as soon as one’s appointment allows or priority standing will be lost.

**Marshall Undergraduate Student Services**

The Marshall School recognizes the importance of integrating education with experience. The Undergraduate Student Services Office, in cooperation with the USC Career Center, assists business school undergraduates with securing externships, internships and full time positions. Moreover, this office provides students with career support and access to alumni. Students who actively participate in these programs maximize their opportunities for professional development and employment after graduation.

In addition to these programs, students are encouraged to participate in student organizations to build leadership, teamwork and networking skills. The Marshall School has more than 700 student organizations. USC has more than 700 student organizations. The Student Services Office also offers over 25 international exchange programs in Asia, Australia and Europe. Through these programs, students spend a semester overseas and fulfill business elective requirements. The office also coordinates international summer internship programs and week-long international travel opportunities. For further information, contact Marshall Undergraduate Student Services, (213) 740-5705 or send an email to studentservices@marshall.usc.edu.
Honor Societies
Beta Gamma Sigma is the national honor society for business students. The Marshall School of Business chapter has been active since 1923. Juniors in the top five percent of the class and seniors in the top 10 percent of the class are invited to join. For further information, contact the Office of Undergraduate Advising.

Transferring College Credit
Community College Courses
USC has established articulation agreements with most community colleges in California. Most academic courses are acceptable for transfer credit from a two-year school, but students will not receive credit for remedial course work. Courses that do not appear on the articulation agreement are not transferable. A maximum of 64 semester units may be transferred. There are university restrictions that apply to transferring course work from other institutions that may affect the above rule. Check with the Degree Program Department (HH 010) for information about transferable courses or see an adviser in the Marshall School. Prospective Marshall students should speak with an adviser in the Marshall Undergraduate Admissions Office and continuing Marshall students should speak with an adviser in the Office of Undergraduate Advising.

Official transcripts of college work taken elsewhere must be submitted at the time of application to the USC Office of Admission. A credit evaluation will be completed that will list transfer courses accepted for credit. All business courses completed at a two-year college, if transferable, will be considered elective credit. There is one exception to this policy: Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information.

Four Year Colleges
Most courses of an academic nature are acceptable for unit credit from all fully accredited four year institutions. If they do not satisfy specific subject requirements at USC, they will usually be accepted for elective course credit.

Students are urged to complete all their required business courses at USC. ECON 351x and ECON 352x must be completed at USC. All business courses from four year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. All upper division core classes, with the exception of BUAD 407 Strategic Management and BUAD 425 Data Analysis for Decision Making, may be challenged.

Students should consult with their academic advisers to initiate the challenge examination process.

Bachelor of Science in Business Administration (Cinematic Arts)
This program consists of courses offered by both the Marshall School and the School of Cinematic Arts. Students completing the program receive a Bachelor of Science in Business Administration with an emphasis in Cinematic Arts. The program is available to entering freshmen only.

Requirements for Completion
To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business as well as an additional 24 units in cinematic arts, which specifically address the business side of the industry.

Bachelor of Science in Computer Science/ Business Administration
This combined program offers qualified students the opportunity to gain an educational foundation in both computer science and business administration. Students must meet the admission requirements for both programs. The degree is administered by the Viterbi School of Engineering; see Computer Science, page 636, for complete degree requirements.

Bachelor of Science in Business Administration (East Asian Studies)
This program consists of courses offered by both the Marshall School of Business and the East Asian Studies Center. Students completing the program receive a Bachelor of Science in Business Administration with an emphasis in East Asian Studies.

Requirements for Completion
To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business as well as an additional 24 units in East Asian Studies.

Although not required, students are strongly encouraged to enroll in two summer sessions of a Language for Special Purposes Program offered at the USC Language Center. This is a non-credit program involving intensive language training to complement the particular area of study selected by the student.

Food Industry Management Concentrated Program

Certificate Program

The Food Industry Management Concentrated Program offers undergraduate and graduate courses emphasizing marketing, retailing, financial and management aspects of the food industry. Completion of the program is acknowledged by a Food Industry Management Certificate.
To qualify for admission and a scholarship grant for the undergraduate food industry management concentrated program, students must be in their junior or senior year with an academic standing adequate for admission to USC; be currently employed in a management position in the food retailing, wholesaling or manufacturing industry; and be recommended by their employer.

To receive a certificate, students must complete 16 units during the one-semester program. Students must take all required FIM courses for the time they are in the program.

Minor Programs

Minor in Business
A minor in business is available to students in all schools and departments except the Marshall School (and Leventhal School of Accounting). The minor provides the opportunity for non-business majors to gain understanding of key concepts and tools of business. To enroll in the business minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum overall GPA of 2.75. Successful completion of the business minor requires at least 16 units of upper division course work with a minimum cumulative GPA of 2.0 in the courses applied to the minor:

Minor in Accounting
A minor in accounting is available to students in all schools and departments except the Marshall School of Business. See page 193 for program requirements.

Minor in Advertising
The Marshall School and the School of Journalism jointly offer a 24-unit advertising minor for students interested in building a career in or developing a better understanding of the field of advertising. Through this program of study, students explore the key role played by advertising in today’s global economy. At no time has advertising been more successful or more controversial than it is today, and this program will explore both the positives and the negatives.

Emphasis is placed on both the practical skills required to meet the demands of the marketplace and the theoretical underpinnings of those practices. Program content includes: the history of advertising; creation of written and visual advertising elements; the measurement, selection and analysis of media; the concept of “branding”; the role of advertising in creating and maintaining successful brands; the analysis of advertising campaign case studies; and the creation of integrated marketing communications campaigns. See the School of Journalism, page 511, for course requirements.

Minor in Biotechnology
The Marshall School and the departments of biological sciences and chemistry in the USC Dornsife College of Letters, Arts and Sciences jointly offer the minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biology, chemistry or engineering student seeking a career in business and/or the biomedical/bio-technical sciences. Refer to Biological Sciences, page 283, for a list of required courses.

Minor in Business Law
A minor in business law is available to students in all schools and departments except the Marshall School. The minor in business law will provide students with practical legal knowledge of substantive business law topics and current legal issues. The minor provides skill sets to identify and manage issues encountered within personal and business contexts including litigation, contract law, employment and human resources, real and personal property law. This minor exposes students to such topics as: commercial transactions, constitutional law, Internet and online commerce; intellectual property and entertainment law; bankruptcy and securities law; law of business and non-profit organizations and international law. It also prepares students for career opportunities in management, technology and politics. The minor is an excellent preparation for further legal education.

*Prerequisites required

(Please note that prerequisites will not be waived for upper-division courses; students must complete the introductory classes they will need.)

Total requirements: five courses 20 units

### Minor in Business Technology Fusion

The minor in business technology fusion is available to students in all schools and departments except the Marshall School. This minor requires 20 units to complete. To enroll, students must be in good standing with the university and have completed 48 units of college level credit. Students must complete an application for the minor, including a one-page statement of how the minor will contribute to their goals and objectives. This form can be obtained from Marshall’s Office of Undergraduate Admissions.

### COURSE REQUIREMENTS UNITS

| IOM 431 | Managing the Digital Revolution for Your Business | 4 |
| IOM 433 | Business Information Systems Analysis and Design | 4 |
| IOM 435 | Business Database Systems | 4 |

### Electives

Choose from the following to achieve a total of at least 8 units:

| IOM 401 | Business Information Systems — Spreadsheet Applications | 2 |
| IOM 402 | Business Information Systems — Database Applications | 2 |
| IOM 428 | Data Warehousing and Data Mining | 4 |
| IOM 437 | Technology-Enabled Global Businesses, Markets and Sourcing | 4 |
| IOM 443 | The Business of Interactive Digital Media | 4 |
| IOM 455 | Project Management | 4 |

### Minor in Human Resource Management

The minor in human resource management is appropriate for students pursuing careers in human resource management, as well as for students pursuing management positions where they will be interfacing with or relying on the human resource function for support. To enroll in this minor, students must have completed a minimum of 48 units of college-level courses and have a minimum overall GPA of 2.75. Completion of the human resource management minor requires a minimum GPA of 2.0 in the following business minor courses:

### MINOR COURSE REQUIREMENTS UNITS

| BUAD 304 | Leading Organizations | 4 |
| MOR 471 | Managing and Developing People | 4 |

### Electives

Choose three courses from the following (12 units):

| FBE 428 | Principles of Employment Law | 4 |
| FBE 433* | Corporate Governance and CEO Pay | 4 |
| MOR 421 | Social and Ethical Issues in Business | 4 |
| MOR 431 | Interpersonal Competence and Development | 4 |
| MOR 461 | Design of Effective Organizations | 4 |
| MOR 463 | Organization Change and Development | 4 |
| MOR 469 | Negotiation and Persuasion | 4 |
| MOR 472 | Power, Politics and Influence | 4 |
| MOR 473 | Designing and Leading Teams | 4 |

*Prerequisite that is not part of this minor required
Minor in Innovation: The Digital Entrepreneur

The Minor in Innovation: The Digital Entrepreneur is jointly sponsored by the Lloyd Greif Center for Entrepreneurial Studies in the Marshall School of Business and the Information Technology Program of the Viterbi School of Engineering. The minor is designed for students from a wide range of backgrounds who are interested in starting their own digital ventures, working for startup companies or consulting firms that advise in the field, or pursuing traditional jobs with large corporations who may be launching new digital business units. Students will learn all major elements of launching a digital venture including ideation, feasibility analysis, high-tech product management, online customer acquisition, technology implementation, online business models and monetization. Students will work on launching a digital venture in a team-based environment in the capstone class. For more details see Information Technology Program, page 671.

Minor in Managing Human Relations

This interdisciplinary minor is for students in all schools with an interest in human relations as a subject of study or professional goal. In addition to course work in organizational behavior, social psychology and management, this minor includes attention to questions of ethics and leadership. See Sociology, page 471, for course requirements.

Minor in Management Consulting

The minor in management consulting is available to students in all schools and departments except the Marshall School. The minor develops skills used by professional consultants to assist organizations and businesses in identifying and addressing their issues and problems.

To enroll, students must have completed a minimum of 48 units of college-level courses and have a minimum overall GPA of 2.75. Completion of this minor requires a minimum GPA of 2.0 in the following courses:

<table>

Choose three courses from the following (12 units):

| IOM 455 Project Management | 4 |
| MOR 421 Social and Ethical Issues in Business | 4 |
| MOR 461 Design of Effective Organizations | 4 |
| MOR 463 Organization Change and Development | 4 |

Minor in Marketing

The minor in marketing is available to students in all schools and departments except the Marshall School. Marketing studies processes organizations use to identify and serve the needs of customers.

The marketing minor provides a business-related education that will supplement many undergraduate majors, and enhance the career prospects for students whose majors could incorporate a marketing dimension or application. This minor should appeal to any student interested in an early marketing career, which includes, but is not limited to, professional sales, retailing, marketing research, product management and advertising.

Eligible students must be in good standing with the university and have completed 48 units of college level credit. Students must complete an application for the minor, including a one page statement of how the minor will contribute to their goals and objectives. This form can be obtained from the Marshall Office of Undergraduate Admissions. Students take four elective courses offered in the marketing department to satisfy this minor.

Minor in Mathematical Finance

This interdisciplinary minor was created for students in business, economics and mathematics, whose majors already require some of the introductory course work. Students in other programs are welcome but should expect the minor to require more units than it does for students in those programs. See Mathematics, page 401, for course requirements.

Minor in Operations and Supply Chain Management

The minor in operations and supply chain management is available to students in all schools and departments except the Marshall School. This minor requires 20 units to complete. To enroll, students must be in good standing with the university and have completed 48 units of college level credit. Students must complete an application for the minor, including a one-page statement of how the minor will contribute to their goals and objectives. This form can be obtained from the Marshall Office of Undergraduate Admissions.

Minor in Organizational Leadership and Management

The minor in organizational leadership and management is available to students in all schools and departments except the Marshall School. Students in the minor learn about personal and organizational leadership, ethics of the workplace, leading in a global context and organizing and planning for effective personal and organizational performance.

To enroll, students must have completed a minimum of 48 units of college-level courses and have a minimum overall GPA of 2.75. Completion of this minor requires a minimum GPA of 2.0 in the following courses:

Minor in Social Entrepreneurship
The minor in social entrepreneurship provides students from all non-business undergraduate majors with a foundation in the context and practice of social entrepreneurship, nationally and internationally. The minor provides an understanding of social entrepreneurship and its relationship to government and public policy as well as an understanding of management skills specific to starting and maintaining a social enterprise. The curriculum includes options allowing the student to tailor course work to his or her individual academic interests and professional aspirations.

To enroll in this minor, students must have declared a major, and must have completed 48 units of college level courses with a cumulative USC GPA of at least 2.75. Students will complete an application for the minor.

Minor in Engineering Technology Commercialization
This undergraduate minor is interdisciplinary in nature, requiring courses from both the business and engineering schools. See the Viterbi School of Engineering, Special Educational Opportunities section, page 581, for requirements.

Graduate Degrees
The Marshall School of Business prepares men and women to become leaders at every level of management. Today’s successful businesses demand flexibility, innovation, creativity, teamwork and leadership from their employees. The Marshall School’s goal is to help students meet those demands through a rigorous grounding in all functional areas of business and the honing of analytical and interpersonal skills required to address real business problems.

The more than 185 faculty members at the school include authorities recognized around the world for their contributions to business theory and practice. They are also distinguished by their dedication to teaching excellence.

The Marshall School of Business offers six graduate degrees: The Master of Business Administration (MBA), the Master of Science in Business Administration (M.S.), the Master of Business for Veterans (MBV), the Master of Management Studies (MMS), the Master of Medical Management (MMM) and the Doctor of Philosophy (Ph.D.). The Marshall School jointly sponsors a Master of Long Term Care Administration. Graduate certificates in digital supply chain management, financial analysis and valuation, technology commercialization, management studies, and business fundamentals for non-business professionals are also offered.

Master of Business Administration (MBA)
MBA students gain an understanding of the forces confronting business around the world and are encouraged to take an active role in making a difference — to seek out opportunities for personal and professional growth and to empower others in the pursuit of shared goals. The Master of Business Administration is offered through five distinct programs.

While the five programs are designed to meet the needs of different types of students, all programs have the same goals: providing students with the skills and knowledge necessary to become effective leaders; developing a thorough understanding of business fundamentals such as economics, accounting, finance, marketing and operations; and refining basic skills, such as use of information systems and statistical analysis. Each student is challenged to develop self-understanding and an appreciation for the complexities of organizations.

Full-time MBA Program
The Marshall MBA program is designed for individuals who can leave the world of work and immerse themselves “full time” in two years of graduate education. It provides a foundation for success that balances theory with real-world application.

During the first year, a “hands-on” approach to leadership and business education combines case analysis, management simulations, executive seminars and international travel with traditional methods for establishing a conceptual understanding of the general management role in a global context. Elective options in the second semester allow students to complement the core curriculum with individualized interests. Summer internships help students apply their knowledge in practice and prepare for the job market.

In year two, students continue to chart their own course of study. A wide array of elective courses offers students immersion in specific functional areas, disciplines and industries. The selection allows students to gain an in-depth understanding of a particular subject or to continue to pursue a broad-based management education.

Part-time MBA Program for Professionals and Managers
The MBA Program for Professionals and Managers (MBA.PM) allows fully employed individuals to pursue an MBA degree while continuing their career development. Students can pursue the first year of study at the University Park Campus or at the USC Orange County Center in Irvine. Elective course work is completed on the University Park Campus. The curriculum, offered in the evening, is similar to the curriculum offered to full-time MBA students but is modified to allow completion of the program in 33 months.
Executive MBA Program
The Executive MBA program provides those with significant work experience, particularly mid- to senior-level professionals who have high potential as business and industry leaders, a chance to complete an MBA on Fridays and Saturdays over a two-year period without interrupting their careers. The program is offered on the University Park Campus in downtown Los Angeles as well as in San Diego.

This program uses a non-traditional, interdisciplinary approach to executive and management education through “themes” that integrate various functional areas and address classic, yet dynamic business issues.

Through the integrated curriculum, participants develop a complete understanding of decision-making, a focus on the future and the international context of business as well as strong interpersonal, leadership and analytical skills. More specifically, participants achieve advanced skills in corporate and international finance, marketing, environmental and strategic analysis, information technology, organizational leadership, managerial communication and corporate relations.

Core faculty include the school’s most senior, experienced members as well as renowned academic and business specialists. The program includes three residential off-site experiences — two domestic and one international.

International MBA Program (IBEAR MBA)
The IBEAR MBA is a mid-career international MBA emphasizing trade and investment in and between the Americas and Asia in particular. Participants complete the equivalent of two years of intensive MBA study and return to their careers in 12 months.

In addition to an internationalized set of core courses, the program includes elective course offerings on international management, international financial management, global e-business, global marketing strategy, international trade, politics for global management and global strategy.

The program features a two-term international business consulting project, a cross-cultural team-building retreat, a visiting international expert speaker series and participation in Marshall’s annual Asia/Pacific Business Outlook Conference.

IBEAR MBA graduates join a network of well-placed alumni in more than 50 nations.

Global Executive MBA Program (GEMBA)
The Global Executive MBA program (GEMBA) in Shanghai is designed for rising business leaders throughout East Asia and the Pacific Rim who seek a U.S.-style business education with a global perspective. GEMBA provides a unique opportunity for networking and personal development within the framework of an increasingly competitive Asian market.

GEMBA mirrors the long-standing Marshall Executive MBA program, employing a non-traditional, interdisciplinary and integrated approach to executive and management education through “themes” that integrate various functional areas and address classic, yet dynamic business issues.

Core faculty include the school’s most senior, experienced members as well as renowned academic and business specialists.

Through the integrated curriculum, participants develop a complete understanding of decision-making, a focus on the future and the international context of business as well as strong interpersonal, leadership and analytical skills. More specifically, participants achieve advanced skills in corporate and international finance, marketing, environmental and strategic analysis, information technology, organizational leadership, managerial communication and corporate relations.

USC Marshall offers GEMBA in partnership with the Antai College of Economics and Management at Shanghai Jiao Tong University in China. Because classes meet in both Shanghai and Los Angeles, students must be able to participate fully in the travel requirements of the program. Classes are taught in English.

Dual Degree Programs
Dual degree programs offer graduate students the opportunity to complete concurrently the requirements for two degrees. The Marshall School offers the MBA in conjunction with a number of other programs at USC:

- Juris Doctor/Master of Business Administration (J.D./MBA)
- Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/MA.)
- Master of Business Administration/Master of Planning (MBA/MP)
- Master of Business Administration/Master of Real Estate Development (MBA/MRED)
- Master of Business Administration/Master of Science in Gerontology (MBA/M.S.)
- Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/M.S.)
- Master of Business Administration/Doctor of Dental Surgery (MBA/DDS)
- Master of Business Administration/Doctor of Education (MBA/Ed.D.)
- Master of Business Administration/Doctor of Medicine (MBA/M.D.)
- Master of Business Administration/Doctor of Pharmacy (MBA/Pharm.D.)
- Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/M.A.)
- Master of Business Administration/Master of Social Work (MBA/MSW)

Master of Digital Supply Chain Management
The Marshall School of Business jointly with the Viterbi School of Engineering offer individuals an opportunity to expand their knowledge of the rapidly expanding uses of technology in the management of global supply chains. The program focuses on teaching the necessary knowledge and skills in areas like product introduction; strategic procurement; outsourcing; logistics and distribution; information technology and its role in managing global supply chains; and supply chain optimization.

Master of Science in Business Administration (M.S.)
The Master of Science in Business Administration is designed to provide students with an opportunity to pursue an area of specialization subsequent to successfully completing the Master of Business Administration (MBA). The program is especially valuable for those who wish to enhance their knowledge base in a specialized area of business. In cooperation with a faculty member, the student in this program designs a course of study to meet his or her individual needs. The degree can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours.

Master of Science in Business Research (M.S.)
The Master of Science in Business Research is designed to provide an alternative for Marshall Ph.D. students. Marshall does not accept applications for admission to this program.
Master of Medical Management (MMM)
This program is designed for physicians in the medical field who wish to gain formal business knowledge and develop critical thinking skills. Significant project and course work is completed primarily through distance learning venues. The program consists of four one-week intensive residential sessions.

Master of Business for Veterans (MBV)
This program is designed for veterans who wish to gain formal business knowledge and develop critical thinking skills to manage or grow a business. Significant project and course work is completed during the two-semester program. Class sessions meet over 16 full-day sessions each semester, offered on the University Park Campus in downtown Los Angeles.

Master of Management Studies (MMS)
The Master of Management Studies is designed to provide students who have completed graduate business course work equivalent to the first year of a traditional two-year MBA program with an opportunity to pursue further studies at the USC Marshall School of Business. The program is especially valuable for those who have completed the first year of a traditional MBA at another institution and those who completed one-year MBA programs and wish to enhance their knowledge in specialized areas of business. The degree can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours.

Master of Long Term Care Administration
This program is designed to prepare competent individuals to administer the long term needs of America’s elderly population. It is jointly offered by the Davis School of Gerontology, the Marshall School of Business, and the USC Price School of Public Policy. For information, see the Davis School of Gerontology, page 705.

Doctor of Philosophy (Ph.D.)
The Doctor of Philosophy program in business administration is designed to produce research-oriented graduates who, from positions in academia, can advance business practice and enhance the contributions that businesses make to the larger community. These goals can be advanced through research contributions in theory, concepts, methods and practices, and education of the next generation of business leaders.

Graduate Certificate in Business Fundamentals for Non-Business Professionals
The Graduate Certificate in Business Fundamentals for Non-Business Professionals is designed for individuals who hold undergraduate degrees in non-business fields and seek core business knowledge to support management responsibilities or relationships with business professionals but who are not likely to pursue an MBA. It is best suited to mid- and senior-level managers, professional and technical specialists assuming management responsibilities, those seeking improved career mobility, individuals returning to the workforce and small business owners. The program provides a basic introduction to the major disciplines within the field of business, common business practices and effective business communication. Classes are offered primarily at night to accommodate the needs of working professionals. See page 168 for course requirements.

Graduate Certificates in Digital Supply Chain Management
Three 15-unit graduate certificate programs offer working professionals opportunities to study specific aspects of supply chain management without committing the time and resources required to earn a master’s degree. Certificates in information systems and supply chain management, optimization and supply chain management, and supply chain strategy are offered. See Master of Digital Supply Chain Management, page 164, for course requirements.

Graduate Certificate in Financial Analysis and Valuation
The Graduate Certificate in Financial Analysis and Valuation is designed to offer students the intensive instruction and training needed to successfully compete in rapidly developing global financial markets. Course work in the fundamental theories and practice of financial accounting, financial analysis, valuation, credit analysis, and financial instruments and markets expands analytical capacities to better understand and develop strategic financial decisions. See page 166 for course requirements.

Graduate Certificate in Technology Commercialization
The Graduate Certificate in Technology Commercialization, offered through the Lloyd Greif Center for Entrepreneurial Studies, provides technology commercialization skills in an academic/real world environment that combines theory and practice. Through a living laboratory academic program, students experience the entire spectrum of the commercialization process: invention, product development, technical and market feasibility analysis, intellectual property acquisition, business development and venture funding. Working with USC scientists and engineers, students have the potential to become stakeholders in a new technology venture. They are also eligible to apply for summer internships sponsored by industry partners to give them additional experience in taking a new technology to market. The program is particularly well suited to those in science, engineering and business. See page 167 for course requirements.
Master’s Degree and Graduate Certificate Programs

Admission Requirements

A bachelor’s degree equivalent to a four-year U.S. undergraduate degree from an accredited institution (regardless of field or major) is required for admission to any master’s degree program at the Marshall School of Business.

Successful performance in Marshall master’s programs requires computer proficiency in word processing, database management, electronic spreadsheets and business graphics. Following admission, Marshall Instructional Technology Services is available for additional preparation. Knowledge of calculus is a prerequisite to some of the courses offered by the Marshall School of Business.

All applicants are required to submit the following documents: (1) completed application form; (2) a nonrefundable application fee; (3) responses to required essay questions; (4) history of full- and part-time work experience or resume; (5) one official transcript from the registrar of each college or university attended (undergraduate and postgraduate, if applicable) whether the degree was completed or not. If all college or postgraduate work has not been completed, transcripts must be sent again when work in progress is completed and the degree posted. Transcripts written in languages other than English must be accompanied by a certified English translation; (6) letters of recommendation; (7) Graduate Management Admission Test (GMAT) scores. (Scores should be from tests taken within the last five years.) Official test score reports should be received by the Marshall School of Business within 10 days of each test administration. Additional score reports can be sent from the ETS within two weeks upon written request and payment of a fee; (8) all international students who did not graduate from an American, British, Canadian or Australian college or university must submit a recent Test of English as a Foreign Language (TOEFL) score. Test scores are sent by the Educational Testing Service to USC.

To ensure a place in a program and adequate time to receive an admission decision, it is important to send completed application materials well in advance of the semester for which the applicant wishes to register. For the non-traditional student, if work is still in progress to complete a bachelor’s degree, the applicant must state specifically what courses are in progress, what must be done to finish and the estimated date of completion. Admission is contingent upon official verification of a bachelor’s degree.

In their review of applications, admissions committees consider all of the applicant’s completed academic work, test score, evidence of leadership and motivation, letters of recommendation, level of job responsibility and work history, and unique talents and contributions. Applicants are reviewed on their potential for successful performance in graduate business studies and their competitiveness within the current applicant pool.

Additional program-specific admission criteria are detailed below.

Full-time MBA Program

The Marshall full-time MBA curriculum is a comprehensive two-year (63-unit) learning experience designed to develop outstanding leaders who act with positive impact and character in a rapidly changing economic, social and political world.

A core of 10 essential courses is designed to build the foundation of skills required of all leading executives, develop collaborative talent, cultivate innovation and expand the student’s vision with a global perspective. An individualized program of study, which begins in the second semester of the first year, allows students to acquire knowledge and skills in specialized functions within specific industries.

Recognizing that success in business requires more than a thorough knowledge of the vernacular of business, the full-time MBA curriculum is both broad and deep, offering students an opportunity to learn about business from varying perspectives. Full-time MBA students develop:

- a strategic perspective that understands the global dynamics of worldwide industries and new markets;
- an ability to integrate decisions and solutions across disciplines in complex decision-making environments;
- a world view that understands and appreciates different cultures and economies;
- a clear framework for ethical and values-based, decision-making supported by unyielding personal integrity and the confidence to act accordingly;
- a professional presence and the ability to articulate a vision needed to motivate others and lead diverse teams of people.

Full-time MBA graduates are collaborative by nature, innovative in spirit and global in perspective.

The Faculty

Instructors in the full-time MBA program are an inspired group of teachers who are passionate about nurturing the development of their students and are committed to the program and to innovative implementation. Scholars bring their latest thinking into the classroom and convey it so that students embrace ideas and learning with excitement and a willingness to demonstrate that learning and enthusiasm in their careers.
Recognized experts, academic specialists and industry leaders are actively involved in the program. Faculty known for their work in Marshall research centers offer industry collaboration. Many faculty connect with other schools in the university, tap into the strengths of innovative Southern California industries and engage our alumni across industries and globally. The valuable contributions of experience and expertise from individuals and organizations outside Marshall weaver theory with practice.

An Advanced Learning Environment
The educational approach of the full-time MBA is a careful balance of case learning along with course work, lectures, experiential exercises and field studies. Students are members of supportive and challenging learning communities. The experience is hands-on and teamwork based, with extensive opportunities to work with real companies and managers on real projects.

Classes are taught in state-of-the-art case rooms featuring network access for every student. The Experiential Learning Center offers students opportunities for experimentation, video practice, simulation exercises and group preparation.

The full-time program is rigorous, intellectually demanding and time-intensive. Students typically spend 60-80 hours per week on course work and projects.

Application
Applicants should have significant full-time work experience. Letters of recommendation submitted with the application should relate to the applicant’s work experience. For more information, contact the Marshall MBA Admission Office in Popovich Hall (JKP) 308; (213) 740-7846; Fax (213) 749-8520; marshall.usc.edu/admissions/applyonline. Apply online at marshall.usc.edu/admissions/applyonline.

Application Deadlines
Admission decisions for the full-time program are made within four admission rounds. Applicants who submit completed applications (including test scores) to the Admission Office by the December, January, February and April dates listed on marshall.usc.edu/admissions/applyonline will receive notification in approximately six weeks. Applicants are urged to file a completed application as early as possible, as the applicant pool is extremely competitive. The final deadline to apply for the full-time program is April 1.

Summer Preparation
The average full-time MBA student is returning to school after completing five years of full-time employment. To help students prepare for their return to academia and refresh their knowledge of business fundamentals, Marshall provides non-credit tutorials and workshops via online/distance formats. Students complete the summer preparation materials and master the information before arriving on campus.

Orientation programs take place during the latter half of July.

Early Start to First Year
The academic program begins the first week of August with a three-week intensive term that includes workshops in leadership and ethics and graded course work in management communication, strategy, statistics and financial accounting. The fall semester academic program continues with classes, workshops and study sessions meeting Monday through Friday.

Focus on Collaboration
The ability to work in and manage teams is becoming increasingly important in business practice. Building these skills during the program is a key part of each student’s leadership growth.

Students are assigned to small teams for the first semester of study. These teams are composed of students with diverse back-grounds and experiences to enhance the overall learning experience for each team member. Teamwork is crucial to success in a variety of settings including group projects, study groups and competitive assignments. A greater understanding of teams is bolstered through formal discussions and presentations throughout the year.

In addition to formal team projects, a strong community of mutual support develops from the important role informal study groups play in the school’s academic culture.

The Core: An Integrated Program of Study
Although the curriculum lists a series of required courses to be taken during the first year of the full-time MBA program, students are, in many ways, pursuing one nine-month course, students conduct research on industry- and company-specific business issues and report their findings in major presentations. Recent PRIME locations include Sao Paulo, Brazil/Buenos Aires, Argentina; Shanghai/Beijing, China; Hong Kong/Shenzhen, China; Tokyo, Japan; and Hanoi, Vietnam/Bangkok, Thailand.

Internships
Practical experience is critical to success in business. Marshall has developed an extensive network of prospective employers who offer internships during the summer between their first and second year. Successful internships often lead to job offers.

International Exchange Program
The Marshall School offers a range of international semester-long exchange programs in cooperation with leading business schools around the world. Since many of the programs are taught in English, language proficiency is not a requirement for all countries. Students must complete the MBA core courses and maintain a 3.0 GPA in order to participate in the exchange program. This program is open to full-time MBA and MBA/PMI students.

Program Structure
A total of 63 units is required. The following outlines the typical full-time student’s schedule:

<table>

MBA Program for Professionals and Managers

The MBA Program for Professionals and Managers (MBA.PM) is a part-time, comprehensive MBA program that allows fully employed individuals to pursue their MBA degree. The program offers flexibility and a rich array of elective courses. Students in the MBA.PM program complete the degree in 33 months attending classes in fall and spring semesters and summer sessions.

The MBA.PM offers the following advantages:

- the scheduling design allows students to complete the degree in a timely way, while continuing to work full time;
- program flexibility allows students to tailor their selection of elective courses to their individual interests;
- PM.GLOBE, a course which includes an international trip, gives all MBA.PM students first-hand exposure to international markets;
- a cohesive group of student colleagues proceeds through the core together, providing opportunities for building relationships with other talented and ambitious individuals;
- special academic and social activities enhance the richness of the MBA experience; and
- interaction between faculty and students enhances the overall learning experience.

The first year of the MBA.PM program is also offered at the Orange County Center in Irvine. All students take their elective courses at the University Park Campus in Los Angeles.

Students attend core classes two nights per week for 12 months. Students must complete the core courses in the prescribed sequence and within the prescribed time frame. Elective courses are offered on a semester basis during the remaining portion of the program, including summer session.

During the elective portion of the program, MBA students are encouraged to pursue a course of study that meets their professional goals. Students design their course of study by taking electives offered in the Marshall School and by sometimes taking courses in other areas of the university. Up to 9 units of graduate-level electives may be taken at USC outside the Marshall School of Business for elective credit provided the student shows sufficient reason why a selected course is relevant to the Marshall School of Business program. Permission to take courses outside the Marshall School must be requested via petition to the MBA.PM Program Office in Popovich Hall 106.

International Exchange Program

The Marshall School offers a range of international semester-long and summer exchange programs in cooperation with leading business schools around the world. Since many of the exchange programs are taught in English, language proficiency is not a requirement for all countries. Students must complete the MBA core courses and maintain a 3.0 GPA in order to participate in the exchange program. This program is open to full-time MBA and MBA.PM students.

Application

Applicants should have significant full-time work experience. Letters of recommendation submitted with the application should relate to the student's work performance (resume).

The program enrolls students one time per year in the fall. For more information, contact the Marshall MBA Admission Office in Popovich Hall (JKP) 308; (213) 740-7846; Fax (213) 749-8520; marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

Executive MBA Program

The Executive MBA program is structured for mid-career to upper-career professionals who are fully employed. Rather than a program of traditional course disciplines (e.g., accounting, marketing, finance) the EMBA program offers a more thematic approach — integrating the material and often delivering it with faculty from different disciplines teaching in a team format. Core faculty include the school’s most senior, experienced members as well as nationally renowned academic and business specialists. This program is delivered on Fridays and Saturdays (full days) for a two-year period at either the USC campus in downtown Los Angeles or in San Diego. As with the other USC Marshall MBA programs, an extensive international trip is integrated into the program.

Application
In addition to the general admission requirements, applicants should have 10 years of work experience that includes substantial managerial responsibilities. The Executive MBA Admissions office may be contacted at (213) 740-7846; fax (213) 749-8520; or email: uscemba@marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

Program Structure
This program uses a non-traditional interdisciplinary approach to executive and managerial education though “themes” that integrate various functional areas and address classic, yet dynamic, business issues.

The program begins with a six-day residential session. Thereafter, the 21-month MBA program meets Fridays and Saturdays throughout the year with a short summer break. An eight-day international trip is scheduled during the first theme of the program’s second year.

International MBA Program (IBEAR MBA)

The IBEAR MBA program is an accelerated global MBA for experienced managers and professionals. The curriculum contains internationalized core courses in its first three terms and selected international business electives thereafter. It concludes with a challenging consulting project in terms four and five.

Application
In addition to the general admission requirements, applicants should have a minimum of six years work and/or graduate study experience. Current participants average 11 years of experience and are 34 years of age. Scholarships are available to domestic and international students.

For more information, contact the IBEAR MBA Program; (213) 740-7140; Fax (213) 740-7559; or ibearmba@marshall.usc.edu; marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

Program Structure
This intensive full-time program begins in early August and ends in mid July each year. It begins with a three-week transition program to assist international and domestic participants in adjusting to life in the U.S.

The Global Executive MBA program (GEMBA) in Shanghai offers a thematic approach — integrating the material and delivering it with faculty from different disciplines teaching in a team format. GEMBA is delivered over a 21-month period in 13 modules, featuring 10 five-day modules in Shanghai spanning weekends (Thursday through Monday), two 9-day modules at the Marshall School of Business in Los Angeles, and a study trip to another Asian country, plus assignments and examinations to be completed between classroom sessions. Shanghai sessions are taught at the Antai College of Economics and Management, Shanghai Jiao Tong University.

Application
Applicants should have a minimum of 10 years of work experience. General admission requirements apply except that in lieu of the TOEFL score, prospective applicants are pre-screened by the GEMBA office in Shanghai. Contact the Shanghai Global Executive MBA office by phone at +86-21-6293-2707, by fax at +86-21-6293-2713 or by email at uscgemba@sjtu.edu.cn. Contact the L.A. Global Executive MBA office by phone at (213) 740-8243, by fax at (213) 740-7559 or by email at gemba@marshall.usc.edu. To apply online, visit marshall.usc.edu/admissions/applyonline.

Program Structure
GEMBA employs a nontraditional, interdisciplinary and integrated approach to executive and management education through focus on real-world “themes” that integrate various functional areas and address classic, yet dynamic business issues. Classes begin in May at the Antai College of Economics and Management at Shanghai Jiao Tong University in China. Thereafter, the program continues in a series of theme-specific modules during the five-day sessions, held every six weeks, primarily at the Antai College. Students take an in-depth study trip to another Asian country in the second year.

The program concludes with a nine-day capstone module held at the Marshall School in Los Angeles and the commencement celebration.

Total units required for degree: 60
Dual Degree Programs

Students may complete dual degrees in conjunction with the Marshall MBA, MBA.PM or IBEAR MBA programs.

Admission criteria for applicants to dual degree programs co-sponsored by the Marshall School of Business are the same as Master of Business Administration program admission criteria.

Students interested in dual degree programs should apply to the specific MBA program suited to the individual’s needs.

Juris Doctor/Master of Business Administration (J.D./MBA)
The Marshall School of Business in conjunction with the USC Gould School of Law offers a program leading to the degrees of Juris Doctor/Master of Business Administration.

Application
Applicants to this program must apply to both schools individually and take both the Graduate Management Admission Test (GMAT) and the Law School Admission Test (LSAT). Applicants should apply either simultaneously to both programs or during the first year in the USC Gould School of Law. Certification for eligibility for the dual degree program must be provided by the Law School prior to admission to the dual degree program by the Marshall School of Business.

Program Requirements
The total number of units required for the MBA portion of the program is 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

To earn the J.D., all students (including dual degree program students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in Law School Honors Programs.

First Year: Required Law School courses (33 units).

Second Year: Required MBA courses and graduate business electives.

Third and Fourth Years: 43 units of law courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

The J.D. and MBA degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/M.A.)
The Marshall School of Business in conjunction with the East Asian Studies Center (USC Dornsife College of Letters, Arts and Sciences) offers a joint MBA/M.A. degree program that combines graduate business education with training in the cultures and societies of East Asia. Students may complete the degree on a full- or part-time basis.

Application
Students must apply to both the Marshall School of Business and the USC Dornsife College of Letters, Arts and Sciences. GRE scores are not required for admission to the dual degree program. GMAT scores are required.

Program Requirements
Students enrolled in the program are required to complete a minimum of 72 units. All students must complete 48 units in the Marshall School of Business. In East Asian Area Studies (EASC), students have the option of taking five courses and writing a thesis (for a total of 24 units) or taking six courses and passing a comprehensive examination (for a total of 24 units).

Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See East Asian Area Studies, page 318, in the USC Dornsife College of Letters, Arts and Sciences for East Asian Area Studies course requirements and the foreign language requirement.

The MBA and M.A. degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Real Estate Development (MBA/MRED)
The Master of Business Administration/Master of Real Estate Development dual degree program enables students to understand the conduct and requirements of business, accounting, corporate and strategic planning, real estate marketing and finance. Students also gain expertise in public policy, city planning and the interpretation of government regulations. Exposure to both fields becomes an educational as well as professional asset for careers in either public service or private enterprise.

Application
Applicants to this program should apply to both schools simultaneously.

Program Requirements
A total of 84 units is required for the dual degree: 48 units of work in the Marshall School of Business and 36 units from the USC Price School of Public Policy. Students can complete the program on either a full- or part-time basis. The program normally requires five semesters of full-time study in residence.

Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See the USC Price School of Public Policy, page 882, for Master of Planning course requirements.

The MBA and MPl degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Real Estate Development (MBA/MRED)
The Master of Business Administration/Master of Real Estate Development dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. A more sophisticated real estate market makes this diversity of training essential for many students pursuing careers in real estate finance and development.

Completion of the MRED portion of the program requires that students have use of an approved laptop computer and demonstrate calculator and spreadsheet skills; a calculator and/or spreadsheet class is offered online.
Application
Students must apply to both the Marshall School of Business and the USC Price School of Public Policy. Please consult the Admission section of each school for specific requirements.

Program Requirements
This program normally requires two years (including summer) of full-time study in residence to complete.

A total of 82 units is required. Required courses include:

- all required courses in an MBA program;
- FBE 565 Economics of Urban Land Use: Feasibility Studies;
- FBE 588 Advanced Real Estate Law;
- additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48; and
- policy, planning, and development courses (34 units).

Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

Comprehensive Examination: Students are required to complete a comprehensive examination administered by faculty members from both the Marshall School of Business and the USC Price School of Public Policy.

See page 894 for MRED course requirements.

The MBA and the MRED degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Science in Gerontology (MBA/M.S.)
The MBA/M.S. dual degree program combines knowledge of the older population with the skills of business management. The program prepares graduates for a number of roles in both public and private sector organizations including the marketing of products or services to seniors, human resource development, and the skills of business management. The program prepares graduates for a number of roles in both public and private sector organizations including the marketing of products or services to seniors, human resource development, and business operations. The program prepares graduates for a number of roles in both public and private sector organizations including the marketing of products or services to seniors, human resource development, and business operations.

Application
Applicants to the MBA/M.S. in Gerontology should apply to both schools simultaneously.

Gerontology Requirements
The Master of Science in Gerontology requires 30 units of course and fieldwork which cover the core content of the M.S. program. See page 702 for the USC Davis School of Gerontology course requirements.

Business Administration Requirements
The Master of Business Administration component requires 48 units of credit. Required courses include:

- all required courses in an MBA program;
- MOR 548 Competitive Advantage Through People;
- one of the following marketing electives: MKT 512 Marketing and Consumer Research, MKT 525 Consumer Behavior, MKT 560 Marketing Strategy and Policy MKT 589 Contemporary Marketing Problems;
- additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree candidates may not count courses taken outside the Marshall School of Business for the 48 units.

The MBA and M.S. degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/M.S.)
The Marshall School of Business in conjunction with the Daniel J. Epstein Department of Industrial and Systems Engineering offers a program leading to the degrees of Master of Business Administration/Master of Science in Industrial and Systems Engineering.

Application
Applicants to the MBA/M.S., Industrial and Systems Engineering program should apply to both schools simultaneously.

Program Requirements
This alternative requires 66 units for graduates of industrial and systems engineering undergraduate curricula and leads to both a Master of Science in Industrial and Systems Engineering and the Master of Business Administration.

The total number of units required for the MBA portion of the program is 48.

Required business courses include:

- all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See page 666 for industrial and systems engineering course requirements.

The MBA and the M.S. degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Doctor of Dental Surgery (MBA/DDS)
In response to changes in dental care delivery systems and to the increasing complexity of dental care financing, the Ostrow School of Dentistry of USC offers an innovative program for individuals desiring knowledge in both dental science and business administration.

Application
Applicants to this program should apply during the first year of dental school. Only students who have successfully completed one year in the Ostrow School of Dentistry will be considered for admission to the Marshall School of Business.

Program Requirements
The program involves completion of the first year in the Ostrow School of Dentistry; the second in the Marshall School of Business, and then completion of the balance of the slightly modified dentistry and business programs. The program may be completed in five calendar years.

First Year: Required dentistry courses.

Second Year: Required MBA courses and graduate business electives.

Third to Fifth Year: Completion of the remainder of required dentistry courses and graduate business elective courses sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

The MBA and DDS degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Doctor of Education (MBA/Ed.D.)
The Marshall School of Business in conjunction with the Rossier School of Education offers a program leading to the degrees of Master of Business Administration and Doctor of Education.

The program emphasizes educational leadership and management competencies across the wide variety of education-related organizations in the public, non-profit and for-profit sectors and is designed to prepare students to assume executive leadership positions in these organizations, including
schools, universities, educating businesses, regional, state and federal education agencies, education research institutions and private foundations with education missions. MBA/Ed.D. graduates will be prepared to improve the scope and quality of educational services to target populations through the application of management skills to the field of education and of education principles to business enterprises.

Application
Applicants to this program must apply to both schools individually and submit scores for both the Graduate Management Admission Test (GMAT) and the GRE.

Program Requirements
The program may be completed on a full-time or part-time basis. Full-time students should be able to complete the program in approximately four years.

The MBA portion of the degree program requires that the student complete the required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See the Rossier School of Education, page 565, for Ed.D. degree requirements.

The MBA and Ed.D. degrees are awarded simultaneously upon completion of all program requirements for both degrees.

Master of Business Administration/Doctor of Medicine (MBA/M.D.)
In response to the ongoing reorganization of health care delivery systems and the growing awareness of the impact of business decisions on health care, the Keck School of Medicine of USC and the Marshall School of Business jointly offer an innovative program for individuals seeking knowledge in both medicine and business administration. The program is designed to prepare its graduates to assume leadership in the design and management of health care systems.

Completion of the MBA/M.D. program spans five years. Interested students apply during their second or third year of medical school and begin required MBA courses following successful completion of the first two or three years of medical school. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of elective courses in the Marshall School.

Application
MBA/M.D. students should apply during their second or third year of medical school in the Keck School of Medicine. All requirements for admission to the Marshall MBA program (application, GPA, GMAT score, etc.) must be fulfilled by the medical student for admission to the Marshall School. Only students who have successfully completed at least two years in the Keck School of Medicine will be considered for admission to the Marshall School of Business.

Program Requirements
At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the Keck School of Medicine.

First and Second Years: Required medicine courses.

Third or Fourth Year: Required MBA courses and graduate business electives.

Remaining Years: Keck School of Medicine core, selective and elective clerkships, and graduate business elective courses sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

The M.D. and the MBA degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Doctor of Pharmacy (MBA/Pharm.D.)
Responding to the growing demand on pharmacists to be knowledgeable in both science and business administration, the USC School of Pharmacy and the Marshall School of Business offer the MBA/Pharm.D. dual degree program.

The program involves completion of the first year in the School of Pharmacy, the second in the Marshall School of Business and completion of the balance of the dual degree program over the final three years.

Admission Requirements
Applicants to this program should apply during the first year of pharmacy studies. Only students who have successfully completed one year in the School of Pharmacy will be considered for admission to the Marshall School of Business.

Program Requirements
A total of 48 units of business course work is required. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

First Year: Required Pharmacy School courses.

Second Year: Required MBA courses and graduate business electives.

Third to Fifth Years: 108 units of Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

The MBA/Pharm.D. degrees are awarded simultaneously upon completion of the School of Pharmacy and the Marshall School of Business requirements.

Master of Business Administration/Master of Social Work (MBA/MSW)
The Master of Business Administration/Master of Social Work dual degree program develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management.

Application
Prospective students must apply to both the Marshall School of Business and the School of Social Work.

Program Requirements
The MBA/MSW degree program requires completion of a total of 96 units (48 in the Marshall School of Business and 48 in the School of Social Work) and is typically completed in a three-year period, including summers.

Students in this dual degree program must select the World of Work concentration in the second year of their social work program and enroll in three required World of Work concentration courses (9 units), and 686ab Field Practicum (8 units). Course requirements in the Marshall School of Business include all courses required for an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. See the School of Social Work, page 925, for MSW course requirements.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.
Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/M.A.)

In cooperation with Hebrew Union College-Jewish Institute of Religion’s School of Jewish Nonprofit Management (formerly the HUC-JIR School of Jewish Communal Service), the Marshall School of Business offers the dual degree program Master of Business Administration/Master of Arts in Jewish Nonprofit Management. This degree program prepares students to apply business and management concepts to the non-profit sector.

Application
Applicants to the MBA/Master of Arts in Jewish Nonprofit Management program should apply to the Marshall School of Business and to the School of Jewish Nonprofit Management at the Hebrew Union College-Jewish Institute of Religion concurrently.

Degree Requirements
For the Marshall School portion of the dual degree program: all courses required in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

Students must also complete 47 units in the HUC-JIR School of Jewish Nonprofit Management to complete the M.A. in Jewish Nonprofit Management.

Master of Science in Business Administration

The Master of Science in Business Administration (M.S.) is designed to provide those who have already completed an MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall MBA students. The degree is available only to those holding MBA degrees from institutions accredited by the Association to Advance Collegiate Schools of Business (AACSB). It may be completed on either a full- or part-time basis. Classes applicable to the degree are offered during both daytime and evening hours.

Prospective applicants are encouraged to visit the M.S. in Business Administration Website at marshall.usc.edu/msba for more information about this very flexible curriculum.

Admission Requirements
Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Calendar tab at marshall.usc.edu/msba.

Successful applicants should have earned a GPA of 3.3 or greater in their MBA course work, scored at least as well as an average Marshall MBA student on the GMAT and have significant full-time work experience.

Application Procedure
Submit an online application to the M.S. program through the Marshall School of Business Admissions Website (marshall.usc.edu/admission/applyonline). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application (www.usc.edu/grad).

- Current USC students and USC MBA alumni are not required to submit an application fee, new GMAT scores or transcripts to verify degrees earned prior to their attendance at USC.

- Applicants who completed the MBA at an institution other than USC must submit all application documentation identified in the online application instructions including the application fee, official GMAT scores and transcripts.

For additional information, visit marshall.usc.edu/msba, contact MSBA_program@marshall.usc.edu or call (213) 740-0671.

Program Structure and Unit Requirements
M.S. in Business Administration applicants are invited to consider areas of specialization available to Marshall MBA students. While the student identifies an area of interest as part of the application process, final determination of course work requirements is made under the guidance of and subject to approval by a faculty adviser. The academic department reviewing the application recommends a faculty adviser for the new student, but applicants may request a specific faculty adviser from among the faculty of the Marshall School of Business.

Together the student and the faculty adviser determine which courses the student must complete. An evaluation of work previously completed determines if prior work needs updating to prepare for new course work. If it is determined that preliminary courses are needed, the number of units needed to complete the Master of Science degree will increase. The student’s program is then documented on an official program of study and filed with the M.S. program adviser.

Completion of the Master of Science degree requires a minimum of 26 graduate units for all candidates — up to 24 units of course work in the area of specialization and a minimum of 2 units of Directed Research, Field Research, Independent Research or Consulting Project.

None of the GSBA prefixed classes required for completion of a Marshall MBA program may be applied toward the Master of Science in Business Administration unless they are required to update prior work and are added to the 26-unit total.

No courses numbered lower than 500 may be included in this program. No more than two courses or 8 units may be taken in graduate course work outside the Marshall School of Business.

A minimum of two units of Directed Research (590), Field Research (592), Independent Research (593) or Consulting Project (597) supervised by a Marshall faculty member must be included in the proposed program. The project is intended to provide a capstone experience culminating in a report in the area of specialization. The project will be conducted under the direction of an individual faculty member from the Marshall department in which the area of specialization is taken.
Master of Science in Business Research

The Master of Science in Business Research is an alternative available only to Marshall Ph.D. students.

The curriculum involves a flexible program of study and research guided by faculty of the Marshall School culminating in the completion of a research project and publishable paper in an area of specialization.

Admission
Marshall does not accept applications directly to this program. A student admitted to the Marshall Ph.D. program may later request conversion or be invited by the faculty to complete the master’s degree in lieu of the Ph.D. Requests for conversion are subject to approval by the Marshall vice dean who oversees the Ph.D. program.

For more information, contact the Ph.D. program office for a referral to the MSBR adviser.

Program Requirements
The degree requires a minimum of 33 graduate units for all candidates — 30 units of course work and 3 units of Directed Research or GSBA 610 Seminar in Business Research.

Upon admission to the Ph.D. program, the student works with a faculty adviser who oversees the selection of course work, taking into account the student’s prior academic preparation. The curriculum requires completion of Ph.D. program core courses focusing on research methods and theory in an area of specialization. Methods course work completed at USC must include at least one course in microeconomics or behavioral science, one course in statistics and one course in research design. Additional courses are drawn from the Marshall School of Business and other participating departments including economics, psychology, mathematics, sociology, engineering, communication and others.

Three units of Directed Research (590) or GSBA 610 Seminar in Business Research are required to provide a capstone experience culminating in a research report of publishable quality in the area of specialization. The research will be conducted under the direction of an individual faculty member from the department in which the area of specialization is taken.

No courses numbered lower than 500 may be applied in this program. All courses applied to the first 30 units must be letter-graded and completed in residence at USC. No transfer units or graduate units from a degree previously completed at USC can be applied to the M.S. in Business Research.

Master of Digital Supply Chain Management

The Master of Digital Supply Chain Management program includes one master’s degree and three graduate certificates offering individuals an opportunity to expand their knowledge of the rapidly expanding uses of technology in the management of global supply chains.

Admission Requirements
In addition to the general admission requirements, applicants should have significant full-time work experience. Admission decisions are based on consideration of the applicant’s previous academic record, resume, letters of recommendation and responses to several questions included in the application.

Application Procedure
Prospective students may apply to begin the programs in the fall or spring semester. Applications are submitted online through the Marshall School of Business Admissions Website at marshall.usc.edu/admissions/applyonline. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application Booklet.

A complete application includes the online application form, an application fee, responses to several questions, two letters of recommendation and transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee, new GMAT or GRE scores or transcripts to verify degrees earned prior to their attendance at USC.
- All other applicants must submit all documentation identified in the online application instructions including the application fee, official GMAT scores and transcripts.

For additional information, contact SupplyChain@marshall.usc.edu or call (213) 740-0671.

Degree Requirements
The Master of Digital Supply Chain Management degree requires 30 units including four required courses plus 18 units of course work chosen from a list of electives. The four required courses should be completed prior to the electives.

Students who have taken elsewhere one or more of the required classes may petition to replace these classes by appropriately related courses offered by the Master of Digital Supply Chain Management program. Such a replacement must be approved by the student adviser and the chair of the program.

**Total units:** 33

*Students who begin one of the graduate certificate programs and subsequently wish to complete the master's degree instead must apply for admission to the master's degree program prior to completing the certificate program and, if admitted to the master's degree program, will be withdrawn from the certificate program.*

For current USC graduate students, courses credited to graduate certificate programs may be completed in conjunction with course work required for a graduate degree program in which the student is already enrolled. Applicability of courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward a certificate, but may be applied toward the master's degree. If necessary, appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of a graduate certificate program is acknowledged by a certificate awarded by the university.

---

**Master of Medical Management**

This program is designed for physicians, three-five years out of residency, who are currently employed in the health care industry. Its structure includes intensive residential periods with significant project work required between residential periods. Non-residential instruction is supported via distance-learning tools.

Applications are due by November 30 for a program start date in late January. The application is available online at marshall.usc.edu/mmm. For additional information, contact the Office of Executive Education at (213) 740-8990 or by email at mmm@marshall.usc.edu.

This program requires 33 units that will be taken in lockstep fashion. These courses are thematic semesters that are interdisciplinary in nature.

Master of Business for Veterans

This program is offered in an intensive format for veterans who wish to gain formal business knowledge and develop critical thinking skills to manage or grow a business. Significant project and course work is completed primarily through residential sessions with supplemental content delivered via distance learning. Class sessions meet over 16 full-day sessions each semester for two semesters with minimal interruption to the careers of working veterans. The program is offered on the University Park Campus in downtown Los Angeles.

A new class will be admitted each fall, spring and summer. Application information is available online at marshall.usc.edu/MBV. For additional information, contact the Marshall Office of Executive Education at (213) 740-8990 or by email at MBVProgram@marshall.usc.edu.

This program requires 25 units that will be taken in lockstep fashion. These courses are thematic semesters that are interdisciplinary in nature.

Master of Management Studies

The Master of Management Studies (MMS) is designed to provide those who have already completed the equivalent of the first year of an accredited traditional two-year MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall graduate students.

Completion of the Master of Management Studies degree requires a minimum of 26 graduate units for all candidates — up to 24 units of course work and 2-5 units of Field Research (592), Independent Research (593), and/or Consulting Project in Business (597).

Classes applicable to the degree are offered during both daytime and evening hours. The degree may be completed on either a full- or part-time basis. International students should expect to complete the program within two semesters or one calendar year.

Prospective applicants are encouraged to visit the Master of Management Studies Website at marshall.usc.edu/mms for more information about this very flexible curriculum. Applicants interested in accounting or taxation should apply for admission to the Master of Accounting or the Master of Business Taxation program offered by the Leventhal School of Accounting. Information about the areas of concentration offered to Marshall graduate students is available at marshall.usc.edu/ecg.

Admission Requirements

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Dates and Deadlines tab at marshall.usc.edu/mms.

The equivalent of a four-year bachelor’s degree is required for admission. Additionally, applicants must have completed the equivalent of the first year of a traditional two-year MBA accredited by the AACSB, EQUIS, ACBSP, AOCTE, IACBE or AMBA. Successful applicants should have earned a GPA of 3.3 or greater in their graduate business course work and scored at least 650 on the GMAT.

Application Procedure

Submit an online application to the MMS program through the Marshall School of Business Admissions Website (app.applyyourself.com/?id=USC-MBA). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application (www.usc.edu/admission/graduate/international/application.html).

For additional information, visit marshall.usc.edu/mms, contact Management.Studies@marshall.usc.edu or call (213) 740-0671.

Program Structure and Unit Requirements

Master of Management Studies applicants are urged to consider areas of specialization available to Marshall graduate students published at marshall.usc.edu/ecg. The applicant is asked to identify areas of interest as part of the application process, but is free to choose course work from the full range of graduate electives offered by Marshall.

An evaluation of work previously completed determines if specific content areas are missing. If it is determined that preliminary courses are needed, the number of units needed to complete the Master of Management Studies degree will increase.

Completion of the Master of Management Studies degree requires a minimum of 26 graduate units for all candidates — up to 24 units of course work and 2-5 units of Field Research (592), Independent Research (593) or Consulting Project in Business (597).

None of the GSBA-prefixed classes required for completion of a Marshall MBA program may be applied toward the Master of Management Studies unless they are required to update prior work and are added to the 26-unit total.

No courses numbered lower than 500 may be included in this program. No more than two courses or 8 units may be taken in graduate course work outside the Marshall School of Business.

A minimum of two units of Field Research (592), Independent Research (593) or Consulting Project in Business (597) must be included in the proposed program. The project is intended to provide a capstone experience culminating in a report in the area of specialization. The project will be conducted under the direction of an individual faculty member from the department offering the student’s area of specialization.

Total units: 25
Graduate Certificate in Financial Analysis and Valuation

The Graduate Certificate in Financial Analysis and Valuation program is designed to enhance the individual's graduate education through a concentrated curriculum in financial accounting, financial analysis, valuation, credit analysis, and financial instruments and markets.

Admission
To qualify for admission to the program, individuals must have completed basic graduate-level courses in microeconomics, macroeconomics, and corporate finance comparable to the first-year MBA curriculum while earning a minimum graduate GPA of 3.3. Non-matriculated individuals (e.g., visiting scholars and those applying for limited student status) are not eligible for the program.

Prospective students may apply to begin the programs in the fall, spring or summer term. Applications are submitted online at marshall.usc.edu/admissions/applyonline. A complete application includes the online application form, responses to several essay and additional information questions, letters of recommendation, and transcripts from any institutions attended since the applicant last applied to USC. (The application fee is not required of current USC students and USC alumni. Letters of recommendation are not required of current USC MBA students and USC MBA alumni.)

For more information, contact the USC Marshall School of Business at (213) 740-0671 or Financial.analysis@marshall.usc.edu.

Program Requirements
The program requires successful completion of one of the following 15-unit modules with a minimum GPA of at least 3.6 for all courses applied to the certificate.

Corporate Finance Option

At least one of the following:
- ACCT 581 Financial Statement Analysis 3
- FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms 3
- FBE 531 Corporate Financial Policy and Corporate Governance 3
- FBE 532 Corporate Financial Strategy 3
- FBE 558 Legal Environment of Business and Corporate Governance 3
- FBE 559 Management of Financial Risk 3

Investment Management Option

At least one of the following:
- FBE 529 Financial Analysis and Valuation 3
- FBE 555 Investment Analysis and Portfolio Management 3

At least two of the following:
- ACCT 572 Corporate Accounting and Reporting 3
- ACCT 581 Financial Statement Analysis 3

At least one of the following:
- ACCT 572 Corporate Accounting and Reporting 3
- ACCT 581 Financial Statement Analysis 3
- FBE 535 Applied Finance in Fixed Income Securities 3
- FBE 543 Forecasting and Risk Analysis 3
- FBE 554 Trading and Exchanges 3
- FBE 559 Management of Financial Risk 3
- FBE 589 Mortgages and Mortgage-Backed Securities and Markets 3

Student Investment Fund Program
Under the auspices of the Center for Investment Studies is the Student Investment Fund (SIF) program. During this year-long seminar in applied portfolio management, a select group of students learn the theory and practice of investment management by managing actual USC endowment funds.

Students who are selected to participate in the Marshall Student Investment Fund (SIF) program are required to complete the following:

At least one of the following:
- ACCT 572 Corporate Accounting and Reporting 3
- ACCT 581 Financial Statement Analysis 3

For current USC graduate students, courses credited to the Graduate Certificate in Financial Analysis and Valuation may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current MBA students may apply all 15 units of the graduate certificate program to their MBA degree. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of the program is acknowledged by a certificate awarded by the university.
Graduate Certificate in Technology Commercialization

The Graduate Certificate in Technology Commercialization is designed to let students experience the entire spectrum of the commercialization process — invention, product development, technical and market feasibility analysis, intellectual property acquisition, business planning and venture funding.

To qualify for admission, current USC students should have completed the equivalent of one year of graduate study at USC (at least 12 units for part-time students) and earned a minimum cumulative GPA of 3.0. Individuals holding graduate degrees from USC or other institutions are welcome to apply. Non-matriculated individuals (e.g., visiting scholars and those applying for limited student status) are not eligible for the program.

Prospective students may apply to begin the program in the fall, spring or summer term. Applications are submitted online through the USC Marshall School of Business Admissions Website at marshall.usc.edu/admissions/applyonline. A complete application includes the online application form, responses to several essay questions, letters of recommendation and transcripts from any institutions attended since the applicant last applied to USC. (The application fee is not required of current USC students and USC alumni.) For more information: (213) 740-0505; Bridge Hall 1, USC, Los Angeles, CA 90089-0801; (213) 740-2976 (fax); entrepreneur@marshall.usc.edu.

After the Lloyd Greif Center has received the complete application, it will contact the applicant to confirm receipt of the application and, if appropriate, to schedule an interview. In their review of applications, the admission committee members consider the applicant’s completed academic work, evidence of potential business leadership, motivation, work experience and competitiveness within the current application pool.

Three required courses and one elective (12 units) must be completed to earn the certificate. The student must maintain both a certificate and overall GPA of at least 3.0 throughout the program.

Graduate Certificate in Management Studies

The Graduate Certificate in Management Studies is designed to provide those who have already completed the equivalent of the first year of a traditional two-year MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall graduate students.

Completion of the Graduate Certificate in Management Studies requires a minimum of 12 graduate units for all candidates — usually four, 3-unit courses.

The certificate may be completed on either a full- or part-time basis. Classes applicable to the certificate are offered during both daytime and evening hours.

Prospective applicants are encouraged to visit the Graduate Certificate in Management Studies Website at marshall.usc.edu/gcms for more information about this very flexible curriculum. Applicants interested in accounting or taxation should consider applying for admission to the Master of Accounting or the Master of Business Taxation program offered by the USC Leventhal School of Accounting. Information about the areas of concentration offered to Marshall graduate students is available at marshall.usc.edu/gcms.

**Admission Requirements**

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Calendar tab at marshall.usc.edu/gcms.

The equivalent of a four-year bachelor’s degree is required for admission. Additionally, applicants must have completed the equivalent of the first year of a traditional two-year MBA accredited by the AACSB, EQUIS, ACBSP, AOCTE, IACBE or AMBA.

Successful applicants should have earned a GPA of 3.3 or greater in their graduate business course work and scored at least as well as an average Marshall MBA student on the GMAT.

**Application Procedure**

Submit an online application through the Marshall School of Business Admissions Website (app.applyyourself.com/PID=USC-MBA). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application (www.usc.edu/admission/graduate/internationalapplication.html).

For additional information, visit marshall.usc.edu/gcms, contact Management.Studies@marshall.usc.edu or call (213) 740-0671.
Program Structure and Unit Requirements
Applicants are urged to consider areas of specialization available to Marshall graduate students published at marshall.usc.edu/ecg. The applicant is asked to identify areas of interest as part of the application process, but is free to choose course work from the full range of graduate electives offered by Marshall.

An evaluation of work previously completed determines if specific content areas are missing. If it is determined that preliminary courses are needed, the number of units needed to complete the Graduate Certificate in Management Studies certificate will increase.

Completion of the Graduate Certificate in Management Studies certificate requires a minimum of 12 graduate units for all candidates.

None of the GSBA-prefixed classes required for completion of a Marshall MBA program may be applied toward the certificate unless they are required to update prior work and are added to the 12-unit total.

Graduate Certificate in Business Fundamentals for Non-Business Professionals

The Graduate Certificate in Business Fundamentals for Non-Business Professionals is designed to provide managers and business owners for whom an MBA is not a viable option with a basic graduate-level introduction to successful business policies and practices.

Admission
All certificate students must meet the same admission requirements as degree seeking students.

In addition to the general admission requirements, applicants should have earned an undergraduate GPA of at least 3.4 or a GPA in graduate course work of at least 3.2.

GRE scores may be submitted in lieu of GMAT scores. A completed graduate degree may be accepted in lieu of test scores at the discretion of the admissions committee.

Prospective students may apply to begin the program in the fall, spring or summer term. Applications are submitted online through the USC Marshall School of Business admissions Website at marshall.usc.edu/admission/applyonline. A complete application includes the online application form, responses to essay questions, letters of recommendation, and official transcripts from all colleges and universities attended, whether a degree was completed or not. Current USC students and alumni need to submit transcripts from only those institutions attended since the applicant last applied to USC. The application fee is not required of current USC students or USC alumni.

For more information, contact the USC Marshall School of Business at (213) 740-0671 or bus.fundamentals@marshall.usc.edu.

Program Requirements
The program requires successful completion of the following 19-unit program with a minimum cumulative GPA of at least 3.0 for all course work applied to the certificate and an overall graduate GPA at USC of at least 3.0.

</table>

No courses numbered lower than 500 may be included in this program. All courses applied toward the certificate must be taken within the Marshall School of Business. Acceptable course prefixes include ACCT, BAEP, BUCO, FBE, GSBA, IOM, MKT and MOR.

Successful completion of the program is acknowledged by a certificate awarded by the university.

SELECT ONE ADDITIONAL COURSE FROM THOSE IDENTIFIED ABOVE OR FROM A LIST OF ELECTIVE OPTIONS PUBLISHED ON THE PROGRAM WEBSITE AND AVAILABLE FROM THE PROGRAM ADVISER. THE ELECTIVE SELECTED MAY NOT DUPLICATE PRIOR GRADUATE COURSE WORK AND MUST BE APPROVED BY THE PROGRAM DIRECTOR. ENROLLMENT IN SOME COURSES MAY REQUIRE ADDITIONAL PREPARATORY COURSE WORK TO SATISFY PREREQUISITES, SUBJECT TO APPROVAL OF THE INSTRUCTOR.

For current USC graduate students, courses credited to the Graduate Certificate in Business Fundamentals for Non-Business Professionals may be completed in conjunction with course work required for a program in which the student is already enrolled. Applicability of these courses to the student’s primary degree program is determined by the student’s home department.

For USC alumni, courses completed in conjunction with an individual’s prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director.

Successful completion of the program is acknowledged by a certificate awarded by the university.
Academic Policies — Master’s Programs

Waivers
Subject waiver of required courses may be granted to students based on prior academic work subject to university policy limitations and in some cases by examination. All waived courses must be replaced with electives.

Further information regarding the waiver policy in the Marshall School of Business may be obtained from the program adviser for the applicable degree program.

Change of Degree Program
Students who are currently enrolled in one degree program who wish to change their degree status to another program must formally reapply through the Admission Office for the applicable program. Details concerning individual student requirements in other degree programs may be obtained by contacting the applicable Admission Office.

Continuous Enrollment/Leave of Absence/Withdrawal/Reinstatement
Once admitted to a graduate degree program, the student must enroll at USC each fall and spring semester each year until she or he has satisfactorily completed all degree requirements. MBA.PM students must enroll at USC each fall and spring semester and summer session each year until they have satisfactorily completed all degree requirements.

If for military, medical, religious or job-related reasons a student must skip a semester, the student must petition for a leave of absence. The petition should be submitted to the student’s program adviser no later than the first day of class for the semester of the leave. Leave of absence request forms are available by electronic mail, fax or hard copy.

If granted, the period of leave is not counted in the time allowed for the completion of degree requirements, and the student is allowed to complete the degree requirements in effect when he or she was originally admitted.

Once a leave is approved, it is the student's responsibility to withdraw from any classes for which the student has already enrolled. An approved leave may not exceed one academic year. A student whose leave exceeds one academic year or who fails to maintain continuous enrollment without obtaining an approved leave must, when ready to return to school, apply for readmission to the program. Applications for readmission are available by email, fax or hard copy. Contact the program adviser for the applicable program.

Students who must completely withdraw from a program must notify their program office of their withdrawal from the program. Students should contact their program office for more information or assistance.

Course Work at Another Institution
Once matriculated into a Marshall School of Business program, a student must receive prior permission by petition from the appropriate Marshall program office to take course work (a maximum of six units) at another institution. Only course work from an AACSB accredited business school can be accepted. A grade of B or better must be earned. Permission is granted only in exceptional circumstances.

Limited Status
The Marshall School of Business does not allow students to take MBA electives on any conditional or special status basis prior to application and an official admission decision except under the following condition: students completing a Master of Business Administration program at another accredited university outside of the Los Angeles area may take up to 12 units in the Marshall School of Business to complete their degrees, provided that a letter from the associate dean or program director at a student’s university identifies the classes that will be accepted for credit by the university granting the degree.

Grades below C (2.0) in all master's degree courses are not acceptable. If a lower grade is earned in a required course, the course must be repeated at USC and a grade of C or above must be earned. Grade credit will not be given for courses with grades of C- and below, but the grades are computed into the grade point average. Such courses should be repeated in the next semester in which the course in question is offered and must be repeated within one calendar year. Satisfactory completion of all required courses must occur prior to or concurrently with the beginning of advanced course work.

Academic Warning
Master's students who, in a term, do not earn or maintain a 3.0 (A = 4.0) grade point average will be given an academic warning in the semester following the one in which they became deficient in grade points. Students who fail to achieve a 3.0 upon completion of the required number of units for any degree may, with the prior permission of the assistant dean or the vice dean of graduate programs, be allowed to take a maximum of 12 additional units at USC to obtain the required GPA. Petitions to take additional units should be submitted to the student’s program office.

Dismissal
A student may be dismissed from a master’s program whenever, in the judgment of the program’s assistant dean and the vice dean for graduate programs, it is unlikely that the student will successfully complete his or her program.

Doctor of Philosophy

The Doctor of Philosophy program in business administration is designed to produce research-oriented graduates who, from positions in academia, can advance the state-of-the-art of business practice and enhance the contributions that business can make to the larger community. These goals can be advanced through research contributions in theory, concepts, methods and practices, and contributions to the education of the next generation of business leaders. USC Marshall offers the Ph.D. in Business Administration in the following five departments: Accounting, Finance and Business Economics, Information and Operations Management, Management and Organization, and Marketing.
All students admitted to the Marshall Ph.D. degree program are supported by graduate assistantships or fellowships that require a full-time commitment to the program. No part-time or evening programs are available. Ph.D. students begin their program in early August and are expected to be in residence 12 months each year throughout the program. Until the time the student is granted permission to take the qualifying examination, successful completion of at least six units per consecutive semester is required.

This degree is awarded under the jurisdiction of the Graduate School. Students should also refer to the Graduate School section of this catalogue. All courses applied toward the degree must be accepted by the Graduate School and relevant to the student's program of study. In most cases, the Ph.D. degree takes five years to complete.

Admission
The Ph.D. program in Business Administration welcomes applications from students with high intellectual aptitude who plan to pursue academic careers in research and teaching. Students with strong backgrounds in mathematics, psychology, the social sciences, engineering, computer science and the other sciences are encouraged to apply for admission. A master's degree or MBA is not a requirement for entry into the Ph.D. program; students may enter with only a bachelor's degree. Prior academic research experience is desirable.

Students who wish to apply for admission to the Ph.D. program should visit marshall.usc.edu/phd to obtain additional information about the Ph.D. program and an online application. Only online applications are accepted. Students with additional questions that are not covered on the Website may contact the Marshall School Ph.D. Program office located in Accounting Building 214, (213) 740-0676 or phd@marshall.usc.edu.

Applicants should secure three letters of recommendation. The Ph.D. committee prefers that all recommendations be written by academics who are familiar with the applicant's scholastic and research capabilities. An applicant who has been away from an academic environment for a significant period of time may substitute one academic reference with a non-academic reference. Applicants also provide transcripts, GRE or GMAT scores, TOEFL scores (if appropriate) and a statement of purpose. Applicants are encouraged to send a statement of research experience and a research writing sample, if available.

Consideration is given to the rigor of the undergraduate and master's curricula, academic performance, scores on the GRE or GMAT, the quality of the statement of purpose, fit with the department, the applicant's oral and written communication skills and letters of recommendation.

Campus interviews for top applicants may be initiated by the departments. In cases where in-person interviews cannot be arranged, alternative arrangements will be made.

Graduate Assistantships
All admitted students receive a fellowship or graduate assistantship, full tuition, health and dental insurance and payment of mandatory student health center fee for a minimum of four years dependent on continued satisfactory academic progress. This progress is assessed by the Ph.D. program based on students maintaining at least the minimum enrollment, a GPA of at least 3.0, and satisfactory performance in graduate assistant assignments. At the end of the fourth year, students may apply for an assistantship for the fifth year of study. Students who receive assistantships serve as teaching assistants or research apprentices each semester of the award. Teaching and teaching assistant assignments are made only after a student has passed the qualifying examination. For research apprentice assignments, students are engaged with a faculty member in a business-related, applied-learning, scholarly activity in the skills necessary to conduct independent research.

Degree Requirements
The Doctor of Philosophy in business administration is based on a program of study and research culminating in the completion of a dissertation in the major field of study. A minimum of 60 units of course work beyond the baccalaureate is required for the Ph.D. degree, including research courses and a minimum of 4 units and a maximum of 8 units of GSBA 794 Doctoral Dissertation. For students who already possess a master's degree, a minimum of 40 semester units of course work beyond that degree is required, of which a maximum of 4 units may be GSBA 794 Doctoral Dissertation. Doctoral students are subject to disqualification at any time that the Marshall School of Business determines that they are deficient in academic achievement. All students must maintain a 3.0 GPA.

Screening Procedure
In addition to the papers and examinations assigned in first-year courses, a screening process will occur in May. This process will include a review of each student's grades, an analysis of competence in written communications and reports from faculty members who have had in-class or other responsibility for the student. In most departments, a screening exam is required. The nature of the exam varies by department. Generally, a screening examination or other procedure designated by the department (Accounting, Finance and Business Economics, Information and Operations Management, Management and Organization, and Marketing) is to be administered before the student has taken more than 24 units (including research courses). However, the Accounting and Finance and Business Economics departments require their students to take the departmental course requirements until the end of the second year; students must take up to 36 units before the departmental screening procedure is administered. Based upon this review, the Ph.D. committee will determine whether the student should continue in the Ph.D. program. Students who have not performed satisfactorily will be dropped from the program. The review shall normally be completed and results communicated to students by July 1. In some cases a first-year summer project may be taken into account in determining whether a student should continue in the program.

Adviser and Guidance Committee
Students are responsible for finding an adviser from among the Ph.D. faculty within the first academic year. The guidance committee should be established within the student's home department at least two semesters prior to taking the qualifying examination and after the student has passed the screening procedure. The guidance committee comprises a minimum of five tenured or tenure-track USC faculty, three of whom must be from the student's home department. At least one faculty member from the home department must be tenured. One member must be from outside the student's home department and the Marshall School of Business. The guidance committee advises the student on courses during the first two years and oversees and grades the qualifying examination.

Course Requirements
Each student must successfully complete one course in microeconomics or behavioral sciences, one course in statistics and one course in research design plus the core courses in his or her field of specialization. Advanced course work is specified by the student's guidance committee in preparation for the qualifying examinations in the area of specialization. The areas are: accounting, information and operations management, finance and business economics, management and organization, and marketing.

Qualifying Examination
The examination qualifying a student for candidacy may be comprehensive in nature. It is designed to determine the student's competence in the area of specialization.
The qualifying examination consists of two sections: written and oral. The written section must be passed before the oral section; if a student does not pass the written examination, the oral examination need not be administered.

In preparing for the qualifying examination, students form a guidance committee. This committee helps the student prepare for the exam and also administers the oral section of the examination. See also the Graduate School section of this catalogue, page 97.

Dissertation
The final phase of the program is the completion of a dissertation. The dissertation must be based on an original investigation that makes a substantive contribution to knowledge and demonstrates the student’s capacity for independent, scholarly research. The quality of the dissertation should meet the standards for publication in leading academic journals in the field.

Typically, research in business administration involves studies that advance the body of knowledge concerned with issues and solutions of problems confronting managers and administrators. As a result, a dissertation will (1) develop or extend theories, techniques or models relevant to managerial problems;

(2) demonstrate original applications or adaptations of existing theories, techniques or models to managerial problems in a specific area; (3) develop innovative formulations and analyses of complex managerial problems and propose creative approaches to their solution; and/or (4) employ scientific research methodology to test empirically the validity of existing theories, techniques or models and their application to specific types of managerial problems.

A dissertation committee chair shall be requested by the student and appointed by the dean of the Ph.D. program within 90 days after the student has passed the qualifying examination. The remaining faculty on the dissertation committee shall be appointed within six months after the student has passed the qualifying exam.

The dissertation committee must consist of at least three tenured or tenure-track faculty, two of whom must be from the student’s home department. At least one faculty member from the home department must be tenured.

One member must be from outside the student’s department and the Marshall School of Business. Students may add additional faculty to the committee, especially those who might provide valuable expertise that improves the dissertation. It is important that the student select faculty members who are committed and interested in serving on the committee, since a quality dissertation requires extensive interaction with and a sizable time commitment from individual faculty members.

Defense of the Dissertation
When the dissertation committee agrees that the candidate has essentially completed the research and a satisfactory draft of the dissertation has been written, a final oral examination is held. This examination is open to all members of the faculty of the school and the university. Final judgment of the dissertation and the oral defense is rendered by the members of the dissertation committee. The dissertation must be accepted unanimously by the dissertation committee. Further information on procedures is contained in the Graduate School section of this catalogue, page 97.

Special Programs

Office of Executive Education
The Office of Executive Education offers executive education and certificate programs that are not part of the regular degree programs. The Office of Executive Education is located in the Davidson Conference Center 107, (213) 740-8990; Fax (213) 749-3689 or email: karla.wiseman@marshall.usc.edu.

Center for International Business Education and Research (CIBER)
The Marshall School’s Center for International Business Education and Research (CIBER) won a national competition in October 1990 to become one of the U.S. Department of Education’s 10 national centers for international business. The center’s mandate is to broaden and deepen knowledge about international business among USC students, faculty and business stakeholders to increase their international competitiveness. Between 1990 and 2010, the U.S. Department of Education provided USC CIBER with $7.4 million of support, which has been more than matched by USC cash and in-kind contributions to support over 130 projects that have helped to internationalize teaching and research programs throughout the Marshall School of Business and USC. In 2010 CIBER won its seventh consecutive four-year renewal worth $1.6 million. CIBER Director Richard Drobnick and Suzette Furbeyre coordinate and direct the projects, which are led by USC faculty. Phone (213) 740-7130; Fax (213) 740-8538 or email: ciber@usc.edu.
# Courses of Instruction

## ACCOUNTING

Accounting courses are listed in the USC Leventhal School of Accounting section of this catalogue.

### MAJOR RESTRICTIONS

Enrollment in most 500-level business courses by non-business graduate students requires special permission.

## BUSINESS ADMINISTRATION (BUAD)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**BUAD 020x Survey of Business Administration (3, FaSp)** Survey of the important topics in business administration, including marketing, accounting, finance, management information systems, leadership, business communication, and human resource management. Not available for degree credit. Recommended preparation: 2-5 years management experience.

**BUAD 040 Executive Development (4)** Problems and cases in contemporary management and business economics in American society. Graded credit/no credit. Open only to participants in managerial institutes and executive programs sponsored by the Marshall School of Business. Open to USC employees.

**BUAD 100x Foundations of Finance and Accounting (2)** Accounting information in decision-making from the perspective of users and preparers. Basics of financial asset valuation. Consideration of time-value of money and risk. Graded CR/NC. Not available for major or minor credit.

**BUAD 101 Freshman Leadership Seminar (2)** Colloquium of leading researchers, authors, and administrators in the Marshall School of Business and other schools at USC. Industry leaders will also be invited to talk about leadership challenges. Registration restricted to freshmen only. Graded CR/NC.

**BUAD 102 Global Leadership Seminar (2, Sp)** Colloquium of researchers and industry leaders discussing international business and the challenges faced by leaders in a global environment, with a specific focus on China. Graded CR/NC. Open to freshmen global leadership students only. International travel may require additional fees.

**BUAD 104x Learning About International Commerce (2, Sp)** Provides insight into the opportunities and challenges faced by business professionals operating in a global environment by focusing on international cultural norms. Not available for major credit for business and accounting majors.

**BUAD 200x Economic Foundations for Business (2, FaSp)** Examines fundamental concepts of both microeconomics and macroeconomics as they pertain to business and financial decisions. Not available for degree credit to business majors.

**BUAD 201x Introduction to Business for Non-Majors (4)** Introduction to the principles and practices of businesses, sequence of exercises developing the basic skills, and influence of the economy on business and individual decisions. Not available for credit for business or accounting majors.

**BUAD 215x Foundations of Business Finance (4, FaSp)** Principles and practices of modern financial management; use of financial statements; valuation of investment; asset pricing under uncertainty; elements of financial decisions. Not available for credit to business or accounting majors. (Duplicates credit in BUAD 306.) Prerequisites: ACCT 410x or BUAD 250a or BUAD 280 or BUAD 305.

**BUAD 250ab Core Concepts of Accounting Information (4-4, FaSpSm)**

- **BUAD 250a:** Accounting information in decision-making from the perspective of users and preparers; accounting issues concerning income and cash flows. **Prerequisite:** BUAD 250a.

- **BUAD 250b:** Continuation of accounting information in decision making, focusing on accounting issues involving economic resources, debt and equity capital. **Prerequisites:** BUAD 250a, BUAD 305. **Prerequisite:** BUAD 250a.

**BUAD 280 Accounting I (4, FaSpSm)** Accounting information useful for decision-makers surrounding issues concerning income, expense and cash flows; economic resource, debt and equity capital decisions by managers. (Duplicates credit in BUAD 250ab and BUAD 305.)

**BUAD 281 Accounting II (2, FaSpSm)** Continuation of Accounting I, enhancing management decision-making with strategic product costing, profit planning and standard costs analysis; using data to facilitate any organization’s success. (Duplicates credit in BUAD 250ab and BUAD 305.) **Prerequisite:** BUAD 280.

**BUAD 301 Technical Entrepreneurship (3)** Starting and managing a technological business: developing a viable concept, market and financial planning, product development, organizing the venture, protecting intellectual property rights.

**BUAD 302 Communication Strategy in Business (4, FaSpSm)** Theory, practices, and techniques of business communication strategy essential to external and organizational communication; group and interpersonal communication; development of skill in oral and written communication.

**BUAD 302T Business Communication for Accountants (4, FaSp)** Theory, practices, and techniques essential to communication by accounting professionals; interpersonal communication, written and oral presentations; communication technologies; development of communication strategies for varied audiences. Open to accounting majors only. (Duplicates credit in BUAD 302.) **Recommended preparation:** WRIT 340.

**BUAD 304 Leading Organizations (4, FaSp)** The role of leadership in business organizations; concepts and skills for managing one’s self and others.

**BUAD 305 Abridged Core Concepts of Accounting Information (4, FaSp)** Uses of accounting information in decision-making; accounting issues concerning income and cash flows, economic resources and capital. (Duplicates credit in BUAD 250ab, BUAD 280, BUAD 281.)

**BUAD 306 Business Finance (4, FaSpSm)** Financial problems of business enterprise; function of financial manager; sources of funds; instruments, institutions, and practices of finance; problems of financial management using case studies. (Duplicates credit in BUAD 215x.) **Prerequisite:** ACCT 410 or BUAD 250a or BUAD 280 or BUAD 305 and ECON 351x; **corequisite:** ECON 352x and BUAD 310 or EE 364.

**BUAD 307 Marketing Fundamentals (4, FaSpSm)** Develops a managerial viewpoint in planning and evaluating marketing decisions of the firm: products, pricing, channels, promotion, information processing, legal implications, and marketing in contemporary society.
BUAD 310 Applied Business Statistics (4, FaSpSm) Statistical methods for business analysis; data exploration and description; sampling distributions; estimation; hypothesis testing, simple and multiple regression; model building. Extensive computer applications.

BUAD 311 Operations Management (4, FaSpSm) Learn the fundamentals of operations management and acquire skills to analyze, manage and improve production processes. Topics include: project/total quality/materials management and just-in-time production. (Duplicates credit in BUAD 311T.) Corequisite: BUAD 310.

BUAD 311T Operations Management for Accounting Majors (4) Learn the fundamentals of operations management and acquire skills to analyze, measure, control and improve production processes. Open to accounting majors only. (Duplicates credit in BUAD 311.)

BUAD 315x Basics of Project and Operations Management for Non-Majors (2, FaSpSm) Introduction to tools and methods for the design, production, and delivery of goods and services. Techniques for planning, monitoring, and controlling complex projects. Not for major credit for, and not open to, accounting and business administration majors. (Duplicates credit in BUAD 311 and BUAD 311T)

BUAD 350 Macroeconomic Analysis for Business Decisions (4, FaSpSm) Behavior of economic indicators over business fluctuations, economic growth, monetary and fiscal policy, exchange rate movements. Prerequisite: ECON 203, ECON 205.

BUAD 351 Economic Analysis for Business Decisions (4, FaSpSm) Theory of the firm in the enterprise system; profits, demand, and cost analysis; market competition and resource allocation; problems of size efficiency and growth. Prerequisite: ECON 203, ECON 205 and either MATH 118 or MATH 125.

BUAD 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

BUAD 425 Management of Small Businesses (4, FaSp) Strategic, organizational and human issues facing the small business; influence of the founder’s personality, managing growth, competitive strengths and weaknesses are covered.

BUAD 425x Fundamentals of Entrepreneurship (4, FaSp) Starting and managing one’s own business: developing a viable concept, organizing the enterprise, market and financial planning, and controlling the organization. Not available for credit to Entrepreneur Program majors, undergraduate or graduate.

BUAD 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

BUAD 491 Honors Seminar (2, max 4, FaSp) Advanced study of a selected topic in business administration. In-depth exploration of relevant theories and methods of analysis. Senior standing with a minimum overall GPA of 3.3 and completion of at least 32 units of upper division BUAD courses with a minimum GPA of 3.5 required.

BUAD 495 Practicum in Business Issues (Internship) (1, max 12) Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Open only to freshmen, sophomores, juniors and seniors. Graded CR/NC.

BUAD 497 Strategic Management (4, FaSpSm) Examination of managerial decision-making, planning, and policy under changing environments; readings, cases, exercises, simulations. Prerequisite: BUAD 2506 or BUAD 281 or BUAD 305 and BUAD 304 and BUAD 307 and BUAD 215x or BUAD 306 and BUAD 302 or BUAD 302T; corequisite: BUAD 311 or BUAD 311T.

BUAD 498 Business Field Project (Undergraduate) (1 or 2, max 3, FaSpSm) Unpaid individual or team projects solving real business problems for client companies; situation analyses; statistical analysis; consulting practice; oral and written presentations. Open to sophomores, juniors and seniors only. Graded CR/NC.

BUAD 499 Special Topics (2-4, max 8, Irreg.) Examination of current literature relevant to the total and changing environment in which business operates.

BUSINESS ENTREPRENEURSHIP (BAEP)

BAEP 423 Management of Small Businesses (4, FaSp) Strategic, organizational and human issues facing the small business; influence of the founder's personality, managing growth, competitive strengths and weaknesses are covered.

BAEP 450x Fundamentals of Entrepreneurship (4, FaSp) Starting and managing one's own business: developing a viable concept, organizing the enterprise, market and financial planning, and controlling the organization. Not available for credit to Entrepreneur Program majors, undergraduate or graduate.

BAEP 451 The Management of New Enterprises (4, FaSp) Development of analytical and conceptual skills in entrepreneurship and venture management.

BAEP 452 Feasibility Analysis (4, FaSpSm) Students develop (including marketing, operating and financial consequences) analyze and validate entrepreneurial concepts using customer feedback and risk assessment to conclude worthiness to pursue. Prerequisite: one from BAEP 450 or BAEP 451 or BUAD 301.

BAEP 453 Venture Management (4, Sp) Design and application of organization structures and systems in management of new ventures. Prerequisite: BAEP 451.

BAEP 454 The Entrepreneurial Business Plan (4, Sp) Development of a detailed plan for starting and owning an enterprise. Prerequisite: BAEP 452.

BAEP 460 Seminar in Entrepreneurship (2, FaSpSm) The intimate issues of entrepreneurship. Internalization of the key decisions that an individual needs for creating and building the entrepreneurial organization.

BAEP 470 The Entrepreneurial Mindset — Taking the Leap (2, FaSp) A deeper insight into the entrepreneurial mind, how it approaches opportunities and challenges and gives leadership to an organization.

BAEP 480 Entrepreneurial Family Business (4, FaSpSm) Explores the dynamics of family and privately held businesses. Exploring generational and extended family issues, opportunities and obstacles faced in today’s environment. Not open to freshmen.

BAEP 491 Introduction to Social Entrepreneurship (4, FaSpSm) Analysis of social enterprise models from micro-finance to job development. Analysis of basic issues regarding the difference between socially responsible companies, for-profit, and non-profit-run enterprises.

BAEP 495 Practicum in Business Issues (Internship) (1, FaSpSm) Combined classroom discussion and field application of business theories and practices; part-time internship employment. Project to be jointly defined by student, employer and professor. Graded CR/NC.

BAEP 496 The Digital Startup Launchpad (2, FaSpSm) Real-life challenge of imagining, prototyping, testing and iterating, building, pricing, marketing, distributing and selling a digital product or service. Prerequisite: BAEP 451 and BAEP 452 and ITP 466 and ITP 476, corequisite: ITP 496.
BAEP 497 Field Project in Entrepreneurship (2, max 4, FaSpSm) Individual or team projects solving real problems for an enterprise. Situation analyses; research proposal composition; field research techniques; statistical analysis; oral and written presentations. Open only to juniors and seniors. Graded CR/NC.

BAEP 499 Special Topics (2-4, max 8, Irregular) Current developments in the field of entrepreneurship: topics to be selected each semester.

BAEP 549 Initiating New Ventures (2-3, FaSpSm) Moving beyond the business plan; identifying individual and organizational leadership skills needed to move a venture forward; “how-to” portion of establishing an enterprise.

BAEP 551 Introduction to New Ventures (3, FaSp) Study and development of analytical and conceptual skills in the management of new enterprises and new ventures within large organizations. (Duplicates credit in former BAEP 550x and GSBA 586.)

BAEP 552 Cases in Feasibility Analysis (3, FaSpSm) Study of analytical techniques used to evaluate business concepts and new business development. Corequisite: BAEP 551 or GSBA 586.

BAEP 553 Cases in New Venture Management (3, FaSp) Cases and readings expose students to the challenges of developing long-range strategies for entrepreneurial ventures. Emphasis is on developing new industries, growth through strategic alliances, and issues involved in the long-range strategic positioning of emerging companies.

BAEP 554 The New Venture Business Plan (3, Sp) Creation of an operating plan for starting or managing fast-growing ventures. Prerequisite: BAEP 552 or BAEP 556.

BAEP 555 Management of Rapidly Growing Ventures (3, Sp) Exploration and analysis of the operational and financial issues entrepreneurs confront when managing a rapidly growing venture.

BAEP 556 Technology Feasibility (3, Fa) Gives students the critical thinking and analytical skills they need to evaluate, value and manage technology as intellectual property. Students will learn the technology commercialization process, use data mining and assessment techniques for patent databases, and study the unique business issues facing high technology start-ups.

BAEP 557 Technology Commercialization (3, Sp) Focus of the course is on the identification, evaluation and commercialization of new technologies. Emphasis will be placed on the legal, financial and marketing aspects of technology transfer and development.

BAEP 558 The Entrepreneurial Advisor (3, Irregular) Site visits to five middle market firms and meeting their CEOs. Papers based on the problem or opportunity posed by the entrepreneur will be required.

BAEP 559 Investing in New Ventures (3, Fa) Focus on the entrepreneurial skill set applied to new venture opportunities. Taught from the business plan reader’s point of view; focus on selecting opportunities, structuring the relationship, adding value and realizing the value of that investment.

BAEP 560 Acquiring Your Own Business or Opportunity (3, Sp) Issues faced by the entrepreneur who wishes to acquire an enterprise; appropriateness of an enterprise, understanding funding sources and valuation methods, developing a plan for due diligence, negotiating and consummating the transaction. The acquisition process, approaches to valuation, and the roles of the various parties in negotiating and consummating an acquisition of an existing business.

BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences (1.5) The challenges of new venture creation in the biotechnology, medical device, and healthcare areas; experience, evaluate, and analyze profits of current impact in the life sciences.

BAEP 562 Entrepreneurship in Innovative Industries: Communication (1.5) The challenges of new venture creation in the communication industry; experience, evaluate, and analyze profits of current impact in the communication industry.

BAEP 563 Entrepreneurship in Innovative Industries: Technology (1.5) The challenges of new venture creation in the technology industry; experience, evaluate, and analyze profits of current impact in the technology industry.

BAEP 564 Entrepreneurship in Innovative Industries: Manufacturing (1.5) The challenges of new venture creation in the manufacturing industry; experience, evaluate, and analyze profits of current impact in the manufacturing industry.

BAEP 565 Entrepreneurship in Innovative Industries: Energy (1.5) The challenges of new venture creation in the energy industry; experience, evaluate, and analyze profits of current impact in the energy industry.

BAEP 566 Entrepreneurship in Innovative Industries: Other (1.5) The challenges of new venture creation in other industries; experience, evaluate, and analyze profits of current impact in other industries.

BAEP 567 Entrepreneurship in Innovative Industries: Research and Development (1.5) The challenges of new venture creation in the research and development industry; experience, evaluate, and analyze profits of current impact in the research and development industry.

BAEP 568 Entrepreneurship in Innovative Industries: Retail (1.5) The challenges of new venture creation in the retail industry; experience, evaluate, and analyze profits of current impact in the retail industry.

BAEP 569 Entrepreneurship in Innovative Industries: Services (1.5) The challenges of new venture creation in the services industry; experience, evaluate, and analyze profits of current impact in the services industry.

BAEP 570 Entrepreneurship in Innovative Industries: Other (1.5) The challenges of new venture creation in other industries; experience, evaluate, and analyze profits of current impact in other industries.

BAEP 571 Entrepreneurship in Innovative Industries: Other (1.5) The challenges of new venture creation in other industries; experience, evaluate, and analyze profits of current impact in other industries.

BAEP 572 Field Research in Business Entrepreneurship (1.5-4, max 12, FaSpSm) Individual or team projects studying the business practices of an entrepreneurial industry, company, government agency, country, etc. Proposal, data collection, analyses, and written report. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: Completion of required MBA, M.Acc., or MBT course work.

BAEP 573 Independent Research in Business Entrepreneurship (3, 4, max 12, FaSpSm) Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

BAEP 574 Internship in Business Entrepreneurship (3-5, max 9, FaSpSm) Hands-on practical experience working with a faculty member in the Lloyd Greif Center for Entrepreneurial Studies on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC.

BAEP 575 Consulting Project in Business Entrepreneurship (3, max 9, FaSpSm) Individual or team project solving real business problems for an existing business entity; domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to master’s and doctoral students. Graded CR/NC.

BAEP 576 Special Topics (1.5-3, max 9, Irregular) Current developments in the field of entrepreneurship: topics to be selected each semester.

BUSINESS COMMUNICATION (BUCO)

BUCO 221 Cross-Cultural Business Communication for Non-Native Speakers (2, FaSpSm) Written, spoken and cultural business communication skills for non-native speakers of English. Emphasis on individualized skills development according to need. Graded CR/NC.

BUCO 252 The Art of Case Analysis and Presentation (2, FaSp) Develop analytical problem-solving and persuasive presentation skills to successfully analyze strategic business situations and convincingly argue your position in a competitive environment. (Duplicates credit in former BUCO 452.) Graded CR/NC. Prerequisite: BUCO 304.

BUCO 260 Business Communication Across Cultures (2, Fa) Develop intercultural communication competencies, analyze international business situations, build on GLP and LINC experiences, and/or prepare for internships abroad and international exchange programs.

BUCO 425 Ethics and Professional Communication (4, FaSp) Study the intersection between business and professional leadership, language, and ethics. Analyze and present results to public audiences through publications, professional conferences, ethics case competitions. Corequisite: WRIT 340.

BUCO 445 Oral Communication in Business (4, Fa) Oral reporting; management briefings; listening; interviewing; conference and committee leadership; employee training in communication; laboratory cases and simulations. Prerequisite: BUAD 302.

BUCO 450 Communication for Organizations: Exploring Creativity (2, FaSp) Development of individual creative thinking and problem-solving skills; exploration of workplace creativity; advancement of managerial communication skills necessary to foster organizational innovation.

BUCO 458 Managing Communication and New Media (4, FaSp) Individual and team exploration of 21st century media tools and their impact on communication strategies in business. Course uses social media, collaborative software, virtual immersion, and video conferencing.

BUCO 460 International Business Communication (4, FaSp) Interpersonal, cultural and organizational communication skills needed for international or global business settings. Recommended preparation: BUAD 302.

BUCO 485 Business Communication Management for Nonprofits (4) Communication environment; communication activities for fundraising and visibility; research and evaluation methods; grant proposals; strategies for communicating social mission to media, government and for-profit partners.

BUCO 503 Advanced Managerial Communication (3, FaSp) Advanced skill development in the application of business communication theory to presentations and visual and verbal persuasion. Executive coaching model applied to interpersonal communication dynamics. (Open only to Accounting and Business graduate students, including dual degrees.) Recommended preparation: Prior course work or experience in management or business communication.

BUCO 533 Managing Communication in Organizations (3, FaSp) Analyze, design, develop, and present theory-based communication solutions and strategies to sophisticated interpersonal, group, organizational, and environmental communication issues and problems. Recommended preparation: GSBA 502 or GSBA 523 or GSBA 542.

BUCO 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

BUCO 592 Field Research in Management Communication (.5-4, max 12, FaSpSm) Individual or team projects studying the communication practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: completion of required MBA course work.

BUCO 593 Independent Research in Management Communication (.5-4, max 12, FaSpSm) Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s and doctoral students. Graded CR/NC.

BUCO 595 Internship in Management Communication (.5-2, max 9, FaSpSm) Supervised on-the-job business experience in the field of management communication. (Curricular Practical Training.) Open only to graduate business and accounting majors. Recommended preparation: completion of required MBA, M.Acc., or MBT course work.

BUCO 596 Research Practicum in Management Communication (.5-2, max 8, FaSpSm) Hands-on practical experience working with a Management Communication faculty member on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC.

BUCO 597 Consulting Project in Management Communication (.5-5, max 12, FaSpSm) Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to master’s and doctoral students. Graded CR/NC.

BUCO 634 Communication for Doctoral Students: Conference Papers and Presentation (1, Sm) Oral presentation skills for professional conferences and teaching. Graded CR/NC.

BUCO 635 Communication for Doctoral Students: Career Planning and Development (1, Sm) Preparation for the academic job market. Graded CR/NC.

BUCO 636 Communication for Doctoral Students: Tutorial (1, max 4) Individualized tutorial focusing on academic writing and presentation skills for dissertations, conference papers, and journal articles. Graded CR/NC. Open only to GSBA doctoral students. Prerequisite: BUCO 633 or BUCO 634 or BUCO 635.

BUCO 637 Communication for Doctoral Students: Succeeding as a Teacher (1, Sm) Theories of teaching and learning; strategies for developing course materials; practical advice for managing common challenges; lecturing, leading discussion, creating in-class activities. Graded CR/NC.

FINANCE AND BUSINESS ECONOMICS (FBE)

FBE 324 The Financial System (4) Financial intermediaries in the flow of funds; aggregate financial asset analysis; money markets and interest rates; government debt and its economic effects. Open only to sophomores, juniors and seniors. Prerequisite: BUAD 350 or BUAD 351; or ECON 203 and ECON 205; or ECON 351x and ECON 352x.

FBE 391 Real Estate Finance and Investment (4, FaSp) Introduction to income-producing real estate from the perspective of finance, market analysis, capital markets, development and investment. Includes focus on analytical techniques and computer applications. (Duplicates credit in former FBE 365.) Prerequisite: BUAD 215x or BUAD 306.

FBE 400x Introduction to Real Estate Finance and Development (4, Fa) Case analysis examining economic and financial aspects of real estate decisions for non-business majors. Focuses on dynamics of financing, markets and the development process. Open to all majors. Not available for credit as a senior options course for business majors or for students in the real estate option. (Duplicates credit in former FBE 200x.)

FBE 403 Introduction to the Legal Environment of Business (4, FaSp) Legal principles of business: litigation process, constitutional law, torts, product liability, crimes, contracts, sales and leases, intellectual property, international law, agency, employment law, and ethics. (Duplicates credit in the former BUAD 403.) Not open to freshmen.

FBE 416 Managerial Economics (4) Application of macroeconomic theory to problems of the firm, quantification of demand and cost relationships; pricing policies. Prerequisite: BUAD 311; and BUAD 351 or ECON 203 or ECON 351x.

FBE 421 Financial Analysis and Valuation (4, FaSp) This course develops and uses tools of financial analysis to evaluate the performance and assess the value of individual companies in an industry context. Prerequisite: BUAD 215x or BUAD 306.

FBE 423 Introduction to Venture Capital (4, FaSp) Introduction to venture capital. Topics include fundraising, investing (emphasis on valuation techniques for venture capital securities) and exiting investments. Prerequisite: BUAD 306.

FBE 425 Management of Financial Institutions (4) Management problems of banks, savings and loans, and insurance companies; pricing of services; branching; lending criteria; asset and liability management.

FBE 427 Real Estate Law (4, FaSp) Principles of law regarding real property transactions; buyer-seller, debtor-creditor, landlord-tenant relationships; environmental law and land use control; investments and syndication.

FBE 429 International Business Law (4, FaSp) Introductory course on the legal and regulatory environment of international business transactions.

FBE 430 Online Commerce and Intellectual Property (4, Sp) Introductory course on the legal and regulatory environment of online commerce, intellectual property, patents, copyright, trademarks, domain names, entertainment, multimedia, digital and Internet law.

FBE 431 Financial Policies and Corporate Governance (4, FaSp) Presentation of the theory and institutional details of corporate finance, with emphasis on debt and dividend policies, governance/voting rights, and security issuance and retirement. Prerequisite: BUAD 215 or BUAD 306.

FBE 432 Corporate Financial Strategy (4, FaSp) Linkage between financial theory and policy and corporate strategy, the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. Prerequisite: BUAD 215x or BUAD 306.

FBE 433 Corporate Governance and CEO Pay (4, Sp) Explores how value is created (or destroyed) through incentive compensation and corporate governance. Focus on bonuses, stock options, executive compensation, and financing policies. Prerequisite: BUAD 215 or BUAD 306.

FBE 435 Applied Finance in Fixed Income Securities (4, Sp) Emphasis on hedging tools necessary for portfolio managers. Introduction of all securities available in fixed income and provision of tools to analyze investments. Prerequisite: BUAD 215x or BUAD 306.

FBE 436 Financial Management of Multinational Corporations (4) International scope and dimension of financial planning; working capital management; financing and investment decisions of multinational corporations. Prerequisite: BUAD 215x or BUAD 306.

FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms (4, Fa) Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. Prerequisite: BUAD 215x or BUAD 306.

FBE 440 Trading and Exchanges (4, Sp) Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues. Prerequisite: BUAD 215x or BUAD 306.

FBE 441 Investments (4, FaSp) Theories and applications of investment decision-making; the behavior of security prices, portfolio theory, asset pricing models, market efficiency, bond valuation and term structure, derivative securities. Prerequisite: BUAD 215x or BUAD 306.

FBE 443 Introduction to Forecasting and Risk Analysis (4) Introduction to econometric tools and versions of Capital Asset Pricing Models to estimate financial risk, stock market risk premia and to project economic activity. Prerequisite: BUAD 215x or BUAD 306 and BUAD 310.

FBE 445 Topics in Economic Analysis of Business Strategy and Policy (4, FaSpSm) Development of economic analysis to define and analyze strategy and policy options. Topics may include pricing and investment strategy using game-theory, and employee compensation and motivation, or investment in emerging markets. Prerequisite: BUAD 350 and BUAD 351, or ECON 351x and ECON 352x.

FBE 446 Advanced Topics in Portfolio Management and Investment Strategy (4) Covers real-world topics in investment theory and practice. It bridges the gap between theory and real-world portfolio management and investments. Prerequisite: BUAD 306.

FBE 453ab Advanced Practicum in Investment Management (4-4) a: Application of investment management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations. Prerequisite: BUAD 215x or BUAD 306, corequisite: FBE 421 or FBE 441. b: Application of advanced investment management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. Open only to senior business majors.

FBE 458 Law, Finance and Ethics (4, FaSpSm) Law and ethics of agency, partnerships, corporations, limited liability companies, governmental regulation, mergers, creditor rights, secured transactions, bankruptcy, securities regulation, and antitrust.

FBE 459 Financial Derivatives (4, Fa) A rigorous introduction to the pricing and corporate use of financial derivatives — futures, options, forwards, and swaps — on stocks, exchange rates, bonds, and commodities. Prerequisite: BUAD 215x or BUAD 306.

FBE 460 Mergers, Acquisitions and Restructuring (4, FaSpSm) Practical understanding of the major strategic, economic, financial, human resources, and governance issues of mergers, acquisitions, and restructuring. Prerequisite: BUAD 215 or BUAD 306.
FBE 462 International Trade and Commercial Policy (4, FaSp) Commercial policies and treaty relationships; examination of export-import problems and national policies influencing world trade and finance. Open only to sophomores, juniors and seniors. Prerequisite: ECON 203 and ECON 205; or ECON 351x and ECON 352x.

FBE 464 International Finance (4, FaSp) Introduction to the international financial system: foreign currency spot, forward, futures, options markets; exchange rate determination under flexible and fixed rate regimes; foreign exchange risk and elementary hedging techniques; Eurobanking. Prerequisite: BUAD 310.

FBE 466 Management of Real Estate Development: Feasibility Studies (4, Sp) By means of a significant real-world case study chosen each term, the development process is examined from the interrelated perspectives of finance, market analysis, and design and construction technology. Team-generated development proposals are proposed and presented in a consulting environment that includes industry participants. Prerequisite: FBE 391 and FBE 470 or FBE 400x.

FBE 470 Advanced Real Estate Analysis (4, FaSp) Mixed lecture/case approach covering market analysis, asset valuation, ownership structure, negotiation, asset management, corporate real estate, portfolio management, and affordable housing, appraisal and advanced financial modeling. (Duplicates credit in former FBE 465.) Prerequisite: FBE 391.

FBE 489 Real Estate Capital Markets (4, Fa) Topics in real estate capital markets including markets for debt and equity; residential and commercial mortgages and mortgage-backed securities; REITs; institutional sources of capital. Prerequisite: BUAD 215x or BUAD 306.

FBE 499 Special Topics (2-4, max 8, FaSpSm) Current developments in the field of finance and business economics; topics to be selected each semester Prerequisite: BUAD 215x or BUAD 306.

FBE 515 Deals (3-4) (Enroll in LAW 815)

FBE 523 Private Equity (3, Fa) Advanced analysis of the institutions and economics of the private equity markets. We consider the perspectives of private equity partnerships, entrepreneurs, and investors. Prerequisite: GSBA 521b or GSBA 548.

FBE 524 Money and Capital Markets (3, Fa) Review of financial institutions and markets, the determinants of interest rates, the impact of government regulation and policy on the financial system. Prerequisite: GSBA 511; GSBA 521b or GSBA 548; GSBA 544 or GSBA 549 or GSBA 580.

FBE 525 Financial Institution Management, Strategy and Valuation (3, Fa) Application of economic and financial analytic techniques to the managerial problems of financial institutions and implications for financial firm strategy and valuation. Prerequisite: GSBA 521b or GSBA 548.

FBE 526 Macroeconomic Analysis for Business (3, Sp) The economic environment of business: American economic and social goals and policies and their impact on business; growth, stability, and the new priorities; international forces influencing business. Open only to graduate business and accounting students.

FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms (3, FaSp) Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. Prerequisite: GSBA 521b or GSBA 548.

FBE 529 Financial Analysis and Valuation (3, FaSp) An applications-oriented course to develop the financial and accounting tools required to do financial planning valuation and assessment of financial performance. Prerequisite: GSBA 521b or GSBA 548.

FBE 531 Corporate Financial Policy and Corporate Governance (3) Advanced analysis of the determinants of corporate capital structure and payout policies, allocation and value of corporate control, and security issuance and retirement. Prerequisite: GSBA 521b or GSBA 548.

FBE 532 Corporate Financial Strategy (3, FaSpSm) Linkage between financial theory and policy and corporate strategy; the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. Prerequisite: GSBA 521b or GSBA 548.

FBE 533 CEO Pay, Incentives, and Corporate Governance (3, Sp) How value is created (or destroyed) through compensation and incentive systems. Specific topics include incentive contracts, performance measurement, performance standards, and executive compensation. Prerequisite: GSBA 521b or GSBA 548.

FBE 535 Applied Finance in Fixed Income Securities (3, Sp) The basic principles underlying fixed income securities and how these principles apply to the practical aspects of fixed income management. Prerequisite: GSBA 521b or GSBA 548.

FBE 543 Forecasting and Risk Analysis (3, FaSpSm) Application of econometric tools and versions of Capital Asset Pricing Models to estimate financial risk and stock market risk premia for portfolio management. Prerequisite: GSBA 511 and GSBA 506b or GSBA 524.

FBE 553ab Applied Portfolio Management (a: 3, Fa; b: 3, Sp) a) Application of portfolio management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations. Prerequisite: GSBA 521b or GSBA 548; corerequisite: FBE 555. b) Application of advanced portfolio management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations.

FBE 554 Trading and Exchanges (3, Sp) Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues. Prerequisite: GSBA 521b or GSBA 548.

FBE 555 Investment Analysis and Portfolio Management (3, FaSp) Analysis and management of common stocks and fixed income securities; development of modern portfolio theory and the efficient market hypothesis; organization of securities markets. Prerequisite: GSBA 521b or GSBA 548.

FBE 557 Business Law and Ethics (3, FaSpSm) Business law of traditional and e-contracts, UCC, crimes, torts, employment, ethics, social responsibility, intellectual property, digital law, e-commerce, accountants' liability, property, estates, and government regulation. Open only to graduate business and accounting students.

FBE 558 Legal Environment of Business and Corporate Governance (3, FaSpSm) Legal environment of agency law, general and limited partnerships, limited liability companies, corporate formation and financing, corporate governance, securities law, acquisitions, bankruptcy, and business ethics. Open only to graduate business and accounting students.

FBE 559 Management of Financial Risk (3, FaSp) Analysis of commodity, futures, and options contracts; theoretical and empirical approaches; spot and futures price relationships, speculation and hedging strategies; market efficiency. Prerequisite: GSBA 521b or GSBA 548.
**FBE 560 Mergers and Acquisitions (3, Sp)**
Practical application of the critical components of mergers and acquisitions: deal flow strategies, preliminary negotiations, deal structures, due diligence, valuation, post-merger integration, and regulations. **Prerequisite:** GSBA 521b or GSBA 548.

**FBE 562 Current Issues in International Finance (3, Fa)**
International monetary relations, financial markets, and institutions; theory and evidence of alternative approaches to balance of payments; current policy evaluation. **Prerequisite:** GSBA 511; GSBA 544 or GSBA 549 or GSBA 580.

**FBE 563 Theory of International Trade (3, Sp)**
Comparative advantage and gains from trade; factor proportions and efficiency; factor price equalization; terms of trade; tariffs, customs, unions and trade agreements. **Prerequisite:** GSBA 511; GSBA 544 or GSBA 549 or GSBA 580.

**FBE 564 International Financial Management (3, Sm)**
Financial management of the multinational firm; legal entities and taxation abroad; risk in foreign operations; strategies in foreign exchange, money and capital markets and institutions. **Prerequisite:** GSBA 521b or GSBA 548.

**FBE 565 Economics of Urban Land Use: Feasibility Studies (3, Sp)**
Economic, market and financial analysis related to feasibility of real estate development; theory and case analysis. **Prerequisite:** FBE 589 or GSBA 511 or GSBA 521b or GSBA 548.

**FBE 566 Real Estate Finance, Investments and Development (3, Sm)**
Analysis of economic and financial aspects of real estate decisions for students not concentrating in real estate. Dynamics of financing; markets and the development process. Not open to MRED students. Open only to master’s and doctoral students in business and accounting.

**FBE 570 Advanced Topics in Real Estate Finance (3, Fa)**
Current topics in real estate finance including sources of equity and debt, the role of capital markets, REITs, conduits, portfolio analysis, and acquisition of distressed assets. Cases and analytic methods. **Prerequisite:** GSBA 521b or GSBA 548; recommended preparation: FBE 591.

**FBE 571 Introduction to Financial Analysis: Practicum (3, FaSp)**
This introductory financial analysis (tools, techniques) practicum, emphasizes practical application of asset valuation and portfolio management techniques for those with little previous experience. **(Duplicates credit in FBE 572 and FBE 573.)** Graded CR/NC. **Prerequisite:** GSBA 548 or GSBA 521b.

This practicum emphasizes asset valuation, including applications of tools and inputs (including economics, accounting, and quantitative techniques) in asset valuation for those with prior experience. **(Duplicates credit in FBE 571 and FBE 573.)** Graded CR/NC. **Prerequisite:** GSBA 548 or GSBA 521b.

**FBE 573 Advanced Financial Analysis: Practicum (3, Sp)**
This is an advanced practicum emphasizing portfolio management skills, including applied strategies (tools, inputs) in equity and fixed-income management for those with extensive prior experience. **(Duplicates credit in FBE 571 and FBE 572.)** Graded CR/NC. **Prerequisite:** GSBA 548 or GSBA 521b.

**FBE 574 Financial Economics I (3, Irregular)**
Doctoral level seminar in financial economics; topics to be selected each semester.

**FBE 575 Financial Economics II (3, Irregular)**
Doctoral level seminar in financial economics; concentration on contingent claims and continuous time models.

**FBE 576 Empirical Research Methods in Finance (3, Irregular)**
Empirical financial research methods are introduced. Applications are discussed and critiqued. Special attention is given to new statistical methods and to identifying fruitful research programs.

**FBE 577 Financial Economics III (3, Sp)**
Doctoral-level seminar in financial economics; concentration on the theory of corporate governance and incentives in organizations.

**FBE 578 Legal and Regulatory Environment of Long Term Care (4, Fa)**
Comprehensive overview of substantive business law topics and issues as they affect the long term care industry. **(Duplicates credit in FBE 557, FBE 558.)**

**FBE 579 Mortgages and Mortgage-Backed Securities and Markets (3, Fa)**
Valuation and analysis of residential and commercial mortgages and mortgage-backed securities and related markets. **Prerequisite:** GSBA 521b or GSBA 548.

**FBE 580 Directed Research (1-12, FaSpSm)**
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

**FBE 581 Real Estate Finance and Investment (3, FaSp)**
Analysis of investment in and financing of real estate assets including projections, valuation, deal structure, contracts, portfolio and tax and entity considerations. **Prerequisite:** GSBA 521b or GSBA 548.

**FBE 582 Basic Real Estate Law (1-4, FaSpSm)**
Fundamentals of real estate law, including basic real estate concepts and issues. **Prerequisite:** FBE 589 or GSBA 511 or GSBA 521b or GSBA 548.

**FBE 583 Real Estate Law (3, FaSpSm)**
Analysis of substantive business law topics and issues as they affect the long term care industry. **(Duplicates credit in FBE 557, FBE 558.)**

**FBE 584 Advanced Real Estate Law (3, SpSm)**
Legal aspects of real estate transactions; partnerships, syndicates, and other ownership forms. Legal aspects of land use control, zoning and environmental impact reports.

**FBE 585 Introduction to Real Estate and Development (3, Irregular)**
Practical application of the critical components of mergers and acquisitions: deal flow strategies, preliminary negotiations, deal structures, due diligence, valuation, post-merger integration, and regulations. **Prerequisite:** GSBA 521b or GSBA 548.

**FBE 586 Field Research in Finance or Business Economics (1-12, FaSpSm)**
Hands-on practical experience working with a Marshall faculty member in the Finance and Business Economics Department on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC.

**FBE 587 International Financial Management (3, Sm)**
Financial management of the multinational firm; legal entities and taxation abroad; risk in foreign operations; strategies in foreign exchange, money and capital markets and institutions. **Prerequisite:** GSBA 521b or GSBA 548.

**FBE 588 Advanced Real Estate Law (3, SpSm)**
Legal aspects of real estate transactions; partnerships, syndicates, and other ownership forms. Legal aspects of land use control, zoning and environmental impact reports.

**FBE 589 Independent Research in Finance or Business Economics (1-12, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 590 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 591 Independent Research in Finance or Business Economics (1-12, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 592 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 593 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 594 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 595 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 596 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 597 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 598 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 599 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 600 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

**FBE 601 Independent Research in Finance or Business Economics (5-9, FaSpSm)**
Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.
FOOD INDUSTRY MANAGEMENT (FIM)

FIM 420 Food Retailing Management (4, Sp) Strategic techniques of merchandising, pricing, and distributing products in the food industry with emphasis on new product development, including market segmentation and positioning.

FIM 480 Food Industry Financial Accounting and Analysis (4, Sp) Analysis of financial statements from food industry; cost and management accounting techniques in business planning, decision-making, cost control, and performance evaluation.

FIM 481 Food Marketing Research (4, Sp) Application of marketing research tools and techniques to problems of the food industry. Development of a major consumer research project.

FIM 582 Food Industry Decision-Making (4) Involvement with specific management situations related to the food industry, its environment, and its consumers. Emphasizes managerial functions and decision-making through case studies.

GRADUATE SCHOOL OF BUSINESS ADMINISTRATION (GSBA)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Registration for most courses designated GSBA is restricted to students admitted to MBA, MAcc. and MBT programs only. For a listing of courses in which non-business students may enroll, consult the Schedule of Classes.

GSBA 502 Management Communication for Leaders (3, Fa) Integrates leadership theory and practice with communication skills to improve individual, team, and organizational performance. Emphasizes interpersonal, presentation, and writing skills; teamwork; and value-based leadership. (Duplicates credit in GSBA 523, GSBA 542 and the former GSBA 502.) Open only to master’s students.

GSBA 504ab Operations Management (1.5, 1.5, Fa) Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. (Duplicates credit in GSBA 534 and former GSBA 504.)

GSBA 506ab Applied Managerial Statistics (1.5-1.5, FaSp) Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Graded IP/letter. (Duplicates credit in GSBA 524.)

GSBA 509ab Marketing Management (1.5, 1.5, Fa) Development of analytical, strategic, and planning skills. Application within an integrated strategic framework to the development of a comprehensive marketing plan for a product, service, and/or organization. (Duplicates credit in GSBA 528 and the former GSBA 509.)

GSBA 510 Accounting Concepts and Financial Reporting (2, 3, Fa) Information systems for public reporting and for management decision-making; theory of asset and income measurement; interpretation and uses of accounting data and financial statements; analysis of cases.

GSBA 511 Microeconomics for Management (2, 3, Fa) Microeconomic theory with business applications; consumer demand, production theory, cost theory, and market theory; decision-making within the firm under different market and regulatory environments.

GSBA 514 Foundations of Business I and II (6, Sm) Introduction of business fundamentals to graduate students with non-business undergraduate degrees. Economics, finance, marketing, operations management and general management concepts are introduced with a global perspective. Prerequisite: GSBA 510 or ACCT 525x.

GSBA 518 Accounting Control Systems (3, Sm) Accumulation and interpretation of accounting data by management; profit planning; analysis of operations; systems for control of production and distribution costs; cost and profit centers for decentralized control. (Duplicates credit in former GSBA 517ab and GSBA 536.) Recommended preparation: GSBA 510.

GSBA 519ab Strategic Formulation for Competitive Advantage (1.5-1.5, FaSm) Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. (Duplicates credit in GSBA 529 and GSBA 540.)

GSBA 520 Business Fundamentals for Non-Business Professionals (3, FaSp) An overview of concepts, tools and principles of business management to develop a general management point of view. Open only to non-business graduate students.

GSBA 521ab Corporate Finance (1.5, 1.5, Fa) Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. (Duplicates credit in GSBA 548 and the former GSBA 521.) Recommended preparation: GSBA 510.

GSBA 522ab Managerial Perspectives (1.5-1.5, FaSp) Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Graded IP/letter. (Duplicates credit in GSBA 532 and GSBA 543.)

GSBA 523 Communication for Management (2-3, FaSp) Internal and external communication, research methods; reports for decision-making; oral presentations and briefings; strategies to assure communication; field studies. (Duplicates credit in GSBA 502, GSBA 542, and the former GSBA 502ab.)

GSBA 524 Managerial Statistics (2, 3, Fa) Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. (Duplicates credit in GSBA 502, the former GSBA 502, GSBA 523 and GSBA 542.)

GSBA 528 Marketing Management (3, Sp) Marketing is treated as a managerial decision-making process. Emphasis is given to understanding the concepts, tools, and techniques that comprise a comprehensive marketing strategy. (Duplicates credit in GSBA 502.)

GSBA 529 Strategic Formulation for Competitive Advantage (3, FaSpSm) Analyses of environments and competition, the bases of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. (Duplicates credit in GSBA 519ab and GSBA 540.) Recommended preparation: completion of first year courses.
GSBA 532 Behavior and Organizations (3, Sp) Individual behavior (motives, cognitive process, learning), interpersonal processes (perception, communication), small group dynamics (power, productivity, and morale), and organization theory and development (culture, design). (Duplicates credit in GSBA 522ab and GSBA 543.)

GSBA 533 Organizational Behavior and Leadership (1.5, Fa) Maximize organizational effectiveness through managing teams and individual processes. Topics may include ethics, decision making, motivation, power and influence, organizational culture and change, negotiation. (Duplicates credit in GSBA 522ab, GSBA 532, GSBA 543.)

GSBA 534 Operations Management (2-3, Sm) Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of the firm. (Duplicates credit in GSBA 504ab.) Recommended preparation: GSBA 506b or GSBA 524.

GSBA 536 Management Accounting (1.5, Sp) The use of accounting information to formulate strategic managerial decisions in a global business environment. (Duplicates credit in former GSBA 517ab and GSBA 518.)

GSBA 540 Contemporary Issues in Competitive Strategy (1.5, FaSp) Introduces the role industry and competitive analysis serves in an organization. Topics covered include global competition, innovation, the use of standards, competence, and building organizational capabilities to sustain competitive advantage. (Duplicates credit in GSBA 519ab and GSBA 529.)

GSBA 542 Communication for Management (1.5, Fa) Internal and external communication, research methods, reports for decision-making, oral presentations and briefings, strategies to assure communication; field studies. (Duplicates credit in GSBA 502, GSBA 523, GSBA 523T and the former GSBA 502ab.)

GSBA 543 Managerial Perspectives (3) Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and growth. (Duplicates credit in GSBA 522ab, GSBA 532, GSBA 533, and GSBA 543.)

GSBA 544 The Firm in the National Economy (1.5, Sp) The economic environment of business and the forces influencing the firm. (Duplicates credit in former GSBA 526 and GSBA 549.)

GSBA 548 Corporate Finance (3, Sp) Modern theory of corporate investment and financing decisions. Open only to Master's and Doctoral students. (Duplicates credit in GSBA 521.) Recommended preparation: introductory finance course.

GSBA 549 The Firm in the National and International Economy (3, Sp) The economic environment of business and international forces influencing the firm. (Duplicates credit in former GSBA 526 and GSBA 544.)

GSBA 554 Digital Strategies for Sustainability in Global Markets (3, Sp) Designing and executing business strategies for sustainability (environmental, economic, social/cultural) enabled by digital technologies. Emerging market contexts; team consulting project; international travel. Open only to graduate business and accounting students.

GSBA 555 Management and Organization of the Creative Industries (3, Sp) How creative industries (motion pictures, television, publishing, radio, music, arts, games) operate and are organized. Critical discussion of pressing issues that these industries face. Open only to graduate business and accounting students.

GSBA 556 Business Models for Interactive Digital Media and Services (3, Sp) Business models and business development for products/services delivered through interactive digital platforms; assessing growing niches in the evolving media/entertainment/telecom market space. Open only to graduate business and accounting students.

GSBA 560 The Perspective of Top Management (2, Fa) Using cases, students are introduced to top management issues of executive leadership, environmental and strategic analysis, use of financial statements, organizational assessment and design, technology management and decision support systems. Graded CR/NC.

GSBA 561 Evaluating Market Performance (9, Fa) Evaluation of the firm by the market forces that affect its success; financial accounting and reporting; competitive market analysis; external communication; macroeconomics; labor, customer and financial markets, statistical and decision analysis, financial and organization measures of effectiveness.

GSBA 562 Management of Operations (11, Sp) Analysis of operations management and business functions; managerial accounting; finance; marketing; production; data processing and information systems; human resources management.

GSBA 563 Technology and Information Systems Management (6, Sm) Impact of technology on organizations; new product development; investment decisions and capital budgeting; decision support systems, expert systems; information technology; organizational design; management of information systems.

GSBA 564 Functional Strategies and Implementation (2, Sm) Developing functional strategies and interdependence to achieve organizational goals; negotiations, conflict resolution; communication strategies; organizational effectiveness; implementation and change strategies; self-assessment and individual presentations.

GSBA 568 The Economics and Marketing of a Professional Services Firm (3, Sp) Development of marketing skills required for a professional services firm. Examination of professional’s role and responsibility to social and civic concerns, as well as role of a new consultant. Review of operational and administrative aspects within the organization.

GSBA 570 The Role of the Senior Executive (2, Fa) Introduction to strategic management; executive leadership; environmental analysis; international context; financial growth strategies; social, legal and macroeconomic issues; role of CEO with boards, media and other publics; business ethics, strategic planning project. Graded CR/NC.

GSBA 571 Environmental Analysis: Establishing Competitive Advantage (9, Fa) Development of strategic planning processes; analysis of economic, social, political environment; forecasting; futures research; macroeconomics; international economics; technological developments; multinational management simulation; field projects.

GSBA 572 Strategic Planning for Growth (11, Sp) Formulation and implementation of strategies in different organizational and environmental contexts; financial growth strategies; comparative management; impact of taxation; technology strategies; product development and new market strategies.

GSBA 573 Managing Strategic Change and Implementation (6, Sm) Management of the strategic change process for the total organization including implementing growth strategies, use of consultants, corporate governance, implementation in a multinational environment, leadership and power, use of technology, innovation, corporate cultures, executive succession, corporate relations.

GSBA 574 The Executive of the Future (2, Sm) Forecasting future environments; the role of the executive in the future, changing organizations; executive development; personal development goal setting.
GSBA 580 The Global Context of Business (4.5, Sp) Political, economic, and cultural forces in a global context. Effects on markets, policies, and strategies. Application to one or more specific countries. Requires international travel. (Duplicates credit in GSBA 582 and the former GSBA 515 and GSBA 526.) Recommended preparation: MBA core courses.

GSBA 581 Information Management (1.5, FaSp) The intersection of information technology and organization, strategy, marketing and other functional areas of business. The impact of information technology on various aspects of a firm.

GSBA 586 Current Trends in Business (1.5, Sp) Study current issues in business, applying cross-discipline foundations and techniques — changing issues such as development of new business opportunities, technological change, and internationalization of commerce. Recommended preparation: MBA core courses.

GSBA 589 Industry-Based Business Theory and Practice (1.5, max 15, FaSp) Introductory seminar in the business theories, philosophies, structures and practices of various industries. Open only to graduate business and accounting students.

GSBA 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

GSBA 592 Field Research in Business (.5-4, max 12, FaSpSm) Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc., or MBT course work.

GSBA 593 Independent Research in Business (.5-4, max 12, FaSpSm) Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

GSBA 595 Internship in Business (5-2, max 9, FaSpSm) Supervised on-the-job business experience in the student’s area of interest. (Curricular Practical Training.) Graduate business students only. Graded CR/NC. Recommended preparation: Completion of required MBA, M.Acc., or MBT course work.

GSBA 596 Research Practicum in Business (5-2, max 8, FaSpSm) Hands-on practical experience working with a Marshall faculty member on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: completion of courses required for the MBA, M.Acc., MBT, or Ph.D.

GSBA 597 Consulting Project in Business (5-5, max 12, FaSpSm) Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to master’s and doctoral students. Graded CR/NC.

GSBA 599 Special Topics (1, 1.5, 2, or 3, max 9, FaSpSm) Selected topics reflecting current trends and recent developments in business administration. Emphasis on cross-disciplinary inquiry.

GSBA 602 Selected Issues in Economic Theory I (3, Fa) Methodology and research perspectives of economics; contribution of the economics paradigm to accounting, management, finance, marketing, and decision sciences. Recommended preparation: admission to doctoral program in business administration or department approval.

GSBA 603 Foundations of Statistical Inference (3, Fa) Theory and applications of statistical methods; review of probability theory and common distributions; exponential families; convergence concepts; law of large numbers; parameter estimation; hypothesis testing.

GSBA 604 Regression and Generalized Linear Models for Business Applications (3, Sp) Theory and application of linear regression models; role of substantive theory in statistical model building; model specification, estimation, diagnostic checking; the general linear hypothesis.

GSBA 610 Seminar in Business Research (3, max 9, Irregular) Critical analysis of research studies in the functional areas of business; practice in formulating and conducting research; presentation of original research of publishable quality (may be repeated for credit up to 9 units).

GSBA 611 Seminar in Research Methodology (3, FaSpSm) Conceptual foundations of research methodology; survey and research design; measurement theory; advanced techniques of statistical investigation; data analysis using computer packages; preparation of research reports.

GSBA 612 Selected Issues in Economic Theory II (3, Sp) Further investigation of selected topics in methodology and research perspectives of economics. Topics vary in response to new developments and current trends in the field. Open to doctoral program in business administration students only. Prerequisite: GSBA 602.

GSBA 625 Designing and Running Experiments (3, Fa) Introduction to design and implementation of experiments. Single and multiple factors, fully crossed and fractional factorial designs, repeated measures, measurement, manipulations, subject choice, demand effects. Open only to Ph.D. students.

GSBA 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

INFORMATION AND OPERATIONS MANAGEMENT (IOM)

IOM 401 Business Information Systems — Spreadsheet Applications (2, FaSp) Provides an applied understanding of how spreadsheets are used to analyze business information. Create real world software applications for use in accounting, finance, marketing and operations.

IOM 402 Business Information Systems — Database Applications (2, FaSp) Provides an applied understanding of how work group databases are used to analyze business information. Create real world software applications that are used in accounting, finance, marketing and operations.
IOM 424 Business Forecasting (4, Sp)
A variety of forecasting techniques used by a variety of businesses. Emphasis on learning to apply these techniques to real data. Prerequisite: BUAD 310.

IOM 427 Spreadsheet Modeling, Optimization and Analysis (4, Fa)
Application of decision analysis, simulation and optimization techniques to managerial problems. Students learn how to create and present useful spreadsheet models to analyze practical business problems. Recommended preparation: BUAD 310.

IOM 428 Data Warehousing and Data Mining (4, Sp)
Introduction to data warehousing, multidimensional database, online analytical processing, and survey of data mining methods that extract useful information from data warehouses e.g., decision tree. Business applications emphasized.

IOM 431 Managing the Digital Revolution for Your Business (4, FaSp)
Specifics of digital technologies including Web 2.0, creating a website, ERP, and CRM in a way to understand how these digital technologies can be used strategically by companies.

IOM 433 Business Information Systems Analysis and Design (4, FaSp)
Information analysis and the logical specification of business systems, including logical design, physical design, and implementation; computer exercises and case studies.

IOM 435 Business Database Systems (4, FaSp)
Computer-based management of data including data structures, conceptual data modeling, logical data modeling, structured query language (SQL), and physical optimization of high performance databases.

IOM 437 Technology-Enabled Global Businesses, Markets and Sourcing (4, Sp)
Global markets for products, services, and strategies enabled by technology; spans businesses ranging from financial services, media and entertainment, and technology to specialized manufactured products.

IOM 440 Business Telecommunications (4, Irregular)
Provides understanding of new telecom/information technology platform and how to exploit it to create information-based businesses, investment opportunities and increased corporate competitiveness.

IOM 441 Service Operations (4, Sp)
Emphasis on managing and delivering successful services; for students who plan to work as managers in service organizations or to start their own service business. Prerequisite: BUAD 311.

IOM 443 The Business of Interactive Digital Media (4, Sp)
Understanding the entertainment and media industries, and the effects of IT, the Internet, and mobile technologies on the business models and management of these industries.

IOM 444 Business Systems Networking and Information Security (4, Irregular)
Technical and managerial business data communications, networking and security issues related to current business operations.

IOM 445 Business Information Systems Management and Strategy (4, Irregular)
The intersection of information technology and organization, strategy and other functional areas of a business. A perspective of the impact of information technology on various aspects of a firm.

IOM 455 Project Management (4, Sp)
Topics related to project management in a variety of industries such as real estate projects, new product launch, plant location, etc.

IOM 462 Managing a Small Business on the Internet (2, FaSp)
Foundational knowledge for managing a small business on the Internet including strategies, tools, and resources integrated with hands-on skills for developing a small business website.

IOM 482 Supply Chain Management (4, Fa)

IOM 483 Operations Consulting (4, Sp)
Study of concepts, frameworks and techniques for improving operations, formulation and implementation of operations strategy, and development of frameworks for process design, selection and performance evaluation. Prerequisite: BUAD 311.

IOM 499 Special Topics (2-4, max 8, Irregular)
Selected topics reflecting current trends and recent developments in information systems, operations management, and statistics.

IOM 502 Operations Strategy (3, Sp)
Provides students with a set of frameworks, analytical tools/concepts needed to design, evaluate, and implement strategies that effectively address management/operations of large systems effectively. Open to graduate business students only.

IOM 504 Strategic Sourcing (3, Fa)
Examines the role of strategic procurement in supply-chain management organized into such topics as sourcing, outsourcing, e-procurement, and procurement integration collaboration. Open to graduate business students only.

IOM 520 Logistics Management (3, FaSp)
Gives students a managerial knowledge of basic logistics concepts and principles. Some topics include management of logistics cost integration, transportation, distribution, and customer service. Open only to graduate business and accounting students.

IOM 521 Enterprise Systems (3, Irregular)
Theory, methods, and techniques for solving organizational information processing problems using ERP software: selection, design, configuration, project and change management, architecture, process, implementation, post-implementation. Recommended preparation: completion of first-year MBA courses.

IOM 522 Applied Time Series Analysis for Forecasting (3, Sp)

IOM 525 Quality Improvement Methods (3, Irregular)
Quantitative and managerial approaches for improvement of quality and productivity in service and manufacturing operations; control charts, process capability assessment; implementation of quality improvement plans. Recommended preparation: GSBA 506b or GSBA 524.

IOM 527 Managerial Decision Analysis (3, Irregular)
Decision making under uncertainty with applications to finance, marketing and operations. The decision analysis process for competitive decision situations and managerial risk taking. Recommended preparation: GSBA 506b or GSBA 524; and GSBA 534 or former GSBA 547b or GSBA 504b.

IOM 528 Data Warehousing, Business Intelligence and Data Mining (3, Sm)
Introduction to data warehousing, multidimensional database, online analytical processing, and survey of business intelligence applications that extract useful information from data warehouses e.g., decision tree. Business applications emphasized.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites</th>
<th>Credit Hours</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>IOM 529</td>
<td>Advanced Regression Analysis (3, Sp)</td>
<td>Computer-assisted analysis of business data; advanced multiple regression analysis, survey analysis, ANOVA testing for Marketing-type applications and Times Series Analysis methods will be covered. Prerequisite: GSBA 5046 or GSBA 524.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 530</td>
<td>Applied Modern Statistical Learning Methods (3, Fa)</td>
<td>Overview of highly computational modern statistical learning methods; applications of logistic regression, neural networks, LASSO, trees, boosting and GAM, etc., to finance and marketing data.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 531</td>
<td>Managing Business in the Network Era (3, Irregular)</td>
<td>Creating business advantage with IT, crafting business models, building networked business, making a case for a networked business, understanding internet-working infrastructure, assuring reliable and secure IT outsourcing.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 532</td>
<td>Information Systems Implementation (3, Irregular)</td>
<td>How to implement information systems so they will succeed: business case analysis, requirements specification, CASE tools, IS risk management, interface design.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 533</td>
<td>Database Management (3, Fa)</td>
<td>Design, build and implement database systems at professional levels. Key topics include: process versus entity matrix, data modeling (enterprise, conceptual, logical), normalization, optimization and implementation. Open only to graduate business and accounting students.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 534</td>
<td>Global Businesses and Markets: Strategies Enabled by Technology (3, Sp)</td>
<td>Global markets for products and services and strategies enabled by technology; spans businesses ranging from financial services, media and entertainment, and technology to specialized manufactured products. Open only to graduate business and accounting students.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 535</td>
<td>Information Systems Strategy (3, FaSm)</td>
<td>Strategic aspects of managing information technology in organizations; concepts and principles of information management processes; behavior issues in implementation.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 540</td>
<td>Managing Electronic Commerce (3, Irregular)</td>
<td>Offers a conceptual framework to the study of electronic commerce. The purpose of the course is to give students a broad understanding of various aspects of electronic commerce: technological infrastructure, managerial implications of existing and emerging business models, and internal process changes to prepare companies for electronic commerce.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 542</td>
<td>Developing a Firm's Intellectual Assets (3, Sm)</td>
<td>Best practices in organizational knowledge creation, valuation and management; search engines, intelligent agents, and collaborative technologies; reengineering knowledge work. Recommended preparation: completion of first year MBA courses.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 543</td>
<td>Global Business Issues in the Networked Digital Industry (3, Fa)</td>
<td>Assessing business impact of emerging technologies on companies, business models and strategies in the “converging” digital communications, media and entertainment industries; incorporates company field projects. Open only to graduate business and accounting students.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 544</td>
<td>Designing Spreadsheet-Based Business Models (3, FaSp)</td>
<td>Application of decision analysis, simulation and optimization techniques to managerial problems. Students learn how to create and present useful spreadsheet models to analyze practical business models. Recommended preparation: completion of first-year MBA courses.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 545</td>
<td>Digital Transformation in the Global Enterprise (3, Sp)</td>
<td>Leveraging large enterprise system applications for strategic value; managing organizational transformation of global enterprises through digital business platforms coping with disruptive technologies. Open only to graduate business and accounting students.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 546</td>
<td>Project Management (3, FaSp)</td>
<td>Applications of systems theory and concepts, matrix organizational structures, PERT/CPM project modeling, and management information systems to the management of complex and critical projects. Recommended preparation: GSBA 5046 or GSBA 534 or former GSBA 5476.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 548</td>
<td>Service Management: Economics and Operations (3, Sp)</td>
<td>Examination of the service industry from a managerial and entrepreneurial perspective; emphasis on the tactical decisions needed to design and deliver successful and profitable services. Open only to business and accounting students. Recommended preparation: GSBA 5046 or GSBA 534.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 549</td>
<td>Operations Consulting (3, FaSp)</td>
<td>Development of conceptual and analytic skill for improving operations. Analysis of business strategy, formulating and implementing operations strategy, process analysis and design, and project management. Open only to graduate business and accounting students. Recommended preparation: GSBA 5046 or GSBA 534.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 550</td>
<td>Principles of Service Operations Management (4, Fa)</td>
<td>Investigation of the relationships among the target market, the systems, strategy, and the workforce that deliver services. Development of “state-of-the-art service thinking,” service management skills, and understanding processes. (Duplicates credit in the former GSBA 5046 and GSBA 534, IOM 441, and IOM 582.)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 551</td>
<td>Directed Research (1-12, FaSpSm)</td>
<td>Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 552</td>
<td>Field Research in Information or Operations Management (.5-4, max 12, FaSpSm)</td>
<td>Individual or team projects studying the management practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc. or MBT course work.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>IOM 553</td>
<td>Independent Research in Information or Operations Management (.5-4, max 12, FaSpSm)</td>
<td>Individual or team projects studying the management practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc. or MBT course work.</td>
<td></td>

</table>
IOM 596 Research Practicum in Information or Operations Management (.5-2, max 8, FaSpSm) Hands-on practical experience working with a Marshall faculty member in the Information and Operations Management Department on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC.

IOM 597 Consulting Project in Information or Operations Management (.5-5, max 12, FaSpSm) Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to master’s and doctoral students. Graded CR/NC.

IOM 599 Special Topics (1, 1.5, 2, or 3, max 9, FaSpSm) Selected topics reflecting current trends and recent developments in operations management, information systems, and decision support systems.

IOM 606 Bayesian Data Analysis (3, Sp) Principles of Bayesian inference, subjective probability, posterior inference via Markov chain Monte Carlo, applications to latent variable models, hierarchical models and shrinkage estimation. Model averaging. Prerequisite: GSBA 603.

IOM 670 Current Research in Operations Management (3, FaSp) Critique of the current research-based literature in operations management to include scheduling, forecasting, MRP technology planning, inventory management, and facilities location and layout.

IOM 671 Inventory Models and Supply Chain Management (3, FaSp) Single product, single location inventory models; Multi-echelon inventory models; Assembly Systems; Inventory and Pricing; Value of Information; Incentives and coordination in supply chains. Open only to doctoral students.

IOM 672 Optimization Models in Operations Management (3, FaSp) Convex optimization, stochastic dynamic programming and non-linear programming. Focused training in optimization methods and proof techniques for research in operations management. Open Ph.D. students only.

IOM 673 Mathematical Programming (3, FaSp) Integer programming; Duality Theory; Shortest path and Max Flow problems; Network flow; Matching problems; Convex sets and functions; Lagrange duality; Unconstrained minimization methods; optimization problems. Open only to doctoral students.

IOM 674 Queueing and Stochastic Networks (3, FaSp) Jackson Networks; Kelly Networks; The M/G/1 model and the Pollaczek-Khintchine formula; The G/G/1 queue; The GI/GI/1+GI queue and its diffusion approximation. Open only to doctoral students.

IOM 677 Dynamic Programming and Markov Decision Processes (3, FaSp) Introduction to Decision Analysis; MDP model formulation and examples; Finite horizon models; Infinite-horizon models: Discounted MDPs, Average reward criteria; Continuous-time models. Open only to doctoral students.

MANAGEMENT AND ORGANIZATION (MOR)

MOR 252 The Art of Case Analysis and Presentation (2, FaSp) (Enroll in BUCC 252)

MOR 421 Social and Ethical Issues in Business (4) The free-enterprise system examined from the perspective of modern corporations and their critics; business ethics in relation to personal/external values. Prerequisite: BUAD 304.

MOR 431 Interpersonal Competence and Development (4, Sp) An exploration of the nature of relationships at work; focus on analytical skills and self-assertion necessary to have effective, rewarding relationships. Laboratory simulations. Prerequisite: BUAD 304.

MOR 461 Design of Effective Organizations (4, Fa) Designing management systems and practices that lead to organizational excellence; techniques for organizational change. Prerequisite: BUAD 304.

MOR 462 Management Consulting (4, FaSp) Role of professional consultants; data gathering methods; consulting approaches from strategy, finance, operations, information systems, marketing, and human resources; action planning; ethical and career issues. Recommended preparation: BUAD 304.

MOR 467 Strategic Management of Technology and Innovation (4) Theories and methods for managing technology in organizations. Emphasizes project management, implementing technology, creativity, valuing technology, negotiating technical sourcing, and competitive intelligence/benchmarking. Prerequisite: BUAD 304.

MOR 468 Cross-Cultural Negotiations: Communication and Strategy (4, Sp) (Enroll in COMM 468.)

MOR 469 Negotiation and Persuasion (4, FaSp) Theories, strategies, and ethics underlying negotiation and persuasion in contemporary organizations and societies. Emphasizes the knowledge and skills needed for effective negotiation and persuasion.

MOR 470 Global Leadership (4, Fa) Major theories and practices of leading people in multinational firms. Skills for facilitating cooperation, communication, and motivation among people from different cultures. Recommended preparation: BUAD 304.

MOR 472 Power, Politics and Influence (4, Fa) Theories and practices about how power, politics and influence affect organizational life. Knowledge and skills for diagnosing and managing these features of an organization.

MOR 474 Leading Successful Professional Service Firms (4) Explores issues (1) managing professional service firms (PSFs) including strategy, client relationships, marketing, and innovation, and (2) developing professionals, including selecting, training, performance management, mentorship, and innovation.
MOR 479 The Business of Sports (4, Sp)
Addresses the business side of the sports industry; examines professional sports franchises, amateur athletics, and collegiate sports and how they relate to corporate America, the media, and the public sector. Recommended preparation: BUAD 304.

MOR 485 The Rhetoric of Investing and Valuation (4)
Analyzes the rhetoric of classic investment texts and news on investing/financial markets; investigates how rhetorical arguments shape and influence the valuation and investing process.

MOR 492 Global Strategy (4, FaSp)
Examination of corporate strategy practices in an international context. Effects of cultures, political systems, markets, and economic systems on developing effective global strategies.

MOR 495 International Management and Internship (2-4)
International internship. Develop general/cross-cultural knowledge and management skills, gain an understanding of cross-cultural issues, and develop insights working in international businesses. Recommended preparation: BUAD 304.

MOR 499 Special Topics (2-4, max 8)
Selected topics reflecting current trends and recent developments in organizational behavior, business strategy and organizational theory.

MOR 542 Strategic Issues for Global Business (3, FaSpSm)
Globalization strategies from entry to maturity; alternative approaches from going alone to alliances; strategy implementation issues in different cultures and political systems. Cases, videos and speakers. Open only to graduate students in business and accounting.

MOR 548 Competitive Advantage Through People (3, Sp)
How firms develop employee talent as a source of competitive advantage. Strategic implications of contemporary practices in recruitment, work systems, training, compensation, and employee relations. Speakers and cases.

MOR 551 Human Capital Performance and Motivation (3, Sp)
Frameworks for enhancing human capital performance motivation at work, including pay/incentive systems, job design, employee involvement, leadership behavior and self-managed teams. Cases, project and speakers. Open only to master’s and doctoral business students.

MOR 554 Leading Innovation and Change (3, FaSm)
Practical knowledge on helping organizations develop innovations and lead change to leverage them. Exploration of innovation and change in different organizations and competitive environments. Open only to graduate business and accounting students.

MOR 555 Designing High Performance Organizations (3, Sp)
Theory and practice of organization design. How to maximize organization performance by aligning structure, rewards, staffing, processes, and culture with strategy and environment. Open only to graduate business and accounting students.

MOR 556 Leading Professional Service Firms (3)
Teaches students with interest in consulting, investment banking, and companies in high-velocity environments how to manage careers, design, lead, and market adaptable and innovative organizations. Open only to graduate business and accounting majors.

MOR 557 Strategy and Organization Consulting (3, FaSp)
How consultants assist clients to formulate strategic plans and realign organizations; approaches used by major consulting firms; information about consulting industry, fee-setting and proposals. Consultant speakers and project.

MOR 559 Strategic Renewal and Transformation (3, Fa)
Dynamic strategic planning; how businesses reinvent themselves; why change is difficult; politics of change process; and leadership steps for implementing successful strategic changes. Cases and readings.

MOR 560 Managerial Judgment and Decision-Making (3, Sp)
Development of skills and insight into making effective strategic, financial, and management decisions including awareness of hazards of decisions, issues of rationality, and risk taking. Open only to graduate business and accounting students.

MOR 561 Strategies in High-Tech Businesses (3, Fa)
How high-tech companies achieve competitive advantage through leveraging technical, management and financial resources. Technology trends and industry evolution. Focus on electronics and biotechnology. Cases and speakers.

MOR 562 Strategic Choice and Valuation Analysis (3, Fa)
Advanced strategic planning using tools of scenario development and activity valuation for assessing market entry, expansion and business portfolio configuration. Exercises, cases and project.

MOR 565 Alliances and Cooperative Strategy (3, Fa)
Essential issues and problems of cooperative strategy. Recognize and evaluate collaborative opportunities to develop and assess an overall cooperative strategy. Readings, cases and group project. Open only to graduate business and accounting students.

MOR 566 Environmental Sustainability and Competitive Advantage (3, Sp)
Explores the impact of environmental sustainability concerns on business. Reviews the forces driving change and business’s strategic responses in various industries. Open only to graduate students in business, accounting, and green technologies.

MOR 567 Interpersonal Influence and Power (3, Sp)
Emphasizes legitimate and effective use of power to resolve conflicts and mobilize action through understanding the talent and self-interest of people involved in decision-making. Readings and cases.

MOR 568 Power and Politics in Organizations (3)
Explores current theories of power, politics and leadership within the organizational dynamic. Individual bases of power will be related to assessments of motives and skills. Open only to graduate students in business and accounting. Recommended preparation: GSBA 522ab or GSBA 532 or GSBA 553 or GSBA 543.

MOR 569 Negotiation and Deal-Making (3, FaSpSm)
Strategies and dynamics of deal-making; practical skills necessary to win in range of business transactions conducted in domestic and international settings. Cases, role-playing, films and simulations.

MOR 570 Leading Effective Teams (3, Sm)
Analytical and behavioral tools that will enable students to effectively diagnose complex work group dynamics and take action to improve group performance. Open only to Accounting and Business graduate students, including dual degrees.

MOR 571 Leadership and Executive Development (3, FaSp)
Contemporary approaches to leadership, including corporate practices to develop leaders; examples of successful and derailed executives. Students self-assess personal leadership and draft development plans. Readings, speakers, cases.

MOR 572 Leadership and Self-Management (3, Fa)
Successful leaders are effective at self-managing their thoughts, emotions and actions. Course provides concepts and methods for developing essential self-management skills. Open only to graduate business students.
MOR 573 Corporate Environmental and Social Issues (3, Sp) Exploration of competing perspectives on business’s role vis-a-vis investors, government, environment, customers, suppliers, employees, unions, NGOs, etc. Open only to master’s and doctoral students in accounting and business, including dual degrees.

MOR 579 The Business of Sports Entertainment (3, FaSpSm) Business practices and issues in different sports markets; including growth opportunities and innovative marketing strategies for attracting and retaining fans and corporate sponsors. Industry speakers.

MOR 588 Corporate Strategy and Competitive Dynamics (3) Central challenges facing executives in multi-business firms; toolkit for analyzing and executing strategic and operational aspects of corporate advantage, M&As and competitive dynamics. Open only to graduate business and accounting students.

MOR 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MOR 592 Field Research in Management and Organization (.5-4, max 12, FaSpSm) Individual or team projects studying the management practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master's and doctoral students. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc., or MBT course work.

MOR 593 Independent Research in Management and Organization (.5-4, max 12, FaSpSm) Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s students. Graded CR/NC.

MOR 595 Internship in Management and Organization (.5-2, max 9, FaSpSm) Supervised on-the-job business experience in the student’s area of interest. (Curricular Practical Training.) Open only to graduate business and accounting majors. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc., or MBT course work.

MOR 596 Research Practicum in Management and Organization (.5-2, max 8, FaSpSm) Hands-on practical experience working with a Marshall faculty member in the Management and Organization Department on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC.

MOR 597 Consulting Project in Management and Organization (.5-5, max 12, FaSp) Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to master’s and doctoral students. Graded CR/NC.

MOR 599 Special Topics (1, 1.5, 2, or 3, max 9, FaSpSm) Selected topics reflecting current trends and recent developments in management and policy sciences.

MOR 601 Seminar in Organizational Behavior (3, Irregular) In-depth review of the theories and empirical research in the discipline of organizational behavior. Topics include: personality, motivation, job design, leadership, and others. Open only to doctoral students.

MOR 602 Seminar in Organization Theory (3, Irregular) Survey of organization theory with focus on the history and development of research on organizations. Open only to business administration and public policy and management doctoral students.

MOR 603 Seminar in Strategic Management (3, Irregular) Survey of strategic management. Topics include historical overview of strategic management, research methods used, current theory, and empirical research on the developing of paradigms. Open only to business administration doctoral students.

MOR 604 Research Methods in Strategy and Organization (3, Irregular) Survey of research methods with focus on designing and implementing empirical research projects and critical issues faced by researchers. Open to doctoral program in business administration students only.

MOR 605 Research Methods in Organizational Behavior (3, Irregular) Design and analysis of behavioral research; methods may include experiments, survey research, qualitative research, statistical analysis, special topics. Emphasis on rigor, validity and statistical power.

MARKETING (MKT)

MKT 405 Advertising and Promotion Management (4, FaSp) Role of advertising in the marketing mix; determining objectives, strategies, and plans from situation analysis through research and creative processes, media selection, and sales promotion. Prerequisite: BUAD 307, COMM 200, COMM 302 or JOUR 340.

MKT 406 Practicum in Advertising and Promotion Design (4, Sp) Provides real-life marketing experience as a member of a student managed marketing/advertising/promotions agency. Work with a client organization on the design of an advertising/promotions campaign. Requires market research, creative design, implementation planning, and client presentation. Prerequisite: MKT 405 or JOUR 340.

MKT 410 Professional Selling (4) Learn the principles of business to business selling and its function in marketing strategy and the marketing mix; explore professional selling as a career option. Open only to undergraduate business majors. Prerequisite: BUAD 307.

MKT 415 Sales Force Management (4, FaSp) Studies the role of managing the selling function as part of the marketing mix; planning, implementing, and controlling sales force operations; critical issues in selecting, training, compensating and supervising salespeople.

MKT 425 Direct Response and Internet Marketing (4, Sp) Role of direct response marketing in promotion and distribution including mail order marketing, Internet marketing, project testing, fulfillment management, career opportunities; case analyses. Prerequisite: BUAD 307.

MKT 430 Retail Management (4, Fa) Introduction to the functions of retail management including location, buying, merchandise management, layout, pricing, and promotion; application of concepts to various retail institutions.

MKT 435 Business to Business Marketing (4, Fa) Analysis of markets, nature of buying and selling, marketing intelligence, developing marketing strategy; product channel, price, promotion, setting strategic goals and measuring performance. Prerequisite: BUAD 307.

MKT 440 Marketing Analysis and Strategy (4, FaSp) Synthesis of concepts and applications relating to the analysis of market opportunities and the development of product, promotion, distribution, and pricing strategies. Prerequisite: BUAD 307; recommended during student’s final semesters.

MKT 445 New Product Development and Branding (4, Fa) Examines how new product ideas are developed, tested marketed and ultimately brought to the marketplace. Issues about why new products fail and how brand images are managed in the marketplace are discussed. Legal aspects of brand management such as trademark protection and infringement are also addressed. Prerequisite: BUAD 307.
Courses of Instruction

MKT 446 Practicum in New Product Development (4, FaSpSm) Provides experience in a student managed product team. Work with R&D organization to design a new product or technology. Involves market research and implementation planning. Open to junior and senior business students only. Prerequisite: BUAD 307 and MKT 445.

MKT 450 Consumer Behavior and Marketing (4, FaSp) Examines the relationship of consumer behavior to acquisition, usage, and disposition of products and the psychological, social and cultural influences that affect these decisions.

MKT 463 Pricing Strategies (4, FaSp) Examination of role of pricing decisions; innovative pricing theories; Internet and technology impact on pricing, price negotiations, customized pricing, price image and reference prices. Prerequisite: BUAD 307.

MKT 465 Global Marketing Management (4) Product and service mix in multinational business; promotional alternatives; channel of distribution systems; pricing policies and legal barriers; multinational marketing opportunities; problems and information sources. Prerequisite: BUAD 307.

MKT 470 Marketing Research (4, Sp) Skills needed to conduct and apply research for marketing decision-making; problem formulation, secondary data, primary research, fundamentals of analysis are covered. Prerequisite: BUAD 307 or JOUR 340; recommended preparation: BUAD 310.

MKT 499 Special Topics (2-4, max 8, FaSpSm) Current developments in the field of marketing; topics to be selected each semester. Prerequisite: BUAD 307.

MKT 512 Marketing and Consumer Research (3, Sp) Marketing research concepts and techniques; developing managers' ability to critically evaluate and utilize research information in the decision-making process. Prerequisite: GSBA 509a or GSBA 528.

MKT 525 Consumer Behavior (3, FaSm) Theories and applications of consumer behavior in marketing; psychological, social, cultural and ethnic factors influencing consumer behavior. Prerequisite: GSBA 509a or GSBA 528.

MKT 526 Advertising and Promotion Strategy (3, FaSp) Explains use of argument, emotion, endorsement for persuasive ads; tools for analyzing ad effectiveness, budgeting, media planning and scheduling; principles of pricing for creative promotion. Prerequisite: GSBA 509a or GSBA 528.

MKT 528 Sales Management: The Art and Science of Sales (3, FaSp) Emphasis on creating a sales strategy, planning and delivery of sales presentations, and techniques to persuade people to change their opinions in face-to-face meetings. Open only to master's students. Prerequisite: GSBA 509a or GSBA 528.

MKT 529 Customer Relationship Management (3, Fa) Development, analysis, evaluation and implementation of effective customer relationship management (CRM) programs. Prerequisite: GSBA 509a or GSBA 528.

MKT 530 New Product Development (3, FaSpSm) Systematic approach to product development and management; processes, techniques, and concepts firms use to develop, test, and introduce products and to manage products over their lifecycle. Open only to graduate students in business. Prerequisite: GSBA 509a or GSBA 528.

MKT 531 Services Marketing Strategy (3, Irregular) Analysis and development of sound marketing strategies and an integrated service management plan for service organizations. Examination of best practices among leading service providers. Prerequisite: GSBA 509a or GSBA 528.

MKT 532 Branding Strategy (3, Sp) Comprehensive treatment of the behavioral foundations of brands and brand development. Exploration of alternative branding strategies and marketing tools for brand development. Prerequisite: GSBA 509a or GSBA 528.

MKT 533 Retail Strategy (3, FaSp) Frameworks for analysis of retail strategy and functions of a retail firm, including buying, merchandise management, pricing, promotion, and visual merchandising; application of concepts through case studies and student projects. Open only to master's students. Prerequisite: GSBA 509a or GSBA 528.

MKT 535 Business Marketing Management (3, Irregular) Business-to-business and government market opportunities and marketing strategies; product development and adaptation, pricing, promotion and distribution to organizations as opposed to individual consumers. Recommended preparation: GSBA 509b or GSBA 528.

MKT 540 Marketing Models (3, Irregular) Analysis, use, and evaluation of quantitative and theoretical models of marketing management, consumer response, marketing resource use and control, and competitive interaction. Recommended preparation: GSBA 509b or GSBA 528.

MKT 543 Market Demand and Sales Forecasting (3, FaSp) New product concept testing and life cycle forecasting, pricing and advertising response forecasting, consumer purchase intentions, judgmental marketing decision models, time series and regression analysis, computer methods. Prerequisite: GSBA 509a or GSBA 528.

MKT 555 Marketing Channels (3, FaSp) Examination of strategic decision making in marketing channels with emphasis on the structure and management of channels. Intensity in distribution, vertical integration, how roles in the channel are formulated, types of intermediaries and multiple channels of distribution. Prerequisite: GSBA 509a or GSBA 528.

MKT 556 Internet Marketing (3, FaSp) All aspects of Internet marketing. Internet as a tool for marketing communication, sales and distribution, customer management. Role of paid advertising, search engines, Website design. Prerequisite: GSBA 509a or GSBA 528.

MKT 560 Marketing Strategy and Policy (3, FaSp) Integrated approach to the use of marketing tools and concepts in the formulation and execution of a marketing plan. Prerequisite: GSBA 509a or GSBA 528.

MKT 565 Global Marketing (3, FaSp) Variations in markets and trade patterns around the globe; product development and adaptation, pricing, promotion, and distribution issues across national cultures and international markets. Prerequisite: GSBA 509a or GSBA 528.

MKT 569 Contemporary Marketing Problems (3, Irregular) Current trends in marketing; elements of a marketing program; solution of problems facing the marketing executive; societal issues in marketing.

MKT 580 Strategies for Fostering Creativity in Business (3, Fa) An experiential course focused on understanding and developing the creative process. Creative exercises and techniques are developed and applied within a business context. Open only to graduate business and accounting students.
MKT 585 Marketing Radical Innovation (3, Fa) Study and application of new technology to create new business models, products, and services in world economies. Group projects focused on practical applications of concepts. (Duplicates credit in former GSBA 585.) Prerequisite: GSBA 509a or GSBA 528.

MKT 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

MKT 592 Field Research in Marketing (.5-4, max 12, FaSpSm) Individual or team projects studying the marketing practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master's and doctoral students. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc., or MBT course work.

MKT 593 Independent Research in Marketing (.5-4, max 12, FaSpSm) Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master's students. Graded CR/NC.

MKT 595 Internship in Marketing (.5-2, max 9, FaSpSm) Supervised on-the-job business experience in the field of marketing. (Curricular Practical Training.) Open only to graduate business and accounting majors. Graded CR/NC. Recommended preparation: completion of required MBA, M.Acc., or MBT course work.

MKT 596 Research Practicum in Marketing (.5-2, max 8, FaSpSm) Hands-on practical experience working with a Marshall faculty member in the Marketing Department on an ongoing research project. Open only to master's and doctoral students. Graded CR/NC.

MKT 597 Consulting Project in Marketing (5-5, max 12, FaSp) Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to master's and doctoral students. Graded CR/NC.

MKT 599 Special Topics (1, 1.5, 2, or 3, max 9, FaSpSm) Examination of current literature and emerging and timely topics in marketing, social marketing, consumerism, macromarketing, marketing of individuals, organizations, and ideas. Prerequisite: GSBA 509a or GSBA 528.

MKT 613 Marketing Models in Consumer and Business-to-Business Markets (3, Fa) Modeling research on marketing with a focus on channel structure, franchising and sales force compensation, innovation and diffusion, inter-store composition, sales promotions, and market segmentation. (Duplicates credit in former MKT 605 and former MKT 613a.) Open only to doctoral program in business administration students only.

MKT 614 Advanced Research Methods in Marketing (3, Sp) Applications of advanced research techniques and designs to marketing problems; review and critique of current literature; development and defense of student’s own research proposal. (Duplicates credit in former MKT 661.)

MKT 615 Strategic and Marketing Mix Models (3, Sp) Modeling research on marketing with a focus on discrete choice models, consideration set models, purchase timing models, accounting for consumer heterogeneity, Bayesian models, dynamic models of consumer choice, market entry effects, product quality, advertising and carry over effects, price, and promotion. (Duplicates credit in former MKT 605 and former MKT 613a.) Open to doctoral program in business administration students only.

MKT 616 Understanding Consumer and Organizational Buying Behavior (3, Fa) Behavioral research and theory on marketing with a focus on goals, emotions, categorization and knowledge, inferences, attitudes, consumption, marketing and technology, organizational learning, new product development. (Duplicates credit in former MKT 602 and former MKT 612a.) Open to doctoral program in business administration students only.

MKT 618 Consumer Behavior and Decision Making (3) A foundation in judgment, decision-making, and choice aspects of consumer behavior and business. Topics include heuristics and biases, information acquisition, time perception, and intertemporal choice.
The Leventhal School of Accounting is dedicated to maintaining a leadership position in accounting education and research. We are committed to educational programs that seek to establish in each graduate the potential for career development into the highest executive levels of public accounting, controllership, financial management and management of accounting information systems. The accounting curriculum explores not only the state of the art but also seeks to explore the accounting discipline's future structures and directions. Relevant concepts and techniques from other academic disciplines are drawn upon and integrated into all accounting programs.

Accounting education has been an integral part of USC since 1920, when the Department of Accounting offered a Bachelor of Science degree in business administration with an emphasis in accounting. The Leventhal School of Accounting was established in 1979, joining less than a dozen other leading institutions in the nation emphasizing formal professional accounting education. The Leventhal School of Accounting continues to rank as one of the premier AACSB-accredited accounting programs in the nation.

Currently the Leventhal School of Accounting undergraduate program offers a Bachelor of Science, Accounting degree within which a student may choose the accounting track, the accounting information systems track or the graduate track. Honors students may be eligible for admission to the progressive degree, an efficient way to complete both undergraduate and graduate degrees. An accounting minor is also offered to students outside the Marshall School of Business. Graduate programs include a full-time Master of Accounting or Master of Business Taxation; a Master of Business Taxation for working professionals; and a Juris Doctor/Master of Business Taxation in conjunction with the USC Gould School of Law. A Ph.D. degree with an accounting major is offered through the doctoral program in the Marshall School of Business.

Assistant Professors of Clinical Accounting: Robert Shames, MBA, CPA; Zivia Sweeney, MBA, CPA*

Emeritus Professors: E. John Larsen, DBA, CPA; Theodore J. Mock, Ph.D., Anelise N. Mosich, Ph.D., CPA; Rodolph H. Redmond, J.D.

*Recipient of university-wide or school teaching award.

Degree Programs

Undergraduate Degree
Bachelor of Science, Accounting
The USC Leventhal School of Accounting offers the Bachelor of Science, Accounting (B.S.) degree designed to prepare students for entry into the professional program leading to a Master of Accounting degree. The undergraduate curriculum also provides a general background in business necessary for entry into the accounting profession. There are three tracks from which students can choose: the accounting track, the accounting information systems track or the graduate track. The graduate track is for USC B.S., Accounting students who plan to apply to the Leventhal School of Accounting’s Master of Accounting or Master of Business Taxation programs.

Students have flexibility in course choices to reflect their career goals.

Admission does not require an undergraduate degree in accounting or business, nor is work experience a requirement. For students with an undergraduate degree in accounting the program requires 30-36 units for completion; for non-accounting students the program requires 45-54 units.

Master of Business Taxation
This specialized program in taxation requires 30-51 units (depending on undergraduate background) and is offered to full- or part-time students and leads to the Master of Business Taxation (MBT). The program is designed for accountants, attorneys and others who wish to learn or improve skills and knowledge through participation in advanced tax study. This group may be engaged in tax practice, in business management or in government administration.

Juris Doctor/Master of Business Taxation
The USC Gould School of Law and the Leventhal School of Accounting offer this dual degree program. Admission to the J.D. program offered by the Law School is required before applying to the MBT program offered by the Leventhal School of Accounting.

Master of Business Administration
The Master of Business Administration (MBA) with an optional accounting concentration, offered by the Marshall School of Business is also serviced by the Leventhal School of Accounting. For additional information, consult the Marshall School of Business section of this catalogue.

Doctor of Philosophy
The Marshall School of Business offers the Doctor of Philosophy (Ph.D.) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting and taxation. More information on the doctoral program is available in the Marshall School of Business section of this catalogue, or contact the doctoral office at (213) 740-0674 or the director of doctoral studies in accounting at (213) 740-4838.

Graduate Degrees
Master of Accounting
The Master of Accounting (M.Acc.) program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Students have the opportunity to study accounting in greater depth than in undergraduate accounting programs or MBA programs with concentrations in accounting.

The USC Gould School of Law and the Leventhal School of Accounting offer this dual degree program. Admission to the J.D. program offered by the Law School is
Undergraduate Degree

Bachelor of Science, Accounting

The USC Leventhal School of Accounting offers the Bachelor of Science, Accounting (B.S.) degree designed to prepare students for entry into the professional program leading to a Master of Accounting degree. The undergraduate curriculum also provides a general background in business necessary for entry into the accounting profession. There are three tracks which students can choose: the accounting track, the accounting information systems track or the graduate track.

Admission

Students may be admitted to the program as incoming freshmen, as USC undergraduates transferring from another major or as students transferring from another college or university. Admission to Marshall is dependent on admission to the university and on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or the minor in the Marshall School of Business and/or the Leventhal School of Accounting may complete a maximum of 12 units from the Marshall School of Business and/or the Leventhal School of Accounting, No further course work may be taken unless a student is admitted.

Marshall Honors

Marshall Honors is available upon graduation to majors in business administration or accounting and results in a special designation of departmental honors on a student’s transcript. Achievement of Marshall Honors requires completion of BUAD 491 Honors Seminar (2 units) and maintenance of a minimum GPA of 3.5 in upper division Marshall School of Business and Leventhal School of Accounting courses. To enroll in BUAD 491, students must have senior standing, a minimum overall GPA of 3.3 and completion of at least 32 units of upper division BUAD courses with a minimum GPA of 3.5. For additional information, contact the Marshall School of Business Office of Undergraduate Advising, Bridge Hall 104, (213) 740-0690.

Bachelor of Science, Accounting, Degree Tracks: Accounting Track, Accounting Information Systems Track and Graduate Accounting Track

Bachelor of Science, Accounting students choose the accounting track, the accounting information systems track or the graduate accounting track. The accounting track is geared toward accounting or auditing in, for example, industry, government or not-for-profit entities. The accounting information systems track focuses on the design, implementation and utilization of accounting information systems. The graduate accounting track is for students planning to continue their undergraduate education in the Master of Accounting program or the Master of Business Taxation program. For all tracks, the B.S., Accounting is a 128-unit program.

Advisement

Academic advisement is provided through the Leventhal School of Accounting Student Services Office in Accounting 101, (213) 740-4838. Pre-business and business students will be required to meet with an academic adviser before registering and this requirement will be in effect until 24 USC units are completed. However, all students are encouraged to see an academic adviser on a regular basis. A record of each student is kept on file. Appointments for advisement may be scheduled at most times during the academic year. However, during busy times such as the pre-registration, registration and drop/add periods, advisers may be available on a walk-in basis only.

Leventhal Undergraduate Student Services and Marshall Undergraduate Student Services offer students assistance in networking, finding internships, resume writing, interviewing techniques and other career related issues.

Transferring College Credit

College Courses

USC has established articulation agreements with most community colleges throughout California. Most academic courses are acceptable for transfer credit from a two-year school, but students may not receive credit for specialized, technical or remedial courses.

Courses that do not appear on the articulation agreement are not transferable. A maximum of 64 semester units may be transferred. Check with the Degree Progress Department (JHH 010) for questions about transferable courses or see a counselor in Accounting 101.

Official transcripts of college work taken elsewhere must be submitted, at the time of application, to the USC Office of Admission. A credit evaluation will be completed which will list transfer courses accepted for credit. All business courses completed at a two-year college, if transferable, will be considered elective credit.

There is one exception to this policy. Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information and complete their accounting course requirement in one semester at USC. In this case, students would not be required to take BUAD 280 and BUAD 281.

Four Year Colleges

Most courses are acceptable for unit credit from all fully accredited four-year institutions. If the courses do not satisfy specific subject requirements at USC, they will be accepted for elective course credit.

Students are urged to complete all their required business administration courses at USC. All business courses from four-year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. Only core classes, with the exception of BUAD 497, may be challenged. Students should consult with an academic adviser in Bridge Hall 104 to initiate the challenge examination process.
Grade Point Average Prerequisites for Transfer Students
Transfer students are required to meet the following grade requirements to be admitted to the Leventhal School of Accounting. An average grade of B in the two transferred accounting courses and BUAD 305 (with no grade lower than B-). Grades in accounting courses taken at other institutions will only be considered in meeting the admission requirement for the Leventhal School of Accounting. Once a transfer student completes a minimum of two accounting courses at USC, the student’s accounting grades at the prior institution will no longer be considered in determining whether the student meets the 2.5 grade point average standard (see Grade Point Average Prerequisites following).

In the computation of grade point averages for accounting courses taken at other colleges or universities, the courses will be weighted in terms of the number of units provided for the equivalent USC accounting courses.

Grade Point Average Prerequisites
The following are grade point average prerequisites for any undergraduate student enrolled in any accounting course. Individual instructors may not waive these standards: (1) an average grade of B or better in BUAD 280 and BUAD 281 with no grade lower than a B- (transfer students see previous section); and (2) a minimum 2.5 grade point average (A = 4.0) for all accounting courses taken previously.

In meeting the B average required in BUAD 280 and BUAD 281, only one of the courses may be repeated. If the repeated course grade is higher, that grade will be considered in determining whether the student meets the B average, and the original course grade will be disregarded by the Leventhal School of Accounting in the administration of its grade point average requirements. See Repeated Course Work at USC for further restrictions on including grades in repeated courses in the overall university grade point average computation.

In computing grade point average prerequisites, BUAD 280, BUAD 281 or BUAD 305x, and BUAD 302T will be considered accounting courses.

When a student’s cumulative accounting grade point average falls below 2.5, the student is placed on probation. If a student on probation does not regain a minimum accounting cumulative GPA of 2.5 after completing the next 12 semester hours in all courses (including accounting units) attempted within the university, that student will not be permitted to continue as an accounting major in the Leventhal School of Accounting. Exceptions to this policy may be granted only in unusual circumstances by the Academic Standards Committee of the Leventhal School of Accounting, Decisions of the Academic Standards Committee are final.

To be removed from probationary status, a student may elect to take another accounting course or courses for which prerequisites are met or to repeat an accounting course or courses in an attempt to earn a higher grade. Regardless of the course of action taken, all courses completed will be counted in computing the cumulative accounting grade point average.

A grade of “W” in an accounting course taken while on probation will not extend probation. The probation period ends at the end of that semester during which the student completes a cumulative total of 12 semester hours of courses in any subject(s) at the university. Under no conditions will the student be permitted more than two successive semesters, including the summer semester, to complete the 12 semester hours of courses.

Graduation Standard
Students must attain a minimum 2.5 cumulative accounting grade point average (A = 4.0) to graduate with a Bachelor of Science, Accounting degree.

USC Core Requirements
All USC undergraduates take the USC Core, which comprises the general education, the writing, and the diversity requirement. The general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. The general education program requires six courses in different categories. The writing program requires two courses: WRIT 140 and WRIT 340. The diversity requirement is met by passing any one course with the “m” designation. See page 64 and page 250 for more information. In addition, a total of 60 units of non-business course work is required for the B.S. Accounting degree.

Business Foundation Requirements
All students in the Leventhal School accounting undergraduate degree program take business foundation courses that focus on necessary analytic skills and theoretical knowledge in math, statistics, accounting and economics. Fundamental knowledge of the functional business disciplines and the strategic interplay among them completes the business core.
Elective Courses for the Accounting Track
Choose four of the following two-unit courses: 8
ACCT 416  Financial Reporting and Analysis 2
ACCT 462  Detecting Fraudulent Financial Reporting 2
ACCT 463  Internal Audit 2
ACCT 470ab Advanced External Financial Reporting Issues 2
ACCT 471  Accounting Information Systems 2
ACCT 472  Managerial Accounting 2
ACCT 473  Financial Statement Auditing 2
ACCT 474  Tax Issues for Business 2
ACCT 475  Systems Security and Audit 2
ACCT 476  Performance Measurement Issues 2

Required Courses for the Accounting Track
ACCT 478  Accounting Systems Design 4
ACCT 479  Accounting Systems Development 4

Required Courses for the Graduate Accounting Track
ACCT 470ab Advanced External Financial Reporting Issues 2-2
ACCT 473  Financial Statement Auditing 2
ACCT 474  Tax Issues for Business 2

Accounting Minor
A minor in accounting is available to students in all schools and departments except the Marshall School of Business. The minor provides the opportunity for non-business majors to gain an understanding, from the perspective of the user of accounting information, of how accounting is used in the business world. To be approved for the accounting minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum GPA of 2.75. Successful completion of the 22 units for the accounting minor requires a minimum GPA of 2.0 in the following courses:

Graduate Degrees

The USC Leventhal School of Accounting offers two graduate degrees: the Master of Accounting (M.Acc.) and the Master of Business Taxation (MBT). The M.Acc. program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Through its integrated curriculum, students have the opportunity to study accounting in greater depth than in undergraduate accounting programs or MBA programs with concentrations in accounting. The MBT program provides in-depth specialization in taxation to prepare the student for a successful career as a tax professional.

The Leventhal School of Accounting also offers the dual Juris Doctor/Master of Business Taxation (J.D./MBT) degree program in conjunction with the USC Gould School of Law. The combination of broad legal education with detailed tax specialization prepares graduates for fast-track careers in law and accounting tax practices.

The Marshall School of Business offers the Doctor of Philosophy (Ph.D.) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting or taxation. For more information on the doctoral program, see the Marshall School of Business section of this catalogue, page 169, or contact the doctoral office at (213) 740-0670 or the director of doctoral studies in accounting at (213) 740-5025.

Admission to Master’s Programs
The Leventhal School of Accounting seeks individuals who have the potential for outstanding achievement in accounting or taxation. The Admissions Committee takes into consideration the candidate’s academic record, the Graduate Management Admission Test (GMAT), the professional resume, recommendation letters and written essays. Candidates are reviewed on the merits of their application and the merits of the applicant pool for the semester in which they seek admission.

Applicants to the full-time programs are not required to have any previous work experience. Applicants to the part-time MBT program are required to have a minimum of one year full-time professional experience in tax after receiving an undergraduate degree.

Application to the Programs
To ensure a place in a program and adequate time to receive an admission decision, it is important to submit completed application materials to the Leventhal School of Accounting Master’s Programs Admissions Office through the online application system well in advance of the term in which the applicant wishes to register. If work is still in progress, the applicant should state specifically what courses are in progress and an estimated completion date.
For all programs, an admission decision cannot be made without the following: (1) a completed USC Leventhal School of Accounting online graduate application (available at www.marshall.usc.edu/leventhal/grad); (2) an application fee of $85; (3) one official transcript from the registrar of each college or university attended (undergraduate and/or postgraduate) whether course work was completed or not. If all college or postgraduate work has not been completed, transcripts must be requested when work in progress is completed and degree is earned; (4) two letters of recommendation from faculty members or employers; (5) a written essay, not to exceed two pages, describing your career plans and how a M.Acc. or MBT degree will help you achieve these plans; (6) a professional resume summarizing your background; (7) an official Graduate Management Admission Test (GMAT) score report or, for J.D./MBT applicants or attorneys, an official Law School Admission Test (LSAT) score report; and (8) an interview.

Interviews are required for all qualified applicants to the full-time M.Acc. and MBT programs. If you live outside of the U.S., telephone interviews are required. The graduate admissions adviser will contact applicants to discuss scheduling an interview after an application is complete.

Following the requirements noted above, applicants for the J.D./MBT dual degree program should apply to the Leventhal School of Accounting for admission to the MBT program in the second semester of their first year in the USC Gould School of Law. In addition, current Law School transcripts and a “letter in good standing” from the registrar of the Law School must be submitted as part of the application. The same Leventhal School of Accounting admission criteria apply to the MBT portion of the J.D./MBT program.

International Students
In addition to the application process mentioned above, international students must submit results from the Test of English as a Foreign Language (TOEFL) or from the Pearson Test of English Academic (PTE Academic). A letter of financial support is also required. Transcripts from international universities must be submitted in the original language, as well as in English. The transcripts may have either percentile grades or letter grades.

Progressive Degree Programs: Bachelor of Science, Accounting/Master of Accounting and Bachelor of Science, Accounting/Master of Business Taxation
The Leventhal School of Accounting offers students who have demonstrated exceptional academic success in undergraduate accounting the opportunity to earn both the Bachelor of Science, Accounting, and a master’s degree in five years. Applicants to the program must have completed 64 units of course work and must submit their applications before completing 96 units of course work. AP units, IB units and course work taken prior to high school graduation are excluded from the unit count. Applicants to the progressive degree program in Accounting may not have to submit GMAT scores.

The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and letters of recommendation from two USC faculty members in accounting. The requirements for both the B.S. and the master’s degree must be satisfied. For more information on progressive degree programs, see page 87.

Application Deadlines
M.Acc.
Full-time only:
Jan. 10 – All international applicants
March 31 – U.S. citizens/permanent residents

MBT
Full-time:
Jan. 10 – All international applicants
March 31 – U.S. citizens/permanent residents

Working Professionals program (part-time):
Nov. 1 – All applicants for the spring semester
June 1 – All applicants for the fall semester

We recommend that applicants to the full-time master’s programs who wish to be considered for scholarship submit all application materials by January 10. For applications received after this date, financial awards will be given only if funds are available.

Application decisions will be made on a rolling admission basis until the programs are filled. Applicants are urged to file a completed application as early as possible. Applications that arrive after the regular deadline will be considered on a space available basis. The summer program is limited to a maximum of 75 students, so applicants for this part of the program should submit applications as early as possible.

Change of Degree Program
Students currently enrolled in a USC degree program who wish to change their degree status to the Master of Accounting or the Master of Business Taxation programs must submit a formal application to the Leventhal School of Accounting.

Limited Status
The Leventhal School of Accounting does not permit students to take classes prior to receipt of completed application materials and a positive recommendation by the Admissions Committee. Students completing a program at another accredited university outside of Los Angeles may take courses in the Leventhal School of Accounting. They must provide a letter from their dean stating that the requested classes will be accepted for transfer to their degree program.

Retention of Files
Files for applicants who (1) were not admitted, (2) did not complete their files or (3) declined admission will be purged 12 months after the semester for which they applied. Files for graduated students will be purged after five years.

Residence Requirements
Subject to approval of the Leventhal School of Accounting, the maximum number of transfer credits that may be applied toward the master’s degree is three units. To be applied to the degree, transfer work must have been completed within five years of admission to the master’s program. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC. Credit will only be allowed for courses (1) from an AACSB-accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level, and (4) fitting into the logical program for the degree. Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation.

Duplication of Courses
Ordinarily, courses may not be repeated for credit. For courses that may be repeated for credit, the maximum amount of credit is indicated after the unit value.
Waivers
Subject waiver of required courses may be granted to students based upon prior academic work. All waived courses must be replaced with approved electives.

Students should carefully read their program evaluation form to know what electives must be taken if they are granted subject waivers. To be granted a subject waiver in a particular field, the student must have (1) completed at least two relevant courses in the field at the upper division or graduate level, (2) earned a grade of B or better, and (3) completed the courses no more than five years before entering the master's program at USC from an AACSB accredited business school (or equivalent economics department).

Master of Accounting

The Master of Accounting program (M.Acc.) prepares graduates for careers in public accounting, industry and government. USC’s M.Acc. program is one of the first professional accounting curricula integrating undergraduate and graduate education in the nation. The objectives of the program include developing the sound conceptual, technical, analytical and communication skills that are required to succeed in the accounting profession. The program employs a rigorous case analysis approach that requires students to exercise their analytical abilities and develop effective verbal and written communication skills. The program also seeks to instill a deep appreciation and respect for the crucial role of the independent accountant in our free enterprise economy. This perspective provides the bedrock of the professional attitudes and responsibilities of CPAs today.

In this world of “re-engineering,” the term “public accounting firm” is becoming obsolete. CPA firms now view themselves as “professional service firms.” This dramatically changes the role of the CPA. The profession requires highly visible, articulate business professionals with the ability to interact on many levels within a client’s organization. This requires individuals with diverse backgrounds, making the profession ideally suited for those with accounting, business, liberal arts or sciences undergraduate degrees. Students may apply to the M.Acc. program during their senior year or after completing a baccalaureate degree from an accredited college or university. An undergraduate accounting or business major is not necessary, nor is work experience a requirement.

Accounting Graduates
Accounting graduates and graduates in other disciplines who have demonstrated high academic performance in the completion of the required business and accounting courses should expect to complete their degree in two semesters with a total of 30 units. Of these 30 units, at least 15 units must be in accounting courses and at least 9 units must be in business courses other than accounting.

Further information regarding the waiver policy in the Marshall School of Business may be obtained from USC Leventhal Graduate Programs, Accounting 101, (213) 740-4838, macc.mbt@marshall.usc.edu.

REQUIRED COURSES (9 UNITS)            UNITS
ACCT 547*                      Enterprise Information Systems            3

MOR 569                       Negotiation and Deal-Making, or
BUCO 533                      Managing Communication in Organizations            3

*Can be replaced with a graduate level accounting course if student has successfully completed an equivalent course (determined by the Leventhal School of Accounting Master’s Program office).

**Requirement may be waived and substituted with a non-accounting graduate elective in the Marshall School if student has completed an equivalent undergraduate course with high performance or successfully passed oral and written assessment tests (to be determined by the Leventhal School of Accounting Master’s Program office).
Understanding taxation is critical to understanding every business decision and many personal decisions as well. Whether starting a business or starting a family, tax planning must be done. Because of the complexity of the tax law and its pervasive influence, people facing tax decisions routinely call on tax professionals for advice in planning and structuring their affairs in order to comply with the law and to ensure economic good sense.

The Master of Business Taxation (MBT) program is designed to develop the skills and expertise professionals need to assist individuals and firms trying to cope with myriad tax legislation and regulation at both the federal and local levels. While gaining technical expertise is a central aim of those enrolled in the program, this expertise is not enough. Taxation encompasses law, economics, accounting and politics, and the astute tax adviser must understand all of the factors that influence the making of tax law and its administration. As important as learning the law and mastering research skills is the ability to communicate professional insights to others. The program provides a broad understanding of taxation, an appreciation for the complexities of decision-making and practice in explaining the tax implications of various courses of action.

**Can be replaced with a graduate level accounting course if student has successfully completed an equivalent course (determined by the Leventhal School of Accounting Master's Program office).**

***Requirement may be waived and substituted with a non-accting graduate elective in the Marshall School if student has completed an equivalent undergraduate course with high performance or successfully passed oral and written assessment tests (to be determined by the Leventhal School of Accounting Master's Program office).**

### Intensive Accounting Principles and Practices Course

Each summer the Leventhal School of Accounting offers an eight-week course, ACCT 525x Intensive Accounting Principles and Practices, that provides college graduates without an accounting undergraduate degree with the prerequisite technical accounting knowledge necessary for graduate work. Fifteen semester hours of credit will be received upon successful completion of the course. Second-year MBA students seeking accounting positions will also find this program useful. The technical accounting skills taught in this course may also enhance employability and career advancement for law students and graduate students in non-business areas of study. This course is not designed to be a preparation course or a review course for the CPA Exam. For further information regarding the intensive course, contact the Leventhal School of Accounting at (213) 740-4838.

Non-accounting/non-business graduates should expect to complete their degree with a total of 54 units.

For further information regarding the intensive course, contact the Leventhal School of Accounting at (213) 740-4838.
The MBT program provides an opportunity to examine tax topics thoroughly in an organized, rigorous fashion. Both full- and part-time students examine in depth an area of taxation, such as estate planning or taxation of foreign operations. Tax practice does not provide sufficient opportunities to study all of the areas influenced by taxation, nor does it allow the time to take an in-depth look at one area.

In the MBT program, a student develops an overview of the important areas of tax practice and builds expertise in specific topics.

The career opportunities today in the area of taxation are as great as the need for professional tax advice. The MBT program prepares men and women for major roles in planning and decision-making with firms.

Program Requirements

The program requirements include courses in taxation, accounting and business selected from the four groups of courses listed below. A minimum of 21 units must be in taxation ("T" designated) courses. Waiver of courses in Group I may be granted to students based on prior academic work of high quality from an AACSB International, the Association to Advance Collegiate Schools of Business, an accredited school. Waiver of such courses may reduce the minimum number of units to be taken within the MBT program to 30 units. The courses in Group II are required of all students. The student must choose a total of 15 units from Groups III and IV, with a minimum of 9 units from the courses listed in Group III. The student may choose up to six units from the courses in Group IV or other courses approved in advance by the director of the MBT program.

Progressive degree students earning their B.S., Accounting/Master of Business Taxation must begin the graduate level course work specified in the fall semester. Students should have successfully completed all accounting course work required for a B.S., Accounting prior to the fall semester in which they begin their graduate level requirements. These students will complete the same program requirements as a full-time MBT student with the exception that a maximum of one-third of the course units for the master's degree may overlap with units for the bachelor's degree per departmental approval. For more information on progressive degrees, see page 87.

**Juris Doctor/Master of Business Taxation**

**Dual Degree Program**

The Leventhal School of Accounting, in conjunction with the USC Gould School of Law, offers a program leading to the dual degree of Juris Doctor/Master of Business Taxation (J.D./MBT). This program permits a student to pursue a specialized program in taxation through courses in the Marshall School of Business, the Leventhal School of Accounting and the USC Gould School of Law. The MBT portion of the program leading to the J.D./MBT is 45 units, including 10 units of law school courses that are recognized by the Leventhal School of Accounting toward the J.D./MBT; a maximum of 33-36 units of Marshall School of Business and Leventhal School of Accounting courses are recognized by the law school toward the J.D./MBT. Students must complete 76 law units to satisfy the J.D. portion of the dual degree.

</table>
accounting and business courses listed below in Group I may be waived by the Leventhal School of Accounting if the student has completed substantial academic work of high quality from an International Association for Management Education-accredited school.

The courses in Group II are required of all J.D./MBT students. Students must choose a minimum of six units from Group III courses and a minimum of 12 units from Group IV courses. In addition, a student may choose three elective units from Group V courses or another course approved in advance by the director of the MBT program.

First Year
Required USC Gould School of Law courses (33 units)

Second, Third and Fourth Years
Forty-three units of law courses, including the law courses listed below, and 33-36 units of Marshall School of Business and Leventhal School of Accounting courses as follows:

Courses of Instruction

ACCOUNTING (ACCT)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

ACCT 370 External Financial Reporting Issues (4) Understanding of decision-making, problem solving, and research skills as a supplement to financial accounting knowledge for accounting professionals. (Duplicates credit in former ACCT 370ab.) Prerequisite: BUAD 250b or BUAD 281 or BUAD 305.

ACCT 371ab Introduction to Accounting Systems (2-2, FaSp) a: Understanding of technology used to support accounting professionals in financial and managerial accounting, auditing, and taxation. (Duplicates credit in former ACCT 362.) Prerequisite: BUAD 250b or BUAD 281 or BUAD 305. b: Understanding the fundamental processes that capture the corporate data and the controls needed to assure that these processes will operate in an acceptable manner. (Duplicates credit in former ACCT 361.) Prerequisite: ACCT 371a.

ACCT 372 Internal Reporting Issues (2, FaSp) Understanding of decision-making, problem solving, and research skills as a supplement to managerial accounting knowledge for accounting professionals. (Duplicates credit in former ACCT 361.) Prerequisite: BUAD 250b or BUAD 281 or BUAD 305.

ACCT 385 Professional Responsibilities in Accounting | 3
BUCO 533 Managing Communication in Organizations | 3
FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms | 3
FBE 555 Investment Analysis and Portfolio Management | 3
FBE 588 Advanced Real Estate Law | 3
FBE 589 Mortgages and Mortgage-Backed Securities and Markets | 3
FBE 591 Real Estate Finance and Investment | 3
MOR 542 Strategic Issues for Global Business | 3

Course Duplication and Prerequisites
Credit in a law course precludes credit in the corresponding business course, and credit in a business course precludes credit in the corresponding law course.

In addition, where credit in one program’s course precludes credit in the other program’s corresponding course, the course in which credit is received will be deemed to have met the prerequisite for all subsequent courses in either school.

Corresponding Courses
ACCT 561T and LAW 644
ACCT 551T and LAW 842

Note: LAW 600 Taxation must be taken in place of ACCT 560T to meet the J.D./MBT requirement. LAW 644 Corporate Tax may be taken in place of ACCT 561T to meet the MBT course requirements.
ACCT 373 Introduction to Auditing and Assurance Services (2, FaSp) Exploration of the requisite skills and knowledge needed to offer services in assurance, attestation or auditing engagements. (Duplicates credit in former ACCT 456.) Prerequisite: ACCT 370, ACCT 371a.

ACCT 374 Introduction to Tax Issues (2, FaSp) Basic tax principles, introduction to U.S. federal, state and local tax systems, income and expense definitions, property transactions, and fundamentals of individual taxation. (Duplicates credit in former ACCT 451.) Prerequisite: BUAD 250b or BUAD 281 or BUAD 305.

ACCT 390 Special Problems (1-4, FaSpSm) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ACCT 410x Foundations of Accounting (4, FaSpSm) Non-technical presentation of accounting for users of accounting information; introduction to financial and managerial accounting. Not open to students with course credits in accounting. Not available for unit or course credit toward a degree in Accounting or Business Administration.

ACCT 415x Intermediate Financial Accounting for Non-Majors (4, FaSp) In-depth study of balance sheet, income statement, and cash flow statement issued from the perspective of a user (not preparer) of corporate financial reports. Not open to accounting majors. Not available for degree credit to accounting majors. (Duplicates credit in former ACCT 411x and ACCT 412x.) Prerequisite: ACCT 410x or BUAD 250b or BUAD 281 or BUAD 305.

ACCT 416 Financial Reporting and Analysis (2, FaSp) Examination of the role of financial statement analysis in the prediction of a firm’s future financial performance. Prerequisite: BUAD 215 or BUAD 306; ACCT 370 or ACCT 415.

ACCT 417 Advanced Financial Accounting for Non-Majors (2, FaSp) Developing capabilities to identify, articulate and interpret financial statements reflecting complex merger and acquisition activities, with a focus on financial analysis and investment banking. Not available for degree credit to accounting majors. Not open to accounting majors. Prerequisite: BUAD 215x or BUAD 306; ACCT 370 or ACCT 415x.

ACCT 418x Accounting for Management Decisions (2, FaSp) Understanding of decision-making uses of accounting information: cost systems, planning and budgeting, and measuring and rewarding performance. Not available for credit to accounting or business majors. Open to accounting minors only. Prerequisite: ACCT 410x.

ACCT 419x Understanding Accounting Information Systems (2, FaSp) Understanding of accounting systems focusing on how these systems are designed, selected, implemented, used and managed. Not available for credit to accounting or business majors. Open to accounting minors only. Prerequisite: ACCT 410x.

ACCT 420x Understanding Income Tax (2, Sp) Understanding of the U.S. federal income tax system. Topics include income and expense definitions, property transactions and tax computation for individuals and business entities. Not available for credit to accounting majors. Open to accounting minors only. Prerequisite: ACCT 410x.

ACCT 430 Accounting Ethics (4, FaSp) Theoretical knowledge and practical application accountants need to identify ethical issues and reconcile conflicts among competing stakeholders’ interests in all major areas of accounting practice.

ACCT 462 Detecting Fraudulent Financial Reporting (2, FaSp) Understanding/identifying methods of fraudulent financial reporting, and signals that financial statements were fictitiously prepared; major frameworks for analyzing ethical dilemmas; reforms in corporate reporting environment. Prerequisite: ACCT 370 or ACCT 415x.

ACCT 463 Internal Audit (2, FaSp) Examination of internal audit/auditors and their relationship to management, the investors, the regulators, and the external auditors. Prerequisite: ACCT 370, ACCT 373.

ACCT 470ab Advanced External Financial Reporting Issues (2-2, FaSp) a: Developing capabilities to identify and articulate current external financial reporting problems and issues, concentrating on operating, financing and investing activities of business organizations. (Duplicates credit in former ACCT 450ab.) Prerequisite: ACCT 370. b: Continuation in developing capabilities to identify and articulate current external financial reporting problems and issues, concentrating on operating, financing and investing activities of business organizations. (Duplicates credit in former ACCT 450b.) Prerequisite: ACCT 470a.

ACCT 471 Accounting Information Systems (2, FaSp) Issues related to the design, control, and implementation of accounting information systems. Prerequisite: ACCT 371b.

ACCT 472 Managerial Accounting (2, FaSp) Understanding of systems providing cost information useful in management decision-making and problem solving. Prerequisite: ACCT 372.

ACCT 473 Financial Statement Auditing (2, FaSp) Course builds on the background developed in ACCT 373, specifically the process used by external auditors to conduct financial statement audits. (Duplicates credit in former ACCT 456.) Prerequisite: ACCT 371b, ACCT 373.

ACCT 474 Tax Issues for Business (2, FaSp) Capabilities to identify and articulate tax issues related to a business entity’s life: formation, investing, financing and operations, and change of form. (Duplicates credit in former ACCT 451.) Prerequisite: ACCT 374.

ACCT 475 Systems Security and Audit (2) Issues related to the security, control, and auditing of accounting information systems. (Duplicates credit in former ACCT 471b.) Prerequisite: ACCT 371b.

ACCT 476 Performance Measurement Issues (2, FaSp) Introduction to understanding how management control systems can enhance achievement of the organization’s objectives and strategies. (Duplicates credit in former ACCT 472b.) Prerequisite: ACCT 410x or BUAD 250b or BUAD 281 or BUAD 305.

ACCT 477 Accounting Systems Design (4, FaSp) Explores the design of accounting systems. Introduction to tools and techniques for analyzing and designing accounting systems with an emphasis on system controls and reporting. (Duplicates credit in former ACCT 453.) Prerequisite: ACCT 371b.

ACCT 479 Accounting Systems Development (4, FaSp) Examines the fundamentals of accounting systems development. Introduction to the concepts of implementation and support, with emphasis on system quality assurance, evaluation and attestation. (Duplicates credit in former ACCT 454.) Prerequisite: ACCT 478.

ACCT 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

ACCT 499 Special Topics (2-4, max 8, Irregular) Examination of current literature relevant to the total and changing environment in which business operates.
ACCT 509 Concepts of Financial and Management Accounting (4, Fa) Introduction to the concepts of financial and managerial accounting. The course will provide coverage of key concepts needed by managers of businesses in order to communicate information important in decision-making. (Duplicates credit in GSBA 510, GSBA 518, GSBA 536.) Not open to business majors.

ACCT 525x Intensive Accounting Principles and Practices (15, Sm) Technical accounting theory and principles necessary for graduate work. Satisfies the prerequisite requirements for intermediate and advanced accounting, auditing, and tax. Credit toward degree limited to M.Acc. and MBT students. Recommended preparation: introductory accounting courses.

ACCT 530 Ethics for Professional Accountants (3, Sp) Provides the ethical grounding that accountants need to identify ethical issues and reconcile conflicts among competing stakeholder interests. Open only to graduate accounting students.

ACCT 535 Management Accounting and Control Systems (3, Fa) Decision-making, uses of management accounting information; cost system design; financial responsibility centers; planning and budgeting systems; performance measures and evaluation. Not open to MBA students. (Duplicates credit in GSBA 518.) Prerequisite: GSBA 510.

ACCT 536 Advanced Cost Analysis and Management Accounting (3, Sm) Analysis and design of systems that provide cost information useful in making strategic and operating decisions. Advantages and limitations of activity-based costing methods. Prerequisite: GSBA 518 or ACCT 535.

ACCT 543 Introduction to Tax (3) Tax issues arising during a business’ life, including formation, financing, operating, expanding, and dissolving. Cross-border transactions and non-U.S. tax systems discussed.

ACCT 546 Auditing and Assurance Services (3, FaSpSm) Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information. Topics include demand and supply issues for these services, basic principles of evidence, risk assessment and testing. Open only to graduate business and accounting students. Recommended preparation: ACCT 525x.

ACCT 547 Enterprise Information Systems (3, Fa) Focuses on accounting enterprise database models and information technology required to support those systems. Includes analysis and design of interfunctional process flows through reengineering to exploit technology capabilities. Open only to graduate Accounting and Business students.

ACCT 548 Enterprise Systems: Design, Implementation, Security and Audit (3, Sp) Exploration of a number of areas including the role systems play in organizations, the technology that supports these systems and issues relating to technology risk, system/ application security and system review/audit. Prerequisite: ACCT 547 or ACCT 371b.

ACCT 550T Tax Research and Professional Responsibilities (3, Fa) Tax law research methods; interpreting statutes, cases and rulings; communicating research results; administration and professional responsibilities of tax practice. Open only to graduate business and accounting students. Recommended preparation: introductory tax course.

ACCT 551T Taxation of Partnerships and S-Corps (3, Fa) Federal taxation of flow-through entities, including: partnerships, S corporations, limited liability partnerships (LLPs) and limited liability companies (LLCs). Open only to Accounting, Business Taxation, and Law/Business Taxation students. Recommended preparation: ACCT 550T or ACCT 560T or LAW 600.

ACCT 552 Knowledge and Data Management (3, Sp) Managing knowledge using knowledge-based systems and contemporary knowledge management approaches (intranets) in order to enhance and facilitate decision making and manage accounting data and information in organizations. Recommended preparation: ACCT 547.

ACCT 553T Tax Policy and Strategic Tax Planning (3) Introduction to business taxes and their impact on management decisions. For prospective managers and business consultants, topics include discounted cash flow, financial accounting, and overall business impacts of taxes on decision making. Recommended preparation: GSBA 518.

ACCT 555 Enterprise Resource Planning Systems (2, FaSp) Focuses on many facets of enterprise resource planning systems, such as SAP, including implementation approaches, risks, reengineering, data models and other emerging issues. Concurrent enrollment: ITP 555; recommended preparation: ACCT 547 or ACCT 549.

ACCT 557 Advanced Financial Statement Auditing Topics (3, Sp) Advanced coverage of topics in financial statement auditing including market effects of auditing, auditor litigation and client acceptance, errors and fraud, analytical procedures, and going-concern assessment. Prerequisite: ACCT 525x.

ACCT 559 Strategy and Operations Through CFO Lens (3, Sp) Examination of strategic objectives and operations within specific industries and companies. Chief Financial Officers present how they view the business as a whole and measure performance effectively. Open only to accounting and business majors.

ACCT 560T Tax Theory and Ethics (3, FaSpSm) Taxation and its relationship to business and investment decisions; the effects of taxation on business organization, capital structure, policies, operation, and expansion. Recommended preparation: introductory tax course. Open only to graduate business and accounting students.

ACCT 561T Income Tax of Corporations and Their Shareholders (3, FaSm) Concepts and principles governing the taxation of corporations and their shareholders; the effect of taxes on corporate formation, capital structure, distributions, and liquidations. Open only to Accounting, Business Taxation and Law/Business Taxation students. Recommended preparation: ACCT 550T or ACCT 560T or LAW 600.

ACCT 562 Methods and Motivations of Financial Reporting Fraud (1.5, Sp) Discover and analyze signals of major and frequently committed methods of fraudulent financial reporting; explore current reforms in financial reporting, auditing, and corporate governance. Open only to graduate accounting students. Recommended preparation: graduate-level financial accounting course.
ACCT 563T Federal Estate and Gift Taxes (3, Sp) Taxation of decedents’ estates and lifetime gifts; valuation of property subject to estate and gift taxes. Prerequisite: ACCT 550T; ACCT 560T or LAW 600.

ACCT 567T Taxation of Transactions in Property (3, Fa) Taxation of gains and losses from sales, exchanges and other transactions involving property, especially real estate; tax planning. Prerequisite: ACCT 550T; ACCT 560T or LAW 600.

ACCT 568T Taxation of Foreign Business Operations (3, Sp) Taxation of foreign income of U.S. citizens and corporations and of U.S. source income of foreign persons and corporations; planning for organization of foreign operations under the tax laws. Prerequisite: ACCT 561T.

ACCT 569T Advanced Partnership Taxation (3, Sp) Advanced tax concepts involving partnerships and limited liability companies, designed to produce a level of expertise in Subchapter K of the Internal Revenue Code. Prerequisite: ACCT 551T.

ACCT 570T State and Local Tax Concepts (3) State income taxes; property tax; other state and local taxes; the effect of state and local taxes on multistate operations. Prerequisite: ACCT 550T; ACCT 560T or LAW 600.

ACCT 571T Taxation of Individuals (3, Sp) Application of tax law in areas of compensation planning, investment planning, tax shelters, and current developments relating to the individual taxpayer. Prerequisite: ACCT 550T; ACCT 560T or LAW 600.

ACCT 572 Corporate Accounting and Reporting (3, FaSpSm) A study of financial reporting and disclosure issues with an emphasis on the use of corporate financial statements and their accompanying footnotes. Not open to students with credit in equivalent subjects. Prerequisite: GSBA 510.

ACCT 573T Federal Tax Procedure (3, Sm) Tax reporting and collection procedures; administrative and judicial procedures governing tax controversies; the rights and obligations of the taxpayer. Prerequisite: ACCT 550T; ACCT 560T or LAW 600.

ACCT 574 Accounting in the Global Business Environment (3, Fa) Study of national and international accounting and business issues; global capital market changes; international accounting and business topics; cases and studies of specific business entities and countries. Prerequisite: GSBA 510 or GSBA 518 or GSBA 536.

ACCT 575T Taxation of Financial Markets (3, Sm) Taxation of financial market products with focus on derivative products. Basics of tax forwards, futures, options, swaps, collars and floor. Time value of money considerations. Prerequisite: ACCT 561T.

ACCT 576T Tax Consolidations (3, Sp) Concepts and principles of taxation of companies operating as consolidated groups. Prerequisite: ACCT 550T and ACCT 561T.

ACCT 577T Compensation (3) Concepts of taxation of employers and employees from various forms of compensation, including pension plans, profit sharing plans, stock ownership plans, and deferred compensation arrangements. Prerequisite: ACCT 550T and ACCT 560T.

ACCT 578T Advanced Corporate Taxation (3, FaSp) Analysis of corporate divisions and reorganizations, carryovers, and other advanced topics in corporate taxation. Prerequisite: ACCT 561T.

ACCT 579T Advanced International Taxation (3) Analysis of tax treaties, foreign currency transactions, international licensing, reorganization of foreign corporations, and other current topics as the law changes. Prerequisite: ACCT 568T.

ACCT 581 Financial Statement Analysis (3, SpSm) Analysis of corporate financial reports from a decision-maker’s perspective. This course is case-and-applications-oriented. Applications include credit analysis, equity valuation, and financial distress. Prerequisite: GSBA 510.

ACCT 582 Accounting for Mergers and Acquisitions (3, Fa) Theoretical and practical problems in accounting for business combinations: purchase and pooling-of-interests accounting; consolidated financial statements; income tax considerations; International Accounting Standards. Prerequisite: GSBA 510.

ACCT 583 Income Tax Accounting and Auditing (3, FaSpSm) Examination of FAS 109 and roles of auditors, tax professionals and corporate financial personnel in preparing, analyzing and reviewing accrual of income taxes. Open only to graduate business and accounting students. Recommended preparation: equivalent of intermediate accounting and introductory tax course.

ACCT 584 Family Wealth Preservation (3, Sp) Analysis of transfer of property during lifetime or at death from a tax saving perspective.

ACCT 585 Professional Responsibilities in Accounting (3, Fa) A case study approach to the integration of accounting and auditing knowledge; research, communication, and interpersonal skills developed through extensive written and presentation requirements. Open only to graduate business and accounting students. Recommended preparation: ACCT 572.

ACCT 586 Financial Reporting Topics and Analysis for Tax Professionals (3, Sm) Explores the technical financial accounting skills needed for an entry-level tax professional with emphasis on an understanding of financial statements and accounting for income taxes. Exposure to the preparation of corporate tax returns with the integration to the financial reporting of a corporation. Recommended preparation: undergraduate financial accounting or accounting class for lawyers.

ACCT 587 Forensic Accounting (3) Role of the accountant in litigation matters. Identification and exploration of the analytical and communication tools necessary to be an effective forensic accountant. Prerequisite: ACCT 572.

ACCT 590 Directed Research (1-4) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the School of Accounting. Maximum units which may be applied to the degree to be determined by the school. Graded CR/NC.

ACCT 592 Field Research in Accounting (.5-4, max 12) Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to master’s and doctoral students. Graded CR/NC. Recommended preparation: completion of M.Acc. or MBT course work.
ACCT 593 Independent Research in Accounting (.5-4, max 12, FaSpSm) Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to master’s and doctoral students. Graded CR/NC.

ACCT 595 Internship in Accounting (.5-2, max 9) Supervised on-the-job business experience in the field of Accounting. (Curricular Practical Training). Open only to master’s students in Accounting, Business Research, Business Taxation and Law/Business Taxation. Graded CR/NC. Recommended preparation: Completion of required M.Acc. or MBT course work.

ACCT 596 Research Practicum in Accounting (.5-2, max 8, FaSpSm) Hands-on practical experience working with a Leventhal faculty member on an ongoing research project. Open only to master’s and doctoral students. Graded CR/NC.

ACCT 597 Consulting Project in Accounting (.5-5, max 12, FaSp) Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Graded CR/NC.

ACCT 599 Special Topics (1, 1.5, 2, or 3, max 6, FaSpSm) Examination of current literature and research techniques in contemporary accounting areas including tax, auditing and international accounting.

ACCT 602 Survey of Judgment and Decision-Making Research in Accounting (3) Survey of major topics in judgment and decision-making research in accounting with coverage of both key research questions and frequently used methods.

ACCT 604 Survey of Management Accounting Research (3) Survey of major topics in accounting research with coverage of both key research questions and frequently used methods.

ACCT 605 Survey of Financial Reporting Research (3, Fa) Survey of major topics and methods in research on financial reporting with coverage of both key research questions and frequently used methods. Open only to business administration doctoral students.

ACCT 606 Survey of Tax Research (3) Survey of major topics and methods in research on taxation with coverage of both key research questions and frequently used methods.

ACCT 608 Positive Accounting Research (3) Survey of major topics related to positive accounting research with coverage of both key research questions and frequently used methods.

ACCT 610 Survey of Accounting Research (3, FaSp) Advanced seminar that surveys both seminal and cutting edge research in financial accounting, managerial accounting, accounting information systems, and tax accounting.

ACCT 611 Selected Topics in Accounting Research (1, max 4, FaSp) Advanced seminar to address issues/topics covered in accounting research forums presented by USC and visiting faculty.

ACCT 661ab Accounting Research Methodology (2-2) Advanced doctoral seminar concerned with review and critique of accounting research forum papers and with the preparation, presentation, and defense of research proposals and papers.
The USC School of Cinematic Arts (SCA) is one of the nation’s preeminent centers for the creation, study, research and development of film, television and interactive media. With a new 137,000 square-foot main complex, the school confers degrees ranging from the bachelor’s to the doctorate. The SCA is composed of six divisions: John C. Hench Animation and Digital Arts, Critical Studies, Film and Television Production, Interactive Media, Peter Stark Producing, and Writing, in addition to the interdivisional Media Arts and Practice Ph.D. The school also has two organized research units – the Institute for Multimedia Literacy and the Entertainment Technology Center.

Since its founding in 1929 as the first course of study in film at any college or university in the United States, USC’s cinema program has consistently set the academic and professional standards for excellence. Besides offering the first undergraduate and doctoral degree programs in the field, the school has established a record-breaking number of endowed chairs in the discipline; created production facilities that rival or exceed industry counterparts; and gathered extraordinary faculty and staff who impart their guidance, skills and knowledge as they work one-on-one with students.

Thanks to its location in the heart of Los Angeles, SCA students have access to the country’s leading film, television, animation and interactive gaming producers; world-class literary and talent agencies; libraries and archives brimming with research materials; and a vast alumni community that actively supports the school and the men and women in its academic body. The school is also home to USC’s Trojan Vision television station, which reaches nearly two million households.

Perhaps the school’s most important attribute, however, is its time-tested philosophy that recognizes a student can only truly excel in his or her chosen area of expertise after exposure to all elements of the art form. Consequently, there is an emphasis on cross-disciplinary course work that ensures writers get behind the camera; critical studies scholars edit footage; and production majors examine the canon of work from a rigorous academic perspective.

Alma and Alfred Hitchcock Chair for the Study of American Film: Drew Casper, Ph.D.

Stephen K. Nenno Endowed Chair in Television Studies: Ellen Seiter, Ph.D.

Jack Orie Chair in Comedy: Jack Epps Jr., B.A.

Mary Pickford Foundation Endowed Chair: Doe Mayer, M.A.

The Katherine and Frank Price Endowed Chair for the Study of Race and Popular Culture: Todd Boyd, Ph.D.

Kay Rose Endowed Chair in the Art of Sound and Dialogue Editing: Midge Costin, M.A.

Fran and Ray Stark Endowed Chair for the Study of American Film: Lawrence Turman, B.A.

Ken Wannberg Endowed Chair in Music Editing: Kenneth Hall, M.A.

Dino and Martha De Laurentis Endowed Professorship: Mary Sweeney, M.A.

Presidential Professor of Cinematic Arts: George Lucas, B.A.

Judge Wyden Professor: Robert Zemeckis

Provost Professor of Communication, Journalism, and Cinematic Arts: Henry Jenkins, Ph.D.

Distinguished Professor: Mark J. Harris, B.A.

Associate Professors: Tom Abrams, MFA; Mark Bolas, M.S.; Ted Braun, MFA; Linda Brown, MFA; Midge Costin, M.A.; Pamela Douglas, M.A.; Jack Epps Jr., B.A.; Tracy Fullerton, MFA; Kenneth Hall, M.A.; Helaine Head, B.A.; Aniko Imre, Ph.D; Priya Jaiakumar, Ph.D.; Georgia Jeffries, B.A.; Kara Keeling, Ph.D.; Everett Lewis, MFA; Tára McPherson, Ph.D.; Kathy Smith, B.A.; Sheila M. Sofian, MFA

Assistant Professors: Steven Anderson, Ph.D.; Andreas Kratky, MFA; Laura Isabel Serna, Ph.D.

Visiting Professor: Michael Fink, MFA

Visiting Associate Professor: Michael Patterson, BFA

Professor of Practice (Animation): Tom Sito, BFA

Professor of Practice (Writing): David Balkan, B.A.

Professor of Practice (Production): Jed Dannenbaum, Ph.D.

Associate Professors of Practice (Production): Christopher Chomyn, MFA; Jason Squire, M.A.; Douglas Vaughan, M.A.

Assistant Professor of Practice (Interactive Media): Peter Brinson, MFA

Visiting Assistant Professor of Practice (Production): Peter Sollett, BFA

Associate Professors of Practice: Eric Hanson, B.A.; Michael Uno, MFA

Assistant Professor of Cinema Practice: Virginia Kuhn, Ph.D.

Visiting Assistant Professor: Julia Himberg, Ph.D.

Senior Lecturers/Lecturers: Steve Albrezzi; Robert Ballo; Pablo Frasconi; Robert Gardner; Brenda Goodman; Don Hall; Angelo Pacifici; Earl Rath; Mark Shepherd; Douglas Vaughan; Jennifer Warren; David Weber; Tristan Whitman; Paul Wolff; William Yahrus

Research Professor: Larry Auerbach

Research Associate Professors: Perry Hoberman, B.A.; Richard Weinberg, Ph.D.

Research Assistant Professors: Marientina Gotsis, MFA; Holly Willis, Ph.D.
Degree Programs

The USC School of Cinematic Arts offers professional and academic degree programs at the bachelor’s, master’s and doctoral levels.

**Bachelor of Arts — Animation and Digital Arts**
This program combines a broad liberal arts background with specialization in a prof-
ession. The degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units.

**Bachelor of Arts, Cinematic Arts, Critical Studies**
This degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units.

**Bachelor of Arts, Cinematic Arts, Film and Television Production**
This degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts and requires 128 units.

**Bachelor of Arts — Interactive Entertainment**
The Bachelor of Arts in Interactive Entertain-
ment is granted through the USC Dornsife College of Letters, Arts and Sciences in con-
junction with the School of Cinematic Arts. The degree requires 128 units.

**Bachelor of Fine Arts — Writing for Screen and Television**
This is a unique program designed for stu-
dents who wish to receive intensive training for non-fiction and fiction writing for screen and television. The BFA in Writing for Screen and Television is granted through the School of Cinematic Arts and requires 128 units.

**Bachelor of Science in Business Administration (Cinematic Arts)**
This program offers a unique coupling of the Marshall School of Business and the School of Cinematic Arts in a four-year interdisciplinary degree. In addition to the Marshall School of Business core classes, the students will also take a total of 24 units from the School of Cinematic Arts. This competitive program is offered to freshmen admitted to the Marshall School of Business as Business Scholars. Upon completion of all requirements, students will receive a Bachelor of Science in Business Administration (Cinematic Arts). See the Marshall School of Business (page 146) for course requirements.

**Master of Arts, Cinematic Arts (Critical Studies)**
This degree, with an emphasis in Critical Studies, is granted by the USC Graduate School in conjunction with the School of Cinematic Arts. This program requires 36 units.

**Master of Fine Arts, Cinematic Arts, Film and Television Production**
This professional degree requires 52 units.

**Master of Fine Arts, Writing for Screen and Television**
This program requires 44 units.

**Master of Fine Arts, Animation and Digital Arts**
This program requires 50 units.

**Master of Fine Arts, Interactice Media**
This program requires 50 units.

**Master of Fine Arts, Producing for Film, Television, and New Media**
The Peter Stark Producing Program requires 44 units.

**Doctor of Philosophy, Cinematic Arts (Critical Studies)**
The Ph.D. is based on a program of study and research culminating in the completion of a dissertation in the major field of study. A minimum of 68 semester units (exclusive of dissertation registration) beyond the baccalaureate is required. Applicants who have completed a Bachelor of Arts or Master of Arts degree in Cinematic Arts, or a closely related field, may apply to the Ph.D. program. The doctoral degree is granted by the Graduate School in conjunction with the School of Cinematic Arts.
accept courses taken in film and/or television production at other institutions to fulfill the requirements. Basic film or television history courses can sometimes be accepted for transfer credit.

No transfer credit will be accepted in lieu of CTIN 241, CTPR 242, CTPR 290, CTPR 310, CTPR 376, CTPR 507 and CTPR 508 and any advanced production courses.

No transfer credits are accepted for the Peter Stark producing track, the graduate programs in animation and digital arts, screenwriting and interactive media.

Transfer policy for the Ph.D. requires advisement and approval of the division chair.

Waiver of Course Requirements
Under special circumstances waivers and substitutions are granted; check with the Cinematic Arts Office of Student Affairs. All course waivers and substitutions must be approved by the associate dean of academic affairs.

The following courses cannot be waived for students majoring in Film and Television Production: CTIN 584abcz, CTPR 241, CTPR 290, CTPR 310, CTPR 376, CTPR 480, CTPR 507, CTPR 508, CTPR 546L, CTPR 547L, CTPR 581abcz, CTPR 582abz, CTPR 583, CTPR 586abz, CTPR 587abcz.

Student Advisement
Each program has its own advisement system. Check with the program administrator or the Cinematic Arts Office of Student Affairs. Cinematic Arts student advising counselors are available to answer questions about degree programs, grades, advisement and other matters.

General Requirements

Acceptance of Transfer Units
The School of Cinematic Arts does not accept courses taken in film and/or television production at other institutions to fulfill degree and minor requirements. Basic film or television history courses can sometimes be accepted for transfer credit.

The following courses cannot be waived for students majoring in Film and Television Production: CTIN 584abcz, CTPR 241, CTPR 290, CTPR 310, CTPR 376, CTPR 480, CTPR 507, CTPR 508, CTPR 546L, CTPR 547L, CTPR 581abcz, CTPR 582abz, CTPR 583, CTPR 586abz, CTPR 587abcz.

Student Advisement
Each program has its own advisement system. Check with the program administrator or with the Cinematic Arts Office of Student Affairs. Cinematic Arts student advising counselors are available to answer questions about degree programs, grades, advisement and other matters.
Grade Point Average Requirements
A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses in order to progress to the next course level. Students may attempt to improve a grade lower than a C (2.0) only one time by registering and retaking the specific course. Departmental approval is required in order to retake a School of Cinematic Arts course.

In addition, a minimum grade point average must be achieved to earn all cinematic arts degrees (see the individual program descriptions). For example, undergraduates and graduates must earn a minimum grade of C (2.0) in all required cinematic arts courses. However, graduate students must also achieve a B (3.0) average in all courses required for the degree.

Undergraduate students in the film and television production program who achieve a grade lower than a C (2.0) in CTPR 241, CTPR 242, CTPR 290 (taken concurrently) and CTPR 310, CTPR 376 (taken concurrently) and graduate students in the production program who earn a grade lower than a C (2.0) in CTPR 508 and a no credit (NC) in CTPR 507 may petition to retake the required sequence only once. Permission to retake any prerequisite or core production courses requires prior departmental committee approval.

Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

Policy on Films and Videos Produced by Students
All films, videos and computer disks produced with school equipment or facilities are the property of USC. Any income from distribution of student-produced films, videos and computer disks is used for the benefit of Cinematic Arts students through equipment purchases and so on. Students can purchase copies of their own work.

Tuition and Fees (Estimated)
Students in the School of Cinematic Arts’ graduate programs pay differential tuition (see the Tuition and Fees section for current tuition rates). Undergraduate programs are assessed the university-wide tuition rate with a once-a-semester access fee of $50. In addition, some classes are charged lab fees, as noted in the Schedule of Classes, and insurance fees. The university reserves the right to assess new fees or charges. The rates listed are subject to change without notice by action of the Board of Trustees.

Critical Studies
The Division of Critical Studies of the School of Cinematic Arts offers programs leading to the Bachelor of Arts, Master of Arts and Doctor of Philosophy degrees. This comprehensive curriculum includes courses that analyze the power and responsibility of American and international film and television and new media technologies from formal/aesthetic, historical, economic and ideological perspectives.

Bachelor of Arts

Bachelor of Arts, Cinematic Arts, Critical Studies
The Bachelor of Arts degree in Cinematic Arts, Critical Studies is granted by the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including 28 lower division and 24 upper division units in cinematic arts. A maximum of 40 School of Cinematic Arts upper division units will apply to the B.A. degree. Before graduating, critical studies majors are encouraged to take at least one small non-lecture class that emphasizes student critical writing or research papers. This category may include (but is not limited to): CTCS 402, CTCS 411, CTCS 412, CTCS 414, sections of CTCS 464 or CTCS 469 that require a D clearance, CTCS 494, and CTCS 495.

General Education Requirements
The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing, foreign language and diversity requirements, which together comprise the USC Core. See pages 63 and 250 for more information.

Required Production Courses
Undergraduates admitted to the Critical Studies Program are required to take CTPR 241 Fundamentals of Cinema Technique and CTPR 290 Cinematic Communication. These introductory production courses are taken concurrently during the junior year (see description below).

CTPR 241 is an experiential course dealing with the technical and aesthetic principles of producing, directing, cinematography, editing, sound and the development of ideas through a cinematic vocabulary.
In CTPR 290 each student makes four digital video movies, executing all the creative roles personally, and takes a crew position on a group project. Exploration of personal expression and diverse genres is encouraged, with emphasis on visual and sound patterns, with limited dialogue. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

### Grade Point Average Requirements

A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not satisfy a major requirement.

### Limitations on Enrollment

No more than 40 upper division units can be taken within the major without prior approval from the School of Cinematic Arts.

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

### Curriculum Review

Cinematic arts majors are expected to meet with an academic adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office, SCB 105, (213) 740-8358, for an appointment.

### Master of Arts

The Master of Arts degree in Cinematic Arts with an emphasis in Critical Studies is administered through the Graduate School. Candidates for the degree are subject to the general requirements of the Graduate School (see page 97). Thirty-six units are required at the 400 level or higher, including a comprehensive examination. At least two-thirds of these units must be at the 500 level or higher.

### Graduate Preparation Production Courses

Each graduate student must pass CTPR 507 (4 units) with a grade of C or better. This course provides a basic primer in production considered necessary for graduate studies in critical studies.

CTPR 507 Production I (4 units) introduces the fundamental principles of motion picture production, emphasizing visual and auditory communication. Each student makes several non-dialogue personal projects, serving as a writer, producer, cinematographer, director, sound designer and editor and takes a crew role on a collaborative project. Projects are shot on digital cameras and edited on nonlinear systems. Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees.

### Grade Point Average Requirements

A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not satisfy a major requirement.

### Honors Program

Critical Studies offers an honors track for advanced students. Admission to the honors track is made at the end of the junior year and requires a 3.5 overall GPA. Completion of the honors track is dependent upon successful completion of a designated honors section of CTCS 495 during the senior year. In this course, students will work with faculty in a seminar environment and produce an advanced term paper based on original research and analysis.

### Limitations on Enrollment

No more than 40 upper division units can be taken within the major without prior approval of the Dean, USC Dornsife College of Letters, Arts and Sciences.

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

### Curriculum Review

Cinematic arts majors are expected to meet with an academic adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office, SCB 105, (213) 740-8358, for an appointment.
Comprehensive Examination
As the final requirement for the M.A. degree, the comprehensive examination will be taken in the final spring semester of course work. There is no thesis option. The examination will consist of written responses to three questions selected from a list of fields, the appropriate fields chosen with the guidance of a faculty adviser.

If the student has completed all course work and is only taking the comprehensive examination, he or she must register in GRSC 810 Studies for Master’s Examination.

Grade Point Average Requirements
A grade point average of 3.0 must be maintained in all graduate level course work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Time Limit
Although students are normally expected to complete the degree in two years, the degree must be completed within five years of the beginning of graduate work at USC.

Curriculum Review
At the beginning of their matriculation, and each semester thereafter, each M.A. candidate will confer with a designated faculty adviser who will monitor the student’s progress.

Doctor of Philosophy

Doctor of Philosophy in Cinematic Arts (Critical Studies)
The degree of Doctor of Philosophy with an emphasis in Critical Studies is administered through the Graduate School. The Ph.D. program is tailored to the individual student’s particular needs and interests. The overall course of study will be designed by the student, the student’s designated adviser and, following the screening procedure, the student’s guidance committee chair (see Screening Procedure under Graduate Preparation Production Courses).

Admission
A bachelor’s or master’s degree in cinematic arts, or a closely related field, is required for admission to the Ph.D. program. Applicants with only a bachelor’s degree must successfully fulfill all of the USC Critical Studies M.A. degree requirements as part of the degree program (see Screening Procedure).

Course Requirements
Each Ph.D. candidate must complete 68 units beyond the bachelor’s degree, 43 of which must be at the 500 level or higher. (Up to 30 units may be transferred from graduate work completed at other institutions.) Dissertation units are not counted toward the 68-unit total. The required units will include 7 to 12 courses in cinematic arts and 8 to 16 units in the minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field which supports the student’s dissertation topic. Each student must complete the following course work toward the 68 unit total:

(1) CTCS 500, CTCS 506, CTCS 510, CTCS 587, CTPR 507. These courses should be taken before the screening procedure.

(2) Two of the following: CTCS 673, CTCS 677, CTCS 678, CTCS 679, CTCS 688. These courses should be taken before the qualifying examination.

Graduate Preparation Production Course
Each candidate for the Ph.D. must complete CTPR 507 (4 units) with a grade of C or better. If the student enters the program with a master’s degree in cinematic arts and possesses production experience, the student may request a waiver of this requirement. The waiver requires passing a written examination and submission of films/videos to the production faculty for review.

CTPR 507 Production I (4 units) is designed to introduce the fundamental principles of motion picture production. The course also introduces students to visual and auditory communication and individual filmmaking. Each student makes several non-dialogue personal projects, serving as writer, producer, director, cinematographer, sound designer and editor and takes a crew role on a collaborative project. Projects are shot on digital cameras and edited on non-linear systems. Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees. This course should be taken before the beginning of the screening procedure.

Screening Procedure
The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student’s studies as a prerequisite to continuation in the doctoral program. This procedure is designed to review the student’s suitability for continuing in the chosen Ph.D. program. The School of Cinematic Arts has determined that this procedure will occur no later than the end of the student’s third semester of graduate course work at USC beyond the master’s degree. The screening procedure process will include the following steps:

(1) If the faculty has determined during the admissions process that a comprehensive examination will be required as part of the screening procedure, an examination will be administered as appropriate. If the examination is passed to the faculty’s satisfaction, the student may proceed to the next step in the screening procedure process. If the student fails to pass the examination, the faculty will determine if the student will be allowed to retake the examination the following semester before proceeding to the next step in the screening procedure process.

(2) The student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. If approved to continue, a guidance committee chair will be selected by the student, with the approval of the faculty, who will serve as the student’s adviser. It is strongly recommended that full-time study be pursued following the successful completion of the screening procedure.

Guidance Committee
Following a successful screening procedure, the student, in consultation with the guidance committee chair and the Critical Studies faculty, will formally establish a five-member guidance committee. The composition of the guidance committee will be as specified by the Graduate School (see page 102). For the Ph.D. in Cinematic Arts (Critical Studies), the committee is ordinarily composed of four Critical Studies faculty members and an outside member from the candidate’s minor area.

Foreign Language Requirement
The Critical Studies faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student’s dissertation topic. The requirement must be met at least 60 days before the qualifying examination.
Dissertation Proposal Presentation
Working closely with the guidance committee chair, the student will prepare to present his or her dissertation proposal to the full faculty. This will be a formal written proposal which will include a statement of the proposed topic, four fields for examination derived from the general dissertation topic area (including a field from the minor area), a detailed bibliography, and an appropriate and comprehensive screening list of film/television titles. Formal presentation of the dissertation proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The guidance committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete the Request to Take the Ph.D. Qualifying Examination form available from the program coordinator.

Qualifying Examinations
Written and oral examinations for the Ph.D. are given twice a year, in November and April. Questions for the written portion of the examination will be drafted by members of the guidance committee who will also grade the examination. The qualifying examination comprises four examinations administered one each day for four days during a five-day period.

The oral examination will be scheduled within 30 days after the written examination. All guidance committee members must be present for the oral portion of the qualifying examination.

Admission to Candidacy
A student is eligible for admission to candidacy for the Ph.D. degree after: (1) passing the screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable; (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Graduate School.

Dissertation Committee
The dissertation committee is composed as specified by regulations of the Graduate School (see page 103). A dissertation based on original investigation and showing technical mastery of a special field, capacity for research and scholarly ability must be submitted.

CTCS 794
Registration for dissertation units, CTCS 794 (a and b), in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied toward the required 68 unit total. The student must register for CTCS 794 each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in CTCS 794.

Defense of Dissertation
An oral defense of the dissertation is required of each Ph.D. candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

Policies
The following policies apply to each student admitted to the Ph.D. program.

Residency Requirements
At least one year of full-time graduate study (24 units excluding registration for CTCS 794) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

Grade Point Average
An overall GPA of 3.0 is required for all graduate work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Time Limits
The maximum time limit for completing all requirements for the Ph.D. degree is eight years from the first course at USC applied toward the degree. Students who have completed an applicable master’s degree at USC or elsewhere within five years from the proposed enrollment in a Ph.D. program must complete the Ph.D. in six years. Extension of these time limits will be made only for compelling reasons upon petition by the student. When petitions are granted, students will be required to make additional CTCS 794 registrations. Course work more than 10 years old is automatically invalidated and cannot be applied toward the degree.

Leaves of Absence
A leave of absence may be granted under exceptional circumstances by petitioning the semester before the leave is to be taken. Refer to “Leave of Absence” in the Graduate and Professional Education section, page 89.

Changes of Committee
Changes in either the guidance or dissertation committee must be requested on a form available from the Graduate School Website.

Completion of All Requirements
Everything involved in approving the dissertation must be completed at least one week before graduation. Approval by the dissertation committee, the Office of Academic Records and Registrar, and the thesis editor must be reported and submitted to the Graduate School by the date of graduation.

Film and Television Production
The Division of Film and Television Production of the School of Cinematic Arts offers programs leading to the Bachelor of Arts and the Master of Fine Arts degrees.

The primary goals of the degree programs in film and television production are to develop the student’s ability to express original ideas on film or video and to instill a thorough understanding of the technical and aesthetic aspects of motion pictures and television.

Courses in production provide individual and group filmmaking experiences and the opportunity to learn all aspects of filmmaking in a collaborative environment.
Bachelor of Arts

The Bachelor of Arts in Cinematic Arts, Film and Television Production is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within a framework which combines a broad liberal arts background with specialization in a profession. Bachelor of Arts students are enrolled in the USC Dornsife College of Letters, Arts and Sciences, where they take their pre-professional courses, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units including 22 lower division units and 24 upper division units in Cinematic Arts. A maximum of 40 School of Cinematic Arts upper division units will apply to the B.A. degree.

Applicants must submit a supplemental application and materials to the Undergraduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-2911 or online at cinematic.usc.edu.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires 6 courses in different categories, plus writing, foreign language and diversity requirements, which together comprise the USC Core. See pages 63 and 250 for more information.

Production Sequence

Undergraduates admitted to the Film and Television Production Program are required to take CTPR 241 Fundamentals of Cinema Technique, CTPR 242 Fundamentals of Cinematic Sound and CTPR 290 Cinematic Communication. CTPR 241, CTPR 242 and CTPR 290 are introductory production courses taken either in the second semester of the sophomore year or the first semester of the junior year after a student has completed the minimum required units and requirements toward his or her USC degree. CTWR 413 Writing the Short Script I is taken concurrently with CTPR 241, CTPR 242 and CTPR 290, and these four courses are prerequisites for the next production sequence, CTPR 310 and CTPR 376.

CTPR 241 is an experiential course dealing with the technical and aesthetic principles of producing, directing, cinematography, editing, sound and the development of ideas through a cinematic vocabulary.

CTPR 242 introduces cinematic sound design, recording, editing, mixing and finishing through lectures, demonstrations and exercises.

In CTPR 290 each student makes four digital video movies, executing all the creative roles personally, and takes a crew position on a group project. Exploration of personal expression and diverse genres is encouraged, with emphasis on visual and sound patterns, with limited dialogue. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

CTPR 310 Intermediate Film Production and CTPR 376 Intermediate Cinematography is the second required production sequence. These courses are also taken concurrently. In these workshops students work in teams of two, learning to collaborate and explore the expressive potential of sound and image through the production of two 16mm films. Both are non-dialogue projects. Each student directs and prepares the soundtrack for the project he or she has written and is cinematographer and editor for his or her partner's project. Most equipment and materials are provided by the school. However, approximately $2,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

To qualify for enrollment in CTPR 310 and CTPR 376, students must fulfill all requirements outlined in the CTPR 310/376 guidelines distributed in CTPR 242.

CTPR 310 and CTPR 376 are interrelated courses that cannot be taken separately. Therefore, should a student fail to achieve a minimum grade of C (2.0) in either CTPR 310 or CTPR 376 (see the section on grade requirements) both courses must be retaken the subsequent semester.

Following CTPR 310 and CTPR 376, students must take one of the following courses: CTAN 448; CTPR 480; CTPR 484; CTPR 486.

CTAN 448 Introduction to Film Graphics – Animation is a practical course in concepts, media and techniques related to the graphic film.

In CTPR 480 Production Workshop I (prerequisites: CTPR 310, CTPR 376) production students form crews of eight to 10 persons to produce a synchronous sound project in one semester. Each student is responsible for a specific aspect of the production: director, line producer, assistant director, cinematographer, editor or sound.

Film/video stock, processing, equipment and facilities are provided by the school. There are extra personal expenses associated with all production workshops.

The selection of scripts and directors for the advanced production workshop (CTPR 480) is made by the production faculty. Note: To qualify to direct an advanced production workshop, a student must complete CTPR 480 (non-directing position) and take a specified directing class.

CTPR 484 Advanced Multi-Camera Television Workshop is a class in which students will produce a half-hour situation comedy pilot in one semester.

CTPR 486 Single Camera Television Dramatic Series (recommended preparation: CTPR 479) is a class in which students collaborate on the production and post-production of an original episodic drama, 44 minutes in length, that is shot on original sets.

CTPR 241, CTPR 242, CTPR 290, CTPR 310, CTPR 376, CTPR 480, CTPR 484 and CTPR 486 cannot be waived or substituted with another course or transfer credit under any circumstances.

CTWR 414 The Screenplay 2

*Note that enrollment in CTPR 310/CTPR 376 requires meeting specific guidelines.

and a choice of:
CTPR 371 Directing for Television, or
CTPR 475 Directing: Mise-en-Scene (Prerequisite: CTPR 310 and CTPR 376) 4

One of the following courses is required:
CTCS 367 Global Television and Media 4
CTCS 392 History of the American Film, 1925-1950 4
CTCS 393 History of the American Film, 1946-1975 4
CTCS 394 History of the American Film, 1977-Present 4
CTCS 400 Non-Fiction Film and Television 4
CTCS 402 Practicum in Film/Television Criticism 4
CTCS 403 Studies in National and Regional Media 4
CTCS 404 Television Criticism and Theory 4

One of the following courses is required subsequent to completing CTPR 310/376:
CTAN 448 Introduction to Film and TV Studies 4
CTPR 480 Production Workshop I (narrative or documentary or video) 4
CTPR 484 Advanced Multi-Camera Television Workshop 4
CTPR 486 Single Camera Television Drama 4

Grade Point Average Requirements
A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTPR 241, CTPR 242, CTPR 290, CTPR 310 and CTPR 376 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment
No more than 40 upper-division units can be taken in the major without approval of the Dean, USC Dornsife College.

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval of the School of Cinematic Arts.

Curriculum Review
Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Student Affairs Office (Carson Television Center, Garden Level G-130), (213) 740-8358, for an appointment.

Master of Fine Arts

The Master of Fine Arts, Cinematic Arts, Film and Television Production, requires a minimum of 52 units in cinematic arts at the 400 or 500 level. A thesis is not required for the MFA degree.

Applications for the graduate production program are accepted for both fall and spring semesters. See a current Graduate Study Application for deadlines. Applicants must submit supplemental applications and materials to the Graduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-2911 or online at cinemausc.edu.

Graduate First Year Production Courses
CTPR 507 Production I (4 units), which brings together students from other School of Cinematic Arts divisions, introduces the fundamental principles of motion picture production, emphasizing visual and auditory communication. Projects are shot using digital cameras and edited on non-linear systems.

CTPR 508 Production II (6 units), students produce short films in small crews. The primary goal is to communicate effectively through sound/image relationships. Most equipment and materials are provided by the school, but approximately $2,000 should be budgeted for miscellaneous expenses, lab and insurance fees. CTPR 508 is taken in the second semester with CTPR 509 Concepts of Cinematic Post Production – Editing and Sound and CTWR 529 Intermediate Screenwriting.

A minimum grade of C (2.0) in CTPR 507 and CTPR 508 is required in order to continue in the Master of Fine Arts program. Students earning lower than a C (2.0) in a core production course may repeat the requirement on a one time only basis upon approval of the division chair.

Students who do not earn the minimum grade of C (2.0) in CTPR 507 or CTPR 508 or satisfy the degree requirements after repeating a required course will be disqualified from the program.

Our program is distinguished by the understanding and hands-on practice our graduates achieve in all media-making disciplines; at the same time, each student pursues specialized interests in years two and three. To qualify for the MFA, each must demonstrate mastery of at least one of six disciplines: writing, producing, directing, cinematography, editing or sound. In the discipline chosen, the candidate must register for and complete an advanced project, as well as the defined prerequisites.

CTPR 507, CTPR 508, CTPR 509, CTPR 510, CTPR 546L, CTPR 547L, CTPR 581abcz, CTPR 582abz, CTPR 583, CTPR 585abz, CTPR 586ab and CTPR 587abcz cannot be waived or substituted with transfer credit under any circumstances.

Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees. Production students must take CTPR 507 concurrently with CTPR 510 Concepts of Cinematic Production, and CTWR 505 Creating the Short Film in the first semester.

Students who do not earn the minimum grade of C (2.0) in CTPR 507 or CTPR 508 or satisfy the degree requirements after repeating a required course will be disqualified from the program.
### Three-Year Requirements for the MFA in Production

#### YEAR ONE, FIRST SEMESTER  
**UNITS**
- CTPR 507 Production I 4
- CTPR 510 Concepts of Cinematic Production 2
- CTWR 505 Creating the Short Film 2
- **TOTAL** 8

#### YEAR ONE, SECOND SEMESTER  
**UNITS**
- CTPR 508 Production II 6
- CTPR 509 Concepts of Cinematic Post Production – Editing and Sound 2
- CTWR 529 Intermediate Screenwriting 2
- **TOTAL** 10

#### YEAR TWO, FIRST AND SECOND SEMESTERS  
**UNITS**
- CTPR 506 Visual Expression 2
- CTWR 516 Advanced Motion Picture Script Analysis 2
- Choose from the following:
  - CTPR 479 Single Camera Television Dramatic Pilot, and 2
  - CTPR 486 Single Camera Television Dramatic Series 4
  - CTPR 546L Production III, Fiction 2
  - CTPR 547L Production III, Documentary 6
- **TOTAL** 10

One of the following:
- CTPR 479* Single Camera Television Dramatic Pilot, and 2
- CTPR 497 Music Video Production 2
- CTPR 522 Reality Television Survey 2
- CTPR 523 Introduction to Multiple-Camera Production 2
- CTWR 572 The World of Television: From Concept to Air and Everything in Between 2
- CTIN 501 Interactive Cinema 2

*Students who choose CTPR 479/CTPR 486 in lieu of CTPR 546L or CTPR 547L cannot use CTPR 479 to satisfy this requirement.

Six units from the required Cinematic Arts emphasis courses:
- CTPR 484, CTPR 486, CTPR 531, CTPR 532, CTPR 533, CTPR 535, CTPR 537, CTPR 538, CTPR 540, CTPR 552, CTPR 553, CTPR 554, CTPR 556, CTPR 557, CTPR 558, CTPR 568, CTPR 573, CTWR 533a, CTWR 553

### Year Three, First and Second Semesters  
**UNITS**

**One of the following courses**:  
- CTIN 584abcz Individual Interactive Workshop 4-2-2-0
- CTPR 546L Production III, Fiction (taken for a second time in a different crew position or in addition to CTPR 547 or CTPR 479 and CTPR 486) 6
- CTPR 547L Production III, Documentary (taken for a second time in a different crew position or in addition to CTPR 546 or CTPR 479 and CTPR 486) 6
- CTPR 581abcz Individual Production Workshop 4-2-2-0
- CTPR 582abz Advanced Production Seminar 2-2-0
- CTPR 583 Graduate Television Production 6
- CTPR 585abz Advanced Producing Project 2-2-0
- CTPR 587abcz Group Production Workshop 4-2-2-0
- CTWR 533b Writing the Feature Script 4

**Students must complete the prerequisites and follow the guidelines for these courses.**

**One of the following production courses**:  
- CTPR 458 Organizing Creativity: Entertainment Industry Decision Making 2
- CTPR 495 Internship in Cinema/Television 2
- CTPR 496 The Film Industry: Career Challenges and Choices for Women 2
- CTPR 566 Developing and Selling Your Film and TV Projects 2

At least 6 units from the following critical studies courses:  
- CTCS 464 Film and/or Television Genres 4
- CTCS 469 Film and/or Television Style Analysis 4
- CTCS 501 History of Global Cinema Before World War II 2
- CTCS 502 History of Global Cinema After World War II 2
- CTCS 503 Survey History of the United States Sound Film 2

### Grade Point Average Requirements  
A grade point average of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

### Time Limit  
Students must maintain satisfactory progress toward their master's degree at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree. Students are expected to meet with a faculty adviser every semester.

### Graduate Review  
One year prior to graduation, students must see their academic advisers for a curriculum and graduation review. Contact the Production Faculty Office for forms (213) 740-3317.
Animation and Digital Arts

The Division of Animation and Digital Arts is an international and multicultural program focusing on animation in all its forms. The fundamental philosophy of the program strongly encourages innovation and experimentation, and emphasizes imagination, creativity and critical thinking.

Bachelor of Arts

The Bachelor of Arts in Animation and Digital Arts is a unique four-year program granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within the framework that combines a broad liberal arts background with specialization in a profession. Areas of concentration might include character animation, experimental animation, visual effects, 3-D computer animation, science visualization and interactive animation.

Undergraduate students take their pre-professional courses in the USC Dornsise College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including a minimum of 16 lower division units and a minimum of 26 upper division units in Cinematic Arts.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing, foreign language and diversity requirements, which comprise the USC core. See pages 63 and 250 for more information.

Areas of Concentration

Areas of concentration might include character animation, experimental animation, 3-D computer animation, visualizing science, interactive animation and visual effects. Students work in consultation with the undergraduate coordinator and faculty to help them decide their course of study while at USC.

Senior Project

In the spring semester of their third year students develop their senior project through CTAN 336 Ideation and Pre-Production under the guidance of the lecturer. This project will focus on an area of concentration studied throughout the B.A. by the student. At the end of this class, students present their senior project concepts for review to the Division of Animation and Digital Arts faculty. Progression into CTAN 401ab is contingent upon faculty committee approval.

In the final year, students concentrate on their senior projects, completing production
and post-production. The student’s project will be presented to the committee upon completion.

Completion is defined as a fully rendered, animated piece with a completed sound track. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional.

In the case of an interactive work, the piece must be fully functional with completed animation, sound and interactivity.

In addition to completion of the senior project, the student must provide the faculty committee with written and visual documentation of the research. This can be documented as a publishable paper (2,000 words), Website or interactive DVD.

**Grade Point Average Requirements**

A minimum grade of C, 2.0 (A=4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTAN 101, CTAN 102, CTAN 201, CTAN 202, CTAN 301, CTAN 302 or CTAN 401a@ after repeating these requirements will be disqualified from the program.

**Limitations on Enrollment**

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

**Curriculum Review**

Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Animation and Digital Arts Division Office, University Park, Los Angeles, CA 90089-2211, (213) 740-3986, or online at anim.usc.edu.

**International Program**

John C. Hench Animation and Digital Arts offers a fall semester abroad at Studio Art Centers International (SACI) in Florence, Italy. B.A. students will be required to take equivalent classes in animation and digital media while also benefiting from the wide range of liberal arts courses offered at SACI.

**Master of Fine Arts**

The Master of Fine Arts degree in Animation and Digital Arts is a three-year (six semester) graduate program designed for students who have clearly identified animation and digital art as their primary interest in cinema. The program focuses on animation production, including a wide range of techniques and aesthetic approaches, from hand-drawn character animation to state-of-the-art interactive digital animation. While embracing traditional forms, the program strongly encourages innovation and experimentation, and emphasizes imagination, creativity and critical thinking.

Students should graduate with a comprehensive knowledge of animation from conception through realization; an understanding of the history of the medium and its aesthetics; in-depth knowledge of computer animation software and the most important elements of digital and interactive media.

The program requires a minimum of 50 units: 34 units are in prescribed, sequential courses in the School of Cinematic Arts. The other 16 units are cinematic arts electives, 4 of which must be taken in the Division of Critical Studies. A thesis is required for the MFA degree. Ongoing workshops in new technologies, traditional and digital media provide additional educational opportunities for students.

Admission is granted once a year in the fall; there are no spring admissions. Approximately 14 students will be enrolled in each incoming class. In addition to practical production, the program also provides opportunities for fieldwork experience and internships to facilitate the student’s transition into the profession.

**Requirements for the MFA in Animation and Digital Arts**

**YEAR ONE, FIRST SEMESTER**

- CTAN 451 History of Animation 2
- CTAN 522 Animation Department Seminar 1
- CTAN 544 Introduction to the Art of Animation 3
- CTAN 577a Fundamentals of Animation 2
- CTAN 582 Basic Animation Production Technologies 2

**YEAR ONE, SECOND SEMESTER**

- CTAN 522 Animation Department Seminar 1
- CTAN 536 Storytelling for Animation 2
- CTAN 547 Animation Production I 3
- CTAN 579 Expanded Animation 2
- Elective* 2

**YEAR TWO, FIRST SEMESTER**

- CTAN 522 Animation Department Seminar 1
- CTAN 555 Animation Design and Production 4
- Elective* 2

**YEAR TWO, SECOND SEMESTER**

- CTAN 505 The Business of Animation 2
- CTAN 522 Animation Department Seminar 1
- CTAN 591 Animation Pre-Thesis Seminar 2
- Elective* 2
- Elective* 3

**YEAR THREE, FIRST SEMESTER**

- CTAN 522 Animation Department Seminar 1
- CTAN 594a Master’s Thesis 2

**YEAR THREE, SECOND SEMESTER**

- CTAN 522 Animation Department Seminar 1
- CTAN 594b Master’s Thesis 2

**Total required units** 34

*A minimum total of 16 elective units must be taken.
In order to pass the pre-thesis class, the thesis proposal must be presented and approved by the thesis committee at the end of the fourth semester. Students cannot change their approved thesis project after the completion of CTAN 591. Throughout the pre-thesis and thesis years of study, students will meet regularly with an MFA animation and digital arts faculty adviser(s) and thesis committee to develop and refine the proposal and discuss the progress of their work. The adviser(s) will be a member of the thesis committee.

The proposal itself will include a written treatment of the project with a discussion of similar work in the field and its relationship to the proposed project. It will describe aesthetic issues to be explored and specific techniques to be employed in its realization. It will also include a storyboard or visualization, budget and schedule, in addition to supporting materials created by the student demonstrating his/her ability to pursue the project. The thesis committee will make comments and decide whether the student may go forward with his/her project. Upon acceptance, the student will begin work on the project, otherwise revising the proposal and meeting again with the committee.

A mid-residency review of the thesis project will take place in the first semester of the final year of study. The student must show that deadlines set in the proposal have been met and that progress consistent with the proposal has been made. The committee may, if necessary, suggest modifications to the project, which the student is then obligated to implement.

In the final year, students concentrate on their thesis projects, completing production and post-production. The student’s thesis will be presented to the committee upon completion.

Completion is defined as a fully rendered, animated piece with a completed sound track (guide mix acceptable). In the case of live action and visual effects projects, at least 70 percent of the final film must be animated. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional. In the case of an interactive work the piece must be fully functional with completed animation, sound and interactivity.

In addition to completion of the thesis project, the student must provide the thesis committee with written and visual documentation of the research. This will be documented as a Website or interactive DVD. The documentation comprises the following and should include a publishable research paper: synopsis; artist’s statement and research paper; learning objectives – focus of research; type of project – animation, installation, interactive, etc.; research presentation in the format/ medium in which the project is to be seen; script and storyboard or conceptual drawings if applicable; style approach, including source references for image shot structure, etc.; sound design and references; collaborators – if any; audience – who it is intended for and who will benefit from the research; budget; marketing and distribution plan.

Criteria for successful completion include: 40 percent originality, 40 percent quality of execution and 20 percent quality of research documentation.

**Grade Point Average Requirements**
A grade point average of at least 3.0 (A= 4.0) must be maintained in all USC course work toward the master’s degree. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree. Courses below a C must be repeated.

**Time Limit**
Students must maintain satisfactory progress toward their master’s degrees at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.
Bachelor of Fine Arts

The Bachelor of Fine Arts in Writing for Screen and Television is a unique, four-year program for students who seek intensive professional preparation for a career in screen and television writing. This rigorous program emphasizes small, workshop-style classes, and attracts students from all over the world. Students attend a variety of guest speaker presentations, take high level industry internships, are provided with mentors and taught by world-class professors.

Each fall, a class of 26 undergraduate writing students is selected to begin the program. A total of 128 units is required for completion of the Bachelor of Fine Arts degree; 50 of these units are taken in a prescribed sequential order. Seventy-two units are required for the major. There are no spring admissions.

Applicants must submit supplemental application and materials to the program office. For specific instructions, contact Writing for Screen and Television, University Park, Los Angeles, CA 90089-2211 or telephone (213) 740-3303, or online at cinema.usc.edu.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which together comprise the USC Core. See pages 63 and 250 for more information.

Required Production Courses

Undergraduate writing students are required to take CTPR 241 Fundamentals of Cinema Technique and CTPR 290 Cinematic Communication. These introductory production courses are taken concurrently during the sophomore year.

CTPR 241 is an experiential course dealing with the technical and aesthetic principles of directing, cinematography, editing and the development of ideas through a cinematic vocabulary.

In CTPR 290 each student makes four digital video movies, executing all the creative roles personally, and takes a crew position on a group project. Exploration of personal expression and diverse genres is encouraged, with emphasis on visual and sound patterns, with limited dialogue. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

Total units required for major: 72
Additional Suggested Courses in Cinema
For students interested in taking additional courses in cinema beyond those required for the major, the following are suggested:

CTWR 404 Foundations of Comedy 2
CTWR 410L Character Development and Storytelling for Games 4
CTWR 417 Script Coverage and Story Analysis 2
CTWR 422 Creating the Dramatic Television Series 2
CTWR 430 The Writer in American Cinema and Television 2
CTWR 431 Screenwriters and Their Work 2, max 6
CTWR 433 Adaptations: Transferring Existing Work to the Screen 2
CTWR 435 Writing for Film and Television Genres 2 or 4, max 8
CTWR 437 Writing the Original Situation Comedy Pilot 4, max 8
CTWR 438 Linked Narrative Storytelling for the Web 4
CTWR 439 Writing the Original Dramatic Series Pilot 4, max 8
CTWR 468 Screenwriting in Collaboration 4, max 8
CTWR 487 Staff Writing the Multi-Camera Television Series 4, max 8
CTWR 499 Special Topics 2-4, max 8

Grade Point Average Requirements
A minimum grade of C (2.0) must be earned in all required and prerequisite courses (a grade of C- (1.7) or lower will not fulfill a major requirement).

Master of Fine Arts

The Master of Fine Arts degree in Writing for Screen and Television, is an intensive two-year degree program that concentrates on writing for narrative film and television. During the course of their studies, students benefit from a wide array of internship and mentorship opportunities available as a result of the university's close links to the Los Angeles film industry's top screenwriters, directors, production companies and studios.

Course work includes practical instruction in everything a working writer needs to learn about the filmmaker's art and craft. Writing is taught in small workshop-style classes. The approach focuses on the visual tools of storytelling, developing stories from characters and then on an Aristotelian three act structure. Fractured narratives, ensemble stories, experiments with time and points of view, as well as other idiosyncratic styles of storytelling, are also addressed. The curriculum covers other professional concerns, including legal issues, agents and the Writer’s Guild, as well as the history and analysis of cinema and television. Classes are taught by working writers with a wide variety of skills, experience and approaches.

Each fall 32 students are selected to begin the Graduate Writing for Screen and Television Program; there are no spring admissions. Applicants must submit a supplemental application and materials to the Graduate Writing for Screen and Television Program. For specific instructions, contact the Graduate Writing for Screen and Television Program, University Park, Los Angeles, CA 90089-2211, or telephone (213) 740-3303, or online at cinema.usc.edu.

A total of 44 units is required. A minimum of 30 units must be 500-level or above.

</tbody>
</table>

Courses listed as writing intensive electives are considered heavy writing classes; students may take a maximum of three courses and 10 units of writing intensive courses per semester, required and/or elective.

**Grade Point Average Requirement**

An overall grade point average of 3.0 (A = 4.0) must be maintained in all courses. In addition, an overall grade point average of 3.0 in all units attempted is required to qualify for registration in CTWR 515ab or CTWR 519ab. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

In lieu of a thesis the student is required to either complete a full-length screenplay, which will be developed in CTWR 515ab, or an original one-hour drama television pilot, mid-season episode and series bible, which will be developed in CTWR 519ab; this final work must be accepted by the Division of Writing Graduation Committee.

**Time Limit**

Students must maintain satisfactory progress toward their master's degrees at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is automatically invalidated and may not be applied toward the degree.
The Peter Stark Producing Program

Master of Fine Arts

The Peter Stark Producing Program is an innovative two-year (four semester) full-time graduate program designed to prepare a select group of highly motivated students for careers as independent film and television producers or as executives in motion picture and television companies.

Approximately 25 Peter Stark Program students are enrolled each fall (there are no spring admissions). The curriculum places equal emphasis on the creative and the managerial, to enhance and develop artistic skills and judgment while providing a sound background in business essentials. Each course is continually updated to ensure that the Stark program remains responsive to the needs of our students and the ever-changing motion picture, television and communications field.

A minimum of 44 units of 400-level and 500-level courses is required for the Peter Stark Producing Program leading to the MFA degree. There are no prerequisites. Students are required to take a production course in their first semester.

CTPR 504 Fundamentals of Production (4 units) introduces the fundamental principles of motion picture production, emphasizing visual and auditory communication. This course covers the basic aspects of filmmaking through lectures and hands-on production using digital video. Each student works on several collaborative projects, serving as writer, producer, director, cinematographer, sound designer and editor. Projects are shot using digital cameras and edited on non-linear systems. Approximately $1,000 should be budgeted for miscellaneous expenses, including lab and insurance fees.

In CMPP 541L, second semester students work in teams, making two, 7-minute films. Equipment is provided by the school.

In lieu of a thesis, the completion requirement is a fully developed film project with an attendant budget and marketing/distribution plan. An internship period between school years gives students an opportunity to observe actual producing and executive operations with participating companies. The internships last eight weeks, are paid and subject to availability, academic performance and good standing in the first year of studies.

The completion of a film/television industry internship, or combination of internships, of at least eight weeks, is a requirement for graduation.

During the second year, Peter Stark Producing Program students have an opportunity to initiate and produce a 20-minute short film financed by the program. Projects are selected on a competitive basis.

Films must be produced by a Stark student or team of Stark students. Scripts may be written by a Cinematic Arts student from either the Stark program or the Writing division. The director must be a Stark student or a graduate student from the Cinematic Arts Production Program. The Stark student may only perform one major task on the film, i.e., director or writer or producer. Each team has a professional adviser available as needed. Completed films are screened at the school’s “First Film” festival, and have also been selected for outside festivals.

Inquiries regarding the program should be addressed to: The Peter Stark Program, USC School of Cinematic Arts, University Park, Los Angeles, CA 90089-2211. Telephone (213) 740-3304, FAX (213) 745-6652 or email pstark@cinema.usc.edu.

Interactive Media

The Interactive Media Division offers a Bachelor of Arts in Interactive Entertainment and a Master of Fine Arts in Interactive Media as well as a number of courses in computer-based entertainment for non-majors. The fundamental philosophy of the division is coherent with that of the school’s program, stressing creativity of expression, experimentation and excellence in execution.

Bachelor of Arts

The Bachelor of Arts in Interactive Entertainment is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within a framework, which combines a broad liberal arts background with specialization in a profession. Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including a minimum of 48 units in the major.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing, foreign language and diversity requirements, which comprise the USC Core. See pages 63 and 250 for more information.

Required Production Courses

Undergraduates admitted to the Interactive Entertainment Program are required to take CTPR 241 Fundamentals of Cinema Technique and CTPR 290 Cinematic Communication. These introductory production courses are taken concurrently (see description below).

CTPR 241 is an experimental course dealing with the technical and aesthetic principles of directing, cinematography, editing, sound and the development of ideas through a cinematic vocabulary.

In CTPR 290 each student makes four digital video movies, executing all the creative roles personally, and takes a crew position on a group project. Exploration of personal expression and diverse genres is encouraged, with emphasis on visual and sound patterns, with limited dialogue. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

</tr>
</tbody>
</table>

*Prerequisite: IML 104 or IML 140 or IML 201.
At least one of the following is required:
CTIN 459L  Game Industry Workshop  4
CTIN 491L  Advanced Game Project I  4
CTIN 492L  Experimental Game Topics  4

Four additional elective units must be taken from any of the electives listed above.

Grade Point Average Requirements
A minimum grade of C, 2.0 (A=4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTIN 309, CTIN 483, CTIN 484L, CTIN 488 or CTIN 489 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment
Registration in graduate-level courses (numbered 500) for undergraduate credit requires prior approval of the School of Cinematic Arts.

Master of Fine Arts

The Interactive Media Division offers a Master of Fine Arts in Interactive Media as well as a number of courses in computer-based entertainment for non-majors. The fundamental philosophy of the division is coherent with that of the programs of the school, stressing creativity of expression, experimentation and excellence in execution.

The Interactive Entertainment track is part of the MFA in Interactive Media. This track focuses on game design and innovation and offers a list of suggested electives best suited for interests in interactive entertainment. Students in the Interactive Entertainment track are required to follow the MFA in Interactive Media curriculum.

The MFA in Interactive Media is a three-year intensive program that requires 50 units of which 36 are requirements and 14 are electives. Of these electives, a minimum of 6 units must be taken in the School of Cinematic Arts. Students are required to complete an advanced interactive project which they design and produce in CTIN 594ab Master’s Thesis.

Computer and digital production facilities for the program are provided by the school. However, students should budget additional funds for incidental expenses for intermediate and advanced projects. Cost will vary depending on the scope of a student’s project. For the first year production course, approximately $1,000 will be needed for miscellaneous costs, lab and insurance fees.

The program is intended to prepare students for creative careers in the emerging field of interactive entertainment. While the program does not require advanced computer capabilities, familiarity and comfort with computer based authoring and production/post-production tools is recommended.

The creation of interactive media requires a combination of skills from the traditional media of film and television as well as a deep understanding of the effects of interactivity upon the quality of experience. Therefore, we emphasize and encourage collaboration with students in other Cinematic Arts programs.

Approximately 12 students are admitted in the fall semester (there are no spring admissions).

Applicants for the MFA in Interactive Media must submit a supplemental application and materials to the Interactive Media Program. For specific instructions contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-2911 or online at cinema.usc.edu.

*Students must complete at least one internship for 2 units to complete the MFA in Interactive Media. Students are encouraged to complete their internship requirement in the summer before their final year of study.

Curriculum Review
Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Interactive Media Program Office, SCA 223, (213) 821-4472, for an appointment.
At least 6 units from the following:

CMPP 591 Producing Practicum 2
CTAN 443L* 3-D Animation and Character Design 2, max 4
CTAN 451 History of Animation 2
CTAN 452* Introduction to 3-D Computer Animation 2, max 4
CTAN 462 Visual Effects 2
CTAN 501 Experiments in 2-D Digital Animation 2
CTAN 502ab Experiments in Stereoscopic Imaging 2-2
CTAN 576 Seminar in Film/Television and New Technologies 4
CTAN 577a Fundamentals of Animation 2
CTCS 409 Censorship in Cinema 4
CTCS 478* Culture, Technology and Communications 4
CTCS 482 Transmedia Entertainment 4
CTCS 502 History of the Global Cinema After World War II 2
CTCS 504 Survey of Television History 2
CTCS 564* Seminar in Film and Television Genres 4
CTIN 400 Fundamentals of Procedural Media 2
CTIN 401L* Interface Design for Games 2
CTIN 403L* Advanced Visual Design for Games 2
CTIN 404L* Usability Testing for Games 2
CTIN 405* Design and Technology for Mobile Experiences 2
CTIN 406L* Sound Design for Games 2
CTIN 458* Business and Management of Games 2
CTIN 459L* Game Industry Workshop 4
CTIN 462* Critical Theory and Analysis of Games 4
CTIN 463* Anatomy of a Game 4
CTIN 464* Game Studies Seminar 4
CTIN 482* Designing Online Multiplayer Game Environments 2
CTIN 483* Introduction to Game Development 4
CTIN 484L* Intermediate Game Development 2
CTIN 485L* Advanced Game Development 2
CTIN 486 Immersive Design Workshop 2
CTIN 488* Game Design Workshop 4
CTIN 489* Intermediate Game Design Workshop 2
CTIN 491L* Advanced Game Project I 4, max 8
CTIN 492L* Experimental Game Topics 4
CTIN 493L* Advanced Game Project II 2, max 4
CTIN 499* Special Topics 2-4
CTIN 501 Interactive Cinema 2
CTIN 520 Experience and Design of Public Interactives 2
CTIN 584ab Your Film and TV Projects 2
CTIN 585 Graduate Interactive Group Project 4
CTIN 590 Directed Research 1-12
CTPR 455 Introduction to Production Design 2
CTPR 472 Non-Theatrical Aspects of Film and TV Producing 2
CTPR 530 Producing for Independent Films 2
CTPR 566 Developing and Selling Your Film and TV Projects 2
CTWR 410L* Character Development and Storytelling for Games 4
CTWR 513 Writing the Short Script 2
CTWR 520 Advanced Scene Writing Workshop 2
CTWR 528 Screenwriting Fundamentals 2
CTWR 529 Intermediate Screenwriting 2
CTWR 530, CTIN 594ab Cannot be applied toward the degree.

No more than 3 units from the following:

CSCI 480 Computer Graphics 3
CSCI 485 File and Database Management 3

*Courses suggested as part of the Interactive Entertainment track.

**Courses not listed may satisfy this requirement with approval of the program chair.

The proposal itself will include a written treatment of the project with a discussion of similar work in the field and its relationship to the proposed project. It will describe aesthetic issues to be explored and specific techniques to be employed in its realization. It will also include a project visualization, budget and schedule, in addition to supporting materials created by the student demonstrating his or her ability to pursue the project. The faculty committee will make comments and decide whether the student may go forward with his or her project. Upon acceptance, the student will begin work on the project, otherwise revising the proposal and meeting again with the committee.

In the third and final year, students concentrate on their thesis projects in CTIN 594ab Master's Thesis, completing production and post-production. A final review will take place in the second semester of the third year. The committee will meet and the student must show and defend the work.

Criteria for successful completion include:
- 50 percent originality and 50 percent quality of execution.

Grade Point Average Requirement
An overall GPA of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree.

A minimum grade of C (2.0) must be earned in all required courses. Students who do not achieve a grade of C (2.0) in the core courses CTIN 532, CTIN 534, CTIN 542 and CTIN 544 after repeating these requirements will be disqualified from the program. The core courses as well as CTIN 594ab cannot be waived or substituted with transfer credits under any circumstances.

Time Limit
Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.

Graduate Review
One year prior to graduation, students are required to file MFA forms for a curriculum and graduation review. Contact the Interactive Media Program Office for forms.
Institute for Multimedia Literacy

Email: iml@cinema.usc.edu
iml.usc.edu

Director: Holly Willis

Overview
The Institute for Multimedia Literacy offers undergraduate students an opportunity to approach their chosen major field(s) of study through the critical application of multimedia scholarship and expression in the networked world. Students can pursue either a minor in digital studies or the Honors in Multimedia Scholarship program. IML courses are open to students from all departments and schools. No prior experience with multimedia is required, but students should be willing to engage with new media technologies, ways of thinking and modes of expression.

Honors in Multimedia Scholarship
Program Overview
A century of mass media and the advent of digital communication have transformed the way ideas are expressed and understood across the university. As a result, the notion of literacy, which has traditionally referred to the reading and writing of printed materials, has fundamentally expanded to include new forms of expression. The Honors in Multimedia Scholarship program offers students an opportunity to learn new approaches to the production of knowledge through the critical application of multimedia.

The program includes a systematic introduction to the history, theory and practice of multimedia scholarship within a range of disciplinary and interdisciplinary contexts. Students develop and refine their abilities to conduct research and publish work in methods appropriate to their field of study: video, audio, image, Web or some integration of these forms. The program is open to students from all disciplines.

In the Honors in Multimedia Scholarship program, students are expected to integrate theory into the practice of multimedia scholarship; for this reason, courses include discussion of historical and theoretical material, instruction in basic research practices, as well as opportunities to develop skills in multimedia authorship, collaboration, leadership and creative thinking.

Students earn Honors in Multimedia Scholarship by completing a minimum of 16 units of required course work culminating in a capstone thesis seminar during their final year.

To maintain small classes and allow for extensive discussion and project development, the Honors in Multimedia Scholarship program requires students to be highly motivated; there is extensive reading, writing and multimedia authoring. The required courses are not available for pass/no pass registration.

Information about courses and other program offerings can be obtained from the student adviser at the Institute for Multimedia Literacy office. Email iml@cinema.usc.edu or call (213) 743-2198.

*IML 140 can only be taken twice for a maximum of 4 units. If IML 140 is taken twice to fulfill the lower-division requirement it cannot also be taken as an elective.

Note: Students in good standing may elect to take graduate (500-level) IML courses, pending departmental approval.

Minor in Digital Studies

The minor in Digital Studies explores the rich potential of digital media for critical analysis and creative discovery. Learning the exciting and dynamic potential of a broad array of tools and technologies, students create innovative projects, from photo essays to Web-based documentaries, from interactive videos to sophisticated Websites, and from typography in motion to 3-D visualizations. Elective courses explore media for social change, the ethics of virtual worlds, transmedia expression and more, allowing students to use media in pursuit of their own interests and to enhance their major.

All digital studies courses combine theory and practice in lab-based seminars featuring hands-on tutorials to support students in producing sophisticated media-rich work. Participants in this minor gain powerful skills useful in future endeavors within or beyond academia, where the ability to work effectively with media is a crucial job skill.

Course Requirements
A total of 20 units is required to complete the minor: 4 units of core IML course work, 12 units of upper-division IML course work and 4 units of upper-division elective course work. All minor courses must be taken for a letter grade.

The overall course of study will be designated in consultation with the student's designated adviser and, following the screening procedure, the student's guidance committee chair. The Ph.D. program is tailored to the individual student's particular needs and interests. Admission A bachelor's or master's degree in media arts, or a closely related field, is required for admission to the Ph.D. program. In addition to submitting an application to USC Graduate Admissions, applicants for the Ph.D. must submit the supplemental application and materials to the Media Arts and Practice Division. For specific instructions, contact the School of Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 840-8358, or online at cinema.usc.edu/imap.

## Interdivisional Program in Media Arts and Practice

### Doctor of Philosophy in Cinematic Arts (Media Arts and Practice)

The degree of Doctor of Philosophy with an emphasis in Media Arts and Practice is administered through the Graduate School. The Ph.D. program is tailored to the individual student's particular needs and interests. The overall course of study will be designated by the student, the student's designated adviser and, following the screening procedure, the student's guidance committee chair.

### Admission
A bachelor's or master's degree in media arts, or a closely related field, is required for admission to the Ph.D. program. In addition to submitting an application to USC Graduate Admissions, applicants for the Ph.D. must submit the supplemental application and materials to the Media Arts and Practice Division. For specific instructions, contact the School of Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 840-8358, or online at cinema.usc.edu/imap.

### Course Requirements
Each Ph.D. candidate must complete 64 units beyond the bachelor's degree, exclusive of CNTV 794 Doctoral Dissertation. (Up to 28 units may be transferred from graduate work completed at other institutions.) At least two-thirds of the units applied towards the degree (including transfer work and not including CNTV 794) must be at the 200 level or higher. The required units will include 9 to 14 units in cinematic arts and...
8 to 16 units in a minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field that supports the student's dissertation topic and project. Each student must complete the following course work:

1. CNTV 600 (4), CNTV 601 (4), CNTV 602 (4), CNTV 603 (1-1). These courses should be taken before the screening procedure.

2. At least 8 units in theory based course work within Cinematic Arts.

3. At least 14 units in practice-based course work within Cinematic Arts. Courses outside of Cinematic Arts will be considered for approval by the student's adviser. The above courses should be taken before the qualifying exam.

4. At least 4, but no more than 8 units of CNTV 794abcdz Doctoral Dissertation.

**Screening Procedure**

The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. The screening procedure in the School of Cinematic Arts is designed to review the student's suitability for continuing in the chosen Ph.D. program. Two separate screening procedures will measure a student's progress at two points in their work toward the degree. The first screening will occur no later than the end of the student's third semester of graduate course work beyond the master's degree or after 46 units of graduate work beyond the bachelor's degree. The second screening will occur no earlier than one-half of a semester following the first screening. The screening procedure process will include the following steps:

1. **First screening.** Prior to the first screening, the student will select a faculty adviser and formulate a provisional course of study. The student will also select a subcommittee of media arts and practice faculty to review his or her work. At the first screening, the student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. Following a successful first screening, the student, in consultation with the faculty adviser, will formally establish a five-member guidance committee. The composition of the guidance committee will be as specified by the Graduate School (see page 102).

2. **Second screening.** Working closely with the faculty adviser and guidance committee, the student will prepare to present his or her dissertation project proposal to a subcommittee of media arts and practice faculty. This will be a formal written proposal detailing the proposed topic, four fields for examination derived from the general dissertation topic area (complete with bibliographies, filmographies and mediographies for each area). Formal presentation of the dissertation project proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The guidance committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete a Request to Take the Ph.D. Qualifying Examination form available from the program coordinator.

**Guidance Committee**

Following a successful screening procedure, the student, in consultation with the guidance committee chair and the media arts and practice faculty, will formally establish a five-member guidance committee. The composition of the guidance committee will be as specified by the Graduate School (see page 102). For the Ph.D. in Cinematic Arts (Media Arts and Practice), the committee is ordinarily composed of four cinematic arts faculty members and an outside member from the candidate's minor area.

**Foreign Language Requirement**

The cinematic arts faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

**Dissertation Proposal Presentation**

Working closely with the guidance committee chair, the student will prepare to present his or her dissertation proposal to the full faculty. This will be a formal written proposal which will include a statement of the proposed topic, four fields for examination derived from the general dissertation topic area (including a field from the minor area), a detailed bibliography and an appropriate and comprehensive screening list of prior work in the field of inquiry. Formal presentation of the dissertation proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The guidance committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete a Request to Take the Ph.D. Qualifying Examination form available from the program coordinator.

**Qualifying Examinations**

Written and oral examinations for the Ph.D. are given twice a year, in November and April. Questions for the written portion of the examination will be drafted by members of the guidance committee who will also grade the examination. The qualifying examination comprises four examinations administered one each for four days over a five-day period. The oral examination will be scheduled within 30 days after the written examination. All guidance committee members must be present for the oral portion of the qualifying examination.

**Admission to Candidacy**

A student is eligible for admission to candidacy for a Ph.D. degree after: (1) passing the second screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable, (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Associate Vice Provost for Graduate Programs.

**Dissertation Committee**

The dissertation committee is composed as specified by regulations of the Graduate School (see page 103). A dissertation based on original investigation and showing technical mastery of a special field, capacity of research and scholarly ability must be submitted.

**CNTV 794**

Registration for dissertation units, CNTV 794ab, in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied towards the required 64 unit total. The student must register for CNTV 794 each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in CNTV 794.

**Defense of Dissertation**

An oral defense of the dissertation is required of each Ph.D. candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.
Policies
The following policies apply to each student admitted to the Ph.D. program.

Residency Requirements
At least one year of full-time graduate study (24 units excluding registration for CNTV 794) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

Grade Point Average
An overall GPA of 3.0 is required for all graduate work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Leave of Absence
A leave of absence may be granted under exceptional circumstances by petitioning the Graduate School the semester before the leave is to be taken.

Change of Committee
Changes to either the guidance or dissertation committee must be requested on a form available from the Graduate School.

Completion of All Requirements
Everything involved in approving the dissertation must be completed at least one week before graduation. Approval by the dissertation committee, the Office of Academic Records and Registrar, and the thesis editor must be reported on the triple card and submitted to the Graduate School by the date of graduation.

Time Limits
The maximum time limit for completing all requirements for the Ph.D. degree is eight years from the first course at USC applied toward the degree. Students who have completed an applicable master’s degree at USC or elsewhere within five years from the proposed enrollment in a Ph.D. program must complete the Ph.D. in six years. Extension of these time limits will be made only for compelling reasons upon petition by the student.

When petitions are granted, students will be required to make additional CNTV 794 registrations. Course work more than 10 years old is automatically invalidated and cannot be applied toward the degree.

Graduate Certificate in the Business of Entertainment

The graduate certificate in the business of entertainment program provides graduate-level education in various aspects of the business of film, television, and new media.

Successful completion of a graduate certificate program is acknowledged by a certificate awarded by the university.

Admission to the graduate certificate in the business of entertainment program is only open to current USC graduate students. Courses credited to graduate certificate programs may be completed in conjunction with course work required for a graduate degree program in which the student is already enrolled. Applicability of courses to the student’s primary degree program is determined by the student’s home department.

Applicants must have earned an undergraduate degree with at least a 3.0 GPA. For further information contact the School of Cinematic Arts Office of Student-Industry Relations, SCA 235, (213) 740-4432.
Minor in Cinematic Arts

The minor in cinematic arts combines an introduction to this exciting and influential field with a diversified set of classes in critical studies, production, screenwriting, and interactive media. The curriculum is purposely flexible; students may choose to sample different areas in their upper division courses or emphasize a single primary interest, such as production.

To be eligible for the cinematic arts minor, a student must be in good academic standing and have a declared major. To declare the cinematic arts minor a student must submit a Change of Major/Minor form to Cinematic Arts Student Affairs, GTV G130.

Course Requirements for the Minor

A total of 20 units is required for the minor in cinematic arts, one 4-unit lower division course and 16 upper division units.

Plus 8 additional upper-division units of Cinematic Arts electives.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Minor in Animation and Digital Arts

The minor in animation offers students an introduction to the theory and practice of animation, including its relationship to the history of art and cinema, creative writing and basic film production. It provides students with an opportunity to create both personal and collaborative work in a wide range of media, with an emphasis on character and story development. Most students will enter the minor in animation program in their sophomore year at USC.

Course Requirements

A student enrolled on the undergraduate level at USC may apply to minor in animation if he or she is maintaining normal degree progress.

Most students will enter the minor in animation program in their sophomore year at USC.

Application Procedures

To be considered for admission to the minor in animation, the applicant is required to submit the following materials: (1) Cinematic Arts departmental application, (2) academic records including current USC transcripts, (3) personal statement, (4) two letters of recommendation, and (5) portfolio (prints, slides, CD, DVD, film and/or video). Applications and admission information can be obtained from the USC School of Cinematic Arts, Animation and Digital Arts Program Office, (213) 740-3986 or online at cinema.usc.edu.

Grade Point Average Requirement

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Minor in Science Visualization

The minor in science visualization offers an introduction to science visualization methodology and practice focused in an area of relevant research. The minor is structured to provide the skills and knowledge needed in science visualization, and will culminate in a capstone project under the close supervision of faculty in both animation and science. The program requires 16 units.

Most students will enter the minor in science visualization program in their sophomore year at USC.

Application Procedures

An undergraduate student at USC may apply to the minor in science visualization if he or
she is in good standing and maintaining normal degree progress.

Students should apply after they have completed either CTAN 330 or CTAN 452 with a “B” or better in the course. A signature of support from the CTAN 330 or CTAN 452 professor is required. Applications and admission information can be obtained from the USC School of Cinematic Arts, Animation and Digital Arts Office SCB 210 (213) 740-3986.

Science visualization minor applications are reviewed by a panel of faculty members, with admissions made for the following fall semester only. A maximum of 12 students will be admitted per year.

**Grade Point Average Requirement**
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

**Course Requirements**
The following courses are to be taken in the prescribed sequential order, starting with either CTAN 330 or CTAN 452 and finishing with CTAN 425L, the capstone class. Sixteen units of course work are required.

<th>Minor in Screenwriting</th>
</tr>
</thead>
</table>
| The minor in screenwriting is designed to train students in the creatively challenging field of writing for screen and television. Students learn the fundamentals of writing for film and television with the opportunity to specialize in writing feature length screenplays, teleplays in both drama and comedy, or analysis of the craft of screenwriting.

<table>
<thead>
<tr>
<th>Application Procedures</th>
</tr>
</thead>
</table>
| To apply to the minor in screenwriting, a student must be in good academic standing, have a declared major, and be currently enrolled in or have completed with a passing grade CTWR 412 Introduction to Screenwriting.

| Applications and information can be obtained at the Writing Division office, SCA 335, (213) 740-3303 or online at cinema.usc.edu. |

Minor in Digital Studies
The minor in digital studies explores the intersections of digital media across both professional and academic disciplines. Learning the dynamic potential of a broad array of tools and technologies, students create innovative projects, from photo essays to Web-based documentaries, from interactive videos to sophisticated Websites, and from typography in motion to 3-D visualizations. For more information and course requirements see the Institute for Multimedia Literacy, page 224.

Minor in Cinema-Television for the Health Professions
This 24-unit minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in working with film and television producers to disseminate accurate health information to the public. See the Keck School of Medicine, page 793, for course requirements.

Minor in 2-D Art for Games
This interdisciplinary minor integrates three major disciplines (fine arts, computer science and interactive media) to develop the 2-D visual skills necessary to conceptualize and illustrate images for games. For more information, see Roski School of Fine Arts, page 690.

Minor in 3-D Art for Games
The focus of the 3-D Art for Games minor is a trans-disciplinary approach that incorporates the creative, technological and team-based communication skills necessary to develop 3-D art skills for video games. For more information, see Roski School of Fine Arts, page 690.

Minor in 3-D Animation
The 3-D animation minor merges theoretical concepts and practical skills, to prepare students for a career in their major field of work with incorporation of 3-D animation and interactive technologies. Through integration of three major disciplines (cinematic arts, fine arts and information technology), students gain a solid foundation in a wide range of important industry and academic skills. See the Information Technology Program, page 671, for course requirements.

Minor in Video Game Design and Management
The video game design minor integrates theoretical concepts and practical skills to prepare students for a career in interactive entertainment, specifically the video game industry. Through integration of two major disciplines (cinematic arts and information technology), students will be exposed to a variety of design concepts related to creating video games. See the Information Technology Program, page 672, for course requirements. For specific information on admission and application procedures, contact the School of Cinematic Arts at (213) 821-2515 or the Information Technology Program at (213) 740-4542.

Minor in Performing Arts Studies
The minor in Performing Arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. See School of Theatre, page 943, for requirements.

Global Exchange Workshop
“Documenting the Global City: Los Angeles and Beijing,” is an intensive, seven-week workshop in documentary filming that pairs graduate students from the USC School of Cinematic Arts and the Communication University of China (CUC) to make short documentaries on Los Angeles or Beijing as global cities. The program is held in Los Angeles or Beijing in alternate years, and in summer 2012 will be held in Beijing. Participants enroll in CTPR 515 Global Exchange Workshop (2 units).

With faculty guidance from both universities, the students must negotiate cultural differences both in front of and behind the camera. In the process, both students and faculty directly experience the other culture and learn how it defines globalization in general, sees its own city in global terms, combines theory and practice, and processes a new set of perceptions and lived experience.

Interested students should contact Professor Mark Harris of the division of Film and Video Production at (213) 740-3319, or at mharris@cinema.usc.edu. Airfare to China and lodging expenses in Beijing are provided for all students accepted into the course.

Courses of Instruction
The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Note: Instructor availability for a particular course or section cannot be guaranteed.

CINEMA-TELEVISION (CNTV)

CNTV 101 Reality Starts Here (2, Fa) Introduction to emerging forms of immersive entertainment, to Cinematic Arts faculty, and to guest speakers who will comment on the changing nature of the industry. Open only to School of Cinematic Arts students. Graded CR/NC.

CNTV 325 Film and Digital Cinematography (3, Sm) The craft of cinematography for film and digital media; includes lectures, on-set film and video production exercises, and scene studies.

CNTV 367 The Music Video: Business and Practice (4, Sm) Creating concepts, writing treatments, pitching, and the realities and details of music video production including budgeting, pre- and post-production. (Duplicates credit in CTPR 497 Music Video Production.)

CNTV 370 3-D Animation for Film and Video (4, Sm) The basics of 3-D computer animation techniques and their use in creating animated characters.

CNTV 372 Developing the Screenplay (2, Sm) The process of script development, examining a project from the initial idea and tracking its progress through to the completed screenplay ready for production.

CNTV 375 Breaking Into the Film Industry (2, Sm) An overview of the entertainment industry and the tools needed to secure jobs and survive and succeed in the market.

CNTV 390 Special Problems (1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

CNTV 392 Beginning Digital Filmmaking (4, Sm) The basic technical and aesthetic concepts underlying motion picture production and an exploration of visual language.
Courses of Instruction

CTNV 393 16mm Filmmaking: Structuring Scenes That Work (4, Sm) The creative and technical aspects of 16mm filmmaking, particularly as they apply to the short film or the individual scene.

CTNV 405 Studio Producing and Directing (4, Sm) Understanding the craft and art of directing in the studio system, and developing a working methodology for creative producing.

CTNV 410 Non-Fiction Filmmaking (4, Sm) Conceiving, researching, writing, producing, directing, and editing an original non-fiction work and exploring practical training in techniques of non-fiction film.

CTNV 411 Directing Intensive (4, Sm) An overview of the concerns, functions and responsibilities of the director. The core of the course is casting, producing and directing an individual project.

CTNV 413 Digital Editing (4, Sm) Introduction to non-linear editing techniques, hardware, digitizing, logging, and special effects, using the AVID Media Composer editing system.

CTNV 415 Commercial Production: The Art of the Sixty-Second Story (4, Sm) The three main components of commercial agency creation, spot production, and post-production. Writing, pitching, casting, directing, and editing commercials.

CTNV 419 Inside the Business of Film and Television (4, FaSpSm) An overview of the contemporary studio system, independent films, and television, including script analysis, pitching, optioning properties, the marketplace, representation, career management, and networking.

CTNV 463 Television: Integrating Creative and Business Objectives (2, Fa) An investigation of the creative and business sides of television and how they connect, including changes caused by fractionalization and digital technology. Open only to Business Administration (Cinematic Arts) students.

CTNV 467 The Future of Digital Media and the Entertainment Industry (2, Sp) Examines how digital media will affect the future of the television, motion picture, game, music, and interactive industries. Open only to Business Administration (Cinematic Arts) students.

CTNV 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

CTNV 499 Special Topics (2-4, max 8) Selected topics in cinematic arts.

CTNV 501 Cinematic Arts Seminar (1, max 4, Fa) Introduction to an industry and art form in the midst of transformation, with guest speakers and cinematic arts faculty who will address new research and technologies. Graded CR/NC.

CTNV 521 The World of the Producer (4, FaSp) A comprehensive overview of the role of the producer in creating television programming, feature films, and new media content.

CTNV 522 The Television Industry: Networks, Cable and the Internet (4, FaSp) The current state of the television industry and future business paradigms.

CTNV 524 Digital Technologies and the Entertainment Industry (4, FaSp) The impact of digital technologies on the film, television, and music industries from content creation to distribution.

CTNV 589 Graduate Film Seminar (2 or 4, max 8, FaSp) Detailed investigations and discussion of various aspects of film.

CTNV 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

CTNV 594abz Master’s Thesis (2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

CTNV 600 Historical Approaches to Media Arts and Culture (4, FaSp) Introduction to the historical specificities of “old” media (painting, print, photography, film, video, television) and to consequences of the convergences produced by “new” media forms.

CTNV 601 Seminar in Media and Design Studies (4, FaSp) Creation of a work of digital culture, informed by cultural theory, and planned using current design methods and practices.

CTNV 602 Practice of Media Arts (4, max 8, FaSp) Introduction to a range of technologies and media types, while identifying and developing a specialization in one or more areas of practice.

CTNV 603 Media Arts and Practice Colloquium/Professional Seminar (1, max 2, FaSp) Orientation to the profession, opportunities, presentation and analysis of recent developments and applications in Media Arts and Practice. Graded CR/NC.

CTNV 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

ANIMATION (CTAN)

CTAN 101 Introduction to the Art of Animation (2, Fa) Theory and practice of graphic imagery in all its ramifications with emphasis on self exploration. Open to freshman animation majors only.

CTAN 102 Introduction to the Art of Movement (2, Sp) Theory and practice of graphic imagery using short animation projects including Zoetrope, drawing, painting and flipbooks. Emphasis on the frame by frame/frame to frame relationships. Open to freshman animation majors only. Prerequisite: CTAN 101.

CTAN 201 Introduction to Animation Techniques (3, Fa) Theory and practice of analog frame by frame time based media. Exploration and examination of ideas generated in the creation of animated media. Open to sophomore animation majors only. Prerequisite: CTAN 102.

CTAN 202 Advanced Animation Techniques (3, Sp) Examination of representational aspects of animation generated through character using short animated projects. Open to sophomore animation majors only. Prerequisite: CTAN 201.
CTAN 301 Introduction to Digital Animation (3, Fa) The fundamental principles of working in 2-D digital software with an emphasis on animation, story, sound, timing and execution. Open to junior animation majors only. Prerequisite: CTAN 202.

CTAN 302 Introduction to 3-D Computer and Character Animation (3, Sp) The fundamental principles of working in 3-D computer software with an emphasis on animation, performance, lip-syncing, timing and execution. Open to junior animation majors only. Prerequisite: CTAN 301.

CTAN 305 Professionalism of Animation (2, FaSp) Understanding the business of the animation industry. Developing presentation skills for interviewing and pitching, preparing personal marketing tools, researching employment opportunities, and practicing networking techniques. Open only to Animation and Digital Arts majors.

CTAN 330 Animation Fundamentals (2, Sp) An introduction to the fundamentals of animation, covering such topics as timing, anticipation, reaction, overlapping action, and metamorphosis.

CTAN 336 Ideation and Pre-Production (2, Sp) Emphasis on lateral thinking working across boundaries to find underlying principles in terms of ideation: the act of becoming an agent of ideas. Open to junior animation majors only.

CTAN 401ab Senior Project (4, 4, FaSp) a. Understanding the requirements and relationships between theory and practice regarding the complexity of an animated film in idea and execution. b. Completion and exhibition of the short animated film to demonstrate understanding and further examination of the possibilities of animation time-based graphic media. Open to senior animation majors only. Prerequisite: CTAN 302, CTAN 336.

CTAN 423L Principles of Digital Animation: Visualizing Science (2, FaSp) Principles of 2-D and 3-D digital animation applied to scientific themes and research topics. (Duplicates credit in former CTAN 523.)

CTAN 432 The World of Visual Effects (2, Sp) Introduction to the expanding field of visual effects; topics include magic lanterns shows, stop-motion fantasies and animation combination films employing the latest digital technologies.

CTAN 435 Story Art Development (2, FaSp) Using basic storyboarding techniques to develop a sense of character, plot, and continuity. Technical aspects of developing ideas into films.

CTAN 436 Writing for Animation (2, Fa) Workshop exploring concept and structure of long and short form animated films through practical writing exercises.

CTAN 443L 3-D Animation and Character Design (2, max 4, FaSp) Principles of 3-D animation and character design combining lectures, aesthetic concepts and techniques demonstrating the use of 3-D animation software and puppet animation. (Duplicates credit in former CTAN 543). Prerequisite: CTAN 452.

CTAN 448 Introduction to Film Graphics – Animation (4, FaSp) An introduction to methods for creating analog animation through experimentation with imagery, concepts and materials. Emphasis on basic timing principles and hands-on techniques.

CTAN 450abc Animation Theory and Techniques (2-2-2, FaSp) a: Methods for creating animation blending traditional techniques with contemporary technologies; b: instruction in methods for planning and executing a short animated film. Topics covered include storyboarding, visual development and production planning; c: practical completion of a short animated film.

CTAN 451 History of Animation (2, Fa) In-depth survey of historical developments, styles, techniques, theory and criticism of animation as an art form.

CTAN 452 Introduction to 3-D Computer Animation (2, max 4, FaSp) Lecture and laboratory in computer animation: geometric modeling, motion specification, lighting, texture mapping, rendering, compositing, production techniques, systems for computer-synthesized animation.

CTAN 455L Organic Modeling for Animation (2, FaSp) The art of digital sculpting for animated characters, with visual effects integration. Recommended preparation: CTAN 452 or CTAN 462.

CTAN 462 Visual Effects (2, FaSp) Survey of contemporary concepts and approaches to production in the current state of film and video effects work. Digital and traditional methodologies will be covered, with a concentration on digital exercises illustrating modern techniques.

CTAN 463L Creative Workflow in Visual Effects (2, FaSp) Spherical panoramic photography, 3-D digital environment techniques and a range of visual effects work while providing the stage for the student's storytelling. Prerequisite: CTAN 462.

CTAN 464L Digital Lighting and Rendering (2, FaSp) Concepts, tools and techniques used to create cinematic lighting and rendering in computer-generated imagery (CGI). Prerequisite: CTAN 452 or CTAN 462.

CTAN 465L Digital Effects Animation (2, FaSp) All aspects of digital effects animation, including particles, dynamics, and fluids. Creating water, fire, explosions, and destruction in film. Prerequisite: CTAN 452 or CTAN 462.

CTAN 470 Documentary Animation Production (2, FaSp) Examination of the history, techniques, and methods of documentary animation production. Collaboration on a short film project.

CTAN 495 Visual Music (2, Fa) Experimental animation providing the opportunity to produce individual or group projects. Focus is non-conventional techniques for image creation and collaboration between composer and visual artist. Not open to freshmen and sophomores.

CTAN 496 Directed Studies (2, max 4, FaSp) Individual research under faculty guidance. Open to animation majors only.

CTAN 499 Special Topics (2-4, max 8, FaSpSm) Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects.

CTAN 501 Experiments in 2-D Digital Animation (2, FaSp) Students realize an original project in film.

CTAN 502ab Experiments in Stereoscopic Imaging (2, Fa; 2, Sp) a: An in-depth exploration of aesthetics and techniques involved in the conceptualization, design and creation of stereoscopic imaging; b: Review of techniques and aesthetic issues pertinent to immersive virtual reality and stereoscopic animation. Students realize an original project proposed in CTAN 502a.

CTAN 503 Storyboarding for Animation (2, Sp) Focus on film grammar, perspective, and layout; staging and acting as it relates to storyboarding for animation.
Courses of Instruction

CTAN 505 The Business of Animation (2, Sp) Professional knowledge and application of fundamental business skills associated with working in the animation industry, academia or the arts.

CTAN 508L Live Action Integration with Visual Effects (2, Sp) Survey of the digital techniques required to successfully marry live action shooting with CGI elements and green screen footage. Prerequisite: CTAN 462.

CTAN 522 Animation Department Seminar (1, max 6, FaSp) A weekly seminar required of all MFA Animation students. This course includes guest speakers, faculty and student presentations followed by lively and critical discussion. Graded CR/NC.

CTAN 524 Contemporary Topics in Animation and Digital Arts (2, FaSp) Topics exploring the evolution of the brain, development of art, technology, science and culture. How this correlates to the evolution of animation-digital media.

CTAN 525 Gesture Movement for Animation (2, FaSp) The concepts of animation performance, body and facial gesture, and the emotional and psychological resonance through cinematic arts.

CTAN 536 Storytelling for Animation (2, Sp) Storytelling workshop for animators; application of dramatic techniques to visual concepts to derive three-dimensional stories which can serve as bases for finished films. Open only to Cinematic Arts students. (Duplicates credit in CTAN 436.)

CTAN 544 Introduction to the Art of Animation (3, Fa) Fundamentals of film, video and computer animation production. Orientation to assist students in determining future emphases and specialties. Open only to MFA Animation students.

CTAN 547 Animation Production I (3, Sp) Practicum in film, video and computer animation emphasizing the production process through individual projects. Open only to MFA Animation students. Prerequisite: CTAN 544.

CTAN 550 Stop Motion Puppet and Set Design (2, Fa) Puppet and set design for stop motion animation while providing guidance on armature rigs that allow the character to be animated effectively.

CTAN 555 Animation Design and Production (4, Fa) Exploring creative strategies to designing form and content. Developing style and investigating multiple techniques, including live action and sound. Production of a 30-60 second work. Open only to CTAN MFA students. Prerequisite: CTAN 547.

CTAN 563 Advanced Computer Animation (2, Irregular) Investigation of advanced computer techniques related to character representation and various types of algorithmically defined animation produced on either film or videotape. Prerequisite: CTAN 443L.

CTAN 564L Motion Capture Fundamentals (2, Fa) Fundamental principles of motion capture technology explored while working through a structured series of assignments based around performance, gesture and motion. Prerequisite: CTAN 452 or CTAN 462.

CTAN 565L Motion Capture Performance (2, Sp) The art of directing, acting, and creating story for motion capture will be explored while learning the technology behind bringing virtual actors to life. Prerequisite: CTAN 564.

CTAN 576 Seminar in Film/Television and New Technologies (4, Sp) Focus on film’s relationship to general technological developments, what it owes to technologies that preceded it, how it continues to develop in relation to emerging technologies and how it influences the shape of these newer technologies.

CTAN 577ab Fundamentals of Animation (a: 2, Fa; b: 2, Sp) The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Open only to MFA Animation students.

CTAN 579 Expanded Animation (2, Sp) Incorporation of traditional image making methods as well as digital and new media technologies to convey non-linear narratives over internal and external landscapes. Open only to MFA Animation and Digital Arts students.

CTAN 582 Basic Animation Production Technologies (2, Fa) Introduction for animation majors to the basic techniques and processes of film, video and computer systems, including cinematography, editing and sound. Open only to MFA animation and digital arts students. (Duplicates credit in former CTAN 482.)

CTAN 591 Animation Pre-Thesis Seminar (2, Sp) A pre-production seminar, where students complete the research, development, script and storyboards for their thesis project to be executed in CTAN 594ab. Open only to MFA Animation students only.

CTAN 592 Master Class (2-6, max 12, Fa) A special projects course in which students produce a major work through weekly meetings with a master artist/animator. Topics must be approved prior to enrollment. Recommended preparation: previous advanced animation production experience.

CTAN 593 Directed Studies in Animation (2, max 4, FaSp) Individual exploration in the areas of contemporary technology, animation techniques or experimental film through internships, residencies or directed studies.

CTAN 594abz Master’s Thesis (2-2-0) Credit on acceptance of thesis. Graded IP/CR/NC.

CTAN 599 Special Topics (2-4, max 8, Irregular) Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects.

CRITICAL STUDIES (CTCS)

CTCS 190 Introduction to Cinema (4, FaSp) Gateway to the majors and minors in cinema-television. Technique, aesthetics, criticism, and social implications of cinema. Lectures accompanied by screenings of appropriate films.

CTCS 191 Introduction to Television and Video (4, FaSp) Exploration of the economic, technological, aesthetic, and ideological characteristics of the television medium; study of historical development of television and video including analysis of key works; introduction to TV/video theory and criticism.

CTCS 192m Race, Class, and Gender in American Film (4, Sp) Analyzes issues of race, class and gender in contemporary American culture as represented in the cinema.

CTCS 200 History of the International Cinema I (4, Fa) The development of international cinema from its beginnings to World War II. Lectures, screenings, and discussions.

CTCS 201 History of the International Cinema II (4, Sp) The development of international cinema from World War II to the present. Lectures, screenings, and discussions.

CTCS 306 Research Practice Seminar (2, max 4) Theories and case studies of contemporary issues in film, television and digital media research. Students will be required to design their own undergraduate research projects. Not open to freshmen.

CTCS 367 Global Television and Media (4, Irregular) Studies in the global configurations of television industries and cultures, including new technologies and the textual and sociological analysis of global media events and programming.

CTCS 373 Literature and Film (4) (Enroll in COLT 373)

CTCS 379 Nationalism and Postcolonialism in Southeast Asian Cinema (4) (Enroll in COLT 379)

CTCS 400 Non-Fiction Film and Television (4, Fa) An international survey of documentary, informational, and independent experimental film, video and television.

CTCS 402 Practicum in Film/Television Criticism (4, max 8, FaSp) Exercise in writing film and television criticism using new and classic films and television programs.

CTCS 403 Studies in National and Regional Media (4, max 8, FaSp) Detailed investigation of traditions, achievements, and trends of film and/or electronic media in a particular country or region.

CTCS 404 Television Criticism and Theory (4, Sp) The evaluation of television programs and their reception from various theoretical perspectives which may include cultural studies, race and ethnic studies, psychosanalysis, gender and queer studies, and semiotics.

CTCS 406 History of American Television (4, Fa) History of television as an entertainment, information, and art medium. Emphasis on programming and institutional history, including issues of regulation, censorship, aesthetics and activism.

CTCS 407 African American Cinema (4, Irregular) Intensive study of African American cinema; topics include history, criticism, politics, and cinema’s relationship to other artifacts of African American culture.

CTCS 408 Contemporary Political Film and Video (4) Examination of a variety of politically engaged films and videotapes recently produced in the U.S. and abroad, with particular emphasis on aesthetic strategies.

CTCS 409 Censorship in Cinema (4, Fa) An inquiry into the practice and patterns of censorship in cinema.

CTCS 411 Film, Television and Cultural Studies (4, max 8, FaSp) Detailed examination of film/television from the perspectives and insights of Cultural Studies; focus on the production and reception of cultural texts, practices, and communities.

CTCS 412 Gender, Sexuality and Media (4, max 8, FaSp) Examines how gender and sexuality are figured in cinema and television with an emphasis on the development of feminist media theory.

CTCS 414 Latina/o Screen Cultures (4, FaSpSm) Examination of Latino/a moving image production including film, video, and digital media in the context of the politics of race, class, gender, sexuality, and international relations.

CTCS 446 Film and/or Television Genres (4, max 8, FaSpSm) Rigorous examination of film and/or television genres: history, aesthetics, cultural context, social significance, and critical methodologies.

CTCS 466 Theatrical Film Symposium (4, max 8, FaSp) Lectures and readings on creative problems in the motion picture industry; current films; interviews with visiting producers, directors, writers, performers.

CTCS 467 Television Symposium (4, max 8) Lectures and readings on creative problems in the television industry; study of current and historical trends, interviews with producers, directors, writers and performers.

CTCS 469 Film and/or Television Style Analysis (4, max 8, FaSpSm) Intensive study of the style of an auteur, studio, film or television making mode in terms of thematic and formal properties and their influences upon the art of film.

CTCS 473 Film Theories (4, FaSp) Influential ideas and theoretical approaches that have shaped the making and study of film. Students are encouraged to take this course in their junior year. Prerequisite: CTCS 190.

CTCS 478 Culture, Technology and Communications (4, FaSp) Cultural study of communications technology and its relationship to society. Evaluation of the social and cultural impact of technologies from the telegraph to the Internet.

CTCS 482 Transmedia Entertainment (4, FaSp) An examination of transmedia, or cross-platform, entertainment: commercial and grassroots texts, theoretical framework, historical context, and commercial projects. Developing transmedia strategies for existing media properties.

CTCS 494 Advanced Critical Studies Seminar (4, max 8, FaSp) Rotating topics involving detailed study of the historical, cultural and aesthetic analysis of film, television, and new media technologies. Not open to freshmen.

CTCS 495 Honors Seminar (4, Sp) Advanced work in the historical, cultural and aesthetic analysis of film, television, and new media technologies. Open only to students in the CTCS Honors program. Prerequisite: CTCS 473.

CTCS 499 Special Topics (2-4, max 8, FaSpSm) Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects.

CTCS 500 Seminar in Film Theory (4, Fa) Introduction to classical and contemporary film theory; exploration of their relationship to filmic experimentation.

CTCS 501 History of Global Cinema Before World War II (2, Sp) Historical survey of global cinema from its beginnings until the advent of World War II.

CTCS 502 History of Global Cinema After World War II (2, Fa) Historical survey of film from a global perspective from the beginning of World War II until the present.

CTCS 503 Survey History of the United States Sound Film (2, Sp) Survey history of the United States film from 1927 to the present, with emphasis upon film as art form, economic institution, technology, and cultural product.
CTCS 504 Survey of Television History (2, Sp) An exploration of the historical, cultural, business, creative, and technological aspects of television.

CTCS 505 Survey of Interactive Media (2, Fa) A survey course exploring the historical, cultural, business, creative and technological aspects of the new interactive media.

CTCS 506 Critical Studies Colloquium/ Professional Seminar (2, Fa) Provides orientation to the profession, opportunities for academic and professional growth and development. Recommended for entering students.

CTCS 510 Case Studies in National Media and/or Regional Media (4, max 12, FaSp) Seminar on media's impact in defining nation and/or region in specific cultural contexts. Also addresses issues of exile, diaspora, transnationalism and globalization.

CTCS 517 Introductory Concepts in Cultural Studies (4, Fa) Introduction to central concepts, key theories, and/or leading figures in cultural studies, particularly as they relate to issues of popular culture and visual media.

CTCS 564 Seminar in Film and Television Genres (4, max 8, FaSp) Advanced study of a selected genre of film and/or television – its relationship to history, society, and culture, as well as to genre theory.

CTCS 567 Seminar in Film/Television and a Related Art (4, max 8, Irregular) Historical, critical, aesthetic, and theoretical issues raised by a comparison of cinema and television and other allied art forms.

CTCS 569 Seminar in Film/Television Authors (4, max 8, Irregular) Seminar in the style of an auteur, studio, filmmaking, or televisual mode in terms of thematic and formal properties and their influences upon the art of film and/or television.

CTCS 585 Seminar in Film/Television Critical Theory and Production (4, Irregular) A co-taught theory/production seminar, in which the study of media texts will be combined with media production informed by the theoretical study. Specific themes and area of focus may vary.

CTCS 587 Seminar in Television Theory (4, max 8, Sp) Detailed investigation and discussion of various aspects of television, including genre, textual analysis, production and distribution systems and audience studies.

CTCS 599 Special Topics (2-4, max 8, Irregular) Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects.

CTCS 673 Topics in Theory (4, max 8, FaSp) Contemporary theoretical frameworks and their relationship to film and television studies. Topics differ from semester to semester.

CTCS 677 Cultural Theory (4, max 8, FaSp) Seminar in theoretical approaches to cultural studies; focus on interdisciplinary research of media and audiences, covering a range of methods and theoretical frameworks; concentration varies.

CTCS 678 Seminar in Film Theory and Medium Specificity (4, max 8, Irregular) Explores the way film has been theorized in relationship to traditional media that preceded it and electronic media that followed.

CTCS 679 Seminar in Genre and/or Narrative Theory (4, max 8, Irregular) Seminar in theoretical issues concerning genre and/or narrative as they pertain to media, literature or cultural forms. Areas of focus vary from semester to semester.

CTCS 688 Moving Image Histories: Methods and Approaches (4, FaSpSm) Research seminar in methods and approaches to moving image history including film, television, and digital media. Focus on archival research and issues in writing history.

CTCS 690 Special Problems (1-12, FaSpSm) Field production; organization and administration of local film-producing units; experimental aspects of film communication; advanced work in film history and criticism; teaching cinema. Graded CR/NC.

CTCS 700 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

CTCS 791 Historical and Critical Research Methods (2, max 4, FaSp) Methods and procedures for historical and critical research in the visual media. Required tutorial with Ph.D. student's dissertation committee chair, designed to assist initial work on dissertation.

CTCS 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

INTERACTIVE MEDIA (CTIN)

CTIN 309 Introduction to Interactive Entertainment (4, FaSp) Critical vocabulary and historical perspective to analyze and understand experiences with interactive entertainment; students imagine and articulate their own ideas.

CTIN 400 Fundamentals of Procedural Media (2, Fa) Introduction to the procedural nature of interactive media. Developing proficiency in procedural literacy and reading computational media.

CTIN 401L Interface Design for Games (2, Fa) Introduction to the aesthetics, terminology and common trends of interface design for games. Topics include 2-D and 3-D spaces and user/camera perspectives.

CTIN 403L Advanced Visual Design for Games (2, Sp) Concepts and methods of usability assessment. The emphasis will be on understanding the issues surrounding game interfaces, and utilizing usability assessment methods.

CTIN 405L Design and Technology for Mobile Experiences (2, Sp) Critical and pragmatic insights into designing mobile experiences and technology. Design groups will develop a mobile project using principles from readings and class discussions.

CTIN 406L Sound Design for Games (2, Sp) Introduction to the techniques, terminology, and implementation of sounds in games, including establishing a sense of place and concepts of realistic sound.

CTIN 456 Game Design for Business (2, Sp) Designed to provide the business professional with effective communication skills in working with the designers of games and game related venues. Not open to CTIN majors.

CTIN 458 Business and Management of Games (2, FaSp) Overview of current business models in games and interactive media, methods for pitching and getting products funded; copyright and intellectual property.
CTIN 459L Game Industry Workshop (4, Fa)
Exploration of industry-related game play research questions. Student teams will develop concepts and materials to solve a research problem posed by an industry partner. Prerequisite: CTIN 488; recommended preparation: CTIN 489.

CTIN 462 Critical Theory and Analysis of Games (4, Sp)

CTIN 463 Anatomy of a Game (4, Fa)
Examine two game products from concept to delivery; introduce students to each of the professional disciplines involved in making digital games. Recommended preparation: CTIN 488.

CTIN 464 Game Studies Seminar (2, max 4, Fa)
Rigorous examination of interactive entertainment: genres, history, aesthetics, cultural context, and social significance. Topics vary by semester.

CTIN 482 Designing Online Multiplayer Game Environments (2, Fa)
Grouped into teams, students will study and design an original multiplayer game environment suitable for online usage. (Duplicates credit in former CNTV 482.)

CTIN 483 Introduction to Game Development (4, FaSp)
Introduction to technical and creative aspects of game development, including the art of creating the digital game prototype and development of 2D games.

CTIN 484L Intermediate Game Development (2, FaSpSm)
Advanced topics in game programming and implementation such as using game engines, creating digital prototypes, player controls and level design. Prerequisite: CTIN 483, CTIN 488 or CTIN 541; concurrent enrollment: CTIN 489.

CTIN 485L Advanced Game Development (2, Sp)
Advanced concepts in 3-D game development: story and character progression, emergent game-play, comprehensive game mechanics, and artificial intelligence. Prerequisite: CTIN 483, CTIN 484L, CTIN 488, CTIN 489.

CTIN 486 Immersive Design Workshop (2, Sp)
Design of game projects using immersive input devices. Development of play mechanics, feedback systems and game design for immersive environments.

CTIN 488 Game Design Workshop (4, FaSp)
Theory and evaluation of interactive game experiences and principles of game design utilizing the leading software approaches and related technologies. Recommended preparation: CTIN 309, CTIN 483.

CTIN 489 Intermediate Game Design Workshop (2, FaSp)
A follow-up to the introductory game design class, this course will introduce more advanced concepts in game design and game theories, including ideation, digital prototyping and level design. Prerequisite: CTIN 483, CTIN 488 or CTIN 541; concurrent enrollment: CTIN 484.

CTIN 490x Directed Research (2-8, max 8, FaSpSm)
Individual research and readings. Not available for graduate credit.

CTIN 491L Advanced Game Project I (4, max 8, Fa)
Students work in teams on pre-production and prototyping of a functional digital game suitable for distribution via the web and/or submission into independent games festivals. (Duplicates credit in former CTIN 491a.) Recommended preparation: CTIN 483, CTIN 484, CTIN 488, CTIN 489.

CTIN 492L Experimental Game Topics (4, max 8, FaSp)
Development of a game around a custom-made physical interface; various technologies and techniques involved in a software/hardware integration; peripheral design.

CTIN 493L Advanced Game Project II (2, max 4, Sp)
Students work in teams to polish and finalize a functional digital game suitable for distribution via the web and/or submission into independent games festivals. (Duplicates credit in former CTIN 491b.)

CTIN 495 Internship in Interactive Media (2, max 4, FaSpSm)
Interactive Media industry experience in the specific area of interest to the individual student. Open only to upper division undergraduate and graduate students.

CTIN 499 Special Topics (2-4, max 8, FaSpSm)
Detailed investigation of new or emerging aspects of cinema, television, and/or interactive media; special subjects offered by visiting faculty; experimental subjects.

CTIN 501 Interactive Cinema (2, FaSp)
Provide students with a vocabulary of conceptual and artistic means to create computer based interactive works.

CTIN 502ab Experiments in Stereoscopic Imaging (2) (Enroll in CTAN 502ab)

CTIN 511 Interactive Media Seminar (1, max 4, FaSp)
Seminars on latest trends in interactive media content, technology, tools, business and culture. Graded CR/NC.

CTIN 520 Experience and Design of Public Interactives (2, Sp)
Introduction to the design of public interactives, the meaning of built space and environmental experiences, and the relationship between interactivity and social communication.

CTIN 532 Interactive Experience and World Design (4, Fa)
The development of interactive experiences with an emphasis on writing and development. Open to Interactive Media MFA students only. Prerequisite: CTWR 518.

CTIN 534L Experiments in Interactivity I (4, Fa)
Experimental studio course to explore concepts of structure, aesthetics and content of interactive experience design. Lecture, 2 hours; laboratory, 2 hours.

CTIN 541 Design for Interactive Media (2, Fa)
Practical exploration and practice on the fundamental technical and aesthetic principles in the design of interactive media. Students will develop design and prototyping skills.

CTIN 542 Interactive Design and Production (4, Sp)
Interactive design, production, prototyping and testing of projects developed in CTIN 532. Open to Interactive Media MFA students only. Prerequisite: CTIN 532.

CTIN 544 Experiments in Interactivity II (2, Sp)
Experimental studio course in application of technology to interactive experience. Open to Interactive Media MFA students only. Prerequisite: CTIN 534.

CTIN 548 Preparing the Interactive Project (2, Sp)
An advanced production workshop in which students design and prepare for the production of their advanced project. Open to Interactive Media MFA students only. Prerequisite: CTIN 532.

CTIN 555ab Advanced Interactive Project (4-4, FaSp)
A two-semester sequence in which students produce and test an advanced interactive project. Open to Interactive Media MFA students only. Prerequisite: CTIN 548.

CTIN 558 Business of Interactive Media (2, Fa)
In-depth investigation of publication, distribution, business and legal aspects of the interactive entertainment business.
CTIN 584abcz Individual Interactive Workshop (4-2-2-0) Individual experimental projects involving the creative use of interactive media and film production skills.

CTIN 585 Graduate Interactive Group Project (4, max 8) Students work in small, interdisciplinary teams on focused interactive projects which approach professional levels of creative, intellectual, interpretive, and aesthetic performance.

CTIN 590 Directed Research (1-12, FaSpSm) Research project leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department.

CTIN 594abz Master’s Thesis (2-2-0, FaSp) Credit on acceptance of thesis. Graded IP/CR/NC. Open to MFA, Interactive Media majors only. Prerequisite: CTIN 548.

CTIN 599 Special Topics (2-4, max 8, FaSpSm) Detailed investigation of new or emerging aspects of interactive media; special subjects offered by visiting faculty; experimental subjects.

PRODUCTION (CTPR)

CTPR 240x Practicum in Production (2 or 4, Sm) Basic production techniques: introduction to the cinematic elements, production techniques, and equipment; film and/or videotape production. Not available for major credit to CTPR majors.

CTPR 241 Fundamentals of Cinema Technique (2, FaSp) Introduction to cinema production techniques and equipment including producing, directing, camera, lighting and editing. Open to Cinema-Television majors only. Concurrent enrollment: CTPR 290.

CTPR 242 Fundamentals of Cinematic Sound (2, FaSp) Introduction to sound design, recording, editing, mixing and finishing. Lectures, demonstrations and exercises. Open to production majors only. Concurrent enrollment: CTPR 290.

CTPR 280 Structure of the Moving Image (2, FaSp) Basic theory and application of the concepts of time, space, composition, movement, light and color in motion picture production. Open to production majors only.

CTPR 288 Originating and Developing Ideas for Film (2, FaSp) Exercises in observation, imaginative association, visualization, etc., that deepen the creative process, leading to ideas, stories, characters and images for narrative, documentary and experimental films.

CTPR 290 Cinematic Communication (4-6, FaSp) Introduction to filmmaking as related to cinematic expression, aesthetics, criticism, and ethics. Individual film projects. Open to Cinema-Television majors only. Prerequisite: completion of GEs; concurrent enrollment: CTPR 241, CTPR 242 (CTPR 242 for production majors only). CTPR 413.

CTPR 301 Creating the Non-Fiction Film (4, 5p) Research and writing challenges of non-fiction film (documentary, educational, industrial, political, etc.), from treatment to finished script. (Duplicates credit in former CTWR 319.)

CTPR 310 Intermediate Film Production (4, FaSp) Basic principles of visual and audio communication; idea development using image, movement, pace, the spoken word and other sounds; action and sound relationships; individual projects. Prerequisite: CTPR 241, CTPR 242, CTPR 290, and CTWR 413; concurrent enrollment: CTPR 376.

CTPR 319 Directing for Writers: Fundamentals (2, 5p) A workshop in which students will direct original scene material in a stage environment on class time. Director’s role and responsibilities, the process of translating the written word into image and action; basics of camera, working with actors and staging; working with and in various crew roles in a production team; editing dialogue scenes. Open to BFA Writing for Screen and Television students only. (Duplicates credit in former CTWR 319.)

CTPR 327 Motion Picture Camera (3, FaSpSm) Use of motion picture camera equipment; principles of black-and-white and color cinematography. Individual projects.

CTPR 335 Motion Picture Editing (3, FaSp) Theory, techniques, and practices in picture editing; use of standard editing equipment; individual projects.

CTPR 340 Motion Picture Sound Editing (2, Fa) Techniques and aesthetic principles for recording and editing dialogue, music, and sound effects for film, television and other media.

CTPR 371 Directing for Television (4, FaSp) Preparation of director’s preproduction block-out; study of direction for live, tape, and film production, for both dramatic and informational television.

CTPR 375 Functions of a Director (4, 5p) Theoretical considerations of the director in relationship to the multiple facets of film production.

CTPR 376 Intermediate Cinematography (4, FaSp) Intermediate cinematography workshop; practical problems and assignments. Prerequisite: CTPR 241, CTPR 242, CTPR 290 and CTWR 413; concurrent enrollment: CTPR 310.

CTPR 382 Advanced Multi-Camera Television Comedy Pilot (4, FaSp) A hands-on course which allows students to experience all aspects of multi-camera television production by creating a pilot episode of a situation comedy. Recommended preparation: experience working at Trojanvision.

CTPR 385 Colloquium: Motion Picture Production Techniques (4, FaSpSm) Basic procedures and techniques applicable to production of all types of films; demonstration by production of a short film from conception to completion.

CTPR 386 Art and Industry of the Theatrical Film (4, FaSp) Detailed analysis of one theatrical film from conception through critical reception to develop an understanding of motion pictures as art, craft, and industry.

CTPR 405 Filmic Expression (4, Irregular) Creative aspects of film production; analysis of audio and visual forces that make the film an expressive means of communication; individual projects. Lecture-demonstration. Prerequisite: CTPR 310, CTPR 376.

CTPR 409 Practicum in Television Production (2, 4, max 8, FaSp) Television production laboratory course covers operating cameras, creating graphics, technical operations, controlling audio and floor-managing live productions. Students plan and produce actual Trojan Vision programs.

CTPR 410 The Movie Business: From Story Concept to Exhibition (2, FaSp) Examination of the industry from story ideas through script development, production and exhibition; evaluation of roles played by writers, agents, studio executives, marketing and publicity.

CTPR 419 Directing for Writers: Intermediate (2, Fa) Advanced directing considerations and techniques applied through the directing of 2-3 scenes each outside of class on-location. Emphasis on considerations of art direction, cinematography, and staging techniques; editing concerns are explored in greater depth. Open to BFA Writing for Screen and Television students only. Prerequisite: CTPR 241, CTPR 290; recommended preparation: CTPR 318, CTPR 319.
CTPR 421 Intermediate Motion Picture Editing (3, FaSp) Intermediate motion picture editing workshop; practical problems and assignments encompassing film, video, and non-linear editing techniques. Intermediate editing class for undergraduates. Open to CNTV Production students only. Prerequisite: CTPR 310.

CTPR 422 Makeup for Motion Pictures (2, FaSp) Lecture-laboratory in makeup relating it to mood of the story and emulsion of the camera stock.

CTPR 423 Introduction to Special Effects in Cinema (2, FaSp) Introductory workshop in the aesthetics and practices of special effects, embracing both the classical and contemporary modes.

CTPR 424 Practicum in Cinematography (4, FaSp) Camera and lighting workshop in color. In-class exercises working in professional film crew positions that rotate each week. Class starts with 35mm still photography and moves into motion picture in 16mm and digital formats. Prerequisite: CTPR 327 or CTPR 376.

CTPR 425 Production Planning (2, FaSp) Theory, discussion, and practical application of production planning during preproduction and production of a film.

CTPR 426 The Production Experience (2, FaSp) To provide students with basic working knowledge of both the skills of the motion picture set and production operations through classroom lectures and hands-on experience.

CTPR 427 Introduction to Color Correction (2, FaSpSm) Exploration of the various aspects of color correction and how it can enhance storytelling. Prerequisite: CTPR 310 or CTPR 508.

CTPR 428 Summer Production Workshop (2-4, max 8, Sm) To investigate disciplines of Cinema-TV with emphasis on one of the following areas: writing, directing, editing, camera, sound, editing, producing, interactive, computer animation or digital.

CTPR 436 Editing for Writers (2, FaSp) Principles, techniques, practices and theories of editorial construction of film and television to help develop storytelling skills. Lectures and laboratory. Open to BFA Writing for Screen and Television students only. Prerequisite: CTPR 241; CTPR 290; recommended preparation: CTPR 319.

CTPR 439 Seminar in Computer Editing (2, Sp) Examines the differences between linear and non-linear editing systems through practical exercises, lecture, and demonstrations.

CTPR 444 Still Photography: Color, Black and White, Film, and Digital (4, Sp) Camera and lighting techniques, with an emphasis on aesthetics and personal expression. Regular in-class studio and location shooting, culminating in long-term final project.

CTPR 451 Guerrilla Television (2, Fa) A history of TV made outside the mainstream, from the “guerrilla television” movement of the ’70s to the best Independent TV of the ’90s. This course is taught from the producer’s/creator’s point of view.

CTPR 452 Independent Video Production (2, FaSp) Documentary production course specifically designed to explore the non-traditional uses of digital video. Prerequisite: CTPR 451.

CTPR 453 Personal Voice: Documentary/Experimental Production (4) A production workshop that trains students to use personal experience as the basis for their story material and video products in the tradition of diaristic literature, solo theatrical performance and personal voice media. Recommended preparation: THTR 479.

CTPR 454 Acting for Film and Television (4, FaSp) Intensive examination of skills and techniques necessary for successful performances in film and television. Practical application through in-class exercises and assigned projects.

CTPR 455 Introduction to Production Design (2, FaSp) Structure of the filmic art department, fundamentals and application of design principles to film and television, including script breakdown, design concepts and storyboarding.

CTPR 456 Introduction to Art Direction (2, FaSp) Introduction to computer drafting, set design, rendering and model-making for students with diverse abilities. Guest lectures, group discussions and hands-on workshop.

CTPR 457 Creating Poetic Cinema (2, Fa) An investigation of poetic cinema from four different perspectives: found poetry; applied poetry; poetry as image; and poetry in narrative fiction. Production of short films.

CTPR 458 Organizing Creativity: Entertainment Industry Decision Making (2, FaSp) Analysis of the unique structures in the entertainment industry for organizing and managing creativity. Students research and chart pathways to leadership.

CTPR 460 Film Business Procedures and Distribution (2 or 4, max 8, FaSpSm) Financing, budgeting, management as applied to films; problems of distribution, including merchandising, cataloging, evaluation, and film library management.

CTPR 461 Managing Television Stations and Internet Media (2, FaSpSm) Managing electronic media, including radio and television stations, broadcast and cable networks, and the Internet.

CTPR 468 The Film Makers (4, FaSp) To define the roles and goals of production designers, cinematographers, editors, and directors by meeting and discussing with them their responsibilities in the filmmaking process. Prerequisite: CTPR 290.

CTPR 470 Practicum in On-screen Direction of Actors (4, FaSp) Concentration on the basic skills in working with actors from a director’s point of view.

CTPR 472 Non-Theatrical Aspects of Film and TV Producing (2, max 4, FaSpSm) Basic film and TV business procedures: financing, production design, planning, management, and marketing of non-theatrical film and television products.

CTPR 473 Directing the Composer (2, Sp) Acquaints aspiring filmmakers (who have no musical background) with the fundamental concepts of film music from theoretical, creative, and pragmatic standpoints. Open to Cinema-Television majors only.

CTPR 474 Documentary Production (4, FaSpSm) Pairs produce, direct, shoot, and edit a short documentary on a subject of their choice. Finished projects will be suitable for broadcast/festivals.

CTPR 475 Directing: Mise-en-Scene (4, FaSpSm) Through a semester-long collaboration, directors and actors learn how to work and communicate with each other while shooting two scenes on camera per director. Prerequisite: CTPR 310, CTPR 376.

CTPR 476 Directing The Comedic Scene (2, FaSpSm) Directing comedy: casting, rehearsing, directing actors, scene analysis, staging, shooting, and editing, leading to the filming of a two-person comic scene.

CTPR 477 Special Problems in Directing (2 or 4, max 8, FaSp) Detailed investigation and analysis of problems in directing. Individual projects. Prerequisite: CTPR 310 and CTPR 376.
Courses of Instruction

CTPR 479 Single Camera Television Dramatic Pilot (2, Fa) Collaborative writing, preproduction and shooting of a pilot act for an original episodic television drama, shot on stage sets built for the show.

CTPR 480 Production Workshop I (4, max 12, FaSp) Intermediate practical work in film production; creative use of camera, sound, editing, and production planning. Open to Cinema-Television majors only. Prerequisite: CTPR 310, CTPR 376.

CTPR 481abL Cinema Workshop (2-2, FaSpSm) Practical experience in motion picture production. (Duplicates credit in CMPP 541abL)

CTPR 484 Advanced Multi-Camera Television Workshop (4, max 8, FaSp) Exercises and practical application for writing and producing a multi-camera television project. Special attention to the development of the sitcom. Recommended preparation: CTPR 371 required for students who wish to direct a sitcom.

CTPR 485 Production Workshop II (4, Irregular) Intermediate experience in group filmmaking affording expanded areas of responsibilities. Take directorial responsibility or two areas different from those taken in CTPR 480. Lecture and laboratory workshop in conjunction with CTPR 480. Prerequisite: CTPR 480.

CTPR 486 Single Camera Television Dramatic Series (4, Sp) Collaborative production and post-production of an original episodic drama, shot on original sets on stage and on location. Recommended preparation: CTPR 479.

CTPR 487 The Recording Studio in Film and Video Production (2) Exploration of the role of the recording studio in professional film and video productions. Emphasis on technical and hardware considerations.

CTPR 489 Television Docudrama Production (4) Research, planning, and production of the docudrama.

CTPR 493 Senior Television Seminar (2 or 4, max 4, FaSp) Detailed investigation and discussion of various aspects of television.

CTPR 495 Internship in Cinematic Arts (1, 2 or 4, max 4, FaSpSm) On-the-job film, television and interactive industry experience in the areas of interest of the individual student. Requires departmental approval.

CTPR 496 The Film Industry: Career Challenges and Choices for Women (2, FaSp) This class discusses women’s roles in the entertainment industry and career opportunities available for women in the business, corporate and creative sectors.

CTPR 497 Music Video Production (2, FaSp) Writing the concept, budgeting, shooting, editing and directing a music video. Also covered: getting the job, dealing with the band, working with the record company. Prerequisite: CTPR 241, CTPR 290, CTPR 310.

CTPR 499 Special Topics (2-4, max 8, FaSpSm) Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects.

CTPR 504 Fundamentals of Production (4, FaSpSm) Each student writes/directs a group exercise; includes: collaboration, script breakdown, storyboards, casting, directing, camera operation, expressive cinematography, scene structure, AVID, editing and sound design. Graded CR/NC.

CTPR 506 Visual Expression (2, FaSp) Definition, analysis, and structure of the visual components that make film an expressive medium; theory and practical application; individual projects and lecture/demonstration. Prerequisite: CTAN 547 or CTIN 534 or CTPR 504 or CTPR 507.

CTPR 507 Production I (4, FaSpSm) The effective communication of ideas through the language of cinema; one directing exercise; two short HD projects; introductions to producing, directing, editing, cinematography, and sound. Open only to Cinematic Arts graduate students.

CTPR 508 Production II (6, FaSpSm) Practicum in group production, emphasizing the collaborative process and the expressive use of sound and image. Open to graduate students only. Prerequisite: CTPR 507, CTPR 510, CTWR 505; concurrent enrollment: CTPR 509.

CTPR 515 Global Exchange Workshop (2, Sm) An intense workshop in documentary filmmaking. Student teams from USC and a Chinese university make short documentaries on Los Angeles and Beijing as global cities.

CTPR 522 Reality Television Survey (2, FaSpSm) A comprehensive overview of the world of reality television; each student will develop and pitch an original reality-based program. Prerequisite: CTAN 547 or CTIN 534 or CTPR 507.

CTPR 523 Introduction to Multiple-Camera Production (2, FaSp) How to direct comedy or dramatic scenes, using multiple camera techniques. Students also serve as crew members, learning lighting, mixing, studio controls, and stage management. Prerequisite: CTPR 508.

CTPR 527 Special Effects in Cinema (2 or 4, max 4, Irregular) Lecture, discussion, and exercises in optical and/or mechanical special effects. Prerequisite: CTPR 241 and CTPR 290.

CTPR 530 Producing for Independent Films (2, FaSp) Producing film, television and multimedia productions. Focuses on business procedures, production design, planning, budgeting, management, marketing, financing, and the structures and practices of the industry.

CTPR 531 Planning the Production (2, max 6, FaSp) A preproduction workshop in which students complete the research and planning of an intermediate project to be executed in CTPR 547. Prerequisite: CTPR 508.

CTPR 532 Intermediate Directing (2, FaSp) Practical experience in staging dramatic narrative scenes, emphasizing directing actors, rehearsal techniques and camera blocking. Prerequisite: CTPR 508.

CTPR 533 Directing Techniques (2, FaSp) Practicum in more complex directing issues concentrating both on performance and exploration of shaping scenes visually through blocking of action and placement of camera. Prerequisite: CTPR 532.

CTPR 534 Intermediate Production Design (2, Irregular) Exercises in production design concentrating on practical and aesthetic approaches to designing for film, television and commercials. Prerequisite: CTPR 508.

CTPR 535 Intermediate Editing (2, FaSp) Editorial construction of film sequences to analyze the interrelationships of the various film elements, both visual and aural. Prerequisite: CTPR 508 or CTAN 547.

CTPR 536 Editing for Scriptwriters (2, FaSp) Principles, techniques, practices and theories of editorial construction of film and TV scenes and sequences. Lecture, 2 hours; laboratory, 1 hour. (Duplicates credit in former CTWR 536.) Open to MFA Writing for Screen and Television students only.
CTPR 537 Intermediate Cinematography (2, FaSp) Close study through practical exercises of the technical and aesthetic principles of cinematography. Prerequisite: CTPR 508 or CTAN 547.

CTPR 538 Intermediate Producing (2, FaSp) Definition, examination and practical experience in the role of the line producer as it relates to preproduction, production and post-production. Prerequisite: CTPR 508.

CTPR 539 Intermediate Graphics (2, Irregular) An investigation into the nature and meaning of graphic concepts relative to their use in film and video. Prerequisite: CTPR 508.

CTPR 540 Intermediate Sound (2, FaSp) Practical and aesthetic considerations relating to recording, editing and sound design. Prerequisite: CTPR 507 or CTAN 547.

CTPR 541 Intermediate Electronic Imaging (2, Irregular) Technical and creative aspects of electronic imaging such as high definition television, multi-media, and digital television. Emphasis on understanding potential and limitations of state-of-the-art technologies. Prerequisite: CTPR 508.

CTPR 543 Editing the Advanced Project (2, Irregular) Utilitarian seminar focused on editing advanced projects. Open to Cinema Television production students only. Corequisite: CTPR 481a, CTPR 581a, CTPR 586a or CTPR 587a.

CTPR 544 Intermediate Multi-Camera Television Workshop (4, FaSp) Practicum in the creative usage of multi-camera and single camera electronic production techniques. Students will complete an 8-12 minute video piece using three camera production procedures. Open to production majors only. Prerequisite: CTPR 508.

CTPR 546L Production III, Fiction (6, max 12, FaSp) An intensive workshop experience in which students, creating in area of specialization, complete the shooting and post-production of projects up to thirty minutes in length. Qualifying courses: for directors, CTPR 532, and for cinematographers, CTPR 537; prerequisite: CTPR 508.

CTPR 547L Production III, Documentary (6, max 12, FaSp) Intensive workshop; students shoot and finish documentary projects up to about 25 minutes. Qualifying courses: for directors, CTPR 531 and crewing on either CTPR 546L or CTPR 547L; prerequisite: CTPR 508.

CTPR 552 Advanced Directing (2, FaSp) An advanced production class in directing. Encounters with experienced directors; and individual student production of a short. Prerequisite: CTPR 533 or CTPR 546L.

CTPR 553 Developing the Advanced Project (1, FaSp) Script workshop for advanced projects. Covers key screenplay elements, including protagonist and objective, conflict, obstacles, premise and opening, main tension, emotional throughline, etc. Prerequisite: CTPR 508.

CTPR 554 Advanced Sound (2, FaSp) Study of the technical and aesthetic elements of sound design at the professional level. Intended for those contemplating a career in the field of audio. Prerequisite: CTPR 540 or one of the following in equivalent crew position: CTPR 523, CTPR 546L, CTPR 547L.

CTPR 555 Advanced Production Design (2, Irregular) Execution of a complete production design including script breakdown, storyboards, production sketches, plans, elevations and a color model. Prerequisite: CTPR 534.

CTPR 556 Advanced Editing (2, FaSp) Advanced editorial theory and practice intended for those specializing in film and electronic editing. Prerequisite: CTPR 535 or one of the following in equivalent crew position: CTPR 523, CTPR 546L, CTPR 547L.

CTPR 557 Advanced Cinematography (2, FaSp) Advanced camera and lighting techniques for those considering a professional career in cinematography. Prerequisite: CTPR 537 or one of the following in equivalent crew position: CTPR 523, CTPR 546L, CTPR 547L.

CTPR 558 Advanced Producing (2, Irregular) Defines and examines the role of the Executive/Feature Producer through the preproduction, production and post-production phases. Prerequisite: CTPR 538 or CTPR 546L or CTPR 543.

CTPR 559 Advanced Graphics (2, Irregular) Advanced study in graphic film/video production including writing, graphic arts, camera, editing and sound. Prerequisite: CTPR 539.

CTPR 560 Seminar in Motion Picture Distribution, Budgeting, and Management (2 or 4, max 8, FaSp) Problems of location production, foreign release, and packaging.

CTPR 562 Seminar in Motion Picture Business (2 or 4, max 8, FaSp) Problems of studio operation, production, distribution, exhibition, or legal procedures relating to the motion picture.

CTPR 563 The Business of Representation (4, FaSp) Various roles an agent, manager, attorney or publicist play in representing talent, producers and writers. Taught by professionals who are at the forefront of the entertainment industry.

CTPR 566 Developing and Selling Your Film and TV Projects (2, FaSp) Developing, pitching, and selling your feature motion picture and TV projects. Open to undergraduate seniors and third-year graduate cinema majors only.

CTPR 568 Advanced Electronic Imaging (2, Irregular) Electronic imaging in high definition television, interactive multi-media, and computer animation. Emphasis on creative use of the technologies for new forms of expression and communication. Prerequisite: CTPR 542.

CTPR 570 Studies in the Functions of a Director (2, Fa) Analysis of the director’s relationship to the multiple facets of film production.

CTPR 572 The World of Television: From Concept to Air and Everything in Between (2, FaSp) Takes projects from conception to sale, including development, production, post-production, and marketing. Students will develop original projects. Prerequisite: CTPR 508.

CTPR 573 Producing the Advanced Project (1, FaSp) Basic skills of production planning as applied to students’ advanced project scripts. Covers all steps from breakdown to delivery. Prerequisite: CTPR 508; recommended preparation: submission of script required.

CTPR 575ab Directing for Writers (a: 2, Fa; b: 4, Sp) a: Fundamentals of directing for film through emphasis on enhancing the writer’s understanding of the director’s process. Students shoot each other’s scenes on a soundstage, edit and re-edit scenes for in-class presentation. b: Concerns, domains and responsibilities of the film director. Students will complete a five- to twelve-minute film which they will write and direct incorporating class presentations of work in progress. Open to MFA screenwriting majors only.

CTPR 581abcz Individual Production Workshop (4-2-2-0, FaSpSm) Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Open to Production students only; Qualifying courses: CTPR 532 and CTPR 573 (for directors); CTPR 573 (for producers); CTPR 537 (for cinematographers), CTPR 535 (for editors) CTPR 546L or CTPR 547L as production sound person (for sound). Graded IP/Letter. Prerequisite: CTPR 546L or CTPR 547L.
Courses of Instruction

CTPR 582abz Advanced Production Seminar (2-2-0, FaSpSm) Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Open to production majors only. Qualifying courses: CTPR 532 and CTPR 573 (for directors); CTPR 573 (for producers); CTPR 537 (for cinematographers); CTPR 535 (for editors); and CTPR 546. or CTPR 547L, as production sound person (for sound). Graded IP/L. Prerequisite: CTPR 546L, or CTPR 547L.

CTPR 583 Graduate Television Production (6, FaSp) Advanced television group production workshop for students who want to produce an advanced multi-camera project. Open to production majors only. Prerequisite: directing and producing positions: CTPR 532, CTPR 553, CTPR 573; for all positions: CTPR 523 or CTPR 546L, or CTPR 547L, in equivalent crew position.

CTPR 585abz Advanced Producing Project (2-2-0, FaSpSm) Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Open only to production majors. Graded IP/L. Prerequisite: CTPR 486 or CTPR 546 or CTPR 547L (as producer).

CTPR 586ab Production IV (6-0-0, FaSpSm) Advanced group production workshop for students who have successfully completed Production III. Graded IP/L. Prerequisite: CTPR 546L. or CTPR 547L.; qualifying courses: (for producers) CTPR 573, (for directors) CTPR 532 and CTPR 573, (for cinematographers) CTPR 532, and (for editors) CTPR 535, (for sound) CTPR 546L. or CTPR 547L, as production sound person.

CTPR 587abz Group Production Workshop (4-2-2-0, FaSpSm) Advanced group project involving the creative use of visuals (live action or animated) and sound specifically designed for students who want to work in pairs. Open to production majors only. Graded IP/L. Prerequisite: CTPR 532 and CTPR 573 (for directors); CTPR 573 (for producers); CTPR 537 (for cinematographers); CTPR 535 (for editors); CTPR 546L, or CTPR 547L, as production sound person (for sound). Prerequisite: CTPR 546L, or CTPR 547L.

CPTR 599 Special Topics (2-4, max 8, Irregular) Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects.

WRITING (CTWR)

CTWR 105 Nonverbal Thinking: Visual and Aural (2, 5p) An introduction to non-verbal elements of images and sounds which convey meaning, mood, and emotion.

CTWR 106ab Screenwriting Fundamentals (4-4, FaSp) a: Introduction to and overview of the elements of theme, plot, character, and dialogue in dramatic writing for film. b: Exercises in dramatic writing theme, plot, character, dialogue and images. Integration of these elements into scenes and sequences. Open to BFA Writing for Screen and Television students only.

CTWR 120 Genesis of the Screenplay (2, 5p) The evolution of the screenplay from its roots in myths, plays, and short stories. Writing original treatments for film and television inspired by literary masters. Open only to Writing for Screen and Television majors.

CTWR 206ab Writing the Screenplay (a: 4, FaSpSm) Includes a first draft and a polish. Open only to BFA, Writing for Screen and Television students.

CTWR 213 Content and Consciousness (2, Fa) Inquiry into the relationship between cognitive and affective knowledge as it relates to the art of screenwriting and the screenwriter.

CTWR 215 Practicum in Writing Short Films (2, 5p) Developing stories less than feature length in film/television. Writing scenes from popular television shows and examination of television story structure. Prerequisite: CTWR 106b or CTWR 412 or CTWR 413.

CTWR 314 Writing To Be Performed (2, Fa) Understanding the elements of screen performance to enhance the writing of complex characters and human relationships. Open only to Writing for Screen and Television majors. Prerequisite: CTWR 106b.

CTWR 315x Filmwriting (3, FaSpSm) The basics of screenwriting: theme, story structure, characterization, format, dialogue, and scene description. A character profile, short treatment, and first 30 pages of the screenplay are written. Lectures, screenings, and in-class readings. Not for degree credit for Cinema-Television majors.

CTWR 401 Writing the First Draft Feature Screenplay (4, max 8, 5m) Writing an outline and the first draft of a feature-length screenplay. Emphasis on character interrelationships, conflict, and three-act structure.

CTWR 404 Foundations of Comedy (2) Study of comedy theory and practical applications in film, television, and social media. Lectures and screenings of comedic forms tracing past, present and future.

CTWR 410 Character Development and Storytelling for Games (4, Fa) An exploration of characters and story worlds as they relate to gaming with an emphasis on emotionally rich environments in interactive entertainment. Recommended preparation: CTIN 488.

CTWR 411 Television Script Analysis (2, 5p) In-depth analysis of the craft of writing prime-time episodic television. Examination of situation comedies and dramas through weekly screenings and lectures.

CTWR 412 Introduction to Screenwriting (2) Introduction to the formal elements of writing the short film.

CTWR 413 Writing the Short Script I (2, FaSp) Preparation of scripts for short films: form, structure, planning.
CTWR 414 The Screenplay (2) Students
study story structure and develop several
story outlines, write a short script for pos-
sible production, a feature film outline and
first act. Open only to Cinematic Arts Film
and Television Production majors. Prereq-
usite: CTWR 413; recommended preparation:
CTWR 416.

CTWR 415ab Advanced Writing (2) a: Prin-
ciples of the feature film; creating theme,
character and structure that combine into a
feature-length story treatment. Prerequisite:
CTWR 412 or CTWR 413; recommended
preparation: CTWR 416. b: Creation of script
with extensive work-shopping of scenes in
class leading to a first draft and revision as a
final assignment.

CTWR 416 Motion Picture Script Analysis
(2) Critical analysis of story structure from
classic films to contemporary works. Identifi-
cation of key story concepts and elements of
three-act structure.

CTWR 417 Script Coverage and Story
Analysis (2, FaSp) Evaluation of completed
scripts prior to their production. Coverage
and analysis of scripts as potential prop-
ties from the perspective of a production
company.

CTWR 418ab Senior Thesis (a: 4, Fa; b: 4, Sp)
a: Creation of feature-length treatment and
first draft senior thesis screenplay, including
“pitching” experiences. b: Completion and
revision of senior thesis project and introduc-
tion to motion picture industry procedures
and practices through interaction with indus-
try representatives. Open to BFA Writing
for Screen and Television students only.
Prerequisite: CTWR 305.

CTWR 419ab Senior Thesis in Dramatic Tele-
vision (a: 4, Fa; b: 4, Sp) a: Advanced work-
shop developing an original hour-long dra-
matic series including characters, world, and
story lines for season one. Final assignment is
completed hour-long pilot episode. Prerequi-
site: CTWR 305 and CTWR 421; recommended
preparation: CTWR 411. b: Revision of origi-
inal pilot script, writing of mid-season episode,
and completion of bible for original dramatic
series developed in first semester. Open to
BFA Writing for Screen and Television stu-
dents only.

CTWR 421 Writing the Hour-Long Dramatic
Series (2, max 4, FaSpSm) Writing an epis-
ode of an existing dramatic television series
within the hour-long format with an emphasis
on conception, pitching, characterization and
structure. Prerequisite: CTWR 321 or CTWR
514a or CTWR 529; recommended preparation:
CTWR 421.

CTWR 422 Creating the Dramatic Television
Series (2, max 4, FaSm) Examination and
creation of the world, characters, and concept
for an original hour-long dramatic series. Write-
ing an outline for an original dramatic pilot.

CTWR 430 The Writer in American Cinema
and Television (2, FaSp) American and inter-
national writers in cinema; screenwriting;
political and economic aspects of the writer in
the motion picture industry. Lectures, guest
speakers, screenings.

CTWR 431 Screenwriters and Their Work
(2, max 6, FaSpSm) Detailed investigation of
a specific screenwriter's style and the works
they've influenced. Lectures include screen-
ings and visiting screenwriters.

CTWR 433 Adaptations: Transferring Exist-
ing Work to the Screen (2, Fa) An examina-
tion of motion picture adaptations: problems
attendant upon translating a novel, play, or
other creative forms into screenplays. Prerequi-
site: CTWR 206b or CTWR 414 or
CTWR 514a or CTWR 529.

CTWR 434 Writing the Half-Hour Comedy
Series (2, max 6, FaSp) Writing an episode
of an existing half-hour comedy series, with
emphasis on the anatomy of a joke, comedic
structure, and character. Prerequisite: CTWR
321 or CTWR 514a or CTWR 529; recom-
mended preparation: CTWR 411.

CTWR 435 Writing for Film and Television
Genres (2 or 4, max 8, FaSp) Preparation
of proposals and scripts for different types
of film or television programming: empha-
sis on conception, structure, characteriza-
tion and format. Prerequisite: CTWR 206b
or CTWR 415b or CTWR 514a or CTWR
533a; recommended preparation: CTWR 416 or
CTWR 516.

CTWR 437 Writing the Original Situation
Comedy Pilot (4, max 8) Advanced work-
shop for writing an original half-hour comedy
series, including a pilot script, summary of
characters, and story lines for first season. Prereq-
site: CTWR 434; recommended preparation:
CTWR 411.

CTWR 438 Linked Narrative Storytelling for
the Web (4, Fa) Create, develop, and execute
episodic video content for the web. Focus on
content and characters that are viable in the
internet landscape. Prerequisite: CTWR 206b
or CTWR 414 or CTWR 514b or CTWR 529.

CTWR 439 Writing the Original Dramatic
Series Pilot (4, max 8, FaSp) An advanced
workshop in which students create an origi-
nal dramatic series, including a first script and
a summary of characters and storylines.
Prerequisite: CTWR 421.

CTWR 440 Writing Workshop in Creativity
and Imagination (2, FaSp) Students will
explore a variety of problem solving tech-
niques to strengthen their creative work and
apply these techniques to individual writing
projects.

CTWR 441 Writing Workshop in Creative
visions (4, FaSpSm) A workshop in which a
feature length screenplay will be rewritten
using a specific methodology that focuses on a
macro to micro approach to revision. Prerequi-
site: CTWR 305 or CTWR 415b.

CTWR 459ab Entertainment Industry Semi-
nar (2, Fa; 2, Sp) Examination and analysis of
various topics, issues and resources pertinent
to creative, legal and business perspectives
for writers in the entertainment industry.
Prerequisite: CTWR 459a for CTWR 459b.

CTWR 468 Screenwriting in Collaboration
(4, max 8, Sp) Writing an original screenplay
or pilot collaboratively with a partner, with
special attention paid to the writing team
dynamic and the ‘third’ writer’s voice. Prereq-
site: CTWR 305 or CTWR 415b or CTWR
514b or CTWR 533a; recommended prepara-
tion: CTWR 416 or CTWR 516.

CTWR 487 Staff Writing the Multi-Camera
Television Series (4, max 8, Fa) Working on
the writing staff of an original multi-camera
television series, with emphasis on the writ-
ers’ room experience and how to executive
produce an episode. Prerequisite: CTWR 434.

CTWR 499 Special Topics (2-4, max 8,
FaSpSm) Detailed investigation of new or
emerging aspects of cinema and/or television;
special subjects offered by visiting faculty;
experimental subjects.

CTWR 505 Creating the Short Film (2, FaSp)
Strengthening and deepening the ability to
conceive and develop ideas that will lead to
compelling, authentic, and personally mean-
ingful films. (Duplicates credit in CTWR 528.)
Concurrent enrollment: CTPR 507, CTPR 510.

CTWR 509 Understanding the Process of
Film making (2, Sp) An introduction for
screenwriters to the process of creating a fea-
ture film, from script through release print,
including pre-production, production and
post-production.

CTWR 513 Writing the Short Script (2, Fa)
Preparation of scripts for short films; dramatic,
informational, experimental, and other forms.
Open to screenwriting (CNTV) and dramatic
writing (Theatre) majors only. Concurrent
enrollment: CTWR 514a.
Courses of Instruction

CTWR 514ab Basic Dramatic Screenwriting (a: 2, Fa; b: 2, Sp) Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical script. Open to graduate screenwriting majors (CTWR) and dramatic writing (Theatre) majors only. a: Emphasizes narrative development, through short scripts, sequences, and story outlines. Concurrent enrollment: CTWR 513. b: Development of an outline and feature length, original script.

CTWR 515abcd Practicum in Screenwriting (4-4-1-1, FaSp) a: Creation of a feature screenplay from presentation through treatment, including some scene work. b: Comprehensive rewriting of a second and third draft of a feature screenplay leading to a polished and professional piece. c: and d: Supervised rewrite of feature screenplay. Prerequisite: CTWR 514a; CTWR 515a or CTWR 515b; CTWR 515c for CTWR 515c; CTWR 515d for CTWR 515d.

CTWR 516 Advanced Motion Picture Script Analysis (2, FaSp) Critical analysis of the structure of films from the classics to current award winners. Students will learn how to identify key story concepts and break down three act structure in finished films and scripts.

CTWR 518 Introduction to Interactive Writing (2, Sp) A series of exercises written and discussed for interactive experiences.

CTWR 519ab Thesis in Television Drama (a: 4, Fa; b: 4, Sp) a: Writing the pilot: an intensive workshop in which master's students develop an original television one-hour series including characters, world and storylines for season one. Final assignment is the finished pilot episode of the series. Prerequisite: CTWR 514b and CTWR 521; recommended preparation: CTWR 411. b: Further development of the original series by writing the bible for the series and the mid-season episode which is reflective of storylines, characters and settings developed in CTWR 519a. Open only to MFA Writing for Screen and Television students.

CTWR 520 Advanced Scene Writing Workshop (2, SpSm) Intensive workshop oriented specifically to writing and rewriting the most effective and telling dramatic scenes to heighten audience participation and greater story impact. Prerequisite: CTWR 514b or CTWR 533a.

CTWR 521 Advanced Hour-Long Television Drama (2, max 4, FaSp) Writing the first draft and revision of an episode of an existing dramatic television series. Prerequisite: CTWR 514a or CTWR 533a.

CTWR 528 Screenwriting Fundamentals (2, FaSp) Introduction to the principles of screenwriting with special emphasis on story, characterization and dramatization.

CTWR 529 Intermediate Screenwriting (2, FaSp) Emphasizes structural elements crucial to the feature film. Techniques for creating an original and adapted theatrical-length script. Prerequisite: CTWR 507 and CTWR 505.

CTWR 532ab Writing the Feature Script (4-4, FaSp) Advanced screenwriting workshop. a: Development of characters and story to complete a treatment and first draft of a feature length script. Prerequisite: CTWR 529; recommended preparation: CTWR 516. b: Rewriting the first draft into a second draft through advanced work-shopping of script. A third draft polish is the final assignment. Prerequisite: CTWR 533a.

CTWR 541 Dreams, the Brain, and Storytelling (2, FaSpSm) Examination of the links between the brain, creativity, neuroscience and storytelling. Through lectures, screenings, and readings, students will log dreams for use in creative exercises.

CTWR 550 Advanced Story Development (2, FaSp) Advanced development of the story creation process by examining the core elements of a good story. Compiling a portfolio of story ideas. Prerequisite: CTWR 514a or CTWR 529.

CTWR 553 Advanced Rewriting Workshop (4, FaSp) Advanced feature screenwriting, emphasizing the rewrite of a first draft script. Prerequisite: CTWR 514b or CTWR 533b.

CTWR 555 Pitching for Film and Television (2, FaSp) Development and pitching of ideas for motion pictures, episodic and television pilots. Reducing ideas to basic components enhancing verbal presentation skills. Prerequisite: CTWR 305 or CTWR 415b or CTWR 514b or CTWR 533b.

CTWR 559 The Business of Writing for Screen and Television (2, FaSp) Examination and in-depth analysis of the studio system, the television development process, literary representation, new emerging markets, and the Writers Guild of America. Prerequisite: CTWR 514b.

CTWR 572 Practicum in Directing Actors for Film (2 or 4, FaSp) Seminar in directing actors for film; emphasis on demonstration and laboratory exercises, script analysis, and detailed study in character motivations.

CTWR 574 Advanced Seminar in Directing Actors for Film (2, FaSp) Emphasis on detailed script analysis and character motivation. Individual projects. Prerequisite: CTWR 572, CTCS 673 or CTPR 532.

CTWR 599 Special Topics (2-4, max 8, Irregular) Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects.

MOTION PICTURE PRODUCING (CMPP)

CMPP 541L Producing Workshop (4, FaSp) Practical experience in motion picture production as it relates to the producer. Open to PFTM students only. (Duplicates credit in CTPR 481abL.)

CMPP 550 Script Analysis for the Producer (2, FaSp) Detailed evaluation of completed scripts and of the producer's role in bringing them to fruition. Open to PFTM students only.

CMPP 560 Script Development (2, FaSp) From idea to story to finished shooting script. Open to PFTM students only.

CMPP 561 Motion Picture Marketing (2, Sp) Analysis and preparation of marketing campaigns from concept to budgeting for various media. Open to PFTM students only.

CMPP 563 Producing Symposium (2) Lectures on creative and business aspects of producing. Open to PFTM students only.

CMPP 564 Digital Media and Entertainment (2, Sp) Exploring the effect of digital media on the entertainment landscape. Open to PFTM students only.

CMPP 565S Scheduling and Budgeting (4, FaSp) Concept and preparation of a complete schedule and budget. Open to PFTM students only.

CMPP 566 Finance (2, FaSp) Seminar on financial aspects of film industry and methods of financing films. Open to PFTM students only.

CMPP 568 Producing for Television (2, Fa) Discussions of the creative and financial aspects of television producing. Open to PFTM students only.
CMPP 569 Seminar on Non-Mainstream Producing (2, FaSp) Discussions on non-major studio producing options, including non-traditional financing and non-theatrical producing. Open to PFTM students only.

CMPP 570 Advanced Television (2, Fa) Advanced studies of the business of television, including the economic structure of the television industry. Open to PFTM students only.

CMPP 571 Producing the Screenplay (2, FaSp) Workshop for the creation and development of a screenplay or teleplay. Open to PFTM students only.

CMPP 589ab Graduate Film Business Seminar (a: 4, Fa; b: 4, Sp) Economic structure and history of the film industry, including entertainment law and studio management. Open to PFTM students only.

CMPP 591 Producing Practicum (2, Irregular) Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production.

CMPP 592 Individual Project Seminar (4, Sp) Directed research project and seminars in related topics. Open to PFTM students only. (Duplicates credit in former CTPR 592.)

CMPP 599 Special Topics (2, max 4, Irregular) Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Open to PFTM students only.

MULTIMEDIA SCHOLARSHIP (IML)

IML 104 Introduction to Digital Studies (2, FaSpSm) An introduction to the expressive range of screen languages in their cultural, historical, and technological contexts.

IML 140 Workshop in Multimedia Authoring (2, max 4, FaSpSm) Introduction to the expressive potential of multimedia as a critical and creative tool, supplementing traditional forms of academic work.

IML 201 The Languages of Digital Media (4, FaSpSm) An in-depth investigation of the close interrelationships among technology, culture and communication to form a solid foundation for digital authoring. (Duplicates credit in former IML 101.)

IML 295Lm Race, Class and Gender in Digital Culture (4, FaSp) Critical analysis of the categories of race, class and gender within the diverse digital spaces of contemporary culture, from video games to the digital divide.

IML 340 The Praxis of New Media: Digital Argument (2, max 4, FaSp) An intermediate level course which approaches archived material from multiple perspectives, in order to develop new avenues of expression, education, and research. Recommended preparation: IML 104 or IML 140 or IML 201.

IML 346 Methods in Digital Research (2, FaSpSm) Emphasizing rigorous multimedia research and authorship strategies, this course prepares students to undertake large-scale digital projects. Prerequisite: IML 104 or IML 140 or IML 201.

IML 400 Creative Coding for the Web (4, FaSp) Analysis and development of scholarly projects using diverse web authoring strategies, technologies and documentation. Recommended preparation: IML 104 or IML 140 or IML 201.

IML 420m New Media for Social Change (4, max 8, FaSp) Creating real social change through multimedia, working in collaboration with a local nonprofit organization. Recommended preparation: IML 104 or IML 140 or IML 201.

IML 422 Information Visualization (4, FaSp) Visualizing information through diverse media platforms, with a focus on critical analysis and hands-on visualization. Recommended preparation: IML 104 or IML 140 or IML 201.

IML 440 Honors in Multimedia Scholarship Thesis Project I (4, Fa) Exploration of theoretical and practical concerns of advanced level interdisciplinary multimedia research and authorship. Open to students in the Honors in Multimedia Scholarship program only. Prerequisite: IML 346.

IML 444 Honors in Multimedia Scholarship: Thesis Project II (4, Sp) Production of Multimedia Honors thesis. Open to students in the Honors in Multimedia Scholarship program only. Prerequisite: IML 440.

IML 466 Digital Studies Symposium (4) Lectures, presentations, and readings introducing cutting-edge digital media innovations and applications. Analysis of the critical and creative challenges of contemporary digital media practices.

IML 490x Directed Research (2-8, max 8, FaSpSm) Individual research and production. Prerequisite: IML 104 or IML 140 or IML 201.

IML 499 Special Topics (2-4, max 8, FaSpSm) Selected topics in multimedia literacy.

IML 500 Digital Media Tools and Tactics (2, max 4, FaSpSm) Introduction to digital scholarship at the graduate level, with a focus on media research ecologies, online portfolios and distributed scholarly presence. Open only to graduate students.

IML 501L Seminar in Contemporary Digital Media (4) An in-depth examination of the development of digital technologies in their cultural and historic contexts, with equal emphasis on digital analysis and production.

IML 535 Tangible Computing in the Humanities and Sciences (4, FaSp) Study and creation of scholarly multimedia projects integrating hardware, software and interactivity to consider new forms for scholarly expression within the realm of pervasive computing.

IML 599 Special Topics (2-4, max 8, FaSpSm) Detailed investigation of new or emergent practices in digital media; special subjects offered by visiting faculty; experimental subjects.
USC Dornsife College of Letters, Arts and Sciences

The USC Dornsife College of Letters, Arts and Sciences is the academic heart of the University of Southern California, teaching more than 10,000 undergraduates. It offers instruction in the humanities, the natural sciences and the social sciences, leading to bachelor of arts and bachelor of science degrees. The programs of the college provide both a broad liberal arts education and a thorough grounding in an academic discipline. Breadth is supplied by the general education program and electives. Departmental majors, interdisciplinary majors, and special programs and minors provide depth.

USC Dornsife combines two “worlds” — the world of the self-contained liberal arts school, with small classes and close working relationships between students and faculty, and the larger world of the research university, where new ventures and new ideas are being explored by internationally known scholars. This combination makes the college a supportive and exciting place to learn.

USC Dornsife offers many opportunities for post-baccalaureate study. Graduate programs within the college leading to master’s degrees and doctor of philosophy degrees are administered through the USC Graduate School.
Administration

Steve A. Kay, Ph.D., Anna H. Bing Dean’s Chair in the USC Dornsife College of Letters, Arts and Sciences

Linda Lopez, Ph.D., Associate Dean for Diversity

Kathleen Speer, B.S., Associate Dean for Faculty and Research

Graduate Studies in Letters, Arts and Sciences

Graduate studies leading to the master’s and Ph.D. degrees are available within most departments of the USC Dornsife College of Letters, Arts and Sciences. Candidates for graduate degrees must complete both the departmental requirements listed for each degree and the general requirements set by the Graduate School.

Undergraduate Programs

The USC Dornsife College of Letters, Arts and Sciences awards the Bachelor of Arts (B.A.) and the Bachelor of Science (B.S.) in a number of disciplines. Each degree requires a minimum of 128 units.

Selecting a Major
A major may be chosen because the student is especially interested in a subject, because of particular abilities in certain areas, or because it is an especially fitting preparation for a profession. The choice of a major may thus become part of planning for a career. But a choice in the college does not limit the student to a single career or line of work.

Liberal arts majors are unusually adaptable; they are suitable preparations for many careers.

A student may declare a major at any time, but is expected to record his or her major in the Office of Academic Records and Registrar at or before the beginning of the junior year or completion of 64 units. This allows sufficient time to fulfill the course requirements of the major in the student’s third and
fourth years. For some majors, however, and especially for a major in one of the natural sciences aiming for the B.S. degree, it is advantageous to declare the major sooner, so the program can be spaced over the full four years.

**Changing a Major**
If, after a major has been declared, the student wishes to change to a different field (or add another field of study to the existing one), a Change of Major form must be filed. The form may be obtained in the Dornsife College Advising Office or the Office of Academic Records and Registrar in John Hubbard Hall. The form must be completed and returned to the Office of Academic Records and Registrar. When a major is changed, the new department adviser must sign the form.

**Types of Majors and Major Requirements**

**Departmental Major (B.A. or B.S. Degree)**
A departmental major for the B.A. degree consists of specified lower division courses and, generally, not less than 24 or more than 32 upper division units in a single department or discipline. A greater concentration of units in a single discipline is usually required in majors for the B.S. degree than in majors for the B.A. degree.

The specific requirements for each department major will be found in the departmental sections of this catalogue.

**Double Major (B.A./B.A. or B.S./B.S.)**
A double major consists of two majors which allow the student to earn the same degree, either a B.A. or B.S. degree, within the college. The student must complete the requirements for both majors and whatever other course work is needed to complete 128 units. Combinations of interdepartmental and department majors are also possible. See page 67 for rules governing the overlap of courses allowed for a double major.

**Interdepartmental Majors**

**Humanities or Social Sciences Major (B.A. Degree)**
A humanities or social sciences major consists of not less than 32 upper division units within departments in the humanities or departments in the social sciences. Of the 32 required upper division units for the interdepartmental major, 20 are typically taken in one department, and the additional 12 units are taken from applicable courses in the area in which the department of concentration is housed. See the departmental listing for more specific requirements for the interdepartmental major, including lower division requirements.

**Physical Sciences Major (B.S. Degree)**
The departments of chemistry, earth sciences, and physics and astronomy, cooperating with one another, offer a physical sciences major in the natural sciences and mathematics. The major requires specific lower division courses in chemistry, earth sciences, mathematics, physics and 28 upper division units of major courses in the four departments. Of the 28 required upper division units, at least four units must be taken in each of the four cooperating departments.

**Program Major (B.A. or B.S. Degree)**
A program major consists of designated courses and not less than 24 upper division units chosen from the list of courses which make up the program. The college has a number of special programs, many of which offer majors.

Because programs are often organized around the study of a region or a topic, and hence are not specific to any single discipline, or because two or more disciplines have joined to deal with a common problem, program majors are interdisciplinary. An interdisciplinary major offers unusual range to students who have topical interests. Specific requirements for all program majors are listed under the program titles.

**Dual Degree**
A dual degree is one that has course work from two schools or two different degree programs within the same school which has been organized into a single program. Listings of graduate dual degrees can be found on page 87. The student receives two diplomas.

**Progressive Degree Program**
A progressive degree program enables a USC Dornsife College of Letters, Arts and Sciences undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The progressive degree may be in the same or different departments, but should be in a closely-related field of study. Students in a progressive degree program must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined number of units for the two separate degrees. The master's degree may be awarded at the same time as, but not prior to, the bachelor's degree. The student receives two diplomas. Further details about progressive degrees can be found on page 87.

**Second Bachelor's Degree**
A second bachelor's degree requires a minimum of 32 units beyond the number required for the first. If the first bachelor's degree was earned at USC, a minimum of 32 units for the second must be completed at USC. If the first bachelor's degree was earned at another institution, a minimum of 64 units toward the second must be completed at USC. (See page 60, the policy on residence requirement for a second bachelor's degree.) For some degrees, more than the 32 units beyond the first bachelor’s degree will be required because all requirements for both degrees must be met. The student receives a separate diploma for each degree upon completion.

The first and second bachelor's degrees may be completed at the same time but there is no requirement that they be.

**Substitution for Major Requirements**
If a student wishes an adjustment to the major requirements in his or her department or program, the departmental adviser may, with the support of the department, substitute a comparable upper division course for a required one. Substitutions and waivers of USC or transfer courses for upper division requirements for programs are to be limited to a combination of 25 percent. Lower division courses cannot be substituted for upper division requirements.

**Unit Limitation**
No more than 40 upper division units in the major may be applied to any degree under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences. A student wishing to exceed this limit must obtain the approval of the major department and the dean of undergraduate programs.

**Minors**
The USC Dornsife College of Letters, Arts and Sciences offers a wide array of minors that can provide unique breadth and complement or enhance the major field of study. Many of the college minors themselves are interdisciplinary and combine classes in two or more college departments or work in college departments with classes or internships in one of USC's professional schools.

**Basic Requirement for a Degree from the USC Dornsife College of Letters, Arts and Sciences**
For those undergraduate students earning a degree in the USC Dornsife College of Letters, Arts and Sciences, a minimum of 104 units applicable to the degree must be earned in college academic departments. For students graduating with a minor or a second bachelor's degree, this minimum is reduced to 96 units. Other exceptions will be considered by the dean of undergraduate programs in Dornsife College.

Students who are completing major degree programs in a professional school, but whose degree is conferred by Dornsife College, are exempt from this policy.

This policy also applies to transferable courses (see page 58).
Units Required Each Semester
The student is expected to complete about 16 units each semester; 18 units are generally considered to be the maximum number in a manageable program. If the student wants to enroll in more than 18 units, he or she may do so, but should consult first with the academic adviser.

Grade Point Average Requirement
A grade point average of at least C (2.0) on all units attempted at USC is required for undergraduate degrees. The college requires a minimum 2.0 grade point average in upper division courses applied toward the major.

Some departments require grades of C or higher in specified courses. A grade point average of at least B (3.0) on all units attempted at USC is required for master's degrees. A grade point average of at least B (3.0) on all units attempted at USC is required for doctoral degrees.

Advising and Academic Services

Debra Bernstein
Dornsife College Advising Office
College Academic Services Building, Room 120
(213) 740-2534
FAX: (213) 740-3664
Email: cas@dornsife.usc.edu
www.usc.edu/dept/LAS/cas

The Dornsife College Advising Office provides a wide range of advising services and programs that integrate students, faculty, staff, academic disciplines and curricula into a meaningful educational experience. Academic advisers work closely with students to help familiarize them with the academic life of the USC Dornsife College of Letters, Arts and Sciences, choose or change their majors and fulfill core requirements so they can graduate in a timely manner.

Academic advising is mandatory for all students entering the USC Dornsife College of Letters, Arts and Sciences until they have completed 32 units at USC. Students without declared majors are required to receive academic advising every semester. All students in the USC Dornsife College of Letters, Arts and Sciences are strongly encouraged to seek individual academic advisement at least once each semester until graduation. Guidance regarding academic requirements, policies and program planning is available in the Dornsife College Advising Office by appointment or on a walk-in basis. Advising in major course requirements is available within the department of the student's major.

The services of a college ombudsman are available to students who have academic concerns that cannot be adequately addressed by the usual mechanisms of consulting instructors, department chairs or other university offices. The ombudsman can be particularly helpful in the case of grade appeals that are complex in nature. The ombudsman functions as an intermediary between the student, the faculty and other offices on campus.

Advising for Pre-law Programs
Students who are interested in going to law school consult one-on-one with academic advisers in the Dornsife College Advising Office who specialize in this area. Pre-law advisers assist students in crafting an undergraduate academic program designed to lead to law school admission and success. Pre-law students are supported in all aspects of the law school application process, including how to write an effective personal statement and how to request appropriate letters of recommendation.

Pre-law advisers also help students target the most appropriate law school, put students in contact with pre-law societies and notify students of relevant law and pre-law-related events. Pre-law students are also invited to subscribe to an email listserv sponsored by the Dornsife College Advising Office in order to connect with pre-law resources.

Pre-graduate School Advising
The pre-graduate school adviser assists USC undergraduates and alumni interested in applying to all graduate programs other than law and medicine. The adviser helps students determine when and if they should apply to graduate school and guides students in the process of researching and choosing appropriate schools and programs. Students can expect support in such areas as navigating the admissions process, writing statements of purpose, requesting letters of recommendation, exploring test preparation resources, and identifying and pursuing sources of funding.

Studying Abroad
The Office of Overseas Studies provides opportunities for students to study in other countries. Eligible students can choose between 51 academic programs in 29 countries and study for one or two semesters. The Office of Overseas Studies is located in the College House, Room 201. For more information, call (213) 740-3636, email overseas@usc.edu or visit www.usc.edu/overseas.
Pre-health students are supported in all aspects of the health professional school application process, including how to write an effective personal statement and how to request appropriate letters of recommendation. The Office of Pre-Health Advisement provides a letter of recommendation storage and forwarding service to help streamline the health professional school or graduate school application process. In addition, it offers pre-health curriculum planning; assistance with major and minor selection; workshops and events; and opportunities for clinical, research and volunteer activities. The office encourages involvement in the campus community and pre-health student organizations.

Postbaccalaureate Premedical Program

Dornsife College Advising Office  
College Academic Services Building, Room 120  
(213) 740-2534  
Email: postbac@dornsife.usc.edu  
chem.usc.edu/postbac

Director: Larry Singer, Professor of Chemistry

This program allows postbaccalaureate students to complete the science and mathematics core requirements for medical school admission in a supportive environment. It is directed toward students with demonstrated academic achievement in their baccalaureate work, but with little or no prior college-level science and mathematics in their background. The typical student accepted into the program will have a liberal arts baccalaureate degree.

Admission Procedures and Requirements

To be eligible for the Postbaccalaureate Premedical Program, a student must have a baccalaureate degree from an accredited college or university with an overall undergraduate GPA of 3.0 or better. The following are required for admission consideration: (a) a completed application form; (b) transcripts from all colleges and universities attended by the student; (c) two letters of recommendation from professors familiar with the student’s academic credentials and motivation for undertaking an intensive program of study in the science/mathematics core; (d) the student’s scores on one of the following standardized tests: ACT, SAT, GRE, GMAT, LSAT.

Admitted students may begin the program at the start of any term, fall, spring or summer. However, all course work must be completed within a 24-month period from the date of entry into the program.

All students admitted into the program should discuss with the coordinator their readiness to begin the science/mathematics core. Occasionally, background course work in science and/or mathematics may be recommended before a student begins the program.

Requirements

Students must complete the following nine course core of science/mathematics courses. Up to two upper division electives may be substituted for courses in the core. Two courses (8 units) must be at the upper division level (numbered 300 and above).

<table>
<thead>
<tr>
<th>CORE COURSES</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>BISC 120L</td>
<td>General Biology; Organismal Biology and Evolution</td>
</tr>
<tr>
<td>BISC 220L</td>
<td>General Biology: Cell Biology and Physiology</td>
</tr>
<tr>
<td>CHEM 105aLbL</td>
<td>General Chemistry</td>
</tr>
<tr>
<td>CHEM 322abL</td>
<td>Organic Chemistry</td>
</tr>
<tr>
<td>MATH 125</td>
<td>Calculus I</td>
</tr>
<tr>
<td>PHYS 135abL</td>
<td>Physics for the Life Sciences</td>
</tr>
</tbody>
</table>

UPPER DIVISION ELECTIVES   UNITS

Either or both of the following two upper division courses may be substituted for core courses:

<table>
<thead>
<tr>
<th>CORE COURSES</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>BISC 320L</td>
<td>Molecular Biology</td>
</tr>
<tr>
<td>BISC 330L</td>
<td>Biochemistry</td>
</tr>
</tbody>
</table>

Up to three of the above courses completed with grades of B or better and taken at USC or another accredited college or university prior to entry into the program may be accepted for credit toward the core requirements.

An overall GPA of 3.0 or better must be maintained in all attempted courses, including the two allowed substitute courses BISC 320L and BISC 330L.

Students in the Postbaccalaureate Premedical Program may use the pre-health counseling services of the Dornsife College Advising Office as well as the Pre-Health Advisement Office.
General Education Program

College Academic Services Building,
Room 200
(213) 740-2961
FAX: (213) 740-4839
www.usc.edu/ge

Director: Richard Fliegel, Ph.D.

The university's general education program is structured to provide a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. In thinking over what is necessary, the faculty identified five principal goals:

(1) to teach students the skills needed for critical thinking, writing and reading;
(2) to teach these skills in a specific context, i.e., social issues, cultures and traditions, science and society;
(3) to teach students how to apply these skills so that they can find, evaluate and use the vast amount of information now available via the media, the Internet, new technologies and traditional forms of knowledge;
(4) to teach students to discern and assess the values that underlie various critical positions, and to articulate their own with coherence and integrity; and
(5) to encourage a passion for learning.

To achieve these goals, the program is divided into two parts: the first part, called “Foundations,” presents courses that give you the “big picture” about (I) the development of western European and American culture, as well as (II) alternative cultural traditions and (III) the basic principles animating scientific inquiry. The second part, called “Case Studies,” provides particular opportunities for you to sharpen your critical intelligence by considering specific (IV) applications of science and technology, (V) works of literature, philosophy and art, and (VI) contemporary social issues of urgency and importance. In addition, all students must satisfy writing and diversity requirements to complete the USC core.

The freshman year semester of the writing requirement is co-registered with classes in the Social Issues category and a speaker series, helping to build intellectual community among students and faculty in the general education program.

As you look through the courses in each category, try to reach beyond the disciplines with which you are most familiar and comfortable. Draw broadly from the range of academic expertise and choose a thoughtful, provocative selection of “g” courses as your personal general education program. This academic background will serve you well in the future, as a basis for lifelong learning.

General Education Requirements

Students in all programs are required to take one course that satisfies each of the following six categories.

Foundations:
I. Western Cultures and Traditions
II. Global Cultures and Traditions
III. Scientific Inquiry

Case Studies:
IV. Science and Its Significance
V. Arts and Letters
VI. Social Issues

General Education Categories

Part One: Foundations
Courses in these categories help students locate themselves culturally, historically and intellectually in an increasingly complex world. The foundations categories are intended to give students a broad conceptual base for their further studies and their roles as informed citizens in the world of the future, training them to think critically and analytically about ideas and events, sharpening their ability to assess arguments and information, and engaging them with the principles of scientific inquiry and primary works of culture and civilization.

Category I. Western Cultures and Traditions
Courses in this category introduce students to an area of academic inquiry traditionally perceived to be central to general education.

They stress concepts, values and events in Western history that have shaped contemporary American and European civilization. Courses are distinguished by their historical sweep, which allows students to become aware of the continuing legacies of the past in contemporary culture. Students learn to situate contemporary society in a broad historical context and to think critically about the past and its relationship to the present, while becoming acquainted with the most significant analytic methods by which we attempt to understand the meaning of history. Comparative insights may also be offered with the non-Western cultural traditions studied in Category II.

Category II. Global Cultures and Traditions
Courses in this category introduce students to cultures and civilizations associated with Africa, Asia, Latin America, the Middle East, Native America and Russia. Each course examines distinctive qualities of the cultures studied and seeks to engage and explain those characteristics on their own terms. Students learn to understand the impact of historical development on cultures that interact in the contemporary geopolitical scene and to articulate the role that cultural differences play in those interactions. As a result, they are better prepared to participate actively in an increasingly global cultural and political landscape. Courses in this category are distinguished by their breadth of perspective over a substantial period of time. Comparative insights may also be offered between these cultures and those studied in Category I.

Category III. Scientific Inquiry
In this category, students learn about the process and methods of scientific inquiry, examining the principles underlying a body of scientific knowledge and how those principles
were developed. Students learn to evaluate the soundness of scientific arguments and appreciate how current ideas might change in response to new data. Students engage in scientific inquiry through field experiences or a practical component. A section of laboratory or field experience is required.

As a result, all students should acquire substantive knowledge in science and technology; understand the processes by which scientists investigate and answer scientific questions; and be able to articulate the basic principles used to explain natural phenomena.

**Part Two: Case Studies**

In these categories, students learn to think critically through a focused inquiry into a particular area of knowledge. Analytical techniques and methodologies are demonstrated to illuminate specific topics in the natural and social sciences, the arts and humanities.

**Category IV. Science and Its Significance**

In this category, students learn why science is important in people’s lives. Through a concentrated study of a single area of research or small set of related areas, students learn to articulate the relationships among observed phenomena, the scientific principles those observations inform, their technological applications and their societal implications. Scientific inquiry is understood in the context of its historical setting and philosophical assumptions, as well as its material consequences. A section of laboratory, field experience, and/or discussion and writing is required.

As a result, all students should be able to: connect science and technology to real-world problems and issues, including personal and societal needs; discriminate unsound from well-supported scientific claims about those issues; and talk about science cogently in articulating scientific concepts and their significance for other areas of their lives.

**Category V. Arts and Letters**

In this category students develop their skills for critical analysis through intense engagement with works of literature, philosophy, visual arts, music and film. The works studied may be associated with a particular country, time period, genre or theme. Students will learn to use techniques of literary and artistic analysis. At the same time they will become familiar with disciplinary and interdisciplinary methods of argument and persuasion. Because intensive reading and writing is demanded in these courses, they will generally be capped at 30 students.

**Category VI. Social Issues**

Courses in this category prepare students for informed citizenship by teaching them to analyze compelling local, national and/or international issues or problems. Analytical tools are examined systematically so that students may fruitfully apply them to understand a broad range of social and political phenomena. Students learn to assess the validity of arguments and discern the connections between data cited and conclusions drawn.

Students completing this category develop the basic critical skills needed to evaluate and use the vast amount of information concerning social issues now available via the Internet, media and traditional scholarship. They acquire the concepts and confidence necessary to discuss contemporary social issues in an informed manner and develop a passion for learning that will allow them to engage complex questions about human beings and society.

**Other Requirements**

In addition, all students at USC must complete a two-course writing requirement and a diversity requirement. All students in the USC Dornsife College of Letters, Arts and Sciences and some in the professional schools (see listing for each school’s requirements) must also satisfy the foreign language requirement.

**Writing Requirement**

In their writing classes students learn to think critically, to build sound arguments and to express their ideas with clarity. The writing requirement comprises two courses (which cannot be taken on a pass/no pass basis). The first, taken during the freshman year, is linked to a course in the Social Issues category of the General Education program. The second, an advanced writing course taken in the junior year, is geared toward students’ areas of special interest, such as the arts and humanities, science, law, engineering or business. In this course, students learn to integrate more complex information and construct more sophisticated arguments.

**Lower Division Writing Requirement**

Most undergraduates take WRIT 140 Writing and Critical Reasoning as their first writing course. WRIT 140 is offered in affiliation with courses from the Social Issues category of the General Education Program (Category VI).

**Limitations**

**Advanced Placement Credit**

Students may satisfy the requirements for Categories I or III with scores of 4 or 5 on specified Advanced Placement Examinations, but no such credit will satisfy the requirements of Categories II, IV, V or VI, or the writing requirement.

**Transfer Credit**

Students may satisfy the requirements for Categories I, II, III or V with transfer course work completed before the student has enrolled at USC, but no transfer credit will satisfy the requirements for Categories IV or VI. The first semester of the writing requirement may also be satisfied with transfer course work, if it is completed before the student has transferred to USC. However, no transfer course work may be used to satisfy any general education requirements or the writing requirement if those courses are taken after a student has enrolled at USC.

**Courses Taken on a Pass/No Pass Basis**

No more than four units of credit (or one course) counting toward the general education categories may be taken on a pass/no pass basis. The writing courses cannot be taken on a pass/no pass basis.

**Exceptions**

A very restricted number of exceptions to the rules governing the general education program has been allowed by the Provost for certain cohorts of students whose programs of study in the major discipline require such exceptions. For more information, see the listings under the individual schools.

**Course Listing**

For a complete list of general education courses, see the USC Core section, page 63.

**Transfer Credit**

Students may satisfy the requirements for Categories I, II, III or V with transfer course work completed before the student has enrolled at USC, but no transfer credit will satisfy the requirements for Categories IV or VI. The first semester of the writing requirement may also be satisfied with transfer course work, if it is completed before the student has transferred to USC. However, no transfer course work may be used to satisfy any general education requirements or the writing requirement if those courses are taken after a student has enrolled at USC.

**Courses Taken on a Pass/No Pass Basis**

No more than four units of credit (or one course) counting toward the general education categories may be taken on a pass/no pass basis. The writing courses cannot be taken on a pass/no pass basis.

**Exceptions**

A very restricted number of exceptions to the rules governing the general education program has been allowed by the Provost for certain cohorts of students whose programs of study in the major discipline require such exceptions. For more information, see the listings under the individual schools.

**Course Listing**

For a complete list of general education courses, see the USC Core section, page 63.
Some students are better served by taking a preparatory course before they enroll in WRIT 140. Entering freshmen who score below a specified level on the verbal portion of the SAT take the University Writing Examination. Based on the result of this examination, certain students enroll in WRIT 120 Introduction to College Writing or WRIT 121 Introduction to College Writing in a Second Language during their first semester at USC. Clearance to register for these preparatory courses may be obtained at the Writing Program Office.

International students take the University Writing Examination after having completed any course work required by the American Language Institute.

**Advanced Writing Requirement**

All students at USC (with the exception of Thematic Option students who satisfy the second writing requirement with CORE 112), must complete WRIT 340, a course that will help them write on topics related to their disciplinary or professional interests. Students usually enroll in WRIT 340 Advanced Writing in their junior year and may not take the course earlier than their sophomore year. Different schools at the university offer sections of this course. Students should consult their major department to learn which section of WRIT 340 best complements their program of study.

All sections of WRIT 340 teach students to write clear, grammatical, well-structured prose; to discover and convey complex ideas critically; and to appreciate the nuances of effective argumentation. The principal aim of the requirement is to develop a student’s capacity to formulate thoughtful, informed arguments for specific academic, professional and public audiences.

**Diversity Requirement**

The diversity requirement is designed to provide undergraduate students with the background knowledge and analytical skills to enable them to understand and respect differences between groups of people and to understand the potential resources and conflicts arising from human differences on the contemporary American and international scene. Students will increasingly need to grapple with issues arising from different dimensions of human diversity such as age, disability, ethnicity, gender, language, race, religion, sexual orientation and social class. These dimensions and their social and cultural consequences will have important ramifications for students’ personal, professional and intellectual lives, both for the time they are students and in later life. Students will gain exposure to analytical frameworks within which these issues are to be understood and addressed, including social, political, cultural, ethical and public policy analysis. It is the university’s goal to prepare students through the study of human differences for responsible citizenship in an increasingly pluralistic and diverse society.

**Course Requirement**

The diversity requirement must be met by all USC students. It can be met by passing any one course from the list of courses carrying the designation “m” for multiculturalism on page 66. In addition to fulfilling the diversity requirement, some of the courses on the list also meet general education requirements; others also meet major requirements; still others meet only the diversity requirement but count for elective unit credit.

**Foreign Language Requirement**

Students may satisfy the foreign language requirement only by (1) earning a passing grade in Course III of a foreign language sequence at USC or its equivalent elsewhere or (2) scoring on the placement examination at a level considered by the department as equivalent to the completion of Course III or (3) scoring on a national or statewide examination at a level set by the department and approved by the USC Dornsife College of Letters, Arts and Sciences. Students who can supply proof of at least two years of full-time secondary schooling beyond the age of 14 taught in a foreign language may request exemption from the foreign language requirement.

All students earning degrees granted by or under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences or earning degrees in programs of other schools that require three semesters of foreign language who do not meet the criteria of (1), above, must take a placement examination to determine their level of language proficiency. Placement in elementary and intermediate foreign language courses is made by the appropriate placement examination. Transfer courses equivalent to a USC elementary or intermediate language course fulfill the prerequisite for the next course in the sequence, but students may be advised, although not required, to repeat without additional credit a semester or semesters of instruction if their skills are judged insufficient at the time of testing.

All students who as freshmen enrolled in degree programs that have a foreign language requirement are expected to fulfill that requirement by the time they have completed 64 units at USC. Students who do not satisfy the foreign language requirement before the completion of 48 units at USC will have a “mandatory advisement requirement” warning them of the need to complete the foreign language requirement. Students who do not satisfy the requirement before the completion of 64 units at USC will be required to seek approval to register.

Students admitted as transfers for whom foreign language is a requirement should fulfill it before they have completed 48 units at USC. Students who do not satisfy the foreign language requirement before the completion of 32 units at USC will have a “mandatory advisement requirement” warning them of the need to complete the foreign language requirement. Students who do not satisfy the requirement before the completion of 48 units at USC will be required to seek approval to register.

Students admitted into programs without a foreign language requirement who subsequently make a change of major into a program with a foreign language requirement must satisfy the requirement before completion of 48 units at USC.

International students whose native language is not English are exempt from the foreign language requirement. Students with advanced skills in languages other than those taught at USC may request exemption from the foreign language requirement if (1) they can supply proof of at least two years of full-time secondary schooling taught in a foreign language beyond the age of 14, or (2) if they can pass a competency exam testing for advanced language skills and administered at USC subject to the availability of suitable academic examiners; the competency exam will test proficiency in speaking, reading and writing skills. Students with documented learning disabilities or physical impairments inhibiting language acquisition may petition for substitution.

**Course Listing**

For a complete list of diversity courses, see the USC Core section, Diversity Course List, page 66.
College-wide Courses

Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

ARTS AND LETTERS (ARLT)

ARLT 100g Arts and Letters (4, FaSp) Critical analysis of significant works of literature, philosophy, visual arts, music and/or film; intensive reading and writing to develop knowledge of analytical techniques in the humanities. Limited to freshmen and sophomores. (Duplicates credit in ARLT 101 and in former LTA 100 and in former LTA 101.)

ARLT 101g Studies in Arts and Letters (4, FaSp) Critical analysis of significant works of literature, philosophy, visual arts, music and/or film; intensive reading and writing to develop knowledge of analytical techniques in the humanities. Limited to students with sophomore status or higher. (Duplicates credit in ARLT 100 and in former LTA 100 and in former LTA 101.)

UNIVERSITY OF SOUTHERN CALIFORNIA (USC)

USC 101 Honors Research Apprenticeship (1, max 2) Students work directly with faculty on faculty research projects, gain experience in the process of research and thereby contribute to new scholarship.

USC 250 The Academic Culture (2, FaSp) Study the meaning of culture in society, experience the culture of learning on campus, and examine the relationship between the two. Topics will vary. Graded CR/NC. Not open to freshmen.

Advanced and Professional Programs

3501 Trousdale Parkway
Taper Hall 355
Los Angeles, CA 90089-0355

Associate Dean: Susan H. Kamei, J.D.

The Office of Advanced and Professional Programs administers the USC Dornsife College of Letters, Arts and Sciences multidisciplinary graduate programs not housed in traditional departments or units.

Master of Liberal Studies
(213) 740-1349
FAX: (213) 740-5002
Email: mls@dornsife.usc.edu
dornsife.usc.edu/mls

Director: Susan H. Kamei, J.D. (Associate Dean, Advanced and Professional Programs)

A multidisciplinary degree program, the Master of Liberal Studies (MLS) is designed for motivated, college-educated individuals who wish to further their intellectual growth and pursue graduate work part-time in the evenings. See page 393 for course requirements.

Master of Professional Writing
(213) 740-3252
FAX: (213) 740-5775
Email: mpw@dornsife.usc.edu
dornsife.usc.edu/mpw

Director: Brighde Mullins, MFA

The program is designed for individuals pursuing writing as a career in fiction, nonfiction, screenwriting, television writing and theatre. See page 447 for course requirements.

Master of Science in Human Behavior
(213) 740-2222
FAX: (213) 746-9082
Email: mhb@dornsife.usc.edu
dornsife.usc.edu/mhb

Director: Ernest Greene, Ph.D.

The program is designed for individuals who wish to advance a career in a non-academic field where knowledge of human behavior is essential. See Psychology, page 454, for course requirements.
American Language Institute

Jefferson Building 206
(213) 740-0079
FAX: (213) 740-8549
Email: aliusc@usc.edu
dornsife.usc.edu/ali

Director: James Valentine, Ph.D.

Assistant Professors (Teaching): Lucienne Arsen, M.A.; Reka Clausen, M.A.

Senior Lecturer: Juli Ann Kirkpatrick, M.A.

Lecturers: Kimberley Briesch-Sumner, M.A.; Eric H. Roth, M.A.; Zsuzsu Londe, Ph.D.

Purpose of the Program
The American Language Institute provides instruction in English as a Second Language for international students who need to improve their English language skills in order to participate successfully in their degree programs. Before beginning studies with ALI, all students must be admitted to the university in a degree program. The institute also provides student advisement.

Placement in the Program
Most international students entering USC must take the International Student English Examination (ISE). The examination is offered immediately prior to the beginning of classes each semester. The purpose of this examination is to evaluate the level of a student’s proficiency in English and to determine how well prepared the student is to undertake his or her degree studies in English. On the basis of the scores achieved, students are placed at the appropriate levels of instruction or are exempted from having to receive English language instruction.

Elective Credit
Undergraduates may earn up to 12 units of credit toward their degree for ALI courses numbered 100 or above. Some departmental restrictions may apply.

Limitation on Enrollment
International students placed into ALI classes must commence their ALI course work in their first semester at USC, and must register in ALI courses each fall and spring semester until their ALI requirements are satisfied. Students must successfully complete their ALI required courses within four semesters in order to remain academically eligible to pursue a degree program. Students who receive a final grade of “No Credit” more than once in any of their ALI required classes will not be allowed to continue to complete their ALI requirement.

Students not meeting the ALI requirement will not be allowed to continue at USC. The Committee on Academic Policies and Procedures will consider appeals if submitted within 10 working days of being dropped from ALI. Contact the Academic Review Department (Hubbard Hall 113) for details.

Courses of Instruction

**American Language Institute (ALI)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**ALI 090x Beginning English as a Second Language for International Students (12)**
Required for international students assessed to have no proficiency in English by the International Student English Examination (ISE). Not available for degree credit. Graded CR/NC.

**ALI 103x Elective Courses in English as a Second Language for International Students (2-8, FaSpSm)**
Specialized tutorial classes in listening, speaking, reading, or writing. A maximum of 4 units may be counted toward a degree. Graded CR/NC.

**ALI 200 Elementary English as a Second Language for International Students (12, FaSpSm)**
Required for international students assessed to be at the beginning level by the International Student English Examination (ISE) or by the completion of a lower level ALI course. Graded CR/NC.

**ALI 211 Low Intermediate ESL (II) for International Students (6)**
Required for international students assessed to have intermediate level writing skills, but pre-intermediate level oral skills or by completion of a lower level ALI course. Graded CR/NC.

**ALI 224 Low Intermediate Oral Skills (4, FaSpSm)**
Required for international students whose oral skills are assessed to be at the low intermediate level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 210.) Graded CR/NC.

**ALI 225 Low Intermediate Writing Skills (4, FaSpSm)**
Required for international students whose writing skills are assessed to be at the low intermediate level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 210.) Graded CR/NC.

**ALI 234 Intermediate Oral Skills (3, FaSpSm)**
Required for international students whose oral skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 220.) Graded CR/NC.

**ALI 235 Intermediate Writing Skills (3, FaSpSm)**
Required for international students whose writing skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 220.) Graded CR/NC.
ALI 242 High Intermediate Pronunciation (2, FaSpSm) Required for international students whose pronunciation skills are assessed at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Graded CR/NC.

ALI 244 High Intermediate Oral Skills (3, FaSpSm) Required for international students whose oral skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 230 and ALI 240.) Graded CR/NC.

ALI 245 High Intermediate Writing Skills (3, FaSpSm) Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 231 and ALI 240.) Graded CR/NC.

ALI 252 Advanced Pronunciation (2, FaSpSm) Required for international students whose pronunciation skills are assessed at the advanced level by the International Student English Examination (ISE) or previous ALI course. Graded CR/NC.

ALI 254 Advanced Oral Skills (2, FaSpSm) Required for international students whose oral skills are assessed to be at the advanced level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 259.) Graded CR/NC.

ALI 255 Advanced Writing Skills (2, FaSpSm) Required for international students whose writing skills are assessed to be at the advanced level by the International Student English Examination (ISE) or previous ALI course. (Duplicates credit in former ALI 258.) Graded CR/NC.

ALI 270 Oral Skills for International Teaching Assistants (3, FaSpSm) Classroom interaction skills for international teaching assistants, with a focus on the language needed to lead discussions and make presentations. Open to international teaching assistants only.

ALI 271 Language Tutorial for International Teaching Assistants (2, FaSpSm) Individualized tutorial on the language and oral skills used by international teaching assistants in the performance of his or her duties. Based on observation and feedback. Open to international teaching assistants only.

ALI 274 Advanced Academic and Professional Spoken English (2, FaSpSm) Required for International Teaching Assistants (ITAs) who, after taking the ITA Oral Interview Exam, are determined to need the particular skills taught in this course. Graded CR/NC.

ALI 275 Writing for Publication and Dissertations (2, FaSpSm) Elective course for international graduate students focusing on conventions of advanced academic writing and problems in syntax, vocabulary, and register for writing and/or publishing dissertations. Graded CR/NC.

American Studies and Ethnicity

American Studies and Ethnicity integrates humanistic and social scientific perspectives and brings them to bear on an examination of the United States with a particular emphasis on comparative study of the peoples, cultures, history and social issues of the Western United States. The department offers four separate majors in American Studies and Ethnicity, African American Studies, Asian American Studies, and Chicano/Latino Studies; and minors in American Studies and Ethnicity, American Popular Culture and Jewish American Studies. The graduate program offers a Ph.D. for students interested in broad interdisciplinary training at an advanced level to study the peoples, cultures and institutions of the United States in courses that integrate modes of inquiry from the humanities and the social sciences.
Drawing upon the cultural resources of a cosmopolitan city on the Pacific Rim and upon the strength and diversity of its professional schools as well as departments in the USC Dornsife College of Letters, Arts and Sciences, these degree programs provide a richly interdisciplinary curriculum that is unique for its constitution of American Studies and Ethnic Studies as comparative and interethnic program that takes as its focus a region – Los Angeles, California and the West – marked by challenging social and cultural changes.

### Undergraduate Degrees

American Studies and Ethnicity offers challenging and diverse opportunities to study the peoples, cultures and institutions of the United States in interdisciplinary courses. Combining the study of history with literature, the arts and the social sciences, American Studies and Ethnicity seeks to bring together these various disciplines and modes of inquiry in a common project: the effort to understand the diverse peoples and cultures that have composed the United States and to provide critical perspectives on the words, deeds, myths and material practices that have shaped this country in its full regional, ethnic, class and gender diversity. An education in American Studies and Ethnicity will be particularly appropriate for students interested in pursuing careers in law, journalism, government, foreign service, social work, international business, public administration and education.

American Studies and Ethnicity is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the sequence of courses, the opportunity for students to undertake an interdisciplinary concentration under close faculty supervision. It is recommended that students meet with the appropriate major director to plan a coherent set of courses to fulfill the major or minor requirements.

### Bachelor of Arts, American Studies and Ethnicity

**Program Major Requirements**

Ten courses in American Studies and Ethnicity or courses certified for American Studies and Ethnicity credit are required. The 10 courses must be distributed as follows: the three core requirement courses of AMST 200, AMST 350 and AMST 498; one course from each of the following three lists: History, Literature and Culture, and Social and Political Issues; and additional elective courses for a total of 16 units chosen from the courses certified in American Studies and Ethnicity at the 300 level or above.

### Honors Program

The program offers a two-semester honors program for qualified students, first identified in AMST 350 or by the program adviser. Students spend their first semester in the program in an honors senior seminar, AMST 492, focused on developing their research and methods for the honors thesis. During the second semester, all honors students are required to take AMST 493 in which each completes a thesis project on a topic of his or her own choosing under faculty direction. Contact the program adviser for further information. To graduate with honors, program majors must successfully complete an honors thesis and have a minimum GPA of 3.5 in their major course work.

**BACHELOR OF ARTS, AMERICAN STUDIES AND ETHNICITY (AFRICAN AMERICAN STUDIES)**

African American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social, and political experience of African Americans, with a particular emphasis on the development and culture of the African American communities in California and the West as well as on both historical and contemporary effects of global issues on African American communities. By drawing upon courses in American Studies and Ethnicity and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytic tools and methods of interpretation appropriate for studying the African American experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

African American Studies is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the sequence of courses, the opportunity for students to undertake an interdisciplinary concentration under close faculty supervision. - **AMST 499** Special Topics 2-4, max 8
- **COMM 458** Race and Ethnicity in Entertainment and the Arts 4
- **POSC 424** Political Participation and American Diversity 4
- **SOCI 432** Racial and Ethnic Relations in a Global Society 4

**American Studies and Ethnicity Minor Course Requirements**

For the minor in American Studies and Ethnicity, five courses in American Studies and Ethnicity, or courses certified for American Studies and Ethnicity credit, are required. The five courses must be distributed as follows: two core requirement courses and three additional elective courses chosen from the courses certified in American Studies and Ethnicity at the 300 level or above.

**Core Requirements**

- **AMST 200** Introduction to American Studies and Ethnicity 4
- **AMST 350** Junior Seminar in American Studies and Ethnicity: Theories and Methods 4

**Upper Division Elective Courses**

- **AMST 301** America, the Frontier, and the New West 4
- **AMST 320** Social Construction of Race and Citizenship 4
- **AMST 348** Race and Environmentalism 4
- **AMST 353** Race and Racism in the Americas 4
- **AMST 392** Undergraduate Research Methods 2
- **AMST 452** Race, Gender and Sexuality 4
- **AMST 490x** Directed Research 2-8, max 8
- **AMST 493** Senior Honors Thesis in American Studies and Ethnicity 4

**Upper Division Requirements**

Choose four courses (16 units), at least one from each of the groups below.

- **AMST 301** America, the Frontier, and the New West 4
- **COLT 365** Literature and Popular Culture 4
- **COMM 384** Interpreting Popular Culture 4
- **ENGL 392** Visual and Popular Culture 4
- **HIST 380** American Popular Culture 4

**Gender and Ethnicity in American Popular Culture: Minor**

Choose one additional upper-division course from the lists above, in a department you have not already chosen for the minor.

- **AMST 357** Latino Social Movements 4
- **AMST 365** Leadership in the Community – Internship 4
- **AMST 385** African American Culture and Society 4
- **AMST 395** African American Humor and Culture 4
- **AMST 448** Chicano and Latino Literature 4
- **AMST 449** Asian American Literature 4
- **ENGL 476** Images of Women in Contemporary Culture 4

**Popular Culture in the Arts: Minor**

Choose four courses (16 units), at least one from each of the groups below.

- **AHIS 363** Race, Gender, and Sexuality in Contemporary Art 4
- **AHIS 370** Modern Art III: 1940 to the Present 4
- **CTCS 392** History of the American Film, 1925-50 4
- **CTCS 393** History of the American Film, 1946-75 4
- **CTCS 394** History of the American Film, 1977-Present 4
- **ENGL 375** Science Fiction 4
- **ENGL 471** Literary Genres and Film 4
- **ENGL 481** Narrative Forms in Literature and Film 4
- **HIST 481** Producing Film Histories 4
- **MUJZ 419** The Jazz Experience: Myths and Culture 4
- **MUSC 400** The Broadway Musical: Reflection of American Diversity, Issues and Experiences 4
- **MUSC 422** The Beatles: Their Music and Their Times 4
- **MUSC 450** The Music of Black Americans 4
- **PAS 400** New Models of Art in City-Space 4

**Electives (4 units)**

Choose one additional upper-division course from the lists above, in a department you have not already chosen for the minor.
Minor in Jewish American Studies
Jewish American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social, political and religious experience of Jewish Americans, with a particular emphasis on the development and culture of Jewish communities in California and the West as well as on both historical and contemporary effects of global issues on American Jewish communities. By drawing upon courses in American Studies and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytical tools and methods of interpretation appropriate for studying the American Jewish experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

Successful completion of 20 units in American Studies and Judaic Studies are required to qualify for the minor.

Graduate Degrees

The major objective of the graduate program in American Studies and Ethnicity is to prepare future faculty with the research and teaching abilities to understand and communicate the diversity of American society and culture. This is accomplished by stressing the importance of an interdisciplinary perspective which integrates social analysis with cultural approaches. The program’s most significant areas of specialization are: (1) the theoretical study of race and ethnicity, particularly as it is constructed through gender, class, sexuality and the state; (2) a regional focus on Los Angeles and the American West; and (3) an emphasis on the study of cultural production in the United States, with particular attention on the theoretical directions and methodological innovations in the interdisciplinary study of American culture.

Admission Requirements
Requirements for admission include: scores satisfactory to the program in the verbal, quantitative and analytical General Test of the Graduate Record Examinations; evidence of competence in writing English and analytical abilities; a satisfactory written statement by the applicant of aims and interests in pursuing interdisciplinary graduate work; letters of recommendation from at least three college instructors; and grades satisfactory to the department earned by the applicant at other institutions.

All applicants are required to take the GREs and submit their complete undergraduate record; at least three letters of recommendation and a statement of purpose should be sent to the director of the program. Applicants are urged to submit written materials as supportive evidence.

Degree Requirements
These degrees are under the jurisdiction of the USC Graduate School. Refer to the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Arts
The department does not accept applicants for a Master of Arts degree. All graduate work in American Studies and Ethnicity at USC is taken as part of a Ph.D. program, and the M.A. in American Studies and Ethnicity is intended only as a transitional degree in the process of completing requirements for the Ph.D., although in some cases students may be invited to attempt a terminal M.A.

After completing at least 30 units, taking AMST 500 and at least one research seminar, maintaining a GPA of at least 3.0, making successful academic progress and taking the qualifying exam, students will either be granted a transitional master’s degree and continue on towards the Ph.D. or be granted a terminal master’s degree.

Doctor of Philosophy in American Studies and Ethnicity
Students may earn the Ph.D. in American Studies and Ethnicity by successfully completing the following requirements.

Application deadline: December 1

Total Units Required
The student’s course work must total at least 64 units. No more than eight units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units.

Course Requirements
AMST 500 Introduction to American Studies and Ethnicity is required of all doctoral students, and it is highly recommended that students complete this course in the first year of residence. Two 600-level graduate seminars are required for the degree, with at least one of these being an interdisciplinary seminar offered by American Studies and Ethnicity. The second 600-level course must be approved by the director of graduate studies.

Foreign Language Requirement
Ph.D. students are required to demonstrate proficiency in one foreign language. This requirement must be met before a student is eligible to take the qualifying examination. Competency may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better), or by passing a foreign language exam that tests proficiency in reading comprehension and translation.
Methods Requirement

Students are required to show competency in two theoretical methodologies from a list approved by the American Studies and Ethnicity department. In most cases, competency is established by successfully completing one course concentrating in a specific method offered by a department or school, although more advanced courses in that method may be suggested by a guidance committee. The following methodologies fulfill the methods requirement: literary/textual analysis; historical/archival analysis; ethnography; cultural/visual analysis; spatial practices and analysis; and, quantitative analysis.

Disciplinary Requirement

The department of American Studies and Ethnicity believes that the strongest interdisciplinary research is conducted alongside a strong background in at least one disciplinary field by successfully completing at least four graduate courses in one discipline. These four courses must include at least one methodology course, one 600-level or above advanced seminar and two graduate reading courses at the 500- or 600-level. Each of these courses can also fulfill other requirements in the Ph.D. program, particularly the methods requirement and the course requirements listed above.

Screening Procedures

The performance of every first-year doctoral student is formally assessed by the director of the program and the student’s assigned adviser at the end of the spring semester and before a student has completed 24 units toward the degree. Unsatisfactory progress toward the degree requires either remedy of the deficiencies or termination of the student’s graduate program. After successfully passing the assessment procedures, each student will be encouraged to establish a guidance committee.

At the end of the second year, student progress will be evaluated and each student will formally establish the members of his or her interdisciplinary examination committee from faculty he or she has worked with during the first two years. A meeting of the director of the program, guidance committee members and potential members of this examination committee will take place directly after the second year to identify remaining deficiencies in a student’s training and identify solutions before the qualifying examination process begins.

Qualifying Examination

Following completion of course work, the student must sit for a qualifying examination at a time mutually agreed upon by the student and the guidance committee. Students seeking the Ph.D. will select four fields for examination. Every student must be examined by faculty from at least two different disciplines, as well as having one outside member on his or her examination committee.

This five-person examination committee will direct the student toward his or her qualifying examination, which will consist of both written and oral parts, in the third year. Examinations are graded honors, pass, low-pass or fail. The qualifying examination has two phases: written examinations in each field followed by a single oral examination on all four fields. Students with one fail, a low-pass in their dissertation field or more than two low-pass grades will not be permitted to enter the oral phase of the examination process. The guidance committee determines whether the candidate may retake any exam graded low-pass or fail.

Dissertation

After the qualifying examination has been passed, an interdisciplinary dissertation committee of at least three faculty members from the examination committee must approve a dissertation prospectus before full-time research commences. Only at this point is a student admitted to candidacy for the Ph.D. degree and will thereafter concentrate on the dissertation. After students become candidates for the Ph.D. degree, they must register for 794 Doctoral Dissertation each semester thereafter until the dissertation is completed.

The final state of the program is the submission of a dissertation that makes an original and substantial contribution to its field of study. The final copy of the dissertation must conform to the regulations of the Graduate School.

Advisement

Upon entering the program, each student will be assigned an academic adviser from among the faculty closest to the student’s own academic interests. Students should seek advice on their program of studies from this academic adviser, the director of the program and the director of graduate and professional studies.

Once a student formally establishes an interdisciplinary examination committee, the chair of this committee becomes the student’s main academic adviser, along with other members of this guidance committee. The committee must be in place and approved by the Graduate School at the time the student schedules a qualifying examination.

The dissertation committee becomes the student’s main advising unit after the qualifying examination, with the chair having the principal responsibility of advisement. At all stages of the student’s progress through the program, the director of the program and the director of graduate and professional studies will be available for advisement and counsel as well.

Transfer of Credit

A transfer of credit statement is prepared by the Degree Progress Department for students admitted to full graduate standing. The application of any available transfer credit is contingent on successful completion of the screening exam and is determined by the director of the program no later than the end of the second year according to the following guidelines: credit will only be allowed for courses (1) from accredited graduate schools; (2) of grade B (3.0 on a four-point scale); (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and fitting into the program for the degree; and (4) approved by the Graduate School. Graduate transfer credit will not be granted for life experience, credit by examination, non-credit extension courses, correspondence courses, thesis course supervision or creative writing courses.

The maximum number of transfer credits which may be applied toward the M.A. degree is four units, and a maximum of 24 units of transfer credits may be applied toward the Ph.D. degree. The Graduate School stipulates that transfer units must have been completed within 10 years of admission for the doctoral program to be applied toward the degree.
Courses of Instruction

**AMERICAN STUDIES AND ETHNICITY (AMST)**

The terms indicated are **expected** but are not **guaranteed**. For the courses offered during any given term, consult the Schedule of Classes.

**AMST 100gm Los Angeles and the American Dream (4)** Los Angeles as a metaphor for the American Dream, exploring the city’s history and potential futures, including economic opportunity, social justice, spatial organization, and environmental sustainability. (Duplicates credit in the former GEOG 100.) Concurrent enrollment: WRIT 140.

**AMST 101gm Race and Class in Los Angeles (4, Fa)** Analysis of race and the economic, political, gender, and social dimensions of contemporary Los Angeles including topics such as residential segregation, economic inequality, and city politics. Concurrent enrollment: WRIT 140.

**AMST 133g Religions of Latin America (4)** (Enroll in REL 133g)

**AMST 135gm Peoples and Cultures of the Americas (4, FaSp)** An introduction to cultures and people in the Americas; the social, historical, economic and cultural formations that together make up the Latino/a American imaginary.

**AMST 140 Borderlands in a Global Context (4)** Interdisciplinary survey of theory and borderland site cases, national sentiment, linguistic and cultural conflicts, exploration of local, regional, and national identities in cultural contact zones.

**AMST 200m Introduction to American Studies and Ethnicity (4, FaSp)** Introduction to American studies and ethnic studies. Provides an overview of major theories, concepts, and issues.

**AMST 202m Interethnic Diversity in the West (4)** Introduction to community, culture, and ethnicity within the Western United States with emphasis on African American, Asian American, and Chicano/Latino cultures and social patterns.

**AMST 206m The Politics and Culture of the 1960s (4, Sp)** Examines political and cultural change in the United States during the decade of the 1960s.

**AMST 220m The Making of Asian America (4, FaSp)** Historical, social, and cultural analysis of (East, South, and Southeast) Asians in the United States. Themes examined: immigration, race and gender relations, ethnic culture, community and identity.

**AMST 240gm Collective Identity and Political Violence: Representing 9/11 (4, FaSp)** (Enroll in ANTH 240gm)

**AMST 250gm The African Diaspora (4, FaSp)** History, political-economy and aesthetics of the African Diaspora with emphasis on Latin America, the Caribbean, Europe and Africa.

**AMST 252gm Black Social Movements in the U.S. (4)** This course examines black social movements for freedom, justice, equality, and self-determination. Beginning with Reconstruction, movements include labor, civil rights, radical feminism, socialism, reparations, Black Nationalism, prisoners’ rights, and Hip Hop.

**AMST 274gm Exploring Ethnicity Through Film (4, FaSpSm)** Examination of the constructions of American ethnicity/race in film. (Duplicates credit in former AMST 374m).

**AMST 285m African American Popular Culture (4, Sp)** Examines history of popular cultural forms such as literature, music, dance, theatre, and visual arts produced by and about African Americans. Concurrent enrollment: MDA 140.

**AMST 301g America, the Frontier, and the New West (4, FaSp)** Introduction to the interdisciplinary study of American political, cultural, and social life with a particular emphasis on the Western United States as a region. Recommended preparation: HIST 100, ENGL 263.

**AMST 320 Social Construction of Race and Citizenship (4, FaSp)** Comparative perspective on the social construction of race and citizenship, Social, economic and political experiences of selected groups in the U.S. are examined.

**AMST 328 Asian American Politics (4, FaSp)** (Enroll in POISC 328)

**AMST 330m Black Music and the Political Imagination (4)** Explores the changing political meanings of “Black music” throughout the 20th century, from freedom to a threat to civil order, from racial integration to Black liberation. (Duplicates credit in the former GEOG 350m.)

**AMST 332m Post-Civil Rights Black America (4)** Analyzes the political, economic, and cultural experiences of the post-1965 period through an interrogation of contemporary conditions, movements, and responses to power in Black America.

**AMST 333 Religion in the Borderlands (4)** (Enroll in REL 333)

**AMST 336 Re-Viewing Religion in Asian America (4)** (Enroll in REL 336)

**AMST 340m Latina/o LA (4)** Examination of spatial and social patterns of the Latino population in Los Angeles. Emphasis on economic, demographic and cultural processes. (Duplicates credit in the former GEOG 340.)

**AMST 342m Law and Identities (4)** Examines the complex and contested interaction between the law and racial, gender, religious, ethnic, and sexual identities using historical and contemporary cases.

**AMST 348m Race and Environmentalism (4)** Relationships between environmentalism, environmental problems and racial-ethnic minorities. Rise of environmental justice movement. Assessment of social science methods used to investigate these relationships.

**AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods (4, FaSp)** Advanced study in interdisciplinary theories and methods for analyzing race and ethnicity in the United States, including a comparative study of topics such as inequality, gender, and class.

**AMST 353m Race and Racism in the Americas (4)** Examination of selected topics in the historical development of racism with the goal of understanding the complex ways in which race has functioned in the modern world.

**AMST 357m Latino Social Movements (4, FaSp)** Focuses on the political experience of Latinos in the U.S. Comparative analysis of their political experiences and perspectives, their histories of identity formation, and their political organizations.

**AMST 364m African American Art (4, FaSp)** (Enroll in AHIS 365m)

**AMST 365 Leadership in the Community — Internship (4, FaSp)** Eight to 10 hours per week in a community-based internship plus two hour lecture. Theoretical and practical issues associated with community leadership.
AMST 366m Chicana and Latina Sociology (4) (Enroll in SOCI 366m)

AMST 373m History of the Mexican American (4, FaSp) Racial and cultural background of Mexico; immigration and conquest; the Mexican in California and the southwest; the rise of contemporary Mexican-American consciousness. (Duplicates credit in former HIST 472.)

AMST 375m Asian Americans: Ethnic Identity (4, FaSp) (Enroll in SOCI 375m)

AMST 376m Contemporary Issues in Asian American Communities (4, FaSp) (Enroll in SOCI 376m)

AMST 377m Legacies of Viet Nam (4, Fa) Examination of 20th century Viet Nam, the country, and “Vietnam,” the American war, through the literature, film, and visual culture that have been produced by Americans, Vietnamese, and overseas Vietnamese.

AMST 378m Introduction to Asian American History (4, FaSp) Comparative examination of the social, economic, and political experiences of Asian immigrants and their descendants in the U.S., 1840s-present. (Duplicates credit in former HIST 378.)

AMST 379 Arabs in America (4, FaSp) Arab immigration and acculturation in the U.S. from late 19th century to present; emphasis on community formation, race, religion and gender.

AMST 380 American Popular Culture (4, FaSp) (Enroll in HIST 380)

AMST 382 America and the World: Japan Case Study (4, 5m) Transnational, global perspective on American culture to examine the relationship between Los Angeles and various cities in Japan. Trip to Japan.

AMST 383 Jews in American Popular Culture (4, FaSp) (Enroll in JS 383)

AMST 385 African American Culture and Society (4, Sp) Examines social and cultural issues affecting the past and present lives of African Americans in the United States.

AMST 389m Carceral Geographies (4, FaSp) Focusing on California, interdisciplinary research teams will study why there are so many new US prisons. What is their relationship to shopping malls, gated communities, globalization? Prerequisite: AMST 200.

AMST 390 Special Problems (1-4) Supervised, individual studies. No more than one registration; by petition only.

AMST 392 Undergraduate Research Methods (2, Sp) Examines processes of scholarly research; quantitative and qualitative research methods; faculty mentorship; experiential learning; research proposal writing; careers in research. Sophomore or junior standing in the major. Graded CR/NC.

AMST 395m African American Humor and Culture (4, FaSp) Examination of one of several traditions of African American humor for insights into shifting notions of race, culture, language and identity in and beyond Black America.

AMST 420 Sociology of Violence (4, FaSp) (Enroll in SOCI 420)

AMST 424m Political Participation and American Diversity (4, Fa) (Enroll in POSC 424m)

AMST 428 Latino Politics (4, Fa) (Enroll in POSC 428)

AMST 432m Racial and Ethnic Relations in a Global Society (4, Fa) (Enroll in SOCI 432m)

AMST 442 American Literature, 1920 to the Present (4, FaSp) (Enroll in ENGL 442)

AMST 444m Native American Literature (4, FaSp) (Enroll in ENGL 444m)

AMST 446 Cultural Circuits in the Americas (4, FaSp) How does culture move within and across the Americas? What are the relationships between new global media conglomerates, “national cultural industries,” and local cultural practices?

AMST 448m Chicano and Latino Literature (4, FaSp) Development of poetry, essay, short story and novel of the Chicano and Latino peoples of the United States, with particular emphasis on the differentiating characteristics between the multiple cultures that constitute the Latino populations. (Duplicates credit in former ENGL 448m.)

AMST 449m Asian American Literature (4, FaSp) Survey of Asian American literature from the earliest time to the present; development of prose, poetry and novel.

AMST 456m People of Color and the News Media (4) (Enroll in JOUR 456m)

AMST 458m Race and Ethnicity in Entertainment and the Arts (4, FaSp) (Enroll in COMM 458m)

AMST 464m Latino News Media in the United States (4, Sp) (Enroll in JOUR 465m)

AMST 465 Studies in American Art (4, max 8, FaSp) (Enroll in AHIS 465)

AMST 466m The Psychology of African Americans (4, FaSp) Provides an introduction to the study of health, mental health, and social behavior among African Americans.

AMST 475m Blackness in American Visual Culture (4, FaSp) (Enroll in AHIS 475m)

AMST 483 Religion and Popular Culture in the United States (4, Sp) (Enroll in REL 483)

AMST 490x Directed Research (2-8, max 8) Individual research and readings. Not available for graduate credit.

AMST 492 Research Methods in American Studies and Ethnicity (4, Fa) Develop the research proposal and methods for completing a senior honors thesis; for students in one of the four PASE majors.

AMST 493 Senior Honors Thesis in American Studies and Ethnicity (4, Sp) Writing the honors thesis; for students in one of the four PASE majors and PASE Honors Program.

AMST 498 Senior Seminar in American Studies and Ethnicity (4, FaSp) Capstone course for majors, highlighting interdisciplinary study of race and ethnicity in a comparative context. Prerequisite: AMST 200.

AMST 499 Special Topics (2-4, max 8) Special topics in the earth sciences. Field trip required when appropriate to the topic. Departmental approval required.

AMST 500 Introduction to American Studies and Ethnicity (4, Fa) An exploration of themes, theoretical influences, and methodological approaches current in American Studies and Ethnic Studies. Open to first year graduate students in American Studies and Ethnicity only.

AMST 509 Key Topics in Linguistic Anthropology (4, FaSp) (Enroll in ANTH 509)

AMST 510 Readings in Chicano/Latino Studies (4, FaSp) Perspectives from the major debates that have driven the development of the field of Chicano/Latino/a studies across the disciplines.

AMST 520 Readings in Asian American Studies (4, FaSp) Graduate seminar covering critical themes in the interdisciplinary field of Asian American Studies, including perspectives from anthropology, literature, sociology, history, political science, religious studies, cultural studies, women/gender studies and psychology.
AMST 525 Seminar in American Art (4, FaSp) (Enroll in AHIS 525)
AMST 530 Readings in African American Studies (4, max 8, FaSp) Seminar exploring crucial theoretical, methodological and historical issues in the development of African American Studies.
AMST 543 Critical Studies in Whiteness (4, max 8, FaSp) Examines meaning of “whiteness” from historical and other disciplinary perspectives; focus is on how whiteness operates within specific racial regimes to perpetuate inequality.
AMST 552 Archives and Subcultures (4, FaSm) Introduction to the practice of archival research with an emphasis on the literary and historical methods of documenting subcultural groups, particularly racial and sexual minorities.
AMST 554 Readings in Chicano/Latino History (4, FaSp) Readings, analyses, and discussion of various approaches, topics, and genres in the field of Chicano/Latino history.
AMST 560 Readings on Race and Ethnicity (4, FaSp) Exploration of research on race and ethnicity in the United States as it pertains to political, social, economic, cultural and historical issues.
AMST 562 The Practice of Ethnography (4) (Enroll in ANTH 562)
AMST 570 Readings on Los Angeles and Urban Culture (4, FaSp) Exploration of some of the leading scholarship from a variety of disciplines writing about Los Angeles and the Southern California area. Particular emphasis is placed on the intersections of historical, contemporary and cultural issues that inform recent scholarship on Los Angeles.
AMST 572 Quantitative Methods for a Diverse Society (4, FaSp) Diversity and empirical social research; conceptualization, design and measurement; conducting, analyzing and evaluating surveys and experiments; focus on obstacles in the empirical study of diversity.
AMST 580 Readings in Cultural Studies (4, FaSp) Seminar in theoretical approaches to cultural studies, with an emphasis on the analysis of race, gender, sexuality, and class in the U.S.
AMST 585 Topics in Cultural Theory (4, max 8, FaSp) Introduction to key texts on poststructuralism and its theorizing of the body, power, and historical trauma.
AMST 586 Utopia and Dystopia (4, FaSp) How did Marx conceptualize modernity? What is capital? Historical materialism? Dialectical materialism? What roles do race, class, gender, sexuality, territory and the state perform?
AMST 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the program.
AMST 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)
AMST 599 Special Topics (2-4, max 8) Seminar in selected topics in American studies and ethnicity.
AMST 610 Interdisciplinary Research Seminar in Chicano/Latino Studies (4, max 8, FaSp) Exploration of issues involved in conducting research in the interdisciplinary field of Chicano/Latino Studies and guides students through the design and completion of a journal-quality research paper. Recommended preparation: graduate reading course in Chicano/Latino Studies.
AMST 660 Interdisciplinary Research Seminar in Race and Ethnicity (4) Explores issues of conducting interdisciplinary research in race and ethnicity and guides students through the design and completion of a journal-quality research paper. Recommended preparation: graduate reading course in race and ethnicity.
AMST 670 Interdisciplinary Research Seminar on Los Angeles (4) Introduces students to issues of urban-based research concerning Los Angeles and guides students through the design and completion of a journal-quality research paper. Recommended preparation: graduate reading course on Los Angeles.
AMST 680 Interdisciplinary Research Seminar in Cultural Studies (4) Explores theoretical approaches to cultural studies as an interdisciplinary field and guides students through the design and completion of a journal-quality research paper. Recommended preparation: graduate reading course in cultural studies.
AMST 700 Theories and Practices of Professional Development (4, FaSpSm) Offers students a structured environment in which to write their dissertation proposals and focuses on professional development. Completion of qualifying exam. Graded CR/NC.
AMST 701 Contemporary Theories of American Studies and Ethnicity (4, max 8, Sp) Seminar in representative theoretical works in the fields of American Studies and Ethnic Studies published in the past fifteen years.
AMST 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the program. Graded CR/NC.
AMST 794abcdz Doctoral Dissertation (2, 2, 2, 2, 0) Credit on acceptance of dissertation. Graded IP/CR/NC.

Chair: Gary Seaman, Ph.D.

Faculty
Professors: Eugene Cooper, Ph.D.; Caleb E. Finch, Ph.D. (Gerontology); Gelya Frank, Ph.D. (Occupational Science); Janet Hoskins, Ph.D.; Dorinne Kondo, Ph.D.; Nancy Lutkehaus, Ph.D.; Peter Mancall, Ph.D. (History); Cheryl Mattingly, Ph.D.; G. Alexander Moore, Ph.D.; Lawrence A. Palinkas, Ph.D. (Social Work); Alison Renteln, Ph.D. (Political Science); Andrei Simic, Ph.D.; Craig Stanford, Ph.D.* (Biological Sciences)
Associate Professors: Lanita Jacobs, Ph.D.; Andrew Lakoff, Ph.D. (Sociology); Gary Seaman, Ph.D.
The Department of Anthropology offers a B.A. in Anthropology with tracks in cultural anthropology, medical anthropology and biological anthropology; a B.A. in Anthropology with a concentration in visual anthropology; a B.A. in Interdisciplinary Archaeology; minor programs in cultural anthropology, medical anthropology, folklore and popular culture; an M.A. in Anthropology; a certificate in visual anthropology, a progressive master’s degree in visual anthropology, and a Ph.D. in Anthropology.

The Department of Anthropology encourages students to become involved in ethnographic research and fieldwork while gaining a firm theoretical foundation in anthropology. Special areas of emphasis in the department are provided by programs in visual anthropology and primate ethology at both the undergraduate and graduate levels. Undergraduates may take a number of courses in visual anthropology that focus on the analysis and understanding of human behavior and are encouraged to include visual media in their senior field methods practicum. Undergraduates may also elect to complete a major with an emphasis in visual anthropology or a major in urban applied anthropology.

Bachelor of Arts

Anthropology Major Requirements
The B.A. Anthropology has three tracks: cultural anthropology, medical anthropology and biological anthropology. Each track has five core courses and five additional required courses depending on the track. The total number of units for each program is 40.

In addition to the general education requirements, the following courses are required.

Cultural Anthropology Track Requirements

One world area specialization course 4

## Minor in Folklore and Popular Culture

The minor in folklore and popular culture provides an academic foundation for students interested in the many genres in the field including folktales, myths, legends, proverbs, jokes, games, folk medicine, and folk and indigenous musical traditions, from around the world. Through interdisciplinary course work, students will learn techniques of collecting, analyzing and interpreting the traditional expressive culture of diverse groups. Students will analyze the interrelationships of folklore and national, regional and ethnic identities. After becoming acquainted with methods of interpreting different forms of folklore, students will see how value systems are reflected in the data, so that students understand the ideological underpinnings of group formation, group identity, conflict and strategies for resolution. By focusing on the individual, informal culture, and the tension between the individual and myriad groups to which they belong, folklore provides yet another window into understanding how individuals function in complex societies. Since the field is historically grounded and culturally comparative, folklore provides important perspectives on the human condition.

### Course Requirements

For the minor in folklore and popular culture, students must complete five courses, as distributed below.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

## Minor in Southeast Asia and Its People

This minor allows students to supplement more narrowly defined departmental majors with a multidisciplinary focus on an area of great importance both to global developments and to cultural heritage issues in California and the United States. There is no language requirement and no required courses, but students must take one lower and four upper division courses dealing with Southeast Asian cultures and people of Southeast Asian heritage in the United States. The focus of this new minor is on transnational connections and the new area of global culture.

</tr>
<tr>
<td>COLT 379</td>
<td>Nationalism and Postcolonialism in Southeast Asian Cinema</td>
</tr>
</tbody>
</table>

A screening examination must be taken before a student has completed more than 24 units of course work and should be submitted in the third year of residence. The exam consists of three written field statements, a working bibliography and an oral defense.

The Center for Visual Anthropology
The primary goals of the Center for Visual Anthropology (CVA) are: to promote the incorporation of visual modes of expression into the academic discipline of anthropology; to promote mutual understanding and collaboration between professionals in the visual media and in anthropology; to create an awareness of the anthropological perspective in documentaries produced for mass audiences; to improve the materials and techniques available for using film in teaching anthropology; to encourage the collection, archiving and analysis of visual documentation for anthropological research. The Ethnographics laboratory is a part of the Center for Visual Anthropology, which provides archival and computer facilities for students and faculty who work with non-linear editing systems and interactive media in anthropology. The primary mission of the Ethnographics Lab is to promote the integration of all forms of information, whether text, graphics of time-based media, into a new synthesis of anthropological knowledge. It provides support for research and representation in multimedia formats carried out in a new laboratory facility based on computer AV technologies and software.

The Jane Goodall Research Center is the designated repository of field data from Jane Goodall’s work among the primates of Gombe National Park in Tanzania. A computer interactive multimedia archive of these materials is being implemented to make them available to students, faculty and other interested scholars.

Facilities
The CVA housed at the Social Science Building on the USC campus and at the C-Lab, is equipped with broadcast-quality production and editing facilities in video.

These include Super 8 systems and high-band 3/4” as well as 1/2” videos. Editing facilities include Super 8 editors, JVC 1/2” editing systems, a Sony 3/4” time code system, an on-line editing system and an AVID editing systems, a Sony 3/4” time code system, an on-line editing system and an AVID editing systems, a Sony 3/4” time code system, an on-line editing system and an AVID editing systems. Editing and viewing facilities are also located in the School of Cinematic Arts. The CVA maintains a complete still photography lab and darkroom.

Policy on Films and Videos Produced by Students
All films and videos produced with school equipment, funding or facilities are the property of USC. Any income from distribution of student-produced films and videos will be used for the benefit of CVA students through production budgets, equipment purchases or scholarships.

Certificate in Visual Anthropology
Students can be admitted to the Certificate in Visual Anthropology after they have completed their Ph.D. qualifying examinations. The certificate is an interdisciplinary program, with training in digital video production provided by the USC School of Cinematic Arts. Professional skills in video production are designed to help students present their research results to a wider audience and to use visual media effectively in communicating ideas about anthropology. After completing fieldwork, students take a year-long editing sequence and practicum (ANTH 576 and ANTH 577) to finish a visual project, which will complement the written dissertation. A total of 16 units is required.

REQUIRED COURSES

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Students may begin to take course work required for the certificate in their first year, but they cannot complete their project until they have satisfied other requirements for doctoral candidacy. The Certificate in Visual Anthropology is received at the same time as the Ph.D.
Master of Visual Anthropology

Students can apply for the Master of Visual Anthropology only if they have a strong undergraduate background in visual anthropology and have a clearly outlined project for a documentary based on ethnographic research that can be completed within a year from the time that they are admitted.

<td>4</td>
</tr>
</tbody>
</table>

The final documentary project must be submitted in rough cut format by the end of August following the completion of all course work in May.

Doctor of Philosophy in Anthropology

Students may apply online for graduate study in the doctoral program at [www.usc.edu/admission/graduate/apply](http://www.usc.edu/admission/graduate/apply). The Ph.D. requires 60 units of course work. These include the 32 units required for the M.A. (16 units of required courses and 16 of graduate electives), 4 additional graduate units, plus a sequence of two graduate courses in an outside field. The additional required units for the Ph.D. are ANTH 790 Research (8 units) and ANTH 794ab Doctoral Dissertation (2-2 units). Before being admitted to Ph.D. candidacy, the student must fulfill the language requirement, present an expanded version of the field statements at a qualifying examination, write a dissertation prospectus and pass the qualifying examination. Having completed this work, the student will conduct fieldwork and write the doctoral dissertation.

**Degree Requirements**

</table>

Completion of the program requires 60 units.

**Foreign Language Requirement**

A reading knowledge of a scholarly language (normally chosen from among Arabic, Chinese, French, German, Italian, Japanese, Portuguese, Russian or Spanish) is required before admission to candidacy. If some other field language is required for the dissertation research to be successfully completed (for example, Maya, Hebrew, Javanese, etc.), this will be communicated to the student upon submission of the field project required for admission to candidacy.

Courses of Instruction

**ANTHROPOLOGY (ANTH)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**ANTH 100g Principles of Human Organization: Non-Western Societies (4, FaSp)**

Universal social organizational themes and their culture-specific variations are explored across five non-western societies.

**ANTH 101 Body, Mind and Healing (4)**

The body, illness and healing from a cultural perspective, including comparative studies of folk healing systems, curing rituals and Western biomedical practices.

**ANTH 105g Culture, Medicine and Politics (4, Fa)**

Survey of the impact of public institutions, the private sector, and cultural practices on health and the delivery of health care in the United States. Concurrent enrollment: WRIT 140.

**ANTH 125g Social Issues in Human Sexuality and Reproduction (4, FaSp)**

Examination of the “natural” (biological) and “unnatural” (social and cultural) dimensions of human sexuality and reproduction. Concurrent enrollment: WRIT 140.

**ANTH 140g Native Peoples of Mexico and Central America (4, Sp)**

An exploration of the nature and contributions of pre-Columbian high civilizations (Maya, Aztecs, etc.) and their descendants as they resist and assimilate to the modern world.
ANTH 200Lg The Origins of Humanity (4, FaSp) Foundations of the human species. Examination of scientific evidence from Darwinian theory, primate behavior, fossils, and the behavior of modern people.

ANTH 201 Introduction to Social Anthropology (4, FaSpSm) Major culture types, nomadic hunters and herders, peasant and tribal societies, sophisticated kingdoms; social, political, economic, and religious institutions.

ANTH 202 Introduction to Archaeology (4, Sp) How archaeological research is conceived, planned, and carried out, from survey and excavation to analysis of finds and final reconstruction of ancient cultural systems.

ANTH 225 Gender, Sex, and Science: A Gender Studies Approach (4) (Enroll in SWMS 225)

ANTH 235g The Changing Pacific: Culture, History and Politics in the New South Seas (4, Fa) Current social and political developments in the South Pacific analyzed from the perspective of the historical relationship between indigenous cultures and the West. Concurrent enrollment: MDA 140.

ANTH 250g Race and Sexual Politics in Southeast Asia (4) Southeast Asia is studied as a meeting place of different races and cultural traditions, with emphasis on the precocial heritage of sexual equality and postcolonial reinterpretations of men’s and women’s worlds.

ANTH 263g Exploring Culture Through Film (4, FaSpSm) Concepts of social anthropology using filmic representations of societies throughout the world in contrast to written ethnography.

ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions (4, Fa) An intensive study of local systems of belief and knowledge in selected societies in the Pacific, Asia, Africa, the Caribbean and Latin America with emphasis on ideas of the spirit world.

ANTH 300 Evolution, Ecology, and Culture (4, Sp) The roles of biology, culture, and the environment in shaping human society, integrating evolutionary biology and cultural theory.

ANTH 301 The Performance of Healing (4) Survey of the performance of healing in cross-cultural perspective. The course culminates in field research to Spiritist centers outside the United States.

ANTH 305 Childhood, Birth and Reproduction (4, Fa) Cross-cultural analysis and comparison of the experience and cultural conception of birth, maternity, parenthood, and childhood in western and non-western societies.

ANTH 306 Primate Social Behavior (4) Social behavior of living nonhuman primates, with an emphasis on field studies of apes and monkeys. Topics include aggression, communication, reproduction, cognition and ecology.

ANTH 308 Origins and Evolution of Human Behavior (4) Examination of the evidence for and against evolutionary bases of a range of human behaviors. Topics include sex differences, human reproductive strategies, race, IQ, human ecology.

ANTH 310 Archaeology of the Americas (4, Irregular) Pre-Columbian culture from early hunters to the Spanish conquest in major geographical areas of Mexico, Central America, Peru, or the United States.

ANTH 311 Old World Archaeology (4, Irregular) Neolithic revolution and origins of civilization in major culture centers such as Mesopotamia, Egypt, India, or China.

ANTH 314 The Nature of Maya Civilization (4) A seminar forum on Maya culture from the earliest form to present; problems of origins, classic florescence, systems collapse, conquests, persistence, and transformation today.

ANTH 315g North American Indians (4, Fa) North American Indian societies, their major cultural themes, ethnological significance, and comparability with Western European cultural forms; lectures, visuals, and indigenous demonstrations.

ANTH 316m North American Indians in American Public Life (4, Sp) Role of American Indians in American public life from colonial times to the present; native American forms of government; relations between tribes and the U.S.

ANTH 317 Imaging Indians: From Warriors to Windtalkers (4, Fa) An historical and anthropological overview of 500 years of the presentation of differing and, often, contradictory perceptions of Native American life and character in popular and academic media.

ANTH 320 Male and Female in Pacific Society (4, Sp) Cultural variations in gender systems and historical changes due to colonialism and development in Polynesia, Melanesia, Indonesia, and other Pacific Rim cultures.

ANTH 322 Anthropology of Bali (4, Sp) An introduction to the methodology of social anthropology, focusing on the culture of the Indonesian island of Bali.

ANTH 323 Regional Ethnology: Southeast Asia (4, Irregular) Peoples and cultures of southeast Asia, from the late Pleistocene to the present.

ANTH 324 Regional Ethnology: China (4, 2 years, Sp) Anthropological perspective of the ordinary citizens of the Peoples’ Republic of China: peasants, workers, bureaucrats, students, and women.

ANTH 326 Ethnography of European Culture (4, Irregular) Europe as a geographic area in terms of its linguistic, ethnic, racial, and cultural diversity; particular focus on peasant society and the Little Tradition.

ANTH 327 Anthropology of the Middle East and Islam (4, Sp) Explores written and visual ethnography for study of Middle East community, sociopolitical forms and religious life. Examines scriptural and living Islam and dynamics of contemporary Islamic revival.

ANTH 328m Culture Change and the Mexican People (4, Irregular) Culture change theories and methods (archaeology, community studies, participant-observation) used to examine the varied experiences of peoples in Mexico and the U.S. Southwest.

ANTH 330 Culture, Gender and Politics in South Asia: Afghanistan, India, Pakistan, Nepal (4, Fa) Examination of violence, identity, law, religion, nationalism, development, caste, kinship, gender, and the South Asian diaspora.

ANTH 333m Forms of Folklore (4, Fa) Introduction to folklore as a discipline, including folklore research methods and theory. Core course for the minor in Folklore and Popular Culture.

ANTH 335 Comparative Muslim Societies (4, Irregular) Examines issues of nationality, religion, and culture among Muslim peoples in the Middle East, Africa, East Asia, and the Soviet Union from an anthropological perspective.

ANTH 336 Health, Gender and Ethnicity (4, Sp) (Enroll in SWMS 336)
ANTH 345 Politics, Social Organization, and Law (4, 2 years, Sp) Political and legal systems of primitive societies, social control, and structure.

ANTH 355 Urban Anthropology (4, Irregular) Exploration of empirical and analytical approaches employed by anthropologists in studying urban phenomena cross-culturally; urban origins, structure, and social processes.

ANTH 360 Symbolic Anthropology (4, Fa) The role of symbols in the evolution of culture; symbolic aspects of myth, ritual, and social life. Prerequisite: sophomore standing.

ANTH 365 Life History in Anthropological Perspective (4, Irregular) Examination of one’s life within its sociocultural context; study of family history, autobiography, diary, journal, and film; research and writing of a life history.

ANTH 370 Family and Kinship in Cross-Cultural Perspective (4, 2 years, Sp) Comparative examination of family and kinship in tribal, peasant, and complex societies, emphasizing non-Western cultures, societal and normative consequences of forms and functions in family.

ANTH 371m Cross-Cultural Research on Urban Gangs (4) Youth gang dynamics and their effects on institutions. Comparative analysis of Asian, African, and Mexican American gangs.

ANTH 372 Interpretation of Myth and Narrative (4, Fa) Oral narratives from non-Western cultures; communications about deeply-held beliefs, psychological tensions, social problems, and the structure of the mind.

ANTH 373 Magic, Witchcraft and Healing (4) Analysis of the practices of witches and witch doctors, priests, diviners and traditional healers in Western and non-Western societies, relating their practices to religion and medicine.

ANTH 374 Asian Americans: Ethnic Identity (4, FaSp) (Enroll in SOCI 375)

ANTH 375 Applied Anthropology (4, 2 years, Sp) Evaluation of cultural impact of policy and program designed to stimulate change in traditional communities. Fieldwork assignments in education, health, and development.

ANTH 380 Sex and Gender in Anthropological Perspective (4) Cultural construction of gender in a number of non-Western societies is compared to ideas of sex and sexual differences in American society.

ANTH 385m Men and Masculinity (4) (Enroll in SWMS 385m)

ANTH 390 Special Problems (1-4, Irregular) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ANTH 395m African American Humor and Culture (4) (Enroll in AMST 395m)

ANTH 405 Evolutionary Medicine (4, Sp) Evolutionary, cultural and environmental factors in the emergence and existence of diseases; a Darwinian examination of illness in the human species.

ANTH 406 Theory and Method in Biological Anthropology (4) Historical and theoretical approaches to major issues in the field of biological anthropology. Includes human evolution, primatology, origins of culture, human biology.

ANTH 407 Peasant Society (4, Sp) Comparative study of the social, economic, political, and religious characteristics of peasant societies as they have existed and continue to exist in Asia, Africa, and Latin America.

ANTH 410ab Ethnographic Field Methods and Practicum (4-4, FaSp) Survey of anthropological methods for acquiring and analyzing data. a: Ethnographic research methods and modes of analysis; development of a field research project. b: Implementation of the field project. Prerequisite: ANTH 201.

ANTH 425 Peoples and Cultures of Latin America (4, Irregular) Cultures of the indigenous peoples of South America; results of Spanish conquest and colonization; present folk societies and their cultures.

ANTH 435x Ethnic Diversity in China/Inner Asia (4) Tibetans, Mongols, Muslims and other minorities on the China and Inner Asian frontier will be surveyed through ethno-histories, lectures, films and guest lectures. Not available for graduate credit.

ANTH 440 History of Anthropological Theory (4, Sp) Ideas about man, culture, and society which have formed the field of anthropology as a research discipline; present trends and problems.

ANTH 455 Cultural Ecology (4, Irregular) Ecological adaptation of human cultures, emphasizing the development of values in the context of constraints and incentives stemming from the environment.

ANTH 460 Economic Anthropology (4, Fa) Comparative study of human systems of production, distribution, and consumption; anthropological approaches to study of economic behavior; economic systems of primitive, peasant, and developing societies.

ANTH 470 Multidisciplinary Seminar in Visual Anthropology (2 or 4, Irregular) Application of broadcast journalism, cinema, and anthropology to ethnographic film making.

ANTH 472 Visual Techniques in Anthropology: Stills (4, Fa) Visual techniques for data collection and analysis in anthropological research. Visual anthropological research using 35 mm, photography skills, fieldwork procedures, data analysis, and presentation formats.

ANTH 475 Ethnographic Film Analysis (4, Irregular) Analysis of film as a tool for investigating primitive and modern cultures and societies.

ANTH 476 Ethnographic Film Theory from an Historical Perspective (4) Technologies and uses of, theoretical frameworks for, and the presentation styles of ethnographic materials are examined from a historical perspective.

ANTH 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

ANTH 491 Directed Research for Honors (4, Irregular) Individually guided research and readings culminating in the production of an honors thesis. Prerequisite: 3.0 GPA; ANTH 201 plus 8 units of upper division anthropology courses.

ANTH 499 Special Topics (2-4, max 8, Irregular) Current literature: social change, comparative institutions, urbanization, ideology.

ANTH 502 Contemporary Theory in Anthropology (4, Sp) Continuation of ANTH 501, focusing on current models, methods, and issues in social anthropology.

ANTH 503 Regional Ethnography (4, Sp) An intensive analysis of the anthropology of a major culture area.

ANTH 506 Primate Behavior and Sociobiology (4) Advanced course on the behavior, ecology and sociobiology of living primates. Takes a Darwinian approach to behaviors such as parenting, mating, diet and feeding, competition, and demography.
Art History

ANTH 509 Key Topics in Linguistic Anthropology (4, FaSp) Introduction to key topics in linguistic anthropology with special focus on interrelations between language, identity, culture, gender, and power in the U.S. and beyond.

ANTH 510 Urban Anthropology (4, Fa) Intensive ethnographic analysis of specialized urban niches, microsettings, ethnicity, community studies.

ANTH 554 Women in Global Perspective (4) (Enroll in SWMS 554)

ANTH 562 The Practice of Ethnography (4, Sp) Major approaches to ethnographic fieldwork are explored in classic cases.

ANTH 575 Seminar in Ethnographic Film (4, Fa) A survey of ethnographic film using both the dimensions of natural history descriptions and process, contrasted with naturalism and structuralism as tools of controlled comparison and analysis.

ANTH 576L Anthropological Media Seminar (4, max 8) A hands-on laboratory-based survey of post-production technologies, including editing both new and older footage. Students should be finishing their own documentaries. Prerequisite: ANTH 576.

ANTH 577L Advanced Anthropological Media Seminar (4, max 8) A hands-on laboratory-based survey of post-production technologies, including editing both new and older footage. Students should be finishing their own documentaries. Prerequisite: ANTH 576.

ANTH 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ANTH 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

ANTH 594abz Master’s Thesis (2-2-2-2-0, FaSpSm) Credit on acceptance of thesis. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ANTH 599 Special Topics (2-4, max 8, Fa)

ANTH 601 Feminist Issues in Anthropology (4, FaSpSm) Feminist concerns in both Western and Non-Western societies are examined in relation to globalization; the practice of ethnography and issues of power.

ANTH 602 The Anthropology of Popular Culture (4, FaSpSm) The relationship between anthropology and popular culture is explored through a critical examination of the category “popular culture.”

ANTH 603 Experiments in Ethnographic Writing (4, FaSpSm) The problems of representation involved in rendering experience into narrative are examined in a number of contemporary “experiments.”

ANTH 604 Bodies and Practices (4, FaSpSm) The cultural construction of body image, embodied practice, race, sexuality and healing.

ANTH 605 Race: Performance, Politics, Cultural Production (4, FaSpSm) Focuses on the performance and social construction of race and its intersection with gender, sexuality, class, place, nation and empire.

ANTH 606 Seminar on Nationalism and Ethnicity (4) Cross-cultural analysis of nationalism and ethnicity from an ethnographic perspective. Graduate standing.

ANTH 650 Seminar in Ethnography and Interpretation (4) A seminar where issues in contemporary ethnography and interpretation are discussed, grouped around a theme of current concern, such as power and resistance, colonialism, Marxist approaches, feminism, etc. Prerequisite: ANTH 501.

ANTH 790 Research (1-12, FaSpSm) Research leading to the doctorate. Minimum 8 units, maximum number of units which may be applied to the degree to be determined by the department. Graded CR/NC.

ANTH 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Professors: John Bowlt, Ph.D. (Slavic Languages and Literatures); Leo Braudy, Ph.D. (English); Kate Flint, Ph.D. (English); Selma Holo, Ph.D.; Eunice Howe, Ph.D.*; Carolyn M. Malone, Ph.D.; John Pollini, Ph.D.; Vanessa Schwartz, Ph.D. (History)

Associate Professors: Sonya Lee, Ph.D.; Richard Meyer, Ph.D.; Ann Marie Yasin, Ph.D. (Classics)

Assistant Professors: Daniela Blichmar, Ph.D.*; Suzanne Hudson, Ph.D.; Megan Lake, Ph.D.; Sean Roberts, Ph.D.

*Recipient of university-wide or school teaching award.

Art history combines the study of art with the study of culture. The undergraduate major not only receives sound training in the history of art but also a basis in other humanistic disciplines. The curriculum is designed to guarantee students a general knowledge of both western and eastern art, and to offer a variety of upper division courses in specialized areas. Majors are exposed to a diversity of theoretical approaches and encouraged to sharpen their critical and conceptual thinking. This foundation has enabled many art history graduates to pursue advanced degrees in nationally recognized programs, to enter diverse fields, including law or business, and to pursue careers in the arts.

A special feature of the undergraduate program is the apprenticeship, which affords upper-division students the opportunity to work in the professional art world in return for elective credit. Students gain valuable job skills in local museums, galleries, auction houses, and art foundations. Apprenticeship placement is also available during the summer months throughout the United States.
Graduate students in art history pursue a wide range of subject matter, using a variety of methodologies and techniques. Graduates may also pursue parallel interests by taking courses in outside departments such as history, classics, East Asian languages and cultures, Slavic languages and literatures, French, German, Italian and others. Graduate students are encouraged to participate in annual conferences and symposia. Travel grants are available through the department. In addition to an excellent slide library, electronic access to university library catalogues from home or office, courtesy privileges and cross-registration of course work at UCLA, our graduate students have access to numerous research opportunities in and around Southern California at institutions such as the Los Angeles County Museum, the Huntington Museum, the Archives of American Art, the Institute for Modern Russian Culture, the J. Paul Getty Museum and the Getty Research Institute for the History of Art and the Humanities.

Undergraduate Degree

Bachelor of Arts in Art History

In art history, undergraduates are provided with a sound, broad foundation in art from a variety of offerings. On this basis, exploration of the art of many eras and cultures proceeds in a program designed to develop an awareness of the integral role played by art as an expression of the human condition and society throughout history. A grade of C or higher is required in departmental courses for all undergraduate majors.

Curriculum Requirements

The Bachelor of Arts in Art History requires 128 units.

General Education and Diversity Requirements

Candidates for the Bachelor of Arts in Art History must complete the general education and diversity requirements of the USC Dornsife College of Letters, Arts and Sciences.

Major Requirements

The major requires 40 units as follows.

LOWER DIVISION REQUIREMENTS (8 UNITS) UNITS
AHIS 120 Foundations of Western Art, or
AHIS 121 Art and Society: Renaissance to Modern 4
Choose one course from:
AHIS 125 Arts of Asia: Antiquity to 1300 4
AHIS 126 Introduction to Asian Art: 1300 to the Present 4
AHIS 127 Arts and Civilizations of Ancient Middle and South America 4
AHIS 128 Arts of Latin America 4

Additional Requirements (32 units)

AHIS 494 is required. Seven additional courses to include five courses with a minimum of one in each of four out of the following five areas of study, only one of which may be at the 200 level. Greek and Roman art and archaeology – AHIS 201, AHIS 321, AHIS 322; Medieval art – AHIS 220, AHIS 330; Renaissance and Baroque art – AHIS 230, AHIS 304, AHIS 343, AHIS 344; modern and contemporary art – AHIS 250, AHIS 255, AHIS 270, AHIS 361, AHIS 363, AHIS 364, AHIS 365, AHIS 368, AHIS 369, AHIS 370, AHIS 373; non-European traditions – AHIS 282, AHIS 319, AHIS 376, AHIS 377, AHIS 381, AHIS 384, AHIS 385, AHIS 386, AHIS 387, and two that must be at the 400-level. (AHIS 400x counts for elective credit only and may not be applied to the major.) AHIS 494 (the capstone course) may be taken in either the junior or senior year.

The following courses require written permission of the chair of the Art History Department: AHIS 495ab Undergraduate Honors Thesis (2-2) and AHIS 499 Special Topics (2-4, max 8).

Art History Honors Program

Candidates for the B.A. in the Department of Art History can earn a designation on their transcripts of departmental honors. Admission to the Honors Program is required.

Prerequisites: 3.5 overall GPA, 3.5 major GPA or better, completion of at least three upper-division art history courses at the time of admission, submission of an application form to the undergraduate faculty adviser.

Required for departmental honors: maintain GPA requirements stated above and complete AHIS 495ab Undergraduate Honors Thesis.

Bachelor of Arts in Interdisciplinary Archaeology

See Religion, page 460, for a complete listing.

Minor in Art History

Art history combines the study of art with the study of culture broadly conceived. The art history minor offers a concentrated course of study that includes a variety of objects from different historical periods and cultures in relation to their makers, patrons, viewers and critics. Students in the minor are trained to analyze visual images and information through a process of intensive looking, reading, research and writing.

Lower Division Curriculum (8 units)

CHOOSE TWO LOWER DIVISION COURSES;
ONLY ONE MAY BE AT THE 200 LEVEL

</tbody>
</table>

Upper Division Requirement (16 units)

Choose from 300- and 400-level AHIS courses. At least one course must be at the 400 level.

Minor in Visual Culture

A critical approach to art history is the departure point for the minor in visual culture, which is dedicated to the analysis of the visual arts, broadly defined to include fine art, film and television, photography and video, illustrated books, advertising, architecture and design. Students are required to take two introductory courses in the history and theory of art. These courses will prepare them for focused study in one of three concentrations: (1) photography, film and the reproduction of images, (2) popular culture or (3) gender and sexuality.
REQUIRED COURSES | UNITS |
--- | --- |
AHIS 100 | Introduction to Visual Culture | 4 |
COMM 306 | The Communication Revolution and the Arts, or Modernity and Difference: Critical Approaches to Modern Art (Gateway Course) | 4 |
AHIS 250 | | |

Four courses to be selected from one of the following three tracks:

(1) Photography, Film and the Reproduction of Images

AHIS 373 | History of Photography | 4 |
AHIS 469 | Critical Approaches to Photography | 4 |
ANTH 263 | Exploring Culture Through Film | 4 |
COLT 452 | Representation and Cognition in Photography | 4 |
COLT 480 | Dada and Surrealism | 4 |
CTCS 392 | History of the American Film, 1925-1950 | 4 |
CTCS 393 | History of the American Film, 1946-1975 | 4 |
CTCS 394 | History of the American Film, 1977-Present | 4 |
CTCS 400 | Non-fiction Film and Television | 4 |
ENGL 471 | Literary Genres and Film | 4 |
ENGL 481 | Narrative Forms in Literature and Film | 4 |
FAIN 310 | Digital Photo Studio | 4 |
FAPR 309a* | Advanced Photography | 4 |
FAPR 311 | Printmaking | 4 |
FREN 320 | French Cinema and French Society: 1900 to the Present | 4 |

HIST 225 | Film, Power, and American History | 4 |
HIST 381 | Cinema and History | 4 |
HIST 481 | Producing Film Histories | 4 |
PHIL 446 | Aesthetics and the Film | 4 |

(2) Popular Culture

AHIS 370 | Modern Art III: 1940-present | 4 |
COLT 365 | Literature and Popular Culture | 4 |
COMM 384 | Interpreting Popular Culture | 4 |
COMM 450 | Visual Culture and Communication | 4 |
COMM 455 | Advertising and Society | 4 |
COMM 458 | Race and Ethnicity in Entertainment and the Arts (prerequisite: COMM 300) | 4 |
CTCS 392 | History of the American Film, 1925-1950 | 4 |
CTCS 393 | History of the American Film, 1946-1975 | 4 |
CTCS 394 | History of the American Film, 1977-Present | 4 |
CTCS 404 | Television Criticism and Theory | 4 |
ENGL 392 | Visual and Popular Culture | 4 |
ENGL 471 | Literary Genres and Film | 4 |
ENGL 481 | Narrative Forms in Literature and Film | 4 |
HIST 380 | American Popular Culture | 4 |
PAS 400 | New Models of Art in City-Space | 4 |
PHIL 446 | Aesthetics and the Film | 4 |

(3) Gender and Sexuality

AHIS 304 | Italian Renaissance Art: Old Masters and Old Mistresses | 4 |
AHIS 363 | Race, Gender, and Sexuality in Contemporary Art | 4 |
ARCH 442 | Women’s Space in History: “Hussies,” “Harems” and “Housewives” | 4 |
COLT 480 | Dada and Surrealism | 4 |
COMM 395 | Gender, Media and Communication | 4 |
COMM 465 | Gender in Media Industries and Products | 4 |
CTCS 192 | Race, Class, and Gender in American Film | 4 |
CTCS 412 | Gender, Sexuality and Media | 4 |
ENGL 476 | Images of Women in Contemporary Culture | 4 |
ENGL 478 | Sexual/Textual Diversity | 4 |
HIST 245 | Gender and Sexualities in American History | 4 |
SOCI 437 | Sexuality and Society | 4 |

Total units required 24

*32 units if students select FAPR 309a Advanced Photography with 8 units of prerequisites

Interdisciplinary Minor in Early Modern Studies

This minor brings together the resources of the Departments of English, History and Art History to study the literatures and cultures of Europe and the Americas from the late medieval period to 1800. For complete listing of requirements, see the Department of English, page 340.

Graduate Degrees

Admission

Admission to all programs is granted through the Graduate School in conjunction with the Department of Art History; all applicants must meet the requirements of both. Interviews are strongly encouraged.

All applicants must complete the department's supplemental application form, which may be obtained by writing: Graduate Programs, Art History Department, Von KleinSmid Center 351, University of Southern California, Los Angeles, CA 90089-0047.

Complete details for all graduate programs can be found in the Guidelines for Graduate Studies in Art History, obtainable upon admission.

Areas of Concentration

Greek and Roman Art and Archaeology, Medieval Art, Renaissance Art, Baroque Art, 18th and 19th Century European Art, Modern and Contemporary Art, Chinese and Japanese Art, Latin American art and art of the ancient Americas.

Master of Arts, Art History

The department does not accept applicants for the Master of Arts in art history. Although the M.A. is not offered as a terminal degree, but only en route to the Ph.D., a student may be eligible for the M.A. on leaving the program after two years. A minimum of 32 units is required for the degree, and the student must pass the second year review which includes the departmental equivalent of a thesis: a revised seminar paper demonstrating original thought, research skills and writing proficiency.

The opportunity to gain experience as a teaching assistant is available on a competitive basis. Transfer work applicable to the M.A. program must have been completed within seven years of the date of application.

Degree Requirements

A minimum of 32 units, usually taken during a two-year period, is required for the Master of Arts in Art History, to be distributed as follows:

REQUIRED COURSES | UNITS |
--- | --- |
AHIS 500 | Methods and Theory of Art History | 4 |

Additional 500-level courses 28
Course Distribution
Courses will be at the 500 level; 400-level courses may be accepted with approval of the graduate adviser. No more than two seminars with the same course number can be taken for credit toward the master of arts. AHIS 500 normally must be taken in the first semester of study.

Foreign Language Requirement
All candidates must pass a reading proficiency examination in one language, normally French or German. Substitutions may be made upon faculty recommendation and approval of the chair of art history when it is deemed appropriate to the student’s course of study (i.e., Italian, Chinese, Japanese, Greek, etc.). The language requirement should be completed by the end of the first year.

Certificate in the History of Collecting and Display
This program, open to University of Southern California Ph.D. students of art history as well as qualified students from other USC departments with written permission from their home department and the Department of Art History, is devoted to the study of the history of collecting and display of works of art and related materials across a broad chronological and geographical spectrum.

The program provides a means of advancing knowledge about the presentation, circulation and consumption of works of art, as distinct from the more traditional art historical investigation of the conditions surrounding their production. Additionally, this program is designed to remedy a widely perceived disjunction between the ways art history is practiced in the museum and the academy. Each academic department will determine the number of units completed which may be applied to the student’s graduate degree in that department.

Graduate Certificate in Visual Studies
The field of visual studies encompasses a diverse range of images and artifacts as well as the history, processes and technologies of vision itself. This certificate will provide Ph.D. students with the tools necessary to think critically about visual objects and experience and to apply that thinking to their ongoing scholarly work and doctoral research. Students will combine the sustained analysis of specific representations with attention to broader philosophical frameworks and historical conditions.

Graduate students intending to concentrate in visual studies must be admitted to a Ph.D. program at USC. While fulfilling all the requirements for their departmental graduate degree, they may also earn a certificate of competency in visual studies. To receive this certificate, students must take MDA 501 Introduction to Visual Studies: Methods and Debates, a team-taught MDA 599 course, and two other graduate seminars from an approved list of relevant courses, 500 level and above, for a total of at least 16 units. Directed research may not be taken toward certificate requirements.

In addition to the completion of these course requirements, students must demonstrate a focus on visual studies as part of their doctoral dissertation. Alternatively, they may take an oral examination based on three research papers they have written within the context of their visual studies course work. The oral exam will be administered by faculty members affiliated with the visual studies graduate certificate. Faculty will be responsible for judging the adequacy of the visual studies component in the student’s dissertation or oral examination.

Doctor of Philosophy
The doctor of philosophy in the Art History program normally requires at least three years of coursework and two years of dissertation research. Applicants may be admitted directly into the program after receiving the B.A. Other applicants may already hold an M.A. in art history or the equivalent from USC or another accredited school.

Every student will be subject to departmental screening procedures, which involve periodic review by the art history graduate committee. The committee may recommend at any time, after a written warning, based on a student’s grades, evaluation of instructors or rate of progress toward the degree, that a student be dropped from the program. Such recommendations will become effective at the end of the semester during which the recommendation is made.

Application deadline: December 1.
Course Requirements
Master of Arts and Doctor of Philosophy units total 60. Up to 32 master of arts units from USC or 16 from other institutions may be transferred with approval of the faculty. Transfer work applicable to the Ph.D. program must have been completed within 10 years of the date of application. AHIS 500, or equivalent, is required of all graduating students. Four units are for work on the dissertation. (Two units of dissertation credit each semester – including summer – for a minimum registration period of two semesters.)

Foreign Language Requirements
All candidates must pass reading proficiency examinations in a minimum of two languages, normally French and German or the requisite languages in Asian art. Substitutions and/or additions may be made with faculty recommendation and approval of the chair of the Art History Department when appropriate to the student’s program. Additional foreign language beyond the minimum may be required depending on the student’s program of study. All language requirements must be completed prior to taking the qualifying exam.

Screening Examinations
Passing the following procedures are prerequisite to continuation in the doctoral program, as stated in the departmental graduate guidelines. Before the student has completed 24 units, the first-year examination must be passed. Before the student has completed 48 units, the second-year review must be passed.

Qualifying Examination
At the end of the second year, the student will nominate a five-member guidance committee for the qualifying examination that includes one member from outside the Department of Art History. The student is expected to pass the qualifying examination in a major field and satisfy the requirements for the minor and outside fields by the end of the third year. Forms for permission to take the qualifying examination must be submitted at least 60 days before the date of the scheduled examination. The written portion of the examination will be followed by an oral examination. The oral examination will be given to discuss in greater depth the student’s knowledge of the dissertation proposal; the oral lasts approximately two hours. After passing the qualifying examination, the student will be admitted to candidacy for the Ph.D.

Dissertation
Following the completion of the qualifying exam the guidance committee will be reduced to three members, including one member from outside the department, who will guide and finally approve the dissertation.

Courses of Instruction

**ART HISTORY (AHIS)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**AHIS 001x Web Site Authoring and Design (2, FaSp)** Course focuses on the World Wide Web as a teaching tool. Students will construct a Web site as a final project, utilizing a hands-on computer laboratory. Not available for degree credit. Graded CR/NG.

**AHIS 100 Introduction to Visual Culture (4, Sp)** The description and analysis of various forms of visual culture, including both mass media and “high” art representations, both Western and non-Western images.

**AHIS 120g Foundations of Western Art (4, Fa)** European art in its historical, cultural and social context. Painting, sculpture and architecture presented within a theoretical framework that introduces art history as a discipline.

**AHIS 121g Art and Society: Renaissance to Modern (4, Sp)** European art and its legacy in the Americas. Painting, sculpture, architecture and other visual media considered in relation to social and cultural history.

**AHIS 125g Arts of Asia: Antiquity to 1300 (4, Fa)** An introduction to the major art forms and monuments of religious art in India, Southeast Asia, China, and Japan from prehistory to 1300.

**AHIS 126g Introduction to Asian Art: 1300 to the Present (4, Sp)** A survey of the art and architecture of India, China, Korea, and Japan from 1300 to the present.

**AHIS 127g Arts and Civilizations of Ancient Middle and South America (4, Fa)** A survey of the art, architecture, and archaeology of the diverse array of peoples and cultures in ancient Mesoamerica and the South American Andean Mountains.

**AHIS 128g Arts of Latin America (4, Sp)** Survey of the art, architecture, and visual culture of Latin America from the colonial period to the present, focusing on connections to culture and society.

**AHIS 201g Digging into the Past: Material Culture and the Civilizations of the Ancient Mediterranean (4, Sp)** A broad survey, covering some 8,000 years and focusing on the material culture of the ancient world in a historical and social context.

**AHIS 220g Medieval Visual Culture (4, Fa)** Medieval visual culture as an introduction to the Christian heritage of western civilization and to the interaction of Church and state from the 3rd to the 13th century.

**AHIS 230 Art and Culture in Early Modern Europe (4)** Survey of European art from the 15th to the 17th century. Case studies in Renaissance and Baroque art with emphasis on artists in major urban centers.

**AHIS 250m Modernity and Difference: Critical Approaches to Modern Art (4, Fa)** Consideration of various categories of “The Modern” as they have been constructed in Western art of the late 19th and 20th centuries.

**AHIS 255g Culture Wars: Art and Social Conflict in the Modern World (4, FaSp)** Examination of social conflicts and political controversies in American culture through the lens of visual art and photography. Concurrent enrollment: WRIT 140.

**AHIS 270 L.A. Now: Contemporary Art in Los Angeles (4)** Explores the production, display and critical reception of contemporary art, taking Los Angeles as its laboratory.

**AHIS 282 Korean Art (4)** Introduction to the richness and complexity of artistic expression in Korean art through the study of painting, sculpture, ceramics, and architecture through the 19th century.

**AHIS 284g Art in Context: Introduction to the Chinese Visual World (4)** A survey of Chinese art from antiquity to the early modern period, emphasizing the context in which art objects were produced, displayed, circulated and consumed.
AHIS 304m Italian Renaissance Art: Old Masters and Old Mistresses (4) An introduction to Italian Renaissance art with emphasis on the role of gender and sexuality in the creation of “masterpieces.”

AHIS 318 Arts of the Ancient Andes (4) Survey of the art and architecture of the ancient cultures of the Andes in South America.

AHIS 319 Mesoamerican Art and Culture (4) Introductory survey of painting, sculpture, and architecture of Mesoamerica before the Spanish conquest presented in their social, cultural, and political contexts.

AHIS 320 Aegean Archaeology (Enroll in CLAS 323)

AHIS 321 Greek Art and Archaeology (4, Fa) An introductory survey of artistic works and monuments of ancient Greece from the Geometric through the Hellenistic period (c. 1000-30 B.C.).

AHIS 322 Roman Art and Archaeology (4, Sp) An introductory survey of the most important works of art and monuments of ancient Rome from the beginnings of the city through Constantine (8th century B.C. to 4th century A.D.).

AHIS 324 Late Antique Art and Archaeology (4) (Enroll in CLAS 324)

AHIS 325 Roman Archaeological Excavation: Methods and Practice (4, Sm) Students learn about archaeological methodology and practice by visiting archaeological sites in Rome and excavating a nearby ancient site.

AHIS 328 Colonial Latin American Art (4, FaSpSm) A survey of the art, architecture, and visual culture of colonial Latin America, focusing on connections to culture and society.

AHIS 330 Medieval Art (4) Introductory survey of art and architecture of Christianity from 300-1300; biblical themes and classical traditions; cultural and historical analysis of medieval art.

AHIS 343 Renaissance Art (4) Painting, sculpture and architecture in Renaissance Europe, north and south, from 1300-1600. (Duplicates credit in former AHIS 340 and AHIS 342.) Recommended preparation: AHIS 120 or AHIS 121.

AHIS 344 Baroque Art (4) Painting, sculpture and architecture in 17th century Europe, north and south. (Duplicates credit in former AHIS 353 and AHIS 356.)

AHIS 357 History of French Art 1860-1920 (4, Sp) (Paris Semester only) Exploration of the main movements of late 19th and early 20th century French art using the resources of Parisian museums and monuments. Visits to Paris museums are an integral part of the course work. Recommended preparation: familiarity with modern European history.

AHIS 361 British Art, 1730-1890 (4) A survey of art and architecture in Britain from the age of Hogarth to Art Nouveau. Among the artists studied are Constable, Turner, and the Pre-Raphaelites. (Duplicates credit in former AHIS 461.)

AHIS 363m Race, Gender, and Sexuality in Contemporary Art (4) Focuses on issues of race, gender, and sexuality in American art of the last three decades. Recommended preparation: AHIS 121.

AHIS 364 Myths, Arts, Realities: Visual Culture in California, 1849 to the Present (4) Diverse interpretations of “the California experience” in paintings, sculpture, photography, cinema, public art and popular culture of the last 150 years.

AHIS 365m African American Art (4) A survey of the fine arts produced by people of African descent in the United States from the nation’s inception in the late 18th century until the contemporary movement.

AHIS 368 Modern Art I: 1700-1850 (4) A cultural and historical examination of European art and architecture from 1700 (Rococo) to 1850 (Romantic), focusing on the beginnings of modernism in the age of revolution. (Duplicates credit in former AHIS 360.)

AHIS 369 Modern Art II: 1851-1940 (4) An examination of European modern art and design, focusing on industrialization, urbanism, primitivism, colonialism, and their relations to the arts.

AHIS 370 Modern Art III: 1940 to the Present (4, Sp) Questions of social engagement and political address structure this examination of major movements in art since 1940.

AHIS 373 History of Photography (4, Irregular) Explores key moments in the history of photography from its invention to the present. Issues include modernity and mass culture; photography as a fine art; technologies of vision.

AHIS 376 Introduction to African Art (4) An introduction to sub-Saharan art (sculpture, textiles, architecture, masquerades, performances and body arts) in the context of issues of function, gender, politics and ethnic diversity.

AHIS 377 Spanish Colonial Art and Architecture (4) Spanish Colonial Revival arts and architecture examined in view of Spanish, Mexican and Indian ethnic sources and regional movements of the 1920s, ’30s and ’70s.

AHIS 378 Modern Russian Art (4) (Enroll in SLL 378)

AHIS 381 Visual Culture of Asia (4, max 8, FaSp) Exploration of one or more major traditions of visual culture in Asia through cross-cultural, interdisciplinary perspectives.

AHIS 384 Early Chinese Art (4) A survey of Chinese architecture, ceremonial bronzes, sculpture, ceramics and painting from antiquity through the T’ang Dynasty.

AHIS 385 Later Chinese Art (4) A survey of Chinese painting from 900 to the present, emphasizing the role of painting within the context of Chinese intellectual history.

AHIS 386 Early Japanese Art (4) A survey of Japanese Buddhist and secular architecture, sculpture and painting from antiquity to 1333, stressing the relation of art to cultural context.

AHIS 387 Later Japanese Art (4) A survey of Japanese architecture, garden design, ceramics, and painting from 1333 to the present, stressing the role of art within cultural context.

AHIS 390 Special Problems (1, max 4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

AHIS 400x Undergraduate Apprenticeship (2, max 4, FaSpSm) Independent work in art museums, galleries or art history related institutes supervised by on-site professionals and USC faculty. Not available for credit to art history majors. Available to upper-division art history majors only. Graded C/RNC.

AHIS 411 Studies in Arts of the Ancient Americas (4, max 16) In-depth exploration of a specified topic in the arts of the ancient Americas, which includes North, Central, and South America.

AHIS 415 Object-Worlds: Histories and Theories of Things (4) This seminar-style course develops strategies for analyzing what material culture of the past can tell us about the individuals and cultures that interacted with it.

AHIS 420 Studies in Ancient Art (4, max 16, Irregular) In-depth exploration of specified topics within the area of Ancient art and architecture.
AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology (4, max 8, Irregular) Each year a different topic in Greek and Roman art and archaeology will be examined in depth. Emphasis on interdisciplinary methodological approaches and research techniques.

AHIS 427 Archaeological Theories, Methods, and Practice (4, FaSp) Examined are various theoretical approaches, methods, and practice of archaeology in a seminar style format, with lectures, oral presentations, and museum visits.

AHIS 428 Studies in Colonial Latin American Art (4, FaSpSm) In-depth exploration of specified topics within colonial Latin American art.

AHIS 429 Studies in Art, Science, and Technology (4, FaSpSm) Examination of the connections between art, science, and technology, focusing on a specific time period and/or set of questions.

AHIS 430 Studies in Renaissance Art (4) In-depth exploration of specified topics within the area of Renaissance art and architecture. (Duplicates credit in former AHIS 444 and AHIS 446.) Recommended preparation: AHIS 230 or AHIS 330.

AHIS 433 Studies in Medieval Art (4, max 16) In-depth exploration of specified topics within the area of Medieval art and architecture.

AHIS 449 History of Prints and Drawings (4, Irregular) Aspects of the history of the graphic arts; stylistic and technical considerations may both be included or specific areas stressed at the choice of the instructor.

AHIS 453 Studies in Baroque Art (4, max 16) In-depth exploration of specified topics within the area of 17th century art and architecture. Recommended preparation: AHIS 230 or AHIS 344.

AHIS 460 Studies in 18th and 19th Century Art (4, max 8) In-depth exploration of specified topics within the area of 18th and 19th century art and architecture.

AHIS 466 Studies in the Decorative Arts and Design (4) Exploration of a specified topic in the history of the decorative arts and design in Europe and America.

AHIS 468 Studies in Modern Art (4, max 8, Irregular) In-depth exploration of a specified topic in art of the late 19th and/or early 20th centuries.

AHIS 469 Critical Approaches to Photography (4, Irregular) Selected problems in the history, theory and criticism of photography; recent scholarship considered in relationship to specific photographers and photographic images.

AHIS 470 Studies in Contemporary Art (4) In-depth exploration of specified topics within the area of contemporary art and architecture.

AHIS 475m Blackness in American Visual Culture (4) A historical overview of how people of African descent have been represented visually in American culture.

AHIS 477 Studies in Visual and Material Culture (4, max 16) In-depth exploration of selected topics in visual and material culture.

AHIS 481 Studies in Japanese Art (4, max 16) In-depth exploration of specified topics within the area of Japanese art and architecture.

AHIS 484 Studies in Chinese Art (4, max 16) In-depth exploration of specified topics within the area of Chinese art and architecture.

AHIS 490x Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

AHIS 494 Undergraduate Proseminar in Art History (4, FaSp) Historiography and methodology: introduction to techniques of research and writing. Required of all art history majors, preferably in the junior year.

AHIS 495ab Undergraduate Honors Thesis (2-2, FaSp) Research and writing of original thesis under guidance of faculty member. Departmental approval.

AHIS 496 Paintings in the Prado Museum (4, Irregular) (Madrid Center only) From Romanticism through Goya in relation to European and Mediterranean antecedents using paintings in the Prado Museum. Field trips in conjunction with classwork.

AHIS 497 Senior Seminar in Early Modern Studies (4, Sp) (Enroll in ENGL 497)

AHIS 499 Special Topics (2-4, max 8) Comprehensive exploration of particular aspects of the history of art.

AHIS 500 Methods and Theory of Art History (4, Fa) Methodologies, theories and critical traditions that have shaped the discipline. Emphasis will vary depending on faculty. Required of all first-year M.A. and Ph.D. candidates. Open to graduate or limited status students in art history only.

AHIS 501 Problems in the History and Theory of Collecting and Display (4) Explores the history of patronage, collecting and display in the private and the public spheres (e.g., salons, galleries, museums, and international expositions).

AHIS 502 Markets, Value and the Institutions of Art (4) Intensive examination of economic, societal, and aesthetic frameworks in which art was sold, bought, exhibited and reviewed. Explores how perceptions of art and value were shaped.

AHIS 503 Categories and Collections (4) How collections are organized by category – e.g., period, culture, materials, or mode of production. Examines collecting protocols, historiography and modes of collecting and viewing associated with that category.

AHIS 504 Museum Research Assistantship (1, FaSp) Working within an institution with a collection and reflecting, in class meetings, upon how collections are formed, shaped and used.

AHIS 509 Seminar in Arts of the Ancient Americas (4, max 16) In-depth exploration of a specified topic in the arts of the ancient Americas, which includes North, Central, and South America.

AHIS 510 Seminar in Ancient Art (4, max 16)

AHIS 511 Seminar in Medieval Art (4, max 16)
AHIS 512 Seminar in Renaissance Art (4, max 16) Recommended preparation: relevant languages.

AHIS 513 Seminar in Baroque Art (4, max 16)

AHIS 514 Seminar in 18th and 19th Century European Art (4, max 16)

AHIS 515 Seminar in Contemporary Art (4, max 16)

AHIS 517 Seminar in Korean Art (4, max 8) In-depth exploration of a specified topic in the history of Korean art.

AHIS 518 Seminar in Chinese Art (4, max 16)

AHIS 519 Seminar in Japanese Art (4, max 16)

AHIS 520 Seminar in Modern Art (4, max 16) In-depth exploration of a specified topic within the area of European art of the late 19th and early 20th centuries.

AHIS 521 Seminar in Modern German Art (4, max 8) In-depth exploration of a specific topic in modern German art of the 19th and early 20th centuries.

AHIS 522 Writing (and) the History of Art (4) Examination of how various forms of writing and different contexts of presentation shape the visual experience of art and the understanding of its history, encouraging students to think critically about how to develop a voice of their own.

AHIS 524 Readings in Greek and Roman Authors on Ancient Art and Monuments (4, max 8) Focuses on readings of ancient Greek and Roman authors writing on Greek and Roman art, monuments and topography. Topics vary from year to year. Departmental approval.

AHIS 525 Seminar in American Art (4) In-depth exploration of a specified topic in the history of American art.

AHIS 526 Seminar in Colonial Latin American Art (4, FaSpSm) In-depth exploration of specific topics in the arts of colonial Latin America.

AHIS 527 Seminar in Art, Science, and Technology (4, FaSpSm) In-depth exploration of the connections between art, science, and technology, focusing on a specific time period and/or set of questions.

AHIS 529 Seminar in Art, Science, and Technology (4, FaSpSm) In-depth exploration of the history of art.

AHIS 594abz Master's Thesis (2-2-0) Credit upon acceptance of thesis. Graded IP/CR/NC.

AHIS 599 Special Topics (2-4, max 8, Irregular) Comprehensive exploration of particular aspects of the history of art.

AHIS 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

AHIS 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Chair: Douglas Capone, Ph.D.

Faculty
University Professor and ARCO/William F. Keck Chair in the Neurobiology of Aging: Caleb E. Finch, Ph.D.

University Professor and Milo Don and Lucille Appleman Professor of Biological Sciences: Larry W. Swanson, Ph.D.

University Professor and USC Associates Chair in Natural Sciences: Michael S. Waterman, Ph.D.

Distinguished Professor and Ester Dornsife Chair in Biological Sciences: Norman Arheim, Ph.D.

George and Louise Kazarnowitz Chair in Biological Sciences: Simon Taverné, Ph.D.

McAllister-Crosby Chair in Marine Biology: Jed A. Fuhrman, Ph.D.

William and Julie Wrigley Chair in Environmental Studies: Douglas G. Capone, Ph.D.

Parson H. Offield Professor of Fisheries Ecology: Dennis Hedgecock, Ph.D.

Professor: Len Adelman, Ph.D. (Computer Science); Jan P. Amend, Ph.D. (Earth Sciences); Michael A. Arbib, Ph.D. (Computer Science); Norman Arheim, Ph.D.; Robert F. Baker, Ph.D.; Gerald Bakus, Ph.D.; Christopher Bohm, Ph.D.; David Bottrj, Ph.D. (Earth Sciences); Sarah Bottrj, Ph.D.; Douglas G. Capone, Ph.D.; David Caron, Ph.D.; Lin Chen, Ph.D.; Ting Chen, Ph.D.; Xiaojiao Chen, Ph.D.; Cheng-Ming Chuong, Ph.D. (Pathology); Kelvin Davies, Ph.D. (Gerontology); Casey Donovan, Ph.D.; Katrina Edwards, Ph.D. (Earth Sciences); Tuck Finch (Gerontology); Henryk Flashner, Ph.D. (Aerospace and Mechanical Engineering); Susan Forsburg, Ph.D.; Jed A. Fuhrman, Ph.D.; Myron F. Goodman, Ph.D.; Dennis Hedgecock, Ph.D.; Albert A. Herrera, Ph.D. (Vice Chair); Judith Hirsch, Ph.D.; David Hutchins, Ph.D.; Dale Kiefer, Ph.D.; Chien-Ping Ko, Ph.D.; Michael Lieber, Ph.D. (Pathology); Donal T. Manahan, Ph.D.; William O. McClure, Ph.D.*; Jill McNitt-Gray, Ph.D.; Anthony F. Michaels, Ph.D.; James W. Moffett, Ph.D.; Ken Nealon, Ph.D. (Earth Sciences); Sergey Nuzhdin, Ph.D.;

AHIS 529 Seminar in Art, Science, and Technology (4, FaSpSm) In-depth exploration of the connections between art, science, and technology, focusing on a specific time period and/or set of questions.

AHIS 550 Art, Business and the Law (4) Investigation of the financial, legal and ethical dimensions of the collection and display of cultural property by private and public institutions. Participants will explore the legal and ethical issues related to the public use of museums and visual reproductive technologies.

AHIS 590 Directed Research (2-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

AHIS 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

AHIS 594abz Master's Thesis (2-2-0) Credit upon acceptance of thesis. Graded IP/CR/NC.

AHIS 599 Special Topics (2-4, max 8, Irregular) Comprehensive exploration of particular aspects of the history of art.

AHIS 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

AHIS 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.
John A. Petruska, Ph.D.; Michael Quick, Ph.D.; Richard Roberts, Ph.D. (Chemistry); Sergio Sanudo-Wilhelmy, Ph.D.; Richard Simerly, Ph.D. (Medicine); Malcolm Sneed, Ph.D. (Dentistry); Craig Stanford, Ph.D.; Cornelius W. Sullivan, Ph.D.; Fengzhu Sun, Ph.D.; Miriam M. Susskind, Ph.D.; Larry W. Swanson, Ph.D.; John Tower, Ph.D.; Michael S. Waterman, Ph.D.; Alan Watts, Ph.D.

Associate Professors: Oscar M. Aparicio, Ph.D.; Donald Arnold, Ph.D.; John Callaghan, Ph.D.; Suzanne Edmands, Ph.D.; Steven Finkel, Ph.D.; Robert Ginzela, Ph.D.; Joe Hacia, Ph.D. (Biochemistry and Molecular Biology); John F. Heidelberg, Ph.D.; Emily R. Liman, Ph.D.; David D. McKemy, Ph.D.; Matthew Michael, Ph.D.; Peter Qin, Ph.D. (Chemistry); Lorraine Turcotte, Ph.D.; Eric A. Webb, Ph.D.; Xianghong Zhou, Ph.D.; Wiebke Ziebis, Ph.D.

Assistant Professors: Frank Alber, Ph.D.; Samantha Butler, Ph.D.; Tansu Celikel, Ph.D.; Liang Chen, Ph.D.; Matthew Dean, Ph.D.; Roberto Delgado, Ph.D.; Dion Dickman, Ph.D.; Ian Ehrenreich, Ph.D.; Andrew Gracey, Ph.D.; Karla B. Heidelberg, Ph.D.; Fabien Pinaud, Ph.D.; Matthew Pratt, Ph.D. (Chemistry); Peter Ralph, Ph.D.; Remo Rohs, Ph.D.; Gary Scott, Ph.D. (Rosser School of Education); Andrew Smith, Ph.D.; Xuelin Wu, Ph.D.

Adjunct Professors: Luis Chiappe, Ph.D.; Kirk Fitzhugh, Ph.D.; Gordon Hendler, Ph.D.; Joel W. Martin, Ph.D.; Xiaoming Wang, Ph.D.

Adjunct Associate Professors: Rodolfo Itruriaga, Ph.D.; Lei Li, Ph.D.; Christine Thacker, Ph.D.

Adjunct Assistant Professors: Rahul Jandial, Ph.D.; Arshad Khan, Ph.D.; Judith Lemus, Ph.D.; Wita Yang, Ph.D.; Beth Orcutt, Ph.D.; Philip Requejo, Ph.D.; Regina Weretz, Ph.D.

Professors (Research): Burton H. Jones, Ph.D.; Simon Tavář, Ph.D.

Associate Professors (Research): Mihail Bota, Ph.D.; Linda Duguay, Ph.D.; Yuri Gorby, Ph.D.; Magnus Nordborg, Ph.D.

Assistant Professors (Research): Peter Calabrese, Ph.D.; Fei-Xue Fu, Ph.D.; Juliette Hart, Ph.D.; Joel Hahn, Ph.D.; Myrna Jacobson, Ph.D.; William Nelson, Ph.D.; Phuong Pham, Ph.D.; Rick H. Thompson, Ph.D.

Senior Lecturer: Gudrun Floyd, M.S.

Lecturers: Tamara Espinet, M.S.; Ricky Hang, M.A.; Erik Kolb, Ph.D.; Helaine Lopes, Ph.D.; Alberto Vallejo, Ph.D.

University Professor Emeritus and William M. Keck Chair Emeritus in Psychology and Biological Sciences: Richard E. Thompson, Ph.D. (Psychology)

Emeriti Professors: Michael Appleman, Ph.D.; Richard Deonier, Ph.D.; Richard Dunn, Ph.D.; Arnold S. Dunn, Ph.D.; Russel Zimmer, Ph.D.

*Recipient of university-wide or college teaching award.

Academic Program Staff
Directors of Instructional Laboratories: Celeste Chong-Cerrillo, Ph.D.; Michael Moore, Ph.D.; Angel Tabanca, Ph.D.; Gorjana Bezzalino, M.S.; Mary Ann Bohland-Matvevynko, Ph.D.

Programs
The Department of Biological Sciences has research faculty with specialties in three disciplines: marine environmental biology, molecular and computational biology, and neurobiology. A diversity of upper division undergraduate and graduate courses permits biology majors to choose an emphasis in any of these three disciplines.

The department offers both B.A. and B.S. degrees in biological sciences and an honors program in which a student can earn either a B.A. or a B.S. degree in biological sciences with honors. The department also offers both B.A. and B.S. degrees in human biology. The B.S. in biochemistry is offered as a joint program with the Department of Chemistry. The honors program is available to students who maintain a GPA of 3.5 in the sciences and who have completed their freshman year. The honors program includes research opportunities, seminars and thesis preparation courses. Applications for the Honors Program are available in Allan Hancock Foundation (AHF), Room 105.

Undergraduates in biological sciences have the opportunity to become involved in laboratory or field research by taking research courses for some of their elective units.

At the graduate level, the department offers challenging degree programs that lead to a Ph.D. in: biology with an option in neurobiology; integrative and evolutionary biology; marine biology and biological oceanography; molecular biology; and computational biology and bioinformatics. The department also offers an M.S. in marine and environmental biology. The department does not accept applicants for the terminal master’s programs.

Honor Society
The Department of Biological Sciences offers membership in Phi Sigma, a national honor society, to selected biology majors (Alpha Kappa Chapter at USC.) Phi Sigma is devoted to the promotion of research and academic excellence in the biological sciences. Students with a GPA above 3.0 who have interest in research and have completed core requirements for the first two years in biological sciences are eligible. Major activities range from presentation of papers by members and lectures by outside speakers to field trips, laboratory demonstrations and joint research projects. The adviser is Professor John Petruska, Ph.D., RRI 119B, (213) 740-5189.

Catalina Semester
The Biological Sciences Department in conjunction with the USC Wrigley Institute for Environmental Studies (WIES) sponsors two, semester-long programs at USC’s Phillip K. Wrigley Marine Sciences Center (WMSC) on Santa Catalina Island. Each of the semesters consists of a 16 unit program with three upper division lab courses and a special 4-unit independent research course (BISC 490).

The spring program is focused on population biology and animal physiology, and the fall semester on microbial ecology and the interactions of microbes and the global environment. The program is open to all biology majors as well as students in other departments and other institutions with a strong biology background. Students are primarily in their junior or senior years and may participate in either or both semesters.

All the courses are taught by USC faculty and supported by USC graduate student teaching assistants. The classes are specialized to take advantage of the unique facilities and setting of Santa Catalina Island.

Students live on Catalina Island for the entire semester. Rates for room and board at the USC Wrigley Marine Science Center are comparable to those on campus. The program follows the same calendar schedule as the University Park Campus. For those wishing to return to the mainland on the weekend – free transportation is provided each Friday to leave and each Monday to return.

For more information, students should contact Dr. Linda Duguay, program coordinator, AHF. 209F; duguay@usc.edu or catsem@usc.edu or Joqueta Holmes, program assistant, jhholmes@usc.edu or (213) 740-6780 in the Wrigley Offices on the fourth floor of AHF. Additional information can also be found at wrigley.usc.edu/spotlight/catalina_semester.html.
Undergraduate Degrees

Advisement
Advisement in the Department of Biological Sciences is required each semester. First semester freshman and transfer advisement takes place during orientation. Advisement in all remaining semesters takes place during the pre-registration period. The undergraduate coordinator forwards advisement appointment information each semester to all students in biological sciences and biochemistry.

Pre-Medical and Other Pre-Professional Preparation
The department offers specially planned courses within the biological sciences to prepare students for admission to professional schools (medicine, dentistry, veterinary science, occupational therapy, physical therapy, pharmacy, optometry, public health), paramedical sciences (medical technology, physician’s assistant, clinical and public health microbiology, clinical biochemistry), naturalist and environmental positions in the public and private sectors, jobs in industry (biotechnology), and graduate study (basic biological and biomedical fields). With the proper selection of courses under the guidance of the Department of Biological Sciences and the USC Rossier School of Education, the B.S. degree satisfies the California requirements for secondary school teaching in the life sciences.

Bachelor of Science in Biological Sciences
The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

**Upper Division Major Requirements**
Twenty units of upper-division BISC course work available for major credit are required. At least two courses in the upper-division electives must carry a “L” or be 490. No more than 4 units of BISC 490x may be used to fulfill the upper-division elective requirement. In addition, no more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.

**Total required units:** 128
**Free elective units:** 12-16

**Scholarship in Major Subject**
The department requires that students receive a grade no lower than C- in their five core courses. They must maintain a 2.0 GPA in the upper-division biology and chemistry courses required for the major, as well as an overall 2.0 GPA. All major core courses must be taken on a letter grade basis.

**Bachelor of Arts in Biological Sciences**
The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

</tr>
</tbody>
</table>

**Upper Division Major Courses**
Eight units of upper-division BISC course work available for major credit are required. No more than 4 units of BISC 490x may be used to fulfill the upper-division elective requirement. In addition, no more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.

It is expected that students will take 100-level BISC core courses during the first year, two 300-level BISC core courses during the second year, and the remaining core courses and the 300- or 400-level BISC major elective courses during the third and fourth years.

**Total required units:** 128
**Free elective units:** 24

**Scholarship in Major Subject**
The department requires that students receive a grade no lower than C- in their five core courses. They must maintain a 2.0 GPA in the upper-division biology and chemistry courses required for the major, as well as an overall 2.0 GPA. All major core courses must be taken on a letter grade basis.

**Honors Program in Biological Sciences**
The department offers an honors program to outstanding students already pursuing studies for the B.A. or B.S. degree in Biological Sciences. This program offers students an opportunity to participate in undergraduate research, experience in writing an honors thesis summarizing the completed research, and experience in an honors seminar. Honors students are required to take two semesters of BISC 493x Honors Seminar (1 unit/semester) and one semester of BISC 494x Honors Thesis (2 units) in addition to fulfilling all requirements of the B.A. or B.S. degree.
Honors students must also choose BISC 490x as one of their upper division electives. This program leads to the designation on the transcript of Bachelor of Arts or Bachelor of Science in Biological Sciences with Honors.

**Honors Admission Requirements**

Students may apply to the department for admission to the honors program after having completed at least one year of work at USC with a minimum GPA of 3.5 in all science and math courses required for the major.

**Honors Scholarship Requirements**

For continuation in the honors programs, students must maintain a minimum GPA of 3.5 in the sciences and mathematics courses required for the major.

**Bachelor of Science in Human Biology**

The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

**Summary of Requirements**

General core: 24 units; major electives: one thematic module of 20 units; restrictive electives: 16 units; total requirements: 60 units.

- **PSYC 325***: Behavioral Neuroscience | 4
- **PSYC 425***: Functional Imaging of the Human Brain | 4

*Prerequisite required

### Bachelor of Science in Biochemistry

This degree is offered jointly by the Departments of Biological Sciences and Chemistry.

The general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences are applicable.

Students must complete each required course in the Departments of Biological Sciences and Chemistry with a grade of C- or better, and maintain an overall GPA of 2.0 or better in all attempted courses in the two departments in the regular degree program.

### Honors Program in Biochemistry

A B.S. degree with honors in biochemistry is available for eligible students. In meeting program requirements students must submit an application and satisfy the objectives of one of the program options noted below.

**Option One: Biochemistry Honors with Chemistry Research**

Students seeking admission into option one must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 32 units at USC, and have a 3.5 or better in at least 16 units in biological sciences and chemistry. Students in this option must complete 8 units of research (CHEM 490) under the supervision of chemistry faculty with the results of research being described in an undergraduate thesis reviewed and approved by a faculty committee. To graduate with honors under this option students must earn a GPA of 3.5 in all biological sciences and chemistry courses required for the major.

**Option Two: Biochemistry Honors with Biology Research**

Students seeking admission into option two must have at least sophomore standing (32 units) with an overall USC GPA of 3.5 or better both cumulatively and in 16 units in biological sciences and chemistry. Students in this option must complete 4 units of research (BISC 490) under faculty in biological sciences or under faculty in any other department approved by biological sciences. In addition, students must complete two semesters of Honors Seminar (BISC 493), 1 unit each, and one semester of Honors Thesis (BISC 494), 2 units. To graduate with honors under this option students must earn a GPA of 3.5 in all sciences and mathematics courses required for the major.
Upon graduation, transcripts of students following either option will be noted, “Bachelor of Science with Departmental Honors.”

**Minor in Biotechnology**

The USC Dornsife College of Letters, Arts and Sciences departments of biological sciences and chemistry and the Marshall School of Business jointly offer the cross-departmental minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biological sciences, chemistry or engineering student seeking a career in business and/or the biomedical/biotechnical sciences.

This minor requires a varying number of units beyond major requirements, depending upon the student’s major program of study: biological sciences (B.A. or B.S.), 16-18 additional units; business (B.S.), 28 additional units; chemistry (B.A. or B.S.), 32-34 additional units.

Students in other majors may be required to complete up to 46 units for the minor, depending on whether their major includes any of the minor requirements or their prerequisites.

Please see a biological sciences or business adviser for specific program requirements.

**Minor in Computational Biology and Bioinformatics**

The USC Dornsife College of Letters, Arts and Sciences departments of biological sciences and mathematics and the Viterbi School of Engineering departments of computer science and biomedical engineering jointly offer the cross-departmental minor in computational biology and bioinformatics. This minor provides essential training in using quantitative skills to solve fundamental biological problems as well as problems related to public health, neuroscience and the environment. The minor includes four tracks according to the background of the students in biology, mathematics, computer science and engineering.

As with all minors, students must include at least four upper-division courses (16 units) and four courses (16 units) dedicated exclusively to this minor. Four courses (16 units) taken outside the major department are required. The courses are designed for students in biology, mathematics, computer science or biomedical engineering. Other students may need more units to receive the minor. The CHEM 105bL or CHEM 115bL prerequisite for BISC 320 may be waived if the students have the necessary background determined by the faculty adviser for the minor. Students who waive these prerequisites cannot retake CHEM 105bL or CHEM 115bL for credit.

Please see the minor adviser for specific program requirements.

</tr>
</tbody>
</table>

**Electives:**

| Mathematics: MATH 225*, MATH 226*, MATH 408*, MATH 432*, MATH 458*, MATH 465*, MATH 466*, MATH 467* |
| Computer Science: CSCI 200*, CSCI 201L*, CSCI 271*, CSCI 303*, CSCI 477a*, CSCI 477b*, CSCI 485* |

*Prerequisite required

Total requirements for students with no prior course work: 30 units. Students need to take 30 units of the courses listed: all requirements, and enough electives to add up to 30 units, while fulfilling the requirement that they must take 16 units unique to the minor (not used for their major or general education) and 16 units not offered by their major.

Students majoring in biological sciences, mathematics, computer science and biomedical engineering can meet many of these requirements with course work that also satisfies their majors.

Students of other majors may be required to take all the required courses plus at least one elective from mathematics or computer science (e.g., MATH 226, MATH 407, CSCI 200, CSCI 201) from the list of elective courses to meet the minor requirements.

**Minor in Craniofacial and Dental Technology**

For a complete listing of course requirements, see the Ostrow School of Dentistry, page 529.

**Minor in Natural Science**

The minor in natural science will first provide students with a foundation in the basic sciences of physics, chemistry and biology. Each student will then build on this by selecting a variety of electives to meet individual scientific interests and academic goals. Eighteen units toward the natural science minor must be completed at USC. This minor is not available to majors in the natural sciences or engineering.
Graduate Degrees

Degree Programs in Biological Sciences
The graduate programs in biology provide education and training of biologists interested in living systems ranging from cellular to ecosystem levels of organization, investigated by laboratory or fieldwork. Courses and faculty research interests allow a multidisciplinary approach. A number of additional research areas are provided by adjunct faculty from other institutions, including the Los Angeles County Museum of Natural History, Children’s Hospital Los Angeles and the House Ear Institute. Students develop the ability to formulate and test hypotheses, integrating information and concepts in the completion of a dissertation (Ph.D.). A guidance committee is formed for each student during the first year to develop a particular program of course work and research, and to evaluate the student’s progress. Specific information about the options in biological sciences can be obtained by requesting information brochures or online at dornsife.usc.edu/bisc.

Admission Requirements
Applicants must have a bachelor’s degree in a natural science (preferably biology) from an accredited four year college or university, or in mathematics or engineering; required background courses include organic chemistry, general physics and mathematics through integral calculus. Applicants are evaluated by their transcripts and GPA; scores on the GRE General Test; three letters of recommendation; and a statement of interest. A faculty member must serve as initial sponsor and adviser for admission to marine biology and biological oceanography (MBBO) and integrative and evolutionary biology (IEB); neurobiology (BNRO), and molecular and computational biology (MCB) students are required to complete at least two laboratory rotations in their first year. Applicants who are accepted but judged to have minor deficiencies are expected to correct them within the first year.

Degree Requirements
These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of the catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Science in Biological Sciences
The Master of Science degree program is a terminal degree for students admitted into the marine biology and biological oceanography (MBBO), neurobiology (BNRO), or integrative and evolutionary biology (IEB) Ph.D. programs who cannot complete the Ph.D. degree program for personal or medical reasons.

The M.S. degree program is a non-thesis program but a paper, based on the student’s original research investigation of a selected program in biology, constitutes one of the requirements. Each student must take 7-8 units of biology graduate core courses (BISC 582, BISC 584 and BISC 585) or neurobiology courses (NEUR 524 and either NEUR 531 or NEUR 532), two seminars and additional graduate courses or research units for a minimum of 24 units. Students also must satisfy the residency and other requirements of the Graduate School. Further details of these requirements are contained within each graduate program’s particular requirements and policies.

Master of Science in Marine and Environmental Biology
The Master of Science degree in Marine and Environmental Biology (MEB) is designed to provide admitted students with a rigorous, quantitative and focused introduction to the burgeoning fields and breadth of topics in marine environmental biology/chemistry, geobiology, oceanography, conservation biology and population dynamics (depending upon the concentration selected). MEB provides students with independent research experiences that satisfy their own specific interests. The program is intended to position and stimulate students for possible advanced study leading to a Ph.D. in one of the areas stated above, and/or provide a unique facet to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into a master’s level position in academic, government or private sector research laboratories. It will prepare students interested in governmental and non-government (NGO) environmental regulatory science and forge career pathways into private sector positions in environmental consulting and business.

Applicants must possess a cumulative and science GPA of 3.0 or higher and have the following courses completed prior to admission: one year of introductory biology, one semester of molecular biology, one semester of biochemistry, one year of general chemistry, and one year of organic chemistry. All of the above must carry labs and be available for major credit in the natural sciences at a four-year college or university.

Applicants interested in using course work completed while an undergraduate may apply for the progressive master’s degree as early as their junior year.

Elective Course Requirement (8 units)
Any two courses chosen from among those offered for major credit by the departments of chemistry, physics, biological sciences, earth sciences and kinesiology.

Elective Course Requirement (8 units)

Completion of two semesters of:

| BISC 529 | Seminar in Marine Biology | 1-1 |

And a capstone course:
GRADUATE ELECTIVE REQUIREMENT

Eighteen units chosen from the following list, of which 8 units must be within the Department of Biological Sciences (BISC), and no more than 8 units can be at the 400-level.

- BISC 533: Water Chemistry and Analysis (3)
- BISC 534: Microbiology for Environmental Engineers (3)
- BISC 535: Instrumental Methods for Environmental Analysis (3)
- GEOG 587: GPS/GIS Field Techniques (4)
- GEOL 412: Oceans, Climate, and the Environment (3)
- GEOL 460L: Geochemistry and Hydrogeology (3)
- GEOL 500: Marine Paleoecology (3)
- GEOL 501: Paleobiology (3)
- GEOL 514: Marine Geology (3)
- GEOL 555: Paleogeography (3)
- GEOL 560: Marine Geochemistry (3)
- GEOL 564: Isotope Geochemistry (3)
- GEOL 567: Stable Isotope Geochemistry (3)
- GEOL 577: Micropaleontology (3)
- OS 512: Introduction to Chemical and Physical Oceanography (3)
- PPD 694: Coastal Policy and Planning (4)

Total required units: 32

Doctor of Philosophy in Biology (Neurobiology)

Application deadline: December 15

Course Requirements

The neurobiology option provides each student with a broad, fundamental background in neurobiology and with detailed knowledge and expertise in the chosen area of concentration. The Ph.D. neurobiology concentration requires the following courses: two of three (NEUR 531, NEUR 532 or BISC 426) and NEUR 538 plus NEUR 539 (1 unit per semester for four semesters). A minimum total of 60 units is required, consisting of formal course work, seminars and research credit. At least 24 of the minimum 60 total units required are to be formal graduate course work (lecture or seminar courses). Courses in related disciplines of neuroscience, such as computational or cognitive neuroscience, are not required, but may be taken as electives. Courses in genomics, molecular biology, integrative and evolutionary biology and biomedical engineering are also available as electives for students interested in bridging the interface between neurobiology and these disciplines. Students also must satisfy the residency and other requirements of the Graduate School.

Student Teaching

Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to serve at least one semester as a teaching assistant in the Department of Biological Sciences.
structure and function at different integrative emphasis is on the relationship between from a variety of different organisms. Primary biology and biochemistry. The subject experimental methodologies of molecular This program is designed to train the dissertation committee. The defense of the dissertation is either a oral part is in the area of the student's research investigation and any other requirements of the Graduate School. The oral part involves answering a number of questions at length. The oral part is in the area of the student's intended research, based on a project selected and developed by the student into a written proposition. After passing the qualifying examination, the student completes the research investigation and any other requirements under the guidance of the research adviser who also chairs the dissertation committee.

**Doctoral Dissertation**

The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

**Defense of the Dissertation**

The defense of the dissertation is either a defense oral or a final oral. In most cases, a defense oral will suffice if approved by the dissertation committee.

**Molecular and Computational Biology**

This program is designed to train the participants intensively in the concepts and experimental methodologies of molecular biology and biochemistry. The subject matter is organized in an integrated fashion (lectures, seminars and laboratory) to present fundamental information on the biochemistry, biophysics, genetics and development of cells from a variety of different organisms. Primary emphasis is on the relationship between structure and function at different integrative and functional levels. The program offers a Ph.D. in Molecular Biology and a Ph.D. in Computational Biology and Bioinformatics. Applications may be accessed online at dorisif.usc.edu/bios/molecular/home.

**Admission Requirements**

Applicants are expected to have a bachelor's degree or equivalent in a cognate area such as biology, chemistry, physics, engineering, bacteriology, computer science, or bioinformatics. Undergraduate work should include a basic course in biology, basic physics, physical chemistry, organic chemistry, biochemistry, and calculus. Students who are deficient in any of these may be required to correct the deficiency during the first two years of graduate study. Courses taken to correct these deficiencies are usually not credited toward the degree. The student must submit letters of recommendation from at least three faculty members who can evaluate the promise of the student for graduate work and independent research. The applicant must take the GRE General Test prior to acceptance.

**Degree Requirements**

These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School. The oral part is in the area of the student's intended research, based on a project selected and developed by the student into a written proposition. After passing the qualifying examination, the student completes the research investigation and any other requirements under the guidance of the research adviser who also chairs the dissertation committee.

**Qualifying Examination**

Before the end of the second semester a permanent guidance committee, chaired by the student's research director, is established. Thereafter, the student's program of studies and dissertation is under the direction of the permanent guidance committee and the dissertation committee.

**Screening Procedure**

In the third semester the student's progress is discussed and evaluated by the guidance committee. The purpose of this evaluation is to determine competence to continue graduate study, and to point out deficiencies to be remedied prior to the qualifying examination.

**Course Requirements**

A minimum of 24 of the 60 units required for the Ph.D. degree must be in formal course work, exclusive of research. These must include the core courses, BISC 502a and BISC 502b, to be completed in the first year with a grade no less than B in both classes. Additionally, students will register for BISC 504L (3-3) in both semesters. In the fall semester of the second year, students will choose an additional 4-unit, 400- or 500-level course in consultation with their adviser. Students must participate in molecular biology seminars. Other courses may be chosen, in consultation with the program chair, from graduate offerings of this and other departments.

**Language Requirement**

Students in the graduate program in molecular biology are not required to pass a foreign language examination.

**Qualifying Examination**

The examinations qualifying the student for candidacy for the Ph.D. in molecular biology must be initiated in the second semester of the second year. The first part is written and consists of comprehensive questions covering the student's knowledge of prokaryotic and eukaryotic molecular biology and developmental biology or genomics. The second part is an oral examination. It consists of general questions and the presentation and defense of a proposition outlining a research program. The student can pick a topic completely outside of their thesis topic. Alternatively, the student can pick a topic using the same model system as their thesis work, but a different research question, or a topic on the same research question, but using a different model system. While going outside their field is encouraged, students should not stray too far away from genetics, molecular and cell biology or biochemistry approaches. This examination sequence must be completed by the end of the fifth semester of the program.
Doctoral Dissertation
The dissertation is based on original, publishable, and significant research conducted independently by the student under the guidance of the dissertation committee.

Defense of the Dissertation
The defense of the dissertation is either a defense oral or a final oral. In most cases a defense oral will suffice if approved by the dissertation committee.

Student Teaching
Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to assist in the teaching program of the Department of Biological Sciences.

Doctor of Philosophy in Computational Biology and Bioinformatics
Application deadline: December 15

During the first year, the student’s program is under the direction of an initial guidance committee composed of members of the admissions committee. After passing the screening procedure before the end of the first semester, the student must form a guidance committee consisting of an adviser and four other faculty members, including at least one from another department. Thereafter, the student’s program of studies and dissertation are under the direction of the permanent guidance committee and the dissertation committee.

Screening Procedure
The screening examination should be taken by the end of the second semester in the program. If the student fails the examination, the department, at its discretion, may permit the student to take it again during the next semester. The screening examination consists of written examinations on topics including molecular biology, mathematical probability and statistics, and algorithms.

Course Requirements
The students must complete, with no grade lower than a B, a minimum of 60 units of courses carrying graduate credit and approved by the guidance committee. The required courses include: BISC 542, CSCI 570, MATH 505a, MATH 541a, and MATH 578ab. Students must take at least one biology course in the area of molecular biology, genetics or biochemistry. An additional 6 units of elective courses will be taken in consultation with the student’s advisor. Students must register for a minimum of 4 units of dissertation research (BISC 794ab). Students must be registered in BISC 542 (computational section) their first three years in the program (6 semesters).

Transfer of Credit
No transfer of credit will be considered until the screening examination is passed. A maximum of 30 units of graduate work at another institution may be applied toward the course requirements for the Ph.D. A grade of B- (A = 4.0) or lower will not be accepted and, at most, two grades of B will be accepted. A Ph.D. candidate may petition the department for transfer of additional credit, after he or she passes the qualifying examination.

Qualifying Examination
The qualifying examination should be taken within two semesters following successful completion of the screening examination.

The written portion of the qualifying examination consists of a dissertation proposal. This document should include: introduction, statement of the problem, literature survey, methodology, summary of preliminary results, proposed research, references, appendix (including one or two fundamental references).

The oral portion of the qualifying examination consists of presentation of the Ph.D. dissertation proposal. The student must demonstrate research potential.

Dissertation
Following passage of the screening examination and approval of a dissertation topic by the guidance committee, the student begins research toward the dissertation under the supervision of the dissertation committee.

The primary requirement of the Ph.D. is an acceptable dissertation based on a substantial amount of original research conducted by the student.

Doctor of Philosophy in Integrative and Evolutionary Biology
Application deadline: December 15

This program of study is designed to provide each student with a broad, fundamental background in integrative and evolutionary biology (IEB) coupled with detailed knowledge and expertise in the chosen area of concentration. The core of the course work in integrative and evolutionary biology consists of four courses – BISC 511 (4), BISC 512 (4), seminar BISC 549 (2-2) – that are taken by all first-year graduate students. Various faculty members also teach a variety of advanced courses and seminars on specialized research topics each semester. In addition, a range of courses in areas relating to IEB are available in various departments on the University Park and Health Sciences Campuses.

Course Requirements
Each student’s curriculum is tailored to the particular interests of the individual and the needs and demands of the chosen research field. A minimum total of 60 units is required, consisting of formal courses, seminars and research credit. The 24 units of formal course work must include 12 units of specified course work in integrative and evolutionary biology, BISC 511, BISC 512, seminar BISC 549 (minimum 4 units), and 12 units of advanced electives chosen in consultation with the student’s advisor.

Qualifying Examination
After completion of the core integrative biology and evolutionary biology course work (BISC 511, BISC 512, BISC 549) during the first year, the student’s degree progress is discussed and evaluated by a screening committee composed of members of the IEB faculty as well as the student’s principal adviser. The purpose of this written and oral evaluation is to determine competence to continue graduate study and identify areas to be strengthened prior to the qualifying examination.

Screening Procedure
The screening examination consists of presentation of the Ph.D. dissertation proposal. The student must demonstrate research potential.

Dissertation
Following passage of the screening examination and approval of a dissertation topic by the guidance committee, the student begins research toward the dissertation under the supervision of the dissertation committee.

The primary requirement of the Ph.D. is an acceptable dissertation based on substantial amount of original research conducted by the student.

Doctoral Dissertation
The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.
Courses of Instruction

**BIOLOGICAL SCIENCES (BISC)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**BISC 102Lxg Humans and Their Environment (4, FaSp)** An examination of the physical and biological laws that influence agriculture, pollution, population dynamics (including humans), climate, biodiversity and ecosystem structure and function. Not available for major credit.

**BISC 103Lx General Biology for the Environment and Life (4)** Study of common skills in biology, including basics of evolution, systematics, ecology, genetics, biochemistry and molecular biology, physiology, and anatomy. Not for major credit for biological sciences majors.

**BISC 104Lxg How the Body Works: Topics in Human Physiology (4, Fa)** Structure and function of the human body, including the role of organ systems, tissues, and cells in normal function. Malfunctions relating to disease, substance abuse and lifestyle. Not available for major credit.

**BISC 108L Special Laboratory I (1)** Laboratory component for BISC 120 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution.

**BISC 109L Special Laboratory II (1)** Laboratory component for BISC 220 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution.

**BISC 120Lg General Biology: Organismal Biology and Evolution (4, Fa)** In-depth survey of key topics related to advances in our knowledge of the diversity of life and evolution; origin of life; eukaryotes/prokaryotes; ecology. (Duplicates credit in BISC 112L, BISC 113L, and BISC 121L.)

**BISC 121Lg Advanced General Biology: Organismal Biology and Evolution (4, Fa)** Equivalent to 120L, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. (Duplicates credit in BISC 112L, BISC 113L, and BISC 120L.) Corequisite: CHEM 115L.

**BISC 140 Human Impact on the Ocean Planet (4)** Overview of marine biodiversity and human influence on marine biota; eutrophication in bays and estuaries; global movement of invasive species, harmful algal blooms, fishing activities and sewage/chemical pollution.

**BISC 150Lxg The Nature of Human Health and Disease (4, FaSp)** The human organism; the nature of inherited and acquired diseases; the biological and societal basis for the AIDS epidemic; therapy, drug design and the future. Not available for major credit.

**BISC 180Lxg Evolution (4, Sp)** Changes in the physical and biological universe over time; origins of life, dinosaurs, human evolution. Implications of evolutionary mechanisms and mass extinctions for human survival. Not available for major credit.

**BISC 193 Freshman Colloquium I (1, Fa)** A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Graded CR/NC. Corequisite: BISC 120L or BISC 121L.

**BISC 194 Freshman Colloquium II (1, Sp)** A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Graded CR/NC. Corequisite: BISC 220L or BISC 221L.

**BISC 220L General Biology: Cell Biology and Physiology (4, Sp)** In-depth survey of key topics related to advances in our knowledge of cellular biology and physiology; cell composition/metabolism; gene action; organism structure and function. (Duplicates credit in BISC 110L, BISC 111L, and BISC 221L.) Recommended preparation: high school chemistry; BISC 120L or BISC 121L.

**BISC 221L Advanced General Biology: Cell Biology and Physiology (4, Sp)** Equivalent to 220L, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. (Duplicates credit in BISC 110L, BISC 111L, and BISC 220L.) Corequisite: BISC 120L or BISC 121L; corequisite: CHEM 105BL or CHEM 115BL.

**BISC 230Lxg Brain, Mind and Machines: Topics in Neuroscience (4, Sp)** The structure and function of the mammalian brain including the role of the brain in regulating behavior, both in normal and diseased states; in relation to mind; and in comparison with machine forms of intelligence. Not available for major credit.

**BISC 290 Introduction to Biological Research (2 or 4, max 4, FaSpSm)** Experience in basic techniques through supervised research in the research laboratory of a departmental faculty member. Graded CR/NC. Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L; CHEM 105BL or CHEM 115BL; departmental approval.

**BISC 300L Introduction to Microbiology (4, Sp)** Comparative approach to bacteria, Archaea and viruses; their structure, life cycles, geochemical activity, ecology and nutrition. Fundamentals of metabolism and microbial genetics. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BISC 320L, CHEM 322L or CHEM 325L.

**BISC 305 Introduction to Statistics for Biologists (4, Fa)** Statistical methods in biological science and medicine, including populations and samples, random sampling, confidence intervals, paired samples and regression.

**BISC 307L General Physiology (4, Sp)** Physiological functions of the circulatory, digestive, endocrine, integumentary, musculoskeletal, nervous, respiratory, and urogenital systems of animals. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BISC 220L or BISC 221L.

**BISC 313L Evolution and Population Genetics (4, Sp)** History of evolutionary thought; molecular basis for evolution; dynamics of genes in populations; speciation and macro-evolution; patterns of evolution. Laboratory, 2 hours. Prerequisite: BISC 220L or BISC 221L; BISC 120L or BISC 121L; recommended preparation: BISC 320L, BISC 325, and familiarity with algebra, basic chemistry, and basic physics.

**BISC 315L Introduction to Ecology (4, Fa)** Organism-environment interactions; dynamics of populations, communities, and ecosystems; evolutionary forces. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BISC 120L or BISC 121L.
BISC 320L Molecular Biology (4, Fa)
Structure and synthesis of nucleic acids and proteins; molecular biology of prokaryotes and eukaryotes; principles of genetics and cell biology. (Duplicates credit in BISC 311.)
Prerequisite: CHEM 105L or CHEM 115L.

BISC 321x Science, Technology and Society (2, Sp)
Builds upon a basic science background to provide students with an understanding of cutting edge scientific research, its technological applications and its societal ramifications. Not available for major credit. (Duplicates credit in former MDA 321.)
Prerequisite: BISC 120L or BISC 121L or BISC 220L or BISC 221L; CHEM 105aL or CHEM 115aL; PHYS 135aL or PHYS 151L.

BISC 325 Genetics (4, Fa)
Transmission genetics and genotype/phenotype; mapping methods; complex traits; genetics of human disease and population genetics.
Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L; BISC 320L; CHEM 322aL; corequisite: CHEM 322bL or CHEM 325bL.

BISC 330L Biochemistry (4, Sp)
Basic biochemical principles; classes of molecules — structure and function; cellular energetics. (Duplicates credit in BISC 310L.)
Prerequisite: BISC 320L; CHEM 322aL.

BISC 369L Ecology and the Natural History of California (4, Sp)
Prerequisite: BISC 120L or BISC 121L.

BISC 371L Molecular Approaches to the Diversity of Life (4)
Patterns of evolutionary change investigating the molecular basis of heredity utilizing DNA data. History, principles and application of molecular systematics, and genetic variation. Taught on Catalina Island.
Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L; recommended preparation: BISC 320L.

BISC 390 Special Problems (1-4)
Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

BISC 403 Advanced Molecular Biology (4, Fa)
Molecular mechanisms and control of DNA replication, DNA repair, recombination, gene expression, cell growth, and development in prokaryotic and eukaryotic organisms, from bacteria to humans.
Prerequisite: BISC 320L; recommended preparation: BISC 313 or BISC 325.

BISC 405L General Embryology (4, Fa)
Vertebrate and human development; cellular differentiation; germ cell development and growth; hormonal regulation of reproductive cycles; cleavage through neurulation and subsequent development of primary organs. Lecture, 3 hours; laboratory, 3 hours. Junior standing.
Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L; recommended preparation: two from BISC 313, BISC 320L, BISC 325 and BISC 330L.

BISC 406L Biotechnology (4, Fa)
Techniques in molecular biology and biochemistry applied to prokaryotic and eukaryotic model systems; applications of recombinant DNA and genomic technology.
Prerequisite: BISC 320L; recommended preparation: BISC 313 or BISC 325.

BISC 408 Systems Neuroscience: From Synapses to Perception (4, Sp)
(Enroll in NEUR 408)

BISC 410 Applications of Molecular Biology to Medicine (4, Sp)
Advances and trends in the understanding, diagnosis and treatment of human diseases. Senior standing.
Prerequisite: BISC 330L.

BISC 411 Cell Biology (4, Sp)
The synthesis, transport and assembly of the complex structures that mediate eukaryotic cellular function. Electrical and biochemical mechanisms underlying intercellular communication.
Prerequisite: BISC 220L; BISC 320L.

BISC 414 Biology of Cancer (4, Sp)
Focus on the advances in molecular biology of cancer, from fundamental molecular signaling pathways to DNA repair to stem cell biology, through primary research literature reviews.
Prerequisite: BISC 325.

BISC 419 Environmental Microbiology (4, Sp)
Qualitative and quantitative appraisal of microbial activities in pure and contaminated environments; microbial community and its development; interspecific relationships; effects of microorganisms on their surroundings. Lecture, 4 hours.
Prerequisite: BISC 330L; recommended preparation: BISC 300L.

BISC 421 Neurobiology (4, Fa)
Structure, function, and development of nervous systems; neural integration and mechanisms of behavior; organization and operation of brains. Lecture, 3 hours; discussion, 2 hours.
Prerequisite: BISC 220L or BISC 221L.

BISC 422L Neurobiology Laboratory (2, Sp)
Experimentation on excitable cells, synapses, and neural circuits; intracellular and extracellular techniques for recording, stimulation, and identification of nerve and muscle cells. Lecture, 1 hour; laboratory, 3 hours. Corequisite: BISC 421.

BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders (4, Sp)
Examination of various neurological disorders originating from developmental signaling and/or anatomical abnormalities.
Prerequisite: BISC 421.

BISC 424 Brain Architecture (4, Fa)
How the parts of the brain are interconnected to form a complex biological computer, from historical, evolutionary, and developmental perspectives.
Prerequisite: BISC 421.

BISC 425 Advanced Genetics through the Primary Scientific Literature (4, Sp)
Literature-based seminar in current and classical topics in genetics.
Prerequisite: BISC 325.

BISC 426 Principles of Neural Development (4, Sp)
Basic phenomena and principles of neural development, their relation to functional development of neural circuits, behavior, and disease. General concepts and experimental approaches are emphasized.
Prerequisite: BISC 421.

BISC 427 The Global Environment (4, Sp)
Earth’s development as a habitable planet, from origin to human impacts on global biogeochemical cycles in the ocean, land, atmosphere. Discussion of environmental alternatives.
Prerequisite: BISC 120L or BISC 121L; CHEM 105bL or CHEM 115bL.

BISC 428 The Biology of Tropical Diseases (4, Sm)
Biological and biochemical approaches to the prevention and treatment of infectious and chronic tropical diseases. Course is offered off campus and summer only.

BISC 431L Aquatic Microbiology – Catalina Semester (4, Fa)
Introduction to the habitat, phylogenetic, physiological and metabolic diversity of microbial life in aquatic environments. (Duplicates credit in BISC 419.)
Prerequisite: BISC 330L.

BISC 435 Advanced Biochemistry (4, Sp)
Macromolecular structure and function; enzymology; metabolic regulation. Lecture, 3 hours; discussion, 2 hours.
Prerequisite: BISC 330L.

BISC 437L Comparative Physiology of Animals (4, Sp)
Control of the internal environment of animals in relation to their external environment. Thermal regulation, osmoregulation, excretion, and ion balance.
Offered on Catalina. Lecture, 3 hours; laboratory, 3 hours.
Prerequisite: BISC 120 or BISC 121; BISC 220 or BISC 221; recommended preparation: two from BISC 313, BISC 320L, BISC 325 and BISC 330L.
BISC 440 Biodemography of Aging (4) (Enroll in GER0 440)

BISC 445L Fundamentals of Vertebrate Biology (4, Sp) Evolution and comparative anatomy of vertebrates. Lecture, 3 hours; laboratory, 3 hours. Junior standing. Prerequisite: BISC 120L or BISC 121L; BISC 220L. Recommended preparation: two from BISC 313, BISC 320L, BISC 325 and BISC 330L.

BISC 447L Island Biogeography and Field Ecology (4, Sp) Biogeography, geology, ecology, climate, flora, and fauna of terrestrial and marine environments of Catalina and the Channel Islands including laboratory and field techniques of ecology. Taught on Catalina Island. Prerequisite: BISC 120L or BISC 121L.

BISC 450L Principles of Immunology (4, Fa) Immune processes, humoral and cellular; immunoglobulins; antibody formation; antigen-antibody interactions; immune dyscrasias; transplantation and tumor immunology; basic hematology and immunohematology. Lecture, 3 hours; laboratory, 3 hours. Prerequisite: BISC 220L or BISC 221L.

BISC 455L Molecular Approaches to Microbial Diversity – Catalina Semester (4, Fa) Overview and practical application of genetic and immunological techniques for examining diversity and community structure of natural microbial assemblages in aquatic ecosystems. Prerequisite: BISC 320L; corequisite: BISC 431L.

BISC 456L Conservation Genetics (4, Sp) Biological principles underlying conservation including ecology, evolution, genetics and biogeography; covers both marine and terrestrial environment, with special emphasis on island biology. Catalina semester only. (Duplicates credit in BISC 373L.) Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L; recommended preparation: BISC 320L; BISC 313 or BISC 325.

BISC 457L Methods in Marine Biology and Biological Oceanography – Catalina Semester (4, Sp) Introduction to standard methods used in oceanography and marine biology through a combination of lectures, laboratory exercises and field experiences. Prerequisite: BISC 120L or BISC 121L.

BISC 460 Seminar in Marine and Environmental Biology (2, max 4, FaSp) Topical seminar in marine and environmental biology. Junior, senior or graduate standing.

BISC 461 Seminar in Molecular and Computational Biology (2, max 4, FaSpSm) Topical seminar in molecular and computational biology. Junior, senior or graduate standing.

BISC 462 Seminar in Neurobiology (2, max 4, FaSp) Topical seminar in neurobiology. Junior, senior or graduate standing.

BISC 469L Marine Biology (4, Fa) Oceanography and marine biology; sampling techniques, evolutionary adaptations, morphology, systems. Lecture, 3 hours; laboratory, 3 hours. Field trip and field research projects required. Prerequisite: BISC 120L or BISC 121L.

BISC 473L Biological Oceanography (4, Sp) Biological, physical, chemical dynamics and analysis of the ocean; primary production of phytoplankton, secondary production by zooplankton, bacterial remineralization; physiology, ecology of fishes, marine mammals. Lecture, 3 hours; laboratory, 3 hours. Junior standing. Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L; recommended preparation: two from BISC 313, BISC 320L, BISC 325 and BISC 330L.

BISC 474L Ecosystem Function and Earth Systems (4, Fa) General principles of ecosystem function, energy flow and materials cycling in marine systems at various scales and the importance of microbial processes in these systems. Taught on Catalina Island. Prerequisite: BISC 120L or BISC 121L.

BISC 478 Computational Genome Analysis (4, Sp) Introduction to and applications of algorithms and statistics to genome analysis. Analysis of physical and genetic maps, DNA sequencing, sequence comparisons, DNA chips.

BISC 480 Developmental Biology (4, FaSp) Basic mechanisms of animal development are considered at different levels of analysis. Emphasis is on molecular, genetic, and cellular processes underlying vertebrate and invertebrate development. General concepts and evolutionary mechanisms are emphasized. Lecture, 3 hours; discussion, 2 hours. Prerequisite: BISC 220L or BISC 221L.

BISC 483 Geobiology and Astrobiology (4, Sp) Relationships between microorganisms and the earth environment including the hydrosphere, lithosphere and atmosphere, with consideration of the potential for life on other planets. Prerequisite: BISC 120L, CHEM 105L.

BISC 485 Advanced Seminar in Bacterial Survival and Evolution (4, Sp) Literature-based seminar in current topics in microbial evolution and adaptation. Prerequisite: BISC 120 or BISC 121; BISC 220 or BISC 221, BISC 320, CHEM 322A or CHEM 325A.

BISC 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

BISC 493x Honors Seminar (1, max 4, FaSp) Not available for graduate credit. Prerequisite: BISC 120L or BISC 121L; BISC 220L or BISC 221L.

BISC 494x Honors Thesis (2, FaSp) Not available for graduate credit. Prerequisite: BISC 493.

BISC 499 Special Topics (2-4, max 8, FaSp) Lecture and discussion in specialized areas of the biological sciences. Students cannot register more than twice for this course. Not open to freshmen and sophomores. Recommended preparation: BISC 220L or BISC 221L, BISC 320L, BISC 325 and BISC 330L.

BISC 504L Laboratory Techniques in Cellular and Molecular Biology (1-4, max 8, FaSp) Rotation of graduate students through Molecular Biology research laboratories to learn the major technological skills required in the field. Graded CR/NC.

BISC 505 Genomics and Molecular Genetics (4, Sp) Molecular genetics (mutagenesis, repair, recombination, and gene regulation) from quantitative and mechanistic approaches. Simple and complex genome analysis using recombinant DNA, physical, and computational techniques. Recommended preparation: BISC 502b.

BISC 511 Integrative Biology (4, Fa) Current topics in integrative biology including form, function and energy use throughout the lifespan in the context of genetics, natural selection and ecology. (Duplicates credit in the former BISC 510a).
BISC 512 Evolutionary Biology (4, Sp)
Survey of current topics in evolutionary biology; genetics, natural selection, ecology; emphasis on higher order complex questions of lifespan, form, function, and energy use. (Duplicates credit in the former BISC 5106.)

BISC 515 Evolution and Human Biology
(4, Fa) Topics in evolution and human biology with emphasis on lifespan, form, function and energy use in the context of genetics, natural selection and ecology.

BISC 519 Recent Advances in Neurobiology and Endocrinology of Aging (2, 4) (Enroll in GERO 519)

BISC 520 Recent Advances in Neurobiology
(2 or 4, max 12, Fa) Lectures on selected topics in neurobiology. Registration restricted to three semesters. Prerequisite: graduate status in departmental program or departmental approval.

BISC 521 Hearing and Communication Neuroscience (4, Sp) A basic grounding in broad aspects of the neuroscience of hearing and vocal communication. Prerequisite: BISC 421, NEUR 524.

BISC 529 Seminar in Marine Biology
(1, max 4, FaSp) Graded CR/NC.

BISC 530 Advanced Seminar in Plankton Biology (2, FaSp) An overview of phytoplankton and zooplankton taxa, their morphologies and life histories using material collected from the local environment off LA and near the Phillip K. Wrigley Marine Science Center on Catalina Island.

BISC 531 Advanced Seminar on the Physiology of Marine Organisms (2, FaSp) Physiological processes dictate survival potential, growth rates, and many other biological processes that affect the distribution of species in the oceans. Emphasis on the diverse environmental factors that influence physiological adaptations of marine organisms. Examples from a wide variety of marine organisms, from bacterial to animals, will be studied.

BISC 532 Advanced Seminar in Molecular and Microbial Ecology (2, FaSp) Microorganisms dominate biological processes in the ocean. These species pose significant problems for estimating species diversity, abundance and activity. Examination of modern molecular biological approaches for analyzing aquatic microbial communities and their ecological roles.

BISC 533 Advanced Seminar in Remote Sensing and Modeling (2) Modern oceanographic methods for making remote measurements of aquatic and terrestrial ecosystems using satellite imagery and other means. Integrating these data into models that describe ecosystem structure and enable interpretation of ecosystem function.

BISC 534 Advanced Seminar in Population Genetics of Marine Organisms (2) An overview of the theory underlying population and quantitative genetics, with applications to marine systems. Basic evolutionary mechanisms (mutation, migration, drift, selection, nonrandom mating) and modern evidence for their roles in structuring genetic variation within and among marine populations.

BISC 535 Seminar in Physiology (2, max 8, FaSp)

BISC 536 Advanced Seminar in Marine Biogeochemistry (2) Examination of the interplay between ocean biology and the cycling of carbon, nitrogen and other elements on a local, regional and global scale. Open only to graduate students in biology and earth science.

BISC 537 Seminar in Cellular and Molecular Biology (2, max 8, FaSp)

BISC 538 Metals and Biology in Oceanic Regimes (2, Sp) Relationships between metals in reducing regimes and microbes that utilize them for metalloenzymes. Focus on biological availability of micronutrient processes and role in chemosynthesis or biomineralization.

BISC 542 Seminar in Molecular Biology
(1, max 6, FaSp) Graded CR/NC.

BISC 543 Human Molecular Genetics (4)
(Enroll in BIOC 543)

BISC 544 Advanced Reading in Molecular Biology (2, FaSpSm) Advanced training for molecular biology graduate students in reading primary journal articles. Emphasis on critical analyses of primary scientific literature. Open only to graduate students in molecular and computational biology and bioinformatics programs.

BISC 549 Seminar in Integrative and Evolutionary Biology (2, max 6, FaSp) Current topics in integrative and evolutionary biology.

BISC 557ab Computational Molecular Biology Laboratory
(a: 2, Sp; b: 2, Fa) Practical experience in computational molecular biology applications. Mathematical and statistical software packages relevant to genomic analysis. Retrieval and analysis of genomic data from databases. (Duplicates credit in former MATH 577ab.) Recommended preparation: higher level programming language.

BISC 581L Current Problems in Marine Sciences
(4, max 16, Irregular) In-depth studies on selected problems of current interest in the marine sciences. Lecture and laboratory.

BISC 582 Advanced Biological Oceanography (4, Fa) Aspects of physics and chemistry of the oceans. Qualitative and quantitative considerations of the ecology of pelagic and benthic communities.

BISC 583 Evolution and Adaptation of Marine Organisms (4, Sp) Fundamentals of evolutionary patterns and processes in the marine environment, with emphasis on rates of adaptation to a changing ocean.

BISC 584 Faculty Lecture Series (2, Sp) Multi-instructor course designed to introduce students to the breadth and depth of faculty interests within the Marine Environmental Biology section of Biological Sciences and the Natural History Museum.

BISC 585 Scientific Writing and Reviewing (2, Sp) Hands-on experience writing and reviewing scientific literature. The review process and participation in writing and reviewing their own proposals.

BISC 586 Biological Oceanographic Instrumentation (2, Sp) Survey of analytical principles, theory and application behind commonly used methodologies in biological oceanography.

BISC 587 Communicating Ocean Science (4, Sp) Multi-instructor, interdisciplinary course focused on student awareness and improvement of cognitive processes used in research development, and communication of ocean literacy in the public sector. Open only to Senior, Master’s, Professional, and Doctoral Students. Recommended preparation: Graduate level understanding of oceanographic principles.

BISC 588L Quantitative Analysis for Biological and Earth Sciences (4, Sp) Basics of biometrics, biodiversity, quantitative methods in ecology, environmental impact assessments and other topics in quantitative analysis.
BISC 590 Directed Research (1-12, FaSpSm)
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

BISC 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

BISC 599 Special Topics (2-4, max 8, Irregular)

BISC 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

BISC 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Chair: Chi H. Mak, Ph.D.

Faculty
Distinguished Professor and Donald P. and Katherine B. Loker Chair in Organic Chemistry: George A. Olah, Ph.D.

Distinguished Professor of Chemistry and Biochemistry: Arieh Warshel, Ph.D.

Lloyd Armstrong, Jr. Chair for Science and Engineering: Hanna Reisler, Ph.D.

Ray R. Irani, Chairman of Occidental Petroleum Corp., Chair in Chemistry: James F. Haw, Ph.D.

Paul A. Miller Chair in Letters, Arts and Sciences: Curt Wittig, Ph.D.

Harold and Lillian Moulton Chair in Chemistry: Nicos Petasis, Ph.D.

George A. and Judith A. Olah Nobel Laureate Chair in Hydrocarbon Chemistry: G.K. Surya Prakash, Ph.D.

Professors: Stephen E. Bradforth, Ph.D.; Lin Chen, Ph.D. (Biological Sciences); Xiaojiang Chen, Ph.D. (Biological Sciences); Thomas C. Flood, Ph.D.; Myron F. Goodman, Ph.D. (Biological Sciences); Thieo E. Hogen-Esch, Ph.D.; Anna Krylov, Ph.D.; Daniel A. Lidor, Ph.D. (Electrical Engineering); Chi H. Mak, Ph.D.*; Charles E. McKenna, Ph.D.*; Richard W. Roberts, Ph.D. (Chemical Engineering); Kenneth L. Servis, Ph.D.; Lawrence A. Singer, Ph.D.*; Mark E. Thompson, Ph.D.; Andrey Vilesov, Ph.D.

Associate Professors: Alexander Benderskii, Ph.D.; Julio Camarero, Ph.D. (Pharmacology and Pharmaceutical Sciences); Kyung Woon Jung, Ph.D.; Peter Z. Qin, Ph.D.; Clay C. Wang, Ph.D. (Pharmacology and Pharmaceutical Sciences); Chongwu Zhou, Ph.D. (Electrical Engineering)

Assistant Professors: Richard L. Brutchev, Jr., Ph.D.; Stephen B. Cronin, Ph.D. (Electrical Engineering/Electrophysics); Jahan Dawlaty, Ph.D.; Brent Melot, Ph.D.; Matthew Pratt, Ph.D.; Susumu Takahashi, Ph.D.; Barry C. Thompson, Ph.D.; Travis J. Williams, Ph.D.; Chao Zhang, Ph.D.

Professors (Research): Karl O. Christe, Ph.D.; Sri Narayen, Ph.D.

Associate Professor (Research): Golam Rasul, Ph.D.

Assistant Professor (Research): Peter Djurovich, Ph.D.; Ralf Haiges, Ph.D.; Terry Takahashi, Ph.D.

Assistant Professor (Teaching): Jessica Parr, Ph.D.

Lecturers: Thomas M. Bertolini, Ph.D.; Rebecca Broyer, Ph.D.

*Recipient of university-wide or college teaching award.

Programs

The Department of Chemistry offers degree programs that provide undergraduate and graduate students with core instruction and excellent research opportunities. Undergraduate programs leading to the B.S. and B.A. degrees are offered. The B.S. degree is intended for persons preparing for careers in chemistry and satisfies the guidelines for a chemistry degree recommended by the American Chemical Society. The B.A. degree is designed for students who wish a concentration of course work in chemistry, but who have career plans in the health sciences, business or law. In addition, a chemistry minor is available for students who want a broader exposure to the chemical sciences. The B.S. in Biochemistry is offered as a joint program with the Department of Biological Sciences. A minor program in biotechnology is offered by the Departments of Biological Sciences and Chemistry and the Marshall School of Business and a minor program in environmental chemistry and sustainability is also offered. Graduate programs are offered leading to the Master of Arts, Master of Science and Doctor of Philosophy in Chemistry.
Undergraduate Degrees

Bachelor of Science and Bachelor of Arts in Chemistry

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Bachelor of Science in Chemistry

ADVANCED LABORATORY ELECTIVE, FOUR UNITS FROM AMONG:  UNITS
CHEM 332L  Physical Chemical Measurements  4
CHEM 423L  Advanced Laboratory Techniques in Organic and Inorganic Chemistry  4
CHEM 465L  Chemical Instrumentation  4

ADVANCED CHEMISTRY ELECTIVE, TWO UNITS FROM AMONG:  UNITS
CHEM 426  Advanced Organic Chemistry  4
CHEM 453  Advanced Inorganic Chemistry  4
CHEM 519  Biochemistry and Molecular Biology: An Introduction for Chemists  4

Bachelor of Arts in Chemistry
REQUIRED COURSES, LOWER DIVISION  UNITS
CHEM 105aLbL  General Chemistry, or CHEM 115aLbL  Advanced General Chemistry  4-4
MATH 125  Calculus I  4
MATH 126  Calculus II  4
MATH 225  Linear Algebra and Linear Differential Equations, or Calculus III  4
MATH 226  Calculus III  4
PHYS 151L  Fundamentals of Physics I: Mechanics and Thermodynamics  4
PHYS 152L  Fundamentals of Physics II: Electricity and Magnetism  4
PHYS 153L  Fundamentals of Physics III: Optics and Modern Physics  4

REQUIRED COURSES, UPPER DIVISION  UNITS
Astronomy elective*  4
Chemistry elective*  4
Earth Sciences elective*  4
Physics elective*  4
Three additional electives from these fields*  4

*Upper division courses must be applicable to majors in their respective departments.

OTHER COURSES  UNITS
MATH 125  Calculus I  4
MATH 126  Calculus II  4
MATH 226  Calculus III  4

Total units  64

Bachelor of Science in Biochemistry
This degree is offered jointly by the Departments of Biological Sciences and Chemistry. An honors option is also available. See the Department of Biological Sciences for the complete description, page 282.

Biotechnology Minor
The USC Dornsife College of Letters, Arts and Sciences departments of biological sciences and chemistry and the Marshall School of Business jointly offer the cross-departmental minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biology, chemistry or engineering student seeking a career in business and/or the biomedical/biotechnical sciences. See Biological Sciences, page 283, for course requirements.

Chemistry Minor
A chemistry minor is available for students who wish to broaden their exposure to the chemical sciences. In addition to a core of five chemistry courses (year-long sequences in general chemistry and organic chemistry and a one semester course in analytical chemistry), students must take one upper division chemistry elective in either advanced organic or advanced inorganic chemistry.

Biological Sciences elective

Physical Sciences Major Requirements (B.S.)
REQUIRED COURSES, LOWER DIVISION  UNITS
CHEM 105aLbL  General Chemistry, or CHEM 115aLbL  Advanced General Chemistry  4-4
GEOL 105L  Planet Earth  4
PHYS 151L  Fundamentals of Physics I: Mechanics and Thermodynamics  4
PHYS 152L  Fundamentals of Physics II: Electricity and Magnetism  4
PHYS 153L  Fundamentals of Physics III: Optics and Modern Physics  4

REQUIRED COURSES, UPPER DIVISION  UNITS
Astronomy elective*  4
Chemistry elective*  4
Earth Sciences elective*  4
Physics elective*  4
Three additional electives from these fields*  4

*Upper division courses must be applicable to majors in their respective departments.

OTHER COURSES  UNITS
MATH 125  Calculus I  4
MATH 126  Calculus II  4
MATH 226  Calculus III  4

Total units  64

Environmental Chemistry and Sustainability Minor
The environmental chemistry and sustainability minor is designed for students majoring in business, engineering, law, communications and other professional fields to give them the knowledge of chemistry needed to understand, formulate and manage scientific issues related to natural environmental processes as well as technologies involving the environment.

REQUIRED COURSES, LOWER DIVISION  UNITS
CHEM 105aLbL  General Chemistry, or CHEM 115aLbL  Advanced General Chemistry  4-4

REQUIRED COURSES, UPPER DIVISION  UNITS
CHEM 300L  Analytical Chemistry  4
ENST 320a  Water and Soil Sustainability; Energy and Air Sustainability  4-4

ONE ELECTIVE COURSE CHosen FROM:  UNITS
CHEM 322aL  Organic Chemistry  4
BISC 315L*  Introduction to Ecology  4
BISC 419*  Environmental Microbiology  4
BISC 427*  The Global Environment  4
GEOL 412**  Oceans, Climate, and the Environment  4

*Prerequisite required
**Corequisite required

Grade Point Average in Major Subject
A grade of C- or higher is required in each chemistry course specifically listed as a degree requirement. The GPA for all chemistry courses required for a department major or a physical sciences major must be C (2.0) or higher. The GPA for all upper division chemistry courses must also be C (2.0) or higher.
Honors Programs
A degree with honors in chemistry is available for eligible Chemistry B.A., Chemistry B.S., Chemistry B.S. – Research Emphasis, Chemistry B.S. – Chemical Nanoscience Emphasis, and Chemistry B.S. – Chemical Biology Emphasis students. To meet program requirements, students must submit an application to the Department of Chemistry and satisfy the objectives of the program.

Students seeking admission must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 16 units of chemistry courses. Students must complete 8 units of research (CHEM 490 or CHEM 494, which may also satisfy major requirements*) under the supervision of chemistry faculty with the research results described in an undergraduate thesis reviewed and approved by a faculty committee. To graduate with honors students must earn a GPA of 3.5 in all chemistry courses required for the major and have an overall USC GPA of 3.5.

Upon graduation, transcripts will be noted “Bachelor of Arts with Departmental Honors” for Chemistry B.A. students, or “Bachelor of Science with Departmental Honors” for students who pursued the various Chemistry B.S. majors.

An honors program in biochemistry is offered. See the Department of Biological Sciences for requirements, page 282.

*For Chemistry B.S., Chemistry B.S. – Chemical Nanoscience Emphasis, and Chemistry B.S. – Chemical Biology Emphasis, 4 units CHEM 490 are required for the major; for Chemistry B.S. – Research Emphasis, 4 units CHEM 490 and 4 units CHEM 494 are required for the major; and for Chemistry B.A., 2-8 units of CHEM 490 are required for the major.

Graduate Degrees

Close contact between students and faculty is a seminal feature of the chemistry graduate programs. The emphasis is on individualized programs aiming at in-depth understanding and development of scientific maturity. Attention is given to career aims, including research and development; secondary, college and university teaching; and the wide variety of industrial testing, operation and management areas.

Admission Requirements
A baccalaureate degree, equivalent to the B.A. with a major in chemistry at USC, is prerequisite to admission to the graduate program in chemistry. A baccalaureate degree in an appropriate physical science, engineering or mathematics is prerequisite to admission to the doctoral program in chemical physics.

Application must be made to the department on a special form, which includes application for fellowship and teaching assistant appointment and is available from the department Website. Materials describing the faculty, research areas and facilities will be sent to each applicant.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Arts and Master of Science in Chemistry
The department does not accept applicants for a Master of Arts or Master of Science degree in chemistry. The M.A. and M.S. degrees are intended only as transitional degrees in the process of completing requirements for the Ph.D. in chemistry.

The Master of Arts degree is granted on completion of 24 units of graduate course work (not including 590) approved by the guidance committee, and comprehensive final examinations. The Master of Science degree is granted on completion of 24 units of graduate course work, including not more than eight units (normally two registrations) in directed research, approved by the guidance committee, an approved thesis on the results of an original investigation, and a final oral defense of the thesis. The final defense is made while the thesis is in final draft form.

A guidance committee is appointed for each student. The guidance committee is chaired by the research director in the case of the M.S. option, or by an appropriate member of the faculty in the case of the M.A. option.

Doctor of Philosophy in Chemistry
Guidance Committee
The guidance committee is composed of the research adviser, three other members of the Chemistry Department, and one member from outside the Chemistry Department. The committee is appointed at least one semester before the qualifying examination, and prior to the screening procedure.

Course Requirements
The student must pass a series of graduate courses totaling at least 24 units. The guidance committee may require more than 24 units of graduate course work. Sixty units of registration, including CHEM 790 and CHEM 794, are required for the Ph.D. Registration for CHEM 790 and CHEM 794 should be done with the approval of the staff Graduate Adviser.

The qualifying examination requires the presentation of two original research proposals, or one original research proposal and one critical review of a scientific article, written answers to questions previously submitted by the guidance committee, and oral defense of all of these. The qualifying examination is administered by the guidance committee, which should not be chaired by the research adviser.

Dissertation
An acceptable dissertation based on completion of an original research project is required. The candidate must defend an approved penultimate draft of the dissertation in an advertised oral thesis defense lecture, which is open to the scientific community. The Dissertation Committee consists of three members of the guidance committee including the research adviser and the outside member.

Foreign Language Requirement
The department has no foreign language requirement.
Doctor of Philosophy in Chemistry (Chemical Physics)
Course Requirements
Completion (with no course grade lower than B-) of 24 units of courses selected from chemistry, physics, mathematics, and engineering, with an overall grade point average not lower than B. These courses must be selected with the advisement and approval of first, the research adviser, and then the thesis chair. All other requirements and procedures are the same as for the Ph.D. in Chemistry.

Seminars and Research Symposium
Seminars are held regularly in physical, inorganic, and organic chemistry. All students are expected to attend one and are invited to attend all of these. All students are expected to attend the departmental annual research symposium featuring speakers from all branches of chemistry, who may be local, national or international.

Teaching Experience
Teaching experience is required for the advanced degrees in chemistry.

Courses of Instruction

CHEMISTRY (CHEM)
The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

CHEM 050x General Chemistry Tutorial (2, FaSp) Weekly tutorial for selected students in CHEM 105aL. Strong emphasis on chemical mathematics and key concepts in general chemistry. Topics parallel lectures in CHEM 105aL. Not available for degree credit. Graded CR/NC. Discussion, 2 hours. Concurrent enrollment: CHEM 105aL.

CHEM 051x General Chemistry Tutorial (2) Structured tutorial for selected students in CHEM 105bL. Strong emphasis on chemical mathematics and key concepts in general chemistry. Topics parallel lectures in CHEM 105bL. Graded CR/NC. Not available for degree credit. Prerequisite: CHEM 105a, concurrent enrollment: CHEM 105bL.

CHEM 102 The Molecular World (4, FaSpSm)
Basic chemistry and its impact on the contemporary world. Topics include: structures and reactions of molecules, stoichiometry, nomenclature, gases, solutions.

CHEM 103Lxg General Chemistry for the Environment and Life (4) Chemistry for environmental studies, neuroscience and other life sciences: organic and inorganic structures, nomenclature, stoichiometry, solutions, gases, non-covalent interactions, equilibrium, acid-base and redox reactions. Not for major credit in chemistry.

CHEM 105aLg-bL General Chemistry (4-4, a: Fa; b: Sp) Equivalent to 105aLg-bL, but taught at a higher level for exceptionally well-prepared students. Admission to course by departmental approval only. Lecture, 3 hours; lab and discussion, 4 hours; Quiz, 1 hour. Prerequisite for aL: CHEM 105alL or CHEM 115aL. Prerequisite for bL: CHEM 115aL.

CHEM 201Lgx Chemistry in the Environment, Energy and Society (4, Sp) A range of issues where chemistry impacts society will be explored. Topics such as global warming, pollution, energy utilization and genetic engineering will be covered. Students who have taken CHEM 105ab previously or concurrently with CHEM 201 will not receive credit for CHEM 201.

CHEM 203Lxg Chemistry in Life: AIDS Drug Discovery and Development (4, Fa) Scientific principles underlying molecular approaches to diagnosis and treatment of diseases, using specific models within a societal (business, legal, ethical) context. Not available for major credit.

CHEM 205Lxg Chemical Forensics: The Science and Its Impact (4) Scientific principles underlying forensic approaches to the investigation of crimes and its societal impact on law, culture and media. Not available for major credit.

CHEM 221x Organic Chemistry Problem Solving Workshop (2) Distance learning course designed to bridge the gap between general and organic chemistry. Focus on problem solving and understanding the language of organic chemistry. Not for major credit for chemistry, chemistry (chemical nanoscience), chemistry (chemical physics), chemistry (research) or chemistry (chemical biology) majors. Graded CR/NC. Prerequisite: CHEM 105b.

CHEM 290abcd Special Laboratory (1-1-1-1, FaSpSm) Laboratory component for CHEM 105a, 105b, 322, or 322b for students with equivalent lecture credit from another institution. Prerequisite: consent of department head.

CHEM 292 Supervised Research (2, max 4, FaSpSm) Supervised undergraduate research experience. Corequisite: CHEM 105a or CHEM 115a.

CHEM 294 Undergraduate Research Seminar (1, max 4, FaSpSm) Seminars in current research in the chemical and molecular sciences. Corequisite: CHEM 105a or CHEM 115a.

CHEM 300L Analytical Chemistry (4, FaSp)
Theory and practice in chemical analysis, emphasizing instrumental techniques: error analysis, fractional distillation, extraction; chromatography; visible, ultraviolet, and infrared spectroscopy; introductions to electrochemistry and nuclear magnetic resonance spectroscopy. Lecture, 2 hours; laboratory and discussion. Prerequisite: CHEM 105bL or CHEM 115bL.

CHEM 322abL Organic Chemistry (4-4, FaSpSm) Chemistry of the carbon compounds of the aliphatic and aromatic series; laboratory preparation of typical compounds of both series. Lecture, 3 hours jointly with 325abL; laboratory and discussion, 4 hours. For premedical and predental students and some categories of biology majors and engineers. Prerequisite for aL: CHEM 105bL or CHEM 115bL; for bL: CHEM 322aL.

CHEM 325abL Organic Chemistry (4-4, a: Fa; b: Sp) Required of majors in chemistry. Lecture, 3 hours a week with 322abL; laboratory and discussion, 7 hours. Prerequisite for aL: CHEM 105bL or CHEM 115bL; for bL: CHEM 325aL.
CHEM 332L Physical Chemical Measurements (4, Sp) Experimental study of topics discussed in 430ab; adsorption, magnetic susceptibility; electron spin resonance, kinetics, equilibria, molecular spectra and structure, viscosity, dielectric properties. Discussion, 1 hour; laboratory, 9 hours. Corequisite: CHEM 430b.

CHEM 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry (4, Sp) Advanced synthetic, analytical, and physical measurement techniques in organic and inorganic chemistry. Emphasis on laboratory work with discussion of theoretical background. Lecture, 2 hours; discussion, 1 hour; laboratory, 8 hours. Prerequisite: CHEM 300L, CHEM 322L, or CHEM 325bL.

CHEM 426 Advanced Organic Chemistry (4, Fa) Advanced treatment of organic chemistry from a mechanistic point of view according to the following topics: polar and isopolar reactions, intermediates. Lecture, 3 hours; discussion, 1 hour; laboratory, 8 hours. Prerequisite: CHEM 322bL or CHEM 325bL.

CHEM 430ab Physical Chemistry (4-4, a: Fa; b: Sp) Kinetic theory; equations of state; thermodynamics; phase equilibria; chemical equilibrium; nuclear chemistry, wave mechanics; spectroscopy; statistical thermodynamics; kinetics; electrochemistry; surface and colloid chemistry. Lecture, 3 hours; discussion, 1 hour. Prerequisite for a: CHEM 300L or CHEM 322L, or CHEM 325aL; MATH 225 or MATH 226; PHYS 151; for b: CHEM 430a or CHEM 432 and PHYS 152.

CHEM 432L Physical Chemistry for the Life Sciences (4, Fa) Principles of physical chemistry relevant for the life sciences: thermodynamics, chemical equilibria, molecular dynamics, kinetics, molecular structures and interactions, spectroscopy, statistical thermodynamics and macromolecular structures. (Duplicates credit in CHEM 430a.) Prerequisite: CHEM 300L or CHEM 322L, or CHEM 325aL; MATH 126; PHYS 135aL or PHYS 151L.

CHEM 453 Advanced Inorganic Chemistry (4, Sp) Atomic structure, theory of bonding, molecular structure, metallic state, coordination compounds, transition and nontransition metals, magnetic and optical properties, crystal field theory, mechanism of reactions. Lecture, 3 hours; discussion, 1 hour. Prerequisite: CHEM 105bL or CHEM 115bL and CHEM 322L or CHEM 325aL.

CHEM 455 Chemical Nanotechnology (4, Sp) Studies in the fundamental principles governing nanoscale materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of nanoscale materials and applications. Prerequisite: CHEM 453.

CHEM 463L Chemical Nanotechnology Laboratory (2, Fa) Experimental techniques in the synthesis and characterization of nanoscale materials. Emphasis on examining size-dependent properties of various nanoscale materials using spectroscopic techniques. Prerequisite: CHEM 453.

CHEM 465L Chemical Instrumentation (4, Fa) Principles of operation of instruments used in physical sciences. Basic electronics, interconnection of building blocks, data acquisition and data reduction, noise, instrument systems. Lecture, 2 hours; laboratory, 6 hours. Prerequisite: CHEM 332L or CHEM 430b.

CHEM 467L Advanced Chemical Biology Laboratory (2, Sp) Principles, methods and protocols of chemical biology through experimentation focusing on the interactions of small molecules with bio-macromolecules such as proteins and DNA. Prerequisite: CHEM 322b or CHEM 325bL; corequisite: CHEM 300.

CHEM 488 Introduction to Theory and Practice of X-ray Crystallography (4, Fa) Introduction to single crystal X-ray diffraction theory and its extension to two-dimensional diffraction. Application of modern instrumentation and software techniques to problems of current chemical interest. Prerequisite: CHEM 300; CHEM 322a or CHEM 325a; and CHEM 322b or CHEM 325b.

CHEM 490x Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

CHEM 494x Advanced Research Experience (2, 4, max 4, FaSp) Directed undergraduate research supervised by faculty, with advanced capstone research experience. Not available for credit to graduate students. Prerequisite: CHEM 490.

CHEM 499 Special Topics (2-4, max 8) Lectures and discussions on specialized topics in chemistry. Prerequisite: CHEM 300L; CHEM 322aL, or CHEM 325aL.

CHEM 510x Alternative Energy Technologies and Options (4, Fa) Introduction to the essential scientific background to understand complex issues involving energy use and its environmental consequences. Critically analyze energy issues that will shape policy decisions. Not available for credit for doctoral students in chemistry.

CHEM 515 Structure and Bonding in Inorganic and Organometallic Chemistry (4) An integrated core course of structure and bonding in inorganic, coordination and organometallic chemistry within an oxidation state framework. Symmetry, electronic properties.

CHEM 519 Biochemistry and Molecular Biology: An Introduction for Chemists (4) Amino acids and peptides; protein structure and function; enzyme kinetics; structure, analysis and synthesis of nucleic acids; chemical biology of DNA and RNA; biotechnology.

CHEM 521 Basic Principles of Physical Methods in Biochemistry (2, FaSp) Principles underlying physical analytical methods commonly utilized in research in biochemistry and molecular biology.

CHEM 524 Inorganic Materials Chemistry (2) Studies in the fundamental principles governing inorganic materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of inorganic materials and applications. Prerequisite: CHEM 515.

CHEM 526 Structure and Mechanism in Organic Chemistry (4) Review of modern structural theory of organic chemistry; and relation to the mechanisms of organic chemical reactions.

CHEM 530 Organic Chemistry (4) A survey of representative groups of widely used synthetic organic reactions; emphasis on scope, limitations, and stereochemical consequences.

CHEM 533 Introduction to Molecular Spectroscopy (4) Theory and experimental methods of molecular spectroscopy and applications to chemistry. Rotational, vibrational, electronic and nuclear magnetic resonance spectroscopies. Prerequisite: CHEM 544.

CHEM 536 Molecular Dynamics (2 or 4) Potential energy surfaces, reaction dynamics, scattering theories, classical trajectories, statistical theories, molecular energy transfer, photodissociation dynamics, gas-surface interactions, experimental results, beam and laser techniques.
CHEM 538 Mathematical Techniques of Physical Chemistry (4) Fundamentals and techniques of mathematics and physics. Linear algebra, differential equations, mechanics, electricity and magnetism. Applications to physical chemistry/chemical physics.

CHEM 539 Surface Chemistry (4) Physical and chemical properties of solid surfaces; thermodynamics and kinetics of gas chemisorption; chemical bonding at surfaces; applications to catalysis and electronic materials.

CHEM 540 Introduction to Statistical Mechanics (4) Study of macroscopic systems from molecular viewpoint using statistical mechanics: ensembles, fluctuations, gases, gas-solid interfaces, crystals, polymers, critical phenomena, non-equilibrium systems.

CHEM 544 Introduction to Quantum Chemistry (4) Basic principles of quantum mechanics and their application to chemistry. Electronic structure of atoms and molecules.

CHEM 545 Theory and Practice of Molecular Electronic Structure (4) Provide working knowledge and hands-on experience in current quantum chemical methods for chemists who would like to employ these techniques in their own research. Prerequisite: CHEM 538, CHEM 544.

CHEM 548 Computer Simulations of Chemical and Biological Systems (4) Key aspects of the rapidly growing field of computer simulation of molecular systems in general and biological molecules in particular. Recommended preparation: undergraduate course in physical chemistry or equivalent.

CHEM 550 Special Topics in Chemical Physics (2-4, max 8) Study of selected areas of chemical physics. Critical evaluation of recent advances in the field.

CHEM 555 Computational Quantum Chemistry: Methods and Applications (4) Introduction to modern computational quantum chemistry. Prediction of molecular structure, molecular spectra and molecular reaction mechanisms using ab initio and semi-empirical methods. Prerequisite: CHEM 430b; recommended preparation: CHEM 544.

CHEM 556 Polymer Synthesis (4) Concepts of polymer structure and stereochemistry. Organic chemistry of polymerization reactions with emphasis on condensation, radical, cationic, anionic, and coordination-metathesis polymerization.

CHEM 556L Advanced Practical Nuclear Magnetic Resonance Spectroscopy (2) Application of multidimensional and time resolved NMR spectroscopy to problems in structure determination and thermochemistry. Prerequisite: CHEM 322b or CHEM 325b; recommended preparation: CHEM 625.

CHEM 570 Seminar in Chemical Biology (2, max 4) Introduce students to emerging research areas in chemical biology through a thorough discussion of seminal research articles and presentations of current research topics. Recommended preparation: some research experience and familiarity with literature search.

CHEM 575 Modern Trends in Physical Chemistry (2) Emerging research areas in physical and theoretical chemistry through a thorough discussion of seminal research articles and presentations of current research topics. Recommended preparation: some research experience and familiarity with literature search.

CHEM 577 Modern Topics in Inorganic Chemistry and Nanoscience (2, max 4, FaSp) Critical evaluation of recent advances. Topic examples: ionic polymerization; stereochemistry of polymers; silicon polymers; ladder polymers.

CHEM 580 Current Topics in Inorganic Chemistry and Nanoscience (2, FaSp) Introduction to emerging research areas in inorganic chemistry and nanoscience through a discussion of seminal research articles and presentations of current research topics.

CHEM 588ab X-ray Crystallography (2-2) a: Single-crystal X-ray diffraction theory and experimental methods. b: Application of diffraction techniques to problems of current chemical and biological interest. Prerequisite: CHEM 588a before b.

CHEM 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

CHEM 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

CHEM 594abz Master's Thesis (2-2-0, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

CHEM 599 Special Topics (2-4, max 8) Special topics in chemistry.

CHEM 625 Chemical Applications of Magnetic Resonance Spectroscopy (4) Elementary theory of magnetic resonance spectroscopy, methods of spectral analysis, treatment of Fourier Transform methods and time dependent phenomena; recent applications in organic chemistry.

CHEM 626 Natural Products Chemistry (2) Survey of the chemistry and biogenesis of the major classes of secondary metabolites along biogenetic lines: terpenes, aceto genins, and alkaloids.

CHEM 661 Selected Topics in Polymer Synthesis (2-4, max 8) Advanced level study in selected areas of polymer synthesis. Critical evaluation of recent advances. Topic examples: ionic polymerization; stereochemistry of polymers; silicon polymers; ladder polymers.

CHEM 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

CHEM 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.
Undergraduate Degrees

The undergraduate classics major gives the student an understanding of the cultures, languages and literatures of ancient Greece, Rome and the Mediterranean world.

Classics is a broadly interdisciplinary field. Most courses focus on ancient Greece and Rome, but students in the department also study the impact of classical cultures on later societies and the interactions among various ancient cultures. USC is a member of the Intercollegiate Center for Classical Studies and the College Year in Athens program, and classics majors are encouraged to spend a semester in Rome or Athens. The classics major is also encouraged to explore courses in allied fields such as ancient philosophy, history, comparative literature, art history and archaeology.

Classics Major Requirements for the Bachelor of Arts

All classics majors are required to take the following introductory courses: CLAS 150 The Greeks and the West and CLAS 151 Civilization of Rome. In addition all majors must have completed one of the two elementary language sequences (including GR 220 or LAT 222).

All majors must take seven additional courses from the list maintained by the classics undergraduate mentor. Of these seven, at least five must be courses offered by the Classics Department (i.e., CLAS, LAT, GR) and at least six must be numbered 300 or above. In selecting courses from allied fields (anthropology, art history, comparative literature, English, history, Judaic studies, linguistics, philosophy, political science, religion [includes archaeology], gender studies), the student must work closely with the classics undergraduate mentor. Course work in departments other than classics must be approved in advance by the undergraduate mentor in order to count for major credit.

Bachelor of Arts in Interdisciplinary Archaeology

See Religion, page 460, for a complete listing.

Classics Minor

The classics department minor requires one language course at the 100-level or above.

One course from either A or B:

A. CLAS 150 The Greeks and the West 4
CLAS 151 Civilization of Rome 4
CLAS 280 Classical Mythology 4

B. Second and third semester Latin or Greek courses:
GR 150 Greek II 4
GR 220 Greek III 4
LAT 150 Latin II 4
LAT 222 Latin III 4
Four upper-division courses (16 units) drawn from classics course offerings in classics, Latin or Greek

Total: 6 courses

The curriculum of the Classics Department is designed to transmit a knowledge and an appreciation of the civilizations of the Greeks and the Romans — their languages and literatures, myths, philosophies and political thought — as well as to develop an understanding of the ways in which the classical heritage has manifested itself in later ages. Approximately one half of the department’s classes are taught in English; these have to do with broad areas of civilization, including classical culture and literature. The remainder are courses in language and literature taught from the original Greek and Latin texts.

Minor in Critical Approaches to Leadership

See the Department of Interdisciplinary Studies, page 375, for course requirements.

Honors Program

Candidates for the B.A. in classics can receive an honors degree by meeting these requirements: a 3.5 GPA in department courses at the time of graduation; completion of an honors research project under the guidance of a faculty member (CLAS 495x). Admission to the program is granted by the departmental undergraduate adviser in the semester preceding enrollment in CLAS 495x; students should have a 3.5 GPA in the major at this time.

Students Anticipating Graduate Study in Classics

Students interested in attending graduate school in classics are advised to take as many courses in Greek and/or Latin as possible.

Advisement

Because of the great flexibility built into the classics major, students are required to have their course schedule approved by the undergraduate adviser every semester. Students must have a total of 32 upper division units (8 four-unit courses) to graduate at USC and 24 upper division units (6 four-unit courses) in their major.
Graduate Degrees

The graduate program in classics at USC aims to train students to become scholars, teachers and interpreters of ancient Mediterranean civilizations, of the Greek and Latin languages and literatures, and of the traditions that have developed from them. In order to prepare students to work in a variety of intellectual contexts, the department seeks to provide both a traditional substantive training in classical philology and the intellectual flexibility that will enable them to make the accomplishments of the past available to audiences of the present.

The department offers the Ph.D. in Classics (Greek and Latin) and the M.A. in Greek, Latin and Classics. Collateral offerings are available in related departments, such as comparative literature, history, philosophy, art history, English and anthropology.

The graduate program offers mastery of traditional philological and linguistic skills as a basis for the study of ancient cultures, with emphasis on literature, other discursive practices and material culture. Students are encouraged to explore interdisciplinary approaches to classical studies and the relations between classics and other fields. Courses in related departments are recommended and degree requirements permit students to develop individual interests.

Admission Requirements
An applicant for admission will normally have an undergraduate major in classics, but programs may be arranged for promising students who do not. The student should have an undergraduate record satisfactory to the department. At least three letters of recommendation from the student’s undergraduate teachers should be sent to the chair of the department. All applicants are required to take the verbal and quantitative general tests of the Graduate Record Examinations. See the department Website for detailed application instructions.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Arts in Classics
The department does not accept applicants for a Master of Arts degree in classics. The M.A. degree is intended only as a transitional degree in the process of completing requirements for the Ph.D. in classics.

Work toward the M.A. consists of six 4-unit courses (24 units) and a thesis and oral defense, or the M.A. comprehensive examination. Two of the core seminars are required and five of the six courses must be taken in the Department of Classics. Under the guidance of a faculty committee, the student elects those courses appropriate to individual areas of special interest and previous academic preparation.

Doctor of Philosophy in Classics
Application deadline: January 1

Sixty units of course work are required. Of these ordinarily at least 48 will be taken in the Department of Classics. Course work, exam and individual research projects are organized into a three-year cycle of 12 core courses. The final two years of the five-year program are reserved for dissertation preparation. At the end of each of the first three years a student will sit for a portion of the preliminary examinations, with all preliminary exams to be completed by the end of the third year. In addition, at the end of each of the first three years students present before a jury of internal and external examiners an individual research project. A substantial dissertation prospectus will be submitted within six months of the completion of course work, and an oral examination conducted by the student’s five-member guidance committee will be based on the prospectus.

The core program is as follows, and a student may enter at any time in the three-year sequence.

Courses of Instruction

CLASSICS (CLAS)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Knowledge of Greek or Latin not required for courses numbered 499 and below.

CLASSICS 150g The Greeks and the West (4, Fa)
A historical and cultural survey of ancient Greece, 1100-300 BCE. Emphasis will be on the reading and interpretation of literary texts, with extensive use of visual matter.

CLASSICS 151g Civilization of Rome (4, Sp)
Studies of Roman civilization through the major literary works of ancient Rome. All reading in translation.

CLASSICS 202 Introduction to Archaeology (4)
(Enroll in ANTH 202)

CLASSICS 212L Archaeology: Interpreting the Past (4, Sp)
Methods and techniques employed in modern archaeological research, including the tools and principles of allied scientific fields and the impact of analytical and technological advances.
CLAS 280g Classical Mythology (4, FaSp) Origin, development, and transmission of mythology in Greek and Latin literature, with parallels from other traditions.

CLAS 300 Women in Antiquity (4) Theoretical approaches to women's history; evidence for the daily life, legal status, and religion of ancient Greek and Roman women; the female in literature and art.

CLAS 301abcd Cross Registration with UCLA (2%-2%-2%-2%)

CLAS 305 Roman Law (4) History and elements of Roman law; including persons, property, obligations, and inheritance, in context of social structure (family, gender, class, slavery, empire). Recommended preparation: CLAS 151 or HIST 101.

CLAS 315 Sport and Spectacle in the Ancient World (4, FaSp) The role of athletic training and competition in ancient society, from the Greek Olympic games to Roman gladiatorial combat and modern recreations.

CLAS 320gm Diversity and the Classical Western Tradition (4, Sp) Political, ethical, and ideological aspects of classical Western attitudes towards human diversity. Relationship between classical tradition and contemporary discussions of diversity and unity.

CLAS 321 Greek Art and Archaeology (4, Fa) (Enroll in AHIS 321)

CLAS 322 Roman Art and Archaeology (4, Sp) (Enroll in AHIS 322)

CLAS 323 Aegean Archaeology (4, FaSp) Survey of the Bronze Age Aegean societies of Minoan Crete and Mycenaean Greece; emphasis on archaeological theory and method in a prehistoric context.

CLAS 324 Late Antique Art and Archaeology (4) Investigation of the transformation between classical antiquity and the middle ages through examination of cities, buildings, images and artifacts of the 3rd-8th-century Mediterranean.

CLAS 325 Ancient Epic (4) Representative epics of the Greek and Roman world; development of the character of the hero; later influences.

CLAS 328 Archaeology of Religion in the Greco-Roman World (4) Examination of ancient objects, images and archaeological sites as evidence for religious practice and ideas about the sacred in the Greco-Roman world. Recommended preparation: AHIS 120, AHIS 201.

CLAS 333 Cult and City in Ancient Greece (4) Explores the relationship between civic and religious institutions in ancient Greece: city planning, warfare, mystery cults, drama, sacrifice, and women's rituals.

CLAS 337 Ancient Drama (4) Tragedies and comedies of the ancient world; later influences.

CLAS 339 Ancient Science (4) Cross-cultural investigation of aims, origins, and transmission of various scientific traditions in antiquity. Relationship between science and philosophy, scientific thought and practice.

CLAS 348 The Athenian Century (4) Democratic concepts and values of fifth century B.C. Athens utilizing rhetorical, historical, dramatic, and biographical sources.

CLAS 349g Ancient Empires (4) History and cultures of the ancient empires of southwest Asia, from Cyrus the Great to the establishment of Islam.

CLAS 360 Classical Arabic Literature in Translation (4, Irregular) Introduction to Classical Arabic literature and culture of the period 500 to 1500 A.D. Focus on continuity of ancient traditions in Arabic. In English translation.

CLAS 370 Leaders and Communities: Classical Models (4, FaSp) Examination of political and moral leadership in classical republican, democratic, and imperial communities; consideration of how these models are useful to contemporary democracies.

CLAS 375 Alexander the Great: Leadership, Personality and World Conquest (4) Ancient sources on Alexander's life, personality and conquests. Modern evaluations of his achievements as a prototype for autocracy and empire-building from antiquity to today.

CLAS 380 Approaches to Myth (4) Advanced study of uses and interpretations of myth. Approaches include myth and ritual; psychology; gender; myth in literature, film and art. Recommended preparation: CLAS 280.

CLAS 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

CLAS 401abcd Cross Registration with UCLA (2%-2%-2%-2%)

CLAS 415 Object-Worlds: Histories and Theories of Things (4) (Enroll in AHIS 415)

CLAS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology (4, max 8, Irregular) (Enroll in AHIS 425)

CLAS 454 Classical Arabic (4, max 20, FaSp) (Enroll in MDES 454)

CLAS 461 Topics in Ancient Iranian Languages and Cultures (4, max 20) (Enroll in MDES 461)

CLAS 465 Archaeology and Society (4) The interaction of archaeology and contemporary societies through political and moral claims; archaeologists’ role as stewards and interpreters of ancient cultures and their remains. Capstone course for the Interdisciplinary Archaeology major. Recommended preparation: background in archaeology, classics, or related field.

CLAS 470 Democracies Ancient and Modern (4) Democratic and republican governments in Athens and Rome; their influence on republicanism in early modern Italy and 18th-century America; their relevance for contemporary democracies.

CLAS 485 Comparative Grammar of Greek and Latin (4) A systematic comparative and historical linguistic study of the phonological, morphological and syntactic components of the grammars of the ancient Greek and Latin languages.

CLAS 490x Directed Research (2-8, max 8) Individual research and readings. Not available for graduate credit.

CLAS 495x Honors Research (4) Individual research for honors in the major leading to a substantial paper or other project. Not open to graduate students.

CLAS 499 Special Topics (2-4, max 8) All of the following courses require a knowledge of Greek or Latin.

CLAS 500 Proseminar (2, Sp) Introduction to classical scholarship, research methods; bibliography.
CLAS 501abcd Cross Registration with UCLA (2-2-2-2) Special studies in selected areas of classical civilization and literature.

CLAS 510 Seminar in Classical Philology (4, 3 years, Fa) Close study of the Greek and Latin languages and linguistic theory.

CLAS 511 Sanskrit I (4) Introduces the student to the fundamentals of Sanskrit grammar, the ancient Indo-European language most closely related to Greek.

CLAS 512 Sanskrit II (4) Completes the acquisition of the fundamentals of Sanskrit grammar and enables the student to read a variety of Vedic and classical Sanskrit texts.

CLAS 515 Topics in Classical Scholarship (4, 3 years, Fa) Intensive study of individual authors, genres, periods, or areas of classical scholarship.

CLAS 520 Approaches to Antiquity (4, 3 years, Sp) Study in the history and theory of classical scholarship.

CLAS 525 Studies in Ancient and Pre-Modern Cultures (4, 3 years, Sp) Investigation of cultural interaction among Greeks, Romans and other ancient peoples. Includes a comparative study of pre-modern cultures.

CLAS 540 Seminar in Early Greek Literature (4, 3 years, Fa) Homer through Aeschylus.

CLAS 545 Seminar in Theoretical Approaches to Greek Culture and Literature (4, 3 years, Fa) Introduces students to the study of Greek culture and to the range of theories useful for modeling that culture and its literature.

CLAS 550 Seminar in Classical and Hellenistic Literature (4, 3 years, Sp) Tragic poetry, comic poetry, Hellenistic poetry.

CLAS 555 Seminar in Greek History, Culture, and Society (4, 3 years, Sp) Develops a historical framework for Greek culture from the Mycenaean period through the Hellenistic world. Emphasis on prose texts: historians, philosophers, orators.

CLAS 560 Seminar in Republican Latin Literature (4, 3 years, Fa) Early Latin literature through Virgil.

CLAS 565 Seminar in Theoretical Approaches to Roman Culture and Literature (4, 3 years, Fa) Introduces students to the study of Roman culture and to a range of theories useful for modeling that culture and its literature.

CLAS 570 Seminar in Imperial Latin Literature (4, 3 years, Sp) Latin literature from the Augustan period to that of the Antonines.

CLAS 575 Seminar in Roman History, Culture, and Society (4, 3 years, Sp) Introduces students to research in Roman history and historiography.

CLAS 590 Directed Research (1-12, FaSp) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

CLAS 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593) Credit on acceptance of dissertation. Graded IP/CR/NC.

CLAS 599 Special Topics (2-4, max 8, FaSpSm) Special topics in classical language, literature and culture.

CLAS 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

GREEK (GR)

GR 120 Greek I (4, FaSp) Essentials of classical Greek grammar and vocabulary.

GR 150 Greek II (4, FaSp) Essentials of classical Greek grammar and vocabulary. Continued. Basic reading skills. Prerequisite: GR 120.

GR 220 Greek III (4, FaSp) Reading Greek literature. Introduction to reading and translation of classical Greek prose and poetry. Extensive grammar review. Prerequisite: GR 150.

GR 321 Greek Art and Archaeology (4, Fa) (Enroll in AHIS 321)

GR 322 Roman Art and Archaeology (4, Fa) (Enroll in AHIS 322)

GR 328 Archaeology of Religion in the Greco-Roman World (4) Examination of ancient objects, images and archaeological sites as evidence for religious practice and ideas about the sacred in the Greco-Roman world. Recommended preparation: AHIS 120, AHIS 201. Cross-listed as REL 328.

GR 339 Ancient Science (4) Cross-cultural investigation of aims, origins, and transmission of various scientific traditions in antiquity. Relationship between science and philosophy, scientific thought and practice.

GR 345 Greek Tragic Poets (4) Selected plays of Aeschylus, Sophocles, and Euripides.

GR 353 Plato (4) Readings from the Republic or other dialogues.

GR 354 Greek Historians (4) Selections from such representative historians as Herodotus and Thucydides.

GR 355 Aristophanes (4) A study of at least three comedies.

GR 362 Homer and the Greek Epic (4) Selections from the Iliad and/or Odyssey. Problems of oral composition and transmission.

GR 365 Greek Lyric Poetry (4) Readings from Archilochus, Sappho, Alcaeus, Pindar, and other lyric poets. Prerequisite: GR 220.

GR 375 Plutarch (4) Readings of selected works by the Greek author Plutarch. Prerequisite: GR 220.

GR 390 Special Problems (1-4, FaSp) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

GR 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology (4, max 8, Irregular) (Enroll in AHIS 425)

GR 450 Readings in Greek Literature (4, max 12) Readings in various authors and genres of Greek literature. Prerequisite: 300-level Greek course.

GR 490 Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

GR 499 Special Topics (2-4, max 8)

LATIN (LAT)

LAT 020x Latin for Research (2) For students who wish to use Latin in their research, or who need help in meeting the reading requirement for the Ph.D. Not available for degree credit.

LAT 120 Latin I (4, FaSp) Essentials of Latin grammar and vocabulary.

LAT 150 Latin II (4, FaSp) Essentials of Latin grammar and vocabulary, continued. Basic reading skills. Prerequisite: LAT 120.

LAT 310 Latin Elegiac Poetry (4, Irregular) Selected poems of Catullus, Tibullus, Propertius, and Ovid; meter, style, and themes. Prerequisite: LAT 313, LAT 314, LAT 315, or LAT 316.

LAT 312 Roman Satire (4, Irregular) Selected satires of Horace and Juvenal; history of the genre.

LAT 313 Ovid and Classical Mythology (4) Selections from the Metamorphoses and Fasti; collateral reading on classical mythology.

LAT 314 Catullus and Horace (4) Selected poems of Catullus and Odes of Horace.

LAT 315 Cicero (4) Representative philosophical, oratorical, and rhetorical works; selected letters.

LAT 316 Roman Comedy (4) Selected plays of Plautus and Terence.

LAT 320 Vergil (4) Studies in the Aeneid or Eclogues and Georgics.

LAT 322 Lucretius’ De Rerum Natura (4) The didactic epic as a vehicle of Epicurean philosophy.

LAT 325 Roman Historians (4) Readings from Sallust, Livy, and Tacitus. Prerequisite: LAT 222 or satisfactory completion of placement test.

LAT 385 Late and Medieval Latin (4) Readings in Seneca, Martial, Pliny, and other representative writers.

LAT 390 Special Problems (1-4, FaSp) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

LAT 450 Readings in Latin Literature (4, max 12, FaSp) Readings in various authors and genres of Latin literature. Prerequisite: 300-level Latin course.

LAT 490x Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

LAT 499 Special Topics (2-4, max 8)

Interim Chair: William Thalmann, Ph.D.

Faculty
Marion Frances Checailler Professor of French: Peggy Kamuf, Ph.D.* (French and Italian)

Professors: Dominic C.N. Cheung, Ph.D. (East Asian Languages and Cultures); Vincent Farenga, Ph.D.* (Classics); Akira Mizuta Lippit, Ph.D. (Critical Studies and East Asian Languages and Cultures); Gloria Orenstein, Ph.D.; Hilary M. Schor, Ph.D. (English and Law); William G. Thalmann, Ph.D.* (Classics); Daniel Tiffany, Ph.D. (English)

Associate Professors: Julián Gutiérrez Albilla, Ph.D. (Spanish and Portuguese); Edwin Hill, Ph.D. (French and Italian); Neetu Khanna, Ph.D.

Adjunct Assistant Professor: Dan Leshem, Ph.D. (USC Shoah Foundation Institute for Visual History and Education)

Associate Professor (Teaching): Michael Du Plessis, Ph.D.

Emeritus Professors: Moshe Lazar, Ph.D.*; Albert Sonnenfeld, Ph.D.* (French and Italian)

Associated Faculty
Professors: Joseph A. Boone, Ph.D. (English); David E. James, Ph.D. (Cinematic Arts); James R. Kincaid, Ph.D.* (English); Marsha Kinder, Ph.D. (Cinematic Arts); Tania Modleski, Ph.D. (English); David St. John, M.F.A. (English); Alexander Zholkovsky, Ph.D. (Slavic Languages and Literatures)

Assistant Professors: Roberto Ignacio Díaz, Ph.D.* (Spanish and Portuguese); Erin Graff-Zevin, Ph.D. (Spanish and Portuguese); Heather James, Ph.D. (English); Natania Meeker, Ph.D. (French and Italian); Panivong Norindr, Ph.D. (French and Italian); Antonia Szabari, Ph.D. (French and Italian)

Associate Professors: David Bialock, Ph.D. (East Asian Languages and Cultures); Janet Johnson, Ph.D. (Music); Margaret Rosenthal, Ph.D.* (French and Italian)

*Recipient of university-wide or college teaching award.

Degree Programs
The Comparative Literature Department offers the B.A. and minor in cross-linguistic and cross-cultural literary studies, including the study of various literary genres, periods and movements; literary theory; and interdisciplinary approaches to literature. The literatures and cultures represented in the department include: Western (European and American) and East Asian.

For M.A. and Ph.D. programs, see the Comparative Studies in Literature and Culture Department, page 307.
Undergraduate Degrees

Comparative Literature Major
Students may earn the B.A. in Comparative Literature by satisfying the requirements for either of two tracks.

The Literature/Media/Critical Thought Track allows students to focus their study in one of three concentrations while also taking courses in the other two. Together, these three concentrations represent the broad range of interests in the discipline: (1) literature considered comparatively and transnationally; (2) the media of other arts and modes of communication (photography, film, music, painting and digital media); (3) modes of critical thought that inform and shape theoretical reflection on the arts and society.

This track offers the opportunity to pursue a major that is broadly based in the liberal arts. Students on this track might consider extending their concentration with a double major or minor. For example, the literature concentration could be extended with a second major or minor in a national literature (French, Spanish, Italian, Russian, English, German, classics or an East Asian literature); the media concentration by another major or minor in cinematic arts, art history or communication; and the critical thought concentration by a second major or minor in philosophy, religion, history, sociology or anthropology.

The Foreign Language Track incorporates the study of at least one literature in a foreign language into the comparative perspective of the comparative literature major.

Students who intend to pursue a graduate degree in either comparative literature or a foreign literature are strongly advised to choose this track, as are students who already possess advanced skills in a language other than English. Majors in comparative literature with foreign language emphasis might consider a double major or a minor in a department of foreign language or in a non-literary field such as international relations or journalism.

The requirements for both tracks of the major accommodate very well semesters of study abroad. Students are helped and encouraged to plan their programs in advance to allow for that experience.

Requirements for the Major

Literature/Media/Critical Thought Track
Students earn a B.A. in Comparative Literature and are required to complete at least 40 units (10 courses) as follows:

(1) COLT 302 and COLT 303

(2) At least four additional COLT courses in one of the three concentrations.

Literature Concentration:
CLAS 360, COLT 101, COLT 102, COLT 250, COLT 251, COLT 264, COLT 311, COLT 312, COLT 324, COLT 335, COLT 345, COLT 346, COLT 348, COLT 351, COLT 374, COLT 382, COLT 420, COLT 426, COLT 435, COLT 445, COLT 448, COLT 472, COLT 475, COLT 485, EALC 454, EALC 460

Media Concentration:
COLT 354, COLT 357, COLT 365, COLT 373, COLT 379, COLT 451, COLT 452, COLT 462, COLT 470, COLT 480

Critical Thought Concentration:
CLAS 370, COLT 375, COLT 377, COLT 381, COLT 385, COLT 391, COLT 454, COLT 471, COLT 474, COLT 478, COLT 486, COLT 487

(3) At least four additional COLT courses. No more than two of the 10 courses required for the major may be at the 100 or 200 level.

Foreign Language Track
Students earn a B.A. in Comparative Literature and are required to complete 40 units (10 courses) as follows:

(1) COLT 302 and COLT 303

(2) At least five additional COLT courses, of which no more than two may be at the 100 or 200 level.

(3) At least three upper division courses in the literature or culture of one or more foreign languages (other than English), with all readings in that language.

Honors Program
Students who satisfy the following requirements of the honors program receive the B.A. in Comparative Literature with Honors. To be admissible to the honors program, an overall GPA of at least 3.0 and at least 3.5 in courses counted for major credit is required. The decision to enter the Honors Program should be made and discussed with the departmental undergraduate adviser at least one year (two semesters) before graduation.

To be awarded honors, majors in comparative literature on the literature/media/critical thought track must complete 4 units of COLT 490x Directed Research and 4 units of COLT 495 Senior Honors Thesis. These courses replace two of the COLT courses required beyond the four-course concentration. Majors in comparative literature on the foreign language track must complete, in place of two of the five required COLT courses, an additional upper division course in the literature or culture of a language other than English and COLT 495 Senior Honors Thesis.

The director of the senior honors thesis must be a member of the comparative literature faculty. The second reader may be any regular USC faculty. To qualify for the award of honors, the director and second reader must both approve the thesis.

Minor in Comparative Literature
Students can minor in one of three tracks: the literature/media/critical thought track, the foreign language track or the global cultures track.

Literature/Media/Critical Thought Track
Students are required to complete at least 24 units (six courses) as follows:

(1) COLT 302 and COLT 303

(2) At least three additional COLT courses in one of the three concentrations.

(3) At least one additional COLT course in any of the three concentrations.

No more than one of the six courses required for the minor may be at the 100 or 200 level.

Foreign Language Track
Students are required to complete at least 24 units (six courses) as follows:

(1) COLT 302 and COLT 303

(2) At least three additional COLT courses, of which no more than one may be at the 100 or 200 level.

(3) At least one upper division course in the literature or culture of a foreign language (other than English), with all readings in that language.
Global Cultures Track
Students are required to complete at least 24 units (six courses) as follows:

(1) COLT 302 and COLT 303

(2) At least two additional COLT courses, of which no more than one may be at the 100 or 200 level, to be chosen from the following list:
   COLT 101, COLT 102, COLT 250, COLT 264, COLT 360, COLT 374, COLT 375, COLT 379, COLT 385, COLT 445, COLT 448, COLT 470, COLT 474

(3) At least two other courses in a relevant USC College department to be decided in conjunction with the adviser according to the following guidelines:

A. Students may choose a region of the world and take two upper division courses related to that region in relevant departments.

B. Students may choose a national/linguistic tradition and take two upper division courses related to that tradition in relevant departments.

Graduate Degrees

The M.A. and Ph.D. in comparative literature are offered through the Comparative Studies in Literature and Culture program, as described in this catalogue on page 307.

Courses of Instruction

COMPARATIVE LITERATURE (COLT)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

COLT 101g Masterpieces and Masterminds: Literature and Thought of the West (4, Fa)
A broad introduction to the great works of Western culture from antiquity to 1800. (Duplicates credit in former COLT 150x.)

COLT 102g On Location: The Place of Literature in Global Cultures (4, Sp)
Comparative study of works from a broad range of cultural traditions that originate from, and provide insight into, vital global locations outside the Western sphere.

COLT 250g Cultures of Latin America (4, Fa)
Comparative study of Latin American cultures, especially vis-à-vis those of Europe and the U.S. Materials drawn from literature, but also film, opera, history, cultural theory.

COLT 251g Modern Literature and Thought of the West Since 1800 (4, SpSm)
Survey of literary and other cultural texts from the 19th to the 21st centuries, with emphasis on the individual and social change. (Duplicates credit in former COLT 151x.)

COLT 264g Asian Aesthetic and Literary Traditions (4) A comparative study of the Asian aesthetic heritage of poetry, painting, music, and drama; of literary themes, trends, and myths.

COLT 302 Introduction to Literary Theory (4, SpSm) Introduction to general forms of reflection on literary discourse.

COLT 303 Globalization: Culture, Change, Resistance (4, Sp)
Cultural dimensions of issues in globalization: migration, diaspora, terrorism, communications, climate change, collectives, production and technology, money and exchange.

COLT 310 Epic (4) Formations of characters and themes from myth, legend or fairytale (Oedipus, Antigone, Faust, Don Juan, Cinderella, Comic and Tragic Twins, Hero and Monster).

COLT 312 Heroes, Myths and Legends in Literature and the Arts (4) Study of transformations of characters and themes from myth, legend or fairytale (Oedipus, Antigone, Faust, Don Juan, Cinderella, Comic and Tragic Twins, Hero and Monster).

COLT 314 Women in Medieval and Renaissance Europe (4) Study of literary, social and cultural lives of women during the European Middle Ages and Renaissance. Reading and analysis of texts written by and about women.

COLT 324 Women in Medieval and Renaissance Europe (4) Study of literary, social and cultural lives of women during the European Middle Ages and Renaissance. Reading and analysis of texts written by and about women.

COLT 328 Women in Literature and Thought of the West (4) Study of literary, social and cultural lives of women during the Western tradition.

COLT 335 Decadence and Modernity (4) Study of the notion of “decadence” and its impact on modern and contemporary literary/cultural production, with a comparatist focus on different linguistic traditions.

COLT 345 Realist Fiction (4) Study of the ways literature presents the “real” (social and/or individual) through readings of selected novels and short stories in the realist and naturalist traditions.

COLT 346 Fictions of the First Person (4) Study of prose fiction in the first person as a model of fiction in general and as a reflection of the fictional structure of selfhood.

COLT 348 Modernist Fiction (4) Study of the Modernist aesthetic in narrative texts by Gide, Joyce, Kafka, Woolf and others; possible focus on related trends in other literary traditions.

COLT 351 Modern and Contemporary Drama (4) Comparative study of major modern dramatic trends, subgenres, and techniques, through representative works from Strindberg to the Theatre of the Grotesque and the Absurd. (Duplicates credit in former COLT 305.)

COLT 354 Revolutions in Theater (4) Comparative study of groundbreaking contributions to modern theories of theater and performance in the context of other 20th century revolutions — aesthetic, cultural, and social.
COLT 357 The Avant-Garde (4, max 8) Study of the relationship between literary modes and other arts since 1900, focusing on particular avant-garde movements.

COLT 360 Classical Arabic Literature in Translation (4, Irregular) (Enroll in CLAS 360)

COLT 365 Literature and Popular Culture (4) Study of mass-reproduced verbal and visual art forms, such as graphic novels, comics, animation, popular music, video, graffiti, advertising.

COLT 370 Leaders and Communities: Classical Models (4, FaSp) (Enroll in CLAS 370)

COLT 373 Literature and Film (4) Examines literature and film as distinct modes of representation, narration, and structuring of time, language, memory, and visuality.

COLT 374gm Women Writers in Europe and America (4, Sp) Introduction to works of major women writers from the Middle Ages to the 20th century in their literary, social, and cultural contexts.

COLT 375 Latin American Cultural and Literary Theory (4) Survey of cultural critique focused on Latin America as a cultural region and on Latin Americanism as a transnational academic practice.

COLT 377 Literature, Theory, Gender (4) Literary representations and theories of gender difference. Examines questions of gendered voice in writing and the cultural construction of gender in various periods and cultures.

COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema (4) Cinema from Cambodia, Indonesia, Laos, Malaysia, the Philippines, Singapore, Thailand, and Vietnam in local and global cultural contexts.

COLT 381 Psychoanalysis and the Arts (4) Introduction to psychoanalytic literature on the arts, including classic texts by Freud, Jones, Lacan, Derrida, and others. Readings of theoretical and fictional works.

COLT 382g Zen and Taoism in Asian Literature (4) Studies of the presence and influence of Zen Buddhism and Taoism in Asian literature, with a focus on China and Japan.

COLT 385 Literature and Justice (4) Examination of literary and autobiographical texts that raise questions of justice in multicultural societies; links to theories of justice in historical, political, or philosophical contexts.

COLT 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

COLT 391 Literary Criticism from Plato to Postmodernism (4) Survey of major texts in the literary criticism of the West from the Greeks to postmodern theories.

COLT 402 The Fantastic (4) Representative works from the “fantastic” and related currents within the European, U.S., and Spanish American traditions; reading of texts by authors such as Borges, Cortazar, Kafka, and Poe. Discussion of relevant theoretical concepts and critical works.

COLT 426 Utopias (4) Examination of selected utopias in their historical context as “no places” whose projections of alternate cultures always comment on their own.

COLT 435 Poetry and Poetics of the Everyday (4) Relations between poetry of the dominant tradition in various languages and vernacular forms of poetry, such as riddles, nursery rhymes, ballads, and poems in dialect or slang.

COLT 445 Europe and the Writing of Others (4) Analysis of European texts – literary, musical, philosophical, visual – that focus on other cultures, as well as non-European texts dealing with Europe or European cultural forms.

COLT 448 Multilingual Encounters (4) Exploration of multilingual encounters in literary works, films, and theoretical texts. Topics may include immigrant languages, dialects, jargons, imaginary or hybrid languages, theories of translation.

COLT 449 Dante (4) (Enroll in ITAL 450)

COLT 451 Opera and Cultural Theory (4) Study of the words and plots of operas from the viewpoint of gender, postcolonial, and psychoanalytical theory. Special attention to contemporary stagings and film versions.

COLT 452 Representation and Cognition in Photography (4) Analysis of documentary photo-representation in its historical context through study of the work of selected 20th century documentary photographers and of pertinent critical writings.

COLT 453 Bildungsroman in Modern East Asia (4, Sp) (Enroll in EALC 454)

COLT 454 Aesthetic Philosophy and Theory (4) Introduction to philosophical and critical writings on the nature of art and aesthetic experience. Special attention to technology’s impact on art.

COLT 460 Love, Self and Gender in Japanese Literature (4) (Enroll in EALC 460)

COLT 462 Soundtracks of Our Lives (4) The reciprocal, ideological relations between modes of listening, sounds, music; and literature, film, culture. Examines a range of issues in auditory culture across a broad historical span.

COLT 470 Literature and Media in Latin America (4) Study of the relations between Latin American literature and different mass-media genres.

COLT 471 Literature, Theory, History (4) Examines the relation between historical and theoretical approaches to literary works.

COLT 474 Desire, Literature, Technology (4) Relations between technology, desire, power and literature through contemporary philosophers, theorists and literary critics. Examines literature and philosophy in relation to global technological planning.

COLT 475 Politics and the Novel (4) Examination of the modern realist novel with special focus on the representation of social change (revolution, class conflict, sexual politics).

COLT 476 Family in Theory and Literature (4) Representations of the family in literary works and films across different cultures and historical periods. Readings in anthropology, philosophy, psychoanalysis, and feminist and gender theory.

COLT 480 Dada and Surrealism (4) A comparative study of Dada and Surrealism in literature in relation to painting, sculpture, photography and cinema.

COLT 485 The Shoah (Holocaust) in Literature and the Arts (4) A critical analysis, in their historical contexts, of representative literary, dramatic, musical and artistic works created by or about the victims of the Shoah (Holocaust).

COLT 486 Deconstructive Thought (4) Deconstructive analysis of theories of language, representation, selfhood, the human, art and technology, politics and ethics. Study of works by Derrida and others.

COLT 487 Critical Image (4) Introduction to critical reflection on the image. Analysis of criticism, fiction, film, and visual artifacts.
Comparative Studies in Literature and Culture

Taper Hall of Humanities 161
(213) 740-0102
FAX: (213) 740-8058
Email: kamuf@usc.edu

Chair: Peggy Kamuf, Ph.D.

Degree Programs

The Comparative Studies in Literature and Culture Department offers the M.A. and Ph.D. in three tracks: Comparative Media and Culture; Comparative Literature; and National Literatures and Cultures (French and Francophone Studies, Slavic Languages and Literatures, or Spanish and Latin American Studies).

Successful applicants will have: a B.A. in a relevant discipline; satisfactory scores in both the verbal and quantitative general test of the Graduate Record Examinations; satisfactory grades on undergraduate or previous M.A. course work and, if appropriate, a satisfactory score on the TOEFL examination; and advanced competence in relevant languages. Applications must also include a written statement indicating the applicant’s interests in the field and proposed areas of study; a sample of scholarly or critical writing on a relevant subject; and three letters of recommendation.

Although candidates are not admitted who wish to pursue solely the M.A., the degree may be awarded either as a terminal degree or as a transitional degree in the course of Ph.D. study.

Application deadline: December 1

General Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section on page 86 and the Graduate School section on page 97 of this catalogue for general regulations. To be applied toward the degrees, courses must be accepted by the Graduate School.

General Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section on page 86 and the Graduate School section on page 97 of this catalogue for general regulations. To be applied toward the degrees, courses must be accepted by the Graduate School.
Students may transfer up to 4 units toward the M.A. and 30 units toward the Ph.D.

For specific degree requirements in each track, see below.

**Track I: Comparative Media and Culture**
The primary goal of the track in comparative media and culture is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of the formal specificity and possibilities of different print, visual, sound and digital media; an understanding of the development of different media within their specific cultural and linguistic contexts; and a knowledge of the principles of criticism and theory essential to the analysis, interpretation and evaluation of individual works.

**Master of Arts, Comparative Studies in Literature and Culture (Comparative Media and Culture)**

**Course Requirements**
Completion of at least eight courses (29-32 units) distributed as follows: CSLC 501, CSLC 502 and CSLC 503; one course in a non-Anglophone literary or cultural tradition (CLAS, EALC, FREN, SLL, or SPAN); four additional courses in fields relating to the student’s program, of which at least two are in CSLC. No more than one of these eight courses may be in directed research (CSLC 590).

**First-Year Review**
The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

**Track I Field Examination**
A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which M.A. course work is completed.

**Doctor of Philosophy, Comparative Studies in Literature and Culture (Comparative Media and Culture)**

**Course Requirements**
In addition to the M.A. course requirements listed above, six additional 4-unit courses are required, distributed as follows: COLT 602, CSLC 601 or CSLC 603; two courses in non-Anglophone literary or cultural traditions; three additional courses in CSLC or in fields related to the study of media and culture. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (CSLC 590 or 790).

**Foreign Language Requirements**
Students must successfully complete at least three advanced courses (400-level or higher) in the original language of a tradition other than Anglophone.

**Track I Field Examination**
See the requirement in the M.A. section.

**Qualifying Examination**
To be admitted to candidacy for the Ph.D., students must pass this examination after all course work has been completed.

**Dissertation Defense**
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

**Awarding of Degree**
The degree of Ph.D. in Comparative Studies in Literature and Culture (Comparative Media and Culture) is conferred when all of the degree requirements have been completed satisfactorily.

**Track II: Comparative Literature**
The primary goal of graduate study in the comparative literature track is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of literature’s formal or generic development extending across linguistic boundaries; an understanding of literature’s historical development within a number of specific cultural or ideological contexts; and a knowledge of the principles of literary criticism and theory essential to the analysis, interpretation and evaluation of individual works. The core of the discipline of comparative literature is advanced competence in several languages allowing research in their literary traditions.

**Master of Arts, Comparative Studies in Literature and Culture (Comparative Literature)**

**Course Requirements**
Completion of at least eight courses (29-32 units) distributed as follows: CSLC 501, CSLC 502 and CSLC 503; three courses in a first literary tradition; two courses in a second literary tradition; one course in a third literary tradition; one course in a comparative field related but not central to the major literary tradition. Students will complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

**Track II Field Examination**
See the requirement in the M.A. section.

**Foreign Language Requirements**
Students must successfully complete at least three advanced courses (400-level or higher) in the original languages of two literary traditions other than Anglophone (two courses in one language and one in the other). Students will also complete a literary analysis exercise in their strongest non-native language outside their major literary tradition. This exercise is normally done in conjunction with the field examination.

**Comparative Field Exercise**
A 30-40 page paper with bibliography in a comparative field related but not central to the major literary tradition in which the student plans to write his or her dissertation is required.

**Qualifying Examination**
To be admitted to candidacy for the Ph.D., students must pass this examination after all course work has been completed.

**Dissertation Defense**
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

**Awarding of Degree**
The degree of Ph.D. in Comparative Studies in Literature and Culture (Comparative Literature) is conferred when all of the degree requirements have been completed satisfactorily.
Track III: National Literatures and Cultures
French and Francophone Studies

The majority of students pursue the doctorate in comparative studies in literature and culture (French and Francophone Studies) in preparation for a career of teaching and research at the college or university level in the field of French and Francophone literature and cultural studies. Students preparing for these careers must obtain a broad knowledge of major French and Francophone literary texts and traditions from the Middle Ages to the present, which is achieved through a combination of course work and exams. They should also develop the intellectual depth that allows them to produce an original dissertation in a timely manner.

Theme-year Curriculum

The curriculum in French rotates three year-long themes that represent the thought, literature and culture of France and the French-speaking world:

Rhetoriques (des Arts)/Rhetorics (of the Arts)

This theme year is devoted to the arts that have established and contested French and Francophone traditions: the art of writing in the French language since the chansons de geste and medieval romans up to the most innovative literary practices of the modern or postmodern age. The seminars also include study of artistic forms and practices other than the literary, such as the plastic or acoustic arts, and consider the relations between the arts and the state.

Révolutions/Revolutions

The term “Revolution” inhabits a turbulent and ambivalent space. Conjuring up first the cataclysmic upheavals of the 1789 Revolution followed by the 1830 and 1848 revolutions that transformed French society and ushered in the modern era, it also evokes other momentous revolutions in science, medicine and the arts. Seminars treat the theme of revolution as not strictly bounded by political and social concerns but as governing and pervading all facets of artistic, cultural and literary experiments.

Raison et Dérision/Reason and Unreason

This theme year probes the double logic of reason and unreason that plays an important role in the construction of social order(s), governs inquiry in epistemology and psychology, and directs literary and artistic creation. The year’s seminars examine theoretical texts in French that have also been of crucial significance for the redefinition of literary and cultural studies in the English-speaking academy, including Foucault’s studies of madness, discipline and sexuality and the French tradition of psychoanalysis, exemplified by the work of Lacan, or its contestation by Deleuze and Guattari. The theme includes the early modern, modern and postmodern periods in the writings of thinkers as diverse as Montaigne and Lévi-Strauss, Sade and Irigaray, Hugo and Derrida.

Master of Arts, Comparative Studies in Literature and Culture (French and Francophone Studies)

Course Requirements

Completion of at least 8 courses (29-32 units) distributed as follows: CSLC 501, CSLC 502 and CSLC 503; two of the theme-year core courses, FREN 500, FREN 502 or FREN 511; three additional courses in French or, with permission, in a related field. No more than two of the eight courses may be at the 400 level and no more than one course may be in directed research (590).

First-year Review

The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Track III Field Examination (French)

The exam consists of the oral defense of a paper developed in consultation with a faculty adviser. It is normally taken at the end of the semester in which M.A. course work is completed.

Doctor of Philosophy, Comparative Studies in Literature and Culture (French and Francophone Studies)

Course Requirements

In addition to the M.A. course requirements listed above, at least six additional 4-unit courses are required as follows: CSLC 603, and one additional course from the CSLC advanced seminar sequence (CSLC 601 or COLT 602); four additional courses in French or, with permission, courses in a related field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Language Requirement

The language requirement may be fulfilled either by successfully completing a course at the 400-level or above taught in a language other than French or English or by passing a reading examination in the relevant language. Students confer with the graduate adviser to decide which option is most appropriate. This requirement must be fulfilled at least 60 days before the qualifying examination.

Qualifying Examination

To be admitted to candidacy for the Ph.D., students must pass this examination after all course work has been completed.

Dissertation Defense

An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree

The degree of Ph.D. in Comparative Studies in Literature and Culture (French and Francophone Studies) is conferred when all of the degree requirements have been completed satisfactorily.

Slavic Languages and Literatures

The doctorate in Comparative Studies in Literature and Culture (Slavic Languages and Literatures) is designed to prepare students for a career of teaching and scholarship at the university level. It provides a thorough grounding in Russian literary and cultural history as well as with the theoretical perspectives current in the field. The linguistic component of the curriculum together with the experience as a teaching assistant in Russian language courses that many students gain also serves as preparation for positions involving language teaching. Depending on departmental offerings, further study in a second Slavic language and culture may also be possible.

Master of Arts, Comparative Studies in Literature and Culture (Slavic Languages and Literatures)

Course Requirements

Completion of at least eight courses (27-29 units) distributed as follows: CSLC 501, CSLC 502 and CSLC 503; at least five courses in SL/L, including, for non-native speakers of Russian, 8 units of SLL 500, and for all students SLL 501, SLL 516 and either SLL 530 or SLL 532. No more than one of the eight courses may be in directed research (590).

First-year Review

The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Language Requirements

Non-native speakers of Russian must successfully complete 8 units (4 semesters) of SLL 500 Topics in Advanced Russian and pass a proficiency exam in the language.
Track III Field Examination (Slavic)
A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which M.A. course work is completed.

Doctor of Philosophy, Comparative Studies in Literature and Culture (Slavic Languages and Literatures)
Course Requirements
In addition to the M.A. course requirements listed above, at least eight courses (26-29 units) are required distributed as follows: COLT 602, CSLC 601, or CSLC 603; SLL 510 or SLL 512, SLL 545, SLL 546 and SLL 555; two courses selected from SLL 650, SLL 660 and SLL 665; one additional course in SLL, CSLC or another relevant field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Qualifying Examination
To be admitted to candidacy for the Ph.D., students must pass this examination after all course work has been completed.

Dissertation Defense
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree
The degree of Ph.D. in Comparative Studies in Literature and Culture (Slavic Languages and Literatures) is conferred when all of the degree requirements have been completed satisfactorily.

Spanish and Latin American Studies
The Spanish and Latin American Studies track in comparative studies in literature and culture provides an optimal academic environment for students interested in advanced studies and research in Spanish and Latin American literature and culture studies. Students pursue a course of study designed to develop a broad knowledge of the subject matter within the framework of comparative studies as well as current developments in the field and are encouraged to devise individualized programs of specialization in keeping with the highest standards of scholarship.

Master of Arts, Comparative Studies in Literature and Culture (Spanish and Latin American Studies)
Course Requirements
Students are required to complete at least eight courses (32 units), distributed as follows: CSLC 501, CSLC 502 and CSLC 503; SPAN 501; four additional Spanish courses or, with permission, courses in a related field. Students specializing in the medieval and early modern periods are encouraged to take a course in the history of the Spanish language. No more than one of the eight courses may be in directed research (590).

First-year Review
The program conducts a thorough review of all first-year students at the end of the second semester. Students must receive a satisfactory evaluation to be permitted to continue to doctoral work.

Language Requirement
Reading knowledge of a language other than Spanish and English must be demonstrated either by successfully completing a course at the 400-level or above taught in the language or by passing a reading examination in the language. Students confer with the graduate adviser to decide which option is most appropriate.

Track III Field Examination (Spanish)
A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which M.A. course work is completed.

Doctor of Philosophy, Comparative Studies in Literature and Culture (Spanish and Latin American Studies)
Course Requirements
In addition to the M.A. course requirements listed above, six additional 4-unit courses are required distributed as follows: one of the following: COLT 602, CSLC 601 or CSLC 603; five additional courses in Spanish or, with permission, courses in a related field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Language Requirement
Reading knowledge of two languages in addition to Spanish and English must be demonstrated either by successfully completing a course at the 400-level or above taught in the languages or by passing a reading examination in the languages. Students confer with the graduate adviser to decide which option is most appropriate. This requirement must be fulfilled at least 60 days before the qualifying examination.

Qualifying Examination
To be admitted to candidacy for the Ph.D., students must pass this examination after all course work has been completed.

Dissertation Defense
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree
The degree of Ph.D. in Comparative Studies in Literature and Culture (Spanish and Latin American Studies) is conferred when all of the degree requirements have been completed satisfactorily.

Certificate in Foreign Language Teaching
This credential provides certification in the theory and practice of second or foreign language teaching for student language teachers concurrently enrolled in graduate degree programs in foreign languages or related graduate programs at USC; for graduates of such programs who are teaching languages; for external candidates concurrently enrolled in similar programs at accredited colleges or universities; or for graduates of such programs who are teaching languages. The certificate is meant to supplement graduate study in the literature or linguistics of foreign languages. It is also meant to supplement classroom teaching. Refer to the Department of Spanish and Portuguese for course work requirements.
Courses of Instruction

**COMPARATIVE STUDIES IN LITERATURE AND CULTURE (CSLC)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**CSC 501 Introduction to Comparative Media Studies (4)** Ways of thinking about the differences and relations among different cultural media: literature, film, video, manga/comics, “new media,” and so forth.

**CSC 502 Introduction to Literary Theory (4)** Major developments in 20th century literary criticism, with special attention to theoretical work of the past three decades. (Duplicates credit in former COLT 502.)

**CSC 503 Introduction to Comparative Studies in Culture (4)** Examines culture as an instrument of discursive practice that shapes social formations in Asia, Europe, North and Latin America.

**CSC 525 Studies in Literary and Cultural History (4, max 8) (Enroll in COLT 525)**

**CSC 545 Studies in Literature and the Other Arts (4, max 8) (Enroll in COLT 545)**

**CSC 555 Studies in Literatures of the Americas (4, max 8) (Enroll in COLT 555)**

**CSC 565 Studies in Literatures of Asia (4, max 8) (Enroll in COLT 565)**

**CSC 590 Directed Research (1-12)** Research leading to the master’s degree. Graded CR/NC. (Duplicates credit in former CSC 590.)

**CSC 600 Professional Development I: Preparation of book and article manuscripts for publication and placement in presses and journals; revising papers for conferences. Students produce an article manuscript ready for submission to a journal. Graded CR/NC.** Open only to doctoral students. (Duplicates credit in former CSC 603.)

**CSC 601 Seminar in Comparative Media Studies (4, max 12)** Intensive comparative study of visual and literary media.

**CSC 602 Seminar in Literary Theory (4, max 12) (Enroll in COLT 602)**

**CSC 603 Seminar in Comparative Studies in Culture (4, max 12)** Intensive study of intellectual and cultural history, with a focus on key literary and theoretical texts.

**CSC 620 Seminar in Literature, Culture, and Thought (4, max 12) (Enroll in COLT 620)**

**CSC 640 Seminar in Film and Visual Studies (4, max 12)** Intensive study of various types of discourse (film, photography, literature) and their intersection with wider social, political, and theoretical issues.

**CSC 700 Professional Development II: Applying for Positions (2, Fa)** Familiarizes students with the process of seeking an academic position, from assembling a dossier to interviews and on-campus visits. Graded CR/NC. (Duplicates credit in former CSC 600.)

**CSC 790 Research (1, max 12)** Research leading to the doctorate. Maximum units that may be applied to the degree to be determined by the department. Graded CR/NC.

**CSC 794abcdz Doctoral Dissertation (2-2-2-2-0)** Credit on acceptance of dissertation. Graded IP/CR/NC.

**Earth Sciences**

Zumberge Hall of Science 117

Chair: William M. Berelson, Ph.D.

Faculty

*University Professor and W.M. Keck Foundation Chair in Geological Sciences:* Thomas H. Jordan, Ph.D.

Wrigley Chair in Environmental Studies: Kenneth H. Nealon, Ph.D.

Wilford and Daris Zinsmeyer Early Career Chair in Marine Studies: A. Joshua West, Ph.D.

Professors: Jan Amend, Ph.D.; Yehuda Ben-Zion, Ph.D.; William M. Berelson, Ph.D.; David J. Bottjer, Ph.D.; Gregory A. Davis, Ph.D.*; James F. Dolan, Ph.D.*; Katrina Edwards, Ph.D. (Biological Sciences); Douglas E. Hammond, Ph.D.*; Terence G. Langdon, Ph.D., D.Sc. (Materials Science); Steven P. Lund, Ph.D.*; James Moffett, Ph.D. (Biological Sciences); Scott R. Paterson, Ph.D.; John P. Platt, Ph.D.*; Charles G. Sammis, Ph.D.*; Sergio Sanudo-Wilhemy, Ph.D. (Biological Sciences); Lowell D. Stott, Ph.D.

Associate Professors: Thorsten Becker, Ph.D.; Frank A. Corsetti, Ph.D.

Assistant Professors: Julien Emile-Geay, Ph.D.; Sarah J. Feakins, Ph.D.; Meghan Miller, Ph.D.

Professor (Research): Don Paul, Ph.D.

Associate Professors (Research): Yong-Gang Li, Ph.D.; David A. Okaya, Ph.D.; Ellen Platman, Ph.D.

Assistant Professor (Research): Jeremy Zechar, Ph.D.

Adjunct Professors: Luis Chiappe, Ph.D.; John Long, Ph.D.; Xiaoming Wang, Ph.D.

Adjunct Assistant Professors (Research): Andrea Donnellan, Ph.D.; Boris Kaus, Ph.D.; Valbone Memeti, Ph.D.; Maria Prokopenko, Ph.D.

Emeritus Professors: Robert G. Douglas, Ph.D.; Alfred G. Fischer, Ph.D.; Donn S. Gorsline, Ph.D.; Thomas L. Henyey, Ph.D.; Teh-Lung Ku, Ph.D.; Bernard W. Pipkin, Ph.D.*; Ta-liang Teng, Ph.D.

*Recipient of university-wide or college teaching award.
The Department of Earth Sciences includes a spectrum of disciplines focused on understanding the processes that influence the tectonics and environment of the planet, on using this understanding to read the record of earth history written in rocks and sediments, and on developing models that can be used to predict future changes due to natural phenomena and recent perturbations caused by humans. Issues of societal concern related to seismic risk, climate change, environmental contamination and other geologic hazards play an important role. Subdisciplines housed in the department include geophysics, geochemistry, geobiology, structural geology, petrology, marine geology, sedimentology, physical and chemical oceanography, climate science, paleoceanography and paleontology.

The department is committed to emphasizing both educational and research programs and views these efforts as complementary. Instruction is offered on several levels. These include introductory classes for non-science majors, undergraduate courses that are appropriate for undergraduates majoring in earth sciences or other science and engineering disciplines, and graduate classes appropriate for advanced degrees. A close working relationship exists between students and faculty members. Classes beyond the introductory level are usually small, permitting personalized instruction. Field trips are an important part of the instructional program.

Two research centers are affiliated with the department: the Southern California Earthquake Center and the Wrigley Institute of Environmental Studies. The graduate program is closely linked with these research efforts, and both graduate and undergraduate students participate in research projects. Collaboration in both research and teaching has led to ties with other programs, including the Department of Biological Sciences, the graduate program in Ocean Sciences and several departments in the USC Viterbi School of Engineering.

For students interested in pursuing careers in the earth and environmental sciences, the department offers B.A., B.S., M.S. and Ph.D. degrees. In addition, students may follow the concentration in climate, earth and environment offered by the Environmental Studies Program. Many graduates now hold positions in industry as environmental consultants or petroleum geologists, in government as managers or researchers, and in academia as faculty and researchers. The B.A. degree is recommended for students interested in the earth sciences but who intend to pursue careers in other fields, such as business, law or education.

Two minors are available. The geohazards minor is recommended for those who wish to broaden their background in natural hazards, global change or environmental problems. It is accessible to both non-science and science majors. The geobiology minor is recommended for those interested in interdisciplinary work in earth and biological sciences.

The Los Angeles and Southern California areas have a diverse geology, enabling students to gain broad, first-hand knowledge of geological processes. The department conducts field trips to study Southern California geology, and has access to oceanographic vessels for marine research. Many state-of-the-art laboratory instruments are available for use in research and instruction.

Proof of health insurance is mandatory when participation in field trips is required for credit in any earth sciences class.

Honor Society
The Department of Earth Sciences has one honor society: the Omega Chapter of Sigma Gamma Epsilon, the national honorary earth sciences fraternity. “Sig Gam” is an undergraduate organization which sponsors undergraduate activities within the department.

The department offers an honors program for students pursuing either a B.S. or a B.A. in Earth Sciences. Students wishing to participate in this program must complete GEOL 494x Senior Thesis. Honors will be awarded upon successful completion of the thesis and attainment of an overall GPA of 3.0 and a GPA of 3.5 in courses in the major.

**Grade Point Average in Major Subject**
A grade of C or higher is required in each course in the earth sciences courses used to complete the department or physical sciences major.

*Upper division courses must be applicable to majors in their respective departments.

**Minor in Geobiology**
The minor in geobiology is designed to allow students majoring in biology to incorporate interdisciplinary courses in earth sciences into their program or to allow students majoring in geology to incorporate interdisciplinary courses in biology into their program. This field represents the intersection of what have been traditional disciplines and is valuable for understanding evolution, environmental contaminant behavior and ocean sciences. Students with majors offered by biological or earth or geological sciences will be able to complete this minor with 16 to 24 units of course work beyond their major requirements. Other students may need to complete up to 48 units of course work beyond their major requirements. For example, students majoring in biological sciences might take an introductory GEOL course; GEOL 315L; GEOL 433L or BISC 483; and two additional upper-division elective courses from the list below. Students majoring in earth or geological sciences must take BISC 120L and BISC 220L; GEOL 433L or BISC 483; and three additional elective courses. Courses selected must include at least 16 units unique to the minor and at least 16 units in a department outside the major.

*Upper division courses must be applicable to majors in their respective departments.*
**Graduate Degrees**

The department prepares professional earth scientists for careers in academia, government and industry. A wide range of specializations is offered in the department including sedimentary geology; paleobiology, palaeoecology, palaeoecology, palaeontology, palaeoceanography, geochemistry, geobiology, geophysics, geodesy, seismology, engineering geology and geotechnics, structural geology and tectonics, and interdisciplinary options. Degrees in ocean sciences (through the Graduate Program in Ocean Sciences) are available; see page 419.

**Admission Requirements**

**Prerequisites**

An applicant for admission should have the equivalent of the courses in earth sciences, chemistry, mathematics, and physics required for the B.S. degree in geological sciences. Applicants with an undergraduate degree in science or engineering who lack required earth sciences courses will also be given consideration.

**Criteria**

The Department of Earth Sciences requires the following evidence for admission to its doctoral program: strong undergraduate background and a superior academic record as documented by GPAs in undergraduate and any completed graduate work, Graduate Record Examinations scores no more than five years old in the verbal and quantitative General Test, and at least three letters of recommendation from undergraduate and, if applicable, graduate advisers and professors. The number of students accepted in any one year depends on available space in the department and acceptance for advisement by one or more professors.

Funding is offered for M.S. degrees only when completed en route to the pursuit of a Ph.D. degree.

**Procedure**

The online USC graduate admissions application will refer applicants to a required supplemental departmental application. The department admits students for both the fall and spring semesters; however, applicants for assistantships and fellowships are encouraged to apply for the fall semester.

**Degree Requirements**

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

**Master of Science in Geological Sciences**

**Foreign Language/Research Tool Requirements**

There is no language or research tool requirement for the master's degree.
Course Requirements
The M.S. degree in geological sciences requires 24 units of course work plus at least four thesis units. These restrictions apply: at least 16 units must be 500 level or higher; no more than eight units can be 590 Directed Research; and a maximum of four units, with superior grades, can be transferred from an accredited graduate school. Students are required to have an overall GPA of at least 3.0 (A = 4.0) in all graduate work. Students are also required to attend a series of departmental seminars.

Thesis
Students should arrange for the appointment of a thesis adviser and committee after the first semester, or, at the latest, after the first year of graduate work. The thesis committee should consist of the adviser plus two other faculty members, all of whom are generally selected from the department faculty. Once the committee is arranged, the student may make formal application to the Graduate School for the M.S. degree.

Doctor of Philosophy in Geological Sciences
Application deadline: January 1

Course Requirements
For students who have earned a master’s degree, the minimum number of course credits required for the Ph.D. is 40 units. No more than four of these units may be earned in 794 Doctoral Dissertation. For students who have not earned a master’s degree, the minimum number of course credits required is 60 units, including a maximum of eight units of 794 Doctoral Dissertation. The guidance committee may require additional course work to insure a sufficient background in the student’s area of specialization. At least two-thirds of the number of units presented for the degree must be 500 level or higher. Although the official minimum GPA for all graduate work attempted at USC is 3.0, the department does not consider a doctoral candidate in good standing unless the graduate GPA is considerably higher than the minimum (approximately 3.25 or above in graduate courses taken within the department).

Screening Procedure
Students in the Ph.D. program must pass the screening procedure before their 25th unit of graduate credit. Screening consists of a review of the student’s progress and is usually done by the chair following a written recommendation by the student’s adviser(s).

Guidance Committee
The doctoral guidance committee is formed after the student has passed the screening procedure. The committee is appointed by the department with the advice of the student’s research adviser. The five-member committee consists of the adviser, a minimum of three other members from the Department of Earth Sciences, and one from outside the department. The committee consults with the student, recommends an appropriate program of study and administers the written and oral qualifying examinations.

Qualifying Examination
This examination consists of two parts, one written and the other oral. The written exam, which precedes the oral, includes questions submitted by committee members on current geological problems and theory. The oral portion of the exam consists of the defense of two propositions written by the candidate prior to the oral exam. In addition, general questions are posed to test the student’s breadth of scientific and earth science background.

The student’s performance is evaluated by the guidance committee, with a pass based on not more than one negative vote or abstention. Those who intend to take the exam must meet all the conditions specified in the section on general requirements for the Ph.D.

Defense of the Dissertation
When the candidate has passed the qualifying examination, a dissertation committee replaces the guidance committee. The latter is appointed by the adviser and guidance committee in conjunction with the student. The dissertation committee administers the final defense of the dissertation.

The defense takes place after the dissertation is substantially complete, and upon unanimous approval by the dissertation committee. It is conducted in the form of an open departmental seminar, but is evaluated by the dissertation committee alone.

Interdisciplinary Programs
Interdisciplinary programs can be arranged for students also interested in astronomy, bioscience, chemistry, engineering, oceanography and physics. The Department of Earth Sciences maintains laboratories for micropaleontologic, paleobiologic, mineralogic, petrologic, geophysical, geochemical and oceanographic research, and collections are available for comparative work in invertebrate paleontology. Students interested in systematic studies will find a wealth of material, available for comparative purposes, in the adjacent Los Angeles County Museum. Facilities for research in sedimentation, oceanography, and marine geology are provided in the department and by the university’s research fleet.

Courses of Instruction

EARTH SCIENCES (GEOL)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

GEOL 105Lg Planet Earth (4, FaSpSm) Geologic structure and evolution of planet earth. Principles of plate tectonics, rocks and minerals, processes of mountain building, continent and ocean formation, earthquakes, volcanism, development of landforms by running water and glaciers. Lecture, 3 hours; laboratory, 2 hours. One all-day or two-day field trip required.

GEOL 107Lg Oceanography (4, FaSp) Physical, chemical, and geological character of the oceans and ocean basins. Origin of the oceans. Ocean processes and agents. Economic value of the oceans. Lecture, 3 hours; laboratory, 2 hours. One all-day field trip required.

GEOL 108Lg Crises of a Planet (4, FaSpSm) Impact of civilization on planet earth, and impact of earth’s natural evolution on society: earthquakes, volcanism, landslides, floods, global warming, acid rain, groundwater depletion and pollution; mineral and fossil fuel depletion, formation of the ozone hole. Lecture, 3 hours; laboratory, 2 hours. One all-day or overnight field trip.

GEOL 125Lg Earth History: A Planet and Its Evolution (4, FaSpSm) Basic principles of physics, chemistry, biology, and mathematics used in evaluating clues written in the rock record, and the processes that have shaped our planet. Lecture, 3 hours; laboratory, 2 hours. At least one field trip required.

GEOL 130Lg The Nature of Scientific Inquiry (4, FaSp) Examination of the scientific process: what constitutes science; evolution of ideas about the nature of space, time, matter, and complexity; paradigm shifts in the biological and earth sciences. Lecture, 3 hours; laboratory, 2 hours.
GEOL 150LG Climate Change (4, FaSp)
Climate systems from the beginning of earth history to the present; tools and techniques used to reconstruct prehistoric climate records; effects of climate variations on development of life forms on earth.

GEOL 160LG Introduction to Geosystems (4, FaSpSm)
Survey of natural geological/environmental processes (systems) and variability active near the earth's surface in the region that houses most life (the biosphere). Open only to environmental studies majors and minors. Corequisite: ENST 100.

GEOL 240LG Earthquakes (4, FaSpSm)
Causes of earthquakes and nature of large faults; earthquake hazard and risk; world's great earthquakes; understanding the Richter scale. Lecture, 3 hours; laboratory, 2 hours; one field trip required. Concurrent enrollment: MDA 140.

GEOL 290LG Special Laboratory (1, FaSp)
Laboratory component for GEOL 105L, GEOL 107L, GEOL 108L, GEOL 125L, GEOL 130L, GEOL 150L, or GEOL 240L for students with equivalent lecture credit from another institution.

GEOL 305Lx Introduction to Engineering Geology (4, Sp)
Principles of geology with emphasis on stratigraphy, structural geology and degradational processes; basic geologic considerations in civil engineering practice; introduction to mineralogy and petrology. Field trip required. Lecture, 3 hours; laboratory, 3 hours. Not available for major credit to earth or geological sciences majors.

GEOL 315LG Minerals and Earth Systems (4, Fa)
Minerals and their formation in Earth geosystems; includes discussions of mineral properties, crystal structures, uses and biogeochanical importance. Lecture, 3 hours; laboratory, 6 hours; required field trips. Corequisite: CHEM 105L or CHEM 115L; recommended preparation: any introductory GEOL course.

GEOL 316LG Petrologic Systems (4, Sp)
Formation and identification of igneous, metamorphic and sedimentary rocks; interpretation of tectonic and environmental settings based on rock type and chemistry. Lecture, 3 hours; laboratory, 6 hours; required field trips. Prerequisite: GEOL 315L.

GEOL 320LG Surficial Processes and Stratigraphic Systems (4, Fa)
Processes of erosion, sediment transport, and deposition that shape the land surface; landscape response to tectonism; recognition and interpretation of depositional environments in the stratigraphic record. (Duplicates credit in former GEOL 334L, GEOL 451L.) Corequisite: GEOL 315L.

GEOL 321LG Structural Geology and Tectonics (4, Sp)
Field and theoretical aspects of rock deformation, analysis of structural systems, and stress and strain; orogenic belts and plate tectonics; introduction to field techniques and construction of geologic maps. Recommended preparation: GEOL 320L.

GEOL 387abc Undergraduate Team Research (a: 2, Sp; b: 2, max 4, Sm; c: 2, max 4, Fa)
a. Introduction to scientific inquiry, field research opportunities, and history of physical sciences; strategies, research methodologies, and writing skills for proposals, abstracts, papers, and professional development. Duplicates credit in the former GEOL 385. Recommended preparation: A GE course in Earth Science.
b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists.

GEOL 390 Special Problems (1-4)
Supervised individual studies. No more than one registration permitted. Enrollment by petition only.

GEOL 412L Oceans, Climate, and the Environment (4, max 8, SpSm)
Survey of physical, chemical, and geological oceanography emphasizing the role of the oceans in modulation of climate, atmospheric composition and biogeochemical cycles; paleoceanography and paleoclimate. Corequisite: CHEM 105L, MATH 126; recommended preparation: PHYS 151L or PHYS 135abL.

GEOL 425L Data Analysis in the Earth and Environmental Sciences (4, Fa)
Introduction to mathematical methods giving insight into earth and environmental data. Topics include probability and statistics, timeseries analysis, spectral analysis, inverse theory, interpolation. Recommended preparation: MATH 126, familiarity with matrix algebra.

GEOL 427 The Global Environment (4, Sp)
(Enroll in BISC 427)

GEOL 433L Paleontology and Evolution in Deep Time (4, Fa)
Origin and evolution of life; Precambrian life; evolutionary history of major groups during the Phanerozoic; mass extinctions; deep time and evolutionary processes. Lecture, 3 hours; laboratory, 3 hours; required field trips. Recommended preparation: any introductory GEOL course.

GEOL 440L Geophysics and Geoengineering (4, Sp)
Plate tectonics, magnetic and gravity fields, earthquakes, seismic waves, reflection and refraction seismics, heat transport, mantle convection, deep Earth structure, data analysis. Includes field trip. Prerequisite: MATH 126; corequisite: PHYS 135bL or PHYS 152L.

GEOL 441L Seismic Exploration Geophysics (4, FaSp)
Seismic wave theory, ray theory, reflection, refraction, data processing, signal enhancement, field instrumentation and techniques on land and at sea; geological interpretation of seismic data. One field trip.

GEOL 445L Earth Climate: Past, Present, and Future (4) (Enroll in ENST 445)

GEOL 450LG Geosystems (4, Fa)
Geosystems, such as mantle convection, active faults, climate, and the carbon cycle, will be studied using numerical models and concepts such as chaos, universality, emergence, and intermittency. Lecture, 3 hours; laboratory, 2 hours. Prerequisite: MATH 125; recommended preparation: MATH 126.

GEOL 460LG Geochemistry (4, Fa)
Composition, origin, and evolution of the earth; principles of physical chemistry applied to aqueous systems; reaction-diffusion modeling and problems in sedimentary geochemistry; global (biogeochemical cycles and environmental problems. Lecture, 3 hours; laboratory/discussion, 2 hours. Prerequisite: CHEM 105L or CHEM 115L and MATH 126.

GEOL 465LG Field Geology (4, max 8, SpSm)
Ten days to four weeks of field study in an area of geological complexity, with preparatory instruction. Recommended preparation: introductory earth science course, e.g., GEOL 105L, GEOL 315L. One or more of GEOL 316L, GEOL 320L.

GEOL 470LG Environmental Hydrogeology (4, FaSpSm)
Concepts in hydrogeology and application to environmental problems. Topics include groundwater and surface water hydrology, chemistry, and contamination. Includes labs, guest lectures, and field trips. Recommended preparation: GEOL 105L, GEOL 160L.

GEOL 474LG Ecosystem Function and Earth Systems (4) (Enroll in BISC 474L)

GEOL 483LG Geobiology and Astrobiology (4)
(Enroll in BISC 483)

GEOL 490LG Directed Research (2-8, max 8)
Individual research and readings. Not available for graduate credit.

GEOL 494X Senior Thesis (2, FaSp)
Writing of a thesis under individual faculty supervision. Not available for graduate credit.

GEOL 499X Special Topics (2-4, max 8)
Special topics in the earth sciences. Field trip required when appropriate to the topic.
GEOL 500 Marine Paleocology (3, 2 years, Sp) Principles of marine paleocology; interrelationships between marine organisms and their environment in geologic time. Prerequisite: GEOL 433L; recommended preparation: GEOL 571L.

GEOL 505 Introductory Graduate Seminar in Earth Sciences (2, Fa) Lectures by Earth Sciences faculty about current research; introduction of new graduate students to the breadth of current research; applying for research funding; practicing effective research presentations. Graded CR/NC. Open only to Geological sciences and ocean sciences master’s and doctoral students.

GEOL 510L Advanced Stratigraphic Field Methods (3) Stratigraphic field methods and computer-assisted data analysis. Field trips incorporating vertical and lateral facies analysis; collection of paleocurrent, fabric, palaeomagnetic, photogeologic and compaction data. Lecture, 2 hours; laboratory, 2 hours; field trips. Prerequisite: GEOL 320L.

GEOL 511L Depositional Systems (3) Analysis of depositional systems, including conceptual methods of lithostratigraphy, biostratigraphy, chronostratigraphy, and paleoecology; description of major depositional environments. Lecture, 2 hours; laboratory, 2 hours.

GEOL 512 Introduction to Chemical and Physical Oceanography (3, Fa) (Enroll in OS 512)

GEOL 514 Marine Geology (3, Fa) Origin and characteristics of ocean basins; marine sedimentary environments; shoreline classification and character; evolution of oceanic features. Lecture, 3 hours; research conference, 1 hour.

GEOL 515 Introduction to Atmospheric Science (3, Fa) Elementary physical principles underlying the behavior of Earth’s atmosphere. Dry and moist thermodynamics, radiative transfer, conservation laws, fundamental dynamical balances, instability theory, cloud physics. Recommended preparation: PHYS 161L, PHYS 304.

GEOL 520 Ichnology (3, 2 years, Fa) Ancient and recent borings and bioturbation structures and their utilization in stratigraphic, paleoenvironmental, paleoecological, sedimentological, and geochemical studies. Recommended preparation: GEOL 320L and GEOL 433L.

GEOL 521L Advanced Structural Geology (3, FaSp) Advanced field and theoretical aspects of rock deformation, strain and stress analyses, and evolution of structural systems. Includes labs, field trips, and class project.

GEOL 525 The Science of Climate Change (4, Sp) Introduction to the fundamental aspects and the factors that influence ocean and atmospheric behavior, and how the earth’s climate has varied in the past.

GEOL 530 Modern Perspectives on Crustal Dynamics (3, 2 years, Sp) Deformation mechanisms, strength and structure of the crust. Fractal scaling in structures and dynamic processes. Geodetic measurement of crustal deformation and spatio-temporal patterns of seismicity.

GEOL 531 Plate Interactions: Geological Aspects (3, 2 years, Sp) Principles and geometries of plate tectonics; geologic characteristics of modern plate boundaries of divergent, convergent, transform type; ocean basin and orogen development from worldwide examples. Field trip.

GEOL 532 Advanced Geologic Mapping (3, Fa) Principles of mapping geologically complex terranes of different structural style. Fieldwork will be coordinated with seminar review of diverse structural phenomena. Field trips. Recommended preparation: GEOL 321L, GEOL 465L.

GEOL 533 Structural Evolution of Arcs (3, 3 years, Fa) Examination of the physical characteristics of arcs, particularly structural behavior at different crustal levels. Structural and thermal evolution of magma-country rock systems including pluton emplacement processes. Field trip. Recommended preparation: GEOL 316L, GEOL 321L.

GEOL 534L Mechanics of Lithospheric Deformation (3, Fa) The mechanical description of deformatonal processes at both crustal and lithospheric scales, and the interpretation of geological and geophysical data in terms of these processes.

GEOL 535L Microstructures and Deformation Mechanisms (3, 3 years, Fa) Examination of deformation mechanisms and resulting microstructures in rocks; chemical and textural equilibrium; physical and chemical processes during fluid flow; prophyllolast-matrix relationships; interpretation of kinematic indicators. Laboratory. Prerequisite: GEOL 321L.

GEOL 536 Principles of Geomagnetism and Paleomagnetism (3, 2 years, Sp) Historic geomagnetic field behavior, secular variation, rock magnetism, palaeomagnetic techniques, magnetic polarity time scale, apparent-polar-wander paths, and applications to stratigraphic and geotectonic studies. Recommended preparation: GEOL 440.

GEOL 537 Rock Mechanics (3, 2 years, Sp) Elasticity, fracture, and flow properties of rocks and minerals; effects of temperature, pressure, petrology, fractures, and interstitial fluids. Experimental techniques and geological applications.

GEOL 538 Tectonic Evolution of Western North America (3, 2 years, Sp) Geosynclinal and orogenic development of western North America from the Precambrian to present, in the light of plate tectonics concepts. Field trips. Recommended preparation: GEOL 321L.

GEOL 540 Geodynamics (3, 2 years, Fa) Applications of continuum physics to geological problems; fundamental physical processes necessary for an understanding of plate tectonics; quantitative analysis of geological problems stressed. Recommended preparation: GEOL 440.

GEOL 550 Chemical Equilibrium and Disequilibrium in Geology (3, 2 years, Sp) Phase equilibria; phase diagrams; thermodynamics of aqueous and solid solutions; irreversible thermodynamics; kinetics, diffusion, and metasomatism, with applications to problems in petrology and geochemistry. Prerequisite: GEOL 460L.

GEOL 551 Introduction to Seismology (3, 2 years, Fa) Basic elements of seismology for the study of the earth’s interior and the tectonic process, utilizing observations of seismic waves.

GEOL 552 Advanced Seismology (3) Advanced methods of theoretical seismology for studying the generation of seismic waves from natural and artificial sources and the propagation through realistic earth models. Prerequisite: GEOL 551.

GEOL 553 Physics of Earthquakes (3, 2 years, Fa) Basic physics of earthquakes and seismicity. Continuum elasticity; fracture mechanics; laboratory friction; damage rheology; physics of critical phenomena; spatio-temporal seismicity patterns; analysis of complex data sets. Recommended preparation: GEOL 537 and/or GEOL 551.
GEOL 555 Paleooceanography (3) Mesozoic and Cenozoic paleooceanography; analytical approaches applied to water mass history, paleocirculation, paleoproductivity, nutrient cycling, and paleotemperature reconstruction. Lecture, readings, and research project. Recommended preparation: GEOL 412 or GEOL 512 and GEOL 460L.

GEOL 556 Active Tectonics (3, Sp) Aspects of deformation and associated seismicity at active plate margins around the world. Includes review of plate tectonics, seismology, geodesy, paleomagnetism, geodynamics, Quaternary dating techniques, tectonic geomorphology, paleoseismology, and seismic hazard assessment. Two weekend field trips required. Recommended preparation: GEOL 530, GEOL 531; prerequisite: GEOL 321L.

GEOL 558L Metamorphic Petrology (3, 2 years, Fa) An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Lecture, 2-4 hours; laboratory to be arranged.

GEOL 559L Igneous Petrology (3, 2 years, Fa) Study of igneous and meta-igneous rocks from the basis of experimental and field data and theoretical considerations. Lecture, 2-4 hours, laboratory to be arranged.

GEOL 560 Marine Geochemistry (3, 2 years, Sp) Principles of chemical sedimentology and aquatic chemistry; diageneric authigenesis, and the geochemical cycle. Prerequisite: GEOL 460L.

GEOL 561 Stable Isotope Geochemistry (3) Theoretical basis: nuclide nomenclature, partition function ratio, mechanisms and rates of isotopic exchange; mass spectrometry and extraction techniques; application of stable isotopes to geologic problems.

GEOL 562L Metamorphic Petrology (3, 2 years, Fa) An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Lecture, 2-4 hours; laboratory to be arranged.

GEOL 567 Stable Isotope Geochemistry (3) Theoretical basis: nuclide nomenclature, partition function ratios, mechanisms and rates of isotopic exchange; mass spectrometry and extraction techniques; application of stable isotopes to geologic problems.

GEOL 568L Metamorphic Petrology (3, 2 years, Fa) An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Lecture, 2-4 hours; laboratory to be arranged.

GEOL 569L Igneous Petrology (3, 2 years, Fa) Study of igneous and meta-igneous rocks from the basis of experimental and field data and theoretical considerations. Lecture, 2-4 hours, laboratory to be arranged.

GEOL 570 Organic Geochemistry (3, Sp) Advanced course on the fundamentals and frontiers of organic geochemistry. Topics include biomarker and isotopic approaches to reconstructing past marine, terrestrial environmental change. Recommended preparation: CHEM 105abL, CHEM 322abL, GEOL 150L, GEOL 412, or equivalent background.

GEOL 575 Organic Geochemistry (3, Sp) Advanced course on the fundamentals and frontiers of organic geochemistry. Topics include biomarker and isotopic approaches to reconstructing past marine, terrestrial environmental change. Recommended preparation: CHEM 105abL, CHEM 322abL, GEOL 150L, GEOL 412, or equivalent background.

GEOL 576L Organic Geochemistry (3, Fa) Advanced course on the fundamentals and frontiers of organic geochemistry. Topics include biomarker and isotopic approaches to reconstructing past marine, terrestrial environmental change. Recommended preparation: CHEM 105abL, CHEM 322abL, GEOL 150L, GEOL 412, or equivalent background.

GEOL 577L Micropaleontology (3, 2 years, Fa) Microscopic fossils, especially foraminifera, their classification, the common genera, morphology, evolutionary trends; laboratory and field techniques. Lecture, 2 hours; laboratory and fieldwork, 6 hours. Recommended preparation: GEOL 433L.

GEOL 578L Quantitative Analysis for Biological and Earth Sciences (4, Sp) (Enroll in BISC 588L.)

GEOL 580 Directed Research (1-12) Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

GEOL 581 Seminar in Sedimentary Geology (1-3, max 6, Sp) Analysis and discussion of current topics in sedimentary geology; topics will be chosen by students and faculty to focus on areas of recent advances.

GEOL 582 Seminar in Earthquake Physics (2, max 6, FaSp) Current research on the physics governing earthquakes and faults, including results from continuum and fracture mechanics, statistical physics, lab experiments, and seismological observations.

GEOL 583 Recent Advances in Paleontology (3) Selected review of recent ideas in paleobiology, evolution, and paleoecology related to examining the current frontiers in paleontology.

GEOL 585 Directed Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

East Asian Area Studies
Adjoint Assistant Professor: Miya Mizuta Lippit, Ph.D.

Adjoint Professor: Steven Lee, Ph.D. (Director USC Korea International Office)

Librarians: Tomoko Bialock (Japanese Studies Librarian); Joy Kim (Curator, Korean Heritage Library); Kenneth Klein (Head, East Asian Library); Sun-Yoon Lee (Korean Studies Librarian); Lillian Yang (Chinese Librarian)

Emeritus Professors: Gordon Berger (History); Peter A. Berton (International Relations); Roger Dingman (History); Murray Fromson (Journalism); Charlotte Furth (History); William Rideout (Education); Otto Schnepp (Chemistry); John E. Wills Jr. (History)

Associated Faculty
Professors: Jonathan Aronson (Communication and International Relations); Philip Birnbaum-More (Management and Organization); Baizhu Chen (Finance and Business Economics); Iris Chi (Social Work, Gerontology); Eugene Cooper (Anthropology); Robert Dekle (Economics); JoAnn Marie Farver (Psychology); Eric Heikila (Public Policy); Velina Hasu Houston (Theater); David James (Cinematic Arts); Douglas Joines (Finance and Business Economics); David Kang (International Relations, Business); Dorinne Kondo (Anthropology, American Studies and Ethnicity); Thomas W. Lin (Accounting); Roger Moon (Economics); Jeffrey B. Nugent (Economics, Business); C.W. Park (Business); Nandini Rajagopalan (Management and Organization); Harry Richardson (Public Policy); Stanley Rosen (Political Science); Ellen Sciter (Cinematic Arts); Jean Shih (Pharmacology and Pharmaceutical Sciences); Merrill Silverstein (Gerontology, Social Work); James Steele (Architecture); John Strauss (Economics); Guofu Tan (Economics); Shui Yan Tang (Public Policy); Yan Xiao (Engineering)

Associate Professors: Harrison Cheng (Economics); Meiling Cheng (Theatre, Critical Studies, English); Ruth Gim Chung (Education); Yasushi Hamao (Finance and Business Economics); Mingyi Hung (Accounting); Kyung Moon Hwang (History); Jacques Hyman (International Relations); Saori Katada (International Relations); Len Kurushima (History, American Studies and Ethnicity); Sonya Lee (Art History, East Asian Languages and Cultures); Kwanmin Lee (Communication); Andrew Lib (Journalism); Daniel Lynch (International Relations); Lawrence Pryor (Communication); Gary Seaman (Anthropology); Brett Sheehan (History); Jay Wang (Communication); Shing-Wu Wang (Accounting); Duncan Williams (Religion)

Assistant Professors: Robeson Taj Frazier (Communication); Clinton Godart (History); Yu Hong (Communication)

Adjunct and Visiting Faculty: Richard Drobnick (Research Professor, Management and Organization; Director, CIBEAR); Carsten Holz (Visiting Associate Professor, Economics); Jack Lewis (Associate Dean, IEIM MBA and International MBA Alumni Outreach); Jehoon Lee (Research Associate Professor, Social Work; Director, Center for Asian Pacific Leadership); Jing Li (Assistant Director; APRISE); Qingyun Ma (Dean, Architecture); Paul Tang (Adjunct Associate Professor, Architecture); Geoffrey Wiseman (Professor of the Practice, International Relations and Public Diplomacy)

Undergraduate Degrees

B.A. in East Asian Area Studies

Requirements for the lower division are: EALC 110 and EASC 150 or the equivalent; a minimum of four courses in one East Asian language (or the proficiency equivalent); and seven upper division courses approved for the major in addition to the language courses used to meet the requirements. One lower division course other than EALC 110 and EASC 150 may be substituted for one of the seven upper division courses. Upper division courses must include those from at least three departments, one of which must be History. At least one course must be taken on two of the following: China, Japan or Korea.

B.S., Business Administration (East Asian Studies)

Business and East Asia is a joint program consisting of courses offered by both the Marshall School of Business and the East Asian Studies Center. Students successfully completing the program receive a Bachelor of Science in Business Administration with an emphasis in East Asian Studies. The program is offered to freshmen admitted to the Marshall School of Business Freshman Leadership Program. See the Marshall School of Business section of this catalogue (page 146) for requirements.

Requirements for the Minor in East Asian Area Studies

The minor in East Asian Area Studies gives students the opportunity to supplement more narrowly defined departmental majors with a multidisciplinary focus on an area of increasingly great importance to our nation in general and our region in particular. There is no language requirement.
Twenty-four units are required from among the more than 120 courses offered on East Asia at the university. Students are required to take EALC 110 and EASC 150; and at least four upper-division four-unit courses (16 units). At least one of these courses must be from the History Department and one from the humanities area. At least one course must be taken on two of the following: China, Japan or Korea.

Minor in Korean Studies
The minor in Korean studies offers an interdisciplinary approach to studying a dynamic and crucial region. Drawing on courses from departments across the social sciences, humanities and professional schools, the minor challenges and stimulates students who wish to learn about the political, economic, social and cultural changes of the area.

Graduate Degrees

Master of Arts
The East Asian Studies Center offers an interdisciplinary master’s degree in East Asian Area Studies. The program provides a wide range of language, cultural, social, historical, political and economic courses and faculty expertise; individual courses of study may be designed to meet both continuing academic and professional objectives. Students may concentrate primarily on one country (China, Japan, Korea) or develop region-wide expertise through a combination of course work and the thesis project.

Admission Requirements
Prerequisites
While an applicant for admission will normally have significant experience in East Asian language(s) and area studies as demonstrated through course work completed for the undergraduate degree, programs may be arranged for promising students without prior experience in East Asian studies. There is no formal language requirement for admission.

Criteria
The student should have an undergraduate record satisfactory to the center. Three letters of recommendation from professors familiar with the applicant’s academic performance should be sent to the center director. All applicants are required to take the verbal and quantitative general tests of the Graduate Record Examinations.

Degree Requirements
This degree is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degree must be courses acceptable to the Graduate School.

Foreign Language Requirement
Students must be able to demonstrate oral and written proficiency in Chinese, Korean or Japanese through the third year level (equivalent to six semesters) before the M.A. program is completed.

Course and Thesis Requirements
Six courses (24 units), four of which must be at the 500 level or above, plus the thesis (4 units) are required. All students must complete: (1) EASC 592; (2) EALC 531, EALC 532 or EALC 533; and (3) one other course from a Dornsife College of Letters, Arts and Sciences department. The three additional courses (12 units) may be taken from college departments or professional schools. All courses may be approved by the center director or adviser. A maximum of two courses at the 400 level may be counted toward the degree. All students must register for EASC 594ab Master’s Thesis for the thesis project.

Master of Arts/Master of Business Administration
The Marshall School of Business in conjunction with the East Asian Studies Center offers a joint M.A./MBA degree that combines graduate business education with training in the cultures and societies of East Asia. Students enrolled in the joint degree program are required to complete a minimum of 72 units. All students must complete 48 units in the Marshall School of Business. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. In East Asian Area Studies, students have the option of taking five courses and writing a thesis (for a total of 24 units) or taking six courses and passing a comprehensive examination (for a total of 24 units).

Applicants for the joint M.A./MBA are required to follow the admission procedures for the full-time MBA program described on page 159. GRE scores are not required for admission into the joint program.

| **HIST 535** Studies in Japanese History | 4 | 
| **HIST 536** Studies in Chinese History | 2 or 4 | 

**Elective Courses (Thesis Option)**

During the second and third years of the program students must complete enough graduate units to bring the total number of units completed in the Marshall School of Business to 48, complete 12 units of East Asian Area Studies elective courses (three courses), and complete a four-unit thesis under the guidance of a faculty committee of three members. The subject will concern East Asia and may focus on business/finance.

**Elective Courses (Comprehensive Examination Option)**

During the second and third years of the program students must complete enough graduate units to bring the total number of units completed in the Marshall School of Business to 48, complete 16 units of East Asian Area Studies elective courses (four courses) and must pass a comprehensive examination in East Asian Area Studies.

**Foreign Language Requirement**

Students must be able to demonstrate oral and written proficiency in Chinese, Japanese or Korean language through the third year level (equivalent to six semesters) before the joint M.A./MBA program is completed. Language course work taken to meet this requirement will not count toward the minimum unit or course requirements for completion of the degree program. Therefore, students without sufficient undergraduate language course work, native speaker capability or other prior training, are advised that additional units and course work beyond the minimum 72 units may be required in order to satisfy the foreign language requirement. USC offers beginning, intermediate and advanced Chinese, Japanese and Korean language courses during the academic year (fall/spring) and intensive 10-week language programs during the summer that provide beginning and intermediate level instruction.

**Graduate Certificate**

**Requirements**

Graduate students interested in East Asian Area Studies must be enrolled in an advanced degree program in the Graduate School or in a professional school at the university. While preparing for an M.A., Ph.D. or other graduate degree, they may earn a certificate in East Asian Studies, which certifies special area competence beyond discipline requirements. The certificate requirements provide the student with two options. The first requires that the student write a thesis and take four graduate-credit courses in East Asian studies in any department. An oral examination is given on the thesis. The second option does not require a thesis. The student instead takes six graduate-credit courses in the East Asian area and takes an oral examination on three research papers and on relevant graduate work. As a part of both options some basic East Asian history and at least two years of study or the equivalent of an East Asian language are required. The student makes the basic decisions on the program to be followed in consultation with a three-member interdisciplinary committee approved by the Director of the East Asian Studies Center.

For further information, interested students may write to: Director, East Asian Studies Center, College House 101, University of Southern California, Los Angeles, CA 90089-0127.

**Courses of Instruction**

**EAST ASIAN STUDIES (EASC)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**EASC 160gm China and the World (4, FaSp)**

Advanced-level introduction to China and its relations with the wider world in historic and contemporary perspective.

**EASC 360 Global East Asia (4, max 12, Sm)**

Summer study abroad program to China, Japan or Korea with a focus on globalization. Recommended preparation: two language and/or area studies courses related to country of study; recommended course list provided by EASC.

**EASC 499 Special Topics (2-4, max 8, Irregular)**

Interdisciplinary examination of various areas of East Asian studies.

**EASC 590 Directed Research (1-12, FaSpSm)**

Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.
EASC 591 Interdisciplinary Seminar (4, max 8, Irregular) An examination of a broad topic in the study of China, Korea, or Japan. Guest speakers, student reports, papers. Readings in English and the appropriate Asian language(s).

EASC 592 Proseminar on Issues and Trends in Contemporary East Asia (4, 2 years, Fa) Introduction to graduate level study of policy issues and major trends in contemporary China, Japan, and Korea; contributions of various academic disciplines.

EASC 593x Understanding East Asia: An Introduction for Professional School Students (3, Sp) Historical, social, political and cultural survey of China, Japan and Korea with focus on topics of particular relevance for business practitioners and other professionals. Not available for degree credit to East Asian Area Studies degree candidates.

EASC 594abz Master's Thesis (2-2-0, FaSpSm) Credit on acceptance of thesis. Graded IP/CR/NC.

EASC 599 Special Topics (2-4, max 8, FaSpSm) Special topics in East Asian Area Studies.

Chair: David T. Bialock, Ph.D.

Faculty
Professors: Dominic C.N. Cheung, Ph.D.; Namkil Kim, Ph.D.; Audrey Li, Ph.D.; Akira Mizuta Lippit, Ph.D. (Cinematic Arts); Andrew Simpson, Ph.D. (Linguistics)

Associate Professors: David T. Bialock, Ph.D. (Comparative Literature); Bettine Birge, Ph.D.; Joshua Goldstein, Ph.D.; George A. Hayden, Ph.D.; Hajime Hoji, Ph.D. (Linguistics); Sonya Lee, Ph.D. (Art History); Lori Meeks, Ph.D. (Religion)

Assistant Professors: Brian Bernards, Ph.D.; Youngmin Choe, Ph.D.; Sunyoung Park, Ph.D.; Satoko Shimazaki, Ph.D.

Emeritus Professor: Henry H.Y. Tiee, Ph.D.

Associated Faculty: Joan Piggott, Ph.D.

East Asian Languages and Cultures offers undergraduate, master's and doctoral programs in Chinese, Japanese and Korean studies, and a progressive degree in East Asian Languages and Cultures. The department fosters original approaches in East Asian studies. With an emphasis on interdisciplinary and innovative research, the program provides students with systematic training in East Asian languages, literatures and cultures.

The faculty is committed to intra-regional and interdisciplinary studies of East Asia, which includes critical interaction among the cultures of China, Japan and Korea, as well as integration of modern and pre-modern studies. The department engages the arts, languages, linguistics, literatures, histories, media, religions, visual and material cultures of East Asia.

Undergraduate Degree

Bachelor of Arts in East Asian Languages and Cultures Requirements
For the lower division, two years of Chinese, Japanese or Korean language are required. For the upper division, 32 units, including the third year of language, are required. The 32 units of upper division courses must also include one civilization course, one literature course and four upper division elective courses (16 units) in Chinese, Japanese or Korean. One lower division course may be counted toward the 16 units of upper division electives. One East Asian course from another department may be included in the 32 unit requirement, if approved by an adviser.

Honors Program
Candidates for the B.A. in the Department of East Asian Languages and Cultures may receive a designation on their transcripts of departmental honors. Admission to the honors program is required.

Prerequisites: 3.33 overall GPA, 3.5 GPA or better in courses in the major, completion of at least one upper-level EALC course requiring a seminar paper at the time of admission, submission of an application form to the undergraduate faculty adviser.

Required for departmental honors: Maintain GPA requirements stated above and complete EALC 495ab Undergraduate Honors Thesis.

East Asian Languages and Cultures Minor Requirements
For the lower division, two years of language in one of three languages (Chinese, Japanese and Korean) are required. For the upper division, four 4-unit courses, including one civilization course, one literature course and two upper division elective courses in Chinese, Japanese or Korean are required.
Cultures and Politics of the Pacific Rim
Minor Requirements
This interdisciplinary minor introduces students to the cultural heritage and political contexts of the United States’ most important trading partners on the Pacific Rim. Students study East Asia and Latin America, and the cultural, economic and political dimensions of international trade. It is intended for students who are interested in or considering diplomatic or commercial careers that require knowledge about the people and cultures of the Pacific Rim.

As with all minors, students must choose at least four courses dedicated to this minor and four classes outside their major department, which may be the same four courses.

Study Abroad Programs
East Asian Languages and Cultures majors and minors are encouraged to take advantage of the numerous semester and year-long study abroad opportunities sponsored by the Office of Overseas Studies. Currently, the office offers programs in China (Beijing and Nanjing), Taiwan (Taipei), Korea (Seoul), and Japan (Tokyo, Nagoya). Each of the programs is affiliated with a world class institution, such as Waseda University in Tokyo, National Chengchi University in Taipei or Yonsei University in Seoul. Contact the Office of Overseas Studies at (213) 740-3636 for further details or visit them online at dor.usc.edu/overseas.

The majority of course work offered by these programs may be counted toward the EALC major or minor requirements. Students who receive major credit from any of these programs must still take at least eight units of non-language courses within EALC at the upper division level while at USC (specifically an EALC civilization and an EALC literature course). Students interested in attending one of these programs must meet with an EALC academic adviser to ensure that the courses enrolled in overseas will meet EALC major or minor requirements.

Chinese Summer Program in Beijing
The Department of East Asian Languages and Cultures offers its Chinese language summer courses in Beijing. Participants will be able to transition seamlessly to the next level courses upon returning to campus. Cultural visits and excursions will be included in the tuition fee. All courses count toward a major and minor in East Asian Languages and Cultures.

Bachelor of Arts with a Combined Major in Linguistics/East Asian Languages and Cultures
See Department of Linguistics, page 396.
Progressive Degree Program in East Asian Languages and Cultures

The progressive degree program permits exceptional undergraduate students to receive both a Bachelor of Arts and a Master of Arts in East Asian Languages and Cultures within five years. It is intended for students with extraordinary EALC preparation and performance who demonstrate a superior level of overall scholarship.

Admission

Applicants may apply after the completion of 64 units of course work applicable to their undergraduate degree since graduating from high school. (AP units, IB units and course work taken prior to high school graduation are excluded). Applicants must submit their applications before completing 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. The application for admission to a progressive degree program must be accompanied by a departmentally approved course plan proposal and two letters of recommendation from USC faculty members in the Department of East Asian Languages and Cultures.

Awarding of Degrees

Progressive degree program students must fulfill all of the requirements for both the bachelor's degree and the master's degree, including a master's thesis. The unit requirement for the master's degree can be reduced by as much as one-third. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree.

Time Limits

The time limit for completing a progressive degree program is 12 semesters.

Further details about progressive degrees can be found on page 87.

Graduate Degrees

Master of Arts in East Asian Languages and Cultures

The Department of East Asian Languages and Cultures offers instruction in the languages, literatures and cultures of East Asia. The graduate program offers the master's degree with specialties in Chinese, Japanese and Korean. Programs of study may emphasize foreign language teaching, applied linguistics, literature, thought, religions or area studies.

Admission Requirements — Prerequisites

An applicant for admission will normally have the equivalent of an undergraduate major in East Asian languages and cultures at USC, but programs may be arranged for promising students who do not have the prerequisites. Such students may be required to make up the deficiencies.

Criteria

All applicants are required to take the Graduate Record Examinations verbal and quantitative General Test and submit their complete undergraduate record; at least three letters of recommendation and a statement of purpose should be sent to the chair of the department. Applicants are urged to submit written materials as supporting evidence.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Foreign Language Requirement

Competence is required in Chinese, Japanese or Korean.

Course Requirements

Six courses, four of which must be at the 500-level or above, are required. Those students whose concentration is in language and literature should take a fourth year of language.

Final Research Paper

The research paper must demonstrate the student's ability to use source materials in the East Asian language of his or her area.

Doctor of Philosophy in East Asian Languages and Cultures

Course Requirements

A student's total graduate course work must be at least 60 units including 4 units of doctoral dissertation (794ab) and the following courses:

<table>
<thead>
<tr>
<th>CORE COURSES</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

A theory and methodology course in EALC or an equivalent course in a related program.

Four courses on East Asian languages and literatures.

Four courses on East Asian cultures and civilizations.

Three additional courses in a target discipline or field.

No more than four courses at the 400-level may be applied to the total requirement of 60 units. The fulfillment of the course requirements is determined by the Graduate Studies Committee in EALC.

Screening Procedure

A screening procedure will be conducted before the student completes 24 units of course work, which typically means by the end of the first year. The Graduate Studies Committee will review the student's performance comprehensively and meet the student after a statement describing his/her research ideas is submitted.

Guidance Committee

Upon successful completion of the screening procedure, the student is encouraged to begin forming a five-member guidance committee, whose purpose is to help the student prepare for the qualifying examination. The committee must be approved by the Graduate School at the time the student applies to schedule a qualifying examination.

Qualifying Procedure

A student takes examinations in three different fields approved by the guidance committee. An oral examination based on the written exams will follow. After successful completion of the examinations, the student will submit a dissertation prospectus, which must be approved by the guidance committee and the Graduate Studies Committee in EALC.
Courses of Instruction

EAST ASIAN LANGUAGES AND CULTURES (EALC)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

EALC 101x Conversational Chinese and Intercultural Communication (2, FaSp) Basic Mandarin conversational skills for effective communication in familiar, everyday Chinese contexts and better understanding of intercultural communication through content-based language acquisition. Not available for credit to East Asian Area Studies and East Asian Languages and Cultures majors and minors. Graded CR/NC.

EALC 102 Language, Art and Culture: Calligraphy (2, FaSp) This course introduces students to the origin of the basic Chinese scripts and the basic principles and styles of calligraphy.

EALC 103ab Online Chinese I (2-2, FaSpSm) Basic listening, speaking, reading and writing abilities in Mandarin Chinese. Instruction includes individual meetings and online content. (Duplicates credit in EALC 104).

EALC 104 Chinese I (4, FaSpSm) The sound system of modern Chinese; aural comprehension, oral expression, basic patterns, and writing system.

EALC 106 Chinese II (4, FaSpSm) Dialogue practice and conversation; reading of simple stories and essays; comparison of Chinese and English grammar; writing of paragraphs. Prerequisite: EALC 104.

EALC 108 Reading and Writing Chinese (4, FaSp) The basics of reading and writing modern Chinese; intensive reading and writing of paragraphs, essays, and stories; extensive reading of beginner-level authentic materials.

EALC 109g East Asian Humanities: The Great Tradition (4, FaSp) Introduction to the major humanities traditions of China, Japan, and Korea through an examination of representative works drawn from literature, aesthetics, philosophy, religion, and historical writing.

EALC 110g East Asian Humanities: The Great Tradition (4, FaSp) Introduction to the major humanities traditions of China, Japan, and Korea through an examination of representative works drawn from literature, aesthetics, philosophy, religion, and historical writing.

EALC 115 Korean I (4, FaSpSm) Aural comprehension and oral practice; the writing system; grammar drill, sentence patterns. Lecture, 5 hours; additional hours for drill and laboratory.

EALC 117 Korean II (4, FaSpSm) Continuation of EALC 115. Progressive drill in dialogue, reading, and writing. Lecture, 5 hours; additional hours for drill and laboratory. Prerequisite: EALC 115.

EALC 120 Japanese I (4, FaSpSm) Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana (Japanese alphabetical systems).

EALC 122 Japanese II (4, FaSpSm) Continuation of EALC 120. Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana and basic kanji. Prerequisite: EALC 120.

EALC 125g Introduction to Contemporary East Asian Film and Culture (4) An introduction to and overview of the contemporary cinemas of East Asia: China (Hong Kong, the People's Republic, and Taiwan), Japan, and Korea.

EALC 130g East Asian Ethical Thought (4, FaSp) Introduction to the history of Chinese, Japanese, and Korean ethical thought; perspectives on human nature, historical writing, religious options, and aesthetic implications. Conducted in English.

EALC 135g Chinese Film and Literary Culture (4, FaSp) Introduction to the history of Chinese film and literature; the transnational production and circulation of Chinese-language cinema. Analysis of the larger sociocultural significance of films by engaging their historical context.

EALC 145g Introduction to Chinese Culture, Art and Literature (4, FaSp) Introduction to the civilization, art and literature of pre-modern China through the lens of the cultural products of identity.

EALC 150g Global Chinese Cinema and Cultural Studies (4, FaSp) Examination of the transnational production and circulation of Chinese-language cinema. Analysis of the larger sociocultural significance of films by engaging their historical context.

EALC 206 Chinese IV (4, Sp) Continuation of 204, with emphasis on reading and writing, frequent interaction with native speakers. Prerequisite: EALC 204.

EALC 215 Korean III (4, Fa) Drill to increase proficiency in dialogue, reading, and writing; intermediate level readings. Prerequisite: EALC 117.

EALC 220 Japanese III (4, FaSpSm) Continuation of EALC 122. Conversation practice, basic to intermediate grammar, and building proficiency of reading and writing Hiragana and Katakana with additional kanji. Prerequisite: EALC 122.

EALC 222 Japanese IV (4, FaSpSm) Continuation of EALC 220. More sophisticated grammar and vocabulary for natural conversation. Enhancing fundamental reading and writing skills, expanding the knowledge of kanji. Prerequisite: EALC 220.
EALC 264g Asian Aesthetic and Literary Tradition (4) (Enroll in COLT 264g)

EALC 304 Advanced Modern Chinese I (4, Fa) Reading selections from different styles of modern Chinese writings, analysis of stylistic techniques and syntactic structure, composition, and translation. Prerequisite: EALC 206.

EALC 306 Advanced Modern Chinese II (4, Sp) Continuation of EALC 304; composition exercises in different styles of writing. Prerequisite: EALC 304.

EALC 315 Advanced Korean I (4, Fa) Advanced reading in modern Korean materials; improvement of skills in conversation, composition, and translation. Prerequisite: EALC 217.

EALC 317 Advanced Korean II (4, Sp) Continuation of EALC 315, with emphasis on the use of Chinese characters, translation, and composition exercises. Prerequisite: EALC 315.

EALC 318 Readings in Contemporary Korean (4, Fa, Sp, Sm) Selected readings in a variety of Korean styles. Materials are from essays, short stories and newspapers. Prerequisite: EALC 217.

EALC 320 Advanced Japanese I (4) Strengthen intermediate Japanese language proficiency. Oral/aural communication skills as well as reading and writing skills. Promote an understanding of the present-day Japanese culture. Prerequisite: EALC 222.

EALC 322 Advanced Japanese II (4, FaSp) Continuation of EALC 320. Improve and strengthen abilities to speak, listen, read and write, coping with more involved materials and situation. Prerequisite: EALC 320.

EALC 332 Modern Korean Literature in Translation (4, Fa) Introduction to Korean literature, with discussion of critical approaches to literary discourse, historical contexts of literary production, and aspects of contemporary popular culture.

EALC 333 Introduction to Korean Film (4, Fa) Survey of Korean film, the film industry, and critical issues from the colonial period to the present.

EALC 335m Korean American Literature (4) Survey of Korean American literature from the mid-20th century until the most recent years. Focus on issues and topics central to Korean American experience.

EALC 336 Chinese Language through Films and Television II (4, FaSp) Further enhancement of functional, advanced-level Mandarin proficiency for vocabulary, grammar, listening, speaking, reading, writing, and cultural awareness through selected Chinese-language films and television programs. Prerequisite: EALC 304 and EALC 334.

EALC 340g Japanese Civilization (4, FaSp) Survey of the main characteristics and development of art, literature, philosophy, religion, political and social institutions through different periods. Conducted in English.

EALC 342g Japanese Literature and Culture (4, FaSp) Japanese literature from the earliest times to the present; development of prose, poetry and the novel; evolution of theatre; Japanese literature under Western influence. Conducted in English.

EALC 344g Korean Literature and Culture (4, Sp) The history of Korean literature and culture from the ancient to the modern era. Recommended preparation: HIST 105.

EALC 345 Korean Civilization (4) Survey of the main characteristics and development of Korean art, literature, philosophy, religion, political and social institutions through different periods. Conducted in English.

EALC 352g Chinese Literature and Culture (4, FaSp) Readings of Chinese poetry, prose, novels and drama; influence of the West on Chinese literature and culture in modern times. Conducted in English.

EALC 354g Modern Chinese Literature in Translation (4) Readings in modern Chinese poetry, fiction, and drama since 1919.

EALC 355 Studies in Chinese Thought (4) Chinese thought, particularly as formulated in the three great traditions: Confucianism, Taoism, Buddhism.

EALC 357 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 359 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 365 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 366 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 374 Language and Society in East Asia (4) The interaction of language with society in countries of East Asia: language and identity, the politicization of language, language change, language and gender.

EALC 375 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 376 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 377 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 378 Women and Gender in China: Past and Present (4) An examination of changes in sex roles and in constructs of the female as influenced by traditional Chinese thought and later social developments.

EALC 383 Later Chinese Art (4) (Enroll in AHIS 383)

EALC 384 Later Chinese Art (4) (Enroll in AHIS 384)

EALC 387 Early Japanese Art (4) (Enroll in AHIS 387)

EALC 388 Later Japanese Art (4) (Enroll in AHIS 388)

EALC 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

EALC 400 Classical Chinese I (4) Introduction to the classical style, selections from classical style writings, contrastive analysis of modern and classical Chinese, translation and writing practice. Prerequisite: EALC 206.

EALC 402 Classical Chinese II (4) Continuation of EALC 400.

EALC 404 Advanced Modern Chinese III (4, Fa) Readings in modern Chinese literary, documentary, and epistolary styles; stylistic and syntactic analysis; composition; translation. Prerequisite: EALC 306.

EALC 406 Advanced Modern Chinese IV (4, Sp) Continuation of EALC 404.
EALC 407 News and Web Chinese (4) 
Reading selections from newspaper articles and online reports to further develop proficiency in advanced Chinese and understanding of the society and culture. Prerequisite: EALC 306.

EALC 410 Chinese-English Translation (4) 
Structure, vocabulary, and techniques of written translation and oral interpretation; classroom and laboratory practice; English-Chinese and Chinese-English.

EALC 412ab Business Chinese (4-4) a: Practice in the basic vocabulary and idioms of foreign trade and other commercial transactions in Mandarin. Prerequisite: EALC 206. b: Continuation of EALC 412a.

EALC 413 Business Japanese (4, FaSp) 
Practical advanced level Japanese business terms and their usage in a variety of business situations; cultural insights on Japanese customs that underlie business transactions in Japan. Prerequisite: EALC 322.

EALC 415 Advanced Korean III (4, Fa) 
Selected readings in Korean texts, pre-modern and modern, in various literary and non-fiction genres; focus on developing reading and translation skills. Prerequisite: EALC 317.

EALC 417 Advanced Korean IV (4, Sp) 
Continuation of EALC 415.

EALC 418 Korean Writing in Mixed Script (4, FaSp) 
Selected readings in Korean texts written in mixed script; a systematic study of Korean characters and translation of text. Prerequisite: EALC 217.

EALC 419 Newspaper and Documentary Korean (4, FaSp) 
Selected readings from newspapers, magazines, and other journalistic publications; analysis of styles and practice in writing articles. Prerequisite: EALC 217.

EALC 422 Advanced Japanese III (4, Fa) 
Students develop advanced levels of Japanese linguistic knowledge and communication skills through speaking, listening, reading and writing activities using authentic Japanese texts and discourse. Prerequisite: EALC 322.

EALC 424 Advanced Japanese IV (4, Sp) 
Continuation of EALC 422. Students continue to improve their Japanese language competence in the course of acquiring Japanese pragmatic skills and cultural knowledge. Prerequisite: EALC 422.

EALC 426 Classical Japanese (4) 
Introduction to the fundamentals of classical grammar; readings from various classical works, both poetry and prose; translation practice. Prerequisite: EALC 322.

EALC 427 Women's Lives in Premodern Japanese Literature (4, Fa) 
The social lives of women in ancient and medieval Japan as viewed through poetry, memoir, tale literature, legal documents, and personal correspondence. Recommended preparation: Any course in Japanese literature or civilization.

Examination of cultural perceptions about nature and how they affect attitudes toward the environment: includes comparisons to Euro-American as well as other East Asian traditions.

EALC 429 Gender in Korean Film and Literature (4, Sp) 

EALC 431 The Taoist Tradition (4) 
Close reading of primary text(s) of early Chinese Taoist thinkers (in translation), along with analysis of relevant secondary scholarship. Recommended preparation: EALC 355 or REL 131.

EALC 452 Chinese Fiction (4) 
Development of Chinese fiction and readings from English translations of major Chinese novels such as the Dream of the Red Chamber, All Men are Brothers, and others. Conducted in English.

EALC 454 Bildungsroman in Modern East Asia (4, Sp) 
Comparative study of core narratives of youth and its destiny in modern literature from China, Japan, Korea, and Taiwan. Readings include scholarship on European literature.

EALC 455 Japanese Fiction (4) 
Japanese fiction from early to modern times; literary, philosophical, and social aspects of tales and novels. Conducted in English.

EALC 460 Love, Self and Gender in Japanese Literature (4, Sp) 
Examines conceptions of love, self, and sexuality in Japanese literature and culture of the modern and pre-modern periods with comparisons to European and Chinese literature.

EALC 465 Topics in Korean Visual and Cultural Studies (4, FaSp) 
Examination of dominant and emergent critical issues in the study of modern and contemporary Korean visual culture.

EALC 470 Introduction to East Asian Linguistics (4) 
Survey of the sound systems, writing systems, grammatical systems, historical development, and social environments of the Chinese, Japanese, and Korean languages. Prerequisite: EALC 406 or EALC 417 or EALC 424.

EALC 480 Marxism and Culture in East Asia (4, FaSp) 
Intensive reading on current transnational issues in the study of East Asian or Asian cultures.

EALC 481 Studies in Japanese Art (4, max 16) (Enroll in AHIS 481)

EALC 484 Studies in Chinese Art (4, max 16) (Enroll in AHIS 484)

EALC 490x Directed Research (2-8, max 8) 
Individual research and readings. Not available for graduate credit.

EALC 494ab Honors Thesis (4, Fa; 4, Sp) 
Research and writing of original thesis under guidance of faculty member. Open only to EALC majors.

EALC 499 Special Topics (2-4, max 8)

EALC 500 Advanced Classical Chinese I (4) 
Reading in classical Chinese and practice in classical vocabulary and syntax, with emphasis on translation into English and modern Chinese. Prerequisite: EALC 402.

EALC 501 History of Chinese Literature (4) 
An in-depth survey of literary development concerning periods, thought, genres, and socio-cultural backgrounds in China. In English.

EALC 502 Advanced Classical Chinese II (4) 
Continuation of EALC 500. Prerequisite: EALC 500.

EALC 503 Chinese Poetry (4) 
Literary studies of the theory and practice of Chinese poetry from major poets. Prerequisite: 4th year Chinese.

EALC 504 Selections from Modern Chinese Literature (4) 
Literary currents and representative writings of the 20th century. Prerequisite: EALC 306.

EALC 505 Introduction to East Asian Languages and Cultures (4, FaSp) 
An in-depth introduction to East Asian studies. Open to graduate students only.

EALC 506 Selections from Classical Chinese Literature (4) 
Writings of the important periods and genres of Chinese literary history. Prerequisite: EALC 406.
EALC 507 East Asia in Cross-Cultural Theories (4, FaSp) Introduction to major theoretical paradigms particularly relevant to the study of East Asian cultures. Seminal Western theoretical texts with studies on East Asia.

EALC 509 Transnational Korean Cinema (4, Fa) Korean cinema since the early 20th century, focusing on transnational production, circulation, and consumption. Open to graduate students only.

EALC 510 Contemporary Japanese Cinema (4, Fa) Japanese cinema since the 1980s focusing on the works by filmmakers.

EALC 512 Japanese Literature and Film (4, FaSp) Relationship between Japanese literature and film, focusing on the transition from literary text to film text. Open to graduate students only.

EALC 515 Classical Japanese Poetics (4) An analysis of major texts of the Japanese literary tradition from the 8th to the 16th century.

EALC 520 Modern Japanese Writers (4) Selections illustrative of major literary trends and literary works since the Meiji Restoration. Prerequisite: EALC 422.

EALC 522 Classical Japanese Writers (4) Writings representative of important periods and genres of Japanese literary history up to the Meiji Restoration. Prerequisite: EALC 426.

EALC 531 Proseminar in Chinese Cultural History (4) Intensive readings in English concerning interpretive issues in the study of Chinese cultural history.

EALC 532 Proseminar in Korean Cultural History (4) Introduction to Korean cultural and social history through intensive reading of the English-language literature on Korean history and culture.

EALC 535 Proseminar in Chinese Visual Culture (4, FaSp) Chinese visual culture through the complex interface of art and thought. Examines architectural layout, pictorial representation, decorative motif as part of cultural production that intertwines with intellectual trends.

EALC 537 Structure of the Korean Language (4) Description and theoretical analysis of phonology, morphology and syntax of modern Korean; comprehensive view of the properties of the Korean structure. Prerequisite: EALC 470.

EALC 543 Seminar: Japanese Literature (4) Readings in original texts in the works of selected major writers; lectures dealing with intellectual and cultural backgrounds of the periods and the authors. Prerequisite: EALC 520, EALC 522.

EALC 545 Japanese Literary Criticism and Theory (4) Representative theories of literature; history of classical and modern literary criticism. Prerequisite: EALC 520, EALC 522.

EALC 551 Seminar: China (4) Individual research and seminar reports on selected phases of Chinese traditional civilization.

EALC 553 Seminar: Chinese Literature (4) Research in different genres of Chinese literature, traditional and modern.

EALC 555 Chinese Literary Criticism and Theory (4) Classical and modern literary theories and criticism; comparisons with literary theory and criticism in the West.

EALC 556 Seminar on Women and the Family in China (4) An introduction to the current state of research on women and the family in China, and training in feminist analytic approaches for further work in the China field of other areas.

EALC 558 History of the Chinese Language (4) Evolution of the Chinese language from the earliest time to the present: lectures and the reading of texts. Conducted in English. Prerequisite: EALC 557.

EALC 560 Comparative Syntax of East Asian Languages (4, max 12, FaSp) Descriptive-comparative study of the Chinese, Japanese and Korean languages with an emphasis on their structures, range of properties, similarities and dissimilarities. Prerequisite: EALC 537 or EALC 547 or EALC 557.

EALC 561 Topics and Issues in East Asian Linguistics (4, max 12) Descriptive and theoretical analysis of the grammars of Chinese, Japanese, and Korean; emphasis on comparative studies of these languages and English.

EALC 562 Teaching of the East Asian Languages (4) Materials and methods in teaching East Asian languages; application of methods and techniques of foreign/second language teaching to East Asian language teaching. Prerequisite: EALC 537 or EALC 547 or EALC 557.

EALC 570 Narratives of Desire in Modern Chinese Literature (4, FaSp) The study of prominent fiction women writers from the first half of the 20th century in English and original translations. Open to graduate students only. Prerequisite: EALC 553.

EALC 575 Literary and Artistic Movements in Modern China (4, FaSp) Introduction to literary and artistic movements in 20th century China. Open to graduate students only.

EALC 580 Readings in East Asian Linguistics (4, max 12, FaSp) Survey of some representative works in generative grammar since the mid '60s, including those that deal with similar phenomena in the contexts of more recent theoretical frameworks as well as non-generative grammatical works on Chinese, Japanese, and Korean.

EALC 588ab Directed Readings (2-2) Assigned readings according to individual needs.

EALC 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

EALC 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

EALC 594ab Master's Thesis (2-2-0) Credit on acceptance of thesis. Graded IP/CR/NC.

EALC 599 Special Topics (2-4, max 8, FaSpSm) Special topics in East Asian Languages and Cultures.

EALC 601 Professional Development I: Applying for Positions (2, Fa) (Enroll in COLT 601).
EALC 603 Professional Development II: Publication (2, Sp) (Enroll in COLT 603).

EALC 610 Seminar: Buddhism and the Literary Arts in Japan (4) Seminar on the impact of Buddhism on the literary tradition of medieval Japan. Selected topics.

EALC 620 Seminar in East Asian Linguistics (4, max 12, FaSp) Detailed theoretical discussions and empirical studies of the issues and development in East Asian linguistics.

EALC 650 Research Seminar in Chinese Documents (4) An introduction to the different genres of documents for the study of Chinese civilization, and training in their use.

Chair: Simon J. Wilkie, Ph.D.

Faculty
John Elliott Chair in Economics: M. Hashem Pesaran, Ph.D.

Presidential Professor of Health Economics: Daniel McFadden, Ph.D. (Public Policy)

University Professor: Richard A. Easterlin, Ph.D.

Professors: Dominic James Brewer, Ph.D. (Education); Juan Carrillo, Ph.D.; Robert Dekle, Ph.D.; Gillian Hadfield, Ph.D., J.D. (Law); Cheng Hsiao, Ph.D.; Ayse Imrohoroglu, Ph.D. (Business); Selahattin Imrohoroglu, Ph.D. (Business); Michael J. P. Magill, Ph.D.; John Matsusaka, Ph.D. (Business); Edward J. McCaffery, J.D. (Law); Hyungsik Roger Moon, Ph.D.; Kevin Murphy, Ph.D. (Business); Jeffrey B. Nugent, Ph.D.*; Vincenzo Quadriini, Ph.D. (Business); Geert Ridder, Ph.D.; John Strauss, Ph.D.; Guofu Tan, Ph.D.; Simon J. Wilkie, Ph.D.; Donald E. Yett, Ph.D.; Fernando Zapatero, Ph.D. (Business)

Associate Professors: Caroline Betts, Ph.D.; Isabelle Brocas, Ph.D.; Harrison Hsueh-Cheng Cheng, Ph.D.; Michael E. DePrano, Ph.D.

Assistant Professors: Giorgio Coricelli, Ph.D.; Joel David, Ph.D.; Yu-Wei Hsieh, Ph.D.; Yilmaz Kocer, Ph.D.; Anant Nvyshadham, Ph.D.; Guillaume Vandenbergroucke, Ph.D.; Nina Walton, Ph.D. (Law)

Senior Lecturer: Nake Kamrany, Ph.D.*

Professor of the Practice of International Relations and Economics: Lord John Eatwell, Ph.D.

Emeritus Professor: Richard H. Day, Ph.D.

*Recipient of university-wide or college teaching award

Undergraduate Programs
The economics curriculum is oriented toward a general, liberal education. The study of economics requires adequate preparation in mathematics and statistics. The department offers a B.A. degree in economics, a B.A. degree in social sciences, a B.S. in Economics/Mathematics and a minor in economics. Both B.A. degrees require a total of 32 upper division units for the major.

Graduate Programs
The department offers a Master of Arts in Economics, a Master of Arts in Economic Developmental Programming, a Master of Science in Mathematical Finance, dual degrees with the USC Gould School of Law and the Price School of Public Policy, a Doctor of Philosophy in Economics, and a Doctor of Philosophy in Pharmaceutical Economics and Policy.

Undergraduate Degrees

Advisement
Upon declaring a major or minor in economics, students should consult with the department’s undergraduate adviser. Students can check their academic progress on the USCweb under OASIS.

Major Requirements for the Bachelor of Arts in Economics
Students are required to take ECON 203, ECON 205, ECON 303, ECON 305, ECON 317, ECON 414 and four economics elective courses. Of the four elective courses (300 level or above) a minimum of two must be economics courses at the 400 level or higher.

The remaining two economics courses must be approved by the department’s director of undergraduate studies. A grade of C (2.0) or better is required for each of the core courses ECON 303, ECON 305, ECON 317 and ECON 414. MATH 118x or MATH 125 is required for the major; students are advised to meet the requirement by their sophomore year. Majors are also required to take at least one two-unit course on computing chosen from ITP 101x, ITP 110x or CSCI 101L.

Requirements for the Bachelor of Arts, Social Sciences, with an Emphasis in Economics
Students are required to take ECON 203, ECON 205, ECON 303, ECON 305 and three economics elective courses numbered 300 or 400. A grade of C (2.0) or better is required for each of the core courses ECON 303 and ECON 305. MATH 118x or MATH 125 is required and an additional 12 units of upper division courses from departments in the social sciences (anthropology, geography, international relations, history, political science, psychology, sociology).
Progressive Degree Program in Economics

The Economics department offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor's and master's degrees in a progressive degree program. This program allows students to earn both the Bachelor of Arts and the Master of Arts degrees in five years. Students may also pursue the Bachelor of Science in Economics/Mathematics and the Master of Science in Mathematical Finance. Further details about progressive degree programs can be found on page 87.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate program, but prior to the completion of 96 units of course work. The application for admission to the progressive degree program must be accompanied by a course proposal plan and two letters of recommendation from USC Economics faculty.

Awarding of Degrees

The bachelor's and master's degrees may be awarded separately upon completion of all degree requirements, but the master's degree will not be awarded before the bachelor's degree. Students who elect not to complete the master's must complete 128 units to earn the bachelor's degree.

Requirements for the Bachelor of Science in Economics/Mathematics

Students are required to take seven courses in economics, seven courses in mathematics and one course in computer programming languages. Pre-major requirement: MATH 125 or equivalent.

In Economics: ECON 203, ECON 205, ECON 303, ECON 305, ECON 414 and at least two other ECON courses at the 400 level or above

In Mathematics: MATH 126 or MATH 127; MATH 225 or MATH 245; MATH 226 or MATH 227; MATH 407, MATH 408 and at least two other MATH courses at the 400 level or above

In Computing: At least one course chosen from ITP 110x, ITP 150x, ITP 165x; CSCI 101L

Electives must be approved by the program advisers.

Minor in Economics

Students from all disciplines will benefit from an economics minor. The economics minor is offered in three tracks. Each track is designed to help the student explore a coherent area of economic thought and methodology. Students minoring in economics must maintain at least a 2.0 GPA (cumulative) in courses taken for the minor.

The minor includes the core courses ECON 203, ECON 205, ECON 303 or ECON 305, MATH 118x or MATH 125 plus three courses chosen from one of the following tracks:

Law and Political Economy

This track introduces students to the economic theory that underlies the economic choices made by individuals and the ways in which law and policy combine to regulate such behavior. Economic models of individual choice, contracts, and law are analyzed in courses in this track. Choose three courses from: ECON 317, ECON 330, ECON 332, ECON 434.

Finance and Money

This track guides students through the economic thought and theory that underlie the importance of money. Courses cover topics that shed light on the ways in which institutions, individual preferences and financial markets affect the allocation and investment of money. Choose three courses from: ECON 317, ECON 350, ECON 357, ECON 360, ECON 450, ECON 452, ECON 457.

International Economics

This track concentrates on the foundations, complexities and importance of the global economy as well as the role of economics and political economy in societies outside of the United States. Choose three courses from: ECON 317, ECON 330, ECON 340, ECON 342, ECON 343, ECON 346, ECON 450.

Undergraduate Honors Program

The department offers an honors program. First and second semester seniors can enroll in ECON 495 Honors Thesis. Honors will be awarded upon completion of the thesis, an overall GPA of 3.0 or higher and a major GPA of 3.5.

Department Policy Regarding Transfer Credits

Students who have taken courses equivalent to ECON 303, ECON 305, ECON 317 or ECON 414 from an economics department at another four-year college or from a program deemed comparable by the director of undergraduate studies, can earn transfer credits provided they received a B (3.0) or better in the courses.

Graduate Degrees

The graduate program in economics is designed to prepare students for careers in teaching, research, industry and government. The department emphasizes economic theory and econometrics; applied economic analysis, including microeconomics, macroeconomics, international and development economics, urban and regional economics; and political economy.

Admission Requirements

Prerequisites

The typical applicant for admission will normally have completed an undergraduate major in economics. Minimal prerequisites for admission to a master's degree program include courses in intermediate microeconomic and macroeconomic theory, a year of calculus, and a semester of statistics. Applicants for the Ph.D. program are normally expected to have completed more than the minimum, particularly in the areas of mathematics and statistics.

Criteria

The Graduate Record Examinations General Test, three letters of recommendation and the student's statement of purpose are required. The letters and statement should be sent directly to the Director of Graduate Admissions, Department of Economics, KAP 300, University of Southern California, Los Angeles, CA 90089-0253. International applicants are required to take the TOEFL examination. In addition, applicants for financial aid are advised to take the GRE Economics Subject Test and international students must have a TSE score of 200. Admission is based on the appropriateness and quality of completed course work, GRE scores and the letters of recommendation.

Procedure

Application deadlines for master's degrees are normally April 15 for the fall semester and November 1 for the spring. Completed doctoral fellowship and assistantship applications are due by December 1. Except for unusual cases, students are permitted to begin Ph.D. programs only during the fall semester.
Placement Examinations
Prior to registration, all entering graduate students are required to take the Economics Department placement examinations in general economic theory and the basic principles of algebra, calculus and statistics. Depending on the outcome of these examinations, deficiency course work yielding no credit toward graduate degrees may be required. Students whose native language is other than English will be required to take an English placement examination. Course work in English may be required.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Foreign Language/Research Tool Requirements
There is no foreign language requirement. However, competence in the use of one computer programming language is required for all graduate degrees offered through the Department of Economics, except the Ph.D. in Political Economy and Public Policy. Such competence can be demonstrated either by course work or examination. Students in master’s programs must meet this requirement before starting the thesis or taking the comprehensive examination; students in the Ph.D. program must complete it before taking the qualifying examination.

Master of Arts in Economic Development Programming
This degree program is designed to provide advanced training in the basic tools of development programming and their application to practical problems of developing countries. The program is structured to enable well-prepared students entering in May to finish the following summer. Requirements include the following courses in economics:

<table>
<thead>
<tr>
<th>REQUIRED COURSES</th>
<th>UNITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 500</td>
<td>Microeconomic Analysis and Policy, or</td>
</tr>
<tr>
<td>ECON 503</td>
<td>Microeconomic Theory I 4</td>
</tr>
<tr>
<td>ECON 501</td>
<td>Macroeconomic Analysis and Policy, or</td>
</tr>
<tr>
<td>ECON 505</td>
<td>Macroeconomic Theory I 4</td>
</tr>
<tr>
<td>ECON 511</td>
<td>Econometric Methods, or</td>
</tr>
<tr>
<td>ECON 513</td>
<td>Practice of Econometrics 4</td>
</tr>
</tbody>
</table>

Not more than 4 units may be ECON 590; 590 units cannot be counted as part of the required minimum of graduate level courses specified above.

In addition, a total of three courses in one of several designated options in economics, international relations, law, urban planning and development, demography, or business administration is required. In certain cases units can be granted for internship work. The total unit requirements are 32-48, including a comprehensive examination or a thesis.

For a detailed description of the program and its requirements see Master of Arts in Economic Developmental Programming, available from the Department of Economics faculty adviser.

Master of Science in Mathematical Finance
The objective of this master of science program is to produce graduates with a rigorous foundation in the economic theory and mathematical modeling of financial markets. The program creates an integrated curriculum spanning four disciplines: economics, mathematics, econometrics/statistics and computational/numerical analysis. The program is designed for recent graduates in the fields of applied mathematics, physics and engineering — or for graduates in economics, business and finance with strong mathematical backgrounds — who wish to pursue high-tech finance careers in financial institutions, industry or government.

Admission Requirements
Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue for general regulations (page 97). All applicants must take the GRE General Test. Complete transcripts of undergraduate and any graduate level courses are required, as well as a statement of purpose and three recommendation letters. A substantial undergraduate background in mathematics is required, which should include one semester of real analysis or advanced calculus, one semester of linear algebra and one semester of advanced probability/statistics. Candidates with weaker backgrounds may be required to take mathematics classes prior to admission to the program. An undergraduate knowledge of microeconomics and of macroeconomics, and partial differential equations is helpful, although it is not required for admission. Some experience in Matlab and C/C++ programming is also useful.

Foreign Language Requirement
There is no foreign language requirement.

Course Requirements
Thirty units of course work are required, six core courses and four to five elective courses. Students are required to satisfy a summative experience for degree completion. This will be in the form of registration in 1 unit of MATH 590 Directed Research with a summative report at the end of the term.
Topics of research will be determined by the program director. The program consists of:

</tbody>
</table>

Prerequisites for any of the above courses can be waived based on students' knowledge of the subject area. Approval from the program director is required.

*The elective courses in statistics/numerical/optimization/other methods and computational and empirical finance have to be approved for each student by the program directors. Other electives, not on this list, may sometimes be approved after consultation with program directors.

**Juris Doctor/Master of Arts in Economics**

Students are required to complete 92 units of law and economics course work, four units of which must constitute a thesis acceptable to the faculties of the USC Gould School of Law and the Department of Economics. Before enrolling in economics courses, students must have completed an undergraduate course in probability and statistical inference (e.g., BUAD 310). Students with undergraduate degrees in such disciplines as business, economics, mathematics and psychology will usually have taken such a course as part of their undergraduate program.

**First Year**: Required law school courses.

**SECOND AND THIRD YEARS**

<table>

</tr>
</tbody>
</table>

**Two Additional Graduate-level Courses in Economics (eight units)**: ECON 680 Industrial Organization and ECON 681 Economics of Regulated Industries are recommended, but the student is free to choose any graduate level courses other than ECON 590 or ECON 790 in consultation with the program adviser. ECON 401 Mathematical Models in Economics may be substituted for one of these courses, and ECON 417 Statistics for Economics or ECON 414 Introduction to Econometrics may be substituted for the other. (These three courses are applicable toward graduate credit.)

**Four Units of Thesis**: The thesis must be acceptable to both the faculty of the law school and the faculty of the Department of Economics.

**Thirty-nine Units of Law Courses**: including one course in a subject matter related to economics (including but not necessarily limited to Taxation, International Business Transactions, Natural Resources Law, Antitrust Law I, Antitrust Law II, Regulated Industries, Labor Law, Administrative Process, Taxation of Corporations or Land Use Seminar and Land Finance Seminar). In addition to the LSAT, students interested in this dual degree program are required to take the aptitude and advanced economic portions of the Graduate Record Examinations (GRE).

**Dual Master of Arts in Economics and Master of Planning**

The Price School of Public Policy and the Department of Economics jointly offer a two-year program leading to the MPl and M.A. degrees. Applicants must apply to the Price School of Public Policy and the Graduate School and meet the admission requirements of both.

**Requirements**: Requirements for completion of the dual degree program are 58 units, including 24 units in economics and 34 units in planning. For a complete listing, see Public Policy, page 894.

**Doctor of Philosophy in Economics**

Application deadline: December 1

The Ph.D. in Economics requires 60 units of graduate level courses numbered 500 or higher (excluding ECON 500, ECON 501, ECON 590, ECON 690, ECON 691, ECON 692, ECON 693, ECON 694, ECON 790 and ECON 794).

Students must take a core theory examination immediately after the completion of ECON 503, ECON 505, ECON 603 and ECON 605 in order to continue in the Ph.D. program. There is also a breadth requirement, which may be satisfied by taking either ECON 523 Economic History and Development or ECON 527 Classical Economic Theory and Its Critics or ECON 538 Values and Social Analysis.

After passing the core theory examination, the student should consult the director of graduate studies on the appointment of a Ph.D. guidance committee. The student should complete two advanced fields of study with the approval of the guidance committee and the director of graduate studies. The requirements for completing each advanced field of study consist of (1) at least two courses numbered 600 or higher in that field with a minimum grade of A- in each, (2) satisfactory completion of one of the seminars related to the field and (3) presentation of a research paper in a class or seminar. In addition, the student should complete a minor field, which consists of a course numbered 600 or higher with a minimum grade of B. The signing of the student's Permission to Take the Qualifying Examination form will signify the satisfactory completion of the field requirements.

The remainder of the courses to total 60 units must be preapproved by the guidance committee. However, not more than four units of ECON 590 and/or 790 can be taken in each semester. Courses taken outside the department or USC cannot count toward the completion of a field and are not allowed before at least one advanced field is completed. Waivers to the course requirements based on equivalent work at another university may be made upon petition to the director of graduate studies up to a maximum of 12 units. Waivers for any other reason require the approval of the department graduate committee.

Grade Point Average Requirements
In addition to the Graduate School requirements, a minimum GPA of 3.0 on all course work taken toward the 60 units requirement must be achieved. ECON 615 or a higher level course in econometrics must be completed with a grade of B or better.

Screening Procedure
Students desiring the Ph.D. must undergo a screening procedure before completing more than 24 units of graduate level courses. The process involves a review of the student's course grades, performance on the core theory examination, and demonstrated research ability. Students who pass the screening procedure are permitted to continue studies toward the Ph.D. degree.

Core Theory Examination
Before beginning the third semester of graduate study, the student must pass a written examination in general economic theory including applications. A maximum of two attempts is allowed. Not taking the examination at a given due time is considered as failing the examination once. The core theory examination is offered twice every year during the summer session. Any exceptions are subject to approval of the director of graduate studies.

Empirical Research Paper
During the summer after the fourth semester of study, the student must submit an empirical paper using quantitative methods to the examination committee. The paper may use field, experimental or simulated data. In this paper, the student should demonstrate competence in using a computer programming language and software.

Research Paper
During the summer after the sixth semester of study, the student must submit a research paper to a committee of faculty. The paper must be of publishable quality.

Seminar Requirements
Every student is required to take and satisfactorily complete three, two-unit research seminars chosen from ECON 690, ECON 691, ECON 692, ECON 693 and ECON 694. The same seminar may be taken more than once. Before completing the dissertation, the student must present at least one original research paper in a seminar of the student’s choice.

Dissertation Proposal Preparation
The student is required to write a research proposal on a topic suitable for a dissertation. Normally, the chair of the student's guidance committee directs this work. The written proposal is presented and critiqued during the qualifying examination.

Qualifying Examination
Upon successful completion of course and grade requirements, the paper requirement, and the core theory examination, the student takes an examination, which focuses on the presentation and defense of the written dissertation proposal. After passing this examination, the student is admitted to candidacy for the Ph.D. degree. This examination must be taken not later than the end of the seventh semester of study.

Doctoral Dissertation
After admission to candidacy, the student forms a dissertation committee composed of three faculty members, one of whom must be from an outside department. The chair of this committee is the dissertation supervisor. The student must register in sequence for ECON 794abcdz Doctoral Dissertation each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The dissertation is defended in an oral examination administered by the dissertation committee when the committee agrees that the student has completed the research and a satisfactory draft of the dissertation has been written. If the committee agrees to pass the student, all suggested extensions, modifications, and corrections are incorporated into a final draft, which must be approved by all members of the committee.

It is the student’s responsibility to see that the proper paperwork is submitted to the Graduate School upon completion of each requirement for the Ph.D. degree.

Doctor of Philosophy in Pharmaceutical Economics and Policy
Application deadline: December 1

The Department of Economics and the Department of Pharmaceutical Economics and Policy (School of Pharmacy) jointly offer a program of study leading to the Ph.D. degree and to the M.A. degree in the process of work toward the Ph.D. degree.

Required courses include both core requirements and area requirements. Core requirements include courses in economic theory, econometrics, and research methods. Area requirements include courses in health economics, pharmaceutical economics, welfare theory and applied econometrics.

For a detailed description of this program, see the School of Pharmacy section of this catalogue, page 855.
Courses of Instruction

**ECONOMICS (ECON)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**ECON 203 Principles of Microeconomics (4, FaSp)** Behavior of firms and consumers, functions of the price system, competition and monopoly; labor markets, poverty, government regulation, international trade, and the environment.

**ECON 238xg Political Economy and Social Issues (4, Fa)** Contending political-economic perspectives in modern Western thought: conservatism, liberalism, radicalism, and their relevance for contemporary policy issues including government and markets, class, race, gender, poverty and inequality. Not available for major credit to economics majors. Concurrent enrollment: WRIT 140.

**ECON 303 Intermediate Microeconomic Theory (4, FaSp)** Decision-making by business firms, consumer preferences and behavior, uncertainty, competition, monopoly, labor and resource markets, efficient resource allocation, externalities, and government policy. Prerequisite: ECON 203; MATH 118x or MATH 125; corequisite: ECON 205.

**ECON 305 Intermediate Macroeconomic Theory (4, FaSp)** The determinants of aggregate income, employment, and inflation; economic fluctuations; fiscal and monetary policy; financial markets; the national debt. Prerequisite: ECON 203 and ECON 205; MATH 118x or MATH 125.

**ECON 317 Introduction to Statistics for Economists (4, FaSp)** Introduction to statistical methods appropriate for analyzing economic data: probability theory, random variables and probability distributions, sampling, estimation, statistical inference. Prerequisite: MATH 118x or MATH 125.

**ECON 322 Economic History and Modernization of the Middle East (4, Irregular)** Economic history of the Middle East from the rise of Islam to the modern era. Roles of law, religion. Processes of institutional transformation, stagnation, modernization. Prerequisite: ECON 203.

**ECON 330 The Political Economy of Institutions (4)** Social functions served by the rules, laws, regulations, and customs that constrain human activity. Processes whereby such institutions adapt, or fail to adapt, to changing circumstances. Prerequisite: ECON 203.

**ECON 332 Contracts, Organizations and Institutions (4)** Contract law and economic organization, determinants of firm boundaries, transaction cost economics, agency theory, incomplete contracting, business strategy, bureaucracy, institutional environment, politics and property rights. Prerequisite: ECON 203.

**ECON 338 Political Economy and Social Issues (4, Sp)** Contending politico-economic perspectives in modern Western thought and culture; absolutist, liberal, democratic, Marxist, anarchist, and other traditions, topics and issues. (Duplicates credit in former ECON 121x.) Prerequisite: ECON 205.

**ECON 340 Economics of Less Developed Countries (4)** Causes of economic underdevelopment: historical, institutional, structural, ideological, technological, cultural. Patterns and theories of development. Role of government, international trade, and education in economic growth. Prerequisite: ECON 203 or ECON 205.

**ECON 342 Economic Development of the Middle East (4, FaSp)** Contemporary economic problems of the Middle East: comparative and historical perspectives on issues of institutions, investment, oil, trade, migration, finance, inequality, labor and capital markets. Prerequisite: ECON 203; recommended preparation: ECON 205 and ECON 303.

**ECON 343 Economic Development of East Asia (4)** Contemporary economic problems of East Asian countries: management, labor, technology, trade, investment. Determinants of their high growth rates in the late 20th century. Prerequisite: ECON 203 or ECON 205.

**ECON 344 Economic Development of Sub-Saharan Africa (4, FaSpSm)** Contemporary economic problems of sub-Saharan African economies: policies and endowments. Focus on issues of poverty, agriculture, health, macroeconomy and political economy. Prerequisite: ECON 203 or ECON 205.

**ECON 346 Economics of Transition and Development: China (4, FaSpSm)** A focus on the Chinese economy, its reform and transition to a market economy, its relation with East Asian countries and integration into the world economy. Prerequisite: ECON 203 or ECON 205.

**ECON 348 Current Problems of the American Economy (4, Fa)** A comprehensive investigation of problems stemming from changing composition of the work force, urban decline, new technologies, inequalities, ethnic relations, government deficits. Prospects for continued growth. Prerequisite: ECON 203 or ECON 205.

**ECON 350 The World Economy (4, SpSm)** International cooperation and conflict in the world economy. Global economic problems of growth and development, trade and finance, migration, economic stability, and the environment. Prerequisite: ECON 203 or ECON 205.

**ECON 351x Microeconomics for Business (4, FaSpSm)** Development and business applications of: theory of the firm; theory of the consumer; intertemporal decisions; decisions under risk; market failures; industrial and enterprise structure. Not for major credit for: economics, economics/mathematics, social sciences (economics) majors. (Duplicates credit in former ECON 251x.) Prerequisite: MATH 118.

**ECON 352x Macroeconomics for Business (4, FaSpSm)** Theoretical development and significance to business and markets of economic growth; inflation; unemployment; monetary and fiscal policy; business cycles; savings and investment; exchange rates. Not for major credit for: economics, economics/mathematics, social sciences (economics) majors. (Duplicates credit in former ECON 252x.) Prerequisite: MATH 118; recommended preparation: introductory economics course, high school math, and algebra.

**ECON 357 Money, Credit, and Banking (4)** The money, bond, stock, and other financial markets; portfolio choice; determinants of asset prices and interest rates; inflation; interactions between financial markets and government policies. Prerequisite: ECON 203 and ECON 205.

**ECON 360 Public Finance (4)** Role of the government; income and corporate taxation; direct versus indirect taxation; optimal tax structure; public goods; public sector pricing; public debt and macroeconomic stability. Prerequisite: ECON 203 and ECON 205.

**ECON 366 Urban Economics (4)** Urban trends and problems, including changing urban form and function, urban public finance, housing, renewal, poverty, race, transportation, and the environment. Prerequisite: ECON 203 and ECON 205.
ECON 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ECON 395 Economic Policy Issues (4) Selected policy dilemmas, including welfare reform, urban renewal, government budget deficits, regulation and deregulation, environmental problems, immigration, and global development. Lectures by leading authorities and weekly discussion sessions. Prerequisite: ECON 203 and ECON 205.

ECON 404 Games and Economics (4) Analysis of strategic economic interactions. Topics include bargaining, insurance, patents, voting, environmental depletion, strategic trade, learning, reputation, strikes, corporate takeovers, and the provision of public goods. Prerequisite: ECON 303.

ECON 414 Introduction to Econometrics (4, FaSp) Application of statistical methods to economic data: estimating economic relationships using regression analysis, testing hypotheses involving economic behavior, forecasting economic variables. Prerequisite: ECON 317.

ECON 419 Forecasting (4) Trends, time-series models, low-cost forecasting methods, regression models, evaluation and combination of forecasts. Applications in business and economics. Prerequisite: ECON 317; corequisite: ECON 417.

ECON 423 Economics of Happiness (4) What is happiness? How does it vary by socioeconomic status and over the life cycle? This course will develop insight into the nature and determinants of subjective well-being. Prerequisite: ECON 303; recommended preparation: ECON 305.

ECON 434 Economic Analysis of Law (4) Common law and property; rationing of justice, resource allocation between prevention and enforcement; division of decision making between public and private sectors. Prerequisite: ECON 303.

ECON 450 International Trade (4) Determinants and economic consequences of international trade patterns; effects of trade restrictions and trading blocs; trade negotiations and arrangements. Prerequisite: ECON 303.

ECON 451 The Politics of International Trade (4) (Enroll in IR 430.)

ECON 452 International Finance (4) Consequences of trade deficits; theories of capital and currency markets, exchange rate regimes, and international monetary coordination. Prerequisite: ECON 305.

ECON 457 Financial Markets (4) General equilibrium analysis of economies with financial markets; decision making under uncertainty; methods of risk reduction; portfolio theory and valuation of securities; efficiency of security markets. Prerequisite: ECON 303.

ECON 471 Economics of Labor Markets and Human Capital (4) A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. Prerequisite: ECON 303.

ECON 472 Economics of Medical Care (4) Health as an investment in human capital; analysis of the demand for and supply of health services and manpower; health insurance; cost-effectiveness analysis; market structures and the pricing of medical services. Prerequisite: ECON 303.

ECON 480 Economics of Industrial Organization (4) Pricing and resource allocation in imperfectly competitive markets; monopoly regulation, collusion, cartels, mergers and antitrust; patents and development incentives; industry case studies. Prerequisite: ECON 303.

ECON 487 Resource and Environmental Economics (4) Management and extraction of renewable and non-renewable natural resources; environmental externalities and regulation of air, water, and land pollution; market incentives versus direct regulation. Prerequisite: ECON 303.

ECON 490x Directed Research (2-8, max 8, FaSpSm) Supervised individual research. Not available for graduate credit.

ECON 495 Honors Thesis (4) Individual research supervised by a faculty adviser. Successful completion required for departmental honors degree.

ECON 499 Special Topics (2-4, max 8, FaSpSm) Selected topics in economic theory; history; or policy.

ECON 500 Microeconomic Analysis and Policy (4, Fa) Theories of the household and the firm; product and factor markets; perfect and imperfect competition; welfare criteria. Prerequisite: ECON 303 and ECON 305; corequisite: ECON 401.

ECON 501 Macroeconomic Analysis and Policy (4, Sp) Theories of aggregate economic activity; design and use of macroeconomic models; stabilization and control of inflation, unemployment, and growth. Prerequisite: ECON 303, ECON 305, and ECON 401.

ECON 502 Mathematical Methods in Dynamic Economics (4, SpSm) Movement of economic systems over time; differential and difference equations; introduction to the optimal control of economic processes; dynamic programming and optimal strategies; selected applications. Prerequisite: ECON 401.

ECON 503 Microeconomic Theory I (4, Fa) Optimization of the consumer and the firm; duality and imputed value; perfect and imperfect competition in product and factor markets. Prerequisite: ECON 401; recommended preparation: ECON 500.

ECON 505 Macroeconomic Theory I (4, Fa) Aggregate demand, supply and government policy; theories of economic growth and business cycles; static and dynamic implications of government policies. Prerequisite: ECON 401; recommended preparation: ECON 501, ECON 502.

ECON 513 Practice of Econometrics (4) Application of econometric tools using standard econometric software packages for microcomputers; empirical applications to selected economic problems of estimation and inference. Prerequisite: ECON 401.

ECON 514 Probability and Statistics for Economists (4, Fa) Introduction to probability theory and statistical inference to prepare students for graduate courses in econometrics and economic theory; probability, random variables, distributions, estimation, testing, asymptotics. Prerequisite: MATH 226.

ECON 523 Economic History and Development (4) Historical trends in developed and developing societies in various aspects of modernization such as human resources, capital, technology, resource allocation, income distribution, international relations. Prerequisite: ECON 303.

ECON 527 Classical Economic Theory and Its Critics (4) Classical economic theory; its precursors, main contributors, extensions, and critics; focus upon the writings and ideas of Smith, Say, Malthus, Ricardo, Mill, and Marx. Prerequisite: ECON 303 and ECON 305.
ECON 650 International Trade Theory (4) General equilibrium theory applied to theory and practice of commercial policy, economic growth, and trade. Prerequisite: ECON 500 or ECON 503.

ECON 651 International Monetary Theory (4) Balance of payments concepts and measures; price theory and the foreign exchange market; international monetary systems; adjustment mechanisms; speculation and official intervention. Prerequisite: ECON 500 or ECON 503 and ECON 501 or ECON 505.
### ECON 652 Economics of Financial Markets II (4, Sp)
Financial market equilibrium and partial equilibrium asset pricing in discrete and continuous time; properties of equilibria with and without complete markets; theory of option prices; Black-Scholes pricing formula; term structure of interest rates; hedging strategies and managing market risk using options, futures and swaps; hedging exchange-rate risks. (Duplicates credit in former ECON 700.) Prerequisite: ECON 503.

### ECON 653 Empirical International Economics (4)
Empirical treatment of advanced topics in international finance including the determination of real and nominal exchange rates; stabilization policies in developing currencies and currency crisis models. Econometric methods in analyzing foreign exchange data and in forecasting. Prerequisite: ECON 501, ECON 513; recommended preparation: ECON 625, ECON 651.

### ECON 659 Economics of Financial Markets I (4, Fa)
Equilibrium model of finance economy; absence of arbitrage; complete and incomplete markets; asset pricing theory; representative agent pricing. Capital Asset Pricing Model, martingale property of security prices. Prerequisite: ECON 503.

### ECON 671 Economics of Labor and Human Capital (4)
A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. Prerequisite: ECON 500 or ECON 503.

### ECON 673 Program Evaluation (4)
This course first proposes various means of evaluating an economic program. It then applies the tools to specific problems. Prerequisite: ECON 500 or ECON 503; ECON 511.

### ECON 680 Industrial Organization (4)
Decision making, economic behavior and organization in firms; types of competition and market structure; property rights, nonprofit decision making. Prerequisite: ECON 500 or ECON 503.

### ECON 681 Economics of Regulated Industries (4)
Theories and methods of government regulation; effects of regulation on various industries; behavior of regulatory agencies. Prerequisite: ECON 500 or ECON 503.

### ECON 688 Empirical Industrial Organization (4)
Econometric analysis of industrial organization issues including industry regulation and deregulation, collusion and pricing in differentiated oligopolistic markets, entry and exit, auction mechanisms, contractual relationships. Recommended preparation: ECON 600, ECON 603, ECON 612, ECON 615, ECON 680. Prerequisite: ECON 503 and ECON 603.

### ECON 690 Seminar in Economic Theory (2, max 8, FaSp)
Current research in economic theory presented by faculty, students and outside scholars. Graded CR/NC.

### ECON 691 Seminar in Econometrics (2, max 8, FaSp)
Current research in econometrics presented by faculty, students and outside scholars. Graded CR/NC.

### ECON 692 Seminar in Economic Development (2, max 8, FaSp)
Current research in international, regional, and urban development economics presented by faculty, students and outside scholars. Graded CR/NC.

### ECON 693 Seminar in Applied Economics and Public Policy (2, max 8, FaSp)
Current research in applied microeconomics, macroeconomics and public policy presented by faculty, students and outside scholars. Graded CR/NC.

### ECON 694 Seminar in Dynamic Economics (2, max 8, FaSp)
Topics in dynamic economics involving business fluctuations, economic growth and development, micro-economic adjustments and market mechanisms; related quantitative and qualitative methods; empirical research involving economic change. Graded CR/NC.

### ECON 695 Internship in Mathematical Finance (4, Sm)

### ECON 696 Empirical Microeconomics Seminar (2, max 8, FaSp)
Presentations on current research in empirical microeconomics by outstanding scholars from leading economics departments and faculty at USC. Open only to economics Ph.D. students.

### ECON 715 Advanced Topics in Econometrics (4)
Time-series methods; aggregation; structural models and methods such as factor analysis and multiple indicator models; various special topics. Prerequisite: ECON 612 and ECON 613.

### ECON 790 Research (1-12, FaSpSm)
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

### ECON 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm)
Credit on acceptance of dissertation. Graded IP/CR/NC.

Undergraduate Degrees

Undergraduate Programs
The Department of English offers a broad range of courses in English, American and Anglophone literature of all periods and genres, and in related areas such as creative and expository writing, literature and visual arts, ethnic literature and cultural studies, history of the English language and of literary criticism, and literary and cultural theory. Instructors assign extensive reading and writing in order to help students become perceptive readers, critical thinkers and strong writers. Class sizes are kept at 19 to enable full discussion in literature classes and at 12 in creative writing workshops.

Advisement
All students meet with a faculty adviser before registering for courses each semester. Faculty advisers help students shape their majors according to their evolving interests and the requirements of the majors. Students should consult the the director of undergraduate studies and the undergraduate staff adviser about departmental clearances and course substitutions.

Major Requirements for the Bachelor of Arts in English
Undergraduate majors in English are required to take 40 units (usually 10 courses) for a B.A. in English with an emphasis in either literature or creative writing. All majors must take three introductory courses, including at least two from the survey sequence:

- ENGL 261 English Literature to 1800
- ENGL 262 English Literature since 1800
- ENGL 263 American Literature

One introductory course may be from the genre sequence:

- ENGL 290 Cultural Studies: Theories and Methods
- ENGL 298 Introduction to the Genre of Fiction
- ENGL 299 Introduction to the Genre of Poetry

Students should take at least two introductory courses before enrolling in upper-division literature courses or creative writing workshops.

Majors emphasizing English literature must take seven upper-division courses, including two courses in literature written before 1800, one course in 19th-century literature, one course in American literature, and two electives.

Majors emphasizing creative writing must take seven upper-division courses, including two introductory creative writing workshops in poetry and prose, and a third workshop at the 400-level. The remaining upper-division courses must include one course in literature written before 1900, one course in literature written after 1900 and one elective.

All major students must complete ENGL 491 Senior Seminar in Literary Studies.

Requirements for a Minor in English
The minor in English requires 20 units, or five courses, including at least two introductory courses (from among ENGL 261, ENGL 262 and ENGL 263) and at least three upper-division courses including one in literature written before 1800 and one in American literature. An English minor may enroll in no more than one creative writing workshop.

Bachelor of Arts in Narrative Studies
Narrative Studies prepares students for the development and evaluation of original content for novels, films, theatre and other narrative platforms, but recognizes that the range of professional opportunities in literature and the performing arts is much wider than the roles of author, screenwriter or playwright. To recognize a good story, to critique, help shape, realize and transform it, requires a background in the history of narrative, cross-cultural and contemporary models, and an understanding of the broader context of popular culture.

Narrative Studies assumes that an effective narrative will be adapted from the medium in which it first appears as new media become available. To prepare students for a future in which the platform is likely to change, the Bachelor of Arts in Narrative Studies allows students to study across the current platforms while concentrating on the techniques of effective construction common to them all.
In so doing, it draws upon course work from several schools of art but finds its home in the humanities. To help develop the flexibility necessary to understand how stories change across platforms, students are expected to complete at least three courses in literary and three courses in performance-based media. The remaining three courses may be chosen to reflect the student's personal preference and initial career aspirations.

MDA 490 Directed Research or MDA 494 Directed Creative Projects are capstone experiences; Students work under the guidance of a faculty member in a relevant discipline or professional field, which may include full-time faculty from the college or the participating schools of the arts. Projects intended for the stage should be done under the direction of School of Theatre faculty.

**REQUIREMENTS**

<table>
<thead>
<tr>

**ENGLISH**
The minor focuses on the interplay of literary and historical methodologies while promoting an area study in a wide context. Majors in any participating department can complement the strengths in their home department with courses in other participating departments; students with majors in most other areas should have room for the 20 units necessary to complete the minor.

Through its Early Modern Studies Institute, USC has recognized that the study of the literatures and cultures of Europe and the Americas prior to 1800 reaches beyond disciplinary boundaries. English studies are also historical, continental, multinational and multilingual. Historical studies are also literary and sociological. Both studies are enmeshed in art history and music. This cross-disciplinary understanding of early modern studies provides a model for research in many areas of the humanities and social sciences. Students who complete this minor will be able to use both literary and historical analyses to investigate other questions in which they are interested.

The minor requires 20 units. As with all minors, students must include at least four upper-division courses and four courses dedicated exclusively to this minor (not used for credit toward a major, another minor or general education requirements). Students must select four courses outside their major department.

**Requirements, Lower Division**

Choose one, 4 units:
- AHIS 230 Art and Culture in Early Modern Europe
- ENGL 261 English Literature to 1800
- HIST 103 The Emergence of Modern Europe

**Requirements, Upper Division**

Choose at least one course from each of the following four categories:

- Literary Studies (4 units):
  - ENGL 420, ENGL 421, ENGL 422, ENGL 423, FREN 351, FREN 470, FREN 471, FREN 472, ITAL 350, ITAL 430, ITAL 435, SPAN 350, SPAN 352

- Historical Analysis (4 units):
  - AHIS 304, AHIS 343, AHIS 344, AMST 446, HIST 309, HIST 312, HIST 316, HIST 325, HIST 331, HIST 410, PHIL 320
Case Studies in Early Modern Discourse and History (4 units): AHIS 430, AHIS 433, AHIS 453, AMST 373, ENGL 430, ENGL 444, ENGL 461, ENGL 465, ENGL 469, HIST 307, HIST 318, HIST 349, HIST 351, HIST 370, HIST 408, HIST 470, HIST 473, HIST 474, ITAL 450, MPEM 450, PHIL 421, PHIL 422, PHIL 423, SPAN 455, SPAN 460, THTR 302, THTR 313, THTR 354, THTR 380

Senior Seminar in Early Modern Studies (capstone): ENGL 497 Seminar in Early Modern Studies 4

Double Majors
The department strongly encourages majoring in both English and in another department in the USC Dornsife College of Letters, Arts and Sciences or in another school of the university.

English Honors Program
Candidates for the B.A. in English can receive a designation on their transcripts of departmental honors by successfully completing a senior honors thesis while enrolled in ENGL 496, and having a 3.5 final GPA. ENGL 491 Senior Seminar in Literary Studies is a prerequisite for ENGL 496. Students with a minimum GPA of 3.0 overall and 3.5 in English courses can apply for ENGL 496; application is due at the start of fall semester of senior year. For additional information, contact a departmental adviser or the director of undergraduate studies.

Teaching Credential Requirements
Credentialed requirements in California and elsewhere are complex and changeable. Interested students interested in preparing for public school teaching should contact the Credentials Office, Rossier School of Education (or refer to page 567), and the graduate adviser in the English department for up-to-date information. The English department usually offers courses that satisfy most, if not all, of these requirements.

Graduate Degrees

Admission Requirements
Requirements for admission to study in the department of English include: scores satisfactory to the department in both the verbal and quantitative General Test and the literature Subject Test of the Graduate Record Examinations; evidence of competence in writing English and interpreting English literature, as demonstrated by two samples of written work by the applicant on literary subjects; a satisfactory written statement by the applicant of aims and interests in graduate work; letters of recommendation from at least three college instructors (English instructors preferred); and grades satisfactory to the department earned by the applicant at other institutions.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Arts in English
The department does not accept applicants for a Master of Arts degree. All graduate work in English at USC is taken as part of a Ph.D. program, and the M.A. in English is intended only as a transitional degree in the process of completing requirements for the Ph.D.

A student admitted to the graduate program may choose later to earn a terminal M.A. degree, or may be invited by the department to attempt a terminal degree. The terminal M.A. in English may be earned by completing 30 units (normally eight courses) of graduate study in English or in other departments at USC (as approved by the graduate director) with an accumulated GPA of at least 3.0, and by passing the screening procedure.

Doctor of Philosophy in English
Students may earn the Ph.D. in English by successfully completing requirements in the English and American literature track.

English and American Literature
Application deadline: December 1

This program prepares students for research and teaching in all areas of English and American literary studies. The program offers the study of texts in their historical and cultural contexts as well as theoretical, interdisciplinary and cross-cultural approaches to literature.

Graduate Curriculum and Unit Requirements
The graduate curriculum is divided into 500-level foundation courses and 600-level advanced courses. The 500-level courses offer fundamental work in theory and in the history of British and American literatures and cultures. The 600-level courses feature advanced studies in theory, core requirements in film and literature, interdisciplinary studies, transhistorical studies in genres and sub-genres, individual writers, gender studies, multi-cultural literatures and societies, and special topics. Although students will normally take 500-level courses leading up to the screening procedure (see Screening Procedure) and 600-level courses thereafter, students, after consultation with their advisers, may be permitted to take 600-level courses in the first semesters of their graduate training.

A maximum of four units of 590 Directed Research and four transfer units may count toward the 30 units minimum required for the M.A. degree.

Occasionally students who lack adequate undergraduate training in any given area may be required by the graduate director to enroll in appropriate 400-level courses.

The student’s course work must total at least 64 units. No more than 8 units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units. A maximum of 12 transfer units, approved by the graduate director, is allowed toward the 64 units minimum required by the Ph.D. (See Transfer of Credit, page 343.)

Advisement
The student will be assigned a faculty mentor in his or her first semester in the graduate program and will be encouraged in subsequent semesters to begin putting together an informal guidance committee. The makeup of the guidance committee may change as the interests of the student change. The faculty mentor and informal guidance committee will assist the student in planning a program of study appropriate to the student’s interests leading to the screening procedure.

Screening Procedure
In the semester immediately following the completion of 20 units of courses, the students will be screened. Passing this procedure is requisite to continuation in the doctoral program. The faculty mentor will write a report summarizing the student’s course work, grades and instructor comments. The graduate studies committee will consider the student’s record and determine if he or she is qualified to go on to the Ph.D. On successful completion of screening, the student may apply for the transfer of graduate credit from other institutions, up to a maximum of 12 units.
Guidance Committee
Immediately following successful completion of the screening procedure, the student will nominate formally a five-member guidance committee, including a chair and three other members from the English Department who are in the student’s areas of interest and an outside member from another Ph.D.-granting department. The committee must be in place and approved by the Graduate School at the time the student chooses a dissertation topic, writes the dissertation prospectus and schedules a qualifying examination.

Field Examinations
In the semester following the completion of courses, and before submission of the dissertation prospectus, the student must take the field examinations. These are take-home essays in three broad fields preparatory to the dissertation. The fields are chosen and the questions developed by the student in consultation with a committee of three examiners chosen by the student. The field examinations may be repeated once in the semester immediately following an unsuccessful attempt. The committee may ask the student to retake one, two or all three fields.

Qualifying Examination
Following completion of course work and the field examinations, the student must sit for a qualifying examination, at a time mutually agreed upon by the student and the guidance committee. This is an examination given in the subject of the student's proposed dissertation research. No less than one month before the qualifying examination, the student will submit to the guidance committee a dissertation prospectus. The prospectus, it is understood, will not be a polished dissertation proposal, but at a minimum it should display a strong knowledge of the subject, much of the relevant secondary material and other contexts crucial to the writing of the dissertation, and should present a workable plan of attack as well as a reasonably sophisticated understanding of the theoretical assumptions involved in the subject.

The qualifying examination will consist of both written and oral portions. It will focus on the dissertation area and its contexts with the specific format and content of the examination being negotiated among the student and all members of the examination committee. Upon successful completion of the qualifying examination, the student proceeds to the writing of the doctoral dissertation.

Dissertation
The final stage of the program is the submission of a dissertation that makes an original and substantial contribution to its field of study. Dissertations being written in the department are now richly varied, and this diversity is encouraged.

Foreign Language
Ph.D. students are required to demonstrate proficiency in at least one foreign language. This may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better), or by passing a foreign language exam that tests proficiency in reading comprehension and translation. Ph.D. students may also be required to demonstrate proficiency in additional languages, as determined by the guidance committee in view of the student’s proposed field of research.

Doctor of Philosophy in Literature and Creative Writing
Application deadline: December 1

The program provides dual emphasis in literature and creative writing, culminating in the dissertation, which combines critical analysis with creative originality. Roughly half of the dissertation is based on original research, that is to say, research contributing to knowledge which enriches or changes the field. Doctoral candidates not only read and write texts as finished products of scholarship in researching their creative work’s literary and historical milieu, but also consider the text as writers create it, then compose texts as writers, a process that goes to the source of the study of literature and of literature itself. This integration of literature and creative writing is reflected in the structure of the dissertation, which introduces the creative work within a context of critical inquiry, bringing together the examination and embodiment of the literary act, a new model of scholarship and creative innovation.

Ph.D. candidates in literature and creative writing must pass the same departmental screening examination taken by Ph.D. candidates in Literature who are not working in the area of creative writing. The exam tests students in various areas of emphasis (British literature, American literature, poetry, prose, etc.) and literature and historical periods as a measure of their preparedness to undertake independent research.

The literature and creative writing student takes 64 units in all, 32 in literature, 24 in creative writing workshops and seminars and 8 units of dissertation studies credits.

Admission Requirements
Requirements for admission to study in the department of English include: scores satisfactory to the department in both the verbal and quantitative General Test and the literature Subject Test of the Graduate Record Examinations; evidence of experience and ability in creative writing, as demonstrated by a creative writing sample; evidence of competence in writing English and interpreting English literature, as demonstrated by a sample of written work by the applicant on literary subjects; a satisfactory written statement by the applicant of aims and interests in graduate work; letters of recommendation from at least three college instructors; and grades satisfactory to the department earned by the applicant at other institutions. This program will accept applicants with B.A. degrees or transfer students with an M.A. or MFA in creative writing.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Graduate Curriculum and Unit Requirements
The graduate curriculum is divided into 500-level foundation courses and 600-level advanced courses. The 500-level courses offer fundamental work in theory and in the history of British and American literatures and cultures. The 600-level courses feature advanced studies in theory, creative writing seminars and workshops and special topics. Although students will normally take 500-level courses leading up to the screening procedure (see Screening Procedure) and 600-level courses thereafter, students after consultation with their advisers may be permitted to take 600-level courses in the first semester of their graduate training.

The student’s course work must total at least 64 units. No more than eight units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units. A maximum of 12 transfer units, approved by the graduate director, is allowed toward the 64 units minimum required by the Ph.D. (See Transfer of Course Work, page 85.)

Advisement
The student will be assigned a faculty mentor in his or her first semester in the graduate program and will be encouraged in subsequent semesters to begin putting together an informal guidance committee. The makeup of the guidance committee may change as the interests of the student change. The faculty mentor and informal guidance committee will assist the student in planning a program of study appropriate to the student’s interests leading to the screening procedure.
Screening Procedure
At the end of the student's fourth semester (second semester for students who enter with an M.A. or MFA degree or near equivalent), the student will sit for a departmental examination, which is part of a comprehensive screening procedure. Rarely, and only with the approval of the graduate director and the graduate committee, will a student be allowed to postpone the departmental examination and the screening procedure, and then only for one year. Prior to the screening procedure, the student will be allowed to take a maximum of four units of independent study (ENGL 590), and that independent study will normally be used to prepare for the departmental examination; all other units must be in the 500- or 600-level seminar.

Guidance Committee
Immediately following successful completion of the screening procedure, the student will nominate formally a five-member guidance committee, including a chair and three other members from the English Department who are in the student’s areas of interest and an outside member from another Ph.D.-granting department. The committee must be in place and approved by the Graduate School at the time the student chooses a dissertation topic, and approved by the Graduate School at the time the student chooses a dissertation topic.

Qualifying Examination
Following completion of course work, the student must sit for a qualifying examination, at a time mutually agreed upon by the student and the guidance committee.

This is a field examination given in the subject of the student’s proposed dissertation research. No less than one month before the qualifying examination, the student will submit to the guidance committee a dissertation prospectus. The prospectus, it is understood, will not be a polished dissertation proposal, but at a minimum it should display a strong knowledge of the subject, much of the relevant secondary material and other contexts crucial to the writing of the dissertation, and should present a workable plan of attack as well as a reasonably sophisticated understanding of the theoretical assumptions involved in the subject.

The qualifying examination will consist of both written and oral portions with special emphasis areas in creative writing. It will focus on the dissertation area and its contexts with the specific format and content of the examination being negotiated among the student and all members of the examination committee.

Upon successful completion of the qualifying examination the student proceeds to the writing of the doctoral dissertation.

Dissertation
The final stage of the program is the submission of a creative dissertation that makes an original, substantial and publishable contribution to creative literature: a book of poems, a novel, a collection of short stories.

Foreign Language
Ph.D. students are required to demonstrate proficiency in at least one foreign language. This may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better) or by passing a foreign language exam that tests proficiency in reading comprehension and translation. Ph.D. students may also be required to demonstrate proficiency in additional languages, as determined by the guidance committee in view of the student's proposed field of research.

Common Requirements
Transfer of Credit
A Transfer Credit Statement is prepared by the Degree Progress Department for students admitted to full graduate standing. The application of any available transfer credit to the required units of the Degree Progress Department for students admitted to full graduate standing.

ENGLISH (ENGL)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

ENGL 105x Creative Writing for Non-Majors (4, max 8, FaSp)
Introductory workshop in writing poetry, short fiction and nonfiction for love of the written and spoken word. Not for English major or English (Creative Writing) major credit.

ENGL 250gm The African Diaspora (4, FaSp)
(Enroll in AMST 250gm)

ENGL 261 English Literature to 1800 (4, FaSpSm)
Intensive reading of major writers to 1800.

ENGL 262 English Literature since 1800 (4, FaSpSm)

ENGL 263 American Literature (4, FaSpSm)
Intensive reading of representative writers.
ENGL 285m African American Popular Culture (4, Sp) (Enroll in AMST 285m)

ENGL 290 Cultural Studies: Theories and Methods (4, FaSpSm) Introduction to the theories, methods, and history of cultural studies, with coverage of contemporary debates over censorship and the politics of authorship, originality, and reception.

ENGL 298 Introduction to the Genre of Fiction (4, FaSpSm) An introduction to the close reading of fiction and the understanding of the genre as an aesthetic and historical phenomenon.

ENGL 299 Introduction to the Genre of Poetry (4, FaSp) Historical survey of the traditions of lyric poetry from Shakespeare to the contemporary, examining the genre’s multiple forms of literary, visual, and aural expression.

ENGL 303 Introduction to Fiction Writing (4, FaSp) Introduction to the techniques and practice of writing prose fiction.

ENGL 304 Introduction to Poetry Writing (4, FaSp) Introduction to the techniques and practice of writing poetry.

ENGL 305 Introduction to Nonfiction Writing (4, FaSp) Introduction to the techniques and practice of lyric essay, memoir, personal narrative, and scientific, medical, natural, culinary, and travel writing.

ENGL 350 Literature of California (4) Novels, stories, essays, poems, and plays written in and about California from the Gold Rush to the present.

ENGL 375 Science Fiction (4, FaSp) Investigation of the scope and possibilities of British and American science fiction as a genre, with some attention to its historical development.

ENGL 376 Comics and Graphic Novels (4, FaSpSm) Introduction to issues in visual and popular culture, focused on critical and historical interpretation of words and images in comic books and graphic novels.

ENGL 390 Special Problems (1-4, FaSp) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ENGL 392 Visual and Popular Culture (4, FaSp) Course in the theory and practices of “popular culture,” highlighting modern and contemporary culture, film, video and popular music, as well as narrative forms.

ENGL 395 Junior Honors Seminar (4, Sp) Selected subjects; offered in spring only and restricted to honors students.

ENGL 400 Advanced Expository Writing (2-4, Fa) Intensive practice intended to develop a high level of competence in writing expository prose.

ENGL 401 The Rhetoric of Written Composition (4) Theories of rhetoric as they apply to written composition, with emphasis upon pedagogical applications. The course is designed for but not limited to prospective teachers of English.

ENGL 404 The Writer in the Community (2-4, max 8, FaSp) Apprenticeship with experienced writer-teachers, providing students with a pedagogical framework and practical experience for teaching creative writing in schools and community settings.

ENGL 405 Fiction Writing (4, max 8, FaSp) A practical course in composition of prose fiction. Prerequisite: ENGL 305 or ENGL 303.

ENGL 406 Poetry Writing (4, max 8, FaSp) A practical course in poetry writing. Prerequisite: ENGL 304.

ENGL 407 Advanced Fiction Writing (4, max 8, FaSp) Prerequisite: ENGL 405.

ENGL 408 Advanced Poetry Writing (4, max 8, FaSp) Prerequisite: ENGL 406.

ENGL 409 The English Language (4) Instruction in the major grammatical systems of the English language, with particular emphasis on their relevance to language activities in the elementary classroom.

ENGL 410 History and Grammar of Modern English (4, FaSp) History and grammar of modern English as described by current linguists; comparison with traditional grammar; application of grammar to stylistic analysis.

ENGL 412 Analysis of Written Persuasion (4, FaSp) Persuasive discourse, including structure, intention, and figurative language; analysis of texts in various humanistic, scientific, and socio-scientific disciplines.

ENGL 420 English Literature of the Middle Ages (1100-1500) (4, FaSp) Selected studies in major figures, genres, and themes of Middle English literature to Malory, with special emphasis on Chaucer. Prerequisite: ENGL 261.

ENGL 421 English Literature of the 16th Century (4) Selected studies in the non-dramatic literature of Renaissance England, with emphasis on Sidney, Spenser, and Shakespeare. Prerequisite: ENGL 261.

ENGL 422 English Literature of the 17th Century (4) Selected studies of prose and poetry in the age of Bacon, Donne, Jonson, Herbert, Browne, Marvell, and Milton. Prerequisite: ENGL 261.

ENGL 423 English Literature of the 18th Century (1660-1780) (4) Selected studies in poetry, prose, and fiction of such writers as Defoe, Dryden, Fielding, Richardson, Pope, Swift, and Johnson. Prerequisite: ENGL 261.

ENGL 424 English Literature of the Romantic Age (1780-1832) (4) Selected studies in major writers, including Blake, Austen, Wordsworth, Coleridge, Byron, Mary Shelley, P.B. Shelley, and Keats. Prerequisite: ENGL 262.

ENGL 425 English Literature of the Victorian Age (1832-1890) (4) Selected studies in the prose and poetry of such figures as Tennyson, Dickens, the Brontes, the Brownings, Hopkins, Arnold, Ruskin, and Newman. Prerequisite: ENGL 262.

ENGL 426 Modern English Literature (1890-1945) (4) Studies in English literary modernism, including the prose of Conrad, Joyce, and Woolf and the poetry of Pound, Eliot, Yeats, and Auden. Prerequisite: ENGL 262.

ENGL 430 Shakespeare (4, FaSp) Major history plays, comedies, and tragedies.

ENGL 440 American Literature to 1865 (4, FaSp) American poetry and prose to the Civil War with special attention to Irving, Cooper, Poe, Hawthorne, Emerson, Thoreau, Melville, and Whitman. Corequisite: ENGL 263.

ENGL 441 American Literature, 1865 to 1920 (4, FaSp) American poetry and prose with special attention to Twain, James, Dickinson, Henry Adams, Crane, and Dreiser. Corequisite: ENGL 263.

ENGL 442 American Literature, 1920 to the Present (4, FaSp) American poetry, fiction, and drama since World War I with special attention to Eliot, Frost, Hemingway, Fitzgerald, O’Neill, Stevens, Faulkner, and Nabokov. Corequisite: ENGL 263.

ENGL 444m Native American Literature (4, FaSp) Survey of Native American literature, including oral traditions and print genres, such as short story, poetry, novel, and autobiography, from 1700 to the present. Recommended preparation: ENGL 263.
ENGL 445m The Literatures of America: Cross-Cultural Perspectives (4) Introduction to African-American, Chicano, Asian American, and Native-American literatures — and to the literary diversity of American cultures.

ENGL 446 African-American Poetry and Drama (4) Survey of black poetry and plays in America from the Emancipation to the present, with special emphasis on the new poets and dramatists of the current “Black revolution.”

ENGL 447m African-American Narrative (4) Development of the novel in African-American literature beginning with the anti-slavery fiction of William W. Brown and his pre-Emancipation contemporaries and culminating with the emerging novelists of the late sixties.

ENGL 448m Chicano and Latino Literature (4, FaSp) (Enroll in AMST 448m)

ENGL 449m Asian American Literature (4, FaSp) (Enroll in AMST 449m)

ENGL 451 Periods and Genres in American Literature (4, max 8, FaSp) A concentrated reading and criticism of the works of one period or one genre of American literature; for example, colonial literature, the American Renaissance, American poetry, American drama.

ENGL 452 Modern Poetry (4) Study of poetry written in English from 1900 to 1945, with special emphasis on American modernists of the first two decades. Recommended preparation: ENGL 262, ENGL 263.

ENGL 454 Aesthetic Philosophy and Theory (4) (Enroll in COLT 454)

ENGL 455 Contemporary Prose (4) Study of prose written in English since 1945, primarily fiction of the past two decades.

ENGL 456 Contemporary Poetry (4) Study of poetry written in English since 1945, with special emphasis on the last two decades.

ENGL 461 English Drama to 1800 (4, FaSp) Representative plays, especially those of the Elizabethan, Jacobean, and Restoration periods. Corequisite: ENGL 261.

ENGL 463 Contemporary Drama (4) Selected British, Irish, and American drama from the post-World War II period (1945 to the present).

ENGL 465 The English Novel to 1800 (4) Theory and practice of fiction in works of writers such as Defoe, Richardson, Fielding, Sterne, Burney, and Smollett. Corequisite: ENGL 261.

ENGL 466 The 19th Century English Novel (4) Theory and practice of fiction in works of major writers such as Austen, Dickens, Thackeray, George Eliot, Meredith, and Hardy. Corequisite: ENGL 262.

ENGL 467 The Modern Novel (4, FaSp) Studies of the narrative experiments and innovations in fiction following the realist novel; emphasis on gender, empire and class and the pluralities of “modernisms.”

ENGL 469 Women in English Literature before 1800 (4) English poetry, plays, novels, and discursive prose by and about women from 1375 to 1800.

ENGL 470 Women in English and American Literature after 1800 (4) Women as writers and as subjects, with special emphasis on feminist and liberationist traditions and on changing female images after 1800.

ENGL 471 Literary Genres and Film (4, FaSp) Literary studies in the relationship between fiction and drama and their adaptation as films.

ENGL 472 Literature and Related Arts (4, FaSp) An examination of how literature and related arts intersect in a particular cultural milieu. Selected topics.

ENGL 473 Literature and Society (4, FaSp) Theoretical and applied studies of literature in English as social activity and cultural production; its expression of, and influence upon, social values, concepts, and behavior.

ENGL 474 Literature, Nationality and Otherness (4, FaSp) English literature written about or in the British colonies and their post-colonial nations, including African, Asian, Pacific, and American countries. Emphasis on texts by other than British and United States authors. Completion of general education literature requirement highly recommended.

ENGL 475 Politics and the Novel (4) (Enroll in COLT 475)

ENGL 476m Images of Women in Contemporary Culture (4, FaSp) Representations of women and gender relations in contemporary literature and mass culture, using the tools of feminist, literary, and political theory.

ENGL 478m Sexual/Textual Diversity (4, FaSp) Questions of gay and lesbian identity, expression and experience in a variety of literary and cultural forms; emphasis on sexual politics, equality and difference.

ENGL 479 History of Literary Criticism (4, FaSp) Philosophies of literary criticism from Plato to the end of the 19th century; the relationship between literary criticism and its contemporary literature.

ENGL 481 Narrative Forms in Literature and Film (4, FaSp) Critical approaches to narrative form in literature and film; readings and films from several genres and periods, emphasis on gender, ethnic, and cultural studies.

ENGL 490x Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

ENGL 491 Senior Seminar in Literary Studies (4, FaSpSm) Selected problems in literary history and criticism.

ENGL 495 Senior Honors Seminar (4, Fa) Advanced seminar involving extensive reading, research, and discussions. Selected subjects; offered in Fall only and restricted to Honors students.

ENGL 496 Senior Honors Thesis (4, Sp) Seminar in workshop form to accompany completion of Senior Honors Thesis. Bi-weekly meetings to complete thesis according to contract. Prerequisite: ENGL 395, ENGL 495.

ENGL 497 Senior Seminar in Early Modern Studies (4, Sp) Intensive engagement with current research, problems, and methodologies in Early Modern discourses and cultures. Required capstone seminar for interdepartmental minor in early modern studies. Open only to seniors; open only to early modern studies minors.

ENGL 499 Special Topics (2-4, max 8, FaSp) Studies in the works of one or more authors, or in the development of a theme or genre.

ENGL 501 History of Literary and Cultural Theory (4) The assumptions and practices of major theorists and theoretical schools from Plato to literary modernism.

ENGL 502 Contemporary Literary and Cultural Theory (4) The assumptions and practices of major post-modern theorists and theoretical schools.
ENGL 503 Theories of History, Ideology and Politics (4) The principal ways in which history, ideology, and politics have informed the study of literary and cultural discourse.

ENGL 504 Theories of Race, Class, and Gender (4) The principal methods and assumptions by which race, class, and gender have been studied in reference to literary and cultural discourse.

ENGL 507 Rhetoric and Language (4) Examination of critical and linguistic theories; may include the changing structures of English discourse, cognitive poetics, and discourse analysis.

ENGL 510 Medieval English Literatures and Cultures (4, max 12) Investigations of chivalry and romance, allegory, drama, popular literature in the Middle Ages, the reception of medieval literature, and other topics.

ENGL 520 Renaissance English Literatures and Cultures (4, max 12) Studies in poetry and patronage, the popular tradition in literature and drama, the social and sexual dynamics of comedy, historical and cultural uses of genres, among other topics.

ENGL 530 Restoration and 18th Century British Literatures and Cultures (4, max 12) Studies in prose, poetry, drama, and culture of the period 1660-1800.

ENGL 535 Literatures and Cultures of the Romantic Period (4, max 12) Studies in British literature and culture, from the 1790s to 1830s, including gender and genre, authorship and authenticity, “romance” and revolution, forms of belief and doubt, and other topics.

ENGL 536 Literatures and Cultures of the Victorian Period (4, max 12) Studies in British literature and society, 1837-1901, including gender and genre, industrialism, science and technology, empire and race, new forms of media and narrative, and other topics.

ENGL 540 19th Century British Literatures and Cultures (4, max 12) Studies in the Romantics and Victorians, gender and genre, the new woman and the novel, authorship and the marketplace, science, imperialism, the crisis of narrative, and other topics.

ENGL 550 20th Century British Literatures and Cultures (4, max 12) Studies in literary modernism, critical scrutiny and moral seriousness, poetry and politics, the Irish revival, and other topics.

ENGL 560 Early American Literatures and Cultures (4, max 12) Studies in the literature of discovery, exploration and conquest, the Puritan migration, literary genres in Colonial America, history and myth of American origins, and other topics.

ENGL 563 Poetry and Prose Into Drama (4, Fa) (Enroll in THTR 501)

ENGL 570 18th Century American Literatures and Cultures (4, max 12) Studies in the rhetoric, literature, and language of the pre-revolutionary and revolutionary periods, narrative and polemical writing, the American Enlightenment, and other topics.

ENGL 580 19th Century American Literatures and Cultures (4, max 12) Studies in canonic and non-canonic literature in the American Renaissance, cultural nationalism, the consequences of race, immigration, expansion, urbanization, science, and the marketplace, and other topics.

ENGL 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ENGL 591 20th Century American Literatures and Cultures (4, max 12) Studies in rural and urban fictions, modernism, the shift from imagism and symbolism to confessional poetry, recovered writers, hemispheric traditions, literature and kindred arts, and other topics.

ENGL 592 Contemporary British and American Literatures and Cultures (4, max 12) Studies in contemporary women and ethnic writers, “extra-literary” forms (journalism, autobiography), the theatre of the absurd, post-modern fabulations, and other modes and issues since World War II.

ENGL 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

ENGL 595 Literary Studies Across Cultures (4, max 12) Studies in Empire and Commonwealth literatures, post-colonialism, American hemispheric connections, African-American literary discourse, Asian American writers, dialects and the folk, and other topics.

ENGL 599 Special Topics (2-4, max 8) Thematic, theoretical, or experimental studies in British and American literatures and cultures. (Duplicates credit in former ENGL 699.)

ENGL 605 The History of Rhetoric (4, max 12) Studies in European and American rhetoric and their contexts.

ENGL 606 Rhetoric and the Teaching of Writing (4, max 12) Studies in the rhetoric of written composition, critical theory and pedagogy, and other topics.

ENGL 610 Theory and Criticism (4, max 12) Studies in meaning and meaning-making, form, comparative theory, theories of history and culture, theory in the classroom, and other topics.

ENGL 620 Literature and Interdisciplinary Studies (4, max 12) Issues and theory of studying literature in relation to history, science, politics, psychology, religion, sociology, media, the visual arts, and other disciplines.

ENGL 630 Studies in Gender (4, max 12) History and ideology of gender studies, feminist theory, gay and lesbian discourse, and other studies in feminisms and masculinities in relation to literature.

ENGL 640 Individual Writers (4, max 12) Studies in major and minor, canonic and non-canonic writers.

ENGL 650 Multicultural Literary Studies (4, max 12) Theories of race and ethnicity, cultural imperialism, discourse of power and class, literatures of the Americas, and other topics.

ENGL 660 Studies in Genre (4, max 12) History, transformation, and theory of genre; studies in epic, lyric, drama, comedy, tragedy, the novel, biography, essay, and other forms.

ENGL 678 Seminar in Film Theory and Medium Specificity (4, max 8) (Enroll in CTCS 678)

ENGL 679 Seminar in Genre and/or Narrative Theory (4, max 8) (Enroll in CTCS 679)

ENGL 695 Graduate Fiction Form and Theory (4, max 12) Seminar. Studies in fiction form and function or critical theory.

ENGL 696 Graduate Poetry Writing Workshop (4, max 12) Intensive practicum in advanced level poetry writing, intended to develop high level creative compositional ability. Open only to Creative Writing Ph.D. degree candidates.

ENGL 697 Graduate Fiction Writing Workshop (4, max 12) Intensive practicum in advanced level fiction writing, intended to develop high level creative compositional ability. Open only to Creative Writing Ph.D. degree candidates.
ENGL 698 Graduate Poetry Form and Theory (4, max 12) Seminar. Studies in poetry form and function or critical theory.

ENGL 700x Theories and Practices of Professional Development I (2, FaSp) A structured environment in which to craft a research project, write a dissertation prospectus, and define areas of professional expertise. Graded CR/NC. Not available for degree credit. Recommended preparation: passage of screening exam.

ENGL 701x Theories and Practices of Professional Development II (2, Fa) This two-credit course helps ABD students craft their professional identities and placement materials as they make the transition from graduate school to their academic position. Not available for degree credit. Graded CR/NC.

ENGL 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Email: environ@dornsife.usc.edu
dornsife.usc.edu/environment

Director: James F. Haw, Ph.D.

Faculty
Professors: Katrina Edwards, Ph.D (Biological Sciences); Thomas Flood, Ph.D. (Chemistry); James Haw, Ph.D. (Chemistry); Mark Thompson, Ph.D. (Chemistry)

Assistant Professor: Roderick McKenzie, Ph.D.

Associate Professors of the Practice: Juliana Wang, Ph.D.; Yael Wolinsky-Nahmias, Ph.D.

Lecturers: Lisa Collins, Ph.D.; David Ginsburg, Ph.D.

Adjunct Professor: Matthew Cahn, Ph.D.

Undergraduate Programs
The Environmental Studies program offers students either a B.A. or B.S. degree. Within each degree there are three concentrations, all built upon a central, interdisciplinary 48-unit core. The common core has three sets of components. Courses taught by environmental studies faculty provide opportunities for environmental studies majors to meet as a group throughout their undergraduate experience. A set of social science core courses focuses on environmental problems from political, legal, economic and international perspectives. Specially designed one-semester surveys of biology, earth science and chemistry provide the natural science competency for subsequent policy or science advanced course work in environmental studies. The latter courses are taught to focused student populations including those who have secondary school preparations emphasizing social sciences more than the natural sciences. The three concentrations are: sustainability, energy and society; oceans, life and people; and climate, earth and environment. Each concentration culminates in the capstone experience of a senior seminar focusing on environmental problem-solving by interdisciplinary teams. A single 24-unit environmental studies minor is derived from the core major curriculum.

The Environmental Studies program emphasizes the interdisciplinary nature of environmental problems. Some of the major courses are team-taught by faculty with complementary backgrounds in science and policy. A number of opportunities are provided for field studies from the urban Los Angeles environment to marine protected areas on the coasts of the California Channel Islands. More intensive field study opportunities include “Problems Without Passports” courses with international components, and the Santa Catalina Island semester. Note that some of the field studies opportunities require travel to remote, rural locations and study under sometimes physically and mentally demanding conditions. These trips require a willingness to conform to the announced guidelines for conduct and safety.

All undergraduate Environmental Studies majors should complete at least 24 units of the core curriculum before attaining junior status. This should include satisfactory completion of at least two of the natural science core courses, ENST 100 and the statistics course.

Graduate Programs
The Master of Arts degree program in environmental studies is also interdisciplinary and focuses on public policy and its related facets. Those who graduate with an M.A. in environmental studies are well prepared to pursue careers in policy, planning or management in the public, private or nonprofit sector in either this country or abroad. In addition, the curriculum provides students with a foundation for acquiring a Ph.D. in environmental studies or a related field, or a law degree. Individuals who are already employed in the pollution control and remediation field will find the M.A. degree attractive as well. Upon completion of the graduate program, students will possess extensive knowledge of environmental science, environmental statistics and economics, law and regulation, policy and planning, development and economic growth, and global issues and problems.

The Master of Science degree in environmental risk analysis focuses on providing advanced professional training for students with a B.S. degree in natural sciences or engineering. Students will pursue a core program encompassing science, engineering and finance supplemented with important skills courses in risk assessment, statistics and computer modeling and simulations. Those who graduate with the M.S. degree will be well prepared to pursue professional careers in business and industry, which build on their degrees in the natural sciences. This degree will produce individuals with the analytical and problem-solving skills of natural scientists combined with the necessary training in finance and management needed in the business world.
Catalina Semester
This expanded program is specifically designed for both environmental studies and biological sciences majors and for students in any field who want to minor in environmental studies. The semester is sponsored by the USC Wrigley Institute for Environmental Studies and held at USC’s Philip K. Wrigley Marine Science Center on Catalina Island each fall and spring semester. The courses are taught by USC faculty and are specialized to take advantage of the unique facilities and settings of Catalina Island. Students generally enroll in 16 units. Students will live on Catalina Island for the entire semester, and transportation back to the mainland is generally available on the weekends. Rates for room and board at the USC Wrigley Marine Science Center are comparable to those on campus. For more information, students should contact their adviser or the USC Wrigley Institute Offices at Alan Hancock Foundation 410 on the University Park Campus, (213) 740-6780.

of 3.2 or higher in all courses taken at USC is preferred. A 3.2 GPA does not guarantee acceptance. For more information about progressive degrees, see page 86.

Requirements for the Minor in Environmental Studies

Core introductory course: ENST 500: Introduction to Environmental Studies

ENST 501* Earth Climate: Past, Present and Future 4
ENST 450* Case Studies of Green Business 4
IR 323 Politics of Global Environment 4

One elective course chosen from:
- BISC 103Lx General Biology for the Environment and Life 4
- CHEM 103Lx General Chemistry for the Environment and Life 4
- GEOL 160L* Introduction to Geosystems 4

Total units: 24

*ENST 387x is a prerequisite for ENST 450. ENST 100 is a corequisite for GEOL 160L.

Graduate Degrees

Master of Arts in Environmental Studies

The master’s degree program in environmental studies focuses on issues and problems concerning public policy. A main goal of the graduate program is to educate students who already have a good grounding in the natural sciences about central theories, concepts and principles in public policy. A minimum of 41 units is required to receive an M.A. in environmental studies.

All students have a common point of entry into the graduate program. ENST 500 Introduction to Environmental Studies is broad and interdisciplinary. It provides students with an introduction to the field and to the different concentrations in the program. POSC 546 Seminar in Environmental Policy represents the second required core course. It offers students an overview of environmental politics, policy and regulations. Environmental science courses — ENST 501, ENST 502, ENST 503 and ENST 504 — expose students to critical scientific principles, concepts and issues related to pollution control, remediation and ecology. Students must also obtain a background in statistics and economics by taking ENST 510 Statistics for Environmental Analysis (or an equivalent course in the social sciences) and ECON 487 Resource and Environmental Economics. Finally, all students must complete the capstone course, ENST 595 Graduate Seminar in Environmental Studies.

Students who enroll in the master’s degree program must pursue one of three concentrations: global environmental issues and development; law, policy and management; and environmental planning and analysis. Each one differs in professional training and educational focus and, perhaps most importantly, exposes students to fields and areas of knowledge that are closely and critically connected to today’s most vexing environmental policy problems.

The concentration in global environmental issues and development introduces students to the social, political and economic dynamics that underlie regional and global environmental problems and seeks to unravel the complex interrelationships between political economy, population growth and development in the Pacific Rim and elsewhere in the world.

The concentration in law, policy and management is intended for those who wish to work (or already work) in government agencies, private companies and non-profit organizations (e.g., environmental groups). Students learn about the interconnections that exist between law, public policymaking, management (i.e., the administration of human and financial resources) and environmental issues.

The third concentration, environmental planning and analysis, is for students who wish to study technical matters related to land use planning and analysis. This concentration seeks to train students who wish to work (or who are already working) for planning departments, planning commissions and consulting firms.

A master’s thesis is not required for the M.A. degree.

Required Courses and Concentrations

A minimum of 41 units is required. All courses are four units unless otherwise noted.

Environmental regulation and policy course:

POSC 546 Seminar in Environmental Policy 4

*ENST 502 and 504 are corequisites for ENST 501 and 503, respectively, and ENST 501 is a prerequisite for ENST 503.
Admission
Advisement for the graduate program in environmental studies is viewed as an ongoing process. Before entering graduate school and during the first months of graduate school, each student should work with the director of the Environmental Studies Program on devising a plan for completing his or her course work.

Degree Requirements
The master’s degree in environmental studies is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Admission Requirements
Students who wish to enter the Master of Arts program in environmental studies are expected to have a GPA of at least 3.0 (A = 4.0). Students with a baccalaureate degree in any major will be admitted into the program as long as they have completed a year of biology, a year of chemistry, a course in earth sciences and a course in each of the following areas: a course in either earth, life, or physical sciences or engineering; a course in statistics (or calculus); and an introductory human environment, social ecology or environmental studies course in the social sciences. It is recommended that students take a science course in ecology and a course in economics at the undergraduate level prior to applying for admission. The director of the Environmental Studies Program will consider relevant course work and work experience as a possible substitute for the required and recommended course work.

Selection Criteria
Selection for graduate study is based on letters of reference, the student’s previous academic record, the Graduate Record Examinations and a statement of purpose for graduate study.

Application Procedure
Applicants should contact the Environmental Studies Program office for an admission package. All applicants should return their applications by March 1 for full consideration. The following components of the application are required: (1) a completed USC Application for Admission to Graduate Studies, (2) official transcripts of all undergraduate and graduate course work taken to date, (3) the results of the General Test of the GRE or notification of when it will be taken and that a request has been made to send the results to USC and (4) at least three letters of recommendation from persons directly familiar with the student’s academic work and potential for successful graduate study.

Master of Science, Environmental Risk Analysis
The focus of the M.S. Environmental Risk Analysis degree is on advanced training for students with an existing science background. Students will enter the M.S. program with a B.S. degree in a core natural science field or in engineering, environmental science and certain fields of geography. Students take a core curriculum in science, engineering and finance, which is supplemented by important tools courses in risk assessment, statistics and computer modeling. Students learn about the basics of environmental science in a two-semester combination of courses and seminars (ENST 501, ENST 502, ENST 503, ENST 504). An advanced environmental science seminar (ENST 505ab) is offered in a two-semester sequence and ties together science, technology and finance with risk assessment and policy. The first semester of the course is devoted to analyzing case studies taken from business, industry and government. During the second semester students work on a project that employs the tools they have acquired in linking science, policy, technology and finance.

A master’s thesis is not required for the M.S. degree. The M.S. degree in environmental risk analysis will give students the quantitative skills needed to understand and assess environmental risks and to use that information in business, industry, government and society.

Required Courses
A minimum of 48 units is required.

DEGREE REQUIREMENTS

Environmental Science

UNITS

ENST 501* Environmental Science 1 2
ENST 503 Environmental Science II 2
ENST 502 Environmental Science Seminar I 1
ENST 504 Environmental Science Seminar II 1
ENST 505ab Advanced Environmental Science Seminar 2-2

*ENST 502 and 504 are corequisites for ENST 501 and 503, respectively, and ENST 501 is a prerequisite for ENST 503.

NATURAL SCIENCE

One graduate-level science course from outside undergraduate major and two graduate-level science courses

FINANCE

UNITS

GSBA 510 Accounting Concepts and Financing Reporting 3
GSBA 543 Managerial Perspectives, or 3
MOR 569 Negotiation and Deal-Making 3
GSBA 548 Corporate Finance 3

TECHNICAL SKILLS

UNITS

ENST 510 Statistics for Environmental Analysis 4
One modeling course
Two technology/engineering courses

Admission Requirements
Students who wish to enter the Master of Science program in environmental risk analysis are expected to have a GPA of at least 3.0 (A = 4.0). Students with a baccalaureate degree in the natural sciences, mathematics, environmental science, geography and engineering will be admitted into the program. It is recommended that students have completed an introductory human environment, social ecology or environmental studies course in the social sciences as well as a course in economics and/or environmental policy. The director of the Environmental Studies Program will consider relevant course work and work experience as a possible substitute for the required and recommended course work.

Selection Criteria
Selection for graduate study is based on letters of reference, the student’s previous academic record, the Graduate Record Examinations and a statement of purpose for graduate study.
Application Procedure
Applicants should contact the Environmental Studies Program office for an admission package. All applicants should return their applications by March 1 for full consideration. The following components of the application are required: (1) a completed USC Application for Admission to Graduate Studies; (2) official transcripts of all undergraduate and graduate course work taken to date; (3) the results of the General Test of the GRE or notification of when it will be taken and that a request has been made to send the results to USC; and (4) at least three letters of recommendation from persons directly familiar with the student’s academic work and potential for successful graduate study.

Advisement
Advisement for the graduate program in environmental studies is viewed as an ongoing process. Before entering graduate school and during the first months of graduate school, each student should work with the director of the Environmental Studies Program on devising a plan for completing his or her course work.

Courses of Instruction

ENVIRONMENTAL STUDIES (ENST)
The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

ENST 100 Introduction to Environmental Studies (4, FaSp) Gateway to the majors and minors in Environmental Studies. Provides students with an overview of how government agencies and societal institutions address (or fail to address) the interconnected social and scientific aspects of environmental problems and policies.

ENST 150xq Environmental Issues in Society (4, Fa) Exploration of the major social, political, economic, religious, and philosophical disagreements that exist between scholars, leaders, and citizens concerning today’s most serious environmental issues and problems. Not available for major or minor credit to environmental studies majors and minors.

ENST 201 Introduction to Applied Environmental Science and Engineering (4) (Enroll in ENE 201)

ENST 255 American Environmentalism (4) (Enroll in GEOG 255)

ENST 260Lg Natural Hazards (4) (Enroll in GEOG 260Lg)

ENST 270 Introduction to Environmental Law and Politics (4, Sp) (Enroll in POSC 270)

ENST 298L Introduction to Scientific Diving (2, Sp) Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. Laboratory, 2 hours. Recommended preparation: Background in natural science and/or environmental studies is strongly recommended.

ENST 320ab Water and Soil Sustainability; Energy and Air Sustainability (a: 4, Fa; b: 4, Sp) Overview of issues related to water and soil sustainability including science, policy and business aspects. (ENST 320a: Duplicates credit in former ENST 420.)

Recommended preparation: ENST 100. (ENST 320b: Duplicates credit in former ENST 430.)

ENST 323 Politics of Global Environment (4) (Enroll in IR 323)

ENST 345 Conservation of Natural Resources (4) (Enroll in GEOG 345)

ENST 347 Environmental Law (4) (Enroll in POSC 347)

ENST 360 Environmental Disasters (4) (Enroll in GEOG 360)

ENST 370 Marine and Coastal Environmental Policy (4, Sp) Survey of major environmental policies both international and domestic as they relate to fisheries, shipping, pollution, seaports and coastal management. Recommended preparation: ENST 100, ENST 387.

ENST 387x Economics for Natural Resources and the Environment (4, Fa) An introduction to the economic tools and issues that affect natural resource use and environmental management. Not available for major credit to Economics majors.

ENST 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ENST 396 Directed Governmental and Political Leadership Internship (2-8, max 8) (Enroll in POSC 395)

ENST 400 Environmental Engineering Principles (3) (Enroll in ENE 400)

ENST 422 Ecological Security and Global Politics (4) (Enroll in IR 422)

ENST 427 The Global Environment (4, Sp) (Enroll in BISC 427)

ENST 436 Environmental Politics (4) (Enroll in POSC 436)

ENST 440 Environmental Risk Assessment (4, Sp) Assesses various potential environmental risks and examines how science, government, business, and industry measure and prepare for environmental risks. Recommended preparation: ENST 100.

ENST 445 Earth Climate: Past, Present, and Future (4, Fa) Introduction to the tools used to reconstruct past climate change and a thorough discussion of past climate changes on earth with an emphasis on the recent past. Recommended preparation: any introductory GEOL course.

ENST 450 Case Studies of Green Business (4, Sp) Introduction to the principles, drivers, and critiques of green business from the private perspective of profit maximization and the public perspective of environmental benefits. Prerequisite: ENST 387.

ENST 456L Conservation Genetics (4, Sp) (Enroll in BISC 456L)

ENST 470 Environmental Hydrogeology (4, FaSpSm) (Enroll in GEOL 470L)

ENST 480 Integrated Ecosystem Management in Micronesia (4, SpSm) Field studies in ecosystem management tools used to investigate complex environmental problems in Micronesia. Historical, cultural, and scientific topics, direct observations of biological, physical, and chemical conditions. Corequisite: ENST 298.

Degree Requirements
The master’s degree in environmental risk analysis is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.
ENST 485 Role of the Environment in the Collapse of Human Societies (4, Sm)
Field studies in the roles of environmental problems in the collapse of ancient civilizations and analogous problems facing contemporary populations in those same places. Recommended preparation: ENST 100.

ENST 487 Resource and Environmental Economics (4) (Enroll in ECON 487)

ENST 490x Directed Research (2-8, max 8, FaSpSm) Individual research and readings. Not available for graduate credit.

ENST 495 Senior Seminar in Environmental Studies (4, Sp) Students form multidisciplinary teams and are asked to study and resolve a major environmental problem facing a particular region or target population.

ENST 499 Special Topics (2-4, max 8) Selected topics dealing with environmental issues and problems.

ENST 500 Introduction to Environmental Studies (4, Fa) This course introduces students to the major environmental issues and problems society faces today. Business, industry, and government actions concerning these issues and problems are examined.

ENST 502 Environmental Science Seminar I (1, Fa) A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology.

ENST 503 Environmental Science II (2, Sp)
A continuation of ENST 501. Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Prerequisite: ENST 501; corequisite: ENST 504.

ENST 504 Environmental Science Seminar II (1, Sp) A continuation of ENST 502. A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology.

ENST 505ab Advanced Environmental Science Seminar (2-2, FaSp) Ties together science, technology, and finance with risk assessment and policy.

ENST 510 Statistics for Environmental Analysis (4) This course introduces graduate students to the various quantitative techniques and methodological approaches used in pollution control, natural resources management, and environmental protection.

ENST 520 Environmental Law and Policy (4, Sp) Introduces students to the central issues, concepts, and theories in environmental law and policy and analyzes present environmental laws and regulations.

ENST 530 Environmental Risk Analysis (4, Fa) Analyzes various potential environmental risks and examines how science, government, and business measure and prepare for environmental risks.

ENST 536 The Landscape Planning Process (3) (Enroll in ARCH 536)

ENST 540 California Coastal Zone Science and Policy (4, Sp) Science and policy issues used to characterize and manage California coastal resources. Key issues include: coastal pollution, public health, ecosystem management, and marine reserves. Recommended preparation: ENST 500.

ENST 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ENST 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

ENST 595 Graduate Seminar in Environmental Studies (4, Sp) Addresses the obstacles to environmental policymaking and management by examining the interrelationships between science, technology, and social science. Recommended preparation: ENST 500, ENST 501, ENST 502, ENST 503, ENST 504.

ENST 599 Special Topics (2-4, max 8) Subjects specifically relevant to an environmental studies field, sometimes conducted as intensive short courses.

Chair: Natania Meeker, Ph.D.

Faculty
Marion Frances Chevalier Professor of French: Peggy Kamuf, Ph.D.*

Professors: Margaret F. Rosenthal, Ph.D.*; Vanessa Schwartz, Ph.D. (History)

Associate Professors: Natania Meeker, Ph.D.; Panivong Norindr, Ph.D.; Antonia Szabari, Ph.D.

Assistant Professors: Olivia Harrison, Ph.D.; Edwin Hill, Ph.D.

Professor of the Practice of French: Alain Borer, Ph.D.

Associate Professors (Teaching) of French:
Carol A. Hofmann, Ph.D. (Director, French Language Program); Beatrice Mousli-Bennett, Ph.D.; Chevalier de l’Ordre des Palmes Academiques

Associate Professor (Teaching) of Italian:
Francesca Italiano, Ph.D. (Director, Italian Language Program)

Assistant Professors (Teaching) of French:
Colin Keaveney, Ph.D.; Julie Nack Ngué, Ph.D.

Assistant Professors (Teaching) of Italian:
Antonio Idini, Ph.D.; Francesca Leardini, Ph.D.

Master Lecturer of French: Atiyeh Doreen Showrai, M.A.

Senior Lecturers of French: Nathalie C. Burle, Ed.D.; Julia Chamberlain, Ph.D.
**Undergraduate Programs**

The Department of French and Italian offers majors and minors in both French and Italian. The study of French or Italian involves the mastery of the languages and their literary and cultural expressions in fiction, non-fiction, dramatic, cinematic and poetic texts, as well as the study of social and political institutions within the context of intellectual history.

The department offers a variety of classes in French and Italian, as well as some courses with readings and discussion in English to satisfy diverse needs. Topics range broadly from the study of a single author to a literary genre; from current events to cinema; from gender studies to literary criticism.

Courses are kept small to allow for maximum interaction between students and professors. Students in both French and Italian work closely with their advisers to develop an appropriate course of study. This often involves study abroad. The department runs summer programs in Dijon, France and Rome, Italy; students also attend semester-long programs in Paris and Florence or Rome.

**Graduate Programs**

The M.A. and Ph.D. degrees in Comparative Studies in Literature and Culture (French and Francophone Studies) are offered through the Comparative Studies in Literature and Culture program, as described on page 307.

## Undergraduate Degrees

### Requirements for the Bachelor of Arts in French

For the lower division, FREN 250 French IV is required. The upper division requirements include four core courses plus an additional five courses to be selected in consultation with the department adviser (no more than two of which may be in English) are required.

Remaining three upper division courses to be chosen from the following:

| FREN 310*                   | French Pronunciation and Conversation | 4 |
| FREN 320                    | French Cinema and French Society: 1900 to the Present | 4 |
| FREN 347                    | Race, Gender and Power in Francophone Literature | 4 |
| FREN 351                   | Early Modern French Cultures         | 4 |
| FREN 352                   | Modern French Cultures               | 4 |
| FREN 360*                  | Business and Technical French        | 4 |
| FREN 370                   | Equality and Difference around the Enlightenment | 4 |
| FREN 375                   | Global Narratives of Illness and Disability | 4 |
| FREN 381                   | Studies in an Author                  | 4, max 8 |
FREN 383 French Women Writers 4
FREN 385 Colloquium: French Literature 4, max 8
FREN 386 Autobiographical Writing 4
FREN 400 20th-Century France 4
FREN 410 Actualités Françaises (Paris semester only) 4
FREN 432 French Theatre (Paris semester only) 4
FREN 445 Studies in Gender and Feminism 4
FREN 446 Contemporary French Thought (in English) 4, max 8
FREN 447 Decadence 4
FREN 449 Studies in French Civilization (Paris semester only) 4
FREN 464 Colloquium: French Civilization 4, max 8
FREN 470 Readings in Medieval and Renaissance French Literature 4
FREN 471 Readings in 17th Century French Literature 4
FREN 472 Readings in 18th Century French Literature 4
FREN 473 Readings in 19th Century French Literature 4
FREN 474 Readings in 20th Century French Literature 4
FREN 490 Directed Research 2-8, max 8
FREN 499 Special Topics 2-4, max 8

*FREN 310 and 360 cannot both be taken for credit toward the minor in French. No more than one course conducted in English may be counted toward the minor.

Honors Program
The B.A. in French with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25-30 pages in French in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

French Honors Society: Pi Delta Phi
Qualifications
Undergraduate students must have completed one semester of upper division French with a minimum GPA of 3.0 in French and overall. Graduate students must be candidates for advanced degrees in French.

Sequence
A placement text is required of all students resuming French after high school courses in French.

Courses of Instruction

FRENCH AND ITALIAN

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

FRENCH (FREN)

FREN 020x Course in Reading French (2, FaSpSm) For graduate students who wish help in meeting the French reading requirement for the Ph.D. degree. Synoptic presentation of French grammar. Emphasis on development of reading skills. Not available for degree credit. Graded CR/NC.

FREN 120 French I (4, FaSpSm) Introduction to current French. Oral practice, listening and reading comprehension; grammar necessary for simple spoken and written expression. Prerequisite: No previous experience or appropriate placement score.

FREN 220 French II (4, FaSpSm) Continuation of FREN 120. Prerequisite: FREN 120 or appropriate placement score.

FREN 220 French III (4, FaSpSm) Continuation of FREN 150. Review of structural patterns of French; selected cultural and literary readings; conversation and composition. Prerequisite: FREN 150 or appropriate placement score.

FREN 236x Professional Communication in French (2, FaSp) Professional communication skills and cultural competency as preparation for working in an international environment. Not available for major credit to French majors or minors. Prerequisite: FREN 220.

FREN 250 French IV (4, FaSpSm) Introduction to French literature through the study of texts and audiovisuals organized around a central theme; develops close-reading techniques and discursive skills; reviews French grammar. Recommended preparation: FREN 220 or appropriate placement score.

FREN 320 French Cinema and French Society: 1900 to the Present (4) Film-making in France from the earliest experiments to current trends. Emphasis on the political, social, historical context of French films. Taught in English. Reading knowledge of French recommended.

FREN 330 Writing about Literature (4, FaSp) Critical reading of literary texts; comprehensive analysis of difficult grammatical structures and stylistics; advanced composition. Recommended preparation: FREN 300.

FREN 350 Early Modern French Cultures (4) Study of France’s cultural development to the end of the Ancien Régime. Special attention to events, trends and ideas that helped shape today’s France. Conducted in French. (Duplicates credit in former FREN 346.) Recommended preparation: FREN 300 or FREN 310.

FREN 352 Modern French Cultures (4) Study of the major intellectual, artistic and sociopolitical trends that have shaped French culture from the revolution to the present. Conducted in French. (Duplicates credit in former FREN 346.) Recommended preparation: FREN 300 or FREN 310.

FREN 355m Global Narratives of Illness and Disability (4, Fa) Study of difference as represented through French, Francophone and related narratives of disability and illness, with attention to race and gender. Recommended preparation: FREN 330.

FREN 386 Autobiographical Writing (4) Explores the complexities and challenges involved in writing and reading the autobiographical discourse, both as genre and literary theme in French writing. In French. Corequisite: FREN 330.

FREN 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

FREN 400 20th-Century France (4) French culture since 1900; emphasis on major intellectual, sociopolitical, and artistic trends, including cinema and television. Conducted in French. Recommended preparation: FREN 330.

FREN 432 French Theatre (4, Sp) (Paris Semester only) A survey of French theatre from the 17th century to the present. Students read plays ranging from classical comedy and tragedy to modern movements. Live theatre performances will supplement class work. Taught in French. Prerequisite: FREN 330; recommended preparation: familiarity with French history since the Renaissance.

FREN 446 Contemporary French Thought (4, max 8) Introduction to important trends in recent French philosophy, political and social theory, psychoanalysis, ethnology, semiotics, and media studies. Readings in structuralism, post-structuralism, feminism, and deconstruction. Conducted in English.

FREN 447 Decadence (4) Decadence in French literature and thought from 1650 to the present. Close textual analysis of works by Colette, Huysmans, Rousseau, Tocqueville, and others.

FREN 448 Islam In France (4, FaSp) Further enhancement of functional, advanced-level Mandarin proficiency for vocabulary, grammar, listening, speaking, reading, writing, and cultural awareness through selected Chinese-language films and television programs. Prerequisite: EALC 304, EALC 334.

FREN 449 Studies in French Civilization (4, Sp) (Paris Semester only) An analysis of the prestige of Paris, past and present, based upon close examination of literary texts and graphic materials, and visits to sites and monuments. Recommended preparation: FREN 300.

FREN 464 Colloquium: French Civilization (4, max 8) Selected topics such as the press, educational institutions, French cinema today, and French colonial history. Conducted in French. Recommended preparation: FREN 351 or FREN 352.

FREN 490x Directed Research (2-8, max 8) Individual research and readings. Not available for graduate credit.

FREN 499 Special Topics (2-4, max 8) Selected topics in French.

FREN 500 Rhetoriques des Arts I (4) Core seminar on the arts, especially writing, in French and Francophone traditions. Methodological emphasis. Texts by Paulhan, Baudelaire, and others. Topics will vary.

FREN 502 Raison et Déraison I (4) Core seminar on reason and unreason in literature and the arts in French and Francophone cultures. Methodological emphasis. Texts by Descartes, Foucault, and others. Topics will vary.

FREN 511 Revolutions I (4) Core seminar on concept of revolution in French and Francophone cultures. Methodological emphasis. Texts by Rousseau, Marx, and others. Topics will vary.

FREN 551 Revolutions II (4, max 8) Seminar on concept of revolution in French and Francophone cultures. Topics will vary.

FREN 552 Raison et Déraison II (4, max 8) Seminar on reason and unreason in literature and the arts and Francophone cultures. Topics will vary.

FREN 560 Rhetoriques des Arts II (4, max 8) Seminar on the arts in French and Francophone traditions. Topics will vary.

FREN 590 Directed Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

FREN 593 Practicum in Teaching the Liberal Arts (2, FaSp) Designed for students interested in maintaining and developing Italian language competency. Builds and reinforces vocabulary, idioms, communication skills and knowledge of Italian cultural aspects through discussion of contemporary topics. Graded CR/NC. Prerequisite: ITAL 220.

ITALIAN (ITAL)

ITAL 020x Course in Reading Italian (2) For graduate students who wish help in meeting the Italian reading requirement for the Ph.D. degree. Synoptic presentation of Italian grammar. Emphasis on development of reading skills. Not available for degree credit. Graded CR/NC.

ITAL 120 Italian I (4, FaSpSm) Introduction to current Italian. Oral practice, hearing and reading comprehension; grammar necessary for simple spoken and written expression. Lecture, classroom drill, laboratory drill. Prerequisite: Italian placement exam.

ITAL 150 Italian II (4, FaSpSm) Continuation of Italian I. Prerequisite: ITAL 120 or Italian placement exam.

ITAL 220 Italian III (4, FaSpSm) Continuation of Italian II. Review of structure of the language, drill in aural and reading comprehension, practice in oral expression. Prerequisite: ITAL 150 or Italian placement exam.

ITAL 224 Italian Composition and Conversation (4, FaSpSm) Practice in composition and conversation; organized around a set of themes; develops close-reading techniques and discursive skills; reviews Italian grammar. Prerequisite: ITAL 220 or Italian placement exam.

ITAL 235 Intermediate Conversational Italian (2, FaSp) Designed for students interested in maintaining and developing Italian language competency. Builds and reinforces vocabulary, idioms, communication skills and knowledge of Italian cultural aspects through discussion of contemporary topics. Graded CR/NC. Prerequisite: ITAL 220.
ITAL 320 Writing About Italian Literature (4, FaSp5m) Critical reading of literary texts; comprehensive analysis of difficult grammatical structures and stylistics; advanced composition. Prerequisite: ITAL 224.

ITAL 330 Advanced Italian Composition and Style (4) Original composition in Italian; written translation of English material; analysis of stylistic techniques of contemporary Italian authors. (Duplicates credit in former ITAL 444.) Recommended preparation: ITAL 220.

ITAL 340 Italian Literature from Unification to Fascism (4, FaSp) Reading of standard English translations of selected novels by leading Italian writers (1861-1945).

ITAL 345 Contemporary Italy (4) Italian literature and arts in Italy following World War II. Conducted in English.

ITAL 350 Italian Renaissance Literature in Translation (4) Readings of major texts of Italian literature of the 15th and 16th centuries, including works by Petrarch, the Humanists, Lorenzo de Medici, Ariosto, Machiavelli, Castiglione, and Tasso.

ITAL 380 Italian Women Writers (4) Selected poetry, prose, and drama by outstanding Italian women authors and their role in Italian society from the Middle Ages to 20th century. Taught in Italian. Recommended preparation: ITAL 320.

ITAL 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted.

ITAL 403 Readings in Medieval and Renaissance Italian Literature (4) Introduction to principal works and movements of Italian literature from 1226 to 1600. Recommended preparation: ITAL 320.

ITAL 435 Ruins, Magic and Melancholy: Italian Literature 1600-1860 (4) Introduction to principal works and movements of Italian literature from 1600 to 1860. Recommended preparation: ITAL 320.

ITAL 440 Futurism and Fascism in Italy (4) Literature, theatre, visual arts, and politics, from the Futurist Avant-Garde through the reign of Mussolini. Recommended preparation: ITAL 320.

ITAL 446 Italian Cinema and Society (4) Survey of Italian cinema in its relation to social transformation, from the silent era to the present. Weekly screenings, lectures, and discussions. Conducted in English. (Duplicates credit in former ITAL 346.)

ITAL 450 Dante (4) Analysis of the Divina Commedia and other works.

ITAL 461 Theatre, Spectacle, Drama and Performance in Italy (4, FaSp) Italian dramatic literature from the earliest written documents to the present. Reading and close textual scrutiny of plays by major dramatists from the Renaissance to the present. Recommended preparation: ITAL 320.

ITAL 462 The Novella Tradition: Fables and Stories (4, FaSp) Reading and close textual scrutiny of major short stories from Boccaccio's Decameron to the present. Recommended preparation: ITAL 320.

ITAL 470 Modern and Postmodern Italian Literature (4, FaSp) Reading and close textual scrutiny of works of the 20th century from Verga's I Malavoglia to the present. Recommended preparation: ITAL 320.

ITAL 490x Directed Research (2-8, max 8) Individual research and readings. Not available for graduate credit.

ITAL 499 Special Topics (2-4, max 8) Special topics in Italian literature, culture, and society. Conducted in Italian. Prerequisite: ITAL 224.

ITAL 590 Directed Research (1-12) Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

ITAL 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

---

Freshman Seminars

College Academic Services Building 200 (213) 740-2961
dornsife.usc.edu/fsem

Director: Richard Fliegel, Ph.D.

Freshman Seminars introduce freshmen to the larger academic world they are now entering. These small group seminars address topics of current interest in contemporary research and scholarship.

Freshmen earn two units of baccalaureate credit through participation in these weekly seminars. Active exploration of the life of the mind is emphasized through a variety of classroom activities and assignments.

To encourage the relaxed interchange of information and ideas, most seminars are graded credit/no credit. Each seminar is limited in enrollment to 18 freshmen.

Freshman Seminars encourage the natural development of the mentoring relationship between faculty and students. An early start on building these connections enhances the opportunities for intellectual growth throughout the student's years at USC.

Freshman Seminars are offered for the fall and spring semesters in a variety of subjects.

Individual topics are indicated by parenthetical titles in the Schedule of Classes (www.usc.edu/oc) under the FSEM designation or on the department’s Website (www.usc.edu/fsem).

For further information, contact Richard Fliegel, Ph.D., (213) 740-2961, email: fliegel@usc.edu, or Marsha Chavarria-Winbush, (213) 740-2961, email: chavarri@usc.edu.
Courses of Instruction

FRESHMAN SEMINARS (FSEM)
The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

FSEM 100 Freshman Seminar (2, max 4, FaSp) A seven-to-eleven week course offered for incoming freshmen; limited to 18 students. Graded CR/NC. A combined maximum of 4 units of FSEM 100 and FSEM 101 may be applied to the degree.

FSEM 101 Freshman Seminar (2, max 4, FaSp) A seven-to-eleven week course offered for incoming freshmen; limited to 18 students. Letter graded. A combined maximum of 4 units of FSEM 100 and FSEM 101 may be applied to the degree.

FSEM 180 First Year College Seminar (2, max 4, FaSp) A thematic seminar for entering students in the USC Dornsife College of Letters, Arts and Sciences, exploring an area of academic study, research, or creative work. Graded CR/NC.

Gender Studies

Mark Taper Hall of Humanities 422
(213) 740-8286

Email: gender@dornsife.usc.edu
Chair: Alice Echols, Ph.D.

Faculty
Barbra Streisand Professor of Contemporary Gender Studies: Alice Echols, Ph.D. (English and History)

Professors: Lois Banner, Ph.D. (History); Joseph Boone, Ph.D. (English); Judith Halberstam, Ph.D.* (English); Sharon Hays, Ph.D. (Sociology); Michael Messner, Ph.D. (Sociology); Gloria Orenstein, Ph.D. (Comparative Literature); Sherry Marie Velasco, Ph.D. (Spanish and Portuguese)

Associate Professors: Sheila Briggs, Ph.D. (Religion); Ange-Marie Hancock, Ph.D. (Political Science); Tara McPherson, Ph.D. (Cinematic Arts); Karen L. Tongson, Ph.D. (English)

Gender Studies Advisory Board
Professors: Elinor Accampo, Ph.D. (History); Judith Bennett, Ph.D. (History); Warren Bennis, Ph.D. (Business); Lisa Bitel, Ph.D. (History); David Cruz, Ph.D. (Law); Elizabeth Garrett, J.D. (Provoct); Diane Ghirado, Ph.D. (Architecture); Pierrette Hondagneu-Sotelo, Ph.D. (Sociology); Janet Hoskins, Ph.D. (Anthropology); Eunice Howe, Ph.D. (Art History); Peggy Kamuf, Ph.D. (French & Italian); Mark Kann, Ph.D. (Political Science); Nancy Lutkehaus, Ph.D. (Anthropology); Susan McCabe, Ph.D. (English); Beth Meyerowitz, Ph.D. (Psychology); Justin Pearlman, Ph.D. (Office of the Vice Provost); Azade-Aysê Rorlich, Ph.D. (History); Eliz Sanasarian, Ph.D. (Political Science); Hilary Schor, Ph.D. (English); Ellen Seiter, Ph.D. (Cinematic Arts); David Sloane, Ph.D. (Policy, Planning, and Development); Melora Sundt, Ph.D. (Education); Ruth Wallach, MLS (USC Libraries); Holly Willis, Ph.D. (Cinematic Arts); Diane Winston, Ph.D. (Journalism)

Associate Professors: Marjorie Becker, Ph.D. (History); Bettine Birge, Ph.D. (East Asian Languages and Cultures); Tracy Fullerton, Ph.D. (Cinematic Arts); Alice Gambrell, Ph.D. (English); Sharon Giller, Ph.D. (Hebrew Union College); Kara Keeling, Ph.D. (Cinematic Arts); Paul Lerner, Ph.D. (History); Lori Meeches, Ph.D. (Religion)

Assistant Professors: Michelle Gordon, Ph.D. (English); Megan Reid, Ph.D. (Religion); Diana Williams, Ph.D. (History)

Lecturers: M.G. Lord, Ph.D. (Professional Writing); Amy Parish, Ph.D. (Anthropology and Gender Studies)

Administrative Associates: Susan Harris, Ph.D. (Joint Educational Project); Todd Henneman (Center for Women and Men); Danielle Lancon (Center for Women and Men); Brie Loskota (Center for Religion and Civic Culture)

The Gender Studies Program explores, across disciplines and cultures, the changing roles, functions and images of women and men from feminist perspectives. The undergraduate major focuses on the evidence and argument about what the places of women and men are in culture and what they should be. Course offerings include interdisciplinary core courses, selected cross-listed classes in more than 20 departments and the upper-division community internship and senior seminar. Majors work with program faculty, in conjunction with USC Dornsife College Advising, to develop a four-year program designed to meet their individual needs. The program also offers a minor and a graduate certificate for students majoring in other disciplines.
Requirements

Requirements for the Bachelor of Arts in Gender Studies
For the lower division, one of the following courses may be selected as the requirement: SWMS 210 Social Issues in Gender or SWMS 215 Gender Conflict in Cultural Contexts. For the upper division, 32 units of SWMS courses, including SWMS 301, SWMS 311 and SWMS 410, are required.

Honors Program Requirements
The Gender Studies Program offers a two-semester honors program, in which qualified students spend their first semester in an honors track in an upper division seminar, usually SWMS 410 Senior Seminar. During the second semester, all honors students are required to take SWMS 492 Honors Thesis, in which each completes a thesis project on a topic of his or her choosing under faculty direction. Contact the departmental honors director for further information. To graduate with honors, department majors must have a minimum GPA of 3.5 in their major course work.

Gender Studies Minor Requirements
The program offers a minor for students specializing in other disciplines. Twenty units of course work are required for completion of the minor in gender studies: SWMS 210 or SWMS 215; SWMS 301; SWMS 410; and two additional 4-unit upper division SWMS courses. Since many SWMS courses are cross-listed, the two elective upper division courses must be from two different departments.

Graduate Certificate Program
Graduate students intending to concentrate in gender studies must be admitted to a USC graduate or professional program. While meeting the requirements for a departmental graduate degree, they may earn a certificate of competency in gender studies. To earn a certificate, students must take SWMS 560 and other courses from the SWMS list of graduate level courses, 500 and above, to a total of at least 12 units. No more than four units of directed research may be taken and those units must be taken as SWMS 590. Each academic department will determine the number of units completed which may be applied to the student’s graduate degree in that department.

In addition to the completion of course requirements, students must include a focus on gender as part of their major department master’s thesis, doctoral dissertation or law review note. Or they may take an oral examination on three research papers they have written within the areas of gender studies and on relevant graduate work pertaining to the field of gender studies. The oral exam will be administered by members of the Gender Studies faculty. A Gender Studies faculty member will be assigned as an adviser for each student. Gender Studies faculty will be responsible for judging the adequacy of the gender studies analysis in the student’s thesis, dissertation or oral examination.

Courses of Instruction

GENDER STUDIES (SWMS)
The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

SWMS 140g Contemporary Moral and Social Issues (4) (Enroll in PHIL 140g)

SWMS 215g Gender Conflict in Cultural Contexts (4, Fa) Identification and examination of social and cultural conflicts through the lens of gender, and comparison of such conflicts across cultures, regions, and historical periods.

SWMS 225 Gender, Sex, and Science: A Gender Studies Approach (4, FaSp) Study of sex, gender in relation to science and social sciences; survey of scientific methods, approaches, current research; investigation of gender influences on scientific research.

SWMS 245gm Gender and Sexualities in American History (4) (Enroll in HIST 245gm)

SWMS 300 Women in Antiquity (4) (Enroll in CLAS 300)

SWMS 301m Introduction to Feminist Theory and the Women’s and Men’s Movements (4, FaSpSm) Theories of feminism; historical, social and cultural perspectives of the women’s movement in America, Europe, and in developing countries; men’s roles in the feminist movement.

SWMS 302 From Sappho to Stonewall: Lesbians in History (4, Sp) (Enroll in HIST 302)

SWMS 303 From Goddesses to Witches: Women in Premodern Europe (4) (Enroll in HIST 303)

SWMS 304xm Italian Renaissance Art: Old Masters and Old Mistresses (4) (Enroll in AHIS 304xm)

SWMS 305 Childhood, Birth and Reproduction (4) (Enroll in ANTH 305)

SWMS 307 Women in Medieval Europe, c. 1000-1500 (4, Fa) (Enroll in HIST 307)

SWMS 311 Gender Studies and the Community: Internship (4, FaSpSm) A combination of internships in the community and an intensive seminar on the relationship of the students in the academic community with the larger urban community of which it is a part.

SWMS 316 Gender and Global Issues (4) (Enroll in IR 316)

SWMS 320 Male and Female in Pacific Society (4) (Enroll in ANTH 320)

SWMS 321 Gender and Judaism (4) (Enroll in JS 321)

SWMS 324 Women in Medieval and Renaissance Europe (4) (Enroll in COLT 324)

SWMS 330 Culture, Gender and Politics in South Asia: Afghanistan, India, Pakistan, Nepal (4) (Enroll in ANTH 330)

SWMS 335 Gender, Religion, and Sexuality (4) (Enroll in REL 335)

SWMS 336 Health, Gender and Ethnicity (4, Sp) Cross-cultural notions of the body, health, and healing; historic and cultural variability of ideas of reproduction, birth, sexuality, mental illness, and disability.
SWMS 345 Men and Women in United States History from the 1920s to the Present (4) (Enroll in HIST 345)

SWMS 347 Race, Gender and Power in Francophone Literature (4) (Enroll in FREN 347)

SWMS 349 Women and the Law (4, Fa) Discussion of the relationship between women and the law in light of feminist jurisprudence, U.S. Supreme Court decisions, and cross-cultural perspectives.

SWMS 355 Transgender Studies (4, Sp) Analysis of transgender behaviors, from androgyny and transvestism to transsexuality. Discussion of changing laws, representations, medical standards, and social attitudes towards transgender and intersex people.

SWMS 363m Race, Gender and Sexuality in Contemporary Art (4) (Enroll in AHIS 363m)

SWMS 366m Chicana and Latina Sociology (4) (Enroll in SOCI 366m)

SWMS 369 The Family in a Changing Society (4) (Enroll in SOCI 369)

SWMS 370 Family and Kinship in Cross-Cultural Perspective (4) (Enroll in ANTH 370)

SWMS 372 Human Sexuality (4) (Enroll in PSYC 372)

SWMS 374gm Women Writers in Europe and America (4) (Enroll in COLT 374gm)

SWMS 375 Women and Gender in China: Past and Present (4) (Enroll in EALC 375)

SWMS 377 The Image of the Journalist in Popular Culture (4) (Enroll in JOUR 375)

SWMS 380 Sex and Gender in Anthropological Perspective (4) (Enroll in ANTH 380)

SWMS 381 Sex, Power, and Politics (4) (Enroll in POSC 381)

SWMS 382 Political Theories and Social Reform (2 or 4) (Enroll in POSC 380)

SWMS 383 French Women Writers (4) (Enroll in FREN 383)

SWMS 384m Gender, Social Inequality, and Social Justice (4, Fa) Analysis of the most effective strategies and techniques for reducing prejudice against racial/ethnic minorities, women, gays and lesbians, and others subjected to stigma.

SWMS 385m Men and Masculinity (4) Interdisciplinary examination of social, personal meanings of masculinity; variety of male experience by social class, race, sexuality, and age; emerging masculinities of the future.

SWMS 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

SWMS 395m Gender, Media and Communication (4) (Enroll in COMM 395m)

SWMS 402 Human Trafficking (4, FaSp) (Enroll in SOCI 402)

SWMS 410 Senior Seminar in Gender Studies (4, Fa) Study of a selected problem, period, or theme in the study of women and men in society by integrating perspectives from cross-cultural and interdisciplinary studies.

SWMS 412 Gender, Sexuality and Media (4, max 8) (Enroll in CTCM 412)

SWMS 415 Ecofeminism (4, Sp) Examination of the philosophy and politics of Ecofeminism. It will critique the ideologies that link the oppression of women to the exploitation of nature. Recommended preparation: SWMS 210 or SWMS 301.

SWMS 425 Queer Los Angeles (4, Sp) Interdisciplinary study of queer Los Angeles through examination of histories, memoirs, essays, fiction, poetry, documentaries, narrative films, and local archives.

SWMS 426 Gender, Family and Society in Europe and the United States, 1500-Present (4) (Enroll in HIST 426)

SWMS 432m Women and Aging: Psychological, Social and Policy Implications (4) (Enroll in GERG 435m)

SWMS 434m Women in Society (4) (Enroll in SOCI 435m)

SWMS 435m Women in Society (4) (Enroll in SOCI 435m)

SWMS 437m Sexuality and Society (4) (Enroll in SOCI 437m)

SWMS 440 Women’s Literature in Germany I (4) (Enroll in GERM 440)

SWMS 442m Women’s Spaces in History: “Hussies,” “Harems,” and “Housewives” (4) (Enroll in ARCH 442m)

SWMS 445 Studies in Gender and Feminism (4) (Enroll in FREN 445)

SWMS 455m Gender and Sport (4) Sport as an institutional locus for construction of gender relations; lives of female and male athletes; issues of sexuality, violence, racism, spectatorship, and media.

SWMS 456 Women in International Development (4) (Enroll in POSC 456)

SWMS 465 Gender in Media Industries and Products (4) (Enroll in COMM 465)

SWMS 467 Gender and the News Media (4) (Enroll in JOUR 467)

SWMS 469 Women in English Literature before 1800 (4) (Enroll in ENGL 469)

SWMS 470 Women in English and American Literature after 1800 (4) (Enroll in ENGL 470)

SWMS 476m Images of Women in Contemporary Culture (4) (Enroll in ENGL 476m)

SWMS 478m Sexual/Textual Diversity (4) (Enroll in ENGL 478m)

SWMS 490x Directed Research (2-8, max 8, FaSpSm) Independent research and readings. Not available for graduate credit.

SWMS 492 Honors Thesis (4, Sp) Writing of the honors thesis; for students in the Gender Studies Honors Program. Open only to gender studies majors. Recommended preparation: SWMS 410.

SWMS 499 Special Topics (2-4, max 8) Study of a selected problem, period, or theme through interdisciplinary approaches.

SWMS 504 Theories of Race, Class, and Gender (4) (Enroll in ENGL 504)

SWMS 505 Seminar in Feminist Theory and Art History (4, max 8) (Enroll in AHIS 505)

SWMS 507 Gender and International Relations (4, Irregular) (Enroll in IR 507)

SWMS 508 Ethics of Liberation Theology (4) (Enroll in REL 508)

SWMS 509 Culture, Gender, and Global Society (4) (Enroll in IR 509)

SWMS 516 Seminar: Feminist Theory and Communication (4, 2 years, Sp) (Enroll in COMM 516)
SWMS 544 Feminist Theory for Historians (4, Fa) (Enroll in HIST 544)

SWMS 546 Comparative History of Women and Gender in the West to 1800 (4, Fa) (Enroll in HIST 546)

SWMS 548 Fertility Control Policies (4) (Enroll in SOCI 548)

SWMS 550 Gender and Education in the Third World (3) (Enroll in EDPA 550)

SWMS 551 Studies in the History of Women, Gender and Sexuality (4, max 8) (Enroll in HIST 550)

SWMS 552 Sex and Gender in Society (4) (Enroll in SOCI 552)

SWMS 554 Women in Global Perspective (4) Women and immigration, employment, and household and family relations in the context of the global economy; women’s social and political movements in diverse cultural contexts.

SWMS 556 Seminar on Women and the Family in China (4) (Enroll in EALC 556)

SWMS 560 Feminist Theory (4, FaSpSm) History of feminist theory and major perspectives of current feminist theory: liberal feminism, socialist/Marxist feminism, radical feminism, psychological feminism, spiritual feminism, and ecological feminism.

SWMS 575 The Ethics of Women’s Liberation (3) (Enroll in REL 575)

SWMS 577 Therapy, Gender, and Ethnicity (3) (Enroll in SOCI 577)

SWMS 588 Seminar in Gay, Lesbian, Bisexual and Transgender Studies (4) Interdisciplinary cross-cultural, historical, psychological, sociological, and contemporary political perspectives on female and male homosexual eroticism, and the emergence of gay, lesbian, bisexual, and transgender identities.

SWMS 590 Directed Research (1-12, FaSpSm) Research leading to the master’s degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

SWMS 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

SWMS 599 Special Topics (2-4, max 8) Seminar in selected topics relating to gender and feminism.

SWMS 621 Gender Discrimination (1-4, FaSp) (Enroll in LAW 621)

SWMS 623 Family Law (3 or 4) (Enroll in LAW 623)

SWMS 630 Studies in Gender (4, max 12) (Enroll in ENGL 630)

SWMS 650 Seminar on Women’s and Family History (4, max 8, Sp) (Enroll in HIST 650)

**Courses of Instruction**

**GEOGRAPHY (GEOG)**

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

**GEOG 255 American Environmentalism (4, FaSm)** Geographic and historic approach to the growth of environmental awareness in the United States from Colonial times to the present. Extensive use of case materials.

**GEOG 257g Environment and Ethics (4, SpSm)** Examination of ethical issues in environmental context: systematic analysis of problems associated with protection and use of selected environments. Concurrent enrollment: WRIT 140.

**GEOG 260Lg Natural Hazards (4, FaSp)** The nature and time/space distribution of extreme geophysical events (e.g., floods, droughts, earthquakes), and the range of individual and social adaptations to the resulting hazard.

**GEOG 345 Conservation of Natural Resources (4, Fa)** Interaction between resource conservation and people based on recent advances, current developments, and future resource utilization. Special attention to the western United States. Field trips.

**GEOG 360 Environmental Disasters (4, Sp)** Evaluates the causes, effects, and responses to international environmental disasters. Emphasis is on contemporary case studies in a theoretical context.

**GEOG 390 Special Problems (1-4, FaSp)** Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

**GEOG 393 Field Techniques (4, Fa)** Field exploration of physical and cultural aspects of different regions, with emphasis on rural California. Field methods, especially mapping and interviewing.
GEOG 397 Geography Internship (2-4, max 4, FaSpSm) Intensive experience in local public agency, private firm, or non-profit agency engaged in applied geographic work. Graded CR/NC.

GEOG 431 California’s Changing Landscapes (4, Sp) Type study of a region; distribution of physical and cultural phenomena; delimitation into natural regions; analysis of human-environment interaction in regions of the state. Field trips.

GEOG 482L Principles of Geographic Information Science (4, Sp) Introduction to evolving science, technology and applications of GIS. Laboratories provide experience with computer processing of geographic information using several GIS software and programming languages.

GEOG 490x Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

GEOG 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

GEOG 599 Special Topics (2-4, max 8, Irregular) Seminar in selected topics in geography.

GEOG 681 Environmental Modeling with GIS (4, 2 years, Sp) Advanced topics related to the collection, analysis, modeling, interpretation, and display of environmental information using GIS and related technologies. Prerequisite: graduate standing and prior GIS experience equivalent to GEOG 482L.

GEOG 682 Health and Place (4, Sp) Examines the relationship between health and place and how geospatial approaches to analyzing and visualizing spatial data may advance our understanding of disease systems. Graduate standing.

GEOG 790 Research (1-12, FaSpSm) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

GEOG 794abcdz Doctoral Dissertation (2-2-2-2-0, FaSpSm) Credit on acceptance of dissertation. Graded IP/CR/NC.

Courses of Instruction

GERMAN (GERM)

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

GERM 020x Course in Reading German (2) For graduate students who wish help in meeting the German reading requirement for the Ph.D. degree. Emphasis on development of reading skills. Not available for degree credit. Graded CR/NC.

GERM 025x Course in Reading German (2) Continuation of 020x. Reading selections appropriate to candidate's major field. Not available for degree credit. Graded CR/NC.

GERM 101 German I (4) Introduction to modern German. Oral practice, listening and reading comprehension. Basic structures necessary for simple spoken and written expression.

GERM 102 German II (4) Continuation of German I. Introduction to German culture. Prerequisite: GERM 101.

GERM 201 German III, Conversation and Composition (4) Intermediate German. Increasing emphasis on listening and speaking skills and a review of basic structures of German. Discussion of cultural aspects. Prerequisite: GERM 102.

GERM 221 Conversational German IV (4) Conversational German in a variety of topical settings and vocabulary domains. Prerequisite: GERM 201.

GERM 310 Business German I (4, Sp) Introduction to German business language structure including correspondence and oral communication. In German. Prerequisite: GERM 201.

GERM 311 Business German II (4, Fa) Continuation of GERM 310. Terminology and style of commercial and legal texts, analyzed and applied in oral and written work. In German. Prerequisite: GERM 201.

GERM 320 Composition and Conversation on Contemporary Affairs (4) Practice in oral and written German, emphasizing contemporary cultural and social developments in the German-speaking countries of Europe. In German. Prerequisite: GERM 221.

GERM 325 Composition and Conversation in Cultural History (4) Practice in oral and written German, emphasizing the cultural history of the German-speaking countries of Europe. In German. Prerequisite: GERM 221.

GERM 330 Introduction to Literary Studies (4) Review of essential literary terms, concepts, and critical methods through analysis and discussion of selected primary and secondary works. In German.

GERM 335 Applied German Drama (4, max 8) Works of a German playwright in their social and cultural context, leading to a dramatization of one of the works. In German.

GERM 340 German Prose Fiction from Goethe to Thomas Mann (4) Examines German prose fiction from the late 18th to the early 20th centuries, with particular emphasis on how narrative texts are constructed. In English.

GERM 346 German Folklore and Popular Culture (4) Survey and analysis of folklore and cultural phenomena, including tales, legends, and myths; folk and popular music; beliefs and customs. In English.

GERM 351 Colloquium on Drama (4) German drama from the 18th century, with emphasis on modernism (since Büchner) and the 20th century avant garde styles: Expressionist, Epic, Grotesque, Documentary, and Sprechtheater. In German.

GERM 352 Colloquium on Poetry (4) Definition and analysis of lyric genre through a study of major poets, such as Goethe, Schiller, Heine, Rilke, and Hofmannsthal; poetic traditions from the 17th century to the present. In German.

GERM 353 Colloquium on Prose (4) Study of German prose from the 18th century to the present; emphasis on narrative and thematic perspectives in relation to social change and on modernism since Kafka. In German.

GERM 360 20th Century German Prose: Texts and Films (4) Aesthetic and historical analysis of major German 20th century novels, complemented by brief study of cinematic adaptation of each text. Texts in English; films with subtitles.

GERM 365 Germany East and West (4) Study of the ideological, economic, social, and cultural differences between East and West Germany between 1945 and 1990 and their impact on today's unified Germany. In English.

GERM 370 Literature and Culture in Vienna at the Turn of the Century (4) Literature, culture, and society in Vienna 1890-1925; works by figures such as Schnitzler, Hofmannsthal, Kafka, Musil, Kraus, Schönherr, Kokoschka, Freud, Wittgenstein, and others. In English.

GERM 372 Literature and Culture in Berlin of the 1920s (4) Literature, culture, and society through works by figures such as Kaiser, Toller, Brecht/Weill, Piscator, Th. Mann, Doeblin, Lukacs, Heidegger, etc. Films: Caligari, Metropolis, Berlin, M, Blue Angel. In English.

GERM 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

GERM 410 Profile of German Literature I (4) Survey of major trends in German literature within their historical and cultural contexts from the beginnings to the Baroque period. In German.

GERM 420 Profile of German Literature II (4) Survey of major trends, figures, and authors in German literature and culture of the 18th and 19th centuries within the European context. In German.

GERM 430 Age of Goethe (4) Background and significance of the period; lyrics, major dramatic and prose works from 1770-1832; Storm and Stress; Classicism; Goethe and Schiller. In German.

GERM 440 Women's Literature in Germany I (4) Reading and analysis of medieval texts from German-speaking countries, written by and about women: science, love, poetry, letters, drama, mysticism, romance. Conducted in German.

GERM 445 Europe and the Writing of Others (4) (Enroll in COLT 445)

GERM 446 Expressionism to the Present (4) Representative authors and works since 1910: World War I, Expressionism, New Objectivity, World War II; literature after 1945: East and West, Swiss and Austrian.

GERM 465 Germany East and West (4) Study of the ideological, economic, social, and cultural differences between East and West Germany between 1945 and 1990 and their impact on today's unified Germany. In English.

GERM 466 The German Speaking Nations (4) Focus on the culture, history, and society of Austria, East and West Germany, and Switzerland. In German.

GERM 470 Advanced Composition and Stylistics (4) Development of competence in written expression; fundamentals of style in expository writing. In German.
GERM 490x Directed Research (2-8, max 8)
Individual research and readings. Not available for graduate credit.

GERM 499 Special Topics (2-4, max 8) Intensive study of selected topics or regions.

GERM 508 Bibliography and Research Techniques (4) Bibliographic sources, reference works and periodicals, standard bibliographic formats; research methods and the writing of genres, stylistics, and textual interpretation.

GERM 510 Methods of Literary Criticism and Linguistic Analysis (4) Historical perspective on critical methods such as genre poetics, hermeneutics, Marxist and Freudian theories, structuralism, reception-aesthetics, literary semantics, pragmatics, and text linguistics.

GERM 581 Weimar Culture (4) A historical topic-oriented exploration of cultural activities in Weimar Germany. Examination of reflections of the social-political experience of the period in literary (essay, cultural critique, investigative reporting) and pictorial (painting, sculpture, photography, film) discourse.

GERM 590 Directed Research (1-12) Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

GERM 593 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

GERM 595ab Directed Readings (2-4, 2-4)

GERM 599 Special Topics (2-4, max 8) Special topics such as concepts of government, roots of fascism, and ideologies of Hegel, Marx, Wagner, Nietzsche in German literature.

GERM 637 Seminar in Brecht (4)

GERM 790 Research (1-12) Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC.

Bachelor of Arts in Health and Humanity
The Bachelor of Arts in Health and Humanity is a liberal arts degree. It is intended for students interested in fields that inform the health professions and in related questions about health and human experience. Courses in this interdisciplinary major meet many of the requirements for admission to the professional programs in medicine, nursing and other fields, but do not meet all of those entrance requirements. Some electives in this major have prerequisites in mathematics and physics that cannot be counted toward the 36-unit requirement in major electives. Students should consult their academic advisors for precise information on prerequisites and admission requirements for specific health fields.

Summary of Requirements
Core: 24 units; experiential learning: 1-4 units; major electives: one thematic module 16-20 units, other electives 16-20 units; total requirements: 61-64 units including at least 36 upper-division units plus prerequisites for certain electives.

**Chair:** Peter C. Mancall, Ph.D.

**Faculty**

- **University Professor:** Kevin Starr, Ph.D.
- **John R. Hubbard Chair in British History:** Judith Bennett, Ph.D.*
- **John R. Hubbard Chair in British History:** Cynthia Herrup, Ph.D.
- **Gordon L. MacDonald Chair in History:** Joan Piggott, Ph.D.
- **Shapell-Guerin Chair in Jewish Studies:** Wolf Gruner, Ph.D.

**Andrew W. Mellon Professor of the Humanities:** Peter C. Mancall, Ph.D.

- **Professors:** Elinor A. Accampo, Ph.D.; Lois W. Banner, Ph.D.*; Lisa Bitel, Ph.D.; Leo Brandy, Ph.D. (English); William Deverell, Ph.D.*; Mary Dudziak, Ph.D. (Law); Alice Echols, Ph.D. (English); Philip J. Ethington, Ph.D.; Richard W. Fox, Ph.D.; Howard Gillman, Ph.D. (Political Science); Ariela Gross, Ph.D. (Law); Karen Haltunen, Ph.D.; Deborah Harkness, Ph.D.*; Robin D. G. Kelley, Ph.D. (American Studies and Ethnicity); Daniel Klerman, Ph.D. (Law); Carolyn Malone, Ph.D. (Art History); John Pollini, Ph.D. (Art History); Azade-Ayse Rotrich, Ph.D.*; Steven J. Ross, Ph.D.*; George J. Sanchez, Ph.D.* (American Studies and Ethnicity); Mary Sarotte, Ph.D. (International Relations); Vanessa Schwartz, Ph.D.; David Sloane, Ph.D. (Public Policy)

- **Associate Professors:** Marjorie R. Becker, Ph.D.; Bettine Birge, Ph.D. (East Asian Languages and Cultures); Jason Glenn, Ph.D.; Joshua Goldstein, Ph.D.; Sarah Gualtieri, Ph.D.*; Kyung Moon Hwang, Ph.D.; Lon Kurashige, Ph.D.; Paul Lerner, Ph.D.*; María Elena Martínez, Ph.D.; Ramzi Rouighi, Ph.D.; Brett Sheehan, Ph.D.*; Francile Wilson, Ph.D. (American Studies and Ethnicity)

- **Assistant Professors:** Daniela Bleichmar, Ph.D. (Art History); Gerard Clinton Ranier Godart, Ph.D.; Nathan Perl-Rosenthal, Ph.D.; Diana Williams, Ph.D.

**Professor Emerita and John R. Hubbard Chair Emerita in History:** Carole Shammas, Ph.D.
The Department of History offers courses in ancient, medieval and modern European history, including Russian history; in both North and Latin American history; in the history of East Asia; and in world history.

Some of the department's courses are chronological, some national or regional and some are thematic, with special strengths in gender, race and ethnicity, popular culture, medicine and urban history. The faculty is committed to continuous review and revision of the department curriculum, as student needs and professional emphases shift. Many departmental courses meet general education requirements, and various programs for majors and non-majors are available.

The department offers an honors program for qualified seniors. Honors programs are individually arranged through consultation with the honors director, and completion of an honors thesis is required.

Degree Programs
The Department of History offers the B.A., a minor, the M.A. and Ph.D. in History.

Honor Society
The department sponsors its own local chapter of Phi Alpha Theta, the national history honor society. Phi Alpha Theta provides opportunities for students to take their interest in history beyond the classroom and to cultivate their intellectual pursuits in a community setting.

Membership is open to history majors and other interested students with a 3.33 GPA in history courses and a 3.0 overall GPA. For more information contact the honors director.

Undergraduate Degrees

Advisement
All history department majors should consult with the department student adviser. Students should seek an appointment early in each semester so that an advisement file may be established for each student. The file will be kept current.

Major Requirements for the Bachelor of Arts in History
Ten courses in history are required, three at the lower division level and six at the upper division level along with HIST 300 Approaches to History. The three required lower division courses must include one from the 100 level and one from the 200 level, and each of the three must be from a different geographic category. The department will accept scores of 4 or 5 on either Advanced Placement European History or Advanced Placement American History as a substitute for one requirement at the 100 level. At the upper division, majors are required to take a minimum of three courses in a thematic, temporal or geographic concentration they articulate under the guidance of faculty; they must also take at least two upper division seminars, approved by the department, including one in their concentration. No more than 4 units of HIST 490 Directed Research may be accepted as satisfying the upper division seminar requirement.

For geographic breadth, at least one of the 10 courses must be taken from approved course work in each of the three following areas: Asia and Eurasia, Europe, and North and Latin America. For temporal breadth, at least one of the 10 courses must be taken from approved course work in each of the three following time periods: before 1300, 1300 to 1800, 1800 to the present. Students must consult with a department adviser in order to determine which courses meet these requirements.

Bachelor of Arts in History and Social Science Education
This degree is designed for students who are interested in a career in secondary school teaching. The courses chosen reflect the content of subjects taught in high schools and middle schools in California and therefore should be useful for those contemplating the profession of teaching history and social studies. It does not, however, provide a waiver of the CSET examination.

At least one of the following:

- HIST 101 | The Ancient World | 4 |
- HIST 102 | Medieval People: Early Europe and Its Neighbors, 400-1500 | 4 |
- HIST 103 | The Emergence of Modern Europe | 4 |
- HIST 180 | The Middle East | 4 |
- HIST 275 | The Worlds of the Silk Road | 4 |
- HIST 335 | History of Japan to 1550 | 4 |

At least one of the following:

- HIST 338 | China to 960 A.D. | 4 |
- HIST 339 | China, 960-1800 A.D. | 4 |

At least one of the following:

- HIST 104 | Modern Europe | 4 |
- HIST 280 | The Modern Middle East | 4 |
- HIST 333 | Korea: The Modern Transformation | 4 |
- HIST 336 | History of Japan, 1550-1945 | 4 |
- HIST 340 | History of China since 1800 | 4 |

At least one of the following:

- HIST 369 | Aztecs, Mayas and Other Indigenous Peoples of the Americas | 4 |
- HIST 370 | Spanish America, 1492-1821 | 4 |
- HIST 372 | Modern Latin America | 4 |

One of the following:

- POSC 100 | Theory and Practice of American Democracy | 4 |
- POSC 300 | Principles, Institutions, and Great Issues of American Democracy | 4 |
- POSC 340 | Constitutional Law | 4 |

Required Capstone Seminar
A capstone seminar, HIST 488 Teaching History in the Secondary Schools, will be taught by a member of the history department and will focus on the ways in which historical research is brought into middle and high school curriculum. Seminar participants will examine textbooks and other materials designed for history instruction; engage in independent research; write curriculum and/or classroom units or lesson plans; and visit classrooms to assist with history instruction in the schools.
Bachelor of Arts in Middle East Studies
See the Department of Middle East Studies, page 412, for a complete listing of requirements.

Minor in History
The minor in history is available to students in all schools and departments. The study of history deepens our understanding of peoples and societies and expands our knowledge of important issues operative in the world today. History minors will strengthen their skills in critical thinking, assessing evidence, and formulating clear and persuasive arguments both oral and written. History is essentially a laboratory of human experience, and students from a wide range of disciplines can discover new perspectives on their own intellectual interests through the study of the past.

Prerequisites: cumulative GPA of 2.0 or better and approval of a minor plan of study by the department’s undergraduate adviser.

Requirements: 20 upper division units, including a minimum of 16 upper division units from Department of History offerings. Up to 4 upper-division units from outside department offerings may be included with the approval of the undergraduate adviser.

Graduate Degrees
The graduate program in history provides advanced training in historical research and writing leading to the Doctor of Philosophy degree. Once admitted to the Ph.D. program, a student in exceptional cases may work for a Master of Arts degree, but the department does not accept applicants for an M.A. For further information, contact the director of the graduate program for the Department of History.

Admission Requirements
Prerequisites
An applicant should have an undergraduate degree or an M.A. degree in history or a related discipline. Promising students trained in other fields will also be considered.

Criteria
All applicants must take the general test of the Graduate Record Examinations. The subject test in history is not required. In addition, applicants must submit at least three letters of recommendation from college-level instructors and a sample of written work from a college-level history, social science or humanities course. This material should be submitted to the director of the graduate program for the Department of History.

Procedure
For complete information on the doctoral programs, prospective applicants should address inquiries to Graduate Admissions, Department of History, SOS 153, University of Southern California, Los Angeles, CA 90089-0034. Information on the programs is also available online at www.usc.edu/schools/college/history/programs/graduate.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section (page 86) and the Graduate School section of this catalogue (page 97) for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Arts in History
The department does not accept applicants for a Master of Arts degree in history. The M.A. degree is intended only as a transitional degree in the process of completing requirements for the Ph.D. in history.

An appropriate capstone course chosen from HIST 300, HIST 440, HIST 441 and HIST 494 must be included in the proposed program as part of the departmental work. The capstone course will normally be the last (or among the last) courses taken for the minor.

Honors Program
The department offers a two-semester honors program, in which qualified students spend their first semester in an honors track in an upper division seminar or take HIST 490 Directed Research in their concentration. During the second semester, all honors students are required to take HIST 492 Honors Thesis in which each completes a thesis project on a topic of his or her choosing under faculty direction. Contact the department honors director for further information. To graduate with honors, department majors must have a minimum GPA of 3.5 in their major course work.

Teaching Credential Requirements
CREDENTIAL REQUIREMENTS

Foreign Language/Research Tool Requirement
Students are required to demonstrate competence in one foreign language, with the exception that none is required of majors in United States history.

Course Requirements
All students must enroll in HIST 500 Introduction to Graduate Historical Studies, and it is recommended that it be completed in the first year of residence.

Thesis Plan
Students must take a minimum of six graduate courses, including HIST 500 plus HIST 594ab Master’s Thesis. No more than two 400-level courses may count toward this total. A thesis must be written and defended.

Comprehensive Examination Plan
This plan requires the approval of the student’s guidance committee chair to substitute a comprehensive examination for the thesis.
If approved, the student completes eight graduate level courses, including 500, with no more than two 400-level courses counting toward this total, plus written exams in three fields, one of which may be in another department. Examinations are normally offered in October and April. An oral examination may be given at the discretion of the guidance committee. Examinations are graded on an honors, pass or fail basis. Any student who receives a grade of fail in two examinations is considered as not having qualified for the degree. A student who receives one fail must retake an examination in that field at the next scheduled examination period. An examination cannot be retaken more than once.

**Doctor of Philosophy in History**

Application deadline: December 1

The history profession nationwide combines a traditional emphasis on geo-temporal fields (e.g., U.S. in the 19th century; medieval Europe) with a new emphasis on transnationalism, comparative history and interdisciplinary investigation. The USC program is at the forefront of these trends. Following the traditional emphasis, each graduate student must declare a major field in a geo-temporal area at the time of application to the program. Major fields of study include: China, Japan, Korea, Latin America, Middle East, American/United States, medieval Europe, early modern Europe and modern Europe. The purpose of the major field is to prepare students broadly for teaching and research.

By the beginning of his or her second year in the program, each graduate student must declare a minor field and an area of specialization. The minor field is intended to broaden skills beyond the geo-temporal boundaries of the major field; the area of specialization is intended to deepen the student’s scholarly training in the chosen area of the dissertation. The minor field may be chosen from the list of major fields (i.e., a student entering the program with American/U.S. as a major field might select “modern Europe” as a minor field), or it may be conceived comparatively, thematically or cross-disciplinarily. Possible minor fields include: Latin America; premodern Japan; the colonial Americas; gender and sexuality; visual culture; and anthropology. Possible fields for the area of specialization include: 19th or 20th century U.S. intellectual history; visual culture of the 20th century; modern European cities; and the American West. These lists are not exhaustive and are meant to suggest only possible courses of study.

For the major field, each student must take a minimum of four courses; for the minor field two courses; for the area of specialization three courses. Either the minor field or the area of specialization must be outside the major field of study, transnational or outside the discipline of history. Each student must consult with his or her adviser in putting together these fields of study.

**Foreign Language/Research Tool Requirements**

Students are required to demonstrate competence in two foreign languages to be selected in consultation with the faculty adviser. Students in United States history may substitute competence in quantitative methods for one foreign language. The requirements in this category must be met before a student is eligible to take the qualifying examination.

**Course Requirements**

All entering students (including those with M.A. degrees) are required to take HIST 500 in their first semester of study. All students are required to take two 600-level research seminars in the History Department. At least one of these seminars must be in the major area of study. Students must complete a minimum of 60 units of course work. No more than 8 units of the 60 may be in HIST 794 (dissertation writing). Students must complete at least 30 units of graduate course work within the History Department.

**Screening Procedures**

The performance of every doctoral student is formally evaluated by the full faculty of the History Department, normally at the end of the spring semester and before a student has completed 24 units toward the degree. Unsatisfactory progress toward the degree requires either remedy of the deficiencies or termination of the student’s graduate program. After successfully passing the screening procedures, each student establishes a guidance committee which then supervises preparation for the qualifying examination.

**Guidance Committee and Qualifying Examinations**

Each student must set up a guidance committee by the end of the third semester in residence. It includes at least five members, at least three of them from the History Department, and at least one of them from outside the History Department (this person must be a tenure-track faculty member from a Ph.D. granting program). The guidance committee will oversee the student’s written and oral qualifying examination, which should be taken by the end of his or her fifth semester in residence and no later than the end of the sixth semester. The examination covers the major field, minor field and area of specialization. Students prepare for these exams by developing, in collaboration with their guidance committee, reading lists for study in their major field, minor field and area of specialization.

The qualifying examination consists of two parts: (1) Three four-hour written responses, based, respectively, on the major field, the minor field and the area of specialization; (2) a two-hour oral session, which may include some discussion of the written exam. Students with one fail or more than two low-pass grades on the written responses will not be permitted to sit for the oral segment of the examination. The guidance committee determines whether a student may retake any parts of the examination graded low-pass or fail.

A student must wait at least six, but not more than nine, months to retake any part, or all, of the qualifying examination. No part of the examination can be retaken more than once.

**Dissertation**

After students have successfully completed their qualifying examinations, they will select a dissertation committee consisting of at least three members, including at least two from the History Department. These individuals will be in charge of guiding the dissertation to completion. Within six months of passing the qualifying examination, students must submit a formal dissertation prospectus to all members of the dissertation committee and pass a one-hour prospectus defense convened by that committee. Some students (e.g., those whose major field is East Asia) can, with the approval of their dissertation committee, petition the Graduate Studies Committee for an extension of this six-month deadline. After passing the dissertation prospectus defense, a student is admitted to candidacy for the Ph.D. degree. The student will thereafter concentrate on the dissertation. After a student becomes a doctoral candidate, he or she must register for HIST 794 Doctoral Dissertation each semester thereafter until the dissertation is completed.

**Advisement**

Students should seek advice on their program of studies from the director of the graduate program, the professor in their major field of study and other members of their guidance committee.
Courses of Instruction

HISTORY (HIST)
The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

HIST 100gm The American Experience (4, FaSpSm) Patterns of American development from Colonial times to the present.

HIST 101g The Ancient World (4, Irregular) Achievements of the near East, Greece, and Rome with emphasis on the development of ideas, arts, and institutions which have influenced modern man.

HIST 102gm Medieval People: Early Europe and Its Neighbors, 400-1500 (4) Early Europe, c. 400-1500, with a focus on Europe's diverse communities, cultural interactions among them, dealings between conquerors and conquered, and European contacts with non-Europeans.

HIST 103g The Emergence of Modern Europe (4, Fa) Political, intellectual, and cultural developments in Europe, 1300-1815. Renaissance and Reformation; absolute monarchy, scientific changes, and Enlightenment; French Revolution and Napoleon.

HIST 104g Modern Europe (4, Sp) The Enlightenment, French Revolution, industrialization, Darwinism, socialism, nationalism, technological revolutions, mass culture, imperialism, race, fascism, communism, world wars, genocide, migration, the Cold War, terrorism.

HIST 105g The Korean Past (4) A topical and chronological study of the major political, social, and intellectual forces that have shaped the history of Korea.

HIST 106g Chinese Lives: An Introduction to Chinese History (4, FaSp) Study of the lives of selected individuals who have helped to shape Chinese politics and culture.

HIST 107g Japanese History (4, FaSp) Japan from the earliest times to the present; social, cultural, and political dimensions.

HIST 180g The Middle East (4, Sp) Introduction to the history and the study of the Middle East from ancient to modern times.

HIST 195 Selected Themes and Topics in History (4, Irregular) Study of special historical themes and topics through readings, lectures, discussions, and supervised writings.

HIST 215g Business and Labor in America (4, Fa) Expansion of business enterprise from colonial merchants to modern corporations; evolution of the labor force from artisans to skilled and unskilled industrial workers. Concurrent enrollment: WRIT 140.

HIST 225g Film, Power, and American History (4, Sp) U.S. motion pictures as both a response to and comment upon major events, problems, and themes in 20th century America. Concurrent enrollment: WRIT 140.

HIST 235g War and the American Experience (4, Fa) Comparative historical analysis of the American experience of war: war decision-making processes; evolution of strategy and tactics; the political, economic, and social effects of war. Concurrent enrollment: WRIT 140.

HIST 240g The History of California (4, Fa) A thematic approach to California history from precontact to present; focus on peoples, environment, economic, social, and cultural development, politics, and rise to global influence. Concurrent enrollment: WRIT 140.

HIST 245g Gender and Sexualities in American History (4) An investigation of the nature of femininities and masculinities over the course of U.S. history; including topics like women's rights, birth control, abortion, and gay/lesbian liberation. Concurrent enrollment: WRIT 140.

HIST 255g The Evolution Debates (4, Fa) Historical perspective for current debates on evolution, investigating the contexts for the emergence and development of evolutionary theory and its subsequent impact on society.

HIST 265g Understanding Race and Sex Historically (4, Sp) To introduce students to historical consideration of the difficult contemporary topics of sexuality and race globally. Concurrent enrollment: WRIT 140.

HIST 266g Business and East Asian Culture, 1800-Present (4, Sp) Business history of East Asia (China, Japan, Korea, Taiwan, and Hong Kong) as related to culture, politics, and society.

HIST 273g Colonial Latin America (4, Sp) Introduction to Colonial Latin America; native American peoples, themes, issues, and evolution of Spanish and Portuguese colonial rule to ca. 1800.

HIST 275g The Worlds of the Silk Road (4, Sp) Exploration of the two millennia of economic exchanges and cross cultural interaction between Asia and Europe.

HIST 280 The Modern Middle East (4, Sp) The interplay of local, regional, and international forces and broad themes in the history of the Middle East from 1500 to the present.

HIST 300 Approaches to History (4, FaSp) Approaches to history; intellectual and personal dimensions of the historian's work. Required of all history majors.

HIST 301 Religions of Ancient Egypt and the Near East (4) (Enroll in REL 302)

HIST 302 From Sappho to Stonewall: Lesbians in History (4, Sp) The cultural, social, and personal meanings of same-sex relations between women in Europe and the United States, from archaic Greece to the 1960s.

HIST 303 Barbarians, Romans, and Christians (4, Fa) Exploration of the dynamic transformation of the social, political, religious, and intellectual landscape of the Mediterranean during Late Antiquity, c. 200 – c. 700 AD.

HIST 304 Archaeology of Egypt and the Near East (4) (Enroll in REL 394)

HIST 305 From Goddesses to Witches: Women in Premodern Europe (4, Sp) Social, cultural and political contexts of women's spiritualities in Europe from the Paleolithic to the Reformation. Topics include: goddess-worship; Christian and Jewish contexts; male attitudes. (Duplicates credit in former HIST 270.)

HIST 306 The Early Middle Ages (4) Survey of European civilization in the Early Middle Ages.

HIST 307 Women in Medieval Europe, c. 1000-1500 (4, Fa) The influences of cultural, social, economic, familial, religious, and political factors on medieval women, as well as consideration of differences among them.

HIST 309 Britain and Ireland, 1100-1500 C.E. (4, Sp) English and Irish culture, economy, and politics during the expansion of the Norman-English kingdom, the colonization of Ireland, and subsequent development toward the English nation-state.

HIST 312 The Age of the French Revolution and Napoleon (4, Fa) Europe in the Old Regime; causes and course of the French Revolution; rise of Napoleon; revolutionary impact on Europe, 1715-1815.

HIST 313 France and the French from Napoleon to Mitterand (4, Irregular) Social, cultural, and political history of France from 1789 to the present.

HIST 316 The Renaissance (4, Irregular) The flowering of arts, literature, and learning at the end of the Middle Ages.

HIST 317gm North American Indians in American Public Life (4, Irregular) (Enroll in ANTH 317gm)

HIST 318 Early American Indian History (4, Sp) Relations of European settlers with native Americans from the 16th into the early 19th centuries; cultural contacts, trade and eventual conflicts.

HIST 320 Russian and Soviet Rebels: The Moral Dilemma and the Continuity of Dissent (4, Irregular) The ethical foundations and the intellectual dimensions of philosophical, social, religious, artistic, and political dissent in Russia from the 14th century until the present.

HIST 323 The Holocaust in 20th Century Europe (4, Sp) The origins and development of anti-Jewish persecution in Germany, resulting in the systematic mass murder of Europe’s Jews during World War II.

HIST 324g Islam in Russia and the Soviet Union (4, Sp) Cultural cohesiveness and ethnic diversity of Islam in the USSR; nature and effect of government policies aimed at the integration of Islam into the state.

HIST 325 Early Modern Britain (4, Sp) A survey of one of the most pivotal eras in British history: reform, regicide, and revolutions; new ideas, new religions, and new worlds.

HIST 326 The Victorians (4) Britain in the 19th century, politics, industrialization, and imperialism, change and continuity in social and cultural aspects, especially class, gender, and race relations. (Duplicates credit in the former HIST 433.)

HIST 327 Twentieth Century Britain (4) The rise and decline of modern Britain as a global political and economic force, social and cultural change, emergence of a multiracial and multiethnic society. (Duplicates credit in the former HIST 434.)

HIST 328 Poland and the Western Tradition (4, 2 years, Irregular) Polish civilization from the 10th century to the present, with special emphasis upon the participation of Poland in the currents of the European tradition.

HIST 329 Madness and Society in the Modern Age (4) The shifting place of insanity and “the mad” in Europe and the United States from the French Revolution to the anti-psychiatry movement.

HIST 330 Drugs, Disease, and Medicine in History (4, Irregular) An overview of the role played by disease and the health sciences in history.

HIST 331 The British Empire: 1588-1834 (4, Sp) Emergence of the British Empire, emphasizing colonies in the Americas; the development of imperial economy, imperial wars, slavery and abolitionism.

HIST 332 British Empire from the Mid-19th Century (4, FaSp) Political and economic development of the British Empire since Victoria; rise of the British Commonwealth.

HIST 333 Korea: The Modern Transformation (4, Sp) Examination of selected topics on Korea’s transition to the modern era; focus on the traditional roots of 20th century developments.

HIST 334 History of the Samurai (4) Development of the Samurai from a warrior elite to political hegemons between the 8th and 12th centuries; use of primary sources, introduction to divergent historiographies. Recommended preparation: a course in Japanese history.

HIST 335 History of Japan to 1550 (4, Irregular) Growth of Japanese civilization from the mythological “age of the gods” through the feudal “age of the samurai”; foundations of a great Asian power.

HIST 336 History of Japan, 1550-1945 (4, Irregular) Development of Japan as a modern world power; tradition and change in Japanese life; impact of Western culture, politics, and diplomacy from 1550 to 1945.

HIST 337 Japan since 1945 (4, Irregular) Survey of the impact of World War II, American occupation, and rapid economic growth on Japan’s politics, society, economy, and culture; Japan as a post-modern nation.

HIST 338 China to 960 A.D. (4, Irregular) The origins of China’s distinctive civilization; cultural and political ferment in the late Chou; the greatness of Han and T’ang.

HIST 339 China, 960-1800 A.D. (4, Irregular) Politics and culture under the Sung; Mongols, Manchus, and other invaders; the golden autumn of a great civilization.

HIST 340 History of China since 1800 (4, Sp) Western impact and dynastic decline; problems of the Chinese Republic; nationalism and communism.

HIST 341 American Social History (4, Irregular) The social history of the American peoples from Colonial times until the 20th century, to include industrialization, urbanization, women, families, workers, immigration, ethnicity, racism, radicalism.

HIST 342 Love and Politics in America, 1750s to 2050s (4, Fa) An analysis of the intersections of love and politics, private and public, in fiction, non-fiction, and film in America from the Enlightenment into the future.

HIST 343 Work, Leisure, and Violence in Industrializing America (4, Irregular) Rise of industrial America from 18th to 20th centuries: changing work ethics, rise of factories, women workers, mass leisure, consumer culture, urban and industrial violence.

HIST 344 The Vietnam War, 1945-1975 (4, SpSm) Analysis of causes, conduct, and consequences of war in Southeast Asia; of participants’ experiences; and of post-war debate.

HIST 345 Men and Women in United States History from the 1920s to the Present (4) Investigation of the roles and relationships of men and women in American society and culture from the era of the “flapper” to the era of the “yuppie.”

HIST 346 American Intellectual History (4, Sp) Study of major American ideas and values as reflected in philosophy, political and economic thought, religion, and social movements.
HIST 347 Urbanization in the American Experience (4, Irregular) The American city in interdisciplinary perspective; emphasis on growth and change in relation to architecture, urban planning, demography, and ethnic politics.

HIST 348 The Dynamics of American Capitalism (4, Irregular) Economic growth and institutional change in American capitalism from the Colonial era to the present.

HIST 350 American Standard of Living: 1600 to the Present (4, Fa) Socioeconomic history of material life: Indian experience, colonial diet, urbanization and slums, industrial households, 1920s durables revolution, installment credit, Depression, postwar boom, advertising, international comparisons.

HIST 351 The American Revolution (4, Fa) Origins, causes and consequences of the American Revolution; the post-war establishment of the Constitution.

HIST 352 The American Civil War (4, Irregular) The causes, course, campaigns, and consequences of the American Civil War, 1861-1865.

HIST 353m Race and Racism in the Americas (4) (Enroll in AMST 353m)

HIST 354 Mexican Migration to the United States (4, 2 years, Fa) Mexican migration from the 1850s to the present, emphasizing labor migrants to the United States.

HIST 355 The African-American Experience (4, Fa) An historical and social analysis of the African-American experience from Colonial times to the present. (Duplicates credit in former HIST 250).

HIST 356 The Old South (4, Irregular) The South from Colonial days to 1860: slavery, the plantation system, politics; important social and economic problems.

HIST 357 The New South (4, Irregular) Economic and political change, racial problems, society, and culture in the American south from 1877 to the present.

HIST 360 19th Century U.S. History (4, Sp) The social, political, and economic history of the United States from the formation of the Constitution to 1900.

HIST 361 20th Century U.S. History (4, Fa) Critical turning points in the 20th century; sources of major social and political change. Course materials include primary documents and historic radio/television recordings.

HIST 363 Foundations of American Foreign Policy, 1776 to the Present (4, Sp) Evolution of American principles, roles and policies in international relations from the founding of the republic to the present.

HIST 365 The Second World War (4, 2 years, Sp) Comparative analysis of the Second World War as a major transforming event of the 20th century. Its causes, conduct, and consequences for humanity.

HIST 366 The People's Republic of China (4) Politics, economy, society, and culture from 1949 to the present including the role of the communist party and the experiences of ordinary people.

HIST 369 Aztecs, Mayas, and other Indigenous Peoples of the Americas (4) Introduction to Pre-Columbian Mesoamerica and the Andes, the causes and consequences of the Spanish conquest, and the establishment of colonial societies and economies.

HIST 370 Spanish America, 1492-1821 (4, Sp) Topics in Spanish colonialism in Americas, with a focus on how religious, sexual, and racial differences shaped colonial policies and practices.

HIST 372 Modern Latin America (4, Sp) Exploration of major themes and events in Latin American history from independence to the present. Upper division standing.

HIST 373 History of the Mexican American (4, FaSp) (Enroll in AMST 373).

HIST 374 History of Mexico (4, Fa) The native cultures of Meso-America; colonial government, economy, and society; independence and 19th century liberalism; the Mexican revolution, 1910 to 1950. (Duplicates credit in former HIST 450.)

HIST 376 U.S.-Japan Encounters: War, Trade, and Culture, (4, Fa) (Enroll in IR 376)

HIST 378m Introduction to Asian American History (4, FaSp) (Enroll in AMST 378m)

HIST 379 Arabs in America (4, FaSp) (Enroll in AMST 379)

HIST 380 American Popular Culture (4, Sp) Rise of popular culture (sports, amusement parks, movies, and television) and its significance in American society from mid 19th century to the present. (Duplicates credit in former HIST 255.)

HIST 381 Cinema and History (4, Irregular) Examines film as a means to narrate the past; treats the question of genre: epic, docudrama, the biopic, the music, adaptation, and such issues as authenticity and infotainment.

HIST 382 The Middle East, 500-1500 (4) Major topics, themes, and representative writings in the history and literature of the Arab and Islamic World during the Medieval period.

HIST 384 Popular Culture in the Middle East (4, FaSpSm) Examination of the Middle East through the prism of its popular cultures; emphasis on audio, visual, and literary representations in relation to colonialism, nation-building, and globalization.

HIST 385 Anglo-American Law before the 18th Century (4) The evolution of discourse, practices, and institutions in Anglo-American legal history from the later Middle Ages to the 18th century.

HIST 386 American Legal History (4, Sp) An introduction to the study of law from a historical perspective; explores the interaction of law, culture, and politics from the Revolution through the New Deal.

HIST 388 Women and Gender in North American History through 1920 (4) Roles and relationships of women and men in North America from first contact to the 1920s, with special emphasis on race, marriage, and political culture.

HIST 390 Special Problems (1-4) Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

HIST 401 The Roman World (4, Fa) Rome at the crossroads of Europe and the Mediterranean; the rise of Rome to world power; social, cultural and political history of Republic and Empire.

HIST 403 Carolingian Europe (4) Political, religious, and intellectual culture of Europe in the 8th and 9th centuries.

HIST 404 Seminar in Korean History (4, Irregular) Exploration of issues and sources in Korean history; work on an individual research paper through an incremental process.
HIST 406 Special Periods in Medieval History (4, Irregular) Intensive study of selected periods.

HIST 407 Europe in the 10th Century (4) Political, religious, and intellectual culture of Europe in the 10th century and beyond.

HIST 408 Everyday Life in Chaucer's England (4, Sp) Readings and research on English social history between 1300 and 1550; emphasis on family structures, demography, gender relations, and class divisions.

HIST 410 The Age of Humanism and Reform (4, Irregular) The thought, art, politics, and religion of western Europe in the 16th and 17th centuries; emphasis on the contribution of Christian humanism.

HIST 414 Contemporary Europe (4, Irregular) World War I and its aftermath; challenge of new culture values; World War II; problems of postwar adjustment.

HIST 415 Medieval and Early Modern Russia (4, 2 years, Fa) The politics, society, and culture of medieval and early modern Russia; the emergence of empire and the roots of its Eurasian identity.

HIST 416 History of Imperial Russia: 1689-1917 (4, Sp) The evolution of imperial society, politics and culture from Peter the Great to the Bolshevik Revolution. The dilemmas of identity in a multinational empire.

HIST 419 Poland and Its Neighbors in the Middle Ages (4, 2 years, Sp) Polish politics, society, and culture in relation to its regional neighbors, especially Bohemia and Hungary, from the 10th to the end of the 15th century.

HIST 421 European Intellectual and Cultural History: The Turn of the Century 1880-1920 (4) Intellectual and cultural trends of turn-of-the-century Europe, including the avant-garde, the crisis of positivism, psychoanalysis and gender theory.

HIST 422 European Intellectual and Cultural History: The 20th Century, 1920 to the Present (4, Irregular) Intellectual and cultural trends of contemporary Europe, including Dadaism, Surrealism, Western Marxism, Fascism, Existentialism and Structuralism.

HIST 424 Family, Work, and Leisure in Russian History (4, Irregular) Children and parents, love and marriage, work and leisure in the Russian village and city before and after the Revolution.

HIST 425 The Era of the First World War (4, FaSp) The background, causes, course, and aftermath of the First World War, with attention to the events in the United Kingdom and continental Europe. Prerequisite: HIST 104g, HIST 413, HIST 414 or departmental approval.

HIST 426 Gender, Family, and Society in Europe and the United States, 1500-Present (4, 2 years, Sp) Changing social, economic, and cultural functions of the family and the roles of men, women, and children from pre-industrial times to the present in Europe and the United States.

HIST 427 The German Question: Nation and Identity in Modern Central Europe (4) A seminar on the making, unmaking and remaking of the German nation-state, with particular attention to issues of race, class and gender in German identity.

HIST 428 Life and Death in Nazi Germany (4) Social, cultural and medical history of Nazi Germany, emphasizing the Nazi vision of a racially pure national community. Recommended preparation: some European history.

HIST 429 Street Life: Urban Culture in Modern Europe (4, Sp) The 19th and 20th century European city as social artifact, cultural setting and object of fascination for its contemporary inhabitants.

HIST 432 Britain in the 18th Century (4) Political, social, and cultural aspects of British life from the accession of George I to about 1820.

HIST 437 Seminar in Modern Chinese History (4, max 8, FaSp) A readings and research seminar dealing with one topic in the history of China since 1600. Topics will change each time the course is offered. Recommended preparation: a class in Chinese history.

HIST 438 Seminar in Pre-Modern Japanese History (4, max 8, FaSp) A readings and research seminar dealing with one topic in the history of Japan before 1550. Topics will change each time the course is offered. Recommended preparation: a course in Japanese history.

HIST 440 Early Modern World History (4, Fa) Comparative patterns of historical change around the world, from ca. 1500 to ca. 1800.

HIST 441 Modern World History (4, Sp) Comparative patterns of historical change around the world, from ca. 1800 to the present.

HIST 444 Mass Violence and Comparative Genocide in Modern World History (4) Systematic exploration of origins, developments, forms, and aftermath of mass murder of large population groups, one of the dark elements of modern world history.

HIST 445 Comparative History and Theory of Fascism and Nazism (4, Fa) Analysis and comparison of Italian Fascism and German Nazism in national and international contexts; recent historiographic debates.

HIST 452 Beauty and the Body in Historical Perspective (4, Sp) Cultural constructions of the body and beauty from gender, ethnicity, age, and disability perspectives in Europe and the United States from 1800 to the present.

HIST 455 Advanced Topics in African-American History (4, Sp) Exploration of African-American history through primary and secondary sources employing a colloquium format with an emphasis on shared responsibility for comprehensive discussion and analysis. Upper division or graduate standing.

HIST 456 Race, Slavery, and the Making of the Atlantic World (4, FaSp) Introduction to the literature of the Atlantic World with a focus on slavery and its role in the emergence of the modern era. Seminar enrollment limited to 15 students.

HIST 457 The American West (4, Irregular) The nation’s westward movement from Colonial times to the present, with emphasis on the frontier’s effect on American life and institutions.
HIST 458 History of California (4, Fa) Exploration, colonization, and development of Hispanic California; coming of the Americans; political, economic, and cultural development of California since its acquisition by the United States.

HIST 462 20th Century American Thought (4, Fa) Major American thinkers from John Dewey and Jane Addams to Martin Luther King and Richard Rorty, with emphasis on race, religion, politics, and gender.

HIST 464 Culture, Money, and Power: Japanese-American Relations since 1853 (4, Sp) Examination of the role of cultural, economic, and military forces in shaping relations between two of the most important nations in the Asia/Pacific regions. Recommended preparation: HIST 363 or appropriate International Relations course.

HIST 465 America in the Cold War World, 1945-1991 (4, Fa) America’s role in the Cold War and the impact of that conflict on its people, society and culture.

HIST 470 The Spanish Inquisition in the Early Modern Hispanic World (4, 2 years, Fa) The Spanish Inquisition in Spain and Colonial Latin America, major theories and interpretations. Junior or senior standing recommended.

HIST 473 Colonial Latin America Seminar (4, Sp) The history of colonial Latin America, focusing on the transformation of native Americans and Europeans into participants in a new colonial tradition. Upper division standing. (Duplicates credit in former HIST 371.)

HIST 474 Sex, Gender, and Colonialism in Latin America, 1492 to 1820 (4, 2 years, Sp) Seminar overview of the historical literature on women, gender, and sexuality in colonial Latin America.

HIST 478 The United States, 1789-1850 (4, Irregular) The nation during the first six decades; development of American institutions; constitutional growth, expansion, sectionalism, and the Mexican War; the Compromise of 1850.

HIST 480 Seminar in Middle East History (4, max 8) A readings and research seminar dealing with one topic in the history of the Middle East. Topics will change each time the course is offered.

HIST 481 Producing Film Histories (4, Sp) History of film form and its institutions. Students will produce an original written or multimedia research project.

HIST 482 Jesus in American History and Culture (4, Sp) The place of Jesus Christ in diverse American cultures from colonial times to the present: Jesus as cultural icon, secular inspiration, Christian Son of God.

HIST 484 The United States, 1919-1939 (4, Irregular) Postwar reaction and the Twenties; the Great Depression and the New Deal; diplomacy between the wars.

HIST 487 The United States since 1939 (4, Irregular) A survey of the accelerating changes that transformed the nation’s domestic life and revolutionized America’s role in world affairs.

HIST 488 Teaching History in the Secondary Schools (4, Fa) Seminar in research methods, textbook and online research and teaching materials, and instructional approaches for teaching history in secondary schools.

HIST 490x Directed Research (2-8, max 8, FaSp) Individual research and readings. Not available for graduate credit.

HIST 492 Honors Thesis (4, Sp) Writing of the honors thesis; for students in the History Honors Program.

HIST 493 Quantitative Historical Analysis (4, Sp) Reading and doing quantitative research with historical data. Covers research designs, appropriate statistical analysis, and software packages for the use of historians.

HIST 494 Seminar in New Historical Writing (4, 2 years, Fa) Historical writing experiments combining historical specificity with more fluid approaches to time, characterization and objectivity associated with 20th century artists.

HIST 497 Senior Seminar in Early Modern Studies (4, Sp) (Enroll in ENGL 497)
HIST 525 Studies in British History (4, Irregular) Selected topics in English and British Empire history with emphasis on the 19th and 20th centuries.

HIST 536 Studies in Chinese History (2 or 4, Irregular) Selected topics in historical problems dealing with China. Prerequisite: HIST 340.

HIST 540 Studies in Modern East Asian History (4, max 8, Irregular) Readings and analysis of a particular theme in modern Asian history, focusing on broad comparative issues like cultural identity, colonialism, nationalism, revolution, or interstate relations.

HIST 544 Feminist Theory for Historians (4, Fa) Readings in contemporary feminist theory, focused especially on theories that address the construction, writing, and general practice of history. Open only to graduate students.

HIST 546 Comparative History of Women and Gender in the West to 1800 (4, Fa) Topically-focused readings in the comparative history of women and gender in Europe and the Americas before 1800. Open only to graduate students.

HIST 550 Studies in the History of Women, Gender and Sexuality (4, max 8, Irregular) Readings and current bibliography in the history of women, gender and sexuality.

HIST 554 Readings in Chicano/Latino History (4, FaSp) (Enroll in AMST 554)

HIST 555 Studies in the American West (4) Zones of contact — physical, economic, political, ecological, symbolic, cultural, metaphorical — between peoples “west” of the Eurasian land mass since the rise of capitalist global expansion.

HIST 561 Historiography of Colonial Mexico (4, Fa) Introduction to the historiography of Colonial Mexico from 1500 to 1821.

HIST 565 Studies in American International History (4, FaSm) Readings and analyses of American policies, roles and principles in their interaction with peoples and nations of the world.

HIST 566 Historical Scholarship on North America to 1800 (4, Fa) Introduction to research in the fields of American Indian, colonial America, Atlantic world, and the early United States. Open only to graduate students.

HIST 567 Historical Scholarship on 19th Century America (4, Sp) Introduction to historiography and research in the political, economic, social, cultural, and intellectual history of the 19th century United States.

HIST 568 Historical Scholarship on 20th and 21st Century America (4, Sp) Introduction to historiography and research in the political, economic, social, cultural, and intellectual history of the 20th and 21st century United States.

HIST 575 Studies in 19th Century United States History (4, max 8, 2 years, Fa) Intensive readings and bibliography in the Early National, Jacksonian, Civil War, and Post-Civil War periods.

HIST 583 Studies in Urban History (4) Readings and analyses in the rise of the city and the impact of urbanization from the colonial era to the present.

HIST 584 Seminar in American Social History (4, Irregular) Creation of communities and societies; industrialization, urbanization, working class life; families, women, ethnicity; immigration; racism; mobility; reform and radicalism, leisure.

HIST 585 Studies in 20th Century American History (4) Readings and analyses in social and political problems, movements, and issues.

HIST 590 Directed Research (1-12, FaSpSm) Research leading to the master's degree. Maximum units which may be applied to the degree must be determined by the department. Graded CR/NC.

HIST 592 Historiography (4, Sm) Historical criticism; form and mechanics of presenting research; writers of history, their works and philosophies; theories of historical development.

HIST 593 The Art of Historical Writing (4, Sp) An analysis of conventional forms of historical representation and the artistic and scientific challenges to them. Laboratory training in innovative forms of historical writing will be stressed.

HIST 595 Practicum in Teaching the Liberal Arts (2, FaSp) (Enroll in MDA 593)

HIST 602 Seminar in Ancient History (2 or 4, max 8, Irregular) Directed research in historical problems.
