• BISC 421 Neurobiology Units: 4
• CHEM 105bL General Chemistry Units: 4
• CHEM 115aLg Advanced General Chemistry Units: 4 or
• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115bL Advanced General Chemistry Units: 4
• CHEM 322aL Organic Chemistry Units: 4
• CHEM 322bL Organic Chemistry Units: 4
• CSCI 103L Introduction to Programming Units: 4
• CSCI 455x Introduction to Programming Systems Design Units: 4 or
• EE 150L Engineering Computational Methods Units: 3 or
• ITP 109 Introduction to Java Programming Units: 2 or
• ITP 115 Programming in Python Units: 2 or
• ITP 168 Introduction to MATLAB Units: 2
• MATH 125g Calculus I Units: 4
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 135aLg Physics for the Life Sciences Units: 4 or
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 135bL Physics for the Life Sciences Units: 4 or
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PSYC 100Lg Introduction to Psychology Units: 4
• PSYC 274Lg Statistics Units: 4 or
• PSYC 440 Introduction to Cognitive Neuroscience Units: 4

Note:
*An equivalent course may be substituted with permission.

Elective courses
Five or six upper-division elective courses (minimum of 20 units) from the following list are required. At least one course in the upper-division electives must carry a lab ("L") designation or be 490. No more than 4 units of NEUR 490x may be used to fulfill the upper-division elective requirement.

Electives
• BISC 307L General Physiology Units: 4
• BISC 313L Evolution and Population Genetics Units: 4
• BISC 320L Molecular Biology Units: 4
• BISC 325 Genetics Units: 4
• BISC 330L Biochemistry Units: 4
• BISC 403 Advanced Molecular Biology Units: 4
• BISC 406L Biotechnology Units: 4
• BISC 410 Applications of Molecular Biology to Medicine Units: 4
• BISC 411 Advanced Cell Biology Units: 4
• BISC 422L Neurobiology Laboratory Units: 2
• BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4
• BISC 424 Brain Architecture Units: 4
• BISC 426 Principles of Neural Development Units: 4
• BISC 462 Seminar in Neurobiology Units: 2
• BISC 480 Developmental Biology Units: 4
• BME 402 Control and Communication in the Nervous System Units: 2
• CSCI 455x Introduction to Programming Systems Design Units: 4
• CHEM 422aL Organic Chemistry Units: 4
• BME 575L Computational Neuroengineering Units: 3
• PSYC 506 Learning and Cognition Units: 4
• CHEM 522L Organic Chemistry Units: 4
• BME 575L Computational Neuroengineering Units: 3
• PSYC 545 Neuropsychology Units: 4
• PSYC 547 Functional Neuroanatomy Units: 4
• PSYC 548 Psychophysiology Units: 4
• PSYC 551 Decision Neuroscience Units: 4
• HBIO 306 Primate Social Behavior and Ecology Units: 4
• BISC 421 Neurobiology Units: 4
• PSYC 440 Introduction to Cognitive Neuroscience Units: 4
• NSCI 524 Advanced Overview of Neurosciences Units: 4
• CSCI 564 Brain Theory and Artificial Intelligence Units: 3
• PSYC 425 Functional Imaging of the Human Brain Units: 4
• PSYC 450 Neural Network Models of Social and Cognitive Processes Units: 4

A graduate class from the following list can be substituted for an upper-division elective with permission:
• BME 575L Computational Neuroengineering Units: 3
• CSCI 564 Brain Theory and Artificial Intelligence Units: 3
• NSCI 524 Advanced Overview of Neurosciences Units: 4
• NSCI 531 Molecular and Cellular Neurobiology Units: 4
• NSCI 532 Systems and Behavioral Neurobiology Units: 3
• PSYC 506 Learning and Cognition Units: 4
• PSYC 540 Cognitive Neuroscience Units: 4
• PSYC 544 Psychophysiology Units: 4
• PSYC 545 Neuropsychology Units: 4
• PSYC 547 Functional Neuroanatomy Units: 4
• PSYC 551 Decision Neuroscience Units: 4

Note:
*With minimum GPA of 3.3 and permission of co-directors and instructor

Minor
Neuroscience Minor
Coordinator: Jason Zevin, PhD
Undergraduate Advisers: Elizabeth Linkous, linkous@usc.edu; Lucy A. Leon, lucyleon@usc.edu

Grade Requirements
A grade of C- or higher is required to count toward minor requirements.

Core Requirements (20 Units)
• PSYC 274Lg Statistics Units: 4
• BISC 421 Neurobiology Units: 4
• PSYC 408 Systems Neuroscience: From Synapses to Perception Units: 4
• PSYC 440 Introduction to Cognitive Neuroscience Units: 4
• Electives A 300- or 400-level course from the elective list for majors Units: 4
Note:

* An equivalent course may be substituted with permission
** Prerequisite: BISC 220 or BISC 221
*** Prerequisite: PSYC 100
Recommended but not required: CHEM 103Lx (or CHEM 105La) plus MATH 125
Students who have not already taken the prerequisites (BISC 220/221 and PSYC 100) will need to take a total of 28 units to satisfy the requirements of a minor in neuroscience. Thus, the range of units will vary from 20 to 28 depending on a student's background.

Ocean Sciences

Zumberge Hall of Science 117
(213) 740-6106
FAX: (213) 740-8801
Email: waite@usc.edu
oceansciences.usc.edu

Director: Douglas E. Hammond, PhD
Participating Faculty: See Biological Sciences, Earth Sciences and Engineering in this catalogue.

Applications for the Ocean Sciences program should be routed through the affiliated departments and a separate letter sent to the Ocean Sciences director, Douglas E. Hammond, USC Earth Sciences, Los Angeles, CA 90089-0740.

Degree Programs

The Graduate Program in Ocean Sciences (GPOS) provides interdisciplinary education in academia and training to prepare professional ocean scientists for careers in academia, industry, and state and federal government. Students develop the ability to identify and solve significant problems in ocean sciences by using their training in several disciplines. They develop the ability to formulate and test hypotheses and integrate information and concepts about how the earth-ocean system is structured and how it functions. Training also is provided to develop skills in oral and written communication of technical and scientific information. Both MS and PhD degree programs are offered; both require preparation of a thesis (MS) or dissertation (PhD).

Admission Requirements

All rules and regulations described in The Graduate School section of this catalogue and Graduate Admission apply to students in the GPOS.

Official acceptance by the GPOS Admissions Committee is based on the recommendation of faculty from an affiliated department. Acceptance depends upon the applicant's letters of recommendation, research experience, intended area of research, personal interview (whenever possible), and the availability of a faculty member willing to advise and sponsor the applicant.

A BS or BA degree in an appropriate field of natural science, engineering or mathematics is required for admission.

It is expected that applicants to the GPOS will have attained a scholarship average of at least "B" (3.0 GPA on a 4.0 scale) preferably in the natural sciences or mathematics. Applicants must have taken the GRE aptitude test (verbal and quantitative). Successful applicants typically score in excess of 600 on both verbal and quantitative parts of the exam.

Applicants should contact the GPOS office by email or phone for an admission package. The GPOS admits students for both the fall and spring semesters; however, applicants for assistantships are encouraged to apply for the fall semester.

Graduate Degrees

Degree Requirements

Advanced degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Interdisciplinary Programs

The Graduate Program in Ocean Sciences is designed to be interdisciplinary, reflecting the nature of the field that combines principles of physical, chemical, geological and biological oceanography to solve relevant problems in the ocean environment.

Master's Degree

Ocean Sciences (MS)
The program does not accept applicants for a Master of Science degree in ocean sciences. The MS degree is intended only as a transitional degree in the process of completing requirements for the PhD in ocean sciences.

Research Tool Requirements

None required.

Course Requirements

The MS degree in Ocean Sciences requires at least 24 units of course work, including two core courses (OS 512 and 582). Four thesis units (OS 594) are also required. At least 16 units of course work must be at the 500-level or higher; no more than six units can be directed research (OS 590); a maximum of four units with superior grades in approved course work may be transferred from an accredited graduate school. Students are required to maintain an overall GPA of 3.0 in all graduate work.

Thesis

Students should arrange for the appointment of a thesis adviser and committee after the first semester, or at the latest, after the first year of graduate work. The thesis committee should consist of the adviser plus two other faculty members, all of whom are generally selected from GPOS faculty. Once the committee is arranged, the student may make formal application to the Graduate School for the MS degree.

Doctoral Degree

Ocean Sciences (PhD)

Research Tool Requirements

To be determined by qualifying exam committee.

Course Requirements

The PhD degree in Ocean Sciences requires at least 27 units of formal course work (including seminars) of the 60 total units needed. Two core courses are required (OS 512, OS 582). No more than 15 units of 400-level course work may be applied. A maximum of 30 units may be transferred from an accredited graduate school. Students are required to maintain an overall GPA of 3.0 in all graduate work.

Students may request permission to take the PhD qualifying examination on completion of 24 units of course work, including two core courses in Ocean Sciences.

Screening Procedure

Students in the PhD program must pass the screening procedure before their 25th unit of graduate credit. Screening consists of a review of the student's progress and is usually done by the GPOS Review Committee following a written recommendation by the student's adviser(s). Screening occurs at the end of each semester.

Qualifying Exam Committee

The doctoral qualifying exam committee is formed after the student has passed the screening procedure. The committee is appointed by the department with the advice of the student's research adviser. The five-member committee consists of the adviser, a minimum of three other members from the GPOS faculty, and one additional tenure-track faculty member. The committee must
include faculty members from more than one academic department. A tenure-track faculty member must serve as research adviser or co-adviser. The committee consults with the student, recommends an appropriate program of study and administers written and oral qualifying examinations.

**Qualifying Examination**

The student may request permission to take the PhD qualifying examination upon completion of 24 units of course work, including two core courses in ocean sciences. The qualifying examination consists of a written and an oral part, both parts prepared, conducted and evaluated by the student's examination committee. The written examination will consist of a number of questions given on two consecutive days. Questions will be comprehensive in scope with respect to the student’s chosen area of specialization and will be designed to test the student's conceptual, analytical and integrative ability and preparation.

The written part of the qualifying examination must be taken before the oral examination. The oral examination will be in the area of the student's intended research and will be based on a research project selected and developed by the student into a written proposition. The oral examination will be conducted and evaluated by the student's examination committee. The oral examination must be taken within one month of the written examination.

**Defense of the Dissertation**

After the student has passed the qualifying examination, the qualifying exam committee recommends to the Graduate School that the student be admitted to candidacy for the PhD degree. Following admission to candidacy the student must register for OS 794 Dissertation every semester, except summers, until the degree is awarded.

Once the qualifying examination is passed, the student is required, as soon as possible, to appoint a dissertation committee, using an appointment of committee form which can be found on the Graduate School Website (use.edu/schools/GraduateSchool). All or some of the qualifying exam committee may be nominated. Until a dissertation committee is appointed, the qualifying exam committee will have responsibility for the student's program of study. The student must undertake an original investigation of a problem in ocean sciences. The topic must be approved by the student's dissertation committee and will usually be based on the written proposition presented in the qualifying examination.

A dissertation based on the student's research must be approved by the student's dissertation committee. The student must then defend the dissertation. The process for submission of the dissertation to the Graduate School can be found on the Graduate School Website under "Current Students — Thesis and Dissertations." This process should be started approximately one month before the defense, and the student must allow adequate time after the defense for final copy preparation.

The dissertation must conform to the general regulations described in Regulations for Format and Presentation of Theses and Dissertations, also available from the Graduate School Website. Additional regulations and information on the organization and preparation of the dissertation are provided in Directions for Preparation of Dissertations and Research Reports as Required by the Graduate Program in Ocean Sciences/University of Southern California, available in the GPOS office.

**Philosophy**

The School of Philosophy offers courses in most areas of philosophy, including philosophy of mind, philosophy of language, epistemology, metaphysics, logic, philosophy of science, political philosophy, ethics, aesthetics, the history of philosophy, phenomenology and existentialism. The major in philosophy is designed to acquaint students with the fundamental problems of Western thought and introduce them to the concepts and techniques necessary for independent philosophical thinking; it is equally intended to provide a broadening perspective for the various areas of specialization in the natural and social sciences and in literature and the arts. The school also offers minors in: philosophy; ethics and moral philosophy; philosophy; philosophy for business, law, and the professions; and theories of art. In addition to these undergraduate programs, The School of Philosophy also offers a Master of Arts in Philosophy, a Master of Arts in Philosophy and Law, a joint degree with the USC Gould School of Law, and a Doctor of Philosophy in Philosophy.

Mudd Hall of Philosophy 113
(213) 740-4084
FAX: (213) 740-5174
Email: philos@dornsife.usc.edu
dornsife.usc.edu/phil
Director: Scott Soames, PhD

**Faculty**

Distinguished Professor: Scott Soames, PhD
Provoost Professor of Philosophy and Law: Gary Watson, PhD
William T. Dalecki Professor of Law and Professor of Philosophy: Gregory Keating, PhD (Law)
Professors: Stephen Finlay, PhD; John Hawthorne, PhD; Robin Jeshion, PhD; Janet Levin, PhD; Sharon Lloyd, PhD;* Edwin McCann, PhD;* Kevin W. Robb, PhD;* Mark Schroeder, PhD;* Gabriel Uzquiano Cruz, PhD; James Van Cleve, PhD; Kadri Vihvelin, PhD; David Wallace, PhD; Ralph Wedgwood, PhD
Associate Professors: Zlatan Damnjanovic, PhD; John H. Dreher, PhD; Shieva Kleinschmidt, PhD; Jonathan Quong, PhD; Jacob Ross, PhD; Jeffrey Sanford Russel, PhD
Assistant Professors: Andrew Bacon, PhD; Jeremy Goodman, PhD

**Emeritus University Professor and Emeritus Dean of the USC Dornsife College of Letters, Arts and Sciences:** S. Marshall Cohen, MA*
**Emeritus Professors:** Frank Lewis, PhD; George Wilson, PhD
*Recipient of university-wide or college teaching award.

**Undergraduate Degrees**

**Double Major**

Double majors are encouraged but a student must work in close consultation with the undergraduate adviser.

**Bachelor of Arts with a Combined Major in Linguistics and Philosophy**

See Linguistics.

**Philosophy Honors Program**

Students who are considering the possibility of continuing their education at a graduate level in philosophy or similar disciplines, or students who wish to undertake a more intensive course of studies in philosophy, which includes original independent research, are strongly encouraged to take the major with honors.

The major with honors requires completion of the requirements for the Bachelor of Arts, with the following additional requirements:

- a. Students must take a capstone seminar, having completed the prerequisites for taking it.
- b. In addition to the required courses for the major, students must take PHIL 494 Senior Thesis during the fall term of their senior year. The senior thesis will be graded by the student's adviser and another member of the School of Philosophy, following an oral defense. The senior thesis must be completed with a grade of B or higher.
- c. Students must have a GPA of 3.5 or higher in their philosophy courses

Students who intend to complete the major with honors are encouraged to enroll in the program during their sophomore year (but no later than the end of the first term of their junior year), and should consult about their studies with the faculty adviser for the honors program on a continuous basis.
### Minor in Critical Approaches to Leadership
See Interdisciplinary Studies.

### Graduate Degrees
The objective of the graduate program in philosophy is to equip suitably prepared and talented students to function effectively as teachers, thinkers and writers on philosophical topics in the Western tradition. The program provides for a wide range of studies within philosophy, but emphasizes the history of philosophy, both classical and modern, along with the traditional core disciplines: ethics, epistemology, metaphysics and logic.

Because philosophy is as much a special manner of intellectual activity as it is a special subject matter, the graduate student is expected not only to master major works in the historical and contemporary literature of philosophical thought, but also to develop the ability to engage in the ongoing process of philosophical research and dialogue.

### Admission Requirements
An applicant for admission normally has an undergraduate major in philosophy, but programs may be arranged for promising students who do not. At least three letters of recommendation from the student's undergraduate teachers should be sent to the chair of graduate admissions of the School of Philosophy. All applicants are required to take the verbal and quantitative General Tests of the Graduate Record Examinations.

### Degree Requirements
These degrees are awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

### Progressive Degree Program in Philosophy and Law
The progressive degree program permits exceptional undergraduate students with a major in philosophy to receive both an undergraduate degree and the Master of Arts in Philosophy and Law within five years. A minimum GPA of 3.5, two letters of recommendation and outstanding performance in philosophy courses are required for admission to this program. For other requirements of the progressive degree program, see here.

### Graduate Advisement
In addition to the departmental graduate adviser, who has the formal role in graduate advising, each student will be matched with a personal adviser, who will share responsibility with the graduate adviser for monitoring a student's progress semester by semester. The graduate adviser is available to counsel any graduate student on all aspects of the graduate program. A student's personal adviser will consult informally with the student semester by semester on how to interpret his or her grades and especially the written reports provided by the instructor for each course in which the student is enrolled, discuss informally the student's selection of courses each semester, and generally keep track of the student's progress in the program. At the appropriate time, the student will consult his or her adviser concerning the appointment of a faculty committee for guidance and supervision. An official qualifying exam committee will be appointed at the time the student passes the screening examination; for the rules governing its establishment and makeup, see General Requirements for the Doctor of Philosophy degree in the Graduate School section. The qualifying exam committee will meet with the student soon after its appointment, and at least once each academic year thereafter.

### Bachelor's Degree

#### Philosophy (BA)
The School of Philosophy offers three major options: the major in philosophy, the major in philosophy with honors, and the major in philosophy, politics and law.

The major in philosophy requires eight courses in philosophy; six of these must be at the upper-division level.

### One of the eight courses must be a gateway course:
- PHIL 300 Introduction to the Philosophical Classics Units: 4
- PHIL 315 History of Western Philosophy: Ancient Period Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 360 Epistemology and Metaphysics Units: 4
- PHIL 385 Science and Rationality Units: 4
- PHIL 400 Contemporary Ethical Theory Units: 4
- PHIL 420 History of Ethics to 1900 Units: 4
- PHIL 443 Value Theory Units: 4
- PHIL 445 Intermediate Symbolic Logic Units: 4

### Distribution Requirement
Students must take at least one course from each of the three categories listed below:

#### History of Philosophy
- PHIL 300 Introduction to the Philosophical Classics Units: 4
- PHIL 315 History of Western Philosophy: Ancient Period Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4
- PHIL 337 History of Modern Political Philosophy Units: 4
- PHIL 345 Greek Ethics Units: 4
- PHIL 355 Existentialism Units: 4
- PHIL 410 Early Greek Thought Units: 4
- PHIL 411 Plato Units: 4
- PHIL 415 Aristotle Units: 4
- PHIL 421 Continental Rationalism Units: 4
- PHIL 422 British Empiricism Units: 4
- PHIL 423 The Critical Philosophy of Kant Units: 4
- PHIL 424 19th Century Philosophy Units: 4
- PHIL 425 American Philosophy Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
- PHIL 442 History of Ethics to 1900 Units: 4
- PHIL 443 Value Theory Units: 4
- PHIL 445 Intermediate Symbolic Logic Units: 4

#### Ethics, Law and Value Theory
- PHIL 330 Theories of Law Units: 4
- PHIL 335 Theoretical Models of Leadership Units: 4
- PHIL 337 History of Modern Political Philosophy Units: 4
- PHIL 338 Political Economy and Social Issues Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 345 Greek Ethics Units: 4
- PHIL 347 Philosophy in Literature Units: 4
- PHIL 355 Existentialism Units: 4
- PHIL 361 Philosophy of Religion Units: 4
- PHIL 363 Philosophy of Perception Units: 4
- PHIL 385 Science and Rationality Units: 4
- PHIL 420 History of Ethics to 1900 Units: 4
- PHIL 443 Value Theory Units: 4
- PHIL 446 Aesthetics and the Film Units: 4

#### Systematic Philosophy
- PHIL 350 Symbolic Logic Units: 4
- PHIL 360 Epistemology and Metaphysics Units: 4
- PHIL 363 Philosophy of Perception Units: 4
- PHIL 385 Science and Rationality Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
- PHIL 450 Intermediate Symbolic Logic Units: 4
• PHIL 460 Metaphysics Units: 4
• PHIL 462 Philosophy of Mind Units: 4
• PHIL 463 Theories of Action Units: 4
• PHIL 465 Philosophy of Language Units: 4
• PHIL 470 Theory of Knowledge Units: 4
• PHIL 480 Philosophy of Mathematics Units: 4
• PHIL 485 Development of Physical Science Units: 4
• PHIL 486 Methodologies of the Sciences Units: 4

Note:
During the senior year, students enrolled in one of the three majors' programs in philosophy can take a capstone seminar. Students who are enrolled in one of the minors in philosophy may enroll in a capstone seminar only with the permission of the instructor. Enrollment in these seminars will not exceed 15 students. Students may enroll in a capstone seminar only if they have satisfied the following requirements: taken a course in logic (PHIL 120, PHIL 122a, PHIL 122b, PHIL 222, PHIL 351 Reasoning and Logic or PHIL 350), taken at least one 400-level course in philosophy and have a GPA in philosophy of 3.0 or above.

Philosophy, Politics and Law (BA)
This interdisciplinary major combines, in a systematic and structured way, basic education in philosophy, political theory and elements of law. An interdisciplinary approach to the combination of these three disciplines may be of particular interest to students contemplating post-graduate work in law; those interested in a career in public service or politics; and those attracted by the rigor of philosophy and its attention to foundational issues, who are also interested in politics and law. Students are exposed to a wider range of conceptual and methodological approaches than they would in any single discipline, while learning enough philosophy and political science to leave a choice of options for graduate schools. The major requires nine classes, one of which must be a gateway course — PHIL 300, PHIL 315, PHIL 320, PHIL 340 or PHIL 360 — distributed as follows.

Requirements
One lower-division class from the following:
• PHIL 141gp The Professions and the Public Interest in American Life Units: 4
• PHIL 240g Mind, Self, and Consciousness Units: 4
• POSC 130g Law, Politics and Public Policy Units: 4

Note:
Students who satisfy one of their general education requirements by taking a core, thematic options course of comparable scope and content, can, at the discretion of the director of the School of Philosophy and the philosophy undergraduate adviser for this major, substitute that course for one of the above.

One course in logic:
(Note: If selected, both PHIL 122a and PHIL 122b must be taken as they are considered two parts of one course.)
• PHIL 122ag Reasoning and Argument Units: 2
• PHIL 122bh Reasoning and Argument Units: 2
• PHIL 222g Logic and Language Units: 4
• PHIL 350 Symbolic Logic Units: 4

One course in philosophy of law:
• PHIL 430 Philosophy of Law Units: 4
• PHIL 431 Law, Society, and Politics Units: 4

Two courses from Categories A, B and C below

The two courses must belong to different categories, and one of these courses must be a gateway course: PHIL 300, PHIL 315, PHIL 320, PHIL 340 or PHIL 360. Students are required to take a gateway course before enrolling in any 400-level course in philosophy.

A. Moral and political philosophy
• PHIL 335 Theoretical Models of Leadership Units: 4
• PHIL 337 History of Modern Political Philosophy Units: 4
• PHIL 340 Ethics Units: 4
• PHIL 437 Social and Political Philosophy Units: 4
• PHIL 440 Contemporary Ethical Theory Units: 4

B. History of philosophy:
• PHIL 300 Introduction to the Philosophical Classics Units: 4
• PHIL 315 History of Western Philosophy: Ancient Period Units: 4
• PHIL 317 History of Western Philosophy: Medieval Period Units: 4
• PHIL 320 History of Western Philosophy: Modern Period Units: 4
• PHIL 423 The Critical Philosophy of Kant Units: 4
• PHIL 426 20th Century European Philosophy Units: 4
• PHIL 427 20th Century Anglo-American Philosophy Units: 4
• PHIL 428 Anglo-American Philosophy Since 1950 Units: 4

C. Systematic areas of philosophy:
• PHIL 360 Epistemology and Metaphysics Units: 4
• PHIL 462 Philosophy of Mind Units: 4
• PHIL 463 Theories of Action Units: 4
• PHIL 465 Philosophy of Language Units: 4
• PHIL 470 Theory of Knowledge Units: 4

One course in constitutional politics:
• LAW 101w Law and the U.S. Constitution in Global History Units: 4
• POSC 335 Political Parties, Campaigns, and Elections Units: 4
• POSC 340 Constitutional Law Units: 4
• POSC 426 The United States Supreme Court Units: 4
• POSC 444 Civil and Political Rights and Liberties Units: 4

One course in comparative or international politics and law:
• ANTH 345 Politics, Social Organization, and Law Units: 4, 2 years
• POSC 345 International Law Units: 4
• POSC 440 Comparative Law and the Judicial Process Units: 4
• POSC 448a The Politics of Peace Units: 4

One course in politics, law, and public policy:
• LING 412 Language and Law Units: 4
• POSC 347 Environmental Law Units: 4
• POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8
• POSC 443 Law in Film Units: 4
• POSC 452 Critical Issues in Law and Public Policy Units: 4
• SWMS 349 Women and the Law Units: 4

One course in law:
• LAW 300 Concepts in American Law Units: 4

Note:
Students in the major may enroll in a capstone seminar in philosophy if they have satisfied the general requirements: a GPA of 3.0 in major course work; a course in logic, and at least one 400-level course in philosophy, completed prior to the capstone seminar.

Minor
Ethics and Moral Philosophy Minor
The aim of the minor is to provide students headed for medicine, biology, psychology and other health care professions with a broad humanistic perspective not found in professional education and the critical tools to deal with the ethical issues that may arise in their professional lives.

Students are required to take five courses in philosophy, at least four of which must be upper-division. Students must take at least one lower-division or 300-level course before taking any 400-level courses.

Students must take at least two courses from category one below, and at least one course from category two:

Ethics, History of Ethics and Value Theory:
• PHIL 141gp The Professions and the Public Interest in American Life Units: 4
History of Philosophy:
- PHIL 315 History of Western Philosophy: Ancient Period Units: 4
- PHIL 320 History of Western Philosophy: Modern Period Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 345 Greek Ethics Units: 4
- PHIL 361 Philosophy of Religion Units: 4
- PHIL 360 Epistemology and Metaphysics Units: 4
- PHIL 385 Science and Rationality Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
- PHIL 460 Metaphysics Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PHIL 470 Theory of Knowledge Units: 4

Systematic Philosophy:
- PHIL 262g Mind and Self: Modern Conceptions Units: 4
- PHIL 360 Epistemology and Metaphysics Units: 4
- PHIL 385 Science and Rationality Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
- PHIL 460 Metaphysics Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PHIL 470 Theory of Knowledge Units: 4

Ethics, Law and Value Theory:
- PHIL 330 Theories of Law Units: 4
- PHIL 335 Theoretical Models of Leadership Units: 4
- PHIL 337 History of Modern Political Philosophy Units: 4
- PHIL 340 Ethics Units: 4
- PHIL 345 Greek Ethics Units: 4
- PHIL 430 Philosophy of Law Units: 4
- PHIL 437 Social and Political Philosophy Units: 4
- PHIL 440 Contemporary Ethical Theory Units: 4
- PHIL 442 History of Ethics to 1900 Units: 4

Systematic Topics:
- PHIL 350 Symbolic Logic Units: 4
- PHIL 351 Reasoning and Logic Units: 4
- PHIL 352 Logic and Language Units: 4
- PHIL 357 History of Modern Political Philosophy Units: 4
- PHIL 358 Science and Rationality Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 428 Anglo-American Philosophy Since 1950 Units: 4
- PHIL 460 Metaphysics Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 463 Theories of Action Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PHIL 470 Theory of Knowledge Units: 4
- PHIL 480 Philosophy of Mathematics Units: 4
- PHIL 485 Development of Physical Science Units: 4
- PHIL 486 Methodologies of the Sciences Units: 4

Theories of Art Minor
Theorizing about the arts takes place in the discipline of philosophy (aesthetics) as well as in all the individual disciplines concerned with the individual arts. Some of the issues involved (is perspective a matter of convention?; how does acting differ in cinema and in theatre?) are specific to a particular discipline or disciplines, but their discussion typically involves very general issues (in the cases mentioned, issues about the nature of convention or of artistic media) and many of the issues manifest themselves in all these disciplines (the relation of intention to interpretation; the epistemological and moral status of the arts; the nature of evaluative judgments). The understanding of these issues can be greatly enhanced by studying them as they arise in different arts and in different theoretical traditions. The minor should be of interest to students with an interest in philosophy, or students in any of the arts who are interested in their theoretical dimensions.

There are no entrance requirements for the minor, which requires six courses (23 or 24 units, depending on course selection).

All students must take
- PHIL 242 Theories of Art Units: 4

And select five courses from the following:
- AHIS 250m Modernity and Difference: Critical Approaches to Modern Art Units: 4
- ARCH 314 History of Architecture: Contemporary Issues Units: 3
- COLT 391 Literary Criticism from Plato to Postmodernism Units: 4
- COLT 454 Aesthetic Philosophy and Theory Units: 4
- PHIL 445 Philosophy of the Arts Units: 4
- PHIL 446 Aesthetics and the Film Units: 4
- THTR 404 Acting Theory Units: 4

Distribution requirement:
Students must take at least one course from each of the three categories listed below:

Philosophy Minor
The minor in philosophy requires the completion of five philosophy courses, at least four of which are upper-division courses. All minors must take a gateway course — PHIL 315, PHIL 320, PHIL 340, or PHIL 360 — before enrolling in any 400-level course.

All students must take
- PHIL 340 Ethics Units: 4
- PHIL 361 Philosophy of Religion Units: 4
- PHIL 385 Science and Rationality Units: 4
- PHIL 427 20th Century Anglo-American Philosophy Units: 4
- PHIL 440 Contemporary Ethical Theory Units: 4
- PHIL 442 History of Ethics to 1900 Units: 4
- PHIL 445 Philosophy of the Arts Units: 4
Master's Degree

Philosophy (MA)

The department does not accept applicants for a Master of Arts degree in philosophy. The MA degree is intended only as a transitional degree in the process of completing requirements for the PhD in philosophy. A student may obtain an MA in philosophy by fulfilling the following requirements: a minimum of 36 units in the USC philosophy school, at least 24 of which must be at the 500 level. Requirements include: PHIL 500, PHIL 503 and a 500-level course in each of the following three areas: metaphysics and epistemology, ethics and other value theory, and history of philosophy. Of the remaining four required (4-unit) courses, only four units of PHIL 500 are applicable to the degree. A publishable research paper is also required.

Philosophy and Law (MA)

A total of 36 units are required for the degree, including at least 24 units in philosophy. Twelve of these must come from completing the specialization and breadth requirements. The former requires students to take a 4-unit, 500-level course in philosophy on a topic spanning philosophy and law. The latter requires students to take PHIL 500 or PHIL 503, plus another 4-unit, 500-level course in philosophy on a topic that does not span philosophy and law, including but not limited to topics in metaphysics, epistemology, philosophy of language, philosophy of science, ethics, aesthetics and history of philosophy. Students must also demonstrate a basic proficiency in symbolic logic, typically by passing, at a sufficiently high level, one of a specified range of 4-unit courses in logic offered by the School of Philosophy. The law requirement for this degree consists of two courses in the USC Gould School of Law. The first must be either LAW 503 Contracts or LAW 509 Torts I. The second must be either LAW 504 Criminal Law or LAW 508 Constitutional Law. Students who elect to take LAW 504 would normally also take 1 unit of PHIL 590 as an accompaniment. Degree candidates must also write a master's thesis on some subject in legal philosophy. At least one of the thesis advisers must have an appointment in the School of Philosophy.

Dual Degree

Master of Arts, Philosophy/Juris Doctor (MA/JD)

Students must complete 24 units in the USC School of Philosophy and 69 units in the USC Gould School of Law.

First Year: Required law school curriculum
Second and Third Years: The School of Philosophy prefers that students take at least one philosophy course each semester. During the four semesters, students must take at least 16 units at the 500-level, including PHIL 450 Intermediate Symbolic Logic or PHIL 510 Philosophical Logic and PHIL 500, and PHIL 503, one 400- or 500-level course in ethics or social/political philosophy or aesthetics or philosophy of law; one 400- or 500-level course in metaphysics or epistemology or philosophy of language or philosophy of science or philosophy of mind; one 400- or 500-level course in the history of ancient or early modern philosophy; passage of the second year review that shall include a research paper based on a completed seminar paper and completion of a publishable research paper. Students must also complete 36 additional law units.

Doctoral Degree

Philosophy (PhD)

Application deadline: January 1

Course Requirements

The minimum number of course credits required for the PhD is 60 units. No more than 8 of these units may be from 500-level courses. No more than 8 of these units may be from 400-level courses in the School of Philosophy. PHIL 450 does not count toward this maximum of 8 units of 400-level courses in the School of Philosophy. No more than eight of these units may be earned in 794 Doctoral Dissertation. Each student must pass PHIL 450 with a grade of B+ or better. PHIL 450 and both PHIL 500 and PHIL 503 must be satisfactorily completed by the end of the second year.

The student may take up to two courses in a field of study related to philosophy. The PhD dissertation may be written in any area of philosophy for which adequate supervision is available from within the university. PhD students are also required to show evidence of practical or editorial training, or their equivalent.

Foreign Language/Research Tool Requirement

A foreign language examination, specified by the school, in French, German, Latin or classical Greek is required. The faculty may approve a replacement of the language requirement by a research tool requirement, consisting of an approved course or examination in a subject essential to the student's research program. The course or examination must be passed before the qualifying examination is attempted.

There are three levels of evaluation in the PhD program prior to the dissertation:

Distribution Requirement

There is a distribution requirement of six courses at the 500 level in the School of Philosophy, two each representing breadth within each of the following three areas: (1) metaphysics and epistemology (broadly construed, including philosophical logic; philosophy of science; philosophy of math, mind, and language), (2) value theory (broadly construed, including aesthetics, political philosophy, and the philosophy of law), and (3) pre-1879 history of philosophy. PHIL 500, PHIL 503 and PHIL 590 courses cannot count toward this requirement. Up to two 400-level courses may count by petition toward this requirement, provided that the departmental standards for graduate-level course work are met. For courses straddling two areas (for example, history of ancient philosophy and metaphysics; history of modern philosophy and ethics), instructors will indicate on the syllabus which requirement the course will satisfy. Courses dealing with subject matter within more than one of the areas listed may be used to satisfy any of the areas encompassed by the course although no single course may be used to satisfy two requirements at once. The two courses within each distribution area must represent breadth, as determined in advance by the graduate adviser and in accordance with departmental guidelines. All distribution requirements must be completed by the end of the fifth semester.

Screening Procedure

Students in the PhD program must pass a screening procedure before undertaking their 25th unit (seventh course) of graduate credit. This will be based on a review of the student's work to date, and will take into account not only information acquired but also those intellectual qualities and capacities that are essential for good work in philosophy: the capacity to think and write on philosophical issues with clarity, consistency and thoroughness; the ability to understand in detail what is involved in the meaning and justification of philosophical claims or positions; the ability to recognize and to draw out fine conceptual distinctions and to perceive their logical relationships; and strong intellectual curiosity and independence of thought.

Student Reviews

Graduate student progress is reviewed on a regular basis each term. In addition, apart from the screening procedure, there are more formal reviews conducted at the end of the 4th and 6th semesters of study, as described below.

In the fourth semester of study, normally the spring of the second year, each student shall submit two papers, approximately 8,000 words each, in different fields of philosophy (ordinarily two substantially revised papers previously submitted in seminars). The choice of papers should be made in consultation with the Graduate Adviser. The second year evaluation will be made on the basis of faculty review of the submitted papers and consideration of the student's total record.

For the review following the sixth semester of study, students are
to select one from a list of pre-designated areas in philosophy and master the material on a pre-assigned reading list of important works in that area. At the beginning of the sixth semester, each student will take a written examination, designed by the faculty of the School of Philosophy, on the materials covered in the relevant reading list followed by an oral examination exploring their knowledge of the field. This examination must be passed by the end of the sixth semester. The examining committee for each student will consist of faculty conversant with the field and appointed by the school.

Qualifying Examination
This examination consists of a written prospectus of the proposed dissertation and an in-depth oral examination on the form and subject matter of the proposed dissertation. All faculty members may inspect the prospectus and be present at the oral, but evaluation of the qualifying examination is the responsibility of the student's qualifying exam committee. The examination is not passed if two or more members of the qualifying exam committee find it unsatisfactory.

The qualifying examination is not offered in the summer. Those who intend to take this examination must meet all the conditions specified in the section on general requirements for the PhD Students are expected to pass the qualifying exam by the end of the seventh semester. Students who have not passed the qualifying exam by the end of the seventh semester will be subject to faculty review, and may not be allowed to continue in the program.

Doctoral Dissertation
When the student passes the qualifying examination, a dissertation committee (see Graduate Advisement), replacing the qualifying exam committee, is appointed by the director of the school in consultation with the student and the philosophy faculty. Normally, the qualifying exam committee simply becomes the dissertation committee. This committee and the candidate will then agree upon how the dissertation is to be developed and written. The dissertation must be an original contribution to some well-defined area in philosophy, and must give evidence of the student's ability to do respectable, large-scale research, thinking, and writing in the field. The school requires the defense oral when the research and writing of the dissertation is substantially complete. Attendance at this oral examination is open to all members of the university faculty, but the examination is conducted and evaluated by the candidate's dissertation committee. The faculty normally works with the dissertations only in the fall and spring semesters, and the student should plan accordingly.

Physical Education
The physical education program provides a variety of offerings in fitness and activities classes designed to promote health and general fitness based upon individual goals and needs. Fitness classes focus primarily on development of muscle strength, muscle endurance, cardiorespiratory endurance, flexibility, general wellness principles and nutritional guidelines. Activities classes stress fundamental techniques, tactics, rules, etiquette and the importance of leisure time activities to physical, mental and social well-being.

Director: Steve VanKanegan, MS
Administrative Coordinator: Amber Harris, MPW
Equipment Manager: Victor Escobar

Faculty
Master Lecturer: Steve VanKanegan, MS
Senior Lecturer: Timothy L. Burton, MEd
Lecturers: Ian Culbertson, BA; Stephanie Eggert, MS; Andre Haralayi, MA; Sarah McGill, MS; Steve Hsu, MS; John Jessee, MS; Isabelle Pilliere Mazumdar, BA

General Requirements
No more than 4 units of physical education activity courses may be applied to a student's overall unit requirement, toward his or her USC degree.

Registration in courses PHED 102a, PHED 102b, PHED 163 is contingent upon assessment of students' knowledge and competence in performance during the first two class meetings. Students who wear glasses while participating in vigorous activities must secure departmental approval of provisions made for eye protection in courses PHED 140a and PHED 140b. Course PHED 165 is reserved for students who are reporting for regular freshman or varsity athletic squads.

To obtain a prerequisite waiver to take a b class before having taken the a section, the instructor's approval and signature are needed. Students should be aware that in the future they cannot take the prerequisite course in the activity for credit after having it waived.

Physics and Astronomy
The Department of Physics and Astronomy offers the Bachelor of Science in Physics, Bachelor of Science in Astronomy, Bachelor of Science in Physics/Computer Science, Bachelor of Arts in Physics, Bachelor of Arts in Astronomy, Bachelor of Science in Biophysics, Bachelor of Science in Physical Sciences, a minor in physics or astronomy, Master of Science in Physics, Master of Arts in Physics and Doctor of Philosophy in Physics.

Undergraduate Degrees

Grade Point Average in Major Subject
A GPA of C (2.0) or higher is required in all upper-division courses taken in the department for all of the above major degree programs. A grade of C (2.0) or higher is required in all courses in the department specifically listed as subject requirements.

Advisement
Advisement is required for all BS and BA degree candidates in the department. Students should meet with their departmental academic advisor at least once a semester to review the direction of their academic programs. Students who have not met with an advisor should contact the director of undergraduate affairs. Students are also encouraged to seek the advisement of faculty members whose specializations are appropriate to their intended field of graduate study.

Undergraduate Research Opportunities
Students are encouraged to become familiar with the research programs of the faculty in the department. Students who intend to pursue a PhD and a career in research in physics or astronomy following graduation are strongly encouraged to become involved directly in one of the research programs, whether as summer research assistants or as part-time laboratory assistants during the academic year. Specific research opportunities will depend upon individual faculty research programs.

Graduate Degrees
The Department of Physics and Astronomy offers graduate study at the master’s and doctoral degree levels. The graduate program prepares students for professional careers in research, teaching and developmental applications of physics.

Entering students spend time in intensive course work providing a broad background in advanced physics regardless of degree objective. Subsequent study involves a mix of course work, practical training and independent research (depending on degree objective). The doctoral program affords exceptionally close collaboration between students and faculty.

Research Areas: Experimental, Theoretical and Computational
Opportunities for research are offered in atomic, molecular and optical/laser physics, astrophysics, biological physics, elementary particle theory, string theory, quantum field theory, earthquake physics, helioseismology, condensed matter physics, quantum electronics/nonlinear optics, space physics and ultralow temperature physics.

Degree Requirements
Graduate degrees in the Department of Physics and Astronomy are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Graduate study in physics is divided into three degree objectives:
- Master of Science and Master of Arts in Physics
- Doctor of Philosophy in Physics

Bachelor’s Degree

Astronomy (BA)
This program is intended for students with an interest in astronomy who may not intend to pursue a career in the field.

Required Lower-Division Courses
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 161Lg Advanced Principles of Physics I Units: 4
- PHYS 163L Advanced Principles of Physics III Units: 4
- PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses
- ASTR 400 The Solar System Units: 4, 2 years
- ASTR 422 Galaxies and Large-Scale Structures in the Universe Units: 4, 2 years
- ASTR 424 Cosmology Units: 4, 2 years
- ASTR 450 Stellar Astrophysics Units: 4, 2 years
- PHYS 304 Mechanics Units: 4
- PHYS 315 Thermodynamics and Statistical Mechanics Units: 4, 2 years
- PHYS 492L Senior Lab Units: 4

Total units: 57

*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.

Astronomy (BS)
This program is intended primarily for students who are interested in a career in astronomy.

Required Lower-Division Courses
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 161Lg Advanced Principles of Physics I Units: 4
- PHYS 162L Advanced Principles of Physics II Units: 4
- PHYS 163L Advanced Principles of Physics III Units: 4
- PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses
- ASTR 400 The Solar System Units: 4, 2 years
- ASTR 422 Galaxies and Large-Scale Structures in the Universe Units: 4, 2 years
- ASTR 424 Cosmology Units: 4, 2 years
- ASTR 450 Stellar Astrophysics Units: 4, 2 years
- PHYS 304 Mechanics Units: 4
- PHYS 315 Thermodynamics and Statistical Mechanics Units: 4, 2 years
- PHYS 492L Senior Lab Units: 4

Total units: 57

*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
• PHYS 438b Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 492l Senior Lab Units: 4

Total units: 73
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.

Biophysics (BS)
This program is intended for students with an interest in the interdisciplinary field of biophysics. The degree program provides the physics and biology background necessary for the field while simultaneously fulfilling medical school entrance requirements.

Required Lower-Division Courses
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
• CHEM 115aLg Advanced General Chemistry Units: 4 *
• CHEM 115bL Advanced General Chemistry Units: 4 *
• MATH 125g Calculus I Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 161Lg Advanced Principles of Physics I Units: 4 **
• PHYS 162L Advanced Principles of Physics II Units: 4 **
• PHYS 163L Advanced Principles of Physics III Units: 4 **
• PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses
• BISC 320L Molecular Biology Units: 4
• BISC 330L Biochemistry Units: 4
• CHEM 322L Organic Chemistry Units: 4
• CHEM 322bL Organic Chemistry Units: 4
• MATH 445 Mathematics of Physics and Engineering II Units: 4
• PHYS 304 Mechanics Units: 4
• PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
• PHYS 408a Electricity and Magnetism Units: 4
• PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 444 Physical Biology: From Molecules to Cells Units: 4

Total units: 56
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
**PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.

Physics (BA)
This program is intended for students with an interest in physics who may not intend to pursue a career in physics.

Required Lower-Division Courses
• CHEM 105aL, CHEM 105bL
• CHEM 115aL, CHEM 115bL

Required Upper-Division Courses
• MATH 445 Mathematics of Physics and Engineering II Units: 4
• PHYS 492L Senior Lab Units: 4

Choose one:
• PHYS 408b Electricity and Magnetism Units: 4
• PHYS 438b Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 493L Advanced Experimental Techniques Units: 4

Total units: 65
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
**CHEM 115aL, CHEM 115bL may be substituted for the sequence CHEM105aL, CHEM105bL.

Physical Sciences (BS)
This program is intended for students with an interest in the physical sciences. The program is designed to allow students interested in teaching at the secondary level to enroll in courses required for the California Single Subject Teaching credential offered through the School of Education.

Required Lower-Division Courses
• CHEM 115aLg Advanced General Chemistry Units: 4 **
• CHEM 115bL Advanced General Chemistry Units: 4 **
• GEOL 105Lg Planet Earth Units: 4
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Upper-Division Courses
• Astronomy elective* Units: 4
• Chemistry elective* Units: 4
• Earth Science elective* Units: 4
• Physics elective* Units: 4
• Three additional electives from these fields* Units: 12

Note:
*Upper-division courses must be applicable to majors in their respective departments.
**CHEM 105aL, CHEM 105bL may be substituted for the sequence CHEM 115aL, CHEM 115bL.

Total units: 64

Other Courses
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4

Total units: 64

Physics (BS)
This program is intended primarily for students who are interested in a career in physics.

Required Lower-Division Courses
• CHEM 115aLg Advanced General Chemistry Units: 4 **
• CHEM 115bL Advanced General Chemistry Units: 4 **
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 161Lg Advanced Principles of Physics I Units: 4 **
• PHYS 162L Advanced Principles of Physics II Units: 4 **
• PHYS 163L Advanced Principles of Physics III Units: 4 **
• PHYS 190 Physics Discovery Series Units: 1

Required Upper-Division Courses
• MATH 445 Mathematics of Physics and Engineering II Units: 4
• PHYS 492L Senior Lab Units: 4

Choose one:
• PHYS 408b Electricity and Magnetism Units: 4
• PHYS 438b Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 493L Advanced Experimental Techniques Units: 4

Total units: 65
*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
**CHEM 115aL, CHEM 115bL may be substituted for the sequence CHEM105aL, CHEM105bL.
• PHYS 316 Thermodynamics and Statistical Mechanics Units: 4, 2 years
• PHYS 408a Electricity and Magnetism Units: 4
• PHYS 408b Electricity and Magnetism Units: 4
• PHYS 438a Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 438b Introduction to Quantum Mechanics and its Applications Units: 4
• PHYS 440 Introduction to Condensed Matter Physics Units: 4
• PHYS 492L Senior Lab Units: 4
• PHYS 493L Advanced Experimental Techniques Units: 4

Total units: 77

*PHYS 151L, PHYS 152L and PHYS 153L may be substituted for the sequence PHYS 161L, PHYS 162L and PHYS 163L.
**CHEM 105aL, CHEM 105bL may be substituted for the sequence CHEM 115aL, CHEM 115bL.

Physics/Computer Science (BS)

This program is intended for students with dual interests in physics and computer science who wish to complete the essential courses for both majors within their normal four-year career.

Required Lower-Division Courses

• CSCI 103L Introduction to ProgrammingUnits: 4
• CSCI 104L Data Structures and Object Oriented Design Units: 4
• CSCI 170 Discrete Methods in Computer Science Units: 4
• CSCI 201L Principles of Software Development Units: 4
• CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 151L and 152L may be substituted for PHYS 161L and PHYS 163L.
• PHYS 153L Fundamentals of Physics III: Optics and Modern Applications Units: 4
• PHYS 190 Physics Discovery Series Units: 1

Total units: 81

**PHYS 151L and 152L may be substituted for PHYS 161L and 162L respectively.

Minor

Astronomy Minor

The astronomy minor is open to all students. A minimum of three courses taken toward the minor must be unique to the minor.

Required Courses (24 Units)

• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4
• PHYS 151L Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Elective - Choose 3 (12 Units)

• ASTR 400 The Solar System Units: 4, 2 years
• ASTR 422 Galaxies and Large-Scale Structures in the Universe Units: 4, 2 years
• ASTR 450 Stellar Astrophysics Units: 4, 2 years

Total units: 36

Physics Minor

The physics minor is open to all students. Engineering students must take a minimum of three upper-division courses unique to the minor.

Required Courses (28 Units)

• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 151L Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Total units: 40

Master's Degree

Physics (MA)

Admission Requirements

The prerequisite for admission for a master's degree in the Department of Physics and Astronomy is a bachelor's degree in physics or a related field. All applicants for admission must take the Graduate Record Examinations, including the Physics Subject Test. Transcripts of undergraduate records as well as transcripts of any graduate level courses are required. The TOEFL or IELTS is required of international students applying for a teaching assistantship as well as for those applying for admission only. Applicants may be admitted as a degree candidate at the beginning of fall or spring semester.

Residence

All MS and MA degree students normally take at least three courses for each of two semesters. A total of 24 units of credit is required for graduation. Admitted students may transfer a maximum of 4 units of credit to apply toward the degree requirements.

Foreign Language Requirement

There is no foreign language requirement for the MS or MA.

Course Requirements

Option A MS in Physics: The MS degree requires satisfactory completion of seven courses (exclusive of PHYS 500 and PHYS 594), of which no more than one course may be PHYS 590 Directed Research. In addition, satisfactory completion of a thesis (and 4 units of PHYS 594) is required.

Option B MA in Physics: The MA degree requires satisfactory completion of eight courses (exclusive of PHYS 500 and PHYS 590) plus a high level of performance on the comprehensive examination.

The required courses for either option are PHYS 504, PHYS 508a and PHYS 558a. For either option at least five courses must be at the 500 level or higher and remaining courses at the 400 level or higher; at least five courses must be in physics. All required
Physics courses must be passed with a grade of B- or better. No upper-division courses required for the BA in physics at USC may be counted for credit toward the MA or MS degree.

**Comprehensive Examination**

All master's degree candidates are required to take the departmental screening examination not later than during their second semester (excluding summer). This examination serves as the required comprehensive examination for the MA degree. A high level of performance is required for the MA degree, and a superior level is required for admission to (or continuation in) the PhD program.

**Physics (MS)**

**Admission Requirements**

The prerequisite for admission for a master's degree in the Department of Physics and Astronomy is a bachelor's degree in physics or a related field. All applicants for admission must take the Graduate Record Examinations, including the Physics Subject Test. Transcripts of undergraduate records as well as transcripts of any graduate level courses are required. The TOEFL or IELTS is required of international students applying for a teaching assistantship as well as for those applying for admission only. Applicants may be admitted as a degree candidate at the beginning of fall or spring semester.

**Residence**

All MS and MA degree students normally take at least three courses for each of two semesters. A total of 24 units of credit is required for graduation. Admitted students may transfer a maximum of 4 units of credit to apply toward the degree requirements.

**Foreign Language Requirement**

There is no foreign language requirement for the MS or MA.

**Course Requirements**

**Option A** MS in Physics: The MS degree requires satisfactory completion of seven courses (exclusive of PHYS 500 and PHYS 594), of which no more than one course may be PHYS 590 Directed Research. In addition, satisfactory completion of a thesis (and 4 units of PHYS 594) is required.

**Option B** MA in Physics: The MA degree requires satisfactory completion of eight courses (exclusive of PHYS 500 and PHYS 590) plus a high level of performance on the comprehensive examination.

The required courses for either option are PHYS 504, PHYS 508a, PHYS 508b, PHYS 510, PHYS 518, PHYS 558a, and PHYS 558b;

(2) a minimum of four elective graduate courses in Physics and Astronomy (or with departmental approval in related departments); and

(3) four units of PHYS 500; and (4) PHYS 794a and PHYS 794b.

All required physics courses (except PHYS 500 and PHYS 794a, PHYS 794b, PHYS 794c, PHYS 794d, and PHYS 794e) must be passed with a grade of B- or better. After passing the qualifying examination the student must register for PHYS 794a, PHYS 794b, PHYS 794c, PHYS 794d, or PHYS 794e Doctoral Dissertation each fall and spring semester.

**Screening Procedure**

Any student proceeding toward the PhD in physics must pass the departmental screening examination at a superior level. The exam must be taken not later than during the second semester (excluding summers, but including time in the MA/MS program) in the department. New advanced students who have passed an equivalent comprehensive examination at a well-recognized research university with superior grades may apply to the departmental examination committee for an oral interview in order to be exempted from the written screening examination. A faculty member who supervises the research of such a student in the department must support this application.

**Qualifying Exam Committee**

The graduate adviser serves as advisor to incoming students and assists in the appointment of the qualifying exam committee, which is formed after the screening examination has been passed. After the student passes the qualifying examination and a dissertation topic is approved, the five-member qualifying exam committee becomes known as the dissertation committee and is responsible for monitoring the candidate’s progress and for approving the final content and form of the dissertation.

**Defense of the Dissertation**

A doctoral dissertation in physics is expected to be an extensive description of original research carried out by the student. A complete discussion of reported research in relation to previous work by others is essential.

The dissertation must be defended in a final oral examination. The candidate must be prepared to answer general questions in the field as well as specific questions regarding the dissertation.
Core Courses
- PHYS 504 Advanced Mechanics Units: 3
- PHYS 508a Advanced Electricity and Magnetism Units: 3
- PHYS 508b Advanced Electricity and Magnetism Units: 3
- PHYS 510 Methods of Theoretical Physics Units: 3
- PHYS 518 Thermodynamics and Statistical Mechanics Units: 3
- PHYS 558a Quantum Mechanics Units: 5
- PHYS 558b Quantum Mechanics Units: 3

Electives
A minimum of four elective graduate courses in Physics and Astronomy (or, with departmental approval, in related departments)

Colloquium
- PHYS 500 Graduate Colloquium Units: 1

Dissertation
- PHYS 794a Doctoral Dissertation Units: 2
- PHYS 794b Doctoral Dissertation Units: 2

Political Science

The Political Science major combines study of the foundations of political systems and institutions with examination of public attitudes, participation, and behavior. The major allows students to acquire an in-depth understanding of citizens' relationship to government while developing critical thinking and research skills.

The Department of Political Science offers courses in four broad fields: American politics, political thought, comparative politics, and law and public policy. Faculty provide regional specialization in Latin America, East Asia, Western Europe, Russia and Eastern Europe, the Middle East, and Africa.

The Political Science major also offers eight concentrations, allowing students to develop expertise in the areas of: Applied Politics; Cross National and Regional Politics; Environmental Politics; Law and Human Rights; Parties, Interest Groups, and Institutions; Political Thought and Philosophy; Public Opinion, Communication, and Decision-Making; and Race, Gender, and the Politics of Justice.

The Jesse M. Unruh Institute of Politics offers internship opportunities with governmental and nongovernmental organizations to students as part of the political science program of study.

The Department of Political Science offers: the BA; minors in political science; law and society; race, ethnicity and politics; human rights; and practical politics. The department also offers a PhD degree in Political Science and International Relations (See Political Science and International Relations), as well as a dual PhD in Political Science and International Relations/Juris Doctor with the USC Gould School of Law.

Associate Professors of the Practice: Arthur Auerbach, PhD; Anthony Kammas, PhD; Yael Wolinsky-Nahmias, PhD
Adjunct Assistant Professors: William Fahey, JD; George Newhouse Jr., JD; Olu K. Orange, JD; Darry Sragow, JD
Lecturers: Jinhee Choung, PhD; Fayez Hammad, PhD; Hooman Kazemi, JD; Mi Ri Song, JD
Emeritus Professors: Richard H. Dekmejian, PhD; Nora Hamilton, PhD; John R. Schmidhauser, PhD
Emeritus Associate Professor: Joseph L. Nyomarkay, PhD*
*Recipient of university-wide or college teaching award.

Undergraduate Degrees
Advisement
The department has faculty and staff advisers who provide academic advisement, career counseling and advisement to pre-law students and those wishing to go on to graduate studies. All majors are encouraged to see their adviser.

Bachelor of Arts, Philosophy, Politics and Law
This interdisciplinary program consists of nine courses chosen from PHIL, POSC, LAW and ANTH. See Philosophy.

Interdisciplinary Russian Area Studies Minor
See Department of Slavic Languages and Literatures.

Critical Approaches to Leadership Minor
See the Department of Interdisciplinary Studies.

Political Science Honors Program
The department offers an honors program for outstanding undergraduate students in the junior and senior years. The two semester program emphasizes a specialized topic (a different area each year) in political science. The organization of the course during the first semester follows the seminar model, emphasizing independent research, discussion, and oral and written reports. In the second semester, the student is required to write a thesis under the direction of a faculty member. Students are admitted to the program after careful screening on the basis of their academic record and a personal interview. Classes are limited to about 10 students.

The department also offers an honors sequence for freshmen and sophomores, POSC 190a, POSC 190b. The first semester is a small seminar of about 10 students. The second semester is a continuation
with a major research paper due as the final.

Political Science Honor Societies
There are two honor societies of special interest to political science majors. Pi Sigma Alpha stimulates scholarship and interest in the subject of government by providing tangible recognition to students who have excelled in the field. Political science majors are eligible to join after successful completion of at least three upper-division courses in political science. An overall grade point average of 3.5 or higher is required, with a minimum of 3.5 in all political science classes.

The second honor society is Blackstonians. This is a pre-law honor society for undergraduate students designed to recognize academic excellence, assist the student in his or her preparation for law school, and expand the knowledge of the legal profession. Membership is restricted to students who have completed at least 32 units (16 of which must be from USC), but not more than 118 units, and have maintained at least a 3.5 grade point average.

Mock Trial Team
The department hosts the USC Mock Trial Team. This trial advocacy training program is designed to develop students' knowledge of substantive areas of civil law, criminal law and evidence. Additionally, public speaking skills are honed and societal mores are explored. Legal concepts, sociocultural theory and presentational skills are then applied through participation in courtroom advocacy competitions nationwide and local public interest advocacy assignments. Academic credit is earned through POSC 398. Membership on the team is required to enroll.

Graduate Degrees
Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

All graduate students are required to maintain regular contact with the graduate coordinator to assure compliance with departmental regulations.

Bachelor of Arts
Political Science (BA)
Department majors are required to take ten courses (40 units) in political science.

Introductory Courses Requirement
All students must take at least two of the following four 100-level core courses that introduce students to the major sub-fields of political science (American, Comparative, Law and Public Policy, Political Thought).

- POSC 100g Theory and Practice of American Democracy Units: 4
- POSC 110g Ideology and Political Conflict Units: 4
- POSC 120 Comparative Politics Units: 4
- POSC 130g Law, Politics and Public Policy Units: 4

Distribution (Field) Requirement
Students fulfill the distribution requirement by completing one upper division course (300 level or above) in three of the four major sub-fields (American, Comparative, Law and Public Policy, Political Thought).

American Politics
POSC 300, POSC 311, POSC 315, POSC 320, POSC 321, POSC 322, POSC 325, POSC 328, POSC 334, POSC 335, POSC 418, POSC 420, POSC 421, POSC 422, POSC 423, POSC 424m, POSC 425, POSC 427, POSC 428, POSC 437, POSC 439, POSC 449

Comparative Politics
POSC 350, POSC 351, POSC 352, POSC 354, POSC 355, POSC 356, POSC 358, POSC 360, POSC 363, POSC 365, POSC 366, POSC 430, POSC 431, POSC 450, POSC 451, POSC 453, POSC 456, POSC 463, POSC 464, POSC 469

Law and Public Policy
POSC 333, POSC 340, POSC 345, POSC 347, POSC 426, POSC 432, POSC 435, POSC 436, POSC 440, POSC 441m, POSC 442m, POSC 443, POSC 444, POSC 448a, POSC 448b, POSC 452

Political Thought
POSC 370, POSC 371, POSC 374, POSC 375, POSC 377, POSC 380, POSC 381, POSC 476, POSC 479

Concentration Requirement
Students fulfill the concentration requirement by taking three courses from one of eight Concentrations that focus on major topical interests in the study of politics. Students may take no more than one 200-level course per concentration. Students may not double-count any courses taken in the distribution (field) requirement and the concentration requirement. No more than a total of four units of POSC 395 and POSC 398L can count for the concentration requirement. Four units of the Honors Seminars POSC 391/POSC 392 can count toward a concentration if the topic of the honors thesis is in the area of the concentration. Critical Issues courses may count for a concentration area, but department approval must be received in advance.

The areas of concentration are:

- Law and Human Rights (POSC 248gw, POSC 321, POSC 340, POSC 345, POSC 347, POSC 366, POSC 421, POSC 425, POSC 426, POSC 427, POSC 432, POSC 440, POSC 441m, POSC 442m, POSC 443, POSC 444, POSC 448a, POSC 448b, POSC 452)
- Public Opinion, Communication, and Decision Making (POSC 311, POSC 334, POSC 335, POSC 422, POSC 423, POSC 426, POSC 435, POSC 437, POSC 449)
- Parties, Interest Groups, and Institutions (POSC 300, POSC 311, POSC 315, POSC 325, POSC 334, POSC 335, POSC 360, POSC 420, POSC 423, POSC 425, POSC 428, POSC 435, POSC 436)
- Political Thought and Philosophy (POSC 370, POSC 371, POSC 374, POSC 375, POSC 377, POSC 380, POSC 381, POSC 476, POSC 479)
- Applied Politics (POSC 300, POSC 315, POSC 323, POSC 335, POSC 395, POSC 398L, POSC 418, POSC 420, POSC 425, POSC 437, POSC 449)
- Cross-National and Regional Politics (POSC 350, POSC 351, POSC 352, POSC 354, POSC 355, POSC 356, POSC 358, POSC 360, POSC 363, POSC 365, POSC 366, POSC 430, POSC 431, POSC 450, POSC 451, POSC 453, POSC 456, POSC 463, POSC 464, POSC 469)
- Race, Gender, and Politics of Justice (POSC 320, POSC 321, POSC 328, POSC 381, POSC 421, POSC 424m, POSC 427, POSC 428, POSC 432, POSC 441m, POSC 442m, POSC 444, POSC 448a, POSC 449)
- Environmental Politics (POSC 265gw, POSC 270, POSC 321, POSC 347, POSC 363, POSC 418, POSC 436, POSC 451, POSC 456)

Elective Requirement
Students must complete two additional elective courses, both of which must be upper division (300 or 400 level courses). One course (or four units) of the following courses: POSC 395, POSC 398L or POSC 490x may be counted as an elective. Application deadline (for PhD): December 1

Juris Doctor/Doctor of Philosophy
Doctor of Philosophy in Political Science and International Relations/Juris Doctor (JD/PhD)

Application deadline (for PhD): December 1
The protection of human rights has become a matter of international concern. Despite widespread media coverage of violations, flagrant abuses occur daily throughout the world. The human rights minor provides students with in-depth knowledge about various human rights issues.

Drawing together classes from a range of departments in and outside the USC Dornsife College of Letters, Arts and Sciences, this interdisciplinary minor will cover the theoretical foundations of human rights, historical and current developments, case studies and policies. Students will be required to take their learning outside the classroom through an internship or by teaching human rights in the community and will be encouraged to join relevant student organizations.

Total unit requirements for the minor are 18*. Students take one core course in human rights, POSC 448a The Politics of Peace. In addition, the minor requires two courses dealing with international human rights, one domestic human rights related course and a community involvement experience through the Department of Political Science.

Required Courses (16 units)
- POSC 448a The Politics of Peace Units: 4

Two international human rights courses selected from:
- ANTH 330m Culture, Gender and Politics in South Asia Units: 4
- HIST 456 Race, Slavery, and the Making of the Atlantic World Units: 4
- HIST 365 The Second World War Units: 4; 2 years
- IR 310 Peace and Conflict Studies Units: 4
- IR 315 Ethnicity and Nationalism in World Politics Units: 4
- IR 316 Gender and Global Issues Units: 4
- IR 318 Violent Conflict Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- POSC 366 Terrorism and Genocide Units: 4
- POSC 440 Comparative Law and the Judicial Process Units: 4
- POSC 456 Women in International Development Units: 4
- PPD 382 International Development Units: 4
- REL 335 Gender, Religion, and Sexuality Units: 4

One domestic human rights course selected from:
- AMST 348m Race and Environmentalism Units: 4
- COMM 412 Communication and Social Movements Units: 4
- FREN 370gm Equality and Difference around the Enlightenment Units: 4
- GER 435m Women and Aging: Psychological, Social and Political Implications Units: 4
- JOUR 466m People of Color and the News Media Units: 4
- POSC 333 Stigma and Society: Physical Disability in America Units: 4
- POSC 380 Political Theories and Social Reform Units: 2 or 4
- POSC 441m Cultural Diversity and the Law Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- PPD 342 Crime and Public Policy Units: 4
- PPD 439 Housing and Community Development Units: 4
- SOCI 356m Mexican Immigrants in Sociological Perspective Units: 4
- SOCI 360m Social Inequality: Class, Status, and Power Units: 4

Additional Requirements

Community Involvement (2 units)
Students are required to take their learning outside the classroom through an internship with a focus in human rights, teaching human rights in the community or an independent project. Students who choose the internship must enroll in POSC 395 and those who choose do an independent project must enroll in POSC 490x. Approval is needed to enroll in POSC 395 and POSC 490x. POSC majors must take four courses (16 units) outside of the Political Science Department for a total of 22 units.

Law and Society Minor
This interdisciplinary program focuses on the effect of law on society as well as the ways in which social forces influence the legal system. The idea is that students will understand the law if they look beyond “law on the books” to “law in action.” Thus, it is important to study key legal institutions such as the legal profession, the judiciary, juries, the police, legislatures, and administrative agencies. In addition, the minor introduces students to legal policies like plea bargaining and the death penalty, and the constitutional principles that underlie political debates about them, e.g., equal protection, due process and privacy.

The requirements for the minor include seven courses (28 units). All students are required to take POSC 130 Law, Politics, and Public Policy.

Three component political science upper-division courses are required, one from each category:

1. Core
- POSC 130g Law, Politics and Public Policy Units: 4

2. Constitutional Law
- POSC 340 Constitutional Law Units: 4
- POSC 426 The United States Supreme Court Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4

3. International Law
- POSC 345 International Law Units: 4
- POSC 448a The Politics of Peace Units: 4

4. Policy Analysis
- POSC 333 Stigma and Society: Physical Disability in America Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 395 Directed Governmental and Political Leadership Internship Units: 2; 3, 4, 5, 6, 7, 8
- POSC 432 Politics of Local Criminal Justice Units: 4
- POSC 435 Politics and the Economy Units: 4
- POSC 436 Environmental Politics Units: 4
V. The Context of Political Organizing:

The Practical Politics Minor offers students a unique opportunity to study the theory and practice of American Democracy. The minor includes courses on campaigns, elections, political communications, legislative politics, and governing. Students will engage with faculty who possess a wealth of knowledge and experience in electoral politics and campaign strategy. The minor will help students develop a multitude of skills applicable to the job market, such as problem solving, polling, social media analytics, micro-targeting, research, writing and public speaking. Students will also complete an internship that will provide them with professional training and exposure to different careers. In addition, students can pursue courses through Maymester and the Dornsife in Washington D.C. program toward the minor.

The Practical Politics Minor complements many majors in the Dornsife College of Letters, Arts, and Sciences including economics; sociology; philosophy, politics, and law; and international relations, as well as majors outside of the college including communications, business and public policy.
Requirements
The Practical Politics minor requires students to take five courses (20 units) from the following three categories. The minor requires 16 units of upper-division courses. Only 4 units of the 20 units may be fulfilled with a 100- or 200-level course.

1. Two courses in American Politics from the following list (8 units):
   • POSC 100g Theory and Practice of American Democracy Units: 4
   • POSC 300 Principles, Institutions, and Great Issues of American Democracy Units: 4
   • POSC 334 Interest Groups and Elite Behavior Units: 4
   • POSC 335 Political Parties, Campaigns, and Elections Units: 4
   • POSC 422 Political Attitudes and Behavior Units: 4
   • POSC 423 Presidents and the Presidency Units: 4
   • POSC 424m Political Participation and American Diversity Units: 4
   • POSC 425 Legislative Process Units: 4
   • POSC 435 Politics and the Economy Units: 4
   • POSC 437 Mass Media and Politics Units: 4
   • POSC 449 Political Psychology Units: 4

2. Two courses in Applied Politics from the following list (8 units):
   • POSC 220g Critical Issues in American Politics: Presidential Election in Real Time Units: 4
   • POSC 323 Applied Politics Units: 4
   • POSC 325 State Politics Units: 4
   • POSC 420 Practicum in the American Political Process Units: 4
   • POSC 439 Critical Issues in American Politics Units: 4
   • POSC 452 Critical Issues in Law and Public Policy Units: 4

Note:
Multiple sections of Applied Politics (POSC 323) and Practicum in the American Political Process (POSC 420) may be offered and can be counted toward the minor.

3. One course in Practical Experience from the following list (4 units):
   • POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8
   • Internship in Washington DC (part of the Washington DC Program)
   • Maymester in Washington DC

Race, Ethnicity and Politics Minor
The interdisciplinary minor in race, ethnicity and politics helps students analyze and critically evaluate contemporary race relations and how race matters in politics today.

Requirements: Five Courses (20 Units)*
All students are required to take POSC 421 Ethnic Politics. In addition, students must also take one course from each category: Race and Gender in a Global Context, Comparative Racial Politics, Social/Historical (Racial Perspective) and Racial Formation. The following is a list of courses that fulfill each category.

Core Requirement
• POSC 421 Ethnic Politics Units: 4

Political Science Upper-Division Courses
Choose one course from each of the groups below:

Race and Gender in a Global Context:
• POSC 350 Politics of Latin America Units: 4
• POSC 351 Middle East Politics Units: 4
• POSC 352 Politics of Southeast Asia Units: 4
• POSC 354 Japanese Politics Units: 4
• POSC 356 Politics in the People's Republic of China Units: 4
• POSC 358 Politics of Sub-Sahara Africa Units: 4
• POSC 430 Political Economy of Mexico Units: 4
• POSC 431 Political Economy of Central America Units: 4
• POSC 452 Critical Issues in Law and Public Policy Units: 4
• POSC 456 Women in International Development Units: 4
• POSC 464 Politics of Russia and Eastern Europe Units: 4

Comparative Racial Politics:
• POSC 320 Urban Politics Units: 4
• POSC 328 Asian American Politics Units: 4
• POSC 424m Political Participation and American Diversity Units: 4
• POSC 427 Black Politics in the American Political System Units: 4
• POSC 428 Latino Politics Units: 4
• POSC 441m Cultural Diversity and the Law Units: 4
• POSC 442m The Politics of Human Differences: Diversity and Discrimination Units: 4
• POSC 444 Civil and Political Rights and Liberties Units: 4

Electives
Choose one course from each of the groups below:

Social/Historical:
• HIST 265gw Racism, Sexism, and the Law Units: 4
• HIST 318 Early American Indian History Units: 4
• HIST 341 American Social History Units: 4
• HIST 347 Urbanization in the American Experience Units: 4
• SOCI 142gm Diversity and Racial Conflict Units: 4
• SOCI 155gm Immigrant America Units: 4
• SOCI 342m Race Relations Units: 4
• SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4

Racial Formation:
• AMST 320g America, the Frontier, and the New West Units: 4
• AMST 320 Social Construction of Race and Citizenship Units: 4
• AMST 365 Leadership in the Community — Internship Units: 4
• AMST 385 African American Culture and Society Units: 4

Note:
*Political science majors are required to take seven courses (28 units).
Political science majors must take four courses (at least three must be upper-division) from the Social/Historical and the Racial Formation categories. At least four classes must be unique to the minor and not taken for additional major, minor or general education credit.

Director: Christian Grose, PhD

Master's Degree
Political Science and International Relations (MA)
The POIR program does not accept applicants for a Master of Arts degree in POIR. If a student admitted in the POIR doctoral program does not have a master's degree, the department strongly recommends the student completes the requirements for the MA in
POIR in his/her course of work toward the PhD degree. A student admitted to the doctoral program may also, at the recommendation of the department, earn a terminal MA degree.

A student may obtain an MA in POIR by fulfilling the following requirements: a minimum of 28 units in the POIR Program, including POIR 600, POIR 610 and POIR 611, and the approval of a substantive paper.

**Doctoral Degree**

**Political Science and International Relations (PhD)**

**USC Graduate School Requirements**

The PhD degree is awarded to students who have demonstrated in-depth knowledge of the disciplines of political science and international relations and the ability to make an original research contribution. The PhD in Political Science and International Relations requirements are fulfilled by successfully completing a minimum of 70 units beyond the BA, the PhD screening process, three fields of concentration, a substantive paper, a foreign language requirement (if applicable), qualifying examinations, a dissertation proposal, and a written dissertation and its oral defense.

**Admission**

The faculty of the Department of Political Science and the School of International Relations welcome talented candidates from a variety of backgrounds. Although a prior degree in political science or international relations is not necessary, it is strongly recommended that applicants have completed at least some course work in related fields, including political theory, statistics and social science research methods.

Admission decisions are based on consideration of applicants’ prior academic performance, as reflected in course grades, the results of the Graduate Record Examination, letters of recommendation, and a statement of intent that demonstrates a seriousness of purpose, a high level of motivation and a desire to benefit from our faculty’s areas of expertise or interest. Applicants also are required to submit a sample of their written work in English, preferably a research-oriented paper. Business, government and other practical experiences may also be taken into account. Applicants whose native language is not English must take the TOEFL or IELTS examination.

**Screening Process**

Before completion of 24 units, students will be reviewed by a screening committee made up of the program director, one teacher of one of the core courses and one professor nominated by the student. This committee will review the student’s progress, including grades and written faculty evaluations of course work.

The committee will be responsible for deciding, at an early stage in the student’s career, if the student is likely to finish the PhD program. After reviewing the student’s record, the committee may decide to (1) continue the student, (2) not continue the student and admit the student into a terminal MA degree program, or (3) fail the student’s performance in the screening process, i.e., not continue the student in either the MA or PhD programs.

**Course Requirements**

All doctoral candidates must complete an approved sequence of four courses in core theory and methodology, including a classics-oriented course in political theory, a multivariate statistics course, a philosophies/methodologies of social inquiry course, and a course in advanced research methods.

The selection of additional courses should be guided by the distribution requirements of the PhD program. The student will choose three fields of concentration, of which two will be examined fields. Each examined field of concentration requires completion of four graduate-level courses, including the core course in standard fields, with an average grade consistent with university and program requirements. The third non-examined field of concentration requires completion of three graduate-level courses with an average grade consistent with university and program requirements. Students are also advised to take an independent study course to work toward their substantive paper requirement. Additional courses necessary to complete the 70 units required by the Guidelines for Graduate Study in Political Science and International Relations should be taken in consultation with faculty advisers.

**Fields of Concentration**

The standing fields of concentration include: American politics; comparative politics; international political economy; and international security and foreign policy. The candidate must satisfy two of these four standing fields by passing a written field qualifying examination. The student may satisfy the third field by completing four courses in one of these four, or may propose another customized field of study to be approved by relevant faculty and the PhD program director and steering committee. For example, students can design a third field that cuts across disciplinary boundaries or focuses on specific areas of political science and international relations beyond the standing fields. The guidelines and program director can provide illustrations of this type of third field.

**Foreign Language**

The student is required to demonstrate intermediate proficiency in a language other than English if the student's primary field requires it. Students should consult the guidelines and the program director.

**Substantive Paper**

To show evidence of the capacity to conduct original research and before taking the qualifying exam, each student will submit a substantive paper. The student will submit the draft of his or her substantive paper to the chair of the qualifying exam committee one month prior to the qualifying examinations. After consultation with the chair and necessary revisions, the student is to distribute the paper to all members of the qualifying exam committee at least 14 days prior to the oral defense. The substantive paper should be presented and defended in the oral component of the qualifying examination as a viable journal submission to a peer-reviewed professional journal. It is strongly encouraged that the paper should be submitted to a professional journal approved by the student’s adviser within one year of the defense.

**Qualifying Examinations**

Ordinarily, students will take the qualifying exams no later than the fifth semester in the PhD program. Students will be examined in two of their three fields of concentration. The third field will be completed by taking at least four courses and passing them with an average grade consistent with university and program requirements. The qualifying exam committee will evaluate the quality of these two written exams as evidence of the capacity to define and complete a PhD dissertation.

The written examinations are closed book and will be administered over two days at least once per academic year. Examination questions will be written by a committee of the tenure track faculty in each field. The director of POIR graduate studies (program director), in consultation with the chair of the Department of Political Science and the director of the School of International Relations, will appoint one faculty member from each field to coordinate the writing of the relevant field exam. The field exam coordinators will then seek assistance from other faculty in their field, including those with whom the student has studied, to compose the written examination questions.

The oral portion of the student's qualifying examination will be administered by his or her qualifying exam committee. The oral examination will be based on the student's two written field exams and the substantive paper. The qualifying exam committee will be made up of five members. In consultation with his or her principal adviser, the student will select two members, one from each standing field in which he or she will be examined, and the other two field examiners and the outside member of the qualifying exam committee. Final approval of the qualifying exam committee requires the signature of the program director.

Students will pass the qualifying examinations if no more than one member of the qualifying exam committee dissents after reviewing the student's record at USC and performance on the
written and oral parts of the qualifying exams. At the discretion of the qualifying exam committee, students who do not pass the exams may be allowed to retake the qualifying exams the next time they are offered. Students are admitted to candidacy for the PhD when they have completed the university residency requirement, passed the written and oral portions of the PhD qualifying examinations, and defended their dissertation proposal.

Dissertation
Upon completion of the qualifying examinations, the student, in consultation with the principal adviser, selects a dissertation committee in accordance with university rules. Within six months of completing the qualifying examinations, students should have a formal defense of the dissertation proposal before their dissertation committee. The PhD is earned upon the submission of the written dissertation and its successful defense before the dissertation committee.

Consult the Requirements for Graduation section and the Graduate School section of this catalogue regarding time limitations for completion of the degree and other Graduate School requirements.

All graduate students considering an academic career should generally have research, teaching and advisement experiences as part of their program of study.

Jesse M. Unruh Institute of Politics

The Jesse M. Unruh Institute of Politics works to provide students with opportunities that introduce them to the world of practical politics, government and public service. Each semester the institute facilitates internships with government, political and advocacy offices in the Los Angeles metropolitan area and beyond. The institute also offers a variety of programs and panels that provide students with access to government officials, policy and campaign experts, and industry leaders. The institute partners with a variety of student organizations to sponsor numerous panel discussions and programs that bring prominent political and governmental leaders to USC to speak to small groups of students in an informal setting.

In the spring, the institute organizes the Cerrell Seminar in Political Leadership, and a trip to Sacramento where USC students meet with legislators, lobbyists, and members of the media to discuss important issues in state politics.

Programs
Political Student Assembly
The Unruh Institute of Politics works closely with the Political Student Assembly (PSA). PSA was formed in January 2006 as a division of the Student Affairs Program Board and seeks to actively involve students in campus, state and national political issues.

In the fall, spring or summer. In the summer, students can apply for the POSC 395 Directed Governmental and Political Leadership Internship, for 2 to 8 units. Students can enroll in POSC 395 during the fall, spring or summer. In the summer, students can apply for the Unruh Institute offers a Research Internship and a Civic Engagement Internship. The Research Internship gives students an opportunity to do real-world, hands-on research for an organization. Students will conduct original fieldwork, interview policy experts, review academic and policy reports, and use other forms of primary and secondary research. The Civic Engagement Internship provides students with an opportunity to teach civics and the value of voting in an area high school over the course of the semester.

Students participating in the institute’s internship programs enroll in POSC 395 Directed Governmental and Political Leadership Internship, for 2 to 8 units. Students can enroll in POSC 395 during the fall, spring or summer. In the summer, students can apply for institute-sponsored fellowships to help defray tuition and living expenses.

Professional Writing Program

Office of Advanced and Professional Programs
Mark Taper Hall 355

FAX: (213) 740-5002
Email: mpw@dornsife.usc.edu

Director: Geoffrey Middlebrook, PhD
Professor of the Practice: Brighde Mullins, MFA
Assistant Professors (Teaching): Prince Gonmolvias, MFA; Dinah Lenney, MFA
Senior Lecturers: M.G. Lord; Timothy Kirkman
Lecturer: Gina B. Nahai, MPW

Master's Degree
Professional Writing (MPW)
The Master of Professional Writing Program develops students' mastery of craft across multiple genres and prepares students for writing careers. It is designed for students who want to explore a range of writerly possibilities, and aims to develop writing and writers across genre, including fiction, nonfiction, poetry, new media, and writing for stage and screen. Program faculty are working writers who bring their expertise to seminars, lectures and workshops.

The academic curriculum includes a range of courses that focus on all aspects of the writing life, as well as on-one tutorials geared to the completion of a professional quality final project. Although students will ultimately focus in one genre, the degree is specifically intended for writers interested in exploring the connections to be found in literature, entertainment and art. Program graduates include television writers, screenwriters, and teachers of literary fiction and poetry, Web content providers and designers, editors, publishers, and technical writers.

Degree Requirements
Thirty units of work are required to earn the MPW degree. MPW 500 Survey of Professional Writing (3 units) is required and should be taken in the first semester. Fifteen additional units must be earned in the student's major genre (fiction, nonfiction, poetry, or writing for stage and screen), including MPW 592a, MPW 592b, MPW 592c or MPW 594a, MPW 594b, MPW 594c. While taking Professional Writing Project or Master's Thesis, with advisement
from their faculty mentors, students will generate their master's professional projects in their respective genres. These projects may be a full length novel, a collection of short stories, a nonfiction manuscript, a collection of essays, a collection of poems, or a full length screenplay or stageplay. The remaining 12 units consist of electives from the MPW curriculum, and students are encouraged to choose wisely.

**Progressive Degree Program in Master of Professional Writing**

The progressive degree program permits exceptional undergraduate students to receive both a Bachelor of Arts and a Master of Professional Writing within five years. It is intended for students with extraordinary MPW preparation and performance who demonstrate a superior level of overall scholarship.

**Awarding of Degrees**

Progressive degree program students must fulfill all of the requirements for both the bachelor's degree and the master's degree, including a professional writing project or a master's thesis. The unit requirement for the master's degree can be reduced by as much as one-third. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree.

**Time Limits**

The time limit for completing a progressive degree program is 12 semesters. Further details about progressive degrees can be found on the Requirements for Graduation page.

---

### Psychology

The Department of Psychology has five topical areas: 1) Brain and Cognitive Science addresses fundamental questions about the brain and mind in humans and animals in areas such as creativity, decisions, emotion, learning and memory, linguistics, motivation and perception. 2) Clinical Science applies scientific theories and methods to understand adaptive and maladaptive functioning to alleviate human suffering, and to promote adjustment. Specialization is available in clinical-agging, child and family clinical, and adult clinical. 3) Developmental Psychology studies developmental changes in social behavior, cognition, language, neurological structure and emotions from childhood through early adulthood. 4) Quantitative Methods studies basic and advanced methodology used in psychometrics and measurement, longitudinal data analysis, behavior genetic methods, decision making, and robust statistical methods for analyzing multivariate data. 5) Social Psychology studies the thoughts, feelings and actions of individuals as they are influenced by other individuals and by groups.

The department also offers a joint major in Linguistics/Psychology and participates in the Dornsife College's interdisciplinary program in Neuroscience.

Research is integral to psychology; it enables the faculty to make contributions in the field and to be more effective teachers. Undergraduate students are encouraged to work with members of the faculty on research projects. The most direct way for students to participate in research is to enroll in a directed research course (PSYC 290 or PSYC 490), but it is also possible to take part in ongoing research in less formal ways. Further options for research training also includes the honors program for psychology majors. The Department now offers two MS programs in Applied Psychology (MAPP) and Applied Behavior Analysis (ABA).

Chair: JoAnn M. Farver, PhD

**Faculty**

- University Professor, Dana Dornsife Chair in Neuroscience and Professor of Psychology and Neurology: Hanna Damasio, MD
- University Professor, David Dornsife Chair in Neuroscience and Professor of Psychology and Neurology: Antonio Damasio, MD, PhD
- Harold Dornsife Chair in Neurosciences and Professor of Psychology and Computer Science: Irving Biederman, PhD
- Provost Professor of Cell and Neurobiology, and Pharmacology and Pharmaceutical Sciences, and Psychology: Pat Levi, PhD (Cell and Neurobiology)
- Provost Professor of Psychology and Business: Wendy Wood, PhD
- Provost Professor of Psychology and Marketing: Norbert Schwarz, PhD
- Provost Professor of Social Work, Preventive Medicine, Psychiatry, Family Medicine and Gerontology and Psychology: William Vega, PhD
- Provost Professor of Psychology and Marketing: Gary Gruenewald, PhD
- Provost Professor of Preventive Medicine, Social Work, Psychiatry, and Gerontology: Lynn Miller, PhD
- Provost Professor of Psychology and Business: John Luna, PhD
- Provost Professor of Psychology and Computer Science: Richard S. John, PhD
- Provost Professor of Neuroscience and Psychology: Peter Carnevale, PhD
- Provost Professor of Psychology and Neurology: Sandra Levy, PhD

**Graduate Faculty**

- Dean's Professor of Psychology, and Professor of Psychology, Education, and Communication: Daphna Oyserman, PhD
- Merle Bensinger Professor of Gerontology and Professor of Psychology: Bob G. Knight, PhD (Gerontology)
- Niki and Max Nikias Chair in Engineering, Professor of Electrical Engineering, Computer Science, Linguistics and Psychology: Shrikanth Narayanan, PhD (Computer Science)
- Orrito B. Evans Professor of Law and Professor of Law and Psychology: Elyn R. Saks, JD (Law)
- University Professor, Fletcher Jones Chair in Computer Science, and Professor of Computer Science, Biological Sciences, and Psychology: Michael A. Arbib, PhD (Computer Science)
- University Professor, ARCO/William F. Kieschnick Chair in the Neurobiology of Aging and Professor of Gerontology, Biological Sciences, Anthropology, and Psychology: Caleb E. Finch, PhD (Gerontology)
- University Professor and Milo Don and Lucille Appleman Professor of Biological Sciences, Neurology and Psychology: Larry W. Swanson, PhD (Biological Sciences)

**Professors:**
- Laura A. Baker, PhD; Antoine Bechara, PhD; Sarah W. Bottjer, PhD (Biological Sciences); Peter Carnevale, PhD (Business); Gerald C. Davison, PhD*; Michael E. Dawson, PhD; JoAnn M. Farver, PhD*; Ernest Greene, PhD; Andrea Hollingshead, PhD (Communication); Laurent Itti, PhD (Computer Science); David G. Lavond, PhD; Steven Lopez, PhD; Thomas D. Lyon, JD, PhD (Law); Franklin R. Manis, PhD*; Gayla Margolin, PhD*; Mara Mather, PhD (Gerontology); John J. Mc Ardle, PhD; Beth E. Meyerowitz, PhD*; Lynn Miller, PhD (Communication); Carol A. Prescott, PhD; Stephen J. Read, PhD; Robert Rueda, PhD (Education); Dan Simon, SJ (Law); Gale Sinatra, PhD (Education); Elizabeth Sowell, PhD (Pediatrics); Arthur Stone, PhD; Steven Yal Sussman, PhD (Institute for Prevention Research, Medicine); Penelope K. Trickett (Social Work); Suzanne Wenzel (Social Work); Rand Wilcox, PhD; Elizabeth Zelinski, PhD (Gerontology)

**Associate Professors:**
- Lisa Aziz-Zadeh, PhD (Occupational Therapy); Giorgio Coricelli, PhD (Economics); Jesse Graham, PhD; Stanley J. Huey, Jr., PhD; Mary Helen Immordino-Yang, PhD (Education); Richard S. John, PhD; Adam Leventhal, PhD (Preventive Medicine); Toben Mintz, PhD; John Monterosso, PhD*; Joseph Priester, PhD (Business); David Schwartz, PhD; Brendesha Tynes, PhD (Preventive Medicine); David A. Walsh, PhD; Justin Wood, PhD*; Jason D. Zevin, PhD
- Assistant Professors: Christopher Beam, PhD; Morteza Dehghani, PhD; Genevieve Dunton, PhD (Preventive Medicine); Tara Grue newald, PhD (Gerontology); Henrique Moll, PhD; Daniel Nation, PhD; Darby Saxbe, PhD; Scott Wiltermuth, PhD (Business); Ya Yang, PhD (Pediatrics)

**Clinical Professor:**
- Ernest R. Katz, PhD

**Clinical Assistant Professor:**
- Mariam Williams, PhD
- Professors (Research): Margaret Gatz, PhD; Jonathan Gratch, PhD (Computer Science); Donna Spruijt-Metz, PhD
- Associate Professors (Research): Susan Lucek, PhD; Stacy
Psi Chi is the national honor society in psychology. Membership is open to graduate and undergraduates who meet the minimum qualifications. Psi Chi is a member of the Association of the College Honor Societies and is an affiliate of the American Psychological Association and the American Psychological Society.

Graduate Degrees
The Department of Psychology offers an MS in Applied Psychology, an MS in Applied Behavior Analysis and five programs of study that to the PhD degree: (1) clinical science, including specializations in adult clinical, clinical-aging and child and family; (2) developmental psychology, including child and adolescent development and adult development and aging; (3) brain and cognitive science, including cognitive neuroscience, behavioral neuroscience, clinical neuroscience and behavioral genetics; (4) quantitative methods; and (5) social psychology. All five specialty PhD areas provide training for careers in research, teaching and applied work.

Admission Requirements
Psychology courses required for admission to the PhD program include the following courses: Introduction to Psychology, Statistics, Research Methods, or Experimental Psychology; and at least one course from each of the following lists: (1) comparative psychology, physiological psychology, sensation and perception, learning and memory, motivation, and emotion; and (2) developmental psychology, social psychology, abnormal psychology, personality, and history of psychology. Additional courses are available in work in the biological, physical and social sciences, in mathematics and in philosophy. Students with less background in psychology but outstanding undergraduate records in related fields are also encouraged to apply.

Students are selected on the basis of their undergraduate records, scores on the Graduate Record Examinations General Test, course background, letters of evaluation, personal statement of interests and goals and evidence of research skills or interests (e.g., publications or participation in research projects).

The faculty of each specialty area select the students to be admitted to that area. Therefore, applicants should designate the specialty area to which they seek admission.

Application for admission in psychology is completed online and all materials must be submitted by December 1 for admission to the following fall semester.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor's Degree
Cognitive Science (BA)

Director: Toben Mintz, PhD

Cognitive science is an interdisciplinary major that focuses on the mind and cognition from a variety of perspectives and approaches. The core and electives sample from courses from computer science, human and evolutionary biology, linguistics, mathematics, philosophy and psychology.

The major consists of four fixed core courses, plus two tiers of flexible core courses. The first tier generally consists of more introductory courses and the second tier of more advanced courses, although there are exceptions, and some courses satisfy either tier. Students must take two courses from the first tier and three courses from the second. The purpose of the flexible tiers is to structurally implement interdisciplinary breadth with some degree of flexibility. The flexible core is a subset of the electives, from which students can choose in order to complete the required number of units.

Students may elect to focus their curriculum from one of three tracks, which are suggested courses of study for focusing on a particular theme in cognitive science. This may be accomplished through individual advisement: language, reasoning and decision-
making, and the computational mind.

Total required units for major: 43–48 units. Consisting of 16 core units, 18–20 flexible core units and 9–12 elective units.

Core Requirements (4 Courses)
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4
- PSYC 301L Cognitive Processes Units: 4
- PSYC 339Lg Origins of the Mind Units: 4

Total units: 16

Flexible Core Requirements (5 Courses)
Two courses from:
- CSCI 455x Introduction to Programming Systems Design Units: 4 *
- LING 210g Introduction to Linguistics Units: 4
- LING 301 Introduction to Phonetics and Phonology Units: 4 *
- LING 302 Introduction to Syntax and Semantics Units: 4 *
- PHIL 122ag Reasoning and Argument Units: 2
- PHIL 122bg Reasoning and Argument Units: 2
- PHIL 262g Mind and Self: Modern Conceptions Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 336L Developmental Psychology Units: 4

Three courses from:
- CSCI 360 Introduction to Artificial Intelligence Units: 4
- HBIO 306 Primate Social Behavior and Ecology Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- LING 385Lg Human Language as Computation Units: 4
- LING 405 Child Language Acquisition Units: 4
- LING 406 Psycholinguistics Units: 4
- LING 407 Atypical Language Units: 4
- PHIL 350 Symbolic Logic Units: 4
- PHIL 422 British Empiricism Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 465 Philosophy of Language Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 305 Learning and Memory Units: 4
- PSYC 320 Principles of Psychology Units: 4
- PSYC 336L Developmental Psychology Units: 4
- PSYC 360 Abnormal Psychology Units: 4
- PSYC 420 Animal Behavior Units: 4
- PSYC 422 Human Judgment and Decision Making Units: 4 *
- PSYC 433 Children’s Learning and Cognitive Development Units: 4 *
- PSYC 450 Neural Network Models of Social and Cognitive Processes Units: 4
- PSYC 454 Social Cognition Units: 4

Total units: 18-20

Electives (3 Courses)
- BISC 421 Neurobiology Units: 4
- CSCI 103L Introduction to Programming Units: 4
- CSCI 109 Introduction to Computer Science Units: 2
- CSCI 455x Introduction to Programming Systems Design Units: 4
- HBIO 200Lg The Human Animal Units: 4
- HBIO 306 Primate Social Behavior and Ecology Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- HBIO 406 Theory and Method in Human Evolutionary Biology Units: 4
- LING 210g Introduction to Linguistics Units: 4
- LING 275Lg Language and Mind Units: 4
- LING 301 Introduction to Phonetics and Phonology Units: 4 *
- LING 302 Introduction to Syntax and Semantics Units: 4 *
- LING 405 Child Language Acquisition Units: 4
- LING 406 Psycholinguistics Units: 4
- LING 407 Atypical Language Units: 4
- LING 412 Language and Law Units: 4
- PHIL 262g Mind and Self: Modern Conceptions Units: 4
- PHIL 350 Symbolic Logic Units: 4
- PHIL 422 British Empiricism Units: 4
- PHIL 423 The Critical Philosophy of Kant Units: 4
- PHIL 462 Philosophy of Mind Units: 4
- PHIL 463 Theories of Action Units: 4
- PHIL 466 Philosophy of Language Units: 4
- PHIL 486 Methodologies of the Sciences Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 314L Research Methods Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 336L Developmental Psychology Units: 4
- PSYC 420 Animal Behavior Units: 4
- PSYC 422 Human Judgment and Decision Making Units: 4 *
- PSYC 424 Neuropsychology Units: 4
- PSYC 425 Functional Imaging of the Human Brain Units: 4
- PSYC 433 Children’s Learning and Cognitive Development Units: 4 *
- PSYC 440 Introduction to Cognitive Neuroscience Units: 4
- PSYC 450 Neural Network Models of Social and Cognitive Processes Units: 4
- PSYC 454 Social Cognition Units: 4

Total units: 9-12
*Prerequisite required

Total units: 43–48
Note: A course that is listed in both flexible core categories can be taken in either one. Students must choose a minimum of 16 upper-division units from the flexible core and electives lists.

Psychology (BA)

Grade Requirement
A grade of C- or higher is required to count a class toward major requirements.

Required Courses, Lower-Division
- MATH 114x Foundations of Statistics Units: 4 *
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 274Lg Statistics Units: 4 **

Note:
*At least one math course of 2.67 units or more is required. MATH 114x (or MATH 208x, MATH 218 , or MATH 265) is required. Students with a strong math background may profit from a more advanced class.

Thirty-two upper-division psychology units are required, including:

Required Courses, Upper-Division
- PSYC 314L Research Methods Units: 4 **
- PSYC 316L Non-Experimental Research Methods Units: 4

Note:
**It is recommended that no more than two upper-division psychology courses be taken prior to the completion of PSYC 274L and PSYC 314.

One course from each of four of the following five lists is also required:

Cognitive
- PSYC 301L Cognitive Processes Units: 4
- PSYC 305 Learning and Memory Units: 4
- PSYC 440 Introduction to Cognitive Neuroscience Units: 4

Developmental
- PSYC 336L Developmental Psychology Units: 4
- PSYC 337L Adult Development and Aging Units: 4
- PSYC 339Lg Origins of the Mind Units: 4

Clinical
- PSYC 360 Abnormal Psychology Units: 4
- PSYC 361 Introduction to Clinical Psychology Units: 4
- PSYC 367g Stress, Health, and the Mind-Body Connection Units: 4
Biological
- PSYC 304L Sensation and Perception Units: 4
- PSYC 320 Principles of Psychobiology Units: 4
- PSYC 326 Behavioral Neuroscience Units: 4
- PSYC 404L Psychophysiology of Emotion Units: 4
- PSYC 420 Animal Behavior Units: 4

Social
- PSYC 355 Social Psychology Units: 4

Additional Requirements
Two 400-level psychology courses other than 490x totaling eight units are also required. PSYC 404L and PSYC 420 may not count toward this requirement if used to satisfy the biological category above.

An additional psychology course, either upper or lower-division of at least 2.67 units is required.

Social Sciences, with an Emphasis in Psychology (BA)
The required courses are: PSYC 100, MATH 114*, PSYC 274L and eight upper-division courses in departments in the social sciences, including five in the Department of Psychology and three outside the department but within the division. These may be any 300- or 400-numbered courses.

*MATH 208, MATH 218 or MATH 265 may substitute for MATH 114.

Minor
Consumer Behavior Interdisciplinary Minor
This interdisciplinary minor explores consumer thinking from the perspective of psychology, marketing, economics, anthropology, sociology and other departments interested in popular culture. Why do people form the attitudes and impressions they do? How do individual factors, culture, mass media, economics and social trends influence people's decisions? See USC Marshall School of Business.

Psychology and Law Minor
This interdisciplinary minor brings together courses in psychology that focus on the social, clinical, cognitive and societal aspects of psychology and how it relates to law. This knowledge is augmented with courses from the USC Gould School of Law that identify the relationship between mental health, social psychology and law.

Twenty-four units are required for the minor. A minimum of four courses (16 units) must be unique to the minor. A minimum of 16 upper division units must be completed. Psychology majors and students majoring in social sciences with an emphasis in psychology may "double count" up to two courses toward the major and minor; however, they must take a minimum of four courses that do not apply to the major.

Lower Division Requirements
Students must complete LAW 200w and PSYC 100Lg. (PSYC 100Lg is a prerequisite to upper-division PSYC courses.)
- LAW 200w Law and Society Units: 4
- PSYC 100Lg Introduction to Psychology Units: 4

At least two upper-division Law courses from the following list (three minimum for PSYC majors):
- LAW 402 Psychology and Law Units: 4
- LAW 403 Mental Health Law Units: 4
- LAW 404 Law and Psychology: Examining the Criminal Justice Process Units: 4
- IR 349 International Law and Politics Units: 4
- LING 412 Language and Law Units: 4
- PHIL 431 Law, Society, and Politics Units: 4
- POSC 452 Critical Issues in Law and Public Policy Units: 4

At least two upper-division Psychology courses from the following list:
- PSYC 301L Cognitive Processes Units: 4
- PSYC 304L Sensation and Perception Units: 4
- PSYC 355 Social Psychology Units: 4
- PSYC 360 Abnormal Psychology Units: 4
- PSYC 363 Criminal Behavior Units: 4
- PSYC 365 Introduction to Forensic Psychology Units: 4
- PSYC 454 Social Cognition Units: 4

Psychology Minor
The minor requires six courses: PSYC 100 and five additional courses:

One course is required in each of three of the five topic areas listed under Major Requirements. PSYC 314L may be used to fulfill one of these topic areas.

Two elective PSYC courses. One must be upper-division, 300-level or higher.

Limitations:
1. Students must complete at least 16 upper-division PSYC units.
2. No more than four units of PSYC 490x is applicable to the minor.
3. Each of the six courses must be at least 2.67 units.

Master's Degree
Applied Behavior Analysis (MS)
The Master of Science in Applied Behavior Analysis (MABA) is designed for students who wish to pursue a career in Applied Behavior Analysis. The mission of the program is that all graduating students will become scientist-practitioners, who will be leaders in the provision of services that improve the quality of life of individuals with autism and other developmental disorders.

The program satisfies all requirements of the Behavior Analyst Certification Board, including 270 instructional hours of course work in applied behavior analysis, and 1,500 hours of supervised practicum work. After graduating from the program, students will have completed all of the course work and fieldwork requirements to sit for the Board Certified Behavioral Analyst (BCBA) certification.

A unique component of the program is the provision of two courses in developmental psychology that provide students with an up-to-date survey of theory and research in cognitive, social and emotional development of children and adolescents.

The program is especially appropriate for individuals who have majored in a behavioral science field, such as psychology and sociology, or who have a background in teaching or special education. Applicants must have received their baccalaureate degree by the semester in which they enter the program. Admission is competitive and based on grade point average, course work, GRE scores and practical experience with children. There are openings for approximately 24 students in each year of the program.

The program requires 42 units.

Applicants must apply for admission to the Graduate School, and satisfy all requirements for admission. Details on the method for applying, admission criteria and deadlines can be found at dornsife.usc.edu/aba.

Sample Student Curriculum
The following is a representative curriculum:

Fall, First Year
- PSYC 530 Concepts and Principles of Behavior Analysis Units: 3
- PSYC 531 Behavioral Assessment Units: 2
- PSYC 532 Ethics for Behavior Analysts Units: 3
- PSYC 587 Practicum in Applied Behavior Analysis Units: 2 – 18 hours per week – 15 weeks (270 hours)

Spring, First Year
- PSYC 533 Cognitive Development in Children Units: 4
- PSYC 535 Research Methods in Behavior Analysis Units: 3
- PSYC 536 Behavioral Interventions Units: 3
- PSYC 587 Practicum in Applied Behavior Analysis Units: 2 – 18 hours per week – 15 weeks (270 hours)

Summer, First Year
- PSYC 587 Practicum in Applied Behavior Analysis Units: 2
Fall, Second Year

- PSYC 534 Social and Emotional Development in Children
  Units: 4
- PSYC 537 Development and Supervision of Intervention Systems Units: 2
- PSYC 539 Behavioral Approaches to Skill Acquisition Units: 2
- PSYC 587 Practicum in Applied Behavior Analysis Units: 2
  – 18 hours per week, 15 weeks (270 hours)
- PSYC 594a Master's Thesis Units: 2
  OR
- PSYC 597a Capstone Project in Behavior Analysis Units: 2

Spring, Second Year

- PSYC 587 Practicum in Applied Behavior Analysis Units: 2
  – 20 hours per week, 15 weeks (300 hours)
- PSYC 596 Advanced Behavioral Theory Units: 2
- PSYC 594b Master's Thesis Units: 2
  OR
- PSYC 597b Capstone Project in Behavior Analysis Units: 2

Applied Psychology (MS)

dornsife.usc.edu/map

Program Director: Ellen L. Leggett, EdD

The Master of Science in Applied Psychology program (MAP) is designed for individuals who wish to pursue or advance a career in a non-academic field where knowledge of human behavior is essential to effective job performance. The program stresses practical applications of psychological principles related to social influence, human motivation, interpersonal dynamics, decision-making, and performance improvement.

The program is especially appropriate for those who have majored in a behavioral science field, e.g., psychology, sociology, political science or anthropology. These applicants must have received their baccalaureate degree by the semester in which they begin the program.

Applicants must apply for admission to the Graduate School, and satisfy all requirements for admission. Details on the method for applying, admission criteria and deadlines can be found at dornsife.usc.edu/map.

Thirty-four units of course credit is required for the MAP degree. These units are taken from an inventory of courses that are specified for the MAP program. All students are required to take PSYC 505, PSYC 550a, PSYC 550b, PSYC 552, PSYC 556, 4 to 8 units of PSYC 591, and 2 units of PSYC 592. The specific number of PSYC 591 units taken in a given semester will depend in part on what options are available from internship sponsors. In addition, students choose from the following courses to focus on either organizational psychology or on consumer psychology: PSYC 513, PSYC 517, PSYC 556, PSYC 622. MAP students may take up to 4 units of PSYC 590.

Based on the student's academic background, work experience and career goals, substitutions of up to two courses may be made from other courses eligible for graduate credit.

The program for a given cohort of students begins in the fall semester. The normal expectation is that full-time students will complete the program in two semesters plus the summer. Part-time students will generally take one or two courses per semester, and must complete the program within five years.

The Master of Science in Applied Psychology program is also available as a part-time, online degree. Students may enter this program in fall, spring or summer terms.

Psychology (MA)
The department does not admit students whose objective is this master's degree. However, if a student accepted in the doctoral program does not have a master's degree, the department strongly recommends completion of the requirements for the MA in Psychology in the course of work toward the PhD degree. This involves 24 units of course work and a thesis.

Dual Degree

Doctor of Philosophy in Psychology (Clinical) and Master of Public Health (Health Promotion) (PhD/MPH)
The PhD/MPH dual degree combines knowledge of clinical psychology research and practice with an understanding of health from a population perspective. The student enrolls primarily in the clinical science doctoral program, while taking additional course work for the MPH. During the second and subsequent years, course work is taken in both programs. The dissertation is undertaken through the Department of Psychology.

Doctoral Degree

Psychology (PhD)

Residency Requirement
A minimum of 24 graduate units at USC is required for the doctoral degree.

Course Requirements
Each student must take at least 36 substantive units in psychology at USC during the first three years. Students must complete one statistics and/or research methods course as well as a set of core courses that cover topics in brain and cognitive sciences and clinical, developmental and social areas, the specifics of which are provided in the department's handbook for graduate students. Additional course requirements vary according to specialty area.

Research Requirement
During the first and second year, students work on either a master's thesis or a research report of comparable scope and quality. A research project done at USC is required of all students (by the conclusion of the second year), regardless of prior graduate work.

Screening Procedure
The student's ability to master graduate-level course material is first evaluated after completion of no more than 24 units, and not later than the third semester of graduate work at USC. The final screening procedure is the successful completion of a second-year project requirement. This evaluation is based on the student's performance in courses taken and an evaluation of the student's research competence as reflected in the second year research project. The project is evaluated by a committee of three faculty, including the student's primary adviser.

Additionally, students are evaluated each year based on adviser input, course work and research progress.

Qualifying Exam Committee
In preparation for the qualifying examination, each student assembles a five-person qualifying exam committee to direct the student's program of studies and evaluate research competence. The committee continues to serve until after the qualifying examination has been passed, the dissertation topic approved, and the student admitted to candidacy for the PhD. At that time the student assembles a dissertation committee of four or more members (usually consisting of members of the qualifying exam committee, one of whom must be a faculty member from outside the department), who advise on and evaluate the dissertation.

Qualifying Examination
The qualifying examination evaluates the student's ability to conduct independent scholarship and research. The student is evaluated based on oral and written presentation of two elements: a written review paper or written exam and the dissertation proposal. The qualifying examination is planned, administered and evaluated by the student's qualifying exam committee. It should be taken no later than during the fifth semester.
Doctoral Dissertation
A student is expected to engage in research activity throughout his or her graduate career, leading up to and culminating in the PhD dissertation. The dissertation is based on an original investigation, usually involving empirical data.

Defense of the Dissertation
The student's doctoral dissertation is defended at either a defense oral, based on an approved preliminary copy of the dissertation, or a final oral, based on the final version of the dissertation.

Advisement
Each student has a major adviser who is usually in the specialty area. The qualifying exam committee should be formed at least one semester before the student takes the qualifying examination. Advisement concerning graduate school requirements may also be sought from the staff graduate adviser and the faculty member serving as director of graduate studies.

Internship Requirement
Students in the clinical science PhD program need a minimum of three full-time in-residence academic years of graduate study plus one full year of internship at a facility approved by the clinical faculty.

Religion
The School of Religion offers undergraduate courses in biblical studies; ancient near eastern religion, east and south Asian religions, including Hinduism, Buddhism and Daoism; religions in Latin America; contemporary North American religions; the histories of Judaism, Christianity and Islam; the sociology of religion; religion and gender; and topics in religious ethics. Courses are designed to facilitate a critical and comparative understanding of religious traditions in the light of the most current scholarship. The School of Religion offers the Bachelor of Arts in Archaeology, the Bachelor of Arts in Jewish Studies, the Bachelor of Arts in Religion, the minor in Archaeology, the minor in Archaeology of California, the minor in Jewish Studies, the minor in Religion, a graduate certificate in Religious Studies, and the Doctor of Philosophy in Religion. Students also have the opportunity to enroll in USC courses offered by faculty of the Louchheim School for Judaic Studies, and receive regular USC course credit.

Director: Duncan Williams, PhD

Faculty
King Faisal Chair in Islamic Thought and Culture and Professor of Religion and American Studies and Ethnicity: Sherman Jackson, PhD*
Knight Chair in Media and Religion: Diane Winston, PhD (Communication and Religion)
Carolyn Craig Franklin Professor of Law and Religion and Professor of Law: Ronald R. Garet, JD (Law)
John R. Tansey Chair in Christian Ethics and Professor of Religion: Rev. Cecil (Chip) Murray, ReID
Alton M. Brooks Professor of Religion: James Heft, PhD
Leonard K. Firestone Professor of Religion: Donald Miller, PhD
Ruth Ziegler Early Career Chair in Jewish Studies: Jessica Marglin, PhD

Professors: Lisa Marie Bitel, PhD (History); Janet Hoskins, PhD (Anthropology); Paul Lichterman, PhD (Sociology); Bruce Zuckerman, PhD*
Associate Professors: David Albertson, PhD*; Sheila Briggs, MA; James McHugh, PhD; Sonya Lee, PhD (East Asian Languages & Cultures); Lori Rachelle Meeks, PhD; Duncan Williams, PhD
Assistant Professors: Cavan W. Concannon, PhD; Gerard Godard, PhD (History); (Lei Kwan) Rondgao Lai, PhD

Associate Professor of the Practice: Lynn Swartz Dodd, PhD
Lecturer: Christopher Daily, PhD

Adjunct Professors: Stephen Smith, PhD; Varun Soni, PhD
Emeriti Professors: Robert Ellwood, PhD; Ronald Hock, PhD; John B. Orr, PhD; J. Wesley Robb, PhD, LHD*
Emeriti Associate Professors: John P. Crossley, Jr., ThD*; William W. May, PhD; Alvin S. Rudisill, PhD

University Professor; Professor Emeritus of Religion, and Dean Emeritus, Rossier School of Education: John Orr
*Recipient of university-wide or college teaching award.

Undergraduate Degrees
Religion Major with Honors
Mayors who wish to graduate from the university with honors in religion must achieve a minimum 3.5 grade point average in the major at the time of graduation. In addition to completing the required 32 units listed above, candidates for honors must register for REL 491 x Undergraduate Honors Research, in which they must complete an acceptable senior honors project in religion. The total unit requirement to graduate with honors is 36 upper-division units.

Honor Society
Theta Alpha Kappa is a national honor society for those involved in the study of religion at the undergraduate and graduate level. It is open to declared majors who have completed at least three semesters of college and at least 12 units of religion courses. Students must have a GPA of at least 3.5 in major courses and an overall GPA of at least 3.0.

Judaic Studies Minor
See Jewish Studies for a full description of the minor.

Critical Approaches to Leadership Minor
See the Department of Interdisciplinary Studies for a full description of the minor.

Graduate Degrees
The School of Religion offers graduate study at the doctoral level in the field of religion with three tracks: Asia Pacific Religions, Comparative Christianities and Global Islam. Graduate work in the field of religion is designed to develop competencies and critical apparatuses in the distinct tracks and religious traditions as well as in religions' interactions with society, culture and the major themes that transcend the boundaries of geography, history and tradition.

The three tracks include:

Track I: Asia Pacific Religions
Trains students in the foundational texts, histories, worldviews, socio-political and cultural impact of religions in the pre-modern and modern Asia Pacific. These religious traditions include Hinduism, Buddhism and other religious movements in the region as well as their global manifestations.

Track II: Comparative Christianities
Trains students in the vast global range of historical and contemporary Christian traditions often grouped together homogeneously as Christianity. Rather than focusing exclusively on textual and intellectual traditions, this track integrates the social, cultural and material dimensions of religion in its study of plural Christianities, and challenges students to frame their research in transnational and transhistorical terms as a matter of course.

Track III: Global Islam
Trains students in the “global” dimensions of the Islamic tradition, from the traditional confines of the Middle East, Africa and South and Southeast Asia to include Islam, Islamic thought, Muslim culture
and Muslim communities in the modern Western world. In addition to the acquisition of traditional skills for the study of religious texts, doctrine and spiritual life of believers, students will learn how Muslims negotiate concrete spaces and contexts they inhabit in the modern world.

Degree Requirements

The degree is conferred under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School. Decisions regarding the number of transfer credits to be awarded will be made on a case-by-case basis by the faculty of the School of Religion.

Bachelor’s Degree

Archaeology (BA)

Director: Lynn Swartz Dodd, PhD

Archaeology deepens our understanding of peoples and societies across space and time, in all parts of the world, while expanding our knowledge of issues relevant in contemporary society. Archaeologists interpret material culture and action from our shared human past using a range of tools and approaches whether the discovery occurs with trowel in hand, or through laboratory analysis, artifact study, remote sensing or by documenting heritage. Archaeology majors strengthen their skills in critical thinking, assessing evidence, and formulating clear and persuasive arguments, both oral and written. Students from a wide range of disciplines will gain perspective on their own intellectual and professional interests through the study of the past.

In addition to the general education requirements, the following courses are required:

Lower-Division Requirement (8 units)

Required Course (4 units)

• ANTH 202g Archaeology: Our Human Past Units: 4

Select either one 4-unit course or two 2-unit courses from the following list (4 units):

- AHIS 120g Foundations of Western Art Units: 4
- AHIS 125gp Arts of Asia I: Antiquity to 1300 Units: 4
- AHIS 126g Arts of Asia II: 1300 to the Present Units: 4
- AHIS 127g Arts of the Ancient Americas Units: 4
- AHIS 128g Arts of Latin America Units: 4
- ANTH 140g Mesoamerican Cosmovation and Culture Units: 4
- ARCG 298A Introduction to Scientific Diving Units: 2
- ARCG 298BL Introduction to Scientific Diving Units: 2
- CHEM 105bL General Chemistry Units: 4
- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CLAS 212 Archaeology: Interpreting the Past Units: 4
- CLAS 280gp Classical Mythology in Art and Literature Units: 4
- ENST 100g Introduction to Environmental Studies Units: 4
- ENST 150g Environmental Issues in Society Units: 4
- HBIO 200Lg The Human Animal Units: 4
- HIST 101gp State and Society in the Ancient World Units: 4
- LING 295g The Ancient Near East: Culture, Archaeology, Texts Units: 4
- MASC 110L Materials Science Units: 4
- REL 111g The World of the Hebrew Bible Units: 4
- REL 112g Religions of Ancient Egypt and the Near East Units: 4
- REL 114g The Mediterranean: A Religious History Units: 4
- REL 115g Jerusalem, City of Three Faiths Units: 4
- REL 121g The World of the New Testament Units: 4
- REL 125gp Introduction to Christianity Units: 4
- REL 132g Origins of Western Religions Units: 4
- REL 135g Chinese Religions and Culture Units: 4
- REL 136g Sense and Sensuality in Indian Religions and Culture Units: 4
- REL 137g Introduction to Islam Units: 4
- SSCl 165Lgw Sustainability Science in the City Units: 4
- SSCl 265Lg The Water Planet Units: 4

Upper-Division Requirement (28 units)

Take Ethics and Heritage course (4 units)

Select two courses from Theories and Methods (8 units):

- AHIS 325 Roman Archaeological Excavation: Methods and Practice Units: 4
- AHIS 415 Object-Worlds: Histories and Theories of Things Units: 4
- AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology Units: 4
- AHIS 427 Archaeological Theories, Methods, and Practice Units: 4
- ANTH 307 Trojan Archaeology: Excavating USC Units: 4
- ANTH 400 Maya Resilience: Constructing Past and Present Identities Units: 4
- ANTH 440 History of Anthropological Theory Units: 4
- ANTH 450 Field Research in Maya Archaeology Units: 4
- ANTH 481L GIS for Investigating the Past Units: 4
- REL 303g Exploring Ancient Ways of Living: Experimental Archaeology Units: 4
- REL 494 Lab Methods and Theories in Archaeology Units: 4
- REL 495 Field Methods and Theories in Archaeology Units: 4

Select three courses from the following two areas (12 units):

Cultural/Historical

- AHIS 321 Greek Art and Archaeology Units: 4
- AHIS 322 Roman Art and Archaeology Units: 4
- AHIS 330 Medieval Art Units: 4
- AHIS 381g Visual Cultures of Asia Units: 4
- AHIS 384 Early Chinese Art Units: 4
- AHIS 420 Studies in Ancient Art Units: 4
- ANTH 304 Prehistoric Archaeology Units: 4
- ANTH 310 Archaeology of the Americas Units: 4
- ANTH 311 Old World Archaeology Units: 4
- ANTH 314g The Nature of Maya Civilization Units: 4
- ANTH 329 Archaeology and Global Cultural Heritage Units: 4
- ANTH 337 Anthropology of Warfare Units: 4
- ANTH 360 Symbolic Anthropology Units: 4
- ANTH 372 Interpretation of Myth and Narrative Units: 4
- ANTH 377 Archaeological Interpretation of Complex Societies Units: 4
- CLAS 325 Aegean Archaeology Units: 4
- CLAS 324 Late Antique Art and Archaeology Units: 4
- CLAS 328 Archaeology of Religion in the Greco-Roman World Units: 4
- CLAS 338 Warfare, State, and Society in the Ancient World Units: 4
- CLAS 339 Ancient Science Units: 4
- CLAS 349g Ancient Empires Units: 4
- CLAS 371 From Alexander to Cleopatra: The Mediterranean in an Age of Expansion Units: 4
- JS 370 Digs and Dispute: Religion and Archaeology in Israel Units: 4
- JS 378 Jewish Magic in the Ancient World Units: 4
- MDES 316g The Great Muslim Empires of the Near East and India Units: 4
- REL 302 Religions of Ancient Egypt and the Near East Units: 4
- REL 317g The Bible in Its Ancient Context Units: 4
- REL 325 Religious Experience in the Greco-Roman World Units: 4
- REL 326gp Historical Jesus Units: 4
- REL 394 Archaeology of Egypt and the Near East Units: 4
- REL 402 Cultural Heritage, Religion, and Politics in the Middle East Units: 4
- REL 475 Religion, Material Culture and the Senses Units: 4
- REL 493 Art and Archaeology of Religion Units: 4

**Applied/Analytical**
- ANTH 376 Scientific Analysis in Archaeology Units: 4
- ANTH 481L GIS for Investigating the Past Units: 4 *
- ARCG 305L Virtual and Digital Culture, Heritage and Archaeology Units: 4
- ARCG 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- CHEM 300L Analytical Chemistry Units: 4
- ENST 320a Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- ENST 320b Water and Soil Sustainability; Energy and Air Sustainability Units: 4
- GEOL 305L Introduction to Engineering Geology Units: 4
- GEOL 320L Surficial Processes and Stratigraphic Systems Units: 4
- GEOL 412 Oceans, Climate, and the Environment Units: 4
- HBIO 300 Evolution, Ecology, and Culture Units: 4
- HBIO 308 Origins and Evolution of Human Behavior Units: 4
- SSCI 301L Maps and Spatial Reasoning Units: 4
- SSCI 382L Principles of Geographic Information Science Units: 4
- SSCI 483L Spatial Science Practicum Units: 4

**Take Capstone Course (4 units):**
- CLAS 465 Archaeology and Society Units: 4

**Total Requirement: 9 courses (36 units)**

**Note:**
*ANTH 481L may not be double-counted toward the degree in Archaeology.

**Jewish Studies (BA)**

The interdisciplinary major in Jewish Studies investigates the study of Jewish religion, history, culture and languages through a variety of academic perspectives. Students can work with scholars in the School of Religion in USC Dornsife College, the Louchheim School for Judaic Studies at Hebrew Union College-Jewish Institute of Religion and faculty across the USC campus trained in religious studies, Jewish thought, history, linguistics, literature, international relations, political science, music and sociology. The curriculum is designed to allow students options in combining courses that focus on Judaism as a religion with those that focus on history, literature and other forms of Jewish culture and civilization.

**Major Requirements**

Students choose among courses that focus on Judaism as a living religious system and those that focus on Jewish history, culture and society in its global setting.

Three core courses are required: REL 301 Introduction to the Study of Religion, REL 401 Seminar in Religious Studies, and either JS 100 Introduction to Jewish History or JS 180 Judaism.

Students must choose one course from the Judaism as a Religious Tradition track and one course from the Jewish History and Culture track which are listed below.

In addition, students must select three courses from either track. No more than two courses in total may come from the lower-division (100 and 200) levels. A total of eight courses are required for the degree (32 units).

**A. Core Courses**

Three courses are required. Students must take REL 301 and REL 401 and select one course from either JS 100 or JS 180.

- JS 100gp Jewish History Units: 4
- JS 180gp Introduction to Judaism Units: 4
- REL 301 Introduction to the Study of Religion Units: 4
- REL 401 Seminar in Religious Studies Units: 4

**B. Judaism as a Religious Tradition (at least one course required)**

- JS 180gp Introduction to Judaism Units: 4
- JS 258gp Food, Faith and Conflict Units: 4
- JS 314gp Holy War And History: Jews, Christians, Muslims Units: 4
- JS 321 Gender and Judaism Units: 4
- JS 361 Scripture and Polemic in Judaism, Christianity and Islam Units: 4
- JS 374 Messiah: The History of an Idea Units: 4
- JS 378 Jewish Magic in the Ancient World Units: 4
- JS 382 Judaism as an American Religion Units: 4
- JS 467 Modern Jewish Thought Units: 4
- REL 111g The World of the Hebrew Bible Units: 4
- REL 112g Religions of Ancient Egypt and the Near East Units: 4
- REL 114g The Mediterranean: A Religious History Units: 4
- REL 115g Jerusalem, City of Three Faiths Units: 4
- REL 121g The World of the New Testament Units: 4
- REL 132g Origins of Western Religions Units: 4
- REL 311g The Bible in Western Literature Units: 4
- REL 312 Biblical Wisdom Literature Units: 4
- REL 317g The Bible in Its Ancient Context Units: 4
- REL 359g Culture in Diaspora: The Jews of Spain Units: 4
- REL 364 Religion and Ethics Units: 4
- REL 394 Archaeology of Egypt and the Near East Units: 4
- REL 473 Advanced Hebrew Bible Studies Units: 4

**C. Jewish History and Culture (at least one course required)**

- HEBR 315 Modern Hebrew Language (Hebrew IV) Units: 4
- HIST 305 From Goddesses to Witches: Women in Premodern Europe Units: 4
- HIST 323 The Holocaust in 20th Century Europe Units: 4
- HIST 383 The Modern Middle East Units: 4
- HIST 402 Cultural Heritage, Religion, and Politics in the Middle East Units: 4
- HIST 444 Mass Violence and Comparative Genocide in Modern World History Units: 4
- HIST 444b Resistance to Genocide Units: 4
- ITAL 352 The Holocaust in Italian Fiction and Film Units: 4
- JS 100gp Jewish History Units: 4
- JS 211gw The Holocaust Units: 4
- JS 214 Zionism, Israel, and the Modern World Units: 4
- JS 300 American Jewish History Units: 4
- JS 315g Anti-Semitism, Racism and Other Hatreds Units: 4
- JS 330 Jewish Power, Powerlessness, and Politics in the Modern Era Units: 4
- JS 340 Modern Jewish History Units: 4
- JS 342 Reading in Two Directions: Connecting Law and Literature in Jewish Tradition Units: 4
- JS 360 Jewish Identity, Community, and Service: Jews and Other Americans Units: 4
- JS 362 Terror and Resistance in Literature and the Media Units: 4
- JS 370 Digs and Dispute: Religion and Archaeology in Israel Units: 4
- JS 379gm Mixing and Matching: Intermarriage in the 21st Century Units: 4
- JS 381 The Jew in American Society Units: 4
- JS 383 Jews in American Popular Culture Units: 4
- JS 389 Culture and Society in Israel: Inventing the Dream Units: 4
- JS 390 Special Problems Units: 1, 2, 3, 4
- JS 415 The American Jewish Experience in Film Units: 4
- JS 428 Blacks and Jews: Conflicts and Alliances Units: 4
- JS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- JS 499 Special Topics Units: 4
• MSCR 475 Introduction to Jewish Music Units: 2
• REL 324g Sex and the Bible: Gender, Sexuality, and Scripture Units: 4
• SPAN 350 Cultural Cross-Currents of the Iberian Middle Ages Units: 4

D. Major Electives (three courses required)
In addition to the three core courses in Area A and one required course in each of Areas B and C, students must complete three additional courses chosen from lists B and C. No more than two courses in total may come from the lower-division (100 and 200) levels.

Jewish Studies majors are encouraged to take HEBR 120, HEBR 150 and HEBR 220, which fulfill the Dornsife College foreign language requirement.

Religion (BA)
The department major requires REL 301 Introduction to the Study of Religion (preferably taken at the beginning of the student's major courses) and REL 401 Seminar in Religious Studies. Further, students must take six additional courses from the list below. The total unit requirement for the major is 32 units (at least 24 to 28 units must be upper-division).

Lower-division Options:
• REL 111g The World of the Hebrew Bible Units: 4
• REL 112g Religions of Ancient Egypt and the Near East Units: 4
• REL 114g The Mediterranean: A Religious History Units: 4
• REL 115g Jerusalem, City of Three Faiths Units: 4
• REL 121g The World of the New Testament Units: 4
• REL 125gp Introduction to Christianity Units: 4
• REL 132g Origins of Western Religions Units: 4
• REL 134g Introduction to Buddhism Units: 4
• REL 135g Chinese Religions and Culture Units: 4
• REL 136g Sense and Sensuality in Indian Religions and Culture Units: 4
• REL 137g Introduction to Islam Units: 4
• REL 138g Japanese Religions and Culture Units: 4
• REL 141g Global Religions in Los Angeles Units: 4
• REL 147g Religion, Media and Popular Culture Units: 4

Upper-division Options:
• CLAS 323 Aegean Archaeology Units: 4
• COMM 425 Communicating Religion Units: 4
• COMM 426 Religion, Media and Hollywood: Faith in TV Units: 4
• EALC 431 The Taoist Tradition Units: 4
• HIST 482 Jesus in American History and Culture Units: 4
• JS 321 Gender and Judaism Units: 4
• JS 361 Scripture and Polemic in Judaism, Christianity and Islam Units: 4
• JS 382 Judaism as an American Religion Units: 4
• JS 467 Modern Jewish Thought Units: 4
• REL 302 Religions of Ancient Egypt and the Near East Units: 4
• REL 311g The Bible in Western Literature Units: 4
• REL 312 Biblical Wisdom Literature Units: 4
• REL 314 Introduction to Shiasm Units: 4
• REL 315 Thought and Life of Islam Units: 4
• REL 316 Women and the Islamic Tradition Units: 4
• REL 317g The Bible in Its Ancient Context Units: 4
• REL 319 Religious and Ethical Issues in Death and Dying Units: 4
• REL 325 Religious Experience in the Greco-Roman World Units: 4
• REL 326g Historical Jesus Units: 4
• REL 329 Themes in the Religions of China Units: 4
• REL 330 Introduction to the Religions of India Units: 4
• REL 331 Religions of East Asia Units: 4
• REL 332 Religions of Japan Units: 4

• REL 495 Field Methods and Theories in Archaeology Units: 4
• REL 499 Special Topics in Religion Units: 2, 3, 4

Additional Requirements
Students who intend to do graduate work in some area of religious studies are encouraged to concentrate their course selections in the area of their preference and to begin learning the languages that are essential for study in that area. This includes modern languages such as Arabic, Chinese, French, German or Japanese, and perhaps an ancient language.

Minor
Archaeology Minor

Students gain long-term perspectives by studying of the material traces of the past human activity and by joining in its discovery. The minor in Archaeology is available to students in all schools and departments.

Lower-Division Requirement (4 units)
Required Course (4 units)
• ANTH 202g Archaeology: Our Human Past Units: 4

Upper-Division Requirement (16 units)
Select one course from the Theories and Methods list of the Archaeology Major (4 units). Additionally, select any one upper-division course from those listed under Archaeology Major (4 units):

Take Ethics and Heritage course (4 units)
• REL 304 Ethics and Global Heritage Units: 4
Take Capstone Course (4 units)
- CLAS 465 Archaeology and Society Units: 4

Total Requirement: 5 courses (20 units)

Archaeology of California Minor
Students gain diverse, long-term perspectives on Los Angeles, California state, the west, and the USA by joining in the discovery and study of the material traces of past human activity during an archaeological excavation and/or survey on USC’s campus and/or elsewhere in California. The minor in Archaeology of California is available to students in all schools and departments. Students complete this minor through the archaeology block semester program.

In a single semester, complete these three courses:
- ANTH 307 Trojan Archaeology: Excavating USC Units: 4
- REL 304 Ethics and Global Heritage Units: 4
- REL 494 Lab Methods and Theories in Archaeology Units: 4

and complete one of these courses:
- ANTH 377 Archaeological Interpretation of Complex Societies Units: 4
- CLAS 465 Archaeology and Society Units: 4

Jewish Studies Minor
Students taking the Jewish studies minor must enroll in either JS 100 or JS 180. In addition, they must complete four upper-division courses selected from the Judaism as a Religious Tradition track and the Jewish History and Culture track listed in the Jewish studies major description.

The total unit requirement for the minor is 20 units; 16 of those units must be upper-division.

Religion Minor
Students taking the religion minor must enroll in REL 301 Introduction to the Study of Religion. In addition, they must complete four additional religion courses, at least three of which must be upper-division courses.

The total unit requirement for the minor is 20 units; 16 of those units must be upper-division.

Students who wish to focus their minor in Jewish studies must minor in Judaic Studies.

Graduate Certificate
For Business

Religious Studies Certificate
Students admitted into the Graduate Certificate in Religious Studies (GCRS) program will be required to complete REL 500 (Methods and Theories in the Study of Religion) or REL 502 (Themes in the Study of Religion). In addition, they will need to take 12 units of elective courses from the pre-approved lists below. (Students may also take as an elective whichever of the REL 500, REL 502 series they did not take as a requirement). In addition to the courses listed below, others may also be considered for credit on a case-by-case basis at the discretion of the director of Graduate Studies. All GCRS courses must be at the 500-level or above, and at least 50 percent of their content must focus on the study of religion. REL 590 (Directed Research) may not count for more than 4 of these additional 12 units.

Students interested in pursuing the GCRS program should meet with the director of Graduate Studies to apply to the program and plan a course of study. Candidates should be planning to include the study of religion in their dissertation projects. Alternatively they may take a concluding qualifying oral exam based on three seminar or research papers written in conjunction with their religion course work.

Required Course (4 units)
Select one course.

- REL 500 Methods and Theories in the Study of Religion Units: 4
- REL 502 Themes in the Study of Religion Units: 4

Electives (12 units)
Select 12 units.

Pre-Approved Religion Courses
- REL 500 Methods and Theories in the Study of Religion Units: 4
- REL 502 Themes in the Study of Religion Units: 4
- REL 525 Colloquium in Global Islam Units: 4
- REL 535 Colloquium in Comparative Christianities Units: 4
- REL 545 Colloquium in Asia Pacific Religions Units: 4
- REL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- REL 625 Advanced Graduate Seminar in Global Islam Units: 4
- REL 635 Advanced Graduate Seminar in Comparative Christianities Units: 4
- REL 645 Advanced Graduate Seminar in Asia Pacific Religions Units: 4
- REL 650 Readings in Islamic Texts Units: 4
- REL 651 Readings in Christian Texts Units: 4
- REL 652 Readings in Buddhist Texts Units: 4
- REL 653 Readings in Indic Religious Texts Units: 4
- REL 654 Readings in Chinese Religious Texts Units: 4
- REL 665 Readings in Japanese Religious Texts Units: 4

Pre-Approved Cross-Listed Courses
- EALC 610 Seminar: Buddhism and the Literary Arts in Japan Units: 4
- IR 540 Seminar in International Politics — Religion and Conflict Units: 4
- JOUR 585 Specialized Reporting: Religion Units: 3
- JS 501a Bible Texts Units: 4
- JS 501b Bible Texts Units: 4
- JS 501c Bible Texts Units: 4
- MSCR 571 Music of the Great Liturgies Units: 2
- SOWK 682 Spirituality, Religion, and Faith in Clinical Practice Units: 3

Doctoral Degree
Religion (PhD)

Course Requirements
Sixty-four units of course work are required for the PhD degree, including units of previous graduate work for which credit is allowed. No more than two language courses at the 400-level and no more than two non-language courses at the 400-level (i.e., 16 units) may be applied to the total requirement of 64 units. Time of residency is contingent upon the background and preparation of the student.

Core requirements for all doctoral students regardless of track include REL 500, REL 502, REL 592, REL 593, and a maximum of 8 units of REL 794 Doctoral Dissertation to be applied toward the 64-unit total requirement.

Additionally, mandatory courses for students in the Asia Pacific Religions track include REL 545, REL 645, and a one course from the REL 652/REL 653/REL 654/REL 655 series. Mandatory courses for students in the Comparative Christianities track include REL 535, REL 635 and REL 651. Mandatory courses for students in the Global Islam track include REL 525, REL 625 and REL 650.

In addition to the mandatory courses, students are expected to take elective courses in areas that will support their dissertation work. Such courses may be offered in related departments in the university as well as in the School of Religion and should be selected in consultation with the primary adviser.

Each student entering the PhD program will select a primary academic adviser before classes begin. The adviser must be a member of one of the three tracks that the student envisions specializing in. In addition, at least one other faculty member from that track is selected to constitute, along with the primary adviser,
the student's "mentoring committee." The mentoring committee is responsible for overseeing the student's program of course work, course of language study, timing of qualifying exams and so on. The membership of the mentoring committee can be changed at any time with the agreement of the student, the student's primary adviser, and the School of Religion director of Graduate Studies. The dissertation Committee (see below) will replace the mentoring committee once candidacy is achieved. Students are expected to maintain a 3.5 GPA in course work.

The mentoring committee conducts an annual review of the student's academic performance and progress toward the degree in the spring of each year, before the end of the spring term. Should a student's performance be considered unsatisfactory, following consultation with the director of Graduate Studies, the student will be placed on probation for one year and given the opportunity to improve his or her performance. If a student's performance is still considered unsatisfactory at the end of the probationary year, the student will be dismissed from the program. Only after a successful annual review in the second year will the student be permitted to convene their qualifying examination committee.

### Foreign Language Requirements

Language competencies vary by track and are determined in consultation with the mentoring committee. Here are some general guidelines:

**Asia Pacific Religions Track:** Advanced facility in at least one Asian language is considered essential to the Asia Pacific Religions Track. Each student selects a primary language area. The Mentoring Committee determines which possible additional languages are necessary for the student's course of study, and the procedures for the evaluation of proficiency in those languages. The following is provided as a guideline depending on the area of sub-specialization.

- **Chinese:** Classical and modern Chinese, as well as modern Japanese (as a research language) and a modern European research language.
- **Japanese:** Classical (Bungo) and modern Japanese, as well as Kanbun, and one modern research language (European, modern Chinese, or modern Korean).
- **Korean:** Advanced Korean, as well as either modern Japanese (as a research language) or a European modern research language.
- **Sanskrit and Hindi:** Advanced competency in two South Asian languages, classical or modern, plus a modern research language judged relevant to the student's research.

**Comparative Christianities Track:** Students are required to demonstrate advanced ability in two languages other than English in order to enable comparative research. Given the temporal and global span of Christian traditions, the specific languages will be determined on a case-by-case basis by the student's mentoring committee. Customarily the committee will select one or two ancient languages and one or two modern languages. The following are the languages most frequently studied in the Comparative Christianities Track, but the mentoring committee can select others as needed:

- **Ancient:** Hebrew, Greek, Syriac, Latin, as well as medieval vernaculars
- **Modern:** French, Spanish, Italian, German, Portuguese, Korean

**Global Islam Track:** Required to demonstrate advanced ability in the primary lingua franca of Islamic civilization to ensure the ability to conduct original research. Secondarily, students are generally encouraged to acquire facility in a secondary language within traditional Muslim religious and secular literature. Students are also encouraged to acquire facility in one European research language where deemed appropriate.

- **Arabic:** Classical and Modern Standard, as the primary research language.
- **Persian:** Classical and Modern, as a possible secondary research language.
- **French or Spanish:** (Elective) a reading knowledge to conduct research on or in specific modern communities.

### Qualifying Examination and Dissertation Prospectus

The qualifying examination process consists of five stages: (1) constituting the qualifying examination committee (this would normally include the members of the mentoring committee), (2) determining the three exam areas by the student and the qualifying examination committee, (3) taking the written examinations, (4) submission of the dissertation prospectus, (5) the qualifying oral examination.

Preparation for these exams should begin early in the student's course work. In consultation with the mentoring committee the students will select their primary area and also take an exam in the other two cognate areas. Preparation for the qualifying exam continues with supplementary readings based on a bibliography prepared by the student in conjunction with the qualifying examination committee. This committee is responsible for setting the exam questions for the cognate written exams. The student is given 24 hours to write on a total of three questions for each exam. Each of the written exams is evaluated by all members of the examination committee.

The dissertation prospectus should begin with a general review of the scholarship in the field, and situate the thesis within that field. It should clearly articulate the thesis and program of research, identifying the available source material to be consulted. The prospectus must include a chapter outline, and a full bibliography of primary and secondary sources.

The oral examination will occur shortly after the submission of the dissertation prospectus. It will focus on the content of the written exams, the basic literature in the student's primary field, as well as the content and cogency of the prospectus.

### Dissertation

The dissertation committee, consisting of three faculty members, is formed immediately following advancement to candidacy. The committee consists of at least two faculty members in the track of the student's specialization as well as one other School of Religion faculty member. Candidates may also add an additional faculty member external to the School of Religion if appropriate. This final stage of the program requires the submission of an acceptable dissertation based on original investigation. The dissertation must show technical mastery expected in each track, evidence of independent research, and the analytical and interpretive ability expected of a scholar.

### Course Requirements

**Slavic Languages and Literatures**

The Department of Slavic Languages and Literatures offers a major in Russian at the undergraduate level and minors in Russian and Russian Area Studies. The major combines thorough preparation in the Russian language with the study of Russian literature, art and culture. Particular emphasis is placed on developments in contemporary Russia. Students are required to study four semesters of Russian language as a prerequisite to the major. The major itself requires an additional three semesters of language study, three semesters of an advanced seminar on Russian culture (with varying content), and two elective courses, either in Russian literature and culture (in translation or Russian, depending on course scheduling) or in Russian area studies. The department also administers, together with the School of International Relations, a major in Central European studies, which combines background in relevant languages (Russian plus either German or Polish, or more intensive study of Russian) with course work in international relations and the history, culture and politics of the region.

_Taper Hall of Humanities 255_
Faculty
Professors: Sharon Carnicke, PhD (Dramatic Arts); Sarah Pratt, PhD*; Azade-Ayse Rorlich, PhD (History); Thomas Seifrid, PhD*; Alexander Zholtkovsky, PhD*
Associate Professors: Robert English, PhD (International Relations); Roumyana Pancheva, PhD (Linguistics)
Assistant Professors: Anna Krakus, PhD; Greta Matzner-Gore, PhD; Kelsey Rubin-Detlev, PhD
Professor (Teaching) of Russian: Tatiana Akishina, PhD
Associate Professor (Teaching) of German: Britta Bothe, PhD
Assistant Professors (Teaching) of German: John W. Arensmeyer Jr., PhD; Eve Lee, PhD
Lecturer: John Adam Peters III
*Recipient of university-wide or college teaching award.

Graduate Degrees
Doctor of Philosophy in Linguistics (Specialization in Slavic Linguistics)
Application deadline: January 1
See Linguistics in this catalogue.

Certificate in Foreign Language Teaching
The Certificate in Foreign Language Teaching provides certification in the theory and practice of second or foreign language teaching for student language teachers concurrently enrolled in graduate degree programs in foreign languages or related graduate programs at USC; for graduates of such programs who are teaching languages; for external candidates concurrently enrolled in similar programs at accredited colleges or universities; or for graduates of such programs who are teaching languages. The certificate is meant to supplement graduate study in the literature or linguistics of foreign languages. It is also meant to supplement classroom teaching. Refer to the Department of Spanish and Portuguese for course work requirements.

Bachelor’s Degree
Central European Studies (BA)
The major in Central European studies combines background in relevant languages (Russian plus either German or Polish, or more intensive study of Russian) with course work in international relations and the history, culture and politics of the region.

No longer an imperial backwater, Central Europe has risen from its Cold War stasis to become one of the world's most dynamic and important regions. Stretching from the Baltic Sea to the Balkan Peninsula, and from the Eastern lands of Germany to the Western regions of Russia, this onetime great-power battleground is now a vital trade and energy corridor, a mosaic of languages and cultures, a place of both successful state-building and persistent ethnic frictions, and a promising but still-precarious bridge between the former Soviet Union and the West. Central Europe rivals the Far East and Southwest Asia as one of the world's most strategically important regions — now, and over the coming decades. Those who master its history and politics, its economic, cultural and linguistic diversity, will be well positioned for fellowships, graduate work, business or analytical careers centered on this fascinating region.

The objectives of this interdisciplinary major are to provide students with: 1) the historical background and linguistic-cultural skills necessary for in-depth study of Central Europe; 2) knowledge of its main post-Cold War political, ethnic, and economic trends; and 3) understanding of current issues from nationalism and immigration to trade, military-diplomatic and alliance politics.

Requirements
The fundamental linguistic background of the major is Russian (12 units).

Required Courses
• SLL 120 Beginning Russian I Units: 4
• SLL 150 Beginning Russian II Units: 4
• SLL 220 Intermediate Russian I Units: 4

Courses
Beyond the second year of Russian, students may choose from among three options: further work on Russian; or a year of German; or a year of Polish (8 units).

Russian
• SLL 250 Intermediate Russian II Units: 4
• SLL 310 Advanced Russian in Popular Culture Units: 4 or
• SLL 340 Intercultural Communication in Russian Units: 4

German
• GERM 101 German I Units: 4
• GERM 102 German II Units: 4

Polish
• SLL 122 Elementary Polish I Units: 4
• SLL 152 Elementary Polish II Units: 4

Required Courses, Upper-Division
Required upper-division courses in international relations: two courses must be chosen from among the following (8 units):
• IR 345 Russian and Post-Soviet Foreign Policy Units: 4
• IR 346 Communism and Post-Communism: Eastern Europe and the Balkans Units: 4
• IR 385 European Foreign Policy and Security Issues Units: 4

Elective Courses
In addition three electives are required from among the following. At least one course must be at the 400 level. With prior approval, IR 490x Directed Research (4 units) or SLL 490x Directed Research (4 units) may be substituted for one of these courses (12 units):
• HIST 323 The Holocaust in 20th Century Europe Units: 4
• HIST 324 Islam in Russia, the USSR, and Independent States Units: 4
• HIST 365 The Second World War Units: 4, 2 years
• HIST 414 Contemporary Europe Units: 4
• HIST 416 History of Imperial Russia: 1689–1917 Units: 4
• HIST 417 History of Soviet Russia: 1917–1991 Units: 4, 2 years
• HIST 422 European Intellectual and Cultural History: The 20th Century, 1920 to the Present Units: 4
• HIST 427 The German Question: Nation and Identity in Modern Central Europe Units: 4
• IR 369 Post-War European Relations Units: 4
• IR 439 Political Economy of Russia and Eurasia Units: 4
• IR 468 European Integration Units: 4
• POSC 366 Terrorism and Genocide Units: 4
• POSC 371 European Political Thought II Units: 4
• POSC 463 European Politics Units: 4
• POSC 464 Politics of Russia and Eastern Europe Units: 4
• SLL 302g Modern Russian Literature Units: 4
• SLL 303 Contemporary Russian Literature Units: 4
• SLL 330gp Russian Thought and Civilization Units: 4
• SLL 397 Literature and Film in Eastern European Historical Experience Units: 4
• SLL 465 Seminar in Russian Studies Units: 4

Russian (BA)

Required Courses, Lower-Division
• SLL 120 Beginning Russian I Units: 4
• SLL 150 Beginning Russian II Units: 4
• SLL 220 Intermediate Russian I Units: 4
• SLL 250 Intermediate Russian II Units: 4 or
• SLL 255 Business Russian Units: 4
Required Courses, Upper-Division

- SLL 310 Advanced Russian in Popular Culture Units: 4
- SLL 321 Russian Culture Units: 4 or
- SLL 330gp Russian Thought and Civilization Units: 4
- SLL 340 Intercultural Communication in Russian Units: 4
- SLL 465 Seminar in Russian Studies Units: 4 max 12 (taken three times, with varying content)
- And two elective courses approved by the undergraduate adviser

Minor

Russian Area Studies Minor

Lower-division Requirements

Four semesters of Russian language
- SLL 120 Beginning Russian I Units: 4
- SLL 150 Beginning Russian II Units: 4
- SLL 220 Intermediate Russian I Units: 4 and either
- SLL 250 Intermediate Russian II Units: 4 or
- SLL 255 Business Russian Units: 4 or its equivalent

Upper-division Requirements

The core course
- SLL 330gp Russian Thought and Civilization Units: 4

One course outside the Slavic department, from among the following:
- HIST 324g Islam in Russia, the USSR, and Independent States Units: 4
- HIST 415 Medieval and Early Modern Russia Units: 4, 2 years
- HIST 416 History of Imperial Russia: 1689–1917 Units: 4
- HIST 417 History of Soviet Russia: 1917–1991 Units: 4, 2 years
- HIST 424 Family, Work, and Leisure in Russian History Units: 4
- IR 345 Russian and Post-Soviet Foreign Policy Units: 4
- IR 346 Communism and Post-Communism: Eastern Europe and the Balkans Units: 4
- IR 439 Political Economy of Russia and Eurasia Units: 4
- IR 483 War and Diplomacy: The U.S. in World Affairs Units: 4
- POSC 464 Politics of Russia and Eastern Europe Units: 4

And one elective, to be chosen from among: any upper-division SLL course in Russian literature, art or culture
- HIST 324g Islam in Russia, the USSR, and Independent States Units: 4
- HIST 415 Medieval and Early Modern Russia Units: 4, 2 years
- HIST 416 History of Imperial Russia: 1689–1917 Units: 4
- HIST 417 History of Soviet Russia: 1917–1991 Units: 4, 2 years
- HIST 424 Family, Work, and Leisure in Russian History Units: 4
- IR 345 Russian and Post-Soviet Foreign Policy Units: 4
- IR 346 Communism and Post-Communism: Eastern Europe and the Balkans Units: 4
- IR 439 Political Economy of Russia and Eurasia Units: 4
- IR 483 War and Diplomacy: The U.S. in World Affairs Units: 4
- POSC 464 Politics of Russia and Eastern Europe Units: 4

Note:
The course taken to fulfill the requirement outside the Slavic department cannot also count as an elective.

Russian Minor

Lower-division requirements for the major plus three upper-division elective courses chosen from the following (at least two of the areas must be represented): Russian language (SLL 310, SLL 340, SLL 420); Russian literature and culture taught in Russian (SLL 321, SLL 465); Russian literature, art and culture taught in translation (SLL 330, SLL 344, SLL 345, SLL 348, SLL 378).

Doctoral Degree

Slavic Languages and Literatures (PhD)
The doctorate in Slavic languages and literatures is designed to prepare students for a career of teaching and scholarship at the university level. It provides a thorough grounding in Russian literary and cultural history as well as in the theoretical perspectives current in the field. Elective course work, particularly at the upper level, allows students to take advantage of the department's expertise in such additional areas as Russian art, Russian theater, and eastern European cinema. The linguistic component of the curriculum together with the experience as a teaching assistant in Russian language courses that many students gain also serves as preparation for positions involving language teaching. Depending on departmental offerings, further study in a second Slavic language and culture may also be possible.

Admission Requirements
An undergraduate major in Russian or its equivalent is a prerequisite for graduate work.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation page and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Master of Arts in Slavic Languages and Literatures
The department does not accept applicants for a Master of Arts degree in Slavic Languages and Literatures. The MA degree is intended only as a transitional degree in the process of completing requirements for the PhD in Slavic Languages and Literatures. The MA portion of the program comprises 30 units.

First-year Review
The program conducts a thorough review of all first-year students at the end of the second semester. To be permitted to continue doctoral work, students must receive a satisfactory evaluation in this review.

Language Requirements
Non-native speakers of Russian must successfully complete 8 units (4 semesters) of SLL 500 Topics in Advanced Russian and pass a proficiency exam in the language.

Field Examination
A written exam based on a reading list, followed by an oral exam, must be successfully passed before the MA can be awarded. It is normally taken at the end of the semester in which MA course work is completed.

Required M.A. - Level Courses
- SLL 500 Topics in Advanced Russian Units: 2
- SLL 501 Proseminar in Russian Literature Units: 3
- SLL 512 History of the Russian Language Units: 3
- SLL 532 18th Century Russian Literature Units: 3
- SLL 546 The Russian Novel Units: 3

Doctor of Philosophy in Slavic Languages and Literatures
Students pursuing the Ph.D. in Slavic Languages and Literatures are required to complete a minimum of 60 units of course work beyond the baccalaureate. In addition to the 30 units completed toward the M.A., students are required to complete the courses listed below; to demonstrate proficiency in spoken and written Russian; to demonstrate reading knowledge of French and German (in exceptional cases a second Slavic language may substitute for either French or German; instruction in Slavic languages other than
Russian is not scheduled on a regular basis); to pass the qualifying examination, which must be taken after all course work has been completed; to complete and successfully defend a dissertation.

**Required PH.D. - Level Courses**
- SLL 516 Structure of Modern Russian: Morphology Units: 3
- SLL 545 19th Century Russian Poetry Units: 3
- SLL 550 Russian Modernism Units: 3
- SLL 555 Soviet Literature I (1917–1953) Units: 3

**Two of the following courses (6 units):**
- SLL 650 Seminar in Russian Literature Units: 3
- SLL 660 Seminar on a Single Author or Work Units: 3
- SLL 665 Seminar in Russian Culture and the Arts Units: 3

---

**Sociology**

The Department of Sociology offers bachelor's degrees in sociology, health and the human sciences, and non-governmental organizations and social change. The Department of Sociology also offers a number of minors and the Doctor of Philosophy in Sociology. Students of sociology examine the patterns of social life, focusing on the relationship of individuals to society and the interaction of culture, economy and politics in shaping social life. The greater Los Angeles area provides a natural laboratory for students to explore such sociological themes as race relations, work and the workplace, immigration, the family in a changing society, population trends, globalization, religion, and the criminal justice system. Matching the special strengths of our faculty and cutting edge research in the discipline, USC's sociology program offers students the opportunity to learn about social issues locally, nationally, and internationally, as well as develop empirical research tools to conduct research, and analyze and interpret data in order to create social change. Many of our undergraduate courses include opportunities to engage actively with the community and to pursue multi-faceted independent research projects.

**Faculty**

Università Professor: Wallis Annenberg Chair of Communication Technology and Society and Professor of Communication, Sociology, Planning and International Relations: Manuel Castells, PhD (Communications)

Turpanjian Chair in Civil Society and Social Change and Professor of Sociology and American Studies and Ethnicity: Manuel Pastor, PhD*

Professors: Lynne Casper, PhD; Nina Eliasoph, PhD; Pierrette Hondagneu-Sotelo, PhD*; Paul Lichterman, PhD; Michael Messner, PhD*; Dowell Myers, PhD (Policy, Planning and Development); Rhacel Salazar Parreñas, PhD; Camille Rich, JD (Law); Avelardo Valdez, PhD (Social Work); John P. Wilson, PhD

Associate Professors: Timothy Biblarz, PhD*; Jennifer Hook, PhD; Elaine Bell Kaplan, PhD; Andrew Lakoff, PhD; Emily Ryo, PhD (Law); Leland Saito, PhD; Jody Agius Vallejo, PhD*  
Assistant Professors: Jennifer Alshire, PhD (Gerontology); Katie Hasson, PhD; Ann Owens, PhD; Daniel Schrage, PhD; Emily Smith-Greenaway, PhD; Hajar Yazdizadeh, PhD

Lecturers: Juliana McGene, PhD; Joseph Palacios, PhD

Professor (Research): Brian Finch, PhD

Professor (Teaching): Karen Sternheimer, PhD

Emeriti Professors: Constance Ahrons, PhD; Vern Bengtson, PhD (Gerontology); Lamar T. Empey, PhD; Malcolm Klein; Jon Miller, PhD*; H. Edward Ransford, PhD; Maurice D. Van Arsdol Jr., PhD

*Recipient of university-wide or college teaching award.

**Additional Requirements**

Plus electives, from SLL or relevant offerings in CSLC, COLT, ENGL, FREN, SPAN etc. as approved by the department. At least 9 of these units must be completed in SLL.

**Dissertation Defense**

An oral defense of the dissertation must be satisfactorily completed before the dissertation can be filed with the Graduate School.

**Awarding of Degree**

The degree of Ph.D. in Slavic Languages and Literatures is conferred when all of the degree requirements have been completed satisfactorily.

**Undergraduate Degrees**

**Honors Program**

Seniors with 3.5 GPAs in the major and 3.25 overall are encouraged to participate in the sociology honors program consisting of two intensive senior honors seminars (SOCI 494 and SOCI 495). Under faculty guidance, honors students design and complete a significant piece of original sociological research.

Juniors and seniors who have made substantial progress toward completion of the program and have achieved a 3.3 GPA in sociology and a 3.0 GPA overall are eligible for the Alpha Kappa Delta International Sociology Honors Society.

**University Requirements for All Minors**

To satisfy the university's minor requirements, students must choose at least four courses (16 units) outside their major department and at least four courses (16 units) of upper-division course work. In addition, at least four courses (16 units) must be dedicated to the minor (not counting for credit toward a major, another minor or USC core requirements).

**Interdisciplinary Minors**

- American Studies and Ethnicity (see American Studies and Ethnicity).
- Law and Society (see Political Science).
- Race, Ethnicity and Politics (see Political Science).

**Graduate Degrees**

The Department of Sociology offers programs of study leading to the Doctor of Philosophy degree. The PhD is directed toward the training of theoretically and methodologically sophisticated sociologists who have an enduring commitment to the practice and teaching of sociology.

**Deadline**

Applicants must complete their applications by December 1. Consideration for university fellowships is possible as early as November for students whose applications are complete.

**Prerequisites**

All applicants must have a bachelor's degree, a GPA of at least 3.0, and one or more courses in either undergraduate statistics or college algebra.

**Criteria**

Admission to regular graduate status ordinarily requires possession of a bachelor's degree, a GPA of at least 3.0, one or more courses in undergraduate statistics and/or college algebra, and three letters of recommendation. The GRE is also required. International applicants must also submit their score on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). Approximately 5–8 students enroll each year from the available pool of applicants. Each application receives careful attention and is judged in terms of the full set of criteria. A limited number of graduate course units taken elsewhere may be considered for transfer into the graduate program. These units are transferred in on a course-by-course basis.
Application Procedures
The following materials should be submitted to apply for graduate study:
1. an online USC application form (available at usc.edu/admission/graduate) plus a check for the admission fee;
2. official transcripts of all undergraduate and graduate work;
3. the official results of the general aptitude scores of the Graduate Record Examinations (verbal, quantitative, and analytical);
4. for international students, a TOEFL or IELTS score;
5. a completed Sociology Department Graduate Application form (please save and upload);
6. one example of written work (normally a paper written for a course) of no more than 20 pages;
7. three letters of recommendation from persons who can write about your academic performance and your potential as a social scientist;
8. a personal statement describing (1) your present sociological interest, (2) the books, articles or ideas that have had the greatest influence on your interests in sociology, and (3) what you hope to be doing in the field of sociology 10 years after you receive your degree. We welcome you to include other aspects of your experience that you think are important sources of your sociological interests. We stress, though, that an effective personal statement will illustrate your intellectual engagement and your interest in producing high-quality scholarship.

Degree Requirements
These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Residence
All graduate students must be in residence and must take at least eight units of graduate work each semester (except during Advanced and Qualifying Examinations), prior to work on the dissertation.

Master of Arts in Sociology
The department does not admit students whose objective is a master's degree. However, if a student accepted in the program does not have a master's degree, the department strongly recommends completion of the requirements for the MA in the course of work toward the PhD degree.

Bachelor's Degree
Health and Human Sciences (BA)
This degree is for individuals who desire the freedom and responsibility to design their own educational path. USC students, living in urban Los Angeles, have access to a myriad of research and volunteer experiences to complement their academic course work. The Health and Human Sciences major encourages the inquiry skills and knowledge needed to succeed in the evolving disciplines of health, science and medicine.

The field of health care, including medicine, pharmacy, dentistry and allied health providers, has changed so dramatically over the last 25 years that our traditional approach to training undergraduates has become obsolete. The traditional biology degree does not adequately prepare the student with the knowledge to pursue a career in health. Preparing for a career in health requires an interdisciplinary approach with a foundation of science. As stated by the Association of American Medical Colleges (AAMC), doctors must be able to appreciate the diverse populations they work with and "have a clear understanding of the impact of behavior on health." This requires understanding how psychological, cultural, social, economic, ethical and biological factors influence our lives and most importantly, our health.

The Health and Human Sciences curriculum combines all of the necessary science, social science, humanities and critical thinking concepts, as well as field experience, in order to educate a broadly thinking and prepared student. The major is designed so that every student will be able to choose a semester abroad program as a component of this major.

This major is open to all students. Students are not required to pursue a pre-health track to declare this major.

Lower-Division Core Requirements (20 Units)
- BISC 150Lgx The Nature of Human Health and Disease Units: 4 or
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- CHEM 105aLg General Chemistry Units: 4 or
- MATH 114x Foundations of Statistics Units: 4 or
- MATH 208x Elementary Probability and Statistics Units: 4
- PSYC 240gx Scientific Inquiry and Reasoning in Health Care Units: 4
- PSYC 336L Developmental Psychology Units: 4

Modules in the Human Sciences (16 Units)
Choose one module among the six below:

1. Health, Gender and Ethnicity
   - ANTH 125g Social Issues in Human Sexuality and Reproduction Units: 4 or
   - SWMS 225 Gender, Sex, and Science: A Gender Studies Approach Units: 4
   - ANTH 305 Childhood, Birth and Reproduction Units: 4
   - PSYC 462m Culture and Mental Health Units: 4
   - SWMS 336 Health, Gender and Ethnicity Units: 4

2. Health and the Mind
   - PSYC 100Lg Introduction to Psychology Units: 4
   - PSYC 336L Developmental Psychology Units: 4 or
   - PSYC 367g Stress, Health, and the Mind-Body Connection Units: 4
   - PSYC 360 Abnormal Psychology Units: 4

3. International Health
   - ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4 or
   - ANTH 105g Culture, Medicine and Politics Units: 4
   - IR 339 Public Health and International Relations Units: 4
   - IR 306 International Organizations Units: 4 or
   - IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
   - IR 382w Order and Disorder in Global Affairs Units: 4 or
   - SOCI 362 Global and Transnational Sociology Units: 4

4. Sociology of Health
   - ANTH 336 Health, Gender and Ethnicity Units: 4 or
   - IR 339 Public Health and International Relations Units: 4
   - SOCI 200gm Introduction to Sociology Units: 4 or
• SOCI 225gw Sociology of Health and the Body Units: 4
• SOCI 360m Social Inequality: Class, Status, and Power Units: 4
• SOCI 475 Medical Sociology Units: 4

5. Health and Aging
• GERO 320g Psychology of Adult Development Units: 4 or 4
• GERO 330 Society and Adult Development Units: 4
• GERO 340 Policy, Values, and Power in an Aging Society Units: 4 or 4
• GERO 437 Social and Psychological Aspects of Death and Dying Units: 2 or 4
• GERO 380m Diversity in Aging Units: 4 or 4
• GERO 435m Women and Aging: Psychological, Social and Political Implications Units: 4
• GERO 416 Health Issues in Adulthood Units: 4

6. Biology of Health
• HBIO 300 Evolution, Ecology, and Culture Units: 4
• HBIO 301L Human Anatomy Units: 4
• HBIO 302L Nutrition and Metabolism Units: 4 or 4
• BISC 450L Principles of Immunology Units: 4

• BISC 370L General Physiology Units: 4 or 4
• HBIO 420L Applied Human Physiology Units: 4

Experiential Learning Component (1-4 Units)
Choose one course from the list below:
• AMST 365 Leadership in the Community — Internship Units: 4
• GERO 495 Practicum in Geriatric Care Units: 4
• MDA 250 Internship for Liberal Arts: Work and Career — Theory and Practice Units: 1, 2
• POSC 395 Directed Governmental and Political Leadership Internship Units: 2, 3, 4, 5, 6, 7, 8
• SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum Units: 4
• SWMS 311 Gender Studies and the Community: Internship Units: 4

Upper-Division Electives (8 Units)
Choose two courses from the list below, or one from this list and one upper-division elective from a different module option that you have not completed.
• BISC 312x Molecular Biochemistry Units: 4 or 4
• CHEM 350g Molecular Principles of Biochemistry Units: 4
• BISC 325 Genetics Units: 4
• BISC 406L Biotechnology Units: 4
• BISC 421 Neurobiology Units: 4
• BISC 440 Biodemography of Aging Units: 4
• CHEM 322aL Organic Chemistry Units: 4
• HBIO 405 Evolutionary Medicine Units: 4
• HIST 330 Drugs, Disease, and Medicine in History Units: 4
• MDA 320 Global Ethics: Poverty, Health and the Human Condition Units: 4
• REL 460 Senior Seminar: Medical Ethics Units: 4
• PSYC 320 Principles of Psychology Units: 4
• PSYC 326 Behavioral Neuroscience Units: 4
• PSYC 337L Adult Development and Aging Units: 4
• PSYC 355 Social Psychology Units: 4
• SOCI 305m Sociology of Childhood Units: 4
• SOCI 331 Cities Units: 4
• SOCI 342m Race Relations Units: 4
• SOCI 369 The Family in a Changing Society Units: 4
• SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum Units: 4
• SSCI 340 Community Health Scan Units: 4

Total units required for the BA in Health and Human Sciences: 45-48
(at least 20 upper-division)

Non-Governmental Organizations and Social Change (BA)
This interdisciplinary program focuses on the roots of social conflict, on theories and methods for understanding them, and on the non-governmental organizations (NGOs) and nonprofits that address them. To remedy social problems, we need to examine their economic, political and social roots, as well as the varied forms of organizations that aim to fix them. Students will engage in various methods of analysis, from investigations of everyday interactions to explorations of larger economic, political and social structures. In classrooms and internships, students will learn how people in NGOs and nonprofits promote new forms of citizenship and governance, aiming to protect the environment and to lessen the suffering of people around the world.

The major requires nine courses (36 units) chosen from the specific lists of requirements below. As with all interdisciplinary majors, students may double-count no more than three courses from this degree to satisfy any other major.

Course Requirements
A. Lower division requirement
Choose one course (4 units) from the following list:
• AMST 252gm Black Social Movements in the U.S. Units: 4
• ECON 238sx Political Economy and Social Issues Units: 4
• ENST 150gx Environmental Issues in Society Units: 4
• ENST 255 American Environmentalism Units: 4
• ENST 270 Introduction to Environmental Law and Politics Units: 4
• GEOL 108Lg Crises of a Planet Units: 4
• IR 101gxw International Relations Units: 4
• IR 210gw International Relations: Introductory Analysis Units: 4
• IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
• IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
• MDA 250 Internship for Liberal Arts: Work and Career — Social and Political Implications Units: 4
• PHIL 141gp The Professions and the Public Interest in American Life Units: 4
• PHIL 337 History of Modern Political Philosophy Units: 4
• PSYC 355 Social Psychology Units: 4
• PSYC 355 Social Psychology Units: 4
• PSYC 355 Social Psychology Units: 4
• SOCI 225gw Sociology of Health and the Body Units: 4
• SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum Units: 4
• SWMS 311 Gender Studies and the Community: Internship Units: 4
• SWMS 215gp Gender Conflict across Cultural Contexts Units: 4

B. Core methods
Choose one course (4 units) from the following two:
• SOCI 313L Sociological Research Methods Units: 4
• SOCI 314L Analyzing Social Statistics Units: 4

C. Core theory
Choose one course (4 units) from the following four:
• PHIL 337 History of Modern Political Philosophy Units: 4
• PHIL 437 Social and Political Philosophy Units: 4
• POSC 380 Political Theories and Social Reform Units: 2 or 4
• SOCI 370 Sociological Theory Units: 4

D. Perspectives on NGOs
Choose one course (4 units) from the following three:
• IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
E. Analyzing and identifying roots of social conflict

Choose two courses (8 units):

- ANTH 355 Urban Anthropology: 4
- ANTH 316gmp North American Indians in American Public Life: 4
- ANTH 357g Cultures of Genocide: 4
- ANTH 371gm Cross-Cultural Research on Urban Gangs: 4
- ANTH 380 Sex and Gender in Anthropological Perspective: 4
- BISC 427 The Global Environment: 4
- ECON 340 Economics of Less Developed Countries: 4
- ECON 344 Economic Development of Sub-Saharan Africa: 4
- ECON 350 The World Economy: 4
- GERO 340 Policy, Values, and Power in an Aging Society: 4
- GERO 483 Global Health and Aging: 4
- HIST 323 The Holocaust in 20th Century Europe: 4
- HIST 372 Modern Latin America: 4
- IR 308w Economic Globalization: 4
- IR 315 Ethnicity and Nationalism in World Politics: 4
- IR 323 Politics of Global Environment: 4
- IR 324 Multinational Enterprises and World Politics: 4
- IR 325 North-South Relations in the Global Economy: 4
- IR 344 Developing Countries in World Politics: 4
- IR 349 International Law and Politics: 4
- IR 364 The Political Economy of Latin American Development: 4
- IR 367 Africa in International Affairs: 4
- PHIL 340 Ethics: 4
- POSC 320 Urban Politics: 4
- POSC 321 Urban Political Problems: 4
- POSC 345 International Law: 4
- POSC 347 Environmental Law: 4
- POSC 350 Politics of Latin America: 4
- POSC 363 Cities and Regions in World Politics: 4
- POSC 381 Sex, Power, and Politics: 4
- POSC 436 Environmental Politics: 4
- SOCI 362 Global and Transnational Sociology: 4
- SOCI 402 Human Trafficking: 4
- SOCI 429 Immigration, Work and Labor: 4
- SOCI 430m Work and the Workplace: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society: 4
- SOCI 460 Key Issues in Contemporary International Migration: 4
- SOCI 464 Sociology of Gender and Work: 4

Note:
*Prerequisite required

F. Addressing social conflict and organizing advocacy

Choose two courses (8 units):

- AMST 357m Latino Social Movements: 4
- BAEP 491 Introduction to Social Entrepreneurship: 4
- BUCO 485 Business Communication Management for Nonprofits: 4
- COMM 322 Argumentation and Advocacy: 4
- COMM 366 Designing Media and Communication Projects for Social Change: 4
- COMM 402 Public Communication Campaigns: 4
- COMM 412 Communication and Social Movements: 4
- COMM 413 Propaganda, Ideology and Public Controversy: 4
- COMM 487 Communication and Global Organizations: 4
- GERO 350 Administrative Problems in Aging: 2 or 4
- GERO 451 Policy and Program Development in Aging: 4
- IR 306 International Organizations: 4
- IR 318 Violent Conflict: 4
- IR 337 The Impact of Remittances on Development in Mexico: 4
- JS 360m Identity, Community, and Service: Jews and Other Americans: 4
- POSC 322 Applied Politics: 4
- PPD 318 Financial Accounting in Public and Nonprofit Organizations: 4
- PPD 353 Philanthropy and Social Change: 4
- SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy: 4
- SOCI 445 Political and Social Theory: 4
- SOCI 425 Crowds, Publics, and Social Movements: 4
- SOWK 350 Adolescent Gang Intervention: 4
- THTR 488m Theatre in the Community: 4

Note:
*Prerequisite required

G. Internship experience

One course (4 units) required

- SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum: 4

Total course requirements: 36 units

Sociology (BA)

Ten courses (40 units) are required to complete the major.

All sociology majors must complete the five core courses of sociology.

Core Courses

All sociology majors must complete five core courses of sociology.

- SOCI 200gm Introduction to Sociology: 4
- SOCI 313m Sociological Research Methods: 4
- SOCI 314Lg Analyzing Social Statistics: 4
- SOCI 325 Applied Social Research Methods: 4 or
- SSCI 301L Maps and Spatial Reasoning: 4
- SOCI 370 Sociological Theory: 4

300-level Electives

Three 300-level (or higher) courses are required for the major.

All students must achieve an overall average of C (2.0) or better in the 10 courses required for completion of the major.

- AMST 357m Latino Social Movements: 4
- JS 379gm Mixed and Matching: Intermarriage in the 21st Century: 4
- JS 382 Judaism as an American Religion: 4
- SOCI 305m Sociology of Childhood: 4
- SOCI 331 Cities: 4
- SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy: 4
- SOCI 342m Race Relations: 4
- SOCI 345 Social Institutions: 4
- SOCI 350 Social Exclusion, Social Power, and Deviance: 4
- SOCI 351 Public Policy and Juvenile Justice: 4
- SOCI 353 Public Policy and Criminal Justice: 4
- SOCI 355m Immigrants in the United States: 4
- SOCI 360m Social Inequality: Class, Status, and Power: 4
- SOCI 369 The Family in a Changing Society: 4
- SOCI 376m Contemporary Issues in Asian American Communities: 4
- SWMS 385m Men and Masculinity: 4

400-level Senior Seminars

Two 400-level (senior seminar) courses are required for the major.
All students must achieve an overall average of C (2.0) or better in the 10 courses required for completion of the major.

- REL 468 Sociology of Religion Units: 4
- SOCI 402 Human Trafficking Units: 4
- SOCI 408 Volunteers, Non-Governmental Organizations, and Everyday Pol Units: 4
- SOCI 425 Crowds, Publics, and Social Movements Units: 4
- SOCI 429 Immigration, Work and Labor Units: 4
- SOCI 435m Women in Society Units: 4
- SOCI 445 Political and Social Theory Units: 4
- SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum Units: 4
- SOCI 460 Key Issues in Contemporary International Migration Units: 4
- SOCI 464 Sociology of Gender and Work Units: 4
- SOCI 470 Social Change in Low-Income Countries Units: 4
- SOCI 480 The Sociology of Risk and Disaster Units: 4
- SOCI 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- SOCI 494 Sociology Honors Seminar I Units: 4
- SOCI 495 Sociology Honors Seminar II Units: 4
- SOCI 499 Special Topics Units: 2, 3, 4

Minor

Forensics and Criminality Minor

The interdisciplinary minor in forensics and criminality was designed for students interested in the study of law, deviant behavior or careers in the criminal justice system. In this program, students study psychological and/or ethical issues related to criminal behavior, consider criminality in the context of social class analysis, and learn about the American system of criminal justice. Twenty units are required, 4 at the lower-division and 16 at the upper-division level. Contact Dornsife College Advising for further details.

Students should choose a curriculum for their minor based on their academic interests. Those students interested in white collar crime, for example, might choose PSYC 100 Introduction to Psychology, PSYC 360 Abnormal Psychology, or PSYC 363 Criminal Behavior, or PSYC 365 Introduction to Forensic Psychology; those interested in black market crime might choose REL 375 Conflict and Change and the Ethics of Business, SOCI 350 Social Exclusion, Social Power, and Deviance, PHIL 340 Philosophy of Law and PPD 342 Crime and Public Policy.

Those who are interested in the criminal justice system might choose LAW 200x Law and Society, REL 341 Ethics in a Technological Society, SOCI 351 Public Policy and Juvenile Justice, PSYC 343 Constitutional Law and POSC 432 The Politics of Local Criminal Justice.

Those interested in individual and social determinants of deviancy might take PSYC 100 Introduction to Psychology, PSYC 360 Abnormal Psychology, or PSYC 363 Criminal Behavior, or PSYC 365 Introduction to Forensic Psychology; SOCI 360 Social Inequality: Class, Status, and Power, LAW 402 Psychology and Law and SOCI 353 Public Policy and Criminal Justice.

Lower-Division Requirement (4 Units)
- PHIL 340 Ethics Units: 4

Choose one course from:
- AMST 101gmw Race and Class in Los Angeles Units: 4
- LAW 200w Law and Society Units: 4
- POSC 130g Law, Politics and Public Policy Units: 4
- PSYC 100g Introduction to Psychology Units: 4
- PSYC 165Lg Drugs, Behavior and Society Units: 4
- SOCI 142gm Diversity and Racial Conflict Units: 4
- SOCI 150gm Social Problems Units: 4
- SOCI 200gm Introduction to Sociology Units: 4

Upper-Division Requirements (16 Units)

Choose one course from each group below:

The Individual in Society
- LAW 404 Law and Psychology: Examining the Criminal Justice Process Units: 4
- LING 412 Language and Law Units: 4

The System of Criminal Justice
- LAW 402 Psychology and Law Units: 4
- LAW 403 Mental Health Law Units: 4
- PHIL 430 Philosophy of Law Units: 4
- PHIL 437 Social and Political Philosophy Units: 4
- POSC 340 Constitutional Law Units: 4
- POSC 426 The United States Supreme Court Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- PPD 340 The American System of Justice Units: 4

Crime and Punishment
- POSC 342 Politics of Local Criminal Justice Units: 4
- PPD 342 Crime and Public Policy Units: 4
- SOCI 353 Public Policy and Criminal Justice Units: 4

Total requirements: five courses (20 units)

Managing Human Relations Minor

College Academic Services Building
(213) 740-2534
This interdisciplinary minor is intended for students in all schools with an interest in human relations as a subject of study or professional goal. In addition to course work in organizational behavior, social psychology and management, this minor includes attention to questions of ethics and leadership.

As with all minors, students must include at least four upper-division courses and four courses dedicated exclusively to this minor (not used for credit toward a major, another minor or general education requirements). Finally, students must select four courses outside their major department. Students seeking the Bachelor of Arts in Sociology must choose four courses outside of sociology; those seeking the Bachelor of Science in Business Administration must choose four courses outside the USC Marshall School of Business.

Requirements

Choose one course from the following (4 units):
- BUAD 304 Organizational Behavior and Leadership Units: 4
- PSYC 355 Social Psychology Units: 4

Choose one course from the following (4 units):
- MOR 431 Interpersonal Competence and Development Units: 4
- SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy Units: 4
- SOCI 342m Race Relations Units: 4
- SOCI 345 Social Institutions Units: 4
Choose one course from the following list of classes on leadership (4 units):
- CLAS 370 Leaders and Communities: Classical Models Units: 4
- IR 303 Leadership and Diplomacy Units: 4
- MDA 325 Case Studies in Modern Leadership Units: 2 or 4
- MDA 365 The Art and Adventure of Leadership Units: 4
- MOR 470 Global Leadership Units: 4 *
- PHL 335 Theoretical Models of Leadership Units: 4

Choose one course from the following list of classes on ethics (4 units):
- BUCO 425 Ethics and Professional Communication Units: 4 *
- MOR 421 Social and Ethical Issues in Business Units: 4 *
- PHL 340 Ethics Units: 4
- REL 341 Technology, Culture, and Ethics Units: 4

Choose one of the following three capstone classes (4 units):
- ECON 332 Contracts, Organizations and Institutions Units: 4 *
- ECON 471 Economics of Labor Markets and Human Capital Units: 4 *
- MOR 471 Managing and Developing People Units: 4
- SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy Units: 4

Note: *Course has prerequisite or corequisite

Total requirements: five courses, 20 units

Photography and Social Change Minor
This minor explores the potential of photography as an instrument of social change that allows individuals to document their circumstances, share their stories and change their lives. Students have the opportunity to examine the impact of images and the power of storytelling both in the classroom and in the field and study the issues raised by this kind of social exploration and commentary.

Students learn techniques of digital photography and theories of culture to help them understand diverse cultural phenomena and navigate their own cultural biases. In the field, students apply these techniques and theories by developing their own body of work. In addition, students can mentor individuals in the community to use photography and digital media to share their personal narratives, thus empowering community members to reflect critically upon their circumstances and to participate in their visual representation.

This interdisciplinary minor brings together students from schools and majors across the USC campus, allowing them to interact with one another and with scholars, artists and professionals associated with key organizations such as the Institute for Photographic Empowerment and Venice Arts.

Lower-Division Requirement
Select one course, based on prior preparation (4 units):
- AHIS 255g Culture Wars: Art and Social Conflict in the Modern World Units: 4
- ANTH 240gm Representing 9/11 and Hurricane Katrina Units: 4
- ART 151 Digital Photography Units: 4
- SOCI 240gm Representing 9/11 and Hurricane Katrina Units: 4

Upper-Division Requirements
Select two courses in each category below, from different departments (16 units):

Understanding Culture and Change
(8 units, in 2 courses — each from a different department)
- AMST 348m Race and Environmentalism Units: 4
- AMST 357m Latino Social Movements Units: 4
- COLT 303 Globalization: Culture, Change, Resistance Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- JS 330 Jewish Power, Powerlessness, and Politics in the Modern Era Units: 4
- MDA 325 Environmental Leadership Units: 4
- MDA 511 Cultural Diversity and the Law Units: 4
- REL 336 Re-viewing Religion in Asian America Units: 4
- REL 341 Modern Era of Feminism and the Law Units: 4
- SOCI 314Lg Analyzing Social Statistics Units: 4
- SOCI 361b Social Movements and Organizations Units: 4
- SOCI 470 Social Change in Low-Income Countries Units: 4

Note:
Students in this program will also have opportunities for special access to USC Annenberg's Public Diplomacy classes.

Total requirements: 20 units

Sociology Minor
Five courses (20 units) are required to complete the minor in sociology. All minors are required to take at least two of the core courses in sociology:

Core Courses
- SOCI 200m Introduction to Sociology Units: 4
- SOCI 313L Sociological Research Methods Units: 4
- SOCI 314Lg Analyzing Social Statistics Units: 4
- SOCI 370 Sociological Theory Units: 4

Note:
The remaining three courses may be chosen from among the upper-division courses in the two theme areas — social inequality, and social change and public policy (see sociology theme areas listed above).

Doctoral Degree

Sociology (PhD)

Course Requirements
A minimum of 60 graduate units is necessary for the PhD, among which are the following required courses: SOCI 510, SOCI 520, SOCI 521, SOCI 525, SOCI 511, and SOCI 621 or 620. In addition, each student must specialize in two subareas of sociology and must take at least 8 units in each area such as: urban sociology, complex organizations, stratification, ethnic relations, sociology of aging, medical sociology, communication and culture, deviance, sociology of gender, demography, and so on.

Screening Procedure
Normally, students must complete the screening procedure during the third semester of enrollment. Students will have completed two full semesters of work by this point and, hence, will have taken no fewer than 16 and no more than 32 units, including at least the following: SOCI 510, SOCI 525, and SOCI 511. Students are evaluated on subject matter competence and satisfactory progress. When the screening procedure is successfully completed, the student has one semester in which to form a qualifying exam committee.

Empirical Paper
Each student is required to complete an independent empirical research project which is approved by two members of his or her
qualifying exam committee. In some instances, this requirement may be met by acceptance of a satisfactory master's thesis from some other university.

**Foreign Language Requirement**

The department does not generally require proficiency in a foreign language; however, as with other courses outside the department, a student's qualifying exam committee may in some cases require proficiency in a foreign language.

**Qualifying Examinations**

Following the completion of their empirical papers and most of their course work, students are required to take a written and oral examination in their two standard areas. If the written examination is passed, the oral part of the examination can be devoted to a preliminary discussion of dissertation plans. When these are completed successfully, the student is advanced to PhD candidacy.

**Dissertation**

After the dissertation is completed, the student and the dissertation committee, in conjunction with the department chair, may elect either a defense oral or a final oral examination in defense of the dissertation. The defense oral is normally chosen in sociology.

### Sophomore Seminars

Sophomore Seminars focus on topics of current interest in research and scholarship. They are small classes that encourage close interaction between faculty and students.

During the fall and spring semesters, sophomores earn 2 units of credit through participation in these weekly seminars. During intensive special sessions, sophomores earn 1 unit of credit. These courses emphasize active exploration of the life of the mind through a variety of classroom activities and assignments.

### Spanish and Portuguese

The Department of Spanish and Portuguese offers two majors (Spanish, and Iberian and Latin American Cultures, Media and Politics) and three minors (Spanish, Luso-Brazilian Studies and Latin American Studies). Our programs emphasize the languages and cultures of Latin America and the Iberian Peninsula.

With an intellectual and pedagogical commitment to cultural differences and interdisciplinarity, the undergraduate program actively explores various social, theoretical, political or historical aspects of Latin American and Iberian cultures, including literature, folklore, cinema, art, music, food and architecture. Students are critically challenged and encouraged to consider and reconsider a number of important issues including: the growing importance of popular culture in the Iberian Peninsula and Latin America; the role of race, ethnicity, class, gender, and sexuality within Iberian and Latin American societies.

The department encourages students with a wide range of interests to combine a Spanish major with a double major or minor in another discipline either within the USC Dornsife College of Letters, Arts and Sciences or other schools at USC. Students will work closely with a group of engaged scholars who are committed to bringing their cutting-edge research to the classroom and to preparing students as global citizens. Faculty undergraduate advisers are available to help provide information and assistance to students wishing to explore these various options.

The department also offers basic language instruction in both Spanish and Portuguese through which students can satisfy their foreign language requirement.

*Emeritus Professors:* Paul Ilie, PhD; Carmen Silva-Corvalan, PhD*  
*Emeritus Associate Professor:* J. Ramón Araluce, PhD  
*Assistant Professor (Teaching) Emeritus:* Ana Teresa Martinez-Sequeira, PhD*  
*Recipient of university-wide or college teaching award.*

**Undergraduate Degrees**

### General Information

**Spanish Language Proficiency Examination**

Students with previous exposure to Spanish are required to take a placement test, administered by the Dornsife Language Center. Students with no record of previous exposure to Spanish are not required to take the placement examination and should contact the department for assistance.

**Courses in Spanish**

All courses at the 200, 300 and 400 levels are conducted in Spanish unless otherwise noted in the course descriptions that follow. Courses are kept small to allow for maximum interaction between students and professors.

**Advisement**

A college undergraduate adviser is assigned to provide academic advisement prior to registration and throughout the academic year.

**Honors Program**

The BA in Spanish with Honors is available to students who have a GPA of at least 3.5 in courses counted for major credit and an overall GPA of 3.0 (by the time of graduation). Desire to complete the major with honors typically should be approved by a department faculty member no later than the second semester of the junior year. To complete the honors program the student must write an honors thesis in Spanish in conjunction with a 400-level course. The thesis, in the range of 25–30 pages (6,250–7,500 words), must be endorsed by a departmental honors committee by April 1 of the senior year.
Spanish Undergraduate Students Association (SUSA)

Students majoring or minoring in Spanish are eligible to join SUSA, the Spanish Undergraduate Students Association. Each year SUSA sponsors a variety of activities which enrich the cultural, intellectual and academic experience of the undergraduate student.

Graduate Degrees

The PhD in Linguistics (Hispanic Linguistics) is offered through the Linguistics Department. See here for degree requirements. The MA and PhD, Comparative Studies in Literature and Culture (Spanish and Latin American Studies) are offered through the Comparative Studies in Literature and Culture program. See here for degree requirements.

Certificate in Foreign Language Teaching

The Certificate in Foreign Language Teaching provides certification in the theory and practice of second or foreign language teaching for student language teachers concurrently enrolled in graduate degree programs in foreign languages or related graduate programs at USC; for graduates of such programs who are teaching languages; for external candidates concurrently enrolled in similar programs in accredited colleges or universities; or for graduates of such programs who are teaching languages. The certificate is meant to supplement graduate study in the literature or linguistics of foreign languages. It is also meant to supplement classroom teaching. Therefore all candidates for this certificate are required to have taught a second or foreign language for at least one academic year at USC or elsewhere. At USC, this requirement and the course work requirements can be fulfilled concurrently, but external candidates are required to show proof of such teaching experience as a condition of admission.

In addition to teaching, certificate candidates must complete a minimum of four courses (minimum of 12 units) in four areas of study — linguistics, language acquisition, language teaching methodology, and the teaching of literacy or the literature or culture of a second or foreign language.

Requirements for Completion

The program consists of a practicum and a minimum of four courses: one each in linguistics, language acquisition, language teaching methods, and the teaching of literacy, literature or culture. Linguistics: (minimum of 3 units) LING 411 x Linguistics and Education or, with permission of instructor, an appropriate course in the linguistics of a particular language

Language Acquisition: (minimum of 3 units) LING 527 Second Language Acquisition or an appropriate alternative course

Language Teaching Methods: (minimum of 3 units) MDA 593 Practicum in Teaching the Liberal Arts or EALC 562 Teaching of the East Asian Languages or SPAN 511 Techniques and Procedures of Teaching Spanish as a Second Language or an appropriate alternative course

Literacy/Literature/Culture: (minimum of 3 units) An appropriate course in teaching of the literature or culture of a particular language

Bachelor's Degree

Latin American and Iberian Cultures, Media and Politics

The major in Latin American and Iberian Cultures, Media and Politics underscores the global reach and import of the nations in the Americas, Europe and Africa in which Spanish and Portuguese are spoken. By focusing on the study of language, literature and cinema as well other disciplines in the humanities and social sciences, students learn to think critically about the cultural, political, and historical questions involved in the study of Latin American and Iberian societies.

Lower Division Courses

Majors and minors may request a waiver of SPAN 260 if they meet one of the following prerequisites: a) a score of 5 on the Spanish language or literature advanced placement (AP) exam; b) a score of 6 or 7 on the Spanish International Baccalaureate Higher-Level exam (IBHL); c) a score of 800 in the Spanish SAT subject exam; or d) they can demonstrate advanced proficiency in spoken and written Spanish. Departmental approval is required in every case. Majors and minors to whom a waiver of SPAN 260 has been granted take five upper division courses (see below).

- SPAN 260 Advanced Spanish; Arts and Sciences Units: 4
- SPAN 290 Introduction to Latin American and Iberian Studies Units: 4

Upper Division Spanish and Portuguese Courses

Choose four of the following courses, including at least one 400-level course. Majors and minors to whom a waiver of SPAN 260 has been granted (see above) must take five upper division courses.

- PORT 300 Introduction to Social and Literary Studies Units: 4
- PORT 302 Introduction to Brazilian Literature Units: 4
- PORT 342 Brazilian Cinema Units: 4
- PORT 390 Special Problems Units: 1, 2, 3, 4 *
- SPAN 301 Introduction to Literature and Film Units: 4
- SPAN 302 Screen Cultures: From Film to the Internet Units: 4
- SPAN 304 The Art of Fiction Units: 4
- SPAN 306 Performance from Street to Stage Units: 4
- SPAN 308 The Art of Poetry Units: 4
- SPAN 311 Advanced Spanish Through Contemporary Issues: Oral Emphasis Units: 4
- SPAN 320 Politics, Thought, Society Units: 4
- SPAN 321 Sounds, Images, Objects Units: 4
- SPAN 341 Advanced Conversation and Culture Units: 4
- SPAN 350 Cultural Cross-Currents of the Iberian Middle Ages Units: 4
- SPAN 352 The Transatlantic Golden Age: New Worlds Real and Imagined Units: 4
- SPAN 373 Modern and Postmodern Spanish Fiction Units: 4
- SPAN 375 Latin American Cultural and Literary Theory Units: 4
- SPAN 380g Literature of Mexico Units: 4
- SPAN 381 Narco-World Units: 4
- SPAN 382 The Aesthetics of Violence in Latin America Units: 4
- SPAN 385 The Culture of Food in Hispanic Los Angeles Units: 4
- SPAN 390 Special Problems Units: 1, 2, 3, 4 *
- SPAN 391 Introduction to Contemporary Spanish Literature (USC Madrid Center) Units: 4
- SPAN 405 History of the Spanish and Portuguese Languages Units: 4
- SPAN 413m Social and Geographic Varieties of Spanish Units: 4
- SPAN 455 Picaresque Itineraries: Empire and Its Discontents Units: 4
- SPAN 460 Don Quijote: Text and Film Units: 4
- SPAN 462 Literary Cartographies of Latin America and Spain, 1810–1898 Units: 4
- SPAN 464 Introduction to Contemporary Spanish Theatre Units: 4
- SPAN 465 Cultural Perspectives of the Iberian Peninsula Units: 4
- SPAN 466 Argentina, Society and the Arts Units: 4
- SPAN 469 Immigration in Spain Units: 4
- SPAN 470 Literature and Media in Latin America Units: 4
- SPAN 471 Postdictatorship Spanish and Latin American Cinema Units: 4
- SPAN 472 The Sixties in Latin America Units: 4
- SPAN 480 Literature and Popular Culture Units: 4
- SPAN 482 Literature and the City Units: 4
- SPAN 483 Gender and Sexuality Units: 4
- SPAN 484 Studies in Visual and Material Culture Units: 4
- SPAN 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 *
• SPAN 495 Seminar for Majors and Minors Units: 4
• SPAN 499 Special Topics Units: 2, 3, 4 *

Note:
*Four units required.

Elective Courses
Choose three of the following courses, including at least two 300- or 400-level courses. Other courses, including courses in other departments, may be chosen in consultation with faculty adviser.
• AHIS 127g Arts of the Ancient Americas Units: 4
• AHIS 128g Arts of Latin America Units: 4
• AHIS 318 Arts of the Ancient Andes Units: 4
• AHIS 319 Mesoamerican Art and Culture Units: 4
• AHIS 328 Colonial Latin American Art Units: 4
• AHIS 428 Studies in Colonial Latin American Art Units: 4
• AHIS 496 Paintings in the Prado Museum Units: 4
• AMST 133g Religions of Latin America Units: 4
• AMST 135gsw Peoples and Cultures of the Americas Units: 4
• AMST 305 Art and Performance in the Americas Units: 4
• ANTH 140g Mesoamerican Cosmovision and Culture Units: 4
• ANTH 310 Archaeology of the Americas Units: 4
• ANTH 314g The Nature of Maya Civilization Units: 4
• ANTH 326m Culture Change and the Mexican People Units: 4
• ANTH 400 Maya Resilience: Constructing Past and Present Identities Units: 4
• ANTH 425 Peoples and Cultures of Latin America Units: 4
• ANTH 450 Field Research in Maya Archaeology Units: 4
• COLT 250g Cultures of Latin America Units: 4
• HIST 273g Colonial Latin America Units: 4
• HIST 353m Race and Racism in the Americas Units: 4
• HIST 371 Culture in Diaspora: The Jews of Spain Units: 4
• HIST 370 Spanish America, 1492–1821 Units: 4
• HIST 371 Culture in Diaspora: The Jews of Spain Units: 4
• HIST 372 Modern Latin America Units: 4
• HIST 374 History of Mexico Units: 4
• HIST 451 The Mexican Revolution Units: 4
• HIST 473 Colonial Latin America Seminar Units: 4
• HIST 474 Sex, Gender, and Colonialism in the Americas Units: 1492 to 1820 Units: 4, 2 years
• IR 364 The Political Economy of Latin American Development Units: 4
• IR 365 Politics and Democracy in Latin America Units: 4
• IR 365 Politics and Democracy in Latin America Units: 4
• IR 366 Mexico and its Relations with the United States Units: 4
• IR 425 The New Triangle: China, the U.S. and Latin America Units: 4
• IR 426 Contemporary Issues in Latin America Relations Units: 4
• IR 465 Contemporary Issues in Latin America Relations Units: 4
• IR 466b Contemporary Issues in Latin American Politics Units: 4
• PORT 250g Cultures of Brazil and Lusophone Africa Units: 4
• POSC 350 Politics of Latin America Units: 4
• POSC 430 Political Economy of Mexico Units: 4
• POSC 431 Political Economy of Central America Units: 4
• REL 334 Religion and Colonial Encounter Units: 4

Spanish (BA)

Required Course - Lower Division (4 Units)*
• SPAN 260 Advanced Spanish: Arts and Sciences Units: 4

Required Courses - Upper Division

Four of the following courses (16 Units):
• SPAN 301 Introduction to Literature and Film Units: 4
• SPAN 310 Structure of Spanish Units: 4
• One other SPAN literature, culture, film course Units: 4
• One 400-level SPAN course Units: 4

Electives (16 units):
Four other upper-division SPAN courses.

Note:
* Majors and minors may request a waiver of SPAN 260 if they meet one or more of the following prerequisites: a) a score of 5 on the Spanish language or literature advanced placement (AP) exam; b) a score of 6 or 7 on the Spanish International Baccalaureate Higher-Level exam (IBHL); c) a score of 800 in the Spanish SAT subject exam; or d) demonstrate advanced proficiency in spoken and written Spanish. Departmental approval is required in every case.

Minor

Latin American Studies Minor

The Latin American Studies minor recognizes the lasting importance of U.S.-Latin American relations. The overriding goal is to encourage students to learn more about Latin America by combining conceptual, area and language studies during their time at USC. The purpose of this 20-unit minor is to deepen students’ knowledge of Latin America by offering courses from multiple disciplines within a context of close faculty guidance. The gateway requirement of one 4-unit course provides the student with options in both humanities and the social sciences, and the designated electives are similarly meant to allow students to blend these specialties.

For fulfillment of the requirements for the minor a student must choose four courses outside of his or her major department dedicated exclusively to the minor (which may be the same four classes). After the gateway course, these elective courses must be spread across at least two disciplines and/or departments.

Required Courses

One of the following 4-unit gateway introductory courses:
• COLT 250g Cultures of Latin America Units: 4
• HIST 273g Colonial Latin America Units: 4
• HIST 372 Modern Latin America Units: 4
• IR 364 The Political Economy of Latin American Development Units: 4
• IR 365 Politics and Democracy in Latin America Units: 4
• POSC 350 Politics of Latin America Units: 4

Note:
If the student has chosen a lower-division (100- or 200-level) course among the introductory choices, all area electives must be at the upper-division (300- or 400-) level.

Elective Requirements

Four courses (16 units) from the following list:
• AHIS 127g Arts of the Ancient Americas Units: 4
• AHIS 128g Arts of Latin America Units: 4
• AHIS 318 Arts of the Ancient Andes Units: 4
• AHIS 319 Mesoamerican Art and Culture Units: 4
• AMST 446m Chicano and Latino Literature Units: 4
• ANTH 425 Peoples and Cultures of Latin America Units: 4
• COLT 250g Cultures of Latin America Units: 4
• ECON 340 Economics of Less Developed Countries Units: 4
• HIST 370 Spanish America, 1492–1821 Units: 4
• HIST 371 Culture in Diaspora: The Jews of Spain Units: 4
• HIST 372 Modern Latin America Units: 4
• HIST 451 The Mexican Revolution Units: 4
• HIST 456 Race, Slavery, and the Making of the Atlantic World Units: 4
• HIST 473 Colonial Latin America Seminar Units: 4
• HIST 474 Sex, Gender, and Colonialism in the Americas Units: 1492 to 1820 Units: 4, 2 years
• IR 364 The Political Economy of Latin American Development Units: 4
• IR 365 Politics and Democracy in Latin America Units: 4
• IR 408 Global Democratization Units: 4
• IR 426 Trade Policies in the Western Hemisphere Units: 4
Luso-Brazilian Studies Minor

The Luso-Brazilian Studies minor offers students the opportunity to further the study of the Portuguese language and take significant steps toward its mastery both as a richly layered expressive tool in the contexts of literary and cultural analysis and in the interpretation and articulation of critical thinking, as well as a highly effective instrument tailored to the practical needs of business interactions in a world that is increasingly more diverse and globalized.

Building on a solid basis of four semesters of Portuguese language (or equivalent), which serves as a prerequisite for the Luso-Brazilian Studies minor, students will have the opportunity to choose from a rich selection of core courses spanning cultural, literary and social aspects of the Portuguese-speaking world, as well as Portuguese applied to the context of professions. In addition to the core offerings, students will be able to choose from a wide array of electives in order to fulfill the required number of units for the Luso-Brazilian Studies minor, as well as have the opportunity to fulfill some of the requirements in one of the exciting Study Abroad options in Brazil.

The Luso-Brazilian Studies minor will require 20 units beyond the basic language requirements.

Required Courses (8-units): select two of the following three courses

- PORT 300 Introduction to Social and Literary Studies Units: 4
- PORT 302 Introduction to Brazilian Literature Units: 4
- PORT 316 Portuguese for Business and the Professions Units: 4

Elective Courses (12-units): select three from the following list

A total of 12-units of courses should be selected with the guidance of the director of the Luso-Brazilian Studies program. The following courses are among the elective options:

- PORT 342 Brazilian Cinema Units: 4
- SPAN 372 Modern and Contemporary Latin American Fiction Units: 4
- SPAN 405 History of the Spanish and Portuguese Languages Units: 4
- SPAN 482 Literature and the City Units: 4

Note:

Study Abroad courses and courses offered by other departments at USC may also count as elective options, as long as a Portuguese-speaking country and/or the Lusophone world is among the objects of study. (The following list of courses is subject to change, according to course availability.)

- AMST 353m Race and Racism in the Americas Units: 4
- ANTH 425 Peoples and Cultures of Latin America Units: 4
- HIST 372 Modern Latin America Units: 4
- HIST 456 Race, Slavery, and the Making of the Atlantic World Units: 4
- IR 364 The Political Economy of Latin American Development Units: 4
- IR 365 Politics and Democracy in Latin America Units: 4
- IR 425 The New Triangle: China, the U.S. and Latin America Units: 4
- IR 465 Contemporary Issues in United States-Latin America Relations Units: 4
- IR 466 Contemporary Issues in United States-Latin America Relations Units: 4
- PORT 350 Politics of Latin America Units: 4
- SOCI 470 Social Change in Low-Income Countries Units: 4

Spanish Minor

Required Courses

Lower-Division (4 Units)

- SPAN 260 Advanced Spanish: Arts and Sciences Units: 4

Upper-Division (20 Units)

- Any five courses at the 300 or 400 level.
- Only one section of SPAN 316x may be taken for minor credit.

Note:

Minors may request a waiver of SPAN 260 if they meet one or more of the following prerequisites: a) a score of 5 on the Spanish language or literature advanced placement (AP) exam, b) a score of 6 or 7 on the Spanish International Baccalaureate Higher-Level exam (IBHL), c) a score of 800 in the Spanish SAT subject exam or d) demonstration of advanced proficiency in spoken and written Spanish. Departmental approval is required in every case.

Spatial Sciences Institute

Since its founding in 2010, the USC Spatial Sciences Institute has been using the power of spatial thinking and literacy – the ability to connect place and space – to help address global challenges. Through its innovative academic programs and research enterprise, the Spatial Sciences Institute educates and cross-trains scholars at every higher-educational level to expand our ability to collect, analyze, model, present and share location-based data and information in support of policies and decisions that help sustain our planet, promote public health and ensure human security.

Spatial Sciences Institute students work in the field, studio and lab with an internationally-recognized faculty who are contributing to the rapidly-evolving body of geospatial knowledge. Student researchers in the Spatial Sciences Institute join its interdisciplinary faculty on their funded research with agencies, businesses, nonprofits, NGOs and other entities to produce actionable impact. The Spatial Sciences Institute provides numerous opportunities for internships, conference paper and poster presentations and networking, so its students are poised for geospatial careers, which are among the fastest-growing in the United States and world today, and other endeavors.

The Spatial Sciences Institute has been designated by the National Geospatial-Intelligence Agency and the United States Geological Survey as a Center of Academic Excellence in Geospatial Sciences, is a founding member of the UNIGIS International Association, a network of universities around the world that lead and share in the development of online GIS education program, and is an Esri Education Development Center.

Director: John P. Wilson, PhD
Managing Director: Susan Kamei, JD
Faculty

Professors: Francois Bar, PhD (Communication); Myles Cockburn, PhD (Preventive Medicine); Elizabeth Currid-Hall, PhD (Public Policy); Maged Dessouky, PhD (Industrial and Systems Engineering); Philip Ethington, PhD (History); Sofia Gruskin (Preventive Medicine); Matthew E. Kahn, PhD (Economics); Cyrus Shahabi (Computer Science); Kelly Shannon, PhD (Architecture); John P. Wilson, PhD (Sociology)*

Associate Professors: Jennifer Hook, PhD (Sociology); Lon Kurashige (History); Mansour Rahimi, PhD (Industrial and Systems Engineering)

Assistant Professors: Jennifer Ailshire, PhD (Gerontology); George Ban-Weiss, PhD (Civil & Environmental Engineering); Laura Ferguson (Preventive Medicine); Meredith Franklin, PhD (Preventive Medicine); Travis R. Longcore, PhD (Architecture); Ann Owens, PhD (Sociology); Nathan Perl-Rosenthal, PhD (History); Alexander Robinson, PhD (Architecture); Kelly Sanders (Civil & Environmental Engineering); Emily Smith-Greenaway, PhD (Sociology)

Professors of the Practice of Spatial Science: Steven D. Fleming, PhD; Karen K. Kemp, PhD

Professors (Research): Brian Finch, PhD (Sociology); Yolanda Gil, PhD (Computer Science); Craig Knoblock, PhD (Computer Science)

Associate Professors (Research): Yao-Yi Chiang, PhD; Tatiana Tatarinova, PhD (Pediatrics)

Associate Professors (Teaching): Darren M. Ruddell, PhD; Jennifer N. Swift, PhD

Assistant Professors (Teaching): Thomas Garrison, PhD (Anthropology); Katsuhiko Oda, PhD; Robert O. Vos, PhD

Lecturers: Su Jin Lee, PhD; Laura Loyola, PhD; Elisabeth Sedano, PhD; An-Min Wu, PhD

*Recipient of university-wide or college teaching award.

Degree Programs

The Spatial Sciences Institute offers a Bachelor of Science in GeoDesign (with the USC School of Architecture and USC Price School of Public Policy), minors in Human Security and Geospatial Intelligence and in Spatial Studies, an online Master of Science and a Graduate Certificate in Geographic Information Science and Technology as well as online Graduate Certificates in Geospatial Intelligence and Geospatial Leadership, a Master of Science in Spatial Informatics (with the Department of Computer Science), a Doctor of Philosophy in Population, Health and Place (with the Departments of Preventive Medicine and Sociology), and a Graduate Certificate in Spatial Analytics.

All of the programs and courses offered by the Spatial Sciences Institute explore the various ways in which space is used to acquire, represent, organize, analyze, model and visualize information. They seek to engage students enrolled in a range of academic programs in the natural and social sciences, the humanities and the professional schools.

Undergraduate Degrees

The BS in GeoDesign is an interdisciplinary major that includes curriculum from the Dornsife College of Letters, Arts and Sciences, the USC School of Architecture and the USC Price School of Public Policy. This degree treats planning as a globally relevant framework for collective action, the spatial sciences as a platform for supporting science-based decision-making, and design as a vehicle for solving the world’s wicked problems. With a broad base of knowledge from these disciplines around a liberal arts core, GeoDesign majors are poised for graduate studies and professional opportunities in the public, private and not-for-profits sectors, including urban planning, geographic information science and technology, real estate development, community health and preventive medicine. GeoDesign majors may take advantage of USC’s progressive degree path to obtain a BS in GeoDesign with an MA in Environmental Studies, a Master of Planning, or an MS in Geographic Information Science and Technology in as few as five years.

Honors Program

Candidates for the BS in GeoDesign can qualify for graduation with departmental honors by meeting these requirements: a 3.7 GPA in the courses counted toward the major at the time of graduation and completion of a research project or thesis under the guidance of a faculty member teaching the capstone course SSCI 412. In addition, students must receive an A or A- in the capstone SSCI 412 course. Departmental honors are noted on academic transcripts but not on the diploma.

Minors

The undergraduate minor in Spatial Studies can be combined with any major and provides the scientific understanding and technical skills in geographic information science, mapping and geospatial interpretation. Graduates with competencies in spatial sciences have competitive edges in sectors such as finance, healthcare, retail, logistics, communications, manufacturing and conservation.

The undergraduate minor in Human Security and Geospatial Intelligence educates future leaders in location-based analytics to gather, interpret and implement actionable intelligence to promote human security. In combination with any major, this minor helps position graduates for career paths and/or graduate education in areas such as humanitarian relief, law enforcement, national security and defense.

Graduate Degrees

The online Graduate Certificate in Geographic Information Science and Technology provides the foundation for professional advancement utilizing geographic information science and the latest geospatial technologies. The online Graduate Certificate in Geospatial Intelligence is accredited by the U.S. Geospatial Intelligence Foundation, and develops career readiness for those interested in the human security applications of geographic information science and technology. The online Graduate Certificate in Geospatial Leadership is for individuals with some training and experience looking to increase their potential for advancement in the geospatial field. In addition, all of these online graduate certificates may be taken by USC master’s and doctoral students in other disciplines.

The online MS in Geographic Information Science and Technology provides state-of-the-art education in core geographic information science and accompanying applications. Students may choose among four tracks: Spatial Data Acquisition and Integration; Spatial Data Analysis and Visualization; Spatial Application Development; and Spatial Thinking.

The courses in the online Graduate Programs in Geographic Information Science and Technology are offered year-round and students can start these programs in the fall, spring or summer semesters. Students in the online Master of Public Health program offered by the Keck School of Medicine of USC can complete a GeoHealth track by completing four spatial sciences concentration courses offered by the Spatial Sciences Institute. Students interested in this GeoHealth track should contact the Master of Public Health program in the Department of Preventive Medicine.

In the Spatial Informatics (MS), offered jointly with the USC Viterbi School of Engineering Department of Computer Science, individuals with either a computer science or social sciences background can learn about spatial data and analytics across many domains in which informatics skills can be applied to critical organization missions and real-world challenges. Those interested in the MS in Spatial Informatics should contact the Department of Computer Science.

The Graduate Certificate in Spatial Analytics provides USC doctoral students with customized opportunities to learn about the fundamental geographic information science principles and a series of rapidly evolving geospatial technologies that take advantage of the Cloud and the Web along with advances in analytical techniques, modeling tools and online geographic data sources. The learning goals and outcomes in the courses that contribute to this certificate
can be customized to match the student's disciplinary interests and research objectives.

In the interdisciplinary Population, Health and Place PhD program, faculty from the USC Dornsife Department of Sociology, the Department of Preventive Medicine of the Keck School of Medicine of USC, and the USC Dornsife Spatial Sciences Institute provide training for careers in research, teaching and applied work with large data sets and varied modeling and computation approaches in epidemiology, demography, biostatistics, sociology, medical geography, spatial sciences and other fields.

PhD Admission Requirements

The courses required for admission are an introductory geography or sociology course, a course in statistics, a course in research methods or experimental design and at least one course from each of the following lists: (1) one or more of social demography, society and population, medical sociology; (2) one or more of cartography, human geography, medical geography, spatial analysis; and (3) one or more of climatology, hydrology, environment and health. Additional courses are desirable, as is work in the biological, physical and social sciences, mathematics and in the humanities. Students with less background in public health, sociology or the spatial sciences, but outstanding undergraduate records in related fields are also encouraged to apply.

Students are selected on the basis of undergraduate records, scores on the Graduate Record Examinations’ General Test, course background, three letters of evaluation, personal statement of interests and goals, and evidence of research skills or interests (e.g., publications or participation in research projects).

Application for admission to the PhD Program in Population, Health and Place requires submission of two sets of material: special program forms and university application forms. Students are admitted only for study beginning in the fall semester; both sets of completed application forms must be submitted by December 1 for admission the following fall.

Degree Requirements

These degrees are under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor’s Degree

GeoDesign (BS)

The Bachelor of Science in GeoDesign is an interdisciplinary major offered by the Dornsife College of Letters, Arts and Sciences, the USC School of Architecture, and the USC Price School of Public Policy. This degree prepares students for professional careers and/or graduate study by engaging them in the acquisition, representation, analysis, modeling and visualization of spatial information set in the context of the built environment and policy. The underlying spatial principles, methods and tools can be used to support sustainable planning, facility and infrastructure management, the design of livable and healthy communities, and a series of regional planning applications to address pollution, water and energy needs, and the impact of population growth on the environment. The major electives provide students with opportunities to explore one or more facets of the built environment and a series of complementary analytical and visualization tools in more detail. Finally, the major is structured to provide students with sufficient elective credits to explore minors or other programs at USC so they can broaden their education to better prepare themselves for the next stage of their lives.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires six courses in different categories, plus writing and diversity requirements, which together comprise the USC Core.

Major Requirements

A minimum grade of C, 2.0 (A = 4.0) must be earned in each of the core courses and the capstone course. In addition, a minimum grade point average of C (2.0) or higher must be achieved in the major to earn the geodesign degree. No more than 16 units of core courses may be taken prior to the successful completion of the geodesign pre-major requirements.

Pre-major Requirements

Both pre-major requirements must be taken for a letter grade and a minimum grade of C, 2.0 (A = 4.0), must be earned in each of the pre-major courses.

Pre-Major Courses (8 Units)

• ECON 203g Principles of Microeconomics Units: 4
• MATH 114x Foundations of Statistics Units: 4

Core Courses + Capstone Course (48 Units)

• ARCH 203 Visualizing and Experiencing the Built Environment Units: 4
• ARCH 303 Principles of Spatial Design I Units: 4
• ARCH 403 Principles of Spatial Design II Units: 4
• PPD 227 Urban Planning and Development Units: 4
• RED 417 History of Planning and Development Units: 4
• RED 425 Designing Livable Communities Units: 4
• SSCI 314L Analyzing Social Statistics Units: 4
• SSCI 201 Principles of GeoDesign Units: 4
• SSCI 301L Maps and Spatial Reasoning Units: 4
• SSCI 382L Principles of Geographic Information Science Units: 4
• SSCI 412L GeoDesign Practicum Units: 4 (capstone course)
• SSCI 483L Spatial Science Practicum Units: 4

Additional Requirements

Capstone Course

All students will take four units of a capstone experience during their senior year. This may be fulfilled by taking SSCI 412L GeoDesign Practicum (4 units) which may be offered by any of the three units cross-listed (SSCI, ARCH, PPD) and will require students to use their knowledge and skills on a real project with a real client.

Major Electives (24 Units)

A suite of courses that further the development of practical, theoretical, and field knowledge and skills, including computer graphics, drawing, policy analysis, public finance, and statistics. Choose additional electives from the two lists equal to at least six courses (24 units) in all. At least two courses must come from Group A and two courses from Group B.

Group A: Built Environment

• ARCH 306m Shelter Units: 4
• ARCH 447 Ecological Factors in Design Units: 3
• ENST 323 Politics of Global Environment Units: 4
• ENST 345 Conservation of Natural Resources Units: 4
• HIST 458 History of California Units: 4
• POCS 363 Cities and Regions in World Politics Units: 4
• PPD 361 Sustainable Communities, Policy and Planning Units: 4
• PPD 360 Urban Transportation Planning and Policy Units: 4
• PPD 410 Comparative Urban Development Units: 4
• SOCI 335 Society and Population Units: 4
• SSCI 165Lw Sustainability Science in the City Units: 4
• SSCI 214g Human Populations and Natural Hazards Units: 4
• SSCI 265Lg The Water Planet Units: 4
• SSCI 350 International GeoDesign Units: 4

Group B: Design, Analysis And Computation

• ANTH 481L GIS for Investigating the Past Units: 4
• ARCH 307 Digital Tools for Architecture Units: 3
• DES 102 Design Fundamentals Units: 4
• ENST 387 Economics for Natural Resources and the Environment Units: 4
• HIST 393g Quantitative Historical Analysis Units: 4
• IR 323 Politics of Global Environment Units: 4
• POSC 265gw Environmental Challenges Units: 4
• POSC 363 Cities and Regions in World Politics Units: 4
• POSC 436 Environmental Politics Units: 4
• PPD 306 Visual Methods in Policy, Management, Planning and Development Units: 4
• PPD 427L Geographic Information Systems and Planning Applications Units: 4
• SOCI 365 Visual Sociology of the City and Its Residents Units: 4
• SSCI 135Lg Maps in the Digital World Units: 4

Additional Requirements

Honors

Candidates for the BS in GeoDesign can receive an honors degree by meeting these requirements: a 3.7 GPA in department courses at the time of graduation; completion of an honors research project or thesis under the guidance of a faculty member (SSCI 412L). Admission to the program is granted by the departmental undergraduate adviser in the semester preceding enrollment in SSCI 412L; students should have a 3.7 GPA in the major at this time.

Minor

Human Security and Geospatial Intelligence Minor

The interdisciplinary minor in Human Security and Geospatial Intelligence aims to educate future leaders in location-based analytics to gather, interpret, and implement actionable intelligence to promote human security and serve to connect many collaborative and interrelated disciplines to provide a framework for students interested in learning how to develop and deliver analytical and spatial solutions.

Lower-Division Elective (4 units)

• ENST 100g Introduction to Environmental Studies Units: 4
• GEOL 108Lg Crises of a Planet Units: 4
• IR 100gx The United States and World Affairs Units: 4
• IR 101gw International Relations Units: 4
• IR 210gw International Relations: Introductory Analysis Units: 4
• POSC 100g Principles of Global Environment Units: 4
• POSC 120 Comparative Politics Units: 4
• POSC 130g Law, Politics and Public Policy Units: 4
• POSC 248gw Human Rights Units: 4
• POSC 255g Cultures, Civilizations and Ethnicities in World Politics Units: 4
• POSC 260 Global Ethnic Politics Units: 4
• SSCI 135Lg Maps in the Digital World Units: 4
• SSCI 165Lgw Sustainability Science in the City Units: 4
• SSCI 214gw Human Populations and Natural Hazards Units: 4
• SSCI 265Lg The Water Planet Units: 4

Required Core (12 units)

• IR 381 Introduction to International Security Units: 4
• SSCI 301L Maps and Spatial Reasoning Units: 4
• SSCI 401L Maps and Spatial Reasoning Units: 4

Upper-Division Elective (4 units)

• AEST 400a Aerospace Studies IV: National Security Forces in Contemporary American Society Units: 3
• AEST 400b Aerospace Studies IV: National Security Forces in Contemporary American Society Units: 3
• IR 304 Espionage and Intelligence Units: 4
• IR 319 Human Security and Humanitarian Intervention Units: 4
• IR 386 Terrorism and Counterterrorism Units: 4
• MDES 314p Political Thought in the Middle East Units: 4
• MS 401 Leadership and Management I Units: 3
• MS 402 Leadership and Management II Units: 3
• NSC 453 Leadership and Management I Units: 2
• NSC 454 Leadership and Management II Units: 2
• POSC 351 Middle East Politics Units: 4
• SSCI 382L Principles of Geographic Information Science Units: 4

Note:

ROTC courses (AEST, MS, NSC) are not open to non-ROTC students.

Spatial Studies Minor

The spatial studies minor requires a minimum of 20 units, consisting of one lower-division elective, three required courses and an upper-division elective. The minor offers students an opportunity to examine some of the major challenges of the 21st century (climate change, human health and sustainability, urbanization and cultural homogenization, among others) through a spatial lens.

Required Courses (12 Units)

• SSCI 301L Maps and Spatial Reasoning Units: 4
• SSCI 382L Principles of Geographic Information Science Units: 4
• SSCI 483L Spatial Science Practicum Units: 4

Lower-Division Electives (4 Units)

• ANTH 201g Principles of Human Organization Units: 4
• ANTH 202g Archaeology: Our Human Past Units: 4
• ARCH 105gw Visual Sociology of the City and Its Residents Units: 4
• ARCH 114 Architecture: Culture and Community Units: 2
• ARCH 220 The Architect's Sketchbook Units: 2
• BISC 102Lg Humans and Their Environment Units: 4
• BISC 140 Our Blue Planet in a Changing Climate Units: 4
• CLAS 212 Archaeology: Interpreting the Past Units: 4
• GEOL 108Lg Crises of a Planet Units: 4
• GEOL 150Lgw Climate Change Units: 4
• HIST 240gw The History of California Units: 4
• JOUR 422 Advanced Visual Journalism Units: 4
• POSC 248gw Human Rights Units: 4
• SOCI 100gm Los Angeles and the American Dream Units: 4
• SOCI 248gw Human Rights Units: 4
• SSCI 265Lg The Water Planet Units: 4
• SSCI 382L Principles of Geographic Information Science Units: 4
• SSCI 165Lgw Sustainability Science in the City Units: 4

Upper-Division Electives (4 Units)

• ANTH 481L GIS for Investigating the Past Units: 4
• ARCH 432 People, Places and Culture: Architecture of the Public Realm Units: 4
• IR 319 Human Security and Humanitarian Intervention Units: 4
• JOUR 422 Advanced Visual Journalism Units: 4
• PPD 306 Visual Methods in Policy, Management, Planning and Development Units: 4
• PPD 427L Geographic Information Systems and Planning Applications Units: 4
• SOCI 314Lgw Social Statistics Units: 4
• SOCI 365 Visual Sociology of the City and Its Residents Units: 4
• SSCI 397 Spatial Sciences Internship Units: 2, 3, 4

Master's Degree

Geographic Information Science and Technology (MS)

AHF B55B
(213) 740-8298
Email: watsonke@usc.edu
Director: John P. Wilson, PhD

The online MS in Geographic Information Science and Technology requires 28 units of graduate work and provides state-of-the-art training in the core geographic information technologies (geographic information systems, global positioning systems and remote sensing, among others) and the underlying scientific principles and concepts that guide their design and use. The individual courses incorporate multiple curricular pathways.
tailored to the increasingly diverse backgrounds, occupations and applications that rely on geospatial data, analysis and visualization.

**Course Requirements**

Twenty-eight units of graduate work are required.

**Core Courses (16 Units)**
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 582 Spatial Databases Units: 4
- SSCI 587 Spatial Data Acquisition Units: 4
- SSCI 594a Master's Thesis Units: 2
- SSCI 594b Master's Thesis Units: 2

**Electives (12 Units)**
- SSCI 583 Spatial Analysis Units: 4
- SSCI 584 Spatial Modeling Units: 4
- SSCI 585 Geospatial Technology Project Management Units: 4
- SSCI 586 GIS Programming and Customization Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4
- SSCI 589 Cartography and Visualization Units: 4
- SSCI 591 Web GIS Units: 4
- SSCI 592 Mobile GIS Units: 4
- SSCI 593 Geospatial Data Integration Units: 4

**Additional Requirements**

All electives are chosen in direct consultation with the student's academic adviser based on background, academic interests, etc.

The courses in this program are open to students living and/or working anywhere, including students at USC's Los Angeles, Orange County, Sacramento and Washington, D.C. centers. The master's program can be completed in two to three years as long as students take one or two courses in each of the fall, spring and summer semesters. Continuous enrollment in the fall, spring and summer terms is required in this program, including SSCI 594a, SSCI 594b and SSCI 594z summer registration.

**Admission Requirements**

Four groups of students are served by this program:

1. New students who wish to apply directly to the geographic information science and technology master's program.
2. Students currently enrolled in the geographic information science and technology graduate certificate program since this certificate program may serve as a possible "stepping stone" toward the master's program.
3. Students currently matriculated in a USC master's or doctoral degree program.
4. USC undergraduate students who want to stay for a fifth year and earn both bachelor's and master's degrees.

Candidates for admission among the first two groups of students must have: (1) a BA or BS degree or its international equivalent; (2) a minimum 3.0 GPA (A = 4.0). All course work taken at the undergraduate level is used to calculate the GPA. Exceptions will be made in cases of very high GRE scores or some other compelling evidence of potential to excel in graduate studies (e.g., outstanding letters of recommendation). Preference will be given to candidates with significant professional experience working with geographic information systems and related geospatial technologies.

**Application Procedures**

Applicants are required to submit the following documents: (1) completed application for admission, which can be found online at usc.edu/admission/graduate; (2) statement of purpose; (3) a writing sample; (4) official transcripts from all schools previously attended; (5) two letters of recommendation; and (6) results of the GRE General Test. International students must submit TOEFL scores with a minimum score of 100 on the Internetbased examination, or an IELTS score of 7.

The statement of purpose should be uploaded into the online application. This statement should: (1) describe the student's motivation, field of interest and career goals; and (2) identify potential projects that the student might pursue for the master's thesis project.

The master's program utilizes rolling admissions and enrollment based on the standard academic calendar. This means that students may start the program in either the fall, spring or summer semesters.

Those interested in learning more about this program should contact Ken Watson, University of Southern California, 3616 Trousdale Parkway, AHF B55B, Los Angeles, CA 90089-0374.

**University Certificate**

**Geographic Information Science and Technology Graduate Certificate**

AHF B55B
(213) 740-8298
Email: watsonke@usc.edu
Director: John P. Wilson, PhD

The online Graduate Certificate in Geographic Information Science and Technology requires 16 units of graduate work and provides state-of-the-art training in some of the core geographic information science technologies and the underlying scientific principles and concepts that guide their design and use.

**Course Requirements**

Sixteen units of graduate work are required.

**Core Courses (12 Units)**
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 582 Spatial Databases Units: 4
- SSCI 587 Spatial Data Acquisition Units: 4

**Electives (4 Units)**
- SSCI 583 Spatial Analysis Units: 4
- SSCI 584 Spatial Modeling Units: 4
- SSCI 586 GIS Programming and Customization Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4
- SSCI 589 Cartography and Visualization Units: 4
- SSCI 591 Web GIS Units: 4
- SSCI 592 Mobile GIS Units: 4
- SSCI 593 Geospatial Data Integration Units: 4

**Note:**

The online Graduate Certificate in Geographic Information Science and Technology master's degree program. Continuous enrollment in the fall, spring and summer terms is required in this program.

**Geospatial Intelligence Graduate Certificate**

AHF B55B
(213) 740-8298
Email: watsonke@usc.edu
Director: John P. Wilson, PhD

The online Graduate Certificate in Geospatial Intelligence requires 16 units of graduate work and provides state-of-the-art training in some of the core geospatial technologies and the underlying scientific concepts and analytical methods that guide their design and use to solve a variety of human security problems and challenges.

**Course Requirements**

Sixteen units of graduate work are required.

**Core Courses (8 Units)**
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4

**Electives (4 Units)**
- SSCI 583 Spatial Analysis Units: 4
- SSCI 584 Spatial Modeling Units: 4
- SSCI 586 GIS Programming and Customization Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4
- SSCI 589 Cartography and Visualization Units: 4
- SSCI 591 Web GIS Units: 4
- SSCI 592 Mobile GIS Units: 4
- SSCI 593 Geospatial Data Integration Units: 4
Capstone Course (4 units)
- SSCI 579 Geospatial Intelligence Tradecraft Units: 4

Note:
The courses in this program are open to students living and/or working anywhere, including students at USC's Los Angeles, Orange County, Sacramento and Washington, D.C. centers. The certificate program can be completed in as few as two and no more than four semesters depending on the numbers of courses taken in each of the fall, spring and summer semesters. The graduate certificate program can serve as a possible "stepping stone" toward the geographic information science and technology master's degree program. Continuous enrollment, including summer, is required.

Geospatial Leadership Graduate Certificate
AHF B55B
(213) 740-8298
Email: watsonke@usc.edu
Director: John F. Wilson, PhD

The online Graduate Certificate in Geospatial Leadership requires 16 units of graduate work. The capstone course focuses on the cultivation of leadership skills and practices, and the electives afford students the opportunity to strengthen their knowledge of selected geospatial technologies, the underlying scientific concepts and analytical methods, and the ways they can be used in decision-making.

Course Requirements
Sixteen units of graduate work are required.

Core Courses (4 Units)
- SSCI 578 The Practice of Geospatial Leadership Units: 4

Electives (12 Units)
- SSCI 579 Geospatial Intelligence Tradecraft Units: 4
- SSCI 583 Spatial Analysis Units: 4
- SSCI 584 Spatial Modeling Units: 4
- SSCI 585 Geospatial Technology Project Management Units: 4
- SSCI 586 GIS Programming and Customization Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4
- SSCI 589 Cartography and Visualization Units: 4
- SSCI 591 Web GIS Units: 4
- SSCI 592 Mobile GIS Units: 4
- SSCI 593 Geospatial Data Integration Units: 4

Additional Requirements
The courses in this program are open to students living and/or working anywhere, including students at USC's Los Angeles, Orange County, Sacramento and Washington, D.C. centers. The certificate program can be completed in as few as two and no more than four semesters depending on the numbers of courses taken in each of the fall, spring and summer semesters. Continuous enrollment, including summer, is required.

Admission Requirements
Two groups of students are served by this program:
1. New students who wish to apply directly to one of the spatial sciences graduate certificate program.
2. Students currently matriculated in a USC master’s or doctoral degree program (other than the MS in geographic information science and technology).

Candidates for admission among the first group of students must have: (1) a BA or BS degree or its international equivalent; (2) a minimum 3.0 GPA (A = 4.0) undergraduate GPA. All course work taken at the undergraduate level is used to calculate the GPA. Exceptions will be made in cases of very high GRE scores or some other compelling evidence of potential to excel in graduate studies (e.g., outstanding letters of recommendation). Preference will be given to candidates with significant professional experience working with geographic information systems and related geospatial technologies.

Application Procedures
Applicants are required to submit the following documents: (1) completed application for admission, which can be found online at usc.edu/admission/graduate; (2) statement of purpose; (3) official transcripts from all schools previously attended. International students must submit TOEFL scores with a minimum score of 100 on the Internet-based examination, or an IELTS score of 7.

The graduate certificate program utilizes rolling admissions and enrollment based on the standard academic calendar. This means that students may start the program in either the fall, spring or summer semesters.

Those interested in learning more about this program should contact Ken Watson, University of Southern California, 3616 Trousdale Parkway, AHF B55B, Los Angeles, CA 90089-0374.

Spatial Analytics Graduate Certificate
AHF B56C
(213) 740-8298
Email: watsonke@usc.edu
Director: John P. Wilson, PhD

The Graduate Certificate in Spatial Analytics requires 12 units of graduate work and provides doctoral students with an opportunity to learn about the fundamental guiding principles (i.e., spatial cognition, positioning, spatial representations and data models, map projections and datums, modifiable unit area problems, remote sensing, spatial analysis and modeling techniques and cartographic principles) and a series of rapidly evolving geospatial technologies that take advantage of the Cloud and the Web as well as advances in analytical techniques, modeling tools and online data sources.

Course Requirements
Twelve units of graduate work are required.

Courses (12 Units)
- SSCI 680 Advanced Spatial Computing Units: 4
- SSCI 683 Principles of Spatial Data Analysis Units: 4
- SSCI 684 Spatial Modeling with GIS Units: 4

Note:
The courses in this program are open to students enrolled in any one of USC's doctoral programs. The three courses that make up this graduate certificate provide a vibrant and evolving series of learning opportunities for doctoral students wishing to look at their own disciplines and potential research topics through a spatial lens.

Doctoral Degree
Population, Health and Place (PhD)

Residency Requirement
A minimum of 24 graduate units at USC is required for the doctoral degree.

Course Requirements
Each student must take at least 44 substantive units in preventive medicine (health), sociology (population) and the spatial sciences (place) at USC during the first three years. Students must complete two laboratory rotations (4 units total) as well as a set of core courses that cover topics in biostatistics, demography, epidemiology and spatial sciences, the specifics of which are provided in the Spatial Sciences Institute's handbook for graduate students. Additional course requirements vary according to specialty area and/or dissertation topic.

Research Requirement
During the first and second year, students work on either a refereed journal article, book chapter or a research report of comparable scope and quality. A research project done at USC is required of all students (by the conclusion of the summer following the student's second year), regardless of prior graduate work.

Screening Procedure
The student's ability to master graduate-level course material is first evaluated after completion of no more than 24 units, and not later than the third semester of graduate work at USC. The final screening procedure is the successful completion of a second-
year project requirement. This evaluation is based on the student's performance in courses taken and on an evaluation of the student's research competence as reflected in the first- and second-year research projects. The projects are evaluated by a committee of three faculty, including the student's primary adviser. Additionally, students are evaluated each year based on adviser input, course work and research progress.

**Guidance Committee**

In preparation for the qualifying examination, each student assembles a five-person guidance committee to direct the student's program of studies and evaluate research competence. The committee must include at least one member from the lists of eligible faculty in Demography, Preventive Medicine and Spatial Sciences listed in the each of the contributing fields specified in the Spatial Sciences Institute's handbook for graduate students. The committee continues to serve until after the qualifying examination has been passed, the dissertation topic approved, and the student admitted to candidacy for the PhD. At that time the student assembles a dissertation committee of four or more members (usually consisting of members of the guidance committee, one of whom must be a faculty member from outside the three contributing departments), who advise on and evaluate the dissertation.

**Qualifying Examination**

The qualifying examination evaluates the student's ability to conduct independent scholarship and research. The student is evaluated based on oral and written presentation of two elements: a written review paper or written exam and the dissertation proposal. The qualifying examination is planned, administered and evaluated by the student's guidance committee. It should be taken no later than during the sixth semester.

**Doctoral Dissertation**

A student is expected to engage in research activity throughout his or her graduate career, leading up to and culminating in the Ph.D. dissertation. The dissertation is based on an original investigation, usually involving empirical data.

**Defense of the Dissertation**

The student's doctoral dissertation is defended at either a defense oral, based on an approved preliminary copy of the dissertation, or a final oral, based on the final version of the dissertation.

**Advisement**

Each student has a major adviser who is usually in the specialty area. The guidance committee should be formed at least one semester before the student takes the qualifying examination. Advisement concerning graduate school requirements may also be sought from the Spatial Sciences staff student adviser and the faculty member serving as director of graduate studies.

**Courses**

- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- SOCI 621L Quantitative Methods and Statistics II Units: 4
- SOCI 625 Demographic Methods Units: 4
- SOCI 656 Social Demography Units: 4
- SSCI 600 The Geography of Life and Death Units: 4
- SSCI 601a Population, Health and Place Research Practicum Units: 2
- SSCI 601b Population, Health and Place Research Practicum Units: 2
- SSCI 680 Advanced Spatial Computing Units: 4
- SSCI 683 Principles of Spatial Data Analysis Units: 4
- SSCI 684 Spatial Modeling with GIS Units: 4
- SSCI 790 Research Units: 1
- SSCI 794a Doctoral Dissertation Units: 2
- SSCI 794b Doctoral Dissertation Units: 2
- SSCI 794c Doctoral Dissertation Units: 2
- SSCI 794d Doctoral Dissertation Units: 2
- SSCI 794e Doctoral Dissertation Units: 0

**Thematic Option**

Thematic Option, the university's general education core honors program, is an alternative to regular core general education requirements. The program is interdisciplinary and provides a strong intellectual community.

The program teaches students to formulate ethical questions, to analyze and understand the reasoning behind views that differ from their own, to recognize the roles that historical, political and social forces play in matters of personal choice, and to express their views coherently in writing. Thematic Option can be arranged to fit any major.

To maintain small classes and allow for extensive discussion, Thematic Option is limited to just under 200 students each year. Students must be highly motivated, with a record of academic achievement. The average Thematic Option student has cumulative SAT scores above 1480 and an average high school GPA of 4.0. The program is rigorous and requires extensive reading and writing.

**Hancock Foundation Building 410**

(213) 740-2955

Email: thematicoption@dornsife.usc.edu
dornsife.usc.edu/thematic-option

Executive Director: Richard Edinger

Assistant Professor of Writing: Trisha Tucker, PhD

Lecturers: Amy Cannon, MFA; Patience Moll, PhD; Michael Petitti, PhD

**Program Requirements**

The Thematic Option honors curriculum consists of four interdisciplinary core classes taught around distinct themes: CORE 101g Symbols and Conceptual Systems: Thematic Option Honors Program; CORE 102gp Culture and Values: Thematic Option Honors Program; CORE 103g The Process of Change in Science: Thematic Option Honors Program; and CORE 104gw Change and the Future: Thematic Option Honors Program

CORE 111 Writing Seminar I: Thematic Option Honors Program and CORE 112 Writing Seminar II: Thematic Option Honors Program make up the 8 units of writing to meet the university requirement. The classes are accompanied by individual, bi-weekly tutorials. CORE 111, which requires concurrent enrollment with an affiliated CORE 102, focuses on critical thinking and analysis, focusing on academic argument and reasoning through close reading of primary texts. CORE 112 teaches students to convey complex ideas and to advance sophistication of essay structure, grounded argument, and to identify and address specific audiences persuasively in academic discourse.

The core Thematic Option curriculum is supplemented by four additional courses taken from the General Education Program: one in Quantitative Reasoning, one in The Arts, one in Social Analysis, and one in the Physical Sciences. Completion of CORE 102 and CORE 111 with a passing grade satisfies the University's General Education Seminar requirement.

**Minor**

**Thematic Approaches to Humanities and Society Minor**

The interdisciplinary minor in Thematic Approaches to Humanities and Society allows students to examine a range of thematic and theoretical approaches to understanding culture and society from multiple standpoints in the humanities. The minor is rich in course and schedule options, enabling students with an interest in the humanities to continue their studies. It also includes co-curricular events and advisement from Thematic Option staff.
Thematic approaches to humanities and society builds on the intellectual community developed in the Thematic Option honors program and is open to all interested students. The minor focuses on themes such as interdisciplinary perspectives and modes of inquiry; approaches to criticism and history; reification, ideology, contextualization; and knowledge, human diversity and social relations. Students choose six 4-unit classes, including one lower-division elective, one upper-division Thematic Option class (CORE 301 Modes of Inquiry), and four upper-division electives. Students also complete a 2-unit reading salon (CORE 200 Liberal Arts Reading Salon).

Requirements, Lower-Division (Choose One, 4 Units)
- CLAS 150g The Greeks and their Legacies Units: 4
- CLAS 151gp The Legacy of Rome Units: 4
- CORE 102gp Culture and Values: Thematic Option Honors Program Units: 4
- HIST 101gp State and Society in the Ancient World Units: 4
- HIST 102gm Medieval People: Early Europe and Its Neighbors, 400–1500 Units: 4
- PHIL 115g Ancient Greek Culture and Society Units: 4
- REL 132g Origins of Western Religions Units: 4

Requirements, Upper-Division (16 Units)
Enroll in four of the following, at least one from List A, one from List B and not more than one from List C. Not more than two may come from any one department. Courses must be chosen in consultation with a Thematic Option adviser.

List A
Early:
- CLAS 310 Pagans and Christians Units: 4
- CLAS 320gp Diversity and the Classical Western Tradition Units: 4
- CLAS 333 Cult and City in Ancient Greece Units: 4
- CLAS 470 Democracies Ancient and Modern Units: 4
- EALC 340gp Japanese Civilization Units: 4
- EALC 345 Korean Civilization Units: 4
- EALC 350gp Chinese Civilization Units: 4
- EALC 355 Studies in Chinese Thought Units: 4
- EALC 365 Studies in Japanese Thought Units: 4
- PHIL 345 Greek Ethics Units: 4
- REL 311g The Bible in Western Literature Units: 4
- REL 315 Thought and Life of Islam Units: 4

The Writing Program
Writing Program courses are designed to help students develop practices of reading, writing and critical reasoning that are necessary for success in academic and professional discourse. Writing Program pedagogy emphasizes small classes and frequent conferences in order to provide the highly individuated instruction and careful feedback necessary to extend the writing process and enhance the rhetorical judgment of each student. To meet the university's writing requirement, students must complete WRIT 150 (or its equivalent) and an advanced writing course, WRIT 340.

Director: John Holland  
Professors (Teaching): Diana Blaine, PhD; Geoffrey Middlebrook, PhD  
Associate Professors (Teaching): Norah Ashe, PhD; Stephanie Bower, PhD; Michael Banu, PhD; Jeffrey Chisum, PhD; James Condon VII, PhD; Andrew De Silva, MPW; Kevin Egan, PhD; William Feuer, PhD; Nathalie Joseph, PhD; Stephen Mack, PhD; Matthew Manson, PhD; Mark Marino, PhD; Indra Mukhopadhyay, PhD; John Murray, EdD; Erika Nanes, PhD; Shefali Rajamanan, PhD; Eric Rawson, PhD; Sandra Ross, MA; Scott Smith, PhD; David Tomkins, PhD; Robert Waller Jr., MPW; William Wyatt, MPW  
Assistant Professors (Teaching): Jennifer Sopchockchai Bankard, PhD; Jessica Wells Cantiello, PhD; LauraAnne Carroll-Adler, PhD;
Lower-Division Requirement

WRIT 150 Writing and Critical Reasoning–Thematic Approaches focuses on the rhetorical principles and techniques necessary for successful college-level writing. Special attention is paid to critical thinking and reading, sentence-level fluency, research techniques, and the elements of academic argument and reasoning. WRIT 150 will not satisfy the lower-division writing requirement if taken on a Pass/No Pass basis.

Advanced Writing Requirement

All students at USC, except those who satisfy their general education requirements through the Thematic Option Program, must complete WRIT 340 Advanced Writing, an upper-division course designed to help students write on topics related to their disciplinary or professional interests. Students usually enroll in WRIT 340 in their junior year, and may not take the course earlier than their sophomore year. Different schools within the university offer sections of this course. Students should consult their major departments to determine which version of WRIT 340 best complements their program of study. WRIT 340 will not satisfy the university's advanced writing requirement if taken on a Pass/No Pass basis.

All classes that meet the university's advanced writing requirement teach students to write clear, grammatical, well-structured prose; to discover and convey complex ideas critically; and to appreciate the nuances of effective argumentation. The principal aim of the requirement is to develop a student's capacity to formulate thoughtful and compelling writing for specific academic, professional and public audiences.

Preparatory Course Work

Some students are better served by taking a preparatory course before they enroll in WRIT 150. Entering freshmen who score below a specified level on the verbal portion of the SAT take the University Writing Examination. Based on the results of this examination, certain students enroll in WRIT 120 Introduction to College Writing or WRIT 121 Introduction to College Writing in a Second Language during their first semester at USC.

International students take the University Writing Examination after having completed any course work required by the American Language Institute.

Transfer Credit

Students may complete the lower-division requirement by completing an equivalent second-semester composition course that is taken for a letter grade option (not Pass/No Pass) at another institution after high school graduation and prior to enrolling at USC. Equivalent transfer credit is determined by the university's articulation officer. The advanced writing requirement must be completed at USC.

Time Limits

Students should complete the lower-division writing course requirement by the end of their first year at USC and must complete it before they enroll in their sixty-fifth unit. Transfer students who have not completed the lower-division requirement prior to entering USC should enroll in WRIT 150 during their first semester at USC, and must enroll in WRIT 150 no later than their nineteenth unit (second semester) at USC.
USC Annenberg School for Communication and Journalism

The USC Annenberg School for Communication and Journalism is a national leader in education and scholarship in the fields of communication, journalism, public diplomacy and public relations. The school offers a comprehensive curriculum emphasizing the core skills of leadership, innovation, service and entrepreneurship and drawing upon the resources of a networked university located in the media capital of the world. USC Annenberg's commitment to the converged practice of communication and journalism, interdisciplinary studies, and collaboration makes it unique among peer institutions. Students learn from theory and practice, and the school's programs put it at the crossroads of media, entertainment technology and globalization.

USC Annenberg's nationally accredited School of Journalism provides experience for students in all media platforms, with a digital newsroom, state-of-the-art editing equipment for radio and television news production and the opportunity to work at on-campus media outlets. The school's public relations program prepares students to thrive in advocacy communication, learning to write and communicate targeted messages across media platforms. The School of Communication's multidisciplinary curriculum explores how human interaction and technology affect communities, businesses, nations and the world, preparing students for careers in communication, persuasion and leadership. USC Annenberg's active businesses, nations and the world, preparing students for careers in communication, journalism, public diplomacy and public relations.

Faculty

Walter H. Annenberg Chair in Communication: Willow Bay, MBA
University Professor and Annenberg Family Chair in Communication Leadership: Geoffrey Cowan, LLB
University Professor and Wallis Annenberg Chair in Communication Technology and Society: Manuel Castells, PhD
Norman Lear Chair in Entertainment, Media and Society: Martin H. Kaplan, PhD
Provost Professor of Communication, Journalism and Cinematic Arts: Henry Jenkins, PhD

Professors: Jonathan D. Aronson, PhD; Sandra Ball-Rokeach, PhD; Sarah Banet-Weiser, PhD*; Francois Bar, PhD; Manuel Castells, PhD; Peter Clarke, PhD; Michael J. Cody, PhD; Geoffrey Cowan, LLB*; Nicholas Cull, PhD (Director, Public Diplomacy Master's Program); Janet Fulk, PhD; G. Thomas Goodnight, PhD; Larry Gross, PhD; Thomas A. Hollifield, PhD; Andrea Hollingshead, PhD; Henry Jenkins, PhD; Joshua Kun, PhD (Journalism); Alessandro Lomi, PhD; Doe Mayer, MA (Cinematic Arts); Margaret McLaughlin, PhD; Lynn C. Miller, PhD; Peter R. Monge, PhD*; Sheila T. Murphy, PhD; Philip Seib, JD; Ernest J. Wilson III, PhD

Associate Professors: Robeson Taj Frazier, PhD; Randall Lake, PhD; Patricia Riley, PhD (Director, Global Communication Master's Program); Kenneth K. Sereno, PhD*; Stacy Smith, PhD; Douglas Thomas, PhD; Dmitri Williams, PhD

Assistant Professors: Michael Ananny, PhD (Journalism); Christina Dunbar-Hester, PhD; Yu Hong, PhD; Lian Jian, PhD

Clinical Professors: Daniel Durbin, PhD; Colleen M. Keough, PhD; Ben Lee, PhD; Mark Lloyd, JD; Karen North, PhD (Director, Digital Social Media Master's Program); Susan Resnick West, PhD; Robert Scheer; Christopher Smith, PhD; Gordon Stables, PhD (Director, Trojan Debate Squad); Alison Trope, PhD (Director, Undergraduate Studies); Rebecca Weintraub, PhD (Director, Communication Management Master's Program)

Clinical Associate Professors: Robert Banks, PhD; Daniela Baroffio, PhD; Mathew Curtis, PhD; Carmen Lee, PhD; Jillian Pierson, PhD; Paolo Sigismondi, PhD

Clinical Assistant Professors: David Craig, PhD; Dorine Lawrence-Hughes, JD, EdD; Hye Jin Lee, PhD; Brad Shipley, PhD; Kimberly Stephens, PhD

Lecturers: Nithya Muthuswamy, PhD; Carlos Godoy, JD, PhD; Jessica Gould Neff, PhD; Courtney Pade, PhD

Research Professors: Jeffrey Cole, PhD (Director, Center for the Digital Future); Colin Maclay, PhD (Director, Annenberg Innovation Lab)

Research Associate Professor: Herman Galperin, PhD
Adjunct Faculty: Rook Campbell, PhD; Laurel Felt, PhD; Mayanna Framroze, MA; James Hubbard, MA, MDiv; Michael Phillips, MA, MS; Michael Overing, JD; Paula Patnoe-Woodley, MA; Kelton Rhoads, PhD; Simon Uwins, MA; Lisa Veber, MA; Gary Wexler, BA; Michael Wissot, MBA, MIM
Emeritus Professor: Walter R. Fisher, PhD

*Recipient of university-wide or school teaching award.

Degree Programs

The School of Communication offers programs of study leading to a BA in Communication; minors in Sports Media Studies; Culture, Media and Entertainment; Communication Technology Practices and Platforms; Global Communication; Health Communication; Justice, Voice, and Advocacy; Media Economics and Entrepreneurship; Professional and Managerial Communication; Communication Policy and Law; Cultural Studies; Photography and Social Change; and Law and Society; progressive degrees in Master of Communication Management and Master of Public
Diplomacy; a Master of Science in Digital Social Media; an MA and PhD in Communication; MA in Global Communication (in conjunction with the London School of Economics); a Master of Communication Management and two Master of Public Diplomacy programs. The Master of Public Diplomacy combines the resources of the Annenberg School for Communication and Journalism and the USC Dornsife College of Letters, Arts and Sciences' School of International Relations. The Communication Management Program has established dual degree programs with the USC Gould School of Law and Hebrew Union College.

**Undergraduate Degrees**

The School of Communication offers programs of study leading to a BA degree and minors in Culture, Media and Entertainment; Communication Technology Practices and Platforms; Global Communication; Health Communication; Justice, Voice, and Advocacy; Media Economics and Entrepreneurship; Professional and Managerial Communication; Sports Media Studies; and Communication Policy and Law. Many communication majors pursue, with the school's encouragement, a double major with another discipline or a minor to complement the major. Through careful planning, students can complete these options within four years.

Students must consult with an undergraduate academic adviser at least once each semester to explore course selections within the major, the minor, general education offerings and electives.

**Admission**

Admission is competitive. Fall 2015 incoming freshmen had an average GPA of 3.61 with an SAT score of 1920-2180 (middle 50%). Transfer students had an average college GPA of 3.66. For admission information and deadlines, refer to the USC Admission Website. All transfer applicants must review the transfer admission application guidelines on the Annenberg Website; contact the Annenberg Admissions Office for more information. USC exclusively uses the Common Application for freshman and transfer admission. Applicants must submit the Common Application and the USC Supplement, both of which can be accessed at commonapp.org. In addition to the university writing samples, a 250-word statement of intent is required; instructions are included with the USC Supplement.

Students currently enrolled at USC who wish to change their major to communication must file a formal application with all supporting documents through the Annenberg Student Services Office. Students who entered USC as freshmen must have 16 units completed at USC with a minimum cumulative GPA of 3.0. Students who entered USC as transfers must have 16 units completed at USC with a minimum GPA of 3.0. The 3.0 GPA is a minimum standard and does not guarantee admission.

For current USC students, the application period is the first week of classes each fall, spring, and summer terms. No applications will be accepted after the first week of classes.

Students who have not been admitted to the communication major or one of the minors may complete a maximum of 20 communication (COMM) units at USC. No further communication course work may be accepted after the first week of classes.

Students who have not been admitted to the communication major or one of the minors may complete a maximum of 20 communication (COMM) units at USC. No further communication course work may be accepted after the first week of classes.

**Academic Integrity Policy**

The School of Communication maintains a commitment to the highest standards of ethical conduct and academic excellence. Any student found responsible for plagiarism, fabrication, cheating on examinations, or purchasing papers or other assignments will be reported to the Office of Student Judicial Affairs and Community Standards and may be dismissed from the School of Communication. There are no exceptions to the school's policy.

**Curriculum Areas of Study**

By design, the courses in the curriculum tend to cluster into different areas of study. These areas represent important foci in the communication discipline and are areas in which the school's faculty possess special expertise. Four such areas of study are described below. They are not mutually exclusive, nor do they exhaust the curriculum; rather, they represent partially overlapping areas of unusual depth. Students may specialize in one of these areas or may design individual programs of study by choosing other combinations of electives that best meet their needs and career objectives. Relevant courses for the clusters are posted on the Annenberg School for Communication and Journalism Website.

**Communication and Culture Option:** This option will be attractive to a broad range of students whose careers have an international or multicultural dimension, from those interested in foreign service, travel and consulting to those seeking careers in the arts. In addition, students taking this option will be well prepared for advanced graduate study. Courses emphasize: communication as an essential component of culture and cultural production; cultural forces that shape communication practices; cultural barriers to communication; gender and diversity issues in human and mass communication and cultural production; media representations of race, ethnicity and gender; the production of meaning in diverse modes such as art, religion, popular culture and technology; and cultural criticism.

**Entertainment, Communication and Society Option:** This option is for students who wish to pursue careers in the entertainment industry, as well as students interested in the relationship of communication and entertainment to popular culture, globalization, cultural studies, marketing, advertising and ethics. Students taking this option will be well prepared for graduate study; they will also be able to enter the entertainment industry with a grounding in the theory, roles, issues and effects of entertainment. Courses emphasize: the theoretical underpinnings of entertainment studies; the historical context of entertainment; the roles and effects of entertainment concepts in "high art" and popular culture; the impact of entertainment on politics; advertising in an entertainment society; the blurring of marketing and entertainment and the effects of this on culture; the effects of entertainment in general and specifically on constructions of race and childhood; issues in the blurring of fact and fiction; ethical dilemmas; and the globalization of entertainment industries.

**Media, Law and Politics Option:** This option is designed for students who are interested in careers in government and public service, the law, and political and legal consulting, as well as advanced graduate study. Students examine communication processes in the public sphere and learn how to participate competently in these practices. Courses emphasize: the role of persuasion in the political and legal processes; the techniques used by individuals, institutions and social movements to influence public affairs; the history, design, implementation and evaluation of political campaigns; the role of public opinion; ethical issues in public communication, including the influence of media in the political and justice systems, the role of the First Amendment and the changing nature of freedom of expression in a mass-mediated environment, and problems of public participation.

**Organizational and Interpersonal Communication Option:** This option is most relevant to students interested in careers in business, management, human resources and development, corporate communication, and consulting, as well as advanced graduate study. Courses emphasize: interpersonal communication processes that affect and reflect personality, motives, beliefs, attitudes and values; communication's role in the development, maintenance and disintegration of social, family and intimate relationships; managing interpersonal conflict; communication between superiors and subordinates and in teams; communication's role in determining organizational culture; managing information in organizations; and the role of information technology in processes of globalization.

**Progressive Degree Program**

This progressive degree program allows USC students to complete a bachelor's degree and a Master of Communication
Management or a Master of Public Diplomacy in as little as five years. Students with a 3.0 overall GPA or higher in all classes taken at the university level are eligible to apply for admission to the degree program during their junior year, if a minimum of 24 semester hours will be completed in the final year of undergraduate enrollment. However, a 3.0 GPA does not guarantee acceptance. Current students must attend a mandatory information session conducted by Annenberg Admissions and a member of the faculty before initiating the application process. Students admitted into the progressive degree program begin taking master's level courses in their senior year and may complete the master's degree in year five. For information on the application process, refer to the Annenberg Website, annenberg.usc.edu/currentstudents. Click on progressive degree. For further details on progressive degree programs, see the Requirements for Graduation page.

Other Programs

Debate Squad
The Trojan Debate Squad provides an opportunity for outstanding students (3.0 GPA or better), both communication majors and non-majors, to compete in an intensive intercollegiate laboratory setting. Whatever the student's intended career, the skills he or she develops in research, critical thinking and oral advocacy will be invaluable. The team has an excellent record in team policy debate and is now also offering British parliamentary (worlds format) debating. The team competes at both regional and national competitions.

Honors Program
The School of Communication offers an 8-unit honors program for exceptional students. To qualify, students must have a 3.5 GPA both overall and in the COMM major after completing the core courses (COMM 200 or COMM 313, COMM 206 or COMM 311, COMM 209 or COMM 309, COMM 204 or COMM 322, COMM 301 or COMM 305, ASCJ 200 or ASCJ 210). To graduate with School of Communication honors, a student must maintain a 3.5 overall and COMM major GPA and receive at least a B+ or higher in the two honors courses. Students either take COMM 495 Honors Seminar or work with a professor to customize a 400-level COMM course for honors status (4 units). All honor students complete COMM 497 x Honors Thesis (4 units). Contact an undergraduate adviser for further information and application forms.

Honor Society
Lambda Pi Eta is a national communication/journalism honor society that is open to students in graduate and undergraduate Annenberg programs. To be eligible, students must have a USC cumulative GPA and an Annenberg major GPA of 3.5 or higher. In addition, undergraduate students must have a declared communication, journalism or public relations major, and have completed (or currently be registered for) at least 60 units, at least 12 of which are in the major. Graduate students must have completed at least 12 units in the fields of communication, journalism or public relations.

Honors in Multimedia Scholarship
This program offers qualified undergraduate students an opportunity to approach their discipline(s) of study through the critical application of multimedia expression and scholarship. The student experience will be characterized by smaller classes taught by leading faculty members and enriched by a program of lecture series, visiting scholars, symposia and conferences. For complete program requirements, see the USC School of Cinematic Arts.

Annenberg Career Development
The USC Annenberg Career Development Office has listings for paid and unpaid internships from around the country. Career advisers conduct mandatory advisement appointments for all sophomores and offer career workshops, guest speakers and mentoring opportunities. Students are advised to participate in at least two internships before graduation.

Annenberg International Programs

Semester in Amsterdam
Through the Council on International Education Exchange, students study at the University of Amsterdam. The first week students spend in orientation sessions that include an overview of the academic program, an introduction to Amsterdam and to Dutch society and culture, as well as excursions in and around the city. Students enroll in the offerings taught in English at the University of Amsterdam. Such courses include communication, art, history, economics, environmental sciences, computer science, history, philosophy, literature, social science and theology. Students may earn a maximum of 12 USC units of upper-division COMM elective credit. A minimum USC cumulative GPA of 3.0 is required for this program.

Spring Semester in Australia
This semester program offers students the chance to study at one of Australia's premier universities, in one of the country's most exciting cities. Students take communication courses that count for major credit at USC at the University of New South Wales (UNSW) and can choose from a wide variety of elective courses. UNSW is located in Kensington, just south of the center of Sydney and its commercial hub. The program gives students the chance to explore mass media and communication in a challenging environment with a distinct worldview, very different from that of the United States. Students may earn a maximum of 12 USC units of upper-division COMM elective credit. A minimum USC cumulative GPA of 3.0 is required for this program.

Fall Semester in Buenos Aires
This semester program offers students the opportunity to study Latin American culture and study at the Universidad de San Andrés, a small liberal arts college in the suburbs of Buenos Aires. Students will live and learn in this vibrant metropolis while taking communication courses that count toward major credit at USC. Buenos Aires is one of the largest cities in Latin America and will give students the chance to explore the worldview of Latin America and how it relates to communication, mass media and the world at large. The program will immerse students in South American culture. With classes being taught exclusively in Spanish, this program requires a high degree of proficiency in Spanish, both written and oral (five semesters of college-level Spanish or the equivalent required). A minimum USC cumulative GPA of 3.0 is required for this program.

Semester in Hong Kong
The semester program offers students the opportunity to learn about Chinese culture at the Chinese University in Hong Kong, a bilingual institution. The program also gives students the experience of living in Hong Kong where they can witness the “one country, two systems” experiment. Courses in English are offered in fine arts, literature, history, Japanese studies, intercultural studies, music, philosophy, computer science, anthropology, economics, international relations, as well as journalism and communication. For students interested in Chinese language, courses are offered in Putonghua (Mandarin) or Cantonese. Extracurricular activities include the opportunity to teach English in rural China, monthly dinner talks with Asian studies specialists and excursions to local areas of interest. Students may earn a maximum of 12 USC units of upper-division COMM elective credit. A minimum USC cumulative GPA of 3.0 is required for this program.

Semester in London
The semester program offers students the opportunity to study communication in London, the most important center of media in Europe. Many of the communication courses offered include British media guest lecturers and site visits. The program includes one-day visits to such places as Oxford, Cambridge and Liverpool. Planned activities within London include theatre and museum visits. Students may earn 16 units of upper-division COMM elective credit. A minimum USC cumulative GPA of 3.0 is required for this program. Please visit the Annenberg International Programs Website for more information on additional program requirements.
Spring Semester in New Zealand

Annenberg's New Zealand program offers students the opportunity to travel to the Southern Hemisphere. Each spring, students can study at the Auckland University of Technology (AUT), a world-class institution that offers students the chance to take communication courses that count toward major credit at USC, all the while exploring the beautiful city of Auckland and the surrounding countryside. The AUT program offers communication students an exciting way to broaden their understanding of media and mass communication in a challenging environment with an outlook distinctly different from that of the United States and Southern California. Students may earn 12 units of upper-division COMM elective credit. A minimum USC cumulative GPA of 3.0 is required for this program.

Semester in Rio de Janeiro

The semester program offers students the opportunity to learn about Brazilian culture through an intensive pre-semester Portuguese language course (*does not count for USC language requirement) and through civic engagement projects that benefit the local communities in Rio de Janeiro. Through the Council on International Educational Exchange (CIEE), USC students enroll in 20 USC units in courses offered by CIEE and at the Escola Superior de Propaganda e Marketing, Brazil's top communication and journalism school. Students may earn 12 units of upper-division COMM elective credit; please visit the Annenberg International Programs Website for more information on language prerequisites. A minimum USC cumulative GPA of 3.0 is required for this program.

The International Communication Studies program (ICS) allows undergraduate students to study a range of approaches to public communication media across Europe.

Students divide the five-week course into stays in Los Angeles, London, Paris, Prague, Istanbul and Rome. In addition to regular class meetings, students discuss the interplay of current world issues and international media practices with communication practitioners from international news and public relations media, government institutions, private industry and global organizations.

Students enroll in JOUR 482 Comparative Media in Europe (4 units), which will count as 4 units of upper-division COMM elective credit. A minimum USC cumulative GPA of 3.0 is required for this program.

For further information, contact Annenberg International Programs at (213) 821-1276, email ascintl@usc.edu or visit annenberg.usc.edu/international.

Graduate Degrees

Degree Programs

The School of Communication offers programs of study leading to a professional Master of Communication Management, an MA/MSc in Global Communication in collaboration with the London School of Economics, a Master of Science in Digital Social Media, two Master of Public Diplomacy programs, and research-oriented Master of Arts and Doctor of Philosophy degrees in Communication. The Master of Public Diplomacy combines the resources of the Annenberg School for Communication and Journalism and the USC Dornsife College of Letters, Arts and Sciences' School of International Relations. The School of Communication also collaborates with the USC Viterbi School of Engineering to offer a joint major in Communication and Engineering.

All students seeking the degrees in communication management and global communication will take a range of courses that prepare them for successful professional management careers in communication-related businesses, organizations and fields. All students pursuing the research-oriented degree (PhD in Communication) are required to take two theory courses that introduce them to inquiry in human communication and two research methods courses that acquaint them with the historical/critical and social scientific techniques available to conduct scholarly research. These requirements strengthen the student's appreciation of the intellectual bases of human communication study and further the concept of a community of scholars and practitioners in the profession. Students specialize in one of six available tracks: Global and Transnational Communication; Groups, Organizations and Networks; Health Communication and Social Dynamics; Information, Political Economy and Entertainment; Media, Culture and Community; New Media and Technology; or Rhetoric, Politics and Publics. In addition, students are encouraged to sample courses in the remaining tracks, thus obtaining an education of unparalleled breadth and depth.

Honor Society

Lambda Pi Eta is a national communication/journalism honor society that is open to students in graduate and undergraduate Annenberg programs. To be eligible, students must have a USC cumulative GPA and an Annenberg major GPA of 3.5 or higher. In addition, undergraduate students must have a declared communication, journalism or public relations major, and have completed (or currently be registered for) at least 60 units, at least 12 of which are in the major. Graduate students must have completed at least 12 units in the fields of communication, journalism or public relations.

Admission Requirements

Master of Communication Management, Master of Arts in Global Communication, Master of Science in Digital Social Media, Master of Public Diplomacy and Master of Public Diplomacy (Practitioner and Mid-Career Professional)

The school accepts students from a broad range of academic backgrounds in social sciences, humanities, physical sciences or professional schools. Some are employed or have work experience in communication-related fields. Others apply immediately after completing baccalaureate degrees.

Criteria: All applicants must submit the online USC Graduate Admission Application. The faculty admission committees consider many criteria in the admission selection process: the academic record and professional and work-related accomplishments are taken into account. The minimum criteria are the equivalent of a U.S. bachelor's degree and a 3.0 GPA for all undergraduate and graduate work completed. The Master of Arts in Global Communication requires a minimum 3.5 (on a 4.0 scale) cumulative GPA or international equivalent for admission. For admission to communication management, digital social media and public diplomacy, scores on the Graduate Record Examinations (GRE) General Test are required. Applicants to the communication management degree program may submit Graduate Management Admissions Test (GMAT) scores in lieu of the GRE. Scores on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) are required for applicants whose undergraduate degree was not completed in a country where English is the only official language. Letters of recommendations from those persons familiar with the applicant's work — preferably academically — are required also. In addition, applicants must submit a statement of purpose, transcripts of all previous college and university work attempted, résumé and writing samples.

Applicants to the global communication degree program must apply to USC and the London School of Economics (LSE). Participation in this degree program requires that students simultaneously gain admission to LSE and USC. GRE or GMAT scores are not required for admission. Scores on the Test of English as a Foreign Language (TOEFL) or International English
Language Testing System (IELTS) are required for applicants whose undergraduate degree was not completed in a country where English is the only official language. All students will begin their studies in London at the LSE.

Procedure: Refer to the Annenberg Website for degree program admission application guidelines, deadlines and filing periods.

Doctor of Philosophy

Students may enter from a variety of academic fields and majors. Applicants whose undergraduate work was in fields other than communication may be admitted on the condition that adequate preparation in directly relevant areas is evident. Completion of a master’s degree in communication is not required for admission to the Doctor of Philosophy.

Criteria: All applicants must submit the online USC Graduate Admission Application. The faculty admission committee reviews each application comprehensively. Three letters of recommendation from faculty qualified to comment on an applicant’s capacities for a rigorous program of study are required. Completion of a basic descriptive statistics course is recommended. In addition, a personal statement, transcripts from all colleges/universities attended, a résumé and a sample of scholarly writing are required. The MA in Communication is earned as part of the PhD program.

Procedure: Admission is granted for the fall semester only. Applicants are strongly encouraged to take the Graduate Record Examinations prior to November 1.

Degree Requirements

The Global Communication, Master of Arts in Communication and Doctor of Philosophy in Communication are awarded under the jurisdiction of the Graduate School. Refer to The Graduate School section of this catalogue and the Requirements for Graduation section for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.

Bachelor’s Degree

Communication (BA)

General Education Requirements

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education Program for more information.

Course Requirements

Required Courses

Theoretical and Foundational Classes (12 units total)

These courses introduce students to theories and subject matter that provide foundational understanding for the Communication major. Each area below broadly explores the way messages and meanings are socially and culturally produced, received by individuals and society, and transformed through technological and industrial shifts.

Communication Interaction, Influence and Impact (4 units)

- COMM 200 Communication and Social Science Units: 4
- COMM 313 Communication and Mass Media Units: 4

Communication, Civic Life and Culture (4 units)

- COMM 206 Communication and Culture Units: 4
- COMM 311 Rhetoric and the Public Sphere Units: 4

Economics and Technologies of Communication (4 units)

- COMM 209 Communication and Media Economics Units: 4
- COMM 309 Communication and Technology Units: 4

Methods of Communication Practice (8 units total)

The courses in this area help to provide students with the critical thinking, tools, and methods of inquiry necessary for the interpretation, development, and expression of messages, systematic arguments, and empirical evidence.

Four units that center on the design and execution of arguments

- COMM 204 Public Speaking Units: 4
- COMM 322 Argumentation and Advocacy Units: 4

Four units that center on the design, execution and interpretation of empirical evidence

- COMM 301Lg Empirical Research in Communication Units: 4
- COMM 305 Understanding Social Science Research Units: 4

Annenberg Experience (4 units)

Students are required to take one 4-unit course that prepares Annenberg students to enhance their digital literacy and contextualize modern communication controversies, contemplating changes in the way we process and produce information.

- ASCJ 210 Contours of Change in Media and Communication Units: 4
- ASCJ 210 Contours of Change in Media and Communication Units: 4

Electives (24 units total)

- Upper-division COMM courses: 16 units
- Lower- or upper-division COMM or ASCJ courses: 4 units
- One 400-level non-cross-listed COMM course (excluding COMM 443, COMM 490, COMM 494 and COMM 499): 4 units

Additional Requirements

Students must maintain a minimum 2.0 overall GPA in upper-division course work applied toward the major. No more than 4 units of COMM 380 may be counted toward the department major. The School of Communication is committed to ensuring that all declared communication majors follow the necessary requirements. Mandatory advisement is required of all communication majors each semester prior to registration. All students taking communication classes are held to the highest academic integrity standards and may be denied admission or have admission revoked as a result of conduct violations.

Qualified non-majors (generally, students with junior/senior status, a minimum 3.0 GPA and a declared major elsewhere at the university) with appropriate academic preparation may be permitted to enroll in communication electives without fulfilling prerequisite requirements. Application for a waiver should be made to an undergraduate adviser.

Minor

Communication Policy and Law Minor

Information and communication practices and technologies have an increasingly powerful impact on nearly every aspect of our lives. From the level of privacy in our personal lives to the way we govern our communities or manage our businesses, the legal and policy issues in the communication field are ever-changing and increasingly complex. To prepare students to navigate this dynamic and complicated world, the minor in communication policy and law combines courses in communication, law, ethics, and the business of communication taught at both the School of Communication and the School of Journalism at USC Annenberg. Students can choose to focus on policy or legal issues that affect communication technologies, strategies, and uses. This minor will not only enable students to understand the revolution in media and telecommunications technology and practice, it will ground them in the fundamentals of free speech, intellectual property and the local, state and federal role in the regulation of communication platforms ranging from emerging social media to the legacy media.
of broadcasting and newspapers. This is an ideal minor for students interested in law or advanced communication scholarship. Admission requirements are a minimum 3.0 grade point average and completion of 32 units (sophomore standing). The 3.0 GPA is a minimum standard and does not guarantee admission.

**Required Core Courses (8 units)**
- ASCI 210 Contours of Change in Media and Communication Units: 4
- COMM 322 Argumentation and Advocacy Units: 4

**Choose three electives (12 units)**
- COMM 345 Social and Economic Implications of Communication Technologies Units: 4

- COMM 422 Legal Issues and New Media Units: 4
- COMM 427 Topics in Media Economics, Law and Policy Units: 4
- COMM 489 Campaign Communication Units: 4
- JOUR 462 Law of Mass Communication Units: 4

**Communication Technology Practices and Platforms Minor**

Students in this minor trace the roots and dynamics of contemporary networked technologies and learn how to participate and excel within media cultures, online networks and organizational workplaces. The minor focuses on three areas: cultures (connecting communication technologies to histories, values, and ethics of social relationships and civic communities); networks (developing qualitative and quantitative skills to model, explain and influence relationships among media and people at local and global scales); and organizational and interpersonal contexts that produce and transform communication technologies. The field of communication technology requires individuals who can critique, cultivate, build and influence new relationships among people, platforms and practices. Whether starting careers in strategic consulting, medical informatics, nonprofit management, social media design, public sector service or new media entrepreneurship, students are encouraged to utilize skills and foundational concepts underlying 21st century communication technologies.

Requirements for admission are a minimum 3.0 GPA and completion of a minimum of 32 units (sophomore standing). The 3.0 GPA is a minimum standard and does not guarantee admission.

**Required Core Communication Courses**
- COMM 309 Communication and Technology Units: 4
- COMM 339 Communication Technology and Culture Units: 4
- COMM 340 The Cultures of New Media Units: 4

**Electives-Choose Two From The Following**
- COMM 310 Media and Society Units: 4
- COMM 321 Communication and Social Media Units: 4
- COMM 345 Social and Economic Implications of Communication Technologies Units: 4
- COMM 350 Video Games: Content, Industry, and Policy Units: 4

- CTIN 488 Game Design Workshop Units: 4

**Total units: 20**

**Culture, Media and Entertainment Minor**

This 20-unit minor offers courses that examine the theory, content, social impact and economics of a range of creative, media, culture and entertainment industries. Through the lens of music, film, television, advertising, digital media, games, comics and fashion, students will learn strategies for analyzing popular culture and entertainment texts, mechanisms and platforms of content distribution, as well as the historical, social, cultural and political issues shaping these entertainment fields. Taking into account shifts and disruptions in contemporary media and entertainment, students will further examine consumption, audience engagement and participation that necessarily shape our individual and collective identities. These courses will highlight the production, consumption and meanings inscribed in entertainment media industries and products. Depending on the courses selected, the minor will prepare students for a variety of careers in and/or further critical scholarship about media and entertainment industries.

Admission requirements are a minimum 3.0 grade point average and completion of 32 units (sophomore standing). The 3.0 GPA is a minimum standard and does not guarantee admission.

**Required Core Courses (8 Units)**
- COMM 300 Entertainment, Communication and Society Units: 4
- COMM 384 Interpreting Popular Culture Units: 4

**Choose Three Electives (12 units)**
- COMM 306 Innovation, Entertainment, and the Arts Units: 4
- COMM 307 Sound Clash: Popular Music and American Culture Units: 4

- JOUR 381 Entertainment, Business and Media in Today's Society Units: 4
- JOUR 493 Comics and Graphic Storytelling Units: 4

**Total units: 20**

**Justice, Voice, and Advocacy Minor**

The 20-unit minor offers courses that prompt students to explore the central role communication, media, news, and public relations play in a multicultural society. As a cross-school minor, students will examine questions and perspectives on identity and community through an interdisciplinary lens that centers on theory and praxis, impact and change. The courses in this minor are grouped in order
to give students a foundational understanding of the cultural roots and representations of identity, the practice of storytelling in the context of local and disenfranchised communities, as well as various institutional structures and policies that create barriers or avenues of social justice. Familiarity with these important issues serves students on a practical level by improving their ability to understand, anticipate and appreciate diverse viewpoints and audiences. The minor also helps students develop as more engaged, informed and empathetic citizens who are empowered to bring resolution and shared understanding to areas of conflict and difference in their own lives, the broader community and the workplace.

**Required Core Courses (8 units)**
- ASCJ 210 Contours of Change in Media and Communication Units: 4
- COMM 366 Designing Media and Communication Projects for Social Change Units: 4

**Culture and Identity (4 units)**
Choose 4 units from the following:
- COMM 307 Sound Clash: Popular Music and American Culture Units: 4
- COMM 322 Argumentation and Advocacy Units: 4
- COMM 324m Intercultural Communication Units: 4
- COMM 360 The Rhetoric of Los Angeles Units: 4
- COMM 392 Media and Migration in Times of European Crisis Units: 4
- COMM 395m Gender, Media and Communication Units: 4
- COMM 412 Communication and Social Movements Units: 4
- COMM 414 Communication and Social Change in China Units: 4
- COMM 415m African American Rhetoric and Image Units: 4
- COMM 426 Religion, Media and Hollywood: Faith in TV Units: 4

- JOUR 465m Latino News Media in the United States Units: 4
- JOUR 466m People of Color and the News Media Units: 4
- JOUR 467 Gender and the News Media Units: 4
- JOUR 468m The American Press and Issues of Sexual Diversity Units: 4
- JOUR 484 American Religion, Foreign Policy and the News Media Units: 4

**Community Storytelling (4 units)**
Choose 4 units from the following:
- COMM 367 Community Engagement and Service Learning Units: 2
- JOUR 372 Engaging Diverse Communities in the Digital Era Units: 2
- JOUR 470 Community Journalism Units: 2
- PR 455 Public Relations for Non-Profit Organizations Units: 4

**Institutions and Policy (4 units)**
Choose 4 units from the following:
- COMM 308 Communication and Conflict Units: 4
- COMM 310 Media and Society Units: 4
- COMM 385 Organizational Communication Units: 4
- COMM 421 Legal Communication Units: 4
- COMM 465m Gender in Media Industries and Products Units: 4
- JOUR 460 Social Responsibility of the News Media Units: 4
- JOUR 469 Money, Markets and Media Units: 4

**Media Economics and Entrepreneurship Minor**
In recognition of the dislocation and restructuring underway in contemporary media and information industries, this 24-unit minor introduces students to the microeconomics and trends of the sector and gives them an understanding of the role that entrepreneurship plays in the new economy. Students with professional media industry aspirations will learn basic economic literacy and discover the key factors that shape competition in information markets. Further, the minor fosters an entrepreneurial mindset in students and helps them to develop the entrepreneurial skills required to build successful careers and ventures in the media and information sector. Requirements for admission are a minimum 3.0 GPA and completion of a minimum of 32 units (sophomore standing).

**Required Courses (8 units)**
- BAEP 450 Fundamentals of Entrepreneurship Units: 4 or
- BAEP 451 The Management of New Enterprises Units: 4
- COMM 209 Communication and Media Economics Units: 4

**Elective Courses—Choose 16 Units From The Following**
4 units must be in BAEP:
- BAEP 452 Feasibility Analysis Units: 4 *
- BAEP 454 Venture Initiation: Launching and Scaling Your Startup Units: 4 **
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2

**Note:**
*Prerequisite: BAEP 450 or BAEP 451
**Prerequisite: BAEP 452

4-8 units must be in COMM:
- COMM 306 Innovation, Entertainment, and the Arts Units: 4
- COMM 345 Social and Economic Implications of Communication Technologies Units: 4
- COMM 427 Topics in Media Economics, Law and Policy Units: 4
- COMM 430 Global Entertainment Units: 4
- COMM 431 Global Strategy for the Communications Industry Units: 4
- COMM 432 American Media and Entertainment Industries Units: 4
- COMM 433 Home Entertainment Units: 4
- COMM 454 Media, Money, and Society Units: 4

4-8 units must be in JOUR:
- JOUR 381 Entertainment, Business and Media in Today’s Society Units: 4
- JOUR 469 Money, Markets and Media Units: 4
- PR 429 Business and Economic Foundations of Public Relations Units: 4 *
- PR 473 Emerging Media Strategies for Communication and Public Relations Units: 4
- PR 491 Transmedia, New Media and Strategic Public Relations Units: 4

**Note:**
*Prerequisite: PR 351a or JOUR 351a

**Total units: 24**

**Professional and Managerial Communication Minor**
The ability to succeed in today’s workplace necessitates a growing number of communication skills. As today’s increasingly global and highly competitive marketplace grows in complexity, the need to understand intercultural differences, the power of structure in the workplace and other issues such as dealing with interpersonal conflicts continues to increase. This minor will provide students interested in the management of people, resources or products with these necessary tools. Requirements for admission are a minimum 3.0 GPA and completion of a minimum of 32 units (sophomore standing).
Required Core Communication Courses
- COMM 320 Small Group and Team Communication Units: 4
- COMM 375 Business and Professional Communication Units: 4
- COMM 385 Organizational Communication Units: 4

Electives-Choose Three From The Following:
- COMM 302 Persuasion Units: 4
- COMM 304 Interpersonal Communication Units: 4
- COMM 308 Communication and Conflict Units: 4
- COMM 315 Health Communication Units: 4
- COMM 321 Communication and Social Media Units: 4
- COMM 322 Argumentation and Advocacy Units: 4
- COMM 324 Intercultural Communication Units: 4
- COMM 345 Social and Economic Implications of Communication Technologies Units: 4
- COMM 388 Ethics in Human Communication Units: 4
- COMM 431 Global Strategy for the Communications Industry Units: 4
- COMM 486 Human and Technological Systems in Organizations Units: 4
- COMM 487 Communication and Global Organizations Units: 4

Total units: 24

Sports Media Studies Minor
USC has a unique historical relationship to sports and sports media, and is near the center of the current sports media capital of Los Angeles. The courses examine the role of sports and sports media in culture, how the presentation of sports in media has evolved, and has been shaped by cultural issues and, itself, impacted culture. This minor will enhance students' skills in working and interacting with, sports media.

Requirements for admission are a minimum 3.0 GPA and completion of a minimum of 32 units (sophomore standing). The 3.0 GPA is a minimum standard and does not guarantee admission.

Required Core Communication Courses
- COMM 381 Issues in Contemporary Sport Units: 4
- COMM 383m Sports, Communication and Culture Units: 4

Electives
Choose four classes from the following:
- COMM 300 Entertainment, Communication and Society Units: 4
- COMM 310 Media and Society Units: 4
- COMM 363 Media Consumption Units: 4
- COMM 387 Sports and Social Change Units: 4
- COMM 444 Critical Theories of Sport Units: 4
- JOUR 380 Sports, Business and Media in Today's Society Units: 4
- JOUR 432 Sports Commentary Units: 4
- MOR 479 The Business of Sports Units: 4
- OT 333 Sports Ethics Units: 4

Total units: 24

Master's Degree

Communication (MA)
Individuals seeking the Master of Arts in Communication are expected to acquire and demonstrate a general knowledge of human communication, including humanistic and social scientific approaches.

Students must apply to the PhD program in Communication and complete all application requirements. The faculty admission committee determines candidates appropriate for the MA.

The program, arranged in consultation with the school's director of doctoral studies, provides two options: degree with comprehensive examination requires a total of 32 units (normally eight courses), including core courses COMM 525, COMM 526, COMM 550 and COMM 552 and four electives; or degree with thesis requires successful completion of core courses, three electives and 4 units of COMM 594a Master's Thesis, COMM 594b Master's Thesis.

Not more than two approved 400-level courses may be applied to a student's program and a maximum of 4 semester units with grades of B or better may be accepted by transfer from another institution of higher learning. The minimum acceptable GPA for successful completion of this program is 3.0.

The majority of students choose the comprehensive examination option. The examination consists of six hours of writing, taken on two different days. Permission to take an MA degree with thesis can be obtained only by application to the school screening committee.

Communication Management (MCG)
Each student builds a program of study with faculty academic advisors, drawing on earlier academic and work experience in order to achieve desired professional goals.

Residence
Students may pursue the Master of Communication Management on either a full- or part-time basis. Full time, the degree can be finished in one year and four months (across four terms, including the summer session); part time, all course work can be finished in two to three years. With permission from a School of Communication committee, a maximum of 4 graduate units may be transferred from another accredited institution.

Foreign Language Requirement
There are no foreign language requirements for this degree.

Course Requirements
Thirty-two units in approved graduate-level course work are required.

Students will take a required 4-unit research methods course in their first semester. In their second semester, students will take a required 4-unit core conceptual foundation course. During their course of study, students take 4 units from a list of approved theory-practice integration courses.

A maximum of two courses may be taken in the first semester. In the second and subsequent semesters, with approval from the director of the Master of Communication Management program, students may take up to three courses.

Among the remaining courses, at least 12 units must be from Communication Management elective areas of focus. Up to 8 may be taken at USC outside the Communication Management program; these courses must be approved by the director of the Master of Communication Management program, and may be selected from a variety of disciplines, depending upon academic and career interests. Any given course may be taken at most three times, after which the student is no longer eligible to take the course.

Digital Social Media (MS)
The School of Communication in the Annenberg School for Communication and Journalism offers a Master of Science in Digital Social Media degree, which is an intensive program focused on leadership and management of digital and social media, and online communities. Students learn to be digital and social media executives, leaders and entrepreneurs through a sequence of classes that teach conceptualization, management of development and analytics, creation of content, and implementation of digital products. Students take 32 units over the course of one calendar year including a funded, final project in which teams receive a budget to develop and launch a working, dynamic, social media product. An internship is highly recommended as students are expected to gain relevant, professional experience while enrolled in the program. No engineering skills are required, but the program provides instruction in collaborating with, and managing, developers.

The program begins in spring semester, and includes courses during summer and fall. Students applying for this program are required to take the Graduate Record Examinations (GRE).

The completion of this degree program requires 32 units including the successful development and launch of a digital social media product. Core courses are taught in the School for Communication and Journalism. With approval of the program director, students may
select electives from the entire USC graduate curriculum.

**Digital And Social Media Core Requirements (12 Units)**
- DSM 510 Introduction to Digital Social Media Units: 4
- DSM 520 Managing Technologies for Digital Media Units: 4
- DSM 596 Final Project Capstone Units: 4

**Research And Practicum Required Classes (8 Units)**
- DSM 530 Analytics and Research Methodology Units: 4
- DSM 560 Digital Media Policy, Law, Practices, and Regulation Units: 4

**Specialization Classes (4-8 Units)**
Students choose one to three classes (4-8 units) that help them specialize their area of expertise within the realm of digital social media. Approval from the director is required for these classes. Student may choose from the director's list or request approval for other classes.

**Electives-Communication Or Other Relevant Classes (4-8 Units)**
Students may elect to take classes in related topics within the Annenberg School for Communication and Journalism, or from engineering, business, cinema, music, or other area related to digital and social media or related to the sector of implementation that interests the students. Students are strongly encouraged to acquire relevant experience through an internship and may earn degree credit by enrolling in CMGT 591 Communication Internship. With the permission of the program director, students may take up to 8 elective units within the Annenberg School, or from other USC programs.

**Global Communication (MA)**
The USC Annenberg School for Communication and Journalism collaborates with the London School of Economics and Political Science (LSE) to provide the course work necessary for students to become fully engaged with the phenomenon of global communication through this dual master's degree program. Upon satisfaction of all program requirements, students will be awarded a Master of Arts (MA) in Global Communication by USC as well as a Master of Science (MSc) in Global Media and Communications by the LSE.

**Residence**
This is a two-year program during which students spend their first year at the LSE and their second year at USC.

**Foreign Language/Research Tool Requirements**
There are no foreign language requirements. Students take a one-semester research methods course as part of their course work at the LSE.

**Course Requirements**
The Master of Arts in Global Communication requires 42 units; the equivalent of 18 units earned at the LSE and 24 units earned at USC.

*Year One at LSE.* The LSE academic year has three terms. Students will complete classes approved by faculty at the LSE. Students must earn at least 3 units at the LSE, which articulates as 18 units at USC.

*Year Two at USC.* Students must complete COMM 598 as well as 20 elective units (5 courses) from the School of Communication graduate curriculum, excluding COMM 525, COMM 526, COMM 550 and COMM 552. All students are required to complete an internship/practicum during their year at Annenberg.

Students may choose one of their elective courses from a department outside Annenberg with the approval of their advisers. Students will produce a final research project on global communication that will be the product of work done both at the LSE and Annenberg. Students complete a research project during the summer after their year at the LSE for which grades are awarded by LSE faculty. A passing grade is required. They will continue to develop this project during the year at Annenberg in COMM 598 and must earn a grade of B minus or higher.

**Public Diplomacy (MPD)**
The Master of Public Diplomacy combines the resources of the Annenberg School for Communication and Journalism and the USC Dornsife College of Letters, Arts and Sciences’ School of International Relations. This program is designed for students who already have a substantial undergraduate background in social sciences or relevant professional experience in subjects such as communications, film and media studies, journalism, political science, public relations and international relations. Students in the program may decide to emphasize public diplomacy training most appropriate for a career in public service, the corporate world or in a nongovernmental organization (NGO) working in the ever-expanding global civil society. USC is a member of the Association of Professional Schools of International Affairs (APSIA).

Requirements for the completion of this degree program are 49 units, including the required substantive paper or alternative project. The course requirements are as follows:

**Public Diplomacy Requirements (12 Units)**
- PUBD 502 Historical and Comparative Approaches to Public Diplomacy Units: 4
- PUBD 504 Global Issues and Public Diplomacy Units: 4
- PUBD 596 Practicum in Public Diplomacy Research Units: 4

**Public Diplomacy Toolbox Courses (12 Units)**
- Any three approved PUBD courses

**Internship (1 Unit)**
- IR 591 Field Study Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

**Communication And International Relations Electives (16 Units)**
- Any two approved IR courses Units: 8
- Any two approved COMM or CMGT courses Units: 8

**Other Electives (COGNATE, COMM, CMGT, IR) (8 Units)**
These units may be taken from the School of Communication, School of International Relations or any graduate program at USC. Courses must be approved by the Public Diplomacy program director.

**Public Diplomacy (Practitioner and Mid-Career Professional) (MPD)**
This program is designed for students who already have at least five years experience working in public diplomacy (engaged in international advocacy, international publicity/public relations, international broadcasting, cultural and/or exchange work or other work which the admissions committee deems to fall within their definition of public diplomacy). The program is taught over a single calendar year beginning with a summer course introducing the advanced study of public diplomacy and ending in the middle of the following summer with the submission of a piece of research work. Refer to the application guidelines on the Annenberg Prospective Student Web pages.

Requirements for the completion of this degree program are 32 units including a substantive paper or alternative project. Core courses are taught in the School of Communication and the School of International Relations, USC Dornsife College of Letters, Arts and Sciences. With approval of the program director, students may select electives from the entire USC graduate curriculum.

**Public Diplomacy Core Requirements (8 Units)**
- PUBD 500 Introduction to the Advanced Study of Public Diplomacy Units: 4
- PUBD 596 Practicum in Public Diplomacy Research Units: 4

**Public Diplomacy Toolbox Courses (8 Units)**
- Select two approved PUBD courses
Electives (8 Units From Communication Or International Relations)
- Approved IR courses
- Approved COMM or CMGT courses

Other Electives (COGNATE, COMM, CMGT, IR) (8 Units)
These units may be taken from the School of Communication, School of International Relations or any graduate program at USC.

University Certificate
Health Communication Management
Graduate Certificate
This certificate program is for students holding master's degrees who wish to pursue or expand careers in health communication. Students will study the most recent theoretical and practical developments in the area of health communication and how this information can be used to improve public health as well as individual behavior.

Students take 16 units of graduate course work beyond the master's degree, of which 4 units may be cognate courses. One course must be from a preventive medicine, public health, pharmacology or other health science program that focuses on "what is communicated" in health communication.

A partial list of courses includes:
- CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
- CMGT 511 Health Communication Units: 4
- CMGT 520 Social Roles of Communication Media Units: 4
- CMGT 541 Integrated Communication Strategies Units: 4
- CMGT 578 Non-profit Advocacy Units: 4
- CMGT 581 Media in Social Services: Design and Evaluation of Campaigns Units: 4
- CMGT 583 Social Marketing and Entertainment Education Units: 4
- CMGT 587 Audience Analysis Units: 4

International and Intercultural Communication Management Graduate Certificate
This certificate program is for students holding master's degrees who wish to pursue or expand careers in international and intercultural communication management. Students will study the latest developments in information and communication technologies, markets and cultures, and industry practices within cross-nation, cross-cultural contexts.

Students take 16 units of graduate course work beyond the master's degree, of which 4 units may be cognate courses.

A partial list of courses includes:
- CMGT 531 Communication and the International Economy Units: 4
- CMGT 545 Communication and Global Competition Units: 4
- CMGT 556 Global Marketing Communication Units: 4
- CMGT 558 The International Entertainment Marketplace Units: 4
- CMGT 559 Global Hollywood Units: 4
- CMGT 580 Chinese Media and Society Units: 4
- CMGT 582 International Communication: National Development Units: 4
- CMGT 584 Communication and the Multicultural Marketplace Units: 4
- COMM 559 Globalization, Communication and Society Units: 4
- COMM 561 Leading and Communicating Change in Global Organizations Units: 4

Marketing Communication Management
Graduate Certificate
This certificate program is for students holding master's degrees who wish to pursue or expand careers in marketing communication.

Students will study the latest developments in marketing communication research and theory and the application to marketing communication issues.

Students take 16 units of graduate course work beyond the master's degree, of which 4 units may be cognate courses.

A partial list of courses includes:
- CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
- CMGT 541 Integrated Communication Strategies Units: 4
- CMGT 544 Creating Organizational Identity: Meaning Through Messages Units: 4
- CMGT 554 Copywriting and Creativity Units: 4
- CMGT 555 Online Marketing Communication Development and Analysis Units: 4
- CMGT 556 Global Marketing Communication Units: 4
- CMGT 578 Non-profit Advocacy Units: 4
- CMGT 581 Media in Social Services: Design and Evaluation of Campaigns Units: 4
- CMGT 583 Social Marketing and Entertainment Education Units: 4
- CMGT 584 Communication and the Multicultural Marketplace Units: 4
- CMGT 587 Audience Analysis Units: 4

Media and Entertainment Management
Graduate Certificate
This certificate program is for students who have already earned master's degrees and who wish to pursue or expand careers in the entertainment industry. Students will study the latest areas of entertainment-related research, theory and application. They will have a strong grounding in the theory, roles, issues and effects of entertainment as well as the impact of entertainment and new entertainment technologies on society, behavior and the entertainment industry.

Students take 16 units of graduate course work that may not be used or have been used for any other degree or certificate program, of which 4 units may be cognate courses.

A partial list of courses includes:
- CMGT 537 The Industry, Science and Culture of Video Games Units: 4
- CMGT 542 Business Strategies of Communication and Entertainment Firms Units: 4
- CMGT 543 Managing Communication in the Entertainment Industry Units: 4
- CMGT 546 Sports Media and Society Units: 4
- CMGT 547 Distribution of Recordings: Media, Retail and Online Channels Units: 4
- CMGT 549 Case Studies in Digital Entertainment Units: 4
- CMGT 550 Hollywood 3.0 — Entertainment Industry in the Convergence Age Units: 4
- CMGT 551 Communicating Entertainment Media Identities Units: 4
- CMGT 558 The International Entertainment Marketplace Units: 4
- CMGT 559 Global Hollywood Units: 4
- CMGT 574 Tele-Media: Strategic and Critical Analysis Units: 4
- CMGT 581 Media in Social Services: Design and Evaluation of Campaigns Units: 4
- CMGT 583 Social Marketing and Entertainment Education Units: 4
- CMGT 586 Entertainment Media: Content, Theory, and Industry Practices Units: 4
- COMM 570 Economics of the Communication Industries Units: 4
- COMM 579 Entrepreneurship in the New Media Units: 4

New Communication Technologies
Graduate Certificate
This certificate program is for students holding master's
degrees who wish to pursue or expand careers in communication technologies. Students will study the latest developments in new communication and media technologies and their application in a variety of organizational and social contexts.

Students take 16 units of graduate course work beyond the master's degree, of which 4 units may be cognate courses.

A partial list of courses includes:
- CMGT 515 Innovation and the Information Economy Units: 4
- CMGT 530 Social Dynamics of Communication Technologies Units: 4
- CMGT 533 Emerging Communication Technologies Units: 4
- CMGT 547 Distribution of Recordings: Media, Retail and Online Channels Units: 4
- CMGT 571 Communications Technologies Units: 4
- COMM 570 Economics of the Communication Industries Units: 4
- COMM 579 Entrepreneurship in the New Media Units: 4

**Strategic Corporate and Organizational Communication Management Graduate Certificate**

This certificate program is for students holding master's degrees who wish to pursue or expand careers in corporate communication and communication consulting. Students will study the latest developments in organizational communication research and theory and the application to business communication issues.

Students take 16 units of graduate course work beyond the master's degree, of which 4 units may be cognate courses.

A partial list of courses includes:
- CMGT 500 Managing Communication Units: 4
- CMGT 502 Strategic Corporate Communication Units: 4
- CMGT 503 Strategic Communication Consulting Units: 4
- CMGT 504 Writing for Strategic Communication Units: 4
- CMGT 505 Communication in Work Settings Units: 4
- CMGT 506 Communicating Strategy and Change Units: 4
- CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
- CMGT 536 Team Communication and Leadership Units: 4
- CMGT 573 Evaluating Communication Needs Units: 4
- CMGT 576 Communication Strategies for Conflict Management Units: 4
- CMGT 577 Communicating Corporate Social Responsibility Units: 4
- COMM 561 Leading and Communicating Change in Global Organizations Units: 4

**Dual Degree**

**Master of Communication Management/ Juris Doctor (MCG/JD)**

Academic training in law and in communication management provides a powerful background for careers in business, entertainment or government life. The USC Gould School of Law and the USC Annenberg School of Communication collaborate in a program that enables these educational opportunities.

Students complete both the JD and the Master of Communication Management in three years, the time normally required for the law degree alone.

Students must complete 20 units (five courses) of communication courses at the School of Communication: one required research methods course; one required core conceptual foundation course; one approved theory-practice integration course; and two courses from approved CMGT elective areas of focus.

To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean of the USC Gould School of Law may make exceptions to this rule for students enrolled in law school honors programs.

**First Year:** Required law school courses.

**Second and Third Years:** 20 units of communication courses, including the 4-unit required research methods course in the first semester of the second year, and the 4-unit required core conceptual foundation course in the second semester of the second year, and an approved 4-unit theory-practice integration course; 38 units of law courses, of which 8 units must be approved as appropriate for acceptance by the School of Communication toward its degree.

Application to pursue the dual degree should be made before completion of 15 units of work in law or 8 units toward the Master of Communication Management degree. Admission by the law school to its JD degree will be evaluated as a substitute for GRE scores.

**Master of Communication Management/ Master of Arts, Jewish Nonprofit Management (MCG/MA)**

The dual degree program, Communication Management/Jewish Nonprofit Management, offers students the opportunity for advanced study of sophisticated communication processes and technologies in the context of the nonprofit arena. The program has been developed by the USC Annenberg School for Communication and Journalism and Hebrew Union College-Jewish Institute of Religion's School of Jewish Nonprofit Management (formerly the HUC-HIR School of Jewish Communal Service) to combine the study of communication theory, processes and technologies with postgraduate education in Jewish nonprofit management and leadership. The goal of this program is for graduates to perform more effectively in the nonprofit sector, having received specific training in areas such as organizational communication, media impacts and policy.

Students of this program are admitted separately to each school. Students are required to complete 52 units of graduate course work at Hebrew Union College, which include the School of Jewish Nonprofit Management's thesis requirements. Four of the 52 required credits of graduate course work at Hebrew Union College are used to fulfill the School of Communication's cognate option.

In addition, students are required to take 24 units (six courses) at the School of Communication, including one required research methods course in the first semester; one required core conceptual foundation course in the second semester; one approved theory-practice integration course; and three courses from approved CMGT elective areas of focus.

Those interested in this program should contact the Office of Admissions, Hebrew Union College-Jewish Institute of Religion, 3077 University Avenue, Los Angeles, CA 90007-3796 for comprehensive information about the application process.

**Doctoral Degree**

**Communication (PhD)**

Students in the doctoral program learn theories that guide research into communication processes and effects and into institutions and technologies that lend pattern to communication. Applicants for the PhD are expected to acquire and demonstrate humanistic and behavioral knowledge of communication while acquiring skills requisite to scholarly research in the discipline.

**Screening Procedures**

Student progress is carefully monitored by the School of Communication faculty. Students are normally screened at the end of their first year of graduate study. At that time they must have completed no fewer than 16 and no more than 24 units, including COMM 525, COMM 526, COMM 550 and COMM 552. Students are evaluated on subject matter competence, teaching potential and their ability to conduct independent research. Upon successful passage of the screening procedure, the student has 30 days in which to form a qualifying exam committee.

**Course Requirements**

The student is required to take a minimum of 76 units and write an approved dissertation.

**Four core courses**

- COMM 525x Humanistic and Social Scientific Approaches to Human Communication I Units: 4
• COMM 526x Humanistic and Social Scientific Approaches to Human Communication II Units: 4
• COMM 550 Quantitative Research Methods in Communication Units: 4
• COMM 552 Qualitative Research Methods in Communication Units: 4

And Doctoral Dissertation
• COMM 794a Doctoral Dissertation Units: 2 are required for all students
• COMM 794b Doctoral Dissertation Units: 2 are required for all students

Students specialize in one of seven tracks by completing a minimum of three courses (12 units) in one of the following:

(1) Rhetoric, Politics and Publics:
• COMM 509x Classical Rhetorical Theory Units: 4
• COMM 511x Contemporary Rhetorical Theory Units: 4
• COMM 512x Rhetorical Criticism Units: 4
• COMM 513x Neoclassical Rhetorical Theory Units: 4
• COMM 514x Social Movements as Rhetorical Form Units: 4
• COMM 515x Postmodern Rhetorical Theory Units: 4
• COMM 517x Rhetorical Theory and Culture Units: 4
• COMM 518x American Public Address Units: 4
• COMM 520 The Rhetoric of the Presidential Campaign Trail Units: 4
• COMM 521x Argumentation Units: 4
• COMM 522x Kenneth Burke's Dramatic Theory Units: 4
• COMM 573 Networked Publics: Theories and Encounters Units: 4
• COMM 576 Civic Media and Participatory Politics Units: 4
• COMM 580 Media and Politics Units: 4

(2) Media, Culture and Community:
• CMGT 587 Audience Analysis Units: 4
• COMM 516x Feminist Theory and Communication Units: 4
• COMM 517x Rhetorical Theory and Culture Units: 4
• COMM 519x Cultural Studies in Communication Units: 4
• COMM 564 Communication, Culture and Capitalism Units: 4
• COMM 573 Networked Publics: Theories and Encounters Units: 4
• COMM 575 Advocacy and Social Change in Entertainment and the Media Units: 4
• COMM 580 Media and Politics Units: 4
• COMM 605 Advanced Macro Theories of Communication Units: 4
• COMM 618 Mass Media Effects Units: 4
• COMM 629 Global Culture Units: 4
• COMM 653 Research, Practice and Social Change Units: 4
• COMM 654 Art, Artists and Society Units: 4
• COMM 655 Studies in Sound, Music and Communication Units: 4
• COMM 656 Theorizing Race, Culture, Cross-Cultural Exchange Units: 4
• COMM 662 Video Games Research Units: 4
• COMM 672 Experiments in Critical Writing Units: 4

(3) Health Communication and Social Dynamics:
• CMGT 581 Media in Social Services: Design and Evaluation of Campaigns Units: 4
• CMGT 583 Social Marketing and Entertainment Education Units: 4
• CMGT 587 Audience Analysis Units: 4
• CMGT 588 Global Storytelling: The Power of Narrative Units: 4
• COMM 554 Regression and Multivariate Communication Research Units: 4
• COMM 602 Seminar in Persuasion Units: 4
• COMM 611 Communication Technology and Healthcare Units: 4
• COMM 612 Designing Health Communication Interventions Units: 4
• COMM 613 Grant Writing in Communication Units: 4
• COMM 614 Computational Approaches in Health Communication Units: 4
• COMM 615 Health Communication Units: 4
• COMM 616 Health Communication for Prevention Units: 4
• COMM 650 Survey Construction and Validation Units: 4
• COMM 651 Experimental and Quasi-Experimental Designs Units: 4

(4) Groups, Organizations and Networks:
• COMM 508x Power, Politics and Conflict in Communication Units: 4
• COMM 524x Small Group Process Units: 4
• COMM 585x Organizational Communication Units: 4
• COMM 635 Economics of Information Units: 4
• COMM 636 Interpretive and Cultural Approaches in Organizational Communication Units: 4
• COMM 637 Current Readings in Organizational Communication Units: 4
• COMM 638 Global, International and Intercultural Communication in Organizations Units: 4
• COMM 640 Organizations and Organizational Change Units: 4
• COMM 641 Organizations and Communication Technologies Units: 4
• COMM 645 Communication Networks Units: 4
• COMM 648 Online Communities and Networks Units: 4
• COMM 652 Field Research in Communication Units: 4

(5) Political Economy of Global Communication:
• COMM 546 The Political Economy of Innovation Units: 4
• COMM 553 Political Economy of Global Telecommunications and Information Units: 4
• COMM 559 Globalization, Communication and Society Units: 4
• COMM 560 Global Media and Communication in China and Asia Units: 4
• COMM 561 Leading and Communicating Change in Global Organizations Units: 4
• COMM 567 The Political Economy of Privacy and Cybersecurity Units: 4
• COMM 570 Economics of the Communication Industries Units: 4
• COMM 582 Information and Communication Technology for Development Units: 4
• COMM 629 Global Culture Units: 4
• COMM 630 Communication Technology and Social Change Units: 4
• COMM 635 Economics of Information Units: 4
• COMM 645 Communication Networks Units: 4
• COMM 647x Network Society Units: 4
• PUBD 504 Global Issues and Public Diplomacy Units: 4
• PUBD 510 Technologies and Public Diplomacy Units: 4
• PUBD 515 Transnational Diplomacy and Global Security Units: 4
• PUBD 516 International Broadcasting Units: 4
• PUBD 522 Hard Power, Soft Power and Smart Power Units: 4

(6) Information, Political Economy and Entertainment:
• CMGT 582 International Communication: National Development Units: 4
• COMM 516x Feminist Theory and Communication Units: 4
• COMM 559 Globalization, Communication and Society Units: 4
• COMM 560 Global Media and Communication in China and Asia Units: 4
• COMM 563 Black Popular Culture: Theory and Central Debates Units: 4
• COMM 564 Communication, Culture and Capitalism Units: 4
• COMM 586 Using Theory to Craft Policies to Affect Change Units: 4
• COMM 570 Economics of the Communication Industries Units: 4
- COMM 630 Communication Technology and Social Change Units: 4
- COMM 647x Network Society Units: 4
- COMM 654 Art, Artists and Society Units: 4
- COMM 660 Entertainment and Games Units: 4
- COMM 662 Video Games Research Units: 4
- COMM 670 Economic Cultures Units: 4

(7) New Media and Technology:
- CMGT 530 Social Dynamics of Communication Technologies Units: 4
- CMGT 531 Communication and the International Economy Units: 4
- CMGT 537 The Industry, Science and Culture of Video Games Units: 4
- COMM 524x Small Group Process Units: 4
- COMM 570 Economics of the Communication Industries Units: 4
- COMM 572 Theories of Computer-Mediated Communication Units: 4
- COMM 573 Networked Publics: Theories and Encounters Units: 4
- COMM 576 Civic Media and Participatory Politics Units: 4
- COMM 577 Fandom, Participatory Culture and Web 2.0 Units: 4
- COMM 578 New Media Literacies Units: 4
- COMM 611 Communication Technology and Healthcare Units: 4
- COMM 641 Organizations and Communication Technologies Units: 4
- COMM 647x Network Society Units: 4

Additional Requirements

In addition, students must take at least two courses in one other track outside their specialization (8 units total). Students also pursue an approved cognate elective program of study in which at least two courses (normally 8 units) are taken in a related field outside USC Annenberg School. Students entering the School of Communication with a master's degree may, with permission, apply part of their previous graduate course work to the cognate requirement. Students with a master's degree may, with permission, apply part of their previous graduate course work to the cognate requirement. Students must confer with their qualifying exam committee chair, not later than the second week of the semester during which the examinations are to be taken, regarding distribution of written examination hours among subject matter areas.

Doctoral Dissertation

Dissertations are defended in a formal meeting with the three-member dissertation committee. The school prefers that the defense be taken prior to final typing so that recommended changes can be made in the final manuscript.

School of Journalism

USC Annenberg School for Communication and Journalism
3502 Watt Way, Suite 303
(213) 740-0900 (academic and student services inquiries)
(213) 740-3914 (advisory)
(213) 821-0770 (admission inquiries)
FAX: (213) 740-8624

Administration
Interim Director: Gordon Stables, PhD

Faculty
Wallis Annenberg Chair in Communication and Journalism: León Krauze, MA
Walter H. Annenberg Chair in Communication: Willow Bay, MBA
University Professor and Annenberg Family Chair in Communication Leadership: Geoffrey Cowan, LLB
Jayne and Hans Hufschmid Chair in Strategic Public Relations and Business Communication: Robert Kozinets, PhD
Knight Chair in Media and Religion: Diane Winston, PhD
Provost Professor of Communication, Journalism and Cinematic Arts: Henry Jenkins, PhD

Professors: K.C. Cole, BA; Geoffrey Cowan, LLB*; Henry Jenkins, PhD; Robert Kozinets, PhD; Joshua Kun, PhD (Communication); Tim Page, BA; Michael Parks, BA; Joe Saltzman, MS*; Philip Seib, JD; Roberto Suro, MS; Sandy Tolan, BFA

Associate Professors: Mike Ananny, PhD (Communication); Ben Carrington, PhD; William Celis, MS*; Jonathan Kotler, JD*; Jian Wang, PhD; Diane Winston, PhD

Assistant Professors: Allissa Richardson, PhD; Aimei Yang, PhD

Professors of Professional Practice: Willow Bay, MBA; Daniel Birman, MA; Laura Castañeda, EdD; Fred Cook, BA; Jennifer Floto, MA*; Vince Gonzales, MA; Gabriel Kahn, BA; Stacy Scholder, BA; Willa Seidenberg, BA; Burghardt Tenderich, PhD

Clinical Professor (Communication): Mark Lloyd, JD

Associate Professors of Professional Practice: Alan Abrahamson, JD; Amara Aguilar, MA; Sasha Anawalt, BA; Peggy Bastianante, MA; Jeff Fellenzer, MA; Rebecca Haggerty, EdD; Robert Hernandez, BA; Matthew Le Veque, BA; Alan Mittelstaedt, BA; Mary Murphy, BA; Lisa Pecot-Hébert, PhD

Assistant Professors of Professional Practice: Laura Davis, BA; Miki Turner, BA

Senior Lecturers: Richard Reeves, ME

Lectures: Dana Chinn, MBA; Jennifer de la Fuente, BA

Emeritus Professors: Ed Cray, BA; Murray Fromson; Felix
Gutierrez, PhD; Judy Muller, BA; Bryce Nelson, MPhil
Emeritus Professor of Professional Practice: Gerald Swerling, MS
Emeritus Associate Professors: William Robert Faith, PhD; Larry Pryor, MS
*Recipient of university-wide or college teaching award.

Degree Programs
The School of Journalism offers Bachelor of Arts degrees in Journalism and Public Relations. It also offers minors in Advertising, News Media and Society, Public Relations and Sports Media Industries. The school stresses a broad-based liberal arts education to enhance writing and reporting and encourages undergraduate students to pursue double majors or minors in disciplines outside the school.

At the graduate level, a Master of Science degree is offered in Journalism and Master of Arts degrees are offered in Specialized Journalism, Specialized Journalism (The Arts) and Strategic Public Relations. The MS in Journalism degree is an intense, deadline-driven program in which students learn to write, report, produce, code, publish and promote cross-platform stories in a converged news environment. Cutting-edge digital courses cater to students interested in careers in social media, data journalism, data visualization, app creation, online design and publishing, emerging mobile platforms and coding. The Specialized Journalism degree is designed for experienced professionals and recent journalism graduates interested in developing specialized reporting expertise. The Specialized Journalism (The Arts) degree is designed for experienced professionals, art practitioners, and recent journalism graduates interested in arts and culture criticism and reporting. The Strategic Public Relations degree emphasizes the requisite skills of that discipline, with an emphasis on strategic problem solving, public relations theory and techniques, writing, research-based planning and analysis, content development, case studies and the application of the discipline to specific industry categories.

Student Services
Students must meet with an advisor at least once each semester to receive academic advisement covering university degree requirements and major course selection. The school also offers several international study programs to students. The USC Annenberg Career Development Office has listings for paid and unpaid internships from around the country. Career advisers conduct mandatory advisement appointments for all sophomores and offer career workshops, guest speakers and mentoring opportunities. Students are advised to participate in at least two internships before graduation.

Honor Society
Lambda Pi Eta is a national communication/journalism honor society that is open to students in graduate and undergraduate Annenberg programs. To be eligible, students must have a USC cumulative GPA and an Annenberg major GPA of 3.5 or higher. In addition, undergraduate students must have a declared communication, journalism or public relations major, and have completed (or currently be registered for) at least 60 units, at least 12 of which are in the major. Graduate students must have completed at least 12 units in the fields of communication, journalism or public relations.

Undergraduate Degrees
The School of Journalism offers Bachelor of Arts degrees in Journalism and Public Relations. The school also offers minors in Advertising, News Media and Society, Public Relations and Sports Media Industries. Journalism students are encouraged to pursue double majors or minors in other areas of study.

To meet accreditation guidelines, a minimum of 72 units must be completed outside the major area of journalism. A maximum of 16 units of course work taken prior to high school graduation and a combined 32 units of AP, IB and pre-high school graduation course work will count toward this requirement. Journalism and public relations majors can take up to a maximum of 48 journalism units; however, the major unit total (44 units) cannot be exceeded, unless the student has fulfilled the accreditation requirement.

A grade point average of at least C (2.0) on all baccalaureate units attempted at USC, as well as on the combined USC-transfer GPA, is required for undergraduate degrees. A minimum cumulative grade point average of 2.0 in all upper-division courses applied toward the major is also required. Students must complete each journalism and public relations class with at least a grade of C- in order to count the course toward a major requirement. Journalism and public relations courses with a grade of D+ or below must be repeated; courses may only be retaken once.

Students interested in taking JOUR 489 Hands-on Disruption: Experimenting with Emerging Technology must contact the instructor for permission to enroll. The instructor will need to assess the technical skill sets of the students to ensure that everyone who enrolls meets the class requirements.

Undergraduate students who are interested in enrolling in JOUR 585 Specialized Reporting: Religion must be a senior, have at least a 3.7 cumulative GPA, and must contact the instructor for permission to enroll.

Non-majors who are interested in enrolling in PR 209 Effective Writing for Strategic Public Relations and/or PR 250 Strategic Public Relations: An Introduction must have at least a 2.5 GPA.

Admission Requirements
Admission is competitive. Fall 2016 incoming freshmen had an average GPA of 3.61 with an SAT score of 1920–2180 (middle 50%). Transfer students had an average college GPA of 3.66. For admission information and deadlines, refer to the USC Admission Website. All transfer applicants must review the transfer admission application guidelines on the Annenberg Admissions Website; contact the Annenberg Admissions Office for more information. USC exclusively uses the Common Application for freshman and transfer admission. Applicants must submit the Common Application and the USC Supplement, both of which can be accessed at commonapp.org. In addition to the university writing samples, a 250-word statement of intent is required; instructions are included with the USC Supplement.

Students currently enrolled at USC who wish to apply to the School of Journalism must complete the online application with all supporting documents. Students must have 16 units completed at USC with a minimum USC cumulative GPA of 3.0 in order to be eligible to apply to the journalism or public relations major. The 3.0 GPA is a minimum standard and does not guarantee admission. In order to be eligible to apply for the Advertising or New Media and Society minors, students must have a minimum USC cumulative GPA of 2.0 and a declared major. To apply to the Public Relations or Sports Media Industries minors, students must have a minimum USC cumulative GPA of 2.5 and a declared major. For further information on the application process, current USC students are encouraged to attend an information session conducted by Annenberg Advisement and Academic Services.

General Education Requirements
The university's general education program provides coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see the General Education Program.

Grammar, Spelling and Punctuation (GSP) Requirement
All undergraduate journalism and public relations majors are required to complete the Grammar, Spelling and Punctuation (GSP) online learning module and exam. The GSP exam is administered in JOUR 208 for the journalism majors and PR 209 for public relations majors. This exam must be taken and passed by the end of
the semester. Students who do not pass the exam will be allowed to retake it. Students who fail to pass the GSP will not be allowed to progress in the program until they pass the exam.

Note: Students with disabilities may register with the Disability Services and Programs Office (DSP) so the DSP staff can assess the nature of the students' disabilities and recommend the appropriate accommodations to be provided for each student.

**Annenberg International Programs**

**Spring Semester in London, England (Journalism and Public Relations)**

Undergraduate journalism and public relations students may spend the spring semester of their junior year at a dedicated study center, where they enroll in 16 units of upper-division Annenberg coursework, eight of which are for major credit. In addition to their studies, students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to British media, culture and civilization. The program also includes group excursions to such places as Bath, Oxford, Liverpool and Hampton Court. A minimum USC cumulative GPA of 3.0 is required for this program.

**Spring Semester in Auckland, New Zealand (Journalism and Public Relations)**

This undergraduate semester program offers students the opportunity to study at the Auckland University of Technology in New Zealand, a leading southern hemisphere school of journalism and media studies. Fully integrated into the university and its vibrant urban surroundings with strong connections to the nation’s indigenous heritage, the program allows students to earn 8 units that fulfill journalism/public relations electives and 8 units of general electives. A minimum USC cumulative GPA of 3.0 is required for this program.

**Spring Semester in Rio de Janeiro, Brazil (Journalism and Public Relations)**

This semester program offers students the opportunity to learn about Brazilian culture through an intensive pre-semester Portuguese-language course* and through civic engagement projects that benefit the local communities in Rio de Janeiro. (*This course does not count for a USC language requirement.) Through the Council on International Educational Exchange (CIEE), USC Annenberg students enroll in 18-20 USC units in courses offered by CIEE and at the Escola Superior de Propaganda e Marketing, Brazil’s top communication and journalism school. The program is open to journalism and public relations majors. Visit the Annenberg International Programs website for more information on language and other prerequisites. A minimum USC cumulative GPA of 3.0 is required for this program.

**Spring Semester in Rome, Italy (Journalism and Public Relations)**

Undergraduate journalism and public relations students may spend a spring semester at a dedicated study center, where they enroll in 16 units of upper-division Annenberg coursework, eight of which are for major credit. In addition to their studies, students tour publishing and broadcasting companies, meet communication executives and government policy-makers and gain exposure to Italian media, culture and civilization. The program also includes guided visits to museums and historical districts, as well as an overnight group excursion to Tuscany. A minimum USC cumulative GPA of 3.0 is required for this program.

The International Communication Studies Program (ICS) allows undergraduate students to study a range of approaches to public communication media across Europe during the summer semester. Students divide the five-week course into stays in Los Angeles, London, Paris, Madrid, Berlin and Prague. In addition to regular class meetings, students discuss the interplay of current world issues and international media practices with communication practitioners from international news and public relations media, government institutions, private industry and global organizations. Students enroll in JOUR 482 Comparative Media in Europe (4 units). A minimum USC cumulative GPA of 3.0 is required for this program. For further information, contact Annenberg International Programs at (213) 821-1276, email ascinfl@usc.edu or visit annenber.usc.edu/international.

**Departmental Honors**

Undergraduate students who are nominated by journalism faculty to participate in JOUR 498 – Honors Seminar (2 units) or PR 498 – Public Relations Honor Seminar (2 units) their senior year are eligible for departmental honors. Nominations are based on academic achievement, performance in the classroom, leadership and involvement in the school. Students who successfully complete JOUR 498 or PR 498 with a B+ or higher and achieve no less than a USC cumulative GPA of 3.0 and a journalism or public relations major GPA of 3.5 at the time of graduation will receive departmental honors.

**Academic Integrity Policy**

Since its founding, the USC School of Journalism has maintained a commitment to the highest standards of ethical conduct and academic excellence. Any student found plagiarizing, fabricating, cheating on examinations, and/or purchasing papers or other assignments faces sanctions ranging from an “F” on the assignment to dismissal from the School of Journalism.

**Progressive Degree Program**

The School of Journalism offers progressive degree options for the Master of Science in Journalism, Master of Arts in Specialized Journalism, and Master of Arts in Specialized Journalism (The Arts). The progressive degree program allows USC students to complete a bachelor's degree and master's degree in as little as five years. Students with a USC cumulative GPA of 3.0 or higher in all classes taken at the university level are eligible to apply for admission to the degree program during their junior year. The 3.0 GPA is a minimum standard and does not guarantee acceptance. Current students must attend an information session conducted by Annenberg Admissions and a member of the faculty before initiating the application process. Students admitted into the progressive degree program begin taking master's level courses in their senior year and may complete the master's degree in year five.

For further information on the application process, current USC students must attend a mandatory information session. Contact Annenberg Admissions for session dates. Application materials must be downloaded from undergrad.usc.edu/programs/progressive/.

**Graduate Degrees**

The School of Journalism offers one Master of Science degree program in Journalism, three Master of Arts degree programs in Specialized Journalism, Specialized Journalism (The Arts) and Strategic Public Relations, and two certificates in Journalism and Public Policy Advocacy.

The nine-month, 36-unit MS in Journalism is an intense, deadline-driven program in which students learn to write, report, produce, code, publish and promote cross-platform stories in a converged news environment. Students also choose a specialty area that prepares them for careers in broadcast television and radio news, long-form audio and video documentaries, in-depth reporting and writing or multimedia news production. Cutting-edge digital courses cater to students interested in careers in social media, data journalism, data visualization, app creation, online design and publishing, emerging mobile platforms and coding.

The nine-month, 34-unit MA in Specialized Journalism is a program geared toward experienced journalists seeking subject-matter expertise and toward experienced professionals in other fields seeking journalism skills to advance their expertise. The program is also open to recent journalism school graduates with records of excellence and a demonstrated aptitude and commitment to developing an expertise in a specialized field of reporting.

The nine-month, 34-unit MA in Specialized Journalism (The Arts) is geared toward experienced arts journalists, as well as recent graduates with a demonstrated commitment to specializing in arts journalism. The program is also open to experienced artists...
and practitioners with a highly developed background in at least one art form who want to acquire journalism skills toward a future specializing in the coverage of arts and culture.

The 16-18-month professionally oriented MA in Strategic Public Relations degree is designed to train both recent graduates interested in public relations and related fields, and young professionals considering transitions into that field or seeking to advance their careers, for eventual management-level positions in all types of organizations. In their first two semesters, all students take a core group of courses focusing on strategic problem-solving, research-based actionable insight, business acumen and skills. In their third and fourth semester students choose from a wide variety of electives and have the opportunity to specialize in one of six specific tracks. Admission to the Journalism certificate is by permission only. Only current graduate students may apply to the Public Policy Advocacy certificate.

Admission Requirements
Prerequisites
An applicant must have the equivalent of a four-year bachelor's degree from an accredited college or university for the MS or MA degree. Applicants with three-year bachelor's will be considered for admission to the graduate journalism certificate.

Criteria
Minimum recommended criteria are a 3.0 GPA for undergraduate work and valid Graduate Record Examinations (GRE) General Test scores; the GMAT is not accepted in lieu of the GRE. International applicants are required to take the Test of English as a Foreign Language (TOEFL) and should receive a score of 114 on the Internet-based exam; the International English Language Testing System (IELTS) is accepted in lieu of the TOEFL and the minimum recommended score is 8.0. All completed applications are reviewed by the faculty admission committee even if the applicant's academic quality is below the minimum recommendations. Applicants are strongly encouraged to complete admission testing at least one month prior to the application deadline. GRE scores are valid for five years; TOEFL and IELTS are valid for two years.

In addition, applicants are judged on a personal statement of purpose, résumé, writing sample and letters of recommendation submitted on their behalf. Professional journalism or internship experience is expected for the MS in Journalism and required for the nine-month MA degree program in Specialized Journalism. A professional work bibliography and samples must be uploaded to the online application. No professional public relations work experience is required for the MA in Strategic Public Relations.

Procedure
Applicants must complete and submit the online USC Graduate Admission Application. Refer to the Annenberg graduate application guidelines on the Annenberg Admissions website for details before initiating the application. In addition, international students must submit official TOEFL or IELTS scores for admission consideration and, after submitting the online graduate admission application, a Confidential Statement for Financing Studies at USC.

Applicants must upload the following supporting materials to the online USC Graduate Admission Application: personal statement of purpose, copy of official transcripts from each college/university attended, writing sample and résumé. Letters of recommendation must be submitted online. Official GRE and TOEFL or IELTS scores must be reported electronically from the Educational Testing Service (ETS) to USC (institution code 4852). The IELTS testing center must report scores to USC Graduate Admission. Paper copies of score reports are not required or accepted in lieu of the official ETS report. Official transcripts must be mailed to USC Graduate Admission.

New students are admitted to the MS in Journalism, the MA in Specialized Journalism, the MA in Specialized Journalism (The Arts) and the Journalism Certificate for the summer session only. Refer to the graduate application guidelines on the Annenberg Admissions Website for application filing dates.

New students are admitted to the MA in Strategic Public Relations degree program for the fall semester only. Refer to the Annenberg Website for application filing dates.

Degree Requirements
All course work applied toward a degree must be approved by the School of Journalism and the Graduate School.

Academic Integrity Policy
Since its founding, the USC School of Journalism has maintained a commitment to the highest standards of ethical conduct and academic excellence. Any student found plagiarizing, fabricating, cheating on examinations and/or purchasing papers or other assignments faces sanctions ranging from an "F" on the assignment to dismissal from the School of Journalism.

Bachelor's Degree

Journalism (BA)

Required Courses, Lower Division
- ASCJ 200 Navigating Media and News in the Digital Age Units: 4
- JOUR 201 Culture of Journalism: Past, Present and Future Units: 4
- JOUR 207 Reporting and Writing I Units: 4
- JOUR 208 Media Law and Ethics Units: 2

Required Courses, Upper Division
- JOUR 307 Reporting and Writing II Units: 4
- JOUR 320 Introduction to Coding for Storytelling Units: 2
- JOUR 321 Visual Journalism Units: 2
- JOUR 322 Data Journalism Units: 2
- JOUR 323 Creating your Digital Footprint and Brand Units: 2
- JOUR 372 Engaging Diverse Communities in the Digital Era Units: 2
- JOUR 408 Advanced Media Law in the Digital Age Units: 2
- JOUR 414 Advanced Digital Media Storytelling Units: 2

Upper-Division Electives
Complete 12 upper-division journalism or public relations elective units chosen in consultation with your adviser.

Public Relations (BA)

Total units: 44

Required Courses, Lower Division
- PR 209 Effective Writing for Strategic Public Relations Units: 4
- PR 250 Strategic Public Relations: An Introduction Units: 4

Required Courses, Upper Division
- PR 351a Strategic Public Relations Media and Content Units: 4
- PR 351b Strategic Public Relations Media and Content Units: 4
- PR 428 Social, Legal and Ethical Foundations of Public Relations Units: 4
- PR 429 Business and Economic Foundations of Public Relations Units: 4
- PR 450 Advanced Strategic Public Relations Units: 4
- PR 463 Strategic Public Relations Research, Analysis and Insights Units: 4
- Plus 12 upper-division PR and/or JOUR elective units chosen in consultation with an adviser

Minor

Advertising Minor
The advertising minor is designed for students interested in building a career in, or developing a better understanding of, the field of advertising. It explores the key role played by advertising in today's global economy. At no time has advertising been more successful or more controversial than it is today, and this program will explore both the positives and the negatives. Emphasis is placed throughout the program on both the practical skills required to meet the demands of the marketplace and the theoretical underpinnings of these practices. Program content includes: the history of advertising; creation of written and visual advertising elements; the measurement, selection and analysis of media; the concept of "branding;" the role
of advertising in creating and maintaining successful brands; the analysis of advertising campaign case studies; and the creation of integrated marketing communications campaigns.

**Required Courses**

- PR 340 Introduction to Advertising Units: 4
- PR 341 Advertising Copywriting Units: 4
- PR 342 Advertising Media and Analysis Units: 4
- PR 343 Advertising Design and Production Units: 4
- MKT 406 Practicum in Advertising and Promotion Design Units: 4.0

**Select one additional course from the following:**

- MKT 402 Research Skills for Marketing Insights Units: 4
- MKT 405 Advertising and Promotion Management Units: 4
- MKT 425 Marketing in a Digital World Units: 4

**Total units: 24**

### News Media and Society Minor

News media and society is a journalism minor that explores the responsibilities, the influence, the ethics and the diversity of the news media. It explores the myths about news media in the United States and explains what the news media are, how they work, what they do wrong and what they do right, and why they are important to a society whose citizens depend on the free and unfettered flow of information. This minor will help all students in all majors to understand one of the most important and misunderstood forces in American society: the news media.

News media and society benefits every student at the university because it gives students a new appreciation and understanding of the news media that so much influence their lives on a daily basis.

**Required Course, Lower Division**

- JOUR 201 Culture of Journalism: Past, Present and Future Units: 4

**Required Courses, Upper Division**

- COMM 371 Censorship and the Law: From the Press to Cyberspace Units: 4
- 16 upper-division journalism units chosen in consultation with an adviser Units: 16

**Total units: 24**

**Students are urged to choose their 16 upper-division units from these classes:**

- JOUR 373 Journalism Ethics Goes to the Movies Units: 4
- JOUR 375 The Image of the Journalist in Popular Culture Units: 4
- JOUR 460 Social Responsibility of the News Media Units: 4
- JOUR 466m People of Color and the News Media Units: 4
- JOUR 467 Gender and the News Media Units: 4

### Nonprofits, Philanthropy and Volunteering Interdisciplinary Minor

This four-course minor enables students to learn about the nonprofit sector — its organizations, philanthropy and voluntary action. See complete description in the USC Price School of Public Policy section.

### Public Relations Minor

The public relations minor is designed for students interested in building a career in, or developing a better understanding of, the field of public relations. At no time has public relations been more successful or more visible than it is today. Emphasis is placed throughout the program on both the practical skills required to meet the demands of the marketplace and the critical thinking required to be a successful entry-level public relations practitioner.

**Required Courses**

- PR 209 Effective Writing for Strategic Public Relations Units: 4
- PR 250 Strategic Public Relations: An Introduction Units: 4
- PR 352 Public Relations Media and Content for Non-Majors Units: 4

**Elective Courses**

Choose 12 units of PR or JOUR 300-499 level electives.

### Sports Media Industries Minor

Organized sports are one of the most popular forms of live and participatory entertainment, and produce vast quantities of mediated content. Virtually all professional sport, and increasingly much of amateur competition, is influenced by the importance of the competitions shared with a wide range of audiences and utilizing diverse platforms to engage these fans. This content rich environment highlights how leagues, teams, players and coaches are each independent and interdependent brands, as well as creators and distributors of multimedia content. This volume of sports content creates new challenges for journalistic norms and storytelling techniques as well as new opportunities for the business of sports media management. The Sports Media Industries minor introduces students to a range of professional settings, activities and challenges related to the growth of sports media.

This 20-unit minor requires that students be introduced both to sports journalism as content production and also to the notion of sports media as a unique setting for publicity, advertising, and public relations. Students will develop the skills required to create sports media content, and increase their ability to critically examine sports media's influence on contemporary culture, particularly issues related to race, gender, class and sexual orientation. The minor will also establish an introductory knowledge of the business of sports and sports media. Elective courses allow students greater opportunity to explore these fields as well as take courses dedicated to specific aspects of sports media.

**Required Core Course**

- JOUR 350 Introduction to Sports Media Units: 4

**Electives**

Choose at least 16 units from the following:

- COMM 387 Sports and Social Change Units: 4
- JOUR 380 Sports, Business and Media in Today's Society Units: 4
- JOUR 432 Sports Commentary Units: 4
- JOUR 441 Sports Reporting Units: 2
- JOUR 480 Sports and Media Technology Units:
- PR 453 Public Relations Strategies for Working with Athletes Units: 4
- PR 454 Sports Public Relations Units: 2

### Master's Degree

#### Journalism (MS)

#### Master of Science

Studies toward the Master of Science in Journalism require 36 units of prescribed courses and approved electives in the student's field of study. No more than 12 units of 400-level course work may be applied toward the Master of Science in Journalism. Students who earn a GPA of below 3.0 will be placed on academic probation and must improve according to established terms if they are to remain in the school. In the case of courses offered on Credit/No Credit (CR/NC) basis, faculty review of competence will be substituted for grades.

#### Residence

Students in the Master of Science in Journalism can complete the program in nine months by enrolling in the four-week summer immersion course and enrolling in 16 units in the fall and spring semesters. The School of Journalism will accept only 4 units of approved transferred graduate credit.

#### Foreign Language/Research Tool Requirements

There is no foreign language or research tool requirement for the master's degree, but fluency in the English language is needed for success in the program.
Grammar, Spelling and Punctuation (GSP)

Journalism students are required to complete an online tutorial about Grammar, Spelling and Punctuation (GSP) and pass the GSP test before the end of the spring semester. Students who fail to complete the GSP tutorial and pass the test within the stated time frame will not be allowed to progress in the program and will be dismissed from the School of Journalism.

Note: Students with disabilities may register with the Disability Services and Programs office (DSP) so the DSP staff can assess the nature of the students' disabilities and recommend the appropriate accommodations to be provided for each student.

Capstone Project

MS in Journalism students must enroll in JOUR 598 (4 units) in order to graduate. Completed projects are judged by a committee appointed by the director of the School of Journalism and degrees are conferred based on the committee's review.

Course Requirements (36 units)

- JOUR 505 The Practice: Journalism's Evolution as a Profession Units: 1
- JOUR 528 Summer Digital Journalism Immersion Units: 4
- JOUR 531L Fall Digital Journalism Immersion Units: 4
- JOUR 546 News, Numbers and Introduction to Data Journalism Units: 2
- JOUR 547 Navigating the Media Marketplace Units: 1
- JOUR 553 Coding and Programming for Storytelling Units: 2
- JOUR 560 Seminar in Mass Communication Law Units: 2
- JOUR 599 Special Topics Units: 2, 3, 4
- JOUR 598 Journalism Capstone Project Units: 4

Plus 14 approved elective units (400-level courses and above).

Note: Students should enroll in JOUR 510 Special Assignment Reporting.

Emphases

Students interested in specific journalistic platforms are encouraged to select an emphasis and complete the recommended courses for that emphasis:

Long-Form Video

- JOUR 521 Documentary Pre-Production Units: 2
- JOUR 522 Video Documentary Production Units: 4
- JOUR 575 Converged Media Center Units: 2, 4

News Video

- JOUR 517 Advanced Investigative Reporting Units: 3
- JOUR 524 Advanced Broadcast Reporting Units: 4
- JOUR 539 Introduction to Investigative Reporting Units: 2
- JOUR 552 Television Reporting and Production Units: 2
- JOUR 575 Converged Media Center Units: 2, 4

Audio

- JOUR 495 Journalism for Mobile and Emerging Platforms Units: 2
- JOUR 523 Public Radio Reporting Units: 2
- JOUR 525 Public Radio Documentary Units: 4
- JOUR 575 Converged Media Center Units: 2, 4

Text

- JOUR 517 Advanced Investigative Reporting Units: 3
- JOUR 519 Advanced Writing and Reporting for Magazine and the Web Units: 4
- JOUR 539 Introduction to Investigative Reporting Units: 2
- JOUR 575 Converged Media Center Units: 2, 4
- JOUR 577 Monetization and the New Media Units: 3
- JOUR 585 Specialized Reporting: Religion Units: 3
- JOUR 586 Specialized Reporting: Science Units: 3
- JOUR 596 Follow the Money: Business and Economics Reporting Units: 3

Digital

- JOUR 489 Hands-on Disruption: Experimenting with Emerging Technology Units: 2
- JOUR 494 Python Coding for Data Journalism Units: 2
- JOUR 495 Journalism for Mobile and Emerging Platforms Units: 2
- JOUR 496 Interactive Media Design for Publishing Units: 4
- JOUR 497 Data Visualization and Interactive Tools Units: 2
- JOUR 533 Web Journalism and Editorial Site Management Units: 2
- JOUR 551 Intermediate Online Publishing Units: 4
- JOUR 555 Advanced Coding for Creative Storytelling Units: 4
- JOUR 561 Advanced Data Journalism Units: 2
- JOUR 575 Converged Media Center Units: 2, 4

Specialized Journalism (MA)

Master of Arts

The Master of Arts in Specialized Journalism is a program geared toward experienced journalists seeking subject matter expertise and toward experienced professionals in other fields seeking journalism skills to advance their expertise. The program is also open to recent School of Journalism graduates with records of excellence in their university classes and internships and a demonstrated aptitude and commitment to developing an expertise in a specialized field of reporting.

Students must begin the program in summer term, enrolling in a required 4-unit, intensive course focused on journalism and society and on digital media. In addition to the formal classes, the course includes multimedia skills workshops. This gateway course provides the master's students with a working knowledge of the specialized journalism and the multimedia storytelling skills necessary for study in the program. It sets the stage for two semesters of access to courses as substantively broad as a major research university such as USC makes available and for advanced courses in the School of Journalism's graduate program.

In the fall semester, students will enroll in two courses in the School of Journalism, including a critical thinking course for journalists and a specialized reporting course. With the advice of their academic adviser and faculty mentors, students will select elective course work totaling 8 units appropriate to their fields of specialization. These courses will be drawn from regular graduate and 400-level courses taught across the university. Students also will begin research for their master's professional project. Thesis topics must be approved in advance by faculty. These projects will be extended works of journalism, such as a full-length magazine article, similar radio, television or multimedia treatments or the equivalent in their professional field.

In the spring semester, students will enroll in a journalism seminar focused on the reporting and analysis of decision-making and typically an approved elective in the Annenberg School. Students will also enroll in elective course work totaling 8 units, chosen again from offerings across the university and in consultation with their faculty mentors. Finally, students will complete their master's professional project.

The nine-and-a-half-month program has been designed for a fall and spring semester enrollment cycle; however, students may also elect to complete the program on a part-time basis, but must start with the intensive summer course.

Studies toward the Master of Arts in Specialized Journalism require 34 units of prescribed courses and approved electives. No more than 10 units of 400-level course work may be applied toward the Master of Arts in Specialized Journalism.

Residence

The Master of Arts in Specialized Journalism can be completed in a nine-month enrollment cycle that includes the four-week summer session, plus the fall and spring semesters. These programs may be attended on a part-time basis.

Foreign Language/Research Tool Requirements

There is no foreign language or research tool requirement for the master's degree.

Grammar, Spelling and Punctuation (GSP)

Journalism and strategic public relations graduate students are
required to complete an online tutorial about Grammar, Spelling and Punctuation (GSP) and pass the GSP test before the end of the fall semester of their first year. Students who fail to complete the GSP tutorial and pass the test within the stated time frame will not be allowed to progress in the program and will be dismissed from the School of Journalism.

Note: Students with disabilities may register with the Disability Services and Programs office (DSP) so the DSP staff can assess the nature of the students' disabilities and recommend the appropriate accommodations to be provided for each student.

Master's Thesis
MA in Specialized Journalism students normally enroll in JOUR 594a (2 units), JOUR 594b (2 units) in their single year of study.

Course Requirements (34 Units)
- JOUR 528 Summer Digital Journalism Immersion Units: 4
- JOUR 582 Specialized Journalism: Reporting Decisions Units: 2
- JOUR 594a Master's Thesis Units: 2
- JOUR 594b Master's Thesis Units: 2
- JOUR 595 Critical Thinking: The Art and Science of Not Getting Fooled Units: 3

One course from:
- JOUR 571 21st Century Sports Storytelling Units: 3
- JOUR 572 Reporting on Entertainment and Popular Culture Units: 3
- JOUR 578 Reporting on Globalization Units: 3
- JOUR 584 Specialized Reporting: Education, Youth and Learning Units: 3
- JOUR 585 Specialized Reporting: Religion Units: 3
- JOUR 586 Specialized Reporting: Science Units: 3
- JOUR 588 Cities, Climate and Risk Units: 3
- JOUR 589 Specialized Reporting: The Changing U.S. Population Units: 3
- JOUR 596 Follow the Money: Business and Economics Reporting Units: 3
- Plus 18 approved elective units (400-level courses and above).

Note:
*One elective course must be taken from an Annenberg School program in COMM, CMGT, JOUR or PUBD.

Specialized Journalism (The Arts) (MA)

Master of Arts
The Master of Arts in Specialized Journalism (The Arts) is geared toward experienced arts journalists as well as recent graduates holding bachelor's degrees in journalism or one of the arts with records of excellence in their university classes and internships and a demonstrated aptitude and commitment to specializing in arts journalism. The program is also open to experienced artists and practitioners with a highly developed background in at least one art form who want to acquire journalism skills toward a future specializing in the coverage of arts and culture. Those with a focus on lifestyle, popular culture and many forms of criticism not strictly associated with the arts, such as food, will also be able to advance their subject expertise as journalists in this program.

Students will complete 16 units of specialized journalism course work, including a master's professional project and 18 units of approved elective course work from faculty-recommended lists, including one course from the USC Annenberg School for Communication and Journalism. Other electives must be in at least two arts schools with at least 8 units from one school. The arts schools are Architecture, Art and Design, Cinematic Arts, Dance, Dramatic Arts and Music.

Students must begin the program in summer term, enrolling in a required 4-unit intensive summer session course focused on journalism and society and digital media. In addition to the formal classes, the course includes discussions, workshops and field reporting. This gateway course provides master's students with a working knowledge of the specialized journalism background and the multimedia and digital storytelling skills necessary for study in the program. It sets the stage for two semesters of access to courses as substantively broad as a major research university such as USC makes available.

In the fall semester, students will enroll in an arts writing practicum and an arts reporting seminar. With the advice of their academic adviser and faculty mentors, students will select elective course work appropriate to their fields of specialization. These courses will be drawn from regular graduate and 400-level courses taught across the arts schools and within the USC Annenberg School for Communication and Journalism. Students also will begin research for their master's professional project. These projects may be full-length magazine (print or broadcast) treatments of issues in their field or similar professional work.

In the spring semester, students will enroll in a journalism course focused on arts criticism and commentary. Students will enroll in elective course work, chosen again from offerings across the arts schools and from the USC Annenberg School for Communication and Journalism in consultation with the academic adviser and mentors. Finally, students will complete their master's professional project.

The nine-and-a-half-month program has been designed for a fall and spring semester enrollment cycle; however, students also may elect to complete the program on a part-time basis with the approval of the director of the School of Journalism, but must start with the intensive summer course.

Studies toward the Master of Arts in Specialized Journalism require 34 units of prescribed courses and approved electives. No more than 10 units of 400-level course work may be applied toward the Master of Arts in Specialized Journalism.

Residence
The Master of Arts in Specialized Journalism can be completed in a nine-month enrollment cycle that includes the four-week summer session, plus the fall and spring semesters. These programs may be attended on a part-time basis.

Foreign Language/Research Tool Requirements
There is no foreign language or research tool requirement for the master's degree.

Grammar, Spelling and Punctuation (GSP)
Journalism and strategic public relations graduate students are required to complete an online tutorial about Grammar, Spelling and Punctuation (GSP) and pass the GSP test before the end of the fall semester of their first year. Students who fail to complete the GSP tutorial and pass the test within the stated time frame will not be allowed to progress in the program and will be dismissed from the School of Journalism.

Note: Students with disabilities may register with the Disability Services and Programs office (DSP) so the DSP staff can assess the nature of the students' disabilities and recommend the appropriate accommodations to be provided for each student.

Master's Thesis
MA in Specialized Journalism students normally enroll in JOUR 594a (2 units), JOUR 594b (2 units) in their single year of study.

Course Requirements (34 Units)
- JOUR 528 Summer Digital Journalism Immersion Units: 4
- JOUR 591 Arts Writing Practicum Units: 3
- JOUR 592 Arts Journalism: Storytelling and Production Units: 3
- JOUR 593 Arts Criticism and Commentary Units: 3
- JOUR 594a Master's Thesis Units: 2
- JOUR 594b Master's Thesis Units: 2
- Plus 17 approved elective units (400-level courses and above).

Note:
*The elective course work (400-level courses and above) must be taken from faculty-recommended lists. No more than 10 units
of 400-level electives may be taken. One elective must be taken from within the USC Annenberg School for Communication and Journalism. The other electives must be in at least two arts schools, with at least 8 units from one school. The arts schools are Architecture, Art and Design, Cinematic Arts, Dance, Dramatic Arts and Music.

**Strategic Public Relations (MA)**

Studies toward the Master of Arts in Strategic Public Relations require 40 units of prescribed courses and approved electives in the student's field of study. Students may take, with prior approval, two of their electives outside the school. No more than 12 units of 400-level course work may be applied toward the Master of Arts in Strategic Public Relations.

Students who earn a GPA of below 3.0 will be placed on academic probation and must improve according to established terms if they are to remain in the school. In the case of courses offered on Credit/No Credit (CR/NC) basis, faculty review of competence will be substituted for grades.

**Residence**

Normally, full-time students in the Master of Arts in Strategic Public Relations can complete the program in four semesters.

**Foreign Language/Research Tool Requirements**

There is no foreign language or research tool requirement for the master's degree.

**Grammar, Spelling and Punctuation (GSP)**

Journalism and strategic public relations graduate students are required to complete an online tutorial about Grammar, Spelling and Punctuation (GSP) and pass the GSP test before the end of the fall semester of their first year. Students who fail to complete the GSP tutorial and pass the test within the stated time frame will not be allowed to progress in the program and will be dismissed from the School of Journalism.

Note: Students with disabilities may register with the Disability Services and Programs office (DSP) so the DSP staff can assess the nature of the students' disabilities and recommend the appropriate accommodations to be provided for each student.

**Master's Thesis/Comprehensive Examination**

MA in Strategic Public Relations students have the option of completing a master's thesis or taking a comprehensive exam. The thesis option takes two forms: (1) a professional project presenting the results of an extensive public relations project completed by the student; or (2) a research thesis presenting the results of primary research undertaken by the student. In either case, students must establish a guidance committee of three faculty members. The chair must be a full-time faculty member in the School of Journalism. The second member will usually be a full-time faculty member but may be a person connected with USC in other positions who has specific knowledge of the student's topic. In the latter case, the chair of the committee will submit for the director's approval a detailed presentation of the qualifications of the proposed committee member that justify his or her inclusion. In exceptional circumstances, this committee member may come from outside USC. A detailed presentation of qualifications will be required. The third committee member should be a full-time USC faculty member from outside the School of Journalism. The committee is ultimately subject to the approval of the school dean.

Students must secure approval of the professional project or thesis prior to enrollment in PR 594a. Students who elect the thesis option are required to enroll in PR 594a (2 units), PR 594b (2 units), normally during their second year of study. The 4 units will count toward the approved elective units.

The comprehensive examination option allows students to complete the degree by passing a comprehensive examination in their last semester of course work.

**Course Requirements (40 Units)**

- PR 504 Strategic Public Relations Research, Evaluation and Insights Units: 3
- PR 508 Introduction to Strategic Public Relations Units: 3
- PR 510 Legal, Ethical and Social Foundations of Strategic Public Relations Units: 3
- PR 527 Multimedia Content Creation for Strategic Public Relations Units: 3
- PR 529 Business and Economic Foundations for Public Relations Units: 3
- PR 535 Writing for Strategic Public Relations Units: 3
- Plus 22 units of approved elective courses*

**Note:**

*Students electing the thesis option are required to enroll in PR 594a (2 units) and PR 594b (2 units) and must complete 18 units of approved elective courses. Students electing the comprehensive examination option must complete 22 units of approved elective courses.

**University Certificate**

**Journalism Certificate**

The certificate program requires students to complete a 4-unit course in the summer and then complete 16 units during the fall semester, for a total of 20 units.

**Course Requirements (20 Units)**

- JOUR 505 The Practice: Journalism's Evolution as a Profession Units: 1
- JOUR 528 Summer Digital Journalism Immersion Units: 4
- JOUR 531L Fall Digital Journalism Immersion Units: 4
- JOUR 553 Coding and Programming for Storytelling Units: 2
- JOUR 560 Seminar in Mass Communication Law Units: 2
- JOUR 599 Special Topics Units: 2, 3, 4
- Plus 5 approved elective units.

**Note:**

*Students should enroll in the section titled "Special Assignment Reporting" of JOUR 599.

**Public Policy Advocacy Graduate Certificate**

The graduate certificate is offered jointly by the Sol Price School of Public Policy and the Annenberg School of Communication and Journalism. The certificate provides students with knowledge of the increasingly important role played by information flows in politics and governance. Students will assess the structure of campaigns designed to influence public opinion, the messaging strategies utilized by political players and civic society organizations and new scholarship on the pathways of persuasion in the digital age. The certificate is especially appropriate for students who intend to pursue work with elected officials, think tanks, foundations, community-based organizations, consulting firms and corporate offices that aim to shape public policy through advocacy.

Applicants for the Certificate in Public Policy Advocacy must be currently enrolled in a graduate program at USC and in good standing, with a 3.0 GPA. Students can apply for the certificate through the student services office at the Price or the Annenberg School.

The Certificate in Public Policy Advocacy requires a minimum of 14 units for students taking two 3-unit electives in the Strategic Public Relations Program. More typically students will earn 15 or 16 units by taking one or two 4-unit electives. All units earned in pursuit of the certificate can be applied towards the completion of degree requirements if they fall within existing criteria. However, courses taken solely for certificate purposes will not substitute for degree requirements.

**Required Courses**

- PPD 693 Communicating Public Policy Units: 4
- PR 501 Advocacy Communications Units: 4

**Elective Courses**

Pick any two courses from the following:

**Annenberg**

- CMGT 508 Communicating Strategy and Change Units: 4
• CMGT 581 Media in Social Services: Design and Evaluation of Campaigns Units: 4
• COMM 561 Leading and Communicating Change in Global Organizations Units: 4
• PR 534 Case Studies in Public Relations Units: 3
• PR 536 Digital, Social and Mass Media Public Relations Strategies Units: 3

• PR 568 Crisis Management in Strategic Public Relations Units: 3

**Price**
• PPD 555 Public Policy Formulation and Implementation Units: 4
• PPD 616 Participatory Methods in Planning and Policy Units: 4
• PPD 657 Political Leadership in Public Organizations Units: 4
• PPDE 647 Civic Engagement in Governance Units: 4
USC Kaufman School of Dance

The USC Glorya Kaufman School of Dance expands USC’s signature as a world-class research institution with a deep commitment to the arts. With its innovative vision for arts education, USC Kaufman moves to the forefront of developing dancers, choreographers and leaders for the future. The newly built, state-of-the-art Glorya Kaufman International Dance Center is the home of the school and the largest facility dedicated to dance at any private university.

The USC Glorya Kaufman School of Dance is quickly emerging as an epicenter of excellence in the interdisciplinary study of dance creation and performance. The exciting opportunity to create a new school brought the chance to rethink the professional dance degree. Dance is an increasingly dynamic art form, and the professionals who will shape the future of the field need the flexibility to move seamlessly between dissolving boundaries in the world around them: to embrace innovation with tradition, technology with history, classical with new dance forms. To meet that need, USC Kaufman created a model for dance in which intersecting dance techniques create hybrid art forms expressed in new media, scholarship, studio practice and choreography. The vision is The New Movement.

The Bachelor of Fine Arts in Dance provides a rigorous conservatory experience at one of the world’s leading private research universities. The BFA curriculum provides foundational insight, intellectual and artistic development, a robust performance repertory, exposure to world-renowned practicing artists, interdisciplinary projects, as well as conditioning for dancers and strategic career venture skills.

USC Kaufman has assembled one of the nation’s top faculty, a group of artists unparalleled in their depth and diversity of experience and talent, including esteemed professionals in the field, such as Patrick Corbin (Contemporary Technique and Paul Taylor Repertory), d. Sabela Grimes (Hip Hop Culture & Funkamentals), Jackie Kopcsak (Ballet Technique and Pointe), Thomas McManus (William Forsythe Improvisational Technologies) and Vice Dean and Director Jodie Gates (Contemporary and Classical repertory). Additionally, USC Kaufman’s teaching philosophy includes semester-long opportunities for BFA students to work with our Artist’s in Residence, including Desmond Richardson (Complexions Contemporary Ballet), Victor Quijada (Rubberbandance), Fiona Lummis (Jiri Kylian Repertory) and Zippora Karz (George Balanchine Repertory). The USC Choreographic Institute, advised by USC Kaufman faculty member and celebrated artist William Forsythe, is unique among similar initiatives in the United States, and provides artists with research opportunities and foundational insight into the creative process.

Established partnerships with Hubbard Street Dance Chicago, Glorya Kaufman Presents Dance at the Music Center, Dance Camera West, the USC Thornton School of Music, and the USC School of Cinematic Arts afford significant collaborative experiences with acclaimed artists, scholars and institutions. The school’s location in Los Angeles, a global center for the arts and entertainment, provides additional artistic and professional opportunities.

In addition to its BFA, USC Kaufman offers a wide variety of classes open to all USC students. Technique classes are offered in Ballet, Contemporary, Jazz, Hip Hop, Afro-Cuban, Tap, Bollywood and Ballroom. General Education courses on the history and culture of dance provide a rewarding introduction to the field. Minors in Dance; Hip Hop, Street and Social Dance Forms; and Dance in Entertainment serve as thought-provoking supplements to majors in other schools.

Administration
Robert A. Cutietta, DEd, Dean
Jodie Gates, Vice Dean and Director

Faculty
Professor: Jodie Gates
Professor, Artistic Adviser: William Forsythe
Associate Professor: Margo Apostolos, PhD
Assistant Professors of Practice: Patrick Corbin, MFA; Alison D’Amato, PhD; E. Moncell Durden; d. Sabela Grimes, MFA; Jackie Kopcsak, MFA; Thomas McManus, MFA; Jennifer McQuiston Lott, MFA; Dawn Stoppelli
Adjunct Assistant Professor: Saleemah Knight, MFA
Lecturers: Tiffany Bong; Alison D’Amato, PhD; Jesus Fuentes; Gillian Finley; Anindo Marshall; Achinta McDaniel; Christian Vincent, MFA
Artists in Residence: Zippora Karz; Fiona Lummis; Victor Quijada; Desmond Richardson

Bachelor’s Degree
Dance (BFA)

The Bachelor of Fine Arts in Dance is a four-year professional degree designed to prepare the artist, innovator and entrepreneur. A diverse array of electives, in combination with a rigorous core curriculum, provides students with ample opportunity to explore their artistic and intellectual passions and develop a strong personal vision of dance.

Intensive studio instruction is in three core areas: Ballet, hip hop and contemporary styles. Emphasis is on performance and composition, while also building a solid foundation in dance history, science, conditioning, new media, entrepreneurship and critical theory. Upperclassmen continue to work on technique as well as performance and/or composition, while also pursuing individual interests.

In the junior and senior years, students pursue one of four concentrations: Dance Performance, Choreography for Stage and Cinematic Arts, Dance and Music or Design Your Own. They are mentored by faculty and assisted by academic advisers in selecting elective courses both within and outside of USC Kaufman that support their personal and professional goals.

Emphasis in the final year of study is placed on the development of a professional quality project in the areas of performance, choreography, music, media, scholarship or entrepreneurship.

Dance Performance Concentration
The Dance Performance concentration is designed for students who are interested in careers as professional dancers or in other performance mediums. Emphasis is placed on providing students with the skills to succeed in a variety of entertainment positions.

Students work with artists and scholars in the field, learning essential tools needed for a successful career in dance performance.

Dance and Music Concentration
The Dance and Music concentration provides students with a unique perspective on dance by combining dance training with substantial studies in music. Courses in vocal arts, music theory or instrumental training, for example, equip students interested in choreography or dance performance with the knowledge to explore careers in the music and larger entertainment industries.

Choreography for Stage and Cinematic Arts Concentration
The Choreography for Stage and Cinematic Arts concentration is designed to guide students who are interested in the field of dance for the stage, motion pictures, television, digital media and animation. Students are mentored in experimental types of dance media, both as individual performers and in collaboration with other visual and performing artists.
### Design Your Own Concentration

The Design Your Own concentration allows students to pursue a truly custom program of study by combining hand-picked elective courses across the university with dance electives. This is the only concentration for which students must formally apply in their junior year. The application requires students to demonstrate how the concentration is different from a major and minor combination and to provide preliminary ideas about how their senior project brings together their hand-picked courses with their dance studies.

### General Requirements

Candidates must submit the Common Application and USC Writing Supplement as well as the USC Kaufman Portfolio, which includes a headshot, action shot, written short answer, dance resume, one-minute video response, and two video auditions showing contrasting solos. Final candidates are selected to audition and interview in person. Specific audition requirements, along with other entrance requirements, are reviewed on an annual basis and published under the Apply section at kaufman.usc.edu.

### Curriculum Requirements

The Bachelor of Fine Arts in Dance requires a total of 132 units. All students in the dance program are required to complete the university's General Education and Writing requirements.

Within USC Kaufman, students will receive foundational training and insight through the core curriculum. In addition, they must complete a minimum of 19 electives toward their concentration.

The BFA degree's 132 unit requirement includes at least 16 general elective units. Students are encouraged to use these units in order to pursue a minor outside of USC Kaufman.

### Core Requirements (65 units)

#### Lower Division

- **DANC 101 Colloquium: What is the Medium of Dance Today?** Units: 1
- **DANC 103 Conditioning for Dancers** Units: 2
- **DANC 105 Dance Science: Analysis of Dance Movement** Units: 4
- **DANC 107 World Perspective on Dance Performance Units**: 2
- **DANC 110 Dance Technique I Units**: 3 + 3
- **DANC 120 Repertory and Performance I Units**: 2 + 2
- **DANC 130 Improvisation and Composition I: Introduction Units**: 2
- **DANC 131 Improvisation and Composition II: Introduction Units**: 2
- **DANC 201 Colloquium: History of Performance and Cultural Context Units**: 1
- **DANC 210 Dance Technique II Units**: 3 + 3
- **DANC 212g Dance in Popular Culture Units**: 4
- **DANC 218 Introduction to Dance for the Camera: New Media and Editing Units**: 2
- **DANC 220 Repertory and Performance II Units**: 2 + 2
- **DANC 230 Improvisation and Composition III: Intermediate Units**: 2
- **DANC 231 Improvisation and Composition IV: Intermediate Units**: 2
- **MUCO 140 Music for Dancers Units**: 2

#### Upper Division

- **DANC 301 Colloquium: The Role of the Dance Artist in Society Units**: 1
- **DANC 310 Dance Technique III Units**: 3 + 3
- **DANC 320 Repertory and Performance III Units**: 2 + 2
- **DANC 342g International and Historical Perspectives on Dance Units**: 4
- **DANC 470 Dance Leadership Units**: 2
- **DANC 480 Advanced Performance Studies: Senior Seminar Units**: 1
- **DANC 485 Advanced Performance Studies: Senior Project Units**: 1

### Dance Performance Concentration (minimum 19 units)

#### Required Electives (10 units)

- **DANC 410 Dance Technique IV Units**: 3 + 3
- **DANC 420 Repertory and Performance IV Units**: 2 + 2

#### Additional Electives (9 units)

In addition to DANC courses, students in this concentration are able to take up to 8 units in the USC Thornton School of Music, USC School of Cinematic Arts and/or USC School of Dramatic Arts. More details are below.

- **DANC 285 Elements of Dance Production Units**: 4
- **DANC 181a-189b - Dance Technique**: 4
- **DANC 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance Units**: 4
- **DANC 305 Dance and New Media Units**: 1
- **DANC 312g African American Dance Units**: 4
- **DANC 330 Composition I: Advanced Units**: 2
- **DANC 333g Origins of Jazz Dance Units**: 4
- **DANC 345 Artist Collaborative Units**: 1, 2, 3, 4
- **DANC 355 Performance Lab Units**: 1, 2, 3, 4
- **DANC 360 Pilates Mat Training Units**: 2
- **DANC 363g Dancing on the Screen Units**: 4
- **DANC 430 Composition II: Upper Level Units**: 2
- **DANC 432 Creativity, Culture, Commerce and Community Units**: 4
- **DANC 442 International and Historical Perspectives on Dance Units**: 4
- **DANC 452 Dancing with Words Units**: 4
- **DANC 490x Directed Research Units**: 1, 2, 3, 4
- **DANC 495 Dance Internship Units**: 1, 2, 3, 4

#### Choreography for Stage and Cinematic Arts Concentration (minimum 19 units)

#### Required Electives (8 units)

- **DANC 330 Composition I: Advanced Units**: 2 + 2
• DANC 430 Composition II: Upper Level Units: 2 + 2

Additional Electives (11 units)
In addition to DANC courses, students in this concentration are able to take up to 8 units in the USC School of Cinematic Arts, USC Thornton School of Music and/or USC School of Dramatic Arts. More details are below.
• DANC 285 Elements of Dance Production Units: 4
• DANC 181a-189b - Dance Technique
• DANC 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance Units: 4
• DANC 305 Dance and New Media Units: 1
• DANC 312gw African American Dance Units: 4
• DANC 333g Origins of Jazz Dance Units: 4
• DANC 345 Artist in Residence Units: 1, 2, 3, 4
• DANC 347 Artist Collaborative Units: 1, 2, 3, 4
• DANC 355 Performance Lab Units: 1, 2, 3, 4
• DANC 362 Pilates Mat Training Units: 2
• DANC 363g Dancing on the Screen Units: 4
• DANC 410 Dance Technique IV Units: 3
• DANC 420 Repertory and Performance IV Units: 2
• DANC 432 Creativity, Culture, Commerce and Community Units: 4
• DANC 442 International and Historical Perspectives on Dance Units: 4
• DANC 452 Dancing with Words Units: 4
• DANC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• DANC 495 Dance Internship Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16
• DANC 499 Special Topics Units: 1, 2, 3, 4

Students may take courses under the below prefixes. These courses must be approved within USC Kaufman by the faculty mentor, Director of Admission and Student Services and Vice Dean. Students must also meet any eligibility requirements (i.e. prerequisites) and/or receive approval from the school or department when needed.

USC Thornton School of Music
• ARTL: Arts Leadership
• MPGU: Performance (Guitar)
• MPKS: Performance (Keyboard Studies)
• MPPM: Performance (Popular Music)
• MPST: Performance (Strings)
• MPVA: Performance (Vocal Arts)
• MPWP: Performance (Wind & Percussion)
• MTEC: Music Technology
• MUHL: Music History and Literature
• MUIJN: Music Industry
• MUCO: Music Composition
• MUJZ: Jazz Studies
• USC School of Dramatic Arts
• THTR: Theatre

USC School of Cinematic Arts
• CNTV: Cinematic Arts
• CTAN: Animation
• CTCS: Cinema and Media Studies
• CTIN: Interactive Media
• CTPR: Production
• IML: Media Arts and Practice

Dance and Music Concentration (minimum 19 units)

Required Electives
While students pursuing this concentration are not required to take specific dance electives, they are expected to take additional Dance Technique, Repertory and Performance and Composition courses.

Additional Electives (19 units)
In addition to DANC courses, students in this concentration are able to take up to 8 units in the USC Thornton School of Music, USC School of Cinematic Arts and/or USC School of Dramatic Arts. More details are below.
• DANC 285 Elements of Dance Production Units: 4
• DANC 181a-189b - Dance Technique
• DANC 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance Units: 4
• DANC 305 Dance and New Media Units: 1
• DANC 312gw African American Dance Units: 4
• DANC 333g Origins of Jazz Dance Units: 4
• DANC 345 Artist in Residence Units: 1, 2, 3, 4
• DANC 347 Artist Collaborative Units: 1, 2, 3, 4
• DANC 355 Performance Lab Units: 1, 2, 3, 4
• DANC 362 Pilates Mat Training Units: 2
• DANC 363g Dancing on the Screen Units: 4
• DANC 410 Dance Technique IV Units: 3
• DANC 420 Repertory and Performance IV Units: 2
• DANC 430 Composition II: Upper Level Units: 2
• DANC 432 Creativity, Culture, Commerce and Community Units: 4
• DANC 442 International and Historical Perspectives on Dance Units: 4
• DANC 452 Dancing with Words Units: 4
• DANC 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• DANC 495 Dance Internship Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16
• DANC 499 Special Topics Units: 1, 2, 3, 4

Students may take courses under the below prefixes. Any such courses must be approved within USC Kaufman by the faculty mentor, Director of Admission and Student Services and Vice Dean. Students must also meet any eligibility requirements (i.e. prerequisites) and/or receive approval from the school or department when needed.

USC Thornton School of Music
• ARTL: Arts Leadership

Minor

Dance in Entertainment Minor

The Dance in Entertainment minor offers undergraduate students an opportunity to explore dance in the commercial realm, from Hollywood to Broadway, primarily focused on performance, choreography and dance entrepreneurship. The program offers a wide variety of courses in dance technique, theory, the business of dance and choreography.

This minor consists of one lower-division course, one upper-division course and 10 units of elective courses. Students must be in good academic standing to be admitted. No previous dance experience is required.

Required Lower Division Requirement (4 units)

- DAN 280g Introduction to Dance as an Art Form Units: 4

Required Upper Division Requirement (4 units)

- DAN 333g Origins of Jazz Dance Units: 4 or
- DAN 363g Dancing on the Screen Units: 4

Elective Courses (10 units)

- ARTL 310 Music and Dance In Paris Salon Culture Units: 2
- DAN 103 Conditioning for Dancers Units: 2
- DAN 107 World Perspective on Dance Performance Units: 2
- DAN 170 Choreography and Performance Units: 2
- DAN 175 Choreography for the Screen Units: 2
- DAN 181a-189b (up to 4 units)*
- DAN 212g Dance in Popular Culture Units: 4
- DAN 283 Elements of Dance Production Units: 4
- DAN 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance Units: 4
- DAN 305 Dance and New Media Units: 1
- DAN 312gw African American Dance Units: 4

• DANC 188b International Style Ballroom Dance Units: 2
• DANC 189a Tap Dance Units: 2
• DANC 189b Tap Dance Units: 2

**Total Units Required: 20**

**Hip Hop, Street and Social Dance Forms Minor**

The Hip Hop, Street and Social Dance Forms minor delves into the historical, social and aesthetic issues of dance in the contemporary settings of entertainment, concert, vernacular and recreational forms. This minor is designed to explore the foundations and structures of hip hop, street and social dances and to introduce and orient non-major students to the language of dance in contemporary society. In the hip hop culture dance has become a major avenue of expression, acceptance and power. This minor will address issues of art, race and politics within the parameters of dance as an art form, entertainment and personal expression.

This minor consists of one lower-division course, one upper-division course and 8 units of elective courses. Students must be in good academic standing to be admitted. No previous dance experience is required.

**Required Lower Division Course (4 Units)**

• DANC 280g Introduction to Dance as an Art Form Units: 4

**Required Upper Division Course (4 Units)**

• DANC 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance Units: 4

**Elective Courses (8 Units)**

• ARTL 310 Music and Dance In Paris Salon Culture Units: 2
• DANC 103 Conditioning for Dancers Units: 2

Herman Ostrow School of Dentistry of USC

Since 1897, the Herman Ostrow School of Dentistry of USC has provided students with unique, intensive clinical experiences using the most advanced techniques and technologies in the field. Graduates form a tightly knit community of proud alumni, providing top-notch patient care, conduct world-class research and lead the oral health field.

The school's strength is its educators. Their world-renowned expertise, combined with innovative curricula, gives students the strong clinical education they need to become great oral health professionals. The curricula include the Doctor of Dental Surgery program, the baccalaureate in dental hygiene program and postdoctoral advanced and specialty programs: endodontics, general practice residency, operative dentistry, oral and maxillofacial surgery, orofacial pain, orthodontics, pediatric dentistry, periodontology and prosthodontics. Other programs include an advanced standing program for international dentists; online master of science degrees in geriatric dentistry, orofacial pain and oral medicine; an online graduate certificate program in geriatric dentistry, and master's and doctor of philosophy degrees in craniofacial biology.

The Herman Ostrow School of Dentistry’s celebrated status as a well-funded dental and craniofacial research unit allows students to enrich their education through laboratory activities and bolster their clinical skills with strong scientific foundations.

Through community service, the Herman Ostrow School of Dentistry provides valuable clinical experiences to the students while helping disadvantaged individuals improve their oral health. Serving the surrounding community helps students develop clinical competency and learn to treat all members of diverse communities with care and compassion.

Degrees Offered

The Herman Ostrow School of Dentistry awards the following degrees: the Bachelor of Science, Dental Hygiene; the Master of Science, Geriatric Dentistry; the Master of Science, Orofacial Pain and Oral Medicine; the Doctor of Dental Surgery; the Advanced Operative and Adhesive Dentistry Certificate/MS, Craniofacial Biology; the Advanced Orthodontics Certificate/MS, Craniofacial Biology; the Advanced Pediatric Dentistry Certificate/MS, Craniofacial Biology; the Advanced Pediatric Dentistry Certificate/PhD, Craniofacial Biology; the Advanced Periodontology Certificate/MS, Craniofacial Biology; Advanced Dental Education Certificate programs in Endodontics, Geriatric Dentistry, Operative and Adhesive Dentistry, Oral and Maxillofacial Surgery, Orofacial Pain, Pediatric Dentistry, Periodontology, and Prosthodontics; Master of Science in Craniofacial Biology; and the Doctor of Philosophy in Craniofacial Biology. The Herman Ostrow School of Dentistry, the Viterbi School of Engineering Department of Biomedical Engineering and the Dornsife College of Letters, Arts and Sciences Department of Biological Sciences jointly offer the minor in craniofacial land dental technology.

General Information

The Grading System

Grades are issued by members of the faculty to indicate to students their level of achievement and to provide information to committees given the responsibility of reviewing a student's total academic record and assigning honor or deficient status.

Newly admitted students to the Doctor of Dental Surgery (DDS) program, the Advanced Standing Program for International Dentists and Bachelor of Science in Dental Hygiene (BS) students are bound by the university grading system (excluding plus/minus grades), which is detailed in the Academic Standards section of this catalogue.

Grades used by course directors of required advanced specialty classes are: "C" — credit, "CRH" — credit with honors and "NCr" — no credit. Other notations appearing on the transcript are: "IP" — course in progress indicating that the grade in a course is not issued until a subsequent trimester; "IN" — incomplete work; "ICW" — incomplete clinical work; "MG" — missing grade; and "W" — withdraw. Students pursuing a Master of Science, Doctor of Philosophy in Craniofacial Biology and students in dental hygiene, doctoral and international classes should refer to the Academic Standards section of this catalogue.

Probation and Disqualification

A student evaluation policy has been developed that outlines methods by which the faculty can recognize outstanding achievements by students and identify those who have difficulty meeting the School's academic standards.

In this policy, the procedures dealing with the assignment and consequences of academic status, including academic probation and disqualification, are outlined in detail. It is hoped that the development of specific guidelines will eliminate confusion and minimize the amount of time spent in determining the student's status, thus allowing faculty and students to concentrate on their primary responsibility — the training of dental health professionals. Copies of student professional performance evaluation committee guidelines are available online on the Dental School intranet.

DDS (including Advanced Standing Program for International Dentists)

A student will be placed on academic warning ("AW") if: (1) the GPA for a given Academic Time Unit (ATU) falls below a 2.0; (2) a failing course grade in a course of 1 unit or less is received; (3) a student does not successfully pass National Board Part I and National Board Part II or does not take the exams during the time-frame designated; and/or (4) if in the judgment of the Student Professional Performance Evaluation Committee, such a warning is warranted for other reasons, such as poor attendance or consistent tardiness.

A student will be placed on academic probation ("AP") if: (1) a failing grade is received in 2 or more units completed in one ATU; (2) a second consecutive academic warning is warranted; (2) two conditions that justify academic warning are met in a single ATU or if a single condition is met twice in an ATU; and/or (4) a student receives an F in a module that results in an MG. A first year student in trimesters I, II or III will be placed on academic probation if: (1) the quality of preclinical work is unsatisfactory as reflected by a failing (F) grade in a module; (2) the quality of preclinical work is poor enough to jeopardize the student's timely transition to clinic with the rest of the class; (3) warranted by other factors related to the quality of preclinical/clinical work such as poor attendance, unprofessional behavior and/or poor performance in written examinations; (4) in the judgment of the Student Professional Performance Evaluation Committee, probation is warranted by other academic factors; and/or (5) recommended by the Group Practice Director, due to quality and/or quantity of clinical work.

A student will be placed on Clinical Probation upon recommendation of the Group Practice Director if a grade of "F" is received in any of the graded categories of Group Practice performance, or, in the judgment of the Group Practice Director, probation is warranted by other factors related to the delivery of health care or clinical accomplishment.

A student will be considered for disqualification if: (1) at the end of any trimester during the first year (trimesters I, II, III), a student's continued lack of preclinical accomplishment is significant enough to suggest a deterioration of preclinical skills; (2) a second academic probation is warranted; (3) a failing grade is not reconciled; (4) at the end of the academic year the grade point average for the preceding year is below 2.0; (5) academic probation is warranted while repeating a trimester on probation; (6) a deficiency in any area is determined by the Student Professional Performance Evaluation Committee to be insurmountable; (7) at the end of the second trimester of the Advanced Standing Program for International Dentists (ASPID), the cumulative average is less than 2.0; (8) it is recommended by the Group Practice Director, based on severe and irreconcilable deficiencies relating to the quality and/or quantity of patient treatment; and/or (9) at the end of any trimester following trimester VI, a student's ongoing lack of clinical accomplishment is significant enough to suggest a deterioration of skills and/or inadequate treatment of patients assigned to his/her care.

BS, Dental Hygiene

A student will be placed on academic warning ("AW") if: (1) the GPA for any given Academic Time Unit (ATU) is less than 2.0; (2) a failing grade is received in a 1-unit (or less) course; and/or (3) a grade of "D" is received in a 3-, 4- or 5-unit course. A student will be placed on academic probation ("AP") if: 2 units or more of failure are recorded at the end of any trimester, if a second consecutive academic warning is warranted; or if, in the judgment of the Student Professional Performance Evaluation Committee, probation is...
A student will be placed on clinical probation if, in the judgment of the Clinical Director, probation is warranted by other factors related to the delivery of health care or clinical accomplishment.

A student will be considered for disqualification if: (1) a third probation is warranted at the end of any trimester; (2) a failing grade is not reconciled; (3) at the end of the academic year the grade point average for the preceding year is below 2.0; (4) academic probation is warranted while repeating a trimester on probation; and/or (5) a deficiency in any area is determined by the Student Professional Performance Evaluation Subcommittee.

Advanced Specialty, online Master of Science in Orofacial Pain and Oaral Medicine, online Master of Science in Geriatric Dentistry, and online Certificate in Geriatric Dentistry

A student will be placed on academic probation if a failing grade is received in any course or if, in the judgment of the program director, a student's performance warrants such status due to academic or other factors. A student may be disqualified if: (1) the stipulations of a probationary period are not met by the required deadline; (2) a failing grade is not reconciled in the period specified by the course director; and/or (3) a deficiency in any area is acquired which is determined by the program director to be insurmountable. A student who is placed on academic probation a second time can continue in the program only with the approval of the program director and the Advanced Student Professional Performance Evaluation Subcommittee.

Honor Status

The Herman Ostrow School of Dentistry recognizes excellence in achievement by assigning special honor status during the course of study and by presentation of awards upon graduation.

Dean's List

Students who complete all course work by a prescribed deadline and earn a grade point average of 3.5 or above for a trimester are eligible for and will be considered for placement on the Dean's List for that ATU. Placement is not automatic and is not based on any single marker of performance. Students shall not be placed on the Dean's List if they are on academic warning, academic probation or continued academic probation at any time during that trimester, or have been found guilty of or engaged in a direct resolution of an ethics violation.

Omicron Kappa Upsilon Honor List

The local chapter of Omicron Kappa Upsilon (OKU), a national dental honor fraternity recognizes the top 10 percent of each doctoral dental class at the end of each academic year (August) by including these students on the OKU Honor List. The determination of the top 10 percent is based on a yearly GPA. It should be noted that placement on the OKU Honor List has no relationship to membership in OKU, which is based on overall academic achievement and professional development.

Graduation Awards

There are numerous awards made each year at graduation to recognize excellence in members of the graduating doctoral, dental hygiene and ASPID classes. A complete listing is available at the Herman Ostrow School of Dentistry.

Voluntary Withdrawal/Leave of Absence

The Herman Ostrow School of Dentistry recognizes that in some special instances it may be necessary or beneficial for a student to interrupt or discontinue dental education. A student wishing to withdraw from School or request a leave of absence must contact the Office of Academic Affairs for procedures to be followed. An approved leave of absence will not be granted for more than one year.

Students at the School of Dentistry who have not been formally dropped by the School, are considered enrolled each term unless they have submitted a letter of intent to withdraw. A student's verbal indication that he or she intends to withdraw or failure to settle a fee bill are not sufficient to eliminate the student from class rosters. Final course grades will be collected for students who do not have a letter of intent to withdraw on file with the Office of Academic Affairs.

A student who withdraws at any time during the first three weeks of a trimester will receive no grades for enrolled courses. A student who withdraws after three full weeks of an Academic Time Unit (ATU) will receive a mark of "W" for all enrolled courses not completed. Withdrawal is not permitted after the 12th week of a trimester.

Family Educational Rights and Privacy Act

The University of Southern California recognizes and acts in full compliance with regulations set in accordance with the Family Educational Rights and Privacy Act of 1974 (The Buckley Amendment). A student may have access to all records about him or her maintained by the university except those considered confidential under the act. Students of the School of Dentistry wishing to review records or to appeal for a change in those records should contact the Herman Ostrow School of Dentistry of USC Registrar. A small charge may be made to cover the time and costs of duplication of the record.

Tuition and Fees (Estimated)

Tuition at the Herman Ostrow School of Dentistry is charged on a flat fee basis for enrollment in the regular degree and advanced certificate programs of the school. Exceptions do not apply to students who have courses waived based on their prior education. In such cases, students are charged the standard flat fee for the program in which they are enrolled.

Auditors pay the regular tuition rate. Auditors are not required to participate in class exercises (discussions and examinations); they receive no grades or credit.

The information outlined here is for Herman Ostrow School of Dentistry fees and tuition deposits only. For information about Herman Ostrow School of Dentistry tuition and university fees, refer to the Tuition and Fees (Estimated), Fall 2017 section of this catalogue. The university reserves the right to assess new fees or charges as it may determine.
Processing Fee (not refundable):

Domestic applicants $85.00
Graduates of foreign dental schools or students requiring a student visa 145.00

Commitment Deposit

Dentistry 3,000.00
Dental Hygiene 2,000.00
International Dental 3,000.00
Advanced Dental 1,000.00-1,500.00

Pre-Tuition Payment (refundable in accordance with the refund policy) 1,500.00

Mandatory Fees (School of Dentistry fees only; for other fees, refer to the Tuition and Fees (Estimated), Fall 2017 section of this catalogue.)

CDA Dues 5.00
Doctoral dental and Advanced Standing Program for International Dentists students only; spring only.

ASDA Dues 80.00
Doctoral dental program and Advanced Standing Program for International Dentists students only; fall only.

Special Fees

Transcript Fee 10.00
Gown Usage Fee 165.00
Disability Insurance (Doctoral, Advanced Standing Program for International Dentists and Advanced Certificate) 55.00

Scrubs (first year only) 350.00

Financial Aid

Detailed information concerning financial aid programs available to dental students can be obtained by contacting the Herman Ostrow School of Dentistry of USC Office of Financial Aid at (213) 740-2841, usesdfa@usc.edu or visit dentistry.usc.edu/admission.

Undergraduate Degree

Progressive Degree Programs

The following progressive degrees are available for students enrolled in the Dental Hygiene program: MPH at the Keck School of Medicine, and MA in Gerontology from the Davis School of Gerontology. Applicants to the program must have completed 64 units of course work and must submit their applications prior to completion of 96 units of course work. Applicants do not have to submit GRE scores, but are expected to have a minimum GPA of 3.0 at the time of application. The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and letters of recommendation from two USC faculty members. The requirements for both the bachelor's degree and the progressive degrees must be satisfied. For further details on progressive degree programs, see the Requirements for Graduation page.

Continuing Professional Education

The Herman Ostrow School of Dentistry of USC Office of Continuing Professional Education provides wide array of continuing education courses, national and international symposia, hands-on workshops, live patient experiences, on-line modules, webinars and travel and learn programs. These educational activities are designed to provide up-to-date and innovative concepts and trainings to dentists, dental hygienists, dental technicians and auxiliary personnel, and to provide the dental community with the opportunity for life-long learning from outstanding scholars. The Herman Ostrow School of Dentistry of USC is an ADA CERP (American Dental Association Continuing Education Recognition Program) and AGD (Academy of General Dentistry) Recognized Provider. Courses fulfill continuing education requirements of the dental boards at different states in the United States for re-licensure of dentists and allied dental professionals.

Courses are provided throughout the year on various subjects of dentistry: oral health, dental esthetics, oral medicine, physical diagnosis, dental materials, dental laboratory techniques, dental management, endodontics, periodontics, implants, oral surgery, restorative dentistry, fixed and removable prosthodontics, instrumentation, occlusion, oral pathology, dental hygiene, dental auxiliary education, patient education, pharmacology, principles of dental practice, radiology, sedation and emergencies. Course schedule and brochure can be viewed online at dentalcontinuingeducation.usc.edu and online registration is available. Inquiries can be sent to Herman Ostrow School of Dentistry of USC Office of Continuing Professional Education, 925 West 34th Street, Room 201J, Los Angeles, CA 90089-0641, (213) 821-2127, FAX: (213) 740-3973, email: cedental@usc.edu.

Minor

Craniofacial and Dental Technology Minor

The Herman Ostrow School of Dentistry, the Viterbi School
of Engineering Department of Biomedical Engineering and the
Dornsife College of Letters, Arts and Sciences Department of
Biological Sciences jointly offer the minor in craniofacial and
dental technology. This minor is designed to prepare engineering,
pre-dental, pre-medical and biological sciences undergraduates to
enter the dental biotechnology industry as well as to introduce them
to recent innovations in craniofacial sciences and therapeutics. The
course work introduces students to concepts in craniofacial histology
and embryology, head-and-neck anatomy, genetics, biochemistry
and biotechnology as well as applications to dental diagnostics,
imaging and dental therapies (dental implants, restorative dentistry,
craniofacial genetics).

This minor requires 16 core units and a minimum of 4 units of
electives. Students who have not fulfilled prerequisite requirements
for core or elective courses will have to take additional units,
depending on their major. In addition, students must take at least 16
units not used for their major or offered by their major department.

Please see a biomedical engineering, biological sciences or
Herman Ostrow School of Dentistry adviser for specific program
requirements.

Core Required Courses, Upper Division
• DENT 412 Fundamentals of Craniofacial and Dental
Technology Units: 3
• DHIS 310 Basic Tissues and Histology and Embryology Units:
  2
• BISC 320L Molecular Biology Units: 4*
• BISC 325 Genetics Units: 4*
• BME 410 Introduction to Biomaterials and Tissue Engineering
  Units: 3*

Total core units: 16

Electives
Enroll in at least two courses from the following:
• BISC 330L Biochemistry Units: 4*
• BISC 403 Advanced Molecular Biology Units: 4*
• BISC 406L Biotechnology Units: 4*
• BISC 410 Applications of Molecular Biology to Medicine
  Units: 4*
• BISC 435 Advanced Biochemistry Units: 4*
• BME 404 Biomechanics Units: 3*
• BME 416 Development and Regulation of Medical Products
  Units: 3
• BME 451 Fundamentals of Biomedical Microdevices Units:
  3*
• DENT 221 Introduction to Dentistry Units: 1
• ENGR 305 Engineering Biology Matters Units: 3
• HP 340L Health Behavior Statistical Methods Units: 4
• HP 350L Health Behavior Research Methods Units: 4
• MASC 310 Materials Behavior and Processing Units: 3

Total elective units: 4-8

Note:
*Prerequisite required

Master’s Degree

Geriatric Dentistry (MS)
The Master of Science in Geriatric Dentistry online program
consists of a 38-unit online program leading to a master's degree in
geriatric dentistry. The curriculum is designed to prepare students
to work in the area of geriatric dentistry. The program consists of
a series of didactic courses where the students will gain in-depth
knowledge about older adults from a variety of perspectives that will
include learning about the aging process and how it affects and is
affected by social, behavioral and health factors commonly seen with
aging. The program will focus on the most common medical and oral
health conditions seen in older adults and their treatments, as well
as cognitive changes, mental disorders, and social factors that will
impact and thus require adjustments to oral health care delivery.

Required Courses
• ADNT 701 Research Methodologies in Dentistry Units: 2
• GDEN 710 Knowledge Assessment for GDEN Students Units:
  1
• GDEN 711a Case Portfolio Preparation for GDEN Students
  Units: .5
• GDEN 711b Case Portfolio Preparation for GDEN Students
  Units: .5
• GDEN 711c Case Portfolio Preparation for GDEN Students
  Units: .5
• GDEN 711d Case Portfolio Preparation for GDEN Students
  Units: .5
• GDEN 711e Case Portfolio Preparation for GDEN Students
  Units: .5
• GDEN 712a Capstone Research Project for GDEN Students
  Units: .5
• GDEN 712b Capstone Research Project for GDEN Students
  Units: .5
• GDEN 712c Capstone Research Project for GDEN Students
  Units: .5
• GDEN 712d Capstone Research Project for GDEN Students
  Units: .5
• GDEN 713 Common Systemic Conditions in Older Patients
  Units: 2
• GDEN 714 Topics in Gerontology Units: 2
• GDEN 715 Geriatric Dentistry Issues Units: 2
• OFPM 702a Soft Tissue Disease for Dental Residents Units: 1
• OFPM 702b Soft Tissue Disease for Dental Residents Units: 2
• OFPM 704 Bony Pathology, Radiology and Advanced Imaging
  for Dental Residents Units: 1
• OFPM 705 Neurogenic Based Oral and Facial Pains for Dental
  Residents Units: 2
• OFPM 707 Pharmacology Series for Dental Residents Units: 2
• OFPM 710a Knowledge Assessment for OPOM Residents
  Units: 1
• GDEN 722 Internal Medicine and Systemic Disease for Dental
  Residents Units: 2
• OFPM 723 Systems Physiology, Motor Disorders and Sleep
  Apnea for Dental Residents Units: 2
• GDEN 725 Epidemiology, Nutrition and Aging for Dental
  Residents Units: 2
• OFPM 726 Immunology and Immunosuppression for Dental
  Residents Units: 2

Total units: 30.5

Graduate Certificate
For Business

Geriatric Dentistry Graduate Certificate
The graduate certificate in geriatric dentistry program is designed
to prepare practicing dentists and dental hygienists who have already
completed their professional trainings in general or advanced
dentistry or dental hygiene to acquire a greater understanding of
gerontology and geriatrics. Dental hygienists must have a minimum
of a baccalaureate degree in order to apply for the program. The
program consists of a total of 12 unit courses delivered online and
in-person in which the students will gain knowledge about older
adults from a variety of perspectives, focusing on those topics that
will have a direct impact on professional practice.

Clinical privilege status is not required for any of the course work.
Students admitted to the non-degree certificate program are expected
to enroll each semester until the program is completed.

There are seven required courses (6 online and one residential)
and no electives. As part of the required curriculum, all students
will attend USC for a two-week period during the summer trimester
following completion of the didactic courses for a knowledge
assessment course (GDEN 710). This course will consist of reviews,
practical demonstrations and assessment activities.
Required Courses

- GDEN 710 Knowledge Assessment for GDEN Students Units: 1
- GDEN 711a Case Portfolio Preparation for GDEN Students Units: 5
- GDEN 711b Case Portfolio Preparation for GDEN Students Units: 5
- GDEN 713 Common Systemic Conditions in Older Patients Units: 2
- GDEN 714 Topics in Gerontology Units: 2
- GDEN 715 Geriatric Dentistry Issues Units: 2
- GDEN 722 Internal Medicine and Systemic Disease for Dental Residents Units: 2
- GDEN 725 Epidemiology, Nutrition and Aging for Dental Residents Units: 2

Oropathology and Radiology Certificate

The Certificate in Oropathology and Radiology is a hybrid-online program with a total of 10 courses (13 academic units), specifically designed for the practicing professional who wants to improve skills and gain expertise to deliver the best care for patients with complex oral conditions. The certificate curriculum is designed with a series of didactic courses where students will gain knowledge about the diagnosis, pathobiology and treatment of different oral diseases in the field of Oropathology and to use conventional and advanced imaging studies for the diagnostic process. The goal of this postdoctoral one-year certificate program is to give practicing dental or medical health care providers advanced clinical, didactic, and evidence-based education in the field of oral diagnostics, specifically oral pathology and radiology. With the onset of new diseases to dentistry and advancements in diagnostics and therapeutics in the last few decades, many clinicians may feel ill-prepared to comprehensively manage patients with oral lesions or patients with oral manifestations of complex medical conditions. Therefore, this program taught by expert USC Henry Ostrow School of Dentistry faculty is designed to provide clinicians with knowledge and confidence necessary to provide patient care.

The students participate in weekly, live, online sessions with faculty and other program residents, ensuring a collaborative and social learning experience. There are two-three courses per trimester, with two-four streaming video lectures for viewing each week. After each video lecture students complete an associated online quiz (comprising multiple choice, short answer or fill-in questions). The program is primarily online but also includes a 10-day practical training conducted on-campus at USC, with skills development and competence evaluation. At the end of the program, the students present and defend a case portfolio.

Course List

- OFPM 707 Pharmacology Series for Dental Residents Units: 2
- OPR 701 Bone Pathology and Oral and Maxillofacial Radiology Units: 1
- OPR 702 Principles and Practice of Oral Medicine Units: 1
- OPR 703 General and Systemic Human Pathology Units: 1
- OPR 704 Oral Pathology and Maxillofacial Medicine Units: 3
- OPR 705 Oral Histopathology and Surgical Pathology Units: 2
- OPR 706 Evidence-Based Practice and Literature Review Units: 1
- OPR 730a Case Portfolio Preparation Units: 0.5
- OPR 730b Case Portfolio Preparation Units: 0.5
- OPR 732 Knowledge Assessment Units: 1

Orofacial Pain Certificate

The Certificate in Orofacial Pain is a hybrid program (face-to-face and online classes) with a total of nine courses (12.5 academic units), specifically designed for the practicing dentist who wants to improve skills and gain expertise to deliver the best care for patients with complex conditions. The certificate curriculum is designed with a series of didactic courses in which students will gain knowledge about the diagnosis, pathobiology and treatment of different oral diseases in the field of orofacial pain, including masticatory musculoskeletal pain, neurogenic orofacial pain, temporomandibular disorders, headaches, orofacial motor disorders including orofacial dystonias and bruxism, intraoral, intracranial, extracranial and systemic disorders that cause orofacial pain.

Students will participate in weekly live webinar sessions with the faculty and other residents, ensuring a collaborative and social learning experience. There are two-three courses per trimester, with two-four streaming video lectures for viewing each week. After each video lecture students complete an associated online quiz (comprising multiple choice, short answer or fill-in questions). The program is primarily online but also includes a 10-day practical training program conducted at the USC campus, with skills development and competence evaluation. At the end of the program, the students present and defend a case portfolio.

This program is consistent with the global vision of the University of Southern California, and looks for a worldwide presence. All students will need English language proficiency, but we will provide support for our Spanish speaking students. This is achieved by providing lectures with the option of closed captioning in Spanish and live-webinars both in English and Spanish.

Course List

Course List of the Orofacial Pain Certificate

- OPF 705 Neurologic Based Oral and Facial Pains Units: 2
- OPF 706 TMD, Orthopedics, Rheumatology, and Physical Therapy Units: 2
- OPF 707 Pharmacology Series Units: 2
- OPF 710 Knowledge Assessment Units: 1
- OPF 723 Systems Physiology, Motor Disorders, and Sleep Apnea Units: 2
- OPF 724 Psychological and Psychometric Assessment Units: 2
- OPF 730a Case Portfolio Preparation Units: 0.5
- OPF 730b Case Portfolio Preparation Units: 0.5
- OPF 730c Case Portfolio Preparation Units: 0.5

Doctoral Degree

Dental Surgery (DDS)

The Doctor of Dental Surgery (DDS) program covers 11 consecutive 14-week trimesters. The course of study maximizes the interrelationship of all basic sciences and clinical detail sciences required by the Commission on Dental Accreditation of the American Dental Association.

USC's reputation for excellent preparation of its graduates for private practice has been enhanced by curriculum changes that permit students to begin clinical experience in their first year. At the same time, opportunity and encouragement are given to those who might elect to pursue careers in teaching and research.

Admission

The Herman Ostrow School of Dentistry of USC admits 144 students each year for the curriculum leading to the Doctor of Dental Surgery. Admission to the school is granted through the Office of Admissions, which receives and processes all applications, evaluates credentials and notifies applicants who qualify for entrance by forwarding letters of acceptance. Students are selected by the Admissions Committee, which bases its decision on consideration of an applicant's personal qualities, aptitude and superior scholarship necessary for the successful study and practice of dentistry.

Candidates who have received or will receive a baccalaureate or higher degree will be considered more favorably than applicants who have fulfilled only minimum requirements. As a precondition of enrollment, accepted students must undergo a background screening and provide evidence of sound health and meet the school's health requirements.

Admission information may be obtained by mail, online or in person. Address inquiries to Herman Ostrow School of Dentistry of USC, Office of Admissions, 925 W. 34th Street, Room 201, Los Angeles, CA 90089-0641, (213) 740-2841, email: uscsadm@usc.edu or access the school's Website at dentistry.usc.edu.

Admission Requirements

Minimum entrance requirements include: (1) graduation from an accredited secondary school, with credit for at least 12 academic
units, including three in English, three in one laboratory science course, two in one foreign language and two in college preparatory mathematics; (2) a minimum of 60 semester units, or the equivalent completed or in progress, at the time of application, in an accredited college or university in the United States or Canada. A baccalaureate or higher degree is preferred. No more than 60 semester hours earned at a community college will be accepted and preference is given to candidates who complete the science prerequisites at a four-year institution; (3) required courses, semester hours with laboratory required: 8 units each — one year's completed course — of general biology, inorganic/general chemistry, organic chemistry, physics; other courses: English composition (8 units or one year), philosophy, history or fine arts (8 units or one year). All prerequisite course work must be completed with a grade of "C" or better; (4) it is strongly suggested that students take additional upper division courses. Biochemistry, human or comparative anatomy, embryology, histology, genetics, physiology, microbiology, immunology and economics are examples of recommended courses; (5) all students who apply for admission to the School of Dentistry are required to take the Dental Admission Test (DAT), given under the auspices of the Council on Dental Education of the American Dental Association. The Dental Admission Test must be taken no later than February 1 of the year for which formal application is made.

To expedite the admissions process, it is recommended that the DAT be taken during a testing period before filing formal application through the Associated American Dental Schools Application Service (AADSAS). Test scores more than three years old will not be accepted. Applicants should check with the Dental Admissions Office. Full information about the test is sent to all applicants upon request, or can be obtained from the Division of Educational Measurements, Council on Dental Education, American Dental Association, 211 East Chicago Avenue, Chicago, IL 60611. No action can be taken on the application until DAT scores have been received.

(6) An interview at the School of Dentistry is required of all applicants who appear qualified for consideration as determined by the Office of Admissions; (7) complete transcripts of undergraduate and graduate work, including degree notations, must be on file in the Office of Admissions by July 15 prior to enrolling; (8) residency requirements: as a private institution, USC seeks a culturally and geographically diverse population. Therefore, out-of-state applicants are evaluated and selected based on the same criteria as California residents.

No applicant will be denied admission on the basis of race, religion, creed or disability. All admitted students must provide evidence that functional health is sufficient to meet professional demands, both in the student role and as an entry-level practitioner.

**Application Procedure**

(1) An application form should be obtained from the Associated American Dental Schools Application Service (AADSAS) online at adea.org. (2) The AADSAS application form must be completed and returned to AADSAS. USC requires that the application be received by AADSAS no later than February 1 of the year in which enrollment is anticipated. Early application and file completion is recommended. Do not send the application form to USC directly. In addition to submitting the ADEA AADSAS application, applicants must submit DAT scores and one official transcript from every college/university attended directly to AADSAS. Application evaluation cannot begin until these items are received by ADEA AADSAS. (3) Applicants are required to pay a nonrefundable $85 processing fee, which should be forwarded directly to the Ostrow Office of Admissions (international students requiring a student visa must submit a $145 processing fee). (4) Notification from the Office of Admissions will be sent, indicating that the application has been received from AADSAS. (5) Candidates who are being seriously considered for acceptance will be sent an invitation for an interview and will be required to submit additional information. No interview can be granted unless the file is complete, including DAT scores. (6) Notification of acceptance will be sent by the Office of Admissions sometime after December 1. (7) A non-refundable commitment fee of $500 is required from admitted students by the deadline indicated in the acceptance letter to hold a place in the entering class. A second commitment fee of $1,000 is required by July 1. The final commitment fee of $1,500 is required by August 1. These non-refundable fees will be applied toward tuition upon enrollment. (8) Preregistration for the first year dental class is held before orientation. (9) All entering students are required to prepay $3,000 toward the initial tuition by July 1. (10) As a precondition of enrollment, accepted students undergo a background screening conducted by Certiphi Screening, Inc. to help ensure patient safety and compliance with state laws and regulations and provide evidence of sound health and meet the school's health requirements.

**Orientation**

Students who have been accepted into the predoctoral dental program and who have reserved their place in the class will receive information on orientation during the first two weeks in July.

Orientation takes place prior to the first week of classes. The purpose of the orientation program is to acquaint incoming students with the school, its policies, programs, faculty and facilities. Incoming students receive financial counseling and receive their initial equipment issue during this orientation period.

**Graduation Requirements**

A student is eligible for the Doctor of Dental Surgery after successfully attaining the qualitative and quantitative level expected in the doctoral curriculum, specifically: has met the 2.0 GPA requirement for graduation; has no conditions existing at the termination of the final academic time unit that would qualify him or her for academic probation, clinical probation or academic disqualification; has no marks of "F," "IN" or "MG"; has passed Part I and Part II of the National Dental Board Examinations; has demonstrated the personal characteristics expected of a professional; has fulfilled his or her financial obligations as well as all other obligations and requirements for graduation.

In addition to meeting the academic requirements indicated above, students must have a completed administrative clearance form on file in the Office of Academic Affairs before a degree can be conferred. This administrative clearance indicates that the student has met other obligations to the university and to the student's patients.

**Curriculum**

The curriculum leading to the Doctor of Dental Surgery degree undergoes constant change to meet the challenges of modern dental practice.

**Doctor of Dental Surgery — Learner-Centered Curriculum**

- INTP 503a Evaluation of Scientific Information in Clinical Practice Units: 0, 1
- INTP 503b Evaluation of Scientific Information in Clinical Practice Units: 0
- INTR 524a Clinical Practice Units: 0
- INTR 524b Clinical Practice Units: 0

**Note:**

For those individuals who are not familiar with the problem-based pedagogy which is an integrated curriculum, the content of the curriculum listed above is based on what was traditionally housed in the following courses.
• SURG 564b Clinic: Hospital Oral Surgery Units: 0
• SURG 564c Clinic: Hospital Oral Surgery Units: 0
• SURG 564d Clinic: Hospital Oral Surgery Units: 1

Note:
Five units of selective courses are required in addition to the above.

Advanced Standing Program for International Dentists Curriculum

Advanced Placement Doctoral Dental Degree

The Herman Ostrow School of Dentistry of USC offers a unique pathway for talented students to earn a bachelor's degree in Dental Hygiene (DH) on their way to a Doctor of Dental Science (DDS) degree. Successful candidates for the six-year DH to DDS Pathway will immediately transition to the DDS degree program following graduation from the Dental Hygiene program.

Admission Requirements

(1) Application materials for the American Dental Education Association Dental Hygiene Application Service (ADEA DHCAS) are due by March 1 of the year in which enrollment are desired. (2) Applicants must complete the Dental Hygiene prerequisite and USC General Education course work prior to entering the program. (3) The Dental Admissions Committee makes the final selection of students admitted for the pathway. Five to ten students are accepted each year. (4) Prior to enrollment in the DDS program, applicants must submit an application through the American Dental Education Association's Associated American Dental Schools Application Service (ADEA AADSAS). The AADSAS application must be submitted by the February 1 deadline during the applicant's senior year. Applicants must also take the Dental Admission Test (DAT) and achieve a score of 15 or higher in all tested categories. DAT results must be submitted by the applicant's senior year of Dental Hygiene studies.

Additional requirements include: Successful graduation from the Dental Hygiene program with a minimum overall GPA of 3.0; a letter of recommendation from the Dental Hygiene program director and recommendations from two additional USC faculty members; certification that the student has maintained the school's professional standards and ethical requirements.

Advanced Standing Program for International Dentists

This program is designed to teach qualified dentists from other countries the knowledge and skills available in the United States. Time necessary to complete the program depends upon the doctor's ability; a minimum of two years is usually required. About eight months will be devoted to fundamental, technical and academic procedures. The remaining time is devoted to clinical training as necessary to achieve graduation qualifications. Graduation from the Advanced Standing Program for International Dentists leads to a DDS degree but does not give automatic licensure to practice dentistry. However, graduates are eligible to take the State Board Dental Examinations in most of the United States. (A few states still require U.S. citizenship.) Additional information may be requested from the Herman Ostrow School of Dentistry of USC, Office of Admissions, 925 W. 34th Street, Room 201, Los Angeles, CA 90089-0641, (213) 740-2841, email: ucsdadm@usc.edu or access the school's Website at dentistry.usc.edu.

Admission

Prospective students must apply to the Advanced Standing Program for International Dentists through the ADEA Centralized Application for Advanced Placement for International Dentists (ADEA CAAPID®). The application is available online only. You can access the ADEA CAAPID® application at portal.caapid.org.

Selected applicants will be interviewed and tested in October and accepted based on the following requirements: (1) completion of the formal application (before August 15 for admission to the program in April). A $145 processing fee must accompany the application.

(2) Successful completion of the National Board Part I examination of the American Dental Association (ADA). A score of 75 percent must be attained in each category. Higher scores are advantageous in evaluation of the candidate's academic level. (3) Applicants are strongly encouraged to submit scores from the National Board Part II and competitive scores on both the quantitative and verbal sections of the Graduate Record Examinations. For information about the GRE test visit ets.org/gre. (4) Applicants for the Advanced Standing Program for International Dentists must demonstrate English-language proficiency by submitting either Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores. Competitive applicants should submit an Internet Based TOEFL (IBT) score of 100, or an IELTS score of 7, with at least 6 on each band. Official scores must be received directly from the testing service and dated no earlier than two years (24 months) prior to the start of the student's intended first term at USC. For TOEFL, the institution code for USC is 4852 (no department code is required. To submit IELTS scores, please choose USC from the list of available institutions. Additional information about these exams can be found at ets.org for the TOEFL and at ielts.org for the IELTS. (5) A small group problem-based interview session will be conducted on campus. (6) The Herman Ostrow School of Dentistry of USC Administration has set the following criteria: (a) fixed prosthodontics (practical); (b) operative dentistry (practical). In addition, a separate written examination may be administered. (10) Complete official documents (transcripts) of all college and university course work, including dental education in the original language accompanied by certified English translation when necessary. (11) Certification of dental degree. Candidates chosen will be those who demonstrate the best qualifications in all academic and practical skills. (12) Submit a course-by-course World Education Services evaluation. (13) As a precondition of enrollment, accepted students must undergo a background screening conducted by Certiﬁed Screening, Inc. to help ensure patient safety and compliance with state laws and regulations and all students must provide evidence of sound health and meet the school’s health requirements.

Student Visas

The I-20 Student Visa is issued to the applicant only after complete admission and acceptance has been granted. Before the applicant can be processed, the applicant must present a copy of the I-94 form (white sheet in the passport) and a notarized statement of ﬁnancial support for tuition and expenses for one year ($120,000) to the Advanced Standing Program for International Dentists. These materials must be submitted at the time of application. The International Admission Ofﬁce will issue the I-20 visa upon receipt and approval of these documents.

Financial Assistance

The United States government requires all international applicants to provide proof of ability to pay tuition and living expenses before a formal letter of admission or the forms needed to obtain a visa will be issued.

International students are not eligible to participate in U.S. federal financial aid programs. Please contact the Herman Ostrow School of Dentistry of USC Office of Financial Aid to discuss other financing options at (213) 740-2841, uscdfs@usc.edu or visit usc.edu/admission/fa/loans/private.html.

Curriculum

Each candidate for the DDS degree should complete the course of instruction in two years, however, some individuals may need more time. The ﬁrst four to eight months will be spent in preclinical exercises to acquaint the student with the fundamental technical procedures used at USC. The balance will be used for clinical procedures related to diagnosis and treatment of patients.
Admissions that receives and processes all applications, evaluates School of Dentistry of USC is granted through the Office of Dental Admission Office and one for the School of Dentistry. See the additional years of enrollment in the dental hygiene program. The Bachelor of Science degree in Dental Hygiene requires two sciences and general education.

The curriculum reflects the core values of the profession in private and public health settings. The program is committed to creating a humanistic, educational environment that will facilitate the development of responsible, ethical, oral health professionals who are sensitive to the patient needs and competent in the dental hygiene process of care.

Educational and clinical services provided by dental hygiene students include dental health education, patient assessment, disease prevention and non-surgical periodontal therapy for a diverse population of patients. The program strives to produce graduates who will advance the profession of dental hygiene and improve dental health care through evidence-based research and scholarly activities. Finally, graduates are competent in self-assessment and scientific methodology in preparation for lifelong learning.

The Bachelor of Science degree in Dental Hygiene requires two academic years of pre-dental hygiene courses followed by two additional years of enrollment in the dental hygiene program.

Admission

Two applications are required, one for the USC Undergraduate Admission Office and one for the School of Dentistry. See the Undergraduate Education Admission section of this catalogue.

Admission to the dental hygiene program of the Herman Ostrow School of Dentistry of USC is granted through the Office of Dental Admissions that receives and processes all applications, evaluates credentials and mails letters of acceptance to applicants who qualify for entrance. Because of the university's selective admissions policy and limited enrollment, only those applicants are accepted who present evidence of intellectual promise and strong personal qualifications, including good moral character and sound health. Prior to enrollment, accepted students must provide evidence of sound health and meet the school's health requirements. (Before registration, the Student Health Service form, signed by the applicant's attending physician, must be filed with the Engemann Student Health Center.)

Application Procedure:
The American Dental Education Association Dental Hygiene Centralized Application Service (ADEA DHCAS) is the centralized application service for applicants to dental hygiene programs. Please review the instructions for the application at adea.org/dhcas. All applicants must select the "Entry Level Bachelor's" as a designation.

In order to begin the ADEA DHCAS application, every applicants will need an email address and a DentPin. The DentPin is a personal identification number used in place of the social security number. To receive a DentPin visit the American Dental Association website at ada.org/dentpin.

At the same time, applicants must apply and gain admission to the University of Southern California, which is granted in all cases by the USC Office of Admission. Applicants must submit a USC Transfer Application online through the Common Application at commonapp.org. Only a letter from the university Office of Admission grants official university admission.

Applications for the Bachelor of Science in Dental Hygiene should be filed well in advance of February 1 of the year in which the student wishes to be admitted. The program begins in the fall. Although students may transfer to USC at any time and begin
prerequisite course work, the dental hygiene curriculum begins in the junior year. Admission to the university does not guarantee admission to the dental hygiene program.

**Admission Requirements**

Between 30 and 40 students are admitted each year for the curriculum that leads to the Bachelor of Science in Dental Hygiene.

The Committee on Admissions examines credentials and bases its decision on the objective evaluation of these factors: preprofessional training, evidence of scholarship and personal evaluation of the student.

Minimum entrance requirements include: graduation from an accredited secondary school and completion of the following courses, which may be transferred in from another college or university or taken at USC prior to bringing admitted to the dental hygiene program.

**General Biology**

One semester with lab is required.

**Anatomy**

One semester with lab is required.

**General Chemistry with Lab**

One year is required.

**English Composition**

One year is required. Must include course work equivalent to WRIT 150 and one semester of any transferable English course.

**General Physiology Lab**

One semester is required.

**General Microbiology**

One semester is required.

**Nutrition**

One semester is required.

**Introduction to Sociology**

One semester is required.

**General Psychology**

One semester is required.

**Public Speaking**

One semester is required.

**General Education Requirements**

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC's general education requirements, see General Education.

All dental hygiene students must follow the university's general education requirements. There is no minimum number of transfer units you must complete before applying to admissions. No foreign course work will be accepted. Dental hygiene prerequisites must be completed prior to the beginning of classes in the dental hygiene program and lower-division general education categories must be completed by the time of graduation. All prerequisite course work including required general education course work must be completed with a grade of "C" or better.

The following courses are not transferable: dental assisting, dental technology, secretarial science (typing, shorthand, etc.), or other technically or vocationally related courses.

All entrance requirements must be completed by June 15 preceding the September of admission, and complete final credentials must be on file in the Herman Ostrow School of Dentistry of USC and the USC Office of Admission by July 15 preceding enrollment. Notification of conditional acceptance will be sent by the Ostrow Office of Admissions after May 1.

**Orientation**

Students who have been accepted into the program and who have reserved their place in the class by paying the appropriate tuition deposit will be forwarded orientation materials by August 15.

Orientation is traditionally scheduled during the week before the first week of classes. The purpose of the program is to acquaint incoming students with the Herman Ostrow School of Dentistry, its policies, programs, faculty and facilities. Incoming students receive financial counseling and purchase their initial equipment issue as part of orientation activities.

**Graduation Requirements**

A student is eligible for the Bachelor of Science in Dental Hygiene after attaining the qualitative and quantitative level expected in the dental hygiene curriculum. This specifically includes: no marks of "F," "IN," "IP" or "MG"; no conditions existing at the termination of the final trimester that would result in academic probation, clinical probation or academic disqualification.

In addition, each student must have demonstrated the characteristics expected of a health professional and have fulfilled the financial and other obligations required for graduation.

In addition to meeting the academic requirements indicated above, students must have a completed administrative clearance form on file in the Office of Academic Affairs before a degree can be conferred. This administrative clearance indicates that the student has met other obligations to the university and to the student's patients.

**Progressive Degree Programs**

The following progressive degrees are available for students enrolled in the Dental Hygiene program: MPH at the Keck School of Medicine and MA in Gerontology from the Davis School of Gerontology. Applicants to the program must have completed 64 units of course work and must submit their applications prior to completion of 96 units of course work. Applicants do not have to submit GRE scores, but are expected to have a minimum GPA of 3.0 at the time of application. The application for admission to a progressive degree program must be accompanied by an approved course plan proposal and letters of recommendation from two USC faculty members. The requirements for both the bachelor's degree and the progressive degrees must be satisfied. For further details on progressive degree programs, see the Requirements for Graduation page.

**DH to DDS Pathway**

The Herman Ostrow School of Dentistry of USC offers a unique pathway for talented students to earn a bachelor's degree in Dental Hygiene (DH) on their way to a Doctor of Dental Science (DDS) degree. Successful candidates for the six-year DH to DDS Pathway will immediately transition to the DDS degree program following graduation from the Dental Hygiene program.

(1) Application materials for the American Dental Education Association Dental Hygiene Application Service (ADEA DHCAS) are due by March 1 of the year in which enrollment is desired. The Common Application deadline for USC Undergraduate Admission is February 1.

 Students must be admitted by both the university and the Herman Ostrow School of Dentistry.

(2) Applicants must complete the Dental Hygiene prerequisite and USC General Education course work prior to entering the program.

One of the most important factors in the selection process is the applicant's potential for, and interest in, pursuing a career as a primary care provider. Applicants must show exceptional academic ability, as demonstrated by achievement in pre-Dental Hygiene/ pre-dental prerequisite course work and the university's general education requirements. Applicants must also possess personal attributes such as initiative and responsibility. Additionally, applicants should have a demonstrated interest in working with people, as evidenced by health care-related experiences and participation in community and extracurricular activities.
(3) The Dental Admissions Committee makes the final selection of students admitted for the pathway. Five to ten students are accepted each year.

(4) Prior to enrollment in the DDS program, applicants must submit an application through the American Dental Education Association's Associated American Dental Schools Application Service (ADEA AADSAS). The AADSAS application must be submitted by the February 1 deadline during the applicant's senior year. Applicants must also take the Dental Admission Test (DAT) and achieve a score of 15 or higher in all tested categories. DAT results must be submitted by the applicant's senior year of Dental Hygiene studies.

Additional requirements include:

- Successful graduation from the Dental Hygiene Program with a minimum overall GPA of 3.0
- A letter of recommendation from the Dental Hygiene program director and recommendations from two additional USC faculty members
- Certification that the student has maintained the school's professional standards and ethical requirements.

**Master's Degree**

**Dental Hygiene (MS)**

The Master of Science in Dental Hygiene is designed as an online twenty-month part-time program. The program is designed to educate graduate dental hygiene students to become leaders in the field who will help to advance the art and science of the discipline of dental hygiene. Students will learn how to integrate research findings into the dental hygiene process of care to form strategies to decrease oral disease risks and promote oral health among individuals, families and communities. The first three semesters are devoted to course work that progressively leads to the formation and acceptance of a project plan for implementation in the field in the final trimester.

All students will complete 19 units of required core course work, plus 7 additional units of elective studies in an area of emphasis, which supports their interests, and future career plans. Emphasis areas include education and geriatric dentistry courses in which the instruction will be offered through the Dental Hygiene program, while electives in geriatric dentistry will be offered primarily through existing graduate programs at the Herman Ostrow School of Dentistry.

Students will learn program planning, advanced research methodology and statistical data management, and apply these skills into the design and implementation of their project as the basis for their scholarly Capstone project. Students will demonstrate active learning through interactive online classes, peer teaching and the design and use of educational technology. Courses include online lectures, case studies, student written and oral presentations, student teaching and fieldwork.

**Admission Requirements**

All applicants to the Master of Science in Dental Hygiene program must satisfy the following general criteria:

- Successfully graduated from an accredited dental hygiene program in North America.
- Possess a baccalaureate degree in dental hygiene or related area from an accredited university.
- Minimum GPA: 3.0
- Submit three letters of recommendation: one from the undergraduate dental hygiene director and the other two from individuals who can attest to the your general character. These letters may be from professors, and/or an employer, a representative from a service organization, or from a respected member of the dental hygiene or dental profession.
- Submit a career statement
- Submit a current curriculum vitae or resume
- Applicants who meet these requirements will be invited to interview for the program. The interview may take place in person or through a live, interactive electronic communication.

**Application Deadlines**

In order to be reviewed, the application and required application materials must be received by the Division's Admissions Committee prior to February 15 for a fall trimester start. Submit your application well in advance of the deadline and note that transcripts and other application materials may take three weeks or more to be processed by the Office of Admissions and then made available to your office. Please plan accordingly.

Applications received after Feb 15 are also welcome and will be processed on a space available basis.

**Application Procedures**

Apply online by going to [usc.edu/admission/graduate/apply](https://usc.edu/admission/graduate/apply) at least three weeks before the departmental application deadline to allow adequate time for processing. Be sure to complete the supplemental portion that relates to dental hygiene. You also should arrange to have transcripts and test scores sent to USC in time to meet this deadline.

**Materials to be submitted by applicants**

- Send official transcripts from all colleges you have attended to:
  - University of Southern California
  - USC Office of Graduate Admission
  - 3601 South Flower Street Room 112
  - Los Angeles, CA 90089-0915
- Nonrefundable application fee

**Supplemental Materials to be submitted to:**

- Herman Ostrow School of Dentistry of USC Office of Admissions Room 201
  - 925 W. 34th Street
  - Los Angeles, CA 90089-0641

**Supplemental materials include:**

- Three letters of recommendation. Letters of recommendation must be in a sealed envelope with a signature across the back.
- Career statement
- Current résumé / curriculum vitae

**Progressive Degree Programs**

Applicants for a progressive degree program must have completed 64 units of course work applicable to their undergraduate degree since graduating from high school. (AP units, IB units and course work taken prior to high school graduation are excluded.) Applicants must submit their application before completing 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. Applicants do not have to submit GRE scores but are expected to have at least a 3.0 GPA at the time of application.

The Application for Admission to a Progressive Master's Program must be approved by the deans of the bachelor's and the master's degree-granting schools at USC and submitted to the Degree Progress Department. An approved course plan proposal and letters of recommendation from two USC faculty members must be submitted with the application, with at least one of the recommendations coming from a faculty member in the student's bachelor's degree major department.

**Degree Requirements**

**Required Courses**

Satisfactory completion of a minimum of 26 units of course work at the 600 level or above to include a Capstone project, which consists of a comprehensive written scholarly report suitable for publication and a defended oral presentation. A minimum grade point average of 3.0 on all graduate work is required.

- DHYG 600 Dental Hygiene Professional Issues Units: 2
- DHYG 601 Development of Systematic Investigations Units: 1
- DHYG 602 Research Methods and Biostatistics Units: 2
- DHYG 603 Learning Theories and Technology Units: 2
- DHYG 604 Health Advocacy Program Planning and Evaluation Units: 2
- DHYG 605 Professional Leadership in Program Development Units: 2
- DHYG 606 Multidisciplinary Population Health Management Strategies Units: 2
- DHYG 607 Knowledge Assessment Units: 1
- DHYG 608 Current Trends in Oral Healthcare Units: 1

Director: Michael L. Paine, BDS, PhD

Faculty
Professors: Yang Chai, DDS, PhD; Casey Chen, DDS, PhD; Cheng-Ming Chuong, MD, PhD (Medicine); Glenn Clark, DDS, PhD; Tina Jaskoll, PhD; Michael Melnick, DDS, PhD; Cedric Minkin, PhD; Mahvash Navazesh, DMD; Janet Moradian-Oldak, PhD; Michael Paine, BDS, PhD; Pragana Patel, PhD; Michael Schneir, PhD; Jorgen Slots, DDS, PhD; Malcolm Sneed, DDS, PhD; David Warburton, MD (Medicine)
Associate Professors: Winston Chee, DDS; George Cho, DDS; Roger De Filippo, MD (Medicine); Sillas Duarte, DDS, PhD; Kian Kar, DDS, MS; Robert Keim, DDS, PhD; Saravanan Ram, DDS; Glenn Sameshima, DDS, PhD; Wei Shi, MD, PhD (Medicine); Arnold Tiber, DDS, PhD; Stephen Yen, DMD, PhD; Homayoun Zadeh, DDS, PhD
Assistant Professors: Ruchi Bajpai, MS, PhD; Ahmed El-Hashash, PhD; Denise Al-Alma, PhD; Reeyes Enciso, PhD; Mark Frey, PhD (Medicine); Dan Grauer, DDS, PhD; Ching-Ling Lien, PhD, (Medicine); Amy Merrill-Brugger, PhD; Ramiro Murata, DDS, PhD; Laura Perin, PhD, (Medicine); Parish P. Sedgehizadeh, MS, DDS; Mark Urata, DDS, MD; Jian Xu, PhD; Yan Zhou, PhD

Craniofacial biology is concerned with the evolution, growth, structure and function of oral tissues and the oral region; and with the etiology and pathogenesis of numerous diseases and malformations. These involve studies at various levels of biological organization, from the molecular and subcellular to the organismic. Craniofacial biology comprises a large, rapidly increasing body of knowledge that has both clinical and academic importance.

The objective of the program is primarily, but not exclusively, to prepare health science graduates for entry into careers in academic environments as clinical scholars or as members of multidisciplinary teams of health professionals in academic centers of clinical and basic health science research.

Admission Requirements
The graduate program in craniofacial biology offers academic graduate training to individuals with a Doctor of Dental Surgery (DDS), Medical Doctor (MD) or equivalent degree. Applicants with Bachelor of Science degrees in areas such as biology and chemistry are also encouraged to apply.

All applications are evaluated individually in search of the most promising students in terms of intellectual distinction and professional merit in the sciences and/or dentistry. Beyond this, the committee looks for academic trends, documented potential and evidence of good character. Priority consideration for admission is given to applications that are complete by December 1.

Applications
Formal application to the USC Office of Graduate Admission and the graduate program in craniofacial biology is required for Master of Science (MS) and Doctor of Philosophy (PhD) objectives. The Craniofacial Biology graduate programs are administered by the USC Graduate School whose catalogue provides additional information about specific application requirements and courses that must be completed in order to graduate.

Requirements for MS and PhD applications include:
• Statement of purpose.
• Three letters of recommendation describing academic abilities, personal attributes and research (if applicable).
• Original postsecondary transcripts from all schools attended.
• A grade point average (GPA) of 3.0 or higher on a 4.0 scale, and grades of A or B in science courses.
• Graduate Record Examinations (GRE) general test scores no older than five years.
• Test of English as a Foreign Language (TOEFL) is required for all applicants whose native language is not English to test their ability to use and understand English in an academic setting. Official scores must be received directly from the testing service and date no earlier than 2 years (24 months) prior to the start of the intended first term at USC.
• Personal interviews may be required.

The Master of Science requires a minimum GRE verbal score of 40 percent rank and quantitative score of 50 percent rank. For non-native English speakers, a minimum combined TOEFL score of 90 is required with no less than 20 on each section (reading, listening, speaking and writing). Most accepted students score higher than the minimum requirement.

The Doctor of Philosophy requires a minimum GRE verbal score of 60 percent rank and quantitative score of 60 percent rank. For non-native English speakers, a minimum combined TOEFL score of 100 is required with no less than 20 on each section (reading, listening, speaking and writing). Many accepted students score higher than the minimum requirement.

Progressive Degree Program
Applicants for a progressive degree program must have completed 64 units of course work applicable to their undergraduate degree since graduating from high school. (AP units, IB units and course work taken prior to high school graduation are excluded.) Applicants must submit their application before completing 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. Applicants do not have to submit GRE scores but are expected to have at least a 3.0 GPA at the time of application. The application for admission to a progressive master's program must be approved by the deans of the bachelor's and the master's degree-granting schools at USC and submitted to the Degree Progress Department. An approved course plan proposal and letters of recommendation from two USC faculty members must be submitted with the application, with at least one of the recommendations coming from a faculty member in the student's bachelor's degree major department.

Master's Degree
Craniofacial Biology (MS)
This degree is under the jurisdiction of the Graduate School. Students should also refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School. The Master of Science
degree in craniofacial biology offers the clinician (DDS, MD or equivalent) the opportunity to obtain clinical research knowledge and skills in the area of craniofacial biology. Such training will include research into the causes of craniofacial diseases and anomalies, as well as normal development and function. The course of study is particularly directed toward those clinicians committed to pursuing a career in research and teaching.

**Degree Requirements**

A total of 32 units is required that includes eight courses in craniofacial biology, four units of 594ab Thesis and necessary units of 590 Thesis Research. All students must achieve a 3.0 grade point average in the craniofacial biology courses. Four core courses in craniofacial biology are required for all students: CBY 574 or PM 510L, CBY 579L, CBY 585 and CBY 671. The four remaining courses required may be selected from any offered by the craniofacial biology program or other graduate programs and selected by the students and their mentors to best support their research interests. All students are required to complete a thesis based on the student's research following a thesis protocol approved by a committee of craniofacial biology faculty. An advisory committee, comprising the research adviser and two additional faculty members, will establish thesis requirements to be completed by the student.

**University Certificate Craniofacial Biology Certificate**

The Certificate in Craniofacial Biology is intended to provide dentists in post-graduate dental education with experience in graduate education and insight into the requirements to complete a graduate degree. This will provide the students with additional information relative to selecting academic careers. All certificate students must have a dental degree and have been admitted to a post-graduate dental education program sponsored by the Herman Ostrow School of Dentistry of USC.

**Degree Requirements**

A total of six CBY courses and 18 units of course work is required for the certificate. The six courses may be selected from the following list: CBY 573, CBY 574, CBY 575, CBY 576, CBY 579L, CBY 583, CBY 585, CBY 587, CBY 672, CBY 673, CBY 674. The credit received for these classes may be applied toward either the MS or PhD in Craniofacial Biology should the student decide later to pursue an advanced degree.

**Admissions Criteria**

Only residents enrolled in the following advanced dental education and specialty programs are eligible for the Certificate in Craniofacial Biology: General Practice Residency, Endodontics, Orofacial Pain/Oral Medicine, Oral and Maxillofacial Surgery, Orthodontics, Pediatric Dentistry, Periodontology, Prosthodontics. Residents must complete all admission requirements for dental advanced education programs and have been accepted to these programs in accordance with criteria established by the advanced dental education program faculty.

**Doctoral Degree Craniofacial Biology (PhD)**

The Doctor of Philosophy degree in craniofacial biology is awarded under the jurisdiction of the Graduate School. Students should also refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School. This program is designed to provide health science-oriented training for the professional with interests in academic, as well as clinical, aspects of craniofacial biology. Appointment to the PhD program are designated each year for all semester admission.

**New Student Orientation Committee**

All new students seeking Master of Science and/or Doctor of Philosophy degree objectives will be assigned to an orientation committee. This committee will function to advise and guide new students through their first semester. Thereafter, each student will identify a mentor and assemble a qualifying exam committee.

**Qualifying Exam Committee**

During the second semester of study each graduate student should select a qualifying exam committee. The qualifying exam committee must include five faculty members who will be of assistance in the student's education. The student's mentor will serve as chair of the qualifying exam committee. One committee member must be a USC faculty member from outside the program. The graduate program director will be an ex officio member of all qualifying exam committees. The qualifying exam committee will monitor the student's progress, recommend readings or additional training, and determine when the student is ready for the qualifying examination. It is the student's responsibility to meet with the qualifying exam committee at least once during every semester of each academic year. The results of these formal meetings should be summarized by the student in a written statement and submitted to the program director each semester.

**Screening Procedure**

As soon as the student has satisfactorily completed the core courses and selected the committee, a screening meeting with the qualifying exam committee should be called. The screening procedure may consist of an oral examination; the student will outline his research progress and be examined on academic development. The committee may recommend that the student take specific additional course work and that readings in certain areas be initiated to remedy deficiencies. A brief report will be given to the student and included in his or her file. The student will meet with the committee each semester; they shall agree when the student is prepared to take the qualifying examination in the next semester or if the student should resign or be dropped from the program.

**Course Requirements**

A total of 60 units are required for the PhD Eight didactic courses at the graduate level are required. The core required CBY courses are CBY 574 or PM 510L, CBY 579L, CBY 585 and INTD 571. The remaining graduate-level courses may be selected from courses offered by any department, following consultation with the graduate mentor and graduate program director. It is highly recommended that PhD students take the PIBBS core curriculum on the Health Sciences Campus. Students must achieve a 3.0 GPA or better in their course work. Students with a Doctor of Dental Surgery or other professional degree may be granted waivers for having completed equivalent course work. It is the student's responsibility to obtain from the Graduate School the Request for Permission to Take the PhD Qualifying Examination form which must be signed by all committee members. This form must be completed 60 days before the qualifying examination.

**Qualifying Examination**

The PhD qualifying examination is offered during the fall or spring semesters. A written examination will cover specific subject areas of the core curriculum, as well as topics selected by the qualifying exam committee. After successfully completing all parts of the written examination, the student will prepare and submit an original research proposal to the qualifying exam committee which presents, in National Institutes of Health (NIH) format, the student's proposed dissertation research. If the submitted proposal is acceptable, an oral examination will be conducted. This examination will include a defense of the proposal and could also include material from the written examination and related topics. A student failing any part of the examination may be allowed one additional opportunity to pass that portion, at the discretion of the qualifying exam committee, within the regulations of the Graduate School governing the repetition of qualifying examinations.

**Dissertation**

The doctoral dissertation is to focus upon an original research
problem which reflects the creative scholarly abilities of the candidate and contributes to the general advancement of biological understanding, as well as to an understanding of the theoretical basis of disease and its treatment.

Advances Programs in Dental Education

The Herman Ostrow School of Dentistry offers advanced dental education programs in general dentistry, endodontics, geropsychology, periodontics, oral and maxillofacial surgery, pediatric dentistry, Craniofacial Biology, and in periodontology and prosthodontics, all leading to a certificate. In conjunction with the Keck School of Medicine, the Herman Ostrow School of Dentistry offers a combined program leading to a MD degree and certificates in oral and maxillofacial surgery and oral pain. The Herman Ostrow School of Dentistry also offers an online program in orofacial pain and oral medicine and geriatric dentistry. The certificate curriculum consists of a core of basic science subjects plus clinical seminars and clinical experience. Elective subjects may also be selected by the student with the approval of the program director.

The estimated lengths of programs are as follows:
- Endodontics, 24 months
- General Practice Residency, 12 months
- Geriatric Dentistry (online certificate), 12 months
- MS in Geriatric Dentistry (online), 37 months
- Operative and Adhesive Dentistry, 26 months
- Oral and Maxillofacial Surgery, 48 months
- Oral and Maxillofacial Surgery/MD, 72 months
- Orofacial Pain, 24 months
- MS in Orofacial Pain and Oral Medicine (online), 37 months
- Orthodontics, 34 months
- Pediatric Dentistry, 24 or 36 months
- Periodontics, 36 months
- Prosthodontics, 36 months

All programs will begin in June (date to be determined).

Admission Requirements

Applicants must hold the Doctor of Dental Surgery or Doctor of Medicine degree (or equivalent degree if educated overseas) and must present the appropriate degrees, approved transcripts and affidavits as prescribed by the Office of Dental Admissions and Student Affairs.

Admission Procedures

Prospective students must apply through the Postdoctoral Application Support Service (PASS) at aded.org/dental_education_. The ADEA PASS application requires the submission of an essay, one or more Professional Evaluations, an Institution Evaluation from the dental school dean, and official dental school transcripts. The application cannot be processed until all required documents are submitted.

Applicants for the integrated MD degree/oral and maxillofacial surgery certificate program must apply through the American Medical College Application Service (AMCAS) here.

For selection and admission to the operative/CPBY, periodontics/CPBY, orthodontics/CPBY, and pediatrics/CPBY dentistry programs, applicants are required to take the Aptitude Section of the Graduate Record Examinations; and submit competitive scores on both the quantitative and verbal sections of the examination. Likewise, all applicants for the pediatric dentistry program must take and submit competitive GRE scores. Information about this examination can be found at ets.org/gre. The last acceptable test date is in September of the year preceding desired admission.

The following material is also required to complete the application: (1) payment of an $85 processing fee (graduates of foreign dental schools or students requiring a visa must submit a $145 processing fee) directly to the Herman Ostrow School of Dentistry Office of Admissions and Student Affairs; (2) applications for General Dentistry, General Practice Residency, Orthodontic, Pediatric Dentistry and Oral Surgery programs must submit applicant agreement forms to the Postdoctoral Dental Matching Program. Information and forms can be obtained online at natmatch.com/dentistry; (3) board scores Part I and Part II for all programs with the exception of the operative dentistry certificate and operative dentistry/CPBY programs; MCATs are required for the Integrated MD degree/oral maxillofacial surgery certificate. GRE scores are required for operative dentistry/CPBY, orthodontics, periodontics/CPBY and pediatric/CPBY programs. International students are required to take GREs for the two-year certificate program. These requirements may be waived at the discretion of the program director; (4) a biographical statement; (5) applicants may be asked to be available for an interview. If one is necessary, applicants will be contacted by the director of the individual advanced program; (6) applicants will be required to pay a non-refundable $1,500 tuition deposit upon notification of acceptance. (7) As a precondition to enrollment, accepted students must undergo a background screening conducted by Certiphi Screening, Inc. to help ensure patient safety and compliance with state laws and regulations and all students must provide evidence of sound health and meet the school’s health requirements.

Timetable for Applications

Applications for admission to advanced programs must be received as follows:
- Endodontics, Sept. 1
- General Practice Residency, Oct. 15
- Geriatric Dentistry (online graduate certificate)
- Geriatric Dentistry (online Master of Science)
- Operative and Adhesive Dentistry, Nov. 1
- Oral and Maxillofacial Surgery, Oct. 1
- Orofacial Pain, Oct. 1
- Orofacial Pain and Oral Medicine (online Master of Science), Oct. 1
- Orthodontics, Oct. 1
- Pediatric Dentistry, Nov. 1
- Periodontics, Sept. 1
- Prosthodontics, Nov. 1

Completed applications and related information are reviewed first by the faculty of the department of interest. In selecting applicants for admission the faculty considers academic records and personal qualifications. Final approval for admission rests with the advanced education coordinating committee. Responsibility for advising the student after admission rests with the department chair.

Orientation

A departmental orientation session is usually held the first week of classes, beginning in late June.Incoming students are acquainted with the Herman Ostrow School of Dentistry, its policies, procedures, faculty and facilities.

Student Issue — Advanced Programs

Dental units in the school’s clinics are equipped with Midwest Company tubing and couplers for low and high speed air hand pieces. Advanced students must provide their own adapters to fit the school’s couplers unless the students’ present hand pieces are already

Defense of the Dissertation

An oral examination on a rough or final copy of the dissertation is conducted within one month following submission of the manuscript to the committee.
so modified. The Dental Bookstore will assist in such conversions, if necessary. The bookstore has some low speed air hand pieces available for purchase.

Students accepted into an advanced program should consult their program directors about needed equipment.

**Master's Degree**

**Advanced Orofacial Pain and Oral Medicine (MS)**

The Master of Science degree in orofacial pain and oral medicine program consists of a 36-month hybrid program (online and face-to-face) leading to a master's degree in orofacial pain and oral medicine (OFPOM). The curriculum is designed to provide practicing dentists with advanced knowledge and training in the areas of orofacial pain and oral medicine including sleep medicine.

The program consists of a series of 14 online didactic courses where the students will gain knowledge about the underlying science as well as the diagnosis, pathobiology and treatment of different oral and maxillofacial diseases and disorders. In addition to these courses, the student will attend USC for two weeks each summer during the three-year period for an additional three face-to-face assessment courses where they will be tested for knowledge acquisition using a set of objective standardized clinical examinations, oral interviews and written examinations. They will also be required to prepare a final portfolio of cases and conduct and present a research project report. During their visits to USC, the residents will gain experience diagnosing and treating patients in the USC OFOPM center.

During the year, the residents will attend weekly video conferences where online students are required to analyze, diagnose and prepare treatment plan cases that are posted for analysis. These cases will cover the following diseases: temporomandibular disorders; infectious, dystrophic, neoplastic proliferative, erosive and ulcerative oral and pharyngeal mucosal diseases. Students will also learn about and work with patients who have various salivary, neurogenic, osseous, and odontogenic infections, tumors and diseases including oral neuropathic pain, oral spasticity, migraine, tension type and chronic daily headache and sleep apnea disorders.

**Required Courses**

- ADNT 701 Research Methodologies in Dentistry Units: 2
- OFPM 702a Soft Tissue Disease for Dental Residents Units: 1
- OFPM 702b Soft Tissue Disease for Dental Residents Units: 2
- OFPM 704 Bony Pathology, Radiology and Advanced Imaging for Dental Residents Units: 1
- OFPM 705 Neurogenic Based Oral and Facial Pains for Dental Residents Units: 2
- OFPM 706 TMD, Orthopedics, Rheumatology and Physical Therapy for Dental Residents Units: 2
- OFPM 707 Pharmacology Series for Dental Residents Units: 2
- OFPM 710a Knowledge Assessment for OFPOM Residents Units: 1
- OFPM 710b Knowledge Assessment for OFPOM Residents Units: 1
- OFPM 721 Neurosciences for Dental Residents Units: 2
- OFPM 722 Internal Medicine and Systemic Disease for Dental Residents Units: 2
- OFPM 723 Systems Physiology, Motor Disorders and Sleep Apnea for Dental Residents Units: 2
- OFPM 724 Psychological and Psychometric Assessment for Dental Residents Units: 2
- OFPM 725 Epidemiology, Nutrition and Aging for Dental Residents Units: 2
- OFPM 726 Immunology and Immunosuppression for Dental Residents Units: 2
- OFPM 727 Infectious Disease, Oral Microbiology and Virology for Dental Residents Units: 2
- OFPM 729a Capstone Project for OFPOM Residents Units: 0.5
- OFPM 729b Capstone Project for OFPOM Residents Units: 0.5
- OFPM 729d Capstone Project for OFPOM Residents Units: 0.5
- OFPM 730a Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
- OFPM 730b Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
- OFPM 730c Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
- OFPM 730d Case Portfolio Preparation by Online OFPOM Residents Units: 0.5

**Total units: 32.5**

**University Certificate**

**Advanced Endodontics Certificate**

The advanced endodontics certificate program is a 24-month course of study. The program provides advanced students with the academic background information and clinical experience necessary for the specialty practice of endodontics. The program also requires activities in research and teaching to expose the advanced students interested to these areas of endodontics.

Advanced students are encouraged to pursue Board Certification by the American Board of Endodontics and are prepared for the certification examinations.

Emphasis is also placed on the interaction of endodontics with other specialties and general dentistry.

The program in endodontics is accredited by the Commission on Dental Accreditation (CODA), which serves as the only nationally recognized accrediting body for dentistry and the related dental field. The Commission receives its accreditation authority from the acceptance of all stakeholders within the dentistry community and recognition by the United States Department of Education. Since its inception in 1937, the Commission and its predecessors have operated within the parameters of the ADA Bylaws. The Commission serves the profession and the public by establishing and applying high-quality standards for the accreditation of educational programs in dentistry, postgraduate general and specialty dentistry, and the allied dental professions.

**Advanced Endodontics Curriculum**

**Required Courses**

- ADNT 701 Research Methodologies in Dentistry Units: 2
- ADNT 702 Physical Diagnosis Units: 2
- ADNT 704a Oral Biology Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each
- ADNT 704b Oral Biology Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each
- ADNT 710 Internship: Dental Education Units: 1, 2, 3, 4, 5
- AMED 750a Physical Evaluation and Anesthesia Units: 2
- AMED 750b Physical Evaluation and Anesthesia Units: 2
- AMED 750c Physical Evaluation and Anesthesia Units: 1
- ANAT 701 Advanced Head and Neck Anatomy Units: 1
- DPHR 701 Advanced Pharmacology Units: 2
- DHIS 701 Advanced Oral Histology Units: 2
- END 521 Preclinical Endodontics Units: 3
- END 701a Seminar: Biological Basis of Endodontic Therapy Units: 1
- END 701b Seminar: Biological Basis of Endodontic Therapy Units: 1
- END 701c Seminar: Biological Basis of Endodontic Therapy Units: 1
- END 701d Seminar: Biological Basis of Endodontic Therapy Units: 1
- END 702 Seminar: Advanced Clinical Endodontics Units: 2
- END 703a Seminar: Review of Endodontic Literature Units: 1
- END 703b Seminar: Review of Endodontic Literature Units: 1
- END 703c Seminar: Review of Endodontic Literature Units: 1
- OFPM 730a Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
- OFPM 730b Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
- OFPM 730c Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
- OFPM 730d Case Portfolio Preparation by Online OFPOM Residents Units: 0.5
Advanced Operative and Adhesive Dentistry Certificate

The Herman Ostrow School of Dentistry offers two programs in operative and adhesive dentistry: (1) a 26-month program leading to a Certificate in Advanced Operative and Adhesive Dentistry, and (2) a 26-month combined program leading to a Certificate in Advanced Operative and Adhesive Dentistry and Master of Science in Craniofacial Biology.

The programs provide students with in-depth scientific knowledge and clinical experience in operative and adhesive dentistry, including cutting-edge technologies in esthetic oral rehabilitation, digital workflow, CAD/CAM technologies, dental biomaterials and implant dentistry. In addition, the programs offer students teaching experience through assisting the learning activities of the Doctor of Dental Surgery Program.

Biomaterials research is an integral part of the curriculum for both programs. Students of the combined program of Certificate in Operative and Adhesive Dentistry/Master of Science in Craniofacial Biology must complete an original research project to fulfill a thesis requirement.

The combined program in Advanced Operative and Adhesive Dentistry Certificate / Master of Science in CBY requires grade point average (GPA) of 3.0 or higher, a minimum GRE verbal score of 40 percent rank and quantitative score of 50 percent rank. For non-native English speakers, a minimum combined TOEFL score of 90 is required with no less than 20 on each section (reading, listening, speaking and writing). Most accepted students score higher than the minimum requirement. More information on the MS in CBY can be obtained at http://catalogue.usc.edu/schools/dentistry/graduate/

The clinical, research, and teaching experiences will prepare graduates for future academic careers in dental research and education, as well as career options in dental related public organizations and private corporations.

Advanced Operative and Adhesive Dentistry Certificate

Required Courses
- ADNT 702 Physical Diagnosis Units: 2
- ADNT 704a Oral Biology Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each
- ADNT 704b Oral Biology Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 each
- ADNT 710 Internship: Dental Education Units: 1, 2, 3, 4, 5
- AMED 750a Physical Evaluation and Anesthesia Units: 2
- AMED 750b Physical Evaluation and Anesthesia Units: 2

- CBY 594a Master's Thesis Units: 2
- CBY 594b Master's Thesis Units: 2
Advanced Oral and Maxillofacial Surgery

The advanced education program in oral and maxillofacial surgery is a continuous 48-month course of study that prepares the graduate for the practice of oral and maxillofacial surgery. The program in oral surgery is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. The program also meets the requirements of the American Association of Oral and Maxillofacial Surgeons.

The program is conducted at the Herman Ostrow School of Dentistry and at the LAC-USC Medical Center. The course provides graduates with the necessary background for certification by the American Board of Oral and Maxillofacial Surgery. Certificates are awarded upon successful completion of the 48-month course.

Advanced Oral and Maxillofacial Surgery Curriculum

Required Courses

- ADNT 701 Research Methodologies in Dentistry Units: 2
- OFPM 701 CPR, Blood and Airborne Infections and Common Emergencies for Dental Residents Units: 1
- OFPM 702a Soft Tissue Disease for Dental Residents Units: 1
- OFPM 702b Soft Tissue Disease for Dental Residents Units: 2
- OFPM 703 Local Anesthesia, Minor Surgery and Biopsy Procedures for Dental Residents Units: 1
- OFPM 704 Bony Pathology, Radiology and Advanced Imaging for Dental Residents Units: 1
- OFPM 705 Neurogenic Based Oral and Facial Pains for Dental Residents Units: 1
- OFPM 706 TMD, Orthopedics, Rheumatology and Physical Therapy for Dental Residents Units: 2
- OFPM 707 Pharmacology Series for Dental Residents Units: 2
- OFPM 721 Neurosciences for Dental Residents Units: 2
- OFPM 722 Internal Medicine and Systemic Disease for Dental Residents Units: 2
- OFPM 723 Systems Physiology, Motor Disorders and Sleep Apnea for Dental Residents Units: 2
- OFPM 724 Psychological and Psychometric Assessment for Dental Residents Units: 2
- OFPM 725 Epidemiology, Nutrition and Aging for Dental Residents Units: 2
- PTHL 601 Advanced Oral Pathology Seminar Units: 2
- PTHL 701 Clinicopathologic Conference Units: 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13
- SURG 701a Seminar: Advanced Oral Surgery Units: 2
- SURG 701b Seminar: Advanced Oral Surgery Units: 2
- SURG 702a Seminar: Review of the Oral Surgery Literature Units: 2
- SURG 702b Seminar: Review of the Oral Surgery Literature Units: 2
- SURG 702d Research Methodology Units: 1
- SURG 704a Operative Dentistry Literature Review Units: 1
- SURG 704b Operative Dentistry Literature Review Units: 1
- SURG 704d Operative Dentistry Literature Review Units: 1
- SURG 704f Operative Dentistry Literature Review Units: 1
- SURG 705f Dental Photography Units: 1
- SURG 715aL Applied Adhesion Sciences Units: 2
- SURG 715bL Applied Adhesion Sciences Units: 2
- SURG 715cL Applied Adhesion Sciences Units: 2
- SURG 725a Cariology Units: 1
- SURG 725b Cariology Units: 1
- SURG 735aL Research Methodology Units: 2
- SURG 735bL Research Methodology Units: 2
- SURG 780a Treatment Planning in Operative Dentistry Units: 2
- SURG 780b Treatment Planning in Operative Dentistry Units: 2
- SURG 780d Treatment Planning in Operative Dentistry Units: 2
- SURG 780f Treatment Planning in Operative Dentistry Units: 2
- SURG 780h Treatment Planning in Operative Dentistry Units: 2
- SURG 780i Treatment Planning in Operative Dentistry Units: 2

- SURG 795b Clinic: Advanced Operative Dentistry Units: 1, 2, 3
- SURG 795c Clinic: Advanced Operative Dentistry Units: 1, 2, 3
- SURG 795d Clinic: Advanced Operative Dentistry Units: 1, 2, 3
- SURG 795e Clinic: Advanced Operative Dentistry Units: 1, 2, 3
- SURG 795f Clinic: Advanced Operative Dentistry Units: 1, 2, 3
- REST 708a Dental Ceramics, Color, and Aesthetics Units: 2
- REST 708b Dental Ceramics, Color, and Aesthetics Units: 2
- REST 710a Implant Dentistry Units: 1
- REST 710b Implant Dentistry Units: 1
- REST 721a Principles of Occlusion Units: 2

Total units: 162
• OFPM 726 Immunology and Immunosuppression for Dental Residents Units: 2
• OFPM 727 Infectious Disease, Oral Microbiology and Virology for Dental Residents Units: 2
• OFPM 728 Case Presentations by OFP-OM Residents Units: 2

Advanced Orofacial Pain Certificate

The Herman Ostrow School of Dentistry’s 24-month, certificate residency program in advanced orofacial pain trains one to two residents per year to be expert clinicians in orofacial pain with an emphasis on oral medicine. The program has received initial accreditation from the Commission on Dental Accreditation (CODA) of the American Dental Association (ADA). The certificate curriculum is designed with a series of didactic courses where students will gain knowledge about the diagnosis, pathobiology and treatment of different oral diseases in the field of orofacial pain. The field of orofacial pain encompasses masticatory musculoskeletal pain, neurogenic orofacial pain, sleep disorders related to orofacial pain, temporomandibular disorders, headaches, orofacial motor disorders including orofacial dystonias and bruxism, intraoral, intracranial, extracranial and systemic disorders that cause orofacial pain. The courses and clinical experiences covered in the intensive two-year program are listed below.

Required Courses

• ADNT 710 Research Methodologies in Dentistry Units: 2
• OFPM 701 CPR, Blood and Airborne Infections and Common Emergencies for Dental Residents Units: 1
• OFPM 702a Soft Tissue Disease for Dental Residents Units: 1
• OFPM 702b Soft Tissue Disease for Dental Residents Units: 2
• OFPM 704 Bony Pathology, Radiology and Advanced Imaging for Dental Residents Units: 1
• OFPM 706 Orthopedics, Rheumatology and Physical Therapy for Dental Residents Units: 2
• OFPM 707 Pharmacology Series for Dental Residents Units: 2
• OFPM 709b Headaches for Dental Residents Units: 1
• OFPM 721 Neurosciences for Dental Residents Units: 2
• OFPM 722 Internal Medicine and Systemic Disease for Dental Residents Units: 2
• OFPM 723 Systems Physiology, Motor Disorders and Sleep Apnea for Dental Residents Units: 2
• OFPM 724 Psychological and Psychometric Assessment for Dental Residents Units: 2
• OFPM 725 Epidemiology, Nutrition and Aging for Dental Residents Units: 2
• OFPM 726 Immunology and Immunosuppression for Dental Residents Units: 2
• OFPM 727 Infectious Disease, Oral Microbiology and Virology for Dental Residents Units: 2
• OFPM 728 Case Presentations by OFP-OM Residents Units: 2

Advanced Orthodontics Certificate

The advanced orthodontics certificate program is a 34-month course of study leading to a certificate in orthodontics and a Master of Science degree in craniofacial biology. The program in orthodontics is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. Upon completion of all requirements, the graduate is eligible for examination and certification by the American Board of Orthodontics.

The program has as its primary mission the preparation and training of residents for clinical practice in the specialty of orthodontics. This is achieved through a broad, in-depth curriculum designed to develop proficiency in clinical orthodontics with a solid foundation in fundamental and advanced biological and mechanical principles. Graduate-level courses in the basic sciences are the core didactic component of the program. Research is also an integral part of the program, and each resident must complete an original research project to fulfill a thesis requirement.

Advanced Orthodontics/Craniofacial Biology Curriculum

Required Courses

• ADNT 710 Internship: Dental Education Units: 1, 2, 3, 4, 5
• CBY 574 Statistical Methods in Bioexperimentation Units: 3
• CBY 578 Pathological Conditions of the Craniofacial Complex Units: 2
• CBY 579L Craniofacial Molecular Genetics Units: 4
• CBY 585 Systematic Research Writing Units: 3
• CBY 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• CBY 594a Master's Thesis Units: 2 *
• CBY 594b Master's Thesis Units: 2 *
• CBY 594z Master's Thesis Units: 0 *
• CBY 671 Epistemology and Ethics of Bioscience Units: 2
• ORTH 701a Cephalometrics: Growth and Development Units: 2, 3, 4
• ORTH 701b Cephalometrics: Growth and Development Units: 2, 3, 4
• ORTH 702 Seminar: Review of the Orthodontic Literature
• ORTH 703a Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 703b Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 703c Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 703d Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 703e Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 703f Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 703i Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each
• ORTH 704a Seminar: Orthodontics in Theory and Practice Units: 2 **
• ORTH 704b Seminar: Orthodontics in Theory and Practice Units: 2 **
• ORTH 704c Seminar: Orthodontics in Theory and Practice Units: 2 **
• ORTH 705a Orthodontic Practice Management Units: 2
• ORTH 705b Orthodontic Practice Management Units: 2
• ORTH 705c Orthodontic Practice Management Units: 2
• ORTH 706 Surgical Orthodontics Units: 2
• ORTH 707 Interdisciplinary Aesthetic Treatment Units: 2
• ORTH 708 Information Technology in Orthodontic Practice Units: 2
• ORTH 709 Advanced Orofacial Pain Certificate
• ORTH 710 Research Methodologies in Dentistry Units: 2
• ORTH 721 Biomechanics and Orthodontic Technic Units: 8
• ORTH 751a Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751b Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751c Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751d Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751e Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751f Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751h Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• ORTH 751i Clinic: Advanced Orthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
• PERI 752 Interdisciplinary Treatment: An Orthodontic Perspective Units: 2

Note:
*Students will be re-enrolled in CBY 594z until completion of the thesis. Tuition will be charged in each trimester of enrollment beyond Summer Session II.
**Elective course

Advanced Pediatric Dentistry Certificate

The advanced pediatric dentistry certificate program is a 24-month course of study designed to provide students with the background information and clinical experience necessary for the practice of pediatric dentistry. The program in pediatric dentistry is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. The program also meets the educational requirements of the American Board of Pediatric Dentistry.

First-year studies emphasize advanced pediatric dentistry theory and clinical treatment of the "healthy" child. Students develop a sound basis in genetics, growth and development, nonpharmacologic and pharmacologic behavior guidance, physical evaluation, research methodology and statistics, interceptive orthodontics, prevention and a review of the pediatric dentistry literature. Second year studies concentrate on oral health care of children with physical, medical, intellectual and emotional disabilities. The second year student serves as a hospital-based resident at Children's Hospital Los Angeles, Long Beach Memorial Medical Center/Miller Children's Hospital or Children's Hospital of Orange County. Residents also rotate to Rancho Los Amigos National Rehabilitation Center. Students gain experience in performing operating room procedures, oral conscious sedation, participating on interdisciplinary/multidisciplinary teams, providing emergency treatment and treating children with medical disabilities and pathologies in the hospital environment.

In addition to the two-year program, opportunities are available to combine the basic certificate program with a master's or doctoral degree in Craniofacial Biology (CBY).

The purpose of the combined pediatric dentistry/craniofacial biology program is to prepare highly qualified specialists in pediatric dentistry who can assume leadership positions in dental education, service to the community, dental research and oral health care of children with developmental disabilities and medically compromising conditions. The structured curriculum of this three-year program offers a strong didactic component in basic biological science and in clinical sciences as well as intensive clinical pediatric dentistry training.

An individual who elects to apply to the combined program in craniofacial biology and advanced pediatric dentistry would submit a simultaneous application to the Herman Ostrow School of Dentistry and the Graduate School. See the Craniofacial Biology section of this catalogue for further information. The first year of the program would be spent in craniofacial biology and the second and third years spent in the pediatric dentistry program. After successful completion of the craniofacial biology program the student would be reviewed by the Pediatric Dentistry Admissions Committee and admitted into the certificate program. The student must satisfactorily complete the Master of Science program to be eligible for the Pediatric Dentistry Certificate.

Required Courses

• ADNT 701 Research Methodologies in Dentistry Units: 2
• ADNT 706 Seminar: Diseases of Childhood Units: 2
• ADNT 707 Behavior of the Child Patient Units: 2
• ADNT 710 Internship: Dental Education Units: 1, 2, 3, 4, 5
• AMED 750h Physical Evaluation and Anesthesia Units: 2
• AMED 750h Physical Evaluation and Anesthesia Units: 1
• DMAT 701 Advanced Biotamaterials Units: 2
• DPHR 701 Advanced Pharmacology Units: 1
• PEDO 701a Seminar: Advanced Pediatric Dentistry Units: 8, 9, 10, 11, 12, 13, 14, 15 each
• PEDO 701b Seminar: Advanced Pediatric Dentistry Units: 8, 9, 10, 11, 12, 13, 14, 15 each
• PEDO 702a Comprehensive Review of Pediatric Dentistry Units: 5, 6, 7 each
• PEDO 702b Comprehensive Review of Pediatric Dentistry Units: 5, 6, 7 each
• PEDO 703a Interceptive Orthodontics Units: 2, 3, 4, 5 each
• PEDO 703b Interceptive Orthodontics Units: 2, 3, 4, 5 each
• PEDO 703c Interceptive Orthodontics Units: 2, 3, 4, 5 each
• PEDO 703d Interceptive Orthodontics Units: 2, 3, 4, 5 each
• PEDO 703e Interceptive Orthodontics Units: 2, 3, 4, 5 each
• PEDO 703f Interceptive Orthodontics Units: 2, 3, 4, 5 each
• PEDO 704a Prevention in Pediatric Dentistry Units: 2
• PEDO 704b Prevention in Pediatric Dentistry Units: 2
• PEDO 705 Pediatric Diseases Units: 2
• PEDO 706 Dental Care for Pediatric Patients with Disabilities Units: 2
• PEDO 707 Seminar: Cleft Palate Rehabilitation Units: 1, 2, 3, 4, 5, 6, 7, 8, 9
• PEDO 708 Practice Management Units: 1
• PEDO 709 Conscious Sedation in Pediatric Dentistry Units: 2
• PEDO 712 Pediatric Physical Evaluation Units: 2
• PEDO 761a Clinic: Advanced Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each *
• PEDO 761b Clinic: Advanced Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each *
• PEDO 761d Clinic: Advanced Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each *
• PEDO 761e Clinic: Advanced Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each *
• PEDO 771a Clinic: Hospital Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each *
• PEDO 771b Clinic: Hospital Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each *
• PEDO 771c Hospital Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each *
• PEDO 771d Clinic: Hospital Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each *
• PEDO 771e Clinic: Hospital Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each *
• PEDO 771f Clinic: Hospital Pediatric Dentistry Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each *
• PEDO 772a Clinic: Interceptive Orthodontics Units: 1, 2, 3 each
• PEDO 772b Clinic: Interceptive Orthodontics Units: 1, 2, 3 each
• PEDO 772c Clinic: Interceptive Orthodontics Units: 1, 2, 3 each
• PEDO 772d Clinic: Interceptive Orthodontics Units: 1, 2, 3 each
• PEDO 772e Clinic: Interceptive Orthodontics Units: 1, 2, 3 each
• PEDO 773 Hospital Pediatric Clinics Units: 2, 3, 4
• PEDO 774 Clinical Genetics in Pediatric Dentistry Units: 9
• PEDO 790a Directed Research: Pediatric Dentistry Units: 1, 2, 3, 4, 5, 6 each
• PEDO 790b Directed Research: Pediatric Dentistry Units: 1, 2, 3, 4, 5, 6 each

Note:
*In addition to the required courses, a combined minimum of 36 units of PEDO 761 and PEDO 771 must be satisfactorily completed, as directed by the program director.

Advanced Periodontology Certificate

The advanced periodontology program offers two options: (1) a 36-month, 183-unit course of study leading to a certificate of
Required Courses

- ADNT 702 Physical Diagnosis Units: 2
- ADNT 703a Seminar: Combined Treatment Planning Units: 2 each

Advanced Prosthodontics Certificate

The program in advanced prosthodontics is a 36-month course of study designed to teach didactic and clinical skills leading to competency in the specialized practice of prosthodontics. The program provides a basic science foundation, incorporating studies
in physical diagnosis, anatomy, oral pathology, pharmacology and oral biology. Proficiency in fixed, removable and implant prosthodontics will be developed during the course of study from a practical and didactic aspect. There is a strong emphasis on applying principles of esthetics toward oral reconstructions and implant prosthodontics. Periodontally compromised patients are frequently encountered, so the program is closely allied with the advanced program in periodontology. Treatment planning and integrated care with allied specialties is a strength of the program. Additionally there is a strong emphasis on usage of digital dentistry from a diagnostic and treatment planning perspective. Then carrying this forward to design and fabrication of restorations using Computer Aided Design and Computer Aided Manufacturing (CAD/CAM) for patients. This includes usage of intra oral and extraoral scanners and fabricating restorations on site and remote sites.

In addition to developing clinical skills, the program requires a research methodology course and a research project. Clinical experience in implant placement and didactic study in maxillofacial prosthetics are offered: students who want more experience in clinical care may devote more time to treating these patients. The program in advanced prosthodontics is accredited by the Commission on Dental Accreditation, a special accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. The program also meets the requirements of the American Board of Prosthodontics. A certificate is awarded upon successful completion of the program.

**Required Courses**

- ADNT 701 Research Methodologies in Dentistry Units: 2
- ADNT 702 Physical Diagnosis Units: 2
- ADNT 703a Seminar: Combined Treatment Planning Units: 2 each
- ADNT 703b Seminar: Combined Treatment Planning Units: 2 each

- REST 761d Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 761e Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 761f Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 761g Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 761h Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 761i Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 761j Clinic: Advanced Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 781 Clinic: Maxillofacial Prosthetics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 782a Clinic: Implant Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 782b Clinic: Implant Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 782c Clinic: Implant Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
- REST 790 Directed Research: Prosthodontics Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

**General Practice Residency**

The General Practice Residency program consists of a 12-month first-year, full-time residency program, which is designed in conformance with the guidelines of the Council on Dental Education and the Commission on Dental Accreditation of the American Dental Association. The program is structured to increase diagnostic acumen, general knowledge and clinical ability in dentistry.
The program is conducted primarily at the Los Angeles County + USC Medical Center, one of the nation's largest teaching hospitals, and at the Veterans Administration Los Angeles Ambulatory Care facility in downtown Los Angeles. Some of the training is also conducted at Rancho Los Amigos Medical Center, West Los Angeles Veterans Administration Hospital, the Herman Ostrow School of Dentistry of USC and other community facilities.

The program emphasizes the treatment of a wide range of oral health disorders, medical considerations related to dental care, the ability to treat medically compromised and disabled patients and teaches how to provide dental care in a hospital environment interacting with health care providers of various disciplines. Inherent in the year of training, a philosophy of practice addresses the medical psychosocial and oral health care needs of the patient.

The program in general practice is accredited by the American Dental Association's Commission on Dental Accreditation, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education.

Required Courses

Integrated MD Degree/Oral and Maxillofacial Surgery Certificate Program

The Herman Ostrow School of Dentistry of USC and the Keck School of Medicine of USC offer a continuous 72-month integrated course of study leading to a medical degree in addition to a certificate in oral and maxillofacial surgery that prepares the graduate for the practice of oral and maxillofacial surgery. The program is fully integrated and will include advanced placement into the established medical school curriculum.

During the first three years, the student will function in the capacity of a medical student as well as a resident in the oral and maxillofacial surgery program. After the completion of the medical school curriculum, the MD degree will be awarded. This is required before the student can continue in the general surgery internship portion of the program. At the completion of the surgical internship, the student is qualified for medical licensure. During the fourth through sixth year, all required rotations and surgical training will be completed to fulfill the educational requirements of the Commission of Dental Accreditation of the American Dental Association and the American Association of Oral and Maxillofacial Surgeons.

The program is conducted at the Schools of Dentistry and Medicine and at the LAC+USC Medical Center. The course of study provides the graduates with the necessary background for certification by the American Board of Oral and Maxillofacial Surgery. The oral and maxillofacial surgery certificates are awarded upon successful completion of the entire 72-month course.

Dual Degree

Advanced Periodontology Certificate/Master of Science, Craniofacial Biology

USC School of Dramatic Arts

One of the premier dramatic arts schools in the United States, the USC School of Dramatic Arts uniquely blends artistic training in a conservatory environment with outstanding faculty and the full academic experience found only within a major research university. This close-knit, supportive environment offers students the freedom to explore their artistic passions. Through programs of the highest caliber, as well as initiatives that provide access to professional experience, students are prepared for leadership in every facet of dramatic arts.

The school also attracts a wide range of guest speakers and lecturers, including some of the most distinguished talents from stage, screen and television. The location of the campus, literally in the center of the entertainment industry, makes the USC School of Dramatic Arts distinctive among colleges and universities in the United States.

Graduates of the school work professionally in all aspects of the entertainment industry. The school's faculty are dynamic teachers who are also artists working at the highest level of their profession.

The breadth of learning opportunities offered at the school prepares students for the spectrum of careers in the dramatic arts. The School of Dramatic Arts strives to instill confidence, integrity, excellence and artistic sensitivity into each of its students — traits that are essential to success in any field.

Emeritus Professors: Don Llewellyn, MFA; Eve Roberts, MFA; Robert R. Scales, PhD; James Wilson, MFA

General Information

Degree Programs

The School of Dramatic Arts offers professional and academic degrees at the Bachelor and Master of Fine Arts levels. USC offers two degree programs to undergraduate students interested in the study of theatre arts. The professional degree programs, the Bachelor of Fine Arts (BFA) in Acting, Design, Sound Design, Stage Management and Technical Direction, offer a conservatory approach to training for students committed to pursuing careers in the professional theatre, film and television industries. The Bachelor of Arts degree program (BA) incorporates a broad, general education in addition to a thorough study of drama. The Bachelor of Arts in Visual and Performing Arts Studies provides students with a broad understanding of the various disciplines. The School of Dramatic Arts also offers minor programs in applied theatre arts, theatre, musical theatre, performing arts studies, comedy (performance) and playwriting.

Bachelor of Arts

The Bachelor of Arts (BA) degree is ideal for students who want a broad education in addition to production and performance experience. The degree is offered in cooperation with the USC Dornsife College of Letters, Arts and Sciences.

Bachelor of Fine Arts

Acting for Stage, Screen and New Media: The BFA acting degree is a four-year professional training program that connects the foundation of classical theatre with innovative training for the contemporary performing artist, including on-camera techniques, voice over, motion capture, the digital landscape for actors and much more. An emphasis on professional development and networking culminates this groundbreaking new degree offering in the heart of Hollywood, which promises to be the standard-bearer for the next generation of acting programs. An audition is required for admission. The BFA acting program is highly competitive.

Design: The BFA program in design incorporates study in scenic, lighting and costume design. An interview is required for admission.

Sound Design: The BFA program in sound design offers the student a combination of technical, management and design training in sound design. The student is also introduced to sound recording and mixing through a series of courses offered by the USC Thornton School of Music. Students begin using this training as early as the second semester of the second year of enrollment. The skills acquired in the classroom are further explored through sound design assignments on School of Dramatic Arts public productions in each subsequent semester of the student's program. Students in the sound design program build and design the sound component for the majority of the School of Dramatic Arts' productions under the supervision of a professional staff of designers and theatre technicians. An interview is required for admission.

Stage Management: The BFA program in stage management offers the student a combination of technical, management and design training. Students begin using this training as early as the first year of enrollment. The skills acquired in the classroom are further explored through stage management assignments in each year of the student's program. An interview is required for admission.

Technical Direction: The BFA program in technical direction incorporates the study of theatrical design with training in the professional skills needed to execute stage designs. An interview is required for admission.

Students in the design, stage management, and technical direction programs design, stage manage, and build the majority of the School of Dramatic Arts' productions under the supervision of a professional staff of designers and theatre technicians.
Bachelor of Arts in Visual and Performing Arts Studies

The Bachelor of Arts in Visual and Performing Arts Studies is an interdisciplinary degree offered jointly by the School of Dramatic Arts, the School of Architecture, the School of Cinematic Arts, the Roski School of Art and Design, the Thornton School of Music, and the Dornsife College of Letters, Arts and Sciences.

Minor Programs

Theatre: This general minor in theatre invites students to explore the many facets of this exciting field. Students have the opportunity to take a variety of classes in acting, applied theatre arts, applied theatre arts/education, playwriting, literature, stage management, directing, costume design and production. The curriculum is very flexible and encourages students to develop a primary interest for upper-division course work. All minor students are eligible to participate in performance and production projects.

Applied Theatre Arts: The minor in applied theatre arts addresses the theory and practice of applying theatre arts in non-traditional settings with emphases that include education, therapy and social change.

Comedy: The minor in comedy (performance) is a 20-unit minor that focuses on the theory and practice of comedy-making from the performer's perspective. Beginning with a foundation in the history of comic performance, and supplemented by courses in the fundamentals of acting and performance, the progression of the minor offers students a comprehensive theoretical and experiential education in the many differing disciplines of comedy.

Musical Theatre: The minor in musical theatre, interdisciplinary in nature, is a 27-unit program incorporating the study of acting, dance or movement, vocal arts and related musical subjects presented in association with the USC Thornton School of Music.

Performing Arts Studies: The minor in performing arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society.

Playwriting: The minor in playwriting presents undergraduate students who are not theatre majors with a concentration in the discipline of playwriting as a means for broadening and deepening expression using the literary and performing arts. This minor offers a foundation for extended expression in dramatic writing and creative writing genres in general.

Master of Fine Arts

The Master of Fine Arts with a major in theatre requires 48–64 units of course work at the 400 or 500 level. The areas of emphasis include acting, theatrical design, dramatic writing and directing. These programs provide a high level of practical experience. To ensure this, the number of students accepted in each area of emphasis is strictly limited. An interview is required for admission.

Master of Arts, Applied Theatre Arts

The Master of Arts in Applied Theatre Arts explores the intersection of theatre arts and cultural fieldwork, encompassing the fields of theatre and therapy, theatre in education and theatre for social change/community-based theatre. Practitioners of applied theatre arts supplement their work as classroom teachers, therapists, social workers, case managers, community organizers and social activists.

Auditions and Entrance to the Degree Programs

Admission to the various degree programs is granted through the university's regular admission procedures in conjunction with the School of Dramatic Arts supplementary application procedure. See the Admission section of this catalogue, Undergraduate and Graduate.

Admission to the BA program is determined by academic record, experience in theatre, and information required on the USC application for admission and the School of Dramatic Arts supplementary application. Students applying for the BA program must contact the School of Dramatic Arts directly to obtain the supplementary application.

In addition to submitting a USC application for admission, a dramatic arts supplementary application and an in-person audition are required for the BFA and MFA programs. Auditions are held during January and February. Applicants should contact the School of Dramatic Arts directly to obtain supplementary application materials and to arrange for their audition.

The acting audition requires two monologues: one contemporary and one classical (preferably verse). Auditions and interviews for all programs are held in major cities around the country including Los Angeles, Chicago and New York.

Students wishing to transfer from a community college or another four-year college or university into the Bachelor of Fine Arts curriculum must present training equivalent to their level of transfer or be prepared to take remedial work in acting, voice, movement, dramatic literature and stagecraft.

Admission to the BFA Design/Technical Direction, Stage Management and Sound Design and MFA programs is based on a personal interview and/or review of a portfolio. In addition, the student must submit a USC application for admission and a dramatic arts supplementary application.

Applicants for the design programs must present a portfolio of their work at the time of their interview with the design faculty.

Interviews are held beginning in January for the following fall semester.

Admission to full graduate standing will be granted after the satisfactory completion of one semester. A satisfactory test score on the Graduate Record Examinations and a satisfactory grade point average are also required.

Application materials and details about audition dates and locations may be obtained from the Office of Admissions and Recruitment, School of Dramatic Arts, University of Southern California, Los Angeles, CA 90089-0791, (213) 740-1286.

International Study

In conjunction with Sarah Lawrence College and the British American Drama Academy, USC students have the opportunity to study theatre in London. For additional information, see International Study Options.

Degree Requirements

Minor Programs

Minor in Musical Theatre

The minor in musical theatre, interdisciplinary in nature, is a 27-unit program incorporating the study of acting, dance or movement, vocal arts and related musical subjects. Admission to the minor requires an audition for music but not for theatre. See the USC Thornton School of Music for requirements.

Bachelor's Degree

Acting for the Stage, Screen and New Media (BFA)

The BFA degree is a four-year, 132-unit, professional training program offering a vital and contemporary approach to the study of acting. The program comprises an integrated sequence of training in acting, voice, movement, camera, motion capture, the Web, voice-over, games and new media, and includes multiple opportunities for performance on stage, screen and new media platforms. The curriculum is based on the belief that an actor's emotional, imaginative, vocal and physical resources must be developed and prepared with maximum experience and flexibility for a fast-changing and challenging modern workplace. This training is combined with course work in critical and historical studies and technical theatre. An audition is required for admission. The BFA in Acting for Stage, Screen and New Media program is unique and highly competitive.

All BFA Theatre majors are required to earn a grade point average of 2.75 (A = 4.0) in their theatre courses each semester. BFA students who fail to earn a GPA of 2.75 in their theatre courses will be
placed on probation the following semester. Students who remain on probation for a consecutive second semester will be disqualified from the BFA program.

A student disqualified from continued study in the BFA program for failing to meet the GPA standards outlined above will be given the option of transferring into the BA program.

General Education Requirements

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Required Acting Courses for Emphasis (80 Units)

**Theatre, Design Emphasis, (BFA)**

**Bachelor of Fine Arts**
The Bachelor of Fine Arts in Theatre provides four years of intensive training at the undergraduate level including design, sound design, stage management and technical direction. A total of 128 units of course work is required for the degree, including a 16-unit Critical Studies core in addition to a minimum of 60-74 Theatre units depending on the requirements for each emphasis.

All BFA Theatre majors are required to earn a grade point average of 2.75 (A = 4.0) in their theatre courses each semester. BFA students who fail to earn a GPA of 2.75 in their theatre courses will be placed on probation the following semester. Students who remain on probation for a consecutive second semester will be disqualified from the BFA program.

A student disqualified from continued study in the BFA program for failing to meet the GPA standards outlined above will be given the option of transferring into the BA program.

**General Education Requirements**
The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Theatre, Sound Design Emphasis, (BFA)

Bachelor of Fine Arts
The Bachelor of Fine Arts in Theatre provides four years of intensive training at the undergraduate level including design, sound design, stage management and technical direction. A total of 128 units of course work is required for the degree, including a 16-unit Critical Studies core in addition to a minimum of 60-74 Theatre units depending on the requirements for each emphasis.

All BFA Theatre majors are required to earn a grade point average of 2.75 (A = 4.0) in their theatre courses each semester. BFA students who fail to earn a GPA of 2.75 in their theatre courses will be placed on probation the following semester. Students who remain on probation for a consecutive second semester will be disqualified from the BFA program.

A student disqualified from continued study in the BFA program for failing to meet the GPA standards outlined above will be given the option of transferring into the BA program.

General Education Requirements
The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC.

It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Visual and Performing Arts Studies (BA)
The Bachelor of Arts in Visual and Performing Arts Studies is an interdisciplinary degree offered jointly by the Kaufman School of Dance, the School of Dramatic Arts, the School of Architecture, the School of Cinematic Arts, the Roski School of Art and Design, the Thornton School of Music, and the Dornsife College of Letters, Arts and Sciences. Candidates for the degree must complete the university general education requirements in addition to the courses in the major. Students in this major complete a core of required courses that provides them with a broad understanding of the various disciplines. The work in the major is completed by choosing courses from a wide array of course offerings from all the participating schools. A total of 128 units is required for completion of the degree.

General Education Requirements
The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. Minor
Applied Theatre Arts Minor
Applied theatre arts is a field of study addressing the theory and practice of applying theatre arts in nontraditional settings with emphases that include education, therapy and social change. The minor in applied theatre arts (ATA) addresses the theory and practice of applying theatre skills in these environments to promote engaged and enlivened interactive critical thinking and community development from a performative perspective. ATA minors learn how to turn passive spectators into more active participants through the process of theatre.

Courses taken for this minor may not duplicate requirements for a student's major or other minor program requirements:

Foundation Skills Courses (8 Units)
It is recommended these be taken first:
• THTR 101 Introduction to Acting Units: 4
• THTR 305a Directing Units: 4

ATA Focus Courses (12 Units)
It is recommended these be taken after foundation skills courses:
• THTR 468 Theatre in Education Units: 4
• THTR 477 Theatre and Therapy Units: 4
• THTR 488mw Theatre in the Community Units: 4

Comedy (Performance) Minor
The minor in comedy (performance) is a 20-unit minor that focuses on the theory and practice of comedymaking from the performer’s perspective. Beginning with a foundation in the history of comic performance, and supplemented by courses in the fundamentals of acting and performance, the progression of the minor offers students a comprehensive theoretical and experiential education in the many differing disciplines of comedy.

Required Courses (12 units)
• THTR 122 Improvisation and Theatre Games Units: 2
• THTR 197g Comedy and Performance Units: 4
• THTR 316 Advanced Movement for Actors Units: 2
• THTR 322 Improv 2: Advanced Improv Units: 2
• THTR 474 Introduction to Stand Up Comedy Units: 2

Required Elective Courses (8 units)
• THTR 313 Comedy of Manners Units: 4
• THTR 422 Improv 3: Long Form Improvisation Units: 2
• THTR 423 Magic Units: 2
• THTR 442 Voice-over Acting Units: 2
• THTR 467 Going Viral: Performance for New Media Units: 2
• THTR 469 Satire and Parody in Performance Units: 2
• THTR 470 Sketch Comedy for Theatre Units: 2
• THTR 473 Sketch Comedy in Performance Units: 2
• THTR 482 Stand Up 2: Honing Your Act Units: 2
• THTR 483 Characters of Comedy Units: 2
• THTR 484 Acting in Television Commercials Units: 2

Performing Arts Studies Minor
The minor in performing arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. The minor in performing arts studies is a 20-unit program.

Required Courses
Required capstone course:
• THTR 403 The Performing Arts Units: 4

Plus four to six courses (16 units) from the following list
The additional 16 units must be completed outside of the student's school. At least 4 units must be selected from each school:
• CTC 190g Introduction to Cinema Units: 4
• CTC 200g History of the International Cinema I Units: 4
• CTC 201 History of the International Cinema II Units: 4
• CTC 392 History of the American Film, 1925–1950 Units: 4
• CTC 393 Postwar Hollywood, 1946–1962 Units: 4
• CTC 404 Television Criticism and Theory Units: 4
• CTC 464 Film and/or Television Genres Units: 4
• CTC 469 Film and/or Television Style Analysis Units: 4
• DANC 170 Choreography and Performance Units: 2
• DANC 280g Introduction to Dance as an Art Form Units: 4
• MUSC 102w World Music Units: 4
• MUSC 115g Western Music as Sounding History Units: 4
• MUSC 200mw The Broadway Musical: Reflections of American Diversity Units: 4
• MUSC 210g Electronic Music and Dance Culture Units: 4
• MUSC 250gm The Music of Black Americans Units: 4
• MUSC 320gm Hip-hop Music and Culture Units: 4
• MUSC 371g Musical Genre Bending Units: 4
• MUSC 372g Music, Turmoil and Nationalism Units: 4
• MUSC 373g Writing About Popular Music Units: 4
• THTR 201 Introduction to the Theatre Units: 4
• THTR 300 Introduction to Modern Drama Units: 4
• THTR 301 Greek and Roman Theatre Units: 4
• THTR 302 Shakespeare in His World Units: 4
• THTR 404 Acting Theory Units: 4
• THTR 493a Periods and Styles Units: 2
• THTR 493b Periods and Styles Units: 2

Total units required: 20

Playwriting Minor
The minor in playwriting presents undergraduate students who are not theatre majors with a concentration in the discipline of playwriting as a means for broadening and deepening expression using the literary and performing arts. This minor offers a foundation for extended expression in dramatic writing and creative writing genres in general; fostering skills in research, development, communication, collaboration and craftsmanship in the process of preparing a play for its realization on stage. The minor in playwriting is a 20-unit program.

Required Courses
• THTR 101 Introduction to Acting Units: 4 or
• THTR 125 Text Studies for Production Units: 4
• THTR 305a Directing Units: 4
• THTR 365 Playwriting I Units: 4
• THTR 366 Playwriting II Units: 4
• THTR 479 Solo Performance Units: 4

Other Courses
• COLT 381 Psychoanalysis and the Arts Units: 4
• PHL 445 Philosophy of the Arts Units: 4

Overseas Study Opportunities
• FREN 432 French Theatre Units: 4 (Paris Semester)
• SPAN 464 Introduction to Contemporary Spanish Theatre Units: 4 (Madrid Center)
Theatre Minor
This general minor in theatre invites students to explore the many facets of this exciting field. Students have the opportunity to take a variety of classes in acting, playwriting, literature, stage management, directing, costume design and production. The curriculum is very flexible and encourages students to develop a primary interest for upper-division course work. All minor students are eligible to participate in performance and production projects.

Required Courses
• THTR 101 Introduction to Acting Units: 4 or
• THTR 125 Text Studies for Production Units: 4
• THTR 130 Introduction to Theatrical Production Units: 2

One of the following:
• THTR 301 Greek and Roman Theatre Units: 4
• THTR 302 Shakespeare in His World Units: 4
• THTR 313 Comedy of Manners Units: 4
• THTR 314 Advanced Topics in Modern Drama Units: 4
• THTR 476w African American Theatre, Dance, and Performance Units: 4

Required upper-division THTR electives: 14
Required theatre units: 24

Master's Degree

Applied Theatre Arts (MA)
The Master of Arts in Applied Theatre Arts explores the intersection of theatre and cultural fieldwork, encompassing the fields of theatre and therapy, theatre in education and theatre for social change/community-based theatre. This combined area of study weaves all three disciplines together under the aegis of training practitioners in the art of popular theatre with primarily marginalized communities. Practitioners of applied theatre arts supplement their work as classroom teachers, therapists, social workers, case managers, community organizers and social activists to engage public groups to obtain their goals and desires by using the tools of theatre to expedite dialogue and foster an atmosphere of greater critical consciousness and increased agency. A written and oral examination is required upon completion of course work.

International Study
All students will participate in an international externship during the summer following their academic year. This externship takes place in an approved overseas site where the practice of applied theatre arts is well established, with whom the university has a contractual agreement for supervised observation. This externship intends to provide a supervisory, logistical and theoretical container for students to explore cultural fieldwork in the international arena.

Curricula for the Master of Arts Degree

Applied Theatre Arts
• THTR 505 Staging Community-based Theatre Units: 3
• THTR 521 Engaging Community Narratives Units: 3
• THTR 544 Embodied Poetics Units: 2
• THTR 568 Popular Theatre for Education and Development Units: 3
• THTR 577 Theatre and Therapy for Cultural Fieldwork Units: 3
• THTR 578 Theatre of the Oppressed: Theory, Games, and Techniques Units: 4
• THTR 579 Writing Culture Units: 3
• THTR 586a Applied Theatre Arts: Los Angeles Residency Units: 2
• THTR 586b Applied Theatre Arts: Los Angeles Residency Units: 2
• THTR 587 Liberation Arts and Community Engagement — Theory Units: 4
• THTR 588 Liberation Arts and Community Engagement — Praxis Units: 3

Total Required Units: 38

Theatre (MFA)
The Master of Fine Arts in theatre allows the choice of an area of emphasis in theatre performance studies including acting, directing, dramatic writing or theatrical design.

Seventy-two units of study at the 400- or 500-level are required for the acting emphasis, 72 units for the dramatic writing emphasis and 48 units for the directing and theatrical design emphases. Regardless of the emphasis, at least two-thirds of the units must be at the 500 level or higher. In design, instead of a conventional thesis, the MFA student completes a final project in the area of design and defends it orally before the design faculty. A grade point average of 3.0 must be achieved in all graduate work taken in the School of Dramatic Arts. Graduate candidates whose undergraduate degrees are in disciplines other than theatre may be required to satisfy undergraduate prerequisites in theatre as determined by School of Dramatic Arts faculty.

Curricula for the Master of Fine Arts Degree

Acting Emphasis
• THTR 480a Performance for Camera Units: 2
• THTR 480b Performance for Camera Units: 2
• THTR 504 The Art of Collaboration and Ensemble Units: 2
• THTR 515a Advanced Movement Units: 2
• THTR 515b Advanced Movement Units: 2
• THTR 515c Advanced Movement Units: 2
• THTR 515d Advanced Movement Units: 2
• THTR 515e Advanced Movement Units: 2

• THTR 540f Advanced Voice Diction Units: 2
• THTR 541 Diction and Dialects Units: 2
• THTR 542 Singing for Actors Units: 2
• THTR 547 Professional Seminar Units: 2
• THTR 575 Creative Production Projects Units: 6
• THTR 597 Theatre Practicum Units: 1, 2, 3, 4 (6 Units Required)

Total units: 72

Directing Emphasis
• THTR 520a Advanced Acting Units: 4
• THTR 520b Advanced Acting Units: 4
• THTR 525 Seminar in Contemporary Theatre Units: 4
• THTR 528 Seminar in Dramatic Analysis Units: 4
• THTR 555 Directing Fundamentals Units: 2
• THTR 556a Directing Units: 2
• THTR 556b Directing Units: 2
• THTR 558a Design for Directors Units: 2
• THTR 558b Design for Directors Units: 2
• THTR 567a Studies in Playwriting Units: 4
• THTR 591 Seminar in Producing Theatre Units: 4
• THTR 593 MFA Project Units: 2
• Electives by advisement Units: 10

Total units: 48
Theatrical Design Emphasis

Two courses from:
- THTR 550a Seminar in Scene Design Units: 3
- THTR 552a Seminar in Costume Design Units: 3
- THTR 553a Seminar in Lighting Design Units: 3

Two continuing courses from:
- THTR 550b Seminar in Scene Design Units: 3
- THTR 552b Seminar in Costume Design Units: 3
- THTR 553b Seminar in Lighting Design Units: 3

One remaining course from:
- THTR 550a Seminar in Scene Design Units: 3
- THTR 552a Seminar in Costume Design Units: 3
- THTR 553a Seminar in Lighting Design Units: 3

All of the following:
- THTR 407a Drawing and Rendering for the Theatre Units: 2
- THTR 407b Drawing and Rendering for the Theatre Units: 2
- THTR 435 Advanced Theatrical Drafting Units: 3
- THTR 493a Periods and Styles Units: 2
- THTR 493b Periods and Styles Units: 2
- THTR 593 MFA Project Units: 2

Two seminars, one of which must be
- THTR 528 Seminar in Dramatic Analysis Units: 4 (8 Units Required)

400- or 500-level electives
- 400- or 500-level electives by advisement, 5 units of which must be at the 500 level Units: 10

Total units: 48

Dramatic Writing Emphasis
- CTWR 513 Writing the Short Script Units: 2
- CTWR 514a Basic Dramatic Screenwriting Units: 2
- CTWR 514b Basic Dramatic Screenwriting Units: 2
- THTR 500 Dramaturgical Perspectives and Approaches Units: 2, max 10
- THTR 501 Poetry and Prose into Drama Units: 4
- THTR 506 Advanced Creating Characters Units: 2
- THTR 527 Writing the Pacific Rim: Global and Western Dramatic Writing Units: 4
- THTR 529a Textual Studies for Performance Units: 4
- THTR 566 Dramatic Writing Studio Units: 4 (4 Units Required), max 20
- THTR 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 Units Required), max 4
- THTR 596 Thesis Development and Attainment Units: 2, max 10

Electives Units: 10

Total units: 72

A minimum of 72 units of graduate course work must be completed prior to the degree being granted. Thesis Requirement: The student is required to complete a thesis portfolio consisting of four theatre projects: (1) a full-length original play, (2) a full-length original play or an adaptation, (3) a full-length screenplay, (4) a project that is either a play of any length, or a short subject or feature length script, a set of television speculative scripts (either in three half-hour short form of drama from the same TV program or a set of characters; or one-hour long form) or an interdisciplinary/multimedia project (approved in advance by the dramatic writing faculty.) An oral defense and review by program faculty and the developing portfolio is required when the student has completed two-thirds of the program, generally in the fall term of the student’s third year.
USC Rossier School of Education

The USC Rossier School of Education is one of the world's premier centers for the study of urban education. The school is committed to preparing teachers, researchers, counselors, administrators and curriculum specialists for leadership positions. The mission of the USC Rossier School of Education is to improve learning in urban education locally, nationally and globally. Urban areas often face challenges associated with equity and access, poverty, density, mobility and immigration, environmental degradation and strained social conditions around housing, health care and crime. Urban education takes place in many contexts including pre-kindergarten through high school, human services, higher education and workplace settings.

We seek to transform urban education by:

- Leading the search for innovative, efficacious and just solutions by engaging in collaborative translational research.
- Preparing and developing educational leaders who are change agents committed to urban education and who possess the competencies needed to address complex educational and social issues.
- Creating mutually beneficial partnerships to ensure our work is field-based and incorporates a diversity of perspectives and experiences.

Our vision is a world where every student, regardless of personal circumstance, is able to learn and succeed. We believe that USC Rossier, as a top-tier research institution, has the responsibility and the ability to train the education leaders and to develop the innovative practices inclusive of equity and access that will help realize this vision.

The Rossier School of Education is committed to our four academic themes of leadership, diversity, learning and accountability that guide all academic, research and service efforts within our school.

The USC Rossier Commitment

At USC Rossier, we stand by our students and graduates. From our classrooms to your career, our commitment to your success is unwavering. We prepare our graduates to be change agents, and equip them with the critical thinking and problem-solving skills necessary to assess challenges and implement creative solutions. If at any point in your career you're faced with an issue in which you could benefit from the professional guidance of our expert faculty, we encourage you to take advantage of the USC Rossier Commitment. A dedicated team of faculty members will work with you to identify the issue and develop a strategic plan of action to facilitate your success.

Administration
Karen Symms Gallagher, PhD, Dean, holder of the Emery Stoops and Joyce King Stoops Dean's Chair in Education
Jerome Lucido, PhD, Associate Dean for Strategic Enrollment Services
Lawrence O. Picus, PhD, Associate Dean for Faculty Affairs
Gale Sinatra, PhD, Associate Dean for Research
Kathy Stowe, EdD, Associate Dean for Academic Programs
Carla Wohl, Associate Dean for External Relations
Teti Adams, Assistant Dean of Administration and Finance
Kate O'Connor, Assistant Dean for Professional Development

Faculty
Emery Stoops and Joyce King Stoops Dean's Chair in Education: Karen Symms Gallagher, PhD
Clifford H. and Betty C. Allen Professorship in Urban Education: Shaun R. Harper, PhD
Irving R. and Virginia Archer Melbo Chair in Educational Administration: Rudy Castruita, EdD
Katzman/Ernst Chair in Educational Entrepreneurship, Technology and Innovation: Alan Arkatov
Leslie Wilbur and Norma Lash Wilbur-Evelyn Kieffer Professor of Higher Education, University Professor: William G. Tierney, PhD
Professors: Ron Avi Astor, PhD (Dworak-Peck); Estela Mara Bensimon, EdD; Karen Symms Gallagher, PhD; Shaun R. Harper, PhD; Henry Jenkins, PhD (Annenberg); Adrianna Kuzar, PhD; Franklin Manis, PhD (Dornsife); Harold F. O'Neil Jr., PhD; Daphne Oyserman, PhD (Dornsife); Gary Painter, PhD (Price); Lawrence O. Picus, PhD; Gale Sinatra, PhD; John B. Slaughter, PhD (Engineering)
Associate Professors: Patricia Burch, PhD; Darnell Cole, PhD; Mary Helen Immordino-Yang, EdD; Julie Ann Marsh, PhD; Tatiana Melguizo, PhD; Erika A. Patall, PhD; Morgan Polikoff, PhD; David Schwartz, PhD (Dornsife); Katharine O. Strunk, PhD; Brendesha Tynes, PhD
Assistant Professors: Julie Posselt, PhD; David Quinn, EdD
Professors of Clinical Education: Mary Andres, PsyD; Rudy Castruita, EdD; Ruth Chung, PhD; Ginger Clark, PhD; Michael Escalante, EdD; Robert Fillback, PhD; Raymond John Gallagher, PhD; Pedro Garcia, EdD; Kimberly Hirabayashi, PhD; Sandra N. Kaplan, EdD; Anthony B. Maddox, PhD; Azad Madni, PhD (Viterbi); Tracy Poon Tambascia, EdD; Eugenia Mora-Flores, EdD; Maria Ott, EdD; Margo Pensavalle, EdD; Mark Power Robison, PhD; Darlene Robles, PhD; Julietta Shakhbagova, PhD; Julie Shlayton, JD, PhD; Kathy Stowe, EdD; Melora Sundt, PhD; Kristan Venegas, PhD; Adlai Wertman, MBA (Marshall); Kenneth Yates, EdD
Associate Professors of Clinical Education: Shafiaq Ahmad, JD; Paula Carbone, PhD; Jenifer Crawford, PhD; Frederick W. Freking, PhD; Alan G. Green, PhD; Angela Hasan, PhD; Emmy Min, PhD; John Pascarella, PhD; Helena Seli, PhD; Patricia Tobey, PhD
Assistant Professors of Clinical Education: Lynne Goldfarb, PhD; Briana Hinga, PhD; Jaimie Hoffman, EdD; Cathy Krop, PhD; Arlene Samkian, EdD
Associate (Teaching) Professors of Clinical Education: Kimberly Ferrario, PhD; Cortnie Hyde, EdD
Assistant (Teaching) Professors of Clinical Education: Monique Datta, EdD; Ekaterina Moore, PhD

Professor of Research: Jerome Lucido, PhD
Associate Research Professors: Zoë Corwin, PhD; Lindsey Malcolm-Paqueux, PhD
Research Assistant Professor: Yasemin Copur-Gencturk, PhD
Senior Lecturer: Kate O'Connor
Senior Fellow: Douglas Lynch, PhD
Emeritus Professors: Earl Carnes, PhD; Richard Clark, EdD; Myron H. Dembo, PhD; Mike Diamond, PhD (Marshall); Robert Ferris, EdD; Mabel E. Hayes, PhD; Edward J. Kazlauskas, PhD; Frederick Knirk, EdD; Steven Krashen, PhD; Johanna K. Lemplech, EdD; James Magary, PhD; Merle Marks, EdD; William G. Millington, EdD; William F. O'Neill, PhD; Donald E. Polkinghorne, PhD; William M. Rideout, Jr., PhD; Robert Rueda, PhD; Audrey J. Schwartz, EdD; Robert A. Smith, PhD; Eddie Williams, EdD; Kathleen Wulf, PhD
Emeritus Professor of Clinical Education: Stuart E. Gothold, EdD; Dennis Hoosevar, PhD
Emeritus Professor of Clinical Psychology: Rodney K. Goodyear, PhD
Stoops Dean and Cooper Chair Emeritus: Guilbert C. Hentschke, PhD
Emeritus Associate Professor of Clinical Education: William Maxwell, PhD
Research Professor Emeritus of Education: Allen Munro, PhD

Minor and Degree Programs

The Rossier School of Education offers the following degree programs: Master of Arts, Teaching; Master of Arts, Teaching: Teaching English to Speakers of Other Languages; Master of Education, Teacher Leadership; Master of Education, Educational Counseling; Master of Education, Learning Design and Technology;
Doctoral Degrees

The Rossier School of Education offers the Doctor of Philosophy in Urban Education Policy (PhD) and the Doctor of Education (EdD). Both doctoral programs place strong emphasis on the acquisition of inquiry skills and on the collaborative and interdisciplinary study of issues mutually engaging to both students and the Rossier School of Education faculty members. Both degrees emphasize the acquisition of appropriate research and inquiry skills, but the application of these skills is expected to differ. The EdD student is trained to use inquiry skills to solve contemporary problems, while the PhD student is trained to contribute to the general and theoretical knowledge about educational issues. The EdD is administered by the Rossier School of Education; the PhD is administered by the Graduate School.

PhD students must also consult The Graduate School section of this catalogue for regulations and requirements pertaining to the degree.

Credential Programs

A credential is a license issued by the California Commission on Teacher Credentialing (CCTC) to persons wishing to legally teach or perform certain other professional services in California’s public schools. USC is one of several institutions authorized to recommend qualified persons to the CCTC for receipt of credentials.

There are two categories of credentials offered in the Rossier School: teaching and service. Requirements for these credentials may be obtained by calling the appropriate phone number listed below. Credential requirements may change due to state law. Students are advised to consult periodically with the Rossier School of Education for current credential requirements.

Teaching Credentials

California has a two-tier credential structure. A five-year Preliminary Credential is the first credential issued after an individual meets basic credential requirements. Upon successful completion of the MAT program candidates are recommended for a Preliminary Credential. Internships and Induction programs that lead to Clear Credentials are currently satisfied under the purview of your district of employment. All Preliminary Credentials from the MAT include the English Language Learner Authorization (previously known as a CLAD certificate) and authorization of specialized use of technology in educational settings as mandated by the State of California.

Multiple Subject Teaching (MST) authorizes the holder to teach in a self-contained classroom such as the classrooms in most elementary schools. A teacher authorized for multiple subject instruction may be assigned to teach in any self-contained classroom (preschool, grades K–12 or many subjects within a self-contained classroom). This classroom situation is generally found in preschool and elementary grades or in classes organized primarily for adults. In addition, the holder of a Multiple Subject Teaching Credential may serve in a core or team teaching setting.

Single Subject Teaching (SST) authorizes the holder to teach a specific subject(s) named on the credential in departmentalized classes such as those in most middle schools academic area. This classroom situation is generally found in middle and senior high schools. A teacher authorized for single subject instruction may be assigned to teach any subject on his or her authorized fields at any grade level; preschool, grades K–12 or in classes organized primarily for adults.

Education Specialist Credential (ES) authorizes the holder to conduct Educational Assessments related to student's access to the academic core curriculum and progress toward meeting instructional academic goals, provide instruction and Special Education Support to individuals in the area of specialization listed on the credential. Currently the ES curriculum in the MAT program prepares candidates to work with students who have Mild/Moderate Disabilities (M/M). This preliminary ES credential will also authorize candidates to provide instructional services to students with autism within the M/M specialty area setting.
All Preliminary Credential teacher candidates must meet the following requirements in order to be recommended/endorsed for a teaching credential: Basic Skills Competency, Content Subject Matter Competency, successful completion of all MAT course work (including Healthy Environments Assessment), evidence of successful completion and passing of the TPA (Teaching Performance Assessment), U.S. Constitution requirement, and verification of training in cardiopulmonary resuscitation (CPR) that covers infant, child and adult CPR skills.

Teacher certification rules and requirements vary greatly by state. Completion of a CCTC-approved program does not guarantee certification or licensure in another state. Prospective teacher candidates are strongly advised to learn about their state’s requirements. The USC Credential Office will provide support and program verification information as appropriate and necessary during the direct licensure application process to states outside of California. See online.usc.edu/state-disclosures.

For inquiries, contact the MAT@USC office at (213) 743-2127.

**Services Credentials**

The Administrative Services Credential authorizes the holder to provide a variety of services in grades 12 and below, including preschool, and in classes organized primarily for adults. USC recommends candidates for the Preliminary Administrative Services Credential. This credential is offered through the School Leadership Academy. For more information please contact professional development@rossier.usc.edu.

The Clear Pupil Personnel Services Credential: Candidates in the Master’s Degree in Social Work program have the option to earn a Clear Pupil Personnel Services Credential, which authorizes the holder to provide both of the following services:

- School Child Welfare and Attendance in grades 12 and below, including preschool, and in programs organized primarily for adults: access appropriate services from both public and private providers, including law enforcement and social services; provide staff development to school personnel regarding state and federal laws pertaining to due process and child welfare and attendance laws; address school policies and procedures that inhibit academic success; implement strategies to improve student attendance; participate in school-wide reform efforts; and promote understanding and appreciation of those factors that affect the attendance of culturally diverse student populations.
- School Social Work in grades 12 and below, including preschool, and in programs organized primarily for adults: assess home, school, personal and community factors that may affect a student’s learning; identify and provide intervention strategies for children and their families, including counseling, case management, and crisis intervention; consult with teachers, administrators and other school staff regarding social and emotional needs of students; and coordinate family, school and community resources on behalf of students.

For inquiries, contact the USC Suzanne Dworak-Peek School of Social Work at 1.877.700.4MSW (1.877.700.4679)

**Special Programs**

**Professional Development**

The Office for Professional Development offers a variety of credential, non-degree and certificate programs for aspiring and current professional educators and administrators in both fully customized and open enrollment programs.

Areas of expertise include English Language Development; Literacy; Differentiated Curriculum; Gifted Education; School Site Leadership Development; School District Leadership; and School Business Management.

Certificate programs are offered in online, face-to-face, and blended formats and include:

- Reading and Literacy Added Authorization Program
- Differentiated Curriculum for Gifted and High-Ability Learners Program

- Differentiating the Common Core Standards Program
- School Business Management Certificate Program
- Equity Educators Certificate
- Urban Superintendents Academy
- School Leadership Academy: Preliminary Administrative Credential

Professional Development also offers the annual in-person:

- Summer Gifted Institute and Teacher Demonstration School
- Secondary Writing Instruction Institute, a K-12 Writing Institute
- Writing Institute: Educators enhance your own style and approaches.

New programs launching include Early Childhood Education, Individualized Learning Experiences for Educators.

The office also offers national programs customized specifically for districts, including personalized coaching, classroom demonstration lessons, curriculum instruction and consultation responding to standards (Common Core, NGSS, ELD, VAPA) and International Teacher Training Institutes customized for student teachers, faculty, administrators and scholars seeking immersion in an American Education environment. Many Professional Development Courses offer Continuing Education Units (CEUs) for successful completion.

For further information, contact the Office for Professional Development at (213) 740-8536. You can also visit rossier.usc.edu/ programs/pd/.

**Minor**

**Education and Society Minor**

The education and society minor seeks to examine education and its role in society. The minor is intended to help students develop broad perspectives on the purposes and forms of education and schooling, including the purpose and history of schooling; the provision of equitable opportunities for all; the factors impacting teaching, learning and achievement; and the development of engaged citizenship for more just societies through education. Students enrolled in this minor will gain multiple perspectives on education locally, nationally and internationally, including technology’s role in educational outcomes. The minor provides resources for students who may want to pursue careers in education after graduation — teaching, educational advocacy through nonprofits or non-governmental organizations, university research, policymaking or educational entrepreneurship.

**Upper-Division Requirements**

- EDUC 421 Global Issues: Impact on Educational Outcomes Units: 4
- EDUC 422 Social Change, Difference and Access to Schooling Units: 4
- EDUC 423 Unrealized Promise and Hope for Education in 21st Century Units: 4
- EDUC 426 Educational Inquiry Unit: 4

**Teaching English to Speakers of Other Languages (TESOL) Minor**

The Rossier School of Education offers an interdisciplinary minor in Teaching English to Speakers of Other Languages (TESOL). This minor is targeted to those undergraduates who wish to gain expertise in the field of English as a Second Language (ESL) or English as a Foreign Language (EFL) teaching. The minor in TESOL also prepares students for short- and long-term careers in ESL and EFL teaching in both U.S. and international contexts.

While students can combine the TESOL courses with any major, the curriculum will particularly benefit students in linguistics, English, foreign languages, communication, international studies and other related fields. However, with its emphasis on language and culture, as well as its focus on effective teaching and inquiry, the minor in TESOL will complement almost any field of study.

Units required to complete minor: 16
Upper-Division Requirements (12 Units)
• EDUC 411 Foundation of TESOL Units: 4
• EDUC 412 Instructional Methods in TESOL Units: 4
• EDUC 426 Educational Inquiry Units: 4

Required Elective Course (4 Units)
At least one of the following upper-division courses needs to be completed:
• LING 375 Sociolinguistics Units: 4 *
• LING 405 Child Language Acquisition Units: 4
• LING 410 Second Language Acquisition Units: 4 *
• EDUC 421 Global Issues: Impact on Educational Outcomes Units: 4 *
• EDUC 422 Social Change, Difference and Access to Schooling Units: 4
• EDUC 423 Unrealized Promise and Hope for Education in 21st Century Units: 4

Note:
*LING 210 is a prerequisite for LING 375 and LING 410.

Please contact the program office with any questions at nelsonmm@rossier.usc.edu.

The Dynamics of Early Childhood Minor
The Dynamics of Early Childhood minor is intended to facilitate students' understanding of the historical implications that guide what we know and how we use the information we know related to the development of young children. The noted ideologies of theorists such as Dewey, Froebel, Pestalozzi and others will be examined from the perspectives of professionals such as journalist, cinematographer, sociologist and psychologist. The effects of sources of entertainment such as children's books, films and television programs as well as consumer products such as toys will be studied in order to determine the "power" and effects they have on our developmental understandings and designs of educational needs for young children. Students will be encouraged to pursue a self-selected investigation of early childhood in order to be able to contribute as a professional, a family member, and an educator to address the roles and importance of young children in our society.

Four-Course Program:
• EDUC 427 Vectors that Influence Early Childhood Development Units: 4
• EDUC 428 The Effects of Curriculum and Institution on Early Childhood Units: 4
• EDUC 429 Early Childhood and Contemporary Society Units: 4
• EDUC 430 Early Childhood: Action Research Focus Units: 4

Master's Degree

Alternative Certification Master of Arts in Teaching, Multiple Subject
The Alternative Certification Master of Arts in Teaching is designed for individuals who wish to complete requirements for a California preliminary teaching credential while teaching full-time in an approved K-12 school district. Two programs are available: Multiple Subject and Single Subject. The Multiple Subject and Single Subject emphases are available online.

Core Courses
• EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
• EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
• EDUC 672 Integrated Language Development Across the Curriculum Units: 3
• EDUC 673 Applications of Curriculum and Pedagogy, Part A Units: 4
• EDUC 674 Identifying and Teaching to Student Differences Units: 3
• EDUC 675 Literacy Development and Instruction in Elementary Education Units: 3
• EDUC 677 Applications of Curriculum and Pedagogy, Part B Units: 4
• EDUC 678 Applying Knowledge and Strategies for Teaching All Students Units: 2
• EDUC 679 Blended Learning Experiences for Students in Urban Schools Units: 2

Additional course work for the Bilingual Authorization
• EDUC 558 Culture Learning in Schools: Latino Units: 3

Alternative Certification Master of Arts in Teaching, Single Subject
The Alternative Certification Master of Arts in Teaching is designed for individuals who wish to complete requirements for a California preliminary teaching credential while teaching full-time in an approved K-12 school district. Two programs are available: Multiple Subject and Single Subject. The Multiple Subject and Single Subject emphases are available online.

Core Courses
• EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
• EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
• EDUC 672 Integrated Language Development Across the Curriculum Units: 3
• EDUC 673 Applications of Curriculum and Pedagogy, Part A Units: 4
• EDUC 674 Identifying and Teaching to Student Differences Units: 3
• EDUC 676 Literacy Development and Instruction in Secondary Education Units: 3
• EDUC 677 Applications of Curriculum and Pedagogy, Part B Units: 4
• EDUC 678 Applying Knowledge and Strategies for Teaching All Students Units: 2
• EDUC 679 Blended Learning Experiences for Students in Urban Schools Units: 2

Additional course work for the Bilingual Authorization
• EDUC 558 Culture Learning in Schools: Latino Units: 3

Educational Counseling (MED)
The Master of Education degree in Educational Counseling is designed for individuals seeking a career or advancement opportunities in postsecondary education as an academic or outreach counselor. The degree includes a theoretical and practical background in student affairs and counseling.

The program meets current requirements for postsecondary counseling positions in the California state system, particularly for those who wish to work in the public community college system. A minimum of 48 units is required.

Required Courses
• EDCO 503 Ethical and Legal Issues in Counseling Units: 3
• EDCO 541 Theories in Counseling Units: 3
• EDHP 500 Foundations of Higher, Adult, and Professional Education Units: 3
• EDHP 552 The Politics of Difference Units: 3
• EDHP 563 Student Affairs Work in College Units: 3
• EDHP 580 The Community College Units: 3
• EDHP 587 Fieldwork in Higher, Adult, and Professional Education Units: 1, 2, 3, 4, 5, 6, 7, 8 (3 Units Required)
• EDHP 593a Master's Seminar Units: 2 and
• EDHP 593b Master's Seminar Units: 2
• EDHP 594a Master's Thesis Units: 2 and
Learning and Design Technology (MED)

The Master's in Learning Design and Technology program is designed for people who want to significantly improve learning and performance outcomes within their organization. Graduates will be prepared to design, implement, and evaluate learning environments and outcomes for various formal (e.g., K-12 and higher education), non-formal (e.g., corporate, military, and government organizations) and informal settings (e.g., museums, science centers and public spaces). The program draws from learning and motivation research, as well as knowledge of how to leverage technology, to design face-to-face, technology-enabled, and blended learning experiences. Through the project-based capstone, students will gain practical experience by designing a learning experience or evaluating an existing learning design. The program consists of 30 units and is delivered online only.

Required Courses
- EDUC 508 Creating Communities of Interest Units: 2
- EDUC 503 Learning and Motivation Units: 3
- EDUC 589 Human Lifespan Development Units: 3
- EDUC 591 Diversity: Power, Equity and Inclusion Units: 3
- EDUC 570 Research Methods and Data Analysis Units: 3
- EDUC 582 Assessment and Evaluation Units: 2
- EDUC 595 Instructional Design Units: 3
- EDUC 579 Media Selection and Evaluation Units: 2
- EDUC 586 Design of Learning Environments Units: 3
- EDUC 587 Master's Studio A Units: 2
- EDUC 588 Master's Studio B Units: 4

Marriage and Family Therapy (MMFT)

The program for the Master of Marriage and Family Therapy is offered for those students seeking to prepare for the practice of marriage and family therapy. Students who complete this specialized professional degree program and who fulfill the additional state-mandated requirements are eligible for the State of California's Marriage and Family Therapy license. A minimum of 60 units is required.

Required Courses
- EDCO 541 Theories in Counseling Units: 3
- EDUC 500 The Counseling Process Units: 3
- EDUC 507 Professional Identity, Law and Ethics for Counselors Units: 3
- EDUC 508 Creating Communities of Interest Units: 2
- EDCO 515 Theories of Marriage and Family Therapy Units: 3
- EDUC 544 Measurement Procedures for Counselors Units: 3
- EDUC 546 Psychopathology for Marriage and Family Therapy Units: 3
- EDUC 547 Career Development: Theory and Process Units: 3
- EDUC 553 Psychopharmacology and the Effects of Substance Abuse Units: 3
- EDUC 570 Research Methods and Data Analysis Units: 3
- EDUC 583 Counseling through the Lifespan Units: 3
- EDUC 633 Child and Elder Abuse and Domestic Violence Units: 2
- EDUC 634 Couples Counseling Units: 3
- EDUC 635 Psychotherapy with Children and Adolescents Units: 3
- EDUC 636 Perspectives on Human Sexuality Units: 3
- EDUC 637 Group Counseling: Theory and Process Units: 3
- EDUC 638 Cross-Cultural Counseling: Research and Practice Units: 3
- EDUC 644 Practicum in Counseling Units: 3
- EDUC 645a Fieldwork in Counseling Units: 3
- EDUC 645b Fieldwork in Counseling Units: 3
- EDUC 646a Marriage and Family Therapy Capstone: Leadership Project Units: 1
- EDUC 646b Marriage and Family Therapy Capstone: Leadership Project Units: 1

Multiple Subject (MAT)

The Master of Arts in Teaching is designed for individuals who wish to complete requirements for a California preliminary teaching credential (credential track) or to strengthen their ability to facilitate learning for all students in a K–12 environment (non-credential track). Three programs are available: Multiple Subject, Single Subject and Single Subject (Music Education).

Multiple Subject

The MAT Multiple Subject is designed for those interested in teaching at the elementary level. The credential option requires a minimum of 32 units; the non-credential option requires a minimum of 28 units.

The Multiple Subject and Single Subject emphases are available online.

Core Courses
- EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
- EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
- EDUC 672 Integrated Language Development Across the Curriculum Units: 3
- EDUC 674 Identifying and Teaching to Student Differences Units: 3
- EDUC 678 Applying Knowledge and Strategies for Teaching All Students Units: 2
- EDUC 679 Blended Learning Experiences for Students in Urban Schools Units: 2

Additional course work for the Bilingual Authorization:
- EDUC 558 Culture Learning in Schools: Latino Units: 3

Multiple Subject Credential

- EDUC 673 Applications of Curriculum and Pedagogy, Part A Units: 4
- EDUC 675 Literacy Development and Instruction in Elementary Education Units: 3
- EDUC 677 Applications of Curriculum and Pedagogy, Part B Units: 4

Non-Credential Track
- EDUC 569a Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 569b Capstone Portfolio in Learning and Instruction Units: 2

Postsecondary Administration and Student Affairs (MED)

The Master of Education, Postsecondary Administration and Student Affairs provides current and prospective professionals working in various capacities within two-year, four-year and professional postsecondary institutions with the theoretical foundation and practical applications to excel in a variety of higher education administrative and students services positions (academic advising and support services). Students will have an opportunity to develop an area of proficiency such as student affairs, athletic administration or academic advising. A minimum of 41 units of graduate-level course work is required.

Required Courses
- EDHP 500 Foundations of Higher, Adult, and Professional Education Units: 3
• EDHP 551 Applied Educational Ethnography Units: 3
• EDHP 552 The Politics of Difference Units: 3
• EDHP 563 Student Affairs Work in College Units: 3
• EDHP 587 Fieldwork in Higher, Adult, and Professional Education Units: 1, 2, 3, 4, 5, 6, 7, 8 (3 Units Required)
• EDHP 594a Master's Thesis Units: 2 and
• EDHP 594b Master's Thesis Units: 2 or
• EDUC 616 Higher Education Seminar Units: 3
• EDHP 657 Management of Student Services in Higher Education Units: 3
• EDHP 679 Legal Issues in the Administration of Higher Education Units: 3
• EDHP 687 Student Development in Higher Education Units: 3
• EDUC 508 Creating Communities of Interest Units: 2
• EDUC 570 Research Methods and Data Analysis Units: 3
• Approved electives Units: 9

School Counseling (MED)
The Master of Education, School Counseling is geared toward socially responsible individuals who are aware that many of the issues pupils confront have societal origins. Designed to prepare educators interested in becoming school counselors in grades pre-K through grade 12, successful candidates will obtain the Master of Education, School Counseling degree along with USC recommendation for the Pupil Personnel Services School Counseling Credential. Forty-nine units of course work, 100 clock hours in a practicum experience and 600 clock hours of supervised field experience are required.

Required Courses
• EDCO 505 Ethical and Legal Issues in Counseling Units: 3
• EDCO 505 Counseling and Collaborative Consultation in the School Setting Units: 3
• EDCO 541 Theories in Counseling Units: 3
• EDCO 574 School Counseling Practicum Units: 1, 2 (2 Units Required)
• EDCO 575 School Counseling Field Experience Units: 1, 2, 3, 4 (4 Units Required)
• EDUC 500 The Counseling Process Units: 3
• EDUC 508 Creating Communities of Interest Units: 2
• EDUC 511 Introduction to Counseling Units: 3
• EDUC 520 Counseling for College and Career Readiness I Units: 2
• EDUC 570 Research Methods and Data Analysis Units: 3
• EDUC 600 Counseling for College and Career Readiness II Units: 2
• EDUC 607 Role of School Counselors in Student Learning and Motivation Units: 3
• EDUC 608 School Connectedness, Climate, and Classroom Management Units: 2
• EDUC 612 Application of Human Development Theory in School Counseling Units: 3
• EDUC 618 School Counseling Professional Portfolio Units: 2
• EDUC 621 Measurement and Evaluation for School Counselors Units: 3
• EDUC 637 Group Counseling: Theory and Process Units: 3
• EDUC 638 Cross-Cultural Counseling: Research and Practice Units: 3

School Leadership (MED)
School leadership matters. The Master of Education in School Leadership will prepare educational leaders with the knowledge and skills to lead effectively in urban school settings and to accelerate student achievement. Graduates will demonstrate that they can create a high achievement school culture and solve complex performance problems in K–12 schools by being able to advocate for a shared community-driven vision; create a high performance school culture and educational goals; collect data to diagnose causes of achievement gaps; plan appropriate research-based solutions; gather and manage resources; effectively communicate the plan to school administration, faculty, staff and community; and provide support for implementing, monitoring and evaluating progress toward achieving school improvement. All courses are taught through field-based experiences where problems are solved in real work settings, applying research to practice. Students who graduate from the program will be ready to work within the constantly evolving educational landscape of California and other states. A national trip is integrated into the program's curriculum.

The program is open to teachers, counselors, psychologists and other school-based personnel who have worked for a minimum of two years in such positions. Two letters of recommendation are required.

The program is only available online.

Required Courses
• EDUC 508 Creating Communities of Interest Units: 2
• EDUC 533 School Leadership: Theory and Practice Units: 3
• EDUC 537 Leading with the Community and Culture in Context Units: 3
• EDUC 538 Entrepreneurial School Leadership Units: 2
• EDUC 548 Data-Driven Leadership for Schools Units: 3
• EDUC 549 Supervising Instruction for Optimal Learning Units: 3
• EDUC 570 Research Methods and Data Analysis Units: 3
• EDUC 604 National Perspective on School Leadership Units: 1
• EDUC 641 Human Capital and School Organization Units: 3
• EDUC 643 Advancing Community Support through Social Media Units: 2
• EDUC 647 School Leadership Seminar Units: 2
• EDUC 648a Apprenticeship in School Administration and Leadership Units: 2
• EDUC 648b Apprenticeship in School Administration and Leadership Units: 2

Single Subject (MAT)
The Master of Arts in Teaching is designed for individuals who wish to complete requirements for a California preliminary teaching credential (credential track) or to strengthen their ability to facilitate learning for all students in a K–12 environment (non-credential track). Three programs are available: Multiple Subject, Single Subject and Single Subject (Music Education).

Single Subject
The MAT Single Subject is designed for those interested in teaching at the secondary level. The emphasis offers specializations in English, science (biological sciences, chemistry, geoscience or physics), mathematics and social science. The credential option requires a minimum of 32 units; the non-credential option requires a minimum of 28 units.

The Multiple Subject and Single Subject emphases are available online.

Core Courses
• EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
• EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
• EDUC 672 Integrated Language Development Across the Curriculum Units: 3
• EDUC 674 Identifying and Teaching to Student Differences Units: 3
• EDUC 678 Applying Knowledge and Strategies for Teaching All Students Units: 2
• EDUC 679 Blended Learning Experiences for Students in Urban Schools Units: 2

Additional course work for the Bilingual Authorization:
• EDUC 558 Culture Learning in Schools: Latino Units: 3
Single Subject Credential Track

- EDUC 673 Applications of Curriculum and Pedagogy, Part A Units: 4
- EDUC 676 Literacy Development and Instruction in Secondary Education Units: 3
- EDUC 677 Applications of Curriculum and Pedagogy, Part B Units: 4

Non-Credential Track

- EDUC 569a Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 569b Capstone Portfolio in Learning and Instruction Units: 2

Single Subject (Music Education) (MAT)

The Master of Arts in Teaching is designed for individuals who wish to complete requirements for a California preliminary teaching credential (non-credential track) or to strengthen their ability to facilitate learning for all students in a K–12 environment (non-credential track). Three programs are available: Multiple Subject, Single Subject and Single Subject (Music Education).

Core Courses

- EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
- EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
- EDUC 672 Integrated Language Development Across the Curriculum Units: 3
- EDUC 674 Identifying and Teaching to Student Differences Units: 3
- EDUC 678 Applying Knowledge and Strategies for Teaching All Students Units: 2
- EDUC 679 Blended Learning Experiences for Students in Urban Schools Units: 2

Additional course work for the Bilingual Authorization:

- EDUC 558 Culture Learning in Schools: Latino Units: 3

Single Subject (Music Education)

- EDUC 512 Reading and Writing Methods for Secondary Teaching Units: 2

Additional course work for Instrumental Track

Additional course work for Choral/General Track

Teacher Leadership (MED)

The Master of Education in Teacher Leadership provides current teachers with an in-depth exposure to pedagogy and teacher leadership development. The curriculum is designed to challenge experienced teachers to utilize technology in student-centered ways to improve learning outcomes, provide access to advanced interdisciplinary pedagogical practice, develop their capacity to initiate leadership with peers around improving instruction, and increase their understanding of successful instruction for learners with diverse needs.

Applicants to the program should have significant teaching experience. Public school teachers must hold a current teaching credential; private school teachers without a credential must be able to demonstrate at least three years of full-time teaching experience.

Two letters of recommendation are required.

There are four areas of concentration in the Teacher Leadership program: (1) Differing Abilities, which focuses on understanding the range of learner needs in today's classroom; (2) Education Specialist Credential, for graduates of the Rossier MAT program seeking to add a Mild/Moderate Disabilities authorization; (3) Secondary Curriculum concentration provides Social Studies and English teachers with methods for integrating the arts, literacy and civics; and (4) Teaching Science, Technology, Engineering, and Mathematics (STEM) provides an opportunity for teachers to foster and engage in an advanced, interdisciplinary study of instruction in STEM.

Degree Requirements

The Teacher Leadership program requires a minimum of 32 units including required core courses and completion of a concentration area.

Required Core

- EDUC 506 New Media Literacies in High Needs Schools Units: 2
- EDUC 516 Framing the Social Context of High Needs Schools Units: 3
- EDUC 518 Application of Theories of Learning to Classroom Practice Units: 3
- EDUC 529 Political and Academic Issues Affecting Gifted Students Units: 3
- EDUC 550 Multimedia Literacy Units: 3
- EDUC 564 Teacher Leadership Units: 2
- EDUC 569a Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 569b Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 573 Introduction to Special Education Units: 3

Concentration Areas

Students select a concentration area from one of the following:

Differing Abilities

- EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students Units: 3
- EDUC 575 Assessment and Curriculum for Students with Disabilities Units: 3
- EDUC 576 Establishing and Maintaining an Effective Classroom Ecology Units: 3

Education Specialist Credential

- EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students Units: 3
- EDUC 574 Collaboration, Families and Case Management Units: 3
- EDUC 575 Assessment and Curriculum for Students with Disabilities Units: 3
- EDUC 576 Establishing and Maintaining an Effective Classroom Ecology Units: 3
- EDUC 577 Guided Practice: Mild/Moderate Disabilities Units: 3

The Secondary Curriculum

- EDUC 552 Literacies in the Content Area Units: 3
- EDUC 557 Civics Education Units: 3
- EDUC 578 Integrating the Arts into the Secondary Curriculum Units: 3

Teaching Science, Technology, Engineering, and Mathematics (STEM)

- EDUC 555 STEM Education in Secondary Classrooms Units: 3
- EDUC 559 Discourse Analysis and Technology in STEM Classrooms Units: 3
- EDUC 580 Transforming STEM Education into Teaching Science Units: 3

Teaching English to Speakers of Other Languages (World Masters in Language Teaching) (MAT)

The USC Rossier School of Education partners with the School of Humanities and Social Sciences at the Hong Kong University of Science and Technology (UST) and with Yonsei University's Department of Korean Language and Literature to offer an innovative dual master's degree program in teaching English and teaching Chinese or Korean as part of its World Master in Language
Teaching Program.
Qualified students will complete course work both at USC and at one of the partner universities, spending part of their time at UST or Yonsei University and part of their time at USC. Upon satisfying all program requirements at the two institutions, two master's degrees will be awarded, one degree conferred by USC in the area of English teaching, and one conferred by UST in teaching Chinese or by Yonsei University in teaching Korean.

<table>

<tbody>
<tr>
<td>USC Rossier School of Education Degree Master of Arts in Teaching, Teaching English to Speakers of Other Languages (MAT-TESOL), with an option for individuals to complete requirements for a California preliminary Single Subject teaching credential, with specialization in World Language: English Language Development or World Language: LOTE (Language Other Than English).</td>
<td>UST School of Humanities and Social Sciences Degree: Master of Arts in International Language Education (MAILE), with one of two specializations: Teaching Chinese as a Second Language (TCSL) or Teaching English as a Second Language (TESL).</td>
</tr>
</tbody>
</table>

Admissions
Students wishing to pursue this dual master's program must satisfy all application requirements for both the USC Rossier School of Education and the selected partner university.

Program Completion
Once candidates apply and are accepted to the program, they must complete all requirements for both degrees. Upon completion of both degree requirements, the two degrees will be conferred. For this dual degree, 6 units of pre-approved course work taken at UST or Yonsei University may be transferred and applied to the degree requirements at USC. Students who elect to receive only the USC degree must change their degree objective from this dual degree program to a different degree objective in the Rossier School of Education.

Residence
This is a two-year campus based program during which students spend part of their time at UST or Yonsei and part of their time at USC.

Language Requirements
USC: All courses at USC will be taught in English. Minimum TOEFL/IELTS scores are required for admission.
UST: All courses at UST will be taught in English. Minimum TOEFL/IELTS scores are required for admission. For the Teaching Chinese as a Second Language concentration at UST, minimum proficiency in Chinese must be demonstrated.
Yonsei University: While some courses will be taught in Korean at Yonsei, accommodations will be provided for non-Korean speakers who wish to complete the degree. Minimum TOEFL/IELTS scores are required for admission to both programs. Those students pursuing the additional option to obtain a Korean Language Teaching license at Yonsei must demonstrate academic proficiency in Korean.

Program of Study
The USC Master of Arts in Teaching – Teaching English to Speakers of Other Languages is a 24 unit degree (28 units for the credential track). Students in the World Masters in Language Teaching program may transfer in 6 units from UST or Yonsei University coursework and therefore complete 18 units (22 units for the credential track) at USC. Students must also complete 18 units at UST or 15 units at Yonsei University (18 units for those pursuing the Korean language teaching license). Students begin with a fall semester at UST or Yonsei University, then complete two semesters at USC (Spring and Fall), before returning to UST or Yonsei University for their final spring semester. The total program is completed in approximately 21 months.

USC Required Courses
- EDUC 510 Theories of Language Learning and Teaching Units: 3
- EDUC 521 Assessment and Instruction for Diverse Language Learners Units: 3
- EDUC 596 English Language Learning Design, Teaching and Technology Units: 3
- EDUC 639 Approaches and Strategies for Language Teaching Units: 4
- EDUC 649 Teaching Practice to Support Language Learners Units: 4
- EDUC 655 Social Foundations of Language Education Units: 4
- EDUC 656 Applied Linguistics for English Language Educators Units: 3

USC Required Courses for Credential Track Only
- EDUC 660b Clinical Practice Seminar in Language Teaching Units: 2
- EDUC 660b Clinical Practice Seminar in Language Teaching Units: 2

Note:
Six units are taken a the partnering institution: Hong Kong University of Science and Technology or Yonsei University and applied to the USC MAT, Teaching English to Speakers of Other Languages.

Teaching, Teaching English to Speakers of Other Languages (MAT)
The Master of Arts in Teaching English to Speakers of Other Languages (MA TESOL) is designed to equip aspiring and practicing English language teachers, domestic and international, to successfully provide English language instruction for children, youth or adults in the United States or abroad. The degree has a non-credential track (minimum of 24 units) and a credential option (minimum of 28 units). The program may be completed on campus or online.

Required Courses
- EDUC 510 Theories of Language Learning and Teaching Units: 3
- EDUC 521 Assessment and Instruction for Diverse Language Learners Units: 3
- EDUC 596 English Language Learning Design, Teaching and Technology Units: 3
- EDUC 639 Approaches and Strategies for Language Teaching Units: 4
- EDUC 649 Teaching Practice to Support Language Learners Units: 4
- EDUC 655 Social Foundations of Language Education Units: 4
- EDUC 656 Applied Linguistics for English Language Educators Units: 3

Credential Option
- EDUC 660b Clinical Practice Seminar in Language Teaching Units: 2
- EDUC 660b Clinical Practice Seminar in Language Teaching Units: 2
Graduate Certificate

Gifted Education Certificate
Aligned with USC Rossier’s mission to serve high-need students in urban centers, the Certificate in Gifted Education provides graduates of the Master of Arts in Teaching program with the competencies to respond to the needs, interests and abilities of gifted students in either homogeneous or heterogeneous regular classrooms or specific school environments defined for gifted and high-ability students.

The Certificate in Gifted Education enables graduates to recognize the manifestations of giftedness among cultural, linguistic and economically diverse students in urban schools, to facilitate the identification of underrepresented students as gifted and to provide differentially appropriate curriculum for them.

MAT Credential Track
Required Courses
- EDUC 529 Political and Academic Issues Affecting Gifted Students Units: 3
- EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students Units: 3

Credential Track
- EDUC 673 Applications of Curriculum and Pedagogy, Part A Units: 4
- EDUC 677 Applications of Curriculum and Pedagogy, Part B Units: 4

MAT Non-Credential Track
Required Courses
- EDUC 529 Political and Academic Issues Affecting Gifted Students Units: 3
- EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students Units: 3

Non-Credential Track
- EDUC 569a Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 569b Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 678 Applying Knowledge and Strategies for Teaching All Students Units: 2

STEM Education Certificate
Aligned with the Rossier School of Education mission to serve the changing landscape of high needs and urban school districts, two STEM certificate programs are available to strengthen the instructional skills of novice and current teachers at the elementary or secondary level, so that they can have a positive impact on student learning in mathematics and the sciences. Both certificates widen graduates’ knowledge about teaching and learning allowing them to compete in the contemporary professional marketplace. A certificate in special education is mandatory in some states, and in other states, it is a criterion for consideration to teach special needs students in any type of learning environment. The certificate may be completed concurrently with requirements for the MAT or the ME in Teacher Leadership. It is also available online.

Required Courses
- EDUC 573 Introduction to Special Education Units: 3
- EDUC 574 Collaboration, Families and Case Management Units: 3
- EDUC 575 Assessment and Curriculum for Students with Disabilities Units: 3
- EDUC 576 Establishing and Maintaining an Effective Classroom Ecology Units: 3
- EDUC 577 Guided Practice: Mild/Moderate Disabilities Units: 3

Certificate in Elementary STEM Education (Internal Applicants)*
Required Courses
- EDUC 550 Multimedia Literacy Units: 3
- EDUC 581 STEM Education from a Project-Based Learning Approach Units: 3
- EDUC 584 Facilitating Creativity and Innovation in STEM Classrooms Units: 3
- EDUC 585 Action Research Project Units: 3

Certificate in Elementary STEM Education (External Applicants)**
Required Courses
- EDUC 550 Multimedia Literacy Units: 3
- EDUC 569a Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 569b Capstone Portfolio in Learning and Instruction Units: 2
- EDUC 581 STEM Education from a Project-Based Learning Approach Units: 3
• EDUC 584 Facilitating Creativity and Innovation in STEM Classrooms Units: 3
• EDUC 585 Action Research Project Units: 3

Certificate in Secondary STEM Education (Internal Applicants)*

Required Courses
• EDUC 550 Multimedia Literacy Units: 3
• EDUC 555 STEM Education in Secondary Classrooms Units: 3
• EDUC 559 Discourse Analysis and Technology in STEM Classrooms Units: 3
• EDUC 580 Transforming STEM Education into Teaching Science Units: 3

Certificate in Secondary STEM Education (External Applicants)**

Required Courses
• EDUC 550 Multimedia Literacy Units: 3
• EDUC 555 STEM Education in Secondary Classrooms Units: 3
• EDUC 559 Discourse Analysis and Technology in STEM Classrooms Units: 3
• EDUC 569a Capstone Portfolio in Learning and Instruction Units: 2
• EDUC 569b Capstone Portfolio in Learning and Instruction Units: 2
• EDUC 580 Transforming STEM Education into Teaching Science Units: 3

Note:
*Internal Applicants are students enrolled in the MAT Program
**External Applicants are students not admitted to USC or enrolled in the MAT Program who wish to complete the certificate.

Dual Degree

Doctor of Education/Master of Business Administration (EdD/MBA)

The Rossier School of Education and the USC Marshall School of Business jointly offer a dual degree program that emphasizes educational leadership and management competencies across the wide variety of education-related organizations in the public, nonprofit and for-profit sectors and is designed to prepare students to assume executive leadership positions in these organizations, including schools, universities, educating businesses, regional, state and federal education agencies, education research institutions, and private foundations with education missions. Graduates of the EdD in Educational Leadership/MBA program will be prepared to significantly improve the scope and quality of educational services to targeted populations through the application of management skills to the field of education and of education principles to business enterprises.

A total of 90 units is required for the dual degree: 48 units in the Marshall School of Business and 42 units in the Rossier School of Education.

Students must apply to both the Marshall School of Business and the Rossier School of Education.

Doctoral Degree

Doctor of Education (EdD)

The Doctor of Education (EdD) is a three-year degree program that equips practitioner-scholars with the skills needed to lead high-performing organizations, connect research with practice and help all students to learn. The program is geared toward working professionals who aspire to be leaders in urban education. Admission requires a master's degree and a minimum of three years of work experience in a related field.

Preliminary Review

The EdD preliminary review must be passed before the student has completed more than 21 units. Passing the preliminary review is prerequisite to continuing in the program.

Advisement Committee

The student selects a three-member advisement committee in consultation with the adviser upon applying to take the qualifying examination.

The committee chair must have a full-time appointment in the Rossier School of Education. One member of the committee may be a faculty member elsewhere or a full-time professional educator holding a doctorate and with strength in the area of the dissertation topic, if nominated by the committee chair and approved by the director of the EdD program.

Areas of Concentration

There are four areas from which students must select a specialization: K–12 Leadership in Urban School Settings, Educational Psychology, Higher Education Administration and Teacher Education in Multicultural Societies.

Unit Requirement

The EdD requires completion of 60 units of course work. A maximum of 4 project units (764 Consulting Project) may be applied toward the degree. Students admitted with Advanced Standing complete a minimum of 43 units.

Core Program

EdD students are required to complete 13 units of core course work:
• EDUC 522 Challenges in Urban Education: Accountability Units: 3
• EDUC 523 Challenges in Urban Education: Diversity Units: 3
• EDUC 524 Challenges in Urban Education: Leadership Units: 3
• EDUC 525 Challenges in Urban Education: Learning Units: 3
• EDUC 605 Framing Educational Leadership Units: 3
• EDUC 764a Consulting Project Units: 1
• EDUC 764b Consulting Project Units: 1
• EDUC 764c Consulting Project Units: 1
• EDUC 764d Consulting Project Units: 1

Additional Information

Methods

All EdD students must complete EDUC 532 Inquiry Methods I and EDUC 536 Inquiry Methods II for a total of 6 units.

Research

Students must complete 6 units of research course work (EDUC 792 Critique of Research in Education and EDUC 790 Research).

Electives

In consultation with assigned advisers, students take 14 units of elective course work.

Admission to Candidacy

Admission to candidacy is a formal action taken by the faculty of the Rossier School of Education. That action is based upon passing the qualifying examination.

Doctoral Capstone

A doctoral capstone based upon identifying and addressing a problem of practice in the candidate's domain of focus is required. An acceptable capstone must show technical mastery of a special field and skills of a practitioner-scholar. The student must be enrolled in 764 Consulting Project each fall and spring semester after admission to candidacy until the capstone has been approved. A minimum of two semesters (4 units-764a&b and 764c&d concurrently) is required. Enrollment in 764 prior to admission to candidacy is not permitted and such registration is invalid.

Global Executive (EdD)

The Global Executive EdD prepares tomorrow's transformational educational leaders, policy makers, administrators and change agents for their challenging task of improving individual and national educational outcomes. The curriculum is designed to enhance the
professional experience of senior educational leaders and policy makers by:

- Increasing their understanding of global trends and the implications of those trends for their work;
- Challenging them to utilize evidence and theory-based approaches in problem solving;
- Developing their capacity to effectively use complex data in decision making; and
- Providing access to key leaders and leading education scholars.

The program will focus on achieving large-scale improvements across educational systems through strategic use of policy, innovative practice and assessment. The curriculum stresses the examination of educational solutions from around the world as participants work with their own, local challenges.

Classes are delivered in Los Angeles and international locations.

The total units required for the degree is 60. A maximum of 4 project units (EDUC 764a, EDUC 764b, EDUC 764c, EDUC 764d, EDUC 764z) may be applied toward the degree. Students admitted with advanced standing complete a minimum of 50 units.

**Preliminary Review:**

The Global Executive EdD preliminary review must be passed before the student has completed more than 18 units. Passing the preliminary review is prerequisite to continuing in the program.

**Required Courses**

- EDUC 619 Framing Educational Leadership in a Global Context Units: 4
- EDUC 620 Fundamentals of Creativity, Innovation, and Entrepreneurship Units: 2
- EDUC 623 Understanding Research That Informs Leadership Units: 3
- EDUC 624 Educational Organizations: Governance and Finance I Units: 2
- EDUC 626 Fostering Entrepreneurship in Educational Systems Units: 2
- EDUC 627 Education Performance Problems: Role of Learning Units: 3
- EDUC 628 Educational Organizations: Governance and Finance II Units: 2
- EDUC 629 Consulting Practicum Context Analysis Units: 3
- EDUC 631 Locating Educational Performance Problems Units: 3
- EDUC 723 Evaluating and Assessing Educational System Outcomes Units: 3
- EDUC 724 Creating Policy Alternatives for Educational Settings Units: 3
- EDUC 725 Analyzing Organizational Change and Its Effectiveness Units: 3
- EDUC 726 Making Choices: Deciding Among Policy Alternatives Units: 3
- EDUC 727 Implementing Policy in Educational Systems Units: 3
- EDUC 728 Global Trends: Emerging Ideas, Emerging Markets Units: 3
- EDUC 729 Assessing Policy Impact in Educational Settings Units: 3
- EDUC 764a Consulting Project Units: 1
- EDUC 764b Consulting Project Units: 1
- EDUC 764c Consulting Project Units: 1
- EDUC 764d Consulting Project Units: 0
- EDUC 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (1 Unit Required)
- Additional course work to be approved by program faculty Units: 10

**Organizational Change and Leadership (EdD)**

The Education Doctorate in Organizational Change and Leadership is a three-year degree program that prepares current and future leaders to create conditions that foster continuous improvement in themselves and their organizations. It emphasizes how learning occurs informally and formally in workplaces and serves as a mechanism for change and innovation in organizations and systems. Arranged by four topical streams – problem solving, leadership, dispositions of leaders and reflection – the program seeks to attract a diverse student body of current and emerging leaders who are interested in fostering learning that leads to systemic improvement in their workplaces. The primary emphasis will be on those individuals who currently hold or are seeking leadership positions within colleges/universities, traditional and non-traditional K-12 environments, chief learning officers and their related human resources staff, non-profits and governmental organizations. The degree is not linked to the credentials typically needed to become an administrator in a K-12 environment, including becoming a principal or superintendent. The degree requires a minimum of 60 units. Students with a prior master’s may enter with Advanced Standing, reducing their units to 43. It is delivered only online.

**Required Courses**

- EDUC 522 Challenges in Urban Education: Accountability Units: 3
- EDUC 523 Challenges in Urban Education: Diversity Units: 3
- EDUC 524 Challenges in Urban Education: Leadership Units: 3
- EDUC 532 Inquiry Methods I Units: 3
- EDUC 603 Framing Organizational Change and Leadership Units: 4
- EDUC 620 Fundamentals of Creativity, Innovation, and Entrepreneurship Units: 2
- EDUC 627 Education Performance Problems: Role of Learning Units: 3
- EDUC 714 Measurement and Evaluation for Decision-Making Units: 3
- EDUC 723 Evaluating and Assessing Educational System Effectiveness Units: 3
- EDUC 725 Analyzing Organizational Change and Its Effectiveness Units: 3
- EDUC 730 Using Communication to Facilitate Organizational Change Units: 3
- EDUC 731 Economics of Organizational Change and Learning Environments Units: 3
- EDUC 732 Building Capacity for Organizational Change Units: 3
- EDUC 764a Consulting Project Units: 1
- EDUC 764b Consulting Project Units: 1
- EDUC 764c Consulting Project Units: 1
- EDUC 764d Consulting Project Units: 1

**Urban Education Policy (PhD)**

**Program Requirements**

The PhD program requires a minimum of 63 units of course work, comprising the following elements: Core Block (16 units), Concentration Block (15 units), Research Block (15 units), Cognate Block (12 units) and Dissertation Proposal and Dissertation Block (5 units).

**Core Block**

The core represents the essential knowledge that serves as the groundwork for later course work and for other research and scholarly activities within the program and beyond with a particular focus on urban education. This work is completed in the first year.

**Required Courses**

- EDUC 630 Organizations and Policy: Current Issues Units: 4
- EDUC 640 The Research University in the 21st Century Units: 4
- EDUC 642 Controversies in Learning and Instruction Units: 4
- EDUC 650 Globalization and the Nation-State: Theories of Change Units: 4
Additional Requirements

Concentration Block
Courses in this block are linked to two of the concentrations available in the Rossier School of Education PhD program. Courses in this block permit students to consider applied problems in collaboration with students in other programs.

Research Block
Courses in this block provide the basic tools to pursue systematic, programmatic, empirical investigation. It includes qualitative and quantitative elements with the understanding that complex educational problems require a variety of investigative approaches. Areas include research design, analysis of variance/multiple regression, qualitative methods, measurement, advanced qualitative or quantitative analysis, or other related areas. Courses may be taken inside or outside the Rossier School of Education.

Cognate Block
This block is designed for students to pursue interdisciplinary approaches to educational issues, and may consist of courses inside or outside the Rossier School of Education. The specific courses are determined in conjunction with the adviser.

Dissertation Block
This block includes preparation for the qualifying examination and initial dissertation proposal. It is taken during the semester of the qualifying examination and EDUC 794a Doctoral Dissertation, EDUC 794b Doctoral Dissertation (minimum of 4 units taken after a student passes the qualifying examination and has advanced to candidacy). The dissertation block is designed to prepare students for their dissertation research and continues through the writing and defense of the dissertation. The process involves intensive collaboration with the adviser and the qualifying exam committee.

Transfer of Course Work
The maximum number of transfer credits that can be applied toward the degree is 20 units. The faculty of the student's degree program determines whether transfer credit is applicable toward a specific graduate degree.

Faculty Adviser
A designated faculty member provides the academic advisement for entering graduate students at the point of admission. A faculty member is appointed to serve as the adviser until an approved qualifying exam committee is established.

Screening Process
When students have completed the core course work, the doctoral screening committee assesses their performance and makes a decision about their readiness to continue in the program. Students are notified of the results by the PhD program chair and director. Additionally, students will be assessed each year based on adviser input, coursework and research progress. If student progress is not satisfactory as determined by the student's faculty adviser, warnings will be issued in accordance with USC Graduate School policies.

Qualifying Exam Committee
The qualifying exam committee is composed of at least five members. A minimum of three, including the chair, must be from the Rossier School; one must be a faculty member from outside the Rossier School. Normally, all members of the qualifying exam committee are regular faculty with the rank of assistant professor or above in departments offering the PhD.

Qualifying Examinations
As a prerequisite to candidacy for the PhD, students must pass written and oral qualifying examinations. The written qualifying examination is designed to assess a student's readiness to undertake dissertation research and to assess the student's ability to critically analyze and synthesize theoretical and methodological knowledge. The oral portion consists, in part, of a teaching and research portfolio. The teaching portfolio documents and reflects the student's development and productivity in thinking about course content and instructional delivery. The research portfolio documents and reflects the student's development and productivity in research and writing from the point of entry into the program.

Admission to Candidacy
Admission to candidacy is a formal action taken by the faculty that is based upon passing the qualifying examination and completing all PhD course requirements (with the exception of EDUC 794a, EDUC 794b, EDUC 794c, EDUC 794d Doctoral Dissertation). Notification of admission or denial of admission to candidacy is by letter from the associate vice provost for graduate programs.

Dissertation Committee
After admission to candidacy and approval of the dissertation proposal, the PhD qualifying exam committee is known as the dissertation committee and is usually reduced to three members. The committee will include one faculty member from outside the Rossier School of Education but within USC, and will be chaired by a tenure track faculty member.

Doctoral Dissertation
After the qualifying examination is passed, students must enroll in EDUC 794a, EDUC 794b, EDUC 794c, EDUC 794d Doctoral Dissertation each semester, except summer session, after admission to candidacy until all degree requirements have been completed. A minimum of two semesters (4 units) is required. A maximum of 4 dissertation units may be applied to satisfy the degree requirement. While enrolled in EDUC 794a, students will develop a dissertation proposal in collaboration with the adviser. The dissertation committee grants final approval for the proposal. Credit for EDUC 794a and permission to enroll in EDUC 794b will only be given after the dissertation proposal is approved. IRB (Human Subjects Institutional Review Board) approval is required for all dissertation studies.

Teaching Skills Development
All doctoral students must teach for at least one semester before they graduate. This program requirement may be fulfilled by co-teaching, serving as a teaching assistant, or solo teaching. International students must meet the English proficiency standards set forth by the American Language Institute and participate, if necessary, in specialized training offered through the Center for Excellence in Teaching. Proposals for meeting this requirement must be reviewed and approved by the PhD Governance Committee. Students should also refer to Graduate and Professional Education and The Graduate School, Academic and University Policies and other sections of this catalogue for general regulations and policies including but not limited to time limits, leave of absence, scholarship standing, academic warning, and other issues not directly addressed in this section.
The USC Viterbi School of Engineering is innovative, elite, and internationally recognized for creating new models of education, research and commercialization that are firmly rooted in real world needs. The school's first priorities are the education of outstanding students and the pursuit and publication of new research.

As the school’s faculty and students extend the frontiers of engineering knowledge through their research, they also apply engineering and technology to address societal challenges. The school stimulates and encourages qualities of scholarship, leadership, ambition and character that mark the true academic and professional engineer — to serve California, the nation and the world. At USC Viterbi, we call this the enabling power of Engineering+

Courses in engineering were first offered at USC in the 1905-06 academic year in the basement of one of the oldest buildings on campus. Today, 210 full-time, tenure track faculty (and more than 340 total full-time faculty) serve over 2,600 undergraduate majors; 600 students in minor programs; and almost 5,500 graduate students, utilizing extensive and technically advanced laboratories, classrooms and live interactive high-speed Internet broadcast systems. Government and industry annually fund nearly $192 million worth of research.

Viterbi undergraduate support programs complement and strengthen the academic experience, enhancing both depth and scope. Viterbi graduate education is outstanding preparation for advanced research and professional careers. The PhD program is built around fellowships, teaching assistantships and research appointments, and produces a steadily growing core of doctoral graduates across the disciplines. The master's and professional programs are national and global leaders in advanced training for professional engineers.

### Administration

- **Yannis C. Yortsos, PhD**, Dean
- **Gaurav Sukhatme, PhD**, Executive Vice Dean
- **Andrea Belz, PhD**, Vice Dean
- **Erik A. Johnson, PhD**, Vice Dean
- **Brandi Jones, EdD**, Vice Dean
- **Maja Mataric, PhD**, Vice Dean
- **Preethi Murthy, PhD, MS**, Vice Dean
- **Cauligi Raghavendra, PhD, MS**, Vice Dean
- **Linda Rock, MA, Vice Dean**
- **Kelly Goulios, MS**, Senior Associate Dean
- **Margaret Kean, Senior Associate Dean**
- **Louise A. Yates, MS**, Senior Associate Dean
- **David Murphy, Chief Financial Officer**

### Degrees and Accreditation

The Viterbi School of Engineering offers the following undergraduate curricula leading to the Bachelor of Science in:

- Aerospace Engineering
- Applied Mechanics
- Astronautical Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Computer Science
- Materials Science
- Mechanical Engineering
- Aerospace and Mechanical Engineering
- Engineering Management
- Environmental Engineering / Master of Science Mechanical Engineering / Master of Science Engineering Management
- Master of Science Petroleum Engineering / Master of Science Engineering Management
- Petroleum Engineering

Graduate curricula leading to the Master of Science in:

- Aerospace Engineering
- Aerospace and Mechanical Engineering
- Astronautical Engineering
- Biomedical Engineering
- Biomedical Engineering (Medical Imaging and Imaging Informatics)
- Chemical Engineering
- Civil Engineering
- Construction Engineering
- Structural Engineering
- Transportation Engineering
- Water and Waste Management
- Computer Engineering
- Computer Science
- Computer Networks
- Computer Science (Computer Networks)
- Computer Science (Computer Security)
- Computer Science (Data Science)
- Computer Science (Game Development)
- Computer Science (High Performance Computing and Simulations)
- Computer Science (Intelligent Robotics)
- Computer Science (Multimedia and Creative Technologies)
- Computer Science (Scientists and Engineers)
- Computer Science (Software Engineering)
- Cyber Security Engineering
- Data Informatics
- Electrical Engineering
- Electrical Engineering (Computer Networks)
- Electrical Engineering (Electric Power)
- Electrical Engineering (Multimedia and Creative Technologies)
- Electrical Engineering (VLSI Design)
- Electrical Engineering (Wireless Health Technology)
- Electrical Engineering (Wireless Networks)
- Engineering Management
- Environmental Engineering
- Global Supply Chain Management
- Green Technologies
- Health Systems Management Engineering
- (with the Price School of Public Policy, not currently accepting applications)
- Industrial and Systems Engineering
- Manufacturing Engineering
- Materials Engineering
- Materials Science
- Mechanical Engineering
- Mechanical Engineering (Energy Conversion)
- Mechanical Engineering (Nuclear Power: not currently accepting applications)
- Medical Device and Diagnostic Engineering
- Operations Research Engineering
- Petroleum Engineering
- Petroleum Engineering (Geoscience Technologies)
- Petroleum Engineering (Smart Oilfield Technologies)
- Product Development Engineering
- Spatial Informatics
- Systems Architecture and Engineering
- Graduate curricula leading to the Master of Construction Management and the Master of Communication Informatics.

Graduate curricula leading to dual degrees in:

- Master of Science Aerospace Engineering / Master of Science Engineering Management
- Master of Science Electrical Engineering / Master of Science Engineering Management
- Master of Science Industrial and Systems Engineering / Master of Business Administration
- Master of Science Mechanical Engineering / Master of Science Engineering Management
- Master of Science Petroleum Engineering / Master of Science Engineering Management

Graduate curricula leading to the Engineer degree in:

- Aerospace Engineering
- Astronautical Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Electrical Engineering
- Environmental Engineering
- Industrial and Systems Engineering
- Materials Science (not currently accepting applications)
- Mechanical Engineering
- Petroleum Engineering

Through the Graduate School, graduate curricula leading to the Doctor of Philosophy in:

- Aerospace Engineering
- Astronautical Engineering
- Biomedical Engineering
- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Computer Science
- Electrical Engineering
- Engineering (Environmental Engineering)
- Industrial and Systems Engineering
- Materials Science
- Mechanical Engineering
- Petroleum Engineering

Graduate certificates in:

- Astronautical Engineering
- Health
Systems Operations (with the Price School of Public Policy); Health, Technology and Engineering (with the Keck School of Medicine); Network Centric Systems; Oilfield Technologies; Optimization and Supply Chain Management (with the Marshall School of Business); Software Architecture; Systems Architecting and Engineering; and Transportation Systems (with the Price School of Public Policy).

Undergraduate Program Accreditation

The Bachelor of Science degrees in aerospace engineering, astronautical engineering, biomedical engineering, chemical engineering, civil engineering, computer engineering and computer science, electrical engineering, environmental engineering, industrial and systems engineering, and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET, abet.org. The Bachelor of Science degrees in computer engineering and computer science and in computer science are accredited by the Computing Accreditation Commission of ABET, abet.org.

Undergraduate Program Student Outcomes

By the time of graduation from Bachelor of Science degree programs accredited by the Engineering Accreditation Commission of ABET, students will develop at least the following abilities and knowledge:

• an ability to apply knowledge of mathematics, science and engineering
• an ability to design and conduct experiments, as well as to analyze and interpret data
• an ability to design a system, component or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
• an ability to function on multidisciplinary teams
• an ability to identify, formulate and solve engineering problems
• an understanding of professional and ethical responsibility
• an ability to communicate effectively
• the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context
• a recognition of the need for, and an ability to engage in lifelong learning
• a knowledge of contemporary issues
• an ability to use the techniques, skills and modern engineering tools necessary for engineering practice

By the time of graduation from Bachelor of Science degree programs accredited by the Computing Accreditation Commission of ABET, students will develop at least the following abilities and knowledge:

• an ability to apply knowledge of mathematics appropriate to the program's student outcomes and to the discipline
• an ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
• an ability to design, implement and evaluate a computer-based system, process, component or program to meet desired needs
• an ability to function effectively on teams to accomplish a common goal
• an understanding of professional, ethical, legal, security and social issues and responsibilities
• an ability to communicate effectively with a range of audiences
• an ability to analyze the local and global impact of computing on individuals, organizations and society
• recognition of the need for and an ability to engage in continuing professional development
• an ability to use current techniques, skills and tools necessary for computing practice
• an ability to apply mathematical foundations, algorithmic principles and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the trade-offs involved in design choices
• an ability to apply design and development principles in the construction of software systems of varying complexity

Undergraduate Degrees and Requirements

Change of Major to Engineering

USC undergraduate students who have not been admitted to the Viterbi School of Engineering may apply to add an engineering major with the approval of the Associate Dean for Admission for the Viterbi School. Students seeking approval to add an engineering major must complete required prerequisite courses and submit a Request to Change Major to Engineering form to the Admission and Student Affairs Office in Ronald Tutor Hall 110. Approval is granted on the basis of academic performance at USC and in the required prerequisite courses in the Viterbi School within a maximum of two semesters.

Non-engineering students may complete a maximum of four engineering courses. No further engineering courses may be taken unless admission has been approved.

Common Requirements

Certain general requirements are common to all undergraduate curricula for Bachelor of Science degrees in Engineering. These are as follows:

Total Units

A minimum total of 128 acceptable units is required to earn the Bachelor of Science in Engineering. Exceptions are: aerospace engineering, 129 units; biomedical engineering with an emphasis in electrical engineering, 133 units; biomedical engineering with an emphasis in mechanical engineering, 132 units; chemical engineering, 133 units; chemical engineering with an emphasis in biochemical engineering, 133 units; chemical engineering with an emphasis in environmental engineering, 136 units; chemical engineering with an emphasis in nanotechnology, 132 units; chemical engineering with an emphasis in petroleum engineering, 137 units; chemical engineering with an emphasis in polymer/materials science engineering, 137 units; civil engineering, 133 units; civil engineering with an emphasis in building science, 137 units; civil engineering with an emphasis in environmental engineering, 130 units; civil engineering with an emphasis in structural engineering, 133 units; environmental engineering, 132 units.

Not more than 4 units may be physical education activity courses, provided the department allows it in the program.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by others) a generally well-educated person. This program requires eight courses in six Core Literacies, plus writing and two courses in Global Perspectives (which may double-count with courses in the Core Literacies). See the General Education Program for more information.

Students in the Viterbi School of Engineering must satisfy the general education requirements. Students satisfy Core Literacy requirements in life sciences, physical sciences, and quantitative reasoning with the basic science and mathematics elements of their undergraduate engineering programs.

Students in the engineering "3-2" program are not required to satisfy general education requirements or the lower-division writing requirement for USC; these students are understood to have satisfied USC's general education requirements when they have satisfied the general education requirements and lower level writing requirement at their previous institution. All students must, however, complete the WRIT 340 requirement.

Mathematics (16 units minimum)

Sixteen units or more, including three semesters of calculus, are required.

Basic Sciences (12 units minimum)

Twelve units or more of biology, chemistry or physics are required.
Residence Requirement
All students must complete a minimum of 64 units at USC in order to receive a USC degree. In addition, the Viterbi School of Engineering requires that students complete all upper-division units required for the major in residence.
For students in the Viterbi School of Engineering "3-2" Program, at least 48 units must be earned in courses taken at USC.

Scholarship Requirement in Major Subject
For graduation with a bachelor's degree, a grade point average of C (2.0) or higher is required in all upper division courses applied toward the major including any approved substitutes for these courses taken at USC. Additional scholarship requirements for the various majors are listed under the departmental headings.

Grade Point Requirement
A grade point average of at least 2.0 is required on all course work attempted at USC.
Transfer students must meet these averages, both on residence work attempted and on combined transferred and residence courses attempted.

Probation/Disqualification
A student whose overall GPA falls below 2.0 is placed on academic probation. Continued enrollment requires clearance from an academic review counselor.
Each semester, students on academic probation are required to receive academic advisement. Proof of advisement must be filed with the Academic Review Department before any registration requests will be processed. The only acceptable proof of advisement is an official academic review advisement record signed by the student's academic adviser and a representative from the Viterbi Admission and Student Affairs Division. Academic review advisement forms may be obtained from Tutor Hall of Engineering (RTH) 110 or John Hubbard Hall 113.
Students on probation are encouraged to utilize the academic services (advisement and free tutoring) provided by the Viterbi Admission and Student Affairs Division.
Students on academic probation who do not raise their overall GPA to 2.0 after two semesters of enrollment (excluding summers) will be academically disqualified from the university. However, if a student earns a minimum semester GPA of 2.3 in the second or any subsequent probation semester but has not yet reached an overall 2.0 GPA, the student will not be disqualified and will be allowed to enroll an additional semester.
Petitions for readmission after academic disqualification are initiated by the student through the Academic Review Department. All grade issues (IN, MG, etc.) must be resolved prior to the submission of such a petition. Before petitioning for readmission, a student must complete a minimum of 12 semester units of transferable course work (applicable to USC degree requirements) with a minimum 3.0 GPA. University residency requirements will determine whether these units are accepted as transfer credit.
As readmission to the university is never guaranteed, any indication of strong academic performance beyond the 12 unit minimum would strengthen a readmission petition.
Students must petition for readmission by December 30 for the spring semester, by May 1 for the summer session and by August 15 for the fall semester. Late petitions will not be accepted. A non-refundable fee determined by the Academic Review Office must accompany all readmission petitions.

Special Educational Opportunities
Viterbi Admission and Student Affairs Division
The Viterbi Admission and Student Affairs Division, located in Ronald Tutor Hall of Engineering (RTH) 110, begins to assist students as soon as they express an interest in engineering and continues working with them until, and in some cases after, they graduate.
The office is not only responsible for working with prospective students, but also with continuing students as well. It directs special services and programs, provides a variety of support services, sponsors student organizations, is involved with student government and acts as a liaison with other university offices.
The Viterbi Admission and Student Affairs Division enables engineering students to have maximize their potential at USC.

Center for Engineering Diversity and Women in Engineering Program (WIE)
The Center for Engineering Diversity (CED) provides a variety of services for historically underrepresented students in engineering (African-American, Hispanic and Native American students, including women).
Contact the Center for Engineering Diversity at (213) 740-1999 for more information.
The Women in Engineering Program (WIE) offers professional, academic and co-curricular support to the women of the Viterbi School. The goal of the Viterbi Women in Engineering Program is to recognize the unique challenges that female engineering students will face, provide resources and overall support to address these challenges, and allow our female students to find academic and personal success during their Viterbi career and beyond.

Klein Institute for Undergraduate Engineering Life
The Klein Institute for Undergraduate Engineering Life (KIUEL) was established to provide Viterbi undergraduates with a variety of personal and professional activities designed to enhance undergraduate engineering student life experiences outside the classroom. The KIUEL Programming Board implements programs around leadership, service learning and globalization, and cross-disciplinary learning. Past KIUEL events have included the KIUEL Weekend for Leaders, the KIUEL Showcase and the Senior Design Expo. For more information, visit viterbi.usc.edu/kiuel.

Viterbi Fellows Program
Every year, a select group of promising incoming freshmen are invited by faculty to work on projects in their research laboratories as part of the Viterbi Fellows Program. These student researchers actively participate in the development of new technology throughout their undergraduate careers. Students invited to this program also have a variety of special program opportunities available to them.
In addition to giving students excellent first-hand experience, this program can help offset the cost of education since each participant earns wages for his or her work. This renewable award is separate from other financial assistance offered by the university.
The student must apply for renewal of his or her award by March 1 of each year. Continuing students can use the same application form to apply for the award starting in their sophomore year.

Grand Challenges Scholars Program
The Viterbi School encourages students to pursue their academic and co-curricular involvement keeping the "Grand Challenges" in mind. The USC Viterbi Grand Challenges Scholar Program (GCSP) helps students organize their time spent focused on exploring results that benefit society.
Each year, the top 25 students who successfully complete the USC Viterbi GCSP areas will be named National Academy of Engineering Grand Challenges Scholars, recognized both by USC at graduation and the National Academy of Engineering.
Students interested in being designated as Grand Challenge Scholars should demonstrate involvement related to a specific Grand Challenge topic in each of the five areas below. Successful students must carry their involvement related to the challenge across five dimensions:
• Hands-on Project or Research Experience
• Interdisciplinary Curriculum
• Entrepreneurship
• Global Dimension
• Service Learning
For more information, contact the Viterbi Admission and Student Affairs Division office in RTH 110.
First Year Excellence

The First Year Excellence (FYE) program helps first-year students develop strong connections to the university and the Viterbi School of Engineering. FYE promotes academic exploration and success through its co-curricular programs, support services and resources during students' first year. Freshman academies, introductory courses and the Alumni Spotlight Series help guide students as they explore engineering. Academic advisers work with all freshman students to ensure they are on track academically and to assist with acclimating to college life and USC. Free tutoring, group-led supplemental instruction sessions, workshops and seminars on time management and networking with faculty are available to students to assist them in achieving their goals.

Viterbi Student Engagement and Career Connections

The Viterbi School of Engineering provides extensive career services to all students. Our philosophy is that the more frequently students engage in co-curricular activities combined with their academic programs, the more successfully they can compete in the job market. Students are encouraged to register with Viterbi Student Engagement and Career Connections during their first year at USC via the Viterbi Gateway portal. By doing so, they will be kept informed of all career-related events such as company information sessions, career preparation workshops, industry luncheons and career fairs. In addition, students are able to participate in the school's extensive on-campus interview program.

USC's Viterbi School of Engineering attracts employers not only from Southern California, but from across the country. A few of the many companies that have recently hired Co-ops, interns and permanent employees from the Viterbi school include:Accenture, Amgen, Alcon Laboratories, Inc., The Boeing Company, Chevron Corporation, Cisco Systems, Inc., Clark Construction, Deloitte Financial Advisory Services, Google, IBM, Intel, Jet Propulsion Laboratory, Kiewit Corporation, Lockheed Martin Corporation, Microsoft Corporation, NBC Universal, NASA, Northrop Grumman Corporation, Parsons Corporation, SpaceX, Tesla, Turner Construction Company, Walt Disney Imagineering and Yahoo.

Cooperative Education

By participating in the Co-op Program, students can earn degree credit and industry work experience before they graduate. Co-op improves students' understanding of the relationship between theory and practice, helps them fine-tune their career goals and aids in the acquisition of important engineering skills. Students' work assignments are closely related to their specific degree program and are appropriate to their current academic level.

Participation in the program is open to all full-time undergraduate engineering majors. Students are eligible to apply for Co-op the second semester of their sophomore year. Though the sequence may vary, students typically have one summer work experience in addition to one semester immediately preceding or following one of the summer sessions. While on assignment, students enroll in a 1–2 unit course (ENGR 395a, ENGR 395b, ENGR 395c, ENGR 395d) that aids in the integration of both on-campus and off-campus learning. With departmental approval, credit toward a degree may be earned upon completion of this course.

3-2 Program

For those students wishing greater depth and breadth in the liberal arts, the Viterbi School of Engineering has developed agreements with more than 20 liberal arts colleges nationwide in which a student attends a liberal arts institution for his or her first three years of college, pursuing pre-engineering courses in addition to a solid program in the liberal arts. At the end of the three years, upon recommendation from the liberal arts college, the student applies to the Viterbi School of Engineering as a junior and, if admitted, completes the remaining requirements for a BS degree typically within two years. After degree requirements for both schools are complete, the student will receive two degrees — a BA from the liberal arts college and a BS from USC.

Engineering Overseas Programs

Every summer the Viterbi School of Engineering sponsors a seven-week academic program in either Florence, London, Paris, Madrid, Rome or another location that provides students with the opportunity to enroll in engineering and humanities courses. This program is open to all engineering majors.

International Exchange Programs

The Viterbi School of Engineering International Exchange Program gives undergraduate students the opportunity to broaden their exposure to the global context of engineering theory and practice by spending a semester abroad in a challenging academic environment at an international host institution. The International Exchange Program allows students to satisfy technical electives and/or approved degree requirements by attending approved partner institutions. This program is open to students entering their junior or senior year. Students apply at the Viterbi Student Affairs Office. Candidates must meet all admission requirements of both the Viterbi School of Engineering as well as those of the international host institution. Contact the Admission and Student Affairs Office for a complete list of international exchange partners.

Honor Societies

The Viterbi School of Engineering has established a variety of honor societies to recognize academic excellence, creativity and service. These are: Alpha Pi Mu (industrial and systems engineering), Chi Epsilon (civil engineering), Eta Kappa Nu (electrical engineering), Omega Chi Epsilon (chemical engineering), Omega Rho (industrial and systems engineering), Pi Tau Sigma (mechanical engineering), Sigma Gamma Tau (aerospace engineering), Tau Beta Pi (nationwide honor society) and Upsilon Pi Epsilon (computer science).

Graduate Degrees and Requirements

General Requirements

The Viterbi School of Engineering recommends candidates for the Master of Science degree in: aerospace engineering, analytics, astronautical engineering, biomedical engineering, chemical engineering, civil engineering, computer engineering, computer science, cyber security engineering, data informatics, electrical engineering, engineering management, environmental engineering, financial engineering, green technologies, health systems management engineering, industrial and systems engineering, manufacturing engineering, materials engineering, materials science, mechanical engineering, medical device and diagnostic engineering, operations research engineering, petroleum engineering, product development engineering, spatial informatics, and systems architecture and engineering; and the Master's degree in construction management. Several areas of emphasis and specialization are available within these disciplines.

All graduate work in the Viterbi School of Engineering is under the jurisdiction of the Viterbi School except the Doctor of Philosophy degree, which is under the jurisdiction of the USC Graduate School. All prospective graduate engineering students should apply to the USC Office of Graduate Admission.

Admission

Two classes of students are admitted to take courses for graduate credit: admitted and conditionally admitted students. These classifications are determined by the Office of Graduate Admission on the recommendations of the appropriate department in the Viterbi School of Engineering.

Admitted Students

This is the status of a graduate student pursuing work leading toward an advanced degree. The student has been accepted into the degree program without any conditions.

Conditionally Admitted

The chair of a major department in the Viterbi School of
Engineering may recommend that a student be admitted under certain conditions. Conditional admission is granted when a student's admission records are incomplete or when deficiency courses must be taken but the student appears to be otherwise admissible. The conditions must be met before the completion of two semesters of enrollment or 12 units of course work, whichever comes first. If the conditions on admission are not met within the given time period, the student may not be allowed to register for course work in subsequent semesters. When the conditions have been met, the academic department will remove the restrictions that have been placed on the student's registration.

Criteria
To qualify for admission, applicants are expected to present strong academic records and show superior accomplishment in their engineering and related courses. Admission decisions will be based on Graduate Record Examinations test scores and transcripts of previous school work. Individual departments may set higher admission standards than the Graduate School. Some programs also require letters of recommendation and a statement of purpose. Doctor of Philosophy applicants who have published professional papers in their field may forward copies to the department, and they will be considered together with the other credentials submitted.

Procedure
Applicants to graduate programs must present credentials to the Office of Graduate Admission showing that they have completed an acceptable curriculum for the bachelor's degree. In some departmental students with outstanding records will be admitted for the doctoral program without first receiving the Master of Science degree. If the previous degree is not in the field in which the student wishes to pursue graduate study, it may be necessary to make up undergraduate deficiencies in the area of the desired specialty. Applicants must take the Graduate Record Examinations. Satisfactory scores on the general test are required for admission to full graduate standing in most programs. Consult the department office for further information.

Once the application for admission has been sent, arrangements should be made immediately to have official transcripts of all previous undergraduate and graduate school work forwarded directly to the Office of Graduate Admission from the schools attended. If the Graduate Record Examinations general and subject tests, as well as the TOEFL or IELTS exams, have been taken the scores should be sent to the Office of Graduate Admission by the educational testing service. If the tests have not been taken, the applicant should register to take them on the earliest available date. The departments will review the application files and select for admission those students offering the greatest promise for completing graduate studies.

Progressive Degree Programs
The progressive degree program allows qualified undergraduate students the opportunity to complete an integrated program of study joining a bachelor's degree program and a master's degree program in the same or different departments. Applicants for a progressive degree program must have completed 64 units of course work applicable to their undergraduate degree since graduating from high school. (Credit by exam and course work taken prior to high school graduation are excluded). Applicants must submit their application prior to completion of 96 units of course work. Normally, the application is submitted in the fall semester of the third year of enrollment at USC. The application for admission to a progressive master's program must be accompanied by a departmentally approved course plan proposal and two letters of recommendation. All application materials can be obtained from the Viterbi Admission and Student Affairs Office (RTH 110, viterbi.usc.edu/pdp).

Progressive degree program students must fulfill all the requirements for both the bachelor's degree and the master's degree. The total number of units for the master's degree, however, may be reduced by a maximum of one-third. A minimum of two-thirds of the units required for the master's degree must be at or above the 500 level, excluding any 590 courses. Students will be subject to undergraduate academic progress standards and policies while in undergraduate status and master's academic progress standards and policies in graduate status. The degrees may be awarded separately, but the master's degree will not be awarded before the undergraduate degree. The time limit for completing a progressive degree program is 12 semesters. For more information, refer to the Requirements for Graduation page.

General Requirements for the Master of Science

Residence Requirements
Viterbi students are allowed up to five years to earn a master's degree. Depending on the specific degree, the typical time required varies from between one and one-half to two years for students in MS programs on campus to three years for MS students completing their degrees online via DEN@Viterbi. Master's degrees other than the Master of Science typically require more course work, and may take more time to complete.

Students entering the Viterbi School of Engineering with course or credit deficiencies require a correspondingly longer period. A candidate must complete the last four semester units of course work at USC. No more than 25 percent of the minimum units required for the program will be accepted from another engineering school upon verification by the Office of Degree Progress and the approval of the major department.

Prerequisites
Prerequisite is a bachelor's degree in engineering, allied fields or science. If the graduate field is different from the field of the bachelor's degree, there may be undergraduate deficiencies assigned by the major department, and these must be made up by taking and passing the assigned courses before proceeding with the graduate courses.

Deficiency Courses
New students may be required to demonstrate satisfactory preparation for the graduate program with previously completed course work. In cases where preparation is not demonstrated, up to 9 units of deficiency course work may be required in addition to the normal degree requirements.

Credit for required deficiency courses may not be applied toward a graduate degree. A deficiency course within the same discipline taken after the higher level course has been passed will not be available for unit or grade point credit.

Placement Examinations
Enrollment in certain 500- and 600-level courses in the disciplines of computer engineering and electrical engineering will require a student to either take and pass the corresponding 400-level prerequisite at USC, or pass a placement exam in the corresponding course.

Not all 400-level prerequisite courses taken instead of a placement exam are available for degree credit. No unit or grade point credit is given for placement exams. Please consult with an academic adviser or refer to the department Website for information on specific courses and placement exam details.

Grade Point Average Requirements
A grade point average (GPA) of 3.0 (A = 4.0) is required for the master's degree in all engineering programs. The minimum GPA must be earned on all course work applied toward the master's degree and on all 400-level and above course work attempted at USC beyond the bachelor's degree. A minimum grade of C (2.0) is required in a course to receive graduate credit. Work graded C- or below is not acceptable for subject or unit credit toward any graduate degree. Transfer units count as credit (CR) toward the master's degree and are not computed in the grade point average.

Course Selection
There are two program options for the master's degree, one with a thesis and the other without. Courses are selected to fit the special needs of individual students, must form an integrated program leading to a definite objective and must be approved in advance by the department. Only courses numbered 400 and above may be applied for degree credit.

Program without Thesis
The minimum requirement is 27 units; 18 of these units must be at the 500 level and at least 18 units must be in the major department.
and closely related departments. Prior department approval is required for all non-major courses. Specific requirements are listed under each department.

**Program with Thesis**

The minimum requirement is 27 units; 4 of these units are to be thesis. At least 16 units, not including thesis, must be at the 500 level or higher, and at least 18 units must be in the major department. Two units of 594a and 2 units of 594b are required. No more than 4 units of 590 Directed Research is permitted.

**Master’s Thesis**

The thesis, when it is required, is regarded as an important part of the work of the candidate for a master's degree. It is not intended to be a piece of highly recondite research, but it must be a serious, considerable and publishable piece of work demonstrating the writer's power of original thought, thorough grasp of the subject matter and ability to present material in a scholarly manner and style. The thesis presents the results of an investigation of an approved subject in the major department. It is supervised throughout by a thesis committee, appointed by the chair of the student's major department. The committee is usually composed of two members of the major department and one other member of the faculty. The student will register in courses 594a and b respectively during the final two semesters of the master's program as determined by discussion with an adviser. (Concurrent registration for 594a and b during the same semester is permitted when a student's progress makes completion of all requirements likely within one semester.) If the thesis has not been completed within these two semesters, the candidate must register for 594e each semester until the thesis has been accepted but no additional unit credit will be earned. Units of 594ab Master's Thesis may not be converted to units of 590 Directed Research.

A student readmitted to candidacy by petition to the Graduate School must reregister for 594a and 594b. Final acceptance of the thesis is based upon the recommendation of all members of the thesis committee. For requirements concerning format of master's thesis see The Graduate School section of this catalogue.

Candidates who find it necessary to be excused from registration in 594a or 594b for a semester must formally report before the beginning of the semester to the Viterbi Office of Graduate and Professional Programs that they will be inactive during that semester and request a leave of absence. During a leave of absence a candidate will not be entitled to assistance from the thesis committee or to the use of university facilities. The granting of a leave of absence does not change the candidate's responsibility for meeting the time schedule for the completion of degree requirements. Leave will be granted only under exceptional circumstances.

**Progress Toward the Degree**

Graduate students are expected to make regular progress toward their degrees as defined by the faculty of their respective departments and within the time limits allowed. Graduate students' progress and performance are reviewed each semester. Students making unsatisfactory progress receive a formal written warning and are placed on a semester of academic warning with specific conditions to be met for continuation in the program. Please refer to catalogue sections Academic Warning and Dismissal of Graduate Students; Grade Point Average Requirements; and the Website of the Office of Graduate and Professional Programs (GAPP) at viterbi.usc.edu/gapp.

**Department Approval for Non-major Courses**

Prior departmental approval is required for non-major courses to be taken and applied toward a graduate degree. Students must consult with the faculty adviser for formal written permission to take courses outside the major department for degree credit. A copy of the faculty adviser's written approval must be kept in the department file and retained by the student until graduation.

**Time Limit**

It is expected that work for a Master of Science in Engineering will be completed within a maximum of five calendar years. An academic department may grant an extension of up to one year at a time for a maximum of two years. Courses taken more than seven years prior to the date upon which the degree is to be awarded cannot be included for the degree.

**Admission to Candidacy**

Application for admission to candidacy for the Master of Science is a separate step from admission to graduate standing. The requirements for admission to candidacy are: (1) the applicant must be admitted to regular graduate standing and must have removed all undergraduate deficiencies, and (2) the applicant must submit a complete program approved by the major department showing the course work, research and thesis (if required).

Application for graduation should be made at the beginning of the semester in which the requirements for the master's degree are to be completed. Students are strongly advised to file for graduation as soon as the registration process has been completed so that their names may appear in the printed Commencement program and so that any discrepancies in their records may be resolved. Late filing may delay conferral of the degree.

Application forms for graduation with the master's degree may be obtained from the student's academic department. This application should be returned to the student's academic department. Changes in the program after admission to candidacy are made by petition to the student's academic department.

**Second Master's Degree**

A graduate student who already holds a master's degree from USC may apply a limited number of previously earned units toward the second master's degree.

The maximum number of units allowed for transfer is: 4 units in degree programs requiring 24–32 units; 8 units in programs requiring 33–40 units; 12 units in programs requiring 41 or more units. In all cases, permission of the chair of the major department is required. All credit, including the units from the first master's degree, must be earned within seven calendar years.

For students who earned their first master's degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master's degree.

**General Requirements for the Master of Engineering Degree**

The Viterbi School does not currently offer degree programs with the Master of Engineering designation.

**General Requirements for the Engineer Degree**

The Engineer degree is awarded under the jurisdiction of the Viterbi School of Engineering. This degree is granted upon completion of a comprehensive curriculum beyond the general course requirements for the Master of Science and after successfully passing an engineer's qualifying examination. The required curriculum is intended to give students broad preparation in two areas of engineering, together with a minimum number of units in these areas to prepare them for the interdisciplinary nature of the many complex problems they will encounter in practice today. The degree is also intended to fulfill a growing need in industry for students with comprehensive advanced engineering training, but not necessarily with the research orientation developed by the PhD student.

The Engineer degree is a terminal degree. Students who complete the Engineer degree will not be considered for admission to the PhD program.

The Engineer degree is offered in aerospace engineering, astronautical engineering, chemical engineering, civil engineering, electrical engineering, environmental engineering, industrial and systems engineering, materials science, mechanical engineering and petroleum engineering.

**Prerequisites**

There are three basic prerequisites for the Engineer Degree Program: a Master of Science degree or completion of 27 units of acceptable course work, application for admission to the Viterbi School of Engineering and acceptance to the program by the appropriate department.
Course Requirements
The Engineer degree requires a minimum of 30 units of graduate course work beyond the Master of Science degree; up to 6 units at the 400 level may be counted at the discretion of the student's qualifying exam committee if the committee finds them necessary for the student's program. The course work must form a balanced program of study leading to a definite concentration in two fields of engineering, a minimum of 12 units in one field, nine in another; nine units are elective and may be taken outside the Viterbi School of Engineering, but must be acceptable for graduate credit. The distribution of course work will be governed by the student's qualifying exam committee and should be considered in conjunction with the course work done for the Master of Science degree. A candidate for the Engineer degree may substitute a project under the supervision of a faculty member for 6 units of course work.

To have the project credited toward the degree, the student must register in 690 Directed Research during the course of the project; total 690 Directed Research registration should not exceed 6 units. A student wishing to work on a project must make arrangements with a member of the faculty to supervise and evaluate work, and obtain the approval of the committee chair prior to completing more than 15 units of course work. In many cases the project may be related to the candidate's work outside the university but must still be supervised by a faculty member. Distribution of the course work should take into account the nature of the project.

Grade Point Average Requirement
A minimum grade point average of 3.0 must be earned on all course work applied toward the Engineer degree. This average must also be achieved on all 400-level and above course work attempted at USC beyond the bachelor's degree. A minimum grade of C (2.0) is required in a course to receive graduate credit. Work graded C- or below is not acceptable for subject or unit credit toward any graduate degree. Transfer units count as credit (CR) toward the Engineer degree and are not computed in the grade point average.

Residence Requirements
A candidate must complete the last four units of course work at USC. At least 26 units must be taken in residency at USC. A maximum of four transfer units not counted toward a previous degree may be allowed with adviser approval.

Guidance Committee
After being granted graduate standing the student must form a guidance committee. The committee is made up of three full-time faculty members who are specialists in the student's areas of concentration, with at least two from the major department. Forms for appointment of the committee are available from the student's academic department. The student is responsible for finding a faculty member from one area of concentration who will act as the chair of the guidance committee. The chair will assist in selection of the other members. Advisement of the student after formation of the committee will be by the committee chair.

Qualifying Examination
The student must satisfactorily complete an engineer's qualifying examination administered by his or her guidance committee. This examination will cover both areas of concentration and will consist of at least one written and one oral examination. This examination is normally taken during the last semester of course work toward the degree. Students who choose to take the examination in the semester following the completion of course requirements may do so up until the end of the third week of classes without registering. After that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported that date they must register for GRSC 810 to maintain continuous enrollment in the program. Results of the examination are reported.

Reserving Course Credit
A student who receives the Master of Science degree at USC may reserve a limited number of units taken prior to the receipt of the Master of Science degree for credit toward the Engineer degree. To reserve credit, the course must have been taken during the last semester as a Master of Science candidate, not used toward the Master of Science degree, be acceptable to the student's committee, and approved by the Office of Degree Progress.

Time Limit
The student must complete all requirements within five calendar years.

Admission to Candidacy
After satisfactorily completing the qualifying examination, and no later than the beginning of the last semester of course work, the student must file for candidacy. This is a separate and distinct step which sets forth the entire academic program fulfilling the degree requirements and is used as a working basis for awarding the degree.

General Requirements for the Doctor of Philosophy
This degree is granted under the jurisdiction of the USC Graduate School. Students should also refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Thirteen Doctor of Philosophy (PhD) programs are offered: aerospace engineering, astronomical engineering, biomedical engineering, chemical engineering, civil engineering, computer engineering, computer science, electrical engineering, engineering (environmental engineering), industrial and systems engineering, materials science, mechanical engineering and petroleum engineering.

Deficiency Courses
New students may be required to demonstrate satisfactory preparation for the graduate program with previously completed course work. In cases where preparation is not demonstrated, up to 9 units of deficiency course work may be required in addition to the normal degree requirements.

Credit for required deficiency courses may not be applied toward a graduate degree. A deficiency course within the same discipline taken after the higher level course has been passed will not be available for unit or grade point credit.

Placement Examinations
Enrollment in certain 500- and 600-level courses in the disciplines of computer engineering and electrical engineering will require a student to either take and pass the corresponding 400-level prerequisite at USC, or pass a placement exam in the corresponding course.

Not all 400-level prerequisite courses taken instead of a placement exam are available for degree credit. No unit or grade point credit is given for placement exams. Please consult with an academic adviser or refer to the department Website for information on specific courses and placement exam details.

Foreign Language Requirements
There is no foreign language requirement for engineering majors.

Course Requirements
Satisfactory completion of at least 60 units of approved graduate level course work with a cumulative grade point average of at least 3.0 is required of all PhD students in engineering. A minimum grade of C (2.0) is required in a course to receive graduate credit. Work graded C- or below is not acceptable for subject or unit credit toward any graduate degree. Undergraduate prerequisites and graduate course work will be required in accordance with the regulations of the major department or program and the recommendations of the student's qualifying exam committee. Transfer units are subject to approval by the Office of Degree Progress (for course work taken at institutions in the United States) or by the Office of Graduate Admission (for course work taken at institutions outside the United States) and by the qualifying exam committee.

Screening Procedure
The original admission decision admitting a student to the PhD
program is based on the student's previous academic records, Graduate Record Examinations scores and other evidence of scholastic abilities indicating promise for completing graduate studies. It is also a prerequisite that all PhD students successfully complete the screening procedures designated by the department. These usually consist of a written and an oral examination administered by the faculty. Students who fail the screening procedure will be advised that they are not recommended to continue in the PhD program and that any additional work may not be counted toward the degree.

**Qualifying Exam Committee**

The PhD student's program of study is supervised by the qualifying exam committee, which is formed immediately after passing the screening examination. The committee consists of five tenure-track faculty members, four from the major department and one from outside the department. Reporting the screening procedures and forming the qualifying exam committee are accomplished by filing the appropriate forms obtainable from the Graduate School Website, usc.edu/schools/GraduateSchool.

**Qualifying Examinations**

The qualifying examinations are taken during the last semester of the second year of graduate study or, at the latest, in the fifth semester or equivalent. The Request to take the Qualifying Examinations must be filed in the semester prior to taking the examinations and at least 30 days before beginning the examinations. The examinations are intended to determine the extent of the student's knowledge in basic science and engineering areas as well as the ability to do original and scholarly research. The qualifying exam committee decides the nature of the qualifying examinations (both oral and written portions) according to the policies applicable in each department.

If not otherwise enrolled, a student must enroll in GRSC 800 during the semester in which the qualifying examination is to be taken. Students are strongly encouraged to take the qualifying examination during the first semester in which they are enrolled in GRSC 800, and may not enroll in more than two semesters of GRSC 800 before taking the qualifying examination.

The examinations may be scheduled at any time during the semester provided that all members of the committee are available to administer them. All portions of the examinations must be completed within 60 days. After passing the qualifying examinations the PhD student is admitted to candidacy by the Graduate School and the dissertation committee is established. After this step students will normally engage in at least one year of fulltime graduate study and research on campus.

**Doctoral Dissertation**

An acceptable dissertation based on original investigation and supervised directly by the dissertation committee is required. The dissertation must show mastery of a special field, capacity for independent research and a scholarly result. Candidates are expected to keep all members of the dissertation committee informed of their progress at all stages of the dissertation.

**Defense of the Dissertation**

After satisfactorily meeting all other requirements and after the research and writing of the dissertation are substantially complete, the PhD candidate must pass a general final oral examination devoted to the major field and to the topic of the dissertation. The examination will be conducted in such a manner as to determine to the satisfaction of the dissertation committee that the candidate has attained the stage of scholarly advancement and power of investigation demanded by the university for final recommendation to the doctorate. The faculty are invited to attend and to participate in the final oral examination. However, only the dissertation committee may vote. Unanimous approval of the committee is required for the student to upload the dissertation to the Graduate School.

**Departmental Requirements**

The requirements and regulations set forth in this portion of the catalogue are to be construed as the minimal requirements only as established by the Graduate School. In addition, students must meet all the requirements established by their department.

**Progress Toward the Degree**

Graduate students are expected to make regular progress toward their degrees as defined by the faculty of their respective departments and within the time limits allowed. Graduate students' progress and performance are reviewed each semester. Students making unsatisfactory progress receive a formal written warning and are placed on a semester of academic warning with specific conditions to be met for continuation in the program. Please refer to catalogue sections Academic Warning and Dismissal of Graduate Students; Grade Point Average Requirements; and the Website of the Office of Graduate and Professional Programs (GAPP) at viterbi.usc.edu/gapp.

**Special Educational Opportunities**

**DEN@Viterbi**

Established in 1972, DEN@Viterbi, the USC Viterbi School of Engineering's online delivery system is a pioneer in the distance learning arena, using cutting-edge technology to enable professional engineers to take USC engineering courses for graduate degree credit without coming to the campus. DEN@Viterbi students enrolled around the world are pursuing over 40 graduate degree programs online — more choices than at any other research university. DEN@Viterbi breaks down geographical and scheduling barriers, allowing students to take classes anytime and anywhere, with the option for live interactivity. DEN@Viterbi students receive support from administrative and technical staff, and enjoy access to all services the Viterbi School has to offer.

The Viterbi School has made it possible for all on-campus students enrolled in the school's graduate courses to receive free access to the archived lectures of courses offered via DEN@Viterbi. This valuable study aid enables students to review lectures throughout the semester.

For more information about the Viterbi School graduate programs and DEN@Viterbi, visit viterbi.usc.edu/gapp.

Degree Requirements

Educational Mission
The degree programs of the Department of Aerospace and Mechanical Engineering provide the educational foundation for success in all walks of life whether or not one's career path includes employment as a professional engineer, work in a field outside of engineering, or pursuit of further education.

Undergraduate Program Educational Objectives
Graduates of the undergraduate programs in Aerospace and Mechanical Engineering are expected to attain the following objectives within a few years after graduation:

• Work as professionals within engineering or a related area in both small- and large-scale businesses;
• Pursue further education through graduate school or professional development courses; and
• Become leaders within their chosen profession whether it be industry, academia or service.

Undergraduate Program Criteria
The program leading to a Bachelor of Science in Aerospace Engineering prepares graduates to have a knowledge of aerodynamics, aerospace materials, structures, propulsion, flight mechanics, and stability and control. The program also prepares graduates to have design competence that includes integration of aeronautical topics.

The program leading to a Bachelor of Science in Mechanical Engineering requires students to apply principles of engineering, basic science and mathematics (including multivariate calculus and differential equations), to model, analyze, design and realize physical systems, components or processes; and prepares students to work professionally in both thermal and mechanical systems areas.

Aerospace Engineering Degrees

Master of Science in Product Development Engineering
See the listing under Product Development Engineering.

Master of Science in Systems Architecting and Engineering
See the listing under Systems Architecting and Engineering Program.

Engineer in Aerospace Engineering
Requirements for the Engineer in Aerospace Engineering are the same as the general requirements. Also, 3 to 6 of the units required for the degree must be AME 690. Prior approval must be obtained from the qualifying exam committee before registration in AME 690.

Doctor of Philosophy in Aerospace Engineering
The Doctor of Philosophy with a major in aerospace engineering is also offered. See general requirements for graduate degrees.

Mechanical Engineering Degrees

The department offers a Bachelor of Science degree in Mechanical Engineering. Additionally, petroleum engineering exists as an emphasis within the mechanical engineering program. An area of emphasis appears in parenthesis after the primary major name on the transcript.

Minor in Music Recording
A minor in music recording is offered through the USC Thornton School of Music to provide undergraduate students with the background necessary to enter the field of recording engineering and to familiarize them with the design needs of modern recording equipment. The minor is recommended to mechanical engineering majors with extensive musical training who would like to combine their technical and musical abilities while learning the engineering applications of physical and mathematical principles to the art of music recording. See the listing under USC Thornton School of Music.
Master of Science in Mechanical Engineering (Energy Conversion)

See Sustainable Infrastructure Systems Program.

Master of Science in Aerospace and Mechanical Engineering (Computational Fluid and Solid Mechanics)

Engineer in Mechanical Engineering

Requirements for the Engineer in Mechanical Engineering degree are the same as set forth in the general requirements. Six of the units required for the degree must be AME 690. Prior approval must be obtained from the committee before registration in AME 690.

Doctor of Philosophy in Mechanical Engineering

The Doctor of Philosophy in Mechanical Engineering is also offered. See general requirements for graduate degrees.

Bachelor's Degree

Aerospace Engineering (BS)

The requirement for this degree is 128-129 units. A cumulative grade point average of C (2.0) is required in all upper division courses applied toward the major, regardless of the department in which the courses are taken. See the common requirements for undergraduate degrees section.

Composition/Writing Requirement

Note:
* Technical Electives must be upper-division engineering, MATH, PHYS or CHEM classes.

**Total units: 128**

**Mechanical Engineering, Petroleum Engineering (BS)**
The requirement for the degree with an emphasis in petroleum engineering is 128 units. A cumulative GPA of 2.0 or higher is required for all upper division course work in engineering, science and mathematics. See the common requirements for undergraduate degrees section.

**Composition/Writing Requirement**
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4 (3 Units Required)

**General Education**
- General Education Units: 24

**Pre-Major Requirements**

**Math Requirement**
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4 or
- MATH 127 Enhanced Calculus II Units: 4 or
- MATH 129 Calculus II for Engineers and Scientists Units: 4 *
- MATH 226 Calculus III Units: 4
or
- MATH 227 Enhanced Calculus III Units: 4
or
- MATH 229 Calculus III for Engineers and Scientists Units: 4 *
- MATH 245 Mathematics of Physics and Engineering I Units: 4 *
  * The AME Department recommends that AME students complete the 129/229 sequence.

**Physics Requirement**
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
  or
- PHYS 161Lg Advanced Principles of Physics I Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
  or
- PHYS 162L Advanced Principles of Physics II Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4
  or
- PHYS 163L Advanced Principles of Physics III Units: 4

**Chemistry Elective**
- CHEM 105aLg General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4 or
- MASC 110L Materials Science Units: 4

**Major Requirements**

**Aerospace and Mechanical Engineering**
- AME 101L Introduction to Mechanical Engineering and Graphics Units: 3

- AME 201 Statics Units: 3
- AME 204 Strength of Materials Units: 3
- AME 301 Dynamics Units: 3
- AME 302 Dynamic Systems Units: 3
- AME 308 Computer-Aided Analyses for Aero-Mechanical Design Units: 3
- AME 309 Dynamics of Fluids Units: 3
- AME 310 Engineering Thermodynamics I Units: 3
- AME 331 Heat Transfer Units: 3
- AME 341aL Mechatronics Laboratory I and II Units: 3
- AME 341bL Mechatronics Laboratory I and II Units: 3
- AME 441aL Senior Projects Laboratory Units: 3

**Materials Science**
- MASC 310 Materials Behavior and Processing Units: 3

**Information Technology Program**
- ITP 168 Introduction to MATLAB Units: 2

**Petroleum Engineering Emphasis**
- AME 408 Computer-Aided Design of Mechanical Systems Units: 3
- AME 409 Senior Design Project Units: 4
- PTE 461 Formation Evaluation Units: 3
- PTE 463L Introduction to Transport Processes in Porous Media Units: 3
- PTE 464L Petroleum Reservoir Engineering Units: 3
- PTE 465L Drilling Technology and Subsurface Methods Units: 3

**Technical Electives (4 units)**
Technical electives must be upper-division engineering, MATH, PHYS or CHEM classes.

**Free Electives**
Free Electives Units: 1

**Total units: 128**

**Master's Degree**

**Aerospace and Mechanical Engineering (Computational Fluid and Solid Mechanics) (MS)**
The program prepares students for professional careers in engineering companies that develop products using computational tools of fluid and solid mechanics. The program also provides the necessary background for pursuing higher degrees, Engineer and PhD, in aerospace and mechanical engineering with specializations in computational fluid mechanics, computational solid mechanics and computational heat transfer. The degree course work provides a necessary background in basic aerospace and mechanical engineering disciplines (solid mechanics, fluid mechanics, heat transfer), engineering mathematics and numerical methods. The advanced computational technical electives provide practical examples using existing numerical programs to simulate structures, heat transfer and fluid flows as well as commercial mathematical packages for analyzing data and simulations.

Admission requirements follow the general admission rules for aerospace and mechanical engineering graduate programs. The program requires completion of a minimum of 27 units and a cumulative GPA of at least 3.0 for graduation. The program with thesis requires 28 units, four of which are thesis units.

**Required Core Courses (21 Units)**
- AME 404 Computational Solutions to Engineering Problems Units: 3
- AME 509 Applied Elasticity Units: 3 or
- CE 507 Mechanics of Solids I Units: 3
- AME 525 Engineering Analysis Units: 3
- AME 526 Engineering Analytical Methods Units: 3
- AME 530a Dynamics of Incompressible Fluids Units: 3
Computational Technical Elective (3 Units)
Select a computational technical elective from the following list or another approved by a graduate adviser: 3 units.
- AME 535a Introduction to Computational Fluid Mechanics Units: 3
- CE 529a Finite Element Analysis Units: 3

Aerospace Engineering/Engineering Management (MS)
The department of Aerospace and Mechanical Engineering in conjunction with the Daniel J. Epstein Department of Industrial and Systems Engineering offers programs leading to the degree of Master of Science in Aerospace Engineering/Master of Science in Engineering Management. This program is designed for graduate aerospace engineers whose career objectives lead to increasing technical management responsibilities.

In addition to the general requirements of the Viterbi School of Engineering, the dual degree of Master of Science in Aerospace Engineering/Master of Science in Engineering Management is also subject to the following requirements:
1. All applicants must meet the admission requirements of both the Department of Aerospace and Mechanical Engineering and the Department of Industrial and Systems Engineering;
2. A minimum of 48 units is required;
3. A minimum of 18 units must be graduate-level course work in AME, approved by an AME graduate student adviser;
4. A minimum of 18 units must be graduate level course work in ISE, approved by the ISE Engineering Management graduate student adviser and chosen from the course list under Master of Science in Engineering Management;
5. A minimum additional 12 units of acceptable course work must be chosen with the consent of the ISE Engineering Management graduate student adviser to form a coherent program.

Mechanical Engineering (MS)
Requirements for the Master of Science in mechanical engineering are the same as set forth in the general requirements. Six of the required units must be in AME 525 and AME 526 or courses in engineering analysis approved in advance in writing by the Department of Mechanical Engineering.

The specific sequence of courses that constitutes an acceptable program must be approved in advance.
Requirements for Graduation Without Thesis, 27 units total with
- 3.0 GPA: AME 525 and AME 526 or approved mathematics (6); 500 level courses in major department (12), approved 400 or 500 level courses (9).

With Thesis, 27 units total with
- 3.0 GPA: AME 525 and AME 526 or approved mathematics (6); 500 or 600 level courses in major department (12) not including thesis; maximum AME 594a, AME 594b — thesis (4); approved 400 or 500 level units (5) (a maximum total of 8 units combining AME 590 and AME 594a, AME 594b).

Recommended Programs of Study
The program of study depends upon the student's interest and background. During the first semester at USC, students must consult with a departmental adviser about an area of concentration and draw up a plan of study, which must be approved by the adviser.

Besides the common requirements, listed below are several areas in mechanical engineering with specific courses identified as core and core electives. Groups of courses in other combinations and from other departments within the university may be approved if a particular coordinated interest can be demonstrated. In some instances students whose background is not in mechanical engineering may be required to take additional course work.

Common Requirements
Engineering Analysis (6 units):
- AME 525 Engineering Analysis Units: 3
- AME 526 Engineering Analytical Methods Units: 3

Engineering electives (3–6 units):
- Approved 400-, 500- or 600-level courses
Engineering Design

Core courses (9 units):
- AME 503 Advanced Mechanical Design Units: 3
- AME 505 Engineering Information Modeling Units: 3
- AME 509 Applied Elasticity Units: 3

Core electives (6 units):
Two courses from
- AME 404 Computational Solutions to Engineering Problems Units: 3
- AME 527 Elements of Vehicle and Energy Systems Design Units: 3
- AME 541 Linear Control Systems II Units: 3
- ASTE 520 Spacecraft System Design Units: 3
- ASTE 523 Design of Low Cost Space Missions Units: 3
- CE 529a Finite Element Analysis Units: 3
- CE 529b Finite Element Analysis Units: 3
- SAE 549 Systems Architecting Units: 3

Thermal and Fluid Sciences

Core courses (12 units):
Four courses from one of the selected areas:

Combustion:
- AME 436 Energy and Propulsion Units: 3
- AME 513 Principles of Combustion Units: 3
- AME 514 Applications of Combustion and Reacting Flows Units: 3
- AME 539a Dynamics of Incompressible Fluids Units: 3

Fluid Dynamics:
- AME 457 Engineering Fluid Dynamics Units: 3
- AME 511 Compressible Gas Dynamics Units: 3
- AME 530a Dynamics of Incompressible Fluids Units: 3
- AME 535a Introduction to Computational Fluid Mechanics Units: 3

Heat Transfer:
- AME 457 Engineering Fluid Dynamics Units: 3
- AME 515 Advanced Problems in Heat Conduction Units: 3
- AME 516 Convection Processes Units: 3
- AME 517 Radiation Heat Transfer Units: 3

Core electives (6 units):
Take two courses from the following list, not duplicating the above selection:
- AME 436 Energy and Propulsion Units: 3
- AME 457 Engineering Fluid Dynamics Units: 3
- AME 511 Compressible Gas Dynamics Units: 3
- AME 513 Principles of Combustion Units: 3
- AME 514 Applications of Combustion and Reacting Flows Units: 3
- AME 515 Advanced Problems in Heat Conduction Units: 3
- AME 516 Convection Processes Units: 3
- AME 517 Radiation Heat Transfer Units: 3
- AME 530a Dynamics of Incompressible Fluids Units: 3
- AME 533 Multi-Phase Flows Units: 3
- AME 535a Introduction to Computational Fluid Mechanics Units: 3
- AME 535b Introduction to Computational Fluid Mechanics Units: 3
- AME 537 Microfluidics Units: 3

Mechanics and Materials

Core courses (12 units):
- AME 509 Applied Elasticity Units: 3
- AME 559 Creep Units: 3
- AME 560 Fatigue and Fracture Units: 3
- AME 584 Fracture Mechanics and Mechanisms Units: 3

Core elective (3 units):
One of
- AME 542 Theory of Plates Units: 3
- AME 588 Materials Selection Units: 3

- CE 529a Finite Element Analysis Units: 3

Microelectromechanical Systems (MEMS)

Core courses (12 units):
- AME 455 Introduction to MEMS Units: 3
- AME 537 Microfluidics Units: 3
- BME 551 Introduction to Bio-MEMS and Nanotechnology Units: 3
- EE 607 Microelectromechanical Systems Units: 3

Core elective (3 units):
One of
- AME 535a Introduction to Computational Fluid Mechanics Units: 3
- ASTE 501a Computational Fluid Dynamics Units: 3
- ASTE 545 Computational Techniques in Rarefied Gas Dynamics Units: 3

Dynamics and Control

Students interested in this area may follow the M.S., Aerospace and Mechanical Engineering (Dynamics and Control) described below.

Mechanical Engineering (Nuclear Power) (MS)

Note: Applications for this degree are not currently being accepted.

The program offers the degree of Master of Science in mechanical engineering with specialization in nuclear power. It is structured so that students who have all the prerequisites can complete the entire program through distance education. It is intended for students with an undergraduate degree in engineering. However, students with a physics and/or chemistry background can be accommodated with the completion of certain prerequisites.

Fundamental
- AME 525 Engineering Analysis Units: 3
- AME 526 Engineering Analytical Methods Units: 3

Core
- AME 534 Nuclear Thermal-Hydraulics Units: 3
- AME 581 Introduction to Nuclear Engineering Units: 3
- AME 582 Nuclear Reactor Physics Units: 3
- AME 583 Effects of Radiation on Health Units: 3
- CE 571 Nuclear Safety and Security: Human Performance and Safety Culture Units: 3

Electives — Choose 6 Units
- AME 457 Engineering Fluid Dynamics Units: 3
- AME 515 Advanced Problems in Heat Conduction Units: 3
- AME 516 Convection Processes Units: 3
- AME 517 Radiation Heat Transfer Units: 3
- AME 530a Dynamics of Incompressible Fluids Units: 3
- AME 530b Dynamics of Incompressible Fluids Units: 3
- AME 533 Multi-Phase Flows Units: 3
- AME 535a Introduction to Computational Fluid Mechanics Units: 3
- AME 577 Survey of Energy and Power for a Sustainable Future Units: 3
- AME 578 Modern Alternative Energy Conversion Devices Units: 3
- CHE 502 Chemical Engineering Thermodynamics Units: 3
- EE 526 Renewable Energy in Power Systems Units: 3
- ENE 516 Hazardous Waste Management Units: 3

Total units: 27

Mechanical Engineering/Engineering Management (MS)

The department of Aerospace and Mechanical Engineering in conjunction with the Daniel J. Epstein Department of Industrial and Systems Engineering offers programs leading to the degree of Master of Science in Mechanical Engineering/Master of Science in Engineering Management. This program is designed for graduate
mechanical engineers whose career objectives lead to increasing technical management responsibilities.

In addition to the general requirements of the Viterbi School of Engineering, the dual degree of Master of Science in Mechanical Engineering/Master of Science in Engineering Management is also subject to the following requirements:

1. All applicants must meet the admission requirements of both the Department of Aerospace and Mechanical Engineering and the Department of Industrial and Systems Engineering;
2. A minimum of 48 units is required;
3. A minimum of 18 units must be graduate level course work in AME, approved by an AME graduate student adviser;
4. A minimum of 18 units must be graduate level course work in ISE, approved by the ISE Engineering Management graduate student adviser and chosen from the course list under Master of Science in Engineering Management;
5. A minimum additional 12 units of acceptable course work must be chosen with the consent of the ISE Engineering Management graduate student adviser to form a coherent program.

Adjunct Research Assistant Professor: James Humann, PhD
*Recipient of university-wide or school teaching award.
Aerospace Engineering Honor Society: Sigma Gamma Tau

Degree Requirements

Undergraduate Program Educational Objectives
The Bachelor of Science degree program in Astronautical Engineering has the following objectives:
Within a few years of graduation, graduates will:
• Establish themselves as practicing professionals, or undertake advanced study, in astronautical engineering or a related field;
• Demonstrate their ability to perform successfully as members of a team and function effectively as responsible professionals.

Undergraduate Program Criteria
The program leading to a Bachelor of Science in Astronautical Engineering prepares graduates to have knowledge of orbital mechanics, space environment, attitude determination and control, telecommunications, space structures and rocket propulsion. The program also prepares graduates to have design competence that includes integration of astronomical topics.

Engineer in Astronautical Engineering
Requirements for the Engineer degree in Astronautical Engineering are the same as set forth in the general requirements. See the general requirements for Viterbi graduate degrees.
Credit for classes may be applied toward the MS, Engineer or PhD in Astronautical Engineering, should the student decide later to pursue an advanced degree. In order to be admitted to the MS program, the student should maintain a B average or higher in courses subject to the following requirements and satisfy all normal admission requirements. All courses for the certificate must be taken at USC. It is anticipated that other classes on emerging space technologies will be added to the list of the offered classes in the future.

Bachelor's Degree

Astronautical Engineering (BS)
The Bachelor of Science in Astronautical Engineering prepares students for engineering careers in the space industry, for research and development in industry and government centers and laboratories, and for graduate study. The program combines a core in the fundamentals of engineering, specialized work in astronautics and space technology, and technical electives to broaden and/or deepen the course work.

The requirement for this degree is 129 units. A cumulative grade point average of C (2.0) is required in all upper division courses applied toward the major, regardless of the department in which the courses are taken. See also the common requirements for undergraduate degrees section.

Composition/Writing Requirements
• WRIT 130 Analytical Writing Units: 4
• WRIT 340 Advanced Writing Units: 3, 4

Total units: 8

General Education
• General education Units: 24 *+

Required Lower Division Courses
• AME 201 Statics Units: 3
• AME 204 Strength of Materials Units: 3
• ASTE 101 Foundation of Astronautics Units: 4
• CHEM 105 General Chemistry Units: 4
• CHEM 115 Advanced General Chemistry Units: 4
• MATH 125 Calculus I Units: 4
• MATH 126 Calculus II Units: 4
• MATH 226 Calculus III Units: 4
• MATH 245 Mathematics of Physics and Engineering I Units: 4
• PHYS 151 Fundamentals of Physics I: Mechanics Units: 4
• PHYS 152 Fundamentals of Physics II: Electricity and Magnetism Units: 4
• PHYS 153 Fundamentals of Physics III: Optics and Modern Physics Units: 4

Required Upper Division Courses
• AME 301 Dynamics Units: 3
• AME 308 Computer-Aided Analyses for Aero-Mechanical Design Units: 3
• AME 341A Mechatronics Laboratory I and II Units: 3
• AME 341B Mechatronics Laboratory I and II Units: 3
• AME 404 Computational Solutions to Engineering Problems Units: 3
• AME 441A Senior Projects Laboratory Units: 3
**Advanced Area of Astronautics and Space Technology**

Astronautical Engineering (MS)

This program is for USC students who wish to work in the space industry and government space research and development centers and who are pursuing bachelor's degrees in science, mathematics or engineering with specializations other than in astronautical engineering.

The space industry employs a wide variety of engineers (electrical, mechanical, chemical, civil, etc.); scientists (physicists, astronomers, chemists); and mathematicians. These engineers participate in development of advanced space systems but they usually lack the understanding of basic fundamentals of astronautics and space systems. The minor in astronautical engineering will help overcome this deficiency and provide unique opportunities for USC engineering, science and mathematics students, by combining their basic education in their major field with the industry specific minor in astronautical engineering.

Required course work consists of a minimum of 18 units. Including prerequisites, the minor requires 46 units. Three courses, or 9 units, at the 400 level will be counted toward the minor degree. The course work is a balanced program of study providing the basic scientific fundamentals and engineering disciplines critically important for contributing to development of complex space systems.

**Prerequisite courses:**
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

**Required Courses**
- ASTE 280 Foundations of Astronautical Engineering Units: 3
- ASTE 301a Thermal and Statistical Systems Units: 3
- ASTE 330 Introduction to Spacecraft Systems and the Space Environment Units: 3
- ASTE 421x Space Mission Design Units: 3
- ASTE 470 Spacecraft Propulsion Units: 3
- ASTE 480 Spacecraft Dynamics Units: 3

**Total minimum units: 18**

**Master's Degree**

Astronautical Engineering (MS)

This degree is in the highly dynamic and technologically advanced area of astronautics and space technology. The program is designed for those with BS degrees in science and engineering who wish to work in the space sector of the defense/aerospace industry, government research and development centers, and laboratories and academia. The program is available through the USC Distance Education Network (DEN).

The general portion of the Graduate Record Examinations (GRE) and two letters of recommendation are required.

**Core Requirement (12 Units)**
- ASTE 470 Spacecraft Propulsion Units: 3
- ASTE 520 Spacecraft System Design Units: 3
- ASTE 535 Space Environments and Spacecraft Interactions Units: 3
- ASTE 580 Orbital Mechanics I Units: 3
- ASTE 585 Spacecraft Attitude Control Units: 3
- ASTE 572 Advanced Spacecraft Propulsion Units: 3
- ASTE 584 Spacecraft Power Systems Units: 3
- ASTE 581 Orbital Mechanics II Units: 3
- ASTE 583 Space Navigation: Principles and Practice Units: 3
- ASTE 586 Spacecraft Attitude Dynamics Units: 3
- ASTE 589 Solar System Navigation Units: 3

**Core Elective Requirement (9 Units — Choose Three Courses)**
- ASTE 501a Physical Gas Dynamics Units: 3
- ASTE 501b Physical Gas Dynamics Units: 3
- ASTE 523 Design of Low Cost Space Missions Units: 3
- ASTE 524 Human Spaceflight Units: 3
- ASTE 527 Space Studio Architecturing Units: 3
- ASTE 529 Safety of Space Systems and Space Missions Units: 3
- ASTE 552 Spacecraft Thermal Control Units: 3
- ASTE 553 Systems for Remote Sensing from Space Units: 3
- ASTE 554 Spacecraft Sensors Units: 3
- ASTE 556 Spacecraft Structural Dynamics Units: 3
- ASTE 557 Spacecraft Structural Strength and Materials Units: 3
- ASTE 570 Liquid Rocket Propulsion Units: 3
- ASTE 572 Advanced Spacecraft Propulsion Units: 3
- ASTE 574 Space Launch Vehicle Design Units: 3
- ASTE 581 Orbital Mechanics II Units: 3
- ASTE 583 Space Navigation: Principles and Practice Units: 3
- ASTE 584 Spacecraft Power Systems Units: 3
- ASTE 585 Spacecraft Attitude Control Units: 3
- ASTE 586 Spacecraft Attitude Dynamics Units: 3
- ASTE 589 Solar System Navigation Units: 3

**Technical Elective Requirement (6 Units)**

Two 3-unit courses. Students are advised to select these two elective courses from the list of core electives or from other courses in astronautical engineering or from other science and engineering graduate courses, as approved by the faculty adviser. No more than 3 units of directed research (ASTE 590) can be applied to the 27-unit requirement. New courses on emerging space technologies are often offered; consult the current semester's course offerings, particularly for ASTE 599 Special Topics.

**Note:**
At least 21 units must be at the 500 or 600 level.

**Areas of Concentration:**

Students choose core elective and technical elective courses that best meet their educational objectives. Students can also concentrate their studies in the desired areas by selecting corresponding core elective courses. Presently, ASTE faculty suggest the following areas of concentration:

**Spacecraft Propulsion**

Choose two core electives from:
- ASTE 501a Physical Gas Dynamics Units: 3
- ASTE 501b Physical Gas Dynamics Units: 3
- ASTE 570 Liquid Rocket Propulsion Units: 3
- ASTE 572 Advanced Spacecraft Propulsion Units: 3
- ASTE 574 Space Launch Vehicle Design Units: 3
- ASTE 584 Spacecraft Power Systems Units: 3
Spacecraft Dynamics
Choose two core electives from:
- ASTE 556 Spacecraft Structural Dynamics Units: 3
- ASTE 557 Spacecraft Structural Strength and Materials Units: 3
- ASTE 581 Orbital Mechanics II Units: 3
- ASTE 583 Space Navigation: Principles and Practice Units: 3
- ASTE 585 Spacecraft Attitude Control Units: 3
- ASTE 586 Spacecraft Attitude Dynamics Units: 3
- ASTE 589 Solar System Navigation Units: 3

Space Systems Design
Choose two core electives from:
- ASTE 523 Design of Low Cost Space Missions Units: 3
- ASTE 524 Human Spaceflight Units: 3
- ASTE 527 Space Studio Architecting Units: 3
- ASTE 529 Safety of Space Systems and Space Missions Units: 3
- ASTE 557 Spacecraft Structural Strength and Materials Units: 3
- ASTE 574 Space Launch Vehicle Design Units: 3

Spacecraft Systems
Choose two core electives from:
- ASTE 552 Spacecraft Thermal Control Units: 3
- ASTE 553 Systems for Remote Sensing from Space Units: 3
- ASTE 554 Spacecraft Sensors Units: 3
- ASTE 584 Spacecraft Power Systems Units: 3

Space Applications
Choose two core electives from:
- ASTE 524 Human Spaceflight Units: 3
- ASTE 527 Space Studio Architecting Units: 3
- ASTE 553 Systems for Remote Sensing from Space Units: 3
- ASTE 554 Spacecraft Sensors Units: 3

University Certificate
Astronautical Engineering Certificate
The Certificate in Astronautical Engineering is designed for practicing engineers and scientists who enter space-related fields and/or want to obtain training in specific space-related areas. Students enroll at USC as limited status students; they must apply and be admitted to the certificate program after completion of no more than 9 units of required course work. The required course work consists of 12 units; students will choose four 3-unit courses from the following:

Required Courses (Choose Four)
- ASTE 501a Physical Gas Dynamics Units: 3
- ASTE 501b Physical Gas Dynamics Units: 3
- ASTE 520 Spacecraft System Design Units: 3
- ASTE 523 Design of Low Cost Space Missions Units: 3
- ASTE 527 Space Studio Architecting Units: 3
- ASTE 529 Safety of Space Systems and Space Missions Units: 3
- ASTE 535 Space Environments and Spacecraft Interactions Units: 3
- ASTE 552 Spacecraft Thermal Control Units: 3
- ASTE 553 Systems for Remote Sensing from Space Units: 3
- ASTE 554 Spacecraft Sensors Units: 3
- ASTE 556 Spacecraft Structural Dynamics Units: 3
- ASTE 557 Spacecraft Structural Strength and Materials Units: 3
- ASTE 570 Liquid Rocket Propulsion Units: 3
- ASTE 572 Advanced Spacecraft Propulsion Units: 3 *
- ASTE 583 Space Navigation: Principles and Practice Units: 3
- ASTE 580 Orbital Mechanics I Units: 3
- ASTE 581 Orbital Mechanics II Units: 3
- ASTE 584 Spacecraft Power Systems Units: 3
- ASTE 585 Spacecraft Attitude Control Units: 3
- ASTE 586 Spacecraft Attitude Dynamics Units: 3
- ASTE 599 Special Topics Units: 2, 3, 4

Note:
Most classes are available through the USC Distance Education Network (DEN).
*Prerequisite required

Doctoral Degree
Astronautical Engineering (PhD)
The PhD in Astronautical Engineering is awarded in strict conformity with the general requirements of the USC Graduate School. See general requirements for graduate degrees. The degree requires a concentrated program of study, research and a dissertation. Each student wishing to undertake a doctoral program must first be admitted to the program and then take the screening examination. This examination will emphasize comprehension of fundamental material in the graduate course work. Further guidance concerning admission, the screening exam and the full completion of courses, including those given outside the Department of Astronautical Engineering, can be obtained from the ASTE student adviser and program coordinators.

Khoo, PhD (Pediatrics); Kwang Jin Kim, PhD (Medicine and Physiology); Peter Kahn, PhD (Biological Sciences, Medicine, and Aerospace & Mechanical Engineering); Eu Meng Law (Radiology); Richard Leahy, PhD (Electrical Engineering and Radiology); Jay Lieberman, PhD (Orthopaedic Surgery); Charles Liu, MD, PhD (Neurological Surgery); Gerald E. Loeb, MD; Anupam Madhukar, PhD (Chemical Engineering and Materials Science, Physics); Vasilis Z. Marmarelis, PhD (Electrical Engineering); Jili McNitt-Gray, PhD (Biological Sciences); Ellis Meng, PhD (Electrical Engineering); Janet Moradian-Oldak (Biomedical Sciences – Dental); Krishna Nayak, PhD (Electrical Engineering); Chrysostomos Nikias, PhD (Electrical Engineering).
Degree Requirements

Undergraduate Program Educational Objectives

Graduates of the undergraduate program in Biomedical Engineering are expected to attain the following objectives within a few years after graduation:

- be engaged in a professional career in the biomedical or other related industries, or enrolled in advanced graduate studies including medical school;
- work in a technically competent manner to address challenges in engineering or their chosen profession, taking into consideration ethical and societal concerns;
- collaborate within their profession across technical disciplines;
- develop their technical knowledge and professional skills further by being active in professional societies, continuing their formal education, or attending professional workshops, meetings and seminars.

Undergraduate Program Criteria

The program leading to a Bachelor of Science in Biomedical Engineering provides both breadth and depth across the range of engineering topics implied by the title. The program prepares graduates to have an understanding of biology and physiology; and the capability to apply advanced mathematics (including differential equations and statistics), science and engineering to solve the problems at the interface of engineering and biology. The curriculum prepares graduates with the ability to make measurements on and interpret data from living systems, addressing the problems associated with the interaction between living and non-living materials and systems.

Minor in Craniofacial and Dental Technology

For a complete listing, see the Herman Ostrow School of Dentistry of USC.

Bachelor's Degree

Biomedical Engineering (BS)

The Department of Biomedical Engineering offers a Bachelor of Science degree in Biomedical Engineering. Additionally, there are three possible areas of emphasis within this biomedical engineering program major. These are biochemical engineering, electrical engineering, and mechanical engineering. An area of emphasis appears in a special field on the transcript. The requirement for the degree is 128 units. A cumulative grade point average of C (2.0) is required in all upper division courses applied toward the major, regardless of the department in which the courses are taken.

See common requirements for undergraduate degrees. Technical electives are to be selected from an approved list available in the department office.

Composition/Writing Requirement

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

General Education

- General education Units: 20

Pre-Major Requirements

Math Requirement

- MATH 125g Calculus I Units: 4
- MATH 129 Calculus II for Engineers and Scientists Units: 4 or
- MATH 126 Calculus II Units: 4
- MATH 229 Calculus III for Engineers and Scientists Units: 4 or
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4

Physics Requirement

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Chemistry Requirement

- CHEM 105alg General Chemistry Units: 4 or
- CHEM 115alg Advanced General Chemistry Units: 4
- CHEM 105BL General Chemistry Units: 4 or
- CHEM 115BL Advanced General Chemistry Units: 4

Major Requirements

Biomedical Engineering

- BME 101 Introduction to Biomedical Engineering Units: 4
- BME 210 Biomedical Computer Simulation Methods Units: 4

Master's Degree

Biomedical Engineering (Medical Imaging and Imaging Informatics) (MS)
Completion of the Master of Science in Biomedical Engineering (Medical Imaging and Imaging Informatics) requires that at least 28 approved units must be satisfactorily completed of which at least 19 units must be at the 500 level or above.

Required Courses
• BME 501 Advanced Topics in Biomedical Systems Units: 4
• BME 513 Signal and Systems Analysis Units: 3
• BME 525 Advanced Biomedical Imaging Units: 3
• BME 527 Integration of Medical Imaging Systems Units: 3
• BME 528 Medical Diagnostics, Therapeutics and Informatics Applications Units: 3
• BME 535 Ultrasonic Imaging Units: 3
• EE 569 Introduction to Digital Image Processing Units: 4

Total units: 28

*Students who have taken an advanced undergraduate or master's level course in system and signal analysis may substitute BME 523 for BME 513 with departmental approval.

**Medical Device and Diagnostic Engineering (MS)**

This program is designed to provide the knowledge and skills needed for the development of medical devices and diagnostic techniques, including aspects of medical product regulation and product development. The course of study requires successful completion of 28 units of course work and has been designed to be completed in three semesters of full-time study. Students in the program will complete a 19-unit core as well as selecting a 6-unit specialization (or "track") and one elective from a list provided by the department.

**Required Courses**

- BME 501 Advanced Topics in Biomedical Systems Units: 4 or
- BME 502 Advanced Studies of the Nervous System Units: 4
- BME 513 Signal and Systems Analysis Units: 3
- BME 650 Biomedical Measurement and Instrumentation Units: 3
- MPTX 511 Introduction to Medical Product Regulation Units: 3 or
- BME 416 Development and Regulation of Medical Products Units: 3
- MPTX 515 Quality Systems and Standards Units: 3 or
- ISE 527 Quality Management for Engineers Units: 3
- ISE 545 Technology Development and Implementation Units: 3
- Technical elective Units: 3

**Complete 6 units from one track from the following lists:**

**Regulation Track**

- MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3

**Product Development Track**

- BME 551 Introduction to Bio-MEMS and Nanotechnology Units: 3
- BME 552 Neural Implant Engineering Units: 3
- BME 620L Applied Electrophysiology Units: 4
- ISE 515 Engineering Project Management Units: 3
- ISE 555 Invention and Technology Development Units: 3

**Total units: 28**

**Technical Elective (one course)**

Applicable courses include: AME 503, BME 511, BME 535, BME 551, ISE 507, ISE 508, ISE 544, MPTX 517 and courses listed in alternate tracks to that chosen. Other courses may be applicable; please see an adviser for approval.

**University Certificate**

**Health, Technology and Engineering Graduate Certificate**

*Academic Director:* Terry Sanger, MD, PhD, Provost Associate
*Professor of Biomedical Engineering, Neurology, Biokinesiology, and Physical Therapy*
*Administrative Director:* George Tolomiczenko, PhD, Assistant Professor, Neurology

This program offers current second-year USC PhD engineering students and first-year MD students an opportunity to learn about and gain experience in medical device and process innovation. Through project-based and interdisciplinary collaboration, students will augment their current programs with a set of courses and lab experiences linking medical and engineering research groups. By applying design-informed approaches toward problem identification and solution prototyping, students will be involved in all the steps of medical device or process innovation from conception to commercialization. The program aims to create interdisciplinary, boundary-spanning, inventive entrepreneurs seeking early practical experience with device and method innovation in health care.

Program participants will form bonds with a group of like-minded medical students and engineers who will be their mentors, colleagues and contacts as they advance in their careers.

The courses unique to the program include a seminar sequence (Topics in Health, Technology and Engineering), which must be taken during the first two years of involvement with the HTE@USC program, a case studies sequence taken during the second year and a research course to earn project-related credits.

**Courses**

- BME 566a Topics in Health, Technology and Engineering Units: 2
- BME 566b Topics in Health, Technology and Engineering Units: 2
- BME 566c Topics in Health, Technology and Engineering Units: 2
- BME 566d Topics in Health, Technology and Engineering Units: 2
- BME 567a Case Studies in Health, Technology and Engineering Units: 1
- BME 567b Case Studies in Health, Technology and Engineering Units: 1
- 790 Research (in the student's major department) Units: 2-8

**Other required courses that are part of the MD curriculum**

*PhD students enroll in INTD course versions of the same courses open only to HTE students on CR/NC basis:*

- INTD 621a Introduction to Clinical Medicine (ICM) for THE Units: 3
- INTD 621b Introduction to Clinical Medicine (ICM) for THE Units: 3
• INTD 622L Pre-clinical System Block for Health, Technology and Engineering Units: 3, 4, 5, 6, 7, 8, 9 (3-5 Units Required)

Note:
Candidates interested in applying should contact HTE@USC via email at hte@usc.edu.

Doctoral Degree
Biomedical Engineering (PhD)

The objective of the Doctor of Philosophy is to produce independent investigators who can make original scholarly contributions and apply advanced engineering concepts and techniques to the understanding and solution of biomedical problems. This program is intended to prepare the student for a career in academic research and teaching, or as an independent investigator in industrial or government laboratories.

The requirements listed are special to this department and must be read in conjunction with the general requirements of the Graduate School.

This program is designed to be normally completed in four years of full-time work beyond the Bachelor of Science degree (including summers). The first two years are devoted primarily to formal course work and the last two to research. In view of the flexible program, each student is assigned an adviser who will guide him or her in the selection of courses. By the end of the third semester of graduate study the student must have completed the PhD screening examination. Subsequently, he or she is required to make a tentative major field selection (e.g., biomedical imaging, signal processing, neural engineering) and pass a qualifying examination. In accordance with the requirements of the Graduate School, at least 60 units of credit beyond the Bachelor of Science degree are required, with a minimum grade point average of 3.0. Students are required to take BME 533, the graduate biomedical engineering seminar course, for three semesters during their studies.

Requirements for Admission

Bachelor of Science degree in engineering or a natural science, and satisfactory scores on the Graduate Record Examinations. Undergraduate work should include a basic course in biology, physics, organic chemistry, biochemistry, differential equations and digital computation. Students lacking any of these will be required to make up the deficiency during the first two years of graduate work.

Students who have completed all requirements for the Master of Science degree offered in this department may apply for admission to the PhD program. In this case, all courses taken in the MS program may be applied toward the requirements of the doctoral degree.

Screening Examination Process

By the end of the third semester of graduate study, all students must have completed the screening examination process to determine whether or not they will be allowed to continue in the Doctor of Philosophy program. Those who fail will be dropped from the program, although they may be permitted to complete the additional requirements necessary to obtain the Master of Science degree.

Qualifying Exam Committee

During the third semester, the student must make a tentative major field selection as described above and form a qualifying exam committee. The latter administers the qualifying examination.

Qualifying Examination

The qualifying examination will normally be taken during the fourth semester of full-time academic study. The examination requires the preparation of a comprehensive written research proposal that presents a research question, critically reviews the pertinent literature and outlines the proposed experimental, analytical and computational procedures required to answer the question. The proposal must be defended in an oral examination.

Degree Requirements

Undergraduate Program Educational Objectives

Chemical engineering is the only engineering discipline that makes extensive use of chemical transformations (reactions) in addition to physical transformations (refining, molding or machining) to achieve added value. Chemical engineers are employed in virtually all manufacturing industries, from the basic chemical, biochemical, materials, energy, food, pharmaceutical and microelectronics industries to the myriad consumer product industries. Our various curricula are designed to produce graduates who are broadly educated as well as highly adaptable.

Graduates of the undergraduate program in Chemical Engineering are expected to attain the following objectives within a few years
after graduation:
  • Apply their technical skills to model, analyze and design complex processes where physical, chemical or biochemical transformations are utilized to produce products and services that benefit society in an economically, environmentally and globally conscious manner.
  • Be able to quickly respond to increasingly-rapid technological changes through continuous personal and professional development, and to pursue graduate or professional education in a variety of fields.
  • Thrive in multidisciplinary and multicultural setting, and to assume leadership roles in their employment, organization or community.

Undergraduate Program Criteria
The program leading to a Bachelor of Science in Chemical Engineering provides a thorough grounding in the basic sciences including chemistry, physics and/or biology, with some content at an advanced level, as appropriate to the objectives of the program. The curriculum includes the engineering application of these basic sciences to the design, analysis and control of chemical, physical and/or biological processes, including the hazards associated with these processes.

Engineer in Chemical Engineering
Requirements for the Engineer in chemical engineering are the same as set forth in the general requirements. See general requirements for graduate degrees. Only available to graduate students currently enrolled.

Chemical Engineering Three-Two Plan
A special curriculum is available for obtaining a Bachelor of Science degree in chemical engineering and a Bachelor of Science or Bachelor of Arts degree in a letters, arts and sciences major in five years. For further information see departmental advisers.

Similar programs are available in cooperation with certain liberal arts colleges. Such programs are particularly suited for obtaining a Bachelor of Science in Chemistry at the liberal arts college and a Bachelor of Science in Chemical Engineering at USC.

Bachelor's Degree

Chemical Engineering (BS)

Bachelor of Science in Chemical Engineering Degree
The Mork Family Department of Chemical Engineering offers a Bachelor of Science degree in Chemical Engineering. Additionally, there are six possible areas of emphasis within this chemical engineering program major. These are: biochemical engineering (133 units); environmental engineering (136 units); nanotechnology (132 units); petroleum engineering (137 units); polymer/materials science (137 units); and sustainable energy (128 units). An area of emphasis appears in parentheses after the primary major name on the transcript. Sample student schedules are located on the department Web page (chems.usc.edu).

Common Requirements for the BS Degree and All Areas of Emphasis (112 units)
See also common requirements for undergraduate degrees.

Composition/Writing Courses
  • WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
  • WRIT 340 Advanced Writing Units: 3, 4 (3 Units Required)

General Education
  • General Education Units: 24

Chemistry Courses
  • CHEM 105aL General Chemistry Units: 4 or
  • CHEM 115bL Advanced General Chemistry Units: 4

Math Courses
  • MATH 125 Calculus I Units: 4

  • PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Chemical Engineering Courses
  • CHE 120 Introduction to Chemical Engineering Units: 3
  • CHE 205 Numerical Methods in Chemical Engineering Units: 3
  • CHE 330 Chemical Engineering Thermodynamics Units: 3
  • CHE 350 Introduction to Separation Processes Units: 3
  • CHE 442 Chemical Reactor Analysis Units: 3
  • CHE 443 Viscous Flow Units: 3
  • CHE 444A Chemical Engineering Laboratory Units: 3
  • CHE 448B Chemical Engineering Laboratory Units: 3
  • CHE 445 Heat Transfer in Chemical Engineering Processes Units: 2
  • CHE 446 Mass Transfer in Chemical Engineering Processes Units: 2
  • CHE 460L Chemical Process Dynamics and Control Units: 3
  • CHE 480 Chemical Process and Plant Design Units: 3
  • CHE 485 Computer-Aided Chemical Process Design Units: 3

Additional Requirements for Individual Degrees

Bachelor of Science in Chemical Engineering
The requirement for the degree in the absence of an area of emphasis is 133 units. A cumulative grade point average of C (2.0) is required in all upper division courses applied toward the major, regardless of the department in which the courses are taken. In addition to the previously listed common requirements, students must also take the following courses:

Chemistry Technical Elective
  • CHEM 322bL Organic Chemistry Units: 4 or
  • CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4

Chemical Engineering Courses
  • CHE 465 Applications of Probability and Statistics for Chemical Engineers Units: 3
  • CHE 476 Chemical Engineering Materials Units: 3

CHE Technical Elective
  • An upper division CHE course Units: 3

Additional Electives (8–9 Units)

Suggested Courses
  • CE 205 Statics Units: 2
  • EE 438L Processing for Microelectronics Units: 3

Chemical Engineering, Biochemical Engineering Emphasis, (BS)

Bachelor of Science in Chemical Engineering Degree

The Mork Family Department of Chemical Engineering offers a Bachelor of Science degree in Chemical Engineering. Additionally, there are six possible areas of emphasis within this chemical engineering program major. These are: biochemical engineering (133 units); environmental engineering (136 units); nanotechnology (132 units); petroleum engineering (137 units); polymer/materials science (137 units); and sustainable energy (128 units). An area of emphasis appears in parentheses after the primary major name on the transcript.

Sample student schedules are located on the department Web page (chems.usc.edu).

Common Requirements for the BS Degree and All Areas of Emphasis (112 units)

See also common requirements for undergraduate degrees.

Composition/Writing Courses
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4 (3 Units Required)

General Education
- General Education Units: 24

Chemistry Courses
- CHEM 105aLg General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4 or
- CHEM 115bL Advanced General Chemistry Units: 4
- CHEM 300L Analytical Chemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 430 Physical Chemistry: Thermodynamics and Kinetics Units: 4

Math Courses
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- or
- MATH 129 Calculus II for Engineers and Scientists Units: 4
- MATH 226 Calculus III Units: 4
- or
- MATH 229 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4

Physics Courses
- PHYS 115Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 115L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Chemical Engineering Courses
- CHE 120 Introduction to Chemical Engineering Units: 3
- CHE 205 Numerical Methods in Chemical Engineering Units: 3
- CHE 330 Chemical Engineering Thermodynamics Units: 3
- CHE 350 Introduction to Separation Processes Units: 3
- CHE 442 Chemical Reactor Analysis Units: 3
- CHE 443 Viscous Flow Units: 3
- CHE 444AL Chemical Engineering Laboratory Units: 3
- CHE 444BL Chemical Engineering Laboratory Units: 3
- CHE 445 Heat Transfer in Chemical Engineering Processes Units: 2
- CHE 446 Mass Transfer in Chemical Engineering Processes Units: 2
- CHE 460L Chemical Process Dynamics and Control Units: 3
- CHE 480 Chemical Process and Plant Design Units: 3
- CHE 485 Computer-Aided Chemical Process Design Units: 3

Additional Requirements for Individual Degrees

Emphasis in Biochemical Engineering

The requirement for the degree with an emphasis in biochemical engineering is 133 units.* A scholarship average of C (2.0) or higher is required for all upper division courses taken in chemical engineering, biomedical engineering and biological sciences. In addition to the previously listed common requirements, students must also take the following courses:

Biological Sciences Courses
- BISC 300L Introduction to Microbiology Units: 4
- BISC 320L Molecular Biology Units: 4
- BISC 330L Biochemistry Units: 4

Bio-Electives
- BISC 405 Applications of Probability and Statistics for Chemical Engineers Units: 3 or
- ISE 460 Engineering Economy Units: 3

Note:
*Students in the biochemical engineering option must take a minimum of 48 engineering units total to graduate.
**Student may combine a 3-unit approved bio-engineering elective with 1 unit of free elective.

- CHE 460L Chemical Process Dynamics and Control Units: 3
- CHE 480 Chemical Process and Plant Design Units: 3
- CHE 485 Computer-Aided Chemical Process Design Units: 3

Additional Requirements for Individual Degrees

Emphasis in Environmental Engineering
The requirement for the degree with an emphasis in environmental engineering is 136 units. A cumulative grade point average of C (2.0) is required for all upper division courses applied toward the major, regardless of the department in which the courses are taken. In addition to the previously listed common requirements, students must also take the following courses:

Chemical Engineering Courses
- CHE 405 Applications of Probability and Statistics for Chemical Engineers Units: 3
- CHE 476 Chemical Engineering Materials Units: 3
- CHE 486 Design of Environmentally Benign Process Plants Units: 3

Other Courses
- CE 453 Water Quality Science and Engineering Units: 3
- CE 463L Water Chemistry and Analysis Units: 3
- ISE 460 Engineering Economy Units: 3 or
- BUAD 301 Technology Entrepreneurship Units: 3
- PTE 463L Introduction to Transport Processes in Porous Media Units: 3

Air Pollution Elective
- ENE 428 Air Pollution Fundamentals Units: 3 or
- ENE 429 Air Pollution Control Units: 3

Chemical Engineering, Nanotechnology Emphasis, (BS)

Bachelor of Science in Chemical Engineering Degree
The Mark Family Department of Chemical Engineering offers a Bachelor of Science degree in Chemical Engineering. Additionally, there are six possible areas of emphasis within this chemical engineering program major. These are: biochemical engineering (133 units); environmental engineering (136 units); nanotechnology (132 units); petroleum engineering (137 units); polymer/materials science (137 units); and sustainable energy (128 units). An area of emphasis appears in parentheses after the primary major name on the transcript.

Sample student schedules are located on the department Web page (chems.usc.edu).

Additional Requirements for Individual Degrees

Emphasis in Sustainable Energy
The requirement for the degree with an emphasis in sustainable energy is 128 units. A cumulative grade point average of C (2.0) is required for all upper division courses applied toward the major, regardless of the department in which the courses are taken. In addition to the previously listed common requirements, students must also take the following courses:

Chemistry
Choose one:
• CHEM 322bL Organic Chemistry Units: 4
  or
• CHEM 431 Physical Chemistry: Quantum Mechanics Units: 4
  or
• CHEM 453 Advanced Inorganic Chemistry Units: 4

Sustainable Energy
• CHE 450 Sustainable Energy Units: 3

Chemical Engineering and Materials Science
Choose one:
• CHE 476 Chemical Engineering Materials Units: 3
  or
• MASC 350L Nanostructured Materials: Design, Synthesis, and Processing Units: 3

Sustainable Energy Electives
Choose 1 class from the following:

Biofuels
Choose one:
• CHE 301g Introduction to Engineering Biology Units: 4 *
  or
• CHE 488 Molecular and Cellular Bioengineering Units: 3
  or
• CHE 489 Biochemical Engineering Units: 3

Geothermal
• PTE 463L Introduction to Transport Processes in Porous Media Units: 3

Solar
Choose one:
• CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes Units: 3
  or
• EE 513 Solid State Energy Devices Units: 3

Hydrocarbons
Choose one:
• CHE 486 Design of Environmentally Benign Process Plants Units: 3
  or
• PTE 519 Integrated Physical and Cyber Security for Oil and Gas Operations Units: 3

Note:
*Satisfies GE-D Life Science requirement

Other Electives
Choose one:
• CHE 405 Applications of Probability and Statistics for Chemical Engineers Units: 3
  or
• ISE 460 Engineering Economy Units: 3
  or
• BUAD 301 Technology Entrepreneurship Units: 3 *

Note:
*Must have 49 engineering units to be able to take BUAD 301.

Minor

Nanotechnology Minor
A minor in nanotechnology consisting of 17 required units is available to undergraduate majors in various fields. Nanotechnology involves the study of matter at length scales that are intermediate between the molecular and the bulk. In this minor, students will (1) learn in detail the properties of material structures on the nanometer scale, (2) examine a range of nanoscale materials, including metallic, ceramic, and polymeric particles as well as proteins, and (3) be exposed to a variety of specialized probes capable of visualizing matter on these length scales.

Prerequisite Courses
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4
  or
• MATH 127 Enhanced Calculus II Units: 4
  or
• MATH 129 Calculus II for Engineers and Scientists Units: 4
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
• CHEM 105aLg General Chemistry Units: 4
  or
• CHEM 115aLg Advanced General Chemistry Units: 4
• CHEM 105bL General Chemistry Units: 4
  or
• CHEM 115bL Advanced General Chemistry Units: 4

Required Courses
Students can select either CHEM 322a or CHEM 325a. Both courses are not required.
• CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes Units: 3
• CHEM 322aL Organic Chemistry Units: 4
  or
• CHEM 325aL Organic Chemistry Units: 4
• CHEM 455 Chemical Nanotechnology Units: 4
• EE 337L Engineering Nano-Systems Units: 3
• MASC 350L Nanostructured Materials: Design, Synthesis, and Processing Units: 3

Minimum Units: 17

Master’s Degree
Chemical Engineering (MS)

The Master of Science in chemical engineering is awarded in strict conformity with the general requirements of the USC Viterbi School of Engineering with the exception that the minimum unit requirement is 28. Registration in either CHE 550a, CHE 550b or CHE 590 is required.

Materials Science – Mork Family Department of Chemical Engineering and Materials Science

Peter Will, PhD (Astronautical Engineering, Industrial and Systems Engineering)
*Recipient of university-wide or school teaching award.

Engineer in Materials Science

Requirements for the Engineer in materials science degree are the same as set forth in the general requirements for graduate degrees.

Master of Science in Materials Engineering

Students with an interest in the characterization, selection and processing of engineering materials, and in materials problems related to engineering design may work toward a Master of Science in materials engineering. This degree is awarded in conformity with the general requirements of the Viterbi School of Engineering. Students may elect to work for this degree in either the Materials Science or Aerospace and Mechanical Engineering departments. The specific courses that constitute an acceptable program must be approved in advance by the administering department.

Master’s Degree
Materials Science (MS)

In addition to the general requirements for the Master of Science degree, add the following required courses: CHE 501, EE 471, MASC 501, MASC 503, MASC 504, MASC 505 and MASC 551. The six remaining units for the degree may be electives chosen with departmental approval.

Doctoral Degree
Materials Science (PhD)

The Doctor of Philosophy (PhD) degree in materials science is awarded in strict conformity with the general requirements of the USC Graduate School. See general requirements for graduate degrees.

### Bachelor of Science in Chemical Engineering

**Emphasis in Petroleum Engineering**

See the listing under Chemical Engineering.

### Bachelor of Science in Mechanical Engineering

**Emphasis in Petroleum Engineering**

See the listing under Aerospace and Mechanical Engineering.

### Engineer in Petroleum Engineering

Requirements for the Engineer degree in petroleum engineering are the same as set forth in the general requirements. See general requirements for graduate degrees.

### Minor

**Petroleum Engineering Minor**

A minor in petroleum engineering consisting of 16 required units is available to undergraduate majors in various fields of engineering and applied science. Besides preparing for graduate study in petroleum engineering, the program will prepare students for careers in areas of national need such as the exploration, recovery and production of subterranean resources, and the underground disposal of hazardous wastes.

### Prerequisite courses:"

- **MATH 125g Calculus I Units: 4**
- **MATH 126 Calculus II Units: 4**
- **MATH 226 Calculus III Units: 4**
- **MATH 245 Mathematics of Physics and Engineering I Units: 4**
- **PHYS 151g Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4**
- **CHEM 105aLg General Chemistry Units: 4**

### Required Courses"

- **PTE 461 Formation Evaluation Units: 3**
- **PTE 462 Economic, Risk and Formation Productivity Analysis Units: 4**
- **PTE 463L Petroleum Reservoir Engineering Units: 3**
- **PTE 465L Drilling Technology and Subsurface Methods Units: 3**

### Total units: 16

### Master's Degree

**Petroleum Engineering (Geoscience Technologies) (MS)**

The Master of Science in Petroleum Engineering (Geoscience Technologies) is a unique degree that emphasizes recent developments in the field of unconventional oil and gas resources and modern techniques for mapping and monitoring of subterranean resources. The program may be completed via the USC Viterbi School's Distance Education Network (DEN). All courses for the degree must be taken at USC.

Students without a BS in Petroleum Engineering will normally be required to complete prerequisite courses before beginning the MS program. Specific prerequisite courses are decided upon consultation with the department adviser. Units from these courses cannot be applied toward the degree.

A minimum of 34 units is required to earn the MS in Petroleum Engineering (Geoscience Technologies).

### Core Required Courses (18 Units)

- **PTE 507 Engineering and Economic Evaluation of Subsurface Reservoirs Units: 3**
- **PTE 508 Numerical Simulation of Subsurface Flow and Transport Processes Units: 3**
- **PTE 517 Testing of Wells and Aquifers Units: 3**
- **PTE 531 Enhanced Oil Recovery Units: 3, 2 years**
- **PTE 555 Well Completion, Stimulation, and Damage Control Units: 3**
- **PTE 582 Fluid Flow and Transport Processes in Porous Media Units: 3, 2 years**

### Take 4 Out of 5 Courses Shown Below (12 Units)

- **PTE 502 Advanced Reservoir Characterization Units: 3**
- **PTE 503 Technology of Unconventional Oil and Gas Resources Development Units: 3**
- **PTE 504 Geophysics for Petroleum Engineers Units: 3**
- **PTE 505 Inverse Modeling for Dynamic Data Integration Units: 3**
- **PTE 572 Geostatistics Units: 3**

### Additional Requirements

- Elective from a group of approved PTE courses: Units: 4

### Petroleum Engineering (MS)

The Master of Science in petroleum engineering is awarded in strict conformity with the general requirements of the Viterbi School of Engineering. Electives vary according to the area of interest. A student may be permitted to elect the program without thesis upon approval from the department.

### Petroleum Engineering (Smart Oilfield Technologies) (MS)

The Master of Science in petroleum engineering (smart oilfield technologies) is awarded in strict conformity with the general requirements of the Viterbi School of Engineering. A student may be permitted to elect the program without thesis upon approval from the department. Course requirements are similar to the existing MS degree in petroleum engineering in terms of core requirements. Students without a BS in Petroleum Engineering will normally be required to complete prerequisite courses before beginning the MS program. Specific prerequisite courses are decided upon consultation with the department adviser. Units from these courses cannot be
applied toward the degree.

**University Certificate**

**Smart Oilfield Technologies Certificate**

The certificate in smart oilfield techniques is designed for practicing engineers and scientists who enter petroleum engineering related fields and/or who wish to obtain training in the specific smart oilfields area. The applicants may enroll at USC as limited status students. They must apply and be admitted to the program before they complete 9 units of the required course work. The certificate program is open to applicants with an undergraduate degree in engineering or sciences who meet the admission criteria as limited students. Students without a B.S. in Petroleum Engineering will normally be required to complete prerequisite courses before beginning the certificate program. Specific prerequisite courses are decided upon consultation with the department adviser. Units from these courses cannot be applied toward the certificate.

The required courses consist of the following 12 units:

**Required Courses**

- PTE 586 Intelligent and Collaborative Oilfield Systems Characterization and Management Units: 3
- PTE 587 Smart Completions, Oilfield Sensors and Sensor Technology Units: 3
- PTE 588 Smart Oilfield Data Mining Units: 3
- PTE 589 Advanced Oilfield Operations with Remote Immersive Visualization and Control Units: 3

**Note:**

These classes will be available through the USC Distance Education Network (DEN@Viterbi). The credit for classes may be applied toward the M.S. or Ph.D. in petroleum engineering should the student decide later to pursue an advanced degree. In order to be admitted to the M.S. program, the student should maintain a B average or higher in courses for the certificate program and must satisfy all normal admission requirements. All courses for the certificate must be taken at USC.

**Graduate Certificate**

For Business

**Unconventional Resources in Petroleum Engineering**

Characterization of unconventional resources, exploration, development, laboratory methods, geomechanics, geochemical methods, well completion, hydraulic fracturing, reserves forecasting, environmental issues, seismic and geostatistical estimation methods. Note: Students without a BS in Petroleum Engineering or the equivalent will be required to complete the following courses in addition to the 4 courses for the certificate: PTE 411, PTE 412x, PTE 461, PTE 466 and PTE 500.

**Requirements**

Complete four courses:

- PTE 502 Advanced Reservoir Characterization Units: 3
- PTE 503 Technology of Unconventional Oil and Gas Resources Development Units: 3
- PTE 504 Geophysics for Petroleum Engineers Units: 3
- PTE 572 Geostatistics Units: 3

or

- PTE 591 Petroleum Geochemistry Units: 3

**Dual Degree**

**Master of Science, Petroleum Engineering/Master of Science, Engineering Management (MS/MS)**

The Daniel J. Epstein Department of Industrial and Systems Engineering in conjunction with the department of Petroleum Engineering offers programs leading to the degree of MS Petroleum Engineering/MS Engineering Management. The program is designed for graduate petroleum engineers whose career objectives lead to increasing technical management responsibilities.

**Required Courses**

36 units of required courses from PTE and ISE combined

- ISE 500 Statistics for Engineering Managers Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 515 Engineering Project Management Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- ISE 561 Economic Analysis of Engineering Projects Units: 3
- ISE 566 Financial Accounting Analysis for Engineering Units: 3
- PTE 507 Engineering and Economic Evaluation of Subsurface Reservoirs Units: 3
- PTE 508 Numerical Simulation of Subsurface Flow and Transport Processes Units: 3
- PTE 517 Testing of Wells and Aquifers Units: 3
- PTE 531 Enhanced Oil Recovery Units: 3, 2 years
- PTE 555 Well Completion, Stimulation, and Damage Control Units: 3
- PTE 582 Fluid Flow and Transport Processes in Porous Media Units: 3, 2 years

**Elective units**

Student is to complete 9 units of PTE courses selected by student and PTE faculty adviser.

**Doctoral Degree**

**Petroleum Engineering (PhD)**

The Doctor of Philosophy with a major in petroleum engineering is also offered. See general requirements for graduate degrees.

Undergraduate Program Criteria

The program leading to a Bachelor of Science in Civil Engineering prepares graduates to apply knowledge of mathematics through differential equations, calculus-based physics, chemistry and at least one additional area of basic science, consistent with the program educational objectives; apply knowledge of four technical areas appropriate to civil engineering; conduct civil engineering experiments and analyze and interpret the resulting data; and design a system, component, or process in more than one civil engineering context. The program also explains basic concepts in management, business, public policy, and leadership; and explains the importance of professional licensure.

The program leading to a Bachelor of Science in Environmental Engineering prepares graduates to be proficient in mathematics through differential equations, probability and statistics, calculus-based physics, general chemistry; an earth science, e.g., geology, meteorology, soil science, relevant to the program of study; a biological science, e.g., microbiology, aquatic biology, toxicology, relevant to the program of study; fluid mechanics relevant to the program of study; and an introductory level knowledge of environmental issues associated with air, land, and water systems and associated environmental health impacts. The program prepares graduates to be proficient at conducting laboratory experiments and critically analyzing and interpreting data in more than one major environmental engineering focus area, e.g., air, water, land, environmental health; performing engineering design by means of design experiences integrated throughout the professional component of the curriculum; and to be proficient in advanced principles and practice relevant to the program objectives; including understanding of concepts of professional practice and the roles and responsibilities of public institutions and private organizations pertaining to environmental engineering.

Graduate Programs

Master of Science in Civil Engineering (Transportation Systems)
See Sustainable Infrastructure Systems Program.

Master of Science in Civil Engineering (Water and Waste Management)
See Sustainable Infrastructure Systems Program.

Engineer in Civil Engineering
Requirements for the Engineer in Civil Engineering are the same as set forth in the general requirements.

Bachelor’s Degree

Applied Mechanics (BS)

The requirement for this degree is 128 units. A cumulative grade point average of C (2.0) is required in all upper-division courses applied toward the major, regardless of the department in which the courses are taken. See the common requirements for undergraduate degrees section.

Composition/Writing Requirements

• WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4*
• WRIT 340 Advanced Writing Units: 3, 4 (4 Units Required)

Total units: 8

General Education

*GE Category VI and WRIT 150 are taken concurrently.
**The choice of free electives in the fourth year requires approval of the administering department.

Civil Engineering (BS)
The department offers a Bachelor of Science degree in Civil Engineering. Additionally, there are three possible areas of emphases within this civil engineering program major. These are building science, environmental engineering and structural engineering. An area of emphasis appears in parentheses after the primary major name on the transcript.

Bachelor of Science in Civil Engineering
The requirement for the degree is 133 units. A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken. In addition, a minimum grade of C must be earned in each of the following courses: CE 205, CE 225, CE 309 and CE 235. See also common requirements for undergraduate degrees.

• Design Kernel Civil Engineering Design Kernel Course Units: 6***

Total units: 133

**Satisfies General Education requirement.
***Design kernel courses must be selected from the following list of design courses: CE 457, CE 465, CE 466, CE 476, CE 478, CE 482, CE 484 and CE 485.

Tracks
In addition to the core courses, students are required to select one of the following tracks: General, Construction or Water Resources.

General Track
Choose one of the following: CE 480 as the capstone course and CE 482 as a required design kernel course; or CE 465 as the capstone course and CE 466 or CE 476 as a required design kernel course.
The civil engineering electives may be chosen freely.

**Construction Track**

Select CE 480 as the capstone course and CE 482 as a required design kernel course. Replace CE 453 with CE 460. The other civil engineering electives must be chosen from the following list: CE 461, CE 462, CE 469, CE 470 and ARCH 419.

**Water Resources Track**

Select CE 465 as the capstone course and select one of the following as a required design kernel course: CE 466 or CE 476. Six units of electives must be selected from the following list: CE 466, CE 476 and CE 490.

All curricula leading to a degree must be approved by the Astani Department of Civil and Environmental Engineering; please note this includes transfer credit and units for courses waived for subject credit only, which have been approved through the Degree Progress department.

**Civil Engineering, Building Science Emphasis (BS)**

The requirement for the degree with an emphasis in building science is 137 units. A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken. In addition, a minimum grade of C must be earned in each of the following courses: CE 205, CE 225, CE 309 and CE 235. See also the common requirements for undergraduate degrees section.

**Major Electives**

- Design kernel Units: 6 **

**Total units: 130**

**Satisfies GE requirement.**

**Kernels must be selected from the following list of design courses:**

- CE 465, CE 466, CE 476, CE 482, CE 484, ENE 486.

- All curricula leading to a degree must be approved by the Astani Department of Civil and Environmental Engineering; please note this includes transfer credit and units for courses waived for subject credit only, which have been approved through the Degree Progress department.

**Civil Engineering, Structural Engineering Emphasis (BS)**

The requirement for the degree with an emphasis in structural engineering is 133 units. A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper division courses applied toward the major, regardless of the department in which the courses are taken. In addition, a minimum grade of C must be earned in each of the following courses: CE 205, CE 225, CE 309 and CE 235. See also common requirements for undergraduate degrees.

**Composition/Writing Requirements**

- WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4 (3 Units Required)

**General Education**

- General Education Units: 24* +

**Pre-Major Requirements**

**Chemistry Requirement**

- CHEM 105aLg General Chemistry Units: 4 ** or
- CHEM 115aLg Advanced General Chemistry Units: 4

**Math Requirement**

- MATH 125 Calculus I Units: 4 **
- MATH 126 Calculus II Units: 4 or
- MATH 129 Calculus II for Engineers and Scientists: 4
- MATH 226 Calculus III Units: 4 or
- MATH 229 Calculus III for Engineers and Scientists: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4

**Physics Requirement**

- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 **
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

**Other Requirements**

- GEOL 305L Introduction to Engineering Geology Units: 4

**Total units: 70**

**Total units: 133**

**Satisfies GE requirement.**

- All curricula leading to a degree must be approved by the Astani Department of Civil and Environmental Engineering; please note this includes transfer credit and units for courses waived for subject credit only, which have been approved through the Degree Progress department.
Minor
Construction Planning and Management Minor

This program covers the most current theories and practice of construction planning and management. The program provides valuable adjacent credential to professional school students pursuing careers in business administration, public administration, architecture, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities require specialized knowledge of the technical, economic and policy environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded. With the exception of statistics, all of the required courses are within the Astani Department of Civil and Environmental Engineering and the USC Price School of Public Policy.

Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management, architecture or allied fields.

Courses Required
Seven courses consisting of at least 23 units are required for the minor.

Statistics
Students must complete an adviser-approved course in statistics. Candidate courses include ECON 317, EE 364, ISE 220, MATH 208, PPD 303, PSYC 274, SOCI 314 and similar courses. The statistics course must be at least 3 units.

Core Courses
- CE 460 Construction Engineering Units: 3
- CE 461 General Construction Estimating Units: 3
- CE 462 Construction Methods and Equipment Units: 3 or
- CE 469 Sustainable Design and Construction Units: 3 or
- CE 470 Building Information Modeling and Integrated Practice Units: 3

Theme Requirement: Two courses, both from Theme 1 or Theme 2 or Theme 3
Theme 1
- PPD 358 Urban and Regional Economics Units: 4
- RED 362 Real Estate Development Fundamentals Units: 4 *

Theme 2
- FBE 400x Introduction to Real Estate Finance and Development Units: 4
- FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4

Theme 3
- PPD 357 Government and Business Units: 4 *
- RED 435 Analyzing Real Estate Markets Units: 4 *

Total units: 17

Electives (Select One)
- CE 404 Business and Intellectual Property Law for Engineers Units: 3
- CE 412 Construction Law and the Property Development Process Units: 3
- RED 437 Advanced Finance and Investment for Real Estate Development Units: 4 *

Notes:
*Prerequisite required.

Advisement is provided by the Astani Department of Civil and Environmental Engineering. Students will normally complete statistics before enrolling in CE 461 but can be permitted to complete statistics as a corequisite subject to adviser approval. Students are advised to take CE 460 and CE 461 before taking CE 462. Students electing RED courses from the themes or electives must satisfy the prerequisites. Please see the Price School section or schedule of classes for the prerequisites.

Master's Degree
Civil Engineering (MS)
The Master of Science in Civil Engineering is awarded in strict conformity with the general requirements of the USC Viterbi School of Engineering. A student may receive the Master of Science in Civil Engineering with a special option by specializing in one of the following courses of study: construction engineering; structural engineering; and transportation engineering. Students can choose the option of completing a thesis must include in their program 4 units of CE 594a and CE 594b.

A general Master of Science in Civil Engineering without special designation is also given. Students pursuing this program will choose between the following special options: general, earthquake engineering, structural mechanics, water resources or ocean and coastal engineering.

A student who wishes to pursue the Master of Science in Civil Engineering without special designation and who has an interest in public works may take a selected sequence of 12 units in the USC Price School of Public Policy. For further information, see the Public Administration Professional Sequence section in the USC Price School of Public Policy.

Construction Management (MCM)
Students possessing a bachelor's degree and with sufficient training in capital management and statistics may pursue the Master of Construction Management. The purpose of the Master of Construction Management program is to educate and train multidisciplinary professionals to understand and execute the broad array of technical and non-technical activities associated with construction management. The program provides special attention to the function of the constructor in real estate development. The program is drawn from the MS, Civil Engineering program in construction engineering and management, and from the USC Marshall School of Business.

Applicants to the program are expected to have completed undergraduate course work in engineering economy or business finance.

Core Curriculum
- ARCH 511L Building Systems: Materials and Construction Units: 4
- CE 501 Functions of the Constructor Units: 3
- CE 502 Construction Accounting and Finance Units: 3 or
- ACCT 509 Concepts of Financial and Management Accounting Units: 4 or
- ISE 566 Financial Accounting Analysis for Engineering Units: 3
- CE 556 Project Controls — Budgeting and Estimating Units: 3
- CE 566 Project Controls — Planning and Scheduling Units: 3

Track Requirement: Two Courses, Both From Track 1, Track 2, or Track 3
Track 1: Finance Track
- FBE 400x Introduction to Real Estate Finance and Development Units: 4 *
- FBE 489 Real Estate Capital Markets Units: 4
- FBE 570 Advanced Topics in Real Estate Finance Units: 3 *
- FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3 *
- FBE 591 Real Estate Finance and Investment Units: 3 *
Track 2: Real Estate Development Track
• FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4 *
• FBE 470 Advanced Real Estate Analysis Units: 4 *
• FBE 565 Economics of Urban Land Use: Feasibility Studies Units: 3
• FBE 566 Real Estate Finance, Investments and Development Units: 3

Track 3: Architecture, Engineering and Construction (AEC) Technology Track
• CE 470 Building Information Modeling and Integrated Practice Units: 3
• CE 469 Sustainable Design and Construction Units: 3
• CE 570 Building Information Modeling for Collaborative Construction Units: 3
• Additional adviser-approved technical and advanced electives Units: 10-11

Total minimum units: 33
*
Prerequisite required.

Additional Requirements
The minimum requirement for the Master of Construction Management degree is 33 units. At least three elective courses totaling at least 9 units are required for this degree. These may be taken from the USC Astani Department of Civil and Environmental Engineering, other engineering departments, the USC Price School of Public Policy, the USC School of Architecture, the USC Davis School of Gerontology, the USC Gould School of Law or the USC Marshall School of Business subject to adviser approval. Admission to some classes requires advanced prerequisites and is subject to availability and approval of the instructor.

General Requirements
Residence and Course Load
The normal time required for earning the Master of Construction Management is three semesters, including one summer semester beginning in June and continuing through the spring semester ending in May. Students are expected to participate in extracurricular activities associated with the Master of Construction Management program, including the speaker series and field trips. A candidate must complete the last four semester units of course work at USC. Students who wish to take a leave of absence for a semester or longer must request it from the chairman of the Astani Department in writing. Such leaves may be granted for up to one year.

University Certificate
Transportation Systems Graduate Certificate
The graduate certificate in Transportation Systems is an interdisciplinary program administered by the USC Astani Department of Civil and Environmental Engineering. The certificate program allows students to specialize in transportation applications, while simultaneously receiving a degree in their home department. The certificate in transportation systems combines elements of transportation engineering with transportation policy, planning and project management. The program is especially appropriate for students intending to pursue careers as developers of transportation technologies, or as implementors of technologies within government agencies.

Students electing the certificate program apply to the USC Astani Department of Civil and Environmental Engineering. Course prerequisites for the program are:
• one course in statistics or uncertainty, equivalent to ISE 225, PPD 404x or CE 408;
• one course in engineering economy, equivalent to ISE 460;
• one course in microeconomics, equivalent to ECON 203; and
• one course in a contemporary high level programming language.

These prerequisites may be satisfied after enrollment in the certificate program by taking the indicated courses or their equivalent. Graduate students cannot receive credit for courses numbered below 400. Detailed admissions requirements are published by the USC Astani Department of Civil and Environmental Engineering.

The courses taken for the certificate may be applied later to the Master of Science in Civil Engineering, transportation option.

Qualified students holding a bachelor's degree also have the option of enrolling in the certificate program without receiving a separate graduate degree.

The curriculum consists of five graduate courses for a total of 17 units.

Certificate Requirements
• CE 471 Principles of Transportation Engineering Units: 3 or
• CE 519 Transportation Engineering Units: 3
• CE 583 Design of Transportation Facilities Units: 3 or
• CE 585 Traffic Engineering and Control Units: 3
• ISE 515 Engineering Project Management Units: 3
• PPD 633 Urban Transportation Planning and Management Units: 4, 2 years
• PPD 634 Institutional and Policy Issues in Transportation Units: 4

Doctoral Degree
Civil Engineering (PhD)
Doctor of Philosophy in Civil Engineering and Doctor of Philosophy in Engineering (Environmental Engineering)
The Doctor of Philosophy with a major in civil engineering and the Doctor of Philosophy with a major in engineering (environmental engineering) are also offered. See general requirements for graduate degrees.

Areas of specialization for Doctor of Philosophy level students are: structural engineering, structural mechanics, earthquake engineering, coastal engineering, water resources engineering, construction engineering and management, soil mechanics and foundation engineering, hydrology, hydrodynamics and transportation.

Degree Requirements

Undergraduate Program Educational Objectives

Fulfilling the vision of the Sonny Astani Department of Civil and Environmental Engineering, the Viterbi School of Engineering and the University of Southern California, our graduates from the Bachelor of Science in Civil Engineering program or the Bachelor of Science in Environmental Engineering program will:

1. Be successful in their professional careers, become leaders in industry, academia, government or service, while adapting their technical, collaborative and managerial skills for the benefit of Society’s built and natural environments.
2. Support the advancement of the practice of science and engineering, while maintaining professional standards and moral and legal obligations to society, while being active in professional organizations and obtaining professional licensure when appropriate.
3. Be prepared to pursue graduate studies in engineering or other disciplines, while continuously broadening their abilities and enhancing their technical skills to maintain their relevance with technological change.

Undergraduate Program Criteria

The program leading to a Bachelor of Science in Civil Engineering prepares graduates to apply knowledge of mathematics through differential equations, calculus-based physics, chemistry and at least one additional area of basic science, consistent with the program educational objectives; apply knowledge of four technical areas appropriate to civil engineering; conduct civil engineering experiments and analyze and interpret the resulting data; and design a system, component, or process in more than one civil engineering context. The program also explains basic concepts in management, business, public policy, and leadership; and explains the importance of professional licensure.

The program leading to a Bachelor of Science in Environmental Engineering prepares graduates to apply knowledge of mathematics through differential equations, probability and statistics, calculus-based physics, chemistry (including stoichiometry, equilibrium and kinetics), an earth science, a biological science and fluid mechanics. The curriculum prepares graduates to formulate material and energy balances, and analyze the fate and transport of substances in and between air, water, and soil phases; conduct laboratory experiments, and analyze and interpret the resulting data in more than one major environmental engineering focus area, e.g., air, water, land, environmental health; design environmental engineering systems that include considerations of risk, uncertainty, sustainability, life-cycle principles and environmental impacts; and apply advanced principles and practice relevant to the program objectives. The curriculum prepares graduates to understand concepts of professional practice, project management, and the roles and responsibilities of public institutions and private organizations pertaining to environmental policy and regulations.

Bachelor of Science in Civil Engineering

Emphasis in Environmental Engineering

See Civil Engineering.

Engineer in Environmental Engineering

Requirements for the Engineer in Environmental Engineering are the same as set forth in the general requirements. See General Requirements for the Engineer Degree.

Sustainable Policy and Planning Graduate Certificate

See the listing in the USC Price School of Public Policy section.

Bachelor's Degree

Environmental Engineering (BS)

The program requires 132 units. A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken. In addition, a minimum grade of C must be earned in each of the following courses: CE 205 and CE 309 or ENE 410. See also common requirements for undergraduate degrees.

Composition/Writing Requirements

• WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
• WRIT 340 Advanced Writing Units: 3, 4

General Education

• General education Units: 20

Pre-Major Requirements

Chemistry Requirement

• CHEM 105aLg General Chemistry Units: 4 * or
• CHEM 115aLg Advanced General Chemistry Units: 4

• CHEM 105bL General Chemistry Units: 4 or
• CHEM 115bL Advanced General Chemistry Units: 4
• CHEM 322aL Organic Chemistry Units: 4

Math Requirement

• MATH 125g Calculus I Units: 4 *
• MATH 126 Calculus II Units: 4 or
• MATH 129 Calculus II for Engineers and Scientists Units: 4
• MATH 226 Calculus III Units: 4 or
- MATH 229 Calculus III for Engineers and Scientists Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4

**Physics Requirement**
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 *
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

**Total units: 36**

**Major Requirements**

**Engineering**
- ENGR 102 Engineering Freshman Academy Units: 2

**Civil and Environmental Engineering**
- CE 108 Introduction to Computer Methods in Civil Engineering Units: 2
- CE 210 Introduction to Environmental Engineering Units: 3
- CE 210L Introduction to Environmental Engineering Microbiology Units: 3
- CE 309 Fluid Mechanics Units: 3 or
- ENE 410 Environmental Fluid Mechanics Units: 3
- CE 408 Risk Analysis in Civil Engineering Units: 3
- CE 451 Water Resources Engineering Units: 3
- CE 453 Water Quality Science and Engineering Units: 3
- CE 463L Water Chemistry and Analysis Units: 3
- CE 465 Water Supply and Sewerage System Design Units: 3
- CE 484 Water Treatment Design Units: 3
- CE 485 Wastewater Treatment Design Units: 3
- ENE 200 Environmental Engineering Principles Units: 3
- ENE 426 Particulate Air Pollutants: Properties/Behavior/Measurement Units: 3
- ENE 428 Air Pollution Fundamentals Units: 3

**Courses from Other Departments**
- BISC 220L General Biology: Cell Biology and Physiology Units: 4 *
- CHE 330 Chemical Engineering Thermodynamics Units: 3
- GEOL 305L Introduction to Engineering Geology Units: 4
- ISE 460 Engineering Economy Units: 3
- PTE 463L Introduction to Transport Processes in Porous Media Units: 3

**Major Electives**
- Design kernel Units: 6 **

**Total: 132**

*Satisfies GE requirement.

**Kernels must be selected from the following design courses: CE 443, CE 466, CE 476 or CHE 442.**

**Minor**

**Environmental Engineering Minor**

A minor in environmental engineering provides students with a basic knowledge of our environment, potential causes for its deterioration, methods to prevent or mitigate environmental hazards, and the means to improve its quality at reasonable costs. Students will learn how to control water pollution, maintain air quality, treat and properly dispose of wastes, and remediate sites contaminated due to improper disposal of hazardous waste. This minor also enhances students' employment opportunities in the field of environmental engineering. The program provides the necessary infrastructure for the pursuit of graduate studies in environmental engineering.

The minor in environmental engineering is offered to undergraduates in various fields of engineering and natural sciences.

**Prerequisite Courses**
- CHEM 105aLg General Chemistry Units: 4 and
- CHEM 105bL Advanced General Chemistry Units: 4 and
- CHEM 115bL Advanced General Chemistry Units: 4
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 226 Calculus III Units: 4
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4

**Required Courses**
- CE 443 Environmental Chemistry Units: 3
- CE 453 Water Quality Science and Engineering Units: 3
- CE 463L Water Chemistry and Analysis Units: 3
- ENE 201 Introduction to Applied Environmental Science and Engineering Units: 4
- ENE 410 Environmental Fluid Mechanics Units: 3
- ENE 428 Air Pollution Fundamentals Units: 3 or
- ENE 429 Air Pollution Control Units: 3
- ENE 495 Seminars in Environmental Engineering Units: 1

**Total units: minimum 20**

**Master's Degree**

**Environmental Engineering (MS)**

Students with a bachelor's degree in engineering or science may work toward the Master of Science in Environmental Engineering. Students with degrees in fields other than engineering or science may be admitted on the recommendation of a program adviser and program director. Selection of courses will be determined through consultation with a program adviser to provide a maximum of training in the student's area of interest in environmental problems.

**Doctoral Degree**

**Engineering (Environmental Engineering) (PhD)**

**Doctor of Philosophy in Civil Engineering and Doctor of Philosophy in Engineering (Environmental Engineering)**

The Doctor of Philosophy with a major in civil engineering and the Doctor of Philosophy with a major in environmental engineering) are also offered. See general requirements for graduate degrees.

Areas of specialization for Doctor of Philosophy level students are: structural engineering, structural mechanics, earthquake engineering, coastal engineering, water resources engineering, construction engineering and management, soil mechanics and foundation engineering, hydrology, hydrodynamics and transportation.

**Computer Engineering Program**

**Undergraduate Degree**

**Undergraduate Program Educational Objectives**

Graduates of the Computer Engineering and Computer Science program are expected to attain the following educational objectives

within a few years of graduation:
- Graduates will apply analytical and critical thinking principles of both computer engineering and computer science to their chosen professions.
Graduates will successfully engage in life-long learning to continue to be contributing members of their communities in fields within and outside the traditional scope of computer engineering.

Graduates will exhibit high professional and ethical standards.

Undergraduate Program Criteria
The program leading to a Bachelor of Science in Computer Engineering and Computer Science provides both breadth and depth across the range of engineering topics implied by the title. The curriculum includes probability and statistics, including appropriate applications; mathematics, including discrete mathematics through differential and integral calculus; sciences (defined as biological, chemical or physical science) to develop an understanding of the scientific method and provide students with an opportunity to experience this mode of inquiry in courses for science or engineering majors that provide some exposure to lab work; and engineering topics (including computing science) necessary to analyze and design complex electrical and electronic devices, software and systems containing hardware and software components.

The computer science portion of the curriculum covers the fundamentals of algorithms, data structures, software design, concepts of programming languages and computer organization and software; provides an exposure to a variety of programming languages and systems, including at least one higher-level language; and includes advanced course work that builds on the fundamental course work to provide depth.

Graduate Degrees
The graduate program in computer engineering, offered through the Department of Electrical Engineering, is designed to provide students with an intensive background in the analysis, structure, design and function of digital computers and information processing systems. In addition to giving each student a fundamental background in digital logic, computer architecture and operating systems, a wide variety of elective courses allows for study in the following specialized areas: artificial intelligence; computer architecture; computer networks; computer system performance; design automation; fault-tolerant computers; microprocessors; parallel processing; real-time systems; robotics; and VLSI design.

Bachelor's Degree
Computer Engineering and Computer Science (BS)

Students attaining the bachelor of science degree in computer engineering and computer science would possess the scientific and engineering skills and knowledge that would enable them to design and implement computer systems that effectively and efficiently integrate developing hardware and software technologies. This degree is administered jointly by the departments of Computer Science and Electrical Engineering.

A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken.

The requirement for the degree is 128 units.

A grade of C (2.0) or better is required for each of the core courses CSCI 103, CSCI 170, CSCI 104 and CSCI 201.

Courses with a grade of C- or below must be repeated; courses may only be retaken once.

Departmental approval is required in order to retake a course.

Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

Composition/Writing Requirements (7 Units)
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

General Education (24 Units)
- General Education+ Units: 24

Pre-Major Requirements (29-30 Units)

Engineering (2 units)
- ENGR 102 Engineering Freshman Academy Units: 2

Mathematics (16 units)
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 129 Calculus II for Engineers and Scientists Units: 4
- MATH 225 Linear Algebra and Linear Differential Equations Units: 4
- MATH 226 Calculus III Units: 4
- MATH 229 Calculus III for Engineers and Scientists Units: 4

Statistics and Probability (3-4 units)
- EE 364 Introduction to Probability and Statistics for Electrical Engineering and Computer Science Units: 3
- MATH 407 Probability Theory Units: 4

Physics (8 units)
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 ** and
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 161Lg Advanced Principles of Physics I Units: 4
- PHYS 162L Advanced Principles of Physics II Units: 4

Major Requirements (55-56 Units)

Computer Science (28 units)
- CSCI 103L Introduction to Programming Units: 4
- CSCI 104L Data Structures and Object Oriented Design Units: 4
- CSCI 170 Discrete Methods in Computer Science Units: 4
- CSCI 201L Principles of Software Development Units: 4
- CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4
- CSCI 350 Introduction to Operating Systems Units: 4
- CSCI 353 Introduction to Internetworking Units: 4

Electrical Engineering (24 units)
- EE 109L Introduction to Embedded Systems Units: 4
- EE 209 Foundations of Digital System Design Units: 4
- EE 354L Introduction to Digital Circuits Units: 4
- EE 457 MOS VLSI Circuit Design Units: 4

And two of the following courses:
- EE 451 Parallel and Distributed Computation Units: 4
- EE 454L Introduction to System-on-Chip Units: 4
- EE 477L MOS VLSI Circuit Design Units: 4

Senior Design Project (3-4 units)
- CSCI 401 Capstone: Design and Construction of Large Software Systems Units: 4
- CSCI 404 Capstone: Creating Your High-Tech Startup Units: 4
- EE 459Lx Embedded Systems Design Laboratory Units: 3

Technical Electives (8 units)
Suggested courses include:
- CSCI 310 Software Engineering Units: 4
- CSCI 360 Introduction to Artificial Intelligence Units: 4
- CSCI 420 Computer Graphics Units: 4
- CSCI 445L Introduction to Robotics Units: 4
- CSCI 459 Computer Systems and Applications Modeling Fundamentals Units: 3
- CSCI 476 Cryptography: Secure Communication and Computation Units: 4
- CSCI 485 File and Database Management Units: 4
- CSCI 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- CSCI 491aL Final Game Project Units: 4
• CSCI 491bL Final Game Project Units: 2
• CSCI 499 Special Topics Units: 2, 3, 4
• EE 454L Introduction to System-on-Chip Units: 4
• EE 459Lx Embedded Systems Design Laboratory Units: 3
• EE 477L MOS VLSI Circuit Design Units: 4
• EE 490b Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
• EE 499 Special Topics Units: 2, 3, 4
• ITP 466 Building the High Tech Startup Units: 4
• MATH 458 Numerical Methods Units: 4

Note:
Students may choose one adviser-approved course from the 300- and 400-level ITP offerings. Other courses may be applicable; please see an adviser for approval.

Free Electives (2-5 units)
Total units: 128

*WRIT 340 Advanced Writing (Communication for Engineers) is strongly recommended for CECS majors.
*Satisfies GE requirement.

Master's Degree

Computer Engineering (MS)

A minimum grade point average of 3.0 must be earned on all course work applied toward the master's degree in electrical engineering. This average must also be achieved on all 400-level and above course work attempted at USC beyond the bachelor's degree and through an accumulation of no more than 12 units beyond the minimum needed for the specific degree program. Transfer units count as credit (CR) toward the master's degree and are not computed in the grade point average.

In addition to the general requirements of the Viterbi School of Engineering, the Master of Science in Computer Engineering is also subject to the following requirements: (1) a total of at least 28 units is required; (2) every non-EE course for graduate credit requires prior written adviser approval recorded each semester on a special request form in the student's department file; (3) no more than three courses (maximum 12 units) may be counted at the 400 level — at least 19 adviser-approved units must be taken at the 500 or 600 level; (4) at least 20 units must be taken in Computer Engineering; (5) a maximum of two EE 599 Special Topics courses (8 units) may be counted toward the MScENG; (6) at most, 4 units of EE 590 (Directed Research) and 1 unit of seminar, EE 598 (or other seminar with adviser approval), may be counted toward the MScENG; (7) units to be transferred (maximum 4 with adviser approval) must have been taken prior to taking classes at USC — interruption of residency is not allowed.

In addition to the above, the Master of Science in Computer Engineering is earned by completing an integrated program of at least 28 units of approved course work emphasizing three key areas - Architecture, VLSI and Networks. Students must take one course from at least two areas, outlined below.

Computer Engineering course work requirements
Take a minimum of 20 units of Computer Engineering courses from the three lists below, including at least one course from two of the three areas in Architecture, Networks and VLSI/CAD areas.

Computer Architecture

Take at least one course from two areas.
• EE 451 Parallel and Distributed Computation Units: 4
• EE 454L Introduction to System-on-Chip Units: 4
• EE 457 Computer Systems Organization Units: 4
• EE 532 Wireless Internet and Pervasive Computing Units: 3
• EE 533 Network Processor Design and Programming Units: 3
• EE 542 Internet and Cloud Computing Units: 3
• EE 557 Computer Systems Architecture Units: 3
• EE 560L Digital System Design Units: 4
• EE 653 Advanced Topics in Microarchitecture Units: 3
• EE 657 Parallel and Distributed Computing Units: 3
• EE 659 Interconnection Networks Units: 3
• EE 677 VLSI Architectures and Algorithms Units: 3

Networks
Take at least one course from two areas.
• EE 450 Introduction to Computer Networks Units: 3
• EE 467 Introduction to Communication Systems Units: 3
• EE 533 Network Processor Design and Programming Units: 3
• EE 550 Design and Analysis of Computer Communication Networks Units: 3
• EE 555 Broadband Network Architectures Units: 3
• EE 579 Wireless and Mobile Networks Design and Laboratory Units: 3
• EE 597 Wireless Networks Units: 3
• EE 650 Advanced Topics in Computer Networks Units: 3
• EE 652 Low-Power Wireless Networks Units: 3

VLSI/CAD
Take at least one course from two areas.
• EE 477L MOS VLSI Circuit Design Units: 4
• EE 536a Mixed-Signal Integrated Circuit Design Units: 4
• EE 536b Mixed-Signal Integrated Circuit Design Units: 4
• EE 537 Modern Solid-State Devices Units: 3
• EE 552 Asynchronous VLSI Design Units: 3
• EE 577a VLSI System Design Units: 3
• EE 577b VLSI System Design Units: 3
• EE 581 Mathematical Foundations for Computer-Aided Design of VLSI Circuits Units: 3
• EE 658 Diagnosis and Design of Reliable Digital Systems Units: 3

• EE 680 Computer-Aided Design of Digital Systems I Units: 3
• EE 681 Computer-Aided Design of Digital Systems II Units: 3

Doctoral Degree

Computer Engineering (PhD)
The requirements for the Doctor of Philosophy (PhD) in Computer Engineering are in strict conformity with the requirements of the Graduate School. Program requirements for the PhD in Computer Engineering are the same as those for the PhD in Electrical Engineering except that the major field is computer engineering. See general requirements for graduate degrees. Screening and qualifying examinations are administered by the computer engineering faculty. Students should contact the Electrical Engineering Systems Department Office for further information.

Course Requirements
A minimum of 60 units is required. Of these 60 units, a minimum of two courses must come from the Theory Area course list; at least one course must come from each of the Hardware, Software, and Systems Area course lists; one additional course must come from the Hardware, Software, and Systems Area course lists.

Theory Area Courses
• CSCI 361 Foundations of Artificial Intelligence Units: 4
• CSCI 367 Machine Learning Units: 4
• CSCI 570 Analysis of Algorithms Units: 4
• CSCI 670x Advanced Analysis of Algorithms Units: 4
• CSCI 675 Convex and Combinatorial Optimization Units: 4
• EE 503 Probability for Electrical and Computer Engineers Units: 4
• EE 512 Stochastic Processes Units: 3
• EE 553 Computational Solution of Optimization Problems Units: 3
• EE 565 Information Theory and Compression Units: 3
• EE 581 Mathematical Foundations for Computer-Aided Design of VLSI Circuits Units: 3
• EE 588 Optimization for the Information and Data Sciences Units: 4
• ISE 530 Optimization Methods for Analytics Units: 3
• MATH 410 Fundamental Concepts of Modern Algebra Units: 4
or

Chair: Cyrus Shahabi, PhD

Faculty

Chan Soon-Shiong Chair: Maja Mataric, PhD (Neuroscience Center)
Dean’s Chair in Chemical Engineering and Materials Science: Priya Vashisht, PhD (Computer Science, Physics)
Andrew and Erna Viterbi Early Career Chair: Nora Ayanian, PhD
Andrew and Erna Viterbi Early Career Chair: Jerme Barbic, PhD
Gordon S. Marshall Chair in Engineering: Gaurav Sukhatme, PhD
Jack Munishian Early Chair Chair: Zohrab A. Kaprielian Fellow in Engineering: Fei Sha, PhD
Niki and Max Nkias Chair in Engineering: Shrikanth (Shri) Narayanan, PhD
Northrup Grumman Chair in Engineering: Ramesh Govindan, PhD
Fletcher Jones Foundation Endowed Chair in Computer Science: Gaurav Sukhatme, PhD
David Packard Chair in Manufacturing Engineering: Stephen C-Y Lu, PhD (Mechanical Engineering, Industrial and Systems Engineering)
Charles Lee Powell Chair in Engineering: Viktor Prasanna, PhD (Electrical Engineering)
Charles Lee Powell Chair in Electrical Engineering and Computer Science: Massoud Pedram, PhD (Electrical Engineering)
Henry Salvatori Chair in Computer Science: Leonard M. Adleman, PhD
Andrew and Erna Viterbi Early Chair Chair: Ilia Diakonikolas, PhD
Andrew and Erna Viterbi Early Career Chair: Hao Li, PhD
Philip and Cayley MacDonald Endowed Early Career Chair: Yan Liu, PhD
Dean’s Professor of Computer Science: Kevin Knight, PhD
Dean’s Professor of Computer Science: Gaurav Sukhatme, PhD
Helen N. & Emmett H. Jones Professorship in Engineering: Milind Tambe, PhD (Industrial and Systems Engineering)
Seyee G. Mudd Professor of Engineering: Shanghua Teng, PhD
TRW Professor of Software Engineering: Barry Boehm, PhD
WISE Jr. Garbien Chair in Computer Science: Aleksandra Korolova, PhD

Professors: Leonard Adleman, PhD (Molecular Biology); Barry Boehm, PhD (Industrial and Systems Engineering); Leana Golubchik, PhD (Electrical Engineering); Ramesh Govindan, PhD; Ellis Horowitz, PhD (Electrical Engineering); Ming-Deh Huang, PhD; Laurent Itti, PhD (Neuroscience Center); Kevin Knight, PhD; Sven Koenig, PhD; Maja Mataric, PhD (Neuroscience Center); Dennis McLeod, PhD; Gerard Medioni, PhD (Electrical Engineering); Renad Medvidovic, PhD; Aiichiro Nakanoko,NPD (Biomedical Engineering, Materials Science, Physics); Ulrich Neumann, PhD (Electrical Engineering); Ramakant Navatia, PhD (Electrical Engineering); Paul Rosenbloom, PhD; Stefan Schaal, PhD (Neuroscience Center); Cyrus Shahabi, PhD (Electrical Engineering); Gaurav Sukhatme, PhD (Electrical Engineering); Milind Tambe (Industrial and Systems Engineering); Shanghua Teng, PhD

Associate Professors: Jerme Barbic, PhD; Shahram Ghandeharizadeh, PhD; William GI Halfond, PhD; David Kempe, PhD; Fei Sha, PhD; Yan Liu, PhD

Assistant Professors: Nora Ayanian, PhD; Ilia Diakonikolas, PhD; Shaddin Dughmi, PhD; Aleksandra Korolova, PhD; Hao Li, PhD; Joseph Lim, PhD; Wyatt Lloyd, PhD; Haipeng Luo, PhD; Chao Wang, PhD

Joint Professors: Murali Annavaram, PhD (Electrical Engineering); Irving Biederman, PhD (Psychology, Neuroscience); Melvin Breuer, PhD (Electrical Engineering); Todd Brun, PhD; Tim Ting Chen, PhD (Biological Sciences); Michael Crowley, PhD (Information Technology Program); Morteza Delgohi, PhD (Psychology and Computer Science); Panayiotis Georgiou, PhD (Electrical Engineering); Kai Huang, PhD (Electrical Engineering); Rahul Jain, PhD (Electrical Engineering); Rajiv Kalia, PhD (Physics); Carl Kesselman, PhD (Industrial and Systems Engineering); Bhaskar Krishnamachari, PhD (Electrical Engineering); C-C Jay Kuo, PhD (Signal and Image Processing); Stephen Lu, PhD (Industrial and Systems Engineering); Urbashi Mitra, PhD (Electrical Engineering); Shrikanth (Shri) Narayanan, PhD (Electrical Engineering); Hamid Nazerzadeh, PhD (Data Sciences and Operations); Viktor Prasanna, PhD (Electrical Engineering); Konstantinos Psounis, PhD; Xuehai Qian, PhD (Electrical Engineering); C. S. Raghavendra, PhD (Electrical Engineering); Benjamin Reichardt, PhD (Electrical Engineering); Remo Rohe, PhD (Computational Biology); Nicolas Schweighofer, PhD (Biokinesiology and Physical Therapy); Francisco Valero-Cuevas (Biomedical Engineering); Priya Vashisht, PhD (Chemical Engineering and Materials Science, Physics); Michael Waterman, PhD (Mathematics, Biological Sciences); Richard Weinberg, PhD (Cinematic Arts); John Wilson, PhD (Spatial Sciences, Computer Science); Xianghong Zhou, PhD (Biological Sciences)

Adjunct Professors: Danny Cohen, PhD; Paul Debevec, PhD; Rick Selby, PhD
Advisors: David Chiang, PhD; Mary Hall, PhD; Stacy Marsella, PhD; Larry Matthies, PhD; Chris Mattmann, PhD; Zhengyou Zhang, PhD

Advisors: Aude Billard, PhD; David DeVault, PhD; Ethan Katz-Bassett, PhD; Auke Ijspeert, PhD; Marco Papa, PhD; Sethu Vijayakumar, PhD; Minlan Yu, PhD; Roger Zimmermann, PhD

Research Advisors: Ewa Deelman, PhD; Yolanda Gil, PhD; Jonathan Gratch, PhD; John Heidemann, PhD; Randall Hill, PhD; Jerry Hobbs, PhD; Craig Knoblock, PhD; Premkumar Narajan, PhD; Herbert Schorr, PhD; William Swartout, PhD

Research Advisors: Aram Galstyan, PhD; Andrew Gordon, PhD; Kristina Lerman, PhD; Robert Lucas, PhD; Daniel Marcu, PhD; Stacey Marsella, PhD; Wei-Min Shen, PhD; Pedro Szekely, PhD; Joseph Touch, PhD

Research Advisors: Jose Luis Ambite, PhD; Ron Artstein PhD; Young Cho, PhD; Emilio Ferrara, PhD; Rafael Ferreira da Silva, PhD; Kallirroi Georgila, PhD; Anton Leuski, PhD; Jonathan May, PhD; Jelena Mirkovic, PhD; Stefan Scherer, PhD; Ari Shapiro, PhD; Evan Suma Rosenberg, PhD; David Traum, PhD; Ning Wang, PhD; Greg Ver Steeg, PhD

Professors of Engineering Practice: Victor Adamchik, PhD; Michael Zyla, PhD

Associate Professors of Engineering Practice: Jeffrey Miller, PhD; Cliffton Neuman, PhD

Lecturers: Claire Bono; William Cheng, PhD; Aaron Cote, PhD; Scott Easley, BA; Andrew Goodney, PhD; Saty Raghavachary, PhD (Senior Lecturer); Tatyana Ryutov, PhD (Senior Lecturer); Shawn Shamsian, PhD (Senior Lecturer); Michael Shindler, PhD; Sheila Tejada, PhD (Senior Lecturer)

Emeritus Professors: Michael A. Arbib, PhD (Biological Sciences, Biomedical Engineering, Electrical Engineering, Neuroscience and Psychology); George Bekey, PhD (Electrical Engineering); Aristides A.G. Requicha, PhD (Electrical Engineering)

Bachelor of Science

Undergraduate Program Educational Objectives

Graduates of the undergraduate program in Computer Science are expected to attain the following objectives within a few years of graduation:

1. Graduates apply the computational and analytical approaches of computer science to their chosen professions.
2. Graduates successfully engage in life-long learning to continue to be contributing members of their communities in fields within and outside the traditional scope of computer science.
3. Graduates exhibit high professional and ethical standards to become productive leaders in society.

Undergraduate Program Criteria

The program leading to a Bachelor of Science in Computer Science includes at least one and one-third years of computer science that covers the fundamentals of algorithms, data structures, software design, concepts of programming languages and computer organization and software; provides an exposure to a variety of programming languages and systems, including at least one higher-level language; and includes advanced course work that builds on the fundamental course work to provide depth.

The program includes at least one year of science and mathematics, including at least one-half year of mathematics, including discrete mathematics. Additional mathematics might consist of calculus, linear algebra, numerical methods, probability, statistics, number theory, geometry, or symbolic logic. The science component develops an understanding of the scientific method and provides an opportunity to experience this mode of inquiry in courses for science or engineering majors that provide some exposure to laboratory work.

Physics/Computer Science Major Requirements for the Bachelor of Science

This program is intended for students with dual interests in physics and computer science who wish to complete the essential courses for both majors within their normal four year career. See the Physics and Astronomy Department section for course requirements.

Bachelor of Science in Computer Engineering and Computer Science

See the listing under Computer Engineering Program.

Minor in 2-D Art for Games

This interdisciplinary minor integrates three major disciplines (fine arts, computer science and interactive media) to develop the 2-D visual skills necessary to conceptualize and illustrate images for games. For more information, see USC Roski School of Art and Design.

Minor in 3-D Art for Games

The focus of the 3-D Art for Games minor is a trans-disciplinary approach that incorporates the creative, technological and team-based communication skills necessary to develop 3-D art skills for video games. For more information, see USC Roski School of Art and Design.

Graduate Degrees

The requirements listed below are special to this department and must be read in conjunction with the general requirements of the USC Viterbi School of Engineering for master's degrees and the general requirements of the USC Graduate School for PhD degrees. The graduate program in computer science provides intensive preparation in the basic concepts and techniques related to the design, programming and application of digital computers. Both the Master of Science and Doctor of Philosophy degrees are offered.

A Master of Science degree with specialization in software engineering is also offered. This program seeks to prepare students for an industrial leadership career in software engineering. It also serves as an introduction to this area for students who wish to pursue advanced studies and research leading to a PhD.

A Master of Science degree with specialization in intelligent robotics is also offered. This program seeks to prepare students for an industrial career in the development of computer systems for CAD/CAM (Computer-Aided Design and Manufacturing) and robotics. It also serves as an introduction to this area for students who wish to pursue advanced studies and research leading to a PhD. The emphasis is on the domain of mechanical, electromechanical and mechatronic products. (CAD for digital systems is covered by a separate program offered by the Electrical Engineering-Systems department.)

A Master of Science degree with a specialization in computer networks is offered. This specialization prepares students in the areas of computer communications, networks and distributed processing.

A Master of Science in Computer Science (Multimedia and Creative Technologies) is also offered.

A Master of Science in Computer Science (High Performance Computing and Simulations) is also offered.

A Master of Science in Computer Science (Data Science) is also offered.

A Master of Science in Computer Science (Game Development) is also offered.

A Master of Science in Computer Science (Computer Security) is also offered.

A Master of Science in Computer Science Dual Degree with Tsinghua University School of Information Science and Technology – China is also offered.

A Master of Science in Computer Science (Scientists and Engineers) is also offered for students with limited background in computer science.

Admission and Prerequisites

Admission is determined by the Office of Admission and the Viterbi School of Engineering, in consultation with the Computer Science Department. The applicant is required to have a bachelor's degree or its equivalent from an accredited college or university; satisfactory scores on the verbal and quantitative portions of the aptitude test of the Graduate Record Examinations (one
advanced test from computer science, mathematics or engineering is recommended); and a substantial background in computing constitutes a minimum requirement. Foreign students must earn a satisfactory score on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS).

Bachelor's Degree

Computer Science (BS)
The undergraduate program in computer science is an interdisciplinary program leading to the Bachelor of Science in Computer Science. The program is designed to provide both an academic and professional orientation.

General admission requirements for the undergraduate program are the same as those of the university and the USC Viterbi School of Engineering and include 3 to 5 units of mathematics and one unit of science (biology, chemistry or physics) together with satisfactory scores on the Scholastic Aptitude Test and Achievement Tests. The minimum requirement for the degree is 128 units.

A grade of C (2.0) or better is required for each of the core courses CSCI 103, CSCI 170, CSCI 104 and CSCI 201.

Courses with a grade of C- or below must be repeated; courses may only be retaken once.

Departmental approval is required in order to retake a course. Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper division courses applied toward the major, regardless of the department in which the courses are taken. Candidates must complete general education requirements; see the General Education Program.

Composition/Writing Requirements (7 Units)
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

General Education (24 Units)
- General Education Units: 24

Pre-Major Requirements (29-30 Units)

Engineering (2 units)
- ENGR 102 Engineering Freshman Academy Units: 2

Mathematics (16 units)
- MATH 125g Calculus I Units: 4
- MATH 126 Calculus II Units: 4
- MATH 129 Calculus II for Engineers and Scientists Units: 4
- MATH 225 Linear Algebra and Linear Differential Equations Units: 4
- MATH 226 Calculus III Units: 4
- MATH 229 Calculus III for Engineers and Scientists Units: 4

Statistics and Probability (3-4 units)
- EE 364 Introduction to Probability and Statistics for Electrical Engineering and Computer Science Units: 3 or
- MATH 407 Probability Theory Units: 4

Basic Science (8 units)
One of the following science area course sequences:

Biology:
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Chemistry:
- CHEM 105aLg General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
- CHEM 115aLg Advanced General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4

Physics:
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 161Lg Advanced Principles of Physics I Units: 4

Major Requirements (60 Units)

Computer Science (42 units)
- CSCI 103L Introduction to Programming Units: 4
- CSCI 104L Data Structures and Object Oriented Design Units: 4
- CSCI 109 Introduction to Computer Science Units: 2
- CSCI 170 Discrete Methods in Computer Science Units: 4
- CSCI 201L Principles of Software Development Units: 4
- CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4
- CSCI 310 Software Engineering Units: 4
- CSCI 350 Introduction to Operating Systems Units: 4
- CSCI 356 Introduction to Computer Systems Units: 4
- CSCI 360 Introduction to Artificial Intelligence Units: 4
- CSCI 401 Capstone: Design and Construction of Large Software Systems Units: 4
- CSCI 404 Capstone: Creating Your High-Tech Startup Units: 4

Electrical Engineering (4 units)
- EE 109L Introduction to Embedded Systems Units: 4

Technical electives++ (14 units)
(at least four courses for a minimum of 14 units) Units: 14

++Applicable courses include:
- CSCI 353 Introduction to Internetworking Units: 4
- CSCI 401 Capstone: Design and Construction of Large Software Systems Units: 4
- CSCI 404 Capstone: Creating Your High-Tech Startup Units: 4
- CSCI 420 Computer Graphics Units: 4
- CSCI 423 Native Console Multiplayer Game Development Units: 4
- CSCI 430 Introduction to Computer and Network Security Units: 4
- CSCI 445L MOS VLSI Circuit Design Units: 4
- CSCI 485 File and Database Management Units: 4
- CSCI 459 Computer Systems and Applications Modeling Fundamentals Units: 3
- CSCI 475 Cryptography: Secure Communication and Computation Units: 4
- CSCI 476 Cryptography: Secure Communication and Computation Units: 4
- CSCI 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- CSCI 491L Final Game Project Units: 4
- CSCI 491L Final Game Project Units: 4
- CSCI 499 Special Topics Units: 2, 3, 4
- EE 354L Introduction to Digital Circuits Units: 4
- EE 450 Introduction to Computer Networks Units: 3
- EE 451 Parallel and Distributed Computation Units: 4
- EE 454L Introduction to System-on-Chip Units: 4
- EE 457 Computer Systems Organization Units: 4
- EE 459Lx Embedded Systems Design Laboratory Units: 3
- EE 477L MOS VLSI Circuit Design Units: 4
- EE 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8
- EE 499 Special Topics Units: 2, 3, 4
- ENGR 395ax Cooperative Education Work Experience Units: 1 or 2
- ENGR 395bx Cooperative Education Work Experience Units: 1 or 2
• ENGR 395cx Cooperative Education Work Experience Units: 1 or 2
• ITP 368 Programming Graphical User Interfaces Units: 3
• ITP 380 Video Game Programming Units: 4
• ITP 435 Professional C++ Units: 3
• ITP 439 Compiler Development Units: 3
• ITP 466 Building the High Tech Startup Units: 4
• ITP 485 Programming Game Engines Units: 4
• MATH 458 Numerical Methods Units: 4

Note:
Students may also choose one adviser-approved course from the 300- and 400-level ITP offerings. Other courses may be applicable; please see an adviser for approval.

Free Electives (7-8 Units)

Total units: 128

WRIT 340 Advanced Writing (Communication for Engineers) is strongly recommended for CSCI majors

Courses selected to meet the general education life science and physical science requirements must be approved by the CSCI department to ensure that students achieve the required level of basic science content in their programs.

**Satisfies General Education requirement.

Computer Science (Games) (BS)
The goal of the BS in Computer Science (Games) program is to graduate students with a solid grounding in computer science and a cross-disciplinary background in game development. Topics covered in the cross-disciplinary game development portion of the degree program include game production, visual design for games and interactives, computer animation, video game programming, game hardware architectures, game engine programming, serious game development, introductory and intermediate game design, and two semester-long final game projects. Students graduating from this program will be capable of engineering next-generation games and simulations and their technologies in the entertainment and serious game fields. Additionally, graduates from this program will be able to further their education in graduate programs in game development and computer science.

The requirement for the degree is 128 units.
A grade of C (2.0) or better is required for each of the core courses CSCI 103, CSCI 170, CSCI 104 and CSCI 201.
Courses with a grade of C- or below must be repeated; courses may only be retaken once.
Departmental approval is required in order to retake a course.
Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken.

WRIT 340 Advanced Writing (Communication for Engineers) is strongly recommended for CSGM majors.

**Satisfies GE requirement.

Computer Science/Business Administration (BS)
The combined Bachelor of Science degree program in computer science/business administration offers qualified students the opportunity to gain an educational foundation in both areas. The degree cannot also be combined as an additional major in either computer science or business administration. The degree is administered by the Computer Science Department.

The minimum requirement for the degree is 128 units.
A grade of C (2.0) or better is required for each of the core courses CSCI 103, CSCI 170, CSCI 104 and CSCI 201.
Courses with a grade of C- or below must be repeated; courses may only be retaken once.
Departmental approval is required in order to retake a course.
Students who do not satisfy the degree requirement after repeating a class will be disqualified from the program.

A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken.

- ECON 352x Macroeconomics for Business Units: 4

Technical Electives (9-12 units)
Students must take one course from the Computer Science selection and one from the Business selection and a third course from either one.

Computer Science Electives
Take at least one from the following courses:
- CSCI 360 Introduction to Artificial Intelligence Units: 4
- CSCI 430 Introduction to Computer and Network Security Units: 4
- CSCI 485 File and Database Management Units: 4

Business Electives
Take at least one from the following courses:
- BAEP 452 Feasibility Analysis Units: 4
- BAEP 453 Venture Management Units: 4
- BUAD 301 Technology Entrepreneurship Units: 3
- DSO 431 Foundations of Digital Business Innovation Units: 4
- DSO 433 Business Process Design Units: 4
- DSO 443 The Business of Digital Entertainment Units: 4
- DSO 462 Managing a Small Business on the Internet Units: 2
- MKT 425 Marketing in a Digital World Units: 4

Free Electives (0-1 units)

Total units: 128-131
*WRIT 340 Advanced Writing (Communication for Engineers) is strongly recommended for CSBA majors.
**Satisfies GE requirement.

Minor

Computer Science Minor
The computer science minor introduces the concepts, tools and techniques that are involved in the programming of computers. The minor prepares students to achieve mastery in several current programming languages. In addition, the student will learn about creating effective user interfaces and how to build applications that are available on the Internet.

Required Courses
Lower division (18 units)
- CSCI 103L Introduction to Programming Units: 4
- CSCI 104L Data Structures and Object Oriented Design Units: 4
- CSCI 109 Introduction to Computer Science Units: 2
- CSCI 170 Discrete Methods in Computer Science Units: 4
- CSCI 201L Principles of Software Development Units: 4 or
- CSCI 270 Introduction to Algorithms and Theory of Computing Units: 4

Electives
12 units selected from the following courses:
- CSCI 310 Software Engineering Units: 4
- CSCI 350 Introduction to Operating Systems Units: 4
- CSCI 353 Introduction to Internetworking Units: 4
- CSCI 356 Introduction to Computer Systems Units: 4
- CSCI 360 Introduction to Artificial Intelligence Units: 4
- CSCI 401 Capstone: Design and Construction of Large Software Systems Units: 4
- CSCI 404 Capstone: Creating Your High-Tech Startup Units: 4
- CSCI 420 Computer Graphics Units: 4
- CSCI 430 Introduction to Computer and Network Security Units: 4
- CSCI 445L Introduction to Robotics Units: 4
- CSCI 476 Cryptography: Secure Communication and Computation Units: 4
- CSCI 485 File and Database Management Units: 4
- CSCI 499 Special Topics Units: 2, 3, 4

Total units: 30

Joint Degree

Master of Science in Computer Science Dual Degree with Tsinghua University School of Information Science and Technology – China

The Master of Science in Computer Science Dual Degree with Tsinghua University School of Information Science and Technology – China (THU) leads to two Master of Science degrees in Computer
Science, one from each institution. The dual degrees are subject to the following stipulations:

1. All required courses for each degree are required for the dual degree.
2. The program description for the Tsinghua University Master of Science in Computer Science and Technology is online at http://www.tsinghua.edu.cn/publish/csen/4906/index.html.
3. The general requirements for the MS in Computer Science at USC in this dual degree program are the same as those for the USC general MS in Computer Science without a thesis, except that at least 19 units (of the minimum total of 28) must be completed at USC, and 9 units of pre-approved course work transferred from THU may be counted toward the degree requirements at USC. This is due to:
   a. a special partnership in this area established by a Memorandum of Understanding at the University level to amplify cooperation between USC and THU and between the United States and China in an intellectual and economic arena of great importance to both, where many shared interests exist;
   b. the similarity of the USC and THU curricula, which allows expanded course substitution due to interchangeable content;
   c. the desirability of providing students with a wider array of relevant courses than they can get at either institution;
   d. the opportunity to provide students a unique transcultural experience that will position them to be global leaders in their field.
4. The two MS degrees must be earned at the same time, generally at the end of two and one-half to three years of study. The THU degree requirements must be completed for students to receive the USC MS in Computer Science as part of the dual degree program.
5. Students who elect to receive only the USC degree must change their degree objective from the USC-THU Computer Science (Data Science) to Computer Science (Computer Networks) (MS).

The following required courses must generally be taken at USC: CSCI 570 and one course from each of the following two categories: I. CSCI 551, CSCI 555, CSCI 571, CSCI 577A, CSCI 585, EE 557; II. CSCI 545, CSCI 561, CSCI 564, CSCI 574, CSCI 580, CSCI 582. There must be justification for the omission of a required course in either degree, for example a certain course in one degree may provide comparable content to the omitted course in the other degree.

7. The USC Computer Science Department has identified a list of transferrable THU courses that can be considered USC equivalents but is also willing to entertain transfer, on a case by case basis, of unique THU CSCI courses for which no obvious mapping to a USC CSCI course exists.

8. Courses taken at Tsinghua University by students sent from USC will be taught in English.

9. Other requirements for the Master of Science in Computer Science are the same as set forth in the general requirements for Viterbi School of Engineering Master of Science degrees.

Master's Degree

Computer Science (Computer Networks) (MS)

You must take the following course (4 units):
• CSCI 570 Analysis of Algorithms Units: 4

Choose two of the following courses (8 units):
• CSCI 561 Foundations of Artificial Intelligence Units: 4
• CSCI 571 Web Technologies Units: 4
• CSCI 585 Database Systems Units: 4

Computer Networks - Required Core Courses (14 units)*
• CSCI 551 Computer Networking Units: 4
• CSCI 555L Advanced Operating Systems Units: 4
• CSCI 558L Internetworking and Distributed Systems Laboratory Units: 3
• EE 450 Introduction to Computer Networks Units: 3

You must take 6 units from the following:
• CSCI 530 Security Systems Units: 4
• CSCI 531 Applied Cryptography Units: 4
• CSCI 556 Introduction to Cryptography Units: 4
• CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 **
• CSCI 591 Computer Science Research Colloquium Units: 1 **
• CSCI 599 Special Topics Units: 2, 3, 4
• EE 532 Wireless Internet and Pervasive Computing Units: 3
• EE 550 Design and Analysis of Computer Communication Networks Units: 3
• EE 555 Broadband Network Architectures Units: 3
• EE 558 Optical Fiber Communication Systems Units: 3
• EE 579 Wireless and Mobile Networks Design and Laboratory Units: 3

Total Units
Total Units: Minimum 32

Note:
*CSCI 402 is a prerequisite for CSCI 551, CSCI 555 and CSCI 558.
CSCI 402 is automatically waived for graduate computer science students.
**A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied.

Computer Science (Computer Security) (MS)

Required Courses (20 units)
• CSCI 530 Security Systems Units: 4
• CSCI 531 Applied Cryptography Units: 4
• CSCI 551 Computer Networking Units: 4
• CSCI 555L Advanced Operating Systems Units: 4
• CSCI 570 Analysis of Algorithms Units: 4

Choose two of the following courses (8 units)
• CSCI 561 Foundations of Artificial Intelligence Units: 4
• CSCI 571 Web Technologies Units: 4
• CSCI 585 Database Systems Units: 4

Complete 4 units from the following courses:
• CSCI 556 Introduction to Cryptography Units: 4
• CSCI 577A Software Engineering Units: 4
• CSCI 578 Software Architectures Units: 4
• CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (Max 2 units)
• CSCI 591 Computer Science Research Colloquium Units: 1 (Max 2 units)
• CSCI 599 Special Topics Units: 2, 3, 4 *

Total units: 32

*Topics must be pre-approved by an adviser.

Computer Science (Data Science) (MS)

The Master of Science in Computer Science (Data Science) provides students with a core background in computer science and specialized algorithmic, statistical and systems expertise in acquiring, storing, accessing, analyzing and visualizing large, heterogeneous and real-time data associated with diverse real-world domains including energy, the environment, health, media, medicine and transportation.

Required Courses
• CSCI 561 Foundations of Artificial Intelligence Units: 4
• CSCI 570 Analysis of Algorithms Units: 4
• CSCI 585 Database Systems Units: 4

**Group Electives**
Three Courses with a Minimum of One Course From Each Group

**Group 1 (Data Systems):**
• CSCI 548 Information Integration on the Web Units: 4
• CSCI 572 Information Retrieval and Web Search Engines Units: 4
• CSCI 586 Database Systems Interoperability Units: 4
• CSCI 587 Geospatial Information Management Units: 4
• CSCI 653 High Performance Computing and Simulations Units: 4
• CSCI 685 Advanced Topics in Database Systems Units: 4
• INF 551 Foundations of Data Management Units: 4

**Group 2 (Data Analysis):**
• CSCI 567 Machine Learning Units: 4
• CSCI 573 Probabilistic Reasoning Units: 3
• CSCI 586 Advanced Big Data Analytics Units: 4
• INF 553 Foundations and Applications of Data Mining Units: 4
• ISE 520 Optimization: Theory and Algorithms Units: 3
• MATH 467 Theory and Computational Methods for Optimization Units: 4
• MATH 574 Applied Matrix Analysis Units: 3

**Additional Electives**
Any 500- or 600-level course in CSCI (including additional group electives or special topics)*
• CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• CSCI 591 Computer Science Research Colloquium Units: 1
• INF 554 Information Visualization Units: 4
• INF 558 Building Knowledge Graphs Units: 4
• MATH 458 Numerical Methods Units: 4
• MATH 501 Numerical Analysis and Computation Units: 3
• MATH 502a Numerical Analysis Units: 3
• MATH 502b Numerical Analysis Units: 3
• MATH 505a Applied Probability Units: 3
• MATH 601 Optimization Theory and Techniques Units: 3
• MATH 650 Seminar in Statistical Consulting Units: 3

**Total units required for the degree is 32**

*Note: No more than 4 units may be taken at the 400-level, and maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied. A maximum of 3 INF courses can be taken toward the degree.

**Computer Science (Game Development) (MS)**
The goal of the MS in Computer Science (Game Development) program is to graduate students with a core in computer science, an engineering-oriented game development core and a concentration in one of the key research directions in game development that integrate infrastructure, cognition and games, immersion and serious games. Infrastructure is researching and developing the software and hardware infrastructure necessary for the development of the future of interactive games and large-scale simulations; massively multiplayer online games (MMOs) and simulation networks; game engines and tools; instant games; wireless and mobile games and infrastructures; and next generation consoles. Cognition and games is developing theories for modeling and simulating computer characters and story; developing methods for modeling, simulating and displaying human emotion; analyzing large-scale game play; and developing theories for infusing pedagogy with game play. Immersion is researching and developing the technologies to engage the mind of the game player via sensory stimulation; reading the human emotional state and providing that as an input to the game; and emotionally adaptive game software architectures. Serious games and simulations is developing a theory for the deployment of games and simulations for purposes of education and training, health, public policy and strategic communication; game evaluation; serious game development; and human performance engineering. Students graduating from this program will be capable of engineering next generation games and simulations and their required technologies immediately upon graduation in the entertainment and serious game fields. Additionally, graduates from this program will be able to further their education in graduate programs in game development and computer science. The long-term goal with this MS degree is to establish research and development directions that create a science of games and an accompanying archival literature that improves game development for both serious and entertainment purposes.

**Required Courses (8 Units)**
• CSCI 570 Analysis of Algorithms Units: 4

**One of the following courses (4 units):**
• CSCI 561 Foundations of Artificial Intelligence Units: 4
• CSCI 571 Web Technologies Units: 4
• CSCI 585 Database Systems Units: 4

**Game Development Core (12 Units)**
• CSCI 423 Native Console Multiplayer Game Development Units: 4
• CSCI 522 Game Engine Development Units: 4
• CSCI 580 3-D Graphics and Rendering Units: 4

**Project Classes (6 Units)**
• CSCI 529a Advanced Game Projects Units: 4
• CSCI 529b Advanced Game Projects Units: 2

**Game Development Electives**
Complete 6 units from the following:*
• CSCI 424 Game Engine Tool Development Units: 4
• CSCI 425 Immersive Game Development Units: 4
• CSCI 499 Special Topics Units: 2, 3, 4 or
• CSCI 599 Special Topics Units: 2, 3, 4
• CSCI 520 Computer Animation and Simulation Units: 4
• CSCI 523L Networked Games Units: 4
• CSCI 524 Networked Artificial Intelligence Units: 4
• CSCI 526 Advanced Mobile Devices and Game Consoles Units: 4
• CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• CTIN 591 Computer Science Research Colloquium Units: 1
• CTIN 401L Interface Design for Games Units: 2
• CTIN 403L Advanced Visual Design for Games Units: 2
• CTIN 404L Usability Testing for Games Units: 2
• CTIN 405L Design and Technology for Mobile Experiences Units: 2
• CTIN 406L Sound Design and Technology for Mobile Experiences Units: 2
• CTIN 407L Interface Design for Games Units: 2
• CTIN 408 Designing Social Games Units: 2
• CTIN 486 Alternative Control Workshop Units: 2
• CTIN 488 Game Design Workshop Units: 4
• CTIN 492L Experimental Game Topics Units: 4

**Total units: 32**

*Note:*
• A maximum of 8 units of 400-level courses may be applied. A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied.
• Adviser approval required.

**Computer Science (High Performance Computing and Simulations) (MS)**

**Required Courses**
• CSCI 570 Analysis of Algorithms Units: 4
• CSCI 596 Scientific Computing and Visualization Units: 4
Choose two of the following courses (8 units):
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 571 Web Technologies Units: 4
- CSCI 585 Database Systems Units: 4

Technical Elective Courses
Three of the following courses — students must take at least one course from both the Computer Science Track and the Computational Science/Engineering Application Track.

A. Computer Science Track
- CSCI 520 Computer Animation and Simulation Units: 4
- CSCI 551 Computer Networking Units: 4
- CSCI 558L Internetworking and Distributed Systems Laboratory Units: 3
- CSCI 580 3-D Graphics and Rendering Units: 4
- CSCI 599 Special Topics Units: 2, 3, 4 *
- CSCI 653 High Performance Computing and Simulations Units: 4

B. Computational Science/Engineering Application Track
- AME 535a Introduction to Computational Fluid Mechanics Units: 3 or
- AME 535b Introduction to Computational Fluid Mechanics Units: 3
- CE 529a Finite Element Analysis Units: 3
- CHE 502 Numerical Methods for Diffusive and Convective Transport Units: 3
- EE 553 Computational Solution of Optimization Problems Units: 3
- EE 653 Advanced Topics in Microarchitecture Units: 3
- EE 657 Parallel and Distributed Computing Units: 3
- EE 659 Interconnection Networks Units: 3
- MASC 575 Basics of Atomistic Simulation of Materials Units: 3
- MATH 501 Numerical Analysis and Computation Units: 3
- MATH 578a Computational Molecular Biology Units: 3
- PHYS 516 Methods of Computational Physics Units: 3
- PTE 582 Fluid Flow and Transport Processes in Porous Media Units: 3, 2 years

Complete the remaining units from the group list above or the following:
- CSCI 500- or 600-level course Units: 4
- CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 **
- CSCI 591 Computer Science Research Colloquium Units: 1 **

Note:
*Adviser approval required.
**A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied.

Total units: Minimum 32

Computer Science (Intelligent Robotics) (MS)
You must take the following course (4 units)
- CSCI 570 Analysis of Algorithms Units: 4

Intelligent Robotics - Required Core Courses (8 units)
- CSCI 545 Robotics Units: 4
- CSCI 561 Foundations of Artificial Intelligence Units: 4

Choose one of the following courses (4 units)
- CSCI 571 Web Technologies Units: 4
- CSCI 585 Database Systems Units: 4

Complete 16 units from the following courses*
- CSCI 445L Introduction to Robotics Units: 4
- CSCI 534 Affective Computing Units: 4
- CSCI 540 Self-Organization Units: 4
- CSCI 567 Machine Learning Units: 4
- CSCI 573 Probabilistic Reasoning Units: 3
- CSCI 599 Special Topics Units: 2, 3, 4
- CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- CSCI 591 Computer Science Research Colloquium Units: 1
- CSCI 646 Coordinated Mobile Robotics Units: 4
- Non Computer Science Course from the approved list Units: 3
- 600-level CSCI Course (adviser approval required) Units: 4
- Additional 500-level CSCI course Units: 4

*Note:
CSCI 445 must be taken before CSCI 545. Alternate Robotics/AI related courses may be substituted in the elective area. A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied. Internship courses (ENGR 595a, ENGR 595b, and ENGR 595z) are not eligible for elective credit.

Computer Science (MS)
Requirements for Graduation without a Thesis
A minimum grade point average of 3.0 must be earned on all course work applied toward the master's degree in computer science. This average must also be earned on all graduate courses completed at USC (400-level and above). Transfer units count as credit (CR) toward the master's degree and are not computed in the grade point average. A maximum of 4 units may be taken at the 400 level from approved courses in either electrical engineering or computer science; the remaining units must be approved courses at the 500 or 600 level. MS students may complete a maximum of 8 units of 600-level courses for use in the degree program. Approval for enrollment in 600-level courses must come from the faculty instructor and department adviser. Total units required for the degree is 28. No examination is required for the degree. Other requirements for the Master of Science in Computer Science are the same as set forth in the general requirements for Viterbi School of Engineering master's degrees.

The required courses are as follows:

Required course (4 units):
- CSCI 570 Analysis of Algorithms Units: 4

Choose two of the following courses (8 units):
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 571 Web Technologies Units: 4
- CSCI 585 Database Systems Units: 4

Additional Course Work:
The remaining elective units necessary to earn the degree are completed by selecting additional 500-level CSCI courses.

- Note: A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied. Furthermore, only one course may be 400-level, and up to two courses may be 600-level. With adviser approval, one non Computer Science Course may be selected from the approved list. Thesis courses (CSCI 594a, CSCI 594b, CSCI 594c) and Internship courses (ENGR 595a, ENGR 595b, ENGR 595z) are not eligible for elective credit

Thesis Option:
With the approval of a supervising professor, qualified students may be allowed to pursue a thesis option. Students pursing the thesis option must satisfy all of the policies and course requirements for the master's degree and, in addition, must enroll in a minimum of two semesters of CSCI 594a, CSCI 594b, CSCI 594c for a maximum of 4 units. Total units required for the degree with thesis is 32. The thesis must comply with all requirements set by the Graduate School. Students interested in a thesis while enrolled in a CS specialization should consult with their department adviser.
Computer Science (Multimedia and Creative Technologies) (MS)

You must take the following course (4 units):
- CSCI 570 Analysis of Algorithms Units: 4

Choose two of the following courses (8 units):
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 571 Web Technologies Units: 4
- CSCI 585 Database Systems Units: 4

You must take the following four courses (16 units):
- CSCI 420 Computer Graphics Units: 4
- CSCI 520 Computer Animation and Simulation Units: 4 *
- CSCI 576 Multimedia Systems Design Units: 4
- CSCI 580 3-D Graphics and Rendering Units: 4 *

Complete the remaining units from one of the following options:
- CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 **
- CSCI 591 Computer Science Research Colloquium Units: 1 **
- Non Computer Science Course from the approved list Units: 3-4
- 600-level CSCI Course (advisor approval required) Units: 4
- Additional 500-level CSCI course Units: 4

Note:
* CSCI 420 should be taken before CSCI 520 and CSCI 580.
** A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied.

Total units: Minimum 32

Computer Science (Scientists and Engineers) (MS)

Designed for students with engineering or science bachelor's degree but limited background in computer science, this comprehensive, two-year, 37-unit program combines an introductory sequence of undergraduate preparatory and foundational course work with all the graduate breadth requirements necessary to satisfy the traditional master's degree. Note: The preparatory programming requirement and foundational requirements must be completed at USC and cannot be transferred in or waived. Applicants to this program must meet the admissions standards of the Viterbi School of Engineering.

Preparatory Programming Requirement
- CSCI 455x Introduction to Programming Systems Design Units: 4 *

Foundational Requirements
- CSCI 402 Operating Systems Units: 4
- EE 457 Computer Systems Organization Units: 4 or
- EE 450 Introduction to Computer Networks Units: 3

Breadth Requirements
You must take the following courses (16 units):
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 570 Analysis of Algorithms Units: 4
- CSCI 571 Web Technologies Units: 4
- CSCI 585 Database Systems Units: 4

Electives
Select two courses, 7-8 units, from approved 500- to 600-level course work from Computer Science. Recommended options include:
- CSCI 576 Multimedia Systems Design Units: 4
- CSCI 577a Software Engineering Units: 4
- CSCI 577b Software Engineering Units: 4
- CSCI 580 3-D Graphics and Rendering Units: 4
- CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- CSCI 591 Computer Science Research Colloquium Units: 1

Note:
A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied. Internship courses (ENGR 595a, ENGR 595b, and ENGR 595z) are not eligible for elective credit.

Total program units: 37

Total degree units: 33

Software Engineering –Take all four courses:
- CSCI 510 Software Management and Economics Units: 4
- CSCI 577a Software Engineering Units: 4
- CSCI 577b Software Engineering Units: 4
- CSCI 578 Software Architectures Units: 4

Software Engineering Electives – Complete one of the following courses (4 units):
- CSCI 512 Testing and Analysis of Software Systems Units: 4
- CSCI 568 Requirements Engineering Units: 4
- CSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- CSCI 599 Special Topics Units: 2, 3, 4

Note:
A maximum of 2 units of CSCI 590 and a maximum of 2 units of CSCI 591 may be applied.

Total units: Minimum 32

University Certificate

Software Architecture Graduate Certificate

This certificate program will provide engineers with the skills required to face the increasingly complex future in architecting systems, systems of systems and software-intensive systems. Students will be exposed to the concepts, principles and state-of-the-art methods in software architectures. This program introduces principles and approaches for modeling systems using SysML; applies software engineering process models and management approaches to the design and architecture of large software systems; and guides the architect through every phase of the conception, implementation, deployment and finally retirement of software systems. It is expected that participants in the certificate program will have completed an undergraduate degree in computer science or a related field and will have several years of practical experience in software engineering and/or systems engineering. If students are later admitted to the Master of Science in Computer Science, the courses taken for the certificate may be applied to that program.
Required Courses

- CSCI 568 Requirements Engineering Units: 4
- CSCI 578 Software Architectures Units: 4
- SAE 547 Model-Based Systems Architecting and Engineering Units: 3
- SAE 549 Systems Architecting Units: 3

Electives (Choose One)

- CSCI 510 Software Management and Economics Units: 4
- CSCI 530 Security Systems Units: 4 **
- CSCI 555L Advanced Operating Systems Units: 4 *
- CSCI 577a Software Engineering Units: 4
- CSCI 577b Software Engineering Units: 4
- CSCI 589 Software Engineering for Embedded Systems Units: 4
- EE 557 Computer Systems Architecture Units: 3 **
- SAE 541 Systems Engineering Theory and Practice Units: 3

Total units: 17-18

*Prerequisite: CSCI 402
**Prerequisite: EE 457

Doctoral Degree

Computer Science (PhD)

The Doctor of Philosophy with a major in computer science is awarded in strict conformity with the general requirements of the USC Graduate School. See Requirements for Graduation - GRAD. Departmental requirements for this degree consist of a concentrated program of study and research and a dissertation. Consult a separately published guide, available from the department office and Website, for more information concerning course requirements, the screening procedure, the teaching requirement, the qualifying examination, the thesis proposal and other requirements.

Course Requirements

Each student is required to complete two semesters of CSCI 697 (1 unit each, 2 maximum) and CSCI 670 (4 units). In addition, students are required to pass two semesters of CSCI 698 (1-2 units each, no maximum) as part of a teaching requirement.

Elective courses: In addition to the mandatory courses, each student must complete five CSCI courses at the 500 level and above, 4 units each. No more than two of these courses (8 units total) may be at the 500 level; the remaining must be CSCI courses at the 600 level. Directed Research units or thesis credits do not satisfy this requirement. Students are strongly advised to take at least one of their elective courses in an area of computer science that is different from their proposed area of research. The PhD adviser is expected to provide guidance on this matter to the student.

The CSCI 670 course requirement may be waived by examination only. Each course in the department has a faculty member who is designated as the course "owner." The owner of CSCI 670 is in charge of creating and grading the waiver examination. CSCI 697 and CSCI 698 may not be waived.

Course Requirements

Each PhD student is expected to demonstrate breadth of knowledge as well as depth in a chosen area of concentration. Hence, the required courses fall into two groups: (1) a common core, required of all doctoral students, and (2) additional required courses which depend on the student's area of concentration. The common core consists of five courses selected from the following five groups. Students must complete one class from each group:

Group 1

- EE 557 Computer Systems Architecture Units: 3
- CSCI 551 Computer Networking Units: 4
- CSCI 555L Advanced Operating Systems Units: 4

Group 2

- CSCI 577a Software Engineering Units: 4
- CSCI 571 Web Technologies Units: 4
- CSCI 585 Database Systems Units: 4

Group 3

- CSCI 545 Robotics Units: 4
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 564 Brain Theory and Artificial Intelligence Units: 3

Group 4

- CSCI 574 Computer Vision Units: 3
- CSCI 580 3-D Graphics and Rendering Units: 4
- CSCI 582 Geometric Modeling Units: 3

Group 5

- CSCI 670x Advanced Analysis of Algorithms Units: 4
- CSCI 581 Logic and its Applications Units: 3
- MATH 501 Numerical Analysis and Computation Units: 3

Note:

A minimum GPA of 3.5 must be obtained in these five core courses.

Additional Requirements

In addition, all PhD students must register for two semesters of CSCI 597 Seminar in Computer Science Research for a maximum of 2 units during their first year. PhD programs in computer science are grouped into the following specializations: Network and Systems (Interaction); Databases (Interaction); Software Engineering (Interaction); Robotics (Autonomy); Intelligent Agents and Organizations (Autonomy); Natural Language Processing (Autonomy); Graphics and Multimedia (Immersion); Vision (Immersion); Theory of Computation: Genomic, Molecular and Quantum Computation (Computation); Brain Theory and Neural Networks (Computation); High Performance Computing and Parallel Computation (Computation).

Each student must select a specialization as his or her area of concentration. Each specialization requires a minimum of three additional courses. Specific specialization requirements (which may change as the fields change) will be provided to the students by the department.

Required courses may be taken in any chronological order, with due attention to prerequisites, and may precede or follow the Screening Evaluation.

A total of 60 units, at least 40 at the 500 level or above, beyond the bachelor's degree is required (including the above required courses). A minimum grade point average of 3.5 must be maintained. Students with a Master of Science degree may transfer up to 27 units.

Qualifying Examination

All doctoral students must pass a qualifying examination in computer science within four years before being admitted to candidacy. The qualifying examination tests the student's broad knowledge of computer science and deep insight into a chosen area of research.

Permission to take the qualifying examination must be obtained from the dean of graduate studies at least 60 days prior to its occurrence, and must be taken in the semester for which permission is granted. The qualifying exam committee administers the qualifying examination and evaluates the student's performance.

If the examination is failed, the qualifying exam committee may recommend that the student repeat the examination 6–12 months later. The examination cannot be taken more than twice.

Dissertation

An acceptable dissertation based upon original research is required. The dissertation must show mastery of some special field, must be an original contribution to that field and must be presented in scholarly form.

Defense of the Dissertation

When all other requirements are satisfied, the candidate must pass a public final oral examination in defense of the dissertation.

William M. Keck Chair in Engineering: P. Daniel Dakopoulos, PhD
Robert G. and Mary G. Lane Early Career Chair: Murali Annavaram, PhD
Gordon S. Marshall Chair in Engineering: Gaurav Sukhatme, PhD
Niki and Max Nikias Chair in Engineering: Shrikanth (Shri) Narayanan, PhD
Fred W. O’Green Chair in Engineering: Leonard M. Silverman, PhD
Robert C. Packard President’s Chair and Malcolm R. Currie Chair in Technology and the Humanities: C. L. Max Nikias, PhD
Colleen and Roberto Padovani Early Career Chair in Electrical Engineering: Mike Chen, PhD
George T. Pfleger Chair in Electrical Engineering: Robert W. Hellworth, PhD
Charles Lee Powell Chair in Engineering: Viktor Prasanna, PhD
Charles Lee Powell Chair in Engineering and Computer Science: Massoud Pedram, PhD
Steven and Kathryn Sample Chair in Engineering: Alan E. Willner, PhD
Leonard Silverman Chair: Alexander A. Sawchuk, PhD
Andrew and Erna Viterbi Early Career Chair: Maryam M. Shanechi, PhD
WISE Junior Gabilian Chair: Michelle Povinelli, PhD
Fred H. Cole Professorship in Engineering: Robert A. Scholtz, PhD
Dean’s Professor in Electrical Engineering: Chung-Chieh Kuo, PhD
Dean’s Professor of Electrical Engineering: Richard Leahy, PhD*
Dean’s Professor in Electrical Engineering: Urbashi Mitra, PhD
Louise L. Dunn Endowed Professorship in Engineering: Timothy Pinkston, PhD
William M. Hogue Professorship in Electrical Engineering: Mahta Moghaddam, PhD
Stephen and Etta Varra Professor: Massoud Pedram, PhD
Viterbi Professorship in Engineering: Daniel Lidor, PhD
Ming Hsieh Faculty Fellow in Electrical Engineering: Hossein Hashemi, PhD
Ming Hsieh Faculty Fellow in Electrical Engineering: Blaskar Krishnamachari, PhD

Professors: Todd Brun, PhD (Computer Science, Physics and Astronomy); Keith M. Chugg, PhD; Stephen B. Cronin, PhD (Physics); P. Daniel Dakopoulos, PhD (Materials Science); Michel Dubois, PhD; Martin Gundersen, PhD (Mathematics, Science, Physics); Sandeep Gupta, PhD; Robert W. Hellworth, PhD (Physics); Hossein Hashemi, PhD; Kai Hwang, PhD (Computer Science); Petros Ioannou, PhD (Aerospace and Mechanical Engineering, Industrial and Systems Engineering); B. Keith Jenkins, PhD; Edmond Jonckheere, PhD (Mathematics); Mihailo Jovanovic, PhD; Eun Sok Kim, PhD; Barr Kosko, PhD (Law); Bhaskar Krishnamachari, PhD (Computer Science); Chung-Chieh Kuo, PhD (Computer Science); Richard Leahy, PhD* (Biomedical Engineering, Radiology); Anthony F. J. Levi, PhD (Physics); Daniel Lidar, PhD (Chemistry, Physics and Astronomy); William C. Lindsey, PhD; Jerry M. Mendel, PhD; Urbashi Mitra, PhD (Computer Science); Mahita Moghaddam, PhD; Andreas Molisch, PhD; Shrikanth (Shri) Narayanan, PhD (Computer Science, Linguistics, Pediatrics, Psychology); Krishna Nayak, PhD (Biomedical Engineering, Pediatrics, Radiology); C. L. Max Nikias, PhD; John O’Brien, PhD; Antonio Ortega, PhD; Alice C. Parker, PhD*; Massoud Pedram, PhD; Timothy Pinkston, PhD; Viktor Prasanna, PhD (Computer Science); C. Raghavendra, PhD (Computer Science); Alexander A. Sawchuk, PhD*; Robert A. Scholtz, PhD; Leonard Silverman, PhD; John Silvester, PhD; John B. Slaughter, PhD (Education); Armand R. Tanguay Jr., PhD (Biomedical Engineering, Materials Science, Physics); Andrew J. Viterbi, PhD; Alan E. Willner, PhD*; Chongwu Zhou, PhD
Associate Professors: Murali Annavaram, PhD (Computer Science); Salman Avetisinehr, PhD; Peter Beerel, PhD; Michael Shuo-Wei Chen, PhD; Rahul Jain, PhD (Computer Science, Industrial and Systems Engineering); Christos Kyriakakis, PhD; Michael Neely, PhD; Michelle Povinelli, PhD; Aluzio Prata Jr., PhD*; Konstantinos Psomunis, PhD (Computer Science); Benjamin W. Reichardt, PhD (Computer Science); Wei Wu, PhD
Assistant Professors: Paul Bogdan, PhD; Dina El-Damak, PhD; Panayiotis Georgiou, PhD (Computer Science); Justin Haldar, PhD (Biomedical Engineering); Rehan Kapadia, PhD; Ashutosh Nayyar, PhD; Pierluigi Nuzzo, PhD; Xuehai Qian, PhD (Computer Science); Maryam M. Shanechi, PhD; Mahdi Soltanolkotabi, PhD (Computer Science); Han Wang, PhD; Insoo Yang, PhD
Adjunct Professors: Giuseppe Caire, PhD; Dan Goebel, PhD; Murali Kota, PhD; P. Vijay Kumar, PhD
Adjunct Associate Professors: Serge Dubovitsky, PhD; Alexandros Potamianos, PhD; P. Thomas Vernier, PhD
Adjunct Assistant Professor: Bindu Madhavan, PhD
Adjunct Research Professor: Dmitry Starodubov, PhD
Research Professor: Willie Ng, PhD
Research Associate Professors: Stephen Crago, PhD; Jeffrey Draper, PhD
Research Assistant Professors: Anand Joshi, PhD; Sunbok Lee, PhD; Federico Spezialieri, PhD; John Stang, PhD; Alineza Tabatabaenejad, PhD
Professors of Engineering Practice: Mary Estahghian-Wilner, PhD; Edward W. Maby, PhD; Gandhhi Puvvada, MS*
Associate Professors of Engineering Practice: Mohammed Beshir, PhD; Shahin Nazarian, PhD; Mark Redekopp, MS (Computer Science)*
Senior Lecturer: Douglas Burke, PhD
Lecturer: Ali Zahid, PhD
Emeritus Professors: Hans H. Kuehl, PhD*; Michael J. Safonov, PhD; William H. Steier, PhD; Lloyd Welch, PhD (Mathematics)
Emeritus Instructor: Sidney A. Wielen, BS
Research Professor Emeritus of Electrical Engineering: Sanjit Mitra, PhD

Joint Faculty
Joint Professors: Stanley P. Azen, PhD (Preventive Medicine and Biomedical Engineering); Jack Feinberg, PhD (Physics); Leana Golubchik, PhD (Computer Science); Ramesh Govindan, PhD (Computer Science); Ellis Horowitz, PhD (Computer Science); Gerard Medioni, PhD (Computer Science); Ellis Meng, PhD (Biomedical Engineering); Ulrich Neumann, PhD (Computer Science); Ramakant Nevatia, PhD (Computer Science); Si-Zhao Qin, PhD (Chemical Engineering); Suvrajit Sen, PhD (Industrial and
Systems Engineering); Cyrus Shahabi, PhD (Computer Science); Gaurav Sukhatme, PhD (Computer Science); Paul Thompson, PhD (Ophthalmology); Arthur Toga, PhD (Ophthalmology); William G. Wagner, PhD (Physics); Curt F. Wittig, PhD (Chemistry; Physics); Stanley M. Yamashiro, PhD (Biomedical Engineering) Joint Associate Professors: Andrea M. Armani, PhD (Chemical Engineering and Materials Science); Behnam Jafarpour, PhD (Chemical Engineering and Materials Science); Jia Grace Lu, PhD (Physics); Yan Liu, PhD (Computer Science); Elena Nezami, PhD (Preventive Medicine); John Van Horn, PhD (Neurology) Joint Assistant Professors: Ketan Savla, PhD (Civil, Environmental Engineering); Yonggang Shi, PhD (Neurology); Jongseung Yoon, PhD (Chemical Engineering, Materials Science) Joint Research Professor: Fred Aminzadeh, PhD (Chemical Engineering, Materials Science) Joint Research Associate Professor: Joseph Touch, PhD (Computer Science) Joint Research Assistant Professor: Young Cho, PhD (Computer Science) Joint Emeritus Professors: Michael Arbib, PhD (Computer Science, Neurobiology, Biomedical Engineering); George A. Bekey, PhD (Computer Science, Biomedical Engineering); Aristides Requicha, PhD (Computer Science) *Recipient of university-wide or school teaching award.

Electrical Engineering Honor Society: Eta Kappa Nu

Degree Requirements

Undergraduate Program Educational Objectives

The electrical engineering program objectives are designed to promote technical competence, professional development and citizenship in the global community. Graduates of the undergraduate program in electrical engineering are expected to attain the following objectives within a few years of graduation:

Technical Competence

Graduates will apply their technical skills in mathematics, science and engineering to the solution of complex problems encountered in modern electrical engineering practice.

Graduates will model, analyze, design and experimentally evaluate components or systems that achieve desired technical specifications subject to the reality of economic constraints.

Professional Development

Graduates will compete effectively in a world of rapid technological change and assume leadership roles within industrial, entrepreneurial, academic or governmental environments in the broad context of electrical engineering.

Some graduates who choose to redirect their careers will be employed in diverse fields such as healthcare, business, law, computer science, multimedia and music through graduate-level studies and the process of lifelong learning.

Citizenship in the Global Community

Graduates will have established the foundations for critical thinking that are needed to broaden or redirect their careers in diverse disciplines such as business, health care and the arts through graduate-level studies and/or the process of life-long learning.

Graduates will adhere to highly ethical practices, and they will make exemplary engineering decisions that balance economic, environmental and societal factors for the betterment of the global community.

Undergraduate Program Criteria

The program leading to a Bachelor of Science in Electrical Engineering provides both breadth and depth across the range of engineering topics implied by the title. The curriculum includes probability and statistics, including appropriate applications; mathematics through differential and integral calculus, and advanced mathematics, such as differential equations, linear algebra, complex variables and discrete mathematics; sciences (defined as biological, chemical or physical science); and engineering topics (including computing science) necessary to analyze and design complex electrical and electronic devices, software and systems containing hardware and software components.

Bachelor of Science in Computer Engineering and Computer Science

See the listing under Computer Engineering Program.

Master of Science in Computer Engineering

See the listing under Computer Engineering Program.

Doctor of Philosophy in Computer Engineering

See the listing under Computer Engineering Program.

Minor in Music Recording

A minor in music recording is offered through the USC Thornton School of Music to provide undergraduate students with the background necessary to enter the field of recording engineering and to familiarize them with the design needs of modern recording equipment. The minor is recommended to electrical engineering majors with extensive musical training who would like to combine their technical and musical abilities while learning the engineering applications of physical and mathematical principles to the art of music recording. See the listing under the USC Thornton School of Music.

Master of Science in Electrical Engineering (Electric Power)

See listing in the Sustainable Infrastructure Systems Program section.

Master of Science in Systems Architecting and Engineering

See the listing under Systems Architecting and Engineering Program.

Financial Engineering

Electrical Engineering Building 100
(213) 740-4447
FAX: (213) 740-4449
Email: studentinfo@ee.usc.edu
Faculty Contact: Professor Petros Ioannou, ioannou@usc.edu

Second Master's Degree

A graduate student who already holds a master's degree from USC may apply up to 4 units toward a second master's degree with the permission of the chair of the major department. All credit, including the transferred units, must be earned within seven calendar years.

For students who earned their first master's degree at another institution, no course work may be repeated from the first program of study and no unit credit from the first program of study may be counted toward the second master's degree.

Engineer in Electrical Engineering

Requirements for the Engineer in Electrical Engineering are the same as those listed under Engineer degree, except that both areas of concentration must be in electrical engineering.

Bachelor's Degree

Electrical Engineering (BS)

The requirement for the degree is 128 units. A cumulative grade point average of C (2.0) is required for all courses taken at USC as well as all upper-division courses applied toward the major, regardless of the department in which the courses are taken. See also the common requirements for undergraduate degrees section.

University Requirements (31 units)

Composition/Writing Requirements (7 units)

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
- WRIT 340 Advanced Writing Units: 3, 4

General Education (24 units)

- General education Units: 24
Pre-Major Requirements (30 units)
Math Requirement (12 units)
- MATH 129 Calculus II for Engineers and Scientists Units: 4 or
- MATH 127 Enhanced Calculus II Units: 4 or
- MATH 126 Calculus II Units: 4
- MATH 229 Calculus III for Engineers and Scientists Units: 4 or
- MATH 227 Enhanced Calculus III Units: 4 or
- MATH 226 Calculus III Units: 4
- MATH 245 Mathematics of Physics and Engineering I Units: 4

Physics Requirement (12 units)
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4 **
- PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4
- PHYS 153L Fundamentals of Physics III: Optics and Modern Physics Units: 4

Biology Requirement (4 units)
Choose one**: 
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- CHE 301g Introduction to Engineering Biology Units: 4
- CHEM 203Lg AIDS Drug Discovery and Development Units: 4
- CHEM 350g Molecular Principles of Biochemistry Units: 4

Engineering (2 units)
- ENGR 102 Engineering Freshman Academy Units: 2

Major Requirements (54 units)
Electrical Engineering (38 units)
- EE 105 Introduction to Electrical Engineering Units: 4
- EE 109L Introduction to Embedded Systems Units: 4
- EE 141L Applied Linear Algebra for Engineering Units: 4
- EE 155L Introduction to Computer Programming for Electrical Engineers Units: 4
- EE 202L Linear Circuits Units: 4
- EE 250L Distributed Systems for the Internet of Things Units: 4
- EE 301L Linear Systems Units: 4
- EE 330 Electromagnetics I Units: 3
- EE 355x Software Design for Electrical Engineers Units: 4
- EE 364 Introduction to Probability and Statistics for Electrical Engineering and Computer Science Units: 3

Engineering Electives (16 units)
Students must fulfill a minimum requirement of 16 units of adviser-approved upper division elective courses in electrical engineering. Of these 16 units, 3-4 units must selected from the following list of capstone design courses:
- EE 422x Electromagnetic Systems Design Units: 3
- EE 423Lx Loudspeaker and Sound-System Design Units: 3
- EE 434Lx Digital Signal Processing Design Laboratory Units: 4
- EE 447Lx Mixed Signal Electronic Circuits Units: 4
- EE 459Lx Embedded Systems Design Laboratory Units: 3
- EE 484x Communication System Design Units: 3
- EE 494a Undergraduate Thesis Units: 2
- EE 494b Undergraduate Thesis Units: 2
**Students may use EE 494a and EE 494b Undergraduate Thesis 2-2 units to satisfy the capstone design requirement.

Free Electives (13 units)
Free elective courses are used to complete the university minimum 128-unit requirement. Students are encouraged to investigate minor options when satisfying this requirement.

Total units: 128
*MATH 129 and MATH 229 is the preferred calculus sequence for electrical engineering students. Students advised to begin with MATH 125 as a prerequisite to MATH 129 have 4 fewer units of free electives in their programs.
*Satisfies GE requirement.
**Students enrolled in the progressive degree program may take EE 503 (4) to satisfy this requirement.

Master's Degree
Electrical Engineering (Computer Networks) (MS)
Under the computer networks option students must satisfy the MS, Electrical Engineering requirements with the exception that only 15 units of EE are required.

Fundamental Courses
It is expected that each student in this program will take or have taken the equivalent of three of the four following fundamental courses:
- CSCI 402 Operating Systems Units: 4
- EE 450 Introduction to Computer Networks Units: 3
- EE 457 Computer Systems Organization Units: 4
- EE 503 Probability for Electrical and Computer Engineers Units: 4

Note:
With the exception of EE 503, the fundamental courses may also be satisfied by having passed EE placement exams.

Three of the following courses are required:
- CSCI 551 Computer Networking Units: 4
- EE 550 Design and Analysis of Computer Communication Networks Units: 3
- EE 555 Broadband Network Architectures Units: 3
- EE 597 Wireless Networks Units: 3

Note:
If a fourth required course is taken it can be counted toward elective credit.

Suggested elective courses include:
- CSCI 530 Security Systems Units: 4
- CSCI 555L Advanced Operating Systems Units: 4
- CSCI 558L Internetworking and Distributed Systems Laboratory Units: 3
- CSCI 570 Analysis of Algorithms Units: 4
- EE 512 Stochastic Processes Units: 3
- EE 532 Wireless Internet and Pervasive Computing Units: 3
- EE 535 Mobile Communications Units: 3
- EE 554 Real Time Computer Systems Units: 3
- EE 557 Computer Systems Architecture Units: 3
- EE 558 Optical Fiber Communication Systems Units: 3
- EE 579 Wireless and Mobile Networks Design and Laboratory Units: 3
- EE 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- EE 649 Stochastic Network Optimization Units: 3
- EE 650 Advanced Topics in Computer Networks Units: 3
- EE 652 Low-Power Wireless Networks Units: 3
- EE 659 Interconnection Networks Units: 3

Note:
Any other course must be approved by a faculty adviser.

Total units required for the degree: 27
Electrical Engineering (MS)
A minimum grade point average of 3.0 must be earned on
all course work applied toward the master's degree in electrical engineering. This average must also be achieved on all 400-level and above course work attempted at USC beyond the bachelor's degree and through an accumulation of no more than 12 units beyond the minimum needed for the specific degree program. Transfer units count as credit (CR) toward the master's degree and are not computed in the grade point average.

In addition to the general requirements of the Viterbi School of Engineering, the Master of Science in Electrical Engineering is also subject to the following requirements: (1) a total of at least 28 units is required; (2) every non-EE course for graduate credit requires prior written adviser approval recorded each semester on a special request form in the student's department file; (3) no more than three courses (maximum 12 units) may be counted at the 500- or 600-level; (4) at least 20 units must be taken in electrical engineering, those not in EE require written adviser approval and must be technical in nature; (5) a maximum of two EE 599 Special Topics courses (8 units) may be counted toward the MSE; (6) at most, 4 units of EE 590 (Directed Research) and 1 unit of seminar, EE 598 (or other seminar with adviser approval), may be counted toward the MSE; (7) units to be transferred (maximum 4 with adviser approval) must have been taken prior to taking classes at USC - interruption of residency is not allowed. Curricular Practical Training units do not count toward the 28 required units in the MSE program.

Aerospace Controls Option
The aerospace controls option is available as an area of emphasis for MSE students interested in learning to apply innovative control techniques to aerospace control problems. In addition to 20 approved units of electrical engineering courses, students in this option will take at least two of the following aerospace and mechanical engineering courses:

- AME 453 Engineering Dynamics Units: 3
- AME 532a Flight Vehicle Stability and Control Units: 3
- AME 532b Flight Vehicle Stability and Control Units: 3
- AME 525 Engineering Analysis Units: 3
- AME 526 Engineering Analytical Methods Units: 3
- ASTE 580 Orbital Mechanics I Units: 3

Electrical Engineering (Multimedia and Creative Technologies) (MS)

Students may earn a specialization in multimedia and creative technologies by completing the general requirements for the Master of Science in Electrical Engineering and the following additional requirements:

- At most four units of electives can be taken outside of the Viterbi School of Engineering with adviser approval. Some examples are CTAN 452 Introduction to 3-D Computer Animation (2 units) and CTIN 483 Introduction to Game Development (4 units).
- Computer science courses that are cross-listed with EE can (but do not have to) count toward the 18 EE units. Up to nine units of other CSCI courses that either are or are not cross-listed can also be used. Multimedia and creative technologies draws heavily on concepts and techniques from computer science.
- Students must include the following three courses in their program
  - EE 483 Introduction to Digital Signal Processing Units: 3
  - EE 519 Speech Recognition and Processing for Multimedia Units: 3
  - EE 569 Introduction to Digital Image Processing Units: 3
- A course can be waived if a student can demonstrate equivalent knowledge of the material and if the course instructor will certify it.
- Students must include six courses from the following list of courses in their programs for a total of 18 units.

Approved Courses for the Multimedia Specialization

Courses in Electrical Engineering
- EE 450 Introduction to Computer Networks Units: 3
- EE 522 Immersive Audio Signal Processing Units: 3
- EE 555 Broadband Network Architectures Units: 3
- EE 577a VLSI System Design Units: 3
- EE 586L Advanced DSP Design Laboratory Units: 4
- EE 596 Wavelets Units: 3
- EE 619 Advanced Topics in Automatic Speech Recognition Units: 3
- EE 669 Multimedia Data Compression Units: 3

Courses in Computer Science
- CSCI 455x Introduction to Programming Systems Design Units: 4
- CSCI 485 File and Database Management Units: 4
- CSCI 551 Computer Networking Units: 4
- CSCI 571 Web Technologies Units: 4
- CSCI 574 Computer Vision Units: 3
- CSCI 576 Multimedia Systems Design Units: 4
- CSCI 580 3-D Graphics and Rendering Units: 4
- CSCI 582 Geometric Modeling Units: 3
- CSCI 585 Database Systems Units: 4

Courses from the School of Cinematic Arts
- CTAN 452 Introduction to 3-D Computer Animation Units: 2
- CTIN 483 Introduction to Game Development Units: 4

Course in Information Technology
- ITP 411 Multimedia and Video Production Units: 3

Additional Requirements
- Students may replace courses in the above list with a combined maximum of multimedia-related EE 599 or CSCI 599 Special Topics courses in their programs. Every course requires prior approval from the faculty adviser, recorded each semester on the plan of study form.
- Students may include a maximum of 6 units of EE 590 Directed Research in their programs. Before registering for these units, the faculty adviser must approve a written description of the intended multimedia research project signed by the faculty member who will supervise the student.
- Students entering this program are expected to have already been placed in C++ programming, at the level taught in CSCI 455. Placement examinations that is given each semester for either EE 441 or EE 464 before taking the approved course. Information about placement exams can be found at ee.usc.edu.
- Although not required, students should be proficient in C or C++ programming, at the level taught in CSCI 455.
- Although not required, ITP 411 Multimedia and Video Production (3 units) will provide the student with hands-on experience in using multimedia application tools. This will help the student prepare a portfolio, which is expected by the industry from students who major in a multimedia program.

Electrical Engineering (VLSI Design) (MS)
The Master of Science in Electrical Engineering (VLSI design) is earned by successfully completing the normal requirements for the Master of Science in electrical engineering, with the following additional required courses: EE 536a; EE 577a; EE 577b or EE 536b; and EE 552. If a student chooses to take EE 536b as well as EE 577b, the student may either count EE 536b as one of the courses for Area 2 or EE 577b as one of the courses for Area 1 or Area 3. No more than three courses (maximum 12 units) may be counted at the 400 level — at least 18 adviser-approved units must be taken at the 500 or 600 level.
The students must also take two courses from one of the following areas and one course from a second area:

**Area 1:**
- CSCI 455x Introduction to Programming Systems Design Units: 4
- EE 560L Digital System Design Units: 4
- EE 577b VLSI System Design Units: 3 (see above)
- EE 658 Diagnosis and Design of Reliable Digital Systems Units: 3
- EE 680 Computer-Aided Design of Digital Systems I Units: 3
- EE 681 Computer-Aided Design of Digital Systems II Units: 3

**Area 2:**
- EE 448L Communication Electronics Units: 4
- EE 504L Solid-State Processing and Integrated Circuits Laboratory Units: 3
- EE 536b Mixed-Signal Integrated Circuit Design Units: 4 (see above)
- EE 537 Modern Solid-State Devices Units: 3
- EE 632 Integrated Communication Systems Units: 3

**Area 3:**
- CSCI 455x Introduction to Programming Systems Design Units: 4
- CSCI 570 Analysis of Algorithms Units: 4
- EE 557 Computer Systems Architecture Units: 3
- EE 560L Digital System Design Units: 4
- EE 577b VLSI System Design Units: 3 (see above)
- EE 659 Interconnection Networks Units: 3
- EE 677 VLSI Architectures and Algorithms Units: 3

**Note:**
With explicit approval of a faculty adviser, EE 599 Special Topics and/or 3 units of EE 590 Directed Research may be used to meet requirements for any of the approved areas.

**The remaining courses must be technical electives approved by the adviser, and can including the following:**
- EE 457 Computer Systems Organization Units: 4
- EE 477L MOS VLSI Circuit Design Units: 4
- EE 479 Analog Integrated Circuit Design Units: 4
- EE 501 Solid State Units: 3
- EE 502 Advanced Solid State Units: 3
- EE 504L Solid-State Processing and Integrated Circuits Laboratory Units: 3
- EE 506 Semiconductor Physics Units: 3
- EE 540 Introduction to Quantum Electronics Units: 3
- EE 554 Real Time Computer Systems Units: 3
- EE 556L Digital System Design Units: 4
- EE 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- EE 601 Advanced Semiconductor Device Physics Units: 4
- EE 677 VLSI Architectures and Algorithms Units: 3

**Electrical Engineering (Wireless Health Technology) (MS)**
The Master of Science in Electrical Engineering (Wireless Health Technology) is a unique interdisciplinary degree program that prepares graduates for the design and improvement of future wireless networks such as the "Internet of Things." The program combines courses related to radio hardware, transmission techniques, the medium-access control layer, networking, applications and standards.

No more than three courses (maximum 12 units) may be counted at the 400 level — at least 18 adviser-approved units must be taken at the 500 or 600 level.

**Required Courses (15 Units)**
- CSCI 402 Operating Systems Units: 4
- EE 503 Probability for Electrical and Computer Engineers Units: 4
- EE 511 Simulation Methods for Stochastic Systems Units: 1
- EE 535 Mobile Communications Units: 3
- EE 597 Wireless Networks Units: 3

**Elective Courses (12-14 Units, at Least One Course from Two Areas)**

**Transmission Techniques and Signal Processing**
- EE 483 Introduction to Digital Signal Processing Units: 3
- EE 558 Optical Fiber Communication Systems Units: 3
- EE 564 Digital Communication and Coding Systems Units: 4
- EE 583 Statistical Signal Processing Units: 3
- EE 586L Advanced DSP Design Laboratory Units: 4

**Architectures, Protocols, and Applications**
- EE 519 Speech Recognition and Processing for Multimedia Units: 3
- EE 532 Wireless Internet and Pervasive Computing Units: 3
- EE 550 Design and Analysis of Computer Communication Networks Units: 3
- EE 555 Broadband Network Architectures Units: 3
- EE 579 Wireless and Mobile Networks Design and Laboratory Units: 3
- EE 652 Low-Power Wireless Networks Units: 3
Communication Hardware and Design
- EE 448L Communication Electronics Units: 4
- EE 541 Radio Frequency Filter Design Units: 3
- EE 544 Radio Frequency Systems and Hardware Units: 3

Note:
This program assumes prerequisite preparation in the area of computer networks. Students who do not meet this requirement or who do not pass a related placement exam will be required to take EE 450 Introduction to Computer Networks.

Financial Engineering (MS)
The objective of this program is the training of graduate students with engineering, applied mathematics or physics backgrounds in the application of mathematical and engineering tools to finance. Financial engineering is a multidisciplinary education program that involves the Viterbi School of Engineering, the USC Marshall School of Business and the USC Dornsife College of Letters, Arts and Sciences (Department of Economics). Financial engineering uses tools from finance and economics, engineering, applied mathematics and statistics to address problems such as derivative securities valuation, strategic planning and dynamic investment strategies, and risk management, which are of interest to investment and commercial banks, trading companies, hedge funds, insurance companies, corporate risk managers and regulatory agencies.

A minimum grade point average of 3.0 must be earned on all course work applied toward the master's degree in financial engineering. Transfer units count as credit (CR) toward the master's degree and are not computed in the grade point average. In addition to the general requirements of the Viterbi School of Engineering, the Master of Science in Financial Engineering is also subject to the following requirements: (1) a total of at least 30 units is required; (2) every plan of study requires prior written approval by the contact faculty of the program; (3) units to be transferred (maximum of four with adviser approval) must have been taken prior to taking classes at USC; interruption of residency is not allowed.

Curriculum
The degree requirements include six required courses and two courses from each of two lists of electives for a minimum total of 30 units.

Required
- GSBA 548 Corporate Finance Units: 2, 3
- FBE 559 Management of Financial Risk Units: 3 or ISE 563 Financial Engineering Units: 3
- EE 503 Probability for Electrical and Computer Engineers Units: 4
- EE 512 Stochastic Processes Units: 3
- EE 518 Mathematics and Tools for Financial Engineering Units: 4
- EE 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (1) or ENGR 596 Internship in Engineering Units: 1

Electives (Advisor Approved)

Finance, Business, Economics Area:
Two courses (6-7 units) from the following:
- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 501 Macroeconomic Analysis and Policy Units: 4
- ECON 613 Economic and Financial Time Series I Units: 4
- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3
- FBE 540 Hedge Funds Units: 3
- FBE 543 Forecasting and Risk Analysis Units: 3
- FBE 554 Trading and Exchanges Units: 3
- FBE 555 Investment Analysis and Portfolio Management Units: 3

- FBE 589 Mortgages and Mortgage-Backed Securities and Markets Units: 3
- ISE 566 Financial Accounting Analysis for Engineering Units: 3

Optimization, Simulations, Stochastic Systems:
Two courses (6-7 units) from the following:
- CE 645 Uncertainty Modeling and Stochastic Optimization Units: 3
- CSCI 455x Introduction to Programming Systems Design Units: 4
- CSCI 570 Analysis of Algorithms Units: 4
- EE 500 Neural Learning and Computational Intelligence Units: 4
- EE 517 Statistics and Data Analysis for Engineers Units: 4
- EE 553 Computational Solution of Optimization Problems Units: 3 *
- EE 556 Stochastic Systems Units: 3
- ISE 520 Optimization: Theory and Algorithms Units: 3 *
- ISE 536 Linear Programming and Extensions Units: 3
- ISE 539 Stochastic Elements of Simulation Units: 3

Notes:
*Students cannot receive credit for both ISE 520 and EE 553

Dual Degree

Electrical Engineering/Engineering Management (MS)
The Ming Hsieh Department of Electrical Engineering in conjunction with the Daniel J. Epstein Department of Industrial and Systems Engineering offers a program leading to the degree of Master of Science in Electrical Engineering/Master of Science in Engineering Management. This program is designed for graduate electrical engineers whose career objectives lead to increasing technical management responsibilities.

In addition to the general requirements of the USC Viterbi School of Engineering, the dual degree of Master of Science in Electrical Engineering and Master of Science in Engineering Management is also subject to the following requirements:
(1) All applicants must meet the admissions requirements of both the Department of Electrical Engineering and the Department of Industrial and Systems Engineering; (2) a total of at least 48 units is required; (3) 24 of these must satisfy the requirements of the master's degree in electrical engineering; (4) 21 units must satisfy the required courses towards the master's degree in engineering management; (5) 3 units of electives approved by the program director or adviser; (6) all courses counted towards the dual degree must be at the 500 level, except those 400-level courses required by the master's degree in electrical engineering.

Doctoral Degree

Electrical Engineering (PhD)
The Doctor of Philosophy with a major in electrical engineering is awarded in strict conformity with the general requirements of the USC Graduate School. See general requirements for graduate degrees. Departmental requirements for this degree consist of a concentrated program of study and research and a dissertation. Each student wishing to undertake a doctoral program must first be admitted to the program and then take the screening examination. This examination will emphasize comprehension of fundamental material in one of the 13 specialized areas of electrical engineering listed below. Listed under each area are courses offered by the Department of Electrical Engineering, which will provide basic background for the examination and partial preparation for the dissertation. Not all courses listed are required for preparation for the screening examination in any specific area. Consult a separately published guide, available from the department office, for more information concerning examination content and scheduling. Further guidance concerning the full completion of courses, including those given outside the department, which are recommended for preparation for the dissertation, can be obtained from the faculty in each technical area.

Professors of the Practice: Edward Maby, PhD (Electrical Engineering); Azad Madni, PhD (Astronautical Engineering, Systems Architecting and Engineering)
*Recipient of university-wide or school teaching award.

Master's Degree

Green Technologies (MS)
Green Technologies is a highly interdisciplinary degree program that emphasizes green systems and the environment, energy technology and efficiency, and sustainability and society. The discipline seeks opportunities for alternative sourcing, conservation, efficiency and repurposing through an understanding of product life cycles from origins to recycling or inevitable disposal. Green technologists will design products, processes and complex infrastructure systems to promote sustainable attributes of conservation, efficiency and repurposing through an understanding of product life cycles from origins to recycling or inevitable disposal. Green technologists will design products, processes and complex infrastructure systems to promote sustainable attributes of importance to the environment and the global community.

The Green Technologies program requires a minimum of 27 units (typically nine courses). At least 18 units must be at the 500-level or above, and at least 18 units must be completed in the Viterbi School of Engineering. These 18 units may reflect courses offered by other schools if cross-listed in a department in the Viterbi School. Students with BS degrees in engineering and science disciplines can be accepted into the program.

Required Courses
Students are required to take two courses in each of three topical areas:

- **Green Systems and the Environment (two courses)**
  - ISE 576 Industrial Ecology: Technology-Environment Interaction Units: 3
  - SAE 515 Sustainable Infrastructure Systems Units: 3

- **Energy Technology and Efficiency (two courses)**
  - CHE 510 Energy and Process Efficiency Units: 3 or
  - AME 577 Survey of Energy and Power for a Sustainable Future Units: 3

Also take one only of the following:

- EE 513 Solid State Energy Devices Units: 3
- EE 526 Renewable Energy in Power Systems Units: 3
- ENE 502 Energy and the Environment Units: 3

- **Sustainability and Society (two courses)**
  - CE 469 Sustainable Design and Construction Units: 3

Also take one of the following:*

- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3
- CE 567 Smart Infrastructures Units: 3
- ENE 502 Environmental and Regulatory Compliance Units: 3
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3
- POSC 546 Seminar in Environmental Policy Units: 4
- PPD 692 Transportation and the Environment Units: 4
- PPDE 632 Sustainable Cities Units: 4

- **Electives (three courses): 9 Units**

Electives shall be chosen in consultation with an adviser to develop technical specialization in an area of interest to the student. This may include up to 3 units of directed research.

Note:
*Additional courses from this list may be used to fulfill the elective requirement.

Undergraduate Program Criteria

The program leading to a Bachelor of Science in Industrial and Systems Engineering prepares graduates to design, develop, implement, and improve integrated systems that include people, materials, information, equipment and energy. The curriculum includes in-depth instruction to accomplish the integration of systems using appropriate analytical, computational, and experimental practices.

For additional information, visit usc.edu/dept/ise.

Graduate Degree Requirements

Health Systems Management Engineering Program

This degree is in revision, and applications are not currently being accepted. Interested students should consider the Health Administration (MHA) program in the USC Price School of Public Policy.

Master of Science in Product Development Engineering

This interdisciplinary program is offered jointly with the Department of Aerospace and Mechanical Engineering. The program is available via distance education. See the listing under Product Development Engineering.

Master of Science in Systems Architecting and Engineering

See the listing under Systems Architecting and Engineering Program. The program is available via distance education.

Dual Degree Program (MS, Electrical Engineering / MS, Engineering Management)

See listing in the Electrical Engineering section.

Engineer in Industrial and Systems Engineering

Requirements for the Engineer in Industrial and Systems Engineering are the same as set forth in the general requirements.

Graduate Certificates

Graduate Certificate in Network Centric Systems

See listing under Systems Architecting and Engineering Program. The program is available via distance education.

Graduate Certificate in Optimization and Supply Chain Management

This abbreviated interdisciplinary program is offered jointly with the Department of Data Sciences and Operations in the USC Marshall School of Business. See here for program requirements.

Graduate Certificate in Systems Architecting and Engineering

See listing under Systems Architecting and Engineering Program. The program is available via distance education.

Graduate Certificate in Transportation Systems

This abbreviated interdisciplinary program is offered jointly with the Astani Department of Civil and Environmental Engineering and the USC Price School of Public Policy. See listing under Civil Engineering.

Graduate Certificate in System Safety and Security

Applications for this program are not currently being accepted.

Bachelor’s Degree

Industrial and Systems Engineering (BS)

The Epstein Department of Industrial and Systems Engineering offers a Bachelor of Science degree in Industrial and Systems Engineering.

The requirement for the degree is 128 units. A cumulative grade point average of C (2.0) is required for all upper division courses applied towards the major, regardless of the department in which the courses are taken. See the common requirements for undergraduate degrees.
Composition/Writing Requirement
• WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4
• WRIT 340 Advanced Writing Units: 3, 4 (3)

General Education
• General Education* Units: 20

Pre-Major Requirements
Math Requirement
• MATH 125g Calculus I Units: 4
• MATH 126 Calculus II Units: 4 or
• MATH 129 Calculus II for Engineers and Scientists Units: 4
• MATH 225 Linear Algebra and Linear Differential Equations Units: 4
• MATH 226 Calculus III Units: 4 or
• MATH 229 Calculus III for Engineers and Scientists Units: 4

Physics Requirement
• PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
• PHYS 152L Fundamentals of Physics II: Electricity and Magnetism Units: 4

Biology Elective
• BISC 103L General Biology for the Environment and Life Units: 4 or
• BISC 104L The Biology of the Brain: Current Topics in Neuroscience Units: 4 or
• HBIO 205L The Science of Sport Units: 4

Chemistry Elective
• CHEM 105aLg General Chemistry Units: 4 or
• CHEM 115aL Advanced General Chemistry Units: 4 or
• MASC 110L Materials Science Units: 4

Major Requirements
Engineering Requirement
• ENGR 102 Engineering Freshman Academy Units: 2

Computer Science Elective
• CSCI 101L Fundamentals of Computer Programming Units: 5 or
• CSCI 103L Introduction to Programming Units: 4

Industrial and Systems Engineering Requirement
• ISE 105 Introduction to Industrial and Systems Engineering Units: 2
• ISE 220 Probability Concepts in Engineering Units: 3
• ISE 225 Engineering Statistics I Units: 3
• ISE 315L Engineering Project Management Units: 3
• ISE 330 Introduction to Operations Research: Deterministic Models Units: 3
• ISE 331 Introduction to Operations Research: Stochastic Models Units: 3
• ISE 410 Planning and Scheduling Units: 3
• ISE 435 Discrete Systems Simulation Units: 3
• ISE 440 Work, Technology, and Organization Units: 3
• ISE 460 Engineering Economy Units: 3
• ISE 495ax Senior Design Project Units: 2
• ISE 495bx Senior Design Project Units: 2

Database Design Elective
• ISE 382 Database Systems: Concepts, Design and Implementation Units: 4 or
• DSO 435 Enterprise Data Architecture Units: 4

Human Factors Elective
• ISE 370L Human Factors in Work Design Units: 4 or
• ISE 470 Human/Computer Interface Design Units: 3

Major Electives
Major Electives: 22-24 Units
At least 12 units must be from one of the approved Focus Groups
At least 9 units must be from the Approved Engineering Electives

Total units: 128

*GE Category D is fulfilled by Biology Elective
*GE Category E is fulfilled by PHYS 151 or CHEM 105a.
*GE Category F is fulfilled by MATH 125.

Focus Groups
Students must select at least 12 units from one group; however, all courses in a group are recommended.

Operations Group
• ISE 335L Supply Chain Design Units: 3
• ISE 375L Facilities Design Units: 3
• ISE 426 Statistical Quality Control Units: 3
Plus at least one course from among the following:
• ACCT 410x Foundations of Accounting Units: 4
• ISE 232L Manufacturing Processes Units: 3
• ISE 327 Six Sigma and Lean Operations Units: 3
• ISE 350 Principles of Systems Engineering Units: 3

Information Systems Group
• ITP 320 Enterprise Wide Information Systems Units: 4
Plus at least 8 units from among the following:
• DSO 431 Foundations of Digital Business Innovation Units: 4
• DSO 433 Business Process Design Units: 4
• ISE 350 Principles of Systems Engineering Units: 3
• ITP 482 Engineering Database Applications Units: 3
• ITP 487 Data Warehouses Units: 3

Approved Engineering Electives
Students must select at least 9 units. Courses not listed may be petitioned for approval through the department.
AME 341a, AME 341b, CE 408, CE 460, CE 471, DSO 427, EE 326, ENGR 345, ENGR 401x, ISE 232, ISE 310, ISE 327, ISE 335L, ISE 344, ISE 350, ISE 375L, ISE 426, ITP 215, ITP 320, ITP 325, ITP 421, ITP 422, ITP 454, ITP 457, ITP 466, ITP 482, ITP 486, ITP 487, ITP 488, NSC 335, NSC 337

Minor
Engineering Management Minor
This minor is designed to provide students who have a sound foundation in mathematics and the sciences with tools and skills for managerial analysis and problem solving.
Science and technology are driving significant portions of American and global economies. Individuals, companies and governments are demanding products, services and systems, which grow more complicated every day. Suppliers are forced by competition to provide goods and services efficiently and economically.
Scientists and engineers are trained in scientific and technical subjects which form an excellent base for building complex, technical products, services and systems. But more and more, scientists and engineers are managing the financial, material and human resources required to turn abstract ideas into physical and virtual reality, often without any formal management training. This minor provides that training, a complement to any science or technology degree.

Application Procedures
Applicants must be upper division students in good standing and complete the Change/Addition of Major, Minor or Degree Objective form. The minor is not open to industrial and systems engineering majors.

Prerequisites
• ISE 220 Probability Concepts in Engineering Units: 3 (or equivalent)
• ISE 225 Engineering Statistics I Units: 3 (or equivalent)
• MATH 125g Calculus I Units: 4
MATH 126 Calculus II Units: 4
MATH 225 Linear Algebra and Linear Differential Equations Units: 4 (or equivalent)
MATH 226 Calculus III Units: 4

Required Courses
- BUAD 301 Technology Entrepreneurship Units: 3
- ISE 330 Introduction to Operations Research: Deterministic Models Units: 3
- ISE 370L Human Factors in Work Design Units: 4
- ISE 440 Work, Technology, and Organization Units: 3
- ISE 460 Engineering Economy Units: 3

Master’s Degree
Analytics (MS)
Ethel Percy Andrus
Gerontology Center 240
(213) 740-4893

The Master of Science in Analytics is designed to satisfy the growing demand for professionals equipped with significant technical and quantitative training in the fundamentals of analytics for solving engineering and management problems in today’s data-intensive digital world.

Analytics is a multidisciplinary field that relates the application of engineering approaches and methods to the analysis and management of engineering and enterprise processes based on data. Learning objectives of this program involve data collection, cleansing, fusing and curating, for the purpose of analyzing trends, discovering patterns and building decision models for well-reasoned decision support. Rigorous mathematical modeling and computational methods tools are at the heart of the program.

Graduates of this program will be prepared to convert data into meaningful information, embedded in decision support systems that can help organizations make important operational decisions and help set strategic direction and policy.

Master of Science in Analytics

The core of the MS in Analytics program consists of six foundational courses, and four elective courses, totaling 30 units. The foundational courses cover the basic topics of data science and management, statistical methods, optimization, simulation and other operations research tools. The elective courses allow students to deepen their technical skills and expose them to the applied domains where analytics is much needed; some of these domains include electricity markets, supply chains and logistics, health care systems, and transportation.

Required Courses (15 units)
- INF 559 Introduction to Data Management Units: 3
- ISE 529 Engineering Data Analytics Units: 3
- ISE 530 Optimization Methods for Analytics Units: 3
- ISE 533 Integrative Analytics Units: 3
- ISE 562 Value and Decision Theory Units: 3

Group A (3 units are required)
Select one course
- ISE 538 Markov Models for Performance Analysis Units: 3
- ISE 580 Performance Modeling with Simulation Units: 3

Adviser-Approved Electives (12 units)

Total units for the degree: 30

Engineering Management (MS)

Master of Science in Engineering Management
Gerontology Center 240
(213) 740-4893

Program Director: Geza Bottlik, Engineer, PE

This program is designed primarily, but not exclusively, for graduate engineers whose career objectives lead to increasing technical management responsibilities. Students interested in the engineering management objectives may also want to consider the MS, Industrial and Systems Engineering/MBA dual degree program.

Master of Science in Engineering Management

A total of 30 units is required for the degree. A minimum of 18 units must be taken in the Epstein Department of Industrial and Systems Engineering. A total of 21 units must be at the 500 level or above. The program is available via distance education.

Applicants to the program are expected to have a degree in engineering or the equivalent.

Required Courses (12 units)
- ISE 300 Statistics for Engineering Managers Units: 3
- ISE 515 Engineering Project Management Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- ISE 561 Economic Analysis of Engineering Projects Units: 3

Required Engineering Elective - Select one (3 units)
- ISE 530 Optimization Methods for Analytics Units: 3
- ISE 536 Linear Programming and Extensions Units: 3
- ISE 562 Value and Decision Theory Units: 3

Business and Management Area (3 units)
Select one 500 level course with business and/or management content with adviser approval

Electives (12 units):
Four courses for at least 12 units chosen to form a coherent program with the consent of the advisor.

Industrial and Systems Engineering (MS)

The Master of Science in Industrial and Systems Engineering is awarded in strict conformity with the general requirements of the Viterbi School of Engineering. This program enhances the technical capabilities of the industrial engineer. The program is available via distance education.

The MS program is for students who want to become technical leaders in the field of industrial and systems engineering. Applicants to the program are expected to have a bachelor's degree in an engineering discipline with undergraduate course work in computing, probability and statistics, and engineering economy. Admitted students who do not meet prerequisites will be assigned courses to complete the deficiencies.

A total of 30 units is required for the degree, of which at least 18 units must be completed in the Epstein Department of Industrial and Systems Engineering. Of the 30 units, 20 must be at the 500 level or above.

Required Courses (12 units)
- ISE 513 Inventory Systems Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 515 Engineering Project Management Units: 3
- ISE 583 Enterprise Wide Information Systems Units: 3

Group A (3 units required)
Select one course
- ISE 530 Optimization Methods for Analytics Units: 3
- ISE 536 Linear Programming and Extensions Units: 3

Group B (3 units required)
Select one course
- ISE 525 Design of Experiments Units: 3
- ISE 527 Quality Management for Engineers Units: 3

Group C (3 units required)
Select one course
- ISE 538 Markov Models for Performance Analysis Units: 3
- ISE 580 Performance Modeling with Simulation Units: 3

Adviser Approved Electives (9 units)

Total Units 30
Operations Research Engineering (MS)
Ethel Percy Andrus
Gerontology Center 240
(213) 740-4891
Program Director: Maged Dessouky, Ph.D.

Master of Science in Operations Research Engineering

The Master of Science in Operations Research Engineering is conferred upon candidates who hold bachelor's degrees in engineering, mathematics, science or related fields who successfully complete an integrated program (with departmental approval in advance) of not less than 30 units. The program must include not less than 21 units of industrial and systems engineering courses related to operations research and 9 units of approved electives. Students will be required to make up deficiencies in mathematics and statistics. Additional courses or examinations may be required at the discretion of the department before full admission to the program. The General Test of the Graduate Record Examinations (GRE) is required. Additional information is available from the department. This program is available via distance education.

Required Courses
• ISE 532 Network Flows Units: 3
• ISE 536 Linear Programming and Extensions Units: 3
• ISE 538 Markov Models for Performance Analysis Units: 3
• ISE 580 Performance Modeling with Simulation Units: 3
• ISE 582 Web Technology for Industrial Engineering Units: 3 or
  ISE 583 Enterprise Wide Information Systems Units: 3

Select at least two of the following 10 courses: 6 units
• CE 645 Uncertainty Modeling and Stochastic Optimization Units: 3
• ISE 513 Inventory Systems Units: 3
• ISE 514 Advanced Production Planning and Scheduling Units: 3
• ISE 520 Optimization: Theory and Algorithms Units: 3
• ISE 525 Design of Experiments Units: 3
• ISE 539 Stochastic Elements of Simulation Units: 3
• ISE 562 Value and Decision Theory Units: 3
• ISE 563 Financial Engineering Units: 3
• ISE 576 Industrial Ecology: Technology-Environment Interaction Units: 3
• SAE 541 Systems Engineering Theory and Practice Units: 3
  400- or 500-level computer science course, approved by faculty adviser: 3
  Two electives, approved by faculty adviser: 6

Total units: 30

University Certificate

Health Systems Operations Graduate Certificate

This 17-unit graduate certificate is jointly sponsored by the Epstein Industrial and Systems Engineering Department and the USC Price School of Public Policy (Master of Health Administration program), and administered by the Epstein ISE Department. This certificate is designed for students with bachelor's degrees in applied social science, engineering or the sciences, who are interested in operations management and health care applications. The courses taken for the certificate may be applied later to the Epstein ISE Department's Master of Science in Engineering Management degree, the USC Price School of Public Policy's Master of Health Administration degree or the jointly sponsored MS in Health Systems Management Engineering degree subject to approval of the appropriate academic unit. This program is available via distance education.

Required Courses
• ISE 507 Six-Sigma Methods and Applications Units: 3
• ISE 508 Health Care Operations Improvement Units: 3
• PPD 509 Problems and Issues in the Health Field Units: 4
• PPD 513 Legal Issues in Health Care Delivery Units: 2
• PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2 or
  PPD 514 Economic Concepts Applied to Health Units: 4
• PPD 557 Modeling and Operations Research Units: 4 or
• ISE 530 Optimization Methods for Analytics Units: 3 or
• ISE 562 Value and Decision Theory Units: 3

Total units: 17-18

Dual Degree

Master of Science, Industrial and Systems Engineering/Master of Business Administration (MS/MBA)

The USC Marshall School of Business in conjunction with the Epstein Department of Industrial and Systems Engineering offers a program leading to the degree of Master of Business Administration/Master of Science in Industrial and Systems Engineering. This alternative requires 66 units for graduates of industrial and systems engineering undergraduate curricula and leads to both a Master of Science in Industrial and Systems Engineering and the Master of Business Administration. The dual degree provides an education of great depth.

The total number of units required for the MBA program is 48 including all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units.

Required Courses (Minimum 18 Units)
• ISE 514 Advanced Production Planning and Scheduling Units: 3
• ISE 515 Engineering Project Management Units: 3

ISE Electives (Choose One from Each Group)

Systems Design (3 units)
• ISE 525 Design of Experiments Units: 3
• ISE 527 Quality Management for Engineers Units: 3
• SAE 541 Systems Engineering Theory and Practice Units: 3

Information Systems (3 units)
• ISE 580 Performance Modeling with Simulation Units: 3
• ISE 582 Web Technology for Industrial Engineering Units: 3
• ISE 583 Enterprise Wide Information Systems Units: 3

Quantitative Methods (3 units)
• ISE 532 Network Flows Units: 3
• ISE 536 Linear Programming and Extensions Units: 3
• ISE 538 Markov Models for Performance Analysis Units: 3
• Elective Chosen with adviser approval Units: 3

Total units: 18

Doctoral Degree

Industrial and Systems Engineering (PhD)

The degree Doctor of Philosophy in Industrial and Systems Engineering is also offered. See general requirements for graduate degrees.
Informatics Program

Henry Salvatori Computer Science Center 104
(213) 740-4494
Fax: (213) 740-7285
Email: informatics@usc.edu
Director: Cyrus Shahabi, PhD

Faculty
Professors: Michael Cody, PhD (Communication and Journalism); Ellis Horowitz, PhD (Computer Science, Electrical Engineering); Julia Higle, PhD (Industrial and Systems Engineering); Carl Kesselman, PhD (Industrial and Systems Engineering, Computer Science); Nenad Medvidovic, PhD (Computer Science); Viktor Prasanna, PhD (Electrical Engineering); Paul Rosenblom, PhD (Computer Science); Cyrus Shahabi, PhD (Computer Science, Electrical Engineering); Gaurav Sukhatme, PhD (Computer Science, Electrical Engineering); Milind Tambe, PhD (Computer Science, Industrial and Systems Engineering); John Wilson, PhD (Spatial Science)
Associate Professors: Shahram Ghandeharizadeh, PhD (Computer Science); Yan Liu, PhD (Computer Science)
Assistant Professor: Aleksandra Korolova, PhD (Computer Science)
Research Professors: Craig Knoblock, PhD (Computer Science); Yolanda Gil, PhD (Computer Science)
Research Associate Professor: Clifford Neuman, PhD (Computer Science)
Research Assistant Professors: Yao-Yi Chiang, PhD (Spatial Science); Jelena Mirkovic, PhD (Computer Science); Stefan Scherer, PhD (Computer Science)
Associate Professor of the Practice: Wensheng Wu, PhD
Senior Lecturers: Joseph Greenfield (Information Technology Program); Tatyana Ryutov, PhD (Computer Science)

Bachelor’s Degree
Informatics (BA)
Computer-based information systems facilitate, enable and often define the relationships between corporations and consumers, buyers and suppliers, businesses of all sizes, social networks, and citizens and their governments. Understanding these relationships and effectively addressing the collection, flow and distribution of information is vital to the effectiveness of any modern organization, enterprise or government agency.

The BA in Informatics is granted under the jurisdiction of the USC Dornsife College of Letters, Arts and Sciences. The program is administered by the USC Viterbi School of Engineering. Students complete 136 units, including 96 units of courses in the USC Dornsife College and 40 units of courses in the USC Viterbi School of Engineering. Units completed in the USC Dornsife College include the general education and writing requirements, the USC Dornsife College foreign language requirement, and an adviser-approved disciplinary specialization of at least 24 units.

The program teaches students to understand, design and implement effective solutions to meet organizational, societal and management needs for information and decision support. All students undertaking this degree program must have knowledge of the following areas (the core):

- Information systems and technology fundamentals
- Web technologies
- Programming basics
- Data analytics/Statistical reasoning

In addition to the core courses, students complete courses in one of three concentration areas:

Enterprise Information Systems – Understanding information modeling together with existing and emerging needs in economics and finance, as well as algorithms and systems to address those needs by taking courses in business, artificial intelligence and mathematical modeling.

Web Information Systems – Examining the computer science problems of representing, organizing, storing, manipulating, and accessing digital information and presentation across the World Wide Web.

Data Science – Comprehending the ever-growing importance of “big data” in scientific and policy endeavors. Extracting knowledge from data requires skill in multiple areas including mathematics, statistics and information technology.

In addition to the core courses and concentration area, students complete at least 24 units of courses in an adviser-approved area of disciplinary specialization relying on course work in the USC Dornsife College of Letters, Arts, and Sciences. The disciplinary specialization must form a coherent focus on a discipline that provides students with insight into a domain in which informatics can be usefully applied. No more than 8 units may consist of lower-division course work.

Admission
Admissions are made by the USC Viterbi School of Engineering. Students normally apply to the program in the spring of the freshman year.

Major Core Requirements (32 units, 9 courses)
- CSCI 103L Introduction to Programming Units: 4
- CSCI 104L Data Structures and Object Oriented Design Units: 4
- CSCI 170 Discrete Methods in Computer Science Units: 4
- INF 250 Introduction to Data Informatics Units: 4
- ITP 115 Programming in Python Units: 2
- ITP 165 Introduction to C++ Programming Units: 2
- MATH 114x Foundations of Statistics Units: 4
- MATH 208x Elementary Probability and Statistics Units: 4

Choose One:
- MATH 118gx Fundamental Principles of Calculus Units: 4
- MATH 125x Calculus I Units: 4

Disciplinary Specialization (24 units)
Complete at least 24 units of courses in an adviser-approved area of disciplinary specialization relying on course work in the USC Dornsife College of Letters, Arts, and Sciences. The disciplinary specialization must form a coherent focus on a discipline that provides students with insight into a domain in which informatics can be usefully applied. No more than 8 units may consist of lower-division course work.

Concentration Requirements (20 units, 5-7 courses)
Select a minimum of 20 units from the following concentrations including at least 14 units from one concentration.

Enterprise Information Systems
- ITP 320 Enterprise Wide Information Systems Units: 4
- ITP 383 Database Systems: Concepts, Design and Implementation Units: 3
- ITP 421x Advanced Programming for Enterprise Information Systems Units: 3
- ITP 422L Configuring Enterprise Resource Planning Systems Units: 3
- ITP 454x Enterprise Resource Planning, Design, and Implementation Units: 3
- ITP 486 Securing and Auditing Enterprise Resource Planning Systems Units: 3
- ITP 487 Data Warehouses Units: 3
- ITP 488 Managing Supply Chains with Advanced Planning & Optimization Units: 3

Web Information Systems
- ITP 300 Database Web Development Units: 3
- ITP 301L Interactive Web Development Units: 4
- ITP 302 Advanced Web Publishing Units: 2
- ITP 310 Design for User Experience Units: 3
- ITP 404 Modern Technologies of Web Development Units: 3
• ITP 411 Multimedia and Video Production Units: 3
• ITP 460 Web Application Project Units: 4

Data Science
• ITP 109 Introduction to Java Programming Units: 2
• INF 351 Foundations of Data Management Units: 4
• INF 352 Applied Machine Learning and Data Mining Units: 4
• INF 429 Security and Privacy Units: 4
• INF 454 Data Visualization and User Interface Design Units: 4

Note:
*INF 250 can be substituted for the corequisite CSCI 109 or EE 109L, or the corequisite (CSCI 109 or EE 109L) can be waived through advisement.
**Corequisite: ITP 115

Master's Degree
Communication Informatics (MCI)
Program Director: Cyrus Shahabi, PhD
Program Co-Director: Michael Cody, PhD
Program Associate Director: Craig Knoblock, PhD

The Master of Communication Informatics is a cross-disciplinary joint degree program offered by the Viterbi School of Engineering and the Annenberg School for Communication and Journalism. Students must be admitted by both schools.

Students explore several of the most interesting technological phenomena impacting communication today, including online communities, social media and user-generated content, crowdsourcing, Big Data and data analytics, virtual and augmented reality, data mining and others. The goal is to educate students who are proficient users of these technologies, and who also possess the analytical and problem-solving skills to expand and improve on existing technologies, and to help define a roadmap for the communication technologies of the future. Students work on projects where the fields of communication and engineering naturally converge, namely in the engineering of communication (e.g. the design and construction of mobile apps, online networks, social media tools, the use of technology in journalism, etc.) and the communication of engineering (e.g. public relations, public awareness, and public engagement of topics relating to science and technology).

There are many career opportunities for students completing the Master of Communication Informatics degree. Traditional media outlets ranging from newspapers to network/cable news are hungry for individuals who understand the new technology-enabled social communication paradigms and can help translate this knowledge into new products. An example is the coverage of natural disasters, where it is difficult for media to get on the ground, but where social media allows victims to relay experiences and provide accounts of these situations. How to collect, manage, distribute and capitalize from this news source is a major challenge in current media.

There are also careers within these emerging communication platforms. Many technology companies realize the value in employing experts who understand the human factors aspects of their products. Communication is now so vital to the function of many products that success and failure are often determined by how well communication is performed, and how seamlessly it integrates into existing platforms. In the corporate world, the need to understand and capitalize on social media is pervasive, and the unique expertise this degree provides leaves graduates well positioned to become leaders in the space. Finally, as technology becomes ubiquitous in society, the role of the informed commentator has become very important in formal and informal formats. There is need for individuals who understand the basics of communication and have enough technology knowledge to provide analysis at a meaningful level to the public.

Requirements for completion (32 units minimum)

Foundations (16 units, 4 Courses)
• COMM 502 Theoretical Approaches to Multidisciplinary Design Projects Units: 4
• INF 510 Principles of Programming for Informatics Units: 4
• INF 549 Introduction to Computational Thinking and Data Science Units: 4
• INF 550 Overview of Data Informatics in Large Data Environments Units: 4

Informatics Core (4 units)
• ENGR 596 Internship in Engineering Units: 1
• INF 529 Security and Privacy in Informatics Units: 4
• INF 552 Machine Learning for Data Informatics Units: 4
• INF 554 Information Visualization Units: 4
• INF 559 Introduction to Data Management Units: 3
• INF 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Communication Core (12 Units, 3 Courses)
• CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
• CMGT 520 Social Roles of Communication Media Units: 4
• CMGT 530 Social Dynamics of Communication Technologies Units: 4
• CMGT 555 Online Marketing Communication Development and Analysis Units: 4
• COMM 648 Online Communities and Networks Units: 4

Cyber Security Engineering (MS)
Associate Director of Informatics: Clifford Neumann, PhD

The Master of Science in Cyber Security Engineering is intended for: a) graduate students who desire to obtain jobs in which computer security knowledge and skills are required; b) graduate students who wish to continue on a path toward enrollment for a doctoral degree focusing on information security; c) individuals in degree programs or job fields that have responsibility for information security. The typical admitted student will have the following qualifications:

• an undergraduate degree in computer science, electrical engineering or information security;
• programming capability;
• understanding of computer networking and computer operating systems.
• desire to learn information security techniques and tools that are directly applicable to current information security challenges; and
• above average mathematical foundation.

During completion of the program, students will learn the fundamentals of developing, engineering and operating secure information systems. They will become versed in the challenges and problems of secure operating systems, secure applications, secure networking, database security and privacy, use of cryptography and key management. They will learn to develop a security policy and how policy drives technology decisions. Students will gain the knowledge and skills necessary to administer environments that require high levels of information security, both from the standpoint of the principles of information protection and the role application technology has in meeting information protection needs. Students will understand the value of assets, the business model of threats, the threat matrix, mitigation strategies and how this integrates with the core organizational mission. They will understand why information security plans succeed or fail.

Students will have hands-on experience simulating real-world scenarios with extensive laboratory work that is designed by current and former information security practitioners.

Requirements for completion (28 units minimum)

Required Courses (20 Units)
• CSCI 530 Security Systems Units: 4
• INF 519 Foundations and Policy for Information Security Units: 4
• INF 523 Computer Systems Assurance Units: 4
• INF 525 Trusted System Design, Analysis and Development Units: 4
• INF 529 Security and Privacy in Informatics Units: 4

At least one of the following:
• INF 521 Application of Cryptography to Information Security Problems Units: 3
• INF 526 Secure Systems Administration Units: 4
• INF 528 Computer Forensics Units: 4

Plus an additional 4-5 units that may be composed of items from the above list or
• ENGR 596 Internship in Engineering Units: 1
• INF 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• PTE 519 Integrated Physical and Cyber Security for Oil and Gas Operations Units: 3
• Other courses may be approved in consultation with department adviser.

Data Informatics (MS)
Associate Director of Informatics: Craig Knoblock, PhD

The social emergence of large data environments and infrastructures (Big Data) in diverse domains and uses has spawned a requirement for analysis of the information contained. Past experience has shown that extracting value from large information stores can often be difficult due to the intrinsic nature of data, and the limits on ability to intelligently mine the information to add value to the organization.

The USC Viterbi Master of Science in Data Informatics provides students with the knowledge and skill to: a) understand and contribute toward the significant technical challenges created by large data environments, including architecture, security, integrity, management, scalability, artificial intelligence topics and distribution; b) understand the principles and application of informatics, and the goals of enterprise intelligence; and c) utilize technical/engineering skills coupled with informatics capabilities to provide enterprise-centric solutions to stakeholders. The degree features application of knowledge and skill in hands-on type experiences, with the goal of having students leave the program having "lived in the data."

Students will understand the overall field of data analytics, the role of the analyst and/or data scientist, and the domains where informatics skills can be applied to critical organization missions. They will understand how data management, data visualization, data mining and artificial intelligence techniques (specifically machine learning) are critical to the analysis process, and how these can be applied to real world challenges. Through an extensive elective track, they can find the specializations that will help them better prepare themselves for the area(s) of analytics in which they hope to contribute.

Required Courses (20 units)
• INF 551 Foundations of Data Management Units: 4
• INF 552 Machine Learning for Data Informatics Units: 4
• INF 553 Foundations and Applications of Data Mining Units: 4

One of the following user interface/visualization classes:
• INF 554 Information Visualization Units: 4
• INF 555 User Interface Design, Implementation, and Testing Units: 4
• INF 556 User Experience Design and Strategy Units: 4

One of the following capstone classes:
• INF 558 Building Knowledge Graphs Units: 4
• INF 560 Data Informatics Professional Practicum Units: 4

Elective Courses (8 units)
• CSCI 530 Security Systems Units: 4
• CSCI 544 Applied Natural Language Processing Units: 4
• CSCI 548 Information Integration on the Web Units: 4
• CSCI 550 Advanced Data Stores Units: 4
• CSCI 561 Foundations of Artificial Intelligence Units: 4
• CSCI 570 Analysis of Algorithms Units: 4
• CSCI 572 Information Retrieval and Web Search Engines Units: 4
• CSCI 587 Geospatial Information Management Units: 4
• ENGR 596 Internship in Engineering Units: 1
• INF 520 Foundations of Information Security Units: 3
• INF 528 Computer Forensics Units: 4
• INF 529 Security and Privacy in Informatics Units: 4
• INF 554 Information Visualization Units: 4

• INF 555 User Interface Design, Implementation, and Testing Units: 4
• INF 556 User Experience Design and Strategy Units: 4
• INF 558 Building Knowledge Graphs Units: 4
• INF 560 Data Informatics Professional Practicum Units: 4
• INF 561 Engineering Data Analytics Units: 3
• INF 562 Integration of Medical Imaging Systems Units: 3
• INF 563 Medical Diagnostics, Therapeutics and Informatics Application Units: 3
• INF 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• INF 599 Special Topics Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8

Note:
*Whichever courses (INF 554, INF 555, INF 556, INF 558, INF 560) are not taken as a required course may be taken as an elective.

Spatial Informatics (MS)
Viterbi School of Engineering, Department of Computer Science, Informatics Program
informatics.usc.edu

Program Director: Cyrus Shahabi, PhD

Program Associate Director: Craig Knoblock, PhD
Dornsife College of Letters, Arts and Sciences, Spatial Sciences Institute
spatial.usc.edu

Program Director: John P. Wilson, PhD

Program Associate Director: Susan H. Kamei, PhD

The Master of Science in Spatial Informatics is a cross-disciplinary joint degree program offered by the Viterbi School of Engineering and the Dornsife College of Letters, Arts and Sciences. Students must be admitted by both the Viterbi School of Engineering and the Dornsife College of Letters, Arts and Sciences.

Geospatial data accessibility, spatial decision support systems and geospatial problem solving environments are revolutionizing most industries and disciplines, including health care, marketing, social services, human security, education, environmental sustainability and transportation. Spatial informatics professionals draw upon engineering, computer science and spatial sciences principles to solve data-intensive, large-scale, location-based problems.

The USC Master of Science in Spatial Informatics provides students with the knowledge and skills to:
• Understand and contribute toward the significant technical and societal challenges created by large location-based data environments, including architecture, security, integrity, management, scalability, artificial intelligence topics and distribution;
• Understand the principles and application of informatics and geographic information science (GIS), and the goals of enterprise information intelligence and analytics; and
• Utilize technical, engineering and GIS skills coupled with
informatics capabilities to intelligently mine data to provide enterprise-centric solutions for diverse societal issues.

Students complete a core set of courses to provide a foundation in information engineering, analysis and spatial thinking with their choice of electives to optimize preparation for their preferred career path and unique professional opportunities.

Students will understand the overall field of data analytics, the role of the analyst and/or data scientist and the domains where spatial informatics skills can be applied to critical organization missions.

They will understand how data management, data visualization and artificial intelligence techniques (specifically data mining and machine learning) are critical to the spatial analysis process and how these can be applied to real world challenges. Throughout their course work, students will assemble a digital portfolio of work product that is intended to help them demonstrate their capabilities and skills for the job market.

Applicants to this program are expected to have a previous degree in science, technology, engineering, math or a related social science with at least a 3.0 overall GPA and satisfactory GRE Test results. Programming experience or at least a year of calculus is required for admission.

Degree Requirements

A minimum of 32 units with an overall cumulative GPA of at least 3.0 is required for the MS in Spatial Informatics. Students should consult with an academic adviser prior to registering for any classes.

Required Courses (6 courses/24 units)

Foundation (take both courses):
- INF 549 Introduction to Computational Thinking and Data Science Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Spatial core (take both courses):
- SSCI 580 Spatial Computing Units: 4
- SSCI 583 Spatial Analysis Units: 4

Informatics core (take both courses):
- INF 510 Principles of Programming for Informatics Units: 4
- INF 550 Overview of Data Informatics in Large Data Environments Units: 4

Spatial and Informatics Elective Courses (2-3 courses/8 units)

SSCI 596 and ENGR 596 are optional.

Spatial elective (4 units)
- SSCI 582 Spatial Databases Units: 4
- SSCI 584 Spatial Modeling Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4
- SSCI 589 Cartography and Visualization Units: 4
- SSCI 596 Internship in Spatial Sciences Units: 1

Informatics elective (4 units)
- CSCI 587 Geospatial Information Management Units: 4
- ENGR 596 Internship in Engineering Units: 1
- INF 552 Machine Learning for Data Informatics Units: 4
- INF 553 Foundations and Applications of Data Mining Units: 4
- INF 554 Information Visualization Units: 4
- INF 555 User Interface Design, Implementation, and Testing Units: 4
- INF 559 Introduction to Data Management Units: 3

Note:

* SSCI 582 meets the CSCI 585 prerequisite for CSCI 587 and must be taken before it.

** SSCI 596 may be taken in addition to one of the 4-unit SSCI elective courses, but SSCI 596 by itself does not fulfill the Spatial Sciences elective requirement.

University Certificate

Big Data Fundamentals Certificate

This certificate program teaches students the fundamentals of data informatics, including data collection and management, data analytics, data visualization and data privacy. This certificate program is designed for students from nontechnical undergraduate backgrounds.

Students who complete this certificate are eligible to be considered for admission to the program leading to the MS in Data Informatics.

Must complete the following (4 courses, 15 units)

- INF 510 Principles of Programming for Informatics Units: 4
- INF 549 Introduction to Computational Thinking and Data Science Units: 4
- INF 550 Overview of Data Informatics in Large Data Environments Units: 4
- INF 559 Introduction to Data Management Units: 3

Information Technology Program

Olin Hall 412
(213) 740-4542
Email: itp@usc.edu

Director: Michael Crowley, PhD
Associate Directors: Trina Gregory, MS; Nitin Kale, MS
Associate Professors of Engineering Practice: Joseph Greenfield, MS; Nathan Greenfield, MS; Nitin Kale, MS; Ashish Soni, MS
Senior Lecturers: Trina Gregory, MS; Mike Lee, MS; Sanjay Madhav, BS; Arpi Mardirossian, MS; Rob Parke, MS; Tom Sloper, BA; Richard Vawter, MS, MBA; Lance Winkel, MFA
Lecturers: Raymond Kim, MS; Chi So, MS; Kendra Walther, MS; Zune Nguyen, BS
Associate Director, Advisement and Recruitment: Alexandria Garabedian, MED
Business Manager: Lindsay Burglin, BS
Administrative Assistant: Annie Le, BA

ITP courses are open to all USC students.

Minors

ITP minors are open to undergraduate students in all majors.

To apply for a minor, students should meet the regular admissions standards and have a declared USC major. Students will complete an application for the minor with the Viterbi School of Engineering. For specific information on admission and application procedures, contact the Information Technology Program at (213) 740-4542.

ITP Minors:
- 3D Computer Graphics and Modeling
- Applied Analytics
- Applied Computer Security
- Computer and Digital Forensics
- Computer Programming
- Enterprise Information Systems
- Innovation: The Digital Entrepreneur
- Mobile App Development
- Video Game Design and Management
- Video Game Programming
- Web Technologies and Applications

ITP Specializations

Specializations are a great alternative for students who are interested in gaining experience but do not have space in their schedule to complete a full minor program. Certificate available upon completion of required course work. Please see the Website for more details: itp.usc.edu/academics/.

Viterbi School of Engineering Students

The "x" designation indicates that engineering students require prior departmental approval to count 100-level and above ITP courses for major credit.
Minor

3D Computer Graphics and Modeling

The 3D Computer Graphics and Modeling minor merges theoretical concepts with state-of-the-art techniques to prepare students to apply 3D computer graphics across a wide range of industry applications. Hands-on courses build from a core foundation throughout the spectrum of advanced cutting edge technologies as they are used in real-world application and culminate with the production of a portfolio of work commensurate with the needs of 3D industries.

Total number of units required to complete minor: 16 units

Required Courses (13 units)

- ITP 215L 3-D Modeling, Animation, and Special Effects Units: 2
- ITP 305 Advanced 3D Modeling, Animation, and Special Effects Units: 3 *
- ITP 315x 3D Character Animation Units: 3 *
- ITP 360 3D Compositing and Visual Effects Units: 3 *
- ITP 415 3-D Design and Prototyping Units: 2 *

Elective Courses (3 units)

- ITP 308 Computer-Aided Design for Bio-Mechanical Systems Units: 3
- ITP 450 Advanced 3D Texturing, Compositing, and Image Processing Units: 3 *
- ITP 470 Information Technology Practicum Units: 1, 2, 3, 4 (1-4 units)
- ITP 480 Information Technology Internship Units: 1, 2, 3, 4 (1-4 units)

Note:
*Prerequisite required

Applied Analytics Minor

The minor in Applied Analytics prepares undergraduate students in the field of data analytics as applied to real world situations. Applications vary from business to health care, social media to sports. The goal is to educate students to become data analysts, not data scientists.

Students in the minor will learn all aspects of analytics: technology infrastructure to stage data, techniques to analyze data, tools to visualize data, and systems to publish and share the results.

Requirements for minor completion: Minimum units 18

Required Courses (12 units)

- ITP 250x Database Systems for Analytics Units: 2
- ITP 251 Applied Statistics for Analytics Units: 2
  *Business and Accounting students must take BUAD 310g instead of ITP 251 as these courses duplicate credit
- ITP 350x Technologies and Practices for Analytics Units: 4
  *Students must take ITP 250x and ITP 251 prior to taking ITP 350x.
- ITP 449x Data Mining: Descriptive and Predictive Units: 4
  *Students must take ITP 350x prior to taking ITP 449x.

Electives (Choose a minimum of 6 units)

- DSO 424 Business Forecasting Units: 4
  *Students must take BUAD 310g prior to taking DSO 424.
- DSO 428 Essentials and Digital Frontiers of Big Data Units: 4
- ECON 317 Introduction to Statistics for Economists Units: 4
- ITP 487 Data Warehouses Units: 3
  *Students must take ITP 250x or ITP 320 prior to taking ITP 487.
- ITP 489 In-Memory Database Systems for Real Time Analytics Units: 3
  *Students must take ITP 250x or ITP 320 prior to taking ITP 489.
- ITP 470 Information Technology Practicum Units: 1, 2, 3, 4
- JOUR 477 Web Analytics for News and Nonprofit Organizations Units: 2

Note:
*Prerequisite required

Applied Computer Security Minor

The minor in applied computer security combines both theoretical concepts and technical skills to prepare students for a career in information security while incorporating their major field of work. Students will study various areas of computer security, including hacking, ethics, forensics, networking and security management. Electives are available depending on the students' academic and professional goals.

Requirements for completion (five core courses plus one elective)

Minimum units: 18

Required Courses (14 Units)

- ITP 125L From Hackers to CEOs: Introduction to Information Security Units: 2
- ITP 325 Ethical Hacking and Systems Defense Units: 3
- ITP 357 Enterprise Network Design Units: 3
- ITP 370 Information Security Management Units: 3
- ITP 375 Digital Forensics Units: 3

Elective (4 Units)

- ITP 425 Web Application Security Units: 4
- ITP 457 Network Security Units: 4
- ITP 475 Advanced Digital Forensics Units: 4

Computer and Digital Forensics Minor

The computer and digital forensics minor combines both theoretical concepts and practical skills to prepare students for a career as a digital forensics investigator. Students will study various areas of cyber-forensics, including forensic methodologies and processes, digital evidence-gathering and preservation, investigations and examinations, and court presentation. Electives are available depending on the students' academic and professional goals.

Requirements for completion (core courses plus electives)

Minimum units: 18

Required Courses (4 Courses, 12 Units)

- ITP 125L From Hackers to CEOs: Introduction to Information Security Units: 2
- ITP 375 Digital Forensics Units: 3 *
- ITP 475 Advanced Digital Forensics Units: 4 *
- ITP 479 Cyber Law and Privacy Units: 3

Forensic Electives (Choose Two, 6 Units)

- ITP 325 Ethical Hacking and Systems Defense Units: 3 *
- ITP 445 Macintosh, OSX, and iOS Forensics Units: 3 *
- ITP 446 Computer Forensics for Macintosh Units: 3 *
- ITP 447 Mobile Device Security and Forensics Units: 3 *
- ITP 448 Computer Forensics for Mobile Devices Units: 3 *

Note:
*Prerequisite required

Computer Programming Minor

The minor in computer programming focuses on the practical programming skills necessary to solve problems in a variety of domains including on desktops, laptops, mobile devices, the Web, the cloud and for video games. Upon completion of the minor, students will have strong experience with the application of programming languages in several different contexts.

Students with a declared major in computer science, computer science and computer engineering, computer science (games), or computer science and business administration are not eligible for this minor. Students with a declared minor in computer science are likewise not eligible.

Requirements for completion (two core courses plus 12 units of electives)

Minimum units: 17
Core Courses (5 units)
- ITP 165 Introduction to C++ Programming Units: 2 *
- ITP 365 Managing Data in C++ Units: 3

Elective Courses (12 Units)
- ITP 341 App Development for Phones and Tablets Units: 3
- ITP 342 Mobile Application Development Units: 3
- ITP 368 Programming Graphical User Interfaces Units: 3
- ITP 380 Video Game Programming Units: 4
- ITP 404 Modern Technologies of Web Development Units: 3 **
- ITP 435 Professional C++ Units: 3
- ITP 439 Compiler Development Units: 3

Note:
*ITP 109 or ITP 115 can be substituted for ITP 165, though ITP 165 is recommended.
**ITP 404 has additional prerequisites outside the minor; though these prerequisites can be waived for students in the minor (subject to faculty approval).

Enterprise Information Systems Minor
The 21st century has seen tremendous growth in global enterprises, which has required robust and integrated information systems to support streamlined business processes. These Enterprise Information Systems, also known as Enterprise Resource Planning (ERP) systems, have continued to mature and dominate the information systems of corporations. Most Fortune 500 companies have adopted ERP systems. This minor combines business process management and information technology to prepare students for technical careers as well as business consulting in the ERP domain. Students will study various areas of ERP implementation, configuration, business intelligence, security and supply chain management. Electives are available depending on the students' academic and professional goals.

Requirements for completion (three core courses plus minimum 6 units of electives)
Minimum units: 16

Required Courses (10 Units)
- ITP 320 Enterprise Wide Information Systems Units: 4
- ITP 422L Configuring Enterprise Resource Planning Systems Units: 3
- ITP 454X Enterprise Resource Planning, Design, and Implementation Units: 3

Electives (Choose Minimum 6 Units)
- ISE 382 Database Systems: Concepts, Design and Implementation Units: 4
- ITP 470 Information Technology Practicum Units: 1, 2, 3, 4
- ITP 487 Data Warehouses Units: 3
- ITP 488 Managing Supply Chains with Advanced Planning & Optimization Units: 3
- ITP 489 In-Memory Database Systems for Real Time Analytics Units: 3

Innovation: The Digital Entrepreneur Minor
The Minor in Innovation: The Digital Entrepreneur is jointly sponsored by the Information Technology Program in the Viterbi School of Engineering and the Lloyd Greif Center for Entrepreneurial Studies in the USC Marshall School of Business. The minor is designed for students from a wide range of backgrounds who are interested in starting their own digital ventures, working for start-up companies, or pursuing traditional jobs with large corporations and consulting firms that may involve launching new digital business units. Students will learn all major elements of launching a digital venture including digital disruption, ideation, high-tech product management, online customer acquisition, technology implementation, online business models, digital marketing and monetization. Students will work on launching a digital venture in a team-based environment in the capstone class.

A minimum of 21 units are required to complete the minor, with at least 16 unique units outside of the student’s major.

The Information Technology Program in the Viterbi School of Engineering handles advising and admissions relating to the minor, consulting as needed with the Greif Center for Entrepreneurial Studies in the Marshall School of Business. See Information Technology Program for course requirements.

Required Courses (19 Units)
- BAEP 432 Feasibility Analysis Units: 4 *
- BUAD 301 Technology Entrepreneurship Units: 3
- ITP 466 Building the High Tech Startup Units: 4
- ITP 476 Technologies for Interactive Marketing Units: 4
- ITP 496 The Startup Launchpad Lab Units: 2 ** (capstone course; Corequisite: ITP 496)
- BAEP 496 The Digital Startup Launchpad Units: 2 *(capstone course; Corequisite: ITP 496)

Elective Courses (Minimum of 2 units)
- BAEP 460 Seminar in Entrepreneurship Units: 2
- BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup Units: 2
- BAEP 470 The Entrepreneurial Mindset — Taking the Leap Units: 2
- BUAD 304 Organizational Behavior and Leadership Units: 4
- BUAD 307 Marketing Fundamentals Units: 4
- DSO 431 Foundations of Digital Business Innovation Units: 4
- ITP 310 Design for User Experience Units: 3
- ITP 320 Enterprise Wide Information Systems Units: 4
- ITP 411 Multimedia and Video Production Units: 3
- ITP 470 Information Technology Practicum Units: 1, 2, 3, 4
- ITP 479 Cyber Law and Privacy Units: 3

Note:
*Prerequisite required
**ITEP 310 and BAEP 496 must be taken in the same semester.

Mobile App Development Minor
Students will study and gain experience with the technologies, tools, frameworks and languages that are most commonly used in developing apps for mobile devices such as smartphones and tablets. They will learn the basics of the programming languages, how to design mobile interfaces, how to use the libraries to build apps that have the proper look and feel, how to design and handle user input, and other aspects. Students will go through the process of building a mobile app from idea to product. Students will learn the fundamental principles of mobile apps, so that they will be prepared for the new technologies and frameworks that are constantly being developed. Students should meet the regular admissions standards and have a declared USC major. Students will complete an application for the minor with the Viterbi School of Engineering. For specific information on admission and application procedures, contact the Information Technology Program at (213) 740-4542.

Requirements for completion (five core courses plus two electives)
Minimum units: 20

Required Courses (14 Units)
Choose one from the following (2 units):
- ITP 109 Introduction to Java Programming Units: 2
- ITP 115 Programming in Python Units: 2
- ITP 165 Introduction to C++ Programming Units: 2 *

Choose one from the following (3 units):
- ITP 341 App Development for Phones and Tablets Units: 3
- ITP 342 Mobile Application Development Units: 3

All of the following courses (9 units):
- ITP 140 Mobile Application Technologies Units: 2
- ITP 365 Managing Data in C++ Units: 3 *
- ITP 442 Mobile App Project Units: 4
Electives (Choose Two Courses for a Minimum of 6 Units)

- ITP 310 Design for User Experience Units: 3
- ITP 341 App Development for Phones and Tablets Units: 3
- ITP 342 Mobile Application Development Units: 3
- ITP 344 Advanced Topics in Mobile App Development Units: 3
- ITP 382 Mobile Game Programming Units: 3
- ITP 455 Professional C++ Units: 3

Note:
* ITP 165 and ITP 365 can be waived for students who have taken CSCI 103 and CSCI 104. However, these students must take an additional elective course in order to have the appropriate number of upper-division units.

Video Game Design and Management Minor

The video game design minor integrates theoretical concepts and practical skills to prepare students for a career in interactive entertainment, specifically the video game industry. Students will be exposed to a variety of design concepts related to creating video games including: level design, game-play control, user interface, multiplayer, game mechanics and storytelling. As opposed to the video game programming minor in which students will be writing code and programming game engines, students in the video game design and management minor will apply design concepts to different game genres and use game design software tools to create a working demo of a video game during the course of the minor program.

Requirements for completion
Minimum units: 18

Required Courses (14 Units Minimum)

- ITP 230x Video Game Quality Assurance Units: 4
- ITP 280 Video Game Production Units: 4
- ITP 391a Video Game Project Management Units: 4
  * Students must take ITP 230x or ITP 280 prior to taking ITP 391a.
- CTIN 404L Usability Testing for Games Units: 2
- CTIN 488 Game Design Workshop Units: 4

And at least 4 elective units from the following:

- ITP 230x Video Game Quality Assurance Units: 4
- ITP 280 Video Game Production Units: 4
- ITP 393 Video Game Design Documents Units: 2
  * Students must take ITP 230x or ITP 280 prior to taking ITP 393.
- ITP 491 Level Design and Development for Video Games Units: 4
  * Students must take ITP 230x or ITP 280 prior to taking ITP 491.
- CTIN 458 Business and Management of Games Units: 2
- CTIN 478 Level Design Workshop Units: 2
- CTIN 497 Interactive Media Startup Units: 1

Video Game Programming Minor

The video game programming minor integrates the theoretical concepts and practical skills to prepare students for a career in interactive entertainment, specifically the video game industry. Through integration of two major disciplines (computer science and information technology), students will be exposed to a variety of programming concepts related to creating video games including: 3-D graphics, artificial intelligence, particle systems, rendering, collision detection, game algorithms, physics concepts, and math formulas. In contrast to the video game design minor where the focus is applying design concepts and using software design tools, students in the video game programming minor will evaluate, write and debug code, in addition to creating a game engine during the course of the minor.

This minor features an optional capstone that is a team-based, year-long game development project. Students are only eligible for the capstone after having completed all the required courses as well as the required three ITP elective units. The capstone must be taken in both the fall and spring semesters of a single academic year.

Requirements for completion (four core courses plus 6 units of electives)
Minimum units: 19

Core Courses (13 Units)

- ITP 165 Introduction to C++ Programming Units: 2 *
- ITP 365 Managing Data in C++ Units: 3 *
- ITP 380 Video Game Programming Units: 4
- ITP 485 Programming Game Engines Units: 4

Elective Courses (6 Units - 3 Units Must be ITP)

- ITP 382 Mobile Game Programming Units: 3
- ITP 435 Professional C++ Units: 3
- ITP 484 Multiplayer Game Programming Units: 3
- CSCI 491aL Final Game Project Units: 4 **
- CSCI 491bL Final Game Project Units: 2 **

Note:
* ITP 165 and ITP 365 can be waived for students who have taken CSCI 103 and CSCI 104. However, these students must take an additional elective course in order to have the appropriate number of upper-division units.

**Optional capstone. See details above for requirements.

Web Technologies and Applications Minor

The Web technologies and application minor is designed to introduce students to the Web publishing and development fields. Upon completion of the minor, students will be able to design and develop Websites using major Web technologies, standards and applications. Students can use the theoretical concepts and practical applications of Web technologies not only in the Web industry, but also within a different major field of study. The broad areas of study include Web publishing, Web programming, databases and multimedia. Electives will be chosen based on the students’ academic and professional goals.

Students should meet the regular admissions standards and have a declared USC major.

Requirements for completion (four core courses plus two electives)
Minimum units: 18

Core Courses (13 Units)

- ITP 104L Web Publishing Units: 2
- ITP 300 Database Web Development Units: 3
- ITP 301L Interactive Web Development Units: 4
- ITP 460 Web Application Project Units: 4

Elective (Two Courses)

- ITP 302 Advanced Web Publishing Units: 2
- ITP 310 Design for User Experience Units: 3
- ITP 404 Modern Technologies of Web Development Units: 3
- ITP 411 Multimedia and Video Production Units: 3
- ITP 425 Web Application Security Units: 4
- ITP 470 Information Technology Practicum Units: 1, 2, 3, 4 (3)

Master's Degree

Manufacturing Engineering (MS)

Manufacturing engineering at USC is a multidisciplinary program that confers the degree of Master of Science and is designed to produce graduates capable of responding to the needs of modern, up-to-date manufacturing. These graduates should be able to design, install and operate complex manufacturing systems made up of people, materials, automated machines and information systems. The Departments of Computer Science, Electrical Engineering, Industrial and Systems Engineering, Materials Science, Mechanical Engineering, and Entrepreneurship participate in the Manufacturing Engineering Program.

Course work in the program will train students in traditional manufacturing engineering topics, such as materials selection and process design. Additional courses will include modern technologies such as 3D printing and system-level concepts of integrated product and process design, applications of modern information technology to design and manufacturing, hands-on laboratories using advanced manufacturing equipment and commercial software, and innovation and entrepreneurship.

Master's Degree

Product Development Engineering (MS)

The Master of Science in product development engineering (MS PDE) is an interdisciplinary graduate degree program at USC jointly offered by the Aerospace and Mechanical Engineering and the Daniel J. Epstein Industrial and Systems Engineering (ISE) departments. The Daniel J. Epstein Industrial and Systems department manages this joint degree program. Students can enter this program in either the fall or spring semesters, and it is available to full-time and part-time students.

Admission
The program has the following admission requirements:
• A bachelor's degree in an area of engineering or science;
• An undergraduate cumulative GPA of 3.0 or above; and
• Satisfactory general GRE scores of at least 146 verbal and 151 quantitative.

The MS PDE program requires a minimum of 27 units to complete. Although it is mainly a course work-based program, students can choose to complete the program with or without a thesis requirement. For the thesis option, 4 of the 27 units are to be thesis. At least 16 units, not including thesis, must be at the 500 level or higher, and at least 18 units must be from the AME and ISE departments. For the non-thesis option, 18 of the 27 units must be at the 500 level or higher from the AME and ISE departments, and/or closely related departments. As well, students can choose to take up to 6 units of directed research (e.g., AME 590 or ISE 590). Students must maintain a minimal cumulative GPA of 3.0 in USC course work to graduate.

Curriculum
A total of 30 units is required beyond the BS degree. A minimum of 21 units must be at the 500 level or above. A maximum of 6 units of electives may be taken from non-engineering departments. At least three courses must be taken in the student's selected area of specialization.

Required Courses
• CSCI 585 Database Systems Units: 4 or
• ISE 510 Advanced Computational Design and Manufacturing Units: 3
• ISE 511L Mechatronic Systems Engineering Units: 3
• ISE 517 Modern Enterprise Systems Units: 3 or
• ISE 576 Industrial Eclectic: Technology-Environment Interaction Units: 3
• ISE 525 Design of Experiments Units: 3 or
• AME 525 Engineering Analysis Units: 3
• Approved electives Units: 18 *

Total: 30
* A list of approved electives in specialization areas is available from the department. Departmental approval is required for courses not listed.

The program's prerequisite is a minimum of one 400 level course in either engineering design or engineering economy. Admitted students who do not meet this prerequisite will be assigned appropriate USC course(s) to complete the deficiencies. Deficiency courses, if taken at the 400 level, may be counted toward 27 units as general electives with adviser approval.

Depending on the academic background and career interests of students, the program offers two areas of specialization, product development technology and product development systems. The product development technology specialization will prepare students for a career as future product development engineers, while the product development systems specialization will prepare students as future product development managers. Students entering this program must declare their choice of an area of specialization and follow the requirements of each area of specialization to graduate.

Curriculum
The required 27 units are grouped into four categories of courses for each area of specialization as follows:

Required Courses (6 Units)
• AME 503 Advanced Mechanical Design Units: 3
• ISE 545 Technology Development and Implementation Units: 3

Product Development Systems Required Courses (6 Units)
• ISE 515 Engineering Project Management Units: 3
• ISE 544 Management of Engineering Teams Units: 3

Product Development Systems Technical Electives (6 Units)
• ISE 460 Engineering Economy Units: 3
• ISE 470 Human/Computer Interface Design Units: 3
• ISE 511L Mechatronic Systems Engineering Units: 3
• ISE 517 Modern Enterprise Systems Units: 3
• ISE 525 Design of Experiments Units: 3
• ISE 527 Quality Management for Engineers Units: 3
The Sustainable Infrastructure Systems program prepares students for immediate and effective participation in the modern infrastructure workforce through a common core that includes smart-system design for sustainable infrastructures, the societal and regulatory context of infrastructure engineering decisions, and construction management. Five plans of study for the Master of Science degree allow for specialization based on background and interest.

**Master of Science in Civil Engineering (Transportation Systems) (MS)**

Sustainable Infrastructure Systems

The Sustainable Infrastructure Systems program prepares students for immediate and effective participation in the modern infrastructure workforce through a common core that includes smart-system design for sustainable infrastructures, the societal and regulatory context of infrastructure engineering decisions, and construction management. Five plans of study for the Master of Science degree allow for specialization based on background and interest.

**Master of Science in Civil Engineering (Transportation Systems) Required Courses**

- CE 471 Principles of Transportation Engineering Units: 3
- CE 501 Functions of the Constructor Units: 3
- CE 579 Introduction to Transportation Planning Law Units: 3
- PPD 633 Urban Transportation Planning and Management Units: 4, 2 years
- SAE 515 Sustainable Infrastructure Systems Units: 3

**Electives Courses (Four Courses, Other Electives Upon Approval*)**

- CE 583 Design of Transportation Facilities Units: 3
- CE 585 Traffic Engineering and Control Units: 3
- CE 588 Railroad Engineering Units: 3
- CE 589 Port Engineering: Planning and Operations Units: 3
- PPD 634 Institutional and Policy Issues in Transportation Units: 4
- PPD 692 Transportation and the Environment Units: 4

**Note:**

*Students electing the Master of Science in Civil Engineering (Transportation Systems) degree option are expected to have a background in statistics and uncertainty equivalent to ISE 225 or CE 408, and engineering economy equivalent to ISE 460. Admitted students who do not meet these prerequisites can satisfy the requirements by taking appropriate, adviser-approved electives.

**Additional Requirements**

Students with MS degrees in engineering or science disciplines can be accepted in these programs. Students must satisfy all other departmental degree requirements.

**Civil Engineering (Water and Waste Management) (MS)**

Sustainable Infrastructure Systems

The Sustainable Infrastructure Systems program prepares students for immediate and effective participation in the modern infrastructure workforce through a common core that includes smart-system design for sustainable infrastructures, the societal and regulatory context of infrastructure engineering decisions, and construction management. Five plans of study for the Master of Science degree allow for specialization based on background and interest.

**Master of Science in Civil Engineering (Water and Waste Management) Required Courses**

- CE 451 Water Resources Engineering Units: 3
- CE 453 Water Quality Science and Engineering Units: 3
- CE 476 Design of Pressurized Hydraulic Systems Units: 3
- CE 501 Functions of the Constructor Units: 3
- SAE 515 Sustainable Infrastructure Systems Units: 3

**Electives Courses (Four Courses, Other Electives Upon Approval*)**

- CE 504 Solid Waste Management Units: 3
- CE 510 Groundwater Management Units: 3
- CE 511 Flood Control Hydrology Units: 3
- CE 516 Geohydrology Units: 3
- CE 520a Ocean and Coastal Engineering Units: 3

**Note:**

*Students electing the Master of Science in Civil Engineering (Water and Waste Management) degree option are expected to have a background in fluid mechanics equivalent to CE 309 or ENE 410. Admitted students who do not meet this prerequisite will be assigned a course to complete the deficiency.
Additional Requirements
Students with MS degrees in engineering or science disciplines can be accepted in these programs. Students must satisfy all other departmental degree requirements.

Electrical Engineering (Electric Power) (MS)

Sustainable Infrastructure Systems
The Sustainable Infrastructure Systems program prepares students for immediate and effective participation in the modern infrastructure workforce through a common core that includes smart-system design for sustainable infrastructures, the societal and regulatory context of infrastructure engineering decisions, and construction management. Five plans of study for the Master of Science degree allow for specialization based on background and interest.

Master of Science in Electrical Engineering (Electric Power)

Required Courses
- EE 443 Introduction to Power Systems Units: 3
- EE 444 Power Systems Technology Units: 3
- EE 521 Power Systems Analysis and Design Units: 3
- SAE 515 Sustainable Infrastructure Systems Units: 3

Elective Courses (Five Courses, Take at Least One From Each Area)

Transmission, Distribution and Planning
- CE 501 Functions of the Constructor Units: 3
- EE 516 High-Voltage DC Transmission Systems Units: 3
- EE 524 Transients in Power Systems Units: 3
- EE 525 Power System Protection Units: 3
- EE 526 Renewable Energy in Power Systems Units: 3

High-Voltage Equipment and Design
- EE 515 High-Voltage Technology Units: 3
- EE 528 Power Electronics Units: 3

Power-System Control and the Smart Grid
- EE 482 Linear Control Systems Units: 3
- EE 527 Net-Centric Power-System Control Units: 3
- EE 543aL Digital Control Systems Units: 3
- EE 585 Linear System Theory Units: 3
- EE 593 Robust Multivariable Control Units: 3

Additional Requirements
Students with MS degrees in engineering or science disciplines can be accepted in these programs. Students must satisfy all other departmental degree requirements.

Mechanical Engineering (Energy Conversion) (MS)

Sustainable Infrastructure Systems
The Sustainable Infrastructure Systems program prepares students for immediate and effective participation in the modern infrastructure workforce through a common core that includes smart-system design for sustainable infrastructures, the societal and regulatory context of infrastructure engineering decisions, and construction management. Five plans of study for the Master of Science degree allow for specialization based on background and interest.

Master of Science in Mechanical Engineering (Energy Conversion)

Required Courses (7 Courses, 21 Units)
- AME 430 Thermal Systems Design Units: 3
- AME 525 Engineering Analysis Units: 3
- AME 526 Engineering Analytical Methods Units: 3
- AME 577 Survey of Energy and Power for a Sustainable Future Units: 3
- AME 578 Modern Alternative Energy Conversion Devices Units: 3
- CE 501 Functions of the Constructor Units: 3
- SAE 515 Sustainable Infrastructure Systems Units: 3

Elective Courses (Two Courses, 6 Units*)
- AME 513 Principles of Combustion Units: 3
- AME 514 Applications of Combustion and Reacting Flows Units: 3
- AME 579 Combustion Chemistry and Physics Units: 3
- AME 581 Introduction to Nuclear Engineering Units: 3
- AME 582 Nuclear Reactor Physics Units: 3
- ENE 505 Energy and the Environment Units: 3

Note:
*Students are encouraged to consider electives from other Sustainable Infrastructure Systems programs

Additional Requirements
Students with MS degrees in engineering or science disciplines can be accepted in these programs. Students must satisfy all other departmental degree requirements.

Faculty

A.V. “Bali” Balakrishnan Chair: Petros Ioannou, PhD (Electrical Engineering)

David Packard Chair in Manufacturing Engineering: Stephen C-Y Lu, PhD (Computer Science, Aerospace and Mechanical Engineering, Industrial and Systems Engineering)

Gordon S. Marshall Professor of Engineering Technology: Roger Ghanem, PhD (Aerospace and Mechanical Engineering, Civil and Environmental Engineering)

John and Dorothy Shea Early Career Chair in Civil Engineering: Ketan Savla, PhD (Civil and Environmental Engineering)

TRW Professor of Software Engineering: Barry Boehm, PhD (Computer Science, Industrial and Systems Engineering)

Professors: Barry Boehm, PhD (Computer Science, Industrial and Systems Engineering); Daniel Erwin, PhD (Aerospace and Mechanical Engineering, Astronautical Engineering)*; George Friedman, PhD (Astronautical Engineering); Roger Ghanem, PhD (Aerospace and Mechanical Engineering, Civil and Environmental Engineering); Mike Grantman, PhD (Aerospace and Mechanical Engineering, Astronautical Engineering); Petros Ioannou, PhD (Electrical Engineering); Yan Jin, PhD (Aerospace and Mechanical Engineering); Behrokh Khoshnevis, PhD (Aerospace and Mechanical Engineering, Civil and Environmental Engineering, Industrial and Systems Engineering); Stephen C-Y Lu, PhD (Computer Science, Aerospace and Mechanical Engineering, Industrial and Systems Engineering); Edward W. Mahy, PhD (Aerospace Engineering, Azad M. Madni, PhD (Astronautical Engineering); James E. Moore, II, PhD (Industrial and Systems Engineering, Civil and Environmental Engineering, Public Policy); Cyrus Shahabi, PhD (Computer Science); Firdaus E. Udwadia, PhD (Aerospace and Mechanical Engineering, Civil and Environmental Engineering, Data Science and Operations, Mathematics)

Assistant Professor: Ketan Savla, PhD (Civil and Environmental Engineering)

*Recipient of university-wide or school teaching award.
A minimum grade point average of 3.0 must be earned on all course work toward the master's degree in systems architecture and engineering. This average must also be achieved on all 400-level and above course work attempted at USC beyond the bachelor's degree. Transfer units count as credit (CR) toward the grade point average.

Electives

- Adviser-approved electives in technical management area Units: 9
- Adviser-approved electives in technical specialization area Units: 9

Technical Management Area: Take one course (3 units) from the following:

- CE 556 Project Controls — Budgeting and Estimating Units: 3
- DSO 580 Project Management Units: 3 *
- ISE 515 Engineering Project Management Units: 3
- ISE 517 Modern Enterprise Systems Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- ISE 562 Value and Decision Theory Units: 3
- ISE 585 Strategic Management of Technology Units: 3
- MOR 561 Strategies in High-Tech Businesses Units: 3 *
- SAE 550 Systems Architecting and the Political Process Units: 3

General Technical Area: Take one course (3 units) from the following:

- CSCI 510 Software Management and Economics Units: 4
- CSCI 577a Software Engineering Units: 4
- CSCI 577b Software Engineering Units: 4
- ISE 506 Lean Operations Units: 3
- ISE 580 Performance Modeling with Simulation Units: 3
- SAE 543 Case Studies in Systems Engineering and Management Units: 3
- SAE 550 Systems Architecting and the Political Process Units: 3

Note:

*USC Marshall School of Business course.

Technical Specialization Area:

Nine units are required, usually in the student's present or intended technical specialty. Courses are intended to complement the student's prior education and experience toward becoming a well-rounded systems architect-engineer or architect-manager. With a few exceptions, the courses should come from the recommended list, and usually all from a single specialization. The student may choose from a large variety of technical specializations spanning all departments in the Viterbi School of Engineering. Flexibility is emphasized in this choice; the program director is expected to work closely with the student in choosing the best set of courses to meet the student's needs.

Several sample specializations are listed below but are not intended to be complete.

Recommended Courses

Aerospace and Mechanical Systems:

- AME 503 Advanced Mechanical Design Units: 3
- AME 521 Engineering Vibrations II Units: 3
- AME 532a Flight Vehicle Stability and Control Units: 3
- AME 544 Computer Control of Mechanical Systems Units: 3
- AME 548 Analytical Methods in Robotics Units: 3
- AME 560 Fatigue and Fracture Units: 3
- AME 589 Fatigue and Fracture Units: 3

Artificial Intelligence/Neural Networks:

- CSCI 545 Robotics Units: 4
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 564 Brain Theory and Artificial Intelligence Units: 3
- CSCI 567 Machine Learning Units: 4
- CSCI 574 Computer Vision Units: 3

Automation and Control Systems:

- EE 543aL Digital Control Systems Units: 3
- EE 585 Linear System Theory Units: 3
- EE 587 Nonlinear and Adaptive Control Units: 3
- EE 593 Robust Multivariable Control Units: 3

Communication and Signal Processing Systems:

- EE 551 Principles of Radar Units: 3
- EE 563 Estimation Theory Units: 3
- EE 564 Digital Communication and Coding Systems Units: 4
- EE 567 Communication Systems Units: 3
- EE 583 Statistical Signal Processing Units: 3
Computer and Information Systems:
- CSCI 485 File and Database Management Units: 4
- CSCI 551 Computer Networking Units: 4
- CSCI 585 Database Systems Units: 4
- EE 552 Asynchronous VLSI Design Units: 3
- EE 554 Real Time Computer Systems Units: 3
- EE 561 Foundations of Artificial Intelligence Units: 3
- EE 574 Computer Vision Units: 3
- EE 658 Diagnosis and Design of Reliable Digital Systems Units: 3

Construction:
- CE 501 Functions of the Constructor Units: 3
- CE 519 Transportation Engineering Units: 3
- CE 525 Engineering Mathematical Analysis Units: 3
- CE 533 Geotechnical Earthquake Engineering Units: 3
- CE 536 Structural Design for Dynamic Loads Units: 3
- CE 556 Project Controls — Budgeting and Estimating Units: 3
- CE 583 Design of Transportation Facilities Units: 3

Engineering Management Systems:
- ISE 515 Engineering Project Management Units: 3
- ISE 530 Optimization Methods for Analytics Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- ISE 562 Value and Decision Theory Units: 3
- ISE 580 Performance Modeling with Simulation Units: 3
- ISE 585 Strategic Management of Technology Units: 3
- SAE 550 Systems Architcturing and the Political Process Units: 3

Integrated Media Systems:
- EE 450 Introduction to Computer Networks Units: 3
- EE 522 Immersive Audio Signal Processing Units: 3
- EE 555 Broadband Network Architectures Units: 3
- EE 569 Introduction to Digital Image Processing Units: 4
- EE 596 Wavelets Units: 3
- CSCI 551 Computer Networking Units: 4
- CSCI 574 Computer Vision Units: 3
- CSCI 576 Multimedia Systems Design Units: 4
- CSCI 585 Database Systems Units: 4

Manufacturing Systems:
- AME 588 Materials Selection Units: 3
- EE 561 Foundations of Artificial Intelligence Units: 3
- ISE 511L Mechatronic Systems Engineering Units: 3
- ISE 514 Advanced Production Planning and Scheduling Units: 3
- ISE 517 Modern Enterprise Systems Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- ISE 570 Human Factors in Engineering Units: 3

Network Centric Systems:
- CSCI 402 Operating Systems Units: 4
- CSCI 530 Security Systems Units: 4
- CSCI 551 Computer Networking Units: 4
- CSCI 555L Advanced Operating Systems Units: 4
- CSCI 558L Internetworking and Distributed Systems Laboratory Units: 3
- CSCI 577a Software Engineering Units: 4
- CSCI 577b Software Engineering Units: 4
- EE 550 Design and Analysis of Computer Communication Networks Units: 3

Software Process Architecture:
- CSCI 510 Software Management and Economics Units: 4
- CSCI 577b Software Engineering Units: 4
- EE 554 Real Time Computer Systems Units: 3
- EE 557 Computer Systems Architecture Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- ISE 562 Value and Decision Theory Units: 3
- ISE 564 Performance Analysis Units: 3

Systems:
- EE 598 Electrical Engineering Research Seminar Units: 1
- ISE 515 Engineering Project Management Units: 3

University Certificate

Network Centric Systems Graduate Certificate

This 15-19 unit graduate certificate is jointly sponsored by the Epstein Industrial and Systems Engineering, Hsieh Electrical Engineering and Computer Science departments, and administered by the Epstein ISE Department. The computer science emphasis requires at least 16 units to complete, and may require more depending on the combination of courses students select.

This certificate is designed for practicing engineers engaged in the creation and design of complex innovative network centric systems in aerospace and commercial fields. Entering students are expected to have a bachelor's degree in engineering or a related field from an accredited institution. Three years of industry experience are recommended. Students are required to earn a cumulative B average or higher in courses taken for the certificate. The courses taken for the certificate may be applied later to the Master of Science in Computer Science, Electrical Engineering or Systems Architecting Engineering with departmental approval.

Required Courses
- SAE 574 Net-Centric Systems Architecture and Engineering Units: 3

Choose four courses from one area of emphasis (12-16 units):

Computer Science Emphasis
Required CSCI course
- CSCI 551 Computer Networking Units: 4

CSCI Electives (choose three courses, at least 9 units)
- CSCI 530 Security Systems Units: 4
- CSCI 531 Applied Cryptography Units: 4
- CSCI 555L Advanced Operating Systems Units: 4
- CSCI 556 Introduction to Cryptography Units: 4
- CSCI 558L Internetworking and Distributed Systems Laboratory Units: 3
- CSCI 561 Foundations of Artificial Intelligence Units: 4
- CSCI 573 Probabilistic Reasoning Units: 3
- CSCI 576 Multimedia Systems Design Units: 4
- CSCI 585 Database Systems Units: 4

Electrical Engineering Emphasis
Required EE course
- EE 535 Mobile Communications Units: 3

EE Electives (choose three courses, 9 units)
- EE 541 Radio Frequency Filter Design Units: 3
- EE 544 Radio Frequency Systems and Hardware Units: 3
- EE 550 Design and Analysis of Computer Communication Networks Units: 3
- EE 555 Broadband Network Architectures Units: 3
- EE 562 Random Processes in Engineering Units: 3
- EE 564 Digital Communication and Coding Systems Units: 4
- EE 567 Communication Systems Units: 3
- EE 579 Wireless and Mobile Networks Design and Laboratory Units: 3
Total units: 15-19

Systems Architecting and Engineering Graduate Certificate

The graduate certificate in systems architecting and engineering is designed for practicing engineers engaged in the creation and design of complex innovative systems, in aerospace and commercial fields. Entering students are expected to have a bachelor's degree in engineering or a related field from an accredited institution. Three years of industry experience are recommended. Students are required to earn a cumulative B average or higher in courses taken for the certificate. The courses taken for the certificate may be applied later to the Master of Science in Systems Architecting and Engineering.

Required Courses - Choose Five

- ISE 460 Engineering Economy Units: 3 or
- SAE 560 Economic Considerations for Systems Engineering Units: 3
- ISE 515 Engineering Project Management Units: 3
- ISE 544 Management of Engineering Teams Units: 3
- SAE 541 Systems Engineering Theory and Practice Units: 3
- SAE 542 Advanced Topics in Systems Engineering Units: 3
- SAE 547 Model-Based Systems Architecting and Engineering Units: 3
- SAE 548 Systems/System-of-Systems Integration and Communication Units: 3
- SAE 549 Systems Architecting Units: 3
- SAE 574 Net-Centric Systems Architecting and Engineering Units: 3

Note:

All programs of study will be approved by the technical director of the Systems Architecting and Engineering program.
USC Davis School of Gerontology

The USC Leonard Davis School of Gerontology explores all aspects of human development and aging. Course work and research opportunities in biology, psychology, sociology, policy and aging services make up its multidisciplinary curriculum.

Founded in 1975, the USC Leonard Davis School is not only the nation's premier school of gerontology, it is also the first. Named in honor of Leonard Davis, a philanthropist and businessman who pioneered insurance plans for the elderly through his involvement in AARP and his own company Colonial Penn Life Insurance, the school provides ground-breaking solutions to issues facing an aging population.

The Davis School is committed to providing students with a broad theoretical understanding of lifespan development as well as dynamic post-graduate career placement. Students on all levels often enroll in semester-long internship programs. Working with our internship director, students can apply their gerontological knowledge to an array of industries such as health, medicine, business, finance, policy, direct services, program development, counseling and many other fields.

The Davis School's Bachelor of Science degrees can be pursued with a health science, a social science or a global emphasis. The school also offers six master's degrees, seven dual master's programs, a graduate certificate, and PhD programs in gerontology and the biology of aging.

The school is located in the Ethel Percy Andrus Gerontology Center and is home to the Center for Digital Aging, the Center for Global Aging, the Fall Prevention Center of Excellence, the Long Beach Longitudinal Study, the Longevity Institute, the USC/UCLA Center on Biodemography and Population Health and the Los Angeles Caregiver Resource Center.

Pinchas Cohen, MD, Dean and Executive Director of the Ethel Percy Andrus Gerontology Center

Maria Henke, MA, Senior Associate Dean, USC Leonard Davis School of Gerontology

Faculty

William and Sylvia Kagel Dean's Chair in Gerontology: Pinchas Cohen, MD

AARP University Chair in Gerontology: Eileen Crimmings, PhD*

ARCO/William F. Kieschnick Chair in the Neurobiology of Aging: Caleb E. Finch, PhD*

James E. Birren Chair in Gerontology: Kelvin J.A. Davies, PhD, DSc, Vice Dean and Director of the Ethel Percy Andrus Gerontology Center

Maria Henke, MA, Senior Associate Dean, USC Leonard Davis School of Gerontology

Mary Pickford Foundation Professor of Gerontology: Kathleen H. Wilber, PhD*

Professors: Margaret Gatz, PhD (Psychology); Martin Levine, PhD (Law, Psychiatry and the Behavioral Sciences); Mara Mather, PhD; John J. McArdle, PhD (Psychology); Michal Mor-Barak, DSW (Social Work); Roseann Mulligan, DDS (Dentistry); Mike Nichol, PhD (Pharmacy and Public Policy); Christian Pike, PhD*; Victor Regnier, MArch (Architecture); Edward L. Schneider, MD; Lon Schneider, MD (Psychiatry and Neurology); John Tower, PhD (Biological Sciences); Bradley R. Williams, PharmD (Clinical Pharmacy)

Associate Professors: Maria Aranda, PhD (Social Work); Sean Curran, PhD*; Susan H. Enguidanos, PhD*; Jeffrey McCombs, PhD (Pharmacy); John P. Walsh, PhD*

Assistant Professors: Cleopatra Abdou, PhD; Jennifer Alshire, Ph.D; Changhan David Lee, PhD; Natalie Leland, PhD (Occupational Therapy); Ana Marie Yamada, PhD (Social Work)

Research Professors: Todd Morgan, PhD; Albert Rizzo III, PhD

Research Associate Professors: Roseann Giarrusso, PhD; Jung Ki Kim, PhD

Research Assistant Professors: Donna Benton, PhD; Thomas Parsons, PhD

Adjunct Professors: Neal Cutler, PhD; Fernando Torres-Gil, PhD*

Adjunct Associate Professors: Joanna Davies, PhD; Janet Frank, PhD; Monika White, PhD

Adjunct Research Professor: Larry Rubenstein, PhD

Adjunct Research Assistant Professor: Tracy Armstrong, PhD

Adjunct Clinical Professor: Robert M. Tager, MD

Clinical Associate Professor: Raquel D. Arias, MD

Instructional Assistant Professors: Aaron Hagedorn, PhD; Carin B. Kreutzer, EdD; Freddi Segal-Gidan, PhD; George Shannon, PhD

Emeritus Professor: Vern Bengtson, PhD

Emeritus Associate Professor: Phoebe Liebig, PhD

*Recipient of university-wide or college teaching award.

Programs

The USC Leonard Davis School of Gerontology offers a Bachelor of Science in Human Development and Aging, a Bachelor of Science in Lifespan Health, undergraduate classes through the health and humanity major in the USC Dornsife College of Letters, Arts and Sciences, two minors in gerontology and a progressive Master of Science in Gerontology open to all undergraduate students.

The school offers several graduate degrees including a Master of Science in Gerontology; a Master of Aging Services Management; a Master of Arts in Gerontology; a Master of Long Term Care Administration (with the Marshall School of Business and the Price School of Public Policy) and a Master of Science in Nutrition, Healthspan and Longevity. All master's degrees are offered online and onsite. The Davis School of Gerontology offers the premier PhD in Gerontology program in the nation and also offers a PhD in the Biology of Aging. The PhD programs are not offered online. Non-degree graduate students may complete 16 units of gerontology and be awarded a graduate level certificate in gerontology (also available online).

Master's degree students may pursue one of several dual degrees, which are jointly offered with other professional schools. These are the Master of Science in Gerontology and the Master of Business Administration (MS/MBA) with the Marshall School of Business; the Master of Science in Gerontology and the Juris Doctor (MS/JD) with the Gould School of Law; the Master of Science in Gerontology and the Master of Public Administration (MS/MPA), the Master of Science in Gerontology and the Master of Health Administration (MS/MHA), and the Master of Science in Gerontology and the Master of Planning (MS/MPF) with the Price School of Public Policy; the Master of Science in Gerontology and the Master of Social Work (MS/MSW) with the Suzanne Dworkar-Peck School of Social Work; and the Master of Science in Gerontology and the Doctor of Pharmacy (MS/PharmD) with the School of Pharmacy.

In addition to the degree and minor programs, overview courses in aging are offered for undergraduates enrolled in other units of the university. Many gerontology courses can be credited as elective units.

Honor Society

The student honor society is Sigma Phi Omega, the national honor society formed in 1980 to recognize the excellence of those who study gerontology. The organization seeks to promote scholarship and professionalism, and to recognize exemplary attainment in the field of aging. Undergraduates must have a GPA of at least 3.3 and graduate students a GPA of at least 3.5. Sigma Phi Omega
is administered by the Association for Gerontology in Higher Education, an educational unit of the Gerontological Society of America.

**Ethel Percy Andrus Gerontology Center**

The Andrus Gerontology Center initiates, designs and executes basic and applied research on the many phases of development and aging and provides for graduate and post-graduate training in the biological, social, behavioral and policy sciences. Specific areas of study include neurobiology, cognitive science, biology, social organization behavior, human service delivery, biodemography and social policy.

The Andrus Center offers a multidisciplinary research training program in gerontology. It is directed toward graduate students pursuing the PhD as well as a limited number of post-doctoral fellows who develop research and academic careers in specialized areas of gerontology. Research training is carried out within individual disciplines.

**Undergraduate Programs**

**Minors in Gerontology**

The undergraduate minor program gives students the option of combining their major with an emphasis in gerontology. The minors provide students with the opportunity to supplement their education with a life course perspective of aging processes.

The minor programs, which are multidisciplinary in nature, allow the student to survey the sociological, political, psychological and biological aspects of aging; to gain an understanding of the current services available to older persons; and to examine the contemporary policy issues facing the field.

The two minors include the social science-focused Individuals, Societies, and Aging and the health science-focused Health, Science, and Aging.

**Bachelor of Science in Human Development and Aging**

The Bachelor of Science in Human Development and Aging is an undergraduate degree offered at the USC Leonard Davis School of Gerontology that allows students to specialize within a social science or health science track. Students specializing in the social science track often pursue careers related to older adults in business, law, the nonprofit sector or government agencies, psychology and sociology. The health science track combines the core gerontology curriculum with the prerequisites for admission to medical school and other health-related fields including: dentistry, pharmacy, nursing and others. In addition, students will participate in a supervised practicum experience in which they will become directly involved with aging clients in a health care setting.

**Bachelor of Science in Lifespan Health**

The Bachelor of Science in Lifespan Health prepares students for admission to a graduate or professional school with an emphasis on the biomedical aspects of health including disease prevention, detection and treatment. This program is designed for students wishing to pursue graduate studies in an allied health field such as dental hygiene, occupational/physical therapy, physician assistant, nutrition and other related fields.

**Bachelor of Arts in Health and Humanity**

The USC Leonard Davis School of Gerontology offers undergraduate classes through the Health and Humanity major in the USC Dornsife College of Letters, Arts and Sciences (see the Health and Humanity page).

**Progressive Degree in Gerontology/Master of Science in Gerontology or Master of Aging Services Management**

The progressive degree program allows high performing students to integrate their current undergraduate major with a Master of Science in Gerontology. Students with at least a 3.0 overall GPA may apply for admission to the degree program in their junior year. Students will meet with the gerontology student adviser to develop a course plan that must be approved by the School of Gerontology and the student's home department. Students admitted into the progressive degree program begin taking master's level courses in their senior year and will complete the master's degree in year five. For more information on the admission process, see the gerontology student adviser. The total number of units for the master's degree, however, may be reduced by a maximum of one third. Students must obtain permission from both the bachelor's degree granting program and the USC Leonard Davis School of Gerontology. This program may be particularly attractive to students majoring in biology, psychology, policy and sociology. For more information on progressive degrees, see the entry under Undergraduate Programs or Graduate and Professional Education.

**Graduate Degrees**

**Master of Science in Gerontology**

The Master of Science in Gerontology prepares graduates to assume major leadership roles in the field of aging, primarily in the planning, administration and evaluation of programs in the private and public sectors, as well as executive positions in the delivery of direct services to older people and their families and in the instruction of older adults and service providers. The Master of Science in Gerontology requires 44 units of course work. This includes 32 units of required courses and 12 units of electives. As part of this curriculum, a field practicum assures that these skills can be applied in agencies and institutional settings. This program is offered in both residential and online formats.

**Master of Arts in Gerontology**

The Master of Arts in Gerontology prepares graduate students for admission to the degree program in their junior year. Students will meet with the gerontology student adviser to develop a course plan that must be approved by the School of Gerontology and the student's home department. Students admitted into the progressive degree program begin taking master's level courses in their senior year and will complete the master's degree in year five. For more information on the admission process, see the gerontology student adviser. The total number of units for the master's degree, however, may be reduced by a maximum of one third. Students must obtain permission from both the bachelor's degree granting program and the USC Leonard Davis School of Gerontology. This program may be particularly attractive to students majoring in biology, psychology, policy and sociology. For more information on progressive degrees, see the entry under Undergraduate Programs or Graduate and Professional Education.

**Master of Science in Nutrition, Healthspan and Longevity**

This degree is for those who want to pursue a career in nutrition and dietetics. It can lead to working in health care facilities, long-term care and supported living environments, tertiary and community hospitals, university and school food service programs, a business involving personal wellness, private practice, scientific research on nutrition's role in health and longevity, or in policy and advocacy. The program promotes health and longevity based on scientific evidence, integrating academic study with professional practice experience. The program requires 46 units of coursework and 1,200 hours of supervised practice in hospital, community, and food service.
settings. Prerequisite courses are required as well as 40 hours of paid or volunteer work experience with a Registered Dietitian. The program is a candidate for accreditation by the Accreditation Council for Education in Nutrition and Dietetics. Graduates are eligible to take the Commission of Dietetics Registration's national registration examination and receive the Registered Dietitian Nutritionist (RDN) credential upon passing the examination.

**Graduate Level Certificate in Gerontology**

The graduate certificate in gerontology program provides an opportunity for those who have completed a bachelor's degree in another profession or discipline and are employed in the field of aging to acquire a greater understanding of gerontology theory and research. The program consists of 16 units of gerontology content designed to familiarize the student with several areas of the field that relate to professional practice. This program is offered in both residential and online formats.

**Doctor of Philosophy in Gerontology**

PhD in Gerontology students learn about the physiology of human development and aging, examining social policies related to aging as well as the psychological, behavioral and sociological impact on lifespan development. Working closely with a faculty mentor, they concentrate on a specific area of interest and begin the process of discovering and shaping their own academic specialization. They work closely with faculty on research and publications, participate in colloquia, attend and present at national organization meetings, acquire teaching experience and develop a rich academic, personal, and professional network. The program requires 60 units of course work and at least four additional dissertation units and is only available as a residential program.

**Doctor of Philosophy in the Biology of Aging**

The PhD in the Biology of Aging program is designed for students who want to become leaders in biogerontology. The focus is on molecular, cellular, and regenerative medicine as well as the integrative biology of aging. This unique doctoral program, the first of its kind in the field, brings together two world-renowned institutions: the USC Leonard Davis School and the Buck Institute for research on Aging in Northern California. Students can choose a mentor and Ph.D. faculty committee from either the Buck Institute or USC. Students' academic and research activities take place on both the Southern and Northern California locations. Candidates take core courses on the molecular and cellular biology of aging and age-related diseases, and then select a track among neuroscience, molecular, and cellular biology, stem cell and regenerative sciences, and biomedical sciences. The program requires 60 units of work, including courses, seminars and research credit. At least 24 of the 60 units must be formal graduate course work (lectures or seminars). It is only available as a residential program.

**Dual Degree Programs**

The USC Leonard Davis School of Gerontology cooperates with five other professional schools at USC in offering programs in which the student receives two master's degrees. These degrees provide the student with the knowledge and skills of gerontology as well as those of the other professional field. The dual degrees require more course work than the MS alone but offer the graduate greater breadth of education and employment options.

Dual degrees currently available are the Master of Science in Gerontology and the Master of Business Administration (MS/MBA) with the Marshall School of Business; the Master of Science in Gerontology and the Juris Doctor (MS/JD) with the Gould School of Law; the Master of Science in Gerontology and the Master of Public Administration (MS/MPA), the Master of Science in Gerontology and the Master of Health Administration (MS/MHA), and the Master of Science in Gerontology and the Master of Planning (MS/MPi) with the Price School of Public Policy; the Master of Science in Gerontology and the Master of Social Work (MS/MSW) with the Suzanne Dworak-Peck School of Social Work; and the Master of Science in Gerontology and the Doctor of Pharmacy (MS/PharmD) with the School of Pharmacy. Students must apply to both schools and if accepted to both, participate in specially designed programs combining the courses of each school.

Applicants to any of the dual degree programs must submit two separate applications to the Office of Admissions; one for the gerontology program and one indicating the other degree program. Each of the schools must accept the student for admission. Acceptance into one school's degree program does not imply acceptance into the dual degree program.

**Gerontology and Business Administration**

See USC Marshall School of Business for requirements.

**Gerontology and Public Administration**

The MS/MPA dual degree offers the student interested in management of agencies and institutions the opportunity to gain in-depth knowledge of the administrative and organizational processes and management skills necessary for the effective delivery of services to older persons. See the USC Price School of Public Policy for course requirements.

**Gerontology and Health Administration**

Students can specialize in health care administration (profit and non-profit) through the dual degree with the Price School of Public Policy's Health Administration Program. See the USC Price School of Public Policy for course requirements.

**Gerontology and Planning**

The MS/MPi dual degree is one of few in the nation which combines the knowledge of the older population with the skills needed to plan services for older people. The MPI prepares the graduate for the responsibilities involved in development of public and private institutions and programs. The MS indicates a special focus on the older person and the skills to analyze and design programs for this growing population. See the USC Price School of Public Policy for course requirements.

**Gerontology and Social Work**

See Master of Science, Gerontology/Master of Social Work (MS/MSW) for requirements.

**Gerontology and Pharmacy**

See Doctor of Pharmacy/Master of Science, Gerontology for requirements.

**Gerontology and Law**

The MS/JD dual degree combines the knowledge of the older population with understanding of the legal system. The program prepares graduates for a number of roles in both public and private sector organizations. Students are required to complete 110 units of course work, 74 from the Gould School of Law and 36 from the Davis School of Gerontology. The first year is devoted to required law courses, and the second, third and fourth years combine gerontology and law courses. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to the rule for students enrolled in the law school honors program. See the USC Gould School of Law for course requirements.

**Bachelor's Degree**

**Human Development and Aging (BS)**

The Bachelor of Science in Human Development and Aging is an undergraduate degree offered at the USC Davis School of Gerontology in the social sciences. Students in this program often pursue careers related to older adults in business, law, the nonprofit sector or government agencies.

Students may also specialize in a health science track. The health science track combines the core gerontology curriculum with the prerequisites for admission to medical school and other health-related fields including: dentistry, pharmacy, occupational/physical therapy, physician assistant programs and others. In addition, students will participate in a supervised practicum experience in which they will become directly involved with aging clients in a health care setting.
Students planning to pursue a BS are urged to notify the school of this intent as early as possible during their undergraduate study. This will help ensure that the student receives proper advisement and that the student is alerted to any special requirements or program modifications.

During the freshman and sophomore years, students enroll primarily in general education required courses as specified by the university and the Human Development and Aging course (GERO 200).

During their junior and senior years, students enroll in required and elective courses in the School of Gerontology as well as other courses throughout the university. These courses are selected in consultation with an adviser and reflect the personal and professional interests of the students.

The honors program is available to juniors who maintain a GPA of 3.5 in gerontology and a GPA of 3.3 in other USC course work. The honors program includes mentored training in research and course work relevant to research methodology and statistics.

A grade point average of at least C (2.0) on all units attempted at USC is required for undergraduate degrees. The School of Gerontology requires a minimum 2.0 grade point average in upper division courses applied toward the major.

**General Education Requirements**

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies). See http://dornsife.usc.edu/2015ge for more information.

**Foreign Language or Programming Skills** *(12 Units)*

Students must satisfy the skill level requirement in one language or complete ITP 101 and additional ITP 100-level programming courses to total 12 units. Students in the health science track are required to complete only ITP 101 and ITP 102.

**Degree Requirements**

**Required Courses**

- GERO 200 Gerontology: The Science of Adult Development Units: 4
- GERO 320g Psychology of Adult Development Units: 4
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4
- GERO 350 Administrative Problems in Aging Units: 2 or 4
- GERO 416 Health Issues in Adulthood Units: 4
- GERO 481 Case Management for Older Adults Units: 4
- GERO 491 Practicum Units: 2-8
- GERO 492 Senior Seminar Units: 4
- General Education Units: 24
- Writing Requirement Units: 8
- Foreign Language or Programming Units: 12
- Gerontology electives: 12
- One approved statistics course Units: 4
- General electives in gerontology or related disciplines (8 units upper division) Units: 32

**Total Units: 128**

**Recommended General Electives**

- ANTH 305 Childhood, Birth and Reproduction Units: 4
- BISC 480 Developmental Biology Units: 4
- CHEM 105a General Chemistry Units: 4
- CHEM 105b General Chemistry Units: 4
- CHEM 322A Organic Chemistry Units: 4
- CHEM 322B Organic Chemistry Units: 4
- MATH 125a Calculus I Units: 4
- PHYS 135a Physics for the Life Sciences Units: 4
- PHYS 135b Physics for the Life Sciences Units: 4

**Total units: 36**

**Gerontology Upper Division Core Courses**

- GERO 310 Physiology of Aging Units: 4
- GERO 320g Psychology of Adult Development Units: 4 or
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4
- GERO 414 Neurobiology of Aging Units: 4
- GERO 493 Practicum in Geriatric Care Units: 4

**Total units: 20**

**Additional Requirements**

- ITP 101 Introduction to Business Information Technologies Units: 2
- ITP 102 Introduction to Creative Information Technologies Units: 2
- General Education Units: 24
- Writing Requirement Units: 8
- Gerontology upper division electives Units: 12
- General electives in gerontology or related disciplines (8 units upper division) Units: 24

**Total units: 72**

**Total units: 128**

**Recommended General Electives**

- ANTH 305 Childhood, Birth and Reproduction Units: 4
- BISC 480 Developmental Biology Units: 4
- CHEM 322A Organic Chemistry Units: 4
- CHEM 322B Organic Chemistry Units: 4
- MATH 125a Calculus I Units: 4
- PHYS 135a Physics for the Life Sciences Units: 4
- PHYS 135b Physics for the Life Sciences Units: 4

**Note:**

*Prerequisite required.
Human Development and Aging, Honors Programs, (BS)

USC Davis offers an honors program to outstanding students already pursuing studies for the BS in Human Development and Aging degree. This program offers students an opportunity to participate in mentored undergraduate research, taking course work in research methods and statistics in aging, and experience in writing an honors thesis that summarizes the research project. Honors students are required to complete GERO 497a, GERO 497b, GERO 497c for a total of 6–8 units, beginning in the fall or spring of the junior year. In the senior year, they must complete GERO 593 Research Methods with a minimum grade of B. GERO 593 is offered only in the fall semester. Completion of the program requires a minimum GPA of 3.5 in gerontology and 3.3 in other courses. The program leads to the designation on the transcript of Bachelor of Science in Human Development and Aging with Honors.

The student takes 2 units of GERO 497a in the fall or spring of the junior year as a mentored research course to begin the process of developing an honors thesis. This would be in lieu of elective units. In the fall of the junior or senior year the student would complete GERO 593 for 4 units and 2 units of GERO 497b, both in lieu of elective units. Also during the fall semester, the research design and methods for the honors thesis are finalized and the research project begun. In the spring, the student would register for 2–4 units of GERO 497c in lieu of elective units. The goal for that semester is to complete the research and write the honors thesis.

Degree Requirements

Required Courses

- GERO 200 Gerontology: The Science of Adult Development Units: 4
- GERO 320g Psychology of Adult Development Units: 4
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4
- GERO 350 Administrative Problems in Aging Units: 2 or 4
- GERO 320g Psychology of Adult Development Units: 4
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4
- GERO 350 Administrative Problems in Aging Units: 2 or 4
- GERO 491 Practicum Units: 2-8
- GERO 492 Senior Seminar Units: 4
- General Education Units: 24
- Writing Requirement Units: 8
- Gerontology electives Units: 12
- Electives in gerontology and related disciplines Units: 20–22

Total units: 116-118

Gerontology Honors Courses

- GERO 497a Honors Seminar Units: 2 *
- GERO 497b Honors Seminar Units: 2 *
- GERO 497c Honors Seminar Units: 2-4 *
- GERO 593 Research Methods Units: 4

Total units: 10-12

Total units: 128

*Prerequisite required.

Requirements for Completion of the Health Science Honors Track

Science and Mathematics

- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- CHEM 105aLg General Chemistry Units: 4 *
- CHEM 105bl General Chemistry Units: 4 *
- CHEM 322al Organic Chemistry Units: 4 *
- CHEM 322bl Organic Chemistry Units: 4 *
- MATH 125g Calculus I Units: 4 *
- PHYS 135ag Physics for the Life Sciences Units: 4 *
- PHYS 135bl Physics for the Life Sciences Units: 4 *

Total units: 36

Gerontology Upper Division Core Courses

- GERO 310 Physiology of Aging Units: 4 *
- GERO 320g Psychology of Adult Development Units: 4 or
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4
- GERO 414 Neurobiology of Aging Units: 4 *
- GERO 495 Practicum in Geriatric Care Units: 4

Total units: 20

Additional Requirements

- ITP 101 Introduction to Business Information Technologies Units: 2
- ITP 102 Introduction to Creative Information Technologies Units: 2
- General Education Units: 24
- Writing Requirement Units: 8
- Gerontology upper-division electives Units: 8

Total units: 60-62

Gerontology Honors Courses

- GERO 497a Honors Seminar Units: 2 *
- GERO 497b Honors Seminar Units: 2 *
- GERO 497c Honors Seminar Units: 2-4 *
- GERO 593 Research Methods Units: 4

Total units: 10-12

Total units: 128

*Prerequisite required.

Lifespan Health (BS)

The Bachelor of Science in Lifespan Health prepares students for admission to a graduate or professional school with an emphasis on the biomedical aspects of health including disease prevention, detection and treatment. This program is designed for students wishing to pursue graduate studies in a health field such as medicine, pharmacy, occupational/physical therapy, psychology and other related fields.

Admission to this program is granted through USC's admission process, described in the admission section of this catalogue. The same foreign language requirement for the BS in Human Development and Aging default Social Science track (three semesters) is required as well as the USC Core (see the General Education for more information). Students must enroll in the following courses:

Gerontology Required Courses

- GERO 200 Gerontology: The Science of Adult Development Units: 4
- GERO 310 Physiology of Aging Units: 4 *
- GERO 320g Psychology of Adult Development Units: 4
- GERO 414 Neurobiology of Aging Units: 4 *
- GERO 495 Practicum in Geriatric Care Units: 4

Choose three from the following four courses:

- GERO 414 Neurobiology of Aging Units: 4 *
- GERO 437 Social and Psychological Aspects of Death and Dying Units: 2 or 4 **
- GERO 475 Ethical Issues in Geriatric Health Care Units: 4
- GERO 481 Case Management for Older Adults Units: 4
- Electives in gerontology and related disciplines Units: 20
Notes:

*Prerequisite required.
*GERO 437 must be taken for 4 units of credit

Minor

Individuals, Societies and Aging Minor
This minor is for students in business, engineering, communication, cinematic arts, or arts and sciences interested in developing a broad knowledge of issues in aging. Based largely on disciplines in the behavioral and social sciences, students learn how aging will impact their lives, families and careers. Upon completion of 20 units and graduation, the minor is noted on the student's transcript.

Required Courses
- GERO 320g Psychology of Adult Development Units: 4
- GERO 330 Society and Adult Development Units: 4
- GERO 340 Policy, Values, and Power in an Aging Society Units: 4

Select two from the following:
- GERO 380m Diversity in Aging Units: 4
- GERO 416 Health Issues in Adulthood Units: 4
- GERO 435m Women and Aging: Psychological, Social and Political Implications Units: 4
- GERO 437 Social and Psychological Aspects of Death and Dying Units: 2 or 4
- GERO 481 Case Management for Older Adults Units: 4
- GERO 491 Practicum Units: 2-8

Total units: 20

Science, Health and Aging Minor
The science, health and aging minor is appropriate for students working toward careers in medicine, dentistry, pharmacy, biological sciences, public health or other health-related fields. Admission to the minor is only available to students who have completed 4 units of prerequisites (BISC 220 or BISC 221) as part of their major requirements. Upon completion of 20 units and graduation, the minor is noted on the student's transcript.

Required Courses
- GERO 310 Physiology of Aging Units: 4
- GERO 414 Neurobiology of Aging Units: 4

- GERO 416 Health Issues in Adulthood Units: 4 or
- GERO 496 Introduction to Clinical Geriatrics Units: 4

Select two from the following:
- GERO 415 Neuroaffective Disorders of Aging Units: 4
- GERO 421 Managed Care for an Aging Society Units: 4
- GERO 437 Social and Psychological Aspects of Death and Dying Units: 2 or 4
- GERO 475 Ethical Issues in Geriatric Health Care Units: 4
- GERO 495 Practicum in Geriatric Care Units: 4

Total units: 20

Master's Degree

Advanced Placement Gerontology (MS)
The Advanced Placement MS program allows the outstanding student who has completed a Bachelor of Science in Gerontology to waive several courses in order to complete the master's degree in 36 units rather than the 44 units for the regular program.

Required Courses
- GERO 510 Physiology of Development and Aging Units: 4 or
- GERO 520 Life Span Developmental Psychology Units: 2 or 4 or
- GERO 530 Life Span Developmental Sociology Units: 4 or
- GERO 540 Social Policy and Aging Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GERO 591 Field Practicum Units: 1-12
- GERO 593 Research Methods Units: 4
- Gerontology skill requirements Units: 12
- Gerontology electives Units: 4

Total units: 36

Program Adaptation

Three of the following courses, GERO 510, GERO 520, GERO 530 and GERO 540, will be waived for students in the advanced placement track. Advanced placement students admitted to dual degree programs must meet curriculum requirements for the respective programs.

Aging Services Management (MASM)
The Master of Aging Services Management provides an opportunity for those seeking careers in the aging services industries to acquire skills and knowledge related to management of services, products and programs for older persons. The program requires a minimum of 12 units of core courses (three courses) and 20 units of electives (five courses). All graduate level courses are offered on campus and via the Internet. Continuous registration in the program is required. Leaves of absence are available for limited times and are excluded from the total time.

In order to participate in online courses, students will be required to have access to a computer with multimedia capability including a modem, printer and CD-ROM drive; an Internet provider with email and an Internet browser; and word processing software. Specific details regarding the computer requirements will be provided by the department. This program is available as a progressive degree (see Progressive Degree in Gerontology).

Students applying to the Master of Aging Services Management must have a bachelor's degree from an accredited college or university with a GPA of 3.0. If the applicant's GPA falls below 3.0 the GRE will be required.

Students must choose a minimum of 12 units of core courses from the following:

Core Courses (Minimum of 12 Units)
- GERO 500 Perspectives on a Changing Society: An Introduction to Aging Units: 4
- GERO 501 Applied Legal and Regulatory Issues in Aging Units: 4
- GERO 502 Marketing and Shifts in Consumer Decision Making Units: 4
- GERO 504 Current Issues in Aging Services Management Units: 4
- GERO 589 Case Studies in Leadership and Change Management Units: 4

Total units: 12

Students must select up to five courses (for a total of 20 units) from the following courses or any other adviser approved elective:

Suggested Elective Courses (20 Units)
- GERO 505 Housing and Community Policies and Programs Units: 4
- GERO 506 Technological Innovations in Aging (Gerontechnology) Units: 4
- GERO 507 End of Life Care Units: 4
- GERO 508 The Mind and Body Connection through the Lifespan Units: 4
- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 522 Counseling Older Adults and Their Families Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 541 Health Care Delivery Models: Comparative Approaches Units: 4
- GERO 543 Continuum of Care: Systems Perspective Units: 4
The course work includes instruction on the processes of aging and professional courses designed to develop the skills needed for practice. The field practicum includes one or two semesters of practical experience working in an organizational setting.

Continuous registration in the program is required. There is a five year completion time limit for the degree. Leaves of absence are available for limited times and are excluded from the total time limit. A maximum of two absences (one year each) is allowed. Most courses are offered on campus and online.

**Prerequisites for Admission**

Students applying for admission to the Master of Science in Gerontology program must have a bachelor's degree from an accredited college or university. In selecting applicants for admission, the School of Gerontology considers both academic potential (as reflected in undergraduate study or scores on the Graduate Record Examinations) and professional potential (as reflected in experience, references and career goals). The school requests information from applicants to supplement that supplied by the USC Application for Graduate Admission. Such supplemental information usually includes a resume, statement of interest in gerontology and letters of reference. Interviews may be required.

**Probation and Disqualification**

*Probation and Warning:* Any graduate student whose cumulative or semester grade point average in the university falls below B (3.0) will be placed on academic probation. A graduate student whose semester average falls below B (3.0) but whose cumulative grade point average in the university is 3.0 (A = 4.0) or higher will be placed on academic warning.

*Disqualification:* A graduate student on academic probation will be disqualified if his or her cumulative record accumulates more than 12 units of C work. A graduate student, whether on probation or not, will be subject to disqualification if the Student Affairs Committee of the USC Davis School at any time determines deficiency in academic achievement.

**Common Requirements**

All candidates for the Master of Science degree must complete the following common requirements:

**Required Courses**

- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 551 Applied Policy Skills in Aging Units: 4
- GERO 554 Evaluation: Incorporating Evidence-Based Practices Units: 4
- GERO 560 Micronutrients, Health, and Longevity Units: 4
- GERO 585 The Aging Family Units: 2 or 4
- GERO 593 Research Methods Units: 4

**Total units: 32**

**Gerontology (MA)**

The MA in Gerontology provides an opportunity to acquire skills and formal training in gerontology. The online program requires 28 units of course work. Most courses are offered online and on campus.

Continuous registration in the program is required. Leaves of absence are available for limited times and are excluded from the total time limit.

In order to participate in the online courses, students will be required to have access to a multimedia computer with modern, printer and CD-ROM drive; an Internet provider with email and an Internet browser; and word processing software. Specific details regarding the computer requirements will be provided by the department.

Admission standards and prerequisites are the same as listed for the Master of Science in Gerontology with the exception that students in the online MA program are expected to have a significant amount of experience working in human services, health care, business or similar settings. Students are not required to have taken an approved additional course.

**Required Courses (20 Units)**

- GERO 500 Perspectives on a Changing Society: An Introduction to Aging Units: 4
- GERO 508 The Mind and Body Connection through the Lifespan Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4

**Elective courses (8 units)**

- GERO 522 Counseling Older Adults and Their Families Units: 2 or 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 560 Micronutrients, Health, and Longevity Units: 4
- GERO 585 The Aging Family Units: 2 or 4
- GERO 593 Research Methods Units: 4

**Total units: 20**

Students must select two courses (for a total of 8 units) from the following courses:

**Elective courses (8 units)**

- GERO 522 Counseling Older Adults and Their Families Units: 2 or 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 560 Micronutrients, Health, and Longevity Units: 4
- GERO 585 The Aging Family Units: 2 or 4
- GERO 593 Research Methods Units: 4

**Total units: 28**

**Gerontology (MS)**

The Master of Science in Gerontology prepares graduates to assume major leadership roles in the field of aging, primarily in the planning, administration and evaluation of programs in the private and public sectors, as well as executive positions in the delivery of direct services to older people and their families and in the instruction of older adults and service providers. The Master of Science in Gerontology requires 44 units of course work. This includes 32 units of required courses and 12 units of electives. As part of this curriculum, a field practicum assures that these skills can be applied in agencies and institutional settings.

All students take core courses in physiological, psychological, sociological, social policy and professional issues relating to aging, as well as research methods and the capstone course.

The course work includes instruction on the processes of aging and professional courses designed to develop the skills needed.
**Field Practicum**

The field practicum provides the opportunity for the student to gain valuable experience and develop needed skills by working in a community agency or institution. It involves a minimum of 240 hours of involvement. Students may elect to take an additional 4 units of GERO 591 Field Practicum as an elective.

Field placement assignments are made by the internship coordinator of the school in consultation with the student and in accordance with the resources available in the community. Every effort is made to secure placement which will reflect the student's capacity to assume the responsibilities of a professional in gerontology. Evaluations of the student's performance are sent to the school by the community agency; the student receives a grade of credit/no credit in GERO 591 Field Practicum.

**Long Term Care Administration (MLTCA)**

The Master of Long Term Care Administration provides an opportunity for professionals who are currently working in a long term care profession to acquire skills and formal training in long term care administration. The online program requires 28 units of course work.

The required courses are in sequential order and are restricted by availability. Continuous registration in the program is required. Leaves of absence are available for limited times and are excluded from the total time limit.

In order to participate in the online courses, students will be required to have access to a multimedia computer with modem, printer and CD-ROM drive; an Internet provider with email and an Internet browser; and word processing software. Specific details regarding the computer requirements will be provided by the department.

Admission standards are the same as for the Master of Science in Gerontology.

**Transfer Credits**

An admission credit evaluation is prepared for graduate students with previous graduate level course work. This review indicates which courses the university will approve but it is the relevant school (Gerontology, Business, or Public Policy) that determines if any of these courses are appropriate for this degree. A maximum of 4 units may be used toward the master's degree.

Graduate transfer credit will not be granted for life experience, credit by examination, non-credit extension courses, correspondence courses or thesis supervision. Graduate transfer credit will not be granted for any course work taken elsewhere after the student has been admitted and enrolled at USC unless the student receives prior written approval from the department.

**Required Courses (24 units)**

- ACCT 509 Concepts of Financial and Management Accounting Units: 4
- FBE 587 Legal and Regulatory Environment of Long Term Care Units: 4
- GERO 500 Perspectives on a Changing Society: An Introduction to Aging Units: 4
- GERO 508 The Mind and Body Connection through the Lifespan Units: 4 or
- GERO 522 Counseling Older Adults and Their Families Units: 2 or 4
- PPD 601 Management of Long-Term Care Organizations Units: 4
- PPD 649 Concepts and Practices in Public Personnel Administration Units: 4

**Note:**

Students must select one course (for a total of 28 units) from the following courses.

**Elective Courses (4 units)**

- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 589 Case Studies in Leadership and Change Management Units: 4
- GERO 591 Field Practicum Units: 4

**Nutrition, Healthspan and Longevity (MS)**

The Master of Science in Nutrition, Healthspan and Longevity, a Coordinated Program (CP) in Nutrition and Dietetics, prepares graduates for roles in the field of nutrition and dietetics promoting personalized nutrition through work in hospitals and health care facilities, long-term care or school food service programs, business, teaching, research or private practice. The program has been granted candidacy for accreditation by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) and integrates academic study with professional practice experience. Fifteen students are admitted each year in the fall. Students can complete the full-time degree program in two years, on-campus or online (for those living more than 100 miles from USC). Online students will be required to find and utilize facilities in their community to complete the required course laboratory activities and supervised practice (verification of facilities will be required after acceptance, and before enrollment, for first-year rotations). Successful completion of 46 units of course work is required for graduation and includes 28 units of required courses, 12 units of supervised practice and 6 units of research. The program summative experience will be an electronic portfolio, including research completed throughout the program. Students will be required to present their work at a local, state or national dietetics conference as a requirement of graduation.

Continuous registration in the program is required. Leaves of absence are available for limited times and may require the student to wait until the next year to re-enroll as some courses are offered annually, and must be taken sequentially. A maximum of two leaves of absence is allowed. Upon completion of the Master of Science degree, students are eligible to write for the Credentialing Examination for Registered Dietitian Nutritionists.

In order to participate online, students will be required to have access to a computer with multimedia capability including high-speed Internet access, audio and a digital video camera. Specific details regarding computer requirements will be provided by the program.

**Field Practicum**

The field practicum provides the opportunity for students to gain valuable experience and develop needed skills by working in an institutional or community environment where nutrition services are provided by registered dietitians or food services professionals. Field placement assignments begin in the second semester of the program and continue every semester until graduation. Students attending the program on campus are placed by the program coordinator in consultation with the student as resources are available in the community. Evaluations of students are sent to the school by the community agency; the student receives a grade of credit/no credit in GERO 591 Field Practicum.

**Prerequisites for Admission**

Students applying for admission to the Master of Science in Nutrition, Healthspan and Longevity program must have a bachelor's degree from an accredited college or university. In addition, the following prerequisites must be complete before starting the program: cellular biology with lab, microbiology with lab, general chemistry with lab, organic chemistry with lab, biochemistry with lab, human physiology with lab, general psychology or sociology, algebra or pre-calculus or calculus or statistics, speech or communications, introductory food science and human nutrition. All prerequisite courses cannot be more than 10 years old at the time of application. The exceptions are the general psychology course and the math course; there is no time limit on these two courses.

In selecting applicants for admission, the Davis School of Gerontology considers both academic potential (as reflected in undergraduate study with a GPA greater than 3.0) and professional potential (as reflected in experience, references and career goals). The school requests information from applicants to supplement
that supplied by the USC Application for Graduate Admission. Supplemental information includes a résumé, statement of interest in nutrition and longevity and two letters of reference. Applicants are required to document at least 40 hours of paid or volunteer work experience with a registered dietitian. Interviews may be required for highest ranking applicants.

Probation and Disqualification

**Probation and Warning:** Any graduate student with a cumulative or semester grade point average in the university falling below B (3.0) will be placed on academic probation. A graduate student whose semester average falls below B (3.0) but whose cumulative grade point average in the university is 3.0 (A = 4.0) or higher will be placed on academic warning. Students will not be allowed to begin supervised field practice in the second semester if any first semester grades fall below a B (3.0).

**Disqualification:** A graduate student on academic probation will be disqualified if his or her cumulative record accumulates more than 12 units of C work. A graduate student, whether on probation or not, will be subject to disqualification if the Student Affairs Committee of the USC Davis School at any time determines deficiency in academic achievement.

Course Requirements

All candidates for the Master of Science in Nutrition, Healthspan and Longevity degree must complete the following required courses.

**Required Courses**

- GERO 498 Nutrition, Genes, Longevity and Diseases Units: 4
- GERO 511 Fundamentals of Clinical Nutrition Screening and Assessment Units: 4
- GERO 512 Communicating Nutrition and Health Units: 2
- GERO 513 Fundamentals of Nutrition; Macronutrients Units: 3
- GERO 515L Food Production and Food Service Management Units: 4
- GERO 517L Advanced Therapeutic Nutrition Units: 4
- GERO 518 Current Topics in Clinical Nutrition Units: 4
- GERO 560 Micronutrients, Health, and Longevity Units: 4
- GERO 590 Directed Research Units: 1-12
- GERO 591 Field Practicum Units: 1-12
- GERO 593 Research Methods Units: 4

University Certificate

Gerontology Graduate Level Certificate

The residential graduate certificate in gerontology program provides an opportunity for those who have completed a bachelor's degree in another profession or discipline and are employed in the field of aging to acquire a greater understanding of gerontology theory and research. The program consists of 16 units of gerontology content designed to familiarize the student with several areas of the field which relate to professional practice.

In addition to three of the four required core course areas for the certificate program (GERO 510, GERO 520 or GERO 522, GERO 530 or GERO 585, GERO 540), each student will have the option to choose one elective course which meets his or her particular area of interest. Certificate students do not take a field practicum. Students admitted to the non-degree certificate program are expected to enroll each semester until the program is completed.

Gerontology Online Graduate Level Certificate

The online graduate certificate in gerontology program provides an opportunity for those with a bachelor's degree in another profession or discipline who are employed in the field of aging to acquire a greater understanding of gerontology theory and research. The program consists of 16 units of gerontology courses designed to familiarize the student with several areas of the field which relate to professional practice. Students complete the introductory course, GERO 500, two of the four required core course areas (GERO 508 or GERO 510 or, GERO 520 or GERO 522, GERO 530 or GERO 585, and GERO 540), and one elective course in a particular area of interest.

The required courses are delivered via the Internet. The courses are offered in sequential order and are restricted by availability. Continuous registration in the non-degree program is required. Leaves of absence are available for limited times and are excluded from the total time limit. Entering students are encouraged to begin their course of study by taking GERO 500.

In order to participate in the online courses, students will be required to have access to a multimedia computer with modem, printer and CD-ROM drive; an Internet provider with email and an Internet browser; and word processing software. The department will provide specific details regarding the computer requirements.

Dual Degree

**Master of Science, Gerontology/Doctor of Pharmacy (PharmD/MS)**

The emerging impact of the elderly on the health care system has created a need for health care providers who understand the unique needs of the elderly. As drug therapy remains the primary therapeutic option for chronic disease, the demand for prescription drugs will continue to rise. There is a demand for pharmacists who are equipped to meet the pharmaceutical care needs of this population. Geriatric pharmacy is recognized as a specialty, with board certification through the Commission for Certification in Geriatric Pharmacy. The PharmD/MS, Gerontology program will provide extensive education and training in the unique health care needs of older adults. It will allow student pharmacists with a career interest in geriatrics or gerontology to work with health care planning or delivery organizations to develop and implement progressive pharmaceutical care programs for the elderly.

**Application and Admissions Requirements**

Students who intend to pursue the dual PharmD/MSG degree must be accepted by both programs. This includes having completed a baccalaureate degree from an accredited college or university with a minimum G.P.A. of 3.0 and a minimum equivalent GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MS degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students, who elect this approach, must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program. Second, students can apply to the dual degree by submitting an application to the MS in Gerontology program during their first year of enrollment in the PharmD prior to the MS, Gerontology published application deadline. Students, who elect this approach, must apply through the School of Pharmacy. Students admitted to the MS program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 G.P.A. Students accepted to the dual degree program must maintain a minimum 3.0 G.P.A. in their gerontology and PharmD courses.

**Graduation Requirements**

Students must complete all requirements for the PharmD and MS degrees as listed in the catalogue with a minimum cumulative 3.0 G.P.A. Students must complete 32 Gerontology units as indicated. The PharmD degree course requirements are listed in the School of Pharmacy section.

Gerontology Requirements

- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- Gerontology electives Units: 16 *

### Master of Science, Gerontology/Juris Doctor (MS/JD)

The JD/MS dual degree combines the knowledge of the older population with understanding of the legal system. The program prepares graduates for a number of roles in both public and private sector organizations. Students are required to complete 110 units of coursework, 74 from the law school and 36 from the Davis School of Gerontology. The first year is devoted to required law courses, and the second, third and fourth years combine gerontology and law courses.

#### Gerontology Requirements

The Master of Science in Gerontology will require 36 units of course and fieldwork that cover the core content of the MS program.

#### Gerontology Requirements

- **GER 510** Physiology of Development and Aging Units: 4
- **GER 522** Counseling Older Adults and Their Families Units: 2 or 4
- **GER 530** Life Span Developmental Sociology Units: 4
- **GER 540** Social Policy and Aging Units: 4
- **GER 555** Integrating Gerontology: A Multidisciplinary Approach Units: 4
- **GER 591** Field Practicum Units: 1-12
- **GER 593** Research Methods Units: 4
- Gerontology elective Units: 4

#### Notes:

The Davis School of Gerontology will waive 16 units of electives, which are required in the regular MS program, as well as GER 589 Case Studies in Leadership and Change Management because students enrolled in this program have a primary professional focus in law.

### Law School Requirements

The law school requires 74 units of credit.

#### First Year Requirements

- **LAW 502** Procedure I Units: 4
- **LAW 503** Contracts Units: 2, 3, 4
- **LAW 504** Criminal Law Units: 3
- **LAW 505** Legal Profession Units: 2, 3, 4
- **LAW 507** Property Units: 4
- **LAW 508** Constitutional Law: Structure Units: 2, 3, 4, 5
- **LAW 509** Torts I Units: 4
- **LAW 512** Law, Language and Values Units: 2, 3, 4
- **LAW 515** Legal Research, Writing and Advocacy I Units: 2, 3
- **LAW 516** Legal Research, Writing and Advocacy II Units: 2

#### Elective Course Work

The second and third year of law study are primarily elective with one requirement. Students must satisfy the upper division writing requirement, either by completing a major, faculty-supervised writing project such as a dissertation, or by taking a course with a substantial writing component.

The law school will waive 14 units of electives, which are required in the regular JD program.

### Master of Science, Gerontology/Master of Business Administration (MS/MBA)

The MS/MBA dual degree combines knowledge of the older population with the skills of business management. The program prepares graduates for a number of roles in both public and private sector organizations including the marketing of products or services to seniors, human resource development with older workers and retirement benefits.

#### Gerontology Requirements

The Master of Science in Gerontology requires 30 units of course and fieldwork, which covers the core content of the MS program.

#### Required Courses

- **GER 510** Physiology of Development and Aging Units: 4
- **GER 520** Life Span Developmental Psychology Units: 2 or 4
- **GER 530** Life Span Developmental Sociology Units: 4
- **GER 540** Social Policy and Aging Units: 4
- **GER 555** Integrating Gerontology: A Multidisciplinary Approach Units: 4
- **GER 591** Field Practicum Units: 1-12
- Gerontology electives Units: 6

#### Total units: 30

### Additional Requirements

#### Business Administration Requirements

The Master of Business Administration will require 48 units of credit. Required courses include: all required courses in an MBA program; MOR 548 Competitive Advantage Through People; one marketing elective chosen from among MKT 512 Customer Insights and Analysis 3, MKT 525 Consumer Behavior 3 and MKT 560 Marketing Strategy 3; and additional graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the School of Business toward the 48 units.

#### Program Adaptation

The USC Davis School of Gerontology will waive 18 units of electives, plus GER 593 Research Methods (4 units) and GER 589 Case Studies in Leadership and Change Management (4 units), which are required in the regular MS program. Students will be exposed to research and professional issues in business administration course work.

### Master of Science, Gerontology/Master of Health Administration (MS/MHA)

Gerontology and health administration students can specialize in health care administration (profit and nonprofit) through the dual degree with the USC Davis School of Gerontology and the USC Price School of Public Policy's Health Administration Program. Students in the dual degree program must be admitted by both academic units and complete 78 units of post-graduate academic work.

#### Gerontology Requirements

- **GER 510** Physiology of Development and Aging Units: 4
- **GER 520** Life Span Developmental Psychology Units: 2 or 4
- **GER 530** Life Span Developmental Sociology Units: 4
- **GER 540** Social Policy and Aging Units: 4
- **GER 555** Integrating Gerontology: A Multidisciplinary Approach Units: 4
- **GER 591** Field Practicum Units: 1-12
- Gerontology electives Units: 6

#### Total units: 36
Health Administration Requirements

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 515 Strategic Management of Health Organizations Units: 4
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 545 Human Behavior in Public Organizations Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 601 Management of Long-Term Care Organizations Units: 4

Total units: 42

Additional Requirements

Statistics: The statistics requirement for dual degree students is the same as those that apply to the Health Administration (MHA).

Program Adaptation: The USC Davis School of Gerontology will waive GERO 589 Case Studies in Leadership and Change Management because students enrolled in this program will have a primary professional focus in health administration. Students enrolled in the dual degree are not required to take PPD 511 (as opposed to the stand alone MHA degree students) because they develop the necessary Proficiencies related to their career goals in long-term care administration through other courses such as GERO 550, GERO 591 and GERO 593. In addition, PPD 601 is required for the dual degree (not the stand alone MHA program) because most of these students will work in long-term care facilities and this course is critical for success in that market. Any course substitutions are done by petition on an individual basis and should be part of a carefully developed course of study. The USC Price School of Public Policy should be consulted concerning this program of study.

Master of Science, Gerontology/Master of Planning (MS/MPA)

The MS/MPA dual degree is one of a few in the nation which combines the knowledge of the older population with the skills needed to plan services for older people. The MPI prepares the graduate for the responsibilities involved in development of public and private institutions and programs. The MS indicates a special focus on the older person and the skills to analyze and design programs for this growing population. The MS is offered through the USC Davis School of Gerontology.

Requirements

Requirements for completion of the dual degree program are 66 units including 26 units in gerontology, 36 units in planning and a minimum of 4 units of thesis in either gerontology or planning, as follows:

Gerontology

- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 591 Field Practicum Units: 1-12
- Gerontology elective Units: 4

Planning

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2

Note: 2-unit courses may be offered in seven-and-a-half week blocks.

Master of Science, Gerontology/Master of Public Administration (MS/MPA)

The Master of Public Administration/Master of Science, Gerontology (MPA/MS) dual degree offers students interested in management of agencies and institutions the opportunity to gain in-depth knowledge of the administrative and organizational processes and management skills necessary for the effective delivery of services to older persons.

In the MPA/MS dual degree, students spend their first year taking the required courses in the USC Davis School of Gerontology. The research course, GERO 593 Research Methods and the capstone course GERO 555 Integrating Gerontology: A Multidisciplinary Approach, are taken in the USC Davis School of Gerontology. The student begins courses in the Price School of Public Policy during the second semester of the first year.

Two versions of this dual degree are available, one with a general orientation and one with an emphasis on health services administration. Students must apply to both schools and, if accepted to both, participate in a specially designed program combining course work from both schools.

Curriculum requirements for the general focus dual degree are detailed in the USC Davis School of Gerontology section of this catalogue. Students are encouraged to seek advisement as they plan their actual programs, since curriculum changes may occur.

Gerontology Requirements

- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GERO 591 Field Practicum Units: 1-12
- GERO 593 Research Methods Units: 4
- Gerontology elective Units: 4

Total units: 40

Public Administration Requirements

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 540 Public Administration and Society Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 542 Policy and Program Evaluation Units: 4 or
- PPD 557 Modeling and Operations Research Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- Elective Units: 2

Total units: 28

Additional Requirements

Program Adaptation

For the MS in Gerontology, 12 units of electives are waived as well as GERO 589 Case Studies in Leadership and Change Management because students enrolled in this program have a
primary professional focus in public administration. For the Master of Public Administration, 12 units of gerontology courses are used as the substantive specialization.

**Master of Science, Gerontology/Master of Social Work (MS/MSW)**

**Dual Degree Programs**

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The purpose of the PhD in Gerontology is to provide research and teaching. To obtain this goal, the PhD in Gerontology requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

**Master's Requirements**

The MS/MSW dual degree offers the student interested in direct service or community organization the credentials most valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MS as well as an MS in Gerontology. This dual degree requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworak-Peck School of Social Work. The course work is usually completed over a 24-month period for full-time students.

Students must complete MSW course work in foundation, foundation field instruction and core courses specific to the AMHW or SCI departments. See the Master of Master of Social Work/Master of Science, Gerontology (MS/MS) in the Suzanne Dworak-Peck School of Social Work for course requirements.

**Doctoral Degree**

**Biology of Aging (PhD)**

Application deadline: December 1

The purpose of the PhD in the Biology of Aging is to provide interdisciplinary research training in an age-centric environment. Students will focus on basic mechanisms of aging as well as translational research related to medical applications. Students will approach aging as a major risk factor for disease.

**Admissions Requirements**

Applicants must have a bachelor's degree from an accredited four-year college or university preferably in one of the biological sciences. Applicants are evaluated by their transcripts and GPA; scores on the GRE General Test, three letters of recommendation and a statement of interest.

**Degree Requirements**

**Course Requirements**

The PhD in the Biology of Aging will provide each student with detailed knowledge and expertise in the biology of aging. The PhD in the Biology of Aging requires the following courses (GERO 600, GERO 601, GERO 602a, GERO 602b, GERO 603), plus 8-10 units from the list of suggested electives or other department approved courses). A minimum of 60 units is required, consisting of formal courses, seminars and research credit. At least 24 of the minimum 60 total units required are to be formal graduate course work (lecture or seminar courses).

**Screening Examination**

After completion of the core Biology of Aging course work (GERO 600, GERO 601, GERO 602a GERO 602b and GERO 603) during the first year, the student's degree progress is discussed and evaluated by a screening committee composed of members of the gerontology faculty and the Buck Institute as well as the student's faculty adviser. The purpose of this written and oral evaluation is to determine competence to continue graduate study and identify areas to be strengthened prior to the qualifying examination.

**Qualifying Examination**

By the end of the third semester, students should choose a guidance committee consistent with the requirements of the graduate school composed of gerontology faculty, Buck Institute faculty and one outside member. This committee will conduct the qualifying exam and provide guidance during dissertation research. The chair of the committee will serve as the principal adviser. Students should consult extensively with each committee member regarding subjects to be covered in the exam.

The qualifying exam consists of written and oral parts. Both parts must be finished before the end of the fifth semester. For the written exam, the adviser will consult with each of the members of the qualifying exam committee. The written part will incorporate evaluation and synthesis of existing knowledge related to the topic areas, creation of a set of experiments to test a relevant hypothesis, and interpretation of anticipated results. The oral exam consists of an oral defense of the written part and will be conducted with a month of the written part of the qualifying exam.

**Doctoral Dissertation**

The dissertation is based on original, publishable and significant research conducted independently by the student under the guidance of the dissertation committee. Upon admission to candidacy, a dissertation committee is established which consists of three members of the faculty, some of whom may be from the guidance committee, one of whom must hold his or her primary appointment outside of the Davis School of Gerontology. The dissertation committee is responsible for providing guidance and consultation during the research process, approving the dissertation, conducting the final oral examination, and recommending the candidate for the PhD degree.

**Foreign Language Requirements**

There are no foreign language requirements for the PhD in the Biology of Aging program.

**Transfer Credits**

Students with a master's degree of prior graduate course work in biology can petition to apply the credit toward required courses. Petition for credit will be based on the Graduate School's policies and requirements for transfer of credit and on approval by the doctoral advisory committee. Transfer credits toward the PhD requirements will be limited to 20 units and must be taken within 10 years of entering the program.

**Gerontology (PhD)**

The purpose of the PhD in Gerontology is to provide research training in the multidisciplinary field of aging. The program is designed to enhance the potential of able students to make scholarly and professional contributions to the field of gerontology through research and teaching. To obtain this goal, the PhD in Gerontology provides (1) high level rigorous research training, (2) the acquisition and application of scientific knowledge in the field of aging and (3) the development of leadership skills.

**Admission Requirements**

Applicants for admission to the doctoral program must meet the following requirements:

1. Recipient of a bachelor's degree from an accredited college or university by anticipated enrollment date.
2. Academic promise, as evidenced by above average achievement in previous undergraduate and graduate education. A minimum GPA of 3.5 on all prior graduate work is required. In addition, a 3.25 GPA in an appropriate undergraduate major and a baccalaureate degree are required.
3. Personal qualities compatible with high level performance in gerontology and indicating a potential for leadership in the field. This includes a strong commitment to developing a scientific research program. Applicants to the PhD program must submit a resume of professional and academic experience, three letters of reference (academic and professional), a statement of objectives and examples of written work.

4. Satisfactory performance on the Graduate Record Examinations — existing test scores may be submitted if the GRE has been completed no more than five years prior to the date of application. A satisfactory score on the Verbal and Quantitative GRE is required. Students should also provide scores from the Analytic exam.

5. Submission of application materials as required. Instructions for application to the Doctor of Philosophy in Gerontology may be obtained by contacting the Davis School of Gerontology.

Degree Requirements

Course Requirements

Students must complete a minimum of 60 units of course work (with at least 24 of these units being completed in residency at USC), as well as additional dissertation units (at least 4 units) as required. All students will take courses in three areas: a set of required core courses, research courses and elective courses.

There are two tracks in the gerontology PhD program: the social, behavioral, and policy track and the biology of aging track. Students will be advised about course selection during the first year by the PhD committee. As soon as a student has selected a specialization (e.g., biology, psychology, sociology/demography, policy), an advisory committee of appropriate faculty will be appointed. The purpose of the advisory committee is to help the student in the selection of courses and a research agenda; to monitor the student’s progress; and to insure preparation for the qualifying examination.

Basic Scientific Core

Each track has a basic scientific core. The core for the social, behavioral and policy track stresses the physiological, psychological, sociological and policy dimensions of individual and population aging. The scientific core for the biology of aging track emphasizes the understanding in the molecular, cellular and physiological mechanisms of aging and age-related disease. Special emphases include mechanisms associated with chronic disease such as cancer, heart disease, Alzheimer’s and Parkinson’s disease, and the interplay between genetic and environmental influences.

Social, Behavioral and Policy Track Required Core Courses

- GERO 610 The Aging Society Units: 4
- GERO 613 Health and Aging Units: 4
- GERO 620 Psychology of Aging Units: 4
- GERO 645 Politics and Policy Processes in an Aging Society Units: 4

Biology of Aging Track Required Core Courses

- BISC 502a Molecular Genetics and Biochemistry Units: 4 and
- BISC 502b Molecular Genetics and Biochemistry Units: 4 and
- BISC 502 Molecular Genetics and Biochemistry Units: 4 and
- BISC 502b Molecular Genetics and Biochemistry Units: 4 and
- BISC 505 Genomics and Molecular Genetics Units: 4 and
- NEUR 524-Advanced Overview of Neurosciences Units: 4 and
- NEUR 531-Molecular and Cellular Neurobiology Units: 4 and
- NEUR 532-Systems and Behavioral Neurobiology Units: 3

Research Core

A second core area focuses on development of research skills. For social scientists this includes research design, methods and statistics. Biologists will learn methods appropriate to biological sciences as well as research design and statistics. Students in the social, behavioral and policy track are required to take GERO 593 and GERO 640 and at least one additional statistics course — generally from another department — on the student’s research focus. Students in the biology of aging track are required to take GERO 593 and GERO 590 (2 semesters of 4 units).

Students in both tracks are also required to take two semesters of GERO 592, a research seminar in which participants will develop and carry out their own research. This course is generally taken after the first year.

Elective Core

A third core involves electives that allow students to create a concentration in a particular area of focus or analytic field of inquiry. Students should select courses in consultation with their adviser. Courses should be selected to provide in depth knowledge in the specialized area or general knowledge in the field of gerontology. A number of gerontology courses can be taken as electives.

Students should note that Gerontology courses at the 600 level are usually offered only every second year. Students are encouraged to review the course schedule to determine how to best complete these courses in a timely manner. Successful completion of the required course work does not complete the educational experience of the student. Students are expected to enhance their exposure to research by attending the colloquium lecture series, working on research with a faculty member and presenting original research at the annual meeting of the Gerontological Society of America and other professional meetings.

Additional Requirements

Foreign Language Requirements

There are no foreign language requirements for the PhD program.

Transfer Credits

Students with master's degrees or prior graduate course work in gerontology can petition to apply the credit toward required courses. Petition for credit will be based on the Graduate School's policies and requirements for "transfer of credit" and on approval by the doctoral advisory committee. Transfer credits toward the PhD requirements will be limited to 20 units and must be credits taken within 10 years of entering the program.

Time Limit

The normal time for completing the PhD is four to five years (without a prior master's degree). The first two years will consist of required and elective courses. The third year will consist of electives, the PhD qualifying exams and completion of the dissertation proposal. The final year(s) will involve the completion of the dissertation. The maximum time to complete all requirements for the PhD degree is eight years from the first course at USC applied toward the degree.

Students who have completed an applicable master's degree at USC or elsewhere within five years of the proposed enrollment in the PhD program must complete the PhD in six years.

Screening Procedures

When students have completed a minimum of 16 but not more than 24 units of doctoral course work, the doctoral advisory committee assesses their performance through a screening process and makes a decision regarding their ability to continue in the program. If the student is granted permission to continue, a guidance committee is established.

Qualifying Exam Committee

The qualifying exam committee is composed of five faculty members, at least three from the School of Gerontology. The function of the qualifying exam committee is to oversee the development of the student’s academic progress through the qualifying examination, including the preliminary dissertation proposal.

Qualifying Examination

As a prerequisite for candidacy for the PhD, students must pass a qualifying examination, which is multidisciplinary and comprehensive in nature and that necessitates independent study beyond course requirements. Students must have completed at
least 28 units of course work in the doctoral program with a GPA of at least 3.25 before attempting the qualifying exam. The exam is designed to test mastery of knowledge and scholarly skills and to test readiness to undertake independent research. If the student fails this exam, it may be repeated one time. When the exam is successfully completed, the student then must develop and have a dissertation proposal approved before the student is officially admitted to candidacy for the PhD degree.

**Doctoral Dissertation**

Upon admission to candidacy, a dissertation committee is established which consists of three members of the faculty, some of whom may be from the qualifying committee.

The dissertation committee has responsibility for providing guidance and consultation during the research process, approving the dissertation, conducting the final oral examination, and recommending the candidate for the PhD degree. The doctoral dissertation should make an original contribution to the development of knowledge and theory in gerontology.

**Final Oral Examination**

Upon approval of the final draft of the dissertation by all members of the dissertation committee, the candidate must pass a final oral examination. Upon successful completion of this final examination, the committee recommends the candidate to the Graduate School for award of the PhD degree.
USC Independent Health Professions at the Herman Ostrow School of Dentistry

The USC Division of Biokinesiology and Physical Therapy and the USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy are administered by the Herman Ostrow School of Dentistry of USC. Both of these divisions offer outstanding education at the graduate level and the Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy offers an undergraduate program.

The USC Division of Biokinesiology and Physical Therapy was established in 1944. For those entering the physical therapy profession, the division offers the Doctor of Physical Therapy, the top-ranked DPT program in the country. For practicing physical therapists, the division offers a Master of Science degree as well as clinical residency programs in neurology, orthopedics, pediatrics and sports. In addition, the division offers the nation's longest-standing PhD degree program in Physical Therapy, now a PhD in Biokinesiology. Experienced clinicians with a master's degree in physical therapy may be eligible for the Doctor of Physical Therapy in an Advanced Standing program. The division is headquartered on the Health Sciences Campus.

The USC Chan Division of Occupational Science and Occupational Therapy opened in 1942 and is headquartered on the Health Sciences Campus. More than 50 percent of the recipients of the American Occupational Therapy Association's highest awards have been USC alumni. The division offers a professional degree program allowing students to earn a BS degree and, in one additional year, an MA in occupational therapy. These graduates are eligible to sit for the National Board for Certification in Occupational Therapy® examination. The division offers three graduate degrees: the Master of Arts, the world's first PhD in Occupational Science and the professional Occupational Therapy Doctorate (OTD). The USC Chan Division of Occupational Science and Occupational Therapy master's-level professional degree program is fully accredited by the Accreditation Council for Occupational Therapy Education®, c/o Accreditation Department, American Occupational Therapy Association, Inc., 4720 Montgomery Lane, Suite 200, Bethesda, Maryland 20814-3449, (301) 652-6611 x2914, acoteonline.org. A minor in occupational science is also offered for undergraduate students pursuing a major outside occupational therapy.

Faculty
Associate Dean and Chair: James Gordon, EdD, PT, FAPTA
Associate Chair: Cheryl Resnik, PT, DPT, FNAP, FAPTA
Professors: James Gordon, EdD, PT, FAPTA; Christopher Powers, PhD, PT, FAPTA; Carolee J. Winston, PhD, PT, FAPTA; Francisco Valero-Cuevas, PhD
Professors (Clinical Scholars): Linda Fetters, PhD, PT, FAPTA; Kornelia Kulig, PhD, PT, FAPTA
Professors of Clinical Physical Therapy: Beth Fisher, PT, PhD, FAPTA; Rob F. Landel, PT, DPT, OCS, CSCS, FAPTA; Lori Michener, PT, PhD, FAPTA
Associate Professors: Lucinda L. Baker, PhD, PT; Nina S. Bradley, PhD, PT; George J. Salem, PhD; Nicolas Schweighofer, PhD
Assistant Professors: Jason Kutch, PhD; James Finley, PhD; Sook-Lei Liew, PhD, OTR/L
Associate Professors of Clinical Physical Therapy: Beth Fisher, PhD, PT; Cheryl Resnik, PT, DPT, FNAP; E. Todd Schroeder, PhD; Susan Sigward, PhD, PT, ATC; Julie Tilson, PT, DPT, MS, NCS
Assistant Professors of Clinical Physical Therapy: Jesus Dominguez, PhD, PT; Jacqueline Dylla, PT, DPT, OCS; Rose Hamm, DPT, CWS; Robbin Howard, PT, DPT, NCS; Yogi Matharu, PT, DPT, OCS; Marisa Perdomo, PT, DPT; Amy Pomrantz, PT, DPT, OCS, ATC; Barbara Sargent, PhD, PT, PCS; Michael S. Simpson, PT, DPT, CCS; Jonathan Sum, PT, DPT, OCS, ATC; Kimiko Yamada, PT, DPT, OCS, ATC
Assistant Professors of Research: Christina Dieli-Conwright, PhD, CSCS, CET; Beth Smith, PT, DPT, PhD
Instructors of Clinical Physical Therapy: Elizabeth Acreman, PT, DPT; Geoffrey Cariker, PT, DPT, GCS; Jessica Curran, PT, DPT, OCS; Lauren Davis, PT, DPT; Aimee M. Diaz, PT, DPT, SCS, ATC; Ryan Frendewey, PT, DPT; Lori Ginoza, PT, DPT, NCS; Janelle Gilmer PT, DPT, GCS; Erin Hayden, PT, DPT, OCS; Lydia In, MPT; Nicole Izarrary, PT, DPT, CCS; Eileen V. Johnson, PT, DPT; Yasuyuki Kasayama, DPT, MHA, OCS; Kenneth Kim, PT, DPT, OCS, CSCS; Daniel Kirages, PT, DPT, OCS, FAAAOMPT; Angela Kwan, MPT; Cherise Lathan, PT, DPT, NCS; Valerie Matthews, PT, DPT; Brian McNeill, PT, DPT; Jennifer Okuno, MPT; David Richards, PT, DPT, NCS; Terry Richardson, PT, DPT; Scott Russell, PT, DPT; Don Shimabukuro, MPT; Jennifer Tanaka, PT, DPT, NCS; Jeff Thompson, PT, DPT; Erica Sigman, DPT, OCS; Stephanie Woelfel-Dyess, PT, MPT, CWS, FACCWS; Noriko Yamaguchi, PT, DPT, CSCS, GCS; Maria Zibell, PT, DPT
Adjunct Associate Professors: Joseph Godges, DPT; Larry Ho, PT, DPT, OCS; Jing-Ching (Sally) Ho, PT, DPT, OCS, NCS; Ning Lan, PhD
Adjunct Assistant Professors of Clinical Physical Therapy: Michael Andersen, PT, DPT, OCS; Kyle F. Baldwin, PT, DPT; Julia Burlette Itamura, PT, DPT, OCS; Jason Cozby, PT, DPT, OCS; Sean Flanagan, PhD, ATC, CSCS; Kathryn L. Havens, PhD; John Jankoski, MPT; NCS; OCS; Rebecca Lewthwaite, PhD; Nidiamaka Matthews, PT, DPT, NCS; John Meyer, PT, DPT, OCS, FAPTA; Elizabeth Poppert, PT, DPT, MS, OCS; Gary Souza, PT, DPT
Adjunct Instructors of Clinical Physical Therapy: Ginelle Amorimino, PT, DPT; Andrea Austin, PT, DPT, OCS, ATC; Melissa Brose, PT, DPT; Erin Caudill, PT, DPT, NCS; Manjiri Dadhul, DPT; Oscar Gallardo, MS, PT; Julie A. Guthrie, PT, DPT, OCS; Julie Hershberg, PT, DPT, NCS; Milis Hillman, PT, DPT, OCS; Becky Kern, PT, DPT, OCS; Covey Lazouras, PT, DPT, NCS; Andrew Myler, PT, DPT, NCS; Lisa Meyer, PT, DPT, OCS; Jill Ordonica, PT, PCS; Pamela Ressler, PT, DPT, NCS; Joseph Robinson, PT, DPT; Jo Armour Smith, PhD; Rachel Tabak Tran, PT; Jared Vagi, PT, DPT, OCS, CSCS; Jena Van Loo, MPT; Cynthia Wederich, PT, DPT; Jeremy Wong, PT, DPT; PCS; Jennifer Yue, PT, DPT, NCS

Programs

The Division of Biokinesiology and Physical Therapy offers multiple degrees, certificates and clinical residency programs allowing graduates the opportunity to choose educational programs that will expose them to cuttingedge research and scientific advancements, in turn creating innovators in the physical therapy profession. The largest degree program is the top-ranked three-year Doctor of Physical Therapy (DPT). Post-professional programs include the clinical residency programs in neurologic, orthopedic, pediatric and sports physical therapy. The division also offers a PhD in Biokinesiology, one of the nation's first PhD degrees in physical therapy education, as well as a PhD in Biokinesiology and Physical Therapy. The graduate curricula for the master of science and doctor of philosophy degrees are open to all qualified students who are or are not physical therapists.
Master's Degree
Biokinesiology (MS)
Graduate study for the Master of Science in Biokinesiology is open to individuals who have a bachelor's degree and who have a strong interest in movement science.

Admission Requirements
Admission requirements include a superior grade point average in cumulative undergraduate and graduate course work (if applicable). Applicants should score at least 150 in each area of the Graduate Record Examinations. Applicants are to provide the department with three letters of recommendation. The faculty may request a personal interview before making a decision on admission. Admission will be considered for the fall semester only. The application deadline is November 1. All applicants should contact the Division of Biokinesiology and Physical Therapy for advisement.

Prerequisites
The prerequisite for applicants to the Master of Science program in biokinesiology is either: (a) a bachelor's degree or higher with a science major or equivalent; or (b) a bachelor's or master's degree in physical therapy with appropriate basic science content. Courses completed at the time of application must include work (with appropriate laboratory study) in chemistry, physics, calculus and biology. Highly recommended is course work in anatomy, physiology, histology, kinesiology, trigonometry, neuroscience, analytical geometry, exercise physiology, biochemistry and computer programming. Applicants with no background in cellular or molecular biology may be required to take PT 509 in the entry-level DPT program. Candidates should have some degree of computer literacy. International applicants will be considered on a special evaluation of credentials.

Degree Requirements
Completion of the degree requires satisfactory completion of a minimum of 32 credits of course work at the 500 level or above, a research project (BKN 559 and BKN 590), and a summative experience.

Required Courses
- BKN 550 Neurobehavioral Basis of Movement Units: 4
- BKN 551 Musculoskeletal and Biomechanical Basis of Movement Units: 4
- BKN 552 Physiological Basis of Voluntary Movement Units: 4
- BKN 559 Readings in Biokinesiology Units: 1, 2, 3, 4 (max 8)
- BKN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 510L Principles of Biostatistics Units: 4

Additional Requirements
Students must complete the three biokinesiology core courses (BKN 550, BKN 551, BKN 552) before sitting for their comprehensive examination. Substituting a course for one of the core courses may be allowed after receiving approval from the Biokinesiology Program Committee prior to the beginning of the course.

In order to fulfill the research project requirement, the following plan is suggested; however, each plan can be individualized based on the needs of the student and/or adviser:
1. Select a research professor (from the department) whose work interests them. This should be done by the end of the first year of study.
2. After receiving the professor's approval, sign up for BKN 559 (4 units) and complete a semester reading the literature pertinent to the professor's work.
3. The following semester, sign up for BKN 590 (4 units) and participate in an ongoing research project that is being conducted by the professor. The research paper must be completed within the semester for which BKN 590 units are being given.

See the Doctor of Philosophy in Biokinesiology section for a list of courses available to MS students.

Dual Degree
Doctor of Physical Therapy/Master of Public Health (DPT/MPH)
The Post Professional Doctor of Physical Therapy (DPT) and the Master of Public (MPH) dual degree program offers the opportunity for physical therapy clinicians to pursue a doctoral-level education in combination with an integrated approach to health care. The program spans four years. Students begin the first one to two years completing MPH core and elective course work in the Department of Preventive Medicine. The remaining years are devoted to program requirements in physical therapy.

Doctoral Degree
Biokinesiology (PhD)
The graduate program leading to the Doctor of Philosophy in Biokinesiology is designed to prepare candidates for research and teaching at the university level. Actual programs of study will be designed with a degree of flexibility directed toward individual students who seek to become independent scholars.

Admission Requirements
Applicants must meet all general admission requirements of the university. Admission requirements include a superior grade point average in cumulative undergraduate and graduate course work (if applicable). In addition, applicants should score at least 150 in each area of the Graduate Record Examinations (GRE) and have some research experience. Students admitted for the Master of Science degree are not automatically admitted to the Doctor of Philosophy program. The Master of Science is not required as a prerequisite to the PhD but may be advised.

Applicants must have a personal interview with the program faculty. A student can be considered for admission only when a member of the full-time PhD faculty has agreed to serve as the student's PhD adviser. Three letters of recommendation and duplicate transcripts must be sent to the division for preliminary evaluation, although final acceptance is based upon the official USC application procedure.

Prerequisites (PhD Program)
The prerequisite for applicants to the PhD program in biokinesiology is either: (a) a bachelor's degree or higher with a science major or equivalent; or (b) a bachelor's or master's degree in physical therapy with appropriate basic science content. Courses completed at the time of application must include work (with appropriate laboratory study) in chemistry, calculus, physics and biology. Highly recommended is course work in anatomy, physiology, histology, cell biology, exercise physiology, kinesiology, biochemistry, neuroscience, analytical geometry and computer programming.

Candidates should be computer literate. International applicants will be considered upon evaluation of credentials by the USC Office of Admission.

Students deficient in certain prerequisites may be admitted subject to completion of requirements within two years after admission. An additional year may be granted upon review of the student's program by a faculty committee. Work in any prerequisite subject will not be part of the required units for the Master of Science.

Screening Procedure
A screening procedure will be offered twice each year for qualified students. It must be taken prior to the completion of 24 units at the 500-level or higher. The purpose of the screening procedure is to assess the progress of the PhD student and to determine whether that progress is sufficient to continue in the PhD program. Passing the procedure is a prerequisite for continuation in
the PhD program.

**Course Requirements**

A minimum of 60 units is required for the Doctor of Philosophy degree.

**Required Course Work**

- BKN 550 Neurobehavioral Basis of Movement Units: 4
- BKN 551 Musculoskeletal and Biomechanical Basis of Movement Units: 4
- BKN 552 Physiological Basis of Voluntary Movement Units: 4
- BKN 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- BKN 794a Doctoral Dissertation Units: 2
- BKN 794b Doctoral Dissertation Units: 2
- BKN 794c Doctoral Dissertation Units: 2
- BKN 794d Doctoral Dissertation Units: 2
- BKN 794e Doctoral Dissertation Units: 0
- INTD 500 Ethics and Accountability in Biomedical Research Units: 1
- PM 510L Principles of Biostatistics Units: 4 **
- PM 511aL Data Analysis Units: 4 **

**Note:**

* Or equivalent graduate ethics course.
** Or equivalent graduate level statistics.

PhD students must complete three core courses (BKN 550, BKN 551, BKN 552) before participating in the screening procedure. Substituting a course for one of the core courses may be allowed after receiving approval from the Biokinesiology Program Committee prior to the beginning of the course. Other course requirements (to complete 60 units) will vary according to the specific needs of each student. Course work other than departmental offerings is encouraged and may be required by the student's qualifying exam committee.

**Courses Available for MS/PhD Students**

- BKN 559 Readings in Biokinesiology Units: 1, 2, 3, 4 , max 8
- BKN 563 Biomechanics Units: 2, 2 years
- BKN 564 Neurobiology of Locomotion Units: 2
- BKN 567 Advanced Topics in Biomechanics Units: 2
- BKN 573a Advanced Dissection Anatomy Units: 2
- BKN 573b Advanced Dissection Anatomy Units: 2
- BKN 575 Principles of Musculoskeletal Imaging Units: 2
- BKN 585 Systematic Research Writing Units: 3
- BKN 587a Physiological Correlates of Therapeutic Exercise Units: 4
- BKN 587b Physiological Correlates of Therapeutic Exercise Units: 4
- BKN 588 Physiology and Biomechanics of Resistance Exercise Units: 2
- BKN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- BKN 593 Behavioral Basis of Motor Control and Learning Units: 3
- BKN 594a Master's Thesis Units: 2
- BKN 594b Master's Thesis Units: 2
- BKN 594c Master's Thesis Units: 0
- BKN 599 Special Topics Units: 2, 3, 4 , max 8
- BKN 615 Principles of Skeletal Adaptation Units: 4, 2 years
- BKN 617 Modeling the Motor System: An Introduction Units: 2, 2 years
- BKN 618L Modeling the Motor System: Laboratory Units: 1, 2 years
- BKN 621 Electromyography in Research and Practice Units: 3, 2 years
- BKN 623 Neuroplasticity and Neural Repair Units: 3, 2 years
- BKN 672 Advanced Independent Study in Biokinesiology Units: 1, 2, 3, 4, max 8
- BKN 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- BKN 794a Doctoral Dissertation Units: 2
- BKN 794b Doctoral Dissertation Units: 2
- BKN 794c Doctoral Dissertation Units: 2
- BKN 794d Doctoral Dissertation Units: 2
- BKN 794e Doctoral Dissertation Units: 0
- BKN 794f Doctoral Dissertation Units: 2
- BKN 794g Doctoral Dissertation Units: 2
- BKN 794h Doctoral Dissertation Units: 2
- BKN 794i Doctoral Dissertation Units: 2
- BKN 794j Doctoral Dissertation Units: 2
- BKN 794k Doctoral Dissertation Units: 2
- BKN 794l Doctoral Dissertation Units: 2
- BKN 794m Doctoral Dissertation Units: 2
- BKN 794n Doctoral Dissertation Units: 2
- BKN 794o Doctoral Dissertation Units: 2
- BKN 794p Doctoral Dissertation Units: 2
- BKN 794q Doctoral Dissertation Units: 2
- BKN 794r Doctoral Dissertation Units: 2
- BKN 794s Doctoral Dissertation Units: 2
- BKN 794t Doctoral Dissertation Units: 2
- BKN 794u Doctoral Dissertation Units: 2
- BKN 794v Doctoral Dissertation Units: 2
- BKN 794w Doctoral Dissertation Units: 2
- BKN 794x Doctoral Dissertation Units: 2
- BKN 794y Doctoral Dissertation Units: 2
- BKN 794z Doctoral Dissertation Units: 0

**Additional Requirements**

**Foreign Language Requirement**

There is no foreign language requirement.

**Qualifying Exam Committee**

Upon successful completion of the screening examination the student and the research adviser will select a qualifying exam committee for continuing course work and independent study. The qualifying exam committee comprises five full-time faculty members. The qualifying exam committee will recommend course work, independent study and readings in the major and cognate areas.

**Qualifying Examination**

The PhD qualifying examination is offered during the fall or spring semesters. The qualifying examination concentrates on the student's ability to demonstrate knowledge in the major academic area chosen and its relation to other areas of study offered in the department. The qualifying examination has both written and oral components. A student failing any part of the examination may be allowed one additional opportunity to pass that portion at the discretion of the qualifying exam committee, within the regulations of the Graduate School governing the repetition of qualifying examinations.

**Dissertation Committee**

After the qualifying examination has been passed and a dissertation topic approved, the qualifying exam committee shall be known as the dissertation committee and may be reduced to three members upon unanimous recommendation to the dean of graduate studies. One of the three members must be from outside the major division. The chair of the dissertation committee will be the principal research adviser.

**Dissertation and Oral Defense**

An acceptable dissertation based on original investigation is required. The dissertation must show technical mastery of a special field, capacity for independent research and scholarly ability.

The dissertation and the defense or final oral must have the unanimous approval of the dissertation committee. The dissertation should be complete within three years of the date the proposal is approved.

**Professional Entry-Level Doctor of Physical Therapy Program (DPT)**

This program comprises six semesters and two summer sessions for completion of the required 115 units. Clinical experience (clerkship) is part of the curriculum during all three years. The Division of Biokinesiology and Physical Therapy awards the DPT to enrolled students who have satisfactorily completed the three-year curriculum. For successful completion, students must pass all course work with a minimum cumulative GPA of 2.75, meet all professional standards and pass all clinical clerkships.

**Admission Requirements (Entry-Level)**

Applicants are required to complete the equivalent of a U.S. baccalaureate degree at an accredited college or university prior to matriculation. Prerequisite course work must include: a minimum of four semesters/six quarters of course work in the mammalian biological sciences (and must include one course in human anatomy with laboratory and one course in human physiology with laboratory), two semesters/three quarters of chemistry course work with laboratory (which may include general chemistry, organic chemistry or biochemistry), two semesters/three quarters of physics course work with laboratory, a minimum of two courses in psychology (which may include general psychology or abnormal psychology), and one college-level statistics course (generally from the biology, mathematics and psychology departments). A minimum of 150 hours of clinical experience in a variety of physical therapy settings is required. This can be in a volunteer or paid capacity. Applicants should be computer literate.
Students from foreign countries must have completed one year of study in the United States prior to application. Credits from foreign institutions must be approved by the USC Office of Admission. Graduate Record Examinations (GRE) The GRE is required of all applicants. In general, minimum scores of 150 are required on each of the general test measures of verbal and quantitative ability. Applications Applications are available beginning in July on the Physical Therapist Centralized Application Service (PTCAS) Website for the class entering in August of the following year. The deadline for receipt of applications is on or about December 1 of each year. Only one class is admitted each year.

The Admissions Committee reviews all information submitted. Applicants may be requested to appear for a personal interview. It is highly recommended that all applicants make an appointment to visit the division's office located on the Health Sciences Campus and talk with students and members of the faculty.

Notice of Acceptance Notice of acceptance will be sent to successful candidates no earlier than December of the year prior to the August program start date (with the exception of Early Decision applicants who are typically informed of a decision by late September) and continually thereafter until the class is filled. In no case will an acceptance be offered earlier than one year before anticipated enrollment.

Candidates should reply to an offer of acceptance within three weeks enclosing a $1,000 deposit (nonrefundable), which is credited to tuition at the time of registration. A second nonrefundable $500 deposit is required by mid-May of the program start year (also to be applied in its entirety as a tuition credit). A letter of withdrawal is required if applicants wish to relinquish their place in the class; release is granted automatically upon receipt of the letter.

Degree Requirements (Entry-Level) The DPT is awarded to enrolled students who have satisfactorily completed the three-year curriculum of 115 credits (depending on electives chosen). The minimum number of credits required for graduation is 115. The minimum GPA required for graduation is 2.75. Clinical experience (clerkship) is part of the curriculum during all three years.

The Division of Biokinesiology and Physical Therapy uses a system of student evaluation and grading that is designed to encourage self-reliance, to stimulate the student's independent quest for knowledge and to promote excellence in clinical and academic achievement.

Faculty of the program are responsible for establishing evaluation criteria appropriate to the objectives of each course and for specifying the manner in which evaluative information is to be gathered. For clinical evaluation, descriptive comments based on the student's performance are submitted by faculty and clinical instructors to the student's permanent file.

Required Courses
- PT 509 Cellular and Systems Physiology Units: 3
- PT 514L Musculoskeletal Anatomy Units: 4
- PT 516 Principles of Disease Units: 1
- PT 521L Basics of Patient Management Units: 4
- PT 529 Life Span Motor Control Units: 2
- PT 530a Therapeutic Exercise Units: 2
- PT 530b Therapeutic Exercise Units: 2
- PT 534L Neuroanatomy Units: 3
- PT 536 Pathology of Cardiopulmonary Disease and General Medical Conditions Units: 3
- PT 539 Clinical Pharmacology Units: 1
- PT 546 Neuropathology Units: 3
- PT 549L Clinical Exercise Physiology Units: 4
- PT 551L Therapeutic Application of Physical Agents Units: 3
- PT 554L Analytical Anatomy Units: 3
- PT 556L Clinical Electrophysiology Units: 1
- PT 561a Evidence for Physical Therapist Practice Units: 2
- PT 561b Evidence for Physical Therapist Practice Units: 2
- PT 561c Evidence for Physical Therapist Practice Units: 2
- PT 561d Evidence for Physical Therapist Practice Units: 2
- PT 561e Evidence for Physical Therapist Practice Units: 2
- PT 566 Disorders of the Musculoskeletal System Units: 3
- PT 569 Fundamentals of Neuroscience Units: 4
- PT 571L Clinical Management of Cardiopulmonary Dysfunction Units: 4
- PT 574 Clinical Biomechanics Units: 3
- PT 581L Clinical Management of the Patient with Neurological Dysfunction Units: 5
- PT 582 Mechanics of Human Gait Units: 2
- PT 583L Clinical Electrophysiology Units: 1
- PT 600a Clinical Experience Units: 1
- PT 600b Clinical Experience Units: 3
- PT 600c Clinical Experience Units: 1
- PT 600d Clinical Clerkship Units: 4
- PT 600z Clinical Clerkship Units: 0
- PT 606 Clinical Imaging Units: 2
- PT 621L Clinical Management of the Patient with Musculoskeletal Dysfunction Units: 5
- PT 630 Integrated Management of the Upper and Lower Extremities Units: 3
- PT 631 Integrated Patient Management of the Axial Skeletal System and Related Movement Disorders Units: 3
- PT 632 Integrated Patient Management Seminar Units: 5
- PT 650 Differential Diagnosis in Physical Therapy Units: 2
- PT 660 Advanced Clinical Experience with Academic Integration Units: 5
- PT 665 Advanced Clinical Experience Units: 8

Administration
Associate Dean and Chair: Grace Baranek, PhD, OTR/L, FAOTA

Faculty
Mrs. T.H. Chan Professorship in Occupational Science and Occupational Therapy, Associate Dean and Chair: Grace Baranek, PhD, OTR/L, FAOTA

Associate Chairs: Sarah Bream, OTD, OTR/L; Julie McLaughlin Gray, PhD, OTR/L, FAOTA; Katie Jordan, OTD, OTR/L; Mary Lawlor, ScD, OTR/L, FAOTA

Professors: Grace Baranek, PhD, OTR/L, FAOTA; Sharon Cermak, EdD, OTR/L, FAOTA; Florence A. Clark, PhD, OTR/L, FAOTA; Gelya Frank, PhD, MD; Mary Lawlor, ScD, OTR/L, FAOTA; Cheryl Mattingly, PhD; William Morgan, PhD

Associate Professor: Lisa Aziz-Zadeh, PhD

Assistant Professors: Natalie Leland, PhD, OTR/L, BCG (Gerontology), FAOTA; Sook-Lei Liew, PhD, OTR/L; Elizabeth Pataki, PhD, OTR/L; Shawn C. Roll, PhD, OTR/L, RMSKS (Sonomology), FAOTA; Olga Solomon, PhD; Barbara Thompson, PhD

Professor of Clinical Occupational Therapy: Erna Blanche, PhD, OTR/L; Julie McLaughlin Gray, Ph.D., OTR/L, FAOTA; ; Katie Jordan, OTD, OTR/L
Within the last five years with a minimum GPA of 3.0 (pass/fail or grades below a C are from an accredited junior college, four-year college or must earn an MA degree in Occupational Therapy, successfully

Bachelor's Degree

Occupational Therapy (BS)

Return to: USC Independent Health Professions at the Herman Ostrow School of Dentistry

The undergraduate curriculum leads to the Bachelor of Science with a major in Occupational Therapy. As of fall 2015, only incoming freshmen may apply to the five-year bachelor's to master's program in occupational therapy. Students may not change their major to occupational therapy once admitted to USC. Students majoring in occupational therapy begin professional study during their junior year. Students can earn a USC master's degree in occupational therapy with just one additional year instead of the traditional two years, substantially reducing their overall cost of education and preparing them sooner for the National Board Certification in Occupational Therapy® (NBCOT) examination. Successful completion of the Master of Arts degree and successful completion of a minimum of 24 full-time weeks of clinical fieldwork are required for eligibility to sit for the NBCOT examination. Certification from the board and licensure (most states) are required to practice as an occupational therapist. (See Occupational Therapy (MA) for a description of the MA degree program.)

Pi Theta Epsilon

Pi Theta Epsilon is the national honor society for occupational therapy students and alumni. This society recognizes and encourages superior scholarship among students enrolled in entry-level graduate programs of occupational therapy across the United States.

The Alpha Eta Chapter of Pi Theta Epsilon (PTE) at the University of Southern California selects candidates early in the spring semester of each year based on National PTE guidelines related to academic standing and students' potential for leadership in the profession.

Admission Criteria and Application Procedures for Incoming Freshmen

See the Undergraduate Admission section of this catalogue for admission criteria and application procedures for the university.

Program Requirements

A total of 128 units is required for the Bachelor of Science degree. An occupational therapy major cannot count any 300-level OT course toward the BS degree.

General Education Requirements

The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education for more information.

Required Pre-Professional Courses

Students in the bachelor's to master's program are required to meet with their academic adviser within the division once each semester to ensure satisfactory completion of requirements outlined below. Students must successfully complete the pre-professional required courses prior to taking the advanced professional courses.

All pre-professional courses must be completed:• Within the last five years
• With a minimum GPA of 3.0 (pass/fail or grades below a C are not accepted)
• From an accredited junior college, four-year college or university

Degrees Offered

The USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy offers a Bachelor of Science in Occupational Therapy, a minor in Occupational Science, and a Master of Arts in Occupational Therapy. The Master of Arts in Occupational Therapy is offered for students continuing their education following their undergraduate degree in occupational therapy, for students whose first degree is in another field and also for certified occupational therapists seeking a post-professional degree. The division also offers the Doctor of Occupational Therapy (OTD) and the PhD in Occupational Science. The USC Chan Division of Occupational Science and Occupational Therapy master's-level professional degree program is fully accredited by the Accreditation Council for Occupational Therapy Education®, c/o Accreditation Department, American Occupational Therapy Association, Inc., 4720 Montgomery Lane, Suite 200, Bethesda, Maryland 20814-3449, (301) 652-6611 x2914, acoteonline.org.

Entry into occupational therapy practice is at the graduate degree level only. In order to practice, students in the bachelor's program must earn an MA degree in Occupational Therapy, successfully

Associate Professors of Clinical Occupational Therapy:
Sarah Bream, OTD, OTR/L; Celso Delgado Jr., OTD, OTR/L; Karrie Kingsley, OTD, OTR/L; Linda Liang, MOT, OTR/L; Jaynee Meyer, OTD, OTR/L; Deborah Pitts, PhD, MBA, OTR/L, BC MH (Mental Health); Samia Rafeedie, OTD, OTR/L, BCPFR (Physical Rehabilitation), CBH (Brain Injury); Chantelle Rice, OTD, OTR/L; Shelby Surfas, OTD, OTR/L

Assistant Professors of Clinical Occupational Therapy:
Yasi Amanat, OTD, OTR/L; Amber Bennett, OTD, OTR/L; Elizabeth Carley, OTD, OTR/L; Adley Chan, OTD, OTR/L; Allison Chu, OTD, OTR/L; Catherine Crowley, OTD, OTR/L; Karen Crum, OTD, OTR/L; Rebecca Cunningham, OTD, OTR/L; Camille Dieterle, OTD, OTR/L; Don Gordon, PhD, OTR/L; Caitlin Greene, OTR/L, OTR/L; Ashley Halle, OTR/L, OTR/L; Marisa Hernandez, OTR/L, OTR/L; Rebecca Heymann, OTR/L, OTR/L; Jess Holguin, OTR/L, OTR/L; Michelle Hsia, OTR/L, OTR/L; Tracy Jalaba, OTR/L; Jennifer Jones, OTR/L, OTR/L; Kimberly Perring Lenington, OTD, OTR/L; John Margetis, OTR/L, OTR/L; Jenny Martinez, OTR/L, OTR/L; Erin McIntyre, OTR/L, OTR/L; Michael McNulty, OTR/L, OTR/L; Stephanie Mielke, OTR/L, OTR/L; Tessa Milman, OTR/L, OTR/L; Stacey Morikawa, OTD, OTR/L; Phuong Nguyen, OTD, OTR/L; Alexandra Nishi, OTD, OTR/L; Kristin Nxumalo, OTD, OTR/L; Ely Ohki, OTR/L, OTR/L; Jasmine Orozco, OTR/L, OTR/L; Daniel Park, OTD, OTR/L; Joanne Park, OTD, OTR/L; Karen Park, OTD, OTR/L; Tara Perry, OTR/L, OTR/L; Elyse Peterson, OTR/L, OTR/L; Lindsey Reeves, OTR/L, OTR/L; Chantelle Rice, OTR/L, OTR/L; Kimberly Rice, OTD, OTR/L; Janice Rocker, OTR/L, OTR/L; Clarissa Saunders-Newton, PhD, OTR/L; Bari Turetzky, OTR/L, OTR/L; Ashley Uyeshiro, OTD, OTR/L, OTR/L; Jamie Wilcox, OTR/L, OTR/L; Myka Winder, OTR/L, OTR/L

Instructors of Clinical Occupational Therapy:
Aimee Aguillon, OTR/L; Kim Eggleston, OTR/L, OTR/L; Scott Orr, OTR/L; Whitney Pike, BS, OTR/L, Carey Sokol, MA, OTR/L; Joan Vartanian, BS, OTR/L

Research Professor: Michael Carlson, PhD
Research Associate Professors: Jesús Díaz, OTD, OTR/L; Cheryl Vigen, PhD
Research Assistant Professors: Stefanie Bodison, OTD, OTR/L; Leah Duker, PhD, OTR/L; Stacey Schepens Niemiec, PhD, OTR/L
Research Adjunct Assistant Professor: Nora Kashani, JD, OTR/L
Adjunct Assistant Professors of Clinical Occupational Therapy:
Susan Bowles, OTD, OTR/L; Janet Gunter, OTD, OTR/L; Shawn Phipps, PhD, OTR/L; Pamela Roberts, PhD, OTR/L; FAOTA
Adjunct Instructors of Clinical Occupational Therapy:
Cynthia Burt, MA, OTR/L; Remy Chu, MHA, OTR/L; Lisa Deshaies, MA, OTR/L; Heidi Dombish, MS, OTR/L; Dawn Hironaka, BS, OTR/L; Joan Surfas, MA, OTR/L

Distinguished Emeritus Professor: Elizabeth J. Yerxa, EdD, LHD (Hon.), ScD (Hon.), DMed (Hon.), FAOTA
Emeritus Professor: Ruth Zemke, PhD, FAOTA
• Either in a classroom setting or online; however, anatomy must be completed in a classroom setting (refer to Course Work Taken Elsewhere).
• For a total of three semester units each (with the exception of medical terminology, which may be 1 or 2 units).
Required Pre-Professional Courses (USC course numbers are noted)
• Students who wish to transfer credit for courses taken at another institution must gain university approval:

Pre-Professional Courses
• OT 200 Medical Terminology for Health Professions Units: 1
• SOCI 200gm Introduction to Sociology Units: 4 or ANTH 201g Principles of Human Organization Units: 4
• OT 251x Across the Lifespan: Occupations, Health and Disability Units: 4
• OT 260 Human Functional Anatomy for Allied Health Professions Units: 3 (with laboratory), or
• HBIO 301L Human Anatomy Units: 4 (with laboratory)
• OT 261 Human Physiology for Allied Health Professions Units: 3 or
• BISC 307L General Physiology Units: 4
• MATH 114x Foundations of Statistics Units: 4
• PSYC 274Lg Statistics Units: 4 or
• HP 340L Health Behavior Statistical Methods Units: 4
• OT 280 Essential Occupations of Emerging Adulthood Units: 2
• PSYC 360 Abnormal Psychology Units: 4
• A course in Gerontology or adult development (recommended but not required)

Notes:
Four-week intensive courses are offered by the division in human anatomy (OT 260) and human physiology (OT 261) from mid-May to mid-June (just prior to the start of summer professional courses) for students unable to complete those courses earlier. These courses are also offered fall and spring semesters.

Students may take OT 405, OT 406, OT 440 and OT 441 in the junior year, after having completed Human Anatomy and Lifespan Development. Human Physiology must be completed by fall of the junior year. The remaining pre-professional courses must be completed by the start of the senior year.

Required Professional Courses
Enrollment in professional occupational therapy courses is limited to junior and senior occupational therapy majors only.

Required Professional Courses
• OT 405 Foundations: Occupation Units: 2
• OT 406L Foundations: Creativity, Craft and Activity Analysis Units: 2
• OT 440L Foundations: Kinesiology Units: 2
• OT 441L Foundations: Neuroscience Units: 2
• OT 511 Therapeutic Use of Self Units: 2
• OT 515 Neuroscience of Behavior Units: 4
• OT 518 Quantitative Research for Evidence-Based Practice Units: 4
• OT 521 Clinical Reasoning Units: 3
• OT 523 Communication Skills for Effective Practice Units: 3
• OT 525 Qualitative Research for Evidence-Based Practice Units: 4

Two of the following:
• OT 501L Practice Immersion: Adult Physical Rehabilitation Units: 8
• OT 502L Practice Immersion: Mental Health Units: 8
• OT 503L Practice Immersion: Pediatrics Units: 8

Additional Requirements

Scholastic Standards
Undergraduate occupational therapy students must maintain a GPA of at least 3.0 (A = 4.0) in all required OT courses and successfully complete the Graduate Record Examinations in order to continue into the master's (MA) program. If an undergraduate student's OT grade point average (GPA) falls below 3.0, or if the cumulative undergraduate GPA falls below 3.0 at the end of the fall semester of the senior year, continuance is not assured.

Advising
Students enrolled in the occupational therapy major are required to meet with an academic adviser within the Division each semester.

Minor

Occupational Science Minor
The division offers a minor in the discipline of occupational science. It is one of a select few programs in the world that offers undergraduates the opportunity to explore the fields of occupational science and occupational therapy.

Unlike other creatures, humans are innately driven to fill their time with interesting, meaningful activities, which scholars call “occupations.” That is, humans need to be occupied. These occupations have a profound impact on physical and mental health, one's sense of well-being and the experience of quality of life. Occupational Science seeks to understand the precise nature and function of occupations and the critical effect of daily activity on human beings. Scientists working in the field examine questions such as: what is the relationship between childhood occupations and adult competency and achievement; what constitutes a healthy balance of work, rest and leisure; and what factors contribute to a good fit between a particular individual and his or her occupations.

The minor in occupational science requires a total of 20 units: a required gateway course (OT 250) for 4 units plus 16 units selected from the elective courses. It is open to all majors at USC. An occupational therapy major cannot count any 300-level OT course toward the BS degree.

Required Course
• OT 250 Introduction to Occupational Science and Occupational Therapy Units: 4

Elective Courses (16 units)
• OT 251x Across the Lifespan: Occupations, Health and Disability Units: 4
• OT 280 Essential Occupations of Emerging Adulthood Units: 2
• OT 300 Occupational Expressions of Diverse Identities and Lifestyles Units: 4
• OT 310 Creativity Workshop Units: 2
• OT 312 Creating a Sustainable Lifestyle Units: 2
• OT 320 The Nature of Human Occupation: Form, Function, and Meaning Units: 4
• OT 325 The Brain: Mind, Body, and Self Units: 4
• OT 330 Perspectives on the Daily Life of Families Units: 4
• OT 333 Sports Ethics Units: 4
• OT 340 Occupational Foundations of Human-Animal Interaction Units: 4
• OT 350 Disability, Occupations, and the Health Care System Units: 4
• OT 355x Occupational Reconstructions and Social Transformations Units: 2
• OT 360 Creating the Self through Narrative: Acts of Life Story Production Units: 4
• OT 370 Understanding Autism: Participation Across the Lifespan Units: 4
• OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation Units: 4
Master's Degree

Occupational Therapy (MA)

The Master of Arts program is open to students with or without an undergraduate degree in occupational therapy. Students without a prior degree in occupational therapy must take both the foundation courses and the advanced courses listed below. Students with a degree in occupational therapy may apply for Advanced Standing, reducing the units required for the degree from 80 units to 32 units (or 76 units to 28 units for the thesis option). Students who have earned a BS, Occupational Therapy, from USC may apply for Advanced Standing, and follow the prescribed courses under Advanced Core Courses for the Bachelor to Master Program, reducing total units required for the degree from 80 units to 36 units, which includes 4 units of Clinical Internship with Seminar (or 76 units to 32 units for the thesis option). All students must complete either the Thesis or Comprehensive Exam Option.

Admission Requirements

Applicants must have a bachelor's degree from an accredited college or university; a minimum grade point average of 3.0 (A = 4.0); a minimum score of 153 on the verbal section, 144 on the quantitative section and a 3.5 on the analytical writing section of the Graduate Record Examinations taken within five years of application; three letters of recommendation and an autobiographical statement of purpose. A satisfactory score on the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) within two years of enrollment is a requirement for most international students.

Those with a baccalaureate degree in occupational therapy from an accredited college or university or a World Federation of Occupational Therapy (WFOT) approved program may apply for Advanced Standing.

Those with a baccalaureate degree in a field other than occupational therapy also must have completed all of the following prerequisites:

- Within five years of enrollment
- Prior to the start of the program with a minimum GPA of 3.0 (pass/fail or grades below a C are not accepted)
- From an accredited junior college, college or university
- Either in a classroom setting or online; however anatomy should be completed in a classroom setting
- With each course totaling the equivalent of at least three semester units (with exception of medical terminology which may be 1 or 2 units) as follows (course numbers refer to USC courses, but prerequisites can be taken at any accredited college or university):

Prerequisites

- OT 200 Medical Terminology for Health Professions Units: 1
- SOCI 200gm Introduction to Sociology Units: 4 or
- ANTH 201g Principles of Human Organization Units: 4
- HBIO 301L Human Anatomy Units: 4 * (with laboratory)
- OT 261 Human Physiology for Allied Health Professions Units: 5 * or
- BISC 307L General Physiology Units: 4
- OT 251x Across the Lifespan: Occupations, Health and Disability Units: 4
- OT 260 Human Functional Anatomy for Allied Health Professions Units: 3 (with laboratory)
- MATH 114x Foundations of Statistics Units: 4 and
- PSYC 274Lg Statistics Units: 4 or
- HP 341L Health Behavior Statistical Methods Units: 4 and
- HP 350L Health Behavior Research Methods Units: 4 or
- BUAD 310g Applied Business Statistics Units: 4
- PSYC 360 Abnormal Psychology Units: 4
- A course in Gerontology or adult development (recommended but not required)

Notes:

'If anatomy and physiology are combined, students must take two sequential semesters with a laboratory each semester (6–8 units). Four-week intensive courses are offered by the division in human anatomy (OT 260) and human physiology (OT 261) from mid-May to mid-June (just prior to the start of summer professional courses) for students unable to complete those courses earlier. These courses are also offered fall and spring semesters.'

Application Procedures

For those with a baccalaureate degree in occupational therapy: applications are accepted at any time, preferably by February 15 for fall admission.

For those with a baccalaureate degree in a field other than occupational therapy: applications for early decision are due by November 30; all other applications are due February 15 for summer admission.

Applications received after the February 15 deadline are considered on a space-available basis.

Application materials include: 1) USC Online Graduate Application with Division Supplemental Application (only required for those with a baccalaureate degree in occupational therapy); 2) OTCAS online application (only required for applicants with a baccalaureate degree in a field other than occupational therapy); 3) three letters of recommendation; 4) transcripts from all colleges/universities attended; 5) results of the aptitude test of the Graduate Record Examinations; and 6) TOEFL or IELTS scores if required. A personal interview may be requested. Please see the division Website for the most up-to-date application procedures: chan.usc.edu/.

International Students

Students educated outside the United States must have their credentials evaluated by the Office of Admission before their application to the division can be reviewed. See the Admission section of this catalogue. International students must demonstrate competency in English, as measured by the TOEFL or the IELTS.

Degree Requirements

The MA degree is under the jurisdiction of the USC Graduate School. Students should also refer to the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the Graduate School.

Requirements include: GPA of 3.0 in all course work attempted and all course work applied to the degree; at least two-thirds of units applied to the degree must be at the 500 level or higher.

Students without a prior degree in occupational therapy take both the foundation courses and the advanced courses listed below. OT 405, OT 406L, OT 440L and OT 441L are foundational courses that students are required to pass before they may register for the advanced core courses in the professional program. Students must complete all subsequent courses in the professional program on a full-time basis and in sequence, except for students requiring disability accommodations.

Students with a degree in occupational therapy outside of USC may apply for Advanced Standing, reducing the units required for the degree from 80 units to 32 units (or from 76 units to 28 units for the thesis option). Students who have earned a BS, Occupational Therapy, from USC may apply for Advanced Standing, and follow the prescribed courses under Advanced Core Courses for the Bachelor to Master Program, reducing total units required for the degree from 80 units to 36 units, which includes 4 units of Clinical Internship with Seminar (or 76 units to 32 units for the thesis option). All students must complete either the thesis or comprehensive exam option.

Thesis Option

In addition to the required courses, 4 units of electives at 500 level or above, and 4 units of Master's Thesis OT 594a and OT 594b are required. Acceptance of the thesis by the master's committee and the university completes the degree.
Comprehensive Examination Option
In addition to the required courses, 4 units of electives and 8 units of occupational therapy electives are required. All electives must be 500 level or above. Successful performance on a written comprehensive examination administered on campus each fall and spring semester completes the degree.

Required Courses
Foundation Core Courses
- OT 405 Foundations: Occupation Units: 2
- OT 406L Foundations: Creativity, Craft and Activity Analysis Units: 2
- OT 440L Foundations: Kinesiology Units: 2
- OT 441L Foundations: Neuroscience Units: 2
- OT 501L Practice Immersion: Adult Physical Rehabilitation Units: 8
- OT 502L Practice Immersion: Mental Health Units: 8
- OT 503L Practice Immersion: Pediatrics Units: 8
- OT 511 Therapeutic Use of Self Units: 2

Advanced Core Courses
- OT 515 Neuroscience of Behavior Units: 4
- OT 518 Quantitative Research for Evidence-Based Practice Units: 4
- OT 521 Clinical Reasoning Units: 3
- OT 523 Communication Skills for Effective Practice Units: 3
- OT 525 Qualitative Research for Evidence-Based Practice Units: 4
- OT 534 Health Promotion and Wellness Units: 2
- OT 537 Occupation-Centered Programs for the Community Units: 4
- OT 538 Current Issues in Practice: Adulthood and Aging Units: 2
- OT 540 Leadership Capstone Units: 2
- OT 545 Advanced Seminar in Occupational Science Units: 2
- OT 586 Clinical Internship with Seminar Units: 1, 2 (2 units required)*

*Students are expected to take one 2-unit section of this course.

Comprehensive Examination Option (12 units)
In addition to the required courses, 12 units of elective are required, 4 units of electives may be taken from outside the Chan Division. All electives must be 500 level or above. Successful performance on a written comprehensive examination, administered on campus each fall and spring semester, completes the degree.

Thesis Option (8 units)
In addition to the required courses, 4 units of electives at 500 level or above, and 4 units of Master's Thesis, OT 594a and OT 594b are required. Acceptance of the thesis by the master's committee and the university completes the degree.

Advanced Core Courses for the USC Bachelor to Master Program
- OT 501L Practice Immersion: Adult Physical Rehabilitation Units: 8 or
- OT 502L Practice Immersion: Mental Health Units: 8 or
- OT 503L Practice Immersion: Pediatrics Units: 8
- OT 534 Health Promotion and Wellness Units: 2
- OT 537 Occupation-Centered Programs for the Community Units: 4
- OT 538 Current Issues in Practice: Adulthood and Aging Units: 2
- OT 540 Leadership Capstone Units: 2
- OT 545 Advanced Seminar in Occupational Science Units: 2
- OT 586 Clinical Internship with Seminar Units: 1, 2 (2 units required)*

*Students are expected to take one 2-unit section of this course.

Comprehensive Examination Option (12 units)
In addition to the required courses, 12 units of elective are required, 4 units of electives may be taken from outside the Chan Division. All electives must be 500 level or above. Successful performance on a written comprehensive examination, administered on campus each fall and spring semester, completes the degree.

Thesis Option (8 units)
In addition to the required courses, 4 units of electives at 500 level or above, and 4 units of Master's Thesis, OT 594a and OT 594b are required. Acceptance of the thesis by the master's committee and the university completes the degree.

Online MA in Occupational Science and Occupational Therapy
The Online Master of Arts program is open to occupational therapists with a bachelor's degree in occupational therapy from outside USC. All students must complete either the Thesis or Comprehensive Exam Option. This online program requires a total of 32 units for the Comprehensive Exam Option, or a total of 28 units plus OT 594a and OT 594b for the Thesis Option.

Online MA in Occupational Therapy
The Online Master of Arts program is open to occupational therapists with a bachelor's degree in occupational therapy from outside USC. All students must complete either the Thesis or Comprehensive Exam Option. This online program requires a total of 32 units for the Comprehensive Exam Option, or a total of 28 units plus OT 594a and OT 594b for the Thesis Option.

Admission Requirements
Applicants must have a bachelor's degree in occupational therapy from an accredited college or university outside USC; a minimum grade point average of 3.0 (A = 4.0); a minimum score of 153 on the verbal section, 144 on the quantitative section and a 3.5 on the analytical writing section of the Graduate Record Examinations taken within five years of application; three letters of recommendation and an autobiographical statement of purpose. A satisfactory score on the TOEFL or IELTS within two years of enrollment is a requirement for most international students.
Required Core Courses
- OT 515 Neuroscience of Behavior Units: 4
- OT 518 Quantitative Research for Evidence-Based Practice Units: 4
- OT 525 Qualitative Research for Evidence-Based Practice Units: 4
- OT 534 Health Promotion and Wellness Units: 2
- OT 538 Current Issues in Practice: Adulthood and Aging Units: 2
- OT 540 Leadership Capstone Units: 2
- OT 545 Advanced Seminar in Occupational Science Units: 2

Required Elective Courses
- OT 578 Therapeutic Communication: Facilitating Change in Clients Units: 4
- OT 582 Occupational Science Foundations of Lifestyle Redesign Units: 4
- OT 583 Current Applications of Lifestyle Redesign Units: 4

Comprehensive Exam Option (12 units)
In addition to the required core courses, all required elective courses (12 units) must be successfully completed prior to taking the comprehensive exam. Successful performance on a written comprehensive examination administered each fall and spring semester completes the degree.

Thesis Option (8 units)
In addition to the required core courses, students are required to take 4 units of OT 594a and OT 594b Master's Thesis for a total of 28 units.

University Certificate
Lifestyle Redesign® Graduate Certificate (online)
The Graduate Certificate in Lifestyle Redesign® is designed for occupational therapists who wish to obtain an advanced certificate in the area of Lifestyle Redesign®. Certificate courses prepare the occupational therapist to be able to design and implement Lifestyle Redesign® interventions with diverse client populations.

Admission Requirements
Applicants must be working professional occupational therapists with a baccalaureate or higher degree from an accredited college or university; a minimum grade point average of 3.0 (A = 4.0); a minimum score of 153 on the verbal section, 144 on the quantitative section and a 3.5 on the analytical writing section of the Graduate Record Examinations taken within five years of application; three letters of recommendation and an autobiography of purpose. A satisfactory score on the TOEFL or IELTS within two years of enrollment is a requirement for most international students.

Required Courses
- OT 578 Therapeutic Communication: Facilitating Change in Clients Units: 4
- OT 582 Occupational Science Foundations of Lifestyle Redesign Units: 4
- OT 583 Current Applications of Lifestyle Redesign Units: 4

Doctoral Degree
Occupational Science (PhD)
The PhD in Occupational Science educates individuals to engage in the scientific study of human occupation, the purposeful activities that constitute our life experiences. This evolving science is chiefly concerned with the unique capacity of humans to develop adaptive skills, such as tool use and related occupational behaviors, and to choose and orchestrate daily occupations. It also seeks to understand the function, structure and interrelationship of these occupations and their impact on individuals and institutions.

The focus on occupation distinguishes this program from closely related disciplines such as psychology, sociology and anthropology. The program emphasizes the development of research skills and encourages students to organize and synthesize knowledge to contribute to occupational science theory and interdisciplinary understandings of occupation, health and social participation.

Admission Requirements
Applicants for admission to the PhD program are expected to have a baccalaureate degree in an appropriate field, such as one of the biological or social sciences or occupational therapy, with a minimum GPA of 3.0 (A = 4.0). Applicants must also complete the Graduate Record Examination (GRE) within five years of application. USC has no minimum GRE score requirement, the admitted PhD students receive an average score of 160.8 on the verbal section, an average score of 154.3 on the quantitative section, and an average score of 4.6 on the analytical section. At least three academic letters of reference and a personal statement must also be submitted. Other considerations include evidence of academic potential based on master's level study (if relevant), and research skills and interest. International students must demonstrate competency in English, as measured by the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) examination.

Degree Requirements
This degree is awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue for general regulations. All courses applied toward the degree must be courses accepted by the USC Graduate School.

Course Requirements
Satisfactory completion of 60 units beyond the baccalaureate degree is required, including the following courses:

Required Courses
Satisfactory completion of 60 units beyond the baccalaureate degree is required. Students with an earned masters and/or doctoral degree at the time of admission may apply for Advanced Standing, reducing the units required for the degree from 60 units to 40 units. All students must complete the required core courses and successfully complete an independent dissertation. Program requirements include the following courses:
- OT 640 Conceptual Foundations of Occupational Science Units: 4
- OT 641 The Nature of Occupation Units: 4
- OT 648 Researching Occupation: Engagement, Meaning, and Society Units: 4
- OT 649 Researching Occupation: Function, Participation, and Health Units: 4
- OT 660 Research Practicum Units: 2 (2 units — Four Semesters)
- OT 661 Grant Writing for Occupational Science Units: 2

Required Core Electives
Completion of a minimum of 26 units in a topic area such as one of the following is required: quantitative research approaches, qualitative research approaches, occupational science and/or therapy, neuroscience, social development, life span development or gerontology.

Additional Requirements
Those students who also wish to participate in clinical practice in occupational therapy may opt to complete a master's degree in occupational therapy. Such students are required to complete the requirements for that degree, as well as the occupational therapy undergraduate major courses if they are not registered occupational therapists or eligible for registration prior to study.

Cognate Courses
Completion of a minimum of 26 units in a topic area approved by the student's faculty mentor is required. Examples of cognate areas include: research methodologies related to dissertation research, neuroscience, health disparities, gerontology and health promotion.
Research Practicum
Each student will enroll in 2 units of OT 660 Research Practicum per semester for four consecutive semesters, for a total of 8 units. Students are required to begin enrolling in OT 660 in their first semester of doctoral study. In this practicum the student will develop research skills by working as part of a research team under the direction of a faculty member.

Screening Procedures
Passing the screening is prerequisite to continuation in the doctoral program. Directions for obtaining and filing the Report on PhD Screening Procedures are found in the The Graduate School section of this catalogue.

Dissertation Enrollment
Doctoral students must submit a dissertation according to the policies and procedures described in The Graduate School section of this catalogue. Registration in OT 794a Doctoral Dissertation, OT 794b Doctoral Dissertation, OT 794c Doctoral Dissertation, OT 794d Doctoral Dissertation, OT 794e Doctoral Dissertation for a minimum of 4 units (2 units in each of two consecutive semesters) is required.

Summary of All Course Requirements
Required core courses are OT 640, OT 641, OT 648, OT 649, OT 660, OT 661 for a total of 26 units.
Required cognate courses for a minimum total of 26 units.
Dissertation requires 2 units per semester for at least two semesters for a minimum total of 4 units.
Additional 4 units can include 4 further units of dissertation, OT 660 or cognate courses.
Total: 60 units

Foreign Language or Research Skills
The PhD in Occupational Science does not require the demonstration of competence in a foreign language. However, each student is expected to achieve expertise, as defined by the student's qualifying exam committee, in research methods through participation in course work and the research practicum.

Qualifying Exam Committee
The qualifying exam committee is composed of five faculty members. Three members of the committee must be regular faculty from the USC. One member must be from outside the division. Complete regulations for establishing a qualifying exam committee are found in The Graduate School section of this catalogue.

Qualifying Examination
The qualifying examination is comprehensive in nature and requires the student to demonstrate a grasp of content from the core courses and the cognate area. The examination is both written and oral and is set and administered by the student's qualifying exam committee. Refer to The Graduate School section of the catalogue for additional information about the qualifying exam.

Dissertation Committee
The dissertation committee is composed of at least three faculty members. The chair of the committee and at least one additional member of the committee must be regular faculty from the USC. One member must be from outside the division. Complete regulations for establishing a dissertation committee are found in The Graduate School section of this catalogue.

Dissertation
Doctoral students must submit a dissertation based on students' original research according to the policies and procedures of The Graduate School section of this catalogue. Upon approval of the preliminary copy of the dissertation by all members of the dissertation committee, the candidate must pass an oral defense of the dissertation. Upon successful completion of the oral defense and revisions, the manuscript is approved and the committee recommends the candidate to the Graduate School for the PhD.

Teaching
To prepare students for anticipated roles as faculty members, a teaching component is incorporated into the program. Students work with their faculty advisor for their research immersion (OT 660) experience to identify an appropriate course or courses, arrange mentoring experience, and ensure that the timing of the teaching experience complements research lab participation and dissertation plans. If students are not assigned a full course, they are required to present a minimum of four lectures or seminars.

Additional Information
Further information about the baccalaureate, master's and doctoral programs can be obtained by writing or calling the USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy, 1540 Alcazar Street (CHP 133), Los Angeles, CA 90089-9003; (323) 442-2850, toll free (866) 385-4250, or by sending email to info@chan.usc.edu. Information regarding the USC Chan Division of Occupational Science and Occupational Therapy is available at chan.usc.edu.

Required Courses (Students with Advanced Standing)
Students with an earned masters and/or doctoral degree at the time of admission may apply for Advanced Standing, reducing the units required for the degree from 60 units to 40 units. All students must complete the required core courses and successfully complete an independent dissertation. Program requirements include the following courses:
• OT 640 Conceptual Foundations of Occupational Science Units: 4
• OT 641 The Nature of Occupation Units: 4
• OT 648 Researching Occupation: Engagement, Meaning, and Society Units: 4
• OT 649 Researching Occupation: Function, Participation, and Health Units: 4
• OT 660 Research Practicum Units: 2 (2 Units - Four Semesters)
• OT 661 Grant Writing for Occupational Science Units: 2

Cognate Courses (Students with Advanced Standing)
Completion of a minimum of 10 units in a topic area such as one of the following is required: quantitative research approaches, qualitative research approaches, occupational science and/or therapy, neuroscience, social development, life span development or gerontology.

Research Practicum (Students with Advanced Standing)
Each student will enroll in 2 units of OT 660 per semester for four consecutive semesters, for a total of 8 units. Students are required to begin enrolling in OT 660 in their first semester of doctoral study. In this practicum the student will develop research skills by working as part of a research team under the direction of a faculty member.

Summary of all Course Requirements (Students with Advanced Standing)
Required core courses are OT 640, OT 641, OT 648, OT 649, OT 660, OT 661 for a total of 26 units.
Required cognate courses for a minimum total of 10 units.
Dissertation requires 2 units per semester for at least two semesters for a minimum total of 4 units.
Total: 40 units for students with advanced standing

Occupational Therapy (OTD)
The Doctor of Occupational Therapy (OTD) is a post-professional degree program that provides graduates with advanced knowledge and skills in one of four leadership concentrations: 1) advanced clinical practice; 2) policy and administrative leadership; 3)
educational leadership; and (4) research expertise. OTD students graduate from the program with a strong foundation in occupational science as well as in-depth mentored residency experience. The OTD prepares graduates to secure positions as expert clinicians in specialty or emerging practice areas, as administrative leaders within health care organizations, as non-tenure track faculty in institutions of higher education, and as contributors to clinical research teams.

Admission Requirements

Applicants for admission to the OTD program are expected to have at least a baccalaureate degree from an accredited college or university and must be certified or licensed as an occupational therapist or be eligible to sit for the National Board for Certification in Occupational Therapy® (NBCOT) examination at time of matriculation. Domestic students not certified upon matriculation must pass the NBCOT examination by the end of the first semester of the program to maintain enrollment. At the discretion of the OTD Program Director, some international students may not be required to obtain NBCOT certification. A minimum GPA of 3.0 (A = 4.0) and a minimum score of 153 on the Verbal section, a minimum score of 144 on the Quantitative section, and a minimum of 3.5 on the Analytical Writing section of the Graduate Record Examination (GRE) must be achieved within 5 years of application. Applicants must have earned a minimum cumulative 3.0 GPA in the 400- and 500-level required courses. At least three letters of reference, an autobiographical statement of purpose and a current resume are required. Applicants’ leadership potential, previous academic record, clinical experiences and professional accomplishments will also be considered.

International Students

Students educated outside the United States must have graduated from a program approved by the World Federation of Occupational Therapists (WFOT). USC maintains additional admissions requirements for international students (see the Admission section of this catalogue), including English language competence as measured by the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) examination.

Application Procedures

Applications are accepted on a continuous basis. For consideration for fall semester admission, applications must be received by October 1 for maximum funding consideration. Applications received after October 1 will be considered on a space-available basis. Application requirements include: 1) USC Online Graduate Application; 2) USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy online supplemental application for graduate admission; 3) three letters of reference; 4) autobiographical statement of purpose; 5) transcripts from all colleges/universities attended; and 6) GRE General Test scores.

Degree Requirements

Satisfactory completion of 60 units beyond the baccalaureate degree is required. Students with a Master’s degree in Occupational Therapy may apply for Advanced Standing, which requires 36 units beyond the first graduate degree. These students do not take the 24 units of foundation courses listed below. If not admitted with advanced standing, a student may receive partial credit for course work taken for a previous graduate degree.

The degree is awarded under the jurisdiction of the Graduate School. Refer to the Requirements for Graduation section and the Graduate School section of this catalogue, for general regulations. All courses applied toward the degree must be accepted by the USC Graduate School.

Course Requirements (60 Units)

Required Occupational Therapy Foundation Courses (20 Units Required)

• OT 515 Neuroscience of Behavior Units: 4

Electives (8 Units Required)

500-level course within the Division Units: 4
500-level course within or outside the Division Units: 4

Required Occupational Science Advanced Courses (8 Units Required)

• OT 620 Current Issues in Occupational Science and Occupational Therapy Units: 4
• OT 621 Occupational Therapy Leadership: Contemporary Issues Units: 4

Residency (24 Units Required)

• OT 686 Residency Units: 6 or 12

Additional Requirements

Elective Courses (4 units required)

Students will complete a minimum of 4 course units at the 500-level or higher selected from courses within or outside the USC Mrs. T.H. Chan Division of Occupational Science and Occupational Therapy.

Residency Requirement (24 units required)

Students will complete 24 units of OT 686 residency. The residency ensures that graduates of the OTD program demonstrate competence in one of the following leadership concentrations: 1) advanced clinical practice; 2) clinical research; 3) policy and administration; and 4) pedagogy.

At least 20 units applied toward the OTD must be successfully completed before enrolling in OT 686 unless advanced standing has been granted. Students may complete their residency over three consecutive semesters (6 units, 6 units and 12 units) or over four consecutive semesters. It is highly recommended that one semester of OT 686 be completed full-time (12 units without any other simultaneous course enrollment). Full-time residency ensures the opportunity for full immersion in residency. Faculty must approve each student’s residency plan prior to enrollment. OTD residency provides students the opportunity for mentorship by experts in their OTD leadership concentration (e.g., a master clinician, a world-class occupational science researcher, a leader in professional policy or administration, or a faculty member with at least three years of academic experience).

Portfolio Requirement

In the final semester of enrollment, each student will submit a portfolio demonstrating competence in his or her chosen leadership concentration. The final portfolio will include documentation of both written and oral presentation skills and expertise as designated in the residency plan.

Clinical Experience Criterion

If the student has less than three years of clinical experience as a registered and/or licensed occupational therapist at time of admission, he or she may be required to complete at least 8 units of clinical occupational therapy courses, which may include:

• OT 500a Clinical Problems in Occupational Therapy Units: 2, 3, 4
• OT 500b Clinical Problems in Occupational Therapy Units: 2, 3, 4
• OT 500c Clinical Problems in Occupational Therapy Units: 2, 3, 4
• OT 560 Contemporary Issues in School-Based Practice Units: 4
• OT 564 Sensory Integration Units: 4
• OT 572 Ergonomics Units: 4
• OT 574 Enhancing Motor Control for Occupation Units: 4
• OT 583 Current Applications of Lifestyle Redesign Units: 4
• OT 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
• OT 610 Sensory Integrative Dysfunction Units: 4

Course Requirements – Advanced Standing (36 units)

Required Occupational Science Advanced Courses (8 Units Required)
• OT 620 Current Issues in Occupational Science and Occupational Therapy Units: 4
• OT 621 Occupational Therapy Leadership: Contemporary Issues Units: 4

Electives (4 Units Required)
500-level course within or outside the division Units: 4

Residency (24 Units Required)
• OT 686 Residency Units: 6 or 12
USC Gould School of Law

The USC Gould School of Law provides a forward-looking, interdisciplinary and inter-professional legal education guided by nationally renowned professors and energized by an engaged and collegial student body. As one of the most diverse of the nation's top law schools, USC Gould is made up of students from throughout the country and around the world whose ideas and experiences enrich the learning process and provide new perspectives on the law. Through close collaboration, interdisciplinary academic training and hands-on application of skills, students acquire the experiences and knowledge necessary to succeed as leaders in a global environment.

USC Gould alumni are partners in the world's largest law firms, CEOs and presidents of multimillion-dollar companies, and leaders in government and public service organizations. Since its founding in 1900, the school has produced hundreds of judges on state and federal courts and elected officials ranging from mayor of cities large and small to a United States senator.

Clinical Assistant Professor: Valerie Barreiro, JD
Clinical Associate Professor: Elyn R. Saks, MLitt, JD, PhD
Clinical Assistant Professor: Valarie Barreiro, JD
Clinical Assistant Professor: Valerie Barreiro, JD
Clinical Assistant Professor: Julie A. Ryan, JD; Susan C. Wright, JD
Associate Professors of Lawyering Skills: Catherine Coleman, JD; Julie A. Ryan, JD; Susan C. Wright, JD
Professors of the Practice of Law: Clare Pastore, JD; Donald Scotten, JD, LLM (in progress)*
Emeritus Professors: Marshall Cohen, MA, MA (Oxon.) (Philosophy)*; Edward J. Finegan, PhD (Linguistics); Larry G. Simon, LLB (Herbert W. Armstrong Professor of Constitutional Law, Emeritus); W. David Gawlson, MA, LLB* (Torrey H. Webb Professor of Law, Emeritus); Christopher D. Stone, JD, LLD (Hon.)* (J. Thomas McCarthy Trustee Chair in Law, Emeritus)
Clinical Emeritus Professors: Lee W. Campbell, JD; Noel M. Ragsdale, JD*
Emeritus Professor of Lawyering Skills: Robert M. Saltzman, JD
*Recipient of university-wide or school teaching award.
Degree Programs

Juris Doctor

The Juris Doctor (JD) is the basic law degree. To obtain the degree, full-time attendance for six semesters is required. During the first year, the student takes a curriculum of basic courses that examine fundamental legal institutions and address legal problems relevant to today's society and the modern practice of law. During the second and third years the student must complete a writing requirement and at least six units in experiential courses. The remainder of the courses taken in the last two years are primarily elective.

Dual Degrees

USC Gould maintains dual degree programs with the graduate programs in accounting, business administration, economics, gerontology, pharmacy, philosophy, public administration, public policy, social work, politics and international relations, real estate development and communication. These programs enable qualified students to earn a law degree (JD) and the appropriate master's degree. If the master's degree normally requires one year of study, a student in a dual degree program earns both degrees in only three years. If the master's normally requires two years of post-baccalaureate courses, a total of four years is required. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC beyond the first year curriculum.

The goal of these programs is to encourage law students to gain a recognized competence in another discipline that has a direct relevance to the roles lawyers play in society. The dual degree programs are based on the premise that some topics covered in the law school are also covered in the programs of the cooperating departments, so that some credit toward the law degree may appropriately be given for specified graduate work taken in the cooperating department. Similarly, the cooperating departments have recognized that some credit toward the master's degree may appropriately be awarded for certain work completed in the law school.

Master of Laws (LLM) Degree

The residential Master of Laws (LLM) program is a master's degree program for foreign graduate students trained in law. This two-semester, full-time program introduces foreign lawyers to American law and the U.S. legal system and prepares them for leadership roles in the global market. After successfully completing the program, students will be awarded the Master of Laws degree.

The online LLM program is a master's degree program for foreign graduate students trained in law. This program is offered on a part-time or full-time basis in an online modality and introduces foreign lawyers to American law and the U.S. legal system and prepares them for leadership roles in the global market. After successfully completing the program, students will be awarded the Master of Laws degree.

Master of Laws in Alternative Dispute Resolution (LLM in ADR) Degree

The Master of Laws in Alternative Dispute Resolution (LLM in ADR) program is a master's degree program for law graduates and attorneys interested in building strength as advocates in ADR processes or gaining skills and a prestigious credential for pursuing career opportunities as mediators or arbitrators. In addition to building valuable negotiation, mediation and arbitration skills as an advocate for a client or as a neutral, students develop and hone business management skills to optimally position yourself for leadership roles in alternative dispute resolution organizations.

Honor Society

Order of the Coif: Order of the Coif is a national honorary scholastic society that encourages excellence in legal education.

Qualifications: Membership will be extended to a graduating law student whose cumulative grade point average ranks in the top 10 percent of all graduating students, provided that he or she has completed at least 75 percent (66 units) of law studies in graded courses.

Adviser: Kyle Jones, Associate Dean, Gould School of Law, (213) 740-6314, kwjones@law.usc.edu

Applications: Students are nominated by the law school.

Continuing Legal Education

USC Gould is a national leader in continuing education, presenting six annual programs designed for sophisticated attendees from the bar, judiciary, accounting, business, and law student communities and supported by both law firm and corporate sponsors.

USC Gould has been approved as a provider of Minimum Continuing Legal Education (CLE) credit by the State Bar of California and offers general CLE and Legal Specialization Credit for lawyers, as well as continuing education credits for accountants, real estate professionals, and certified financial planners.

For detailed program and registration information, visit gould.usc.edu/cle. For additional questions, call (213) 821-3580 or email cle@gould.usc.edu.

Tuition and Fees (Estimated)

Students in the law school's JD program pay tuition of $61,898 per year (two semesters) (26-34 units). For less than 13 units the tuition is $2,393 per unit, and tuition is an additional $2,393 for each unit over 17.

Students in the law school's residential LLM and MCL programs pay tuition of $61,898 per year (two semesters). Students in the law school's online LLM program pay tuition on a per unit basis. The university reserves the right to assess new fees or charges as it may determine. The rates listed are subject to change without notice by action of the Board of Trustees.

These fees are based upon current information available at the time of publication and are subject to possible later change.

In addition to the mandatory fees charged to all USC students, law students must also join the Student Bar Association. In 2015–2016, this membership fee was $25 per semester.

Admission Requirements — JD and Dual Degrees

First-year students must have earned a bachelor's degree from a regionally accredited college or university and be able to provide an official transcript denoting the degree conferred by the beginning of their law school classes. USC Gould does not require applicants to take any specific college courses, and discourages pre-law students from enrolling in college courses that duplicate the law
school curriculum. The faculty recommends college courses that are intellectually challenging and require disciplined study. Training in careful reading and skilled writing is most valuable, as are courses involving seminar discussion and sustained research. The student will find that a broad exposure to such fields as economics, philosophy, history, political science, anthropology, mathematics and psychology is more useful than narrow exposure to vocationally oriented courses.

All applicants are required to take the Law School Admission Test (LSAT) administered by the Law School Admissions Council (LSAC). Applicants must take the test no later than February if they seek to start law school the following August.

Like most law schools, the USC Gould School of Law requires students to apply online through the LSAC and register for the Credential Assembly Service (CAS). The CAS assembles an applicant’s transcripts, LSAT scores and letters of recommendation and forwards copies of them to law schools of the applicant’s choosing. Further information about the LSAT and the CAS may be obtained from the Dean of Admissions, University of Southern California Gould School of Law, University Park, Los Angeles, CA 90089-0074 and on the school’s Website (gould.usc.edu).

**Accelerated BA/JD Program (3+3)**

The program is open only to USC undergraduate students who can complete their required bachelor’s major course work by the end of their junior year (or only have minimal units of upper division elective courses remaining). Admitted students complete their undergraduate and law school studies in a total of six years. After year one of law school (at the latest), students must have all necessary course work completed to earn their bachelor's degree and after year three, their law degree. However, the preference is that the bachelor’s degree requirements be completed prior to beginning law school course work.

Students are not required to take the LSAT for admittance. Students must have a minimum cumulative undergraduate GPA of 3.80 both at the time an application is submitted and at enrollment. Additionally, strong faculty letters of recommendation, a personal statement, and an interview are required components of the application. The program is open to all participating majors.

**Transfer Students and Visiting Students**

A student in good standing at a law school that is approved by the American Bar Association may apply for admission with advanced standing either as a transfer student or as a visiting student. Transfer students enter USC Gould after one year at another law school; they then spend two years at the law school and earn the JD degree from USC. Visiting students spend one or two semesters at the law school during their third year of law school; they are not eligible for a USC degree. For further information, please request Transfer/Visitor Information from the Admissions Office at USC Gould.

USC Gould also admits a small number of highly qualified transfer students with LLM degrees from an American Bar Association accredited law school. These students will have a large number of JD courses in their LLM course of study and received strong grades in those courses. For further information, please contact the Graduate & International Programs Office at USC Gould.

**USC Gould School of Law** offers an LLM to JD Transfer Program to non-U.S. law school graduates who have received an LLM degree from an ABA-accredited law school.

USC Gould School of Law students enrolled in our LLM Program may apply to our JD Program as Transfer LLM students during the transfer application period in the spring semester. In addition, current LLM students of other ABA-accredited law schools may submit applications during the spring semester. Only a limited number of outstanding students from USC Gould and other ABA-accredited law schools will be offered admission each year.

For further information, request LLM transfer information from the Graduate and International Programs Office at USC Gould.

**Admission Requirements — LLM Degree**

Students submitting an application must have earned a basic law degree, a Bachelor of Laws (LLB) degree or the foreign equivalent. Some experience following the completion of the first professional degree is preferred. For further information, contact the law school at (213) 821-5916 or visit the school's Website (gould.usc.edu).

**Admission Requirements — LLM in ADR Degree**

Students submitting an application must have earned a basic law degree, a Bachelor of Laws (LLB), a Juris Doctor (JD), or the foreign equivalent. Some experience following the completion of the first professional degree is preferred. For further information, contact the law school at (213) 821-5916 or visit the school’s Website (gould.usc.edu).

**Admission Requirements — MCL Degree**

Students submitting an application must have earned a basic law degree, a Bachelor of Laws (LLB) degree or the foreign equivalent and will have previously earned their LLM degree. Some experience following the completion of the first professional degree is preferred.

**Admission Requirements — MSL Degree**

Students submitting an application must have earned an undergraduate degree in some field of study by the time they begin the Online MSL degree. Prior exposure to or experience in law is not required. For further information, contact the law school at (213) 821-5916 or visit the school’s Website (gould.usc.edu).

**Admission Requirements — MDR Degree**

Students submitting an application must have earned an undergraduate degree in some field of study by the time they begin the MDR program. Prior exposure to or experience in law is not required. For further information, contact the law school at (213) 821-5916 or visit the school’s Website (gould.usc.edu).

**Registration**

Registration is handled by the USC Gould School of Law Office of the Registrar. First-year students will automatically be registered in their fall semester courses approximately two to three weeks prior to the beginning of the school year and for their spring semester courses during the week listed in the law school calendar for upper-division student registration.

**Grading and Attendance Policies**

**Grading**

The grading system uses both numbers and letters in a range from 1.9 to 4.4 with letter-grade equivalents ranging from F to A+.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.0</td>
</tr>
<tr>
<td>A</td>
<td>3.5–4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.3–3.4</td>
</tr>
<tr>
<td>B+</td>
<td>3.0–3.3</td>
</tr>
<tr>
<td>B</td>
<td>2.7–3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.5–2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.2–2.5</td>
</tr>
<tr>
<td>C</td>
<td>2.1–2.2</td>
</tr>
<tr>
<td>D</td>
<td>2.0</td>
</tr>
<tr>
<td>F</td>
<td>1.9</td>
</tr>
</tbody>
</table>

Students receiving a grade of 1.9 will not be given credit for the course toward graduation. A student who fails a first-year course must repeat the course, but both grades will be included in computing that student's general average. Other courses may not be repeated except on petition to the associate dean.

A student with a weighted cumulative average of less than 3.0 at the end of the year will be placed on restricted enrollment. A Juris Doctor student with a weighted cumulative average of less than 2.7 at the end of any year will not be permitted to continue. An overall grade point average of at least 2.6 is required for graduation with graduate students who are enrolled in the LLM, LLM in ADR, MCL, MDR or MSL, Alternative Dispute Resolution Certificate, Business Law Certificate (online), Compliance Certificate (online), and Entertainment Law and Industry Certificate (online) programs.

**Credit/D/F**

After the first year, a student may take up to a total of 8 units on an elected CR/D/F basis, chosen from among courses otherwise graded in a normal manner. No more than 4 such units may be taken in a semester. The student must elect to take a course CR/D/F during
the first two weeks of the semester. Courses or seminars may, at the instructor's option, be designated prior to registration as not available for CR/D/F grading. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC beyond the first year curriculum.

Students may also take such courses regularly offered only on a CR/D/F basis, in addition to courses taken under this rule.

Withdrawals from Courses
A student may not withdraw from a course later than two weeks after the first day of classes of any semester without permission of both the associate dean and the instructor.

Attendance
Class attendance is an important part of law school education. It assists both the individual and fellow students in making the most of the educational opportunity offered. Students should, therefore, attend class regularly and participate in the discussion. Professors may require attendance and may take attendance into account in evaluating student performance.

Degree Programs

Dual Degrees

Admission
Students may be accepted for a dual degree program when they are accepted to the law school, although most students do not apply until near the end of the first year. All programs require that students successfully complete the required first year of law school before beginning work toward the master's degree. Credit toward the law degree may not be given for graduate work completed prior to the completion of the first year of law school, although some credit toward the master's degree may be allowed by the faculty of the cooperating department of approved work completed prior to the first year of law school. Students are not eligible for either of their dual degrees until they complete the requirements for both degrees. All students (including dual degree students) must complete at least 35 numerically graded USC Gould units beyond the first year curriculum.

Following are general descriptions of the dual degree programs. Students interested in further information should consult the USC Gould Admissions Office.

Juris Doctor/Master of Business Administration
In addition to the LSAT, applicants to this dual degree program are required to take the Graduate Management Aptitude Test. Requirements for the dual degree program are listed here and in the USC Marshall School of Business section of this catalogue.

Juris Doctor/Master of Business Taxation
The Leventhal School of Accounting offers a specialized program in taxation leading to the Master in Business Taxation (MBT). Requirements for this dual degree program are listed here and in the USC Leventhal School of Accounting section of this catalogue.

Juris Doctor/Master of Public Administration
Students are required to complete 97 units of course work. Candidates for the dual degree must fulfill the statistics requirement of the MPA degree. See the Master of Public Administration section. Requirements for this dual degree program are listed here and in the USC Price School of Public Policy section of this catalogue.

Juris Doctor/Master of Public Policy
The USC Price School of Public Policy and the law school offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study.

The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their acceptance to the law school or at the beginning of their second year of law school. Dual degree students spend the first year of the program completing the required first year of law school. The remaining units of law school courses and the required 36 units of core MPP courses are taken by students in the second through fourth years.

Students are required to complete 114 units of course work, including 78 units in the Gould School of Law and 36 units in the USC Price School of Public Policy. The MPP program has a statistics prerequisite. See Public Policy (MPP). Requirements for this dual degree are listed in the USC Price School of Public Policy section.

Other Graduate Courses
Students interested in combining an expertise in another discipline with the law degree may arrange individually to take approved graduate courses for limited credit toward the law degree.

JD Study Abroad Programs
USC Gould offers five study abroad programs for JD students that provide opportunities to learn about foreign legal systems and to experience different cultures. Qualified second- and third-year JD candidates are exposed to international law as they take part in exchange programs with leading partner institutions worldwide.

University of Hong Kong: The semester exchange program at the University of Hong Kong (HKU) allows USC Gould JD students to experience Hong Kong and its legal culture and business in the Pacific Rim.

HKU was established in 1911 and is a leading university in Asia. It is linked with over 80 partner institutions in 15 countries and has exchange programs with prominent universities worldwide. The language of teaching at HKU for its law courses is English.

Bocconi University: USC Gould JD students have the opportunity to learn about law and business in Milan, Italy, in this semester exchange program with Bocconi University. An Italian course is available to interested exchange students who wish to study the language before the law program begins.

Bocconi University, a private institution in Milan, Italy, has a global reputation as a research university in business, economics and law. Bocconi offers its exchange students law courses in English. These include courses in international and European law, international trade law, and comparative business and corporate law.

University Jean Moulin Lyon 3: The semester abroad program at the University Jean Moulin Lyon 3 allows USC Gould JD students the chance to study in English at a leading law school in Lyon, France. After earning the JD degree, graduates may elect to return to Lyon for a semester to complete an LLM in international and European law.

The University Jean Moulin Lyon 3 is a public university ranked among the top in France. Lyon 3 is one of three universities in Lyon with a combined population of 100,000 students. Lyon is the second-largest city in France with a great selection of cultural and professional opportunities.

Bond University: USC Gould JD students have the opportunity to live in Queensland, on the Gold Coast of Australia, for a semester while studying at Bond University.

Bond University has a distinctly global perspective, aspiring to a 50:50 ratio of Australian to international students, who come from 80 countries worldwide. Under the guidance of Australia’s most eminent legal professionals, internationally renowned criminologists and specialists, students benefit from the mentoring relationship fostered at Bond where professors take an active role in charting student success.

Fundação Getulio Vargas University: The semester exchange with Direito GV, the law school of FGV, allows JD students to study at their campus in São Paulo, Brazil. Direito GV has one of the top
law faculties in Brazil. They offer law courses in English for their exchange students.

Fundação Getúlio Vargas has developed a highly innovative curriculum. The Brazilian Ministry of Education and Culture and the Brazilian Bar Association have granted FGV their highest classification of academic rigor. This exchange introduces JD students to the Brazilian legal system and promotes a broad debate on the issues of global relevance within a South American perspective.

Degree Programs

Graduate Degree Programs

USC Gould's graduate degree programs include an LLM program, an online LLM program and an MCL program for foreign law graduates. USC Gould also offers an LLM in ADR program for domestic or international law graduates, plus an online MSL program and an MDR program, both of which do not require a law background. Through the graduate degree programs, students have opportunities to meet and interact with faculty and JD students and also with practicing lawyers from around the world.

Course Requirements

The LLM, online LLM and MCL programs are intended for individuals who are trained in law abroad and wish to gain a basic knowledge of U.S. law and our legal system and/or who wish to engage in comparative legal study. The LLM in ADR and MDR programs are designed for students who wish to learn alternative dispute resolution skills and the functions of alternative dispute resolution organizations. The online MSL program is designed for new graduates as well as seasoned professionals from varying fields of studies and careers, who seek an understanding of how the U.S. legal system functions.

Undergraduate Programs

BA Philosophy, Politics and Law

This interdisciplinary program consists of nine courses chosen from philosophy, political science, law and anthropology courses. See Philosophy for degree requirements.

Minor in Law and Public Policy

The minor in law and public policy draws upon four fields of study: public policy and management, law, economics and political science. It provides students with an understanding of the political and economic contexts in which laws are made, as well as how legal institutions shape policy formulation. Students learn to analyze the consequences of policy and alternatives; the roles played by government, business and nonprofit organizations in public decision-making; and the legal bases for various areas of public policy. See USC Price School of Public Policy for requirements.

Minor in Law and Society

This interdisciplinary program focuses on the effect of law on society and the way in which social forces influence the legal system. The idea is that students will understand the law if they look beyond "law in books" to "law in action." See Political Science for requirements.

Minor in Psychology and Law

This interdisciplinary minor brings together courses in psychology that focus on the social, ethical, cognitive and societal aspects of psychology and how it relates to law. This knowledge is augmented with law courses that identify the relationship between mental health, social psychology and law. See Psychology for requirements.

Master's Degree

Dispute Resolution (MDR)

The Master of Dispute Resolution (MDR) is designed to prepare high caliber students who are planning to practice Alternative Dispute Resolution (ADR) in the context of the U.S. legal system. The program's track in Management of ADR Organizations provides an opportunity for top current and future leaders within the field to further their understanding of the complexities of ADR law and explore many areas of law and business practice with which they may be involved. The program offers both part-time and full-time options for students, and those who wish to carry full academic loads may complete the program within one academic year.

To obtain a Master of Dispute Resolution (MDR), students must take a total of at least 27 units of the core curriculum and elective courses listed below. Twelve units are required core curriculum and the remaining units may be electives, unless the student has earned a U.S. JD from an ABA-accredited law school and has received a waiver for LAW 570 ADR Legal Principles. Students who have received a waiver from LAW 570 ADR Legal Principles will be required to complete 10 units of the core curriculum, and must satisfy the remaining 17 units required for the degree with elective courses. Students choose electives according to their interests; however, those desiring a designated track in Management of ADR Organizations must take at least 9 units from those listed in the Management of ADR Organizations Track, including GSBA 520. Students can apply four (4) credits of graduate-level courses taken at another accredited educational institution toward the MDR course requirements, subject to the approval of the director of the MDR Program.

Core Curriculum

Students must successfully complete, or receive a waiver for, the following courses to receive the MDR degree.

- LAW 570 ADR Legal Principles Units: 2
- LAW 573 ADR Specialized Study Units: 1, 2, 3
- LAW 715 ADR Law and Policy: Mediation and Arbitration Units: 2, 3, 4
- LAW 819 ADR Ethics Units: 1, 2
- LAW 829 Cross-Cultural Dispute Resolution Units: 2

Elective Courses

Students may select among the following elective courses as part of the MDR degree.

- LAW 572 Practical Mediation Skills Clinic Units: 3
- LAW 626 International Investment Law and Arbitration Units: 2
- LAW 712 Negotiation Theory and Application Units: 2, 3
- LAW 813 Arbitration in the United States Units: 3
- LAW 817 International Arbitration Units: 3
- LAW 824 Arbitration Advocacy Units: 1, 2
- LAW 503 Contracts Units: 2, 3, 4
- LAW 505 Legal Profession Units: 2, 3, 4
- LAW 521 Topics in American Law Units: 1, 2, 3, 4
- LAW 528 Constitutional Law Units: 2
- LAW 602 Criminal Procedure Units: 2, 3, 4
- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 607 Gifts, Wills, and Trusts Units: 3 or 4
- LAW 608 Evidence Units: 3 or 4
- LAW 625 Remedies Units: 3 or 4
- LAW 642 Secured Transactions Units: 2, 3, 4
- LAW 705 Community Property Units: 1, 2, 3
- LAW 727 Partnerships and Limited Liability Companies Units: 2, 3, 4
- LAW 778 Sales Units: 2, 3, 4
- LAW 871 First Amendment Units: 2, 3, 4

Management of ADR Organizations Track

Students pursuing this track must complete a minimum of nine units of the following courses, including GSBA 520. Courses taken to complete the track may apply to overall elective units required for the MDR degree.

- BAEP 591 Social Entrepreneurship Units: 2, 3
- CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
- GSBA 520 Business Fundamentals for Non-Business Professionals Units: 3, 4
- LAW 571 Organizational Conflict Units: 3
- PPD 685 Human Resources Management in Public and Non-Profit Sectors Units: 2
Master of Laws (LLM) in Alternative Dispute Resolution

The Master of Laws (LLM) in Alternative Dispute Resolution (ADR) degree, is designed to prepare high caliber U.S. and foreign law graduates who are interested in the specialized and advanced knowledge in ADR. The program will offer emphasis tracks in arbitration practice and mediation practice. It will reside within the new Judge Judith O. Hollinger Alternative Dispute Resolution Program. The Hollinger ADR Program’s mission is to design, develop, and implement a world class educational program in dispute resolution that will rival and ultimately surpass the quality of similar programs offered by other institutions of higher education. The goal is to have USC Gould emerge as a preeminent leader in dispute resolution and ADR education.

Core Curriculum Requirements

Students must complete the following courses to earn the LLM degree in ADR Law.

- LAW 715 ADR Law and Policy: Mediation and Arbitration Units: 2, 3, 4
- LAW 819 ADR Ethics Units: 1, 2

International Student Core Requirements

Students who have not previously earned a JD degree must also complete the following courses to earn the LLM degree in ADR Law.

- LAW 520 Introduction to U.S. Legal System Units: 2
- LAW 570 ADR Legal Principles Units: 2

Elective Courses

Students may select among the following electives to complete the 24 units required for the LLM in ADR Law degree.

- LAW 503 Contracts Units: 2, 3, 4
- LAW 505 Legal Profession Units: 2, 3, 4
- LAW 521 Topics in American Law Units: 1, 2, 3, 4
- LAW 528 Constitutional Law Units: 2
- LAW 571 Organizational Conflict Units: 3
- LAW 572 Practical Mediation Skills Clinic Units: 3
- LAW 602 Criminal Procedure Units: 2, 3, 4
- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 607 Gifts, Wills, and Trusts Units: 3 or 4
- LAW 608 Evidence Units: 3 or 4
- LAW 625 Remedies Units: 3 or 4
- LAW 626 International Investment Law and Arbitration Units: 2
- LAW 642 Secured Transactions Units: 2, 3, 4
- LAW 705 Community Property Units: 1, 2, 3
- LAW 712 Negotiation Theory and Application Units: 2, 3
- LAW 727 Partnerships and Limited Liability Companies Units: 2, 3, 4
- LAW 778 Sales Units: 2, 3, 4
- LAW 813 Arbitration in the United States Units: 3
- LAW 817 International Arbitration Units: 3
- LAW 822 Alternative Dispute Resolution Clause Drafting Units: 1
- LAW 824 Arbitration Advocacy Units: 1, 2
- LAW 825 International Arbitration Competition Units: 1, 2, 3
- LAW 829 Cross-Cultural Dispute Resolution Units: 2
- LAW 833 Labor Arbitration Units: 2
- LAW 869 Family Law Mediation Clinic Units: 4
- LAW 871 First Amendment Units: 2, 3, 4

Master of Studies in Law (MSL) Program

The Master of Studies in Law (MSL) Program is a legal education program designed for non-lawyers and will provide legal training in various areas of legal specialization. This program is designed for mid-career professionals, including corporate executives, government officials, and others from the U.S. and from around the globe, whose employment or whose area of research would benefit from the study of our legal system. It will appeal also to those who would like to pursue current trends in law and an in-depth understanding in their areas of legal interest.

Mandatory MSL Courses

All MSL students must successfully complete the following two courses as part of the MSL degree.
- LAW 510 Legal Research Units: 0 or 1
- LAW 520 Introduction to U.S. Legal System Units: 2

Elective MSL Courses

Students must complete 18 units of the following elective courses to receive the MSL degree.
- LAW 505 Legal Profession Units: 2, 3, 4
- LAW 521 Topics in American Law Units: 1, 2, 3, 4
- LAW 528 Constitutional Law Units: 2
- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 632 Business for Lawyers Units: 2, 3, 4
- LAW 658 Mergers and Acquisitions Units: 1, 2, 3, 4
- LAW 710 Contract Drafting and Strategy Units: 2, 3
- LAW 749 Securities Regulation Units: 2, 3, 4

University Certificate

Alternative Dispute Resolution Certificate

JD students must complete at least 12 units of arbitration and mediation-related classes to receive this certificate. Interested JD students must submit their applications for this certificate program after completing the first year of law school. JD students complete the certificate requirements during their second and third years of law school, and courses may count both toward the JD degree and the certificate.

LLM students must complete at least 12 units of arbitration and mediation-related classes to receive this certificate. LLM students complete the certificate requirements during the year they are taking their LLM course work, and courses may count both toward the LLM degree and the certificate.

Certificate-only students must complete at least 12 units of arbitration and mediation-related classes to receive this certificate.

All students are required to take both mandatory courses (Survey of ADR Law and Policy And Domestic Ethics in ADR) and a selection of elective courses (such as ADR Clause Drafting and Business Mediation).

Mandatory Courses

All students must complete the following two mandatory courses for this certificate.
- LAW 715 ADR Law and Policy: Mediation and Arbitration Units: 2, 3, 4
- LAW 819 ADR Ethics Units: 1, 2

Additional Mandatory Courses

Students must select at least one of the following mandatory classes for this certificate.
- LAW 817 International Arbitration Units: 3
- LAW 822 Alternative Dispute Resolution Clause Drafting Units: 1
- LAW 829 Cross-Cultural Dispute Resolution Units: 2

Elective Courses

Students may select from among the following elective courses to complete the 12 units required for this certificate.
- LAW 626 International Investment Law and Arbitration Units: 2
- LAW 630 Mediation Clinic I Units: 2, 3, 4
- LAW 631 Mediation Clinic II Units: 2, 3, 4
- LAW 712 Negotiation Theory and Application Units: 2, 3
- LAW 813 Arbitration in the United States Units: 3
- LAW 817 International Arbitration Units: 3
- LAW 822 Alternative Dispute Resolution Clause Drafting Units: 1
- LAW 824 Arbitration Advocacy Units: 1, 2
- LAW 825 International Arbitration Competition Units: 1, 2, 3
- LAW 826 Employment Dispute Mediation Units: 1
- LAW 828 Mediation Advocacy Units: 3
- LAW 829 Cross-Cultural Dispute Resolution Units: 2
- LAW 833 Labor Arbitration Units: 2
• LAW 863 International Negotiations and Mediation Units: 2, 3, 4
• LAW 869 Family Law Mediation Clinic Units: 4
• LAW 893 Advanced Clinical Training Units: 1, 2, 3, 4, 5

Business Law Certificate (Online)
USC Gould School of Law Online LLM and Business Law Certificate students will enroll in the Online Business Law Certificate program and will take each of their courses in the online modality.

USC Gould School of Law JD and LLM residential students will enroll in the residential Business Law Certificate program and will take each of their courses in residence.

The Online Business Law Certificate program requires Business Organizations (4 units) as a core, mandatory course. Students are required to complete an additional 10 business law units online to earn the certificate. Electives include Securities Regulation (3 units), Business for Lawyers (2 units), Contract Drafting and Strategy (2 units) and Mergers and Acquisitions (3 units and for which Business Organizations is a prerequisite). Students must complete a minimum of 12 LAW 595 to receive this online certificate.

The program is structured especially for working professionals who wish to take one or two courses per term in an online format. Students are expected to enroll in the program and complete it. Students are expected to complete each semester's requirements and are recommended to complete the program within two years.

Certificate in U.S. Legal Studies
This is a two-year program designed to introduce students to core doctrines of American law. During the first year, students will enroll in courses that explore the fundamental principles underlying the U.S. legal system and prepare them for the Master of Laws program. Students may also enroll in courses designed to improve their English fluency. During the second year, students will enroll in courses to complete our Master of Laws degree.

ALI Language Courses
Students will be required to take an English placement exam at the beginning of the program. Students must complete 2 units of English language course work each semester, for a total of 4 units, unless they receive a waiver. Students may elect the ALI courses identified below that best suit their skill level.

• ALI 224 Low Intermediate Oral Skills Units: 2
• ALI 225 Low Intermediate Writing Skills Units: 2
• ALI 234 Intermediate Oral Skills Units: 2
• ALI 235 Intermediate Writing Skills Units: 2
• ALI 244 High Intermediate Oral Skills Units: 2
• ALI 245 High Intermediate Writing Skills Units: 2
• ALI 254 Advanced Oral Skills Units: 2
• ALI 255 Advanced Writing Skills Units: 2

Introduction to U.S. Legal Studies
Students will enroll in the following 16 units of LAW courses during the first year of this program. These courses will explore the fundamental principles underlying the U.S. legal system.

• LAW 560 Academic and Professional Skills for U.S. Law Studies I Units: 2
• LAW 561 Fundamentals of Legal Writing Skills Units: 2
• LAW 562 Introduction to U.S. Legal Culture and Practice Units: 2
• LAW 563 Presentation Skills for International Lawyers Units: 2
• LAW 564 Persuasive Advocacy Units: 2
• LAW 565 U.S. Common Law Analysis and Skills Units: 3
• LAW 566 Academic and Professional Skills for U.S. Law Studies II Units: 1
• LAW 890 Directed Research Units: 1, 2, 3, 4

Entertainment Law (Residential) Certificate
JD students must complete at least 21 units of entertainment-related classes to receive this certificate. JD students must submit their applications for this certificate program after completing the first year of law school. JD students complete the certificate requirements during their second and third years of law school, and courses may count both toward the JD degree and the certificate.

LLM students must complete at least 12 units of entertainment-related classes to receive this certificate. LLM students complete the certificate requirements during the year they are taking their LLM course work, and courses may count both toward the LLM degree and the certificate.

All students are required to take both mandatory entertainment law courses (such as intellectual property) and a selection of elective entertainment law courses (such as copyright, legal issues in music and sports law).

Public Interest Certificate
The Public Interest Certificate is intended for students who plan to spend a significant part of their careers in the nonprofit or government (including criminal) sectors. It serves at least three functions. First, it signals to future employers that the student has made a significant commitment to acquiring the substantive knowledge, practical skills and familiarity with the landscape of nonprofit and government law, which will prepare him or her for a successful career in these sectors. Second, the certificate assists students in discerning and following a law school path that will provide the fundamentals they need for a career in nonprofit or government law, and exposes them to a range of substantive law areas, practitioners and experiences in the public interest sector. Third, the certificate allows the Law School to affirm and showcase its support for public interest law and its offerings for students and potential students interested in this career path.

Clinical and Practicum Units
Students must complete at least one semester of work in one of the following Gould clinics or practicums. In the event a student is unable to gain entry into one of the listed clinics or practicums, an externship for at least 3 units with a qualifying organization shall fulfill this requirement.

• LAW 630 Mediation Clinic I Units: 2, 3, 4
• LAW 631 Mediation Clinic II Units: 2, 3, 4
• LAW 711 Access to Justice Practicum Units: 2, 3, 4
• LAW 776 Immigration Clinic I Units: 2, 3, 4, 5
• LAW 781 Clinical Internship/Externship I Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13
• LAW 782 Clinical Internship/Externship II Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13
• LAW 796 Immigration Clinic II Units: 2, 3, 4, 5
• LAW 808 Medical-Legal Community Partnership Seminar and Practicum Units: 1, 2, 3, 4
• LAW 849 International Human Rights Clinic I Units: 4, 5
• LAW 850 International Human Rights Clinic II Units: 4 or 5
• LAW 865 Legislative Policy Practicum Units: 3
• LAW 891 Post-Conviction Justice Seminar I Units: 1, 2, 3, 4, 5
• LAW 892 Post-Conviction Justice Seminar II Units: 1, 2, 3, 4, 5
• LAW 893 Advanced Clinical Training Units: 1, 2, 3, 4, 5

A student may only satisfy this requirement with LAW 781 or LAW 782 if he or she is unable to enroll in one of the other listed courses.

Required Courses
A student must complete both of the following courses:

• LAW 531 Ethical Issues for Public Interest, Government and Criminal Lawyers Units: 3
• LAW 777 Administrative Law and Regulatory Policy Units: 1, 2, 3, 4

Core Courses
A student must complete at least one of the following courses for a numerical grade:

• LAW 602 Criminal Procedure Units: 2, 3, 4
• LAW 635 Employment Discrimination Law Units: 2, 3, 4
• LAW 686 Civil Rights: The Enforcement of the Constitution Units: 3
• LAW 704 Poverty Law Units: 2, 3, 4
- LAW 713 International Human Rights Units: 2, 3, 4
- LAW 775 Immigration Law Units: 2, 3, 4, 5

**Substantive Courses**

A student must complete at least 6 units from the following list of courses.

- LAW 602 Criminal Procedure Units: 2, 3, 4
- LAW 611 Advanced Topics in Constitutional Law Units: 1, 2, 3, 4
- LAW 619 Employment Law Units: 2, 3, 4
- LAW 623 Family Law Units: 3 or 4
- LAW 635 Employment Discrimination Law Units: 2, 3, 4
- LAW 636 Labor Law Units: 3 or 4
- LAW 646 Advanced Topics in Employment Discrimination Units: 1, 2, 3
- LAW 655 Environmental Law Units: 2, 3, 4
- LAW 661 National Security Law Units: 2, 3, 4
- LAW 662 Public International Law Units: 3, 4
- LAW 675 Mental Health Law Units: 2, 3, 4
- LAW 684 Suing the Governments Units: 2, 3, 4
- LAW 686 Civil Rights: The Enforcement of the Constitution Units: 3
- LAW 697 Foreign Relations and National Security Law Units: 2, 3, 4
- LAW 700 Health Care Regulations Units: 1, 2, 3, 4
- LAW 702 Children, Sexuality and the Law Units: 2, 3, 4
- LAW 703a Children's Legal Issues Units: 1, 2, 3
- LAW 704 Poverty Law Units: 2, 3, 4
- LAW 706 Public Health Law Units: 2, 3, 4
- LAW 707 Global Health, Law and Human Rights Units: 1, 2, 3
- LAW 713 International Human Rights Units: 2, 3, 4
- LAW 714 U.S. Foreign Policy and International Law Units: 1, 2, 3, 4
- LAW 716 Race and Gender in the Law Units: 1, 2, 3, 4
- LAW 725 Bioethics and Law Units: 3
- LAW 726 Stereotypes, Prejudice, and the Rule of Law Units: 2, 3, 4
- LAW 734 Local Government Law Units: 3 or 4
- LAW 743 Federal Criminal Law Units: 2, 3, 4
- LAW 746 Critical Race Theory Units: 2, 3, 4
- LAW 751 Sexual Orientation and the Law Units: 2, 3, 4
- LAW 757 Sex, Gender and the Law Units: 1, 2, 3, 4
- LAW 758 Identity Categories Units: 2, 3, 4
- LAW 763 Federal Courts: The Federal System II Units: 3, 4, 5
- LAW 775 Immigration Law Units: 2, 3, 4, 5
- LAW 791 Law and Society Units: 2, 3, 4
- LAW 798 Law, Mental Health and Ethics Units: 2, 3, 4
- LAW 811 Health Law and Policy Units: 2, 3, 4
- LAW 829 Cross-Cultural Dispute Resolution Units: 2
- LAW 847 Refugee and Forced Migration Law Units: 2, 3, 4
- LAW 851 Topics in Criminal Law and Criminology Units: 1, 2, 3, 4
- LAW 860 International Criminal Law Units: 4
- LAW 866 Counterterrorism, Privacy and Civil Liberties Units: 2, 3, 4
- LAW 871 First Amendment Units: 2, 3, 4
- LAW 875 Constitutional Theory Seminar Units: 1, 2, 3, 4
- LAW 880 Treating Difference Equally Units: 2, 3, 4
- LAW 881 Constitutional Innovation Units: 2, 3, 4
- LAW 888 First Amendment: Law and Religion Units: 1, 2, 3

**Technology and Entrepreneurship Law Certificate**

The Technology and Entrepreneurship Certificate program provides a rigorous course sequence for students who have an interest in legal practice areas involving the intersection of technology and business law issues. The program features a combination of traditional doctrinal courses taught principally in a lecture format, skills-based courses taught principally in a workshop format, and experiential field-based opportunities outside the classroom. The program emphasizes the importance of acquiring strong legal skills and business awareness to prepare for legal practice.

**Mandatory Courses (JD Students and LLM Students)**

Students must complete both of the following courses:

- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 810 Patent Law Units: 3, 4

**Core Optional Courses (JD Students)**

Select at least three credits from the following courses:

- LAW 627 Business Planning Units: 3, 4
- LAW 673 Deal Strategy, Structure and Negotiation Units: 4
- LAW 770 Technology Transactions Units: 2, 3
- LAW 801 Venture Capital and Emerging Companies Units: 2, 3
- LAW 812 Patent Litigation Units: 3
- LAW 815 Deals Units: 3, 4
- LAW 827 Counseling the Startup Company Units: 2, 3, 4
- LAW 838 Patent Drafting and Prosecution Units: 3

**Non-Core Optional Courses (JD Students)**

Select sufficient units to reach the required number of total credits.

- LAW 648 Topics in Entertainment Law Units: 1, 2, 3, 4
- LAW 719 Corporate Finance Units: 2, 3, 4
- LAW 736 Small Business Clinic I Units: 2, 3, 4
- LAW 737 Small Business Clinic II Units: 2, 3, 4
- LAW 753 Antitrust Law I Units: 3 or 4
- LAW 765 Topics in Intellectual Property Law Units: 1, 2, 3, 4
- LAW 771 Intellectual Property and Technology Law Clinic I Units: 2, 3, 4, 5
- LAW 772 Intellectual Property Law Units: 2 or 3
- LAW 773 Internet Law Units: 2, 3, 4
- LAW 780 Intellectual Property and Technology Law Clinic II Units: 2, 3, 4, 5
- LAW 783 General Counsel Practicum Units: 1, 2
- LAW 841 Copyright, Trademark and Related Rights Units: 3
- LAW 859 Communications Law: Internet, Television and Other Media Units: 2, 3, 4

**Optional Courses (LLM Students)**

Select sufficient courses to reach required total credits.

- LAW 648 Topics in Entertainment Law Units: 1, 2, 3, 4
- LAW 719 Corporate Finance Units: 2, 3, 4
- LAW 753 Antitrust Law I Units: 3 or 4
- LAW 765 Topics in Intellectual Property Law Units: 1, 2, 3, 4
- LAW 770 Technology Transactions Units: 2, 3
- LAW 772 Intellectual Property Law Units: 2 or 3
- LAW 773 Internet Law Units: 2, 3, 4
- LAW 801 Venture Capital and Emerging Companies Units: 2, 3
- LAW 812 Patent Litigation Units: 3
- LAW 815 Deals Units: 3, 4
- LAW 827 Counseling the Startup Company Units: 2, 3, 4
- LAW 838 Patent Drafting and Prosecution Units: 3
- LAW 841 Copyright, Trademark and Related Rights Units: 3
- LAW 859 Communications Law: Internet, Television and Other Media Units: 2, 3, 4

**Graduate Certificate**

For Business

**Business Law Certificate (Residential)**

JD students must complete at least 24 units of business-related classes to receive this certificate. Interested JD students must submit their applications for this certificate program after completing the first year of law school. JD students complete the certificate requirements during their second and third years of law school, and courses may count both toward the JD degree and the certificate.

LLM students must complete at least 12 units of business-related classes to receive this certificate. LLM students complete the certificate requirements during the year they are taking their LLM course work, and courses may count both toward the LLM degree and the certificate.
All students are required to take both mandatory business law courses (such as business organizations) and a selection of elective business law courses (such as mergers and acquisitions, advanced contracts and bankruptcy).

**Compliance Certificate**

The online Compliance Certificate program requires Business Organizations (4 units), Human Resource Compliance (2 units), Health Care Compliance (2 units), Regulatory Compliance (2 units), and Contract Drafting and Strategy (2 units) to earn the certificate.

The program is structured especially for working professionals who wish to take one or two courses per term in an online format. Students are expected to enroll each semester until the program is completed.

USC Gould School of Law Compliance Certificate students and students who select the Compliance Certificate as part of our online LLM or MSL programs will take each of their courses in the online modality.

**Mandatory Courses**

Students must successfully complete the courses below to receive a Certificate in Compliance.

- LAW 559 Human Resource Compliance Units: 2
- LAW 579 Global Regulatory Compliance Units: 2
- LAW 598 Regulatory Compliance Units: 2
- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 710 Contract Drafting and Strategy Units: 2, 3

**Entertainment Law and Industry Certificate**

USC Gould School of Law Online LLM, MSL and online Entertainment Law and Industry Certificate students will enroll in the online Entertainment Law and Industry Certificate program and will take each of their courses in the online modality.

The Entertainment Law and Industry Certificate program requires Business Organizations (4 units), Intellectual Property: Copyright (2 units), Entertainment Law and Industry (2 units), Intellectual Property: Trademark (2 units) and Contract Drafting and Strategy (2 units) to earn the certificate.

The program is structured especially for working professionals who wish to take one or two courses per term in an online format. Students are expected to enroll each semester until the program is completed.

**Mandatory Courses**

Students must successfully complete the courses below to receive the Certificate.

- LAW 522 Entertainment Law and Industry Units: 2
- LAW 527 Intellectual Property: Copyright Units: 2
- LAW 551 Intellectual Property: Trademark Units: 2
- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 710 Contract Drafting and Strategy Units: 2, 3

**Transnational Law and Business Certificate**

All resident JD, LLM and MCL students will be eligible for this certificate.

To earn a Transnational Law and Business Certificate, students must complete at least 12 units of the mandatory and elective courses outlined in the curriculum.

**Mandatory Courses**

All students must complete the following mandatory courses to earn this certificate.

- LAW 579 Global Regulatory Compliance Units: 2
- LAW 603 Business Organizations Units: 3, 4, 5
- LAW 764 International Business Transactions Units: 3 or 4

**Elective Courses**

Students may select from among the following elective courses to complete the unit requirements for this certificate. Students should be advised that the following courses have a prerequisite requirement: FBE 523, FBE 527, FBE 529, FBE 532, and FBE 560.

- LAW 626 International Investment Law and Arbitration Units: 2
- LAW 637 International Trade Policy Units: 1, 2, 3, 4
- LAW 658 Mergers and Acquisitions Units: 1, 2, 3, 4
- LAW 662 Public International Law Units: 3, 4
- LAW 697 Foreign Relations and National Security Law Units: 2, 3, 4
- LAW 709 Contract Drafting and Negotiation Units: 2, 3, 4
- LAW 714 U.S. Foreign Policy and International Law Units: 1, 2, 3, 4
- LAW 775 Immigration Law Units: 2, 3, 4, 5
- LAW 787 International Sales of Goods Units: 2, 3, 4
- LAW 817 International Arbitration Units: 3
- LAW 829 Cross-Cultural Dispute Resolution Units: 2
- LAW 863 International Negotiations and Mediation Units: 2, 3, 4
- FBE 523 Venture Capital and Private Equity Units: 3
- FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms Units: 3
- FBE 529 Financial Analysis and Valuation Units: 3
- FBE 532 Corporate Financial Strategy Units: 3
- FBE 560 Mergers and Acquisitions Units: 3
- GSBA 548 Corporate Finance Units: 2, 3
- MOR 542 Strategic Issues for Global Business Units: 3
- PPD 526 Comparative International Development Units: 2
- PPD 688 Business and Public Policy Units: 4

**Dual Degree**

**Juris Doctor/Doctor of Pharmacy (JD/PharmD)**

**Admission Requirements**

Admission to the dual PharmD/JD program is competitive, and involves meeting admission requirements and gaining acceptance to both the School of Pharmacy and the law school. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students that have a baccalaureate degree may apply to the dual PharmD/JD degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both schools. Students who elect this approach must identify themselves on their PharmD applications as potential dual PharmD/JD degree students. Students who are admitted to both schools will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA.

Students pursuing the dual PharmD/JD degree must notify the law school in a timely fashion that they will be enrolling in the dual PharmD/JD degree program and will not matriculate at the law school until the following year. Students who are accepted only by one school may choose to attend that school but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the law school during their first year of enrollment in the PharmD program prior to the law school’s published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the law school using this approach would be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. See the admissions section of the School of Pharmacy and the law school for specific requirements.

**Degree Requirements**

The professions of pharmacy and law are distinctly different, yet pharmacists are often involved in legal issues and lawyers frequently deal with pharmacy, drug, health care, product development and toxin-related matters. This dual degree program provides qualified students with an efficient mechanism for obtaining the expertise and professional credentials that will enable them to develop professional practices that bring together expertise in both areas.

**Overall Requirements**

A student is required to complete all work for both degrees within six years of the date of matriculation at the School of Pharmacy (PharmD) and five years of matriculation at the law school (JD).
The entire dual degree program will take six years to complete. Dual degree students will be allowed to use 12 units of approved JD course work (elective or required) to meet 12 units of PharmD electives and 12 units of approved PharmD course work (elective or required) to meet 12 units of JD electives. A faculty qualifying exam committee will determine the exact program for each student, including the appropriateness of courses in one program used to meet elective requirements for the other program. A total of 208 units is required for the dual degree.

PharmD Requirements

Dual degree students must successfully complete 144 units of PharmD and acceptable JD units to receive the PharmD degree. The 144 units must include 132 units of required and elective pharmacy course work plus 12 units of JD course work deemed acceptable to meet PharmD elective requirements. Dual degree students should graduate with their PharmD degrees at the completion of the first semester of the sixth academic year of the dual degree program. Students will be eligible to sit for the Pharmacy Board Exams after completion of the PharmD degree requirements. However, dual degree students will not actually be awarded their PharmD degrees until they complete requirements for both degrees.

Juris Doctor Requirements

Dual degree students must successfully complete 88 units of JD and acceptable PharmD course work during the second to sixth years of the dual degree program to receive the JD degree. The 88 units must be composed of 76 units of JD course work, including satisfaction of the upper-division writing requirement and any other substantive requirements, plus 12 units of PharmD course work deemed acceptable to meet JD elective requirements. No JD credit will be awarded for PharmD course work completed prior to matriculation in the law school. Students cannot receive the JD degree under requirements for the dual degree program without prior or simultaneous completion of the PharmD degree.

Both professions require passing a state board or bar exam to practice the respective professions. Neither of these degrees requires a thesis or comprehensive final exam.

Recommended Program

PharmD/JD dual degree students will begin with the first year of the PharmD curriculum (36 units). During the second year, students will take the first year law core (35 units), plus 3–5 PharmD units. Due to the rigor of the law school core, pharmacy courses during the first year of law school are limited to non-science courses. The third through fifth years of the program focus on PharmD courses with sufficient law courses to maintain students' educational momentum in law. Students should complete their PharmD requirements during the fall of their sixth year of the program and their law course work also during the sixth year. Students must complete both degree requirements by the end of the sixth year of the program.

Juris Doctor/Doctor of Philosophy in Political Science and International Relations (JD/PhD)

The Department of Political Science and the Gould School of Law offer a dual degree program leading to the JD and PhD degrees. Applicants must apply to the Department of Political Science, the School of International Relations and the law school, and meet requirements for admission to all. In addition to the LSAT, students interested in this program are required to take the Graduate Record Examinations (GRE). In the first year, students take their course work in the law school exclusively. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in the law school honors programs. The second and third years include 40 units of courses in political science and 40 units of law. Students must take two methodology courses, POSC 500 and POSC 600, and three core courses to be selected from POSC 510, POSC 512, POSC 520, POSC 530 and POSC 540.

To obtain a PhD in Political Science and International Relations, students must pass the screening process. After the completion of additional course work, students must take a PhD qualifying examination in three fields. Students will be examined in two of their three fields of concentration. The third (“write-off”) field will be completed by taking at least three courses and passing them with a grade of B or better. The final requirement, following successful completion of the qualifying examination, is a doctoral dissertation.

Juris Doctor/Master of Arts in Economics (JD/MA)

Students are required to complete 92 units of law and economics course work, 4 units of which must constitute a thesis acceptable to the faculties of the law school and the Department of Economics. Before enrolling in economics courses, students must have completed an undergraduate course in probability and statistical inference (e.g., BUAD 310). Students with undergraduate degrees in such disciplines as business, economics, mathematics and psychology will usually have taken such a course as part of their undergraduate program.

First Year:

Required law school courses.

Second and Third Years:

- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 513 Practice of Econometrics Units: 4 or ECON 602 Macroeconomic Theory I Units: 4

Additional Requirements

Two Additional Graduate Level Courses in Economics (8 units):

ECON 680 Industrial Organization and ECON 681 Economics of Regulated Industries are recommended, but the student is free to choose any graduate level courses other than ECON 590 or ECON 790 in consultation with the program adviser. ECON 401 Mathematical Methods in Economics may be substituted for one of these courses, and ECON 419 Advanced Econometrics may be substituted for the other. (These three courses are applicable toward graduate credit.)

Four Units of Thesis: The thesis must be acceptable to both the faculty of the law school and the faculty of the Department of Economics.

Thirty-nine Units of Law Courses: including one course in a subject matter related to economics (including but not necessarily limited to Taxation, International Business Transactions, Antitrust Law I, Regulated Industries, Labor Law, Administrative Law and Regulatory Policy, Corporate Taxation or Land Use). In addition to the LSAT, students interested in this dual degree program are required to take the aptitude and advanced economic portions of the Graduate Record Examinations (GRE).

Juris Doctor/Master of Arts, International Relations (JD/MA)

The USC Gould School of Law and the USC School of International Relations jointly offer a three-year program leading to the JD and MA degrees. (Students may extend the dual degree program to four years.) Applicants must apply to both the law school and the School of International Relations and meet requirements for admission to both. In addition to the LSAT, students interested in this program are required to take the Graduate Record Examinations (GRE). Law students may apply to the School of International Relations during their first year at the law school.

In the first year, students take their course work in the law school exclusively. The second and third years include 24 units of courses in international relations and 40 units in law. Students pursuing the dual degree must complete LAW 662 or LAW 764 and one additional international law course.

Students pursuing the dual degree must complete 24 units within the School of International Relations at the 500 level or above. These students are required to successfully complete IR 500 International Relations Theory, either IR 513 Social Science and Historical
Research Methods: Introduction to Research Design or IR 517 International Policy Analysis, and two domain courses selected from among IR 502 Conflict and Cooperation, IR 509 Culture, Gender, and Global Society, IR 521 Introduction to Foreign Policy Analysis, and IR 541 Politics of the World Economy. Like all other master's students, students in the dual degree program must complete a substantive paper or alternative project. The requirements, standards and evaluation procedure for the substantive paper are identical to those listed for all MA students except that one member of the examining committee must come from the law school.

**Juris Doctor/Master of Arts, Arts (JD/MA)**

Students must complete 24 units in the USC School of Philosophy and 69 units in the Gould School of Law.

**First Year:** Required law school curriculum.

**Second and Third Years:** The School of Philosophy prefers that students take at least one philosophy course each semester. During the four semesters, students must take at least 16 units at the 500 level, including PHIL 450 Intermediate Symbolic Logic and PHIL 500 Introduction to Contemporary Philosophical Literature; one 400- or 500-level course in ethics or social/political philosophy or aesthetics or philosophy of law; one 400- or 500-level course in metaphysics or epistemology or philosophy of language or philosophy of science or philosophy of mind; one 400- or 500-level course in the history of ancient or early modern philosophy; passage of the second year review, which shall include a research paper based on a completed seminar paper and completion of a publishable research paper. Students must also complete 36 additional law units.

**Juris Doctor/Master of Arts, Political Science (JD/MA)**

The Department of Political Science and the Gould School of Law jointly offer a dual degree program leading to the JD and MA degrees. Applicants must apply to both the Department of Political Science and the law school and meet the requirements for admission to both. In addition to the LSAT, students interested in this program are required to take the Graduate Record Examinations (GRE).

In the first year, students take their course work in the law school exclusively. The second and third years include 24 units in political science and 40 units in law.

Like all other students in the political science MA program, students pursuing the dual degree must pass a master's screening examination in their field of choice. If they wish to write a master's thesis, they may do so in lieu of two courses.

**Juris Doctor/Master of Communication Management (JD/MCG)**

Students must complete 20 units (five courses) of communication courses at the School of Communication: one core class from the student's preferred track; one method course; CMGT 597a, CMGT 597b; and the remaining two courses may be from either core or elective offerings.

**First Year:** Required law school courses.

**Second and Third Years:** 20 units of communications courses and 38 units of law courses, of which 8 units must be approved as appropriate for acceptance by the Annenberg School for Communication and Journalism toward its degree. All students take CMGT 597a, CMGT 597b in the third year.

Application to pursue the dual degree should be made before completion of 15 units of work on law or 8 units toward the MA Admission by the law school to its JD degree will be evaluated as a substitute for GRE scores.

**Juris Doctor/Master of Public Policy (JD/MPP)**

The USC Price School of Public Policy and the USC Gould School of Law offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study.

The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their acceptance to the law school or at the beginning of their second year of law school. Dual degree students spend the first year of the program completing the required first year of law school. The remaining units of law school courses and the required 36 units of core MPP courses are taken by students in the second through fourth years.

Students are required to complete 114 units of course work, including 78 units in the Gould School of Law and 36 units in the USC Price School of Public Policy. The MPP program has a statistics prerequisite. See Public Policy (MPP). Requirements for this dual degree are listed in the USC Price School of Public Policy section.

**Juris Doctor/Master of Real Estate Development (JD/MRED)**

The Juris Doctor/Master of Real Estate Development dual degree program provides the opportunity for in-depth study of legal issues and real estate development. The increasingly regulatory environment developers work within demands that professionals in the real estate industry have a strong understanding of the legal system. Lawyers who plan to specialize in real estate law will benefit from a thorough understanding of the development process, including financial, planning, marketing and design issues.

Application must be made to both the Gould School of Law and the USC Price School of Public Policy. This program normally requires three years (including one summer) of full-time study in residence to complete.

Students must have use of an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills; a calculator and/or spreadsheet class is offered online via the Internet.

Requirements for completion of the dual degree program are 112 units, including 78 units in law and 34 units in planning. For a complete listing, see the requirements listed in the USC Price School of Public Policy.

**Juris Doctor/Master of Science in Gerontology (JD/MS)**

The JD/MS dual degree combines the knowledge of the older population with understanding of the legal system. The program prepares graduates for a number of roles in both public and private sector organizations. Students are required to complete 110 units of course work, 74 from the law school and 36 from the Davis School of Gerontology. The first year is devoted to required law courses, and the second, third and fourth years combine gerontology and law courses.

**Gerontology Requirements**

The Master of Science in Gerontology will require 36 units of course and fieldwork that cover the core content of the MS program.

**Gerontology Requirements**

- GER 510 Physiology of Development and Aging Units: 4
- GER 520 Life Span Developmental Psychology Units: 2 or 4
- GER 530 Life Span Developmental Sociology Units: 4
- GER 540 Social Policy and Aging Units: 4
- GER 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GER 591 Field Practicum Units: 1-12
- GER 593 Research Methods Units: 4
- Gerontology elective Units: 4

**Notes:**

The Davis School of Gerontology will waive 16 units of electives, which are required in the regular MS program, as well as GER 589 Case Studies in Leadership and Change Management because
students enrolled in this program have a primary professional focus in law.

Law School Requirements
The law school requires 74 units of credit.

First Year Requirements
- LAW 502 Procedure I Units: 4
- LAW 503 Contracts Units: 2, 3, 4
- LAW 504 Criminal Law Units: 3
- LAW 505 Legal Profession Units: 2, 3, 4
- LAW 507 Property Units: 4
- LAW 508 Constitutional Law: Structure Units: 2, 3, 4, 5
- LAW 509 Torts I Units: 4
- LAW 512 Law, Language and Values Units: 2, 3, 4
- LAW 515 Legal Research, Writing and Advocacy I Units: 2, 3
- LAW 516 Legal Research, Writing and Advocacy II Units: 2

Elective Course Work
The second and third year of law study are primarily elective with one requirement. Students must satisfy the upper division writing requirement, either by completing a major, faculty-supervised writing project such as a dissertation, or by taking a course with a substantial writing component.

The law school will waive 14 units of electives which are required in the regular JD program.

Juris Doctor/Master of Social Work (JD/MSW)
The Juris Doctor and Master of Social Work (JD/MSW) dual degree program is a four-year program. Students are required to complete 121 units of course work, including 76 units in the Gould School of Law and 45 units in the USC Suzanne Dworak-Peck School of Social Work.

To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

First and Second Years: Complete both the first year JD program of study and MSW course work in foundation, field and core courses specific to the AMHW, SCI or CYF departments.

Third Year: Complete the second year JD program.

Fourth Year: Complete the third year JD program.

Doctoral Degree
Law (JD)
The Juris Doctor is the basic law degree. To obtain the degree, a student must satisfactorily complete 88 units, be in full-time attendance for six semesters and complete all required courses. Several options are available through which students may, with special permission, however, each student (including a dual degree student) must successfully complete at least 35 units beyond the first year curriculum, in law courses, taken at this law school, and graded in the normal manner. Each student must also complete a minimum of 65 of the required 88 units by attendance in regularly scheduled class sessions at the law school. A law student is expected to devote the major portion of his or her time to law studies; any outside employment must therefore be restricted. First-year students are required to carry the full load of courses prescribed for that year, and second- and third year students are required to carry between 13 and 17 units each semester, unless special permission to carry a reduced or enlarged schedule is granted by the dean of students. All students must complete six full-time semesters.

Requirements for degrees, as well as the courses offered, may be changed by the faculty at any time. The dean of students may waive some requirements for individual students.

The First Year
During the first year, the student takes a required curriculum of basic courses that examines fundamental legal institutions and addresses legal problems relevant to today’s society and the modern practice of law.

In the fall semester, Law, Language, and Values introduces students to foundational concepts in legal reasoning, including theories of interpretation, the rule of law and normative reasoning. Torts I explores the individual’s obligation to refrain from harming others and studies the bases for compensating persons who suffer injuries — either by holding responsible whomever is at fault for the harm, or by invoking other principles of liability including the efficiency of resource allocation and spreading of losses. Procedure introduces students to the issues of what constitutes fair, adequate and efficient procedures in resolving legal disputes. Study focuses on the procedures outlined in Federal Rules of Civil Procedure. Contracts studies the law regulating consensual arrangements entered into for commercial purposes. It concerns such questions as what promises do and should the state enforce and what remedies are available when enforceable promises are breached.

In the spring semester, students take Criminal Law, which studies issues relating to the decision, by legislature or court, to designate behavior as a “crime.” Significant attention is given to the moral, psychological and philosophical issues involved in ascribing criminal responsibility. Constitutional Law focuses on fundamental structure provisions and relationships under the U.S. Constitution with an emphasis on separation of powers and federalism. Property analyzes the development of rules dealing with land, water and other natural resources, frequently from historical and economic perspectives. In addition to these required spring courses, first-year students will be able to choose an elective course. Elective topics may include (among other topics) a Business Basics course, a course on constitutional rights, and a course in Legal Profession with an orientation toward public interest.

All students take a year-long course, Legal Research, Writing and Advocacy. The course is coordinated with other first-year courses, and provides students an opportunity to draft pleadings and to prepare legal memoranda and briefs. Toward the end of the second semester, each student participates in a moot court argument based on work previously prepared for the course.

Students study basic sources of the law — case reports, constitutions, statutes and interdisciplinary materials. There is no uniform method of teaching, but Socratic dialogue and class discussion are primarily employed to help the students analyze issues, reasons and arguments. Moreover, law school faculty have traditionally employed interdisciplinary approaches in analyzing legal problems. First-year classes meet in sections of 60 to 100 students, about half the class size of many law schools.

The Second and Third Years
Requirements
The upper two years of law study are primarily elective, with only four requirements. First, students must satisfy the upper division writing requirement, either by completing a major faculty-supervised writing project or by taking a course with a substantial writing component.

Second, students must enroll in course work that offers substantial instruction in professional skills generally regarded as necessary for the effective and responsible participation in the legal profession. Such course work includes simulation courses (including Trial Advocacy and Pretrial Advocacy), live-client clinical offerings
and courses involving the drafting of legal documents (including Contract Drafting and Negotiation).

Third, students who did not take the Constitutional Rights class as a first-year elective must take it during the second or third year of law school.

Finally, students who did not take the Legal Profession class as a first-year elective must take it during the second or third year of law school.

**Course Offerings**

The basic courses that most students elect to take — for example: Business Organizations, Evidence, Taxation, and Gifts, Wills and Trusts — are offered every year and usually twice a year. Other courses listed are offered once a year, or in some cases, once every several years. Each year the law school attempts to provide upper-division students with a wide variety of optional specialized courses. Often these reflect the research interests of the faculty. Some examples in recent years have been Biotechnology and the Law, Global Warming, Counterterrorism and Homeland Security, Wrongful Convictions, Reproductive Rights, Special Education and Disability Law, and a seminar on Corporate Fraud. Because there are specialty courses in nearly every major area of the law, upper-division students are able to concentrate in a particular area, or, if they prefer, pursue a broad, basic legal education.

**Clinical Offerings**

The upper-division curriculum includes a variety of opportunities for clinical legal education. "Clinical" courses are of two kinds. First, clinical refers to courses in which the learning of legal principles occurs through actual work on cases in particular subject matter areas. For example, the law of prisoners’ rights and post-conviction remedies is taught in the Post-Conviction Justice Project, a course in which students represent inmates in the California Institution for Women. This representation is under the direct supervision of full-time law school faculty members. About 20 students participate each semester, traveling to the prison to meet with their clients on a regular basis, attending seminars at the law school, preparing briefs and papers, drafting habeas petitions, and negotiating and dealing with prosecutors and prison and court personnel. In addition, students make court appearances on behalf of clients in state and federal courts, as well as courts of appeals.

The second type of clinical course concentrates on specific lawyering skills taught in a classroom setting through the use of hypothetical case materials, with actors playing the roles of clients. The best illustration of this form of clinical teaching is the three-course sequence of Pretrial, Trial and Appellate Advocacy, which covers the stages in the litigation process suggested by the course titles. In these courses, students actually perform, in a simulated courtroom or law office environment, the multiple tasks required of lawyers. Most work is done in small groups; students are videotaped and intensively reviewed by the instructors. A student can take part in clinical courses in nearly every major area of the law, upper-division students are able to concentrate in a particular area, or, if they prefer, pursue a broad, basic legal education.

**Judicial Externships and Clinical Internships**

The clinical opportunities listed previously are focused primarily within the law school. In addition, there are two categories of clinical options for students to pursue outside the law school in the actual environments of courts and law offices.

The first of these, the judicial externship program, enables students to receive credit for full- or part-time work as an extern to a judge of the state or federal court. Students are selected by the judges themselves. USC students have served as externs in the California Supreme Court, U.S. Court of Appeals, U.S. District Court, U.S. Bankruptcy Court, California Court of Appeal and Superior Court. During the externship, each student is supervised by the assistant dean and the placement supervisor.

The second program, the clinical internship option, allows USC Gould students to work part-time in government agencies, legal services programs or other nonprofit organizations under the supervision of practicing attorneys and faculty members. Students earn academic credit while providing representation to actual clients, learning important government processes or participating in large-scale impact litigation. Since the program includes more than 50 pre-approved agencies, students may choose from a wide range of clinical internships.

Neither program is considered a regularly scheduled class session for purposes of graduation requirements.

**Individual Research Projects**

A wide variety of courses and institutes offers opportunities for upper-division students to engage in individual research under faculty supervision and often in conjunction with course offerings, as well as to participate in large research projects. Projects presently underway include the uses of ocean and sea resources, the development and regulation of geothermal energy, sentencing practices in felony cases, the effects of real estate taxation, the delivery of legal service to low- and middle-income persons, the civil commitment of elderly persons, the relationships between corporate law and actual corporate practices, and theoretical studies in law and economics. Such research projects are financed by grants from the Brookings Institution, the U.S. Commission on Civil Rights, the National Science Foundation, the Ford Foundation, the Lincoln Institute of Land Policy, the National Institute of Mental Health, and the Energy Research and Development Administration.

Independent research completed for academic credit is not considered a regularly scheduled class session for purposes of graduation requirements.

**Courses Outside the Law School**

With the concurrence of the dean of students, a student may receive up to 12 units of J.D. credit for courses taken outside the law school. These courses must be on the graduate level and may be taken only at USC. Taking graduate level courses outside the law school is an alternative to the dual degree program; a student may not pursue both approaches. With the approval of the dean of students, a student may receive a limited number of J.D credits for undergraduate language courses taken at USC. For purposes of meeting the 35-graded-units rule, all non-law courses are counted as CR/F units.

A student may, with permission of the dean of students, enroll in and transfer the credit from a law course taken at another school that is a member of the Association of American Law Schools, if the course is equivalent to one included in the USC Gould curriculum that will not be offered here during the semester the student takes the course. Credit will be granted only for courses graded "C" or better. A maximum of 5 such units may be counted toward the J.D.

Courses taken outside of the law school are not considered regularly scheduled class sessions for purposes of graduation requirements.

**Course Selection in the Upper Division**

With such a variety of courses available, how do second- and third-year students go about selecting the program that will be best suited to their individual interests and ambitions? There are no precise rules or proven methods for selecting
second- and third-year courses. To a large extent, these choices reflect each student's personal assessment at the end of the first year — strengths and weaknesses, developing intellectual interests and first tentative career plans. For this reason, the combination of courses most desirable for one person will not necessarily be best for anyone else. Students are urged to be wary of the notion that there is a specific, recommended curriculum to follow. But reluctance to impose a model course of study does not mean that no guidance is available, for there are at least four ways of thinking about these choices that, in combination, will help each student choose the best array of courses.

One recommended approach to course selection is to choose courses taught by professors the student admires, without regard to subject matter. For each student there are teachers who are particularly able to create intellectual excitement and whose approach to analysis and teaching strikes a responsive note. Students will benefit as much from exposure to a specific professor's analytic skills and approach to legal issues as from specific course content.

A second approach is to choose courses that look exciting, without worrying about whether such courses are directly related to the student's current career plans or to some idea of traditional curriculum. If it appears that a course will be intellectually interesting, will expose students to a new area of the law, or provide needed variety, there is already more than enough reason to enroll. Courses taken because of enthusiasm for either the instructor or the subject matter often lead to the richest academic experience of law school.

The third way to make decisions about taking courses is to classify them according to clusters that emphasize similar issues or themes and then select from each area. For example, a student interested in ideas about family relationships will find them discussed in different contexts in Gifts, Wills, and Trusts; Family Law; and the Children's Legal Issues Practicum. Trial Advocacy and Pretrial Advocacy are courses that teach practical litigation skills, relating various performance tasks to the underlying skills of legal writing, advocacy, legal counseling, negotiation, and factual analysis. A further example includes courses involving close work with statutes, such as Labor Law, Securities Regulation and Taxation, any of which will provide opportunities to develop important and transferable skills.

Finally, students might think about selection as a way of building a wide substantive expertise in an area of particular interest. For example, the following courses are crucial to one anticipating a substantial wills and estate planning practice: Family Law; Community Property; Taxation; Estate Planning; Real Estate Transactions; and Gifts, Wills and Trusts. This kind of course planning requires some thought and investigation, since a casual examination might omit such courses as Community Property (which may affect one's legal ability to transfer property by will), and Real Estate Transactions (since various forms of property ownership may dictate a specific will or create planning considerations).

These approaches to course selection describe only some of the ways in which students might make reasoned choices about their academic programs. Formal and informal academic counseling are available from the associate dean, the assistant deans and other faculty. In addition, students are encouraged to follow the written recommendations available in the online Student Handbook available via the Student Portal on the USC Gould School of Law Website.
Keck School of Medicine of USC

Founded in 1885, the Keck School of Medicine of USC is part of Keck Medicine of USC, a major center of medical research, education and patient care with more than 1,500 full-time faculty members and a voluntary faculty of more than 4,000 physicians. Faculty includes national leaders in each of its 25 clinical and basic science departments. Located on the university’s 30.8-acre Health Sciences Campus three miles northeast of downtown Los Angeles, the Keck School is adjacent to the Los Angeles County+USC Medical Center, one of the largest teaching hospitals in the United States.

The Keck School’s faculty, students and residents serve more than one million patients each year through the Los Angeles County+USC Medical Center, the USC Norris Cancer Hospital, the Keck Hospital of USC, Children’s Hospital Los Angeles, USC Verdugo Hills and a network of USC-affiliated hospitals throughout Southern California. More than 500 faculty physicians care for patients with complex medical needs as well as provide primary care.

The Eli and Edythe Broad CIMR Center for Regenerative Medicine and Stem Cell Research of USC, which opened in the fall of 2010, joins the Harlyne J. Norris Cancer Research Tower and USC Zilkha Neurogenetic Institute in providing state-of-the-art facilities for important scientific discovery. With more than $248 million in total federal research support, the Keck School ranks among the top U.S. medical schools in federal funding.

The Keck School of Medicine of USC is at the forefront of medical education and was among the first medical schools to adopt Introduction to Clinical Medicine courses for first-year students, providing direct experience in patient care from the start.

Administration

Rohit Varma, MD, MPH, Dean; Grace and Emery Beardsley Professor and Chair in Ophthalmology; Director, USC Roski Eye Institute
Ted J. Budge, MS, Senior Associate Dean, Chief Operating Officer
Thomas A. Buchanan, MD, Vice Dean, Research
Henri R. Ford, MD, MHA, Vice Dean, Medical Education
Judy Garner, PhD, Vice Dean, Faculty Affairs
D. Brent Polk, MD, Vice Dean, Clinical Affairs
Melany Duval, BA, Senior Associate Dean and Associate Vice President for Health Sciences Development
Donna D. Elliott, MD, EdD, Senior Associate Dean, Student and Educational Affairs
Lili Delcampo, JD, Associate General Counsel for Health Sciences
Raquel A. Arias, MD, Associate Dean, Admissions
Karen M. Restifo, MD, JD, Associate Dean, Student Affairs
Glenn Ault, MD, Associate Dean for Clinical Administration (LAC+USC Medical Center)
Ronald Ben-Ari, MD, Associate Dean, Continuing Medical Education, and Assistant Dean, Curriculum
Ite A. Laird, PhD, Associate Dean, Graduate Affairs (PhD Programs)
Inderbir Gill, MD, Associate Dean, Clinical Innovation
Stephanie Hall, MD, Associate Dean, Clinical Affairs (Keck Medical Center)
Laura Mosqueda, Associate Dean, Primary Care
Elahe Nezami, PhD, Associate Dean, Graduate Affairs (Undergraduate, Master’s and Professional Degree Programs)
Lawrence M. Opas, MD, Associate Dean, Graduate Medical Education
Michele T. Pato, MD, Associate Dean, Academic Scholarship
Ron Ben-Ari, MD, Associate Dean, Curriculum
Utam Sinha, MD, Associate Dean, Surgical Simulation
Maura Sullivan, EdD, Associate Dean, Simulation Education for Health Sciences
Sean Nordt, MD, Assistant Dean, Pre-health Undergraduate Studies
Paul M. Thompson, PhD, Associate Dean, Bioinformatics Research
Althea M. Alexander, Assistant Dean, Student Diversity

Associate Dean, Admissions: Raquel D. Arias, MD

The Keck School of Medicine of USC Committee on Admissions is responsible for selecting members of the entering class. The committee comprises both faculty and students. The committee reviews candidates whose academic achievement, commitment to service and personal qualities distinguish them from the many thousands of applicants who apply.

The applicant's undergraduate major may be in any subject area from an accredited college or university. Although sound preparation in the basic sciences is essential, a background in the humanities, and depth and breadth of personal experience are also important.

General Admissions Information

The Keck School of Medicine of USC participates in the centralized American Medical College Application Service (AMCAS) and also requires the submission of the Keck School of Medicine supplemental application. Approximately 7,500 applications are received per year and 750 applicants receive interview invitations. Interviews begin in late August and end in early March. Students receive acceptance letters beginning in October.

Requirements

All applicants to the Keck School of Medicine of USC MD degree program must have completed a baccalaureate degree, or its equivalent, from an accredited college or university prior to matriculation. The school has no specific course requirements. Strong applicants will have distinguished themselves in their chosen field of study and have demonstrated competency in the sciences at the time of their application. The Medical School Admission Requirement (MSAR) guide may be referenced for recommended course work. The Medical College Admissions Test (MCAT) is required, and scores must be from within the previous three years of the date of matriculation.

International applicants must hold a degree considered equivalent to a U.S. bachelor’s degree as evaluated by the USC Office of Graduate and International Admissions.

Individuals who have discontinued studies in medical school for academic reasons are not eligible to apply to the Keck School of Medicine of USC.

Medical College Admission Test (MCAT)

The MCAT is required of all applicants. Applicants to the entering class are required to take the MCAT within the previous three years of the date of matriculation and no later than August in the year that the application becomes available. Scores from administrations of the examination taken outside of this time period will not be accepted.
Applications
The Keck School of Medicine of USC participates in the American Medical College Application Service (AMCAS). AMCAS reproduces and distributes an application and standardized academic record to participating medical schools designated by the student. Applications are submitted electronically at students/applying/amcas. Applications are available after June 1 for the class entering in August of the following year. Applications to USC must be returned to AMCAS by November 1, but earlier application is encouraged.

The Committee on Admissions reviews all information submitted on the AMCAS application as well as the school’s supplemental application. The nonrefundable supplemental application fee is $100.

Personal Interviews
Personal interviews are a required aspect of the application process. Interviews are conducted at the Keck School of Medicine on the Health Sciences Campus of the University of Southern California.

Notice of Acceptance
Notices of acceptance will be sent to successful candidates beginning in October until the class is filled. Since Keck uses a rolling admissions process, it is highly recommended to submit a completed application early in the cycle. If not chosen for an interview, candidates are usually notified by March of the application year.

Candidates must reply to an offer of admission and agree to the Essential Characteristics and Abilities Required for the Completion of the MD Degree within 10 business days of receiving the offer of admission. A letter of withdrawal, via email or post mail, is required if students wish to relinquish their place in the class; release is granted automatically when the letter is received.

MD/PhD Program
The Keck School of Medicine has developed an MD/PhD program designed for individuals who aspire to a career in academic medicine or a leadership role within the biomedical industry. Students are expected to acquire the modern skills that are required for physician competence. Additionally, the MD/PhD program provides an opportunity for the development of research expertise and academic excellence while fulfilling the requirements for a PhD degree.

A joint program between the Keck School of Medicine and the California Institute of Technology (Caltech) was established in fall 1997 for the granting of the MD/PhD degree. PhD studies may be carried out at Caltech or through collaboration between two laboratories at both institutions. The MD will be awarded from the Keck School of Medicine and the PhD will be awarded from Caltech.

The MD/PhD executive committee is responsible for selecting students for the MD/PhD program. Members of the committee review the qualifications of each applicant, including MCAT scores, academic performance, letters of recommendation and research experience. The committee interviews candidates and then selects students for admission to the program. All applicants to the joint program interview at Keck School of Medicine and the California Institute of Technology.

General Information
The MD/PhD program enrolls a maximum of four students annually. Students have the option of doing the PhD at USC or Caltech. Each student accepted to the program must also be accepted to the Keck School of Medicine. All positions are fully funded.

Requirements
Admission requirements for the MD/PhD program are those of one of the graduate programs at Caltech, the Keck School of Medicine and USC. Students select the program of their choice during the first two years of the medical curriculum; descriptions of these programs are available from each department or program and Caltech.

Graduate Record Examinations (GRE)
To assist the MD/PhD Committee in its evaluation of candidates, applicants to the MD/PhD program are encouraged to provide recent GRE scores. The committee does not, however, require GRE scores in order to consider an application.

Applications
Applicants to the Keck School of Medicine are advised to request information about the MD/PhD program at the time of application. In addition to completing the medical school application, applicants should indicate their interest in the MD/PhD program by contacting: MD/PhD Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 200), Los Angeles, CA 90089-9023; (323) 442-2965, FAX: (323) 442-2318.

Personal Interviews
All applicants are screened by members of the MD/PhD Executive Committee; candidates who meet the basic criteria of the program are then invited to be interviewed by members of the committee and faculty at USC and Caltech.

Notice of Acceptance
Students selected for acceptance to the MD/PhD program are notified between November and May of each year. Students begin their program in the fall semester and register for courses in the medical curriculum at that time.

Further information about the MD/PhD program at the Keck School of Medicine may be obtained by contacting: MD/PhD Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 200), Los Angeles, CA 90089-9023; (323) 442-2965, FAX: (323) 442-2318; email: med.mdphdpgm@med.usc.edu.

Graduate Degree Programs
Admission standards for these curricula are established jointly by the Keck School of Medicine, its participating programs and the Graduate School.

Applicants to graduate degree programs offered at the Keck School of Medicine must meet the general criteria for acceptance to the Graduate School. Each participating program may have additional requirements for application. The programmatic requirements for the Keck School of Medicine’s graduate programs are detailed in the Graduate Degree Programs section.

Further information about graduate degree programs at the Keck School of Medicine may be obtained by contacting: Office of the Associate Dean for Graduate Studies, Keck School of Medicine, 1975 Zonal Avenue (KAM 409), Los Angeles, CA 90089-9023; (323) 442-1607, FAX: (323) 442-1199.

Tuition and Fees
The tuition and fees listed below are estimated for fall semester, 2017. All fees are subject to change without notice by action of the University of Southern California Board of Trustees. The university reserves the right to assess new fees or charges. Tuition is not refundable; late registration fees are mandatory and cannot be waived.

Tuition for each semester of the medical school curriculum is due and payable at the beginning of the semester. Registration is not permitted after the third week of instruction. Late payment of tuition is subject to a mandatory late fee. Average budgets for medical students will vary according to their year in the curriculum. Sample budgets for Year I, Year II and the Junior/Senior Continuum may be requested from the Office of Financial Aid. Tuition, mandatory fees and parking are the same for all years.

Tuition for courses of the graduate curriculum is based upon the number of units assigned to each course. The Graduate Degree Programs section provides a department-by-department list of graduate course titles; the number following each title indicates the number of units for which tuition is charged. Late payment of tuition is subject to a mandatory late fee.

Grading and Evaluation

The Keck School of Medicine employs a system of evaluation and grading designed to encourage student self-reliance, to stimulate the student's independent quest for knowledge and to promote excellence in academic achievement.

For courses of the medical curriculum, the Keck School of Medicine does not award numerical or letter grades. The evaluation process leading to a pass or fail grade is based on performance of the student in relation to announced course criteria. Throughout medical school, students will be evaluated on their fund of knowledge, problem-solving ability, professional behavior, relevant personality traits and clinical and interpersonal skills. Additional information on grading and evaluation is contained in the handbook provided to every enrolled medical student.

Faculty instructors are responsible for establishing evaluation criteria appropriate to the objectives of each course, discipline and clerkship, and for specifying the manner in which evaluative information is to be gathered. Instructor comments on student performance form an integral part of a student's total evaluation. For each evaluation, descriptive comments based on the student's overall performance in relation to course criteria are submitted for permanent file to the office of the senior associate dean for student affairs and educational affairs, together with performance reports. The student's permanent file is used to prepare a letter from the associate dean of student affairs of the Keck School of Medicine, which accompanies student applications for internships and residencies. These records are maintained by the Office of Student Affairs; students may review their records during regular office hours by scheduling an appointment. During the lifetime of the physician, the permanent student record may be consulted as evidence of completion of the required curriculum and as certification for licensure.

Grading and evaluation policies for graduate degree programs and for joint MD/PhD degrees are established in conjunction with the Graduate School. In general, courses taken in partial fulfillment of graduate degree requirements receive letter grades that are recorded by the university.

Degrees and Requirements

The Keck School of Medicine and its departments offer types of curricula leading to award of: the Doctor of Medicine; joint MD/PhD; joint MD/MBA; joint MD/MPH; MD/MS, Global Medicine; a Master of Academic Medicine, MAM; Global Medicine, MS; PharmD/MS, Global Medicine; Global Health, BS; Health Promotion and Disease Prevention Studies, MS; graduate degrees in conjunction with the Graduate School in Applied Biostatistics/Epidemiology, MS; Biochemistry and Molecular Biology, MS; Biostatistics, MS, PhD; Cancer Biology and Genomics, PhD; Cell and Neurobiology, MS; Clinical, Biomedical and Translational Investigations, MS; Development, Stem Cells, and Regenerative Medicine, PhD; Epidemiology, PhD; Experimental and Molecular Pathology, MS; Medical Biology, PhD; Molecular Epidemiology, MS, PhD; Molecular Microbiology and Immunology, MS; Molecular Structure and Signaling, PhD; Nurse Anesthesiology, MS; Physiology and Biophysics, MS; Psychology and Public Health, PhD/MPH; Stem Cell Biology and Regenerative Medicine, MS; Integrative Biology of Disease, PhD.

The Department of Family Medicine has one academic division: the Division of Physician Assistant Studies, which offers the Master of Physician Assistant Practice.

The Department of Preventive Medicine has two academic divisions: the Health Behavior Research Division, which offers a BS, Global Health; Health Promotion and Disease Prevention Studies; BS, Global Health/Master of Public Health; BS, Health Promotion and Disease Prevention Studies/Master of Public Health; Master of Public Health; PharmD/Master of Public Health; PhD, Physical Therapy/Master of Public Health; PhD, Preventive Medicine (Health Behavior Research); and the Biostatistics Division, which offers MS programs in Biostatistics, Molecular Epidemiology, and Applied and Biostatistics/Epidemiology. The division also offers PhD programs in Biostatistics, Epidemiology, and Molecular Epidemiology.

In addition, departments of the school have certificate programs in certain medical specialties.

The Medical Education Committee (MEC) is responsible for overall planning of the medical school curriculum. Separate curriculum committees plan and supervise the instructional programs for each year of medical school. Each of the committees includes student representatives and faculty members from the departments involved in each year's teaching program.

The curriculum of medical education at USC continues to emphasize preparation of the student to give optimal patient care. Students are progressively involved in patient care beginning with their first semester. The curriculum is patient-oriented, and students are expected to assume increasing responsibility for patient care as they acquire sufficient knowledge and skills. During the clinical experiences of the Junior/Senior Continuum students eventually attain a level equivalent to that of an intern.

At the same time, the school recognizes that the explosion of knowledge and techniques brought about by the current “biotechnology revolution” is rapidly altering the practice of medicine. During the four years of medical school, students cannot be taught all that will be needed for the practice of medicine — either now or in the years ahead. To a far greater degree than in the past, the present curriculum encourages students to acquire skills and habits of self-education and self-instruction that will prepare them for lifelong learning.

The faculty of the school recognize that while most students will eventually practice medicine, some will choose an academic research career. The plan of medical education fosters the development of individuals whose careers may be directed along this path. Faculty are available to counsel and encourage research participation by students during their medical school training.

The curricula of the Keck School of Medicine and its departments acknowledge the crucial place of basic medical science in the advance of modern clinical practice. Both basic and clinical science are taught throughout the four years of the undergraduate medical curriculum. Basic science is taught both as pure basic science and in correlation with clinical science. In addition, a number of the school's departments cooperate with the USC Graduate School to offer degree courses leading to the award of the Master of Science and Doctor of Philosophy. Most of these graduate courses may also be taken as part of the school's joint MD/PhD program.

Minor Health Care Studies Minor

The USC Dornsife College of Letters, Arts and Sciences and the Keck School of Medicine offer an interdisciplinary minor in health care studies. This minor is targeted to those undergraduates who wish to pursue a postgraduate career in health care or health
care related fields. The minor brings together a background in fundamental science necessary to understand the biological basis of medicine with course work that explores health care both in classroom and clinical settings. The minor requires a minimum of 28 units, at least 16 of which must be at the upper-division level. If the core required courses listed below are already included in a student's major, then other lower division courses may be selected from the electives list. Students should consult their advisers in selecting courses. Depending on the major, prerequisites may increase total units required to complete this minor.

**Required Courses (12 Units)**
- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4 or
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4
- CHEM 103Lgx General Chemistry for the Environment and Life Units: 4 or
- CHEM 105Lg General Chemistry Units: 4
- MDA 110 Contemporary Issues and Cases in Health Care Units: 2
- MEDS 220 Preparation for the Clinical Experience Units: 2

**Electives**
Students must choose a minimum of 16 upper division units from the following lists.

**Introduction to Human Health I**
- ANTH 101g Body, Mind and Healing: Introduction to Medical Anthropology Units: 4
- BISC 150Lgx The Nature of Human Health and Disease Units: 4
- PSYC 100Lg Introduction to Psychology Units: 4
- PSYC 360 Abnormal Psychology Units: 4 *

**Introduction to Human Health II**
- BISC 312x Molecular Biochemistry Units: 4 *
- BISC 320L Molecular Biology Units: 4 *
- BISC 421 Neurobiology Units: 4 *
- BISC 450L Principles of Immunology Units: 4 *
- MEDS 260 Challenges in the Forefront of Biomedical Ethics Units: 2 *
- MEDS 280 The History of Medicine: a Doctor's Perspective Units: 2
- MEDS 300g Statistical Methods for Biomedical Research Units: 4
- PSYC 36L Developmental Psychology Units: 4 *

**The Biological Bases for Disease Processes**
- BISC 300L Introduction to Microbiology Units: 4 *
- BISC 307L General Physiology Units: 4 *
- BISC 330L Biochemistry Units: 4 *
- HBIO 301L Human Anatomy Units: 4 or
- MEDS 320 Human Cadaveric Anatomy Units: 4 *
- MEDS 330 Bionics: Solutions to Enable the Disabled: 2 *
- MEDS 335 Human Development: From Stem to Sternum Units: 2 *
- MEDS 340 The Brain in Health and Disease Units: 4 *
- MEDS 350 Neurochemistry of Addiction: Drugs, Brain, and Behavior Units: 2 *
- MEDS 360 From Bench to Bedside: New Frontiers in Biomedical Research Units: 2 *
- MEDS 370 Organ Failure: Non-Communicable Chronic Disease Units: 2 *
- MEDS 380 Stem Cells: Fact and Fiction Units: 2 *

**Clinical and Biomedical Experience**
- BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders Units: 4 *
- MEDS 420 Clinical Pediatrics Units: 2 *
- MEDS 425 Medical Examiner-Coroners: Investigating Death Units: 2 *
- MEDS 440 Introduction to Surgical Principles Units: 2 *
- MEDS 445 Cancer: Introduction to Oncology in the Modern Era Units: 2 *
- MEDS 450 OB/GYN: The Medicine and Surgery of Reproduction Units: 2 *
- MEDS 460 Emergency Health Care Units: 2 *
- MEDS 465 Wilderness and Survival Medicine Units: 4 *
- MEDS 490x Directed Research in Biomedical Science Units: 2, 3, 4, 5, 6, 7, 8 *
- SOCI 475 Medical Sociology Units: 4

**Note:**
*Prerequisite required

**Master's Degree**

**Academic Medicine (MACM)**
Keith Administration Building 211 1975 Zonal Avenue Los Angeles, CA 90033 (323) 442-2372 FAX: (323) 442-2051 Email: nyquist@usc.edu Program Director: Julie G. Nyquist, PhD

**Faculty**
Professors: Donna Elliott, MD, EdD (Pediatrics); Jerry Gates, PhD (Family Medicine); Win May, MD, PhD (Medical Education); Julie G. Nyquist, PhD (Medical Education); Beverly Wood, MD, PhD (Medical Education)
Associate Professors: Kathleen Besinque, PharmD, MEd (Pharmacy); Cha-Chi Fung, PhD (Medical Education)
Assistant Professors: Todd Chang, MD, MACM, FAAP (Clinical Pediatrics); Dixie Fisher, PhD (Medical Education); Anne Vo, PhD (Medical Education); Samuel Yanofsky, MD, MEd (Anesthesiology)

The Master of Academic Medicine is offered by the Keck School of Medicine in collaboration with the Schools of Dentistry and Pharmacy. The goal is to develop leaders who will create and enhance academic and training programs for health care professions globally. Academic medicine is defined in broad terms as relating to those who lead training worldwide in medicine or in other health care related fields. Enacting this vision is possible due to the flexible delivery model selected. The program employs a hybrid model, combining on-campus face-to-face sessions, blended with online course work. During the 32-unit program, the majority of sessions will be delivered using interactive online delivery methods. All students will also be on campus for one-week intensive sessions in the spring of each year, which focus on community building and the development and evaluation of skills.

The program addresses the unique population of medical and health professions faculty who are focused on leading the academic enterprise for health professionals at the undergraduate, graduate and continuing education levels. Our graduates will be positioned to guide future generations of health professionals around the world toward better meeting the health needs of our global society. For those with a clear focus on the academic enterprise, a complementary degree in academic medicine offers the specialized skills needed to lead worldwide development of enhanced training for health professionals, increases professional capacity and provides new opportunity for promotion. The audiences for this degree will typically have primary professional degrees in health fields (e.g., MD, DDS, DPT, RN, MSN, PA, DVM, DO, PharmD, DC, DOM). The Master of Academic Medicine will provide the needed complementary training for clinician educators.

**Admission**
Applicants for admission to the Master of Academic Medicine program are generally expected to have an advanced degree in a health profession. Proof of graduation is required. For applicants
who do not have a degree in a health profession, a bachelor's degree or its equivalent from an accredited institution is required, a grade point average of 3.0 (A = 4.0) is usually expected as well as satisfactory scores on the Graduate Record Examinations (GRE) General Test and three letters of recommendation. For specific information on admission and application procedures, contact the Office of Medical Education, (323) 442-2372.

Students are admitted for the academic year beginning in the fall, although those admitted prior to March 15 may enroll in summer courses. Although there is no formal application deadline, complete applications received before March 1 will be given priority. Application inquiries should be made to: Master of Academic Medicine Program, University of Southern California, Office of Medical Education, 1975 Zonal Avenue, KAM 211, Los Angeles, CA 90033, telephone (323) 442-2372.

Satisfactory Academic Progress
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 32 units of graduate-level course work is required.

Degree Requirements
Academic Courses (26 Units)
• ACMD 501 Introduction to Academic Medicine Worldwide Units: 3
• ACMD 502 Becoming a Leader in Academic Medicine Worldwide Units: 3
• ACMD 503 Leading Change in Academic Medical Centers Units: 3
• ACMD 511 Competencies in Academic Medicine and Health I Units: 3
• ACMD 512 Competencies in Academic Medicine and Health II Units: 3
• ACMD 513 Professionalism in Academic Medicine and Health Units: 3
• ACMD 514 Accreditation and Program Evaluation in Academic Medicine Units: 3
• ACMD 591 Designing Research on Innovations in Academic Medicine Units: 2
• ACMD 592 Implementing Research on Innovation in Academic Medicine Units: 2
• ACMD 621 Capstone Portfolio for the Master of Academic Medicine Units: 1

Electives (6 units)
Six units of electives may be selected from the recommended courses below, or these may be replaced with approved courses at the 500 level or within USC that equal 6 units.
• ACMD 593 Foundations of Academic Writing Units: 1
• ACMD 598 Fieldwork: Designing Innovations for the Health Professions Units: 1, 2, 3
• ACMD 604 Supporting the Educational Enterprise in Academic Medicine Units: 3
• ACMD 605 Faculty Development for Health Sciences Faculty Educators Units: 2
• ACMD 615 Maintenance of Competence in the Health Professions Units: 2
• MINT 603 Systematic Approach to Scientific Writing Units: 2
• MINT 604 Systematic Approach to Scientific Writing Units: 2
• MINT 617 Structure and Management of Clinical Trials Units: 4
• PM 513 Experimental Designs Units: 3

Clinical, Biomedical and Translational Investigations (MS)
Keith Administration Building 200
(323) 442-2965
Email: msclnbio@usc.edu
Program Co-Directors:
Stanley P. Azen, PhD, Professor, Co-Director of Biostatistics, Preventive Medicine, Co-Director CETCD
Michael L. Paine, BSc, BDS, PhD, Associate Professor, Director, Graduate Program in Craniofacial Biology

The Master of Science in Clinical, Biomedical, and Translational Investigations (CBTI) is a joint effort to train medical students, fellows or other health professionals, including faculty and other scientists conducting clinical related research, in clinical research methods to translate clinical, biomedical and technological discoveries into advances in population-based, clinical or basic science research. The MS Program of Clinical, Biomedical, and Translational Investigations (CBTI) is available to medical students who have completed their second year of medical school, and pre-doctoral students who are interested in expanding their pre-doctoral training to include methodology associated with conducting translational research. Pre-doctoral students will earn a joint degree (PhD in their research area and an MS in CBTI). In addition, the MS CBTI Program is tailored to MDs doing fellowships at USC or Children's Hospital Los Angeles (CHLA), faculty interested in expanding their research careers, or are recipients of Young Investigator Awards, including Southern California Clinical Translational Science Institute's (SC CTSI) Center for Education, Training, and Career Development K and T Awardees. Tracks include: 1) Clinical Translational Research, 2) Community-based Intervention Trials, 3) Design, Conduct, and Analysis of Clinical Studies, 4) Epidemiology and Disease Etiology, 5) Health Outcomes Research, 6) Environmental Epidemiology, 7) Molecular Biology, 8) Cell Biology, 9) Vision Science and 10) Alternative Options Track.

The MS program in Clinical and Biomedical Investigations is designed to train students, fellows and faculty for future independent research careers in an academic, government or private sector setting. The objective of the MS program is to produce a clinical researcher with either an in-depth knowledge in laboratory methodologies or statistical and analytic skills in population-based, clinical studies or outcomes research. The program gives students a solid background in the methodological aspects of translational research, and in statistical thinking as applied to molecular epidemiology, as well as a solid grounding in biostatistical, epidemiological methods, and community based intervention strategies.

Admission Requirements
 Applicants must apply to the Graduate School and meet the minimum requirements for admission to the Graduate School. The Departments of Preventive Medicine, Cell and Neurobiology, Family Medicine, and the Center for Education, Training, and Career Development (CETCD) jointly administer the program through the MS Program Office.

The program will consider applicants who satisfy all requirements for admission to the Graduate School. For the MS program in Clinical and Biomedical Investigations, MCAT scores may be substituted for the GREs. Applicants not meeting Graduate School requirements for regular standing may, with approval of the Graduate School, be conditionally admitted. Regular standing is contingent upon maintaining a GPA of 3.0 in the first 12 units of graduate studies. All graduate students must maintain a GPA of 3.0 throughout their graduate studies.

General Requirements
Graduation requires the completion of a minimum of 29 units, of which a minimum of 15 units are didactic course credits taken in the first year (including summer sessions), with the remaining units being directed to: a) PM 590 Directed Research (1–12 units) and PM 594a Master's Thesis, PM 594b Master's Thesis (4 units) taken in the second year. The equivalent of one year of full-time effort must be devoted to research leading to a master's thesis. The thesis provides a structure for the development of a plan to address a research problem and a suitable approach to the analysis and presentation of the results.

Because the background and interests of applicants varies widely, one of the co-directors will consult with each student prior to the first year in order to design an individualized schedule of recommended
courses, or this may be negotiated with a student's faculty sponsor. At the end of the first year, the trainee must submit a final program plan to the co-directors. This will summarize the courses taken, the proposed thesis title, and the names and credentials of the MS thesis committee. One of the members of the MS thesis committee will be the trainee's research adviser and will serve as the chair of the committee. At least one member of the thesis committee must be from outside the student's department. For faculty, at least two members of the thesis committee must be from outside the student's department.

For those trainees or SC CTSI's CETCD K and T awardees who do not wish to pursue an MS degree, the school offers a certificate in clinical, biomedical, and translational investigations (CBTI). The certificate program requires completion of 12 credits, and a minimum of six months of practical research experience working on a research project (PM 590) approved by either an Oversight Committee or the CETCD's K and T Award Committee Review Process.

Students are expected to attend the three day workshop on NIH proposal development if offered by Thomas Ogden, MD, PhD, and a workshop on the principles of scientific manuscript preparation.

**Clinical Translational Research (13-16 Units)**
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 523 Design of Clinical Studies Units: 3 or
- PM 612a Clinical Translational Research (CTR) Units: 4 and
- PM 612b Clinical Translational Research (CTR) Units: 4 and
- PM 612c Clinical Translational Research (CTR) Units: 4

**Electives (Pick one course)**
- BIOC 543 Human Molecular Genetics Units: 4
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 602 Science, Research and Ethics Units: 2
- PM 511bL Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4
- RSCI 530 Translational Medicine: An Overview Units: 2

**Community-Based Intervention Trials (16 Units)**
- PM 512 Principles of Epidemiology Units: 4
- PM 528 Program Design and Evaluation Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4

**Electives (Pick one course)**
- PM 526 Communications in Public Health Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4

**Design, Conduct and Analysis of Clinical Studies (18 Units)**
- PM 510L Principles of Biostatistics Units: 4
- PM 511aL Data Analysis Units: 4
- PM 523 Design of Clinical Studies Units: 3
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4

**Epidemiology and Disease Etiology (14-15 Units)**
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 517a Research Methods in Epidemiology Units: 3

**Electives (Pick one course)**
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4 or
- PM 533 Genetic and Molecular Epidemiology Units: 3

**Health Outcomes Research (16 Units)**
- PM 511aL Data Analysis Units: 4
- PM 539 Economic Assessment of Medical Care Units: 4
- PM 540a-Seminar in Pharmaceutical Economics and Policy Units: 2
- PM 540b-Seminar in Pharmaceutical Economics and Policy Units: 2

**Environmental Epidemiology (17-18 Units)**
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 529 Environmental Health: An Epidemiological Approach Units: 4

**Electives (Pick one course)**
- PM 511aL Data Analysis Units: 4
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 599 Special Topics Units: 2, 3, 4

**Molecular Biology (16 Units)**
- INTD 531 Cell Biology Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 571 Biochemistry Units: 4

**Electives (Pick one course)**
- BIOC 543 Human Molecular Genetics Units: 4
- INTD 504 Molecular Biology of Cancer Units: 4, 2 years
- INTD 555 Biochemical and Molecular Bases of Disease Units: 4
- MICB 551 Procaryotic Molecular Genetics Units: 4

**Cell Biology (15 Units)**
- INTD 531 Cell Biology Units: 4
- INTD 571 Biochemistry Units: 4
- PATH 553 Methods in Cellular and Clinical Pathology Units: 3

**Electives (Pick one course)**
- INTD 504 Molecular Biology of Cancer Units: 4, 2 years
- INTD 555 Biochemical and Molecular Bases of Disease Units: 4

**Vision Science (13-18 Units)**
- INTD 501 Recent Advances in Vision Science Units: 1
- INTD 531 Cell Biology Units: 4
- INTD 571 Biochemistry Units: 4
- INTD 573 Systems Physiology and Disease II Units: 4
- PSCI 667 Intracellular Drug Delivery and Targeting Units: 2, 2 years

**Alternative Options Track (Minimum 16 Units)**
Courses are determined by mentor and student, based on research interests, with approval from the oversight committee.

**Seminars/Workshops**
Participation is required in a Recent Advances Journal Club to learn how to read papers critically and develop the speaking skills necessary to explain a research paper. Faculty members in the program rotate as course directors in order to emphasize new topics. Students are expected to attend the three-day workshop on NIH Proposal Development if offered by Thomas Ogden, PhD, and a workshop on the principles of scientific manuscript preparation.
Global Medicine (MS)
Keith Administration Building 317
1975 Zonal Avenue
Los Angeles, CA 90089-9024

Program Director: Elahe Nezami, PhD

The Master of Science in Global Medicine (MSGM) is offered by the Department of Educational Affairs of the Keck School of Medicine. The program aims to train medical, dental and pharmacy students; current physicians and allied health professionals; and those planning to pursue degrees in the allied health professions to analyze and address critical issues in global medicine. The program provides a solid foundation in basic science while also exposing students to a broad scope of pertinent issues in global medicine. The program offers an advanced standing option for physicians, dentists, current medical/dental students and applicants with a PharmD degree from accredited institutions. Students admitted to the advanced standing option may use previous equivalent course work for 8 units of credit toward MEDS 503 L Core Principles System I and MEDS 504 L Core Principles System II course requirements. The advanced standing option allows students to bypass the foundation course work and focus on globally oriented course work.

By providing the knowledge and training necessary to address current and future global medical challenges, the MS in Global Medicine program responds to the Institute of Medicine’s recommendation that the education of health professionals include course work that promotes literacy in global medicine. In addition to gaining a strong medical science foundation, students are immersed in course work that examines methods used to create innovative programming, solutions and responses to global health challenges, thereby furnishing them with the problem-solving skills and analytical frameworks essential to their future career paths. Through partnerships with the Marshall School of Business and the Viterbi School of Engineering, the MS in Global Medicine also includes a Management Track for students who intend to pursue international health management, and an Entrepreneurship Track for students interested in applying business acumen to the challenges of global health in innovative ways. The MS in Global Medicine also offers the Interprofessional Health Track for students seeking an understanding of the interplay of various clinical specialties in providing comprehensive and integrated care to patients and the resultant impacts on healthcare administration. Upon completion of the MS in Global Medicine, students will be equipped to serve as leaders within the allied health field, including, but not limited to: medicine, pharmacy, dentistry and nursing. In addition, graduates will be prepared to collaborate with, or seek employment from, a variety of international aid, nonprofit, and global health organizations such as: the United Nations, the International Red Cross, United Nations Joint Programme on HIV/AIDS, United Nations Children’s Fund, World Health Organization, World Bank and the Centers for Disease Control and Prevention.

Admission

Applicants for admission to the program must have a bachelor’s degree or its equivalent from an accredited institution and have earned a GPA of 3.0 (A = 4.0) in undergraduate work. Prerequisite undergraduate course work for Clinical Track applicants must include one year of general biology, one year of general chemistry, one year of organic chemistry and one semester of calculus. Applicants to the Management, Entrepreneurship, and Interprofessional Tracks should consult with advisers for prerequisite exceptions.

All applicants are required to have taken the Graduate Record Examinations (GRE) General Test, the Dental Admission Test (DAT) or the Medical College Admission Test (MCAT). A minimum score of 300 on the GRE, 18 on the DAT or 29 on the MCAT is required. Applicants must supply three letters of recommendation from evaluators qualified to assess their potential for graduate work. A minimum score on the Graduate Record Exam is required. Applicants must also supply three letters of recommendation from evaluators qualified to assess their potential for graduate work.

The program recommends that students meet with an academic adviser of the program each semester prior to registration.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified. A minimum of 32 units of graduate level course work is required for graduation from the clinical, management and entrepreneurship tracks. A minimum of 24 units of graduate-level course work is required for graduation with the advanced standing option.

Degree Requirements

Global Medicine students in the Clinical, Entrepreneurship and Management Tracks must complete a minimum of 32 total units to earn the degree. (The Clinical Track offers an Advanced Standing Track option for qualified students that requires a minimum of 24 units).

Students are required to take the core and elective courses specified for the track in which they are matriculating and must complete enough courses to complete 32 or more total units overall.

Core Courses

GM Clinical Track Core

Clinical Track students must complete the following 12 units of core course work:

- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 503L Core Principles System I Units: 4
- MEDS 504L Core Principles System II Units: 4

GM Advanced Standing Track Core

The Clinical Track offers an Advanced Standing Track to those deemed eligible for the track, including: physicians, dentists, pharmacists, and current medical and dental students who have previously taken course work that is equivalent to MEDS 503L and MEDS 504L.

Advanced Standing Track students must complete the following 8 units of core course work and must select 16 units of Clinical Track electives:

- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 502 Global Epidemiology of Diseases and Risk Factors Units: 4

GM Entrepreneurship Track Core

Entrepreneurship Track students must select from BAEP 550 or BAEP 551 to complete 13 total units when combined with the other core courses below:

- BAEP 550 Entrepreneurship and Venture Management Units: 1.5
- BAEP 551 Introduction to New Ventures Units: 3
- BAEP 552 Cases in Feasibility Analysis Units: 3
• BAEP 553 Cases in New Venture Management Units: 1, 5, 3
• MEDS 500 Basic Concepts in Global Health Units: 4

**GM Interprofessional Health Track Core**

Interprofessional Health Track students must select from MEDS 500 or MEDS 501 to complete 14 units when combined with the other core courses below:

- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 501 Critical Issues in Global Health Units: 4
- MEDS 532 Non-communicable Diseases Units: 2
- MEDS 580 Interprofessional Team Dynamics in Healthcare Units: 4
- MEDS 581 Case Studies in Interprofessional Healthcare Units: 4

**GM Management Track Core**

Management Track students must complete the following 14 units of core course work:

- DSO 582 Service Management: Economics and Operations Units: 3
- GSBA 520 Business Fundamentals for Non-Business Professionals Units: 3, 4
- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 502 Global Epidemiology of Diseases and Risk Factors Units: 4

**Elective Courses**

**GM Clinical Track Electives**

Clinical Track students must complete a minimum of 20 units of elective courses from among the following MEDS electives:

- MEDS 501 Critical Issues in Global Health Units: 4
- MEDS 502 Global Epidemiology of Diseases and Risk Factors Units: 4
- MEDS 510 Global Health Modules, Malaria Units: 2
- MEDS 511 Global Health Modules, Tuberculosis Units: 2
- MEDS 512 Global Health Modules, Maternal and Child Health I Units: 2
- MEDS 513 Global Health Modules, Maternal and Child Health II Units: 2
- MEDS 514 Global Health Modules, Tropical Disease Units: 2
- MEDS 515 Global Health Modules, HIV/AIDS Units: 2
- MEDS 516 Cultural Competence in Health and Medicine Units: 2
- MEDS 517 Health and Human Rights Units: 2
- MEDS 518 Children in Emergency Situations: Global Policies and Programs Units: 2
- MEDS 519 Global Oral Health Units: 2
- MEDS 520 Medical Spanish for the Health Professionals Units: 2
- MEDS 521 Emerging and Re-emerging Infectious Diseases Units: 2
- MEDS 522 Human Hepatitis Viruses Units: 2
- MEDS 523 Global Toxicity and Carcinogenesis Units: 2
- MEDS 524 Grantwriting for Non-Government Organizations Units: 2
- MEDS 525 Global Mental Health Units: 2
- MEDS 526 Alternative and Eastern Medicine: A Biomedical Approach Units: 2
- MEDS 527 Zoonotic Infectious Diseases Units: 2
- MEDS 528 Global Health Modules, Sexually Transmitted Infections Units: 2
- MEDS 529 Refugee Health Care Units: 2
- MEDS 530a Foundation of Medicine: Anatomy, Physiology, and Pathology Units: 4
- MEDS 530b Foundation of Medicine: Anatomy, Physiology, and Pathology Units: 4
- MEDS 531 The Politics of Global Health Units: 2
- MEDS 532 Non-communicable Diseases Units: 2
- MEDS 533 Emerging Cell-based Therapeutics Units: 2
- MEDS 534 Global Biotechnology Entrepreneurship Units: 2

- MEDS 535 Culture, Lifestyle, and Health Units: 2
- MEDS 550 Clinical Medicine and Health Care Reform in Taiwan Units: 2
- MEDS 551 Clinical Medicine and Socioeconomic Factors in Uganda Units: 2
- MEDS 552 Clinical Medicine and Health Care Reform in Jordan Units: 2
- MEDS 553 Clinical Medicine and Health Care Challenges in India Units: 2
- MEDS 554 Clinical Medicine and Healthcare Delivery in Panama Units: 2
- MEDS 555 Clinical Medicine and Healthcare Access in Honduras Units: 2
- MEDS 556 Global Health Field Study, New York Units: 2
- MEDS 557 Clinical Medicine and Healthcare Dynamics in Denmark Units: 2
- MEDS 558 Clinical Medicine and Translational Research in Argentina Units: 2
- MEDS 559 Clinical Medicine and Healthcare Determinants in China Units: 2
- MEDS 560 Innovating in Healthcare in Malaysia Units: 2
- MEDS 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- MEDS 562 Healthcare in Thailand Units: 2
- MEDS 563 Global Healthcare Development and Social Justice in Italy Units: 2
- MEDS 564 Health Behavior and Healthcare in Germany Units: 5
- MEDS 566 Healthcare in Fiji Units: 2
- MEDS 599 Special Topics Units: 2, 3, 4
- MEDS 580 Interprofessional Team Dynamics in Healthcare Units: 4
- MEDS 581 Case Studies in Interprofessional Healthcare Units: 4
- MEDS 567 Global Nutrition Units: 2
- MEDS 568 Global Issues: Aging Units: 2
- MEDS 569 Interdisciplinary Medical Literature Evaluation Units: 2
- MEDS 570 Introduction to Narrative Medicine Units: 2

**GM Entrepreneurship Track Electives**

Entrepreneurship Track students must complete a minimum of 15 units of MEDS electives and 3 units (1 course) from the following:

- BAEP 559 Investing in New Ventures Units: 3
- BAEP 563 Corporate Entrepreneurship Units: 3
- BAEP 591 Social Entrepreneurship Units: 2, 3
- DSO 586 Global Healthcare Operations Management Units: 3
- GSBA 520 Business Fundamentals for Non-Business Professionals Units: 3, 4
- MOR 542 Strategic Issues for Global Business Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3

**GM Interprofessional Health Track Electives**

Interprofessional Health Track students must complete a minimum of 18 MEDS electives.

**GM Management Track Electives**

Management Track students must complete a minimum of 12 units of MEDS electives and 6 units (2 courses) from the following:

- ISE 507 Six Sigma Methods and Applications Units: 3
- ISE 508 Health Care Operations Improvement Units: 3
- MKT 565 Global Marketing Units: 3
- MOR 542 Strategic Issues for Global Business Units: 3
- MOR 569 Negotiation and Deal-Making Units: 3

**Notes:**

*On a case-by-case basis and with pre-approval, GM students may take classes outside their particular group.*
University Certificate

Academic Medicine Certificate

University Certificate Programs

Academic Medicine Certificate

Students who do not wish to pursue a Master of Academic Medicine degree at this point may earn a university certificate in Academic Medicine. The certificate requires 12 units of course work. Each learner may only seek a single certificate. There are two options available, the Teaching/Learning Track and the Leadership Track. The teaching learning track provides graduates with the essential principles of teaching and learning needed to integrate learning principles, teaching techniques and assessment methods within the health professions to effectively teach health professions’ learners at all levels: undergraduate, graduate and continuing education. The leadership track is designed to prepare those in academic medicine for leadership positions, for example assistant/associate dean, program director (including assistant or associate), designated institutional officer and associate or vice chair for education. After completion of the certificate, if a learner decides to go on to pursue a Master of Academic Medicine (MACM) degree all 12 units of the certificate can be applied to the MACM degree.

All students begin with the core course: ACMD 501 (Introduction to Academic Medicine Worldwide, 3 units). Students then take two required courses (6 units) related to their selected track. Each student completes the 12-unit certificate with 3 units of elective course work from the courses available within the Master of Academic Medicine program. All courses should be selected with the approval of the learner’s adviser.

Academic Medicine Certificate (all learners)

All certificate students are required to take the core course.

- ACMD 501 Introduction to Academic Medicine Worldwide Units: 3

Teaching/Learning Track

Students in the Teaching/Learning track must select two of the three courses below (6 units).

- ACMD 511 Competencies in Academic Medicine and Health I Units: 3
- ACMD 512 Competencies in Academic Medicine and Health II Units: 3
- ACMD 513 Professionalism in Academic Medicine and Health Units: 3

Leadership Track

Students in the Leadership track must take the two courses listed below to provide core skills in leadership (6 units).

- ACMD 502 Becoming a Leader in Academic Medicine Worldwide Units: 3
- ACMD 503 Leading Change in Academic Medical Centers Units: 3

Elective

All certificate students are required to take 3 units of elective course work from the courses available within the Master of Academic Medicine program. All courses should be selected with the approval of the learner’s adviser.

Clinical, Biomedical and Translational Investigations Certificate

Students who do not wish to pursue an MS degree may earn a university certificate in clinical, biomedical, and translational investigations. The certificate program requires 12 didactic credits and a minimum of six months (PM 590 Directed Research 3 units) of practical experience working on a research project approved by the faculty mentor and co-directors.

Recommended Core Courses for Each Research Track

Global Medicine Graduate Certificate

The certificate program in global medicine is for students who do not wish to pursue an MS degree in global medicine, but hope to pursue or expand careers in global health care. Students will study current topics in global health and health care, and will have a strong grounding in cultural competence, specific diseases, and creating and implementing health interventions in developing countries.

Students take 16 units of graduate course work that may not be used or have been used for any other degree or certificate program. These units include two core classes and eight units of electives, as follows:

Core Courses

- MEDS 500 Basic Concepts in Global Health Units: 4
- MEDS 502 Global Epidemiology of Diseases and Risk Factors Units: 4

Elective Courses:

Students will take 8 units of electives, chosen in consultation with their adviser, from among all MEDS courses numbered 510 or above. For example, there are groups of courses relevant to women’s and family health; infectious diseases; health care in developing countries; working with diverse populations in the United States, etc.

Health, Technology and Engineering Graduate Certificate

Academic Director: Terry Sanger, MD, PhD, Provost Associate Professor of Biomedical Engineering, Neurology, Biokinesiology, and Physical Therapy

Administrative Director: George Talmohcenko, PhD, Assistant Professor, Neurology

This program offers current second-year USC PhD engineering students and first-year MD students an opportunity to learn about and gain experience in medical device and process innovation. Through project-based and interdisciplinary collaboration, students will augment their current programs with a set of courses and lab experiences linking medical and engineering research groups. By applying design-informed approaches toward problem identification and solution prototyping, students will be involved in all the steps of medical device innovation from conception to commercialization. The program aims to create interdisciplinary, boundary spanning, inventive entrepreneurs seeking early practical experience with device and method innovation in health care. Program participants will form bonds with a group of like-minded medical students and engineers who will be their mentors, colleagues and contacts as they advance in their careers.

The courses unique to the program include a seminar sequence (Topics in Health, Technology and Engineering), which must be taken during the first two years of involvement with the HTE@USC program, a case studies sequence taken during the second year and a research course to earn project-related credits:

Courses

- BME 566a Topics in Health, Technology and Engineering Units: 2
- BME 566b Topics in Health, Technology and Engineering Units: 2
- BME 566c Topics in Health, Technology and Engineering Units: 2
- BME 566d Topics in Health, Technology and Engineering Units: 2
- BME 567a Case Studies in Health, Technology and Engineering Units: 1
- BME 567b Case Studies in Health, Technology and Engineering Units: 1
- 790-Research (in the student’s major department) Units 2-8

Additional Requirements

Other required courses that are part of the MD curriculum (PhD students enroll in INTD course versions of the same courses open only to HTE students on CR/NC basis):

- INTD 621a Introduction to Clinical Medicine (ICM) for THE Units: 3
- INTD 621b Introduction to Clinical Medicine (ICM) for THE Units: 3
• INTD 622L Pre-clinical System Block for Health, Technology and Engineering Units: 3, 4, 5, 6, 7, 8, 9

Note: Candidates interested in applying should contact HTE@usc.edu via email.

Dual Degree
Doctor of Medicine/Master of Business Administration (MD/MBA)

In response to the ongoing reorganization of health care delivery systems, and the growing awareness of the impact of business decisions on health care, the Keck School of Medicine and the USC Marshall School of Business jointly offer an innovative program for individuals seeking knowledge in both medicine and business administration. The program is designed to prepare its graduates to assume leadership in the design and management of health care systems.

The MD/MBA program spans five years. Interested students apply during their second or third year of medical school, and begin required MBA courses following successful completion of the first two or first three years of medical school. The remaining time is devoted to the clinical clerkships of the Keck School of Medicine and completion of graduate business elective courses. At the conclusion of the program, students will have completed 48 units in the Marshall School of Business, including required and elective courses, and four years of courses in the Keck School of Medicine. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units.

First and Second Years: Required medicine courses.

Third or Fourth Year: Required MBA courses and graduate business electives.

Remaining Years: Keck School of Medicine core, selective and elective clerkships and graduate business electives.

Admission Requirements

Students who have a baccalaureate degree from an accredited college or university and have successfully completed at least two years in the Keck School of Medicine will be considered for admission to the Marshall School of Business. Requirements for admission to the regular MBA Program (with the exception of the GMAT) must be fulfilled by the medical student for admission to the Marshall School.

The MD and the MBA degrees are awarded simultaneously upon completion of their requirements by the Keck School of Medicine and the Marshall School of Business.

Doctor of Medicine/Master of Public Health (MD/MPH)

The joint MD/MPH program at the Keck School of Medicine is designed for individuals who envision a medical career that combines public health and medical disciplines. Many individuals entering careers as medical doctors or public health practitioners wish to acquire not only medical practice competencies, but also an understanding of the history, organization, goals and philosophy of public health. The joint MD/MPH program offers a broad-based orientation to public health while the student completes medical school requirements. The Master of Public Health degree provides increased knowledge of and sensitivity to the political, historical, economic and social environments of health promotion and health services delivery.

The MD/MPH program can be completed in four or five years. In the four-year curriculum, students begin the core MPH courses in the summer prior to beginning the first year of the medical school curriculum. Additional MPH coursework is taken in the summer between the first and second years of medical school and during the summer before the beginning of the fourth year of medical school. In the five-year curriculum, students begin the core MPH courses following the successful completion of the first two years of medical school. The last two years of the program are devoted to clinical clerkships of the School of Medicine and to the completion of the elective courses and practicum (field experience) of the MPH program. At the conclusion of the joint degree program, students will have completed 42–46 units in the Master of Public Health program and four years of courses in the Keck School of Medicine.

Applicants must choose the four-year MD/MPH option in the AMCAS primary application. A separate statement of purpose will be required as part of the Keck Secondary Application. For the five-year MD/MPH, students who are enrolled in the Keck School of Medicine must apply to the Master of Public Health program no later than January of their third year. All requirements for admission to the regular MPH program must also be fulfilled by dual degree applicants.

All students in the MD/MPH program must meet course requirements, grade point average requirements and program proficiency requirements of both programs. Students must have a grade point average of 3.0 in the MPH curriculum to meet graduation requirements.

The MD and the MPH degrees are awarded simultaneously upon completion of the Keck School of Medicine and the Master of Public Health program requirements. For more information, contact the MPH Program Office at (323) 442-7257.

Doctor of Medicine/Master of Science, Global Medicine

The dual degree in Doctor of Medicine and Master of Science in Global Medicine will provide medical students with formal education in the field of global health. Students will benefit from a curriculum that supplements and strengthens their medical knowledge with additional expertise in cultural competence, the specific diseases that affect various populations worldwide, and the unique issues respective to practicing medicine in a developing country or in vulnerable, underserved populations domestically.

Requirements

Current enrollment in the Keck School of Medicine MD program and successful completion of at least the first two years of the MD curriculum are required prior to submitting an application to the MS in Global Medicine program for admission to the dual degree program. Students must gain admission to and fulfill the degree requirements for both programs, which include four years of course work for the Doctor of Medicine and 24 units of the MS in Global Medicine (Clinical track only).

For the dual degree with Global Medicine Clinical Track, 24 GM elective units should be successfully completed. The MD and the MS in Global Medicine degrees are awarded simultaneously upon successful completion of both degree requirements.

Program Adaptation

For the dual degree with Global Medicine Clinical Track, there are no Global Medicine core unit requirements. Students enrolled in MD/MSGM dual degree will be eligible to apply 2 GM study-abroad elective units and 2 other GM elective units (except MEDS 503, MEDS 504, MEDS 520, MEDS 524 and MEDS 530a, MEDS 530b, MEDS 530c) toward their MD program elective requirements. GM Management Track electives cannot be applied toward either degree requirements.

Master of Science, Global Medicine/Doctor of Pharmacy (PharmD/MS)

The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

Requirements

Students must gain admission to and fulfill the degree requirements for both programs, which include 138 units for the Doctor of Pharmacy and 24 units for the MS in Global Medicine. Six units of MEDS elective units can be used toward the PharmD elective requirement, and PHRD 503 and PHRD 504 substitute for MEDS 503 and MEDS 504.
Program Adaptation
Because MEDS 503 and MEDS 504, core requirements for the MS in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the PharmD/Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.

Medicine (MD/PhD)
Departments and programs of the University of Southern California and the California Institute of Technology participate in the joint MD/PhD degree program administrated by the USC Graduate School, the Keck School of Medicine and the California Institute of Technology. This program integrates the medical school curriculum with graduate curricula in the basic sciences, to provide a unified course of study leading to both the MD and PhD degrees.

This program is especially designed to prepare highly qualified students for careers in academic medicine and medical research. Formal course work and dissertation research provide the student with in-depth scientific preparation and research experience which enhances the application of basic science information to the diagnosis, treatment and prevention of disease. Conversely, the PhD education becomes more meaningful because of its disease-oriented emphasis.

The curriculum for MD/PhD students differs from that of PhD graduate students in the basic sciences in that the former take medical school courses as well as selected graduate level basic science courses and specific courses designed for MD/PhD students. The integrated training of the MD/PhD program enables students to compress their total academic effort by applying some course work toward the requirements of both degrees. On average, completion of the combined program requires a total of eight years.

The following graduate programs from the Keck School of Medicine participate in the MD/PhD program:
- Cancer Biology and Genomics
- Development, Stem Cells and Regenerative Medicine
- Medical Biology
- Molecular Structure and Signaling
- Biological Sciences/Neurosciences, Molecular and Computational Biology
- Engineering
- Preventive Medicine (Biostatistics, Epidemiology, IPR/Health Behavior, Molecular Epidemiology)

Selected graduate programs from the USC Viterbi School of Engineering and the USC Dornsife College of Letters, Arts and Sciences also participate in the combined degree program.

Time limits for qualifying examinations and other procedures are determined by considering MD/PhD students as medical students for the periods when they are following the medical curriculum and as full-time graduate students during their years of research prior to advancement to the Junior/Senior Continuum.

MD/PhD candidates have the option of pursuing a laboratory experience before beginning the Year I medical curriculum through a laboratory rotation at either USC or the California Institute of Technology. This laboratory experience is strongly encouraged although not required.

During the first two years of their program, MD/PhD students follow the medical school curriculum and gain added exposure to research faculty through a special survey course. Students are guided by the MD/PhD executive committee, which outlines the integration of the graduate program with the medical school curriculum and serves as the students' liaison until they have selected a graduate program and graduate research adviser. The graduate programs vary widely in the extent to which they allow credit toward the PhD for courses taken during the first two years of medical school. MD/PhD students are encouraged to select a graduate program by early spring of the second year of medical school. Students are required to apply for admission to the PhD program of their choice by the recommended deadline on the graduate application.

Prior to entering PhD studies, the Keck School of Medicine allows MD/PhD candidates the option of beginning their clinical training by taking one six-week required clerkship in either Family Medicine or Pediatrics. This can provide an early introduction to clinical medicine and a context for integration with the basic sciences of the thesis years.

Beginning with the third year of the MD/PhD program, students enter their selected program as full-time graduate students. Although the content of graduate courses required of MD/PhD students is generally identical to that required of PhD students in the same graduate program, MD/PhD students are permitted greater latitude in the scheduling of their graduate courses. Four years are commonly necessary to fulfill requirements for the PhD, including course work, qualifying examinations, independent dissertation research, and writing of the dissertation.

After completion of the graduate program, the student is advanced to the Junior/Senior Continuum and completes the final two years of clinical training required by the medical school curriculum. No portion of clinical training is deleted from the joint program. Prior to entering the clinical component of the joint degree, students will be expected to participate in a clinical shadowing experience, which could be done throughout the PhD studies or as part of an intensive program prior to entering the clinic. Students will also be required to participate in the Medical Scholars Program clinical tutoring skills program held in the spring of each year and re-take the Year II Objective Structured Clinical Examination at the end of May with the second year medical students.

Keck School of Medicine-Caltech MD/PhD Program
A joint program between the Keck School of Medicine and the California Institute of Technology (Caltech) was established for the granting of the MD/PhD degree. Students do their preclinical and clinical work at the Keck School of Medicine and their PhD work with any member of the Caltech faculty, including the biology, chemistry, engineering, applied sciences divisions and interdisciplinary programs divisions.

Admission to this joint program is made through the usual Keck/USC MD/PhD process. All applicants are interviewed at Keck School of Medicine and Caltech. Matriculated students in this program have the option of doing their PhD at USC or Caltech. The MD degree will be awarded from the Keck School of Medicine and the PhD from Caltech.

Further information about the MD/PhD program at the Keck School of Medicine may be obtained by contacting: MD/PhD Program, Keck School of Medicine, 1975 Zonal Avenue (KAM 200), Los Angeles, CA 90089-9023; (323) 442-2965, FAX: (323) 442-2318; email mdphdpgrm@med.usc.edu.

Doctoral Degree
Medicine (MD)
The Keck School of Medicine awards the Doctor of Medicine to enrolled students who have satisfactorily completed the four-year curriculum of the school. This curriculum integrates instruction in all departments of the school. Department of Anesthesiology, Department of Biochemistry and Molecular Biology, Department of Cell and Neurobiology, Department of Dermatology, Department of Emergency Medicine, Department of Family Medicine, Department of Medical Education, Department of Medicine, Department of Molecular Microbiology and Immunology, Department of Neurological Surgery, Department of Neurology, Department of Obstetrics and Gynecology, Department of Ophthalmology, Department of Orthopaedics, Department of Otalaryngology—Head and Neck Surgery, Department of Pathology, Department of Pediatrics, Department of Physiology and Biophysics, Department of Preventive Medicine, Department of Psychiatry and the Behavioral Sciences, Department of Radiation Oncology, Department of Radiology, Department of Stem Cell Biology and Regenerative Medicine, Department of Surgery and Department of Urology.

The sections that follow provide a synopsis of the emphases and organization of this four-year curriculum.

Years I–II (two academic years)
The curriculum is designed to enhance the students’ understanding...
of the basic sciences and their relevance to clinical medicine. The methodology used will improve students' problem-solving and independent study skills. Curriculum themes are delivered in a case-centered format with the integration of small-group learning sessions, directed independent study and newer instructional technologies will begin in the first and second years. Students also take Clinical Translational Research (CTR), Evidence Based Medicine (EBM), Introduction to Clinical Medicine (ICM) and Professionalism and the Practice of Medicine (PPM).

Each week of the academic year is composed of approximately 20 hours of lecture and small group sessions with an additional 20 hours of independent directed study, CTR, EBM, ICM and PPM. Examinations in all systems throughout the first two years are graded Pass/Fail.

Foundations of Medical Sciences (FMS)

This 19-week introductory system provides the student with the fundamental knowledge necessary for the integrated study of the basic and clinical sciences in the human organ systems. Foundations of Medical Sciences is divided into three sections: FMS I, II and III. The overarching goal for these sections is the use of knowledge of medical science to describe basic concepts relating to the structure and function of the human body in normal and diseased states, and thus, provide a foundation for comprehending the disease-specific concepts required to achieve the case-based objectives in subsequent organ systems.

Gross Anatomy

Cadaver dissection remains a unique teaching tool by which the three dimensional organization of the human body is studied. Gross Anatomy will begin in the Core Principles of health and disease system with the dissection of the body wall and major body cavities followed by head and neck dissection in the neurosciences system, limbs, dissection during the musculoskeletal system and pelvic cavity dissection in reproduction system. Continued study of gross anatomy by use of prosected anatomical specimens as well as computer programs, selected review lectures, and so on, continues throughout the integrated organ systems.

Introduction to Clinical Medicine (ICM)

ICM expresses the strongly patient-centered orientation of the medical school curriculum. The student is introduced to patients and is involved in patient care activities from day one. Students are introduced to the principles of patient care and management and examine what it means to be a physician and how one becomes a physician.

The major content areas of the course include communication in the setting of illness, the unified concept of health and disease (the biopsychosocial model), basic clinical skills and the correlation of basic science with clinical medicine.

ICM emphasizes the systematic acquisition of the clinical skills of interviewing, history taking, physical examination, elementary clinical problem solving and medical record keeping. Throughout the Year I-II continuum, the ICM clinical skills curriculum is integrated with basic science instruction. Students can therefore learn and apply basic science knowledge in the clinical setting. By encouraging a thorough understanding of the direct applications of basic science research to modern clinical medicine, instructors motivate the student to learn, use and retain more of the content and concepts presented in the basic science portions of the curriculum.

A group of five or six students spends from four to eight hours each week with an instructor from the clinical faculty who remains with the group for one to two years. As the group deals with basic medical themes (death, pain and helplessness) and issues (patient responsibility, learning to live with ambiguity and uncertainty), instructors help students to cope with their own feelings. This format opens the door for student-faculty interaction and improvement of student-faculty communication.

Instructors encourage students to take advantage of the learning experiences provided by their roles as helping and therapeutic persons. Students develop their ability to communicate with patients in the setting of illness and are guided by patient concerns to enhance their own growing knowledge, skills, abilities and responsibilities. Students are expected to acquire skills and habits of self-education and self-instruction that will prepare them for lifelong learning.

The unified concept of health and disease presented in this course enables students to comprehend the human organism in all its complexity. Using their clinical experiences as a teaching model, students are taught to consider the patient as an integrated whole and to view the patient's illness or disease as more than simply a disruption of physiologic processes or a collection of physical findings.

Additional learning experiences occur through workshops and focus experiences. ICM workshops provide standardized instruction in history taking and physical examination, as well as integrated instruction in areas that cross disciplines. These include physician well-being, substance abuse, domestic violence, and ethics. Through focus experiences, students are encouraged to explore a variety of practice environments as well as community-based health and social services. For example, students may visit outpatient clinical settings, a long term care facility, a hospice care facility or homeless services organizations.

Professionalism and the Practice of Medicine (PPM)

The purpose of the PPM course is to create a community and social context to provide, identify and facilitate learning from professional role models for students throughout the first two years of the medical school curriculum, as well as to help students gain skills and competence in the areas of communication, the social and community context of health care, ethical judgment, self-awareness and reflection, self-care and personal growth, professionalism, cultural competence, and lifelong learning. The curriculum is dynamic and interactive, allowing for much small-group discussion and participation. Students are encouraged to work collaboratively and enhance small-group skills, in order to improve their participation in Introduction to Clinical Medicine (ICM), Gross Anatomy, MDL laboratories and large-group sessions, as well as to prepare them for the team work of their clinical years.

The PPM course sessions meet on Monday afternoons, typically for two hours per session. The students meet in groups with two faculty members, who serve as their mentors throughout the first year of their pre-clinical education; at least one mentor is a clinician. The clinical faculty comes from multiple disciplines within Keck and the local community. While the course features large lectures, there is a great emphasis on small-group learning acquired from community leaders, faculty-mentored small-group discussions, student presentations and student-led sessions.

The students participate in a core curriculum in Year I, which includes general topics such as cultural competence, ethics, health care policy and finance, professionalism, and empathy. In Year II, the students are allowed to select from nine different areas of interest (selectives), and meet in groups with faculty having expertise in the given area. Examples of selectives presented include advanced ethics, medicine and the mind, spirituality and medicine, medical arts and humanities, global health, complementary and alternative medicine, medicine's intersection with technology, physicians operating outside their comfort zones, and the future of health care.

The PPM course provides students with an opportunity to build a professional identity, develop relationships with faculty mentors, and increase team-building and community-building skills. Students receive an introduction to the concepts of professionalism and ethics, with a better understanding of their real-world implications. The PPM course encourages leadership while engaging in the process of learning, characterized by presentations within both small and large groups, as well as professional development through exposure to multiple professional, ethical, and cross-cultural scenarios, cases, and providers. Evaluation is provided through student submission of portfolios containing written self-reflections, responses to faculty and peer feedback, and evaluations completed over the course of a
two-year longitudinal curriculum. Finally, PPM hones sensitivity and skills relevant to medical professionalism to better prepare students for their transition into the clinical years of the medical school curriculum.

**Clinical Translational Research**

This course, a series of on-line lectures accompanied by small group discussion sessions, is intended to introduce students to the methods of clinical and translation research (CTR) and prepare them for carrying out research as medical students. Students are required to complete a Required Scholarly Project (RSP) and this course will provide students with the basic skills and competencies needed to plan, conduct, and complete their RSP. Regardless of a student's future career path, the practice of medicine will be driven by the findings of CTR. Rapid advances in basic sciences, driven to new technologies such as genomics, have brought exciting new possibilities for identifying people at risk for disease, for identifying disease in its earliest stages, and in targeting therapies on an individual basis. On the verge of a new era of "personalized medicine", healthcare provision is driven by what is known about the characteristics of each individual and of the diseases that they may have.

CTR represents the research approach for moving from basic discovery in the laboratory to application in individual patients and in making populations healthier. Medical researchers have long carried out patient-oriented or clinical research. The term CTR is more recent, coming into use over the last decade in recognition of the research continuum from basic discovery in the laboratory to application in patients and on to populations. One problem in bringing discoveries into practice has been a gap between the work of laboratory researchers and clinical investigators; CTR bridges that gap.

**Evidence Based Medicine (EBM)**

Evidence-based medicine (EBM) is the clear, conscientious, and prudent use of current best evidence in making patient care decisions. Evidence-based guidelines are considered to be the basis for decision-making in clinical practice, guiding screening, diagnosis and treatment. In a new era of health care reform, EBM will likely be given even greater weight and outcomes are tracked carefully in order to evaluate the effectiveness of guideline-driven care.

Evidence-based practice is primarily based on five well defined steps: 1) Asking Focused Questions: translation of uncertainty to an answerable question; 2) Finding the Evidence: systematic retrieval of best evidence available; 3) Critical Appraisal: testing evidence for validity, clinical relevance, and applicability; 4) Making a Decision: application of results in practice; and, 5) Evaluating Performance: auditing evidence-based decisions.

EBM foundational material is taught during Foundations of Medical Sciences I as part of the biostatistics and epidemiology curriculum. Along with the clinical and translational research series during the first year of medical school, this information lays the foundation for the EBM curriculum during the remaining years of instruction.

**Organ System Review**

A sequence of study presenting integrated basic and clinical science instruction involving human organ systems — skin, hematology and clinical immunology, neurosciences, musculoskeletal, cardiovascular, renal, respiratory, endocrine/metabolism, reproduction, gastrointestinal/liver — follows Foundations of Medical Sciences.

**Integrated Case Study**

This section completes the second year of the Year I–II continuum and emphasizes patient-centered problems that integrate the basic and clinical science presented in the preceding organ systems. Students will explore the multi-organ effects of disease processes and reinforce diagnostic reasoning skills. In addition, concepts of pathophysiology, evaluation and management that can be applied to any organ system will be included. This section will also reinforce the appropriate use of medical information resources, effective self-directed learning skills, and interpersonal and group communication skills.

Separate review sessions of the important basic science and clinical concepts covered during the previous two years also occur during this seven-week section. These sessions will assist students in preparing to take Step I of the United States Medical Licensing Examination (USMLE).

By early spring of the second year of the Year I–II continuum, students are expected to select their academic clinical advisers and to begin arranging the schedule of clerkships to be taken during Year III–IV. By the end of the fall semester, Year II, each student receives information that describes the curriculum requirements of Year III–IV. Students choose the area of medical practice that they are most likely to pursue and an adviser is assigned from that discipline. The adviser counsels the student on clerkships and opportunities in graduate medical education.

**Required Scholarly Project**

The Required Scholarly Project (RSP) is designed to provide medical students with the opportunity to become engaged in hypothesis-driven research to promote analytical thinking skills and ultimately, physician leaders. The aim of the RSP is to expose students to the process of scientific inquiry, teaching them how to formulate an answerable question and the requisite methodology in seeking appropriate answers. Each student undertakes a faculty mentored research project in a discipline of his or her choice. Viable disciplines encompass a wide spectrum to include: biomedical research, from discovery to application, and health care, i.e., basic science, clinical, educational, behavioral science, health services, community and epidemiological activities. The RSP is interwoven with the curriculum, which includes didactic instruction on topics such as study design and biostatistics. The RSP is a longitudinal experience throughout all four years of medical school, with successful completion being required for graduation. Students with projects deemed meritorious by the RSP steering committee will receive "Distinction in Research" recognition at graduation.

**Year III–IV (two academic years)**

The final two years of medical school are designed as a continuum of two calendar years, beginning in July at the end of Year II. During the spring of their second year, students schedule clerkship rotations to be taken during the two years. Each student's program is designed with the assistance of faculty advisers and includes 50 weeks of required clerkships, 16 weeks of elective clerkships and 16 weeks of elective clerkships.

All degree candidates are required to take Step I of the United States Medical Licensing Examination (USMLE) prior to entering Year III or within six months of completion of Year II (whichever comes first). Students must pass Step I, II CK and CS of the USMLE as a graduation requirement.

During Year III–IV, each student may schedule up to 14 weeks of discretionary time for personal convenience, remedial work, funded research work and other non-curricular activities, such as investigating postgraduate training programs. Although every effort is made to provide flexibility in the scheduling of each student's program, some inherent limitations are imposed by the maximum enrollment permitted for each clerkship. Students are a vital part of the university's medical team, which provides health care for patients throughout the year. Vacations are therefore subject to some scheduling adjustments.

**Required Clerkships**

- Family Medicine 6 weeks
- General Surgery 6 weeks
- Surgical Subspecialty 4 weeks
- Internal Medicine 6 weeks
- Internal Medicine Sub-internship 4 weeks
- Neurology 4 weeks
- Obstetrics and Gynecology 6 weeks
- Pediatrics 6 weeks
- Psychiatry 6 weeks
- Intersession 2 weeks (two, one-week sessions)
Intersession I and II

The Intersession curriculum is two, one-week sessions established for Year III students that will enable learners to pause, reflect and consolidate the many and varied clinical experiences that they encounter in their third year of medical school; to promote advanced clinical skills, professional development, health policy formulation and ethical decision-making, and patient safety; and to further prepare for the residency application process.

This individualized curriculum will allow students to revisit and focus basic-science topics through the prism of newly learned clinical material and to foster capacity for the analysis and formulation of health care policy in light of the political, economic, legal and social, and ethical dimensions of health care.

Students will be instructed in a systems-based approach to patient safety by stimulating the imagination, curiosity and skills of close observation and careful interpretation through engagement with the arts and humanities. Developing and building advanced clinical skills by acquiring, appraising and applying evidence in the context of individual patient decision-making, (i.e., Evidence Based Medicine) are two important goals of the Intersession curriculum.

Providing comprehensive, coordinated and consistent career advising along with fostering the continuing professional development of the learners in the frame of clinical practice are key components. Finally, the curriculum will provide ongoing instruction in the provision of culturally competent care and prepare learners for their required community project.

Selective Clerkships

Students are required to schedule 16 weeks of selective clerkships, chosen from a list of four-week clerkships approved by the Clinical Curriculum Committee. Selective clerkships are carried out at USC-affiliated hospitals and encompass virtually all specialty areas. Information is available at medweb.usc.edu.

Elective Clerkship

The elective period consists of 16 weeks, during which electives may be taken on campus, at USC-affiliated hospitals or at more distant medical schools or medical centers. Approved on-campus electives that are offered regularly are listed in the elective catalogue.

Proposals for other on-campus and off-campus electives are reviewed individually by a faculty adviser. All petitions must be submitted at least six weeks before the beginning of the rotation. Off-campus electives require documentation from the off-campus preceptor, endorsement of the student’s medical school adviser, and prior approval and review by the Clinical Curriculum Committee. Credit is not given for electives until an evaluation has been received from the preceptor. Students with an academic deficiency may not schedule off-campus electives.

Business of Medicine (BOM)

This course, designed for Year III medical students, will introduce students to the fundamentals of the business of medicine, including the nuts and bolts of medical business, practice management and law, physician leadership, health care finance, and health care quality and costs. The BOM course will be case-based and interactive, and facilitated by leaders in the fields of health care business and management.

Program in Medical Humanities, Arts and Ethics

This four-year curriculum begins with collaborative discourse about ethical problems to help students learn to identify, analyze and resolve clinical ethical problems. This exercise is followed by interim skill building/maintenance and by instructor-facilitated discussion of videotaped ethics cases.

In Year II, the program focuses on ethical discernment and action in simulated settings and the study of the human dimensions of medicine. Standardized patients interact with students to help teach the telling of bad news, and students also learn from the humanities about patients as persons. The program concludes with a forum theatre in which students must decide what action to take based on their own convictions.

Year III is devoted to ethics education by clinical role models and encompasses instruction in the core clerkship by ethical standard-bearers. Students also participate in home hospice care and pain management cases.

During Intersession, the program includes a series of sessions that focus on contemporary health care and the physician-in-society. The goal of the sessions is to provide students with the experience of integrating the principles, methods and bedside issues included in Years I–III of the program. Students practice applying the micro-level (individual/clinical) decisions to the ethical dilemmas and policy issues that face physicians at the mezzo-level (health care organizations), and to the macro-level (profession as a whole, state and nation). Topics include issues of professionalism; allocation of resources; the economics, organization and societal oversight of health care; and the care of dying patients.

Fifth-year Research Option and Dean’s Scholars

USC offers students the opportunity to take a full year of research experience with either a Keck School of Medicine faculty mentor or an approved faculty mentor at another institution. This program is open to any student in good academic standing who has completed his or her first year of medical school. Students interested in the option should identify a faculty preceptor and present a description of the proposed research program and funds available in support of the program to the director of the fifth-year research option.

Application for this program is made through the Office for Student Affairs (KAM 100B) and will be supervised through the Office of the Senior Associate Dean for Student Affairs and Educational Affairs (KAM 100D). A stipend, comparable to that received by a graduate student at the postgraduate level, is available for selected dean’s research scholars pursuing this option.

PhD Programs in Biomedical and Biological Sciences (PIBBS)

pibbs.usc.edu

Program Director: Iie Laird-Offringa, PhD

The USC PhD Programs in Biomedical and Biological Sciences (PIBBS) is a gateway program into graduate studies at the USC Health Sciences Campus, leading to a PhD degree in a broad range of biomedical and biological disciplines.

PIBBS students experience a common first-year curriculum that will build a solid foundation in biomedical and biological sciences. Students are required to complete 25 units of core classes during the fall, spring and summer semesters of the PIBBS year, including courses in cell biology, molecular biology, human genetics and genomics, biostatistics, bioethics and scientific writing. Students will also complete three research rotations during the first year.

At the end of the spring semester of the first year, students will select a faculty adviser and a specific PhD program from among the four participating programs listed. In the second year, students will take classes that will differ depending on the PhD program they join; second year classes may include, but are not limited to, topics such as biochemistry, epidemiology, stem cell biology, molecular genetics, cancer, human genomics, immunology and physiology. In addition, each student will complete qualifying examinations for the chosen PhD program and will develop and complete an original research project that will serve as the basis for a doctoral dissertation.

PhD Graduate Programs

Cancer Biology and Genomics
Development, Stem Cells, and Regenerative Medicine
Medical Biology
Medical Biophysics
Molecular Structure and Signaling

PIBBS Admission Requirements

Application Deadline (priority review): December 1

Applicants to PIBBS should have a baccalaureate degree in natural sciences, or sufficient courses in mathematics and the life sciences. This is required to provide a strong background for studies in biomedical and biological research. Appropriate undergraduate degrees include biology, physiology, engineering, chemistry or computer science.

Applicants should have a strong record of academic achievement and satisfactory performance on the general and advanced portions of the GRE. Other requirements for admission include: a detailed statement of purpose as well as three letters of recommendation, one of which should be from a wet laboratory or computational research mentor. Previous research experience is expected. Students are admitted for the academic year in the fall semester. Applicants who are accepted with minor deficiencies are expected to correct these during the first year following enrollment. Although there is no formal application deadline, complete applications received by December 1 will be given priority.

Financial Support

Admitted students are supported by research assistantships or fellowships during their graduate career. Tuition, health insurance and health fees are also covered.

Lab Rotations

During the first year, students register for INTD 790 Research (4 units in the fall semester and 3 units in the spring semester) and rotate through the labs of three faculty members of the program (potential research advisers). By the first summer of graduate study, but no later than after 12 months in the program, each student is expected to have selected a faculty mentor/research adviser.

PIBBS Required Core Curriculum and Research

See PIBBS Required Core Curriculum and Research

Admission Requirements for PhD Programs

Admission to the Keck School of Medicine PhD program is open to all incoming PIBBS students provided all PIBBS admission requirements are met and all first year course and lab rotation requirements have been satisfactorily completed. Students from other sources, such as MD/PhD students and clinician scientists, may also be eligible on a case-by-case basis.

In general, new graduate students apply for admission to USC through the PhD programs in Biomedical and Biological Sciences (PIBBS), and become enrolled in one of four PhD programs at the Keck School of Medicine after the successful completion of the PIBBS year. During the PIBBS year, students must complete the core curriculum of 25 units, maintain a 3.0 grade point average with no grade lower than a C on all courses and must complete three laboratory rotations in order to continue into a PhD program.

Application information is available by contacting the PIBBS Program at pibbs@usc.edu.

Unit/Course Requirements

A minimum of 60 units of graduate course credits is required for the PhD, including course work, seminars, research and dissertation units. No more than 8 units of 794 may be applied toward the PhD degree. Students must complete the first year PIBBS core curriculum as well as course requirements for their specific PhD program. Thirty units of course work, including the PIBBS core curriculum, must be completed before they are considered for the qualifying examination. Additional course work relevant to the research interests of the student may be required by the student's qualifying exam committee or by the student's faculty adviser.

Guidance Committee

After 30 units of course work, which includes the PIBBS core curriculum and course requirements for one of the four PhD programs, the student, in consultation with his/her faculty adviser, will nominate five faculty members to serve on the guidance committee for the qualifying examination. A minimum of three of the faculty must be from the student's PhD program, and one must be a faculty member from outside the PhD program. The chair of the guidance committee must be a member of the student's PhD program and the faculty adviser is not allowed to be on the committee (but may be a silent presence during the exam). These nominations are submitted to the chair of the program for formal appointment.

Qualifying Examination

Students in the PhD program must pass both the written screening and the oral portions of the qualifying examination administered by their guidance committee during the second year of graduate study. The written screening exam involves writing a research grant proposal. The deadline for completion of the written screening is January 5 of the second year. Students who receive a failing score will be allowed one resubmission, with a deadline of April 5 of the same year. The written portion must be passed before the oral portion can be taken.

The oral examination must be completed no later than September 1 of the beginning of the third year and only after successful completion of the written screening exam. The oral examination consists of two parts. The first part consists of a presentation of the proposed thesis research. The second part consists of an open forum in which the guidance committee asks general questions on any topic related to the student's research.

Final evaluation of the examination is determined by a consensus of the guidance committee. If a student fails, it is at the discretion of the committee to allow the student to repeat the oral examination within 60 days. A second failure will be grounds for dismissal from the program.

Advancement to Candidacy

Recommendation for advancement to candidacy for the PhD degree is made on the basis of the successful completion of the qualifying examination, course requirements and the student's maintenance of at least a 3.0 GPA. A student who has not been recommended for advancement to candidacy at the end of the first semester of the third year will be dismissed from the program.

Annual Research Appraisal (ARA)

After advancing to candidacy, each graduate student presents a progress report to his or her dissertation research committee. Prior to the meeting, the student prepares a short written document describing significant experiments, problems and projected studies. This document is distributed to the committee and is included in the student's file. The ARA meeting is intended to be a working session between the student and his or her committee; experimental results and problems are discussed with this context. In addition the student presents a research plan for the next year of work. A satisfactory ARA is required of every student for each year of residence after the completion of the qualifying exam. A final ARA is required the semester before the student is permitted to defend the dissertation.

Dissertation Committee

After advancement to candidacy, the student must form a dissertation committee, in consultation with their faculty adviser. A minimum of three committee members must be selected, one of which is the faculty adviser, and at least one of which must be a tenured or tenure-track faculty member of the student's PhD program. One committee member may be non-tenure track. The chair of the dissertation committee must be a member of the student's PhD program and may not be the faculty adviser. The dissertation committee is responsible for counseling the student during preparation of the dissertation and conducting the final oral examination during the dissertation defense. Students are expected to meet with the dissertation committee once per year to discuss progress.

Dissertation committee members are expected to read and comment on a dissertation within two weeks from its submission. The student and faculty will coordinate a timeline for the student to present the thesis to the dissertation committee. This timeline must
allow all dissertation committee members enough time to fulfill their responsibilities within the four-week deadline.

Dissertation and Oral Defense

The student's research is reported in a dissertation written under the guidance of the dissertation committee. The dissertation must demonstrate the student's capacity for independent research, scholarly achievement and technical mastery of a special field. Students should have at least one first author publication accepted in a peer reviewed journal before the defense.

When the final draft of the dissertation is ready, the student will take the final oral defense. Students must submit their dissertation to the dissertation committee at least one month before the student expects to make final revisions; committee members are expected to respond within two weeks.

The dissertation defense is a formal public presentation of the student's research before the program faculty and students. Dissertation defenses must be publicized at least two weeks prior to the oral defense.

All doctoral candidates must be registered in 794 Doctoral Dissertation each semester (excluding summer sessions) from the time of their advancement to candidacy until their dissertation is approved and submitted to the Graduate School.

Doctoral Degree

Cancer Biology and Genomics (PhD)

The PhD program in Cancer Biology and Genomics (CBG) focuses on training investigators in strategies to understand the mechanisms of cancer development and progression which includes cell biological and genomic approaches. The ultimate objective is to translate basic findings into diagnostics, treatments and ultimate cures. The program applies a multidisciplinary approach toward these goals, with the full realization that cancers in different organs represent different diseases. However all cancers relate to uncontrolled cell proliferation with many cancers having a strong genetic predisposition. Consequently, major features of this program include the breadth of medically related interests and training and faculty characterized by wide and varied skills in many cancer-related research areas. To facilitate the application of multidisciplinary approaches to make cancer a disease of the past, close and regular contact between participating faculty of different disciplines and students is a major theme of this PhD program.

Cancer Biology and Genomics students are required to take CBG 580 and CBG 504 and must complete a total of 4 units from the following: INTD 549, INTD 685, MPTX 500, PM 512, PM 517a, PM 517b, PM 533*, PM 534*, PM 570*, PM 579, PM 599 or other courses approved by the academic adviser. In the second year, students are required to register for CBG 580 in the fall and spring semesters. In the third and subsequent years, students should register for INTD 600 every fall and spring semester. In addition, students are required to complete at least 4 units of CBG 794a Doctoral Dissertation, CBG 794b Doctoral Dissertation.

PhD students must supplement course work by registering for CBG 790 Research during the fall, spring, and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Cancer Biology and Genomic, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation oral defense as outlined in the sections following the descriptions of the PhD programs.

Course requires prerequisite.

Development, Stem Cells, and Regenerative Medicine (PhD)

The goal of the PhD program in Development, Stem Cells, and Regenerative Medicine is to train the next generation of investigators in the history and practice of developmental and stem cell biology. The ultimate aim is to understand how the genomes of animals are translated into complex morphological forms, and to apply this basic knowledge to the emerging field of regenerative medicine. Close and regular contact between participating faculty of different disciplines and students is expected to facilitate the application of multidisciplinary approaches toward regenerative medicine.

Development, Stem Cells, and Regenerative Medicine students are required to complete DSR 542 and at least 2 units from the following: DSR 610, DSR 620, INTD 504 or other courses approved by the faculty adviser. In the second and subsequent years, students are required to register in DSR 574 every fall and spring semester. In addition, students are required to complete at least 4 units of DSR 794a Doctoral Dissertation, DSR 794b Doctoral Dissertation.

PhD students must supplement course work by registering for DSR 790 Research during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Development, Stem Cells, and Regenerative Medicine, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Medical Biology (PhD)

The objective of the PhD program in Medical Biology (MEDB) is to educate investigators to develop strategies to translate and implement knowledge from cellular, molecular and genetic advances into studies of normal human organ system function as well as mechanisms of human organ system dysfunction in disease and how to reverse this dysfunction by medical treatment. Animal disease models as well as clinical trials in patients are frequently used to advance this field.

The program applies multidisciplinary approaches to understanding the human organism as a whole. Breadth of medically related interests and training are major features of this track and wide and varied skills in many research areas characterize the faculty. To facilitate application of multidisciplinary approaches, close and regular contact between participating faculty and students is a major theme of this PhD program.

The MEDB program caters to MD/PhD students, clinician scientists and PIBBS students interested in but not limited to the following fields: immunology (including cancer immunology), virology (including cancer virology), microbiology, physiology and pathology (for example: diabetes, obesity, autoimmunity, infectious diseases, gastro-intestinal and liver diseases, heart and lung diseases, hypertension, central nervous system diseases, etc.)

Medical Biology students are required to complete 8 units from the following courses: INTD 504, INTD 522, INTD 549, INTD 550, INTD 551, INTD 572, INTD 573 or other courses approved by the faculty adviser. In the second and subsequent years, students are required to register in INTD 574 every fall and spring semester. In addition, students are required to complete at least 4 units of MEDB 794a Doctoral Dissertation, MEDB 794b Doctoral Dissertation.

PhD students must supplement course work by registering for MEDB 790 Research during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Medical Biology, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation oral defense as outlined in the sections following the descriptions of the PhD programs.

Medical Biophysics (PhD)

The goal of the PhD program in Medical Biophysics (MBPH) is to train the next generation of structural biologists and biophysicists to a) be very familiar with the basic chemical and physical principles important in every living organism, b) be proficient with the theoretical and practical aspects of the of important experimental and theoretical biophysical methods, c) to be able to apply these
methods to answer fundamental biomedical questions, d) to become responsible investigators eager to translate their findings. The program includes all aspects of biophysics, with an emphasis on structural biology and on application of biophysical methods and theories to answer important biomedical questions.

The MBPH program is an inter-campus program that includes faculty from all over USC who not only have active biophysical research programs and serve as mentors, but also contribute to courses offered by the program. In addition, a monthly biophysics seminar series with presentations from USC and outside faculty will expose the students to current biophysical research. As the result, the MBPH program will teach a comprehensive overview about all aspects of biophysics including hands-on training in many biophysical methods. Consequently, students will obtain practical and theoretical knowledge as well as the necessary overview to be able to complete a successful thesis.

Medical Biophysics students are required to complete BIOC 522, CHEM 521 and one of the following courses: CHEM 488, CHEM 544, CHEM 565, CHEM 625, PSCI 557, PSCI 664, PSCI 665 or other courses approved by the faculty adviser. In the second and subsequent years, students are required to register in INTD 600 every fall and spring semester. In addition, students are required to complete at least 4 units of MBPH 794a Doctoral Dissertation, MBPH 794b Doctoral Dissertation.

PhD students must supplement course work by registering for MBPH 790 Research during the fall, spring and summer semesters as needed to complete the minimum 60 units required for the PhD program.

As part of the requirements for the PhD degree in Medical Biophysics, students must adhere to the unit/course requirements, guidance committee and dissertation committee guidelines and must complete the qualifying examination, annual research appraisal, and dissertation and oral defense as outlined in the sections following the descriptions of the PhD programs.

Department of Anesthesiology

Nurse Anesthesia Program
Doctor of Nurse Anesthesia Practice (DNAP)
Note: The MS in nurse anesthesia option is no longer accepting students. The MS option will end in August 2018.

Program Director: Michele E. Gold, PhD
Associate Program Directors: Teresa Norris, EdD; Kären Embrey, EdD
Administrative Faculty: Jeffrey Darna, DNP; Judith Franco, EdD; Charles Griffiths, PhD; Erica McCall, MS

Faculty
Chair and Professor: Holly Muir

Professors of Clinical Anesthesiology: Jack Berger; Mary Joseph; Michele Gold; Gligor Guecev; Steven Haddy; Philip Lumb; Carol Peden; Steven Richieimer; Duraiyah Thangathurai; Vladimir Zelman
Associate Professors of Clinical Anesthesiology: Dimiter Arnaudov; Eugenia Aryan; Armed Darwish; Tara Humphrey; Sherif Kandil; Jeffrey Lee; Rana Movahedi; Rajesh Patel; Peter Roffey; Ashraf Sedra; Earl Strum; Fayeza Takla; Joshua Tobin
Assistant Professors of Clinical Anesthesiology: Russel Alexander; Susan Alvarez; Rudolf Amaya; Tawfik Ayoub; Jason Bang; Maxim Benbassat; Janak Chandrasoma; Isaac Chu; Connie Chung; Kari Cole; Kären Embrey; Talin Evazany; Judith Franco; Sarah Giron; Emily Goldenberg; Assem Hemmed; Roughbeh Jahansouz; Wayne Kaufman; Michael Kerns; Rafat Khan; Michael Kim; John Lee; Rodney McKeever; Mojgan Moallempour; Arash Motomedi; Joshua Ng; Chuc NGuyen; Teresa Norris; Ellen Park; Linda Rever; Shawn Rooftan; Angele Ryan; Hanna Schittek; Mandeep Singh; Samy Soliman; Shihab Sugeir; Candace Tay; Amy Thomas; Michael Tom; Puja Trivedi; Chelsia Varner

Instructors of Clinical Anesthesiology: Rosella Avery; Deborah Avnet; Elizabeth Bambose; Brindusa Bauer; Colin Bell; Paula Belson; James Carey; Jennilyn Casalme; Adrian Castro; Melissa Dowling; Geoff Edwards; Kevin Faustino; Kristina Ferreira; Jacquelyn Fillingham; Jessica Frazier; Charlotte Garcia; Katharine Getz; Dolores Gibbs; David Godden; Jennifer Hogan; Dina Hunt; Monique Jabbour; Ronald Jarvina; Kelsey Johnson; Kim Jones-Tang; Andrea Kaeck; Rory Keenan; Alla Kryukova; Vadim Kuraev; Dorothy Lim; Benjamin Lindsey; Jennifer Loshonkohl; Victoria McGinzie; Cameron Meyer; Cathy Ngo; Aileen Nguyen; Arthur Norcliffe; Michelle Olives; Margaret Oliveto; Robert Olsen; Patricia Omoto; Nilu Patel; Nancy Perez; Erin Peters; Gabriel Punsalan; Seth Quiambao; Dhania Renjith; Sara Rondinone; Joseph Sammut; Susan Shenkosky; Michelle Smith; Tahira Smith; Helen Stepan; Crystal Trinison; Amanda Tucker; Regalado Valerio; Rhona Wang; Annie Wiliam; Kelly Zhou

The nurse anesthesia program prepares qualified nurses in the professional doctorate of nurse anesthesia and qualifies the graduate to sit for the certification examination given by the National Board of Certification and Recertification of Nurse Anesthetists. The graduate attains a high level of clinical competence with an extensive body of didactic knowledge relevant to the specialty and advanced practice nursing. The mission of the USC Program of Nurse Anesthesia is scholarly education and professional development of future nurse anesthetists with the academic strength and leadership skills to advance our profession.

Students enrolling in the Doctor of Nurse Anesthesia Practice (DNAP) course of study must complete the nurse anesthesia core curriculum and specialty practicum. The program consists of 72 units and is completed in 36 months of continuous enrollment (nine semesters; the first semester courses (7 units) are provided in a hybrid online platform). The USC Program of Nurse Anesthesia has received accreditation through 2019 by the Council on Accreditation (COA) of Nurse Anesthesia Educational Programs and continues its commitment to excellence in the education of its graduate students.

The program is based in the Department of Anesthesiology, and classroom instruction is provided by nurse anesthesia program faculty and faculty from the Department of Anesthesiology, the Department of Physiology and Biophysics, and the Department of Cell and Neurobiology within the Keck School of Medicine, as well as clinical faculty from the program clinical sites. Clinical training occurs at Los Angeles County + USC Medical Center, Keck Hospital of USC, Harbor-UCLA Medical Center, UCLA-Santa Monica Medical Center, Arrowhead Regional Medical Center, Long Beach Veterans' Administration Medical Center and West Los Angeles Veterans' Administration Medical Center for the primary rotations. Advanced rotations occur at those sites, as well as Cedars-Sinai Medical Center, Children's Hospital of Los Angeles, UCLA Medical Center and Northridge/Hallmark Pain Management and Surgery Center.

Faculty
Information for individual faculty: painmed.usc.edu/faculty
Steven Richeimer, MD, Professor of Anesthesiology and Psychiatry; Chief, Division of Pain Medicine, Keck School of Medicine Program Director, Pain Medicine Fellowship, Diplomat in Psychiatry (ABPN) Diplomat in Anesthesiology (ABA) Diplomat in Pain Medicine (ABAnP)
Glenn Clark, DDS, MS, Professor and Section Chair for Diagnostic Sciences, Ostrow School of Dentistry, Director, Orofacial Pain/Oral Medicine Center, Diplomat in Orofacial Pain, Fellow in Oral Medicine, Program Director, Conventional Orofacial Pain Residency Program, Program Director, Hybrid-Online MS degree in Orofacial Pain and Oral Medicine
Professor: John Berger (Professor of Clinical Anesthesiology)
Associate Professors: Melissa Durham, (Clinical Pharmacy & Pharmaceutical Economics and Policy); Susan Enguidanos (Gerontology); Shahin Sadik (Anesthesiology); Faye Miriam Weinstein (Anesthesiology & Psychiatry and the Behavioral Sciences)
Assistant Professors: Reyes Enciso, John Lee (Anesthesiology);
Mariela Padilla (Periodontics, Diagnostic Sciences & Dental Hygiene); Kathryn Havens (Biokinesiology and Physical Therapy);
Shahin Sadik; Jonathan Chen Sum (Physical Therapy); Ashley Uyeshiro (Occupational Therapy); Yogi S. Matharu (Physical Therapy); Sunita Pun (GIM - PM Care); Armaiti V Austin (Family Medicine); William F. Spalding (Anesthesiology)
Adjunct Professors: Reed Levine (Neurology); John D. Harwell (Law)
The administrative offices of the Pain Medicine programs are located on the University Park Campus. Faculty of the department are located predominantly at the Health Sciences Campus.

Master's Degree
Nurse Anesthesia (MS)
General requirements for admission include a minimum 3.0 undergraduate grade point average, a minimum score on the verbal and quantitative sections of the Graduate Record Examination of 300 (or a score of 1000 on the GRE prior to September 2011), completion of the university and Program supplemental application, current licensure as a Registered Nurse, a bachelor's degree in nursing or a related field from an accredited university or college, submission of an essay describing the applicant's career goals, professional resume and three letters of reference.
Competitive applicants will be interviewed and must demonstrate an acceptable understanding of the role and responsibilities of certified registered nurse anesthetists. Shadowing experience of CRNAs must be demonstrated. Selections are made on the basis of the formal interview and consideration of a variety of factors that include academic record, type and amount of clinical experience and professionalism.

Academic and Scientific Prerequisites
The admission requirements also include appropriate undergraduate course work in biology, anatomy, physiology, chemistry, biochemistry, physics and statistics (or nursing research). A minimum of one year of experience in critical care nursing as a registered nurse is required. Licensure as an RN in California and current BCLS, ACLS and PALS certifications are required prior to enrollment. Conversational Spanish is strongly recommended.

Computer Skill Requirements
During the program, students must have a personal computer or notebook with Internet. The primary mode of program communication is email. Computer accounts are provided by the university to all students and can be activated online.

Advisement
Prospective students should contact the program's admission office, (323) 442-2037 or uscnap@usc.edu for evaluation of previous course work and clinical background.

Admission
Admission procedures follow the information in the USC Graduate School section of this catalogue. Admission standards for the USC nurse anesthesia program are established jointly by the Keck School of Medicine, the USC Graduate School and the Department of Anesthesiology. Interested students should apply online at usc.edu/admission/graduate/apply. Additional admissions requirements and the supplemental application must be obtained from the nurse anesthesia program and can be requested through email at uscnap@usc.edu or accessed at keck.usc.edu/nurse-anesthesia.

Degree Requirements
Academic Courses
- ANST 500 Human Anatomy Units: 3
- ANST 501 Advanced Pharmacology of Anesthesia Practice I Units: 2
- ANST 502 Principles of Nurse Anesthesia Practice Units: 4
- ANST 503 Advanced Pharmacology of Anesthesia Practice II Units: 4
- ANST 504 Advanced Pathophysiology Related to Anesthesia Practice Units: 4
- ANST 506 Advanced Principles of Nurse Anesthesia Practice Units: 4
- ANST 508 Research: Investigative Inquiry Units: 3
- ANST 510 Leadership and Professional Aspects of Nurse Anesthesia Units: 3
- ANST 512 Research Integration: Capstone Experience Units: 2
- ANST 607 Advanced Health Assessment Units: 2
- INTD 572 Systems Physiology and Disease I Units: 4

Residency Courses
- ANST 505 Clinical Residency in Nurse Anesthesia I Units: 2
- ANST 507 Clinical Residency in Nurse Anesthesia II Units: 2
- ANST 509 Advanced Clinical Residency in Nurse Anesthesia I Units: 2
- ANST 511 Advanced Clinical Residency in Nurse Anesthesia II Units: 2
- ANST 513 Advanced Clinical Residency in Nurse Anesthesia III Units: 2

Total units: 47

Optional Course
- ANST 514 Specialty Fellowship Units: 2

Note:
All students will take the Self-Evaluation Examination (SEE) administered by the National Board of Certification and Re-certification of Nurse Anesthetists twice while in the program. Student scores must be above the national mean for advancement into the research capstone experience.

Pain Medicine (MPM)
The Master of Pain Medicine is an online program with a total 27 courses (33 academic units), specifically designed for the practicing professional who wants to improve skills and gain expertise to deliver the best care for patients with complex pain conditions. The curriculum is designed with a series of didactic courses in which students will gain knowledge about the diagnosis, pathobiology and management of pain conditions. The goal of this postdoctoral three-year master program is to give practicing health care providers advanced clinical, didactic, and evidence-based education in the field of Pain Medicine. The first year provides a foundation that years two and three build upon, giving the non-physicians the necessary background for the following two years. Nevertheless, physicians will also found the first year to be important to be a meaningful educational experience.

The students participate in weekly live online sessions with faculty and other program students, ensuring a collaborative and social learning experience. There are 2-3 courses per trimester, with 2-4 streaming video lectures for viewing each week. After
each video lecture students complete an associated online quiz (comprising multiple choice, short answer or fill-in questions).  

**Required Courses**
- PAIN 701 Pharmacotherapeutics for Pain Units: 2
- PAIN 702 Pain Classification and Diagnosis - Part 1 Units: 2
- PAIN 703 Psychological Aspects of the Pain Experience: Individual and Units: 2
- PAIN 704 Pain and Society: Epidemiology and Cultural issues Units: 1
- PAIN 705 Pain Assessment: History and Physical Examination Units: 2
- PAIN 706 Musculoskeletal Anatomy and Pathology Units: 2
- PAIN 707 Pain Neuroscience Units: 2
- PAIN 708 Opioids Units: 1
- PAIN 709 Pain Classification and Diagnosis - Part 2 Units: 2
- PAIN 710 Advanced Pain Physiology and Neuroscience Units: 1
- PAIN 711 Research Methodology Units: 2
- PAIN 712a Pain Medicine Capstone Units: 0.5
- PAIN 712b Pain Medicine Capstone Units: 0.5
- PAIN 712c Pain Medicine Capstone Units: 0.5
- PAIN 712d Pain Medicine Capstone Units: 0.5
- PAIN 713a Case Studies Units: 0.5
- PAIN 713b Case Studies Units: 0.5
- PAIN 713c Case Studies Units: 0.5
- PAIN 713d Case Studies Units: 0.5
- PAIN 714 Public Policy and Legal issues Units: 1
- PAIN 715 History of Pain: Theory and Treatment Units: 1
- PAIN 717 Psychological Aspects of Chronic Pain Units: 2
- PAIN 716 Neuropathic Pain Units: 1
- PAIN 718 Complementary Approaches Units: 2
- PAIN 719 Building a Practice: Institutional or Private Units: 1
- PAIN 720 Physical and Occupational Therapies Units: 1
- PAIN 721 Advanced Therapeutics Units: 2
- PAIN 722 Palliative Care in End of Life Units: 1
- PAIN 723 Orofacial Pain and Headache Units: 2

**Graduate Certificate**

**Pain Medicine Certificate**
The online Certificate in Pain Medicine is a program with a total seven courses (12 academic units), specifically designed for the practicing professional who wants to improve skills and gain expertise to deliver the best care for patients with complex pain conditions. The curriculum is designed with a series of didactic courses in which students will gain knowledge about the diagnosis, pathobiology and management of pain conditions. The goal of this one-year certificate program is to give practicing health care providers didactic, and evidence-based education in the field of Pain Medicine.

The students participate in weekly live online sessions with faculty and other program students, ensuring a collaborative and social learning experience. There are two-three courses per trimester, with two-four streaming video lectures for viewing each week. After each video lecture students complete an associated online quiz (comprising multiple choice, short answer or fill-in questions).

**Course List**
- PAIN 701 Pharmacotherapeutics for Pain Units: 2
- PAIN 702 Pain Classification and Diagnosis - Part 1 Units: 2
- PAIN 703 Psychological Aspects of the Pain Experience: Individual and Units: 2
- PAIN 704 Pain and Society: Epidemiology and Cultural issues Units: 1
- PAIN 705 Pain Assessment: History and Physical Examination Units: 2
- PAIN 706 Musculoskeletal Anatomy and Pathology Units: 2
- PAIN 707 Pain Neuroscience Units: 2

**Doctoral Degree**

**Doctor of Nurse Anesthesia Practice**
The USC Doctor of Nurse Anesthesia Practice offers a concentrated academic and comprehensive clinical curriculum. Students will gain experience in the various required clinical specialty areas including general, cardiothoracic, neurosurgical, genitourinary, gynecologic, head and neck, plastic, orthopedic, trauma, obstetrics, pediatric and ambulatory outpatient procedures as well as experience in regional anesthesia, pain management, trauma and emergency airway response. The program consists of 72 units and is completed in 36 months of continuous enrollment (nine semesters).

This professional doctoral program includes the essentials for doctoral education from the American Association of Colleges of Nursing and the Council on Accreditation of Nurse Anesthesia Programs. Core science courses in anatomy, physiology, pathophysiology, pharmacology and principles of nurse anesthesia complement the clinical residency. The student will discuss and synthesize current policies of the complex health care environment, review principles of population health, explore technologic health advances, and become an advocate of evidence-based research in clinical practice. (Note: during the first summer semester students will be on campus for a two-day orientation followed by online hybrid courses). Beginning fall semester, students will be in residence and course work will be a combination of on-campus and hybrid format(s). High fidelity simulation is incorporated into the curriculum to enhance student learning and clinical assimilation through skills workshops and communication, leadership and critical thinking.

**Academic and Scientific Prerequisites**
Program prerequisites include appropriate undergraduate course work in biology, anatomy, physiology, inorganic chemistry, organic chemistry, biochemistry, introductory physics, statistics or nursing research, health assessment and English composition. A minimum of one year of critical care or emergency department experience in a high acuity setting and shadow experience of CRNAs or anesthesiologists. Licensure as a registered nurse in California and current BLS, ACLS and PALS certifications are required prior to enrollment. Course work in anatomy, physiology and biochemistry older than 10 years may require the completion of refresher courses. Conversational Spanish is strongly recommended.

**Computer Skill Requirements**
During the program, students must have a personal computer or notebook with Internet access. The primary mode of program communication is email. Computer accounts are provided by the university to all students and can be activated online.

**Advisement**
Prospective students should contact the program's admission office, (323) 442-2037 or uscnap@usc.edu for evaluation of previous course work and clinical background.

**Admission**
General requirements for admission include graduation from a regionally accredited school of nursing, a baccalaureate degree (minimum requirement), in nursing or a related field from a regionally accredited university or college, a minimum of one year critical care experience (surgical, medical, neurosurgical, trauma, pediatric or neonatal acceptable; post anesthesia care unit and/or emergency department will be determined on an individual basis), a cumulative GPA of 3.0, or higher, on a scale of 4.0. Graduate Record Examinations score with a minimum of 300 on verbal and quantitative combined and a superior score on the analytic section, completion of university and program supplemental applications, current licensure as a registered nurse, submission of an essay describing the applicant's career goals, professional resume and three letters of reference.

Competitive applicants will be interviewed and must articulate their reasons for seeking this educational opportunity.
and demonstrate an acceptable understanding of the role and responsibilities of certified registered nurse anesthetists. Selections are made on the basis of the formal interview and consideration of a variety of factors that include academic record, type and amount of clinical experience and professionalism. Admission procedures follow the information in the USC Graduate School section of this catalogue. Admission standards for the USC nurse anesthesia program are established jointly by the Keck School of Medicine, the USC Graduate School and the Department of Anesthesiology. Interested students should apply online at gradadm.usc.edu. Additional admissions requirements and the supplemental application can be obtained from the nurse anesthesia program Website at keck.usc.edu/nurse-anesthesia-program/ or can be requested through email at uscnap@usc.edu.

Degree Requirements
The program consists of a minimum of 72 units (including academic and clinical courses and the doctoral capstone project) and is completed in 36 months of continuous enrollment (nine semesters).

Academic Courses
- ANST 501 Advanced Pharmacology of Anesthesia Practice I Units: 4
- ANST 502 Principles of Nurse Anesthesia Practice Units: 4
- ANST 503 Advanced Pharmacology of Anesthesia Practice II Units: 4
- ANST 504 Advanced Pathophysiology Related to Anesthesia Practice Units: 4
- ANST 506 Advanced Principles of Nurse Anesthesia Practice Units: 4
- ANST 508 Research: Investigative Inquiry Units: 3
- ANST 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- ANST 591 Special Projects Units: 1, 2, 3, 4
- ANST 600 Gateway Tools Units: 2
- ANST 601 Professional Integration to the Clinical Environment Units: 2
- ANST 602 Analytical Methods for Evidence-Based Practice Units: 3
- ANST 603 Anatomy and Advanced Health Assessment Units: 4
- ANST 604 Healthcare Policy for Advocacy in Health Care Units: 3
- ANST 605 Clinical Prevention and Population Health Units: 3
- ANST 611 Leadership and Collaborative Practice Units: 3
- ANST 613 Clinician-Technology Interface Units: 3
- ANST 620a Clinical Synthesis I Units: 1
- ANST 620b Clinical Synthesis I Units: 1
- ANST 621a Clinical Synthesis II Units: 1
- ANST 621b Clinical Synthesis II Units: 1
- ANST 691 Doctoral Capstone Proposal Units: 2
- ANST 694a Doctoral Capstone Project Units: 1
- ANST 694b Doctoral Capstone Project Units: 1
- ANST 694c Doctoral Capstone Project Units: 1
- ANST 694d Doctoral Capstone Project Units: 1
- INTD 572 Systems Physiology and Disease I Units: 4

Clinical Residency Courses
- ANST 614 Clinical Residency in Nurse Anesthesia I Units: 2
- ANST 615 Clinical Residency in Nurse Anesthesia II Units: 2
- ANST 616 Advanced Clinical Residency in Nurse Anesthesia I Units: 2
- ANST 617 Advanced Clinical Residency in Nurse Anesthesia II Units: 2
- ANST 618 Advanced Clinical Residency in Nurse Anesthesia III Units: 2
- ANST 619 Advanced Clinical Residency in Nurse Anesthesia IV Units: 2

Note
All students will take the Self-Evaluation Examination (SEE) administered by the National Board of Certification and Recertification for Nurse Anesthetists (NBCRNA) at the end of the fifth and eighth clinical semesters. Students will be eligible to sit for the National Certification Examination (NCE) administered by the NBCRNA following graduation.

Associate Professors: Woojin An; Raymond Mostoller; Sita Reddy; Tobias Ulmer

Assistant Professor: Ansgar Siemer
Research Professor: Liya Gu
Research Associate Professor: Shuping Zhong
Research Assistant Professors: Jobin Varkey; Daniel Weisenberger

Faculty with Secondary Appointments in BMM
Hooman Allayee (Professor of Preventive Medicine); Ruchi Bajpai (Assistant Professor of Dentistry); Zea Borok (Professor of Medicine); Paula Cannon (Professor of Molecular Microbiology and Immunology); David Cobrinik (Associate Professor of Ophthalmology); Lucio Comai (Professor of Molecular Microbiology and Immunology); Yves De Clerck (Professor of Pediatrics); Robert Farley (Professor of Physiology and Biophysics); Baruch Frenkel (Professor of Orthopaedics); Mark Frey (Assistant Professor of Pediatrics); Young-Kwon Hong (Associate Professor of Surgery); Chih-Lin Hsieh (Professor of Urology); Ita Laird-Offringa (Associate Professor of Surgery); Michael Lieber (Professor of Pathology); Ching-Ling Lien (Assistant Professor of Pediatrics); Carol Lin (Associate Professor of Clinical Medical Education); Wange Lu (Associate Professor of Stem Cell and Regenerative Medicine); Crystal Marconett (Research Assistant Professor of Surgery); Amy Merrill (Assistant Professor of Dentistry); Marcel Nimni (Professor of Pediatrics); Brent Polk (Professor of Pediatrics); Henry Sueov (Professor of Stem Cell and Regenerative Medicine); Stephen Swenson (Research Assistant Professor of Neurological Surgery); Arieh Warshel (Professor of Chemistry/Nobel Prize); Jian Xu (Assistant Professor of Dentistry)

The USC Department of Biochemistry and Molecular Medicine prides itself on maintaining a broad-based approach to various aspects of biochemical and molecular biological research. Altogether, the department numbers 48 primary and joint-appointment faculty members, with major research programs in the molecular basis of control and regulation of gene expression, cancer biology and epigenomics, molecular mechanisms of signal processing and transduction, developmental and stem cell biology, detailed analyses
of macromolecular structure and function, the biochemistry and molecular biology of the brain, and genetic medicine including gene therapy.

Members of the department are also members of the USC Norris Comprehensive Cancer Center, the USC Institute for Genetic Medicine (IGM), the USC Zilkha Neurogenetic Institute (ZNI), the Eli and Edythe Broad CIRM Center for Regenerative Medicine and Stem Cell Research at USC, and the Children's Hospital Los Angeles (CHLA).

The offices and laboratories of the primary faculty members are located on the Health Sciences Campus.

Graduate Programs

Biochemistry and Molecular Medicine Masters of Science: Most applicants to the Masters of Science graduate program in Biochemistry and Molecular Medicine have a bachelor's degree with an undergraduate major in one of the natural sciences. Undergraduate course work should have included biochemistry, physics, mathematics, and courses in the biological sciences. A minimum GPA of 3.0 in the natural sciences (including mathematics) is normally required. Applicants must pass satisfactorily the general portions of the Graduate Record Examinations. In addition, the department requires at least three letters of recommendation from faculty members who can evaluate the applicant's potential for graduate work and independent research. See keck.usc.edu/biochemistry-and-molecular-medicine-program/ for more details about the program. Students can apply to the MS program in Biochemistry and Molecular Medicine at gradadm.usc.edu/apply/.

PhD Programs: Faculty members of the Department of Biochemistry and Molecular Biology participate in the USC Programs in Biomedical and Biological Sciences (PIBBS). Students interested in pursuing a PhD degree in the fields related to biochemistry, molecular and cellular biology, and genetics should apply to PIBBS. Applications for the PhD Programs in Biomedical and Biological Sciences should be submitted online through the PIBBS Website (usc.edu/pibbs).

Fellowships

Students admitted to PIBBS PhD programs are awarded fellowships that pay for tuition and provide a stipend. No fellowships are available for master's degree students.

Master's Degree

Biochemistry and Molecular Medicine (MS)

The Department of Biochemistry and Molecular Medicine offers a program for the Master of Science degree. The primary objectives of this program are to provide the necessary theoretical preparation for biochemical careers and to expose students to biochemistry and molecular medicine related research activities culminating with the Master of Science degree. Goals of the program are to train students in preparation for (1) further doctoral study, (2) advanced biochemical research positions in industry and academia and (3) teaching positions at the community college level.

In general, admission requirements are the same as for the Doctor of Philosophy degree. The prerequisite for applicants to the graduate program in biochemistry is a bachelor's degree with an undergraduate major in one of the natural sciences. A minimum GPA of 3.0 in the natural sciences (including mathematics) is normally required. Applicants must satisfactorily pass the general and advanced (chemistry, or biology or molecular biology) portions of the Graduate Record Examinations. In addition, the department requires at least three letters of recommendation from faculty members who can evaluate the applicant's potential for graduate work and independent research. Demonstrated proficiency in the English language is required. Special circumstances may provide consideration for conditional admission.

The master's degree in biochemistry and molecular medicine requires 34 units of elective graduate study to be determined by the student's advisory committee. Fourteen or more course units must be taken in biochemistry and molecular biology; eight units may be pursued outside the department. Students interested in the commercial aspects of biotechnology may take courses focusing on business entrepreneurship, finance, management and marketing in the USC Marshall School of Business. Master's students have the option of completing a research thesis allowing state-of-the-art laboratory-based investigation or a non-research-based theoretical thesis. Upon approval, a maximum of 10 units of directed research in biochemistry will be applied to the degree. Up to six units of graduate course work taken outside of USC may be applied toward the MS degree. Flexibility exists to plan each student's program to suit individual needs, ambitions and background.

Emeritus Professors: G. Albrecht*; Dwight Warren III

*Recipient of university-wide or school teaching award.

The Department of Cell and Neurobiology provides training in the basic medical sciences to health professional students, and prepares graduate students as future teachers and researchers in the human anatomical sciences and functional morphology.

Cell and Neurobiology Graduate Program

The graduate-level course of study includes in-depth training in core anatomical disciplines: gross anatomy, histology and neuroanatomy, including cadaveric dissection and microscopic study of tissues. In addition, students receive an intensive introduction to fundamentals of bone and dental biology, human anatomical variation, and clinical anatomical correlations. Interested students can receive training in laboratory teaching for gross anatomy, or research training in functional, evolutionary and virtual morphology. Professional and intellectual development is fostered through a hands-on curriculum designed to prepare the student for a lifetime of learning, exploring the limits of research, teaching and creative activities.

Goals of the program are to train students in preparation for:
1. Teaching positions in the core anatomical sciences (gross anatomy, histology, neuroanatomy). Instructors in the anatomical sciences contribute to teaching at medical and dental schools, in allied health programs (nursing, physical and occupational therapy, physician assistants, dental hygiene), and in pre-health undergraduate majors at colleges and universities. In recent years, the number of faculty trained to teach in these subject areas has steadily decreased. As a result, finding qualified individuals capable to teach in the anatomical sciences has become increasingly problematic. The CNB master's program is advantageous in order to address this problem.
2. Research positions and further doctoral training in functional and evolutionary morphology. While the anatomical sciences are among the oldest (and most fundamental) of the biological and medical sciences, the modern incarnation of morphology...
is a relatively young and fast-moving field of endeavor. Modern areas of focus in morphology include: mapping the anatomical biodiversity of the planet; understanding the relationships between form (e.g., skeleton) and function (i.e., locomotion; mastication) in living animals; reconstructing the behavior, performance and life history of extinct organisms; elucidating the origin of major groups of animals (including our own branch of the evolutionary tree); and investigating the fundamental properties of biomaterials (e.g., bone). The movement toward quantitative methods in the anatomical sciences and integration of new disciplines to morphology research has also made this field of endeavor more translational. For example, synthetic material design, robotics, aeronautics, cinema, graphic arts, conservation biology and other fields now make consistent use of the data generated by morphologists.

Admissions
The Department of Cell and Neurobiology selects highly qualified students for admission into its Master of Science program in Cell and Neurobiology. The prerequisite for applicants to the MS program is a bachelor's degree with a science major or equivalent. Applicants should have a superior undergraduate record at an accredited college or university, with a minimum undergraduate grade point average of 3.6. Generally required courses include at least one year of college-level biology, one year of college-level physics and mathematics through calculus. College-level courses in cell biology, developmental biology, organismal biology and physiology are recommended.

Applicants must demonstrate satisfactory performance on the general portion of the Graduate Record Examinations (GRE). A minimum score of 1000 is expected. GRE Subject (advanced) examination is desirable but optional. Alternatively, Medical College Admission Test (MCAT) scores may be provided and will be considered in place of the GRE if they are a minimum of 28. Demonstrated proficiency in the English language is required. Foreign applicants are expected to provide results from the Test of English as a Foreign Language (TOEFL). Results from Internet-based, computer-based or paper-based tests are acceptable. However, candidates with special circumstances may be considered for admission with continuing registration requirements.

Applicants will need to submit the following for consideration:

1. Three letters of recommendation from faculty members who can evaluate the applicant's potential for graduate work and independent research.
2. Complete undergraduate transcripts.
3. Official copies of GRE scores.
4. TOEFL scores (if applicable).
5. Statement of Purpose (should describe your reasons for seeking a MS degree in the anatomical sciences and describe your career goals).

Special Admission Considerations: Special considerations may be given to students with extensive prior training in human anatomy with cadaver dissection, to students who experienced extenuating circumstances, and to applicants with limited English proficiency that could be corrected by language courses offered by the university's American Language Institute.

Doctor of Philosophy
No longer accepting applications.

Application deadlines:
  MS Program - January 1.

Master's Degree

Cell and Neurobiology (MS)

The Master of Science (MS) degree is awarded for demonstrated competence in the anatomical sciences. This is a 12-month program that begins with intensive training in human gross anatomy in the summer term. Students must complete a minimum of 32 units of graduate-level courses (500 or higher) beyond the baccalaureate degree, and maintain a minimum GPA of 3.0.

Students complete 16 units from courses in Human Gross Anatomy (CNB 501a, CNB 501b), Microscopic Anatomy (CNB 511a, CNB 511b) and Neuroanatomy (CNB 521), equivalent to medical school instruction. They receive 7 units of additional specialized training in Human Skeletal Anatomy (CNB 504) and participate in the Cell and Neurobiology Seminar (CNB 550). Students must take 9 additional units from the following list of courses: Advanced Regional Anatomy (CNB 502 / CNB 503), Systems Physiology and Disease I and II (CNB 572 / CNB 573), Directed Research (CNB 590), Special Topics (CNB 599). Relevant courses in other departments and schools can also be selected, but all course work must be approved by the chair of the graduate program.

Department of Family Medicine

Email: uscpa@usc.edu
usc.edu/pa

Program Director: Kevin Lohenry, PhD, PA-C
Medical Directors: Ignacio DeArtola, MD; Raymond Waliany, MD

Faculty

Professor of Clinical Family Medicine: D. Lie, MED, MD
Associate Professor of Clinical Family Medicine: C. Feifer, DrPH
Assistant Professors of Clinical Family Medicine: I. DeArtola, MD; C. Forest, MSHS, PA-C; L. Landry-Taylor, MA, PA; K. Lohenry, PhD, PA-C; A. Vallejo, PhD; R. Waliany, MD; Emily WhiteHorse, MA Ed, PA-C

Instructors of Clinical Family Medicine: M. D'Aquilla, MACM, PA-C; M. Maddonado, MPH, PA-C; D. Mayo, MPAS, PA; J. Tramel, MS-HPE, PA-C; A. Walsh, MMSc, PA-C; J. Wegler, MMS, PA-C

The faculty listed above are faculty with the Primary Care Physician Assistant Program at USC.

The Primary Care Physician Assistant Program at USC prepares students to practice medicine under the supervision of a physician. Students earn a Master of Physician Assistant Practice (MPAP) degree upon completion of the program.

The MPAP degree program offered by the Division of Physician Assistant Studies is part of the Department of Family Medicine. Preclinical instruction is provided by physician assistant program faculty and faculty from other departments within the Keck School of Medicine, the USC School of Pharmacy, other divisions within the Health Sciences Campus, as well as clinicians from the surrounding communities. Emphasis is placed on primary care medicine and caring for medically underserved populations. Clinical training occurs at various clinical sites throughout the greater Los Angeles region, including the Los Angeles County+USC Medical Center, Arrowhead Regional Medical Center, Long Beach Memorial Family Practice Residency, private offices and managed-care settings, community-based clinics, VA facilities and specialty settings.

Students complete eight, six-week clinical clerkships in emergency medicine, family medicine, internal medicine, orthopedics, pediatrics, general surgery, women's health and a one-week mental health/behavioral medicine clerkship. These clerkships emphasize the development of necessary clinical skills as well as learning how to work as part of a health care team. The Primary Care Physician Assistant Program at USC is committed to recruiting diverse applicants and preparing graduates to practice in medically underserved communities.

The Accreditation Review Commission on Education for the Physician Assistant (ARC-PA) has granted Accreditation-Continued
status to the Primary Care Physician Assistant Program at USC sponsored by the University of Southern California. Accreditation-Continued is an accreditation status granted when a currently accredited program is in compliance with the ARC-PA Standards. Accreditation remains in effect until the program closes or withdraws from the accreditation process or until accreditation is withdrawn for failure to comply with the Standards. The approximate date for the next validation review of the program by the ARC-PA will be September 2018. The review date is contingent upon continued compliance with the Accreditation Standards and ARC-PA policy.

The program is approved by the Physician Assistant Committee (PAC) of the Medical Board of California. Graduates must pass the National Commission on Certification of Physician Assistants (NCCPA) Physician Assistant National Certifying Exam to qualify for licensure throughout the United States.

Pi Alpha Honor Society
The program participates in the Pi Alpha Honor Society, which is the national Physician Assistant honor society organized for the promotion and recognition of both PA students and graduates. Membership signifies the inductees’ significant academic achievement and honors them for their leadership, research, community/professional service and other related activities. The society also encourages a high standard of character and conduct among students and graduates. Students are encouraged to apply for this honor during their final semester in the program, but selection is done via an application process and review by current members of the society.

Master’s Degree
Physician Assistant Practice (MPAP)

Admission Requirements and Procedures
Application to the Physician Assistant Program requires completion of a bachelor's degree (in any discipline) from a regionally accredited four-year institution and completion of academic prerequisite requirements.

Admission to the program is for the fall semester only. Admission is granted by the physician assistant admissions committee after careful review of all applications. Selections are made on the basis of a formal interview (for competitive applicants) and consideration of a variety of factors which include: academic record, type and amount of clinical experience, multicultural sensitivity, community service experience and professional experience.

Applicants are required to submit an application through the Central Application Service for Physician Assistants (CASPA) as well as a USC Supplemental Application by November 1 of each year. Further details regarding admission procedures including those for international student applicants are provided online at usc.edu/pa.

Transfer Students or Advanced Placement
The Physician Assistant Program does not accept transfer students, nor do we allow advanced placement based on prior education or clinical experience. Each applicant who is admitted is required to complete the full Master of Physician Assistant Practice curriculum in residence at USC. No waivers or substitutions are permitted.

Registration
Students receive information regarding registration procedures during an orientation program held the week before classes begin.

Advisement
Information sessions are available for prospective students who would like to receive more information regarding the program. Applicants are encouraged to attend one of the program's information sessions where PA faculty and staff describe the program, the application process and answer general questions. Information sessions are held on the Alhambra Campus, Building A11. Contact the PA Program for further details and RSVP at uscpa@usc.edu or call (626) 457-4240. The information session schedule may be viewed at usc.edu/pa.

Degree Prerequisites
A bachelor's degree from a regionally accredited institution and completion of all prerequisite course work are required for admission to the Physician Assistant Program.

Science Prerequisites
A one-year general biology sequence with lab and a one-year general chemistry sequence with lab, each course designed for science majors. All science prerequisites must be completed within 10 years of application to the program.

Three semester units or 4 quarter units of each of the following: human anatomy with lab; human physiology with lab; and microbiology with lab.

Distance learning courses are acceptable provided they are equivalent in all dimensions (including laboratory requirements) to courses taught in "traditional" educational settings (e.g., hybrid courses). All distance learning course credit must be provided by regionally accredited institutions of higher education.

Students are expected to have a strong competency in medical terminology.

All science prerequisites should be completed within 10 years of application to the program. Exceptions to the 10-year science prerequisite time frame may be granted on an individual basis to those individuals who have completed one of the following: 1) at least 8 semester units of graduate credit in a medically related natural science discipline with an overall grade point average of 3.0 or better, completed within seven years of the application deadline, or 2) received an advanced degree in the natural or clinical sciences (e.g., MS, DVM, PharmD, PhD, MD) within 10 years of the application deadline. In either case, all course work completed and degrees conferred must be from institutions of higher education accredited by an accrediting agency recognized by the Secretary of the U.S. Department of Education. Requests for this 10-year exemption should be directed to the chair of Admissions.

Non-science Prerequisites
Three semester units or 4 quarter units of each of the following: general psychology and statistics.

Two semesters of beginning college level Spanish language earned through course work or by placement examination. There are no language substitutions or waivers.

Two semester units or three quarter units of English composition are required for international applicants only. AP course work is acceptable.

Students who intend to apply to the Physician Assistant Program should contact the admission office for evaluation of previous baccalaureate and/or post-baccalaureate course work.

Standardized Tests
Applicants are required to take either the GRE or MCAT examination. The examination must be taken within five years of the application deadline of November 1. Official scores of the general and analytical sections of the GRE must be submitted to USC by using the Institutional Code 4852 (departmental code is not necessary). Applicants with MCAT scores must provide their AAMC verification code to the USC PA Program. GRE or MCAT scores must be submitted by November 1. The PA Program expects that all applicants earn a combined quantitative and verbal GRE score of no less than 1,000 (on the older version of the exam) and 295 (on the newer version of the exam).

Clinical Experience Prerequisite
"Hands-on" patient care experience is preferred. Most successful applicants typically have 2,000 hours or more of paid clinical hours and have worked as one of the following: emergency medical technician, licensed vocational nurse, medical assistant, medical scribe, medical technologist, military medical corpsman, paramedic, psychiatric technician, physical therapy aide, radiologic technician, respiratory therapist or registered nurse. Other health care experience is equally acceptable as long as the experience is "hands-on" in nature.
Physician Assistant Shadowing Experience

Shadowing a physician assistant in a clinical setting is expected. This activity provides the applicant with the up-close experience needed to understand the role and responsibilities of the PA and may help the applicant make a better informed decision in choosing a career as a physician assistant.

Community Service Prerequisite

Community service activities/projects are expected of all applicants. Service which benefits medically underserved or disadvantaged populations is preferred.

Curriculum Requirements

The completion of the 33-month professional curriculum is required to earn the Master of Physician Assistant Practice degree. Students do not have choices of courses to take nor are they permitted to drop any course or courses during the semester. Progress is permitted only when the prior semester is successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification.

Summative Evaluation

A summative evaluation is conducted on each student during the sixth and final semester of the program to verify that each student is prepared to enter clinical practice.

Health Requirements and Technical Standards

All accepted candidates are required to meet the PA program's technical standards (physical and psychological competencies of performance) prior to entering the program and throughout training. Upon acceptance, students will be required to submit and maintain evidence of current health status and immunizations. Specific details outlining these technical standards are located at usc.edu/pa.

Employment

The Primary Care Physician Assistant Program at USC is a full-time program. Students are strongly discouraged to accept or continue outside employment while enrolled in the program. Students are not permitted to work for the program.

Background Check

All USC Physician Assistant students are required to pass a background check prior to admission to the Master of Physician Assistant Practice (MPAP) Program.

Degree Requirements

All students in the Master of Physician Assistant Practice degree program must meet course and grade point average requirements. All course requirements must be completed with a grade of "B" or better. The degree will not be conferred until the student has successfully completed all degree requirements. Students are subject to the degree requirements in the catalogue current for the semester of their admission into the program.

Physician assistant students are enrolled in a standard curriculum during their 33 months in the program. The following courses must be successfully completed in order to earn the Master of Physician Assistant Practice degree. Only physician assistant students may enroll in these courses. Departmental clearance is required to enroll.

Year I, Fall Semester

- PCPA 503 Behavioral Sciences I Units: 4
- PCPA 523 Clinical Skills I Units: 4
- PCPA 530 Basic Medical Sciences Units: 6
- PCPA 543 Topics in Medicine I Units: 4

Total units: 18

Year I, Spring Semester

- PCPA 506 Behavioral Sciences II Units: 4

Master's Degree

Molecular Microbiology and Immunology (MS)

The primary objective of the Master of Science program is to prepare students for a career in the broad field of biomedical sciences with a focus on, but not limited to, microbiology, virology, immunology and cancer research. This program provides extensive theoretical preparation in combination with hands-on research, where students are trained in research laboratories located on the Health Sciences Campus (HSC), comprising the Keck Medical School, the School of Pharmacy and the USC Norris Comprehensive Cancer Center, or located at Children's Hospital Los Angeles (CHLA).

Goals of the program are to prepare students for employment opportunities in: academic research or teaching at universities, institutes or not-for-profit research centers; research and development in industry (biotech, pharma, petro, dairies, breweries); health care (hospitals and health care providers, medical technology, diagnostic laboratories); law firms (patents, intellectual property rights, technology transfer, toxic torts); environmental organizations (advisory, management, planning); government (public health, waste management, EPA, FDA, NIH, etc.); publishing (journalism, journal editor).

Admission Requirements

Applicants are expected to have a bachelor's degree in science (usually biology, chemistry or physics) from an accredited college or university. Generally required courses include: at least one year of college-level biology, chemistry through organic chemistry, mathematics through calculus, physics and physical chemistry. Deficiencies may be made up early in the predoctoral program.

The department encourages applicants to contact its office prior to making formal application. Each applicant must pass satisfactorily the general and advanced (biochemistry, cell and molecular biology or biology, chemistry or physics) portions of the Graduate Record Examinations, and must also arrange for three letters of recommendation to be written. In addition, the applicant must provide a one-page statement of career objectives, including the general area of research interest. This statement is intended to facilitate selection of those students who will most benefit from the department's graduate program. A personal interview is strongly recommended but not required.

Applicants who have attended graduate school at another university may be admitted to advanced standing upon recommendation of the department.

Training Grants and Fellowships

Incoming domestic students may be supported by a departmental training grant or by a research grant to a specific faculty mentor during their first year; subsequently, students are supported by research grants awarded to individual faculty members. International students are supported by research assistantships.
and how to leverage that knowledge to make new and important discoveries in biomedicine. Students who successfully complete the program will be ideally positioned to apply to formalized medical training programs, join PhD research training programs, obtain laboratory or administrative employment in the growing field of brain imaging neuroscience, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

The program comprises 10 courses (eight 3-unit and two 1-unit) to be taken in one academic year. Didactic lectures address the technology of neuroimaging, a detailed examination of brain anatomy and function, and the variety of data-type dependent as well as integrative computational processing approaches. Laboratory modules (1) provide guided, hands-on experience with neuroimaging data collection approaches for examining anatomy, connectivity and functional activity; and (2) examine and develop optimized data processing strategies. Finally, scholarship is enriched by several distinct faculty-guided, discussion-based courses that allow detailed examination of specific aspects of neuroimaging of elemental neurological processes and carefully selected applications in neurological and psychiatric medicine. Graduation requires completion of 26 course units.

Admissions Requirements

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, standardized test scores, a personal statement describing scientific and career interests, and two letters of recommendation. Applications are generally anticipated for fall enrollment. Applicants to the program must apply to the USC Graduate School and must meet the minimum requirements for admission to the Graduate School. Students are required to have an overall undergraduate GPA of 3.0 or better (or equivalent) and have achieved graduation with a BS or BA degree (or equivalent) prior to matriculation. Students are expected to have taken the general portion of the GRE exam before application and to have met or exceeded university score requirements. Applicants not meeting Graduate School requirements for regular standing may, with the approval of the Graduate School, apply to the program before making this request, and not all students will be granted this opportunity (selection will be based on academic performance and student research interests, and on availability of laboratory space).

Required Courses of Instruction

Fall

- NIIN 500 Neuroimaging and Systems Neuroscience Units: 3
- NIIN 510 Fundamentals of Human Neuroimaging Units: 3
- NIIN 520 Experimental Design for Neuroimaging Units: 3
- NIIN 530 Neuroimaging Data Acquisition w/ Magnetic Resonance Imaging Units: 3

Spring

- NIIN 540 Neuroimaging Data Processing Methods Units: 3
- NIIN 550 Computational Modeling in Neuroimaging Units: 3
- NIIN 560 Brain Architecture and Neuroanatomic Exploratory Techniques Units: 3
- NIIN 570 Neuroimaging Genetics Units: 3

Fall or Spring

- NIIN 597 Current Topics in Neuroimaging Informatics Units: 1
- NIIN 598 Neuroimaging and Informatics External Speaker Seminar Series Units: 1

Advisement

The program recommends that students meet with the program director each semester prior to registration for courses.

Satisfactory Academic Progress

A graduate GPA of at least 3.0 in the program is required at all times. Any student whose graduate GPA falls below 3.0 will be given written notification that they have been placed on academic probation. Students who do not raise their GPA to 3.0 in the second semester are academically disqualified.

Master's Degree

Neuroimaging and Informatics (MS)

Degree Requirements

Graduation requires completion of 26 units, according to the required course schedule outlined below. None of the NIIN courses may be waived or substituted for other courses in the USC Catalogue. This program is intended to be completed within one academic year, and, while optional, does not include a requirement for independent laboratory research or a thesis. Students may request approval to undertake laboratory research and continuing course work during a second year research option; students must already be matriculated into the program before making this request, and not all students will be granted this opportunity (selection will be based on academic performance and student research interests, and on availability of laboratory space).

Department of Pathology

Hoffman Medical Research Center 204
211 Zonal Avenue
Los Angeles, CA 90089-9092

MS Student Adviser: Cheng-Ming Chuong, MD, PhD, (323) 442-1296
PhD Student Adviser: Florence M. Hofman, PhD, (323) 442-1153
Program Director, Pathology Residency Training Program: Wesley Y. Nairitoku, MD, PhD, (323) 409-4698
MD Student Adviser: Wesley Y. Nairitoku, MD, PhD, (323) 409-4698

Faculty

Michael E. Selsted, MD, PhD, Professor and Chair
Renette and Marshall Ezralow Family Chair in Cancer Therapeutics: Parkash Gill, MD
Harold E. Lee Chair in Cancer Research: Michael F. Press, MD, PhD
Kenneth T. Norris Jr. Chair in Medicine and Hastings Professor of Medicine: Edward D. Crandall, MD, PhD
Rita and Edward Polasky Chair in Basic Cancer Research: Michael Lieber, PhD, MD

Rupert and Gertrude Stieger Vision Research Chair: Narsing Rao, MD
Gavin S. Herbert Professor of Vision Research: David R. Hinton, MD
Professors: T.C. Chen (Neurological Surgery); C.-M. Chuong; T.D. Coates (Pediatrics); Wendy Cozen (Preventive Medicine); E.D. Crandall (Medicine); L. Dubau; A.L. Epstein; P.S. Gill (Medicine, Urology); S. Govindarajan; D. Hinton (Neurological Surgery, Ophthalmology); F.M. Hofman (Ophthalmology, Neurological Surgery); R.W. Jelliffe (Medicine); M.N. Koss*; P.R. Levitt (Pediatrics, Pharmacology & Pharmaceutical Sciences, Psychology); M.R. Lieber (Biochemistry and Molecular Biology, Molecular Microbiology and Immunology); T.M. Mack (Family and Preventive Medicine); C.A. Miller (Neurology); A.J. Ouellette; P.K. Pattengale (Molecular Microbiology and Immunology); M.F. Press; F.P. Quisimoro, Jr. (Medicine); N.A. Rao (Ophthalmology); S. Rasheed*; M.E. Selsted; D.K. Shibata; I.A. Shulman; M.R. Stallcup (Biochemistry and Molecular Biology); C.R. Taylor*; T.J. Triche (Pediatrics); H. Tsukamoto

Professors (Clinical Scholars): J.A. Biegel; M.R.G. O’Gorman (Pediatrics); D.M. Parham; H. Shimada
**Associate Professors:** S. Asgharzadeh, (Pediatrics); S. Belluscio (Surgery); A. Erdeiich-Epstein (Pediatrics); B.H. Gross (Psychiatry and Behavioral Sciences, Medicine); Y.M. Kim, (Pediatrics); A. Kovacs (Pediatrics); J.R. Landolf (Molecular Immunology, Molecular Pharmacology and Toxicology); H.A. Liebman (Medicine); S.E. Martin; S.B. Turkel (Psychiatry and Behavioral Sciences, Pediatrics)

**Associate Professor (Clinical Scholar):** A.R. Judkins

**Assistant Professors:** T. Saito (Medicine, Molecular Microbiology, Biotechnology); B. Stiles (Pharmaceutical Sciences); D. Tian

**Clinical Professors:** C.A. Bell; H.N. Canawati; J.N. Carberry; J. Ciccicelli (Urology, Surgery); K.A. Frankel; F.H. Gilles (Neurological Surgery, Neurology); D.S. Harrington; R.E. Horowitz; G. Kanel; D.V. Kon; O.T. Kuzma (Medicine); D.H. Mills; J. Nelson; P. Nichols; P.N. Rao; C. Rogers; A.A. Roscher; L. Sathyavagiswaran (Medicine); S.V. Sostrin; A. Verity

**Adjunct Clinical Professors:** R.Y. Osamura; S.-R. Shi

**Clinical Associate Professors:** C. J. Cobb; T.E. Howard; G. Pezeshkpour; A.S.S. Raza; J.S. Wollman

**Adjunct Associate Clinical Professors:** M.M. Cosgrove; M. Pietruszka

**Clinical Assistant Professors:** JD Augustine; A. Baltayan; E. Carpenter, Jr.; I.A. Chan; W. Chick; O. Chinawah; P.D. Colman; E.C. Dinovo; R. Djabourian; R. Gellibolian; K.E. Grimm; M.D. Haimowitz; J. Igal; M. Kennedy; M.T. Kiyabu; B. Kwok; B.J. Le Berthon; M.S. Lewis; K. Matsuda; V. Nelson; S.D. Oh; R. Phan; G. Pinsky; S. Prabhu; S.T. Pullarkat; L.A. Scheinin; R.A. Soni; J.P. Tovar; K.J. Young; S.K. Young

**Clinical Assistant Professor (Clinical Educator):** N.M. Shillingford

**Adjunct Clinical Assistant Professors:** A. Antelco; M.A. Fajardo; N.M. Green; C. Lwin; Z. Pavlova; O.C. Upko

**Professors of Clinical:** R.K. Breyner; J. Carpenter; J.F. Emerson; A.I. Hiti; Y. Iwaki (Urology, Surgery); P. Mhawech-Fauceglia (Obstetrics and Gynecology); W.Y. Naritoku; A.E. Sherrod; S. Wu (Pediatrics);

G.-Q. Xiao

**Adjunct Professor of Clinical:** L.A. Baxter-Lowe

**Professors of Research:** J. Groffen (Pediatrics); E. Heisterkamp (Pediatrics)

**Associate Professors of Clinical:** M. Aron; R.C. Bender (She); S. M. Butler-Wu; D.B. Casebolt; J. Dien Bard; A.N. Fedenko (Orthopaedic Surgery); X. Gai; D. Hawes; S. He (Ophthalmology); G.H. Kim (Dermatology); Y. Ma; A. Mathew; K.A. Nash*; G. Raca; S. Saitta; I. Siddiqi; L.L. Wang (Surgery); P.M. Ward; G.D. Zeger

**Assistant Clinical Professors:** C. Akhtar; S. Amin; A. Brown; A. Caradonna; D. Hebert; K. Hoppers; A. Johnson; J. Krempel; G. Kwak; E. Laber; T. Leach; S. LeBlanc; R. LeCesne; L. Liao; J. Liu; B. Low; L. M. Mathews; T. Miller; A. Mirk; S. Morley; J. Moran; C. Musat; M. Nagy; T. Nolen; J. O'Kelly; S. Oshman; D. Paxton; J. Pezeshkpour; M. Pfeiffer; M. Phillips; D. Pilch; J. Plowman; J. Quint; V. Renton; R. Roper; D. Ryan; D. Schaff; C. Schep; J. Schulte; A. Scott; A. Shipley; E. St. John; J. St. John; S. Stolarski; M. Stover; J. D. Stone; M. Swanson; A. Szabo; T. Tan; N. Tan; X. Tan; M. Tuma; M. Ulibarri; J. Umpleby; G. Vercruysse; B. W. Wang; L. White; D. Wilkerson; K. Willard; M. Wimpenny; S. Wohl; J. Wolk; A. Woon; R. Wooten; M. Xiao; K. Yasuda; C. Zenick; K. Zocchi

**Associate Professors of Research:** K. Asahina; R.B. Widelitz

**Research Associate Professor:** T.V. Tatarnova

**Research Associate Professor:** T.V. Tatarnova

**Resident Clinical Associates:** T. Feldman; T. Jiang; R.A. Osbourn

**Research Assistant Professor:** P. Hu; N.W. Marden; Y. Ouyang

**Adjunct Research Associate Professor:** S.A. Iman

**Resident Clinical Investigators:** Z. Asnaf; L. Aye; C. Chang; T. Chong; C. Costales; A. Fong; M. Goebel; R. Golestani; W. Guo; S. Hamidi; T. Jenkins; T. Jong; M. Koshcherov; T.H. Kim; J. Larsen; J. Makker; A. Mehta; R. O’Connell; N. Plaza; M. Takeda; S. Walia; D. Wang; C. Wei; D. Yau

**Resident Medical Students – Fellows:** F. Baratelli; M. Boonyasampant; K. Duncan; E. Enbom; B. Kay; X. Li; V. Martin; B. Song; L. Szymanski; N. Tiranw; E. Yung

**Emeritus Professors:** S.B. Chandon; P.T. Chandrasoma; B.N. Nathwani; J.W. Parker; P. Roy-Burman; N.E. Warner; E.T. Wong

**Emeritus Associate Professor:** A.D. Cramer

**Emeritus Clinical Professors:** R.D. Fuller; M. Greenblatt; G.G. Hadley; W.H. Kern; D.S. Shillam; R.J. Schroeder

**Emeritus Clinical Associate Professor:** W.C. Smith

**Emeritus Clinical Assistant Professors:** R.L. McClure; J.K. Waken

**Emeritus Professors of Clinical:** K.-M. Chan; D.L. Commens; J.F.P. Dixon; C.B. Inderliden; T.T. Noguchi (Emergency Medicine, Surgery)

**Emeritus Associate Professor of Clinical:** W.P. Lewis

**Emeritus Assistant Professor of Clinical:** R.B. Hopper

**Emeritus Professor of Research:** T.L. Lincoln

*Recipient of university-wide or school teaching award.*

The Department of Pathology provides training for both medical and graduate students. Medical students are trained in general, systemic and cellular pathology, providing them with an understanding and visualization of the basic processes underlying symptoms and clinical courses, as well as the ability to evaluate laboratory findings. This department also contributes to the training of residents and fellows at the LAC+USC Healthcare Network, Keck Hospital of USC and the USC Norris Cancer Hospital, Childrens Hospital Los Angeles and Los Angeles County Coroner/Medical Examiner’s Office, providing these residents and fellows with an intensives program in anatomic and clinical pathology and offering sub-specialty fellowship training in surgical pathology, cytopathology, hematopathology, neuropathology and forensic pathology.

The Department of Pathology has a Master of Science program. The two-year MS program provides training in the latest technologies and concepts of biomedical research and provides the graduate with enhanced opportunities for positions in biotechnology companies, teaching colleges and various health department/ governmental positions.

With 96 full-time faculty and 52 residents and fellows in training, the USC Department of Pathology is one of the largest pathology departments in the United States. The department has strong and diverse research programs in basic, clinical and translational pathology. Basic research includes programs in stem cell biology and organogenesis, molecular mechanisms of cancer, mechanisms of neurodegeneration and ocular disease, and the application of liver injury and disease. Clinical research is particularly strong in surgical pathology, cytopathology, hematopathology, immunohistochemistry, molecular pathology, microbiology, neuropathology, ocular pathology and pediatric pathology. Investigators in the department are leading programs developing novel therapeutics utilizing peptides, immunotherapies and stem cells. Residency training has added months in dermopathology and molecular pathology and molecular pathology at Keck Hospital of USC and in cytogenetics at CHLA. The hematopathology fellowship has increased fellowship slots from two to three fellows and added Norris Cancer Hospital and CHLA as affiliated institutions, making this one of the leading hematopathology fellowships in the nation. CHLA has also provided funding for a second neuropathology fellow, and rotations at CHLA have been added in surgical and autopsy neuropathology, molecular genetics and research. The forensic pathology fellowship training program at the Los Angeles County Medical Examiner/Coroner's Office has administrative affiliation with the LAC+USC Medical Center.

The department provides diagnostic laboratory services for the LAC+USC Medical Center, the USC Norris Comprehensive Cancer Center and Hospital, Keck Hospital of USC, the USC Clinical Laboratories Group, and all USC Clinics. Approximately 30 of the department's full-time faculty members work in service laboratories throughout the LAC+USC Medical Center, where they are supported by 40 residents and fellows and a technical and clerical staff numbering in excess of 300. The USC Norris Comprehensive Cancer Center and Hospital and Keck Hospital of USC, as well as the USC clinics, are led by 34 full-time pathologists, two fellows, three residents and approximately 200 technical and support staff.

**Graduate Programs**

**General Admissions**

Applicants to the graduate program in pathology must have a bachelor's degree from an accredited college or university with an undergraduate major in one of the natural sciences; a minimum cumulative GPA of 3.0 for undergraduate work is required. Applicants must submit undergraduate transcripts and letters of recommendation from two undergraduate teachers with their
residency and fellowship programs

the department of pathology offers six first-year residency positions and 24 residency positions in its fully aCGME-accredited four-year training program in anatomic and clinical pathology at the LAC+USC Medical Center. Training is offered in autopsy and surgical pathology, neuropathology, cytology, microbiology, hematopathology, immunohematology, clinical chemistry, toxicology, immunopathology, cytogenticics, cytogeneomics, instrumentation, laborotory management, clinical informatics, electron microscopy, molecular pathology and other specialty areas. the department of pathology also offers the Accreditation Council on Graduate Medical Education (aCGME) fully accredited fellowship training in cytopathology (four positions), hematopathology (three positions), neuropathology (two positions), surgical pathology (seven positions) and forensic pathology (six approved positions). Admissions to residency is exclusively through ERAS (Electronic Residency Application Service) and the NRMP (National Resident Matching Program). Applicants to fellowship should contact the fellowship program director and program coordinator directly; the CAP (College of American Pathologists) Universal Fellowship Application Form is accepted by all USC fellowships.

Master's Degree

Experimental and Molecular Pathology (MS)

The department of pathology offers a program for the master of science degree with a major in experimental and molecular pathology. the primary objectives of this program are to provide the necessary theoretical and practical training in experimental pathology that culminates with the master of science degree. Goals of the program are to train students in preparation for senior research staff or senior technician positions in academic or industrial education settings; and physicians in the postgraduate study of medical education.

The division's primary mission is to enhance the quality of medical education by serving as a resource of educational expertise for planning, developing, and evaluating medical education programs and conducting educational research. Similar activities and programs are conducted with various government and private organizations outside the university.

Major research and training interests of the faculty include the instruction of lay persons to be used as standardized patients for teaching and evaluation, case-based learning, pre-med programs for minority students and interactive video systems.

Administratively, the division is an independent unit in Educational Affairs in the Keck school of Medicine. the division also employs 10 staff and research assistants. All activities of the division are conducted at the USC Health Sciences Campus.
Fellowship Programs

Teaching and Learning
A Teaching and Learning Fellowship program is offered to health care professionals who are engaged in teaching. The primary goals of this fellowship are to provide participants with multiple ways to teach and evaluate effectively. Through seminars, fellows will gain increased understanding of basic principles of teaching and learning and achieve the skills necessary to apply principles effectively.

Educational Leadership
An Educational Leadership Fellowship program is available for health care professionals with two primary goals: to prepare participants for understanding and serving in positions of leadership and enhance fellows' personal and professional effectiveness. Seminars will explore transformational change, team and community formation, group dynamics, organizational culture and resources.

Health Professions Teachers
From time to time, the division offers special workshops or seminars in various subject areas related to the improvement of instruction. Division staff members are available to plan these special programs on request.

Master of Academic Medicine
The program addresses the unique population of medical and health professions faculty who are focused on leading the academic enterprise for health professionals at the undergraduate, graduate and continuing education levels. The six-semester program consists of 32 graduate units and employs a hybrid model, combining on-campus face-to-face sessions, blended with online course work. For more information, see the Academic Medicine (MACM) page.

Postgraduate Program
Individually tailored programs of study in medical education are available to visiting postdoctoral fellows who wish to gain an understanding of principles, problems and practices in medical education. These visiting fellows may spend from a few weeks to a year in residence, participating in ongoing projects, seminars, readings and independent study.

Information for individual faculty: profiles.sc-ctsi.org/search/
Chair of the Department of Physiology and Biophysics and Director of the Center for Neurodegeneration and Regeneration at the USC Zilkha Neurogenetic Institute: Berislav V. Zlokovic; MD, PhD
Director, USC Research Center for Liver Diseases, Chief, Division of Gastrointestinal and Liver Diseases, USC Associates/Thomas H. Brem Chair in Medicine, and Veronica P. Budnick, MD, Chair in Liver Disease: Neil Kaplowitz, MD
Professors: Vito M. Campese; Robert H. Chow; Casey Donovan (Exercise Science); Robert A. Farley* (Biochemistry); Caleb Finch (Gerontology and Neurobiology); Michael Goran (Preventive Medicine); Sarah Hamrn-Alvarez (Pharmaceutical/Sciences); Cage Johnson (Professor Emeritus); Neil Kaplowitz (Medicine/Gastroenterology/); Richard Yung; Neil Kaplowitz; MD
Associate Professors: Dwight W. Warren III
*Recipient of university-wide or school teaching award.

Assistant Professors: Jon Detterich; Joyce Rieche
Adjunct Professor: Dwight W. Warren III

*Recipient of university-wide or school teaching award.

The administrative offices of the Department of Physiology and Biophysics are located on the Health Sciences Campus. Faculty of the department are located predominantly at the Health Science Campus.

Master's Degree

Medical Biophysics (MS)
Keith Administration Building 409
1975 Zonal Avenue
Los Angeles, CA 90089-9031
(323) 442-0230
FAX: (323) 442-9031
Program Director: R. Farley, PhD, rfarley@usc.edu

The Medical Biophysics (MBPH) program is designed to attract students who are motivated to pursue graduate degrees in biomedical research areas that require a more quantitative mindset than is demanded in most biomedical research. These students often have backgrounds in mathematics, physics, chemistry and engineering, and are keen to apply their quantitative skills in biomedical research. These potential applicants usually do not apply to the existing MS or PhD programs at USC because faculty members who have research programs of interest to these students often do not have high visibility in the larger existing programs. The MBPH program will include faculty from different departments who have research programs that involve quantitative biophysical laboratory work.

Research areas appropriate for the MBPH program include structural biology, neuroscience, membrane biophysics and theoretical biophysics. As the only organizing unit for biophysics research at USC, the MBPH program will be unique and has the potential both to provide new educational opportunities and to strengthen existing graduate programs at USC.

Admission to the Program
Applications to the MBPH program will normally be processed through the online Graduate Admission Application gradadm.usc.edu/apply/. Potential applicants will be encouraged to inquire about the program by contacting one or more members of the MBPH program graduate committee prior to submitting the online application. Applicants to the MBPH program will usually have completed course work in mathematics (including calculus), physics, chemistry and biological sciences, and will have earned a Bachelor's degree. Applicants will submit either GRE or MCAT test scores, a personal statement explaining the reasons for applying to the MBPH Program, a brief description of any previous or ongoing laboratory research, and three letters of recommendation. Foreign applicants may be required to submit results from a TOEFL examination. Applicants who are deficient in some areas may be required by the MBPH program graduate committee to remedy the deficiencies as a condition of admittance to the program. The MBPH program graduate committee may recommend admission of a candidate after review of the completed applications admission. Admission to the MBPH program is usually made for an applicant to complete the MS thesis research in a specific laboratory, with the expectation that a thesis will be submitted in partial fulfillment of the requirements for the MS in Medical Biophysics degree. For this reason, at least one member of the MBPH program graduate committee must agree to serve as the research mentor for an entering student. Students will be admitted into the MBPH program upon agreement between a faculty mentor and the student that the student will pursue research leading to the MS degree in the laboratory of the faculty mentor. Normally, students are expected to complete the MS in Medical Biophysics program in two years. A five-year limit is allowed for completion of the degree requirements.

Grades and Continued Enrollment
Continuation in the MBPH program requires an average GPA of
3.0 or greater and a "Pass" or "Credit" in all non-graded courses. The MBPH program graduate committee will review each student's progress at the end of each academic semester. At any time after evaluating a student's progress, the MBPH program graduate committee may require a student to pass a screening examination to be eligible to continue in the program. If a student fails to achieve the required metrics or pass a screening examination, the student's guidance committee will recommend either to place the student on a probationary enrollment status with a defined remediation sufficient to remedy the deficiency, to recommend that the student withdraw from the program, or to dismiss the student from the program.

**Course Requirements**

Completion of the MS degree requires satisfactory completion of a minimum of 32 units of graduate study. This total includes formal graded course work, courses and seminars graded "Pass/Fail" or "Credit/No Credit," and research units. No fewer than 16 units of formal graded course work are required for the MS in Medical Biophysics.

**Thesis Defense**

An acceptable thesis based upon completion of an original research investigation is required for the MS in Medical Biophysics. The candidate must defend an approved draft of the thesis in a public oral defense. The Thesis Committee will then meet with the student in a closed session to complete the oral examination. Upon successful completion of the defense, a MS degree in Medical Biophysics is awarded.

If a student does not pass the thesis defense on the first attempt, the MBPH guidance committee may grant a second opportunity to pass according to the policies in the USC Catalogue: “A student who fails the master's examination may be permitted, at the discretion of the faculty, to take it a second time. The retaking of a failed master's examination must be completed before the end of the second consecutive semester (excluding summer session) following the first examination. Requests for exception must be approved by the department chair. A student may not take the master's examination more than twice and must be appropriately enrolled at USC during the semester in which such an examination is taken or retaken. A student who fails the master's examination a second time may not continue in the degree program after the end of the semester in which the second examination was taken. No exceptions are allowed.”

**Required Courses**

All students in the MBPH program are required to take the following courses:

- BIOC 522 Applications of Physical Methods in Biochemistry Units: 2
- CHEM 521 Basic Principles of Physical Methods in Biochemistry Units: 2
- MBPH 550 Seminar in Medical Biophysics Units: 1
- INTD 531 Cell Biology Units: 4
- PHYS 690 Introduction to Physical Biology Units: 3
- CHEM 544 Introduction to Quantum Chemistry Units: 4
- PHYS 558a Quantum Mechanics Units: 3
- In addition, students must receive a Certificate of Completion of INTD 500 no later than the summer following their first semester in the program.
- INTD 500 Ethics and Accountability in Biomedical Research Units: 1

**Elective Courses**

The balance of graded course work should be selected from the following list of courses, or other courses recommended by the Guidance Committee of the student and approved by the Executive Committee.

- CHEM 538 Mathematical Techniques of Physical Chemistry Units: 4
- INTD 549 Protein Chemistry — Structure and Function Units: 4
- MPHY 572 Systems Physiology and Disease I Units: 4
- MPHY 573 Systems Physiology and Disease II Units: 4
- PHBI 651 Molecular Modeling and Kinetic Simulations in Membrane Transport Units: 2
- PHBI 650 Mechanisms of Ion and Solute Transport Across Cell Membranes Units: 2
- PHYS 516 Methods of Computational Physics Units: 3
- PHYS 518 Thermodynamics and Statistical Mechanics Units: 3

**Note:**

As described above, the executive committee may modify the list of required and recommended courses.

**Medical Physiology (MS)**

Keith Administration Building 409
1975 Zonal Avenue
Los Angeles, CA 90089-9031
(323) 442-0230
FAX: (323) 442-9031

**Program Director:** H. Kaslow, PhD, hrkaslow@usc.edu

Physiology is the study of the functions and activities of life and living matter at all levels of organization within an organism. While physiology research is frequently at the molecular level, the tradition of the discipline challenges the researcher to consider all homeostatic and developmental functions of an organism. This tradition can guide research efforts seeking to identify causes of disease and critical physiological functions possessing therapeutic and health-promoting opportunities. The Medical Physiology program focuses on the research experience of the thesis track but in special circumstances will consider applications to the non-thesis track.

**Admission**

Applicants to the Master of Science in Medical Physiology (MPHY) program will have earned a bachelor's degree and completed course work in mathematics (including calculus), physics, chemistry and biological sciences. To be considered, applicants must complete a USC Graduate Admissions application and submit either GRE or MCAT test scores, a brief personal statement explaining the reasons for applying to the program, official transcripts from all academic institutions previously attended and three letters of recommendation. Foreign applicants are required to submit results from a TOEFL or IELTS examination. Potential applicants are encouraged to submit questions regarding the program and application process to the Medical Physiology Graduate Program Office prior to submitting the formal application (physiology@usc.edu). In the personal statement, applicants must specify whether they are applying to the thesis- or non-thesis track and the rationale for that decision. Normally, admission will be in the thesis track and a recommendation to admit an applicant will require MPHY graduate committee approval of an agreement between an applicant and a faculty member who will serve as mentor of the thesis project. The agreement shall specify the general research area of the thesis.

The Medical Physiology graduate program participates in the USC Progressive Master's Degree Program and seeks applications from qualified students (usc.edu/programs/aggprograms/progressive).

**Course Requirements**

The master's degree in Medical Physiology requires the completion of at least 32 graduate-level units with a grade point average of 3.0. All students are required to take the following: INTD 531, INTD 561, MPHY 572, MPHY 573, MPHY 590, PM 510L, and at least 2 units in either INTD 574, PHBI 550 or a seminar course approved by the program director. Elective courses must be approved by the director of the MPHY Graduate Program. Students may pursue a thesis option, which requires completion of MPHY 594a, MPHY 594b, MPHY 594c. The thesis track is required when students take less than 26 units of non-research units (i.e., more than 6 research units out of the 32 units required for graduation). Students pursuing a non-thesis option must complete 32 units of approved course work.

**Continued enrollment:** Continued enrollment in the program requires an average GPA of at least 3.0, a grade of at least B in MPHY 572 and MPHY 573. Beginning no later than the second year of enrollment, students must enroll in PHBI 530, INTD 574, or equivalent, and achieve a grade of at least B, "Pass" or "Credit." At
any time, after evaluating a student's progress, the MPH Graduate Committee, at its discretion, may require a student pass a screening examination to be eligible to progress to the third or later semester of graduate study. If a student fails to achieve these metrics or pass a screening examination, the MPH Graduate Committee will make a recommendation as to whether or not to place the student on probationary enrollment with a defined remediation sufficient to remedy the deficiency or to recommend the student withdraw or be dismissed from the program.

Thesis track:
The thesis work of a student in the thesis track will be conducted under the guidance of a Master's Student Thesis Committee, which shall consist of at least:
1. The student's advisor who shall chair the committee and be a tenure-track member of the MPH Graduate Committee.
2. The student's thesis mentor if not the same faculty member as the adviser.
3. One additional tenure-track faculty member of the Department of Physiology and Biophysics.
4. One additional tenure-track faculty member.

Final Examination: Passing the examination requires: 1) submission of a thesis document describing the work of the thesis, and 2) an oral defense of the thesis both to the satisfaction of the Thesis Committee. The thesis document shall be distributed to the student's Master's Thesis Committee and a copy provided to the Medical Physiology Graduate Program Office at least two weeks prior to the oral examination. If the document is not provided by that date, then the oral examination shall be rescheduled to accommodate this requirement. Final acceptance of the document and passage of the oral examination requires the unanimous recommendation of all members of the thesis committee. If the student does not pass the examination on the first attempt, at its discretion the MPH Graduate Committee may grant a second opportunity to pass the examination according to policies in the USC Catalogue.

Non-thesis track:
Final Examination. A comprehensive examination replaces the thesis defense. The MPH Graduate Committee shall appoint a member of the MPH Graduate Committee to supervise the final examination process (the "Examination Supervisor"). The examination shall be on a topic approved by the Examination Supervisor and consist of: 1) a document sufficiently discussing the topic, and 2) passing an oral examination on the substance of the topic. The document shall be submitted to the Examination Supervisor at least two weeks prior to the oral examination. If the document is not provided by that date, then the oral examination shall be rescheduled to accommodate this requirement. To qualify as the final examination, all the faculty of the MPH Graduate Committee shall be invited to attend the presentation with notice given at least two weeks in advance and at least three members of the MPH Graduate Committee or alternates selected by the program director shall attend.

The Dr. Robert C. and Veronica Atkins Chair in Childhood Obesity and Diabetes: Michael I. Goran, PhD

The Department of Preventive Medicine is responsible for training medical, graduate and undergraduate students in the areas of biostatistics, epidemiology, health behavior research, public health and preventative medicine. Faculty from the statistical genetics and molecular epidemiology department also perform research in the areas of biostatistics, epidemiology of acute and chronic diseases, and environmental health.

The undergraduate and graduate programs offered by the department are noteworthy for the extensive opportunities offered to the students for involvement in faculty research. It is not uncommon for students to begin working closely with faculty members on research projects as early as their first or second year of study.

### Degree Programs

The Department of Preventive Medicine offers the following degree programs:

- **BS in Global Health**
- **BS in Health Promotion and Disease Prevention Studies**
- **BS in Health Promotion and Disease Prevention/Master of Public Health**
- **BS in Health Promotion and Disease Prevention/MS in Biostatistics**
- **BS in Health Promotion and Disease Prevention/MS in Molecular Epidemiology**
- **BS in Dental Hygiene/Master of Public Health**
- **MS in Applied Biostatistics/Epidemiology**
- **MS in Molecular Epidemiology**
- **MS in Biostatistics**
- **Master of Public Health**
- **Master of Public Health (online)**
- **Master of Public Health/Doctor of Medicine**
- **Master of Public Health (Health Promotion)/PhD in Psychology (Clinical)**
  - Master of Public Health/PharmD
  - Master of Public Health/Master of Planning
  - Master of Public Health/Master of Social Work
  - PhD in Biostatistics
  - PhD in Epidemiology
  - PhD in Preventive Medicine (Health Behavior Research)

The Department of Preventive Medicine also offers the following undergraduate minor programs:

- Minor in Cinema-Television for the Health Professions
- Minor in Cultural Competence in Medicine
- Minor in Environmental Health
- Minor in Global Health

The PharmD/Master of Public Health program spans five years (four years of pharmacy school courses and one year of public health courses). Students begin the core MPH courses following the successful completion of the first year of pharmacy school. The last three years of the program are devoted to the clinical rotations of the School of Pharmacy and to the completion of the elective courses and practicum (field experience) of the MPH program.

All students in the PharmD/MPH program must meet course requirements, grade point average requirements and program residency requirements of both programs. Students must have a cumulative GPA of 3.0 in the PharmD curriculum and a 3.0 in the MPH curriculum to meet graduation requirements.

The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

### Application and Admissions Requirements

Students may apply to the dual PharmD/MPH degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD.
with a minimum 3.0 G.P.A. Students who are accepted only by one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the PharmD prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MPH program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 G.P.A. Students accepted to the dual degree program must maintain a minimum 3.0 G.P.A. in Public Health and PharmD courses.

**MD/Master of Public Health**

The joint MD/MPH program at the Keck School of Medicine is designed for individuals who envision a medical career that combines public health and medical disciplines. For further information about the joint program, refer to the program page.

**Bachelor's Degree**

**Global Health Studies (BS)**

837 Downey Way
Stoner Hall, Suite 101
Los Angeles, CA 90089-1149
Director: Elahe Nezami, PhD
(213) 740-1060
FAX: (213) 821-1733
Email: bhealthy@usc.edu
hpdp.usc.edu

The Bachelor of Science in Global Health is a multidisciplinary degree of the Keck School of Medicine's Department of Preventive Medicine. This undergraduate program offers an examination of public health and policy issues in the context of global affairs. Students complete course work from Health Promotion and Disease Prevention Studies and International Relations in addition to requirements from other schools of the university. The program provides students with a strong background in understanding and evaluating global health issues and prepares students to become health professionals with international competencies. This program is an ideal major for students interested in medicine, pharmacy, dentistry, international relations, public health, epidemiology, health psychology and health behavior research.

**Program Requirements**

The Bachelor of Science degree is awarded after students successfully complete 128 units, consisting of 66 units for the major and fulfillment of USC general education requirements including third semester equivalency in a foreign language.

**General Education Requirements**

The university’s general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. For more information about USC’s general education requirements, see General Education.

**Requirements for the Major (66 units)**

The program is divided into core and elective components. As part of the core research requirements, students must complete a directed research requirement, HP 490, with a specific international research focus.

The core component (42–46 units) is required for all students.

**Core Courses (32 Units)**

- BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
- BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

- CHEM 105aLg General Chemistry Units: 4 or
- CHEM 115aLg Advanced General Chemistry Units: 4

- ECON 203g Principles of Microeconomics Units: 4
- HP 270 Introduction to Global Health Units: 4
- HP 320 Biological and Behavioral Basis of Disease Units: 4
- HP 470 Case Studies in Global Health Units: 4
- IR 308w Economic Globalization Units: 4
- MATH 125g Calculus I Units: 4

**Core Research Courses (10-16 Units)**

- HP 340L Health Behavior Statistical Methods Units: 4
- HP 350L Health Behavior Research Methods Units: 4
- HP 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, max 12

**Note:** Students must choose 24 units of elective course work from the following lists. At least 8 units must be from HP and at least 8 units must be from IR.

**HP Electives (Minimum 8 Units)**

- HP 300 Theoretical Principles of Health Behavior Units: 4
- HP 365gm Culture, Lifestyle, and Health Units: 4
- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 402 Maternal and Child Health Units: 4
- HP 403 Behavioral Medicine Units: 4
- HP 404 Religion and Health Units: 4
- HP 405 Sexually Transmitted Diseases: A Global Public Health Priority Units: 4
- HP 408 Environmental Health in the Community Units: 4
- HP 409 Environmental Impacts on the Brain Units: 4
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
- HP 411 Drug Intervention Program Design and Evaluation Units: 4
- HP 412 Health Promotion and Prevention Policy Units: 4
- HP 420n Gender and Minority Health Issues Units: 4
- HP 421 Violence as a Public Health Issue Units: 4
- HP 422 AIDS in Society Units: 4
- HP 430 Obesity and Health Units: 4
- HP 431 Behavior and Education Strategies for Nutrition and Fitness Units: 4
- HP 432 Clinical Nutrition Units: 4
- HP 433 Advanced Topics in Nutrition Units: 4
- HP 434 Physical Activity and Health Units: 4
- HP 440 Happiness, Well-Being, and Health Units: 4
- HP 441 Health Promotion in the Workplace Units: 4
- HP 442 Chronic Disease Epidemiology Units: 4
- HP 443 Communicating Health Messages and Medical Issues Units: 4
- HP 446 Poisons, People, and Politics Units: 4
- HP 448 Global Environmental Changes and Health Units: 4
- HP 450 Traditional Eastern Medicine and Modern Health Units: 4
- HP 460 Adolescent Health Units: 4
- HP 465 Health Status of Indigenous Peoples of America Units: 4
- HP 470 Case Studies in Global Health Units: 4
- HP 483 Global Health and Aging Units: 4
- HP 485 Global Health: Obesity and Nutrition Units: 4

**IR Electives (Minimum 8 Units)**

- IR 305w Managing New Global Problems Units: 4
- IR 306 International Organizations Units: 4
- IR 307 Contemporary International Politics Units: 4
- IR 308w Economic Globalization Units: 4
- IR 309 Global Governance Units: 4
- IR 315 Ethnicity and Nationalism in World Politics Units: 4
- IR 316 Gender and Global Issues Units: 4
Program Requirements
The Bachelor of Science degree is awarded after students successfully complete 128 units, consisting of 66 units for the major and fulfillment of USC general education requirements including third semester equivalency in a foreign language.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. For more information about USC's general education requirements, see General Education.

Requirements for the Major (66 units)
The program is divided into core and elective components. The following core component (42 units) is required of all students.

Non-HP Courses (20 Units)
- BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4 or
- BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
- CHEM 320L Molecular Biology Units: 4
- CHEM 330L Biochemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4
- GERG 483 Global Health and Aging Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4 or
- PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Physics for the Life Sciences Units: 4 or
- PHYS 152L Fundamental of Physics II: Electricity and Magnetism Units: 4
- POUSC 442m The Politics of Human Differences: Diversity and Discrimination Units: 4
- POUSC 451 Politics of Resources and Development Units: 4
- POUSC 456 Women in International Development Units: 4
- PPD 250m Cities in the Developing World Units: 4
- PPD 382 International Development Units: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4
- SOCI 460 Key Issues in Contemporary International Migration Units: 4
- SOCI 470 Social Change in Low-Income Countries Units: 4

Health Promotion and Disease Prevention Studies (BS)

Email: bhealthy@usc.edu
hpdp.usc.edu

The undergraduate program in Health Promotion and Disease Prevention Studies (HP) provides a well-rounded, professionally focused education leading to the Bachelor of Science degree. The program is concerned with the sociocultural, behavioral, psychological, and biological factors contributing to wellness and disease. It is an ideal major for students interested in medicine, pharmacy, dentistry, public health, epidemiology, health psychology and health behavior research. Areas of study include: global health; cultural diversity in medicine; substance abuse prevention and program planning; nutrition and fitness; health promotion of minority and underserved populations; and general public health issues (e.g., HIV/AIDS, violence, health promotion in the workplace and behavioral medicine).

Electives (24 Units)
- BISC 320L Molecular Biology Units: 4
- BISC 330L Biochemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
- CHEM 105aLg General Chemistry Units: 4
- CHEM 115bL Advanced General Chemistry Units: 4
- CHEM 322aL Organic Chemistry Units: 4
- CHEM 322bL Organic Chemistry Units: 4
- PHYS 135bL Physics for the Life Sciences Units: 4
- PHYS 135ag Physics for the Life Sciences Units: 4
- PHYS 151Lg Fundamental of Physics I: Mechanics and Thermodynamics Units: 4
- PHYS 152L Fundamental of Physics II: Electricity and Magnetism Units: 4
- POUSC 442m The Politics of Human Differences: Diversity and Discrimination Units: 4
- POUSC 451 Politics of Resources and Development Units: 4
- POUSC 456 Women in International Development Units: 4
- PPD 250m Cities in the Developing World Units: 4
- PPD 382 International Development Units: 4
- SOCI 432m Racial and Ethnic Relations in a Global Society Units: 4
- SOCI 460 Key Issues in Contemporary International Migration Units: 4
- SOCI 470 Social Change in Low-Income Countries Units: 4
- MATH 125g Calculus I Units: 4
- MATH 108g Contemporary Precalculus Units: 4
- MATH 125g Calculus I Units: 4
- GEOR 483 Global Health and Aging Units: 4
- IR 323 Politics of Global Environment Units: 4
- IR 325 North-South Relations in the Global Economy Units: 4
- IR 339 Public Health and International Relations Units: 4
- IR 344 Developing Countries in World Politics Units: 4
- IR 349 International Law and Politics Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- IR 422 Ecological Security and Global Politics Units: 4
- IR 424w Citizenship and Migration in International Politics Units: 4
- IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
- IR 422 Ecological Security and Global Politics Units: 4
- HP 350L Health Behavior Research Methods Units: 4
- HP 200 Introduction to Health Promotion and Disease Prevention Units: 2, 3, 4
- HP 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, max 12

Advanced HP and Health Profession Preparatory Courses
A total of 24 units of electives are required of all students (at least 12 of the 24 must be HP courses).

Electives (24 Units)
- BISC 320L Molecular Biology Units: 4
- BISC 330L Biochemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
- CHEM 105aLg General Chemistry Units: 4
Minor

Cinema-Television for the Health Professions Minor

This minor introduces pre-health students to the theory and techniques of the cinematic arts and to a set of media practices useful for the implementation of health promotion strategies. This minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in working with film and television producers to disseminate accurate health information to the public. It complements major programs such as biological sciences, chemistry, kinesiology, and environmental studies.

Required Courses (24 Units)

- CTCS 190g Introduction to Cinema Units: 4
- HP 345 Health Issues in Entertainment Media Units: 4

Two of the following:

- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 408 Environmental Health in the Community Units: 4
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
- HP 420m Gender and Minority Health Issues Units: 4
- HP 421 Violence as a Public Health Issue Units: 4
- HP 422 AIDS in Society Units: 4

Eight additional units from the following:

- CTCS 400 Non-Fiction Film and Television Units: 4
- CTPR 301 Creating the Non-Fiction Film Units: 4
- CTPR 375 Functions of a Director Units: 4
- CTPR 385 Colloquium: Motion Picture Production Techniques Units: 4
- CTPR 474 Documentary Production Units: 4
- CTWR 315x Filmwriting Units: 3
- CTWR 412 Introduction to Screenwriting Units: 2
- CTWR 416 Motion Picture Script Analysis Units: 2

Cultural Competence in Medicine Minor

This minor is designed for students who plan to enter careers or professional programs in medicine after graduation and are interested in using cultural knowledge to provide more effective health care. The minor focuses on cultural differences in the understanding of health, disease, health care and risk factors unique to specific populations. The minor provides a foundation for students who want to become effective health care providers in an increasingly diverse society. It complements major programs such as biological sciences, chemistry, kinesiology, and environmental studies.

Required Courses (20 Units)

- HP 200 Introduction to Health Promotion and Disease Prevention Units: 4
- HP 365gmw Culture, Lifestyle, and Health Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 420m Gender and Minority Health Issues Units: 4

One of the following:

- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 402 Maternal and Child Health Units: 4
- HP 408 Environmental Health in the Community Units: 4
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
- HP 421 Violence as a Public Health Issue Units: 4
- HP 422 AIDS in Society Units: 4
- HP 442 Chronic Disease Epidemiology Units: 4
- HP 450 Traditional Eastern Medicine and Modern Health Units: 4
- HP 460 Adolescent Health Units: 4
- PSYC 462m Culture and Mental Health Units: 4

Environmental Health Minor

This minor provides students with a basic understanding of environmental health and its challenges. Curriculum will focus on global health, epidemiology (as it relates to environmental exposures), toxicology and exposure science. Students will be prepared to address and prevent environmental health hazards, promote public health and contribute to the resolution of various environmental health challenges. This minor is ideal for pre-health majors across the university.

Required Courses (20 Units)

- HP 200 Introduction to Health Promotion and Disease Prevention Units: 4
- HP 320 Biological and Behavioral Basis of Disease Units: 4
- HP 408 Environmental Health in the Community Units: 4
- HP 446 Poisons, People, and Politics Units: 4
- HP 448 Global Environmental Changes and Health Units: 4
Note:  
*Prerequisite required

Global Health Minor  
This minor provides students with a basic understanding of the factors that determine the health of populations around the globe. Curriculum focuses on the cultural, environmental and clinical aspects of various health topics such as maternal and child health, aging, obesity, infectious disease and others. By studying these issues, students from majors across the university will be prepared to assess and contribute to the resolution of emerging global health challenges. This minor will appeal to a wide variety of majors, particularly majors centered on international affairs, business and health care.

Required Courses (20 Units)  
• HP 270 Introduction to Global Health Units: 4  
• HP 470 Case Studies in Global Health Units: 4

Three of the following:  
• GER 483 Global Health and Aging Units: 4  
• HP 365gmw Culture, Lifestyle, and Health Units: 4  
• HP 401 Cultural Competence in Medicine Units: 4  
• HP 402 Maternal and Child Health Units: 4  
• HP 422 AIDS in Society Units: 4

Health Communication Minor  
This minor is designed to appeal to students with a wide range of interests, including those with a general interest in promoting healthy lifestyle practices through effective communication. These students will be prepared to seek jobs in areas such as the managed care industry, hospitals, wellness programs, broadcast and cable companies, and private and governmental agencies, as well as other organizations looking for experts with demonstrated knowledge in health-related fields.

Required Courses (20 Units)  
• COMM 302 Persuasion Units: 4  
• COMM 385 Organizational Communication Units: 4  
• COMM 443 Communicating Health Messages and Medical Issues Units: 4  
• HP 200 Introduction to Health Promotion and Disease Prevention Units: 4

One of the following:  
• COMM 304 Interpersonal Communication Units: 4  
• COMM 308 Communication and Conflict Units: 4  
• COMM 315 Health Communication Units: 4  
• COMM 324m Intercultural Communication Units: 4  
• COMM 375 Business and Professional Communication Units: 4  
• COMM 402 Public Communication Campaigns Units: 4  
• COMM 480 Nonverbal Communication Units: 4  
• COMM 486 Human and Technological Systems in Organizations Units: 4  
• HP 365gmw Culture, Lifestyle, and Health Units: 4  
• HP 370g Introduction to Epidemiology: Methods and Applications Units: 4  
• HP 401 Cultural Competence in Medicine Units: 4  
• HP 402 Maternal and Child Health Units: 4  
• HP 403 Behavioral Medicine Units: 4  
• HP 408 Environmental Health in the Community Units: 4  
• HP 412 Health Promotion and Prevention Policy Units: 4  
• HP 420m Gender and Minority Health Issues Units: 4  
• HP 421 Violence as a Public Health Issue Units: 4  
• HP 422 AIDS in Society Units: 4  
• HP 430 Obesity and Health Units: 4  
• HP 442 Chronic Disease Epidemiology Units: 4

Nutrition and Health Promotion Minor  
This minor is designed to appeal to students interested in nutrition, especially in preparation for graduate study in health-related fields (e.g., medicine, public health) or to enter health-related fields of employment. The focus of the minor is on assessing, planning and evaluating dietary intake of individuals or groups under various conditions of health and disease based upon principles of nutrition and behavioral science. Students in this minor will study factors associated with dietary habits and the development of effective individual and group interventions. It complements majors including psychology, gerontology, biological sciences, chemistry, kinesiology and environmental studies.

Required Courses (20 Units)  
• HP 230 Nutrition and Health Units: 4  
• HP 430 Obesity and Health Units: 4  
• HP 431 Behavior and Education Strategies for Nutrition and Fitness Units: 4

Two of the following:  
• HP 365gmw Culture, Lifestyle, and Health Units: 4  
• HP 370g Introduction to Epidemiology: Methods and Applications Units: 4  
• HP 401 Cultural Competence in Medicine Units: 4  
• HP 402 Maternal and Child Health Units: 4  
• HP 403 Behavioral Medicine Units: 4  
• HP 412 Health Promotion and Prevention Policy Units: 4  
• HP 420m Gender and Minority Health Issues Units: 4  
• HP 432 Clinical Nutrition Units: 4  
• HP 433 Advanced Topics in Nutrition Units: 4  
• HP 460 Adolescent Health Units: 4  
• HP 480 Internship in Health Promotion and Disease Prevention Units: 2, 3, 4, max 4  
• HP 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, max 12

Public Health Minor  
This minor is designed for students interested in a broad array of health issues. The focus of the minor is on reducing disability and mortality from avoidable injuries and chronic disease, educating the community about healthy lifestyles, assuring access to health care, and measuring changes using various indicators over time. This minor teaches students to meet the challenges of the changing environment of the health care system. It complements a number of majors including psychology, sociology, American studies and ethnicity, biological sciences, economics, environmental studies, kinesiology, gender studies, international relations, philosophy, religion, gerontology and political science.

Required Courses (20-24 Units)  
• HP 200 Introduction to Health Promotion and Disease Prevention Units: 4  
• PPD 330 Introduction to Health Care Systems Units: 4

Three of the following:  
• HP 365gmw Culture, Lifestyle, and Health Units: 4  
• HP 370g Introduction to Epidemiology: Methods and Applications Units: 4  
• HP 401 Cultural Competence in Medicine Units: 4  
• HP 402 Maternal and Child Health Units: 4  
• HP 403 Behavioral Medicine Units: 4  
• HP 408 Environmental Health in the Community Units: 4  
• HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4  
• HP 412 Health Promotion and Prevention Policy Units: 4  
• HP 420m Gender and Minority Health Issues Units: 4  
• HP 421 Violence as a Public Health Issue Units: 4  
• HP 422 AIDS in Society Units: 4  
• HP 430 Obesity and Health Units: 4  
• HP 441 Health Promotion in the Workplace Units: 4  
• HP 442 Chronic Disease Epidemiology Units: 4  
• HP 460 Adolescent Health Units: 4

Substance Abuse Prevention Minor  
This minor offers students an opportunity to gain an overall understanding of substance abuse as a major modifiable risk factor for illness. It allows students to learn theories of behavior change, to understand the issues in prevention and cessation of drug abuse, and to develop, implement, and evaluate intervention strategies. It
complements a number of majors including psychology, sociology, American studies and ethnicity, biological science and gerontology.

**Required Courses (24 Units*)**
- HP 200 Introduction to Health Promotion and Disease Prevention Units: 4
- HP 300 Theoretical Principles of Health Behavior Units: 4 *
- HP 410 Issues in Prevention and Cessation of Drug Abuse Units: 4
- HP 411 Drug Intervention Program Design and Evaluation Units: 4

**One of the following:**
- HP 365gmw Culture, Lifestyle, and Health Units: 4
- HP 370g Introduction to Epidemiology: Methods and Applications Units: 4
- HP 401 Cultural Competence in Medicine Units: 4
- HP 402 Maternal and Child Health Units: 4
- HP 403 Behavioral Medicine Units: 4
- HP 412 Health Promotion and Prevention Policy Units: 4
- HP 421 Violence as a Public Health Issue Units: 4

**Note:**
*Including prerequisite

**Master's Degree**

**Applied Biostatistics/Epidemiology (MS)**

The department encourages applicants with undergraduate degrees in allied health, pharmacology, public health, medicine, biological and clinical sciences or other related fields. Undergraduate preparation should have included applied statistics, college algebra, an introductory course in calculus and basic computer programming. Applicants should also meet the minimum requirements for admission to the Graduate School. Demonstrated proficiency in the English language is essential. With approval of the Graduate School, applicants not meeting these requirements may be conditionally admitted contingent upon maintaining a GPA of 3.0 for the first 12 units of graduate study.

**Course Requirements**

General requirements include at least 38 units of required courses as follows: 25 units of core courses and at least 9 units of elective courses. In addition, each student must register for 4 units of PM 594a Master's Thesis, PM 594b Master's Thesis and write a master's thesis.

**Core Courses (25 Units)**
- PM 510L Principles of Biostatistics Units: 4
- PM 511L Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 517a Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4

**Electives (At Least 9 Units)**
- PM 511L Data Analysis Units: 4
- PM 511L Data Analysis Units: 4
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 517b Research Methods in Epidemiology Units: 3
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
- PM 560 Statistical Programming With R Units: 2
- PM 569 Spatial Statistics Units: 3
- PM 574 Programming In Modern Statistical Software Units: 2
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 588 The Practice of Epidemiology Units: 4
- PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 611 Advanced Topics in Epidemiology Units: 3

**Thesis (4 Units)**
- PM 594a Master's Thesis Units: 2
- PM 594b Master's Thesis Units: 2

**Additional Requirements**

Electives will be determined by the student's needs and interests and will be approved by the student's adviser. When appropriate, courses not listed above may be chosen with approval of the student's adviser. Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

**Thesis Requirement**

A master's thesis is required of all students. This thesis consists of a research project approved by the faculty and chosen from problems encountered within the department, in other departments of the Keck School of Medicine or university or elsewhere in the community.

**Biostatistics (MS)**

The department encourages applicants with undergraduate degrees in mathematics, statistics or biostatistics, computer science or other related fields. Undergraduate preparation should have included differential and integral calculus, introduction to mathematical statistics, and basic computer programming. Applicants should also meet the minimum requirements for admission to the Graduate School. Demonstrated proficiency in the English language is essential. With approval of the Graduate School, applicants not meeting these requirements may be conditionally admitted contingent upon maintaining a GPA of 3.0 for the first 12 units of graduate study.

**Course Requirements**

General requirements include at least 39 units of required courses as follows: 28 units of core courses and at least 7 units of elective courses. Each student must also register for 4 units of PM 594a Master's Thesis, PM 594b Master's Thesis and write a master's thesis.

**Core Courses (28 Units)**
- PM 510L Principles of Biostatistics Units: 4
- PM 511L Data Analysis Units: 4
- PM 511L Data Analysis Units: 4
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 517b Research Methods in Epidemiology Units: 3
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
- PM 560 Statistical Programming With R Units: 2
- PM 569 Spatial Statistics Units: 3
- PM 574 Programming In Modern Statistical Software Units: 2
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 588 The Practice of Epidemiology Units: 4
- PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 611 Advanced Topics in Epidemiology Units: 3

**Electives (At Least 7 Units)**
- PM 511L Data Analysis Units: 4
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 520L Advanced Statistical Computing Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 534 Statistical Genetics Units: 4
- PM 544L Multivariate Analysis Units: 3, 2 years
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
- PM 552 Statistical Methods in Clinical Trials Units: 3, 2 years
- PM 560 Statistical Programming With R Units: 2
- PM 569 Spatial Statistics Units: 3
- PM 574 Programming In Modern Statistical Software Units: 2
The MS program requires 38 graduate-level units with a minimum grade point average of 3.0 including Epidemiology core courses, 15 units; Biological Sciences core courses, 12 units; at least 3 elective units; Research plus Thesis, 8 units. Students must also complete a Master's thesis.

**Epidemiology Core Courses (15 Units)**

- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 588 The Practice of Epidemiology Units: 4
- PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 603 Structural Equation Modeling Units: 4, 2 years
- PM 604 Health Behavior Research Methods Units: 4

**OR**

- MATH 542L Analysis of Variance and Design Units: 3
- MATH 543L Nonparametric Statistics Units: 3
- MATH 545L Introduction to Time Series Units: 3
- MATH 547 Mathematical Foundations of Statistical Learning Theory Units: 3
- MATH 548 Sequential Analysis Units: 3
- MATH 550 Sample Surveys Units: 3

**Thesis (4 Units)**

- PM 594a Master's Thesis Units: 2
- PM 594b Master's Thesis Units: 2

**Additional Requirements**

The student's choice of elective courses will be directed by needs and interests and must be approved by the student's graduate adviser. When appropriate, elective courses not listed above may be substituted with approval of the adviser. Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

**Molecular Epidemiology (MS)**

Students with a bachelor's degree in quantitative biological sciences will be eligible for admission. In addition, the BA students must have completed at least one year of general biology, one semester of biochemistry and one semester of statistics to be admitted into the Graduate School. Under unusual circumstances, conditional acceptance will be offered to students who do not meet these requirements — allowing them to complete the missing undergraduate courses prior to their full admission into the Graduate School. An introductory biochemistry class is also available in the School of Pharmacy, which may satisfy the biochemistry prerequisite.

**Course Requirements**

The MS program requires 38 graduate-level units with a minimum grade point average of 3.0 including Epidemiology core courses, 15 units; Biological Sciences core courses, 12 units; at least 3 elective units; Research plus Thesis, 8 units. Students must also complete a Master's thesis.

**Epidemiology Core Courses (15 Units)**

- PM 511aL Data Analysis Units: 4
- PM 511bL Data Analysis Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 533 Genetic and Molecular Epidemiology Units: 3

**Admission Requirements**

We offer Fall, Spring and Summer admissions into the program. For Fall admissions applications need to be submitted by June 15. For Spring admissions applications need to be submitted by November 15 and Summer deadline is April 15. Applicants will be considered on a rolling base. Applicants should hold a baccalaureate degree or foreign equivalent, and have a cumulative GPA of 3.0 or greater from their most recent degree. All applicants must take the GRE unless they have a doctoral degree.

**Biological Sciences Core Courses (12 Units)**

- BIOC 575 Predictive and Prognostic Biomarkers in Cancer Treatment Units: 2
- INTD 504 Molecular Biology of Cancer Units: 4, 2 years
- INTD 522 Infection and Host Responses Units: 4
- INTD 531 Cell Biology Units: 4
- INTD 549 Protein Chemistry — Structure and Function Units: 4
- INTD 550 Introduction to Pathology Units: 4
- INTD 551 Pathobiology of Disease Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 571 Biochemistry Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 532 Genetics in Public Health and Preventive Medicine Units: 4
- PM 554 Biological Effects of Environmental Toxins Units: 4
- PM 572 Systems Physiology and Disease I Units: 4
- PM 573 Systems Physiology and Disease II Units: 4

**Electives (At Least 3 Units)**

- PM 517a Research Methods in Epidemiology Units: 3
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 534 Statistical Genetics Units: 4
- PM 537 Chronic Disease Epidemiology Units: 4
- PM 549 Human Molecular Genetics Units: 4
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
- PM 553 Human Exposure Assessment for Public Health Units: 4
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 560 Statistical Programming With R Units: 2
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 574 Programming In Modern Statistical Software Units: 2
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 586 Reproductive and Perinatal Epidemiology Units: 4
- PM 588 The Practice of Epidemiology Units: 4

**Research + Thesis (8 Units)**

Research towards the MS thesis can be conducted in combinations of wet and dry labs or dry labs only, and should consist of original work worth of submitting for publication in a peer-review journal. Research can be conducted at a wet or dry lab in Preventive Medicine, Biochemistry, or Pathology. However, a Preventive Medicine faculty needs to be included as co-chair if a thesis supervisor is selected from another department.

- PM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 594a Master's Thesis Units: 2
- PM 594b Master's Thesis Units: 2

**Public Health (MPH)**

The MPH program is offered in two formats: the traditional format (on-campus) and via distance learning (online). The traditional MPH program allows students to choose from eight tracks: Health Education and Health Promotion, Biostatistics/Epidemiology, Health Communication, Child and Family Health, Global Health Leadership, Health Services and Policy, Environmental Health, and Generalist. The online program allows students to choose from five tracks: Health Education and Promotion, Biostatistics/Epidemiology, Global Health Leadership, Health Services and Policy, and GeoHealth. The curriculum includes a set of core courses for each track and electives. The program also includes a capstone course and an internship placement that integrates academic and practical experiences and prepares individuals to work in governmental and non-governmental organizations in health-related fields.

The master's degree program in public health (MPH) requires a minimum of 47 semester units of required and elective graduate study.
Core Requirements
- PM 501 Foundations in Health Education and Promotion Units: 4
- PM 508 Health Service Delivery in the U.S. Units: 4 or
- PM 509 Comparative Health Care Systems Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 564 Public Health Leadership and Management Units: 3

Additional Requirements
In addition, at least another 20 to 24 units including the practicum and capstone, must be completed in their selected track of study.

Track 1: Health Education and Health Promotion
Required Courses (12 Units)
- PM 526 Communications in Public Health Units: 4 * or
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4 *
- PM 528 Program Design and Evaluation Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4
At least 4 units from the following**:  
- PM 514 Sexually Transmitted Infections: a Systems Approach Units: 4
- PM 525 Culture and Health: Global Perspectives Units: 4
- PM 526 Communications in Public Health Units: 4 *
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 536 Program Evaluation and Research Units: 4
- PM 542 Social Network Analysis Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4 *
- PM 564 Public Health Leadership and Management Units: 3
- PM 587 Qualitative Research Methods in Public Health Units: 4

Additional Requirements
At least 4 units from any 500- or 600-level course**
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

*May not receive credit for both track core and track elective category.
**Distance learning track elective and elective options are limited. Students should consult their adviser for guidance about available options.

Track 2: Biostatistics/Epidemiology
Required Courses (At Least 12 Units)
- PM 511L Data Analysis Units: 4
- PM 511Lb Data Analysis Units: 4
Select one course from the following:
- PM 527 Epidemiology of Infectious Disease Units: 4 *
- PM 536 Program Evaluation and Research Units: 4 *
- PM 537 Chronic Disease Epidemiology Units: 4 *
At least 4 units from the following**:  
- PM 514 Sexually Transmitted Infections: a Systems Approach Units: 4
- PM 517a Research Methods in Epidemiology Units: 3
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4 *
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 532 Genetics in Public Health and Preventive Medicine Units: 4
- PM 536 Program Evaluation and Research Units: 4 *
- PM 537 Chronic Disease Epidemiology Units: 4 *
- PM 542 Social Network Analysis Units: 4
- PM 546 Biological Threats and Terrorism Units: 4
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 587 Qualitative Research Methods in Public Health Units: 4
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4
- PM 523 Design of Clinical Studies Units: 3
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 586 Reproductive and Perinatal Epidemiology Units: 4

Additional Requirements
At least 4 units from any 500- or 600-level course**
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

Track 3: Health Communication
Required Courses (8 Units)
- PM 526 Communications in Public Health Units: 4
- PM 536 Program Evaluation and Research Units: 4
At least 8 units from:
- CMGT 510 Communication, Values, Attitudes and Behavior Units: 4
- CMGT 511 Health Communication Units: 4
- CMGT 528 Web Designs for Organizations Units: 4
- CMGT 583 Social Marketing and Entertainment Education Units: 4
- CMGT 587 Audience Analysis Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 542 Social Network Analysis Units: 4
- PM 562 Intervention Approaches for Health Promotion and Disease Prevention Units: 4
- PM 587 Qualitative Research Methods in Public Health Units: 4

Additional Requirements
At least 4 units from any 500- or 600-level course
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

Track 4: Child and Family Health
Required Courses (12 Units)
- PM 528 Program Design and Evaluation Units: 4
- PM 580 Foundations of Child Health Units: 4
- PM 585 Child Health Policy Units: 4
At least 4 units from:
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 540 Maternal and Child Nutrition: Practice and Policy Units: 4
- PM 581 Quality and Inequality in Health Care: Examination of Health Services Units: 4
- PM 582 Epidemiology and Prevention of Pediatric Injuries Units: 4
- PM 583 Foundations of Early Childhood Mental Health Units: 4
- PM 587 Qualitative Research Methods in Public Health Units: 4

Additional Requirements
At least 4 units from any 500- or 600-level course
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.
597), ending in a final report.

**Track 5: Global Health Leadership**

**Required Courses (12 Units)**
- PM 525 Culture and Health: Global Perspectives Units: 4
- PM 565 Introduction to Global Health Units: 4
- PM 576 Global Health Research and Programs Units: 4

At least 4 units from the following**:
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 557 Global Environmental Health Units: 4
- PM 563 Organizing and Mobilizing Communities for Public Health Units: 4
- PM 567 Disasters, Conflict and Global Health Units: 4
- PM 568 Ethical Issues in Global Health Units: 4
- PM 577 Global Health, Law and Human Rights Units: 1, 2, 3, 4
- PM 578 Global Health Governance and Diplomacy Units: 4
- PM 587 Qualitative Research Methods in Public Health Units: 4

**Additional Requirements**
At least 4 units from any 500- or 600-level course**
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

"Distance learning track elective and elective options are limited. Students should consult their adviser for guidance about available options.

**Track 6: Health Services and Policy**

**Required Courses (12 Units)**
- PM 547 Public Health Policy and Politics Units: 4
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 560 Methods for Policy Analysis Units: 4

At least 4 units from:
- PM 514 Sexually Transmitted Infections: a Systems Approach Units: 4
- PM 528 Program Design and Evaluation Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 536 Program Evaluation and Research Units: 4
- PM 542 Social Network Analysis Units: 4
- PM 548 Prevention and Public Policy Units: 2
- PM 555 Environmental Health, Policy and Practice Units: 4
- PM 577 Global Health, Law and Human Rights Units: 1, 2, 3, 4
- PM 578 Global Health Governance and Diplomacy Units: 4
- PM 585 Child Health Policy Units: 4
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PM 504 Quality in Health Care Units: 4

**Additional Requirements**
At least 4 units from any 500- or 600-level course**
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

**Track 7: Environmental Health**

**Required Courses (12 Units)**
- PM 553 Human Exposure Assessment for Public Health Units: 4
- PM 554 Biological Effects of Environmental Toxins Units: 4
- PM 555 Environmental Health, Policy and Practice Units: 4

At least 4 units from:
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 556 Environment and the Brain Units: 4
- PM 557 Global Environmental Health Units: 4
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4

**Additional Requirements**
At least 4 units from any 500- or 600-level course
2 units of a practicum (PM 596) and 2 units of the capstone (PM 597), ending in a final report.

**Track 8: GeoHealth (Online Option Only)**

**Required Courses (8 Units)**
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 583 Spatial Analysis Units: 4

At least 8 units from:
- SSCI 584 Spatial Modeling Units: 4
- SSCI 588 Remote Sensing for GIS Units: 4
- SSCI 589 Cartography and Visualization Units: 4

**Additional Requirements**
At least 4 units from any 500- or 600-level course
And, 2 units of a practicum (PM 596) and 2 units of Capstone (PM 597), ending in a final report.

The elective courses will be directed by the student's needs and interests and must be approved by the student's graduate adviser.

**Track 9: Generalist**

**Required Courses (20 units)**

Students will complete 20 units of coursework through courses identified with their faculty advisor in an individualized program of instruction that has been tailored to their background and career plans in public health.

**Additional Requirements**
Students must complete 2 units of a practicum (PM 596) and 2 units of Capstone (PM 597), ending in a final report.

**Additional Requirements**

**Practicum Requirement**
A practicum (PM 596) is required of all students. The practicum is provided by an internship rotation through an area of public health practice in a county, state, federal or community-based agency. The practicum offers students the opportunity to observe as well as participate in applying their newly acquired skills and tools. All students are expected to participate at least one internship and attend a corresponding seminar. An electronic portfolio describing the project and evaluating the outcomes completes the course requirement.

**Capstone Requirement**
Completion of the capstone course (PM 597) is required of all MPH students during their last semester prior to graduation and is the culminating experience for the master's program. The course draws on students' prior training in the five core areas of public health; their additional required course work in their selected track of study; and their "real world" experience gained in the field prior to their graduation. The capstone class is closely linked to the MPH practicum and is designed to challenge students to reflect and integrate their training and experience with the goal of developing their own individual point of view regarding the role of public health in contributing to the improvement of the health and well-being of populations in the United States, as well as abroad.

**Criteria**
Students enrolled in one of the MPH professional dual degree programs (e.g., MD/MPH, PharmD/MPH, DPT/MPH, and PhD (Clinical Psychology)/MPH, MPU/MPH) may waive 4 units of the elective requirement and thus are required a minimum of 43 units to graduate. All other students must complete a minimum of 47 units to graduate.

**Dual Degree**

**Master of Public Health/Doctor of Pharmacy (MPH/PharmD)**
The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment and in response to the growing demand for pharmacists
who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint PharmD/MPH degree will enable graduates to be more responsive to today's health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.

The PharmD/MPH program spans five years (four years of pharmacy school courses and one year of public health courses). Students begin the core MPH courses following the successful completion of the first year of pharmacy school. The last three years of the program are devoted to the clinical rotations of the School of Pharmacy and to the completion of the elective courses and practicum (field experience) of the MPH program.

All students in the PharmD/MPH program must meet course requirements, grade point average requirements and program residency requirements of both programs. Students must have a cumulative GPA of 3.0 in the PharmD curriculum and a 3.0 in the MPH curriculum to meet graduation requirements.

The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

Application and Admissions Requirements

Students may apply to the dual PharmD/MPH degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 G.P.A. Students who are accepted only by one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the PharmD prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MPH program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the Pharm.D. with a minimum 3.0 G.P.A. Students accepted to the dual degree program must maintain a minimum 3.0 G.P.A. in Public Health and PharmD courses.

Master of Public Health/Master of Planning (MPH/MP)

The Master of Public Health/Master of Planning (MPH/MP) dual degree is designed for individuals who envision a career that combines urban planning and public health disciplines. This dual degree combines the knowledge of urban planning with an understanding of health from a population perspective. It will provide training for planning, evaluating and guiding healthy community and urban development, and will enable graduates who seek to be agents of change within the profession to assume leadership roles in planning and in public health at the local, state and national levels. The degree requires 36 MPH units and 36 MPH units for a total of 72 units required for the dual degree.

Planning Core Requirements

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2

Concentration and Planning Studios

Planning Concentration

Students must select 16 units in a concentration from one of the five concentrations in the planning program. Students are required to complete the gateway course and methodology course related to their concentration as part of their preparation for their comprehensive examination. The student's concentration must contain a 4-unit methodology course, a 4-unit gateway course and 8 other units. See further details on the concentrations in the Master of Planning section of the catalogue.

Planning Studios

Students will complete a total of 8 units of domestic or international planning studios under PPD 531L (4) to satisfy this requirement.

Dual degree students, like all other MPH students, must take a comprehensive examination and fulfill an internship requirement. Students will take 200 hours of planning internship placement in addition to 2 units in PM 596 and 2 units in PM 597. See below for further internship details for this dual degree.

MPH Core Requirements

- PM 501 Foundations in Health Education and Promotion Units: 4
- PM 508 Health Service Delivery in the U.S. Units: 4
- PM 510L Principles of Biostatistics Units: 4
- PM 512 Principles of Epidemiology Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 596 Practicum in Public Health Units: 2
- PM 597 Capstone in Public Health Units: 2

MPH Track Core Requirements

Students may choose one of three tracks in the MPH program: Health Education and Promotion; Public Health Policy; or Environmental Health. Students are required to complete the track core requirements (12 units) specific to their chosen track of study. Relevant courses taken in the Price School of Public Policy will be counted toward the MPH track elective requirement required by non-dual degree students. Additionally, students in the dual degree are not required to take PM 564 Public Health Leadership and Management (as opposed to stand alone MPH degree students) because they develop the necessary leadership proficiencies in PPD 500 which provides them with a skill base necessary for development, planning, and management across sectors. Students will complete a total of 36 units specific to the MPH program.

MPH Practicum Requirement

For PM 596, students will complete an internship specific to meet the competencies of the students' chosen track. Dual degree students will enroll in this 2-unit course and complete a 150-hour placement. The other 150 hours would be waived because students will spend 200 hours during their planning internship, acquiring additional relevant practical experience. (Note: This is consistent with the established dual degree programs with medicine, pharmacy, social work and clinical psychology).

Units required to complete program: 72

Master of Public Health/Master of Science, Social Entrepreneurship (MPH/MSSE)

The Master of Public Health/Master of Science in Social Entrepreneurship (MPH/MSSE) dual degree program is designed for individuals who wish to create sustainable solutions to public health challenges through the creation of innovative enterprises and organizations. This program combines the business aspects of social entrepreneurship with the knowledge and understanding of public health challenges and how to improve the health of individuals, communities, and populations, locally and globally. It will enable graduates to become agents of change by equipping them with the tools to build innovative enterprises that balance financial sustainability with public health impact, preparing them uniquely to become leaders in the field.

Application and Admission

Applicants to the MSSE/MPH should apply for admission to both schools simultaneously.

Information about the application process and admission
requirements for the MPH degree is available on the MPH Website at
http://mph.usc.edu.

Information about the application process and admission
requirements for the MSSE degree is available on the MSSE Website at
https://www.marshall.usc.edu/msse/admission

Degree Requirements

The total unit requirement for the MPH/MSSE dual degree is
64 units - 40 units for the MPH degree and 24 units for the MSSE
degree.

Students are required to complete 40 units of MPH specific course
work, including 24 units of MPH core course work and 16 units of
track specific course work. Students may choose from any track
within the MPH program.

Students are required to complete 24 units, including all "Required Courses," in the Master of Science in Social
Entrepreneurship curriculum. Dual degree program students may
not count courses taken outside the USC Marshall School of
Business toward the MSSE degree. Visit the Social Entrepreneurship
(MS) section of this Catalogue for MSSE degree requirements.
The MSSE and the MPH degrees are awarded simultaneously upon
completion of all program requirements.

Master of Public Health/Master of Social
Work (MPH/MSW)

The Master of Public Health/Master of Social Work (MPH/ MSW) dual degree offers the student interdisciplinary preparation in
the fields of public health and social work leading to the Master of
Social Work (MSW) and Master of Public Health (MPH) degrees.

The dual degree program is a collaborative effort between
the USC Suzanne Dworak-Peck School of Social Work and
the Department of Preventive Medicine in the Keck School of
Medicine. The objectives of the program are to provide students
with the knowledge and skills necessary to promote health, prevent
disease, and enhance the delivery of health and social services
in the community. Students will build interdisciplinary skills
and an interdisciplinary professional identity by developing an
understanding of the breadth of each field and their interface, while
permitting concentration in particular specialization areas. The
program prepares graduates for work in a variety of interdisciplinary
settings; and for some, it will provide the basis for doctoral study.

Program Requirements:

Students must complete a minimum of 84 units, 37 of which
fulfill unique requirements of the MSW, 27 which fulfill the unique
requirements of the MPH, and 20 which fulfill the requirements of
both degrees. Most students complete both program requirements
over three years for full-time students; however, the program may be
completed in less time if the student takes a full course load during
the two summer sessions (MPH course work only; MSW is not
available during the summer).

Course requirements in the Suzanne Dworak-Peck School of
Social Work include the required courses outlined in the Social
Work (MSW) section of the catalogue. Students will take their
remaining MSW units in department core courses specific to either
the AMHW, SCI or CYF department. Students will be advised into
the appropriate courses.

Students will take MPH course work specific to the following
public health tracks: health education and promotion; public health
policy; or child and family health. MPH track will be determined by
the MSW department chosen by the student.

Doctoral Degree

Biostatistics (PhD)

The department offers a degree program leading to the PhD in
biostatistics. The program is designed to produce biostatisticians who
will have in-depth knowledge of statistical theory and methodology
and the ability to apply this knowledge creatively to statistical
problems in the biological and health sciences. All students will
enroll in a set of core courses that cover both biostatistical theory
and applications. Students will then choose from one of four tracks
that will allow them to develop expertise in a specific area. The
available tracks are: (1) biostatistics theory; (2) statistical genetics;
(3) environmental statistics; (4) clinical trials.

Course Requirements

A minimum of 60 units of graduate study is required for the PhD
degree; a maximum of 19 of these units may be from research and
dissertation. In preparation for the qualifying examination, students
are required to take all remaining core and track-specific courses.

Screening Procedure

In preparation for the screening examination, all students must
take four core courses: PM 511a, PM 511b and PM 522a, PM 522b.
A student failing the screening examination will either terminate or
will terminate with the MS degree upon completion of an acceptable
thesis.

Qualifying Exam Committee

A formal qualifying exam committee will consist of at least five
faculty members. The committee chair and at least two additional
members must be affiliated with the student's program. At least three
members of the committee must be tenured or tenure track.

Qualifying Examination

The written portion of the qualifying examination will comprise
testing on track-specific course content and focus on the student's
dissertation topic. An oral examination will ascertain the student's
competence in orally communicating this knowledge. Students must
pass the written portions and the oral portions in order to pass the
qualifying examination.

Annual Research Appraisal (ARA)

Beginning in the second year, each student must register for PM
610 (1 unit) and present an annual progress report to the program
over three years for full-time students; however, the program may be
completed in less time if the student takes a full course load during
the two summer sessions (MPH course work only; MSW is not
available during the summer).

Course requirements in the Suzanne Dworak-Peck School of
Social Work include the required courses outlined in the Social
Work (MSW) section of the catalogue. Students will take their
remaining MSW units in department core courses specific to either
the AMHW, SCI or CYF department. Students will be advised into
the appropriate courses.

Students will take MPH course work specific to the following
public health tracks: health education and promotion; public health
policy; or child and family health. MPH track will be determined by
the MSW department chosen by the student.

Doctoral Degree

Biostatistics (PhD)

The department offers a degree program leading to the PhD in
biostatistics. The program is designed to produce biostatisticians who
will have in-depth knowledge of statistical theory and methodology
and the ability to apply this knowledge creatively to statistical
problems in the biological and health sciences. All students will
enroll in a set of core courses that cover both biostatistical theory
and applications. Students will then choose from one of four tracks
that will allow them to develop expertise in a specific area. The
available tracks are: (1) biostatistics theory; (2) statistical genetics;
(3) environmental statistics; (4) clinical trials.

Course Requirements

A minimum of 60 units of graduate study is required for the PhD
degree; a maximum of 19 of these units may be from research and
dissertation. In preparation for the qualifying examination, students
are required to take all remaining core and track-specific courses.

Screening Procedure

In preparation for the screening examination, all students must
take four core courses: PM 511a, PM 511b and PM 522a, PM 522b.
A student failing the screening examination will either terminate or
will terminate with the MS degree upon completion of an acceptable
thesis.

Qualifying Exam Committee

A formal qualifying exam committee will consist of at least five
faculty members. The committee chair and at least two additional
members must be affiliated with the student's program. At least three
members of the committee must be tenured or tenure track.

Qualifying Examination

The written portion of the qualifying examination will comprise
testing on track-specific course content and focus on the student's
dissertation topic. An oral examination will ascertain the student's
competence in orally communicating this knowledge. Students must
pass the written portions and the oral portions in order to pass the
qualifying examination.

Annual Research Appraisal (ARA)

Beginning in the second year, each student must register for PM
610 (1 unit) and present an annual progress report to the program
committee, with other faculty invited to attend.

Dissertation and Oral Defense

Upon passing the qualifying examination the PhD candidate
and his or her chair will recommend a three-member dissertation
committee. The dissertation should be completed within two
years and should be oriented toward a theoretical-methodological
application to a problem area in the biological or health sciences.
The oral defense is based on a rough draft or final version of
the dissertation. The defense is administered by the dissertation
committee, with other faculty invited to attend.

Prerequisite

• PM 510L Principles of Biostatistics Units: 4

Required Courses For All Tracks (Screening
Exam Courses)

• PM 511aL Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4
• PM 522a Introduction to the Theory of Statistics Units: 3
• PM 522b Introduction to the Theory of Statistics Units: 3

Recommended Courses: All Tracks

• PM 511cL Data Analysis Units: 4
• PM 520L Advanced Statistical Computing Units: 3
• PM 610 Seminar in Biostatistics and Epidemiology Units: 1

Recommended Courses: Biostatistics Theory
Track

• PM 513 Experimental Designs Units: 3
• PM 518a Statistical Methods for Epidemiological Studies I, II
Units: 3
• PM 518b Statistical Methods for Epidemiological Studies I, II
Units: 3
Recommended Courses: Statistics Genetics

- PM 534 Statistical Genetics Units: 4
- PM 570 Statistical Methods in Human Genetics Units: 4

Recommended Courses: Environmental Statistics Track

- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3

Recommended Courses: Clinical Trials Track

- PM 513 Experimental Designs Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 552 Statistical Methods in Clinical Trials Units: 3, 2 years

Elective Courses

- BIOC 543 Human Molecular Genetics Units: 4
- BISC 478 Computational Genome Analysis Units: 4
- BISC 502a Molecular Genetics and Biochemistry Units: 4
- BISC 502b Molecular Genetics and Biochemistry Units: 4
- BISC 505 Genomics and Molecular Genetics Units: 4
- BISC 577a Computational Molecular Biology Laboratory Units: 2
- BISC 577b Computational Molecular Biology Laboratory Units: 2
- CSCI 570 Analysis of Algorithms Units: 4
- CSCI 653 High Performance Computing and Simulations Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 572 Systems Physiology and Disease I Units: 4
- INTD 573 Systems Physiology and Disease II Units: 4
- MATH 505a Applied Probability Units: 3
- MATH 505b Applied Probability Units: 3
- MATH 507a Theory of Probability Units: 3
- MATH 507b Theory of Probability Units: 3
- MATH 509 Stochastic Differential Equations Units: 3
- MATH 520 Complex Analysis Units: 3
- MATH 541a Introduction to Mathematical Statistics Units: 3
- MATH 541b Introduction to Mathematical Statistics Units: 3
- MATH 542L Analysis of Variance and Design Units: 3
- MATH 543L Nonparametric Statistics Units: 3
- MATH 545L Introduction to Time Series Units: 3
- MATH 547 Mathematical Foundations of Statistical Learning Theory Units: 3
- MATH 548 Sequential Analysis Units: 3
- MATH 550 Sample Surveys Units: 3
- MATH 578a Computational Molecular Biology Units: 3
- MATH 578b Computational Molecular Biology Units: 3
- PM 511c Data Analysis Units: 4
- PM 513 Experimental Designs Units: 3
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 517a Research Methods in Epidemiology Units: 3
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 520L Advanced Statistical Computing Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 544L Multivariate Analysis Units: 3, 2 years
- PM 552 Statistical Methods in Clinical Trials Units: 3, 2 years
- PM 555 Statistical Methods in Environmental Epidemiology Units: 3
- PM 557 Statistical Analysis of High-Dimensional Data Units: 4
- PM 599 Special Topics Units: 2, 3, 4
- PM 603 Structural Equation Modeling Units: 4, 2 years
- SSCI 581 Concepts for Spatial Thinking Units: 4
- SSCI 582 Spatial Databases Units: 4
- SSCI 583 Spatial Analysis Units: 4
- SSCI 585 Geospatial Technology Project Management Units: 4
- SSCI 586 GIS Programming and Customization Units: 4
- SSCI 587 Spatial Data Acquisition Units: 4
- SSCI 589 Cartography and Visualization Units: 4

Epidemiology (PhD)

The department offers a degree leading to the PhD in epidemiology. This program may be an extension of the applied biostatistics and epidemiology MS program and is especially aimed at persons with a strong background in medicine: in particular, students enrolled in the MD program of the Keck School of Medicine who wish to interrupt their MD studies after two years to complete a PhD degree. This program is designed to produce an epidemiologist with in-depth statistical skills. The program requires a solid core of courses in methodological aspects of statistics and in statistical thinking as applied to medicine, as well as a solid grounding in epidemiological methods and in certain medical disciplines.

Course Requirements

A minimum of 60 course units with a maximum of 20 units of research and dissertation; passing of screening and qualifying examinations; and completion of dissertation and final oral are required. In preparation for the screening examination the student must take the required core course and elective 33 units of master's level applied biostatistics and epidemiology courses. A student failing the screening examination will either terminate or terminate with the MS degree upon satisfactory completion of a master's thesis. In preparation for the qualifying examination, the student is required to join an on-going research project under the direction of the chair of the qualifying exam committee and directly participate in the conduct of that project. Credit will be given as PM 790 (4 units, two semesters). In addition, it is recommended that the student take PM 610 (at least two semesters). Electives may be selected with the approval of the chair of the qualifying exam committee from courses in the biological sciences or from the medical school. For students in the MD/PhD program in epidemiology, satisfactory completion of the first two years of the MD program will be considered to provide 20 units toward the PhD degree.

Qualifying Exam Committee

The student, in consultation with his/her mentor, will nominate five faculty members to serve on the Qualifying Examination Committee. Three of the faculty must be from the Epidemiology Program and one from another department (the "External Member"). The Committee should reflect a diversity of expertise and typically will include one member from a different division of the Department of Preventive Medicine (e.g., one with subject-matter expertise in the proposed application portion of the dissertation). The role of the Qualifying Examination Committee is to guide the student on development of an appropriate dissertation project, both in content and time commitment, and to evaluate the student's knowledge of the topic, epidemiologic and biostatistical methodology, and readiness for completing the dissertation research.

Qualifying Examination

A written and oral qualifying examination will be completed after the student has completed all general and track-specific course requirements and passed the written screening examination. The written portion of the qualifying examination requires the submission
of a qualifying examination document written by the student that summarizes the current state of knowledge of the research topic, the epidemiologic questions addressed by the work, the work completed to date, and student's proposed plan and timeline to complete the research. The oral portion will be a seminar-style presentation to the Qualifying Exam Committee, focusing on the dissertation proposal, followed by questions from the Committee on both the proposal and the student's general mastery of the field. This exam is open to other interested students and faculty.

In case of failure, the student will have 60 days in which to reschedule and successfully pass the oral exam. A second failure will be grounds for dismissal from the Program.

**Annual Research Appraisal and Program Activities**

After advancing to candidacy, progress on dissertation research is evaluated annually with an Annual Research Appraisal (ARA) by the Annual Dissertation Committee. A key element is participation in PM 610: Graduate Seminar in Epidemiology and Biostatistics for at least two semesters after passing the Screening Exam. It is recommended that students take PM 610 to gain presentation experience and feedback before completing the qualifying examination and again before completing the final dissertation defense. Students give seminars and research updates that encompass both a global view of their area of investigation and a focus on the problem they are addressing. Having both epidemiology and biostatistics students in the seminar provides valuable experience in communicating their work to a diverse audience. All students provide feedback by filling in a feedback form and by active discussion.

**Dissertation**

Upon passing the qualifying examination, the PhD candidate and his or her chair will recommend a three-member dissertation committee. The dissertation should be completed within two years and should be oriented toward a methodological application to a problem area in the biological or health sciences.

**The Oral Defense**

This examination is based on a draft or final version of the dissertation and will be administered by the dissertation committee with other faculty invited to attend.

**Language and Other Requirements**

Proficiency in the English language is essential.

**Course Requirements**

Students must complete a minimum of 60 units, with a maximum of 20 units of research and dissertation; pass screening and qualifying examinations; complete the dissertation and the dissertation defense examination. In addition the student is required to join a research project under the direction of one or both of the chairs of the qualifying exam committee and directly participate in the conduct of that project. Credit will be given by the department (DPT) conducting the research project DPT 790 Research (4 units, 2 semesters). In addition, at least two semesters of PM 610 is recommended.

**Prerequisites:**

As a condition of admission, students must hold a Masters' degree in a related discipline (e.g., mathematics, statistics, epidemiology, public health) and have completed a Masters' thesis. Students entering the program with a relevant Masters' degree that does not require a thesis (e.g., Masters of Public Health) will be assigned an administrative or research mentor upon entering the program who will evaluate their quantitative and writing skills before the student takes the screening exam. All students are required to pass the program screening examination before being fully admitted as a doctoral student in the program. It is preferred that all students admitted to the program have successfully completed a minimum of one class in epidemiology and one class in biostatistics before entering the doctoral program. Some students may be admitted to the program without meeting the Masters' program requirements (e.g., if they have strong research background and clear evidence of ability in the health research field or were admitted through PIBBS), but will be expected to complete PM 510L and PM 512 and pass the screening examination prior to being considered fully admitted as a doctoral student in the program.

- PM 510L Principles of Biostatistics Units: 4 (or the equivalent)
- PM 512 Principles of Epidemiology Units: 4 (or the equivalent)

**Screening Exam Core Courses (14 units)**

- PM 511aL Data Analysis Units: 4
- PM 511bL Data Analysis Units: 4
- PM 517a Research Methods in Epidemiology Units: 3
- PM 517b Research Methods in Epidemiology Units: 3

**Suggested Electives (at least 11 units)**

- GER 520 Life Span Developmental Psychology Units: 2 or 4
- INTD 504 Molecular Biology of Cancer Units: 4, 2 years
- INTD 555 Biochemical and Molecular Bases of Disease Units: 4
- INTD 561 Molecular Biology Units: 4
- INTD 571 Biochemistry Units: 4
- MICB 551 Prokaryotic Molecular Genetics Units: 4
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
- PM 512 Principles of Epidemiology Units: 4
- PM 515 Multivariate Statistics in Health Behavior Research Units: 4
- PM 516a Statistical Problem Solving Units: 1
- PM 516b Statistical Problem Solving Units: 1
- PM 517a Research Methods in Epidemiology Units: 3
- PM 517b Research Methods in Epidemiology Units: 3
- PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 518b Statistical Methods for Epidemiological Studies I, II Units: 3
- PM 522a Introduction to the Theory of Statistics Units: 3
- PM 523 Design of Clinical Studies Units: 3
- PM 527 Epidemiology of Infectious Disease Units: 4
- PM 529 Environmental Health: An Epidemiological Approach Units: 4
- PM 530 Biological Basis of Disease Units: 4, 2 years
- PM 533 Genetic and Molecular Epidemiology Units: 3
- PM 534 Statistical Genetics Units: 4
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 544L Multivariate Analysis Units: 3, 2 years
- PM 549 Human Molecular Genetics Units: 4
- PM 551 Statistical Methods in Genome-Wide Association Studies Units: 3
- PM 552 Statistical Methods in Clinical Trials Units: 3, 2 years
- PM 554 Biological Effects of Environmental Toxins Units: 4
- PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
- PM 570 Statistical Methods in Human Genetics Units: 4
- PM 571 Applied Logistic Regression Units: 3
- PM 575 Statistical Methods in Environmental Epidemiology Units: 3
- PM 579 Statistical Analysis of High-Dimensional Data Units: 4
- PM 588 The Practice of Epidemiology Units: 4
- PM 603 Structural Equation Modeling Units: 4, 2 years
- PM 604 Health Behavior Research Methods Units: 4
- PM 610 Seminar in Biostatistics and Epidemiology Units: 1
- PM 611 Advanced Topics in Epidemiology Units: 3
- PM 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- PM 794a Doctoral Dissertation Units: 2
- PM 794b Doctoral Dissertation Units: 2
- PSCI 665 Drug Transport and Delivery Units: 4
- PSYC 514 Psychopathology Units: 4
- PSYC 524 Research Design in Developmental Psychology Units: 4
- RSCI 531 Industrial Approaches to Drug Discovery Units: 4
• RSCI 532 Early Stage Drug Development Units: 3
• RSCI 533 Safety Evaluation during Drug Development Units: 3
• SSCI 581 Concepts for Spatial Thinking Units: 4
• SSCI 592 Spatial Databases Units: 4
• SSCI 583 Spatial Analysis Units: 4
• SSCI 585 Geospatial Technology Project Management Units: 4
• SSCI 586 GIS Programming and Customization Units: 4
• SSCI 587 Spatial Data Acquisition Units: 4
• SSCI 588 Remote Sensing for GIS Units: 4
• SSCI 589 Cartography and Visualization Units: 4
• SSCI 591 Web GIS Units: 4

Additional Requirements
Preparation for Screening Examination
The screening examination will be taken after two years in the program. Prior to the screening examination a mentor who will serve on the qualifying exam committee must be identified. The screening examination will consist of a written component and an oral component. The written component will be drawn from the core courses. A student failing the screening examination may be given a second opportunity to retake either one or both portions.

Annual Research Appraisal (ARA)
After advancing to candidacy, progress on dissertation research is evaluated annually with an Annual Research Appraisal (ARA) by the Annual Dissertation Committee. A key element is participation in PM 610: Graduate Seminar in Epidemiology and Biostatistics for at least two semesters after passing the Screening Exam. It is recommended that students take PM 610 to gain presentation experience and feedback before completing the qualifying examination and again before completing the final dissertation defense. Students hold seminars and research updates that encompass both a global view of their area of investigation and a focus on the problem they are addressing. The oral portion of the screening examination as well as the qualifying examination and the defense examination will count as ARAs.

EPIDEMIOLOGY TRACKS
Please choose one track: Cancer Epidemiology, Genetic Epidemiology, Environmental Epidemiology, Clinical Trials, or General Epidemiology and Methods

Cancer Epidemiology
• INTD 504 Molecular Biology of Cancer Units: 4, 2 years
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 523 Design of Clinical Studies Units: 3
• PM 534 Statistical Genetics Units: 4
• PM 588 The Practice of Epidemiology Units: 4

Genetic Epidemiology
• BIOC 543 Human Molecular Genetics Units: 4
• INTD 531 Cell Biology Units: 4
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 533 Genetic and Molecular Epidemiology Units: 3
• PM 534 Statistical Genetics Units: 4

Environmental Epidemiology
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 553 Human Exposure Assessment for Public Health Units: 4
• PM 554 Biological Effects of Environmental Toxins Units: 4
• PM 558 Environmental Epidemiology: Concepts, Methods, and Practice Units: 4
• PM 569 Spatial Statistics Units: 3

Clinical Trials
• MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
• MPTX 517 Structure and Management of Clinical Trials Units: 4
• PM 513 Experimental Designs Units: 3
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 523 Design of Clinical Studies Units: 3

General Epidemiology and Methods
Students may choose to design specific class electives with their advisor, tailored to their unique research interests.
• PM 518a Statistical Methods for Epidemiological Studies I, II Units: 3
• PM 523 Design of Clinical Studies Units: 3
• PM 569 Spatial Statistics Units: 3
• PM 588 The Practice of Epidemiology Units: 4

Preventive Medicine (Health Behavior Research) (PhD)
The Department of Preventive Medicine, Division of Health Behavior Research, offers a degree program in preventive medicine (health behavior), leading to attainment of the PhD. The program is designed to train exceptional researchers and scholars in the multidisciplinary field of health behavior research. Students receive a thorough grounding in academic and research experience, encompassing theoretical and methodological training in such allied fields as communication, psychology, preventive medicine, biostatistics, public health and epidemiology. Students receive research experience by participating in projects conducted through the USC Institute for Health Promotion and Disease Prevention Research (IPR). The doctoral program is full-time: students are expected to enroll for fall, spring and summer semesters.

Assistantships
Financial and educational support is provided to qualified doctoral students in health behavior research. Graduate (research and/ or teaching) assistantships are half-time (20 hours per week) and provide tuition remission as well as a monthly stipend.

Computer Language Requirement
Sufficient familiarity in computer languages to operate major software packages for data management and analysis is required.

Course Requirements
The doctoral program in health behavior research is structured as a four to five year course of study for students entering with a bachelor's degree. Time requirements are subject to review and approval by the division's Graduate Program Committee and the Graduate School.

A total of 60 units of graduate study is required for the PhD in health behavior research. Students are required to complete nine core courses: PM 500, PM 511a, PM 511b, PM 515, PM 530, PM 576, PM 601, PM 604 and PM 615 (total of 37 units). Other requirements include: two elective PM courses, one not offered by health behavior faculty (minimum of 7 units); and a minimum of 4 units each in PM 590, PM 590a, PM 590b, PM 590c, PM 590d, PM 590e, PM 790 and the PM 794 series (PM 794a, PM 794b, PM 794c, PM 794d, PM 794e). For students entering with a bachelor's degree, one of the directed research projects will be equivalent in scope to a master's thesis. All research experiences/projects must be completed before registering for the PM 794 Doctoral Dissertation series (PM 794a, PM 794b, PM 794c, PM 794d, PM 794e).

Screening Procedure
The progress of each student is reviewed at the end of every academic year. At the end of the second year of study, students who have not made satisfactory progress are advised that they will be dropped from the program unless their progress improves during their second year.

Qualifying Exam Committee
Each student's qualifying exam committee consists of five members, including: no more than three health behavior faculty members; one other member from the Department of Preventive
Medicine; and one member from a doctorate-granting program outside the Department of Preventive Medicine, representing the student's minor field.

**Qualifying Examination**

Following course work and prior to beginning the dissertation, students must demonstrate written and oral mastery of the general field of health behavior research as well as of their chosen area of specialization. The qualifying process includes a written examination on theory and literature relevant to a selected content area. The examination is administered by the student's qualifying exam committee.

In addition to the qualifying examination, each student is expected to produce the following as evidence of qualification to conduct dissertation research: an academic dossier consisting of a summary of the student's academic record, teaching and research experience, and professional presentations and publications; at least one original empirical research paper of publishable quality, produced in connection with one of the student's courses or research experiences or developed independently; a dissertation proposal; and an oral defense of all the preceding materials.

Chair: Andrew P. McMahon, PhD

Program Director: Henry Sucov, PhD

**Master of Science in Stem Cell Biology and Regenerative Medicine**

Stem cell biology is one of the newest and most powerful approaches in biomedical science; it offers the opportunity to experimentally approach previously intractable biological questions, create models of human disease and develop cell-based therapeutics.

This intensive one-year program (with an optional second year) will give students a deep understanding of the scientific and clinical underpinnings of stem cell biology and regenerative medicine. The program includes three didactic lecture courses that address developmental cell biology and human embryology, stem cell biology and regenerative medicine, and translational and therapeutic aspects of stem cell technology; the program also includes an intensive laboratory module that provides guided hands-on experience with stem cells and stem cell laboratory approaches, and several different faculty-led discussion-based courses that allow detailed investigation of specific aspects of stem cell biology and regenerative medicine.

Students completing this program will be well-positioned to proceed to medical or PhD programs, find laboratory or administrative employment in the growing stem cell pharmaceutical domain, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

California is globally recognized as the worldwide center of stem cell science, and USC has invested significantly in building the new Department of Stem Cell Biology and Regenerative Medicine at the Keck School of Medicine of USC, within which this MS program is based and administered.

**Admissions Requirements**

Applicants must supply a completed application for graduate studies including: transcripts from all institutions previously attended, standardized test scores, a personal statement describing scientific and career interests, and two letters of recommendation. Applications are generally anticipated for fall enrollment, but applications for spring enrollment may also be considered.

Applicants to the program must apply to the USC Graduate School and must meet the minimum requirements for admission to the Graduate School. Students are required to have a 3.0 or better overall GPA (or equivalent) and have achieved graduation with a BS or BA degree (or equivalent) before matriculation. Students are expected to have taken the general portion of the GRE exam before application and to have met or exceeded university score requirements. (MCAT scores that are less than five years old may be submitted in lieu of GRE scores by physicians and MD students with a 3.0 LCME-accredited medical school GPA or higher, or by medical school-bound students with a 3.0 undergraduate GPA or higher. DAT scores that are no more than three years old and that reflect a minimum score of 15 in each area may also be submitted in lieu of GRE scores.) Applicants not meeting Graduate School requirements for regular standing may, with the approval of the Graduate School, be admitted with continuing registration requirements. International students from non-English speaking home countries are expected to demonstrate English language proficiency or take remedial English language courses, according to Graduate School policy. Specific prerequisites for this program include completed course work with a B or better grade (or equivalent) in Cell Biology and in Molecular Biology.

**Advisement**

The program recommends that students meet with the student services adviser each semester prior to registration.

**Satisfactory Academic Progress**

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be given written notification that they have been placed on academic probation. Students who do not raise their GPA to 3.0 after two semesters on academic probation will be academically disqualified.

**Master's Degree**

**Stem Cell Biology and Regenerative Medicine (MS)**

**Degree Requirements**

Graduation requires completion of 25 units, according to the required Year 1 course schedule outlined below. None of these courses may be substituted or waived.

This program is intended to be completed within one academic year, and does not include a requirement for independent laboratory research or a thesis. Students may request approval to undertake laboratory research and continuing course work during a second year research option; students must already be matriculated into the program before making this request, and not all students will be granted this opportunity (selection will be based on academic performance and student research interests, and on availability of laboratory space). During this optional second year, students must enroll in the required Year 2 courses listed below; none of these courses may be substituted or waived.

**Required Courses - Year 1, Fall Semester**

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 511 Developmental Biology and Human Embryology Units: 4
- SCRM 513 Stem Cells and Regenerative Medicine Units: 4
- SCRM 580 SCRM External Speaker Seminar Series Units: 2

**Required Courses - Year 1, Spring Semester**

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1

Faculty
John D. Carpten, PhD, Professor and Chair, Director, Institute of Translational Genomics
David Wesley Craig, PhD, Professor and Vice Chair, Co-Director, Institute of Translational Genomics
Carol S. Lin, PhD, Associate Professor
Troy A. Meachron, PhD, Assistant Professor of Research
Bodou Salhia, PhD, Assistant Professor

The Department of Translational Genomics represents an academic department within the Keck School of Medicine of USC with a core mission of developing and driving genetic methodologies toward improvements in patient management and outcomes through translational research and training.

Over the past decade, genomics has led to massive changes in biomedical research in which top medical schools lead in advancing patient care and outcomes through the development of new diagnostic and therapeutic options. This shift has been fueled by advances in genomic science, the explosion of publicly available genomic databases, and the rapid growth of next-generation sequencing (NGS) technology.

NGS technology has revolutionized how systems are being studied at the molecular, cellular, and organismal levels. The infrastructure coupled to strong bioinformatics capabilities is now available at large and small universities, where experts in various fields of study collaborate to implement NGS into their research.

The Department of Translational Genomics represents a central and foundational discipline underpinning these initiatives. It represents the emerging standard for molecular research in which clinical researchers approach patient-driven trials. This may never be more evident than through the recent signing of bi-partisan legislation, the 21st Century Cures Act, the Precision Medicine Initiative, the Cancer Moonshot and the BRAIN Initiative. Genomics represents a central and foundational discipline underpinning these programs; it represents the emerging standard for molecular research.

Students completing this program will be well positioned to proceed to medical or PhD programs, find laboratory or administrative employment in the growing stem cell pharmaceutical domain, or engage in public policy or regulatory administration of academic, clinical or business efforts in this expanding discipline.

California is globally recognized as the worldwide center of stem cell science, and USC has invested significantly in building the new Department of Stem Cell Biology and Regenerative Medicine at the Keck School of Medicine of USC, within which this certificate program is based and administered.

Degree Requirements
Graduation requires completion of 16 units according to the course schedule outlined below. None of these courses may be substituted or waived. This program is intended to be completed within one academic year, and does not include a requirement for a thesis.

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 580 SCRM External Speaker Seminar Series Units: 2
- SCRM 590 Independent Research Units: 1, 2, 3, 4

University Certificate
Stem Cell Biology and Regenerative Medicine Certificate

The certificate program is designed for current students in the Master of Science in Stem Cell Biology and Regenerative Medicine program at USC, who have completed the requirements for the MS degree and wish to complete a second year of study including an independent research project. Graduates of other programs and other institutions both inside and outside the U.S., who desire advanced training in this field, may also be considered for admission. A smaller number of students may come from nontraditional backgrounds (business, legal, etc.) and seek specific training in this discipline in order to advance specific career paths in which they are already employed. All students are expected to already have completed undergraduate courses in cell and molecular biology.

Stem cell biology is one of the newest and most powerful approaches in biomedical science; it offers the opportunity to experimentally approach previously intractable biological questions, create models of human disease and develop cell-based therapeutics. This one-year program will give students a solid understanding of the scientific and clinical underpinnings of stem cell biology and regenerative medicine.

Students completing this program will be well positioned to proceed to medical or PhD programs, find laboratory or administrative employment in the growing stem cell pharmaceutical domain, or engage in clinical research through discovery and validation of novel diagnostics and therapeutics for earlier diagnosis and smarter treatments.

California is globally recognized as the worldwide center of stem cell science, and USC has invested significantly in building the new Department of Stem Cell Biology and Regenerative Medicine at the Keck School of Medicine of USC, within which this certificate program is based and administered.

Degree Requirements
Graduation requires completion of 16 units according to the course schedule outlined below. None of these courses may be substituted or waived. This program is intended to be completed within one academic year, and does not include a requirement for a thesis.

- DSR 574 Stem Cell and Developmental Biology Seminar Series Units: 1
- DSR 620 Current Topics in Stem Cell Biology and Organogenesis Units: 1
- SCRM 580 SCRM External Speaker Seminar Series Units: 2
- SCRM 590 Independent Research Units: 1, 2, 3, 4

Note:
DSR 574 (1 unit) and SCRM 580 (2 units) must be taken twice for a total of 6 units. SCRM 590 (1-4 units) must be taken twice for a total of 8 units.

Assays on NGS platforms have been translated to the clinic, changing how clinical researchers approach patient-driven trials. This may never be more evident than through the recent signing of bi-partisan legislation, the 21st Century Cures Act, the Precision Medicine Initiative, the Cancer Moonshot and the BRAIN Initiative. Genomics represents a central and foundational discipline underpinning these programs; it represents the emerging standard for molecular research.

To be competitive small and large universities are making massive investments to build NGS infrastructure, expertise and informatics.

The department is committed to excellence in translational genomics education and research, bringing to bear vast experience and expertise in molecular genetics, genome science, biomedical informatics, translational science, and molecular medicine. The ultimate goal is to serve the Keck community by bridging basic and clinical research through discovery and validation of novel diagnostics and therapeutics for earlier diagnosis and smarter treatments.

Master's Degree
Translational Biomedical Informatics (MS)
Keck School of Medicine of USC

**Program Summary**

The Department of Translational Genomics is offering a Master of Science (MS) degree in Translational Biomedical Informatics. This MS program aims to train medical students, fellows and other healthcare scientists in biomedical informatics, specifically around translational applications in human health and care moving from bench to bedside. The goal of this program is to provide individuals with a solid biology or medical background a program a degree grant mechanism for transitioning from the bench to the dry-lab in academic biomedical research, clinical research and pharmaceutical research. Graduates will have the practical skills to understand molecular biology, systems biology, structural biology, proteomics, genomic sequencing and genomic tools and datasets.

The program focuses on training in human biomedical informatics centered around applications in healthcare and biomedical research. Students will learn to effectively implement, develop, and design analytical solutions within for different healthcare applications from prototyping to production. Moreover, students will learn by application with a major emphasis on data analysis, data processing, and interpretation of next-generation sequencing (NGS) datasets. Students will be trained and gain an understanding of modern web-development frameworks, and how to extract and interact with a wide variety of databases spanning open access frameworks to restricted and regulated frameworks. A capstone project helps students build an on-line portfolio that showcases both their ability to conduct complex analysis and share their results through interactive web-applications.

The program is intended to be flexible, and attract applicants with training in biology, medicine, and related biomedical disciplines. It will focus on individuals with a background in biology and medicine, and is not intended or appropriate for those with computer engineering and software degrees.

**Admission**

Applicants should have a minimum cumulative undergraduate GPA 3.0. Applicants should have two semesters/three quarters of General Biology; two semesters/two quarters of General Chemistry, and one semester/one quarter of Statistics.

A minimum score of 300 on the Graduate Record Examinations (GRE) General Test is required. In lieu of GRE, DAT (minimum 18), MCAT (minimum 28 pre-2015 or 505 post-2015) or USMLE may be submitted. Applicants must also supply a statement of purpose and three letters of recommendation from evaluators qualified to assess their potential for graduate work. Please visit program web site for additional information on admission and application procedures.

**Advisee**

The program recommends that students meet with an academic adviser of the program each semester prior to registration.

**Satisfactory Academic Progress**

A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 28 units of graduate level course work is required for graduation.

**Required (24 Units)**

- TRGN 510 Basic Foundations in Translational Biomedical Informatics Units: 4
- TRGN 514 Introduction to Human Genomic Analysis Methods Units: 4
- TRGN 515 Advanced Human Genomic Analysis Methods Units: 4
- TRGN 516 Translational Genomics, Applied Databases and Datastructures Units: 4
- TRGN 520 Translational Biomedical Informatics Capstone Portfolio Units: 4
- TRGN 524 Applications of Genomic Technology in Biomedical Research I Units: 4

**Electives (4 Units)**

- BISC 478 Computational Genome Analysis Units: 4
- BME 528 Medical Diagnostics, Therapeutics and Informatics Applications Units: 3
- INF 510 Principles of Programming for Informatics Units: 4
- INF 549 Introduction to Computational Thinking and Data Science Units: 4
- INF 550 Overview of Data Informatics in Large Data Environments Units: 4
- NIIN 500 Neuroimaging and Systems Neuroscience Units: 3
- NIIN 540 Neuroimaging Data Processing Methods Units: 3
- PM 510L Principles of Biostatistics Units: 4
- PM 538 Introduction to Biomedical Informatics Units: 3
- PM 570 Statistical Methods in Human Genetics Units: 4
- TRGN 525 Applications of Genomic Technology in Biomedical Research II Units: 4
- TRGN 537 Pathway and Target Discovery Units: 4
- TRGN 543 Biotechnology Entrepreneurship and Commercialization I Units: 2
- TRGN 544 Biotechnology Entrepreneurship and Commercialization II Units: 2

**Translational Biotechnology (MS)**

Keith Administration Building 409
1975 Zonal Avenue
Los Angeles, CA 90033
(323) 442-3237
Email: CarolLin@usc.edu
Program Director: Carol S. Lin, PhD, MAE
dtg.usc.edu/translational-biotechnology-program/
dtg.usc.edu/education/translational_biotechnology

Keck School of Medicine Department of Translational Genomics offers a Master of Science (MS) degree in Translational Biotechnology. This program combines a unique curriculum and distinctive practical training that exposes students to biotechnology and its applications in translating genomic and molecular insights into developing novel therapies and precision medicine. Drawing strength from the Keck School of Medicine faculty's education, research, and practice expertise, this program educates students on approaches used in the academic research, biotechnology and medical sciences industries.

**Program Summary**

Students in this program will gain an understanding of:

- the science of human diseases and their interventions
- the role of biotechnology in developing new therapies and precision medicine
- the scope of issues and decisions faced by collaborating basic and clinical researchers in the bench-to-bedside process
- the regulatory framework that impacts the use of new interventions
- the private and public capital that develop the growing biotechnology and biomedical markets.

The program is ideal for those who are passionate about biomedical sciences and would like a career in biotechnology beyond laboratory research.

- Students with a moderate biology background have the opportunity to extend their course work in biotechnology and biological sciences and continue in these fields.
- Professionals in management, investment, regulatory affairs or law in the biotechnology industry are able to extend their knowledge of the science behind this industry, enabling them to make better decisions regarding this rapidly developing technology.
Students interested in doctoral programs or professional degree programs, such as medical school and law school, will build a strong foundation in biotechnology prior to applying to their top programs of study.

**Admission**
Admission requirements include a minimum GPA of 3.0 and an undergraduate major in biological sciences, or at least 6 bioscience courses in the molecular, cellular, genetics and biochemistry topics. A minimum score of 300 on the Graduate Record Examinations (GRE) General Test is required. In lieu of GRE, DAT (minimum 18), MCAT (minimum 28 pre-2015 or 505 post-2015) or USMLE may be submitted. Applicants must also supply a statement of purpose and three letters of recommendation from evaluators qualified to assess their potential for graduate work. Please visit program Website for additional information on admission and application procedures.

**Advisement**
The program requires that students meet with an academic adviser of the program each semester prior to registration.

**Satisfactory Academic Progress**
A graduate GPA of at least 3.0 is required at all times. Any student whose graduate GPA falls below 3.0 will be placed on academic probation. Students on academic probation who do not raise their GPA to 3.0 after two semesters of written notification of academic probation will be academically disqualified.

A minimum of 28 units of graduate level course work is required for graduation.

**Core Lecture Courses (Required, 12 Units)**
Students with strong background in biotechnology may substitute TRGN 536 with another appropriate course, with permission of the program director. A minimum grade point average of 3.0 on all core courses is required.

- TRGN 536 Biotechnology Primer Units: 4
- TRGN 537 Pathway and Target Discovery Units: 4
- TRGN 538 Seminar in Translational Biotechnology Units: 2
- TRGN 543 Biotechnology Entrepreneurship and Commercialization I Units: 2

**Electives (At least 9 Units)**
At least 4 units must be from TRGN. No more than 4 units of TRGN 590 may be used to fulfill degree requirements.

- BAEP 551 Introduction to New Ventures Units: 3
- BAEP 552 Cases in Feasibility Analysis Units: 3
- BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences Units: 1.5
- BAEP 563 Corporate Entrepreneurship Units: 3
- INTD 504 Molecular Biology of Cancer Units: 4, 2 years
- INTD 531 Cell Biology Units: 4
- INTD 572 Systems Physiology and Disease I Units: 4
- INTD 573 Systems Physiology and Disease II Units: 4
- TRGN 510 Basic Foundations in Translational Biomedical Informatics Units: 4
- TRGN 514 Introduction to Human Genomic Analysis Methods Units: 4
- TRGN 515 Advanced Human Genomic Analysis Methods Units: 4
- TRGN 516 Translational Genomics, Applied Databases and Datastructures Units: 4
- TRGN 524 Applications of Genomic Technology in Biomedical Research I Units: 4
- TRGN 525 Applications of Genomic Technology in Biomedical Research II Units: 4
- TRGN 542 Biotechnology-based Therapeutics Units: 2
- TRGN 544 Biotechnology Entrepreneurship and Commercialization II Units: 2
- TRGN 545 Exploring Chemical and Biological Therapeutic Modalities Units: 2
- TRGN 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Experiential Learning includes a total of 4 units of TRGN 539 plus two Capstone courses. This program does not require a thesis. Instead, students are required to defend their program capstone through TRGN 540 and TRGN 541, which include practicum conclusion, reflective narratives, and portfolio presentation.

- TRGN 539 Translational Biotechnology Practicum Units: 2, 3, 4
- TRGN 540 Translational Biotechnology Capstone Preparation Units: 1
- TRGN 541 Translational Biotechnology Capstone Defense Units: 2
USC Thornton School of Music

Since its founding in 1884, the USC Thornton School of Music has become the center of higher education in music in the western United States and is among the top schools of music in the nation. Situated in the heart of the vital musical life of Los Angeles, USC Thornton brings together a distinguished faculty and gifted students from around the world. It is in this wonderfully diverse cultural milieu that students are offered instruction in virtually all professional and scholarly branches of music, including instrumental and vocal performance, jazz, popular music performance, music production, early music, composition, screen scoring, music industry, musicology, music teaching and learning, arts leadership, pedagogy, choral and sacred music, conducting and opera. In addition to its major programs, USC Thornton also offers a wide array of music minors and general interest courses for students majoring in other disciplines.

The USC Thornton Symphony, Chamber Choir, Concert Choir, Opera, Wind Ensemble, Popular Music Ensembles, Songwriter Showcases, Jazz Orchestra, Contemporary Music Ensemble, Early Music Ensemble and a wide variety of large and small choral and instrumental ensembles offer students a broad performing experience. More than 500 formal and informal concerts and recitals are presented on campus each year and the school regularly presents eminent visiting artists and scholars in master classes, workshops, lectures, seminars and in performance.

Los Angeles is the home of numerous musical organizations whose performances contribute immeasurably to the cultural life of the region, and is also the home of the nation's major recording, radio, film and television industries. All offer abundant opportunities to the serious young music professional.

Adjunct Associate Professors: Margaret Batjer; Che-Yen Chen; Judith Farmer; David Howard; Andrew Shulman; Tram Sparks; Bing Wang

Adjunct Assistant Professors: James Babor, Jon Buringham; Leon Ndugu Chanceler; Neal Desby; Susan Feldman; Bruce Forman; Parmeer Fuller; Adam Koller; Leah Morrison; Derek Oleszkiewicz; Joseph Pereira, Robert Sheppard; Andrea Stolpe; Robert Young

Adjunct Instructors: Andy Abad; Ted Ancona; Helene Anderson; Robert Anderson; Adriana Balic; Steve Becknell; Daniel Bell; Sean Dougall; Rachelle Fox; Sara Gazarek; Kathleen Grace; Ben Hong; Alphonso Johnson; Laura Karpman; Dax Kambah; Patrick Kirst; Tim Kobza; Marion Kuszyk; Edwin Livingston; Andrew Martin; Mary Mattei; Roy McCurdy; Shawn Mouser; Sung-Hwa Park; David Poe; Michael Powers; John Schmidt; Garry Schyman; Lawrence Shragge; William Sneath; Douglas Tomquist; Vivian Wang

Lecturers (Part-time): Lot Demeyer; Charles Koster; Michael Stever; Jason Yoshida

Emeritus Professors: William Dehnig, DMA*; Gary Glaze, MM*; James Hopkins, PhD*; Areol Koole, D.Litt et Phil; Frederick Lesemann, DMA*; Thom Mason, DMA; Donald McInnes, MM; Cynthia Munzer, BM; William A. Schaefer, MA; Margaret Schaper, MM*; Alice Schoenfeld*; Bryan Simms, PhD*; Ladd Thomas, DMA; William Thomson, PhD; James Vail, DMA*

Distinguished Professor Emeritus of Composition: Stephen Hartke, PhD*

*Recipient of university-wide or school teaching award.

Degree Programs

The Thornton School of Music offers professional and academic degrees at the bachelor's, master's and doctoral levels. These degrees are summarized below.

Bachelor of Music: Students working toward this professional degree have a wide choice of specializations: composition, music industry, instrumental performance, jazz studies, popular music performance, music production and vocal arts. Students can take either a single major program or double majors in several combinations such as piano and composition, string, or percussion instrument. The two majors must be offered by different departments but lead to the same degree (for example, Bachelor of Music). Double majors consisting of two majors in the same department are not permitted. The degree is granted by the Thornton School of Music.

Bachelor of Arts: These degrees are designed for students with a strong music background who wish to combine professional music training with substantial study in other disciplines.

Bachelor of Science: Offered by the Thornton School of Music in the specialized area of music industry.

Minors in Music: Eight different minors in music are offered, each approaching the discipline from a unique perspective and with a distinct curriculum: Jazz Studies, Musical Studies (Performance), Musical Theatre, Music Industry, Music Production, Music Recording, Popular Music Studies and Songwriting.

Master of Music: This is a professional degree that represents proficiency in one area of musical practice and relevant knowledge in musical literature, performance and technique. It requires a minimum of 30 graduate units, of which 15 must be at the 500 level or higher. Students complete either a thesis or recital(s) as part of the degree requirements. The degree can be earned in choral music, composition, conducting, jazz studies, keyboard collaborative arts, guitar, organ, piano, voice or instrumental performance, or sacred music. The degree is granted by the Thornton School of Music.

Master of Arts: This degree, offered through the Graduate School in conjunction with the Thornton School of Music, stresses music history or early music performance, with emphasis on scholarly research.
Master of Science: Two degrees are offered in Arts Leadership and Music Industry.

Doctor of Musical Arts: This is a professional degree that represents the highest level of expertise in a major field of musical practice and competence in several additional areas. Students may specialize in choral music, composition, jazz studies, vocal or instrumental performance, or sacred music.

Doctor of Philosophy: Confers by the Graduate School, this is an academic degree in the field of historical musicology. A substantial background in music, research and languages is required.

Entrance to the Degree Programs

Admission to a degree program is granted through USC’s admission process, described in the Admission section of this catalogue. Supplementary materials are also required for students seeking admission to the Thornton School of Music, which are described online atusc.edu/music.

Applicants to a program within the school are screened by appropriate faculty selection committees that hold auditions, interviews and examine supporting materials. Letters of acceptance are issued by the USC Office of Admission.

Audition

A performance audition is required of applicants to most degree and certificate programs in the Thornton School of Music. Detailed information regarding audition requirements for specific Thornton programs is available online atusc.edu/music.

Graduate Record Examinations

Scores from the general test of the Graduate Record Examinations (GRE) are required for application and admission to the Master of Arts, Doctor of Philosophy and certain Master of Music and Doctor of Musical Arts degrees. (The music subject test is not required.) Test scores on the GRE that are more than five years old at the time of application are not accepted.

Placement Tests

Undergraduate transfer students who have had formal study in any of the following areas must take the appropriate placement examination prior to their first registration: aural skills, theory, music history, conducting, analysis, orchestration and performance. The results of these examinations determine placement in appropriate sequential courses.

Admission to Graduate Standing

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office.

MGEEs are administered during the week prior to the first week of classes each fall and spring semester. Entering students must take all required exams at the scheduled exam time prior to the beginning of their first semester in the program. If any given exam is not passed on the first attempt, that exam can be retaken at the scheduled exam time prior to the beginning of the second semester in the program. If the exam is not passed on the second attempt, the corresponding review course must be successfully completed with a grade of B minus or better before the beginning of the third semester in the program. No MGEE can be attempted after the second semester in the program, regardless of whether the exam has previously been attempted. If students complete any MGEE after their second semester in the program, the score earned on said exam will be invalid. Failure to fulfill all MGEE requirements by the beginning of the third semester – either through exams or review courses – may delay permission to fulfill degree requirements such as recitals, comprehensive or qualifying examinations, thesis projects, and dissertations, and may also have a negative impact on financial aid eligibility.

If a student is not able to take an exam at the scheduled exam time, the exam administrator may choose to administer a similar exam at another scheduled time during the first week of the semester. This alternate exam time will be arranged in rare cases and at the sole discretion of the exam administrator.

Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS)

The Thornton School of Music adheres to the USC Admission policies regarding TOEFL and IELTS scores. With some exceptions, international applicants from non-English-speaking countries are required to submit these scores by the application deadline. Test scores that are more than two years old at the time of application are not accepted. For any applicant whose first language is not English, regardless of educational background or immigration status, the Thornton School may require as a condition of admission that she or he take the International Student English (ISE) exam, administered by the USC American Language Institute, as well as complete any English language course work that may be prescribed from the results of that exam.

Advanced Standing Credit for Music Courses Taken at Accredited Institutions

Music courses completed with satisfactory grades at a regionally accredited institution of higher education may be acceptable for transfer. A review of transcripts and course syllabi will be required in order to determine transferability of course work. The Thornton School may also require a student to take a placement test (at no cost) to determine the extent of his or her knowledge in a given area of musical study before a final determination is made regarding transferability of course work.

Advanced Standing Credit for Music Courses Not Taken at Accredited Institutions

Music courses completed at an institution that is not regionally accredited will generally not be transferable. In exceptional cases, the Thornton School may consider petitions for transfer credit for these courses. The petition review process will include evaluation of transcripts with letter grades, course syllabi for each course for which transfer credit is being requested, and examples of work completed for a grade in those courses. Additional information may also be required in order for the Thornton School to complete a full transfer credit evaluation.

Curriculum Requirements

The curriculum requirements for each major are listed under each degree. The USC course classification and numbering system is explained in the Registration section of this catalogue. In addition, music courses sometimes carry the following abbreviations: CD = Conducting; CG = Classical Guitar; HC = Harpsichord; OR = Organ; P = Piano; SG = Studio Guitar; VA = Viola; VC = Voice Coaching; VO = Voice.

Change of Curriculum

To change from one curriculum to another, a student must apply and be approved for the new curriculum by the appropriate department chair and declare the intent to change curriculum through his or her academic adviser in the Thornton School.

Non-Degree Programs

Students who have highly specialized interests that may not be met through degree programs may apply for admission to one of the following non-degree programs.

Artist Diploma Program

This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs. This program typically requires two to three consecutive years of study for completion.

Graduate Certificate in Arts Leadership

The graduate program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world.

Graduate Certificate Program in Performance

This two-year graduate-level program is designed for students
who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.

Honor Society

Pi Kappa Lambda

Pi Kappa Lambda is a national honor society established in 1918 for the promotion and recognition of scholarship and performance in music. Students of the Thornton School of Music are eligible for election to Eta chapter at the University of Southern California, established in 1923, according to guidelines established by the board of the Eta chapter.

Undergraduate Degrees

Minors in Music

Minor in Performing Arts Studies

The minor in performing arts provides an interdisciplinary inquiry into the nature and aesthetics of the performing arts. It combines the disciplines of cinematic arts, dance, music and theatre. The minor is a unique course of study that looks at how the performing arts contribute to a culturally literate society. See the USC School of Dramatic Arts section of this catalogue.

Graduate Degrees

Admission-Audition Requirements

Applicants to graduate programs in the Thornton School of Music must fulfill all music admission requirements described at usc.edu/music, in addition to fulfilling all USC graduate admission requirements. See Thornton School of Music Degree Programs and Entrance to the Degree Programs sections of this catalogue for further information.

Bachelor's Degree

Choral Music (BA)

Overview

The Bachelor of Arts in Choral Music combines the flexibility of a Bachelor of Arts program with an in-depth education in choral music that includes an introduction to choral music and course work in choral conducting, choral development, choral arranging, diction and choral ensemble.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar (contemporary literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar (contemporary literacies) and two courses in writing.

Core Thornton Academic Courses (38 units)

• MPKS 250a Keyboard Instruction I Units: 2
• MPKS 250b Keyboard Instruction I Units: 2
• MUO 132a Aural Skills I Units: 2
• MUO 132b Aural Skills I Units: 2
• MUO 133a Theory I Units: 3
• MUO 133b Theory I Units: 3
• MUO 232a Aural Skills II Units: 2
• MUO 232b Aural Skills II Units: 2
• MUO 233a Theory II Units: 3
• MUO 233b Theory II Units: 3
• MUO 338x Elementary Orchestration Units: 2
• MUHL 250g Music and Ideas Units: 4
• MUHL 350g Western Art Music History I Units: 4
• MUHL 351 Western Art Music History II Units: 4

Core Literacies

• WRIT 150 Writing and Critical Reasoning-Thematic Approaches Units: 4

Global Perspectives

• GE-A: The Arts (one course)
• GE-B: Humanistic Inquiry (two courses)
• GE-C: Social Analysis (two courses)
• GE-D: Life Sciences (one course)
• GE-E: Physical Sciences (one course)
• GE-F: Quantitative Reasoning (one course)

Writing

• WRIT 340 Advanced Writing Units: 3, 4

Lessons (6 units)

• MPVA 301 Individual Instruction Units: 1, 2

Music Ensembles (8 units)

• Choral Music Ensemble at the 300-level: eight 1-unit courses

Program Intensive Courses (12 units)

• MPVA 442 Introduction to the International Phonetic Alphabet Units: 2
• MUO 340 Choral Conducting I Units: 2
• MUO 441 Choral Conducting II Units: 2
• MUO 320 Introduction to Choral Music Units: 2
• MUO 440 Choral Development Units: 2
• MUO 441 Choral Arranging Units: 1, 2 (2 units total of MUO 441)

Electives (20 units)

Total required for degree: 128

With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Composition (BM)

Overview

The Bachelor of Music in Composition consists of course work in the major, core music studies (theory, aural skills, music history, keyboard instruction, conducting, ensemble) and USC's general education and writing program.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC.
It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

**Capstone Project**
A senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the recital, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the recital, reservations must be made according to the current guidelines of the Music Operations office.

### Curriculum Requirements

#### General Education *
- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

#### Core Literacies
- GE-A: The Arts (one course)
- GE-B: Humanistic Inquiry (two courses)
- GE-C: Social Analysis (two courses)
- GE-D: Life Sciences (one course)
- GE-E: Physical Sciences (one course)
- GE-F: Quantitative Reasoning (one course)

#### Global Perspectives
- GE-G: Citizenship in a Global Era (one course)
- GE-H: Traditions and Historical Foundations (one course)

#### Writing
- WRIT 340 Advanced Writing Units: 3, 4

#### Lessons (4 units)
- MPKS 301 Individual Instruction Units: 1, 2
  - 4 units total of MPKS 301 (Piano)**

#### Music Ensembles (6 units)
- Large ensemble electives: four 1-unit courses***
- Ensemble electives: two 1-unit courses

#### Program Intensive Courses (40 units)
- MUCO 135 Counterpoint I Units: 2
- MUCO 137a Composition I Units: 4
- MUCO 137b Composition I Units: 4

Electives (20 units)
Total required for degree: 128
With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Curriculum Areas of Study
Within the curriculum for the BA, students may wish to focus in a particular area of music that suits their interest and the faculty's expertise. Students may specialize in one area or may design individual programs of study by choosing various combinations of electives that best meet their needs and career objectives. Relevant courses for each area are posted at usc.edu/music. One such option is listed below.

Vocal Jazz Option: This option is designed for students with a strong interest in the performance of solo and ensemble vocal jazz music. Students should take two semesters of Vocal Jazz Techniques, as well as individual instruction in jazz voice. Students may also perform in vocal ensembles and with instrumental combos.

Music Industry (BM)

Bachelor of Music
The Bachelor of Music (BM) is a professional degree granted by the Thornton School of Music. The various majors for the degree are listed below, along with specified requirements for each.

Senior Recital/Culminative Project
All performance majors are required, as indicated in the specific curriculum listings below, to either present a senior recital or complete a culminating project. Both must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determine the detailed requirements of these recitals and projects, including content, length, format, and other specifications. In cases in which a performance venue is required in order to present the recital or complete the project, reservations must be made according to the current guidelines of the Music Operations office.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing.

The provost has allowed an exception to the rules governing the new general education requirements for certain groups of students pursuing performance degrees in music. Students pursuing the Bachelor of Music in Jazz Studies or the Bachelor of Music in Performance (vocal arts) may satisfy Category I of the new program with MUHL 331 and MUHL 332.

In all other respects, students in the Thornton School of Music must satisfy the general education requirements as described on the General Education Program page.

Individual Instruction Limitations
Music majors may accumulate a maximum of 16 units of individual instruction at the 300 level toward an undergraduate degree program.

Entrance Requirements
Applicants must submit the Thornton School of Music Supplementary Application, a statement of objectives, resume and repertoire list. A performance audition according to the requirements of the department of the applicant's primary instrument or voice is also required.

Curriculum Requirements
• General education 6 courses
• Writing 2 courses
• MPxx 153 Units: 4 units total of individual instruction in primary instrument/voice
• MPxx 253 Units: 4 units total of individual instruction in primary instrument/voice
• MPxx 353 Units: 4 units total individual instruction in primary instrument/voice*
• MPKS 250a Keyboard Instruction I Units: 2
• MPKS 250b Keyboard Instruction I Units: 2
• MPKS 250b Keyboard Instruction I Units: 2
• MUCL 340 Choral Conducting I Units: 2
• MUCL 343 Instrumental Conducting I Units: 2
• MUCL 343 Instrumental Conducting I Units: 2
• MUCL 350 Instrumental Conducting I Units: 2
• MUCL 350 Instrumental Conducting I Units: 2
• MUHL 231 Music History Units: 3
• MUHL 232 Music History II Units: 3
• MUHL 331 Music History III Units: 3
• MUHL 332 Studies in Musical Culture Units: 3
• MUIN 270 Introduction to the Music Industry Units: 4
• MUIN 280 Communications in the Music Industry Units: 4
• MUIN 360 Introduction to Music Law Units: 4
• MUIN 450 Practicum in Music Industry Issues (Internship) Units: 2, 3, 4 (8 units total)

Two courses from the following:
• MUIN 370 Music Publishing and Licensing Units: 2
• MUIN 385 Radio in the Music Industry Units: 4
• MUIN 425 Live Music Production and Promotion Units: 4
• MUIN 430 Artist Management and Development Units: 4
• MUIN 435 Manufacture and Distribution of Musical Products Units: 4
• MUIN 440 Arts Management Units: 4
• MUIN 443 The Business of Music for Visual Media Units: 4
• MUIN 445 International Music Industry Units: 4
• MUIN 495 Web Design for the Music Industry Units: 4

Music Technology requirements:
• MTEC 175 Fundamentals of Audio Recording Units: 2
• MTEC 176 Critical Listening Units: 2
• MTEC 275 Fundamentals of Audio Engineering Units: 4

6 units from the following:
• MUIN 287 The Business and Economics of the Recording Industry Units: 2
• MUIN 340 Introduction to Sound Reinforcement Units: 4
• MTEC 389 Digital Equipment and Recording Units: 2
• MTEC 392a Acoustics and Speaker Design Units: 2
• MTEC 392b Acoustics and Speaker Design Units: 2
• MTEC 442 Operation of the Radio Studio Units: 2
• MTEC 446a Computer Assisted Recording and Editing Units: 2
• MTEC 446b Computer Assisted Recording and Editing Units: 2
• MUIN 476a Advanced Sound Reinforcement Units: 2
• MUIN 476b Advanced Sound Reinforcement Units: 2
• MTEC 477 Remote Recording Techniques Units: 2
• MTEC 478 Advanced Multichannel Remix Units: 2
• MTEC 479 Audio Mastering Units: 2
• MTEC 494 Classical Music Recording Units: 4
• MUIN 496 Music Media Solutions Units: 4

Electives: 6 units

Junior Recital: 0 units

Total required for degree: 132

*All individual instruction units must be taken in the same area in which the students auditioned.

Music Industry (BS)

Overview
The Bachelor of Science in the Music Industry is a professional degree that prepares students to enter a variety of careers in the music industry of today. Students must fulfill a series of core requirements for the degree.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Business-related Requirements
In addition to the above general education requirements, the following courses offered through the USC Marshall School of Business, the USC Leventhal School of Accounting and the USC Dornsife College of Letters, Arts and Sciences are required.

Capstone Project
A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements

General Education *
• WRIT 150 Writing and Critical Reasoning--Thematic Approaches Units: 4

Core Literacies
GE-A: The Arts (one course)
• MTEC 478 Advanced Multichannel Remix Units: 2
• MTEC 479 Audio Mastering Units: 2
• MTEC 486 Computer-Assisted Music Editing for Picture Units: 2
• MTEC 493 Audio Signal Processing Equipment Units: 2

Select 4 units from the following:
• BUAD 307 Marketing Fundamentals Units: 4
• MKT 385x Marketing of Creative Disruption and Innovation Units: 4
• MUIN 410 Marketing, Branding and Strategic Alliances in Music Units: 2
• MUIN 420 DIY Music Marketing Units: 2

Select 4 units from the following:
• MPPM 350g A History of Popular Music Units: 4
• MUHL 250g Music and Ideas Units: 4
• MUHL 350g Western Art Music History I Units: 4
• MUJZ 350g A History of Jazz Music Units: 4
• MUSC 102gw World Music Units: 4
• MUSC 115g Western Music as Sounding History Units: 4
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• MUSC 210g Electronic Music and Dance Culture Units: 4
• MUSC 250gmw The Music of Black Americans Units: 4
• MUSC 320gmw Hip-hop Music and Culture Units: 4
• MUSC 371g Musical Genre Bending Units: 4
• MUSC 372g Music, Turmoil and Nationalism Units: 4
• MUSC 373g Writing About Popular Music Units: 4
• MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
• MUSC 424 Iconic Figures of Popular Music Units: 2
• MUSC 444 American Roots Music: History and Culture Units: 4
• MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
• MUSC 465 Music, Television and American Culture Units: 4

Select 6 units from the following:
• MPGU 120a Beginning Pop/Rock Guitar Units: 2
• MPGU 120b Beginning Pop/Rock Guitar Units: 2
• MPGU 120c Beginning Pop/Rock Guitar Units: 2
• MPGU 121 Intensive Beginning Pop/Rock Guitar Units: 4
• MPKS 150a Beginning Piano Units: 2
• MPKS 150b Beginning Piano Units: 2
• MPPM 240 Drumming Proficiency for the Popular Musician Units: 2
• MPPM 250 Keyboard Proficiency for the Popular Musician Units: 2
• MPPM 260 Intermediate Drum Set Proficiency Units: 2
• MPV A 141 Class Voice Units: 2
• MPV A 241 Intermediate Class Voice Units: 2
• MUCO 101x Fundamentals of Music Theory Units: 2
• MUCO 130ax Basics of Music Theory Units: 3
• MUCO 130bx Basics of Music Theory Units: 3
• MUSC 255 Songwriting I Units: 2
• MUSC 355 Songwriting II Units: 2
• MUSC 455 Songwriting III: The Performing Songwriter Units: 2

Electives (20 units)

Capstone Projects (2 units)
• MUIN 498a Final Capstone Project Units: 1
• MUIN 498b Final Capstone Project Units: 1

Total units: 128

With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

Music Production (BM)

Overview
The Bachelor of Music in Music Production consists of course work in the major area, core music classes, USC’s general education and writing, as well as electives to take advantage of the offerings of the Thornton School and of the entire university.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Project
A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Core Thornton Academic Courses (36 units)

- MUCO 132a Aural Skills I Units: 2
- MUCO 132b Aural Skills I Units: 2
- MUCO 133a Theory I Units: 3
- MUCO 133b Theory I Units: 3
- MUCO 232a Aural Skills II Units: 2
- MUCO 232b Aural Skills II Units: 2
- MUCO 233a Theory II Units: 3
- MUCO 233b Theory II Units: 3
- MUCO 338x Elementary Orchestration Units: 2
- MUHL 250g Music and Ideas Units: 4
- MUHL 350g Western Art Music History I Units: 4
- MUHL 351 Western Art Music History II Units: 4

One course from the following:

- MUCO 340 Choral Conducting I Units: 2
- MUCO 343 Instrumental Conducting I Units: 2

Electives (14 units)

Capstone Project

Senior Recital: 0 units

Total required for degree: 132

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Transfer credit may not fulfill the large ensemble requirement.

Performance (Popular Music) (BM)

Overview

The Bachelor of Music in Popular Music is designed for students interested in pursuing a career in the performance of popular music. This program consists of course work in the major performance area, core music classes, USC's general education and writing, as well as electives to take advantage of the offerings of the Thornton School and of the entire university.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Project

A capstone project must be completed under approved faculty supervision and guidance. The faculty of the department of the student's major program determines the detailed requirements of the project, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the project, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements

General Education *

- WRIT 150 Writing and Critical Reasoning–Thematic Approaches Units: 4

Core Literacies

GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)
GE-C: Social Analysis (two courses)
GE-D: Life Sciences (one course)
GE-E: Physical Sciences (one course)
GE-F: Quantitative Reasoning (one course)

Global Perspectives

GE-G: Citizenship in a Global Era (one course)
GE-H: Traditions and Historical Foundations (one course)

Writing

- WRIT 340 Advanced Writing Units: 3, 4
Lessons, Forum and Performance Class (24 units)

- MPPM 100 Popular Music Forum Units: 1
- MPPM 120 Popular Music Performance I Units: 2
- MPPM 153 Individual Instruction Units: 1, 2
- MPPM 253 Individual Instruction Units: 1, 2
- MPPM 320 Popular Music Performance II Units: 2

Music Ensembles (2 units)

Music Ensemble at the 300-level: two 1-unit courses

Program Intensive Courses (20 units)

- MPPM 240 Drumming Proficiency for the Popular Musician Units: 2
- MPPM 250 Keyboard Proficiency for the Popular Musician Units: 2
- MPPM 325a Arranging in Popular Music Units: 2
- MTEC 245 Introduction to MIDI Sequencing Units: 1
- MTEC 246 Introduction to Audio Recording and Editing Units: 1
- MUIN 270 Introduction to the Music Industry Units: 4
- MUSC 255 Songwriting I Units: 2
- MUSC 496 Careers in Music Units: 2

Select one course from the following:

- MTEC 443 Desktop Music Production Units: 2
- MTEC 446a Computer Assisted Recording and Editing Units: 2

Core Thornton Academic Courses (30 units)

- MPPM 350g A History of Popular Music Units: 4
- MUSC 131a Harmony in Popular Music Units: 2
- MUSC 131b Harmony in Popular Music Units: 2
- MUSC 132a Aural Skills I Units: 2
- MUSC 132b Aural Skills I Units: 2
- MUSC 133a Theory I Units: 3
- MUSC 133b Theory I Units: 3
- MUSC 232a Aural Skills II Units: 2
- MUSC 232b Aural Skills II Units: 2
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465 Music, Television and American Culture Units: 4

Electives (22 units)

Capstone Projects (2 units)

- MPPM 450a Final Project Units: 1
- MPPM 450b Final Project Units: 1

Total required for degree: 132

*With correct planning, only 32 units (6 GE and 2 Writing courses) will be needed outside of your major requirements.

**Drummers will substitute a class in guitar or voice.

***Keyboardists will substitute a class in guitar or voice.

Performance (Studio Guitar) (BM)

Overview

The Bachelor of Music in Studio Guitar consists of course work in the major, core music studies (theory, aural skills, music history, conducting, large ensemble) and USC’s general education and writing program.

Entrance Requirements

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements

The university's General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Projects

A junior and senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the recitals, including content, length, format and other specifications. In cases in which a performance venue is required in order to present the recitals, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements for Traditional Emphasis

General Education *

Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (BM)

Overview
The Bachelor of Music in Violin, Viola, Violoncello, Double Bass or Harp consist of course work in the major, core music studies (theory, aural skills, music history, conducting, chamber music and symphony) and USC’s general education and writing program.

Entrance Requirements
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

General Education Requirements
The university’s General Education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program is effective for all students entering USC in fall 2015 or later, or transfer students beginning college elsewhere at that time and subsequently transferring to USC. It requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. In addition, all entering freshmen are expected to complete a General Education Seminar during their first year at USC. These seminars satisfy one of the Core Literacy requirements above.

Note that courses within the major will also satisfy certain Core Literacy requirements. Please work with your major adviser to determine those courses.

Capstone Projects
A junior and senior recital must be completed under approved faculty supervision and guidance. The faculty of the department of the student’s major program determines the detailed requirements of the recitals, including content, length, format, and other specifications. In cases in which a performance venue is required in order to present the recitals, reservations must be made according to the current guidelines of the Music Operations office.

Curriculum Requirements For Violin, Viola, and Violoncello Majors

General Education *
- WRIT 150 Writing and Critical Reasoning—Thematic Approaches Units: 4

Core Literacies
GE-A: The Arts (one course)
GE-B: Humanistic Inquiry (two courses)

- MPV A 203a Acting for Singers I Units: 2
- MPV A 253 Individual Instruction Units: 1 or 2
- MPV A 301 Individual Instruction Units: 1, 2
- MPV A 353 Individual Instruction Units: 1 or 2
- MPV A 404 Italian and French Diction Units: 2
- MPV A 440 Italian and French Diction Units: 2
- MPV A 441 English and German Diction Units: 2
- MPV A 453 Individual Instruction Units: 1 or 2
- MPV A 479 Song Literature Units: 2
- 4 units total of MPV A 479

Foreign Language (16 units)
- FREN 120 French I Units: 4
- GERM 101 German I Units: 4
- ITAL 120 Italian I Units: 4

And one course from the following:
- FREN 150 French II Units: 4
- GERM 102 German II Units: 4
- ITAL 150 Italian II Units: 4

Electives (5 units)

Capstone Projects
Junior Recital: 0 units
Senior Recital: 0 units

Total required for degree: 132
* With correct planning, only 28 units (5 GE and 2 Writing courses) will be needed outside of your major requirements.
** Transfer credit may not fulfill the large ensemble requirement.

Minor

Jazz Studies Minor
This 21-unit minor program in jazz studies incorporates course work in individual instruction, the history of jazz masters, techniques of jazz improvisation and jazz theory for improvisers. The minor is not available to BM jazz studies majors.

Requirements for admission are: GPA per university regulations and an audition.

Required Courses (19 units)
- MUCO 130ax Basics of Music Theory Units: 3
- MUJZ 150 Beginning Jazz Improvisation Units: 2
- MUJZ 301 Individual Instruction Units: 1, 2
- 4 units total of MUJZ 301 in your primary instrument
- MUJZ 450 Intermediate Jazz Improvisation Units: 2
- MUSC 250gmw The Music of Black Americans Units: 4
- MUSC 250gmw The Music of Black Americans Units: 4
- MUSC 250gmw The Music of Black Americans Units: 4
- MUSC 250gmv The Music of Black Americans Units: 4
- MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
- MUSC 424 Iconic Figures of Popular Music Units: 2
- MUSC 444 American Roots Music: History and Culture Units: 4
- MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465 Music, Television and American Culture Units: 4
- Select 4 units from the following:
  - MUEN 305 Vocal Jazz Ensemble Units: 1
  - MUEN 326 Guitar Ensemble Units: 1
  - MUEN 329 Jazz Ensemble Units: 1
  - MUEN 332 Jazz Chamber Music Units: 1

Music Electives (2 units)
Music courses numbered 300–499 (2 units total)

Total units: 21

Music Industry Minor
A minor in the music industry is offered for undergraduate students to provide them with the background necessary to enter varied fields in the music business and to familiarize them with standard practices and procedures. A minimum of 20 units is required for completion of this minor. The minor is not available to music industry majors.

Prerequisite
Acceptance into the program might require a personal interview by the Thornton School of Music.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a "C" for all courses taken in the minor.

Required Courses
- MUIN 272x Basics of the Music Industry Units: 4
- Select 4 units from the following:
  - MUSC 115gp Western Music as Sounding History Units: 4
  - MUSC 210g Electronic Music and Dance Culture Units: 4
  - MUSC 250gmw The Music of Black Americans Units: 4
  - MUSC 320gmw Hip-hop Music and Culture Units: 4
  - MUSC 422 The Beatles: Their Music and Their Times Units: 4
  - MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies Units: 2
  - MUSC 424 Iconic Figures of Popular Music Units: 2
  - MUSC 444 American Roots Music: History and Culture Units: 4
  - MUSC 460 Film Music: History and Function from 1930 to the Present Units: 4
  - MUSC 465 Music, Television and American Culture Units: 4
- Select 12 units from the following:
  - MTEC 245 Introduction to MIDI Sequencing Units: 1
• MTEC 246 Introduction to Audio Recording and Editing Units: 1
• MTEC 277x Introduction to Music Technology Units: 4
• MTEC 446a Computer Assisted Recording and Editing Units: 2
• MTEC 446b Computer Assisted Recording and Editing Units: 2
• MUIN 280 Communications in the Music Industry Units: 4
• MUIN 370 Music Publishing and Licensing Units: 2
• MUIN 372 Business and Legal Aspects of the Music Industry Units: 4
• MUIN 410 Marketing, Branding and Strategic Alliances in Music Units: 2
• MUIN 420 DIY Music Marketing Units: 2
• MUIN 425 Live Music Production and Promotion Units: 4
• MUIN 430 Artist Management and Development Units: 4
• MUIN 443 The Business of Music for Visual Media Units: 4
• MUIN 444 Music Supervision Units: 4
• MUIN 495 Web Design for the Music Industry Units: 4
• MUCO 130ax Basics of Music Theory Units: 3
• MUCO 338x Elementary Orchestration Units: 2
• MUSC 115gp Western Music as Sounding History Units: 4
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• MUSC 255 Songwriting I Units: 2
• MUSC 355 Songwriting II Units: 2
• MUSC 430 Advanced Instrumental Recording Units: 2
• MUSC 446 Computer Assisted Recording and Editing Units: 2
• MUSC 474a Electronic Synthesizer Techniques Units: 2, 3, 4 (2 units total)
• MUSC 474b Electronic Synthesizer Techniques Units: 2, 3, 4 (2 units total)
• MUSC 478 Advanced Multichannel Remix Units: 2
• MUEN 300–499
• MUSC 130 Ax Basics of Music Theory Units: 3
• MUSC 130 B Basics of Music Theory Units: 3
• MUIN 410 Marketing, Branding and Strategic Alliances in Music Units: 2
• MUIN 420 DIY Music Marketing Units: 2
• MUIN 425 Live Music Production and Promotion Units: 4
• MUIN 430 Artist Management and Development Units: 4
• MUIN 444 Music Supervision Units: 4
• MUIN 495 Web Design for the Music Industry Units: 4
• MUIN 497 Current Topics, Case Studies, and Analysis Units: 2

Total units: 20

Music Production Minor

A successful career in the 21st century music industry often requires that musicians be the songwriter, performer, producer and/or audio engineer on any given project. The minor in Music Production allows students to develop the creative, collaborative and technical skills required to compose, arrange and produce for contemporary music projects.

Prerequisite

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a "C" for all courses taken in the minor.

Required Courses

• MTEC 245 Introduction to MIDI Sequencing Units: 1
• MTEC 246 Introduction to Audio Recording and Editing Units: 1
• MTEC 277x Introduction to Music Technology Units: 4 *
• MUCO 130ax Basics of Music Theory Units: 3
• MUSC 255 Songwriting I Units: 2

Select 8 units from the following:

• MTEC 378 Introduction to Mixing and Mastering Units: 2
• MTEC 443 Desktop Music Production Units: 2
• MTEC 444 Non-Linear MIDI Sequencing Units: 2
• MTEC 445 Advanced Desktop Music Production Units: 2
• MTEC 446a Computer Assisted Recording and Editing Units: 2
• MTEC 446b Computer Assisted Recording and Editing Units: 2
• MTEC 474a Electronic Synthesizer Techniques Units: 2, 3, 4 (2 units total)
• MTEC 474b Electronic Synthesizer Techniques Units: 2, 3, 4 (2 units total)
• MTEC 478 Advanced Multichannel Remix Units: 2
• MUSC 355 Songwriting II Units: 2
• MUIN 438x Elementary Orchestration Units: 2
• SCOR 403 Introduction to Scoring Movies and Television Units: 2 **
• SCOR 405 Introduction to Scoring Video Games Units: 2 **

Note:

*Music Industry majors can substitute MTEC 175 and MTEC 176 for MTEC 277.

**Courses have prerequisites

Total Units: 19

Music Recording Minor

A minor in music recording is offered for undergraduate students to provide them with the background necessary to enter the field of audio engineering and to familiarize them with the standards and techniques used in audio recording, editing, mixing and mastering.

Prerequisite

Acceptance into the program might require a personal interview by the Thornton School of Music to assure that the student has sufficient musical background and skill.

Students admitted to this minor will be expected to have a minimum GPA of 2.0 and to maintain that average with no grade lower than a "C" for all courses taken in the minor.

Students must apply for this minor, and admission is based on successful completion of MTEC 277x. Generally, students who earn a B or better in this course have a GPA of 2.0 or higher are admitted. Declared engineering (ENGR) majors with a GPA of 3.0 or higher may be admitted before completing MTEC 277x.

Required Courses

• MTEC 275 Fundamentals of Audio Engineering Units: 4
• MTEC 277x Introduction to Music Technology Units: 4 *
• MTEC 446a Computer Assisted Recording and Editing Units: 2

8 units from the following:

• MTEC 378 Introduction to Mixing and Mastering Units: 2
• MTEC 389 Digital Equipment and Recording Units: 2
• MTEC 392a Acoustics and Speaker Design Units: 2
• MTEC 430 Advanced Instrumental Recording Units: 2
• MTEC 446b Computer Assisted Recording and Editing Units: 2
• MTEC 477 Remote Recording Techniques Units: 2
• MTEC 478 Advanced Multichannel Remix Units: 2
• MTEC 479 Audio Mastering Units: 2
• MTEC 491 The Recording Console Units: 4
• MTEC 493 Audio Signal Processing Equipment Units: 2
• MUIN 340 Introduction to Sound Reinforcement Units: 4

Total units: 18

*Music Industry majors can substitute MTEC 175 and MTEC 176 for MTEC 277x.

Musical Studies Minor

This 18-unit program in musical studies, with an emphasis in performance, incorporates the study of music theory, music history, performance, and ensembles. Students may enter the program in their freshman year. An audition is required for this minor, which is not available to music majors.

Required Courses

• MUOC 130Ax Basics of Music Theory Units: 3
• MUOC 130Bx Basics of Music Theory Units: 3
• MUEN 300–499
• MUSC 115gp Western Music as Sounding History Units: 4
• Individual Instruction at the 301 level

Total Units: 18

Musical Theatre Minor

The minor in musical theatre, interdisciplinary in nature, is a 21-unit program incorporating the study of acting, dance or movement, vocal arts and related musical subjects. Admission to the minor requires an audition for music but not for theatre.

Required Courses (13 units)

• MPVA 402 Musical Theatre Workshop I Units: 3
• MPVA 412 Musical Theatre Workshop II Units: 3
• MUSC 200gmw The Broadway Musical: Reflections of American Diversity Units: 4
• THTR 343 Musical Theatre Audition Units: 3

Select 8 units from the following:

• DANC 175 Choreography for the Screen Units: 2
**Popular Music Studies Minor**

This minor consists of courses that examine different aspects of popular music. The minor focuses on the study of the repertories and their cultural and social context. Students must be in good academic standing to be admitted. No previous musical experience is required.

**Course Requirements (16 units total)**

Choose 16 units from the following:

- MUSC 102gw: World Music Units: 4
- MUSC 200gmw: The Broadway Musical: Reflections of American Diversity Units: 4
- MUSC 210g: Electronic Music and Dance Culture Units: 4
- MUSC 250gmw: The Music of Black Americans Units: 4
- MUSC 320gmw: Hip-hop Music and Culture Units: 4
- MUSC 371g: Musical Genre Bending Units: 4
- THTR 101: Introduction to Acting Units: 4
- THTR 216: Movement for Actors Units: 2
- THTR 252a: Intermediate Acting I Units: 2
- THTR 352a: Intermediate Acting II Units: 2
- THTR 352b: Intermediate Acting I Units: 2
- THTR 361: Advanced Movement for Actors Units: 2
- MUSC 422: The Beatles: Their Music and Their Times Units: 4
- MUSC 424: Iconic Figures of Popular Music Units: 2
- MUSC 444: American Roots Music: History and Culture Units: 4
- MUSC 445: Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 455: Songwriting III: The Performing Songwriter Units: 2
- MUSC 460: Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465: Music, Television and American Culture Units: 4

**Total units: 21**

*Note for dance, music and theatre majors: dance majors must select 8 units in music and/or theatre, music majors must select 8 units in dance and/or theatre, and theatre majors must select 8 units in dance and/or music. Exception: Theatre majors may select THTR 216 and/or THTR 316 as part of the 8-unit requirement.

**Songwriting Minor**

The minor in songwriting incorporates practical instruction in the craft of songwriting and in performance skills, instruction in the technology relevant to songwriting, and critical studies in the relevant repertories.

**Requirements for admission:** Those who are considering this program should enroll in MUSC 255 Songwriting I. Admission will be based on songwriting ability and potential as determined by the songwriting faculty.

**Required Courses (16 units)**

- MTEC 245: Introduction to MIDI Sequencing Units: 1
- MTEC 246: Introduction to Audio Recording and Editing Units: 1
- MUCC 130ax: Basics of Music Theory Units: 3
- MUCC 130bx: Basics of Music Theory Units: 3
- MUSC 255: Songwriting I Units: 2
- MUSC 353: Songwriting II Units: 2
- MUSC 455: Songwriting III: The Performing Songwriter Units: 2

Choose one course from the following:

- MTEC 443: Desktop Music Production Units: 2
- MTEC 446a: Computer Assisted Recording and Editing Units: 2

Choose 4 units from the following:

- COMM 306: Innovation, Entertainment, and the Arts Units: 4
- COMM 307: Sound Clash: Popular Music and American Culture Units: 4
- COMM 384: Interpreting Popular Culture Units: 4
- MUSC 102gw: World Music Units: 4
- MUSC 115gp: Western Music as Sounding History Units: 4
- MUSC 200gmw: The Broadway Musical: Reflections of American Diversity Units: 4
- MUSC 210g: Electronic Music and Dance Culture Units: 4
- MUSC 250gmw: The Music of Black Americans Units: 4
- MUSC 320gmw: Hip-hop Music and Culture Units: 4
- MUSC 371g: Musical Genre Bending Units: 4
- MUSC 372g: Musical Turmoil and Nationalism Units: 4
- MUSC 373g: Writing About Popular Music Units: 4
- MUSC 422: The Beatles: Their Music and Their Times Units: 4
- MUSC 423: Classic Rock: Popular Music of the Sixties and Seventies Units: 2
- MUSC 424: Iconic Figures of Popular Music Units: 2
- MUSC 444: American Roots Music: History and Culture Units: 4
- MUSC 460: Film Music: History and Function from 1930 to the Present Units: 4
- MUSC 465: Music, Television and American Culture Units: 4

**Total units: 20**

**Diploma**

**Artist Diploma Program**

This program is designed for young artists of exceptional ability and musical sensitivity who plan careers as solo performers. The Artist Diploma Program provides young artists with the opportunity to devote their full time to concentrated study and practice for the duration of their assigned programs.

**Entrance Requirements**

Following the recommendation of the student's major department, a performance audition, consisting of a full-length recital before the Artist Diploma Committee, is required.

**Curriculum Requirements**

A minimum of 16 units at the 754 level (from MPMK, MPGU, MPKS, MPST, MPVA or MPWP) and four full-length recitals are required. This program requires four consecutive semesters of study for completion.

**Master's Degree**

**Arts Leadership (MS)**

**Overview**

USC's Arts Leadership program (ARTL) is a flexible, multi-disciplinary graduate program for artists, arts administrators and cultural entrepreneurs who want to expand their personal vision and develop the ability to create a life and a career in the nonprofit arts. The curriculum is appropriate for both early and mid-career individuals engaged in any or multiple arts disciplines, who recognize that the rapidly changing world of the 21st century requires an innovative approach to arts leadership. The program is highly individualized, allowing students to design the course of study that is most appropriate for them and their career aspirations.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Students must complete at least 26 semester units at USC, including the Practicum. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding course work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit...
must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence. **Time Limit**

The time limit for completing the Master of Science degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Capstone**

A practicum project is required as the capstone for the Master of Science in Arts Leadership. Students will conceptualize, develop and complete an arts project of his or her own choosing to pursue in conjunction with the course work. The practicum project will be centered around a complex leadership challenge that resonates both for the student's particular artistic circumstances and for the field of arts leadership.

**Curriculum Requirements**

### Program Intensive Courses (11 units)

- ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
- ARTL 501 Executive Leadership in the Arts Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- ARTL 520 Arts Leadership Intensive Units: 1

### Field Experience Courses (4 units)

Select 4 units from the following:

- ARTL 512 Essentials of Orchestra Management Units: 2
- ARTL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- MUCM 598 Internship in Music Units: 1, 2, 3, 4

### Elective Concentration Courses (12 units)

Students will select a topic area of concentration related to their interests. Relevant courses will be chosen from around the University in consultation with and approved by the Arts Leadership Program Director in conjunction with appropriate department chairs and directors.

**Suggested topic areas include but are not limited to:**

- Curatorial
- Organizational Communication
- Globalization and the Arts
- Diversity, Equity and Inclusion in the Arts
- Art and Technology
- Organizational Management
- Cultural Entrepreneurship
- Art and Social Change

### Capstone Project (4 units)

- ARTL 510 Arts Leadership Practicum Units: 2
- 4 units total of ARTL 510

**Total Units: 31**

**Choral Music (MM)**

**Overview**

The MM in choral music consists of course work in choral conducting, choral music seminars, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Master's Recital**

One public recital is required of all candidates for the Master of Music degree (Choral Music), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique. A final oral examination in choral literature, conducting and rehearsal techniques will be administered by the choral music faculty.

**Curriculum Requirements**

**Keyboard Proficiency**

A keyboard proficiency test will be given by the choral faculty during the student's first semester in residence to determine if additional study in keyboard is required.

**Lessons (2 units)**

- MPVA 501 Individual Instruction Units: 1 or 2
- VO (2 units total)

**Music Ensembles (2 units)**

- Ensemble Units: 2 units total*

**Program Intensive Courses (16 units)**

- MUCD 541 Choral Conducting III Units: 2
- MUCM 440 Choral Development Units: 2
- MUCM 541 Choral Literature I Units: 2
- MUCM 542 Choral Literature II Units: 2
- MUCM 543 Seminar in Choral Music Units: 2
- MUCM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

**Core Thornton Academic Courses (10 units)**

- MUCD 443 Instrumental Conducting II Units: 2
- MUHL 570 Research Materials and Techniques Units: 2

---

*Note: *Units total may vary depending on the specific program and requirements.
USC THORNTON SCHOOL OF MUSIC  617

- MUHL Electives at 500 level Units: 4 units total
  Choose one course from the following:
  - MPVA 438 Foundations of Vocology Units: 2 **
  - MPVA 541 Advanced Vocology Units: 2 **
  - MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

Capstone Projects (0 units)
- Graduate recital Units: 0
- Comprehensive review Units: 0

Total units: 30
*Choral music majors must participate in a choral ensemble chosen from MUEN 510 or MUEN 512 each semester if enrolled for 4 or more units.
**Courses with similar content in MPVA 438 and/or 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

Community Music (MM)
Overview
The Master of Music in Community Music is for musicians with a commitment to developing the necessary skills and best understandings of music teaching and learning in community settings. The program will build upon music preparation from the undergraduate level with course work designed to nurture skills in community music teaching, program development, professional practice, scholarship and research. With the wide range of courses available, the program can be tailored for a variety of student goals. This degree provides an academic link to the rich music learning opportunities available through community programs in urban Los Angeles and, in particular, to the Thornton Community Engagement Programs.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Community Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Unit and Grade Requirements
- Students must complete at least 26 semester units at USC, including a capstone and comprehensive review. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.
- Transferred Credits
  All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
- The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
- All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Comprehensive Review
A final project is required for candidates as a capstone for the Master of Music in Community Music. The project will consist of a scholarly document written on a topic approved by the Music Teaching and Learning department. Candidates must also submit a comprehensive portfolio of representative work product consistent with their work in classes and in the field.

Guidance Committee
Before registering for MTAL 592, a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the project. The final acceptance of the project and portfolio is based upon the unanimous recommendation of all three members of the committee.

Curriculum Requirements

Program Intensive Courses (minimum of 22 units)*
- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 535 Community Engagement Through Music Units: 2
- MTAL 537 Community Engagement Models and Frameworks in Music Units: 1
- MTAL 538 Music in the Community, Program Development and Evaluation Units: 2
- MTAL 607 Alternative Models in Music Teaching and Learning Units: 2

Select two courses from the following:
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- MTAL 502 Sociological and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 721 Qualitative Research in Music Teaching and Learning Units: 3

Select a minimum of three courses from the following:**
- MTAL 470 Improvisation and Composition for Teaching and Learning Units: 2
- MTAL 475 Teaching and Learning: Children Units: 2
- MTAL 476 Teaching and Learning: Youth Units: 2
- MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles Units: 3 ***
- MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles Units: 3 ***
- MTAL 482 Contemporary Pedagogy, Vocal and General Music Units: 2 ***
- MTAL 615 Assessment and Reflective Practice Units: 2

Applied Music (4 units)
Select four units from the following areas of musical study:
- Courses in songwriting, arranging, composition, improvisation, conducting; individual instruction (lessons); or ensemble. Courses must be at the 500-level.

Capstone and Comprehensive Review (4 units)
- MTAL 589 Community Music Practicum Units: 2
- MTAL 592 Final Project Units: 2
- Comprehensive Review Units: 0

Total Units: Minimum of 30****
*Students must select courses accordingly to complete a minimum of 22 units from the Program Intensive Courses.
**Courses may be chosen from this list or in consultation with faculty in the Music Teaching and Learning department.
***A maximum of two of these courses may be selected.
****A minimum of 30 units are needed to complete the degree
Composition (MM)
Master of Music
Unit and Grade Requirements
Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees
A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master's Recital
One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Composition
Prerequisite
The applicant must hold a Bachelor of Music degree with a major in composition or theory.
Curriculum Requirements
  • Ensemble Units: 2 units total
  • MUHL 570 Research Materials and Techniques Units: 2
  • Electives at the 500 level in MUHL or MUCO
  • Individual instruction 501 in any performance medium (MPxx 501) or applicable MTEC or MUCD instruction Units: 4 units total
  • MUCO 537 Advanced Composition I Units: 1 or 2 (8 units total)
  • MUCO 536 Advanced Orchestration I Units: 1, 2, 3, 4 (2 units total)
  • Electives Units: 4 units total
  • Graduate recital Units: 0
  • Comprehensive review Units: 0
  • MM composition portfolio Units: 0

Total units: 30
Conducting (MM)
Master of Music

This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Conducting

Prerequisite

The applicant must hold a bachelor’s degree with a music major and have at least one year of experience conducting an orchestra.

Curriculum Requirements

- MUCD 550 Orchestral Conducting Seminar Units: 2 (8 units total)
- Ensemble (preferably chamber music) Units: 4 units total
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 575 Music of the Baroque Era Units: 2, 2 years
- MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- Electives
- Two graduate recitals Units: 0
- Comprehensive review Units: 0

One course from

- MUHL 573 Music of the Middle Ages Units: 2, 2 years
- MUHL 574 Music of the Renaissance Units: 2, 2 years
- MUHL 576 Music of the Classical Period Units: 2, 2 years
- MUHL 577 Music of the 19th Century Units: 2, 2 years or
- MUHL 578 Music since 1900 Units: 2

Total units: 30

Contemporary Teaching Practice (MM)

Overview

The Master of Music in Contemporary Teaching Practice is designed as an intensive program and places special emphasis on urban settings. The overall goal of this degree is to provide a credential path for graduate music students who wish to teach in public and private schools in California and other states. The program will build on the students' undergraduate preparation in music (including music theory, aural skills, keyboard skills, music history and performance education including playing, singing, conducting and ensemble work) by adding courses in music teaching and learning and general education. Special course work in music in the lives of children and youth, contemporary teaching methods, music composition/improvisation, research and assessment, and community and entrepreneurial engagement will highlight the degree. Certain courses will include extensive field experiences in the schools. Attention will be paid to children with special needs and English Language Learners (ELL), as mandated by the state of California. Finally, as a special opportunity, newly conferred students in this degree will have the ability to access monthly online mentoring sessions with USC faculty. This opportunity will be available in the first year of teaching, after the degree has been conferred.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examination

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Contemporary Teaching Practice. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Unit and Grade Requirements

Students must complete at least 30 semester units at USC, including the comprehensive review. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exam

All students entering this graduate-level degree program at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Comprehensive Review

Candidates for the Master of Music in Contemporary Teaching Practice must submit a comprehensive portfolio of music teaching experiences consistent with their work in class and in the field. This portfolio is reviewed by faculty in the department.

Curriculum Requirements

Program Intensive Courses (24 units)

- MTAL 475 Improvisation and Composition for Teaching and Learning Units: 2
- MTAL 476 Teaching and Learning: Children Units: 2
- MTAL 476 Teaching and Learning: Youth Units: 2
- MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles Units: 3
- MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles Units: 3
- MTAL 482 Contemporary Pedagogy, Vocal and General Music Units: 2
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 535 Community Engagement Through Music Units: 2
- MTAL 588 Guided Practice Units: 3
- MTAL 615 Assessment and Reflective Practice Units: 2

Courses from USC Rossier School of Education (10 units)

- EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools Units: 4
- EDUC 671 Contexts for Educational Equity, Access, and Agency Units: 3
- EDUC 672 Integrated Language Development Across the Curriculum Units: 3

Comprehensive Review (0 units)

Proficiencies (0 units)

- Certification in music for children with special needs
- Competency playing test in snare drum, drum set, acoustic and electric guitar, and electronic keyboard
- Competency playing test in flute, clarinet, trumpet, trombone, violin, and cello
• Competency singing test in vocal technique

Total Units: 34

Additional Note:

Information for Certification:

California has a two-tier credential structure. A five-year preliminary credential is the first credential issued after an individual meets basic credential requirements. A clear credential is issued when all credential requirements have been completed. Upon successful completion of the MM, CTP degree candidates are recommended for a Preliminary credential. Internships and Induction programs that lead to clear credentials are currently satisfied under the purview of your district of employment.

All Preliminary Credential teacher candidates must meet the following requirements in order to be recommended/endorsed for a teaching credential: Basic Skills Competency, successful completion of all MM, CTP course work, evidence of successful completion and passing of the edTPA (Teaching Performance Assessment) and verification of training in cardiopulmonary resuscitation (CPR) that covers infant, child and adult CPR skills.

Early Music Performance Emphasis (MA)

Master of Arts

This degree is under the jurisdiction of the Graduate School. Students should also refer to The Graduate School section of this catalogue for general regulations.

Departmental Requirements

Applicants will be evaluated on the basis of scores on the Graduate Record Examinations, transcripts of previous college courses, a research paper and letters of reference.

Regular (classified) standing is achieved when the general test of the Graduate Record Examinations has been taken, and when the Music Graduate Entrance Examinations have been completed satisfactorily. Remedial course work, if recommended, may be substituted for repetition of examinations.

Language Requirement

Students are required to demonstrate a reading knowledge by passing an examination in one foreign language chosen by the student from among French, German, Italian or Latin. This requirement must be passed prior to the comprehensive examination.

Prerequisites

Applicants should have an undergraduate degree with a major in music or the equivalent, and a substantial background in languages, arts and letters.

Degree Requirements for the Early Music Performance Emphasis

Requirements

- MUEN 550 Early Music Ensemble Units: 1 (3 units total)
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 572 Seminar in Historical Musical Notation Units: 2
- MUHL 574 Music of the Renaissance Units: 2, 2 years
- MUHL 575 Music of the Baroque Era Units: 2, 2 years
- MUHL 589 Seminar in Renaissance Repertoires and Performance Practice Units: 2
- MUHL 591 Seminar in Baroque Repertoires and Performance Practice Units: 2
- MUHL 594a Master's Thesis Units: 2
- MUHL 594b Master's Thesis Units: 2
- MPEM 450 Collegium Workshop Units: 1 (2 units total)
- MPEM 553 Individual Instruction Units: 1 or 2 (3 units total)
- Elective in music
- Electives in letters, arts and sciences

Total units: 32

The thesis will include the planning, research, preparation and leadership of a full-length program in early music. This practical work will be supported by a written essay that deals, as appropriate, with historical data sources, authentic performance practices and a stylistic assessment of the repertoire that is performed. In lieu of a comprehensive examination, candidates for the Early Music Performance Emphasis will be required to pass periodic reviews to demonstrate progress.

Jazz Studies (MM)

Master of Music

Unit and Grade Requirements

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Music Industry (MS)

Overview

The Master of Science in Music Industry program aims to produce the next generation of music industry leaders via a comprehensive yet student-tailored education. Class topics include copyright, concerts, artist management, marketing data and analysis, and a one-semester internship. Additionally, students have four emphasis track options including music performance, supervision, the business of touring/live event promotion, and entrepreneurship.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 32 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all USC courses. Students who transfer credits must achieve this average on all combined transferred and resident units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Science degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Portfolio Requirement

A portfolio, as capstone to a two-semester immersion into a student-led music campaign, is required for graduation. The Music Industry faculty will provide students with additional details for this requirement.

Curriculum Requirements

Program Intensive Courses (27 units)

- MUIN 510 The Music Industry: Careers, Rights and Income Streams Units: 4
- MUIN 511 Music Industry History: Entrepreneurs, Moguls and Catalogs Units: 2
- MUIN 512 The Management of Live Performances Units: 2
- MUIN 520 Artist Management: Campaign Planning, Pitching, Partnerships Units: 2
- MUIN 521 Music Industry/Producers Forum Units: 1
- MUIN 522 Music Marketing, Branding and Campaigns Units: 3
- MUIN 523 Survey/Analysis of Music Agreements Units: 4
- MUIN 530 Mentorship Units: 1
- MUIN 540 Artist Management: Campaign Execution and Hindsight Analysis Units: 2
- MUIN 541 Data Analytics: Music Marketing Decisions and Presentations Units: 2
- MUIN 542 Developing Copyright Laws and Business Models Units: 3
- MUIN 598 Internship Units: 1

Core Business Fundamentals Course (3 units)

- GSBA 520 Business Fundamentals for Non-Business Professionals Units: 3, 4

Select one Emphasis Option from the following and complete a minimum of 5 units from the emphasis (minimum 5 units)

Emphasis Option 1: Business of Live Promotion/Touring

- MUIN 515 Live Touring Strategy Units: 2
- MUIN 525 Concert Promotion, Venue Management and Event Planning Units: 3

Emphasis Option 2: Music Supervision and Visual Media

- CTPR 410 The Movie Business: From Story Concept to Exhibition Units: 2
- MUIN 526 Music Supervision, Production and Creative Licensing Units: 3
Emphasis Option 3: Performance*
- MUEN at the 500 level: 2 units total
- Courses in music at the 400 or 500 level: 3 units total

Emphasis Option 4: Entrepreneurship
- BAEP 465 Digital Playbook for Entrepreneurs: Creating a Tech Startup Units: 2
- BAEP 475 Entertainment Entrepreneurship Units: 2
- BAEP 555 Founder's Dilemmas: Anticipate and Avoid Startup Pitfalls Units: 3

Thesis/Project/Portfolio Requirements and Qualifying Exam Committees

A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master's Recital

One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Master of Music in Performance (Keyboard Collaborative Arts)

Prerequisite

Applicants must hold the Bachelor of Music degree with a major in piano or keyboard collaborative arts or equivalent background as determined by the collaborative arts faculty. It is strongly suggested that students who have not previously taken courses in Italian, French, English and German diction, or in song literature, enroll in the appropriate course(s) (MPVA 440, MPVA 441, MPVA 479) as part of their electives.

Curriculum Requirements

- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level
- MPKS 481 Interpretation of Baroque Music Units: 2
- MPKS 553 Individual Instruction Units: 1 or 2 CP (8 units total)
- MPKS 560 Song Interpretation Master Class Units: 2
- MPKS 561 Chamber Music Interpretation Master Class Units: 2
- Electives in music
- Two graduate recitals, one with voice(s), the other with instrument(s) Units: 0
- Comprehensive review Units: 0

**Total units:** 30

**Performance (Organ) (MM)**

**Master of Music**

**Unit and Grade Requirements**

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Thesis/Project/Portfolio Requirements and Qualifying Exam Committees**

A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

**Master's Recital**

One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

**Master of Music in Performance (Organ)**

**Prerequisite**

The applicant must hold a Bachelor of Music degree with a major in organ or equivalent.

**Curriculum Requirements**

- Ensemble
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level
- MPKS 481 Interpretation of Baroque Music Units: 2
- MPKS 553 Individual Instruction Units: 1 or 2 (8 units total)
- Music electives (at least two from the 500 level)
- Electives
- Graduate recital Units: 0
- Comprehensive review Units: 0

**Total units:** 30

**Performance (Piano) (MM)**

**Master of Music**

**Unit and Grade Requirements**

Master of Music in Performance (Piano)

Prerequisite

The applicant must hold a Bachelor of Music degree in piano or equivalent.

Curriculum Requirements

- Ensemble
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives at 500 level Units: 6
- MPKS 553 Individual Instruction Units: 1 or 2 P (8)
- MPKS 450a Piano Pedagogy: Intermediate Literature and Functional Skills Units: 2
- MPKS 520 Special Studies in Solo Repertoire for Piano Units: 2 (6 units total)
- Electives
- Two graduate recital units: 0
- Comprehensive review units: 0

Total units: 30

Performance (Studio Guitar) (MM)

Master of Music

Unit and Grade Requirements

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Master of Music in Performance (Studio Guitar)

Prerequisite

The applicant must hold a bachelor's degree with a major in music with guitar as the principal instrument.

Curriculum Requirements

- MUEN 526 Guitar Ensemble Units: 1 (2 units total)
- Electives
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL 578 Music since 1900 Units: 2
- MUHL electives at the 500 level
- MPGU 553 Individual Instruction Units: 1 or 2 SG (8 units total)
- MPGU 558 Advanced Studio Guitar Performance Class Units: 1 (4 units total)
- Music electives
- Electives
- Two graduate recital units: 0
- Comprehensive review units: 0

Total units: 30

Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp) (MM)

Master of Music

Unit and Grade Requirements

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that
degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Thesis/Project/Portfolio Requirements and Qualifying Exam Committees**

A composition portfolio is required of candidates for the Master of Music degree in composition; a thesis or final project is required of candidates for the Master of Music degree in music education. For music education majors, the thesis will consist of a research document written on a topic approved by the music teaching and learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis, or a similarly required course for a capstone project or portfolio, a student must establish a qualifying exam committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the qualifying exam committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

**Master’s Recital**

One or more public recitals are required of all candidates for the Master of Music degree, as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

**Master of Music in Performance (Violin), (Viola), (Violoncello), (Double Bass) or (Harp)**

**Prerequisite**

The applicant must hold a Bachelor of Music degree with a major in a string instrument or equivalent.

**Curriculum Requirements**

- **MUCD 443 Instrumental Conducting II Units: 2**
- **MUEN 527 USC Symphony Units: 1**
- **MUEN 530 Contemporary Music Ensemble Units: 1 or 2**
- **MUEN 550 Early Music Ensemble Units: 1 (4 units total)**
- **MUHL 570 Research Materials and Techniques Units: 2**
- **MUHL 578 Music since 1900 Units: 2**
- **MUHL electives at the 500 level**
- **MPKS 481 Interpretation of Baroque Music Units: 2**
- **MPST 553 Individual Instruction Units: 1 or 2 (8 units total)**
- **Music electives**
- **Graduate recital Units: 0**
- **Comprehensive review Units: 0**

**Total units: 30**

**Performance (Vocal Arts) (MM)**

**Overview**

The MM in vocal arts performance is a two-year, 30-unit program consisting of individual instruction, ensembles, cantata and oratorio, pedagogy, vocal literature, music history and electives. A graduate recital is required.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**

Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Master’s Recital**

One public recital is required of all candidates for the Master of Music degree (Vocal Arts), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

**Comprehensive Review**

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

**Master of Music in Performance (Vocal Arts)**

**Prerequisite**

The applicant must hold a Bachelor of Music degree with a major in vocal arts. Students who have not had formal training in foreign language, diction, vocal pedagogy, acting for singers, song literature and in Italian, French or German languages must show competency in these areas through examination or complete appropriate course work with a grade of B or higher.

**Curriculum Requirements**

**Lessons (8 units)**
USC THORNTON SCHOOL OF MUSIC

**Music Ensembles (2 units)**
500 level Music Ensemble (two 1-unit courses)

**Program Intensive Courses (6 units)**
- MPVA 443 Cantata and Oratorio Units: 2, 2 years
- MPVA 540 Special Studies in Vocal Literature Units: 2
- MPVA 541 Advanced Vocology Units: 2

**Core Thornton Academic Courses (4 units)**
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL Electives at the 500 level (2 units total)

**Electives (10 units)**
Electives in music at the 400 or 500 level (6 units total)
Electives in non-music or music at the 400 or 500 level (4 units total)

**Capstone Projects**
- Graduate Recital (0 units)
- Comprehensive Review (0 units)

**Total Units: 30**

**Comprehensive Review**
A final examination in vocal pedagogy, art song and oratorio literature and diction will be administered by the vocal arts faculty. Students are required to write extensive program notes for the degree recital.

**Sacred Music (MM)**

**Overview**
The MM in sacred music consists of course work in sacred music, choral conducting, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital or project.

**Admission**
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Unit and Grade Requirements**
Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

**Transferred Credits**
All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

**Time Limit**
The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**
All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Master's Recital/Project**
Students majoring in Sacred Music must complete a recital or a project, as approved by the department. Candidates completing the recital must perform one public recital. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance. Candidates completing the project must work with the department to determine the details for this requirement.

**Comprehensive Review**
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique. A final oral examination in sacred music and related areas will be administered by the sacred and choral music faculty.

**Curriculum Requirements**

**Keyboard and Voice Proficiency**
Proficiency tests in keyboard and voice will be given by the choral and sacred music faculty during the student's first semester in residence to determine if additional study in either medium is required.

**Lessons (2 units)**
Take 2 units from the following:
- MPKS 501 Individual Instruction Units: 1 or 2 ** (PI or OR)
- MPVA 501 Individual Instruction Units: 1 or 2 **

**Music Ensembles (2 units)**
- Ensemble Units: 2 units total

**Program Intensive Courses (20 units)**
- MSCR 571 Music of the Great Liturgies Units: 2
- MSCR 572 Sacred Music Administration Units: 2
- MSCR 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 541 Choral Conducting III Units: 2 ** (4 units total)
- MUCM 440 Choral Development Units: 2 **
- MUCM 541 Choral Literature I Units: 2 **
- MUCM 542 Choral Literature II Units: 2 **

**Choose one course from the following:**
- MSCR 473 Hymnology Units: 2
- MSCR 475 Introduction to Jewish Music Units: 2

**Choose one course from the following:**
- MSCR 474 The Organ in Worship and Congregational Life Units: 2
- MPVA 438 Foundations of Vocology Units: 2 ***
- MPVA 541 Advanced Vocology Units: 2 ***
- MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

**Core Thornton Academic Courses (4 units)**
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives at the 500 level Units: 2 units total

**Electives (2 units)**

**Capstone Projects (0 units)**
- Graduate recital or project Units: 0
- Comprehensive review Units: 0

**Total units: 30**
Portfolio Requirement

Portfolio: 0 units

Total Units: 36

Teaching and Learning (MM)

Overview

The goal of this professional degree is to prepare the student for an advanced level of pre-college teaching and leadership in the music education profession by developing core knowledge and expertise in pedagogical skills and scholarship. It provides a seamless transition into the DMA in Teaching and Learning, with most units being transferable to the DMA requirements.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Teaching and Learning. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the capstone. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton School. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Guidance Committee

A thesis or final project is required for candidates as a capstone for the Master of Music in Teaching and Learning. The thesis will consist of a research document written on a topic approved by the Music Teaching and Learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis or 590 and 592 (for the project option), a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee...
directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

**Comprehensive Review**
Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

**Curriculum Requirements**

**Applied Music (4 units)**
4-units total are to be earned by choosing from the following:
- Individual Instruction (lessons); courses in conducting, composition or arranging; or ensemble. Individual instruction and ensembles must be at the 500 level. Conducting, composition and arranging courses must be at the 400 or 500 level.

**Program Intensive Courses (11 units)**
- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 505 Teaching and Learning Music Units: 2
- MTAL 594a Master's Thesis Units: 2
- MTAL 594b Master's Thesis Units: 2
- MTAL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  (2 units total of MTAL 590) and
- MTAL 592 Final Project Units: 2

**Core Thornton Academic Courses (8 units)**
- MUHL electives at the 500 level: two 2-unit courses
- MUO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 501 Historical Foundations of Music Education Units: 3
- MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 504 Psychological Foundations of Music Units: 3

**Electives in music at the 400 or 500 level (3 units)**

**Capstone Project (0 units)**

**Comprehensive Review (0 units)**

**Core Courses**
- ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
- ARTL 501 Executive Leadership in the Arts Units: 2
- ARTL 502 Issues in the Arts and the Contemporary World Units: 2
- ARTL 503 Arts Organizations: Innovation and New Models Units: 2
- ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
- ARTL 510 Arts Leadership Practicum Units: 2 (2 semesters) (4 units total)

**Minimum total units: 18**

**Performance Graduate Certificate**
This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.
Entrance Requirements
A performance audition is required with repertory to be determined by the student's primary department.

Curriculum Requirements
The requirements for this program consist of 16 units of Graduate Certificate Performance (4 units per semester of MPEM 554, MPGU 554, MPKS 554, MPST 554, MPVA 554, MPWP 554 or MUJZ 554). Graduate Certificate Performance encompasses individual instruction, studio class and two ensembles or the equivalent as appropriate to the discipline.

Doctoral Degree
Choral Music (DMA)

Overview
The DMA in Choral Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Choral Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree is required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in each academic field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five
members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

**Comprehensive Examination**

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work. If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Admission to Candidacy**

For the DMA in Choral Music, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

**Doctoral Dissertation**

A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

**Dissertation Committee**

After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

**Registration for Dissertation**

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

**Format for Theses and Dissertations**

All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

**Abstract of Dissertation**

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

**Defense of the Dissertation**

After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and
the committee is satisfied with the manuscript as presented, the
committee then signs the Approval to Submit Defended and Final
Copy of the Doctoral Work form. If additional work is required, the
form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with
signed signature sheet and approval forms, must be presented to the
Thesis Editor in the USC Graduate School by the Graduate School's
submission date and times. Approval of format and acceptance by
the Graduate School must be presented to the doctoral adviser of the
Thornton School of Music at least one week before the end of the
semester.

Curriculum Requirements for Choral Music
Major
A keyboard proficiency test will be given by the choral faculty
during the student's first semester in residence to determine if
additional study in keyboard is required.

Basic DMA Curriculum (20 units) - Required for
All DMA Candidates
- MUCD 441 Choral Conducting II Units: 2 *
- MUCD 443 Instrumental Conducting II Units: 2
- MUCL 501 Introduction to the Analysis of Tonal Music Units:
  2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music
  Units: 2
- MTAL 505 Teaching and Learning Music Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note: Courses with similar content taken for graduate credit at another
accredited institution may be substituted, subject to departmental
approval. Master's degree credit for ensemble taken at USC may
fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (10
units)
- MUCD 541 Choral Conducting III Units: 2
- Ensemble (500 level; choral music majors must participate in a
choral ensemble each semester if enrolled for 4 or more units)
  Units: 2 units total
- MUCD 641 Choral Conducting IV Units: 2
- MUCL 653 Performance Units: 1 or 2
- 2 units total of MUCD 653

Program Intensive Courses (12 units)
- MSCR 571 Music of the Great Liturgies Units: 2
- MUCL 440 Choral Development Units: 2 **
- MUCO 541 Choral Literature I Units: 2 **
- MUCO 542 Choral Literature II Units: 2 **
- MUCO 641 Choral Literature III Units: 2
- MUCO 441 Choral Arranging Units: 1, 2
- 2 units total of MUCO 441

Electives to Fulfill the Academic Field and Two
Elective Fields (19 units)
Conduct two principal choral concerts; at least
one of which will include instrumental ensemble (0
units)

Comprehensive Examinations (0 units)
Examinations that include the major area, one academic field and
two elective fields.

Capstone Project (4 units)
- MUCM 794a Doctoral Dissertation Units: 2
- MUCM 794b Doctoral Dissertation Units: 2

Total units: 65
*Choral music majors are not required to take MUCD 441.
*May be taken as part of the master's degree.
that would ultimately determine fulfillment of the requirement.  

Course Requirements  
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.  
Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.  

Academic and Elective Fields  
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.  

Graduate Committee Interview  
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.  

DMA Guidance Committee  
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.  
The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling and presentation of these performances for credit toward the requirements of the degree.  

Comprehensive Examination 
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.  
The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.  
The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.  
The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.  
If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.  
The comprehensive examination serves as the qualifying examination for programs that require a dissertation.  

Admission to Candidacy  
For the DMA in Composition, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.  

Doctoral Dissertation  
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.  

Dissertation Committee  
After the guidance committee recommends admission to
candidates and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Jazz Studies (DMA)
Overview
The DMA in Jazz Studies consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the equivalent of the academic field program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a degree major in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years.
fulfillment of the requirement. The examination must be completed within one month.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of the committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as

of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first year at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields. Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as
determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice. The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Jazz Studies Major

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUJZ 547 Jazz Composition Units: 2
- MUJZ 545 Jazz Ensemble Development Units: 2, 2 years
- MUJZ 688 Special Topics in Jazz Performance Units: 2
- 4 units total of MUJZ 547
- 8 units total of MUJZ 688
- MUH 570 Research Materials and Techniques Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUH electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (12 units)
- MUEN 532 Jazz Chamber Music Units: 1
- 4 units total of MUEN 532
- MUJZ 653 Performance Units: 1 or 2
- 8 units total of MUJZ 653

Program Intensive Courses (12 units)
- MUJZ 443 Jazz Pedagogy Units: 2
- MUJZ 545 Jazz Ensemble Development Units: 2, 2 years
- MUJZ 547 Jazz Composition Units: 2
- 4 units total of MUJZ 547
- MUJZ 688 Special Topics in Jazz Performance Units: 2
- 4 units total of MUJZ 688

Electives to Fulfill the Academic Field and Two Elective Fields (21 units)

Comprehensive Examinations (0 units)
Examinations that include the major area, one academic field and two elective fields.

Recitals (0 units)
- Two recitals of original compositions and arrangements written while in the DMA program Units: 0
- Lecture-recital in conjunction with an appropriate research project Units: 0

Total units: 65

Music, Historical Musicology Emphasis, (PhD)

The Doctor of Philosophy degree with a major in music is granted by the Graduate School. Candidates for the PhD in music should also refer to the Graduate School section of this catalogue for general regulations.

A substantial background in music and liberal arts is required. Graduate course requirements for the PhD are adapted to the needs and research interests of the individual student. A minimum of 60 post-baccalaureate units is required.

Foreign Language Requirements

Students are required to demonstrate a reading knowledge by passing an examination in German and one other foreign language chosen by the student from among French, Italian or Latin. With the permission of the chair of the qualifying exam committee, a foreign language relevant to the dissertation may be chosen in place of French, Italian or Latin. The language requirement for the MA degree may be applied toward the PhD Doctoral language requirements should be passed as early as possible, but, at latest, during the fourth semester of course work.

Screening Procedure

Before the completion of 24 units of graduate work at USC and with the approval of the department chair, students must be interviewed by the curriculum committee of the School of Music. Continuance in course work will be contingent upon approval of the committee. PhD candidates in musicology who did not receive an MA degree from USC must take the MA comprehensive examination in historical musicology prior to the interview. Continuance in course work will be contingent upon passing these examinations.

Historical Musicology Emphasis

Requirements
- MUHL 570 Research Materials and Techniques Units: 2

Courses selected from:
- MUHL 579 Studies in Music History Units: 4
- MUHL 600-699

Total units: 12

Electives in history, language, literature or arts other than music

Total units: 8

Courses drawn from:
- MUHL 500-699
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2

Total units: 10

Electives in music, letters, arts and sciences

Total units: 24

Dissertation
- MUHL 794a Doctoral Dissertation Units: 2
- MUHL 794b Doctoral Dissertation Units: 2

Total units: 4

Total units: 60

Performance - Organ, Percussion, Strings, Vocal Arts, or Winds (DMA)

Overview

The DMA in Performance - Organ, Percussion, Strings, Vocal Arts, or Winds consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.
Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral advisor to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the
presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Organ, Percussion, Strings, Vocal Arts, or Winds

It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate performances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate's faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUOC 501 Introduction to the Analysis of Tonal Music Units: 2
- MUOC 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
- Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons (12 units)

- Individual instruction 653 (take organ, percussion, strings, vocal arts or winds for a maximum of 12 units): 12 units total

Electives to Fulfill the Academic Field and Two Elective Fields (33 units)

Recitals (0 units)

- Two solo recitals and two other appropriate performances

Units: 0

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Total units: 65

Majors in percussion, strings and winds must participate in a large ensemble each semester if enrolled in four or more units.

Performance — Classical Guitar (DMA)

Overview

The DMA in Classical Guitar consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.
Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office.
