Public Diplomacy (MPD)................................................................................................................ 508
Public Diplomacy (Practitioner and Mid-Career Professional) (MPD)............................................. 508
Health Communication Management Graduate Certificate ......................................................... 509
International and Intercultural Communication Management Graduate Certificate.............. 509
Marketing Communication Management Graduate Certificate ................................................. 509
Media and Entertainment Management Graduate Certificate.................................................. 510
New Communication Technologies Graduate Certificate......................................................... 510
Strategic Corporate and Organizational Communication Management Graduate Certificate... 510
Juris Doctor/Master of Communication Management (JD/MCG).................................................... 511
Master of Communication Management/Jewish Nonprofit Management (MCM/MA).. 511
Communication (PhD)....................................................................................................................... 511

USC Kaufman School of Dance ..................................................................................................... 514
Undergraduate Degree 515
Dance (BFA)....................................................................................................................................... 515
Dance in Popular Culture: Hip-Hop, Urban and Social Dance Minor ............................................. 517
Dance Minor ..................................................................................................................................... 518

Herman Ostrow School of Dentistry of USC ................................................................................. 519
General Information ......................................................................................................................... 520
Undergraduate Degree 523
Continuing Education 524
Craniofacial and Dental Technology Minor .................................................. 524
Dental Hygiene (MS) ......................................................................................... 524
Geriatric Dentistry (MS) .................................................................................. 526
Geriatric Dentistry Graduate Certificate ......................................................... 526
Dental Surgery (DDS) ....................................................................................... 527

Department of Dental Hygiene 533
Dental Hygiene (BS) ......................................................................................... 534

Craniofacial Biology 535
Craniofacial Biology (MS) .................................................................................. 536
Craniofacial Biology Certificate ......................................................................... 536
Craniofacial Biology (PhD) ................................................................................ 536

Advanced Programs in Dental Education 537
Advanced Orofacial Pain and Oral Medicine (MS) ......................................... 539
Advanced Endodontics Certificate .................................................................... 539
Advanced Operative and Adhesive Dentistry Certificate .................................. 540
Advanced Operative and Adhesive Dentistry Certificate/MS, Craniofacial Biology ...... 541
Advanced Oral Medicine Certificate .................................................................... 543
Advanced Orofacial Pain Certificate ................................................................... 543
Advanced Orthodontics Certificate ..................................................................... 544
Advanced Pediatric Dentistry Certificate ......................................................... 545
Advanced Periodontology Certificate .................................................................. 546
Advanced Prosthodontics Certificate .................................................................. 548
General Practice Residency ................................................................................. 549
Integrated MD Degree/Oral and Maxillofacial Surgery Certificate Program ........... 550
Advanced Periodontology Certificate/Master of Science, Craniofacial Biology ....... 550

USC School of Dramatic Arts ........................................................................... 552

Degree Requirements 554
Minor Programs ................................................................................................. 554
Theatre (BA) ...................................................................................................... 554
Theatre, Acting Emphasis, (BA) ........................................................................ 555
Theatre, Acting Emphasis, (BFA) ....................................................................... 555
Theatre, Design Emphasis, (BA) ........................................................................ 556
Theatre, Design Emphasis, (BFA) ....................................................................... 557
Theatre, Sound Design Emphasis, (BFA) ........................................................... 558
Theatre, Stage Management Emphasis, (BFA) .................................................. 558
Theatre, Technical Direction Emphasis, (BFA) .................................................. 559
Visual and Performing Arts Studies (BA) ........................................................... 560
Applied Theatre Arts Minor ............................................................................... 561
Comedy (Performance) Minor ........................................................................... 561
Performing Arts Studies Minor ........................................................................... 561
Playwriting Minor ............................................................................................... 562
Theatre Minor .................................................................................................... 562
Applied Theatre Arts (MA) ............................................................................... 562
Theatre (MFA) ........................................................................................................................................... 563

**USC Rossier School of Education** ........................................................................................................ 564

**Graduate Degrees** .................................................................................................................................. 566

**Credential Programs** .............................................................................................................................. 566

**Special Programs** .................................................................................................................................... 568

- Education and Society Minor .................................................................................................................. 568
- Teaching English to Speakers of Other Languages (TESOL) Minor ....................................................... 568
- The Dynamics of Early Childhood Minor .................................................................................................. 569
- Alternative Certification Master of Arts in Teaching, Multiple Subject .................................................. 569
- Alternative Certification Master of Arts in Teaching, Single Subject ..................................................... 569
- Educational Counseling (MEd) ................................................................................................................. 570
- Learning Design and Technology (MEd) .................................................................................................... 570
- Marriage and Family Therapy (MMFT) ...................................................................................................... 570
- Multiple Subject, Single Subject and Single Subject (Music Education) (MAT) ....................................... 571
- Postsecondary Administration and Student Affairs (MEd) ....................................................................... 572
- School Counseling (MEd) ....................................................................................................................... 572
- School Leadership (MEd) .......................................................................................................................... 572
- Teacher Leadership (MEd) ....................................................................................................................... 573
- Teaching, Teaching English to Speakers of Other Languages (MAT) ...................................................... 574
- Gifted Education Certificate ...................................................................................................................... 574
- School Counseling Certificate .................................................................................................................... 575
- Special Education Certificate ....................................................................................................................... 575
- STEM Education Certificate ...................................................................................................................... 575
- Doctor of Education/Master of Business Administration (EdD/MBA) ....................................................... 576
- Doctor of Education (EdD) ....................................................................................................................... 576
- Global Executive (EdD) .............................................................................................................................. 577
- Organizational Change and Leadership (EdD) ............................................................................................ 577
- Urban Education Policy (PhD) .................................................................................................................... 578

**USC Viterbi School of Engineering** ....................................................................................................... 579

**Degrees and Accreditation** ..................................................................................................................... 579

**Undergraduate Degrees and Requirements** .......................................................................................... 581

**Graduate Degrees and Requirements** .................................................................................................... 584

**Engineering** ............................................................................................................................................. 589

**Aerospace and Mechanical Engineering** ............................................................................................... 591

- Aerospace Engineering Degrees ............................................................................................................. 592
- Mechanical Engineering Degrees ............................................................................................................. 592
- Aerospace Engineering (BS) ...................................................................................................................... 592
- Mechanical Engineering (BS) .................................................................................................................... 593
- Mechanical Engineering, Petroleum Engineering, (BS) ............................................................................ 595
- Aerospace and Mechanical Engineering (Computational Fluid and Solid Mechanics) (MS) .................... 596
- Aerospace and Mechanical Engineering (Dynamics and Control) (MS) .................................................. 596
Aerospace Engineering (MS) ................................................................. 597
Aerospace Engineering/Engineering Management (MS) .......................... 597
Mechanical Engineering (MS) .............................................................. 597
Mechanical Engineering (Nuclear Power) (MS) .................................... 598
Mechanical Engineering/Engineering Management (MS) ....................... 599

Astronautical Engineering 599
Astronautical Engineering (BS) ............................................................ 600
Astronautical Engineering Minor ......................................................... 600
Astronautical Engineering (MS) .......................................................... 601
Astronautical Engineering Certificate ................................................... 602
Astronautical Engineering (PhD) ......................................................... 602

Biomedical Engineering 602
Biomedical Engineering (BS) ............................................................... 603
Biomedical Engineering, Biochemical Engineering Emphasis, (BS) ............ 604
Biomedical Engineering, Electrical Engineering Emphasis, (BS) ................. 605
Biomedical Engineering, Mechanical Engineering Emphasis, (BS) .......... 606
Biomedical Engineering (Medical Imaging and Imaging Informatics) (MS) ... 606
Biomedical Engineering (MS) ............................................................. 607
Medical Device and Diagnostic Engineering (MS) .................................. 607
Health, Technology and Engineering Graduate Certificate ........................ 607
Biomedical Engineering (PhD) ............................................................. 608

Chemical Engineering – Mork Family Department of Chemical Engineering and
Materials Science 608
Chemical Engineering (BS) .................................................................... 609
Chemical Engineering, Biochemical Engineering Emphasis, (BS) .............. 610
Chemical Engineering, Environmental Engineering Emphasis, (BS) ......... 611
Chemical Engineering, Nanotechnology Emphasis, (BS) ........................ 612
Chemical Engineering, Petroleum Engineering Emphasis, (BS) ............... 613
Chemical Engineering, Polymer/Materials Science Emphasis, (BS) ......... 614
Chemical Engineering, Sustainable Energy Emphasis (BS) ...................... 615
Nanotechnology Minor ........................................................................ 616
Chemical Engineering (MS) ................................................................... 617
Chemical Engineering (PhD) ................................................................ 617

Materials Science – Mork Family Department of Chemical Engineering and Materials
Science 617
Materials Science (MS) ....................................................................... 618
Materials Science (PhD) ..................................................................... 618

Petroleum Engineering – Mork Family Department of Chemical Engineering and
Materials Science 618
Petroleum Engineering Minor ............................................................... 618
Petroleum Engineering (Geoscience Technologies) (MS) .......................... 619
Petroleum Engineering (MS) ................................................................ 619
Petroleum Engineering (Smart Oilfield Technologies) (MS) ................. 619
Smart Oilfield Technologies Certificate .......................................................... 619
Petroleum Engineering (MS)/Engineering Management (MS) ......................... 619
Petroleum Engineering (PhD) ........................................................................ 620

Civil Engineering – Sonny Astani Department of Civil and Environmental
Engineering 620
Applied Mechanics (BS) .............................................................................. 621
Civil Engineering (BS) .................................................................................. 622
Civil Engineering, Building Science Emphasis (BS) ........................................ 623
Civil Engineering, Environmental Engineering Emphasis (BS) ....................... 624
Civil Engineering, Structural Engineering Emphasis (BS) .............................. 624
Construction Planning and Management Minor ............................................ 625
Civil Engineering (MS) .................................................................................. 626
Construction Management (MCM) ............................................................... 626
Transportation Systems Graduate Certificate ................................................. 627
Civil Engineering (PhD) .................................................................................. 627

Environmental Engineering - Sonny Astani Department of Civil and Environmental
Engineering 627
Environmental Engineering (BS) ................................................................. 629
Environmental Engineering Minor .............................................................. 629
Environmental Engineering (MS) ................................................................. 630
Engineering (Environmental Engineering) (PhD) ......................................... 630

Computer Engineering 630
Computer Engineering Program 630
Computer Engineering and Computer Science (BS) ..................................... 631
Computer Engineering (MS) ........................................................................ 632
Computer Engineering (PhD) ....................................................................... 633

Computer Science 633
Computer Science (BS) .................................................................................. 635
Computer Science (Games) (BS) ................................................................. 637
Computer Science/Business Administration (BS) ......................................... 638
Computer Science Minor ............................................................................. 639
Master of Science in Computer Science Dual Degree with Tsinghua University
School of Information Science and Technology – China ............................. 639
Computer Science (Computer Networks) (MS) .......................................... 640
Computer Science (Computer Security) (MS) ............................................. 640
Computer Science (Data Science) (MS) ...................................................... 641
Computer Science (Game Development) (MS) .......................................... 641
Computer Science (High Performance Computing and Simulations) (MS) .... 642
Computer Science (Intelligent Robotics) (MS) ............................................. 642
Computer Science (MS) ............................................................................... 643
Computer Science (Multimedia and Creative Technologies) (MS) ............... 644
Computer Science (Scientists and Engineers) (MS) .................................... 644
Computer Science (Software Engineering) (MS) ....................................... 644

Catalogue Home

The University of Southern California offers a tremendous range of academic and intellectual opportunities, and this catalogue should serve as your roadmap. In it you will find information on classes offered by our Dornsife College of Letters, Arts and Sciences, the Graduate School and 18 different professional schools. I hope you will feel inspired to consider innovative and creative ways of pursuing your education.

To our undergraduates: You are fortunate to have advisers and professors who wholeheartedly encourage you to explore different disciplines and departments. These years should be a time of discovery, for stretching yourself intellectually, creatively and socially. One of USC’s distinctive traits is its emphasis at the baccalaureate level on what we call “depth with breadth” — that is, promoting the creative combination of majors (or majors and minors) that seem far apart in the intellectual landscape. USC offers more than 170 minors, and we encourage you to examine those that challenge you, perhaps taking your studies in an entirely new direction.

To our graduate students: Your courses — though designed to focus rigorously on various specialties — are intended to deepen and expand your knowledge. We urge you to pursue interdisciplinary connections and to build relationships with your peers in other fields. These relationships will enrich your work, and increase the tremendously vibrant academic culture on our campuses.

Intellectual breadth and agility are the tools you will need to succeed professionally, and the education you receive at USC will certainly equip you well. Be bold in designing your USC education — and in creating your future!

C. L. Max Nikias

Senior Administration

USC is governed by a Board of Trustees and led by President C. L. Max Nikias in conjunction with a senior administrative team responsible for managing institutional operations through administrative units and schools. Additionally, the Academic Senate, Undergraduate Student Government, and Graduate and Professional Student Senate have power to make studies, reports and recommendations to the president in matters pertaining to their constituencies.

C. L. Max Nikias  
President  
Michael Quick  
Provost and Senior Vice President for Academic Affairs  
Carol Mauch Amir  
Senior Vice President and General Counsel  
Albert R. Checcio  
Senior Vice President, University Advancement  
Todd R. Dickey  
Senior Vice President, Administration  
Thomas E. Jackiewicz  
Senior Vice President and Chief Executive Officer for Keck Medicine of USC  
Lisa Mazzocco  
Chief Investment Officer  
Thomas S. Sayles  
Senior Vice President, University Relations  
James M. Staten  
Senior Vice President, Finance, and Chief Financial Officer  
Lynn Swann  
Athletic Director  
Dennis Cornell  
USC Chief of Staff
Academic Deans
David Bridel
USC School of Dramatic Arts
Pinchas Cohen
USC Davis School of Gerontology

USC Suzanne Dworak-Peck School of Social Work
Karen Symms Gallagher
USC Rossier School of Education
Andrew T. Guzman
USC Gould School of Law
William W. Holder
USC Leventhal School of Accounting

Admission and Orientation

Orientation

New Student Orientation
USC Orientation welcomes new students to the Trojan Family and provides events that promote success for all graduate and undergraduate students beginning their studies at USC. The university strongly recommends that all students attend an Orientation event to familiarize themselves with the campus services and academic requirements that will assist them in their transition to USC.

Numerous Orientation events are held for new freshman and transfer students. During Orientation, students meet with academic advisors to plan their first-semester schedule. Guests are invited to attend Orientation with their students to become acquainted with the university. There is an additional charge for guests to attend Orientation. Please see the Office of Orientation Programs Website at usc.edu/orientation for details.

All international students are required to complete their Passport Verification (PPV), which is offered during the International Student Orientation. More details can be found on the Orientation Website at usc.edu/orientation.

Graduate students are offered a centralized Graduate Orientation event before the start of the semester. Many academic departments and professional schools offer additional orientation sessions for their specific departments. Sessions are also available for graduate assistants through the Center for Excellence in Teaching (CET). For information about CET’s programs, see Special Study Options or visit usc.edu/cet. Email usccet@usc.edu to subscribe to the Friends of CET weekly updates.

All students entering USC for the first time will be assessed a New Student Fee that will appear on the fee bill. This is a one-time fee assessed for all services available on campus, internationally and online. Fee details can be found on the Orientation Website at usc.edu/orientation.

Yannis C. Yortsos
USC Viterbi School of Engineering

Admission to undergraduate programs is granted by the USC Office of Admission. This office receives and processes all applications, evaluates credentials, and mails letters of acceptance to applicants who qualify for entrance. Admission to the university’s degree programs must be granted in all cases by the USC Office of Admission and the appropriate selection committees. Only a letter from the Office of Admission grants official admission.

As a private university, USC seeks a wide geographical distribution among its student body, and evaluates its out-of-state applicants using the same criteria as those used for California residents. Tuition and fees are the same for all students, regardless of state or country of residence.

The University of Southern California admits qualified men and women as students regardless of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran. After admission, students are accorded equal rights to participate in all university-sponsored programs and activities. The university does not discriminate on the basis of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran in the administration of its educational policies, scholarship and loan programs, athletics and other student activities.

Applicants with Disabilities
In compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act Amendments Act (ADAAA), USC offers equal access to its degree programs to academically qualified applicants with documented disabilities. Applicants will be expected to have demonstrated by their record in a college preparatory high school curriculum or in an appropriate transferable college course of study that they can perform well in a competitive academic environment. See here for a discussion of possible accommodations. USC is committed to providing reasonable accommodations to students with disabilities.

Retention of Records
Credentials submitted to the Office of Admission become the property of the university and cannot be returned to the student or duplicated for any purpose.

Application Procedures
Students submit applications online through the Common Application at commonapp.org. A nonrefundable fee will be charged with the completed application, although students with financial need may request a fee waiver. For specific application deadlines and requirements, refer to usc.edu/uga or the Meet USC brochure.

Credentials for admission must include complete records of all previous high school and college or university work and the required test scores. USC does not undertake the collection of these credentials. The application for admission and complete credentials should be submitted via the Common App by the appropriate deadlines.

Factors given prime consideration for admission to undergraduate study are an applicant’s previous academic success and the quality of all records presented. To ensure diversity in the composition of the student body, other considerations may include outstanding talent and abilities, extracurricular activities and letters of recommendation.

Deferring Admission A student is accepted only for the semester and program specified in the letter of admission. If a different semester is desired or if the student cannot arrive on campus in time for the specified semester, students may defer admission for one year by submitting a USC Admission Deferral Request Form to the Admission Office. A deferral may be requested within one year of the original semester of application. (Example: A student applied for the fall 2016 semester and wishes to have admission deferred to the fall 2017 semester.) Longer gaps required for religious reasons or for compulsory military service will also be considered. Once students have been admitted, they complete, sign and date the Admission Deferral Request Form and submit it to the Office of Admission as soon as possible. Only students who have been formally admitted to USC may request a deferral. 

School and Department Application Requirements

Because of strong competition for admission, several schools and academic departments require supplementary application materials and may employ separate deadlines. 

Leventhal School of Accounting Transfer applicants interested in accounting must first apply to business administration. A formal request to transfer to the Leventhal School of Accounting can be made once the resident accounting course(s) are successfully completed. In some cases, high school students who have demonstrated exceptional scholastic aptitude for the accounting major will be considered for admission as first-year students. For more information, write or call the USC Marshall School of Business, Office of Undergraduate Admission, Los Angeles, CA 90089-0805, (213) 740-8885, email lsoa_undergrad@marshall.usc.edu or visit marshall.usc.edu/lsoa.

School of Architecture (BArch, BS, Architectural Studies) Transfer students should note that the core curriculum will take five years to complete. A portfolio is required of all applicants. For more information, write or call the USC School of Architecture, Los Angeles, CA 90089-0291, (213) 740-2420, email uscarch@usc.edu or visit arch.usc.edu.

Roski School of Art and Design (BFA and BA) Portfolios are required of all applicants to the BFA and BA (Studio Arts) programs. Applicants may contact the USC Roski School of Art and Design, Watt Hall 104, Los Angeles, CA 90089-0292, (213) 740-2787, for questions about applications and required supplementary materials.

Jimmy Iovine and Andre Young Academy for Arts, Technology and the Business of Innovation (BS) To apply, submit the Common Application and the USC Writing Supplement by December 1. Applicants must include a one-minute proposal video and are encouraged to submit a portfolio of creative work. Current USC students who wish to transfer in to the Academy should complete only the SlideRoom portion of the application. The Academy is not currently accepting transfer applicants from institutions outside USC. For more information, please call (213) 821-6140, email iovine-young@usc.edu.

Marshall School of Business Students may be admitted as incoming first-year students, as USC undergraduates transferring from another major or as students transferring from another college or university. Transfer students will be considered for admission to the Marshall School of Business once they have completed the prerequisite college writing and business calculus courses. Students should contact the Marshall School for a detailed list of equivalent courses. For further information, write or call the USC Marshall School of Business, Office of Undergraduate Admission, Los Angeles, CA 90089-0805, (213) 740-8885, send email to busadm@marshall.usc.edu or refer to marshall.usc.edu.

School of Cinematic Arts (Animation and Digital Arts, Cinema and Media Studies, Film and Television Production, Interactive Media and Games, Media Arts and Practice, and Writing for Screen and Television) Supplemental materials for first-year applicants are due December 1. Transfer students should apply by February 1. Transfer students applying to the writing program should note that the application deadline is December 1 and that the core curriculum takes four years to complete. For specific instructions on applications and required supplementary material, contact the USC School of Cinematic Arts, Student Affairs Office, Los Angeles, CA 90089-2211, (213) 740-8358, email admissions@cinema.usc.edu or visit cinema.usc.edu.

Annenberg School for Communication and Journalism (Communication, Journalism and Public Relations) All applicants to the Annenberg programs must include a statement of intent explaining their reasons for pursuing an education and a career in communication, journalism or public relations. Statements are read with great attention to commitment and literacy. For more information, contact the USC Annenberg School for Communication and Journalism, Recruitment Office, Los Angeles, CA 90089-0281, (213) 821-0770, email ascadm@usc.edu or visit annenberg.usc.edu.

Kaufman School of Dance (BFA) Admission to the USC Kaufman School is competitive: No more than 15 to 20 students will be invited to enroll. In addition to the Common Application, applicants must submit the USC Kaufman School Supplement via SlideRoom. All required materials must be received by December 1. Finalists will be invited to audition in person. Current USC students and transfer
students are welcome to apply but should note that the BFA in Dance is a four-year program. For more information, contact the USC Kaufman School at 849 West 34th Street, Los Angeles, CA 90089-3521, email aubertsia@usc.edu or visit kaufman.usc.edu.

Heritage School of Dentistry (Dental Hygiene) All prerequisite and general education course work must be completed prior to entering dental hygiene classes, which begin in the fall of the student's junior year. Contact the department about completing necessary courses at USC or elsewhere. Admission is for the fall semester only. The deadline to submit the USC Common Application is February 1. Only junior transfer students may apply. For further information and a supplemental application, write or call the Heritage School of Dentistry, Office of Admissions and Student Affairs, 925 West 34th Street, Room 201, Los Angeles, CA 90089-0641, (213) 740-2841 or visit usc.edu/dental.

School of Dramatic Arts (BFA and BA) Applicants must complete portfolio requirements for the School of Dramatic Arts. The deadline for all first-year programs, and transfer BFA programs, is December 1. The deadline for BA transfer programs is February 1. An audition/ interview is required for admission to the BFA program; applicants will be notified of the dates and locations for auditions and interviews after the departmental application is received. Additional information is available by calling (213) 740-1286 or visiting dramaticarts.usc.edu.

Viterbi School of Engineering Applicants to engineering and computer science majors must respond to the two short-answer questions on the USC Writing Supplement. For first-year applicants to all majors in engineering and computer science, four years of mathematics are required for admission consideration, preferably with calculus in progress or completed by senior year. Three years of natural sciences are also required. Transfer applicants to all majors in engineering and computer science should have completed one or more semesters of college-level calculus and meet USC admission requirements. Transfer students are encouraged to complete additional pre-engineering course work as available; visit viterbi.usc.edu/admission for a list of relevant courses. For more information, contact the Viterbi School of Engineering Admission and Student Affairs Office at (213) 740-4530 or viterbi.admission@usc.edu

Thornton School of Music The deadline for all music majors (first-year and transfer) is December 1. All required supplementary materials must be received by this date. An audition is required for most majors. Audition requirements and dates can be found at usc.edu/music or by contacting the Thornton School of Music Office of Admission, University Park, UUC 218, Los Angeles, CA 90089-2991, (213) 740-8986. Applicants are urged to apply as early as possible.

USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy This program accepts applications from first-year students only. For information about admission criteria, program course sequence and application procedures, visit chan.usc.edu. Alternatively, write or call the USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy at 1540 Alcazar Street, Los Angeles, CA 90089-9003, (866) 385-4250.

School of Pharmacy The Trojan Admission Pre-Pharmacy (TAP) program is a unique program for entering first-year students: a pre-pharmacy/doctor of pharmacy curriculum that affords students continuity in their professional education. Students admitted to TAP begin their pre-pharmacy course work at USC in the freshman year and are guaranteed admission to the USC School of Pharmacy, provided they meet specified criteria. All applicants should contact the School of Pharmacy for instructions at USC School of Pharmacy, 185 Zonal Avenue, PSC 206A, Los Angeles, CA 90089-9121, (323) 442-1466 or pharmacieschool.usc.edu/programs/pre/tap.

Admission from Secondary Schools Prospective first-year students are evaluated on the content and rigor of their high school course work, their grades, standardized test scores, activity summary, essay, short answers and counselor/teacher recommendations. There are no absolute "cutoffs" or minimums for grades, rank in class or test scores. We are interested in the interplay of these elements as well as personal accomplishments and potential for success.

Academic Expectations The most fundamental expectation of each entering student at USC is that she or he will have completed a rigorous high school curriculum in English, mathematics, science, social studies, foreign language and the arts. We realize, of course, that individual talents, circumstances and opportunities vary greatly. Therefore, no specific curriculum is prescribed. However, we do expect that prospective students will take advantage of the highest level of classes offered to them in their secondary schools.

Grade Point Average When assessing grade point average, consideration is also given to class rank and to the strength and frequency of Advanced Placement, International Baccalaureate or A-Level course work in a student's curriculum, if this course work is offered by his or her school. Naturally, we are interested in consistently strong academic performance throughout the four-year high school record. However, we realize that some bright students, for one reason or another, may encounter difficulties in ninth grade. In these cases, special attention is given to steady and substantial improvement throughout the sophomore, junior and senior years.

Standardized Test Requirement SAT and ACT

USC requires either SAT or ACT scores (with the optional writing test) from all first-year applicants, and from transfer students who have accumulated fewer than 30 transferable semester units since finishing high school. For students who take the SAT more than once, USC records the highest scores for each section, even if achieved in different settings. For students taking the ACT, USC will record the highest composite score.

Students applying for fall 2017 admission may submit either version of the SAT. Students applying for fall 2018 admission must submit the new format. We will not require the optional essay in either case.
If test information and application forms are not readily available, write to the College Board SAT Program, 901 South 42nd Street, Mount Vernon, IL 62824; or the American College Testing Program, P.O. Box 414, Iowa City, IA 52240. For the SAT, visit collegeboard.org; for the ACT visit act.org.

**SAT Subject Tests**
We require SAT subject tests only from first-year applicants who do not attend a regionally accredited high school, e.g., home schools, some private, parochial or even some new schools. These students must submit three SAT subject exams, including one in mathematics, in addition to the SAT or ACT. For all other applicants, these exams are optional. We find them helpful in evaluating applications for merit scholarships.

**Standardized Exams**
First-year applicants who have taken Advanced Placement (AP), International Baccalaureate (IB) or A-Level examinations are encouraged to provide those results.

**TOEFL/IELTS/PTE Academic**
International first-year and transfer applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS) or the PTE Academic test. International first-year applicants with minimum scores of 600 on the SAT Reading test or a 27 on the ACT English are exempt from taking the TOEFL, IELTS or PTE Academic. The TOEFL, IELTS or PTE Academic must have been taken within two years of the application date.

**Credit by Examination**
Students may earn a total of 32 semester units of credit toward their bachelor's degree by examination. Advanced Placement, International Baccalaureate and A-Level credit is granted at USC for exams taken before matriculation at a two-year or four-year college and will be evaluated solely according to USC's standardized exam policies. Students who have also earned credit for college courses taken while in high school should refer to the Course Work Taken Elsewhere page.

**Advanced Placement Examinations (AP)**
USC grants college credit for the Advanced Placement Examinations of the Educational Testing Service. A student may be granted four semester units of credit for most AP exams with scores of four or five. For specific AP credit information call the Office of Admission, (213) 740-1111 or visit usc.edu/transfercredit.

**International Baccalaureate**
USC grants either 20 units of credit to students who earn the International Baccalaureate diploma with a score of 30 or higher, or six units for each score of 5 or higher on the IB Higher Level exams, for a maximum of four exams, whichever is higher. International Baccalaureate results should be sent directly from the International Baccalaureate Organization to: University of Southern California, Articulation Office, Los Angeles, CA 90089-0912. For more information, visit usc.edu/transfercredit.

**A-Level Exams**
USC typically awards 8 semester units for most A-Level exams with an appropriate score. Results must be sent directly from the examining agency. Refer to the Articulation Office Website at usc.edu/transfercredit for additional polices regarding transfer credits and AP, IB and A-Level exams.

**Subject Credit by Special Examination**
See the Subject Credit by Special Examination section for further information.

**College Level Examination Program (CLEP)**
USC does not grant credit on the basis of the College Level Examination Program (CLEP).

**Admission from Colleges and Universities**
An applicant may be admitted by transfer from a fully accredited college, university or community college, under the following conditions: (1) if the applicant has completed 30 or more transferable college semester units with an appropriately strong grade point average in an academically rigorous selection of courses; (2) if the applicant is not under the penalty of academic or disciplinary disqualification at any college or university previously attended and is entitled to an honorable dismissal; and (3) if proof of high school graduation on a high school transcript, or the equivalent (such as a GED or finishing certificate), has been provided as part of the application materials. If fewer than 30 transferable semester units have been completed at the time of application, the applicant must submit — in addition to the high school transcript — the results of the SAT or the ACT assessment test.

Students intending to transfer to USC should refer to the Transferring to USC brochure for detailed information about the university's transfer, admission and credit policies. Call the USC Office of Admission at (213) 740-1111 or visit usc.edu/transferring.

The amount of advanced standing granted to a student transferring from another institution is determined in each individual case by the Office of Academic Records and Registrar. A minimum of 64 units toward the bachelor's degree must be earned in residence at USC. For a degree in Architecture, a minimum of 80 units must be earned in residence at USC. A maximum of 70 of the transferable units for this program may be earned at two-year colleges. For students in Engineering's "3-2" Program, at least 48 units must be earned in residence at USC. Two-thirds of any transferable course work must be completed at one of USC's four-year partner institutions.

It is the student's responsibility to report all college-level course work completed outside USC to the Office of Admission when completing the application form. Omitting such information constitutes a violation of the applicant's affidavit and may result in the revocation of admission to the university.

Records of all courses including correspondence study, extension or summer session courses taken in other institutions after the student's admission to USC must also be filed with the Office of Academic Records and Registrar immediately following completion of the work.

**Admission of International Students**
The University of Southern California has an outstanding record of commitment to international education. From a small presence during our early history, our international enrollment grew to an average of 200 students by the 1930s. After declining international enrollments in the years
surrounding World War II, USC began rebuilding and in 1951 began providing specialized admission services to international students. By 1964, more than 1,000 international students were enrolled at USC. Today, the Office of Admission serves thousands of prospective students each year by providing both general and specialized information and by maintaining the expertise necessary to evaluate academic records from the various educational systems around the world. The Office of Admission also issues the required eligibility certificates for students to enter the United States.

At USC, an international student is an individual of foreign nationality who will be entering or has already entered the United States with a student visa. However, students already residing in the United States and holding other non-immigrant visas (such as F1, M1 or J1) are also international students. International students do not qualify for need-based financial aid. U.S. permanent residents, naturalized U.S. citizens and U.S. citizens residing and attending school outside the United States are not considered international students and are eligible for need-based financial aid.

English Language Requirements

Academic success at USC is strongly dependent upon the ability to communicate in English. Listening, speaking, reading and writing proficiency must be well developed in order to assimilate large amounts of difficult material under limited time conditions with full comprehension. Such proficiency is much greater than that required for ordinary everyday living. Therefore, every effort should be made to acquire English proficiency prior to entering the university. Admitted international students whose first language is not English are normally required to take the International Student English Examination (ISE Exam) at the beginning of the first term of study. The examination results determine whether students must take additional English for academic purposes course work.

International students who meet one of the following conditions may be exempt from taking the ISE Exam:

- International students who have completed their entire bachelor's degree at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the only official language of the country.
- Applicants to master's programs who have attained an Internet Based TOEFL (iBT) score of 90, with no less than 20 on each sub-score; or an IELTS score of 6.5, with no less than 6 on each band score.
- PhD and undergraduate applicants who have achieved an Internet Based TOEFL (iBT) score of 100 with no less than 20 on each sub-score; or an IELTS score of 7, with no less than 6 on each band score.

American Language Institute

Any student not demonstrating adequate English proficiency will be required to enroll in courses at the American Language Institute (ALI) at USC. The ALI provides courses designed to improve an international student's oral and written communication skills in English. The extent to which a student may be required to take courses at the ALI is determined by his or her performance on the International Student English Examination (ISE Exam) or, in the case of potential teaching assistants, the ITA Exam.

ALI tuition units are charged at the regular university rate. Entering students who need English language classes should be aware that the ALI course requirements will likely increase the overall cost of their degree program. ALI classes can normally be taken concurrently with a student's other university classes and must be completed at the earliest opportunity.

Teaching Assistantships

All new teaching assistants (TAs) for whom English is a second language must demonstrate their competence in spoken English before assuming classroom or laboratory duties. Normally, new international teaching assistants (ITAs) demonstrate their English proficiency by taking the ITA Exam, administered by the American Language Institute (ALI) located on the USC University Park campus.

The exam must be taken before assuming classroom or laboratory duties and no later than the first day of classes. The ITA exam is graded on a scale of 1 to 7. Those who achieve a score of 6 or higher are cleared for classroom duties and have no English oral skills requirement. Those who score 5 or 5.5 are cleared for classroom duties, but are required to enroll in an English language course through the ALI while performing their ITA responsibilities. Those who score below 5 on the exam are not cleared for classroom duties. These students are normally required to enroll in an English language course offered by ALI until adequate English proficiency is obtained. For more information, call (213) 740-0079 or visit ALI's Website at ali.usc.edu.

Those ITAs denied clearance for teaching duties may have their offer of graduate assistantship withdrawn or alternative responsibilities assigned. An ITA who is denied clearance to teach should immediately seek assistance from the chair of his/her home department or program director.

Graduate and Professional Education

Admission

Office of Admission and Financial Aid
(213) 740-1111
gradadm@usc.edu
gradadm.usc.edu

At the graduate level, admission to graduate and professional programs is granted by the dean of the school conferring the degree. However, only a letter from the university's Office of Graduate Admission constitutes an official offer of admission; correspondence with department chairs, program directors or individual faculty members does not constitute admission.

The University of Southern California admits qualified individuals as students regardless of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran. After admission, students are accorded equal rights to participate in all university-sponsored programs and activities. The university does not discriminate on the basis of race, color, religion, gender, national origin, age, handicap, sexual orientation or status as a disabled veteran in the administration of its educational programs.
policies, scholarship and loan programs, athletics and other student activities.

**Application**
The USC Application for Graduate Admission should be used by all applicants to all programs except law, medicine and some professional programs in the schools of dentistry and pharmacy, and the division of physical therapy. Applicants should confirm application requirements with their intended school or academic program before application submission.

**Online Graduate Programs**
Admission to the University of Southern California's online graduate programs is offered to candidates meeting the university's admission standards. USC's online programs are designed to be as rigorous and comprehensive as their traditional on-campus counterparts. Official offers of admission to a majority of these programs will come directly from the administering school or college. Prospective online program students must submit an application for admission, application fee, official academic records and supplemental documents as required by their intended program. Applicants are encouraged to contact the department, program or school to which they are applying for further program information and additional requirements.

**Applicants with Disabilities**
In compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act Amendments Act (ADAAA), USC offers equal access to its degree programs to academically qualified applicants with physical, psychological or learning disabilities. Applicants will be expected to have demonstrated by their record in course work completed toward their undergraduate degree that they can perform well in a competitive academic environment. See here for a discussion of possible accommodations. USC is committed to providing appropriate, reasonable accommodations to students with disabilities.

**Retention of Records and All Application Documents**
All documents and credentials submitted to the Office of Admission, at the time of application and thereafter, become the property of the university and cannot be returned to the student or duplicated for any purpose.

**Conditional Admission**
The minimum standard for graduate admission is a U.S. bachelor's degree, or its equivalent, from a regionally accredited institution or ministry of education recognized institution. The Graduate School and some professional schools have additional minimum requirements for applicants seeking degrees. Conditional admission status is applied to those students who have not yet met all requirements for admission to full graduate status or who have not filed all relevant documents with the appropriate school or department. Students admitted in this status must satisfy their conditions by the end of the first term of enrollment, or within the time period deemed appropriate by the department, program or Office of Degree Progress. Students who fail to satisfy their conditions of admission within the allotted time frame will not be allowed to register for classes.

Students who have been conditionally admitted for academic requirements must complete at least 6 units of graduate level course work with no grade below a B in each class, and must be recommended for regular admission by a faculty committee. Once those conditions have been met within the stipulated term period, the department chair or program director can authorize registration for the following semester. If the conditions are not met, the student may be dismissed from the program. Individual exceptions must be approved by the dean of the degree-conferring unit.

**Doctoral Admission with Advanced Standing**
Some doctoral programs at USC admit students with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution). A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation preparation, is required for the doctoral degree if students are admitted with Advanced Standing. Additional course work may be required if deemed necessary by the student's faculty. See the Course Work Taken Elsewhere page.

**Admission to Candidacy**
Admission to graduate study does not imply admission to candidacy for an advanced degree and gives no right or claim to be so admitted. Candidacy is determined after the student has demonstrated the ability to do graduate work with originality and independence at USC.

**University Faculty**
Faculty members shall not be candidates for degrees in the same schools in which they have appointments. In addition, assistant professors on the tenure track should not simultaneously be candidates for degrees anywhere at the university. Individual exceptions to either of these policies may be made only with the approval of the provost or of a special committee appointed by the president. Individual exceptions are considered when the individual submits a request for tuition waiver, which is forwarded for approval to the vice provost for faculty affairs. The form should be accompanied by a memo from the dean of the school. For candidacy within the same school, the dean's memo explains how conflict of interest issues will be dealt with; for assistant professors on the tenure-track, the memo explains how pursuit of the degree will advance rather than detract from meeting the criteria for tenure.

**The Graduate School**
The Graduate School establishes and monitors the standards under which students are admitted for study in all graduate degree programs except the Doctor of Dental Surgery, Juris Doctor and Doctor of Medicine. An alphabetical listing of degree programs by school can be found under Degree Programs. Details of admission standards are provided in the Graduate School section of this catalogue and in the sections of schools and departments providing the curricula for these programs.

**Professional Master's and Doctoral Degrees**
Details of admission standards to professional degrees available at USC are detailed in appropriate school listings.

**Dual Degree Programs**

Applicants wishing to pursue a dual degree program offered by the university must apply separately to each degree program, meet the admission requirements of each school, and be admitted by both academic units. Applicants to a professional degree program should consult the particular school for information on admission requirements and programs of study.

**Admission of International Students**

The University of Southern California has an outstanding record of commitment to international education. From a small presence during our early history, our international enrollment grew to an average of 200 students by the 1930s. After declining international enrollments in the years surrounding World War II, USC began rebuilding and in 1951 began providing specialized admission services to international students. By 1964, more than 1,000 international students were enrolled at USC. Today, the Office of Graduate Admission serves thousands of prospective students each year by providing both general and specialized information and by maintaining the expertise necessary to evaluate academic records from the various educational systems around the world. The Office of Graduate Admission also issues the required certificates of eligibility (I-20 or DS-2019) to admitted students who certify to attend USC so that they can apply for a student or scholar visa to enter the United States.

At USC, an international student is an individual of foreign nationality who will be entering or has already entered the United States with a student visa. However, students already residing in the United States and holding other non-immigrant visas (such as E2, H1 or L2) are also international students. International students do not qualify for need-based financial aid. U.S. permanent residents, naturalized U.S. citizens and U.S. citizens residing abroad and attending school outside the United States are not considered to be international students and are eligible for need-based financial aid.

**Admission**

International applicants (those who are or will be in the United States on non-immigrant visas) are required to submit the following documents:

1. Application for Admission;
2. Application fee paid by credit card, check or money order drawn on a U.S. bank in U.S. currency and made payable to the University of Southern California must accompany the application; the fee is non-refundable and cannot be deferred;
3. Scores on all examinations required for admission (e.g., GRE, GMAT, TOEFL, IELTS, etc.) sent to USC electronically by the testing agency;
4. One official copy of academic records from every postsecondary institution attended, along with certified English translation, where applicable;
5. Documented evidence of financial support with a passport copy (see financial guarantee statement); and
6. Letters of recommendation, as per the guidelines provided by the intended program of study.

Additional information may be required by the academic departments. General admission guidelines are available by country on the USC Graduate Admission Website and subject to change without prior notice.

**Financial Guarantee Statement**

The United States government requires all international applicants to provide proof of ability to pay tuition and living expenses before a formal letter of admission or the forms needed for obtaining a visa will be issued. International students are also required to have health and accident insurance. The cost of university-provided insurance will be added to the student's fees unless he or she presents proof of adequate coverage.

Each applicant relying on personal or family support must furnish, at the time of application, an official financial-guarantee letter — preferably a bank letter — indicating the sponsor's name and address and verifying the ability to pay the annual cost in education-related expenses for the first academic year. This document must be verified by a bank seal. It is not necessary to show proof of funding in order to be considered for admission to USC. However, it is crucial for students to submit their financial-guarantee letters once they have submitted their applications if they wish to receive notification of admission in the timeliest manner possible.

Prospective doctoral students do not need to submit a financial-guarantee letter at the time of application since most admitted students will be fully funded by the university. Applicants whose financial support will come from their home governments or other official agencies (e.g., AMIDEAST, IIE, etc.) must submit similarly appropriate documents from their sponsors.

International students cannot meet the full amount of their educational expenses by working while in the United States. The U.S. Citizenship and Immigration Services (USCIS) only allows students to work off-campus under limited circumstances, and employment opportunities are further limited by legislation that requires holders of student visas to be full-time students.

Additionally, all international students must submit a copy of a valid passport.

**Deadline for International Applications**

Once students complete their online applications and have received their 10-digit USC IDs, they should send the required documents and fee to the Office of Graduate Admission. All international students must follow the deadlines in the application for their particular program of study.

Only an admission letter from the Office of Admission grants official admission; correspondence with department chairpersons, program directors or individual faculty members does not constitute admission.

**Official Document to Enter the United States**

The Office of Admission will issue the I-20 (for the F-1 visa) or DS-2019 (for the J-1 visa), whichever is appropriate, for the student to apply for the visa required to enter the United States. Any students entering the United States by means of
these documents issued by USC must register for the semester to which they are admitted to USC.

Registration Requirements for International Students

International students must maintain full-time student status as determined by the Office of International Services and the departmental adviser. Such students are not eligible to be considered students without formal registration and are in violation of immigration laws when not properly registered. Any international student having questions about registration requirements should consult the Office of International Services, Parking Structure D (PSD), Suite 101.

Admission Evaluations

Admission evaluations for international students are completed by the Office of Admission. Official transcripts for all previous academic work completed should be directed to the Office of Admission.

Tuition and Fees (Estimated), Fall 2016

Tuition is payable in advance unless special arrangements are made for deferred payments as described below. Tuition is the same for resident and nonresident students. Registration is completed when the bill has been settled.

Auditors pay the regular tuition rate. Auditors are not required to participate in class exercises (discussions and examinations); they receive no grades or credit and there is no transcript notation of courses taken for audit. An instructor, dean or university officer may give permission to an individual to attend a class as a guest. Otherwise, attendance in class is limited to enrolled students.

These fees are based upon current information available at the time of publication and are subject to possible later change. The university reserves the right to change without notice any of the terms stated herein. The number of units for which tuition is charged is indicated by the number in parentheses after the title of each course listed under Courses of Instruction.

Tuition (semester), (Estimated)

**Mandatory Fees (Estimated)**

- Application Fee, undergraduate (not refundable) 80.00
- Application Fee, graduate applicants (not refundable)* 90.00
- Application Fee, Marshall graduate applicants (not refundable) 150.00
- Commitment Deposit, freshman and transfer only (not refundable but applicable to tuition and fees) 300.00
- Commitment Deposit, graduate and professional (not refundable but applicable to tuition and fees): Students should consult their academic department or school.

- New Student Fee (undergraduate) 350.00
- New Student Fee (graduate) 55.00
- Student Health Service, per semester (for students with load of six units or more) 294.50
- Summer, $18 per week, 12-week maximum 216.00
- Student Programming Fee, per semester undergraduate 64.00
  graduate 40.00
- Student Services Fee, per semester undergraduate 21.00
  graduate 14.00
- Norman H. Topping Student Aid Fund, per semester, all students 8.00

**Student Health Insurance**

- Fall semester** 610.00
- Spring semester and summer session** 1,102.00
- Dental insurance (optional) per year** 136.00

See here.

*Some academic programs have a higher application fee, which is noted on the application.

**Students who are registered for classes at off-campus locations (i.e., Skirball Center or Orange County) will follow a different health plan structure. Please see the 2015-2016 plan description for a listing of those rates, as well as the available dependent rates.

**Special Fees (Estimated)**

Parking Fee, per semester (10 percent city parking tax included). For more details, please visit our Website at usc.edu/parking.

Registration is not permitted after the third week of classes.

The university currently assesses a monthly finance charge on all past due balances. The current annual rate is 12 percent, subject to change.

A “returned check charge” of $25 is assessed for a check or e-check returned by the bank for any reason. Under California Civil Code #1719, a returned check may create liability for treble (three times) the amount owed, but not less than $100.
Obligation for Payment
Request for registration constitutes a legal financial obligation to which students will be held liable if they do not follow the proper procedure to change or cancel their registration through the Office of Academic Records and Registrar. They must receive written confirmation (the Registration Confirmation form) to verify that their requested change has been made.

By registering, students agree to be held responsible for all tuition and fees, including, but not limited to, payments denied by student loan lenders, agencies of the United States government, and agencies of foreign governments.

Tuition and fees for all students, including those whose tuition has been deferred, become an obligation in accordance with the provisions of the Withdrawal Refund Policy as follows: Tuition and fees are due, in full, by the settlement deadline. Failure to make payments of any indebtedness to the university when due, including but not limited to, tuition, deferred tuition, housing, student loans, lab fees and USCard, is considered sufficient cause, until the debt is settled with the university to (1) bar the student from classes and examinations; (2) withhold diploma, scholastic certificate or transcripts; (3) bar the student from university housing; (4) suspend all university services and privileges; (5) suspend the student; (6) assign the student to a collection agency (students who have been assigned to an outside collection agency may be required to pay in advance for all future registrations and services); and (7) report the student to a credit bureau. This policy will be equally enforced against debts discharged through bankruptcy.

Permission to cancel enrollment does not constitute, nor shall it be construed as, a waiver by the university of a student's financial obligation. Students are still responsible for all outstanding debts and contracts with the university.

Furthermore, a student must not have any delinquent financial obligations to USC at the time classes begin. If a student has any delinquent financial obligations, he or she will not be able to complete registration.

For additional information please contact the Cashier's Office, Student Union 106 (STU 106), (213) 740-7471.

Methods of Payment
You may pay your bill via the Internet (USCe.pay), by mail or in person. If you are paying by mail, please follow the instructions on your monthly billing statement. Be sure to mail your payment early enough for the university to receive it by the settlement deadline.

USCe.pay allows you to manage your student account online. You can pay your tuition and fees by transferring funds from your savings or checking account, or by charging to your VISA, MasterCard or Discover card. You can also print e-receipts and view your billing statements or current account information. In addition, you can set up individual guest user access for parents or anyone else you choose so they can make payments on your account. For more information or to login to your account, visit usc.edu/epay.

In fall and spring semesters, USC offers a monthly payment plan. An application must be made each term after the student has registered for classes but before the settlement deadline.

More detailed information about student accounts, settlement options and procedures is available at usc.edu/sfs.

VISA/MasterCard and Discover Card
You should present the credit card (and parent's written authorization if the card is not in your name) as well as a valid driver's license. Presentation of any credit card does not constitute payment of tuition and fees. Authorization must be obtained from the credit card institution in order to be posted to the student account. Declined authorizations are your responsibility. If a bank card transaction is later disallowed by the bank for any reason, the student account will be subject to the "Returned Item" penalties in accordance with the returned item policy.

Financial Aid
Financial aid recipients will have most of their available financial aid (such as scholarships, grants, loans and graduate assistantship tuition awards) applied to their university accounts each semester as direct credits against their total charges. Federal and state aid such as Pell Grants, Federal Direct (Stafford) Loans, Federal Direct PLUS Loans and Perkins Loans are applied to student accounts no sooner than 10 days before the beginning of the fall, spring and summer semesters. Students must complete all application steps and meet all disbursement requirements before funds will be applied to their accounts. For details, visit usc.edu/financialaid.

Federal Work-Study awards are not reflected as credits on a student's account. These awards are earned through employment, either on-campus or with an approved off-campus employer. The student is paid by check or direct deposit bi-weekly for hours worked and may earn up to the amount of the Federal Work-Study award.

Billing Information
Monthly billing notifications on all active student accounts are emailed to the student's official USC email address (ends in @usc.edu) and to their designated guest users. USC does not mail printed statements to currently enrolled students. In accordance with the Family Educational Rights and Privacy Act, university representatives will not disclose any specific information about a student's account to any third party (including family members) without the student's permission. Information about granting permission is available on the Student Financial Services Website's FAQs for parents and sponsors (usc.edu/sfs).

Although the university will accept payments from a third party, the student is responsible for settling all debts to the university by the appropriate deadlines.

Refund of Tuition
Tuition is refundable entirely at the discretion of the university. Refunds will be computed as of the date on which a student cancels or drops a course through the Registration Department. Request for a refund must be made to the Cashier's Office.

Full (100 percent) refunds for the regular/general 12- to 15-week fall or spring session are made through the end of the third week of classes (the refund deadline). No refunds are issued for classes canceled after the deadline.

If you are enrolled in any other fall or spring session, or if you are enrolled in the summer, a different refund deadline

48
may apply. See the academic department for specific information.

If students receive Title IV federal financial aid funds (Pell Grant, SEOG, Federal Direct [Stafford] Loan, Federal Direct PLUS Loan, Perkins Loan) and withdraw from all classes after the refund deadline, they may be required to return any "unearned" Title IV federal financial aid, even if they are not entitled to a refund of tuition. Refer to Withdrawal Implications for Recipients of Financial Aid for more information.

**Tuition Refund Insurance**

Effective insurance is available that provides full coverage for tuition and mandatory fees (excluding health insurance) for you if you suffer a serious illness or accident that makes it necessary for you to leave the university before the semester is completed.

**What Tuition Refund Insurance Covers**

The insurance covers 100 percent of the tuition and mandatory fees (excluding the student health insurance fee) for the semester if a student withdraws from all classes due to injury or sickness. For withdrawals from all classes due to a psychological or emotional condition (as defined in the DSM-IV manual), the coverage is 80 percent, provided the student is confined in a hospital for two consecutive days during the term. The plan covers payments made directly by the student, loans, grants or scholarships. USC grants and scholarships are credited back to the university and loans may be credited back to the lender as determined by the Financial Aid Office.

By default, at the time you register, Web Registration will enroll you in Tuition Refund Insurance. This will result in a charge equal to approximately .35 of 1 percent of your tuition and mandatory fees, which will be added to your student account.

If you wish to remove Tuition Refund Insurance after you have registered, you may make the change on Web Registration (my.usc.edu and usc.edu/webregistration) by clicking the Tuition Refund Insurance tab and following the prompts. You may decline tuition refund insurance up until the end of week three of the fall or spring semester or the week three equivalent in special sessions or the summer semester.

The Tuition Refund Plan is offered through a private insurance carrier, A.W.G. Dewars, Inc. (collegerefund.com). Further information and application brochures are available from the Cashier’s Office and Academic Records and Registrar. Information is also available online at arr.usc.edu/services/registration/tuitionrefund.html.

**Exit Loan Counseling**

All students who borrowed a Federal Direct (Stafford) Loan or Federal Direct Graduate PLUS Loan must complete exit loan counseling when they graduate, withdraw or are no longer enrolled at least half time. Exit loan counseling is a two-part requirement for borrowers of Federal Direct (Stafford) and/or Federal Direct Graduate PLUS loans. First, a borrower must complete online exit loan counseling at studentloans.gov. This online process takes about 20 minutes and requires students to update their contact information with the U.S. Department of Education. Second, a borrower must also participate in an in-person exit loan counseling Information and schedules for in-person exit loan counseling webinar. Information and schedules for in-person exit loan counseling and webinars is available online at usc.edu/financialaid at the end of each semster.

Students who have borrowed a Federal Perkins Loan, Health Professions Student Loan, Loans for Disadvantaged Students, Primary Care Loan or any academic loan, must complete an online session at heartlandecsi.com. Diplomas and transcripts will not be released if the student does not complete exit loan counseling.

**Exit Counseling for TEACH Grant Recipients**

Students who received a TEACH grant must also complete exit counseling when they withdraw from the university or graduate. The TEACH grant exit counseling session can be completed online at nslds.ed.gov.

**Tuition Assistance Benefits**

The Tuition Assistance Benefits program provides USC tuition payments for eligible faculty and staff and their spouses or registered domestic partners and children. The amount of tuition payment varies based on who is taking the class, the type of class and the maximum number of units eligible for assistance. Tuition assistance is limited to tuition, and does not apply to any fees or books.

Tuition assistance eligibility does not guarantee the student admission to the university. The prospective student must apply for university admission through the USC Admission Office.

Only those USC classes for which a student may register and receive a registration confirmation are eligible for Tuition Assistance Benefits. Special education programs, seminars and other classes not listed in the USC Catalogue are not eligible for tuition remission.

An employee must be employed by the university in a tuition-benefits-eligible position on or before the first day of classes in the semester for which application is made. Please note that the "first day of classes" refers to the first day classes are in session for the semester, not the first day the specific class in which the student is enrolled meets.

Conversely, the "end of the semester," refers to the last day classes are in session for the semester, not the last day the specific class in which the student is enrolled meets. This includes the summer semester, which has different "sessions" but still has very specific semester start and end dates (see Academic Calendar). A student who receives tuition assistance is responsible for payment of a prorated amount of tuition assistance if certain changes in employment status of the employee or sponsoring employee occur during the semester. See the Tuition Assistance Benefits Policy available online at usc.edu/benefits for complete information about eligibility and requirements. General information about the tax liability for certain types of tuition assistance is included in the policy. For additional information, contact the Benefits Office on the University Park Campus. Application forms for tuition assistance may be found on the Benefits Website at usc.edu/benefits by clicking the icon "Forms" and then "Tuition Assistance Application Forms."

**Cancellations**
Defined as complete withdrawal from the semester or session, cancellation refunds are computed based on the date the application to cancel enrollment is presented to the Registration Department.

**Drops**

Drops are defined as withdrawal from one class or part of registration. The refund schedule applies as of the date the drop is processed by the Registration Department. This policy is enforced equally for settled and unsettled registrations.

**Financing Alternatives**

**Prepayment Program (PP)**

This option offers individuals the opportunity to stabilize tuition costs by avoiding future tuition increases. Under this plan, the university will accept the prepayment of the student’s total USC tuition plus mandatory fees at the current tuition rate for up to the next four or five years. The student must be admitted to the university before establishing a prepayment account. For further information, contact Student Financial Services, (213) 740–4077.

**USC Payment Plan**

The USC Payment Plan, administered by Student Financial Services, enables students and parents to pay tuition, fees and university housing and meal plan charges in monthly installments rather than in a single payment at the beginning of each semester. Payments are made over a five-month period for each semester, beginning August 1 for the fall semester and January 1 for the spring semester, and may be made only by electronic transfer. A trimester plan is offered to law, dental and MBA-PM students. There is a small application fee each semester. The student must be in good financial standing at the university. For further information, contact Student Financial Services, (213) 740–4077 or by email at uscsfs@usc.edu. You are able to set up a payment plan by login on USC e.pay.

**Private and Federal Financing**

USC participates in a number of long-term financing options that are available to all families regardless of eligibility for scholarships or financial aid. These programs can relieve students’ and families’ cash-flow restrictions and enable them to meet their expected contributions for the cost of college education. Information about loan programs is available online at usc.edu/finaid or at the USC Financial Aid Office.

**Student Health Insurance**

**USC student health insurance plan coverage periods:**

- Fall 2016 coverage: August 15, 2016 through January 8, 2017
- Spring/Summer 2017 coverage: January 9, 2017 through August 13, 2017

Acterna Insurance premiums (on-campus students) for the 2016–17 academic year are: Fall 2016: $646 and Spring/Summer 2017: $1,170.

The university requires that all students have supplemental health insurance to help cover the cost of health care that cannot be obtained at the health center, especially in emergency situations where hospitalization may be required.

All domestic students carrying 6 units or more will be automatically enrolled in the USC student health insurance plan. Some class registration codes, for example Special Tuition programs, do not generate this automatic charge. All students are required to review their fee bill after registering for classes and if the automatic insurance charge does not appear, must contact the insurance office by the add date to enroll in this plan if they wish to continue coverage for the semester. Domestic students carrying less than 6 units or who drop classes before the add date resulting in enrollment in less than 6 units, must enroll themselves in the plan and the add date if they wish to continue coverage for the semester. All international and/or health sciences students are automatically enrolled in the USC student health insurance plan regardless of the number of units in which they are enrolled. Distance Education students studying remotely must contact the USC Student Health Insurance Office for current eligibility information no later than the add date at the beginning of each semester.

The USC student health insurance plan works in conjunction with the university’s student health centers. All students enrolled in the USC student health insurance plan are assessed the student health center fee and are required to access their primary care at the student health center on their campus. Referrals are required in order to see providers outside the student health centers for non-emergency situations.

**Waiver Requirements**

Enrollment in the USC student health plan will only be waived and the premium charge removed from the fee bill if documented proof of health coverage from another plan is presented using the online waiver application by the deadline date of September 9, 2016. In order to receive a waiver of the USC student health insurance, the insurance presented must meet all the following requirements:

**Criteria:**

- Provide continuous coverage for the entire academic year (Fall 2016: August 15, 2016 through January 8, 2017; and Spring/Summer 2017: January 9, 2017 through August 13, 2017).
- Cover preventive care services at 100%.
- No major exclusions, must include pharmacy coverage; mental health coverage including in/out patient substance abuse treatment, behavioral health and behavioral disorders; and reproductive health.
- Have an annual combined deductible and out-of-pocket expense of $6,850 or less (no per-incident maximums).
- Your plan must have in-network providers (hospitals/doctors) in the Los Angeles area. Emergency/urgent care only is not accepted for waiver.

Upon request, you must be able to provide a copy of:

- Verifiable proof of coverage with student's name (ID card, insurance policy or letter from insurance carrier).
• Plan document(s) in English, with currency amounts converted to U.S. dollars, and an insurance company contact phone number in the United States is mandatory.

The waiver must be submitted using the online waiver portal by September 9, 2016. Login is through OASIS. For more information, email the Student Health Insurance Office at eshmins@usc.edu or call (213) 740-0551.

Graduate Assistants

Graduate assistants with a .25 award or higher and PhD students may be eligible to have USC pay for the USC student health plan and the USC Student Health Center fee. Their assistantship award must show in the student financial detail system. More information is available in the student's award packet through his or her academic department.

Student Health Insurance for Students

Studying Overseas

Students participating in USC-sponsored study abroad programs are required to have USC health insurance coverage. These students are automatically enrolled in the USC overseas studies health insurance plan unless they are enrolled in the USC health plan. For more information, please email the Student Insurance Office at eshmins@usc.edu or call (213) 740-0551.

Student Dental Plan (Optional)

Dental coverage for students is available for purchase and billed to the student's account. Dental coverage is not automatic. The coverage period is August 15, 2016 – August 13, 2017. Coverage is for the entire year and must be purchased by the deadline of September 9, 2016. Spring enrollment will only be allowed for new incoming students in the spring semester. Plan details are available at usc.edu/engemann.

Veterans’ Benefits

Veterans must register with the Veterans Certification Office each semester in order to receive benefits. Students may expect an educational allowance based only on courses that are a legitimate part of the degree program approved for veterans. The student must notify the Veterans Certification Office immediately upon any change in unit load or change of major. The office is located in the Tutor Center, Room 330. Students may contact the office at vets@usc.edu, (213) 740-4619, (213) 821-3760 FAX. Office hours are 8:30 a.m. to 5 p.m. Monday–Friday.

For more information, visit our Website at usc.edu/va. Students may visit gibill.va.gov for more information regarding GI Bill Educational Assistance.

Naval ROTC (NROTC)

The Department of Naval Science offers courses for all undergraduate students, although the courses are structured primarily for those who are participating in the Naval Reserve Officers Training Corps (NROTC). This program eventually leads to a commission as an officer in the United States Navy or the United States Marine Corps. Most NROTC midshipmen at USC are the recipients of national scholarships earned through competition while seniors in high school. These scholarships pay full tuition, fees, a book stipend and a $250 to $400 monthly subsistence stipend to help defray living expenses. The university also provides an additional automatic scholarship of $4,000 per year for each NROTC scholarship recipient to help pay for living expenses. Navy/Marine Corps scholarships are also available on a competition basis to students who enroll directly in the NROTC college program at the university. College program students receive no NROTC financial aid until they are selected for a scholarship, qualified medically, and meet naval body composition and fitness standards. College program students who are not selected for a scholarship may apply for advanced standing status during their sophomore year, which enables them to continue in the program and make them eligible to receive a subsistence stipend beginning in their junior year. Upon completion of the bachelor's degree and NROTC requirements, scholarship and advanced standing students are commissioned as active duty Ensigns in the U.S. Navy or as Second Lieutenants in the U.S. Marine Corps, and proceed to advanced training in the Navy Officer communities of aviation, submarines, surface ships, and naval special warfare or Marine Corps Military Occupational specialties such as aviation, infantry, intelligence, artillery, etc. For specific information, contact the Department of Naval Science at (213) 740-2663 or visit usc.edu/dept/nrotc.

Air Force Reserve Officers' Training Corps (AFROTC)

Air Force Reserve Officers' Training Corps (AFROTC) is open to most students pursuing a baccalaureate degree. Classes consist of one hour of academics and two hours of laboratory for freshmen and sophomores; three hours of academics and two hours of laboratory for juniors and seniors. AFROTC offers a variety of scholarships, some of which pay the full cost of tuition, books and fees. AFROTC cadets on scholarship and all juniors and seniors receive a monthly tax-free stipend and a textbook allowance. USC offers a $4,000 scholarship per year for all AFROTC scholarship recipients and cadets who have successfully completed summer field training. Upon successful completion of AFROTC academic classes and leadership laboratories, students will qualify for a commission as a second lieutenant in the United States Air Force. For more information, you may visit our Website at usc.edu/dept/afrotc or contact the Department of Aerospace Studies (AFROTC) at (213) 740-2670.

Army Reserve Officers' Training Corps (AROTC)

Army ROTC is one of the most demanding and successful leadership programs in the country. The training a student receives in Army ROTC teaches leadership development, military skills and career training. Courses take place both in the classroom and in the field, and are mixed with normal academic studies. Students may also attend additional summer programs, such as Airborne School. Upon completion, an Army ROTC graduate earns a commission as an officer starting out as a second lieutenant in the U.S. Army. The USC Army ROTC program has a limited number of full-tuition scholarships for full-time undergraduate and graduate students. Scholarships are offered on a competitive basis to all qualified applicants and are not based on financial
need. Students (cadets) may compete for active duty, U.S. Army Reserve or National Guard duty. All cadets receive a monthly stipend based on his or her academic year and a book stipend per semester. All enrolled cadets receive uniforms, military science textbooks and any other required items from the department. Students may select any major offered by the university. Prior to the completion of their degree and commissioning, students will choose from the 17 different career fields (branches) the U.S. Army has to offer. Veterans, Reservists and National Guard members and AROTC graduates qualify for advanced placement. For further information, visit the Army ROTC office located in the Physical Education Building, Room 110, call (213) 740-1850 or visit the Website at uscrotc.com.

Academic and University Policies

Registration
Registration Procedures and Current Course Offerings
The Fall, Spring and Summer issues of the Schedule of Classes contain details describing registration procedures, including the Web registration process, courses offered, course descriptions, faculty listings, time and meeting place of classes, textbook information and course syllabi. The Schedule of Classes is available before registration each semester at usc.edu/soe. It is recommended that students register as early as possible using Web registration to save time and avoid inconvenience. Registration appointment times and permit to register information are available to continuing students in October and March at my.usc.edu and on OASIS. New students will receive their permits to register during their orientation sessions. Open registration for all continuing students continues the week prior to the start of the semester.

Enrollment Status
A student is considered to be enrolled full time in a semester when the student has registered for 12 or more units as an undergraduate student, eight or more units as a master's level student or six or more units as a doctoral level student. All graduate assistants are classified as full-time students during the semester(s) of their appointments as long as they are enrolled for the minimum units required for their assistantship. The number of courses for which a student has registered is not a basis for determining full-time enrollment status. Units taken for audit do not apply to enrollment status. These include enrollment in: 594 Master's Thesis, 794 Doctoral Dissertation, GRSC 800 Studies for the Qualifying Examination and GRSC 810 Studies for Master's Examination, as well as other courses and programs as determined by the Dean of Academic Records and Registrar. Verification of student enrollment status is provided by the Office of Academic Records and Registrar (Trojan Hall 101), usc.edu/dept/ARR/services/verification/generalinfo.html. Third-party requests for degree and enrollment information are provided by National Student Clearinghouse, studentclearinghouse.org. Enrolled students can also obtain verification on OASIS by logging in to my.usc.edu, clicking on OASIS and clicking on Record Ordering Services.

Extra Units
A normal academic load is 16 units per semester for undergraduate students and 8 units (500-level) for graduate students. The university recommends that undergraduate students register for no more than 18 units and graduate students for no more than 16 units. Permission to enroll in more than 20 units requires written approval from the school or home department of the student's major.

Declaration of Major
All undergraduate students must record their primary major by the start of their junior year (on completion of 64 semester units). All major and minor programs of study should be recorded three semesters before the intended graduation date. Undergraduate academic departments can also perform changes of major for their students.

Declaration of Minor
Application for a minor must be made to the department or professional school offering the minor.

Classification and Numbering of Courses
The first digit of the course number indicates the year level of the course: 000 — non-credit preparatory courses, 100 — first undergraduate year, 200 — second undergraduate year, 300 — third and fourth undergraduate years without graduate credit, 400 — third and fourth undergraduate years with graduate credit for graduate students, 500 — first graduate year, 600 — second graduate year, 700 — third graduate year. Upper-division courses (300- and 400-level courses) are generally more sophisticated and demanding. They may have prerequisites or other limitations on enrollment and are usually intended for students who have some preparation, either in the specific discipline or more generally in academic study. They tend to concentrate more narrowly and intensively in scope than lower-division courses in the same discipline.

The lowercase letters ab, abcd, etc., indicate the semesters of a course more than one semester in length. In such courses the a semester is prerequisite to the b semester, and so on. Courses designated g are available for general education credit. Courses designated w offer general education credit for Global Perspectives in Category G: Citizenship in a Diverse World. Courses designated p offer general education credit for Global Perspectives in Category H: Traditions and Historical Foundations. Courses designated m for multiculturalism meet the diversity requirement. Capital L indicates that all or part of the work is supervised laboratory or other work. Courses designated x are restricted in some manner. The course description will specify the restriction. Courses designated with a z are for repeated registrations for 0 credit, for which 2 units of tuition are charged. The following are not available for graduate credit: courses numbered 000–399 and 490, courses designated g (general education), Senior Seminar courses, courses designated x where the description specifically excludes graduate credit.
Unit Value
The unit value of courses is indicated for each term of the course by a numeral in parentheses after the course title. All courses are on the semester unit basis. It is the student's responsibility to verify with the instructor that the number of units in which he or she has registered in any variable unit course is correct. If the units are incorrect, the student must correct them through Web registration or in person at Trojan Hall 101.

Repeating Courses
Ordinarily, courses may not be repeated for credit. For courses that may be repeated for credit, the maximum amount of credit is indicated after the unit value. Courses that may be repeated for credit reflect instances in which the subject matter is progressive in nature, or where special topics or directed research offerings exist, all reflecting unique course work.

Appropriate Course Enrollment
It is recommended that students register in courses appropriate to their academic standing — lower-division students in courses below 300, upper-division students in courses below 500, graduate students in courses numbered 500 or higher.

Preparatory Courses
Preparatory courses (course numbers below 100) imparts the minimum skills required for college-level work. Students completing preparatory course work may receive unit credit toward enrollment status but do not receive degree credit.

Prerequisites
Prerequisites are courses that must be passed and/or specific background that must be demonstrated prior to advancing to the next course in a prescribed sequence of courses. Passage of appropriate examinations or consent of the academic unit offering the course will waive prerequisites. However, a prerequisite course within the same discipline taken after the higher level course has been passed will not be available for unit or grade point credit.

Corequisites
Corequisites are courses that must be taken at the same time as, or passed prior to, the designated course. Passage of the appropriate examinations or consent of the academic unit offering the course will waive corequisites. However, a corequisite course within the same discipline taken after the designated course has been passed will not be available for unit or grade point credit.

Recommended Preparation
Recommended preparation indicates course work or specific background that is advisable but not mandatory in preparing the student for the designated course.

Guaranteeing a Space in a Class
Registration in a class does not by itself guarantee a space in that class. An instructor may replace any student who without prior consent does not attend these class sessions: (a) the first two class sessions of the semester, or (b) the first class session of the semester for once-a-week classes. It is then the student's responsibility to withdraw officially from the course. Any class added, whether by Web registration or in person, after the first week of classes should receive the approval of the instructor.

Pass/No Pass Enrollment Option
Students may enroll for courses with the Pass/No Pass grade option on Web Registration. USC allows students to decide the grade option for any course up until the 20 percent mark of the session in which the course is offered. For the specific deadline to change the grade option of a course, click the Calendar icon next to the course on the Schedule of Classes.

As of fall 2015, students who register for a course on a Pass/No Pass basis may request to change the grade option to letter grade 45 percent into the session in which the course is offered. For the specific deadline to change the grade option of a course, click the Calendar icon next to the course on the Schedule of Classes.

Certain undergraduate courses (e.g., courses offered by the WRIT department) must be taken for a letter grade. Graduate students must receive departmental approval to enroll in a course on a Pass/No Pass basis. Refer to the Pass/No Pass Graded Work section in the USC Catalogue for details on degree credit restrictions on courses taken on a Pass/No Pass basis. Students should consult an academic adviser before enrolling in any course on a Pass/No Pass basis.

In cases where a student has registered for a course on a Pass/No Pass (P/NP) basis and an academic integrity violation has occurred, a penalty letter grade may be assigned (i.e., "F"), rather than assigning a mark of Pass or No Pass.

Credit/No Credit Courses
Certain courses have been authorized by the University Committee on Curriculum to be graded Credit/No Credit. Students may not enroll in a course on a Credit/No Credit basis unless the course is listed as being offered as Credit/No Credit.

Courses Numbered 490x and 390
Many academic units offer courses numbered 490x and 390. These courses are offered on a letter-graded basis only and carry certain restrictions that are uniformly applied throughout the university.

490x Directed Research (1-8, max 12)
Courses numbered 490x are open to students who have demonstrated the ability to do independent work in the discipline. The courses require consent of the instructor and a written contract of course requirements signed by both the instructor and department chair. They are not available for graduate credit and are not open to students with less than 2.0 GPA overall or with any academic holds that restrict registration. A student may accumulate a maximum of 12 units of 490x in any one department and 16 units toward the degree.

390 Special Problems (1-4, max 4)
Courses numbered 390 are available only to seniors in their last semester who are made aware of a unit shortage after the enrollment period for that semester has passed. Students notified of a unit shortage prior to the close of the enrollment period are expected to register for regularly scheduled classes. Enrollment in a 390 class is available only by petition to the Committee on Academic Policies and Procedures (CAPP). A 390 is a supervised, individual studies course. The student and instructor must prepare a written contract of course requirements for presentation with the petition to CAPP. The petition must be recommended by the
Restrictions on Limited Status Enrollment

A pre-baccalaureate limited status student may not register for more than 16 units; a post-baccalaureate limited status student may not register for more than 12 units.

Exceptions to this policy will be considered by the Office of Admission for USC employees and for post-baccalaureate students who submit a disclaimer of intent to pursue a USC degree.

Prior approval of the department offering the course is required for all limited status enrollment. If a limited status student is subsequently admitted to regular standing, no more than the first 16 undergraduate or the first 12 graduate units taken through limited status enrollment can be applied toward a degree. In very rare situations, individual undergraduate exceptions may be approved by the dean of the degree-conferring unit. For graduate students, the rare exception must be approved by the Vice Provost for Graduate Programs. International students must show proof of proper visa type and demonstrate English language proficiency prior to enrollment in the Limited Status program.

Dropping and Adding Courses

Courses may be added only during the 20 percent mark of the session. After registering, it is the student's responsibility to officially drop from a course if he or she decides not to continue in a course. No course may be dropped after the 45 percent mark of the session in which the course is offered. If the course is dropped after the 20 percent mark and before the 45 percent mark, the course will be recorded with a mark of "W." No course may be dropped after the 45 percent mark, it will be recorded with a mark of "UW," which is computed in the GPA as zero (0) grade points. A student may drop a course without academic or financial penalty up until the 20 percent mark of the session, the course does not appear on the academic transcript, but the course tuition and fees will be assessed to the student's account. If the course is dropped after the 45 percent mark, it will be recorded with a mark of "W." No course may be dropped after the 80 percent mark of a session. A student may not withdraw from a course in which he or she committed or was accused of committing an academic integrity violation. Please refer to the Schedule of Classes to see session dates.

Registration in Graduate-Level Courses by Undergraduate Students

Exceptional undergraduate students may enroll in a graduate course. In order to do so, students must receive approval of the instructor. Students must have prior approval from the chair of the major department to count the course for undergraduate credit or audit the course. The student's major department will notify the Degree Progress Department regarding the manner in which the graduate course will be used. In no case will a student be allowed to enroll in and receive credit for a graduate course if the student's cumulative USC GPA is below 2.0.

USC-UCLA Cross-Registration for Graduate Students

As part of an academic resource-sharing program, USC graduate students have an opportunity to take a portion of their program at UCLA. This cross-registration opportunity is only available for courses or seminars not offered at USC and only to selected students. For further information
on requirements, contact the USC Graduate School office (Student Union 301).
Credit (CR) will be granted only for work completed with a grade of B (3.0) or higher. The student's transcript will show that the course was taken at UCLA and also record the name of the course. Units attempted at UCLA are on the quarter system. USC students who complete course work at UCLA will have those units converted to semester units for each unit completed at UCLA. Library privileges will be extended at UCLA but other privileges or services cannot be offered.

**Conversion of Non-Degree Option Course Work**
A student may file a Request for NDO Course Conversion form with the Registration Department to have USC courses previously taken under a non-degree option (NDO) converted to unit credit and thus appear on the USC transcript. Such a request must include all NDO courses previously attempted; requests for partial conversion will be denied.

**University Policies**

**Academic Integrity at USC**
The university as an instrument of learning is predicated on the existence of an environment of integrity. As members of the academic community, faculty, students and administrative staff share the responsibility for maintaining this environment. Faculty have the primary responsibility for establishing and maintaining an atmosphere and attitude of academic integrity such that the enterprise may flourish in an open and honest way. Students share this responsibility for maintaining standards of academic performance and classroom behavior conducive to the learning process. Administrative staff are responsible for the establishment and maintenance of procedures to support and enforce those academic standards. Thus, the entire university community bears the responsibility for maintaining an environment of integrity and for confronting incidents of academic dishonesty.
Guidelines governing academic integrity can be found on the Student Judicial Affairs and Community Standards Website at usc.edu/student-affairs/SJACS.

**Family Educational Rights and Privacy Act**
The University of Southern California maintains the privacy of student education records and allows students the right to inspect their education records as stated in the university's Student Education Records policy, consistent with the requirements of the Family Educational Rights and Privacy Act of 1974 (FERPA). The entire text of the university's policy is located in the Office of the General Counsel, Office of the Vice President for Student Affairs and the Registrar's Office. Additional information regarding FERPA is also available on the Registrar's Website, usc.edu/ferpa.
Faculty and staff who request access to student academic records in order to execute their normal duties must first review the information found on the FERPA Website and complete the tutorial before access will be granted.
Students wishing to review or seeking to amend their education records should submit a written request to the university office in which the record is maintained. At the discretion of university officials, USC may release certain information classified as directory information unless the student requests that such information not be released. A complete listing of directory information is in the FERPA section of the Registrar's Website, usc.edu/ferpa.
Students wishing to restrict release of directory information may do so by completing the appropriate form provided by the Registrar's Office (Trojan Hall 101). Such requests remain in effect for the academic year. Students wishing only to have their information withheld from the online USC Student Directory should contact the Registrar's Office (Trojan Hall 101).
Recognizing that many students wish to share information from their educational records with their parents and family members, USC has developed an online system that will accomplish the following:
- allow students to grant their parents access to education records;
Conversion for credit requires retroactive registration in the term in which the course was attempted, including payment of the tuition differential between the NDO rate originally paid and the tuition rate in effect at the time of conversion.
As in all USC courses taken in Limited Status, converted courses may not be considered for degree credit at USC unless the student is formally admitted to full standing at the university. Upon formal admission, only the first 16 NDO units taken that are available for credit toward the intended degree may be applied for baccalaureate credit, and only the first 12 NDO units taken that are available for credit toward the intended degree may be applied toward a graduate degree.
Degree credit for units beyond the first 16 undergraduate or 12 graduate available units will not be allowed. All courses converted will appear on the USC transcript and will be included in the calculation of the USC GPA, regardless of whether they are being applied specifically toward the degree being pursued.

**Permission to Register at Another Institution**
Students who wish to take course work at another institution while continuing as enrolled students at USC will be required to obtain various levels of permission to do so. For details, see the Course Work Taken Elsewhere section (undergraduate) or (graduate).
allow parents to view elements of the education records that are available in USC's central student information system. Students may log in to my.usc.edu and click on OASIS, USC's Web-based student information system, and use the "Establish Guest Access" feature to grant others permission to education records. Instructions for logging into OASIS and granting access are provided on the university's FERPA Website at usc.edu/ferpa.

Parents who wish to gain access to information from the education records of their son or daughter will not be provided the information unless the student has granted access through OASIS or has completed the appropriate release form authorizing the university to release specific information from their education records to approved individuals. If students grant access through OASIS, parents and family members may access education records information online through the OASIS for Guests Website. For more information regarding FERPA, including forms and instructions to log in to OASIS or OASIS for Guests, parents and students should visit the university's FERPA Website at usc.edu/ferpa.

Policy on Accommodations for Students with Disabilities

The University of Southern California is committed to full compliance with the Rehabilitation Act (Section 504) and the Americans with Disabilities Act Amendments Act (ADAAA). As part of the implementation of this law, the university will continue to provide reasonable accommodation for academically qualified students with disabilities so that they can participate fully in the university's educational programs and activities. Although USC is not required by law to change the "fundamental nature or essential curricular components of its programs in order to accommodate the needs of students with disabilities," the university will provide reasonable academic accommodation. It is the specific responsibility of the university administration and all faculty serving in a teaching capacity to ensure the university's compliance with this policy.

The general definition of a student with a disability is any person who has "a physical or mental impairment which substantially limits one or more of such person's major life activities," and any person who has "a history of, or is regarded as having, such an impairment." Reasonable academic and physical accommodations include but are not limited to: extended time on examinations; use of academic aides in the classroom such as notetakers and sign language interpreters; accessibility for students who use wheelchairs and those with mobility impairments; and need for special classroom furniture or special equipment in the classroom.

Procedures for Obtaining Accommodations

Students with disabilities are encouraged to contact Disability Services and Programs (DSP) prior to or during the first week of class attendance or as early in the semester as possible. The office will work with the course instructor and his or her department, and the student to arrange for reasonable accommodations. It is the student's responsibility to provide documentation verifying disability in a timely way.

See dsp.usc.edu for documentation guidelines, policies and procedures.

Academic Accommodations

Students seeking academic accommodations due to a disability should make the request to the course instructor prior to or during the first week of class attendance or as early in the semester as possible. Course instructors should require that a student present verification of documentation of a disability from Disability Services and Programs if academic accommodations are requested. The USC Gould School of Law has a unit-specific policy for handling requests for academic accommodations; however, all students with disabilities should register with DSP. Refer to the Law School Student Handbook.

For assistance in how to provide reasonable accommodations for a particular disability, course instructors are encouraged to consult with the staff at DSP. Students requesting academic accommodations must have verification of disability.

Grievance Procedures

Detailed information about processing a grievance can be found at dsp.usc.edu.

University Policies

USC's policy Website contains all university policy, including links to SCampus student policies at https://policy.usc.edu/student/scampus/.

Equal Opportunity, Affirmative Action and Non-Discrimination policy at http://policy.usc.edu/equal-opportunities/
Office of Equity and Diversity at http://policy.usc.edu/equal-opportunities/
Examinations

Final Examinations Make-up Policy
When a final examination falls at a time that conflicts with a student's observance of a holy day, faculty members must accommodate a request for an alternate examination date at a time that does not violate the student's religious creed. A student must discuss a final examination conflict with the professor no later than two weeks prior to the scheduled examination date to arrange an acceptable alternate examination date.

Administrative Examinations
The following administrative examinations are given at USC:

Placement Examinations
Placement examinations determine the student's level of ability and appropriate placement in mathematics, chemistry and foreign languages. These exams carry no unit credit but can be used to fulfill a required or elective subject area.

Placement exams are administered by Testing Services in mathematics (MATH 040x, MATH 108, MATH 116, MATH 117, MATH 118 and MATH 125), chemistry (CHEM 050, CHEM 102, CHEM 105a or CHEM 105b), and the International Student English Examination (ISE) in conjunction with the American Language Institute. These placement exams are administered on scheduled dates on the USC campus and require a reservation with Testing Services. All exams require a USC ID and/or proof of USC enrollment. For additional information, contact Testing Services, STU 301, (213) 740-7166, undergrad.usc.edu/services/testing.

Placement in elementary and intermediate foreign language courses is made by the foreign language placement exams. Foreign Language placement exams are administered by the Language Center on scheduled dates throughout the academic year and during summer. Transfer courses in foreign languages do not fulfill the prerequisite for the next course in the sequence; students are required to take the USC placement exam to continue in language courses at USC. For additional information concerning foreign language exams, contact the Language Center, THH 309, (213) 740-1188, language.usc.edu.

Transfer students may be advised to repeat, without additional credit, a semester or semesters of instruction to qualify for the next level in the sequence if their skills are judged insufficient at the time of testing.

University Writing Examination

Students who score below specified levels on certain sections of the SAT or ACT exams and students completing American Language Institute course work are required to take the University Writing Examination to determine if they must complete preparatory course work before enrolling in WRIT 150. See The Writing Program section.

Equivalency Examinations

Equivalency examinations are given at the discretion of the academic unit to determine whether upper division transferred course work may be applied as subject credit to the major requirements for the degree. Passing the examination does not provide additional unit credit. Contact the appropriate academic unit for specific details.

Subject Credit by Special Examination

Special examinations for subject credit establish subject credit in a subject area in which the student is sufficiently prepared but in which no previous credit has been accepted or attempted toward the USC degree.

Students who would like to request a waiver from the normal course requirements may request that the chair of the department in which the course is offered allow them to take a special examination challenging the course for subject credit only. The fee for the examination is one half of a unit per examination.

With the permission of the dean of the academic unit in which the student is a degree candidate, the student may file a Request for Credit by Special Examination form in the Grade Department (Hubbard Hall 106). The following rules apply:

1. Credit by special examination is available to undergraduate students only.
2. No more than one special examination may be taken in a given course.
3. Special examinations will not be allowed in any course for which a student has received an unsatisfactory grade or mark on the transcript (e.g., W, UW, IN, IX, F or D) at USC or elsewhere.
4. A special examination will not be allowed if the course is a prerequisite to or sequentially precedes a course or courses that appear on a college level transcript, unless USC allows similar courses to be taken out of sequence.
5. Credit cannot be earned by special examination for the writing requirement, the first three semesters of any foreign language or MATH 040x.
6. Native speakers of a foreign language may challenge only literature or linguistics courses offered through the respective language department.
7. Results of all special examinations taken for subject credit only will appear on the USC transcript with a grade of "CR" (credit) or "NC" (no credit) and will not reflect unit value.
Academic Standards

Definition of Grades
The following grades are used: A — excellent; B — good; C — fair in undergraduate courses and minimum passing in courses for graduate credit; D — minimum passing in undergraduate courses; F — failed. In addition, plus and minus grades may be used, with the exceptions of A plus, F plus and F minus. The grade of F indicates that the student failed at the end of the semester or was doing failing work and stopped attending the course after the twelfth week of the semester. Minimum passing grades are D- for undergraduate credit and C for graduate credit. Additional grades include: CR — credit (passing grade for non-letter-graded courses equivalent to C- quality or better for undergraduate courses and B (3.0) quality or better for graduate courses); NC — no credit (less than the equivalent of a C- for an undergraduate and a B for a graduate, non-letter-graded course); P — pass (passing grade equivalent to C- quality or better for undergraduate letter-graded courses and B (3.0) quality or better for graduate courses taken on a Pass/No Pass basis); NP — no pass (less than the equivalent of a C- for an undergraduate and a B (3.0) for a graduate, letter graded course taken on a Pass/No Pass basis). The following marks are also used: W — withdrawn; IP — interim mark for a course exceeding one semester (failure to complete courses in which marks of IP [in progress] appear will be assigned grades of NC); UW — unofficial withdrawal (assigned to students who stopped attending prior to the drop deadline but failed to withdraw); MG — missing grade (an administrative mark used in cases when the instructor fails to submit a final course grade for a student); IN — incomplete (work not completed because of documented illness or some other emergency occurring after the twelfth week of the semester; arrangements for the IN and its completion should be initiated by the student and agreed to by the instructor prior to the final exam); IX — lapsed incomplete.

Grade Point Average Categories and Class Levels
A system of grade points is used to determine a student's grade point average. Grade points are assigned to grades as follows for each unit in the credit value of a course: A, 4 points; A-, 3.7 points; B+, 3.3 points; B, 3.0 points; B-, 2.7 points; C+, 2.3 points; C, 2 points; C-, 1.7 points; D+, 1.3 points; D, 1 point; D-, 0.7 points; F, 0 points; UW, 0 points; IX, 0 points. Wherever these letter grades appear in this catalogue or other university documents, they represent the numerical equivalents listed above. Marks of CR, NC, P, NP, W, IP, MG and IN do not affect a student's grade point average.

Grade Point Average is calculated and truncated; it is not rounded.

There are four categories of class level: Undergraduate, Graduate, Law and Other. Undergraduate comprises freshman (less than 32 units earned); sophomore (32–63.9 units earned); junior (64–95.9 units earned) and senior (at least 96 units earned). Graduate comprises any course work attempted while pursuing a master's and/or doctoral degree. Law comprises any course work (offered by the USC Gould School of Law) attempted while pursuing a Juris Doctor or Master of Laws degree. Other comprises any course work attempted while not admitted to a degree program or course work not available for degree credit.

Grades of Incomplete (IN)

Conditions for Completing a Grade of Incomplete
If an IN is assigned as the student's grade, the instructor will fill out the Assignment of an Incomplete (IN) and Requirements for Completion form which will specify to the student and to the department the work remaining to be done, the procedures for its completion, the grade in the course to date and the weight to be assigned to the work remaining to be done when computing the final grade. A student may complete the IN by completing only the portion of required work not finished as a result of documented illness or emergency occurring after the twelfth week of the semester. Previously graded work may not be repeated for credit.

Time Limit for Completion of an Incomplete
One calendar year is allowed to complete an IN. Individual academic units may have more stringent policies regarding these time limits. If the IN is not completed within the designated time, the course is considered "lapsed," the grade is changed to an "IX" and will be calculated into the grade point average as 0 points. Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which a mark of Incomplete is assigned will be lapsed with a mark of NC or NP and will not be calculated into the grade point average.

Extension of Time for Completion of an Incomplete
Completing the IN within the one-year period should be the student's highest priority. A student may petition the Committee on Academic Policies and Procedures (CAPP) for an extension of time for the completion of an IN. Extensions beyond the specified time limit are rarely approved if the student has enrolled in subsequent semesters.

In all cases, a petition for an extension of time for completion of an IN must have departmental approval and include a statement from the instructor explaining what is needed to complete the course and why the instructor feels the student should be given even further time for completion.

Missing Grades
Marks of MG must be resolved before a degree or certificate will be awarded. If a student wishes to graduate and chooses not to resolve the mark(s) of MG, the mark(s) will be defaulted to mark(s) of UW and will be calculated into the grade point average as 0 grade points.

Time Limit for Resolution of a Missing Grade
One calendar year is allowed to resolve an MG. If an MG is not resolved within one year, the grade is changed to UW and it will be calculated into the grade point average as 0 grade points. Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which an MG was not resolved within one year will be changed to a mark of NC or NP and will not be calculated into the grade point average.

Courses offered on a Credit/No Credit basis or taken on a Pass/No Pass basis for which an MG was not resolved within
one year will be changed to a mark of NC or NP and will not be calculated into the grade point average.

**Correction of Grades**

A grade once reported to the Office of Academic Records and Registrar may not be changed except by request of the faculty member to the Committee on Academic Policies and Procedures on a Correction of Grade form. Changes should be requested only on the basis of an actual error in assigning the original grade, not on the basis of a request by the student or special consideration for an individual student. Students are not permitted to complete course work after the semester has ended.

**Disputing a Grade**

The instructor's evaluation of the performance of each individual student is the final basis for assigning grades. Through orderly appeal procedures, students have protection against prejudiced or capricious academic evaluation. See here for details of the procedure.

**Academic Dishonesty Sanctions**

When a student is found responsible for a violation of the USC Student Conduct Code standards pertaining to academic dishonesty, the Vice President for Student Affairs (or designee) will inform the Office of Academic Records and Registrar. In appropriate cases, the Office of Academic Records and Registrar will post the sanction information on the student's academic records. Disciplinary sanctions noted on student records include suspension and expulsion from the university and revocation of admission and degree. Disciplinary grade sanctions (e.g., F in course) are not distinguished on a student's transcript from marks assigned for academic work accomplished. In cases of suspension or expulsion, the student's registration for the current term may be cancelled with marks of "W."

**Repeated Course Work at USC**

Under certain conditions, a student may repeat a course for grade point credit. In no case will additional unit credit be allowed for repeated courses or duplicated work. No student may repeat a course for grade point credit in which a grade of B- or better was received. A prerequisite course may not be repeated after a student has completed a course for which it is designated a prerequisite. (See prerequisites in the Registration section of the Catalogue.) Undergraduate students who want to repeat a course in which a grade of C+, C or C- was received and have the subsequent grade calculated in the grade point average must petition the Committee on Academic Policies and Procedures (CAPP) for permission to do so prior to re-registering in the course. Post hoc approval will not be granted.

Graduate students may repeat a course in which a grade of C- or below was received, but both grades will be calculated in the grade point average. Graduate students who want to repeat a course in which a grade of C+ or C was received and have the subsequent grade calculated in the grade point average must petition the Committee on Academic Policies and Procedures (CAPP) for permission to do so prior to re-registering in the course. Post hoc approval will not be granted.

A special provision governs the repeat of courses by students who enter USC as first-time freshmen. These students may repeat a maximum of three courses taken during the first two semesters at USC in which grades of D+ or below (including UW and IX) were received, and only the subsequent letter grade, even if lower, will be calculated in the grade point average. The courses must be repeated at USC for a letter grade, and both courses with the grades received will appear on the transcript. The same course may be repeated no more than once for the benefit of substitution of grade. Students must notify the Degree Progress Department if they wish to utilize this provision. Students who have been assigned a grade as a result of a Student Conduct sanction may not repeat the course under this provision. Students who were admitted for spring and were first-time freshmen elsewhere in the previous fall may repeat a maximum of two courses taken during the first semester at USC in which grades of D+ or below were received with the same set of provisions stated above. An exception is the case in which a student earns a grade of C- in a course for which a grade of C+ or higher is required for application to major or minor requirements. In this case the subsequent grade will be calculated in the grade point average without the requirement of a petition.

**Excessive Withdrawals (Marks of W)**

An undergraduate student who withdraws (a mark of W) from at least 8 units in one semester or from at least 16 units overall must undergo mandatory academic advisement before the student can enroll in a subsequent semester. A restriction enforces this requirement. A student must have his or her academic adviser remove the restriction. This is a one-time requirement. Students will not be denied registration in future terms once advisement has taken place. This advisement is intended to provide students with information and guidance on the negative consequences that excessive withdrawals have on successful and timely completion of degree programs.

**The Dean's List**

Any undergraduate student who earns a grade point average of 3.5 or higher on 12 units or more of letter-graded course work in any one semester is placed on the Dean's List for that semester. Grades of IN must be removed before eligibility is determined for that semester. Academic transcripts do not carry the Dean's List notation.

**Class Rank**

The University of Southern California does not calculate or support a class rank for its undergraduate students. While most graduate programs do not rank students, requests for graduate student class rankings should be directed to the dean of the particular school in which the graduate degree was earned.

**Student Good Standing**

Students are considered to be in good academic standing if they are eligible to register for classes. Disciplinary good standing is determined by the office of Student Judicial Affairs and Community Standards.

**Probation and Disqualification of Undergraduate Students**

An overall USC grade point average (GPA) of at least C (2.0) on course work taken at USC is required for completion of undergraduate degrees.

**Academic Probation**

A student whose overall USC GPA falls below 2.0 is placed on academic probation. Continued enrollment requires
clearance from a counselor in the Office of Academic Review and Retention. Actions such as Corrections of Grades, Completion of Incompletes, Removal of Missing Grades and Exceptions Requests will not result in academic statuses being retroactively changed.

**Mandatory Advisement**
A student whose overall GPA falls below 2.0 is required to seek academic advisement prior to course selection each semester. Proof of advisement must be filed with the Office of Academic Review and Retention before any registration request will be processed. The Office of Academic Review and Retention only accept an official Academic Review Advisement Record form with an authorized school signature as proof of advisement. This form may be obtained in Figueroa Building 107.

**Academic Disqualification**
Students on academic probation who do not raise their overall GPA to 2.0 after two semesters of enrollment, exempting summer enrollment, will be academically disqualified. However, if a student earns a minimum semester GPA of 2.3 in the second or any subsequent probation semester but has not yet reached the overall 2.0 GPA, the student will not be disqualified and will be allowed to enroll for an additional semester.

**Readmission after Academic Disqualification**
Petitions for readmission after academic disqualification are initiated by the student through the Office of Academic Review and Retention. Completion of approved course work from another institution is a requirement for petitioning for readmission. Disqualified students must meet with a counselor from the Office of Academic Review and Retention before enrolling in courses at another institution. The counselor will provide the Readmission Pre-Approval Form on which both the Office of Academic Review and Retention and the student's academic department must sign approval.

Before petitioning for readmission, a disqualified student must complete a minimum of 12 semester units of preapproved, transferable course work applicable to USC degree requirements with a minimum 3.0 GPA. As readmission to the university is never guaranteed, any indication of strong academic performance beyond the 12 units required would strengthen a readmission petition. All grade issues at USC (IN, MG, etc.) must be resolved prior to submission of a readmission petition.

Students must petition for readmission by December 30 for spring semester, by May 1 for summer session and by August 15 for fall semester. Since a student's readmission petition must be reviewed and approved by CAPP before he or she can register, under no circumstances will a petition be accepted after the deadline. A nonrefundable fee of $50 must accompany the readmission petition.

**Academic Warning and Dismissal of Graduate Students**
Faculty advisers and departments take factors other than satisfactory grades and adequate GPAs into consideration in determining a student's qualifications for an advanced degree. A student's overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental decisions regarding a student's continuation in a master's or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress will be informed by their department or committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission. Procedures on disputed academic evaluations are described at https://policy.usc.edu/student/scampus/.

**Ethics Guidelines for Graduate Study**
As participants in an enterprise that depends on academic freedom and integrity, faculty members and graduate students have a special obligation to promote conditions that maintain free inquiry and the highest standards of integrity.

USC faculty have developed guidelines to serve as a resource for students finding their way through the often complex academic relationships of a major research university. These guidelines for ethical faculty and graduate student relations are available from the Graduate School.

**Research Involving Human Subjects**
Graduate student researchers are required to obtain approval from the USC Institutional Review Boards whenever research, whether funded or unfunded, involving human subjects is proposed. The Institutional Review Boards (IRBs) are fully authorized to review all proposals and projects which involve the use of human subjects. "Human subject" means a living individual about whom an investigator conducting research obtains (a) data through intervention or interaction with the individual or (b) identifiable private information. The university IRBs have been established to meet federal regulations. The IRBs are required to assure that: (1) research methods are appropriate to the objectives of the research; (2) research methods are the safest, consistent with sound research design; (3) risks are justified in terms of related benefits to the subjects; (4) subjects' privacy is protected; (5) subjects participate willingly and knowingly to the extent possible; and (6) research projects are "monitored" by the IRBs.

**Language of Instruction**
English is the language of instruction at USC. All courses are taught in English with the exception of a few advanced language courses.
**Exception Procedures**

Exceptions to particular university regulations and degree requirements will be considered only if there is no prohibition stated in this catalogue. Where exceptions are specifically prohibited, none will be granted. A student who wants an individual exception must follow the procedure specified in this catalogue for the particular regulation or requirement. If no procedure is specified, it may still be possible to request an exception. Such exceptions, however, are rarely granted.

Requests for exception to established university academic regulations or procedures are generally heard by: (1) the Committee on Academic Policies and Procedures (CAPP); (2) the dean of the academic unit in which the student is seeking a degree; or (3) the dean or director of the office responsible for administering the policy. Requests for credit for courses taken out of sequence are heard by the dean of the academic unit offering the course that was taken out of sequence. Students who wish to request an exception should first consult an academic adviser about the appropriate process to follow.

While the university is sensitive to the educational advantages of a flexible curriculum, it is also conscious of a responsibility to ensure equity for all students. Permission to deviate from published regulations is neither automatic nor pro forma; each request is considered on its own merits and in light of the petitioner's complete academic record.

**USC Committee on Academic Policies and Procedures**

The Committee on Academic Policies and Procedures (CAPP), a representative group of faculty, students and administrators, reviews or delegates the review of most general petitions. CAPP studies the effects of university academic requirements, regulations and policies; recommends improved student academic policies and procedures; and regularizes policies and procedures so that the number of petitions can be reduced. As part of this charge, CAPP has specific responsibility for oversight and review of the University Policy on Accommodations for Students with Disabilities. CAPP also rules through Academic Petitions Committees on requests for exceptions to academic regulations and requirements published in the University Catalogue. In most instances, the Academic Petitions Committee acts as the body with original jurisdiction, but in some cases delegates authority for approvals to another.

The assumptions and procedures which guide Academic Petition Committee actions are the following:

- **The student is responsible for complying with deadlines established in the academic calendar.**
- **All academic work should be accurately reflected in the student's record. The record is to be faithful to the actual experience. Cosmetic corrections or adjustments are not sanctioned.**
- **Care must be taken not to establish the petition process as an alternative to being held to the adopted academic requirements.**
- **Decisions should be focused on the academic basis for petition, rather than the consequences (real or imagined) that may face the student.**
- **Registration and enrollment related petitions are presented by the registrar's staff.**
- **Academic petitions are presented by a representative of the student's school.**
- **The Committee on Academic Policies and Procedures receives reports from the degree progress department, the Office of Academic Review and retention and the Academic Petitions Committee.**
- **The committee reports to the office of the president through the provost.**

The Office of the Provost, Office of Academic Records and Registrar, and the Committee on Academic Policies and Procedures (CAPP) reserve the right to review, amend or revoke academic statuses and/or registration at any time.

**Registration-related Exceptions**

Requests for exception to published registration procedures and enrollment deadlines are heard by the Dean of Academic Records and Registrar. Such requests are generated in the Office of Academic Review and Retention, Figueroa Building 107. Requests that are not approved by the dean are referred to a CAPP panel for review.

Any request to change the official registration for a semester retroactively must be submitted within 24 months of the end of the semester in question. The 24-month period starts with the last day of final examinations for the semester in question. If appropriate, the time limit can be waived by the dean of the academic unit in which the student is seeking a degree for a period not to exceed a total of five years. Deans may not request waivers of the two-year time limit rule if the course(s) in question occurred longer than five years previously.

**General Education Petitions**

Students may petition to waive individual general education requirements or apply one or more courses not listed in the USC Catalogue toward general education requirements. If the course or courses to be substituted was or will be taken at USC, a General Petition may be initiated in the student's home department; if the course was taken at another institution, an Articulation Petition may be initiated at my.usc.edu. See the Transfer Credit section under Course Work Taken Elsewhere.

**Degree Requirement-related Exceptions**

Requests for exception to specific degree requirements are generated in the academic unit. Most requests will be forwarded by the adviser to CAPP for review. Some exceptions are made by the dean of the academic unit and are recorded on the Student Academic Record System (STARS) report by the academic department, using the exception process.

**The Graduate School**

Requests for an exception to the policies and procedures governing Graduate School degree programs will be considered upon submission of a general petition to the Graduate School stating the specific request, supported by
adequate reasons and information. The signatures and recommendations of the faculty adviser or committee chair and department chair are required.

Graduate and Professional Programs
Requests for exception to the policies and procedures governing graduate degree programs that do not fall under the jurisdiction of the Graduate School should be directed to the dean of the degree-conferring unit.

Undergraduate Education

Resident Honors Program
Hancock Foundation Building 410
(213) 740-2955
Director: Pennelope Von Helmolt, PhD
Each year, USC welcomes a small number of exceptional and highly motivated high school seniors to begin their college careers a year early as part of the Resident Honors Program. The program accepts students interested in all majors, but looks particularly for mature individuals who are ready for the challenges of a university. The typical Resident Honors student has a cumulative SAT score above 2200 and a high school GPA above 4.0. The application process for the Resident Honors Program begins during a student's junior year of high school. SAT or ACT scores are an important part of the application and students are encouraged to take the SAT or ACT in October or November. In addition to an expanded university application, the program also requires a nomination form from the student's high school counselor and two letters of recommendation from high school teachers (one from the student's English teacher). The application is available online at usc.edu/rhp. For more information, contact Ryann McQuilton at (213) 740-2955 or mcquillo@usc.edu.

Financial Aid for Undergraduate Students
Students at USC benefit from federal, state and university financial aid programs administered by the Financial Aid Office and from scholarships administered by the Office of Admission and various academic departments. USC also offers an interest-free monthly payment plan, a tuition pre-payment plan, and participates in long-term student and parent educational loan programs. Although international students are not eligible for need-based financial aid, they may be eligible for scholarships offered by their schools or departments. International students should contact their departments directly for information about existing opportunities. International students may also be eligible for private educational loans. The Financial Aid Office may change these policies at any time to ensure continued compliance with changes in federal and state regulations governing student financial aid. As a result, students must refer to the current catalogue regulations. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Application Procedures and Eligibility Requirements for Financial Aid
Detailed information, application procedures and deadlines for financial aid are available online at usc.edu/financialaid. To be eligible for federal, state and university financial aid programs, students must be U.S. citizens, permanent residents or other eligible non-citizens; have a valid Social Security number; meet Selective Service registration requirements; have a high school diploma, GED or equivalent; meet Satisfactory Academic Progress requirements; and meet all other eligibility requirements. Students must also complete all application requirements by the relevant deadline(s). For most federal and state awards, a minimum of half-time enrollment is required. Full-time enrollment is required for most university awards. Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program. Students awarded a California Dream Grant are considered for limited university financial aid.

Scholarships
Scholarships awarded on the basis of academic achievement, leadership, service and talent are available through the Office of Admission, most academic departments at USC, alumni groups, and outside agencies and foundations. Some of these awards require a separate application. In some cases, financial need is also considered. For more information, visit usc.edu/scholarships.

Grants
The Financial Aid Office may award need-based University Grants to eligible students with demonstrated need who meet all financial aid application deadlines. Federal Pell Grants and Federal Supplemental Educational Opportunity Grants (SEOG) are available for students with exceptional financial need. The SEOG is awarded only to eligible students who meet all application deadlines. Cal Grants A and B are administered by the California Student Aid Commission. All undergraduate aid applicants...
who are residents of California are required to apply. Cal Grant A provides funds for partial tuition and fees. Cal Grant B recipients receive a subsistence award the first year and receive a subsistence award and tuition award in subsequent years.

**Federal Work-Study**
The Federal Work-Study program enables eligible students to earn funds through employment either on campus or with an approved off-campus employer. Only students who meet all application deadlines and federal eligibility requirements are considered for this program.

**Federal Student and Parent Loans**
Federal Perkins Loans may be awarded to eligible students who meet all application deadlines. Repayment begins nine months after the borrower graduates, withdraws or ceases to be enrolled at least half time.* Federal Direct Subsidized and Unsubsidized (Stafford) Loans are also available to eligible students. Repayment begins six months after the borrower graduates, withdraws or ceases to be enrolled at least half time.* Federal Direct Parent PLUS Loans are available to parents of dependent** undergraduate students who meet the credit criteria established by the U.S. Department of Education. Payments may be deferred while the student is enrolled at least half time.*

*Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program.

**Undergraduate students considered dependent for the purpose of receiving federal financial aid**

**Private Financing Programs**
Private financing programs are available to help students and parents meet the costs of education by providing long-term financing options. Students should exhaust all federal Title IV assistance available, including Federal Pell Grants, the Federal Direct (Stafford) Loan and the Federal Direct Parent PLUS Loan, before considering a private student loan program. The repayment terms of federal programs may be more favorable than the terms of private loan programs. Unlike private loan programs, federal student loans are required by law to provide a range of flexible repayment options, including but not limited to, income-based repayment and income-contingent repayment plans, and loan forgiveness benefits. Federal Direct Loans are available to students regardless of income.

For more information about student loan programs, visit usc.edu/financialaid/loans.

**Financial Aid for Double Majors or Dual Degrees**
Federal and state regulations governing the Federal Pell Grant, Federal SEOG Grants and the Cal Grant limit these awards to students who have not yet earned a baccalaureate or professional degree. Similarly, the university limits awards of the university need-based grant, Federal Perkins Loans and Federal Work-Study to students who have not yet earned their first bachelor's degree.

Students who are planning to double major or pursue a dual degree should carefully plan their academic course work with their academic adviser to ensure that they remain eligible for federal, state and university financial aid. The best approach is to make sure you complete the requirements for both degrees or majors simultaneously in the same semester. Once the requirements for one major/degree have been satisfied, a student will only be eligible for limited financial aid (Federal Perkins Loan, Federal Work-Study and Federal Direct Loans).

**Financial Aid for a Second Bachelor's Degree**
Students who are pursuing their second bachelor's degree are eligible for a limited number of financial aid programs, specifically Federal Direct (Stafford) Loans. Parents of dependent* students may also borrow Federal Direct Parent PLUS Loans. Please refer to the Special Programs sections of the Financial Aid Website for more information.

*Undergraduate students considered dependent for the purpose of receiving federal financial aid**

**Financial Aid for Enrollment in a Progressive Degree Program**
Progressive degree students are classified as undergraduate students until their undergraduate degree is conferred or they complete 144 units, whichever comes first. If a transfer student's course work is not accepted for credit toward the degree, he or she may appeal to request that those units not count toward the 144 units.

**Undergraduate Classification**
While classified as undergraduates, students are assessed the undergraduate tuition rate, and their enrollment status and financial aid eligibility are determined by undergraduate standards. Undergraduate-level progressive degree students maintain their eligibility for Federal Pell Grants, Federal SEOG Grants, Cal Grants, Federal Direct Subsidized and Unsubsidized Stafford Loans, Federal Direct Parent PLUS Loans and any applicable eligibility for USC Merit Scholarships or USC University Grants, as long as they are enrolled in courses that are required for, or that can be applied as an eligible elective credit toward, their undergraduate degree. The Registrar's Office determines when a student has completed his or her undergraduate degree and manages the process of posting degrees to a student's record. The Financial Aid Office relies on the Registrar's determination of the applicability of a course to a degree program and the completion of the undergraduate degree.

**Graduate Classification**
Once the undergraduate degree is conferred or the student has completed 144 units, a progressive degree student can no longer be considered an undergraduate for financial aid purposes. At that time, progressive degree students will be reclassified as graduate students. While classified as graduate students, they are assessed the graduate tuition rate, and their enrollment status and financial aid eligibility are determined by graduate standards. Graduate students are not eligible for federal, state or university need-based grants. Graduate-level progressive degree students are eligible to borrow Federal Direct Unsubsidized Stafford Loans and Federal Direct Graduate PLUS Loans, up to the maximum yearly amounts established for graduate students.

Students who receive a research assistant or teaching assistant award before completing 144 units or their
undergraduate degree are classified as graduate students and are not eligible to receive undergraduate financial aid.

Financial Aid for Limited Status Enrollment

Students not admitted to a degree-seeking program who enroll as limited-status students are not eligible for federal, state or university financial aid. Refer to the Financial Aid for Graduate Students section. Students who have completed their degree or certificate programs, but continue to enroll, will be considered limited-status students and are thereby ineligible for financial aid.

Financial Aid Consortium Agreements

Students admitted to a degree-seeking program at USC who enroll at least half-time at another eligible institution and whose courses are applicable to their USC degree may be eligible for limited federal financial aid if a Financial Aid Consortium Agreement is completed. Financial Aid Consortium Agreements are contingent upon the host school agreeing to participate. Financial Aid Consortium Agreements are not available for students participating in the Postbaccalaureate Premedical Program. For more information, visit the Special Programs section of the financial aid Website.

Financial Aid for Students Enrolled in Preparatory Course Work

Students enrolled at least half-time in undergraduate courses required for admission to a degree program may be eligible for limited Federal Direct (Stafford) Loan program funds. For more information, visit the Special Programs section of the financial aid Website.

Satisfactory Academic Progress (SAP) Policy

Purpose of Satisfactory Academic Progress Regulations

To be eligible for federal, state and university aid, students are required by the U.S. Department of Education (34 CFR 668.34) to maintain Satisfactory Academic Progress toward their degree objectives. USC has established this SAP policy to ensure student success and accountability and to promote timely advancement toward degree objectives.

The following guidelines provide academic progress criteria for all undergraduate students receiving certain financial aid at USC. Although the requirements for students receiving such financial aid are somewhat more restrictive than for the general student population, they are based on reasonable expectations of academic progress toward a degree. Accordingly, these guidelines should not be a hindrance to any student in good academic standing.

+Recipients of these awards should contact the awarding agencies/departments for rules regarding award retention.

Definition of Satisfactory Academic Progress (SAP)

At USC, to be eligible for financial aid, as identified above, you must maintain Satisfactory Academic Progress as defined by the following three criteria:

- Meeting a minimum cumulative grade point average requirement (GPA)

- Earning a minimum number of units for credit each semester to ensure timely progress toward degree completion (Pace of Progression)

- Completing the degree objective within a maximum number of semesters enrolled and a maximum number of units attempted (Maximum Time-Frame Allowance)
Students who do not meet one or more of the above criteria will be considered to be SAP ineligible or in a financial aid SAP Warning Period as described below. The following explains each of the three SAP evaluation criteria; SAP Ineligibility, Warning and Probation Periods; and the SAP Appeals Process in detail.

**Grade Point Average Requirement**

To maintain Satisfactory Academic Progress, undergraduate students must meet a minimum cumulative grade point average of 2.0 at each monitored interval and at the end of two academic years for programs lasting more than two years. Refer to Tables 3 and 4 below to understand how specific grades and course types affect students' cumulative grade point averages.

**Table 3**

*Impact of Grades on Cumulative GPA Calculation*

<table>
<thead>
<tr>
<th>Grade Earned</th>
<th>Counted in Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>A, B, C, D, F (+/-)</td>

<tr>
<td>UW — Unofficial Withdrawal</td>
<td>Yes</td>
</tr>
<tr>
<td>V — Audit</td>
<td>No</td>
</tr>
<tr>
<td>MG — Missing Grade</td>
<td>No</td>
</tr>
</tbody>
</table>

**Pace of Progression Requirement**

Pace of Progression is calculated by dividing the cumulative number of credits the student has successfully completed by the cumulative number of credits the student has attempted. To be eligible to receive federal, state and institutional financial assistance detailed above, a student is required to successfully complete a minimum of 67 percent of all attempted credits.

\[
Pace \text{ of Progression} \geq 67\% = \text{SAP eligible for Pace}
\]

Review Tables 5 and 6 below to understand how grades and course types will affect students' Pace of Progression calculation:

**Table 5**

*Impact of Grades on Pace of Progression and Maximum Time-Frame Allowance*

**Maximum Time-Frame Allowance**

To demonstrate Satisfactory Academic Progress, students must complete their degree objective within a specified amount of time. The time frame will depend on the student's enrollment status and educational objective. Tables 5 and 6 above show how different grades and course types will be counted against the Maximum Time-Frame Allowance.

**Maximum Units and Semesters**

Undergraduate students in single-degree, four-year programs requiring 128 units are eligible for financial aid for a maximum of 144 total attempted units or a maximum of nine SAP semesters, whichever comes first. The allowances will be increased as necessary for single-degree programs requiring more than 128 units. For example, students pursuing a five-year, single-degree program, such as the Bachelor of Architecture, will be eligible to receive financial aid for a maximum of 176 attempted units or 11 SAP semesters.

**SAP Semesters**

Each semester in which a student attempts 6 to 11 units is counted as a one-half (0.5) SAP semester. Each semester in which a student attempts 12 or more units is counted as a full (1.0) SAP semester. Semesters in which a student attempts fewer than 6 units are not counted as SAP semesters.

**Special Financial Aid Considerations for Students Completing Double Majors or Dual Degrees**

Please refer to the section on Undergraduate Financial Aid for Double Majors or Dual Degrees here. Students pursuing a double major or dual degree should keep in mind that once a student has completed the requirements for one major or degree, financial aid eligibility is limited.

**Maximum Time-Frame Allowance for Students Pursuing a Second Bachelor's Degree**

Students pursuing a second bachelor's degree are eligible for a limited number of financial aid programs. Refer to the section on Financial Aid for a Second Bachelor's Degree in this catalogue. Students seeking financial aid for a second bachelor's degree are monitored for maximum time frame based on the following:

- Students who have received their first bachelor's degree from another institution will be granted a maximum of 64 additional units or five semesters, whichever comes first, to complete their second bachelor's degree at USC.
- Students who have received their first bachelor's degree from USC will be granted a maximum of 44 additional units or four semesters, whichever comes first, to complete their second bachelor's degree at USC.
- The maximum unit and semester allowances for a second bachelor's degree may be reconsidered if additional units are required for completion of a specific program of study. The student, together with his or her academic adviser, must complete a Satisfactory Academic Progress Appeal form and submit it to the USC Financial Aid Office.
- All second bachelor's degree candidates must also meet previously stated GPA and Pace of Progression requirements.

**How Satisfactory Academic Progress is Monitored**
The Financial Aid Office monitors the Grade Point Average (GPA) requirement, Pace of Progression and the Maximum Time-Frame Allowance.

**When Satisfactory Academic Progress is Monitored**

Satisfactory Academic Progress is monitored for all undergraduate financial aid applicants at the end of each enrolled semester after grades have been made official by the Registrar.

**Potential Delay of Disbursements Due to Monitoring of Satisfactory Academic Progress**

Financial aid may not be disbursed to a student's account until SAP has been evaluated. The Financial Aid Office cannot complete the SAP evaluation until prior semester grades have been officially posted by the Office of Academic Records and Registrar. An otherwise eligible student who is in a SAP Warning or SAP Probation Period may experience a delayed financial aid disbursement if grades are not made official before the beginning of the subsequent semester. No exceptions can be made to this process.

**Notification of Satisfactory Academic Progress Status**

Students who have met Satisfactory Academic Progress requirements will not receive a SAP notification. The Financial Aid Office will notify any student who does not meet SAP requirements via the student's USC email address. Students who are notified that they do not meet the SAP requirements for financial aid should consult their academic adviser.

**Failure to Maintain Satisfactory Academic Progress**

Exceeding the Maximum Time-Frame Allowance and Academic Disqualification

Students who have reached the Maximum Time-Frame Allowance are ineligible for further financial aid without an approved, written SAP Appeal. Students who are academically disqualified from the university are ineligible for further financial aid. There is no financial aid SAP Warning Period in either of these instances.

Failing GPA and Pace of Progression Requirements

Students who do not meet the Pace of Progression or GPA requirements are placed on a one-time, one-semester financial aid SAP Warning Period.

Financial Aid SAP Warning Period

Students who do not meet the Pace of Progression requirement or who are on academic probation for GPA will be placed on a one-time, one-semester financial aid SAP Warning Period. Students may continue to receive financial aid while in this one-semester warning period without a written appeal. Students who are placed on a financial aid SAP Warning Period are encouraged to seek both academic and financial aid advisement. By the end of the financial aid one-semester warning period, the student must meet all Satisfactory Academic Progress requirements.

Failure to Maintain Satisfactory Academic Progress

As stated above, students who have exceeded the Maximum Time-Frame Allowance and those who are academically disqualified are ineligible to receive financial aid. Students who do not meet the minimum requirements by the end of the one-semester warning period for GPA and Pace of Progression violations will no longer be considered to be making Satisfactory Academic Progress and will become ineligible for financial aid without an approved, written SAP Appeal.

Students in their one-semester SAP Warning Period who receive grades of D, W, UW, IN, F, IX, MG, NC, NP and V will no longer be considered to be making Satisfactory Academic Progress and will become ineligible for financial aid without an approved, written SAP Appeal. The one-semester financial aid SAP Warning is only available to students one time throughout their degree program. Students who regain eligibility by meeting SAP standards at the end of the warning period and subsequently fall below the standard will be considered ineligible for financial aid without another SAP Warning Period.

**Regaining Financial Aid Eligibility with a Grade Change or Academic Improvement**

Students who have been placed on a Financial Aid SAP Warning due to insufficient GPA or Pace of Progression can be reinstated by a grade change or by successfully completing sufficient units or bringing up their GPA to meet the accepted standards by the end of their warning period. The student must notify the Financial Aid Office in writing once the requirements have been met.

**Regaining Financial Aid Eligibility with a SAP Appeal for Maximum Time Frame**

Students who need additional time to complete their degrees must meet with their academic adviser to complete a SAP Appeal Form. Students must also update their expected graduation date with the Degree Progress Office. The Financial Aid Office may increase the maximum time frame for students who have changed majors, are adding a major, or have experienced a one-time extenuating circumstance such as illness or injury that has since been resolved. However, the Financial Aid Office will not approve any appeal when the additional time required for completing the degree objective(s) extends beyond 150 percent of one undergraduate degree. In addition, the Financial Aid Office will make no adjustments for declared minors.

**Regaining Financial Aid Eligibility with a SAP Appeal for GPA or Pace of Progression**

Students may also appeal the determination that they are not meeting Satisfactory Academic Progress GPA and Pace of Progression requirements. The following can be considered: extended illness; one-time extenuating circumstances that have since been resolved; and enrollment limitations due to academic advisement.

**SAP Appeal Form and Letter**

The student and the academic adviser must submit an Undergraduate Satisfactory Academic Progress Appeal form with complete supporting documentation to the Financial Aid Office. The SAP Appeal Form must contain the specific academic plan for the student that the adviser has approved.
For the appeal to be approved, the academic plan must lead
to graduation within 150 percent of the published degree
time. The student must also provide a written appeal letter
that includes the following information/explanation: (a) What
cause the work at USC to fall below acceptable standards?
Students should think carefully and provide a specific
explanation. (b) How have those conflicts been resolved? (c)
How will the student maintain good academic standards and
progress toward the degree if the appeal is granted?

When to Submit a SAP Appeal
Students should not submit SAP Appeals for GPA or Pace of
Progression deficiencies when they are in a Financial Aid
SAP Warning period. These pre-emptive appeals are
unnecessary and will be withdrawn. Rather, students should
wait until they have been notified by the Financial Aid Office
that they are ineligible for financial aid because of a SAP
deficiency. SAP Appeals for Maximum Time-Frame
Allowance may be submitted at any time, but students should
first ensure that the Degree Progress Office has updated their
expected graduation term.

SAP Appeals must be submitted before the end of the
semester for which the aid is sought. Financial aid cannot be
reinstated retroactively for a past semester.

Limitations on Approvals for SAP Appeals
The Financial Aid Office will never increase the Maximum
Time-Frame Allowance past 150 percent of the published
degree requirements for one undergraduate degree.
The Financial Aid Office will make no adjustments for
students who declare minors. Minors must be completed
within the same time frame as the student's major program(s)
of study.

Students who are on SAP Probation (see below) as a result of
an approved appeal will not receive funding for more than
one undergraduate degree program. For these students, no
exceptions will be made to maximum semesters or units to
support the addition of a second major or a minor program of
study.

Academic Disqualification and Activity
Restrictions That Prevent Registration
Students who are academically disqualified or otherwise
prevented from registering for future semesters may submit
SAP Appeals. However, those appeals will not be evaluated
until the activity restrictions have been resolved.

Notification of SAP Appeal Decisions
SAP Appeals will be evaluated and the Financial Aid Office
will notify the student of the decision via email at the
student's USC email address.

Financial Aid SAP Probation Period
Appeals for insufficient Pace of Progression and/or GPA are
approved through the use of a semester-by-semester SAP
Contract. Students placed on a SAP Contract are eligible for
financial aid on a probationary basis, strictly according to the
terms of the contract. While students are on SAP Probation,
the Financial Aid Office will review their academic progress
each semester to ensure they have met the specific terms of
their contracts.

The SAP Contract
The SAP Contract is a written agreement between the
student, the academic adviser and the Financial Aid Office in
which the student commits to following a specific academic
plan that leads to graduation. Reinstated eligibility through a
contract may alter the type and amount of financial aid for
which a student is eligible. Terms of the SAP Contract may
be stricter than the standard SAP regulations cited in this
section. Acceptance of the approved SAP Contract
supersedes all other SAP regulations. Any deviation by the
student from the terms of the contract results in the forfeiture
of future financial aid eligibility.

Submitting SAP Appeals after Failing SAP
Probation
Students on SAP Probation as a result of an approved appeal
who fail to meet the terms of their accepted SAP Contracts
may submit a subsequent SAP Appeal. However, these
appeals are granted on an exception basis. Students will be
required to document specifically the exceptional
circumstances that caused them to fail their SAP Contract
and how those problems have been resolved.

Financial Aid Application and SAP Appeal
Deadlines
A student appealing his or her Satisfactory Academic
Progress status must meet all financial aid application
deadlines and other eligibility requirements. A SAP Appeal
must be submitted before the end of the semester for which
the aid is sought. Financial aid cannot be reinstated
retroactively for a past semester. As with any type of
financial aid appeal, Satisfactory Academic Progress Appeals
are funded on a funds-available basis.

Withdrawal Implications for Recipients
of Financial Aid
During the Drop/Add Period
During the university's published drop/add period, students
who drop or reduce their enrollment may be eligible for a 100
percent refund of tuition for classes dropped.

Financial aid recipients must immediately notify the
Financial Aid Office in writing when a drop from one or
more classes during the drop/add period results in an
enrollment status different from the enrollment status on
which their current financial aid eligibility was based. The
same applies if one or more classes are cancelled.

The Financial Aid Office will review the student's new
enrollment and, if appropriate, revise the student's eligibility
based on the new enrollment status.

If a financial aid recipient drops from all classes or drops to
less than half-time status during the drop/add period, all
financial aid awards must be returned to their respective
programs. Students who drop from all classes or drop to less
than half-time status during the drop/add period are
considered never to have established eligibility for financial
aid. If the student was given financial aid funds for other
expenses, he or she will be expected to return those funds to
the university.

After the Drop/Add Period
Students who are recipients of Title IV federal student aid are
also covered by federal Return of Title IV Funds (R2T4)
regulations. Title IV federal student aid is awarded to a
student under the assumption that the student will attend for
the entire period for which the assistance is provided and
thereby "earn" the award. When a student ceases academic

68
attendance prior to the end of that period, the student may no longer be eligible for the full amount of federal funds that the student was originally scheduled to receive.

If a Title IV recipient withdraws from all classes on or before the session is 60 percent complete, based on their last date of attendance, federal policy requires that any "unearned" Title IV federal student aid be returned to the U.S. Treasury, even if the student is not entitled to a refund of tuition. A student is required to immediately notify the Registrar when he or she stops attending classes. If the student fails to notify the Registrar's Office, it is possible that the 50 percent point in the term will be used to determine the student's last date of attendance, in accordance with federal regulations. If a student withdraws from all classes*, the Financial Aid Office will determine if that student's period of attendance resulted in the earning of all federal student aid awarded for that term. If it is determined that not all the scheduled federal aid has in fact been earned, then the Financial Aid Office will calculate the amount to be returned to the federal student aid programs. The Financial Aid Office will bill the student via his or her university account for the amount to be returned. It is the student's responsibility to contact the Cashier's Office to settle the bill.

*Note to students in modular programs: In a modular program, one or more of the student's enrolled courses do not span the length of the entire semester. Students in modular courses who withdraw from one or more courses, but are still registered for future courses within the term, will be required to confirm their future enrollment plans. For students who fail to confirm or fail to re-enroll, the Financial Aid Office will determine what portion of your financial aid has been earned based on your latest date of attendance. Refunds to the U.S. Treasury may be required. Students who have earned grades in early modular courses, but withdraw or fail to re-enroll for later courses, are still subject to these rules.

Additional Responsibilities of Students Who Withdraw

Any time a student withdraws from one or more courses, the student should consider the potential effect on his or her Satisfactory Academic Progress (SAP) status. See here for more information about SAP requirements. Whenever a student's enrollment drops to less than half time or the student withdraws completely, or if a student takes a leave of absence, he or she must notify the lender, holder or servicer of any loans. Student borrowers of federal or university loans must also satisfy exit loan counseling requirements at studentloans.gov.

It is also the student's responsibility upon withdrawal from all classes to notify the Student Financial Services Office, the Housing Services Office, the Transportation Services Office and/or the USCard Office, if the student has charges from these offices on his or her student account. Students who have withdrawn from studies may be entitled to a prorated cancellation of charges from these offices.

Leave of Absence

Financial aid recipients considering a leave of absence should be aware of the financial aid implications. Although obtaining an approved leave of absence from their programs does allow students to re-enroll in the university without formal re-admission, it does not allow them to defer their loan repayment. The university reports student enrollment to the National Student Clearinghouse throughout the academic year. Lenders and federal loan service agencies subsequently query this database to determine if a student has maintained continuous half-time or greater enrollment.

Student Loan Repayment

If students are on a leave of absence from the university, their lender or federal loan service agency will move their loan from an "in-school" status to a grace or repayment status as required. While on a leave of absence, students may be able to postpone repayment by obtaining a deferment or forbearance from their loan servicer(s) as a result of unemployment or economic hardship. Students should contact their loan servicer(s) for more information about loan repayment. Students may review their federal loan history and determine their loan service agencies by visiting the Federal Student Aid Website at studentaid.gov. Once they re-enroll on a half-time or greater basis, they may be able to request deferment for "in-school" status.

Tuition Refund Insurance Plan

To complement its own refund policy, the university makes available to students Tuition Refund Insurance, an insurance policy designed to protect the investment students and their families make in education. The Financial Aid Office strongly encourages all financial aid recipients to take advantage of this plan. If a student formally withdraws from all classes after the end of the drop/add period and he or she is covered by Tuition Refund Insurance, the student may receive:

• A credit to his or her student account equal to 100 percent of charges for tuition and mandatory fees, if the withdrawal is the result of documented personal illness or accident; or
• A credit to his or her student account equal to 60 percent of the charges for tuition and mandatory fees, if the withdrawal is the result of a documented mental/nervous disorder.

The Tuition Refund Insurance credit will be applied first to any outstanding charges on the student's university account, including any charges resulting from the return of Title IV federal student aid. Recipients of university and/or federal financial aid will then receive a cash refund equal to the amount of cash payments made to the account plus any loan payments still on the account (after all returns of Title IV aid have been made in accordance with federal policies, if applicable). The remainder of the insurance credit will be used to repay university financial aid grant or scholarship programs.

Brochures about Tuition Refund Insurance requirements and claim forms are available in the Cashier's Office and the Registrar's Office. All questions about the insurance plan should be directed to these offices.

Notes on Federal Policy

Title IV Federal Student Aid

Students are considered recipients of Title IV federal student aid if they have received funds from one or more of the following programs to meet educational expenses for the semester in question: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Federal Perkins Loans, Federal Direct (Stafford) Loans
(Subsidized or Unsubsidized), or Federal Direct Graduate or Parent PLUS Loans.

Period of Enrollment
At USC, the periods of enrollment are generally measured using the session(s) in which the student enrolled on a semester basis, starting on the first day of classes and ending on the final day of examinations for a given term. For purposes of Title IV federal student aid, any scheduled break of five or more days will not be included in the measurement of the enrollment period. For programs offered in modules (sessions that do not span the entire length of the semester), breaks of more than five days between modules will not be included in the measurement of the enrollment period.

Measurement of Earned Title IV Federal Student Aid
When a student withdraws from all classes or withdraws from one or more classes while attending a modular program, the Financial Aid Office will calculate the percentage of earned Title IV federal student aid using the date of withdrawal. The earnings calculation is based on the number of days of enrollment, up to and including the day of withdrawal, divided by the total number of days in the enrollment period. In most cases, when a total withdrawal is determined to occur on or before the 60 percent point in a semester, some federal aid will need to be returned.

Return of Title IV Federal Student Aid
To satisfy federal regulation, returns to Title IV financial aid programs must be made in the following order:

- Federal Direct Unsubsidized
- (Stafford) Loans Federal Direct
- Subsidized (Stafford) Loans Federal
- Perkins Loans
- Federal Direct PLUS Loans
- Federal Pell Grants
- Federal Supplemental Educational Opportunity Grants (SEOG)
- Other Title IV federal programs

Financial Aid Policy Regarding Falsification of Financial Aid Information
The types of information covered by this policy include all documents and information submitted to apply for and/or receive need-based financial aid, scholarships and private financing funds. These documents and information include, but are not limited to, the following:

- Free Application for Federal Student Aid (FAFSA)
- Student Aid Report (SAR)
- CSS Financial Aid/PROFILE Application and CSS Noncustodial Parent PROFILE Application
- Enrollment and Housing Form
- Student and parent federal income tax forms and other income documentation
- Documentation of U.S. citizenship or eligible non-citizen status
- Documentation of housing/living arrangements
- Academic documents relating to high school diploma or college course work
- Loan applications, promissory notes and related documentation
- Specific program applications
- Federal Work-Study time sheets
- Any university financial aid forms and related documentation
- Any written, electronic or verbal statements sent to or made to a university employee regarding the student's financial aid application or other financially related documents

The integrity of the documents and the honesty of the information presented through them are critical to the financial aid process. Students should be aware that they will be held responsible for the integrity of any financial aid information submitted either by them or on their behalf. If the university determines that a student or parent has provided falsified information, or has submitted forged documents or signatures, the following steps may be taken without prior notification to the student or parent:

1. An incident report will be filed with USC's Office of Student Judicial Affairs and Community Standards, following procedures outlined in the University Student Conduct Code. See here.
Pending resolution of the complaint, the Financial Aid Office may restrict the distribution of any further aid to the accused student.

2. If the Financial Aid Office or the student conduct review process finds that a violation has occurred, the consequences may include, but are not limited to, the following:
   - The student will be required to make full restitution of any and all federal, state, private and/or university scholarship, grant, loan or work funds to which he or she was not entitled.
   - Until full restitution is made, all federal, state and university funds will be withheld from the student, including all funds disbursed in past or in current terms.
   - No arrangements will be made with the Cashier's Office or Collections Office on the student's behalf to settle their account. The student will be responsible for all charges incurred on the student's account because of the loss of federal, state or institutional financial aid funds.
   - If the student is determined to be ineligible for financial aid because of a basic eligibility criterion, no further federal, state or university funds will be provided to the student in any future terms of enrollment at the university.

   - The student may be ineligible for future participation in some or all financial aid programs for a minimum of one year or longer. In some cases, the student will not be eligible to receive funds from that program in any future terms of enrollment at the university.
   - The student will not receive funds to replace those lost because he or she is considered ineligible due to dishonesty.

3. In addition to any consequences directly related to the student's financial aid, the student may be assigned disciplinary sanctions as described in the Student Conduct Code (11.80).

4. As required by federal and state law, the USC Financial Aid Office will report any infraction to the appropriate office or agency. These include, but are not limited to, the U.S. Department of Education Office of the Inspector General, state agencies or other entities that may take whatever action is required by federal and state law. In this report, the Financial Aid Office will describe in detail the incident, the response from the Financial Aid Office and any additional actions taken by or pending with the university.

Course Work Taken Elsewhere

Admitted students receive a transfer credit report prepared by Transfer Credit Services showing unit and subject credit granted for college courses and relevant exams, such as AP, IB and A-levels. Students are required to submit complete, official transcripts of all course work attempted at any postsecondary institution as soon as final grades are posted. All post-secondary transcripts must be submitted regardless of the type of course(s) or the quality of the work. A student's failure to provide transcripts for all course work attempted prior to enrollment at USC or while away from USC may result in denial of transferred course work and a charge of a violation of the university's academic integrity policies.

Accreditation

The University of Southern California affirms the practice of accreditation of American post-secondary academic institutions by the six regional accreditation agencies: the Middle States Association of Colleges and Schools, the North Central Association of Colleges and Schools, the New England Association of Schools and Colleges, the Northwest Association of Schools and Colleges, the Southern Association of Colleges and Schools, and the Western Association of Schools and Colleges. Acceptance of course work and/or degrees completed by undergraduate and graduate students applying to the University of Southern California will be based on accreditation by these six agencies. Certain graduate schools, seminaries, conservatories and professional institutions of national renown that are not accredited by a regional agency may be considered for graduate transfer work by the Articulation Office in consultation with the USC department or professional school to which the student is applying. Acceptance of course work and/or degrees from post-secondary institutions overseas will be based on the recognition and approval of the college or university as a degree-granting institution by the Ministry of Education within the respective country.

Non-transferable Course Work

USC's transfer policies have been established to enable students to achieve either an undergraduate or graduate degree that will reflect traditional academic study and research. For that reason, the following types of nontraditional course work will not transfer to USC for undergraduate credit:

- Life experience; portfolio work; continuing education; work experience; formally structured courses offered by civilian non-collegiate sponsors such as businesses, corporations,
government agencies and labor unions, even if evaluated by the American Council on Education (ACE).

- Extension courses not accepted toward a degree by the offering institution.
- Equivalency examinations.
- Remedial (e.g., mathematics below college algebra), college preparatory and personal development/life skills courses.
- Independent study, directed study, internships and correspondence courses from two-year schools.
- Areas of study offered by other accredited institutions toward the baccalaureate but not offered by USC, such as agriculture, business office procedures, hotel management, interior design, food services, industrial mechanics, fire science, police academy and similar technical or professional programs.
- Undergraduates will not receive credit for graduate level transfer courses.

In addition, no more than 4 units of English as a Second Language (toward the maximum of 12 ESL/ALI units that may apply to a degree) will transfer. Also, a maximum of 4 units of physical education activity courses and music ensemble will transfer. A maximum of 8 units of dance, 12 units of physical education theory courses and 16 units of individual instruction in music will transfer.

Course Work Requiring Review
USC will determine on a case-by-case basis whether to grant credit for certain types of courses taken at accredited institutions. Courses that require review by the Articulation Office include:

- Independent study, directed study and internships taken at four-year schools.
- Courses in which the traditionally expected number of contact hours may not have occurred, including distance learning, televised, online or correspondence courses, and courses taught in non-traditional time modes such as concentrated "intensive" sessions or special weekend modules.
- Transfer credit from studio courses in fine arts, music and theatre is limited. See articulation agreements or usc.edu/transfercredit.

Articulation Agreements
Articulation agreements with select California community colleges are issued by the Articulation Office and indicate courses available for transfer to USC. These agreements can be found at usc.edu/transfercredit. These agreements are revised periodically and are subject to change, depending on course content, availability and changes in USC's academic policies. Articulation agreements are not issued for four-year colleges and universities.

Credit for Military Education
Academic credit will be awarded for course work taken at one of the regionally accredited U.S. Military academies upon receipt of official transcripts.

The university will also evaluate course work/experience completed through the armed services and may award credit for such courses if they meet the following criteria:

- Students must provide official Joint Services (JST) or Coast Guard Institute (CGI) transcripts to Degree Progress.
- Course work must be evaluated by ACE as upper-division credit.

USC will not grant credit for the following:

- DD-214 or DD-295.
- Course work not offered in an area of study taught at USC.
- Course work/experience not evaluated by ACE.
- Course work from the Community College of the Air Force.
- DSST, CLEP and DLPT exam scores.
- Other Learning Experiences (OLEs).

College Courses Taken During High School Enrollment
All undergraduate students entering USC may receive a combined maximum of 32 elective units for college courses taken before high school graduation and/or examinations (e.g., AP or IB) taken before matriculation at a two-year or four-year college. A maximum of 16 of these 32 units will be allowed for college courses taken before high school graduation. These courses must appear on the college transcript as part of the regular college curriculum and are expected to be taught on the college campus by college faculty and not used toward high school graduation. Students whose courses are taken at a college and were not used toward high school graduation may file an articulation petition to request more than 16 units. These courses (as well as AP and IB exams) will not receive course equivalence or credit toward writing or foreign language requirements, although they may fulfill general education categories where appropriate. However, departments may use them as a basis to waive prerequisites or specific course requirements on a case-by-case basis.

Students may not receive credit for both an AP exam (or IB or other international exam) and a college course taken before high school graduation covering the same subject matter, nor for an AP and IB exam covering the same subject matter.

Besides earning elective units, some AP tests and international exams fulfill general education requirements. Finally, scores of 4 or 5 on AP tests in modern languages if taken in spring 2007 or later will satisfy the third semester foreign language requirement. Details will be reported on the student's transfer credit report.

Students who began full-time college study at four-year institutions before completing their high school diplomas can submit transcripts for special evaluation. These programs, which typically are conducted on a college campus and are taught by regular faculty, will be evaluated on an individual basis. More than 16 units may be granted. Students entering full-time college programs at two-year colleges before graduating from high school are subject to the 16 unit maximum stated above.
**Transfer Credit**

**Transfer Credit Report**

A transfer credit report (TCR) is prepared prior to enrollment for every new undergraduate transfer student admitted to regular standing. To ensure complete evaluation of transfer courses, it is the student's responsibility to submit complete, official transcripts from all post-secondary schools in which course work was completed as soon as final grades are posted. All post-secondary transcripts must be submitted regardless of the type of course(s) or the quality of the work. The purpose of the credit report is to acknowledge officially all transferable work toward the USC degree sought by the student. The university expects undergraduate transfer students to assist in completing a final review of all prior transfer courses by the end of their first semester of study. Students should review their transfer credit reports for accuracy and report any missing courses or incorrect information to the Registrar One Stop Center, Trojan Hall 101. To request a change in the way a transfer course has been evaluated, students may initiate an articulation petition at usc.edu/OASIS. All articulation petitions regarding courses taken before entering USC should be initiated as soon as possible after matriculation, and no later than the end of the first semester of study.

Total transferable units attempted and total transferable units accepted toward the degree are posted on the transfer credit report. For the purposes of making an admissions decision, all grades (including grades of D and below) are calculated into the grade point average and are used in calculating a total grade point average for graduation. Neither subject nor unit credit will be granted for courses that have been graded with less than a C- (1.7). USC does not honor other colleges' academic "renewal" or "forgiveness" programs that permit students to improve a substandard grade. If you repeat a transferable course for which you earned a grade of D+ or lower, both grades will be included in your transfer GPA. If the grade on the first course was a C- or higher, only the first grade is included. Your transfer GPA is different from the GPA earned in courses you take at USC. The transfer GPA and your USC GPA are kept separate until it is time to determine if you are eligible to graduate and earn graduation honors. See the Graduation with University Honors section of this catalogue.

For limitations on use of transfer courses to fulfill general education and writing requirements see the General Education program.

**Subject Credit and Degree Credit**

Subject credit does not carry unit value toward units required for a degree but may fulfill a required or elective subject area. Degree credit is defined as units that may be applied toward the units required for a USC degree.

**Transfer Unit Limitations**

A student may earn a maximum of 64 units of credit toward a bachelor's degree from other accredited institutions. The BArch degree and the Engineering "3-2" Program allow a maximum of 80 units of transfer credit, of which no more than 70 units may be from two-year colleges. Students will receive only subject credit for work completed in excess of the unit limitations.

Once a student has attained junior-level standing by completing 64 units applicable to the undergraduate degree (with USC course work alone or in combination with transfer units), transfer credit will be further limited to no more than 8 additional units. In the case of the BArch degree, no more than 8 additional units may be allowed for transfer credit after completion of 84 college-level units.

**Transfer Credit for Repeated Course Work**

Degree credit will not be given for a transferred undergraduate course that a student has previously completed with earned credit at USC. Subject credit only will be given for a transferred undergraduate course previously taken at USC, under the following conditions: (1) When the student took the course at USC, he or she received a passing grade or mark which failed to meet departmental or university requirements, and (2) the student obtained prior approval from the department offering the USC course on the USC transfer course work pre-approval form at usc.edu/transfercredit. Subject and unit credit will be given for a transferred undergraduate course previously taken at USC, under the following conditions: (1) When the student took the course at USC, he or she received a failing grade or mark, and (2) the student obtained prior approval from the department offering the USC course on the USC transfer course pre-approval form at usc.edu/transfercredit.

**Permission to Register at Another Institution**

Undergraduate Transfer Credit Limitations

As defined in the Residence Requirement, once students enroll at USC, only courses taken during a summer semester will be considered for transfer credit. No transfer work may be used to satisfy any Core Literacy requirements or the writing requirement if those courses are taken after a student has enrolled at USC, but transfer work may be used to satisfy Global Perspectives requirements. In addition, transfer courses taken after enrollment at USC cannot be used to fulfill upper division requirements in the major without prior approval, using the request for exception to residence form available from the student's major adviser or, for undeclared students, from the Office of the Dornsife College of Letters, Arts and Sciences associate dean for academic programs. Transfer courses may not fulfill upper-division requirements in the minor under any circumstances.

Students are advised to consult their major department or College Academic Services before taking college course work at another institution. Students should also consult Transfer Credit Services to ensure that the work will transfer.

**Procedure**

If students wish to take summer course work elsewhere after admission to USC, they must first obtain appropriate pre-approval. Even if there is an articulation agreement, pre-approval is necessary to assure the student's eligibility. Most students can use the online pre-approval process available on OASIS. In some cases, the paper pre-approval form must be used. It is available at usc.edu/transfercredit.

Once the course work has been completed elsewhere, students must request the other institution to send an official transcript to USC so that the course work can be evaluated and transferred.
Students are required to provide transcripts of all course work attempted at any post-secondary institution, regardless of the type of course(s) or the quality of the work. A student's failure to provide transcripts for all course work attempted while away from USC may result in denial of transferred course work and a charge of a violation of the university's academic integrity policies.

Students should request that a transcript be sent to the USC Registrar One Stop Center, 615 Childs Way, TRO 101, Los Angeles, CA 90089-0912. All transcripts must arrive in a sealed envelope from the issuing institution.

To avoid a possible delay in graduation, official transcripts from post-secondary institutions should be submitted as soon as the course work is completed and graded by the transfer institution. It is advisable to complete all transfer work prior to the final semester of enrollment at USC. If transcripts for transfer course work are not available during the final USC semester, it will likely delay degree posting and result in a later degree date.

Students who have questions concerning the transfer credit shown on the transfer credit report should inquire at the Registrar One Stop Center, Trojan Hall 101. Any questions regarding the applicability of previous course work toward major requirements should be referred to the student's academic adviser.

**Leave of Absence**

Interruptions of enrollment can cause problems in the continuity of course work within a student's program. Therefore, leaves of absence are generally discouraged. A student who must interrupt studies for compelling reasons may request a leave for a stated period. Students who find it necessary to be excused from registration in fall or spring semesters should request a leave of absence and withdraw from their classes by the last day to drop or add courses.

Students should contact their academic adviser, ask for a Leave of Absence Student Handbook and complete the Leave of Absence form in the back of the handbook (also available at usc.edu/loa). Completed forms should be submitted to the student's academic adviser for review and approval. If, as a result of the leave, the student exceeds the time limits for completion of degree or general education requirements, he or she may not be allowed automatically to continue to follow the original catalogue of enrollment. Students who fail to apply for a leave of absence may encounter difficulties with residence requirements and financial aid when returning to USC. A leave of absence does not exempt students from the residence requirement described below. Financial aid recipients considering a leave of absence should be aware of the financial aid implications. For more information, refer to Withdrawal Implications for Recipients of Financial Aid in the Financial Aid for Undergraduate Students section.

**Program Reactivation**

Students who have failed to attempt course work for at least one semester within an academic year without filing a Leave of Absence form will have their POST (Program of Study) expired. Returning undergraduates will be required to meet with their department adviser and complete and sign a POST Reactivation form before registration will be permitted. Graduate students who wish to return will be governed by applicable university policies, including the continuous enrollment requirement.

**Residence Requirement**

A minimum of 64 units toward the bachelor's degree must be earned in residence at USC, with the following exceptions:

Students earning a bachelor's degree in architecture must earn 80 units in residence; students in engineering's "3-2" Program must earn at least 48 units in residence.

Once students matriculate at USC, all courses taken for subject or unit credit in the fall and spring semesters must be taken in residence. Only transfer work that appears on the transfer institution's transcript for a summer term will be accepted. In addition, all upper-division units required for the major and minor must be earned in residence. However, a student's department may apply upper-division courses taken elsewhere prior to matriculation to major requirements on a case-by-case basis.

In rare circumstances, permission may be granted in advance to take a course out of residence. This permission is documented on the Request for Exception to Residence form. The form, which is available from the student's major adviser or, for undeclared students, from the Office of the Dornsife College of Letters, Arts and Sciences associate dean for academic programs, is used to record major department approval to use the course toward the major. Questions about the residency policy may be addressed to the Degree Progress Department, (213) 740-7070.

Academically disqualified students must meet with a counselor from the Office of Academic Review and Retention for advisement and forms for departmental preapproval rather than using the request for exception to residency form.

After completion of 64 college-level units applicable to the undergraduate degree, no more than eight additional units may be allowed for transfer credit. In the case of the BArch degree, no more than eight additional units may be allowed for transfer credit after completion of 84 college-level units. Units earned in overseas studies programs approved by USC's University Committee on Curriculum and in courses approved by consortial or other institutional agreements are considered to be taken in residence.

**Residence Requirement for a Second Bachelor's Degree**

For students with their first bachelor's degree from USC, 32 units applicable to the degree beyond the number of units required for the first USC bachelor's degree must be completed in residence. Students who have not exceeded the transfer unit residence restriction for the first USC bachelor's degree may apply the remaining number of units available for transfer to this 32 unit residence requirement.

For students with their first bachelor's degree from another institution, the second bachelor's degree requires 64 units applicable to the degree completed in residence, except for the BArch degree, which when earned concurrently with the MArch degree requires 32 units applicable to the degree completed in residence.
Requirements for Graduation
Catalogue Regulations, Policies and Procedures
In addition to degree requirements outlined below, undergraduate and graduate students are also subject to current catalogue regulations, policies and procedures. Examples include, but are not limited to, the policy on the grade of incomplete and graduation with honors. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Graduation Date
A student will be awarded the graduation date for the term in which degree requirements, including submission of supporting documents, have been met. Although course work may have been completed in a prior term, the degree will be awarded only for the term for which all academic and administrative requirements have been fulfilled. Students wishing to change the degree date from that indicated on the STARS Report should request an updated degree term at the Registrar One Stop Center, Trojan Hall 101 or onestop@usc.edu.

Discontinued Degree Programs
Students pursuing major or minor programs that the university discontinues will be allowed to complete them within a specified time limit. The time limit will be specified at the point of discontinuance of a major or minor program and begins at that point. It is determined according to the student's progress toward degree completion and will not exceed five years for any student.

Closed Record
The academic record of a student who has completed the program of study or ceased attendance is considered closed. Once a student's record is closed, no further additions or changes may be made. This includes, but is not limited to, such things as registering in additional course work, resolution of marks of incomplete (IN) and missing grade (MG), declaration of minors, etc.

Degree Requirements
Undergraduate degree requirements consist of grade point averages, residence requirements, general education requirements, the writing requirement, the diversity requirement, pre-major and major requirements, and minor requirements. Undergraduate students may elect to follow (a) the degree requirements in the catalogue current in their first term of enrollment after admission or readmission at USC or (b) degree requirements in a subsequent catalogue as long as they were enrolled in a term in which it was in effect. However, students may not mix catalogues. An exception is that students may follow the requirements for a minor from a different catalogue year than the major; and students pursuing two majors may follow major requirements from different catalogue years.

While there are no specific time limits for completing the bachelor's degree, over the years many departments change their major requirements in accordance with developments in the field and department. Occasionally, general education requirements are changed or a degree program is discontinued. Therefore, undergraduate students who do not complete their degrees within six consecutive years from the beginning of the semester of their first completed USC course work will not be allowed automatically to continue following their pre-major, major and minor requirements as specified above. (This time limit includes semesters during which students are not enrolled.) The pertinent department chair will decide what pre-major, major and minor requirements each student must follow and communicate the decision to the student in writing. Students who do not complete their degrees within 10 consecutive years from the beginning of the semester of their first completed USC course work will not be allowed automatically to continue their general education requirements. (This time limit includes semesters during which students are not enrolled.) The General Education Office will decide what general education requirements each student must follow and communicate the decision to the student in writing.

An appeal of a department's decision may be made to the dean of the appropriate academic unit or the Provost's Office for academic units without departments. An appeal of a general education decision may be made to the Committee on Academic Policies and Procedures (CAPP).

Grade Point Average Requirement
A grade point average of at least C (2.0) on all baccalaureate units attempted at USC, as well as on the combined USC-transfer GPA, is required for undergraduate degrees. A minimum cumulative grade point average of 2.0 in all upper-division courses applied toward the major is also required, regardless of the department in which the courses are taken. The university will not deviate from policies governing the calculation of the grade point average through inclusion or exclusion of course work.

Unit Requirement
Students are required to take a minimum of 128 baccalaureate units at the undergraduate level (of which not more than four units may be physical education units). A student may earn a maximum of 16 units for individual instruction in music at the 101/201/301 levels and comparable transfer courses. Of the 128 unit minimum at least 32 units must be upper-division course work. Students must also complete all upper-division course work in the major at USC. The university will not deviate from the minimum unit requirements stated above or the additional unit-specific requirements. Some disciplines require more than the minimum requirements. Check individual department listings for specific requirements. Unit credit indicates the number of semester units earned in the course; these units may or may not be applicable to the degree. Degree credit indicates the units are applicable to the degree.

Pass/No Pass Graded Work
A maximum of 24 units of undergraduate course work taken on a pass/no pass basis may be used toward an undergraduate degree and a maximum of 4 of these 24 units may be applied to the general education requirements. WRIT 130, WRIT 150 and WRIT 340 will not fulfill undergraduate writing requirements if taken on a Pass/No Pass (P/NP) basis. Use of Pass/No Pass course work to fulfill major requirements must be approved in writing by the academic
The following guidelines apply to minor programs:

Failure to drop a declared minor may delay the awarding of the minor.

**General Education Requirements**

General education and writing requirements for all students are provided on the General Education Program page. Additional specific information is included with the information on individual majors.

**Diversity Requirement**

The diversity requirement must be met by all students who began college at USC or elsewhere in fall 1993 or later. It can be met by passing any one course carrying the designation "m" for multiculturalism. Further details about meeting the diversity requirement are found in the General Education Requirements for Students Who Began College Before Fall 2015 section.

**Gateway Course**

A gateway course is a lower division 3–4 unit course that introduces and showcases the minor or major curricula of an academic field of study. It is intended to be a student’s first exposure to a field of study.

**Upper-division Major Course Work**

The university requires that all undergraduate students successfully complete at USC all the upper-division courses that are applied to their major. Substitution of a comparable upper-division course for a required one may be entered in the STARS exception process by the departmental adviser with the support of the department. Substitutions and waivers of USC or transfer courses for upper division requirements for majors are to be limited to a combination of 25 percent. Substitution of courses with the same departmental prefix are exempted from this limit. Lower-division courses cannot be substituted for upper-division course requirements.

**Minor Programs**

Application for a minor must be made to the department or professional school and an appropriate endorsement must appear on a change/addition of major or minor degree objectives form. Students who decide not to complete a declared minor must formally drop the minor program. Failure to drop a declared minor may delay the awarding of the student’s degree.

The following guidelines apply to minor programs:

1. Minor programs are available to students matriculated in an undergraduate degree program and must be completed simultaneously with the major degree program.

2. Minors constituted of course work from a single department may not be earned by students majoring in that department.

3. Students may take an interdepartmental minor in which their major unit participates as long as at least 16 units required for the minor are not courses offered by the major department.

4. Students must take at least 16 units, which are unique to the minor (i.e., not required to fulfill the student’s major or another minor).

5. All upper-division course work required for the minor must be taken at USC.

6. Departments at their discretion may substitute no more than 25 percent of the required units defined in the catalogue for a given minor program. Substitution of courses with the same departmental prefix are exempted from this limit. Lower-division courses cannot be substituted for upper-division course requirements.

7. Departments at their discretion may waive no more than 4 units for minor programs with 17 to 20 units or no more than 8 units for minor programs with more than 20 units for each student. The number of units unique to the minor after any departmental waivers or substitutions must total at least 16 units.

8. No course work required for the minor may be taken on a Pass/No Pass basis.

9. A minimum cumulative 2.0 GPA must be achieved in all courses applied toward the minor. A higher minimum may be required by the sponsoring department or unit.

10. Students whose major degree programs do not include a language requirement need not satisfy that requirement to earn a minor from the USC Dornsife College of Letters, Arts and Sciences or a professional school that has a language requirement unless the minor specifically requires the language.

11. Completion of the minor program will be recorded on the transcript. The student receives a separate minor certificate for each minor program completed.

12. Undergraduate students may elect to follow the minor requirements in (a) the catalogue current in their term of enrollment after admission or readmission to USC, or (b) a subsequent catalogue year if the minor was newly introduced or revised after their term of admission or readmission. This does not affect the catalogue year they follow for their major.

**Honors Programs**

**Departmental Honors**

The following departments have received approval from the university Undergraduate Curriculum Committee for their majors to graduate with departmental honors:

- Accounting (BS);
- American Studies and Ethnicity;
- Anthropology;
- Art History;
- Biochemistry;
- Biological Sciences (BA and BS);
- Broadcast and Digital Journalism;
- Business (BS);
- Chemistry (BA and BS);
- Cinematic Arts (Critical Studies);
- Classics;
- Communication;
- Comparative Literature;
- Earth Sciences;
- East Asian Languages and Cultures;
- Economics;
- English;
- French;
- Gender Studies;
- Geodesign;
- Geological Sciences;
- History;
- Human Development and Aging (BS);
- International Relations;
- Linguistics;
- Linguistics/Philosophy;
- Linguistics/Psychology;
- Mathematics (BA and BS);
- Neuroscience;
- Philosophy;
- Policy, Planning, and Development;
- Political Science; Print...
and Digital Journalism; Psychology; Public Relations; Religion; Sociology; Spanish; and Spatial Sciences. The minimal requirements for receiving departmental honors are that the student: (1) satisfactorily completes course work for an honors project and (2) achieves no less than a 3.5 GPA (A = 4.0) in the major at the time of graduation. Each program, department or school will designate what it considers the appropriate course work and honors project. Departmental honors are noted on academic transcripts but not on the diploma.

**Renaissance Scholar Honors**
The Steven and Kathryn Sample Renaissance Scholars program recognizes select undergraduate students who have excelled in their studies while completing a major and a minor (or two majors) in widely separated fields of study. In order to be designated a USC Renaissance Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must have his or her fields of study certified to meet the breadth with depth requirement. To be designated a Renaissance Scholar upon graduation, a student must graduate within five years of matriculation at USC, with a minimum 3.5 overall grade point average, a minimum 3.5 grade point average in each of the major(s) and/or minor(s) course requirements and with university honors. A student with multiple certified program combinations (three or more academic programs) may fulfill the 3.5 major and/or minor grade point average requirement with a minimum of two programs from one of his or her certified pairings of academic programs. Renaissance Scholar honors are noted on academic transcripts but not on the diploma.

**Discovery Scholar Honors**
The Discovery Scholars program recognizes undergraduate students who have excelled in their studies while demonstrating the ability to create exceptional new scholarship or artistic works. In order to be designated a USC Discovery Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must meet the criteria established by his or her school for outstanding original research or creative work. The criteria may include submission of a research thesis, an artistic portfolio or some other evidence of original contributions to the discipline. Faculty letters of recommendation may also be required. To be designated a Discovery Scholar upon graduation, a student must graduate within five years of matriculation at USC with a minimum 3.5 overall grade point average and with university honors. Discovery Scholar honors are noted on academic transcripts but not on the diploma.

**Global Scholar Honors**
The Global Scholars program recognizes undergraduate students who have excelled in their studies both at home and abroad. Applicants must have participated in one or more international programs administered by USC or an outside institution for a minimum of 10 weeks. In order to be designated a USC Global Scholar candidate, a student must be currently enrolled in an undergraduate degree program and must submit a capstone paper, project or research paper based on criteria established by his or her school, as well as a reflective essay. Faculty letters of recommendation may also be required. To be designated a Global Scholar upon graduation, a student must graduate within five years of matriculation at USC with a minimum 3.5 overall grade point average and with university honors. Global Scholar honors are noted on academic transcripts but not on the diploma.

**Multimedia Scholarship Honors**
See Honors in Multimedia Scholarship for a full description of this honors program.

**Distinction in Liberal Arts Honors**
See Thematic Option for a full description of this honors program.

**Graduation with University Honors**
To be eligible for undergraduate honors at graduation, a minimum overall grade point average of 3.5 for *cum laude*, 3.7 for *magna cum laude* and 3.9 for *summa cum laude* is required. Students must meet these averages, both on residence work attempted and on combined transferred and residence work attempted. The honors award is then determined by either the GPA for the residence work or the GPA for the combined transferred and residence work, whichever is lower. USC does not honor other colleges' academic "renewal" or "forgiveness" programs that permit students to improve a substandard grade. If you repeat a transferable course for which you earned a grade of D+ or lower, both grades will be included in your transfer GPA. If the grade on the first course was a C- or higher, only the first grade is included. The university will not deviate from policies governing the calculation of the grade point averages required for graduation with honors through inclusion or exclusion of course work. University honors are noted on academic transcripts and the diploma.

**Graduate Credit for 400- and 500-Level Work Taken as an Undergraduate**
An undergraduate student who is within 12 semester units of the bachelor's degree and has a cumulative grade point average of at least 3.0 may request to enroll in and reserve for graduate credit a limited amount of work at the 400 and 500 levels during the last semester as a senior, provided that the semester program does not exceed 16 semester units. A written request should be submitted to the Registrar One Stop Center, Trojan Hall 101, and should bear the endorsements of the chair of the student's major department and of the department in which the reserved work is to be taken. One Stop staff verify that the units being reserved are not needed to fulfill requirements for the bachelor's degree.
General Education Requirements for Students Who Began College Before Fall 2015

For more information about the general education requirements that apply to students who began college prior to fall 2015, see the USC Core/General Education section in the 2014-2015 Catalogue.

General Education

All students who begin college in fall 2015 or later at USC (or who begin elsewhere in fall 2015 and then transfer to USC) must satisfy the 2015 General Education Program, which includes six Core Literacies and two Global Perspectives requirements. Together these provide training in the liberal arts— the critical skills necessary for a free person to function effectively, thoughtfully and productively in a complex world. This General Education program has been designed to nurture habits of thought essential for professional success and personal development, and to establish a background for lifelong learning. No transfer work may be used to satisfy any Core Literacy requirements if those courses are taken after a student has enrolled at USC, but transfer work may be used to satisfy Global Perspectives requirements.

General Education Course Requirements

The General Education Program includes two kinds of course requirements — Core Literacies and Global Perspectives. Students can satisfy one Core Literacy with an appropriate General Education Seminar.

Core Literacies

There are six categories of Core Literacies, in which eight courses are required. All students must complete one course in each of the Arts, Life Sciences, Physical Sciences, and Quantitative Reasoning, and two courses in each of Humanistic Inquiry and Social Analysis.

GE-A. The Arts

The goal of general education classes in the Arts is to help students understand the rich history of the creative arts and to enable students to situate themselves within its traditions. Courses in the Arts category raise important questions about creative activity in the visual arts, literature, music, film, theatre or dance. Each course addresses at least four of the five learning objectives for this category, teaching students to engage with, to analyze, and to make creative work; to connect works of art to concurrent political, religious and social conditions; and to appreciate the theoretical and aesthetic contexts in which works of art are created. Courses may be taught from a disciplinary perspective but must be addressed to a non-specialist audience. Course materials and expectations do not presuppose familiarity with the discipline through which the course is offered.

GE-B. Humanistic Inquiry

Courses in humanistic inquiry encourage close engagement with works of the imagination—in words, sights and sounds—understanding what it might mean to live another life. In these courses students explore language as a medium of artistic expression and communication, studying systems of language and thought to understand different cultures (their concepts, values and histories) in relation to one another. Courses in the Humanistic Inquiry category study forms of representation and methods of interpretation, learning broad perspectives that are chronological, disciplinary, and cross-disciplinary. Students immerse themselves in arts and letters to think about their own place in history and contemporary society and to inquire into our shared future. Students learn to read and interpret analytically, to think critically and creatively, and to write and speak persuasively, developing habits of mind that enable them to evaluate ideas from multiple perspectives and to articulate informed opinions on issues of importance in today’s complex world.

GE-C. Social Analysis

The social sciences seek to explain the causes and consequences of a range of complex phenomena, including how human action shapes and is shaped by economic organizations, political institutions, and social and cultural settings. These phenomena include the role of gender, sexuality, race, class and other aspects of identity across time in the United States and around the world. Courses in this area introduce students to the methods and analytical approaches of the social sciences and demonstrate how these tools help us understand our world. In the Social Analysis category students learn to apply the methods of at least one social science discipline to the study of human behavior in economic, political, cultural and/or social settings; to understand the nature of empirical evidence and assess the usefulness of qualitative and quantitative evidence in explaining specific social phenomena; and to demonstrate an understanding of the interplay between individual and collective human action, organizations, and institutions in social and cultural settings.

GE-D. Life Sciences

Courses in the Life Sciences explore aspects of biological, evolutionary and/or environmental science with both descriptive and quantitative elements, placed in the context of research and specifically the contributions of USC scientists to our understanding of living systems. These courses train students to understand the basic concepts and theories of science and the scientific method, with a major emphasis on the impact science has on society and the environment. Students learn about the process and methods underlying scientific inquiry and how to obtain accurate experimental results; they are trained in the formulation of empirically testable hypotheses and develop an understanding of the distinction between unsupported assertions and conclusions based on sound scientific reasoning. Students acquire substantive knowledge in science and technology; they understand the processes by which scientists investigate and answer scientific questions and can articulate the basic principles used to explain natural phenomena.

GE-E. Physical Sciences

The physical sciences deal with analysis of natural phenomena through quantitative description and synthesis. Students learn to solve scientific problems and to understand
the processes by which scientific knowledge is obtained, evaluated and placed in the context of societal relevance. In the Physical Sciences category students learn to appreciate the difference between scientific laws, theories, hypotheses and speculation; to think critically about historical and contemporary issues in science and technology; to draw conclusions from empirical scientific data and to communicate experimental results and observations to others. All courses in the Physical Sciences require a section of laboratory or field experience in which students collect, analyze, and present their data. Students acquire substantive knowledge in science and technology; they understand the processes by which scientists investigate and answer scientific questions and can articulate the basic principles used to explain natural phenomena.

**GE-F. Quantitative Reasoning**
The Quantitative Reasoning category engages students in the analysis and manipulation of data and information related to quantifiable objects, symbolic elements, or logic in order to help them navigate the complexity and sophistication of the modern world. All Quantitative Reasoning courses, be they formal, abstract or empirical, are designed to increase the capacity of students to evaluate chains of formal reasoning and to assess the validity of mathematical, logical or statistical inferences. Each course in this category aims to develop one or more of three sets of skills: formal reasoning (the use of formal logic or mathematics), abstract representation (the use or construction of symbolic or diagrammatic representations), and empirical analysis (the use of statistical inference).

**Global Perspectives**
The requirements in Global Perspectives prepare students to act as socially responsible members of the global community, respectful of the values and traditions of diverse cultures, aware of the structures of power that affect people differently by race, class, gender and other socially constructed categories, sensitive to the interplay between worldwide problems and specific, local challenges. The Global Perspectives requirement includes two courses, one in each area. The first examines the contemporary situation (GE-G), while the second explores some dimensions of the historical context that has given rise to the current global scene (GE-H). While no course can meet all of these objectives, these requirements help students appreciate the dynamics at work in complex global issues and their varying local forms. Students can count each Global Perspectives course to meet a Core Literacy requirement as well, if the course has been approved to meet both requirements. No other courses can be double-counted to satisfy more than one General Education requirement.

**GE-G. Citizenship in a Diverse World**
Courses in this category enhance understanding of citizenship and moral agency within the context of today's increasingly global society, exploring differences and similarities across diverse communities and cultures. Courses can cover a diverse range of issues, such as political, legal, ethical or cultural aspects of U.S. society in a global context, or the ways in which other societies and cultures construct what it means to be a citizen and a moral agent. Courses in this category can draw upon various disciplinary perspectives or methods, such as political, social or economic analyses, moral philosophy and social justice, cultural studies, and critical theory. However, all courses must confront questions of social responsibility and citizenship in the context of differing political, social, legal or economic institutions during the present global era.

**GE-H. Traditions and Historical Foundations**
Courses in this area examine the historical and cultural foundations of contemporary and past societies by studying enduring literary, political, economic, philosophical, legal, ethical or religious traditions. Courses can examine multiple aspects of a single culture (for example, the literary and philosophical heritage of classical Greece or imperial China) or can trace the development of a fundamental idea or tradition across multiple cultures (for example, the attitude toward the natural world or the definition of a warrior). Upon the completion of their Traditions and Historical Foundations course, students should be familiar with the history of a significant tradition, practice, institution or idea; understand the historical transmission of such practices and ideas within a significant cultural tradition; be familiar with writers, artists, practitioners, thinkers, groups, and leader and be able to analyze the significant texts that are part of such a history; and understand the continuity between the past examples of a tradition and their later manifestations. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

For more information about the general education requirements, see here.

**Writing Requirement**
In their writing classes, students learn to think critically, to build sound arguments and to express their ideas with clarity. The writing requirement comprises two courses; most students meet this requirement with:

**Lower-division requirement:**
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

**Upper-division requirement:**
- WRIT 340 Advanced Writing Units: 3, 4

**Note:**
Certain groups of students may meet this requirement with other course work. For more information on the writing requirement, see here.

**General Education Course Lists**

**Core Literacies**

**GE-A: The Arts**
- AHIS 120gp Foundations of Western Art Units: 4
- AHIS 121gp Art and Society: Renaissance to Modern Units: 4
- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126g Arts of Asia II: 1300 to the Present Units: 4
- AHIS 128g Arts of Latin America Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
• AHIS 373g History and Theory of Photography Units: 4
• ART 141Lg Creating and Understanding Visuals Units: 4

Courses for Specific Students
The following courses are approved to meet this requirement for a specific group of students:

• CORE 101g Symbols and Conceptual Systems: Thematic Option Honors Program Units: 4
• CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
• CTCS 192gm Race, Class, and Gender in American Film Units: 4
• CTWR 100g Story: Character, Conflict, and Catharsis Units: 4
• DANC 342g International and Historical Perspectives in Dance Units: 4
• SPAN 380g Literature of Mexico Units: 4

GE-C: Social Analysis

• AMST 101gmw Race and Class in Los Angeles Units: 4
• AMST 111g Sex in America Units: 4
• AMST 135gmw Peoples and Cultures of the Americas Units: 4
• AMST 200gm Introduction to American Studies and Ethnicity Units: 4
• AMST 220gmw The Making of Asian America Units: 4
• AMST 230g Introduction to African American Studies Units: 4
• AMST 250gmw The African Diaspora Units: 4
• AMST 252gmw Black Social Movements in the U.S. Units: 4
• AMST 274gmw Exploring Ethnicity through Film Units: 4
• AMST 285gm African American Popular Culture Units: 4

• ANTH 101g Illness and Healing: The Cross-Cultural Perspective Units: 4
• ANTH 140g Mesoamerican Cosmovision and Culture Units: 4
• ANTH 201g Principles of Human Organization Units: 4
• ANTH 202g Archaeology: Our Human Past Units: 4
• ANTH 205g Introduction to Global Studies and Overseas Research Units: 4
• ANTH 235g The Changing Pacific: History, Culture, Politics Units: 4
• ANTH 240gm Collective Identity and Political Violence: 9/11 Units: 4
• ANTH 250g Race and Sexual Politics in Southeast Asia Units: 4
• ANTH 263g Exploring Culture through Film Units: 4
• ANTH 314g The Nature of Maya Civilization Units: 4
• ANTH 315g North American Indians Units: 4
• ANTH 316gmp North American Indians in American Public Life Units: 4
• ANTH 332g Anthropology and Narrative Medicine Units: 4
• ANTH 333gm Forms of Folklore Units: 4
• ANTH 357gm Genocide Units: 4
• ANTH 371gm Cross-Cultural Research on Urban Gangs Units: 4
• CORE 104gw Change and the Future: Thematic Option Honors Program Units: 4
• EASC 150gp East Asian Societies Units: 4
• EASC 160gmp China and the World Units: 4
• ENST 100g Introduction to Environmental Studies Units: 4
• ENST 150gx Environmental Issues in Society Units: 4
• GER 320g Psychology of Adult Development Units: 4
• GESM 130g Seminar in Social Analysis Units: 4
• HIST 101g State and Society in the Ancient World Units: 4
• HIST 225g Film, Power, and American History Units: 4
• HIST 266gp Business and East Asian Culture, 1800-Present Units: 4
• HIST 352gp The American Civil War Units: 4
• HP 365gmw Culture, Lifestyle, and Health Units: 4
• IR 101g International Relations Units: 4
• IR 210gw International Relations: Introductory Analysis Units: 4
• JS 180g Introduction to Judaism Units: 4
• JS 211gw The Holocaust Units: 4

Undergraduate Degree Programs

USC is a major university providing diverse academic programs. As such it has evolved into a complex organization. The basic underlying principle in its organization is simple: groups of faculty with similar areas of knowledge and interest are grouped together to form departments or schools. These units work together in determining the courses to be offered, requirements for degrees, and the content and rationale underlying their curricula.

In practice, the organization becomes more complex. Certain areas of study are based on broad areas of knowledge which need to draw faculty from several departments. The following list of undergraduate degrees provides a guide to the organization of USC. The index includes all degrees offered, and the school which administers the degree.

The basic undergraduate degrees are the Bachelor of Arts and the Bachelor of Science. Students may obtain these degrees in a variety of majors that have been formally approved. More specialized degrees, such as a Bachelor of Music, require more undergraduate study devoted to professional training.

Area of Emphasis
An Area of Emphasis is a specific focus within a major. Areas of Emphasis are listed within parentheses following the appropriate majors and do not appear on diplomas but are indicated on transcripts.

Combined Program
A combined program is an organized set of requirements from two academic units in a single undergraduate degree program that combines two majors. Examples are: Linguistics/Psychology and Physics/Computer Science.

Double Major Within the Dornsife College of Letters, Arts and Sciences
A double major consists of two majors, which allow the student to earn the same degree, either a BA or BS degree, conferred by the Dornsife College of Letters, Arts and Sciences. The Dornsife College of Letters, Arts and Sciences offers two kinds of majors, "departmental" and "interdepartmental" (see USC Dornsife College of Letters, Arts and Sciences). A double major may consist of two departmental majors, two interdepartmental majors, or one departmental and one interdepartmental major. All double majors require a minimum of 12 upper-division courses. Some upper-division courses may count for both majors. For double departmental majors two upper-division courses may count toward both majors. For departmental and interdepartmental majors, three upper-division courses may count toward both majors. The student receives a single diploma.

Other Double Majors
Double majors may be offered in other schools. The two majors must be offered by different departments but lead to the same degree, such as a Bachelor of Science or Bachelor of Music. Double majors consisting of two majors in the same department are not permitted. The student receives a single diploma.

Progressive Degree Programs
The progressive degree plan enables an undergraduate student to begin an integrated program of study joining bachelor's degree and master's degree programs in the same or different departments. This option is available to outstanding USC undergraduates who have completed 64 units of course work at USC, and often results in a more expeditious completion of the master's degree than otherwise would be possible. Students are admitted to the master's degree at the completion of the sixth semester. Progressive degree students must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined total number of units for the degrees. The bachelor's degree can be awarded first. Further details about progressive degrees can be found in the Requirements for Graduation section.

Second Bachelor's Degree
A second bachelor's degree requires a minimum of 32 units beyond the number required for the first. If the first bachelor's degree was earned at USC, a minimum of 32 units
for the second must be completed at USC. If the first bachelor's degree was earned at another institution, a minimum of 64 units toward the second must be completed at USC. (See the policy on residence requirements for a second bachelor's degree, under Course Work Taken Elsewhere.) For some degrees, more than the 32 units beyond the first bachelor's degree will be required because all requirements for both degrees must be met. The student receives a separate diploma for each degree upon completion.

The first and second bachelor's degrees may be completed at the same time but there is no requirement that they be.

**Minor Programs**

In addition to the degree programs listed throughout the Catalogue, many academic units offer minor programs. A list of minors appears after the list of undergraduate degrees. The requirements for each minor are listed in the appropriate school section. A separate minor certificate is issued for each minor a student completes. Minors are also recorded on the student’s transcript.

---

**International Study Options**

**International Study Programs**

USC's undergraduate international study programs, many of which are administered by the Office of Overseas Studies in USC Dornsife, enable students to learn in a different educational and cultural context for a semester or academic year. Some of the programs require a background in the language of the host country; others are conducted entirely in English. Units earned are considered USC units and affect residency in the same manner. However, overseas courses are not offered for general education credit. Students receive regular USC credit and may apply financial aid and scholarships to the semester and year programs described here. The semester and year programs detailed below are offered through the Dornsife Office of Overseas Studies unless they are identified as being offered by the Annenberg School for Communication and Journalism. Please visit the Dornsife Office of Overseas Studies located in Taper Hall (THH), Room 341, call (213) 740-3636, email overseas@dornsife.usc.edu or visit dornsife.usc.edu/overseas-studies for more information.

**Argentina**

**Spring Semester in Buenos Aires**

Students may spend the spring semester at the Universidad de San Andrs through this Dornsife program. The Program in Latin American Studies (PLAS) provides students with the opportunity to take courses with local students in subject areas such as economics, history, international relations, literature and political science specifically related to Latin America. All courses are taught in Spanish. Study-abroad students are required to take a Spanish language course in addition to their courses in Latin American studies. Students live in homestays arranged by the program or in self-arranged apartments. A minimum of six semesters of college-level Spanish with a B average or better is required to be eligible for this program.

**Australia**

**Semester or Year in Brisbane**

The University of Queensland (UQ) is one of Australia's premier higher education institutions. Brisbane, with more than one million residents, is Australia's third-largest and fastest-growing city. USC undergraduates enroll in regular university courses in a wide variety of subjects. Courses are available in the humanities, social sciences, science and engineering. Psychology majors with a GPA of 3.75 or higher may participate in faculty-guided research for major credit. Students may choose to live on or off campus.

The University of Queensland, home to an amazing variety of exotic birds, plants and wildlife. Students enroll in four courses:

- Rainforest Ecology
- Principles of Forest Management,
Economic Policy and Socioeconomic Values, and Directed Research. The courses involve a great deal of hands-on fieldwork, and the directed research projects provide invaluable experience for students interested in graduate studies or in work dealing with the environment. Students share four- to eight-person cabins.  

**Botswana**  
**Semester or Year in Gaborone**  
USC students may enroll in the Arts and Sciences or Community Public Health tracks offered at the University of Botswana (UB) through the Council on International Educational Exchange (CIEE). Arts and Sciences students directly enroll in UB courses, choosing from a wide array of courses within the faculties of engineering and technology, humanities, natural sciences and social sciences. Students in the Community Public Health track take a combination of specialized CIEE public health courses, a field practicum and direct enrollment courses at UB. All students are required to take Setswana Language and Culture Practicum. As Gaborone is a hub for international development agencies and local NGOs, students are encouraged to commit to regular volunteering assignments, where they engage with the community and gain a greater understanding of contemporary Botswana culture and its role in Southern Africa. Students live in UB residence halls or with a host family in Gaborone.  

**Brazil**  
**Fall or Spring Semester in Rio de Janeiro**  
The semester program offers students the opportunity to learn about Brazilian culture through an intensive presemester Portuguese-language course* and through civic engagement projects that benefit the local communities in Rio de Janeiro. Through the Council on International Educational Exchange (CIEE), USC students enroll in 18-20 USC units in courses offered by CIEE and at the Escola Superior de Propaganda e Marketing, Brazil's top communication and journalism school. The program is open to communication, journalism and public relations majors. Visit the Annenberg International Programs Website for more information on language and other prerequisites. A minimum USC cumulative GPA of 3.0 is required for this program. For further information, contact the Annenberg School for Communication and Journalism, ASC 140, call (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.  

*This course does not count for a USC language requirement.**  

**Semester or Year in Salvador da Bahia**  
Students may spend a semester or year in Salvador da Bahia in northeastern Brazil through the Council on International Educational Exchange (CIEE). Salvador da Bahia, a city of 2.1 million, was once the capital of Brazil and is now considered the center of Afro-Brazilian culture. The semester and year programs begin with several weeks of intensive Portuguese language training before the start of regular university courses. During the semester, students take one Portuguese language class, one or more CIEE courses and several courses alongside Brazilian students at the Universidade Católica do Salvador. All courses are taught in Portuguese. Courses are available in such areas as anthropology, Afro-Brazilian studies, art history, history, Latin American studies, literature, religion, sociology and theatre. Students live with Brazilian host families. Students who have completed four semesters of college-level Spanish or three semesters of Portuguese are eligible to apply.  

**Semester or Year in São Paulo**  
Students may spend a semester or year in São Paulo, Brazil, a city of approximately 16 million inhabitants, through the Council on International Educational Exchange (CIEE). The program begins with several weeks of intensive Portuguese language training prior to the start of regular university courses. During the semester students take one Portuguese class and several courses alongside Brazilian students at the Pontificia Universidade Católica de São Paulo. All courses are taught in Portuguese. Courses are available in such disciplines as anthropology, archaeology, communications, economics, history, geography, international relations, linguistics, literature, philosophy, political science and sociology. Students live with Brazilian host families. Students who have completed four semesters of Spanish or three semesters of Portuguese are eligible to apply.  

**Chile**  
**Semester or Year in Santiago**  
In conjunction with the Council on International Educational Exchange (CIEE), USC provides the opportunity for study at the Universidad de Chile, the Pontificia Universidad Católica de Chile, and/or the Universidad Diego Portales, all located in Santiago, the capital of Chile. All courses are taught in Spanish. Courses are available in such disciplines as art, anthropology, economics, geography, history, international relations, literature, philosophy, political science, psychology, sociology, Spanish, and theology. Students live with Chilean host families. Students who have completed six semesters of Spanish, or the equivalent, are eligible to apply.  

**China**  
**Semester or Year in Beijing**  
The program at Peking University in Beijing, offered through CIEE, provides students with the opportunity to study at China's most prestigious liberal arts institution and to improve their Mandarin Chinese in a city where the standard dialect is used. The focus of the program is intensive language learning, with instruction available at many levels of ability. Students may take one English-taught area studies course. Students who have a very advanced level of Chinese and attend the program in the spring semester may take regular Peking University courses alongside Chinese students. Students live in an off-campus international student dorm or in a homestay with a Chinese family. Students must have completed three semesters of Mandarin or the equivalent to be eligible for the program.  

**Fall or Spring Semester in Hong Kong**  
The semester program offers students the opportunity to learn about Chinese culture at the Chinese University in Hong Kong, a bilingual institution. The program also gives students the experience of living in Hong Kong, where they can witness the "one country, two systems" experiment. Courses in English are offered in fine arts, literature, history, Japanese studies, intercultural studies, music, philosophy, computer science, anthropology, economics, international relations, as well as journalism and communication. For students interested in Chinese language, courses are offered in Putonghua (Mandarin) or Cantonese. (Please note that these
language courses will not count toward the EALC major/minor.) Extracurricular activities include the opportunity to teach English in rural China, monthly dinner talks with Asian studies specialists and excursions to local areas of interest. Students take five classes worth 3 units each, for a maximum of 15 USC units. This program allows communication majors to earn up to 12 upper-division units of major credit. Students reside in dormitories with Chinese or international roommates. A minimum USC cumulative GPA of 3.0 is required for this program. The program is open to all majors, with priority given to communication majors. For further information, contact the Annenberg School for Communication and Journalism, ASC 140, call (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.

Semester or Year in Nanjing
Students may spend a semester or year through CIEE in Nanjing, China, a city of more than three million people set along the banks of the Yangtze River. Nanjing University is well-regarded for its liberal arts and social sciences education. Students with two to five semesters of Mandarin take 12 units of Mandarin and a 3-unit elective. Advanced language students may take courses in Chinese at Nanjing University's Institute for International Students. In the fall semester there is an extended field trip to southwest China, and in the spring semester the extended field trip is to northwest China. Each student shares a double dorm room with a Chinese student. Students may also choose to live with a host family. Students must have taken at least two semesters of Mandarin or the equivalent to be eligible for this program.

Semester or Year in Shanghai
Students may spend a semester or year in Shanghai participating in the CIEE-run China in a Global Context program. The CIEE Shanghai Study Center is located on the campus of East China Normal University. Students take 6 units of Mandarin and three 3-unit Chinese studies courses taught in English. The courses offered are in fields such as international relations, political science, political economy, economics, gender studies, global studies, history, cinema and sociology. Students live either with a Chinese host family within easy walking distance of the university or in an on-campus international student residence hall with a Chinese roommate. To be eligible for this program, students must have completed at least two semesters of college-level Mandarin.

East Asia: Japan, South Korea, and Hong Kong

Spring and Summer in Tokyo, Seoul and Hong Kong
Students who have completed two semesters of college-level Korean have the opportunity to spend the spring and summer semester on the specially designed Three-Campus Program in Comparative East Asian Studies. The program begins in Tokyo at Keio University with an intensive introductory course in Japanese culture, society, government, politics and business, followed by the full spring semester at Yonsei University in Seoul. At Yonsei students take Korean language, a program-required social sciences seminar and three elective courses taught in English. Yonsei offers a wide variety of options in anthropology, art history, business, economics, history, international relations, literature, philosophy, politics, religion and sociology. After the spring term at Yonsei, students go directly to the University of Hong Kong, where they take a two-week course on the Political Economy of Global Asia. The program ends with a six-week internship placement in a local NGO in Hong Kong. Students live in the host university housing in all three countries. The program runs from late January to mid-August.

England
Semester or Year at the University of Sussex in Brighton
The University of Sussex is especially strong in American studies, cognitive science, computer science, English, international development studies, international relations, neuroscience, biological sciences, psychology and sociology. USC students are directly enrolled in courses with British students. Situated near the seaside resort town of Brighton, the university is only an hour away by train from London and just a half hour from Gatwick Airport. Brighton has a very active arts scene and a lively nightlife, and 10 percent of the residents are university students. Students live in university housing either on or off campus.

Semester or Year at Queen Mary, University of London (Cinematic Arts, Engineering, English, History, International Relations, Narrative Studies, Political Science and Theatre Majors Only)
Students in the majors listed above directly enroll at Queen Mary in four courses, at least two of which must be for major credit. They may take the remainder of their courses in any department except law and medicine. Students live in on-campus housing at Queen Mary, located in the East End of London.

Year at the London School of Economics and Political Science (LSE)
Juniors and seniors can spend a year at LSE, which has an outstanding international reputation in all of the social sciences, including anthropology, economics, international history, international relations, philosophy, political science and sociology. Students spend an academic year at LSE on the general course, where they take four yearlong courses alongside British and other international students. More than half of the 6,000 full-time students come from outside the United Kingdom, lending to a very international atmosphere. University housing is located throughout central London. Students must have at least junior standing and a cumulative GPA of 3.3 or higher to be eligible for this program; students in quantitative majors such as economics and mathematics need a 3.5 GPA in major courses.

Semester or Year at King's College, London (Biological Sciences, English, International Relations and Neuroscience Majors Only)
Juniors and seniors in the majors listed above can directly enroll at King's College, one of the top universities in the United Kingdom. King's is strong in biological sciences and offers a special class for pre-med students, which combines classroom study with clinical attachments focusing on different aspects of medical practice. Students interested in security or peace and conflict studies can enroll in the War Studies Department, one of the few university departments in the world devoted to the study of war as a phenomenon. USC students must plan to take at least three courses for major
credit to be eligible for this program. University housing is located throughout central London, and students can expect to commute to campus. Students must have a cumulative GPA of 3.3 or higher to be eligible for this program.

**Fall or Spring Semester in London (Annenberg Majors Only)**
Undergraduate communication, journalism and public relations students may spend a spring semester (fall semester for communication majors only) at a dedicated study center, where they enroll in 16 units of upper-division Annenberg major course work. In addition to their studies, students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to British media, culture and civilization. A minimum USC cumulative GPA of 3.0 is required for this program. For further information and program requirements (which vary by Annenberg major), contact the Annenberg School for Communication and Journalism, ASC 140, (213) 821-1276, email ascinfo@usc.edu, or visit annenberg.usc.edu/international.

**Semester at University College London (UCL) (Art History, Earth Sciences, Geology, Neuroscience and Psychology Majors Only)**
Juniors and seniors in the majors listed above may spend a semester at UCL, one of the top universities in the United Kingdom. Students will have a home department at UCL and must take two of their four courses in their home department. Remaining courses can be taken in any department except English (unless one is also an English major) and fine arts. USC students are directly enrolled in courses with British students. University housing is located throughout central London, and students can expect to commute to campus. A GPA of 3.3 or higher is required to be eligible for this program.

**Semester or Year in London (Theatre/Acting)**
In conjunction with Sarah Lawrence College and the British American Drama Academy (BADA), USC theatre acting majors and minors spend a semester or year in London. The London Theatre program is designed to expose American undergraduates to the rigor of professional British training in acting by helping them improve their ability to perform plays from the classical repertoire and develop techniques and approaches to acting that will stand them in good stead in any role. The program is taught by a faculty that includes some of Britain's most distinguished actors and directors. Students will take courses which include scene study workshops in Shakespeare, high comedy, modern drama, acting in performance, voice, movement, stage fighting, theatre history and dramatic criticism. Students attending a one-year program will add classical acting for stage and screen to their academic program for the second semester. Students live in flats with other program participants. Students must audition for the program, and admission is competitive.

**France**

**Year in Paris**
USC is a member of the Sweet Briar Junior Year in France Consortium, which enables USC undergraduates to spend an academic year in Paris, taking courses at the University of Paris and other institutions in the Parisian system of higher education. Courses are offered in most areas of the social sciences, the humanities and the arts. The year is preceded by a two-week intensive language orientation in the city of Tours, and internship opportunities are available in the second semester. To apply, students must have completed four semesters of college French or the equivalent.

**Semester or Year in Paris**
USC students can study for a semester or year on the USC Paris program. In addition to French language courses at the Sorbonne, the program offers USC upper-division French courses and English-taught USC courses in art history and international relations. Students at an advanced level of French may take one or two courses alongside French university students at the Institut Catholique. Courses are available in the following areas: art history, economics, history, international relations and sociology. The program also offers weekend trips to regions such as Normandy and Provence, and day trips to sites of cultural importance near Paris. Students live with French host families. Students must have completed at least two semesters of college-level French.

**Spring Semester or Year in Paris (Economics, International Relations and Political Science Majors Only)**
Juniors and seniors in the majors listed above may spend the spring semester or academic year studying at the Institut d'Etudes Politiques de Paris (Sciences Po), one of the top-ranked universities in France. Students choose the English track, English/French track or French track for their courses in international relations, political science and economics. All students take a French language course or elective course taught in French each semester regardless of which track they are in. Students live in private accommodation throughout Paris. To be eligible for this program, students need a 3.3 USC GPA, junior standing, and three to five semesters of French (depending on the track selected). Students must make their own housing arrangements.

**Germany**

**Semester or Year in Berlin**
In conjunction with the Institute for the International Education of Students (IES), USC offers a program of study at the IES Center and Humboldt University, perfectly situated for exploring the city. Students receive intensive German language instruction during the first three weeks of the program, then enroll for the remainder of the semester at Humboldt University (in the spring semester only) and/or courses offered at the IES Center (in the fall or spring semester). All courses are taught in German and are available in such disciplines as economics, history, politics, art history, business, classics, international relations, political science, psychology, religion and sociology. Students are housed in private German homes and apartments. Students must have completed four semesters of college-level German to be eligible for this program.

**Spring Semester or Year in Dresden**
Students may spend the spring semester or full year with Boston University's Dresden German Studies Program at Technische Universität Dresden (TUD). Students spend six weeks in an intensive German course prior to the start of the TUD semester. Students who have completed two or three semesters of college-level German are placed in the Level 1 program. Level 1 students take courses in the TUD Department of German as Foreign Language, where courses
include German for the Humanities and Social Sciences, German for the Technical and Natural Sciences, Business German, Speaking Practice and intensive multi-skills German courses. Students who have completed four or more semesters of college-level German are placed into the Level 2 program, where they take regular TUD courses. Areas of study available include art history, economics, German literature, history, international relations, philosophy, political science and sociology. Students live in university housing.

**Ireland**

**Semester or Year in Galway**

Students may spend a semester or year studying at the National University of Ireland, Galway. Located in western Ireland, Galway is the third largest city in the Republic of Ireland and plays a dynamic and pioneering role in theatre, arts and culture. Students may take courses in a wide variety of fields including arts and letters, sciences and engineering. Students are directly enrolled in the university and take courses alongside Irish students.

**Israel**

**Spring Semester or Year in Jerusalem**

USC undergraduates may spend a year or spring semester at Hebrew University of Jerusalem (HUJ). The program begins with a three-week pre-semester period of intensive Hebrew language study. Study abroad students are based at HUJ's Rothberg International School (RIS), where the medium of instruction is English. USC students take courses at RIS in fields such as archaeology, art history, environmental studies, history, international relations, Jewish and religious studies, Middle East and Islamic studies, literature, political science, neuroscience and psychology. Students may also take Arabic. Although most regular HUJ courses are taught in Hebrew, there are well over a dozen regular HUJ courses offered in English. All USC students are required to take at least one regular HUJ course taught in English. Students live in campus dormitories. Students must have completed one semester of college-level Hebrew or the equivalent to participate in this program.

**Italy**

**Semester in Cortona (Fine Arts Majors Only)**

USC fine arts majors (BA or BFA) may participate in a semester-length intensive studio arts program in the Tuscan hill town of Cortona, Italy with the University of Georgia's Studies Abroad Program. Cortona is located on top of Mont S. Egidio and offers students a rich artistic and historical environment, which includes Etruscan, Roman, Medieval and Renaissance art and architecture. Students must have completed one semester of college-level Italian or the equivalent and several foundation courses in art before attending this program. In Cortona, students study painting, drawing, ceramics, printmaking and sculpture. Mandatory weekend excursions to places of historical and artistic interest in the surrounding area complement the studio classes. Accommodation is provided in a renovated 15th-century monastery in Cortona.

**Semester or Year in Florence**

USC undergraduates have the opportunity to spend a semester or year in Florence studying Italian language and literature, art history, gender studies, history, international relations, political science and studio arts. Classes are taught mostly in English at Syracuse University's study center in Florence. Students with advanced proficiency in Italian may take courses at the University of Florence. Courses are complemented by field trips to cities such as Assisi, Rome and Venice. Students live in homestays with Italian hosts. Studio arts students may also choose to stay in an apartment with other program students. Students must have completed at least two semesters of college-level Italian to be eligible for this program.

**Spring Semester in Rome (Annenberg Majors Only)**

Undergraduate communication, journalism and public relations majors may study in Rome for a semester at a dedicated study center where they will enroll in 16 units of communication and ASCJ credit. Students study Italian
media, communication style and basic Italian language. In addition to their studies, students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to Italian media, culture and civilization. A minimum USC cumulative GPA of 3.0 is required for this program. For further information and program requirements, contact the Annenberg School for Communication and Journalism, ASC 140, (213) 821-1276, email ascinti@usc.edu, or visit annenberg.usc.edu/international.

Semester in Florence at SACI (Animation and Digital Arts and Media Arts & Practice Majors in the Fall Only; Roski School of Art and Design Students in the Fall or Spring)
Undergraduate majors in Animation and Digital Arts, Media Arts and Practice, and the Roski School of Art and Design may spend a semester abroad at Studio Arts Centers International (SACI) in Florence, Italy. Students must have completed a minimum of one semester of college-level Italian (two semesters strongly recommended) as well as the required preparatory foundation classes before attending this program. SACI houses students in apartments near the school in the historic center of Florence. While in Florence students participate in weekly open drawing sessions and field trips to sites throughout Italy, including day trips to Pisa, Siena and Lucca, and weekend trips to Rome, Venice and Naples.

Semester or Year in Milan
Through the Institute for the International Education of Students (IES), undergraduates have the opportunity to spend a semester or year studying in Milan, the commercial and financial center of contemporary Italy. The IES Milan Center is located near the Università Cattolica, IES’ main partner institution in Milan. USC students may participate in the Italy Today track. Beginning/intermediate students of Italian enroll in IES area studies taught in English in addition to Italian language courses. IES area studies courses are available in such disciplines as art history, cinema, environmental studies, theatre, history, literature, music, psychology, political science and sociology. Students with advanced Italian select from IES area studies courses taught in Italian and are encouraged to choose one or two courses from among a wide variety of offerings at several universities in Milan. Students are housed in apartments with American and Italian roommates, homestays, or at an international honors dorm. Students must have completed two semesters of college-level Italian to be eligible for this program.

Semester in Rome (Classics and Archaeology Majors Only)
USC classics and archaeology majors may study in Rome for a semester at the Intercollegiate Center for Classical Studies (ICCS), a program administered by Duke University. Students study ancient history and archaeology, intermediate and advanced Greek and Latin, basic Italian language, and Renaissance and Baroque art history. Field trips and extended study tours are essential components of the program. Students live and study at the ICCS Center, a three-story building located a few minutes by bus from the center of Rome.

Japan
Semester or Year in Nagoya
A program of study is available at the Center for Japanese Studies at Nanzan University in Nagoya. The program for international students is well known for its strength in Japanese language training. Nagoya is two hours from Tokyo by bullet train and one hour from the ancient capital city of Kyoto. Courses are available in such disciplines as Japanese arts, business, culture, economics, history, international relations, linguistics, literature, religion and political science. Intensive language training is offered at all levels of proficiency. Students live in Japanese homes or dormitories.

Year at Waseda University in Tokyo
Students may study for an academic year at Waseda University, one of Japan’s foremost private institutions of higher learning. The university is located in the Shinjuku area of Tokyo. The academic program at Waseda’s School of International Liberal Studies combines Japanese language courses and English-taught lecture courses on the history, culture, literature, arts, politics and economics of Japan and East Asia. The intensive Japanese language courses, offered at eight levels of proficiency, assist students in the development of listening, speaking, reading and writing skills. Students live with Japanese families or in the university’s international dormitory.

Spring or Year at Sophia University in Tokyo
Students may spend the spring semester or full year at Sophia University in Tokyo through the Council on International Educational Exchange. Students can experience life in Tokyo and take courses alongside Japanese students and other international students. Sophia University is a top-ranked Japanese university and is conveniently located in west-central Tokyo. Students are enrolled in Sophia’s Faculty of Liberal Arts, where they take Japanese language courses as well as English-taught courses in Asian Studies (anthropology, art history, comparative literature, economics, history, international relations, linguistics, literature, religion, philosophy, political science and sociology). Students highly proficient in Japanese can take courses in Japanese linguistics. Students live in Japanese homes or privately owned dormitories throughout the Tokyo area.

Semester or Year at Tokyo International University near Tokyo
Founded in 1965, Tokyo International University is located in the city of Kawagoe, about 25 miles from central Tokyo. The university offers a program for international students through the Japanese Studies Program in the International Center. Students enroll in an 8-unit Japanese language course and select the remainder of their courses, taught in English, from anthropology, cinema, culture, economics, history, literature, philosophy and political science. In the spring semester, students with a very advanced level of Japanese may take some courses in Japanese alongside Japanese students. Students live in Japanese homes.

Jordan
Semester or Year in Amman (Language and Culture Program)
Students may study for a semester or year at the CIEE Study Center at the University of Jordan. This program provides a challenging academic course combined with in-country cultural experience and intensive Arabic study. Students gain a better understanding of the Middle East, with specific emphasis on the Jordanian perspective and experience. All
participants take language courses in modern standard and colloquial Jordanian Arabic. In addition, students take two area studies courses taught in English. Fields of study include archaeology, economics, history, international relations, literature, religion, and sociology. Students choose to live with a Jordanian host family or in an apartment with other students. Two semesters of college-level Arabic or the equivalent are required to participate in this program.

**Semester or Year in Amman (Arabic Language Program)**

This is an intensive Arabic program offered by CIEE at the University of Jordan. Students must have completed at least five semesters of Arabic with a 3.3 GPA or better to be eligible for this program. Students take 6 units of advanced Modern Standard Arabic and a 4-unit course called Advanced Topics in Arabic Conversation, which involves the use of colloquial Jordanian Arabic. Students also take Arabic Writing and Research for 3 units and one 3-unit elective taught entirely in Arabic. Electives include Business Communication, Contemporary Arab Media, Readings in Arabic Literature, Arabic Poetry, and Introduction to Islam. Students participate in a mid-semester Arabic rural retreat. Students live with a Jordanian host family.

**Morocco**

**Semester or Year in Rabat**

Students may spend a semester or year with the AMIDEAST Area & Arabic Language Studies program. Students’ unique access to Moroccan culture provides them with insights into the country’s varied and complex approach to the pressing social, religious and cultural issues of the Middle East and North Africa. In addition to studying both Modern Standard Arabic (MSA) and colloquial Moroccan Arabic, students take two or three area studies courses taught in English from a variety of disciplines including Middle East and North Africa studies, political science, religion, sociology, gender studies and history. Classes are conducted at the AMIDEAST Center in the Agdal district of Rabat and instruct students from U.S. universities. Students live with a Moroccan host family. A minimum of two semesters of college-level Arabic is required to be eligible for this program.

**The Netherlands**

**Semester or Year in Maastricht**

USC Dornsife students may spend the semester or academic year studying at Maastricht University, the most international and fully bilingual (Dutch and English) university in the Netherlands. Students directly enroll in courses with local and international students and have access to hundreds of courses taught in English. Students will be enrolled in one of five academic clusters focused on Europe: Economics in Europe; European Politics, Law and International Relations; Public Health and Medicine in Europe; Psychology and Neuroscience in Europe; and European History, Culture and Arts. All students take a course in basic Dutch. Students must have a major in Dornsife and take course work for major credit in Maastricht to be eligible for this program.

**New Zealand**

**Semester or Year in Auckland**

Undergraduates have the opportunity to study for a semester or year at the University of Auckland. Auckland is a modern cosmopolitan city with a population of 1.5 million people, roughly one-third of New Zealand's entire population. The University of Auckland is highly ranked in the Asia-Pacific region. USC students enroll in regular university courses at the city center campus and study alongside local students in a wide variety of subjects. Courses are available in the humanities, social sciences, science, engineering and cinematic arts. Students live in university residence halls.

**Spring Semester in Auckland**

This spring semester program offers students the opportunity to travel to New Zealand and experience its liveliest city as well as its natural wonders. Students will study at Auckland University of Technology (AUT), located centrally in Auckland, the largest and most cosmopolitan city in New Zealand. Students take a variety of courses while taking in the sights and sounds of indigenous Maori culture and modern New Zealand. This program is open to all majors, with priority given to communication, journalism and public relations majors. A minimum USC cumulative GPA of 3.0 is required for this program. For further information, contact the Annenberg School for Communication and Journalism, ASC 140, (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.

**Semester or Year in Dunedin**

Founded in 1869, the University of Otago is the oldest established university in New Zealand. It has an international reputation for the quality of its teaching and research. Study abroad students are able to take a broad range of subjects across the university's four academic divisions: commerce, health sciences, humanities and sciences. Students majoring in anthropology, English, theatre, cognitive science, psychology, and natural and environmental sciences will find strong programs offering a wide variety of courses. The university offers a true campus lifestyle and the city of Dunedin, in which the university is located, offers a rich cultural life as well as proximity to outdoor activities. Students live in university-affiliated apartments.

**Nicaragua**

**Semester in Managua**

USC students may participate in the Rewriting Nicaragua: Literacies, Rights, and Social Change program run by the School for International Training (SIT). Through the interdisciplinary course work in this program, students will critically examine youth culture, advocacy, social change, and expression across generations, using the successful literacy campaigns of the Sandinista Revolution as a key reference point. The program includes both short site visits and longer excursions, including a trip to Cuba. An independent research project (ISP), conducted in the final month of the program, offers students the opportunity to conduct field research on a topic of their choice and serves as the capstone project for the program.

**Russia**

**Semester or Year in St. Petersburg**

USC offers undergraduates a semester or yearlong opportunity to study at St. Petersburg State University through CIEE. Students with two or more semesters of Russian can participate in the Russian Area Studies Program, which is ideal for students of history, international relations and political science. The Russian Language Program is for students with four or more semesters of Russian and focuses on language, literature and Russian culture. Students have their own room with a Russian family in a private apartment.
The program includes many day trips to important sites and overnight excursions to locations such as Moscow, Novgorod, the Pskov region and Tallinn (Estonia).

Scotland

Semester or Year in Edinburgh
The University of Edinburgh was founded in 1583 and offers excellence in teaching and research over a wide range of disciplines. USC students are directly enrolled in courses with British students. Courses are available in more than 50 disciplines including archaeology, architecture, biological sciences, classics, computer science, ecology, economics, engineering, international relations, linguistics, mathematics, physics, psychology and religious studies. USC students live in university residence halls, student houses or university flats.

Semester in Edinburgh (Political Internship)
The University of Edinburgh offers qualified undergraduates the opportunity to serve as interns to Members of the Scottish Parliament (MSPs). During the first five weeks of the program, students enroll in courses that provide a background in British and Scottish politics and government. Following completion of the course work, students will be assigned to an MSP, under whose direction they complete a 10-week internship and research project. This program is highly competitive; strong candidates should have taken at least two political science or international relations courses and have internship experience, preferably in politics. Students can earn 13.5 USC units on this program.

South Africa

Semester or Year in Cape Town
Students may spend a semester or year studying at the University of Cape Town (UCT) through the Council on International Educational Exchange. All program participants are required to take at least one course with specific African content. Courses may be taken in all UCT faculties except health sciences and law. Students live with South African or other international students in residence halls, with other American students in apartments close to campus, or with a South African host family. Students must have at least junior standing at the start of the program.

Fall or Spring in Durban
USC students may participate in the Community Health and Social Policy program run by the School for International Training (SIT). Durban, in KwaZulu-Natal province, is a hub for health teaching, research and practice in both Western and traditional healing systems. Through extensive field visits, lectures and an independent research project, students examine the historical, political, economic, cultural and geographic forces that shape the history of public health interventions in South Africa. Students are introduced to field study methods and spend the last several weeks of the semester completing an independent study project. Students also enroll in intensive Zulu language study.

South Korea

Semester or Year in Seoul
Students who have completed two semesters of college-level Korean have the opportunity to spend a semester or year at Yonsei University in Seoul. Students enroll in a Korean language course and two or three English-taught Asian studies courses available from the following areas: anthropology, art history, business, economics, history, international relations, literature, philosophy, politics, religion and sociology. Students live in the international student dormitory on campus.

Spain

Semester or Year in Bilbao
USC offers undergraduates the opportunity to study for either a semester or year at the University of Deusto, which was founded by Jesuits in 1886 and is among Spain's top universities. Bilbao is considered the financial and cultural center of the Basque country in northern Spain. Students with two to four semesters of Spanish focus on intensive language study and take additional course work in Spanish, Basque and European studies. Students may choose to live in dormitories or homestays.

Semester or Year in Madrid
USC students may spend a semester or year in the USC Madrid program. The program offers SPAN 260, SPAN 261, USC upper-division Spanish courses, and an English-taught art history course. Students may take one or more Spanish-taught or English-taught courses alongside Spanish university students at the Universidad Carlos III de Madrid. The program offers several excursions to different regions of Spain and day trips to sites near Madrid in addition to outings to cultural events in Madrid. Students live in a homestay with Spanish hosts.

Taiwan

Semester or Year in Taipei
USC students may spend a semester or year studying at National Chengchi University in Taipei, Taiwan, through the Council on International Educational Exchange. Students study Mandarin intensively and take one English-taught interdisciplinary core course about Taiwan or an additional Chinese course. Students live in dormitories with Chengchi University students or in a homestay. The program offers one of the best opportunities to understand the contemporary economic, political and cultural issues facing this dynamic Pacific Rim island.

Tanzania

Semester Near Arusha
Through the School for Field Studies, USC offers undergraduates the opportunity to study for a semester in Tanzania. Students live in close proximity to wildlife and local communities on the African savanna. Through conducting research and fieldwork and attending lectures, students explore human-wildlife conflicts from the perspective of local ranchers, communities and park managers. The field station where students are based is near Lake Manyara National Park.

Turkey

Spring or Year in Istanbul
Juniors and seniors may spend the spring semester or academic year at Boğaziçi University, an elite public university. English is the language of instruction. USC undergraduates studying abroad at Boğaziçi University are directly enrolled in courses alongside Turkish students, except for the Turkish for Foreigners course required for all USC students.

Courses are offered in many disciplines including chemistry, biological sciences, engineering, mathematics, psychology, philosophy and English. Students in fields such as Middle East studies, history, international relations, political science
and sociology will find courses that relate to Turkey and the region. To participate in this program, students must have both a USC cumulative GPA and a major GPA of 3.0 or higher. Students live in dormitories or shared apartments with other students.

**Other Programs**

Units other than Dornsife that offer semester and year international study programs for undergraduates include the Annenberg School for Communication and Journalism, the School of Architecture, the Marshall School of Business and the Viterbi School of Engineering. These schools and Dornsife also offer short-term international programs. Dornsife, for example, offers Maymester courses, departmental summer programs and faculty-led Problems without Passports research-based courses abroad. More information on Dornsife Short-Term Programs can be found at dornsife.usc.edu/dgp/short-term-programs.

**Non-USC Programs**

Students who wish to participate in a non-USC approved semester or year overseas study program and receive credit transferable to USC must initiate a Request for Exception to Residence in their academic department or school. Students who wish to earn credit in transfer from a non-USC overseas summer program must request pre-approval of transfer course work on the form available at usc.edu/dept/ARR/services/articulation/summer_courses.htm 1.

---

### Graduate and Professional Education

#### Financial Aid for Graduate Students

Graduate students at USC benefit from federal financial aid programs administered by the Financial Aid Office and from scholarships, fellowships and assistantships administered by the Graduate School, the Office of the Provost, and various academic departments. Several federal agencies and private foundations offer support for students engaged in research in specific fields of study. In addition, many corporations provide fellowships or tuition reimbursements for their employees. USC also offers an interest-free monthly payment plan and participates in long-term loan programs. Students may apply for one or more kinds of aid, depending on eligibility.

Although international students are not eligible for federal financial aid, they may be eligible for scholarships, fellowships and graduate assistantships offered by their schools or departments. International students should contact their departments directly for information about existing opportunities. International students may also be eligible for private educational loans.

*The Financial Aid Office may change these policies at any time to ensure continued compliance with changes in federal and state regulations governing student financial aid. As a result, students must refer to the current catalogue regulations. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.*

#### Financial Support Through Graduate Fellowships and Assistantships

Prospective and continuing students seeking financial support will find opportunities to fund their graduate study through individual schools and departments and through the Graduate School. In general, fellowships and graduate assistantships are offered only to students pursuing the PhD degree.

**Acceptance of Offers of Financial Assistance**

USC subscribes to the following resolution of the Council of Graduate Schools in the United States regarding deadlines and acceptance of offers for graduate scholars, fellows, trainees and assistants:

*Acceptance of an offer of financial assistance (such as graduate scholarship, fellowship, traineeship or assistantship) for the next academic year by an actual or prospective graduate student completes an agreement that both the student and the university are expected to honor. In those instances in which the student accepts the offer before April 15, and subsequently desires to withdraw, the student must submit in writing a resignation of the appointment at any time through April 15. An acceptance given or left in force after April 15, however, commits the student to not accept another offer without first obtaining written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer.*

**Teaching and Research Assistantships, and Graduate Assistant Lectureships**

Teaching and research assistantships and graduate assistant lectureships are awarded each year by departments and programs of the university to PhD students on the basis of scholastic accomplishment, academic promise and competence. They fall under the jurisdiction of the Graduate School. Procedures and practices can be found in The Handbook for Teaching Assistants, Research Assistants, and Graduate Assistant Lecturers on the Graduate School Website. Only students in good academic standing with GPAs of 3.0, acceptable TOEFL or IELTS scores, and who are regularly enrolled in USC graduate degree programs are eligible for appointment as teaching and research assistants and graduate assistant lecturers and may be offered a semester-by-semester appointment up to a maximum of one year at a time. All teaching and research assistants and graduate assistant lecturers are under direct and assigned supervision of regular faculty members and report regularly on the conduct and performance of their responsibilities to the supervising faculty. Assistant lecturers may be appointed only with the approval of the dean of the school in which the student is earning the degree. The Handbook for Teaching Assistants, Research Assistants, and Graduate Assistant Lecturers can be found at usc.edu/schools/GraduateSchool/current_guidelines_forms.htm.
Application Procedures and Eligibility Requirements for Federal Financial Aid

Detailed information, application procedures and deadlines for federal financial aid are available online at usc.edu/financialaid. To be eligible for federal financial aid programs, students must be U.S. citizens, permanent residents or other eligible non-citizens; have a valid Social Security number; meet Selective Service registration requirements; enroll at least half-time; meet Satisfactory Academic Progress requirements; and meet all other eligibility requirements. Enrollment status will be calculated based only on those courses that are required for, or that can be applied as an eligible elective credit toward, a student's degree or certificate program. Students must also complete all application requirements by the relevant deadline(s). With certain exceptions, as noted below, students must be enrolled in a degree-seeking program or eligible certificate program at USC to be eligible for federal financial aid.

Federal Work-Study

The Federal Work-Study program enables eligible students to earn funds through employment either on campus or with an approved off-campus employer. Only full-time (enrolled in 8 or more units) on-campus students with high financial need who meet all application deadlines are considered for this program.

Federal Loans

Federal Direct Unsubsidized (Stafford) Loans are available to eligible students. Interest accrues from the date of disbursement. Repayment begins six months after students graduate, withdraw or drop below half-time status. Federal Direct Graduate PLUS Loans are available to students who meet the credit criteria established by the U.S. Department of Education. Students who do not meet the credit criteria may apply with an endorser (co-borrower) who does. There is no grace period on the Federal Direct Graduate PLUS Loan. Repayment begins the day after the loan is fully disbursed; however, students can defer repayment while enrolled in school at least half-time, and for an additional six months after they graduate or drop below half-time status. The Health Professions Student Loan program provides funds to students in pharmacy and dentistry. The federal government pays the interest while students are in school. Repayment begins 12 months after students graduate, withdraw or drop below half-time status. For details about federal loan programs and application requirements, visit usc.edu/financialaid/loans.

Private Financing Programs

Private financing programs are available to help students meet the costs of education by providing long-term financing options. Students should exhaust all federal Title IV assistance available, including the Federal Direct Stafford Loan and the Federal Direct Graduate PLUS Loan, before considering a private student loan program. The repayment terms of federal programs may be more favorable than the terms of private loan programs. Federal student loans are required by law to provide a range of flexible repayment options, including but not limited to, income-based repayment and income-contingent repayment plans, and loan forgiveness benefits, which other student loans are not required to provide. Federal Direct Loans are available to students regardless of income.

Teacher Education Assistance for College and Higher Education (TEACH) Grant

USC no longer participates in the TEACH program.

Financial Aid for Enrollment in a Progressive Degree Program

Progressive degree students are classified as undergraduate students until their undergraduate degree is conferred or they complete 144 units, whichever comes first. If a transfer student's course work is not accepted for credit toward the degree, he or she may appeal to request that those units not count toward the 144 units.

Undergraduate Classification

While classified as undergraduates, students are assessed the undergraduate tuition rate, and their enrollment status and financial aid eligibility are determined by undergraduate standards. Undergraduate-level progressive degree students maintain their eligibility for Federal Pell Grants, Federal SEOG Grants, Cal Grants, Federal Direct Subsidized and Unsubsidized Stafford Loans, Federal Direct Parent PLUS Loans and any applicable eligibility for USC Merit Scholarships or USC University Grants, as long as they are enrolled in courses that are required for, or that can be applied as an eligible elective credit toward, their undergraduate degree. The Registrar's Office determines when a student has completed his or her undergraduate degree and manages the process of posting degrees to a student's record. The Financial Aid Office relies on the Registrar's determination of the applicability of a course to a degree program and the completion of the undergraduate degree.

Graduate Classification

Once the undergraduate degree is conferred or the student has completed 144 units, a progressive degree student can no longer be considered an undergraduate for financial aid purposes. At that time, progressive degree students will be reclassified as graduate students. While classified as graduate students, they are assessed the graduate tuition rate, and their enrollment status and financial aid eligibility are determined by graduate standards. Graduate students are not eligible for federal, state or university need-based grants. Graduate-level progressive degree students are eligible to borrow Federal Direct Unsubsidized Stafford Loans and Federal Direct Graduate PLUS Loans, up to the maximum yearly amounts established for graduate students. Students who receive a research assistant or teaching assistant award before completing 144 units or their undergraduate degree are classified as graduate students and are not eligible to receive undergraduate financial aid.

Financial Aid for Enrollment in a Certificate Program

Students enrolled at least half time in a graduate certificate program may be eligible for the Federal Direct Stafford Loan and Federal Direct Graduate PLUS Loan if the program has been determined to be eligible for federal financial aid. Contact your academic department or program or the
Financial Aid Office for information about whether your program qualifies for financial aid.

Financial Aid for Limited Status Enrollment
Students not admitted to a degree-seeking program or eligible certificate program at USC but enroll as limited-status students are not eligible for federal financial aid, unless they meet the exception noted in the Preparatory Course Work section. Students who have completed their degree or certificate programs, but continue to enroll, will be considered limited-status students and are thereby ineligible for financial aid.

Financial Aid Consortium Agreements
Students admitted to degree-seeking or eligible certificate programs at USC who enroll at another eligible institution in courses applicable to their USC degrees or certificates may have those courses considered in USC's determination of their eligibility for limited federal financial aid. The student's total USC and/or non-USC enrollment must be at least half-time and a Financial Aid Consortium Agreement must be completed. Financial Aid Consortium Agreements are contingent upon the host school agreeing to participate. For more information, visit the Special Programs section of the financial aid Website.

Financial Aid for Students Enrolled in Preparatory Course Work
Students enrolled at least half-time in undergraduate courses required for admission to a degree program may be eligible for limited Federal Direct (Stafford) Loan funds. For more information, visit the Special Programs section of the financial aid Website.

Withdrawal Implications for Recipients of Financial Aid

During the Drop/Add Period
During the university's published drop/add period, students who drop or reduce their enrollment may be eligible for a 100 percent refund of tuition for classes dropped.

Financial aid recipients must immediately notify the Financial Aid Office in writing when a drop from one or more classes during the drop/add period results in an enrollment status different from the enrollment status on which their current financial aid eligibility was based. The same applies if one or more classes are canceled.

The Financial Aid Office will review the student's new enrollment and, if appropriate, revise the student's eligibility based on the new enrollment status.

If a financial aid recipient drops from all classes or drops to less than half-time status during the drop/add period, all financial aid awards must be returned to their respective programs. Students who drop from all classes or drop to less than half-time status during the drop/add period are considered never to have established eligibility for financial aid. If the student was given financial aid funds for other expenses, he or she will be expected to return those funds to the university.

After the Drop/Add Period
Students who are recipients of Title IV federal student aid are also covered by federal Return of Title IV Funds (R2T4) regulations. Title IV federal student aid is awarded to a student under the assumption that the student will attend for the entire period for which the assistance is provided and thereby "earn" the award. When a student ceases academic attendance prior to the end of that period, the student may no longer be eligible for the full amount of federal funds that the student was originally scheduled to receive.

If a Title IV aid recipient withdraws from all classes on or before the session is 60 percent complete, based on their last date of attendance, federal policy requires that any "unearned" Title IV federal financial aid be returned to the U.S. Treasury, even if the student is not entitled to a refund of tuition.

A student is required to immediately notify the Registrar when he or she stops attending classes. If the student fails to notify the Registrar's Office, it is possible that the 50 percent point in the term will be used to determine the student's last date of attendance, in accordance with federal regulations. If a student withdraws from all classes*, the Financial Aid Office will determine if that student's period of attendance resulted in the earning of all federal financial aid awarded for that term. If it is determined that not all the scheduled federal aid has in fact been earned, then the Financial Aid Office will calculate the amount to be returned to the federal financial aid programs. The Financial Aid Office will bill the student via his or her university account for the amount to be returned. It is the student's responsibility to contact the Cashier's Office to settle the bill.

*Note to students in modular programs: In a modular program, one or more of the student's enrolled courses do not span the length of the entire semester. Students in modular courses who withdraw from one or more courses, but are still registered for future courses within the term, will be required to confirm their future enrollment plans. For students who fail to confirm or fail to re-enroll, the Financial Aid Office will determine what portion of your financial aid has been earned based on your latest date of attendance.

Refunds to the U.S. Treasury may be required. Students who have earned grades in early modular courses, but withdraw or fail to re-enroll for later courses, are still subject to these rules.

Additional Responsibilities of Students Who Withdraw
Any time a student withdraws from one or more courses, the student should consider the potential effect on his or her Satisfactory Academic Progress (SAP) status. Please review the SAP section for more information about SAP requirements.

Whenever a student's enrollment drops to less than half time or the student withdraws completely, or if a student takes a leave of absence, he or she must notify the lender, holder or servicer of any loans. Student borrowers of federal or university loans must also satisfy exit loan counseling requirements at studentloans.gov.

It is also the student's responsibility upon withdrawal from all classes to notify the Student Financial Services Office, the Housing Services Office, the Transportation Services Office and/or the USCard Office, if the student has charges from these offices on his or her student account. Students who have withdrawn from studies may be entitled to a prorated cancellation of charges from these offices.

Leave of Absence
Financial aid recipients considering a leave of absence should be aware of the financial aid implications. Although obtaining an approved leave of absence from their programs does allow students to re-enroll in the university without formal re-admission, it does not allow them to defer their loan repayment. The university reports student enrollment to the National Student Clearinghouse throughout the academic year. Lenders and federal loan service agencies subsequently query this database to determine if a student has maintained continuous half-time or greater enrollment.

**Student Loan Repayment**

If students are on a leave of absence from the university, their lender or federal loan service agency will move their loan from an "in-school" status to a grace or repayment status as required. While on a leave of absence, students may be able to postpone repayment by obtaining a deferment or forbearance from their loan service(s) as a result of unemployment or economic hardship. Students should contact their loan service(s) for more information about loan repayment. Students may review their federal loan history and determine their loan service agencies by visiting the Federal Student Aid Website at studentaid.gov. Once they re-enroll at a half-time or greater basis, they may be able to request deferment for "in-school" status.

**Tuition Refund Insurance Plan**

To complement its own refund policy, the university makes available to students Tuition Refund Insurance, an insurance policy designed to protect the investment students and their families make in education. The Financial Aid Office strongly encourages all financial aid recipients to take advantage of this plan. If a student formally withdraws from all classes after the end of the drop/add period and he or she is covered by Tuition Refund Insurance, the student may receive:

- A credit to his or her student account equal to 100 percent of charges for tuition and mandatory fees for the term, if the withdrawal is the result of documented personal illness or accident; or
- A credit to his or her student account equal to 60 percent of the charges for tuition and mandatory fees for the term, if the withdrawal is the result of a documented mental/nervous disorder.

The Tuition Refund Insurance credit will be applied first to any outstanding charges on the student's university account, including any charges resulting from the required Return of Title IV Funds (R2T4) to the federal student aid programs for the term. Recipients of university and/or federal financial aid will then receive a cash refund equal to the amount of cash payments made to the account for the term, plus any loan disbursements for the term still on the account (after all returns of Title IV aid have been made in accordance with federal policies, if applicable). The remainder of the insurance credit will be used to repay university financial aid grant or scholarship programs. At the student's written request, the financial aid office may use the student's cash refund to make a payment directly to the federal student loans programs to reduce the student's outstanding loan balance for that term. Please note, when the university makes the payment on your behalf, all accrued interest and fees will be canceled.

Brochures about Tuition Refund Insurance requirements and claim forms are available in the Cashier's Office and the Registrar's Office. All questions about the insurance plan should be directed to these offices.

**Notes on Federal Policy**

**Title IV Federal Student Aid**

Students are considered recipients of Title IV federal student aid if they have received funds from one or more of the following programs to meet educational expenses for the semester in question: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Federal Perkins Loans, Federal Direct Stafford Loans (Subsidized or Unsubsidized), or Federal Direct Graduate or Parent PLUS Loans.

**Period of Enrollment**

At USC, the periods of enrollment are generally measured using the session(s) in which the student enrolled on a semester basis, starting on the first day of classes and ending on the final day of examinations for a given term. For purposes of Title IV federal student aid, any scheduled break of five or more days will not be included in the measurement of the enrollment period. For programs offered in modules (sessions that do not span the entire length of the semester), breaks of more than five days between modules will not be included in the measurement of the enrollment period.

**Measurement of Earned Title IV Federal Student Aid**

When a student withdraws from all classes, or withdraws from one or more classes while attending a modular program, the Financial Aid Office will calculate the percentage of earned Title IV federal student aid using the date of withdrawal. The earnings calculation is based on the number of days of enrollment, up to and including the day of withdrawal, divided by the total number of days in the enrollment period. In most cases, when a total withdrawal is determined to occur on or before the 60 percent point in a semester, some federal aid will need to be returned.

**Return of Title IV Federal Student Aid**

To satisfy federal regulation, returns to Title IV financial aid programs must be made in the following order:

- Federal Direct Unsubsidized (Stafford) Loans
- Federal Direct Subsidized (Stafford) Loans
- Federal Direct PLUS Loans
- Other Title IV Federal Programs

**Financial Aid Policy Regarding Falsification of Financial Aid Information**

The types of information covered by this policy include all documents and information submitted to apply for and/or receive need-based financial aid, scholarships, federal student and parent loans, and private financing funds. These documents and information include, but are not limited to, the following:

- Free Application for Federal Student Aid (FAFSA)
- Student Aid Report (SAR)
- Enrollment and Housing Form
- Student and parent federal income tax forms and other income documentation
• Documentation of U.S. citizenship or eligible non-citizen status
• Documentation of housing/living arrangements
• Academic documents relating to high school diploma or college course work
• Loan applications, promissory notes and related documentation
• Specific program applications
• Federal Work-Study time sheets
• Any university financial aid forms and related documentation
• Any written, electronic or verbal statements sent to or made to a university employee regarding the student's financial aid application or other financially related documents

The integrity of the documents and the honesty of the information presented through them are critical to the financial aid process. Students should be aware that they will be held responsible for the integrity of any financial aid information submitted either by them or on their behalf.

If the university determines that a student or parent has provided falsified information, or has submitted forged documents or signatures, the following steps may be taken without prior notification to the student or parent:

1. An incident report will be filed with USC's Office of Student Judicial Affairs and Community Standards following procedures outlined in the University Student Conduct Code. Pending resolution of the complaint, the Financial Aid Office may restrict the distribution of any further aid to the accused student.

2. If the Financial Aid Office or the student conduct review process finds that a violation has occurred, the consequences may include, but are not limited to, the following:
   • The student will be required to make full restitution of any and all federal, state, private and/or university scholarship, grant, loan or work funds to which he or she was not entitled.
   • Until full restitution is made, all federal, state and university funds will be withheld from the student, including all funds disbursed in past or in current terms.
   • No arrangements will be made with the Cashier's Office or Collections Office on the student's behalf to settle their account. The student will be responsible for all charges incurred on the student's account because of the loss of federal, state or institutional financial aid funds.
   • If the student is determined to be ineligible for financial aid because of a basic eligibility criterion, no further federal, state or university funds will be provided to the student in any future terms of enrollment at the university.
   • The student may be ineligible for future participation in some or all financial aid programs for a minimum of one year or longer. In some cases, the student will not be eligible to receive funds from that program in any future terms of enrollment at the university.
   • The student will not receive funds to replace those lost because he or she is considered ineligible due to dishonesty.

3. In addition to any consequences directly related to the student's financial aid, the student may be assigned disciplinary sanctions as described in the Student Conduct Code (11.80). See here.

4. As required by federal and state law, the USC Financial Aid Office will report any infraction to the appropriate office or agency. These include, but are not limited to, the U.S. Department of Education Office of the Inspector General, state agencies or other entities that may take whatever action is required by federal and state law. In this report, the Financial Aid Office will describe in detail the incident, the response from the Financial Aid Office and any additional actions taken by or pending with the university.

Satisfactory Academic Progress (SAP) Policy

Purpose of Satisfactory Academic Progress Regulations

To be eligible for federal financial aid, graduate and professional students are required by the U.S. Department of Education (34 CFR 668.34) to maintain Satisfactory Academic Progress toward their degree objectives. USC has established this SAP policy to ensure student success and accountability and to promote timely advancement toward degree objectives.

The following guidelines provide academic progress criteria for all graduate and professional students receiving certain financial aid at USC. Although the requirements for students receiving such financial aid are somewhat more restrictive than for the general student population, they are based on reasonable expectations of academic progress toward a degree. Accordingly, these guidelines should not be a hindrance to any student in good academic standing.

</table>

*Recipients of these awards should contact the awarding agencies/departments for rules governing award retention.

**Definition of Satisfactory Academic Progress (SAP)**

At USC, to be eligible for financial aid as identified above, you must maintain Satisfactory Academic Progress as defined by all of the following three criteria:

- Meeting a minimum cumulative grade point average requirement (GPA)
- Earning a minimum number of units for credit per semester (Pace of Progression)
- Completing the degree objective within a maximum number of semesters enrolled and a maximum number of units attempted (Maximum Time-Frame Allowance)

Students who do not meet one or more of the above criteria will be considered to be SAP ineligible for financial aid without an approved, written SAP Appeal. The following will explain each of the three SAP evaluation criteria; SAP Ineligibility and Probation Periods; and the SAP Appeals process in detail.

**Grade Point Average Requirement**

To maintain Satisfactory Academic Progress, graduate and professional students must maintain a minimum cumulative grade point average of 3.0. In some cases, the University Committee on Curriculum has approved different GPA requirements for professional schools as detailed in Table 3:

Table 3
Exceptional Grade Point Average Requirements for Graduate/Professional Programs

<table>

</tr>
</tbody>
</table>

Students with No Graduate GPA

Students enrolled in progressive degree programs whose undergraduate degrees have not yet been conferred must maintain a minimum cumulative undergraduate GPA of 2.0.

Students who have no GPA because all their course work has been taken as Credit (C)/No Credit (NC) or Pass (P)/No Pass (NP) are considered to have a sufficient GPA as long as they have no grades of NC or NP. A grade of In Progress (IP) is also considered a passing grade.

Refer to Tables 4 and 5 to understand how specific grades and course types affect students' cumulative grade point averages:

Table 4
Impact of Grades on Graduate Cumulative SAP GPA

<table>
<thead>
<tr>
<th>Grade Earned</th>
<th>Counted in Grade Point Average</th>

<td>Yes (both grades counted)</td>
</tr>
<tr>
<td>Transfer course work (pre- and post-matriculation)</td>
<td>No</td>
</tr>
</tbody>
</table>

For more information about grading policy, visit the USC Department of Grades on the Registrar's Website at usc.edu/grades.

**Pace of Progression Requirement**

To maintain satisfactory progress, graduate students must complete a minimum number of units each semester (Pace) to ensure completion of the degree within the maximum time frame. Pace of Progression is calculated by dividing the cumulative number of credits the student has successfully completed by the cumulative number of credits the student has attempted. To be eligible to receive the federal, state and institutional financial assistance detailed in this section, a student is required to successfully complete a minimum of 67 percent of all attempted credits.

\[ \text{Pace of Progression} \geq 67\% = \text{SAP eligible for Pace} \]

Review Tables 6 and 7 to understand how grades and course types will affect the Pace of Progression calculation:

Table 6

<td>Yes</td>
</tr>
</tbody>
</table>

**Maximum Time-Frame Allowance**

To demonstrate Satisfactory Academic Progress, students must complete their degree objective within a specified amount of time. The time frame will depend on the student's enrollment status and educational objective.

**Maximum Units and Semesters**

Each program of study has a maximum time frame established in both units and semesters attempted, based on the requirements of the degree program. Students are eligible to receive financial aid until the maximum units or maximum full-time semesters are reached, whichever comes first. All enrolled periods are considered regardless of whether the student has received financial aid.

**Transfer Course Work and Advanced Standing**

Course work transferred to the university in partial fulfillment of the degree requirements will be subtracted from the maximum unit and semester allowance. If students have been admitted to a graduate program of study with advanced standing (based on undergraduate or graduate course work successfully completed at USC or another university), their maximum time frame for financial aid will be reduced to reflect the lower number of units required for graduation under advanced standing admission.

**Changing Graduate Programs of Study at USC**

Previous course work completed at USC as part of a successfully finished program of study will be excluded from the maximum unit and semester allowance. However, if such course work can also be accepted toward the new program of study, the course work will be subtracted from the maximum unit and semester allowance as pre-matriculation units. Previous course work completed at USC as part of an unfinished prior program of study will be subtracted from the maximum unit and semester allowance for the new program of study. Students in authorized dual-degree programs of generally longer duration than single-degree programs will be granted an increase in the unit and semester allowances commensurate with the additional program requirements. Solely for the purpose of evaluating the SAP Maximum Time-Frame Allowance, the Financial Aid Office establishes the following guidelines on SAP semesters.

**SAP Semesters for Doctoral Students**

Each semester in which a doctoral student attempts 3 to 5 units is counted as a half (0.5) SAP semester. Each semester in which a doctoral student attempts 6 or more units is counted as a full (1.0) SAP semester. Semesters in which a doctoral student attempts fewer than 3 units that are not full-time exception courses are not counted as SAP semesters (see Table 8).

**SAP Semesters for Master's Degree and Graduate Certificate Students**

Each semester in which a master's degree or graduate certificate student attempts 4 to 7.5 units is counted as a half (0.5) SAP semester. Each semester in which a master's degree or a graduate certificate student attempts 8 or more units is counted as a full (1.0) SAP semester. Semesters in which a master's degree or a graduate certificate student attempts fewer than 4 units that are not full-time exception courses are not counted as SAP semesters (see Table 8).

**Full-Time Exception Courses**

Other than the number of units attempted, there are additional circumstances that confer full-time enrollment status. These include enrollment in 594 Master's Thesis, 794 Doctoral Dissertation, GRSC 800 Studies for the Qualifying Examination and GRSC 810 Studies for Master's Examination, as well as other courses and programs as determined by the Dean of Academic Records and Registrar. Any semester in which a student attempts a full-time exception course will be counted as 1.0 SAP semester.
regardless of the number of units enrolled or concurrent course work.

**Maximum Unit Allowance**

Students pursuing graduate and professional degrees can apply for financial aid for up to the maximum number of units of course work required for the particular program of study, plus the equivalent units for one full-time semester course load (see Table 8).

<table>
<thead>
<tr>
<th>Program</th>
<th>Full-Time Course Load</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctoral programs</td>
<td>6 units or exception course</td>
</tr>
<tr>
<td>Master's degree programs and graduate certificates</td>
<td>8 units or exception course</td>
</tr>
</tbody>
</table>

Table 8

Full-Time Course Load for Determining Maximum SAP Units and Semesters

For certain programs, the full-time course load may vary from 14 to 22 units, based on the average enrollment levels for the program. These programs generally enroll students at the flat rate for tuition.

**Maximum Semester Allowance**

To determine the maximum number of full-time semesters of aid available for a graduate or professional program of study, divide the number of units required for the particular program by the full-time semester course load for that program according to Table 8. After rounding up to the nearest whole number, add one additional full-time semester to determine the maximum allowed for the program. Review the examples to understand how the maximum SAP units and semesters are calculated.

**Example 1**

Maximum SAP Semester and Unit Calculation for a Doctoral Degree

A doctoral program that requires 60 units for graduation:

Maximum SAP Semesters = 60 units/6 units + 1 full-time semester

Maximum SAP Semesters = 10 + 1 full-time semester

Maximum SAP Semesters = 11 full-time semesters

**Example 2**

Maximum SAP Semester and Unit Calculation for a Master's Degree or Graduate Certificate

A master's or graduate certificate program that requires 28 units for graduation:

Maximum SAP Semesters = 28 units/8 units + 1 full-time semester

Maximum SAP Semesters = 4 + 1 full-time semester

Maximum SAP Semesters = 5 full-time semesters

*rounded up from 3.5

**How Satisfactory Academic Progress is Monitored**

The Financial Aid Office monitors the Grade Point Average (GPA) requirement, Pace of Progression and the Maximum Time-Frame Allowance.

**When Satisfactory Academic Progress is Monitored**

The Financial Aid Office will monitor Satisfactory Academic Progress for graduate and professional financial aid applicants annually. The evaluation will occur after the end of the summer semester when the summer has been considered part of the prior academic year for financial aid purposes. Students who do not enroll in summer courses or whose summer is considered part of the upcoming academic year will be monitored at the end of the spring semester. When a full-time graduate student can be expected to complete a program of study within one academic year (two semesters or fewer), the Financial Aid Office will evaluate SAP at the end of every enrolled semester. These programs generally include, but are not limited to, graduate certificate programs that can be completed in 16 units. Certain master's degree programs that require more than 16 units, but are designed to be completed within one academic year (two semesters) will also be evaluated after each enrolled semester.

**Potential Delay of Disbursements Due to Monitoring of Satisfactory Academic Progress**

Financial aid may not be disbursed to a student's account until SAP has been evaluated. The Financial Aid Office cannot complete the SAP evaluation until prior semester grades have been officially posted by the Office of Academic Records and Registrar. An otherwise eligible student may experience a delayed financial aid disbursement if grades are not made official before the beginning of the subsequent semester. No exceptions can be made to this process.

**Notification of Satisfactory Academic Progress Status**

Students who have met Satisfactory Academic Progress requirements will not receive a SAP notification. The Financial Aid Office will notify any student who does not meet SAP requirements via email at the student's USC email address. Students who are notified that they are SAP ineligible for financial aid should consult their academic advisers.

**Failure to Maintain Satisfactory Academic Progress**

There are no Financial Aid SAP Warning Periods for graduate/professional students who are evaluated annually.
Students who fail to meet GPA or Pace of Progression standards will be ineligible for financial aid without an approved, written SAP Appeal. Students who exceed the maximum unit or semester allowance are ineligible for financial aid without an approved, written SAP Appeal. Students who are academically disqualified from the university are ineligible for further financial aid without readmission to the university and an approved, written SAP Appeal. Students on financial aid SAP Probation who fail to meet the terms of their SAP Contracts are ineligible for financial aid without a second written and approved SAP Appeal.

Regaining Financial Aid Eligibility

Regaining Financial Aid Eligibility with a Grade Change

Students who have lost financial aid eligibility as a result of insufficient GPA or Pace of Progression can be reinstated by a grade change if the grade change allows them to complete sufficient units and/or improve their GPA to meet stated requirements. The student must notify the Financial Aid Office in writing that the grade has been changed and requirements have been met.

Regaining Financial Aid Eligibility with an SAP Appeal for Maximum Time Frame

Students who need additional time to complete their degrees must meet with their academic adviser to complete an SAP Appeal form. Students must also update their expected graduation date with the Office of Degree Progress. The Financial Aid Office may increase the maximum time frame for students who have changed programs, are adding a program or have experienced a one-time extenuating circumstance such as illness or injury that has since been resolved. Students requesting an extension of the maximum time frame as a result of a change or addition of the program of study, must submit the following with their appeal:

1. A clear statement of education purpose that explains their educational and professional goals, and acknowledges that federal student loans borrowed in pursuit of those goals must be repaid.
2. A statement from their academic adviser that supports the change or addition of the program of study.

Regaining Financial Aid Eligibility with an SAP Appeal for GPA or Pace of Progression

Students who are not meeting Satisfactory Academic Progress GPA or Pace of Progression requirements may appeal to have their financial aid eligibility reinstated on a probationary basis. The following conditions can be considered in your appeal: extended illness, one-time extenuating circumstances that have since been resolved, and enrollment limitations due to academic advisement.

SAP Appeal Form and Letter

The student and adviser must submit a graduate and professional Satisfactory Academic Progress appeal form with complete supporting documentation to the Financial Aid Office. The SAP Appeal form must contain the specific academic plan for the student that the adviser has approved. For the appeal to be approved, the academic plan must lead to graduation within 150 percent of the published degree time. The student must also provide a written appeal letter that includes the following information/explanation: (a) What caused the work at USC to fall below acceptable standards? Students should think carefully and provide a specific explanation. (b) How have those conflicts been resolved? (c) How will the student maintain good academic standards and progress towards the degree if the appeal is granted?

When to Submit an SAP Appeal

Students may wait until they have been notified by the Financial Aid Office that they are ineligible for financial aid because of an SAP deficiency. SAP Appeals for Maximum Time-Frame Allowance may be submitted at any time, but students should first ensure that the Office of Degree Progress has updated their expected graduation term. SAP Appeals must be submitted before the end of the semester for which the aid is sought. Financial aid cannot be reinstated retroactively for a past semester.

Limitations on Approvals for SAP Appeals

The Financial Aid Office will never increase the Maximum Time-Frame Allowance past 150 percent of the published degree requirements for one graduate/professional degree.

Academic Disqualification and Activity Restrictions that Prevent Registration

Students who are academically disqualified or otherwise prevented from registering for future semesters may submit SAP Appeals. However, those appeals will not be evaluated until the activity restrictions have been resolved.

Notification of SAP Appeal Decisions

SAP Appeals will be evaluated and the Financial Aid Office will notify the student of the decision via the student's USC email address.

Financial Aid SAP Probation

Appeals for insufficient Pace of Progression and GPA are approved through the use of a semester-by-semester SAP Contract. Students placed on a SAP Contract are eligible for financial aid on a probationary basis, strictly according to the terms of the contract. While on SAP Probation, the Financial Aid Office will review a student's academic progress each semester to ensure they have met the specific terms of their contract.

The SAP Contract

The SAP contract is an agreement between the student, the academic adviser and the Financial Aid Office in which the student commits to following a specific academic plan that leads to graduation. Reinstated eligibility through a contract may alter the type and amount of the financial aid for which a student is eligible. Terms of the SAP Contract may be stricter than the standard SAP regulations cited in this section. Acceptance of the approved SAP Contract supersedes all other SAP regulations. Any deviation by the student from the terms of the contract will result in the forfeiture of future financial aid eligibility.

Submitting SAP Appeals After Failing SAP Probation

Students on SAP Probation as a result of an approved appeal who fail to meet the terms of their accepted SAP Contract are ineligible for future financial aid. These students may submit a subsequent SAP Appeal. However, these appeals are granted on an exception basis. Students will be required to
document specifically the exceptional circumstances that caused them to fail their SAP Contract and how those problems have been resolved.

Financial Aid Application and SAP Appeal

Deadlines

Any student who is appealing his or her Satisfactory Academic Progress status must meet all financial aid application deadlines and other eligibility requirements. An SAP Appeal must be submitted before the end of the semester for which the aid is sought. Financial aid cannot be reinstated retroactively for a past semester. As with any type of financial aid appeal, Satisfactory Academic Progress appeals are funded on a funds-available basis.

Course Work Taken Elsewhere

Admitted students receive a transfer credit report showing unit and subject credit granted for graduate courses. For course work taken at universities within the United States, the Degree Progress Department will prepare the transfer credit report. For course work taken at universities outside the United States, the Graduate Admissions Office will review the academic credentials and the academic department or program will determine subject credit granted.

Accreditation

The University of Southern California affirms the practice of accreditation of American post-secondary academic institutions by the six regional accreditation agencies: the Middle States Association of Colleges and Schools, the North Central Association of Colleges and Schools, the New England Association of Schools and Colleges, the Northwest Association of Schools and Colleges, the Southern Association of Colleges and Schools, and the Western Association of Schools and Colleges. Acceptance of course work and/or degrees completed by undergraduate and graduate students applying to the University of Southern California will generally be based on accreditation by these six agencies. Certain graduate schools, seminars, conservatories and professional institutions of national renown that are not accredited by a regional agency may be considered for graduate transfer work by the Articulation Office in consultation with the USC department, program or professional school to which the student is applying. Acceptance of course work and/or degrees from post-secondary institutions overseas will be based on the recognition and approval of the college or university as a degree-granting institution by the Ministry of Education within the respective country.

Proof of Prior Degree

Students applying for graduate degrees conferred by the Graduate School must hold a baccalaureate degree or its equivalent from an accredited college or university comparable in standard to that awarded at USC. Students who have earned a master's degree from an accredited U.S. institution with a GPA of 3.0 or higher may have the baccalaureate degree requirement waived after review. Diplomas granted for a preponderance of life experience, portfolio or equivalency examinations are not considered appropriate preparation for acceptance into USC's graduate degree programs and are not the equivalent of USC's undergraduate degrees. Verification of a completed undergraduate degree must be provided before enrollment in a second semester at USC.

Transfer Credit

Transfer of Course Work

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. Faculty of the student's degree program determine whether such credit is applicable toward a specific graduate degree, subject to approval by the dean of the degree-conferring unit. The faculty's decision should be made no later than the end of the first year in a master's program or the second year in a doctoral program. Credit will only be allowed for courses (1) from an accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and (4) logically fitting into the program for the degree. The university also evaluates courses completed through the armed services and may grant credit for such courses as detailed in the subsequent Credit for Military Education section (see below). Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation. Graduate transfer credit will not be granted for life experience, credit by examination, extension courses not accepted toward a degree by the offering institution, correspondence courses or thesis supervision. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC unless the student receives prior written approval from the department. Students may not take courses elsewhere as a substitute for courses in which they have received grades that fail to meet departmental or university requirements. Transfer work must have been completed within seven years of admission to a USC master's degree program (or 10 years for a doctoral program) to be applied toward that degree. Departments have the option of reevaluating transfer work when a student is readmitted to a USC graduate degree program. Requests for exceptions should be directed to the dean of the degree program for approval. The faculty of a degree program may establish limits on the number of transfer credits stricter than those of the university, which follow:

1. Courses used toward a degree completed elsewhere may not be applied toward a master's degree at USC. If courses were not used toward a completed degree, the maximum number of transfer credits that may be applied toward a master's degree, subject to departmental approval, is no more than 25 percent of the minimum units required for the program. Except in formally designated dual degree programs, the same limits apply if a student wishes to transfer credits from
any advanced degree previously completed at USC toward a master's degree.
2. A maximum of 30 units of transfer credit may be applied toward a doctoral degree.
3. It is not permitted to apply more than 6 units of transfer credit toward a doctoral degree with Advanced Standing. Admission with Advanced Standing is based upon a completed graduate degree. The only course work available for transfer credit is course work taken after completion of that degree. No exceptions are allowed.
4. A maximum of 4 units of transfer credit may be applied toward an approved dual degree program.

The University Committee on Curriculum (UCOC) must approve policies and procedures for considering individual exceptions within any specific program of study. Program exceptions to the transfer of course work policies require the approval of the UCOC and are listed in the departmental sections of this catalogue. Departments establishing lower maximum limits may waive their own policy (within the university's limits) by approval of the dean of the degree-confering unit.

Credit for Military Education
Academic credit will be awarded for graduate level course work taken at a regionally accredited U.S. Military institute/college upon receipt of official transcripts. The university will also evaluate course work/experience completed through the armed services and may award credit for such courses if they meet the following criteria:
- Students must provide official Joint Services (JST) or Coast Guard Institute (CGI) transcripts to Degree Progress.
- Course work must be evaluated by ACE as graduate credit.
- Students must submit an articulation petition for each course in which credit is requested. Each petition must include a statement of faculty support.

USC will not grant credit for the following:
- DD-214 or DD-295.
- Course work not offered in an area of study taught at USC.
- Course work/experience not evaluated by ACE.
- DSST and CLEP exam scores.
- Other Learning Experiences (OLE's).

Application of Previous USC Course Work to a Current Degree
USC course work taken prior to matriculation to a current USC degree program must have been completed within seven years of admission or readmission to a master's degree program (or 10 years for a doctoral program) to be applied toward that degree. Exceptions require approval from the vice provost for graduate programs.

Credit Evaluation
The purpose of the evaluation is to verify all previously earned degrees and may list graduate course work completed at other institutions which is available for consideration toward the USC degree. Students who intend to apply transfer course work toward a USC degree program can request a comprehensive credit evaluation through the Degree Progress Department. Only courses with a grade of B (3.0) and above are available for transfer. These courses do not apply toward a specific USC degree unless approved by the student’s major department or program and school.

Concurrent Enrollment
If a student in a graduate degree program is simultaneously enrolled elsewhere, he or she may not seek to transfer credits to USC for those studies without advance permission from the dean of the degree program (except for concurrent enrollment at UCLA. See the Academic Policies section for details). Failure to secure such permission will result in invalidation of course work taken during periods of unauthorized concurrent enrollment.

Requirements for Graduation

Catalogue Regulations, Policies and Procedures
In addition to degree requirements outlined below, undergraduate and graduate students are also subject to current catalogue regulations, policies and procedures. Examples include, but are not limited to, the policies on the grades of incomplete (IN), missing grade (MG) and continuous enrollment for graduate students. Unlike degree requirements, changes in regulations, policies and procedures are immediate and supersede those in any prior catalogue.

Graduation Date
A student will be awarded the graduation date for the term in which degree requirements, including submission of supporting documents, have been met. Although course work may have been completed in a prior term, the degree will be awarded only for the term for which all academic and administrative requirements have been fulfilled. Application for the degree is a requirement for all graduate degrees.

Students wishing to change the degree date from that indicated on the STARS Report should request an updated degree term at the Registrar One Stop Center, Trojan Hall 101 or onestop@usc.edu. Degrees are not awarded retroactively.

Discontinued Degree Programs
Students pursuing major programs that the university discontinues will be allowed to complete them within a specified time limit. The time limit will be specified at the point of discontinuance of a major program and begins at that point. It is determined according to the student’s progress toward degree completion and will not exceed five years for any student.

Closed Record
The academic record of a student who has completed the program of study or ceased attendance is considered closed. Once a student's record is closed, no further additions or changes may be made. This includes, but is not limited to,
such things as registering in additional course work, resolution of marks of incomplete (IN), missing grade (MG), etc.

Degree Requirements
All graduate students must meet both university degree requirements and those degree requirements specific to their program of study to receive an advanced degree. University degree requirements consist of grade point averages, unit, residence and time limit requirements. Degree requirements specific to a student's program of study consist of course, examination and research requirements. University degree requirements and degree requirements specific to the program of study are collectively defined as degree requirements. Graduate students may elect to follow (a) the degree requirements in the catalogue current for the semester of their admission to the degree program or (b) degree requirements in subsequent catalogues as long as they are continuously enrolled (see Continuous Enrollment). However, they may not mix catalogues. Graduate students who discontinue their enrollment without a leave of absence approved by the dean of the degree program (see Leave of Absence) will be subject to the degree requirements in effect for the semester of their readmission to the program. Students requesting exceptions to the catalogue year should petition the dean of the degree program.

Time Limit for Degree Completion
Students must maintain satisfactory progress toward their stated degree objective at all times. Progress is measured from the beginning of the first course at USC applied toward a specified degree, and all requirements for that degree must be completed within a specified time. The maximum time limit allowed for each degree is considerably greater than what is needed to complete all requirements. Departments may set more stringent time limits than those specified in this section.

The time limit for completing the master's degree is five years. The time limit for completing the doctoral degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the doctoral degree is six years from the date of admission to the doctoral program. An academic department or program may grant an extension of one semester at a time, up to a maximum of two years. For PhD students all extensions must also have the approval of the dean of the degree program.

In unusual cases, a student's committee and the department chair or program director may petition the Graduate School for further extensions.

Students who have exceeded the time limit for completing their degree program will not be permitted any further registrations. If granted an extension of time, the dean of the degree-conferring unit will permit registration for the specified period of extension. Approved leaves of absence (up to a total of two years or four semesters) are not counted in the time allowed for completion of degree requirements. The time limits apply unless otherwise designated by the faculty and previously approved by the University Committee on Curriculum for a particular degree program.

Progressive Degree Programs

Applicants for a progressive degree program must have completed 64 units of course work applicable to their undergraduate degree since graduating from high school. (AP units, IB units and course work taken prior to high school graduation are excluded.) Applicants must submit their application before completing 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. Applicants do not have to submit GRE scores but are expected to have at least a 3.0 GPA at the time of application.

The Application for Admission to a Progressive Master's Program must be approved by the deans of the bachelor's and the master's degree-granting schools at USC and submitted to the Degree Progress Department. An approved course plan proposal and letters of recommendation from two USC faculty members must be submitted with the application, with at least one of the recommendations coming from a faculty member in the student's bachelor's degree major department. Progressive degree program students must fulfill all the requirements for both the bachelor's degree and the master's degree. The total number of units for the master's degree, however, may be reduced by a maximum of one-third. A minimum of two-thirds of the units required for the master's degree must be at or above the 500 level. Students will be subject to undergraduate academic progress standards while in undergraduate status and master's academic progress standards while in graduate status. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree. The time limit for completing a progressive degree program is 12 semesters. In most cases, students will be classified as undergraduate students for the first eight semesters of college enrollment. In the ninth semester, students will be changed to graduate status. While classified as an undergraduate, students will be assessed the undergraduate tuition rate and the enrollment status will be determined by undergraduate standards. While classified as graduate students, students will be assessed the graduate tuition rate appropriate for their master's degree program and the enrollment status will be determined by graduate standards.

Students are immediately classified as graduate students and are ineligible for undergraduate financial aid once the undergraduate degree posts, even if they have completed fewer than eight semesters. Financial aid applicants may wish to postpone the posting of the undergraduate degree until they have exhausted their undergraduate financial aid eligibility.

Students who receive a research assistant or a teaching assistant award before completing eight semesters will be changed to graduate status and will be ineligible to receive undergraduate financial aid. Students must have completed 128 units to be eligible for a research assistant or teaching assistant award. (AP, IB and transfer units may be used in the 128 unit total.)

Detailed information about specific progressive degree programs is listed in the corresponding school section.

Dual Degree Programs
Dual degree programs offer graduate students the opportunity to concurrently complete requirements for two degrees. Students enrolled in dual degree programs must complete all requirements for the dual degree program and then will be
awarded both diplomas at the same time. The academic units that offer these programs frequently adjust the requirements for each degree to take into account the correlations between required course work. Students who have completed all the requirements for one of the degree programs and who decide to withdraw from the dual degree program may receive the appropriate single diploma. Students who have withdrawn from the dual degree program to receive the appropriate single diploma and later decide to complete the second degree must apply for admission, be admitted and then fulfill all requirements for the second degree. Detailed information regarding dual degree programs is listed in the appropriate school section.

**Grade Point Average Requirement**
At no time should the overall GPA drop below 3.0. A minimum grade of C (2.0) is required in a course to receive graduate credit. Work graded C- or below is not acceptable for subject or unit credit toward any master's or doctoral program. An overall grade point average of at least 3.0 on all units attempted at USC while a graduate student is required for graduation, whether or not all such units are applied toward the degree. In some cases, the University Committee on Curriculum has approved different GPA requirements for professional schools. The university will not deviate from policies governing the calculation of the grade point average through inclusion or exclusion of course work.

**Unit Requirement**
The course of study for the master's degree must include at least 24 units in required and elective courses. In addition, students in a program requiring a thesis must register for four units of 594ab Master's Thesis. The minimum unit requirement for a master's degree is established at the time the program is approved and may not be waived. At least 20 of these units must be completed at USC. The minimum number of units for a doctoral degree is 60, at least 24 of which (exclusive of Doctoral Dissertation 794) must be completed at USC. In addition, at least one-half of the total number of units applied toward a graduate degree must be completed at USC. The minimum number of units for a doctoral degree with Advanced Standing upon entrance is 36. No exceptions are allowed.

A department or school which has a graduate program approved by the university requiring a higher minimum may not waive that requirement. The unit requirement for a dual degree program is established at the time the program is approved by the university and may not be waived.

Regardless of the number of units specified in the university catalogue as required for a graduate degree, at least two-thirds of the units applied toward the degree (including transfer work and not including 594 or 794) must be at the 500 level or higher. Students with Advanced Standing in doctoral programs may not apply additional 400-level course work toward that degree; individual exceptions will not be allowed. Some degree programs, where designated by the faculty and approved by the University Committee on Curriculum, permit a higher maximum number of 400-level units.

Unit credit indicates the number of semester units earned in the course; these units may or may not be applicable to the degree. Degree credit indicates the units are applicable to the degree.

**Residence Requirements**
A minimum of 20 graduate units of USC course work is required for the master's degree; 24 units for the doctoral degree. Course work must be completed in residence at USC. Each degree-conferring unit may establish a school residence policy. School residence requirements as presented in the USC Catalogue are approved by the University Committee on Curriculum and are to be interpreted consistent with university policies on continuous enrollment, leaves of absence, transfer of credit and time limits for completion of graduate degrees. Individual exceptions must be approved by the vice provost for graduate programs.

**Pass/No Pass Graded Work**
Graduate students may elect to enroll in courses on a pass/no pass basis with department or program approval. Course work taken on a pass/no pass basis cannot be applied toward a graduate degree. If a student later requires the course for a degree program (because of a change in degree objective or a decision to obtain an additional degree), the degree-granting unit can decide to allow subject credit for the course and require a substitute course for the unit credit. Individual departments may have placed further restrictions on whether a course taken on a pass/no pass basis can be used to fulfill specific requirements.

All students should consult their academic advisers before enrolling in any course on a pass/no pass basis.

**Waiver and Substitution of Course Requirements**
Students admitted to graduate degree programs are expected to complete the degree requirements listed in the USC Catalogue. A maximum of 25 percent of the stated degree course requirements (exclusive of 594 Master's Thesis and 794 Doctoral Dissertation) may be approved for waiver or substitution by other USC course work, directed research or transfer course work. Substitution of courses with the same prefix are exempted from this limit, as are transfer courses in the same discipline and graduate degree programs with three or fewer specified required courses as part of the entire degree program.

Individual academic programs/departments may approve substitutions and waivers within this limit for their programs. In rare instances, the program or department can request approval of additional substitutions from the dean of the degree program. Waivers or substitutions of over 25 percent should be very rare and will be periodically reviewed by the vice provost for graduate programs.

The very exceptional case of waivers or substitutions over 50 percent must be approved by the vice provost for graduate programs.

Programs establishing a lower maximum substitution limit may waive their own policy by approval of the dean of the academic school. Waiver or substitution of course requirements does not reduce the minimum number of units required for the degree.

**Second Master's Degree**
A "second master's degree" is any master's degree pursued after a first master's degree is earned at USC. The maximum number of units which may be applied toward the second
master's degree for course work taken from a first master's degree at USC is no more than 25 percent of the minimum units required for the program. Second master's degrees are not allowed in the same program of study for students who earned their first master's degree at USC.

For students who earned their first master's degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master's degree. Subject credit could be awarded if approved through a petition process to the dean of the degree program. Program exceptions require approval of the University Committee on Curriculum and are listed in the departmental sections of this catalogue. No individual exceptions are allowed.

**Enrollment Status**

To be considered full time, a master's level student must be enrolled in a minimum of 8 units of 400- and 500-level course work, and a doctoral level student must be enrolled in a minimum of 6 units of 500-level and above course work. All graduate assistants are classified as full-time students during the semester(s) of their appointments as long as they are enrolled for the minimum units required for their assistantship. In order to make normal progress toward the timely completion of course work for a graduate degree, most students will be enrolled for 12 units; 16 units will constitute a maximum load. Students wishing to carry more than 16 units must have prior permission from the degree-conferring unit; such permission will be granted only in exceptional circumstances.

A student who has completed all course work for the master's degree will be considered full time when properly enrolled in either 594 Master's Thesis or GRSC 810 Studies for Master's Examination.

A student who has completed all course work for the doctoral degree (except dissertation registration) will be considered full time during the semester in which the student is preparing for the doctoral qualifying examination, provided the Appointments or Change of Qualifying Exam or Dissertation Committee form has been submitted and approved for that semester and the student is enrolled in the course GRSC 800 Studies for the Qualifying Examination. Students should not enroll in more than three semesters of GRSC 800. Doctoral students who have been advanced to candidacy, that is, who have completed all course work and have passed the qualifying examination, will be considered full time when properly enrolled in 794 Doctoral Dissertation. In addition to GRSC 800/GRSC 810 and 594 Master's Thesis and 794 Doctoral Dissertation, there are several other courses and programs as determined by the Dean of Academic Records and Registrar for which enrollment confers full-time status. Students should consult their academic unit for this information.

International students on student visas must be enrolled as full-time students or must receive authorization from the Office of International Services to enroll in fewer than the minimum units. Such students are not eligible to be considered students without formal registration and are in violation of immigration laws when not properly enrolled. Any international student having questions about his or her registration should consult the Office for International Services.

**Continuous Enrollment**

Students are considered to be pursuing advanced degrees only when they are formally enrolled. Students admitted to a graduate degree objective are required to be enrolled at USC for fall and spring semesters each year until all degree requirements have been satisfactorily completed within the time limit. Enrollment in graduate-level course work is necessary to meet this requirement. Graduate students who fail to register are no longer considered to be enrolled in a graduate degree program. After an unauthorized absence, formal readmission is required. Students who have been granted a leave of absence do not need to apply for readmission following the approved leave. Where appropriate to the design of a given academic program, the faculty of the program may obtain the permission of the University Committee on Curriculum for a different definition of continuous enrollment.

A master's candidate who is writing a thesis and has completed all course work for the degree must enroll in the appropriate thesis registration until the thesis has been approved. A doctoral candidate who has passed the qualifying examination must enroll each fall and spring semester in 794 Doctoral Dissertation until the dissertation has been approved. It is expected that students will enroll in no more than eight semesters of 794 Doctoral Dissertation.

Please note that some courses with no academic credit require payment of tuition. Most classes with course numbers ending in 2 (e.g., 594z and 794z) require payment of 2 units of tuition.

Exceptions to continuous enrollment are subject to policies governing leaves of absence and readmission.

**Leave of Absence**

Interruptions of enrollment can cause problems in the continuity of course work within a student's graduate program and, therefore, leaves of absence are generally discouraged.

A student in good standing and making satisfactory progress toward a degree who must interrupt studies for compelling reasons (e.g., approved study abroad, sustained ill health) may petition for a leave for a stated period, usually one semester. Students who find it necessary to be excused from registration must request a leave of absence by the last day to drop or add courses. The request should include a plan for academic progress upon return. A leave must be requested before the drop-add deadline and approved by the dean of the degree program, the committee chair and the department chair or program director, if applicable. During the period of leave, a student is not entitled to assistance from the faculty or use of university facilities. If granted, the leave is recorded on the student's transcript and the period of leave is not counted in the time allowed for the completion of degree requirements. Within the degree time limit, a leave of absence may be allowed for one semester at a time, up to a maximum of four semesters. A student who does not return to enrolled status at the end of an approved period of leave is no longer considered to be pursuing an advanced degree. Students who fail to apply for a leave of absence or for whom a leave has been denied (or has expired) are subject to policies governing continuous enrollment and readmission.
Financial aid recipients considering a leave of absence should be aware of the financial aid implications. For more information, refer to the Withdrawal Implications for Recipients of Financial Aid section in Financial Aid for Graduate Students.

Readmission
A student who leaves the university without obtaining a formal leave of absence from graduate study is not automatically readmitted. A student wishing to apply for readmission to a graduate degree program must first get the recommendation of the department chair or program director and submit an Application for Readmission to the dean of the degree program. However, if the cumulative GPA is below 3.0, or if readmission is sought after more than two years of an unapproved absence, the Application for Readmission must be sent to the Graduate School for approval. The readmission approval process must be completed by the first day of classes for the term in which resumption of graduate studies is sought. Approvals are to be based on the academic merits of the student's request. If readmitted, the student will be subject to all of the current University Catalogue requirements for the degree in effect at the time of readmission. Individual exceptions to the Catalogue year require the approval of the dean of the degree program.

Students seeking readmission after an absence of more than 10 years may be required to re-apply to the university. A student may not be readmitted into a program of study that has been terminated. The student must either be subject to retroactive enrollment or admission to the new program of study with the corresponding catalogue requirements.

Comprehensive and Qualifying Examinations
In graduate degree programs that require a comprehensive examination and for all doctoral qualifying examinations, a student who fails the examination may be permitted, at the discretion of the faculty, to take it a second time. For time limits on retaking the comprehensive examinations, consult the individual school's policy. For more information on the PhD qualifying examination, consult The Graduate School section of the Catalogue.

Requests for exception must be approved by the department chair or program director.

A student may not take the comprehensive or qualifying examination more than twice and must be appropriately enrolled at USC during the semester in which any such examination is taken or retaken. A student who fails the comprehensive or qualifying examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

Application for Graduate Degrees
Application for the degree is required for all graduate degrees. Application for the master's degree should be made in the student's academic unit in the semester preceding the one in which the student hopes to graduate and prior to enrolling in 594a. Application for the PhD should be made when the student has passed the qualifying exam and been admitted to candidacy. At least one semester prior to expected graduation, the student must contact his or her academic adviser and have the application submitted online. When the application is received by the Degree Progress office, a STARS report will be issued to the student. The degree cannot be conferred if no application has been submitted.

Theses and Dissertations
See the Theses and Dissertation section in The Graduate School section.

Director: Edward Finegan, PhD
Program Manager: Dana Coyle

Faculty Fellows: Tatiana Akishina, Slavic Languages and Literature; Jay Bartroff, Mathematics; Gail Peter Borden, Architecture; Ruth Chung, Rossier; Edward Finegan, Linguistics and Law; Oliver Mayer, Dramatic Arts; Krishna Nayak, Electrical Engineering; Mark Redekopp, Electrical Engineering; Wendy Smith, Social Work; Rachel Walker, Linguistics; and Travis Williams, Chemistry

Distinguished Faculty Fellows: Sarah Banet-Weiser, Communication; Nelson Eugene (Gene) Bickers, Physics; Eyal Ben-Issac, Clinical Pediatrics; Sharon M. Carnicke, Theatre; Steven Chen, Pharmacy; Frank Corsetti, Earth Sciences; Gerald C. Davison, Psychology; William Deverell, History; Donna Elliott, Pediatrics-Keck; Steven Finkel, Molecular Biology; Judy Garner, Cell and Neurobiology; Wayne Glass, International Relations; Brenda Goodman, Cinematic Arts; Thomas Goodnight, Communication; Stephan Haas, Physics and Astronomy; Heather James, English; Mark E. Kann, Political Science; James Kincaid, English; Paul W. Knoll, History; Steven L. Lamy, International Relations; Nancy Lukeshaus, Anthropology; Debbie MacInnis, Business; Frank Manis, Psychology; Win May, Medical Education; Doe Mayer, Cinematic Arts;
The objectives of CET's Fellows are to:

- Serve as mentors available to faculty and students
- Serve as advocates for a university-wide discourse on the commitment to excellence in teaching
- Foster recognition of the importance of teaching as an indispensable dimension of undergraduate and graduate education

Faculty fellows serve students directly via mentoring and indirectly as evangelists for teaching excellence throughout the university, by sharing ideas in workshops and offering advisement on effective teaching methods to junior faculty.

In addition, the fellows collectively seek to provide an intellectual resource on instructional theory and policy evaluation for university administrators tasked with responding to challenges posed by the changing national educational environment.

The Teaching Assistant Fellows (TAF) program for outstanding USC teaching assistants (TAs) primarily produces teaching assistant (TA) training materials and offers programs to enhance TA instruction across the university and beyond. The TAFs work collaboratively combining their personal teaching expertise with research on best practices to create cutting-edge materials. The TAF-created wiki exemplifies the work of the TAFs. The USC TA wiki provides information by TAs for TAs. The TAF-created wiki can be found at uscta.wikidot.com.

Secondarily, the TAF program provides professional development for the TAFs. TAFs receive advanced training in the modern theory and practice of pedagogy as well as mentoring from CET Fellows and other USC experts.

The CET Undergraduate Fellows program is designed to support CET's mission by establishing a group of undergraduates committed to improving USC's undergraduate educational experience. The CET Undergraduate Fellows program provides students with a way to provide input and support for the betterment of the undergraduate academic experience. Undergraduate fellows also receive mentoring from faculty fellows.

CET trains new teaching assistants at the beginning of each semester and assists in the creation and operation of teaching assistant training programs within each school. The center is also asked to develop better ways to evaluate teaching effectiveness and student learning. In its capacity as principal advocate for and promoter of an excellent teaching and learning environment on campus, CET provides recognition and awards for excellent teachers and mentors nominated and selected by faculty and students.

Each year CET solicits nominations for and selects the winners of several university-wide awards and grants for teaching excellence: The Associates Award for Excellence in Teaching is the highest honor the university faculty can bestow on its members for outstanding teaching. It recognizes career achievements in teaching with emphasis on concrete accomplishments and proven results; it is not intended as a "teacher of the year" award. A maximum of two awards of $3,500 each are presented each year at the Academic Honors Convocation in April to emphasize the university's recognition of the significant role that teaching plays in its mission.

The University Outstanding Teaching Assistant Awards of $1,000 are presented each year at the Academic Honors Convocation to three graduate teaching assistants who have exhibited consistent excellence in the classroom and symbolizes the university's dedication to the education of scholar-teachers.

CET also arranges consultations, symposia, institutes, conferences, demonstrations and other kinds of programmatic activities to support excellence in teaching and learning on behalf of the university.
Graduate Degree Programs

The basic graduate degrees are the Master of Arts, Master of Science, the Doctor of Philosophy and the professional doctoral degree.

The Master of Arts degree is normally given for study in the humanities and social sciences. The Master of Science degree is normally given for study in the natural sciences and engineering. Other master's degrees are granted by USC for proficiency in professional fields. Master's degree programs are subject to the policies of the Graduate School.

All Doctor of Philosophy degrees must meet the standards of scholarship and other regulations established by the Graduate School. With the exception of Doctor of Dental Surgery, Juris Doctor and Doctor of Medicine, all professional doctoral programs are subject to the policies of the Graduate School.

University Certificates

In addition, the university also offers a number of graduate certificate programs. Graduate credit certificate programs must be approved by the University Committee on Curriculum and meet the following requirements: (1) a minimum of 12 units is required; the maximum number of units may vary; (2) for certificate programs of 16 units or fewer, all course work must be at the 500 level or above. For programs of more than 16 units, not more than 25 percent of the total units for the program may be at the 400 level; (3) for completion, a minimum cumulative USC grade point average of 3.0 must be achieved on all course work applied to the certificate; (4) all course work must be earned at USC, except for programs of more than 16 units, in which case not more than 25 percent of the course work may be transfer credit.

Progressive Degree Programs

A progressive degree program enables a USC undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The degree may be in the same or different departments but should be in a similar field of study. Students in a progressive degree program must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined total number of units for the degrees. The master's degree may be awarded simultaneously with but not before the bachelor's degree is awarded.

Online Programs and Courses

The university does not distinguish online programs and courses from those offered on campus. Requests to provide information about which programs and courses are offered online will be denied.
additional admission standards, such as requiring the prospective department or program. Applicants are advised that individual departments and programs may establish additional admission standards, such as requiring the

Graduate School, is determined by the appropriate academic documents. See the departmental sections of this catalogue or visit the department or program Website.

The Graduate School establishes and monitors the standards under which students are admitted for study in degree programs under its jurisdiction. The following are the basic requirements to that awarded at USC; (2) satisfactory scores on the TOEFL (Test of English as a Foreign Language), PTE (Pearson Test of English), or IELTS (International English Language Testing System). There are no minimum TOEFL, PTE or IELTS scores required for admission. Official scores must be received from the testing service, dated no earlier than two years (24 months) prior to the start of the student's first term at USC. Students are advised to repeat the GRE if they have not taken the test within five years.

Test of English as a Foreign Language, Pearson Test of English, and International English Language Testing System

Graduate applicants at all levels are expected to demonstrate their English proficiency as part of the application process. International graduate applicants are required to submit scores from the TOEFL (Test of English as a Foreign Language), PTE (Pearson Test of English), or IELTS (International English Language Testing System). There are no minimum TOEFL, PTE or IELTS scores required for admission. Official scores must be received from the testing service, dated no earlier than two years (24 months) prior to the start of the student's first term at USC.

Deadlines and Notification

The completed application for admission and all required supporting documents should be submitted to the Office of Graduate Admission based on the published deadline for the program of interest. In the case of a student enrolled in the last semester of the baccalaureate program, all credentials, including evidence of work in progress, should be submitted. Some departments and programs only admit graduate students to begin study in the fall semester. Departmental and program deadlines are listed on the department or program Websites. Unless an academic program advertises a different deadline, priority consideration for PhD student funding will be given to those applicants who submit all application materials by December 1. The university will continue to accept and consider applications submitted after December 1. Only a letter from the Office of Graduate Admission grants official admission to a degree objective in the university. Correspondence with department chairpersons, program directors or individual faculty members does not constitute admission.

Acceptance with a Degree Objective

Students will be admitted with a specified degree objective. Admission to a degree objective and permission to enroll does not imply that the student is or will be automatically guaranteed the right to continue in a degree program or to be a candidate for an advanced degree.

Classification of Admission Status

Full Graduate Standing

Admission to degree or certificate programs in the Graduate School is processed through the USC Office of Graduate Admission, which receives and processes all applications, evaluates credentials and issues notification letters. Only a letter from the office of Graduate Admission grants official admission to a graduate degree objective in the university. The Graduate School establishes and monitors the standards under which students are admitted for study in degree programs under its jurisdiction. The following are the basic requirements: (1) a bachelor's degree or its equivalent from a regionally accredited college or university, comparable in standard to that awarded at USC; (2) satisfactory scores on the Graduate Record Examinations (GRE); (3) for international applicants, a valid score on the Test of English as a Foreign Language (TOEFL), Pearson Test of English (PTE), or International English Language Testing System (IELTS); (4) intellectual promise, including evaluation of grade point averages (GPA) that indicates an ability to do acceptable graduate work; (5) and strong personal qualifications. Credentials for admission must include a complete record of all previous college or university work. Admission to the university, under the standards of the Graduate School, is determined by the appropriate academic department or program.

Admission documents are reviewed by the applicant's prospective department or program. Applicants are advised that individual departments and programs may establish additional admission standards, such as requiring the

History

Graduate studies had their formal beginnings at the University of Southern California in 1910, and 1923 marked the official constitution of the Graduate School of the university.

Mission

The mission of the Graduate School is to promote a distinguished educational experience at the graduate level for an outstanding and diverse student body, to support and celebrate graduate student achievements, and to provide leadership in the establishment and communication of policies, standards and processes related to graduate education.

The Graduate School awards fellowships to incoming PhD students who show outstanding promise, and provides advanced fellowships on a competitive basis to students who have done outstanding work in their programs at USC. The Vice Provost for Graduate Programs has academic oversight responsibility for all graduate programs at the university. Excellence in graduate and professional education is critically dependent on the exchange of scholarly ideas across a diverse community of faculty and students. The values that characterize these interactions include dedication to excellence, mutual respect, fairness, collegiality, honesty and integrity.

Graduate School Policies and Requirements

Admission

Traveling the start of the intended first term at USC, the admit term at USC are not accepted. Students are advised to repeat the GRE if they have not taken the test within five years.

The university will continue to accept and consider applications submitted after December 1. Only a letter from the Office of Graduate Admission grants official admission to a degree objective in the university. Correspondence with department chairpersons, program directors or individual faculty members does not constitute admission.

Acceptance with a Degree Objective

Students will be admitted with a specified degree objective. Admission to a degree objective and permission to enroll does not imply that the student is or will be automatically guaranteed the right to continue in a degree program or to be a candidate for an advanced degree.

Classification of Admission Status

Full Graduate Standing
Students who have been accepted for admission, have met all the basic admission requirements and filed all relevant documents with the Office of Graduate Admission are considered admitted to full graduate standing. Occasionally, applicants for admission may lack one of the qualifications listed above or may have difficulty producing appropriate documentation; such students may be conditionally admitted.

**Conditional Admission**
Conditional admission is a status for those students who have not yet met all requirements for admission to full graduate status or who have not filed all relevant documents with the office of graduate admission. See the Graduate and Professional Education section for policies governing enrollment as a conditionally admitted student. Full graduate student standing is not granted until all conditions have been met within the time limit given.

**Limited Status Students**
Some students may wish to enroll in graduate-level courses for personal satisfaction or professional enhancement without currently seeking a graduate degree. Students may be permitted to enroll with permission from the department or program. Such students should obtain a special Limited Status form from the Office of Academic Records and Registrar at the time of registration. This will permit them to register in the classification limited status. See the Academic Policies section for policies governing limited status enrollment. Limited status enrollment is not to be construed as admission.

**Doctoral Admission with Advanced Standing**
Students can be admitted with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution) to all programs in which the PhD degree is conferred by the Graduate School at USC with approval from the Vice Provost for Graduate Programs. See the Transfer of Course Work section under Graduate and Professional Education for more information.

**Advancement to Candidacy**
Admission to graduate study does not imply advancement to candidacy for an advanced degree and gives no right or claim to be so admitted. Candidacy is determined after the student has demonstrated the ability to do graduate work with originality, excellence and independence at USC.

**General Requirements for Graduate Degrees**
The foundation for the master's degree or for the PhD degree is a baccalaureate degree or its equivalent comparable in standard to that awarded at USC from a regionally accredited college or university. Many doctoral students, of course, will already have received a master's degree.

University policies governing unit, grade point average and time limit requirements are stated in the Academic Policies section of this catalogue. Graduate students should also consult this section for policies on transfer of credit, concurrent enrollment, continuous enrollment, leaves of absence, readmission, and waiver and substitution of course requirements.

**Unit Requirements**
The course of study for the master's degree must include at least 24 units in required and elective courses. In addition, students in a program requiring a thesis must register for four units of 594ab Master's Thesis.

A minimum of 60 units of course work beyond the baccalaureate is required for the PhD degree, including research courses and four units of 794ab Doctoral Dissertation. No more than 8 units of 794 may be received or applied toward the degree.

A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation, is required for doctoral degree students admitted with Advanced Standing. Additional course work may be required if deemed necessary by the student's faculty.

**Residence**
Residence is a period of intensive study completed at USC. For the master's degree a minimum of 20 units of course work applicable toward the degree must be completed on the University Park and/or Health Sciences Campuses and/or at one of the university's approved off-campus study centers. For the PhD degree a minimum of 24 units applicable toward the degree, exclusive of 794 Doctoral Dissertation, must be completed on the University Park and/or Health Sciences Campuses. Internships, fieldwork and other off-campus experiences do not count toward residency.

It is not intended that the PhD degree be conferred as a certificate of residence, however faithful or extended, or as a certificate of the satisfaction of unit requirements, which are to be regarded as largely preliminary. It has been found that the scholastic requirements for the degree cannot be completed in less than the equivalent of three full years of work devoted wholly to graduate study and research with appropriate facilities and under university supervision.

**Exception to Graduate School Policy**
Exceptions to certain policies and procedures governing Graduate School degree programs will be considered by the Vice Provost for Graduate Programs upon the submission of a specific request supported by adequate reasons, information and documentation, if needed. The signatures and recommendation of the faculty adviser or committee chair, the department chair or program director, and, in some cases, the dean of the degree program, are required. Requests must be initiated and submitted on behalf of the student by the department's or program's staff adviser. After training on the Graduate School's online request system, advisers may access the necessary forms through the Graduate School's Website.

**General Requirements for Progressive Degree Programs**
A progressive degree program enables a USC undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The degree may be in the same or different department or program but should be in a similar field of study. See the Graduate and Professional Education section for detailed information.

**Departmental Requirements**
The requirements and regulations set forth in this portion of the catalogue are to be construed only as minimal requirements established by the Graduate School. In addition, the student is obligated to meet all the requirements established by the individual department or program as described in the departmental sections.

**Advisement and Program of Study**
Academic advisement of entering graduate students will be provided by a designated faculty member in the student's
home department or program. Ideally, during the first semester of graduate enrollment a formal program of study should be developed and agreed upon in writing. This academic plan should include: (1) the sequence of required and elective courses, with a diversity of faculty instruction and a reasonable balance between course work and directed research appropriate for the degree; (2) evaluation of available transfer credit for application toward the degree; and (3) the schedule and procedures for departmental or program evaluation of the student. The program of study should be on file in the student's department or program and may be modified in keeping with the student's progress toward the degree objective. This should become the responsibility of the student's qualifying exam committee when it has been established.

**Foreign Language/Research Tool Requirements**

Although the Graduate School does not require a foreign language examination, some departments and programs do have specific language requirements for their graduate programs.

The foreign language requirement is determined by the individual departments, programs or schools, subject to approval by the University Committee on Curriculum. For the PhD student, these requirements should be met well in advance of the qualifying examination. When proficiency in a foreign language or a research tool is required, the evidence attesting to proficiency may not be more than five years old. This regulation applies regardless of the form of the evidence. For specific information, see Foreign Language/Research Tool Requirement under the appropriate department and program sections of this catalogue.

**Academic Warning and Dismissal**

Faculty advisers and departments and programs take factors other than satisfactory grades and adequate GPAs into consideration in determining a student's qualifications for an advanced degree. A student's overall academic performance, specific skills and aptitudes, and faculty evaluations will be considered in departmental or program decisions regarding a student's continuation in a master's or doctoral degree program.

Satisfactory progress toward an advanced degree as determined by the faculty is required at all times. Students who fail to make satisfactory progress will be so informed by their department chair, program director, committee chair or school dean. The faculty has the right to recommend at any time after written warning that a student be dismissed from a graduate program for academic reasons or that a student be denied readmission.

**Theses and Dissertations**

**Submission of Theses and Dissertations**

Required documentation is electronically submitted to the Graduate School by the deadline date and time. It is then reviewed by the thesis coordinator. When the documentation is determined to be complete, the candidate is cleared to electronically submit the dissertation manuscript.

Required documentation for doctoral students includes the electronic Approval to Submit Defended and Final Copy of Doctoral Work form, the most recent Appointment or Change of Qualifying Exam or Dissertation Committee form, and for PhD students only, the electronic receipt confirming completion of the Survey of Earned Doctorates. For master's students, required documentation includes the Approval to Submit Final Copy of Master's Thesis form and the most recent Appointment or Change of Master's Committee form.

The appointment or Change of Qualifying Exam or Dissertation Committee form, the electronic receipt confirming completion of the Survey of Earned Doctorates are submitted as PDFs. The Approval to Submit Defended and Final Copy of Doctoral Work form is electronically available through Thesis Center, the Graduate School's online thesis and dissertation processing system.

Manuscripts are reviewed and required documentation is processed in the order received. Students have three months from the date the committee chair signs the Approval to Submit form to complete the necessary corrections to the formatting of the manuscript.

**Early Submission Option:** Students who submit the necessary documentation a week or more before the add/drop deadline and who also upload the manuscript to the Graduate School by the add/drop deadline in a given term are exempted from the requirement to register in 594 or 794 in that semester. Otherwise, students register for 594 or the equivalent in order to maintain continuous enrollment. International students considering the Early Submission Option should check with the Office of International Services to be sure the lack of course registration will not affect their visa status.

**Acceptance by the University**

The university must accept all theses and dissertations in an approved, final, and electronic form before the degree can be conferred. The student's committee must have approved all documents before submission to the Graduate School. The student remains in contact with the Graduate School during the corrections process.

At the time of submission, all manuscripts should be formatted and edited according to the style determined by the student's department or program. The thesis coordinator does not function as a proofreader or copy editor.

If the formatting of the manuscript requires corrections, the student makes the corrections and uploads a new PDF of the manuscript in the time allotted by the thesis coordinator. A manuscript that has been electronically submitted for further review is also processed in the order in which it is received. After a manuscript has been approved by the thesis coordinator, the student uploads an identical copy of the final PDF of the manuscript to the USC Libraries.

**Schedule of Deadlines**

The Graduate School provides a schedule of specific dates for completing the thesis or dissertation submission for the student to qualify for graduation in the corresponding semester. These dates are published on the Graduate School's Website. Regardless of the date of submission, students must submit complete documentation and finish all corrections to the manuscript before the degree can be conferred. Upon completion of all requirements, the official USC transcript will serve as evidence of the degree until the diploma is received.

**Publication**

All theses and dissertations will be made available via the USC Libraries.
**Thesis/Dissertation Fees**
The doctoral candidate's fee of $115 covers USC Libraries and Graduate School processing fees. The master's candidate's fee of $105 covers USC Libraries and Graduate School processing fees. The fees are assessed by the thesis coordinator after the required documentation has been submitted, and the charges appear on the student's account.

**General Requirements for the Master's Degree**

**Course Requirements**
The Graduate School confers the master's degree upon the satisfactory completion of a carefully planned curriculum. A comprehensive examination or summative experience may replace a thesis in certain departments and programs. A student must enroll in GRSC 810 during the semester in which the comprehensive examination is to be taken if not otherwise enrolled. Consult the appropriate departmental section of this catalogue for specific course requirements. For those master's degrees not conferred by the Graduate School, the degree-conferring school determines if a thesis, comprehensive exam or other summative experience is required. When the summative experience is not a thesis or comprehensive examination, the nature of the summative experience needs to be explicitly defined including the method by which the student's performance will be assessed and how the results of that assessment will be recorded. The summative experience requirement will often be satisfied by passing a course designed specifically for this purpose.

See Transfer of Course Work for the maximum number of units of transferred course work that may be applied toward a master's degree. Except in formally designated dual degree programs, this same policy regulates the number of credits that may be applied toward a master's degree from an advanced degree previously completed at USC.

**Master's Committee**
The student's master's committee directs the student's program of study and thesis and/or comprehensive examination. The master's committee consists of at least three and no more than five members. The committee chair and at least one additional member must have an appointment in the student's program. At least one member of the committee must be tenured or tenure-track, or a research professor at the associate or full professor level. Faculty eligible to serve as committee chairs and members include tenured and tenure-track faculty, and non-tenure-track faculty (including research faculty) of outstanding stature who have a documented record of exceptional expertise and superior achievement in a field relevant to the exam and have been approved by the dean of the school.

**Application for the Master's Degree**
At least one semester preceding the one in which the student expects to receive the degree and prior to registration in 594a Master's Thesis, the student should ask the academic department or program to request an online degree check from Degree Progress. Application is made online by the academic department or program and then transmitted to the Degree Progress Department following approval of the program of studies by the student's home department. Degree Progress will prepare a Degree Audit Report (STARS Report) reflecting course work and requirements completed and those remaining to be met. A copy of the Credit Summary is sent to the student and the home department or program.

**Master's Examinations**
A student who fails the master's examination may be permitted, at the discretion of the faculty, to take it a second time. The retaking of a failed master's examination must be completed before the end of the second consecutive semester (excluding summer session) following the first examination. Requests for exception must be approved by the department chair or program director. A student may not take the master's examination more than twice and must be appropriately enrolled at USC during the semester in which such an examination is taken or retaken. A student who fails the master's examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.

**Master's Thesis**
The thesis is supervised throughout its preparation by the student's master's committee. It is desirable for the student to have a conference with each committee member promptly following the approval of the topic. Thereafter, thesis work is normally under the immediate supervision of the committee chair: Final acceptance is based upon the unanimous recommendation of all members of the committee.

A student who is required to write a thesis must submit a satisfactory outline and comprehensive bibliography for the proposed thesis and demonstrate a mastery of the subject satisfactory to the master's committee. The student's thesis or master's committee is responsible for the content and bibliographical consistency of the thesis. During the five-year time limit allowed for completion of the degree and following the completion of all course work, the student must enroll in 594 Master's Thesis for two consecutive semesters and for each semester thereafter, until the thesis has been approved and the approval of the master's thesis form has been signed by the student's master's committee. Registration for the thesis in two semesters is the minimum requirement entitling the student to thesis supervision by the master's committee. No more than four units of credit in 594 may be received regardless of the number of semesters the student may be required to be enrolled. Students may not register for more than two units of 594 during a given semester; individual exceptions require the approval of the dean of the degree program.

Students who find it necessary to be excused from registration in 594 for a semester must request a leave of absence by petition to the dean of the degree program prior to the beginning of the semester. See Leave of Absence. Approval of the committee chair, department chair or program director, and dean of the degree program are required. During a leave of absence students will not be entitled to assistance from the master's committee or to the use of university facilities. Considerations for approving a leave of absence include the student's progress to date in meeting the time schedules for the completion of degree requirements.

**Final Approval of the Thesis**
If a thesis defense is required: After the thesis defense has been completed and after the committee determines that no
further changes are required of the thesis manuscript, each committee member electronically certifies on the Approval to Submit Defended and Final Copy of Doctoral Dissertation form that: (1) the defense was appropriately rigorous; (2) the student's thesis is original and represents advanced scholarly work in keeping with the standards of the given field; and (3) the thesis defense process was fair and in keeping with USC's academic and ethical standards. No changes can be made to the manuscript's content after the Approval to Submit form is complete. The Approval to Submit form is electronically available through Thesis Center, the Graduate School's online thesis and dissertation processing system.

Master's Thesis Submission
Please refer to the Theses and Dissertations section for information on the submission process.

General Requirements for the Doctor of Philosophy Degree
Qualified students will be received as applicants for candidacy for the Doctor of Philosophy degree with a major in departments and programs which are adequately equipped with staff, library and laboratory facilities to furnish the necessary training and opportunities for original research.

Screening Procedures
A screening examination or other procedure designated by the department or program is to be administered before the student has taken more than 24 units (including research courses). Passing this procedure is prerequisite to continuation in the doctoral program. Students who fail the screening procedure will be advised that they are not recommended to continue in the PhD program and that any additional work may not be counted toward the degree. Failure to undertake the screening procedure before completion of 24 units of course work may jeopardize additional units. Ideally, a faculty member will be appointed to serve as the student's administrative adviser until the student establishes an approved qualifying exam committee.

Course Requirements
The subject or field of concentration is called a major. The major is usually a departmental major, although several interdepartmental majors have been authorized. Undergraduate prerequisite and graduate course work will be required in accordance with the regulations of the major department or program and the recommendation of the student's qualifying exam committee. Consult the appropriate departmental section of this catalogue for specific course requirements.

Appointment of the Qualifying Exam Committee
The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have an appointment in the student's program. The committee chair and at least two additional members must be affiliated with the student's program. Faculty eligible to serve as committee chairs and members include tenured and tenure-track faculty, and non-tenure-track faculty of outstanding stature who have a documented record of exceptional expertise and superior achievement in a field relevant to the exam and have been approved by the dean of the school. At least three members of the committee must be tenured or tenure track. Visiting faculty may not serve on qualifying exam committees. The Vice Provost for Graduate Programs is an ex officio member of all qualifying exam committees.

Individual schools and programs may require the inclusion on the qualifying exam committee of a member from outside the student's program. If an outside member is required, it must be specified in the departments', programs' or schools' sections in the Catalogue.

Changes in Qualifying Exam Committees
The Appointment or Change of Qualifying Exam or Dissertation Committee form, available on the Graduate School Website, must be submitted whenever a change is made in a qualifying exam committee. All such changes must be made in advance. Changes in a qualifying exam committee are not permitted between the written and oral portions of the examination. The examinations must be scheduled at times when it is possible for all members of the committee, including the outside member, to participate. Changes made without the prior approval of the dean of the degree program are not recognized and may result in the invalidation of the examination.

A student may not change committee members after failing the qualifying examination the first time. The student must be reexamined by the same faculty on the same subject matter. If a faculty member is unable to serve on the committee (for example, due to serious illness, retirement, or transfer to another institution), the dean of the degree program must be notified in writing in advance of the rescheduled exam in order to approve the change. The faculty replacement must be approved by the dean of the degree program and the student must file a change of committee form well in advance of the exam.

Qualifying Examination
The examination qualifying a student for candidacy for the PhD degree is designed to test the student's fitness to undertake independent research. It is comprehensive in nature and includes both written and oral parts. Prior to taking the qualifying examination, the student must have met all of the university's and program's requirements for the PhD degree, except the dissertation and successful qualifying exam. The student must have a GPA of at least 3.0 on all USC course work available for graduate credit and the approval of his or her qualifying exam committee to proceed to the exam. Students with a master's degree in the same or
similar field may be approved to take the qualifying examination after the completion of 12 units and successful passage through the screening process. The GPA and qualifying exam committee approval requirements are the same as for students without a prior master's degree in the field of study. If not otherwise enrolled, a student must enroll in GRSC 800 during the semester in which the qualifying examination is to be taken. Students are allowed to enroll in GRSC 800 a maximum of three times before approval from the university is needed. The oral portion of the examination must be completed within 60 days of the submission of the completed written portion to the qualifying exam committee. If the student's written examination is satisfactory, the student may proceed to the oral portion of the exam. If additional material is to be covered in the oral portion, the student should be notified of the content expectations in advance. The oral examination is also administered on campus. Remote participation of a committee member requires approval from the Vice Provost for Graduate Programs in advance of the exam date. If the oral exam is delayed beyond the 60-day limit, the student will need to retake the written exam unless an exception is approved by the Vice Provost for Graduate Programs.

There are three possible results of a qualifying exam:

- **Pass**, and proceed to candidacy based on a positive vote by members of the committee.
- **Fail**, with the option to retake either specific sections of the exam or the whole exam, at the discretion of the committee. The student may not be required to repeat parts of the qualifying examination that were passed on the first administration. The retaking of a failed qualifying examination or any portion of a qualifying examination must take place between one and six months from the date of the first examination. If not otherwise enrolled, the student must be enrolled in GRSC 800 in the term in which any portion of the exam is repeated.
- **Fail**, with the result of dismissal from the program.

If the committee concludes that the written portion of the exam is so weak that the oral portion cannot counterbalance the poor performance, the student does not proceed to the oral and the exam is failed. The committee may provide the option of a retake, but is not required to do so. If the committee decides that a retake is not warranted, the student is dismissed from the program.

A student who fails the qualifying exam a second time is automatically dismissed from the program.

**Report on the PhD Qualifying Exam**

At the conclusion of the qualifying exam, each member of the committee is asked to certify on the Report on the PhD Qualifying Examination that: (1) the exam was appropriately rigorous; (2) the student's performance on the exam was at the doctoral level; and (3) the entire qualifying examination process was fair and in keeping with USC's academic and ethical standards. The Report on the PhD Qualifying Examination is available to graduate advisers on the Graduate School Website.

**Advancement to Candidacy**

Graduate students are officially advanced to candidacy for the PhD degree when they have completed the residency requirement and passed the written and oral portions of the PhD qualifying examination upon the favorable recommendation of the qualifying exam committee to the Graduate School. All PhD candidates are required to engage in original research.

**Application for the PhD**

After being advanced to candidacy, students must contact their academic department or program to initiate an online degree check that is transmitted to the Degree Progress Department. Degree Progress counselors prepare a Degree Audit Report (STARS Report) for each student listing any remaining requirements. The requirements will not be checked or the degree conferred if the student has not applied.

**Dissertation Committee**

The dissertation committee is appointed as soon as possible after the examination has been passed and a dissertation topic approved. The committee should be appointed at least one month before the dissertation defense. The Appointment or Change of Qualifying Exam or Dissertation Committee form, available on the Graduate School Website, is used to establish the dissertation committee. The form requires the signatures of each member of the committee, the department chair or program director, and dean or dean's designate. The completed form is filed in the student's home department or program.

The dissertation committee is composed of at least three and no more than five members. The committee chair and at least one additional member must have an appointment in the student's program. Two committee members must be from the home program, at least one of whom must be tenured. Faculty eligible to serve as committee chairs and members include tenured and tenure track faculty, and non-tenure track faculty of outstanding stature who have a documented record of exceptional expertise and superior achievement in a field relevant to the dissertation and have been approved by the dean of the school. At least two members of the committee must be tenured or tenure track. Visiting faculty may not serve on dissertation committees. The Vice Provost for Graduate Programs is an ex officio member of all dissertation committees. Individual schools and programs may require the inclusion on the dissertation committee of a member from outside the student's program. If an outside member is required, it must be specified in the departments’ or programs' and schools’ sections in the Catalogue.

**Final Approval of the Dissertation**

After the dissertation defense has been completed and after the committee determines that no further changes are required of the dissertation manuscript, each member electronically certifies on the Approval to Submit Defended and Final Copy of Doctoral Dissertation that: (1) the defense was appropriately rigorous; (2) the student's dissertation makes an original and substantial contribution to its field of study; and (3) the defense process was fair and in keeping with USC's academic and ethical standards. No changes can be made to the manuscript's content after the Approval to Submit form is complete. The Approval to Submit form is
assistance from the dissertation committee or to the use of university facilities. Considerations for approving a leave of absence include the student's progress to date in meeting the time schedules for the completion of degree requirements.

**Defense of the Dissertation**

After passing all required courses and the qualifying examination, and after meeting all other requirements, the candidate must write and defend the dissertation. The doctoral dissertation must be an original contribution to scholarship or scientific knowledge and must exemplify the high degree of scholarly advancement and power of investigation demanded by the university for final recommendation to the doctorate. The dissertation defense is the culminating activity in the assessment of whether this standard has been met. While the oral examination is open to the general university community, only the members of the dissertation committee have the authority to recommend acceptance of the dissertation. During the oral defense, all members of the dissertation committee must be present and must give a judgment on the student's defense. The recommendation must be unanimous. If the defense is satisfactory, the committee then signs the electronic Approval to Submit Defended and Final Copy of Dissertation form. If additional work is required, the electronic form must be signed only on full completion. Departments and programs differ concerning the time of the defense of the dissertation. The student's dissertation committee is responsible for the content and bibliographical consistency of the dissertation.

**Dissertation Submission**

Refer to the Theses and Dissertations section for more information on the submission process.

**Diploma in Innovation**

The USC Diploma in Innovation is a signature six-month program designed to enable current USC STEM PhD students to collaborate in translating their academic interests into innovative projects with tangible benefits to society. This selective program is offered free of charge to current USC STEM PhD students in good standing, whose proposals are accepted by a faculty committee.

All USC STEM PhD students admitted to the Diploma in Innovation program will be required to register in GRSC 791 Directed Research in Academic Innovation. In addition to satisfactory completion of this course, students will present their final projects to a faculty committee, which will determine whether the students receive the Diploma in Innovation. For more information, email idiploma@usc.edu.

Academic Program
Neuroscience – Graduate Program
usc.edu/programs/neuroscience

Director: Pat Levitt, PhD

Application deadline: December 15
Breadth of interests and training are major features of the graduate program in neuroscience. Wide and varied skills in many research areas characterize the faculty of the program. Close contact between faculty and students is considered of major importance in this highly interdisciplinary field. Training is given in several areas of specialization: behavioral and systems neuroscience, cellular and molecular neurobiology, cognitive neuroscience, computational neuroscience, neuroengineering and neuroscience of aging and development.

Admission Requirements
A baccalaureate degree in a field relevant to the student's graduate goals is required. Appropriate fields would include neuroscience, biology, chemistry, computer science, linguistics, psychology and many areas of engineering. Undergraduate study should provide evidence of proficiency in mathematics, including statistics. Students planning to enter the specialization in computational and mathematical neuroscience should have taken course work in calculus and, where possible, linear algebra and computer programming. Applicants who are accepted with minor deficiencies are expected to correct these during the first year.

Master's Degree
Neuroscience (MS)
Coordinator: Pat Levitt, PhD

The MS degree program in Neuroscience is a terminal degree for students admitted into the Neuroscience PhD program who cannot complete the PhD program for personal or medical reasons. Enrollment of graduate students as master's degree candidates is not encouraged and is reserved for special circumstances that must be approved by the Executive Committee of the Neuroscience Graduate Program. The master's curriculum includes all course work required of PhD students for a minimum of 24 units and successful completion of both the written and oral portions of the qualifying examination. Students may opt for a thesis or non-thesis master's degree. The thesis master's degree requires presentation of a written thesis based on original research to a Neuroscience thesis committee and submission of the thesis to the Graduate School for publication. The nonthesis master's degree requires a formal research paper that is approved by three members of the Neuroscience Graduate Program faculty. The qualifying examination will serve as the comprehensive master's examination for nonthesis master's degrees. Students must also satisfy residency and other requirements of the Graduate School.

Doctoral Degree
Neuroscience (PhD)
Coordinator: Pat Levitt, PhD

Application deadline: December 15
Breadth of interests and training are major features of the graduate program in neuroscience. Wide and varied skills in many research areas characterize the faculty of the program. Close contact between faculty and students is considered of major importance in this highly interdisciplinary field. Training is given in several areas of specialization: behavioral and systems neuroscience, cellular and molecular neurobiology, cognitive neuroscience, computational neuroscience, neuroengineering and neuroscience of aging and development.

Admission Requirements
A baccalaureate degree in a field relevant to the student's graduate goals is required. Appropriate fields would include neuroscience, biology, chemistry, computer science, linguistics, psychology and many areas of engineering. Undergraduate study should provide evidence of proficiency in mathematics, including statistics. Students planning to enter the specialization in computational and mathematical neuroscience should have taken course work in calculus and, where possible, linear algebra and computer programming. Applicants who are accepted with minor deficiencies are expected to correct these during the first year.

Degree Requirements
These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Advisory Committee
The student will be advised during the first year by the Graduate Advisement Committee. As soon as the student has selected a specialization, an Advisory Committee of appropriate faculty will be appointed. This committee will be chaired by the thesis adviser, when chosen. The purpose of the Advisory Committee is to help the student in the selection of courses and research; to monitor the student's progress; to insure preparation for the qualifying examination; and to administer that examination.

Course Requirements
A minimum of 60 units is required, consisting of formal courses, seminars and research credits. At least 24 of the 60 units are to be formal graduate course work (lecture or seminar courses). During the first year the student is expected to complete the core courses in neuroscience (NSCI 524 and NSCI 525), one key course, INTD 500 Responsible Conduct of Research, and two semesters of NSCI 539. Other courses
in the area of specialization may also be taken in the first year and will be taken in subsequent years.

**Core Courses:** NSCI 524 and NSCI 525 Advanced Overview of Neuroscience (8 units), will be taken by all students in the fall and spring of their first year to provide an integrated multilevel view of neuroscience. To take the core course, students should have mastered the material currently taught in BISC 421. (Students will be expected to review a detailed syllabus and reading list for BISC 421 to identify their level of knowledge prior to their arrival at USC and will receive advice at Orientation on whether to take BISC 421 or read recommended material to remedy their deficiencies.)

**Key Courses:** All students will be required to complement their thesis-directed studies with a “breadth with depth” requirement by taking two key courses, one each from two different tracks listed below. Each key course will be for 3 or 4 units. (At least one of these courses will serve to advance thesis-related study as well.)

- **CELLULAR, MOLECULAR AND DEVELOPMENTAL NEUROSCIENCE TRACK**
- **COGNITIVE NEUROSCIENCE TRACK**
- **COMPUTATIONAL NEUROSCIENCE TRACK**

---

**Office of the Provost**

**International Student Programs**

**English Language Requirements**

Academic success at USC is strongly dependent upon the ability to communicate in English. Listening, speaking, reading and writing proficiency must be well developed in order to assimilate large amounts of difficult material under limited time conditions with full comprehension. Such proficiency is much greater than that required for ordinary everyday living. Therefore, every effort should be made to acquire English proficiency prior to entering the university. Admitted international students whose first language is not English are normally required to take the International Student English Examination (ISE Exam) at the beginning of the first term of study. The examination results determine whether students must take additional English for academic purposes course work.

International students who meet one of the following conditions may be exempt from taking the ISE Exam:

- International students who have completed their entire bachelor's degree at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the official language of the country.
- Applicants to master's programs who have attained an Internet Based TOEFL (iBT) score of 90, with no less than 20 on each sub-score; or an IELTS score of 6.5, with no less than 6 on each band score.
- PhD and undergraduate applicants who have achieved an Internet Based TOEFL (iBT) score of 100 with no less than 20 on each sub-score; or an IELTS score of 7, with no less than 6 on each band score.

---

**American Language Institute**

Any student not demonstrating adequate English proficiency will be required to enroll in courses at the American Language Institute (ALI) at USC. The ALI provides courses designed to improve an international student's oral and written communication skills in English. The extent to which a student may be required to take courses at the ALI is determined by his or her performance on the International Student English Examination (ISE Exam) or, in the case of potential teaching assistants, the ITA Exam.

ALI tuition units are charged at the regular university rate. Entering students who need English language classes should be aware that the ALI course requirements will likely increase the overall cost of their degree program. ALI classes can normally be taken concurrently with a student's other university classes and must be completed at the earliest opportunity.

**Teaching Assistantships**

All new teaching assistants (TAs) for whom English is a second language must demonstrate their competence in spoken English before assuming classroom or laboratory duties. Normally, new international teaching assistants (ITAs) demonstrate their English proficiency by taking the ITA Exam, administered by the American Language Institute (ALI) located on the USC University Park Campus. The exam must be taken before assuming classroom or laboratory duties and no later than the first day of classes. The ITA exam is graded on a scale of 1 to 7. Those who achieve a score of 6 or higher are cleared for classroom duties and have no English oral skills requirement. Those who score 5 or 5.5 are cleared for classroom duties, but are required to enroll in an English language course through the ALI while performing their ITA responsibilities. Those who score below 5 on the exam are not cleared for classroom duties. These students are normally required to enroll in an
English language course offered by ALI until adequate English proficiency is obtained. For more information, call (213) 740-0079 or visit ALI's Website at ali.usc.edu. Those ITAs denied clearance for teaching duties may have their offer of graduate assistantship withdrawn or alternative responsibilities assigned. An ITA who is denied clearance to teach should immediately seek assistance from the chair of his or her home department or program director.

American Language Institute

usc.edu/ali

Director: James Valentine, PhD
Assistant Professors (Teaching): Lucienne Aarsen, MA; Reka Clausen, MA; Zsuzsu Londe, PhD; James Polk, PhD
Master Lecturers: Barry Griner, MA; Eric H. Roth, MA; Anastasia Tzoytsoynakos, MA
Senior Lecturers: Kimberley Briesch-Sumner, MA; Victoria Byczkiewicz, MA; Nina Kang, EdD, MLS; Juli Ann Kirkpatrick, MA; Mary Ann Murphy, MA
Lecturers: Tracy Levin, Ph.D.; Olivia Martinez, MA

Purpose of the Program
The American Language Institute provides instruction in English as a Second Language for international students who need or desire to improve their English language skills in order to participate successfully in their degree programs. Before beginning studies with ALI, all students must be admitted to the university in a degree program. The institute also provides student advisement.

Placement in the Program
Most international students entering USC must take the International Student English Examination (ISE Exam). The examination is offered immediately prior to the beginning of classes each semester. The purpose of this examination is to evaluate the level of a student's proficiency in English and to determine how well prepared the student is to undertake his or her degree studies in English. On the basis of the scores achieved, students are placed at the appropriate levels of instruction or are exempted from having to receive English language instruction.

Elective Credit
Undergraduates may earn up to 12 units of credit toward their degree for ALI courses numbered 100 or above. Some departmental restrictions may apply.

Limitation on Enrollment
International students placed into ALI classes must commence their ALI course work in their first semester at USC and must register in ALI courses each fall and spring semester until their ALI requirements are satisfied. Students must successfully complete their ALI required courses within four semesters in order to remain academically eligible to pursue a degree program. Students who receive a final grade of "No Credit" more than once in any of their ALI required classes will not be allowed to continue to complete their ALI requirement.

Students not meeting the ALI requirement will not be allowed to continue at USC. The Committee on Academic Policies and Procedures will consider appeals if submitted within 10 working days of being dropped from ALI. Contact the Academic Review Department at acadrev@usc.edu for details.

USC International Academy
The USC International Academy offers four avenues of study to prepare international students for admission to USC and other U.S. universities through intensive English instruction, test preparation, and maximum academic support. Qualified students may also apply for conditional admission to select USC master's programs through the academy's Pre-Master's Program. For further information about admissions, courses and program dates, visit the USC International Academy's Website at international.usc.edu or email info-international@usc.edu.
USC Iovine and Young Academy

With a visionary gift from entrepreneurs Jimmy Iovine and Andre Young, the University of Southern California has established a new academy to teach critical thinking and nurture unbridled creativity at the intersection of three essential areas: art and design; engineering and computer science; and business and venture management. Conceived as a collaborative environment that brings students, instructors and professional mentors together, the USC Jimmy Iovine and Andre Young Academy for Arts, Technology and the Business of Innovation is a transformational presence on one of the nation's most dynamic university campuses.

The focus of the program's course of study is on creativity and critical thinking. It draws on the talents and influence of faculty and leaders from multiple disciplines and industries to empower the next generation of disruptors and professional thought leaders who will ply their skills in a global arena.

USC's strategic location in Los Angeles, widely viewed as the creative and media capital of the world, provides an unrivaled opportunity for students to take advantage of a living laboratory where music, film and the visual arts are deeply intertwined. In addition, the university's proximity to the city's burgeoning "Silicon Valley" as well as Northern California's Silicon Valley provides access to the world's premiere technology companies from which students can learn and draw inspiration.

The Academy enrolled its inaugural class of students in fall 2014. Students who complete a course of study in the Academy will graduate with a Bachelor of Science in Arts, Technology and the Business of Innovation. Crafted via a unique and groundbreaking integration of its core disciplines, this degree recognizes each individual's ability to truly engage and to succeed in an educational experience that is constantly asking the question, "What if...?"

Academy majors fine-tune their ideas and complete working models or prototypes in the Garage, the Academy's collaborative creation space. Located on the top floor of USC's Steven and Kathryn Sample Hall, adjacent to the new Ronald Tutor Campus Center, the Garage contains state-of-the-art learning and networking spaces, maker and fabrication studios with 3D scanning and printing capabilities, high-powered computer work stations, and spaces for individual and group work, or even down time. Students working in the Garage will be grouped into self-directed teams and guided by faculty and industry mentors including artists, designers, technology visionaries, business and public policy leaders, philanthropists, global entrepreneurs and more.

Faculty
Professor of Design Practice: Susan Metros, MFA (Roski School of Art and Design)
Associate Professor of the Practice: Michael Crowley, PhD (Viterbi School of Engineering)
Associate Professor of Clinical Entrepreneurship: Elissa Grossman, PhD (Marshall School of Business)
Associate Professor of the Practice of Fine Arts: Haven Lin-Kirk, MFA (Roski School of Art and Design)
Associate Professor: Douglas Thomas, PhD (Annenberg School for Communication and Journalism)
Senior Lecturer: Patrick Dent, MS (Viterbi School of Engineering)
Advisory Faculty, Entrepreneur in Residence: Andrea Belz, PhD (Viterbi School of Engineering, Iovine and Young Academy)
Lecturer: Jeffrey Cain, MFA (Roski School of Art and Design)
Lecturer: Steve Child, MFA (Roski School of Art and Design)
Lecturer: Robert Parke, MS (Viterbi School of Engineering)
Lecturer: Osvaldo Trujillo, MFA (Roski School of Art and Design)
Adjunct Faculty: Andrew Byrom, BFA (Roski School of Art and Design)

General Information
Degree Offered
The Jimmy Iovine and Andre Young Academy offers a Bachelor of Science in Arts, Technology and the Business of Innovation.

Minimum Grade Requirement
Iovine and Young Academy majors must receive a minimum final grade of B- (2.7) in all required courses offered by the Iovine and Young Academy. Failure to meet this requirement will result in the following:

For final grades of C+, C or C- in a required Academy course, the student must enroll in an approved 1-unit Academy Independent Study designed to ensure the student has obtained sufficient skill and knowledge in the subject area. The student must enroll in the Independent Study in the semester immediately following the term in which the insufficient grade was received (excluding summer session), and must receive a minimum final grade of B- in the Independent Study. Failure to receive a minimum final grade of B- in the Independent Study will result in a determination of unsatisfactory academic progress, and ineligibility to continue in the major. Substitutions for the Independent Study may occur at the discretion of the director, based on an evaluation of the academic needs of the student, and/or course or instructor availability.
Entrance Requirements for Current USC Students
The Academy will consider entrance into the major for current USC students. While completed USC course work will be taken into account, there is no guarantee it will be credited toward Academy requirements. For example, a sophomore may not be able to transfer to the Academy with sophomore standing. Credit and standing will be considered on a case-by-case basis. Admission to the Academy is limited to fall semester only. The application deadline for fall 2017 is January 1, 2017. Specific requirements and additional information are available at http://iovine-young.usc.edu.

Advisement
Academic advisement is provided to majors through the Student Affairs Office in HSH 101. The staff adviser provides information regarding academic life at the university, program requirements, policies and procedures to assist students with their degree completion. Majors are required to meet with the adviser before registering each semester. Appointments may be scheduled at most times during the academic year.

Waiver of Course Requirements
Under special circumstances course waivers and substitutions may be granted. All course waivers and course substitutions must be approved by the executive director of the Academy or her designee.

Tuition and Fees
Undergraduate programs are assessed the university-wide tuition rate. In addition, some Academy classes are charged technology fees, as noted in the Schedule of Classes. The university reserves the right to assess new fees or charges. The rates listed are subject to change without notice by action of the Board of Trustees.

Bachelor's Degree
Arts, Technology and the Business of Innovation (BS)
The degree requires a total of 128 units, including 56 units in the Core and 32 units in Emphases. Students must select emphasis courses from the Academy's current offerings in Visual Design, Technology, Venture Management, Audio Design and Communication, or from future emphases as they become available. In consultation with their academic adviser, students may petition to create unique emphases by selecting courses from across all of the Academy's offerings, or from academic units or disciplines outside of the Academy (subject to approval by the dean). In addition to required courses, students may elect to register for other Academy experiences such as summer study abroad and internships, or for electives of their choosing.

Required Core Courses
Lower Division (32 units)

- ACAD 174 Innovators Forum Units: 1 (needs to be taken twice)
• ACAD 175 Innovators Roundtable Units: 1 (needs to be taken twice)
• ACAD 176 Rapid Visualization Units: 4
• ACAD 177 Digital Toolbox for Design Units: 2
• ACAD 178 Digital Toolbox: Motion Graphics Units: 2
• ACAD 179 Digital Toolbox: Excel for Business Management Units: 2
• ACAD 180 Digital Toolbox: Sound and Audio Units: 2
• ACAD 181g Disruptive Innovation Units: 4
• ACAD 182 Case Studies in Innovation Units: 4

Upper Division (24 units)
• ACAD 275x Coding I: Web Publishing and Development Units: 4
• ACAD 276 Coding II Units: 4
• ACAD 376 Discerning and Making I: Concept and Feasibility Units: 4
• ACAD 377 Discerning and Making II: Creation and Implementation Units: 4
• ACAD 475a The Garage Experience Units: 8
• ACAD 475b The Garage Experience Units: 8

Emphases (16 Units Each) Choose 2:
Visual Design Emphasis:
• ACAD 230 3D Design: Materials and Tools Units: 4
• FADN 230 3D Design: Materials and Tools Units: 4
• ACAD 303 Web Design Units: 2
• FADN 303 Web Design Units: 2
• ACAD 323 Design Theory Units: 4
• FADN 323g Design Theory Units: 4
• ACAD 330 3D Design: Objects and Space Units: 4
• FADN 330 3D Design: Objects and Space Units: 4
• ACAD 332a Typography Units: 2
• FADN 332a Typography Units: 2

Technology Emphasis:
• ACAD 342 Mobile Application Development Units: 3
• ITP 342 Mobile Application Development Units: 3
• ACAD 343 Mobile Development for Content and Media Units: 1
• ITP 343 Mobile Development for Content and Media Units: 1
• ACAD 367x Advanced Coding Units: 4
• ITP 367x Advanced Coding Units: 4
• ACAD 387x Cloud Architecture and Applications Units: 4
• ITP 387 Cloud Architecture and Applications Units: 4

Venture Management Emphasis:
• ACAD 315x Basics of Project and Operations Management for Non-Majors Units: 2
• BUAD 315x Basics of Project and Operations Management for Non-Majors Units: 2
• ACAD 331x Influence and Collaboration Units: 2
• MOR 331x Influence and Collaboration Units: 2
• ACAD 385x Marketing of Creative Disruption and Innovation Units: 4
• MKT 385x Marketing of Creative Disruption and Innovation Units: 4
• ACAD 423 Management of Small Businesses Units: 4
• BAEP 423 Management of Small Businesses Units: 4
• ACAD 467 Strategic Management of Innovation Units: 4
• MOR 467 Strategic Management of Innovation Units: 4

Audio Design Emphasis:
• ACAD 200 Advanced Sound and Audio Units: 4
• ACAD 352 Digital Audio Recording and Processing Units: 4
• ACAD 354 Synthesis and Sound Design Units: 4
• ACAD 356 Audio and Media Integration Units: 4

Communication Emphasis:
• ACAD 206 Communication and Culture Units: 4
• COMM 206 Communication and Culture Units: 4
• ACAD 375 Business and Professional Communication Units: 4
• COMM 375 Business and Professional Communication Units: 4
• ACAD 306 Innovation, Entertainment, and the Arts Units: 4
• COMM 306 Innovation, Entertainment, and the Arts Units: 4
• ACAD 366 Designing Media and Communication Projects for Social Change Units: 4
• COMM 366 Designing Media and Communication Projects for Social Change Units: 4

Notes:
*Prerequisite required.
**Corequisite required.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see the General Education Program for more information.

Sample Four Year Program

Year 1 - Fall
• ACAD 174 Innovators Forum Units: 1
• ACAD 175 Innovators Roundtable Units: 1
• ACAD 176 Rapid Visualization Units: 4
• ACAD 177 Digital Toolbox for Design Units: 2
• ACAD 178 Digital Toolbox: Motion Graphics Units: 2
• ACAD 181g Disruptive Innovation Units: 4 (General Education)
• General Education Seminar*

Total units: 18

Year 1 - Spring
• ACAD 174 Innovators Forum Units: 1 (required twice)
• ACAD 175 Innovators Roundtable Units: 1 (required twice)
• ACAD 179 Digital Toolbox: Excel for Business Management Units: 2
• ACAD 180 Digital Toolbox: Sound and Audio Units: 2
• ACAD 182 Case Studies in Innovation Units: 4
• ACAD 275x Coding I: Web Publishing and Development Units: 4
• WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

USC Leventhal School of Accounting

The USC Leventhal School of Accounting is dedicated to maintaining a leadership position in accounting education and research. We are committed to educational programs that seek to establish in each graduate the potential for career development into the highest executive levels of public accounting, controllership, financial management and management of accounting information systems. The accounting curriculum explores not only the state of the art but also seeks to explore the accounting discipline's future structures and directions. Relevant concepts and techniques from other academic disciplines are drawn upon and integrated into all accounting programs.

Total units: 18

Year 2 - Fall
• ACAD 276 Coding II Units: 4
• ACAD Emphasis I Units: 4
• General Education Units: 4*
• General Education Units: 4*

Total units: 16

Year 2 - Spring
• ACAD Emphasis I Units: 4
• ACAD Emphasis II Units: 4
• ACAD Emphasis II Units: 4
• General Education Units: 4*

Total units: 16

Year 3 - Fall
• ACAD 376 Discerning and Making I: Concept and Feasibility Units: 4
• ACAD Emphasis I Units: 4
• ACAD Emphasis II Units: 4
• General Education Units: 4*

Total units: 16

Year 3 - Spring
• ACAD 377 Discerning and Making II: Creation and Implementation Units: 4
• ACAD Emphasis I Units: 4
• ACAD Emphasis II Units: 4
• General Education Units: 4*

Total units: 16

Year 4 - Fall
• ACAD 475a The Garage Experience Units: 8
• General Education Units: 4*
• Free Elective Units: 2

Total units: 14

Year 4 - Spring
• ACAD 475b The Garage Experience Units: 8
• General Education Units: 4*
• Free Elective Units: 2

Total units: 14

Note:
*Two of the courses selected must also meet the USC Global Perspectives requirement.
Accounting education has been an integral part of USC since 1920, when the Department of Accounting offered a Bachelor of Science degree in business administration with an emphasis in accounting. The Leventhal School of Accounting was established in 1979 in recognition of the growing importance of accounting to our economy and broader society. It continues to rank as one of the premier AACSB-accredited accounting programs in the nation.

Currently the Leventhal School of Accounting undergraduate program offers a Bachelor of Science accounting degree. Honors students may be eligible for early admission to the graduate program, an efficient way to complete both undergraduate and graduate degrees. An accounting minor is also offered to students outside the USC Marshall School of Business. Graduate programs include a full-time Master of Accounting or Master of Business Taxation; a Master of Business Taxation for working professionals; and a Juris Doctor/Doctor of Business Administration in conjunction with the USC Gould School of Law. A PhD degree with an accounting major is offered through the doctoral program in the Marshall School of Business.

The USC Leventhal School of Accounting offers the Bachelor of Science, Accounting (BS) degree designed to provide students with a broad foundation in accounting and business to prepare them for entry into the professional program leading to a Master of Accounting or Master of Business Taxation degree. The undergraduate curriculum also provides the background necessary for direct entry into the accounting profession.

### Graduate Degrees

#### Master of Accounting

The Master of Accounting (MAcc) program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Students have the opportunity to study accounting in greater depth and in more areas of specialization than in undergraduate accounting programs or MBA programs with concentrations in accounting. Students have flexibility in elective choices to reflect their career goals.

Admission does not require an accounting or business undergraduate degree, nor is work experience a requirement. For students with an undergraduate degree in accounting, the program requires 30 units for completion; for students without the prerequisite accounting course work, the program requires 45–48 units. The variation in units depends on the student's educational background and completed course work. This degree is designed to be completed by full-time students.

### Master of Business Taxation

The Master of Business Taxation (MBT) degree is offered to both full-time and part-time students. This specialized program in taxation requires 30 units for students with the required accounting education. For students without the prerequisite accounting knowledge, the program requires 45-
Admission to Master's Programs

the Marshall School of Business

accounting, information systems, management accounting or

a research program that emphasizes auditing, financial

School. A student electing to major in accounting may design

Philosophy (PhD) degree in conjunction with the Graduate

Juris Doctor/Master of Business Taxation

The USC Gould School of Law and the Leventhal School of Accounting offer this dual degree program. Admission to the JD program offered by the Law School is required before applying to the MBT program offered by the Leventhal School of Accounting.

Master of Business Administration

The Master of Business Administration (MBA) is offered by the Marshall School of Business and is also serviced by the Leventhal School of Accounting. For additional information, consult the USC Marshall School of Business section in this catalogue.

Doctor of Philosophy

The Marshall School of Business offers the Doctor of Philosophy (PhD) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting or taxation. More information on the doctoral program is available in the USC Marshall School of Business section of this catalogue, or contact the doctoral office at (213) 740-0674 or the director of doctoral studies in accounting at (213) 740-4838.

Graduate Degrees

The USC Leventhal School of Accounting offers two graduate degrees: the Master of Accounting (MAcc) and the Master of Business Taxation (MBT). The MAcc program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. Students have the opportunity to study accounting in greater depth and in more areas of specialization than in undergraduate accounting programs or MBA programs with concentrations in accounting. The MBT program provides in-depth specialization in taxation to prepare the student for a successful career as a tax professional whether in public accounting, industry, government, the investment arena, or entrepreneurship.

The Leventhal School of Accounting also offers the dual Juris Doctor/Master of Business Taxation (JD/MBT) degree program in conjunction with the USC Gould School of Law. The combination of broad legal education with detailed tax specialization prepares graduates for fast-track careers in law and tax practices.

The Marshall School of Business offers the Doctor of Philosophy (PhD) degree in conjunction with the Graduate School. A student electing to major in accounting may design a research program that emphasizes auditing, financial accounting, information systems, management accounting or taxation. For more information on the doctoral program, see the Marshall School of Business section of this catalogue, or contact the doctoral office at (213) 740-0670 or the director of doctoral studies in accounting at (213) 740-5025.

Admission to Master's Programs

The Leventhal School of Accounting seeks individuals who have the potential for outstanding achievement in accounting or taxation. The Admissions Committee uses the holistic review model. Candidates are reviewed on the merits of their application and the merits of the applicant pool for the year in which they seek admission.

Applicants to the full-time programs are not required to have previous work experience. Applicants to the parttime MBT program (MBTWP) are required to have a minimum of one year full-time professional experience related to taxation after receiving an undergraduate degree.

Application to the Programs

An admission decision requires the following: (1) a completed USC Leventhal School of Accounting online graduate application (available at www.marshall.usc.edu/admissions/applyonline); (2) a non-refundable application fee; (3) one official transcript from the registrar of each college or university attended (undergraduate and/or postgraduate); (4) two letters of recommendation; (5) a professional resume; (6) an official Graduate Management Admission Test (GMAT) score report or, for JD/MBT applicants or attorneys, an official Law School Admission Test (LSAT) score report; and (7) an essay. Finalist must also complete an interview.

Applicants for the JD/MBT dual degree program should apply to the Leventhal School of Accounting for admission to the MBT program in the second semester of their first year in the USC Gould School of Law. In addition, current Law School transcripts and a "letter in good standing" from the registrar of the Law School must be submitted as part of the application. The same Leventhal School of Accounting admission criteria apply to the MBT portion of the JD/MBT program.

International Students

In addition to the application requirements noted above, all international students must submit TOEFL or IELTS scores. A letter of financial support is also required.

MAcc/MBT for Current USC Students

The Leventhal School of Accounting offers the opportunity to earn both a bachelor's degree and a master's degree in five years or less. This simplified, early admission process is for current USC students who have demonstrated exceptional academic success in undergraduate studies and who have completed a minimum of 70 units of course work. Strong SAT scores may be substituted for GMAT scores for continuing USC students only.

Please see a Leventhal School of Accounting academic adviser for further information and to develop a course plan proposal.

Application Deadlines

Full-time MAcc and MBT – Applicants are urged to file a completed application as early as possible. For applications to the full-time programs that begin in summer or fall, the online application system is generally open from early October through March 31. International students must apply no later than January 10. Applicants asking for scholarship consideration should apply by mid-January to increase the likelihood of funds being available. Application decisions will be made on a rolling admission basis until the programs
are filled. Applications that arrive after the regular deadline will be considered on a space-available basis.

**MBT for Working Professionals** – Students may begin in the MBT WP program in the fall or summer semester. The application deadline for summer applicants is March 31; for fall applicants, June 30. Applications that arrive after the regular deadline will be considered on a space-available basis.

**Residence Requirements**
Subject to approval of the Leventhal School of Accounting, the maximum number of transfer credits that may be applied toward the master's degree is three units. To be applied to the degree, transfer work must have been completed within five years of admission to the master's program. Graduate transfer credit will not be granted for course work taken elsewhere after a student has been admitted and enrolled at USC. Credit will only be allowed for courses (1) from an AACSB-accredited graduate school, (2) of a quality of at least 3.0 on a 4.0 grading scale, (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level, and (4) fitting into the logical program for the degree. Transfer course work is applied as credit (CR) toward the degree and is not included in the calculation of a minimum grade point average for graduation.

**Waivers**
With the written approval of the Leventhal School of Accounting, waiver of required courses may be granted to students based upon prior academic work. All waived courses must be replaced with approved electives. Students should carefully read their program evaluation form to know what electives must be taken if they are granted subject waivers.

**Bachelor's Degree**

**Accounting (BS)**
The USC Leventhal School of Accounting Bachelor of Science, Accounting (BS) degree is designed to provide students with a broad foundation in accounting and business to prepare them for entry into the professional program leading to a Master of Accounting or Master of Business Taxation degree. The undergraduate curriculum also provides the background necessary for direct entry into the accounting profession. The BS, Accounting degree is a 128-unit program.

**Admission**
Students may be admitted to the program as incoming freshmen, as USC undergraduates transferring from another major or as students transferring from another college or university. Admission to Leventhal is dependent on admission to the university and on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or the minor in the Marshall School of Business and/or the Leventhal School of Accounting may complete a maximum of 12 units from the Marshall School of Business and/or the Leventhal School of Accounting. No further course work may be taken unless a student is admitted.

**Leventhal/Marshall Honors**
Leventhal/Marshall Honors is available upon graduation to majors in accounting or business administration and results in a special designation of departmental honors on a student's transcript. Acceptance to the program requires completion of at least 64 units of course work (including transfer units), a GPA of 3.5 or higher in course work to be applied to the major, an application, and a successful interview with the director of the program. Achievement of Leventhal/Marshall Honors requires completion of ACCT 493 Honors Research Seminar prior to the senior year, a thesis (research project and paper) conducted under the guidance of a Leventhal or Marshall faculty member during the senior year, and minimum GPA of 3.5 in upper-division Leventhal School of Accounting and Marshall School of Business courses applied to the major. For additional information, contact the Leventhal School of Accounting Undergraduate Program Office in ACC 101, (213) 740-4838.

**Advisement**
Academic advisement is provided through the Leventhal School of Accounting Undergraduate Program Office in Accounting 101, (213) 740-4838. Students are required to meet with an academic adviser before registering and this requirement remains in effect until 24 USC units are completed. However, all students are encouraged to see an academic adviser on a regular basis. A record of each student is kept on file. Appointments for advisement may be scheduled at most times during the academic year. However, during busy times such as the preregistration, registration and drop/add periods, advisers may be available on a walk-in basis only.

**Transferring College Credit**

**College Courses**
USC has established articulation agreements with most community colleges throughout California. Most academic courses are acceptable for transfer credit from a two-year school, but students may not receive credit for specialized, technical or remedial courses.

Courses that do not appear on the articulation agreement are not transferable. A maximum of 64 semester units may be transferred. Check with the Degree Progress Department (JHH 010) for questions about transferable courses or see a counselor in Accounting 101.

Official transcripts of college work taken elsewhere must be submitted, at the time of application, to the USC Office of Admission. A credit evaluation will be completed, which will list transfer courses accepted for credit. All business courses completed at a two-year college, if transferable, will be considered elective credit.

There is one exception to this policy. Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information and complete their accounting course requirement in one semester at USC. In this case, students would not be required to take BUAD 280 or BUAD 281.

**Four Year Colleges**
Most courses are acceptable for unit credit from all fully accredited four-year institutions. If the courses do not satisfy
specific subject requirements at USC, they will be accepted for elective course credit.

Students are urged to complete all their required business administration courses at USC. All business courses from four-year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. Only core classes, with the exception of BUAD 497, may be challenged. Students should consult with an academic adviser in Bridge Hall 104 to initiate the challenge examination process.

**Grade Point Average Prerequisites for Transfer Students**

Transfer students are required to meet the following grade requirements to be admitted to the Leventhal School of Accounting. An average grade of B in the two transferred accounting courses and BUAD 305 (with no grade lower than B-). Grades in accounting courses taken at other institutions will only be considered in meeting the admission requirement for the Leventhal School of Accounting. Once a transfer student completes a minimum of two accounting courses at USC, the student's accounting grades at the prior institution will no longer be considered in determining whether the student meets the 2.7 grade point average standard (see Grade Point Average Prerequisites following).

In the computation of grade point averages for accounting courses taken at other colleges or universities, the courses will be weighted in terms of the number of units provided for the equivalent USC accounting courses.

**Grade Point Average Prerequisites**

The following are grade point average prerequisites for any undergraduate student enrolled in any accounting course. Individual instructors may not waive these standards: (1) an average grade of B or better in BUAD 280 and BUAD 281 with no grade lower than a B-; and (2) a minimum 2.7 grade point average (A = 4.0) for all accounting courses taken previously.

In meeting the B average required in BUAD 280 and BUAD 281, only one of the courses may be repeated. If the repeated course grade is higher, that grade will be considered in determining whether the student meets the B average, and the original course grade will be disregarded by the Leventhal School of Accounting in the administration of its grade point average requirements. See Repeated Course Work at USC for further restrictions on including grades in repeated courses in the overall university grade point average computation.

In computing grade point average prerequisites, BUAD 280, BUAD 281 or BUAD 305 and BUAD 302T will be considered accounting courses.

**Probation**

When a student's cumulative accounting grade point average falls below 2.7, the student is placed on probation. If a student on probation does not regain a minimum accounting cumulative GPA of 2.7 after completing the next 12 semester hours in all courses (including accounting units) attempted within the university, that student will not be permitted to continue as an accounting major in the Leventhal School of Accounting. Exceptions to this policy may be granted only in unusual circumstances by the Academic Standards Committee of the Leventhal School of Accounting. Decisions of the Academic Standards Committee are final.

To be removed from probationary status, a student may elect to take another accounting course or courses for which prerequisites are met or to repeat an accounting course or courses in an attempt to earn a higher grade. Regardless of the course of action taken, all courses completed will be counted in computing the cumulative accounting grade point average.

A grade of “W” in an accounting course taken while on probation will not extend probation. The probation period ends at the end of that semester during which the student completes a cumulative total of 12 semester hours of courses in any subject(s) at the university. Under no conditions will the student be permitted more than two successive semesters, including the summer semester, to complete the 12 semester hours of courses.

**Graduation Standard**

Students must attain a minimum 2.7 cumulative accounting grade point average (A = 4.0) to graduate with a Bachelor of Science, Accounting degree.

**USC Core Requirements**

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education for more information.

• ACCT 474 Tax Issues for Business Units: 2

Elective Courses
Choose one of the following courses:
• ACCT 416 Financial Reporting and Analysis Units: 2

Note: *If not already completed as a required course

Minor
Accounting Minor
A minor in accounting is available to students in all schools and departments except the Marshall School of Business. The minor provides the opportunity for non-business majors to gain an understanding, from the perspective of the user of accounting information, of how accounting is used in the business world. To be approved for the accounting minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum GPA of 2.75. Successful completion of the 20 units for the accounting minor requires a minimum GPA of 2.0 in the following courses:

Course Requirements
• ACCT 410x Foundations of Accounting Units: 4
• ACCT 415x Intermediate Financial Accounting for Non-Accounting Majors Units: 4
• BUAD 200x Economic Foundations for Business Units: 2 **
• BUAD 215x Foundations of Business Finance Units: 4

Choose three of the following courses:
• ACCT 416 Financial Reporting and Analysis Units: 2 **
• ACCT 417 Advanced Financial Accounting for Non-Accounting Majors Units: 2 **
• ACCT 418x Accounting for Management Decisions Units: 2
• ACCT 419x Understanding Accounting Information Systems Units: 2
• ACCT 420x Understanding Income Tax Units: 2
• ACCT 462 Detecting Fraudulent Financial Reporting Units: 2 **
• ACCT 525x Intensive Accounting Principles and Practices Units: 15
• GSBA 548 Corporate Finance Units: 2, 3

**Note:**
'Students who have taken ECON 203 or ECON 351 and ECON 205 or ECON 352 will be waived out of BUAD 200.'
"Prerequisite ACCT 415.

**Master's Degree Accounting (MAcc)**
The Master of Accounting program (MAcc) prepares graduates for careers in public accounting, industry and government. The program offers students technical and conceptual knowledge, professional development, research and lifelong learning, ethical and professional standards and globalization and diversity. For details on these student learning outcomes, see the program Website at marshall.usc.edu/macc.

The program employs a rigorous case analysis approach that requires students to exercise their analytical abilities and develop both teamwork and professional communication skills.

**Application**
An undergraduate accounting or business major is not necessary, nor is work experience a requirement. The program enrolls students in the summer or fall based on their academic backgrounds. For application information visit marshall.usc.edu/macc/admissions.

**Program Requirements**
The Master of Accounting degree requires 48 units, including fundamentals, core requirements, and electives.

The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine the courses required to complete the program.

Students admitted for summer term start with ACCT 525 Intensive Accounting Principles and Practices -- an eight-week, 40 hours-per-week course for students who have not completed undergraduate degrees or other extensive course work in accounting. This course must be completed successfully prior to beginning the core in the fall.

Students admitted for fall term generally hold a bachelor's degree in Accounting and are waived from the 15 unit ACCT 525 class reducing the number of units required to earn the degree to 33.

USC BS in Accounting students may qualify for waiver of an additional six units reducing the number of units required to earn the degree to 27. (USC BS in Accounting students should meet with a graduate adviser during their junior year to determine if they qualify.)

Any of the groups listed above who have taken an equivalent of GSBA 548 Corporate Finance may petition to waive out of the requirement, reducing the number of units required to complete the degree by 3 units.

**Degree Requirements**

**Fundamentals (18 units)**
• ACCT 525x Intensive Accounting Principles and Practices Units: 15
• GSBA 548 Corporate Finance Units: 2, 3

**Core Program (16.5 Units)**

• ACCT 528 Fair Value Accounting: GAAP, IFRS and Emerging Issues Units: 1.5
• ACCT 530L Ethics for Professional Accountants Units: 3
• ACCT 585 Professional Responsibilities in Accounting Units: 3

**At least one from the following (to be determined by previous course work)**
• ACCT 546 Auditing and Assurance Services Units: 3
• ACCT 557 Advanced Financial Statement Auditing Topics Units: 3

**At least one from the following (to be determined by previous course work)**
• ACCT 547 Enterprise Information Systems Units: 3
• ACCT 549 Advanced Enterprise Systems and Technologies Units: 3

**At least one from the following (to be determined by previous course work)**
• BUCO 504T Writing for Accounting and Tax Professionals Units: 3 or
• GSBA 523T Communication for Accounting and Tax Professionals Units: 3 or
• BUCO 503 Advanced Managerial Communication Units: 1.5, 3

**Elective Course Work (13.5 Units)**
• Select a minimum of 10.5 units of ACCT 5xx electives
• Select a maximum of 6 units of Marshall (BAEP, BUCO, DSO, FBE, GSBA, MKT, MOR) 500-level electives.

**Business Taxation (MBT)**
Understanding taxation is critical to every business decision and many personal decisions as well. Whether you are preparing for a career as a tax professional in public accounting, industry, government or the investment arena or are starting your own business, tax planning must be done. Because of the complexity of the tax law and its pervasive influence, people facing tax decisions routinely call on tax professionals for advice in planning and structuring their affairs in order to comply with the law and to ensure economic good sense.

The Master of Business Taxation (MBT) program is designed to develop the skills and expertise professionals need to assist individuals and firms trying to cope with myriad tax legislation and regulation at both the federal and local levels. The program offers students: 1) technical and conceptual knowledge; 2) professional development; 3) research and lifelong learning; 4) ethical and professional standards; and 5) globalization and diversity. For details on these student learning outcomes, see the program website at marshall.usc.edu/mbt/academics.

**Application**
An undergraduate accounting or business major is not necessary, nor is work experience a requirement. The
program enrolls students in the summer or fall based on their academic backgrounds. For application information visit marshall.usc.edu/mbt/admissions.

Program Requirements
The Master of Business Taxation degree requires 48 units, including fundamentals, core requirements, and electives.

Academic Background Review and Waivers
The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine the courses required to complete the program.

Students admitted for summer term start with ACCT 525 x Intensive Accounting Principles and Practices -- an eight-week, 40 hours-per-week course for students who have not completed undergraduate degrees or other extensive course work in accounting. This course must be completed successfully prior to beginning the core in the fall.

Students admitted for fall term generally hold a bachelor's degree in Accounting and are waived from the 15 unit ACCT 525x class reducing the number of units required to earn the degree to 33.

USC BS in Accounting students may qualify for waiver of an additional six units reducing the number of units required to earn the degree to 27. (USC BS in Accounting students should meet with a graduate adviser during their junior year to determine if they qualify.)

Any of the groups listed above who have taken an equivalent of GSBA 548 Corporate Finance may petition to waive out of the requirement, reducing the number of units required to complete the degree by 3 units.

- ACCT 584 Family Wealth Preservation Units: 3
- ACCT 586 Financial Reporting Topics and Analysis for Tax Professionals Units: 3

Business Taxation for Working Professionals (MBT)
The Master of Business Taxation — Working Professionals (MBT.WP) program is designed for students who wish to remain fully employed while pursuing their graduate studies. The program is very flexible, allowing students to complete classes either on ground at the University Park Campus or online. Entering students must have a minimum of one year of experience in tax.

The Master of Business Taxation (MBT.WP) program offers students: 1) technical and conceptual knowledge; 2) professional development; 3) research and lifelong learning; 4) ethical and professional standards; and 5) globalization and diversity. For details on these student learning outcomes, see the program Website at marshall.usc.edu/mbt/academics.

Application
An undergraduate accounting or business major is not necessary though one year of work experience in tax is required. The program enrolls students in the summer or fall. For application information visit http://www.marshall.usc.edu/mbtwp/admissions.

Program Requirements
The program requires completion of 30 units. Degree requirements consist of five core courses and five elective courses. Applicants who hold a master's degree from an AACSB accredited institution may be able to waive out of the communication requirement and complete the MBT.WP in 27 units.

Degree Requirements

Core Program (12 Units)
• ACCT 550T Tax Research and Professional Responsibilities Units: 3
• ACCT 551T Taxation of Partnerships and S-Corps Units: 3
• ACCT 560T Tax Theory and Ethics Units: 3
• ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3

At least one from the following
(to be determined by previous course work)
• GSBA 523T Communication for Accounting and Tax Professionals Units: 3 or
• BUCCO 503 Advanced Managerial Communication Units: 1.5, 3 or
• BUCCO 533 Managing Communication in Organizations Units: 1.5, 3

Elective Course Work (15 Units)
Select at least 9 units from the following list. Six additional units may be selected from this list or any 500-level elective from ACCT, BAEP, BUCCO, DSO, FBE, GSBA, MKT or MOR.

• ACCT 563T Federal Estate and Gift Taxes Units: 3
• ACCT 567T Taxation of Transactions in Property Units: 3
• ACCT 568T International Taxation Units: 3
• ACCT 569T Advanced Partnership Taxation Units: 3
• ACCT 570T State and Local Tax Concepts Units: 3
• ACCT 571T Taxation of Individuals Units: 3
• ACCT 573T Federal Tax Procedure Units: 3
• ACCT 576T Tax Consolidations Units: 3
• ACCT 578T Advanced Corporate Taxation Units: 3
• ACCT 580T Tax Accounting Methods Units: 3
• ACCT 582 Accounting for Mergers and Acquisitions Units: 3
• ACCT 583 Income Tax Accounting and Auditing Units: 3
• ACCT 584 Family Wealth Preservation Units: 3
• ACCT 586 Financial Reporting Topics and Analysis for Tax Professionals Units: 3

Dual Degree
Juris Doctor/Master of Business Taxation (JD/MBT)

Dual Degree Program
The Leventhal School of Accounting, in conjunction with the USC Gould School of Law, offers a dual degree program leading to the degrees of Juris Doctor and Master of Business Taxation (JD/MBT). This program permits a student to pursue a specialized program in taxation through courses in the Marshall School of Business, the Leventhal School of Accounting and the USC Gould School of Law. The MBT portion of the program requires 42 units, including 9 units of law school courses that are recognized by the Leventhal School of Accounting toward the JD/MBT. Students must complete 76 law units to satisfy the JD portion of the dual degree.

Unit Requirements
The total number of units required for the MBT portion of the JD/MBT program will vary, depending on the educational background of the individual student. Units are divided into four categories and students are required to maintain an overall graduate grade point average of 3.0. The Leventhal School of Accounting Master's Program Office evaluates the academic background of each admitted student to determine if any of the 12 units of course work in Group I can be waived. The courses in Groups II, III and IV are required of all JD/MBT students and total 30 units, including no more than 9 units of Law School courses.

First Year
Required USC Gould School of Law courses (33 units)

Second, Third and Fourth Years
Forty-three units of law courses, including the law courses listed below, and 21-33 units of Marshall School of Business and Leventhal School of Accounting courses as follows:

Group I Courses (Up to 12 Units)
• ACCT 572 Corporate Accounting and Reporting Units: 3
• GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
• GSBA 548 Corporate Finance Units: 2, 3

Group II Courses* (A Minimum of 9 Units)
• ACCT 550T Tax Research and Professional Responsibilities Units: 3
• ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3
• LAW 600 Taxation Units: 3 or 4

Group III Courses* (A Minimum of 6 Units)
• LAW 603 Business Organizations Units: 3, 4, 5
• LAW 607 Gifts, Wills, and Trusts Units: 3 or 4
• LAW 717 Estate Planning Units: 3
• LAW 842 Partnership Taxation Units: 2, 3, 4

Note:
*Students should seek counseling at the Law School regarding all LAW courses.

Group IV Courses (A Minimum of 15 Units)
Select at least 15 units from the following list. Three additional units may be selected from this list or any Marshall (ACCT, BAEP, BUCCO, DSO, FBE, GSBA, MKT or MOR) 500-level elective.
USC School of Architecture

The USC School of Architecture offers undergraduate, graduate and doctoral education in architecture and architectural studies, landscape architecture, heritage conservation and building science. Its faculty is active in professional practice, in design research, in the supervision of programs at the Gamble House and Freeman House and in extended professional education.

Work in the school is conducted in an intellectual climate, which promotes inquiry, introduces principles and values and teaches the disciplines necessary to work in collaboration with other professionals to develop design and research excellence.

The school is located in the center of Los Angeles, the second largest urban region in the country, which offers a unique understanding of 21st century growth and change. In such an environment the possibilities for teaching and learning are extraordinary.

The school is highly selective in its admissions and enjoys the strong support of alumni and the professions it serves. The opportunity exists for students to have close contact with faculty, other students and practicing architects.

An architecture curriculum was initiated at USC in 1914. In 1919, a Department of Architecture was created and a separate School of Architecture was organized in 1925. The school shares Watt and Harris Halls with the USC Roski School of Art and Design and the Fisher Museum of Art.

USC School of Architecture

Administration
Qingyun Ma, MArch, Dean
Gail Peter Borden, MArch, Associate Dean, Discipline Head of Architecture Programs
Douglas E. Noble, PhD, Chair, PhD Program, Discipline Head, Chase L. Leavitt Graduate Program of Building Science
Trudi Sandmeier, MA, Discipline Head of Heritage Conservation Programs
Kelly Shannon, PhD, Discipline Head of Landscape Architecture Programs

Wesley Jones, MArch, Director, Graduate Architecture Programs
Hadrian Predock, MArch, Director, Undergraduate Architecture Programs
Edward R. Bosley, MBA, James N. Gamble Director of the Gamble House

Faculty
Della and Harry MacDonald Dean's Chair in Architecture: Qingyun Ma, MArch
MacDonald and Diane Rasling Becket Professor of Community Design: Charles A. Lagreco, MFA (Arch)
Judge Widney Professor of Architecture: Frank O. Gehry, FAIA, MArch
Professors: Kim Coleman, MArch; Diane Ghirardo, PhD; John V. Mutlow, MArch (UD); Victor Regnier, MArch.*; Goetz Schierle, PhD; Marc Schiler, MS, ArchSci; Kelly Shannon, PhD; James Steele, PhD; John Wilson, PhD
Associate Professors: Gail Peter Borden, MArch; Kenneth Breisch, PhD; Vittoria De Palma, PhD; Charles Lagreco, MFA (Arch); Graeme M. Morland, DiplArch; Amy Murphy, MFA; Douglas E. Noble, PhD
Assistant Professors: Anders Carlson, PhD; Joon-Ho Choi, PhD; David Gerber, DDes; Alison Hirsch, PhD; Alvin Huang, MArch; Victor Jones, MArch; Karen M. Kensek, MArch; Kyle Konis, PhD; Travis Longcore, PhD; Alex Robinson, MLArch; José Sanchez, MArch; Doris Sung, MArch
Professor of the Practice of Architecture: Wesley Jones, MArch
Associate Professors of the Practice of Architecture: Lee Olvera, MArch; Gary Paige, BArch; Hadrian Predock, MArch; Trudi Sandmeier, MA; Selwyn Ting, MArch
Assistant Professor of the Practice of Architecture: Valery Augustin, MArch; Lauren Matchison, MArch; Scott Mitchell, MArch; Olivier Touraine, Dipl Ing (Arch); Geoffrey von Oeyen, MArch
Adjunct Professors: Mark Cigolle, MArch.; Peyton Hall, MED; David C. Martin, MArch; Lorcan O’Herlihy, MArch; Robert Perry, MLA; Lawrence Scarpa, MArch; Patrick Tighe, MArch
Adjunct Associate Professors: T. Jeff Guh, PhD; Eric Haas, MArch; Yo-ichiro Hakomori, PhD; Michael Hricak, MArch;

USC School of Architecture offers undergraduate, graduate and doctoral education in architecture and architectural studies, landscape architecture, heritage conservation and building science. Its faculty is active in professional practice, in design research, in the supervision of programs at the Gamble House and Freeman House and in extended professional education.

Work in the school is conducted in an intellectual climate, which promotes inquiry, introduces principles and values and teaches the disciplines necessary to work in collaboration with other professionals to develop design and research excellence.

The school is located in the center of Los Angeles, the second largest urban region in the country, which offers a unique understanding of 21st century growth and change. In such an environment the possibilities for teaching and learning are extraordinary.

The school is highly selective in its admissions and enjoys the strong support of alumni and the professions it serves. The opportunity exists for students to have close contact with faculty, other students and practicing architects.

An architecture curriculum was initiated at USC in 1914. In 1919, a Department of Architecture was created and a separate School of Architecture was organized in 1925. The school shares Watt and Harris Halls with the USC Roski School of Art and Design and the Fisher Museum of Art.
Degree Programs

The School of Architecture offers curricula leading to the following degrees:

**Bachelor of Architecture:** A five-year undergraduate accredited professional degree program.

**Bachelor of Science in Architectural Studies:** A four-year undergraduate non-professional architectural studies degree program providing specialization in related fields and an alternative path to graduate studies in architecture and other design fields.

**Minor in Architecture:** Provides the flexibility of complementing a student's major with an area of specialization. Not available for architecture majors.

**Minor in Landscape Architecture:** Provides students with the ability to integrate the natural and cultural profession of landscape architecture into their course of study. Not available for architecture majors.

**Master of Advanced Architectural Studies:** A 48-unit, three-semester program for students who hold a first professional degree from an accredited school of architecture.

**Master of Architecture:** A 102-unit, three-year accredited degree for students who have completed a bachelor's degree with a major other than one of the design professions; a 64-unit, two-year accredited degree for students holding a pre-professional degree with a major in architecture.

**Master of Heritage Conservation:** A 48-unit program designed to prepare individuals for work in heritage conservation and its allied disciplines, including architecture, urban planning, cultural resource management, real estate development, construction and materials conservation.

**Master of Landscape Architecture:** A 96-unit, six-semester curriculum for students with no prior degree in architecture, landscape architecture or environmental design; a 64-unit, four-semester curriculum for students who hold a first non-accredited degree in architecture, landscape architecture or environmental design.

**Master of Building Science:** A 48-unit, two-year program for applicants who hold an architecture, engineering or science-related degree (e.g., Bachelor of Architecture, Bachelor of Architectural Engineering, Bachelor of Science in Engineering, Environmental Studies, Physics or Mathematics). Students with five-year professional degrees in architecture and a minimum of five years of experience may be given advanced standing.

**Dual Degree in Architecture and Planning:** A 72-unit program leading to the post-professional Master of Architecture and the Master of Planning degrees. Admission to both degree programs is required.

**Dual Degree in Heritage Conservation and Planning:** A 60-unit program leading to the Master of Heritage Conservation and Master of Planning degrees. Admission to both degree programs is required.

**Dual Degree in Landscape Architecture and Planning:** An 82- or 108-unit program leading to the Master of Landscape Architecture and Master of Planning degrees. Admission to both degree programs is required.

**Doctor of Philosophy in Architecture:** This program is designed to prepare individuals for university level teaching and professional research and for leadership positions in industry and professional architectural practice.

**Certificate in Architecture:** The focus of this program is on understanding the broad and complex role of architecture within the urban and cultural context. Studies focus on cities and architecture throughout the world where conditions of increasing density, environmental challenges and cultural complexity require design initiatives that support amenity, sustainability and cultural meaning. The certificate is open to graduate students not pursuing a Master of Architecture degree.

**Certificate in Building Science:** This program is intended as a supplementary credential for students enrolled in graduate course work in architecture, landscape architecture, historic preservation, urban planning or related disciplines, and also for practicing design and planning professionals with undergraduate or graduate degrees and related experience.

**Certificate in Heritage Conservation:** This program is for those who wish to augment their current work in heritage conservation, and for graduate students who wish to obtain a complementary specialization in conjunction with their degree.

**Certificate in Landscape Architecture:** This program provides an opportunity for professionals and graduate students to develop understandings and skills related to the basic subjects inherent in the field of landscape architecture.

**Certificate in Sustainable Design:** This certificate provides students with the tools necessary to understand and quantify...
sources of energy use in buildings and landscapes and to use design of natural and man-made systems to reduce their energy use. Environmental, economic and socially responsible solutions will be explored through the course work.

**National Architecture Accrediting Board Statement**

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture and the Doctor of Architecture. A program may be granted an eight-year, three-year or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a pre-professional undergraduate degree in architecture for admission. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Southern California School of Architecture offers the following NAAB-accredited degree programs: Bachelor of Architecture (160 undergraduate credits) Master of Architecture (pre-professional degree + 64 graduate credits) Master of Architecture (non-professional degree + 102 graduate credits)

Next accreditation visit for all programs: 2022

**National Landscape Architecture Accreditation Board Statement**

The USC Master of Landscape Architecture first professional curricula (three-year and two-year curricula) are accredited by the American Society of Landscape Architects Landscape Architecture Accreditation Board (LAAB). The LAAB conditions of accreditation (including the student performance criteria) are posted on the ASLA Website, asla.org/AccreditationLAAB.aspx.

**Other Programs**

**Exploration of Architecture Summer Program for High School Students**

The School of Architecture offers two- and four-week programs for high school students (must have completed ninth grade by the start of the program) who have no previous experience but are interested in architecture. The program, which began in 1983, is particularly rewarding for students who are contemplating a career in architecture. However, all students find the exposure to the unique problem-solving methodologies of architecture a benefit regardless of their final career choice. Living on campus in a USC residence hall, high school students experience what it is like to be a university student. They participate in studio classes with professional critics and present their ideas in reviews attended by parents and friends.

The program also exposes them, through case studies, sketching exercises and field trips, to some of the most dramatic and impressive historical and modern architecture of Los Angeles. International students have especially appreciated the opportunity to pursue this summer program of study that is not highly dependent on English language skills.

Obtain program details by visiting the School of Architecture Website or by calling (800) 281-8616.

**The Building Science Program in Civil Engineering**

The Sonny Astani Department of Civil Engineering offers an undergraduate program leading to the degree of Bachelor of Science in Civil Engineering, with an emphasis in building science. The curriculum includes most of the work which is required for the major in structures, plus 30 units in architectural studies offered by the School of Architecture.

See the USC Viterbi School of Engineering, Civil Engineering section of this catalogue for further information.

**Bachelor's Degree**

**Architectural Studies (BS)**

**Bachelor of Science, Architectural Studies**

The Bachelor of Science in Architectural Studies program begins intensively with architectural studies in the first two years and provides a mix of architectural and general university studies throughout the program. The curriculum includes a core program in the first two years identical to the Bachelor of Architecture professional degree program. The last two years provide the opportunity to explore many aspects of architecture and related fields and to develop individual strengths and interests. Students take an introductory course in specialization in the second year, which provides an introduction to related fields and alternative degree options. Students can elect to move into the four-year non-professional BS in Architectural Studies program with a degree plan identifying electives fulfilling an area of concentration. The program is concluded with a seminar with all degree candidates, allowing for collaborative work on areas of common interest.

**Admission as a First-year Student**

All applicants to the School of Architecture must complete the Common Application and submit it to the USC Office of Admission along with Scholastic Aptitude Test (SAT) or other test scores. All applicants, including international students, must submit a portfolio.

**Admission with Advanced Placement**

It is possible, in selected instances, that a transfer student from an accredited community college or other university may be eligible for advanced placement at the second-year level if previous work includes a minimum of 32 semester units of acceptable academic credit in a pre-architecture program. The academic credit must include at least 8 semester units in architectural design or environmental design. Students accepted for advanced placement must still comply with all requirements for the degree.

Advanced placement applicants are required to submit a design portfolio to the School of Architecture at the time of application.

**Summer Transfer Courses**
A summer design studio allows highly qualified students transferring from community college or other university programs to be evaluated for advanced placement in the fall semester. Applicants must submit a university application and portfolio by February 1 for consideration. During the summer studio, transfer students must demonstrate significant design and drawing skill to justify advanced placement. Transfer students who are admitted with fewer than 32 units of college level work and who have only limited drawing or design skills may be considered for placement in the first year of the four-year program. Previous academic work may in part be applied toward required and elective courses for the four-year BS in Architectural Studies program. For more information about this program, contact the school at (213) 740-2420.

Advisement
The School of Architecture maintains student advisers for the benefit of all students in the school. All incoming students will participate in new student orientation and receive information about course requirements and planning. An individual appointment with an adviser may be scheduled at any time during the academic year to review course work in progress or to plan for future semesters.

Design Studio Grade Point Average Requirement
Less than average work in design studio is not considered sufficient for a continuation in the design studio sequence. Students must receive a grade of C (2.0) or above in each semester of design in order to continue in the design sequence. Students in the first two years of the program are required to repeat the course until such a grade is achieved.

Pass/No Pass Courses
Architecture students are permitted to take a maximum of 24 units of non-architecture electives, exclusive of the writing requirements, MATH 108 and the PHYS 125 requirement, on a pass/no pass option. No more than 4 units of pass/no pass courses may be applied to general education requirements; no more than 4 units may be taken in one semester. Students who have taken non-architecture courses pass/no pass in the past (i.e., before admission to architecture) may count such pass/no pass courses toward, but not in addition to, the maximum of 24 units.

Time Limits
While there are no specific time limits for completing the BS in Architectural Studies degree (except in the case of discontinued programs) the School of Architecture may require additional course work of students who remain in the degree program beyond six years.

Four-Year Curriculum for the Bachelor of Science in Architectural Studies Degree

First Year, First Semester
• ARCH 102a Architectural Design I Units: 4
• ARCH 105L Fundamentals of Design Communication Units: 2
• ARCH 114 Architecture: Culture and Community Units: 2
• General Education Seminar Units: 4
• MATH 108g Contemporary Precalculus Units: 4 or General Education Units: 4

Total units: 16

First Year, Second Semester
• ARCH 102bL Architectural Design I Units: 4
• ARCH 214ag World History of Architecture Units: 3*
• PHYS 125Lg Physics for Architects Units: 4 **
• WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4

Total units: 15

Second Year, First Semester
• ARCH 202aL Architectural Design II Units: 6
• ARCH 213a Building Structures and Seismic Design Units: 3***
• ARCH 214bg World History of Architecture Units: 3*
• General Education Units: 4

Total units: 16

Second Year, Second Semester
• ARCH 202bl Architectural Design II Units: 6
• ARCH 211 Materials and Methods of Building Construction Units: 3
• ARCH 213b Building Structures and Seismic Design Units: 3***
• General Education Units: 4

Total units: 16

Third Year, First Semester
• ARCH 215 Design for the Thermal and Atmospheric Environment Units: 3
• ARCH 313 Design of Building Structures Units: 3
• ARCH 370 Architectural Studies — Expanding the Field Units: 2
• WRIT 340 Advanced Writing Units: 3, 4
• General Education Units: 4

Total units: 16

Third Year, Second Semester
• ARCH 314 History of Architecture: Contemporary Issues Units: 3
• ARCH 411 Architectural Technology Units: 3
• ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
• General Education Units: 4
• Professional Architecture Electives Units: 3

Total units: 16

Fourth Year, First Semester
• ARCH 314 History of Architecture: Contemporary Issues Units: 3
• Professional Architecture Electives Units: 13

Total units: 16

Fourth Year, Second Semester
• ARCH 470 Concentration Capstone Seminar Units: 4
• Electives Units: 8
• Professional Architecture Electives Units: 5

Total units: 17

Total minimum units required: 128

*ARCH 214a, ARCH 214b fulfill the General Education requirement in Category A: The Arts.

**PHYS 125 fulfills the General Education requirement in Category E: Physical Sciences. The PHYS 125 requirement may also be fulfilled by PHYS 135a, PHYS 135b; 4 units will be applied toward the BArch and 4 will count as electives.

***ARCH 213a ARCH 213b fulfills the General Education requirement in Category F: Quantitative Reasoning.

Requirements for BS in Architectural Studies Degree

A total of 25 units of professional electives, including ARCH 470 Capstone Seminar, are required in an area of specialization, which must be selected from the accepted professional elective offerings in the School of Architecture or with consultation and approval of the program adviser. This is in addition to the core, elective and general education requirements of the Bachelor of Architecture degree, which are identical for the first two years of the Bachelor of Science in Architectural Studies.

In the third and fourth year of the program, the requirements for the Bachelor of Architecture design studios, ARCH 302a, ARCH 302b and ARCH 402a, ARCH 402b — 24 units — are changed to the professional electives requirement. The full degree requirements are described above.

Core Requirements

Students must complete the following core courses as a prelude to the upper-division professional electives and degree requirements: ARCH 102a, ARCH 102b, ARCH 105, ARCH 114, ARCH 202a, ARCH 202b, ARCH 211, ARCH 213a, ARCH 213b, ARCH 214a, ARCH 214b and ARCH 370, MATH 108, PHYS 125 and WRIT 150.

General Education Requirements

All students who begin college in fall 2015 or later at USC (or who begin elsewhere in fall 2015 and then transfer to USC) must satisfy the 2015 General Education Program, which includes six Core Literacy and two Global Perspectives requirements. Together these provide training in the liberal arts — the critical skills necessary for a free person to function effectively, thoughtfully and productively in a complex world. This General Education program has been designed to nurture habits of thought essential for professional success and personal development, and to establish a background for lifelong learning.

Core Literacies

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)

GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

To fulfill a minimum 128 units for the Bachelor of Science in Architectural Studies, courses in the Global Perspectives categories should be used to satisfy requirements in the Core Literacies as well. A single course can satisfy one Global Perspective and one Core Literacy requirement.

For more information about the general education requirements, see here.

Architecture (BArch)

Bachelor of Architecture

The bachelor's degree program begins intensively with architectural studies in the first year and provides for a mix of architectural and general university studies throughout the program. The curriculum includes two cycles of development. The first cycle of six semesters provides a foundation in understanding architecture, concluding with integrative studies after two years of introductory work. The second cycle, four semesters, provides the opportunity to explore many aspects of architecture and to develop individual strengths and interests. During this period, a comprehensive design studio project is undertaken in the fall of the fifth year. The spring of the fifth (and final) year culminates in the development of that comprehensive building project in the context of a professional practice course, coupled with a research design studio taken along the lines of the students' own interests.

Admission as a First Year Student

All applicants to the School of Architecture must complete the Common Application and submit it to the USC Office of Admission along with Scholastic Aptitude Test (SAT) or other test scores. All applicants, including international students, must submit a portfolio.

Admission with Advanced Placement

It is possible, in selected instances, that a transfer student from an accredited community college or other university may be eligible for advanced placement at the second-year level if previous work includes a minimum of 32 semester units of acceptable academic credit in a pre-architecture program. The academic credit must include at least 8 semester units in architectural design or environmental design. Students accepted for advanced placement must still comply with all requirements for the degree.

Advanced placement applicants are required to submit a design portfolio to the School of Architecture at the time of application.

Summer Transfer Courses

A summer design studio and drawing course allows highly qualified students transferring from community college or other university programs to be evaluated for advanced placement in the fall semester. Applicants must submit a
university application and portfolio by February 1 for consideration. During the summer transfer courses, students must demonstrate significant design and drawing skills to justify advanced placement. Successfully completing these summer transfer courses allows students to reduce the required 10-semester design sequence by two semesters, reducing USC residency to four years. This either provides for advanced placement into the second year or gives credit for ARCH 102a, ARCH 102b and ARCH 105 if these courses are passed with grades of B or above. For more information, contact the school at (213) 740-2420.

Transfer students who are admitted with fewer than 32 units of college level work and who have only limited drawing or design skills may be considered for placement in the first year of the five-year design sequence. Previous academic work may in part be applied toward required and elective courses for the five-year Bachelor of Architecture program.

Advisement

The School of Architecture maintains academic advisers for the benefit of all students in the school. All incoming students will participate in new student orientation and receive information about course requirements and planning. An individual appointment with an adviser may be scheduled at any time during the academic year to review coursework in progress or to plan for future semesters.

Degree Requirements

Accredited degree programs awarding the BArch degree must require a minimum of 150 semester credit hours or the quarter-hour equivalent, in academic course work in general studies, professional studies and electives. The curriculum leading to the architecture degree must include at least 45 credit hours, or the quarter-hour equivalent, outside of architectural studies either as general studies or as electives with content other than architectural.

Design Studio Grade Point Average Requirement

Less than average work in design is not considered sufficient for a professional degree. Students must receive a grade of C (2.0) or above in each semester of design (ARCH 102a, ARCH 102b, ARCH 202a, ARCH 202b, ARCH 302a, ARCH 302b, ARCH 402a, ARCH 402b, ARCH 500a, ARCH 500b) in order to continue in the design sequence and to graduate. Students will be required to repeat the course until such a grade is achieved.

Transfer Limit for Design Studio Credit

School of Architecture majors enrolling for a semester of study off campus are limited to the transfer of only one design studio course within the ARCH 402a, ARCH 402b sequence. Approval of transfer credit will be dependent upon portfolio review by an appointed faculty review committee.

Pass/No Pass Courses

Architecture students are permitted to take a maximum of 24 units of non-architecture electives, exclusive of the writing requirements, MATH 108 and the PHYS 125L requirement, on a pass/no pass basis. No more than 4 units of pass/no pass courses may be applied to general education requirements; no more than 4 units may be taken in one semester. Students who have taken non-architecture courses pass/no pass in the past (i.e., before admission to architecture) may count such pass/no pass courses toward, but not in addition to, the maximum of 24 units.

Schedule Choices

Students in upper division (ARCH 402a, ARCH 402b) may substitute any fall or spring semester by completing degree requirements, including design studio, by enrolling during summer session. This substitution does not provide for acceleration of the degree but does allow for make up so that students may get back on schedule for the five-year degree.

Time Limits

While there are no specific time limits for completing the bachelor's degree (except in the case of discontinued programs) the School of Architecture may require additional course work of students who remain in the degree program beyond six years.

Five-Year Curriculum for the Bachelor of Architecture Degree

First Year, First Semester

- ARCH 102a Architectural Design I Units: 4
- ARCH 105L Fundamentals of Design Communication Units: 2
- ARCH 114 Architecture: Culture and Community Units: 2
- General Education Seminar Units: 4
- MATH 108g Contemporary Precalculus Units: 4 or General Education Units: 4

Total units: 16

First Year, Second Semester

- ARCH 102bL Architectural Design I Units: 4
- ARCH 214ag World History of Architecture Units: 6
- PHYS 125Lg Physics for Architects Units: 4
- WRIT 150 Writing and Critical Reasoning-Thematic Approaches Units: 4

Total units: 15

Second Year, First Semester

- ARCH 202aL Architectural Design II Units: 6
- ARCH 213a Building Structures and Seismic Design Units: 3
- ARCH 214bg World History of Architecture Units: 3
- General Education Units: 4

Total units: 16

Second Year, Second Semester

- ARCH 202bL Architectural Design II Units: 6
- ARCH 211 Materials and Methods of Building Construction Units: 3
- ARCH 213b Building Structures and Seismic Design Units: 3
- General Education Units: 4

Total units: 16
Third Year, First Semester
- ARCH 215 Design for the Thermal and Atmospheric Environment Units: 3
- ARCH 302aL Architectural Design III Units: 6
- ARCH 313 Design of Building Structures Units: 3
- General Education Units: 4
Total units: 16

Third Year, Second Semester
- ARCH 302bL Architectural Design III Units: 6
- ARCH 315 Design for the Luminous and Sonic Environment Units: 3
- ARCH 411 Architectural Technology Units: 3
- General Education Units: 4
Total units: 16

Fourth Year, First Semester
- ARCH 314 History of Architecture: Contemporary Issues Units: 3
- ARCH 402aL Architectural Design IV Units: 6
- WRIT 340 Advanced Writing Units: 3, 4
- Electives Units: 4
Total units: 17

Fourth Year, Second Semester
- ARCH 402b Architectural Design IV Units: 6
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- Architecture History Elective Units: 2-4
- Electives Units: 3-5
Total units: 16

Fifth Year, First Semester
- ARCH 500aL Comprehensive Architectural Design Units: 6
- ARCH 501 Critical Topics in Architecture Units: 2
- Electives Units: 8
Total units: 16

Fifth Year, Second Semester
- ARCH 502aL Architectural Design V Units: 6
- ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation Units: 3
- Electives Units: 7
Total units: 16

Total minimum units required: 160

**Core Requirements**
In order to take advantage of elective opportunities at the upper division level, students must complete the following courses before the end of the integrative semester (third year, second semester): ARCH 102a, ARCH 102b, ARCH 105, ARCH 114, ARCH 202a, ARCH 202b, ARCH 211, ARCH 213a, ARCH 213b, ARCH 214a, ARCH 214b, ARCH 215; MATH 108; PHYS 125 and WRIT 150

**Additional Requirements**

**Allocation of Elective Units**

**Professional Architecture Electives**
A minimum of 12 units in architecture is required.

**Architecture History Elective**
A minimum of 2 units in architecture history is required.

**Free Electives**
A minimum of 8 units in any area of liberal arts or sciences excluding MATH 108, PHYS 125 or PHYS 135a, PHYS 135b.

**General Education Requirements**
All students who begin college in fall 2015 or later at USC (or who begin elsewhere in fall 2015 and then transfer to USC) must satisfy the 2015 General Education Program, which includes six Core Literacy and two Global Perspectives requirements. Together these provide training in the liberal arts — the critical skills necessary for a free person to function effectively, thoughtfully and productively in a complex world. This General Education program has been designed to nurture habits of thought essential for professional success and personal development, and to establish a background for lifelong learning.

**Core Literacies**
GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

**Global Perspectives**
GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)
In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

To fulfill a minimum 160 units for the Bachelor of Architecture degree, courses in the Global Perspectives categories should be used to satisfy requirements in the Core Literacies as well. A single course can satisfy one Global Perspective and one Core Literacy requirement.
For more information about the general education requirements, see here.

**Minor**

**Architecture Minor**
The minor in architecture provides the flexibility of complementing a student's major with an area of specialization. Taking a minor in architecture is a unique opportunity for a student to stimulate his or her imagination and learn creative approaches to problem solving.

**Admission Requirements**
Students in good academic standing who have completed the freshman year are eligible.

**Course Requirements**
The requirements for the minor include three required courses (8 units) and a minimum of 12 units of upper division courses.

**Required Courses**
- ARCH 106x Workshop in Architecture Units: 2
- ARCH 114 Architecture: Culture and Community Units: 2
- ARCH 304x Intensive Survey: Prehistory to the Present Units: 4

**Note:**
Students may elect to take the upper division courses in an area of specialization, such as architectural history and theory, historic preservation, computers and design, visual communication, landscape architecture, public places — urban spaces, housing or practice management. This minor is not available to architecture majors.

**Landscape Architecture Minor**
The minor provides students with the ability to integrate the ecological and cultural dimensions of landscape architecture into their course of study. Studies are about repairing and sustaining natural systems in cities, about the history of human settlements, places, and gardens in urban landscapes, and about the cultural and aesthetic meanings of landscape architecture design. This is an excellent emphasis for students in environmental studies, civil engineering, planning and anthropology. This minor is not available to architecture majors.

**Admission Requirements**
Students in good academic standing who have completed the freshman year are eligible.

**Course Requirements**
The minor in landscape architecture consists of three required courses (11 units) and a minimum of 10 units of upper division courses.

**Required Courses**
- ARCH 203 Visualizing and Experiencing the Built Environment Units: 4
- ARCH 361L Ecological Factors in Design Units: 3
- ARCH 465 The Landscape Imaginary Units: 4

**Upper Division Courses (10 Units)**
- ARCH 303 Principles of Spatial Design I Units: 4
- ARCH 363 Plant Material Identification: Horticulture Units: 4
- ARCH 432 People, Places and Culture: Architecture of the Public Realm Units: 4
- ARCH 463 Plant Material Identification: California Plant Communities Units: 4
- ARCH 531 The Natural Landscape Units: 3
- ARCH 536 The Landscape Planning Process Units: 3
- ARCH 544 Urban Landscape: Process and Place Units: 3
- ARCH 545 Urban Landscape: Contemporary History and Prospect Units: 3
- ARCH 547 Urban Nature Units: 3
- ARCH 565 Global History of Landscape Architecture Units: 3
- ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3 (max 6)

**Note:**
Non-architecture students must obtain written approval from their academic unit in order to take a 500-level course. For more information, contact an architecture advisor, archadvs@usc.edu.

**Master's Degree**

**Advanced Architectural Studies (MAAS)**
This program is dedicated to cutting edge research and experimentation, and seeks to explore in a highly innovative fashion the cultural and technological landscapes of Los Angeles. Through its range of experimental 'Labs', the program is structured under three distinct veins of inquiry [1] architectural urban studies using Los Angeles as a laboratory to engage global issues; [2] advanced computation/fabrication technologies and material processes; and [3] performative architecture with an emphasis on sustainable systems. These specific design and research directions are diversely initiated by our faculty and fully supported by additional resources from the University of Southern California and the city of Los Angeles.

The Master of Advanced Architectural Studies is a three-semester advanced degree program. Consisting of two option-based topic studios followed by an in-depth Directed Design Research project [DDR], and coordinated seminar courses each for the first two semesters, the degree is focused on advanced and emerging topics in architecture. The design and research directions are diversely initiated by our faculty and fully supported by additional resources from the University at-large and the city of Los Angeles.

Candidates for admission must have a five-year Bachelor of Architecture degree or its equivalent. Completion of the degree requires 48 units, including 28 units of required studio and seminar courses, [including 8 units Directed Design Research or Thesis], and 20 units of approved electives, over three semesters of residency.

**Required Courses**
- ARCH 606 Advanced Architectural Theory Units: 2
- ARCH 607 Advanced Computation Units: 2
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
- ARCH 609 Advanced Fabrication Units: 2
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
**Master of Architecture (MArch), Professional Degree**

The school’s Master of Architecture is a NAAB accredited professional degree program in the area of architectural design. It is intended for individuals who have completed a bachelor's degree with a major other than one of the design professions, (typically requiring three years of residency); or, with advanced standing, for those individuals with a pre-professional undergraduate degree in architectural studies (typically requiring two years of residency). This degree fully prepares graduates for the present and future professional activities in the ever-evolving field of architecture. As an accredited professional degree, it provides a solid intellectual base of knowledge in history, technology, professional practice and theory. Particular emphasis is put on each of the six-semester design studio sequences, where students learn to synthesize the social, environmental and tectonic thinking through informed design practice. The studios culminate in an option-based studio and directed design research sequence, pursuing exploration of advanced and emerging topics. Exploring the many elective opportunities within the school, students are encouraged to develop a tailored curriculum, and if possible, to complete one of the several graduate certificates offered by the school or within the university.

**Degree Requirements**
A minimum one-semester college-level course in physics or calculus is required. In order for the MArch degree to be conferred, students must complete 102 credit units of both required professional and elective course work during three years of residency, or for students admitted with advanced standing, a minimum of 64 units of both required professional and elective course work during two years of residency. Students must also continually meet the established standards for graduate study at USC. To meet NAAB accreditation requirements, all students must complete (before graduation) a combined total of 168 credit hours of study at the undergraduate and graduate level, of which at least 30 semester credit hours must be at the graduate level as well as a minimum of 45 units of non-architectural content.

**Advanced Standing**
Students seeking advanced standing must have a four-year architectural studies degree from: a U.S. school with an accredited professional architecture program; a U.S. school that is accredited by a regional accrediting body, without an accredited professional architecture program; or an international program that is deemed equivalent. All students who meet the pre-professional undergraduate degree requirement and wish to be considered for advanced standing must undergo a course-by-course review. Students must provide significant evidence from the course work completed at the undergraduate level in order for waivers to be considered or granted for USC MArch required Basic Studies courses. This review is conducted after admission to the program, during the summer prior to starting coursework.

---

**48-Unit Sample Curriculum – Master of Advanced Architectural Studies (MAAS)**

**Post-Professional Degree**

**First Semester**

- ARCH 706 Advanced Architectural Theory Units: 2
- ARCH 607 Advanced Computation Units: 2
- ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
- ARCH 609 Advanced Fabrication Units: 2
- ARCH 702L Advanced Graduate Architecture Design – Themes Units: 6

Total units: 14

**Second Semester**

- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6 (max 12)
- ARCH 793A L Architecture Directed Design Research Option I Units: 2 or
- ARCH 795A L Architecture Thesis Option II Units: 2
- Elective Units: 8

Total units: 16

**Third Semester**

- ARCH 793B L Architecture Directed Design Research Option I Units: 6 or
- ARCH 795B L Architecture Thesis Option II Units: 6
- Electives Units: 12

Total units: 18

**Note:**

*ARCH 606 and ARCH 607 will be taken the first half of the semester and ARCH 608 and ARCH 609 in the latter half of the semester.*

**Architecture (MArch), Programs**

The USC School of Architecture offers two distinct master's programs related to the study of architecture: the Master of Architecture professional degree (MArch) and the Master of Advanced Architectural Studies postprofessional degree (MAAS) for students who already hold a professional degree in architecture or its equivalent.

MArch students with advanced standing are required to complete a minimum two year residency, or 4 semester units of study at USC.

**Summer Semester**
A robust curriculum is available during the summer semester between the fourth and fifth semesters [of the full sequence; between the second and third of the advanced standing]. A combination of internationally based studios, field studies and the full first semester sequence of the MAAS is available to provide students diverse and advanced opportunities that can expand their degree offerings.

**Admission with No Previous Professional Education (+3)**
Students admitted with no previous professional education must complete 102 units, including 74 units of specified courses, 20 units of electives and 8 units of Directed Design Research or Thesis. Electives must be part of a curricular plan approved by the program director.

**Required Courses for the 102 unit M.Arch +3 Curriculum**

- ARCH 409L Design Foundation Units: 2
- ARCH 410 Computer Transformations Units: 2
- ARCH 505aL Graduate Architecture Design I Units: 6
- ARCH 505bL Graduate Architecture Design I Units: 6
- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 514a Global History of Architecture Units: 3
- ARCH 514b Global History of Architecture Units: 3
- ARCH 523aL Structural Design and Analysis Units: 3
- ARCH 523bL Structural Design and Analysis Units: 3
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation Units: 3
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 563 Contemporary Architectural Theory Units: 2
- ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
- ARCH 575a Systems Units: 3
- ARCH 575b Systems Units: 3
- ARCH 605aL Graduate Architecture Design II Units: 6
- ARCH 605bL Graduate Architecture Design II Units: 6
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 705L Advanced Graduate Architecture Design – Topics Units: 6
- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6
- ARCH 795aL Architecture Thesis Option II Units: 2
- ARCH 795bL Architecture Thesis Option II Units: 6

**102-unit Sample Curriculum – M.Arch. Professional Degree**

**First Semester**
- ARCH 409L Design Foundation Units: 2
- ARCH 410 Computer Transformations Units: 2
- ARCH 505aL Graduate Architecture Design I Units: 6
- ARCH 511L Building Systems: Materials and Construction Units: 4
- ARCH 514a Global History of Architecture Units: 3
- ARCH 575a Systems Units: 3

**Total units: 17**

**Second Semester**
- ARCH 505bL Graduate Architecture Design I Units: 6
- ARCH 523aL Structural Design and Analysis Units: 3
- ARCH 525 Professional Practice: Pre-Design, Project and Office Administration Units: 3
- ARCH 575a Systems Units: 3

**Total units: 18**

**Third Semester**
- ARCH 523bL Structural Design and Analysis Units: 3
- ARCH 561 Urbanism Themes and Case Studies Units: 2
- ARCH 562 Architecture Themes and Case Studies Units: 2
- ARCH 563 Contemporary Architectural Theory Units: 2
- ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
- ARCH 575a Systems Units: 3
- ARCH 575b Systems Units: 3
- ARCH 605aL Graduate Architecture Design II Units: 6
- ARCH 611 Advanced Building Systems Integration Units: 4

**Total units: 17**

**Fourth Semester**
• ARCH 563 Contemporary Architectural Theory
  Units: 2
• ARCH 564 Descriptive and Computational
  Architectural Geometry Units: 2
• ARCH 575b Systems Units: 3
• ARCH 605BL Graduate Architecture Design II
  Units: 6
• Electives Units: 4
Total units: 17

Fifth Semester
• ARCH 526 Professional Practice: Legal and
  Economic Context, Project Documentation Units: 3
• ARCH 705L Advanced Graduate Architecture
  Design – Topics Units: 6
• ARCH 793aL Architecture Directed Design
  Research Option I Units: 2 or
• ARCH 795aL Architecture Thesis Option II
  Units: 2
• Electives Units: 6
Total units: 17

Sixth Semester
• ARCH 793bL Architecture Directed Design
  Research Option I Units: 6 or
• ARCH 795bL Architecture Thesis Option II
  Units: 6
• Electives Units: 10
Total units: 16

Note:
* ARCH 409 and ARCH 410 will be taken as a fall semester
  special session prior to the first day of classes.

Admission with Advanced Standing (+2)
Advanced standing students must complete 64 units,
including 34 units of specified courses, 22 units of electives
or basic studies requirements and 8 units of Directed Design
Research or Thesis. Electives and basic studies courses must
be part of a curricular plan approved by the program director.

Required Courses for the 64 unit +2
Curriculum
• ARCH 410 Computer Transformations Units: 2
• ARCH 525 Professional Practice: Pre-Design,
  Project and Office Administration Units: 3
• ARCH 526 Professional Practice: Legal and
  Economic Context, Project Documentation Units: 3
• ARCH 561 Urbanism Themes and Case Studies
  Units: 2
• ARCH 562 Architecture Themes and Case
  Studies Units: 2
• ARCH 563 Contemporary Architectural Theory
  Units: 2
• ARCH 564 Descriptive and Computational
  Architectural Geometry Units: 2
• ARCH 605aL Graduate Architecture Design II
  Units: 6
• ARCH 605bL Graduate Architecture Design II
  Units: 6
• ARCH 793aL Architecture Directed Design
  Research Option I Units: 2 or
• ARCH 793bL Architecture Directed Design
  Research Option I Units: 6 or
• ARCH 795aL Architecture Thesis Option II
  Units: 2
• ARCH 795bL Architecture Thesis Option II
  Units: 6

64-unit Sample Curriculum
Year One, Semester One
• ARCH 410 Computer Transformations Units: 2
• ARCH 561 Urbanism Themes and Case Studies
  Units: 2
• ARCH 562 Architecture Themes and Case
  Studies Units: 2
• ARCH 605aL Graduate Architecture Design II
  Units: 6
• Elective or Basic Studies Units: 4
Total units: 16

Year Two, Semester One
• ARCH 526 Professional Practice: Legal and
  Economic Context, Project Documentation Units: 3
• ARCH 705L Advanced Graduate Architecture
  Design – Topics Units: 6
• ARCH 793aL Architecture Directed Design
  Research Option I Units: 2 or
• ARCH 795aL Architecture Thesis Option II Units: 2

• Elective or Basic Studies Units: 5

Total units: 16

Year Two, Semester Two

• ARCH 793bL Architecture Directed Design Research Option I Units: 6 or

• ARCH 795bL Architecture Thesis Option II Units: 6

Elective or Basic Studies Units: 9

Total units: 15

Building Science (MBS)
The Chase L. Leavitt Graduate Building Science program in the USC School of Architecture is a global leader in architectural technology education - the intricacies of structure, environmental controls, sustainability, materials and methods, and computing, with a special strength in façade research. The Master of Building Science curriculum encourages "breadth with depth," providing students with a solid platform of core knowledge that they can then amplify through their individual research projects. Electives allow students to stretch in a variety of directions, both within the field and beyond into the related disciplines of heritage conservation, landscape architecture, and architecture.

Graduate building science degree programs at USC are a half-century old, although the pedagogy has been an integral part of the School of Architecture for more than a century. Some of the great innovators of our field are either graduates or faculty associated with our program. The confluence of an outstanding faculty, dedicated students, an exceptional curricular structure, good facilities and a long history of collaborative scholarly achievement creates an unparalleled academic home for those interested in cutting-edge research and technological innovation.

Degree Requirements
The Thesis Track consists of 18 units of specified courses to include three core seminars and one research seminar; 17 units of elective courses; and 13 units of thesis and thesis preparation. Completion of this track requires 48 units.

The Non-Thesis Track consists of 18 units of specified courses to include three core seminars and one research seminar, 1 unit of thesis preparation, 17 units of electives and 12 units from a specified list of courses. Students are required to declare their intention for the Non-Thesis Track by the end of their first year of studies. Completion of this degree requires 48 units.

Core seminars are:

• ARCH 511L Building Systems: Materials and Construction Units: 4 or

• ARCH 611 Advanced Building Systems Integration Units: 4

• ARCH 513L Seminar: Advanced Structures Units: 4

• ARCH 515L Seminar: Advanced Environmental Systems Units: 4

Research seminars are:

• ARCH 613L Seminar: Structures Research Units: 4 or

• ARCH 615L Seminar: Environmental Systems Research Units: 4

48-Unit Sample Curriculum For Thesis Track

First Year, First Semester

• Core seminar(s) and/or research seminar(s) Units: 12

• ARCH 596 Building Science Thesis Preparation Units: 1

Total units: 13

First Year, Second Semester

• Core seminar and/or research seminar Units: 4

• Electives Units: 7

Total units: 11

Second Year, First Semester

• ARCH 692aL Building Science Thesis Units: 6

• Electives Units: 6

Total units: 12

Second Year, Second Semester

• ARCH 692bL Building Science Thesis Units: 6

• ARCH 694 Research Publication Methods for Building Science Units: 2

• Electives Units: 4

Total units: 12

48-Unit Sample Curriculum for Non-Thesis Track

Non-Thesis Track Building Science Elective Options (must choose 12 units)

• ARCH 418 Designing with Natural Forces

• ARCH 419 Architectural Sustainability Tools and Methods

• ARCH 507 Theories of Computer Technology

• ARCH 512 Material + Process: Material Systems

• ARCH 513L Seminar: Advanced Structures

• ARCH 515L Seminar: Advanced Environmental Systems

• ARCH 517 Current Topics in Building Science

• ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure

• ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings

• ARCH 543 Research Methods

• ARCH 551 Conservation Methods and Materials
• ARCH 557 Sustainable Conservation of the Historic Built Environment
• ARCH 564 Descriptive and Computational Architectural Geometry
• ARCH 573 Seismic Design
• ARCH 574 Parametric Design
• ARCH 576 Sustainable Design for Healthy Indoor Environments
• ARCH 577L Lighting Design
• ARCH 579 Sustainable Building and Environment using LEED Metrics
• ARCH 581 Techniques in Digital Fabrication
• ARCH 609 Advanced Fabrication
• ARCH 611 Advanced Building Systems Integration
• ARCH 613L Seminar: Structures Research
• ARCH 615L Seminar: Environmental Systems Research

(Note: Students may obtain credit for either ARCH 613L or ARCH 615L in the non-thesis option, but not both. They must select one of these two courses as part of their regular core).

First Year, First Semester
• Core seminar(s) and/or research seminar(s) Units: 12
• ARCH 596 Building Science Thesis Preparation Units: 1
Total units: 13

First Year, Second Semester
• Core seminar and/or research seminar Units: 4
• Electives Units: 7
Total units: 12

Second Year, First Semester
• Elective Units: 10
• Select 2 units of Building Science elective coursework from above list
Total units: 12

Second Year, Second Semester
• Select 10 units of Building Science elective coursework from above list
• ARCH 694 Research Publication Methods for Building Science Units: 2
Total units: 12

Advanced Standing for Students with a Five-Year Professional Degree in Architecture
Applicants who have completed a five-year Bachelor of Architecture degree and at least five years of teaching or practice (may be combined), may be qualified for advanced standing. Each student will be considered individually. In such cases, the degree requirements are 36 units, including 8 units of specified courses, 15 units of thesis and thesis preparation and 13 units of electives. Students with advanced standing will typically be able to complete the degree program in three regular semesters. Admission with advanced standing is determined at the time of review for admission to the program.

36-Unit Advanced Standing Sample Curriculum

First Year, First Semester
• ARCH 511L Building Systems: Materials and Construction Units: 4 or
• ARCH 611 Advanced Building Systems Integration Units: 4
• ARCH 513L Seminar: Advanced Structures Units: 4
• ARCH 515L Seminar: Advanced Environmental Systems Units: 4
• ARCH 596 Building Science Thesis Preparation Units: 1
Total units: 13

First Year, Second Semester
• ARCH 613L Seminar: Structures Research Units: 4 or
• ARCH 615L Seminar: Environmental Systems Research Units: 4
• ARCH 692aL Building Science Thesis Units: 6
• Electives Units: 2
Total units: 12

Second Year, First Semester
• ARCH 692bL Building Science Thesis Units: 6
• Electives Units: 5
Total units: 11

Heritage Conservation (MHC)
Completion of this degree requires 48 units and includes 17 units of specified courses, 8 units of thesis preparation and thesis, and 23 units of elective courses as approved by the program director.

Master of Heritage Conservation
Los Angeles provides a unique laboratory in which to learn and challenge conservation issues. As a relatively young and diverse global city, it is the ideal place to explore a relatively young and diverse global discipline. Our wealth of recent past resources raise a new set of research challenges and the city’s richly diverse communities woven throughout the tapestry of the built environment push us to acknowledge the many layers of history and meaning revealed in the city. It is also a place forever seeking the new, providing opportunities to protect the best of the past while embracing the landmarks of the future.

Embedded in the School of Architecture at USC, heritage conservation students are instantly part of a multidisciplinary environment, linking landscape architecture, building science, architecture, and conservation. As such, the program curriculum is designed to expose students to a broad range of
topics including materials conservation, policy and planning, conservation theory, global conservation efforts, architectural and landscape history, best-practices in resource documentation and evaluation, sustainability, and historic site management. Students are also encouraged to take advantage of the many academic resources in the broader university, including taking courses in real estate, regional history, urban planning, and spatial sciences. Program faculty are leaders in the field, a blend of academics and practitioners that grapple with conservation in real time, seeking creative solutions that balance the integrity of the past with a sustainable future. Through this broad exposure, students begin to formulate their professional path within the discipline.

**Required Courses**
- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 2
- ARCH 691z Heritage Conservation Thesis Preparation and Thesis Units: 0

**48-Unit Sample Curriculum**

**First Year, First Semester**
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- Electives Units: 4

**Total units: 12**

**First Year, Second Semester**
- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 2
- Electives Units: 4

**Total units: 12**

**Second Year, First Semester**
- Electives Units: 12

**Total units: 12**

**Second Year, Second Semester**
- ARCH 551 Conservation Methods and Materials Units: 3
- Electives Units: 3

**Total units: 12**

**Requirements for Advanced Standing**

Students must have one of the following: an accredited graduate certificate in historic preservation or heritage conservation; professional degree or professional registration in architecture or engineering; graduate degree in a related field, such as architectural history, planning or history; and at least five years of teaching or practice (may be combined). Each student will be considered individually. Qualified students will be admitted to a three-semester program at the time of review of admission. Students with advanced standing must complete 36 units.

**Required Courses**
- ARCH 404 Topics in Modern Architecture in Southern California Units: 3
- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 2
- ARCH 691z Heritage Conservation Thesis Preparation and Thesis Units: 0

Second Year, First Semester
• ARCH 691b Heritage Conservation Thesis
  Preparation and Thesis Units: 6
• Electives Units: 7

Total units: 13

Landscape Architecture (MLArch)
USC offers a unique living laboratory of a diverse,
multicultural and geographically sophisticated territory,
which is exemplar for many of the world’s most pressing
landscape challenges within the context of a major urban
research university. Los Angeles, in particular, and
California, more generally, are extreme natural and social
geographies, where the evolving interplays of infrastructure,
landscape and urbanism require innovative and systemic
thinking.

Los Angeles, which Reyner Banham famously interpreted in
1971 as a construct of four ecologies, is an ideal urban nature
setting for studying landscape architecture—where urgent
contemporary issues can and must be addressed while testing
the boundaries of design research, design thinking and
implementation. The growing ecological crises and intense
population pressure of the city’s coasts, flatlands and
foothills are a pars pro toto, a microcosm, of the challenges
facing state, nation and globe, ones that necessitate a
paradigm shift to complex systems thinking.

Graduate landscape architecture at USC is based on the
knowledge and skills to engage complex issues, and to
undertake ambitious design explorations. Upon completion,
graduates are prepared for both design and leading leadership
opportunities in professional practice, public service as well
as in higher education; they are able to address the necessary
balance of ecology and development our future environments
will require.

The USC Landscape Architecture + Urbanism program
develops real-world issues, formulates and re-formulates
problems, explores and proposes operative strategies and
becomes part of the discourse with stakeholders and cities.
The resistive capacity of the landscape to the ever-
globalizing, homogenization of territories is created as a
means to shape possible futures for parks, neighborhoods,
city districts and the larger stewardship of the landscape.

Admission with No Previous
Professional Education (+3)
Individuals who have completed a four-year Bachelor of Arts
or Bachelor of Science degree, or its equivalent, with no prior
degree in landscape architecture, architecture or
environmental design, are eligible for admission to the
program. Preference for admission is given to those who
have completed a balanced undergraduate education that
includes study in the arts, sciences and humanities.

Applicants must document successful completion of a
college-level course in the natural sciences. Preparation in the
visual arts is strongly encouraged. A minimum of a one-
semester, college-level course in the visual arts, such as
drawing, sculpture, graphics and/or basic design, is required
before beginning the first semester of study. Courses in the
humanities, ecology, history of art, landscape architecture
and architecture are strongly encouraged, although not
required.

96-Unit Curriculum +3
Students admitted with no previous professional education
must complete 96 units, including 68 units of specified
courses, 16 units of electives of which a minimum of 14 must
be from the School of Architecture, and 10 units of Thesis
Option I or II. Electives must be part of a curricular plan
approved by the program director.

Sample Curriculum +3 (for students with no
previous professional education)

Year One, Semester One
• ARCH 439 Landscape Architecture Media
  Workshop Units: 1
• ARCH 537 Urban Plant Ecology: Environmental
  Perspectives Units: 3
• ARCH 539L Media for Landscape Architecture
  Units: 2
• ARCH 541aL Landscape Architecture Design
  Units: 6
• ARCH 565 Global History of Landscape
  Architecture Units: 3
• ARCH 567L Landscape Architecture Vertical
  Workshop and Debate Series Units: 0.5

Total units: 15.5

Year One, Semester Two
• ARCH 534 Landscape Construction: Topographic
  Design Units: 3
• ARCH 538L Urban Plant Ecology: Cultural
  Perspectives Units: 4
• ARCH 541bL Landscape Architecture Design
  Units: 6
• ARCH 548 Media for Landscape Architecture:
  3D Design Units: 3
• ARCH 567L Landscape Architecture Vertical
  Workshop and Debate Series Units: 0.5

Total units: 16.5

Year Two, Semester One
• ARCH 531 The Natural Landscape Units: 3
• ARCH 535 Landscape Construction: Performance
  Approaches Units: 3
• ARCH 542aL Landscape Architecture Design
  Units: 6
• ARCH 544 Urban Landscape: Process and Place
  Units: 3
• ARCH 567L Landscape Architecture Vertical
  Workshop and Debate Series Units: 0.5
**Total units: 15.5**

**Year Two, Semester Two**
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 545 Urban Landscape: Contemporary History and Prospect Units: 3
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- ARCH 635 Landscape Construction: Assembly and Documentation Units: 3
- Electives Units: 4

**Total units: 16.5**

**Year Three, Semester One**
- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- ARCH 697aL MLArch Thesis, Option II Units: 2 or
- ARCH 698aL MLArch Thesis, Option I Units: 2
- Electives Units: 6

**Total units: 17.5**

**Year Three, Semester Two**
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- ARCH 697bL MLArch Thesis, Option II Units: 8 or
- ARCH 698bL MLArch Thesis, Option I Units: 8
- Electives Units: 6

**Total units: 14.5**

**Admission with Advanced Placement (+2)**

Applicants who have completed a non-accredited, pre-professional undergraduate degree in architecture, landscape architecture or environmental design may be granted advanced placement of one or two semesters, subject to the review of the admission committee. Applicants granted advanced placement may be able to waive certain course requirements for the MLA program by demonstrating equivalencies in any of the required courses. The program director and faculty in charge of the specific curriculum areas will determine the studio and professional course requirements for each MLA student admitted with advanced placement. The following courses are prerequisites to be completed prior to matriculation or, on specific notice, in the first year of the program: history of landscape architecture (ARCH 565 or equivalent), landscape architecture construction (ARCH 534, ARCH 535 or equivalent), plant materials (ARCH 537, ARCH 538 or equivalent), media (ARCH 548 or equivalent).

**64-Unit Curriculum +2**

Advanced placement students must complete 64 units, including 37 units of specified courses, 16 units of electives of which a minimum of 12 must be from the School of Architecture, and 10 units of Thesis Option I or II. Electives must be part of a curricular plan approved by the program director.

**Sample Curriculum +2 (for advanced placement students admitted with pre-professional design degrees)**

**Year One, Semester One**
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 544 Urban Landscape: Process and Place Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
- ARCH 697aL MLArch Thesis, Option II Units: 2 or
- ARCH 698aL MLArch Thesis, Option I Units: 2
- Electives Units: 4

**Total units: 16.5**

**Year One, Semester Two**
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 545 Urban Landscape: Contemporary History and Prospect Units: 3
- ARCH 565 Global History of Landscape Architecture Units: 3
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- Electives Units: 3

**Total units: 17.5**

**Year Two, Semester One**
- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 531 The Natural Landscape Units: 3
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- ARCH 642L Landscape Architecture Design Units: 6
- Electives Units: 2

**Total units: 15.5**

**Year Two, Semester Two**
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- Electives Units: 2

**Total units: 16.5**
• ARCH 697bL MLArch Thesis, Option II Units: 8 or
• ARCH 698bL MLArch Thesis, Option I Units: 8
• Electives Units: 7

Total units: 15.5

Sample Elective Courses for All Curricula

Electives

• ARCH 404 Topics in Modern Architecture in Southern California Units: 3
• ARCH 407 Advanced Computer Applications Units: 4
• ARCH 440m Literature and the Urban Experience Units: 4
• ARCH 507 Theories of Computer Technology Units: 3
• ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
• ARCH 524 Professional Practicum Units: 1 (max 2)
• ARCH 536 The Landscape Planning Process Units: 3
• ARCH 540 Topics in Media for Landscape Architecture Units: 2 (max 6)
• ARCH 546 Topics in Landscape Architecture: Issues and Practices Units: 3 (max 6)
• ARCH 547 Urban Nature Units: 3
• ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
• ARCH 549 Fundamentals of Heritage Conservation Units: 3
• ARCH 550 Heritage Conservation Policy and Planning Units: 3
• ARCH 552 Introduction to Historic Site Documentation Units: 2
• ARCH 553 History of American Architecture and Urbanism Units: 3
• ARCH 566 Cross Cultural Topics in Landscape Architecture History Units: 3 (max 6)
• ARCH 606 Advanced Architectural Theory Units: 2
• ARCH 608 Urban Theory: Los Angeles Case Study Units: 2
• ARCH 635 Landscape Construction: Assembly and Documentation Units: 3
• PPD 527 The Social Context of Planning Units: 2
• PPD 530 Historical Analysis of Urban Form and Planning Practice Units: 2
• PPD 533 Planning History and Urban Form Units: 2
• PPDE 632 Sustainable Cities Units: 4
• SSCI 581 Concepts for Spatial Thinking Units: 4
• SSCI 583 Spatial Analysis Units: 4

Thesis or Directed Research Option

In addition to the opportunity to initiate an independent written thesis, students are provided the option to undertake independent design research on important urban issues and projects already in progress within the School of Architecture. Whichever option is taken, students are supported in their work by a faculty advisory team including a principal critic.

University Certificate

Architecture Certificate

The focus of this program is on understanding the broad and complex role of architecture within the urban context. Studies focus on cities throughout the world where conditions of increasing density, environmental challenges and cultural complexity require design initiatives that support amenity, sustainability and cultural meaning. The certificate is open to graduate students not pursuing a Master of Architecture or Master of Advanced Architectural Studies degree.

Course Requirements

Completion of the certificate program requires a minimum of 16 units.

Core Courses

• ARCH 553 History of American Architecture and Urbanism Units: 3
• ARCH 561 Urbanism Themes and Case Studies Units: 2
• ARCH 562 Architecture Themes and Case Studies Units: 2
• ARCH 563 Contemporary Architectural Theory Units: 2
• Electives Units: 7

Sample Electives

(or as approved by the program faculty adviser or director)

• ARCH 515L Seminar: Advanced Environmental Systems Units: 4
• ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
• ARCH 550 Heritage Conservation Policy and Planning Units: 3
• ARCH 564 Descriptive and Computational Architectural Geometry Units: 2
• ARCH 606 Advanced Architectural Theory Units: 2
• ARCH 607 Advanced Computation Units: 2
• ARCH 609 Advanced Fabrication Units: 2
• ARCH 611 Advanced Building Systems Integration Units: 4
• ARCH 614 Contemporary Issues in Architecture: A Critical Dialectic Units: 3
Note: 
*Students in the Master of Heritage Conservation Program should substitute core class ARCH 553 with another elective.

Building Science Certificate
Building science at USC recognizes that exemplary architecture requires a creative response to natural forces, based on informed good judgment in the areas of architectural technology. The Certificate in Building Science is intended as a supplement for students enrolled in graduate course work in architecture, landscape architecture, historic preservation, urban planning or related disciplines.

**Course Requirements**
Completion of the certificate requires a minimum of 16 units. Students must take three core courses. Electives in building science may be taken to complete the program requirements.

**Required Courses**
Choose three of the following six courses:

- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 513L Seminar: Advanced Structures Units: 4 or
- ARCH 613L Seminar: Structures Research Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4

- Elective(s) in Building Science Units: 4

**Sample Electives**
(or as approved by the program faculty adviser or director)
- ARCH 507 Theories of Computer Technology Units: 3
- ARCH 517 Current Topics in Building Science Units: 1 (max 6)
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 573 Seismic Design Units: 2
- ARCH 577L Lighting Design Units: 4
- One from the list of required courses that was not yet selected Units: 4

**Note:**
Required courses for this certificate cannot also be required courses in the student's major in the School of Architecture.

Heritage Conservation Certificate
This program is directed at professionals who wish to augment their academic credential for their involvement in heritage conservation projects and at graduate students who wish to complement a degree in architecture, landscape architecture, planning, public art administration, geography, anthropology or other related disciplines.

**Required Courses (16 units)**

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 553 History of American Architecture and Urbanism Units: 3
- Electives Units: 4

**Sample Electives**
(or as approved by the program faculty adviser or director)
- ARCH 554 Heritage Conservation Practicum — Advanced Documentation Units: 3
- ARCH 556 Readings in Heritage Conservation Theory Units: 2

Landscape Architecture Certificate
This program is intended to introduce at the graduate level the basic subjects inherent to the field of landscape architecture: plant materials suitable to urban conditions; urban utility and transportation systems in relation to topography, natural drainage and pathways; plant and wildlife communities; as well as inquiries about landscape infrastructure and ecology, and the history of human settlement in the evolution of urban landscapes. Southern California and Los Angeles provide an exceptionally valuable natural and socio-cultural laboratory for landscape architecture studies.

**Course Requirements**
Completion of the certificate program requires a minimum of 15 units. Students must take four core courses and select 3 units of electives from the approved list approved by the director of the graduate landscape architecture program.

**Required Courses**

- ARCH 531 The Natural Landscape Units: 3
- ARCH 537 Urban Plant Ecology: Environmental Perspectives Units: 3
- ARCH 544 Urban Landscape: Process and Place Units: 3
- ARCH 565 Global History of Landscape Architecture Units: 3
- Electives Units: 3

**Sample Electives**
(or as approved by the program faculty adviser or director)
- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 534 Landscape Construction: Topographic Design Units: 3
- ARCH 535 Landscape Construction: Performance Approaches Units: 3
- ARCH 536 The Landscape Planning Process Units: 3
Sustainable Design Graduate Certificate

The Sustainable Design Graduate Certificate is a multidisciplinary program open to USC students pursuing graduate degrees in many disciplines that may be interested in the sustainability of the built environment. Sustainability is an imperative for our planet as climate change, population growth and dwindling oil supplies are all reminders that our resources are finite and we need a new paradigm to adjust to these global changes. The built environment represents the majority of our energy use and design can help reduce both the embodied and operational energy of our buildings and urban landscape. This certificate provides students with the tools necessary to understand and quantify sources of energy use in buildings and landscapes and to use design of natural and man-made systems to reduce their energy use. This certificate will give students the background to help them make sustainable design choices through informed decision-making that considers the performance of the built environment related to the energy required to make it, the energy it absorbs or releases, the energy required to maintain it, and the energy required to replace it. Environmental, economic and socially responsible solutions will be explored through the course work.

Applicants for the Certificate in Sustainable Design who are currently enrolled in a program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the student services adviser.

Applicants for the Certificate in Sustainable Design who are not matriculated in a master's-level program at USC must submit a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

Course Requirements

Completion of the certificate program requires a minimum of 16 units.

Core Courses

- ARCH 515L Seminar: Advanced Environmental Systems Units: 4 or
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 579 Sustainable Building and Environment using LEED Metrics Units: 3
- Electives Units: 6

Sample Electives **

(or as approved by the program faculty adviser or director)

- ARCH 531 The Natural Landscape Units: 3
- ARCH 537 Urban Plant Ecology: Environmental Perspectives Units: 3
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 599 Special Topics Units: 2, 3, 4 ***
- ENE 505 Energy and the Environment Units: 3
- PPD 644 Shaping the Built Environment Units: 4
- PPDE 632 Sustainable Cities Units: 4

Notes:

** Electives for the certificate may not include courses required by the student's other degree programs.
*** When approved by the director of the Chase L. Leavitt Graduate Program of Building Science

For current USC students enrolled in the Master of Building Science program

Core Courses

- ARCH 511L Building Systems: Materials and Construction Units: 4 or
- ARCH 611 Advanced Building Systems Integration Units: 4 *
- ARCH 615L Seminar: Environmental Systems Research Units: 4 *

(or as approved by the program faculty adviser or director)

- ARCH 511L Building Systems: Materials and Construction Units: 4 **
- ARCH 611 Advanced Building Systems Integration Units: 4 **
- ARCH 615L Seminar: Environmental Systems Research Units: 4 **
Architecture planning, as follows:

72 units, including 36 units in architecture and 36 units in Requirements for completion of the dual degree program are

Qualified students who are admitted to the degree program normally requires five semesters in design of built environments and public policy. This dual commitments in both disciplines and to knowledge of urban design, public policy, and architectural

This dual degree program facilitates highly related crossdisciplinary studies in architecture and in planning at the master's level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins and development of the philosophies, theories, and practices of planning and heritage conservation. This curriculum has been developed so that students will graduate from this program with a broad practical knowledge of the laws, regulations, and policies that apply to planning and conservation practice in the United States and internationally. This expertise will include knowledge of urban design, public policy, and architectural

**Notes:**

*If not used as a required course for MBS degree

"If not used as a required course for MBS degree and not used as a core course above

*** When approved by the director of the Chase L. Leavitt Graduate Program of Building Science

Each academic unit, department or program will determine the number of units completed that may be applied to the student's master or doctoral degree.

**Dual Degree**

**Master of Advanced Architectural Studies/Master of Planning (MAAS/MPi)**

The Master of Planning/Master of Advanced Architectural Studies dual degree program facilitates highly related crossdisciplinary studies in architecture and in planning at the master's level. This program offers students interested in developing a career in urban design an opportunity to make more substantial commitments in both disciplines and to achieve a more coherent and extensive knowledge in the design of built environments and public policy. This dual degree program normally requires five semesters in residence.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program. Such students must already possess a five-year professional degree in architecture.

**Requirements**

Requirements for completion of the dual degree program are 72 units, including 36 units in architecture and 36 units in planning, as follows:

**Architecture**

- ARCH 517 Current Topics in Building Science Units: 1 ***
- ARCH 531 The Natural Landscape Units: 3
- ARCH 537 Urban Plant Ecology: Environmental Perspectives Units: 3
- ARCH 557 Sustainable Conservation of the Historic Built Environment Units: 2
- ARCH 599 Special Topics Units: 2, 3, 4 ***
- ENE 505 Energy and the Environment Units: 3
- PPD 644 Shaping the Built Environment Units: 4
- PPDE 632 Sustainable Cities Units: 4

**Electives:**

- ARCH 793aL Architecture Directed Design Research Option I Units: 2
- ARCH 793bL Architecture Directed Design Research Option I Units: 6 or
- ARCH 795aL Architecture Thesis Option II Units: 2
- ARCH 795bL Architecture Thesis Option II Units: 6
- Elective* Units: 8

**Public Policy**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2

Note:

2-unit courses may be offered in seven-and-a-half week blocks.

**Additional Requirements**

**Concentration Methodology:** A 4-unit course selected from the concentration list shown in the Master of Planning program.

**Planning Studios:** PPD 531L (4, 4) to total 8 units. Students must complete 8 units of domestic or international planning studies under PPD 531L (4) to satisfy this requirement. A maximum of 12 units may be taken.

**Electives:** A total of 8 units of electives taken within the USC Price School of Public Policy. Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

**Master of Heritage Conservation/Master of Planning (MHC/MPi)**

The Master of Heritage Conservation/Master of Planning dual degree program facilitates highly related crossdisciplinary studies in heritage conservation and in urban planning at the master's level. The primary objective of the dual degree curriculum is to impart to students a basic familiarity with the origins and development of the philosophies, theories, and practices of planning and heritage conservation. This curriculum has been developed so that students will graduate from this program with a broad practical knowledge of the laws, regulations, and policies that apply to planning and conservation practice in the United States and internationally. This expertise will include knowledge of urban design, public policy, and architectural
and planning history and theory. Students will be expected to understand the critical methodological tools necessary for a professional engaged in the investigation, interpretation, and evaluation of the urban built environment.

Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program.

**Requirements**

Requirements for completion of the dual degree program are 60 units, including 30 units in heritage conservation and 30 units in planning, as follows:

**Architecture**

- ARCH 549 Fundamentals of Heritage Conservation Units: 3
- ARCH 550 Heritage Conservation Policy and Planning Units: 3
- ARCH 551 Conservation Methods and Materials Units: 3
- ARCH 552 Introduction to Historic Site Documentation Units: 2
- ARCH 553 History of American Architecture and Urbanism Units: 3
- ARCH 555 Global Perspectives in Heritage Conservation Units: 2
- ARCH 691a Heritage Conservation Thesis Preparation and Thesis Units: 2
- ARCH 691z Heritage Conservation Thesis Preparation and Thesis Units: 0
- ARCH-Electives Units: 6

**Total units: 30**

**Public Policy**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12
- PPD-Concentration - Gateway course Units: 4
- PPD-Concentration - Methodology course Units: 4
- PPD-Electives Units: 6

**Total units: 30**

**Additional Requirements**

**Concentration Methodology:** Students in this program will be required to select a concentration for the Master of Planning program.

**Electives:** Electives must be taken within the USC School of Architecture or the Price School of Public Policy.

**Degree Completion Requirements:** Dual degree students, like all other MPL students, must take a comprehensive examination and fulfill the internship requirement. In addition, like all other MHC students, dual degree students will be expected to complete a thesis.

**Master of Landscape Architecture/Master of Planning (MLArch/MPl)**

Qualified students who are admitted to the Master of Landscape Architecture program in the School of Architecture and to the graduate program in the USC Price School of Public Policy may complete both degrees in a highly integrated five-seven semester program.

Completion of the dual degree requires 24 units of courses in urban planning, 10 units of thesis option I or II and either 48 units of landscape architecture (for those students admitted with advanced placement), or 74 units of landscape architecture (for those students admitted to the three-year curriculum).

**Master of Landscape Architecture (Advanced Placement)/Master of Planning**

Qualified students who have completed a pre-professional undergraduate degree in landscape architecture or environmental design, or a professional degree in architecture and are admitted to the graduate program in the School of Architecture with advanced placement and to the USC Price School of Public Policy may complete both degrees in a highly integrated six-semester program.

Completion of the dual degree requires 82 units, including 48 units of courses in landscape architecture, 24 units of courses in urban planning, and 10 units of thesis option I or II.

**Landscape Architecture**

- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 531 The Natural Landscape Units: 3
- ARCH 544 Urban Landscape: Process and Place Units: 3
- ARCH 545 Urban Landscape: Contemporary History and Prospect Units: 3
- ARCH 548 Media for Landscape Architecture: 3D Design Units: 3
- ARCH 565 Global History of Landscape Architecture Units: 3
- ARCH 567L Landscape Architecture Vertical Workshop and Debate Series Units: 0.5
- ARCH 697aL MLArch Thesis, Option II Units: 2
- ARCH 697bL MLArch Thesis, Option II Units: 8
- ARCH 697zL MLArch Thesis, Option II Units: 0
- ARCH 698aL MLArch Thesis, Option I Units: 2
- ARCH 698bL MLArch Thesis, Option I Units: 8
- ARCH 698zL MLArch Thesis, Option I Units: 0
Electives:
10 units of elective courses taken in the School of Architecture.
*Electives must be 400-level and above.

Studios
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 642L Landscape Architecture Design Units: 6

Total units for MLA: 58

Planning
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2
- RED 573 Design History and Criticism Units: 2

Electives:
8 units of elective courses taken within the USC Price School of Public Policy.

Total units for MPI: 24

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

Total units for dual degree: 82

Master of Landscape Architecture (Three-Year Curriculum)/Master of Planning
Qualified students admitted to the Master of Landscape Architecture three-year curriculum in the School of Architecture and to the USC Price School of Public Policy may complete both degrees in a highly integrated seven-semester program. Completion of the dual degree requires 108 units, including 74 units of courses in landscape architecture, 24 units of courses in urban planning, and 10 units of thesis option I or II.

Landscape Architecture
- ARCH 439 Landscape Architecture Media Workshop Units: 1
- ARCH 530 Landscape Architecture Practice Units: 3
- ARCH 531 The Natural Landscape Units: 3
- ARCH 534 Landscape Construction: Topographic Design Units: 3

Electives:
4 units of elective courses taken in the School of Architecture.
*Electives must be 400-level and above.

Studios
- ARCH 541aL Landscape Architecture Design Units: 6
- ARCH 541bL Landscape Architecture Design Units: 6
- ARCH 542aL Landscape Architecture Design Units: 6
- ARCH 542bL Landscape Architecture Design Units: 6
- ARCH 642L Landscape Architecture Design Units: 6

Total units for MLA: 84

Planning
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
• PPD 527 The Social Context of Planning Units: 2
• PPD 533 Planning History and Urban Form Units: 2
• RED 573 Design History and Criticism Units: 2

Electives: 8 units of elective courses taken within the USC Price School of Public Policy.

Total units for MPI: 24
Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

Total units for dual degree: 108

Doctoral Degree

Architecture (PhD)
The School of Architecture offers the PhD in Architecture, designed to prepare individuals for university level teaching and professional research and for leadership positions in industry and professional architectural practice. Doctoral students must consult the Graduate School section for regulations and requirements pertaining to its degrees.

Students should also consult the Academic Policies section for additional information.

Completion of degree requirements is assumed to take a minimum of three years of approved graduate study and research beyond the bachelor's degree in a related field or a bachelor's degree and related practical experience. For the PhD student without Advanced Standing, a minimum of 48 graduate units completed in residence on the University Park Campus in Los Angeles is required. Full-time study is represented by enrollment in six units during the semester. Usually, the school and the student's qualifying exam committee insist on a clear and mutually understood commitment of time and energy by the student to ensure significant involvement in the doctoral learning experience.

Application and Admission
Admission to the PhD is granted by the Dean of the School of Architecture. However, only a letter from the Office of Graduate Admission constitutes an official offer of admission; correspondence with department chairs or individual faculty members does not constitute admission.

Priority consideration for PhD student funding will be given to those applicants who submit all application materials by December 1. The university will continue to accept and consider applications submitted after December 1. Those who wish to submit applications after the deadline should check with the School of Architecture. Applications for admission to the PhD program are made once each year for fall semester admission.

The admission decision is made using criteria which include verification that the applicant has a bachelor's degree from an accredited college or university, has maintained a high grade point average in the last 60 units of undergraduate work and has earned a competitive score on the verbal and quantitative portions of the Graduate Record Examinations (GRE). Other elements of the applicant's educational and experiential background are also evaluated, including performance in other advanced degrees.

Each applicant should submit the following: (1) one copy of official transcripts of all previous college and university work (be sure that these official transcripts show an awarded degree where appropriate); (2) one copy of GRE scores; (3) copy of TOEFL or IELTS scores for international students whose first language is not English; (4) a 1000-word essay discussing the applicant's background; reasons for wanting to pursue a doctoral degree; and identifying his or her personal, educational and professional goals; (5) an up-to-date resume, including academic and professional accomplishments; (6) three letters of recommendation, at least two from previous instructors, others from instructors or from professional supervisors or colleagues (the letters should indicate the applicant's academic and professional accomplishments and potential); (7) a completed USC Graduate Admission Application, along with the nonrefundable application fee; and (8) samples of work such as a portfolio, publications, software programs, etc. The program is intended for people with considerable intellectual interests. Additional requirements for international students are listed under Admission of International Students.

Upon admission to the program, each student will be assigned a faculty adviser who will oversee his or her program.

Doctoral Admission with Advanced Standing
Students entering with a Master of Architecture degree or Master of Building Science degree (or their equivalent) from USC or another university may be admitted with Advanced Standing. A minimum of 36 units of course work beyond the first graduate degree, exclusive of 794 Doctoral Dissertation preparation, is required for doctoral degree students with a USC Master of Building Science degree admitted with Advanced Standing. For those students entering with a Master of Architecture degree or Master of Building Science degree (or their equivalent) from another university and admitted with Advanced Standing, a minimum of 40 units of course work beyond the first graduate degree is required. Additional course work may be required if deemed necessary by the student's faculty. See Doctoral Admission with Advanced Standing in the Graduate School section.

Transfer Credits
The application of any available transfer credits toward a graduate degree at USC will be determined by the School of Architecture, based on the semester units available for transfer as shown in the Transfer Credit Statement. Work experience in architecture or closely related activities should be of benefit to the students involved, but will not be considered equivalent to academic education. A maximum of 6 units of transfer credit may be applied toward a doctoral degree for those admitted with Advanced Standing. Admission with Advanced Standing is based upon a completed master's degree. The only course work available for transfer credit is course work taken after completion of that degree. No exceptions are allowed.

Students entering the doctoral program with a master's degree or graduate course work in a field other than architecture may receive up to 12 units of transfer credit toward the PhD.

Deferral of Enrollment
Admission to the university is granted for a specified semester, and it is expected that students will begin their
programs during that semester. The school will normally allow students to defer their enrollment up to one year from the admission semester. Students who wish to defer enrollment should notify the school in writing no more than 60 days before the beginning of the semester of admission or they may be required to reapply for admission. Please note that more stringent regulations apply to international students. See the Graduate Admission section for further information.

**Admission to Candidacy**
Acceptance to graduate standing does not in itself imply that the student is admitted or will be admitted to candidacy for an advanced degree. Application for admission as a candidate for an advanced degree is a separate and subsequent step. See the Graduate School section for further information.

**General Requirements for the PhD Degree**

**Screening Procedures**
PhD students are required to pass a screening procedure before the student has taken more than 24 units (including research courses). Passing this procedure is prerequisite to continuation in the doctoral program. This is designed to ensure that only those students who have demonstrated intellectual and scholarly potential continue in the program. Students who fail the screening procedure will be advised that they have not been recommended to continue in the PhD program and that any additional work may not be counted toward the degree.

Prior to screening, each student prepares a résumé and a preliminary statement describing the fields of specialization. After passing the written screening examination, the student meets with the committee to discuss the proposal for course work, fields of specialization and research interests. The committee chair serves as the student's principal adviser in preparing for the qualifying examination.

**Qualifying Exam Committee**
Each student selects a qualifying exam committee, which officially oversees the student's academic program through the qualifying examination. The qualifying exam committee should be established at least one semester prior to taking the qualifying examination. This should be accomplished by the beginning of the second year, following successful screening. An appointment of committee form, which can be obtained from the Graduate School Website (usc.edu/schools/GraduateSchool), should be used to establish the qualifying exam committee. Students initiate the paperwork and submit the signed form to the dean's office. Five committee members are designated to provide guidance in the field developed by the student. A minimum of three members, including at least one tenured member, must be from among the faculty participating in the PhD in Architecture degree program, and at least one member must be from outside the School of Architecture. This committee bears responsibility for recommending the student for admission to candidacy. After approval of the student's program and time schedule, the program is submitted in writing to the doctoral director. Students will formalize their relationship with their committees through the development of a study plan which specifies all courses completed, date of screening decision, the area of concentration, and which courses will be taken and when, in order to prepare for the qualifying examination. This study plan will be signed by the student, the members of the qualifying exam committee and the faculty doctoral director. It will be filed in the doctoral office.

**Qualifying Examination**
Students must complete at least 24 units of course work in the doctoral program with a GPA of at least 3.0 before attempting the qualifying exam. The qualifying exam committee prepares a comprehensive written examination covering the field of study. The exact format for the written portion is determined by each committee in advance. Answers to the questions in the written portion are graded by all committee members.

Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the PhD degree.

The objective of the qualifying examination is to evaluate the student's knowledge and to serve as an instrument to demonstrate competence in the student's chosen field of concentration in preparation for candidacy. Qualifying examinations are scheduled once each year during August. The oral phase of the examination must be completed within 60 days following the written segment. Both parts of the examination must be passed in order to qualify. Failure on one of the two parts of the examination does not require retaking both parts. Only the part failed must be redone.

The examination will be collaboratively designed by the instructors of the core courses and oriented toward testing students' ability to integrate material from these courses. A portion of this examination will focus on methodological issues. The written portion of the examination will be administered during a full-day session.

The process of grading examinations will be accomplished in two ways. For the written examination, the grading will be done by a committee comprising the core course instructors and the doctoral director. For the oral examination, grading will stay with the qualifying exam committee. Upon passing both the core and oral portions of the examination, the student will be expected to reduce the qualifying exam committee to a dissertation committee. See General Requirements for the Doctor of Philosophy Degree.

**Dissertation Committee**
Once students pass the qualifying examination, the qualifying exam committee recommends the student for candidacy and a dissertation topic is approved, a dissertation committee must be formed as soon as possible. The size may range from three to five members, one member of which must be from outside the school.

**Dissertation Proposal**
After the successful completion of the qualifying examination, the doctoral student will be required to present a complete research proposal for the dissertation. The proposal will be circulated for review and evaluation by the dissertation committee. This proposal should include the
methodology, research design, literature review and instrumentation (if applicable). After this step has been completed, further work leading to the completion of the dissertation is authorized.

Defense of the Dissertation
Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft. After the dissertation committee has approved the dissertation in substance, the candidate must defend it before the committee and other interested doctoral program faculty and colleagues. Successful completion of the oral defense marks the ultimate step for the candidate within the School of Architecture. The candidate must be certain that the dissertation also meets specific university requirements before acceptance by the Graduate School. See the Graduate School section for further information.

All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation.

Unit Requirement and Time Limit
The PhD degree in Architecture requires a minimum of 72 units (including a minimum of 4 units of ARCH 794a, ARCH 794b, or ARCH 794z) of graduate level course work, and has a minimum residency requirement of three years. Students must maintain a 3.0 average GPA and complete all required course work within five years. The maximum time for the completion of all requirements for the doctoral degree is eight years.

A leave of absence can be granted upon approval of the guidance or dissertation committees. There is no automatic readmission if the student fails to maintain continuous registration or fails to meet academic standards.

Core Curriculum
Year 1: Basic and professional studies
Acquire at a minimum the knowledge that is characteristic of the master's degree students or equivalent and define the research program.
Year 2: Advanced studies
Year 3: Research and dissertation

Undergraduate Programs

Bachelor of Architecture
The NAAB-accredited professional undergraduate program is designed to provide an exceptional university education. Students study architecture as well as other basic disciplines throughout the five-year program. We encourage students to pursue minors or elective courses to combine their interest in architecture with fields such as entrepreneurship, construction management, real estate development or animation and digital arts.

Beginning in the first semester, students will be immersed in both architectural and general university studies. The first six semesters provides a foundation in understanding architecture through studies in design, technology, and history, concluding with integrative studies that help develop a deeper understanding of becoming an architect. The remaining four semesters provide the opportunity to explore many aspects of architecture and to develop individual strengths and interests. Studies will conclude with a comprehensive project with a component of directed research defined by the student based on choice and initiative.

Bachelor of Science in Architectural Studies
This four-year, non-professional architectural studies degree program provides specialization in related fields and an alternative path to graduate studies in architecture or related fields. Students accepted into the professional Bachelor of Architecture program are eligible to elect this degree option at the end of the second year of study.

The curriculum includes a core program in the first two years identical to the Bachelor of Architecture professional degree program. In the second two years, students explore many aspects of architecture and related fields and develop individual strengths and interests. Students take a specialization course in the second year, which introduces them to related fields and alternative degree options. Students

Required Courses

- ARCH 419 Architectural Sustainability Tools and Methods Units: 3
- ARCH 513L Seminar: Advanced Structures Units: 4
- ARCH 515L Seminar: Advanced Environmental Systems Units: 4
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 611 Advanced Building Systems Integration Units: 4
- ARCH 613L Seminar: Structures Research Units: 4
- ARCH 615L Seminar: Environmental Systems Research Units: 4
- ARCH 790 Doctoral Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- ARCH 791 Proposal for Doctoral Dissertation Units: 1

A minimum of 4 units of:

- ARCH 794a Doctoral Dissertation Units: 2
- ARCH 794b Doctoral Dissertation Units: 2
- ARCH 794z Doctoral Dissertation Units: 0
- GRSC 850a The Professoriate: Preparing for the Future Units: 2
- GRSC 850b The Professoriate: Preparing for the Future Units: 2
- Electives Units: 17
who do not wish to pursue the five-year Bachelor of Architecture, can elect to move into the four-year, non-professional Bachelor of Science in Architectural Studies (BS in A.S.) program with a degree plan identifying electives that fulfill an area of concentration. The four-year program concludes with a capstone program, which allows all degree candidates to work collaboratively on areas of common interest.

Global Programs and Other Enrichment Opportunities

Each year, a set of different global programs are offered to our fourth-year undergraduate students during their topic studio semesters. There are typically one to two programs offered each semester (fall, spring and summer), with recent locations being in Italy, China, France and Spain. Each offering consists of a coordinated 17-unit, full semester program which includes a studio course in design and required seminars in history and theory; technology; and cultural studies. Students must be in good academic standing to be considered and to participate. Some examples of recent programs include:

Spring Program in Italy: Milan-Como

For many years, selected students have been able to participate in the Anthony A. Marnell II Italian Architecture Studies Program, located in Milan, a city at the forefront of Italian modern architecture and the center of Italian design. Students are housed and have classroom and studio space in Como, a small and pleasant lakeside town about 30 miles from Milan. The Milan-Como Program is one of only two U.S. schools of architecture programs in this part of Italy. Strong relationships are fostered with the place, its people and its culture. Visits are planned within Italy and throughout Europe to expose the students to the full range of historical and contemporary architecture.

Fall Program in Spain: Barcelona

The School of Architecture’s study abroad program in Barcelona provides a place for fourth year architecture students in a course of study in urbanism and architecture of the city. The goal is to provide a broad overview of that city's major urban and architectural sites, topography and systems of urban organization. Students will be immersed in the issues of urban design and architecture that have shaped the city, and will develop critical thinking and methodologies of analysis by designing in the urban context. The course of study will examine this fascinating culture that is committed to design and architectural practices that engage and challenge European traditional and modernist orthodoxies. Barcelona is both a modern and historical site, beginning as a small Roman colony from the time of Augustus, and surviving Visigothic, Moorish and Frankish invasions. Its political and economic history has shaped the city, with the most forceful expression of its national aspiration occurring in the 19th century, the time most associated with the architect Antoni Gaudi. It is city committed to a culture of visual design that has realized many ambitious urban plans, growing from its commitment to representing national pride. It is a dynamic site for the study of ancient and contemporary urbanism as it has achieved word-class status among cities as a locus for new world architecture. The program will combine field work, precedent analysis and discussions with the broader design community in Barcelona.

Examples of public space and architecture from antiquity to the 21st century will be studied as part of the context of a city that has successfully projected its future without neglecting its past and present. Visits are planned within Spain and throughout Europe to expose students to the full range of historical and contemporary architecture.

Fall Program in Asia: Emphasis on China and Urbanism

The Asian Architecture and Landscape Urbanism program provides participating students the opportunity to engage and comprehend the full depth and global ramifications of the rapid changes that are taking place in China and other cities in Asia. The complex and multiple factors that inform urbanism and define the built environment will be explored and analyzed both in terms of historical cultural source and contemporary manifestation. Participants in these academic engagements will include regional as well as international professionals, academics, historians, economists and local inhabitants through direct engagements required of the course curriculum. Students will bring this knowledge and point of view back to the school after their semester away to expand the discussion of urbanism to the larger community of students and faculty at the School of Architecture.

Summer Semester in South America: Emphasis on Architecture and Development

The School of Architecture offers a summer program based at the Fundação Armando Penteado (FAAP), which includes travel throughout Mexico, Argentina and Peru before arriving at São Paulo at the midterm point. USC students work on a studio project in collaboration with students from the FAAP and the Universidad Iberoamericana.

The purpose of this program is to offer students the opportunity to:

• work on a real project in a country where development is a prime goal of the government and where opportunities for architecture students to complete internships and gain employment after graduation are expanding;

• work with the physical requirements, governmental regulations and economic situations that affect the design of projects that can be realized;

• become familiar with local practitioners in order to learn about architectural practice in these areas; and

• expand appreciation of the importance of the rising status of Brazil as a world power in the current market and introduces USC students to current practitioners there.

Exhibits of Student Work

Throughout the year, selected students are given the opportunity to show work in organized exhibitions, as well as to be included in our ongoing student work publication INDEX. The school seeks multiple formats and opportunities to have student work shown in the community at large and at
cultural institutions throughout the city and the world, with recent exhibits in Shanghai, France, Italy and Washington, DC.

**Field Trips**

Field trips to locations in the larger California region as well as through the United States are organized each year in support of various aspects of the academic program. In addition, students regularly visit the many sites of significance in the local Los Angeles area on an almost weekly basis for their general course work and personal interest.

**Lectures and Exhibitions**

The school provides significant service to the community and profession through public programs, and the participation of faculty members in community and professional activities. With the support and cooperation of the Architectural Guild, the school generates a vigorous program of lectures, exhibitions and tours.

Some of the world's most distinguished and emerging architects, landscape architects and designers have lectured at USC. These include Frank Gehry, Zaha Hadid, Mario Botta, Yona Friedman, Peter Cook, Yung Ho Chang, Thom Mayne, Michael Maltzan, Hitoshi Abe, Mia Lehrer, Fumihiko Maki, Jean Nouvel, Will Bruder, Francois Roche, Enrique Norten, Adriaan Geuze, Kazuyo Sejima, Ai Wei Wei, Rem Koolhaas, Shigeru Ban, Hans Hollein, Charles Waldhem, Nader Tehrani, Cesar Pelli, Javier Sanchez, Laurie Olin, Eric Owen Moss and Pei Zhu.

The school also provides the Helen Lindhurst Architecture Gallery and the Verle Annis Gallery for major architectural exhibitions by visiting guests, USC faculty, students and alumni.

**Graduate Programs**

The school offers interrelated graduate programs in architecture, landscape architecture, building science and heritage conservation as well as three dual degree programs with the USC Price School of Public Policy.

**Admission to Graduate Programs**

Credentials for admission must include a complete record of all previous college or university work. The applicant must request the registrar of each college or university attended to forward official transcripts of record directly to the Office of Admission.

Following are the basic requirements for admission to the graduate programs: (1) the appropriate degree from an accredited college or university; (2) satisfactory scores on the verbal, analytical and quantitative portions of the aptitude test of the Graduate Record Examinations; (3) intellectual promise and clear study intentions that indicate an ability to do acceptable graduate work; (4) a portfolio of design work*; (5) strong personal qualifications.

All students must speak and write English. Foreign students must demonstrate such ability by taking the TOEFL or IELTS test before leaving their home countries, and, if necessary, by further tests upon arrival on campus.

International students may be required to enroll in American Language Institute (ALI) English courses, based on scores on the English Placement Tests. The cost of these additional courses is the responsibility of the student. In addition, international students should be aware that they may have to defer enrollment in some major courses because of the ALI courses, extending the number of semesters required to complete the program and increasing the overall tuition expense. International students are urged to read with care all information sent to them about English requirements and to take as many English language courses as possible prior to coming to the United States.

*The Master of Building Science and Master of Heritage Conservation programs accept computer programs, papers and other work as portfolio work.

Correspondence with the dean or individual faculty members does not constitute admission to the Graduate School or to the School of Architecture. Only a letter from the Director of Admissions grants official admission.

**Graduate Program Policies**

Graduate students are expected to complete between 12 and 16 units per semester, spring and fall, depending on the program in which they are enrolled.

A minimum grade of C (2.0) is required in a course to receive graduate credit. A grade point average of at least B (3.0) on all units attempted at USC toward a graduate degree is required for graduation. A total grade point average of at least a B (3.0) in all courses applied toward completion of a certificate is required prior to being awarded a particular certificate. Course work taken on a pass/no pass basis cannot be applied toward a graduate degree or a certificate. If a student does not meet these minimum grades the faculty member should meet with the student to provide timely advisory reviews.

Failure to complete program course work on schedule will result in the loss of financial awards from the School of Architecture and/or may result in suspension from the program upon recommendation from the program director and approval by the Dean of the School of Architecture and the Associate Vice Provost for Graduate Programs.

Additional semesters may be taken to complete the thesis or directed design research when appropriate.

All appeals will be reviewed initially by the director(s) of the appropriate graduate program and then by a committee consisting of all graduate program directors (with the exception that design courses will be reviewed by the design review committee). Their recommendation(s) will be forwarded to the dean for consideration and action, and then forwarded to the Associate Vice Provost for Graduate Programs. All communications must be in writing.

**Thesis Committees**

In the School of Architecture's master's programs, thesis committees must include a minimum of three members. The chair will be a full-time faculty member in the student's discipline in architecture. The second member must be a full- or part-time USC faculty member, not necessarily from the School of Architecture. The third member may be either a
The MA program, Curatorial Practice, located in Los Angeles, attract a highly selective student body. The expanded field of production offered by the Roski School's renowned practitioners attracts students from across the world for its breadth and intensity, and a faculty of national and international significance in the local Los Angeles area on an almost weekly basis for their general course work and personal interest. USC Roski trains artists, designers and curators in aesthetic acuity, technical ability and critical insight. The programs encourage interdisciplinary approaches to studio art, design, curatorial practice and critical studies. USC Roski trains artists, designers and curators in aesthetic acuity, technical ability and critical insight.

Students pursuing a BA have ample opportunity to explore the academic offerings of a world-class research institution, while BFA students immerse themselves fully in studio production. A distinguished and dedicated faculty teaches comprehensive courses in painting, drawing, printmaking, sculpture, ceramics, photography, design, digital media and critical studies. Students work across media to push perceived boundaries and discover their individual voices within increasingly global contexts. At the graduate level, the MFA program is recognized nationally for its breadth and intensity, and a faculty of renowned practicing artists. Spacious private studios, one-on-one critiques with influential guest lecturers, and the expanded field of production offered by the Roski School's location in Los Angeles attract a highly selective student cohort. The MA program, Curatorial Practices and the Public Sphere, is a platform for scholarship in contemporary art that addresses social questions of public space. In addition to a master's thesis, each class collectively engages in a curatorial practicum, culminating in an exhibition project that explores city-space.

Southern California is an unparalleled creative capital. Leading museums, galleries, advertising agencies, design firms, artist studios, and the music and film industries offer emerging artists and designers a wealth of interns. Spacious private studios, one-on-one critiques with influential guest lecturers, and the expanded field of production offered by the Roski School's location in Los Angeles attract a highly selective student cohort. The MA program, Curatorial Practices and the Public Sphere, is a platform for scholarship in contemporary art that addresses social questions of public space. Lectures and Exhibitions
The school provides significant service to the community and profession through public programs, and the participation of faculty members in community and professional activities. With the support and cooperation of the Architectural Guild, the school generates a vigorous program of lectures, exhibitions and tours.

Some of the world's most distinguished and emerging architects, landscape architects and designers have lectured at USC. These include Frank Gehry, Zaha Hadid, Mario Botta, Yona Friedman, Peter Cook, Yung Ho Chang, Thom Mayne, Michael Maltzan, Hitoshi Abe, Mia Lehrer, Fumihiko Maki, Jean Nouvel, Will Bruder, Francois Roche, Enrique Norten, Adriaan Geuze, Kazuyo Sejima, Ai Wei Wei, Rem Koolhaas, Shigeru Ban, Hans Hollein, Charles Waldheim, Nader Tehrani, Cesar Pelli, Javier Sanchez, Laurie Olin, Eric Owen Moss and Pei Zhu.

The school also provides the Helen Lindhurst Architecture Gallery and the Verle Annis Gallery for major architectural exhibitions by visiting guests, USC faculty, students and alumni.

Summer Program in Heritage Conservation
This program offers three weeks of classes with noted experts from Southern California and the United States. Taken together the courses act as a general introduction to the field of heritage conservation. In addition to examining the history and philosophy of the conservation movement as it has evolved during the past century, lectures and field trips to historic sites throughout the Los Angeles area will introduce students to a broad range of legal, economic, aesthetic and technical issues associated with the documentation, conservation and interpretation of historic structures, landscapes and communities.

For more information, call (213) 821-2168.

USC Roski School of Art and Design
Founded in 1883, the USC Roski School of Art and Design is a leader in the constellation of influential Los Angeles art schools. Our programs encourage interdisciplinary approaches to studio art, design, curatorial practice and critical studies. USC Roski trains artists, designers and curators in aesthetic acuity, technical ability and critical insight.

Students pursuing a BA have ample opportunity to explore the academic offerings of a world-class research institution, while BFA students immerse themselves fully in studio production. A distinguished and dedicated faculty teaches comprehensive courses in painting, drawing, printmaking, sculpture, ceramics, photography, design, digital media and critical studies. Students work across media to push perceived boundaries and discover their individual voices within increasingly global contexts. Professors: Jud Fine, MFA; Amelia Jones, PhD; Margaret Lazzari, MFA*; Rochelle Steiner, PhD; Ruth Weisberg, MA*
Associate Professor: Bob Alderette, MFA
Associate Professor of Art: Nao Bustamante, MFA
Associate Professors of the Practice of Fine Arts: Shannon Ebner, MFA; Karen Koblitz, MFA; Haven Lin-Kirk, MFA; Ann Page, BFA; Julia Paull, MFA
Assistant Professors of the Practice of Fine Arts: Sherin Guirguis, MFA; Jennifer West, MFA
Visiting Assistant Professor: Edgar Arceneaux, MFA
Senior Lecturers: Caroline Clerc, MFA; Ewa Wojciak, MFA
Full-time Lecturers: China Adams, MFA; Jeffrey Cain, MFA; Steve Child, MFA; Alice Fung, MArch; Osvaldo Trujillo, MFA; Noura Wedell, PhD
Part-time Lecturers: Tom Allen, MFA; Tanya Batura, MFA; Ian Besler, MA; Maura Brewer, MFA; Andrew Byrom, MFA; Alexi Dissellkeon, MFA; Paul Donald, MVA; Xavier Fumat, MFA; Phyllis Green, MFA; Emilie Halpern, MFA; Peter Holzhauer, MFA; Patrick Jackson, MFA; Helen Kim, MFA; Andrew Kutcher, MFA; Karen Liebowitz, MFA; Nancy Lupo, MFA; Tala Madani, MFA; Marisa Mandler, MFA; David McDonald, MFA; Joseph Morris, MFA; Karen Moss; Brian O'Connell, MFA; Brian Olson, BA; Richard Parker, MFA; Joseph Potts, MFA; Jean Robison, MFA; Stephanie Sabo, MFA; Julie Schustack, MFA; Aaron Siegel, MFA; Jamie Sweetman, MFA; John Tain, BA; Alexis Zoto, MFA
Emeritus Professors: Ron Rizk, MFA; Jay Willis, MA
*Recipient of university-wide or school teaching award.

General Information
Degrees Offered
At the undergraduate level, the school offers the Bachelor of Fine Arts. The Bachelor of Arts in Art is offered in conjunction with the Dornsife College of Letters, Arts and Sciences. The Roski School of Art and Design also offers eight minor programs in studio arts and design and participates in a 3-D animation minor in conjunction with the Viterbi School of Engineering's Information Technology Program, a communication design minor in conjunction with the Marshall School of Business and the Annenberg School for Communication and Journalism, and a 2-D art for games minor and 3-D art for games minor with the Viterbi School of Engineering and the School of Cinematic Arts. Degrees offered at the graduate level are: Master of Fine Arts, Master of Arts, Curatorial Practices and the Public Sphere, and Master of Science, Integrated Design, Business and Technology. A dual degree is also available: Master of Planning/Master of Arts, Curatorial Practices and the Public Sphere.

Minimum Grade Point Average Requirements
A minimum grade of C (2.0) or higher is required in all studio and art history courses for all undergraduate majors and minors in the Roski School of Art and Design. A grade of C- or lower will not satisfy a major or minor requirement. A minimum grade point average of 3.0 must be maintained by all candidates for the Master of Fine Arts and Master of Arts.

Undergraduate Admission
Admission to the Roski School of Art and Design at the undergraduate level is granted through the USC Office of Admission. Freshman applicants applying by December 1 for the fall semester will receive priority consideration for admission to the university. The deadline for transfer applicants for the fall semester is February 1.
Undergraduate applicants must upload a portfolio of images and an artist statement at the school's Website. Specific requirements and additional information are available at roski.usc.edu/undergrad or email finearts@usc.edu.
Students who have not been admitted to the Roski School of Art and Design may complete a maximum of 20 units of fine arts course work at USC. No further course work may be taken until admitted. Students who are interested in becoming fine arts majors or minors should meet with the Roski School's advisers as soon as possible, preferably during their first semester taking art classes. Advisers can be contacted through the school's Advisement Office, Hazel Stanley Hall 101, (213) 821-1290, for assistance.

Graduate Admission
Applications for admission to the graduate programs are evaluated by the USC Office of Graduate Admission before being forwarded to the school. Students must be admitted by both the USC Graduate School and the Roski School of Art and Design. The Graduate School's general admission requirements include official transcripts of all previous college and university work, and three letters of recommendation from instructors or persons able to comment on the applicant's creative work and/or scholarly potential. Applicants to the MFA degree must upload a portfolio of images and an artist statement at the school's Website. Specific requirements and additional information are available at roski.usc.edu/academic/mfa.
Applicants to the MA degree are encouraged to review program requirements at roski.usc.edu/academic/ma.

Advisment
Academic advisement is provided to fine arts majors, minors and graduate students through the Advisement Office in Hazel Stanley Hall 101, (213) 821-1290. All students who are interested in taking art courses are welcomed and encouraged to make an appointment for advisement as well. The staff advisers provide information regarding academic life at the university, program requirements, policies and procedures to assist students with their degree completion. Majors are required to meet with advisers before registering each semester. Appointments may be scheduled at most times during the academic year.

International Study Options
Fine arts majors may take advantage of art courses offered through study abroad programs in Canberra, Australia; Cape Town, South Africa; Florence or Cortona, Italy; and London, England. These options are described on the International Study Options page. Please contact the USC Overseas Studies Office in CAS 104, (213) 740-3636, or usc.edu/schools/college/overseas for complete information, program requirements and applications.

Minor Programs
The Roski School of Art and Design offers minors in art and design as supplements to major fields of specialization in other departments and schools for students whose academic programs do not permit the opportunity to pursue one of the school's regular degree options. There are eight intensive studio minors — in painting, drawing, photography,
cereamics, sculpture, two-dimensional studies, digital media-based imaging, and 3-D design — as well as interdisciplinary minors in communication design, 2-D art for games and 3-D art for games. There is a separate application for fine arts minors available at roski.usc.edu/academic/minors. Candidates for the minors in the Roski School of Art and Design will be counseled by an academic adviser in the school.

Bachelor's Degree
Art (BA)
The Bachelor of Arts program offers a more flexible and broad academic education than the bachelor of fine arts (BFA) degree while still providing a meaningful experience in the studio area and preparation for many design and art-related careers. The degree provides the student with the opportunity to double major or to combine an art major with a minor in various fields. Some possibilities for minors include communication, multimedia, education, business, film, animation and many other options.

Curriculum Requirements
The Bachelor of Arts (BA) requires a total of 128 units including 64 units of fine arts requirements. In addition to the fine arts required courses, BA students should select electives based on their personal and professional goals and in consultation with academic advisers. Electives are typically clustered in a particular field, but may be spread across different areas.

Required Courses
- FACS 150gp Visual Culture and Literacy I Units: 4
- FACS 250 Visual Culture and Literacy II Units: 4
- FACS 350 Art Theory and Criticism Units: 4
- FADN 102 Design Fundamentals Units: 4
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4
- FASC 106 Sculpture I Units: 4

One course from the following:
- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- PAS 371-Art in the Public Realm: Contemporary Issues Units: 4

Fine Arts electives:
Select 12 additional units from any 100–299 studio courses, no "x" classes

Select 24 additional units from the following:
300–499 studio. At least four units must be from one of the following classes:
- FACS 450x Art Theory and Criticism Units: 4
- FADN 402 Advanced Design Projects Units: 4
- FADW 401 Topics in Advanced Drawing Units: 4
- FAPH 409 Topics in Advanced Photography Units: 4
- FAPR 411 Topics in Advanced Printmaking Units: 4
- FAPT 405 Topics in Advanced Painting Units: 4
- FASC 406 Topics in Advanced Sculpture Units: 4

Total units: 64

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing, foreign language and diversity requirements, which together comprise the USC Core. See The USC Core and the General Education Program for more information.

Fine Arts (BFA)
The BFA is a four-year studio intensive program in preparation for a career in the fine arts, design and/or related fields or pursuit of a master of fine arts degree. With few required courses or electives and a wide variety of media from which to choose, the BFA provides ample opportunity to explore and develop a strong personal vision in art. Introductory courses focus on technique and conceptual context while building a solid grounding in art history and critical theory. Advanced students work on self-generated independent projects under the guidance and mentoring of individual faculty members. Emphasis in the last year is on the production of a professional quality portfolio of work.

Curriculum Requirements
The BFA requires a total of 128 units, including 96 units of fine art requirements. In addition to the fine arts required courses, BFA students are encouraged to explore in greater depth an area of art in which they have an interest. Students should select electives based on their personal and professional goals and in consultation with academic advisers. Electives are typically clustered in a particular field, but may be spread across different areas.

Required Courses
- FACS 150gp Visual Culture and Literacy I Units: 4
- FACS 250 Visual Culture and Literacy II Units: 4
- FACS 350 Art Theory and Criticism Units: 4
- FADN 102 Design Fundamentals Units: 4
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4
- FASC 106 Sculpture I Units: 4

One course from the following:
- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- PAS 371-Art in the Public Realm: Contemporary Issues Units: 4

Fine Arts electives:
Select 24 additional units from any 100–299 studio courses, no "x" classes

Select 40 additional units from any 300–499 studio courses
Total units: 96

General Education Requirements
The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which together comprise the USC Core. See The USC Core and the General Education Program for more information.

Minor

2-D Art for Games Minor
This interdisciplinary minor integrates three major disciplines (fine arts, computer science and interactive media) to develop the 2-D visual skills necessary to conceptualize and illustrate images for games. Skills include figure drawing, perspective, camera angles, point of view, storyboarding, character development and illustration techniques. Software programs such as Illustrator, InDesign and Flash will be utilized in basic interface and interactive design assignments. Although game genres include 3-D examples, this minor will focus on the 2-D graphics for 2-D games and 3-D interface design. The minor includes fine arts courses as well as game design, game technology, production pipelines and play testing courses in computer science and interactive media. A minimum of 24-26 units is required for this minor.

Required Lower Division Courses (8 Units)
- FADN 102 Design Fundamentals Units: 4
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4

Required Upper-Division Courses (12-14 Units)
- CTIN 488 Game Design Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4 (max 8) or
- CSCI 491aL Final Game Project Units: 4
- CSCI 491bL Final Game Project Units: 2
- FASC 436 Art and Technology Units: 4

Four units of electives from the following:
- CSCI 281 Pipelines for Games and Interactives Units: 3
- FADN 203 Digital Tools for Design Units: 2
- FADW 201 Intermediate Drawing Units: 4
- FADW 301 Advanced Drawing Units: 4
- FAIN 210 Introduction to Digital Photography Units: 4
- FAPT 105 Painting I Units: 4
- ITP 280 Video Game Production Units: 4

Note:
*Can be taken as an elective if not taken as upper-division requirement

3-D Art for Games Minor
The focus of the 3-D art for games minor is a transdisciplinary approach that incorporates the creative, technological and team-based communication skills necessary to develop 3-D art skills for video games. It includes a choice of courses from fine arts, computer science, information technology, interactive media and animation and digital arts. In preparation for the transition from the theoretical assignment to professional practice, students will present game prototypes to outside professionals at "Demo Days" at the end of each semester. The minimum number of units is 25-27.

Required Lower-Division Courses (9 Units)
- CSCI 281 Pipelines for Games and Interactives Units: 3
- FASC 106 Sculpture I Units: 4
- ITP 215L 3-D Modeling, Animation, and Special Effects Units: 2

Required Upper-Division Courses (12-14 Units)
- CTIN 488 Game Design Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4
- CSCI 491aL Final Game Project Units: 4
- CSCI 491bL Final Game Project Units: 2
- FASC 436 Art and Technology Units: 4

Electives (4 Units Chosen From the Following)
- CSCI 180 Survey of Digital Games and Their Technologies Units: 3
- CTAN 330 Animation Fundamentals Units: 2
- CTAN 451 History of Animation Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 488 Game Design Workshop Units: 4
- CTIN 489 Intermediate Game Design Workshop Units: 2
- CTIN 491L Advanced Game Project I Units: 4 max 8
- FACS 150gp Visual Culture and Literacy I Units: 4
- FADN 203 Digital Tools for Design Units: 2
- FADW 201 Intermediate Drawing Units: 4
- FADW 301 Advanced Drawing Units: 4
- FAIN 210 Introduction to Digital Photography Units: 4
- FAPT 105 Painting I Units: 4
- ITP 280 Video Game Production Units: 4
• CTIN 493L Advanced Game Project II Units: 2
  max 4
• FACE 214 3-D/Actual and Virtual Units: 4
• FACS 150gp Visual Culture and Literacy I Units: 4
• FACS 350 Art Theory and Criticism Units: 4
• FAIN 210 Introduction to Digital Photography Units: 4
• FAIN 220 Introduction to Video and Time-based Experimentation Units: 4
• FAIN 315 Internet Studio: Online Experimentation and Expression Units: 4
• FAIN 330 Ideas in Intermedia Units: 4
• ITP 280 Video Game Production Units: 4

Note:
* Can be taken as an elective if not taken as upper-division requirement.

3-Dimensional Design Minor
A minor in 3-Dimensional Design offers USC students in all fields of study the opportunity to gain knowledge and skills in 3-D thinking, imaging and production. Course work will focus on the process behind creating well-designed, expressive functional objects and spaces (both actual and virtual). The minor would be of particular interest to students wishing to further develop specializations such as package design, product design, and environmental design (way-finding, signage, display).

Lower-Division Courses (8 Units)
Required lower-division courses (8 units):
• FADN 102 Design Fundamentals Units: 4
• FADN 230 3D Design: Materials and Tools Units: 4

Optional lower-division course, chosen from the following:
• FADN 202 Design II Units: 4 **
• FADN 203 Digital Tools for Design Units: 2
• FASC 136 Modeling and Mold Making Units: 2
• FASC 206 Sculpture II Units: 4 *
• ITP 215L 3-D Modeling, Animation, and Special Effects Units: 2

Note:
*Prerequisite required
**Corequisite required

Upper-Division Courses (16 Units)
Required upper-division course (4 units):
• FADN 330 3D Design: Objects and Space Units: 4 *

Upper-division courses (12 units) chosen from the following:
• FADN 302 Design III Units: 4 *
• FADN 303 Web Design Units: 2
• FADN 323g Design Theory Units: 4
• FADN 332a Typography Units: 2
• FADN 402 Advanced Design Projects Units: 4 **
• FASC 436 Art and Technology Units: 4
• ITP 415 3-D Design and Prototyping Units: 2
• MKT 385x Marketing of Creative Disruption and Innovation Units: 4

Note:
*Prerequisite required
**FADN 330 can be substituted for FADN 302 as a prerequisite

Total units: 24

Ceramics Minor
Students enrolled in this minor will be introduced to the rich traditions of ceramic practice — from wheel throwing to 3-D modeling — while encouraging the use of materials and methods as vehicles for individual expression in contemporary art. They will be exposed to lectures and readings in the history of clay and critical writings on the subject. A variety of classes is offered including beginning and advanced ceramics, wheel throwing, clay and glaze formulation, art and technology, modeling and mold making, sculpture, visual literacy and theory and criticism. As students advance in the level of their studies, they can choose to follow a traditional approach to clay and/or pursue exploration and experimentation with the medium including freedom to create mixed-media pieces or to bring technology in to their work. The goal is to create a strong foundation in clay significant to the career path of their choosing. The total number of units is required for this minor is 24.

Required Lower Division Courses (8 Units)
• FACE 112 Ceramics Units: 4
• FACS 150gp Visual Culture and Literacy I Units: 4

Four lower division units chosen from the following:
• FACE 212 Wheel Throwing Units: 4
• FACE 214 3-D/Actual and Virtual Units: 4
• FASC 106 Sculpture I Units: 4
• FASC 136 Modeling and Mold Making Units: 2

Three upper division courses (12 units) chosen from the following:
• FACE 312 Advanced Ceramics Units: 4
• FACE 313 Clay and Glazes Units: 2
• FACE 412 Topics in Advanced Ceramics Units: 4 max 12
• FACS 350 Art Theory and Criticism Units: 4
• FASC 436 Art and Technology Units: 4

Communication Design Minor
The core of this minor is communication design. In addition to courses in design, visual literacy and digital imaging,
minor includes optional courses in business, communication, journalism and marketing, allowing students to translate their design foundation in ways that are directly relevant to their career paths. The total number of units required for the minor is 24.

**Required Courses (24 Units)**

- FADN 102 Design Fundamentals Units: 4

**One lower division course (4 units) chosen from the following:**

- FACS 150gp Visual Culture and Literacy I Units: 4
- FADN 202 Design II Units: 4 (corequisite: FADN 203)
- FAIN 210 Introduction to Digital Photography Units: 4
- FAIN 220 Introduction to Video and Time-based Experimentation Units: 4

**Four upper division courses (16 units) chosen from the following:**

- ACCT 410x Foundations of Accounting Units: 4
- BAEP 423 Management of Small Businesses Units: 4
- BAEP 451 The Management of New Enterprises Units: 4
- BAEP 452 Feasibility Analysis Units: 4
- COMM 321 Communication and Social Media Units: 4
- COMM 339 Communication Technology and Culture Units: 4
- COMM 340 The Cultures of New Media Units: 4
- COMM 375 Business and Professional Communication Units: 4
- FADN 302 Design III Units: 4
- FADN 303 Web Design Units: 2
- FADN 313 Graphic Design in Fashion Units: 4
- FADN 323g Design Theory Units: 4
- FADN 323a Typography Units: 2
- FADN 323b Typography Units: 2
- FADN 333 New York Design Study Tour Units: 2
- FADN 402 Advanced Design Projects Units: 4 max 12
- FADN 432 Special Projects in Design Units: 2
- FAIN 315 Internet Studio: Online Experimentation and Expression Units: 4
- FAIN 320 Video Studio Units: 4
- FAIN 330 Ideas in Intermedia Units: 4 max 8
- FAPH 309a Intermediate Photography Units: 4
- FAIN 440 Post-Material Studio and Roundtable Units: 4 max 8

Total units: 24

**Digital Studio Minor**

This minor deals with technology in art making including digital photography, digital video and the Internet. Course work includes choice of classes in history of photography, digital media, visual literacy and computer imaging. The professional aspects of this minor assist students in developing careers in fine arts, communication, design, engineering, film, journalism and in any area where there is a need for flexible and creative imaging using digital media. The total number of units required for the minor is 24.

**Required Lower-Division Courses (8 Units)**

- FAIN 210 Introduction to Digital Photography Units: 4
- FAIN 220 Introduction to Video and Time-based Experimentation Units: 4

**Four upper-division courses (16 units) chosen from the following:**

- FACS 350 Art Theory and Criticism Units: 4
- FAIN 315 Internet Studio: Online Experimentation and Expression Units: 4
- FAIN 320 Video Studio Units: 4
- FAIN 330 Ideas in Intermedia Units: 4 max 8
- FAPH 309a Intermediate Photography Units: 4
- FAIN 440 Post-Material Studio and Roundtable Units: 4 max 8

Total units: 24

**Drawing Minor**

Students enrolled in the minor in drawing will develop their creativity and technical drawing skills, as well as deepen their understanding of contemporary art. Foundation courses provide the fundamentals of spatial rendering, composition, figure drawing and visual expression. Advanced courses require more ambitious projects, personal direction, research and sustained focus. The minor is available to all USC students who wish to develop their abilities to communicate through visual means, or who wish to develop skills for conceptualization and problem solving. The minor in drawing can assist the students in art-related work, as well as creative pursuits such as printed works with images, games and animation. A total of 20 units are required for this minor.

**Required Lower Division Courses (8 Units)**

- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4
- FADW 201 Intermediate Drawing Units: 4

**Electives**

Three upper-division courses (12 units) chosen from the following:
Painting Minor
Within both western and non-western traditions, painting has a long history as a site for aesthetic experience and cultural questioning. This minor allows students to immerse themselves in painting, as well as developing a grasp of the critical issues surrounding it. Foundation courses provide the fundamentals of color, composition, medium and drawing. Advanced courses require more ambitious projects, personal direction, research and sustained focus. Students majoring in many areas of the humanities may pursue this minor to augment their understanding of one of the key media in the arts. The minor is available to all USC students who wish to develop their painting skills. A total of 24 units are required for this minor.

Required Courses (24 units)
Required lower-division courses (12 units):
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4
- FAPT 105 Painting I Units: 4
- FAPT 205 Painting II Units: 4

Three upper-division courses (12 units) chosen from the following:
- FACS 350 Art Theory and Criticism Units: 4
- FADW 331 Studies in Drawing and Painting Units: 4 (max 12)
- FAPR 311 Printmaking Units: 4
- FAPR 411 Topics in Advanced Printmaking Units: 4 (max 12)

Photography Minor
The photography minor provides an in-depth experience in all aspects of photography. The well-equipped darkrooms allow individual hands-on exploration of black and white and color processes, camera types, historical and traditional printing methods, lighting and film processing as well as digital technologies and issues. It also includes a foundation in photo theory and criticism. This minor is appropriate for students interested in an intense experiential exploration of the medium of photography. The total number of units required for the minor is 24.

Required Courses (24 Units)
One lower division course (4 units) chosen from the following:
- FAIN 210 Introduction to Digital Photography Units: 4
- FAPH 209 Introduction to Photography Units: 4

Required upper-division courses (8 units):
- FAPH 309a Intermediate Photography Units: 4
- FAPH 309b Intermediate Photography Units: 4

Three upper-division courses (12 units) chosen from the following:
- AHIS 373g History and Theory of Photography Units: 4
- AHIS 469 Critical Approaches to Photography Units: 4
- FACS 350 Art Theory and Criticism Units: 4
- FAPH 409 Topics in Advanced Photography Units: 4 (max 12)

Sculpture Minor
This minor focuses on making, organizing and manipulating objects and their spatial relationships in a range of materials such as wood, fiberglass, clay, plaster, latex and metal. Course work includes choice of classes in sculpture, ceramics, visual literacy, public art, moldmaking, metal and casting. The three-dimensional skills taught in this minor intersect with many other disciplines including architecture, cinematic arts, special effects, engineering design, urban planning and any other areas where skills in maquette and model building are relevant. The total number of units required for the minor is 24.

Required Courses (8 Units)
- FASC 106 Sculpture I Units: 4
- FASC 206 Sculpture II Units: 4

Four lower-division units chosen from the following:
- FACE 112 Ceramics Units: 4
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4
- FASC 136 Modeling and Mold Making Units: 2
- FASC 236 Metal Units: 2
- FASC 246 Construction Techniques Units: 2

Three upper-division courses (12 units) chosen from the following:
- FASC 306 Advanced Sculpture Units: 4
- FASC 366 Art and Site Units: 4
- FASC 406 Topics in Advanced Sculpture Units: 4
- FASC 436 Art and Technology Units: 4
- PAS 371-Art in the Public Realm: Contemporary Issues Units: 4

Two-Dimensional Studies Minor
This minor is designed for students who wish to augment their understanding of art in general in two dimensional areas, rather than complete a minor that focuses on one medium. This minor provides a broad scope of courses in 2-D media and studies. This minor is open to any USC student, especially those interested in animation to sharpen their drawing, color and compositional skills. Students interested in the vast varieties of digital visual communication can develop better color and compositional skills. Total number of units required is 24.

Required Courses (24 Units)
Three lower division courses (12 units)
chosen from the following:

- FADN 102 Design Fundamentals Units: 4
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4
- FADW 201 Intermediate Drawing Units: 4
- FAIN 210 Introduction to Digital Photography Units: 4
- FAPH 209 Introduction to Photography Units: 4
- FAPT 105 Painting I Units: 4
- FAPT 205 Painting II Units: 4

Three upper division courses (12 units)
chosen from the following:

- FADW 301 Advanced Drawing Units: 4
- FADW 331 Studies in Drawing and Painting Units: 4 max 12
- FADW 401 Topics in Advanced Drawing Units: 4 max 12
- FAPH 309a Intermediate Photography Units: 4
- FAPR 311 Printmaking Units: 4
- FAPR 411 Topics in Advanced Printmaking Units: 4 max 12
- FAPT 305 Advanced Painting Units: 4
- FAPT 405 Topics in Advanced Painting Units: 4 max 12

Master's Degree
Curatorial Practices and the Public Sphere (MA)
The MA Curatorial Practices and the Public Sphere is an intensive master's-level program in the practice and history of curating studied through the lens of critical theory and the history of art. With a focus on the research and exhibition of contemporary art, as well as attending to art historical curating and broader conceptions of curating such as performance art programming, instructors with international careers lead students in asking social questions about the exhibition of art (broadly construed) in relation to its publics. Over two years of full-time academic study, students explore modes of curatorial practice in a curriculum combining seminars and professional training. Courses are led by USC Roski's internationally acclaimed faculty, which includes renowned artists, scholars, critics and curators.

The MA features courses that focus on the history of art, exhibitions and aesthetics, with a focus on contemporary art and theory. Other courses emphasize direct practical experience leading toward the realization of art exhibitions, but also performance art programming and other hybrid modes of arts curating.

Admission Requirements
Requirements for admission: (1) a Bachelor of Arts or Bachelor of Fine Arts degree, or equivalent, from an accredited school; (2) a minimum 3.0 overall GPA; (3) three letters of recommendation; (4) two writing samples (one academic paper and the admission essay). The GRE General Test is required. International applicants are required to take the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS).

Thesis Requirements
The thesis committee is established and contingent upon satisfactory completion of the second semester's course work. Advancement to candidacy is determined by the director of the program, in consultation with other faculty. Roski MA thesis committees will comprise three faculty members. Two members will be Roski faculty, defined as any faculty currently teaching in either the MA or the MFA program with either full-time, part-time or adjunct appointments, tenure track or non-tenure track. The third member can be any full-time tenure track or non-tenure track USC faculty member, either within the Roski School or from outside Roski. Thesis committees are ultimately subject to approval by the school dean.

Curatorial Practicum Requirement
All students participate in the group curatorial practicum course for three consecutive terms (which complements the thesis requirement).

Program Requirements
A minimum of 39 units is required, taken during a consecutive two-year period, distributed as follows:

Required Courses

- ART 515 Visiting Artist and Scholar Seminar Units: 2, max 4
- CRIT 510 History and Theory of Art and Exhibitions Units: 4
- CRIT 512 Art and Curatorial Visits Units: 2
- CRIT 525 Making and Curating Art: Pedagogy and Praxis Units: 4
- CRIT 555 Methods of Curating: Introduction to Curatorial Practicum Units: 4
- CRIT 556 Curatorial Practicum: Individual/Group Projects Units: 4
- CRIT 557 Curatorial Practicum: Group Project Summation Units: 4
- CRIT 591 Field Internship Experience Units: 1, max 2
- CRIT 594a Master's Thesis Units: 2
- CRIT 594b Master's Thesis Units: 2
- CRIT 594c Master's Thesis Units: 0
Electives (4 units of which must be Roski electives)

Units: 39

Elective Requirement
Candidates for the Master of Arts, Curatorial Practices and the Public Sphere must complete a minimum of 8 units of 400- or 500-level electives, 4 units of which must be from the Roski School and 4 units of which can be from another relevant area in the university (with departmental approval).

Fine Arts (MFA)

A two-year program administered in collaboration with the Graduate School, the Master of Fine Arts is a professional degree in the practice of art preparing students to pursue careers as professional artists. With an influential and innovative faculty and expansive facilities, the MFA program is one of the most ambitious, energetic and forward-thinking MFA programs in the United States. In addition to close, constant interaction with the faculty artists, students participate in regular seminars, lectures, discussions, and studio visits with leading visiting artists, critics, curators and theorists from around the world. The school's immersion in the contemporary art community is a critical component of the MFA program.

The opportunity to gain experience as a teaching assistant is available on a competitive basis. All incoming students, regardless of country of citizenship, are considered for departmental funding and teaching assistantships.

Program Requirements
At least 48 units are required for the Master of Fine Arts, to be distributed as follows:

- CRIT 510 History and Theory of Art and Exhibitions Units: 4
- ART 515 Visiting Artist and Scholar Seminar Units: 2
- ART 520 Individual Studies Units: 2
- ART 525 Making and Curating Art: Pedagogy and Praxis Units: 4 (Enroll in CRIT 525)
- ART 530 Global Art Seminar: the Globalization of Art and Culture Units: 4
- ART 535 Group Critique Units: 2
- ART 594a Master's Thesis Units: 2
- ART 594b Master's Thesis Units: 2
- ART 594z Master's Thesis Units: 0

and 16 units of 400- or 500-level electives:

- 8 units outside of the Roski School and
- 8 units of departmental electives within the Roski School

Note:
Roski MFA thesis committees will comprise three faculty members. Two members will be Roski faculty, defined as any faculty currently teaching in either the MA or the MFA program with either full-time, part-time or adjunct appointments, tenure track or non-tenure track. The third member can be any full-time tenure track or non-tenure track USC faculty member, either within the Roski School or from outside Roski. Thesis committees are ultimately subject to approval by the school dean.

Master of Fine Arts students are evaluated by faculty during reviews held near the end of each semester. Before a student is recommended for the Master of Fine Arts, a comprehensive review of past work and professional goals is held. An exhibition of work at the end of the course of study and a written thesis, documented with visual material, complete the Master of Fine Arts program. A minimum grade point average of 3.0 on all graduate work is required for the Master of Fine Arts degree.

Integrated Design, Business and Technology (MS)

The Master of Science in Integrated Design, Business and Technology is an online graduate degree program that provides a first-of-its-kind interdisciplinary education at the intersection of the educational and professional disciplines central to our changing world. The program creates leaders with diverse and creative ways of thinking and doing – trained to recognize and cultivate innovation, catalyze change, and leverage new opportunities to not only support, but also help shape and build our rapidly evolving economy. This program brings together faculty and experts from USC's Roski School of Art and Design, USC's Marshall School of Business, USC's Viterbi School of Engineering and elsewhere within the university. Working together, as a multidisciplinary team, to create an intra-disciplinary understanding of how design, business and technology come together. In partnership with WIRED, the leading global publisher of contemporary technology and innovation content, we will provide students exclusive, faculty-supported access to highly respected editors, writers, visionaries and leading industry icons – and to the publisher's unique print and multimedia resources and content.

The Master of Integrated Design, Business and Technology is a master of science degree conferred by the USC Roski School of Art and Design. The degree is offered predominantly online and is composed of both asynchronous and synchronous sessions. Students also participate in two week long residential experiences – the first to be held on the University of Southern California's campus in Los Angeles and the second at locations across San Francisco, including WIRED headquarters.

Program Requirements
At least 34 units are required for the Master of Science in Integrated Design, Business and Technology. The course of study can be completed in 18 months, or four semesters, and must include:

Required Residential Courses
- IDSN 510 Integrative Practices Residential Units: 2
- IDSN 515 Professional Practices Residential Units: 2

Required Core Courses
- ART 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- IDSN 540 Processes and Perspectives Units: 3
• IDSN 545 Integrative Project Units: 2 (6 units required)
• IDSN 550 Opportunity and Uncertainty Units: 3
• IDSN 560 Narrative and Storytelling Units: 3
• IDSN 570 Decisions and Solutions Units: 3
• IDSN 585 Capstone Units: 3

6 Units from the Following Courses
• IDSN 520 Design Essentials Units: 3
• IDSN 525 Business Essentials Units: 3
• IDSN 530 Technology Essentials Units: 3

Optional
• IDSN 505 Intensive Units: 0.5, 1, 1.5, 2 (1-4 units)

Dual Degree

Master of Planning/Curatorial Practices and the Public Sphere
The Master of Planning/Master of Arts, Curatorial Practices and the Public Sphere offers an unusually rich opportunity for students interested in developing a new knowledge base to become successful professionals working in the arena of organizing art projects in urban public space, planning and community development. Los Angeles and the facilities at USC provide a unique learning laboratory to educate a more competitive professional with a better understanding of both the administration of public art and issues of urban planning.

Required Roski courses
The following Roski courses are required for the degree (26 units):
• ART 515 Visiting Artist and Scholar Seminar Units: 2
• CRIT 510 History and Theory of Art and Exhibitions Units: 4
• CRIT 512 Art and Curatorial Visits Units: 2
• CRIT 555 Methods of Curating: Introduction to Curatorial Practicum Units: 4
• CRIT 556 Curatorial Practicum: Individual/Group Projects Units: 4
• CRIT 557 Curatorial Practicum: Group Project Summation Units: 4
• CRIT 594a Master's Thesis Units: 2
• CRIT 594b Master's Thesis Units: 2

Required Planning Courses
The following Planning courses are required for the degree (26 units):
• PPD 500 Intersectoral Leadership Units: 2
• PPD 501a Economics for Policy, Planning and Development Units: 2
• PPD 524 Planning Theory Units: 2
• PPD 525 Statistics and Arguing from Data Units: 2
• PPD 526 Comparative International Development Units: 2
• PPD 529 Legal Environment of Planning Units: 2
• PPD 531L Planning Studio Units: 4, 8, 12
• PPD 533 Planning History and Urban Form Units: 2

Concentration Gateway
Choose one course from the following:
Economic Development:
• PPD 639 Introduction to Community and Economic Development Units: 4
Preservation and Design:
• PPD 644 Shaping the Built Environment Units: 4
Social and Community Planning:
• PPD 628 Urban Planning and Social Policy Units: 4
Sustainable Land Use:
• PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
Transportation:
• PPD 634 Institutional and Policy Issues in Transportation Units: 4

Concentration Methodology
Choose one course from the following:
Economic Development:
• PPD 625 Planning and Economic Development Finance Units: 4
Preservation and Design:
• PPD 627 Design Skills for Urban Planners Units: 4
Social and Community Planning:
• PPD 616 Participatory Methods in Planning and Policy Units: 4
Sustainable Land Use:
• PPD 634 Institutional and Policy Issues in Transportation Units: 4
Transportation:
• PPD 633 Urban Transportation Planning and Management Units: 4, 2 years

Additional requirements for the dual degree
There are 6 units of open electives;
There is a required comprehensive exam for Planning in the spring of the second year (fourth semester);
There are 400 hours of internship required for the degree, usually pursued in the summer of the second year (fifth and final semester).

USC Marshall School of Business
The USC Marshall School of Business is a preeminent destination for understanding and advancing the role of business in society. USC Marshall offers critical education and insight in disciplines including communication, business
Economics, entrepreneurship, finance, information systems, business analytics, marketing, management, operations, real estate and statistics. The Leventhal School of Accounting, one of the nation’s top ranked accounting schools and housed within Marshall, educates the next generation of leaders in that field.

Leveraging a world-class faculty, international student body and strategic location at the gateway to the Pacific Rim, USC Marshall is a pioneer in global business education. International experience is a required component of all MBA degree programs. Undergraduates have access to numerous overseas programs including study abroad and international internships, in addition to week-long global learning experiences.

USC Marshall prepares globally focused thought leaders and hands-on practitioners at every career level, in multiple locations and on a full-time, part-time or weekend schedule. It offers focused specialization through its seven one-year master's degrees in disciplines across the business spectrum, including business analytics, entrepreneurship and innovation, social entrepreneurship, marketing and global supply chain management. The UT Dallas rankings place Marshall faculty seventh worldwide for research. The school's entrepreneurship program is consistently ranked as one of the best, as is its alumni network. Nearly 100 years after its founding in 1920 as USC’s College of Commerce and Business Administration, Marshall’s broad range of academic offerings and trailblazing Centers of Excellence continue to foster a dynamic academic environment that sets the standard for extraordinary leadership development and scholarship in business.

**Senior Administration**

James G. Ellis, MBA, Dean, Robert R. Dockson Dean's Chair in Business Administration
Gareth James, PhD, Vice Dean, Faculty and Academic Affairs
Suh-Pying Ku, PhD, Vice Dean, Graduate Programs
Sandra Chrystal, PhD, Vice Dean, Online Education
Tyrone Callahan, PhD, Vice Dean, Undergraduate Programs
Sunny Donenfeld, MILR, MBA, Senior Associate Dean, Finance and Administration and Chief Financial Officer
Evie Lazzarino, BA, Associate Dean, Communications
Matthew De Vecchi, EdM, Senior Associate Dean for External Relations

**Finance and Administration**

Denise Millard, MBA, Director, Financial Planning and Management
Steve Adcoek, MBA, Director, Human Resources

**Academic Programs Administration**

Shirley Maxey, BA, Assistant Vice Dean for Academic Affairs
Nandini Rajagopalan, PhD, Senior Associate Dean for Faculty

Office of Executive Education  
The Office of Executive Education offers two- to seven-day, non-degree professional development programs designed to help working professionals excel in their career. The Office of Executive Education is located at the AT&T Center in Downtown Los Angeles, (213) 740-8990; Fax (213) 740-6406 or email: execed@marshall.usc.edu.  
Arvind Bhambri, PhD, Academic Director, Executive Education  
Sandra Fritz, BS, Interim Director, Executive Education  

Bachelor's Degree  
Business Administration (BS)  
Business Core Requirements  
Business Administration majors must complete the business core. The business core contains foundational courses that provide analytical skills and theoretical knowledge in math, statistics, accounting and business economics as well as communication skills pertinent to the business field; functional courses in business disciplines such as finance, marketing, organizational behavior and operations; and integrative courses in strategy and data analysis.  
- BUAD 280L Introduction to Financial Accounting Units: 3  
- BUAD 281L Introduction to Managerial Accounting Units: 3  
- BUAD 302 Communication Strategy in Business Units: 4  
- BUAD 304 Organizational Behavior and Leadership Units: 4  
- BUAD 306 Business Finance Units: 4  
- BUAD 307 Marketing Fundamentals Units: 4  
- BUAD 310g Applied Business Statistics Units: 4  
- BUAD 311 Operations Management Units: 4  
- BUAD 425 Data Analysis for Decision Making Units: 2  
- BUAD 497 Strategic Management Units: 4  
- ECON 351x Microeconomics for Business Units: 4  
- ECON 352gx Macroeconomics for Business Units: 4  
- MATH 118gx Fundamental Principles of Calculus Units: 4 *  
  or  
- MATH 125g Calculus I Units: 4 **  

Note:  
*Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.  
**A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic advisers for additional information.  

Business Electives Requirement  
In addition to business core courses, students are required to gain a deeper understanding of a specific aspect of business in which they have an interest. Business administration majors must complete 12 units of upperdivision elective courses (typically three 4-unit courses) offered by the Marshall School, specifically 300- or 400-level courses with a prefix ACCT, BAEP, BUCO, DSO, FBE, FIM, MKT or MOR. Students can also satisfy the business electives requirement through participation in a Marshall School sponsored international exchange program. FIM courses are open only to students in the non-degree FIM certificate program.  
Electives should be selected based on a student's personal and professional goals and in consultation with an academic adviser. The Marshall School's academic departments and centers can also help students select courses that are particularly useful for careers in fields covered by the department or center. Electives are normally clustered in a particular field, but may be spread across different fields.  

Non-Business Course Work  
Sixty units of non-business course work are required for any of the undergraduate degrees conferred by the Marshall School of Business.  
MATH 118, WRIT 150, WRIT 340, ECON 351, ECON 352 and all courses required for the major must be taken for a letter grade. ECON 351 and ECON 352 must be taken in residence at USC.  
In addition to meeting university GPA requirements, a minimum overall/cumulative grade point average of 2.0 (A = 4.0) in upper-division business courses is required for graduation.  

Free Electives  
The business curriculum allows for 32 units of free electives. Students are strongly encouraged to pursue a minor, study a language and/or take advantage of the university's many opportunities to study abroad.  

Minors  
USC offers more than 150 minors, spanning a wide variety of fields. The business curriculum is designed to allow every
student enough flexibility to pursue a minor outside of business, in the belief that a strong undergraduate education must be well-rounded and incorporate the liberal arts as well as business classes. Minors allow students to gain substantial expertise in a field outside of business by taking classes in another of USC’s top-ranked departments and schools. Students with an officially declared minor may apply for the honor of being named a Renaissance Scholar if they meet the other program conditions. Because some classes required for particular minors may have limited availability, students are encouraged to work closely with their academic advisers to develop plans for their minors. The Marshall Office of Undergraduate Advising can help plan for minors and provide information on the various minors offered throughout the university and how they complement different business tracks.

Business Administration (Cinematic Arts) (BS)
This program consists of courses offered by both the Marshall School and the School of Cinematic Arts. Students completing the program receive a Bachelor of Science in Business Administration with an emphasis in Cinematic Arts. The program is available to entering freshmen only.

Requirements for Completion
To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business as well as an additional 24 units in cinematic arts, which specifically address the business side of the industry.

Business Requirements
- BUAD 280L Introduction to Financial Accounting Units: 3
- BUAD 281L Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352gx Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 or *
- MATH 125g Calculus I Units: 4 **
- Electives-Business 300- or 400-level ACCT, BAEP, non-core BUAD, BUCO, DSO, FBE, MKT or MOR Units: 12

Total business units: 60

Note:
Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam or AP calculus or IB mathematics exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher, or an IB math score of 5 or higher.

*A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic adviser for additional information.

Cinematic Arts Requirements
- CNTV 463 Television: Integrating Creative and Business Objectives Units: 2
- CNTV 467 The Future of Digital Media and the Entertainment Industry Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 191 Introduction to Television and Video Units: 4
- CTIN 458 Business and Management of Games Units: 2
- CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
- CTPR 410 The Movie Business: From Story Concept to Exhibition Units: 2
- CNTV 458 Producing and Marketing Feature Length Films Units: 2

Total cinematic arts units: 24

Total program units: 84

Business Administration (International Relations) (BS)
This program consists of courses offered by both the Marshall School of Business and the School of International Relations. Students completing the program receive a Bachelor of Science in Business Administration with an emphasis in International Relations.

Requirements for Completion
To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business as well as an additional 24 units in international relations from the courses listed below.

Business Requirements
- BUAD 280L Introduction to Financial Accounting Units: 3
- BUAD 281L Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
• BUAD 304 Organizational Behavior and Leadership Units: 4
• BUAD 306 Business Finance Units: 4
• BUAD 307 Marketing Fundamentals Units: 4
• BUAD 310g Applied Business Statistics Units: 4
• BUAD 311 Operations Management Units: 4
• BUAD 425 Data Analysis for Decision Making Units: 2
• BUAD 497 Strategic Management Units: 4
• ECON 351x Microeconomics for Business Units: 4
• ECON 352gx Macroeconomics for Business Units: 4
• MATH 118gx Fundamental Principles of Calculus Units: 4 *
or
• MATH 125g Calculus I Units: 4 **
• Electives—300- or 400-level ACCT, BAEP, non-core BUAD, BUCO, FBE, DSO, MKT or MOR Units: 12

Total business units: 60

Note:
*Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher, or an IB math score of 5 or higher.
**A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic adviser for additional information.

International Relations Requirements
• IR 210gw International Relations: Introductory Analysis Units: 4

International Political Economy Courses (4 units)
• IR 324 Multinational Enterprises and World Politics Units: 4
• IR 325 North-South Relations in the Global Economy Units: 4
• IR 326 U.S. Foreign Economic Policy Units: 4
• IR 330 Politics of the World Economy Units: 4

International Relations Regional Courses (8 units)
• IR 333 China in International Affairs Units: 4
• IR 345 Russian and Post-Soviet Foreign Policy Units: 4
• IR 360 International Relations of the Pacific Rim Units: 4
• IR 361 South and Southeast Asia in International Affairs Units: 4
• IR 362 The International Relations of the Contemporary Middle East Units: 4
• IR 363 Middle East Political Economy Units: 4
• IR 364 The Political Economy of Latin American Development Units: 4
• IR 365 Politics and Democracy in Latin America Units: 4
• IR 367 Africa in International Affairs Units: 4
• IR 369 Post-War European Relations Units: 4
• IR 383 Third World Negotiations Units: 4
• IR 385 European Foreign Policy and Security Issues Units: 4
• IR 439 Political Economy of Russia and Eurasia Units: 4
• IR 442 Japanese Foreign Policy Units: 4
• IR 465 Contemporary Issues in United States-Latin America Relations Units: 4
• IR 468 European Integration Units: 4

International Relations Electives (8 units)
Choose two from the list below or the two lists immediately above:
• IR 305w Managing New Global Problems Units: 4
• IR 306 International Organizations Units: 4
• IR 310 Peace and Conflict Studies Units: 4
• IR 315 Ethnicity and Nationalism in World Politics Units: 4
• IR 316 Gender and Global Issues Units: 4
• IR 323 Politics of Global Environment Units: 4
• IR 327 International Negotiation Units: 4
• IR 341 Foreign Policy Analysis Units: 4

• IR 381 Introduction to International Security Units: 4
• IR 382w Order and Disorder in Global Affairs Units: 4
• IR 402 Theories of War Units: 4
• IR 427 Seminar on Economics and Security Units: 4
• IR 444w Theories of Global Society Units: 4
• IR 483 War and Diplomacy: The U.S. in World Affairs Units: 4

Total international relations units: 24
Total program units: 84

Business Administration (Real Estate Finance) (BS)
Requirements for Admission
This program is available only to current Marshall and Leventhal undergraduates who have attained junior standing and have completed at least one semester in residence at USC. Students who wish to transfer to this program should
visit the Marshall Undergraduate Advising office (see http://students.marshall.usc.edu/undergrad/advising/).

Requirements for Completion
To complete the program, students must satisfy all requirements for the Bachelor of Science degree in business administration and 16 units in real estate finance.

Business Core Courses
- BUAD 280L Introduction to Financial Accounting Units: 3
- BUAD 281L Introduction to Managerial Accounting Units: 3
- BUAD 302 Communication Strategy in Business Units: 4
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 306 Business Finance Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- BUAD 310g Applied Business Statistics Units: 4
- BUAD 311 Operations Management Units: 4
- BUAD 425 Data Analysis for Decision Making Units: 2
- BUAD 497 Strategic Management Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352gx Macroeconomics for Business Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4 *
  or
- MATH 125g Calculus I Units: 4 **

Note:
*Placement into MATH 118 is contingent on successful completion of MATH 117 or obtaining an acceptable score on the math placement exam. The MATH 118 requirement may be waived with an AP Calculus AB or BC score of 4 or higher or an IB math score of 5 or higher.

**A-level mathematics examination scores of A or B may receive subject credit for MATH 125. Eligible students should speak with their academic advisers for additional information.

Real Estate Finance Requirements
- FBE 391 Real Estate Finance and Investment Units: 4
- FBE 427 Real Estate Law Units: 4
- FBE 470 Advanced Real Estate Analysis Units: 4
- FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4 or
- FBE 489 Real Estate Capital Markets Units: 4

Business Administration (World Program) (BS)
The World Bachelor in Business (WBB) Program offers students the opportunity for immersive study at three highly regarded business schools, one in each of the major economic/cultural zones of the world: the Americas, Asia and Europe. The program is designed and offered in cooperation with the Hong Kong University of Science and Technology (HKUST) and Bocconi University. Students spend at least one year at each campus and receive a degree from each university. The program is available to entering freshmen only. Prospective students should consult with the USC Marshall Undergraduate Admissions office for program and admissions information.

Requirements for Completion
To complete the program and receive a degree from each university, students must satisfy the degree requirements of each institution, which include language requirements. The USC degree requirements are those of the USC Marshall Bachelor of Science in Business Administration program, with the exception that WBB students do not need to complete 60 units of non-business course work. Students should consult with the WBB program academic adviser at each university. Specific courses completed at each university are used to fulfill specific requirements at the other universities.

Students should note the following USC degree requirements for the WBB program:
- A minimum of 32 units must be taken in residence at USC. The units applied toward this requirement must be taken for a letter grade and cannot be taken on a P/NP or CR/NC basis.
- In addition to meeting university GPA requirements, a minimum grade of C- must be earned on all upper division course work taken at USC and required for the major.
- A minimum grade of C- for course work completed at HKUST and Bocconi University must be earned for the course credits to transfer to USC.
- USC GPA calculations will be based on course work completed at USC.

Sample Program
WBB students spend the first year taking classes in Los Angeles at USC, the second year taking classes in Hong Kong at HKUST and the third year taking classes in Milan at Bocconi University. In the final year, students choose their location of study in consultation with the program directors. Each year includes at least one cohort class designed specifically for the WBB program.

The following sample program does not represent a required sequence of study; rather, it serves as a guideline. Students will meet with a WBB program academic adviser at each location to ensure that each student's program of study will fulfill WBB program requirements.

Year One - USC
Semester one
- BUAD 304 Organizational Behavior and Leadership Units: 4
- GE VI-Social Issues Units: 4 *
- MATH 118gx Fundamental Principles of Calculus Units: 4
• WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Semester two
• BUAD 104 Learning About International Commerce Units: 2
• ECON 351x Microeconomics for Business Units: 4
• GE IV-Science and Its Significance Units: 4
• GE V-Arts and Letters Units: 4
• WRIT 340 Advanced Writing Units: 3, 4
Total units: 34
*Students should choose an 'm' designated class for GE VI to fulfill the diversity requirement.

Year Two - HKUST
Semester one
• ECON 2123-Macroeconomics Units: 3
• ECON 2174-Mathematics for Economists Units: 4
• HLTH 1010-Healthy Lifestyle Units: 0
• USC GE III-Scientific Inquiry [HKUST: Science and Technology] Units: 3
• Chinese Communications Units: 3
• Understanding Business in Asia Units: 2
Semester two
• ACCT 2010-Principles of Accounting I Units: 3
• ISOM 2010-Introduction to Information Systems Units: 3
• ISOM 2500-Business Statistics Units: 3
• ISOM 2700-Operations Management Units: 3
• USC GE II-Global Cultures and Traditions [HKUST: Humanities] Units: 3
• Seminars in Asia's Business Units: 1
Total units: 31

Year Three - BOCCONI
Semester one
• 30006-Financial Markets and Institutions Units: 3
• 30015-Marketing Units: 3
• 30017-Corporate Finance Units: 3
• 30047-Introduction to the Legal System I Units: 3
• 30152-Public Management Units: 3
Semester two
• 30007-Managerial Accounting Units: 3
• 30048-Introduction to the Legal System II Units: 3
• 30056-European Economic Policy Units: 3
• USC GE I-Western Cultures and Traditions [Bocconi Economic History requirement] Units: 3
• Doing Business in Europe Units: 1
• Language 2 Units: 3
Total units: 31

Year Four, Option One - USC
Semester one
• BUAD 302 Communication Strategy in Business Units: 4
• BUAD 497 Strategic Management Units: 4
• MOR 421 Social and Ethical Issues in Business Units: 4
• Free electives Units: 8
Semester two
• BUAD 425 Data Analysis for Decision Making Units: 2
• BUAD 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (2 units required)
• FBE 403 Introduction to the Legal Environment of Business Units: 4
• Free electives Units: 8
Total units: 32

Year Four, Option Two - HKUST
Semester one
• MGMT 4110-Business Ethics and Policy Units: 4
• MGMT 4210-Corporate Strategy Units: 4
• Best Practices in Corporate Communication Units: 3
• Free electives Units: 6
Semester two
• ACCT 3610-Functions of Law in Society and Business Units: 3
• Capstone project Units: 4
• Free electives Units: 8
Total units: 32

Year Four, Option Three - Bocconi
Semester one
• 30012-Business Strategy Units: 4
• 30223-Marketing Communication Units: 3
• Free electives Units: 9
Semester two
• 30058-Comparative Business and European Law Units: 4
• 30216-Social Responsibility in Business, Government and Non-Profit Units: 3
• Final report Units: 2
• Free electives Units: 7
Total units: 32
Total units: 128

Undergraduate Certificate

Food Industry Management Program
Certificate Program
The Food Industry Management Program offers undergraduate and graduate courses emphasizing marketing,
retailing, financial and management aspects of the food industry. Completion of the program is acknowledged by a Food Industry Management Certificate. To qualify for admission and a scholarship grant for the undergraduate food industry management program, students must be currently employed in a management position in the food retailing, wholesaling or manufacturing industry and recommended by their employer. Also, they must have completed at least 64 undergraduate units (or have completed a bachelor's degree) with an academic standing adequate for admission to USC.

To receive a certificate, students must complete 16 units during the one-semester program. Students must take all required FIM courses for the time they are in the program.

**Spring Semester**

- FIM 420 Food Retailing Management Units: 4
- FIM 480 Food Industry Financial Accounting and Analysis Units: 4
- FIM 481 Food Marketing Research Units: 4
- FIM 582 Food Industry Decision-Making Units: 4

**Total units: 16**

**Business Economics Minor**

This minor is available to students of all majors except business, accounting and economics. This minor teaches students to think strategically about business. It integrates economic ideas with practical applications in the real world. Students who minor in business economics learn to think like leaders in business firms. This minor approaches problems conceptually, proceeding from the general economic theories to specific real world applications. This gives students a higher level of understanding of business opportunities and problems.

Many students in disciplines other than business need economic skills that focus on business. This minor teaches a combination of the ideas, skill sets and methodological approaches used in business economics. Students develop economic reasoning skills related to real-world problems and opportunities.

To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75. Completion of this minor requires a minimum of 18 units.

**Required Courses**

**Economics**

Choose one of the following five options (units 2-8):

- BUAD 200x Economic Foundations for Business Units: 2
- BUAD 201x Introduction to Business for Non-Majors Units: 4
- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352gx Macroeconomics for Business Units: 4

**Accounting**

- ACCT 410x Foundations of Accounting Units: 4

**Finance**

- FBE 443 Introduction to Forecasting and Risk Analysis Units: 4
- FBE 445 Topics in Economic Analysis of Business Strategy and Policy Units: 4
- FBE 462 International Trade, Finance and Commercial Policy Units: 4

**Note:**

*Prerequisite required

**Business Finance Minor**

The minor in business finance offers non-business/non-accounting majors an opportunity to expand their career opportunities by gaining a background in financial concepts, valuation and financial strategy. It provides students with the necessary tools to measure benefits and related costs that will enable them to make better business decisions. Problem-solving and quantitative skills that are widely used in business will enable students to work on special projects or management teams — opportunities that might not have been available had it not been for this minor. Eighteen units are required.

To enroll students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75. Completion of this minor requires a minimum of 18 units.

**Required Courses**

**Economics**

Choose one of the following five options (units 2-8):

- BUAD 200x Economic Foundations for Business Units: 2
- BUAD 201x Introduction to Business for Non-Majors Units: 4
- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352gx Macroeconomics for Business Units: 4

**Accounting**

- ACCT 410x Foundations of Accounting Units: 4

**Finance**

- FBE 443 Introduction to Forecasting and Risk Analysis Units: 4
- FBE 445 Topics in Economic Analysis of Business Strategy and Policy Units: 4
- FBE 462 International Trade, Finance and Commercial Policy Units: 4
• BUAD 215x Foundations of Business Finance Units: 4 **

Electives
Choose two from the list below:
• FBE 421 Financial Analysis and Valuation Units: 4
• FBE 423 Introduction to Venture Capital and Private Equity Units: 4
• FBE 425 Management of Financial Institutions Units: 4
• FBE 431 Financial Policies and Corporate Governance Units: 4
• FBE 432 Corporate Financial Strategy Units: 4
• FBE 433 Corporate Governance and CEO Pay Units: 4
• FBE 435 Applied Finance in Fixed Income Securities Units: 4
• FBE 436 Financial Management of Multinational Corporations Units: 4
• FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms Units: 4
• FBE 440 Trading and Exchanges Units: 4
• FBE 441 Investments Units: 4
• FBE 458 Law, Finance and Ethics Units: 4
• FBE 459 Financial Derivatives Units: 4
• FBE 460 Mergers, Acquisitions and Restructuring Units: 4
• FBE 462 International Trade, Finance and Commercial Policy Units: 4 **

Notes:
* Students who have earned scores of 4 or 5 on both the AP Microeconomics and the AP Macroeconomics exams will be waived out of the first requirement (BUAD 200, BUAD 201 or ECON).
** Prerequisite or corequisite required

Required Courses
• FBE 403 Introduction to the Legal Environment of Business Units: 4
• FBE 458 Law, Finance and Ethics Units: 4

Choose two of the following:
• FBE 427 Real Estate Law Units: 4
• FBE 428 Principles of Employment Law Units: 4
• FBE 429 International Business Law Units: 4
• FBE 430 Online Commerce and Intellectual Property Units: 4

Business Minor
The minor in business is available to students in all schools and departments except the Marshall School of Business and the Leventhal School of Accounting. The minor provides the opportunity for students to gain understanding of key concepts and tools of business.

To enroll in the business minor, students must have completed a minimum of 32 units of college-level courses and attained a minimum overall GPA of 2.75.

Successful completion of the business minor requires at least 16 units of upper-division course work with a minimum cumulative GPA of 2.0 in the courses applied to the minor:

Minor Course Requirements
Choose one of the following five options: (units 2-8)
• BUAD 200x Economic Foundations for Business Units: 2 or
• BUAD 201x Introduction to Business for Non-Majors Units: 4 or
• ECON 203g Principles of Microeconomics Units: 4 and
• ECON 205g Principles of Macroeconomics Units: 4 or
• ECON 303 Intermediate Microeconomic Theory Units: 4 and
• ECON 305 Intermediate Macroeconomic Theory Units: 4 or
• ECON 351x Microeconomics for Business Units: 4 and
• ECON 352gx Macroeconomics for Business Units: 4

Required:
• ACCT 410x Foundations of Accounting Units: 4 or
• BUAD 280L Introduction to Financial Accounting Units: 3 or
• BUAD 305 Abridged Core Concepts of Accounting Information Units: 4

• BUAD 215x Foundations of Business Finance Units: 4 ** or
• BUAD 306 Business Finance Units: 4

• BUAD 302 Communication Strategy in Business Units: 4

• BUAD 304 Organizational Behavior and Leadership Units: 4

• BUAD 307 Marketing Fundamentals Units: 4 or
• MKT 385x Marketing of Creative Disruption and Innovation Units: 4

• BUAD 315x Basics of Project and Operations Management for Non-Majors Units: 2 or
• BUAD 311 Operations Management Units: 4

Notes:
* Students who have earned scores of 4 or 5 on both the AP Microeconomics and the AP Macroeconomics exams will be waived out of the first requirement (BUAD 200, BUAD 201 or ECON).

** ACCT 410 or BUAD 280 or BUAD 285a or BUAD 305 must be taken before BUAD 215.

Business Technology Fusion Minor
The minor in business technology fusion is available to students in all schools and departments except business majors. This minor requires 20 units to complete. To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75.

Course Requirements
• DSO 431 Foundations of Digital Business Innovation Units: 4
• DSO 433 Business Process Design Units: 4
• DSO 435 Enterprise Data Architecture Units: 4

Electives
Choose from the following to achieve a total of at least 8 units:
• DSO 401 Business Information Systems – Spreadsheet Applications Units: 2
• DSO 402 Business Information Systems – Database Applications Units: 2
• DSO 443 The Business of Digital Entertainment Units: 4
• DSO 455 Project Management Units: 4
• DSO 462 Managing a Small Business on the Internet Units: 2

Consumer Behavior Minor

Consumer behavior studies inform decision makers in the business, government and non-profit sectors on how consumer decisions, preferences, activities and other behaviors are influenced by factors such as culture, subculture, demographics, sensation, thinking, conscious and unconscious information processing, knowledge organization, beliefs, interpersonal communication, learning from experience and values. This is an interdisciplinary field, drawing on such disciplines as marketing, psychology, sociology, anthropology, economics, linguistics, ethnic studies, gender studies, geography, history, cognitive science and communications to understand the experiences of contemporary consumers across the world.

To enroll in this minor, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75.

Requirements
This minor requires 18-20 units.

• MKT 450 Consumer Behavior and Marketing Units: 4
• PSYC 100Lg Introduction to Psychology Units: 4

Complete at least 10 units consisting of at least three courses from the list below subject to the following constraints:
• A minimum of 18 units (including MKT 450 and PSYC 100) must be unique to the minor (i.e., not be countable toward requirements for the major). This does not include any prerequisites for courses listed.
• At least 16 units of all courses taken for the minor are not offered by the student's major department. For Business Administration and Accounting majors, courses with prefixes of BUAD and MKT are considered to be offered by the student's major department.
• No more than two of the courses chosen from the list below may be offered by the same department.
• At least one of the courses chosen below has a prefix other than COMM, MKT and BUAD.
• Courses taken at institutions other than USC (i.e., International Exchange programs and transfer credits) cannot substitute for any of the minor requirements.

American Studies
• AMST 274gm Exploring Ethnicity through Film Units: 4
• AMST 380 American Popular Culture Units: 4

Anthropology
• ANTH 355 Urban Anthropology Units: 4 **
• ANTH 370 Family and Kinship in Cross-Cultural Perspective Units: 4, 2 years
• ANTH 375 Applied Anthropology Units: 4, 2 years
• ANTH 445 African American Anthropology Units: 4
• ANTH 460 Economic Anthropology Units: 4 **
Business Administration
- BUAD 307 Marketing Fundamentals Units: 4

Comparative Literature
- COLT 102g On Location: The Place of Literature in Global Cultures Units: 4
- COLT 303 Globalization: Culture, Change, Resistance Units: 4

Communication
- COMM 302 Persuasion Units: 4
- COMM 340 The Cultures of New Media Units: 4 *
- COMM 384 Interpreting Popular Culture Units: 4
- COMM 396 Fashion, Media and Culture Units: 4 **

Computer Science
- CSCI 109 Introduction to Computer Science Units: 2
- CSCI 110 Introduction to Digital Logic Units: 3
- CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4 *
- CSCI 360L Introduction to Artificial Intelligence Units: 4 *

Economics
- ECON 340 Economics of Less Developed Countries Units: 4 *
- ECON 346 Economics of Transition and Development: China Units: 4 *
- ECON 405 Neuroeconomics Units: 4 *
- ECON 415 Behavioral Economics Units: 4 *
- ECON 420 Experimental Economics Units: 4 *
- ECON 432 Economics of Happiness Units: 4 *

English
- ENGL 392 Visual and Popular Culture Units: 4

History
- HIST 380 American Popular Culture Units: 4

Marketing
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4
- MKT 402 Research Skills for Marketing Insights Units: 4 *
- MKT 405 Advertising and Promotion Management Units: 4 *
- MKT 410 Professional Selling Units: 4 *
- MKT 465 Global Marketing Management Units: 4 *

Policy, Planning, and Development
- PPD 245g The Urban Context for Policy and Planning Units: 4

Psychology
- PSYC 240gx Scientific Inquiry and Reasoning in Health Care Units: 4
- PSYC 355 Social Psychology Units: 4 *

Sociology
- SOCI 155gm Immigrant America Units: 4
- SOCI 210g Science, Technology, and Social Conflict Units: 4
- SOCI 242g Sociology, Demography, and Health Units: 4
- SOCI 305m Sociology of Childhood Units: 4
- SOCI 331 Cities Units: 4 **

Total requirements: at least five courses: 18-20 units

Notes:
* Prerequisites required
** Courses not offered regularly

(Prerequisites will not be waived for upper-division courses; students must complete the prerequisite courses needed in addition to the courses for this minor.)

Entrepreneurship Minor
The minor in entrepreneurship is available to students in all schools and departments except business majors. It provides an understanding of entrepreneurship and the entrepreneurial mindset. To enroll in this minor, students must have completed a minimum of 32 units of college-level coursework and have a minimum overall GPA of 2.75.

The minor requires a minimum of 17 units to complete.

Core Requirements
- BAEP 423 Management of Small Businesses Units: 4
- BAEP 450 Fundamentals of Entrepreneurship Units: 4
- BAEP 451 The Management of New Enterprises Units: 4
- BUAD 301 Technology Entrepreneurship Units: 3
- BAEP 452 Feasibility Analysis Units: 4
- BAEP 453 Venture Management Units: 4
- BAEP 454 Venture Initiation: Launching and Scaling Your Startup Units: 4

Electives
Choose from the following to achieve a total of at least 17 units for the minor:
- BAEP 455 Founder's Dilemmas Units: 4
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup Units: 2
Human Resource Management Minor
The minor in human resource management is available to students in all schools and departments except business majors. It is appropriate for students pursuing careers in human resource management, as well as for students pursuing management positions where they will be interfacing with or relying on the human resource function for support. To enroll in this minor, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75. Completion of the human resource management minor requires a minimum GPA of 2.0 in the following business minor courses:

**Minor Course Requirements**
- BUAD 304 Organizational Behavior and Leadership Units: 4
- MOR 471 Managing and Developing People Units: 4

**Electives**
Choose three courses from the following (12 units):
- FBE 428 Principles of Employment Law Units: 4
- FBE 433 Corporate Governance and CEO Pay Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 431 Interpersonal Competence and Development Units: 4
- MOR 461 Design of Effective Organizations Units: 4

Management Consulting Minor
The minor in management consulting is available to students in all schools and departments except business majors. The minor develops skills used by professional consultants to assist organizations and businesses in identifying and addressing their issues and problems. To enroll, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75. Completion of this minor requires a minimum GPA of 2.0 in the following courses:

**Course Requirements**
- BUAD 304 Organizational Behavior and Leadership Units: 4
- MOR 462 Management Consulting Units: 4

**Electives**
Choose three courses from the following (12 units):
- DSO 455 Project Management Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 461 Design of Effective Organizations Units: 4
- MOR 463 Organization Change and Development Units: 4
- MOR 465 Advanced Methods in Strategy Analysis Units: 4
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 473 Designing and Leading Teams Units: 4

Marketing Minor
Minor in Marketing
The minor in marketing is available to students in all schools and departments except business majors. Marketing studies processes that organizations use to identify and serve the needs of customers. The marketing minor provides a business-related education that will supplement many undergraduate majors, and enhance the career prospects for students whose majors could incorporate a marketing dimension or application. This minor should appeal to any student interested in an early marketing career, which includes, but is not limited to, professional sales, retailing, marketing research, product management and advertising.

Eligible students must have completed a minimum of 32 units of college-level course work and have a minimum GPA of 2.75. Either BUAD 307 Marketing Fundamentals or MKT 385 Marketing of Creative Disruption and Innovation must be completed as a required prerequisite. Students must successfully complete 16 units of MKT electives to satisfy this minor.
Operations and Supply Chain Management Minor
The minor in operations and supply chain management is available to students in all schools and departments except business majors. This minor requires 20 units to complete. To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of at least 2.75.

Minor Course Requirements
- BUAD 311 Operations Management Units: 4
- DSO 482 Supply Chain Management Units: 4
- DSO 483 Operations Consulting Units: 4

Electives
Choose from the following to achieve a total of at least 8 units:
- DSO 401 Business Information Systems – Spreadsheet Applications Units: 2
- DSO 427 Designing Spreadsheet-Based Business Models Units: 4
- DSO 433 Business Process Design Units: 4
- DSO 441 Service Operations Units: 4
- DSO 455 Project Management Units: 4

Organizational Leadership and Management Minor
The minor in organizational leadership and management is available to students in all schools and departments except business majors. Students in the minor learn about personal and organizational leadership, ethics of the workplace, leading in a global context and organizing and planning for effective personal and organizational performance. To enroll, students must have completed a minimum of 32 units of college-level courses and have a minimum overall GPA of 2.75. Completion of this minor requires a minimum GPA of 2.0 in the following courses:

Course Requirements
- BUAD 304 Organizational Behavior and Leadership Units: 4
- MOR 470 Global Leadership Units: 4

Electives
Choose three courses from the following (12 units):
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 431 Interpersonal Competence and Development Units: 4
- MOR 469 Negotiation and Persuasion Units: 4
- MOR 471 Managing and Developing People Units: 4
- MOR 472 Power, Politics and Influence Units: 4
- MOR 473 Designing and Leading Teams Units: 4
- MDA 365 The Art and Adventure of Leadership Units: 4

Real Estate Finance Minor
The minor in real estate finance is available to all majors except business and real estate development. It provides students with training in the areas of business, finance, real estate law, design, and urban economics. It provides an opportunity for students to gain thorough exposure to the topics of real estate investing, finance and development. Upon successful completion of this minor, students will have achieved a basic understanding of the interplay of the various disciplines involved in contemporary real estate ownership and investment and how they impact the areas of the student's specific interests and expertise.
Those completing this minor will master techniques in valuing income-producing properties, analyze financial instruments such as mortgages and loans, understand the roles of debt and equity, gain insights into the processes of design and construction, as well as understand the dynamics of how real estate markets affect the underlying values of real property assets, as well as the role real estate markets play in the overall economy.
To enroll, students must have completed a minimum of 32 units of college-level course work and attained a minimum overall GPA of at least 2.75. Successful completion of this minor requires a minimum of 16 upper-division units in the minor and a cumulative GPA of 2.0 for the 24 units.

Required Courses (16 Units)
Accounting
Choose one option from the following: Units: 4-6
- ACCT 410 Foundations of Accounting Units: 4
- BUAD 280L Introduction to Financial Accounting Units: 3
- BUAD 306 Business Finance Units: 4

Real Estate Finance
- FBE 391 Real Estate Finance and Investment Units: 4
- FBE 400x Introduction to Real Estate Finance and Development Units: 4

Real Estate Law
- FBE 427 Real Estate Law Units: 4

Electives
Choose two courses (8 units) from the following:
- FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4
Notes:
*ACCT 410 or BUAD 280 or BUAD 305 must be taken before BUAD 215.

**Requires prerequisite of ECON 351 and corequisites of ECON 352 and BUAD 310

Social Entrepreneurship Minor
The minor in social entrepreneurship provides students from all undergraduate majors with a foundation in the context and practice of social entrepreneurship, nationally and internationally. The minor provides an understanding of social entrepreneurship and its relationship to government and public policy as well as an understanding of management skills specific to starting and maintaining a social enterprise. The curriculum includes options allowing the student to tailor course work to his or her individual academic interests and professional aspirations.

To enroll in this minor, students must have completed 48 units of college level courses with a cumulative USC GPA of at least 2.75.

Course Requirements (14 Units)
- BAEP 451 The Management of New Enterprises Units: 4
- BAEP 491 Introduction to Social Entrepreneurship Units: 4
- BAEP 460 Seminar in Entrepreneurship Units: 2 or
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2 or
- BAEP 497 Field Project in Entrepreneurship Units: 2
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4

Electives
Complete at least 7 units from the following:
- BAEP 452 Feasibility Analysis Units: 4 *
- BAEP 471 Social Innovation Design Lab Units: 4
- BUCO 485 Business Communication Management for Nonprofits Units: 4
- CE 469 Sustainable Design and Construction Units: 3
- COMM 402 Public Communication Campaigns Units: 4
- IR 305w Managing New Global Problems Units: 4
- IR 308w Economic Globalization Units: 4
- PPD 478 Social Innovation Units: 4
- PSYC 456 Conservation Psychology Units: 4 **
- SOCI 360m Social Inequality: Class, Status, and Power Units: 4

Notes:
*Prerequisite: BAEP 310 or BAEP 423 or BAEP 450 or BAEP 451 or BUAD 301

**Prerequisite: PSYC 100

Technology Commercialization Minor
This interdisciplinary minor includes courses from both the business and engineering schools and provides education in the economic, technological and entrepreneurial aspects of commercializing new technologies. The minor is designed for students from a range of backgrounds (e.g., majors in engineering, life sciences or business) who are interested in starting their own technology-based ventures, working for technology-based start-up companies or pursuing corporate careers that may involve the commercialization of new technologies. In the minor, students learn about conceptualizing, developing and managing new, technology-based ventures and projects.

To enroll, students must have completed a minimum of 32 units of college-level course work and have a minimum overall GPA of 2.75. To complete the minor, students are required to complete the two required courses (7 units) and enough elective courses to achieve a total of 16 units outside of their major. Business majors thus require 23 total units and other majors 16 total units to complete the minor.

Required Courses
- BAEP 452 Feasibility Analysis Units: 4
- BUAD 301 Technology Entrepreneurship Units: 3 *

Note:
*BUAD 301 is a prerequisite to BAEP 452 and must be taken first.

Electives
- ACCT 410x Foundations of Accounting Units: 4
- BAEP 454 Venture Initiation: Launching and Scaling Your Startup Units: 4
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BME 416 Development and Regulation of Medical Products Units: 3
- BUAD 307 Marketing Fundamentals Units: 4 or
- MKT 385x Marketing of Creative Disruption and Innovation Units: 4
- CE 473 Engineering Law, Finance and Ethics Units: 3 or
- ENGR 509 Patent Law for Scientists and Engineers Units: 3
- ENGR 493x Dean's Seminar in Entrepreneurship Units: 2
- ISE 344 Engineering Team Management Units: 3
• ISE 440 Work, Technology, and Organization Units: 3
• ISE 460 Engineering Economy Units: 3
• ITP 310 Design for User Experience Units: 3
• ITP 466 Building the High Tech Startup Units: 4
• ITP 476 Technologies for Interactive Marketing Units: 4
• MKT 445 New Product Development and Branding Units: 4

Interdisciplinary Minors
For Business

Performance Science Minor

The minor in Performance Science teaches the science, best practices and applied processes to instill a high-performance mindset through a multi-disciplinary curriculum spanning business, psychology, biology, philosophy and athletics. This interdisciplinary minor will enable students to understand brain and body function, human behavior, psychology, emotion and leadership, all with the goals of optimizing individual mindsets, maximizing performance and creating a culture of high performance within their organizations. To enroll in this Performance Science minor, students must have completed 32 units of college-level courses and attain a minimum overall GPA of 2.75. Completion of the minor requires 20 units.

Core Requirement

• BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
• BAEP 497 Field Project in Entrepreneurship Units: 2

Complete at least four units from each of the following categories: Mind, Business, Body.

MIND:
• PSYC 201Lg The Science of Happiness Units: 4
• PSYC 440 Introduction to Cognitive Neuroscience Units: 4 *

BUSINESS:
• MOR 451 Mastering Decision Making Units: 4
• MOR 471 Managing and Developing People Units: 4

BODY:
• BISC 230Lgx The Biology of the Brain: Current Topics in Neuroscience Units: 4
• PSYC 367g Stress, Health, and the Mind-Body Connection Units: 4 *

*Prerequisite required.

Total Core: 16 units

Electives

Complete at least 4 units from the list of courses below or the courses listed above that are not applied as a "required course."

• PHIL 258g Probability and Rational Choice Units: 4
• PSYC 301L Cognitive Processes Units: 4 *

BUSINESS:
• BAEP 450 Fundamentals of Entrepreneurship Units: 4 or
• BAEP 451 The Management of New Enterprises Units: 4
• MOR 431 Interpersonal Competence and Development Units: 4 *
• MOR 461 Design of Effective Organizations Units: 4 *
• MOR 469 Negotiation and Persuasion Units: 4

BODY:
• HBIO 202L Nutrition for Life Units: 4
• HBIO 205Lgx The Science of Sport Units: 4
• HP 440 Happiness, Well-Being, and Health Units: 4
• PHED 106a Physical Conditioning Units: 1
• PHED 160 Stress Management for Healthy Living Units: 2

*Prerequisite required.

Total Units Required: 20

Master of Business Administration

Executive MBA Program

The Executive MBA program is structured for mid-career to upper-career professionals who are fully employed. Rather than a program of traditional course disciplines (e.g., accounting, marketing, finance) the EMBA program offers a more thematic approach — integrating the material and often delivering it with faculty from different disciplines teaching in a team format. Core faculty include the school’s most senior, experienced members as well as nationally renowned academic and business specialists. This program is delivered on Fridays and Saturdays (full days) for a two-year period at either the USC campus in downtown Los Angeles or in San Diego. As with the other USC Marshall MBA programs, an extensive international trip is integrated into the program.

Application

Application to the EMBA program does not require GMAT or GRE scores. In addition to the other general admission requirements, applicants should have 10 years of work experience that includes substantial managerial responsibilities. The Executive MBA Admissions office may be contacted at (213) 740-7846; Fax (213) 749-8520; or email: usemba@marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

Program Structure
This program uses a non-traditional interdisciplinary approach to executive and managerial education through "themes" that integrate various functional areas and address classic, yet dynamic, business issues. The program begins with a six-day domestic residential session. Thereafter, the 21-month MBA program meets Fridays and Saturdays throughout the year with a short summer break. An eight-day international trip is scheduled during the first theme of the program’s second year.

Year 1

Theme I
• GSBA 560 The Perspective of Top Management Units: 2

Theme II
• GSBA 561 Evaluating Market Performance Units: 9

Theme III
• GSBA 562 Management of Operations Units: 11 or
  • GSBA 562a Management of Operations Units: 1
  • GSBA 562b Management of Operations Units: 10

Theme IV
• GSBA 563 Technology and Information Systems Management Units: 6 or
  • GSBA 563a Technology and Information Systems Management Units: 2
  • GSBA 563b Technology and Information Systems Management Units: 4

Theme V
• GSBA 564 Functional Strategies and Implementation Units: 2

Year 2

Theme VI
• GSBA 570 The Role of the Senior Executive Units: 2

Theme VII
• GSBA 571 Environmental Analysis: Establishing Competitive Advantage Units: 9

Theme VIII
• GSBA 572 Strategic Planning for Growth Units: 11 or
  • GSBA 572a Strategic Planning for Growth Units: 3
  • GSBA 572b Strategic Planning for Growth Units: 8

Theme IX
• GSBA 573 Managing Strategic Change and Implementation Units: 6 or
  • GSBA 573a Managing Strategic Change and Implementation Units: 5
  • GSBA 573b Managing Strategic Change and Implementation Units: 1

Theme X
• GSBA 574 The Executive of the Future Units: 2

Total units required for degree: 60

Full-time MBA Program

The Marshall full-time MBA curriculum is a comprehensive two-year (63-unit) learning experience develop outstanding leaders who act with positive impact and character in a rapidly changing economic, social and political world. A core of essential courses is designed to build the foundation of skills required of all leading executives, develop collaborative talent, cultivate innovation and expand the student’s vision with a global perspective. An individualized program of study, which begins in the second semester of the first year, allows students to acquire knowledge and skills in specialized functions within specific industries. Recognizing that success in business requires more than a thorough knowledge of the vernacular of business, the full-time MBA curriculum is both broad and deep, offering students an opportunity to learn about business from varying perspectives. Full-time MBA students develop:

- a strategic perspective that understands the global dynamics of worldwide industries and new markets;
- an ability to integrate decisions and solutions across disciplines in complex decision-making environments;
- a world view that understands and appreciates different cultures and economies;
- a clear framework for ethical and values-based, decision-making supported by unyielding personal integrity and the confidence to act accordingly; and
- a professional presence and the ability to articulate a vision needed to motivate others and lead diverse teams of people.

Full-time MBA graduates are collaborative by nature, innovative in spirit and global in perspective.

The Faculty

Instructors in the full-time MBA program are an inspired group of teachers who are passionate about nurturing the development of their students and are committed to the program and to innovative implementation. Scholars bring their latest thinking into the classroom and convey it so that students embrace ideas and learning with excitement and a willingness to demonstrate that learning and enthusiasm in their careers. Recognized experts, academic specialists and industry leaders are actively involved in the program. Faculty known for their work in Marshall research centers offer industry collaboration. Many faculty connect with other schools in the university, tap into the strengths of innovative Southern California industries and engage our alumni across industries.
and globally. The valuable contributions of experience and expertise from individuals and organizations outside Marshall weave theory with practice.

**An Advanced Learning Environment**

The educational approach of the full-time MBA is a careful balance of case learning along with course work, lectures, experiential exercises and field studies. Students are members of supportive and challenging learning communities. The experience is hands-on and teamwork based, with extensive opportunities to work with real companies and managers on real projects. Classes are taught in state-of-the-art case rooms featuring network access for every student. The Experiential Learning Center offers students opportunities for experimentation, video practice, simulation exercises and group preparation. The full-time program is rigorous, intellectually demanding and time-intensive. Students typically spend 60–80 hours per week on course work and projects.

**Application**

Applicants should have significant full-time work experience. Letters of recommendation submitted with the application should relate to the applicant's work experience. For more information, contact the Marshall MBA Admission Office in Popovich Hall (JKP) 308; (213) 740-7846; Fax (213) 749-8520; marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

**Application Deadlines**

Admission decisions for the full-time program are made within four admission rounds. Applicants who submit completed applications (including test scores) to the Admission Office by the December, January, February and April dates listed on marshall.usc.edu/admissions/applyonline will receive notification in approximately six weeks. Applicants are urged to file a completed application as early as possible, as the applicant pool is extremely competitive. The final deadline to apply for the full-time program is April 1.

**Summer Preparation**

The average full-time MBA student is returning to school after completing five years of full-time employment. To help students prepare for their return to academia and refresh their knowledge of business fundamentals, Marshall provides non-credit tutorials and workshops via online/distance formats. Students complete the summer preparation materials and master the information before arriving on campus. Orientation programs take place during the latter half of July.

**Early Start to First Year**

The academic program begins the first week of August with a four-week intensive term that includes graded course work in communication for management, strategy, data analysis and modeling and accounting principles and financial reporting. The fall semester academic program continues with classes, workshops and study sessions meeting Monday through Thursday.

**Focus on Collaboration**

The ability to work in and manage teams is becoming increasingly important in business practice. Building these skills during the program is a key part of each student's leadership growth.

Students are assigned to small teams for the first semester of study. These teams are composed of students with diverse backgrounds and experiences to enhance the overall learning experience for each team member. Teamwork is crucial to success in a variety of settings including group projects, study groups and competitive assignments. A greater understanding of teams is bolstered through formal discussions and presentations throughout the year.

In addition to formal team projects, a strong community of mutual support develops from the important role informal study groups play in the school's academic culture.

**The Core: An Integrated Program of Study**

Although the curriculum lists a series of required courses to be taken during the first year of the full-time MBA program, students are, in many ways, pursuing one nine-month course because the individual courses and materials covered are highly integrated.

The first-year teaching team develops and evaluates selected assignments jointly, linking concepts across courses, and occasionally team teaching, examining complex business programs from multiple perspectives.

**Communication for Management**

Communication for Management is a business communication course comprising class sessions, tailored workshops and ongoing individual and group coaching. First-year students are immersed in developing their presentation skills, interpersonal communication skills and emotional intelligence — the ability to understand and respond to the human side of business — all skills required of successful leaders.

**PRIME**

The global vision generated during the first year of the MBA culminates with PRIME. The final component of the Global Context of Business course, PRIME takes on-campus classroom study abroad for nine days. Integrating the classroom and international travel components of the course, students conduct research on industry- and company-specific business issues and report their findings in major presentations. Recent PRIME locations include Buenos Aires, Argentina; Lima, Peru; Taipei, Taiwan/Shanghai, China; Seoul, South Korea/Beijing, China; Hong Kong/Guangdong, China; Osaka/Tokyo, Japan; and Hanoi, Vietnam/Bangkok, Thailand.

**Internships**

Practical experience is critical to success in business. Marshall has developed an extensive network of prospective employers who offer internships during the summer between their first and second year. Successful internships often lead to job offers.

**International Exchange Program**

The Marshall School offers a range of international semester-long exchange programs in cooperation with leading business schools around the world. Since many of the programs are taught in English, language proficiency is not a requirement for all countries. Students must complete the MBA core courses and maintain a 3.0 GPA in order to participate in the exchange program. This program is open to full-time MBA and MBAPM students.
Program Structure
A total of 63 units is required. The following outlines the
typical full-time student's schedule:

First Year "Core" Required Courses -
First Semester
• GSBA 504a Operations Management Units: 1.5
• GSBA 509 Marketing Management Units: 1.5
• GSBA 510 Accounting Concepts and Financial
Reporting Units: 1.5, 2, 3
(1.5 units)
• GSBA 516 Essentials of Data Analysis and
Modeling Units: 1.5
• GSBA 521a Corporate Finance Units: 1.5
• GSBA 533 Organizational Behavior and
Leadership Units: 1.5
• GSBA 540 Contemporary Issues in Competitive
Strategy Units: 1.5
• GSBA 542 Communication for Management
Units: 1.5
• GSBA 545 Data Driven Decision Making Units:
1.5
• Graduate business elective Units: 1.5 (500-
level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT
or MOR)
Total units: 18
Second Semester
• GSBA 580a The Global Context of Business
Units: 1.5
• GSBA 580b The Global Context of Business
Units: 1.5
• GSBA 580c The Global Context of Business
Units: 1.5
• Graduate business electives Units: 10.5 (500-level
ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT
or MOR)
Total units: 15
Second Year
• Graduate business electives Units: 30
(500-level ACCT, BAEP, BUCO, DSO, FBE, GSBA, MKT
or MOR)
Total units required for degree: 63
Note: USC reserves the right to change, add or delete its
course offerings and programs without notice.

Global Executive MBA Program
The Global Executive MBA program (GEMBA) in Shanghai
offers a thematic approach — integrating the material and
delivering it with faculty from different disciplines teaching
in a team format. GEMBA is delivered over a 21-month
period in 13 modules, featuring 10 five-day modules in
Shanghai spanning weekends (Thursday through Monday),
two eight-day modules at the Marshall School of Business in
Los Angeles, and a study trip to another Asian country, plus
assignments and examinations to be completed between
classroom sessions. Shanghai sessions are taught at the Antai
College of Economics and Management, Shanghai Jiao Tong
University.

Application
Applicants should have a minimum of 10 years of work
experience, of which six should be in a management role.
General admission requirements apply except that in lieu of
the TOEFL or IELTS score, prospective applicants are pre-
screened by the GEMBA office in Shanghai. Contact the
Shanghai Global Executive MBA office by phone at +86-21-
6293-2707, by fax at +86-21-6293-2713 or by email at
uscgemba@sjtu.edu.cn. Contact the L.A. Global Executive
MBA office by phone at (213) 740-8243, by fax at (213)
740-7559 or by email at gemba@marshall.usc.edu. To apply
online, visit marshall.usc.edu/admissions/applyonline.

Program Structure
GEMBA employs a nontraditional, interdisciplinary and
integrated approach to executive and management education
through focus on real-world "themes" that integrate various
functional areas and address classic, yet dynamic business
issues.
Classes begin in May at the Antai College of Economics and
Management at Shanghai Jiao Tong University in China.
Thereafter, the program continues in a series of them-
specific modules during the five-day sessions, held every six
weeks, primarily at the Antai College. Students take an in-
depth study trip to another Asian country in the second year.
The program concludes with a nine-day capstone module
held at the USC Marshall School of Business in Los Angeles
and the commencement celebration.

Year 1, Summer
Theme I
• GSBA 560 The Perspective of Top Management
Units: 2

Theme II
• GSBA 561 Evaluating Market Performance Units:
9

Year 1, Fall
Theme III
• GSBA 562 Management of Operations Units: 11

Year 1, Spring
Theme IV
• GSBA 563 Technology and Information Systems
Management Units: 6

Year 2, Summer
Theme V
• GSBA 564 Functional Strategies and
Implementation Units: 2

Theme VI
• GSBA 570 The Role of the Senior Executive
Units: 2

Year 2, Fall
Theme VII
• GSBA 571 Environmental Analysis: Establishing Competitive Advantage Units: 9

Theme VIII
• GSBA 572 Strategic Planning for Growth Units: 11

Year 2, Spring
Theme IX
• GSBA 573 Managing Strategic Change and Implementation Units: 6

Theme X
• GSBA 574 The Executive of the Future Units: 2

Total units required for degree: 60

International MBA Program
The IBEAR MBA program is an accelerated global MBA for experienced managers and professionals. The curriculum contains internationalized core courses in its first three terms and selected international business electives thereafter. It concludes with a challenging consulting project in terms four and five.

Application
In addition to the general admission requirements, applicants should have a minimum of six years work and/or graduate study experience. Current participants average 11 years of experience and are 34 years of age. Scholarships are available to domestic and international students. For more information, contact the IBEAR MBA Program; (213) 740-7140; Fax (213) 740-7559; or ibearmba@marshall.usc.edu; marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

Program Structure
This intensive full-time program begins in early August and ends in mid-July each year. It begins with a three-week transition program to assist international and domestic participants in adjusting to life in the U.S.

August Session
• GSBA 523 Communication for Management Units: 2, 3

Term 1 - Fall
• GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
• GSBA 511 Microeconomics for Management Units: 1.5, 3
• GSBA 524 Managerial Statistics Units: 2, 3
• GSBA 529 Strategic Formulation for Competitive Advantage Units: 3

Total units: 12

Term 2 - Fall
• GSBA 518 Accounting Control Systems Units: 3
• GSBA 528 Marketing Management Units: 3
• GSBA 548 Corporate Finance Units: 2, 3
• GSBA 549 The Firm in the National and International Economy Units: 3

Total units: 12

Term 3 - Spring
• GSBA 534 Operations Management Units: 2, 3
• GSBA 543 Managerial Perspectives Units: 3
• IBEAR designated international business electives Units: 6

Total units: 12

Term 4 - Spring
• GSBA 584a International Business Consulting Project Units: 3
• IBEAR designated international business electives Units: 6

Total units: 9

Term 5 - Summer
• GSBA 584b International Business Consulting Project Units: 2
• IBEAR designated international business electives Units: 6

Total units: 8

Total units required for degree: 56

MBA Program for Professionals and Managers
The MBA Program for Professionals and Managers (MBA.PM) is a part-time, comprehensive MBA program that allows fully employed individuals to pursue their MBA degree. The program offers flexibility and a rich array of elective courses. Students in the MBA.PM program complete the degree in 33 months attending classes in fall and spring semesters and summer sessions.

The MBA.PM offers the following advantages:
• the scheduling design allows students to complete the degree in a timely way, while continuing to work full time;
• program flexibility allows students to tailor their selection of elective courses to their individual interests;
• PM.GLOBE, a course which includes an international trip, gives all MBA.PM students first-hand exposure to international markets;
• a cohesive group of student colleagues proceeds through the core together, providing opportunities for building relationships with other talented and ambitious individuals;
• special academic and social activities enhance the richness of the MBA experience; and
• interaction between faculty and students enhances the overall learning experience.

The first year of the MBA.PM program is also offered at the Orange County Center in Irvine. All students take most of their elective courses at the University Park Campus in Los Angeles.
Students attend core classes two nights per week for 12 months. Students must complete the core courses in the prescribed sequence and within the prescribed time frame. Elective courses are offered on a semester basis during the remaining portion of the program, including summer session. During the elective portion of the program, MBA students are encouraged to pursue a course of study that meets their professional goals. Students design their course of study by taking electives offered in the Marshall School and by sometimes taking courses in other areas of the university. Up to 9 units of graduate-level electives may be taken at USC outside the Marshall School of Business for elective credit provided the student shows sufficient reason why a selected course is relevant to the Marshall School of Business program. Permission to take courses outside the Marshall School must be requested via petition to the MBA.PM Program Office in Popovich Hall 106.

International Exchange Program

The Marshall School offers a range of international semester-long and summer exchange programs in cooperation with leading business schools around the world. Since many of the exchange programs are taught in English, language proficiency is not a requirement for all countries. Students must complete the MBA core courses and maintain a 3.0 GPA in order to participate in the exchange program. This program is open to fulltime MBA and MBA.PM students.

Application

Applicants should have significant full-time work experience. Letters of recommendation submitted with the application should relate to the student's work performance (résumé). The program enrolls students one time per year in the fall. For more information, contact the Marshall MBA Admission Office in Popovich Hall (JKP) 308; (213) 740-7846; Fax (213) 749-8520; marshall.usc.edu. Apply online at marshall.usc.edu/admissions/applyonline.

Sample Program

A total of 63 units is required for the program. The following outlines the typical MBA.PM student's schedule:

First Year "Core" Required Courses - Fall Term

- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3 (3-unit version required)
- GSBA 511 Microeconomics for Management Units: 1.5, 3 (1.5-unit version required)
- GSBA 519a Strategic Formulation for Competitive Advantage Units: 1.5
- GSBA 542 Communication for Management Units: 1.5
- GSBA 544 The Firm in the National Economy Units: 1.5

Total units: 9

Winter Term A&B

- GSBA 506a Applied Managerial Statistics Units: 1.5

Spring Term

- GSBA 522b Managerial Perspectives Units: 1.5
- GSBA 522b Managerial Perspectives Units: 1.5
- GSBA 550a Entrepreneurship Units: .5
- GSBA 550b Entrepreneurship Units: 1

Total units: 7.5

Summer Session

- GSBA 519b Strategic Formulation for Competitive Advantage Units: 1.5
- GSBA 534 Operations Management Units: 2, 3 (3-unit version required)
- GSBA 581 Information Management and Analytics Units: 3

Total units: 7.5

Second Year - Fall Semester

Graduate business electives Units: 7.5
(500-level ACCT, BAEP, BUO, DSO, FBE, GSBA, MKT or MOR)

Spring Semester

- GSBA 582 Business Environment and Management Practices in the Pacific Rim Units: 3
- Graduate business elective(s) Units: 3
(500-level ACCT, BAEP, BUO, DSO, FBE, GSBA, MKT or MOR)

Total units: 6

Summer Session

- Graduate business electives Units: 6
(500-level ACCT, BAEP, BUO, DSO, FBE, GSBA, MKT or MOR)

Third Year - Fall Semester

- Graduate business electives Units: 7.5
(500-level ACCT, BAEP, BUO, DSO, FBE, GSBA, MKT or MOR)

Spring Semester

- Graduate business electives (2) Units: 6
(500-level ACCT, BAEP, BUO, DSO, FBE, GSBA, MKT or MOR)

Total units required for degree: 63

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

Online MBA Program

The Online MBA (OMBA) program is structured for students who are currently employed and wish to remain within the labor force while earning a degree. The OMBA Program offers an integrative approach to core business disciplines including accounting, finance, data sciences, marketing,
management, operations and entrepreneurship. The program is delivered by full-time faculty from different disciplines teaching in a team format to integrate understanding of business fundamentals, internal and external operations, business environments and leadership. The program capitalizes on the unique opportunities inherent in online delivery to maximize student engagement through critical thinking, analytics and communication.

**Application**

The program accepts applicants for fall and spring semesters. Applications are submitted online through the Marshall School of Business application Website at [app.applyyourself.com?id=usc-omba](http://app.applyyourself.com?id=usc-omba). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website.

**Program Structure**

The OMBA program uses an interdisciplinary approach to business education that enables students to develop an expertise in business administration in order to perform more effectively as business leaders, corporate managers and entrepreneurs. The program begins with a five-day domestic residential session, after which the 21-month MBA Program meets online. The program requires 51 units. First semester courses include GSBA 501 and GSBA 505, which are prerequisites for the remaining courses. GSBA 535, GSBA 537, GSBA 538 and GSBA 539 may be taken in any order.

**Required Courses - Residential Intensive**

- GSBA 501 The Role of the Manager Units: 3

**First Semester**

- GSBA 505 Fundamentals of Business Units: 10

**Remaining Required Courses**

- GSBA 535 Opportunity Recognition and Implementation Units: 9.5
- GSBA 537 Managing Inside the Firm Units: 9.5
- GSBA 538 Managing Outside the Firm Units: 9.5
- GSBA 539 Business Environment and Leadership Units: 9.5

**Total units: 51**

For more information, visit [http://onlinemba.marshall.usc.edu](http://onlinemba.marshall.usc.edu) or email OMBA@marshall.usc.edu.

Note: USC reserves the right to change, add or delete its course offerings and programs without notice.

**MBA Dual Degree Programs**

**Juris Doctor/Master of Business Administration (JD/MBA)**

The Marshall School of Business in conjunction with the USC Gould School of Law offers a program leading to the degrees of Juris Doctor/Master of Business Administration.

**Application**

Applicants to this program must apply to both schools individually and take both the Graduate Management Admission Test (GMAT) or the Graduate Record Examinations (GRE) and the Law School Admission Test (LSAT). Applicants should apply either simultaneously to both programs or during the first year in the USC Gould School of Law. Certification for eligibility for the dual degree program must be provided by the Law School prior to admission to the dual degree program by the Marshall School of Business.

**Program Requirements**

The total number of units required for the MBA portion of the program is 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. To earn the JD, all students (including dual degree program students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in Law School Honors Programs.

**First Year**: Required Law School courses (33 units).

**Second Year**: Required MBA courses and graduate business electives.

**Third and Fourth Years**: 43 units of law courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. The JD and MBA degrees are awarded simultaneously upon completion of all program requirements.

**Master of Business Administration/Doctor of Education (MBA/EdD)**

The Marshall School of Business in conjunction with the USC Rossier School of Education offers a program leading to the degrees of Master of Business Administration and Doctor of Education.

The program emphasizes educational leadership and management competencies across the wide variety of education-related organizations in the public, non-profit and for-profit sectors and is designed to prepare students to assume executive leadership positions in these organizations, including schools, universities, educating businesses, regional, state and federal education agencies, education research institutions and private foundations with education missions. MBA/EdD graduates will be prepared to improve the scope and quality of educational services to target populations through the application of management skills to the field of education and of education principles to business enterprises.

**Application**

Applicants to this program must apply to both schools individually and may choose to submit scores for both the Graduate Management Admission Test (GMAT) and the GRE.

**Program Requirements**

The program may be completed on a full-time or part-time basis. Full-time students should be able to complete the program in approximately four years. The MBA portion of the degree program requires that the student complete the required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.
See the Rossier School of Education page for EdD degree requirements. The MBA and EdD degrees are awarded simultaneously upon completion of all program requirements for both degrees.

**Master of Business Administration/Doctor of Medicine (MBA/MD)**

In response to the ongoing reorganization of health care delivery systems and the growing awareness of the impact of business decisions on health care, the Keck School of Medicine of USC and the Marshall School of Business jointly offer an innovative program for individuals seeking knowledge in both medicine and business administration. The program is designed to prepare its graduates to assume leadership in the design and management of health care systems.

Completion of the MBA/MD program spans five years. Interested students apply during their second or third year of medical school and begin required MBA courses following successful completion of the first two or three years of medical school. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of elective courses in the Marshall School.

**Application**

MBA/MD students should apply during their second or third year of medical school in the Keck School of Medicine. Application to the MBA/MD does not require GMAT or GRE scores. All other requirements for admission to the Marshall MBA program must be fulfilled by the medical student for admission to the Marshall School. Only students who have successfully completed at least two years in the Keck School of Medicine will be considered for admission to the Marshall School of Business.

**Program Requirements**

At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the Keck School of Medicine.

- **First and Second Years:** Required medicine courses.
- **Third or Fourth Year:** Required MBA courses and graduate business electives.
- **Remaining Years:** Keck School of Medicine core, selective and elective clerkships, and graduate business elective courses sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. The MD and the MBA degrees are awarded simultaneously upon completion of all program requirements.

**Master of Business Administration/Doctor of Pharmacy (MBA/PharmD)**

Responding to the growing demand on pharmacists to be knowledgeable in both science and business administration, the USC School of Pharmacy and the Marshall School of Business offer the MBA/PharmD dual degree program.

The program involves completion of the first year in the School of Pharmacy, the second in the Marshall School of Business and completion of the balance of the dual degree program over the final three years.

**Admission Requirements**

Applicants to this program should apply during the first year of pharmacy studies. Only students who have successfully completed one year in the School of Pharmacy will be considered for admission to the Marshall School of Business.

**Program Requirements**

A total of 48 units of business course work is required. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

- **First Year:** Required Pharmacy School courses.
- **Second Year:** Required MBA courses and graduate business electives.
- **Third to Fifth Years:** 108 units of Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. The MBA/PharmD degrees are awarded simultaneously upon completion of the School of Pharmacy and the Marshall School of Business requirements.

**Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/MA)**

The Marshall School of Business in conjunction with the East Asian Studies Center (USC Dornsife College of Letters, Arts and Sciences) offers a joint MBA/MA degree program that combines graduate business education with training in the cultures and societies of East Asia. Students may complete the degree on a full- or part-time basis.

**Application**

Students must apply to both the Marshall School of Business and the USC Dornsife College of Letters, Arts and Sciences. GRE scores are not required for admission to the dual degree program, but may be submitted in lieu of GMAT scores.

**Program Requirements**

Students enrolled in the program are required to complete a minimum of 72 units. All students must complete 48 units in the Marshall School of Business. In East Asian Area Studies (EASC), students have the option of taking five courses and writing a thesis (for a total of 24 units) or taking six courses and passing a comprehensive examination (for a total of 24 units).

Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See East Asian Area Studies in the USC Dornsife College of Letters, Arts and Sciences for East Asian Area Studies course requirements and the foreign language requirement. The MBA and MA degrees are awarded simultaneously upon completion of all program requirements.
Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/MA)

In cooperation with Hebrew Union College-Jewish Institute of Religion’s School of Jewish Nonprofit Management, the Marshall School of Business offers the dual degree program Master of Business Administration/Master of Arts in Jewish Nonprofit Management. This degree program prepares students to apply business and management concepts to the nonprofit sector.

Application

Applicants to the MBA/Master of Arts in Jewish Nonprofit Management program should apply to the Marshall School of Business and to the School of Jewish Nonprofit Management at the Hebrew Union College-Jewish Institute of Religion concurrently.

Degree Requirements

For the Marshall School portion of the dual degree program: all courses required in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. Students must also complete 47 units in the HUC-JIR School of Jewish Nonprofit Management to complete the MA in Jewish Nonprofit Management.

Sample Student Program

Summer I, Fall, Spring: Hebrew Union College-required and elective courses

Summer II, Fall, Spring: Hebrew Union College-required and elective courses

Fall, Spring: Marshall School-required and elective courses

Fall: Marshall School-graduate business electives

The MBA and the MA degrees are awarded simultaneously upon completion of their respective degree requirements.

Master of Business Administration/Master of Planning (MBA/MPl)

Master of Business Administration/Master of Planning (MBA/MPl)

The Marshall School of Business in conjunction with the USC Price School of Public Policy offers a program leading to the degrees of Master of Business Administration and Master of Planning.

The Master of Business Administration/Master of Planning dual degree program enables students to understand the conduct and requirements of business, accounting, corporate and strategic planning, real estate marketing and finance. Students also gain expertise in public policy, city planning and the interpretation of government regulations. Exposure to both fields becomes an educational as well as professional asset for careers in either public service or private enterprise.

Application

Applicants to this program should apply to both schools simultaneously.

Program Requirements

A total of 84 units is required for the dual degree: 48 units of work in the Marshall School of Business and 36 units from the USC Price School of Public Policy. Students can complete the program on either a full- or part-time basis. The program normally requires five semesters of full-time study in residence.

Required courses that must be taken in the Marshall School of Business include: all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units.

See the USC Price School of Public Policy for Master of Planning course requirements.

The MBA and MPI degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Real Estate Development (MBA/MRED)

The Master of Business Administration/Master of Real Estate Development dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. A more sophisticated real estate market makes this diversity of training essential for many students pursuing careers in real estate finance and development.

Completion of the MRED portion of the program requires that students have use of an approved laptop computer and demonstrate calculator and spreadsheet skills; a calculator and/or spreadsheet class is offered online.

Application

Students must apply to both the Marshall School of Business and the USC Price School of Public Policy. Please consult the Admission section of each school for specific requirements.

Program Requirements

This program normally requires two years (including summer) of full-time study in residence to complete. A total of 82 units is required. Required courses include:

- all required courses in an MBA program
- FBE 565 Economics of Urban Land Use: Feasibility Studies Units: 3
- FBE 588 Advanced Real Estate Law Units: 3
- additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48
- policy, planning, and development courses (34 units)

Additional Information

Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. Comprehensive Examination: Students are required to complete a comprehensive examination administered by
Master of Business Administration/Master of Science in Gerontology (MBA/MS)
The MBA/MS dual degree program combines knowledge of the older population with the skills of business management. The program prepares graduates for a number of roles in both public and private sector organizations including the marketing of products or services to seniors, human resource development with older workers and retirement benefits.

**Application**
Applicants to the MBA/MS in Gerontology should apply to both schools simultaneously.

**Gerontology Requirements**
The Master of Science in Gerontology requires 30 units of course and fieldwork, which cover the core content of the MS program. See the USC Davis School of Gerontology page for course requirements.

**Business Administration Requirements**
The Master of Business Administration component requires 48 units of credit. Required courses include:

- all required courses in an MBA program;
- MOR 548 Competitive Advantage Through People;
- one of the following marketing electives: MKT 512 Consumer Insights and Analysis, MKT 525 Consumer Behavior, MKT 560 Marketing Strategy;
- additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree candidates may not count courses taken outside the Marshall School of Business for the 48 units. The MBA and MS degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/MS)
The Marshall School of Business in conjunction with the Daniel J. Epstein Department of Industrial and Systems Engineering offers a program leading to the degrees of Master of Business Administration/Master of Science in Industrial and Systems Engineering.

**Application**
Applicants to the MBA/MS, Industrial and Systems Engineering program should apply to both schools simultaneously.

**Program Requirements**
This alternative requires 66 units for graduates of industrial and systems engineering undergraduate curricula and leads to both a Master of Science in Industrial and Systems Engineering and the Master of Business Administration. The total number of units required for the MBA portion of the program is 48.

Required business courses include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48.

Dual degree program students may not count courses taken outside the USC Marshall School of Business toward the 48 units. See here for industrial and systems engineering course requirements.

The MBA and the MS degrees are awarded simultaneously upon completion of all program requirements.

Master of Business Administration/Master of Social Work (MBA/MSW)
The Master of Business Administration/Master of Social Work dual degree program develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management.

**Application**
Prospective students must apply to both the Marshall School of Business and the USC School of Social Work.

**Program Requirements**
The MBA/MSW degree program requires completion of a total of 96 units (48 in the Marshall School of Business and 48 in the School of Social Work).

Course requirements in the Marshall School of Business include all courses required for an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree program students may not count courses taken outside the Marshall School of Business toward the 48 units. See the School of Social Work section for Social Work (MSW) course requirements.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.

Master's Degree
Business Administration (MS)
The Master of Science in Business Administration (MS) is designed to provide those who have already completed an MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall MBA students. The degree is available only to those holding MBA degrees from institutions accredited by the Association to Advance Collegiate Schools of Business (AACSB). It may be completed on either a full- or part-time basis. Classes applicable to the degree are offered during both daytime and evening hours.
Prospective applicants are encouraged to visit the MS in Business Administration Website at marshall.usc.edu/msba for more information about this very flexible curriculum.

**Admission Requirements**

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Calendar tab at marshall.usc.edu/msba.

Successful applicants should have earned a GPA of 3.3 or greater in their MBA course work, scored at least as well as an average Marshall MBA student on the GMAT or the GRE and have significant full-time work experience.

**Application Procedure**

Submit an online application to the MS program through the Marshall School of Business Admissions Website (app.applyyourself.com/?id=USC-MBA). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application (usc.edu/grad).

- Current USC students and USC MBA alumni are not required to submit an application fee, new test scores or transcripts to verify degrees earned prior to their attendance at USC.
- Applicants who completed the MBA at an institution other than USC must submit all application documentation identified in the online application instructions including the application fee, official GMAT or GRE scores and transcripts.

For additional information, visit marshall.usc.edu/msba.

**Program Structure and Unit Requirements**

MS in Business Administration applicants are invited to consider areas of specialization available to Marshall MBA students. While the student identifies an area of interest as part of the application process, final determination of course work requirements is made under the guidance of and subject to approval by a faculty adviser. The academic department reviewing the application recommends a faculty adviser for the new student, but applicants may request a specific faculty adviser from among the faculty of the Marshall School of Business.

Together the student and the faculty adviser determine which courses the student must complete. An evaluation of work previously completed determines if prior work needs updating to prepare for new course work. If it is determined that preliminary courses are needed, the number of units needed to complete the Master of Science degree will increase. The student's program is then documented on an official program of study and filed with the MS program adviser.

Completion of the Master of Science degree requires a minimum of 24 graduate units for all candidates.

None of the GSBA prefixed classes required for completion of a Marshall MBA program may be applied toward the Master of Science in Business Administration unless they are required to update prior work and are added to the 24-unit total.

No courses numbered lower than 500 may be included in this program. No more than two courses or 8 units may be taken in graduate course work outside the Marshall School of Business.

**Business Analytics (MS)**

The Master of Science in Business Analytics provides students with the skill and knowledge to become experts in business analytics and to advance their careers in the area of data analytics. Students in the program acquire the statistical and optimization tools necessary to analyze large and unstructured data sets and make optimal decisions to improve the performance of their organization. In addition, students develop the ability to effectively present complex data to high-level decision-makers. This program concentrates on business applications across different industries and functions including marketing, finance, operations management, retail, manufacturing, banking and health care.

**Admission Requirements**

Applicants must satisfy most of the admission requirements for all Marshall master's degree programs. A few years of work experience is preferred, but not required. GMAT or GRE scores are required.

**Application Procedure**

Prospective students may apply to begin the program in the fall semester only. Applications are submitted online through the Marshall School of Business admissions Website at app.applyyourself.com/?id=usc-mba. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application Booklet.

A complete application includes the online application form, an application fee, test scores, responses to several short-answer questions, two letters of recommendation and transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC.
- All other applicants must submit all documentation identified in the online application instructions.

For additional information, visit www.marshall.usc.edu/msanalytics, write to MS.Analytics@marshall.usc.edu.

**Degree Requirements**

The Master of Science in Business Analytics degree requires 30 units including 21 units of required course work plus 9 units of course work chosen from a list of electives. The program may be completed full-time (3-5 courses per semester) or part-time. All students must take GSBA 524 and DSO 510 in the first semester.

Students who have taken one or more of the required courses elsewhere may petition to replace these courses with courses from the electives list and/or appropriately related courses offered by the Marshall School of Business or the Viterbi School of Engineering. Such a replacement must be approved by the program director prior to registration for the course.
Required Courses

Core Courses (must be completed first)
- DSO 510 Business Analytics Units: 3
- GSB 524 Managerial Statistics Units: 2, 3

Additional Required Courses
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 545 Statistical Computing and Data Visualization Units: 3.0
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3.0
- DSO 573 Data Analytics Driven Dynamic Strategy and Execution Units: 3.0
- INF 559 Introduction to Data Management Units: 3

Electives
Complete at least 9 units from the following to total 30 units:
- CSCI 585 Database Systems Units: 4
- DSO 516 Probability and Data Modeling Units: 1.5
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 534 Discrete-Event Simulation for Process Management Units: 1.5
- DSO 536 Monte Carlo Simulation and Decision Models Units: 1.5
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 562 Fraud Analytics Units: 3
- DSO 566 Marketing Analytics Units: 3
- INF 520 Foundations of Information Security Units: 3

Business for Veterans (MBV)
This program is offered in an intensive format for veterans who wish to gain formal business knowledge and develop critical thinking skills to manage or grow a business. Significant project and course work is completed primarily through residential sessions with supplemental content delivered via distance learning. Class sessions meet over 20 full-day sessions each semester for two semesters with minimal interruption to the careers of working veterans. The program is offered on the University Park Campus in downtown Los Angeles. Applications are due by May 1 for a program start date in August. Application information is available online at marshall.usc.edu/MBV. For additional information, contact the Marshall Office of Executive Education at (213) 740-8990 or by email at mbv@marshall.usc.edu. This program requires 25 units that will be taken in lockstep fashion. These courses are thematic semesters that are interdisciplinary in nature.

Fall
- BAEP 553 Cases in New Venture Management Units: 1.5, 3
- GSB 561 Evaluating Market Performance Units: 9

Spring
- BAEP 549 The Entrepreneurial Journey Units: 2
- GSB 572 Strategic Planning for Growth Units: 11

Total units: 25

Business Research (MS)
The Master of Science in Business Research is an alternative available only to Marshall PhD students.

Admission
Marshall does not accept applications for admission to this program. A student admitted to the Marshall PhD program may later request conversion or be invited by the faculty to complete the master's degree in lieu of the PhD. Requests for conversion are subject to approval by the Marshall vice dean who oversees the PhD program.

For more information, contact the PhD program office for a referral to the MSBR adviser.

Program Requirements
The degree requires a minimum of 30 graduate units for all candidates.
Upon admission to the PhD program, the student works with a faculty adviser who oversees the selection of course work, taking into account the student's prior academic preparation. The curriculum requires completion of PhD program core courses focusing on research methods and theory in an area of specialization. Methods course work completed at USC must include at least one course in microeconomics or behavioral science, one course in statistics and one course in research design. Additional courses are drawn from the Marshall School of Business and other participating departments including economics, psychology, mathematics, sociology, engineering, communication and others. No courses numbered lower than 500 may be applied in this program. All courses applied to the degree must be letter-graded and completed in residence at USC. No transfer units or graduate units from a degree previously completed at USC can be applied to the MS in Business Research.

Entrepreneurship and Innovation (MS)
The Master of Science in Entrepreneurship and Innovation is designed to develop the entrepreneurial knowledge, skill sets and decision-making frameworks required to recognize and evaluate business opportunities and to create and guide a new entrepreneurial entity either individually or within a larger organization. The curriculum focuses on topics such as entrepreneurial decision-making, business model formulation, feasibility analysis, leading innovation and change, and how to access and deploy capital and other resources for the successful launch of a new venture. The degree can be completed on either a full- or part-time basis,
and classes are offered primarily at night to accommodate the needs of working professionals.

**Admission Requirements**

To qualify for admission to the MSEI program, prospective students must hold a four-year bachelor's degree, or equivalent. Applicants in the process of finishing an undergraduate degree may apply, with acceptance contingent on finishing the undergraduate degree. GMAT or GRE scores are required for application/admission to this program.

Admission decisions are based on consideration of the applicant's previous academic record, test scores, résumé, letters of recommendation and responses to several essay questions. Full-time work experience is encouraged but not required. International applicants are required to submit TOEFL, IELTS or PTE scores. This requirement is waived for students who have completed their entire bachelor's degree program at a regionally accredited university located in the United States or officially recognized university in another country where English is both the language of instruction and the only officially recognized language of the country. Proof of financial support is required of admitted international applicants.

**Application Procedure**

Applications are accepted for fall semester enrollment only. Submit an online application to the program through the USC Marshall graduate admissions Web site here or here.

International applicants are advised to view the information for international students published here. A complete application includes the online application form, test scores, responses to several questions, an application fee, two letters of recommendation and copies of transcripts from all institutions attended.

- Current USC students and USC alumni are not required to submit an application fee or transcripts to verify degrees earned prior to their attendance at USC.
- All other applicants must submit all documentation identified in the online application instructions.

For additional detailed information visit marshall.usc.edu/MSEI or write to MS.EI@marshall.usc.edu or call (213) 821-0877.

**Degree Requirements**

The Master of Science in Entrepreneurship and Innovation requires 26 units

**Required Courses**

- BAEP 549 The Entrepreneurial Journey Units: 2
- BAEP 552 Cases in Feasibility Analysis Units: 3 or
- BAEP 556 Technology Feasibility Units: 3
- BAEP 554 Venture Initiation Units: 3
- BAEP 563 Corporate Entrepreneurship Units: 3
- MKT 525 Consumer Behavior Units: 3
- MOR 554 Leading Innovation and Change Units: 3

**Elective Courses**

Select 9 units from the following:

- BAEP 553 Cases in New Venture Management Units: 1.5, 3
- BAEP 557 Technology Commercialization Units: 3
- BAEP 558 The Entrepreneurial Advisor: Problem Solving for Early-Stage Companies Units: 1.5, 3
- BAEP 559 Investing in New Ventures Units: 3
- BAEP 591 Social Entrepreneurship Units: 2, 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- ISE 545 Technology Development and Implementation Units: 3
- ISE 555 Invention and Technology Development Units: 3
- MKT 528 Sales Management: The Art and Science of Sales Units: 3
- MKT 530 New Product Development Units: 3
- MOR 565 Alliances and Cooperative Strategy Units: 3
- MOR 567 Interpersonal Influence and Power Units: 3 or
- MOR 570 Leading Effective Teams Units: 3

**Total units: 26**

**Finance (MS)**

The Master of Science in Finance (MS) is designed to provide individuals with the necessary skills and knowledge to become experts in finance and thus advance their careers. The program provides individuals with tools, ideas and frameworks that will aid them in applying finance principles to businesses.

The program lays the groundwork with core courses in accounting, economics, finance and statistics. The foundation is supplemented with courses on the role of finance in corporations, investment analysis and portfolio theory, and forecasting and risk. In addition, students personalize their degree with a choice of elective courses covering topics like real estate, mergers and acquisitions, and hedge funds.

**Admission Requirements**

Applicants must satisfy most, but not all of the general admission requirements for Marshall graduate programs. GMAT or GRE scores are recommended, but not required. Full-time work experience is not required for admission to the MS, Finance.

Admission decisions are based on consideration of the applicant's previous academic record, resume, test scores (if provided), letter of recommendation and responses to several questions included in the application. Individuals who are admitted must have completed the equivalent of a four-year U.S. bachelor's degree prior to the start of summer classes.

**Application Procedure**

Prospective students apply to begin the program in the summer term. Applications are submitted online through the Marshall School of Business Admissions Website at
app.applyyourself.com/?id=USC-MBA. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application Booklet.

A complete application includes the online application form, an application fee, responses to several questions, test scores (if applicable), one letter of recommendation, and transcripts from all institutions attended since the applicant last applied to USC. (Current USC students and USC alumni are not required to submit an application fee or transcripts from institutions attended prior to USC. Applicants who have never applied for admission to USC must submit official transcripts from all institutions of higher education attended.) For additional information, including application deadlines, visit marshall.usc.edu/MSF.

**Degree Requirements**

The Master of Science in Finance degree requires 36 units including nine required courses (27 units) plus 9 units of course work chosen from a list of electives. The schedule is designed so that the program is completed in one calendar year.

Students who have taken (at USC or elsewhere) one or more of the required summer core courses (at the graduate/post-baccalaureate level) may petition to waive out of the duplicate courses. It is expected that individuals holding accredited graduate degrees in related fields may be able to waive out of some or all four required courses, reducing the total number of units required to earn the degree to as few as 24. Waivers must be requested in an attachment to the application for admission and approved by the program director prior to the start of summer classes.

A cumulative GPA of at least 3.0 for all course work applied to the degree and an overall graduate GPA at USC of at least 3.0 are required for graduation.

**Summer Core**

- FBE 506 Quantitative Methods in Finance Units: 3
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3
  (3 units for this program)
- GSBA 511 Microeconomics for Management Units: 1.5, 3
  (3 units for this program)
- GSBA 548 Corporate Finance Units: 2, 3
  (3 units for this program)

**Additional Required Courses**

- FBE 524 Money and Capital Markets Units: 3
- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 555 Investment Analysis and Portfolio Management Units: 3
- FBE 532 Corporate Financial Strategy Units: 3
- FBE 533 CEO Pay, Corporate Governance, and the Politics of Finance Units: 3
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 540 Hedge Funds Units: 3
- FBE 554 Trading and Exchanges Units: 3
- FBE 557 Business Law and Ethics Units: 3
- FBE 558 Legal Environment of Business and Corporate Governance Units: 3
- FBE 559 Management of Financial Risk Units: 3
- FBE 560 Mergers and Acquisitions Units: 3
- FBE 562 Current Issues in International Finance Units: 3
- FBE 563 Theory of International Trade Units: 3
- FBE 565 Economics of Urban Land Use: Feasibility Studies Units: 3
- FBE 571 Introduction to Financial Analysis: Practicum Units: 3
- FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3
- FBE 591 Real Estate Finance and Investment Units: 3

**Total Units: 36**

**Global Supply Chain Management (On-Campus/Residential) (MS)**

The primary objective of the residential Master of Science in Global Supply Chain Management is to provide individuals with the necessary skills and knowledge to become experts in the area of supply chain management and thus advance their careers. The program focuses on topics like strategic procurement, outsourcing, logistics and distribution, the role of information technology in managing global supply chains and how these impact the process of developing new products. The aim is to provide the students with a framework that integrates different topics and an understanding of the trade-offs and relationships between these topics. Two experiential courses add to the academic learning.

**Admission Requirements**

Applicants to this program are required to satisfy the general Marshall admission requirements. Admission decisions are based on consideration of the applicant's previous academic record, résumé, letters of recommendation, responses to several essay questions and an interview, if requested. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. For international applicants TOEFL or PTE scores are required.

**Application Procedure**

Prospective students may apply to begin the program in the fall semester only. Applications are submitted online through
the Marshall School of Business Admissions Website at app.applyyourself.com/?id=usc-mba. International applicants are advised to also consult the instructions for international students published in the USC Graduate Admissions Application Website.

A complete application includes the online application form, an application fee, test scores, responses to several short-answer questions, two letters of recommendation and transcripts from all institutions of higher education attended.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC.
- Individuals who have applied for admission to a USC graduate program before but were not admitted may not have to submit new test scores or original transcripts.
- All other applicants must submit all documentation identified in the online application instructions.

For additional information, email MS.GSCM@marshall.usc.edu or call (213) 821-4079.

**Degree Requirements**

The Master of Science in Global Supply Chain Management degree requires 27 units including 21 units of required course work plus 6 units of coursework chosen from a list of electives.

Students who have taken (at USC or elsewhere) the equivalent of GSBA 534 Operations Management (at the graduate/post-baccalaureate level) may petition to waive out of GSBA 534, reducing the total number of units required to complete the degree to 24. The petition must be requested in an attachment to the application for admission and approved by the program director prior to the start of classes.

Individuals who have taken (at USC or elsewhere) one or more of the other required courses may petition to replace these courses with selections from the list of electives or appropriately related courses offered by the Marshall School of Business or the Viterbi School of Engineering. Such a replacement must be approved by the program director prior to registration for the alternate course.

**Required Courses**

- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 557a Global Supply Chain Management in International Settings Units: 1.5
- DSO 557b Global Supply Chain Management in International Settings Units: 1.5
- DSO 581 Supply Chain Management Units: 3
- GSBA 534 Operations Management Units: 2, 3
- ISE 583 Enterprise Wide Information Systems Units: 3
- CE 589 Port Engineering: Planning and Operations Units: 3
- DSO 505 Sustainable Supply Chains Units: 1.5
- DSO 506 Sourcing and Supplier Management Units: 1.5
- DSO 516 Probability and Data Modeling Units: 1.5
- DSO 520 Logistics Management Units: 3
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 534 Discrete-Event Simulation for Process Management Units: 1.5
- DSO 536 Monte Carlo Simulation and Decision Models Units: 1.5
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 580 Project Management Units: 3
- DSO 586 Global Healthcare Operations Management Units: 3
- ISE 513 Inventory Systems Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 527 Quality Management for Engineers Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3

**Total units: 27**

**Global Supply Chain Management for Executives (MS) (Online)**

The online Master of Science in Global Supply Chain Management program is designed to facilitate the needs of professionals and executives in the United States and around the world who wish to expand their knowledge of the rapidly changing world of global supply chain management. Courses are transmitted from studio classrooms via an extensive Internet-delivery system to enable the students to access their classes anytime, from anywhere. Lectures are made accessible for the entire semester, allowing students to review a complex lesson or prepare for exams. All classes are taught in English. Using the Internet, students are required to work in teams and are encouraged to interact with the instructors and their classmates.

Two international travel experiences to global distribution hubs are included in the program. Participation in both trips is required for graduation. Some courses may require in-person midterm and final examinations. These exams will be administered in cities near student population concentrations, requiring that students travel to reach these locations.

**Admission Requirements**

In addition to the general Marshall admission requirements, applicants should have at least three years of full-time work experience. Admission decisions are based on consideration...
of the applicant's previous academic record, résumé, letters of recommendation, responses to several essay questions and an interview. TOEFL or PTE scores and GMAT or GRE test scores are not required, but are recommended, for this program. Applicants will be interviewed as needed to ensure sufficient English language capabilities.

Application Procedure
Submit an online application to the program through the USC Marshall graduate admissions Website at app.applyyourself.com/?id=usc-mba or marshall.usc.edu/admissions/applyonline. International applicants are advised to view the information for international students published at usc.edu/admission/graduate/international.

A complete application includes the online application form, an application fee, responses to several questions, three letters of recommendation, and copies of transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee or transcripts to verify degrees earned prior to their attendance at USC.
- Individuals who have applied for admission to a USC graduate program before but were not admitted may not have to submit new test scores or original transcripts.
- All other applicants must submit all documentation identified in the online application instructions including the application fee and copies of transcripts.

For additional detailed information, visit marshall.usc.edu/msgscm, email MS.GSCM@marshall.usc.edu or call (213) 821-4079.

Degree Requirements
The online Master of Science in Global Supply Chain Management degree requires 27 units.

Students who have taken (at USC or elsewhere) the equivalent of GSBA 534 Operations Management (at the graduate/post-baccalaureate level) may petition to waive out of GSBA 534, reducing the total number of units required to complete the degree to 24. The petition must be requested in an attachment to the application for admission and approved by the program director prior to the start of classes.

Individuals who have taken (at USC or elsewhere) one or more of the other required courses may petition to replace these courses with selections from the list of electives or appropriately related courses offered by the Marshall School of Business or the Viterbi School of Engineering. Such a replacement must be approved by the program director prior to registration for the alternate course.

Required Courses
- DSO 520 Logistics Management Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 557a Global Supply Chain Management in International Settings Units: 1.5
- DSO 557b Global Supply Chain Management in International Settings Units: 1.5
- DSO 580 Project Management Units: 3
- DSO 581 Supply Chain Management Units: 3
- GSBA 534 Operations Management Units: 2, 3 *
- ISE 583 Enterprise Wide Information Systems Units: 3

* Must be completed before or in the first semester.

Electives - Complete 6 units from the following:
- CE 589 Port Engineering: Planning and Operations Units: 3
- DSO 505 Sustainable Supply Chains Units: 1.5
- DSO 506 Sourcing and Supplier Management Units: 1.5
- ISE 513 Inventory Systems Units: 3

- ISE 527 Quality Management for Engineers Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3

Total units: 27

Library and Information Science (MMLIS)
The Master of Management in Library and Information Science is designed to educate professional librarians for leadership from every level of the organization in academic, urban and corporate environments. Graduates will identify and analyze critical issues and leverage resources and expertise to build community assets.

The program provides a solid foundation of course work followed by elective options culminating in the capstone project. Each semester students enroll in LIM 591 Research and Professional Applications in which they investigate critical issues, connect with leaders, undertake research with faculty and otherwise extend their learning and understanding.

The capstone project provides an opportunity for students to demonstrate their learning during the MMLIS experience and achievement of the core competencies for the program. Courses are offered entirely online each fall and spring semester and during the summer. The program is offered through small cohorts.

Application
To qualify for admission to the MMLIS program, prospective students must hold a bachelor's degree from an accredited institution and have earned an undergraduate GPA of at least 3.0. (Neither the GMAT nor the GRE is required for application/admission to this program.) International applicants are required to submit a TOEFL score and must have earned a score of at least 100, with at least 20 in each section. (Students who have completed their entire bachelor's degree program at regionally accredited universities located in the United States or in another country in which English is both the language of instruction and the official language of
applying for admission to this program. Also, visit the Master School of Business (marshall.usc.edu/masters) before prospective applicants are encouraged to review the full list of electives, and 3 units of capstone. Foundation courses, other than LIM 591, must be completed prior to taking electives. The program allows for specialization by environment within courses.

Required Foundation Courses (28 units)

Course

- GSBA 502 Management Communication for Leaders Units: 3
- LIM 500 Fundamentals of Library and Information Science Units: 3
- LIM 501 Fundamentals of Library Leadership and Management Units: 3
- LIM 502 Collection Development and Management Units: 3
- LIM 503 Organization, Access and Retrieval of Information Units: 3
- LIM 504 Research Methods in Library and Information Management Units: 3
- LIM 591 Research and Professional Applications Units: 2

Electives (9 units)

Elective offerings vary from semester to semester.

Capstone (3 units)

- LIM 598 Capstone in Library and Information Management Units: 3

Total units required for the degree: 40

Management Studies (MMS)

The Master of Management Studies (MMS) is designed to provide those who have already completed the equivalent of the first year of an accredited traditional two-year MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall graduate students. Completion of the Master of Management Studies degree requires a minimum of 26 graduate units for all candidates. Courses applicable to the degree are offered during both daytime and evening hours. The degree may be completed on either a full- or part-time basis. International students should expect to complete the program within two semesters. Prospective applicants are encouraged to review the full list of specialized master’s programs offered by the Marshall School of Business (marshall.usc.edu/masters) before applying for admission to this program. Also, visit the Master of Management Studies website at marshall.usc.edu/mms for more information about this very flexible curriculum.

Information about the areas of concentration offered to Marshall graduate students is available at marshall.usc.edu/ecg.

Admission Requirements

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Dates and Deadlines tab at marshall.usc.edu/mms. The equivalent of a four-year bachelor's degree is required for admission. Additionally, applicants must have completed the equivalent of the first year of a traditional two-year MBA accredited by the AACSB, EQUIS, ACBSP, AICTE, IACBE or AMBA. Successful applicants should have earned a GPA of 3.0 or greater in their graduate business course work and scored in at least the 80th percentile on the GMAT or the GRE.

Application Procedure

Submit an online application to the MMS program through the Marshall School of Business Admissions Website (app.applyyourself.com/?id=USC-MBA). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application (usc.edu/admission/graduate/international/application.html). For additional information, visit marshall.usc.edu/mms.

Program Structure and Unit Requirements

Master of Management Studies applicants are urged to consider areas of specialization available to Marshall graduate students published at marshall.usc.edu/ecg. The applicant is asked to identify areas of interest as part of the application process, but is free to choose course work from the full range of graduate electives offered by Marshall. An evaluation of work previously completed determines if specific content areas are missing. If it is determined that preliminary courses are needed, the number of units needed to complete the Master of Management Studies degree will increase. Completion of the Master of Management Studies degree requires a minimum of 26 graduate units. None of the GSBA-prefixed classes required for completion of a Marshall MBA program may be applied toward the Master of Management Studies unless they are required to update prior work and are added to the 26-unit total. No courses numbered lower than 500 may be included in this program. No more than two courses or eight units may be taken in graduate course work outside the Marshall School of Business. Successful completion of the program is documented on the student's USC transcript and acknowledged by a diploma awarded by the university.

Marketing (MS)

The Master of Science in Marketing provides students with tools, concepts, frameworks and critical thinking and innovative skills needed for more effective development, enhancement and refinement of marketing techniques critical...
to the success of local and global businesses. Practical hands-on projects in areas such as technology, biotechnology, healthcare, entertainment, sports entertainment and marketing start-ups provide students with opportunities to apply the classroom experience to the real world.

Admission Requirements
Applicants must satisfy the standard USC and Marshall graduate admission requirements. At least two years of full-time work experience is preferred. GMAT or GRE scores are required. The GMAT is preferred. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores. Individuals applying for admission to the Graduate Certificate in Marketing should not apply for admission to this program also.

Application Procedure
Prospective students apply for admission to begin the program in the summer term. Applications are submitted online through the Marshall School of Business application Website at app.applyyourself.com/?id=USC-MBA. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website. A complete application includes the online application form, test scores, an essay, an application fee, two letters of recommendation and official transcripts from all institutions of higher education attended. Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted) or transcripts to verify degrees earned prior to their attendance at USC. For additional information, visit marshall.usc.edu/MSMkt.

Degree Requirements
The Master of Science in Marketing requires 30 units including 18 units of required course work and 12 units of electives with a GPA of at least 3.0 for all units applied to the degree. The program may be completed on a full-time or part-time basis. Students who have taken (at USC or elsewhere) a master's-level introductory marketing course and/or a master's-level statistics course prior to application may petition to waive out of the duplicate required courses, reducing the total number of units required to earn the degree to as few as 24. Waivers must be requested in an attachment to the application for admission. If approved, waivers will be documented in the offer of admission.

Required Courses (18 Units)

- GSBA 528 Marketing Management Units: 3 *
- MKT 543 Market Demand and Sales Forecasting Units: 3 or
- DSO 510 Business Analytics Units: 3
- MKT 512 Customer Insights and Analysis Units: 3 or
- MKT 525 Consumer Behavior Units: 3
- DSO 566 Marketing Analytics Units: 3
- MKT 556 Internet Marketing Units: 3
- MKT 560 Marketing Strategy Units: 3 **

Note:
* Must be taken in the first term/semester or prior to admission.
** Must be taken in the final term/semester.

Electives: Complete 12 Units From the Following:

- BAEP 549 The Entrepreneurial Journey Units: 2 or
- BAEP 550 Entrepreneurship and Venture Management Units: 1.5 or
- BAEP 551 Introduction to New Ventures Units: 3 or
- GSBA 550a Entrepreneurship Units: .5 and
- GSBA 550b Entrepreneurship Units: 1
- BAEP 553 Cases in New Venture Management Units: 1.5, 3
- BAEP 557 Technology Commercialization Units: 3
- BAEP 558 The Entrepreneurial Advisor: Problem Solving for Early-Stage Companies Units: 1.5, 3
- CMGT 549 Case Studies in Digital Entertainment Units: 4
- CMGT 550 Hollywood 3.0 — Entertainment Industry in the Convergence Age Units: 4
- CMGT 552 Visual Storytelling: Production, Management and Culture Units: 4
- CMGT 559 Global Hollywood Units: 4
- CNTV 522 The Television Industry: Networks, Cable and the Internet Units: 4
- CNTV 524 Digital Technologies and the Entertainment Industry Units: 4
- DSO 510 Business Analytics Units: 3 *
- DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
- DSO 530 Applied Modern Statistical Learning Methods Units: 3
- DSO 543 Global Business Issues in the Networked Digital Industry Units: 3
- DSO 545 Statistical Computing and Data Visualization Units: 3.0
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3.0
- DSO 573 Data Analytics Driven Dynamic Strategy and Execution Units: 3.0
- DSO 586 Global Healthcare Operations Management Units: 3
- FBE 557 Business Law and Ethics Units: 3
The courses focus entirely on the business aspects of social and financial missions. Social entrepreneurship including management, finance and execution. Social, environmental skills delivered within the context of achieving both social and financial missions. The courses are thematic semesters that are interdisciplinary in nature. These courses are delivered within the context of achieving both social and financial missions.

The Master of Science in Social Entrepreneurship (MSSE) requires 33 units and can be completed in one year (full time) or 2 or more years (part time). Courses are offered in the evenings and on weekends on the University Park Campus in downtown Los Angeles.

Admission Requirements
Applicants apply online and must fulfill the general Marshall/USC admission requirements for graduate programs. Admission decisions into the MSSE program will be based on an applicant's previous academic record, résumé, letters of recommendation, and responses to several essay questions. TOEFL, IELTS or PTE scores will be required for international applicants who have not completed the equivalent of a four-year bachelor's degree (all four years) at an institution in a country where English is the primary official language. GMAT or GRE scores are recommended, but will not be required for this program.

Application Procedure
Submit an online application to the program through the USC Marshall graduate admissions Website here or here. International applicants are advised to view the information for international students published here.
A complete application includes the online application form, an application fee, responses to several questions, two letters of recommendation, and copies of transcripts from all institutions attended since the applicant last applied to USC. For more information about the program and detailed information about the application requirements and procedures, please visit www.marshall.usc.edu/MSSE, write to SocialEntrepreneur@marshall.usc.edu, or call (213) 740-7587.

Degree Requirements
The Master of Science in Social Entrepreneurship requires 30 units.

Required Courses

- BAEP 553 Cases in New Venture Management Units: 1.5, 3 (normally 3 units)
- BAEP 564 Investing in Impact Ventures Units: 3
- BAEP 566 Cases in Feasibility Analysis for Social Ventures Units: 3
- BAEP 591 Social Entrepreneurship Units: 2, 3 (normally 2 units)
- GSBA 510 Accounting Concepts and Financial Reporting Units: 1.5, 2, 3 (normally 2 units)
- GSBA 528 Marketing Management Units: 3
- GSBA 529 Strategic Formulation for Competitive Advantage Units: 3
- GSBA 548 Corporate Finance Units: 2, 3 (normally 2 units)
- BAEP 549 The Entrepreneurial Journey Units: 2

Total units: 33

Medical Management (MMM)
This program is designed for physicians, three-five years out of residency, who are currently employed in the health care industry. Its structure includes intensive residential periods with significant project work required between residential periods. Non-residential instruction is supported via distance-learning tools.

Applications are due by November 30 for a program start date in late January. The application is available online at app.applyyourself.com/?id=USC-MBA. For additional information, contact the Office of Executive Education at (213) 740-8990 or by email at mmm@marshall.usc.edu. This program requires 33 units that will be taken in lockstep fashion. These courses are thematically semesters that are interdisciplinary in nature.

Spring
- GSBA 561 Evaluating Market Performance Units: 9

Summer
- GSBA 562 Management of Operations Units: 11

Fall
- GSBA 572 Strategic Planning for Growth Units: 11

Spring
- BAEP 549 The Entrepreneurial Journey Units: 2

Total units: 33
BAEP 593 Independent Research in Business Entrepreneurship Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4,
or
• BAEP 554 Venture Initiation Units: 3

Elective Courses
Complete at least 6 units of 500-level ACCT, BAEP, BU CO, DSO, FBE, GSBA, MKT or MOR course work to reach 30 units. (Enrollment in electives is subject to satisfaction of any prerequisite requirements in addition to the 30 units required for the degree.)

Total units: 30

Graduate Certificate

For Business

Business Analytics Graduate Certificate

The Graduate Certificate in Business Analytics provides students with the tools, ideas and frameworks that will aid them in making business decisions in a scientific manner, based on actual data, to improve the performance of their organization. Students in the program acquire the statistical and optimization tools necessary to analyze large and unstructured data sets and make optimal decisions to improve the performance of their organization.

Admission Requirements

Applicants must satisfy the standard Marshall graduate admission requirements. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. International applicants who did not spend four years completing a bachelor’s degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Individuals applying for admission to the Master of Science in Business Analytics should not apply for admission to this program also.

Application Procedure

Prospective students who have not previously taken graduate-level (post-baccalaureate) business statistics must apply to begin the program in the fall semester. Prospective applicants who have taken a graduate-level business statistics course may apply to begin the program in the fall, spring or summer. Applications are submitted online through the Marshall School of Business application Website at app.applyyourself.com/?id=USC-MBA. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website.

A complete application includes the online application form, an application fee, test scores, an essay, two letters of recommendation and official transcripts from all institutions attended.

• Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted), transcripts to verify degrees earned prior to their attendance at USC, or letters of recommendation.

• All other applicants must submit all documentation identified in the online application instructions.

Degree Requirements

The Graduate Certificate in Business Analytics requires 15 units including required course work and at least 9 units of course work chosen from a list of electives. The program may be completed on a full-time (3-5 courses per semester) or part-time basis.

Students who have taken master’s-level managerial statistics at another institution or as part of another program at USC prior to application may petition to replace the managerial statistics requirement with a fourth elective. Such a replacement must be requested as an attachment to the application for admission and, if approved, will be included in the offer of admission.

Required Courses

• GSBA 506a Applied Managerial Statistics Units: 1.5 and
• GSBA 506b Applied Managerial Statistics Units: 1.5 or
• GSBA 516 Essentials of Data Analysis and Modeling Units: 1.5 and
• GSBA 545 Data Driven Decision Making Units: 1.5 or
• GSBA 524 Managerial Statistics Units: 2, 3

DSO 510 Business Analytics Units: 3

Electives - Complete at least 9 units from the following to total 15 units.

• DSO 516 Probability and Data Modeling Units: 1.5
• DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
• DSO 528 Data Warehousing, Business Intelligence, and Data Mining Units: 1.5, 3
• DSO 529 Advanced Regression Analysis Units: 3
• DSO 530 Applied Modern Statistical Learning Methods Units: 3
• DSO 534 Discrete-Event Simulation for Process Management Units: 1.5
• DSO 536 Monte Carlo Simulation and Decision Models Units: 1.5
• DSO 545 Statistical Computing and Data Visualization Units: 3.0
• DSO 547 Designing Spreadsheet-Based Business Models Units: 3
• DSO 562 Fraud Analytics Units: 3
• DSO 566 Marketing Analytics Units: 3
• DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3.0
• DSO 573 Data Analytics Driven Dynamic Strategy and Execution Units: 3.0

Note:
For current USC graduate students, courses credited to the Graduate Certificate in Business Analytics may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current MBA students may apply all 15 units of the graduate certificate program to their MBA degree.

For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director.
Successful completion of the program is documented on the student's transcript and acknowledged with a certificate (diploma) awarded by the university.
For additional information, visit marshall.usc.edu/GCRTAnalytics.

Business Fundamentals for Non-Business Professionals Graduate Certificate
The Graduate Certificate in Business Fundamentals for Non-Business Professionals is designed to provide managers and business owners for whom an MBA is not a viable option with a basic graduate-level introduction to successful business policies and practices.

Admission
All certificate students must meet the same admission requirements as degree seeking students.
In addition to the general admission requirements, applicants should have earned an undergraduate GPA of at least 3.4 or a GPA in graduate course work of at least 3.2. GRE or GMAT scores are generally required. A completed graduate degree may be accepted in lieu of test scores at the discretion of the admissions committee.
Prospective students should apply to begin the program and take GSBA 520 in the fall or spring term. Individuals applying for admission while or after completing GSBA 520 may apply for admission in the fall, spring or summer.
Applications are submitted online through the USC Marshall School of Business admissions Website at app.applyyourself.com/?id=USC-MBA. A complete application includes the online application form, responses to essay questions, letters of recommendation, and official transcripts from all colleges and universities attended, whether a degree was completed or not. Current USC students and alumni need to submit transcripts from only those institutions attended since the applicant last applied to USC. The application fee is not required of current USC students or USC alumni.
For more information, visit marshall.usc.edu/BFNBP.

Program Requirements
The program requires successful completion of the following 19-unit program with a minimum cumulative GPA of at least 3.0 for all course work applied to the certificate and an overall graduate GPA at USC of at least 3.0.

Required (16 Units)
• ACCT 509 Concepts of Financial and Management Accounting Units: 4
• GSBA 520 Business Fundamentals for Non-Business Professionals Units: 3, 4
• GSBA 523 Communication for Management Units: 2, 3” or
• BUCO 503 Advanced Managerial Communication Units: 1.5, 3
• GSBA 528 Marketing Management Units: 3 or one 3-unit MKT course from a list of electives published on the program Website and available from the program adviser
• GSBA 543 Managerial Perspectives Units: 3 or one 3-unit MOR course from a list of electives published on the program Website and available from the program adviser

Elective (3 Units)
Select one additional course from those identified above or from a list of elective options published on the program Website and available from the program adviser. The elective selected may not duplicate prior graduate course work and must be approved by the program director. Enrollment in some courses may require additional preparatory course work to satisfy prerequisites, subject to approval of the instructor.

Note:
*Students in the Master of Communication Management, Master of Arts in Global Communication and Master of Arts in Strategic Public Relations programs may substitute BAEP 551 Introduction to New Ventures (3). Students who have extensive presentation experience may be allowed to substitute BUCO 533 Managing Communication in Organizations (3) with permission from the program director.

For current USC graduate students, courses credited to the Graduate Certificate in Business Fundamentals for Non-Business Professionals may be completed in conjunction with course work required for a program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department.

For USC alumni, courses completed in conjunction with an individual's prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director. Successful completion of the program is acknowledged by a certificate awarded by the university.

Financial Analysis and Valuation Graduate Certificate
The Graduate Certificate in Financial Analysis and Valuation program is designed to enhance the individual's graduate education through a concentrated curriculum in financial accounting, financial analysis, valuation, credit analysis, and financial instruments and markets.

Admission
To qualify for admission to the program, individuals must have completed basic graduate-level (post-baccalaureate) courses in microeconomics, macroeconomics, and corporate finance comparable to the first-year MBA curriculum while earning a minimum graduate GPA for those courses (combined) of 3.5.

Prospective students may apply to begin the programs in the fall, spring, or summer term. Applications are submitted online at app.applyyourself.com/?id=USC-MBA. A complete application includes the online application form, responses to several essay and additional information questions, letters of recommendation and transcripts from any institutions attended since the applicant last applied to USC. (The application fee is not required of current USC students and USC alumni. Letters of recommendation are not required of current USC MBA students and USC MBA alumni.)

For more information, visit marshall.usc.edu/fav.

Program Requirements

The program requires successful completion of 15 units. Students select one of the following options. Some courses are offered for either 1.5 units or 3 units in a given semester. Individuals who elect to take a 1.5-unit class must make up the other 1.5 units with a course selection from the same option. Earning the certificate requires a combined GPA of at least 3.6 for all courses applied to the certificate.

Corporate Finance Option

Required

- ACCT 572 Corporate Accounting and Reporting Units: 3
- FBE 529 Financial Analysis and Valuation Units: 3

At least two of the following:

- ACCT 581 Financial Statement Analysis Units: 3
- FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3
- FBE 532 Corporate Financial Strategy Units: 3

At least one of the following:

- ACCT 581 Financial Statement Analysis Units: 3
- FBE 523 Venture Capital and Private Equity Units: 3
- FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms Units: 3
- FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3
- FBE 532 Corporate Financial Strategy Units: 3
- FBE 558 Legal Environment of Business and Corporate Governance Units: 3
- FBE 559 Management of Financial Risk Units: 3
- FBE 560 Mergers and Acquisitions Units: 3

Investment Management Option

Required

- FBE 529 Financial Analysis and Valuation Units: 3

At least one of the following:

- FBE 555 Investment Analysis and Portfolio Management Units: 3

At least two of the following:

- ACCT 572 Corporate Accounting and Reporting Units: 3
- ACCT 581 Financial Statement Analysis Units: 3
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 540 Hedge Funds Units: 3
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 554 Trading and Exchanges Units: 3
- FBE 559 Management of Financial Risk Units: 3
- FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3

Student Investment Fund Program

Under the auspices of the Center for Investment Studies is the Student Investment Fund (SIF) program. During this year-long seminar in applied portfolio management, a select group of students learn the theory and practice of investment management by managing actual USC endowment funds. Students who are selected to participate in the Marshall Student Investment Fund (SIF) program are required to complete the following:

Required

- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 559 Management of Financial Risk Units: 3
- FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3

Notes:

*Prerequisite required.

If a course in the SIF option is taken for 1.5 units, the remaining units may be completed with a course selected from the Investment Management option above to reach the 15 units required to complete the program.

Note

For current USC graduate students, courses credited to the Graduate Certificate in Financial Analysis and Valuation may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current MBA students may apply all 15 units of the graduate
certificate program to their MBA degree. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. Appropriate substitutions for required courses will be determined and documented by the program director. Successful completion of the program is acknowledged by a certificate awarded by the university.

Library and Information Management Graduate Certificate

The Graduate Certificate in Library and Information Management is designed to provide specialized knowledge in library leadership for library managers who do not hold the MMLS degree and current holders of the equivalent MLIS degree looking for career advancement. The certificate is offered entirely online.

Admission

Certificate applicants must meet the same basic admission requirements as the Master of Management in Library and Information Science applicants.

Program Requirements

The Graduate Certificate in Library and Information Management requires 16 units. Each student will develop an individual academic plan and course of study under a faculty member's guidance, subject to the program director's approval.

For students who already hold an MMLIS degree or equivalent:

- LIM electives Units: 12
- LIM 591 Research and Professional Applications Units: 2

Students who do not already hold an MMLIS degree or equivalent will be required to successfully complete the following:

- LIM 500 Fundamentals of Library and Information Science Units: 3
- LIM 501 Fundamentals of Library Leadership and Management Units: 3
- LIM electives Units: 6
- LIM 591 Research and Professional Applications Units: 2

Notes:

For current USC graduate students, courses credited to the Graduate Certificate in Library and Information Management may be completed in conjunction with course work required for a program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Successful completion of the program is acknowledged by a certificate awarded by the university.

Management Studies Graduate Certificate

The Graduate Certificate in Management Studies is designed to provide those who have already completed the equivalent of the first year of a traditional two-year MBA with an opportunity to pursue further study in an area of specialization currently available to Marshall graduate students. Completion of the Graduate Certificate in Management Studies requires a minimum of 12 graduate units for all candidates — usually four, 3-unit courses. The certificate may be completed on either a full- or part-time basis. Classes applicable to the certificate are offered during both daytime and evening hours.

Prospective applicants are encouraged to visit the Graduate Certificate in Management Studies Website at marshall.usc.edu/gcms for more information about this very flexible curriculum. Applicants interested in accounting or taxation should consider applying for admission to the Master of Accounting or the Master of Business Taxation program offered by the USC Leventhal School of Accounting. Information about the areas of concentration offered to Marshall graduate students is available at marshall.usc.edu/ecg.

Admission Requirements

Applicants may apply for admission to begin the program in the summer term or the fall or spring semesters. Application deadlines vary by semester, citizenship and registration goals. Details are available under the Calendar tab at marshall.usc.edu/gcms.

The equivalent of a four-year bachelor's degree is required for admission. Additionally, applicants must have completed the equivalent of the first year of a traditional two-year MBA accredited by the AACSB, EQUIS, ACBSP, AOECE. IACBE or AMBA. Successful applicants should have earned a GPA of 3.3 or greater in their graduate business course work and scored at least as well as an average Marshall MBA student on the GMAT.

Application Procedure

Submit an online application through the Marshall School of Business Admissions Website (app.applyyourself.com/?id=USC-MBA). International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Application (marshall.usc.edu/admission/graduate/international/application.html). For additional information, visit marshall.usc.edu/gcms.

Program Structure and Unit Requirements

Applicants are urged to consider areas of specialization available to Marshall graduate students published at marshall.usc.edu/gcms. The applicant is asked to identify areas of interest as part of the application process, but is free to choose course work from the full range of graduate electives offered by Marshall. An evaluation of work previously completed determines if specific content areas are missing. If it is determined that preliminary courses are needed, the number of units needed to complete the Graduate Certificate in Management Studies certificate will increase.

Completion of the Graduate Certificate in Management Studies certificate requires a minimum of 12 graduate units for all candidates.
None of the GSBA-prefixed classes required for completion of a Marshall MBA program may be applied toward the certificate unless they are required to update prior work and are added to the 12-unit total.

No courses numbered lower than 500 may be included in this program. All courses applied toward the certificate must be taken within the Marshall School of Business. Acceptable course prefixes include ACCT, BAEP, BURO, FBE, GSBA, IOM or DSO, MKT and MOR.

Successful completion of the program is acknowledged by a certificate awarded by the university.

**Marketing Graduate Certificate**

The Graduate Certificate in Marketing provides students with the tools, ideas and frameworks that will aid them in making business decisions in an application-based manner, based on actual case studies and relevant projects, to improve the performance of their organization. Students in the program acquire the marketing principles, techniques and tools necessary to analyze marketing situations and develop effective integrated strategic marketing plans to improve the performance of their organization.

**Admission Requirements**

Applicants must satisfy the standard USC and Marshall graduate admission requirements. Two years of fulltime work experience is preferred. GMAT or GRE scores are required.

International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Individuals applying for admission to the Master of Science in Marketing should not apply for admission to this program also.

**Application Procedure**

Prospective students who have not previously taken a master's/graduate (post-baccalaureate) introductory marketing course must apply to begin the program in the summer term. Prospective applicants who have taken a master's/graduate-level marketing course may apply to begin the program in the fall, spring or summer.

Applications are submitted online through the Marshall School of Business application Website at app.applyyourself.com/?id=USC-MBA. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website (usc.edu/admission/graduate/international/application.html).

A complete application includes the online application form, test scores, an essay, an application fee, two letters of recommendation and official transcripts from all institutions attended since the applicant last applied to USC:

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted), transcripts to verify degrees earned prior to their attendance at USC, or letters of recommendation.
- All other applicants must submit all documentation identified in the online application instructions.

**Degree Requirements**

The Graduate Certificate in Marketing requires 15 units including one required course and 500-level MKT electives with a GPA of at least 3.0 for all units applied to the certificate. The program may be completed on a full-time (3-5 courses per semester) or part-time basis.

Students who have taken a master's-level introductory marketing course at another institution prior to application may petition to replace Marketing Management with an elective. Such a replacement must be requested as an attachment to the application for admission and, if approved, will be included in the offer of admission.

**Required Courses**

- GSBA 509 Marketing Management Units: 1.5
- GSBA 528 Marketing Management Units: 3

**Electives: Complete successfully sufficient units of 500-level MKT course work to total 15 units.**

No more than 3 units of CR/NC course work can be applied to the certificate.

**Note:**

For current USC graduate students, courses credited to the Graduate Certificate in Marketing may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. Current USC MBA students may apply all 15 units of the graduate certificate program to their MBA degree.

For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate. An appropriate substitution for the required course will be determined and documented by the program director.

Successful completion of the program is documented on the student's transcript and acknowledged with a certificate (diploma) awarded by the university.

For additional information, visit marshall.usc.edu/GCRTMarketing.

**Optimization and Supply Chain Management Graduate Certificate**

The Graduate Certificate in Optimization and Supply Chain Management is offered by the Marshall School of Business in partnership with the Viterbi School of Engineering. The program offers individuals opportunities to expand their knowledge of the rapidly expanding uses of technology in the management of global supply chains.

The certificate may be completed on either a full- or part-time basis. Most classes applicable to the program are offered during both daytime and evening hours. Many of the courses included in the curriculum are available online.

**Admission**

Applicants should have a foundational knowledge (academic or experiential) of statistics and operations management. Prospective students may apply to begin the programs in the fall, spring or summer term. Applications are submitted online at app.applyyourself.com/?id=USC-MBA. A complete
application may include the online application form, responses to several essay and additional information questions, test scores, letters of recommendation, transcripts from all institutions attended since high school, and an application fee. For more information, visit marshall.usc.edu/oscm.

The graduate certificate requires successful completion of 15 units with a minimum GPA of at least 3.0 for all units (combined) applied to the certificate.

**Required Courses**

**Complete 15 units from the following:**

- CE 589 Port Engineering: Planning and Operations Units: 3
- DSO 505 Sustainable Supply Chains Units: 1.5
- DSO 506 Sourcing and Supplier Management Units: 1.5
- DSO 520 Logistics Management Units: 3
- DSO 522 Applied Time Series Analysis for Forecasting Units: 1.5, 3
- DSO 547 Designing Spreadsheet-Based Business Models Units: 3
- DSO 549 Application of Lean Six Sigma Units: 3
- DSO 570 The Analytics Edge: Data, Models, and Effective Decisions Units: 3.0
- DSO 580 Project Management Units: 3 or ISE 515 Engineering Project Management Units: 3
- DSO 581 Supply Chain Management Units: 3
- DSO 582 Service Management: Economics and Operations Units: 3
- DSO 583 Operations Consulting Units: 3
- DSO 584 Global Operations Management Units: 3
- GSBA 504a Operations Management Units: 1.5 and GSBA 504b Operations Management Units: 1.5 or GSBA 534 Operations Management Units: 2, 3
- ISE 506 Lean Operations Units: 3
- ISE 513 Inventory Systems Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 530 Optimization Methods for Analytics Units: 3
- ISE 580 Performance Modeling and Simulation Units: 3
- ISE 583 Enterprise Wide Information Systems Units: 3

**Note:**

For current USC graduate students, courses credited to graduate certificate programs may be completed in conjunction with course work required for a graduate degree program in which the student is already enrolled. Applicability of courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward a certificate, but may be applied toward the master's degree. If necessary, appropriate substitutions for required courses will be determined and documented by the program director. Successful completion of a graduate certificate program is acknowledged by a certificate awarded by the university.

**Strategy and Management Consulting Graduate Certificate**

The Strategy and Management Consulting graduate certificate provides students with the tools, concepts and frameworks that will aid them in leading the process of strategy development and management consulting to improve business performance. Evidence-based frameworks and hands-on projects will enhance students’ skill sets in diagnosing strategic issues in complex settings. Different types of intervention strategies and contingency frameworks will provide students with an extensive and robust toolkit that can be applied in multiple industry settings.

**Admission Requirements**

Applicants must satisfy the standard Marshall graduate admission requirements. A few years of work experience is preferred, but not required. GMAT or GRE scores are required. International applicants who did not spend four years completing a bachelor's degree at an American, British, Canadian or Australian college or university must submit TOEFL, IELTS or PTE scores.

Prerequisite course work: Applicants must have completed the equivalent of a master's level course in business and competitive strategy (e.g., GSBA 519a, GSBA 519b or GSBA 529 or GSBA 540). The requirement may be waived in individual cases by the academic director of the certificate program. Petitions for a waiver must be included in the essay section of the individual's application.

**Application Procedure**

Applications are submitted online through the Marshall School of Business application Website at app.applyyourself.com/?id=USC-MBA. International applicants are advised to see the instructions for international students published in the USC Graduate Admissions Website.

A complete application includes the online application form, an application fee, test scores, an essay, two letters of recommendation and official transcripts from all institutions attended since the applicant last applied to USC.

- Current USC students and USC alumni are not required to submit an application fee, new test scores (if previously submitted), transcripts to verify degrees earned prior to their attendance at USC, or letters of recommendation.
- All other applicants must submit all documentation identified in the online application instructions.
Degree Requirements
The graduate certificate in Strategy and Management Consulting requires 15 units. The program may be completed on a full-time (3-5 courses per semester) or part-time basis.

Required Course
- MOR 557 Strategy and Organization Consulting Units: 3

Electives
Complete 12 units from the following:
- DSO 583 Operations Consulting Units: 3
- MOR 542 Strategic Issues for Global Business Units: 3
- MOR 554 Leading Innovation and Change Units: 3
- MOR 555 Designing High Performance Organizations Units: 3
- MOR 559 Strategic Renewal and Transformation Units: 3
- MOR 560 Managerial Judgment and Decision-Making Units: 3
- MOR 561 Strategies in High-Tech Businesses Units: 3
- MOR 562 Strategic Choice and Valuation Analysis Units: 3
- MOR 565 Alliances and Cooperative Strategy Units: 3
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3
- MOR 570 Leading Effective Teams Units: 3
- MOR 588 Corporate Strategy and Competitive Dynamics Units: 1.5, 3

Note
For current USC graduate students, courses credited to the graduate certificate in Strategy and Management Consulting may be completed in conjunction with course work required for the program in which the student is already enrolled. The student's home department determines applicability of these courses to the student's primary degree program. Current Marshall MBA students may apply all 15 units of the graduate certificate program to their MBA degree.

Program Requirements
The program requires completion of 15 units.

Core - Complete at Least 9 Units From the Following
- BAEP 591 Social Entrepreneurship Units: 2, 3
- DSO 505 Sustainable Supply Chains Units: 1.5
- DSO 506 Sourcing and Supplier Management Units: 1.5
- FBE 557 Business Law and Ethics Units: 3
- GSBA 554 Digital Strategies for Sustainability in Global Markets Units: 3
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3

Electives - Complete 0-6 Units From the Following
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- ARCH 579 Sustainable Building and Environment using LEED Metrics Units: 3
- BAEP 564 Investing in Impact Ventures Units: 3
- CMGT 577 Communicating Corporate Social Responsibility Units: 4
- DSO 586 Global Healthcare Operations Management Units: 3
- ENE 502 Environmental and Regulatory Compliance Units: 3
- ENE 530 Environmental Risk Analysis Units: 4
- GEOL 525 The Science of Climate Change Units: 4
• ISE 576 Industrial Ecology: Technology-Environment Interaction Units: 3
• LAW 655 Environmental Law Units: 2, 3, 4
• POSC 546 Seminar in Environmental Policy Units: 4
• PPD 568 Environmental Governance and Sustainability Units: 2
• PPD 688 Business and Public Policy Units: 4
• PPD 689 The Nonprofit Sector and Philanthropy Units: 4
• PPDE 632 Sustainable Cities Units: 4
• PPDE 660 Environmental Policy Design and Analysis Units: 2
• PSYC 456 Conservation Psychology Units: 4
• SAE 515 Sustainable Infrastructure Systems Units: 3

Note:
Students may also earn credit toward the certificate electives with up to 4 units of Independent Study (e.g., Marshall 592 or 593) or Directed Research (590 in non-Marshall departments) subject to approval by the faculty directors.

For current USC graduate students, courses credited to the Graduate Certificate in Sustainability and Business may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses completed in conjunction with a previously conferred degree may not be credited toward the certificate. Successful completion of the program is acknowledged by a certificate (diploma) awarded by the university.

For more information, please visit www.marshall.usc.edu/SUSB.

Technology Commercialization
Graduate Certificate
The Graduate Certificate in Technology Commercialization is designed to let students experience the entire spectrum of the commercialization process — invention, product development, technical and market feasibility analysis, intellectual property acquisition, business planning and venture funding.

To qualify for admission, current USC students should have completed the equivalent of one year of graduate study at USC (at least 12 units for part-time students) and earned a minimum cumulative GPA of 3.0. Individuals holding graduate degrees from USC or other institutions are welcome to apply.

Prospective students may apply to begin the program in the fall, spring or summer term. Applications are submitted online through the USC Marshall School of Business Admissions Website at app.applyyourself.com/?id=USC-MBA. A complete application includes the online application form, responses to several essay questions, letters of recommendation and transcripts from any institutions attended since the applicant last applied to USC. (The application fee is not required of current USC students and USC alumni.) For more information: (213) 740-0505; Bridge Hall 1, USC, Los Angeles, CA 90089-0810; (213) 740-2976 (fax); entrepreneur@marshall.usc.edu.

After the Lloyd Greif Center has received the complete application, it will contact the applicant to confirm receipt of the application and, if appropriate, to schedule an interview.

In their review of applications, the admission committee members consider the applicant's completed academic work, evidence of potential business leadership, motivation, work experience and competitiveness within the current application pool.

Three required courses and one elective (12 units) must be completed to earn the certificate. The student must maintain both a certificate and overall GPA of at least 3.0 throughout the program.

Required Courses
• BAEP 556 Technology Feasibility Units: 3
• BAEP 557 Technology Commercialization Units: 3
• BAEP 559 Investing in New Ventures Units: 3

Electives - Select One
• BAEP 553 Cases in New Venture Management Units: 1.5, 3
• BAEP 555 Founder's Dilemmas: Anticipate and Avoid Startup Pitfalls Units: 3
• ISE 515 Engineering Project Management Units: 3
• ISE 555 Invention and Technology Development Units: 3
• ISE 585 Strategic Management of Technology Units: 3
• MOR 561 Strategies in High-Tech Businesses Units: 3

Notes:
For current USC graduate students, courses credited to the Graduate Certificate in Technology Commercialization may be completed in conjunction with course work required for the program in which the student is already enrolled. Applicability of these courses to the student's primary degree program is determined by the student's home department. For USC alumni, courses completed in conjunction with the individual's prior degree may not be credited toward the certificate.

Successful completion of the program is acknowledged by a certificate awarded by the university.

Doctoral Degree
Business Administration (PhD)
The Doctor of Philosophy program in business administration is designed to produce research-oriented graduates who, from positions in academia, can advance the state-of-the-art of business practice and enhance the contributions that business can make to the larger community. These goals can be advanced through research contributions in theory, concepts, methods and practices, and contributions to the education of the next generation of business leaders. USC Marshall offers the PhD in Business Administration in the following five
Departments: Accounting, Finance and Business Economics, Data Sciences and Operations, Management and Organization, and Marketing.

All students admitted to the Marshall PhD degree program are supported by graduate assistantships or fellowships that require a full-time commitment to the program. No part-time or evening programs are available. PhD students begin their program in early August and are expected to be in residence 12 months each year throughout the program. Until the time the student is granted permission to take the qualifying examination, successful completion of at least six units per consecutive semester is required.

This degree is awarded under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue. All courses applied toward the degree must be accepted by the Graduate School and relevant to the student's program of study. In most cases, the PhD degree takes five years to complete.

Admission

The PhD program in Business Administration welcomes applications from students with high intellectual aptitude who plan to pursue academic careers in research and teaching. Students with strong backgrounds in mathematics, psychology, the social sciences, engineering, computer science and the other sciences are encouraged to apply for admission. A master's degree or MBA is not a requirement for entry into the PhD program; students may enter with only a bachelor's degree. Prior academic research experience is desirable.

Any student who wishes to apply for admission to the PhD program should visit marshall.usc.edu/phd to obtain additional information about the PhD program and an online application. Only online applications are accepted. Students with additional questions that are not covered on the website may contact the Marshall School PhD Program office located in Accounting Building 214, (213) 740-0676 or phd@marshall.usc.edu.

Applicants should secure three letters of recommendation. The PhD committee prefers that all recommendations be written by academics who are familiar with the applicant's scholastic and research capabilities. An applicant who has been away from an academic environment for a significant period of time may substitute one academic reference with a non-academic reference. Applicants also provide transcripts, GRE or GMAT scores, TOEFL or IELTS scores (if appropriate) and a statement of purpose. Applicants are encouraged to send a statement of research experience and a research writing sample, if available.

Consideration is given to the rigor of the undergraduate and master's curricula, academic performance, scores on the GRE or GMAT, the quality of the statement of purpose, fit with the department, the applicant's oral and written communication skills and letters of recommendation.

Campus interviews for top applicants may be initiated by the departments. In cases where in-person interviews cannot be arranged, alternative arrangements will be made.

Graduate Assistantships

All admitted students receive a fellowship or graduate assistantship, full tuition, health and dental insurance and payment of mandatory student health center fee for a minimum of four years dependent on continued satisfactory academic progress. This progress is assessed by the PhD program based on students maintaining at least the minimum enrollment, a GPA of at least 3.0, and satisfactory performance in graduate assistant assignments. At the end of the fourth year, students may apply for an assistantship for the fifth year of study. Students who receive assistantships serve as teaching assistants or research assistants each semester of the award. Teaching and teaching assistant assignments are made only after a student has passed the qualifying examination. For research assistant assignments, students are engaged with a faculty member in a business-related, applied-learning, scholarly activity to learn the skills necessary to conduct independent research.

Degree Requirements

The Doctor of Philosophy in business administration is based on a program of study and research culminating in the completion of a dissertation in the major field of study. A minimum of 60 units of course work beyond the baccalaureate is required for the PhD degree, including research courses and a minimum of 4 units and a maximum of 8 units of GSBA 794a Doctoral Dissertation, GSBA 794b Doctoral Dissertation, GSBA 794c Doctoral Dissertation, GSBA 794d Doctoral Dissertation and GSBA 794z Doctoral Dissertation. For students who already possess an advanced graduate degree, a minimum of 40 semester units of course work beyond that degree is required, of which a maximum of 4 units may be GSBA 794a Doctoral Dissertation, GSBA 794b Doctoral Dissertation, GSBA 794c Doctoral Dissertation, GSBA 794d Doctoral Dissertation and GSBA 794z Doctoral Dissertation. Doctoral students are subject to disqualification at any time that the Marshall School of Business determines that they are deficient in academic achievement. All students must maintain a 3.0 GPA at all times.

Screening Procedure

In addition to the papers and examinations assigned in first-year courses, a screening process will occur in May. This process will include a review of each student's grades, an analysis of competence in written communications and reports from faculty members who have had in-class or other responsibility for the student. In most departments, a screening exam is required. The nature of the exam varies by department. Generally, a screening examination or other procedure designated by the department (Accounting, Finance and Business Economics, Data Sciences and Operations, Management and Organization, and Marketing) is to be administered before the student has taken more than 24 units (including research courses). However, the Accounting and Finance and Business Economics departments require their students to take the departmental course requirements until the end of the second year; students must take up to 36 units before the departmental screening procedure is administered. Based upon this review, the PhD committee will determine whether the student should continue in the PhD program. Students who have not performed satisfactorily will be dropped from the program. The review shall normally be completed and results communicated to students by July 1. In some cases a first-year summer project may be taken into account in
determining whether a student should continue in the program.

Qualifying Exam Committee and Dissertation Committee

Students are responsible for finding a qualifying exam committee chair among the student's home department faculty by the fall semester of the second year. The qualifying exam committee should be established within the student's home department at least two semesters prior to taking the qualifying examination and after the student has passed the screening procedure. The qualifying exam committee comprises a minimum of five tenured, tenure-track and non-tenure track USC faculty, three of whom must be from the student's home department. At least one faculty member from the home department must be tenured. One member must be from outside the student's home department (within or outside of Marshall). The qualifying exam committee advises the student on courses during the first two years and oversees and grades the qualifying examination. Within 90 days of passing the qualifying exam, the dissertation committee chair must be identified. The dissertation committee must be appointed within six months after the qualifying examination has been passed and a dissertation topic approved. The committee should be appointed at least one month before the dissertation defense. The appointment of dissertation committee form, available on the Graduate School Website, is used to establish the dissertation committee. The dissertation committee is normally composed of three members, although additional members may be included at the student's and committee chair's discretion. The committee chair and at least one additional member must be affiliated with the student's home department. Faculty eligible to serve as committee members include tenured and tenure-track faculty, and nontenure track faculty of outstanding stature who have a documented record of exceptional expertise and superior achievement in a field relevant to the dissertation. At least two members of the committee should be tenured or tenure-track, including the committee chair.

The Marshall School of Business PhD program requires an outside member for both the qualifying exam committee and dissertation committee. The outside member may be a faculty member from another department within Marshall or from another school within USC. Students may also include a person from a different university as an additional member with the permission of the chair; however, this person cannot substitute for the required outside member.

Course Requirements

Each student must successfully complete one course in microeconomics or behavioral sciences, one course in statistics and one course in research design plus the core courses in his or her field of specialization. Advanced course work is specified by the student's guidance committee in preparation for the qualifying examinations in the area of specialization. The areas are: accounting, data sciences and operations, finance and business economics, management and organization, and marketing.

Qualifying Examination

The examination qualifying a student for candidacy may be comprehensive in nature. It is designed to determine the student's competence in the area of specialization. The qualifying examination consists of two sections: written and oral. The written section must be passed before the oral section; if a student does not pass the written examination, the oral examination need not be administered. In preparing for the qualifying examination, students form a qualifying exam committee. This committee helps the student prepare for the exam and also administers the written and oral section of the examination. See also The Graduate School section of this catalogue.

Dissertation

The final phase of the program is the completion of a dissertation. The dissertation must be based on an original investigation that makes a substantive contribution to knowledge and demonstrates the student's capacity for independent, scholarly research. The quality of the dissertation should meet the standards for publication in leading academic journals in the field. Typically, research in business administration involves studies that advance the body of knowledge concerned with issues and solution of problems confronting managers and administrators. As a result, a dissertation will (1) develop or extend theories, techniques or models relevant to managerial problems; (2) demonstrate original applications or adaptations of existing theories, techniques or models to managerial problems in a specific area; (3) develop innovative formulations and analyses of complex managerial problems and propose creative approaches to their solution; and/or (4) employ scientific research methodology to test empirically the validity of existing theories, techniques or models and their application to specific types of managerial problems.

A dissertation committee chair shall be requested by the student and appointed by the dean of the PhD program within 90 days after the student has passed the qualifying exam. The remaining faculty on the dissertation committee shall be appointed within six months after the student has passed the qualifying exam. The dissertation committee must consist of at least three tenured or tenure-track faculty, two of whom must be from the student's home department. At least one faculty member from the home department must be tenured. One member must be from outside the student's department and the Marshall School of Business. Students may add additional faculty to the committee, especially those who might provide valuable expertise that improves the dissertation. It is important that the student select faculty members who are committed and interested in serving on the committee, since a quality dissertation requires extensive interaction with and a sizable time commitment from individual faculty members. See also the Qualifying Exam Committee and Dissertation Committee section above for further details.

Defense of the Dissertation

When the dissertation committee agrees that the candidate has essentially completed the research and a satisfactory draft of the dissertation has been written, a final oral examination is held. This examination is open to all members of the
Undergraduate Programs

Bachelor of Science

The business administration major combines a strong grounding in business fundamentals and expertise in select functional areas with extensive exposure to the liberal arts. The curriculum is designed with significant flexibility so that students can complement their studies in business with a minor in a field outside business.

Marshall School programs lead to a Bachelor of Science degree. The most common major is Business Administration. Marshall students may major in Accounting through the USC Leventhal School of Accounting (part of the Marshall School). [See the USC Leventhal School of Accounting pages for a complete listing of information regarding courses, programs and requirements. See Accounting (BS) for specific degree requirements.]

The Marshall School offers three emphasis programs: the program with the School of Cinematic Arts leads to a BS in Business Administration with an emphasis in Cinematic Arts; the program with the School of International Relations leads to a BS in Business Administration with an emphasis in International Relations; and the program in the Finance and Business Economics department leads to a BS in Business Administration with an emphasis in Real Estate Finance.

Students in the BS in Business Administration (World) program earn bachelor's degrees from USC, Hong Kong University of Science and Technology (HKUST) and Bocconi University (Milan, Italy). The Marshall School and USC Viterbi School of Engineering offer a combined degree program leading to a bachelor's degree in Computer Science/Business Administration (BS) administered by the Viterbi School of Engineering. The Marshall School also offers a variety of minors for non-business majors.

Educational Objectives

The undergraduate programs in business administration have three main goals: (1) graduates will have a grounding in skills and concepts that are fundamental to business; (2) graduates will have deep expertise in one or more specific areas of business, selected according to the student's personal and professional goals and objectives; and (3) graduates will have extensive exposure to the liberal arts, usually with a formal minor in a field outside business.

Degree Requirements

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. The current GE program is effective for all students entering USC in fall 2015 or later and for transfer students who began college elsewhere in fall 2015 or later and subsequently transferred to USC. For more information about USC's general education requirements, see the General Education page for more information.

Marshall Majors

The major requirements for each degree are found on the catalogue page for each major:

- Business Administration (BS)
- Business Administration (Cinematic Arts) (BS)
- Business Administration (International Relations) (BS)
- Business Administration (Real Estate Finance) (BS)
- Business Administration (World Program) (BS)
- Computer Science/Business Administration (BS)

Certificate Program

Marshall offers an undergraduate certificate in Food Industry Management. For more information see the Food Industry Management Program page.

Marshall Minors

Marshall offers minors in a range of business disciplines. Please see the catalogue page for each minor for a complete description and degree requirements.

- Business Minor
- Business Economics Minor
- Business Finance Minor
- Business Law Minor
- Business Technology Fusion Minor
- Consumer Behavior Minor
- Entrepreneurship Minor
- Human Resource Management Minor
- Management Consulting Minor
- Marketing Minor
- Operations and Supply Chain Management Minor
- Organizational Leadership and Management Minor
- Real Estate Finance Minor
- Social Entrepreneurship Minor
- Technology Commercialization Minor

The Leventhal School of Accounting offers the Accounting Minor to students in all schools and departments except the Marshall School of Business.

In addition to the Marshall School minors listed above, Marshall participates with other USC academic units to offer a number of interdisciplinary minors:

- Advertising Minor
- Biotechnology Minor
• Innovation: The Digital Entrepreneur Minor
• Managing Human Relations Minor
• Mathematical Finance Minor
• Media Economics and Entrepreneurship Minor
• Performance Science Minor

Admission
Students may be admitted as incoming freshmen, as students transferring from another college or university, or as USC undergraduates transferring from another major. Admission to the Marshall School requires admission to the university and depends on academic performance, particularly in quantitative areas. USC students who have not been admitted to the major or a minor in the Marshall School may complete a maximum of 12 units from the Marshall School and/or the Leventhal School. Information and guidelines for students applying to USC Marshall as freshmen and those transferring to USC from another university are available at the USC Undergraduate Admission and USC Marshall Undergraduate Admissions websites. Admission to the Computer Science/Business Administration program requires admission to USC and the Viterbi School of Engineering. Information and guidelines for USC undergraduates who wish to transfer to Marshall from another major at USC can be found on the Marshall Undergraduate Advising website.

Transferring College Credit
Community College Courses
USC has established articulation agreements with most community colleges in California. Most academic courses are acceptable for transfer credit from a two-year school, but students will not receive credit for remedial course work. Courses that do not appear on the articulation agreement are not transferable. A maximum of 64 semester units may be transferred. There are university restrictions that apply to transferring course work from other institutions that may affect the above rule.

Official transcripts of college work taken elsewhere must be submitted at the time of application to the USC Office of Admission. ECON 351 x and ECON 352 gx must be taken in residence at USC, and all business courses completed at a two year college, if transferable, will be considered elective credit. There is one exception to this policy: Students may transfer two semesters of introductory accounting and receive credit equivalent to one semester of introductory accounting at USC. Then students can register for BUAD 305 Abridged Core Concepts of Accounting Information.

Four-Year Colleges
Most courses of an academic nature are acceptable for unit credit from all fully accredited four year institutions. If they do not satisfy specific subject requirements at USC, they will usually be accepted for elective course credit. Students are urged to complete all their required business courses at USC. ECON 351 x and ECON 352 gx must be completed at USC. All business courses from four year institutions, if transferable, will be considered elective credit unless a challenge examination is passed. All upper division core classes, with the exception of BUAD 497 Strategic Management and BUAD 425 Data Analysis for Decision Making, may be challenged. Students should consult with an academic adviser to initiate the challenge examination process.

Registration
Students register for Marshall courses using the Web Registration system, according to their scheduled appointment times. Appointment times are based on number of units completed. For example, seniors have the first opportunity to register. It is important to register as soon as one's appointment allows or priority standing will be lost. There are no waiting lists for Marshall undergraduate courses. USC students who have not been admitted to the Marshall School may complete a maximum of 12 units in the Marshall School and/or the Leventhal School.

Global Opportunities
The Marshall School offers students a variety of opportunities to cultivate a global perspective and intelligence. Classes like international trade and commercial policy, financial management of multinational corporations, international finance, multinational marketing, and international management practices and negotiation broaden students' understanding of managing a global business. Opportunities to travel and study outside the United States allow students to develop skills for functioning in different cultures, societies and economic environments, and to understand a wide variety of international business practices. Contact the offices of Undergraduate Student Services or Undergraduate Advising for information about international study opportunities at Marshall, including:

GLP/LINC/TIE
Students are encouraged to take advantage of one of Marshall's international experiential learning programs. Each includes a nine-day faculty-led trip to a city outside the United States, where students meet with business, political and civic leaders. The Learning about International Commerce (LINC) Program is a 2-unit class open to freshman students who apply. The Global Leadership Program (GLP) is a two-course sequence open by invitation to select first-year students in the incoming freshman class. GLP invitations are extended by the USC Marshall Undergraduate Admissions Office. The Transfer International Experience (TIE) Program consists of two 1-unit classes or one 2-unit class, open to transfer students who apply.

International Exchange Program
The international exchange program is a one-semester exchange program with a host institution in Asia, Australia, South America or Europe during either the fall or spring semester. Exposure to international cultures and practices in business and non-business settings provides another level of understanding of international business. Students complete between four to eight courses at the host institution (15–18 USC units). All instruction is in English, so foreign language proficiency is not required. Courses completed at the host school are graded credit/no credit on the student's USC transcript. The courses are selected from a list approved by the Marshall School of Business and satisfy the business elective requirement.
**International Summer Program**

The Marshall School offers unpaid international internship programs in London, Madrid, Dublin, Prague, Hong Kong, Milan and Singapore during the summer session. The program provides students with theoretical and practical experiences working and navigating within the international business environment. The program consists of an eight- to ten-week internship abroad. Funded internships in Bangkok and Jakarta are also offered.

**Research Opportunities**

BUAD 490 Directed Research provides an opportunity to pursue research above and beyond the normal course offerings. This course is open to juniors and seniors with a 3.0 or better grade point average who have obtained approval from a faculty sponsor, the department chair and the Office of Undergraduate Advising by the semester prior to enrollment. Units are assigned on a variable basis with a maximum of 12 units toward an undergraduate degree, 4 units per semester. Students may also work with faculty as research assistants.

**Marshall Honors Program**

Marshall Honors, available upon graduation to majors in business administration or accounting, provides a special designation of departmental honors on a student's transcript. Acceptance to the program requires completion of at least 64 units of course work (including transfer units), an overall GPA of at least 3.3, a GPA of 3.5 or higher in course work to be applied to the major, an application, and a successful interview. Achievement of Marshall Honors requires completion of BUAD 493 Marshall Honors Research Seminar prior to the senior year, completion of BUAD 494 Marshall Honors Research and Thesis during the senior year, and a minimum GPA of at least 3.5 in upper-division Marshall School and Leventhal School courses applied to the major. For additional information, contact the Office of Undergraduate Advising.

**Honor Societies**

Beta Gamma Sigma is the national honor society for business students. The Marshall School of Business chapter has been active since 1923. Juniors in the top 10 percent of the class and seniors in the top 10 percent of the class are invited to join. For further information, contact the Office of Undergraduate Advising.

**Marshall Undergraduate Advising**

Academic advisement is provided through the Office of Undergraduate Advising, which supports the education and development of undergraduate students by providing a broad array of academic support programs and services. Incoming freshman and new transfer students are required to meet with an academic adviser before registering, and this requirement is in effect until 24 USC units are completed. All students are encouraged to see an academic adviser on a regular basis, and continuing students may schedule appointments throughout the year.

The Marshall Connections Program (MCP) helps new students successfully transition to USC Marshall. MCP activities are designed to increase new students’ understanding of and engagement with academic support and career development resources by providing them with opportunities to connect with peers, faculty mentors, undergraduate program staff, alumni, and business professionals.

The Marshall Peer Tutoring Program (MPT) provides free group tutoring in select Marshall courses. MPT is a supplement to classroom instruction and is designed to assist students at all academic levels. Participating in MPT early and regularly supports student success and learning. The Marshall School offers a number of scholarships available to continuing students. Awards recognize academic excellence and/or outstanding service at Marshall, and provide funding applied toward tuition for one academic year.

**Marshall Undergraduate Student Services**

The Marshall School recognizes the importance of integrating education with experience. The Undergraduate Student Services Office, in cooperation with the USC Career Center, assists business school undergraduates with securing internships and full time positions and provides students with access to alumni. Students who actively participate in these programs maximize their opportunities for professional development and employment after graduation.

Students are also encouraged to participate in student organizations to build leadership, teamwork and networking skills. The Marshall School has more than 40 student organizations. The Student Services Office also offers 34 international exchange programs in Asia, Australia, South America and Europe. Through these programs, students spend a semester overseas and fulfill business elective requirements. The office also coordinates international summer internship programs and week-long international travel opportunities in Africa, Asia, South America and Europe.

**Graduate Programs**

**Graduate Degree Overview**

The Marshall School of Business prepares men and women to become leaders at every level of management. Today's successful businesses demand flexibility, innovation, creativity, teamwork and leadership from their employees. The Marshall School's goal is to help students meet those demands through a rigorous grounding in all functional areas
The Marshall School of Business offers seven graduate degrees: The Doctor of Philosophy (PhD), the Master of Business Administration (MBA), the Master of Science (MS) in Business Administration, Business Analytics, Entrepreneurship and Innovation, Finance, Global Supply Chain Management, Marketing, and Social Entrepreneurship, the Master of Business for Veterans (MBV), the Master of Management in Library and Information Science (MMLIS), the Master of Management Studies (MMS), and the Master of Medical Management (MMM). The Marshall School jointly sponsors a Master of Long Term Care Administration. Graduate certificates are also offered in business analytics, business fundamentals for non-business professionals, financial analysis and valuation, library and information management, management studies, marketing, optimization and supply chain management, strategy and management consulting, sustainability and business, and technology commercialization.

Admission Requirements
A bachelor's degree equivalent to a four-year U.S. undergraduate degree from an accredited institution (regardless of field or major) is required for admission to any graduate degree program at the Marshall School of Business. Successful performance in Marshall graduate programs requires computer proficiency in word processing, database management, electronic spreadsheets and business graphics. Following admission, Marshall Instructional Technology Services is available for additional preparation. Knowledge of calculus is a prerequisite to some of the courses offered by the Marshall School of Business. All applicants are required to submit the following documents: (1) completed application form; (2) a nonrefundable application fee; (3) responses to required essay questions; (4) history of full- and part-time work experience or resume; (5) one official transcript from the registrar of each college or university attended (undergraduate and postgraduate, if applicable) whether the degree was completed or not. If all college or postgraduate work has not been completed, transcripts must be sent again when work in progress is completed and the degree posted. Transcripts written in languages other than English must be accompanied by a certified English translation; if transcripts do not include a complete (MM/DD/YY) degree conferral date, degrees must be verified through IERF; and (6) letters of recommendation. (7) Most programs require Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) scores. Applicants must have taken the examination prior to submitting an application. It is recommended that unofficial copies of test scores be submitted as uploaded documents with the application in addition to having official scores sent to USC. (8) All international students who did not earn a 4-year bachelor's degree from a college or university in the United States, Canada, the United Kingdom, Ireland, Australia or New Zealand must submit recent scores from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS) or the Pearson Test of English Academic (PTE). Official test scores are sent by the testing services directly to USC, and unofficial copies can be uploaded as attachments to the application. Additionally, proof of financial support is required of admitted international applicants.

To ensure a place in a program and adequate time to receive an admission decision, it is important to send completed application materials well in advance of the semester for which the applicant wishes to register. For the non-traditional student, if work is still in progress to complete a bachelor's degree, the applicant must state specifically what courses are in progress, what must be done to finish and the estimated date of completion. Admission is contingent upon official verification of a bachelor's degree.

In their review of applications, admissions committees consider all of the applicant's completed academic work, test score, evidence of leadership and motivation, letters of recommendation, level of job responsibility and work history, and unique talents and contributions. Applicants are reviewed on their potential for successful performance in graduate business studies and their competitiveness within the current applicant pool. Additional program-specific admission criteria are available on each program's Website. Links are available at marshall.usc.edu/masters.

Doctor of Philosophy (PhD)
The Doctor of Philosophy program in business administration is designed to produce research-oriented graduates who, from positions in academia, can advance business practice and enhance the contributions that businesses make to the larger community. These goals can be advanced through research contributions in theory, concepts, methods and practices, and education of the next generation of business leaders. For more information see Business Administration (PhD).

Master of Business Administration (MBA)
MBA students gain an understanding of the forces confronting business around the world and are encouraged to take an active role in making a difference — to seek out opportunities for personal and professional growth and to empower others in the pursuit of shared goals. The Master of Business Administration is offered through five distinct programs.

While the five programs are designed to meet the needs of different types of students, all programs have the same goals: providing students with the skills and knowledge necessary to become effective leaders; developing a thorough understanding of business fundamentals such as economics, accounting, finance, marketing and operations; and refining basic skills, such as use of information systems and statistical analysis. Each student is challenged to develop self-understanding and an appreciation for the complexities of organizations.

Full-Time MBA Program
The Marshall MBA program is designed for individuals who can leave the world of work and immerse themselves "full time" in two years of graduate education. It provides a foundation for success that balances theory with real-world application.
During the first year, a "hands-on" approach to leadership and business education combines case analysis, management simulations, executive seminars and international travel with traditional methods for establishing a conceptual understanding of the general management role in a global context. Elective options in the second semester allow students to complement the core curriculum with individualized interests. Summer internships help students apply their knowledge in practice and prepare for the job market.

In year two, students continue to chart their own course of study. A wide array of elective courses offers students immersion in specific functional areas, disciplines and industries. The selection allows students to gain an in-depth understanding of a particular subject or to continue to pursue a broad-based management education. See the Full-time MBA Program.

**Part-Time MBA Program for Professionals and Managers**
The MBA Program for Professionals and Managers (MBA.PM) allows fully employed individuals to pursue an MBA degree while continuing their career development. Students can pursue the first year of study at the University Park Campus or at the USC Orange County Center in Irvine. Elective course work is completed mainly on the University Park Campus. The curriculum, offered in the evening, is similar to the curriculum offered to full-time MBA students but is modified to allow completion of the program in 33 months. See the MBA Program for Professionals and Managers.

**International MBA Program (IBEAR MBA)**
The IBEAR MBA is a mid-career international MBA emphasizing trade and investment in and between the Americas and Asia in particular. Participants complete the equivalent of two years of intensive MBA study and return to their careers in 12 months.

In addition to an internationalized set of core courses, the program includes elective course offerings on international management, international financial management, global e-business, global marketing strategy, international trade, politics for global management and global strategy. The program features a two-term international business consulting project, a cross-cultural team-building retreat, a visiting international expert speaker series and participation in Marshall's annual Asia/Pacific Business Outlook Conference.

IBEAR MBA graduates join a network of well-placed alumni in more than 50 nations. See the International MBA Program.

**Online MBA Program**
The Online MBA (OMBA) program enables students to develop expertise in business administration, management and leadership through a rigorous course of study, most of which is delivered using flexible online technologies. The program content covers business fundamentals including accounting, economics, finance, data sciences, marketing, management, operations and entrepreneurship; communication and analytics training are interwoven with the entire program. The program takes advantage of distinctive educational opportunities offered by online technologies, both in terms of teaching methods and content and helps students to increase their effectiveness as business leaders, corporate managers and entrepreneurs.

The program is structured so that it can be completed in as little as 21 months. Students can work through much of the material on a flexible schedule customized to their own needs, making the program especially convenient to students who are currently employed and wish to remain at their jobs while enrolled. Content is delivered by faculty members with strong backgrounds in practice and research from different disciplines teaching in a team format to integrate understanding of business fundamentals, internal and external operations, business environments and leadership. See the Online MBA Program.

**Executive MBA Program**
The Executive MBA program provides those with significant work experience, particularly mid- to senior-level professionals who have high potential as business and industry leaders, a chance to complete an MBA on Fridays and Saturdays over a two-year period without interrupting their careers. The program is offered on the University Park Campus in downtown Los Angeles as well as in San Diego.

This program uses a non-traditional, interdisciplinary approach to executive and management education through "themes" that integrate various functional areas and address classic, yet dynamic business issues. Through the integrated curriculum, participants develop a complete understanding of decision-making, a focus on the future and the international context of business as well as strong interpersonal, leadership and analytical skills. More specifically, participants achieve advanced skills in corporate and international finance, marketing, environmental and strategic analysis, information technology, organizational leadership, managerial communication and corporate relations. Core faculty include the school's most senior, experienced members as well as nationally renowned academic and business specialists. The program includes three residential off-site experiences — two domestic and one international. See the Executive MBA Program.

**Global Executive MBA Program (GEMBA)**
The Global Executive MBA program (GEMBA) in Shanghai is designed for rising business leaders throughout East Asia and the Pacific Rim who seek a U.S.-style business education with a global perspective. GEMBA provides a unique opportunity for networking and personal development within the framework of an increasingly competitive Asian market.

GEMBA mirrors the long-standing Marshall Executive MBA program, employing a nontraditional, interdisciplinary and integrated approach to executive and management education through "themes" that integrate various functional areas and address classic, yet dynamic business issues. Core faculty include the school's most senior, experienced members as well as renowned academic and business specialists.

Through the integrated curriculum, participants develop a complete understanding of decision-making, a focus on the future and the international context of business as well as strong interpersonal, leadership and analytical skills. More specifically, participants achieve advanced skills in corporate and international finance, marketing, environmental and strategic analysis, information technology, organizational
leadership, managerial communication and corporate relations.

USC Marshall offers GEMBA in partnership with the Antai College of Economics and Management at Shanghai Jiao Tong University in China. Because classes meet in both Shanghai and Los Angeles, students must be able to participate fully in the travel requirements of the program. Classes are taught in English. See the Global Executive MBA Program.

**Dual MBA Degree Programs**

Dual degree programs offer graduate students the opportunity to complete concurrently the requirements for two separate degrees with modified degree requirements. Admission criteria for applicants to dual degree programs co-sponsored by the Marshall School of Business are the same as Master of Business Administration program admission criteria.

Dual degree programs may be completed in conjunction with the Marshall MBA, MBA.PM or IBEAR MBA programs. Students interested in completing a dual degree program should apply to the specific MBA program suited to the individual's needs.

The Marshall School offers the MBA in conjunction with a number of other programs at USC:

- Master of Business Administration/Master of Arts in East Asian Area Studies (MBA/MA)
- Master of Business Administration/Doctor of Education (MBA/EdD)
- Master of Business Administration/Master of Science in Gerontology (MBA/MS)
- Master of Business Administration/Master of Science in Industrial and Systems Engineering (MBA/MS)
- Master of Business Administration/Master of Arts in Jewish Nonprofit Management (MBA/MA)
- Juris Doctor/Master of Business Administration (JD/MBA)
- Master of Business Administration/Doctor of Medicine (MBA/MD)
- Master of Business Administration/Doctor of Pharmacy (MBA/PharmD)
- Master of Business Administration/Master of Planning (MBA/MPI)
- Master of Business Administration/Master of Real Estate Development (MBA/MRED)
- Master of Business Administration/Master of Social Work (MBA/MSW)

**Specialized Master's Degrees**

**Master of Accounting**

The Master of Accounting (MAcc) program provides an integrated curriculum designed to prepare graduates for careers in professional accounting, public accounting, industry and government. For more information, visit Accounting (MAcc).

**Master of Science in Business Analytics**

The Master of Science in Business Analytics is designed for managers who want to develop their analytical skills and recent college graduates with strong analytical skills who are interested in pursuing a career in business analytics. The program provides students with tools, ideas and frameworks that will aid them in making business decisions in a scientific manner, based on actual data, to improve the performance of their organization. See Business Analytics (MS).

**Master of Business Taxation**

The Master of Business Taxation (MBT) program is designed for accountants, attorneys and business professionals who wish to learn or improve skills and knowledge through participation in advanced tax study. For more information see Business Taxation (MBT) and Business Taxation for Working Professionals (MBT).

**Master of Science in Entrepreneurship and Innovation (MS)**

The Master of Science in Entrepreneurship and Innovation is designed to develop the entrepreneurial knowledge, skill sets, and decision-making frameworks required to recognize and evaluate business opportunities and to create and guide a new entrepreneurial entity either individually or within a larger organization. The program is intended for students seeking to pursue careers in entrepreneurship, corporate venturing and innovation, or technology commercialization. The degree can be completed on either a full-time basis in one year or on a part-time basis over two years, and classes are offered primarily at night to accommodate the needs of working professionals. For more information see Entrepreneurship and Innovation (MS).

**Master of Science in Finance (MS)**

The Master of Science in Finance is designed to provide individuals with the necessary skills and knowledge to become experts in finance and thus advance their careers in business. The program is exceptionally well suited to individuals completing a bachelor's degree who are seeking an opportunity to continue their studies at USC for one year and earn a master's degree in finance before entering the workforce. It is also well suited to those who have earned or soon will earn a master's degree and wish to earn a second master's degree. For more information see Finance (MS).

**Master of Science in Global Supply Chain Management (MS) for Executives (Online)**

The Marshall School of Business offers individuals across the U.S. and around the world an opportunity to expand their knowledge of management of the ever-changing world of global supply chains. The program provides managers with tools, ideas and frameworks that will aid them in improving the performance of the global supply chains that they manage. Courses are broadcast via distance learning technologies so that, with the exception of two international travel experiences, the degree can be completed through the Internet. Additional in-person instructional activities are provided at partner institutions. Two international travel experiences to global distribution hubs are included in the program. In-person midterms and final exams may be required for some courses, in which case they will be
administrated in cities near student population concentrations. See Global Supply Chain Management for Executives (MS) (Online).

Master of Science in Global Supply Chain Management (MS) (On-Campus)
The Marshall School of Business, jointly with the Viterbi School of Engineering, offers individuals an opportunity to expand their knowledge of the management of global supply chains. The program focuses on teaching the necessary knowledge and skills in areas like inventory management; sustainable supply chains; strategic procurement; outsourcing; logistics and distribution; information technology and its role in managing global supply chains; and supply chain optimization. This 27-unit on-campus program can be completed on a full-time basis in one calendar year. See Global Supply Chain Management (On-Campus/Residential) (MS).

Master of Management in Library and Information Science (MMLIS)
The Master of Management in Library and Information Science program is designed to educate professional librarians for leadership from every level of the organization in academic, urban and corporate environments. Graduates will identify and analyze critical issues and leverage resources and expertise to build community assets. The program is taught entirely online. See Library and Information Science (MMLIS).

Master of Long Term Care Administration
This program is designed to prepare competent individuals to administer the long term needs of America's elderly population. It is jointly offered by the USC Davis School of Gerontology, the Marshall School of Business, and the USC Price School of Public Policy. For information, see the USC Davis School of Gerontology.

Master of Science in Marketing (MS)
The Master of Science in Marketing is designed to develop an in-depth knowledge of relevant and innovative marketing skills and techniques for prospective students interested in pursuing a career in marketing or enhancing their existing marketing career. The degree can be completed on full-time basis in one calendar year or part-time. Classes are available during both daytime and evening hours. For more information see Marketing (MS).

Master of Medical Management (MMM)
This program is designed for physicians in the medical field who wish to gain formal business knowledge and develop critical thinking skills. Significant project and course work is completed primarily through distance learning venues. The program consists of four one-week intensive residential sessions. See Medical Management (MMM).

Master of Science in Social Entrepreneurship (MS)
The Master of Science in Social Entrepreneurship gives students the opportunity to learn business and entrepreneurship skills within a framework of combining both financial and social missions. The program can be completed in one year (full-time students) or two or more years (part-time students). Courses are offered on the University Park Campus in downtown Los Angeles in the evenings and on weekends. For more information see Social Entrepreneurship (MS).

Master of Science in Social Entrepreneurship/Master of Public Health (MSSE/MPH) Dual Degree Program
The Marshall School of Business and the Keck School of Medicine leverage resources and expertise with this program designed for students who want to gain the skills to make sustainable change in the field of public health. By combining fundamental business and entrepreneurship skills with the expertise gained through the Master of Public Health, graduates will be uniquely equipped to address global health challenges. For more information see Public Health (MPH)/Social Entrepreneurship (MS).

Master of Business for Veterans (MBV)
This program is designed for veterans who wish to gain formal business knowledge and develop critical thinking skills to manage or grow a business. Significant project and course work is completed during the two-semester program. Class sessions meet over 16 full-day sessions each semester, offered on the University Park Campus in downtown Los Angeles. See Business for Veterans (MBV).

Master of Management Studies (MMS)
The Master of Management Studies is designed to provide students who have completed graduate business course work equivalent to the first year of a traditional two-year MBA program with an opportunity to pursue further studies at the USC Marshall School of Business. The program is especially valuable for those who have completed the first year of a traditional MBA at another institution and those who completed one-year MBA programs and wish to enhance their knowledge in specialized areas of business. The degree can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. See Management Studies (MMS).

Master of Science in Business Administration (MS)
The Master of Science in Business Administration is designed to provide students with an opportunity to pursue an area of specialization subsequent to successfully completing the Master of Business Administration (MBA). The program is especially valuable for those who wish to enhance their knowledge base in a specialized area of business. In cooperation with a faculty member, the student in this program designs a course of study to meet his or her individual needs. The degree can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. See Business Administration (MS).

Master of Science in Business Research (MS)
The Master of Science in Business Research is designed to provide an alternative for Marshall PhD students. Marshall does not accept applications for admission to this program. See Business Research (MS).

**Graduate Certificate Programs**

**Graduate Certificate in Business Analytics**
The Graduate Certificate in Business Analytics is designed for individuals who want to develop the analytical skills needed to work with today's complex data sets in the support of business decision-making. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. See Business Analytics Graduate Certificate for more information.

**Graduate Certificate in Business Fundamentals for Non-Business Professionals**
The Graduate Certificate in Business Fundamentals for Non-Business Professionals is designed for individuals who hold undergraduate degrees in non-business fields and seek core business knowledge to support management responsibilities or relationships with business professionals but who are not likely to pursue an MBA. It is best suited to mid- and senior-level managers, professional and technical specialists assuming management responsibilities, those seeking improved career mobility, individuals returning to the work force and small business owners. The program provides a basic introduction to the major disciplines within the field of business, common business practices and effective business communication. Classes are offered primarily at night to accommodate the needs of working professionals. See Business Fundamentals for Non-Business Professionals Graduate Certificate for more information.

**Graduate Certificate in Financial Analysis and Valuation**
The Graduate Certificate in Financial Analysis and Valuation is designed to offer students the intensive instruction and training needed to successfully compete in rapidly developing global financial markets. Course work in the fundamental theories and practice of financial accounting, financial analysis, valuation, credit analysis, and financial instruments and markets expands analytical capacities to better understand and develop strategic financial decisions. See Financial Analysis and Valuation Graduate Certificate for more information.

**Graduate Certificate in Library and Information Management**
The online Graduate Certificate in Library and Information Management is uniquely designed to serve both those who are looking to explore library and information management without committing to an entire degree and those who currently hold the equivalent MLIS degree looking to specialize in a specific aspect of the field. See Library and Information Management Graduate Certificate for more information.

**Graduate Certificate in Management Studies**
The Graduate Certificate in Management Studies is designed to provide students who have completed graduate business course work equivalent to the first year of a traditional two-year MBA program with an opportunity to pursue further studies at the USC Marshall School of Business. The program is especially valuable for those who have completed the first year of a traditional MBA at another institution and those who completed a one-year MBA program and wish to enhance their knowledge in specialized areas of business. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. See Management Studies Graduate Certificate for more information.

**Graduate Certificate in Marketing**
The Graduate Certificate in Marketing is designed for individuals who want to develop the analytical and technical skills needed to work with today's complex marketing issues in the support of effective business decision-making. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. See Marketing Graduate Certificate for more information.

**Graduate Certificate in Optimization and Supply Chain Management**
The Optimization and Supply Chain Management Program is offered by the Marshall School of Business in partnership with the Viterbi School of Engineering. The program offers individuals opportunities to expand their knowledge of the rapidly expanding uses of technology in the management of global supply chains. The certificate may be completed on either a full- or part-time basis. Most classes applicable to the program are offered during both daytime and evening hours. Many of the ISE courses included in the curricula are available online. See Optimization and Supply Chain Management Graduate Certificate for more information.

**Graduate Certificate in Strategy and Management Consulting**
The Graduate Certificate in Strategy and Management consulting is designed for individuals who want to develop the analytical skills needed to consult on complex strategic and organizational issues in support of effective business renewal. The certificate can be completed on either a full- or part-time basis, and classes are available during both daytime and evening hours. See Strategy and Management Consulting Graduate Certificate for more information.

**Graduate Certificate in Sustainability and Business**
The Graduate Certificate in Sustainability and Business is designed to offer individuals the instruction and training they need to help shape solutions to social and environmental sustainability challenges, both from within and from outside the business sector. Course work includes sustainability strategies and practices, business law and ethics, and sourcing management. The program is suited to students coming from a broad range of backgrounds. Applicants do
not need to be matriculated USC students to undertake the program. Anyone who holds a four-year bachelor's degree is welcome to apply. See Sustainability and Business Graduate Certificate for more information.

Graduate Certificate in Technology Commercialization
The Graduate Certificate in Technology Commercialization, offered through the Lloyd Greif Center for Entrepreneurial Studies, provides technology commercialization skills in an academic/real world environment that combines theory and practice. Through a living laboratory academic program, students experience the entire spectrum of the commercialization process: invention, product development, technical and market feasibility analysis, intellectual property acquisition, business development and venture funding. Working with USC scientists and engineers, students have the potential to become stakeholders in a new technology venture. They are also eligible to apply for summer internships sponsored by industry partners to give them additional experience in taking a new technology to market. The program is particularly well suited to those in science, engineering and business. See Technology Commercialization Graduate Certificate for more information.

Academic Policies — Master's Programs

Waivers
Subject waiver of required courses may be granted to students based on prior academic work subject to university policy limitations and in some cases by examination. All waived courses must be replaced with electives. Further information regarding the waiver policy in the Marshall School of Business may be obtained from the program adviser for the applicable degree program following admission.

Change of Degree Program
Students who are currently enrolled in one degree program who wish to change their degree status to another program must formally apply for admission to that program through the Admission Office for the applicable program. Details concerning individual student requirements in other degree programs may be obtained by contacting the applicable program office.

Continuous Enrollment/Leave of Absence/Withdrawal/Reinstatement
Once admitted to a graduate degree program, the student must enroll at USC each fall and spring semester each year until she or he has satisfactorily completed all degree requirements. MBA.PM students must enroll at USC each fall and spring semester and summer session each year until they have satisfactorily completed all degree requirements. If for military, medical, religious or job-related reasons a student must skip a semester, the student must petition for a leave of absence. The petition should be submitted to the student's program adviser no later than the first day of class for the semester of the leave. Leave of absence request forms are available by electronic mail, fax or hard copy.

If granted, the period of leave is not counted in the time allowed for the completion of degree requirements, and the student is allowed to complete the degree requirements in effect when he or she was originally admitted. Once a leave is approved, it is the student's responsibility to withdraw from any classes for which the student has already enrolled. An approved leave may not exceed one academic year. A student whose leave exceeds one academic year or who fails to maintain continuous enrollment without obtaining an approved leave must, when ready to return to school, apply for readmission to the program. Applications for readmission are available by email, fax or hard copy. Contact the program adviser for the applicable program.

Students who must completely withdraw from a program must notify their program office of their withdrawal from the program. Students should contact their program office for more information or assistance.

Marshall School of Business Second Master's Degree Policy
A "second master's degree" is any master's degree pursued after a first master's degree is earned at USC. The maximum number of units which may be applied from a master's degree previously completed at USC toward a subsequent Marshall master's degree is 3 units. This policy also applies when two master's degrees are being completed simultaneously. No more than 3 business-related units can be applied from the other master's degree. (This Marshall unit maximum supersedes any USC unit calculations related to second master's degrees.) Second master's degrees are not allowed in the same program of study for students who earned their first master's degree at USC.

For students who earned their first master's degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master's degree. No individual exceptions are allowed.

Course Work at Another Institution
Once matriculated into a Marshall School of Business program, a student must receive prior permission by petition from the appropriate Marshall program office to take course work (a maximum of six units) at another institution. Only course work from an AACSB accredited business school can be accepted. A grade of B or better must be earned. Permission is granted only in exceptional circumstances.

Limited Status
The Marshall School of Business does not allow students to take graduate (500-level) electives on any conditional or special status basis prior to application and an official admission decision except under the following condition: students completing a Master of Business Administration program at another accredited university outside of the Los Angeles area may take up to 12 units in the Marshall School of Business to complete their degrees, provided that a letter from the associate dean or program director at a student's university verifies that the student is in good academic standing and identifies the classes that will be accepted for credit by the university granting the degree.

Grade Point Average Requirements
Master's students must maintain a grade point average of 3.0 (A = 4.0) or better to stay in good academic standing.
Students who are not in good academic standing are subject to dismissal.

**Grades**

Grades below C (2.0) in all master's degree courses are not acceptable. If a lower grade is earned in a required course, the course must be repeated at USC and a grade of C or above must be earned. Degree credit will not be given for courses with grades of C- and below, but the grades are computed into the grade point average. Such courses should be repeated in the next semester in which the course in question is offered and must be repeated within one calendar year. Satisfactory completion of all required courses must occur prior to or concurrently with the beginning of advanced course work.

**Academic Warning**

Master's students who, in a term, do not earn or maintain a 3.0 (A = 4.0) grade point average are placed on academic probation. Continued enrollment in the program requires the permission of the academic director of the program. Students who fail to achieve a 3.0 upon completion of the required number of units for any degree may, with the prior permission of the academic director of the program, be allowed to take a maximum of 12 additional units at USC to obtain the required GPA. Petitions to take additional units should be submitted to the student's program advisor well in advance of the term in which additional units will be attempted.

**Dismissal**

A student may be dismissed from a master's program whenever, in the judgment of the program's Academic Director, it is unlikely that the student will successfully complete his or her program.

---

**Department of Data Sciences and Operations**

The department of Data Sciences and Operations (DSO) offers courses in operations management, statistics and information systems. These three areas are critical to the success of any firm in a globalized economy: technology and information management, gathering and understanding data, and effective management of day-to-day operations. Students learn to leverage technology and information systems to gather critical market data on a global basis; use statistics to turn this data into critical forecasts and competitive analysis; and manage projects with international teams, develop innovative products, and skillfully manage the creation and delivery of goods and services to anywhere on the globe. Career opportunities in these areas include consulting, product development, supply chain management, global marketing and manufacturing. Course work in this department is especially important to students interested in entering technology fields.

**Lloyd Greif Center for Entrepreneurial Studies**

The Greif Center offers a wide range of courses in entrepreneurship designed for students who want to start or own a high-growth business, join an emerging business or participate in an entrepreneurial venture in a mature corporation (intrapreneurship). Students can develop an entrepreneurial mindset, gain confidence that they can be successful entrepreneurs, learn about the entrepreneurial process and enhance their conceptual and practical skills to
pursue new business opportunities. Wide exposure is given to all types of entrepreneurs and industries. The highly experiential courses span the entrepreneurial process from opportunity discovery to venture initiation, growth and exit, and are designed to teach relevant frameworks and theory as well as to develop an entrepreneurial mindset and skills through hands-on application. The Greif Center also offers co-curricular programs such as venture competitions, speaker events and a new venture incubator, and it actively provides contact with and support for its alumni.

Department of Finance and Business Economics

The department of Finance and Business Economics (FBE) offers classes in the fields of finance, business economics, business law and real estate. Subjects include microeconomics, macroeconomics, economic forecasting, corporate finance, investments and valuation, financial institutions and markets, risk management, and real estate finance, among others. These subjects are important for business planning and consulting, evaluation of capital investments and corporate strategies, and securities investment analysis, advising and trading.

Department of Library and Information Science

Library and Information Science

The USC Libraries, in conjunction with the Marshall School of Business offers the Master of Management in Library and Information Science degree and the Graduate Certificate in Library and Information Management. These programs are uniquely designed to prepare professionals with the practical leadership skills needed to manage libraries and information centers within colleges and universities, businesses, governmental organizations and in the digital world. These programs are offered entirely online.

Department of Management and Organization

The department of Management and Organization (MOR) offers courses in human resources, negotiations, organizational behavior, organization theory and management strategy. The management function is concerned with setting corporate strategy to gain competitive advantage in a dynamic, global environment; designing the organization to implement the strategy; and leading organizational members to achieve strategic objectives. In carrying out their responsibilities, managers must balance the demands of the competitive environment with the resources and capabilities inside the organization. The department's classes help students learn how to be effective managers by developing skills in team building, decision-making, strategy formulation, organizational design, motivating employees and human resource development.

Center for Management Communication

*Recipient of university-wide or school teaching award.
The academic Center for Management Communication offers core and elective classes in a variety of topics relating to interpersonal, internal and external communication in organizations, business writing and presentations, group and team communication processes, persuasion and leadership. Courses also focus on critical thinking and decision-making processes, cross-cultural business communication, and ethics. The importance of effective communication to the success of organizations and their stakeholders has increased exponentially in the age of globalization and the Internet. New media technologies are changing communication at the workplace and influencing how business is conducted. Understanding communication theory, concepts, practice and skills will help students advance themselves and their organizations regardless of their positions or industries. The ability to communicate strategically in times of calm or crisis is essential for career success.

Department of Marketing

Marketing is the process of planning and executing the conception, pricing, promotion and distribution of ideas, goods and services to create exchanges that satisfy individual and organizational objectives. Modern marketing stresses research and analysis to understand consumer behavior and to identify customer needs, new product research and development, competitive pricing, coordinated promotional or sales programs, and efficient logistics and distribution. Students interested in careers in marketing management, logistics management, retailing or wholesaling, sales program administration, advertising or marketing research will find courses in marketing valuable.

Faculty

Professors of Clinical Management Communication: Jolanta Aritz, PhD; Sandra Chrysal, PhD*; Ellen- Linnea Dipprey, MPW; Lucy Lee, PhD*; Greg Patton, PhD*
Associate Professors of Clinical Management Communication: Stephen Byars, PhD; Pete Cardon, PhD*; Lee Cerling, PhD; Stacy Geck, MA*; Sharoni Little, PhD*; Sky Marsen, PhD; James Owens, MA; Marion Philadelphia, EdD*; Kirk Snyder, MA*; Robyn Walker, PhD; Naomi Warren, PhD*
Assistant Professors of Clinical Management Communication: Jerry Giaquinta, PhD; Daylanne Markwardt, PhD; Sabrina Pasztor, PhD
Lecturers: Clark C. Hansen, MA; Janna Wong-Healy, MPW
Emeritus Professors: J. Douglas Andrews, PhD; Paul Frommer, PhD; James Gosline, MPW

*Recipient of university-wide or school teaching award.
The USC School of Cinematic Arts (SCA) is one of the nation's preeminent centers for the creation, study, research and development of film, television and interactive media. With nearly 200,000 square feet of facilities, the school confers degrees ranging from the bachelor's to the doctorate. SCA is composed of seven divisions: the John C. Hench Division of Animation and Digital Arts; the Bryan Singer Division of Cinema and Media Studies; Film and Television Production; Interactive Media and Games; Peter Stark Producing Program; Writing for Screen and Television; and Media Arts and Practice. The school also has two organized research units — the Institute for Multimedia Literacy and the Entertainment Technology Center.

Since its founding in 1929 as the first course of study in film at any college or university in the United States, USC's cinema program has consistently set academic and professional standards for excellence. In addition, the school has a record-breaking number of endowed chairs in the discipline; production facilities that rival industry counterparts and extraordinary faculty and staff.

Thanks to SCA's location in Los Angeles, students have access to the country's leading film, television, animation and video game producers; world-class literary and talent agencies; libraries and archives brimming with research materials; and alumni that support the school and the men and women in its academic body. The school is also home to USC's Trojan Vision Station.

SCA is composed of seven divisions: the John C. Hench Division of Animation and Digital Arts; the Bryan Singer Division of Cinema and Media Studies; Film and Television Production; Interactive Media and Games; Peter Stark Producing Program; Writing for Screen and Television; and Media Arts and Practice. The school also has two organized research units — the Institute for Multimedia Literacy and the Entertainment Technology Center.

Since its founding in 1929 as the first course of study in film at any college or university in the United States, USC's cinema program has consistently set academic and professional standards for excellence. In addition, the school has a record-breaking number of endowed chairs in the discipline; production facilities that rival industry counterparts and extraordinary faculty and staff.

Thanks to SCA's location in Los Angeles, students have access to the country's leading film, television, animation and video game producers; world-class literary and talent agencies; libraries and archives brimming with research materials; and alumni that support the school and the men and women in its academic body. The school is also home to USC's Trojan Vision Station.

The USC School of Cinematic Arts recognizes that a student can only truly excel in his or her chosen area of expertise after exposure to all elements of the art form. Consequently, there is an emphasis on cross-disciplinary course work that ensures writers get behind the camera; critical studies scholars edit footage; and production majors examine the canon from a rigorous academic perspective.

The USC School of Cinematic Arts offers professional and academic degree programs at the bachelor’s, master’s and doctoral levels.

Bachelor of Arts — Animation and Digital Arts

This program combines a broad liberal arts background with specialization in a profession. The degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units. For more information, see below.

Bachelor of Arts, Cinema and Media Studies

This degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts and requires 128 units. For more information, see below.

Bachelor of Fine Arts, Cinematic Arts, Film and Television Production

This degree is a two-year program for transfer students. The BA is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts and requires 128 units. For more information, see below.

Bachelor of Fine Arts, Cinematic Arts, Film and Television Production

This degree is a four-year program only available to incoming freshmen. The BFA in Cinematic Arts, Film and Television Production is granted through the School of Cinematic Arts and requires 128 units. For more information, see below.

Bachelor of Arts — Interactive Entertainment

The Bachelor of Arts in Interactive Entertainment is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units. For more information, see below.

Bachelor of Arts — Media Arts and Practice

This program is for students who want to harness the power of digital storytelling and media design to communicate across diverse fields beyond the entertainment industry. This degree is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. The degree requires 128 units. For more information, see below.

Bachelor of Fine Arts — Writing for Screen and Television

This is a unique program designed for students who wish to receive intensive training for non-fiction and fiction writing
for screen and television. The BFA in Writing for Screen and Television is granted through the School of Cinematic Arts. The degree requires 128 units. For more information, see below.

**Bachelor of Science in Business Administration (Cinematic Arts)**

This program offers a unique coupling of the USC Marshall School of Business and the School of Cinematic Arts in a four-year interdisciplinary degree. In addition to the Marshall School of Business core classes, the students will also take a total of 24 units from the School of Cinematic Arts. This competitive program is offered to freshmen admitted to the Marshall School of Business as Business Scholars. Upon completion of all requirements, students will receive a Bachelor of Science in Business Administration (Cinematic Arts). See the Marshall School of Business for course requirements.

**Master of Arts, Cinema and Media Studies**

This degree is granted by the USC Graduate School in conjunction with the School of Cinematic Arts. This program requires 36 units. For more information, see below.

**Master of Arts, Cinematic Arts (Media Arts, Games and Health)**

This program requires 36 units. For more information, see below.

**Master of Fine Arts, Cinematic Arts, Film and Television Production**

This professional degree requires 52 units. For more information, see below.

**Master of Fine Arts, Writing for Screen and Television**

This program requires 44 units. For more information, see below.

**Master of Fine Arts, Animation and Digital Arts**

This program requires 50 units. For more information, see below.

**Master of Fine Arts, Interactive Media**

This program requires 50 units. For more information, see below.

**Master of Fine Arts, Interactive Media (Games and Health)**

This program requires 50 units. For more information, see below.

**Master of Fine Arts, Producing for Film, Television, and New Media**

The Peter Stark Producing Program requires 44 units. For more information, see below.

**Doctor of Philosophy, Cinema and Media Studies**

The PhD is based on a program of study and research culminating in the completion of a dissertation in the major field of study. A minimum of 68 semester units (exclusive of dissertation registration) beyond the baccalaureate is required. Applicants who have completed a Bachelor of Arts or Master of Arts degree in Cinematic Arts, or a closely related field, may apply to the PhD program. The doctoral degree is granted by the Graduate School in conjunction with the School of Cinematic Arts. For more information, see below.

**Doctor of Philosophy, Cinematic Arts (Media Arts and Practice)**

The PhD in Media Arts and Practice program offers a rigorous and creative environment for scholarly innovation as students explore the intersection of design, media and critical thinking while defining new modes of research and scholarship for the 21st century. Core to the program is its transdisciplinary ethos; after completing foundational course work, students design their own curricula, drawing on expertise across all divisions and research labs within the School of Cinematic Arts. The doctoral degree is granted by the Graduate School in conjunction with the School of Cinematic Arts.

**Writing for Screen and Television Certificate**

The Writing for Screen and Television Certificate provides an established writer, domestic or international, with a one-year program of study. It is meant to accommodate a writer who has already attained significant recognition and would like to learn the craft of screenwriting. Sixteen units are required. For more information, see below.

**Graduate Certificate in the Business of Entertainment**

This certificate program provides graduate-level education in various aspects of the business of film, television and new media. It requires 16 units. For more information, see below.

**Graduate Certificate in Digital Media and Culture**

This certificate program is for graduate students from across the USC campus who want to explore the shifting nature of scholarly expression, pedagogical practice and research in the 21st century. It combines seminars with hands-on, lab-based workshops devoted to basic image manipulation, video editing, social media and Web design to facilitate sophisticated critical thinking and practice in and through multimedia. The program requires 12 units. For more information, see below.

**General Requirements**

**Acceptance of Transfer Units**

The School of Cinematic Arts does not accept courses taken in film and/or television production at other institutions to fulfill degree and minor requirements. Basic film or television history courses can sometimes be accepted for transfer credit.

No transfer credit will be accepted in lieu of CTPR 290, CTPR 294, CTPR 295, CTPR 310, CTPR 507 and CTPR 508 and any advanced production courses.

No transfer credits are accepted for the Peter Stark producing track, the graduate programs in animation and digital arts, screenwriting and interactive media.
Transfer policy for the PhD requires advisement and approval of the division chair.

**Waiver of Course Requirements**
Under special circumstances waivers and substitutions are granted; check with the Cinematic Arts Office of Student Affairs. All course waivers and substitutions must be approved by the associate dean of academic affairs. The following courses cannot be waived for students majoring in Film and Television Production: CTIN 584a, CTIN 584b, CTIN 584c, CTIN 584z, CTPR 290, CTPR 294, CTPR 295, CTPR 310, CTPR 480, CTPR 507, CTPR 508, CTPR 546L, CTPR 547L, CTPR 581a, CTPR 581b, CTPR 581c, CTPR 581z, CTPR 582a, CTPR 582b, CTPR 582z, CTPR 583, CTPR 587a, CTPR 587b, CTPR 587c, CTPR 587z.

**Student Advisement**
Each program has its own advisement system. Check with the program administrator or with the Cinematic Arts Office of Student Affairs. Cinematic Arts student affairs counselors are available to answer questions about degree programs, grades, advisement and other matters.

**Grade Point Average Requirements**
A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses in order to progress to the next course level. Students may attempt to improve a grade lower than a C (2.0) only one time by registering and retaking the specific course. Departmental approval is required in order to retake a School of Cinematic Arts course. In addition, a minimum grade point average must be achieved to earn all cinematic arts degrees (see the individual program descriptions). For example, undergraduates and graduates must earn a minimum grade of C (2.0) in all required cinematic arts courses. However, graduate students must also achieve a B (3.0) average in all courses required for the degree.

Undergraduate students in the film and television production program who achieve a grade lower than a C (2.0) in CTPR 290 (BFA only), CTPR 294, CTPR 295 and CTPR 310, and graduate students in the production program who earn a grade lower than a C (2.0) in CTPR 507 and CTPR 508 may petition to retake the required sequence only once. Permission to retake any prerequisite or core production courses requires prior departmental committee approval. Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

**Tuition and Fees (Estimated)**
Students in the School of Cinematic Arts’ graduate programs pay differential tuition (see the Tuition and Fees section for current tuition rates). Undergraduate programs are assessed the university-wide tuition rate with a once-a-semester access fee of $50. In addition, some classes are charged lab fees, as noted in the Schedule of Classes, and insurance fees. The university reserves the right to assess new fees or charges. The rates listed are subject to change without notice by action of the Board of Trustees.

**Minor and International Programs**

**Minor in Animation and Digital Arts**

The minor in animation offers students an introduction to the theory and practice of animation, including its relationship to the history of art and cinema, creative writing, and basic film production. It provides students with an opportunity to create both personal and collaborative work in a wide range of genres, from traditional character to contemporary experimental and computer animation. The program requires 24 units. For more information, see here.

**Minor in Cinematic Arts**
A minor in cinematic arts is available to USC undergraduate students in all schools and departments. The minor provides the opportunity for students to become familiar with various aspects of media study. The program requires 20 units. For more information, see here.

**Minor in Comedy**
The minor in comedy is designed to train students in the creation of comedic entertainment in film, television and new media. The program utilizes both analysis courses and creative workshops to train students in comedic theory and practice. Through elective choices students may focus their studies on a number of cinematic disciplines as they pertain to the creation of comedic content, including writing sitcoms, directing comedic actors and producing sketch comedy. The program requires 16 units. For more information, see here.

**Minor in Digital Studies**
The minor in digital studies explores the rich potential of digital media for critical analysis and creative discovery. Learning the exciting and dynamic potential of a broad array of tools and technologies, students create innovative projects, from photo essays to Web-based documentaries, from interactive videos to sophisticated Websites, and from typography in motion to 3-D visualizations. The program requires 20 units. For more information, see here.

**Minor in Entertainment Industry**
The minor in entertainment industry provides students interested in media content creation with a focused curriculum that will give them insight into the economic factors and professional practices that influence the creative process, and how they interact with social, historical, technical and aesthetic elements. For more information, see here.

**Minor in Game Animation**
The skills of the modern animator, visual effects artist, motion capture professional and many others are of great value in the games industry when paired with an understanding of how these assets can be used in games and systems. The game animation minor provides an educational path that teaches both systems thinking and the skills and creativity of an animator. The program requires 24 units. For more information, see here.

**Minor in Game Audio**
Game audio professionals must not only be competent in one area (e.g., expressly in music composing or in audio recording), but also in other areas of audio and in theories of procedurality and interaction. This minor provides a grounding in game design and systems thinking, while
Minor in Science Visualization
The minor in science visualization offers an introduction to science visualization methodology and practice focused in an area of relevant research. The minor is structured to provide the skills and knowledge needed in science visualization, and will culminate in a capstone project under the close supervision of faculty in both animation and science. The program requires 16 units. For more information, see here.

Minor in Screenwriting
The minor in screenwriting provides thorough training in the craft of writing for screen and television. Students learn the fundamentals of character, conflict and scene structure and build on their skills through each course as they write feature and television scripts in all genres and explore areas of their interest. Students may apply in the spring or fall semester. The program requires 16 units. For more information, see here.

Minor in Themed Entertainment
From cruise ships to casinos to immersive educational retreats, themed entertainment design involves submerging a real, live human being into a story in a truly robust, physical way. As new tools for entertainment and education develop, they continually push toward enabling players to completely become the heroes and heroines of their own stories. The themed entertainment minor focuses on history, theory and skills of themed entertainment design. The program requires 24 units. For more information, see here.

Minor in 3-D Animation in Cinematic Arts
The minor in 3-D animation in cinematic arts offers an introduction to basic animation principles and history, as well as creative and skill-based instruction in 3-D computer animation. Through elective choices students may focus their studies on their specific area of interest, including visual effects, motion capture, virtual reality, modeling, or character animation. The program requires 24 units. For more information, see here.

Minor in Cinema-Television for the Health Professions
This 24-unit minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in working with film and television producers to disseminate accurate health information to the public. See the Keck School of Medicine of USC for course requirements.

Minor in 2-D Art for Games
This interdisciplinary minor integrates three major disciplines (fine arts, computer science and interactive media) to develop the 2-D visual skills necessary to conceptualize and illustrate images for games. For more information, see USC Roski School of Art and Design.

Minor in 3-D Art for Games
The focus of the 3-D Art for Games minor is a transdisciplinary approach that incorporates the creative, technological and team-based communication skills necessary to develop 3-D art skills for video games. For more information, see USC Roski School of Art and Design.

Minor in Video Game Design and Management
The video game design minor integrates theoretical concepts and practical skills to prepare students for a career in interactive entertainment, specifically the video game industry. Through integration of two major disciplines (cinematic arts and information technology), students will be exposed to a variety of design concepts related to creating...
Students develop and refine their abilities to conduct research in a range of disciplinary and interdisciplinary contexts. The program includes a systematic introduction to the knowledge through the critical application of multimedia. Students are expected to integrate theory into the practice of multimedia scholarship; for this reason, courses include discussion of historical and theoretical material, instruction in basic research practices, as well as opportunities to develop skills in multimedia authorship, collaboration, leadership and creative thinking. Students earn Honors in Multimedia Scholarship by completing a minimum of 24 units of required course work culminating in a capstone interdisciplinary thesis during their final year.

To maintain small classes and allow for extensive discussion and project development, the Honors in Multimedia Scholarship program requires students to be highly motivated; there is extensive reading, writing and multimedia authoring. The required courses are not available for pass/no pass registration.

Information about courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

**Program Requirements**

A total of 24 units is required to complete the honors designation. All courses must be taken for a letter grade.

**Introductory Courses**

- IML 104 Introduction to Digital Studies Units: 2
- IML 140 Workshop in Multimedia Authoring Units: 2 or
- IML 201 The Languages of Digital Media Units: 4

**Introductory Courses II**

- IML 230 Fundamentals of Media Design Units: 2

**Media Arts Electives, Group I**

Choose 8 units from the following courses:

- IML 288 Critical Thinking and Procedural Media Units: 4
- IML 300 Reading and Writing the Web Units: 2
- IML 335 Digital Narrative Design I Units: 2
- IML 400 Creative Coding for the Web Units: 4
- IML 404 Tactical Media Units: 4
- IML 435 Digital Narrative Design II Units: 4

**Media Arts Electives, Group II**

Choose 4 units from the following courses:

- IML 309 Integrative Design for Mobile Devices Units: 4
- IML 310 Professionalism for Media Arts Units: 2
- IML 340 Remixing the Archive Units: 4
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 420m New Media for Social Change Units: 4
- IML 422 Information Visualization Units: 4
- IML 450 Critical Play and Documentary Games Units: 4
The minor in 3-D animation in cinematic arts offers an introduction to basic animation principles and history, as well as creative and skill-based instruction in 3-D computer animation. Through elective choices students may focus their studies on their specific area of interest, including visual effects, motion capture, virtual reality, modeling or character animation. The program requires 16 units of work. The film project undertaken under CTAN 450c is a capstone production class. It is a very time intensive class that will require a very large amount of work. The film project undertaken under CTAN 450c must be completed by the end of the semester enrolled in CTAN 450c in order to pass the class and receive the minor. It is recommended that you do not take a heavy course load during the semester that you enroll in CTAN 450c. Please note that by the time you enroll in CTAN 450c, you must have completed all of the other minor requirements before requesting access to CTAN 450c.

### Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

### Application Procedures
To be considered for admission to the minor in animation, the applicant is required to submit the following materials: (1) Cinematic Arts departmental application, (2) academic records including current USC transcripts, (3) personal statement, (4) two letters of recommendation, and (5) portfolio (prints, slides, CD, DVD, film and/or video). Applications and admission information can be obtained from the USC School of Cinematic Arts, Animation and Digital Arts Program Office, (213) 740-3986 or online at cinema.usc.edu.

### Course Requirements
The following courses are to be taken in a prescribed sequential order. Twenty-four units are required.

#### Year One
- **CTCS 190g** Introduction to Cinema Units: 4

#### Year Two
- **CTAN 420** Concept Design for Animation Units: 2
- **CTAN 432** The World of Visual Effects Units: 2
- **CTAN 443L** Character Development for 3-D Animation and Games Units: 2
- **CTAN 455L** Organic Modeling for Animation Units: 2
- **CTAN 460** Character Design Workshop Units: 2
- **CTAN 462** Visual Effects Units: 2
- **CTAN 463L** Creative Workflow in Visual Effects Units: 2
- **CTAN 464L** Digital Lighting and Rendering Units: 2
- **CTAN 465L** Digital Effects Animation Units: 2
- **CTAN 485L** Pipeline and Character Modeling for Animation Units: 2
- **CTAN 497L** Generative Animation Units: 2
- **CTAN 502L** Experiments in Immersive Design Units: 2
- **CTAN 508L** Live Action Integration with Visual Effects Units: 2
- **CTAN 564L** Motion Capture Fundamentals Units: 2
- **CTAN 565L** Motion Capture Performance Units: 2
  Enrollment in 500-level courses requires special permission.
• CTAN 448 Introduction to Film Graphics — Animation Units: 4
• CTAN 451 History of Animation Units: 2

Year Two
• CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
• CTAN 436 Writing for Animation Units: 2
• CTAN 450a Animation Theory and Techniques Units: 2
• CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4

Year Three
• CTAN 450b Animation Theory and Techniques Units: 2
• CTAN 450c Animation Theory and Techniques Units: 2

Cinematic Arts Minor
The minor in cinematic arts combines an introduction to this exciting and influential field with a diversified set of classes in critical studies, production, screenwriting, the entertainment industry, animation, and interactive media. The curriculum is purposely flexible; students may choose to sample different areas in their upper-division courses or emphasize a single primary interest, such as production. To be eligible for the cinematic arts minor, a student must be in good academic standing and have a declared major. To declare the cinematic arts minor a student must submit a Change of Major/Minor form to Cinematic Arts Office of Student Services, SCB 105.

Course Requirements for the Minor
A total of 20 units is required for the minor in cinematic arts, one 4-unit lower-division course and 16 upper-division units.

Lower-division Requirement
• CTCS 190g Introduction to Cinema Units: 4 *
• CTCS 191 Introduction to Television and Video Units: 4

Note:
*Gateway course

Upper-division Requirement
8 units from the following:
• CTAN 432 The World of Visual Effects Units: 2
• CTAN 450a Animation Theory and Techniques Units: 2
• CTAN 450b Animation Theory and Techniques Units: 2
• CTAN 450c Animation Theory and Techniques Units: 2
• CTAN 451 History of Animation Units: 2
• CTAN 462 Visual Effects Units: 2
• CTPS 303 Japanese Anime Units: 2
• CTCS 400 Non-Fiction Film and Television Units: 4

• CTCS 407 African American Cinema Units: 4
• CTCS 411 Film, Television and Cultural Studies Units: 4
• CTCS 412 Gender, Sexuality and Media Units: 4
• CTCS 414 Latina/o Screen Cultures Units: 4
• CTCS 464 Film and/or Television Genres Units: 4
• CTCS 466 Theatrical Film Symposium Units: 4
• CTCS 467 Television Symposium Units: 4
• CTCS 469 Film and/or Television Style Analysis Units: 4
• CTPR 327 Motion Picture Camera Units: 3
• CTPR 335 Motion Picture Editing Units: 3
• CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
• CTPR 409 Practicum in Television Production Units: 2, 4
• CTPR 460 Film Business Procedures and Distribution Units: 2 or 4
• CTPR 461 Managing Television Stations and Internet Media Units: 2
• CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
• CTWR 411 Television Script Analysis Units: 2
• CTWR 412 Introduction to Screenwriting Units: 2
• CTWR 416 Motion Picture Script Analysis Units: 2
• CTWR 431 Screenwriters and Their Work Units: 2
• CTWR 432 Television Writers and Their Work Units: 2
• Plus 8 additional upper-division units of Cinematic Arts electives.

Additional Requirements
Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Comedy Minor
The minor in comedy is designed to train students in the creation of comedic entertainment in film, television and new media.

Application Procedures
To apply to the minor in comedy, a student must be in good academic standing, have a declared major, and be currently enrolled in or have completed with a passing grade CTWR 404 Foundations of Comedy. Applicants are required to submit the following materials: (1) Cinematic Arts departmental application, (2) curriculum vitae highlighting comedy experience, and (3) a comedic short film script or comedy sketch script. Applications and admission information can be obtained from the USC School of
Course Requirements for the Minor

A total of 16 units is required to complete the comedy minor.

Required Course (2 Units)

- CTWR 404 Foundations of Comedy Units: 2

Elective Courses (14 Units From The Following)

- CTPR 371 Directing for Television Units: 4
- CTPR 464 Directing the Television Sketch Comedy Show Units: 2
- CTPR 476 Directing The Comedic Scene Units: 2
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTWR 324 Introduction to Half-Hour Television Writing Units: 2 *
- CTWR 407 Creating the Comedic Character Units: 2
- CTWR 412 Introduction to Screenwriting Units: 2
- CTWR 434 Writing the Half-Hour Comedy Series Units: 2 *
- CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 *
- CTPR 487 Staff Writing the Multi-Camera Television Series Units: 4 *
- CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4 *

*Prerequisite required

Note:

*Prerequisite required.

Grade Point Averages

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Digital Studies Minor

The minor in digital studies explores the rich potential of digital media for critical analysis and creative discovery. Learning the exciting and dynamic potential of a broad array of tools and technologies, students create innovative projects, from photo essays to Web-based documentaries, from interactive videos to sophisticated Websites, and from typography in motion to 3-D visualizations. Elective courses explore media for social change, tangible computing, transmedia expression and more, allowing students to use media in pursuit of their own interests and to enhance their major.

All digital studies courses combine theory and practice in lab-based seminars featuring hands-on tutorials to support students in producing sophisticated media-rich work. Participants in this minor gain powerful skills useful in future endeavors within or beyond academia, where the ability to work effectively with media is a crucial job skill.

Information about courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

Program Requirements

A total of 20 units is required to complete the minor. All courses must be taken for a letter grade.

Introductory Courses

- IML 104 Introduction to Digital Studies Units: 2
- IML 140 Workshop in Multimedia Authoring Units: 2 or
- IML 201 The Languages of Digital Media Units: 4

Media Arts Electives

Choose 12 units from the following courses:

- IML 300 Reading and Writing the Web Units: 2
- IML 309 Integrative Design for Mobile Devices Units: 4
- IML 310 Professionalism for Media Arts Units: 2
- IML 335 Digital Narrative Design I Units: 2
- IML 340 Remixing the Archive Units: 4
- IML 385 Design Fiction and Speculative Futures Units: 4
- IML 400 Creative Coding for the Web Units: 4
- IML 404 Tactical Media Units: 4
- IML 420m New Media for Social Change Units: 4
- IML 422 Information Visualization Units: 4
- IML 435 Digital Narrative Design II Units: 4
- IML 450 Critical Play and Documentary Games Units: 4
- IML 456 Nature, Design and Media Units: 2
- IML 458 The Embedded Story: Designing Digital Landscapes and Languages Units: 2
- IML 466 Digital Studies Symposium Units: 2
- IML 475 Media Arts Research Lab Units: 2, 3, 4
- IML 499 Special Topics Units: 2, 3, 4

Digital Studies Electives

Choose 4 units from the following courses:

- COMM 450 Visual Culture and Communication Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- REL 341 Technology, Culture, and Ethics Units: 4
- SOCI 365 Visual Sociology of the City and Its Residents Units: 4

Other courses may be applicable; please see an adviser for approval.

Entertainment Industry Minor

The minor in the entertainment industry provides students interested in media content creation with a focused curriculum that will give them insight into the economic factors and professional practices that influence the creative process, and how they interact with social, historical, technical and aesthetic elements. To be eligible for the
entertainment industry minor, a student must be in good academic standing, have a declared major, and have completed CTCSS 190 Introduction to Cinema with a C or better. To declare the minor, a student must submit a Change of Major/Minor form to Cinematic Arts Student Services, SCB 105.

Course Requirements for the Minor
A total of 18 upper-division units is required for the minor in the Entertainment Industry.

Courses
- CNTV 375 Breaking Into the Entertainment Industry Units: 2
- CNTV 440 The Business of the Entertainment Industry: Motion Pictures, Television, Animation, Video Games, and Interactive Entertainment Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4
- CTPR 458 Organizing Creativity: Entertainment Industry Decision Making Units: 2

One of the following:
- CNTV 427 The Art and Commerce of Independent Film Units: 4
- CTCS 466 Theatrical Film Symposium Units: 4
- CTCS 467 Television Symposium Units: 4
- CTIN 463 Anatomy of a Game Units: 4
- CTPR 386 Art and Industry of the Theatrical Film Units: 4
- IML 466 Digital Studies Symposium Units: 2

One of the following:
- CTPR 411 Television Script Analysis Units: 2
- CTPR 416 Motion Picture Script Analysis Units: 2

Four units from:
- CNTV 457 The Entertainment Entrepreneur: Getting Your First Project Made Units: 2
- CNTV 474 Digital DNA: Media Redefined Units: 2
- CTAN 432 The World of Visual Effects Units: 2
- CTAN 451 History of Animation Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTPR 410 The Movie Business: From Story Concept to Exhibition Units: 2
- CTPR 425 Production Planning Units: 2
- CTPR 438 Practicum in Producing Units: 2 *
- CTPR 460 Film Business Procedures and Distribution Units: 2 or 4
- CTPR 461 Managing Television Stations and Internet Media Units: 2
- CTPR 496 The Film Industry: Career Challenges and Choices for Women Units: 2
- CTPR 417 Script Coverage and Story Analysis Units: 2
- CTPR 431 Screenwriters and Their Work Units: 2
- CTPR 432 Television Writers and Their Work Units: 2

Note:
* Prerequisite required.

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Animation Minor
To create animations for a game requires an understanding that visual art forms one part of a game system or algorithm, and even animation poses and rigging must often be thought of in terms of programming-like logic. The skills of the modern animator, visual effects artist, motion capture professional and many others are of great value in the games industry, but very few of these professionals have both training in visual artistry and the systemic thinking necessary for game design. This minor provides an educational path that teaches both systems thinking and the skills and creativity of an animator.

To be eligible for the game animation minor, a student must be in good academic standing and have a declared major. To declare the game animation minor a student must get permission from the Interactive Media Division (SCA 222) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor
A total of 24 units is required for the game animation minor, including a minimum of 16 upper-division units.

Core Requirements
- CTAN 330 Animation Fundamentals Units: 2
- CTAN 432 The World of Visual Effects Units: 2
- CTIN 332 Games for Animation Units: 2
- CTAN 451 History of Animation Units: 2
- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 464L Digital Lighting and Rendering Units: 2 *
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 488 Game Design Workshop Units: 4

Electives (6 Additional Units)
- CTAN 420 Concept Design for Animation Units: 2
Lower-division Core Units (6 Units)
- CTIN 101 Fundamentals of Procedural Media Units: 2
- MTEC 277x Introduction to Music Technology Units: 4

Upper-division Core Units (12 Units)
- CTIN 406L Sound Design for Games Units: 2
- CTIN 444 Audio Expression Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4

Electives (Minimum 6 Additional Units, At Least 4 Upper-division)
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 489 Intermediate Game Design Workshop Units: 2
- CTIN 492L Experimental Game Topics Units: 4
- CTIN 493L Advanced Game Project II Units: 2

Note:
*Prerequisite required.
**CTAN 432, CTAN 451, CTIN 101, and CTIN 332 may only be taken as electives if they are not used to fulfill a core requirement for the minor.
***CTIN 484 and CTIN 489 must be taken concurrently, and require CTIN 483 and CTIN 488 as prerequisites.

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Audio Minor
To implement audio into a game requires an understanding that audio forms one part of a game system or algorithm, and even composition must often be thought of in terms of programming-like logic. Game audio professionals must not only be competent in one area (e.g., expressly in music composing, or in audio recording), but in other areas of audio as well. This minor provides a grounding in game design and systems thinking, while providing a theoretical backing and skills in audio design and composition to prepare students to design successful audio for the games industry.

To be eligible for the game audio minor, a student must be in good academic standing and have a declared major. To declare the game audio minor a student must get permission from the Interactive Media Division (SCA 222) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor
A minimum of 24 units is required for the game audio minor, 6 lower-division units and a minimum of 16 upper-division units.

Note:
*CTIN 484 and CTIN 489 must be taken concurrently, and require CTIN 483 and CTIN 488 as prerequisites.

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Game Design Minor
Game design is the next great design field, and individuals of many professions and skill sets will benefit from understanding how to design for interactivity and new technology. The game design minor teaches basic iterative design and prototyping skills while providing students the opportunity to explore design for new technologies and the skills of user assessment and usability testing.

To be eligible for the game design minor, a student must be in good academic standing and have a declared major. To declare the game design minor a student must get permission...
from the Interactive Media Division (SCA 222) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

**Course Requirements for the Minor**

A total of 24 units is required for the game design minor, 6 lower-division units and 18 upper-division units.

**Lower-division Core (6 Units)**

- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTIN 190 Introduction to Interactive Entertainment Units: 4

**Upper-division Core (12 Units)**

- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2 *
- CTIN 488 Game Design Workshop Units: 4
- CTIN 489 Intermediate Game Design Workshop Units: 2 *

**Electives (6 Additional Units)**

- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L Usability Testing for Games Units: 2
- CTIN 405L Design and Technology for Mobile Experiences Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 482 Designing Online Multiplayer Game Environments Units: 2
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 491L Advanced Game Project I Units: 4
- CTIN 492L Experimental Game Topics Units: 4
- CTIN 493L Advanced Game Project II Units: 2 **

**Note:**

*CTIN 484 and CTIN 489 must be taken concurrently and require CTIN 483 and CTIN 488 as prerequisites.

**Prerequisite required.

**Grade Point Average Requirement**

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

**Game Entrepreneurism Minor**

A minor for students interested in building a business in the games and digital media industry. Building on the business, production and management courses in the Interactive Media Division, this minor culminates in our advanced game project course and provides students with hands-on mentorship in starting actual companies based on the work they are doing in these concurrent classes. The minor provides a basis in theories of design and production for games, as well as a strong grounding in the business knowledge necessary to become an entrepreneur.

To be eligible for the game entrepreneurship minor, a student must be in good academic standing and have a declared major. To declare the game entrepreneurship minor a student must get permission from the Interactive Media Division (SCA 222), and submit a change of major/minor form to Cinematic Arts Student Services (SCB 105).

**Course Requirements for the Minor**

A minimum of 23 units is required for the game entrepreneurship minor, including 2 lower-division units and a minimum of 17 upper-division units.

**Lower-division Core (2 Units)**

- CTIN 101 Fundamentals of Procedural Media Units: 2

**Upper-division Core (17–18 Units)**

- BAEP 450 Fundamentals of Entrepreneurship Units: 4 or
- BAEP 451 The Management of New Enterprises Units: 4 or
- BUAD 301 Technology Entrepreneurship Units: 3 (3 units required)
- BAEP 452 Feasibility Analysis Units: 4 *
- CTIN 458 Business and Management of Games Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4

**Electives (4 Additional Units)**

- BAEP 423 Management of Small Businesses Units: 4
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- CTIN 110 Statistical Analysis for Games: Storytelling with Numbers Units: 4
- CTIN 404L Usability Testing for Games Units: 2
- CTIN 405L Design and Technology for Mobile Experiences Units: 2
- CTIN 459L Game Industry Workshop Units: 4 *
- CTIN 463 Anatomy of a Game Units: 4
- CTIN 482 Designing Online Multiplayer Game Environments Units: 2
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 493L Advanced Game Project II Units: 2
- CTIN 497 Interactive Media Startup Units: 1

**Note:**

*Prerequisite required.

**Grade Point Average Requirement**

A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

**Game Studies Minor**

Games are a major cultural form, with game sales now exceeding box office revenue in the United States. Attention
to games and interactive media is growing, and it has become necessary to understand them as meaningful systems, reflect on their cultural influence, and to help guide their evolution with insightful criticism. The game studies minor prepares a student with fundamental underpinnings in media criticism and games.

To be eligible for the game design minor, a student must be in good academic standing and have a declared major. To declare the game design minor a student must get permission from the Interactive Media and Games Division (SCI 201) and submit a Change of Major/Minor form to Cinematic Arts Student Affairs (SCB 105).

**Course Requirements for the Minor:**
A total of 24 units is required for the game design minor, 6 lower-division units and 18 upper-division units.

**Lower-division Core Units (6 Units)**
- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTIN 190 Introduction to Interactive Entertainment Units: 4

**Upper-division Core Units (10 Units)**
- CTIN 462 Critical Theory and Analysis of Games Units: 4
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 488 Game Design Workshop Units: 4

**Additional Requirements**

**Grade Point Average Requirement**
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

**Game User Research Minor**
Game and interaction design are deeply dependent upon human-computer interaction and the ability to use research methods to improve player experience. Game user research is a critical aspect of game design and development that involves management of playtests and usability tests of the software, technology and rules. Along with the ability to analyze and design for optimal player experience, this field combines the ability to analyze large batches of data, and an understanding of how to build applications that mine data from users; these skills form the backbone of an incredibly valuable team member for digital entertainment products. The Interactive Media and Games Division at the School of Cinematic Arts is a leading facility in the teaching of usability, research, and playtesting practices in this field, and the game user research minor is designed to give students an underpinning in game design, interface design and research methods, while teaching a full set of skills for playtesting and usability practice.

To be eligible for the game user research minor, a student must be in good academic standing and have a declared major. To declare the game design minor a student must get permission from the Interactive Media and Games Division (SCI 201) and submit a Change of Major/Minor form to Cinematic Arts Student Affairs (SCB 105).

**Course Requirements for the Minor**
A total of 24 units is required for the game user research minor, 6 lower-division units and 18 upper-division units.

**Lower-division Core Units (6 Units)**
- CTIN 101 Fundamentals of Procedural Media Units: 2
- CTIN 110 Statistical Analysis for Games: Storytelling with Numbers Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4

**Upper-division Core Units (12 Units)**
- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L Usability Testing for Games Units: 2
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 488 Game Design Workshop Units: 4

**Electives (6 Additional Units)**
- THTR 403 The Performing Arts Units: 4
- THTR 405m Performing Identities Units: 4
- THTR 406 Theatre on the Edge Units: 4
- THTR 488mw Theatre in the Community Units: 4

**Additional Requirements**

**Grade Point Average Requirement**
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.
• CTIN 484L Intermediate Game Development Units: 2 *
• CTIN 489 Intermediate Game Design Workshop Units: 2 *
• CTIN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
• CTIN 491L Advanced Game Project I Units: 4
• CTIN 493L Advanced Game Project II Units: 2
• COMM 301L Empirical Research in Communication Units: 4
• PSYC 301L Cognitive Processes Units: 4 **

Note:
*CTIN 484 and CTIN 489 must be taken concurrently, and require the student to have passed CTIN 483 and CTIN 488 or the equivalent.
**Prerequisite required.

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Media and Social Change Minor
The minor in media and social change provides the opportunity for students who are interested in media content creation and research to take classes in a focused curriculum on the various aspects of media for change. Students will gain insight into the professional practices of creating media content, analyzing existing content, and learning how they can influence the future by integrating social issues into the work they are doing in related fields.
To declare the minor, a student must submit a Change of Major/Minor form to Cinematic Arts Student Services, SCB 105.

Course Requirements for the Minor
A total of 16 upper-division units is required for the minor in media and social change.

Courses
12 units from the following:
• CTAN 470 Documentary Animation Production Units: 2
• CTIN 479 Documentary and Activist Games Units: 2
• CTPR 459 Introduction to Media and Social Change Units: 4
• CTPR 474 Documentary Production Units: 4
• CTWR 402 Writing and Social Change Units: 2
• IML 420m New Media for Social Change Units: 4

One of the following Critical Studies courses:
• CTCS 400 Non-Fiction Film and Television Units: 4
• CTCS 407 African American Cinema Units: 4
• CTCS 412 Gender, Sexuality and Media Units: 4

Additional Requirements:

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Science Visualization Minor
The minor in science visualization offers an introduction to science visualization methodology and practice focused in an area of relevant research. The minor is structured to provide the skills and knowledge needed in science visualization, and will culminate in a capstone project under the close supervision of faculty in both animation and science. The program requires 16 units.
Most students will enter the minor in science visualization program in their sophomore year at USC.

Application Procedures
An undergraduate student at USC may apply to the minor in science visualization if he or she is in good standing and maintaining normal degree progress.
Students should apply after they have completed CTAN 330 with a "B" or better in the course. A signature of support from the CTAN 330 professor is required. Applications and admission information can be obtained from the USC School of Cinematic Arts, Animation and Digital Arts Office SCB 210 (213) 740-3986.

Science visualization minor applications are reviewed by a panel of faculty members, with admissions made for the following fall semester only. A maximum of 12 students will be admitted per year.

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Course Requirements
The following courses are to be taken in the prescribed sequential order, starting with CTAN 330 and finishing with CTAN 423, the capstone class. Sixteen units of course work are required.

Courses
• CTAN 330 Animation Fundamentals Units: 2
• FASC 436 Art and Technology Units: 4

Four units from the following list:* 
• CTAN 432 The World of Visual Effects Units: 2
• CTAN 443L Character Development for 3-D Animation and Games Units: 2 **
• CTAN 450a Animation Theory and Techniques Units: 2
• CTAN 452 Introduction to 3-D Computer Animation Units: 2
• CTAN 455L Organic Modeling for Animation Units: 2
• CTAN 462 Visual Effects Units: 2
• CTAN 464L Digital Lighting and Rendering Units: 2 **
• CTAN 465L Digital Effects Animation Units: 2 **
• IML 400 Creative Coding for the Web Units: 4
• IML 420m New Media for Social Change Units: 4

* CTCS 400 Non-Fiction Film and Television Units: 4
• IML 466 Digital Studies Symposium Units: 2

Note:
*Juniors or seniors with a 3.0 GPA in good standing may elect to take graduate courses CTAN 508L (2), CTAN 564L (2) and CTAN 565L (2). Prerequisite required.

Four units from the following list:
• AHIS 373g History and Theory of Photography Units: 4
• AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology Units: 4
• AHIS 429 Studies in Art, Science, and Technology Units: 4
• AHIS 477 Studies in Visual and Material Culture Units: 4
• ANTH 472 Visual Techniques in Anthropology: Stills Units: 4
• BISC 307L General Physiology Units: 4 **
• BISC 419L Environmental Microbiology Units: 4 **
• BISC 427 The Global Environment Units: 4 **
• BISC 483 Geobiology and Astrobiology Units: 4 **
• ENGL 375 Science Fiction Units: 4
• GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
• GEOL 450L Geosystems Units: 4 **
• HBIO 300 Evolution, Ecology, and Culture Units: 4
• HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4
• PSYC 420 Animal Behavior Units: 4 **

Two unit capstone course:
• CTAN 423L Principles of Digital Animation: Visualizing Science Units: 2

Note:
**Prerequisite required.

Screenwriting Minor
The minor in screenwriting is designed to train students in the creatively challenging field of writing for screen and television. Students learn the fundamentals of writing for film and television with the opportunity to specialize in writing feature length screenplays, teleplays in both drama and comedy, or analysis of the craft of screenwriting.

Application Procedures
To apply to the minor in screenwriting, a student must be in good academic standing, have a declared major, and be currently enrolled in or have completed with a passing grade CTWR 412 Introduction to Screenwriting.
Applications and information can be obtained at the Writing Division office, SCA 335, (213) 740-3303 and online at cinema.usc.edu.

Course Requirements for the Minor
The minor in screenwriting is a specialized course of study for students who desire a solid foundation in the craft of screenwriting. A total of 16 units is required to complete the screenwriting minor, 8 units from four fundamental courses and 8 units of electives.

Fundamentals And Feature Development (8 Units)
• CTWR 321 Introduction to Hour-Long Television Writing Units: 2 *
• CTWR 324 Introduction to Half-Hour Television Writing Units: 2 *
• CTWR 412 Introduction to Screenwriting Units: 2
• CTWR 415a Advanced Writing Units: 2 *
• CTWR 416 Motion Picture Script Analysis Units: 2
*Prerequisite Required.

Total units: 8

Additional Electives (8 Units)
• CTWR 404 Foundations of Comedy Units: 2
• CTWR 407 Creating the Comedic Character Units: 2
• CTWR 410L Character Development and Storytelling for Games Units: 4
• CTWR 411 Television Script Analysis Units: 2
• CTWR 415b Advanced Writing Units: 2 *
• CTWR 417 Script Coverage and Story Analysis Units: 2
• CTWR 421 Writing the Hour-Long Dramatic Series Units: 2 max 4 *
• CTWR 422 Creating the Dramatic Television Series Units: 2 max 4
• CTWR 430 The Writer in American Cinema and Television Units: 2
• CTWR 431 Screenwriters and Their Work Units: 2 max 6
• CTWR 432 Television Writers and Their Work Units: 2
• CTWR 433 Adaptations: Transferring Existing Work to the Screen Units: 2
• CTWR 434 Writing the Half-Hour Comedy Series Units: 2 max 6*
• CTWR 435 Writing for Film and Television Genres Units: 2, 3, 4 max 8*
• CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 max 8*
• CTWR 439 Writing the Original Dramatic Series Pilot Units: 4 max 8*
• CTWR 441 Writing Workshop in Creativity and Imagination Units: 2
• CTWR 453 Advanced Feature Rewriting Units: 4*
• CTWR 459a Entertainment Industry Seminar
Units: 2
• CTWR 459b Entertainment Industry Seminar
Units: 2
• CTWR 468 Screenwriting in Collaboration Units:
  4 max 8*
• CTWR 499 Special Topics Units: 2, 3, 4 max 8
  *Prerequisite Required

Additional Requirements

Grade Point Averages
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

Graduate Courses
Students may not apply more than 16 units of graduate level course work toward their university degree.

Themed Entertainment Minor
Who designs theme parks, museums, fireworks shows, water fountain spectacles and parades? Themed entertainment designers do. From cruise ships to casinos to immersive educational retreats, they design almost anything that involves submerging a real, live human being into a story in a truly robust, physical way. As new tools for entertainment and education develop, they continually push toward one, common goal: a single place where movies, games, theme parks and museums converge. It is a non-dystopian kind of Westworld where we truly and completely become the heroes and heroines of our own stories. And it is the ultimate adventure because there is nothing (at least nothing that we notice) between our full, physical selves and the stories we want to live.

To be eligible for the themed entertainment minor, a student must be in good academic standing and have a declared major. To declare the themed entertainment minor a student must get permission from the Interactive Media and Games Division (SCI 201) and submit a Change of Major/Minor form to Cinematic Arts Student Services (SCB 105).

Course Requirements for the Minor:
A total of 24 units is required for the themed entertainment minor: 4 lower-division units and 20 upper-division units.

Lower-Division Core Units (4 Units)
• CTIN 191 Survey of Themed Entertainment
Units: 4

Upper-Division Core Units (14 Units)
• CTIN 452L Themed Entertainment Design Units:
  4
• CTIN 456 Game Design for Business Units: 2
• CTPR 456 Introduction to Art Direction Units: 2
• CTWR 410L Character Development and
  Storytelling for Games Units: 4

Electives (6 Additional Units)
• COMM 306 Innovation, Entertainment, and the
  Arts Units: 4
• COMM 430 Global Entertainment Units: 4

• CTAN 420 Concept Design for Animation Units:
  2
• CTAN 460 Character Design Workshop Units: 2
• CTCS 482 Transmedia Entertainment Units: 4
• CTIN 404L Usability Testing for Games Units: 2
• CTIN 406L Sound Design for Games Units: 2
• CTIN 444 Audio Expression Units: 2
• CTIN 486 Alternative Control Workshop Units: 2
• CTIN 492L Experimental Game Topics Units: 4
• CTPR 423 Introduction to Special Effects in
  Cinema Units: 2
• CTPR 458 Organizing Creativity: Entertainment
  Industry Decision Making Units: 2
• THTR 330 Scene Design I Units: 4
• THTR 331 Costume Design I Units: 4
• THTR 332 Lighting Design I Units: 4
• THTR 407a Drawing and Rendering for the
  Theatre Units: 2
• THTR 407b Drawing and Rendering for the
  Theatre Units: 2

Grade Point Average Requirement
A minimum grade of C (2.0) in each course is required. A grade of C- (1.7) or lower does not fulfill a minor requirement.

University Certificate
Business of Entertainment Graduate Certificate
The graduate certificate in the business of entertainment program provides graduate-level education in various aspects of the business of film, television, and new media. Select 16 units from the following:

Courses (16 Units)
• CNTV 521 The World of the Producer Units: 4
• CNTV 522 The Television Industry: Networks,
  Cable and the Internet Units: 4
• CNTV 523 Feature Film Financing and the Studio
  System Units: 4
• CNTV 524 Digital Technologies and the
  Entertainment Industry Units: 4
• CNTV 525 Entertainment Marketing in Today's
  Environment Units: 4
• CNTV 589 Graduate Film Seminar Units: 2 or 4
  max 8
• CTPR 561 Publicity for Cinema and Television
  Units: 4
• CTPR 562 Seminar in Motion Picture Business
  Units: 2 or 4 max 8
• CTPR 563 The Business of Representation Units:
  4

Note:
Successful completion of a graduate certificate program is acknowledged by a certificate awarded by the university.
Admission to the graduate certificate in the business of entertainment program is only open to current USC graduate students. Courses credited to graduate certificate programs may be completed in conjunction with course work required for a graduate degree program in which the student is already enrolled. Applicability of courses to the student's primary degree program is determined by the student's home department. Applicants must have earned an undergraduate degree with at least a 3.0 GPA. For further information contact the School of Cinematic Arts Office of Student-Industry Relations, SCA 235, (213) 740-4432.

**Digital Media and Culture Graduate Certificate**

Contemporary scholarship is undergoing profound shifts as new technologies alter how scholars interact, conduct research, author and visualize their work, as well as how they teach. The certificate program in digital media and culture explores the shifting nature of scholarly expression, pedagogical practice and research in the 21st century, combining seminars with hands-on, lab-based workshops in order to facilitate sophisticated critical thinking and practice in and through multimedia. Open to graduate students interested in emerging modes of creative, networked and media-rich scholarship, the program seeks to provide participants with a sophisticated conceptual framework for considering the emerging landscape of scholarship in the digital age, as well as a broad overview of contemporary scholarly multimedia as it intersects with media art, information design, interactive media and communication studies.

**Program Requirements**

A total of 12 units is required to complete the graduate certificate.

**Courses**

Choose 12 units from the following courses:

- IML 500 Digital Media Tools and Tactics Units: 2
- IML 501L Seminar in Contemporary Digital Media Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 525 Tangible Computing in the Humanities and Sciences Units: 4
- IML 543 Transdisciplinary Media Design Practicum Units: 4
- IML 555 Digital Pedagogies Units: 4

- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4
- IML 585 Creative Critical Writing Workshop Units: 2
- IML 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- IML 599 Special Topics Units: 2, 3, 4
- IML 605 Cinema to Post-Cinema and Beyond: History, Theory, Practice Units: 4

**Writing for Screen and Television Certificate**

The Writing for Screen and Television Certificate is awarded for one year of study. Applicants must be recognized writers outside of the field of screenwriting. The course of study is no less than 16 units total, over two semesters. Writers, both U.S. and international, should appeal directly to the chair for admission in the fall semester. Admission is granted to only one or two scholars a year, and is of the highest selectivity. Applicants must have earned an undergraduate degree with at least a 3.0 GPA. Additionally, candidates must show compelling reason for not applying to a formal degree program.

The general course of study is as follows:

**First Semester**

- CTWR 513 Writing the Short Script Units: 2
- CTWR 514a Basic Dramatic Screenwriting Units: 2
- or
- CTWR 515a Practicum in Screenwriting Units: 4
- CTWR 516 Advanced Motion Picture Script Analysis Units: 2
- CTWR 572 Practicum in Directing Actors for Film Units: 2 or 4

**Second Semester**

**Total units: 8**

- CTPR 536 Editing for Scriptwriters Units: 2
- CTWR 514b Basic Dramatic Screenwriting Units: 2
- or
- CTWR 515b Practicum in Screenwriting Units: 4
- CTWR 572 Practicum in Directing Actors for Film Units: 2 or 4

**Total units: 8**
The John C. Hench Division of Animation and Digital Arts

The John C. Hench Division of Animation and Digital Arts is an international and multicultural program focusing on animation in all its forms. The fundamental philosophy of the program strongly encourages innovation and experimentation, and emphasizes imagination, creativity and critical thinking.

Bachelor's Degree

Animation and Digital Arts (BA)

The Bachelor of Arts in Animation and Digital Arts is a unique four-year program granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within the framework that combines a broad liberal arts background with specialization in a profession. Areas of concentration might include character animation, experimental animation, visual effects, 3-D computer animation, science visualization and interactive animation.

Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including a minimum of 16 lower-division units and a minimum of 26 upper-division units in Cinematic Arts.

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education Program for more information.

Required Courses

- CNTV 101 Reality Starts Here Units: 2
- CTAN 101L Introduction to the Art of Animation Units: 2
- CTAN 102L Introduction to the Art of Movement Units: 2
- CTAN 201L Intermediate Animation Production Units: 3
- CTAN 202L Introduction to 3-D Character Animation Units: 3
- CTAN 301L 3-D Character Performance Animation Units: 3
- CTAN 302L Expanded Concepts in 2-D/3-D Animation Units: 3
- CTAN 305 Professionalism of Animation Units: 2
- CTAN 336 Ideation and Pre-Production Units: 2
- CTAN 401a Senior Project Units: 4
- CTAN 401b Senior Project Units: 4
- CTAN 432 The World of Visual Effects Units: 2
- CTAN 436 Writing for Animation Units: 2
- CTAN 451 History of Animation Units: 2
- CTCS 190g Introduction to Cinema Units: 4 or
- CTCS 201 History of the International Cinema II Units: 4
- FADW 101 Introduction to Drawing: Studio Projects, Methods, Materials Units: 4

One course must be taken from the following list:
- CTAN 496 Directed Studies Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4
- CTIN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Two units must be selected from the following list:

USC Dornsife College of Letters, Arts and Sciences

— Physical Education
- PHED 104a Self-Defense Units: 1
- PHED 104b Self-Defense Units: 1
- PHED 120a Yoga Units: 1
- PHED 120b Yoga Units: 1

USC Kaufman School of Dance
- DANC 181a Contemporary Dance Units: 2
- DANC 181b Contemporary Dance Units: 2
- DANC 184a Jazz Dance Units: 2
- DANC 184b Jazz Dance Units: 2
- DANC 184c Jazz Dance Units: 2
- DANC 188a International Style Ballroom Dance Units: 2
- DANC 188b International Style Ballroom Dance Units: 2
- DANC 189a Tap Dance Units: 2
- DANC 189b Tap Dance Units: 2

USC School of Dramatic Arts
- THTR 122 Improvisation and Theatre Games Units: 2
- THTR 216 Movement for Actors Units: 2

One course must be taken from the following list:
- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 History of the American Film, 1946–1975 Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 482 Transmedia Entertainment Units: 4

Total units: 52
Additional Requirements

Areas of Concentration
Areas of concentration might include character animation, experimental animation, 3-D computer animation, visualizing science, interactive animation and visual effects. Students work in consultation with the undergraduate coordinator and faculty to help them decide their course of study while at USC.

Senior Project
In the spring semester of their third year students develop their senior project through CTAN 336 Ideation and Pre-Production under the guidance of the lecturer. This project will focus on an area of concentration studied throughout the BA by the student. At the end of this class, students present their senior project concepts for review to the Division of Animation and Digital Arts faculty. Progression into CTAN 401a, CTAN 401b is contingent upon faculty committee approval.

In the final year, students concentrate on their senior projects, completing production and post-production. The student's project will be presented to the committee upon completion. Completion is defined as a fully rendered, animated piece with a completed sound track. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional. In the case of an interactive work, the piece must be fully functional with completed animation, sound and interactivity. In addition to completion of the senior project, the student must provide the faculty committee with written and visual documentation of the research. This can be documented as a publishable paper (2,000 words), Website or interactive DVD.

Grade Point Average Requirements
A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTAN 101, CTAN 102, CTAN 201, CTAN 202, CTAN 301, CTAN 302 or CTAN 401a, CTAN 401b after repeating these requirements will be disqualified from the program.

Limitations on Enrollment
Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review
Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Animation and Digital Arts Division Office, University Park, Los Angeles, CA 90089-2211, (213) 740-3986, or online at anim.usc.edu.

International Program
John C. Hench Animation and Digital Arts offers a fall semester abroad at Studio Art Centers International (SACI) in Florence, Italy. BA students will be required to take equivalent classes in animation and digital media while also benefitting from the wide range of liberal arts courses offered at SACI.

Master's Degree

Animation and Digital Arts (MFA)
The Master of Fine Arts degree in Animation and Digital Arts is a three-year (six semester) graduate program designed for students who have clearly identified animation and digital art as their primary interest in cinema. The program focuses on animation production, including a wide range of techniques and aesthetic approaches, from hand-drawn character animation to state-of-the-art interactive digital animation. While embracing traditional forms, the program strongly encourages innovation and experimentation, and emphasizes imagination, creativity and critical thinking.

Students should graduate with a comprehensive knowledge of animation from conception through realization; an understanding of the history of the medium and its aesthetics; in-depth knowledge of computer animation software and the most important elements of digital and interactive media.

The program requires a minimum of 50 units: 32 units are in prescribed, sequential courses in the School of Cinematic Arts. The other 18 units are cinematic arts electives, 4 of which must be taken in the Division of Critical Studies. A thesis is required for the MFA degree. Ongoing workshops in new technologies, traditional and digital media provide additional educational opportunities for students.

Admission is granted once a year in the fall; there are no spring admissions. Approximately 14 students will be enrolled in each incoming class. In addition to practical production, the program also provides opportunities for fieldwork experience and internships to facilitate the student's transition into the profession. Prior knowledge of fundamental digital animation concepts and techniques is recommended.

Applicants for the MFA in Animation and Digital Arts must apply online. For specific instructions, including deadline information, please visit cinema.usc.edu.

The Graduate School Two-Thirds Rule
The school requires 50 units minimum to graduate from the MFA in Animation and Digital Arts program, and two-thirds must be at the 500 level, not including 4 units of CTAN 594a Master's Thesis CTAN 594b Master's Thesis.

Requirements for the MFA in Animation and Digital Arts

Year One, First Semester
CTAN 451 History of Animation Units: 2
CTAN 522 Animation Department Seminar Units: 1
CTAN 544 Introduction to the Art of Animation Units:
3
CTAN 577a Fundamentals of Animation Units: 2
CTAN 579 Expanded Animation Units: 2

Year One, Second Semester
CTAN 522 Animation Department Seminar Units: 1
CTAN 536 Storytelling for Animation Units: 2
CTAN 547 Animation Production I Units: 3
CTAN 577b Fundamentals of Animation Units: 2
CTAN 579 Expanded Animation Units: 2
CTAN 594a Master's Thesis
CTAN 594b Master's Thesis

Year Two, First Semester
CTAN 522 Animation Department Seminar Units: 1
CTAN 555 Animation Design and Production Units: 4
Elective

*Elective
Year Two, Second Semester
CTAN 505 The Business of Animation Units: 2
CTAN 522 Animation Department Seminar Units: 1
CTAN 591 Animation Pre-Thesis Seminar Units: 2
Elective*  
Year Three, First Semester
CTAN 594a Master's Thesis Units: 2  
Year Three, Second Semester
CTAN 594b Master's Thesis Units: 2  
Total required units: 32

*A minimum total of 18 elective units must be taken.

Cinematic Arts Electives
To complete the 50 units required for the MFA in Animation and Digital Arts, students are required to take a minimum of 18 School of Cinematic Arts elective units. Four of those units must be taken from the following Critical Studies courses:

Electives
CTCS 501 World Cinema Before 1945 Units: 2
CTCS 502 World Cinema After 1945 Units: 2
CTCS 503 Survey History of the United States Sound Film Units: 2
CTCS 504 Survey of Television History Units: 2
CTCS 505 Survey of Interactive Media Units: 2
CTCS 510 Case Studies in National Media and/or Regional Media Units: 4 max 12
CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
CTCS 517 Introductory Concepts in Cultural Studies Units: 4
CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
CTCS 564 Seminar in Film and Television Genres Units: 4
CTCS 569 Seminar in Film and Television Authors Units: 4
CTCS 585 Seminar in Film/Television Critical Theory and Production Units: 4
CTCS 587 Seminar in Television Theory Units: 4
CTCS 673 Topics in Theory Units: 4
CTCS 678 Seminar in Film Theory and Medium Specificity Units: 4 max 8
CTCS 679 Seminar in Genre and/or Narrative Theory Units: 4

Additional Requirements
Thesis Project
In order to begin work on the thesis project, students must first successfully propose their project to a committee of MFA animation and digital arts program faculty. Their proposal is prepared during the spring semester of their second year as part of their pre-thesis class CTAN 591. In order to pass the pre-thesis class, the thesis proposal must be presented and approved by the thesis committee at the end of the fourth semester. Students cannot change their approved thesis project after the completion of CTAN 591. Throughout the pre-thesis and thesis years of study, students will meet regularly with an MFA animation and digital arts faculty adviser(s) and thesis committee to develop and refine the proposal and discuss the progress of their work. The adviser(s) will be a member of the thesis committee. The proposal itself will include a written treatment of the project with a discussion of similar work in the field and its relationship to the proposed project. It will describe aesthetic issues to be explored and specific techniques to be employed in its realization. It will also include a storyboard or visualization, budget and schedule, in addition to supporting materials created by the student demonstrating his/her ability to pursue the project. The thesis committee will make comments and decide whether the student may go forward with his/her project. Upon acceptance, the student will begin work on the project, otherwise revising the proposal and meeting again with the committee.

A mid-residency review of the thesis project will take place in the first semester of the final year of study. The student must show that deadlines set in the proposal have been met and that progress consistent with the proposal has been made. The committee may, if necessary, suggest modifications to the project, which the student is then obligated to implement. In the final year, students concentrate on their thesis projects, completing production and post-production. The student's thesis will be presented to the committee upon completion. Completion is defined as a fully rendered, animated piece with a completed sound track (guide mix acceptable). In the case of live action and visual effects projects, at least 70 percent of the final film must be animated. In the case of installation work, the piece must be mounted in a suitable space with all sound and animated components completed and functional. In the case of an interactive work the piece must be fully functional with completed animation, sound and interactivity.

In addition to completion of the thesis project, the student must provide the thesis committee with written and visual documentation of the research. This will be documented as a Website or interactive DVD. The documentation comprises the following and should include a publishable research paper: synopsis; artist's statement and research paper; learning objectives — focus of research; type of project — animation, installation, interactive, etc.; research presentation in the format/medium in which the piece is to be seen; script and storyboard or conceptual drawings if applicable; style approach, including source references for image shot structure, etc.; sound design and references; collaborators — if any; audience — who it is intended for and who will benefit from the research; budget; marketing and distribution plan.

Criteria for successful completion include: 40 percent originality, 40 percent quality of execution and 20 percent quality of research documentation.

Grade Point Average Requirements
A grade point average of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree. Courses below a C must be repeated.

Time Limit
Students must maintain satisfactory progress toward their master's degrees at all times. The time limit to complete all requirements is three years from the first course at USC
applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.

The Bryan Singer Division of Cinema and Media Studies

The Bryan Singer Division of Cinema and Media Studies of the School of Cinematic Arts offers programs leading to the Bachelor of Arts, Master of Arts and Doctor of Philosophy degrees. This comprehensive curriculum includes courses that analyze the power and responsibility of American and international film and television and new media technologies from formal/aesthetic, historical, economic and ideological perspectives.

The division is committed to understanding film and television texts in relation to the world they represent; it studies not only the meanings of these texts but also the processes by which these meanings are constructed.

Applicants for the BA or MA or PhD degrees must submit the supplemental application and materials to the Cinema and Media Studies Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358, or online at cinema.usc.edu.

Bachelor's Degree

Cinema and Media Studies (BA)

The Bachelor of Arts degree in Cinema and Media Studies is granted by the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Undergraduate students take their preprofessional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including 28 lower-division and 24 upper-division units in cinematic arts. A maximum of 40 School of Cinematic Arts upper-division units will apply to the BA degree. Before graduating, cinema and media studies majors are encouraged to take at least one small non-lecture class that emphasizes student critical writing or research papers. This category may include (but is not limited to): CTCS 402, CTCS 411, CTCS 412, CTCS 414, sections of CTCS 464 or CTCS 469 that require a D clearance, CTCS 494, and CTCS 495.

Required Production Course

Undergraduates admitted to the Cinema and Media Studies Program are required to take CTPR 290 Cinematic Communication. CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

Required Courses

- CNTV 101 Reality Starts Here Units: 2
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 191 Introduction to Television and Video Units: 4
- CTCS 192gm Race, Class, and Gender in American Film Units: 4
- CTCS 200g History of the International Cinema I Units: 4
- CTCS 201 History of the International Cinema II Units: 4
- CTCS 473 Film and Media Theory Units: 4
- CTPR 290 Cinematic Communication Units: 4, 6

One course from the following:

- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 History of the American Film, 1946–1975 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4

Four courses from the following:

- CTCS 367 Global Media Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- CTCS 402 Practicum in Film/Television Criticism Units: 4
- CTCS 403 Studies in National and Regional Media Units: 4
- CTCS 404 Television Criticism and Theory Units: 4
- CTCS 406 History of American Television Units: 4
- CTCS 407 African American Cinema Units: 4
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 411 Film, Television and Cultural Studies Units: 4
- CTCS 412 Gender, Sexuality and Media Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4
- CTCS 494 Advanced Cinema and Media Studies Seminar Units: 4
- CTCS 495 Honors Seminar Units: 4

Note:

*Honors students only.

Additional Requirements

Grade Point Average Requirements
A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not satisfy a major requirement.

Honors Program
Cinema and Media Studies offers an honors track for advanced students. Admission to the honors track is made at the end of the junior year and requires a 3.5 overall GPA. Completion of the honors track is dependent upon successful completion of a designated honors section of CTCS 495 during the senior year. In this course, students will work with faculty in a seminar environment and produce an advanced term paper based on original research and analysis.

Limitations on Enrollment
No more than 40 upper-division units can be taken within the major without prior approval of the Dean, USC Dornsife College of Letters, Arts and Sciences. Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review
Cinematic arts majors are expected to meet with an academic adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office, SCB 105, (213) 740-8358, for an appointment.

Master's Degree
Cinema and Media Studies (MA)
The Master of Arts degree in Cinema and Media Studies is administered through the Graduate School. Candidates for the degree are subject to the general requirements of the Graduate School (see the Graduate School section). Thirty-six units are required at the 400 level or higher, including a comprehensive examination. At least two-thirds of these units must be at the 500 level or higher.

Media Production and Practice
Courses
Each graduate student must pass one of the following 4-unit media production and practice classes with a grade of C or better. These courses provide a basic primer in media production and practice considered necessary for graduate studies in the program, so students can have a working knowledge of techniques and methods.

- CTIN 534L Experiments in Interactivity I Units: 4
- CTPR 507 Production I Units: 4
- IML 501L Seminar in Contemporary Digital Media Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4 (4 units only)

Required Courses
- CTCS 500 Seminar in Film Theory Units: 4
- CTCS 506 Critical Studies Colloquium/Professional Seminar Units: 2
- CTCS 587 Seminar in Television Theory Units: 4

Three of the following:
- CTCS 501 World Cinema Before 1945 Units: 2
- CTCS 502 World Cinema After 1945 Units: 2
- CTCS 503 Survey History of the United States Sound Film Units: 2
- CTCS 504 Survey of Television History Units: 2
- CTCS 505 Survey of Interactive Media Units: 2

Two of the following:
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 517 Introductory Concepts in Cultural Studies Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 585 Seminar in Film/Television Critical Theory and Production Units: 4

Note:
In addition, 8 units of cinematic arts electives are required.

Additional Requirements
Comprehensive Examination
As the final requirement for the MA degree, the comprehensive examination will be taken in the final spring semester of course work. There is no thesis option. The examination will consist of written responses to three questions selected from a list of fields, the appropriate fields chosen with the guidance of a faculty adviser.

If the student has completed all course work and is only taking the comprehensive examination, he or she must register in GRSC 810 Studies for Master's Examination.

Grade Point Average Requirements
A grade point average of 3.0 must be maintained in all graduate-level course work. Courses in which a grade of C-(1.7) or lower is earned will not apply toward a graduate degree.

Policies
The following policies apply to each student admitted to the MA program:
Students must maintain full-time enrollment except in a case of emergency in which the student can petition the department to enroll in fewer units.
Students who do not earn the minimum grade of B (3.0) in CTCS 500 or satisfy the degree requirements after repeating a required course will be disqualified from the program.

Time Limit
Although students are normally expected to complete the degree in two years, the degree must be completed within five years of the beginning of graduate work at USC.

Curriculum Review
At the beginning of their matriculation, and each semester thereafter, each MA candidate will confer with a designated faculty adviser who will monitor the student's progress.

Doctoral Degree
Cinema and Media Studies (PhD)
The degree of Doctor of Philosophy in Cinema and Media Studies is administered through the Graduate School. The PhD program is tailored to the individual student's particular needs and interests. The overall course of study will be designed by the student, the student's designated adviser and, following the screening procedure, the student's qualifying exam committee chair (see Screening Procedure under Media Production and Practice Courses).

Degree Requirements
Each PhD candidate must complete 68 units beyond the bachelor's degree, 43 of which must be at the 500 level or higher. (Up to 30 units may be transferred from graduate work completed at other institutions.) Dissertation units are not counted toward the 68-unit total. The required units will include seven to 12 courses in cinematic arts and 8 to 16 units in the minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field that supports the student's dissertation topic. Each student must complete the following course work toward the 68-unit total. These courses should be taken before the screening procedure.

- CTCS 500 Seminar in Film Theory Units: 4
- CTCS 506 Critical Studies Colloquium/Professional Seminar Units: 2
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4
- CTCS 587 Seminar in Television Theory Units: 4

Media Production and Practice Courses
Each candidate for the PhD must complete one of the following 4-unit courses with a grade of C or better. If the student enters the program with a master's degree in cinematic arts and possesses production experience, the student may request a waiver of this requirement. The waiver requires passing a written examination and submission of films/videos to the production faculty for review. This course should be taken before the screening procedure.

- CTIN 534L Experiments in Interactivity I Units: 4
- CTPR 507 Production I Units: 4
- IML 501L Seminar in Contemporary Digital Media Units: 4
- IML 502 Techniques of Information Visualization Units: 4
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4 (4 units only)

Two of the following:

- CTCS 673 Topics in Theory Units: 4
- CTCS 677 Cultural Theory Units: 4
- CTCS 678 Seminar in Film Theory and Medium Specificity Units: 4
- CTCS 679 Seminar in Genre and/or Narrative Theory Units: 4
- CTCS 688 Moving Image Histories: Methods and Approaches Units: 4

Screening Procedure
The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. This procedure is designed to review the student's suitability for continuing in the chosen PhD program. The School of Cinematic Arts has determined that this procedure will occur no later than the end of the student's third semester of graduate course work at USC beyond the master's degree. The screening procedure process will include the following steps:

1. If the faculty has determined during the admissions process that a comprehensive examination will be required as part of the screening procedure, an examination will be administered as appropriate. If the examination is passed to the faculty's satisfaction, the student may proceed to the next step in the screening procedure process. If the student fails to pass the examination, the faculty will determine if the student will be allowed to retake the examination the following semester before proceeding to the next step in the screening procedure process.

2. The student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. If approved to continue, a qualifying exam committee chair will be selected by the student, with the approval of the faculty, who will serve as the student's adviser. It is strongly recommended that full-time study be pursued following the successful completion of the screening procedure.

Qualifying Exam Committee
Following a successful screening procedure, the student, in consultation with the qualifying exam committee chair and the Cinema and Media Studies faculty, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinema and Media Studies, the committee is ordinarily composed of four Cinema and Media Studies faculty members and an outside member from the candidate's minor area.

Foreign Language Requirement
The Cinema and Media Studies faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

Dissertation Proposal Presentation
Working closely with the qualifying exam committee chair, the student will prepare to present his or her dissertation proposal to the full faculty. This will be a formal written proposal that will include a statement of the proposed topic, four fields for examination derived from the general dissertation topic area (including a field from the minor area), a detailed bibliography, and an appropriate and
comprehensive screening list of film/television titles. Formal presentation of the dissertation proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The qualifying exam committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete the Request to Take the PhD Qualifying Examination form available from the program coordinator.

Qualifying Examinations
Written and oral examinations for the PhD are given twice a year, in November and April. Questions for the written portion of the examination will be drafted by members of the qualifying exam committee who will also grade the examination. The qualifying examination comprises four examinations administered one each day for four days during a five-day period. The oral examination will be scheduled within 30 days after the written examination. All qualifying exam committee members must be present for the oral portion of the qualifying examination.

Admission to Candidacy
A student is eligible for admission to candidacy for the PhD degree after: (1) passing the screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable; (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Graduate School.

Dissertation Committee
The dissertation committee is composed as specified by regulations of the Graduate School. A dissertation based on original investigation and showing technical mastery of a special field, capacity for research and scholarly ability must be submitted.

CTCS 794
Registration for dissertation units, CTCS 794a and CTCS 794b, in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied toward the required 68 unit total. The student must register for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z.

Defense of Dissertation
An oral defense of the dissertation is required of each PhD candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

Policies
The following policies apply to each student admitted to the PhD program.

Residency Requirements
At least one year of full-time graduate study (24 units excluding registration for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

Grade Point Average
An overall GPA of 3.0 is required for all graduate work. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

Leaves of Absence
A leave of absence may be granted under exceptional circumstances by petitioning the semester before the leave is to be taken. Refer to "Leave of Absence" in the Graduate and Professional Education section.

Changes of Committee
Changes in either the qualifying exam or dissertation committee must be requested on a form available from the Graduate School Website.

Completion of All Requirements
Everything involved in approving the dissertation must be completed at least one week before graduation. Approval by the dissertation committee, the Office of Academic Records and Registrar, and the thesis editor must be reported and submitted to the Graduate School by the date of graduation.

Time Limits
The maximum time limit for completing all requirements for the PhD degree is eight years from the first course at USC applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere within five years from the proposed enrollment in a PhD program must complete the PhD in six years. Extension of these time limits will be made only for compelling reasons upon petition by the student. When petitions are granted, students will be required to make additional CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z registrations. Course work more than 10 years old is automatically invalidated and cannot be applied toward the degree.

Cinematic Arts (Critical Studies) (PhD)
The degree of Doctor of Philosophy with an emphasis in Critical Studies is administered through the Graduate School. The PhD program is tailored to the individual student's particular needs and interests. The overall course of study will be designed by the student, the student's designated adviser and, following the screening procedure, the student's qualifying exam committee chair (see Screening Procedure under Graduate Preparation Production Courses).

Admission
A bachelor's or master's degree in cinematic arts, or a closely related field, is required for admission to the PhD program. Applicants with only a bachelor's degree must successfully fulfill all of the USC Critical Studies MA degree requirements as part of the degree program (see Screening Procedure).

Course Requirements
Each PhD candidate must complete 68 units beyond the bachelor's degree, 43 of which must be at the 500 level or higher. (Up to 30 units may be transferred from graduate work completed at other institutions.) Dissertation units are not counted toward the 68-unit total. The required units will include seven to 12 courses in cinematic arts and 8 to 16 units in the minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field which supports the student's dissertation topic. Each student must complete the following course work toward the 68 unit total:

1. *CTCS 500, CTCS 506, CTCS 510, CTCS 587, CTPR 507*. These courses should be taken before the screening procedure.
2. *Two of the following: CTCS 673, CTCS 677, CTCS 678, CTCS 679, CTCS 688*. These courses should be taken before the qualifying examination.

**Graduate Preparation Production Course**

Each candidate for the PhD must complete CTPR 507 Production I 4 with a grade of C or better. If the student enters the program with a master's degree in cinematic arts and possesses production experience, the student may request a waiver of this requirement. The waiver requires passing a written examination and submission of films/videos to the production faculty for review.

CTPR 507 Production I 4 is designed to introduce the fundamental principles of motion picture production. The course also introduces students to visual and auditory communication and individual filmmaking. Each student makes several non-dialogue personal projects, serving as writer, producer, director, cinematographer, sound designer and editor and takes a crew role on a collaborative project. Projects are shot on digital cameras and edited on non-linear systems. Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees. This course should be taken before the beginning of the screening procedure.

**Screening Procedure**

The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. This procedure is designed to review the student's suitability for continuing in the chosen PhD program. The School of Cinematic Arts has determined that this procedure will occur no later than the end of the student's third semester of graduate course work at USC beyond the master's degree. The screening procedure process will include the following steps:

1. If the faculty has determined during the admissions process that a comprehensive examination will be required as part of the screening procedure, an examination will be administered as appropriate. If the examination is passed to the faculty's satisfaction, the student may proceed to the next step in the screening process. If the student fails to pass the examination, the faculty will determine if the student will be allowed to retake the examination the following semester before proceeding to the next step in the screening procedure process.
2. The student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. If approved to continue, a qualifying exam committee chair will be selected by the student, with the approval of the faculty, who will serve as the student's adviser. It is strongly recommended that full-time study be pursued following the successful completion of the screening procedure.

**Qualifying Exam Committee**

Following a successful screening procedure, the student, in consultation with the qualifying exam committee chair and the Critical Studies faculty, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinematic Arts (Critical Studies), the committee is ordinarily composed of four Critical Studies faculty members and an outside member from the candidate's minor area.

**Foreign Language Requirement**

The Critical Studies faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

**Dissertation Proposal Presentation**

Working closely with the qualifying exam committee chair, the student will prepare to present his or her dissertation proposal to the full faculty. This will be a formal written proposal which will include a statement of the proposed topic, four fields for examination derived from the general dissertation topic area (including a field from the minor area), a detailed bibliography, and an appropriate and comprehensive screening list of film/television titles. Formal presentation of the dissertation proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The qualifying exam committee must approve the dissertation topic. Once the dissertation topic has been approved, the student will complete the Request to Take the PhD Qualifying Examination form available from the program coordinator.

**Qualifying Examinations**

Written and oral examinations for the PhD are given twice a year, in November and April. Questions for the written portion of the examination will be drafted by members of the qualifying exam committee who will also grade the examination. The qualifying examination comprises four examinations administered one each day for four days during a five-day period.

The oral examination will be scheduled within 30 days after the written examination. All qualifying exam committee members must be present for the oral portion of the qualifying examination.

**Admission to Candidacy**

A student is eligible for admission to candidacy for the PhD degree after: (1) passing the screening procedure; (2)
presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable; (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination.

Admission to candidacy is by action of the Graduate School.

**Dissertation Committee**

The dissertation committee is composed as specified by regulations of the Graduate School. A dissertation based on original investigation and showing technical mastery of a special field, capacity for research and scholarly ability must be submitted.

**CTCS 794**

Registration for dissertation units, CTCS 794a and CTCS 794b, in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied toward the required 68 unit total. The student must register for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794e each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794z.

**Defense of Dissertation**

An oral defense of the dissertation is required of each PhD candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

**Policies**

The following policies apply to each student admitted to the PhD program.

**Residency Requirements**

At least one year of full-time graduate study (24 units excluding registration for CTCS 794a, CTCS 794b, CTCS 794c, CTCS 794d, CTCS 794e) must be completed in residence on the main USC campus. The residency requirement may not be interrupted by study elsewhere. Residency must be completed prior to the qualifying examination.

**Film and Television Production**

The Division of Film and Television Production of the School of Cinematic Arts offers programs leading to the Bachelor of Arts, the Bachelor of Fine Arts and the Master of Fine Arts degrees.

The primary goals of the degree programs in film and television production are to develop the student's ability to express original ideas on film or video and to instill a thorough understanding of the technical and aesthetic aspects of motion pictures and television. Courses in production provide individual and group filmmaking experiences and the opportunity to learn all aspects of filmmaking in a collaborative environment.

**Bachelor's Degree**

**Cinematic Arts, Film and Television Production (BA)**

The Bachelor of Arts in Cinematic Arts, Film and Television Production is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within a framework which combines a broad liberal arts background with specialization in a profession. Bachelor of Arts students are enrolled in the USC Dornsife College of Letters, Arts and Sciences, where they take their preprofessional courses, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including 16 lower-division units and 26 upper-division units in Cinematic Arts. A maximum of 40 School of Cinematic Arts upper-division units will apply to the BA degree.

Applicants must submit a supplemental application and materials to the Undergraduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at cinema.usc.edu.

**General Education Requirements**
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing.

Production Sequence

Candidates for the Bachelor of Arts degree in Cinematic Arts, Film and Television Production are required to take CTPR 294 Directing in Television, Fiction, and Documentary and CTPR 295 L Cinematic Arts Laboratory the first semester they are enrolled in the program. These courses are taken in preparation for the next phase of the production sequence, CTPR 310 Intermediate Production.

In CTPR 294, students explore the basic concepts of directing in television, documentary and dramatic narrative by working with actors, documentary production and the creation of short television projects. In CTPR 295, students study the aesthetics and tools of the major disciplines of cinematic arts: producing, cinematography, sound and editing.

CTPR 310 Intermediate Production is the second phase of the production sequence. In this workshop, students work in small crews, learning to collaborate and explore the expressive principles of visual and audio communication; idea development and realization using image, movement, pace, the spoken word and other sounds. Most equipment and materials are provided by the school; however, approximately $2,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

To qualify for enrollment in CTPR 310, students must fulfill all requirements outlined in the guidelines distributed in CTPR 294.

Following CTPR 310, students must take CTPR 450 The Production and Post-Production Assistant, and refine their areas of interest by taking advanced-level practicum courses within the major disciplines of production: directing, editing, cinematography, sound, producing and production design. Thereafter students complete the final phase of the production sequence by taking one of the following courses:

CTAN 448, CTPR 480, CTPR 484 or CTPR 486. CTAN 448 Introduction to Film Graphics — Animation is a practical course in concepts, media and techniques related to the graphic film.

In CTPR 480 Advanced Production Workshop, production students form crews in which directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver a fictional narrative, documentary or experimental project in one semester. Equipment and facilities are provided by the school. There are extra personal expenses associated with all production workshops.

To qualify for enrollment in CTPR 480, students must fulfill all requirements outlined in the CTPR 480 guidelines distributed in CTPR 450.
• CTPR 421 Practicum in Editing Units: 2
• CTPR 424 Practicum in Cinematography Units: 2
• CTPR 438 Practicum in Producing Units: 2
• CTPR 440 Practicum in Sound Units: 2 max 4
• CTPR 465 Practicum in Production Design Units: 2
• CTPR 478 Practicum in Directing Units: 2

Three of the following production practicum courses:
• CTPR 421 Practicum in Editing
• CTPR 424 Practicum in Cinematography
• CTPR 438 Practicum in Producing
• CTPR 440 Practicum in Sound
• CTPR 465 Practicum in Production Design
• CTPR 478 Practicum in Directing
• CTPR 479 Practicum in Writing

One of the following courses:
• CTAN 448 Introduction to Film Graphics — Animation Units: 4
• CTPR 480 Advanced Production Workshop Units: 4 max 12
• CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
• CTPR 486 Single Camera Television Dramatic Series Units: 4

Additional Requirements

Grade Point Average Requirements
A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTPR 294, CTPR 295 and CTPR 310 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment
No more than 40 upper-division units can be taken in the major without approval of the dean, USC Dornsife College of Letters, Arts and Sciences.

Registration in graduate level courses (numbered 500) for undergraduate credit requires prior approval of the School of Cinematic Arts.

Curriculum Review
Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office (SCB 105), (213) 740-8358, for an appointment.

Cinematic Arts, Film and Television Production (BFA)
The Bachelor of Fine Arts in Cinematic Arts, Film and Television Production is a unique four-year program, offered by the School of Cinematic Arts, that combines a liberal arts background with comprehensive specialization in a profession. Students are provided an intensive production experience combined with requirements and electives from other School of Cinematic Arts programs including Critical Studies, Writing, Animation and Interactive Media. The degree requires 128 units, including 64 units in Cinematic Arts, many of which are taken in a sequential order.

Applicants must submit a supplemental application and materials to the Undergraduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at cinema.usc.edu.

General Education Requirements
The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing.

Production Sequence
Candidates for the Bachelor of Fine Arts degree in Film and Television Production are required to take CTPR 285 Lateral Thinking for Filmmaking Practice, CTPR 290 Cinematic Communication, CTPR 294 Directing in Television, Fiction, and Documentary and CTPR 295 L Cinematic Arts Laboratory. These courses are taken in the first two years of the program in preparation for the next phase of the production sequence, CTPR 310 Intermediate Production.

CTPR 285 introduces contemporary concepts of production, emphasizing the variety of contemporary media and significant related concepts. Students will create mini-projects using laptops, phones and networks.

CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

In CTPR 294, students explore the basic concepts of directing in television, documentary and dramatic narrative by working with actors, documentary production and the creation of short television projects.

In CTPR 295, students study the aesthetics and tools of the major disciplines of cinematic arts: producing, cinematography, sound and editing.

CTPR 310 Intermediate Production is the second phase of the production sequence. In this workshop students work in small crews, learning to collaborate and explore the expressive principles of visual and audio communication; idea development and realization using image, movement, pace, the spoken word and other sounds. Most equipment and materials are provided by the school; however, approximately $2,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

To qualify for enrollment in CTPR 310, students must fulfill all requirements outlined in the CTPR 310 guidelines distributed in CTPR 294.

Following CTPR 310, students must take CTPR 450 The Production and Post-Production Assistant, and refine their areas of interest by taking advanced-level practicum courses within the major disciplines of production: directing, editing,
cinematography, sound, producing and production design. Thereafter students complete the final phase of the production sequence by taking one of the following courses: CTPR 480, CTPR 484 or CTPR 486.

In CTPR 480 Advanced Production Workshop, production students form crews in which directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver a fictional narrative, documentary or experimental project in one semester. Equipment and facilities are provided by the school. There are extra personal expenses associated with all production workshops.

To qualify for enrollment in CTPR 480, students must fulfill all requirements outlined in the CTPR 480 guidelines distributed in CTPR 450.

CTPR 484 Advanced Multi-Camera Television Workshop is a class in which students will produce a half-hour situation comedy pilot in one semester.

CTPR 486 Single Camera Television Dramatic Series is a class in which students collaborate on the production and post-production of an original episodic drama, 44 minutes in length, that is shot on original sets. CTPR 285, CTPR 290, CTPR 294, CTPR 295, CTPR 310, CTPR 480, CTPR 484 and CTPR 486 cannot be waived or substituted with another course or transfer credit under any circumstances.

Additional Requirements

Grade Point Average Requirements
A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement.

Students who do not earn the minimum grade of C (2.0) in CTPR 285, CTPR 290, CTPR 294, CTPR 295 and CTPR 310 after repeating these requirements will be disqualified from the program.

Limitations on Enrollment
Registration in graduate-level courses (numbered 500) for undergraduate credit requires prior approval from the School of Cinematic Arts.

Curriculum Review
Cinematic Arts majors are expected to meet with an adviser every semester to review their progress. Contact the Cinematic Arts Student Services Office (SCB 105), (213) 740-8358, for an appointment.

Master's Degree

Cinematic Arts, Film and Television Production (MFA)
The Master of Fine Arts, Cinematic Arts, Film and Television Production, requires a minimum of 52 units in cinematic arts at the 400 or 500 level. A thesis is not required for the MFA degree.

Applications for the graduate production program are accepted for both fall and spring semesters. See a current Graduate Study Application for deadlines. Applicants must submit supplemental applications and materials to the Graduate Production Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at cinema.usc.edu.

Graduate First Year Production Courses
CTPR 507, which brings together students from other School of Cinematic Arts divisions, introduces the fundamental principles of motion picture production, emphasizing visual and auditory communication. Projects are shot using digital cameras and edited on non-linear systems. Approximately $1,200 should be budgeted for miscellaneous expenses, lab and insurance fees. Production students must take CTPR 507 concurrently with CTPR 510 Concepts of Cinematic Production, and CTWR 505 Creating the Short Film in the first semester.

In CTPR 508, students produce short films in small crews. The primary goal is to communicate effectively through sound/image relationships. Most equipment and materials are provided by the school, but approximately $2,000 should be budgeted for miscellaneous expenses, lab and insurance fees. A minimum grade of C (2.0) in CTPR 507 and CTPR 508 is required in order to continue in the Master of Fine Arts program. Students earning lower than a C (2.0) in any other production course requirement may repeat the requirement on a one time only basis upon approval of the division chair.

Students who do not earn the minimum grade of C (2.0) in CTPR 507 or CTPR 508 or satisfy the degree requirements after repeating a required course will be disqualified from the program.

Our program is distinguished by the understanding and hands-on practice our graduates achieve in all mediamaking disciplines; at the same time, each student pursues specialized interests in years two and three. To qualify for the MFA, each must demonstrate mastery of at least one of six disciplines: writing, producing, directing, cinematography, editing or sound. In the discipline chosen, the candidate must register for and complete an advanced project, as well as the defined prerequisites.

CTPR 507, CTPR 508, CTPR 510, CTPR 546, CTPR 547, CTPR 581a, CTPR 581b, CTPR 581c, CTPR 581z, CTPR 582a, CTPR 582b, CTPR 582c, CTPR 583, CTPR 585a, CTPR 585b, CTPR 585z and CTPR 587a, CTPR 587b, CTPR 587c, CTPR 587z cannot be waived or substituted with transfer credit under any circumstances.

Three-Year Requirements for the MFA in Production

Year One, First Semester
• CTPR 507 Production I Units: 4
• CTPR 510 Concepts of Cinematic Production Units: 2
• CTWR 505 Creating the Short Film Units: 2
Total units: 8

Year One, Second Semester
• CTPR 508 Production II Units: 6
• CTWR 516 Advanced Motion Picture Script Analysis Units: 2
Total units: 8

Year Two, First and Second Semesters
• CTPR 506 Visual Expression Units: 2
• CTWR 529 Intermediate Screenwriting Units: 2
Choose 6 units from the following:
• CTPR 464 Directing the Television Sketch Comedy Show Units: 2
• CTPR 479 Single Camera Television Dramatic Pilot Units: 2

266
CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
CTPR 486 Single Camera Television Dramatic Series Units: 4
CTPR 523 Introduction to Multiple-Camera Production Units: 2
CTPR 546L Production III, Fiction Units: 6
CTPR 547L Production III, Documentary Units: 6

One of the following:
- CTPR 479 Single Camera Television Dramatic Pilot Units: 2
- CTPR 497 Music Video Production Units: 2
- CTPR 522 Reality Television Survey Units: 2
- CTPR 523 Introduction to Multiple-Camera Production Units: 2
- CTPR 572 The World of Television: From Concept to Air and Everything in Between Units: 2

Note: Courses can only count toward one requirement. Students who choose CTPR 479 or CTPR 523 to satisfy this requirement cannot use either course to satisfy the Production III requirement.

Six units from the required Cinematic Arts emphasis courses:
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTPR 486 Single Camera Television Dramatic Series Units: 4
- CTPR 531 Planning the Documentary Production Units: 2
- CTPR 532 Intermediate Directing Units: 2
- CTPR 533 Directing Techniques Units: 2
- CTPR 534 Intermediate Production Design Units: 2
- CTPR 535 Intermediate Editing Units: 2
- CTPR 537 Intermediate Cinematography Units: 2
- CTPR 538 Intermediate Producing Units: 2
- CTPR 540 Intermediate Sound Units: 2
- CTPR 551 Directing in a Virtual World Units: 2
- CTPR 552 Advanced Directing Units: 2
- CTPR 553 Developing the Advanced Project Units: 1
- CTPR 554 Advanced Sound Units: 2
- CTPR 556 Advanced Editing Units: 2
- CTPR 557 Advanced Cinematography Units: 2
- CTPR 558 Advanced Producing Units: 2
- CTPR 565 Making Media for Social Change Units: 2
- CTPR 573 Producing the Advanced Project Units: 1

- CTPR 546L Production III, Fiction Units: 6
- CTPR 547L Production III, Documentary Units: 6

Year Three, First and Second Semesters
One of the following courses**:
- CTPR 546L Production III, Fiction Units: 6
- CTPR 547L Production III, Documentary Units: 6

• CTPR 546L Production III, Fiction Units: 6
- CTPR 546L Production III, Fiction Units: 6
- CTPR 547L Production III, Documentary Units: 6
- CTPR 547L Production III, Documentary Units: 6

Note: Students must complete the prerequisites and follow the guidelines for these courses.

One of the following:
- CNTV 457 The Entertainment Entrepreneur: Getting Your First Project Made Units: 2
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4
**CNTV 595 Professional Practicum Units: 1, 2, 4**
**CTPR 458 Organizing Creativity: Entertainment Industry Decision Making Units: 2**
**CTPR 496 The Film Industry: Career Challenges and Choices for Women Units: 2**
**CTPR 566 Developing and Selling Your Film and TV Projects Units: 2**

**At least 4 units from the following cinema and media studies courses:**
- **CTCS 464 Film and/or Television Genres Units: 4**
- **CTCS 469 Film and/or Television Style Analysis Units: 4**
- **CTCS 501 World Cinema Before 1945 Units: 2**
- **CTCS 502 World Cinema After 1945 Units: 2**
- **CTCS 503 Survey History of the United States Sound Film Units: 2**
- **CTCS 504 Survey of Television History Units: 2**
- **CTCS 505 Survey of Interactive Media Units: 2**
- **CTCS 510 Case Studies in National Media and/or Regional Media Units: 4 max 12**
- **CTCS 511 Seminar: Non-Fiction Film/Video Units: 4**
- **CTCS 518 Seminar: Avant-Garde Film/Video Units: 4**
- **CTCS 564 Seminar in Film and Television Genres Units: 4**
- **CTCS 567 Seminar in Film/Television and a Related Art Units: 4**
- **CTCS 569 Seminar in Film and Television Authors Units: 4**
- **CTCS 585 Seminar in Film/Television Critical Theory and Production Units: 4**
- **CTCS 587 Seminar in Television Theory Units: 4**

**Interactive Media and Games Division**

The Interactive Media and Games Division offers a Bachelor of Arts in Interactive Entertainment and a Master of Fine Arts in Interactive Media as well as a number of courses in computer-based entertainment for non-majors. The fundamental philosophy of the division is coherent with that of the school's program, stressing creativity of expression, experimentation and excellence in execution.

**Bachelor's Degree**

**Interactive Entertainment (BA)**
The Bachelor of Arts in Interactive Entertainment is granted through the USC Dornsife College of Letters, Arts and Sciences in conjunction with the School of Cinematic Arts. Students study within a framework, which combines a broad liberal arts background with specialization in a profession. Undergraduate students take their pre-professional courses in the USC Dornsife College of Letters, Arts and Sciences, including the general education requirements. Major courses are selected from the curriculum of the School of Cinematic Arts. The degree requires 128 units, including a minimum of 48 units in the major.

**General Education Requirements**
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See General Education Program for more information.

**Required Production Courses**

**Additional Requirements**

**Grade Point Average Requirements**
A grade point average of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate degree.

**Time Limit**
Students must maintain satisfactory progress toward their master's degree at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree. Students are expected to meet with a faculty adviser every semester.

**Graduate Review**
One year prior to graduation, students must see their academic advisers for a curriculum and graduation review. Contact the Production Faculty Office for forms (213) 740-3317.
Undergraduates admitted to the Interactive Entertainment Program are required to take CTPR 290. CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

**Required Courses**

- CNTV 101 Reality Starts Here Units: 2
- CSCI 101L Fundamentals of Computer Programming Units: 3 or
  CTIN 101 Fundamentals of Procedural Media Units: 2
- CTCV 190g Introduction to Cinema Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 484L Intermediate Game Development Units: 2
- CTIN 488 Game Design Workshop Units: 4
- CTIN 489 Intermediate Game Design Workshop Units: 2
- CTPR 290 Cinematic Communication Units: 4, 6

**Note:**

*Enrollment in CTIN 484 and CTIN 489 is concurrent*

**At least 6 units of the following are required:**

- CTAN 330 Animation Fundamentals Units: 2
- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTIN 401L Interface Design for Games Units: 2
- CTIN 403L Advanced Visual Design for Games Units: 2
- CTIN 404L Usability Testing for Games Units: 2
- CTIN 405L Design and Technology for Mobile Experiences Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 483 Designing Online Multiplayer Game Environments Units: 2
- CTIN 485L Advanced Game Development Units: 2
- CTIN 486 Alternative Control Workshop Units: 2
- IML 340 Remixing the Archive Units: 4
- IML 346 Methods in Digital Research Units: 2

**At least one of the following is required:**

- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4
- CTIN 110 Statistical Analysis for Games: Storytelling with Numbers Units: 4
- CTIN 462 Critical Theory and Analysis of Games Units: 4
- CTIN 463 Anatomy of a Game Units: 4
- CTWR 410L Character Development and Storytelling for Games Units: 4
- IML 420m New Media for Social Change Units: 4

**Note:**

*Prerequisite: IML 104 or IML 140 or IML 201.*

**At least one of the following is required:**

- CTIN 459L Game Industry Workshop Units: 4
- CTIN 491L Advanced Game Project I Units: 4
- CTIN 492L Experimental Game Topics Units: 4

**Note:**

Four additional upper-division units of Cinematic Arts electives

**Additional Requirements**

**Grade Point Average Requirements**

A minimum grade of C, 2.0 (A = 4.0), must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not fulfill a major requirement. Students who do not earn the minimum grade of C (2.0) in CTIN 190, CTIN 483, CTIN 484, CTIN 488 or CTIN 489 after repeating these requirements will be disqualified from the program.

**Limitations on Enrollment**

Registration in graduate-level courses (numbered 500) for undergraduate credit requires prior approval of the School of Cinematic Arts.

**Curriculum Review**

Cinematic arts majors are expected to meet with an adviser every semester to review their progress. Contact the Interactive Media Program Office, SCA 223, (213) 821-4472, for an appointment.

**Master's Degree**

Cinematic Arts (Media Arts, Games and Health) (MA)

The Master of Arts in Cinematic Arts with an emphasis in Media Arts, Games and Health is administered by the Graduate School in conjunction with the Creative Media & Behavioral Health Center. The curriculum is based on center crosscutting initiatives that represent the broadest descriptions of our vision and mission. Students benefit from emerging research, tools and methodologies that converge at the center, as well as the wide range of backgrounds represented by faculty, students and visiting scholars. Research is prioritized based on a combination of factors, including potential impact and benefit to society and overall

269
alignment with center priorities. Some center initiatives include:

- **Sports and Exercise for Wellness**: investigation of novel assessment and treatment techniques using entertainment and technology for improvement of health outcomes related to obesity, nutrition and physical activity;
- **Healthy Brain Architecture**: production and dissemination of innovative storytelling products toward promotion of healthy behavior for brain development and affect regulation during the entire human lifespan;
- **Social and Sensorimotor Play**: investigation of novel assessment and treatment techniques using interactive play for improving social skills, visuospatial navigation and motor coordination in physical space;
- **Games for Health**: promotion, development and assessment of innovative games with behavioral health applications;
- **Storytelling for mHealth** (mobile health): mobile interactive entertainment with general health and wellness applications, or a specific chronic illness focus;
- **The Future of Health Care**: re-imaging the patient/user/player experience within and beyond health care settings.

The goal of the curriculum is to provide integrative research and practice-based training to enable students to combine prior/concurrent education and experience toward design, development and evaluation of health- and wellness-related interventions that incorporate entertainment media experiences (film, games, virtual reality, mobile media, public interactives, transmedia and emerging genres). Candidates for the degree are subject to the general requirements of the Graduate School (see the Graduate School section). Thirty-six units are required at the 400 level or higher, including an integrative project. At least two-thirds of these units must be at the 500 level or higher.

**Required Courses**

- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 541 Design for Interactive Media Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- IML 543 Transdisciplinary Media Design Practicum Units: 4
- CTIN 593 Integrative Project: Media-based Interventions in Healthcare Units: 2, 4
- Electives (8 units minimum from Cinematic Arts)

Units: 36

**Sample Schedule (Two Years, Full-time Study)**

**Year One, First Semester**

- CTIN 541 Design for Interactive Media Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- Electives

Units: 10

**Year One, Second Semester**

- CTIN 503 Interactive Entertainment, Science, and Healthcare Units: 2
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- Electives

Units: 8

**Year Two, First Semester**

- IML 543 Transdisciplinary Media Design Practicum Units: 4
- Electives

Units: 10

**Year Two, Second Semester**

- CTIN 593 Integrative Project: Media-based Interventions in Healthcare Units: 2, 4
- Electives

Units: 8

**Note:**

In addition, 18 units of electives related to the student's area of study will be recommended by the student's adviser; at least 8 of these units should be from Cinematic Arts.

**Electives**

At least 8 units from the following:

- CTAN 443L Character Development for 3-D Animation and Games Units: 2
- CTAN 451 History of Animation Units: 2
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTAN 462 Visual Effects Units: 2
- CTAN 470 Documentary Animation Production Units: 2
- CTAN 495 Visual Music Units: 2
- CTAN 501 Experiments in 2-D Digital Animation Units: 2
- CTAN 502L Experiments in Immersive Design Units: 2
- CTAN 525 Gesture Movement for Animation Units: 2
- CTIN 401L Interface Design for Games Units: 2
- CTIN 405L Design and Technology for Mobile Experiences Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 452L Themed Entertainment Design Units: 4

Units: 36
• CTIN 458 Business and Management of Games
  Units: 2
• CTIN 483 Introduction to Game Development
  Units: 4
• CTIN 484L Intermediate Game Development
  Units: 2 *
• CTIN 485L Advanced Game Development Units: 2 *
• CTIN 486 Alternative Control Workshop Units: 2
• CTIN 488 Game Design Workshop Units: 4
• CTIN 489 Intermediate Game Design Workshop
  Units: 2 *
• CTIN 499 Special Topics Units: 2, 3, 4
• CTIN 501 Interactive Cinema Units: 2
• CTIN 506 Procedural Expression Units: 2
• CTIN 534L Experiments in Interactivity I Units: 4
• CTIN 544 Experiments in Interactivity II Units: 2 *
• CTPR 455 Survey of Production Design Units: 2
• CTPR 507 Production I Units: 4
• CTWR 518 Introduction to Interactive Writing
  Units: 2
• IML 501L Seminar in Contemporary Digital
  Media Units: 4
• IML 502 Techniques of Information Visualization
  Units: 4
• IML 535 Tangible Computing in the Humanities
  and Sciences Units: 4
• IML 575 Graduate Media Arts Research Lab
  Units: 2, 3, 4

Notes:
*Prerequisite required.
**Courses not listed may satisfy this requirement with
approval of the program chair.

CTIN 593 Integrative Project
All students are required to complete a project that showcases
their integrative mastery of prior and newly acquired
knowledge, skills and interests in CTIN 593. It is
recommended that preparatory work for this project begins
with a directed research proposal in CTIN 590, but the
student can begin work sooner. Students are permitted to
complete collaborative integrative projects if they can
successfully articulate a clear timeline, feasibility, individual
contributions and an alternate plan for completion if the
collaboration becomes unsustainable. Building upon prior art
and research (e.g., MFA thesis projects, sponsored research)
is highly recommended because the project will be graded on
the merit and impact of the intervention as a whole (vs. the
aesthetic qualities or innovation of a standalone interactive
artifact). Students need to form a committee of at least three
members (USC faculty member, scientist or health
professional, stakeholder). The criteria for successful
completion will be set by the program director and the
project committee advisers.
The following are examples of integrative projects:

(a) Design/development of an original creative intervention
based on rigorous formative research, or
(b) Design adaptation of an existing intervention based on
rigorous formative research, or
(c) Deployment and evaluation of an original or adapted
intervention.

Grade Point Average Requirement
An overall GPA of at least 3.0 (A = 4.0) must be maintained
in all USC course work toward the master's degree. A
minimum grade of B (3.0) must be earned in all required
courses. Students who do not achieve a grade of B (3.0) in
the required courses after repeating these requirements will
be disqualified from the program. The core courses as well as
CTIN 593 cannot be waived or substituted with transfer
credits under any circumstances.

Time Limit
Students must maintain satisfactory progress toward their
master's degrees at all times. The degree must be completed
five years from the first course at USC applied toward the
Master of Arts degree. Course work more than seven years
old is invalidated and will not be applied toward the degree.
The degree director will review progress toward degree
completion on an annual basis. Students who are not making
satisfactory progress will be provided a remediation plan
with required action deadlines.

Peer Mentoring Requirement
Students are required to provide six hours of peer and/or
team mentoring per month to other students via advising,
critique or skills workshops. Requests for mentoring will be
submitted ad-hoc by students and faculty with a sign-up
sheet.

Interactive Media (Games and Health)
(MFA)
The Master of Fine Arts in Interactive Media with an
emphasis in Games and Health is administered in conjunction
with the Creative Media & Behavioral Health Center. The
curriculum is based on center crosscutting initiatives that
represent the broadest descriptions of our vision and mission.
Students benefit from emerging research, tools and
methodologies that converge at the center, as well as the wide
range of backgrounds represented by faculty, students and
visiting scholars. Research is prioritized based on a
combination of factors, including potential impact and
benefit to society, and overall alignment with center
priorities. Some center initiatives include:

• **Sports and Exercise for Wellness**: investigation of
  novel assessment and treatment techniques
  using entertainment and technology for
  improvement of health outcomes related to
  obesity, nutrition and physical activity
• **Healthy Brain Architecture**: production and
  dissemination of innovative storytelling products
  toward promotion of healthy behavior for brain
  development and affect regulation during the
  entire human lifespan
• **Social and Sensorimotor Play**: investigation of
  novel assessment and treatment techniques using
  interactive play for improving social skills,
visuospatial navigation and motor coordination in physical space

- **Games for Health**: promotion, development and assessment of innovative games with behavioral health applications
- **Storytelling for Mobile Health (mHealth)**: mobile interactive entertainment with general health and wellness applications, or a specific chronic illness focus
- **The Future of Health Care**: re-imagining the patient/user/player experience within and beyond healthcare settings

This emphasis aims to provide specialized training and hands-on experience to enrolled MFA students toward design, development and evaluation of interactive entertainment for health and happiness. Students will obtain a broad perspective on theory, methods and practice through an intensive overview of core concepts of science with a lifespan perspective on brain development, lifelong resilience, wellness and illness. On a practical level, students will learn how to: (a) perform transdisciplinary formative research (e.g., literature reviews, prior art analyses) in order to establish background data and rationale for design and evaluation; (b) tailor intervention design and program design requirements to target population using transdisciplinary methodologies (e.g., ethnography, surveys, observation studies); (c) iteratively develop and/or adapt existing interventions focused on health and wellness in transdisciplinary team environments; (d) design and administer small studies for ecologically valid assessment of interventions (e.g., feasibility pilots, experimental designs, pilot clinical studies).

The degree requires 50 units.

**Requirements for the MFA in Interactive Media (Games and Health)**

**Year One, First Semester**
- CTCS 505 Survey of Interactive Media Units: 2
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 534L Experiments in Interactivity I Units: 4
- CTIN 541 Design for Interactive Media Units: 2

**Total units: 9**

**Year One, Second Semester**
- CTIN 503-Interactive Entertainment, Science and Healthcare Units: 2 or
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 544 Experiments in Interactivity II Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 or
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4
- CTWR 518 Introduction to Interactive Writing Units: 2

**Total units: 9**

**Year Two, First Semester**
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 532L Interactive Design and Production I Units: 4
- CTPR 506 Visual Expression Units: 2
- IML 543-Transdisciplinary Media Design Practicum Units: 4

**Total units: 11**

**Year Two, Second Semester**
- CTIN 503-Interactive Entertainment, Science, and Healthcare Units: 2 or
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 542 Interactive Design and Production II Units: 4
- CTIN 548 Preparing the Interactive Project Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 or
- IML 575 Graduate Media Arts Research Lab Units: 2, 3, 4

**Total units: 11**

**Year Three, First Semester**
- CTIN 594a Master's Thesis Units: 2
- Electives Units: 2

**Total units: 4**

**Year Three, Second Semester**
- CTIN 594b Master's Thesis Units: 2
- Electives Units: 2

**Total units: 4**

**Additional Requirement**
At least 2 units from the following:
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4
- CTIN 458 Business and Management of Games Units: 2
- CTIN 497 Interactive Media Startup Units: 1 max 3
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 558 Business of Interactive Media Units: 2

**Electives**
At least 4 units from the following:
- CTAN 443L Character Development for 3-D Animation and Games Units: 2 **max 4**
- CTAN 451 History of Animation Units: 2
• CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4
• CTAN 462 Visual Effects Units: 2
• CTAN 470 Documentary Animation Production Units: 2
• CTAN 495 Visual Music Units: 2
• CTAN 502L Experiments in Immersive Design Units: 2
• CTAN 525 Gesture Movement for Animation Units: 2
• CTIN 401L Interface Design for Games Units: 2
• CTIN 405L Design and Technology for Mobile Experiences Units: 2
• CTIN 406L Sound Design for Games Units: 2
• CTIN 452L Themed Entertainment Design Units: 4
• CTIN 458 Business and Management of Games Units: 2
• CTIN 482 Designing Online Multiplayer Game Environments Units: 2
• CTIN 484L Intermediate Game Development Units: 2
• CTIN 485L Advanced Game Development Units: 2
• CTIN 486 Alternative Control Workshop Units: 2
• CTIN 489 Intermediate Game Design Workshop Units: 2
• CTIN 497 Interactive Media Startup Units: 1 max 2
• CTIN 499 Special Topics Units: 2, 3, 4
• CTIN 501 Interactive Cinema Units: 2
• CTIN 506 Procedural Expression Units: 2
• IML 500 Digital Media Tools and Tactics Units: 2
• IML 501L Seminar in Contemporary Digital Media Units: 4
• IML 502 Techniques of Information Visualization Units: 4
• IML 535 Tangible Computing in the Humanities and Sciences Units: 4
• IML 543-Transdisciplinary Media Design Practicum Units: 4

Notes:
*Courses not listed may satisfy this requirement with approval of the program chair.
**Prerequisite required.

Additional Requirements

Grade Point Average Requirement
An overall GPA of at least 3.0 (A = 4.0) must be maintained in all USC course work toward the master's degree.
A minimum grade of C (2.0) must be earned in all required courses. Students who do not achieve a grade of C (2.0) in the core courses CTIN 532, CTIN 534, CTIN 542 and CTIN 544 after repeating these requirements will be disqualified from the program. The core courses as well as CTIN 594a, CTIN 594b cannot be waived or substituted with transfer credits under any circumstances.

Time Limit
Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is invalidated and will not be applied toward the degree.

Graduate Review
One year prior to graduation, students are required to file MFA forms for a curriculum and graduation review. Contact the Interactive Media Program Office for forms.

Interactive Media (MFA)
The Interactive Media and Games Division offers a Master of Fine Arts in Interactive Media as well as a number of courses in computer-based entertainment for non-majors. The fundamental philosophy of the division is coherent with that of the programs of the school, stressing creativity of expression, experimentation and excellence in execution. The Interactive Entertainment track is part of the MFA in Interactive Media. This track focuses on game design and innovation and offers a list of suggested electives best suited for interests in interactive entertainment. Students in the Interactive Entertainment track are required to follow the MFA in Interactive Media curriculum.

The MFA in Interactive Media is a three-year intensive program that requires 50 units of which 32 are requirements and 18 are electives. Of these electives, a minimum of 6 units must be taken in the School of Cinematic Arts. Students are required to do an internship or professional work during the summer between their first and second year and must take at least 2 units of business oriented electives. Students are required to complete an advanced interactive project which they design and produce in CTIN 594a Master's Thesis and CTIN 594b Master's Thesis.

Computer and digital production facilities for the program are provided by the school. However, students should budget additional funds for incidental expenses for intermediate and advanced projects. Cost will vary depending on the scope of a student's project. For the first year production course, approximately $1,000 will be needed for miscellaneous costs, lab and insurance fees.

The program is intended to prepare students for creative careers in the emerging field of interactive entertainment. While the program does not require advanced computer capabilities, familiarity and comfort with computer-based authoring and production/post-production tools is recommended.

The creation of interactive media requires a combination of skills from the traditional media of film and television as well as a deep understanding of the effects of interactivity upon the quality of experience. Therefore, we emphasize and encourage collaboration with students in other Cinematic Arts programs. Approximately 15 students are admitted in the fall semester (there are no spring admissions).

Applicants for the MFA in Interactive Media must submit a supplemental application and materials to the Interactive Media Program. For specific instructions contact the Cinematic Arts Office of Admission, University Park, Los Angeles.
### Requirements for the MFA in Interactive Media

#### Year One, First Semester
- CTCS 505 Survey of Interactive Media Units: 2
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 534L Experiments in Interactivity I Units: 4
- CTIN 541 Design for Interactive Media Units: 2

**Total units: 9**

#### Year One, Second Semester
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 544 Experiments in Interactivity II Units: 2
- CTWR 518 Introduction to Interactive Writing Units: 2
- Electives Units: 4

**Total units: 9**

#### Year Two, First Semester
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 532L Interactive Design and Production I Units: 4
- CTPR 506 Visual Expression Units: 2
- Electives Units: 4

**Total Units: 11**

#### Year Two, Second Semester
- CTIN 511 Interactive Media Seminar Units: 1
- CTIN 542 Interactive Design and Production II Units: 4
- CTIN 548 Preparing the Interactive Project Units: 2
- Electives Units: 4-6

**Total units: 11-13**

#### Year Three, First Semester
- CTIN 594a Master's Thesis Units: 2
- Electives Units: 2

**Total units: 4**

#### Year Three, Second Semester
- CTIN 594b Master's Thesis Units: 2
- Electives Units: 2

**Total units: 4**

#### Electives**
At least 2 units from the following:
- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4
- CTIN 458 Business and Management of Games Units: 2
- CTIN 497 Interactive Media Startup Units: 1 max 3
- CTIN 510 Research Methods for Innovation, Engagement and Assessment Units: 2
- CTIN 558 Business of Interactive Media Units: 2

At least 6 units from the following:
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CTAN 443L Character Development for 3-D Animation and Games Units: 2 max 4
- CTAN 452 Introduction to 3-D Computer Animation Units: 2 max 4
- CTAN 462 Visual Effects Units: 2
- CTAN 502L Experiments in Immersive Design Units: 2
- CTAN 577a Fundamentals of Animation Units: 2
- CTCS 409 Censorship in Cinema Units: 4
- CTCS 478 Culture, Technology and Communications Units: 4
- CTCS 482 Transmedia Entertainment Units: 4
- CTCS 504 Survey of Television History Units: 2
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTIN 401L Interface Design for Games Units: 2
- CTIN 404L Usability Testing for Games Units: 2
- CTIN 405L Design and Technology for Mobile Experiences Units: 2
- CTIN 406L Sound Design for Games Units: 2
- CTIN 452L Themed Entertainment Design Units: 4
- CTIN 459L Game Industry Workshop Units: 1 max 4
- CTIN 462 Critical Theory and Analysis of Games Units: 4
- CTIN 463 Anatomy of a Game Units: 2
- CTIN 464 Game Studies Seminar Units: 2
- CTIN 479 Documentary and Activist Games Units: 2
- CTIN 480 Designing Online Multiplayer Game Environments Units: 2
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 486 Alternative Control Workshop Units: 2
- CTIN 492L Experimental Game Topics Units: 4
- CTIN 497 Interactive Media Startup Units: 1 max 3
- CTIN 499 Special Topics Units: 2, 3, 4
- CTIN 501 Interactive Cinema Units: 2
- CTIN 506 Procedural Expression Units: 2
- CTIN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- CTIN 591 Advanced Development Project Units: 2 max 8
- CTPR 455 Survey of Production Design Units: 2

---

Los Angeles, CA 90089-2211, (213) 740-8358 or online at [cinema.usc.edu](http://cinema.usc.edu).
• CTPR 566 Developing and Selling Your Film and TV Projects Units: 2
• CTWR 410L Character Development and Storytelling for Games Units: 4 *
• CTWR 520 Advanced Scene Writing Workshop Units: 2
• IML 502 Techniques of Information Visualization Units: 4
• IML 555 Digital Pedagogies Units: 4

Notes:
*Courses suggested as part of the Interactive Entertainment track.
**Courses not listed may satisfy this requirement with approval of the program chair.

**Additional Requirements**

**Thesis Project**

In order to begin work on the thesis/advanced project, students must first successfully propose their project to a committee of MFA interactive media program faculty. The proposal is prepared during the second year of study in CTIN 548 Preparing the Interactive Project and is submitted at the end of the second year. Throughout the three years of study, students will meet regularly with an MFA interactive media program adviser to develop and refine the proposal and discuss the progress of their work. The adviser will be a member of the thesis committee.

The proposal itself will include a written treatment of the project with a discussion of similar work in the field and its relationship to the proposed project. It will describe aesthetic issues to be explored and specific techniques to be employed in its realization. It will also include a project visualization, budget and schedule, in addition to supporting materials created by the student demonstrating his or her ability to pursue the project. The faculty committee will make comments and decide whether the student may go forward with his or her project. Upon acceptance, the student will begin work on the project, otherwise revising the proposal and meeting again with the committee.

In the third and final year, students concentrate on their thesis projects in CTIN 594a Master’s Thesis and CTIN 594b Master's Thesis, completing production and post-production. A final review will take place in the second semester of the third year. The committee will meet and the student must show and defend the work. The student does not need to submit a thesis paper in conjunction with this project, though students interested in doing so may take CTIN 510 and prepare a paper for academic publication.

Criteria for successful completion include: 50 percent originality and 50 percent quality of execution.

**Media Arts and Practice**

**Bachelor's Degree**

**Media Arts and Practice (BA)**

The Bachelor of Arts in Media Arts and Practice offers a robust curriculum centered on the history, theory and practice of digital media in creative and scholarly contexts. Students will study the evolution of media in concert with new cinematic technologies, from the work of early innovators such as Laszlo Moholy-Nagy, through the pioneering
experiments in information theory embodied by thinkers such as Claude Shannon, Norbert Wiener and Vannevar Bush, and on to the experiments of artists and designers working with interactivity, immersion, stereoscopy and performance for over a century. Students will also learn how to understand the relationship among media forms, emerging technologies and culture, and how to author in diverse media platforms for both critical and creative practice. The media arts and practice major is ideal for students who are interested in the expanded array of cinematic technologies that can be used for the creative and critical expression of ideas, as well as those who want to develop skills in visual communication for use in diverse fields.

Information about courses and other program offerings can be obtained by emailing the Media Arts and Practice program at map@cinema.usc.edu.

**General Education Requirements**

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education Program for more information.

**Program Requirements**

A total of 56 units is required to complete the major. All courses must be taken for a letter grade.

**Introductory Courses**

- **CNTV 101 Reality Starts Here Units:** 2
- **IML 201 The Languages of Digital Media Units:** 4
- **IML 230 Fundamentals of Media Design Units:** 2
- **IML 288 Critical Thinking and Procedural Media Units:** 2
- **IML 295LM Race, Class and Gender in Digital Culture Units:** 4
- **IML 300 Reading and Writing the Web Units:** 2
- **IML 335 Digital Narrative Design I Units:** 2

**Intermediate Courses**

- **IML 202 Media Arts and Practice Studio I Units:** 2
- **IML 203 Media Arts and Practice Studio II Units:** 2
- **IML 310 Professionalism for Media Arts Units:** 2
- **IML 346 Methods in Digital Research Units:** 2
  Choose 8 units from the following courses:
  - **IML 400 Creative Coding for the Web Units:** 4
  - **IML 404 Tactical Media Units:** 4
  - **IML 435 Digital Narrative Design II Units:** 4

**Advanced Courses**

- **IML 441 Thesis Project I Units:** 2
- **IML 444 Thesis Project II Units:** 2
- **IML 466 Digital Studies Symposium Units:** 2

**Media Arts Electives**

This requirement allows students to expand their inquiry into media arts as a discipline.

Choose 8 units from the following courses:

- **IML 309 Integrative Design for Mobile Devices Units:** 4
- **IML 340 Remaking the Archive Units:** 4
- **IML 385 Design Fiction and Speculative Futures Units:** 4
- **IML 420m New Media for Social Change Units:** 4
- **IML 422 Information Visualization Units:** 4
- **IML 450 Critical Play and Documentary Games Units:** 4
- **IML 456 Nature, Design and Media Units:** 2
- **IML 458 The Embedded Story: Designing Digital Landscapes and Languages Units:** 2
- **IML 475 Media Arts Research Lab Units:** 2, 3, 4
- **IML 499 Special Topics Units:** 2, 3, 4

**Technical Electives**

This requirement allows students to expand their technical skillset by taking courses in other academic departments. Courses may be lower-division or upper-division, but they must incorporate a hands-on media production component and tool-based instruction appropriate to the medium.

- **CTAN 330 Animation Fundamentals Units:** 2
- **CTAN 448 Introduction to Film Graphics — Animation Units:** 4
- **CTAN 452 Introduction to 3-D Computer Animation Units:** 2
- **CTIN 483 Introduction to Game Development Units:** 4
- **CTPR 385 Colloquium: Motion Picture Production Techniques Units:** 4
Other courses may be applicable; please see an adviser for approval.

**Additional Requirements**

**Thesis Sequence**

The media arts and practice major culminates in a digital thesis project that students research, develop and construct during their senior year. These projects will engage a key issue faced by contemporary media arts practitioners and will represent the convergence of conceptual excellence and digital innovation.

**Grade Point Average Requirements**

A minimum grade of C (2.0) must be earned in all required and prerequisite courses. A grade of C- (1.7) or lower will not satisfy a major requirement.

**Curriculum Review**

Media arts and practice majors are expected to meet with an academic adviser every semester to review their progress.
Contact the Media Arts and Practice program at map@cinema.usc.edu for an appointment.

Doctoral Degree

Cinematic Arts (Media Arts and Practice) (PhD)

The PhD in Media Arts and Practice program offers a rigorous and creative environment for scholarly innovation as students explore the intersection of design, media and critical thinking while defining new modes of research and scholarship for the 21st century. Core to the program is its transdisciplinary ethos; after completing foundational course work, students design their own curricula, drawing on expertise across all divisions and research labs within the School of Cinematic Arts.

Admission

A bachelor's or master's degree in media arts, or a closely related field, is required for admission to the PhD program. In addition to submitting an application to USC Graduate Admissions, applicants for the PhD must submit the supplemental application and materials to the Media Arts and Practice Division. For specific instructions, contact the School of Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 840-8358, or online at cinema.usc.edu/imap.

Course Requirements

Each PhD candidate must complete 64 units beyond the bachelor's degree, exclusive of IML 794a, IML 794b, IML 794c, IML 794d, IML 794z. (Up to 28 units may be transferred from graduate work completed at other institutions.) At least two-thirds of the units applied towards the degree (including transfer work and not including IML 794a, IML 794b, IML 794c, IML 794d, IML 794z) must be at the 500 level or higher. The required units will include 8 to 16 units in a minor area. The minor will be chosen by the student in close consultation with the adviser and will be in an academic field that supports the student's dissertation topic and project. Each student must complete the following course work:

1. IML 600 4, IML 601 4, IML 602 4, IML 603 1, IML 604 4, IML 605 4. These courses should be taken before the screening procedure.
2. At least 8 units in theory based course work within Cinematic Arts.
3. At least 14 units in practice-based course work within Cinematic Arts. Courses outside of Cinematic Arts will be considered for approval by the student's adviser. The above courses should be taken before the qualifying exam.
4. At least 4, but no more than 8 units of IML 794a 2, IML 794b 2, IML 794c 2, IML 794d 2, IML 794z 0.

Screening Procedure

The Graduate School requires that programs administer an examination or other procedure at a predetermined point in the student's studies as a prerequisite to continuation in the doctoral program. The screening procedure in the School of Cinematic Arts is designed to review the student's suitability for continuing in the chosen PhD program. Two separate screening procedures will measure a student's progress at two points in their work toward the degree. The first screening will occur no later than the end of the student's third semester of graduate course work beyond the master's degree or after 46 units of graduate work beyond the bachelor's degree. The second screening will occur no earlier than one-half of a semester following the first screening. The screening procedure process will include the following steps:

1. First screening. Prior to the first screening, the student will select a faculty adviser and formulate a provisional course of study. At the first screening, the student will be interviewed and his or her progress in the program will be reviewed by the faculty to determine if the student will be approved for additional course work. Following a successful first screening, the student, in consultation with the faculty adviser, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinematic Arts (Media Arts and Practice), the committee is ordinarily composed of five faculty members with familiarity with the Media Arts and Practice program.

2. Second screening. Working closely with the faculty adviser, the student will prepare to present his or her qualifying exam fields and associated bibliographies and mediographies as well as a dissertation project proposal, to a subcommittee of Media Arts and Practice faculty. This will be a formal written proposal detailing the proposed topic, three fields for examination derived from the general dissertation topic area. Formal presentation of the dissertation project proposal will occur no later than the end of the semester prior to taking the qualifying examinations. The qualifying exam committee must approve the dissertation topic.

Qualifying Exam Committee

Following a successful screening procedure, the student, in consultation with the qualifying exam committee chair and the Media Arts and Practice faculty, will formally establish a five-member qualifying exam committee. The composition of the qualifying exam committee will be as specified by the Graduate School. For the PhD in Cinematic Arts (Media Arts and Practice), the committee is ordinarily composed of four cinematics arts faculty members and an outside member from the candidate's minor area.

Foreign Language Requirement

The Cinematic Arts faculty will advise each student as to whether or not a foreign language is required. This requirement is determined by the student's dissertation topic. The requirement must be met at least 60 days before the qualifying examination.

Qualifying Examinations

Written and oral examinations for the PhD are given twice a year, generally in November and April. Questions for the written portion of the examination will be drafted by members of the qualifying exam committee who will also
assess the examination. The qualifying examination comprises three examinations administered one day each for three days over a five-day period. The oral examination will be scheduled within 30 days after the written examination. All qualifying exam committee members must be present for the oral portion of the qualifying examination.

**Admission to Candidacy**
A student is eligible for admission to candidacy for a PhD degree after: (1) passing the second screening procedure; (2) presenting the dissertation proposal and having it approved; (3) satisfying the language requirement, if applicable, (4) completing at least 24 units in residence; and (5) passing the written and oral portions of the qualifying examination. Admission to candidacy is by action of the Associate Vice Provost for Graduate Programs.

**Dissertation Committee**
The dissertation committee is composed as specified by regulations of the Graduate School. A dissertation project based on original investigation and showing technical mastery of a special field, capacity of research and scholarly ability must be submitted.

**IML 794**
Registration for dissertation units, IML 794a IML 794b, in the two semesters following admission to candidacy is the minimum requirement. These units cannot be applied towards the required 64 unit total. The student must register for IML 794a, IML 794b, IML 794c, IML 794d, IML 794z each semester after admission to candidacy until the degree requirements are completed. No more than 8 units of credit can be earned in IML 794a, IML 794b, IML 794c, IML 794d, IML 794z.

**Defense of Dissertation**
An oral defense of the dissertation is required of each PhD candidate. The dissertation committee will decide whether the examination is to take place after completion of the preliminary draft or the final draft of the dissertation. The oral defense must be passed at least one week before graduation.

**Policies**
The following policies apply to each student admitted to the PhD program.

**Residency Requirements**

**Writing for Screen and Television**

**Bachelor's Degree**

**Writing for Screen and Television (BFA)**
The Bachelor of Fine Arts in Writing for Screen and Television is a unique, four-year program for students who seek intensive professional preparation for a career in screen and television writing. This rigorous program emphasizes small, workshop-style classes, and attracts students from all over the world. Students attend a variety of guest speaker presentations, take high level industry internships, are provided with mentors and taught by world-class professors. Each fall, a class of 30 undergraduate writing students is selected to begin the program. A total of 128 units is required for completion of the Bachelor of Fine Arts degree; 66 of these units are taken in a prescribed sequential order. There are no spring admissions. Applicants must submit supplemental application and materials to the program office. For specific instructions, contact Writing for Screen and Television, University Park, Los Angeles, CA 90089-2211 or telephone (213) 740-3303, or online at cinema.usc.edu.

**General Education Requirements**
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge...
you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see General Education.

**Required Production Courses**
Undergraduate writing students are required to take CTPR 290 Cinematic Communication. This introductory production course is taken during the sophomore year. CTPR 290 introduces the interrelationship of visuals, sound and editing in cinematic communication. Students participate in directing and producing workshops as well as individual and group projects. Approximately $1,000 should be budgeted for miscellaneous expenses, lab and insurance fees.

**Four-Year Major Requirements (66 units)**

**Year One, First Semester**
- CNTV 101 Reality Starts Here Units: 2
- CTCS 190g Introduction to Cinema Units: 4
- CTPR 409 Practicum in Television Production Units: 2, 4
- CTWR 100g Story: Character, Conflict, and Catharsis Units: 4

Total units: 12

**Year One, Second Semester**
- CTCS 201 History of the International Cinema II Units: 4
- CTWR 250 Breaking the Story Units: 2
- CTWR 321 Introduction to Hour-Long Television Writing Units: 2

Total units: 10

**Year Two, First Semester**
- CTPR 290 Cinematic Communication Units: 4, 6 (6 units only)
- CTWR 206a Writing the Screenplay Units: 4
- CTWR 416 Motion Picture Script Analysis Units: 2

Total units: 12

**Year Two, Second Semester**
- CTWR 206b Writing the Screenplay Units: 4
- CTWR 411 Television Script Analysis Units: 2
- CTWR 421 Writing the Hour-Long Dramatic Series Units: 2
  or
- CTWR 434 Writing the Half-Hour Comedy Series Units: 2

Total units: 8

**Year Three, First Semester**
- CTCS 464 Film and/or Television Genres Units: 4
  or
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTWR 305 Advanced Screenwriting: The Relationship Screenplay Units: 4
- CTWR 437 Writing the Original Situation Comedy Pilot Units: 4
  or
- CTWR 439 Writing the Original Dramatic Series Pilot Units: 4

Total units: 12

**Year Three, Second Semester**
- CTWR 449 Rewriting the Original Dramatic Series Pilot Units: 4
  or
- CTWR 453 Advanced Feature Rewriting Units: 4

Total units: 4

**Year Four, First Semester**
- CTWR 418a Senior Thesis Units: 4 or
- CTWR 419a Senior Thesis in Dramatic Television Units: 4
  or
- CTWR 420a Senior Thesis in Half-Hour Television Comedy Units: 4

Total units: 4

**Year Four, Second Semester**
- CTWR 418b Senior Thesis Units: 4 or
- CTWR 419b Senior Thesis in Dramatic Television Units: 4
  or
- CTWR 420b Senior Thesis in Half-Hour Television Comedy Units: 4
- CTWR 459a Entertainment Industry Seminar Units: 2

Total units: 6

**Electives**
Suggested electives in Cinematic Arts include:
- CTWR 404 Foundations of Comedy Units: 2
- CTWR 407 Creating the Comedic Character Units: 2
- CTWR 410L Character Development and Storytelling for Games Units: 4
- CTWR 417 Script Coverage and Story Analysis Units: 2
- CTWR 422 Creating the Dramatic Television Series Units: 2
- CTWR 430 The Writer in American Cinema and Television Units: 2
- CTWR 431 Screenwriters and Their Work Units: 2 max 6
CTWR 432 Television Writers and Their Work Units: 2 max 6
CTWR 433 Adaptations: Transferring Existing Work to the Screen Units: 2
CTWR 435 Writing for Film and Television Genres Units: 2, 3, 4 max 8
CTWR 437 Writing the Original Situation Comedy Pilot Units: 4 max 8
CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4
CTWR 439 Writing the Original Dramatic Series Pilot Units: 4 max 8
CTWR 449 Rewriting the Original Dramatic Series Pilot Units: 4 max 8
CTWR 468 Screenwriting in Collaboration Units: 4 max 8
CTWR 477 Staff Writing the Sketch Comedy Show Units: 2 max 6
CTWR 487 Staff Writing the Multi-Camera Television Series Units: 4 max 8
CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4 max 8
CTWR 499 Special Topics Units: 2, 3, 4 max 8

Grade Point Average Requirements
A minimum grade of C (2.0) must be earned in all required and prerequisite courses (a grade of C- (1.7) or lower will not fulfill a major requirement).

Master's Degree
Writing for Screen and Television (MFA)
The Master of Fine Arts degree in Writing for Screen and Television, is an intensive two-year degree program that concentrates on writing for narrative film and television. During the course of their studies, students benefit from a wide array of internship and mentorship opportunities available as a result of the university's close links to the Los Angeles film industry's top screenwriters, directors, production companies and studios. Course work includes practical instruction in everything a working writer needs to learn about the filmmaker's art and craft. Writing is taught in small workshop-style classes. The approach focuses on the visual tools of storytelling, developing stories from characters and then on an Aristotelian three act structure. Fractured narratives, ensemble stories, experiments with time and points of view, as well as other idiosyncratic styles of storytelling, are also addressed. The curriculum covers other professional concerns, including legal issues, agents and the Writer's Guild, as well as the history and analysis of cinema and television. Classes are taught by working writers with a wide variety of skills, experience and approaches. Each fall 32 students are selected to begin the Graduate Writing for Screen and Television Program; there are no spring admissions. Applicants must submit a supplemental application and materials to the Graduate Writing for Screen and Television Program. For specific instructions, contact the Cinematic Arts Office of Admission, University Park, Los Angeles, CA 90089-2211, (213) 740-8358 or online at cinema.usc.edu.

A total of 44 units is required. A minimum of 30 units must be 500-level or above.

Required Courses (33–35 units)

Year One, First Semester
- CTWR 513 Writing the Short Script Units: 2
- CTWR 514a Basic Dramatic Screenwriting Units: 2
- CTWR 521 Advanced Hour-Long Television Drama Units: 2 or
- CTWR 534 Advanced Half-Hour Television Comedy Units: 2
- CTWR 572 Practicum in Directing Actors for Film Units: 2 or 4

Total units: 8

Year One, Second Semester
- CTWR 502 Graduate Writing Symposium Units: 1
- CTWR 514b Basic Dramatic Screenwriting Units: 2
- CTWR 516 Advanced Motion Picture Script Analysis Units: 2
- CTWR 537 Advanced Half-Hour Comedy Series Pilot Units: 4 or
- CTWR 539 Advanced Hour-Long Drama Series Pilot Units: 4

Total units: 9

Year Two, First Semester
- CTWR 515a Practicum in Screenwriting Units: 4 or
- CTWR 517a Thesis in Half-Hour Television Comedy Units: 4 or
- CTWR 519a Thesis in Television Drama Units: 4

Total units: 4

Year Two, Second Semester
- CTWR 515b Practicum in Screenwriting Units: 4 or
- CTWR 517b Thesis in Half-Hour Television Comedy Units: 4 or
- CTWR 519b Thesis in Television Drama Units: 4
- CTWR 559 The Business of Writing for Screen and Television Units: 2

Total units: 6

Note:
A minimum of two units of course work with a production component is required.
Courses with a Production Component (2 Units)

- CTAN 448 Introduction to Film Graphics — Animation Units: 4
- CTIN 501 Interactive Cinema Units: 2
- CTPR 476 Directing The Comedic Scene Units: 2
- CTPR 479 Single Camera Television Dramatic Pilot Units: 2
- CTPR 484 Advanced Multi-Camera Television Workshop Units: 4
- CTPR 504 Fundamentals of Production Units: 4
- CTPR 507 Production I Units: 4
- CTWR 438 Linked Narrative Storytelling for the Web Units: 2, 4
- CTWR 487 Staff Writing the Multi-Camera Television Series Units: 4
- CTWR 497 Staff Writing the Single-Camera Half-Hour Series Units: 4

Note:
A minimum of four units of critical studies course work is required.

CTCS Courses (4 Units)

- CTCS 464 Film and/or Television Genres Units: 4
- CTCS 469 Film and/or Television Style Analysis Units: 4
- CTCS 501 World Cinema Before 1945 Units: 2
- CTCS 502 World Cinema After 1945 Units: 2
- CTCS 503 Survey History of the United States Sound Film Units: 2
- CTCS 504 Survey of Television History Units: 2
- CTCS 505 Survey of Interactive Media Units: 2
- CTCS 510 Case Studies in National Media and/or Regional Media Units: 4 max 12
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 569 Seminar in Film and Television Authors Units: 4
- CTCS 587 Seminar in Television Theory Units: 4

Electives (9-11 units)

Students may choose from the following electives to complete their degree. Additional courses beyond the required 4 units of CTCS course work, from the critical studies list of courses, may be taken as electives, as can additional courses from the list of courses with a production component. Electives outside of cinematic arts are available with departmental approval.

Electives

- CNTV 495 Internship in Cinematic Arts Units: 1, 2, or 4 max 4
- CTAN 436 Writing for Animation Units: 2
- CTIN 458 Business and Management of Games Units: 2
- CTIN 483 Introduction to Game Development Units: 4
- CTIN 488 Game Design Workshop Units: 4
- CTIN 558 Business of Interactive Media Units: 2
- CTPR 486 Single Camera Television Dramatic Series Units: 4
- CTPR 506 Visual Expression Units: 2
- CTWR 404 Foundations of Comedy Units: 2
- CTWR 411 Television Script Analysis Units: 2
- CTWR 431 Screenwriters and Their Analysis Units: 2 max 6
- CTWR 432 Television Writers and Their Work Units: 2 max 6
- CTWR 499 Special Topics Units: 2, 3, 4 max 8
- CTWR 518 Introduction to Interactive Writing Units: 2
- CTWR 526 Advanced Storytelling for Interactive Media Units: 2
- CTWR 541 Dreams, the Brain, and Storytelling Units: 2
- CTWR 555 Pitching for Film and Television Units: 2
- CTWR 557 Seminar in the Business of Writing and Producing Television Units: 2
- CTWR 560 Advanced Business Practices for Writers Units: 2
- CTWR 599 Special Topics Units: 2, 3, 4 max 8

Writing Intensive Electives

- CTWR 410L Character Development and Storytelling for Games Units: 4
- CTWR 433 Adaptations: Transferring Existing Work to the Screen Units: 2
- CTWR 435 Writing for Film and Television Genres Units: 2, 3, 4 max 8
- CTWR 468 Screenwriting in Collaboration Units: 4 max 8
- CTWR 520 Advanced Scene Writing Workshop Units: 2
- CTWR 522 Advanced Hour-Long Television Development Units: 2
- CTWR 549 Advanced Rewriting Workshop in Hour-Long Drama Units: 4
- CTWR 550 Advanced Story Development Units: 2
- CTWR 553 Advanced Rewriting Workshop Units: 4
- CTWR 585 Advanced Genre Writing Units: 2 or 4 max 8

Note:
Courses listed as writing intensive electives are considered heavy writing classes; students may take a maximum of three courses and 10 units of writing intensive courses per semester, required and/or elective.

**Additional Requirements**

**Grade Point Average Requirement**

An overall grade point average of 3.0 (A = 4.0) must be maintained in all courses. In addition, an overall grade point average of 3.0 in all units attempted is required to qualify for registration in CTWR 515a, CTWR 515b, CTWR 517a, CTWR 517b or CTWR 519a, CTWR 519b. Courses in which a grade of C– (1.7) or lower is earned will not apply toward a graduate degree.

In lieu of a thesis the student is required to either complete a full-length screenplay, which will be developed in CTWR 515a, CTWR 515b; or a pilot script and a series bible for a half-hour television comedy, which will be developed in CTWR 517a, CTWR 517b; or an original one-hour drama television pilot, mid-season episode and series bible, which will be developed in CTWR 519a, CTWR 519b; this final work must be accepted by the Division of Writing Graduation Committee.

**Time Limit**

Students must maintain satisfactory progress toward their master's degrees at all times. The time limit to complete all requirements is three years from the first course at USC applied toward the Master of Fine Arts degree. Course work more than seven years old is automatically invalidated and may not be applied toward the degree.

**Writing for Screen and Television Certificate**

The Writing for Screen and Television Certificate is awarded for one year of study.

---

**The Peter Stark Producing Program**

**Master's Degree**

**Producing for Film, Television, and New Media (MFA)**

The Peter Stark Producing Program is a two-year (four semester) full-time graduate program.

Approximately 24 Peter Stark Program students are enrolled each fall (there are no spring admissions). The curriculum places equal emphasis on the creative and the managerial, to enhance and develop artistic skills and judgment while providing a sound background in business essentials. Each course is continually updated to ensure that the Stark program remains responsive to the needs of our students and the ever-changing film, television and new media landscape, and prepare students for careers as creative decision-makers in those fields.

A minimum of 44 units of 500-level courses is required for the Peter Stark Producing Program leading to the MFA degree. There are no electives; all Stark students take the same classes at the same time in a mandated sequence. In CMPP 541a and CMPP 541b, first-year students get hands-on filmmaking experience, working on collaborative projects in different roles. Projects are shot and edited digitally. Equipment is provided by the school.

The thesis completion requirement is a detailed plan for a film, documentary, television or webseries project comprising a developed script and notes for improvement, a schedule, budget assumptions and a marketing/distribution plan.

The completion of an entertainment industry internship of at least eight weeks, at some point in the program, is a requirement for graduation. One possible way of doing this is the summer internship program (in the summer between the two years) in which the Stark program solicits paid internships for students at film, television and new media companies. However, though the program has been fortunate in securing enough paid positions in the past, they are dependent on how many companies sign up, so the paid summer internships are not guaranteed. Therefore, students often find internships (some paid, some unpaid) on their own.

Applicants must be recognized writers outside of the field of screenwriting. The course of study is no less than 16 units total, over two semesters. Writers, both U.S. and international, should appeal directly to the chair for admission in the fall semester. Admission is granted to only one or two scholars a year, and is of the highest selectivity. Applicants must have earned an undergraduate degree with at least a 3.0 GPA. Additionally, candidates must show compelling reason for not applying to a formal degree program.

The general course of study is as follows:

**First Semester**

- CTWR 513 Writing the Short Script Units: 2
- CTWR 514a Basic Dramatic Screenwriting Units: 2 or
- CTWR 515a Practicum in Screenwriting Units: 4
- CTWR 516 Advanced Motion Picture Script Analysis Units: 2
- CTWR 572 Practicum in Directing Actors for Film Units: 2 or 4

**Total units: 8**

**Second Semester**

- CTPR 536 Editing for Scriptwriters Units: 2
- CTWR 514b Basic Dramatic Screenwriting Units: 2 or
- CTWR 515b Practicum in Screenwriting Units: 4
- CTWR Electives Units: 2-6

**Total units: 8**
or through opportunities the program receives, during the two-year program. During the second year, Peter Stark Producing Program students have an opportunity to initiate and produce a 20-minute short film financed by the program. Films are selected on a competitive basis. Films must be produced by a Stark student or team of two Stark students. Each Stark student may only perform one major task on the film, i.e., director or writer or producer. Each team has a professional adviser available as needed. Inquiries regarding the program should be addressed to: The Peter Stark Program, USC School of Cinematic Arts, University Park, Los Angeles, CA 90089-2211. Telephone (213) 740-3304, FAX (213) 745-6652 or email pstark@cinema.usc.edu.

Two-Year Requirements for the MFA in Producing for Film, Television, and New Media

Year One, First Semester
- CMPP 541a Producing Workshop Units: 4
- CMPP 548 Introduction to Producing for Television Units: 2
- CMPP 550 Script Analysis for the Producer Units: 2
- CMPP 563 Producing Symposium Units: 1
- CMPP 589a Graduate Film Business Seminar Units: 3

Total units: 12

Year One, Second Semester
- CMPP 541b Producing Workshop Units: 4
- CMPP 560 Script Development Units: 2

Total units: 12

Year Two, First Semester
- CMPP 568 Producing for Television Units: 2
- CMPP 589b Graduate Film Business Seminar Units: 4

Total units: 12

Year Two, Second Semester
- CMPP 564 Digital Media and Entertainment Units: 2
- CMPP 569 Seminar on Non-Mainstream Producing Units: 2
- CMPP 570 Advanced Television Units: 2
- CMPP 592 Individual Project Seminar Units: 4

Total units: 10

Grade Point Average Requirement
An overall GPA of 3.0 (A = 4.0) is required for graduation. Courses in which a grade of C- (1.7) or lower is earned will not apply toward a graduate course. A grade of C-, D or F in any course may be cause for termination.

Time Limit
Students must maintain satisfactory progress toward their master's degrees at all times. The degree must be completed three years after the beginning of graduate work at USC.

USC Bovard College

Bovard College graduate programs will deliver the key knowledge and skills needed to help professionals advance in their careers. Courses are designed by industry-experienced faculty who incorporate input from employers to develop relevant and engaging curriculum that fosters hands-on expertise. Our faculty are committed to creating a student-centered and supportive learning environment that encourages students to develop specialized skills that can be immediately applied to further their careers.

USC Dornsife College of Letters, Arts and Sciences

The USC Dornsife College of Letters, Arts and Sciences is the academic heart of the University of Southern California. The oldest, largest and most diverse of USC's academic divisions, USC Dornsife is composed of approximately 10,000 undergraduate and graduate students and nearly 800 faculty. The breadth and depth of USC Dornsife is vast with more than 30 academic departments and programs across the humanities, social sciences and natural sciences, and dozens of research centers and institutes. USC Dornsife fosters the liberal arts ethos of small classes and close working relationships between students and faculty within the context of a great research university, where internationally recognized scholars are constantly pursuing new ventures. Undergraduates select from more than 150 courses of study as well as explore opportunities such as

USC Bovard College is proudly named after Emma Bovard, one of USC's first students and an early advocate for equal access to quality educational opportunities. In addition to providing flexible graduate programs for professionals, the Bovard College supports individuals during key academic and career transitions. These include programs designed to expand opportunities for high-achieving students from a broad array of backgrounds.

For more information on Bovard College programs contact John Keim, chief academic officer, at johnkeim@usc.edu.
overseas studies, service-learning and internships. With more than 75 doctoral degree and master's programs administered through the USC Graduate School, USC Dornsife not only trains the next generation of scholars, but also ensures that America's research enterprise remains competitive. By immersing its students in deep scholarship and discovery-based learning opportunities, USC Dornsife prepares its graduates to become tomorrow's leaders, prepared to succeed in any field or advanced degree program.

**Administration**

Dani Byrd, PhD, Interim Dean
Steven Lamy, PhD, Vice Dean for Academic Programs
George Sanchez, PhD, Vice Dean for College Diversity and Strategic Initiatives
Donal Manahan, PhD, Vice Dean for Students
Charles McKenna, PhD, Vice Dean for Natural Sciences
Peter C. Mancall, PhD, Vice Dean for the Humanities and Social Sciences
Emily Cavalcanti, Executive Director for the Office of Communication
Eddie Sartin, Senior Associate Dean for Advancement
Stephen Mackey, Chief Operating Officer and Senior Associate Dean
Kathleen Speer, Senior Associate Dean
Vance Ito, Chief Finance Officer and Associate Dean
Jane M. Cody, PhD, Associate Dean for Academic Programs
Richard Fliegel, PhD, Associate Dean for Undergraduate Programs
Erin Quinn, PhD, Associate Dean for Science and Health
Mary Ho, Assistant Vice Dean for Diversity and Strategic Initiatives
Karen Rowan-Badger, Assistant Dean for Admission
James R. McElwain, AIA, Architect

**Graduate Studies in Letters, Arts and Sciences**

Graduate studies leading to the master's and PhD degrees are available within most departments of the USC Dornsife College of Letters, Arts and Sciences. Candidates for graduate degrees must complete both the departmental requirements listed for each degree and the general requirements set by The Graduate School.

**Undergraduate Programs**

The USC Dornsife College of Letters, Arts and Sciences awards the Bachelor of Arts (BA) and the Bachelor of Science (BS) in a number of disciplines. Each degree requires a minimum of 128 units.

**Majors**

Students in the college may major in a single discipline or combine several interests in an interdisciplinary program.

**Selecting a Major**

A major may be chosen because the student is especially interested in a subject, because of particular abilities in certain areas, or because it is an especially fitting preparation for a profession. The choice of a major may thus become part of planning for a career. But a choice in the college does not limit the student to a single career or line of work. Liberal arts majors are unusually adaptable; they are suitable preparations for many careers.

A student may declare a major at any time, but is expected to record his or her major in the Office of Academic Records and Registrar at or before the beginning of the junior year or completion of 64 units. This allows sufficient time to fulfill the course requirements of the major in the student's third and fourth years. For some majors, however, and especially for a major in one of the natural sciences aiming for the BS degree, it is advantageous to declare the major sooner, so the program can be spaced over the full four years.

**Changing a Major**

If, after a major has been declared, the student wishes to change to a different field (or add another field of study to the existing one), a Change of Major form must be filed. The form may be obtained in the Dornsife College Advising Office or the Office of Academic Records and Registrar in John Hubbard Hall. The form must be completed and returned to the Office of Academic Records and Registrar.

When a major is changed, the new department adviser must sign the form.

**Types of Majors and Major Requirements**

**Departmental Major (BA or BS Degree)**

A departmental major for the BA degree consists of specified lower-division courses and, generally, not less than 24 or more than 32 upper-division units in a single department or discipline. A greater concentration of units in a single discipline is usually required in majors for the BS degree than in majors for the BA degree.

The specific requirements for each department major will be found in the departmental sections of this catalogue.

**Double Major (BA/BA or BS/BS)**

A double major consists of two majors that allow the student to earn the same degree, either a BA or BS degree, within the college. The student must complete the requirements for both majors and whatever other course work is needed to complete 128 units. Combinations of interdepartmental and department majors are also possible. See the Undergraduate Degree Programs page for rules governing the overlap of courses allowed for a double major.

**Interdepartmental Majors**

**Humanities or Social Sciences Major (BA Degree)**

A humanities or social sciences major consists of not less than 32 upper-division units within departments in the humanities or departments in the social sciences. Of the 32 required upper-division units for the interdepartmental major, 20 are typically taken in one department, and the additional 12 units are taken from applicable courses in the area in which the department of concentration is housed. See the departmental listing for more specific requirements for the interdepartmental major, including lower-division requirements.

**Physical Sciences Major (BS Degree)**

The departments of chemistry, earth sciences, and physics and astronomy, cooperating with one another, offer a physical sciences major in the natural sciences and mathematics. The major requires specific lower-division courses in chemistry, earth sciences, mathematics, physics and 28 upper-division units of major courses in the four departments. Of the 28 required upper-division units, at least four units must be taken in each of the four cooperating departments.
Program Major (BA or BS Degree)
A program major consists of designated courses and not less than 24 upper-division units chosen from the list of courses which make up the program. The college has a number of special programs, many of which offer majors. Because programs are often organized around the study of a region or a topic, and hence are not specific to any single discipline, or because two or more disciplines have joined to deal with a common problem, program majors are interdisciplinary. An interdisciplinary major offers unusual range to students who have topical interests. Specific requirements for all program majors are listed under the program titles.

Dual Degree
A dual degree is one that has course work from two schools or two different degree programs within the same school which has been organized into a single program. Listings of graduate dual degrees can be found here. The student receives two diplomas.

Progressive Degree Program
A progressive degree program enables a USC Dornsife College of Letters, Arts and Sciences undergraduate to begin work on a master's degree while completing requirements for the bachelor's degree. The progressive degree may be in the same or different departments, but should be in a closely-related field of study. Students in a progressive degree program must fulfill all requirements for both the bachelor's degree and the master's degree except for the combined number of units for the two separate degrees. The master's degree may be awarded at the same time as, but not prior to, the bachelor's degree. The student receives two diplomas. Further details about progressive degrees can be found on here.

Second Bachelor's Degree
A second bachelor's degree requires a minimum of 32 units beyond the number required for the first. If the first bachelor's degree was earned at USC, a minimum of 32 units for the second must be completed at USC. If the first bachelor's degree was earned at another institution, a minimum of 64 units toward the second must be completed at USC. (See the policy on residence requirement for a second bachelor's degree.)

For some degrees, more than the 32 units beyond the first bachelor's degree will be required because all requirements for both degrees must be met. The student receives a separate diploma for each degree upon completion. The first and second bachelor's degrees may be completed at the same time but there is no requirement that they be.

Substitution for Major Requirements
If a student wishes an adjustment to the major requirements in his or her department or program, the department adviser may, with the support of the department, substitute a comparable upper-division course for a required one. Substitutions and waivers of USC or transfer courses for upper-division requirements for programs are to be limited to a combination of 25 percent. Lower-division courses cannot be substituted for upper-division requirements.

Unit Limitation
No more than 40 upper-division units in the major may be applied to any degree under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences. A student wishing to exceed this limit must obtain the approval of the major department and the dean of undergraduate programs.

Minors
The USC Dornsife College of Letters, Arts and Sciences offers a wide array of minors that can provide unique breadth and complement or enhance the major field of study. Many of the college minors themselves are interdisciplinary and combine classes in two or more college departments or work in college departments with classes or internships in one of USC's professional schools.

Basic Requirement for a Degree from the USC Dornsife College of Letters, Arts and Sciences
For those undergraduate students earning a degree in the USC Dornsife College of Letters, Arts and Sciences, a minimum of 104 units applicable to the degree must be earned in college academic departments. For students graduating with a minor or a second bachelor's degree, this minimum is reduced to 96 units. Other exceptions will be considered by the dean of undergraduate programs in Dornsife College.

Students who are completing major degree programs in a professional school, but whose degree is conferred by Dornsife College, are exempt from this policy. This policy also applies to transferable courses (see Course Work Taken Elsewhere).

Units Required Each Semester
The student is expected to complete about 16 units each semester; 18 units are generally considered to be the maximum number in a manageable program. If the student wants to enroll in more than 18 units, he or she may do so, but should consult first with the academic adviser.

Grade Point Average Requirement
A grade point average of at least C (2.0) on all units attempted at USC is required for undergraduate degrees. The college requires a minimum 2.0 grade point average in upper-division courses applied toward the major. Some departments require grades of C or higher in specified courses. A grade point average of at least B (3.0) on all units attempted at USC is required for master's degrees. A grade point average of at least B (3.0) on all units attempted at USC is required for doctoral degrees.

Advising and Academic Services
Dornsife College Advising Office
College Academic Services Building,
Room 120
(213) 740-2354
FAX: (213) 740-3664
Email: cas@dornsife.usc.edu
dornsife.usc.edu/advisement/

The Dornsife College Advising Office provides a wide range of advising services and programs that integrate students, faculty, staff, academic disciplines and curricula into a meaningful educational experience. Academic advisers work closely with students to help familiarize them with the academic life of the USC Dornsife College of Letters, Arts and Sciences, choose or change their majors and fulfill core requirements so they can graduate in a timely manner.

Academic advising is mandatory for all students entering the USC Dornsife College of Letters, Arts and Sciences until
they have completed 32 units at USC. Students without declared majors are required to receive academic advising every semester. All students in the USC Dornsife College of Letters, Arts and Sciences are strongly encouraged to seek individual academic advisement at least once each semester until graduation. Guidance regarding academic requirements, policies and program planning is available in the Dornsife College Advising Office by appointment or on a walk-in basis. Advising in major course requirements is available within the department of the student's major. The services of a college ombudsman are available to students who have academic concerns that cannot be adequately addressed by the usual mechanisms of consulting instructors, department chairs or other university offices. The ombudsman can be particularly helpful in the case of grade appeals that are complex in nature. The ombudsman functions as an intermediary between the student, the faculty and other offices on campus.

Advising for Pre-law Programs

Students who are interested in going to law school consult one-on-one with academic advisers in the of Dornsife College Advising Office who specialize in this area. Pre-law advisers assist students in crafting an undergraduate academic program designed to lead to law school admission and success. Pre-law students are supported in all aspects of the law school application process, including how to write an effective personal statement and how to request appropriate letters of recommendation.

Pre-law advisers also help students target the most appropriate law school, put students in contact with pre-law societies and notify students of relevant pre-law and law-related events. Pre-law students are also invited to subscribe to an email listserv sponsored by the Dornsife College Advising Office in order to connect with pre-law resources.

Pre-graduate School Advising

The pre-graduate school adviser assists USC undergraduates and alumni interested in applying to all graduate programs other than law and medicine. The adviser helps students determine when and if they should apply to graduate school and guides students in the process of researching and choosing appropriate schools and programs. Students can expect support in such areas as navigating the admissions process, writing statements of purpose, requesting letters of recommendation, exploring test preparation resources, and identifying and pursuing sources of funding.

Studying Abroad

The Office of Overseas Studies provides semester and yearlong opportunities for students to study in other countries. Eligible students can choose between 51 academic programs in 29 countries and study for one or two semesters. The Office of Overseas Studies is located in the College House, Room 201. For more information, call (213) 740-3636, email overseas@usc.edu or visit usc.edu/overseas.

Dornsife College also offers short-term course work abroad in several different formats. For more information, contact the associate dean at (213) 740-8555 or Overseas Studies at (213) 740-3636.

Washington D.C. Semester Program

The Washington, D.C. Semester Program provides a unique, semester-long opportunity for Dornsife students to study and work in the nation's capital. The immersive program capitalizes on the D.C. experience. Courses are drawn from areas with direct policy relevance such as foreign policy, politics and the political process and economics. All students complete an internship with one of Washington's many policy-focused organizations, including government agencies, non-governmental organizations, advocacy groups, think tanks, consulting firms and congressional offices. The Dornsife D.C. program is open to students from all majors while maintaining a focus on practical policy, both domestic and international.

Director: Kenneth Geller, MD, MSeD

The Office of Pre-Health Advisement serves all current USC students, alumni and post-baccalaureate students who are interested in pursuing a career within the health professions (e.g., medicine, dentistry, pharmacy, etc.). Pre-health advisers are committed to providing an array of student-centered advisement services and support tools tailored to meet the individual needs, interests and goals of pre-health students. The program values a sense of community; meaningful relationships with students, staff and faculty; academic excellence; leadership; wellness; and learning through community service, clinical exposure, laboratory research and campus organizations.

Pre-health students are supported in all aspects of the health professional school application process, including how to write an effective personal statement and how to request appropriate letters of recommendation. The office also offers pre-health curriculum planning; assistance with major and minor selection; workshops, events and opportunities for clinical, research and volunteer activities. The office encourages involvement in the campus community and pre-health student organizations.

Advanced and Professional Programs

3501 Trousdale Parkway
Taper Hall 355
Los Angeles, CA 90089-0355

The Office of Advanced and Professional Programs administers the USC Dornsife College of Letters, Arts and Sciences multidisciplinary graduate programs not housed in traditional departments or units.

Master of Professional Writing

(213) 740-3252
FAX: (213) 740-5775
Email: mpw@dornsife.usc.edu
dornsife.usc.edu/mpw

Director: Brighde Mullins, MFA

The program is designed for individuals pursuing writing as a career in fiction, nonfiction, screenwriting, television writing and theatre. See here for course requirements.
Multimedia Scholarship

Honors in Multimedia Scholarship

This program offers qualified undergraduate students an opportunity to approach their discipline(s) of study through the critical application of multimedia expression and scholarship. The student experience will be characterized by smaller classes taught by leading faculty members and enriched by a program of lecture series, visiting scholars, symposia and conferences. For complete program requirements, see the USC School of Cinematic Arts section.

General Education Program

General Education Program

International students take the University Writing Examination after having completed any course work required by the American Language Institute.

Upper-division Writing Requirement

An advanced writing course, taken in a student's junior or senior year, is geared toward students' areas of special interest, such as the arts and humanities, science, law, engineering or business. In this course, students learn to integrate more complex information and construct more sophisticated arguments.

Foreign Language Requirement

Students may satisfy the foreign language requirement only by (1) earning a passing grade in Course III of a foreign language sequence at USC or its equivalent elsewhere or (2) scoring on the placement examination at a level considered by the department as equivalent to the completion of Course III or (3) scoring on a national or statewide examination at a level set by the department and approved by the USC Dornsife College of Letters, Arts and Sciences. Students who can supply proof of at least two years of full-time secondary schooling beyond the age of 14 taught in a foreign language may request exemption from the foreign language requirement. The USC Language Center has established a procedure for students who have demonstrated chronic difficulties with foreign language acquisition. Students may in some cases be approved to complete the requirement using an alternative set of courses. For additional information contact the USC Language Center, THH 309, (213)740-1188, language.usc.edu.

All students earning degrees granted by or under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences or earning degrees in programs of other schools that require three semesters of foreign language who do not meet the criteria of (1), above, must take a placement examination to determine their level of language proficiency. Placement in elementary and intermediate foreign language courses is made by the appropriate placement examination. Transfer courses, which meet foreign language level I and level II subject requirements will not meet the prerequisite for the next course in a sequence. Students may be advised to repeat, without additional credit, a semester or semesters of instruction if their skills are judged insufficient at the time of testing.

All students who as freshmen enrolled in degree programs that have a foreign language requirement are expected to fulfill that requirement by the time they have completed 64 units at USC. Students who do not satisfy the foreign language requirement before the completion of 48 units at USC will have a "mandatory advisement requirement” warning them of the need to complete the foreign language requirement. Students who do not satisfy the requirement
before the completion of 64 units at USC will be required to seek approval to register.

Students admitted as transfers for whom foreign language is a requirement should fulfill it before they have completed 48 units at USC. Students who do not satisfy the foreign language requirement before the completion of 32 units at USC will have a "mandatory advisement requirement" warning them of the need to complete the foreign language requirement. Students who do not satisfy the requirement before the completion of 48 units at USC will be required to seek approval to register.

Students admitted into programs without a foreign language requirement who subsequently make a change of major into a program with a foreign language requirement must satisfy the requirement before completion of 48 units at USC after switching into the major.

American Studies and Ethnicity

American Studies and Ethnicity integrates humanistic and social scientific perspectives, and brings them to bear on an examination of the United States with a particular emphasis on comparative study of the peoples, cultures, history and social issues of the Western United States. The department offers four separate majors in American Studies and Ethnicity, African American Studies, Asian American Studies, and Chicano/Latino Studies; and minors in American Studies and Ethnicity, American Popular Culture and Jewish American Studies. The graduate program offers a PhD for students interested in broad interdisciplinary training at an advanced level to study the peoples, cultures and institutions of the United States in courses that integrate modes of inquiry from the humanities and the social sciences. Drawing upon the cultural resources of a cosmopolitan city on the Pacific Rim and upon the strength and diversity of its professional schools as well as departments in the USC Dornsife College of Letters, Arts and Sciences, these degree programs provide a richly interdisciplinary curriculum that is unique for its constitution of American Studies and Ethnic Studies as comparative and interethn program that takes as its focus a region — Los Angeles, California and the West — marked by challenging social and cultural changes.

American Studies and Ethnicity offers challenging and diverse opportunities to study the peoples, cultures and institutions of the United States in interdisciplinary courses. Combining the study of history with literature, the arts and the social sciences, American Studies and Ethnicity seeks to bring together these various disciplines and modes of inquiry in a common project: the effort to understand the diverse peoples and cultures that have composed the United States and to provide critical perspectives on the words, deeds, myths and material practices that have shaped this country in its full regional, ethnic, class and gender diversity. An education in American Studies and Ethnicity will be particularly appropriate for students interested in pursuing careers in law, journalism, government, foreign service, social work, international business, public administration and education.

American Studies and Ethnicity is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the directors of the majors, the primary responsibility for advising of the majors and minors.

International students whose native language is not English are exempt from the foreign language requirement. Students with advanced skills in languages other than those taught at USC may request exemption from the foreign language requirement if (1) they can supply proof of at least two years of full-time secondary schooling taught in a foreign language beyond the age of 14, or (2) if they can pass a competency exam testing for advanced language skills and administered at USC subject to the availability of suitable academic examiners; the competency exam will test proficiency in speaking, reading and writing skills. Students with documented learning disabilities or physical impairments inhibiting language acquisition may petition for substitution.

Undergraduate Degrees

Honors Program

The program offers a two-semester honors program for qualified students, first identified in AMST 350 or by the program adviser. Students spend their first semester in the
program in an honors senior seminar, AMST 492, focused on developing their research and methods for the honors thesis. During the second semester, all honors students are required to take AMST 493 in which each completes a thesis project on a topic of his or her own choosing under faculty direction.

Contact the program adviser for further information. To graduate with honors, program majors must successfully complete an honors thesis and have a minimum GPA of 3.5 in their major course work.

**Minor in Critical Approaches to Leadership**
See the Department of Interdisciplinary Studies.

**Minor in Race, Ethnicity and Politics**
See the Department of Political Science.

**Graduate Degrees**
The major objective of the graduate program in American Studies and Ethnicity is to prepare future faculty with the research and teaching abilities to understand and communicate the diversity of American society and culture. This is accomplished by stressing the importance of an interdisciplinary perspective which integrates social analysis with cultural approaches. The program's most significant areas of specialization are: (1) the theoretical study of race and ethnicity, particularly as it is constructed through gender, class, sexuality and the state; (2) a regional focus on Los Angeles and the American West; and (3) an emphasis on the study of cultural production in the United States, with particular attention on the theoretical directions and methodological innovations in the interdisciplinary study of American culture.

**Admission Requirements**
Requirements for admission include: scores satisfactory to the program in the verbal, quantitative and analytical General Test of the Graduate Record Examinations; evidence of competence in writing English and analytical abilities; a satisfactory written statement by the applicant of aims and interests in pursuing interdisciplinary graduate work; letters of recommendation from at least three college instructors; and grades satisfactory to the department earned by the applicant at other institutions.

All applicants are required to take the GRE and submit their complete undergraduate record; at least three letters of recommendation and a statement of purpose should be sent to the director of the program. Applicants are urged to submit written materials as supportive evidence.

**Degree Requirements**
These degrees are under the jurisdiction of the USC Graduate School. Refer to The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

**Bachelor's Degree**

**American Studies and Ethnicity**
(African American Studies) (BA)
African American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social and political experience of African Americans, with a particular emphasis on the development and culture of the African American community in California and the West as well as on both historical and contemporary effects of global issues on African American communities. By drawing upon courses in American Studies and Ethnicity and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytic tools and methods of interpretation appropriate for studying the African American experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

African American Studies is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the sequence of courses, the opportunity for students to undertake an interdisciplinary concentration under close faculty supervision. It is recommended that students meet with the appropriate major director to plan a coherent set of courses to fulfill the major or minor requirements.

**Program Major Requirements**
Ten courses in African American Studies, or courses certified for African American Studies credit, are required. The 10 courses must be distributed as follows: the three core requirement courses of AMST 200, AMST 350 and AMST 498; one course from each of the following three lists: History, Literature and Culture, and Social and Political Issues; and additional elective courses for a total of 16 units chosen from the courses certified in African American Studies at the 300 level or above.

**Core Requirements**
- AMST 200gm Introduction to American Studies and Ethnicity: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods: 4
- AMST 498 Senior Seminar in American Studies and Ethnicity: 4 *

**Note:**
*Honors students will substitute AMST 492 Research Methods in American Studies and Ethnicity.*

**200/300/400-Level Required Courses**
One course from each of the following categories:

**History**
- AMST 250gmw The African Diaspora: 4
- HIST 355 The African-American Experience: 4
- HIST 455 Advanced Topics in African-American History: 4

**Literature and Culture**
- AHIS 365m African American Art: 4
• AHIS 475m Blackness in American Visual Culture Units: 4
• AMST 285gm African American Popular Culture Units: 4
• AMST 385 African American Culture and Society Units: 4
• CTCS 407 African American Cinema Units: 4
• ENGL 446 African-American Poetry and Drama Units: 4
• ENGL 447m African-American Narrative Units: 4

Social and Political Issues
• AMST 101gmw Race and Class in Los Angeles Units: 4
• AMST 206m The Politics and Culture of the 1960s Units: 4
• AMST 274gmw Exploring Ethnicity through Film Units: 4
• AMST 330m Black Music and the Political Imagination Units: 4
• AMST 348m Race and Environmentalism Units: 4
• AMST 365 Leadership in the Community — Internship Units: 4
• AMST 389m Carceral Geographies Units: 4
• AMST 395m African American Humor and Culture Units: 4

• POSC 427 Black Politics in the American Political System Units: 4
• PSYC 462m Culture and Mental Health Units: 4
• REL 469 Black Religion in America Units: 4

Upper-division Elective Courses
Additional courses for a total of 16 units from the lists above or below, or other American Studies and Ethnicity courses with the approval of the African American Studies director, 300 level or higher. No more than two total courses in the major may be taken outside the college.
• AMST 301gp America, the Frontier, and the New West Units: 4
• AMST 320 Social Construction of Race and Citizenship Units: 4
• AMST 353m Race and Racism in the Americas Units: 4
• AMST 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 max 12
• AMST 493 Senior Honors Thesis in American Studies and Ethnicity Units: 4
• AMST 499 Special Topics Units: 2, 3, 4 max 8
• COMM 458m Race and Ethnicity in Entertainment and the Arts Units: 4
• POSC 424m Political Participation and American Diversity Units: 4
• SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4

American Studies and Ethnicity
(Asian American Studies) (BA)
Asian American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social and political experience of Asian Pacific Americans, with a particular emphasis on the development and culture of the Asian American communities in California and the West as well as on both historical and contemporary effects of global issues on Asian American communities. By drawing upon courses in American Studies and Ethnicity and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytic tools and methods of interpretation appropriate for studying the Asian American experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.

Asian American Studies is administered by an executive committee comprising the chair, directors of the four majors and other faculty members. In addition to the college academic adviser, the directors of the majors serve as advisers to majors and minors, providing, in conjunction with the sequence of courses, an opportunity for students to undertake an interdisciplinary concentration under close faculty supervision. It is recommended that students meet with the appropriate major director to plan a coherent set of courses to fulfill the major or minor requirements.

Program Major Requirements
Ten courses in Asian American Studies, or courses certified for Asian American Studies credit, are required. The 10 courses must be distributed as follows: the three core requirement courses of AMST 200, AMST 350 and AMST 498; one course from each of the following three lists: History, Literature and Culture, and Social and Political Issues; and additional elective courses for a total of 16 units chosen from the courses certified in Asian American Studies at the 300 level or above.

Core Requirements
• AMST 200gm Introduction to American Studies and Ethnicity Units: 4
• AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4
• AMST 498 Senior Seminar in American Studies and Ethnicity Units: 4 *

Note:
*Honors students will substitute AMST 492 Research Methods in American Studies and Ethnicity.

200/300/400-Level Required Courses
One course from each of the following categories:

**History**
- AMST 378m Introduction to Asian American History Units: 4

**Minor**

**American Popular Culture Minor**

The interdisciplinary minor in American Popular Culture helps students to assess from a variety of perspectives the icons and ideas they encounter every day, to think critically about the images and assertions of the mass media and commercial culture, and to see the experience of popular culture as it interacts with questions of gender and ethnicity in the American context. Students choose five classes, including one upper-division elective, from a curriculum organized to explore: critical approaches to popular culture; gender and ethnicity in American popular culture; and popular culture in the arts. Twenty units are required, four at the lower-division and 16 at the upper-division level.

**Lower-Division Requirements**

Choose one course (4 units)

- AMST 206m The Politics and Culture of the 1960s Units: 4
Upper-Division Requirements
Choose four courses (16 units), at least one from each of the groups below.

Critical Approaches to Popular Culture: choose one (4 units)
- AMST 301gp America, the Frontier, and the New West Units: 4
- COLT 365 Literature and Popular Culture Units: 4
- COMM 384 Interpreting Popular Culture Units: 4
- ENGL 392 Visual and Popular Culture Units: 4
- HIST 380 American Popular Culture Units: 4

Gender and Ethnicity in American Popular Culture: choose one (4 units)
- AMST 357m Latino Social Movements Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4
- AMST 385 African American Culture and Society Units: 4
- AMST 395m African American Humor and Culture Units: 4
- AMST 448m Chicano and Latino Literature Units: 4
- AMST 449m Asian American Literature Units: 4
- ENGL 476m Images of Women in Contemporary Culture Units: 4

Popular Culture in the Arts: choose one (4 units)
- AHIS 363m Contemporary Art and the Culture Wars Units: 4
- AHIS 370g Modern Art III: 1940 to the Present Units: 4
- CTCSS 392 History of the American Film, 1925–1950 Units: 4
- CTCSS 393 History of the American Film, 1946–1975 Units: 4
- CTCSS 394 History of the American Film, 1977–present Units: 4
- ENGL 375 Science Fiction Units: 4
- ENGL 471 Literary Genres and Film Units: 4
- ENGL 481 Narrative Forms in Literature and Film Units: 4
- HIST 481 Producing Film Histories Units: 4
- MUJZ 419m The Jazz Experience: Myths and Culture Units: 4
- MUSC 400m The Broadway Musical: Reflection of American Diversity, Issues, and Experiences Units: 4
- MUSC 422 The Beatles: Their Music and Their Times Units: 4
- MUSC 450m The Music of Black Americans Units: 4
- PAS 400 New Models of Art in City-Space Units: 4

Electives (4 units)
Choose one additional upper-division course from the lists above, in a department you have not already chosen for the minor.

American Studies and Ethnicity Minor

Core Requirements
For the minor in American Studies and Ethnicity, five courses in American Studies and Ethnicity, or courses certified for American Studies and Ethnicity credit, are required. The five courses must be distributed as follows: two core requirement courses and three additional elective courses chosen from the courses certified in American Studies and Ethnicity at the 300 level or above.

Core Requirements
- AMST 200gm Introduction to American Studies and Ethnicity Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4

Upper-Division Elective Courses
Three courses from the American Studies and Ethnicity major lists, or other American Studies and Ethnicity courses with the approval of the American Studies and Ethnicity director, at the 300 level or higher. No more than one course in the minor may be taken outside the college.

Jewish American Studies Minor
Jewish American Studies is a multidisciplinary program designed to provide students with a critical understanding of the historical, cultural, social, political and religious experience of Jewish Americans, with a particular emphasis on the development and culture of Jewish communities in California and the West as well as on both historical and contemporary effects of global issues on American Jewish communities. By drawing upon courses in American Studies and by emphasizing comparative as well as interdisciplinary study, this program offers training in the analytical tools and methods of interpretation appropriate for studying the American Jewish experience in its particularity and ethnic and cultural study in general. The program is particularly appropriate for students interested in integrating studies in the humanities and social sciences and for students preparing to work and interact with diverse communities and cultures in the United States and abroad in such fields as education, human services, business, journalism and public administration.
Successful completion of 20 units in American Studies and Judaic Studies are required to qualify for the minor.

Core Requirements
- AMST 202m Interethnic Diversity in the West Units: 4
- JS 300 American Jewish History Units: 4
Three courses from the following:

- AMST 301 gp America, the Frontier, and the New West Units: 4
- AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods Units: 4
- JS 330 Jewish Power, Powerlessness, and Politics in the Modern Era Units: 4
- JS 381 The Jew in American Society Units: 4
- JS 382 Judaism as an American Religion Units: 4
- JS 383 Jews in American Popular Culture Units: 4
- JS 415 The American Jewish Experience in Film Units: 4
- JS 428 Blacks and Jews: Conflicts and Alliances Units: 4

Doctoral Degree

American Studies and Ethnicity (PhD)

Master of Arts

The department does not accept applicants for a Master of Arts degree. All graduate work in American Studies and Ethnicity at USC is taken as part of a PhD program, and the MA in American Studies and Ethnicity is intended only as a transitional degree in the process of completing requirements for the PhD, although in some cases students may be invited to attempt a terminal MA.

After completing at least 30 units, taking AMST 500 and at least one research seminar, maintaining a GPA of at least 3.0, making successful academic progress and taking the qualifying exam, students will either be granted a transitional master's degree and continue on towards the PhD or be granted a terminal master's degree.

Doctor of Philosophy in American Studies and Ethnicity

Application deadline: December 1
Students may earn the PhD in American Studies and Ethnicity by successfully completing the following requirements.

Total Units Required

The student's course work must total at least 64 units. No more than eight units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units.

Course Requirements

AMST 500 Introduction to American Studies and Ethnicity is required of all doctoral students, and it is highly recommended that students complete this course in the first year of residence. Two 600-level graduate seminars are required for the degree, with at least one of these being an interdisciplinary seminar offered by American Studies and Ethnicity. The second 600-level course must be approved by the director of graduate studies.

Foreign Language Requirement

PhD students are required to demonstrate proficiency in one foreign language. This requirement must be met before a student is eligible to take the qualifying examination. Competency may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better), or by passing a foreign language exam that tests proficiency in reading comprehension and translation.

Methods Requirement

Students are required to show competency in two theoretical methodologies from a list approved by the American Studies and Ethnicity department. In most cases, competency is established by successfully completing one course concentrating in a specific method offered by a department or school, although more advanced courses in that method may be suggested by a qualifying exam committee. The following methodologies fulfill the methods requirement: literary/textual analysis; historical/archival analysis; ethnography; cultural/visual analysis; spatial practices and analysis; and, quantitative analysis.

Disciplinary Requirement

The department of American Studies and Ethnicity believes that the strongest interdisciplinary research is conducted alongside a strong background in at least one disciplinary field by successfully completing at least four graduate courses in one discipline. These four courses must include at least one methodology course, one 600-level or above advanced seminar and two graduate reading courses at the 500- or 600-level. Each of these courses can also fulfill other requirements in the PhD program, particularly the methods requirement and the course requirements listed above.

Screening Procedures

The performance of every first-year doctoral student is formally assessed by the director of the program and the student's assigned adviser at the end of the spring semester and before a student has completed 24 units toward the degree. Unsatisfactory progress toward the degree requires either remedy of the deficiencies or termination of the student's graduate program. After successfully passing the assessment procedures, each student will be encouraged to establish a qualifying exam committee.

At the end of the second year, student progress will be evaluated and each student will formally establish the members of his or her interdisciplinary examination committee from faculty he or she has worked with during the first two years. A meeting of the director of the program, qualifying exam committee members and potential members of this examination committee will take place directly after the second year to identify remaining deficiencies in a student's training and identify solutions before the qualifying examination process begins.

Qualifying Examination

Following completion of course work, the student must sit for a qualifying examination at a time mutually agreed upon by the student and the qualifying exam committee. Students seeking the PhD will select four fields for examination. Every student must be examined by faculty from at least two different disciplines, as well as having one outside member on his or her examination committee.

This five-person examination committee will direct the student toward his or her qualifying examination, which will consist of both written and oral parts, in the third year. Examinations are graded honors, pass, low-pass or fail. The qualifying examination has two phases: written examinations in each field followed by a single oral examination on all four
fields. Students with one fail, a low-pass in their dissertation field or more than two lowpass grades will not be permitted to enter the oral phase of the examination process. The qualifying exam committee determines whether the candidate may retake any exam graded low-pass or fail.

Dissertation
After the qualifying examination has been passed, an interdisciplinary dissertation committee of at least three faculty members from the examination committee must approve a dissertation prospectus before full-time research commences. Only at this point is a student admitted to candidacy for the PhD degree and will thereafter concentrate on the dissertation. After students become candidates for the PhD degree, they must register for 794 Doctoral Dissertation each semester thereafter until the dissertation is completed. The final state of the program is the submission of a dissertation that makes an original and substantial contribution to its field of study. The final copy of the dissertation must conform to the regulations of the Graduate School.

Advisement
Upon entering the program, each student will be assigned an academic adviser from among the faculty closest to the student's own academic interests. Students should seek advice on their program of studies from this academic adviser, the director of the program and the director of graduate and professional studies. Once a student formally establishes an interdisciplinary examination committee, the chair of this committee becomes the student's main academic adviser, along with other members of this qualifying exam committee. The committee must be in place and approved by the Graduate School at the time the student schedules a qualifying examination. The dissertation committee becomes the student's main advising unit after the qualifying examination, with the chair having the principal responsibility of advisement. At all stages of the student's progress through the program, the director of the program and the director of graduate and professional studies will be available for advisement and counsel as well.

Transfer of Credit
A transfer of credit statement is prepared by the Degree Progress Department for students admitted to full graduate standing. The application of any available transfer credit is contingent on successful completion of the screening exam and is determined by the director of the program no later than the end of the second year according to the following guidelines: credit will only be allowed for courses (1) from accredited graduate schools; (2) of grade B (3.0 on a four-point scale); (3) constituting a fair and reasonable equivalent to current USC course work at the graduate level and fitting into the program for the degree; and (4) approved by the Graduate School. Graduate transfer credit will not be granted for life experience, credit by examination, noncredit extension courses, correspondence courses, thesis course supervision or creative writing courses. The maximum number of transfer credits which may be applied toward the MA degree is four units, and a maximum of 24 units of transfer credits may be applied toward the PhD degree. The Graduate School stipulates that transfer units must have been completed within 10 years of admission for the doctoral program to be applied toward the degree.

Anthropology
The Department of Anthropology offers a BA in Anthropology with tracks in cultural anthropology, medical anthropology and biological anthropology; a BA in Anthropology with a concentration in visual anthropology; a BA in Global Studies; minor programs in cultural anthropology, medical anthropology, folklore and popular culture; an MA in Anthropology; a certificate in visual anthropology; a progressive master's degree in visual culture; an MA in Anthropology; a certificate in visual anthropology, medical anthropology, folklore and popular culture; an MA in Global Studies; a PhD in Anthropology; and a PhD in Anthropology with a concentration in visual anthropology; a PhD in Anthropology with tracks in cultural anthropology, medical anthropology, folklore and popular culture; an MA in Global Studies; a PhD in Anthropology.

Graduate Programs
The Center for Visual Anthropology
The primary goals of the Center for Visual Anthropology (CVA) are: to promote the incorporation of visual modes of expression into the academic discipline of anthropology; to promote mutual understanding and collaboration between professionals in the visual media and in anthropology; to create an awareness of the anthropological perspective in documentaries produced for mass audiences; to improve the materials and techniques available for using film in teaching anthropology; to encourage the collection, archiving and analysis of visual documentation for anthropological research. The Ethnographics laboratory is a part of the Center for Visual Anthropology, which provides archival and computer facilities for students and faculty who work with non linear editing systems and interactive media in anthropology. The primary mission of the Ethnographics Lab is to promote the integration of all forms of information, whether text, graphics of time-based media, into a new synthesis of anthropological knowledge. It provides support for research and representation in multimedia formats carried out in a new laboratory facility based on computer AV technologies and software.
The Jane Goodall Research Center is the designated repository of field data from Jane Goodall's work among the primates of Gombe National Park in Tanzania. A computer interactive multimedia archive of these materials is being implemented to make them available to students, faculty and other interested scholars.

Facilities
The CVA housed at the Social Science Building on the USC campus and at the C-Lab, is equipped with broadcast-quality production and editing facilities in video. These include Super 8 systems and highband 3/4" as well as 1/2" videos. Editing facilities include Super 8 editors, JVC 1/2" editing systems, a Sony 3/4" time code system, an online editing system and an AVID system. Editing and viewing facilities are also located in the School of Cinematic Arts. The CVA maintains a complete still photography lab and darkroom.

Policy on Films and Videos Produced by Students
All films and videos produced with school equipment, funding or facilities are the property of USC. Any income from distribution of student-produced films and videos will be used for the benefit of CVA students through production budgets, equipment purchases or scholarships.

Bachelor's Degree
Anthropology (BA)
The BA, Anthropology has three tracks: cultural anthropology and archaeology, medical anthropology and biological anthropology. Each track has five core courses and five additional required courses depending on the track. The total number of units for each program is 40-44. In addition to the general education requirements, the following courses are required.

Cultural Anthropology and Archaeology Track Requirements

Required Courses, Lower-Division
- ANTH 201g Principles of Human Organization Units: 4 or
- ANTH 263g Exploring Culture through Film Units: 4
- ANTH 202g Archaeology: Our Human Past Units: 4
- HBIO 200Lg The Human Animal Units: 4

Required Courses, Upper-Division
- ANTH 410a Ethnographic Field Methods and Practicum Units: 4
- ANTH 410b Ethnographic Field Methods and Practicum Units: 4
- ANTH 440 History of Anthropological Theory Units: 4

Five additional courses are required
Five additional courses are required, of which at least two must be topical and at least one must represent an area of world ethnography.

The following Anthropology courses are considered topical:
- ANTH 302 Humans and Ancient Environments Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 306 Primate Social Behavior and Ecology Units: 4
- ANTH 317 Imaging Indians: From Warriors to Windtalkers Units: 4
- ANTH 333gm Forms of Folklore Units: 4
- ANTH 335 Comparative Muslim Societies Units: 4
- ANTH 345 Politics, Social Organization, and Law Units: 4, 2 years
- ANTH 355 Urban Anthropology Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 365 Life History in Anthropological Perspective Units: 4
- ANTH 370 Family and Kinship in Cross-Cultural Perspective Units: 4, 2 years
- ANTH 371gm Cross-Cultural Research on Urban Gangs Units: 4
- ANTH 372 Interpretation of Myth and Narrative Units: 4
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 375 Applied Anthropology Units: 4, 2 years
- ANTH 407 Peasant Society Units: 4
- ANTH 460 Economic Anthropology Units: 4
- ANTH 472 Visual Techniques in Anthropology: Still Units: 4
- ANTH 476 Ethnographic Film Theory from an Historical Perspective Units: 4
- ANTH 481L GIS for Archaeologists Units: 4
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 405 Evolutionary Medicine Units: 4

The following courses are cross-listed with Anthropology and are also considered topical:
- AMST 395m African American Humor and Culture Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4
- SWMS 385m Men and Masculinity Units: 4
- SWMS 420 Woman, Nature, Culture: The Behavioral Ecology of Women Units: 4

The following Anthropology courses are considered to represent an area of world ethnography:
- ANTH 310 Archaeology of the Americas Units: 4
- ANTH 311 Old World Archaeology Units: 4
- ANTH 314g The Nature of Maya Civilization Units: 4
- ANTH 315g North American Indians Units: 4
- ANTH 316gmp North American Indians in American Public Life Units: 4
- ANTH 320 Male and Female in Pacific Society Units: 4
- ANTH 322 Anthropology of Bali Units: 4
- ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities Units: 4
- ANTH 324 Regional Ethnology: China Units: 4, 2 years
- ANTH 326 Ethnography of European Culture Units: 4
- ANTH 327 Anthropology of the Middle East and Islam Units: 4
- ANTH 328m Culture Change and the Mexican People Units: 4
- ANTH 330m Culture, Gender and Politics in South Asia Units: 4
- ANTH 335 Comparative Muslim Societies Units: 4
- ANTH 374 Asian Americans: Ethnic Identity Units: 4
- ANTH 425 Peoples and Cultures of Latin America Units: 4
- ANTH 435x Ethnic Diversity in China/Inner Asia Units: 4

The following course is cross-listed with Anthropology and is also considered to represent an area of world ethnography:
- SOCI 375m Asian Americans: Ethnic Identity Units: 4

Medical Anthropology Track

Requirements

Required Courses, Lower-Division
- ANTH 201g Principles of Human Organization Units: 4 or
- ANTH 263g Exploring Culture through Film Units: 4
- HBIO 200Lg The Human Animal Units: 4

Required Courses, Upper-Division
- ANTH 410a Ethnographic Field Methods and Practicum Units: 4
- ANTH 410b Ethnographic Field Methods and Practicum Units: 4
- ANTH 440 History of Anthropological Theory Units: 4

Five additional Anthropology courses are required
Five additional Anthropology courses are required, which should include at least three courses from the following list, one of which may be lower-division:
- ANTH 101g Illness and Healing: The Cross-Cultural Perspective Units: 4
- ANTH 105g Culture, Medicine and Politics Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 365 Life History in Anthropological Perspective Units: 4
- ANTH 370 Family and Kinship in Cross-Cultural Perspective Units: 4, 2 years
- ANTH 373 Magic, Witchcraft and Healing Units: 4
- ANTH 380 Sex and Gender in Anthropological Perspective Units: 4
- HBIO 405 Evolutionary Medicine Units: 4

Biological Anthropology Track

Requirements

Required Courses, Lower-Division
- ANTH 201g Principles of Human Organization Units: 4 or
Two courses to be selected from:

- ANTH 263g Exploring Culture through Film
  Units: 4

- HBIO 200Lg The Human Animal Units: 4

Required Courses, Upper-Division

- ANTH 440 History of Anthropological Theory
  Units: 4

- ANTH 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 or

- ANTH 491 Directed Research for Honors Units: 4

- HBIO 406 Theory and Method in Human
  Evolutionary Biology Units: 4

Five additional upper-division Anthropology

Courses are required,

Five additional upper-division Anthropology courses are required, which should include at least three from the

following:

- ANTH 305 Childhood, Birth and Reproduction
  Units: 4

- ANTH 375 Applied Anthropology Units: 4, 2
  years

- HBIO 306 Primate Social Behavior and Ecology
  Units: 4

- HBIO 308 Origins and Evolution of Human
  Behavior Units: 4

Anthropology (Visual Anthropology)

(BA)

In addition to the general education requirements, the
following courses are required.

Required Courses, Lower-Division

- ANTH 200Lg The Human Animal Units: 4

- ANTH 263g Exploring Culture through Film
  Units: 4

Required Courses, Upper-Division

- ANTH 410a Ethnographic Field Methods and
  Practicum Units: 4

- ANTH 410b Ethnographic Field Methods and
  Practicum Units: 4

- ANTH 440 History of Anthropological Theory
  Units: 4

- ANTH 475 Ethnographic Film Analysis Units: 4

- ANTH 476 Ethnographic Film Theory from an
  Historical Perspective Units: 4

One Course To Be Selected From:

- ANTH 470 Multidisciplinary Seminar in Visual
  Anthropology Units: 2 or 4

- ANTH 472 Visual Techniques in Anthropology:
  Stills Units: 4

Two Courses To Be Selected From:

- Two 300- or 400-level anthropology courses not
  listed among the required courses Units: 8

Total upper-division units: 32

Global Studies (BA)

The Department of Anthropology offers a course of study

that leads to a BA degree in Global Studies. As with any
degree in the USC Dornsife College of Letters, Arts and
Sciences, students are required to complete all applicable
general education, writing, diversity and language
requirements. Specific degree requirements include 16 units

of required core courses within anthropology (4 lower level,
12 upper level), 16 units of required humanities or social
science electives, and 8 units of language courses (in addition
to the 8 units required of all USC Dornsife students), for a
total of 40 units. The Department of Anthropology offers a
course of study that leads to a BA degree in Global Studies.

As with any degree in the USC Dornsife College of Letters,
Arts and Sciences, students are required to complete all
applicable general education, writing, diversity and language
requirements. Specific degree requirements include 16 units

of required core courses within anthropology (4 lower level,
12 upper level), 16 units of required humanities or social
science electives, and 8 units of language courses (in addition
to the 8 units required of all USC Dornsife students), for a
total of 40 units.

The 16 units of required courses in the humanities and/or
social sciences must be taken in the Departments of
Anthropology, Comparative Literature, History, International
Relations, Political Science and Religion. Students must
choose these units from a list of electives (see below). Some
substitutions can be made with the approval of the thesis
adviser. The choice of these courses allows students to tailor
the degree to their individual needs, but students are expected
to take their elective courses with a focus on one
geographical area or set of issues. The 8 additional units of
language may be taken at USC or fulfilled elsewhere in
compliance with the same guidelines that apply to the USC
Dornsife foreign language requirement.

In addition to specific course work, students in the global
studies major should complete at least one and are
recommended to complete two study abroad programs with
at least one semester abroad during the junior year. Ideally, a
student would spend one summer abroad and one semester
abroad prior to the senior year.

In the senior year, global studies majors take a senior seminar
in the fall semester and write a senior thesis under the
supervision of a regional scholar in the spring semester. A
regional scholar can be chosen from any of the six
participating departments — Anthropology, Comparative
Literature, History, International Relations, Political Science
and Religion — and this scholar should have some expertise
in the country or region where the student has spent a
semester abroad. Students will receive guidance in the
selection of a regional scholar to supervise their senior thesis.

International Careers

Global studies is an ideal course of study for students
wishing to work for international organizations, either
governmental organizations or non-governmental ones
(NGOs). Along with the required core and collateral courses,
the elective units allow sufficient flexibility to complete course prerequisites for regional and area studies programs, law school and business school. The global studies academic adviser can provide direction in planning course selections toward specific fields.

**Required Core Course, Lower-Division (4 Units)**
- ANTH 205g Introduction to Global Studies and Overseas Research

**Required Core Courses, Upper-Division (12 Units)**
- ANTH 325 Global Studies Research Methods
- ANTH 415 Global Studies Senior Seminar
- ANTH 490x Directed Research
- ANTH 491 Directed Research for Honors

**Approved Elective Courses (16 Units)**

**Humanities Elective Courses:**
- AMST 250gm The African Diaspora
- COLT 102g On Location: The Place of Literature in Global Cultures
- COLT 250g Cultures of Latin America
- COLT 264gp Asian Aesthetic and Literary Traditions
- COLT 303 Globalization: Culture, Change, Resistance
- COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema
- COLT 382gw Zen and Taoism in Asian Literature
- COLT 445 Europe and the Writing of Others
- FREN 347 Race, Gender and Power in Francophone Literature
- HIST 180g The Middle East Units
- HIST 324g Islam in Russia, the USSR, and Independent States
- HIST 333 Korea: The Modern Transformation
- HIST 369 Aztecs, Mayas, and other Indigenous Peoples of the Americas
- HIST 372 Modern Latin America
- HIST 384 Popular Culture in the Middle East
- HIST 413 The Age of Revolution
- HIST 456 Race, Slavery, and the Making of the Atlantic World

• POSC 363 Cities and Regions in World Politics Units: 4
• POSC 365 World Political Leadership Units: 4
• POSC 366 Terrorism and Genocide Units: 4
• POSC 377 Asian Political Thought Units: 4
• POSC 453 Political Change in Asia Units: 4
• SWMS 336 Health, Gender and Ethnicity Units: 4

The minor in folklore and popular culture provides an academic foundation for students interested in the many genres in the field including folktales, myths, legends, proverbs, jokes, games, folk medicine, and folk and indigenous musical traditions, from around the world. Through interdisciplinary course work, students will learn techniques of collecting, analyzing and interpreting the traditional expressive culture of diverse groups. Students will analyze the interrelationships of folklore and national, regional and ethnic identities. After becoming acquainted with methods of interpreting different forms of folklore, students will see how value systems are reflected in the data, so that students understand the ideological underpinnings of group formation, group identity, conflict and strategies for resolution. By focusing on the individual, informal culture, and the tension between the individual and myriad groups to which they belong, folklore provides yet another window into understanding how individuals function in complex societies. Since the field is historically grounded and culturally comparative, folklore provides important perspectives on the human condition.

Course Requirements
For the minor in folklore and popular culture, students must complete five courses, as distributed below.

Core Requirement
• ANTH 333gm Forms of Folklore Units: 4

Lower-Division Courses (Choose One)
• AMST 285gm African American Popular Culture Units: 4
• ANTH 101g Illness and Healing: The Cross-Cultural Perspective Units: 4
• ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4
• CLAS 280gp Classical Mythology in Art and Literature Units: 4
• COMM 206 Communication and Culture Units: 4
• HIST 271g Telling Native American Stories Units: 4

Upper-Division Courses (Choose Three)
• AMST 395m African American Humor and Culture Units: 4
• ANTH 360 Symbolic Anthropology Units: 4
• ANTH 370 Family and Kinship in Cross-Cultural Perspective Units: 4, 2 years
• ANTH 372 Interpretation of Myth and Narrative Units: 4
• ANTH 373 Magic, Witchcraft and Healing Units: 4
• ANTH 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
• CLAS 325 Ancient Epic Units: 4
• CLAS 380 Approaches to Myth Units: 4
• COLT 311 Epic Units: 4
• COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
• COLT 365 Literature and Popular Culture Units: 4
• COMM 384 Interpreting Popular Culture Units: 4
• COMM 440 Music as Communication Units: 4
• GERM 346 German Folklore and Popular Culture Units: 4
• HIST 380 American Popular Culture Units: 4
• MDA 330 The Armenian Heritage: History, Arts, and Culture Units: 4
• MUSC 444 American Roots Music: History and Culture Units: 4
• POSC 441m Cultural Diversity and the Law Units: 4

Medical Anthropology Minor
Medical anthropology examines the body, illness and healing from a cultural perspective, including comparative studies of folk healing systems, curing rituals and Western biomedical practices.

Required Course
• ANTH 101g Illness and Healing: The Cross-Cultural Perspective Units: 4
• HBIO 200Lg The Human Animal Units: 4

One Course (4 Units) To Be Selected From:
• ANTH 105g Culture, Medicine and Politics Units: 4
• ANTH 250g Race and Sexual Politics in Southeast Asia Units: 4
• ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4

Upper-Division Courses: Four Of The Following (16 Units):
• ANTH 305 Childhood, Birth and Reproduction Units: 4
• ANTH 360 Symbolic Anthropology Units: 4
• ANTH 373 Magic, Witchcraft and Healing Units: 4
• ANTH 375 Applied Anthropology Units: 4, 2 years
• ANTH 380 Sex and Gender in Anthropological Perspective Units: 4
• ANTH 440 History of Anthropological Theory Units: 4
• HBIO 405 Evolutionary Medicine Units: 4
• OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation Units: 4
• SWMS 336 Health, Gender and Ethnicity Units: 4
• SWMS 420 Woman, Nature, Culture: The Behavioral Ecology of Women Units: 4

Southeast Asia and its People Minor
This minor allows students to supplement more narrowly defined departmental majors with a multidisciplinary focus on an area of great importance both to global developments and to cultural heritage issues in California and the United States. There is no language requirement and no required courses, but students must take one lower and four upper-division courses dealing with Southeast Asian cultures and people of Southeast Asian heritage in the United States. The focus of this new minor is on transnational connections and the new area of global culture.

Lower Division
Choose one class (4 units)
• AMST 220gmw The Making of Asian America Units: 4
• ANTH 250g Race and Sexual Politics in Southeast Asia Units: 4
• ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions Units: 4
• POSC 120 Comparative Politics Units: 4
• HIST 265gw Racism, Sexism, and the Law Units: 4

Upper Division
Choose four classes (16 units), including at least one class from each list.

Southeast Asia
• ANTH 322 Anthropology of Bali Units: 4
• ANTH 373 Magic, Witchcraft and Healing Units: 4
• COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema Units: 4
• IR 315 Ethnicity and Nationalism in World Politics Units: 4
• POSC 352 Politics of Southeast Asia Units: 4
• POSC 377 Asian Political Thought Units: 4
• REL 330 Introduction to the Religions of India Units: 4
• REL 334 Religion and Colonial Encounter Units: 4

Southeast Asia and the United States
• HIST 344 The Vietnam War, 1945–1975 Units: 4
• IR 424w Citizenship and Migration in International Politics Units: 4
• POSC 328 Asian American Politics Units: 4
• REL 336 Re-viewing Religion in Asian America Units: 4

Note:
Courses have no prerequisites.

Master's Degree
Anthropology (MA)
Degree Requirements
Students are not accepted for the MA in Anthropology alone, but the MA in Anthropology can be granted after two years of course work and satisfactory completion of the screening exams.

Required Courses
• ANTH 501 History and Foundations of Anthropology Units: 4
• ANTH 502 Contemporary Theory in Anthropology Units: 4
• ANTH 503 Regional Ethnography Units: 4 or ANTH 506 Primate Behavior and Sociobiology Units: 4
• ANTH 562 The Practice of Ethnography Units: 4 (or another methods course approved by the supervisor for primatologists)
• Four 4-unit graduate-level courses in anthropology Units: 16

Total units: 32

Note:
A screening examination must be taken before a student has completed more than 24 units of course work and should be submitted in the third year of residence. The exam consists of three written field statements, a working bibliography and an oral defense.

Visual Anthropology (MVA)
Students can apply for the Master of Visual Anthropology only if they have a strong undergraduate background in visual anthropology and have a clearly outlined project for a documentary based on ethnographic research that can be completed within a year from the time that they are admitted.

Required Courses
• ANTH 502 Contemporary Theory in Anthropology Units: 4
• ANTH 562 The Practice of Ethnography Units: 4
• ANTH 575 Seminar in Ethnographic Film Units: 4
• ANTH 576L Anthropological Media Seminar Units: 4
• ANTH 577L Advanced Anthropological Media Seminar Units: 4
• MDA 501 Introduction to Visual Studies: Methods and Debates Units: 4 or
• One elective from among the following recommended courses (4 units):
  • ANTH 501 History and Foundations of Anthropology Units: 4
  • ANTH 503 Regional Ethnography Units: 4
  • ANTH 509 Key Topics in Linguistic Anthropology Units: 4
  • ANTH 510 Urban Anthropology Units: 4
  • ANTH 601 Feminist Issues in Anthropology Units: 4
  • ANTH 602 The Anthropology of Popular Culture Units: 4
  • ANTH 603 Experiments in Ethnographic Writing Units: 4
  • ANTH 604 Bodies and Practices Units: 4
  • ANTH 605 Race: Performance, Politics, Cultural Production Units: 4
  • ANTH 606 Seminar on Nationalism and Ethnicity Units: 4
  • MDA 599 Special Topics Units: 2, 3, 4

Total units: 28

Note:
The final documentary project must be submitted in rough cut format by the end of August following the completion of all course work in May.

University Certificate
Visual Anthropology Certificate
Students can be admitted to the certificate program in visual anthropology after they have completed their PhD qualifying examinations. The certificate is an interdisciplinary program, with training in digital video production provided by the USC School of Cinematic Arts. Professional skills in video production are designed to help students present their research results to a wider audience and to use visual media effectively in communicating ideas about anthropology. After completing fieldwork, students take a year-long editing sequence and practicum (ANTH 576 and ANTH 577) to finish a visual project, which will complement the written dissertation.) A total of 16 units is required.

Required Courses
• ANTH 562 The Practice of Ethnography Units: 4
• ANTH 575 Seminar in Ethnographic Film Units: 4
• ANTH 576L Anthropological Media Seminar Units: 4
• ANTH 577L Advanced Anthropological Media Seminar Units: 4

Note:
Students may begin to take course work required for the certificate in their first year, but they cannot complete their project until they have satisfied other requirements for doctoral candidacy. The Certificate in Visual Anthropology is received at the same time as the PhD.

Doctoral Degree
Anthropology (PhD)
Students may apply online for graduate study in the doctoral program at usc.edu/admission/graduate/apply. The PhD requires 60 units of course work. These include the 32 units required for the MA (16 units of required courses and 16 of graduate electives), 4 additional graduate units, plus a sequence of two graduate courses in an outside field. The
additional required units for the PhD are ANTH 790 Research (8 units) and ANTH 794a Doctoral Dissertation, ANTH 794b Doctoral Dissertation (2-2 units). Before being admitted to PhD candidacy, the student must fulfill the language requirement, present an expanded version of the field statements at a qualifying examination, write a dissertation prospectus and pass the qualifying examination. Having completed this work, the student will conduct fieldwork and write the doctoral dissertation.

**Degree Requirements**

**Required Courses**

- ANTH 501 History and Foundations of Anthropology Units: 4
- ANTH 502 Contemporary Theory in Anthropology Units: 4
- ANTH 562 The Practice of Ethnography Units: 4
- ANTH 794b Doctoral Dissertation Units: 2
- ANTH 794a Doctoral Dissertation, ANTH 794b Doctoral Dissertation (2-2 units)

**Note:** Completion of the program requires 60 units.

**Additional Requirements**

**Foreign Language Requirement**

A reading knowledge of a scholarly language (normally chosen from among Arabic, Chinese, French, German, Italian, Japanese, Portuguese, Russian or Spanish) is required before admission to candidacy. If some other field language is required for the dissertation research to be successfully completed (for example, Maya, Hebrew, Javanese, etc.), this will be communicated to the student upon submission of the field project required for admission to candidacy.

**Art History**

Art history combines the study of art with the study of culture. The undergraduate major not only receives sound training in the history of art but also a basis in other humanistic disciplines. The curriculum is designed to guarantee students a general knowledge of both western and eastern art, and to offer a variety of upper-division courses in specialized areas. Majors are exposed to a diversity of theoretical approaches and encouraged to sharpen their critical and conceptual thinking. This foundation has enabled many art history graduates to pursue advanced degrees in nationally recognized programs, to enter diverse fields, including law or business, and to pursue careers in the arts. A special feature of the undergraduate program is the apprenticeship, which affords upper-division students the opportunity to work in the professional art world in return for elective credit. Students gain valuable job skills in local museums, galleries, auction houses and art foundations. Apprenticeship placement is also available during the summer months throughout the United States.

**Faculty**

- University Professor and Leo S. Bing Chair in English and American Literature and Professor of English, Art History and History: Leo Braudy, PhD (English)
- Provost Professor of English and Art History: Kate Flint, PhD (English)
- Professors: John Bowlt, PhD (Slavic Languages and Literatures); Diane Ghirardo, PhD (Architecture); Selma Holo, PhD; Amelia Jones, PhD (Fine Arts); Carolyn M. Malone, PhD; Amy Ogata, PhD; John Pollini, PhD; Vanessa Schwartz, PhD (History)
- Associate Professors: Daniela Bleichmar, PhD*; Jennifer Greenhill, PhD; Suzanne Hudson, PhD; Sonya Lee, PhD; Ann Marie Yasin, PhD (Classics)
- Assistant Professors: Susanna Berger, PhD; Megan Luke, PhD
- Assistant Professor (Teaching): Hector Reyes, PhD
- Adjunct Assistant Professor of the Practice: Miya Mizuta Lippit
- *Recipient of university-wide or school teaching award.

**Undergraduate Degree**

**Art History Honors Program**

Candidates for the BA in the Department of Art History can earn a designation on their transcripts of departmental honors. Admission to the Honors Program is required. Prerequisites: 3.5 overall GPA, 3.5 major GPA or better, completion of at least three upper-division art history courses at the time of admission, submission of an application form to the undergraduate faculty advisor. Required for departmental honors: maintain GPA requirements stated above and complete AHIS 495a and AHIS 495b Undergraduate Honors Thesis.

**Bachelor of Arts in Interdisciplinary Archaeology**

See Religion for a complete listing.

**Interdisciplinary Minor in Early Modern Studies**

This minor brings together the resources of the Departments of English, History and Art History to study the literatures and cultures of Europe and the Americas from the late medieval period to 1800. For complete listing of requirements, see the Department of English.

**Graduate Degrees**

Graduate students in art history pursue a wide range of subject matter, using a variety of methodologies and techniques. Graduates may also pursue parallel interests by taking courses in outside departments such as history,
classics, East Asian languages and cultures, Slavic languages and literatures, French, German, Italian and others. Graduate students are encouraged to participate in annual conferences and symposia. Travel grants are available through the department. In addition to image databases, electronic access to university library catalogues, courtesy privileges and cross-registration of course work at UCLA, our graduate students have access to numerous research opportunities in and around Southern California at institutions such as the Los Angeles County Museum of Art, the Huntington Library, Art Collections and Botanical Gardens, the Archives of American Art, the Institute for Modern Russian Culture, the J. Paul Getty Museum and the Getty Research Institute, the Museum of Contemporary Art, Los Angeles, and the USC Pacific Asia Museum.

Admission
Admission to all programs is granted through the Graduate School in conjunction with the Department of Art History; all applicants must meet the requirements of both. Interviews are strongly encouraged. All applicants must complete the department's supplemental application form. Complete details for all graduate programs can be found in the Guidelines for Graduate Studies in Art History, obtainable upon admission.

Areas of Concentration

Bachelor's Degree
Art History (BA)
In art history, undergraduates are provided with a sound, broad foundation in art from a variety of offerings. On this basis, exploration of the art of many eras and cultures proceeds in a program designed to develop an awareness of the integral role played by art as an expression of the human condition and society throughout history. A grade of C or higher is required in departmental courses for all undergraduate majors.

Curriculum Requirements
The Bachelor of Arts in Art History requires 128 units.

General Education and Diversity Requirements
Candidates for the Bachelor of Arts in Art History must complete the general education and diversity requirements of the USC Dornsife College of Letters, Arts and Sciences.

Major Requirements
The major requires 40 units as follows.

Lower-Division Requirements (8 Units)

Choose one course from:

Total units: 8

Additional Requirements (32 units)

- AHIS 387 Later Japanese Art Units: 4

and two that must be at the 400-level

- AHIS 400x Undergraduate Apprenticeship Units: 2 counts for elective credit only and may not be applied to the major.
- AHIS 494 Undergraduate Proseminar in Art History Units: 4 (the capstone course) may be taken in either the junior or senior year.

Note:
The following courses require written permission of the chair of the Art History Department: AHIS 495a Undergraduate Honors Thesis (2-2), AHIS 495b Undergraduate Honors Thesis (2-2) and AHIS 499 Special Topics (2–4, max 8).

Minors

Art History Minor
Art history combines the study of art with the study of culture broadly conceived. The art history minor offers a concentrated course of study that includes a variety of objects from different historical periods and cultures in relation to their makers, patrons, viewers and critics. Students in the minor are trained to analyze visual images and information through a process of intensive looking, reading, research and writing.

Lower-division Curriculum (8 units)
Choose Two Lower-Division Courses;

Only One May Be At The 200 Level

- AHIS 120gp Foundations of Western Art Units: 4
- AHIS 121gp Art and Society: Renaissance to Modern Units: 4
- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126gp Arts of Asia II: 1300 to the Present Units: 4
- AHIS 127g Arts of the Ancient Americas Units: 4
- AHIS 128g Arts of Latin America Units: 4
- AHIS 201g Digging into the Past Units: 4
- AHIS 220g Medieval Visual Culture Units: 4
- AHIS 230 Art and Culture in Early Modern Europe Units: 4
- AHIS 250m Modernity and Difference: Critical Approaches to Modern Art Units: 4

Required Courses

- AHIS 100g Introduction to Visual Culture Units: 4
- COMM 306 Innovation, Entertainment, and the Arts Units: 4 or
- AHIS 250m Modernity and Difference: Critical Approaches to Modern Art Units: 4 (Gateway Course)

Four courses to be selected from one of the following three tracks:

(1) Photography, Film and the Reproduction of Images

- AHIS 373g History and Theory of Photography Units: 4
- AHIS 469 Critical Approaches to Photography Units: 4
- ANTH 263g Exploring Culture through Film Units: 4
- COLT 452 Representation and Cognition in Photography Units: 4
- COLT 480 Dada and Surrealism Units: 4
- CTCS 392 History of the American Film, 1925–1950 Units: 4
- CTCS 393 History of the American Film, 1946–1975 Units: 4
- CTCS 394 History of the American Film, 1977–present Units: 4
- CTCS 400 Non-Fiction Film and Television Units: 4
- ENGL 471 Literary Genres and Film Units: 4
- ENGL 481 Narrative Forms in Literature and Film Units: 4
• FAIN 310 Digital Photo Studio Units: 4
• FAPH 309a Intermediate Photography Units: 4*
• FAPR 311 Printmaking Units: 4
• FREN 320 French Cinema Units: 4
• HIST 225g Film, Power, and American History Units: 4
• HIST 381 Cinema and History Units: 4
• HIST 481 Producing Film Histories Units: 4
• PHIL 446 Aesthetics and the Film Units: 4

(2) Popular Culture
• AHIS 370g Modern Art III: 1940 to the Present Units: 4
• COLT 365 Literature and Popular Culture Units: 4
• COMM 384 Interpreting Popular Culture Units: 4
• COMM 450 Visual Culture and Communication Units: 4
• COMM 455 Advertising and Society Units: 4
• COMM 458m Race and Ethnicity in Entertainment and the Arts Units: 4 (prerequisite: COMM 300)
• CTCS 392 History of the American Film, 1925–1950 Units: 4
• CTCS 393 History of the American Film, 1946–1975 Units: 4
• CTCS 394 History of the American Film, 1977–present Units: 4
• CTCS 404 Television Criticism and Theory Units: 4
• ENGL 392 Visual and Popular Culture Units: 4
• ENGL 471 Literary Genres and Film Units: 4
• ENGL 481 Narrative Forms in Literature and Film Units: 4
• HIST 380 American Popular Culture Units: 4
• PAS 400 New Models of Art in City-Space Units: 4
• PHIL 446 Aesthetics and the Film Units: 4

• ENGL 476m Images of Women in Contemporary Culture Units: 4
• ENGL 478m Sexual/Textual Diversity Units: 4
• HIST 245gm Gender and Sexualities in American History Units: 4
• SOCI 437 Sexuality and Society Units: 4

Total units required*: 24

Note:
*32 units if students select FAPH 309a Intermediate Photography with 8 units of prerequisites

Master's Degree

Art History (MA)
The department does not accept applicants for the Master of Arts in art history. Although the MA is not offered as a terminal degree, but only en route to the PhD, a student may be eligible for the MA on leaving the program after two years. A minimum of 32 units is required for the degree, and the student must pass the second year review which includes the departmental equivalent of a thesis: a revised seminar paper demonstrating original thought, research skills and writing proficiency. The opportunity to gain experience as a teaching assistant is available on a competitive basis. Transfer work applicable to the MA program must have been completed within seven years of the date of application.

Degree Requirements
A minimum of 32 units, usually taken during a two-year period, is required for the Master of Arts in Art History, to be distributed as follows:

Required Courses
• AHIS 500 Methods and Theory of Art History Units: 4
• Additional 500-level courses Units: 28

Total units: 32

Additional Requirements

Course Distribution
Courses will be at the 500 level; 400-level courses may be accepted with approval of the graduate adviser. No more than two seminars with the same course number can be taken for credit toward the master of arts. AHIS 500 normally must be taken in the first semester of study.

Foreign Language Requirement
All candidates must pass a reading proficiency examination in one language, normally French or German. Substitutions may be made upon faculty recommendation and approval of the chair of art history when it is deemed appropriate to the student's course of study (i.e., Italian, Chinese, Japanese, Greek, etc.). The language requirement should be completed by the end of the first year.

University Certificate

History of Collecting and Display Certificate
This program, open to University of Southern California PhD students of art history as well as qualified students from other
USC departments with written permission from their home department and the Department of Art History, is devoted to the study of the history of collecting and display of works of art and related materials across a broad chronological and geographical spectrum. The program provides a means of advancing knowledge about the presentation, circulation and consumption of works of art, as distinct from the more traditional art historical investigation of the conditions surrounding their production. Additionally, this program is designed to remedy a widely perceived disjunction between the ways art history is practiced in the museum and the academy. Each academic department will determine the number of units completed which may be applied to the student's graduate degree in that department.

**Required Courses**

- AHIS 501 Problems in the History and Theory of Collecting and Display Units: 4
- AHIS 504 Museum Research Assistantship Units: 1

**Two of the following courses:**

- AHIS 502 Markets, Value and the Institutions of Art Units: 4
- AHIS 503 Categories and Collections Units: 4
- AHIS 550 Art, Business and the Law Units: 4

**Total units: 13**

**Visual Studies Graduate Certificate**

The field of visual studies encompasses a diverse range of images and artifacts as well as the history, processes and technologies of vision itself. This certificate will provide PhD students with the tools necessary to think critically about visual objects and experience and to apply that thinking to their ongoing scholarly work and doctoral research. Students will combine the sustained analysis of specific representations with attention to broader philosophical frameworks and historical conditions. Graduate students intending to concentrate in visual studies must be admitted to a PhD program at USC. While fulfilling all the requirements for their departmental graduate degree, they may also earn a certificate of competency in visual studies. To receive this certificate, students must take MDA 501 Introduction to Visual Studies: Methods and Debates, a team-taught MDA 599 course, and two other graduate seminars from an approved list of relevant courses, 500 level and above, for a total of at least 16 units. Directed research may not be taken toward certificate requirements.

In addition to the completion of these course requirements, students must demonstrate a focus on visual studies as part of their doctoral dissertation. Alternatively, they may take an oral examination based on three research papers they have written within the context of their visual studies course work. The oral exam will be administered by faculty members affiliated with the visual studies graduate certificate. Faculty will be responsible for judging the adequacy of the visual studies component in the student's dissertation or oral examination.

**Certificate Requirements (8 Units)**

- MDA 501 Introduction to Visual Studies: Methods and Debates Units: 4
- MDA 599 Special Topics Units: 2, 3, 4 max 8

**Approved Certificate Courses (8 Units)**

- AHIS 501 Problems in the History and Theory of Collecting and Display Units: 4
- AHIS 505 Seminar in Feminist Theory and Visual Culture Units: 4
- AHIS 515 Seminar in Contemporary Art Units: 4 max 16
- AHIS 520 Seminar in Modern Art Units: 4
- AHIS 529 Seminar in Art, Science, and Technology Units: 4
- AMST 519 Indigenous, Decolonial and Transhemispheric American Studies Units: 4
- ANTH 502 Contemporary Theory in Anthropology Units: 4
- ANTH 576L Anthropological Media Seminar Units: 4
- ANTH 577L Advanced Anthropological Media Seminar Units: 4
- ANTH 602 The Anthropology of Popular Culture Units: 4
- COMM 516x Feminist Theory and Communication Units: 4
- COMM 654 Art, Artists and Society Units: 4
- CSLC 501 Introduction to Comparative Media Studies Units: 4
- CSLC 640 Seminar in Film and Visual Studies Units: 4
- CTCS 511 Seminar: Non-Fiction Film/Video Units: 4
- CTCS 517 Introductory Concepts in Cultural Studies Units: 4
- CTCS 518 Seminar: Avant-Garde Film/Video Units: 4
- CTCS 564 Seminar in Film and Television Genres Units: 4
- CTCS 567 Seminar in Film/Television and a Related Art Units: 4
- CTCS 677 Cultural Theory Units: 4
- CTCS 678 Seminar in Film Theory and Medium Specificity Units: 4
- CTCS 688 Moving Image Histories: Methods and Approaches Units: 4
- EALC 509 Transnational Korean Cinema Units: 4
- EALC 510 Contemporary Japanese Cinema Units: 4
- EALC 512 Japanese Literature and Film Units: 4
- EALC 535 Proseminar in Chinese Visual Culture Units: 4
either a BA or a BS degree in biological sciences with

• ENGL 502 Contemporary Literary and Cultural Theory Units: 4
• ENGL 592 Contemporary British and American Literature and Cultures Units: 4
• ENGL 620 Literature and Interdisciplinary Studies Units: 4 max 12
• FA 551 Fine Art and Interdisciplinary Studies Units: 4 max 12
• GERM 581 Weimar Culture Units: 4
• HIST 520 Modernity and Its Visual Cultures Units: 4
• HIST 620 Research Seminar on Modern Visual Culture Units: 4
• IML 501L Seminar in Contemporary Digital Media Units: 4
• SLL 665 Seminar in Russian Culture and the Arts Units: 3 max 9
• THTR 525 Seminar in Contemporary Theatre Units: 4
• THTR 535 Seminar in Aesthetics of the Theatre Units: 4

Doctoral Degree

Art History (PhD)

Application deadline: December 1.
The doctor of philosophy in the Art History program normally requires at least three years of course work and two years of dissertation research. Applicants may be admitted directly into the program after receiving the BA Other applicants may already hold an MA in art history or the equivalent from USC or another accredited school. Every student will be subject to departmental screening procedures, which involve periodic review by the art history graduate committee. The committee may recommend at any time, after a written warning, based on a student's grades, evaluation of instructors or rate of progress toward the degree, that a student be dropped from the program. Such recommendations will become effective at the end of the semester during which the recommendation is made.

Course Requirements

Master of Arts and Doctor of Philosophy units total 60. Up to 32 master of arts units from USC or 16 from other institutions may be transferred with approval of the faculty.

Transfer work applicable to the PhD program must have been completed within 10 years of the date of application. AHIS 500, or equivalent, is required of all graduate students. Four units are for work on the dissertation. (Two units of dissertation credit each semester — including summer — for a minimum registration period of two semesters.)

Foreign Language Requirements

All candidates must pass reading proficiency examinations in a minimum of two languages, normally French and German or the requisite languages in Asian art. Substitutions and/or additions may be made with faculty recommendation and approval of the chair of the Art History Department when appropriate to the student's program. Additional foreign language beyond the minimum may be required depending on the student's program of study. All language requirements must be completed prior to taking the qualifying exam.

Screening Examinations

Passing the following procedures are prerequisite to continuation in the doctoral program, as stated in the departmental graduate guidelines. Before the student has completed 24 units, the first-year examination must be passed. Before the student has completed 48 units, the second-year review must be passed.

Qualifying Examination

At the end of the second year, the student will nominate a five-member qualifying exam committee for the qualifying examination that includes one member from outside the Department of Art History. The student is expected to pass the qualifying examination in a major field and satisfy the requirements for the minor and outside fields by the end of the third year. Forms for permission to take the qualifying examination must be submitted at least 60 days before the date of the scheduled examination. The written portion of the examination will be followed by an oral examination. The oral examination will be given to discuss in greater depth the student's knowledge of the dissertation proposal; the oral lasts approximately two hours. After passing the qualifying examination, the student will be admitted to candidacy for the PhD

Dissertation

Following the completion of the qualifying exam, the qualifying exam committee will be reduced to three members, including one member from outside the department, who will guide and finally approve the dissertation.

Biological Sciences

The Department of Biological Sciences has research faculty with specialties in four disciplines: human and evolutionary biology, marine environmental biology, molecular and computational biology, and neurobiology. A diversity of upper-division undergraduate and graduate courses permits biology majors to choose an emphasis in any of these four disciplines. (See the Neuroscience section of the catalogue for descriptions of the graduate degree in Neuroscience). The department offers both BA and BS degrees in biological sciences and an honors program in which a student can earn either a BA or a BS degree in biological sciences with honors. The department also offers both BA and BS degrees in human biology. The BS in biochemistry is offered as a joint program with the Department of Chemistry. The honors program is available to students who maintain a GPA of 3.5 in the sciences and who have completed their freshman year. The honors program includes research opportunities, seminars and thesis preparation courses. Applications for the Honors Program are available in Allan Hancock Foundation (AHF), Room 105A. Undergraduates in biological sciences have the opportunity to become involved in laboratory or field research by taking research courses for some of their
elective units. At the graduate level, the department offers challenging degree programs that lead to a PhD in: integrative and evolutionary biology; marine biology and biological oceanography; molecular biology; and computational biology and bioinformatics. The department also offers progressive MS degrees in marine and environmental biology and molecular genetics and biochemistry.

Assistant Professors: James Boedicker, PhD (Physics); Sean Curran, PhD (Gerontology); Matthew Dean, PhD; Dion Dickman, PhD; Ian Ehrenreich, PhD; Moh El-Naggar, PhD* (Physics); Christoph Haselwander, PhD (Physics); Bruce Herring, PhD; Samuel Andrew Hires, PhD; Scott Kanoski, PhD; Vsevolod Katritch, PhD; Fabien Pinaud, PhD; Matthew Pratt, PhD (Chemistry); Kai Wang, PhD (Psychiatry); Chao Zhang, PhD (Chemistry)

Professor (Research): James Hicks, PhD

Associate Professors (Research): Linda Duguay, PhD; Feixue Fu, PhD; Magnus Nordborg, PhD

Assistant Professors (Research): Peter Calabrese, PhD; Juliette Hart, PhD; Myrna Jacobson, PhD; Wenyuan Li, PhD; Phuong Pham, PhD

Adjunct Professors: Luis Chiappe, PhD; Kirk Fitzhugh, PhD; Gordon Hendler, PhD; Burt Jones, PhD; Steve A. Kay, PhD; DSc; Marinelli, PhD; Joel W. Marin, PhD; Tony Michaels, PhD; Xiaoaming Wang, PhD

Adjunct Associate Professor: Regina Wetzer, PhD

Adjunct Assistant Professors: Rahul Jandial, PhD; Arshad Khan, PhD; Beth Orcutt, PhD

Adjunct Professor (Research): Simon Tavaré, PhD
Adjoint Associate Professor (Research): Rodolfo Iturriaga, PhD
Adjoint Assistant Professor (Research): Joel Hahn, PhD; Richard Thompson, PhD
Associate Professor (Teaching): Karla B. Heidelberg, PhD
Assistant Professors (Teaching): Christa Bancroft, PhD; Erik Kolb, PhD; Oliver Rizk, PhD
Senior Lecturer: Gudrun Floyd, MS
Lecturers: Stephanie Bogart, PhD; Nancy Castro, PhD; Tamara Espinet, MS; Raffaella Ghittoni, PhD; Michael Hadjidaniel, PhD; Laura Held, BS; Helaine Lopes, PhD; Gioia Polidori Francisco, PhD; Bruce Yazejian, PhD
Emeritus Professors: Michael Appleman, PhD; Richard Deonier, PhD; Arnold S. Dunn, PhD; William O. McClure, PhD*
*Recipient of university-wide or college teaching award.

Undergraduate Degrees

Advisement
Advisement in the Department of Biological Sciences is required each semester. First semester freshman and transfer students must complete advisement during orientation. Advisement in all remaining semesters takes place during the pre-registration period. The undergraduate coordinator forwards advisement appointment information each semester to all students in biological sciences and biochemistry.

Pre-Medical and Other Pre-Professional Preparation
The department offers specially planned courses within the biological sciences to prepare students for admission to professional schools (medicine, dentistry, veterinary science, occupational therapy, physical therapy, pharmacy, optometry, public health), paramedical sciences (medical technology, physician's assistant, clinical and public health microbiology, clinical biochemistry), naturalist and environmental positions in the public and private sectors, jobs in industry (biotechnology), and graduate study (basic biological and biomedical fields). With the proper selection of courses under the guidance of the Department of Biological Sciences and the USC Rossier School of Education, the BS degree satisfies the California requirements for secondary school teaching in the life sciences.

Honor Society
The Department of Biological Sciences offers membership in Phi Sigma, a national honor society, to selected biology majors (Alpha Alpha Chapter at USC.) Phi Sigma is devoted to the promotion of research and academic excellence in the biological sciences. Students with a GPA above 3.0 who have interest in research and have completed core requirements for the first two years in biological sciences are eligible. Major activities range from presentation of papers by members and lectures by outside speakers to field trips, laboratory demonstrations and joint research projects.

Maymester Courses on Catalina Island
The Biological Sciences Department in conjunction with the USC Wrigley Institute for Environmental Studies (WIES) sponsors 4-week Maymester programs at USC's Phillip K. Wrigley Marine Sciences Center (WMSC) on Santa Catalina Island. The Maymester courses focus on conservation biology, animal physiology, aquatic microbiology and field techniques in marine biology and biological oceanography. These courses are open to all biology majors as well as students in other departments and other institutions with a strong biology background. Students are primarily in their junior or senior years and may participate in any of the courses offered.

All the courses are taught by USC faculty and supported by USC graduate student teaching assistants. The classes are specialized to take advantage of the unique facilities and setting of Santa Catalina Island.

Students live on Catalina Island for the entire length of the course. Rates for room and board at the USC Wrigley Marine Science Center are comparable to those on campus. For those wishing to return to the mainland on the weekend — free transportation is provided each Friday to leave and each Monday to return.

For more information, students should contact the instructor(s) for the course of interest. Additional information can also be found at http://dornsife.usc.edu/wrigley/education/.

Minor in Craniofacial and Dental Technology
For a complete listing of course requirements, see the Herman Ostrow School of Dentistry of USC.

Minor in Biotechnology
The Marshall School and the departments of biological sciences and chemistry in the USC Dornsife College of Letters, Arts and Sciences jointly offer the minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biology, chemistry or engineering student seeking a career in business and/or the biomedical/biotechnical sciences. Refer to Biological Sciences for a list of required courses.

Graduate Degrees

Degree Programs in Biological Sciences
The graduate programs in biology provide education and training of biologists interested in living systems ranging from cellular to ecosystem levels of organization, investigated by laboratory or fieldwork. Courses and faculty research interests allow a multidisciplinary approach. A number of additional research areas are provided by adjunct faculty from other institutions, including the Los Angeles County Museum of Natural History and Children's Hospital Los Angeles. Students develop the ability to formulate and test hypotheses, integrating information and concepts in the completion of a dissertation (PhD). A qualifying exam committee is formed for each student during the first year to develop a particular program of course work and research, and to evaluate the student's progress. Specific information about the options in biological sciences can be obtained by requesting information brochures or online at dornsife.usc.edu/bisc.

Admission Requirements
Applicants must have a bachelor's degree in a natural science (preferably biology) from an accredited four year college or university, or in mathematics or engineering; required background courses include organic chemistry, general
physics and mathematics through integral calculus. Applicants are evaluated by their transcripts and GPA; scores on the GRE General Test; three letters of recommendation; and a statement of interest. A faculty member must serve as initial sponsor and adviser for admission to marine biology and biological oceanography (MBBO) and integrative and evolutionary biology (IEB). Applicants who are accepted but judged to have minor deficiencies are expected to correct them within the first year.

Degree Requirements
These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of the catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Molecular and Computational Biology
This program is designed to train the participants intensively in the concepts and experimental methodologies of molecular biology and biochemistry. The subject matter is organized in an integrated fashion (lectures, seminars and laboratory) to present fundamental information on the biochemistry, biophysics, genetics and development of cells from a variety of different organisms. Primary emphasis is on the relationship between structure and function at different integrative and functional levels. The program offers a PhD in Molecular Biology and a PhD in Computational Biology and Bioinformatics. Molecular and computational biology (MCB) students are required to complete at least two laboratory rotations in their first year. Applications may be accessed online at http://dornsife.usc.edu/bisc/mcb/.

Admission Requirements
Applicants are expected to have a bachelor's degree or equivalent in a cognate area such as biology, chemistry, physics, engineering, bacteriology, computer science, or bioinformatics. Undergraduate work should include a basic course in biology, basic physics, physical chemistry, organic chemistry, biochemistry and calculus. Students who are deficient in any of these may be required to correct the deficiency during the first two years of graduate study. Courses taken to correct these deficiencies are usually not credited toward the degree. The student must submit letters of recommendation from at least three faculty members who can evaluate the promise of the student for graduate work and independent research. The applicant must take the GRE General Test prior to acceptance.

Degree Requirements
These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor's Degree

Biological Sciences (BA)
The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

Major Core Courses, Lower-Division

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Major Core Courses, Upper-Division

- BISC 320L Molecular Biology Units: 4
- BISC 325 Genetics Units: 4
- BISC 330L Biochemistry Units: 4

Collateral Sciences Core Courses, Lower-Division

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Collateral Sciences Core Courses, Upper-Division

- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4

Upper-Division Major Courses

Eight units of upper-division BISC course work available for major credit are required. No more than 4 units of BISC 490x may be used to fulfill the upper-division elective requirement. In addition, no more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement. It is expected that students will take 100-level BISC core courses during the first year, two 300-level BISC core courses during the second year, and the remaining core courses and the 300- or 400-level BISC major elective courses during the third and fourth years.
### Total required units: 128

### Free elective units: 24

#### Scholarship in Major Subject

The department requires that students receive a grade no lower than C- in their five core courses. They must maintain a 2.0 GPA in the upper-division biology and chemistry courses required for the major, as well as an overall 2.0 GPA. All major core courses must be taken on a letter grade basis.

#### Honors Program in Biological Sciences

The department offers an honors program to outstanding students already pursuing studies for the BA or BS degree in Biological Sciences. This program offers students an opportunity to participate in undergraduate research, experience in writing an honors thesis summarizing the completed research, and experience in an honors seminar. Honors students are required to take two semesters of BISC 493x Honors Seminar (1 unit/semester) and one semester of BISC 494x Honors Thesis (2 units) in addition to fulfilling all requirements of the BA or BS degree. Honors students must also choose BISC 490x as one of their upper division electives. This program leads to the designation on the transcript of Bachelor of Arts or Bachelor of Science in Biological Sciences with Honors.

#### Honors Admission Requirements

Students may apply to the department for admission to the honors program after having completed at least one year of work at USC with a minimum GPA of 3.5 in all science and math courses required for the major.

#### Honors Scholarship Requirements

For continuation in the honors programs, students must maintain a minimum GPA of 3.5 in the sciences and mathematics courses required for the major.

### Biological Sciences (BS)

The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

#### Major Core Courses, Lower-Division

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

#### Major Core Courses, Upper-Division

- BISC 320L Molecular Biology Units: 4
- BISC 325 Genetics Units: 4
- BISC 330L Biochemistry Units: 4

#### Collateral Sciences Core Courses

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4 or
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- MATH 128g Calculus II Units: 4
- MATH 208x Elementary Probability and Statistics Units: 4 or
- BISC 305 Introduction to Statistics for Biologists Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4 or
- PHYS 135bg Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152Lg Fundamentals of Physics II: Electricity and Magnetism Units: 4

#### Upper-division Major Requirements

Twenty units of upper-division BISC course work available for major credit are required. At least two courses in the upper-division electives must carry a lab ("L") or be 490. No more than 4 units of BISC 490x may be used to fulfill the upper-division elective requirement. In addition, no more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.

### Total required units: 128

### Free elective units: 12–16

#### Scholarship in Major Subject

The department requires that students receive a grade no lower than C- in their five core courses. They must maintain a 2.0 GPA in the upper-division biology and chemistry courses required for the major, as well as an overall 2.0 GPA. All major core courses must be taken on a letter grade basis.

#### Honors Program in Biological Sciences

The department offers an honors program to outstanding students already pursuing studies for the BA or BS degree in Biological Sciences. This program offers students an opportunity to participate in undergraduate research, experience in writing an honors thesis summarizing the completed research, and experience in an honors seminar. Honors students are required to take two semesters of BISC 493x Honors Seminar (1 unit/semester) and one semester of BISC 494x Honors Thesis (2 units) in addition to
fulfilling all requirements of the BA or BS degree. Honors students must also choose BISC 490x as one of their upper division electives. This program leads to the designation on the transcript of Bachelor of Arts or Bachelor of Science in Biological Sciences with Honors.

Honors Admission Requirements
Students may apply to the department for admission to the honors program after having completed at least one year of work at USC with a minimum GPA of 3.5 in all science and math courses required for the major.

Honors Scholarship Requirements
For continuation in the honors programs, students must maintain a minimum GPA of 3.5 in the sciences and mathematics courses required for the major.

Human Biology (BA)
The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

Summary of Requirements
Students must complete the general core consisting of 20 units. In addition, they must select 16 units from one of the three track modules below, as well as 8 additional units from the restricted elective list or any other track in the major. No more than two courses may be lower division (100- or 200-level) from the major track and electives combined. Total requirements: 44 units including at least 20 upper-division.

General Core (20 Units)
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- HBIO 200Lg The Human Animal Units: 4
- HBIO 301L Human Anatomy Units: 4
- MATH 108g Contemporary Precalculus Units: 4

Human Evolutionary Biology (16 units)
- BISC 313L Evolution and Population Genetics Units: 4 *
- BISC 371L Molecular Approaches to the Diversity of Life Units: 4 *
- GER 440 Biodemography of Aging Units: 4 *
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 306 Primate Social Behavior and Ecology Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4

Human Performance (16 units)
- HBIO 202L Nutrition for Life Units: 4
- HBIO 203L Individualized Exercise Prescription Units: 2
- HBIO 250g The Pharmacology of Performance Enhancing Drugs Units: 4
- HBIO 310 Sociopsychological Aspects of Sport and Physical Activity Units: 4
- HBIO 320 Muscle Physiology Units: 4
- HBIO 400L Motor Control and Learning Units: 4
- HBIO 401 Physiology and Biomechanics of Movement Units: 4 *
- HBIO 441L Prevention of Athletic Injuries Units: 4

Restricted Electives (8 Units)
A minimum of 8 units is required. Courses can be selected from the elective list below or from any other track in the major.
- BISC 305 Introduction to Statistics for Biologists Units: 4
- BISC 325 Genetics Units: 4 *
- BISC 371L Molecular Approaches to the Diversity of Life Units: 4 *
- BISC 403 Advanced Molecular Biology Units: 4 *
- BISC 405L General Embryology Units: 4 *
- BISC 410 Applications of Molecular Biology to Medicine Units: 4 *
- BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4 *
- BISC 424 Brain Architecture Units: 4 *
- BISC 426 Principles of Neural Development Units: 4 *
- BISC 435 Advanced Biochemistry Units: 4 *
- BISC 450L Principles of Immunology Units: 4 *
- BISC 480 Developmental Biology Units: 4
• BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
• CHEM 322aL Organic Chemistry Units: 4 *
• CHEM 322bL Organic Chemistry Units: 4 *
• CHEM 325aL Organic Chemistry Units: 4 *
• CHEM 325bL Organic Chemistry Units: 4 *
• CHEM 432 Physical Chemistry for the Life Sciences Units: 4 *
• GERO 310 Physiology of Aging Units: 4 *
• GERO 411L Physiology, Nutrition, and Aging Units: 2 or 4
• GERO 414 Neurobiology of Aging Units: 4 *
• GERO 440 Biodemography of Aging Units: 4 *
• HBIO 405 Evolutionary Medicine Units: 4 *
• HBIO 409 Metabolic Diseases Units: 4 *
• HBIO 439L Human Performance and Bioenergetics Units: 2 or 4 (4 Units Required) *
• HBIO 442L Evaluation and Rehabilitation of Athletic Injuries Units: 4 *
• MATH 114x Foundations of Statistics Units: 4
• MATH 125g Calculus I Units: 4 *
• MATH 126 Calculus II Units: 4 *
• MATH 208x Elementary Probability and Statistics Units: 4 *
• PSYC 320 Principles of Psychobiology Units: 4 *
• PSYC 326 Behavioral Neuroscience Units: 4 *
• PSYC 360 Abnormal Psychology Units: 4 *
• PSYC 425 Functional Imaging of the Human Brain Units: 4 *

Note:
*Prerequisite required

Human Biology (BS)
The general education, writing, language and diversity requirements for a USC Dornsife College of Letters, Arts and Sciences degree are applicable.

Summary of Requirements
General core: 24 units; major electives: one thematic module of 20 units; restrictive electives: 16 units; total requirements: 60 units.

General Core (24 Units)
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
• BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4
• MATH 108g Contemporary Precalculus Units: 4 * or
• MATH 125g Calculus I Units: 4 *
• PHYS 135ag Physics for the Life Sciences Units: 4

Major Track (20 Units)
Choose one complete track module from below:

Applied Physiology
• HBIO 301L Human Anatomy Units: 4
• HBIO 320 Muscle Physiology Units: 4
• HBIO 400L Motor Control and Learning Units: 4
• HBIO 408L Biomechanics Units: 4 *
• HBIO 420L Applied Human Physiology Units: 4 *

Biomedical Science
• BISC 307L General Physiology Units: 4 * or
• HBIO 420L Applied Human Physiology Units: 4
• BISC 320L Molecular Biology Units: 4 *
• BISC 421 Neurobiology Units: 4 *
• HBIO 301L Human Anatomy Units: 4
• HBIO 407L Endocrinology and Metabolism Units: 4

Nutrition and Metabolism
• BISC 307L General Physiology Units: 4 * or
• HBIO 420L Applied Human Physiology Units: 4
• HBIO 302 Nutrition and Metabolism Units: 4 *
• HBIO 350 Nutrition and Homeostasis Units: 4 *
• HBIO 407L Endocrinology and Metabolism Units: 4
• HBIO 435 Neurobiology of Feeding Behavior and Obesity Units: 4

Human Evolutionary Biology
• BISC 313L Evolution and Population Genetics Units: 4 *
• HBIO 200Lg The Human Animal Units: 4
• HBIO 300 Evolution, Ecology, and Culture Units: 4 *
• HBIO 306 Primate Social Behavior and Ecology Units: 4
• HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4

Restricted Electives (16 Units)
A minimum of 16 units is required. Courses can be selected from the elective list below or from any other track in the major.
• BISC 305 Introduction to Statistics for Biologists Units: 4
• BISC 325 Genetics Units: 4 *
• BISC 330L Biochemistry Units: 4
• BISC 371L Molecular Approaches to the Diversity of Life Units: 4 *
• BISC 403 Advanced Molecular Biology Units: 4 *
• BISC 405L General Embryology Units: 4 *
• BISC 410 Applications of Molecular Biology to Medicine Units: 4 *
• BISC 411 Advanced Cell Biology Units: 4 *
• BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4 *
• BISC 424 Brain Architecture Units: 4 *
• BISC 426 Principles of Neural Development Units: 4 *
• BISC 435 Advanced Biochemistry Units: 4 *
• BISC 450L Principles of Immunology Units: 4 *
• CHEM 322aL Organic Chemistry Units: 4 *
• CHEM 322bL Organic Chemistry Units: 4 *
• CHEM 325aL Organic Chemistry Units: 4 *
• CHEM 325bL Organic Chemistry Units: 4 *
• CHEM 432 Physical Chemistry for the Life Sciences Units: 4 *
• GERO 310 Physiology of Aging Units: 4 *
• GERO 411L Physiology, Nutrition, and Aging Units: 2 or 4 *
• GERO 414 Neurobiology of Aging Units: 4 *
• GERO 440 Biodemography of Aging Units: 4 *
• HBIO 308 Origins and Evolution of Human Behavior Units: 4 *
• HBIO 405 Evolutionary Medicine Units: 4 *
• HBIO 409 Metabolic Diseases Units: 4 *
• HBIO 439L Human Performance and Bioenergetics Units: 2 or 4 (4 Units Required)
• MATH 114x Foundations of Statistics Units: 4 or
• MATH 208x Elementary Probability and Statistics Units: 4 *
• MATH 126 Calculus II Units: 4 *
• PHYS 135bL Physics for the Life Sciences Units: 4 *
• PSYC 274Lg Statistics Units: 4 *
• PSYC 320 Principles of Psychobiology Units: 4 *
• PSYC 326 Behavioral Neuroscience Units: 4 *
• PSYC 360 Abnormal Psychology Units: 4 *
• PSYC 425 Functional Imaging of the Human Brain Units: 4 *

Note:
*Prerequisite required

Minor

Biotechnology Minor

The USC Dornsife College of Letters, Arts and Sciences Departments of Biological Sciences and Chemistry and the Marshall School of Business jointly offer the cross-departmental minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biological sciences, chemistry or engineering student seeking a career in business and/or the biomedical/bio-technical sciences. This minor requires a varying number of units beyond major requirements depending upon the student's major program of study: biological sciences (BA or BS), 16–18 additional units; business (BS), 28 additional units; chemistry (BA or BS), 32–34 additional units. Students in other majors may be required to complete up to 46 units for the minor depending on whether their major includes any of the minor requirements and their prerequisites.

Please see a biological sciences or business adviser for specific program requirements.

Required Courses

Biological Sciences (16 units)

• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

• BISC 320L Molecular Biology Units: 4
• BISC 330L Biochemistry Units: 4
• BISC 406L Biotechnology Units: 4

Recommended:

• BISC 300L Introduction to Microbiology Units: 4
• BISC 403 Advanced Molecular Biology Units: 4
• BISC 450L Principles of Immunology Units: 4

Chemistry (12 units)

• CHEM 105aL General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4
• CHEM 322aL Organic Chemistry Units: 4

Recommended:

• CHEM 322bL Organic Chemistry Units: 4
• CHEM 489 Biochemical Engineering Units: 3

Finance, Business, and Accounting (16–18 units)

Students pursuing the business degree must enroll in BUAD 285a BUAD 285b or BUAD 286a BUAD 286b and BUAD 306.

• ACCT 410x Foundations of Accounting Units: 4 or
• BUAD 285a Accounting Fundamentals, Financial and Managerial Accounting Units: 4
• BUAD 285b Accounting Fundamentals, Financial and Managerial Accounting Units: 2 or
• BUAD 286a Accounting Fundamentals, Managerial and Financial Accounting Units: 4
• BUAD 286b Accounting Fundamentals, Managerial and Financial Accounting Units: 2 or
• BUAD 305 Abridged Core Concepts of Accounting Information Units: 4
• BUAD 215x Foundations of Business Finance Units: 4 or
• BUAD 306 Business Finance Units: 4
• BUAD 304 Organizational Behavior and Leadership Units: 4 or
• BUAD 307 Marketing Fundamentals Units: 4
• FBE 403 Introduction to the Legal Environment of Business Units: 4

Recommended:
• MATH 118gx Fundamental Principles of Calculus Units: 4 or
• MATH 125g Calculus I Units: 4
• MATH 208x Elementary Probability and Statistics Units: 4 or
• MATH 218 Probability for Business Units: 4

Computational Biology and Bioinformatics Minor
The USC Dornsife College of Letters, Arts and Sciences departments of biological sciences and mathematics and the Viterbi School of Engineering departments of computer science and biomedical engineering jointly offer the cross-departmental minor in computational biology and bioinformatics. This minor provides essential training in using quantitative skills to solve fundamental biological problems as well as problems related to public health, neuroscience and environment. The minor includes four tracks according to the background of the students in biology, mathematics, computer science and engineering. As with all minors, students must include at least four upper-division courses (16 units) and four courses (16 units) dedicated exclusively to this minor (they can overlap). Four courses (16 units) taken outside the major department are required. The courses are designed for students in biology, mathematics, computer science or biomedical engineering. Other students may need more units to receive the minor. The CHEM 105BL or CHEM 115BL prerequisite for BISC 320 may be waived if the students have the necessary background determined by the faculty adviser for the minor.

Students who waive these prerequisites cannot retake CHEM 105BL or CHEM 115BL for credit. Please see the minor adviser for specific program requirements.

Required Courses

Biological Sciences
• BISC 305 Introduction to Statistics for Biologists Units: 4 (Can be substituted by MATH 208 or MATH 408 or BME 423)
• BISC 320L Molecular Biology Units: 4
• BISC 478 Computational Genome Analysis Units: 4
• BISC 481 Structural Bioinformatics: From Atoms to Cells Units: 4

Mathematics
• MATH 125g Calculus I Units: 4 *
• MATH 126 Calculus II Units: 4 *

Computer Science
• CSCI 103L Introduction to Programming Units: 4
• CSCI 104L Data Structures and Object Oriented Design Units: 4

Electives

Biological Sciences:
• BISC 230Lgx The Biology of the Brain: Current Topics in Neuroscience Units: 4
• BISC 300L Introduction to Microbiology Units: 4 *
• BISC 313L Evolution and Population Genetics Units: 4 *
• BISC 325 Genetics Units: 4 *
• BISC 330L Biochemistry Units: 4 *
• BISC 403 Advanced Molecular Biology Units: 4 *
• BISC 410 Applications of Molecular Biology to Medicine Units: 4 *

Mathematics:
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4 *
• MATH 226 Calculus III Units: 4 *
• MATH 408 Mathematical Statistics Units: 4 *
• MATH 432 Applied Combinatorics Units: 4 *
• MATH 458 Numerical Methods Units: 4 *
• MATH 465 Nonlinear Dynamics in Science and Engineering Units: 4 *
• MATH 466 Dynamic Modeling Units: 4 *
• MATH 467 Theory and Computational Methods for Optimization Units: 4 *

Computer Science:
• CSCI 170 Discrete Methods in Computer Science Units: 4 *
• CSCI 201L Principles of Software Development Units: 4 *
• CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4 *
• CSCI 485 File and Database Management Units: 4 *

Note: *Prerequisite required

Additional Requirements
Total requirements for students with no prior course work: 30 units. Students need to take 30 units of the courses listed: all requirements, and enough electives to add up to 30 units, while fulfilling the requirement that they must take 16 units unique to the minor (not used for their major or general education) and 16 units not offered by their major.

Students majoring in biological sciences, mathematics, computer science and biomedical engineering can meet many of these requirements with course work that also satisfies their majors.

Students of other majors need to take all the required courses plus at least one elective from mathematics or computer science (e.g., MATH 226, MATH 407, CSCI 201) from the list of elective courses to meet the minor requirements.

Human Movement Sciences Minor
This minor provides students with the scientific and engineering perspectives and the technical skills involved in capture and analysis of information needed to assess and improve human performance during the activities of daily living.

Prerequisite Courses (12 units)
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
  or
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
• MATH 108g Contemporary Precalculus Units: 4
• PHYS 135ag Physics for the Life Sciences Units: 4

Upper-division Courses (16 units)
• H BIO 301L Human Anatomy Units: 4
• H BIO 302 Nutrition and Metabolism Units: 4
• H BIO 408L Biomechanics Units: 4
• H BIO 439L Human Performance and Bioenergetics Units: 2 or 4

Natural Science Minor
The minor in natural science will first provide students with a foundation in the basic sciences of physics, chemistry and biology. Each student will then build on this by selecting a variety of electives to meet individual scientific interests and academic goals. Eighteen units toward the natural science minor must be completed at USC. This minor is not available to majors in the natural sciences or engineering.

Required Courses (22 Units)
Any five courses from among:

• BISM 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
• BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
• BISM 220Lg General Biology: Cell Biology and Physiology Units: 4 or
• BISM 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
• CHEM 105aLg General Chemistry Units: 4 or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115bL Advanced General Chemistry Units: 4
• PHYS 135ag Physics for the Life Sciences Units: 4
• PHYS 135bL Physics for the Life Sciences Units: 4

And a capstone course:
• BISM 321x Science, Technology and Society Units: 2

Elective Course Requirement (8 units)
Any two courses chosen from among those offered for major credit by the departments of chemistry, physics, biological sciences and earth sciences.

Master's Degree
Biology (MS)
The MS degree program in biology is a terminal degree for students admitted into the marine biology and biological oceanography (MBBO), neurobiology (BNRO), or integrative and evolutionary biology (IEB) PhD programs who cannot complete the PhD degree program for personal or medical reasons.

The MS degree program is a non-thesis program but a paper, based on the student's original research investigation of a selected program in biology, constitutes one of the requirements. Each student must take 7-8 units of biology graduate core courses (BISC 582, BISC 584 and BISC 585) or neurobiology courses (NSCI 524 and either NSCI 531 or NSCI 532), two seminars and additional graduate courses or research units for a minimum of 24 units. Students also must satisfy the residency and other requirements of the Graduate School. Further details of these requirements are contained within each graduate program's particular requirements and policies.

Each student must take 7-8 units of:
Biology Graduate Core Courses
• BISM 582 Advanced Biological Oceanography Units: 4
• BISM 584 Faculty Lecture Series Units: 2
• BISC 585 Scientific Writing and Reviewing Units: 2

or

Neurobiology Courses
• NSCI 524 Advanced Overview of Neurosciences Units: 4
• NSCI 531 Molecular and Cellular Neurobiology Units: 4 or
• NSCI 532 Systems and Behavioral Neurobiology Units: 3

Additional Requirements
Two seminars and additional graduate courses or research units for a minimum of 24 units. Students also must satisfy the residency and other requirements of the Graduate School. Further details of these requirements are contained within each graduate program's particular requirements and policies.

Marine and Environmental Biology (MS)
The Master of Science degree in Marine and Environmental Biology (MEB) is designed to provide admitted students with a rigorous, quantitative and focused introduction to the burgeoning fields and breadth of topics in marine environmental biology/chemistry, geobiology, oceanography, conservation biology and population dynamics (depending upon the concentration selected). MEB provides students with independent research experiences that satisfy their own specific interests. The program is intended to position and stimulate students for possible advanced study leading to a PhD in one of the areas stated above, and/or provide a unique facet to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into a master's level position in academic, government or private sector research laboratories. It will prepare students interested in governmental and non-government (NGO) environmental regulatory science and forge career pathways into private sector positions in environmental consulting and business.

Applicants must possess a cumulative and science GPA of 3.0 or higher and have the following courses completed prior to admission: one year of introductory biology, one semester of molecular biology, one semester of biochemistry, one year of general chemistry, and one year of organic chemistry. All of the above must carry labs and be available for major credit in the natural sciences at a four-year college or university.

Applicants interested in using course work completed while an undergraduate may apply for the progressive master's degree as early as their junior year.

Core Courses
• BISC 582 Advanced Biological Oceanography Units: 4
• BISC 585 Scientific Writing and Reviewing Units: 2
• BISC 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (4 Units Required)

Completion of two semesters of:

• BISC 529 Seminar in Marine Biology Units: 1

Core Seminar Elective
Completion of one advanced seminar from among:
• BISC 530 Advanced Seminar in Plankton Biology Units: 2
• BISC 531 Advanced Seminar on the Physiology of Marine Organisms Units: 2
• BISC 532 Advanced Seminar in Molecular and Microbial Ecology Units: 2
• BISC 533 Advanced Seminar in Remote Sensing and Modeling Units: 2
• BISC 534 Advanced Seminar in Population Genetics of Marine Organisms Units: 2
• BISC 535 Seminar in Physiology Units: 2
• BISC 536 Advanced Seminar in Marine Biogeochemistry Units: 2

Graduate Elective Requirement
Eighteen units chosen from the following list, of which 8 units must be within the Department of Biological Sciences (BISC), and no more than 8 units can be at the 400-level.
• BISC 403 Advanced Molecular Biology Units: 4
• BISC 419L Environmental Microbiology Units: 4
• BISC 431L Aquatic Microbiology Units: 4
• BISC 435 Advanced Biochemistry Units: 4
• BISC 437L Comparative Physiology of Animals Units: 4
• BISC 445L Fundamentals of Vertebrate Biology Units: 4
• BISC 447L Island Biogeography and Field Ecology Units: 4
• BISC 450L Principles of Immunology Units: 4
• BISC 455L Molecular Approaches to Microbial Diversity — Catalina Semester Units: 4
• BISC 457L Methods in Marine Biology and Biological Oceanography Units: 4
• BISC 460 Seminar in Marine and Environmental Biology Units: 2, max 4
• BISC 469L Marine Biology Units: 4
• BISC 473L Biological Oceanography Units: 4
• BISC 474L Ecosystem Function and Earth Systems Units: 4
• BISC 483 Geobiology and Astrobiology Units: 4
• BISC 502a Molecular Genetics and Biochemistry Units: 4
• BISC 502b Molecular Genetics and Biochemistry Units: 4
• BISC 511 Integrative Biology Units: 4
• BISC 512 Evolutionary Biology Units: 4
• BISC 530 Advanced Seminar in Plankton Biology Units: 2
• BISC 531 Advanced Seminar on the Physiology of Marine Organisms Units: 2
• BISC 532 Advanced Seminar in Molecular and Microbial Ecology Units: 2
• BISC 533 Advanced Seminar in Remote Sensing and Modeling Units: 2
• BISC 534 Advanced Seminar in Population Genetics of Marine Organisms Units: 2
• BISC 536 Advanced Seminar in Marine Biogeochemistry Units: 2
• BISC 584 Faculty Lecture Series Units: 2
• BISC 588L Quantitative Analysis for Biological and Earth Sciences Units: 4
• CE 443 Environmental Chemistry Units: 3
• CE 463L Water Chemistry and Analysis Units: 3
• CE 503 Microbiology for Environmental Engineers Units: 3
• GEOG-587 GPS/GIS Field Techniques Units 4
• GEOL 412 Oceans, Climate, and the Environment Units: 4
• GEOL 460L Geochemistry Units: 4
• GEOL 500 Marine Paleoecology Units: 3, 2 years
• GEOL 501 Paleobiology Units: 3
• GEOL 514 Marine Geology Units: 3
• GEOL 555 Paleooceanography Units: 3
• GEOL 560 Marine Geochemistry Units: 3, 2 years
• GEOL 564 Isotope Geochemistry Units: 3, 2 years
• GEOL 567 Stable Isotope Geochemistry Units: 3
• GEOL 577L Micropaleontology Units: 3, 2 years
• OS 512 Introduction to Chemical and Physical Oceanography Units: 3, 2 years
• PPD 694 Coastal Policy and Planning Units: 4

Total required units: 32

Molecular and Computational Biology (MS)

The MS degree program in molecular and computational biology (MCB) is a terminal degree for students admitted into the MCB PhD program who cannot complete the PhD degree program for personal or medical reasons. The study of molecular biology places so many demands upon the student that it is difficult to attain any satisfactory level of competence in the time generally taken for a master's degree. Therefore, enrollment of graduate students as master's degree applicants is not encouraged and is reserved for special circumstances. The curriculum of the master's student is patterned after that of the doctorate up to and including the qualifying examination, but not including thesis research. The qualifying examination will serve as the comprehensive master's examination.

Molecular Genetics and Biochemistry (MS)

The Master of Science in Molecular Genetics and Biochemistry is designed to provide outstanding students in life science majors with a rigorous, quantitative experimental experience in molecular genetics, genomics, evolutionary biology, cell and molecular biology, biochemistry (depending upon the research area selected). The program is intended to position and stimulate students for possible advanced study leading to a PhD in one of the areas stated above, and/or provide an important research experience to the background of a prospective medical student. The program will also provide fundamental tools and expertise for entry into master's level positions in academic, government or private sector research laboratories, including biotech, pharmaceuticals or diagnostics. This is a terminal degree. Students who wish to pursue their doctorate at USC should apply directly to the PhD program. Applicants must be undergraduate majors in the life sciences, who possess a cumulative and science GPA of 3.0 or higher and have the following courses completed or in progress at the time of admission: one year of introductory biology (BISC 120Lg/BISC 220Lg or BISC 121Lg/BISC 221Lg, or equivalent), one semester of molecular biology (BISC 320L, or equivalent), one year of general chemistry (CHEM 105Lg/CHEM 105Bl or CHEM 115Lg/CHEM 115Bl, or equivalent), and one year of organic chemistry (CHEM 322L/ CHEM 322Bl or CHEM 325L/ CHEM 325Bl, or equivalent). All of the above must carry labs and be available for major credit in the natural sciences at a four-year college or university.

Because this degree is based on research, students must identify a faculty adviser prior to enrollment and submit a research proposal approved by that adviser to the master's degree committee. It is recommended that students have performed the equivalent of independent study or a research internship (equivalent to BISC 490x) in their laboratory of choice prior to admission. Students are expected to perform 6 units of research in both fall and spring semesters; alternatively, with the adviser's approval upon enrollment, they may choose to perform the research component in variable increments in summer, fall and spring semesters to equal 12 units. This may be the preferred schedule if students wish to take additional electives during the academic year.

This program requires 32 units, of which 24 must be at the graduate level.

Core Courses

• BISC 502a Molecular Genetics and Biochemistry Units: 4
• BISC 544 Advanced Reading in Molecular Biology Units: 2 (two semesters)
• BISC 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2–3 semesters) (12 Units Required)

One from the following:

• BISC 502b Molecular Genetics and Biochemistry Units: 4
• BISC 505 Genomics and Molecular Genetics Units: 4

Elective Requirements

Eight units from the following list:

• BISC 403 Advanced Molecular Biology Units: 4
• BISC 406L Biotechnology Units: 4

320
• BISC 411 Advanced Cell Biology Units: 4
• BISC 414 Biology of Cancer Units: 4
• BISC 419L Environmental Microbiology Units: 4
• BISC 425 Advanced Genetics through the Primary Scientific Literature Units: 4
• BISC 426 Principles of Neural Development Units: 4
• BISC 435 Advanced Biochemistry Units: 4
• BISC 478 Computational Genome Analysis Units: 4
• BISC 480 Developmental Biology Units: 4
• BISC 481 Structural Bioinformatics: From Atoms to Cells Units: 4
• BISC 485 Advanced Seminar in Bacterial Survival and Evolution Units: 4
• BISC 502 Molecular Genetics and Biochemistry Units: 4 (if core requirement fulfilled with BISC 505)
• BISC 505 Genomics and Molecular Genetics Units: 4 (if core requirement fulfilled with BISC 502b)
• BISC 515 Evolution and Human Biology Units: 4

Additional Requirements
Students will complete a summative research paper that is written in publication format. The student will submit a proposed outline to the faculty mentor and one other molecular biology faculty member by January 15 for initial approval. The final paper is due on April 15. In the rare event that the final paper is not acceptable to the faculty, students may enroll for one more summer semester to perform revisions. If the paper is still not acceptable, the M.S. component of the degree will not be granted.

Doctoral Degree

Biology (Neurobiology) (PhD)
Application deadline: December 15
Course Requirements
The neurobiology option provides each student with a broad, fundamental background in neurobiology and with detailed knowledge and expertise in the chosen area of concentration. The PhD neurobiology concentration requires the following courses: two of three (NSCI 531, NSCI 532 or BISC 426) and NSCI 538 plus NSCI 539 (1 unit per semester for four semesters). A minimum total of 60 units is required, consisting of formal courses, seminars and research credit. At least 24 of the minimum 60 total units required are to be formal graduate course work (lecture or seminar courses). Courses in related disciplines of neuroscience, such as computational or cognitive neuroscience, are not required, but may be taken as electives. Courses in genomics, molecular biology, integrative and evolutionary biology and biomedical engineering are also available as electives for students interested in bridging the interface between neurobiology and these disciplines. Students also must satisfy the residency and other requirements of the Graduate School.

Student Teaching
Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to serve at least one semester as a teaching assistant in the Department of Biological Sciences.

Qualifying Examination
The examinations qualifying the student for candidacy for the PhD in biology (neurobiology) must be initiated before the end of the fourth semester. The first part is written and consists of comprehensive questions from the qualifying exam committee covering the student's knowledge of topics within their proposed area of research. The second part is an oral examination, which consists of the presentation and defense of a research proposal.

Doctoral Dissertation
The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

Defense of the Dissertation
The defense of the dissertation is either a defense oral or a final oral. In most cases, a defense oral will suffice if approved by the dissertation committee.

Computational Biology and Bioinformatics (PhD)
Application deadline: December 15
During the first year, the student's program is under the direction of an initial qualifying exam committee composed of members of the admissions committee. After passing the screening procedure before the end of the first semester, the student must form a qualifying exam committee consisting of an adviser and four other faculty members, including at least one from another department. Thereafter, the student's program of studies and dissertation are under the direction of the permanent qualifying exam committee and the dissertation committee.

Screening Procedure
The screening examination should be taken by the end of the second semester in the program. If the student fails the examination, the department, at its discretion, may permit the student to repeat the examination during the next semester. The screening examination consists of written examinations on topics including molecular biology, mathematical probability and statistics, and algorithms.

Course Requirements
The students must complete, with no grade lower than a B, a minimum of 60 units of courses carrying graduate credit and approved by the qualifying exam committee. The required courses include: BISC 542, CSCI 570, MATH 505a, MATH 541a, and MATH 578a/MATH 578b. Students must take at least one biology course in the area of molecular biology, genetics or biochemistry. An additional 6 units of elective courses will be taken in consultation with the student's adviser. Students must register for a minimum of 4 units of dissertation research (BISC 794a/BISC 794b). Students must be registered in BISC 542 (computational section) their first three years in the program (6 semesters).

Transfer of Credit
No transfer of credit will be considered until the screening examination is passed. A maximum of 30 units of graduate work at another institution may be applied toward the course requirements for the PhD A grade of B- (A = 4.0) or lower will not be accepted and, at most, two grades of B will be accepted. A PhD candidate may petition the department for transfer of additional credit, after he or she passes the qualifying examination.

**Qualifying Examination**
The qualifying examination should be taken within two semesters following successful completion of the screening examination.

The written portion of the qualifying examination consists of a dissertation proposal. This document should include: introduction, statement of the problem, literature survey, methodology, summary of preliminary results, proposed research, references, appendix (including one or two fundamental references).

The oral portion of the qualifying examination consists of presentation of the PhD dissertation proposal. The student must demonstrate research potential.

**Dissertation**
Following passage of the screening examination and approval of a dissertation topic by the qualifying exam committee, the student begins research toward the dissertation under the supervision of the dissertation committee. The primary requirement of the PhD is an acceptable dissertation based on substantial amount of original research conducted by the student.

**Defense of the Dissertation**
The defense of the dissertation is either a defense oral or a final oral. In most cases a defense oral will suffice if approved by the dissertation committee.

**Integrative and Evolutionary Biology (PhD)**
Application deadline: December 15
This program of study is designed to provide each student with a broad, fundamental background in integrative and evolutionary biology (IEB) coupled with detailed knowledge and expertise in the chosen area of concentration. The core of the course work in integrative and evolutionary biology consists of four courses — BISC 515 (4), seminar BISC 582 (4), BISC 583 (4), and a 4-unit course to be decided upon by the student's adviser — that are taken by all first-year graduate students. Various faculty members also teach a variety of advanced courses and seminars on specialized research topics each semester. In addition, a range of courses in areas relating to IEB are available in various departments on the University Park and Health Sciences Campuses.

**Course Requirements**
Each student's curriculum is tailored to the particular interests of the individual and the needs and demands of the chosen research field. A minimum total of 60 units is required, consisting of formal courses, seminars and research credit. The 24 units of formal course work must include 12 units of specified course work in integrative and evolutionary biology, BISC 515, adviser-specified course, seminar BISC 549 (minimum 4 units), and 12 units of advanced electives chosen in consultation with the student's adviser.

**Screening Examination**
After completion of the core integrative biology and evolutionary biology course work (BISC 515, adviser-specified, BISC 549) during the first year, the student's degree progress is discussed and evaluated by a screening committee composed of members of the IEB faculty as well as the student's principal adviser. The purpose of this written and oral evaluation is to determine competence to continue graduate study and identify areas to be strengthened prior to the qualifying examination.

**Student Teaching**
Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to assist in the teaching program for two semesters as a teaching assistant.

**Qualifying Examination**
By the end of the third semester, students should choose a qualifying exam committee consistent with the requirements of the graduate school composed of IEB faculty and one outside member. This committee will conduct the qualifying exam and provide guidance during dissertation research. The chair of the committee will serve as the principal adviser. Students should consult extensively with each committee member regarding subjects to be covered in the exam.

The qualifying exam consists of written and oral parts. Both parts must be finished before the end of the fifth semester. For the written exam, the adviser will consult with each of the members of the qualifying exam committee. The written part will incorporate evaluation and synthesis of existing knowledge related to topic areas, design of experiment to test a relevant hypothesis, and interpretation of anticipated results. The oral exam consists of an oral defense of the written part and will be conducted within a month of the written part of the qualifying exam.

**Doctoral Dissertation**
The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

**Defense of the Dissertation**
The defense of the dissertation is either a defense oral or a final oral. In most cases a defense oral will suffice if approved by the dissertation committee.

**Marine Biology and Biological Oceanography (PhD)**
Application deadline: January 15

**Course Requirements**
In marine biology and biological oceanography, each student receives a general background in marine sciences and obtains in-depth specialization in a research area of his or her choosing. Each student's curriculum is fitted to the particular needs and demands of the chosen research field. The 26 units of formal course work must include the following: BISC 529 (4), BISC 582 (4), BISC 583 (4), BISC 584 (2), BISC 585 (2), BISC 586 (2); four advanced graduate seminars (8); and a statistics course approved by the student's adviser.

**Core Courses**
Qualifying Examination

Before the end of the fifth semester, each student must pass a written and oral qualifying examination given by the student's qualifying exam committee. The written part involves answering a number of questions at length. The oral part is in the area of the student's intended research, based on a project selected and developed by the student into a written proposition. After passing the qualifying examination, the student completes the research investigation and any other requirements under the guidance of the research adviser who also chairs the dissertation committee.

Doctoral Dissertation

The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee.

Defense of the Dissertation

The defense of the dissertation is either a defense oral or a final oral. In most cases, a defense oral will suffice if approved by the dissertation committee.

Molecular Biology (PhD)

Application deadline: January 1

During the first year, the student's program is under the direction of an initial qualifying exam committee composed of members of the committee on admissions to the program. Before the end of the second semester, a permanent qualifying exam committee, chaired by the student's research director, is established. Thereafter, the student's program of studies and dissertation is under the direction of the permanent qualifying exam committee and the dissertation committee.

Screening Procedure

In the third semester, the student's progress is discussed and evaluated by the qualifying exam committee. The purpose of this evaluation is to determine competence to continue graduate study, and to point out deficiencies to be remedied prior to the qualifying examination.

Course Requirements

A minimum of 24 of the 60 units required for the PhD degree must be in formal course work, exclusive of research. These must include the core courses, BISC 502a and BISC 502b, to be completed in the first year with a grade no less than B in both classes. Additionally, students will register for BISC 576 in the fall semester and BISC 504L (3-3) in both semesters. In the fall semester of the second year, students will choose an additional 4- unit, 400- or 500-level course in consultation with their adviser. Students must participate in molecular biology seminars. Other courses may be chosen, in consultation with the program chair, from graduate offerings of this and other departments.

Language Requirement

Students in the graduate program in molecular biology are not required to pass a foreign language examination.

Student Teaching

Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to serve at least two semesters as a teaching assistant in the Department of Biological Sciences.

Qualifying Examination

Before the end of the fifth semester, each student must pass a written and oral qualifying examination given by the student's qualifying exam committee. The written part involves answering a number of questions at length. The oral part is in the area of the student's intended research, based on a project selected and developed by the student into a written proposition. After passing the qualifying examination, the student completes the research investigation and any other requirements under the guidance of the research adviser who also chairs the dissertation committee.

Student Teaching

Since most graduates in biological sciences will spend some part of their careers in academic work, teaching experience is considered an important part of graduate training. Each graduate student in the program is therefore required to serve at least two semesters as a teaching assistant in the Department of Biological Sciences.

Qualifying Examination

The examinations qualifying the student for candidacy for the PhD in molecular biology must be initiated in the second semester of the second year. The first part is written and consists of comprehensive questions covering the student's knowledge of prokaryotic and eukaryotic molecular biology and developmental biology or genomics. The second part is
an oral examination. It consists of general questions and the presentation and defense of a proposition outlining a research program. The student can select a topic completely outside of their thesis topic. Alternatively, the student can select a topic using the same model system as their dissertation work, but a different research question, or a topic on the same research question, but using a different model system. While going outside their field is encouraged, students should not stray too far away from genetics, molecular and cell biology or biochemistry approaches. This examination sequence must be completed by the end of the fifth semester of the program.

**Doctoral Dissertation**

The dissertation is based on original, publishable, and significant research conducted independently by the student under the guidance of the dissertation committee.

**Defense of the Dissertation**

The defense of the dissertation is either a defense oral or a final oral. In most cases a defense oral will suffice if approved by the dissertation committee.

---

**Chemistry**

The Department of Chemistry offers degree programs that provide undergraduate and graduate students with core instruction and excellent research opportunities. Undergraduate programs leading to the BS and BA degrees are offered. The BS degree is intended for students preparing for careers in chemistry and satisfies the guidelines for a chemistry degree recommended by the American Chemical Society. The BA degree is designed for students who wish a concentration of course work in chemistry, but who have career plans in the health sciences, business or law or other specialty areas. In addition, a chemistry minor is available for students who want a broader exposure to the chemical sciences. A minor program in biotechnology is offered by the Departments of Biological Sciences and Chemistry and the Marshall School of Business and a minor program in environmental chemistry and sustainability is also offered jointly with the Environmental Studies program. Graduate programs are offered leading to the Master of Arts, Master of Science and Doctor of Philosophy in Chemistry.

**Faculty**

Distinguished Professor and Donald P. and Katherine B. Loker Chair in Organic Chemistry: George A. Olah, PhD

Distinguished Professor of Chemistry, Biological Sciences and Biochemistry and Dana and David Dornsife Chair in Chemistry: Arieh Warshel, PhD

Lloyd Armstrong, Jr. Chair for Science and Engineering and Professor of Chemistry: Hanna Reisler, PhD

Ray R. Irani, Chairman of Occidental Petroleum Corporation, Chair in Chemistry: Mark E. Thompson, PhD

Paul A. Miller Chair in Letters, Arts and Sciences and Professor of Chemistry and Biochemistry: Curt Wittig, PhD

Harold and Lillian Moulton Chair in Organic/Polymer Chemistry and Professor of Chemistry and Pharmacology: Nicos Petasis, PhD

George A. and Judith A. Olah Nobel Laureate Chair in Hydrocarbon Chemistry and Professor of Chemistry: G.K. Surya Prakash, PhD

Provost Professor of Biological Sciences, Chemistry, Neurology, Physiology & Biophysics, and Chemical Engineering & Materials Science: Raymond C. Stevens, PhD

Judge Widney Professor of Chemical Engineering and Chemistry: Ray R. Irani, PhD

Gablan Assistant Professor of Chemistry: Smaranda Marinescu, PhD

Professors: Stephen E. Bradforth, PhD; Lin Chen, PhD (Biological Sciences); Xiaojiang Chen, PhD (Biological Sciences); Vadim Cherezov, PhD; Valery Fokin, PhD; Myron F. Goodman, PhD (Biological Sciences); Thioe E. Hogen-Esch, PhD; Anna Krylov, PhD; Daniel A. Lidar, PhD (Electrical Engineering); Chi H. Mak, PhD*; Charles E. McKenna, PhD*; Oleg Prezhdo, PhD; Richard W. Roberts, PhD; Lawrence A. Singer, PhD*; Mark E. Thompson, PhD; Andrey Vilesov, PhD

Associate Professors: Andrea Armani, PhD (Chemical Engineering); Alexander Benderski, PhD; Richard L. Brutchey, Jr., PhD; Stephen B. Cronin, PhD (Electrical Engineering/Electrophysics); Kyung Woon Jung, PhD; Matthew Pratt, PhD; Peter Z. Qin, PhD; Remo Rohs, PhD (Biological Sciences); Barry C. Thompson, PhD; Travis J. Williams, PhD

Assistant Professors: Jahan Dawlaty, PhD; Moh El Naggar, PhD (Physics); Malancha Gupta, PhD (Chemical Engineering); Brent Melet, PhD; Fabien Pinaud, PhD (Biological Sciences); Susumu Takahashi, PhD; Chao Zhang, PhD

Professors (Research): Karl O. Christe, PhD; Sri Narayan, PhD

Associate Professors (Research): Ralf Haiges, PhD; Golam Rasul, PhD

Assistant Professors (Research): Peter Djurovich, PhD; Terry Takahashi, PhD

Associate Professor (Teaching): Jessica Parr, PhD

Assistant Professors (Teaching): Thomas M. Bertolini, PhD; Rebecca Broyer, PhD

Emeritus Professors: Robert A. Beaudet, PhD; David A. Dows, PhD; Thomas C. Flood, PhD; Otto Schnepp, PhD; Gerald A. Segal, PhD; Howard S. Taylor, Ph.D.; William F. Weber, Ph.D.*

*Recipient of university-wide or college teaching award.

**Undergraduate Degrees**

**Biotechnology Minor**

The USC Dornsife College of Letters, Arts and Sciences departments of biological sciences and chemistry and the Marshall School of Business jointly offer the cross-departmental minor in biotechnology. This minor brings essential knowledge in the basic sciences together with the
corporate skills needed in a rapidly growing industry. The minor is especially well suited for the business, biology, chemistry or engineering student seeking a career in business and/or the biomedical/biotechnical sciences. See Biological Sciences for course requirements.

**Grade Point Average in Major Subject**
A grade of C- or higher is required in each chemistry course specifically listed as a degree requirement. The GPA for all chemistry courses required for a department major or a physical sciences major must be C (2.0) or higher. The GPA for all upper-division chemistry courses must also be C (2.0) or higher.

**Honors Programs**
A degree with honors in chemistry is available for eligible Chemistry BA, Chemistry BS, Chemistry BS — Research Emphasis, Chemistry BS — Chemical Nanoscience Emphasis, and Chemistry BS — Chemical Biology Emphasis students. To meet program requirements students must submit an application to the Department of Chemistry and satisfy the objectives of the program.

Students seeking admission must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 16 units of chemistry courses. Students must complete 8 units of research (CHEM 490 or CHEM 494, which may also satisfy major requirements*) under the supervision of chemistry faculty with the research results described in an undergraduate thesis reviewed and approved by a faculty committee. To graduate with honors students must earn a GPA of 3.5 in all chemistry courses required for the major and have an overall USC GPA of 3.5.

Upon graduation, transcripts will be noted "Bachelor of Arts with Departmental Honors" for Chemistry BA students, or "Bachelor of Science with Departmental Honors" for students who pursued the various Chemistry BS majors.

*For Chemistry BS, Chemistry BS — Chemical Nanoscience Emphasis, and Chemistry BS — Chemical Biology Emphasis, 4 units CHEM 490 are required for the major; for Chemistry BS — Research Emphasis, 4 units CHEM 490 and 4 units CHEM 494 are required for the major; and for Chemistry BA, 1–8 units of CHEM 490x are required for the major.

**Graduate Degrees**
Close contact between students and faculty is a seminal feature of the chemistry graduate programs. The emphasis is on individualized programs aiming at in-depth understanding and development of scientific maturity. Attention is given to career aims, including research and development; secondary, college and university teaching; and the wide variety of industrial testing, operation and management areas.

**Admission Requirements**
A baccalaureate degree, equivalent to the BA with a major in chemistry at USC, is prerequisite to admission to the graduate program in chemistry. A baccalaureate degree in an appropriate physical science, engineering or mathematics is prerequisite to admission to the doctoral program in chemical physics. Application must be made to the department on a special form, which includes application for fellowship and teaching assistant appointment and is available from the department Website. Materials describing the faculty, research areas and facilities will be sent to each applicant.

**Degree Requirements**
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

**Master of Arts and Master of Science in Chemistry**
The department does not accept applicants for a Master of Arts or Master of Science degree in chemistry. The MA and MS degrees are intended only as transitional degrees in the process of completing requirements for the PhD in chemistry. The Master of Arts degree is granted on completion of 24 units of graduate course work (not including 590) approved by the master's committee, and comprehensive final examinations. The Master of Science degree is granted on completion of 24 units of graduate course work, including not more than eight units (normally two registrations) in directed research, approved by the master's committee, an approved thesis on the results of an original investigation, and a final oral defense of the thesis. The final defense is made while the thesis is in final draft form.

A master's committee is appointed for each student. The master's committee is chaired by the research director in the case of the MS option, or by an appropriate member of the faculty in the case of the MA option.

**Seminars and Research Symposium**
Seminars are held regularly in physical, inorganic and organic chemistry. All students are expected to attend one and are invited to attend all of these. All students are expected to attend the departmental annual research symposium featuring speakers from all branches of chemistry, who may be local, national or international.

**Teaching Experience**
Teaching experience is required for the advanced degrees in chemistry.

**Bachelor's Degree**
**Biochemistry (BS)**
This degree is offered jointly by the Departments of Biological Sciences and Chemistry.

The general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences are applicable. Students must complete each required course in the Departments of Biological Sciences and Chemistry with a grade of C- or better, and maintain an overall GPA of 2.0 or better in all attempted courses in the two departments in the regular degree program.

**Required Courses**
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or

325
Honors Program in Biochemistry
A BS degree with honors in biochemistry is available for eligible students. In meeting program requirements students must submit an application and satisfy the objectives of one of the program options noted below.

Option One: Biochemistry Honors with Chemistry Research
Students seeking admission into option one must have at least junior standing (64 units) with an overall USC GPA of 3.5 or better in at least 32 units at USC, and have a 3.5 or better in at least 16 units in biological sciences and chemistry. Students in this option must complete 8 units of research (CHEM 490) under the supervision of chemistry faculty with the results of research being described in an undergraduate thesis reviewed and approved by a faculty committee. To graduate with honors under this option students must earn a GPA of 3.5 in all biological sciences and chemistry courses required for the major.

Option Two: Biochemistry Honors with Biology Research
Students seeking admission into option two must have at least sophomore standing (32 units) with an overall USC GPA of 3.5 or better both cumulatively and in 16 units in biological sciences and chemistry. Students in this option must complete 4 units of research (BISC 490) under faculty in biological sciences or under faculty in any other department approved by biological sciences. In addition, students must complete two semesters of Honors Seminar (BISC 493), 1 unit each, and one semester of Honors Thesis (BISC 494), 2 units. To graduate with honors under this option students must earn a GPA of 3.5 in all sciences and mathematics courses required for the major.

Upon graduation, transcripts of students following either option will be noted, "Bachelor of Science with Departmental Honors."

Chemistry (BA)
In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

Required Courses, Lower-Division
- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- BISC 305 Introduction to Statistics for Biologists Units: 4 or
- MATH 208x Elementary Probability and Statistics Units: 4 or
- MATH 226 Calculus III Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Additional Requirements
Eight units of upper-division, non-core course work available for major credit in biological sciences or chemistry are required. Students enrolled in BISC 490 are limited to 4 units, while students enrolled in CHEM 490 may complete up to 8 units. No more than two seminars (BISC 460 to BISC 462), totaling 4 units, may be applied to the upper-division elective requirement.
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

**Required Courses, Upper-Division**

- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 430a Physical Chemistry Units: 4
- CHEM 430b Physical Chemistry Units: 4

**One course from among:**

- CHEM 332L Physical Chemical Measurements Units: 4
- CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

**One additional upper-division science elective**

**Chemistry (BS)**

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

**Required Courses, Lower-Division**

- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
- MATH 226 Calculus III Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

**Required Courses, Upper-Division**

- CHEM 300L Analytical Chemistry Units: 4
- CHEM 325aL Organic Chemistry Units: 4
- CHEM 325bL Organic Chemistry Units: 4
- CHEM 332L Physical Chemical Measurements Units: 4
- CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4 or
- CHEM 463L Chemical Nanotechnology Laboratory Units: 2 or
- CHEM 465L Chemical Instrumentation Units: 4 or
- CHEM 467L Advanced Chemical Biology Laboratory Units: 2 (A total of 4 Units)
- CHEM 426 Advanced Organic Chemistry Units: 4
- CHEM 430a Physical Chemistry Units: 4
- CHEM 430b Physical Chemistry Units: 4
- CHEM 453 Advanced Inorganic Chemistry Units: 4
- CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

**Required Core Courses, Upper-Division**

• BISC 320L Molecular Biology Units: 4
• CHEM 300L Analytical Chemistry Units: 4
• CHEM 325aL Organic Chemistry Units: 4
• CHEM 325bL Organic Chemistry Units: 4
• CHEM 430a Physical Chemistry Units: 4 or
• CHEM 432 Physical Chemistry for the Life Sciences Units: 4
• CHEM 430b Physical Chemistry Units: 4
• CHEM 463L Chemical Nanotechnology Laboratory Units: 2
• CHEM 467L Advanced Chemical Biology Laboratory Units: 2
• CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

**Advanced Laboratory Elective, Four Units From Among:**

• CHEM 332L Physical Chemical Measurements Units: 4
• CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
• CHEM 465L Chemical Instrumentation Units: 4

**Advanced Chemistry Elective, Two Courses From Among:**

• CHEM 426 Advanced Organic Chemistry Units: 4
• CHEM 453 Advanced Inorganic Chemistry Units: 4
• CHEM 519 Biochemistry and Molecular Biology: An Introduction for Chemists Units: 4

**Chemistry (Chemical Nanoscience) (BS)**

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

**Required Core Courses, Lower-Division**

• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
• MATH 226 Calculus III Units: 4
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

**Required Core Courses, Upper-Division**

• CHEM 300L Analytical Chemistry Units: 4
• CHEM 325aL Organic Chemistry Units: 4
• CHEM 325bL Organic Chemistry Units: 4
• CHEM 332L Physical Chemical Measurements Units: 4
• CHEM 430a Physical Chemistry Units: 4
• CHEM 430b Physical Chemistry Units: 4
• CHEM 453 Advanced Inorganic Chemistry Units: 4
• CHEM 455 Chemical Nanotechnology Units: 4
• CHEM 463L Chemical Nanotechnology Laboratory Units: 2
• CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)

**Chemical Nanoscience Elective, Two Courses From Among (5 OR 6 Units):**

• CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes Units: 3
• CHEM 499 Special Topics Units: 2, 3, 4 (2 Units Required)
• CHEM 561 Polymer Synthesis Units: 4
• CHEM 588a X-ray Crystallography Units: 2

**Chemistry (Research) (BS)**

In addition to the general education, writing, foreign language and diversity requirements for a degree in the USC Dornsife College of Letters, Arts and Sciences, the following courses are required.

**Required Core Courses, Lower-Division**

• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
• MATH 226 Calculus III Units: 4
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Core Courses, Upper-Division
• CHEM 300L Analytical Chemistry Units: 4
• CHEM 325aL Organic Chemistry Units: 4
• CHEM 325bL Organic Chemistry Units: 4
• CHEM 426 Advanced Organic Chemistry Units: 4
• CHEM 430a Physical Chemistry Units: 4
• CHEM 430b Physical Chemistry Units: 4
• CHEM 453 Advanced Inorganic Chemistry Units: 4

Advanced Laboratory Elective, Four Units From Among:
• CHEM 332L Physical Chemical Measurements Units: 4
• CHEM 423L Advanced Laboratory Techniques in Organic and Inorganic Chemistry Units: 4
• CHEM 463L Chemical Nanotechnology Laboratory Units: 2
• CHEM 465L Chemical Instrumentation Units: 4
• CHEM 467L Advanced Chemical Biology Laboratory Units: 2

Required Research Courses
• CHEM 292 Supervised Research Units: 2
• CHEM 294 Undergraduate Research Seminar Units: 1
• CHEM 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
• CHEM 494x Advanced Research Experience Units: 2, 4 (4 Units Required)

Minor
Chemistry Minor
A chemistry minor is available for students who wish to broaden their exposure to the chemical sciences. In addition to a core of five chemistry courses (year-long sequences in general chemistry and organic chemistry and a one semester course in analytical chemistry), students must take one upper-division chemistry elective in either advanced organic or advanced inorganic chemistry.
Biology majors must take CHEM 300L, CHEM 426 and CHEM 453.

Required Courses, Lower-Division
• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4

Environmental Chemistry and Sustainability Minor
The environmental chemistry and sustainability minor is designed for students majoring in business, engineering, law, communications and other professional fields to give them the knowledge of chemistry needed to understand, formulate and manage scientific issues related to natural environmental processes as well as technologies involving the environment.

Required Courses, Lower-Division
• CHEM 105aLg General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4

Required Courses, Upper-Division
• CHEM 300L Analytical Chemistry Units: 4
• ENST 320a Water and Soil Sustainability; Energy and Air Sustainability Units: 4
• ENST 320b Water and Soil Sustainability; Energy and Air Sustainability Units: 4

One Elective Course Chosen From:
• CHEM 322aL Organic Chemistry Units: 4
• BISC 315L Introduction to Ecology Units: 4 *
• BISC 419L Environmental Microbiology Units: 4 *
• BISC 427 The Global Environment Units: 4 *
• GEOL 412 Oceans, Climate, and the Environment Units: 4 **

Note:
*Prerequisite required
Comparative literature, art history and archaeology.

The classics major is also encouraged to explore classics and the College Year in Athens programs, and USC is a member of the Intercollegiate Center for Classical Studies and the interactions among various ancient cultures. The department also study the impact of classical cultures on later societies and the ways in which the classical heritage has manifested itself in later ages.

The curriculum of the Classics Department is designed to transmit a knowledge and an appreciation of the civilizations of the Greeks and the Romans — their languages and literatures, myths, philosophies and political thought — as well as to develop an understanding of the ways in which the classical heritage has manifested itself in later ages. Approximately one half of the department's classes are taught in English; these have to do with broad areas of civilization, including classical culture and literature. The remainder are courses in language and literature taught from the original Greek and Latin texts. The undergraduate classics major gives the student an understanding of the cultures, languages and literatures of ancient Greece, Rome and the Mediterranean world. Students choose one of three tracks in the major. Classics is a broadly interdisciplinary field. Most courses focus on ancient Greece and Rome, but students in the department also study the impact of classical cultures on later societies and the interactions among various ancient cultures. USC is a member of the Intercollegiate Center for Classical Studies and the College Year in Athens programs, and classics majors are encouraged to spend a semester in Rome or Athens. The classics major is also encouraged to explore courses in allied fields such as ancient philosophy, history, comparative literature, art history and archaeology.

Taper Hall of Humanities 256
(213) 740-3676

Corequisite required

Doctoral Degree
Chemistry (Chemical Physics) (PhD)

Course Requirements
Completion (with no course grade lower than B-) of 24 units of courses selected from chemistry, physics, mathematics, and engineering, with an overall grade point average not lower than B. These courses must be selected with the advisement and approval of first, the research adviser, and then the thesis chair. All other requirements and procedures are the same as for the PhD in Chemistry.

Chemistry (PhD)

Qualifying Exam Committee
The qualifying exam committee is composed of the research adviser, three other members of the Chemistry Department, and one member from outside the Chemistry Department. The committee is appointed at least one semester before the qualifying examination, and prior to the screening procedure.

Course Requirements
The student must pass a series of graduate courses totaling at least 24 units. The qualifying exam committee may require more than 24 units of graduate course work. Sixty units of registration, including CHEM 790 and CHEM 794a CHEM 794b CHEM 794c CHEM 794d CHEM 794z, are required for the PhD Registration for CHEM 790 and CHEM 794a CHEM 794b CHEM 794c CHEM 794d CHEM 794z should be done with the approval of the staff graduate adviser.

Screening Procedure
The screening requirements designated by the department for continuation in the doctoral program are: an overall grade point average of B or better in at least 24 units by the end of the fourth semester of course work with no grade lower than B-; and a successful research seminar presented by the student to the qualifying exam committee. Only students who have passed the screening requirements are allowed to take the qualifying examination.

Qualifying Examination
The qualifying examination requires the presentation of two original research proposals, or one original research proposal and one critical review of a scientific article, written answers to questions previously submitted by the qualifying exam committee, and oral defense of all of these. The qualifying examination is administered by the qualifying exam committee, which should not be chaired by the research adviser.

Dissertation
An acceptable dissertation based on completion of an original research project is required. The candidate must defend an approved penultimate draft of the dissertation in an advertised oral thesis defense lecture, which is open to the scientific community. The dissertation committee consists of three members of the qualifying exam committee including the research adviser and the outside member.

Foreign Language Requirement
The department has no foreign language requirement.

Classics
The curriculum of the Classics Department is designed to transmit a knowledge and an appreciation of the civilizations of the Greeks and the Romans — their languages and literatures, myths, philosophies and political thought — as well as to develop an understanding of the ways in which the classical heritage has manifested itself in later ages. Approximately one half of the department's classes are taught in English; these have to do with broad areas of civilization, including classical culture and literature. The remainder are courses in language and literature taught from the original Greek and Latin texts. The undergraduate classics major gives the student an understanding of the cultures, languages and literatures of ancient Greece, Rome and the Mediterranean world. Students choose one of three tracks in the major.

Dissertation
An acceptable dissertation based on completion of an original research project is required. The candidate must defend an approved penultimate draft of the dissertation in an advertised oral thesis defense lecture, which is open to the scientific community. The dissertation committee consists of three members of the qualifying exam committee including the research adviser and the outside member.

Foreign Language Requirement
The department has no foreign language requirement.

Chair: William G. Thalmann, PhD

Faculty
Professors: Anthony J. Boyle, MA; Vincent Farenga, PhD; Thomas N. Habinke, PhD*; Susan Lape, PhD; William G. Thalmann, PhD*
Associate Professors: Christelle Fischer-Bovet, PhD; Daniel Richter, PhD; Ann Marie Yasin, PhD
Assistant Professors: Stefano Rebaggiani, PhD
Professor of the Practice of Classics: Claudia Moatti, PhD
Associate Professor Emerita: Jane Cody, PhD

*Recipient of university-wide or college teaching award.

Undergraduate Degrees
Bachelor of Arts in Interdisciplinary Archaeology
See Religion for a complete listing.

Minor in Critical Approaches to Leadership
See the Department of Interdisciplinary Studies for course requirements.

Honors Program
Candidates for honors must maintain a 3.5 GPA in major courses, including a grade of A or A minus in the capstone
course. In addition, candidates for honors in the Classical Languages and Literatures track must pass a sight translation exam in either Greek or Latin; candidates in the Classical Humanities and Ancient Civilizations track must pass a comprehensive exam set by the department.

Students Anticipating Graduate Study in Classics
Students interested in attending graduate school in classics are advised to take as many courses in Greek and/or Latin as possible.

Graduate Degrees
The graduate program in classics at USC aims to train students to become scholars, teachers and interpreters of ancient Mediterranean civilizations, of the Greek and Latin languages and literatures, and of the traditions that have developed from them. In order to prepare students to work in a variety of intellectual contexts, the department seeks to provide both a traditional substantive training in classical philology and the intellectual flexibility that will enable them to make the accomplishments of the past available to audiences of the present.

The department offers the PhD in Classics (Greek and Latin) and the MA in Greek, Latin and Classics. Collateral offerings are available in related departments, such as comparative literature, history, philosophy, art history, English and anthropology.

The graduate program offers mastery of traditional philological and linguistic skills as a basis for the study of ancient cultures, with emphasis on literature, other discursive practices and material culture. Students are encouraged to explore interdisciplinary approaches to classical studies and the relations between classics and other fields. Courses in related departments are recommended and degree requirements permit students to develop individual interests.

Admission Requirements
An applicant for admission will normally have an undergraduate major in classics, but programs may be arranged for promising students who do not. The student should have an undergraduate record satisfactory to the department. At least three letters of recommendation from the student's undergraduate teachers are required. All applicants are required to take the verbal and quantitative general tests of the Graduate Record Examinations. See the department Website for detailed application instructions.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor's Degree
Classics (BA)
The major in classics has three tracks, with distinct but overlapping emphases. In the Classical Languages and Literatures track, students acquire advanced reading knowledge of one or both classical languages (Greek and Latin) and study the literature of Greece and Rome in historical and cultural context. In the Classical Humanities track, students study Greek and Roman intellectual, literary and aesthetic achievements and their impact on later traditions, while also acquiring basic reading knowledge of one classical language. The Ancient Civilizations track emphasizes study of society, politics and history of Greece, Rome and other civilizations of the ancient Mediterranean world in comparative perspective.

All three tracks emphasize critical thinking as well as practice in written and oral presentation as hallmarks of a liberal arts education.

Requirements for tracks are as follows:

Track I. Classical Languages and Literatures

Recommended Preparation—any of the following:

- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- HIST 101g State and Society in the Ancient World Units: 4

Lower-Division Language Courses (20 units)*

Students must take three courses in one language of their choosing and two in the other language.

Greek (Choose 2-3 from the following):

- GR 120 Greek I Units: 4
- GR 150 Greek II Units: 4
- GR 220 Greek III Units: 4

Latin (Choose 2-3 from the following):

- LAT 120 Latin I Units: 4
- LAT 150 Latin II Units: 4
- LAT 222 Latin III Units: 4

Note:
*Or equivalent via placement

Upper-Division Language and Literature Courses (16 units)

Four semesters of 300- or 400-level language courses in Greek or Latin

Additional upper-division requirements

Two additional semesters of upper-division Greek, Latin, or Classics courses.

Capstone Units: 4
Analytical paper, oral presentation, sight reading exam in either Greek or Latin

CLAS 410a Research in Classical Studies Units: 2
Track II. Classical Humanities

Breadth Requirement—any one of the following

- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- HIST 101g State and Society in the Ancient World Units: 4

Additional Requirements

Language Requirement
Completion of at least one Greek or Latin course numbered 200 or above.

Upper-Division Requirements
Minimum seven courses of which at least four must be from Greek, Latin, or Classics; two from Greek, Latin or Classics or from the approved list of outside electives maintained by the major adviser; one capstone. Capstone: (enroll in Classics CLAS 410a CLAS 410b) Analytical or research paper; oral presentation; oral examination.

Track III. Ancient Civilizations
- CLAS 101g The Ancient World Units: 4
- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4

Upper-Division Requirements
Minimum nine courses of which at least five must be upper-division courses in classics, Greek or Latin; three either upper-division courses in classics or from the approved list of outside electives maintained by the major adviser; and one capstone. One of the upper-division courses must include study of a classical civilization other than Greece and Rome. Capstone: (enroll in Classics CLAS 410a CLAS 410b) Research paper, oral presentation.

- CLAS 410a Research in Classical Studies Units: 2
- CLAS 410b Research in Classical Studies Units: 2

Minor

Classics Minor
The classics department minor requires one language course at the 100-level or above.

One course from either A or B:

A.
- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4

B.
Second and third semester Latin or Greek courses:
- GR 150 Greek II Units: 4
- GR 220 Greek III Units: 4
- LAT 150 Latin II Units: 4
- LAT 222 Latin III Units: 4

Additional Requirements
Four upper-division courses (16 units) drawn from classics course offerings in classics, Latin or Greek

Total: 6 courses

Interdisciplinary Minors
For Business

Classical Perspectives Minor
The interdisciplinary minor in Classical Perspectives provides immersion in foundational ideas, texts and histories of the Greco-Roman tradition that speak to more contemporary topics and areas of study. How did the Greeks and Romans view love and sexuality, justice and mercy, wisdom and honor, war and peace, glory and shame? What insights might classical perspectives provide into artistic and political choices, professional practices, ethical controversies and social issues in other ages; or, into the study of psychology, sex, gender and sexuality, international relations, race relations, cinema, the sciences, business, theatre or popular culture?

While housed in Classics, the minor is also connected to the USC Harman Academy for Polymathic Study. The minor includes a capstone experience for which students construct a preferred reading list in consultation with a faculty member and complete a writing or comparable creative project as part of CORE 200, Liberal Arts Reading Salon. The capstone will include opportunities for students to explore contemporary representations of the classics, on and off campus, to deepen their appreciation of the classical tradition in contemporary contexts.

The interdisciplinary 16-unit minor is meant to be easily adapted to any student's program of study and allows students to double-count General Education and Thematic Option Honors courses. Students choose 16 units from the list below in consultation with a Classics faculty or staff adviser. No more than 8 units may be taken in any one USC Dornsife department or USC school.

Foundational Courses
Choose at least one course – 4 units
- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 160gp Ancient Lives Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- **HIST 101g State and Society in the Ancient World** Units: 4
- **PHIL 115g Ancient Greek Culture and Society** Units: 4
  GE seminars on appropriate topics (consult an adviser)

**Required Course**
4 units
- **CORE 200 Liberal Arts Reading Salon** Units: 2

**Electives**
Choose at least one course – 4 units
- **AHIS 321 Greek Art and Archaeology** Units: 4
- **AHIS 322 Roman Art and Archaeology** Units: 4
- **AHIS 325 Roman Archaeological Excavation: Methods and Practice** Units: 4
- **AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology** Units: 4
- **ANTH 372 Interpretation of Myth and Narrative** Units: 4
- **CLAS 300 Women in Antiquity** Units: 4
- **CLAS 320 Diversity and the Classical Western Tradition** Units: 4
- **CLAS 325 Ancient Epic** Units: 4
- **CLAS 333 Cult and City in Ancient Greece** Units: 4
- **CLAS 337 Ancient Drama** Units: 4
- **CLAS 348 Athens in the Age of Democracy and Empire** Units: 4
- **COLT 311 Epic** Units: 4
- **COLT 312 Heroes, Myths and Legends in Literature and the Arts** Units: 4
- **COLT 391 Literary Criticism from Plato to Postmodernism** Units: 4
- **COMM 330 Rhetoric in Classical Culture** Units: 4
- **LING 466 Word and Phrase Origins** Units: 4
- **PHIL 315 History of Western Philosophy: Ancient Period** Units: 4
- **PHIL 345 Greek Ethics** Units: 4
- **PHIL 411 Plato** Units: 4
- **PHIL 415 Aristotle** Units: 4
- **POSC 370 European Political Thought I** Units: 4
- **REL 325 Religious Experience in the Greco-Roman World** Units: 4
- **THTR 301 Greek and Roman Theatre** Units: 4

**Master's Degree**

**Classics (MA)**

The department does not accept applicants for a Master of Arts degree in classics. The MA degree is intended only as a transitional degree in the process of completing requirements for the PhD in classics.

Work toward the MA consists of six 4-unit courses (24 units) and a thesis and oral defense, or the MA comprehensive examination. Two of the core seminars (i.e. CLAS 540, CLAS 550, CLAS 560, CLAS 570) are required and five of the six courses must be taken in the Department of Classics. Under the guidance of a faculty committee, the student elects those courses appropriate to individual areas of special interest and previous academic preparation.

**Doctoral Degree**

**Classics (PhD)**

Application deadline: January 1

**Course Requirements**

All students must complete CLAS 540, CLAS 550, CLAS 560 and CLAS 570, plus at least five from CLAS 510, CLAS 515, CLAS 520, CLAS 525, CLAS 545, CLAS 555, CLAS 565, CLAS 575, as well as three electives to be decided on in consultation with the graduate adviser. This arrangement is designed to assure competency in core areas of classical studies while allowing for the development of individual research interests and, where appropriate, course work in related fields. In addition, all students are required to enroll in the 2-unit teaching practicum (MDA 593) concurrent with their first semester as a department teaching assistant.

**Exams**

Students are expected to complete written exams in the translation of Greek and Latin literature; in Greek and Roman history; and modern language competency exams. In addition, students take written and oral exams in major and minor fields and an oral exam on the dissertation prospectus. The field exams, prospectus, and exam on the prospectus together constitute the qualifying exam and are evaluated by a five-member committee. Students may not present themselves for the qualifying exam until all required courses and preliminary exams have been completed successfully.

**Dissertation**

Following the completion of the qualifying exam, the guidance committee will be reduced to three members, including one member from outside the department, who will guide and approve the dissertation.

**Juries**

All students make formal presentations on their research before a jury drawn from internal and external faculty twice during their graduate careers — once before taking the field exams and once while working on the dissertation.

**Timetable**

Required course work, written and oral exams are to be completed by the end of the third year of enrollment in the program, with the dissertation to be submitted and defended by the end of the fifth year.

**Comparative Literature**

The Comparative Literature Department offers the BA and minor in cross-linguistic and cross-cultural literary studies, including the study of various literary genres, periods and movements; literary theory; and interdisciplinary approaches.
to literature. The literatures and cultures represented in the department include: Western (European and American) and East Asian.

**Faculty**
Marion Frances Chevalier Professor of French and Professor of Italian and Comparative Literature: Peggy Kamuf, PhD* (French and Italian)
Florence R. Scott Professor of English and Professor of English and Comparative Literature: Tania Modleski, PhD (English)

USC Associates Chair in Humanities and Professor of English and American Studies & Ethnicity: John Rowe, PhD (English)

Professors: Joseph Boone, PhD (English); Dominic C.N. Cheung, PhD (East Asian Languages and Cultures); Vincent Farenga, PhD* (Classics); Erin Graff Zivin, PhD (Spanish and Portuguese); Jack Halberstam, PhD (American Studies & Ethnicity); David E. James, PhD (Cinematic Arts); Akira Mizuta Lippit, PhD (Critical Studies); Margaret Rosenthal, PhD (Italian); Hilary M. Schor, PhD (English); David St. John, MFA (English); William G. Thalmann, PhD* (Classics); Daniel Tiffany, PhD (English); Alexander Zholkovsky, PhD (Slavic Languages and Literatures)

Associate Professors: Julian Albilla, PhD (Spanish and Portuguese); David Bialock, PhD (East Asian Languages and Cultures); Roberto Ignacio Díaz, PhD* (Spanish and Portuguese); Heather James, PhD (English); Janet Johnson, PhD (Music); Natahia Meeker, PhD (French and Italian); Panivong Norindr, PhD (French and Italian); Antonia Szabari, PhD (French and Italian)

Assistant Professors: Neetu Khanna, PhD; Veli N. Yashin, PhD

Associate Professors (Teaching): Michael du Plessis, PhD; Jason Webb, PhD

Emeritus Professors: Gloria Orenstein, PhD; Albert Sonnenfeld, PhD* (French and Italian)
*Recipient of university-wide or college teaching award.

**Graduate Degrees**
The MA and PhD in comparative literature are offered through the Comparative Studies in Literature and Culture program, as described here.

**Bachelor's Degree**

**Comparative Literature (BA)**
Students may earn the BA in Comparative Literature by satisfying the requirements for either of two tracks. The Literature/Media/Critical Thought Track allows students to focus their study in one of three concentrations while also taking courses in the other two. Together, these three concentrations represent the broad range of interests in the discipline: (1) literature considered comparatively and transnationally; (2) the media of other arts and modes of communication (photography, film, music, painting and digital media); (3) modes of critical thought that inform and shape theoretical reflection on the arts and society.

This track offers the opportunity to pursue a major that is broadly based in the liberal arts. Students on this track might consider extending their concentration with a double major or minor. For example, the literature concentration could be extended with a second major or minor in a national literature (French, Spanish, Italian, Russian, English, classics or an East Asian literature); the media concentration by another major or minor in cinematic arts, art history or communication; and the critical thought concentration by a second major or minor in philosophy, religion, history, sociology or anthropology.

The Foreign Language Track incorporates the study of at least one literature in a foreign language into the comparative perspective of the comparative literature major.

Students who intend to pursue a graduate degree in either comparative literature or a foreign literature are strongly advised to choose this track, as are students who already possess advanced skills in a language other than English. Majors in comparative literature with foreign language emphasis might consider a double major or a minor in a department of foreign language or in a non-literary field such as international relations or journalism.

The requirements for both tracks of the major accommodate very well semesters of study abroad. Students are helped and encouraged to plan their programs in advance to allow for that experience.

**Requirements for the Major**

**Literature/Media/Critical Thought Track**
Students earn a BA in Comparative Literature and are required to complete at least 40 units (10 courses) as follows:

**Requirements**

(1)
- COLT 302 Introduction to Literary Theory Units: 4
- COLT 303 Globalization: Culture, Change, Resistance Units: 4

(2)
At least four additional COLT courses in one of the three concentrations.

**Literature Concentration:**
- COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
- COLT 102g On Location: The Place of Literature in Global Cultures Units: 4
- COLT 250g Cultures of Latin America Units: 4
- COLT 251g Modern Literature and Thought of the West Since 1800 Units: 4
- COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
- COLT 311 Epic Units: 4
- COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
- COLT 324 Women in Medieval and Renaissance Europe Units: 4
- COLT 335 Decadence and Modernity Units: 4
• COLT 345 Realist Fiction Units: 4
• COLT 346 Fictions of the First Person Units: 4
• COLT 348 Modernist Fiction Units: 4
• COLT 351 Modern and Contemporary Drama Units: 4
• COLT 374gm Women Writers in Europe and America Units: 4
• COLT 382gw Zen and Taoism in Asian Literature Units: 4
• COLT 420 The Fantastic Units: 4
• COLT 426 Utopias Units: 4
• COLT 435 Poetry and Poetics of the Everyday Units: 4
• COLT 445 Europe and the Writing of Others Units: 4
• COLT 448 Multilingual Encounters Units: 4
• COLT 475 Politics and the Novel Units: 4
• COLT 476 Narrative and the Law Units: 4
• COLT 485 The Shoah (Holocaust) in Literature and the Arts Units: 4
• EALC 454 Bildungsroman in Modern East Asia Units: 4
• EALC 460 Love, Self and Gender in Japanese Literature Units: 4

**Media Concentration:**

• COLT 354 Revolutions in Theater Units: 4
• COLT 357 The Avant-Garde Units: 4
• COLT 365 Literature and Popular Culture Units: 4
• COLT 373 Literature and Film Units: 4
• COLT 379 Nationalism and Postcolonialism in Southeast Asian Cinema Units: 4
• COLT 451 Opera and Cultural Theory Units: 4
• COLT 452 Representation and Cognition in Photography Units: 4
• COLT 462 Soundtracks of Our Lives Units: 4
• COLT 470 Literature and Media in Latin America Units: 4
• COLT 480 Dada and Surrealism Units: 4

**Critical Thought Concentration:**

• CLAS 370 Leaders and Communities: Classical Models Units: 4
• COLT 375 Latin American Cultural and Literary Theory Units: 4
• COLT 377 Literature, Theory, Gender Units: 4
• COLT 381 Psychoanalysis and the Arts Units: 4
• COLT 385 Literature and Justice Units: 4
• COLT 391 Literary Criticism from Plato to Postmodernism Units: 4
• COLT 454 Aesthetic Philosophy and Theory Units: 4

• COLT 471 Literature, Theory, History Units: 4
• COLT 474 Desire, Literature, Technology Units: 4
• COLT 476 Narrative and the Law Units: 4
• COLT 478 Family in Theory and Literature Units: 4
• COLT 486 Deconstructive Thought Units: 4
• COLT 487 Critical Image Units: 4

(3) At least four additional COLT courses. No more than two of the 10 courses required for the major may be at the 100 or 200 level.

**Foreign Language Track**

Students earn a BA in Comparative Literature and are required to complete 40 units (10 courses) as follows:

**Requirements**

(1)

• COLT 302 Introduction to Literary Theory Units: 4
• COLT 303 Globalization: Culture, Change, Resistance Units: 4

(2) At least five additional COLT courses, of which no more than two may be at the 100 or 200 level.

(3) At least three upper-division courses in the literature or culture of one or more foreign languages (other than English), with all readings in that language.

**Honors Program**

Students who satisfy the following requirements of the honors program receive the BA in Comparative Literature with Honors. To be admissible to the honors program, an overall GPA of at least 3.0 and at least 3.5 in courses counted for major credit is required. The decision to enter the Honors Program should be made and discussed with the departmental undergraduate adviser at least one year (two semesters) before graduation.

To be awarded honors, majors in comparative literature on the literature/media/critical thought track must complete 4 units of COLT 490x Directed Research and 4 units of COLT 495 Senior Honors Thesis. These courses replace two of the COLT courses required beyond the four-course concentration. Majors in comparative literature on the foreign language track must complete, in place of two of the five required COLT courses, an additional upper-division course in the literature or culture of a language other than English and COLT 495 Senior Honors Thesis. The director of the senior honors thesis must be a member of the comparative literature faculty. The second reader may be any regular USC faculty. To qualify for the award of honors, the director and second reader must both approve the thesis.

**Minor**

**Comparative Literature Minor**

Students can minor in one of three tracks: the literature/media/critical thought track, the foreign language track or the global cultures track.
Literature/Media/Critical Thought Track
Students are required to complete at least 24 units (six courses) as follows:
1. COLT 302 and COLT 303
2. At least three additional COLT courses in one of the three concentrations.
3. At least one additional COLT course in any of the three concentrations.

No more than one of the six courses required for the minor may be at the 100 or 200 level.

Foreign Language Track
Students are required to complete at least 24 units (six courses) as follows:
1. COLT 302 and COLT 303
2. At least three additional COLT courses, of which no more than one may be at the 100 or 200 level.
3. At least one upper-division course in the literature or culture of a foreign language (other than English), with all readings in that language.

Global Cultures Track

Comparative Studies in Literature and Culture
The Comparative Studies in Literature and Culture Department offers the MA and PhD in three tracks: Comparative Media and Culture; Comparative Literature; and National Literatures and Cultures (French and Francophone Studies or Spanish and Latin American Studies).

Graduate Degrees
Comparative Studies in Literature and Culture Doctoral Program
Application deadline: December 1

Through the Comparative Studies in Literature and Culture doctoral program (CSLC), students pursue master's and doctoral degrees in one of three tracks: Comparative Media and Culture; Comparative Literature; National Literatures and Cultures (French and Francophone Studies or Spanish and Latin American Studies). The three tracks share a required core curriculum.

General Admission and Application Requirements
Applications are made to CSLC for the PhD in one of the three tracks. Successful applicants will have: a BA in a relevant discipline; satisfactory scores in both the verbal and quantitative general test of the Graduate Record Examinations; satisfactory grades on undergraduate or previous MA course work in a related field and, if appropriate, a satisfactory score on the TOEFL or IELTS examination; and advanced competence in relevant languages. Applications must also include a written statement indicating the applicant's interests in the field and proposed areas of study; a sample of scholarly or critical writing on a relevant subject; and three letters of recommendation.

Although candidates are not admitted who wish to pursue solely the MA, the degree may be awarded either as a terminal degree or as a transitional degree in the course of PhD study.

General Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. To be applied toward the degrees, courses must be accepted by the Graduate School.

Students may transfer up to 4 units toward the MA and 30 units toward the PhD.

For specific degree requirements in each track, see below.

Certificate in Foreign Language Teaching
This credential provides certification in the theory and practice of second or foreign language teaching for student language teachers concurrently enrolled in graduate degree programs in foreign languages or related graduate programs at USC; for graduates of such programs who are teaching languages; for external candidates concurrently enrolled in similar programs at accredited colleges or universities; or for graduates of such programs who are teaching languages. The certificate is meant to supplement graduate study in the literature or linguistics of foreign languages. It is also meant to supplement classroom teaching. Refer to the Department of Spanish and Portuguese for course work requirements.

Master's Degree
Comparative Studies in Literature and Culture (Comparative Literature) (MA)
Track I: Comparative Media and Culture (Comparative Media and Culture) (MA)

The primary goal of the track in comparative media and culture is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of the formal specificity and possibilities of different print, visual, sound and digital media; an understanding of the development of different media within their specific cultural and linguistic contexts; and a knowledge of the principles of criticism and theory essential to the analysis, interpretation and evaluation of individual works.

Course Requirements
Completion of at least eight courses (29–32 units) distributed as follows: CSLC 501, CSLC 502 and CSLC 503; three courses in a first literary tradition; two courses in a second literary tradition. No more than one of these eight courses may be in directed research (590).

First-year Review
The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Track II Field Examination
A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which MA course work is completed.

Comparative Studies in Literature and Culture (French and Francophone Studies) (MA)

Track III: National Literatures and Cultures

French and Francophone Studies
The majority of students pursue the doctorate in Comparative Studies in Literature and Culture (French and Francophone Studies) in preparation for a career of teaching and research at the college or university level in the field of French and Francophone literature and cultural studies. Students preparing for these careers must obtain a broad knowledge of major French and Francophone literary texts and traditions from the Middle Ages to the present, which is achieved through a combination of course work and exams. They should also develop the intellectual depth that allows them to produce an original dissertation in a timely manner.

Course Requirements
Completion of at least 8 courses (29–32 units) distributed as follows: (1) CSLC 501, CSLC 502 and CSLC 503; two core courses, FREN 501 and FREN 503; (3) three additional courses in French or, with permission, in a related field. No more than two of the eight courses may be at the 400 level and no more than one course may be in directed research (590).

First-year Review
The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Track III (French) Comparative Field Exercise
The exam consists of the oral defense of a paper developed in consultation with a faculty adviser. It is normally taken at the end of the semester in which MA course work is completed.

Comparative Studies in Literature and Culture (Spanish and Latin American Studies) (MA)

Spanish and Latin American Studies
The Spanish and Latin American Studies track in Comparative Studies in Literature and Culture provides an optimal academic environment for students interested in advanced studies and research in Spanish and Latin American literature and culture studies. Students pursue a course of study designed to develop a broad knowledge of the subject matter within the framework of comparative studies as well as current developments in the field and are encouraged to devise individualized programs of specialization in keeping with the highest standards of scholarship.

Course Requirements
Students are required to complete at least eight courses (32 units), distributed as follows: CSLC 501, CSLC 502 and CSLC 503; SPAN 501; four additional Spanish courses or, with permission, courses in a related field. Students specializing in the medieval and early modern periods are encouraged to take a course in the history of the Spanish language. No more than one of the eight courses may be in directed research (590).

First-year Review
The program conducts a thorough review of all first-year students at the end of the second semester. Students must receive a satisfactory evaluation to be permitted to continue to doctoral work.

Language Requirement
Reading knowledge of a language other than Spanish and English must be demonstrated either by successfully completing a course at the 400-level or above taught in that language or by passing a reading examination in the language. Students confer with the graduate adviser to decide which option is most appropriate.

Track III Field Examination (Spanish)
A written exam based on a reading list must be successfully passed by all students in the track. It is normally taken at the end of the semester in which MA course work is completed.

Doctoral Degree

Comparative Studies in Literature and Culture (Comparative Literature) (PhD)

Track II: Comparative Literature
The primary goal of graduate study in the comparative literature track is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of literature's formal or generic development extending across linguistic boundaries; an understanding of literature's historical development within a number of specific cultural or ideological contexts; and a knowledge of the principles of literary criticism and theory essential to the analysis, interpretation and evaluation of individual works.

Course Requirements
In addition to the MA course requirements listed above, six additional 4-unit courses are required, distributed as follows: COLT 602 and two other courses in CSLC, COLT or comparative fields relating to the student's program; two additional courses in the first literary tradition; one course in a third literary tradition. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Track II Field Examination
See the requirement in the MA section.

Foreign Language Requirements
Students must successfully complete at least three advanced courses (400-level or higher) in the original languages of two literary traditions other than Anglophone (two courses in one language and one in the other). Students will also complete a literary analysis exercise in their strongest non-native language outside their major literary tradition. This exercise is normally done in conjunction with the field examination.

Comparative Field Exercise
A 30–40 page paper with bibliography in a comparative field related but not central to the major literary tradition in which the student plans to write his or her dissertation is required.

Qualifying Examination
To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree
The degree of PhD in Comparative Studies in Literature and Culture (Comparative Literature) is conferred when all of the degree requirements have been completed satisfactorily.

Comparative Studies in Literature and Culture (Comparative Media and Culture) (PhD)

Track I: Comparative Media and Culture
The primary goal of the track in comparative media and culture is to prepare students to engage in original research and teaching after acquiring: a broadly based knowledge of the formal specificity and possibilities of different print, visual, sound and digital media; an understanding of the development of different media within their specific cultural and linguistic contexts; and a knowledge of the principles of criticism and theory essential to the analysis, interpretation and evaluation of individual works.

Course Requirements
In addition to the MA course requirements listed above, six additional 4-unit courses are required, distributed as follows: one of the following: COLT 602, CSLC 601 or CSLC 603; two courses in non-Anglophone literary or cultural traditions; three additional courses in CSLC or in fields related to the study of media and culture. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Foreign Language Requirements
Students must successfully complete at least three advanced courses (400-level or higher) in the original language of a tradition other than Anglophone.

Track I Field Examination
See the requirement in the MA section.

Qualifying Examination
To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree
The degree of PhD in Comparative Studies in Literature and Culture (Comparative Media and Culture) is conferred when all of the degree requirements have been completed satisfactorily.

Comparative Studies in Literature and Culture (Spanish and Latin American Studies) (PhD)

Spanish and Latin American Studies
The Spanish and Latin American Studies track in Comparative Studies in Literature and Culture provides an optimal academic environment for students interested in advanced studies and research in Spanish and Latin American literature and culture studies. Students pursue a course of study designed to develop a broad knowledge of the subject matter within the framework of comparative studies as well as current developments in the field and are encouraged to devise individualized programs of specialization in keeping with the highest standards of scholarship.

Course Requirements
In addition to the MA course requirements listed above, six additional 4-unit courses are required distributed as follows: one of the following: COLT 602, CSLC 601 or CSLC 603; five additional courses in Spanish or, with permission, courses in a related field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Language Requirement
The language requirement may be fulfilled either by successfully completing a course at the 400-level or above taught in a language other than French or English or by passing a reading examination in the relevant language. Students confer with the graduate adviser to decide which option is most appropriate. This requirement must be fulfilled at least 60 days before the qualifying examination.

Track III: National Literatures and Cultures

French and Francophone Studies
The majority of students pursue the doctorate in Comparative Studies in Literature and Culture (French and Francophone Studies) in preparation for a career of teaching and research at the college or university level in the field of French and Francophone literature and cultural studies. Students preparing for these careers must obtain a broad knowledge of major French and Francophone literary texts and traditions from the Middle Ages to the present, which is achieved through a combination of course work and exams. They should also develop the intellectual depth that allows them to produce an original dissertation in a timely manner.

Course Requirements
In addition to the MA course requirements listed above, at least six additional 4-unit courses are required distributed as follows: (1) CSLC 603, and one additional course from the CSLC advanced seminar sequence (CSLC 601 or COLT 602); (2) four additional courses in French or, with permission, in a related field. Students will also complete the professional development sequence, CSLC 600 and CSLC 700, which are 2-unit courses and offered only as credit/no credit. No more than two of the total required courses may be in directed research (590 or 790).

Language Requirement
The language requirement may be fulfilled either by successfully completing a course at the 400-level or above taught in a language other than French or English or by passing a reading examination in the relevant language. Students confer with the graduate adviser to decide which option is most appropriate. This requirement must be fulfilled at least 60 days before the qualifying examination.

Track III (French) Field Examination
An oral exam based on a reading list must be successfully passed by all students in the track.

Qualifying Examination
To be admitted to candidacy for the PhD, students must pass this examination after all course work has been completed.

Dissertation Defense
An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

Awarding of Degree
The degree of PhD in Comparative Studies in Literature and Culture (French and Francophone Studies) is conferred when all of the degree requirements have been completed satisfactorily.
Earth Sciences

The Department of Earth Sciences includes a spectrum of disciplines united by their curiosity about Earth and its natural environment, from microbial to planetary scales, and from human to geologic timescales. Teaching and research in the department focus on integrative understanding of Earth’s systems and the processes that influence the evolution and environmental "state" of the planet, on using this understanding to read the record of Earth's history written in rocks and sediments, and on developing models that can be used to understand mechanisms at work in the past and to predict future changes due to natural phenomena and recent perturbations caused by humans. Earth Sciences involves many issues of societal concern including: seismic risk and other natural hazards, climate change, sustainability of natural resources including petroleum and natural gas as well as water, air, and oil, limits of life and survival/adaptation strategies, and environmental contamination. Subdisciplines housed in the department include geophysics, geochemistry, geobiology, structural geology, petrology, marine geology, sedimentology, physical and chemical oceanography, climate science, paleoceanography and paleontology.

The department is committed to emphasizing both educational and research programs and views these efforts as complementary. Instruction is offered on several levels. These include introductory classes for non-science majors, undergraduate courses that are appropriate for undergraduates majoring in Earth Sciences or other science and engineering disciplines, and graduate classes appropriate for advanced degrees. A close working relationship exists between students and faculty members. Classes beyond the introductory level are usually small, permitting personalized instruction. Field trips are an important part of the instructional program. Two major research centers are led by faculty within the department: the Southern California Earthquake Center and the Center for the study of the Dark Energy Biosphere. The graduate program is closely linked to faculty research efforts, and both graduate and undergraduate students participate in extensive research projects and participate in workshops culminating in presentations. Collaboration in both research and teaching has led to close ties with other programs, including the Department of Biological Sciences (Marine Biology), the graduate program in Ocean Sciences and several other departments in the College and in other schools (Viterbi School of Engineering, Price School of Public Policy, Annenberg School for Communication and Journalism).

For students interested in pursuing careers in the earth and environmental sciences, the department offers BA, BS, MS and PhD degrees. The undergraduate major offers student-focused, experiential training, with capstone experiences including a unifying course on Earth systems and field training in locations including Catalina Island, Spain, Morocco, and South America. Many graduates now hold positions in academia as faculty and researchers, in industry as environmental consultants or geologists, in government and private industry as managers or researchers, and as teachers. The BA degree is recommended for students interested in the Earth Sciences but who intend to pursue careers in other fields, such as business, law, medicine or education.

Three minors are available. The Geohazards minor is recommended for those who wish to broaden their background in natural hazards, global change or environmental problems. It is accessible to both non-science and science majors. The Geobiology minor is recommended for those interested in interdisciplinary work in earth and biological sciences. The Climate and Sustainability minor is recommended for those interested in international relations, public policy, economics, management, and/or politics. In addition, the department works closely with the Dornsife Environmental Studies program, offering science-focused coursework for students in this program and facilitating joint degrees (double-major or major/minor combinations) for students seeking further scientific grounding in their study of the natural environment.

The Los Angeles and Southern California region provide diverse and spectacular geological settings, enabling students easy access to varied field sites. The department conducts field trips to study Southern California geology, has access to oceanographic vessels for marine research, and regularly conducts workshops and research at the Wrigley Marine Lab on Catalina Island. Many state-of-the-art laboratory instruments are available for use in research and instruction, and both undergraduate and graduate students are involved significantly in most research groups.

Proof of health insurance is mandatory when participation in field trips is required for credit in any Earth Sciences class.

University Professor and W.M. Keck Foundation Chair in Geological Sciences and Professor of Earth Sciences:
Thomas H. Jordan, PhD

Wrigley Chair in Environmental Studies and Professor of Earth Sciences and Biological Sciences: Kenneth H. Nealson, PhD

Wilford and Daris Zinsmeyer Early Career Chair in Marine Studies and Associate Professor of Earth Sciences: A. Joshua West, PhD

Gabian Assistant Professor of Biological Sciences and Earth Sciences: Naomi Levine, PhD (Biological Sciences)

Professors: Jan Amend, PhD; Yehuda Ben-Zion, PhD; William M. Berelson, PhD; David J. Bottjer, PhD*; Frank A. Corsetti, PhD; James F. Dolan, PhD*; Douglas E. Hammond, PhD*; Terence G. Langdon, PhD, DSc (Materials Science); Steven P. Lund, PhD*; James Moffett, PhD (Biological Sciences); Scott R. Paterson, PhD; John P. Platt, PhD*; Charles G. Sammis, PhD*; Sergio Sanudo-Wilhemy, PhD (Biological Sciences); Lowell D. Stott, PhD

Associate Professors: Julien Emile-Geay, PhD; Sarah J. Feakins, PhD; Meghan Miller, PhD

Professor (Research): Donald Paul, PhD (Engineering)
Undergraduate Degrees

Honor Society
The Department of Earth Sciences has one honor society: the Omega Chapter of Sigma Gamma Epsilon, the national honorary earth sciences fraternity. "Sig Gam" is an undergraduate organization that sponsors undergraduate activities within the department.

Undergraduate Honors Program
The department offers an honors program for students pursuing either a BS or a BA in Earth Sciences. Students wishing to participate in this program must complete GEOL 494 x Senior Thesis. Honors will be awarded upon successful completion of the thesis and attainment of an overall GPA of 3.0 and a GPA of 3.5 in courses in the major.

Grade Point Average in Major Subject
A grade of C or higher is required in each course in the earth sciences courses used to complete the department or physical sciences major.

Progressive Degree Program in Geological Sciences
This program permits exceptional students to receive both a BS and MS in geological sciences in not more than 10 semesters. It is intended for students with extraordinary geological sciences preparation and performance who demonstrate a superior level of overall scholarship, including a GPA of 3.5 or better. Students may apply on completion of 64 units of course work but not later than the end of the junior year (or the completion of 96 units). The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and letters of recommendation from two USC faculty members in the Department of Earth Sciences. The requirements for both the BS and MS degrees must be satisfied. Further details about progressive degree programs can be found here.

Graduate Degrees
The department prepares professional Earth Scientists for careers in academia, government and industry. A wide range of specializations is offered in the department including climate science, sedimentary geology, paleobiology, paleoclimatology, paleoecology, micro paleontology, paleoceanography, geochemistry, geobiology, geophysics, geodesy, geomorphology, seismology, engineering geology and properties of Earth materials, igneous and metamorphic petrology, structural geology and tectonics, and interdisciplinary options. Degrees in ocean sciences (through the Graduate Program in Ocean Sciences) are available.

Admission Requirements

Prerequisites
An applicant for admission should have the equivalent of the courses in Earth sciences, chemistry, mathematics, and physics required for the BS degree in geological sciences. Applicants with an undergraduate degree in science or engineering who lack required Earth sciences courses will also be given consideration. Other degrees may be acceptable on a case by case basis.

Criteria
The Department of Earth Sciences requires the following evidence for admission to its doctoral program: strong undergraduate background and a superior academic record as documented by GPAs in undergraduate and any completed graduate work, Graduate Record Examinations scores no more than five years old in the verbal and quantitative General Test, and at least three letters of recommendation from undergraduate and, if applicable, graduate advisers and professors. The number of students accepted in any one year depends on available space in the department and acceptance for advisement by one or more professors.

Funding is offered for MS degrees only when completed en route to the pursuit of a PhD degree.

Procedure
The online USC graduate admissions application will refer applicants to a required supplemental departmental application. The department admits students for both the fall and spring semesters; however, applicants for assistantships and fellowships are encouraged to apply for the fall semester.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Interdisciplinary Programs
Interdisciplinary programs can be arranged for students also interested in astronomy, bioscience, chemistry, engineering, oceanography and physics. The Department of Earth Sciences maintains laboratories for micro-paleontologic, paleobiologic, mineralogic, petrologic, geophysical, geochemical and oceanographic research, and collections are available for comparative work in invertebrate paleontology. Students interested in systematic studies will find a wealth of material, available for comparative purposes, in the adjacent Los Angeles County Museum. Facilities for research in sedimentation, oceanography, and marine geology are provided in the department and by the university's research fleet.

Bachelor's Degree
Earth Sciences (BA)

Required Courses

Introduction:
Any GEOL 100- or 200-level course (4 units):

Required:
• GEOL 315L Minerals and Earth Systems Units: 4

Electives:
28 additional units must be selected from MATH 225, MATH 226, or any upper-division course listed or cross-listed as GEOL (28 units):

Required courses in other departments (8 units):
• CHEM 105aL General Chemistry Units: 4
• MATH 118gx Fundamental Principles of Calculus Units: 4 or
• MATH 125g Calculus I Units: 4

Choose any one of the following (4 units):
• BISC 120L General Biology: Organismal Biology and Evolution Units: 4
• CHEM 105bL General Chemistry Units: 4
• PHYS 135ag Physics for the Life Sciences Units: 4

Total units: 48

Geological Sciences (BS)

Required Courses

Introduction:
(4 units):
Any GEOL 100- or 200-level course (4 units):
• GEOL 105L Planet Earth Units: 4
• GEOL 107L Oceanography Units: 4
• GEOL 108L Crises of a Planet Units: 4
• GEOL 125L Earth History: A Planet and Its Evolution Units: 4
• GEOL 130L The Nature of Scientific Inquiry Units: 4
• GEOL 150L Climate Change Units: 4
• GEOL 240L Earthquakes Units: 4

Required courses from other departments (24 units)
• CHEM 105aL General Chemistry Units: 4 and
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115aL Advanced General Chemistry Units: 4 and
• CHEM 115bL Advanced General Chemistry Units: 4
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• PHYS 135ag Physics for the Life Sciences Units: 4 and
• PHYS 135bL Physics for the Life Sciences Units: 4 or
• PHYS 151L Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 and
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4 or
• PHYS 151L Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 and
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4 or
• BISC 120L General Biology: Organismal Biology and Evolution Units: 4 and
• BISC 220L General Biology: Cell Biology and Physiology Units: 4 or
• BISC 121L Advanced General Biology: Organismal Biology and Evolution Units: 4 and
• BISC 221L Advanced General Biology: Cell Biology and Physiology Units: 4

Required upper-division courses (12 units):
• GEOL 315L Minerals and Earth Systems Units: 4
• GEOL 387ag Undergraduate Team Research Units: 2
• GEOL 465L Field Geology Units: 4 or
• GEOL 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
• GEOL 494x Senior Thesis Units: 2

Electives (28 units):
28 additional units must be selected from MATH 225, MATH 226 or any upper-division course listed or cross-listed as GEOL.*

Note:
*Up to two upper-division courses from other science departments may be substituted for any two in this group, on approval of the departmental undergraduate adviser.

Total units: 68

Physical Sciences (BS)

Required Courses

Lower division:
• CHEM 105aL General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115aL Advanced General Chemistry Units: 4
• CHEM 115bL Advanced General Chemistry Units: 4
• GEOL 105L Planet Earth Units: 4
• PHYS 151L Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Upper division:
• Astronomy elective Units: 4 *
• Chemistry elective Units: 4 *
• Earth Sciences elective Units: 4 *
Physics elective Units: 4 *
Three additional electives from these fields Units: 12 *

Other courses:
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4

Total units: 64
*Upper-division courses must be applicable to majors in their respective departments.

Minor
Earth Sciences Minor: Climate Change, Stewardship and Resiliency
This minor is intended to provide background for students who plan careers in business with companies who recognize the necessity to respond to environmental change as scientists understand it. Students who complete the minor will gain insight that will facilitate discussions with both scientists in the field and professionals in the public, private and non-profit sectors.

COURSE REQUIREMENTS
Prerequisites (8 units)
- MATH 125g Calculus I Units: 4 and
- CHEM 103Lg General Chemistry for the Environment and Life Units: 4
  or
- CHEM 105aLg General Chemistry Units: 4
  or
- CHEM 115aLg Advanced General Chemistry Units: 4

Lower-division Requirement
Choose one course from the following three (4 units):
- GEOL 150Lg Climate Change Units: 4
- GEOL 160Lg Introduction to Geosystems Units: 4
- GEOL 241Lg Energy Systems Units: 4

Upper-division Requirements
Core Course (4 units)
- GEOL 351L Climate Systems Units: 4 *

Science Electives
Choose two courses among the following (8 units):
- GEOL 412 Oceans, Climate, and the Environment Units: 4 **
- GEOL 425L Data Analysis in the Earth and Environmental Sciences Units: 4
- GEOL 427 The Global Environment Units: 4 ***
- GEOL 450L Geosystems Units: 4 ****
- GEOL 470L Environmental Hydrogeology Units: 4

Applications of Climate Change
Choose one course among the following (4 units):
- ECON 487 Resource and Environmental Economics Units: 4 *****
- IR 305w Managing New Global Problems Units: 4
- IR 323 Politics of Global Environment Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 436 Environmental Politics Units: 4
- COMM 475 Environmental Communication Units: 4

Note:
Minor requires 28 units, including 16 upper division units that are unique to the minor.
* Prequisite: MATH 125
** Co-requisites: MATH 126 and CHEM 105b
*** Prerequisites: BISC 120Lg or BISC 121Lg and CHEM 105b or CHEM 115bL
**** Prerequisite: MATH 125
***** Prerequisite: ECON 303

Geobiology Minor
The minor in geobiology is designed to allow students majoring in biology to incorporate interdisciplinary courses in earth sciences into their program or to allow students majoring in geology to incorporate interdisciplinary courses in biology into their program. This field represents the intersection of what have been traditional disciplines and is valuable for understanding evolution, environmental contaminant behavior and ocean sciences. Students with majors offered by biological or earth or geological sciences will be able to complete this minor with 16 to 24 units of course work beyond their major requirements. Other students may need to complete up to 48 units of course work beyond their major requirements. Other students may need to complete up to 48 units of course work beyond their major requirements. For example, students majoring in biological sciences might take an introductory GEOL course; GEOL 315L; GEOL 433L or BISC 483; and two additional upper-division elective courses from the list below. Students majoring in earth or geological sciences must take BISC 120Lg and BISC 220Lg; GEOL 433L or BISC 483; and three additional elective courses. Courses selected must include at least 16 units unique to the minor and at least 16 units in a department outside the major.

Required Courses
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
- GEOL 315L Minerals and Earth Systems Units: 4

Elective Courses
- BISC 483 Geobiology and Astrobiology Units: 4 *
  or
- GEOL 433L Paleontology and Evolution in Deep Time Units: 4
- Three upper-division BISC courses ** Units: 12
One introductory GEOL course:
- GEOL 105Lg Planet Earth Units: 4
- GEOL 107Lg Oceanography Units: 4
- GEOL 108Lg Crises of a Planet Units: 4
- GEOL 125Lg Earth History: A Planet and Its Evolution Units: 4
- GEOL 130Lg The Nature of Scientific Inquiry Units: 4
- GEOL 150Lg Climate Change Units: 4
- GEOL 240Lg Earthquakes Units: 4

Two courses from the following (8 units):
- BISC 474L Ecosystem Function and Earth Systems Units: 4 *
- BISC 483 Geobiology and Astrobiology Units: 4 *
- GEOL 320L Surficial Processes and Stratigraphic Systems Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- GEOL 433L Paleontology and Evolution in Deep Time Units: 4
- GEOL 450L Geosystems Units: 4
- GEOL 460L Geochemistry Units: 4
- GEOL 470L Environmental Hydrogeology Units: 4

Note:
*Indicates BISC course that is also cross-listed under GEOL
**Must carry credit for a biology major

Geohazards Minor
The geohazards minor allows students who are not geology majors to pursue a course of study that will lead to greater understanding of geohazards such as climate change, earthquakes, volcanic eruptions, floods, environmental contamination and availability of natural resources. These issues are examined in a number of upper-division geology courses, and each student can select from the list below depending on the particular area of interest and whether previous course work has been completed to meet prerequisites for some of the choices. The minor requires an introductory class, an upper-division course in either formation of minerals or geosystem behavior and three elective courses from the list below. The minimum number of units to complete the minor is 24, including the introductory course CHEM 105aLg (a corequisite for GEOL 315L) or MATH 125g Calculus I Units: 4 and GEOL 450L Geosystems Units: 4

Elective Courses
One introductory GEOL course:
- GEOL 105Lg Planet Earth Units: 4
- GEOL 107Lg Oceanography Units: 4
- GEOL 108Lg Crises of a Planet Units: 4
- GEOL 125Lg Earth History: A Planet and Its Evolution Units: 4
- GEOL 130Lg The Nature of Scientific Inquiry Units: 4
- GEOL 150Lg Climate Change Units: 4
- GEOL 240Lg Earthquakes Units: 4

Three of the following (12 units):
- BISC 427 The Global Environment Units: 4
- GEOL 305L Introduction to Engineering Geology Units: 4
- GEOL 315L Minerals and Earth Systems Units: 4
- GEOL 316L Petrologic Systems Units: 4
- GEOL 320L Surficial Processes and Stratigraphic Systems Units: 4
- GEOL 321L Structural Geology and Tectonics Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- GEOL 433L Paleontology and Evolution in Deep Time Units: 4
- GEOL 440L Geophysics and Geoengineering Units: 4
- GEOL 450L Geosystems Units: 4
- GEOL 460L Geochemistry Units: 4
- GEOL 470L Environmental Hydrogeology Units: 4

Master's Degree
Geological Sciences (MS)

Foreign Language/Research Tool Requirements
There is no language or research tool requirement for the master's degree.

Course Requirements
The MS degree in geological sciences requires 24 units of course work plus at least four thesis units. These restrictions apply: at least 16 units must be 500 level or higher; no more than eight units can be 590 Directed Research; and a maximum of four units, with superior grades, can be transferred from an accredited graduate school. Students are required to have an overall GPA of at least 3.0 (A = 4.0) in all graduate work. Students are also required to attend a series of departmental seminars.

Thesis
Students should arrange for the appointment of a thesis adviser and committee after the first semester, or, at the
latest, after the first year of graduate work. The thesis committee should consist of the adviser plus two other faculty members, all of whom are generally selected from the department faculty. Once the committee is arranged, the student may make formal application to the Graduate School for the MS degree.

**Doctoral Degree**

**Geological Sciences (PhD)**

Application deadline: January 1

**Course Requirements**

For students who have earned a master's degree, the minimum number of course credits required for the PhD is 40 units. No more than four of these units may be earned in 794 Doctoral Dissertation. For students who have not earned a master's degree, the minimum number of course credits required is 60 units, including a maximum of eight units of 794 Doctoral Dissertation. The qualifying exam committee may require additional course work to insure a sufficient background in the student's area of specialization. At least two-thirds of the number of units presented for the degree must be 500 level or higher. Although the official minimum GPA for all graduate work attempted at USC is 3.0, the department does not consider a doctoral candidate in good standing unless the graduate GPA is considerably higher than the minimum (approximately 3.25 or above in graduate courses taken within the department).

**Screening Procedure**

Students in the PhD program must pass the screening procedure before their 25th unit of graduate credit. Screening consists of a review of the student's progress and is usually done by the chair following a written recommendation by the student's adviser(s).

**Qualifying Exam Committee**

The doctoral qualifying exam committee is formed after the student has passed the screening procedure. The committee is appointed by the department with the advice of the student's research adviser. The five-member committee consists of the adviser, a minimum of three other members from the Department of Earth Sciences, and one from outside the department. The committee consults with the student, recommends an appropriate program of study and administers the written and oral qualifying examinations.

**Qualifying Examination**

This examination consists of two parts, one written and the other oral. The written exam, which precedes the oral, includes questions submitted by committee members on current geological problems and theory. The oral portion of the exam consists of the defense of two propositions written by the candidate prior to the oral exam. In addition, general questions are posed to test the student's breadth of scientific and earth science background. The student's performance is evaluated by the qualifying exam committee, with a pass based on not more than one negative vote or abstention. Those who intend to take the exam must meet all the conditions specified in the section on general requirements for the PhD.

**Defense of the Dissertation**

When the candidate has passed the qualifying examination, a dissertation committee replaces the qualifying exam committee. The latter is appointed by the adviser and qualifying exam committee in conjunction with the student. The dissertation committee administers the final defense of the dissertation. The defense takes place after the dissertation is substantially complete, and upon unanimous approval by the dissertation committee. It is conducted in the form of an open departmental seminar, but is evaluated by the dissertation committee alone.

---

**East Asian Area Studies**

The East Asian Studies Center provides interdisciplinary studies of China, Japan and Korea. It offers an undergraduate major in East Asian Area Studies, minors in East Asian Area Studies and Korean Studies, the Master of Arts in East Asian Area Studies and the Master of Arts/Master of Business Administration. Its faculty are professors from departments throughout the college and several professional schools who teach and engage in research on East Asia. The center's interdisciplinary approach allows students to acquire broad exposure to many ways of learning about the region.

The East Asian Studies Center promotes and coordinates teaching, research and development of academic programs concerning East Asia, regardless of discipline or school, on a university-wide basis. Visiting scholars may also be named from among persons outside the university who wish to do research at USC and contribute to the goals of the center. The center also promotes and coordinates academic exchange with other institutions with which USC maintains cooperative relations in the United States and abroad. The center serves, for example, as the consortium partner with UCLA's Asia Institute to form the UCLA-USC Joint East Asian Studies Center, a Title VI National Resource Center. Graduate students with special interests in East Asia may take courses at UCLA through USC and may also work, where appropriate, with certain UCLA faculty. UCLA graduate students may similarly take courses at USC and work with USC faculty, for credit at UCLA in East Asian studies. The center facilitates cooperation and provides graduate fellowships to students at both institutions.

**College House 101**

(213) 740-2991

FAX: (213) 740-8409

Email: easc@dornsife.usc.edu
dornsife.usc.edu/easc

**Director:** Brett Sheehan, PhD

**Associated Faculty**

Professors: Jonathan Aronson (Communication and International Relations); Dominic Cheung (East Asian Languages and Cultures, Comparative Literature); Iris Chi (Social Work, Gerontology); Eugene Cooper (Anthropology); Robert Dekle (Economics); JoAnn Marie Farver (Psychology); Eric Heikkila (Public Policy); Velina Hasu
East Asian Languages and Culture

Assistant Professors: William Berton (International Relations); Peter A. Borton (International Relations); Philip B.H. Birnbaum-More (Business Management and Organization); Roger Dingman (History); Murray Fromson (Journalism); Charlotte Furth (History); William Rideout (Education); Otto Schnupp (Chemistry); John E. Wills Jr. (History)

Bachelor's Degree
East Asian Area Studies (BA)
Requirements for the lower division are: EALC 110 and EASC 150 or the equivalent; a minimum of four courses in one East Asian language (or the proficiency equivalent); and seven upper-division courses approved for the major in addition to the language courses used to meet the requirements. One lower-division course other than EALC 110 and EASC 150 may be substituted for one of the seven upper-division courses. Upper-division courses must include those from at least three departments, one of which must be History. At least one course must be taken on two of the following: China, Japan or Korea.

Minor
East Asian Area Studies Minor
The minor in East Asian Area Studies gives students the opportunity to supplement more narrowly defined departmental majors with a multidisciplinary focus on an area of increasingly great importance. At least one course must be taken on two of the following: China, Japan or Korea.

Korean Studies Minor
The minor in Korean Studies offers an interdisciplinary approach to studying a dynamic and crucial region. Drawing on courses from departments across the social sciences, humanities and professional schools, the minor challenges and stimulates students who wish to learn about the political, economic, social and cultural changes of the area.

Twenty units (five courses) are required. All students must take EASC 150g East Asian Societies or HIST 105g The Korean Past as a gateway course, as well as four upper-
division four-unit courses from the list below. There is no language requirement for the minor.

**Required Courses**

- EASC 150gp East Asian Societies Units: 4 or
- HIST 105g The Korean Past Units: 4

**Four 4-unit courses from the following:**

- CTCS 403 Studies in National and Regional Media Units: 4 max 8 **
- CTCS 494 Advanced Cinema and Media Studies Seminar Units: 4 max 8 **
- EALC 315 Advanced Korean I Units: 4 *
- EALC 317 Advanced Korean II Units: 4
- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 344gp Korean Culture from Ancient to Modern Times Units: 4
- EALC 415 Advanced Korean III Units: 4
- EALC 417 Advanced Korean IV Units: 4
- EALC 418 Korean Writing in Mixed Script Units: 4 *
- EALC 419 Newspaper and Documentary Korean Units: 4 *
- EALC 429 Gender in Korean Film and Literature Units: 4
- EALC 499 Special Topics Units: 2, 3, 4 max 8 **
- HIST 333 Korea: The Modern Transformation Units: 4
- HIST 404 Seminar in Korean History Units: 4
- HIST 498 Seminar on Selected Historical Topics Units: 4 max 8 **
- IR 499 Special Topics Units: 2, 3, 4 max 8 **

**Note:**

*Prerequisite: EALC 217
**For these repeatable courses, only classes with Korean-based foci will count.

**Master's Degree**

**East Asian Area Studies (MA)**

The East Asian Studies Center offers an interdisciplinary master's degree in East Asian Area Studies. The program provides a wide range of language, cultural, social, historical, political and economic courses and faculty expertise; individual courses of study may be designed to meet both continuing academic and professional objectives. Students may concentrate primarily on one country (China, Japan, Korea) or develop region-wide expertise through a combination of course work and the thesis project.

**Admission Requirements**

**Prerequisites**

While an applicant for admission will normally have significant experience in East Asian language(s) and area studies as demonstrated through course work completed for the undergraduate degree, programs may be arranged for promising students without prior experience in East Asian studies. There is no formal language requirement for admission.

**Criteria**

Please refer to the EASC website for a detailed explanation of application requirements: dornsife.usc.edu/eascenter/masters.

**Degree Requirements**

This degree is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses acceptable to the Graduate School.

**Foreign Language Requirement**

Students must be able to demonstrate oral and written proficiency in Chinese, Korean or Japanese through the third year level (equivalent to six semesters) before the MA program is completed.

**Course and Thesis Requirements**

Six courses (24 units), four of which must be at the 500 level or above, plus the thesis (4 units) are required. All students must complete: (1) EASC 592; (2) EALC 531, EALC 532 or EALC 533; and (3) one other course from a Dornsife College of Letters, Arts and Sciences department. The three additional courses (12 units) may be taken from college departments or professional schools. All courses must be approved by the center director or adviser. A maximum of two courses at the 400 level may be counted toward the degree. All students must register for EASC 594a Master's Thesis EASC 594b Master's Thesis for the thesis project.

**University Certificate**

**East Asian Area Studies Graduate Certificate**

**Requirements**

Graduate students interested in East Asian Area Studies must be enrolled in an advanced degree program in the Graduate School or in a professional school at the university. While preparing for an MA, PhD or other graduate degree, they may earn a certificate in East Asian Studies, which certifies special area competence beyond discipline requirements. The certificate requirements provide the student with two options. The first requires that the student write a thesis and take four graduate-level courses in East Asian studies in any department. An oral examination is given on the thesis. The second option does not require a thesis. The student instead takes six graduate-level courses in the East Asian area and takes an oral examination on three research papers and on relevant graduate work. As a part of both options some basic East Asian history and at least two years of study or the equivalent of an East Asian language are required. The student makes the basic decisions on the program to be followed in consultation with a three-member interdisciplinary committee approved by the Director of the East Asian Studies Center.

For further information, interested students may write to: Director, East Asian Studies Center, College House 101, University of Southern California, Los Angeles, CA 90089-0127.
Dual Degree
Master of Business Administration/Master of Arts
The Marshall School of Business in conjunction with the East Asian Studies Center offers a joint MA/MBA degree that combines graduate business education with training in the cultures and societies of East Asia. Students enrolled in the joint degree program are required to complete a minimum of 72 units. All students must complete 48 units in the Marshall School of Business. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. In East Asian Area Studies, students have the option of taking five courses and writing a thesis (for a total of 24 units) or taking six courses and passing a comprehensive examination (for a total of 24 units). Applicants for the joint MA/MBA are required to follow the admission procedures for the full-time MBA program. GRE scores are not required for admission into the joint program.

Required Courses
Required MBA courses: all required courses in an MBA program.

Required EASC Courses
- EASC 592 Proseminar on Issues and Trends in Contemporary East Asia Units: 4, 2 years
and one course from the following list:

Cultural/Historical Foundations of East Asia
- AHIS 518 Seminar in Chinese Art Units: 4 max 16
- AHIS 519 Seminar in Japanese Art Units: 4 max 16
- EALC 501 History of Chinese Literature Units: 4
- EALC 506 Selections from Classical Chinese Literature Units: 4
- EALC 515 Classical Japanese Poetics Units: 4
- EALC 531 Proseminar in Chinese Cultural History Units: 4
- EALC 532 Proseminar in Korean Cultural History Units: 4
- EALC 533 Proseminar in Japanese Cultural History Units: 4
- EALC 541 Seminar: Japan Units: 4
- EALC 543 Seminar: Japanese Literature Units: 4
- EALC 551 Seminar: China Units: 4
- EALC 553 Seminar: Chinese Literature Units: 4
- EALC 610 Seminar: Buddhism and the Literary Arts in Japan Units: 4
- HIST 535 Studies in Japanese History Units: 4
- HIST 536 Studies in Chinese History Units: 2 or 4
- HIST 540 Studies in Modern East Asian History Units: 4 max 8
- HIST 630 Seminar in Japanese History Units: 2 or 4
- HIST 635 Seminar in Chinese History Units: 2 or 4

Additional Requirements
Elective Courses (Thesis Option)
During the second and third years of the program students must complete enough graduate units to bring the total number of units completed in the Marshall School of Business to 48, complete 12 units of East Asian Area Studies elective courses (three courses), and complete a four-unit thesis under the guidance of a faculty committee of three members. The subject will concern East Asia and may focus on business/finance.

Elective Courses (Comprehensive Examination Option)
During the second and third years of the program students must complete enough graduate units to bring the total number of units completed in the Marshall School of Business to 48, complete 16 units of East Asian Area Studies elective courses (four courses) and must pass a comprehensive examination in East Asian Area Studies.

Foreign Language Requirement
Students must be able to demonstrate oral and written proficiency in Chinese, Japanese or Korean language through the third year level (equivalent to six semesters) before the joint MA/MBA program is completed. Language course work taken to meet this requirement will not count toward the minimum unit or course requirements for completion of the degree program. Therefore, students without sufficient under graduate language course work, native speaker capability or other prior training, are advised that additional units and course work beyond the minimum 72 units may be required in order to satisfy the foreign language requirement. USC offers beginning, intermediate and advanced Chinese, Japanese and Korean language courses during the academic year (fall/spring).

East Asian Languages and Cultures
East Asian Languages and Cultures offers undergraduate, master's and doctoral programs in Chinese, Japanese and Korean studies, and a progressive degree in East Asian Languages and Cultures. The department fosters original approaches in East Asian studies. With an emphasis on interdisciplinary and innovative research, the program provides students with systematic training in East Asian languages, literatures and cultures. The faculty is committed to intra-regional and interdisciplinary studies of East Asia, which includes critical interaction among the cultures of China, Japan and Korea across historical times and through diverse media. The department engages the arts, languages, linguistics, literatures, histories, media, religions, visual and material cultures of East Asia.

Taper Hall of Humanities 356
(213) 740-3707
Study Abroad Programs

East Asian Languages and Cultures majors and minors are encouraged to take advantage of the numerous semester and year-long study abroad opportunities sponsored by the Office of Overseas Studies. Currently, the office offers programs in China (Beijing and Nanjing), Taiwan (Taipei), Korea (Seoul), and Japan (Tokyo, Nagoya). Each of the programs is affiliated with a world class institution, such as Waseda University in Tokyo, National Chengchi University in Taipei or Yonsei University in Seoul. Contact the Office of Overseas Studies at (213) 740-3636 for further details or visit them online at dornsife.usc.edu/overseas.

The majority of course work offered by these programs may be counted toward the EALC major or minor requirements. Students who receive major credit from any of these programs must still take at least eight units of non-language courses within EALC at the upper-division level while at USC (specifically an EALC civilization and an EALC literature course). Students interested in attending one of these programs must meet with an EALC academic adviser to ensure that the courses enrolled in overseas will meet EALC major or minor requirements.

Chinese Summer Programs in Beijing and Taipei

The Department of East Asian Languages and Cultures offers its Chinese language summer courses in Beijing and Taipei. Participants can transition seamlessly to the next level courses upon returning to campus. Cultural visits and excursions are included in the tuition fee. All courses count toward a major and minor in East Asian Languages and Cultures.

Bachelor of Arts with a Combined Major in Linguistics/East Asian Languages and Cultures

See Department of Linguistics.

Progressive Degree Program in East Asian Languages and Cultures

The progressive degree program permits exceptional undergraduate students to receive both a Bachelor of Arts and a Master of Arts in East Asian Languages and Cultures within five years. It is intended for students with extraordinary EALC preparation and performance who demonstrate a superior level of overall scholarship.

Admission

Applicants may apply after the completion of 64 units of course work applicable to their undergraduate degree since graduating from high school. (AP units, IB units and course work taken prior to high school graduation are excluded). Applicants must submit their applications before completing 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. The application for admission to a progressive degree program must be accompanied by a departmentally approved course plan proposal and two letters of recommendation from USC faculty members in the Department of East Asian Languages and Cultures.

Awarding of Degrees

Progressive degree program students must fulfill all of the requirements for both the bachelor's degree and the master's degree, including a master's thesis. The unit requirement for the master's degree can be reduced by as much as one-third. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree.

Time Limits

The time limit for completing a progressive degree program is 12 semesters.
Further details about progressive degrees can be found here.

**Graduate Degrees**

EALC offers graduate students advanced training in the languages, literatures, and cultures of China, Japan, and Korea. Our students have combined approaches from cultural studies, literature, linguistics, film and media studies, and other disciplines to broaden more traditional paradigms and provide a different perspective on the reading of the texts in their fields. By allowing a greater degree of flexibility, our interdisciplinary approach enhances students' research skills and enables them to become well-rounded scholars. Appropriate cross-registration with other departments allows students to enhance their theoretical and methodological training.

**Certificate in Foreign Language Teaching**

The certificate in Foreign Language Teaching provides certification in the theory and practice of second or foreign language teaching for student language teachers concurrently enrolled in graduate degree programs in foreign languages or related graduate programs at USC; for graduates of such programs who are teaching languages; for external candidates concurrently enrolled in similar programs at accredited colleges or universities; or for graduates of such programs who are teaching languages. The certificate is meant to supplement graduate study in the literature or linguistics of foreign languages. It is also meant to supplement classroom teaching. Refer to the Department of Spanish and Portuguese for course work requirements.

**Bachelor's Degree**

**East Asian Languages and Cultures (BA)**

For the lower division, two years of Chinese, Japanese or Korean language are required. For the upper-division, 32 units, including the third year of language, are required. The 32 units of upper-division courses must also include one civilization course, one literature course and four upper-division elective courses (16 units) in Chinese, Japanese or Korean. One lower-division course may be counted toward the 16 units of upper-division electives. One East Asian course from another department may be included in the 32-unit requirement, if approved by an adviser.

**Honors Program**

Candidates for the BA in the Department of East Asian Languages and Cultures may receive a designation on their transcripts of departmental honors. Admission to the honors program is required.

**Prerequisites:** 3.33 overall GPA, 3.5 GPA or better in courses in the major, completion of at least one upperlevel EALC course requiring a seminar paper at the time of admission, submission of an application form to the undergraduate faculty adviser.

**Required for departmental honors:** Maintain GPA requirements stated above and complete EALC 495ab Undergraduate Honors Thesis.

**Minor**

**Chinese for the Professions**

The Department of East Asian Languages and Cultures offers a minor for undergraduate students who wish to pursue a future career in the greater China region or communities requiring advanced Chinese linguistic and cultural competence. The minor provides opportunities for students to gain real world experiences in work environments and explore career opportunities from various perspectives. The language prerequisite for admission to the program is the completion of EALC 206 at USC or its equivalent. Four EALC upper-division courses (16 units) and 4 units of EALC 366 are required to complete the minor. The four upper-division courses must include at least two from EALC 404, EALC 406, EALC 407, EALC 412a, EALC 412b, or the equivalent. Course selections must be approved by the faculty advisor for the minor.

**Required Courses (12 Units)**

**Internship (4 units)**

- EALC 366 Chinese Professional Internship: Communication and Culture Units: 2

**Choose two of the following (8 units)**

- EALC 404 Advanced Modern Chinese III Units: 4
- EALC 406 Advanced Modern Chinese IV Units: 4
- EALC 407 News and Web Chinese Units: 4
- EALC 412a Business Chinese Units: 4
- EALC 412b Business Chinese Units: 4

**Electives (8 units)**

Choose two of the following:

- EALC 304 Advanced Modern Chinese I Units: 4
- EALC 306 Advanced Modern Chinese II Units: 4
- EALC 334 Chinese Language Through Films and Television Units: 4
- EALC 336 Chinese Language through Films and Television II Units: 4
- EALC 350p Chinese Civilization Units: 4
- EALC 355 Studies in Chinese Thought Units: 4
- EALC 374 Language and Society in East Asia Units: 4
- EALC 470 Introduction to East Asian Linguistics Units: 4

**Cultures and Politics of the Pacific Rim Minor**

This interdisciplinary minor introduces students to the cultural heritage and political contexts of the United States' most important trading partners on the Pacific Rim. Students study East Asia and Latin America, and the cultural, economic and political dimensions of international trade. It is intended for students who are interested in or considering diplomatic or commercial careers that require knowledge about the people and cultures of the Pacific Rim. As with all minors, students must choose at least four classes dedicated to this minor and four classes outside their major department, which may be the same four courses.

**Requirements (Five Courses, 20 Units)**
International Trade
(choose one course from the list below)
- ECON 450 International Trade Units: 4
  (prerequisite: ECON 303 or BUAD 351)
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 330 Politics of the World Economy Units: 4
- IR 470 Comparative Regionalism Units: 4
  (prerequisite: IR 210)
- POSC 345 International Law Units: 4
- POSC 451 Politics of Resources and Development Units: 4

Area Studies
(choose two courses, each from a different list below)
Latin America:
- AHIS 319 Mesoamerican Art and Culture Units: 4
- ANTH 314g The Nature of Maya Civilization Units: 4
- ANTH 328m Culture Change and the Mexican People Units: 4
- ANTH 425 Peoples and Cultures of Latin America Units: 4
- HIST 374 History of Mexico Units: 4
- HIST 451 The Mexican Revolution Units: 4
- HIST 473 Colonial Latin America Seminar Units: 4
- IR 364 The Political Economy of Latin America Development Units: 4
- IR 365 Politics and Democracy in Latin America Units: 4
- POSC 350 Politics of Latin America Units: 4
- SPAN 320 Iberian and Latin American Cultures: Readings on Society Units: 4 (in Spanish)
- SPAN 321 Iberian and Latin American Cultures: Readings on the Arts Units: 4 (in Spanish)
- SPAN 372 Modern and Contemporary Latin American Fiction Units: 4 (in Spanish)
- SPAN 380g Literature of Mexico Units: 4 (in Spanish)

East Asia:
- ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities Units: 4
- ECON 343 Economic Development of East Asia Units: 4 (prerequisite: ECON 203 or ECON 205)
- IR 358 The Asia Pacific in World Affairs Units: 4
- IR 360 International Relations of the Pacific Rim Units: 4
- IR 361 South and Southeast Asia in International Affairs Units: 4
- IR 384 Asian Security Issues Units: 4
- POSC 352 Politics of Southeast Asia Units: 4
- POSC 355 Politics of East Asia Units: 4
- POSC 377 Asian Political Thought Units: 4
- POSC 453 Political Change in Asia Units: 4
- REL 331 Religions of East Asia Units: 4

Country Study
(choose two courses from the lists below)
China:
- AHIS 384 Early Chinese Art Units: 4
- AHIS 385 Later Chinese Art Units: 4
- ANTH 324 Regional Ethnology: China Units: 4, 2 years
- EALC 350g Chinese Civilization Units: 4
- EALC 352g Chinese Literature and Culture Units: 4
- EALC 354g Modern Chinese Literature in Translation Units: 4
- EALC 355 Studies in Chinese Thought Units: 4
- EALC 375 Women and Gender in China: Past and Present Units: 4
- HIST 338 China to 960 A.D. Units: 4
- HIST 339 China, 960–1800 A.D. Units: 4
- HIST 340 History of China since 1800 Units: 4
- IR 333 China in International Affairs Units: 4
- POSC 356 Politics in the People's Republic of China Units: 4

Japan:
- AHIS 386 Early Japanese Art Units: 4
- AHIS 387 Later Japanese Art Units: 4
- EALC 340g Japanese Civilization Units: 4
- EALC 342g Japanese Literature and Culture Units: 4
- EALC 365 Studies in Japanese Thought Units: 4
- EALC 428 Nature and the Ecological Imagination in Japanese Literature Units: 4
- EALC 460 Love, Self and Gender in Japanese Literature Units: 4
- HIST 335 History of Japan to 1550 Units: 4
- HIST 336 History of Japan, 1550–1945 Units: 4
- HIST 337 Japan since 1945 Units: 4
- HIST 438 Seminar in Pre-Modern Japanese History Units: 4
- HIST 464 Culture, Money, and Power: Japanese-American Relations since 1853 Units: 4
- IR 442 Japanese Foreign Policy Units: 4
- POSC 354 Japanese Politics Units: 4

Korea:
- EALC 332 Modern Korean Literature in Translation Units: 4
- EALC 335m Korean American Literature Units: 4
- EALC 345 Korean Civilization Units: 4
- HIST 333 Korea: The Modern Transformation Units: 4
East Asian Languages and Cultures Minor
For the lower division, two years of language in one of three languages (Chinese, Japanese and Korean) are required. For the upper division, four 4-unit courses, including one civilization course, one literature course and two upper-division elective courses in Chinese, Japanese or Korean are required.

Master's Degree
East Asian Languages and Cultures (MA)
The Department of East Asian Languages and Cultures offers instruction in the languages, literatures and cultures of East Asia. The graduate program offers the master's degree with specialties in Chinese, Japanese and Korean. Programs of study may emphasize foreign language teaching, applied linguistics, literature, thought, religions or area studies.

Admission Requirements — Prerequisites
An applicant for admission will normally have the equivalent of an undergraduate major in East Asian languages and cultures at USC, but programs may be arranged for promising students who do not have the prerequisites. Such students may be required to make up the deficiencies.

Criteria
All applicants are required to take the Graduate Record Examinations verbal and quantitative General Test and submit their complete undergraduate record: at least three letters of recommendation and a statement of purpose should be sent to the chair of the department. Applicants are urged to submit written materials as supporting evidence.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Foreign Language Requirement
Competence is required in Chinese, Japanese or Korean.

Course Requirements
Six courses, four of which must be at the 500-level or above, are required. Those students whose concentration is in language and literature should take a fourth year of language.

Final Research Paper
The research paper must demonstrate the student's ability to use source materials in the East Asian language of his or her area.

Doctoral Degree
East Asian Languages and Cultures (PhD)

Course Requirements
A student's total graduate course work must be at least 60 units including 4 units of doctoral dissertation (794ab) and the following courses:

Core Courses
- COLT-603 Professional Development II: Publication Units: 2
- EALC 505 Introduction to East Asian Languages and Cultures Units: 4

Additional Requirements
A theory and methodology course in EALC or an equivalent course in a related program.

Four courses on East Asian languages and literatures.

Four courses on East Asian cultures and civilizations.

Three additional courses in a target discipline or field.

No more than four courses at the 400-level may be applied to the total requirement of 60 units. The fulfillment of the course requirements is determined by the Graduate Studies Committee in EALC.

Screening Procedure
A screening procedure will be conducted before the student completes 24 units of course work, which typically means by the end of the first year. The Graduate Studies Committee will review the student's performance comprehensively and meet the student after a statement describing his/her research ideas is submitted.

Qualifying Exam Committee
Upon successful completion of the screening procedure, the student is encouraged to begin forming a five-member qualifying exam committee, whose purpose is to help the student prepare for the qualifying examination. The committee must be approved by the Graduate School at the time the student applies to schedule a qualifying examination.

Qualifying Procedure
A student takes examinations in three different fields approved by the qualifying exam committee. An oral - examination based on the written exams will follow. After successful completion of the examinations, the student will submit a dissertation prospectus, which must be approved by the qualifying exam committee and the Graduate Studies Committee in EALC.

Foreign Language Requirement
A student must have at least four years of course work or its equivalent in the language of his/her specialization. In addition, the student should acquire or demonstrate competence in a second East Asian language. This requirement may be met by two years' worth of course work. Whether the second East Asian language should be classical or modern will be determined by the Graduate Studies Committee in consultation with a student's academic adviser.

Dissertation
Defense and presentation of the dissertation will follow regulations defined by the Graduate School.
Economics

The economics curriculum is oriented toward a general, liberal education. The study of economics requires adequate preparation in mathematics and statistics. The department offers a BA degree in Economics, a BA degree in Political Economy, a BA degree in Social Sciences with an emphasis in Economics, a BS in Economics/Mathematics and a minor in Economics. The BA degrees require a total of 32 upper-division units for the major. The department offers a Master of Arts in Economics, a Master of Arts in Economic Developmental Programming, a Master of Science in Mathematical Finance, dual degrees with the USC Gould School of Law and the USC Price School of Public Policy, a Doctor of Philosophy in Economics, and a Doctor of Philosophy in Pharmaceutical Economics and Policy with the USC School of Pharmacy.

Professor of the Practice of International Relations and Economics: Lord John Eatwell, PhD
Visiting Associate Professor (Research): Daniel Benjamin, PhD

Professor (Teaching): Mark Moore, PhD
Emeritus Professors: Richard H. Day, PhD; Peter Gordon, PhD (Public Policy)

*Recipient of university-wide or college teaching award.

Undergraduate Degrees

Advisement

Upon declaring a major or minor in Economics, students should consult with the department's undergraduate adviser. Students can check their academic progress on the USCweb under OASIS.

Progressive Degree Program in Economics

The Economics department offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor's and master's degrees in a progressive degree program. This program allows students to earn both the Bachelor of Arts and the Master of Arts degrees in five years. Students may also pursue the Bachelor of Science in Economics/Mathematics and the Master of Science in Mathematical Finance. Further details about progressive degree programs can be found here.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate program, but prior to the completion of 96 units of course work. The application for admission to the progressive degree program must be accompanied by a course proposal plan and two letters of recommendation from USC Economics faculty.

Awards of Degrees

The bachelor's and master's degrees may be awarded separately upon completion of all degree requirements, but the master's degree will not be awarded before the bachelor's degree. Students who elect not to complete the master's must complete 128 units to earn the bachelor's degree.

Undergraduate Honors Program

The department offers an honors program. First and second semester seniors can enroll in ECON 495 Honors Thesis. Honors will be awarded upon completion of the thesis, an overall GPA of 3.0 or higher and a major GPA of 3.5.

Department Policy Regarding Transfer Credits

Students who have taken courses equivalent to ECON 303, ECON 305 or ECON 317 from an economics department at another four-year college or from a program deemed comparable by the director of undergraduate studies, can earn transfer credits provided they received a B (3.0) or better in the courses.

Graduate Degrees

The graduate program in Economics is designed to prepare students for careers in teaching, research, industry and government. The department emphasizes economic theory and econometrics; applied economic analysis, including microeconomics, macroeconomics, international and development economics, urban and regional economics; and political economy.

Admission Requirements

Prerequisites

The typical applicant for admission will normally have completed an undergraduate major in economics. Minimal
prerequisites for admission to a master's degree program include courses in intermediate microeconomic and macroeconomic theory, a year of calculus, and a semester of statistics. Applicants for the PhD program are normally expected to have completed more than the minimum, particularly in the areas of mathematics and statistics.

Procedure
Application deadlines for master's degrees are April 1 for the fall semester and October 15 for the spring. Completed doctoral applications are due by December 1.

Placement Examinations
Students whose native language is other than English may be required to take an English placement examination. Course work in English may be required.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Foreign Language/Research Tool Requirements
There is no foreign language requirement. However, competence in the use of one computer programming language is required for all graduate degrees offered through the Department of Economics.

Doctor of Philosophy in Pharmaceutical Economics and Policy
Application deadline: December 1
The Department of Economics and the Department of Pharmaceutical Economics and Policy (USC School of Pharmacy) jointly offer a program of study leading to the PhD degree and to the MA degree in the process of work toward the PhD degree.

Required courses include both core requirements and area requirements. Core requirements include courses in economic theory, econometrics, and research methods. Area requirements include courses in health economics, pharmaceutical economics, welfare theory and applied econometrics.

For a detailed description of this program, see the USC School of Pharmacy section of this catalogue.

Bachelor's Degree
Economics (BA)
Students are required to take ECON 203, ECON 205, ECON 303, ECON 305, ECON 317, ECON 318 and four economics elective courses. Of the four elective courses (300 level or above) a minimum of two must be economics courses at the 400 level or higher. The remaining two economics courses must be approved by the department's director of undergraduate studies. A grade of C (2.0) or better is required for each of the core courses ECON 303, ECON 305, ECON 317 and ECON 318. MATH 118gx or MATH 125 is required for the major; students are advised to meet the requirement by their sophomore year. Majors are also required to take at least one two-unit course on computing chosen from ITP 101, ITP 110x or CSCI 101L.

Economics/Mathematics (BS)
Students are required to take seven courses in economics, seven courses in mathematics and one course in computer programming languages. Pre-major requirement: MATH 125 or equivalent.

In Economics: ECON 203, ECON 205, ECON 303, ECON 305, ECON 318 and at least two other ECON courses at the 400 level or above

In Mathematics: MATH 126 or MATH 127; MATH 225 or MATH 245; MATH 226 or MATH 227; MATH 407; MATH 408 and at least two other MATH courses at the 400 level or above

In Computing: At least one course chosen from ITP 110x, ITP 165, CSCI 101L

Electives must be approved by the program advisers.

Political Economy (BA)
The Bachelor of Arts in Political Economy explores the intersection of economics with politics in domestic and international contexts. It prepares students for engagement with global and regional questions that require analysis of economic and political causes and consequences and provides a useful background for a wide variety of entry positions in the public and private sectors.

Lower-Division Courses (16 Units)
Complete two ECON and one MATH course (12 units):
- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- ECON 303 Intermediate Microeconomic Theory Units: 4

Choose one (4 units):
- IR 210gw International Relations: Introductory Analysis Units: 4
- POSC 120 Comparative Politics Units: 4
- POSC 130g Law, Politics and Public Policy Units: 4

Upper-Division Requirements (32 Units)
- ECON 303 Intermediate Microeconomic Theory Units: 4

Choose three, at least two from ECON (12 units):
- BUAD 350 Macroeconomic Analysis for Business Decisions Units: 4
- ECON 305 Intermediate Macroeconomic Theory Units: 4
- ECON 330 The Political Economy of Institutions Units: 4
• ECON 332 Contracts, Organizations and Institutions Units: 4
• ECON 340 Economics of Less Developed Countries Units: 4
• ECON 360 Public Finance Units: 4
• ECON 366 Urban Economics Units: 4
• ECON 395 Economic Policy Issues Units: 4
• POSC 335 Political Parties, Campaigns, and Elections Units: 4

Choose one (4 units):
• FBE 402 Government and Business Units: 4
• IR 305w Managing New Global Problems Units: 4
• IR 308w Economic Globalization Units: 4
• IR 323 Politics of Global Environment Units: 4
• IR 324 Multinational Enterprises and World Politics Units: 4
• IR 325 North-South Relations in the Global Economy Units: 4
• IR 326 U.S. Foreign Economic Policy Units: 4
• IR 330 Politics of the World Economy Units: 4
• IR 333 China in International Affairs Units: 4
• IR 358 The Asia Pacific in World Affairs Units: 4
• IR 360 International Relations of the Pacific Rim Units: 4
• IR 362 The International Relations of the Contemporary Middle East Units: 4
• IR 364 The Political Economy of Latin American Development Units: 4
• IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
• POSC 320 Urban Politics Units: 4
• POSC 321 Urban Political Problems Units: 4
• POSC 325 State Politics Units: 4
• POSC 334 Interest Groups and Elite Behavior Units: 4
• POSC 347 Environmental Law Units: 4
• POSC 363 Cities and Regions in World Politics Units: 4
• POSC 380 Political Theories and Social Reform Units: 2 or 4
• PPD 357 Government and Business Units: 4

Choose two, at least one from ECON (8 units):
• ECON 450 International Trade Units: 4
• ECON 487 Resource and Environmental Economics Units: 4
• IR 430 The Politics of International Trade Units: 4
• POSC 425 Legislative Process Units: 4
• POSC 437 Mass Media and Politics Units: 4

Choose one (4 units):
• IR 430 The Politics of International Trade Units: 4
• IR 439 Political Economy of Russia and Eurasia Units: 4
• IR 454 The International Political Economy of Development Units: 4
• POSC 430 Political Economy of Mexico Units: 4
• POSC 451 Politics of Resources and Development Units: 4
• POSC 453 Political Change in Asia Units: 4
• POSC 456 Women in International Development Units: 4
• POSC 463 European Politics Units: 4

Total: 48 units required for the major

Social Sciences, with an Emphasis in Economics (BA)

Students are required to take ECON 203, ECON 205, ECON 303, ECON 305 and three economics elective courses numbered 300 or 400. A grade of C (2.0) or better is required for each of the core courses ECON 303 and ECON 305. MATH 118gx or MATH 125 is required and an additional 12 units of upper-division courses from departments in the social sciences (anthropology, geography, international relations, history, political science, psychology, sociology).

Minor

Behavioral Economics Minor

This minor offers a series of classes that offer a broad perspective of recent research on economic decision-making. Theoretical classes will review traditional theories of decision-making based on the economic rational paradigm as well as new behavioral theories designed to better capture actual decision-making. Experimental classes will cover standard and novel experimental methods used to study economic decision-making and game theoretical paradigms.

Required Lower-Division Courses (12 units)

• ECON 203g Principles of Microeconomics Units: 4
• ECON 205g Principles of Macroeconomics Units: 4
• MATH 118gx Fundamental Principles of Calculus Units: 4 or
• MATH 125g Calculus I Units: 4

Required Upper-Division Course (4 units)

• ECON 303 Intermediate Microeconomic Theory Units: 4

Required Upper-Division Electives (16 units)

Choose any four of the following courses:
• ECON 404 Games and Economics Units: 4
• ECON 405 Neuroeconomics Units: 4
• ECON 415 Behavioral Economics Units: 4
• ECON 420 Experimental Economics Units: 4
• ECON 432 Economics of Happiness Units: 4

Economics Minor
Students from all disciplines will benefit from an economics minor. The economics minor is offered in three tracks. Each track is designed to help the student explore a coherent area of economic thought and methodology. Students minoring in economics must maintain at least a 2.0 GPA (cumulative) in courses taken for the minor. The minor includes the core courses ECON 203, ECON 205, ECON 303 or ECON 305, MATH 118gx or MATH 125 plus three courses chosen from one of the following tracks:

Law and Political Economy
This track introduces students to the economic theory that underlies the economic choices made by individuals and the ways in which law and policy combine to regulate such behavior. Economic models of individual choice, contracts, and law are analyzed in courses in this track. Choose three courses from: ECON 317, ECON 330, ECON 332, ECON 434.

Finance and Money
This track guides students through the economic thought and theory that underlie the importance of money. Courses cover topics that shed light on the ways in which institutions, individual preferences and financial markets affect the allocation and investment of money. Choose three courses from: ECON 317, ECON 350, ECON 357, ECON 360, ECON 450, ECON 452, ECON 457.

International Economics
This track concentrates on the foundations, complexities and importance of the global economy as well as the role of economics and political economy in societies outside of the United States. Choose three courses from: ECON 317, ECON 330, ECON 340, ECON 342, ECON 343, ECON 346, ECON 350.

Master's Degree
Economic Developmental Programming (MA)
This degree program is designed to provide advanced training in the basic tools of development programming and their application to practical problems of developing countries. The program is structured to enable well-prepared students entering in May to finish the following summer. Requirements include the following courses in economics:

Required Courses
• ECON 401 Mathematical Methods in Economics Units: 4
• ECON 402 Mathematical Methods in Dynamic Economics Units: 4
• ECON 501 Macroeconomic Analysis and Policy Units: 4 or
• ECON 602 Macroeconomic Theory I Units: 4
• ECON 502 Mathematical Methods in Dynamic Economics Units: 4 or
• ECON 607 Topics in Dynamic Optimization Units: 4 or
• ECON 615 Applied Econometrics Units: 4
• ECON 609 Econometric Methods Units: 4
• ECON 513 Practice of Econometrics Units: 4
• ECON 523 Economic History and Development Units: 4 or
• ECON 537 Contracts, Organizations, and Institutions Units: 4 or
• ECON 541 Economic Development Units: 4 or
• ECON 634 Political Economy of Institutions Units: 4 or
• ECON 644 Economic Development Programming and Policy Planning Units: 4
• ECON 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2–8 Units Required) or
• ECON 692 Seminar in Economic Development Units: 2
• ECON 650 International Trade Theory Units: 4 or
• ECON 651 International Monetary Theory Units: 4

Additional Requirements
In addition, a total of three courses in one of several designated options in economics, international relations, law, urban planning and development, demography, or business administration is required. In certain cases units can be granted for internship work. The total unit requirements are 32–48, including a comprehensive examination or a thesis. For a detailed description of the program and its requirements see Master of Arts in Economic Developmental Programming, available from the Department of Economics faculty adviser.

Economics (MA)
This program is designed to provide advanced training in the basic tools of economics and their application to practical problems.

Required Courses
Students are required to take ECON 500, ECON 501 and ECON 513 in addition to 20 elective units. No more than 4 units of ECON 590 can be applied toward the MA degree in Economics. Students must receive no lower than a B in ECON 500 and ECON 501. Students are allowed to take up to 8 units outside the department and 8 units at the 400 level.
• ECON 500 Microeconomic Analysis and Policy Units: 4
• ECON 501 Macroeconomic Analysis and Policy Units: 4
• ECON 513 Practice of Econometrics Units: 4

Dual Degree
Juris Doctor/Master of Arts in Economics (JD/MA)
Students are required to complete 92 units of law and economics course work, four units of which must constitute a thesis acceptable to the faculties of the USC Gould School of Law and the Department of Economics. Before enrolling in economics courses, students must have completed an undergraduate course in probability and statistical inference (e.g., BUAD 310). Students with undergraduate degrees in such disciplines as business, economics, mathematics and psychology will usually have taken such a course as part of their undergraduate program.

First Year:
Required law school courses.

Second and Third Years:
• ECON 500 Microeconomic Analysis and Policy Units: 4

Two Additional Graduate-level Courses in Economics (Eight Units):
ECON 680 Industrial Organization and ECON 681 Economics of Regulated Industries are recommended, but the student is free to choose any graduate level courses other than ECON 590 or ECON 790 in consultation with the program adviser. ECON 401 Mathematical Methods in Economics may be substituted for one of these courses, or ECON 419 Introduction to Econometrics may be substituted for the other. (These three courses are applicable toward graduate credit.)

Four Units of Thesis:
The thesis must be acceptable to both the faculty of the law school and the faculty of the Department of Economics.

Thirty-nine Units of Law Courses:
Including one course in a subject matter related to economics (including but not necessarily limited to Taxation, International Business Transactions, Antitrust Law I, Regulated Industries, Labor Law, Administrative Law and Regulatory Policy, Corporate Taxation or Land Use. In addition to the LSAT, students interested in this dual degree program are required to take the aptitude and advanced economic portions of the Graduate Record Examinations (GRE).

Master of Arts in Economics and Master of Planning (MA/MPI)
The USC Price School of Public Policy and the Department of Economics jointly offer a two-year program leading to the MPI and MA degrees. Applicants must apply to the Price School of Public Policy and the Graduate School and meet the admission requirements of both.

Requirements
Requirements for completion of the dual degree program are 58 units, including 24 units in economics and 34 units in planning. For a complete listing, see Public Policy.

Doctoral Degree
Economics (PhD)
Application deadline: December 1
The PhD in Economics requires 60 units of graduate level courses numbered 500 or higher (excluding ECON 500, ECON 501, ECON 590, ECON 690, ECON 691, ECON 692, ECON 693, ECON 694, ECON 790 and ECON 794a, ECON 794b, ECON 794c, ECON 794d, ECON 794z).

Required Courses
The following courses must be taken within the first 36 units of graduate level courses:
• ECON 601 Microeconomic Theory I Units: 4
• ECON 602 Macroeconomic Theory I Units: 4
• ECON 603 Microeconomic Theory II Units: 4
• ECON 605 Macroeconomic Theory II Units: 4
• ECON 609 Econometric Methods Units: 4
• ECON 611 Probability and Statistics for Economists Units: 4

Additional Required Units
A minimum of 6 units selected from the following:
• ECON 690 Seminar in Economic Theory Units: 2
• ECON 691 Seminar in Econometrics Units: 2
• ECON 692 Seminar in Economic Development Units: 2
• ECON 693 Seminar in Applied Economics and Public Policy Units: 2
• ECON 694 Seminar in Dynamic Economics Units: 2

A minimum of 4 units of:
• ECON 794a Doctoral Dissertation Units: 2
• ECON 794b Doctoral Dissertation Units: 2
• ECON 794c Doctoral Dissertation Units: 2
• ECON 794d Doctoral Dissertation Units: 2
• ECON 794z Doctoral Dissertation Units: 0

Additional Requirements
Students must take a core theory examination immediately after the completion of ECON 601, ECON 602, ECON 603 and ECON 605 in order to continue in the PhD program. There is also a breadth requirement, which may be satisfied by taking either ECON 523 Economic History and Development or ECON 527 Theory of Value: Classical Origins and Neoclassical Critique or ECON 538 Values and Social Analysis.
After passing the core theory examination, the student should consult the director of graduate studies on the appointment of a PhD qualifying exam committee. The student should
complete two advanced fields of study with the approval of the qualifying exam committee and the director of graduate studies. The requirements for completing each advanced field of study consist of (1) at least two courses numbered 600 or higher in that field with a minimum grade of A- in each, (2) satisfactory completion of one of the seminars related to the field and (3) presentation of a research paper in a class or seminar. In addition, the student should complete a minor field, which consists of a course numbered 600 or higher with a minimum grade of B. The signing of the student's Permission to Take the Qualifying Examination form will signify the satisfactory completion of the field requirements. The remainder of the courses to total 60 units must be preapproved by the qualifying exam committee. However, not more than four units of ECON 590 and/or ECON 790 can be taken in each semester. Courses taken outside the department or USC cannot count toward the completion of a field and are not allowed before at least one advanced field is completed. Waivers to the course requirements based on equivalent work at another university may be made upon petition to the director of graduate studies up to a maximum of 12 units. Waivers for any other reason require the approval of the department graduate committee.

**Grade Point Average Requirements**
In addition to the Graduate School requirements, a minimum GPA of 3.0 on all course work taken toward the 60 units requirement must be achieved. ECON 615 or a higher level course in econometrics must be completed with a grade of B or better.

**Screening Procedure**
Students desiring the PhD must undergo a screening procedure before completing more than 24 units of graduate level courses. The process involves a review of the student's course grades, performance on the core theory examination, and demonstrated research ability. Students who pass the screening procedure are permitted to continue studies toward the PhD degree.

**Core Theory Examination**
Before beginning the third semester of graduate study, the student must pass a written examination in general economic theory including applications. A maximum of two attempts is allowed. Not taking the examination at a given due time is considered as failing the examination once. The core theory examination is offered twice every year during the summer session. Any exceptions are subject to approval of the director of graduate studies.

**Empirical Research Paper**
During the summer after the fourth semester of study, the student must submit an empirical paper using quantitative methods to the examination committee. The paper may use field, experimental or simulated data. In this paper, the student should demonstrate competence in using a computer programming language and software.

**Research Paper**
During the summer after the sixth semester of study, the student must submit a research paper to a committee of faculty. The paper must be of publishable quality.

**Seminar Requirements**
Every student is required to take and satisfactorily complete three, two-unit research seminars chosen from ECON 690, ECON 691, ECON 692, ECON 693 and ECON 694. The same seminar may be taken more than once. Before completing the dissertation, the student must present at least one original research paper in a seminar of the student's choice.

**Dissertation Proposal Preparation**
The student is required to write a research proposal on a topic suitable for a dissertation. Normally, the chair of the student's qualifying exam committee directs this work. The written proposal is presented and critiqued during the qualifying examination.

**Qualifying Examination**
Upon successful completion of course and grade requirements, the paper requirement, and the core theory examination, the student takes an examination, which focuses on the presentation and defense of the written dissertation proposal. After passing this examination, the student is admitted to candidacy for the PhD degree. This examination must be taken not later than the end of the seventh semester of study.

**Doctoral Dissertation**
After admission to candidacy, the student forms a dissertation committee composed of three faculty members, one of whom must be from an outside department. The chair of this committee is the dissertation supervisor. The student must register in sequence for ECON 794a, ECON 794b, ECON 794c, ECON 794d, ECON 794z Doctoral Dissertation each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed. The dissertation is defended in an oral examination administered by the dissertation committee when the committee agrees that the student has completed the research and a satisfactory draft of the dissertation has been written. If the committee agrees to pass the student, all suggested extensions, modifications, and corrections are incorporated into a final draft, which must be approved by all members of the committee.

It is the student's responsibility to see that the proper paperwork is submitted to the Graduate School upon completion of each requirement for the PhD degree.

---

**English**
The Department of English offers a broad range of courses in English, American and Anglophone literature of all periods and genres, and in related areas such as creative and expository writing, literature and visual arts, ethnic literature and cultural studies, history of the English language and of literary criticism, and literary and cultural theory. Instructors assign extensive reading and writing in order to help students become perceptive readers, critical thinkers and strong writers. Class sizes are kept at 19 to enable full discussion in literature classes and at 12 in creative writing workshops.

Emeritus Professors: Charles B. Berryman, PhD; Donald C. Freeman, PhD; Max F. Schulz, PhD

Emeritus Associate Professors: William H. Brown, PhD; David Eggenschwiler, PhD; Stephen C. Moore, PhD

*Recipient of university-wide or college teaching award.

Undergraduate Degrees

Advisement

All students meet with a faculty adviser before registering for courses each semester. Faculty advisers help students shape their majors according to their evolving interests and the requirements of the majors. Students should consult the director of undergraduate studies and the undergraduate staff adviser about departmental clearances and course substitutions.

Double Majors

The department strongly encourages majoring in both English and in another department in the USC Dornsife College of Letters, Arts and Sciences or in another school of the university.

English Honors Program

Candidates for the B.A. in English can receive a designation on their transcripts of departmental honors by successfully completing a senior honors thesis while enrolled in ENGL 496, and having a 3.5 final GPA. ENGL 491 Senior Seminar in Literary Studies is a prerequisite for ENGL 496. Students with a minimum GPA of 3.0 overall and 3.5 in English courses can apply for ENGL 496; application is due at the start of fall semester of senior year. For additional information, contact a departmental adviser or the director of undergraduate studies.

Teaching Credential Requirements

Credential requirements in California and elsewhere are complex and changeable. Students interested in preparing for public school teaching should contact the Credentials Office, Rossier School of Education (or refer to this catalogue page), and the undergraduate adviser in the English department for up-to-date information. The English department usually offers courses that satisfy most, if not all, of these requirements.

Graduate Degrees

Admission Requirements

Requirements for admission to study in the department of English include: GRE scores that are satisfactory to the department on both the verbal portion of the General Test and the literature Subject Test of the Graduate Record Examinations; evidence of competence in writing English and interpreting English literature, as demonstrated by two samples of written work by the applicant on literary subjects; a satisfactory written statement by the applicant of aims and interests in graduate work; letters of recommendation from at least three college instructors (English instructors preferred); and grades satisfactory to the department earned by the applicant at other institutions.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Common Requirements

Transfer of Credit

A Transfer Credit Statement is prepared by the Degree Progress Department for students admitted to full graduate standing. The application of any available transfer credit is contingent upon successful completion of the screening procedure and is determined by the director of graduate studies no later than the end of the second year according to the following guidelines: credit will only be allowed for
one course in literature written before 1900, one course in American literature,

Majors emphasizing creative writing must take seven upper-division courses, including two introductory creative writing workshops in poetry and prose, and a third workshop at the 400-level. The remaining upperdivision courses must include one course in literature written before 1900, one course in literature written after 1900 and one elective.

All major students must complete ENGL 491 Senior Seminar in Literary Studies.

**Narrative Studies (BA)**

Narrative studies prepares students for the development and evaluation of original content for novels, films, theatre and other narrative platforms, but recognizes that the range of professional opportunities in literature and the performing arts is much wider than the roles of author, screenwriter or playwright. To recognize a good story, to critique, help shape, realize and transform it, requires a background in the history of narrative, crosscultural and contemporary models, and an understanding of the broader context of popular culture.

Narrative Studies assumes that an effective narrative will be adapted from the medium in which it first appears as new media become available. To prepare students for a future in which the platform is likely to change, the Bachelor of Arts in Narrative Studies allows students to study across the current platforms while concentrating on the techniques of effective construction common to them all.

In so doing, it draws upon course work from several schools of art but finds its home in the humanities. To help develop the flexibility necessary to understand how stories change across platforms, students are expected to complete at least three courses in literary and three courses in performance-based media. The remaining three courses may be chosen to reflect the student's personal preference and initial career aspirations.

MDA 490x Directed Research or MDA 494 Directed Creative Project are capstone experiences: Students work under the guidance of a faculty member in a relevant discipline or professional field, which may include fulltime faculty from the college or the participating schools of the arts. Projects intended for the stage should be done under the direction of School of Dramatic Arts faculty.

**Requirements**

Nine or 10 courses totaling 36 units; no more than two at the 100- or 200-level, selected from the following lists.

**Introduction to Narrative Media (choose one course):**

- COLT 101 gp Masterpieces and Masterminds: Literature and Thought Units: 4
- CTCS 190g Introduction to Cinema Units: 4
- CTCS 191 Introduction to Television and Video Units: 4
- CTIN 190 Introduction to Interactive Entertainment Units: 4
- ENGL 261 English Literature to 1800 Units: 4
- ENGL 262 English Literature since 1800 Units: 4
- ENGL 263 American Literature Units: 4
- ENGL 471 Literary Genres and Film Units: 4
- ENGL 481 Narrative Forms in Literature and Film Units: 4
- FACS 150 gp Visual Culture and Literacy I Units: 4
- PHIL 446 Aesthetics and the Film Units: 4

**Bachelor's Degree**

**English (BA)**

Undergraduate majors in English are required to take 40 units (usually 10 courses) for a BA in English with an emphasis in either literature or creative writing.

**All majors must take three introductory courses:**

- ENGL 261 English Literature to 1800 Units: 4
- ENGL 262 English Literature since 1800 Units: 4
- ENGL 263 American Literature Units: 4

**Additional Requirements**

Students should take at least two introductory courses before enrolling in upper-division literature courses or creative writing workshops.

Majors emphasizing English literature must take seven upper-division courses, including two courses in literature written before 1800, one course in 19th-century literature, one course in American literature, and two electives.

Majors emphasizing creative writing must take seven upper-division courses, including two introductory creative writing workshops in poetry and prose, and a third workshop at the 400-level. The remaining upperdivision courses must include one course in literature written before 1900, one course in literature written after 1900 and one elective.

**Experience in Teaching**

This requirement may be fulfilled by one or more years' service as an assistant lecturer in the Writing Program or equivalent experience as determined by the director of the Graduate Studies Program.

**Graduate Activity and Support**

The English Department is committed to the development of its graduate students as professionals. To this end, the department provides a number of opportunities for professional activity. In addition, the Association of English Graduate Students (AEGS) hosts a variety of lectures, discussions and forums throughout the year. To support the student's professional activities outside of USC, the department also provides some funding for travel to conferences and professional meetings, along with a full range of placement, advising and support activities. Graduate creative writing students will host lectures, discussions and forums in poetry and fiction studies.

**Experience in Teaching**

This requirement may be fulfilled by one or more years' service as an assistant lecturer in the Writing Program or equivalent experience as determined by the director of the Graduate Studies Program.
• THTR 125 Text Studies for Production Units: 4
• THTR 403 The Performing Arts Units: 4
  Or other appropriate course work as determined by the department.

Writing and Narrative Forms (choose one or two courses, totaling 4 units):
• ENGL 105x Creative Writing for Non-Majors Units: 4
• CTWR 412 Introduction to Screenwriting Units: 2
• CTWR 415a Advanced Writing Units: 2
• ENGL 105x Creative Writing for Non-Majors Units: 4, max 8
• ENGL 302 Writing Narrative Units: 4
• ENGL 405 Fiction Writing Units: 4, max 8 *
• THTR 365 Playwriting I Units: 4
• THTR 366 Playwriting II Units: 4 *
  Or other appropriate coursework as determined by the department.

Popular Culture and Ethnicity (choose one course):
• AMST 200gm Introduction to American Studies and Ethnicity Units: 4
• AMST 274gmw Exploring Ethnicity through Film Units: 4
• AMST 285gm African American Popular Culture Units: 4
• AMST 333 Religion in the Borderlands Units: 4
• COLT 365 Literature and Popular Culture Units: 4
• CTCS 192gm Race, Class, and Gender in American Film Units: 4
• CTCS 192 History of the American Film, 1925–1950 Units: 4
• CTCS 201 History of the International Cinema I Units: 4
• CTCS 202 History of the International Cinema II Units: 4
• EALC 315 Modern Korean Literature in Translation Units: 4
• EALC 342gp Japanese Literature and Culture Units: 4
• EALC 452 Japanese Fiction Units: 4
• EALC 455 Japanese Fiction Units: 4
• ENGL 444m Native American Literature Units: 4
• ENGL 445m The Literatures of America: Cross-Cultural Perspectives Units: 4
• FREN 320 French Cinema Units: 4
• GERM 360g 20th Century German Prose: Texts and Films Units: 4
• ITAL 360 Italian Cinema Units: 4
• THTR 210 Theory and Practice of World Theatre I Units: 4 ***
• THTR 211g Theory and Practice of World Theatre II Units: 4 ***
  Or other appropriate course work as determined by the department.

Western Narrative in Historical Perspective (choose one course):
• CLAS 325 Ancient Epic Units: 4
• CLAS 337gp Ancient Drama Units: 4
• CLAS 380 Approaches to Myth Units: 4
• COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
• ENGL 423 English Literature of the 18th Century (1660–1780) Units: 4 *
• ENGL 424 English Literature of the Romantic Age (1780–1832) Units: 4 *
• ENGL 425 English Literature of the Victorian Age (1832–1890) Units: 4 *
• ENGL 426 Modern English Literature (1890–1945) Units: 4 *
• ENGL 430 Shakespeare Units: 4
• ENGL 440 American Literature to 1865 Units: 4 **
• ENGL 441 American Literature, 1865 to 1920 Units: 4 **
• GERM 340 German Prose Fiction from Goethe to Thomas Mann Units: 4

Narrative in Cross-cultural Perspective (choose one course):
• ANTH 372 Interpretation of Myth and Narrative Units: 4
• COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
• CTCS 200g History of the International Cinema I Units: 4
• CTCS 201 History of the International Cinema II Units: 4
• EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
• EALC 332 Modern Korean Literature in Translation Units: 4
• EALC 342gp Japanese Literature and Culture Units: 4
• EALC 452 Chinese Fiction Units: 4
• EALC 455 Japanese Fiction Units: 4
• ENGL 444m Native American Literature Units: 4
• ENGL 445m The Literatures of America: Cross-Cultural Perspectives Units: 4
• FREN 320 French Cinema Units: 4
• GERM 360g 20th Century German Prose: Texts and Films Units: 4
• ITAL 360 Italian Cinema Units: 4
• THTR 210 Theory and Practice of World Theatre I Units: 4 ***
• THTR 211g Theory and Practice of World Theatre II Units: 4 ***
  Or other appropriate course work as determined by the department.

Narrative in Cross-cultural Perspective (choose one course):
• ANTH 372 Interpretation of Myth and Narrative Units: 4
• COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
• CTCS 200g History of the International Cinema I Units: 4
• CTCS 201 History of the International Cinema II Units: 4
• EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
• EALC 332 Modern Korean Literature in Translation Units: 4
• EALC 342gp Japanese Literature and Culture Units: 4
• EALC 452 Chinese Fiction Units: 4
• EALC 455 Japanese Fiction Units: 4
• ENGL 444m Native American Literature Units: 4
• ENGL 445m The Literatures of America: Cross-Cultural Perspectives Units: 4
• FREN 320 French Cinema Units: 4
• GERM 360g 20th Century German Prose: Texts and Films Units: 4
• ITAL 360 Italian Cinema Units: 4
• THTR 210 Theory and Practice of World Theatre I Units: 4 ***
• THTR 211g Theory and Practice of World Theatre II Units: 4 ***
  Or other appropriate course work as determined by the department.
• GERM 372g Literature and Culture in Berlin in the 1920s Units: 4
• SLL 302g Modern Russian Literature Units: 4
• SLL 344g Tolstoy: Writer and Moralist Units: 4
• SLL 345g Literature and Philosophy: Dostoevsky Units: 4
• SLL 346 Russian Drama and the Western Tradition Units: 4
• SPAN 304 Survey of Fiction Units: 4 (taught in Spanish)
• THTR 301 Greek and Roman Theatre Units: 4 ***
• THTR 302 Shakespeare in His World Units: 4 ***

Or other appropriate course work as determined by the department.

Contemporary Fiction and Drama
(choose one course):
• AMST 448m Chicano and Latino Literature Units: 4
• AMST 449m Asian American Literature Units: 4
• COLT 345 Realist Fiction Units: 4
• COLT 348 Modernist Fiction Units: 4
• COLT 351 Modern and Contemporary Drama Units: 4
• COLT 420 The Fantastic Units: 4
• COLT 472 Los Angeles Crime Fiction Units: 4
• COLT 475 Politics and the Novel Units: 4
• EALC 354g Modern Chinese Literature in Translation Units: 4
• ENGL 375 Science Fiction Units: 4
• ENGL 442 American Literature, 1920 to the Present Units: 4 **
• ENGL 447m African-American Narrative Units: 4
• ENGL 455 Contemporary Prose Units: 4
• ENGL 463 Contemporary Drama Units: 4
• FREN 347 Race, Gender and Power in Francophone Literature Units: 4
• SLL 303 Contemporary Russian Literature Units: 4
• SLL 348g The Novels of Vladimir Nabokov Units: 4
• THTR 300 Introduction to Modern Drama Units: 4
• THTR 314 Advanced Topics in Modern Drama Units: 4 ***

Or other appropriate course work as determined by the department.

Two additional courses
(three if CTWR 412/CTWR 414 are chosen) (8 units) at the upper-division 300 or 400 level, from different departments, chosen from the lists above.

Capstone Enrollment:
• MDA 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required) or
• MDA 494 Directed Creative Project Units: 2, 3, 4 (4 Units Required)

Or other appropriate course work as determined by the department.

Total: 36 units
Nine or 10 courses, including at least seven at the upper-division level, for a total of 36 units.

*Prerequisite required
**Corequisite required
***Recommend preparation suggested

Minor

Cultural Studies Minor
Cultural studies is an interdisciplinary field of study that examines a broad array of issues of culture, including popular culture, identity, subcultures, nationalism, global culture and ethnography. This minor is designed for students majoring in the humanities or in the professional schools who wish to complement their majors with courses that investigate the politics of culture and cultural negotiation. Students are required to have a minimum 3.0 GPA and the completion of 32 units for admission to the minor.

Required Courses
• COMM 384 Interpreting Popular Culture Units: 4
• CTCS 407 African American Cinema Units: 4 or
• CTCS 411 Film, Television and Cultural Studies Units: 4
• ENGL 392 Visual and Popular Culture Units: 4 or
• ENGL 472 Literature and Related Arts Units: 4

Elective Courses
Choose three courses from the following. Students must take two electives outside the department of their major. Students may not take any more than two electives from any one department or school.
• AHIS 363m Contemporary Art and the Culture Wars Units: 4
• AHIS 469 Critical Approaches to Photography Units: 4
• ANTH 263g Exploring Culture through Film Units: 4
• COLT 365 Literature and Popular Culture Units: 4
• COMM 339 Communication Technology and Culture Units: 4
• COMM 340 The Cultures of New Media Units: 4
• COMM 360 The Rhetoric of Los Angeles Units: 4
• COMM 370 The Rhetoric of Ideas: Ideology and Propaganda Units: 4
• COMM 395m Gender, Media and Communication Units: 4

The minor requires 20 units. As with all minors, students in which they are interested.

Students who complete this minor will be able to use both disciplinary boundaries. English studies are also historical, continental, multinational and multilingual. Historical studies are also literary and sociological. Both studies are enmeshed in art history and music. This cross-disciplinary understanding of early modern studies provides a model for research in many areas of the humanities and social sciences.

Through its Early Modern Studies Institute, USC has recognized that the study of the literatures and cultures of Europe and the Americas prior to 1800 reaches beyond disciplinary boundaries. English studies are also historical, continental, multinational and multilingual. Historical studies are also literary and sociological. Both studies are enmeshed in art history and music. This cross-disciplinary understanding of early modern studies provides a model for research in many areas of the humanities and social sciences. Students who complete this minor will be able to use both literary and historical analyses to investigate other questions in which they are interested.

The minor requires 20 units. As with all minors, students must include at least four upper-division courses and four courses dedicated exclusively to this minor (not used for credit toward a major, another minor or general education requirements). Students must select four courses outside their major department.

**Requirements, Lower-Division**

Choose one, 4 units:

- AHIS 230 Art and Culture in Early Modern Europe Units: 4
- ENGL 261 English Literature to 1800 Units: 4
- HIST 103g The Emergence of Modern Europe Units: 4

**Requirements, Upper-Division**

Choose at least one course from each of the following four categories:

**Literary Studies (4 units):**

- ENGL 420 English Literature of the Middle Ages (1100–1500) Units: 4
- ENGL 421 English Literature of the 16th Century Units: 4
- ENGL 422 English Literature of the 17th Century Units: 4
- ENGL 423 English Literature of the 18th Century (1660–1780) Units: 4
- FREN 401 Studies in Early Modernity Units: 4
- ITAL 350g Italian Renaissance Literature in Translation Units: 4
- SPAN 350 Cultural Cross-Currents of the Iberian Middle Ages Units: 4
- SPAN 352 The Transatlantic Golden Age: New Worlds Real and Imagined Units: 4

**Historical Analysis (4 units):**

- AHIS 304m Gender and Difference in the Early Modern Period Units: 4
- AHIS 343 Renaissance Art Units: 4
- AHIS 344 Baroque Art Units: 4
- AMST 446 Cultural Circuits in the Americas Units: 4
- HIST 309 Britain and Ireland, 1100–1500 C.E. Units: 4
- HIST 312 The Age of the French Revolution and Napoleon Units: 4
- HIST 316 The Renaissance Units: 4
- HIST 325 Early Modern Britain Units: 4
- HIST 331 The British Empire: 1588–1834 Units: 4
- HIST 410 The Age of Humanism and Reformation Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4

**Case Studies in Early Modern Discourse and History (4 units):**

- AHIS 430 Studies in Renaissance Art Units: 4
- AHIS 433 Studies in Medieval Art Units: 4
- AHIS 453 Studies in Baroque Art Units: 4

Total Units: 24

For more information or to apply to this minor, contact the Department of English, USC Dornsife College of Letters, Arts and Sciences.

**Early Modern Studies Interdisciplinary Minor**

This minor brings together the resources of the departments of English, History and Art History to study the literatures and cultures of Europe and the Americas from the late medieval period to 1800. It draws upon courses from the departments of French and Italian, Spanish and Portuguese, Philosophy, American Studies and Ethnicity, the USC Thornton School of Music, and the USC School of Dramatic Arts.

The minor focuses on the interplay of literary and historical methodologies while promoting an area study in a wide context. Majors in any participating department can complement the strengths in their home department with courses in other participating departments; students with majors in most other areas should have room for the 20 units necessary to complete the minor.

The minor includes a capstone course, a senior seminar based on the resources of the Early Modern Studies Institute (a consortium between USC and the Huntington Library), which enables students to learn about current issues in this cross-disciplinary field and about research techniques employed to deal with those emergent issues.

Total Units: 24
• AMST 373m History of the Mexican American Units: 4
• ENGL 430 Shakespeare Units: 4
• ENGL 444m Native American Literature Units: 4
• ENGL 461 English Drama to 1800 Units: 4
• ENGL 465 The English Novel to 1800 Units: 4
• ENGL 469 Women in English Literature before 1800 Units: 4
• HIST 307 Women in Medieval Europe, c. 1000–1500 Units: 4
• HIST 318 Early American Indian History Units: 4
• HIST 349 Colonial North America 1600–1760 Units: 4
• HIST 351 The American Revolution Units: 4
• HIST 370 Spanish America, 1492–1821 Units: 4
• HIST 470 The Spanish Inquisition in the Early Modern Hispanic World Units: 4, 2 years
• HIST 473 Colonial Latin America Seminar Units: 4
• HIST 474 Sex, Gender, and Colonialism in Latin America, 1492 to 1820 Units: 4, 2 years
• MPEM 450 Collegium Workshop Units: 1
• PHIL 421 Continental Rationalism Units: 4
• PHIL 422 British Empiricism Units: 4
• PHIL 423 The Critical Philosophy of Kant Units: 4
• SPAN 455 Picaresque Itineraries: Empire and Its Discontents Units: 4
• SPAN 460 Don Quijote: Text and Film Units: 4
• THTR 302 Shakespeare in His World Units: 4
• THTR 313 Comedy of Manners Units: 4
• THTR 354 Acting Shakespeare Units: 2

Senior Seminar in Early Modern Studies (capstone):
• ENGL 497 Senior Seminar in Early Modern Studies Units: 4

English Minor
The minor in English requires 20 units, or five courses, including at least two introductory courses (from among ENGL 261, ENGL 262 and ENGL 263) and at least three upper-division courses including one in literature written before 1800 and one in American literature. An English minor may enroll in no more than one creative writing workshop.

Narrative Structure Interdisciplinary Minor
This interdisciplinary minor is intended for students with an interest in story-telling who are majoring in programs and disciplines other than narrative studies. The minor, based in the humanities, provides opportunities for undergraduates to study story structure from the perspective of several disciplines. As with all minors, students must choose at least four courses (16 units) outside their major department and four courses (16 units) that are not being used to satisfy any other subject requirement.

Course Requirements: five courses (20 units)

Lower-Division Requirement
Choose one course (4 units) from the following list.
• COLT 101gp Masterpieces and Masterminds: Literature and Thought Units: 4
• COLT 264gp Asian Aesthetic and Literary Traditions Units: 4
• CTCS 190g Introduction to Cinema Units: 4
• CTCS 200g History of the International Cinema I Units: 4
• CTCS 201 History of the International Cinema II Units: 4
• CTIN 190 Introduction to Interactive Entertainment Units: 4
• EALC 125g Introduction to Contemporary East Asian Cinema and Culture Units: 4
• ENGL 105x Creative Writing for Non-Majors Units: 4
• ENGL 262 English Literature since 1800 Units: 4
• ENGL 263 American Literature Units: 4

Upper-Division Requirements
Choose four courses (16 units) from the lists below, one from each list.

Core Course
• ENGL 302 Writing Narrative Units: 4

European and American Literary Narratives
• CLAS 325 Ancient Epic Units: 4
• COLT 312 Heroes, Myths and Legends in Literature and the Arts Units: 4
• COLT 345 Realist Fiction Units: 4
• COLT 472 Los Angeles Crime Fiction Units: 4
• ENGL 375 Science Fiction Units: 4
• ENGL 425 English Literature of the Victorian Age (1832–1890) Units: 4 *
• ENGL 426 Modern English Literature (1890–1945) Units: 4 *
• ENGL 440 American Literature to 1865 Units: 4 **
• ENGL 441 American Literature, 1865 to 1920 Units: 4 **
• ENGL 442 American Literature, 1920 to the Present Units: 4
• ENGL 447m African-American Narrative Units: 4
• ENGL 455 Contemporary Prose Units: 4
• FREN 383 French Women Writers Units: 4 (taught in French) **
• FREN 404 Studies in an Author Units: 4 (taught in French)
• GERM 340 German Prose Fiction from Goethe to Thomas Mann Units: 4
• GERM 372g Literature and Culture in Berlin in the 1920s Units: 4
• SLL 302g Modern Russian Literature Units: 4
• SLL 303 Contemporary Russian Literature Units: 4
• SLL 344g Tolstoy: Writer and Moralist Units: 4
• SLL 345g Literature and Philosophy: Dostoevsky Units: 4
• SLL 348g The Novels of Vladimir Nabokov Units: 4
• SPAN 304 Survey of Fiction Units: 4 (taught in Spanish)

Note:

• ITAL 360 Italian Cinema Units: 4
• SPAN 302 Survey of Film Units: 4 (taught in Spanish)
• SPAN 306 Survey of Drama Units: 4 (taught in Spanish)

Master's Degree

English (MA)
The department does not accept applicants for a Master of Arts degree. All graduate work in English at USC is taken as part of a PhD program, and the MA in English is intended only as a transitional degree in the process of completing requirements for the PhD.

A student admitted to the graduate program may choose later to earn a terminal MA degree, or may be invited by the department to attempt a terminal degree. The terminal MA in English may be earned by completing 30 units (normally eight courses) of graduate study in English or in other departments at USC (as approved by the graduate director) with an accumulated GPA of at least 3.0, and by passing the screening procedure. A maximum of four units of 590 Directed Research and four transfer units may count toward the 30 units minimum required for the MA degree.

Literary Editing and Publishing (MA)
The master's degree in Literary Editing and Publishing is intended for students with strong backgrounds in English literature, creative writing and narrative studies to explore the roles of the professional editor and publisher, with an emphasis in literary nonfiction.

Exceptional USC undergraduate students accepted to this degree program may combine their baccalaureate and masters studies during their senior (fourth) year, in accordance with USC policy on Progressive Degree Programs. Applicants without appropriate preparatory course work in literature and creative writing may be required to complete more course work. The master's degree in Literary Editing and Publishing requires a year of supervised external professional internship in lieu of a thesis.

Advisement
Students interested in applying to the Progressive Degree Program in Literary Editing and Publishing will propose a plan of study in consultation with an academic adviser. Advisers will work with students throughout the final years of undergraduate study and the master's program to help students select courses based on remaining undergraduate degree requirements, recommended preparation for the master's degree, and the core requirements for the master's degree in Literary Editing and Publishing. Students in the English department are required to meet with an adviser before registering for courses each semester.

Degree Requirements
The master's degree in Literary Editing and Publishing is under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All
The student's course work must total at least 64 units. No director to enroll in appropriate 400 training in any given area may be required by the graduate their graduate training. permitted to take 600

Recommended Course

ENGL 600 Publication in Humanities Journals Units: 4

Doctoral Degree

English and American Literature (PhD)

Students may earn the PhD in English by successfully completing requirements in the English and American literature track.
Application deadline: December 1
This program prepares students for research and teaching in all areas of English and American literary studies. The program offers the study of texts in their historical and cultural contexts as well as theoretical, interdisciplinary and cross-cultural approaches to literature.

Graduate Curriculum and Unit Requirements

The graduate curriculum is divided into 500-level foundation courses and 600-level advanced courses. The 500-level courses offer fundamental work in theory and in the history of British and American literatures and cultures. The 600-level courses feature advanced studies in theory, core requirements in film and literature, interdisciplinary studies, transhistorical studies in genres and sub-genres, individual writers, gender studies, multi-cultural literatures and societies, and special topics. Although students will normally take 500-level courses leading up to the screening procedure (see Screening Procedure) and 600-level courses thereafter, students, after consultation with their advisers, may be permitted to take 600-level courses in the first semesters of their graduate training.
Occasionally students who lack adequate undergraduate training in any given area may be required by the graduate director to enroll in appropriate 400-level courses. The student's course work must total at least 64 units. No more than 8 units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units. A minimum of 12 transfer units, approved by the graduate director, is allowed toward the 64 units minimum required by the PhD (See Transfer of Credit.)

Advisement

The student will be assigned a faculty mentor in his or her first semester in the graduate program and will be encouraged in subsequent semesters to begin putting together an informal qualifying exam committee. The makeup of the qualifying exam committee may change as the interests of the student change. The faculty mentor and informal qualifying exam committee will assist the student in planning a program of study appropriate to the student's interests leading to the screening procedure.

Screening Procedure

In the semester immediately following the completion of 20 units of courses, the students will be screened. Passing this procedure is prerequisite to continuation in the doctoral program. The faculty mentor will write a report summarizing the student's course work, grades and instructor comments. The graduate studies committee will consider the student's record and determine if he or she is qualified to go on to the PhD. On successful completion of screening, the student may apply for the transfer of graduate credit from other institutions, up to a maximum of 12 units.

Qualifying Exam Committee

Immediately following successful completion of the screening procedure, the student will nominate formally a five-member qualifying exam committee, including a chair and three other members from the English Department who are in the student's areas of interest and an outside member from another PhD-granting department. The committee must be in place and approved by the Graduate School at the time the student chooses a dissertation topic, writes the dissertation prospectus and schedules a qualifying examination.

Field Examinations

In the semester following the completion of courses, and before submission of the dissertation prospectus, the student must take the field examinations. These are take-home essays in three broad fields preparatory to the dissertation. The fields are chosen and the questions developed by the student in consultation with a committee of three examiners chosen by the student. The field examinations may be repeated once in the semester immediately following an unsuccessful attempt. The committee may ask the student to retake one, two or all three fields.

Qualifying Examination

Following completion of course work and the field examinations, the student must sit for a qualifying examination, at a time mutually agreed upon by the student and the qualifying exam committee. This is an examination given in the subject of the student's proposed dissertation research. No less than one month before the qualifying examination, the student will submit to the qualifying exam committee a dissertation prospectus. The prospectus, it is understood, will not be a polished dissertation proposal, but at a minimum it should display a strong knowledge of the subject, much of the relevant secondary material and other contexts crucial to the writing of the dissertation, and should
present a workable plan of attack as well as a reasonably sophisticated understanding of the theoretical assumptions involved in the subject.

The qualifying examination will consist of both written and oral portions. It will focus on the dissertation area and its contexts with the specific format and content of the examination being negotiated among the student and all members of the examination committee. Upon successful completion of the qualifying examination, the student proceeds to the writing of the doctoral dissertation.

Dissertation
The final stage of the program is the submission of a dissertation that makes an original and substantial contribution to its field of study. Dissertations being written in the department are now richly varied, and this diversity is encouraged.

Foreign Language
PhD students are required to demonstrate proficiency in at least one foreign language. This may be demonstrated by completing a course in the literature of that language at the 400 or 500 level (with a grade of B [3.0] or better), or by passing a foreign language exam that tests proficiency in reading comprehension and translation. PhD students may also be required to demonstrate proficiency in additional languages, as determined by the qualifying exam committee in view of the student's proposed field of research.

Literature and Creative Writing (PhD)
Application deadline: December 1
The program provides dual emphasis in literature and creative writing, culminating in the dissertation, which combines critical analysis with creative originality. Roughly half of the dissertation is based on original research, that is to say, research contributing to knowledge which enriches or changes the field. Doctoral candidates not only read and write texts as finished products of scholarship in researching their creative work's literary and historical milieu, but also consider the text as writers create it, then compose texts as writers, a process that goes to the source of the study of literature and of literature itself. This integration of literature and creative writing is reflected in the structure of the dissertation, which introduces the creative work within a context of critical inquiry, bringing together the examination and embodiment of the literary act, a new model of scholarship and creative innovation.

PhD candidates in literature and creative writing must pass the same departmental screening examination taken by PhD candidates in Literature who are not working in the area of creative writing. The exam tests students in various areas of emphasis (British literature, American literature, poetry, prose, etc.) and literature and historical periods as a measure of their preparedness to undertake independent research. The literature and creative writing student takes 64 units in all, 32 in literature, 24 in creative writing workshops and seminars and 8 units of dissertation studies credits.

Admission Requirements
Requirements for admission to study in the department of English include: scores satisfactory to the department in both the verbal and quantitative General Test and the literature Subject Test of the Graduate Record Examinations; evidence of experience and ability in creative writing, as demonstrated by a creative writing sample; evidence of competence in writing English and interpreting English literature, as demonstrated by a sample of written work by the applicant on literary subjects; a satisfactory written statement by the applicant of aims and interests in graduate work; letters of recommendation from at least three college instructors; and grades satisfactory to the department earned by the applicant at other institutions. This program will accept applicants with BA degrees or transfer students with an MA or MFA in creative writing.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Graduate Curriculum and Unit Requirements
The graduate curriculum is divided into 500-level foundation courses and 600-level advanced courses. The 500-level courses offer fundamental work in theory and in the history of British and American literatures and cultures. The 600-level courses feature advanced studies in theory, creative writing seminars and workshops and special topics. Although students will normally take 500-level courses leading up to the screening procedure (see Screening Procedure) and 600-level courses thereafter, students after consultation with their advisers may be permitted to take 600-level courses in the first semester of their graduate training.

The student's course work must total at least 64 units. No more than eight units of 794 Doctoral Dissertation and no more than four units of 790 Research may count toward the 64 units. A maximum of 12 transfer units, approved by the graduate director, is allowed toward the 64 units minimum required by the PhD (See Transfer of Course Work.)

Advisement
The student will be assigned a faculty mentor in his or her first semester in the graduate program and will be encouraged in subsequent semesters to begin putting together an informal qualifying exam committee. The makeup of the qualifying exam committee may change as the interests of the student change. The faculty mentor and informal qualifying exam committee will assist the student in planning a program of study appropriate to the student's interests leading to the screening procedure.

Screening Procedure
At the end of the student's fourth semester (second semester for students who enter with an MA or MFA degree or near equivalent), the student will sit for a departmental examination, which is part of a comprehensive screening procedure. Rarely, and only with the approval of the graduate director and the graduate committee, will a student be allowed to postpone the departmental examination and the screening procedure, and then only for one year. Prior to the screening procedure, the student will be allowed to take a maximum of four units of independent study (ENGL 590), and that independent study will normally be used to prepare for the departmental examination; all other units must be in the 500- or 600-level seminar.
Qualifying Exam Committee
Immediately following successful completion of the screening procedure, the student will nominate formally a five-member qualifying exam committee, including a chair and three other members from the English Department who are in the student's areas of interest and an outside member from another PhD-granting department. The committee must be in place and approved by the Graduate School at the time the student chooses a dissertation topic, writes the dissertation prospectus and schedules a qualifying examination.

Qualifying Examination
Following completion of course work, the student must sit for a qualifying examination, at a time mutually agreed upon by the student and the qualifying exam committee. This is a field examination given in the subject of the student's proposed dissertation research. No less than one month before the qualifying examination, the student will submit to the qualifying exam committee a dissertation prospectus. The prospectus, it is understood, will not be a polished dissertation proposal, but at a minimum it should display a strong knowledge of the subject, much of the relevant secondary material and other contexts crucial to the writing of the dissertation, and should present a workable plan of attack as well as a reasonably sophisticated understanding of the theoretical assumptions involved in the subject.

The qualifying examination will consist of both written and oral portions with special emphasis areas in creative writing. It will focus on the dissertation area and its contexts with the specific format and content of the examination being negotiated among the student and all members of the examination committee. Upon successful completion of the qualifying examination the student proceeds to the writing of the doctoral dissertation.

Dissertation
The final stage of the program is the submission of a creative dissertation that makes an original, substantial and publishable contribution to creative literature: a book of poems, a novel, a collection of short stories.

Foreign Language
PhD students are required to demonstrate proficiency in at least one foreign language. This may be demonstrated by completing a course in the language at the 400 or 500 level (with a grade of B [3.0] or better) or by passing a foreign language exam that tests proficiency in reading comprehension and translation. PhD students may also be required to demonstrate proficiency in additional languages, as determined by the qualifying exam committee in view of the student's proposed field of research.

French and Italian
The Department of French and Italian offers majors and minors in French and Francophone Studies and in Italian. The study of French or Italian involves the mastery of the languages and their literary and cultural expressions in fiction and non-fiction, dramatic, cinematic and poetic texts, as well as the study of social and political institutions in their relationship to cultural production.

The department offers a variety of classes in French and Italian, as well as some courses with readings and discussion in English to satisfy diverse needs. Topics range broadly from the study of a single author or literary genre to current events, cinema and new media, gender and postcolonial studies, and literary criticism.

Courses are kept small to allow for maximum interaction between students and professors. Students in both French and Italian work closely with their advisers to develop an appropriate course of study. This often involves study abroad. The department runs summer programs in Dijon, France and Rome, Italy; students also attend semester-long programs in Paris and Florence or Rome.

Undergraduate Degrees
Advisement

*Recipient of university-wide or school teaching award.
All French and Italian department majors should consult with the department student adviser and with our faculty adviser for French and Italian. Students should seek an appointment early in each semester so that an advisement file may be established for each student.

Honors Program - French
The BA in French with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in French in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

French Honors Society: Pi Delta Phi
Qualifications
Undergraduate students must have completed one semester of upper-division French with a minimum GPA of 3.0 in French and overall. Graduate students must be candidates for advanced degrees in French.

Sequence
A placement test is required of all students resuming French after high school courses in French.

Honors Program - Italian
The BA in Italian with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in Italian in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

Italian Honors Society: Gamma Kappa Alpha
Qualifications
Undergraduate students must have completed one semester of upper-division Italian with a minimum GPA of 3.0 in Italian and overall. Graduate students must be candidates for advanced degrees in Italian.

Sequence
A placement test is required of all students resuming Italian after high school courses in Italian.

Graduate Programs
The MA and PhD degrees in Comparative Studies in Literature and Culture (French and Francophone Studies) are offered through the Comparative Studies in Literature and Culture program.

Bachelor's Degree
French (BA)
For the lower division, FREN 250 French IV is required. The upper-division requirements include three core courses plus an additional six courses to be selected in consultation with the department adviser (no more than two of which may be in English). Of the additional six courses, at least two must be at the 400 level.

Lower Division
- FREN 250 French IV Units: 4

Upper Division (9 Courses)
Required core courses:
- FREN 300 French Grammar and Composition Units: 4
- FREN 330 Critical Writing in French Units: 4
- FREN 351 Introduction to Research in French and Francophone Cultures Units: 4

Six upper-division French courses to be chosen from the following and to include at least two 400-level courses:
- FREN 310 Media French Units: 4
- FREN 320 French Cinema Units: 4
- FREN 347 Race, Gender and Power in Francophone Literature Units: 4
- FREN 360 Business and Technical French Units: 4
- FREN 370gm Equality and Difference around the Enlightenment Units: 4
- FREN 373 Remembering Loss, Writing Memory Units: 4
- FREN 375gmw Global Narratives of Illness and Disability Units: 4
- FREN 382 Paris Avant-Gardes Units: 4 (Paris semester only)
- FREN 383 French Women Writers Units: 4
- FREN 392 Seminar in Literary and Cultural Studies Units: 4 , max 8
- FREN 393 Seminar in French Thought and Theory Units: 4
- FREN 401 Studies in Early Modernity Units: 4 , max 8
- FREN 402 Studies in Modernity Units: 4 , max 8
- FREN 403 Studies in Colonialism and Postcolonialism Units: 4 , max 8
- FREN 404 Studies in an Author Units: 4
- FREN 410 Actualités Françaises Units: 4 (Paris semester only)
- FREN 432 French Theatre Units: 4 (Paris semester only)
- FREN 445 Studies in Gender, Feminism and Sexuality Units: 4
- FREN 446 Contemporary French Thought Units: 4 , max 8
- FREN 448m France and Islam Units: 4
- FREN 449 Studies in French Civilization Units: 4 (Paris semester only)
- FREN 464 Colloquium: French Civilization Units: 4 , max 8
- FREN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 , max 12
- FREN 499 Special Topics Units: 2, 3, 4, 5, 6, 7, 8 , max 8

Honors Program
The BA in French with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in
courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in French in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

**Italian (BA)**

The upper-division requirements include one core course plus an additional five courses to be selected in consultation with the department adviser (no more than two of which may be in English). Of the additional five courses, at least two must be at the 400 level. A maximum of three courses may be completed outside the department.

**Required Courses — Lower Division**

Some or all of these courses may be waived by examination.

- ITAL 120 Italian I Units: 4
- ITAL 150 Italian II Units: 4
- ITAL 220 Italian III Units: 4
- ITAL 224 Italian Composition and Conversation Units: 4

**Upper Division (6 Courses)**

**Core course:**
- ITAL 320 Critical Writing in Italian Units: 4

**Five upper-division Italian courses to be chosen from the following:**

- ITAL 345 Contemporary Italy Units: 4 (in English)
- ITAL 350g Italian Renaissance Literature in Translation Units: 4 (in English)
- ITAL 352 The Holocaust in Italian Fiction and Film Units: 4
- ITAL 360 Italian Cinema Units: 4
- ITAL 380 Italian Women Writers Units: 4
- ITAL 381 Storytelling in the Italian Tradition Units: 4
- ITAL 382g Dante Units: 4
- ITAL 392 Seminar in Literary and Cultural Studies Units: 4
- ITAL 393 Seminar in Italian Thought Units: 4
- ITAL 402 Studies in Modernity Units: 4
- ITAL 403 Studies in Colonialism and Postcolonialism Units: 4
- ITAL 440 Futurism and Fascism in Italy Units: 4
- ITAL 461 Italian Theatre Units: 4
- ITAL 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- ITAL 499 Special Topics Units: 2, 3, 4, max 8

**Honors Program**

The BA in Italian with Honors is available to students who have an overall GPA of 3.0 and a GPA of at least 3.5 in courses counted for major credit. To complete the honors program the student must complete three 400-level courses and write an honors thesis of 25–30 pages in Italian in one of the 400-level courses. The topic of the thesis must be agreed upon with the instructor.

**French Minor**

For the lower division, FREN 250 French IV is required. The upper-division requirements include two core courses plus an additional three courses to be selected in consultation with the department adviser (no more than one of which may be in English). One of the three required upper-division courses must be at the 400 level. FREN 310 and FREN 360 may not both be taken for credit toward the minor in French.

**Lower Division**

- FREN 250 French IV Units: 4

**Upper Division (5 Courses)**

**Required core courses:**

- FREN 300 French Grammar and Composition Units: 4
- FREN 330 Critical Writing in French Units: 4

**Remaining three upper-division courses to be chosen from the following:**

- FREN 310 Media French Units: 4
- FREN 320 French Cinema Units: 4
- FREN 347 Race, Gender and Power in Francophone Literature Units: 4
- FREN 351 Introduction to Research in French and Francophone Cultures Units: 4
- FREN 360 Business and Technical French Units: 4
- FREN 370g Equality and Difference around the Enlightenment Units: 4
- FREN 373 Remembering Loss, Writing Memory Units: 4
- FREN 375gmw Global Narratives of Illness and Disability Units: 4
- FREN 382 Paris Avant-Gardes Units: 4 (Paris semester only)
- FREN 383 French Women Writers Units: 4
- FREN 392 Seminar in Literary and Cultural Studies Units: 4, max 8
- FREN 393 Seminar in French Thought and Theory Units: 4
- FREN 401 Studies in Early Modernity Units: 4, max 8
- FREN 402 Studies in Modernity Units: 4, max 8
- FREN 403 Studies in Colonialism and Postcolonialism Units: 4, max 8
- FREN 404 Studies in an Author Units: 4
- FREN 410 Actualités Françaises Units: 4 (Paris semester only)
- FREN 432 French Theatre Units: 4 (Paris semester only)
- FREN 445 Studies in Gender, Feminism and Sexuality Units: 4
• FREN 446 Contemporary French Thought Units: 4
• FREN 448m France and Islam Units: 4
• FREN 449 Studies in French Civilization Units: 4
  (Paris semester only)
• FREN 464 Colloquium: French Civilization Units: 4, max 8
• FREN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, max 12
• FREN 499 Special Topics Units: 2, 3, 4, 5, 6, 7, 8, max 8

Note:
*FREN 310 and FREN 360 cannot both be taken for credit toward the minor in French.

Italian Minor

The upper-division requirements include one core course plus an additional three courses to be selected in consultation with the department adviser (no more than one of which may be in English). Of the additional four courses, at least one must be at the 400 level.

Lower Division

Some or all of these classes may be waived by examination.
• ITAL 120 Italian I Units: 4
• ITAL 150 Italian II Units: 4
• ITAL 220 Italian III Units: 4
• ITAL 224 Italian Composition and Conversation Units: 4

Upper Division (4 Courses)

Freshman Seminars

Grace Ford Salvatori Hall, Suite 320
(213) 740-2961
dornsife.usc.edu/fsem

Director: Richard Fliegel, PhD

Freshman Seminars introduce freshmen to the larger academic world they are now entering. These small group seminars address topics of current interest in contemporary research and scholarship. Freshmen earn 2 units of baccalaureate credit through participation in these weekly seminars. Active exploration of the life of the mind is emphasized through a variety of classroom activities and assignments. To encourage the relaxed interchange of information and ideas, most seminars are graded credit/no credit. Each seminar is limited in enrollment to 18 freshmen. Freshman Seminars encourage the natural development of the mentoring relationship between faculty and students. An early start on building these connections enhances the opportunities for intellectual growth throughout the student’s years at USC. Freshman Seminars are offered for the fall and spring semesters in a variety of subjects. Individual topics are indicated by parenthetical titles in the Schedule of Classes (usc.edu/soc) under the FSEM designation or on the department’s Website (usc.edu/fsem). For further information, contact Richard Fliegel, PhD, (213) 740-2961, email: fliegel@usc.edu, or Marsha Chavarria-Winbush, (213) 740-2961, email: chavarri@usc.edu.

Freshman Seminars

FSEM 100 Freshman Seminar
Units: 2
Max Units: 4.0
terms Offered: FaSp
A seven-to-eleven week course offered for incoming freshmen; limited to 18 students.
A combined maximum of 4 units of FSEM 100 and FSEM 101 may be applied to the degree.
Instruction Mode: Lecture
Grading Option: Credit/No Credit

FSEM 101 Freshman Seminar
Units: 2
Max Units: 4.0
Terms Offered: FaSp
A seven-to-eleven week course offered for incoming freshmen; limited to 18 students. Letter graded.
A combined maximum of 4 units of FSEM 100 and FSEM 101 may be applied to the degree.
Instruction Mode: Lecture
Grading Option: Letter

FSEM 180 First Year College Seminar
Gender Studies

The Gender Studies major is designed for students drawn to the interdisciplinary study of gender and sexuality. In exploring how gender and sexuality have operated across time and cultures, students will engage with the approaches and methodologies of established disciplines: sociology, literature, history, political theory, religion; as well as interdisciplinary fields like queer studies and ethnic studies. Our curriculum analyzes how gender and sexuality operate in politics, popular culture, the workplace, health, science, sports, intimate life, and the very production of knowledge itself. Our classes emphasize that gender and sexuality are not stand-alone categories but rather take shape through their intersection with outer relations of power, including race and ethnicity, religion, class, and nationality. Majoring in Gender Studies prepares students for graduate school in the social sciences and the humanities as well as in law, business, and education. In addition, the major and each of our several minors prepare students for work in governmental and non-governmental organizations, communications and the media, arts and public service.

Faculty

Barbra Streisand Professor of Contemporary Gender Studies and Professor of History and Gender Studies: Alice Echols, PhD* (History)

Professors: Joseph Boone, PhD (English); Jack Halberstam, PhD* (American Studies & Ethnicity); Sharon Hays, PhD (Sociology); Michael Messner, PhD (Sociology); Rhacel Parrenas, PhD (Sociology); Sherry Marie Velasco, PhD (Spanish and Portuguese)

Associate Professors: Tim Biblarz, PhD (Sociology); Sheila Briggs, PhD (Religion); Ange-Marie Hancock, PhD (Political Science); Sunyoung Park, PhD (East Asian Languages and Cultures); Karen L. Tongson, PhD (English)

Assistant Professor: Katie Hasson, PhD

Gender Studies Advisory Board

Professors: Elinor Accampo, PhD (History); Lisa Bitel, PhD (History); David Cruz, PhD (Law); Diane Ghiroardo, PhD (Architecture); Pierrette Hondagneu-Sotelo, PhD (Sociology); Janet Hoskins, PhD (Anthropology); Eunice Howe, PhD (Art History); Peggy Kamuf, PhD (French and Italian); Susan McCabe, PhD (English); Azade-Ayse Rotlich, PhD (History); Eliz Sanasarian, PhD (Political Science); Hilary Schor, PhD (English); Ellen Seiter, PhD (Cinematic Arts); David Sloane, PhD (Public Policy); Melora Sundt, PhD (Education); Ruth Wallach, MLS (USC Libraries); Holly Willis, PhD (Cinematic Arts); Diane Winston, PhD (Journalism and Religion)

Associate Professors: Marjorie Becker, PhD (History); Bettine Birge, PhD (East Asian Languages and Cultures); Kim Buchanan, LLM, JSD (Law); Tracy Fullerton, PhD (Cinematic Arts); Alice Gambrell, PhD (English); Sharon Gillerman, PhD (Hebrew Union College); Kara Keeling, PhD (Cinematic Arts); Paul Lerner, PhD (History); Tara McPherson, PhD (Cinematic Arts); Lori Meeks, PhD (Religion); Sunyoung Park, PhD (East Asian Languages and Cultures)

Assistant Professors: Katie Hasson, PhD (Sociology); Diana Williams, PhD (History)

Lecturer: M.G. Lord, PhD (Professional Writing)

Administrative Associates: Susan Harris, PhD (Joint Educational Project); Brie Loskota (Center for Religion and Civic Culture)

*Recipient of a university-wide or college teaching award.

Undergraduate Degrees

Internship

A special feature of the undergraduate program is the internship, a required class for majors in which students gain valuable job skills and professional connections. Students have chosen internships related to gender and sexuality at health clinics, Hollywood studios, law offices, and the ONE Archives, the world's largest LGBTQ archive. The major also includes a capstone class, which offers students the opportunity to study intensively with a professor in her or his current area of research.

Minor in Gender and Social Justice

The minor in Gender and Social Justice is tailored for students interested in careers in the area of social policy. The minor is unique in its focus on the ways in which large-scale social and economic processes such as neoliberalism, globalization, and economic precarity are connected and gendered. Topics include gender and violence; human trafficking; migration; reproductive rights; global human rights in relation to sexual orientation and gender identity; the prison state; prostitution and sex work. Students will examine the difficulties of translating feminist theorizing into social policy.

Minor in LGBTQ Studies

The interdisciplinary minor in LGBTQ Studies establishes sexuality as a critical category of analysis for humanists and social scientists. The minor enables students to explore the shifting social organization and cultural meanings of same-sex sexuality and cross-gender identification.

Graduate Degrees

Gender Studies also offers a graduate certificate, a credential that is increasingly necessary for tenure-track positions in gender and sexuality departments and in disciplines searching in the area of gender and sexuality. We encourage graduate students to participate in conferences and to organize campus lectures. Travel grants are available through the program as
well. Students can apply to mentoring workshops run by the program and the Center for Feminist Research.

**Bachelor's Degree**

**Gender Studies (BA)**

**Lower Division**

For the lower division, one of the following courses may be selected as the requirement:

- SWMS 210gmw Social Analysis of Gender Units: 4
- SWMS 212g Studies in Gender and Sexuality: An Introduction Units: 4
- SWMS 215gp Gender Conflict across Cultural Contexts Units: 4

**Upper Division**

For the upper division, 32 units of SWMS courses, including SWMS 301, SWMS 311 and SWMS 410, are required.

- SWMS 301gm Feminist Theory: An Introduction Units: 4
- SWMS 311 Gender Studies and the Community: Internship Units: 4
- SWMS 410 Senior Seminar in Gender Studies Units: 4

**Honors Program Requirements**

The Gender Studies Program offers a two-semester honors program, in which qualified students spend their first semester in an honors track in an upper-division seminar, usually SWMS 410 Senior Seminar in Gender Studies. During the second semester, all honors students are required to take SWMS 492 Honors Thesis, in which each completes a thesis project on a topic of his or her choosing under faculty direction. Contact the departmental honors director for further information. To graduate with honors, department majors must have a minimum GPA of 3.5 in their major course work.

**Minor**

**Gender and Social Justice Minor**

The minor in gender and social justice provides students with the intellectual foundation and practical skills necessary to tackle inequality and injustice as they relate to gender and sexuality in today's increasingly global world. This minor prepares students for employment in nonprofit organizations, politics, government agencies, cultural reporting and socially conscious niches within the entertainment industry. Twenty units of course work are required to complete the minor in gender and social justice: SWMS 210, SWMS 212 or SWMS 215; SWMS 310; and three additional four-unit, upper-division courses.

**Required Course - Lower Division (4 Units)**

- SWMS 210gmw Social Analysis of Gender Units: 4
- SWMS 212g Studies in Gender and Sexuality: An Introduction Units: 4

**Required Course - Upper Division (4 Units)**

- SWMS 310 Gender and Social Justice Units: 4

**Electives - Upper Division (12 Units)**

- IR 316 Gender and Global Issues Units: 4
- POSC 381 Sex, Power, and Politics Units: 4
- SOCI 402 Human Trafficking Units: 4
- SWMS 301 gm Feminist Theory: An Introduction Units: 4
- SWMS 311 Gender Studies and the Community: Internship Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4
- SWMS 349 Women and the Law Units: 4
- SWMS 384m Gender, Social Inequality, and Social Justice Units: 4
- SWMS 385m Men and Masculinity Units: 4

**Gender Studies Minor**

The program offers a minor for students specializing in other disciplines. Twenty units of course work are required for completion of the minor in gender studies: SWMS 210, SWMS 212 or SWMS 215; SWMS 301, SWMS 410; and two additional 4-unit upper-division SWMS courses. Since many SWMS courses are cross-listed, the two elective upper-division courses must be from two different departments.

**LGBTQ Minor**

The LGBTQ Studies minor focuses on how sexuality and sexual orientation shape gender identities, roles and status in societies past and present. Twenty units of course work are required for completion of the LGBTQ Studies minor: SWMS 210, SWMS 212 or SWMS 215; SWMS 306; and 12 units of upper-division electives.

**Required Course – Lower Division (4 Units)**

- SWMS 210gmw Social Analysis of Gender Units: 4 or
- SWMS 212g Studies in Gender and Sexuality: An Introduction Units: 4 or
- SWMS 215gp Gender Conflict across Cultural Contexts Units: 4

**Required Course – Upper Division (4 Units)**

- SWMS 306 Introduction to LGBTQ Studies Units: 4

**Upper-Division Electives (12 Units)**

- ENGL 478m Sexual/Textual Diversity Units: 4
- HIST 302 From Sappho to Stonewall: Lesbians in History Units: 4
- SOCI 437 Sexuality and Society Units: 4
University Certificate
Gender Studies Graduate Certificate

Graduate students intending to concentrate in gender studies must be admitted to a USC graduate or professional program. While meeting the requirements for a departmental graduate degree, they may earn a certificate of competency in gender studies. To earn a certificate, students must take SWMS 560 and other courses from the SWMS list of graduate level courses, 500 and above, to a total of at least 12 units. No more than four units of directed research may be taken and those units must be taken as SWMS 590. Each academic department will determine the number of units completed which may be applied to the student's graduate degree in that department.

In addition to the completion of course requirements, students must include a focus on gender as part of their major department master's thesis, doctoral dissertation or law review note. Or they may take an oral examination on three research papers they have written within the areas of gender studies and on relevant graduate work pertaining to the field of gender studies. The oral exam will be administered by members of the Gender Studies faculty. A Gender Studies faculty member will be assigned as an adviser for each student. Gender Studies faculty will be responsible for judging the adequacy of the gender studies analysis in the student's thesis, dissertation or oral examination.

Emeritus Associate Professor: Cornelius Schnauber, PhD

The USC Dornsife College of Letters, Arts and Sciences offers a variety of courses from basic and advanced language classes to literature classes and general and cultural topics.

Note: Students are no longer being admitted as majors in German. See also Slavic Languages and Literatures.

Required Courses, Upper-Division
Four courses — 16 units in the two areas of concentration.

One course from the following:

• GERM 310 Business German I Units: 4 *
• GERM 311 Business German II Units: 4 *
• GERM 470 Advanced Composition and Stylistics Units: 4

Note:
*Prerequisite: GERM 201 or the equivalent by test.

Three elective courses from the following:
(only one course each from HIST and IR may be counted toward the minor):

• GERM 320 Composition and Conversation on Contemporary Affairs Units: 4
• GERM 325 Composition and Conversation in Cultural History Units: 4
• GERM 330 Introduction to Literary Studies Units: 4
• GERM 346 German Folklore and Popular Culture Units: 4
• GERM 352 Colloquium on Poetry Units: 4
• GERM 353 Colloquium on Prose Units: 4
• GERM 360g 20th Century German Prose: Texts and Films Units: 4

Minor

German Minor

Required Courses, Lower-Division

• GERM 101 German I Units: 4
• GERM 102 German II Units: 4
• GERM 201 German III, Conversation and Composition Units: 4
• GERM 221 Conversational German IV Units: 4, or the equivalent by test

Bachelor's Degree

Health and Humanity (BA)
The Bachelor of Arts in Health and Humanity is a liberal arts degree. It is intended for students interested in fields that inform the health professions and in related questions about health and human experience. Courses in this interdisciplinary major meet many of the requirements for admission to the professional programs in medicine, nursing and other fields, but do not meet all of those entrance requirements. Some electives in this major have prerequisites in mathematics and physics that cannot be counted toward the 36-unit requirement in major electives. Students should consult their academic advisers for precise information on prerequisites and admission requirements for specific health fields.

Summary of Requirements
Core: 24 units; experiential learning: 1–4 units; major electives: one thematic module 16–20 units, other electives 16–20 units; total requirements: 61–64 units including at least 36 upper-division units plus prerequisites for certain electives.

Core (16 Lower-Division, 8 Upper-Division)
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
• BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
• BISC 320L Molecular Biology Units: 4
• CHEM 105aLg General Chemistry Units: 4 or
• CHEM 105bL General Chemistry Units: 4
• CHEM 115aLg Advanced General Chemistry Units: 4
• HIST 323 The Holocaust in 20th Century Europe Units: 4
• HIST 414 Contemporary Europe Units: 4
• HIST 427 The German Question: Nation and Identity in Modern Central Europe Units: 4
• HIST 428 Life and Death in Nazi Germany Units: 4
• IR 369 Post-War European Relations Units: 4
• IR 385 European Foreign Policy and Security Issues Units: 4
• IR 468 European Integration Units: 4
• POSC 463 European Politics Units: 4
• HBIO 300 Evolution, Ecology, and Culture Units: 4

Experiential Learning (1–4 Units)
Choose one course. A health-related internship is required:
• AMST 365 Leadership in the Community — Internship Units: 4
• GER 495 Practicum in Geriatric Care Units: 4
• MDA 250 Internship for Liberal Arts: Work and Career — Theory and Practice Units: 1, 2, max 4
• POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8 (4 Units Required)
• SWMS 311 Gender Studies and the Community: Internship Units: 4

Major Electives
Choose one complete thematic module from the list below (16–20 units). Then choose additional electives from the list of modules to equal nine courses (36 units) in all. No more than two courses may be lower-division (100- or 200-level). At least two courses must come from Group A and two courses from Group B.

Group A
Bioethics Module (16 units)
• ANTH 305 Childhood, Birth and Reproduction Units: 4 or
• POSC 333 Stigma and Society: Physical Disability in America Units: 4 or
• SOCI 475 Medical Sociology Units: 4 or
• GER 475 Ethical Issues in Geriatric Health Care Units: 4 or
• OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation Units: 4
• REL 319 Religious and Ethical Issues in Death and Dying Units: 4 or
• REL 341 Technology, Culture, and Ethics Units: 4 or
• REL 360 Ethical Issues in the New Medical Revolution Units: 4

• CHEM 115bL Advanced General Chemistry Units: 4

• HBIO 300 Evolution, Ecology, and Culture Units: 4
• REL 460 Senior Seminar: Medical Ethics Units: 4

Health, Gender and Ethnicity Module (16 units)
• ANTH 125g Social Issues in Human Sexuality and Reproduction Units: 4 or
• SWMS 225 Gender, Sex, and Science: A Gender Studies Approach Units: 4
• ANTH 305 Childhood, Birth and Reproduction Units: 4 or
• HBIO 405 Evolutionary Medicine Units: 4
• PSYC 462m Culture and Mental Health Units: 4
• SWMS 336 Health, Gender and Ethnicity Units: 4 or
• SWMS 420 Woman, Nature, Culture: The Behavioral Ecology of Women Units: 4

Health and Aging Module (16 units)
• GER 32g Psychology of Adult Development Units: 4 (Recommended preparation: PSYC 100), or
• GER 330 Society and Adult Development Units: 4
• GER 340 Policy, Values, and Power in an Aging Society Units: 4 or
• GER 437 Social and Psychological Aspects of Death and Dying Units: 2 or 4
• GER 380m Diversity in Aging Units: 4 or
• GER 435m Women and Aging: Psychological, Social and Political Implications Units: 4
• GER 416 Health Issues in Adulthood Units: 4

Health and the Mind Module (20 units)
• PSYC 100Lg Introduction to Psychology Units: 4 or
• PSYC 320 Principles of Psychobiology Units: 4
• PSYC 326 Behavioral Neuroscience Units: 4
• PSYC 336L Developmental Psychology Units: 4
• PSYC 360 Abnormal Psychology Units: 4 or
• PSYC 404L Psychophysiology of Emotion Units: 4
• PSYC 361 Introduction to Clinical Psychology Units: 4 or
• PSYC 462m Culture and Mental Health Units: 4

Global Health Module (20 Units)
• ANTH 101g Illness and Healing: The Cross-Cultural Perspective Units: 4 or
• ANTH 105g Culture, Medicine and Politics Units: 4
• ANTH 305 Childhood, Birth and Reproduction Units: 4 or
• HBIO 405 Evolutionary Medicine Units: 4
• IR 305w Managing New Global Problems Units: 4 or
• IR 382w Order and Disorder in Global Affairs Units: 4
• IR 306 International Organizations Units: 4 or
• IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
• IR 344 Developing Countries in World Politics Units: 4

Group B

Biological Sciences Module (20 units)
• BISC 290 Introduction to Biological Research Units: 2 or 4 (4 Units Required) (lab assignment required) or
• BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 (4 Units Required) (lab assignment required)
• BISC 325 Genetics Units: 4 or
• BISC 330L Biochemistry Units: 4
• CHEM 322aL Organic Chemistry Units: 4
• CHEM 322bL Organic Chemistry Units: 4 or
• CHEM 325aL Organic Chemistry Units: 4
• CHEM 325bL Organic Chemistry Units: 4
• MATH 208x Elementary Probability and Statistics Units: 4

Biochemistry Module (20 units)
• BISC 330L Biochemistry Units: 4
• CHEM 300L Analytical Chemistry Units: 4
• CHEM 322aL Organic Chemistry Units: 4
• CHEM 322bL Organic Chemistry Units: 4 or
• CHEM 325aL Organic Chemistry Units: 4
• CHEM 325bL Organic Chemistry Units: 4
• CHEM 432 Physical Chemistry for the Life Sciences Units: 4 or
• BISC 403 Advanced Molecular Biology Units: 4 or
History

The Department of History offers courses in ancient, medieval and modern European history, including Russian history; in both North and Latin American history; in the history of East Asia; and in world history. Some of the department's courses are chronological, some national or regional and some are thematic, with special strengths in gender, race and ethnicity, popular culture, medicine and urban history. The faculty is committed to continuous review and revision of the department curriculum, as student needs and professional emphases shift. Many departmental courses meet general education requirements, and various programs for majors and non-majors are available. The department offers an honors program for qualified seniors. Honors programs are individually arranged through consultation with the honors director, and completion of an honors thesis is required. The Department of History offers the BA, a minor, the MA and PhD in History; the BA in Law, History, and Culture; the BA in History and Social Science Education; and the minor in Resistance to Genocide; and, the minor in the Culture; the BA in History and Social Science Education; and the minor in the History o

Undergraduate Degrees

Advisement

The Department of History has one full-time staff adviser available to provide academic advisement, assist in the navigation of Department and University requirements, review progress and future plans. Students interested in a major or minor in the Department should contact the adviser to schedule a meeting. Faculty Advisers are also available to offer guidance on pursuing the field of history both within and beyond USC.

Honors Program for History (BA)

The department offers a two-semester honors program, in which qualified students spend their first semester in an honors track in an upper-division seminar or take HIST 490x Directed Research in their concentration. During the second semester, all honors students are required to take HIST 492 Honors Thesis in which each completes a thesis project on a topic of his or her choosing under faculty direction. Contact the department honors director for further information. To
graduate with honors, department majors must have a minimum GPA of 3.5 in their major course work.

**Honors Program for History and Social Science Education (BA)**
The department offers a two-semester honors program, in which qualified students spend their first semester in an honors track in an upper-division seminar on HIST 490x Directed Research in their concentration. During the second semester, all honors students are required to take HIST 492 Honors Thesis in which each completes a thesis project on a topic of his or her choosing under faculty direction. Contact the department honors director for further information. To graduate with honors, department majors must have a minimum GPA of 3.5 in their major course work.

**Honor Society**
The department sponsors its own local chapter of Phi Alpha Theta, the national history honor society. Phi Alpha Theta provides opportunities for students to take their interest in history beyond the classroom and to cultivate their intellectual pursuits in a community setting. Membership is open to history majors and other interested students with a 3.33 GPA in history courses and a 3.0 overall GPA. For more information contact the honors director.

**Teaching Credential Requirements**
Credential requirements in California and elsewhere are complex and changeable. Students interested in preparing for public school teaching should contact the Credentials Office, Rossier School of Education, and the undergraduate adviser, Department of History, for up-to-date information.

**Interdisciplinary Minor in Early Modern Studies**
This minor brings together the resources of the departments of English, History and Art History to study the literatures and cultures of Europe and the Americas from the late medieval period to 1800. For a complete listing of requirements, see Department of English.

**Interdisciplinary Middle East Studies Minor**
See the Department of Middle East Studies.

**Interdisciplinary Race, Ethnicity and Politics Minor**
See Department of Political Science.

**Interdisciplinary Russian Area Studies Minor**
See Department of Slavic Languages and Literatures.

**Interdisciplinary Law and Society Minor**
See Department of Political Science.

**Graduate Degrees**
The graduate program in History offers a rigorous course of study that balances depth in particular fields with a broad, transnational, and interdisciplinary perspective. We train our students in historical methods, research, critical analysis of written and visual sources, historical writing, and historical pedagogy through intensive reading courses, seminars, and tutorials. This training culminates in the PhD dissertation, a significant scholarly and historiographical contribution to the study of a field.

**Admission Requirements**

**Prerequisites**

An applicant should have an undergraduate degree or an MA degree in history or a related discipline. Promising students trained in other fields will also be considered.

**Criteria**
All applicants must take the general test of the Graduate Record Examinations. The subject test in history is not required. In addition, applicants must submit at least three letters of recommendation from college-level instructors and a sample of written work from a college-level history, social science or humanities course. This material should be submitted to the director of the graduate program for the Department of History.

**Procedure**
For complete information on the doctoral program, prospective applicants should address inquiries to Graduate Admission, Department of History, SOS 153, University of Southern California, Los Angeles, CA 90089-0034.

Information on the programs is also available online at usc.edu/schools/college/history/programs/graduate.

**Degree Requirements**
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

**Advisement**
Students should seek advice on their program of studies from the Director of Graduate Studies, a professor in their major field of study and other members of their qualifying exam committee.

**Bachelor's Degree History (BA)**

The Bachelor of Arts in History requires students to take 10 courses (40 units).

**Lower-Division Requirements**
All majors are required to complete HIST 201, Approaches to History. It is recommended that students complete HIST 201 early in their course of study.

Three additional lower-division geographic survey courses are required and must include at least one 100-level course and one 200-level course. Majors must complete a lower-division course in each of the following geographic distributions: Asia and Eurasia, Europe, and North and Latin America. The Department of History will accept scores of 4 or 5 on either Advanced Placement European History or Advanced Placement American History as a substitute for one geographic survey course requirement at the 100-level.

**Upper-Division Requirements**
Six upper division courses are required, of which at least two must be a 400-level seminar. A minimum of three courses, one of which must be a 400-level seminar, must pertain to a thematic, temporal or geographic concentration, which must be approved by a faculty adviser. No more than 4 units of HIST 490 Directed Research may be counted as satisfying the upper-division seminar requirement.

**Temporal Breadth Requirements**
For temporal breadth, at least one of the 10 required courses must be taken from approved course work in each of the

378
three following time periods: before 1300, 1300–1800 and 1800-present. Students may refer to the department Website, STARS Report, and/or faculty or staff adviser to assist with determining the courses that meet these requirements.

History and Social Science Education (BA)

This degree is designed for students who are interested in a career in secondary school teaching. The courses chosen reflect the content of subjects taught in high schools and middle schools in California and therefore should be useful for those contemplating the profession of teaching history and social studies. It does not, however, provide a waiver of the CSET examination.

Required Courses

- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- HIST 201 Approaches to History Units: 4
- HIST 488 Teaching History in the Secondary Schools Units: 4

Additional Requirements

Surveys of U.S. and World History

Choose three from the following:

- HIST 100gm The American Experience Units: 4
- HIST 240gp The History of California Units: 4
- HIST 349 Colonial North America 1600–1760 Units: 4
- HIST 360 19th Century U.S. History Units: 4
- HIST 361 20th Century U.S. History Units: 4
- HIST 440 Early Modern World History Units: 4
- HIST 441 Modern World History Units: 4

Pre-modern World History

Choose one of the following:

- HIST 101g State and Society in the Ancient World Units: 4
- HIST 102gm Medieval People: Early Europe and Its Neighbors, 400–1500 Units: 4
- HIST 103g The Emergence of Modern Europe Units: 4
- HIST 180g The Middle East Units: 4
- HIST 275g The Worlds of the Silk Road Units: 4
- HIST 335 History of Japan to 1550 Units: 4
- HIST 338 China to 960 A.D. Units: 4
- HIST 339 China, 960–1800 A.D. Units: 4
- HIST 369 Aztecs, Mayas, and other Indigenous Peoples of the Americas Units: 4
- HIST 382 The Middle East, 500–1500 Units: 4

Modern World History

Choose one of the following:

- HIST 104gp Modern Europe Units: 4
- HIST 333 Korea: The Modern Transformation Units: 4
- HIST 336 History of Japan, 1550–1945 Units: 4
- HIST 340 History of China since 1800 Units: 4
- HIST 370 Spanish America, 1492–1821 Units: 4
- HIST 372 Modern Latin America Units: 4
- HIST 383 The Modern Middle East Units: 4

Political Science

Choose one of the following:

- POSE 100 Theory and Practice of American Democracy Units: 4
- POSE 300 Principles, Institutions, and Great Issues of American Democracy Units: 4
- POSE 340 Constitutional Law Units: 4

Required Capstone Seminar

(see under "required courses")

A capstone seminar, HIST 488 Teaching History in the Secondary Schools, will be taught by a member of the history department and will focus on the ways in which historical research is brought into middle and high school curriculum. Seminar participants will examine textbooks and other materials designed for history instruction; engage in independent research; write curriculum and/or classroom units or lesson plans; and visit classrooms to assist with history instruction in the schools.

Honors Thesis

In addition to the 10 courses required for the major, students pursuing departmental honors must complete one additional course, HIST 492 Honors Thesis. This course will be taught by a history department faculty for select students choosing to research and write an honors thesis.

- HIST 492 Honors Thesis Units: 4

Combined Major

Law, History, and Culture (BA)

This major is designed for students drawn to interdisciplinary study of legal and cultural issues, as well as those who intend to pursue a law degree. It offers students an interdisciplinary education in legal institutions, languages and processes that are central to social, cultural and political developments in the past and present, and play a critical role in shaping our most basic concepts and categories of thought and identity. It combines approaches from history, literature, philosophy, legal theory, religion and classical studies to explore the law's position at the nexus of society. The major will help students develop the critical skills of reading, writing and analysis crucial to both a liberal education and the study of law. Students will gain theoretical and analytical perspectives on ethical, political and social issues relevant to law as they explore specific legal issues from a humanistic perspective.

Required Courses

This major requires 18 units in the following courses. Majors must complete all courses listed in Category 1 and seven courses from Category 2.

Category 1:

(All courses required.)
• LAW 101gw Law and the U.S. Constitution in Global History Units: 4
• LAW 300 Concepts in American Law Units: 4

Category 2:
(Seven courses required.)
• AMST 101gmw Race and Class in Los Angeles Units: 4
• AMST 320 Social Construction of Race and Citizenship Units: 4
• AMST 342m Law and Identities Units: 4
• AMST 353m Race and Racism in the Americas Units: 4
• AMST 357m Latino Social Movements Units: 4
• AMST 389m Carceral Geographies Units: 4
• ANTH 345 Politics, Social Organization, and Law Units: 4, 2 years
• CLAS 305 Roman Law Units: 4
• CLAS 307 Law and Society in Classical Greece Units: 4
• CLAS 320gmp Diversity and the Classical Western Tradition Units: 4
• CLAS 333 Cult and City in Ancient Greece Units: 4
• CLAS 340 Ethics and Politics in Ancient Rome Units: 4
• CLAS 348g Athens in the Age of Democracy and Empire Units: 4
• CLAS 370 Leaders and Communities: Classical Models Units: 4
• CLAS 470 Democracies Ancient and Modern Units: 4
• COLT 385 Literature and Justice Units: 4
• COLT 472 Los Angeles Crime Fiction Units: 4
• COLT 475 Politics and the Novel Units: 4
• COLT 476 Narrative and the Law Units: 4
• ENGL 355g Anglo-American Law and Literature Units: 4
• ENGL 472 Literature and Related Arts Units: 4
• ENGL 474m Literature, Nationality and Otherness Units: 4
• ENGL 481 Narrative Forms in Literature and Film Units: 4
• HIST 210gw How to Be An American: Global Histories of U.S. Citizenship Units: 4
• HIST 220 Murder on Trial in America Units: 4
• HIST 265gw Racism, Sexism, and the Law Units: 4
• HIST 312 The Age of the French Revolution and Napoleon Units: 4
• HIST 323 The Holocaust in 20th Century Europe Units: 4
• HIST 351 The American Revolution Units: 4
• HIST 355 The African-American Experience Units: 4
• HIST 377 Law and Society in Premodern China and Japan Units: 4
• HIST 385 Anglo-American Law before the 18th Century Units: 4
• HIST 386 American Legal History Units: 4
• HIST 453 The Age of Emancipation Units: 4
• HIST 455 Advanced Topics in African-American History Units: 4
• HIST 463 The Constitutional History of the United States Units: 4
• HIST 470 The Spanish Inquisition in the Early Modern Hispanic World Units: 4, 2 years
• JS 342 Reading in Two Directions: Connecting Law and Literature in Jewish Tradition Units: 4
• PHIL 330 Theories of Law Units: 4
• PHIL 430 Philosophy of Law Units: 4
• PHIL 431 Law, Society, and Politics Units: 4
• POSC 130g Law, Politics and Public Policy Units: 4
• POSC 340 Constitutional Law Units: 4
• POSC 345 International Law Units: 4
• POSC 370 European Political Thought I Units: 4
• POSC 371 European Political Thought II Units: 4
• POSC 374 The American Founders: Visions, Values and Legacy Units: 4
• POSC 375 American Political Thought Units: 4
• POSC 377 Asian Political Thought Units: 4
• POSC 380 Political Theories and Social Reform Units: 2 or 4
• POSC 426 The United States Supreme Court Units: 4
• POSC 441m Cultural Diversity and the Law Units: 4
• POSC 443 Law in Film Units: 4
• POSC 444 Civil and Political Rights and Liberties Units: 4
• REL 360 Ethical Issues in the New Medical Revolution Units: 4
• REL 414 History of Islamic Law Units: 4
• SOCI 351 Public Policy and Juvenile Justice Units: 4
• SOCI 353 Public Policy and Criminal Justice Units: 4
• SWMS 349 Women and the Law Units: 4
• SWMS 355 Transgender Studies Units: 4

Minor
History and Culture of Business Minor
The minor in the history and culture of business is available to all students in all schools and departments. It is designed
to cultivate an understanding of business as it is embedded in changing cultural, social and political environments in the United States and around the globe. Completion of the minor requires twenty units; four units at the lower division and sixteen units at the upper division. At least eight units must be from Department of History course offerings. Interested students should meet with the undergraduate adviser for the Department of History.

**Lower-Division Requirements**

Choose one course (4 units)*

- ECON 203g Principles of Microeconomics: 4
- ECON 205g Principles of Macroeconomics: 4
- HIST 215g Business and Labor in America: 4
- HIST 266gp Business and East Asian Culture, 1800-Present: 4

*ECON 351 or ECON 352 may be substituted for the lower-division requirement.

**Upper-Division Requirements**

Choose four courses (16 units), at least one from each of the groups below.

**Corporate Culture**

- ECON 330 The Political Economy of Institutions Units: 4
- ECON 348g Current Problems of the American Economy Units: 4
- ENST 387 Economics for Natural Resources and the Environment Units: 4
- FBE 431 Financial Policies and Corporate Governance Units: 4
- HIST 343 Work, Leisure, and Violence in Industrializing America: 4
- HIST 348 The Dynamics of American Capitalism Units: 4
- HIST 442 The Ethics of Financial and Political Accountability Units: 4
- IR 324 Multinational Enterprises and World Politics Units: 4
- IR 329 The Global Finance and Monetary Regime Units: 4
- IR 369 Post-War European Relations Units: 4
- MOR 385gm Business, Government and Society Units: 4
- MOR 421 Social and Ethical Issues in Business Units: 4
- MOR 466 Business and Environmental Sustainability Units: 4

**Consumer Culture**

- COMM 363 Media Consumption Units: 4
- COMM 433 Home Entertainment Units: 4
- HIST 380 American Popular Culture Units: 4
- MKT 450 Consumer Behavior and Marketing Units: 4
- MOR 472 Power, Politics and Influence Units: 4
- PSYC 456 Conservation Psychology Units: 4
- REL-375 Conflict and Change and the Ethics of Business Units: 4

**Global and Regional Culture**

- BU CO 333m Communication in the Working World — Managing Diversity and Conflict Units: 4
- BU CO 460 International Business Communication Units: 4
- ECON 340 Economics of Less Developed Countries Units: 4
- ECON 342 Economic Development of the Middle East Units: 4
- ECON 343 Economic Development of East Asia Units: 4
- ECON 344 Economic Development of Sub-Saharan Africa Units: 4
- ECON 346 Economics of Transition and Development: China Units: 4
- ECON 350 The World Economy Units: 4
- HIST 424 Family, Work, and Leisure in Russian History Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 331 The Global Economy 2030 Units: 4
- IR 333 China in International Affairs Units: 4
- IR 360 International Relations of the Pacific Rim Units: 4
- IR 363 Middle East Political Economy Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- IR 367 Africa in International Affairs Units: 4
- IR 426 Trade Politics in the Western Hemisphere Units: 4
- IR 439 Political Economy of Russia and Eurasia Units: 4
- MOR 468 Cross-Cultural Negotiations: Communication and Strategy Units: 4

**History Minor**

The minor in history is available to students in all schools and departments. The study of history deepens our understanding of peoples and societies and expands our knowledge of important issues operative in the world today. History minors will strengthen their skills in critical thinking, assessing evidence, and formulating clear and persuasive arguments both oral and written. History is essentially a laboratory of human experience, and students from a wide range of disciplines can discover new perspectives on their own intellectual interests through the study of the past.
**Course Requirements**

The minor requires five courses (20 units); at least four must be at the upper-division level. As with all minors, students must choose at least four courses (16 units) outside their major department and four courses (16 units) that are not being used to satisfy any other subject requirement.

**Lower-Division Requirement**

Choose one course (4 units) from the following list:

**List A**

- JS 211 gw The Holocaust Units: 4
- POSC 248 gw Human Rights Units: 4
- POSC 260 Global Ethnic Politics Units: 4

**Upper-Division Requirements**

Choose four courses (16 units) from the lists below, at least one from each list:

**List B — Representations of Genocide**

- COLT 485 The Shoah (Holocaust) in Literature and the Arts Units: 4
- ENGL 444m Native American Literature Units: 4
- FREN 373 Remembering Loss, Writing Memory Units: 4
- ITAL 352 The Holocaust in Italian Fiction and Film Units: 4
- JS 362 Terror and Resistance in Literature and the Media Units: 4
- MUSC 430m Music and the Holocaust Units: 4

**List C — The Reality of Genocide**

- ANTH 357g Cultures of Genocide Units: 4
- HIST 323 The Holocaust in 20th Century Europe Units: 4
- HIST 428 Life and Death in Nazi Germany Units: 4
- IR 313 Religions and Political Violence Units: 4
- JS 315g Anti-Semitism, Racism and Other Hatreds Units: 4
- MDA 330 The Armenian Heritage: History, Arts, and Culture Units: 4
- POSC 366 Terrorism and Genocide Units: 4
- PSYC 453 Intergroup Relations Units: 4 *

**List D — Capstone Courses: Resisting Genocide**

- HIST 444 Mass Violence and Comparative Genocide in Modern World History Units: 4
- HIST 446 Resistance to Genocide Units: 4
- IR 437 Comparative Genocide Units: 4

**Note:**

*Prerequisite: PSYC 355

**Master's Degree**

**History (MA)**

The department does not accept applicants for a Master of Arts degree in history. The MA degree is intended only as a transitional degree in the process of completing requirements for the PhD in history.

**Foreign Language/Research Tool Requirement**

Students are required to demonstrate competence in one foreign language, with the exception that none is required of majors in United States history.

**Course Requirements**

All students must enroll in HIST 500 Introduction to Graduate Historical Studies, and it is recommended that it be completed in the first year of residence.

**Thesis Plan**

Students must take a minimum of six graduate courses, including HIST 500 plus HIST 594a, HIST 594b Master's Thesis. No more than two 400-level courses may count toward this total. A thesis must be written and defended.

**Comprehensive Examination Plan**

This plan requires the approval of the student's master's committee chair to substitute a comprehensive examination for the thesis. If approved, the student completes eight graduate level courses, including 500, with no more than two 400-level courses counting toward this total, plus written exams in three fields, one of which may be in another department. Examinations are normally offered in October and April. An oral examination may be given at the discretion of the master's committee. Examinations are graded on an honors, pass or fail basis. Any student who receives a grade of fail in two examinations is considered as not having qualified for the degree. A student who receives one fail must retake an examination in that field at the next
scheduled examination period. An examination cannot be retaken more than once.

**Doctoral Degree**

**History (PhD)**

Application deadline: December 1

The history profession nationwide combines a traditional emphasis on geo-temporal fields (e.g., U.S. in the 19th century; medieval Europe) with a new emphasis on transnationalism, comparative history and interdisciplinary investigation. The USC program is at the forefront of these trends. Following the traditional emphasis, each graduate student must declare a major field in a geo-temporal area at the time of application to the program. Major fields of study include: China, Japan, Korea, Latin America, Middle East, American/United States, medieval Europe, early modern Europe and modern Europe. The purpose of the major field is to prepare students broadly for teaching and research. By the beginning of his or her second year in the program, each graduate student must declare a minor field and an area of specialization. The minor field is intended to broaden skills beyond the geo-temporal boundaries of the major field; the area of specialization is intended to deepen the student’s scholarly training in the chosen area of the dissertation. The minor field may be chosen from the list of major fields (i.e., a student entering the program with American/U.S. as a major field might select "modern Europe" as a minor field), or it may be conceived comparatively, thematically or cross-disciplinarily. Possible minor fields include: Latin America; premodern Japan; the colonial Americas; gender and sexuality; visual culture; and anthropology. Possible fields for the area of specialization include: 19th or 20th century U.S. intellectual history; visual culture of the 20th century; modern European cities; and the American West. These lists are not exhaustive and are meant to suggest only possible courses of study.

For the major field, each student must take a minimum of four courses; for the minor field two courses; for the area of specialization three courses. Either the minor field or the area of specialization must be outside the major field of study, transnational or outside the discipline of history. Each student must consult with his or her adviser in putting together these fields of study.

**Foreign Language/Research Tool Requirements**

Students are required to demonstrate competence in two foreign languages to be selected in consultation with the faculty adviser. Students in United States history may substitute competence in quantitative methods for one foreign language. The requirements in this category must be met before a student is eligible to take the qualifying examination.

**Course Requirements**

All entering students (including those with MA degrees) are required to take HIST 500 in their first semester of study. All students are required to take two 600-level research seminars in the History Department. At least one of these seminars must be in the major area of study. Students must complete a minimum of 60 units of course work. No more than 8 units of the 60 may be in HIST 794a, HIST 794b, HIST 794c, HIST 794d, HIST 794z (dissertation writing). Students must complete at least 30 units of graduate course work within the History Department.

**Screening Procedures**

The performance of every doctoral student is formally evaluated by the full faculty of the History Department, normally at the end of the spring semester and before a student has completed 24 units toward the degree. Unsatisfactory progress toward the degree requires either remedy of the deficiencies or termination of the student's graduate program. After successfully passing the screening procedures, each student establishes a qualifying exam committee which then supervises preparation for the qualifying examination.

**Qualifying Exam Committee and Qualifying Examinations**

Each student must set up a qualifying exam committee by the end of the third semester in residence. It includes at least five members, at least three of them from the History Department, and at least one of them from outside the History Department (this person must be a tenure-track faculty member from a PhD granting program). The qualifying exam committee will oversee the student's written and oral qualifying examination, which should be taken by the end of his or her fifth semester in residence and no later than the end of the sixth semester. The examination covers the major field, minor field and area of specialization. Students prepare for these exams by developing, in collaboration with their qualifying exam committee, reading lists for study in their major field, minor field and area of specialization.

The qualifying examination consists of two parts: (1) Three four-hour written responses, based, respectively, on the major field, the minor field and the area of specialization; (2) a two-hour oral session, which may include some discussion of the written exam. Students with one fail or more than two low-pass grades on the written responses will not be permitted to sit for the oral segment of the examination. The qualifying exam committee determines whether a student may retake any parts of the examination graded low-pass or fail. A student must wait at least six, but not more than nine, months to retake any part, or all, of the qualifying examination. No part of the examination can be retaken more than once.

**Dissertation**

After students have successfully completed their qualifying examinations, they will select a dissertation committee consisting of at least three members, including at least two from the History Department. These individuals will be in charge of guiding the dissertation to completion. Within six months of passing the qualifying examination, students must submit a formal dissertation prospectus to all members of the dissertation committee and pass a one-hour prospectus defense convened by that committee. Some students (e.g., those whose major field is East Asia) can, with the approval of their dissertation committee, petition the Graduate Studies Committee for an extension of this six-month deadline. After passing the dissertation prospectus defense, a student is admitted to candidacy for the PhD degree. The student will thereafter concentrate on the dissertation. After a student becomes a doctoral candidate, he or she must register for

Interdisciplinary Major

The interdisciplinary major allows students to create an individual, original major. It is a flexible option available when a combination of existing majors and academic minors does not adequately fulfill a student's educational goals. With close advisement, students can build their own programs of study.

The interdisciplinary major is an intensive research program for students with a focused interest in a topic that requires study from more than one disciplinary perspective. Interdisciplinary majors are usually self-motivated students with good writing skills and an intellectual passion for a particular area of inquiry. Course work is selected to lead to a thesis project integrating the areas of research comprising the interdisciplinary major.

Admission

Admission to the interdisciplinary major is by application. Applications, which may be obtained from the program office, are considered by a special admissions committee. Interested students must have a GPA of 3.0 (A = 4.0) or above; those with less than a 3.3 are the exception. No one is usually admitted after the end of the first semester of the junior year.

Program Requirements

Students in the program must meet all graduation requirements of the college. When admitted, students establish an academic "contract," which outlines each semester's course of study through graduation. The contract includes a minimum of nine (4-unit) upper-division courses, distributed in at least two fields. The primary focus of the major should be in the USC Dornsife College of Letters, Arts and Sciences. These areas of concentration must then be combined in a senior thesis or project, written under the guidance of a faculty committee.

Restrictions

Course prerequisites cannot be waived; admission to courses restricted to majors is subject to availability and direct negotiations; admission to departments and/or schools which have their own admission requirements must be processed separately.

Bachelor of Arts in Narrative Studies

See English for a full description of the major.

Bachelor's Degree

Contemporary Latino and Latin American Studies (BA)

The Bachelor of Arts in Contemporary Latino and Latin American Studies (CLLA) is an interdisciplinary major bridging the fields of Latin American Studies (focusing on the history and cultures of Central and South America) and Latino Studies (focusing on the experience of Chicano/a and Latino/a communities in the United States). By combining these two areas of scholarly inquiry in a single undergraduate degree, students acquire interdisciplinary perspectives on the indigenous and transnational histories, cultures, and social issues of the Americas.

The Bachelor of Arts in Contemporary Latino and Latin American Studies provides an opportunity for undergraduates to gain a general understanding of this area of scholarship and research and focus their study to reflect their personal aspirations. The major requires nine courses (36 units), two at the lower-division (100 and 200) level and seven at the upper-division (300 and 400) level. This curriculum prepares students for careers in business, diplomacy, or social change that reflect and respect the cultural diversity of the western hemisphere.

Lower-division Requirements (8 units)

Language Requirement (4 units)

Choose one of the following four courses or earn a sufficient score on the Spanish placement exam:

- SPAN 245 Spanish Through Social Issues in Costa Rica Units: 4
- SPAN 250x Spanish for Business Communication Units: 4
- SPAN 261 Advanced Spanish: Society and the Media Units: 4
- SPAN 270 Spanish for Native Speakers Units: 4

Students who satisfy this requirement by placement exam score should take an additional course from the list below to satisfy the unit requirement.

Introduction to Latin American Culture (4 units)

Choose one course from the following list:

- AHIS 127g Arts of the Ancient Americas Units: 4
- AHIS 128g Arts of Latin America Units: 4
- AMST 135gmw Peoples and Cultures of the Americas Units: 4
- AMST 140 Borderlands in a Global Context Units: 4
- ANTH 140g Mesoamerican Cosmovision and Culture Units: 4
- COLT 250g Cultures of Latin America Units: 4
- HIST 273g Colonial Latin America Units: 4
- MUJZ 218a Afro-Latin Percussion Instruments Units: 2

dissertation is completed.
MUJZ 218b Afro-Latin Percussion Instruments
Units: 2

**Upper-division Requirements (28 units)**

**Contemporary Latin Americans (8 units)**
Choose two of the following:
- AMST 340m Latina/o LA Units: 4
- HIST 372 Modern Latin America Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- POSC 428 Latino Politics Units: 4
- SOCI 366m Chicana and Latina Sociology Units: 4

**Social Realities in the United States and Latin America**
- AMST 340m Latina/o LA Units: 4
- AMST 353m Race and Racism in the Americas Units: 4
- AMST 357m Latino Social Movements Units: 4
- AMST 373m History of the Mexican American Units: 4
- ANTH 328m Culture Change and the Mexican People Units: 4
- ANTH 425 Peoples and Cultures of Latin America Units: 4
- HIST 354 Mexican Migration to the United States Units: 4, 2 years
- HIST 372 Modern Latin America Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- IR 365 Politics and Democracy in Latin America Units: 4
- IR 366 Mexico and its Relations with the United States Units: 4
- IR 425 The New Triangle: China, the U.S. and Latin America Units: 4
- IR 426 Trade Politics in the Western Hemisphere Units: 4
- IR 465 Contemporary Issues in United States-Latin America Relations Units: 4
- IR 466 Contemporary Issues in Latin American Politics Units: 4
- POSC 350 Politics of Latin America Units: 4
- POSC 428 Latino Politics Units: 4
- POSC 430 Political Economy of Mexico Units: 4
- POSC 431 Political Economy of Central America Units: 4
- SOCI 356m Mexican Immigrants in Sociological Perspective Units: 4
- SOCI 366m Chicana and Latina Sociology Units: 4
- SPAN 320 Iberian and Latin American Cultures: Readings on Society Units: 4

**Major Interest (16 units)**
Choose four additional courses not yet taken from one of the three following lists:

**The Cultural Heritage of Latin America**
- AHIS 319 Mesoamerican Art and Culture Units: 4
- AMST 448m Chicano and Latino Literature Units: 4
- ANTH 425 Peoples and Cultures of Latin America Units: 4
- COLT 375 Latin American Cultural and Literary Theory Units: 4
- HIST 369 Aztecs, Mayas, and other Indigenous Peoples of the Americas Units: 4
- HIST 370 Spanish America, 1492–1821 Units: 4
- HIST 374 History of Mexico Units: 4
- HIST 451 The Mexican Revolution Units: 4
- HIST 470 The Spanish Inquisition in the Early Modern Hispanic World Units: 4, 2 years
- REL 333 Religion in the Borderlands Units: 4
- REL 334 Religion and Colonial Encounter Units: 4
- SPAN 301 Introduction to Hispanic Literature and Film Units: 4
- SPAN 304 Survey of Fiction Units: 4
- SPAN 306 Survey of Drama Units: 4
- SPAN 308 Survey of Poetry Units: 4
- SPAN 372 Modern and Contemporary Latin American Fiction Units: 4
- SPAN 380g Literature of Mexico Units: 4
- SPAN 385 The Culture of Food in Hispanic Los Angeles Units: 4
- SPAN 462 Literary Cartographies of Latin America and Spain, 1810–1898 Units: 4
- SPAN 481 Literature and Popular Culture Units: 4
- SPAN 482 Literature and the City Units: 4
- SPAN 483 Literature and Gender Units: 4
- SPAN 484 Studies in Visual and Material Culture Units: 4

**Latino and Latin American Arts and Media**
- AHIS 318 Arts of the Ancient Andes Units: 4
- AHIS 328 Colonial Latin American Art Units: 4
- AHIS 428 Studies in Colonial Latin American Art Units: 4
- AMST 446 Cultural Circuits in the Americas Units: 4
- COLT 470 Literature and Media in Latin America Units: 4
- CTCS 414 Latina/o Screen Cultures Units: 4
- JOUR 465m Latino News Media in the United States Units: 4
- SPAN 302 Survey of Film Units: 4
Capstone Experience (4 units)
Students engage in travel or original research by choosing one of the following courses, which include Maymester and Problems Without Passport courses, overseas programs, or courses created for this purpose. Choose one of the following:
- ANTH 400 Maya Resilience: Constructing Past and Present Identities Units: 4
- ANTH 450 Field Research in Maya Archaeology Units: 4
- IR 337 The Impact of Remittances on Development in Mexico Units: 4

Critical Approaches to Leadership Minor
This minor is offered by faculty from several disciplines whose perspectives are brought to bear on issues and questions that should inform the judgements of capable, ethical leaders. Students are introduced to theoretical and historical models of leadership, engage in case studies of modern leaders, select critical electives that explore ethical and social considerations of leadership, examine professional applications of leadership principles, and integrate what they have learned in a capstone course. The emphasis of the minor is on leadership as expertise in community-building and takes advantage of USC’s programs in community service, including the Joint Educational Project, the Jesse M. Unruh Institute of Politics and other internships available through the Division of Student Affairs. Five upper-division courses, totaling 20 units, are required.

Core Courses
Choose two:
- CLAS 370 Leaders and Communities: Classical Models Units: 4
- CLAS 375 Alexander the Great: Leadership, Personality and World Conquest Units: 4
- PHIL 335 Theoretical Models of Leadership Units: 4
- MDA 325 Case Studies in Modern Leadership Units: 2 or 4

Critical Electives
Group A — choose one
- PHIL 337 History of Modern Political Philosophy Units: 4
- PHIL 437 Social and Political Philosophy Units: 4
- PSYC 355 Social Psychology Units: 4
- REL 341 Technology, Culture, and Ethics Units: 4

Group B — choose one
- IR 303 Leadership and Diplomacy Units: 4
- MOR 470 Global Leadership Units: 4
- POSC 365 World Political Leadership Units: 4
- POSC 423 Presidents and the Presidency Units: 4

International Health, Development, and Social Justice Interdisciplinary Minor
This minor is intended for students who wish to understand the challenges associated with health care as an ethical issue in the international context. In doing so, it focuses on the convergence of three large fields of inquiry, raising questions about their intersection. Social justice is concerned with equity, with questions of fairness as they inform (or should inform) access to resources necessary for the survival and well-being of people around the globe. To provide the necessary content, this minor presents an introduction to political economy, to cross-cultural approaches to health and wellness, and to theories of economic development as they relate to health care. This minor is intended to prepare students for careers and leadership roles in the arenas of international health, medical ethics, overpopulation, economic development, human welfare and principles of social justice. As with all minors, students should include four courses outside their major, four courses at the upper-division level, and four courses that are not being used to satisfy any other subject requirement. In addition, to satisfy this minor, students must choose courses from at least two different departments.

REQUIRED COURSE WORK: 24 units

Lower Division Requirement: Choose one Course (4 Units)
Students should have some experience with engaging ethical questions or considering the context in which these issues arise, which can be accomplished by completing one of the following:

- ANTH 101g Illness and Healing: The Cross-Cultural Perspective Units: 4
- ANTH 105g Culture, Medicine and Politics Units: 4
- ANTH 125g Social Issues in Human Sexuality and Reproduction Units: 4
- ANTH 205g Introduction to Global Studies and Overseas Research Units: 4
- BISC 102Lgx Humans and Their Environment Units: 4
- BISC 103Lgx General Biology for the Environment and Life Units: 4
- BISC 150Lgx The Nature of Human Health and Disease Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- GEOL 108Lg Crises of a Planet Units: 4
- IR 101gwx International Relations Units: 4
- IR 213 The Global Economy Units: 4 *
- PHIL 166gw Current Moral and Social Issues Units: 4
- PHIL 172gm Social Ethics for Earthlings and Others Units: 4
- SOCI 225gw Sociology of Health and the Body Units: 4
- SOCI 242g Sociology, Demography, and Health Units: 4
- SWMS 225 Gender, Sex, and Science: A Gender Studies Approach Units: 4

Note:
*Prerequisite: IR 210

Introduction to Political Economy:
Choose One Course (4 Units)
The courses in this and the following categories provide an understanding of the forces that shape global development.

- ECON 238g Political Economy and Social Issues Units: 4
- ECON 340 Economics of Less Developed Countries Units: 4 *
- ECON 350 The World Economy Units: 4 *
- POSC 435 Politics and the Economy Units: 4

Note:
*Prerequisite: ECON 203 or ECON 205

Theories of Development: Choose One Course (4 Units)

- IR 325 North-South Relations in the Global Economy Units: 4
- IR 344 Developing Countries in World Politics Units: 4
- IR 454 The International Political Economy of Development Units: 4
- POSC 255g Cultures, Civilizations and Ethnicities in World Politics Units: 4
- POSC 450 Political Development Units: 4
- POSC 456 Women in International Development Units: 4
- SOCI 314 Analyzing Social Statistics Units: 4
- SOCI 362 Global and Transnational Sociology Units: 4
- SOCI 470 Development and Social Change in the Third World Units: 4

Cross-Cultural Perspectives on Health and Wellness: Choose One Course (4 Units)
These courses explore cultural attitudes and differences about health and wellness that affect decisions about health care.

- ANTH 301 The Performance of Healing Units: 4
- ANTH 305 Childhood, Birth and Reproduction Units: 4
- ANTH 405 Evolutionary Medicine Units: 4
- IR 339 Public Health and International Relations Units: 4
- PSYC 367g Stress, Health, and the Mind-Body Connection Units: 4 *
- PSYC 462m Culture and Mental Health Units: 4 **
- REL 460 Senior Seminar: Medical Ethics Units: 4
- SOCI 385 Population, Society, and Aging Units: 4
- SWMS 336 Health, Gender and Ethnicity Units: 4

Note:
*Prerequisite: PSYC 100
**Recommended preparation: PSYC 100

Perspectives on Social Justice: Choose One Course (4 Units)
These courses familiarize students with the application of legal and ethical questions to social phenomena and the allocation of resources.

- ANTH 300 Evolution, Ecology, and Culture Units: 4
- IR 316 Gender and Global Issues Units: 4
- IR 401 The United Nations and World Order Units: 4
- PHIL 431 Law, Society, and Politics Units: 4
- PHIL 437 Social and Political Philosophy Units: 4
- REL 366 Religion and Social Change Units: 4
- SOCI 360m Social Inequality: Class, Status, and Power Units: 4
- SWMS 384m Gender, Social Inequality, and Social Justice Units: 4
Capstone Requirement: Choose One Course (4 Units)

These three capstone courses examine efforts to introduce issues of social justice to the distribution of health care and other resources essential for human survival and well-being.

International Relations

The School of International Relations (SIR) offers a BA in international relations; a BA in international relations (global business); a BA in international relations and the global economy; a dual MA in international relations/Juris Doctor offered with the USC Gould School of Law; a Master of Public Diplomacy; and a PhD in political science and international relations offered with the Political Science Department. The SIR also offers minors in global communication, international relations and international policy and management. The SIR encourages undergraduate double majors, especially with economics, environmental studies, geography, history, journalism, foreign languages, political science and sociology. Programs are flexible, allowing students to gain a broad background in international studies and, at the same time, to specialize in a particular area. Minors in international relations; international policy and management; international urban development; and global communication, as well as interdisciplinary minors in nonprofits, philanthropy and volunteering; and Russian area studies are also offered.

Director: Wayne Sandholtz, Ph.D.

Faculty

Robert R. and Katharyn A. Dockson Chair in Economics and International Relations and Professor of International Relations and Economics: Joshua Aizenman, PhD
John A. McCone Chair in International Relations and Professor of International Relations and Law: Wayne Sandholtz, PhD
Robert Grandford Wright Professor and Professor of International Relations and Middle East Studies: Laurie A. Brand, PhD*
Dean’s Professor of International Relations: Patrick James, PhD*
University Professor, Wallis Annenberg Chair of Communication Technology and Society and Professor of Communication, Sociology, Planning, and International Relations: Manuel Castells, PhD (Communication)
Professors: Jonathan D. Aronson, PhD* (Communication); David Kang, PhD; Steven L. Lamy, PhD*; Najmedin Meshkati, PhD (Civil and Environmental Engineering); Gerardo Munck, PhD; Michael Parks (Communication); Philip Selb, JD (Communication); Mary Elise Sarotte, PhD; Edwin M. Smith, JD (Law)
Associate Professors: Robert English, PhD; Jacques Hymans, PhD; Saori N. Katada, PhD; Daniel Lynch, PhD; Brian Rathbun, PhD; Carol Wise, PhD

Assistant Professors: Pablo Barbera, PhD; Erin Baggott, PhD; Brett Carter, PhD; Andrew Coe, PhD; Benjamin Graham, PhD; Jonathan Mark, PhD;
Professor of the Practice of International Relations and Economics: Lord John Eatwell, PhD
Professors of the Practice: Carol Atkinson, PhD; Geoffrey Wiseman, PhD
Associate Professors (Teaching): Nina Rathbun, PhD; Pamela K. Starr, PhD
Assistant Professor of the Practice: Jeffrey R. Fields, PhD
Assistant Professors (Teaching): Douglas Becker, PhD; Shannon Gibson, PhD
Emeritus Professors: Peter A. Berton, PhD*; Michael G. Fry, PhD; Abraham F. Lowenthal, PhD; John S. Odell, PhD; Ron Steel, MA; Rodger Swearingen, PhD; J. Ann Tickner, PhD
Emeritus Professor of the Practice: Gary W. Glass, PhD
*Recipient of university-wide or college award for teaching or research.

Undergraduate Degrees

Honors Program

The honors program centers around the IR 494 Honors Thesis Seminar that culminates in a thesis based on original research. In the spring of the junior year, students who have earned a GPA of 3.5 in the major and an overall GPA of 3.3 submit an application, two letters of recommendation and a research proposal that identifies the thesis topic to the student affairs office. Upon admission to the program, the student identifies an appropriate faculty member to co-supervise the thesis and, in the fall of the senior year, enrolls in IR 311 to develop the formal research design and complete the literature review. Students may enroll in IR 311 in the fall of their junior year if their research interests are well specified. In the spring of the senior year, the student enrolls in IR 494. If the program is completed successfully (a B+ or better in IR 494, a major GPA of 3.5 and an overall GPA of 3.3 [A = 4.0]), the transcript will read "with Honors."

Dornsife Washington, D.C. Program

(See USC Dornsife College of Letters, Arts and Sciences)

Bachelor of Arts in Central European Studies

See the department of Slavic Languages and Literature for program requirements.

Bachelor of Science in Global Health Studies

The Bachelor of Science in Global Health Studies is a multidisciplinary degree of the Keck School of Medicine's Department of Preventive Medicine. Students complete course work in Health Promotion and Disease Prevention Studies. For degree requirements, see Department of Preventive Medicine.
Interdisciplinary Nonprofits, Philanthropy and Volunteerism Minor
See the USC Price School of Public Policy.

Interdisciplinary Russian Area Studies Minor
See Department of Slavic Languages and Literatures.

Advisement
Advisement is required for all majors and minors. Students are encouraged to meet with School of International Relations advisers at least once a semester to review the direction of their individual programs. Students are also encouraged to seek the advisement of faculty members whose specializations are appropriate to their programs of study, and with the School of International Relations' career adviser.

Academic Specialization
Students majoring in international relations who wish to develop their own specialization or emphasize a particular regional area may establish with a faculty adviser, or with School of International Relations advisers, an academic program that will accomplish the students' objectives.

Graduate Degrees
The School of International Relations offers graduate curricula leading to several different graduate degrees. With courses and faculty renowned for their strengths in a great variety of fields — culture, gender and globalization, political economy, foreign policy and security, regional studies — our graduate international programs generally emphasize training for careers in advanced research and teaching. The school also welcomes professionally oriented students with related interests in fields such as law, communication, economics and business and public policy.
The School of International Relations has programs leading to a dual MA in international relations/Juris Doctor offered with the USC Gould School of Law; Master of Public Diplomacy; and a PhD in political science and international relations offered with the Political Science Department.

Admission Requirements
The School of International Relations welcomes talented candidates from a variety of academic backgrounds. Admission decisions are based on consideration of applicants' prior academic performance, as reflected in course grades and letters of recommendation. Applicants also are strongly encouraged to submit a sample of their written work in English, preferably a research-oriented paper. The committee also considers the potential for success in a graduate program based on Graduate Record Examinations scores. Business, government and other practical experiences related to international relations also are taken into account.
It is strongly recommended that master's and doctoral degree candidates should have completed at least one undergraduate course in statistics or quantitative methods and at least one course in economics before enrolling for graduate study. A course in social or political theory or international history also is highly desirable. The faculty may admit promising students who lack one or more of these courses. Students with this preparation tend to be more successful in the program and more likely to prosper in an academic or research setting afterwards.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.
All graduate students are required to maintain regular contact with the graduate coordinator to assure compliance with departmental regulations.

Foreign Language Requirement
Students in the joint MA/JD must show proficiency in at least one foreign language at the fourth semester level. In special instances a doctoral student's dissertation guidance committee may require a student to show research competence in one or two foreign languages. International students whose native language is not English may satisfy this requirement by submitting proof of their ability to read and understand social science materials in their native language where appropriate, or in another language in which significant social science material is available.

Substantive Paper Requirement
Students in the progressive BA/MA and joint MA/JD, MA/MP and MA/MPA master's programs must submit a substantive paper or alternative project. This requirement is meant to encourage students to polish articles that may ultimately prove suitable for publication, to develop materials that will display their talents for doctoral and graduate school admission committees or prospective employers, and to begin to develop dissertation proposals early in the graduate education process. A student may submit a revised version of a research paper or a detailed policy memorandum along with a copy of the original paper for which he or she received a grade of B+ or better in one international relations graduate class. Students may also submit a paper or project based on other original work. A two-person faculty examining committee, which must consist of School of International Relations faculty members, will evaluate the substantive paper or project and, at their discretion, call the student for an oral examination on the project. The student may add a third outside member to the committee. They may also choose to examine the student on his or her course work in international relations.

Master of Arts, Political Science and International Relations
Only students who have a degree objective of obtaining the PhD will be admitted into the Political Science and International Relations program. However, interested students can obtain an MA degree while pursuing the PhD. The degree is awarded upon successful completion of (a) 28 units, including three of the five courses in the program's theory and methodology sequence, a master's thesis and registration in POSC 594a/IR 594b; and (b) the approval of the master's thesis by the thesis committee.

Master of Public Diplomacy and Master of Public Diplomacy (Practitioner and Mid-Career Professional)
These degrees combine the resources of the USC Annenberg School for Communication and Journalism and USC Dornsife College of Letters, Arts and Sciences' School of
International Relations. The Master of Public Diplomacy is designed for students who already have a substantial undergraduate background in social sciences or relevant professional experience in subjects such as communication, film and media studies, journalism, political science, public relations and international relations. The Master of Public Diplomacy (Practitioner and Mid-Career Professional) is designed for students who have at least five years experience working in public diplomacy. See USC Annenberg School for Communication and Journalism for degree requirements.

**Doctor of Philosophy in Political Science and International Relations**

See Political Science and International Relations for degree requirements.

**Bachelor's Degree**

**International Relations (BA)**

The International Relations major requires a minimum of 48 units. All majors should complete IR 210gw International Relations: Introductory Analysis, IR 211g International Relations: Approaches to Research, IR 212 Historical Approaches to International Relations and IR 213 The Global Economy in their first 32 total units. The 200-level courses must be completed by the time they have completed 48 total units. The 200-level courses must be completed before attempting 400-level courses. Four semesters of a single foreign language are required. All majors are encouraged to obtain as much foreign language training as possible either through a major or a minor in a foreign language or through a study program abroad. Beyond IR 210, IR 211, IR 212 and IR 213, international relations majors are required to take eight additional upper-division courses. Majors must choose one course from each of the four fields: Culture, Gender and a Global Society; Foreign Policy Analysis; International Political Economy; International Politics and Security Studies. In addition, students must complete one course from Regional Studies (Europe; Russia, Eastern Europe and Eurasia; Latin America; the Middle East and Africa; or Pacific Rim). Finally, students must complete one 400-level course of their choice. Students are encouraged to explore different professional career options within international relations by enrolling in IR 591 Directed International Relations Field Study, a 2-unit course that can be repeated for major credit. Students may receive both general education credit and major credit for the same course.

**Culture, Gender and Global Society**

This field explores identities and interests shaping the politics of intellectual global society.

- IR 303 Leadership and Diplomacy Units: 4
- IR 305w Managing New Global Problems Units: 4
- IR 306 International Organizations Units: 4
- IR 309 Global Governance Units: 4
- IR 310 Peace and Conflict Studies Units: 4

POSC 431 Political Economy of Central America Units: 4

Regional Studies

The regional studies field focuses on geographic regions, such as the Pacific Rim, Latin America, Europe, the Middle East and Africa. These courses test general theories of international relations within the framework of a specific region. The economic, political, ethnic and social history of a region are examined to help explain current developments and interstate and domestic policies and issues within a region.

International Relations (Global Business) (BA)
The BA in International Relations with an emphasis in Global Business will give students the opportunity to pursue a degree in international relations and acquire specific skills in one of four concentrations in international business: international finance, international financial management, global marketing or global management. Students who have earned a GPA of 3.0 or above and a "B" average in IR 210 International Relations: Introductory Analysis and a second
300-level or above IR course are eligible to apply during their sophomore year. **In addition to the IR requirements**, students need to complete the following prerequisite courses: before they can begin this program.

- **ECON 203g Principles of Microeconomics** Units: 4 or **ECON 351x Microeconomics for Business Units**: 4
- **ECON 205g Principles of Macroeconomics** Units: 4 or **ECON 352gx Macroeconomics for Business Units**: 4
- **MATH 118gx Fundamental Principles of Calculus** Units: 4

**The international relations course work consists of 28 units:**

- **IR 210gw International Relations: Introductory Analysis Units**: 4
- a regional course
- a 400-level course
- an international political economy course
- and three upper-division electives

**International Political Economy Course**

- **IR 324 Multinational Enterprises and World Politics Units**: 4
- **IR 325 North-South Relations in the Global Economy Units**: 4
- **IR 326 U.S. Foreign Economic Policy Units**: 4
- **IR 327 International Negotiation Units**: 4
- **IR 329 The Global Finance and Monetary Regime Units**: 4
- **IR 331 The Global Economy 2030 Units**: 4

**Course work at the USC Marshall School of Business consists of**

- **ACCT 410x Foundations of Accounting Units**: 4
- **BUAD 285a Accounting Fundamentals, Financial and Managerial Accounting Units**: 4 and 20 units in the respective areas of concentration.

**International finance**:

- **BUAD 215x Foundations of Business Finance Units**: 4 or **BUAD 306 Business Finance Units**: 4
- **BUAD 310g Applied Business Statistics Units**: 4
- **BUAD 350 Macroeconomic Analysis for Business Decisions Units**: 4 or **ECON 305 Intermediate Macroeconomic Theory Units**: 4
- **FBE 462 International Trade, Finance and Commercial Policy Units**: 4

**International financial management**:

- **BUAD 215x Foundations of Business Finance Units**: 4 or **BUAD 306 Business Finance Units**: 4
- **BUAD 310g Applied Business Statistics Units**: 4
- **FBE 432 Corporate Financial Strategy Units**: 4
- **FBE 436 Financial Management of Multinational Corporations Units**: 4
- **FBE 462 International Trade, Finance and Commercial Policy Units**: 4

**global marketing**:

- **BUAD 307 Marketing Fundamentals Units**: 4
- **BUAD 310g Applied Business Statistics Units**: 4
- **MKT 450 Consumer Behavior and Marketing Units**: 4
- **MKT 465 Global Marketing Management Units**: 4

**global management**:

- **BUAD 304 Organizational Behavior and Leadership Units**: 4
- **MOR 431 Interpersonal Competence and Development Units**: 4
- **MOR 462 Management Consulting Units**: 4
- **MOR 492 Global Strategy Units**: 4

**International Relations and the Global Economy (BA)**

The BA in International Relations and the Global Economy (IRGE) offers students rigorous interdisciplinary training at the intersection of international relations and economics. The major prepares students for careers ranging from foreign policy and international development to international finance and political risk analysis. It is also ideally suited for students who plan to seek advanced degrees in the social sciences.

**Lower Division Courses**

- **ECON 203g Principles of Microeconomics Units**: 4
- **ECON 205g Principles of Macroeconomics Units**: 4
- **IR 210gw International Relations: Introductory Analysis Units**: 4
- **IR 213 The Global Economy Units**: 4
- **MATH 118gx Fundamental Principles of Calculus Units**: 4 or **MATH 125g Calculus I Units**: 4

**Core Skills and Issues**

- **IR 330 Politics of the World Economy Units**: 4 or **ECON 350 The World Economy Units**: 4
- **ECON 305 Intermediate Macroeconomic Theory Units**: 4
- **ECON 317 Introduction to Statistics for Economists Units**: 4

**Choose two courses (8 units):**

- **IR 324 Multinational Enterprises and World Politics Units**: 4
- **IR 325 North-South Relations in the Global Economy Units**: 4
- **IR 326 U.S. Foreign Economic Policy Units**: 4
- **IR 327 International Negotiation Units**: 4
- **IR 329 The Global Finance and Monetary Regime Units**: 4
- **IR 331 The Global Economy 2030 Units**: 4

**Regional Study**

*Prerequisite required

Minor

Global Communication Minor
The rise of global firms and international changes that followed the end of the cold war raise new opportunities and challenges. This minor provides students from fields such as business, journalism, engineering and political science an understanding of the dynamic nature of global relations, communications and technology. The global communication minor consists of six 4-unit courses, three from International Relations and three from Communication.

Required International Relations Course
- IR 305w Managing New Global Problems Units: 4

International Relations Regional Courses (Select One)
- IR 303 Leadership and Diplomacy Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4 (departmental approval)
- IR 326 U.S. Foreign Economic Policy Units: 4
- IR 327 International Negotiation Units: 4
- IR 330 Politics of the World Economy Units: 4
- IR 333 China in International Affairs Units: 4
- IR 345 Russian and Post-Soviet Foreign Policy Units: 4
- IR 360 International Relations of the Pacific Rim Units: 4
- IR 361 South and Southeast Asia in International Affairs Units: 4
- IR 362 The International Relations of the Contemporary Middle East Units: 4
- IR 363 Middle East Political Economy Units: 4
- IR 365 Politics and Democracy in Latin America Units: 4
- IR 367 Africa in International Affairs Units: 4
- IR 368 French Foreign Policy: 1945 to the Present Units: 4 (offered in Paris only)
- IR 369 Post-War European Relations Units: 4
- IR 383 Third World Negotiations Units: 4
- IR 384 Asian Security Issues Units: 4
- IR 385 European Foreign Policy and Security Issues Units: 4
- IR 403 Transnational Diplomacy and Global Security Units: 4
- IR 439 Political Economy of Russia and Eurasia Units: 4
- IR 442 Japanese Foreign Policy Units: 4
- IR 468 European Integration Units: 4

IR Elective
Select one 300- or 400-level IR course

Required Communication Course
- COMM 487 Communication and Global Organizations Units: 4

Communication Electives (Select Two)
- COMM 324m Intercultural Communication Units: 4
- COMM 339 Communication Technology and Culture Units: 4
- COMM 345 Social and Economic Implications of Communication Technologies Units: 4
- COMM 371 Censorship and the Law: From the Press to Cyberspace Units: 4
- COMM 385 Survey of Organizational Communication Units: 4
- COMM 414 Communication and Social Change in China Units: 4
- COMM 430 Global Entertainment Units: 4 (Prerequisite: COMM 300)
- COMM 431 Global Strategy for the Communications Industry Units: 4

Total units: 24

International Policy and Management Minor
The minor in international policy and management brings together courses from the School of International Relations, dealing with the new global challenges, specific regions of the world and international organizations and policies, and the USC Price School of Public Policy dealing with core management skills and public policy processes. Students will gain an understanding of the changes and challenges transforming the world and a taste of the policy and management skills to deal with them. To increase their understanding of the context and application of these concepts, students must complete a semester-long internship either in Washington, D.C. or Los Angeles with an organization that has an international focus.
Students take three courses in international relations, including the gateway course, IR 305w Managing New Global Problems, three courses in public policy and management, and an approved internship through the School of International Relations (IR 491x).

**Required Courses from International Relations:**
- IR 305w Managing New Global Problems Units: 4
- One regional course selected from:
  - IR 333 China in International Affairs Units: 4
  - IR 345 Russian and Post-Soviet Foreign Policy Units: 4
  - IR 358 The Asia Pacific in World Affairs Units: 4
  - IR 360 International Relations of the Pacific Rim Units: 4
  - IR 361 South and Southeast Asia in International Affairs Units: 4
  - IR 362 The International Relations of the Contemporary Middle East Units: 4
  - IR 363 Middle East Political Economy Units: 4
  - IR 365 Politics and Democracy in Latin America Units: 4
  - IR 367 Africa in International Affairs Units: 4
  - IR 369 Post-War European Relations Units: 4
  - IR 383 Third World Negotiations Units: 4
  - IR 385 European Foreign Policy and Security Issues Units: 4
  - IR 439 Political Economy of Russia and Eurasia Units: 4
  - IR 442 Japanese Foreign Policy Units: 4
  - IR 468 European Integration Units: 4

**One course from either the regional course list or the following:**
- IR 306 International Organizations Units: 4
- IR 307 Contemporary International Politics Units: 4
- IR 310 Peace and Conflict Studies Units: 4
- IR 315 Ethnicity and Nationalism in World Politics Units: 4
- IR 316 Gender and Global Issues Units: 4
- IR 318 Violent Conflict Units: 4
- IR 323 Politics of the Global Environment Units: 4
- IR 324 Multinational Enterprises and World Politics Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 326 U.S. Foreign Economic Policy Units: 4
- IR 327 International Negotiation Units: 4
- IR 330 Politics of the World Economy Units: 4
- IR 341 Foreign Policy Analysis Units: 4
- IR 343 U.S. Foreign Policy since World War II Units: 4
- IR 344 Developing Countries in World Politics Units: 4
- IR 381 Introduction to International Security Units: 4
- IR 382w Order and Disorder in Global Affairs Units: 4
- IR 427 Seminar on Economics and Security Units: 4
- IR 441 Comparative Analysis of Foreign Policy Units: 4
- IR 444w Theories of Global Society Units: 4

**From Public Policy:**

The public policy component requires the completion of the following three options:
- PPD 225 Public Policy and Management Units: 4

**Two additional courses from the following:**
- PPD 357 Government and Business Units: 4
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 373 Public Policy and Planning Analysis Units: 4
- PPD 476 Politics and Administration Units: 4
- PPD 482 Comparative Public Administration Units: 4

**Or from Public Management:**
- PPD 402 Management of Public and Nonprofit Organizations Units: 4

**Two additional courses from the following:**
- PPD 313 Finance of the Public Sector Units: 4
- PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
- PPD 411 Sacramento Semester Units: 4
- PPD 476 Politics and Administration Units: 4

**Additional Requirements**

**Internship**
Each student is required to complete an approved internship with an international focus. Students take a two-unit internship through the School of International Relations (IR 491).

**International Relations Minor**
The minor in international relations allows students to develop a specialty in the field without a full major. Requirements are: IR 210gw International Relations: Introductory Analysis and four upper-division courses including at least one regional course and one 400-level course. Students planning to minor in international relations should see the School of International Relations advisers in Von KleinSmid Center 301.

**Master's Degree**

**International Relations (MA)**

**Requirements**
Students who have the degree objective of joint MA programs (Master of Arts, International Relations/Juris Doctor; Master of Arts, International Relations/Master of Planning; and Master of Arts, International Relations/Master of Public Administration) must apply for an MA in International Relations. Students pursuing these joint programs must refer to the specific course requirements outlined for each program.

**Advisement**
Students should consult with the school's faculty adviser each semester before registering for courses for the next semester. Students also are encouraged to seek advice from other faculty who work in areas related to their interests. Students may, if they wish and if a faculty member agrees, select a different faculty adviser from among the school's faculty. Consult with and inform the Office of Student Affairs regarding changes in faculty advisers.
Dual Degree
Master of Arts, International Relations/Juris Doctor (MA/JD)

The USC Gould School of Law and the School of International Relations jointly offer a three-year program leading to the JD and MA degrees. (Students may extend the dual degree program to four years.) Applicants must apply to both the law school and the School of International Relations and meet requirements for admission to both. In addition to the LSAT, students interested in this program are required to take the Graduate Record Examinations (GRE). Law students may apply to the School of International Relations during their first year at the law school.

In the first year, students take their course work in the law school exclusively. The second and third years include 24 units of courses in international relations and 40 units of law. Students pursuing the dual degree must complete LAW 662 or LAW 764 and one additional international law course. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students pursuing the dual degree must complete 24 units within the School of International Relations at the 500 level or above. These students are required to successfully complete IR 500 International Relations Theory, either IR 513 Social Science and Historical Research Methods: Introduction to Research Design or IR 517 International Policy Analysis, and two domain courses selected from among IR 502 Conflict and Cooperation, IR 509 Culture, Gender, and Global Society, IR 521 Introduction to Foreign Policy Analysis and IR 541 Politics of the World Economy. Like all other international relations master's degree programs, students in the dual degree program must complete a substantive paper or alternative project. The requirements, standards and evaluation procedure for the substantive paper are identical to those listed above for all MA students except that one member of the examining committee must come from the law school.

Joint Educational Project

Joint Educational Project House
801 W. 34th St.
(213) 740-1837
FAX: (213) 740-1825
dornsife.usc.edu/jep

Executive Director: Tammara Anderson
The Joint Educational Project (JEP) is one of the oldest and largest service-learning programs in the United States. Established in 1972, JEP places university students in supervised community service assignments as a part of their academic course work. JEP partners with more than 50 local organizations — including neighborhood schools, non-profit organizations, hospitals and health clinics and government agencies — to design service-learning projects that complement students' course work and address a community-identified need. Students serve in many capacities through JEP, such as tutor, mentor, teaching assistant, translator, research assistant or guide.

JEP also houses two volunteer programs for pre-law and pre-med students — the Pre-Law Project and Trojan Health Volunteers — that give USC students practical experience in a legal or medical context. In the process, JEP students learn how to develop and apply knowledge, work in diverse social settings, become engaged in civic affairs, explore possible career paths and make professional contacts. "JEP" following a section number indicates that the professor will offer JEP as a course option.

JEP also houses the USC ReadersPLUS work-study program. "Readers" assist K-9 children in USC's "Family of Schools" in the areas of math and reading, allowing the USC students the opportunity to serve in the community while gaining work experience in an urban school environment.

Jewish Studies

Jewish Studies is offered by the Louchheim School for Judaic Studies, administrated jointly by the Hebrew Union College-Jewish Institute of Religion, an independent college adjacent to the USC campus, and USC Dornsife's School of Religion. Students registering for classes in the program do so through the regular USC registration process and receive USC course credit and degrees. Hebrew courses may be used to fulfill graduation requirements in a foreign language; courses that meet humanities general education requirements may be used as electives or may be used for major or minor credit with the approval of an adviser.

Liaison: Carol Sofer

Faculty

Professors: Reuven Firestone, PhD; Bruce Phillips, PhD; Dvora Weisberg, PhD
Associate Professors: Sarah Benor, PhD; Joshua Garway, PhD; Sharon Gillerman, PhD; Leah Hochman, PhD; Joshua Holo, PhD
suited to their personal academic interests and professional aspirations. The first allows self-motivated, independent learners to combine resources in a particularly rich learning experience, while the second promotes collaborative learning across several aligned modalities.

**Collaborative Learning Projects**

The USC Dornsife College of Letters, Arts and Sciences offers a curricular construct (MDA 460) designed to promote collaborative learning. Two or more students may propose a research project or other collaborative program, with specified learning objectives; a faculty committee will review each proposal to decide if it comprises a well-conceived educational experience and determine the unit values to be awarded, either collectively or to each student who participates. Collaborative Learning Projects award only credit or no credit grades.

**Individual Programs of Study**

Individual Programs of Study (IPOS) allow individual students to design a "curriculum" of 2 to 18 units, including directed research, service learning and internships, creative artistic production and any other educational experiences that might be relevant to the proposed academic program.
An Individual Program of Study (MDA 450) might be created for an entire semester's work, including directed research, an internship and a distance learning course. Or, a more modest proposal might include 4 units of original artwork plus service learning. Individual Programs of Study encourage students to design educational experiences that inspire them, prompting a profound engagement with a learning environment ideally suited to their individual talents. Individual Programs of Study may include a wider array of educational contexts, experiences and opportunities for nontraditional learning than are generally available for credit at most institutions of higher education. Individual Programs of Study are letter graded.

Review Process
Students who are interested in proposing either an Individual Program of Study or a Collaborative Learning Project must complete an application that includes:

1. A full description of the project, including information about all courses, internships, and other academic activities that will be involved;
2. A statement explaining why these activities could not be accomplished within the context of existing course work and directed research;
3. A proposal for assessing the work that is to be completed for the project beyond that associated with graded courses;
4. The endorsement of a faculty member who will serve as sponsor for the project. This faculty member will typically lead directed research activities included in the program. See Multidisciplinary Activities and MDA 450 and MDA 460 course descriptions.

Master's Degree
Liberal Studies (MLS)

A multidisciplinary degree program, the Master of Liberal Studies (MLS) is designed for motivated, college-educated individuals who wish to further their intellectual growth and pursue graduate work part-time or full-time in the evenings. The program centers on the major forces that are revolutionizing the way we conduct our professional lives, rather than on the individual liberal arts disciplines. In this way, subjects covered in the program's courses have immediate relevance to the problems and challenges of contemporary society. In particular, the program emphasizes some of the most fundamental dynamics shaping the contemporary world: urbanization and globalization, changing cultural landscape, and technological and environmental transformations.

The MLS is a year-round program consisting of nine 3-unit courses. The degree requires a core course and a summative project. Seven elective courses are chosen in consultation with the student's adviser and/or MLS program director.

Admission Requirements

Admission to the program is based upon possession of a baccalaureate degree from an accredited college or university, with a minimum 3.0 GPA. When possible, interviews will be conducted with applicants. Two letters of recommendation, a writing sample and a personal statement of purpose are required.

Degree Requirements

Course and Summative Project Requirements
Linguistics

The Linguistics Department emphasizes the study of language both as an abstract system and in its psychological and social contexts. In addition to introductory linguistics and courses in linguistic analysis, students take courses in psycholinguistics (language acquisition, processing and language disorders) and/or sociolinguistics (language and society). The undergraduate major in linguistics focuses on how the human mind structures, processes and acquires language as well as how similar communication goals are met by diverse means in the languages of the world. Students are encouraged to pursue combined majors in Linguistics and Philosophy, Linguistics and Psychology, Linguistics and East Asian Languages and Cultures, and Computational Linguistics. Linguistics minor is also available and can be combined with other majors. Please contact the department adviser for more information. The Linguistics Department also offers graduate PhD programs. A wide range of courses allows students to study syntax, morphology, phonology, semantics, phonetics, psycholinguistics, sociolinguistics, universals and typology, speech therapy and computational linguistics.

Associate Professors: Hajime Hoji, PhD; Elsi Kaiser, PhD; Toben Mintz, PhD (Psychology); Roumyana Panecheva, PhD; Barry Schein, PhD; Jason Zevin, PhD (Psychology)
Assistant Professors: Khalil Iskarous, PhD; Karen Jesney, PhD; Stefan Keine, PhD
Associate Professor (Teaching): Sandra Disner, PhD
Emeritus Professor: Edward Finegan, PhD*
*Recipient of university-wide or college teaching award.

Graduate Degrees
The graduate program in linguistics trains individuals to engage in the scientific study of human language. Course work emphasizes the structural aspects of language. Students work closely with faculty members on problems in linguistic theory, the description of particular languages, and variation across different users and contexts, focusing on their implications for understanding cognitive structures relating to language.

9. Linguistics

Admission Requirements
Applicants for admission to the graduate program are expected to have a bachelor's degree in linguistics or other appropriate field. Other requirements for admission include: a detailed statement of purpose with specific information about interests and goals, scores from the General Test of the Graduate Record Examinations (GRE), and at least three letters of recommendation from academic sources.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor's Degree
Linguistics (BA)

Required Courses, Lower Division

- LING 301 Introduction to Linguistics
- LING 302 Introduction to Phonetics and Phonology

Required Courses, Upper Division

- LING 301 Introduction to Phonetics and Phonology Units: 4
- LING 302 Introduction to Syntax and Semantics Units: 4

Elective Courses, Upper Division

Select 16 units from the following

- LING 380 Languages of the World Units: 4
- LING 401 Advanced Phonology Units: 4
- LING 402 Advanced Syntax Units: 4
- LING 403 Advanced Semantics Units: 4
- LING 405 Child Language Acquisition Units: 4
- LING 406 Psycholinguistics Units: 4
- LING 407 Atypical Language Units: 4
- LING 410 Second Language Acquisition Units: 4
- LING 412 Language and Law Units: 4
- LING 415 Phonetics Units: 4
- LING 450 New Horizons in Forensic Speaker Identification Units: 4
- LING 466 Word and Phrase Origins Units: 4
- LING 485 Field Methodology Units: 4
- LING 497 Honors Thesis Units: 4
- One additional upper-division course in linguistics or a related field Units: 4

Linguistics Major with Honors
The linguistics major with honors requires the student to complete the requirements for the major with a GPA of 3.5 or above and to complete in addition LING 497 Honors Thesis with a grade of B or better. Intent to complete the linguistics major with honors should be registered with the

399
undergraduate adviser no later than the second semester of the junior year.

- LING 497 Honors Thesis Units: 4

**Capstone Experience**
The major requires a capstone experience, which can be fulfilled in one of the following ways:

(A) A research paper completed as Honors Thesis LING 497, or as Directed Research LING 490 or as a Linguistic 400-level course.

(B) A poster presented at the USC UG symposium or at a conference.

(C) A summer internship related to the degree.

- LING 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- LING 497 Honors Thesis Units: 4

**Linguistics and Cognitive Science (BA)**
Combined major program between the Department of Linguistics and the Department of Cognitive Science.

**Lower-Division Courses (12 units)**
- LING 210g Introduction to Linguistics Units: 4
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4

**Upper-Division Courses (32 units)**
Two among the following (8 units)
- LING 301 Introduction to Phonetics and Phonology Units: 4
- LING 302 Introduction to Syntax and Semantics Units: 4
- LING 303 Logic and Meaning in Natural Language Units: 4

One among the following (4 units)
- PSYC 301L Cognitive Processes Units: 4

Three among the following (12 units)
- LING 401 Advanced Phonology Units: 4 or
- LING 402 Advanced Syntax Units: 4 or
- LING 403 Advanced Semantics Units: 4
- LING 322g Language Contact and Language Acquisition Units: 4
- LING 325g Language and Number Units: 4
- LING 405 Child Language Acquisition Units: 4
- LING 406 Psycholinguistics Units: 4
- LING 407 Atypical Language Units: 4

One among the following (4 units)
- PSYC 336L Developmental Psychology Units: 4
- PSYC 433 Children's Learning and Cognitive Development Units: 4

**Additional Requirement**
An additional upper division course from the above list or from a related field (4 units)

**Combined Major**

**Linguistics and East Asian Languages and Cultures (BA)**

**For the lower division**
- LING 210g Introduction to Linguistics Units: 4 is required

**For the upper division, the following courses are required:**
- LING 301 Introduction to Phonetics and Phonology Units: 4 and
- LING 302 Introduction to Syntax and Semantics Units: 4
- EALC 470 Introduction to East Asian Linguistics Units: 4

**Two courses from**
- LING 380 Languages of the World Units: 4
- LING 401 Advanced Phonology Units: 4
- LING 402 Advanced Syntax Units: 4
- LING 403 Advanced Semantics Units: 4
- LING 405 Child Language Acquisition Units: 4
- LING 406 Psycholinguistics Units: 4
- LING 407 Atypical Language Units: 4
- LING 410 Second Language Acquisition Units: 4
- LING 415 Phonetics Units: 4
- LING 466 Word and Phrase Origins Units: 4 and
- LING 485 Field Methodology Units: 4

**Two courses selected from**
- EALC 304 Advanced Modern Chinese I Units: 4
- EALC 306 Advanced Modern Chinese II Units: 4
- EALC 315 Advanced Korean I Units: 4
- EALC 317 Advanced Korean II Units: 4
- EALC 320 Advanced Japanese I Units: 4
- EALC 322 Advanced Japanese II Units: 4
- EALC 400 Classical Chinese I Units: 4
- EALC 402 Classical Chinese II Units: 4
- EALC 406 Advanced Modern Chinese IV Units: 4
- EALC 407 News and Web Chinese Units: 4
- EALC 412a Business Chinese Units: 4
- EALC 412b Business Chinese Units: 4
- EALC 413 Business Japanese Units: 4
- EALC 415 Advanced Korean III Units: 4
- EALC 417 Advanced Korean IV Units: 4
- EALC 422 Advanced Japanese III Units: 4
- EALC 424 Advanced Japanese IV Units: 4 and
• EALC 426 Classical Japanese Units: 4

• EALC 365 Studies in Japanese Thought Units: 4
• EALC 380 Cultural Topics in East Asian Literature Units: 4
• EALC 385 Studies in Japanese Thought Units: 4
• EALC 386 Readings in Modern Korean Literature Units: 4
• EALC 452 Chinese Fiction Units: 4
• EALC 455 Japanese Fiction Units: 4
• EALC 460 Love, Self and Gender in Japanese Literature Units: 4

Two additional EALC courses
Two additional EALC courses from category IV or V. (After consultation with a department adviser, students may petition to use EALC courses not listed toward this requirement.)

Linguistics and Philosophy (BA)

For the lower division,
• LING 210g Introduction to Linguistics Units: 4 is required

For the upper division the following courses are required:
• LING 301 Introduction to Phonetics and Phonology Units: 4
• LING 302 Introduction to Syntax and Semantics Units: 4
• PHIL 350 Symbolic Logic Units: 4
• PHIL 465 Philosophy of Language Units: 4

Two courses selected from
• LING 380 Languages of the World Units: 4
• LING 401 Advanced Phonology Units: 4
• LING 402 Advanced Syntax Units: 4
• LING 403 Advanced Semantics Units: 4
• LING 405 Child Language Acquisition Units: 4
• LING 406 Psycholinguistics Units: 4
• LING 407 Atypical Language Units: 4
• LING 410 Second Language Acquisition Units: 4
• LING 415 Phonetics Units: 4
• LING 466 Word and Phrase Origins Units: 4
• LING 485 Field Methodology Units: 4

And three courses selected from
• PHIL 450 Intermediate Symbolic Logic Units: 4
• PHIL 460 Metaphysics Units: 4
• PHIL 462 Philosophy of Mind Units: 4
• PHIL 470 Theory of Knowledge Units: 4

Combined Major in Linguistics and Philosophy with Honors
The combined major in linguistics and philosophy with honors requires the student to complete the requirements for the major with a GPA of 3.5 or above and to complete in addition LING 497 Honors Thesis or PHIL 494 Senior Thesis with a grade of B or better. Intent to complete the major with honors should be registered with the undergraduate adviser no later than the second semester of the junior year.

Linguistics and Psychology (BA)

For the lower division:
• LING 210g Introduction to Linguistics Units: 4
• PSYC 100Lg Introduction to Psychology Units: 4
• PSYC 274Lg Statistics Units: 4 are required.

For the upper division the following courses are required:
• LING 301 Introduction to Phonetics and Phonology Units: 4
• LING 302 Introduction to Syntax and Semantics Units: 4
• PSYC 314L Research Methods Units: 4

Two courses selected from
• LING 380 Languages of the World Units: 4
• LING 401 Advanced Phonology Units: 4
• LING 402 Advanced Syntax Units: 4
• LING 403 Advanced Semantics Units: 4
• LING 405 Child Language Acquisition Units: 4
• LING 406 Psycholinguistics Units: 4
• LING 407 Atypical Language Units: 4
• LING 410 Second Language Acquisition Units: 4
• LING 415 Phonetics Units: 4
• LING 466 Word and Phrase Origins Units: 4
• LING 485 Field Methodology Units: 4

Three additional courses selected from
• LING 406 Psycholinguistics Units: 4
• PSYC 301L Cognitive Processes Units: 4
• PSYC 326 Behavioral Neuroscience Units: 4
• PSYC 336L Developmental Psychology Units: 4
• PSYC 337L Adult Development and Aging Units: 4
• PSYC 424 Neuropsychology Units: 4
• PSYC 433 Children's Learning and Cognitive Development Units: 4

Combined Major in Linguistics and Psychology with Honors
The combined major in linguistics and psychology with honors requires the student to complete the requirements for the major with a GPA of 3.5 or above and to complete in addition either LING 497 Honors Thesis or PSYC 380 Junior Honors Seminar and PSYC 480 Senior Honors Seminar, with a grade of B or better. Intent to complete the major with honors should be registered with the undergraduate adviser no later than the second semester of the junior year.

Minor
Linguistics Minor
Lower division:
• LING 210g Introduction to Linguistics Units: 4

Upper division:
• LING 301 Introduction to Phonetics and Phonology Units: 4 and
• LING 302 Introduction to Syntax and Semantics Units: 4

One course in psycholinguistics
• LING 405 Child Language Acquisition Units: 4

Or in sociolinguistics
• LING 375 Sociolinguistics Units: 4

And one additional upper-division course from
• LING 380 Languages of the World Units: 4
• LING 401 Advanced Phonetics Units: 4
• LING 402 Advanced Syntax Units: 4
• LING 403 Advanced Semantics Units: 4
• LING 405 Child Language Acquisition Units: 4
• LING 406 Psycholinguistics Units: 4
• LING 407 Atypical Language Units: 4
• LING 410 Second Language Acquisition Units: 4
• LING 415 Phonetics Units: 4
• LING 466 Word and Phrase Origins Units: 4 and
• LING 485 Field Methodology Units: 4

Master's Degree
Linguistics (MA)
The department does not accept applicants for a Master of Arts degree. All graduate work in Linguistics at USC is taken as part of the PhD program, and the MA in Linguistics is intended only as a transitional degree in the process of completing requirements for the PhD.

A student admitted to the graduate program may choose later to earn a terminal MA degree, or may be invited by the department to attempt a terminal degree. Students pursuing the PhD program in linguistics are required to complete 32 units of course work toward the MA degree. The choice of courses is subject to approval by the Graduate Studies Committee. In addition, students must satisfy one foreign language or research tool requirement. (See Foreign Language/Research Tool Requirement.)

MA Research Paper
In addition to course work and the foreign language/research tool requirement, students are also required to write one research paper the contents of which represent a distinct area. The completed paper must be submitted to the Graduate Studies Committee no later than the student's fourth semester of graduate study by the deadline established for that academic year. Following submission of the research paper, each student will conduct an oral defense of his or her work.

Doctoral Degree
Linguistics (PhD)
Application deadline: December 1

Students pursuing the PhD in Linguistics are required to complete a minimum of 60 units of course work beyond the baccalaureate. In addition to the 32 units completed toward the MA, students are required to take three 600-level seminars in linguistics and a minimum of four units of 794ab Doctoral Dissertation. No more than eight units of 794 may be applied toward the PhD degree. A maximum of 30 transfer units, approved by the university and the department may be applied to the PhD degree.

After successfully completing the screening procedure, students will establish a qualifying exam committee to determine a PhD course program in preparation for the dissertation. This course program must be approved by the Graduate Studies Committee.

Students seeking the PhD in linguistics must demonstrate knowledge of two foreign language/research tools with at least one of them falling under Option A. One of these two foreign language/research tools is satisfied as an MA requirement. See Foreign Language/Research Tool Requirement.

Advisement
The student in his or her first semester will have the option of either selecting a faculty adviser or postponing such a selection until, but no later than, the last day of classes of the first year in the program. The Graduate Studies Committee (GSC) will serve as a provisional adviser until the student makes a selection.

The student has the option of changing advisers at any time without the need to seek the original adviser's approval. The student should inform the GSC and the previous adviser of the change.

At the beginning of the second year of graduate study, the faculty adviser will assist the student in planning a program of study appropriate to the student's interests leading to the screening procedure.

Required Core Courses in Linguistics
Students pursuing the PhD program in linguistics are required to complete 32 units of course work toward the MA degree. See Waiver and Substitution of Course Requirements for possible exceptions.

**Required Courses**
- LING 530 Generative Syntax Units: 3
- LING 531a Phonology Units: 3

**Three Courses From The Following (To Be Completed By The End Of The Third Year)**
- LING 512 Linguistic Variation and Language Changes Units: 3
- LING 534 Logic and the Theory of Meaning Units: 3
- LING 576 Psycholinguistics Units: 3
- LING 580 General Phonetics Units: 3

**Additional Requirements**

**Screening Procedure**
Before a doctoral qualifying exam committee can be established for applicants to the PhD program, a student must pass a screening procedure. This procedure consists of a review of the student's graduate work at USC by Linguistics Department faculty. The review will be based on the following criteria: course work completed, including grades and papers; faculty recommendations; and evaluation of both the student's MA research paper and a PhD screening paper. The MA research and PhD screening papers must be in two different sub areas of linguistics, for example: syntax and psycholinguistics, or phonology and semantics, or sociolinguistics and typology.

The MA research paper must be completed and defended prior to the end of the fourth semester of graduate study, and the PhD screening paper must be completed and defended prior to the end of the fifth semester. The set of courses leading to the MA research paper and the PhD screening paper are determined through recommendation of the screening committee and approval of the Graduate Studies Committee.

**Qualifying Exam Committee**
Following the successful completion of the screening procedure, the student will establish a five-member qualifying exam committee. The qualifying exam committee is composed of at least five members; a minimum of three, including at least one tenured member, must be from the Linguistics Department and one must be a faculty member from outside the Linguistics Department. The Associate Vice Provost for Graduate Programs is ex officio a member of all qualifying exam committees. (Refer to the Graduate School Policies and Requirements for instructions on forming a qualifying exam committee.)

The Request to Take the Qualifying Examination Form is the means by which the qualifying exam committee is formally established. This form should be filed with the qualifying exam committee and the Graduate School the semester prior to taking the qualifying examination but no later than 30 days before the date of the student's written examination. In order to take the written examination, the student must submit a dissertation prospectus and an original research paper to each member of the qualifying exam committee.

**Qualifying Examination**
The examination qualifying a student for candidacy for the PhD degree is comprehensive in nature, partly written and partly oral. Prior to taking the qualifying examination, the student must have met all of the departmental requirements for doing so and have the recommendation of the qualifying exam committee. The committee will determine and administer the written examination.

The written examination consists of a limited number of questions in the fields related to the student's research. Students will receive the written examination two weeks after submitting the qualifying paper and will have 30 days to complete the questions. An oral examination will be scheduled by the qualifying exam committee two weeks after the written examination has been submitted.

The successful completion of the qualifying procedure is represented by the approval by the qualifying exam committee of (1) the prospectus, (2) the original research paper, (3) the written examination, and (4) oral defense.

**Dissertation**
The final stage of the program is the submission and defense of a dissertation that makes an original and substantial contribution to its field of study. Refer to the Graduate School section of the catalogue for the policies and procedures governing the submission of a dissertation.

**Linguistics (Specialization in East Asian Linguistics) (PhD)**

Application deadline: December 1

Students interested in East Asian linguistics take the Doctor of Philosophy in Linguistics with a specialization in East Asian linguistics. In addition to all requirements for the PhD in linguistics, the following courses are required: four courses or 15 units related to East Asian linguistics that are approved by the Graduate Studies Committee (GSC), which may be chosen from the following list: EALC 537, EALC 547, EALC 557, EALC 558, EALC 560, EALC 561, EALC 580, EALC 620 and LING 539. Upon approval by the GSC, other courses may be substituted. In addition, one of the two screening papers, the research paper associated with the qualifying examination and the doctoral dissertation must deal with at least one East Asian language. Students must also take LING 794a Doctoral Dissertation, LING 794b Doctoral Dissertation. Students must pass the reading examination in one East Asian language.

**Four courses or 15 units**

Four courses or 15 units related to East Asian linguistics that are approved by the Graduate Studies Committee (GSC), which may be chosen from the following list:
- EALC 537 Structure of the Korean Language Units: 4
- EALC 547 Structure of the Japanese Language Units: 4
- EALC 557 Structure of the Chinese Language Units: 4
• EALC 558 History of the Chinese Language Units: 4
• EALC 560 Comparative Syntax of East Asian Languages Units: 4
• EALC 561 Topics and Issues in East Asian Linguistics Units: 4
• EALC 580 Readings in East Asian Linguistics Units: 4
• EALC 620 Seminar in East Asian Linguistics Units: 4
• LING 539 Japanese/Korean Syntax and Theoretical Implications Units: 3

**Linguistics (Specialization in Slavic Linguistics) (PhD)**

Application deadline: January 1
Students interested in Slavic linguistics take the Doctor of Philosophy in Linguistics with a specialization in Slavic linguistics. In addition to all requirements for the MA in Linguistics, the following courses are required: LING 542; SLL 510, SLL 512, SLL 514 and SLL 516; three LING 600-level seminars; and 794a Doctoral Dissertation, 794b Doctoral Dissertation. Students must pass reading examinations in one Slavic language and either French or German.

**In addition**
In addition to all requirements for the MA in Linguistics, the following courses are required:
- LING 542 Historical Linguistics Units: 3, 2 years
- SLL 510 Old Church Slavonic Units: 3
- SLL 512 History of the Russian Language Units: 3
- SLL 514 Structure of Modern Russian: Phonology Units: 3
- SLL 516 Structure of Modern Russian: Morphology Units: 3

**Mathematical Finance**

Kaprielian Hall 104

Director: Jin Ma, PhD (Mathematics)
Co-director: Michael Magill, PhD (Economics)

**Progressive Degree Programs in Mathematics**

See Mathematics for progressive degree requirements.

**Minor**

**Mathematical Finance Minor**

Kaprielian Hall 104
(213) 740-3800

Staff Contact: Cynthia Mata-Flores (Undergraduate)
This interdisciplinary minor was created for students in business, economics and mathematics, whose majors already require some of the introductory course work. Students in other programs are welcome but should expect the minor to require more units than it does for students in those programs.

As with all minors, students must include at least four upper-division courses and four courses dedicated exclusively to this minor (which may be the same four courses). Finally, students must select four courses outside their major department. Economics majors must choose four courses outside of economics; math majors must choose four courses outside of math; business majors must choose four courses outside of the Marshall School of Business. These may be the same courses used to meet the first two conditions.

**Requirements**

- ECON 203g Principles of Microeconomics Units: 4
- ECON 205g Principles of Macroeconomics Units: 4
- ECON 351x Microeconomics for Business Units: 4
- ECON 352gx Macroeconomics for Business Units: 4

Choose one of the following two sequences (8 units):

- ECON 303 Intermediate Microeconomic Theory Units: 4 or
- ECON 305 Intermediate Macroeconomic Theory Units: 4
- BUAD 350 Macroeconomic Analysis for Business Decisions Units: 4
- BUAD 351 Economic Analysis for Business Decisions Units: 4

Choose two courses, one from each of the following groups (8 units):

- MATH 118gx Fundamental Principles of Calculus Units: 4
- MATH 125g Calculus I Units: 4
- MATH 218 Probability for Business Units: 4
- MATH 308 Statistical Inference and Data Analysis II Units: 4
- MATH 407 Probability Theory Units: 4
- ECON 317 Introduction to Statistics for Economists Units: 4

Choose two courses from the following list (8 units):

- MATH 126 Calculus II Units: 4 or
- MATH 127 Enhanced Calculus II Units: 4
Following requirements: those classes, students in those majors must complete the course work that also satisfies their majors. In addition to mathematics can meet many of these requirements with

Students

no prior course work: 42

Total requirements, for students with *Prerequisite required

Choose one course from the following list
(4 units):

- BUAD 306 Business Finance Units: 4 *
- BUAD 310g Applied Business Statistics Units: 4
- ECON 350 The World Economy Units: 4 *
- ECON 357 Money, Credit, and Banking Units: 4 *
- FBE 441 Investments Units: 4 *

Choose one course from the following list
(4 units):

- ECON 452 International Finance Units: 4 *
- ECON 457 Financial Markets Units: 4 *
- FBE 324 The Financial System Units: 4 *
- FBE 421 Financial Analysis and Valuation Units: 4 *
- FBE 443 Introduction to Forecasting and Risk Analysis Units: 4 *
- FBE 445 Topics in Economic Analysis of Business Strategy and Policy Units: 4 *
- FBE 459 Financial Derivatives Units: 4 *
- FBE 462 International Trade, Finance and Commercial Policy Units: 4 *

Choose one course from the following:

- ITP 109 Introduction to Java Programming Units: 2
- ITP 168 Introduction to MATLAB Units: 2
- CSCI 101L Fundamentals of Computer Programming Units: 3

Note:

*Prerequisite required

Total requirements, for students with no prior course work: 42–43 units

Students majoring in business administration, economics or mathematics can meet many of these requirements with course work that also satisfies their majors. In addition to those classes, students in those majors must complete the following requirements:

- Business majors satisfy 24 units with course work that is also required for the major and need to complete only 18 units in MATH, ECON and ITP or CSCI
- Economics majors satisfy 20–24 units with course work required for the major (including one major elective), needing only 18–22 units in BUAD, FBE, ITP or CSCI and MATH
- Mathematics majors satisfy 16 units with course work required for the major, needing only 26 units in BUAD, ECON, FBE and ITP or CSCI

Master's Degree

Mathematical Finance (MS)

The objective of this master of science program is to produce graduates with a rigorous foundation in the economic theory and mathematical modeling of financial markets. The program creates an integrated curriculum spanning four disciplines: economics, mathematics, econometrics/statistics and computational/numerical analysis. The program is designed for recent graduates in the fields of applied mathematics, physics and engineering — or for graduates in economics, business and finance with strong mathematical backgrounds — who wish to pursue high-tech finance careers in financial institutions, industry or government.

Admission Requirements

Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All applicants must take the GRE General Test. Complete transcripts of undergraduate and any graduate level courses are required, as well as a statement of purpose and three recommendation letters. A substantial undergraduate background in mathematics is required, which should include one semester of real analysis or advanced calculus, one semester of linear algebra and one semester of advanced probability/statistics. Candidates with weaker backgrounds may be required to take mathematics classes prior to admission to the program. An undergraduate knowledge of microeconomics and of macroeconomics, and partial differential equations is helpful, although it is not required for admission. Some experience in Matlab and C/C++ programming is also useful.

Foreign Language Requirement

There is no foreign language requirement.

Course Requirements

Thirty units of course work are required, six core courses and four to five elective courses. Students are required to satisfy a summative experience for degree completion. This will be in the form of registration in 1 unit of MATH 590 Directed Research with a summative report at the end of the term. Topics of research will be determined by the program director. The program consists of:

Required Core Courses (6 Courses, 18 Units)

Mathematics and Mathematical Finance:

- MATH 530a Stochastic Calculus and Mathematical Finance Units: 3
- MATH 530b Stochastic Calculus and Mathematical Finance Units: 3
• MATH 512 Financial Informatics and Simulation (Computer Labs and Practitioner Seminar) Units: 3
• MATH 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (1 Unit Required)

Financial Economics and Econometrics:
• ECON 613 Economic and Financial Time Series I Units: 4
• ECON 659 Economics of Financial Markets I Units: 4

Elective Courses (4 Courses, 12 Units)
Computational and Empirical Finance (must take at least 2 courses)*:
• FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
• FBE 554 Trading and Exchanges Units: 3
• FBE 555 Investment Analysis and Portfolio Management Units: 3
• FBE 559 Management of Financial Risk Units: 3
• FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3

Statistics*:
• MATH 541a Introduction to Mathematical Statistics Units: 3
• MATH 541b Introduction to Mathematical Statistics Units: 3
• MATH 543L Nonparametric Statistics Units: 3
• MATH 547 Methods of Statistical Inference Units: 3

Note:
(FBE 555 highly recommended)

Numerical/Optimization/Other Methods*:
• MATH 501 Numerical Analysis and Computation Units: 3
• MATH 502a Numerical Analysis Units: 3
• MATH 502b Numerical Analysis Units: 3
• MATH 504a Numerical Solution of Ordinary and Partial Differential Equations Units: 3
• MATH 504b Numerical Solution of Ordinary and Partial Differential Equations Units: 3
• MATH 505a Applied Probability Units: 3
• MATH 505b Applied Probability Units: 3
• MATH 508 Filtering Theory Units: 3
• MATH 509 Stochastic Differential Equations Units: 3
• MATH 585 Mathematical Theory of Optimal Control Units: 3

Computational and Financial Economics:
• ECON 614 Economic and Financial Time Series II Units: 4
• ECON 652 Economics of Financial Markets II Units: 4
• PM 511aL Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4

Note:
Prerequisites for any of the above courses can be waived based on students' knowledge of the subject area. Approval from the program director is required.

*The elective courses in statistics/numerical/optimization/other methods and computational and empirical finance have to be approved for each student by the program directors. Other electives, not on this list, may sometimes be approved after consultation with program directors.

Mathematics
The Department of Mathematics has designed its major to give students an understanding of the several areas of mathematics. The program of study allows students to use electives to prepare themselves for a specific field, whether in industry, teaching or advanced graduate research. The faculty is engaged in a wide variety of research activities and offers courses in many areas. The department offers the BS, BA and minor in mathematics; BS and BA in applied and computational mathematics; BS in mathematics/economics; minor in mathematical finance and minor in statistics; progressive degree programs in mathematics; MS in applied mathematics; MS in mathematical finance; MS in statistics; MA in mathematics; MA in applied mathematics; MS in computational molecular biology; PhD in applied mathematics; and PhD in mathematics.

Jonckheere, PhD (Electrical Engineering); Sheldon Kamienny, PhD; Igor Kukavica, PhD; Aaron Lauda, PhD; Sergey Lototsky, PhD; Jin Ma, PhD; Feodor Malikov, PhD; Remigijus Mikulevicius, PhD; Susan M. Montgomery,
courses at the 400 level or higher. The student must have an overall GPA of at least 3.5 in a remaining courses at the 400 level or higher must be MATH 225, MATH 226, and MATH 410, MATH 425a, MATH 425b, and MATH 471. For the BS degree, two years of university work as well as in the lower division course work. Students in other programs are welcome but should expect the minor to require more units than it does for students in these programs. For more information, see Mathematical Finance.

Graduate Degrees

Admission Requirements

All applicants must take the Graduate Record Examinations General Test.

Master of Arts and Doctor of Philosophy in Mathematics and in Applied Mathematics

A substantial undergraduate background in mathematics which includes one year of real analysis (MATH 425a/MATH 425b), one semester of abstract algebra (MATH 410) and one semester of upper-division linear algebra (MATH 471) is required.

Master of Science in Applied Mathematics, in Statistics and in Computational Molecular Biology

A substantial undergraduate background in mathematics which includes one semester of real analysis or advanced calculus and one semester of linear algebra is required. Regular admission pending completion during the first year of graduate studies of prerequisite undergraduate mathematics may be considered for applicants who otherwise qualify for the program.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Master of Science in Mathematical Finance

See Mathematical Finance.

Bachelor's Degree

Applied and Computational Mathematics (BA)

Pre-major Requirements:

- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or MATH 245 Mathematics of Physics and Engineering I Units: 4

Language

Those students intending to go on to graduate school should satisfy the language requirement in French, German or Russian.

Progressive Degree Programs in Mathematics

Outstanding undergraduate students may apply for a master's degree in any area for which their major is relevant. If accepted into the master's degree program, the student may work simultaneously toward their bachelor's degree and the master's degree. To apply for a master's degree, a student must have completed at least 64 units, but fewer than 96 units, toward their major. The application requires two letters of recommendation from USC faculty, at least one of whom must be in the department of the student's major. For more information on progressive degree programs, see here.

Undergraduate Degrees

Advanced Placement Examinations in Mathematics

The university grants 4 units of credit in mathematics for scores of 4 or 5.

Grade Point Average Requirements

For each undergraduate degree an overall GPA of 2.0 in all upper-division courses taken for the degree is required. In addition, any upper-division course specifically listed as required must be passed with a grade of C (2.0) or better (e.g., MATH 410, MATH 425a, MATH 425b and MATH 471 for the BS degree).

Minor in Mathematical Finance

This interdisciplinary minor was created for students in business, economics and mathematics, whose majors already require some of the introductory course work. Students in other programs are welcome but should expect the minor to require more units than it does for students in these programs. For more information, see Mathematical Finance.

Honors Program in Mathematics

Admission to the Program

The honors program is available for mathematics majors. A student must apply to the department for admission. A minimum grade point average of 3.5 is required in the first two years of university work as well as in the lower division mathematics courses MATH 125, MATH 126 or MATH 127, MATH 225 and MATH 226 or MATH 227.

Requirements

The students must complete all requirements for the degree program in which they are enrolled. MATH 410, MATH 425a, MATH 425b and MATH 471 are required. The remaining courses at the 400 level or higher must be acceptable for the BS degree. In addition, students in the honors program must register for at least four units of MATH 490x Directed Research. The student must have an overall GPA of at least 3.5 in all courses at the 400 level or higher.
In Mathematics:
- MATH 226 Calculus III Units: 4

At Least Four More Courses From the Following:
- MATH 370 Applied Algebra Units: 4
- MATH 408 Mathematical Statistics Units: 4
- MATH 410 Fundamental Concepts of Modern Algebra Units: 4
- MATH 425a Fundamental Concepts of Analysis Units: 4
- MATH 430 Theory of Numbers Units: 4
- MATH 432 Applied Combinatorics Units: 4
- MATH 445 Mathematics of Physics and Engineering II Units: 4
- MATH 465 Nonlinear Dynamics in Science and Engineering Units: 4
- MATH 466 Dynamic Modeling Units: 4
- MATH 467 Theory and Computational Methods for Optimization Units: 4
- MATH 471 Topics in Linear Algebra Units: 4

Students contemplating a graduate degree in mathematics are advised to take
- MATH 410 Fundamental Concepts of Modern Algebra Units: 4
- MATH 425b Fundamental Concepts of Analysis Units: 4
- MATH 471 Topics in Linear Algebra Units: 4

In Computing:
At least one programming course such as CSCI 101L Fundamentals of Computer Programming Units: 3
- CSCI 103L Introduction to Programming Units: 4
- ITP 109 Introduction to Java Programming Units: 2
- ITP 165 Introduction to C++ Programming Units: 2
- ITP 168 Introduction to MATLAB Units: 2
- or other programming course approved by the program advisers

Electives:
At least four additional courses with significant quantitative content in mathematics, natural sciences, computer science, engineering, economics or other fields approved by the department. At least three of the four must be outside the mathematics department; and at least one must be upper-division.

Mathematics (BA)
Six math courses at the 400 level or above including
• MATH 410 Fundamental Concepts of Modern Algebra Units: 4
• MATH 425a Fundamental Concepts of Analysis Units: 4 and either
• MATH 434 Geometry and Transformations Units: 4 or
• MATH 435 Vector Analysis and Introduction to Differential Geometry Units: 4 are required

Mathematics (BS)
Pre-major Requirements:
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4 or
• MATH 127 Enhanced Calculus II Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4
• MATH 226 Calculus III Units: 4 or
• MATH 227 Enhanced Calculus III Units: 4 are required
Eight math courses at the 400 level or above
• excluding MATH 450 History of Mathematics Units: 4 but including:

Required Courses
• MATH 410 Fundamental Concepts of Modern Algebra Units: 4
• MATH 425a Fundamental Concepts of Analysis Units: 4
• MATH 425b Fundamental Concepts of Analysis Units: 4
• MATH 471 Topics in Linear Algebra Units: 4

Required Physics Courses
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4

Note:
Four additional courses in natural sciences or computer science, but excluding courses in mathematics, are required. At least one of these must be an upper-division course, and each of the four courses must be acceptable for the Bachelor of Science degree in the department in which it is offered.

Combined Major
Mathematics/Economics (BS)
Students are required to take seven courses in economics, seven courses in mathematics and one course in computer programming languages.
Pre-major Requirement:
• MATH 125g Calculus I Units: 4

In Economics:
• ECON 203g Principles of Microeconomics Units: 4
• ECON 205g Principles of Macroeconomics Units: 4
• ECON 303 Intermediate Microeconomic Theory Units: 4
• ECON 305 Intermediate Macroeconomic Theory Units: 4
• ECON 318 Introduction to Econometrics Units: 4
• and at least two other ECON courses at the 400-level or above

In Mathematics:
• MATH 126 Calculus II Units: 4 or
• MATH 127 Enhanced Calculus II Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• MATH 226 Calculus III Units: 4 or
• MATH 227 Enhanced Calculus III Units: 4
• MATH 407 Probability Theory Units: 4
• MATH 408 Mathematical Statistics Units: 4
• at least two other MATH courses at the 400-level or above

In Computing:
At least one course chosen from
• ITP 165 Introduction to C++ Programming Units: 2
• CSCI 101L Fundamentals of Computer Programming Units: 3

Note:
Electives must be approved by the program advisers.

Minor
Mathematics Minor
Requirements
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4 or
• MATH 127 Enhanced Calculus II Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4 or
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• MATH 226 Calculus III Units: 4 or
• MATH 227 Enhanced Calculus III Units: 4
• and four math courses at the 400 level or above

One of which must be from
• MATH 410 Fundamental Concepts of Modern Algebra Units: 4
• MATH 425a Fundamental Concepts of Analysis Units: 4
• MATH 435 Vector Analysis and Introduction to Differential Geometry Units: 4
• MATH 440 Topology Units: 4 or
• MATH 471 Topics in Linear Algebra Units: 4

Note:
These four courses at the 400 level or above must total at least 16 units.

Statistics Minor
Kaprielian Hall 104
(213) 740-2400
This interdisciplinary minor should appeal to students from any discipline who are interested in acquiring a basic understanding of the mathematics underlying modern statistical analysis and inference techniques, in learning how to handle and analyze large data sets, and in gaining insight into the applications of modern statistics. Students who complete this minor should be able to critically interpret statistically based conclusions, should be viable candidates for entry level positions requiring some knowledge of modern statistics and data analysis, and should be prepared to enter a graduate-level program in applied statistics. The only prerequisite for this minor is one semester of elementary calculus.

As with all minors, students must include at least four upper-division courses and four courses dedicated exclusively to this minor (which may be the same four courses). Finally, students must select four courses outside their major department. These may be the same four courses used to meet the first two conditions. Note that Math BA and BS economics/mathematics students may complete this minor by taking MATH 407 and MATH 408 and at least 16 additional upper-division units approved by the Department of Mathematics, which are not in their major department and not being used to satisfy a requirement for their major. Note also that if calculus must be taken to satisfy the prerequisite for MATH 307, 20 units would be required to complete the minor.

Requirements
• MATH 307 Statistical Inference and Data Analysis I Units: 4 (prerequisite: MATH 118 or MATH 125)
• MATH 308 Statistical Inference and Data Analysis II Units: 4 or
• MATH 407 Probability Theory Units: 4
• MATH 408 Mathematical Statistics Units: 4
• Electives* Units: 8

Total units: 16

*Electives may be any upper-division or graduate level classes involving the theory or application of statistics approved by the Department of Mathematics. The department maintains a list of currently pre-approved courses that students may choose from. Potential courses include: BISC 478 Computational Genome Analysis (4 units), ECON 318 Introduction to Econometrics (4 units), ECON 419 Advanced Econometrics (4 units) and PSTD 421L Applied Multivariate Statistical Methods (4 units).

Master’s Degree
Applied Mathematics (MA)
Master of Arts in Mathematics and Master of Arts in Applied Mathematics
The objective of the Master of Arts program is to prepare students for research, teaching and other professional careers in mathematics and applied mathematics, respectively. In addition to the algebra requirement and differential geometry/topology option for the Master of Arts in Mathematics, the two programs differ in emphasis: the Master of Arts in Mathematics emphasizes the core courses in pure mathematics, and the Master of Arts in Applied Mathematics emphasizes courses in mathematics and affiliated fields that are fundamental in applied mathematics.

Relationship to PhD Programs in Mathematics and in Applied Mathematics
The two year MA program is an expansion of the first year of graduate studies in the PhD program in mathematics (respectively, the PhD program in applied mathematics). The program provides a rigorous foundation in mathematics (applied mathematics) while affording students additional time for preparatory training. The comprehensive examinations for the MA program can serve as the preliminary qualifying examination for either PhD program, and the written PhD qualifying examinations serve as comprehensive examinations for the corresponding Master of Arts degree.

Requirements for the Master of Arts in Mathematics
At least 24 units are required, including:

Required Courses
• MATH 510a Algebra Units: 3
• MATH 510b Algebra Units: 3
• MATH 520 Complex Analysis Units: 3
• MATH 525a Real Analysis Units: 3

And one option from A, B, C or D:
(A)
• MATH 535a Differential Geometry Units: 3
• MATH 540 Topology Units: 3

(B)
• MATH 555a Partial Differential Equations Units: 3
• MATH 565a Ordinary Differential Equations Units: 3
MATH 507a Theory of Probability Units: 3
MATH 541b Introduction to Mathematical Statistics Units: 3

MATH 502a Numerical Analysis Units: 3
MATH 502b Numerical Analysis Units: 3

Additional Requirements
The degree is completed with either departmental examinations (two written examinations selected from the two required components and the optional component) or a thesis demonstrating research ability in pure mathematics (the thesis option requires four additional thesis units selected from MATH 594a, MATH 594b, MATH 594z).

Requirements for the Master of Arts in Applied Mathematics
At least 24 units are required, including
- MATH 525a Real Analysis Units: 3

And at least three from these courses:
- MATH 502a Numerical Analysis Units: 3
- MATH 502b Numerical Analysis Units: 3
- MATH 505a Applied Probability Units: 3
- MATH 505b Applied Probability Units: 3
- MATH 570a Methods of Applied Mathematics Units: 3
- MATH 601 Optimization Theory and Techniques Units: 3
- plus at least 15 units of elected option courses

Additional Requirements
In addition, registration in MATH 594a, MATH 594b and a master's thesis is required for all students. This thesis is the end product of a practicum in the selected option. The practicum is supervised by the student's master's committee. For this program students are not required to take the screening examination or to satisfy a foreign language requirement.

Required Courses
- MATH 501 Numerical Analysis and Computation Units: 3
- MATH 505a Applied Probability Units: 3
- MATH 505b Applied Probability Units: 3
- MATH 570a Methods of Applied Mathematics Units: 3
- MATH 601 Optimization Theory and Techniques Units: 3
- plus at least 15 units of elected option courses

Computational Molecular Biology (MS)
The computational molecular biology program is designed to attract recent graduates in either mathematics, statistics, biology or computer science, or scientists and engineers interested in retraining. A commercial or laboratory internship is required. Students will be prepared for employment in the rapidly expanding areas of computational molecular biology and bioinformatics. The program has two tracks, appropriate for different undergraduate backgrounds: biology and mathematical science. The required courses for each track are indicated below.

Required Courses
- BISC 403 Advanced Molecular Biology Units: 4
- BISC 478 Computational Genome Analysis Units: 4
- BISC 505 Genomics and Molecular Genetics Units: 4
- BISC 542 Seminar in Molecular Biology Units: 1
- BISC 577a Computational Molecular Biology Laboratory Units: 2

Biological Sciences
- BISC 403 Advanced Molecular Biology Units: 4
- BISC 478 Computational Genome Analysis Units: 4
- BISC 505 Genomics and Molecular Genetics Units: 4
- BISC 542 Seminar in Molecular Biology Units: 1
- BISC 577a Computational Molecular Biology Laboratory Units: 2
• BISC 577b Computational Molecular Biology Laboratory Units: 2 *

Computer Science
• CSCI 485 File and Database Management Units: 4 **
• CSCI 570 Analysis of Algorithms Units: 4 ***

Mathematics
• MATH 407 Probability Theory Units: 4 **
• MATH 408 Mathematical Statistics Units: 4 **
• MATH 505a Applied Probability Units: 3 ***
• MATH 541a Introduction to Mathematical Statistics Units: 3 ***
• MATH 578a Computational Molecular Biology Units: 3 ***
• MATH 592 Computational Molecular Biology Internship Units: 3 *
• MATH 650 Seminar in Statistical Consulting Units: 3 *

Total units: 33-34
*Both tracks
**Biology track
***Mathematical science track

Students are required to demonstrate skill in C++, Java or Perl, and to demonstrate knowledge of molecular biology at the level of BISC 320L. A substantial report on the commercial or laboratory internship must be submitted (for which enrollment in MATH 592 is required).

Mathematics (MA)

Master of Arts in Mathematics and Master of Arts in Applied Mathematics

The objective of the Master of Arts program is to prepare students for research, teaching and other professional careers in mathematics and applied mathematics, respectively. In addition to the algebra requirement and differential geometry/topology option for the Master of Arts in Mathematics, the two programs differ in emphasis: the Master of Arts in Mathematics emphasizes the core courses in pure mathematics, and the Master of Arts in Applied Mathematics emphasizes courses in mathematics and affiliated fields that are fundamental in applied mathematics.

Relationship to PhD Programs in Mathematics and in Applied Mathematics

The two year MA program is an expansion of the first year of graduate studies in the PhD program in mathematics (respectively, the PhD program in applied mathematics). The program provides a rigorous foundation in mathematics (applied mathematics) while affording students additional time for preparatory training. The comprehensive examinations for the MA program can serve as the preliminary qualifying examination for either PhD program, and the written PhD qualifying examinations serve as comprehensive examinations for the corresponding Master of Arts degree.

Requirements for the Master of Arts in Mathematics
At least 24 units are required, including:

Required Courses
• MATH 510a Algebra Units: 3
• MATH 510b Algebra Units: 3
• MATH 520 Complex Analysis Units: 3
• MATH 525a Real Analysis Units: 3

And one option from A, B, C or D:
(A) • MATH 535a Differential Geometry Units: 3
• MATH 540 Topology Units: 3
(B) • MATH 555a Partial Differential Equations Units: 3
• MATH 565a Ordinary Differential Equations Units: 3
(C) • MATH 507a Theory of Probability Units: 3
• MATH 541b Introduction to Mathematical Statistics Units: 3
(D) • MATH 502a Numerical Analysis Units: 3
• MATH 502b Numerical Analysis Units: 3

Additional Requirements
The degree is completed with either departmental examinations (two written examinations selected from the two required components and the optional component) or a thesis demonstrating research ability in pure mathematics (the thesis option requires four additional thesis units selected from MATH 594a, MATH 594b, MATH 594z).

Requirements for the Master of Arts in Applied Mathematics
At least 24 units are required, including:

• MATH 525a Real Analysis Units: 3

And at least three from these courses:
• MATH 502a Numerical Analysis Units: 3
• MATH 502b Numerical Analysis Units: 3
• MATH 505a Applied Probability Units: 3 or
• MATH 507a Theory of Probability Units: 3
• MATH 505b Applied Probability Units: 3 or
• MATH 506 Stochastic Processes, or
• MATH 507b Theory of Probability Units: 3
• MATH 541a Introduction to Mathematical Statistics Units: 3
• MATH 541b Introduction to Mathematical Statistics Units: 3
• MATH 555a Partial Differential Equations Units: 3
• MATH 565a Ordinary Differential Equations Units: 3

Additional Requirements
Other elective courses, including those from other departments, have to be approved by the program adviser. The degree is completed with either departmental comprehensive examinations (two examinations, one covering the required component MATH 525a, and the second covering one of the elective MATH courses) or a thesis demonstrating research ability in applied mathematics (the thesis option requires four additional thesis units selected from MATH 594a, MATH 594b, MATH 594z).

Statistics (MS)
The object of this program is to provide academic instruction in statistical theory with a solid mathematical foundation while emphasizing applications to real world problems. Some probability theory is included to provide a rigorous foundation. The program is intended for individuals who are seeking or currently hold positions that involve statistical methodology and practice. A student may orient his or her course of study toward a particular field of application through appropriate selections from the program listings plus elective courses from other disciplines.

Course Requirements
Thirty units of course work are required, including:

Required Courses
- MATH 541a Introduction to Mathematical Statistics Units: 3
- MATH 541b Introduction to Mathematical Statistics Units: 3
- MATH 650 Seminar in Statistical Consulting Units: 3

And one from each of options A, B, C:

(A)
- MATH 505a Applied Probability Units: 3
- MATH 507a Theory of Probability Units: 3

(B)
- MATH 542L Analysis of Variance and Design Units: 3
- MATH 545L Introduction to Time Series Units: 3

(C)
- MATH 501 Numerical Analysis and Computation Units: 3
- MATH 502a Numerical Analysis Units: 3
- PM 511aL Data Analysis Units: 4

Plus at least 12 units of adviser-approved courses

Additional Requirements
Students may opt for a master’s thesis (and registration in MATH 594a, MATH 594b) or a written examination covering material from MATH 505a or MATH 507a, and MATH 541a, MATH 541b. The examination will normally be given at the end of the fall semester. Students must pass MATH 505a or MATH 507a, and MATH 541a, MATH 541b with a grade of B or higher. If a student receives a grade of B- or lower in any of these courses, the requirement can be waived upon passing the screening exam for the course at the master's level or higher.

Doctoral Degree

Applied Mathematics (PhD)
Application deadline: December 15
The program requires a maximum effort by the student for a minimum of four years of full-time work.

Screening Procedure
The screening examination consists of four one-hour examinations covering the subject content of: MATH 502a Numerical Analysis; MATH 505a Applied Probability (or, at the student's discretion, MATH 507a Theory of Probability); MATH 525a Real Analysis; and MATH 541a Introduction to Mathematical Statistics.

The department offers the examinations twice a year, at the end of summer and at the beginning of the spring semester. All four parts of the screening examination must be attempted by the end of the third semester (not counting summer sessions) in the program. The students may take each of the exams as many times as they wish, but three of the exams must be successfully completed by the end of the fourth semester (not counting summer sessions) and all four must be successfully completed by the end of the sixth semester in the program. The qualifying examination should follow two or three semesters after the successful completion of the screening procedure.

Qualifying Exam Committee
No later than at the end of the first semester after passing the screening procedure the student must form a qualifying exam committee consisting of an adviser and four other faculty members, including at least one from another department.

Qualifying Examination
The written portion of the qualifying examination consists of a PhD dissertation proposal. This document should include: introduction, statement of the problem, literature survey, methodology, summary of preliminary results, proposed research, references, appendix (including one or two fundamental references).

The oral portion of the qualifying examination consists of a presentation of the PhD dissertation proposal. The student must demonstrate research potential.

Course Requirements
The student must complete, with no grade lower than B, a minimum of 60 units of courses carrying graduate credit and approved by the qualifying exam committee.

These must include
- MATH 794a Doctoral Dissertation Units: 2
- MATH 794b Doctoral Dissertation Units: 2

And six courses from the following:
- MATH 502b Numerical Analysis Units: 3
- MATH 504a Numerical Solution of Ordinary and Partial Differential Equations Units: 3
- MATH 504b Numerical Solution of Ordinary and Partial Differential Equations Units: 3
- MATH 505b Applied Probability Units: 3

413
• MATH 507b Theory of Probability Units: 3
• MATH 509 Stochastic Differential Equations Units: 3
• MATH 520 Complex Analysis Units: 3
• MATH 525b Real Analysis Units: 3
• MATH 530b Stochastic Calculus and Mathematical Finance Units: 3
• MATH 532 Combinatorial Analysis Units: 3
• MATH 541b Introduction to Mathematical Statistics Units: 3
• MATH 542L Analysis of Variance and Design Units: 3
• MATH 545L Introduction to Time Series Units: 3
• MATH 555a Partial Differential Equations Units: 3
• MATH 565a Ordinary Differential Equations Units: 3
• MATH 574 Applied Matrix Analysis Units: 3
• MATH 576 Applied Complex Analysis and Integral Transforms Units: 3
• MATH 580 Introduction to Functional Analysis Units: 3
• MATH 585 Mathematical Theory of Optimal Control Units: 3

Additional Requirements

Transfer of Credit
No transfer of credit will be considered until the screening examination is passed. A maximum of 30 units of graduate work at another institution may be applied toward the course requirements for the PhD A grade of B(A = 4.0) or lower will not be accepted and, at most, two grades of B will be accepted. A PhD candidate may petition the department for transfer of additional credit, after he or she passes the qualifying examination.

Foreign Language Requirement
The student must demonstrate a reading comprehension of mathematics in one language (other than English) in which there is a significant body of research mathematics (such as Chinese, French, German, Japanese and Russian) by passing a written examination, administered by the Mathematics Department, in translation of mathematical content.

Dissertation
Following passage of the screening examination and approval of a dissertation topic by the qualifying exam committee, the student begins research toward the dissertation under the supervision of the dissertation committee. The primary requirement of the PhD is an acceptable dissertation based on a substantial amount of original research conducted by the student.

Research Areas
Opportunities for research are available from the faculty in several areas of applied mathematics with an emphasis on: computational biology, control theory, financial mathematics, mathematical neurosciences, numerical analysis, optimization, scientific computing, statistical genetics, statistics and stochastic differential equations.

Mathematics (PhD)
Application deadline: December 15
The program requires the maximum endeavor by the student for normally a minimum of four years of full-time work. The student must choose between two concentrations: Pure Mathematics or Pure and Applied Mathematics.

Screening Procedure
Appointment of a qualifying exam committee and retention in the doctoral program are contingent on passing the preliminary qualifying examination by the end of the second semester. If a student fails the examination, the department, at its discretion, may permit the student to take it again during the third semester of graduate studies. The preliminary qualifying exam is a written two-hour examination administered by the department. The student must choose between two options: analysis or algebra. Each option approximately covers the content of two one-semester graduate courses, with the precise list of possible topics made available to the student by the department.

Course Requirements
The student must complete with no grade lower than B a minimum of 60 units of courses carrying graduate credit and approved by the qualifying exam committee.

Pure Mathematics Concentration

Required Courses
• MATH 510a Algebra Units: 3
• MATH 525a Real Analysis Units: 3
• MATH 535a Differential Geometry Units: 3
• MATH 794a Doctoral Dissertation Units: 2
• MATH 794b Doctoral Dissertation Units: 2

Five courses selected from the following:
• MATH 507a Theory of Probability Units: 3
• MATH 510b Algebra Units: 3
• MATH 520 Complex Analysis Units: 3
• MATH 525b Real Analysis Units: 3
• MATH 532 Combinatorial Analysis Units: 3
• MATH 540 Topology Units: 3
• MATH 555a Partial Differential Equations Units: 3
• MATH 565a Ordinary Differential Equations Units: 3

Pure and Applied Mathematics Concentration

Required Courses
• MATH 502a Numerical Analysis Units: 3
• MATH 510a Algebra Units: 3
• MATH 525a Real Analysis Units: 3
• MATH 520 Complex Analysis Units: 3
• MATH 794a Doctoral Dissertation Units: 2
• MATH 794b Doctoral Dissertation Units: 2

Five courses selected from the following:
• MATH 502b Numerical Analysis Units: 3
• MATH 507a Theory of Probability Units: 3
• MATH 520 Complex Analysis Units: 3
• MATH 525b Real Analysis Units: 3
• MATH 532 Combinatorial Analysis Units: 3
• MATH 541a Introduction to Mathematical Statistics Units: 3
• MATH 555a Partial Differential Equations Units: 3
• MATH 565a Ordinary Differential Equations Units: 3

Additional Requirements

Transfer of Credit
No transfer of credit will be considered until the screening examination is passed. Normally a maximum of 30 units of graduate work at another institution may be applied toward the course requirements for the PhD A grade of B- or lower will not be accepted, and, at most, two grades of B will be accepted. A PhD candidate may petition the department for transfer of additional credit after passing the qualifying examination.

Foreign Language Requirement
The student must demonstrate a reading comprehension of mathematics in one language (other than English) in which there is a significant body of research mathematics (such as Chinese, French, German, Japanese and Russian) by passing a written examination, administered by the department, in translation of mathematical content.

Qualifying Examination
The written portion of the qualifying examination is comprehensive, consisting of two, two-hour examinations administered by the department. These examinations cover two out of the following five options, excluding the option already selected for the preliminary examination: algebra, analysis, geometry/topology, probability/statistics, differential equations. Each option approximately covers the content of two, one-semester graduate courses, with the precise list of possible topics made available to the students by the department. The selection of options must be approved by the qualifying exam committee. The oral portion of the qualifying examination covers one topic selected from department research areas in mathematics and approved by the qualifying exam committee. The student must demonstrate research potential in this field.

Dissertation
Following passage of the qualifying examination and approval of a dissertation topic by the qualifying exam committee, the student begins research toward the dissertation under the supervision of the dissertation committee. The primary requirement for the PhD is an acceptable dissertation which is based on a substantial amount of original research conducted by the student.

Research Areas
Opportunities for research are offered in the areas of algebraic geometry, arithmetic geometry, combinatorics, complex geometry, control theory, differential equations, differential geometry, dynamical systems, functional analysis, geometric analysis, group theory, K-theory, nonlinear analysis, number theory, numerical analysis, optimization, probability, representation theory, ring theory and topology.

Chair: Laurie A. Brand, PhD

Faculty
Robert Grandford Wright Professor and Professor of International Relations and Middle East Studies: Laurie A. Brand, PhD (International Relations)
Vice Dean and Professor: Philip Seib, JD (Annenberg School for Communication and Journalism)
Professor: Azade-Ayse Rorlich, PhD (History)
Associate Professor: Ramzi Rouighi, PhD (History)
Assistant Professor: Olivia Harrison, PhD (French and Italian)
Assistant Professor (Teaching): Peyman Nojoumian, PhD
Lecturers: Hani Khafipour, PhD; Afaf Nash, PhD; Suzan Wali

Affiliated Faculty
King Faisal Chair in Islamic Thought and Culture and Professor of Religion and American Studies and Ethnicity: Sherman Jackson, PhD (Religion)
Professors: Richard Dekmejian, PhD (Political Science); Reuven Firestone, PhD (Hebrew Union College); Jeffrey B. Nugent, PhD (Economics and Business); Bruce A. Phillips, PhD (Hebrew Union College); Bruce Zuckerman, PhD (Religion)
Associate Professor: Sarah Guaitieri, PhD (History & American Studies and Ethnicity)
Assistant Professors: Christelle Fischer-Bovet, PhD (Classics); Veli Yashin, PhD (Comparative Literature)
Associate Professor of the Practice: Lynn Swartz Dodd, PhD (Religion)
Lecturer: Fayeza Hammad, PhD (Political Science)

Bachelor's Degree
Middle East Studies (BA)
This major is an interdisciplinary degree that draws on courses from classics, comparative literature, economics, French, history, international relations, Judaic studies, political science and religion. It offers students interested in exploring the richness and complexity of the Middle East, broadly defined as extending from Morocco through Iran, a framework for developing both expertise and wide-ranging critical perspectives on the region's past, present and future. The variety of courses will allow students to tailor their choices to a range of possible emphases.
Nine total courses are required for the major. No more than two courses may be counted toward this major and another major.

I. Language
All MDES majors must demonstrate fourth semester competency in a Middle Eastern language. This can be achieved through placement, transfer credits from other institutions (subject to approval by MDES language faculty), from study abroad or through successfully completing the level IV Arabic (ARAB 252), Persian (IRAN 250) or Hebrew (HEBR 315) courses at USC. These three courses count as upper-division courses for the purposes of requirements for this degree.

- ARAB 252 Arabic IV Units: 4
- HEBR 315 Modern Hebrew Language (Hebrew IV) Units: 4
- IRAN 250 Persian IV Units: 4

II. Content Requirement
All students must take HIST 180 (an introductory survey course), which is a prerequisite for the major.

- HIST 180g The Middle East Units: 4

III. Content Courses
Students must also take: a) seven upper-division courses, chosen from MDES courses or from the list below; b) an eighth course, which may be level IV of Arabic, Hebrew, or Persian or an upper-division course from the MDES courses or from the list below. ARAB 300, ARAB 333 and ARAB 334 count toward the major only with departmental permission.

- ARAB 300 Introduction to Translation Units: 4
- ARAB 322 Advanced Arabic I Units: 4
- ARAB 333 Colloquial Arabic: Regional Dialects Units: 4
- ARAB 334 Media Arabic Units: 4
- ARAB 352 Advanced Arabic II Units: 4
- CLAS 349g Ancient Empires Units: 4
- CLAS 378 Ptolemaic Egypt Units: 4
- CLAS 499 Special Topics Units: 2, 3, 4
- COLT 448 Multilingual Encounters Units: 4
- ECON 342 Economic Development of the Middle East Units: 4
- FREN 448m France and Islam Units: 4
- HIST 324g Islam in Russia, the USSR, and Independent States Units: 4
- HIST 382 The Middle East, 500–1500 Units: 4
- HIST 383 The Modern Middle East Units: 4
- HIST 384 Popular Culture in the Middle East Units: 4
- HIST 480 Seminar in Middle East History Units: 4
- IR 362 The International Relations of the Contemporary Middle East Units: 4
- IR 363 Middle East Political Economy Units: 4
- IR 464 US-Middle East Foreign Policy Issues Units: 4
- IRAN 320 Advanced Persian I Units: 4
- IRAN 350 Advanced Persian II Units: 4
- JS 314gp Holy War And History: Jews, Christians, Muslims Units: 4
- JS 389 Culture and Society in Israel: Inventing the Dream Units: 4
- MDES 312 Shadow of God on Earth: Religion/Politics in Medieval Persia Units: 4
- MDES 313 Modern Iran: Fall of Monarchies and Rise of Islamic Republic Units: 4
- MDES 314 Political Thought in the Middle East Units: 4
- MDES 316p The Great Muslim Empires of the Near East and India Units: 4
- MDES 324 Classical Persian Literature in Translation Units: 4
- MDES 325 Modern Persian Literature in Translation Units: 4
- MDES 340 Perspectives on US Foreign Policy in the Middle East Units: 4
- MDES 342g Modern Arab State and Society I: Media and Intellectual Works Units: 4
- MDES 343g Modern Arab State and Society II: Culture and Literature Units: 4
- MDES 345p Sovereignty in the Middle East Units: 4
- MDES 461 Topics in Ancient Iranian Languages and Cultures Units: 4
- POSC 351 Middle East Politics Units: 4
- REL 315 Thought and Life of Islam Units: 4
- REL 316 Women and the Islamic Tradition Units: 4
- REL 394 Archaeology of Egypt and the Near East Units: 4
- REL 402 Cultural Heritage, Religion, and Politics in the Middle East Units: 4
- REL 414 History of Islamic Law Units: 4
- REL 494 Lab Methods and Theories in Archaeology Units: 4

Additional Requirements
Students majoring or minoring in any of the programs offered by the Middle East Studies Program are strongly encouraged to study in the Middle East in one of USC’s study abroad programs. With departmental approval, relevant courses taken abroad may be counted toward the Middle East Studies major and minor, Iranian Studies minor and Arabic minor. USC currently has programs at the Hebrew University of Jerusalem in Jerusalem, Israel; the Princess Sumaya University for Technology in Amman, Jordan; and the AMIDEAST Center in Rabat, Morocco.

Honors Program
Candidates for the BA in Middle East Studies may receive a designation on their transcripts of departmental honors. Admission to the honors program is required.

**Prerequisites:** 3.33 overall GPA; 3.5 GPA or better in courses in the major; a minimum grade of B+ in MDES/HIST 180; completion of at least one upper-level MDES courses (400 level) requiring a seminar paper, at the time of admission; submission of an application form to the MDES undergraduate faculty adviser. Prior approval of the thesis adviser and/or program director is required for any modification of these requirements.

**Required for departmental honors:** The student must maintain the GPA requirements stated above and successfully complete the MDES 492 Honors Thesis. In semesters when MDES 492 is not offered, students may, with program approval, substitute MDES 490 (independent study) as constituting an honors seminar equivalent.

## Minor

**Arabic and Middle East Studies Minor**

The undergraduate minor program gives students the opportunity of supplementing their major with an emphasis in Arabic and Middle East Studies. The 20-unit interdisciplinary minor is designed for students who want to explore and develop a critical understanding of Middle East history, culture, religion and global issues as well as acquire excellent knowledge of the Arabic language.

**Required Courses, Lower-Division**

- MDES 252 Arabic IV Units: 4

**Required Courses, Upper-Division**

- ANTH 327 Anthropology of the Middle East and Islam Units: 4
  - POSC 351 Middle East Politics Units: 4 or
  - IR 363 Middle East Political Economy Units: 4

- REL 315 Thought and Life of Islam Units: 4

**One course from the following:**

- IR 362 The International Relations of the Contemporary Middle East Units: 4
- IR 363 Middle East Political Economy Units: 4
- POSC 351 Middle East Politics Units: 4

**Note:**

*Cannot replicate IR 363 or POSC 351

**Arabic Minor**

The Arabic minor provides students with advanced competency in speaking, reading, writing and understanding the Arabic language. Advanced ability in Arabic can open many doors. Course work for this minor prepares students for various careers and graduate-level study.

Five courses (20 units) are required for the minor. All students must take ARAB 252, ARAB 322 and ARAB 352. For those students who do not already have ARAB 252 equivalent proficiency, ARAB 122, ARAB 152 and ARAB 222 or their equivalent (which do not count toward the minor) must be completed before enrolling in ARAB 252. For those with prior study of Arabic, a placement exam is offered by the USC Language Center to determine language level. If student proficiency surpasses the third-semester college level, the USC Language Center should be consulted about a higher-level proficiency exam. The remaining two courses (8 units) must be selected from the list of elective courses below.

Students are encouraged to study abroad. Prior approval by the department is required of all courses that are to be counted toward the minor. Equivalent courses from other universities will be assessed by the MESP Arabic language program coordinator.

**Required Courses**

- ARAB 252 Arabic IV Units: 4
- ARAB 322 Advanced Arabic I Units: 4
- ARAB 352 Advanced Arabic II Units: 4

**Upper-Division Arabic Elective Courses**

Two courses (8 units) from the following list must also be selected (or substitutes that are pre-approved by the MESP Arabic language program coordinator). The prerequisite for ARAB 300 is either ARAB 252 or ARAB 334.

- ARAB 300 Introduction to Translation Units: 4
- ARAB 333 Colloquial Arabic: Regional Dialects Units: 4
- ARAB 334 Media Arabic Units: 4

**Iranian Studies Minor**

The Iranian Studies minor provides students with the foundation for an advanced understanding of Iran, its history, peoples and cultures, from antiquity to the present. Neighboring countries that participated in Persian culture are included, as well as non-Persian Iranian peoples. Students finishing this minor will also have at least an intermediate ability in Persian, the official language of Iran, widely used in neighboring countries as well.

**Required Courses**

Five courses (20 units) are required for the minor. All students must take HIST 180 and IRAN 250. For those students who do not already have IRAN 250-equivalent proficiency, IRAN 120, IRAN 150 and IRAN 220 or their equivalent (which do not count toward the minor) must be completed before enrolling in IRAN 250. For those with prior study of Persian, a placement exam is offered by the USC Language Center to determine language level. If student proficiency surpasses the third-semester college level, the USC Language Center should be consulted about a higher-level proficiency exam.

**Upper-Division Iranian Studies Initiative Courses**

At least one course (4 units) of the three additional courses (12 units) must be selected from the upper-division Iranian Studies Initiative courses. The other two (8 units) may be chosen from the upper-division Iranian Studies Initiative
courses or the upper-division Middle East Studies courses listed below.

- IRAN 320 Advanced Persian I Units: 4
- IRAN 350 Advanced Persian II Units: 4
- MDES 312 Shadow of God on Earth: Religion/Politics in Medieval Persia Units: 4
- MDES 313 Modern Iran: Fall of Monarchies and Rise of Islamic Republic Units: 4
- MDES 314 Political Thought in the Middle East Units: 4
- MDES 316p The Great Muslim Empires of the Near East and India Units: 4
- MDES 324 Classical Persian Literature in Translation Units: 4
- MDES 325 Modern Persian Literature in Translation Units: 4
- MDES 461 Topics in Ancient Iranian Languages and Cultures Units: 4

Upper-Division Middle East Studies Courses

- CLAS 349g Ancient Empires Units: 4
- HIST 382 The Middle East, 500–1500 Units: 4
- HIST 383 The Modern Middle East Units: 4
- HIST 384 Popular Culture in the Middle East Units: 4
- IR 362 The International Relations of the Contemporary Middle East Units: 4
- MDES 340 Perspectives on US Foreign Policy in the Middle East Units: 4
- MDES 345p Sovereignty in the Middle East Units: 4
- POSC 351 Middle East Politics Units: 4
- REL 315 Thought and Life of Islam Units: 4
- REL 316 Women and the Islamic Tradition Units: 4
- REL 414 History of Islamic Law Units: 4

Middle East Studies Minor

Drawing on courses from 10 different departments, this interdisciplinary minor offers students interested in exploring the richness and complexity of the Middle East, broadly defined as extending from Morocco through Iran, a framework for developing a basic but solid understanding of the region. Students may select courses that provide a broad introduction across disciplines, or they may choose courses that address a particular historical period or theme. Twenty units (five courses) are required. All students must take HIST 180. To complete the minor a student must also take four upper-division courses from the list below. Students who are also studying a language may substitute ARAB 252, HEBR 315 or IRAN 250 for one of the four upper-division courses. However there is no language requirement for the minor.

Required Courses

- HIST 180g The Middle East Units: 4

Four of the following courses:

Four courses from the list below, only two of which may be language courses. ARAB 300, ARAB 333 and ARAB 334 may count toward the minor only with departmental permission.

- ARAB 252 Arabic IV Units: 4
- ARAB 300 Introduction to Translation Units: 4
- ARAB 322 Advanced Arabic I Units: 4
- ARAB 333 Colloquial Arabic: Regional Dialects Units: 4
- ARAB 334 Media Arabic Units: 4
- ARAB 352 Advanced Arabic II Units: 4
- CLAS 349g Ancient Empires Units: 4
- CLAS 378 Ptolemaic Egypt Units: 4
- CLAS 499 Special Topics Units: 2, 3, 4
- COLT 448 Multilingual Encounters Units: 4
- ECON 342 Economic Development of the Middle East Units: 4
- FREN 448m France and Islam Units: 4
- HEBR 315 Modern Hebrew Language (Hebrew IV) Units: 4
- HIST 324g Islam in Russia, the USSR, and Independent States Units: 4
- HIST 382 The Middle East, 500–1500 Units: 4
- HIST 383 The Modern Middle East Units: 4
- HIST 384 Popular Culture in the Middle East Units: 4
- HIST 480 Seminar in Middle East History Units: 4
- IR 362 The International Relations of the Contemporary Middle East Units: 4
- IR 363 Middle East Political Economy Units: 4
- IR 464 US-Middle East Foreign Policy Issues Units: 4
- IRAN 250 Persian IV Units: 4
- IRAN 320 Advanced Persian I Units: 4
- IRAN 350 Advanced Persian II Units: 4
- JS 314gp Holy War And History: Jews, Christians, Muslims Units: 4
- JS 389 Culture and Society in Israel: Inventing the Dream Units: 4
- MDES 312 Shadow of God on Earth: Religion/Politics in Medieval Persia Units: 4
- MDES 313 Modern Iran: Fall of Monarchies and Rise of Islamic Republic Units: 4
- MDES 314 Political Thought in the Middle East Units: 4
- MDES 316p The Great Muslim Empires of the Near East and India Units: 4
- MDES 324 Classical Persian Literature in Translation Units: 4
- MDES 325 Modern Persian Literature in Translation Units: 4
- MDES 340 Perspectives on US Foreign Policy in the Middle East Units: 4
- MDES 342g Modern Arab State and Society I: Media and Intellectual Works Units: 4
- MDES 343g Modern Arab State and Society II: Culture and Literature Units: 4
- MDES 345p Sovereignty in the Middle East Units: 4
- MDES 461 Topics in Ancient Iranian Languages and Cultures Units: 4
- POSC 351 Middle East Politics Units: 4
- REL 315 Thought and Life of Islam Units: 4
- REL 316 Women and the Islamic Tradition Units: 4
- REL 394 Archaeology of Egypt and the Near East Units: 4
- REL 402 Cultural Heritage, Religion, and Politics in the Middle East Units: 4
- REL 414 History of Islamic Law Units: 4
- REL 494 Lab Methods and Theories in Archaeology Units: 4

Neuroscience (Undergraduate)
Hedco Neuroscience Building 120
(213) 740-6091
FAX: (213) 740-2534
Email: yuhungw@usc.edu

Participating Faculty: See Biological Sciences, Computer Science, Biomedical Engineering, Philosophy, Psychology, Engineering, Gerontology, Medicine and Pharmacy in this catalogue.

Honors Program in Neuroscience
An honors program is available to outstanding students who are pursuing a BA or BS degree in Neuroscience. This program offers students exceptional opportunities to participate in undergraduate research, culminating in the experience of writing an honors thesis summarizing their completed research. Honors students must register for 4 units of Directed Research (NEUR 490x). Honors students are also required to take two semesters of the Honors Seminar (BISC 493x as one of their upper-division electives, 1 unit/semester), in which small groups of students discuss recent findings in neuroscience literature and their own research. After completing the honors seminar, honors students also take one semester of Honors Thesis (BISC 494x, 2 units), in which students write their senior thesis. Students earning honors in neuroscience must have a minimum overall GPA of 3.5 at graduation. This program leads to the designation on the transcript of Bachelor of Arts/Science in Neuroscience with Honors.

Bachelor's Degree
Computational Neuroscience (BS)
Co-coordinators: Irving Biederman, PhD and Albert Herrera
Undergraduate Advisers: Lica Abu-Esba, abuesba@dornsife.usc.edu; Briana Weiland, bweiland@dornsife.usc.edu

The computational neuroscience major is designed for those students with an interest in applying mathematical and computational methodologies toward understanding the structure and functioning of the nervous system. The major will provide progressive training in interdisciplinary and inter-faculty aspects of neuroscience, and serve as a foundation for students interested in pursuing post-graduate education in graduate or professional schools or career opportunities in technically advanced occupations. Research

Grade Requirements
A grade of C- or higher is required to count toward major requirements.

Program Requirements:
Eleven core courses (44 units) + 6-7 electives (16-18 units) for a total of 62-68 units.

Core Requirements
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- BISC 421 Neuroscience Units: 4
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4 or
- CHEM 105aLg General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- NEUR 408 Systems Neuroscience: From Synapses to Perception Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 135bl Physics for the Life Sciences Units: 4 or
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4
PSYC 440 Introduction to Cognitive Neuroscience Units: 4

Computational Area
Students are to take a total of three courses. The courses are listed in the table according to the programming language of the courses. It is not obligatory that all courses be from the same programming language, but the student should be aware that knowledge of a different language will likely be assumed in the advanced courses. Only one introductory programming course will be counted toward the major, although an introductory programming course is not required.

Computational Area: Introductory Courses
Optional: Choose one course (2-4 units).
- CSCI 103L Introduction to Programming Units: 4
- CSCI 455x Introduction to Programming Systems Design Units: 4
- EE 150L Engineering Computational Methods Units: 3
- ITP 109 Introduction to Java Programming Units: 2
- ITP 115 Programming in Python Units: 2
- ITP 168 Introduction to MATLAB Units: 2

Computational Area: Advanced Courses
Choose 2-3 courses (6-12 units). A minimum of two courses is required.
- BME 210 Biomedical Computer Simulation Methods Units: 4
- BME 402 Control and Communication in the Nervous System Units: 4
- CSCI 360L Introduction to Artificial Intelligence Units: 4
- CSCI 445L Introduction to Robotics Units: 4
- PSYC 450L Neural Network Models of Social and Cognitive Processes Units: 4

Graduate-Level Courses
A graduate-level advanced course from those listed below may be substituted for the undergraduate advanced course with permission:
- BME 502 Advanced Studies of the Nervous System Units: 4
- BME 575L Computational Neuroengineering Units: 3
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 564 Brain Theory and Artificial Intelligence Units: 3
- CSCI 574 Computer Vision Units: 3
- CSCI 662 Advanced Natural Language Processing Units: 4
- EE 559 Mathematical Pattern Recognition Units: 3
- NSCI 524 Advanced Overview of Neurosciences Units: 4
- NSCI 531 Molecular and Cellular Neurobiology Units: 4
- NSCI 532 Systems and Behavioral Neurobiology Units: 4
- PSYC 506 Learning and Cognition Units: 3
- PSYC 510 Visual Cognition Units: 4
- PSYC 540 Cognitive Neuroscience Units: 4
- PSYC 544 Psychophysiology Units: 4
- PSYC 545 Neuropsychology Units: 4
- PSYC 547 Functional Neuroanatomy Units: 4
- PSYC 551 Decision Neuroscience Units: 4
- PSYC 555 Introduction to Functional Magnetic Resonance Imaging Units: 4

Biological Area
Choose 1-2 courses (4 units).
- BISC 424 Brain Architecture Units: 4
- BISC 461 Seminar in Molecular and Computational Biology Units: 2
- BISC 462 Seminar in Neurobiology Units: 2
- BISC 481 Structural Bioinformatics: From Atoms to Cells Units: 4
- BISC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Psychology Area
Choose one (4 units).
- PSYC 301L Cognitive Processes Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 424 Neuropsychology Units: 4
- PSYC 425 Functional Imaging of the Human Brain Units: 4
- PSYC 420 Animal Behavior Units: 4
- PSYC 438 Behavioral Genetics Units: 4

Math Electives
Choose one Math course (4 units) from the list below OR choose one additional course from the areas listed above not already counting for the major.
- MATH 225 Linear Algebra and Linear Differential Equations Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4

12 core (48 units) + 6 electives (21–22 units); 69–70 units

Neuroscience (BA)
Co-coordinators: Irving Biederman, PhD and Albert Herrara, PhD.
Grade Requirements
A grade of C- or higher is required to count toward major requirements.

Degree Requirements
The degree requires eight core courses (32 units) and four or five elective courses (minimum 16 units) for a minimum of 48 total units.

Core Requirements (32 Units)

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- BISC 408 Systems Neuroscience: From Synapses to Perception Units: 4
- BISC 421 Neurobiology Units: 4
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4 or
- CHEM 105aLg General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4 *
- PSYC 440 Introduction to Cognitive Neuroscience Units: 4

Note:
*An equivalent course may be substituted with permission.

Elective Courses
Four or five upper-division elective courses (minimum 16 units) from the list below are required. At least one course in the upper-division electives must carry a lab ("L") designation or be NEUR 490x. No more than 4 units of NEUR 490x may be used to fulfill the upper-division elective requirement.

Electives

- BISC 307L General Physiology Units: 4
- BISC 313L Evolution and Population Genetics Units: 4
- BISC 320L Molecular Biology Units: 4
- BISC 325 Genetics Units: 4
- BISC 330L Biochemistry Units: 4
- BISC 403 Advanced Molecular Biology Units: 4
- BISC 406L Biotechnology Units: 4
- BISC 410 Applications of Molecular Biology to Medicine Units: 4
- BISC 411 Advanced Cell Biology Units: 4
- BISC 422L Neurobiology Laboratory Units: 2
- BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4
- BISC 424 Brain Architecture Units: 4
- BISC 426 Principles of Neural Development Units: 4
- BISC 462 Seminar in Neurobiology Units: 2
- BISC 480 Developmental Biology Units: 4
- BME 402 Control and Communication in the Nervous System Units: 4
- CSCI 360L Introduction to Artificial Intelligence Units: 4
- GERO 414 Neurobiology of Aging Units: 4
- GERO 415 Neuroaffective Disorders of Aging Units: 4
- HBIO 306 Primate Social Behavior and Ecology Units: 4
- MATH 265 Mathematical and Computational Methods for Neuroscience Units: 4 *
- NEUR 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- PSYC 301L Cognitive Processes Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 305 Learning and Memory Units: 4
- PSYC 320 Principles of Psychobiology Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 404L Psychophysiology of Emotion Units: 4
- PSYC 420 Animal Behavior Units: 4
- PSYC 424 Neuropsychology Units: 4
- PSYC 425 Functional Imaging of the Human Brain Units: 4
- PSYC 426 Motivated Behaviors and Addiction Units: 4
- PSYC 438 Behavioral Genetics Units: 4
- PSYC 450L Neural Network Models of Social and Cognitive Processes Units: 4

Note:
*Only an elective for BA and minor.

Note:
A graduate class from the following list can be substituted for an upper-division elective with permission with minimum GPA of 3.3 and permission of co-directors and instructor.

- BME 575L Computational Neuroengineering Units: 3
- CSCI 564 Brain Theory and Artificial Intelligence Units: 3
- NSCI 524 Advanced Overview of Neurosciences Units: 4
- NSCI 531 Molecular and Cellular Neurobiology Units: 4
- NSCI 532 Systems and Behavioral Neurobiology Units: 3
- PSYC 506 Learning and Cognition Units: 4
• PSYC 510 Visual Cognition Units: 4
• PSYC 540 Cognitive Neuroscience Units: 4
• PSYC 544 Psychophysiology Units: 4
• PSYC 545 Neuropsychology Units: 4
• PSYC 547 Functional Neuroanatomy Units: 4
• PSYC 551 Decision Neuroscience Units: 4
• PSYC 555 Introduction to Functional Magnetic Resonance Imaging Units: 4

Neuroscience (BS)
Co-coordinators: Irving Biederman, PhD and Albert Herrera, PhD.
Undergraduate Advisers: Lica Abu-Esba, abuesba@dornsife.usc.edu; Briana Weiland, bweiland@dornsife.usc.edu

Grade Requirements
A grade of C- or higher is required to count toward major requirements.

Degree Requirements
The degree requires 14 core courses (minimum 54 units) and five or six elective courses (minimum 20 units) for a minimum total of 74 units.

Core Requirements
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
• BISC 408 Systems Neuroscience: From Synapses to Perception Units: 4
• BISC 421 Neurobiology Units: 4
• CHEM 105aLg General Chemistry Units: 4 or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115bL Advanced General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115bL Advanced General Chemistry Units: 4
• CHEM 322aL Organic Chemistry Units: 4
• CHEM 322bL Organic Chemistry Units: 4
• CSCI 103L Introduction to Programming Units: 4 or
• CSCI 455x Introduction to Programming Systems Design Units: 4 or
• EE 150L Engineering Computational Methods Units: 3 or
• ITP 109 Introduction to Java Programming Units: 2 or
• ITP 115 Programming in Python Units: 2 or
• ITP 168 Introduction to MATLAB Units: 2
• MATH 125g Calculus I Units: 4
• PHYS 135ag Physics for the Life Sciences Units: 4 or
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 135bl Physics for the Life Sciences Units: 4 or
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PSYC 100Lg Introduction to Psychology Units: 4
• PSYC 307L General Physiology Units: 4 or
• PSYC 313L Evolution and Population Genetics Units: 4
• PSYC 320L Molecular Biology Units: 4
• PSYC 325 Genetics Units: 4
• PSYC 330L Biochemistry Units: 4
• PSYC 340 Advanced Molecular Biology Units: 4
• PSYC 406L Biotechnology Units: 4
• PSYC 410 Applications of Molecular Biology to Medicine Units: 4
• PSYC 411 Advanced Cell Biology Units: 4
• PSYC 422L Neurobiology Laboratory Units: 2
• PSYC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4
• PSYC 424 Brain Architecture Units: 4
• PSYC 426 Principles of Neural Development Units: 4
• PSYC 462 Seminar in Neurobiology Units: 2
• PSYC 480 Developmental Biology Units: 4
• BME 402 Control and Communication in the Nervous System Units: 4
• CSCI 360L Introduction to Artificial Intelligence Units: 4
• GER 414 Neurobiology of Aging Units: 4
• GER 415 Neuroaffective Disorders of Aging Units: 4
• HBIO 306 Primate Social Behavior and Ecology Units: 4

Note:
*An equivalent course may be substituted with permission.

Elective courses
Five or six upper-division elective courses (minimum of 20 units) from the following list are required. At least one course in the upper-division electives must carry a lab (“L”) designation or be 490. No more than 4 units of NEUR 490x may be used to fulfill the upper-division elective requirement.

Electives
• BISC 307L General Physiology Units: 4
• BISC 313L Evolution and Population Genetics Units: 4
• BISC 320L Molecular Biology Units: 4
• BISC 325 Genetics Units: 4
• BISC 330L Biochemistry Units: 4
• BISC 340 Advanced Molecular Biology Units: 4
• BISC 406L Biotechnology Units: 4
• BISC 410 Applications of Molecular Biology to Medicine Units: 4
• BISC 411 Advanced Cell Biology Units: 4
• BISC 422L Neurobiology Laboratory Units: 2
• BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4
• BISC 424 Brain Architecture Units: 4
• BISC 426 Principles of Neural Development Units: 4
• BISC 462 Seminar in Neurobiology Units: 2
• BISC 480 Developmental Biology Units: 4
• BME 402 Control and Communication in the Nervous System Units: 4
• CSCI 360L Introduction to Artificial Intelligence Units: 4
• GER 414 Neurobiology of Aging Units: 4
• GER 415 Neuroaffective Disorders of Aging Units: 4
• HBIO 306 Primate Social Behavior and Ecology Units: 4
• MATH 265 Mathematical and Computational Methods for Neuroscience Units: 4
• NEUR 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
• PSYC 301L Cognitive Processes Units: 4
• PSYC 304L Sensation and Perception Units: 4
• PSYC 305 Learning and Memory Units: 4
• PSYC 320 Principles of Psychobiology Units: 4
• PSYC 326 Behavioral Neuroscience Units: 4
• PSYC 404L Psychophysiology of Emotion Units: 4
• PSYC 420 Animal Behavior Units: 4
• PSYC 424 Neuropsychology Units: 4
• PSYC 425 Functional Imaging of the Human Brain Units: 4
• PSYC 438 Behavioral Genetics Units: 4
• PSYC 506 Learning and Cognition Units: 4*
• PSYC 510 Visual Cognition Units: 4*
• PSYC 540 Cognitive Neuroscience Units: 4*
• PSYC 544 Psychophysiology Units: 4*

A graduate class from the following list can be substituted for an upper-division elective with permission:

• BME 575L Computational Neuroengineering Units: 3 *
• CSCI 564 Brain Theory and Artificial Intelligence Units: 3 *
• NSCI 524 Advanced Overview of Neurosciences Units: 4 *
• NSCI 531 Molecular and Cellular Neurobiology Units: 4 *
• NSCI 532 Systems and Behavioral Neurobiology Units: 3 *
• PSYC 506 Learning and Cognition Units: 4 *
• PSYC 510 Visual Cognition Units: 4 *
• PSYC 540 Cognitive Neuroscience Units: 4 *
• PSYC 544 Psychophysiology Units: 4 *
• PSYC 545 Neuropsychology Units: 4 *
• PSYC 547 Functional Neuroanatomy Units: 4 *
• PSYC 551 Decision Neuroscience Units: 4 *

Note:
*With minimum GPA of 3.3 and permission of co-directors and instructor

Minor

Neuroscience Minor

Co-coordinators: Sarah Bottjer, PhD, and Irving Biederman, PhD
Undergraduate Advisers: Eva Hinojoza, hinojoza@dornsife.usc.edu; Briana Weiland, bweiland@dornsife.usc.edu

Grade Requirements

A grade of C- or higher is required to count toward minor requirements.

Core Requirements (20 Units)

• PSYC 274Lg Statistics Units: 4 *
• BISC 421 Neurobiology Units: 4 **
• NEUR 408 Systems Neuroscience: From Synapses to Perception Units: 4 **
• PSYC 440 Introduction to Cognitive Neuroscience Units: 4 ***
• Electives A 300- or 400-level course from the elective list for majors Units: 4

Note:
*An equivalent course may be substituted with permission
**Prerequisite: BISC 220 or BISC 221
***Prerequisite: PSYC 100

Recommended but not required: CHEM 103Lx (or CHEM 105La) plus MATH 125
Students who have not already taken the prerequisites (BISC 220/BISC 221 and PSYC 100) will need to take a total of 28 units to satisfy the requirements of a minor in neuroscience. Thus, the range of units will vary from 20 to 28 depending on a student's background.

Ocean Sciences

Zumberge Hall of Science 117
(213) 740-6106
FAX: (213) 740-8801
Email: waite@usc.edu
oceansciences.usc.edu

Director: Douglas E. Hammond, PhD

Participating Faculty: See Biological Sciences, Earth Sciences and Engineering in this catalogue.

Applications for the Ocean Sciences program should be routed through the affiliated departments and a separate letter sent to the Ocean Sciences Director, Douglas E. Hammond, USC Earth Sciences, Los Angeles, CA 90089-0740.

Degree Programs

The Graduate Program in Ocean Sciences (GPOS) provides interdisciplinary education and training to prepare professional ocean scientists for careers in academia, industry, and state and federal government. Students develop the ability to identify and solve significant problems in ocean sciences by using their training in several disciplines. They develop the ability to formulate and test hypotheses and integrate information and concepts about how the earth-ocean system is structured and how it functions. Training also is provided to develop skills in oral and written communication of technical and scientific information. Both MS and PhD degree programs are offered; both require preparation of a thesis (MS) or dissertation (PhD).

Admission Requirements

All rules and regulations described in The Graduate School section of this catalogue and Graduate Admission apply to students in the GPOS. Official acceptance by the GPOS Admissions Committee is based on the recommendation of faculty from an affiliated
department. Acceptance depends upon the applicant's letters of recommendation, research experience, intended area of research, personal interview (whenever possible), and the availabilty of a faculty member willing to advise and sponsor the applicant. A BS or BA degree in an appropriate field of natural science, engineering or mathematics is required for admission. It is expected that applicants to the GPOS will have attained a scholarship average of at least "B" (3.0 GPA on a 4.0 scale) preferably in the natural sciences or mathematics. Applicants must have taken the GRE aptitude test (verbal and quantitative). Successful applicants typically score in excess of 600 on both verbal and quantitative parts of the exam. Applicants should contact the GPOS office by email or phone for an admission package. The GPOS admits students for both the fall and spring semesters; however, applicants for assistantships are encouraged to apply for the fall semester.

**Graduate Degrees**

**Degree Requirements**

Advanced degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

**Interdisciplinary Programs**

The Graduate Program in Ocean Sciences is designed to be interdisciplinary, reflecting the nature of the field that combines principles of physical, chemical, geological and biological oceanography to solve relevant problems in the ocean environment.

**Master's Degree**

**Ocean Sciences (MS)**

The program does not accept applicants for a Master of Science degree in ocean sciences. The MS degree is intended only as a transitional degree in the process of completing requirements for the PhD in ocean sciences.

**Research Tool Requirements**

None required.

**Course Requirements**

The MS degree in Ocean Sciences requires at least 24 units of course work, including two core courses (OS 512 and 582). Four thesis units (OS 594) are also required. At least 16 units of course work must be at the 500-level or higher; no more than six units can be directed research (OS 590); a maximum of four units with superior grades in approved course work may be transferred from an accredited graduate school. Students are required to maintain an overall GPA of 3.0 in all graduate work.

**Thesis**

Students should arrange for the appointment of a thesis adviser and committee after the first semester, or at the latest, after the first year of graduate work. The thesis committee should consist of the adviser plus two other faculty members, all of whom are generally selected from GPOS faculty. Once the committee is arranged, the student may make formal application to the Graduate School for the MS degree.

**Doctoral Degree**

**Ocean Sciences (PhD)**

**Research Tool Requirements**

To be determined by qualifying exam committee.

**Course Requirements**

The PhD degree in Ocean Sciences requires at least 27 units of formal course work (including seminars) of the 60 total units needed. Two core courses are required (OS 512, OS 582). No more than 15 units of 400-level course work may be applied. A maximum of 30 units may be transferred from an accredited graduate school. Students are required to maintain an overall GPA of 3.0 in all graduate work. Students may request permission to take the PhD qualifying examination on completion of 24 units of course work, including two core courses in Ocean Sciences.

**Screening Procedure**

Students in the PhD program must pass the screening procedure before their 25th unit of graduate credit. Screening consists of a review of the student's progress and is usually done by the GPOS Review Committee following a written recommendation by the student's adviser(s). Screening occurs at the end of each semester.

**Qualifying Exam Committee**

The doctoral qualifying exam committee is formed after the student has passed the screening procedure. The committee is appointed by the department with the advice of the student's research adviser. The five-member committee consists of the adviser, a minimum of three other members from the GPOS faculty, and one additional tenure-track faculty member. The committee must include faculty members from more than one academic department. A tenure-track faculty member must serve as research adviser or co-adviser. The committee consults with the student, recommends an appropriate program of study and administers written and oral qualifying examinations.

**Qualifying Examination**

The student may request permission to take the PhD qualifying examination upon completion of 24 units of course work, including two core courses in ocean sciences. The qualifying examination consists of a written and oral part, both parts prepared, conducted and evaluated by the student's examination committee. The written examination will consist of a number of questions given on two consecutive days. Questions will be comprehensive in scope with respect to the student's chosen area of specialization and will be designed to test the student's conceptual, analytical and integrative ability and preparation. The written part of the qualifying examination must be taken before the oral examination. The oral examination will be in the area of the student's intended research and will be based on a research project selected and developed by the student into a written proposition. The oral examination will be conducted and evaluated by the student's examination committee. The oral examination must be taken within one month of the written examination.

**Defense of the Dissertation**

After the student has passed the qualifying examination, the qualifying exam committee recommends to the Graduate School that the student be admitted to candidacy for the PhD.
degree. Following admission to candidacy the student must register for OS 794 Dissertation every semester, except summers, until the degree is awarded.

Once the qualifying examination is passed, the student is required, as soon as possible, to appoint a dissertation committee, using an appointment of committee form which can be found on the Graduate School Website (usc.edu/schools/GraduateSchool). All or some of the qualifying exam committee may be nominated. Until a dissertation committee is appointed, the qualifying exam committee will have responsibility for the student's program of study. The student must undertake an original investigation of a problem in ocean sciences. The topic must be approved by the student's dissertation committee and will usually be based on the written proposition presented in the qualifying examination.

A dissertation based on the student's research must be approved by the student's dissertation committee. The student must then defend the dissertation. The process for submission of the dissertation to the Graduate School can be found on the Graduate School Website under "Current Students — Thesis and Dissertations." This process should be started approximately one month before the defense, and the student must allow adequate time after the defense for final copy preparation.

The dissertation must conform to the general regulations described in Regulations for Format and Presentation of Theses and Dissertations, also available from the Graduate School Website, Additional regulations and information on the organization and preparation of the dissertation are provided in Directions for Preparation of Dissertations and Research Reports as Required by the Graduate Program in Ocean Sciences/University of Southern California, available in the GPOS office.

**Philosophy**

The School of Philosophy offers courses in most areas of philosophy, including philosophy of mind, philosophy of language, epistemology, metaphysics, logic, philosophy of science, political philosophy, ethics, aesthetics, the history of philosophy, phenomenology and existentialism. The major in philosophy is designed to acquaint students with the fundamental problems of Western thought and introduce them to the concepts and techniques necessary for independent philosophical thinking; it is equally intended to provide a broadening perspective for the various areas of specialization in the natural and social sciences and in literature and the arts. The school also offers minors in: ethics and moral philosophy; philosophy; philosophy for business, law, and the professions; and theories of art. In addition to these undergraduate programs, The School of Philosophy also offers a Master of Arts in Philosophy, a Master of Arts in Philosophy and Law, a joint degree with the USC Gould School of Law, and a Doctor of Philosophy in Philosophy. 

**Mudd Hall of Philosophy**

(213) 740-4084
FAX: (213) 740-5174
Email: philos@dornsife.usc.edu
dornsife.usc.edu/phil
Director: Scott Soames, PhD

**Faculty**

*Distinguished Professor: Scott Soames, PhD*

*Provost Professor of Philosophy and Law: Gary Watson, PhD*

**William T. Daulessi Professor of Law and Professor of Philosophy:** Gregory Keating, Ph.D (Law)

**Professors:** Stephen Finlay, Ph.D; John Hawthorne, Ph.D; Robin Jeshion, PhD; Sharon Lloyd, PhD*; Edwin McCann, PhD*; Kevin W. Robb, PhD*; Mark Schroeder, PhD*; Gabriel Uzquiano Cruz, Ph.D; James Van Cleve, Ph.D; Kadri Vihvelin, PhD; David Wallace, PhD; Ralph Wedgwood, PhD

**Associate Professors:** Zlatan Damnjanovic, PhD; John H. Dreher, PhD; Janet Levin, PhD; Jonathan Quong, PhD; Jacob Ross, PhD

**Assistant Professors:** Andrew Bacon, PhD; Jeremy Goodman, PhD; Shieva Kleinschmidt, PhD; Jefferey Sanford Russel, PhD

**Emeritus University Professor and Emeritus Dean of the USC Dornsife College of Letters, Arts and Sciences:** S. Marshall Cohen, MA*

**Emeritus Professors:** Frank Lewis, PhD; George Wilson, PhD

*Recipient of university-wide or college teaching award.

**Undergraduate Degrees**

**Double Major**

Double majors are encouraged but a student must work in close consultation with the undergraduate adviser.

**Bachelor of Arts with a Combined Major in Linguistics and Philosophy**

See Linguistics.

**Philosophy Honors Program**

Students who are considering the possibility of continuing their education at a graduate level in philosophy or similar disciplines, or students who wish to undertake a more intensive course of studies in philosophy, which includes original independent research, are strongly encouraged to take the major with honors.

The major with honors requires completion of the requirements for the Bachelor of Arts, with the following additional requirements:

a. Students must take a capstone seminar, having completed the prerequisites for taking it.

b. In addition to the required courses for the major, students must take PHIL 494 Senior Thesis during the fall term of their senior year. The senior thesis will be graded by the student's adviser and another member of the School of Philosophy, following an oral defense. The senior thesis must be completed with a grade of B or higher.

c. Students must have a GPA of 3.5 or higher in their philosophy courses.

Students who intend to complete the major with honors are encouraged to enroll in the program during their sophomore year.
year (but no later than the end of the first term of their junior year), and should consult about their studies with the faculty adviser for the honors program on a continuous basis.

Minor in Critical Approaches to Leadership
See Interdisciplinary Studies.

Graduate Degrees
The objective of the graduate program in philosophy is to equip suitably prepared and talented students to function effectively as teachers, thinkers and writers on philosophical topics in the Western tradition. The program provides for a wide range of studies within philosophy, but emphasizes the history of philosophy, both classical and modern, along with the traditional core disciplines: ethics, epistemology, metaphysics and logic.

Because philosophy is as much a special manner of intellectual activity as it is a special subject matter, the graduate student is expected not only to master major works in the historical and contemporary literature of philosophical thought, but also to develop the ability to engage in the ongoing process of philosophical research and dialogue.

Admission Requirements
An applicant for admission normally has an undergraduate major in philosophy, but programs may be arranged for promising students who do not. At least three letters of recommendation from the student's undergraduate teachers should be sent to the chair of graduate admissions of the School of Philosophy. All applicants are required to take the verbal and quantitative General Tests of the Graduate Record Examinations.

Degree Requirements
These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Progressive Degree Program in Philosophy and Law
The progressive degree program permits exceptional undergraduate students with a major in philosophy to receive both an undergraduate degree and the Master of Arts in Philosophy and Law within five years. A minimum GPA of 3.5, two letters of recommendation and outstanding performance in philosophy courses are required for admission to this program. For other requirements of the progressive degree program, see here.

Graduate Advisement
In addition to the departmental graduate adviser, who has the formal role in graduate advising, each student will be matched with a personal adviser, who will share responsibility with the graduate adviser for monitoring a student's progress semester by semester. The graduate adviser is available to counsel any graduate student on all aspects of the graduate program. A student's personal adviser will consult informally with the student semester by semester on how to interpret his or her grades and especially the written reports provided by the instructor for each course in which the student is enrolled, discuss informally the student's selection of courses each semester, and generally keep track of the student's progress in the program. At the appropriate time, the student will consult his or her adviser concerning the appointment of a faculty committee for guidance and supervision. An official qualifying exam committee will be appointed at the time the student passes the screening examination; for the rules governing its establishment and makeup, see General Requirements for the Doctor of Philosophy degree in the Graduate School section. The qualifying exam committee will meet with the student soon after its appointment, and at least once each academic year thereafter.

Bachelor's Degree
Philosophy (BA)
The School of Philosophy offers three major options: the major in philosophy, the major in philosophy with honors, and the major in philosophy, politics and law. The major in philosophy requires eight courses in philosophy; six of these must be at the upper-division level.

One of the eight courses must be a gateway course:

- PHIL 300 Introduction to the Philosophical Classics Units: 4
- PHIL 315 History of Western Philosophy: Ancient Period Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 360 Epistemology and Metaphysics Units: 4

which must be taken before taking any 400-level courses

Students are strongly encouraged to take a course in logic:

- PHIL 120g Introduction to Formal Logic Units: 4
- PHIL 222 Logic and Language Units: 4
- PHIL 350 Symbolic Logic Units: 4
  or
- PHIL 450 Intermediate Symbolic Logic Units: 4

Distribution Requirement
Students must take at least one course from each of the three categories listed below:

History of Philosophy

- PHIL 300 Introduction to the Philosophical Classics Units: 4
- PHIL 315 History of Western Philosophy: Ancient Period Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4
- PHIL 337 History of Modern Political Philosophy Units: 4
- PHIL 345 Greek Ethics Units: 4
- PHIL 355 Existentialism Units: 4
- PHIL 410 Early Greek Thought Units: 4
- PHIL 411 Plato Units: 4
One lower-division class from the following:

- PHIL 141gp The Professions and the Public Interest in American Life Units: 4
- PHIL 240 Mind, Self, and Consciousness Units: 4
- POSC 130g Law, Politics and Public Policy Units: 4

Note: Students who satisfy one of their general education requirements by taking a core, thematic options course of comparable scope and content, can, at the discretion of the director of the School of Philosophy and the philosophy undergraduate adviser for this major, substitute that course for one of the above.

One course in logic:
(Note: If selected, both PHIL 122a and PHIL 122b must be taken as they are considered two parts of one course.)

- PHIL 122ag Reasoning and Argument Units: 2
- PHIL 122bg Reasoning and Argument Units: 2
- PHIL 222 Logic and Language Units: 4
- PHIL 350 Symbolic Logic Units: 4

One course in philosophy of law:

- PHIL 430 Philosophy of Law Units: 4 

Note: During the senior year, students enrolled in one of the three majors' programs in philosophy can take a capstone seminar. Students who are enrolled in one of the minors in philosophy may enroll in a capstone seminar only with the permission of the instructor. Enrollment in these seminars will not exceed 15 students. Students may enroll in a capstone seminar only if they have satisfied the following requirements: taken a course in logic (PHIL 120, PHIL 122a, PHIL 122b, PHIL 222, PHIL 351 Reasoning and Logic or PHIL 350), taken at least one 400-level course in philosophy and have a GPA in philosophy of 3.0 or above.
Two courses from Categories A, B and C below
The two courses must belong to different categories, and one of these courses must be a gateway course: PHIL 300, PHIL 315, PHIL 320, PHIL 340 or PHIL 360. Students are required to take a gateway course before enrolling in any 400-level course in philosophy.

A. Moral and political philosophy
- PHIL 335 Theoretical Models of Leadership Units: 4
- PHIL 337 History of Modern Political Philosophy Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 437 Social and Political Philosophy Units: 4
- PHIL 440 Contemporary Ethical Theory Units: 4
- PHIL 442 History of Ethics to 1900 Units: 4
- PHIL 443 Value Theory Units: 4

B. History of philosophy:
- PHIL 300 Introduction to the Philosophical Classics Units: 4
- PHIL 315 History of Western Philosophy: Ancient Period Units: 4
- PHIL 317 History of Western Philosophy: Medieval Period Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4
- PHIL 423 The Critical Philosophy of Kant Units: 4
- PHIL 426 20th Century European Philosophy Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4

C. Systematic areas of philosophy:
- PHIL 360 Epistemology and Metaphysics Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 463 Theories of Action Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PHIL 470 Theory of Knowledge Units: 4

One course in comparative or international politics and law:
- ANTH 345 Politics, Social Organization, and Law Units: 4, 2 years
- POSC 345 International Law Units: 4
- POSC 440 Comparative Law and the Judicial Process Units: 4
- POSC 448a The Politics of Peace Units: 4

One course in politics, law, and public policy:
- LING 412 Language and Law Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8
- POSC 443 Law in Film Units: 4
- POSC 452 Critical Issues in Law and Public Policy Units: 4
- SWMS 349 Women and the Law Units: 4

One course in law:
- LAW 300 Concepts in American Law Units: 4

Note:
Students in the major may enroll in a capstone seminar in philosophy if they have satisfied the general requirements: a GPA of 3.0 in major course work; a course in logic; and at least one 400-level course in philosophy, completed prior to the capstone seminar.

Minor

Ethics and Moral Philosophy Minor

The aim of the minor is to provide students headed for medicine, biology, psychology and other health care professions with a broad humanistic perspective not found in professional education and the critical tools to deal with the ethical issues that may arise in their professional lives. Students are required to take five courses in philosophy, at least four of which must be upper-division. Students must take at least one lower-division or 300-level course before taking any 400-level courses.

Students must take at least two courses from category one below, and at least one course from category two:

Ethics, History of Ethics and Value Theory:
- PHIL 141gp The Professions and the Public Interest in American Life Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 361 Philosophy of Religion Units: 4
- PHIL 430 Philosophy of Law Units: 4
- PHIL 431 Law, Society, and Politics Units: 4
- PHIL 440 Contemporary Ethical Theory Units: 4
- PHIL 442 History of Ethics to 1900 Units: 4

Systematic Philosophy:
• PHIL 262g Mind and Self: Modern Conceptions Units: 4
• PHIL 360 Epistemology and Metaphysics Units: 4
• PHIL 385 Science and Rationality Units: 4
• PHIL 427 20th Century Anglo-American Philosophy Units: 4
• PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
• PHIL 460 Metaphysics Units: 4
• PHIL 462 Philosophy of Mind Units: 4
• PHIL 465 Philosophy of Language Units: 4
• PHIL 470 Theory of Knowledge Units: 4

**Philosophy Minor**
The minor in philosophy requires the completion of five philosophy courses, at least four of which are upper-division courses. All minors must take a gateway course — PHIL 315, PHIL 320, PHIL 340, or PHIL 360 — before enrolling in any 400-level course.

**Distribution requirement:**
Students must take at least one course from each of the three categories listed below:

**History of Philosophy:**
• PHIL 315 History of Western Philosophy: Ancient Period Units: 4
• PHIL 320 History of Western Philosophy: Modern Period Units: 4
• PHIL 345 Greek Ethics Units: 4
• PHIL 410 Early Greek Thought Units: 4
• PHIL 411 Plato Units: 4
• PHIL 415 Aristotle Units: 4
• PHIL 421 Continental Rationalism Units: 4
• PHIL 422 British Empiricism Units: 4
• PHIL 423 The Critical Philosophy of Kant Units: 4
• PHIL 424 19th Century Philosophy Units: 4
• PHIL 427 20th Century Anglo-American Philosophy Units: 4

**Ethics, Law and Value Theory:**
• PHIL 330 Theories of Law Units: 4
• PHIL 335 Theoretical Models of Leadership Units: 4
• PHIL 340 Ethics Units: 4
• PHIL 345 Greek Ethics Units: 4
• PHIL 347 Social and Political Philosophy Units: 4
• PHIL 440 Contemporary Ethical Theory Units: 4
• PHIL 442 History of Ethics to 1900 Units: 4

**Systematic Topics:**
• PHIL 350 Symbolic Logic Units: 4
• PHIL 351 Reasoning and Logic Units: 4
• PHIL 352 Logic and Language Units: 4
• PHIL 360 Epistemology and Metaphysics Units: 4
And select five courses from the
following:

- PHIL 385 Science and Rationality Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
- PHIL 460 Metaphysics Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 463 Theories of Action Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PHIL 470 Theory of Knowledge Units: 4
- PHIL 480 Philosophy of Mathematics Units: 4
- PHIL 485 Development of Physical Science Units: 4
- PHIL 486 Methodologies of the Sciences Units: 4

**Theories of Art Minor**

Theorizing about the arts takes place in the discipline of philosophy (aesthetics) as well as in all the individual disciplines concerned with the individual arts. Some of the issues involved (is perspective a matter of convention?; how does acting differ in cinema and in theatre?) are specific to a particular discipline or disciplines, but their discussion typically involves very general issues (in the cases mentioned, issues about the nature of convention or of artistic media) and many of the issues manifest themselves in all these disciplines (the relation of intention to interpretation; the epistemological and moral status of the arts; the nature of evaluative judgments). The understanding of these issues can be greatly enhanced by studying them as they arise in different arts and in different theoretical traditions. The minor should be of interest to students with an interest in philosophy, or students in any of the arts who are interested in their theoretical dimensions.

There are no entrance requirements for the minor, which requires six courses (23 or 24 units, depending on course selection).

**All students must take**

- PHIL 242 Theories of Art Units: 4

**And select five courses from the following:**

- AHIS 250m Modernity and Difference: Critical Approaches to Modern Art Units: 4
- ARCH 314 History of Architecture: Contemporary Issues Units: 3
- COLT 391 Literary Criticism from Plato to Postmodernism Units: 4
- COLT 454 Aesthetic Philosophy and Theory Units: 4
- ENGL 479 History of Literary Criticism Units: 4
- ENGL 480 Modern Literary Criticism: Theory and Practice Units: 4
- PHIL 445 Philosophy of the Arts Units: 4
- PHIL 446 Aesthetics and the Film Units: 4
- THTR 404 Acting Theory Units: 4

**Master's Degree**

**Philosophy (MA)**

The department does not accept applicants for a Master of Arts degree in philosophy. The MA degree is intended only as a transitional degree in the process of completing requirements for the PhD in philosophy.

A student may obtain an MA in philosophy by fulfilling the following requirements: a minimum of 36 units in the USC philosophy school, at least 24 of which must be at the 500 level. Requirements include: PHIL 500, PHIL 503 and a 500-level course in each of the following three areas: metaphysics and epistemology, ethics and other value theory, and history of philosophy. Of the remaining four required (4-unit) courses, only four units of PHIL 590 are applicable to the degree. A publishable research paper is also required.

**Philosophy and Law (MA)**

A total of 36 units are required for the degree, including at least 24 units in philosophy. Twelve of these must come from completing the specialization and breadth requirements. The former requires students to take a 4-unit, 500-level course in philosophy on a topic spanning philosophy and law. The latter requires students to take PHIL 500 or PHIL 503, plus another 4-unit, 500-level course in philosophy on a topic that does not span philosophy and law, including but not limited to topics in metaphysics, epistemology, philosophy of language, philosophy of science, ethics, aesthetics and history of philosophy. Students must also demonstrate a basic proficiency in symbolic logic, typically by passing, at a sufficiently high level, one of a specified range of 4-unit courses in logic offered by the School of Philosophy. The law requirement for this degree consists of two courses in the USC Gould School of Law. The first must be either LAW 503 Contracts or LAW 509 Torts I. The second must be either LAW 504 Criminal Law or LAW 508 Constitutional Law. Students who elect to take LAW 504 would normally also take 1 unit of PHIL 590 as an accompaniment. Degree candidates must also write a master's thesis on some subject in legal philosophy. At least one of the thesis advisors must have an appointment in the School of Philosophy.

**Dual Degree**

**Juris Doctor/Master of Arts, Philosophy**

Students must complete 24 units in the USC School of Philosophy and 69 units in the USC Gould School of Law.

**First Year:** Required law school curriculum

**Second and Third Years:** The School of Philosophy prefers that students take at least one philosophy course each semester. During the four semesters, students must take at least 16 units at the 500-level, including PHIL 450 Intermediate Symbolic Logic or PHIL 510 Philosophical Logic and PHIL 500, and PHIL 503, one 400- or 500-level course in ethics or social/political philosophy or aesthetics or philosophy of law; one 400- or 500-level course in metaphysics or epistemology or philosophy of language or philosophy of science or philosophy of mind; one 400- or 500-level course in the history of ancient or early modern philosophy; passage of the second year review that shall...
include a research paper based on a completed seminar paper and completion of a publishable research paper. Students must also complete 36 additional law units.

**Doctoral Degree**

**Philosophy (PhD)**

Application deadline: January 1

**Course Requirements**

The minimum number of course credits required for the PhD is 60 units. No more than 8 of these units may be from 590 courses and no more than 8 of these units may be from 400-level courses in the School of Philosophy. PHIL 450 does not count toward this maximum of 8 units of 400-level courses in the School of Philosophy. No more than eight of these units may be earned in 794 Doctoral Dissertation. Each student must pass PHIL 450 with a grade of B+ or better and must pass both PHIL 500 and PHIL 503 with a grade of B+ or better. PHIL 450 and both PHIL 500 and PHIL 503 must be satisfactorily completed by the end of the second year. The student may take up to two courses in a field of study related to philosophy. The PhD dissertation may be written in any area of philosophy for which adequate supervision is available from within the university. PhD students are also required to show evidence of practical or editorial training, or their equivalent.

**Foreign Language/Research Tool Requirement**

A foreign language examination, specified by the school, in French, German, Latin or classical Greek is required. The faculty may approve a replacement of the language requirement by a research tool requirement, consisting of an approved course or examination in a subject essential to the student's research program. The course or examination must be passed before the qualifying examination is attempted. There are three levels of evaluation in the PhD program prior to the dissertation:

**Distribution Requirement**

There is a distribution requirement of six courses at the 500 level in the School of Philosophy, two each representing breadth within each of the following three areas: (1) metaphysics and epistemology (broadly construed, including philosophical logic; philosophy of science; philosophy of math, mind, and language), (2) value theory (broadly construed, including aesthetics, political philosophy, and the philosophy of law), and (3) pre-1879 history of philosophy. PHIL 500, PHIL 503 and PHIL 590 courses cannot count toward this requirement. Up to two 400-level courses may count by petition toward this requirement, provided that the departmental standards for graduate-level course work are met. For courses straddling two areas (for example, history of ancient philosophy and metaphysics; history of modern philosophy and ethics), instructors will indicate on the syllabus which requirement the course will satisfy. Courses dealing with subject matter within more than one of the areas listed may be used to satisfy any of the areas encompassed by the course although no single course may be used to satisfy two requirements at once. The two courses within each distribution area must represent breadth, as determined in advance by the graduate adviser and in accordance with departmental guidelines. All distribution requirements must be completed by the end of the fifth semester.

**Screening Procedure**

Students in the PhD program must pass a screening procedure before undertaking their 25th unit (seventh course) of graduate credit. This will be based on a review of the student's work to date, and will take into account not only information acquired but also those intellectual qualities and capacities that are essential for good work in philosophy: the capacity to think and write on philosophical issues with clarity, consistency and thoroughness; the ability to understand in detail what is involved in the meaning and justification of philosophical claims or positions; the ability to recognize and to draw out fine conceptual distinctions and to perceive their logical relationships; and strong intellectual curiosity and independence of thought.

**Student Reviews**

Graduate student progress is reviewed on a regular basis each term. In addition, apart from the screening procedure, there are more formal reviews conducted at the end of the 4th and 6th semesters of study, as described below.

In the fourth semester of study, normally the spring of the second year, each student shall submit two papers, approximately 8,000 words each, in different fields of philosophy (ordinarily two substantially revised papers previously submitted in seminars). The choice of papers should be made in consultation with the Graduate Adviser. The second year evaluation will be made on the basis of faculty review of the submitted papers and consideration of the student's total record. For the review following the sixth semester of study, students are to select one from a list of pre-designated areas in philosophy and master the material on a pre-assigned reading list of important works in that area. At the beginning of the sixth semester, each student will take a written examination, designed by the faculty of the School of Philosophy, on the materials covered in the relevant reading list followed by an oral examination exploring their knowledge of the field. This examination must be passed by the end of the sixth semester. The examining committee for each student will consist of faculty conversant with the field and appointed by the school.

**Qualifying Examination**

This examination consists of a written prospectus of the proposed dissertation and an in-depth oral examination on the form and subject matter of the proposed dissertation. All faculty members may inspect the prospectus and be present at the oral, but evaluation of the qualifying examination is the responsibility of the student's qualifying exam committee. The examination is not passed if two or more members of the qualifying exam committee find it unsatisfactory. The qualifying examination is not offered in the summer. Those who intend to take this examination must meet all the conditions specified in the section on general requirements for the PhD Students are expected to pass the qualifying exam by the end of the seventh semester. Students who have not passed the qualifying exam by the end of the seventh semester will be subject to faculty review, and may not be allowed to continue in the program.

**Doctoral Dissertation**
When the student passes the qualifying examination, a dissertation committee (see Graduate Advisement), replacing the qualifying exam committee, is appointed by the director of the school in consultation with the student and the philosophy faculty. Normally, the qualifying exam committee simply becomes the dissertation committee. This committee and the candidate will then agree upon how the dissertation is to be developed and written. The dissertation must be an original contribution to some well-defined area in philosophy, and must give evidence of the student's ability to do respectable, large-scale research, thinking, and writing in the field. The school requires the defense oral when the research and writing of the dissertation is substantially complete. Attendance at this oral examination is open to all members of the university faculty, but the examination is conducted and evaluated by the candidate's dissertation committee. The faculty normally works with the dissertations only in the fall and spring semesters, and the student should plan accordingly.

Physical Education
The physical education program provides a variety of offerings in fitness and activities classes designed to promote health and general fitness based upon individual goals and needs. Fitness classes focus primarily on development of muscle strength, muscle endurance, cardiorespiratory endurance, flexibility, general wellness principles and nutritional guidelines. Activities classes stress fundamental techniques, tactics, rules, etiquette and the importance of leisure time activities to physical, mental and social well-being.

Physics and Astronomy
The Department of Physics and Astronomy offers the Bachelor of Science in Physics, Bachelor of Science in Astronomy, Bachelor of Science in Physics/Computer Science, Bachelor of Arts in Physics, Bachelor of Arts in Astronomy, Bachelor of Science in Biophysics, Bachelor of Science in Physical Sciences, a minor in physics or astronomy, Master of Science in Physics, Master of Arts in Physics and Doctor of Philosophy in Physics.

Chair: Stephan Haas, PhD
Faculty
University Professor and Provost Emeritus and Professor of Physics and Education: Lloyd Armstrong, Jr.
Presidential Professor of Physics and Medicine: Murray Gell-Mann, PhD

William M. Keck Distinguished Professor of Engineering and Professor of Electrical Engineering and Physics and Astronomy: P. Daniel Dapkus, PhD (Electrical Engineering)
University Professor, George T. Pfleger Chair in Electrical Engineering, and Professor of Physics: Robert W. Hellwarth, PhD (Electrical Engineering)
Kenneth T. Norris Professor of Engineering Professor of Chemical Engineering and Material Science, Physics and Biomedical Engineering: Anupam Madhukar, PhD (Material Science)
Professors: Itzhak Bars, PhD; Gerd Bergmann, PhD; N. Eugene Bickers, PhD*; Hans M. Bozler, PhD; Werner Däppen, PhD*; Jack Feinberg, PhD*; Christopher M. Gould, PhD*; Martin A. Gundersen, PhD (Electrical Engineering); Stephan Haas, PhD*; Clifford Johnson, PhD*; Rajiv Kalia, PhD; Vitaly Kresin, PhD; Joseph Kunc, PhD (Aerospace Engineering); Anthony J. Levi, PhD (Electrical Engineering); Daniel Lidar, PhD (Chemical Engineering); Jia Grace Lu, PhD; Aiiichiro Nakano, PhD (Computer Science); Dennis Nemeschansky, PhD; Elena Pierpaoli, PhD; Krzysztof Pilch, PhD; Edward J. Rhodes, Jr., PhD*; Hubert Saleur, PhD; Robin Shakeshaft, PhD; Armand Tanguay, PhD

Lecturers: Ian Culbertson, BA; Stephanie Eggert, MS; Sarah Hayes, MS; Steve Hsu, MS; John Jesse, MS; Isabelle Pilliere Mazumdar, BA

General Requirements
No more than four units of physical education activity courses may be applied to a student's overall unit requirement, toward his or her USC degree. Registration in courses PHED 102a, PHED 102b–PHED 163 is contingent upon assessment of students' knowledge and competence in performance during the first two class meetings. Students who wear glasses while participating in vigorous activities must secure departmental approval of provisions made for eye protection in courses PHED 140a, PHED 140b, PHED 140c. Course PHED 165 is reserved for students who are reporting for regular freshman or varsity athletic squads.

To obtain a prerequisite waiver to take a b class before having taken the a section, the instructor's approval and signature are needed. Students should be aware that in the future they cannot take the prerequisite course in the activity for credit after having it waived.
(Electrical Engineering); Priya Vashishta, PhD (Materials Science); Andrey Vilesov, PhD (Chemistry); William G. Wagner, PhD; Nicholas P. Warner, PhD*; Paolo Zanardi, PhD

Associate Professors: Stephen Cronin, PhD (Electrical Engineering); Mohamed El-Naggar, PhD*; Michelle Pavinelli, PhD (Electrical Engineering)

Assistant Professors: James Boedicker, PhD; Christoph A. Haselwandter, PhD; Fabien Pinaud, PhD (Biological Sciences); Remo Rohls, PhD (Biological Sciences); Susumu Takahashi, PhD (Chemistry)

Professors (Research): Leonid Didkovsky, PhD; Geraldine J. Peters, PhD

Associate Professor (Research): Rosa Di Felice, PhD

Assistant Professors (Research): Lorenzo Campos Venuti, PhD; Loris Colombo, PhD

Assistant Professor (Teaching): Vahe Perosyan, PhD

Emeritus Professors: Robert K. Cole, PhD; Melvin A. Daybell, PhD; Tu-Nan Chang, PhD

Emeritus Professor (Research): Chung-Yung (Robert) Wu, PhD

*Recipient of university-wide or college teaching award.

Undergraduate Degrees

Grade Point Average in Major Subject

A GPA of C (2.0) or higher is required in all upper-division courses taken in the department for all of the above major degree programs. A grade of C (2.0) or higher is required in all courses in the department specifically listed as subject requirements.

Advisement

Advisement is required for all BS and BA degree candidates in the department. Students should meet with their departmental academic adviser at least once a semester to review the direction of their academic programs. Students who have not met with an adviser should contact the director of undergraduate affairs. Students are also encouraged to seek the advisement of faculty members whose specializations are appropriate to their intended field of graduate study.

Undergraduate Research Opportunities

Students are encouraged to become familiar with the research programs of the faculty in the department. Students who intend to pursue a PhD and a career in research in physics or astronomy following graduation are strongly encouraged to become involved directly in one of the research programs, whether as summer research assistants or as part-time laboratory assistants during the academic year. Specific research opportunities will depend upon individual faculty research programs.

Graduate Degrees

The Department of Physics and Astronomy offers graduate study at the master's and doctoral degree levels. The graduate program prepares students for professional careers in research, teaching and developmental applications of physics. Entering students spend time in intensive course work providing a broad background in advanced physics regardless of degree objective. Subsequent study involves a mix of course work, practical training and independent research (depending on degree objective). The doctoral program affords exceptionally close collaboration between students and faculty.

Research Areas: Experimental, Theoretical and Computational

Opportunities for research are offered in atomic, molecular and optical/laser physics, astrophysics, biological physics, elementary particle theory, string theory, quantum field theory, earthquake physics, helioseismology, condensed matter physics, quantum electronics/nonlinear optics, space physics and ultralow temperature physics.

Degree Requirements

Graduate degrees in the Department of Physics and Astronomy are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School. Graduate study in physics is divided into three degree objectives:

- Master of Science and Master of Arts in Physics
- Doctor of Philosophy in Physics

Bachelor's Degree

Astronomy (BA)

This program is intended for students with an interest in astronomy who may not intend to pursue a career in the field.

Required Lower-Division Courses

- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 151Lg Advanced Principles of Physics I Units: 4 *
- PHYS 152L Advanced Principles of Physics II Units: 4 *
- PHYS 153L Advanced Principles of Physics III Units: 4 *
- PHYS 161Lg Advanced Principles of Physics I Units: 4 *
- PHYS 162L Advanced Principles of Physics II Units: 4 *
- PHYS 163L Advanced Principles of Physics III Units: 4 *
- PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses

- ASTR 400 The Solar System Units: 4, 2 years
- ASTR 422 Galaxies and Large-Scale Structures in the Universe Units: 4, 2 years
- ASTR 424 Cosmology Units: 4, 2 years
- ASTR 450 Stellar Astrophysics Units: 4, 2 years
- PHYS 304 Mechanics Units: 4
- PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
- PHYS 492L Senior Lab Units: 4

Total units: 57

*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
Astronomy (BS)
This program is intended primarily for students who are interested in a career in astronomy.

Required Lower-Division Courses
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 161Lg Advanced Principles of Physics I Units: 4 *
- PHYS 162L Advanced Principles of Physics II Units: 4 *
- PHYS 163L Advanced Principles of Physics III Units: 4 *
- PHYS 190 Physics Discovery Series Units: 1

Total units: 73
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.

Required Upper-Division Courses
- ASTR 400 The Solar System Units: 4, 2 years
- ASTR 422 Galaxies and Large-Scale Structures in the Universe Units: 4, 2 years
- ASTR 424 Cosmology Units: 4, 2 years
- ASTR 450 Stellar Astrophysics Units: 4, 2 years
- MATH 445 Mathematics of Physics and Engineering II Units: 4
- PHYS 304 Mechanics Units: 4
- PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
- PHYS 408a Electricity and Magnetism Units: 4
- PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4
- PHYS 444 Physical Biology: From Molecules to Cells Units: 4

Total units: 56
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.

**PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.

Physical Sciences (BS)
This program is intended for students with an interest in the physical sciences. The program is designed to allow students interested in teaching at the secondary level to enroll in courses required for the California Single Subject Teaching credential offered through the School of Education.

Required Lower-Division Courses
- CHEM 115aLg Advanced General Chemistry Units: 4 **
- CHEM 115bL Advanced General Chemistry Units: 4 **
- GEOL 105Lg Planet Earth Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Upper-Division Courses
• Astronomy elective* Units: 4
• Chemistry elective* Units: 4
• Earth Science elective* Units: 4
• Physics elective* Units: 4
• Three additional electives from these fields* Units: 12

Note:
*Upper-division courses must be applicable to majors in their respective departments.
**CHEM 105aL, CHEM 105bL may be substituted for the sequence CHEM 115aL, CHEM 115bL.

Other Courses
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4

Total units: 64

Physics (BA)
This program is intended for students with an interest in physics who may not intend to pursue a career in physics.

Required Lower-Division Courses
• CHEM 105aLg General Chemistry Units: 4 **
• CHEM 105bL General Chemistry Units: 4 **
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 161Lg Advanced Principles of Physics I Units: 4 *
• PHYS 162L Advanced Principles of Physics II Units: 4 *
• PHYS 163L Advanced Principles of Physics III Units: 4 *
• PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses
• MATH 445 Mathematics of Physics and Engineering II Units: 4
• PHYS 304 Mechanics Units: 4
• PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
• PHYS 408a Electricity and Magnetism Units: 4
• PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 492L Senior Lab Units: 4

Choose one:
• PHYS 408b Electricity and Magnetism Units: 4
• PHYS 438b Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 440 Introduction to Condensed Matter Physics Units: 4
• PHYS 493L Advanced Experimental Techniques Units: 4

Total units: 65
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
**CHEM 115aL, CHEM 115bL may be substituted for the sequence CHEM105aL, CHEM105bL.

Physics (BS)
This program is intended primarily for students who are interested in a career in physics.

Required Lower-Division Courses
• CHEM 115aLg Advanced General Chemistry Units: 4 **
• CHEM 115bL Advanced General Chemistry Units: 4 **
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 161Lg Advanced Principles of Physics I Units: 4 *
• PHYS 162L Advanced Principles of Physics II Units: 4 *
• PHYS 163L Advanced Principles of Physics III Units: 4 *
• PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses
• MATH 445 Mathematics of Physics and Engineering II Units: 4
• PHYS 304 Mechanics Units: 4
• PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
• PHYS 408a Electricity and Magnetism Units: 4
• PHYS 408b Electricity and Magnetism Units: 4
• PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 438b Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 440 Introduction to Condensed Matter Physics Units: 4
• PHYS 492L Senior Lab Units: 4
• PHYS 493L Advanced Experimental Techniques Units: 4

Total units: 77
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
**CHEM 105aL, CHEM 105bL may be substituted for the sequence CHEM115aL, CHEM115bL.
This program is intended for students with dual interests in physics and computer science who wish to complete the essential courses for both majors within their normal four-year career.

**Required Lower-Division Courses**
- CSCI 103L Introduction to Programming Units: 4
- CSCI 104L Data Structures and Object Oriented Design Units: 4
- CSCI 170 Discrete Methods in Computer Science Units: 4
- CSCI 201L Principles of Software Development Units: 4
- CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 225 Linear Algebra and Linear Differential Equations Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 190 Physics Discovery Series Units: 1

**Required Upper-Division Courses**
- CSCI 350 Introduction to Operating Systems Units: 4
- EE 352L Computer Organization and Architecture Units: 3
- MATH 445 Mathematics of Physics and Engineering II Units: 4
- PHYS 161Lg Advanced Principles of Physics I Units: 4 *
- PHYS 162L Advanced Principles of Physics II Units: 4 *
- PHYS 190 Physics Discovery Series Units: 1

**Total units:** 81

**Elective - Choose 3 (12 Units)**
- PHYS 304 Mechanics Units: 4
- PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
- PHYS 408a Electricity and Magnetism Units: 4
- PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4

**Total units:** 36

**Physics Minor**
The physics minor is open to all students. Engineering students must take a minimum of three upper-division courses unique to the minor.

**Required Courses (28 Units)**
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

**Electives - Choose 3 (12 Units)**
- PHYS 304 Mechanics Units: 4
- PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
- PHYS 408a Electricity and Magnetism Units: 4
- PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4

**Total units:** 40

**Master's Degree**

**Physics (MA)**

**Admission Requirements**
The prerequisite for admission for a master's degree in the Department of Physics and Astronomy is a bachelor's degree in physics or a related field. All applicants for admission must take the Graduate Record Examinations, including the Physics Subject Test. Transcripts of undergraduate records as well as transcripts of any graduate-level courses are required. The TOEFL or IELTS is required of international students applying for a teaching assistantship as well as for those applying for admission only. Applicants may be admitted as a degree candidate at the beginning of fall or spring semester.
Residence
All MS and MA degree students normally take at least three courses for each of two semesters. A total of 24 units of credit is required for graduation. Admitted students may transfer a maximum of 4 units of credit to apply toward the degree requirements.

Foreign Language Requirement
There is no foreign language requirement for the MS or MA degree requirements.

Course Requirements
Option A MS in Physics: The MS degree requires satisfactory completion of seven courses (exclusive of PHYS 500 and PHYS 594), of which no more than one course may be PHYS 590 Directed Research. In addition, satisfactory completion of a thesis (and 4 units of PHYS 594) is required.

Option B MA in Physics: The MA degree requires satisfactory completion of eight courses (exclusive of PHYS 500 and PHYS 590) plus a high level of performance on the comprehensive examination. The required courses for either option are PHYS 504, PHYS 508a and PHYS 558a. For either option at least five courses must be at the 500 level or higher and remaining courses at the 400 level or higher; at least five courses must be in physics. All required physics courses must be passed with a grade of B- or better. No upper-division courses required for the BA in physics at USC may be counted for credit toward the MA or MS degree.

Comprehensive Examination
All master's degree candidates are required to take the departmental screening examination not later than during their second semester (excluding summer). This examination serves as the required comprehensive examination for the MA degree. A high level of performance is required for the MA degree, and a superior level is required for admission to (or continuation in) the PhD program.

Physics (MS)
Admission Requirements
The prerequisite for admission for a master's degree in the Department of Physics and Astronomy is a bachelor's degree in physics or a related field. All applicants for admission must take the Graduate Record Examinations, including the Physics Subject Test. Transcripts of undergraduate records as well as transcripts of any graduate-level courses are required. The TOEFL or IELTS is required of international students applying for a teaching assistantship as well as for those applying for admission only. Applicants may be admitted as a degree candidate at the beginning of fall or spring semester.

Residence
All MS and MA degree students normally take at least three courses for each of two semesters. A total of 24 units of credit is required for graduation. Admitted students may transfer a maximum of 4 units of credit to apply toward the degree requirements.

Foreign Language Requirement
There is no foreign language requirement for the MS or MA degree requirements.

Course Requirements
Option A MS in Physics: The MS degree requires satisfactory completion of seven courses (exclusive of PHYS 500 and PHYS 594), of which no more than one course may be PHYS 590 Directed Research. In addition, satisfactory completion of a thesis (and 4 units of PHYS 594) is required.

Option B MA in Physics: The MA degree requires satisfactory completion of eight courses (exclusive of PHYS 500 and PHYS 590) plus a high level of performance on the comprehensive examination. The required courses for either option are PHYS 504, PHYS 508a and PHYS 558a. For either option at least five courses must be at the 500 level or higher and remaining courses at the 400 level or higher; at least five courses must be in physics. All required physics courses must be passed with a grade of B- or better. No upper-division courses required for the BA in physics at USC may be counted for credit toward the MA or MS degree.

Comprehensive Examination
All master's degree candidates are required to take the departmental screening examination not later than during their second semester (excluding summer). This examination serves as the required comprehensive examination for the MA degree. A high level of performance is required for the MA degree, and a superior level is required for admission to (or continuation in) the PhD program.

Doctoral Degree
Physics (PhD)
Application deadline: January 1
Admission Requirements
The prerequisite for admission to the doctoral program in the Department of Physics and Astronomy is a bachelor's (or master's) degree in physics or related field. All applicants for admission must take the Graduate Record Examinations, including the Physics Subject Test. Transcripts of undergraduate records as well as transcripts of any graduate-level courses are required. The TOEFL or IELTS is required of international students applying for a teaching assistantship as well as for those applying for admission only. Applicants may be admitted to the program at the beginning of the fall or spring semester.

Residence
PhD students in physics normally enroll in three courses for each of the first four semesters in graduate school. A total of 60 units of credit is required for graduation. Students admitted to the PhD program may transfer a maximum of 30 units of credit to apply toward degree requirements. For students admitted with Advanced Standing (entry with an appropriate completed graduate degree from an accredited institution), a minimum of 36 units of course work beyond that graduate degree, exclusive of PHYS 794, will be required.

Foreign Language Requirement
There is no foreign language requirement for the PhD degree requirements.

Course Requirements
The student is expected to have prepared for understanding all branches of physics. A minimum of 11 graduate courses in physics, excluding graduate colloquium, dissertation and directed research courses, taken at this university and elsewhere, is required. The required courses for the PhD are PHYS 504, PHYS 508a, PHYS 508b, PHYS 510, PHYS 518 and PHYS 558a, PHYS 558b plus four elective graduate courses.
courses in physics. In addition, four units of PHYS 500 and PHYS 794 are required. All required physics courses (except 500 and 794) must be passed with a grade of B- or better. After passing the qualifying examination the student must register for PHYS 794 Doctoral Dissertation each fall and spring semester.

Screening Procedure
Any student proceeding toward the PhD in physics must pass the departmental screening examination at a superior level. The exam must be taken not later than during the second semester (excluding summers, but including time in the MA/MS program) in the department. New advanced students who have passed an equivalent comprehensive examination at a well-recognized research university with superior grades may apply to the departmental examination committee for an oral interview in order to be exempted from the written screening examination. A faculty member who supervises the research of such a student in the department must support this application.

Qualifying Exam Committee
The graduate adviser serves as adviser to incoming students and assists in the appointment of the qualifying exam committee, which is formed after the screening examination has been passed. After the student passes the qualifying examination and a dissertation topic is approved, the five-member qualifying exam committee becomes known as the dissertation committee and is responsible for monitoring the candidate's progress and for approving the final content and form of the dissertation.

Qualifying Examination
The qualifying examination must be attempted not later than during the fifth semester (or in the case of advanced students, the third semester) in the department (excluding summer). The PhD qualifying examination contains a written part and an oral part. The written part consists of a critical review by the student of a published work selected by the qualifying exam committee and of a research proposal prepared by the student on the area in which the student intends to do a doctoral dissertation. The oral part expands on the written part.

Dissertation
A doctoral dissertation in physics is expected to be an extensive description of original research carried out by the student. A complete discussion of reported research in relation to previous work by others is essential.

Defense of the Dissertation
The dissertation must be defended in a final oral examination. The candidate must be prepared to answer general questions in the field as well as specific questions regarding the dissertation.

Political Science
The Department of Political Science divides political science into four broad fields: American politics, political thought, comparative politics, and law and public policy. The department offers regional specialization in six areas: Latin America, East Asia, Western Europe, Russia and Eastern Europe, the Middle East, and Africa. The Jesse M. Unruh Institute of Politics provides local internships for students as part of their course work or as independent study. The Department of Political Science offers: the BA; minors in political science; law and society; race, ethnicity and politics; human rights; and political organizing in the digital age. The department also offers a PhD degree in Political Science and International Relations (See Political Science and International Relations), as well as a dual PhD in Political Science and International Relations/Juris Doctor with the USC Gould School of Law.

Carmen H. and Louis Warschaw Chair in Practical Politics and Professor of the Practice of Political Science: Robert M. Shrum, PhD

Professors: Dennis Chong, PhD; Ann Crigler, PhD*; Richard H. Dekmejian, PhD; Mary Dudziak, PhD (Law); Philip Ethington, PhD (History); Thomas Hollihian, PhD (Communication); Jane Junn, PhD; Sharon Lloyd, PhD (Philosophy); Nancy Lukerhaus, PhD (Anthropology); John Matsusaka, PhD (Finance and Business Economics); Alison D. Renteln, PhD*; Stanley Rosen, PhD*; Eliz Sanasarian,
Political science majors are eligible to join after successful recognition to students who have excelled in the field. Pi Sigma Alpha stimulates scholarship and interest in the subject of government by providing tangible recognition to students who have excelled in the field. Political science majors are eligible to join after successful completion of at least three upper-division courses in political science. An overall grade point average of 3.5 or higher is required, with a minimum of 3.5 in all political science classes. The second honor society is Blackstonians. This is a pre-law honor society for undergraduate students designed to recognize academic excellence, assist the student in his or her preparation for law school, and expand the knowledge of the legal profession. Membership is restricted to students who have completed at least 32 units (16 of which must be from USC), but not more than 118 units, and have maintained at least a 3.5 grade point average.

**Mock Trial Team**

The department hosts the USC Mock Trial Team. This trial advocacy training program is designed to develop students' knowledge of substantive areas of civil law, criminal law and evidence. Additionally, public speaking skills are honed and societal mores are explored. Legal concepts, sociocultural theory and presentational skills are then applied through participation in courtroom advocacy competitions nationwide and local public interest advocacy assignments. Academic credit is earned through POSC 398. Membership on the team is required to enroll.

**Graduate Degrees**

**Degree Requirements**

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

All graduate students are required to maintain regular contact with the graduate coordinator to assure compliance with departmental regulations.

**Bachelor of Arts**

**Political Science (BA)**

Department majors are required to take nine courses (36 units) in political science.

**At least two of the nine courses must be selected from the four 100-level core courses:**

- POSC 100 Theory and Practice of American Democracy Units: 4
- POSC 110g Ideology and Political Conflict Units: 4
- POSC 120 Comparative Politics Units: 4
- POSC 130g Law, Politics and Public Policy Units: 4

**In addition**

At least six of the nine courses must be at the 300-level or above, including at least one course in each of the following four fields: American politics, political thought, comparative politics, and law and public policy. No more than one course (or four units) of POSC 395 or POSC 490x may be counted toward the 36 unit departmental requirements.

Students who have a double major in political science and in another department in the social sciences, may, with prior permission of the department undergraduate adviser, substitute one upper-division course from the second major...
Area Specialization
While majoring in political science and fulfilling the department requirements, a student may elect to emphasize a particular regional area in the fields of comparative government, diplomacy and international politics. Regional specializations are offered in six areas: East Asia, Western Europe, Latin America, Middle East, Africa, Russia and Eastern Europe. With the approval of the faculty, a student may organize an academic program in such a way as to fulfill the general education language requirements with the language or languages of the regional area specialization. In addition, it is assumed the student will fulfill other social sciences and humanities requirements and electives with courses focusing on the history and culture of the particular area of specialization. Such a pattern of courses at the undergraduate level will strengthen a student’s qualifications for graduate-level area programs, as well as for various forms of foreign service.

Juris Doctor/Doctor of Philosophy in Political Science and International Relations (JD/PhD)
Application deadline (for PhD): December 1
The Political Science and International Relations program and the USC Gould School of Law jointly offer a dual degree program leading to the JD/PhD degree. Applicants must apply to the Political Science and International Relations program and the law school and meet the requirements for admission to both. In addition to the LSAT, students interested in this program are required to take the Graduate Record Examinations (GRE).
In the first year students take their course work in the law school exclusively. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law honors programs. The second and third years include a total of 40 units of courses in political science and international relations and 40 units of law. Students must complete a five-course core theory and methodology sequence. They must include a classics-oriented, two-semester political social, comparative and international theory sequence (currently POSC 530 and IR 500), a multivariate statistics course (such as IR 514 or POSC 600) and a philosophies/methodologies in social inquiry course (IR 513 or POSC 500). Finally in their second, third or fourth year, they must take an approved advanced research methods course.
To obtain a PhD in Political Science and International Relations, students must pass the screening process. After the completion of required field course work with a grade of B or better, a substantive paper or USC MA thesis relevant to the program, students must take a PhD qualifying examination in two of their three fields of concentration. The third field will be completed by taking at least three courses and passing each with a grade of B or better. The final requirement, following successful completion of the qualifying examination, is a doctoral dissertation.

Minor
Human Rights Minor
The protection of human rights has become a matter of international concern. Despite widespread media coverage of violations, flagrant abuses occur daily throughout the world. The human rights minor provides students with in-depth knowledge about various human rights issues. Drawing together classes from a range of departments in and outside the USC Dornsife College of Letters, Arts and Sciences, this interdisciplinary minor will cover the theoretical foundations of human rights, historical and current developments, case studies and policies. Students will be required to take their learning outside the classroom through an internship or by teaching human rights in the community and will be encouraged to join relevant student organizations.
Total unit requirements for the minor are 18*. Students take one core course in human rights, POSC 448a The Politics of Peace. In addition, the minor requires two courses dealing with international human rights, one domestic human rights related course and a community involvement experience through the Department of Political Science.

Required Courses (16 units)
- POSC 448a The Politics of Peace Units: 4

Two international human rights courses selected from:
- ANTH 330m Culture, Gender and Politics in South Asia Units: 4
- HIST 456 Race, Slavery, and the Making of the Atlantic World Units: 4
- HIST 365 The Second World War Units: 4, 2 years
- IR 310 Peace and Conflict Studies Units: 4
- IR 315 Ethnicity and Nationalism in World Politics Units: 4
- IR 316 Gender and Global Issues Units: 4
- IR 318 Violent Conflict Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- POSC 366 Terrorism and Genocide Units: 4
- POSC 440 Comparative Law and the Judicial Process Units: 4
- POSC 456 Women in International Development Units: 4
- PPD 382 International Development Units: 4
- REL 335 Gender, Religion, and Sexuality Units: 4

One domestic human rights course selected from:
- AMST 348m Race and Environmentalism Units: 4
• COMM 412 Communication and Social Movements Units: 4
• FREN 370gm Equality and Difference around the Enlightenment Units: 4
• GER 35 Women and Aging: Psychological, Social and Political Implications Units: 4
• JOUR 466 People of Color and the News Media Units: 4
• POSC 333 Stigma and Society: Physical Disability in America Units: 4
• POSC 441m Cultural Diversity and the Law Units: 4
• POSC 444 Civil and Political Rights and Liberties Units: 4

2. Constitutional Law
• POSC 340 Constitutional Law Units: 4
• POSC 426 The United States Supreme Court Units: 4
• POSC 444 Civil and Political Rights and Liberties Units: 4

3. International Law
• POSC 345 International Law Units: 4
• POSC 448a The Politics of Peace Units: 4

4. Policy Analysis
• POSC 333 Stigma and Society: Physical Disability in America Units: 4
• POSC 347 Environmental Law Units: 4
• POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8
• POSC 432 Politics of Local Criminal Justice Units: 4
• POSC 435 Politics and the Economy Units: 4
• POSC 436 Environmental Politics Units: 4
• POSC 440 Comparative Law and the Judicial Process Units: 4
• POSC 441m Cultural Diversity and the Law Units: 4
• POSC 442m The Politics of Human Differences: Diversity and Discrimination Units: 4
• POSC 443 Law in Film Units: 4
• POSC 448b The Politics of Peace Units: 4
• POSC 452 Critical Issues in Law and Public Policy Units: 4

5. Humanistic/Historical
• PHIL 340 Ethics Units: 4
• PHIL 430 Philosophy of Law Units: 4

6. Sociology
• SOCI 351 Public Policy and Juvenile Justice Units: 4
• SOCI 353 Public Policy and Criminal Justice Units: 4

7. Other
• ANTH 345 Politics, Social Organization, and Law Units: 4, 2 years
• COMM 421 Legal Communication Units: 4
• ECON 434 Economic Analysis of Law Units: 4
• LAW 200w Law and Society Units: 4
• PSYC 355 Social Psychology Units: 4

Additional Requirements
At least four classes must be unique to the minor. Political science majors must take upper-division courses only from categories 5, 6 and 7. Non-political science majors must take at least one upper-division course from 5, 6 or 7.

Political Organizing in the Digital Age Minor

Additional Requirements
The digital environment is changing the face of political organization, both in domestic American electoral politics and in the methods used by transnational social movements to call attention to problems around the globe. Howard Dean's use of the Internet to fund his 2004 presidential campaign has made other candidates aware of the political power of the Web in fundraising and grass-roots orchestration of local (and "global") events. This minor should be of interest to students majoring in international relations, political science or other programs who plan to use technology to affect contemporary national and international affairs. As with all minors, students must choose four courses dedicated exclusively to this minor and four courses outside their major departments. These may, but need not be, the same four courses. This minor is intended to help students engage in domestic and international political organizing by creating Websites, podcasting and using other new technologies. It should help students secure internships and jobs with political and international organizations, and generally improve their abilities to change the world.

Course Requirements

Choose one class from each of the following five lists:

I. Domestic Political Organizing:
   - POSC 315 Regulation of Elections and Political Finance Units: 4
   - POSC 335 Political Parties, Campaigns, and Elections Units: 4
   - POSC 422 Political Attitudes and Behavior Units: 4
   - POSC 424m Political Participation and American Diversity Units: 4
   - POSC 437 Mass Media and Politics Units: 4

II. Transnational Social Movements:
   - IR 305w Managing New Global Problems Units: 4
   - IR 306 International Organizations Units: 4
   - IR 324 Multinational Enterprises and World Politics Units: 4
   - IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4

III. New Technologies in Organizing:

IV. The Context of Political Organizing:
   - COMM 321 Communication and Social Media Units: 4
   - COMM 489 Campaign Communication Units: 4
   - IR 308w Economic Globalization Units: 4
   - IR 325 North-South Relations in the Global Economy Units: 4
   - IR 330 Politics of the World Economy Units: 4
   - IR 444w Theories of Global Society Units: 4
   - POSC 300 Principles, Institutions, and Great Issues of American Democracy Units: 4
   - POSC 345 International Law Units: 4
   - POSC 371 European Political Thought II Units: 4
   - POSC 427 Black Politics in the American Political System Units: 4
   - POSC 428 Latino Politics Units: 4
   - POSC 451 Politics of Resources and Development Units: 4
   - POSC 456 Women in International Development Units: 4
   - PPD 372m Public Service in an Urban Setting Units: 4

V. Capstone Class:
The capstone class allows students to engage more deeply in one of the contributing areas of study.
   - COMM 487 Communication and Global Organizations Units: 4
   - IR 327 International Negotiation Units: 4
   - ITP 413x Interactive Web Development Units: 4
   - POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8

Total: Five courses, 20 units

Political Science Minor

Students who minor in political science must take five courses, 20 units, in political science. Students can either pursue course work in a traditional subfield (American politics, comparative politics, law and public policy, or political theory) or in a specific issue area of concentration (civil liberties and human rights, race, ethnicity, and gender, urban political problems, Asian politics, etc.). Those who focus their studies on a traditional subfield must take the lower-level introductory course in that subfield: POSC 100 Theory and Practice of American Democracy (American politics); POSC 110 Ideology and Political Conflict (political theory); POSC 120 Comparative Politics (comparative politics) or POSC 130 Law, Politics and Public Policy (law and public policy).

Students pursuing the minor must also take four upper-division courses, three of which must be in the chosen subfield. Students choose from a predetermined list of courses divided by subfield in consultation with and approval of the department's undergraduate student adviser.

Those who pursue a specific issue area of concentration are required to take the department's designated gateway course, POSC 120 Comparative Politics, and at least three upper-division courses in the issue area of concentration. A fourth upper-division course must be taken in the issue area of concentration or a complementary area. The upper-division courses are chosen in consultation with and approval of the department's undergraduate student adviser.

Race, Ethnicity and Politics Minor

The interdisciplinary minor in race, ethnicity and politics helps students analyze and critically evaluate contemporary race relations and how race matters in politics today.

Requirements: Five Courses (20 Units)*

All students are required to take POSC 421 Ethnic Politics. In addition, students must also take one course from each
category: Race and Gender in a Global Context, Comparative Racial Politics, Social/Historical (Racial Perspective) and Racial Formation. The following is a list of courses that fulfill each category.

**Core Requirement**
- POSC 421 Ethnic Politics Units: 4

**Political Science Upper-Division Courses**

**Choose one course from each of the groups below:**

**Race and Gender in a Global Context:**
- POSC 350 Politics of Latin America Units: 4
- POSC 351 Middle East Politics Units: 4
- POSC 352 Politics of Southeast Asia Units: 4
- POSC 354 Japanese Politics Units: 4
- POSC 356 Politics in the People's Republic of China Units: 4
- POSC 358 Politics of Sub-Saharan Africa Units: 4
- POSC 430 Political Economy of Mexico Units: 4
- POSC 431 Political Economy of Central America Units: 4
- POSC 452 Critical Issues in Law and Public Policy Units: 4
- POSC 456 Women in International Development Units: 4
- POSC 464 Politics of Russia and Eastern Europe Units: 4

**Comparative Racial Politics:**
- POSC 320 Urban Politics Units: 4
- POSC 328 Asian American Politics Units: 4
- POSC 424m Political Participation and American Diversity Units: 4
- POSC 427 Black Politics in the American Political System Units: 4
- POSC 428 Latino Politics Units: 4
- POSC 441m Cultural Diversity and the Law Units: 4
- POSC 442m The Politics of Human Differences: Diversity and Discrimination Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4

**Electives**

**Choose one course from each of the groups below:**

**Social/Historical:**
- HIST 265gw Racism, Sexism, and the Law Units: 4
- HIST 318 Early American Indian History Units: 4
- HIST 341 American Social History Units: 4
- HIST 347 Urbanization in the American Experience Units: 4
- SOCI 142gm Diversity and Racial Conflict Units: 4
- SOCI 155gm Immigrant America Units: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4

**Racial Formation:**
- AMST 301gp America, the Frontier, and the New West Units: 4
- AMST 320 Social Construction of Race and Citizenship Units: 4
- AMST 365 Leadership in the Community — Internship Units: 4
- AMST 385 African American Culture and Society Units: 4

**Note:**
*Political science majors are required to take seven courses (28 units). Political science majors must take four courses (at least three must be upper-division) from the Social/Historical and the Racial Formation categories. At least four classes must be unique to the minor and not taken for additional major, minor or general education credit.

**Director:** Christian Grose, PhD

**Master's Degree**

**Political Science and International Relations (MA)**
The POIR program does not accept applicants for a Master of Arts degree in POIR. If a student admitted in the POIR doctoral program does not have a master's degree, the department strongly recommends the student completes the requirements for the MA in POIR in his/her course of work toward the PhD degree. A student admitted to the doctoral program may also, at the recommendation of the department, earn a terminal MA degree. A student may obtain an MA in POIR by fulfilling the following requirements: a minimum of 28 units in the POIR Program, including POIR 600, POIR 610 and POIR 611, and the approval of a substantive paper.

**Doctoral Degree**

**Political Science and International Relations (PhD)**
USC Graduate School Requirements
The PhD degree is awarded to students who have demonstrated in-depth knowledge of the disciplines of political science and international relations and the ability to make an original research contribution. The PhD in Political Science and International Relations requirements are fulfilled by successfully completing a minimum of 70 units beyond the BA, the PhD screening process, three fields of concentration, a substantive paper, a foreign language requirement (if applicable), qualifying examinations, a dissertation proposal, and a written dissertation and its oral defense.

Admission
The faculty of the Department of Political Science and the School of International Relations welcome talented candidates from a variety of backgrounds. Although a prior degree in political science or international relations is not necessary, it is strongly recommended that applicants have completed at least some course work in related fields, including political theory, statistics and social science research methods. Admission decisions are based on consideration of applicants' prior academic performance, as reflected in course grades, the results of the Graduate Record Examination, letters of recommendation, and a statement of intent that demonstrates a seriousness of purpose, a high level of motivation and a desire to benefit from our faculty's areas of expertise or interest. Applicants also are required to submit a sample of their written work in English, preferably a research-oriented paper. Business, government and other practical experiences may also be taken into account. Applicants whose native language is not English must take the TOEFL or IELTS examination.

Screening Process
Before completion of 24 units, students will be reviewed by a screening committee made up of the program director, one teacher of one of the core courses and one professor nominated by the student. This committee will review the student's progress, including grades and written faculty evaluations of course work. The committee will be responsible for deciding, at an early stage in the student's career, if the student is likely to finish the PhD program. After reviewing the student's record, the committee may decide to (1) continue the student, (2) not primary field requires it. Students should consult the guidelines and the program director.

Substantive Paper
To show evidence of the capacity to conduct original research and before taking the qualifying exam, each student will submit a substantive paper. The student will submit the draft of his or her substantive paper to the chair of the qualifying exam committee one month prior to the qualifying examinations. After consultation with the chair and necessary revisions, the student is to distribute the paper to all members of the qualifying exam committee at least 14 days prior to the oral defense. The substantive paper should be presented and defended in the oral component of the qualifying examination as a viable journal submission to a peer-reviewed professional journal. It is strongly encouraged that the paper should be submitted to a professional journal continue the student and admit the student into a terminal MA degree program, or (3) fail the student's performance in the screening process, i.e., not continue the student in either the MA or PhD programs.

Course Requirements
All doctoral candidates must complete an approved sequence of four courses in core theory and methodology, including a classics-oriented course in political theory, a multivariate statistics course, a philosophies/methodologies of social inquiry course, and a course in advanced research methods. The selection of additional courses should be guided by the distribution requirements of the PhD program. The student will choose three fields of concentration, of which two will be examined fields. Each examined field of concentration requires completion of four graduate-level courses, including the core course in standard fields, with an average grade consistent with university and program requirements. The third non-examined field of concentration requires completion of three graduate-level courses with an average grade consistent with university and program requirements. Students are also advised to take an independent study course to work toward their substantive paper requirement. Additional courses necessary to complete the 70 units required by the Guidelines for Graduate Study in Political Science and International Relations should be taken in consultation with faculty advisers.

Fields of Concentration
The standing fields of concentration include: American politics; comparative politics; international political economy; and international security and foreign policy. The candidate must satisfy two of these four standing fields by passing a written field qualifying examination. The student may satisfy the third field by completing four courses in one of these four, or may propose another customized field of study to be approved by relevant faculty and the PhD program director and steering committee. For example, students can design a third field that cuts across disciplinary boundaries or focuses on specific areas of political science and international relations beyond the standing fields. The guidelines and program director can provide illustrations of this type of third field.

Foreign Language
The student is required to demonstrate intermediate proficiency in a language other than English if the student's approved by the student's adviser within one year of the defense.

Qualifying Examinations
Ordinarily, students will take the qualifying exams no later than the fifth semester in the PhD program. Students will be examined in two of their three fields of concentration. The third field will be completed by taking at least four courses and passing them with an average grade consistent with university and program requirements. The qualifying exam committee will evaluate the quality of these two written exams as evidence of the capacity to define and complete a PhD dissertation. The written examinations are closed book and will be administered over two days at least once per academic year. Examination questions will be written by a committee of the tenure track faculty in each field. The director of POIR.
graduate studies (program director), in consultation with the chair of the Department of Political Science and the director of the School of International Relations, will appoint one faculty member from each field to coordinate the writing of the relevant field exam. The field exam coordinators will then seek assistance from other faculty in their field, including those with whom the student has studied, to compose the written examination questions. The oral portion of the student's qualifying examination will be administered by his or her qualifying exam committee. The oral examination will be based on the student's two written field exams and the substantive paper. The qualifying exam committee will be made up of five members. In consultation with his or her principal adviser, the student will select two members, one from each standing field in which he or she will be examined, and the other two field examiners and the outside member of the qualifying exam committee. Final approval of the qualifying exam committee requires the signature of the program director. Students will pass the qualifying examinations if no more than one member of the qualifying exam committee dissents after reviewing the student's record at USC and performance on the written and oral parts of the qualifying exams. At the discretion of the qualifying exam committee, students who do not pass the exams may be allowed to retake the qualifying exams the next time they are offered. Students are admitted to candidacy for the PhD when they have completed the university residency requirement, passed the written and oral portions of the PhD qualifying examinations, and defended their dissertation proposal.

Dissertation

Upon completion of the qualifying examinations, the student, in consultation with the principal adviser, selects a dissertation committee in accordance with university rules. Within six months of completing the qualifying examinations, students should have a formal defense of the dissertation proposal before their dissertation committee. The PhD is earned upon the submission of the written dissertation and its successful defense before the dissertation committee. Consult the Requirements for Graduation section and the Graduate School section of this catalogue regarding time limitations for completion of the degree and other Graduate School requirements.

All graduate students considering an academic career should generally have research, teaching and advisement experiences as part of their program of study.

Jesse M. Unruh Institute of Politics

The Jesse M. Unruh Institute of Politics works to provide students with opportunities that introduce them to the world of practical politics, government and public service. Each semester the institute facilitates internships with government, political and advocacy offices in the Los Angeles metropolitan area and beyond. The institute also offers a variety of programs and panels that provide students with access to government officials, policy and campaign experts, and industry leaders. The institute partners with a variety of student organizations to sponsor numerous panel discussions and programs that bring prominent political and governmental leaders to USC to speak to small groups of students in an informal setting. In the spring, the institute organizes the Cerrell Seminar in Political Leadership, and a trip to Sacramento where USC students meet with legislators, lobbyists and members of the media to discuss important issues in state politics.

Programs

Political Student Assembly

The Unruh Institute of Politics works closely with the Political Student Assembly (PSA). PSA was formed in January 2006 as a division of the Student Affairs Program Board and seeks to actively involve students in campus, state and national political issues.

Directed Government and Political Leadership Internship

Students volunteer to work in one of over 500 political and governmental offices throughout the Los Angeles area, in Sacramento and in Washington, D.C., enabling them to gain firsthand political experience. As interns, students acquire basic political understanding and skills in government, campaign, media or advocacy organizations. Through their assignments, students have the opportunity to develop an understanding of the many ways in which people are important to politics and politics to people. By gaining hands-on experience in government and politics, student interns develop real-world political and job skills to assist them in their future careers. Many talented interns are fortunate enough to secure full-time employment based upon their internship experience.

In addition to the traditional internship experience, the Unruh Institute offers a Research Internship and a Civic Engagement Internship. The Research Internship gives students an opportunity to do real-world, hands-on research for an organization. Students will conduct original fieldwork, interview policy experts, review academic and policy reports, and use other forms of primary and secondary research. The Civic Engagement Internship provides students with an opportunity to teach civics and the value of voting in an area high school over the course of the semester.

Students participating in the institute's internship programs enroll in POSC 395 Directed Governmental and Political Leadership Internship, for 2 to 8 units. Students can enroll in POSC 395 during the fall, spring or summer. In the summer, students can apply for institute-sponsored fellowships to help defray tuition and living expenses.

Dinah Lenney, MFA
Senior Lecturers: M.G. Lord; Timothy Kirkman
Lecturer: Gina B. Nahai, MPW

Master's Degree
Professional Writing (MPW)
The Master of Professional Writing Program develops students' mastery of craft across multiple genres and prepares students for writing careers. It is designed for students who want to explore a range of writerly possibilities, and aims to develop writing and writers across genre, including fiction, nonfiction, poetry, new media, and writing for stage and screen. Program faculty are working writers who bring their expertise to seminars, lectures and workshops. The academic curriculum includes a range of courses that focus on all aspects of the writing life, as well as one-on-one tutorials geared to the completion of a professional quality final project. Although students will ultimately focus in one genre, the degree is specifically intended for writers interested in exploring the connections to be found in literature, entertainment and art. Program graduates include television writers, screenwriters, writers and teachers of literary fiction and poetry, Web content providers and designers, editors, publishers, and technical writers.

Degree Requirements
Thirty units of work are required to earn the MPW degree. MPW 500 Survey of Professional Writing (3 units) is required and should be taken in the first semester. Fifteen additional units must be earned in the student's major genre (fiction, nonfiction, poetry, or writing for stage and screen), including MPW 592a, MPW 592b, MPW 592z or MPW 594a, MPW 594b, MPW 594z Master's Thesis. While taking Professional Writing Project or Master's Thesis, with advisement from their faculty mentors, students will generate their master's professional projects in their respective genres. These projects may be a full length novel, a collection of short stories, a nonfiction manuscript, a collection of essays, a collection of poems, or a full length screenplay or stageplay. The remaining 12 units consist of electives from the MPW curriculum, and students are encouraged to choose widely.

Progressive Degree Program in Master of Professional Writing
The progressive degree program permits exceptional undergraduate students to receive both a Bachelor of Arts and a Master of Professional Writing within five years. It is intended for students with extraordinary MPW preparation and performance who demonstrate a superior level of overall scholarship.

Awarding of Degrees
Progressive degree program students must fulfill all of the requirements for both the bachelor's degree and the master's degree, including a professional writing project or a master's thesis. The unit requirement for the master's degree can be reduced by as much as one-third. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree.

Time Limits
The time limit for completing a progressive degree program is 12 semesters. Further details about progressive degrees can be found on the Requirements for Graduation page.

Psychology
The Department of Psychology has five topical areas:
1) Brain and Cognitive Science addresses fundamental questions about the brain and mind in humans and animals in areas such as creativity, decisions, emotion, learning and memory, linguistics, motivation, and perception. 2) Clinical Science applies scientific theories and methods to understand adaptive and maladaptive functioning to alleviate human suffering, and to promote adjustment. Specialization available in clinical-aging, child and family clinical, and adult clinical. 3) Developmental Psychology studies developmental change in social behavior, cognition, language, neurological structure and emotions from childhood through early adulthood. 4) Quantitative Methods studies basic and advanced methodology used in psychometrics and measurement, longitudinal data analysis, behavior genetic methods, decision making, and robust statistical methods for analyzing multivariate data. 5) Social Psychology studies the thoughts, feeling and actions of individuals as they are influenced by other individuals and by groups.

The department also offers a joint major in Linguistics/Psychology and participates in the Dornsife College's interdisciplinary program in Neuroscience. Research is integral to psychology; it enables the faculty to make contributions in the field and to be more effective teachers. Undergraduate students are encouraged to work with members of the faculty on research projects. The most direct way for students to participate in research is to enroll in a directed research course, but it is also possible to take part in ongoing research in less formal ways. Further options for research training include the honors program for psychology majors and the progressive degree program that permits students to complete all requirements for both the BA and the MA degrees in psychological science in five years.
LING 403, LING 405, LING 406, LING 407, LING 410, LING 415, LING 466 and LING 485; three additional courses selected from LING 406, PSYC 301L, PSYC 326, PSYC 336L, PSYC 337L, PSYC 424 and PSYC 433. See Department of Linguistics.

**Minor in Critical Approaches to Leadership**
See the Department of Interdisciplinary Studies.

**Honors Program**
The department offers an honors program for outstanding students in the BA, Psychology major who desire advanced research training in preparation for graduate work in the social sciences or in professional schools. The primary focus of the honors program is the completion of a research study under the guidance of a faculty adviser. Students are admitted to the program in the fall semester of their junior year and enter the program in the spring of their junior year by enrolling in PSYC 380. To be eligible for admission, a student must have an overall GPA of at least 3.5 at the time of application to the program. This program is not available to students majoring in Social Sciences with an emphasis in Psychology. Students in the honors program complete all major requirements, including PSYC 380 Junior Honors Seminar during the spring semester of their junior year and PSYC 480 Senior Honors Seminar during the spring semester of their senior year. Students complete an honors thesis proposal as part of the Junior Honors Seminar and must submit a completed senior honors thesis by April 1 of the senior year. Students are also expected to have an overall GPA of at least 3.5 at the time of graduation. For further information, contact the undergraduate adviser or the director of the program, Dr. JoAnn M. Farver.

**Psi Chi**
Psi Chi is the national honor society in psychology. Membership is open to graduate and undergraduates who meet the minimum qualifications. Psi Chi is a member of the Association of the College Honor Societies and an affiliate of the American Psychological Association and the American Psychological Society.

**Graduate Degrees**
The Department of Psychology offers an MS in Applied Psychology, an MS in Applied Behavior Analysis and five programs of study that to the PhD degree: (1) clinical science, including specializations in adult clinical, clinical-agging and child and family; (2) developmental psychology, including child and adolescent development and adult development and aging; (3) brain and cognitive science, including cognitive neuroscience, behavioral neuroscience, clinical neuroscience and behavioral genetics; (4) quantitative methods; and (5) social psychology. All five specialty PhD areas provide training for careers in research, teaching and applied work.

**Admission Requirements**
Psychology courses required for admission to the PhD program include the following courses: Introduction to Psychology, Statistics, Research Methods, or Experimental Psychology; and at least one course from each of the following lists: (1) comparative psychology, physiological psychology, sensation and perception, learning and memory, motivation, and emotion; and (2) developmental psychology, social psychology, abnormal psychology, personality, and history of psychology. Additional courses are desirable, as is work in the biological, physical and social sciences, in mathematics and in philosophy. Students with less background in psychology but outstanding undergraduate records in related fields are also encouraged to apply. Students are selected on the basis of their undergraduate records, scores on the Graduate Record Examinations General Test, course background, letters of evaluation, personal statement of interests and goals and evidence of research skills or interests (e.g., publications or participation in research projects).

The faculty of each specialty area select the students to be admitted to that area. Therefore, applicants should designate the specialty area to which they seek admission. Application for admission in psychology is completed online and all materials must be submitted by December 1 for admission to the following fall semester.

**Degree Requirements**
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

**Bachelor's Degree**

**Cognitive Science (BA)**
*Director:* Toben Mintz, PhD
Cognitive science is an interdisciplinary major that focuses on the mind and cognition from a variety of perspectives and approaches. The core and electives sample from courses from computer science, human and evolutionary biology, linguistics, mathematics, philosophy and psychology. The major consists of four fixed core courses, plus two tiers of flexible core courses. The first tier generally consists of more introductory courses and the second tier of more advanced courses, although there are exceptions, and some courses satisfy either tier. Students must take two courses from the first tier and three courses from the second. The purpose of the flexible tiers is to structurally implement interdisciplinary breadth with some degree of flexibility. The flexible core is a subset of the electives, from which students can choose in order to complete the required number of units. Students may elect to focus their curriculum from one of three tracks, which are suggested courses of study for focusing on a particular theme in cognitive science. This may be accomplished through individual advisement: language, reasoning and decision-making, and the computational mind. Total required units for major: 43–48 units. Consisting of 16 core units, 18–20 flexible core units and 9–12 elective units.

**Core Requirements (4 Courses)**
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4
- PSYC 301L Cognitive Processes Units: 4
- PSYC 339Lg Origins of the Mind Units: 4

**Total units: 16**

**Flexible Core Requirements (5 Courses)**
Two courses from:

- CSCI 455x Introduction to Programming Systems Design Units: 4 *
- LING 210g Introduction to Linguistics Units: 4
- LING 301 Introduction to Phonetics and Phonology Units: 4 *
- LING 302 Introduction to Syntax and Semantics Units: 4 *
- PHIL 122ag Reasoning and Argument Units: 2
- PHIL 122bg Reasoning and Argument Units: 2
- PHIL 262g Mind and Self: Modern Conceptions Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 336L Developmental Psychology Units: 4

Three courses from:

- CSCI 360L Introduction to Artificial Intelligence Units: 4
- CSCI 460 Introduction to Artificial Intelligence Units: 3 *
- HBIO 200Lg The Human Animal Units: 4
- HBIO 306 Primate Social Behavior and Ecology Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4
- LING 210g Introduction to Linguistics Units: 4
- LING 275Lg Language and Mind Units: 4
- LING 301 Introduction to Phonetics and Phonology Units: 4 *
- LING 302 Introduction to Syntax and Semantics Units: 4 *
- PHIL 350 Symbolic Logic Units: 4
- PHIL 422 British Empiricism Units: 4
- PHIL 423 The Critical Philosophy of Kant Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 463 Theories of Action Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 314L Research Methods Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 336L Developmental Psychology Units: 4
- PSYC 420 Animal Behavior Units: 4
- PSYC 422 Human Judgment and Decision Making Units: 4 *
- PSYC 424 Neuropsychology Units: 4
- PSYC 425 Functional Imaging of the Human Brain Units: 4
- PSYC 433 Children's Learning and Cognitive Development Units: 4 *
- PSYC 450L Neural Network Models of Social and Cognitive Processes Units: 4 *
- PSYC 454 Social Cognition Units: 4

Total units: 18–20

Electives (3 Courses)

- BISC 421 Neurobiology Units: 4
- CSCI 103L Introduction to Programming Units: 4
- CSCI 109 Introduction to Computer Science Units: 2
- CSCI 455x Introduction to Programming Systems Design Units: 4
- CSCI 460 Introduction to Artificial Intelligence Units: 3 *
- HBIO 200Lg The Human Animal Units: 4
- HBIO 306 Primate Social Behavior and Ecology Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4
- LING 210g Introduction to Linguistics Units: 4
- LING 275Lg Language and Mind Units: 4
- LING 301 Introduction to Phonetics and Phonology Units: 4 *
- LING 302 Introduction to Syntax and Semantics Units: 4 *
- PHIL 350 Symbolic Logic Units: 4
- PHIL 422 British Empiricism Units: 4
- PHIL 423 The Critical Philosophy of Kant Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 463 Theories of Action Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PHIL 486 Methodologies of the Sciences Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 314L Research Methods Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 336L Developmental Psychology Units: 4
- PSYC 420 Animal Behavior Units: 4
- PSYC 422 Human Judgment and Decision Making Units: 4 *
- PSYC 424 Neuropsychology Units: 4
- PSYC 425 Functional Imaging of the Human Brain Units: 4
- PSYC 433 Children's Learning and Cognitive Development Units: 4 *
- PSYC 440 Introduction to Cognitive Neuroscience Units: 4
- PSYC 450L Neural Network Models of Social and Cognitive Processes Units: 4
- PSYC 454 Social Cognition Units: 4

Total units: 9–12

*Prerequisite required

Total units: 43–48
Note: A course that is listed in both flexible core categories can be taken in either one. Students must choose a minimum of 16 upper-division units from the flexible core and electives lists.

Psychology (BA)

Grade Requirement
A grade of C- or higher is required to count a class toward major requirements.

Required Courses, Lower-Division
- MATH 114x Foundations of Statistics Units: 4 *
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4 **

Note:
*At least one math course of 2.67 units or more is required. MATH 114x (or MATH 208x, MATH 218, or MATH 265) is required. Students with a strong math background may profit from a more advanced class.

Thirty-two upper-division psychology units are required, including:

Required Courses, Upper-Division
- PSYC 314L Research Methods Units: 4 **
- PSYC 316L Non-Experimental Research Methods Units: 4

Note:
**It is recommended that no more than two upper-division psychology courses be taken prior to the completion of PSYC 274L and PSYC 314.

One course from each of four of the following five lists is also required:

Cognitive
- PSYC 301L Cognitive Processes Units: 4
- PSYC 305 Learning and Memory Units: 4
- PSYC 440 Introduction to Cognitive Neuroscience Units: 4

Developmental
- PSYC 336L Developmental Psychology Units: 4
- PSYC 337L Adult Development and Aging Units: 4
- PSYC 339Lg Origins of the Mind Units: 4

Clinical
- PSYC 360 Abnormal Psychology Units: 4
- PSYC 361 Introduction to Clinical Psychology Units: 4
- PSYC 367g Stress, Health, and the Mind-Body Connection Units: 4

Biological
- PSYC 304L Sensation and Perception Units: 4
- PSYC 320 Principles of Psychobiology Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 404L Psychophysiology of Emotion Units: 4
- PSYC 420 Animal Behavior Units: 4

Social
- PSYC 355 Social Psychology Units: 4

Additional Requirements
Two 400-level psychology courses other than 490x totaling eight units are also required. PSYC 404L and PSYC 420 may not count toward this requirement if used to satisfy the biological category above.

An additional psychology course, either upper or lower-division of at least 2.67 units is required.

Social Sciences, with an Emphasis in Psychology (BA)
The required courses are: PSYC 100, MATH 114*, PSYC 274L and eight upper-division courses in departments in the social sciences, including five in the Department of Psychology and three outside the department but within the division. These may be any 300- or 400-numbered courses.

*MATH 208, MATH 218 or MATH 265 may substitute for MATH 114.

Minor

Consumer Behavior Interdisciplinary Minor
This interdisciplinary minor explores consumer thinking from the perspective of psychology, marketing, economics, anthropology, sociology and other departments interested in popular culture. Why do people form the attitudes and impressions they do? How do individual factors, culture, mass media, economics and social trends influence people's decisions? See USC Marshall School of Business.

Psychology and Law Minor
This interdisciplinary minor brings together courses in psychology that focus on the social, clinical, cognitive and societal aspects of psychology and how it relates to law. This knowledge is augmented with courses from the USC Gould School of Law that identify the relationship between mental health, social psychology and law.

Twenty-four units are required for the minor. A minimum of four courses (16 units) must be unique to the minor. Psychology majors and students majoring in social sciences with an emphasis in psychology may "double count" up to two courses toward the major and minor; however, they must take a minimum of four courses that do not apply to the major.

Required Courses
PSYC 100 or LAW 200 (PSYC 100 is a prerequisite to upper-division PSYC classes). Psychology majors must take both courses.

Elective Requirements
At least two upper-division courses in Psychology taken from the following list:
- PSYC 301L Cognitive Processes Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 355 Social Psychology Units: 4
• PSYC 360 Abnormal Psychology Units: 4
• PSYC 363 Criminal Behavior Units: 4
• PSYC 365 Introduction to Forensic Psychology Units: 4
• PSYC 454 Social Cognition Units: 4

At least two upper-division Law classes from the following list:
• LAW 402 Psychology and Law Units: 4
• LAW 403 Mental Health Law Units: 4
• LAW 404 Law and Psychology: Examining the Criminal Justice Process Units: 4

No more than one course from the following list may be used to complete the four unique courses requirement:
• ANTH 355 Urban Anthropology Units: 4
• ANTH 371gm Cross-Cultural Research on Urban Gangs Units: 4
• LING 412 Language and Law Units: 4
• LING 450 New Horizons in Forensic Speaker Identification Units: 4
• SOCI 350 Social Exclusion, Social Power, and Deviance Units: 4
• SOCI 351 Public Policy and Juvenile Justice Units: 4
• SOCI 353 Public Policy and Criminal Justice Units: 4

Psychology Minor
The minor requires six courses: PSYC 100 and five additional courses:
One course is required in each of three of the five topic areas listed under Major Requirements. PSYC 314L may be used to fulfill one of these topic areas.
Two elective PSYC courses. One must be upper-division, 300-level or higher.
Limitations:
1. Students must complete at least 16 upper-division PSYC units.
2. No more than four units of PSYC 490x is applicable to the minor.
3. Each of the six courses must be at least 2.67 units.

Master's Degree
Applied Behavior Analysis (MS)
