Thirty units of graduate work are required; a minimum of 15 units (excluding thesis or project) must be at the 500 level or higher. All students must satisfy the specified requirements of their major department (see department chair or academic adviser). Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master's Recital

One public recital is required of all candidates for the Master of Music degree (Vocal Arts), as indicated below. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.
USC Opera

USC Opera is an integral part of the Vocal Arts Department, providing career development opportunities for singers, coach/pianists, conductors and directors. The program includes instruction in opera history and literature, coaching techniques, stage direction, body movement for singers, stage training, role study and analysis. The opera workshop is a repertory experience involving preparation and performance of operatic works and excerpts for performance both on and off the USC campus.

Sacred Music (MM)

Overview

The MM in sacred music consists of course work in sacred music, choral conducting, choral literature, choral development, music history, and vocal arts. The program culminates with a graduate recital or project.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the thesis or recital. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Master’s Recital/Project

Students majoring in Sacred Music must complete a recital or a project, as approved by the department. Candidates completing the recital must perform one public recital. Candidates must apply for recital dates, according to the current guidelines of the Music Operations office. Some departments require that a candidate be prepared to play or conduct the recital program for the approval of a faculty committee in advance. Candidates completing the project must work with the department to determine the details for this requirement.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique. A final oral examination in sacred music and related areas will be administered by the sacred and choral music faculty.

Curriculum Requirements

Keyboard and Voice Proficiency

Proficiency tests in keyboard and voice will be given by the choral and sacred music faculty during the student's first semester in residence to determine if additional study in either medium is required.

Lessons (2 units)

Take 2 units from the following:

- MPKS 501 Individual Instruction Units: 1 or 2 ** (PI or OR)
- MPVA 501 Individual Instruction Units: 1 or 2 **

Music Ensembles (2 units)

Ensemble Units: 2 units total*

Program Intensive Courses (20 units)

- MSCR 571 Music of the Great Liturgies Units: 2
- MSCR 572 Sacred Music Administration Units: 2
- MSCR 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 541 Choral Conducting III Units: 2 ** (4 units total)
- MUCM 440 Choral Development Units: 2 **
- MUCM 541 Choral Literature I Units: 2 **
- MUCM 542 Choral Literature II Units: 2 **

Choose one course from the following:

- MSCR 473 Hymnology Units: 2
- MSCR 475 Introduction to Jewish Music Units: 2

Core Thornton Academic Courses (4 units)

- MUEN 508, MUEN 510, MUEN 511
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives at the 500 level Units: 2 units total

Electives (2 units)

Capstone Projects (0 units)

- Graduate recital or project Units: 0
- Comprehensive review Units: 0

Total units: 30

*Sacred music majors must participate in a choral ensemble chosen from MUCN 508, MUCN 510, MUCN 511 or MUCN 512 each semester if enrolled for 4 or more units.

**In some cases, MUHL 500-level courses and/or private instruction in organ, piano, voice or guitar may be substituted for MUCM 440, MUCM 541, MUCM 542 and MUCD 541. In some cases, instruction in guitar or another instrument may be substituted for MPKS 501 or MPVA 501.

***Courses with similar content in MPVA 438 and/or 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

Screen Scoring (MM)

Overview

This two-semester master's program focuses on the art and craft of composing, orchestrating, programming, conducting, producing, recording, mixing, editing, copying and integrating music for screen-based media, including motion pictures, television programming, video games, Internet fare and other new visual media. Classes are also offered in technology, entrepreneurialism and the business of making movies.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.
Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the portfolio. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Portfolio Requirement

A portfolio of multiple original manuscript scores for films and/or games, along with screening copies containing audio tracks, is required for graduation. The scoring faculty will provide students with additional details for this requirement.

Curriculum Requirements

Lessons (4 units)
• SCOR 502 Individual Instruction in Advanced Screen Scoring Units: 1, 2
• 4 units total of SCOR 502

Program Intensive Courses (32 units)
• CTPR 410 The Movie Business: From Story Concept to Exhibition Units: 2
• CTPR 473 Spotting Music for Cinema Units: 2
• SCOR 503a Advanced Scoring for Motion Pictures and Television Units: 2
• SCOR 503b Advanced Scoring for Motion Pictures and Television Units: 2
• SCOR 504a Orchestral Scoring Units: 2
• SCOR 504b Orchestral Scoring Units: 2
• SCOR 505a Advanced Game Scoring and Integration Units: 2
• SCOR 505b Advanced Game Scoring and Integration Units: 2
• SCOR 506 Applied Techniques in Contemporary Scoring Units: 2

Portfolio Requirement

Portfolio: 0 units

Total Units: 36

Teaching and Learning (MM)

Overview

The goal of this professional degree is to prepare the student for an advanced level of pre-college teaching and leadership in the music education profession by developing core knowledge and expertise in pedagogical skills and scholarship. It provides a seamless transition into the DMA in Teaching and Learning, with most units being transferable to the DMA requirements.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the MM in Teaching and Learning. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Unit and Grade Requirements

Students must complete at least 26 semester units at USC, including the capstone. A grade point average of not less than 3.0 (A = 4.0) is required for all graduate courses in music, and a grade of B or higher is required for all courses in the major department. Students who transfer credits must achieve this average on all combined transferred and residence units.

Transferred Credits

All credits transferred must be the equivalent of corresponding current work at USC. Course work completed at another institution that has been approved by the Thornton School for transfer credit must have been completed within seven years from the date of admission to a master's degree program to be applied toward that degree. Transfer credit petitions must be filed with the appropriate Thornton adviser during the first semester in residence.

Time Limit

The time limit for completing the Master of Music degree is five years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA, PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Capstone and Guidance Committee

A thesis or final project is required for candidates as a capstone for the Master of Music in Teaching and Learning. The thesis will consist of a research document written on a topic approved by the Music Teaching and Learning department; the final project will consist of a creative project that will present the arrangement, production or design of innovative ideas, materials or curricula for specific applications in teaching music. Before registering for 594a Thesis or 590 and 592 (for the project option), a student must establish a guidance committee composed of three members of the faculty, approved by the department chair, of which at least two are from the home department. The chair of the guidance committee directly supervises the preparation of the thesis, the final acceptance of which is based upon the unanimous recommendation of all three members of the committee.

Comprehensive Review

Candidates for the Master of Music must pass a comprehensive review toward the end of their course of study, usually in the final semester. This review, which is administered by the faculty of the major department, consists of an oral or written examination, covering relevant aspects of musical performance, literature, and/or technique.

Curriculum Requirements

Applied Music (4 units)

4-units total are to be earned by choosing from the following:
• Individual Instruction (lessons); courses in conducting, composition or arranging; or ensemble. Individual instruction and ensembles must be at the 500 level. Conducting, composition and arranging courses must be at the 400 or 500 level.

Program Intensive Courses (11 units)

• MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
• MTAL 505 Teaching and Learning Music Units: 2
• Two courses from the following:
  • MTAL 501 Historical Foundations of Music Education Units: 3
  • MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
Core Thornton Academic Courses (8 units)
MUHL electives at the 500 level: two 2-unit courses
One course from the following:
• MUCD 441 Choral Conducting II Units: 2
• MUCD 443 Instrumental Conducting II Units: 2
One course from the following:
• MUHCA 501 Introduction to the Analysis of Tonal Music Units: 2
• MUHCA 502 Introduction to the Analysis of Post-Tonal Music Units: 2
Electives in music at the 400 or 500 level (3 units)
Comprehensive Review (0 units)
Capstone Project (4 units)
Choose one group from the following:
• MTAL 594a Master's Thesis Units: 2
• MTAL 594b Master's Thesis Units: 2
Or
• MTAL 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
(2 units total of MTAL 590) and
• MTAL 592 Final Project Units: 2
Total units: 30
Graduate Certificate
Arts Leadership Graduate Certificate
Certificate in Arts Leadership (ARTL)
The program in arts leadership is a two-semester certificate program for artists, arts administrators and cultural workers of all types to develop the skills necessary to become successful leaders in the arts and arts organizations in a rapidly changing and radically altered contemporary world. The program is based in the Thornton School of Music, but it is designed to be applicable for artists/students engaged in any of the arts disciplines who want to develop their leadership skills in the hybrid and holistic environment of the contemporary arts. The program is highly individualized and deeply student centered in its approach, with simultaneous emphases on research, discovery, theory and current practice. With strong faculty mentorship and guidance from the director of the program and other working professionals in the field, students explore the dimensions of the most current issues and ideas while developing specific real-world applications of these ideas to their own practice as artists and leaders.
The program consists of a minimum of 18 units which can be completed in two semesters. The program begins with a 2-unit gateway course (ARTL 500), which introduces the students to the varied, complex and contentious issues in the arts and arts leadership that currently exist in the contemporary arts world. From this experience, students will develop a life plan that examines their own career and life trajectory for the next several years, providing a guidepost for their own personal development in arts leadership.
Students will take four core courses including ARTL 501, which focuses on a deep understanding and application of the challenges of executive leadership in the arts and ARTL 502, which looks at major environmental trends affecting the arts and how that impacts the student's leadership role in the arts. Essential to all of these courses is developing the ability to think, speak and write critically about the arts in the contemporary world, key components of strong arts leadership. There is also a two-semester practicum, ARTL 510, in which the student creates, develops and completes an actual arts leadership project of his or her own choosing, supported by faculty mentorship and the cohort of other practicum students. Admission to the program is by application, reviewed and approved by the director of the program. Admission to the practicum requires a project proposal to be created by the student and approved by the director of the program.
Core Courses
• ARTL 500 Arts Leadership and Arts Entrepreneurship Units: 2
• ARTL 501 Executive Leadership in the Arts Units: 2
• ARTL 502 Issues in the Arts and the Contemporary World Units: 2
• ARTL 503 Arts Organizations: Innovation and New Models Units: 2
• ARTL 504 Arts and the Community: Current Practice and New Visions Units: 2
• ARTL 510 Arts Leadership Practicum Units: 2 (2 semesters) (4 units total)
Total units: 14
Select a Minimum of 4 Units From the Following Courses*
• MUIN 570 The Music Industry Units: 4
• PAS 561 Curatorial/Organizational Models Units: 2
• PAS 571 Histories of Art in the Public Sphere Units: 3
• PAS 572 Contemporary Art in the Public Sphere Units: 3
• PAS 585 Theorizing the Public Realm Units: 3
• PPD 675 Nonprofit Management and Leadership Units: 4
• PPD 687 Strategic Management in the Nonprofit Sector Units: 4 **
• PPD 689 The Nonprofit Sector and Philanthropy Units: 4
• PPDE 645 Financial Management of Nonprofit Organizations Units: 4
Total units: 4
*Courses may be chosen from this list or in consultation with the Director of Arts Leadership.
**Prerequisite: PPD 675 and PPD 689
Minimum total units: 18
Performance Graduate Certificate
This two-year graduate-level program is designed for students who have completed their undergraduate education in music, or its equivalent, and intend to concentrate their energies on the full-time development of their discipline.
Entrance Requirements
A performance audition is required with repertory to be determined by the student's primary department.
Curriculum Requirements
The requirements for this program consist of 16 units of Graduate Certificate Performance (4 units per semester of MPEM 554, MPGU 554, MPKS 554, MPST 554, MPVA 554, MPWP 554 or MUJZ 554). Graduate Certificate Performance encompasses individual instruction, studio class and two ensembles or the equivalent as appropriate to the discipline.
Doctoral Degree
Choral Music (DMA)
Overview
The DMA in Choral Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.
Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.
Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.
Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Choral Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in
some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy

For the DMA in Choral Music, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School of Music. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation

A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee

After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations

All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation

After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music. A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Choral Music Major

A keyboard proficiency test will be given by the choral faculty during the student's first semester in residence to determine if additional study in keyboard is required.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MUCD 441 Choral Conducting II Units: 2 *
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
• MU CO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
• MTAL 505 Teaching and Learning Music Units: 2
• MU HL 570 Research Materials and Techniques Units: 2
• MU HL electives numbered 500 through 695: 6 units total
• Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (10 units)
• Ensemble (500 level; choral music majors must participate in a choral ensemble each semester if enrolled for 4 or more units) Units: 2 units total
• MUCD 541 Choral Conducting III Units: 2
  4 units total of MUCD 541
• MUCD 641 Choral Conducting IV Units: 2
• MUCD 653 Performance Units: 1 or 2
  2 units total of MUCD 653

Program Intensive Courses (12 units)
• MSCR 571 Music of the Great Liturgies Units: 2
• MUCM 440 Choral Development Units: 2
• MUCM 541 Choral Literature I Units: 2
• MUCM 542 Choral Literature II Units: 2
• MUCM 641 Choral Literature III Units: 2
• MUCO 441 Choral Arranging Units: 1, 2
  2 units total of MUCO 441

Electives to Fulfill the Academic Field and Two Elective Fields (19 units)
Conduct two principal choral concerts; at least one of which will include instrumental ensemble (0 units)

Comprehensive Examinations (0 units)
Examinations that include the major area, one academic field and two elective fields.

Capstone Project (4 units)
• MUCM 794a Doctoral Dissertation Units: 2
• MUCM 794b Doctoral Dissertation Units: 2

Total units: 65
*Choral music majors are not required to take MUCD 441.
**May be taken as part of the master's degree.

Composition (DMA)
Overview
The DMA in Composition consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the USC Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting,
Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department. In the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview. The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy

For the DMA in Composition, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation

A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee

After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation

The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled
to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

Curriculum Requirements for Composition Major

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes (8 units)
- MUCO 637 Advanced Composition II Units: 1, 2
- 4 units total of MUCO 657
- MUCO 737 Advanced Composition III Units: 1 or 2
- 4 units total of MUCO 737

Program Intensive Courses (8 units)
- MUCO 536 Advanced Orchestration I Units: 1, 2, 3, 4
- 2 units total of MUCO 536
- MUCO 592 Selected Topics in Graduate Composition Units: 2
- 4 units total of MUCO 592
- MUCO 636 Advanced Orchestration II Units: 1 or 2
- 2 units total of MUCO 636

Electives to Fulfill the Academic Field and Two Elective Fields (25 units)

Comprehensive Examinations (0 units)
Examinations that include the major area, one academic field and two elective fields.

Graduate Recital (0 units)

Capstone Project (4 units)
- MUCO 794a Doctoral Dissertation Units: 2
- MUCO 794b Doctoral Dissertation Units: 2

Total units: 65

Jazz Studies (DMA)

Overview
The DMA in Jazz Studies consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called
Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields. Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee. A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unsolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work. If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more
than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Curriculum Requirements for Jazz Studies Major**

**Basic DMA Curriculum (20 units) - Required for All DMA Candidates**
- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUJZ 688 Special Topics in Jazz Performance Units: 2 units total

**MUEN 532 Jazz Chamber Music Units: 1**

**MUCO 502 Introduction to the Analysis of Tonal Music Units: 2**

**MUJZ 545 Jazz Ensemble Development Units: 2 years**

**MUJZ 688 Special Topics in Jazz Performance Units: 2**

**MUJZ 443 Jazz Pedagogy Units: 2**

**Total units: 24**

**Program Intensive Courses (12 units)**
- MUJZ 443 Jazz Pedagogy Units: 2
- MUJZ 545 Jazz Ensemble Development Units: 2 years
- MUJZ 547 Jazz Composition Units: 2
- MUJZ 688 Special Topics in Jazz Performance Units: 2
- MUJZ 688 Research Materials and Techniques Units: 2
- MUJZ 547 Jazz Composition Units: 2
- MUJZ 688 Special Topics in Jazz Performance Units: 2
- MUJZ 688 Research Materials and Techniques Units: 2

**Electives to Fulfill the Academic Field and Two Elective Fields (21 units)**

**Comprehensive Examinations (0 units)**
Examinations that include the major area, one academic field and two elective fields.

**Recitals (0 units)**
- Two recitals of original compositions and arrangements written while in the DMA program Units: 0
- Lecture-recital in conjunction with an appropriate research project Units: 0

**Total units: 65**

**Music, Historical Musicology Emphasis, (PhD)**

The Doctor of Philosophy degree with a major in music is granted by the Graduate School. Candidates for the PhD in music should also refer to the Graduate School section of this catalogue for general regulations.

A substantial background in music and liberal arts is required. Graduate course requirements for the PhD are adapted to the needs and research interests of the individual student. A minimum of 60 post-baccalaureate units is required.

**Foreign Language Requirements**

Students are required to demonstrate a reading knowledge by passing an examination in German and one other foreign language chosen by the student from among French, Italian or Latin. With the permission of the chair of the qualifying exam. committee, a foreign language relevant to the dissertation may be chosen in place of French, Italian or Latin. The language requirement for the MA degree may be applied toward the PhD Doctoral language requirements should be passed as early as possible, but, at latest, during the fourth semester of course work.

**Screening Procedure**

Before the completion of 24 units of graduate work at USC and with the approval of the department chair, students must be interviewed by the curriculum committee of the School of Music. Continuance in course work will be contingent upon approval of the committee. PhD candidates in musicology who did not receive an MA degree from USC must take the MA comprehensive examination in historical musicology prior to the interview. Continuance in course work will be contingent upon passing these examinations.

**Historical Musicology Emphasis**

**Requirements**
- MUHL 570 Research Materials and Techniques Units: 2

**Courses selected from:**
- MUHL 579 Studies in Music History Units: 4
- MUHL 600–699

**Total units: 12**

**Electives in history, language, literature or arts other than music**

**Courses drawn from:**
- MUJZ 500–699
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2

**Total units: 10**

**Electives in music, letters, arts and sciences**

**Total units: 24**

**Dissertation**
- MUHL 794a Doctoral Dissertation Units: 2
- MUHL 794b Doctoral Dissertation Units: 2

**Total units: 4**

**Total units: 60**

**Performance - Organ, Percussion, Strings, Vocal Arts, or Winds (DMA)**

**Overview**

The DMA in Performance - Organ, Percussion, Strings, Vocal Arts, or Winds consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

**Degree Prerequisites**

DMA applicants must complete the appropriate master of music degree program or its equivalent.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Grade Point Average Requirements**

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

**Transfer Credit**

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School.
department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed. The dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful
completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major - Organ, Percussion, Strings, Vocal Arts, or Winds

It is the objective of the performance curriculum to combine high standards of performance with intellectual accomplishments appropriate to a university degree. Candidates electing this major must present at least four major public appearances: two solo recitals and two other appropriate appearances. The exact format, content and scheduling of the four appearances are the responsibility of the candidate's faculty advisers for the major field of study.

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons (12 units)

- Individual instruction 653 (take organ, percussion, strings, vocal arts or winds for a maximum of 12 units): 12 units total in your primary instrument

Electives to Fulfill the Academic Field and Two Elective Fields (33 units)

Recitals (0 units)

- Two solo recitals and two other appropriate performances Units: 0

Comprehensive Examinations (0 units)

Examinations which include the major area, one academic field, and two elective fields.

Total units: 65

Majors in percussion, strings and winds must participate in a large ensemble each semester if enrolled in four or more units.

Performance — Classical Guitar (DMA)

Overview

The DMA in Classical Guitar consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton
School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field, and two elective fields. Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music. Of these, at least 20 of the student's master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be taken in the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. Areas that require foreign language skills are required to complete an examination in the foreign language at the graduate level. At least one language examination is required in the student's chosen field. The oral examination may also cover new material as approved by the faculty advisers for the field. The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of the faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the eligibility of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unsolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it one time at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance Major — Classical Guitar

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
- MTAL 505 Teaching and Learning Music Units: 2
• MUCD 441 Choral Conducting II Units: 2
• MUCD 443 Instrumental Conducting II Units: 2
• MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
• MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
• MUHL 570 Research Materials and Techniques Units: 2
• MUHL electives numbered 500 through 695: 6 units total
• Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons (12 units)
• MPGU 653 Performance Units: 1 or 2
• 12 units total of MPGU 653

Program Intensive Courses (5 units)
• MPGU 427 Advanced Topics in Classical Guitar History and Literature Units: 3
• MPKS 481 Interpretation of Baroque Music Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (28 units)

Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.

Recitals (0 units)
• Two solo recitals and two other appropriate performances

Total units: 65

Performance — Early Music (DMA)

Overview
The DMA in Early Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Early Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton
School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral advisor. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required coursework for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty advisor, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unsolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice. The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Curriculum Requirements for Performance
Major — Early Music

Basic DMA Curriculum (20 units) - Required for All DMA Candidates
• MTAL 505 Teaching and Learning Music Units: 2
• MUCD 441 Choral Conducting II Units: 2
• MUCD 443 Instrumental Conducting II Units: 2
• MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
• MUHL 570 Research Materials and Techniques Units: 2
• MUHL electives numbered 500 through 695: 6 units total *
• Ensemble Units: 2 units total

Note
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Lessons, Ensemble and Performance Classes
(16 units)
• MPEM 650 Collegium Directing Units: 2
• 4 units total of MPEM 650
• MPEM 653 Performance Units: 1 or 2
• 8 units total of MPEM 653
• MUCO 650 Early Music Ensemble Units: 1
• 4 units total of MUEM 650

Program Intensive Courses (6 units)
• MUHL 572 Seminar in Historical Musical Notation Units: 2
• MUHL 589 Seminar in Renaissance Repertories and Performance Practice Units: 2
• MUHL 591 Seminar in Baroque Repertories and Performance Practice Units: 2

Electives to Fulfill the Academic Field and Two Elective Fields (23 units)

Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.
Recitals (0 units)
• Four graduate recitals: two as soloist and ensemble director, one lecture-recital, and one recital of the student's choice
Units: 0
Total units: 65
*Must include MUHL 574 and MUHL 575.

Performance — Keyboard Collaborative Arts (DMA)

Overview
The DMA in Keyboard Collaborative Arts consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEES). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.
The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

**Comprehensive Examination**

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Curriculum Requirements for Performance Major — Keyboard Collaborative Arts**

**Basic DMA Curriculum (20 units) - Required for All DMA Candidates**

- MTL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 570 Research Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

**Note:**

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

**Lessons (12 units)**

- MPKS 653 Performance Units: 1 or 2
- 12 units total of MPKS 653

**Program Intensive Courses (6 units)**

- MPKS 481 Interpretation of Baroque Music Units: 2
- MPKS 560 Song Interpretation Master Class Units: 2
- MPKS 561 Chamber Music Interpretation Master Class Units: 2

**Electives to Fulfill the Academic Field and Two Elective Fields (27 units)**

**Comprehensive Examinations (0 units)**

Examinations, which include the major area, one academic field and two elective fields.

**Recitals (0 units)**

- Four doctoral level recitals; one with voice(s), one with instrument(s), one lecture recital, and other recital as approved

**Total units: 65**

The exact format, content and scheduling of the four graduate recitals are the responsibility of the candidate's major professor.

**Performance — Piano (DMA)**

**Overview**

The DMA in Piano consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

**Degree Prerequisites**

DMA applicants must complete the appropriate master of music degree program or its equivalent.

**Admission**

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

**Grade Point Average Requirements**

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

**Transfer Credit**

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement
in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

**Residence Requirement**

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

**Time Schedule**

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

**Music Graduate Entrance Exams**

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

**Foreign Language**

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

**Course Requirements**

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

**Academic and Elective Fields**

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty adviser in each area.

**Graduate Committee Interview**

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

**DMA Guidance Committee**

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a student member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

**Comprehensive Examination**

The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful
completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

**Electives to Fill the Academic Field and Two Elective Fields (25 units)**

#### Comprehensive Examinations (0 units)
Examinations which include the major area, one academic field, and two elective fields.

#### Recitals (0 units)
- Four doctoral recitals, one of which must be a lecture recital in conjunction with an appropriate research project

**Total units: 65**

### Sacred Music (DMA)

#### Overview
The DMA in Sacred Music consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

#### Degree Prerequisites
DMA applicants must complete the appropriate master of music degree program or its equivalent.

#### Admission
Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

#### Graduate Record Examinations
Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Sacred Music. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

#### Grade Point Average Requirements
A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

#### Transfer Credit
The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

#### Residence Requirement
A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (six units or more per semester) must be in residence at USC.

#### Time Schedule
The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

#### Music Graduate Entrance Exams
All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

#### Foreign Language
An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

#### Course Requirements
Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields.

Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

#### Academic and Elective Fields
For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to ten units are taken in the academic field. Six to eight units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs
of study will be created in each field in consultation with a faculty adviser in each area.

Graduate Committee Interview
Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee
The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination is comprised of a substantial cumulative work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice. The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy
For students pursuing the dissertation option, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy. For students pursuing the project option, the project must also be completed after the student has passed the comprehensive examination.

Doctoral Project
The doctoral project must be approved by the department and may take the form of a lecture recital, a composition, a musical edition, or other appropriate creative endeavor. The doctoral project must reveal creative and scholarly ability, technical mastery, and must take a form relevant to the field. The evaluation of the doctoral project is made by the department in accordance with Thornton School of Music practice in evaluation of capstone doctoral recitals.

Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning, and Choral Music. This also applies to Sacred Music candidates who pursue the dissertation option. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register. A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled...
to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

**Format for Theses and Dissertations**

All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

**Abstract of Dissertation**

Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

**Defense of the Dissertation**

After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral adviser of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.

**Curriculum Requirements for Sacred Music Major**

Proficiency tests in both keyboard and voice will be given by the choral and sacred music faculty during the student's first semester in residence to determine if additional study in either area is required.

**Basic DMA Curriculum (20 units) - Required for All DMA Candidates**

- MTAL 505 Teaching and Learning Music Units: 2
- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MUHL 500 Performance Materials and Techniques Units: 2
- MUHL 5700 Performance Materials and Techniques Units: 2
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

**Note:**

Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

**Music Ensembles (2 units)**

- Music Ensemble at the 500-level: 2 units total*

**Program Intensive Courses (6 units)**

- MSCR 571 Music of the Great Liturgies Units: 2 **
- MSCR 572 Sacred Music Administration Units: 2 **
- MSCR 474 The Organ in Worship and Congregational Life Units: 2
- MPVA 438 Foundations of Vocology Units: 2 ***
- MPVA 541 Advanced Vocology Units: 2 ***
- MPVA 542 Vocal Pedagogy Teaching Practicum Units: 2

**Choose 4 units from the following:**

- MSCR 473 Hymnology Units: 2
- MSCR 475 Introduction to Jewish Music Units: 2
- MUHL 550 Music and the Holocaust Units: 2

**Electives to Fulfill the Academic Field and Two Elective Fields (25 units)****

**Comprehensive Examinations (0 units)**

Examinations, which include the major area, one academic field and two elective fields.

**Capstone Project (8 units)**

Choose one option from the following:

**Dissertation Option:**

- Individual Instruction at the 501 level (2 units total)
- MSCR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MSCR 794a Doctoral Dissertation Units: 2
- MSCR 794b Doctoral Dissertation Units: 2

**Final Project Option:**

- MSCR 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (2 units total)
- MUCD 653 Performance Units: 1 or 2 (2 units total)
- Individual Instruction at the 501 level (4 units total)
- Lecture/Recital Units: 0

**Total required for degree: 65**

*Sacred music majors must participate in a choral ensemble chosen from MUEN 508, MUEN 510, MUEN 511 or MUEN 512 each semester if enrolled for 4 or more units.

**If these courses have already been taken toward a Master of Music degree at USC, then 500-level MUHL courses or 500-level MUCO analysis courses should be substituted, on consultation with the Sacred Music faculty.

***Courses with similar content in MPVA 438 and/or 541 taken at another institution may be substituted, subject to Vocal Arts departmental approval. Consult with the Vocal Arts and Sacred Music departments to finalize substitution approval and/or course placement.

****Requires one elective field in a performance area.

**Teaching and Learning (DMA)**

**Overview**

The DMA in Teaching and Learning consists of the following areas of study: the basic DMA curriculum, course work in the major, an academic field and two elective fields.

The DMA curriculum has been designed to extend beyond the public school setting and prepare students for collegiate teaching in both traditional and alternative settings (such as community-based and on-line programs). Further, the degree offers innovative courses on teaching at the college level. Students have the opportunity to intern with university professors in music education methodology classes. The program also includes core scholarly subjects, such as research, sociology, philosophy, psychology and history of music education. The focus goes beyond the traditional band/orchestra/choir model and extends to additional areas especially relevant to the current diverse and technologically proficient student population.

The professional degree stresses teaching with cutting-edge technological tools while developing core knowledge and expertise in pedagogical skills and scholarship. Students will acquire writing and design skills for a wide range of multimedia publications, while being able to pursue a choice of research activities or advanced creative work that will enable them to lead our profession to new heights. USC is one of the few universities that equally values...
students being able to declare elective fields in areas outside of music education, while also achieving rigorous scholarship, writing and multimedia design skills, and gaining pedagogical experience that prepares them for collegiate teaching in a rapidly changing society.

Degree Prerequisites

DMA applicants must complete the appropriate master of music degree program or its equivalent.

Admission

Admission to Thornton programs is granted through the USC admission process. Applicants are screened by appropriate faculty selection committees. Specific entrance requirements are reviewed on an annual basis and published online at music.usc.edu.

Graduate Record Examinations

Scores from the General Test of the Graduate Record Examinations (GRE) are required for application and admission to the DMA in Teaching and Learning. Detailed requirements are available at the Thornton Website, music.usc.edu. Test scores on the GRE that are more than five years old at the time of application are not accepted.

Grade Point Average Requirements

A minimum grade point average of 3.0 (A = 4.0) is required for all graduate course units in music. A grade of B or higher is required for all courses in the major field. For courses in academic and elective fields, the minimum passing grade is C.

Transfer Credit

The Degree Progress Department in the Office of Academic Records and Registrar determines whether course work taken elsewhere is available for transfer credit. A maximum of 30 units of transfer credit may be applied toward a doctoral degree in music. Whether such credit is applicable toward a specific requirement in a major or minor field is determined by the Thornton School department in which the subject is taught, pending approval by the dean of the Thornton School. Transfer credit petitions must be filed with the Thornton doctoral adviser during the first semester in residence. Transfer work must have been completed within 10 years of admission to the DMA program to be applied toward that degree.

Residence Requirement

A minimum of two years of full-time study beyond the Master of Music degree is required for the Doctor of Musical Arts. At least one year of full-time study beyond the master's degree (6 units or more per semester) must be in residence at USC.

Time Schedule

The time limit for completing the Doctor of Musical Arts degree is eight years. For students who earned an applicable master's degree within five years prior to admission to the doctoral program, the time limit for completing the Doctor of Musical Arts degree is six years. Progress is measured from the beginning of the first course at USC applied toward the degree. Extensions will be granted by petition to the Thornton School for only the most compelling reasons.

Music Graduate Entrance Exams

All students entering a graduate-level degree program (MA, MM, DMA and PhD) at USC Thornton, who have not previously completed a degree at USC Thornton, must take a series of entrance exams in core music subjects. These exams are called Music Graduate Entrance Exams (MGEEs). Information regarding which exams are required for specific majors is available from the Thornton Student Affairs office. Also see the Thornton School of Music Admission to Graduate Standing section of this catalogue for specific policies relating to these exams.

Foreign Language

An academic reading knowledge of French, German, Italian or Spanish is required of all students, either by taking a course approved by the Thornton School or by written examination approved by the Thornton School. Departments within the Thornton School may require additional language skills. All language requirements must be fulfilled one semester before entering the third semester in the program. Students with an academic reading knowledge of a language other than English, French, German, Italian or Spanish, may make a written request to the Thornton doctoral adviser to meet this requirement with a different language. In these cases, students must propose and gain the permission of a member of the USC faculty who will agree to create and grade the examination that would ultimately determine fulfillment of the requirement.

Course Requirements

Each student is required to complete four areas of concentration: the major field, an academic field and two elective fields. Required courses for each major curriculum are listed in the description of major programs below. Required courses for any academic or elective field are determined for their respective fields by the faculty advisers on a student's DMA guidance committee.

A minimum of 65 graduate units beyond the bachelor's degree are required to complete a DMA degree. Fifty-five or more units must be in music, 12 of these beyond the master's level must be in the major. At least 40 of these must be at the 500 level or higher. All course work earned under these requirements for a doctoral degree is considered to be obsolete after 10 years from the date of completion of such work and may not be used to fulfill degree requirements.

Academic and Elective Fields

For the academic field students must choose one from Musicology, Theory and Analysis, Music Teaching and Learning, Choral Music or Sacred Music. For the elective fields students will choose two fields from among 50 possible areas, including Composition, Performance, Early Music, Jazz Studies, Music Teaching and Learning, Choral Music, Sacred Music, Conducting, Pedagogy, Electroacoustic Media, Music Industry, as well as areas outside of music. The fields comprise courses that are determined by the department in which they are administered. Eight to 10 units are taken in the academic field. Six to 8 units are taken in each elective field. The academic field may not duplicate a major or an elective field. No more than two of the four fields of concentration may be under the guidance of the same department within the Thornton School of Music, and at least one of the elective fields must culminate in a substantial written paper or examination. Students must apply to their chosen fields. Admission to academic and elective fields is determined by the appropriate department, prior to the Graduate Committee Interview. Individualized programs of study will be created in each field in consultation with a faculty advisor in each area.

Graduate Committee Interview

Before the completion of 16 units beyond the master's degree and before permission to present the second doctoral recital is requested, doctoral students must meet with the Graduate Advisory Committee of the Thornton School of Music to discuss their progress in the program and their goals for the future. In preparation for this interview, students must prepare a dossier according to specific instructions available from the Thornton doctoral adviser. The committee determines the student's continuation in the program, and approves both the student's individualized curriculum (including all fields of concentration) and the members of his or her DMA guidance committee.

DMA Guidance Committee

The DMA guidance committee is composed of at least five members: two faculty members from the major department, one of whom will serve as chair, and a faculty member from each of the three other areas of concentration. At least three members of a committee must be full-time faculty of rank in the Thornton School. The composition of the DMA Guidance Committee is proposed and approved as part of the Graduate Committee Interview.

The guidance committee administers the written and oral parts of the comprehensive examination. The committee continues to serve until the comprehensive examination has been passed, the dissertation topic approved (if applicable) and the student is admitted to candidacy (if applicable). For students in curricula that require recitals, the two major field advisers serve as the recital committee.
and are responsible for determining the approved format, content, scheduling, and presentation of these performances for credit toward the requirements of the degree.

Comprehensive Examination
The comprehensive examination for the DMA is administered by the student's guidance committee. This examination consists of written and oral components and is designed to assess the student's mastery of his or her fields of concentration and readiness for professional independence as a performer, composer, teacher, researcher and/or scholar. The student must obtain permission from the guidance committee to take the comprehensive examination and schedule it at least two months in advance to ensure the committee's availability. The examination must be taken after completion of all required course work for all fields of concentration, except (in some cases) a limited number of the required units of Individual Instruction in the major field. In degree programs that require the presentation of four major recitals, at least two major recitals must be presented prior to the administration of the comprehensive examination. Up to two required recitals may be presented after the comprehensive examination. The dissertation (if required) must be written after the comprehensive examination. Comprehensive examinations will not be scheduled during summer sessions except under extraordinary circumstances and only with the written approval of members of the guidance committee. All portions of the examination must be completed within one month.

The comprehensive examination comprises a substantial culminating work for each field of concentration, as well as an oral examination with the student's guidance committee. The culminating work for each field may be a written examination, paper, project or recital, as appropriate for the particular field. For the academic field and at least one elective field, this culminating requirement must be a substantial written examination or paper. Following the successful completion of all culminating requirements and the approval of each by the corresponding faculty adviser, the student will sit for a two-hour oral examination with the guidance committee. This oral examination covers in greater depth the topics discussed in the written examinations and other requirements for the fields of concentration. The oral examination may also cover new material as determined by the guidance committee.

The two major field advisers and the academic field adviser must be present at the oral examination and render a judgment on the acceptability of the comprehensive examinations as a whole. It is highly preferable that the faculty advisers for the two elective fields participate in the oral examination with the other members of the guidance committee. If, however, there are challenges with scheduling or other issues that are reasonably unresolvable, the participation of the faculty advisers for elective fields is not required for the oral examination if they feel that the candidate has demonstrated knowledge and mastery of material that is appropriate for an elective field in their disciplines.

The examinations will be reported as passing if there is no more than one dissenting vote on the committee. A student must pass both the written and oral portions to pass the comprehensive examination. A pass on the examination cannot be made contingent upon any form of additional work.

If a student fails the comprehensive examination, the guidance committee may permit the student to repeat it once at a mutually satisfactory time within a period of not less than six months nor more than one year from the date of the first oral examination. A student may not take the comprehensive examination more than twice.

The comprehensive examination serves as the qualifying examination for programs that require a dissertation.

Admission to Candidacy
For the DMA in Teaching and Learning, admission to candidacy occurs after the student has passed the comprehensive examination, upon formal action of the dean of the Thornton School. The dissertation must be completed after admission to candidacy.

Doctoral Dissertation
A dissertation based on original investigation and/or creative work is required of candidates in Composition, Music Teaching and Learning and Choral Music. The dissertation must reveal scholarly ability, technical mastery, capacity for independent research and originality in creative thought.

Dissertation Committee
After the guidance committee recommends admission to candidacy and approves the dissertation topic, the committee is reduced to three members. This smaller committee shall be the dissertation committee and will guide the student through the completion of the dissertation. Additional members may be added at the discretion of the chair of the committee if the topic requires special expertise.

Registration for Dissertation
The student must register in 794 Dissertation each semester after admission to candidacy until degree requirements (including the dissertation) are completed. Registration for 794 in no less than two regular semesters following admission to candidacy entitles the candidate to supervision by the dissertation committee. If the dissertation is not completed and accepted within two semesters, the candidate must register for 794 each semester thereafter until the document has been accepted. No more than 8 units of credit in 794 may be accumulated regardless of the number of semesters the candidate may be required to register.

A candidate who must withdraw temporarily from registration in 794 for a semester must report this in writing to the Thornton doctoral adviser before the beginning of that semester. As part of that report, the candidate must also petition for a formal leave of absence. During a leave of absence the candidate will not be entitled to assistance from his or her dissertation committee or to the use of university services and facilities. A leave of absence will be granted only under exceptional circumstances.

Format for Theses and Dissertations
All dissertations submitted for requirements for graduate degrees must conform to university regulations in format and method of preparation. See the USC Graduate School's guidelines for Theses and Dissertations.

Abstract of Dissertation
Since the abstract of the dissertation is published in Dissertation Abstracts International, it should be written with care and be representative of the final draft of the dissertation.

Defense of the Dissertation
After meeting all requirements including the comprehensive examination, the candidate must defend the dissertation. This defense takes place in order for the committee to determine whether the dissertation should be approved or rejected. While this oral defense is open to the general university community, only the members of the dissertation committee have the authority to recommend its acceptance or rejection. The recommendation must be unanimous in order for the dissertation to be approved.

At least seven weeks before the scheduled date of the defense of the dissertation, written approval by all members of the candidate's dissertation committee, along with a typed copy of the dissertation abstract, must be filed with the doctoral advisor of the Thornton School of Music.

A candidate may defend the dissertation on the basis of an approved preliminary copy. If the defense is satisfactory and the committee is satisfied with the manuscript as presented, the committee then signs the Approval to Submit Defended and Final Copy of the Doctoral Work form. If additional work is required, the form is left unsigned until the work has been approved.

The final electronic PDF copy of the dissertation, together with signed signature sheet and approval forms, must be presented to the Thesis Editor in the USC Graduate School by the Graduate School's submission date and times. Approval of format and acceptance by the Graduate School must be presented to the doctoral adviser of the Thornton School of Music at least one week before the end of the semester.
Curriculum Requirements for Teaching and Learning Major

Basic DMA Curriculum (20 units) - Required for All DMA Candidates

- MUCD 441 Choral Conducting II Units: 2
- MUCD 443 Instrumental Conducting II Units: 2
- MUCO 501 Introduction to the Analysis of Tonal Music Units: 2
- MUCO 502 Introduction to the Analysis of Post-Tonal Music Units: 2
- MTAL 505 Teaching and Learning Music Units: 2 *
- MUHL 570 Research Materials and Techniques Units: 2 **
- MUHL electives numbered 500 through 695: 6 units total
- Ensemble Units: 2 units total

Note:
Courses with similar content taken for graduate credit at another accredited institution may be substituted, subject to departmental approval. Master's degree credit for ensemble taken at USC may fulfill this requirement, subject to departmental approval.

Program Intensive Courses (20 units)

- MTAL 500 Research Foundations in Music Teaching and Learning Units: 3
- MTAL 502 Sociological Foundations of Music Teaching and Learning Units: 3
- MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning Units: 3
- MTAL 607 Alternative Models in Music Teaching and Learning Units: 2
- MTAL 615 Assessment and Reflective Practice Units: 2
- MTAL 720 Quantitative Research in Music Teaching and Learning Units: 3
- MTAL 721 Qualitative Research in Music Teaching and Learning Units: 3
- MTAL 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- 1 unit total of MTAL 790

Electives within MTAL Department (6 units)***
Electives to Fulfill the Academic Field and Two Elective Fields (20 units minimum)****

Comprehensive Examinations (0 units)
Examinations include the major area, one academic field and two elective fields.

Capstone Project (4 units)
- MTAL 794a Doctoral Dissertation Units: 2
- MTAL 794b Doctoral Dissertation Units: 2

Total units: 68**

*Music Teaching and Learning students are required to take MTAL 605 instead of MTAL 505 in the basic DMA curriculum.
**MTAL 500 satisfies the requirement of MUHL 570 in the basic DMA curriculum.
***Electives within MTAL will be chosen in consultation with the department.
****It is possible for Music Teaching and Learning students to elect either the academic field or one of the elective field options from outside of the Thornton School. Possible options might include psychology, sociology, education, social work or statistics. These options must be approved by the Graduate Advisory Committee.
USC School of Pharmacy

Founded in 1905, the USC School of Pharmacy is the oldest and foremost pharmacy school in Southern California. The school is a national leader known for its progressive curriculum and research excellence. Approximately 50 percent of the practicing pharmacists in Southern California are graduates of USC. The school has an average student body of 738 full-time students in the PharmD program and 250 students pursuing MS, PhD and DRSc degrees in pharmacology and toxicology, pharmaceutical sciences, health economics, regulatory science, healthcare decision analysis and biopharmaceutical marketing. There are 74 full-time faculty and more than 300 part-time and volunteer faculty at the school.

The school occupies state-of-the-art facilities on the USC Health Sciences Campus in metropolitan Los Angeles, adjacent to the Los Angeles County+USC Medical Center (one of the largest teaching hospitals in the country), the USC Norris Cancer Hospital and the Keck Hospital of USC. USC School of Pharmacy students receive clinical training at these facilities and many other affiliated hospitals, healthcare clinics, skilled nursing facilities, home healthcare agencies and pharmacies in the Southern California region.

Recognized as one of the most innovative schools of pharmacy, the USC School of Pharmacy serves as a model for other progressive schools. In 1950, USC was the first to establish a Doctor of Pharmacy program. Additional national "firsts" that distinguish the school include: first clinical pharmacy program and first MS in radiopharmacy (both in 1968); first PharmD/MBA dual degree program (1988); first MS and PhD programs in pharmaceutical economics and policy (1994) and first professional doctorate in regulatory science (2008).

Consistently the top private pharmacy school nationwide, the school is a member of the American Association of Colleges of Pharmacy, and the PharmD program is accredited by the Accreditation Council for Pharmacy Education, 135 S. LaSalle Street, Suite 4100, Chicago, IL 60603-4810, phone: (312) 664-3575; fax: (312) 664-6652 or (312) 664-7008.

USC SCHOOL OF PHARMACY

663
This national pharmacy leadership society is devoted to identifying the dean of the School of Pharmacy, determining the semesters of the pharmacy program, and they must be approved by the college. All candidates selected for membership must have completed three semesters of the College of Pharmacy. Eligibility for membership is based on high academic achievement within the appropriate disciplines and is granted only to student groups in those colleges where Rho Chi is active. For more information, please consult appropriate offices.

Programs

The School of Pharmacy offers curricula leading to the Doctor of Pharmacy (PharmD) and Doctor of Regulatory Science (DRSc) degrees and graduate degrees through the Graduate School, including: Master of Science (MS) in Pharmaceutical Sciences; Master of Science (MS) in Molecular Pharmacology and Toxicology; Master of Science (MS) in Clinical and Experimental Therapeutics; Master of Science (MS) and Doctor of Philosophy (PhD) in Pharmaceutical Economics and Policy; Doctor of Philosophy (PhD) in Health Economics; Master of Science (MS) in Healthcare Decision Analysis; Master of Science (MS) in Biopharmaceutical Marketing; Master of Science (MS) in Regulatory Science; Master of Science (MS) in Regulatory Management; Master of Science (MS) in Management of Drug Development; and Master of Science (MS) in Medical Product Quality. The PhD Programs in Pharmaceutical and Translational Sciences is a one-year umbrella program after which students select a particular track to complete their degree with a PhD in Pharmaceutical Sciences, Molecular Pharmacology and Toxicology, or Clinical and Experimental Therapeutics. Seven dual degree programs, one joint program and numerous certificate programs are also offered, including: PharmD/JD, PharmD/MBA, PharmD/MPH, PharmD/MS in Regulatory Science, PharmD/MS in Gerontology, PharmD/MS in Global Medicine, PharmD/PhD, PharmD/MS in Healthcare Decision Analysis, and graduate certificates in clinical research design and management, food safety, healthcare decision analysis, medical product quality, preclinical drug development, patient and product safety, and regulatory and clinical affairs.

The School of Pharmacy also offers a Bachelor of Science (BS) in Pharmacology and Drug Development and a minor in Science and Management of Biomedical Therapeutics.

Tuition and Fees (Estimated)

Tuition for USC School of Pharmacy degree programs (PharmD; PhD in clinical and experimental therapeutics; MS and PhD in pharmaceutical sciences; MS and PhD in molecular pharmacology and toxicology; MS and PhD in health economics) is charged at a flat rate (which differs from standard USC tuition). See the Tuition and Fees section for fee information. These fees are subject to change.

Doctor of Pharmacy students must pay a $500 non-refundable acceptance deposit that is applicable toward tuition. For deposit information in other degree programs in the School of Pharmacy, please consult appropriate offices.

Honor Societies

Rho Chi

Theta chapter of Rho Chi, the academic honor society in pharmacy, was established at USC in 1925. Chapters for chapters of this organization are granted only to student groups in those colleges that are members in good standing of the American Association of Colleges of Pharmacy. Eligibility for membership is based on high attainment in scholarship, character, personality and leadership. All candidates selected for membership must have completed three semesters of the pharmacy program, and they must be approved by the dean of the School of Pharmacy.

Phi Lambda Sigma

The Phi Lambda Sigma chapter was established at USC in 1988. This national pharmacy leadership society is devoted to identifying, supporting and recognizing the contribution of pharmacy students to their colleges, their classmates, their campuses, their communities and to their chosen profession.

Student Housing and Service Facility, Health Sciences Campus

There are limited university-managed accommodations on the Health Sciences Campus. The brand-new Currie Hall has a state-of-the-art fitness center, 24-hour academic success center, pool, wi-fi and fully furnished apartments with enhanced-privacy floor plans. For more information about Currie Hall, call (213) 784-7555 or visit the Currie Hall Website. For bookstore information, call (323) 442-2674. Students may also live in student housing on the University Park Campus, located about eight miles from the Health Sciences Campus.

Student Health Services, Health Sciences Campus

Services of the Student Health Center, covered by the mandatory student health fee, include the ambulatory care health services provided by the Student Health Center nursing staff. The Student Health Center is located in the USC Health Care Consultation Center, 1500 San Pablo Street, Suite 104, adjacent to the USC University Hospital, one block northeast of the School of Pharmacy. The telephone number is (323) 442-5980. In addition to the student health fee, all students must have major medical insurance coverage from the USC Student Health Plan. A student may request a waiver of the USC Student Health Plan if covered by a personal medical plan that meets criteria established by the Health Insurance Office.

Graduate Degrees

The School of Pharmacy, through the Graduate School, offers curricula leading to the MS and PhD degrees in pharmaceutical sciences, in molecular pharmacology and toxicology, and in health economics, as well as a PhD in clinical and experimental therapeutics and a doctorate in Regulatory Sciences (DRSc). The PhD Programs in Pharmaceutical and Translational Sciences (PHTS) is a one-year umbrella program after which students select a particular track to complete their degree with a PhD in pharmaceutical sciences, molecular pharmacology and toxicology, or clinical and experimental therapeutics. The school also offers interdisciplinary MS degrees in regulatory science, in the management of drug development, in healthcare decision analysis and in medical product quality. The MS degree in pharmaceutical economics and policy is offered jointly with the USC Price School of Public Policy and the Department of Economics. In addition, the school offers dual degrees with the schools of law, business, gerontology and medicine as well as other programs. Instructions given in the Admission section of this catalogue are to be followed. An online application is required. See the Graduate Admission application page. Additional information may be obtained by calling (323) 442-1474 or sending email to pharrad@usc.edu.

Admission Requirements for the Master of Science in Molecular Pharmacology and Toxicology and Master of Science in Pharmaceutical Sciences

Applicants should possess a bachelor's or master's degree in pharmacy, chemistry, biology or other related disciplines from an accredited college or university. A minimum grade point average of 3.0 and qualifying scores on the GRE in the verbal and quantitative tests are required. Special attention is given to the grades achieved in science courses relevant to the program (e.g., chemistry, biology, biochemistry, pharmacology and mathematics). Applicants must have demonstrated proficiency in verbal and written English and in fundamental scientific areas such as organic and physical chemistry, biochemistry, biology, mathematics, statistics and computer science. Three letters from faculty knowledgeable about the student's ability and capability are required. These letters should provide a thorough assessment of the student's experience in laboratory research, ability to communicate in verbal and written English, motivation and creativity, and other qualities in the student's academic performance.
Applications for admission are reviewed by the Pharmacology and Pharmaceutical Sciences Graduate Admissions Committee of the School of Pharmacy and are evaluated primarily on the basis of academic excellence.

Admission Requirements for Programs in Pharmaceutical and Translational Sciences: Doctor of Philosophy in Clinical and Experimental Therapeutics, Doctor of Philosophy in Molecular Pharmacology and Toxicology and Doctor of Philosophy in Pharmaceutical Sciences

All prospective students will apply through the single umbrella program Pharmaceutical and Translational Sciences and become enrolled in one of the three participating PhD programs after having successfully completed the first year's course work and rotations. Application materials will be reviewed by a joint admission committee, with equal representation of faculty from each track, evaluating applications on the basis of academic excellence and scientific research commitment.

Applicants should have a baccalaureate degree in natural sciences, or sufficient courses in mathematics and the life sciences. This is required to provide a strong background for studies in biotechnological and biological research. Appropriate undergraduate degrees include biology, physiology, engineering, chemistry or computer science.

For those interested in pursuing PhD training in the Clinical and Experimental Therapeutics track, special emphasis will be given to applicants with an advanced professional degree (e.g. PharmD, MD, DDS). A student currently enrolled in the PharmD program may pursue a PharmD/PhD dual degree by following the admission procedure in the Catalogue.

Applicants should have a strong record of academic achievement and satisfactory performance on the general and advanced portions of the GRE. A minimum grade point average of 3.0 is required and previous research experience is expected. In addition to the application for admission, three letters of recommendation from faculty knowledgeable of the student's ability and capability are required. These letters should provide a thorough assessment of the student's experience in laboratory research, ability to communicate in verbal and written English, motivation, creativity and other qualities in the student's academic performance.

The student's research and professional experience should be well described within the application and include a personal statement summarizing career objectives and research interests.

Admission Requirements for the Master of Science in Pharmaceutical Economics and Policy

Applicants for admission must have achieved a minimum 3.0 GPA in an undergraduate or professional school and adequate scores on the GRE. In addition, applicants will be required to have completed upper-division courses in statistical methods, calculus and microeconomics.

Admission Requirements for the Doctor of Philosophy in Health Economics

Candidates with a bachelor's, master's or PharmD degree are invited to apply. Applicants must have demonstrated proficiency in verbal and written English and aptitude in economics, mathematics, statistics and computer science. Deficiencies in economics and statistical background can be addressed through preliminary course work after admission to the program. A minimum grade point average of at least 3.0 (A = 4.0) is required. Special attention is given to the grades achieved in economics, statistics and mathematics courses relevant to the program. A qualifying score on the GRE in verbal and quantitative areas is required. Students with GRE scores of 1200 or better will be given priority for financial aid support.

Admission Requirements for the Master of Science in Healthcare Decision Analysis

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Additional requirements for international students are outlined by university regulations under Admission of International Students.

Admission Requirements for the Doctor of Science in Regulatory Science

The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level course work and five or more years of professional experience. Admission requirements include university transcripts, a résumé, at least three letters of reference, and a one-page personal statement that outlines the background and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research. Additional requirements for international students are outlined by university regulations under Admission of International Students. (See Admission and Orientation.) Students are not required to provide GRE scores unless indicated by the program director.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the normal rules of the university. Students who have graduated from the Master of Science program in Regulatory Science at USC are eligible to apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the Regulatory Science program are required to take a minimum of 32 units of course work and 4 units of dissertation research to complete the requirements for graduation. The course work requirements will be determined on an individual basis in consultation with the program director and participant's advisers.

Admission Requirements for the Master of Science in Management of Drug Development

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 or equivalent and qualifying scores on the GRE or equivalent examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential.

Admission Requirements for the Master of Science in Biopharmaceutical Marketing

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential. Additional requirements for international students are outlined by university regulations under Admission of International Students.

Admission Requirements for the Master of Science in Pharmaceutical Economics and Policy

Applicants for admission must have achieved a minimum 3.0 GPA in an undergraduate or professional school and adequate scores on the GRE. In addition, applicants will be required to have completed upper-division courses in statistical methods, calculus and microeconomics.

Admission Requirements for the Doctor of Philosophy in Health Economics

Candidates with a bachelor's, master's or PharmD degree are invited to apply. Applicants must have demonstrated proficiency in verbal and written English and aptitude in economics, mathematics, statistics and computer science. Deficiencies in economics and statistical background can be addressed through preliminary course work after admission to the program. A minimum grade point average of at least 3.0 (A = 4.0) is required. Special attention is given to the grades achieved in economics, statistics and mathematics courses relevant to the program. A qualifying score on the GRE in verbal and quantitative areas is required. Students with GRE scores of 1200 or better will be given priority for financial aid support.

Admission Requirements for the Master of Science in Healthcare Decision Analysis

Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE examination are required. The program encourages the participation of part-time students with work experience. Acceptance criteria for those individuals will be assessed on a case-by-case basis. English proficiency is essential.
Admission Requirements for the Master of Science in Medical Product Quality
Applicants should possess a bachelor's degree or equivalent from an accredited college or university. Applicants with graduate or professional degrees are encouraged to apply. A minimum grade point average of 3.0 and qualifying scores on the GRE or equivalent examination are normally required. The program encourages the participation of part-time students who are already working in the industry as well as students who have recently completed or are about to complete an undergraduate program.
Acceptance criteria will be assessed on a case-by-case basis. English proficiency is essential. Applicants who do not meet all the specific requirements indicated above, but who show unique potential, may be considered for admission with conditions, which may be fulfilled during the first semester of enrollment.

Admission of International Students to Graduate Degree Programs
All requirements described in this section are also applicable to the admission of international students. In addition, special application and admission procedures are required of international students. Refer to the section on Admission of International Students in this catalogue.

Degree Requirements
These degrees are under the jurisdiction of the School of Pharmacy and/or jointly with the Graduate School. Students should also refer to the Requirements for Graduation section and The Graduate School section of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by the Graduate School.
- Master of Science in Healthcare Decision Analysis
- Master of Science in Biopharmaceutical Marketing
- Master of Science in Clinical and Experimental Therapeutics
- Master of Science in Management of Drug Development
- Master of Science in Medical Product Quality
- Master of Science in Molecular Pharmacology and Toxicology
- Master of Science in Pharmaceutical Economics and Policy
- Master of Science in Pharmaceutical Sciences
- Master of Science in Regulatory Management
- Master of Science in Regulatory Science
- Doctor of Philosophy in Clinical and Experimental Therapeutics
- Doctor of Philosophy in Health Economics
- Doctor of Philosophy in Molecular Pharmacology and Toxicology
- Doctor of Philosophy in Pharmaceutical Sciences
- Doctor of Philosophy in Pharmaceutical Economics and Policy
- Doctor of Regulatory Science
- PharmD
- PharmD/Juris Doctor
- PharmD/Master of Business Administration Dual Degree Program
- PharmD/Master of Science, Gerontology
- PharmD/Master of Science, Global Medicine
- PharmD/Master of Science, Healthcare Decision Analysis
- PharmD/Master of Public Health
- PharmD/Master of Science, Regulatory Science
- PharmD/Doctor of Philosophy

Continuing Education
The School of Pharmacy, Office ofContinuing Professional Development, is a recognized provider of continuing pharmacy education accredited by the Accreditation Council for Pharmacy Education (ACPE) and recognized by the California State Board of Pharmacy and throughout the United States.
The school serves as a primary educational resource for pharmacists in California and as a supplementary resource for other health professionals and pharmacists, nationally and internationally.
Programs are designed to educate pharmacists about current issues in pharmaceutical care, practice management, therapeutics and other topics of professional interest. Continuing education programs are held at the School of Pharmacy and other locations.
For information concerning continuing education programs contact the Office of Continuing Professional Development.

Bachelor’s Degree
Pharmacology and Drug Development (BS)
The Bachelor of Science in Pharmacology and Drug Development requires the completion of a minimum of 128 units that include:
1. General Education Requirements
2. A minimum of six prerequisite courses designed to prepare students for the major
3. A minimum number of 28 units of upper division (300 level and above) courses in Pharmaceutical and Regulatory Science (RXRS)
4. A minimum of 8 units of upper division (300 level and above) courses in Biological Sciences (BISC) unique to the major
The Bachelor of Science in Pharmacology and Drug Development provides a novel path for science and non-science undergraduates at USC to gain significant knowledge in the disciplines of pharmacology and drug development. Pharmacology is the science of drugs including their origin, composition, pharmacokinetics, pharmacodynamics, therapeutic uses and toxicology. Drug development is the discipline that deals with the process of turning a new chemical entity (NCE) into a safe and effective medication for the advancement of human health. Completion of the major will prepare students for advanced clinical training in health-related fields including pharmacy, medicine and dentistry. It will also provide foundational education that can lead to new opportunities for students considering careers in biotech, pharmaceutics and biomedical industries.
The Bachelor of Science in Pharmacology and Drug Development is conferred by the USC School of Pharmacy.

Calculus
Select one course
- MATH 108g Contemporary Precalculus Units: 4
- MATH 118gx Fundamental Principles of Calculus Units: 4
- MATH 125g Calculus I Units: 4
MATH 108g, MATH 118gx and MATH 125g can be used to satisfy GE-F: Quantitative Reasoning

Statistics
Select one course
- BISC 305 Introduction to Statistics for Biologists Units: 4
- BME 423 Statistical Methods in Biomedical Engineering Units: 4
- HP 340Lg Health Behavior Statistical Methods Units: 4
- MATH 208x Elementary Probability and Statistics Units: 4
- PSYC 274Lg Statistics Units: 4
PSYC 274Lg can be used to satisfy GE-F: Quantitative Reasoning

Chemistry
Select two courses
- CHEM 105gL General Chemistry Units: 4
- CHEM 105bL General Chemistry Units: 4
or
- CHEM 115gL Advanced General Chemistry Units: 4
and
COSC 115bL Advanced General Chemistry Units: 4

Biology
Select two courses
• BISC 120Lg General Biology: Organismal Biology and Evolution Units: 4
• BISC 220Lg General Biology: Cell Biology and Physiology Units: 4
• BISC 121Lg Advanced General Biology: Organismal Biology and Evolution Units: 4
• BISC 221Lg Advanced General Biology: Cell Biology and Physiology Units: 4

Note: Courses must be selected from either the general biology or the advanced general biology series. BISC 120Lg, BISC 220Lg, BISC 121Lg and BISC 221Lg can be used to satisfy GE-D: Life Sciences.

RXRS Core Course Requirement (Part 1)
One course
• RXRS 302 Pharmacology and Drug Development Units: 4

RXRS Core Course Requirement (Part 2)
Select one course
• RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
• RXRS 413w Globalization of the Biomedical Industry Units: 4

Course Requirements (RXRS)
Select four courses
• RXRS 304 Mysterious Deaths: Toxicology, Poisons, Literature, History Units: 4
• RXRS 403 Neuropharmacology in Health and Disease Units: 4
• RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
• RXRS 408 Immunology and Immunotherapeutics Units: 4
• RXRS 409 Neuroimmunology: Focus on Disease and Therapy Units: 4
• RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
• RXRS 416 Medical Products: From Idea to Market Units: 4
• RXRS 420 Organ Physiology, Drug Delivery, and Drug Action Units: 4
• RXRS 411 Innovations in Medical Product Development Units: 4

Course Electives (RXRS)
The remaining units may be selected from the following RXRS courses, or in consultation with an adviser:
• RXRS 405 Pharmacology and Sociology of Drug Abuse Units: 4
• RXRS 406 Clinical Pharmacology and Medication Management Units: 4
• RXRS 412 Twenty-First Century Medical Issues and the Law Units: 4
• RXRS 418 Plant Medicines in Modern Medicine Units: 4
• RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Minor
Science and Management of Biomedical Therapeutics Minor
The minor in Science and Management of Biomedical Therapeutics consists of a minimum of 20 units of course work, 16 of which must be at the 300 and 400 level, and which are unique to this minor and do not overlap with the major, another minor or general education requirements of the undergraduate students. A maximum of 4 units can be met by taking Directed Research (RXRS 490). Only students with a declared major are eligible to apply. Students must be in sophomore standing and have completed a minimum of 32 USC units as an entering freshman or 16 units as an entering transfer student. Course work within the minor will focus on domains of pharmacology, pharmaceutical sciences, toxicology, nutritional sciences, medical product development and drug use and abuse. Students will select course work in consultation with an academic adviser.

Required Courses
To gain a solid foundation for the minor, at least two core courses (selected from the four below) are required:
• RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
• RXRS 403 Neuropharmacology in Health and Disease Units: 4
• RXRS 407 The Discovery, Development and Marketing of Medicines Units: 4
• RXRS 416 Medical Products: From Idea to Market Units: 4

Course work within the minor will focus on domains of pharmacology, pharmaceutical sciences, toxicology, nutritional sciences, medical product development and drug use and abuse. Students will select course work in consultation with an academic adviser.

Electives
The remaining units may be selected from the following RXRS courses, or in consultation with an adviser:
• RXRS 405 Pharmacology and Sociology of Drug Abuse Units: 4
• RXRS 406 Clinical Pharmacology and Medication Management Units: 4
• RXRS 408 Immunology and Immunotherapeutics Units: 4
• RXRS 409 Neuroimmunology: Focus on Disease and Therapy Units: 4
• RXRS 410 Cancer Biology and Pharmacotherapy Units: 4
• RXRS 411 Innovations in Medical Product Development Units: 4
• RXRS 412 Twenty-First Century Medical Issues and the Law Units: 4
• RXRS 413w Globalization of the Biomedical Industry Units: 4
• RXRS 417 Food Safety: The Good, The Bad and The Deadly Units: 4
• RXRS 418 Plant Medicines in Modern Medicine Units: 4
• RXRS 420 Organ Physiology, Drug Delivery, and Drug Action Units: 4
• RXRS 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8

Master's Degree
Biopharmaceutical Marketing (MS)
Master of Science in Biopharmaceutical Marketing
The Master's Program in Biopharmaceutical Marketing (BPMK) is an intensive, industry focused and uniquely targeted program designed to produce graduates whose undergraduate and graduate backgrounds in marketing, communication, biological and pharmaceutical, related sales and advertising, drug management and...
other healthcare-involved business are enhanced by knowledge and skills appropriate for a highly regulated environment, specifically in the application and practice of biopharmaceutical marketing. Biopharmaceutical marketing is a uniquely emerging branch of drug product development, management, market placement, access and insurance coverage, outcomes and value determinations that functions at the intersection of audience segmented product marketing, healthcare industry and government regulatory issues and treatment efficiency, including value and reimbursement. This program will provide the opportunity for mid-career professionals as well as highly motivated new graduates to enter a field in which public and private payers, biopharmaceutical industry and government cannot find sufficient qualified individuals and technically skilled managers to meet demand.

The Biopharmaceutical Marketing Master of Science (BPMK) program will require 27 academic units over an intensive one year (12 months) or part-time option over two years. Students will have a core of seven core courses totaling 21 units (typically 3 units each), with two capstone projects (3 units each) required to complete the 27 unit requirement for graduation. This program will incorporate only customized and uniquely designed courses to target the marketing requirements of the biopharmaceutical industry. Capstone project may either use a standard format of topics and experience or can be customized to fit the individual student's experience, career plans, and areas of interest. Each customized capstone project will be supervised by a dedicated mentor possessing complimentary skills and experience along with the program director.

**Biopharmaceutical Marketing Requirements**

Complete all following courses:

- BPMK 500 Biopharmaceutical Market: Reimbursement Strategy Units: 3
- BPMK 501 Healthcare Payers, Insurance and Coverage Policy Units: 3
- BPMK 502 Biopharmaceutical Product Development and Marketing Units: 3
- BPMK 503 Biopharmaceutical Advertising and Communication Units: 3
- BPMK 504 Payer Formulary Placement: Value and Access Units: 3
- BPMK 505 Product Health Economics and Valuation Units: 3
- BPMK 506 Biopharmaceutical Product Pricing and Competition Units: 3
- BPMK 510 Capstone I: Biopharmaceutical Management Project Units: 3
- BPMK 511 Capstone II: Biopharmaceutical Management Project Units: 3

**Clinical and Experimental Therapeutics (MS)**

The students will develop expertise in therapeutics, pharmacology, translational science and regulatory sciences through course work offered under the CXPT, PSCI RSCI and RXRS designations. A total of 24 units of course work is required, with an additional 12 units from research and dissertation courses. CXPT 609 and CXPT 664 would be core courses in experimental design and drug development and disease-focused experience. Relevant courses for this program are listed below and may be taken as determined by the guidance committee. Courses recently developed for the undergraduate minor (Science and Management of Biomedical Therapeutics) and major (Pharmacology and Drug Development) would also be courses available to the students (up to 6 units). Additional basic science courses from Kess School of Medicine will be identified for course work electives based upon the interest of the student.

The goal of the Master's program in Clinical and Experimental Therapeutics (CXPT) is to develop a scientist who is engaged in team science through interdisciplinary education. The graduate will be competent in conducting research across clinical and basic science disciplines and integrating basic investigations and clinical observations in applied research to better understand disease processes, advance drug development and evaluate efficacy and toxicity of therapeutic regimens. The goal is to provide the safe, effective and economical use of therapeutic modalities by patients.

This program aims to train pharmacy students, medical students, fellows and graduate students in translational applications of research, either from the bench to the bedside or the bedside back into the research arena. The goal of this program is to provide individuals with a solid biology, chemistry of clinical background with expertise in biomedical research, pharmaceutical research or clinical research. Specifically, this program will provide a career track and degree-granting masters mechanism to train individuals to undertake translational and clinical research.

The program applies an interdisciplinary approach focusing the graduate studies directly toward translational, bridging basic and clinical sciences, aiming to educate students with the perspective and skillset to identify important connections between fundamental biomedical research and human disease. This program emphasizes cross-training between clinical and basic sciences focusing on the investigation of disease processes, drug development and investigation of clinically related outcomes. Course requirements and research opportunities for graduate students enrolled in the program provide both experimental (basic), disease-focused and clinical experiences that complement the graduate's research focus.

The program is intended to attract individual from a broad background in biological, physical and clinical sciences and is flexible to provide focused training in areas of concentration or interest within an interdisciplinary team. As there is a need for a workforce within the biomedical and pharmaceutical sciences with interdisciplinary training that allows an understanding of both the basic, translational and clinical sciences, this master's program will fill a current gap as well as prepare individuals for the future. The School of Pharmacy is currently positioned to fill parts of this gap with undergraduate, basic and regulatory science training, however at the master's level, there is a need for training of students in the sciences that translate between basic and and clinical sciences.

**Core Courses (11 units)**

*For students enrolled in PharmD curriculum, advanced pharmacy practice experience (APPE) units can be used to substitute (in consultation with an adviser).*

- CXPT 609 Preclinical Experimental Drug Therapeutic Development Units: 4
- CXPT 664 Clinical Problem Solving Units: 3
- PM 510L Principles of Biostatistics Units: 4

**Elective Courses (minimum 13 units)**

*Up to 8 units of 400 series course work can be applied toward the degree.*

- MPTX 517 Structure and Management of Clinical Trials Units: 4
- PSCI 502 Principles of Therapeutic Mechanisms Units: 4
- PSCI 515 Drugs: Genetics and Pharmacogenetics Units: 2
- PSCI 662 Advanced Pharmacokinetics/Pharmacodynamics Units: 2
- RSCI 533 Safety Evaluation during Drug Development Units: 3
- RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society Units: 4
- RXRS 403 Neuropharmacology in Health and Disease Units: 4
- RXRS 405 Pharmacology and Sociology of Drug Abuse Units: 4
- RXRS 408 Immunology and Immunotherapeutics Units: 4
- RXRS 410 Cancer Biology and Pharmacotherapy Units: 4

**Research and Dissertation Courses (12 units)**

- CXPT 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
  *(8 units required)*
- CXPT 594a Master's Thesis Units: 2
- CXPT 594b Master's Thesis Units: 2
- CXPT 594z Master's Thesis Units: 0
Healthcare Decision Analysis (MS)

Curriculum Requirements

A Master of Science degree in healthcare decision analysis will be granted upon completion of at least 32 units of course work. Students with experience in industry or government can substitute an equivalent amount of formal course work with a research project, subject to the approval from program administrators.

Course requirements normally include a minimum of eight courses (24 units) with emphasis on applied health care policy, business intelligence and technical analysis. Recommended course work and electives include some courses available in other departments of the university and will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Students should develop a specific plan of study in consultation with their graduate adviser before beginning the program.

Grade Point Average

A grade point average of at least 3.0 (A = 4.0) must be achieved on graduate course work at USC.

Management of Drug Development (MS)

A Master of Science degree in the management of drug development will be granted upon completion of at least 32 units of course work. The program is offered on both a full-time and part-time basis, and courses are also available in distance formats. Course requirements normally include a minimum of three courses concerned with translational aspects of medical product development. Recommended courses to satisfy this core requirement include RSCI 531, RSCI 532, PSCI 664 or CXPT 609. The program must also include a minimum of one course in each of: regulatory science, quality assurance, clinical research, business and statistics. Students should develop a specific plan of study in consultation with graduate advisers before beginning the program.

Medical Product Development

Recommended coursework includes:

- CXPT 609 Preclinical Experimental Drug Therapeutic Development Units: 4
- PSCI 664 Drug Discovery and Design Units: 4
- RSCI 531 Industrial Approaches to Drug Discovery Units: 4
- RSCI 532 Early Stage Drug Development Units: 3

Medical Product Quality (MS)

To keep medical products safe and effective, a strong system of quality management is required. Quality is assured through compliance with strict regulations and is assessed by regulatory agencies through audits and inspections. A Master of Science degree in Medical Product Quality is a specialized program designed to prepare individuals to function effectively as quality specialists in pharmaceutical and medical device sectors. The degree will be granted upon completion of at least 32 units of course work. Course requirements normally include a minimum of four courses concerned with the quality aspects of medical product development and manufacturing and a minimum of one course each in regulatory science, risk management, statistics and project management. The program is offered on both a full-time and part-time basis, and courses are also available in distance formats. Students should develop a specific plan of study in consultation with their graduate adviser before beginning the program.

Molecular Pharmacology and Toxicology (MS)

A Master of Science in molecular pharmacology and toxicology will be granted on the basis of completion of at least 24 units of formal course work and presentation of an acceptable thesis (MPTX 594a, MPTX 594b, 4 units) based on the results of an original investigation.

The 24 units of course work must be at the 500-level or above, exclusive of directed research. At least 16 of the 24 required units must be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences (courses within the department have designations of either PSCI or MPTX). The remaining units can be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

Pharmaceutical Economics and Policy (MS)

The Department of Pharmaceutical Economics and Policy (School of Pharmacy) offers a program of study leading to the MS degree. Applicants must apply to the Graduate School and meet the admissions requirements of the program. This program requires students to demonstrate skills in the analysis of pharmaceutical and health technology innovations, as well as an understanding of contemporary health policy issues.

A minimum of 36 units of graduate level courses is required.

Grade Point Average

A grade point average of at least 3.0 (A = 4.0) must be achieved on graduate course work at USC.

Recommended Courses

Students must complete all recommended courses for the degree within five years of entry into the program. It is recommended that the student complete the following 36 units of graduate level course work.

- PPD 501a Economics for Policy, Planning and Development Units: 2 and
- PPD 501b Economics for Policy, Planning and Development Units: 2
- HCDA 506 Foundations of Insurance and Global Access Units: 3
- PMEP 509 Research Design Units: 4
- PMEP 525 Pharmacoeconomics I Units: 4*
- PMEP 526 Pharmacoeconomics II Units: 2*
- PMEP 527 Pharmacoeconomics III Units: 4 or approved elective
- PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
- PMEP 539 Economic Assessment of Medical Care Units: 4
- PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
- PMEP 551 Introduction to Health Econometrics Units: 4
- PMEP 552 Advanced Health Econometrics I Units: 4 or approved elective
- PMEP 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Note:

* The student must satisfactorily complete the recommended courses in public administration (PPD 501a and PPD 501b) prior to enrolling in PMEP 525 and PMEP 526.

Additional Degree Requirements

The student is also required to complete an empirical research project on a topic relevant to pharmaceutical economics and policy. This paper will be completed under the advisement of a faculty member in the Department of Pharmaceutical and Health Economics and be approved by two additional faculty.

List of Approved Electives

- ECON 401 Mathematical Methods in Economics Units: 4
- ECON 415 Behavioral Economics Units: 4
- ECON 419 Advanced Econometrics Units: 4
- ECON 500 Microeconomic Analysis and Policy Units: 4
- ECON 513 Practice of Econometrics Units: 4
- ECON 601 Microeconomic Theory I Units: 4
- ECON 603 Microeconomic Theory II Units: 4
- ECON 604 Game Theory Units: 4
- ECON 611 Probability and Statistics for Economists Units: 4
- ECON 615 Applied Econometrics Units: 4
• ECON 688 Empirical Industrial Organization Units: 4
• HCDA 506 Foundations of Insurance and Global Access Units: 3
• HCDA 507 Foundations of Product Development and Commercialization Units: 3
• MEDS 500 Basic Concepts in Global Health Units: 4
• PM 510L Principles of Biostatistics Units: 4
• PM 511Al Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4
• PM 511cL Data Analysis Units: 4
• PM 512 Principles of Epidemiology Units: 4
• PM 523 Design of Clinical Studies Units: 3
• PM 536 Program Evaluation and Research Units: 4
• PM 552 Statistical Methods in Clinical Trials Units: 3, 2 years
• PM 560 Statistical Programming With R Units: 2
• PSYC 426 Motivated Behaviors and Addiction Units: 4

**Pharmaceutical Sciences (MS)**

A Master of Science in the pharmaceutical sciences will be granted on the basis of completion of at least 24 units of formal course work and presentation of an acceptable thesis (PSCI 594a, PSCI 594b, 4 units) based on the results of an original investigation.

The 24 units of course work must be at the 500-level or above, exclusive of directed research. At least 16 of the 24 required units must be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences (courses within the department have designations of either PSCI or MPTX). The remaining units can be taken from courses offered within the Department of Pharmacology and Pharmaceutical Sciences or in various related disciplines outside the department if approved by the Department of Pharmacology and Pharmaceutical Sciences Graduate Affairs Committee.

**Regulatory Management (MS)**

Regulatory management relates to the leadership of teams involved in the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. The Master of Science in Regulatory Management program is designed to provide post-doctoral scientists with the knowledge and skills necessary to become leaders in regulatory and clinical research. A Masters of Science in Regulatory Management will be granted upon completion of at least 24 units of formal course work. Degree requirements include courses concerned with the regulatory aspects of medical product development, quality assurance, clinical research and business. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

**Course Work**

Students may select courses from areas within the regulatory science program, including from regulatory science, quality management and clinical development, including that of business, human resource management, and project management. Suggested course options include but are not limited to the following:

- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3
- MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3
- MPTX 517 Structure and Management of Clinical Trials Units: 4
- RSCI 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

**Regulatory Science (MS)**

Regulatory science relates the regulatory and legal requirements of biomedical product development to the scientific study needed to establish product safety and efficacy. A Master of Science degree in regulatory science will be granted upon completion of at least 36 units of formal course work. Course requirements normally include a minimum of three courses concerned with regulatory aspects of medical product development and a minimum of one course each in quality assurance, clinical research, business, statistics and law. Recommended course work includes some courses available in other departments of the university. Students should develop a specific plan of study in consultation with the graduate advisers before beginning the program.

**Graduate Certificate**

**Clinical Research Design and Management Certificate**

The graduate certificate in clinical research design and management is designed to strengthen the statistical, research and project management skills of clinical researchers and their associated clinical team members. Students must complete at least 12 units of course work including at least two courses in clinical design and trial management, one course in ethics and one course in a specialized aspect of design, management or statistics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

**Requirements**

**Introduction to Clinical Trials**
- MPTX 517 Structure and Management of Clinical Trials Units: 4

**Clinical Design/Statistics (choose one)**
- MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
- PM 510L Principles of Biostatistics Units: 4

**Biomedical Ethics**
- MPTX 602 Science, Research and Ethics Units: 2
- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3
- PM 510L Principles of Biostatistics Units: 4
- RSCI 506 Auditing Principles Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
- RSCI 527 Medical Product Safety Units: 3
- RSCI 603 Managing Complex Projects Units: 3

*Note:
Cannot be double counted as an elective and the Clinical Design/Statistics requirement.

**Food Safety Certificate**

The graduate certificate in food safety is a 12-unit program of course work designed to strengthen the knowledge base and functional "toolkit" of individuals who deal with the production and management of food in industry and government. Students are required to take an entry level course that focuses on regulatory requirements for foods and dietary supplements and two additional courses that focus on food science and food/drug toxicology respectively. Final course work will be selected from a small grouping of electives that deal with quality systems or risk management. The program will include course work delivered in nontraditional formats, such as intensive weekend sessions, and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination.
combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor’s degrees from accredited colleges or universities must submit an application for graduate study through the Healthcare Decision Analysis program. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Requirements

- MPTX 514 Regulation of Food and Dietary Supplements Units: 3
- MPTX 524 Introduction to Food Science and Technology Units: 3
- RSCI 525 Introduction to Drug and Food Toxicology Units: 3

Quality/Risk Management Option:

Select at least one course (3 units):

- MPTX 511 Introduction to Medical Product Regulation Units: 3
- MPTX 515 Quality Systems and Standards Units: 3
- MPTX 526 Chemistry Manufacturing and Controls Units: 3
- RSCI 508 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 599 Quality Assurance, Medical Devices and Combination Products Units: 3
- RSCI 520 Introduction to Risk Management for Health Care Products Units: 2
- RSCI 529 Application of Risk Management Tools and Techniques Units: 2

Healthcare Decision Analysis Certificate

The Healthcare Decision Analysis (HCDA) Certificate program gives students the tools and knowledge to succeed in the complex world of healthcare data analytics, international access and reimbursement, product pricing and value assessment, insurance operations and design, along with competitive business intelligence. Course work is typically delivered in nontraditional formats such as intensive weekend sessions, Webcast lectures, and distance learning tools. Courses must be taken on-site. Students should confirm their specific course work plan in consultation with the graduate adviser before beginning the program. Students who have bachelor’s degrees from accredited colleges or universities must submit an application for graduate study through the Healthcare Decision Analysis program. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete at least 12 units of specified course work, which normally will include two introductory courses on healthcare insurance and access, and product development and commercialization, along with two additional elective courses. The certificate can be completed on a part-time basis but must be finished within five years.

Required Courses

- HCDA 506 Foundations of Insurance and Global Access Units: 3
- HCDA 507 Foundations of Product Development and Commercialization Units: 3

Electives (select two):

- HCDA 501 Fundamentals of Healthcare Insurance Design Units: 3
- HCDA 502 Comparative International Healthcare Systems Units: 3
- HCDA 503 Competitive Health Care Intelligence and Pricing Units: 3
- HCDA 510 Business Implications of Health Care Reform Units: 3
- HCDA 515 Medical Decision Analysis and Modeling Units: 3
- HCDA 520 Health Economic and Outcomes Methodology Units: 3
- HCDA 525 Healthcare Literature Analysis and Applications Units: 3
- HCDA 530 Total Product Development: Benchtop to Launch Units: 3
- HCDA 540 Executive Leadership and Healthcare Marketing Units: 3
- HCDA 550 Healthcare Innovation: Creativity to Value Units: 3
- HCDA 553 Advanced Pricing Strategies Units: 3
- HCDA 560 Managing Effective Partnerships and Mergers Units: 3
- HCDA 570 Asia Pacific: Access, Delivery and Reimbursement Units: 3

Medical Product Quality Graduate Certificate

The graduate certificate in Medical Product Quality is a 12-unit program designed for students with a background in biological, pharmaceutical and biomedical sciences and biomedical engineering. Quality assurance and quality control are the two functions in the biomedical industry that are responsible for the testing and oversight required to ensure the safety of the health care products that are manufactured. An essential tenet of regulatory oversight is the assurance of quality through guidelines, audits and inspections. In this program the regulations and guidelines to ensure the quality of drugs, biologics and medical devices, both in the United States and internationally, will be studied to develop an understanding of the basic principles important for the interpretation and implementation of quality practices and quality systems. Course work is typically delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate adviser before beginning the program. Students who have bachelor’s degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete 12 units of specified course work (four course minimum), that normally will include an introductory course in the basic principles of quality systems, a course in project management, a course in quality tools and one elective chosen from the quality or regulatory offerings. The certificate can be completed on a part-time basis but must be finished within five years.

Choose at least one Quality Systems course from:

- MPTX 515 Quality Systems and Standards Units: 3
- RSCI 509 Quality Assurance for Drugs and Biologics Units: 3
- RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3

Choose at least one Quality Tools course from:

- RSCI 506 Auditing Principles Units: 3
- RSCI 507 Quality Systems and Statistical Process Control Units: 2
- RSCI 535 Methods Development and Validation Units: 3

Project Management

- RSCI 603 Managing Complex Projects Units: 3

Choose an elective from the Quality or Regulatory offerings (minimum 3 units)

Elective course selected in consultation with academic adviser

Patient and Product Safety Certificate

The graduate certificate in patient and product safety is a 12-unit program that educates students in the emerging field of safety and risk management in the health care environment. It is designed to produce graduates who have a particular expertise in the evaluation and mitigation of medical errors and health-care product problems. Course work is typically delivered in nontraditional formats such as intensive weekend sessions and will use distance learning tools,
Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have bachelor's degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

Students must complete 12 units of specified course work, that normally will include an introductory course in the basic principles of risk management, a second course in the use of risk management tools, and two additional courses in patient and product safety respectively as listed below. In addition, a course in medical ethics is recommended. Most students will take the courses that are listed in the sample student program below, but if students have already strong previous experience in risk management or safety, other statistical or quality courses taught in graduate programs at USC may be substituted with the permission of the program director. The certificate can be completed on a part-time basis but must be finished within five years.

Courses may be selected from the following recommended course list.

### Recommended Course List

- **MPTX 515 Quality Systems and Standards Units: 3**
- **MPTX 517 Structure and Management of Clinical Trials Units: 4**
- **MPTX 602 Science, Research and Ethics Units: 2**
- **RSCI 520 Introduction to Risk Management for Health Care Products Units: 2**
- **RSCI 527 Medical Product Safety Units: 3**
- **RSCI 529 Application of Risk Management Tools and Techniques Units: 2**
- **RSCI 603 Managing Complex Projects Units: 3**

### Preclinical Drug Development Certificate

The graduate certificate in preclinical drug development provides advanced foundational training in preclinical aspects of drug development, translational research and regulatory control. Students must complete at least 12 units of course work including at least three courses in preclinical design and development (typically, RSCI 530 Translational Medicine: An Overview; RSCI 531 Industrial Approaches to Drug Discovery; RSCI 532 Early Stage Drug Development) and one course in a related aspect of research design, regulation or ethics, subject to the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities, Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with graduate advisers before beginning the program. Students who have baccalaureate degrees from accredited colleges or universities must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

### Regulatory and Clinical Affairs Certificate

The graduate certificate in regulatory and clinical affairs is designed to provide specialized education for individuals interested in developing a systematic understanding of the U.S. regulatory system for medical products. Students must complete at least 12 units of course work including an introductory course in regulatory affairs:

#### Requirements

**Introductory Course (1 course)**

- **MPTX 511 Introduction to Medical Product Regulation Units: 3**
- **RSCI 531 Industrial Approaches to Drug Discovery Units: 4**
- **RSCI 532 Early Stage Drug Development Units: 3**

### Advanced Regulation (1 course)

- **MPTX 512 Regulation of Pharmaceutical and Biological Products Units: 3**
- **MPTX 513 Regulation of Medical Devices and Diagnostics Units: 3**
- **MPTX 514 Regulation of Food and Dietary Supplements Units: 3**

### Clinical Trials (1 course)

- **MPTX 517 Structure and Management of Clinical Trials Units: 4**
- **MPTX 518 Writing Regulatory Drug Submissions Units: 3**
- **MPTX 522 Introduction to Clinical Trial Design and Statistics Units: 3**
- **MPTX 526 Chemistry Manufacturing and Controls Units: 3**
- **RSCI 525 Introduction to Drug and Food Toxicology Units: 3**

### Quality Assurance and Risk Management (1 course)

- **MPTX 515 Quality Systems and Standards Units: 3**
- **RSCI 508 Quality Assurance for Drugs and Biologics Units: 3**
- **RSCI 509 Quality Assurance, Medical Devices and Combination Products Units: 3**
- **RSCI 520 Introduction to Risk Management for Health Care Products Units: 2**

### Minimum Units: 12

### Additional Requirements

Other courses may be substituted with the approval of the program director. The program will include course work delivered in nontraditional formats such as intensive weekend sessions and will use distance capabilities to capture and Webcast lectures and study materials. Courses can be taken on site, by distance or as a blended combination. Students should confirm their specific course work plan in consultation with the graduate advisers before beginning the program. Students who have a baccalaureate degree from an accredited college or university must submit an application for graduate study through the regulatory science program of the School of Pharmacy. GRE scores are not required for admission to the certificate program. Students are expected to enroll each semester until the program is completed.

### Dual Degree

**Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD)**

The Doctor of Pharmacy/Doctor of Philosophy (PharmD/PhD) program is designed to permit qualified PharmD students with a bachelor of science or equivalent degree to pursue research training in the pharmaceutical sciences and toxicology. A student accepted into the joint program must meet all requirements for the PharmD, as well as the requirements for the PhD in the pharmaceutical sciences or toxicology sections listed in this catalogue. A maximum of 20 units from the PharmD program may be credited toward the PhD. Up to 12 units of these PharmD courses may, at the discretion of the student's PhD adviser, be counted toward the required 24 units of core course work.

#### Admission Procedure

Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/PhD degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one
program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to one of the PhD programs in the School of Pharmacy during their first two years of enrollment in the PharmD program prior to the respective published application deadlines for the PhD programs. Students who elect this approach must apply through the PharmD program. Students admitted to the PhD program using this approach will be offered admission to the dual degree contingent on their having maintained a minimum 3.0 GPA in the PharmD program.

**Doctor of Pharmacy/Juris Doctor (PharmD/JD)**

**Admission Requirements**
Admission to the dual Doctor of Pharmacy/Juris Doctor (PharmD/JD) program is competitive, and involves meeting admission requirements and gaining acceptance to both the School of Pharmacy and the USC Gould School of Law. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students who have a baccalaureate degree may apply to the dual PharmD/JD degree program in two ways.

First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both schools. Students who elect this approach must identify themselves on their PharmD application as potential dual PharmD/JD degree students. Students who are admitted to both schools will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students pursuing the dual PharmD/JD degree must notify the law school in a timely fashion that they will be enrolling in the dual PharmD/JD degree program and will not matriculate at the law school until the following year. Students who are accepted by only one school may choose to attend that school but will not be eligible for the dual degree.

Second, students can apply to the dual degree by submitting an application to the Gould School of Law during their first year of enrollment in the PharmD program prior to the law school's published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students who are admitted to the law school using this approach would be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. See the admissions section of the School of Pharmacy and the Gould School of Law for specific requirements.

**PharmD Requirements**
Dual degree students should graduate with their PharmD degrees at the completion of the first semester of the sixth academic year of the dual degree program. Students will be eligible to sit for the Pharmacy Board Exams after completion of the PharmD degree requirements. However, dual degree students will not actually be awarded their PharmD degrees until they complete requirements for both degrees.

**Juris Doctor Requirements**
Dual degree students must complete their JD course work during the second to sixth years of the dual degree program. Students cannot receive the JD degree under the requirements of the dual degree program without prior or simultaneous completion of the PharmD degree.

Both professions require passing a state board or bar exam to practice the respective professions. Neither of these professional doctoral degrees requires a thesis or comprehensive final exam.

**Year I (P1) Curriculum**
- PHRD 501 Pharmaceutics I Units: 3
  - Fall
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism I Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 2
  - Spring
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Pharmacists’ Patient Care Process Units: 1
- PHRD 552 Pharmaceutics III Units: 3
- Electives: 0-9 units**

**Year II (P2) Curriculum**
- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3
  - Fall
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5
  - Spring
- PHRD 564 Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- Pharmacy Practice Experiences Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2

**Year III (P3) Curriculum**
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
  - Fall
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 4 Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Electives: 0-3 units*
  - Spring
- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 5 Units: 1
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Pharmacy Practice Experiences Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2
- Electives: 0-9 units**

**Note:**
- Elective courses: Students MUST complete a minimum of 3 units of elective courses for the PharmD degree. Students will be provided a list of courses approved each year.
- **APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

**Required APPE Courses**
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3

**Elective APPE Courses**
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
• PHRD 738 Pharmaceutical Industry APPE Units: 6
• PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
• PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

**Plus a minimum of 65 units of JD Course Work**

**Doctor of Pharmacy/Master of Business Administration (PharmD/MBA)**

Responding to the growing demand on pharmacists to be knowledgeable in both science and business administration, the USC School of Pharmacy in 1988 helped pioneer an innovation in pharmaceutical education by offering this unique five-year dual degree program.

The Doctor of Pharmacy/Master of Business Administration (PharmD/MBA) dual degree program is offered cooperatively by the School of Pharmacy and the USC Marshall School of Business. Students must complete concurrently all requirements established by both schools for their respective degrees.

The program involves completion of the first year in the School of Pharmacy, the second in the Marshall School of Business, and then completion of the balance of both degrees during the third through fifth years. A total of 48 units must be completed in the Marshall School of Business.

**First Year:** Required Pharmacy School courses.

**Second Year:** Required MBA courses and graduate business electives.

**Third to Fifth Years:** remaining Pharmacy courses and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. The PharmD and the MBA are awarded simultaneously upon completion of the School of Pharmacy and the Marshall School of Business requirements.

**MBA Admission Requirements**

Applicants to this program must have a baccalaureate degree from an accredited college or university and should apply during their first year of pharmacy studies. Only students who have successfully completed one year in the School of Pharmacy will be considered for admission to the Marshall School of Business. See the Marshall School of Business for admission requirements.

**Doctor of Pharmacy/Master of Public Health (PharmD/MPH)**

The School of Pharmacy and the Master of Public Health program, in recognition of the rapidly changing health care environment, and in response to the growing demand for pharmacists who are knowledgeable in both pharmacy and population-based health care issues, have developed a dual degree program. The joint PharmD/MPH degree will enable graduates to be more responsive to today's health care needs and will provide training for pharmacists who seek to be agents of change within the profession and to assume leadership roles in the pharmacy field and in public health at the local, state and national levels.

The PharmD and the MPH degrees are awarded simultaneously upon completion of the School of Pharmacy and the Master of Public Health requirements.

**Admission Requirements and Procedures**

Students applying for the dual degree program must meet the respective admission requirements for each program. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and having acceptable GRE and TOEFL or IELTS scores as applicable. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MPH degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program, but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MPH program during their first year of enrollment in the PharmD prior to the MPH published application deadline. Students who elect this approach must apply through the School of Pharmacy.

**Year I (P1) Curriculum**

- PHRD 501 Pharmaceutics I Units: 3

**Fall**

- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 2

**Spring**

- PHRD 502 Pharmaceutics II Units: 2
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Pharmacists' Patient Care Process Units: 1
- PHRD 552 Pharmaceutics III Units: 3

**Year II (P2) Curriculum**

- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3

**Fall**

- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5

**Spring**

- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5

**Pharmacy Practice Experiences**

- Must complete all three courses between P2 and P3 year

**Fall**

- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2

**Year III (P3) Curriculum**

- PHRD 611 Therapeutics: Infectious Diseases Units: 5

**Fall**

- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 4 Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Elective*: 0-3 units

**Spring**

- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 5 Units: 1
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Elective* and/or APPE**: 0-9 units
Pharmacy Practice Experiences

- Must complete all three courses between P2 and P3 year
  - PHRD 624 Community Pharmacy Practice Units: 4
  - PHRD 625 Hospital Pharmacy Practice Units: 3
  - PHRD 626 Elective Pharmacy Practice Units: 2

Note:

*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the degree. Students will be provided a list of courses approved each year.

**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Required APPE Courses

Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).

- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3

Elective APPE Courses

Students must complete 12 units from the list below.

- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

MPH Curriculum

Students in the PharmD/MPH dual degree must complete 38 units of MPH specific coursework (18 units of MPH core + 20 units of concentration course work). Relevant courses taken in the School of Pharmacy will be counted toward the MPH concentration elective requirement.

Doctor of Pharmacy/Master of Science, Gerontology

The emerging impact of the elderly on the health care system has created a need for health care providers who understand the unique needs of the elderly. As drug therapy remains the primary therapeutic option for chronic disease, the demand for prescription drugs will continue to rise. There is a demand for pharmacists who are equipped to meet the pharmaceutical care needs of this population. Geriatric pharmacy is recognized as a specialty, with board certification through the Commission for Certification in Geriatric Pharmacy. The PharmD/MS, Gerontology program will provide extensive education and training in the unique health care needs of older adults. It will allow student pharmacists with a career interest in geriatrics or gerontology to work with health care planning or delivery organizations to develop and implement progressive pharmaceutical care programs for the elderly.

Application and Admission Requirements

Students who intend to pursue the dual PharmD/MSG degree must be accepted by both programs. This includes having completed a baccalaureate degree from an accredited college or university with a minimum GPA of 3.0 and a minimum equivalent GRE score of 1000. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MS degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program. Second, students can apply to the dual degree by submitting an application to the MS program during their first year of enrollment in the PharmD prior to the MS published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MS program using this approach will be offered admission to the dual degree contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students accepted to the dual degree program must maintain a minimum 3.0 GPA in their Gerontology and PharmD courses.

Recommended Program

First year: Required Year I PharmD course work
Second year: Required Gerontology course work
Third year: Required Year II PharmD course work
Fourth year: Required Year III PharmD course work
Fifth year: Required Year IV PharmD course work

Graduation Requirements

Students must complete all requirements for the PharmD (see the Professional Degrees page) and MS, Gerontology degrees as listed in the current catalogue with a minimum cumulative 3.0 GPA. The specific MS course requirements for the dual PharmD/MS degree are listed on the School of Gerontology Dual Degree Programs page.

Doctor of Pharmacy/Master of Science, Global Medicine

The dual degree in Pharmacy and Global Medicine is designed for students who are interested in providing pharmaceutical care to underserved populations around the world. Students enrolled in this dual degree program will benefit from an advanced understanding of the role of, and issues surrounding, modern medicine in developing countries.

Requirements

- Students must gain admission to and fulfill the degree requirements for both programs, which include 135 units for the Doctor of Pharmacy and 32 units for the MS in Global Medicine.

Program Adaptation

Because MEDS 503 and MEDS 504, core requirements for the MS in Global Medicine program, cover the same material as PHRD 503 and PHRD 504, the PharmD/Global Medicine dual degree program substitutes PHRD 503 and PHRD 504 for MEDS 503 and MEDS 504 as core requirements for the dual degree.

Year I (P1) Curriculum

- PHRD 501 Pharmaceutics I Units: 3
  - Fall
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 2
  - Spring
- PHRD 520 Pharmaceutics II Units: 2
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Pharmacists’ Patient Care Process Units: 1
- PHRD 552 Pharmaceutics III Units: 3

Year II (P2) Curriculum

- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3
  - Fall
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5
Spring
- PHRD 564 Case Conference: 2 units
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5
- Pharmacy Practice Experiences Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2

Year III (P3) Curriculum
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- Fall
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 4 Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Electives: 0-3 units*

- Spring
- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 5 Units: 1
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- PHRD 650 APPE Gateway Units: 2

Pharmacy Practice Experiences Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2
- Electives: 0-9 units**

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the PharmD degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may be assigned to any of APPEs listed below.

Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6
- PHRD 704 Primary Care APPE Units: 6
- PHRD 705 Community Pharmacy APPE Units: 6
- PHRD 718 Hospital Pharmacy Practice APPE Units: 6
- PHRD 796a Doctor of Pharmacy Capstone Units: 0
- PHRD 796b Doctor of Pharmacy Capstone Units: 0, 3

Elective APPE Courses
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Doctor of Pharmacy/Master of Science, Regulatory Science
Regulatory science is that branch of knowledge which relates the regulatory and legal requirements of biomedical product development to the scientific testing and oversight needed to ensure product safety and efficacy. The program provides an opportunity for advanced preparation in the fields of regulatory affairs, quality assurance and clinical research. Students must complete concurrently all of the requirements established for the respective degrees. The program alternates the courses required for the PharmD program during the fall and spring terms with courses required in summer terms for the MS program. Students will typically take courses in the summers of years two-four. Up to 12 appropriate units of course work from the PharmD program can be applied toward the MS degree. The PharmD and the MS, Regulatory Science degrees will be awarded simultaneously upon completion of requirements for the two programs.

Admission Requirements and Procedures
Students applying for the dual degree program must meet the respective admission requirements for each program and must have a baccalaureate degree. Students will not be given special consideration for admission to either program because they are applying for the dual degree. Students may apply to the dual PharmD/MS, Regulatory Science degree program in two ways. First, they may apply at the time they submit their PharmD application by concurrently submitting applications to both programs. Students who elect this approach must identify themselves on both applications as potential dual degree students. Students who are admitted to both programs will be offered admission to the PharmD and will be offered admission to the dual degree program contingent on passing all courses in their first year of the PharmD with a minimum 3.0 GPA. Students who are accepted by only one program may choose to attend that program but will not be eligible for the dual degree. Second, students can apply to the dual degree by submitting an application to the MS in Regulatory Science program during their first or second year of enrollment in the PharmD prior to the MS in Regulatory Science published application deadline. Students who elect this approach must apply through the School of Pharmacy. Students admitted to the MS in Regulatory Science using this approach will be offered admission to the dual degree contingent on passing all courses in their PharmD studies with a minimum 3.0 GPA.

Healthcare Decision Analysis (PharmD/MS)
The Healthcare Decision Analysis (HCDA) program gives students the tools and knowledge to succeed in the complex world of healthcare data analytics, international access and reimbursement, product pricing and value assessment, insurance operations and design, along with competitive business intelligence. A dual degree of Doctor of Pharmacy and Master of Science in Healthcare Decision Analysis will be granted upon the completion of the course work required for the PharmD degree, and the HCDA core and elective units. Dual degree students will be credited up to 9 units of appropriate PharmD course work toward the MS, HCDA. Dual degree students will select from a series of HCDA core courses and required electives to meet the MS, HCDA degree requirements. Electives will be considered from the disciplines: applied healthcare policy, business intelligence, regulatory science, and healthcare economics, along with all required clerkships and rotations offered though the USC School of Pharmacy. Students should develop a specific plan of study in consultation with program administrators before beginning the program.

Doctoral Degree
Clinical and Experimental Therapeutics (PhD)
The goal of the PhD program in Clinical and Experimental Therapeutics is to develop a scientist who is engaged in team science through interdisciplinary education; competent in conducting research across clinical and basic science disciplines; and integrates basic investigations and clinical observations in applied research to better understand disease process, advance drug development and evaluate efficacy and toxicity of therapeutic regimens with the goal of improving the safe, effective and economical use of therapeutic modalities by patients.

The program applies an interdisciplinary approach that focuses the graduate studies directly toward translational, rather than basic science, aiming to educate students with the perspective and skill set to identify important connections between fundamental biomedical research and human disease. This program emphasizes cross-training between clinical and basic sciences focusing on the investigation
of disease processes, drug development and the efficacy and toxicity of therapeutic regimens. Course requirements and research opportunities for graduate students enrolled in the program provide both experimental (basic) and disease-focused experiences that complement the graduate's research focus.

Course Requirements

A minimum of 60 units is required. At least 26 of the 60 units are to be formal graduate course work at the 500- level or above, exclusive of seminars and directed research. Students must complete 14 units of course work before they are eligible for the screening procedure. Additional course work relevant to the research interests of the student may be required by the student's advisers or the student's qualifying exam committee, with an emphasis on cross-training and taking into account the amount and level of previous scientific preparation and the nature of the research dissertation that will be the major endpoint of the program. Specifically, recommended course work differs between students who have an advanced professional degree (Track I) and those who do not (Track II). A maximum of 12 units may be transferred from graduate studies elsewhere.

In the first year, all students (Tracks I and II) are recommended to take 14 units of course work in translational medicine (RSCI 530, 2 units), research design (CXPT 609, 4 units), biostatistics (PM 510, 4 units), and clinical trial design (MPTX 517, 4 units). In the second year, Track I students will take the remaining 12 units of course work as electives based on the background of the student and the proposed research focus of the student. Track II students who do not have an advanced professional degree are recommended to select from the following courses as part of their electives: systems physiology and disease (INTD 572 and INTD 573, 4 units each) or pathology (INTD 550, INTD 551, 4 units each). Other electives that can be chosen are INTD 531, INTD 561, PM 533, PM 538, PM 570 and PSCI 665. The remaining 34 of the 60 units required for the PhD degree may be fulfilled with other courses including ethics, interdisciplinary seminar, directed research and dissertation. Note that to become eligible to take the qualifying exam, Track II students must fulfill the prescribed clinical experiences that match the disease-related topic of the student's thesis work as approved by the student's advisers and advisory committee. Students with a bachelor's degree in a health care subject area (e.g., nursing, pharmacy, medicine) will be evaluated on a case basis and may be required to meet the therapeutic course work or clinical experience component described above, as determined by their background and previous experiences.

Foreign Language Requirement

There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or a computer language if it is relevant for the student's area of research.

Qualifying Exam Committee

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of the qualifying exam committee composed of at least five members, one of whom must be from outside the department. Because of the centrality of research in the PhD program, the student is encouraged to get acquainted with the participating faculty mentors from the day they enter the program, and have selected a research direction, paired graduate advisers (clinical and basic scientists), and qualifying exam committee no later than the third semester of study. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

Screening Procedure

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student's progress to date in various areas including course work, research interests, and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination

Students will be required to pass a comprehensive written and oral examination on the chosen disease-focused area of research emphasis. The examination will encompass basic scientific concepts relevant to the disease under study and the laboratory techniques in that discipline, fundamental principles of clinical research and design, biostatistics, and therapeutics in the chosen disease-focused area of research. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a detailed written proposal and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student's advisory committee with oversight by the graduate affairs committee. All course and qualifying examination requirements for the Doctor of Philosophy must be completed within two-and-a-half years after admission. After passing these examinations, the student is admitted to candidacy for the PhD degree.

Dissertation

A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research must represent a significant contribution to science and should demonstrate the candidate's scholarly advancement and competence to undertake independent research. An oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee. (See Theses and Dissertations in the Graduate School section.)

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD degree, each student is required to participate in the teaching program of the School of Pharmacy.

Health Economics (PhD)

The Department of Pharmaceutical and Health Economics (in the School of Pharmacy) offers a program of study leading to the PhD degree in Health Economics. The program focuses on microeconomics; econometrics; health economics and policy; public finance; pharmaceutical economics and policy. The program offers one track in microeconomics and a second track in pharmaceutical economics and policy.

Microeconomics Track

Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.

Satisfactory completion of the economic theory sequence with a grade point average of B or higher. At least one of the econometrics courses must be completed with a grade of B or higher. The courses recommended for fulfilling the requirements for the Microeconomics Track are:

- GSBA 602 Selected Issues in Economic Theory I Units: 3
- PMEP 509 Research Design Units: 4
- ECON 636 Health Economics I Units: 4
- ECON 693 Seminar in Applied Economics and Public Policy Units: 2
- GSBA 612 Selected Issues in Economic Theory II Units: 3
- PMEP 525 Pharmacoconomics I Units: 4
- PMEP 526 Pharmacoconomics II Units: 2
• PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
• PMEP 544 Health Economics II Units: 4
• PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
• PMEP 551 Introduction to Health Econometrics Units: 4
• PMEP 552 Advanced Health Econometrics I Units: 4
• PMEP 553 Advanced Health Econometrics II Units: 4
• PMEP 698 Seminar in Pharmaceutical Economics and Policy Units: 1

Additional Requirements

Students in the microeconomics track will complete the microeconomic theory and econometric sequence and course work in health economics. They will receive focused training and mentoring in health economics through collaboration on research projects.

Foreign Language Requirement

There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence can be demonstrated either by course work or examination.

Grade Point Average

A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

Unit Requirements

The PhD in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

Screening Procedure

The student's progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended coursework for each track.

Qualifying Exam

Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the PhD degree.

The student will select a member of the graduate faculty who will serve as his or her adviser and chair of the student's qualifying exam committee. The student should consult the director of Graduate Studies for the Health Economics program on the selection of his or her adviser and chair of the PhD qualifying exam committee after taking the written screening examinations. The chairman of the student's PhD qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have appointments in the student's program. Faculty eligible to serve as committee chairs and members include tenured, tenure-track, and research faculty, teaching faculty, practitioner faculty or clinical faculty (RTPC) faculty. The committee chair and at least three members must be research active in a field relevant to the research thesis and one member of the committee must be tenured or tenure track; and the committee membership requires approval by the dean of the school. Visiting faculty may not serve on qualifying exam committees. The vice provost for graduate programs is an ex officio member of all qualifying exam committees.

The composition of all PhD qualifying exam committees must be approved by the director of Graduate Studies for the Health Economics program. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

Dissertation Proposal Preparation

The student is required to register for two units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student's guidance committee directs this work. The resulting essay becomes part of the student's written dissertation proposal which constitutes the written portion of the qualifying exam. This proposal is presented and critiqued during the oral portion of the qualifying examination.

Dissertation

After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794a, PMEP 794b, PMEP 794c, PMEP 794d, or PMEP 794e each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD, all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

Seminar Requirements

Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from ECON 693, PMEP 698 or the equivalent. At least one of these seminars must be related to the student's major field, and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student's dissertation.

Three electives at the 500 level or higher from the School of Pharmacy's Health Economics Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

Pharmaceutical Economics and Policy Track

Students in the pharmaceutical economics and policy track will specialize in areas such as cost-effectiveness, comparative effectiveness, drug therapy outcomes and organization of pharmaceutical markets. They will receive focused training and mentoring in pharmaceutical economics and policy through collaboration on research projects.

Satisfactory completion of the pharmaceutical economics and policy sequence with an average grade of B or higher

• ECON 636 Health Economics I Units: 4
• GSBA 602 Selected Issues in Economic Theory I Units: 3
• PMEP 509 Research Design Units: 4
• PMEP 525 Pharmacoeconomics I Units: 4
• PMEP 526 Pharmacoeconomics II Units: 2
• PMEP 527 Pharmacoeconomics III Units: 4
• PMEP 535 Behavioral Science and Policy in Healthcare Units: 4
• PMEP 539 Economic Assessment of Medical Care Units: 4
• PMEP 547 Programming Methods for Empirical Analysis of Health Data Units: 4
• PMEP 551 Introduction to Health Econometrics Units: 4
• PMEP 552 Advanced Health Econometrics I Units: 4
• PMEP 553 Advanced Health Econometrics II Units: 4
• PMEP 698 Seminar in Pharmaceutical Economics and Policy Units: 1

Additional Requirements
Foreign Language Requirement
There is no formal foreign language requirement. However, competence in the use of one computer programming language is required for the graduate degree. Such competence can be demonstrated either by course work or examination.

Grade Point Average
A grade point average (GPA) of at least 3.0 and typically considerably higher (on a scale of 4.0) must have been achieved on all graduate work at USC for the passing of the screening procedure. The Graduate School requires a minimum GPA of 3.0 on all course work taken as a graduate student at USC.

Unit Requirements
The PhD in Health Economics requires a minimum of 64 units of graduate-level courses numbered 500 or higher (excluding 794) and a minimum of 4 units of 794. A maximum of two full courses (eight units) or their equivalent may be PMEP 790 (research) since directed research will generally be incorporated into most 500- and 600-level courses. Exceptions will be considered on an individual basis. Normally, a full-time graduate student course load is three full courses or their equivalent per semester, with a four-course maximum. Students may transfer and substitute up to 24 units of graduate course work from other universities to fulfill the required 64 units of graduate credit subject to the approval of the department.

Screening Procedure
The student's progress will be reviewed after each semester and before registration for any additional course work to determine if progress has been satisfactory. The screening procedure will include satisfactory performance on written screening exams covering the major topics covered in the recommended coursework for each track.

Qualifying Exam
Upon successful completion of the first two years of course and grade requirements, and following passing of required screening procedures, the student takes a general written and oral examination on the chosen area of research emphasis after presenting a detailed written dissertation proposal. After passing these examinations, the student is admitted to candidacy for the PhD degree.

The student will select a member of the graduate faculty who will serve as his or her adviser and chair of the student's qualifying exam committee. The student should consult the director of Graduate Studies for the Health Economics program on the selection of his or her adviser and chair of the PhD qualifying exam committee after taking the written screening examinations. The chairman of the student's PhD qualifying exam committee advises the student on matters of curriculum and graduate opportunities. The qualifying exam committee is composed of five members. The committee chair and at least two additional members must have appointments in the student's program. Faculty eligible to serve as committee chairs and members include tenured, tenure-track, and research faculty, teaching faculty, practitioner faculty or clinical faculty (RTPC) faculty. The committee chair and at least three members must be research active in a field relevant to the research thesis and one member of the committee must be tenured or tenure track; and the committee membership requires approval by the dean of the school. Visiting faculty may not serve on qualifying exam committees. The vice provost for graduate programs is an ex officio member of all qualifying exam committees.

The composition of all PhD qualifying exam committees must be approved by the director of Graduate Studies for the Health Economics program. The student must form his or her qualifying exam committee soon after passing the departmental screening procedure.

Dissertation Proposal Preparation
The student is required to register for 2 units of PMEP 790 and write a research paper on a topic suitable for a dissertation. Typically, the chair of the student's guidance committee directs this work. The resulting essay becomes part of the student's written dissertation proposal, which constitutes the written portion of the qualifying exam. This proposal is presented and critiqued during the oral portion of the qualifying examination.

Dissertation
After admission to candidacy, the student forms a dissertation committee comprising three faculty members, one of whom can be from an outside department. The chair of this committee is the dissertation supervisor. The student must register for PMEP 794a, PMEP 794b, PMEP 794c, PMEP 794d, or PMEP 794z each semester, excluding summer sessions, until the dissertation and all other degree requirements are completed.

The student is expected to complete a dissertation based on an original investigation. The dissertation must represent a significant contribution to knowledge and must be defended in an oral examination administered by the dissertation committee (see the section on Theses and Dissertations).

Student Teaching
Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD, all students are required to undergo training as an educator. This will include participating in seminars on educational techniques and hands-on teaching experiences through participation in didactic and small group teaching in the School of Pharmacy or the USC Price School of Public Policy.

Seminar Requirements
Every student is recommended to take and satisfactorily complete 4 units of research seminars chosen from PMEP 698 or the equivalent. At least one of these seminars must be related to the student's major field and the same seminar may be taken more than once. Before completing the dissertation, it is recommended that the student present at least one original research paper in a seminar of his or her choice. This paper should typically consist of original results contained in the student's dissertation.

A minimum of three electives at the 500 level or higher from the School of Pharmacy's Pharmaceutical Economics and Policy Program and from the departments of economics, mathematical statistics, biometry, epidemiology, public administration, computer science or other relevant fields are required.

List of Electives
• ECON 401 Mathematical Methods in Economics Units: 4
• ECON 415 Behavioral Economics Units: 4
• ECON 419 Advanced Econometrics Units: 4
• ECON 500 Microeconomic Analysis and Policy Units: 4
• ECON 513 Practice of Econometrics Units: 4
• ECON 601 Microeconomic Theory I Units: 4
• ECON 603 Microeconomic Theory II Units: 4
• ECON 604 Game Theory Units: 4
• ECON 611 Probability and Statistics for Economists Units: 4
• ECON 615 Applied Econometrics Units: 4
• ECON 688 Empirical Industrial Organization Units: 4
• GSBA 612 Selected Issues in Economic Theory II Units: 3
• HCDA 506 Foundations of Insurance and Global Access Units: 3
• HCDA 507 Foundations of Product Development and Commercialization Units: 3
• MEDS 500 Basic Concepts in Global Health Units: 4
• PM 510L Principles of Biostatistics Units: 4
• PM 511aL Data Analysis Units: 4
• PM 511bL Data Analysis Units: 4
• PM 511cL Data Analysis Units: 4
• PM 512 Principles of Epidemiology Units: 4
• PM 523 Design of Clinical Studies Units: 3
• PM 536 Program Evaluation and Research Units: 4
• PM 552 Statistical Methods in Clinical Trials Units: 3, 2 years
• PM 560 Statistical Programming With R Units: 2
• PSYC 426 Motivated Behaviors and Addiction Units: 4
Molecular Pharmacology and Toxicology (PhD)

This program emphasizes basic as well as applied research in various aspects of drug discovery and molecular and behavioral mechanisms of action. Research opportunities span investigations of fundamental molecular and cellular physiological mechanisms, including receptor activity, intracellular signaling and the regulation of gene expression, to the molecular bases of disease and aging, including avenues of pharmacological intervention.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

Foreign Language Requirement

There is no formal language requirement. However, an individual qualifying exam committee can require competency in a foreign language or a computer language if it is relevant for the student's area of research.

Qualifying Exam Committee

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of a qualifying exam committee composed of at least five members, one of whom must be from outside the department. The student should select a graduate adviser and qualifying exam committee no later than the third semester in residence. The graduate affairs committee will serve as the qualifying exam committee until one is selected.

Screening Procedure

The performance of each student will be evaluated no later than the end of the second semester of enrollment in the graduate program. This screening procedure is conducted by the student's qualifying exam committee or, if a student has not yet selected a qualifying exam committee, by the graduate affairs committee. The committee reviews the student's progress to date in various areas including course work, research interests and laboratory performance on his or her research project or laboratory rotations. If a performance deficiency is determined, specific goals will be established that the student must fulfill to continue in the program. Passing this screening procedure is prerequisite to continuation in the PhD program.

Qualifying Examination

Students will be required to pass a comprehensive qualifying examination in major areas of molecular pharmacology, including fundamental principals of molecular and cellular biology. The examination is administered by the qualifying exam committee and consists of two parts: a written examination administered to all students at the end of their second year of study and a written proposal outlining the dissertation goals, and its oral presentation and defense by the student to the qualifying exam committee. The examination process is conducted by the student's advisory committee with oversight by the graduate affairs committee. The qualifying examination must be completed within three years after admission, unless an extension is obtained from the qualifying exam committee.

Annual Research Appraisal (ARA)

Beginning in the third year, each graduate student will meet with the qualifying exam committee and present a progress report on his or her research. Prior to the meeting the student will present a short written document describing significant experiments during the past year, problems and projected studies. This document is distributed to the committee members and is included in the student's file. The oral ARA meeting is intended to be a working session between the student and the qualifying exam committee. Experimental results and problems are discussed in this context, as well as a research plan for the next year of work. A satisfactory ARA is required for each year in the graduate program.

Dissertation

A dissertation based on original investigation in a relevant scientific area is required for the PhD. The dissertation research should demonstrate the student's ability to undertake independent research through planning, conducting and evaluating experiments. The dissertation research must represent a significant contribution to knowledge. A public oral defense of the dissertation will be held after the candidate submits the final draft of the dissertation to the dissertation committee, and it is approved by the graduate adviser and dissertation committee. For additional details, see Theses and Dissertations.

Student Teaching

Teaching experience is considered an integral part of the training of graduate students. As part of the general requirements for the PhD degree, each student is required to participate in the teaching program of the School of Pharmacy.

Pharmaceutical Economics and Policy (PhD)

Application deadline: December 1

The Department of Economics and the Department of Pharmaceutical Economics and Policy (USC School of Pharmacy) jointly offer a program of study leading to the PhD degree and to the MA degree in the process of work toward the PhD degree.

Required courses include both core requirements and area requirements. Core requirements include courses in economic theory, econometrics, and research methods. Area requirements include courses in health economics, pharmaceutical economics, welfare theory and applied econometrics.

For a detailed description of this program, see the School of Pharmacy section of this catalogue.

Pharmaceutical Sciences (PhD)

This program emphasizes basic as well as applied research in drug discovery and targeting, utilizing medicinal chemistry, computational chemistry, pharmaceutics, pharmacodynamics, molecular pharmacology, immunology and cell biology.

A minimum of 60 units is required for the Doctor of Philosophy degree. At least 24 units of course work are required at the 500-level or above, exclusive of seminar and directed research. The Doctor of Philosophy candidate must select a minimum of 12 units from courses offered in the Department of Pharmacology and Pharmaceutical Sciences (PPSI), eight of which must be selected from the core 4-unit courses. The remainder of the 24 units may be taken from PPSI courses or from courses offered in other departments that are approved by the PPSI graduate affairs committee. The qualifying exam committee may require more than 24 units of course work. A maximum of 12 units can be transferred from graduate studies elsewhere.

Foreign Language Requirement

There is no formal foreign language requirement. However, an individual qualifying exam committee can require competency in a foreign language or some other research tool such as computer language, if this is relevant for the student's area of research.

Qualifying Exam Committee

Upon admission, the student will be assigned to a member of the graduate faculty who will serve as his or her temporary adviser until a permanent adviser has been identified. The student's program of study will be under the direction of a qualifying exam committee composed of at least five members, one of whom must be from outside the department granting the degree. The student should select
a graduate adviser and qualifying exam committee no later than the
third semester in residence.

Screening Procedure
The performance of each student will be evaluated no later
than the end of the second semester of enrollment in the graduate
program. This screening procedure is conducted by the student’s
qualifying exam committee or, if a student has not selected his
or her research adviser at that time, by the Graduate Review
Committee of the department. The committee reviews thoroughly
the student's progress up to that point in various areas including
course work, research interests and laboratory performance on his
or her research project or laboratory rotations. If a performance
deficiency is detected at that point by the committee, the student will
be recommended to either take additional course work or transfer
to the Master of Science program. Passing this screening procedure is
prerequisite to continuation in the PhD program.

Qualifying Examination
Students will be required to pass a comprehensive qualifying
examination in major areas of the pharmaceutical sciences. The
examination is administered by the qualifying exam committee and
consists of two parts: a written examination and a written proposition
outlining a research project, followed by an oral examination
based on the proposition and questions dealing with the written
examination. All course and qualifying examination requirements for
the Doctor of Philosophy must be completed within two and one half
years after admission.

Dissertation
A dissertation based on original investigation is required.
The research should make a contribution to science and should
demonstrate the candidate's scholarly advancement and competence
to undertake independent research. An oral defense of the
dissertation will be held after the candidate submits the final draft
of the dissertation to the dissertation committee (see Theses and
Dissertations).

Student Teaching
Teaching experience is considered an integral part of the training
of graduate students. Thus, as part of the general requirements for the
PhD, each student is required to participate in the teaching program
of the School of Pharmacy.

Pharmacy (PharmD)
The USC School of Pharmacy offers a full-time, four-year
course of study leading to the Doctor of Pharmacy (PharmD). An
undergraduate BA or BS degree is required for admission to the
program. A description of the curriculum is listed in the following
pages. The degree will be conferred only upon successful completion
of all Doctor of Pharmacy degree requirements. The USC School
of Pharmacy Doctor of Pharmacy program is accredited by the
Accreditation Council for Pharmacy Education, which is the sole
agency providing accreditation for professional degree programs in
pharmacy.

Application Procedure
The School of Pharmacy requires applicants to complete both
the Pharmacy College Application Service (PharmCAS) and
a supplemental application for admission. The supplemental
application is available at pharmacy.school.usc.edu.

Both the PharmCAS and the supplemental applications deadlines
are November 1. Applicants are encouraged to follow the instructions
carefully for both the PharmCAS and supplemental applications.
Applications will not be reviewed until both applications have
been received by the Office of Admission and Student Affairs. An
interview is required for admission. Only applicants with complete
application files are evaluated for an interview and only highly
qualified applicants will be granted interviews. Not all applicants
will be invited for an interview. Applicants are encouraged to apply
well before the November 1 deadline to allow time for file review.

All documents mailed directly to the School of Pharmacy and
received from PharmCAS by the Office of Admission become the
property of the university and cannot be returned or duplicated for
other than USC's purposes.

Admission Guidelines
The Admission Committee considers several factors in making
admissions decisions including: previous academic performance; the
interview including a writing component; letters of recommendation;
and other components of the completed application. The committee
also considers a candidate's motivation to pursue pharmacy,
interpersonal skills, oral and written communication skills, and
leadership abilities. While the School of Pharmacy gives equal
consideration to every qualified applicant, the school cannot
accommodate all qualified candidates who apply for admission.

Entrance Requirements
Admission to the School of Pharmacy requires completion of a
baccalaureate degree; completion of the specified prerequisite
college courses, with a grade of C or better; and a minimum 3.0
(A = 4.0) grade point average, both in the prerequisite courses and
cumulative grade point average.

Pre-pharmacy Requirements*

*Courses for science majors are required to meet the
Pre-Pharmacy Requirements

To be eligible for admission to the School of Pharmacy, applicants
must take required prerequisite college courses, including general
biology (one-year course with laboratory, excluding human anatomy
and physiology), general chemistry (one-year course with laboratory,
including inorganic and qualitative analysis), organic chemistry
(one-year course with laboratory), microbiology (one course upper
division), biochemistry (one course upper division), microeconomics,
statistics (one course), genetics (one course), and human physiology
(one course for science majors). The science requirements should be completed
at an accredited four-year university.

Pre-requisite courses are subject to change, and applicants
are encouraged to check with the school prior to submitting an
application.

Recommended Courses:
Upper-division molecular biology, physics (thermodynamics
and electromagnetism), microeconomics, statistics (non-business),
human behavior in either general psychology, introductory sociology,
or cultural anthropology

Grades of pass/no pass or credit/no credit will not be accepted
(unless a course is only offered on a pass/no pass basis). Online
courses are not accepted for science courses with a laboratory
requirement.

Mathematics and Sciences
Courses must include calculus, general biology, microbiology,
human physiology, general chemistry, biochemistry, and organic
chemistry. Only courses for science majors are acceptable. It is
highly recommended that math and science courses be completed
during the regular academic year and not during a summer term.

Advanced Placement and International
Baccalaureate Examinations

Applicants may use AP and IB courses to meet certain USC
School of Pharmacy prerequisites with the following provisos. AP
results are acceptable only with scores of 4 or 5. Results for IB
courses are acceptable with a score of 5. Credit for AP or IB courses
is limited to a maximum of two courses (total). In addition, the AP
or IB courses taken may be applied to a maximum of one semester/
one quarter of general chemistry or general biology; they may not be
used to satisfy the laboratory requirement. Note: AP/IB courses used
to meet prerequisites will be for course credit only (i.e., they will not
count toward the GPA). The Admission Committee recommends that
applicants enroll in all of the required pre-pharmacy courses. Please
contact the School of Pharmacy Office of Admission for specific
information.
Entrance Examination
An interview is required for admission.

Special Admission Program for Entering Freshmen
The Trojan Admission Prepharmacy (TAP) program provides priority consideration for admission to the USC School of Pharmacy's four-year Doctor of Pharmacy (PharmD) program for USC undergraduates who are accepted to the program. The TAP program is designed to attract highly qualified, mature high school seniors applying to USC. Students accepted into the TAP program apply to the Doctor of Pharmacy program during their final year of undergraduate education. Students must meet all regular admission criteria to the School of Pharmacy, including a BA/BS degree from USC, specific academic performance standards (GPA) and complete an interview. Students in the TAP program are required to complete all prerequisite courses at USC and meet regularly with a TAP program advisor. A specific listing of USC courses and a recommended program for TAP participants may be obtained from the School of Pharmacy Office of Admission or online at pharmacy.school.usc.edu/programs/pre/tap.

PharmD Curriculum Requirements
The completion of the four-year professional curriculum is required for the Doctor of Pharmacy (PharmD) degree. The PharmD curriculum is a “block” program, meaning all students enroll for specified courses each semester and progress as a “class” through the curriculum. Students do not have a choice in the course sequence and must remain full-time students throughout the program.

Students have a limited number of elective course choices and a list of electives offered is available to students prior to registration each semester. Student progress is permitted only when the prior semester has been successfully completed. Students should view the curriculum outlined here as advisory only and subject to modification. A minimum of 135 units is required for graduation.

Students enrolled in the Doctor of Pharmacy program are required to hold an Intern Pharmacist license in good standing (clear of restrictions) issued by the California Board of Pharmacy as an intern pharmacist for the entire length of the program. Licensure is required because completion of the pharmacy program requires placement in health care settings for experiential learning during each academic year. The School of Pharmacy has developed technical standards to inform students of the non-academic requirements of the program. Placement in health care settings requires the applicants pass criminal background screening and/or drug screening tests.

The curriculum committee of the School of Pharmacy has developed guidelines and patient care competencies consistent with interpretations of this new role. An appropriate and dynamic educational program is needed to develop these competencies.

The curriculum committee of the School of Pharmacy has developed guidelines and patient care competencies consistent with interpretations of this new role. An appropriate and dynamic educational program is needed to develop these competencies.

Core Curriculum
Foundational courses in biomedical, pharmaceutical, social administrative and clinical sciences comprise the first three years of the program. A PharmD Scholarly Project must also be completed by the end of the third year of the program.

Students must complete Introductory Pharmacy Practice Experiences (IPPEs) throughout their first three years in the program. Students may begin Advanced Pharmacy Practice Experiences (APPEs) as early as late March or early April of the third year through the fourth year of the program.

Year I (P1) Curriculum
- PHRD 501 Pharmacy Practice 1 Units: 3

Fall
- PHRD 503 Biological Systems I Units: 4
- PHRD 511 Pharmacy Practice and Professionalism 1 Units: 5
- PHRD 515 Metabolism and Cell Biology Units: 2
- PHRD 517 Pharmacogenetics Units: 2
- PHRD 521 Medicinal Chemistry Units: 2

Spring
- PHRD 502 Pharmaceutics II Units: 2
- PHRD 504 Biological Systems II Units: 4
- PHRD 512 Pharmacy Practice and Professionalism 2 Units: 3
- PHRD 514 Calculations and Compounding Units: 2
- PHRD 516 Non-Prescription Therapies Units: 3
- PHRD 520 Pharmacists’ Patient Care Process Units: 1
- PHRD 552 Pharmaceutics III Units: 3

Year II (P2) Curriculum
- PHRD 508 Pharmacy Literature Analysis and Drug Information Units: 3

Fall
- PHRD 559 Therapeutics: Pharmacokinetics Units: 3
- PHRD 563 Case Conference 1 Units: 2
- PHRD 567 Pharmacy Law Units: 2
- PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders Units: 5

Spring
- PHRD 564 Case Conference 2 Units: 2
- PHRD 570 Therapeutics: Central Nervous System Units: 5
- PHRD 603 Therapeutics: Endocrine System Units: 5

Pharmacy Practice Experiences
Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2

Year III (P3) Curriculum
Fall
- PHRD 611 Therapeutics: Infectious Diseases Units: 5
- PHRD 619 Therapeutics: Cardiovascular System Units: 5
- PHRD 622 Case Conference 4 Units: 2
- PHRD 634 Scholarly Project 1 Units: 1
- Electives: 0-3 units

Spring
- PHRD 608 Therapeutics: Oncology Units: 2
- PHRD 610 Therapeutics: Special Populations Units: 3
- PHRD 623 Case Conference 5 Units: 1
- PHRD 633 Pharmacy Management and Economics Units: 2
- PHRD 635 Scholarly Project 2 Units: 1
- PHRD 650 APPE Gateway Units: 2
- Electives: 0-9 units

Pharmacy Practice Experiences
Must complete all three courses between P2 and P3 year
- PHRD 624 Community Pharmacy Practice Units: 4
- PHRD 625 Hospital Pharmacy Practice Units: 3
- PHRD 626 Elective Pharmacy Practice Units: 2

Note:
*Elective courses: Students MUST complete a minimum of 3 units of elective courses for the degree. Students will be provided a list of courses approved each year.
**APPE courses are described below. Students may begin their APPEs in late March or early April of their P3 year and may extend to any of APPEs listed below.

Required APPE Courses
Students must complete all APPE courses below (24 units) and the Doctor of Pharmacy Capstone courses (0 units).
- PHRD 701 Acute Care Clinical APPE Units: 6

Electives: 0-3 units

Day 1: Prepare for interview.
Day 2: Prepare for interview.
Day 3: Prepare for interview.
Day 4: Prepare for interview.
Day 5: Prepare for interview.
Day 6: Prepare for interview.
Day 7: Prepare for interview.
Elective APPE Course
Students must complete 12 units from the list below.
- PHRD 714 Nuclear Pharmacy APPE Units: 6
- PHRD 725 International Pharmacy Practice Experience Units: 3, 6
- PHRD 731 Advanced Geriatrics APPE Units: 6
- PHRD 738 Pharmaceutical Industry APPE Units: 6
- PHRD 750 Advanced Pharmacy Practice Elective (APPE) Units: 6
- PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE) Units: 6

Degree Requirements
All students in the Doctor of Pharmacy degree program must meet course requirements, grade point average requirements, licensure requirements, competency assessment requirements (PCOA) and program residency requirements.

All course requirements must be completed with a grade of "C" or better for letter graded courses and a grade of Credit (defined as B quality work or better) in non-letter graded courses.

Grade point average requirements: Students must have a cumulative grade point average of 2.5 in the Doctor of Pharmacy curriculum to meet graduation requirements.

Licensure requirements: All students must obtain and maintain a license in good standing (clear of restrictions) as an Intern Pharmacist issued by the California State Board of Pharmacy at all times during the program.

Competency assessment requirements: Students are required to take and demonstrate satisfactory performance on the national PCOA Exam (Pharmacy Curriculum Outcomes Assessment). The PCOA exam is administered by the NABP (National Association of Boards of Pharmacy) and is required by ACPE (Accreditation Council for Pharmacy Education) for a Doctor of Pharmacy degree.

Residency requirements: Students must complete all requirements for the degree within 6 years. The degree will not be conferred until the student has successfully completed all Doctor of Pharmacy degree requirements. Students are subject to the degree requirements in the USC Catalogue current for the semester of their admission into the Doctor of Pharmacy program unless progression is delayed.

Registration
Details of the School of Pharmacy registration procedures will be included in the orientation program prior to the first week of classes.

Cancellation of Registration
During the didactic portion of the Doctor of Pharmacy program (P1, P2 and P3 years), a student may only withdraw from the entire block of courses enrolled in a semester and may not selectively withdraw from a single course or group of courses. During the APPE portion of the curriculum, students may not withdraw from an APPE after the completion of the fourth week of a six-week course and must contact the School of Pharmacy Office of Admission and Student Affairs. Procedures for readmission into the program or makeup of incomplete courses are included in the school's academic policies and procedures handbook.

Regulatory Science (DRSc)
The Doctor of Regulatory Science program cultivates research, leadership and inquiry skills for advanced students in the emerging profession of global regulatory science. It is designed to produce graduates with expertise in strategic management, policy development and research assessment who can play leadership roles in the public sector, academia and the medical products industry.

Participants in this program will take a set of interdependent courses that extend from a strong core of basic regulatory science course work and additionally focus on three main areas — global product strategy, product lifecycle strategy, and project and personnel management. After students have completed foundational course work, they will participate as a cohort that typically has a two-year cycle of classes and an additional year of dissertation research. The program has been designed to meet the needs of individuals who are already working full-time outside of the university. The doctoral degree will be administered by the School of Pharmacy.

Admission
The program is designed for individuals with strong professional experience and demonstrated intellectual and leadership capabilities. Applicants are expected to have a GPA of 3.0 on university-level course work and five or more years of professional experience.

Admission requirements include university transcripts, a resume, at least three letters of reference, and a one-page personal statement that outlines the background and goals of the applicant. Students are encouraged even at this early stage to identify areas in which they are interested in conducting research. Additional requirements for international students are outlined by university regulations under Admission of International Students. Students are not required to provide GRE scores unless indicated by the program director.

Students with an appropriate graduate or professional degree may use some previous graduate courses as transfer units toward the overall credit requirements of the Doctor of Regulatory Science program with the approval of the program director and under the normal rules of the university. Students who have graduated from the MS program in Regulatory Science can apply all of the previously taken course work toward the doctoral degree. Students with graduate degrees from outside of the regulatory science program are required to take a minimum of 32 units of course work and 4 units of dissertation research to complete the requirements for graduation.

The course work requirements will be determined on an individual basis in consultation with the program director and participant's advisers.

Curriculum Requirements
The Doctor of Regulatory Science is administered by the School of Pharmacy. It requires participants to complete 64 units that include the following elements:

Requirements
- Foundation courses 15 Units
- Product lifecycle strategy 8 Units
- Global strategy 8 Units
- Project/personnel management 8 Units
- Research methods 4 Units
- Dissertation 4 Units

Additional Requirements
Additional elective course work will be selected in consultation with the program advisers according to the areas of intended specialization of the participant in order to meet the credit requirements of the program. Typically foundational courses and some electives will be taken in the first two years of the program.

Advanced courses in product lifecycle strategy, global strategy and project/personnel management will normally be taken by the doctoral cohort of students during the third and fourth years of the program. Dissertation planning and research will typically commence in the third year of the program, and extend until the successful completion of the dissertation.

Foundation Courses
Fifteen or more units of foundation courses may be taken as part of the master's program in regulatory science, or with prior approval, from another graduate program with similar objectives. Required foundational courses normally include: MPTX 511 Introduction to Medical Product Regulation; two from MPTX 512 Regulation of Pharmaceutical and Biological Products, MPTX 513 Regulation of Medical Devices and Diagnostics, MPTX 514 Regulation of Food and Dietary Supplements; MPTX 515 Quality Systems and Standards, MPTX 516 Medical Products and the Law; MPTX 517 Structure and Management of Clinical Trials. Other courses may be
substituted after the participant’s background preparation has been considered.

Product Lifecycle Strategy
Eight or more units of course work related to product lifecycle management, from discovery to commercialization, will be drawn from a broad list of courses offered in regulatory science or through the Titus Family Department of Clinical Pharmacy and Pharmaceutical Economics and Policy. Included in this list are: PMEP 538 Pharmaceutical Economics; PMEP 539 Economic Assessment of Medical Care; RSCI 601 Biomedical Commerce. Other courses may also be considered in consultation with the supervisors and program director. Students are also encouraged to take courses outside the School of Pharmacy when more specialized courses fit their professional research or development plans.

Global Regulatory Strategy and Policy
Eight or more units of course work related to global regulatory strategy could include some of the following courses: MPTX 519 Global Regulation of Medical Products; PPD 571 International Public Policy and Management Seminar; RSCI 604 Regulatory Strategy in Asia; RSCI 608 Regulatory Strategy in Europe and the Americas.

Project and Personnel Management
Eight or more units of relevant course work should typically include: MPTX 602 Science, Research and Ethics; RSCI 603 Managing Complex Projects; RSCI 605 Managing Organizations and Human Resources. Graduate courses in other university departments or schools can be substituted with the approval of the program director.

Research Methods
Participants will typically take PMEP 509 Research Design or MPTX 522 Introduction to Clinical Trial Design and Statistics.

Student Progress and Assessments
In the third year, students are expected to identify a pair of advisers including one USC faculty member and one adviser from industry or the private sector. Students are typically placed in study groups of three or four whose dissertation interests are most similar and whose collective supervisors will oversee their academic and research progress. This committee will form the dissertation committee.

At the completion of the foundational course work, students will undergo a competency review that will include considerations of academic progress. Students are expected to maintain a GPA of 3.0 and will be required to pass a written examination designed to assure the professional competence of the student prior to advancing further in the program. Students who do not pass this preliminary review, administered prior to entering the dissertation and advanced course work phase of the program, will be notified of dismissal from the program in writing by the associate dean for graduate studies in the School of Pharmacy.

Doctoral Dissertation
Students must enroll in RSCI 794a, RSCI 794b, RSCI 794c, RSCI 794d, RSCI 794z for at least two terms, during which time they will develop a dissertation proposal and conduct the necessary research and analysis in collaboration with the supervisory team. The dissertation committee will approve the thesis plan and monitor its progress. Each student will be required to produce and defend an independent dissertation as a requirement for graduation. A maximum of 6 dissertation units can be applied to satisfy the degree requirement, but students should register for the dissertation units in each term subsequent to the completion of their course work requirements. Institutional Review Board approval is required for all human studies.
USC Price School of Public Policy

The USC Price School of Public Policy provides a dynamic learning environment where interdisciplinary education abounds. At USC Price, students choose a program of study from the independent yet related fields of public administration and leadership, public policy, nonprofits and philanthropy, health management and policy, urban planning, real estate development and executive leadership. Students are supported by a committed faculty who contribute to the strong sense of community present in the school. The school's mission is to improve the quality of life for people and their communities. Faculty engage in solving some of society's most pressing issues — and challenge students to do the same. USC Price is renowned for its expertise in areas such as: sustainability and the environment, health care policy, nonprofit management, housing and real estate, transportation, infrastructure, urban development and land use, social policy, governance, civic engagement, community development, immigration and risk analysis, among others.

Defining characteristics of USC Price are the depth of its academic classroom experience and connecting classroom theory to professional practice through practicums, internships and laboratory work locally, nationally and around the globe. Students can also participate in international exchange programs and acquire knowledge and skills necessary to become successful leaders in a global market. Students graduate with the knowledge, skills and experiences to lead in their chosen field of practice.

Today's complex challenges call for leaders who are able to work across disciplines and across the public, private and nonprofit sectors to find solutions. It is for this multidisciplinary reality that USC Price prepares its students.

USC Price students go on to hold high-ranking appointments in our nation's capital, analyze and determine public policy, design new transportation systems, and redesign city, county, state and federal governance structures — in the United States and abroad.

Emery Evans Olson Chair in Nonprofit Entrepreneurship & Public Policy: James M. Ferris, PhD
Quintiles Chair in Pharmaceutical and Regulatory Innovation: Darius Lakdawalla, PhD (Pharmacy)
Leonard D. Schaeffer Director's Chair of the USC Leonard D. Schaeffer Center for Health Policy and Economics; Distinguished Professor: Dana Goldman, PhD*
Borstein Family Endowed Professor of Real Estate: Christian L. Redfearn, PhD
Maria B. Crutcher Professor of Citizenship and Democratic Values: Terry L. Cooper, PhD
Governor Downey Professor of State and Global Policy: Arnold Schwarzenegger
Frances R. and John J. Duggan Distinguished Professor of Public Administration: Shui Yan Tang, PhD*
Houston I. Flourny Professor in State Government: Lois Takahashi, PhD
William M. Keck Professor of Energy Resources: Donald Paul, PhD (Engineering and Earth Sciences)
Dr. Chester A. Newland Professor of Public Administration: Janet Vinzant Denhardt, DPA
Presidential Professor of Health Economics: Daniel McFadden, PhD
Judge Widney Professor: Leonard D. Schaeffer
Judge Widney Professor of Poetry and Public Culture: Dana Gioia, MA, MBA
Professors: Ali E. Abbas, PhD (Engineering); Antonio Bento, PhD; Marlon Boarnet, PhD; Raphael Bostic, PhD; Ann Crigler, PhD (Political Science); Howard Greenwald, PhD; Eric Heikkila, PhD; Dan Mazmanian, PhD; Martin Krieger, PhD; Jacquelyn McCroskey, PhD (Social Work); James Moore II, PhD (Engineering); Dowell Myers, PhD; Michael B. Nichol, PhD; Gary Painter, PhD; Manuel Pastor, PhD (Geography and American Studies and Ethnicity); Jane Pisano, PhD; Jon Yomoos, PhD (Gerontology); Alison D. Renteln, PhD* (Political Science); David Sloane, PhD; Neeraj Sood, PhD; Robert Suro (Journalism); Detlov von Winterfeldt, PhD (Engineering)
Associate Professors: Nicole Esperanza, PhD; Christian Grose, PhD (Political Science); Geoffrey Joyce, PhD (Pharmacy); Annette Kim, PhD; Juliet Musso, PhD*; Christian Redfearn, PhD; Peter Robertson, PhD*; John Romley, PhD; Lisa Schweitzer, PhD; Jeffrey Sellers, PhD (Political Science); Kathleen Wilber, PhD (Gerontology); Julie M. Zissimopoulous, PhD
Assistant Professors: Emma Aguila, PhD; Alice Chen, PhD; Jorge De la Roca, PhD; Kathleen Doherty, PhD; Nicolas Duquette, PhD; Alexandra Gradly-Reed, PhD; Pamela McCann, PhD; Ianna Rezaee, PhD; William Resh, PhD; Abby Wood, PhD (Law)
Visiting Professor: Lois Takahashi, PhD
Professors (Teaching): LaVonna B. Lewis, PhD; Dora Vertenten, DPA
Associate Professors (Teaching): Elizabeth Falletta, MRED; Deborah J. Natoli, PhD
Assistant Professors (Teaching): Tara Blanc, PhD (nonresident); William Leach, PhD (nonresident); T.J. McCarthy, PhD; Jennifer Miller, PhD; Mark D. Phillips, PhD; Kelly Rawlings, PhD (nonresident); Michael Thom, PhD
Research Professor: Adam Rose, PhD
Research Associate Professors: Michael Cousineau, PhD (Medicine); Christopher Weare, PhD
Research Assistant Professors: Heather Rosoff, PhD; Erin Trish, PhD; Dan Wei, PhD
Distinguished Fellow: Stan Ross, Honorary JD
Professors of Practice: Phil Dalton, MS (Health Management and Policy); Carol J. Geffner, PhD (Governance, Management and Policy); Paul B. Ginsburg, PhD (Health Policy and Management); Michael E. Harris (Health Services Administration and Policy); Sherry Bemitch Jeffe, PhD (Public Policy Communication); Geraldine Knatz, PhD (Public Policy & Engineering); Leonard Mitchell, JD (Economic Development); Mark Pisano (Public Administration); Jeffrey Talley, PhD (Governance & Engineering);
Frank Zerunyan, JD (Governance)
Adjunct Professors: Janis Breidenbach, MA; Jonathan Brown, DPA; Robert Champion, MRED; Thomas Collins, EdD; Rick Culley, PhD; Patrick G. Hays, MHA; Lori Howard, PhD; Stanley Iezman, JD; Robert Ingemot, MA; Michael Keston, MBA; Allan Kotin, MA; Ehab Mouchly, MA; Tomson Ong, JD, PhD, LLM; James Osterling, MBA; Robert Smythe, BS; Erroll Southern, MPA; Donna Staal, DPA; Deborah Torres, MArch; Henry Zaretsky, PhD
Adjunct Associate Professors: Aggie Afarinesh, MPA; P.K. Agarwal, MS; Austin Anderson, MBA; Deepak Bahl, MBA, MPI; William Barcellona, MHA, JD; Bruce Baltin; Vinayak Bhanre, MArch; Sandipan Bhattacharjee, MPI; David Brown, JD; Grace Cheng, MSPH; Glenn Daley, MPhil, MBA; Terri Dickerhoff, MRED; Grace Dymness, DPDS, Ali Farahani, PhD; James Fawcett, PhD; Veronica Flores, MA; Matt Gainer, MPA; Richard Garcia, DPA; Guillermo Gil, MBA; Todd Gish, PhD; Shawn Godkin, MArch; Ray Gonzales, PhD; David Grunwald, JD, MPP; Richard A. Hagy, PhD; Ray Hahn, MHA; Mark Hanson, PhD; Daniel Haverty, DPA; Don Howe, MCP; Donald Hufford, MD; Daniel Inloes, MPA, MPI; Bryan Jackson, JD; Dion Jackson, MBA, MPI, MRED; Daniel Jordan, PhD, Rym Kaki, PhD; Steven Kellenberg, MAUD; William R. Kelly, MA, MBA, MA; Michael Kodama, MA; Kathy Kolnick, PhD; Alon Kraft, MPI; Jeffrey Kreshek, MBA, MRED; Vic-Nhuan Le, PhD; Richard Little, MS; Kenneth Long; John Loper, MRED; Melissa Lopez, PhD; Robert Manford, DPPD; Marcella Marlowe, PhD; Carl Meyer, MArch; Donald Morgan, PhD; Bret Nielsen, MRED; Mark E. Oliver, MRED; Ralph Oyaga, MBA, JD, P. Michael Paules, MPA; Katherine Perez, MURP; John Perfitt, MBA; John Raffoul, DPA; Maurice Rahimi, PhD; Ann Reyes Robbins, PhD, JD; Ellen Riley, MBA; Jeanne Ringel, PhD; Shlomi Ronen, MBA; Robert A. Saunders, MRED; Jeffrey Schaffer, MBA; Bonnie Shrewsbury, MA; Susan Sinclair, MBA; Krista Slonowski, MPI; Jeffrey Smith, PhD; Matthew Smith, MRED; Helene Smookler, PhD; Donald Spivack, MCP; Elwood Tescher, MArch; Halil Toros, PhD; Mark Velez, JD, PhD; Barry Waite, MPA; Jeffrey Wasserman, PhD; Dennis A. Watubaugh; Clyde Wesp, MD; Chris Wilson, MBA; Jack Wong, MA; Ke Ye, PhD; Diane Yoder, PhD
Frances R. and John J. Duggan Professor Emeritus in Public Administration: Chester A. Newland, PhD
Emeritus Professors: William C. Baer, PhD, AICP; Gerald Caiden, PhD; Robert M. Carter, DSc; T. Ross Clayton, PhD; Lois Friss, Dr.PH; David Lopez-Lee, PhD; Peter Gordon, PhD; Alan Kreditor, MCP, AICP; David Mars, PhD; Robert C. Myrtle, DPA; E.K. Nelson, DPA; William Petak, DPA; Francine Ravbinovitz, PhD, AICP; Warren Schmidt, PhD; Gilbert Siegel, PhD; Robert Stallings, PhD; Richard A. Sundein, PhD*; Robert E. Tranquada, MD; Joseph S. Wholey, PhD; William J. Williams, DPA
Emeritus Associate Professors: Wesley E. Bjur, PhD; Catherine Burke, PhD
*Recipient of university-wide or school teaching award.

Degrees Offered
The Price School of Public Policy offers the following degrees:

- Bachelor of Science in Public Policy
- Bachelor of Science in Real Estate Development
- Bachelor of Science in Urban Studies and Planning
- Master of Global Public Policy
- Master of Public Health Administration
- Master of Public Health Administration
- Master of Planning
- Master of Planning and Development Studies
- Master of Public Administration
- Master of Public Policy
- Master of Public Policy Data Sciences
- Master of Nonprofit Leadership and Management
- Master of Public Policy
- Master of Urban Development
- Doctor of Philosophy in Public Policy
- Doctor of Policy, Planning, and Development

The Bachelor of Science and the school's master's degrees are also offered jointly as a progressive five-year program and the school participates in the following interdisciplinary minors:

- Construction Planning and Management
- Health Policy and Management
- International Policy and Management
- Law and Public Policy
- Nonprofits, Philanthropy and Volunteerism
- Real Estate Development
- Urban Policy and Planning

The Master of Planning is offered as a dual master's degree with programs in architecture, curatorial practices and the public sphere, landscape architecture, business administration, economics, gerontology, public administration, public health, public policy, real estate development and social work.

The Master of Public Administration is offered as a dual master's degree with programs in planning, gerontology, Jewish nonprofit management, law and social work.

The Master of Real Estate Development is offered as a dual degree with the Master of Business Administration, Juris Doctor and Master of Planning.

The Master of Health Administration is offered as a dual degree with the Master of Science in Gerontology.

The Master of Public Policy is offered as a dual degree with programs in law and planning.

National Honor Societies
Pi Alpha Alpha
Pi Alpha Alpha is the national honor society for public affairs and administration. Graduate students in the Price School of Public Policy who have completed at least 18 semester units and have earned a 3.7 grade point average are eligible for membership.

Pi Sigma Alpha
Pi Sigma Alpha is the national honor society for students in public administration, political science and international relations. Students who have completed at least three courses from among these fields and have earned at least a 3.5 grade point average are eligible to apply.

Undergraduate Degrees
The Price School of Public Policy offers a suite of degrees that allow undergraduate students to gain the skills and knowledge necessary to understand complex health, environmental and urban issues, as well as to potentially enter the professional fields of health and nonprofit management, public policy, real estate development, and urban planning. Students may enroll in the Bachelor of Science in Public Policy, Bachelor of Science in Urban Studies and Planning or the Bachelor of Science in Real Estate Development. In addition, students can select from a challenging set of minors or possibly the very competitive progressive degrees associated with the Master of Health Administration, Master of Planning and Master of Public Administration.

Admission
Freshman and transfer students may indicate their desire to declare a Price School major on their university application. Students enrolled at USC wishing to declare either Price major or to be admitted into the minors must be in good academic standing. Interested current USC students should contact the Admissions and Recruitment Office in RGL 111 for more information.

Advisement
Students must discuss courses of study with the appropriate undergraduate advisers throughout their college enrollment and need to develop their own individual programs with faculty and staff advisers at the time of first enrollment and throughout their college careers.
Progressive Degrees in the Price School of Public Policy

The Price School of Public Policy offers students who have demonstrated exceptional academic success the opportunity to earn both bachelor's and master's degrees in a progressive degree program. This program allows students to earn both the Bachelor of Science and a master's degree in five years. Further details about progressive degrees can be found on the Requirements for Graduation page.

Admission

Admission is available after the completion of 64 units of course work toward the undergraduate degree. Students must apply for admission to the progressive degree program after completing 64 units of applicable course work to their undergraduate programs, but prior to the completion of 96 units of course work (not including AP, IB or courses taken prior to high school graduation). The application for admission to the progressive degree plan must be accompanied by a course proposal plan and two letters of recommendation with one at least from a Price School faculty member.

Awarding of Degrees

The Bachelor of Science and master's degree may be awarded separately upon completion of all degree requirements, but the master's degree will not be awarded before the bachelor's degree. Students who elect not to complete the master's, must complete 128 units to earn the bachelor's degree, including 32 units of upper-division Price course work (including any graduate Price classes).

Time Limits

All requirements for the progressive degree must be completed within 12 semesters. If not completed within that time, students will no longer be eligible for the master's degree but may still earn the bachelor's.

Transfer of Credits

Graduate courses will not be accepted for transfer credit. Undergraduate classes may be transferred in accordance with university guidelines.

Minor Programs

Minor in Construction Planning and Management

This program covers the most current theories and practice of construction planning and management. The program provides a valuable adjunct credential to professional school students pursuing careers in business administration, public administration, environmental studies, and other areas; and a unique opportunity for professional focus to students in the USC Dornsife College of Letters, Arts and Sciences.

Construction activities are complex. In contemporary society, effective planning and management of these activities requires specialized knowledge of the technical, economic and political environment. This program couples the knowledge of how construction activities are organized with a broader understanding of the urban system in which construction projects are embedded. With the exception of statistics, all of the required courses are within the Department of Civil Engineering and the Price School of Public Policy.

Any USC undergraduate who has completed the equivalent of two full-time semesters in good standing is eligible to pursue the minor program. This minor program is rigorous enough to serve as an introductory credential for students subsequently electing to pursue advanced studies in development, urban planning, construction management or allied fields.

See the Department of Civil Engineering for course requirements.

Minor in International Policy and Management

The minor in international policy and management brings together courses from the School of International Relations, dealing with the new global challenges, specific regions of the world, and international organizations and policies, and the Price School of Public Policy, dealing with core management skills and public policy processes. Students will examine the changes and challenges which are transforming the world, and the policy and management skills used to deal with them. To increase their understanding of the context and application of these concepts, students must complete a semester-long internship either in Washington, D.C. (through participation in the Washington, D.C. semester program) or in Los Angeles with an organization that has an international focus.

Students minor in international policy and management take three courses in international relations, including the gateway course, IR 305w Managing New Global Problems; three courses in public policy and management; and an approved internship through the School of International Relations (IR 491x Field Study). For additional course information, see International Relations.

Graduate Degrees

Admission

Applicants for admission to the Master of Health Administration; Executive Master of Health Administration; Executive Master of Leadership; Master of Nonprofit Management and Leadership; Master of Planning; Master of Planning and Development Studies; Master of Public Administration; Master of Public Policy; Master of International Public Policy and Management; Master of Real Estate Development; Doctor of Policy, Planning, and Development; Doctor of Philosophy in Public Policy and Management; and Doctor of Philosophy in Urban Planning and Development must have a bachelor's degree or its equivalent from an accredited educational institution. In recognition of the increasing diversity of capabilities required as the theories and practices of policy, planning, and development evolve, students from a variety of undergraduate and graduate backgrounds are encouraged to apply.

Applicants for admission will be expected to have completed a broad range of undergraduate courses in addition to their academic major or professional concentration. Generally, this will be reflected in completion of courses from the following fields: English; economics (basic theory); political science, history or sociology; physical or natural science; art or philosophy. In addition, mathematics (algebra, calculus, probability theory) and a course in statistics are strongly recommended.

Application for Admission

Admission to graduate programs in the Price School of Public Policy is highly selective and competitive. Preference is given to those with a record of high educational achievement and personal qualities favoring success in the fields of planning or development. Applicants must have achieved superior grades during undergraduate and any graduate education. A grade point average of at least 3.0 (A = 4.0) is normally expected as well as satisfactory scores on the Graduate Record Examinations (GRE). The GRE and GMAT are neither accepted nor required for the DPPD or executive MHA programs. Students applying for admission to the Master of Nonprofit Management and Leadership, Master of Planning, Master of Planning and Development Studies or the Master of Real Estate Development program may submit results from the Graduate Management Administration Test (GMAT). MRED applicants may also submit results from the Law School Admission Test (LSAT). In exceptional cases, an applicant who has not met these scholarship requirements may be admitted with conditions of admission.

For specific information on admission requirements and application procedures, contact the Price School of Public Policy, Office of Recruitment and Admissions, at (213) 740-0550. Certificate in Transportation Systems applicants should apply to the USC Viterbi School of Engineering. For additional information, contact the school at (213) 740-0587.

Transfer Credit

The Degree Progress Department determines whether work done elsewhere is available for consideration for credit toward the USC degree. That office requires official transcripts of all course work done before entering USC. A Graduate Transfer Credit Statement of these official transcripts, done after a student has been admitted
to regular status at USC, will indicate which units are available for
transfer. These courses do not apply toward the degree unless, and
until, the student's major department approves and submits transfer
credit to the Degree Progress Department in the Office of Academic
Records and Registrar.

Application of any available transfer credits toward a graduate
degree will be determined by the director of the particular degree
program, based on the semester units available for transfer as shown
on the Transfer Credit Statement.

These general guidelines are followed by the admissions evaluator
and by faculty members: (1) the work must be completed at an
accredited graduate school; (2) the grade must be B or better; (3) the
work must be a fair and reasonable equivalent to current USC course
work at the graduate level which fits into the logical program for the
degree; (4) the units are not more than seven years old at the time of
admission to their master's program (or 10 years old for a doctoral program);
(5) the units must reflect current knowledge in the field; and
(6) the work must be completed prior to admission to the USC
program.

USC does not give transfer credit for life experience, credit
by examination, noncredit extension courses or thesis course
supervision.

Please consult with your degree director before enrolling in
courses outside of USC. In many of the Price School's master's
degree programs, only courses taken outside of USC prior to
admission may be applied to your degree.

Waiver of Course Content

The school recognizes that some applicants may have covered
the material contained in core courses or courses required for a
particular specialization. Under these circumstances, one particular
course requirement may be waived, allowing the student to complete
a more advanced course in the same area. Students who have a
background in a particular area of study may be allowed to substitute
other courses. In these situations students do not receive unit credit
but are permitted to take course work, which does not repeat earlier
academic experiences.

Waiver of content is usually given only in the case of previous
academic study of the subject, not in the case of experiential
background in the area.

Students who believe they are eligible for content waiver
decisions must petition the faculty of the school, providing evidence
of the previous work through transcripts, syllabi and other pertinent
material. Contact the school's Student Affairs Office for information.

Master of Science in Health Systems
Management Engineering

This program is jointly sponsored by the Epstein Industrial and
Systems Engineering Department and the Price School of Public
Policy, and administered by the Epstein Industrial and Systems
Engineering Department. This degree is designed for students with
sufficiently quantitative bachelor's degrees in engineering, the
sciences or applied social science who are interested in operations
management and health care applications, and whose career
objectives lead to increasing technical management responsibilities
in large health care organizations, particularly hospitals. Students
with less quantitative social science or other non-technical
backgrounds interested in health administration objectives may also
want to consider the Master of Health Administration program in the
Price School of Public Policy. For information, see Industrial and
Systems Engineering.

Graduate Professional Labs

USC's Price School of Public Policy offers professional
consulting-like experience for graduate students in its core master's
degree programs. Participants are presented with a challenging
professional assignment and a well-defined client and terms of
reference. Students typically work in teams to produce a professional
report and related materials that are presented to the client at the
close of the assignment. The terms of reference for the lab vary each
year depending upon the client, the instructor and the setting, among
other considerations.

In principle, these professional labs may be held anywhere, either
in Los Angeles, elsewhere in the United States or abroad.

The Price School professional laboratory teaches students to
integrate scholarly knowledge with professional practice. Likewise,
it helps participants make the transition from the classroom back to a
"real world" setting. In the case of international labs, participants
also gain a deeper and more direct understanding of how the culture
of professional practice can vary from one setting to the next.

Through the Price School professional laboratory students build their
credentials and experience while also extending their network of
professional contacts.

These professional labs are intended primarily for graduate
students in public administration, planning, real estate development,
policy and health administration. A distinctive feature of
the professional laboratory is that it is intended as an integrative
professional experience across the school, so that students from any
of these programs may participate fully.

Each summer the Price School offers one or more international
labs/workshops. Recent international labs have been held in China,
Brazil, Germany, Morocco, Italy and Vietnam. All students are
couraged to take at least one international lab course.

Exchange Program

The Price School International Exchange Programs are one-
semester exchange programs with a host institution in Germany
or South Korea during either the fall or spring semester. These
programs provide opportunities for students to acquire knowledge
and skills necessary to become successful leaders in a global market.
Students complete a maximum of 12 units at the host institution.
All instruction is in English; proficiency in a foreign language is
not required. Courses completed are graded credit/no credit on
the student's USC transcript. The courses are selected from a list
approved by the Price School of Public Policy. Students must work
with their program administrator to understand how the courses will
return to their degree.

Graduate Certificate Programs

Certificate in Health Systems Operations

This 17-unit graduate certificate is jointly sponsored by the
Epstein Industrial and Systems Engineering Department and the
Price School of Public Policy (Master of Health Administration
program), and administered by the Epstein Industrial and Systems
Engineering Department. See the Industrial and Systems Engineering
Department for course requirements.

Non-Credit Programs Offered by the Center for
International Training and Development

Management Effectiveness Program

This is a four-week intensive training program in the art and
science of management. The program is designed to enhance
leadership effectiveness and the development of a management
generalist perspective.

International Executive Development Laboratory

This five-week laboratory focuses on issues in executive
leadership, strategic management, environmental analysis,
international finance and economics, computer-based project
planning, and implementation of planned change strategies.

Dual Degree Programs

A dual degree program is an academic option that allows a student
to enroll in two graduate programs simultaneously. Application must
be made to both schools, and if accepted to both, the student pursues
a specially designed program that combines selected courses from the
two academic units. Students are required to seek advisement from
both schools. The student will have the opportunity to acquire
the knowledge and skills from two fields of study.

The dual degree program enables the student to integrate a
closely related field with planning or development. The purpose of
the dual program is to provide an enriched educational experience;
accordingly, concurrent course work in the two fields is required.

Since the unit requirements of dual degrees depend upon the
mutual transfer of units between the two academic units, no other transfer of credits will be allowed. Students who decide, at any point, to earn only one of the two degrees must meet all the regular requirements for earning that degree alone.

Students in Master of Planning dual degree programs must fulfill the comprehensive examination and appropriate internship requirements except where noted otherwise.

Master of Heritage Conservation/Master of Planning
See the School of Architecture for degree requirements.

Master of Planning/Master of Advanced Architectural Studies
The Master of Planning/Master of Advanced Architectural Studies dual degree program facilitates highly related cross-disciplinary studies in architecture and in planning at the master's level. This program offers students interested in developing a career in urban design an opportunity to make more substantial commitments in both disciplines and to achieve a more coherent and extensive knowledge in the design of built environments and public policy. This dual degree program normally requires five semesters in residence. Qualified students who are admitted to the graduate programs in both the School of Architecture and the USC Price School of Public Policy may complete both degrees in a highly integrated five-semester program. Such students must already possess a five-year professional degree in architecture.

Requirements
Requirements for completion of the dual degree program are 72 units, including 36 units in architecture and 36 units in planning. See the USC School of Architecture for course requirements.

Master of Planning/Master of Business Administration
See the Marshall School of Business for degree requirements.

Master of Planning/Master of Arts, Curatorial Practices and the Public Sphere
See the Roski School of Art and Design for degree requirements.

Master of Planning/Master of Landscape Architecture
The dual degree option in planning and landscape architecture (in the USC School of Architecture) trains professionals in policy and design, and to be competent with design problems at different scales, but with a distinctly urban focus. Candidates must be independently admitted to the Master of Planning and Master of Landscape Architecture programs. The dual degree program normally requires between five and seven semesters in residence.

Requirements
Completion of the dual degree requires 24 units of courses in urban planning, 10 units of thesis option I or II and either 32 units of landscape architecture (for those students admitted with advanced standing); 48 units of landscape architecture (for those students admitted with advanced placement); or 74 units of landscape architecture (for those students admitted to the three-year curriculum). See USC School of Architecture for course requirements.

Juris Doctor/Master of Real Estate Development
See the USC Gould School of Law for degree requirements.

Master of Real Estate Development/Master of Business Administration
See the Marshall School of Business for degree requirements.

Regulations Concerning a Second Master's Degree
For rules governing a second master's degree, see the Requirements for Graduation page. In accordance with these policies, transfer credits will be granted only on the basis of a written petition to the MPA program coordinator and on the basis of credits recognized by USC in a Transfer Credit Statement.

Teaching Opportunities
Students may want to prepare for teaching as well as for public service. By careful planning in the upper division of the undergraduate degree and during the graduate years, requirements for a bachelor's degree, a master's degree and the university recommendation for a community college instructorship may be met without unnecessary duplication of effort and waste of time. Those interested in teaching should consult advisers in both the USC Price School of Public Policy and the USC Rossier School of Education before beginning upper-division and graduate work.

Public Administration Professional Sequence with the Viterbi School of Engineering
Regulations governing the Master of Science in Civil Engineering permit some candidates for this degree to take 12 units outside the School of Engineering. Those who wish to do so may take 12 units in public administration. Two courses in this sequence must be selected from among PPD 500, PPD 501a, PPD 501b, PPD 540, PPD 541, PPD 545, PPD 546. One course in this sequence must be selected from among PPD 542, PPD 557, PPD 666. PPD 541 requires PPD 502x and statistics as prerequisites. PPD 546 should be taken last if elected.

Joint Degree Program
Master of Long Term Care Administration
This program is designed to prepare competent individuals to administer the long term care needs of America's elderly population. It is jointly offered by the Davis School of Gerontology, the Marshall School of Business, and the Price School of Public Policy. For information see the USC Leonard Davis School of Gerontology.

Doctoral Degrees
The USC Price School of Public Policy offers the Doctor of Philosophy in Public Policy and Management (PhD), the Doctor of Philosophy in Urban Planning and Development (PhD) and the Doctor of Policy, Planning, and Development (DPPD). The PhD degrees are designed to prepare individuals for university level teaching and research. The DPPD degree is intended to develop a high level of conceptual and research competence for professional leadership in planning and development. The DPPD is administered by the Price School of Public Policy; the PhD programs are administered by the Graduate School and the faculty of the Price School of Public Policy. PhD students must consult the Graduate School section of this catalogue for regulations and requirements pertaining to its degrees. Students should also consult the Academic Policies section of this catalogue.

Completion of the requirements for all these degrees is assumed to take a minimum of three years of approved graduate study and research beyond the bachelor's degree. For the PhD student, a minimum of 24 graduate units completed in residence on the University Park Campus in Los Angeles is required. DPPD students are required to complete a minimum of 24 units at the University Park Campus. Full-time study is represented by enrollment in 6 units during the semester. Usually the school and the student's qualifying exam committee insist on a clear and mutually understood commitment of time and energy by the student to ensure significant involvement in the doctoral learning experience. For university policies regarding continuous enrollment, leave of absence and readmission, see the Requirements for Graduation page.

Application and Admission
Admission to graduate standing for the PhD or DPPD is recommended by the school's admissions committee acting under guidelines established by the Graduate School as outlined in the Graduate School section and the Graduate Admission section. In addition to those guidelines, DPPD students are expected to have a minimum of five years of substantial relevant experience. Students intending to apply should direct questions about the program and all materials for the admission application to Doctoral Programs, Office of Student Affairs, RGL 111, Price School of Public Policy, University of Southern California, University Park, Los Angeles, CA 90089-0626.

The deadline for applications for admission to the PhD and DPPD programs is December 1. Applications for admission are made once each year for fall semester admission.
The admission decision for PhD students is made using criteria that include verification that the applicant has a bachelor's degree from an accredited college or university, has maintained a high grade point average in the last 60 units of undergraduate work, and has earned a competitive score on the verbal and quantitative portions of the Graduate Record Examinations (GRE). Other elements of the applicant's educational and experiential background are also evaluated, including performance in other advanced degrees. DPPD applicants must also provide evidence of at least five years of practical administrative or other relevant experience. The GRE and GMAT scores are neither accepted nor required for the DPPD program.

Each applicant should submit the following: (1) one copy of official transcripts of all previous college and university work (be sure that these official transcripts show an awarded degree where appropriate); (2) copies of GRE scores; (3) a 1,000-word essay discussing the applicant's background and reasons for wanting to pursue a PhD degree and identifying his or her personal, educational and professional goals; (4) an up-to-date resume, including academic and professional accomplishments; (5) three letters of recommendation, two from previous instructors, the other from an instructor or from a professional supervisor or colleague. The letters should indicate the applicant's academic and professional accomplishments and potential; (6) a completed USC Graduate Admission Application, along with the nonrefundable application fee; (7) a writing sample of approximately 1,000 words (in addition to the applicant essay); and (8) a completed Price School of Public Policy Supplemental Graduate Application. International applicants are asked to submit additional information. Applicants should carefully choose, and clearly state, the degree objective (PhD or DPPD) for which they are applying, since different sets of admissions criteria exist for each of them.

Transfer Credits
The application of any available transfer credits toward a graduate degree at USC will be determined by the faculty and the dean of the Price School of Public Policy, based on the semester units available for transfer as shown in the Transfer Credit Statement (determined by the USC Office of Academic Records and Registrar). Refer to Admission with Advanced Standing for more information.

Deferral of Enrollment
Admission to the university is granted for a specified semester, and it is expected that students will begin their programs during that semester. The school will normally allow students to defer their enrollment up to one year from the admission semester. Students who wish to defer enrollment should notify the school in writing no more than 30 days after the beginning of the semester of admission. Students who do not inform the school in a timely manner of their intent to defer enrollment may be required to reapply for admission.

Please note that more stringent regulations apply to international students. See the Admission and Orientation section of this catalogue.

Admission to Candidacy
Acceptance to graduate standing does not in itself imply that the student is admitted or will be admitted to candidacy for an advanced degree. Application for admission as a candidate for an advanced degree is a separate and subsequent step. See the The Graduate School section of this catalogue.

Admission of International Students
All international applicants for admission to doctoral programs should submit materials to Doctoral Programs, Recruitment and Admissions Office, RGL 111, Price School of Public Policy, University of Southern California, University Park, Los Angeles, CA 90089-0626. See the Admission of International Students section of this catalogue.

Screening
PhD students are required to have a 3.3 overall GPA in first-year courses to continue in the program. DPPD students are required to pass a screening procedure after 16 units of course work. The procedure is designed to ensure that only those students who have demonstrated intellectual and scholarly potential continue in the program.

There are differences between the screening process for PhD and DPPD students. Students should consult the relevant faculty director of the doctoral program in which they are enrolled.

Qualifying Exam Committee (for the PhD programs)
A qualifying exam committee assists the student in outlining an academic program leading toward the degree. Students will form an initial qualifying exam committee by the end of the first fall semester. The committee might not yet include the Graduate School representative from outside the Price School, but must include at least three tenure track the Price School faculty members, one of whom is identified as the chair. This committee bears responsibility for counseling the doctoral student, for approving a course schedule and preliminary and qualifying examinations, and for recommending the student for admission to candidacy. After approval of the student’s program and proposed time schedule, the program is submitted in writing to the relevant director. This should be accomplished by the beginning of the second year, following successful screening.

The complete qualifying exam committee must be in place no later than the third semester. The chair should have recognized expertise in the qualifying area and should be a regular participant in the qualifying examination committee for that area. The majority of the members of the qualifying exam committee (typically at least three out of five) should be experts in the area in which the student is qualifying and should be regular participants in the qualifying examination committee. The remaining members should have a clear interest in this area with the exception of the outside member whose primary responsibility is to serve as the representative of the Graduate School, ensuring the university's commitment to the equitable treatment of all students and that the highest quality education standards are upheld.

Students will formalize their relationship with their committees through the development of a work plan that specifies all courses, degree progress, seminar attendance and what was learned from these sessions as well as a research plan that articulates major research questions being explored. At the end of the first year of study, the qualifying exam committee chair reviews and approves the work plan. At the end of the second year, the full qualifying exam committee reviews the work plan and the second year paper.

Bachelor's Degree

Public Policy (BS)
The Bachelor of Science in Public Policy is an interdisciplinary major that prepares students for graduate study and/or professional careers by engaging them in the analysis of society's political, social and economic issues. The major introduces students to theoretical foundations and practical applications through a set of cross-cutting introductory courses and specialized courses in one of four tracks: health policy and management, public policy and law, philanthropy, nonprofits and social innovation, or advanced policy analysis. Students will be introduced to analytical and research tools relevant for and connected to professional practice, as exemplified by consultative class projects and the mandatory internship.

Pre-Major Requirements
Students must complete the pre-major requirements. A minimum grade of C, 2.0 (A = 4.0), must be earned in each of the pre-major courses. All pre-major requirements must be taken for a letter grade.

• ECON 203g Principles of Microeconomics: 4
• MATH 117g Introduction to Mathematics for Business and Economics Units: 4

Core Curriculum (30 Units)

• PPD 225 Public Policy and Management Units: 4
• PPD 240g Citizenship and Public Ethics Units: 4
• PPD 245g The Urban Context for Policy and Planning Units: 4
• PPD 300 Social Justice Issues in Public Policy and Urban Planning Units: 4
• PPD 301 PPD Practices: Internship Seminar Units: 2
• PPD 303 Statistics for Policy, Planning, and Development Units: 4
• PPD 373 Public Policy and Planning Analysis Units: 4
• PPD 431 Undergraduate Policy, Planning, and Development Studio Units: 4

Tracks
Students select one track for degree emphasis; they take 28 units from the track selected. Each track includes five required courses and two elective courses with the exception of the Advanced Policy Analysis track, which has four required courses and three elective courses. During advisement, students will be given a list of recommended elective courses particularly appropriate for the chosen track. Students may work with their adviser for approval to take track electives outside of the courses listed to meet their academic needs. The required courses for each track are listed below followed by track elective options.

Health Policy and Management Track
Required Track Courses (28 units; 20 required, 8 electives)
• PPD 325 Fundamentals of Health Policy and Management Units: 4
• PPD 330 Introduction to Health Care Systems Units: 4
• PPD 357 Government and Business Units: 4
(a) Health Policy Focus
• PPD 315 Analytic Foundations for Public Policy Units: 4
• PPD 415 Health Policy Units: 4
(b) Health Management Focus
• PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
• PPD 413 Administration of Health Care Organizations Units: 4

Track Electives (select two from within a concentration)
(a) Health Policy Focus
• GERO 416 Health Issues in Adulthood Units: 4
• HP 408 Environmental Health in the Community Units: 4
• HP 412 Health Promotion and Prevention Policy Units: 4
• LAW 403 Mental Health Law Units: 4
• PPD 314 Public Policy and Law Units: 4
(b) Health Management Focus
• PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
• PPD 320 Organizational Behavior in Public Administration Units: 4
• PPD 403 Management Analysis I Units: 4
• PPD 414 Community Health Policy and Planning Units: 4
• PPD 478 Social Innovation Units: 4

Philanthropy, Nonprofits and Social Innovation Track
Required Track Courses (28 units; 20 required, 8 electives)
• PPD 353 Philanthropy and Social Change Units: 4
• PPD 371 The Nonprofit Sector and the Public Interest Units: 4
• PPD 402 Management of Public and Nonprofit Organizations Units: 4
• PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4
• PPD 478 Social Innovation Units: 4
Track Electives (Select 2)
• BU CO 485 Business Communication Management for Nonprofits Units: 4
• IR 371 Global Civil Society: Non-State Actors in World Politics Units: 4
• PPD 318 Financial Accounting in Public and Nonprofit Organizations Units: 4
• PPD 320 Organizational Behavior in Public Administration Units: 4
• PPD 372m Public Service in an Urban Setting Units: 4
• PPD 382 International Development Units: 4

Public Policy and Law Track
Required Track Courses (28 units; 20 required, 8 electives)
• PPD 313 Finance of the Public Sector Units: 4
• PPD 314 Public Policy and Law Units: 4
• LAW 300 Concepts in American Law Units: 4 or
• POSC 340 Constitutional Law Units: 4

Track Core Elective #1:
• PPD 315 Analytic Foundations for Public Policy Units: 4

Track Core Elective #2 (Choose one):
• LAW 200w Law and Society Units: 4 or
• PPD 342 Crime and Public Policy Units: 4

Track Electives (Select 2)
• ECON 434 Economic Analysis of Law Units: 4
• LAW 403 Mental Health Law Units: 4
• LAW 404 Law and Psychology: Examining the Criminal Justice Process Units: 4
• LAW 450 Law, Atrocity Crimes and Transitional Justice Units: 4
• POSC 444 Civil and Political Rights and Liberties Units: 4
• PPD 357 Government and Business Units: 4
• PPD 360 Urban Transportation Planning and Policy Units: 4
• PPD 361 Sustainable Communities, Policy and Planning Units: 4
• PPD 382 International Development Units: 4
• PPD 410 Comparative Urban Development Units: 4
• PPD 414 Community Health Policy and Planning Units: 4
• PPD 439 Housing and Community Development Units: 4
• PPD 478 Social Innovation Units: 4
• PPD 485m U.S. Immigration Policy Units: 4

Advanced Policy Analysis Track
Required Track Courses (28 units; 16 required, 12 electives)
• ECON 205g Principles of Macroeconomics Units: 4
• ECON 303 Intermediate Microeconomic Theory Units: 4
• PPD 313 Finance of the Public Sector Units: 4
• PPD 404 Empirical Methods for Public Policy Units: 4
• PPD 407 Financial Management of Public and Nonprofit Organizations Units: 4

Track Electives (Select three from within a concentration)
(a) Environmental and Energy Policy
• ECON 487 Resource and Environmental Economics Units: 4
• PPD 344 Environmental Policy and Sustainable Development Units: 4
• PPD 361 Sustainable Communities, Policy and Planning Units: 4
• PPD 410 Comparative Urban Development Units: 4
• PPD 427L Geographic Information Systems and Planning Applications Units: 4

(b) International Development and Policy
• POSC 456 Women in International Development Units: 4
• PPD 358 Urban and Regional Economics Units: 4
• PPD 360 Urban Transportation Planning and Policy Units: 4
• PPD 380a International Perspectives on Urban Problem Solving Units: 4
• PPD 380b International Perspectives on Urban Problem Solving Units: 4
• PPD 421 Land Use, Environment, and Housing in Developing Countries Units: 4
• PPD 422 Transportation and Technology and the Future of Mobility Units: 4
• PPD 439 Housing and Community Development Units: 4
• SOCI 470 Social Change in Low-Income Countries Units: 4

(c) Health Policy
• GERO 416 Health Issues in Adulthood Units: 4
• HP 408 Environmental Health in the Community Units: 4
• HP 412 Health Promotion and Prevention Policy Units: 4
• PPD 314 Public Policy and Law Units: 4
• PPD 413 Administration of Health Care Organizations Units: 4
• PPD 414 Community Health Policy and Planning Units: 4
• PPD 415 Health Policy Units: 4
Additional Requirements

Cross-cutting Topics Courses
Students will be required to take 4 units of cross-cutting topics courses (PPD 400), preferably in junior year after they have completed the core curriculum.

Capstone
All students will take 4 units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

Internships
Public Policy majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar or the Washington, D.C., Semester internship. Internships are matched as closely as possible to the student's interests and skills.

PPD 301 and the internship in a position provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors
Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student's transcript. Achievement of PPD honors requires a 3.7 GPA in PPD major courses and a 3.5 overall GPA as well as nomination by the professor in the capstone experience. In addition, students must earn an A in their capstone course (PPD 497a, PPD 497b or PPD 431).

Washington, D.C., Semester
The Washington, D.C., Semester program provides an intensive semester of confrontation with the political center of the nation and its complex components. The program offers opportunities for behind-the-scenes work in national government agencies and related organizations, combined with an academic environment and the chance to explore, share and learn with a group of fellow students.

Real Estate Development (BS)
Price School students are trained to look at the interaction between people and place and the consequences for our communities. The Bachelor of Science in Real Estate Development explores the broader context of real estate allowing students to launch their careers by grasping the full structure of the industry and its role in society. The pre-major courses integrate the many disciplines that are the foundation for real estate education, including accounting, economics and business finance. The real estate core classes taken through the Price School focus on real estate principles, financial analysis, market analysis, land use policy, urban design and the history of cities. Students also select electives to complement their interests from either the Price School or closely related disciplines. Throughout, the students' education will be connected to professional practice, as exemplified by the mandatory internship. Finally, the major is structured to provide students with sufficient elective credits to explore minors or other programs at USC so they can broaden their education to better prepare themselves for the next stage of their lives.

Admission
Freshman and transfer students may indicate their desire to declare a Price School major on their university application. Students enrolled at USC wishing to declare either Price major or to be admitted into the minors must be in good academic standing.

Students who have taken Foundation Prerequisites or Real Estate Core classes out of sequence (including enrollment in PPD/RED 435 or PPD/RED 437 prior to RED 375) before declaring the major are not eligible for admission into the Bachelor of Science in Real Estate Development program.

Students who wish to pursue the Bachelor of Science in Real Estate Development as a second bachelor's must satisfy all university requirements for a second bachelor's and complete 32 units unique to the Real Estate Development major.

General Education Requirements
The university's general education program provides a coherent, integrated introduction to the breadth of knowledge you will need to consider yourself (and to be considered by other people) a generally well-educated person. This program requires eight courses in six Core Literacies, plus two courses in Global Perspectives (which may double-count with courses in the Core Literacies) and two courses in writing. See the General Education program and the Requirements for Graduation pages for more information.

Foundation Prerequisites (28 units)
• ACCT 410x Foundations of Accounting Units: 4
• BUAD 215x Foundations of Business Finance Units: 4
• ECON 203g Principles of Microeconomics Units: 4
• MATH 117g Introduction to Mathematics for Business and Economics Units: 4
• PPD 225 Public Policy and Management Units: 4
• PPD 245g The Urban Context for Policy and Planning Units: 4 *
• PPD 303 Statistics for Policy, Planning, and Development Units: 4

Note: *May double count as general education.

Real Estate Core (24 units)
• RED 362 Real Estate Development Fundamentals Units: 4
• RED 375 Real Estate Development Analysis Units: 4
• RED 417 History of Planning and Development Units: 4
• RED 425 Designing Livable Communities Units: 4
• RED 435 Analyzing Real Estate Markets Units: 4
• RED 437 Advanced Finance and Investment for Real Estate Development Units: 4

Additional Requirements
Real Estate Electives (11-12 units)
Students select 11-12 units of course work from the Price School or in related fields. Elective classes must be approved by the Price School academic adviser.

Capstone (4 units)
Students will complete four units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-2). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in Price School courses and an overall 3.5 GPA.

Internships
Students are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar. Internships are matched as closely as possible to the student's interests and skills. PPD 301 and the internship provide opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors
Price School honors are available at graduation to qualified students and result in a special designation of departmental honors on a student's transcript. Achievement of Price School honors requires a 3.7 GPA in Price School major courses, a 3.5 overall GPA, as well as nomination by the professor of the capstone experience. In addition, students must earn an A in their capstone course (PPD 431 or PPD 497a, PPD 497b).

Urban Studies and Planning (BS)
The Bachelor of Science in Urban Studies and Planning is an interdisciplinary major that prepares students for graduate study and careers as change agents in the urban world. The major introduces
students to theoretical foundations and practical applications through a set of cross-cutting introductory courses. Students develop expertise in one of three specialized tracks: environmental policy and planning, international development, or urban planning. Students will learn analytical techniques for urban sustainability, methods for stakeholder engagement, approaches for poverty alleviation, and the role of the built environment and geographic data in city problem solving. Environmental analysis and sustainability, Geographic Information Systems, statistics, urban design, applied field research, and the mandatory internship are a sample of the courses and tools used to educate our students and to better prepare them for their professional careers or graduate studies.

Pre-major Requirements
Students must complete the pre-major requirements. A minimum grade of C, 2.0 (A=4.0), must be earned in each of the pre-major courses. All pre-major requirements must be taken for a letter grade.
- ECON 203g Principles of Microeconomics Units: 4

- PPD 439 Housing and Community Development Units: 4
- SOCI 470 Social Change in Low-Income Countries Units: 4

Additional Requirements

Cross-cutting Topics Courses
Students will be required to take 4 units of cross-cutting topics courses (PPD 400), preferably in junior year after they have completed the core curriculum.

Capstone
All students will take 4 units of a capstone experience during their senior year. This may be fulfilled by taking PPD 431 Undergraduate Policy, Planning, and Development Studio (4) or PPD 497a Senior Thesis, PPD 497b Senior Thesis (2-4). Students wishing to enroll in PPD 497a, PPD 497b must have a 3.7 GPA in PPD courses and an overall 3.5 GPA.

Internships
Urban Studies and Planning majors are required to complete 140 hours of internship by enrolling in PPD 301 PPD Practices: Internship Seminar or the Washington, D.C., Semester internship. Internships are matched as closely as possible to the student's interests and skills.

PPD 301 and the internship in a position provide numerous opportunities to develop and formulate future career goals, as well as to gain personal and professional experience while completing the undergraduate degree.

Honors
Price School honors are available at graduation to qualified PPD majors and result in a special designation of departmental honors on a student's transcript. Achievement of PPD honors requires a
This 16-unit minor in health policy provides students with a background in the policy issues and challenges globally, nationally and locally related to quality, cost and access to health care. Students in this minor will acquire an understanding of these issues and the skills required to influence health policy.

**Required Courses (12 Units)**
- PPD 325 Fundamentals of Health Policy and Management Units: 4
- PPD 330 Introduction to Health Care Systems Units: 4
- PPD 415 Health Policy Units: 4

**Electives (4 Units)**
- GER 416 Health Issues in Adulthood Units: 4
- HP 408 Environmental Health in the Community Units: 4
- HP 412 Health Promotion and Prevention Policy Units: 4
- HP 422 AIDS in Society Units: 4
- LAW 403 Mental Health Law Units: 4
- PPD 357 Government and Business Units: 4
- PPD 414 Community Health Policy and Planning Units: 4

**Law and Public Policy Minor**

The minor in law and public policy draws upon four fields of study: public policy and management, law, economics and political science. It provides students with an understanding of the political and economic contexts in which laws are made as well as how legal institutions shape policy formulation. Students learn to analyze the consequences of policy and alternatives; the roles played by government, business and nonprofit organizations in public decision making; and the legal bases for various areas of public policy.

Students minoring in law and public policy take 20 units, including the gateway class, PPD 225 Public Policy and Management, and one elective. The latter enables the student to focus on a specific area of law.

**Required Courses**
- POSC 340 Constitutional Law Units: 4
- PPD 225 Public Policy and Management Units: 4
- PPD 314 Public Policy and Law Units: 4
- PPD 315 Analytic Foundations for Public Policy Units: 4

**And one of the following:**

- ECON 434 Economic Analysis of Law Units: 4
- FBE 403 Introduction to the Legal Environment of Business Units: 4
- LAW 200w Law and Society Units: 4
- LAW 300 Concepts in American Law Units: 4
- LAW 403 Mental Health Law Units: 4
- POSC 345 International Law Units: 4
- POSC 347 Environmental Law Units: 4
- POSC 432 Politics of Local Criminal Justice Units: 4
- POSC 440 Comparative Law and the Judicial Process Units: 4
- POSC 441m Cultural Diversity and the Law Units: 4
- POSC 444 Civil and Political Rights and Liberties Units: 4
- POSC 452 Critical Issues in Law and Public Policy Units: 4

**Nonprofits, Philanthropy and Volunteering Minor**

This four-course minor enables students to learn about the nonprofit sector — its organizations, philanthropy and voluntary action. The three-course core provides: (1) an overview of the nonprofit sector and philanthropy and its role in the United States, including its historical and theoretical foundations, its various components and its relation to public policy; (2) a focus on voluntary action and service as one means for social change and problem-solving; and (3) insights into the management of nonprofit organizations. Students select an elective that extends their understanding to the role of nongovernmental organizations in international affairs or to the role of public relations for nonprofits.

This minor is intended for students who plan (1) to work in a nonprofit or charitable organization, whether it is a large organization such as United Way, a small social service agency, an environmental advocacy group, a museum or a religious organization, (2) to participate with nonprofits as a volunteer throughout their lives or (3) pursue further graduate work in a service-related profession.

**Required Courses**
- PPD 371 The Nonprofit Sector and the Public Interest Units: 4
- PPD 402 Management of Public and Nonprofit Organizations Units: 4
- PPD 478 Social Innovation Units: 4
The 20-unit minor in urban sustainable planning focuses on the application of public policy, urban planning and public management to the analysis and solution of urban problems. It draws upon the interdisciplinary faculty and programs of the Price School of Public Policy and includes foundational courses that introduce students to the nature of urban phenomena and the analysis and solution of urban problems. The minor also introduces students to the professional and academic fields of either urban planning and development or public policy and public management. In addition, based on their specific interests, students have the opportunity to explore in greater depth three areas and approaches of urban problem-solving. This minor is appropriate for students interested in expanding their understanding of the fields of urban planning and public policy and management as potential professional careers as well as increasing their comprehension of the analysis and solution of urban problems.

**Required Core Courses (12 units)**
- PPD 245g The Urban Context for Policy and Planning Units: 4
- PPD 427L Geographic Information Systems and Planning Applications Units: 4
- RED 425 Designing Livable Communities Units: 4

**Electives (8 units)**
- PPD 227 Urban Planning and Development Units: 4
- PPD 358 Urban and Regional Economics Units: 4
- PPD 360 Urban Transportation Planning and Policy Units: 4
- PPD 361 Sustainable Communities, Policy and Planning Units: 4
- PPD 414 Community Health Policy and Planning Units: 4

**Master’s Degree**

**Dollinger Master of Real Estate Development (MRED)**

The Master of Real Estate Development program is a carefully integrated program that brings together the main elements of real estate development: design, finance and policy. It is a one-year full-time or two-year evening executive program of study designed to provide students with the knowledge and skills they require to compete successfully in the development industry. The curriculum encompasses eight areas of study with which developers must be conversant, including real estate law, economics, finance, market analysis, negotiation, planning, architecture and engineering. Courses are taught by full-time faculty members from the Price School of Public Policy. In addition, practicing developers, lawyers, planners and other professionals make regular contributions to the course of study, helping students link learning to practice.

**Curriculum Requirements**

The program of graduate study for the professional degree requires successful completion of the core curriculum (36 units), elective courses (8 units) and a comprehensive examination. Students must complete a total of 44 units.

**Core Curriculum**

The core comprises 13 lecture-seminar courses that combine lectures, projects, case analyses, and exercises which allow students to experience all facets of the developer's tasks and problems. The integrative project, RED 575, provides problem solving exercises and the evaluation of actual development situations. Courses emphasize various design, regulatory and fiscal problems associated with urban development and the developer's role in improving development standards in the industry.

**Core Courses**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501A Economics for Policy, Planning and Development Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 562 Legal Issues in Real Estate Development Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4

**Additional Requirements**

Eight units of elective course work are required for the Master of Real Estate Development. These courses may be taken in the schools of Public Policy, Architecture, Business, Law and the Department of Civil Engineering. Admission to some classes requires advanced prerequisites and is subject to availability and approval of the instructor.

**Comprehensive Examination**

Successful completion of a comprehensive written and oral examination is required of all students seeking the Master of Real Estate Development degree. The examination explicitly covers the core courses. It is normally administered late in the spring semester by a faculty committee appointed by the dean. Students who fail the examination once may take it again within one year. The examination may not be repeated more than once.
### General Requirements

#### Residence and Course Load

The Master of Real Estate Development may be completed on either a full-time or part-time basis. Both options begin in the summer session in June. The full-time program requires 11 months of study. The evening executive option is completed over a two-year period. Students are also expected to participate fully in all extracurricular activities associated with the Master of Real Estate Development program, including the weekly speaker series.

Students who wish to take a leave of absence for a semester or longer must request it from the dean in writing; such leaves may be granted for up to one year.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

#### Time Limit

The time limit within which students in the program must complete the requirements for the Master of Real Estate Development is governed by the following regulations:

- All requirements for the Master of Real Estate Development must be completed within five calendar years from the first course at USC applied toward the degree.

University regulations prohibit the acceptance of credits for courses taken toward a Master of Real Estate Development degree more than seven years after the date they were successfully completed.

#### Grade Point Average Requirement

While enrolled in the program, a student must maintain a grade point average of at least 3.0 for all courses taken toward the degree.

#### Probation and Disqualification

Any student with a cumulative grade point average of below 3.0 for all courses taken in the program will be placed on academic probation. A student may be disqualified to continue toward a Master of Real Estate Development degree after two consecutive semesters of academic probation. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Real Estate Development degree.

#### Course Exemptions and Transfer of Credits

Courses taken toward other degree programs, if determined by the dean to be equivalent to courses in the curriculum, may be accepted for subject credit only. All students are required to complete 44 units while enrolled in the Master of Real Estate Development program. The acceptance of previous course work for subject credit will enable the student to take additional elective courses.

### Health Administration (Executive MHA)

The Executive MHA Program offers clinical and management professionals an opportunity to advance their careers in health care and to more effectively improve health services within their communities. Mid- to senior-level professionals who have the ambition and potential to serve as industry leaders in the highly dynamic and competitive health care environment are encouraged to consider the Executive MHA degree. The Executive MHA is geared to those who have demonstrated capabilities, yet who will benefit from expanded skills and competencies that will enable them to lead.

Participants sharpen their business acumen by gaining exposure to and in-depth knowledge of the latest theories and the best in contemporary health management practice. A practical, problem-solving approach ensures that skills can immediately be applied on the job.

#### Requirements for Admission

Applicants for the Executive Master of Health Administration apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility in health care or a related field is required for entry into the Executive MHA program. Applicants must have earned a bachelor’s degree from an accredited college or university. A minimum grade point average of 3.0 in undergraduate course work is required. Allowances may be made when justified by exceptional work experience and letters of recommendation.

### Prerequisites

#### Accounting

A basic competence in accounting is required for the Executive MHA program. The accounting prerequisite must be satisfied before enrolling in HMG 565 Managing the Organization’s Financial Health. This prerequisite may be met in one of three ways: (1) completing the non-credit Executive MHA accounting workshop with a passing score; (2) demonstrating prior work experience or (3) completing prior course work at an accredited academic institution in accounting and finance.

### Curriculum

The Executive MHA offers a hybrid online/in-residence executive education program that will prepare the graduate to meet career objectives. The program provides students with the flexibility to meet program requirements while maintaining full-time administrative positions, but also emphasizes the importance of an integrated approach to executive education. In addition to the synchronous and asynchronous learning modules included in each course, students will participate in five-day, in-residence sessions at the University Park Campus twice during the program. The first in-residence session will occur before the midpoint of the program, and the second session will be a capstone experience in the last semester of the program. The Executive MHA degree program does not require a supervised field placement (residency) in a health care organization.

The curriculum of the EMHA is organized around five themes: thriving in transformational times through innovative leadership; delivering cost-effective care in an era of value-based purchasing; providing efficient management and administration; developing and implementing strategies to enhance patient safety and quality of care; and demonstrating organizational and clinical effectiveness through health information technology. These integrated themes and the associated content provide graduates with a comprehensive approach that expands their understanding of the key principles and applications necessary to function in a senior administrative leadership role.

#### Required Courses (36 Units)

- HMG 512 Information Technology and Patient Engagement Units: 2
- HMG 520 Leading People and Health Care Organizations Units: 4
- HMG 540 Health Economics, Financing and Reimbursement Units: 2
- HMG 565 Managing the Organization’s Financial Health Units: 4
- HMG 570 Strategic Management Units: 4
- HMG 575 Managing and Improving Health Units: 4
- HMG 600 Managing Risk Units: 2
- HMG 601 Operations Management for Accountability Units: 4
- HMG 602 Operational Efficiency Processes in Health Care Organizations Units: 2
- HMG 603 Developing and Monitoring of Quality and Patient Safety Outcomes Units: 2
- PPD 511 Health Information Systems Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 605 Frontline Issues in Health Services Administration and Policy Units: 2

### Additional Requirements

Participants in the executive program gain practical skills. Emphasis is given to executive decision-making; development of sound planning, analytical and leadership capabilities; and strong interpersonal communication. More specifically, Executive MHA
graduates will achieve advanced competency in disciplines which include economics and finance, health care regulation, business development, operations, strategic analysis and management, organizational design, quality and outcomes assessment, and information management. Our graduates will model effective leadership and management in a rapidly evolving health care environment.

The core faculty is drawn from the USC Price School of Public Policy and includes senior, experienced faculty, along with nationally renowned academic specialists and health care experts. The opportunity to interact with health care's leading thinkers, policymakers and practitioners is an essential component of the Executive MHA program.

The Executive MHA office is located in Ralph and Goldy Lewis Hall, Room 307, Price School of Public Policy, (213) 740-2984, email emha@usc.edu.

Health Administration (MHA)

The issues surrounding the delivery and financing of health services have an enormous impact on individuals and the communities in which we live. The health care industry now accounts for more than 15 percent of the U.S. economy. Fast-moving developments in technology, economics, ethics, finance, policy, management and globalization are driving changes in the health sector. Effective health leadership requires an understanding of governance systems and the complex interplay between the public, private and nonprofit sectors as well as the dual imperatives of both the clinical and business facets of health care delivery. As the health care system changes, career opportunities abound. The field has a tremendous need for leaders, managers and analysts — in hospitals, health plans, physician practices, health-related enterprises, community health organizations, social advocacy groups, and regulatory and legislative agencies.

The Price School of Public Policy's multidisciplinary nature, with degree programs in public policy, public administration, urban planning, and international policy, adds breadth that distinguishes USC's MHA degree, providing students with an understanding of the larger social context in which the health sector is embedded and how it intersects and interacts with other social policy issues.

The Price School programs in health management and policy offer two degree options — the Master of Health Administration and the Executive Master of Health Administration. These degrees position the student to acquire the knowledge, skills and applied experience to shape health policy and lead health organizations. Requirements for the Executive MHA differ from those of the traditional MHA and are found on the program page.

The Master of Health Administration builds a solid foundation emphasizing managerial, analytical and public policy skills for those entering the health field, while the Executive Master of Health Administration deepens professional skills and permits those already working in the health field to advance to higher levels of leadership.

The MHA curriculum incorporates five major areas of competence: management/operations/leadership; health policy analysis; health finance; health information technology; and, health care quality. Each student will be exposed to these core areas and will specialize in two of them. The program prepares students for management positions in hospitals; managed care systems; physician groups; ambulatory care systems, government agencies concerned with health care policy; planning, quality assurance and regulation; and private firms involved in health care consulting, finance, performance assessment and evaluation.

Requirements for Admission

General

Applicants must have a bachelor's degree from an accredited college or university. Applicants may take courses on limited standing pending formal admission to the master's degree program. Applicants with bachelor's degrees must have a minimum grade point average of 3.0 in their undergraduate course work and a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Deviations from these minimums will be allowed when justified by exceptional work experience, letters of recommendation or improvement in academic performance during the third and fourth years of undergraduate study.

Prerequisites

Statistics

A basic competence in descriptive and inferential statistics is also required for the MHA program. The statistics prerequisite must be satisfied within the first 12 units or before enrolling in PPD 557 Modeling and Operations Research. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation, or (2) completing PPD 502x Statistical Foundations for Public Management and Policy with a grade of "B" or better (this course credit may not count toward the MHA degree).

Limited Status Students (Preadmission)

Students taking courses who have not been admitted to the school are designated limited status students. These students may be waiting for part of their application package materials to arrive; or they may be investigating whether an MHA may be right for them.

To be considered for limited status reenrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor's degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 8 units of graduate courses in the Price School of Public Policy.

Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, USC Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626, telephone (213) 740-6842. Limited students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 8 units of appropriate graduate work toward the MHA after admission. Units beyond these first 8 must be petitioned for through the school. Students on limited status are encouraged to complete the application and admission process before completing those first 8 units.

Certificate Program

Information regarding the Certificate Program in Health Management and Policy Programs can be found on the Graduate Certificates page.

Curriculum

Curriculum for the MHA includes 48 units (40 required units and 8 elective units). In addition, a supervised field placement (residency) in a health service organization is required. The MHA degree is designed to be completed in two years of full-time study, but can be extended for those who work while going to school. Evening classes and classes that meet in an intensive, workshop format of two to four sequential days of training are designed to accommodate working professionals.

Required Core (40 Units)

- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4
- PPD 511 Health Information Systems Units: 2
- PPD 512 Health Administration Residency Seminar Units: 2
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 514 Economic Concepts Applied to Health Units: 4
- PPD 515 Strategic Management of Health Organizations Units: 4
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
- PPD 518 Quality of Care Concepts Units: 2
• PPD 545 Human Behavior in Public Organizations Units: 4
• PPD 558 Multivariate Statistical Analysis Units: 4

Electives
In addition to the 40 required units, students are required to take 8 units of electives. Elective courses will be taken in two of the five specialization areas: management/operations/leadership; health policy analysis; health finance; health information technology; and health care quality. The two specializations will be selected by the student with the advice and written consent of the MHA program director and faculty adviser.

Residency
The MHA student is required to complete a 1,000 hour residency at a health care organization, generally during the second year of study. This residency may be reduced, but must include at least 500 hours, depending on the health care experience of the student. The residency is designed to provide the student with practical administrative experience that complements program course work.

International Public Policy and Management (IPPM)
The International Public Policy and Management (IPPM) Program offers a Master of International Public Policy and Management (IPPM). The degree is designed for managers, planners and analysts involved in social sector programs who want to strengthen their management skills and further develop their policy analysis capabilities. For professionals working in the social sectors, IPPM offers an opportunity to deepen their conceptual understanding of the forces driving change in their sectors and to develop an analytical approach for accessing and reshaping social policy. The program is well-suited for mid-career professionals working in the social sectors, such as physicians, nurses and pharmacists in the health professions; educators and administrators in the teaching professions; government regulators, managers and staff; community organizers, aid workers and others working in the NGO sector; and reporters and others in the news professions interested in covering social issues.

This program is specifically designed for international students and U.S. students who wish to work in international settings, including the Pacific Rim, Latin America and countries in other regions with evolving social systems.

Students are required to complete a minimum of 32 units. All students must fulfill core requirements (18 units) in fundamental policy analysis and management disciplines and an additional 14 units in an area of concentration chosen by the student. The core requirements include: PPD 501a Economics for Policy, Planning and Development; PPD 542 Policy and Program Evaluation; PPD 569 Applied International Policy Analysis and Management Project; PPD 570 Applied Statistics for Planning, Policy and Management; and PPD 571 International Public Policy and Management Seminar.

Students select an area of concentration in which they complete a set of recommended elective courses. Each concentration allows students to pursue in depth one or more areas of particular relevance to their career goals. The concentration areas enable students to pursue in depth one or more areas of particular relevance to their career goals. The concentration areas include:

1. Public Policy and Management
2. Health Policy and Management
3. Nonprofit and Public Management
4. Development Policy and Management
5. Environmental Policy and Management

Each concentration allows students to complete a set of recommended elective courses. The language requirements are discussed in the next section.

Degree Requirements
Students are required to complete 28 units of graduate work — 16 units of required core courses and 12 units of electives.

Required Core Courses (16 Units)
• PPD 640 Leadership Foundations: Competencies and Core Values Units: 4
• PPD 641 Leading Individuals, Groups and Teams Units: 4
• PPD 642 Strategic Leadership of Organizations Units: 4
• PPD 643 Leading Transformations Across Sectors: Integrative Seminar Units: 4

The Executive Master of Leadership Program offers professionals from a variety of fields including public administration, public policy, planning, law enforcement, transportation and other public, nonprofit and business organizations, with at least five years of professional experience, the opportunity to build leadership skills at five levels: individual, team, organizational, community and institutional. The program design offers participants insight into the mechanisms that facilitate effective personal and organizational networks, as well as collaborative problem-solving strategies and practices.

The program follows a cohort model for the four required core courses. The degree curriculum has three distinguishing features: a design to connect ethics with leading through core values; an interdisciplinary and multidisciplinary problem-solving approach; and transformational leadership that connects the public, private and nonprofit sectors.

Requirements for Admission
Applicants for the Executive Master of Leadership apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility is required for entry into the program.

Candidates for admission must have earned a bachelor's degree from an accredited college or university with a minimum 3.0 grade point average. Exceptions to the minimum GPA requirement may be made when justified by exceptional work experience and letters of recommendation.

Applicants must submit a standard USC graduate application and fee along with official transcripts from all undergraduate and graduate institutions attended. Letters of recommendation, a current resume, an essay and an interview will also be required.

Leadership (Executive ML)
The Executive Master of Leadership Program offers professionals from a variety of fields including public administration, public policy, planning, law enforcement, transportation and other public, nonprofit and business organizations, with at least five years of professional experience, the opportunity to build leadership skills at five levels: individual, team, organizational, community and institutional. The program design offers participants insight into the mechanisms that facilitate effective personal and organizational networks, as well as collaborative problem-solving strategies and practices.

The program follows a cohort model for the four required core courses. The degree curriculum has three distinguishing features: a design to connect ethics with leading through core values; an interdisciplinary and multidisciplinary problem-solving approach; and transformational leadership that connects the public, private and nonprofit sectors.

Requirements for Admission
Applicants for the Executive Master of Leadership apply directly to the program. A minimum of five years of experience with progressively greater levels of responsibility is required for entry into the program.

Candidates for admission must have earned a bachelor's degree from an accredited college or university with a minimum 3.0 grade point average. Exceptions to the minimum GPA requirement may be made when justified by exceptional work experience and letters of recommendation.

Applicants must submit a standard USC graduate application and fee along with official transcripts from all undergraduate and graduate institutions attended. Letters of recommendation, a current resume, an essay and an interview will also be required.

Degree Requirements
Students are required to complete 28 units of graduate work — 16 units of required core courses and 12 units of electives.

Required Core Courses (16 Units)
• PPD 640 Leadership Foundations: Competencies and Core Values Units: 4
• PPD 641 Leading Individuals, Groups and Teams Units: 4
• PPD 642 Strategic Leadership of Organizations Units: 4
• PPD 643 Leading Transformations Across Sectors: Integrative Seminar Units: 4
Electives
In addition to these 16 required units, students are required to take 12 units of electives.
Elective courses will be selected in consultation with the faculty adviser based on the student's individual learning/development plan. Students will choose these electives in order to concentrate in a particular area of study. The following are examples of concentrations that are available: public management, nonprofit policy and management, urban planning, transportation, public policy and political management. The Price School of Public Policy offers a wide range of electives to students each semester. In addition to these 16 required units, students are required to take 12 units of electives. Elective courses will be selected in consultation with the faculty adviser based on the student's individual learning/development plan. Students will choose these electives in order to concentrate in a particular area of study. The following are examples of concentrations that are available: public management, nonprofit policy and management, urban planning, transportation, public policy and political management. The Price School of Public Policy offers a wide range of electives to students each semester.

Master of Global Public Policy
The Master of Global Public Policy program is an executive program in partnership with USC-HKU designed for professionals in the public, private and nonprofit sectors around the world who have substantial experience in relevant professions and are eager to understand creatively solve complex policy problems that often lay at the intersection of the public, private, and nonprofit sectors. The curriculum offers a rigorous and innovative look at increasingly complex policy issues that policy leaders face in today's fast-changing global economy with special attention to issues in Greater China that have global resonance. The curriculum weaves together a full spectrum of analytical competencies, a set of core orientations that focus on attaining economic and social impact through innovative policy solutions straddling the public-private divides, and a solid body of knowledge of policy themes that are significant in both China and globally. The program is delivered in an executive format with students completing the program in 15 months with a combination of in-person modules in Hong Kong, Los Angeles, and Beijing and online learning.

Requirements for Admission
Candidates for admission must have maintained a minimum B (3.0) average during their undergraduate degree work and 3-5 years professional work experience. International students must submit TOEFL scores. See Price Webpage for more specific application information.

Degree Requirements (28 units)
• GPPD 500a Global Policy Challenges and Solutions Units: 2
• GPPD 500b Global Policy Challenges and Solutions Units: 2
• GPPD 510 Economic Foundations for Public Policy Units: 3
• GPPD 520 Leadership in Public-Private Partnerships Units: 2
• GPPD 530 Art and Craft of Public Policy Analysis Units: 1
• GPPD 540 Comparative Institutions and Policy Context Units: 3
• GPPD 550 Quantitative Methods for Public Policy Units: 3
• GPPD 560 Methods for Policy Evaluation Units: 3
• GPPD 570 Institutions and Policy Processes Units: 3
• GPPD 580 Policy Challenges in International Development Units: 3
• GPPD 600a Public Policy Capstone Units: 1
• GPPD 600b Public Policy Capstone Units: 2

Nonprofit Leadership and Management (MNLM)
The Master of Nonprofit Leadership and Management (MNLM) program is designed to prepare students to distinguish themselves as leaders in the nonprofit sector whether managing nonprofits, advocating for social change or developing and implementing innovation solutions to social problems.

Degree Requirements
Students are required to complete 40 units of graduate work, with 30 units of core organized under three areas: theory and context, leadership and management, and analytical skills and 10 elective units based on their interests.

Required Core Courses
• PPD 501a Economics for Policy, Planning and Development Units: 2
• PPD 501b Economics for Policy, Planning and Development Units: 2
• PPD 542 Policy and Program Evaluation Units: 4 *
• PPD 675 Nonprofit Management and Leadership Units: 4
• PPD 689 The Nonprofit Sector and Philanthropy Units: 4
• PPDE 645 Financial Management of Nonprofit Organizations Units: 4
• PPDE 680 Board Governance and Leadership Units: 2
• PPDE 681 Fund Development for Nonprofit Organizations Units: 4
• PPDE 682 Capstone in Nonprofit Leadership and Management Units: 4
*PPD 502 is a prerequisite for PPD 542.

Electives
Students complete 10 units of electives based on their interest and in consultation with their adviser.

Planning (MPI)
The planning of cities is as old as urban civilization. The contemporary planning profession has expanded to include a broad range of applications that draws upon emphases of foresight, common good and interconnections of elements in human settlements. Planners are engaged in evaluating and guiding community and urban development at geographic scales, ranging from the local American neighborhood to the global village utilizing the public, private and nonprofit sectors.

Planners play an increasingly important role in managing the pressing problems and competing demands of change and growth in shaping a better future. The Master of Planning (MPI) curriculum reflects this forward-looking and constantly evolving role.

The MPI curriculum provides a core of knowledge underlying the key forms and applications of planning. This core sets the foundation for a wide choice of specific careers in the field and extends the relevance and value of graduate education over an extended period of time. A goal of the MPI curriculum is to prepare planners to practice anywhere in the world.

The Planning Accreditation Board of the American Planning Association and the Association of Collegiate Schools of Planning accredit the MPI program.

All persons pursuing the MPI will complete core courses which present basic theories, techniques and methods.

Concentrations are available in five broad areas: economic development; preservation and design of the built environment; social and community planning; sustainable land use planning; and transportation and infrastructure planning. After students register, the faculty will suggest specializations that allow students to focus their concentrations even further or span planning more broadly.

A concentration in any of these areas qualifies graduates for a wide range of private, public and nonprofit sector careers with government agencies, consulting firms, corporations, utilities, international technical assistance programs, nonprofit and special interest organizations and joint public-private ventures.

Curriculum Requirements
The program of study for this professional graduate degree requires completion of 48 units, including 16 units of core curriculum, 8 units of planning studios, 4 units of methodology related to the student's concentration, a required concentration gateway course and 16 units of electives, including two additional courses related to a student's concentration. A comprehensive examination and an approved non-credit internship are also required. The degree may be pursued on either a full-time or part-time basis.
Statistics Prerequisite
A basic competence in descriptive and inferential statistics is required. This prerequisite may be fulfilled by successfully completing PPD 525 or by having completed a previous course (within five years) with a grade of B or higher (A = 4.0).

Core Curriculum (Eight Lecture Seminar Courses):
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2

Total units: 16

Note:
2-unit courses may be offered in seven-and-a-half week blocks.

Planning Studios
Planning studios are an integral part of the curriculum of the Price School of Public Policy, providing the essential educational link between academic education and preparation for professional practice. The planning studios require that students learn to work together as a team by applying their respective capabilities and knowledge to a real-world common problem and to produce a professional project. Students must complete 8 units of domestic or international planning studios under PPD 531 (4) to satisfy this requirement. A maximum of 12 units may be taken.

Local agencies, communities and firms often sponsor planning studios to obtain research and analysis. Community groups seek assistance as a means of informing themselves more thoroughly on community problems and issues or for obtaining planning analysis otherwise unavailable to them. The products of planning studios are usually in the form of policy recommendations, a suggested plan or alternative plans, databases, background information, base maps, or any one of many specific contributions.

MPI planning studios can either be situated in the United States or around the world. Past courses have examined the tragedy around Katrina in New Orleans, developed economic development plans for local Southern California cities, and studied changing public spaces in Germany.

Price International Laboratories (PPD 613a, PPD 613b) can be taken as an elective in the MPI program. The program strongly encourages students to enroll in one laboratory during their course of study. In recent years, Price lab courses have been offered in China, Brazil and England.

Concentrations (16 units)
Students must declare their concentration during the fall semester prior to taking the comprehensive examination in the spring semester. Students are required to complete the gateway course and methodology course related to their concentration as part of their preparation for their comprehensive examination. The student's concentration must contain a 4-unit methodology course, a 4-unit gateway course and 8 other units. At least 12 of these units must be selected from Price School curriculum. Courses outside the Price School should be selected by the student with the approval of an academic adviser and must be directly concerned with the subject matter of the concentration.

After students register, the faculty will provide them with a series of specializations they may take in association with the concentrations. These specializations are not required; they are provided as guidance for students interested in these subject areas. The specializations vary. Some suggest ways that students can more deeply study a single area within planning, while others provide a broad overview of planning and policy issues. The specializations draw upon courses within the MPI program, the Price School sister programs and courses from other USC units.

Economic Development
is the basis for prosperous community development. Job creation and the development of service or employment sites are the core of economic development. At a higher geographical scale, development of regional economies provides a focus for planning in an international context.

Suggested courses for students selecting this concentration include
- PPD 622 Seminar in Urban Development Units: 4
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 625 Planning and Economic Development Finance Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3

Preservation and Design of the Built Environment
addresses the architecture of the city, viewed not as a series of individual buildings, but as a set of visual and functional connections between buildings on a street front or in a district. In contemporary settings, planning and construction do not begin with a blank slate. Rather, new structures are inserted into an existing built environment, which must be respected for its historical heritage and its contributions to the new. Students in this concentration are encouraged to draw from courses related to landscape architecture and historic preservation in the School of Architecture.

Suggested courses for students selecting this concentration include
- PPD 530 Historical Analysis of Urban Form and Planning Practice Units: 2
- PPD 615 Comparative Urbanization, Development, and Inequality Units: 4
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 623 Community Development and Site Planning Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 692 Transportation and the Environment Units: 4

Social and Community Planning
gives specific attention to the changing needs of neighborhood residents and to the ways in which different planning policies, programs and activities contribute to resident well-being.

Community planning is a process of organizational change that links residents and services to produce communities that are safe, healthy and socially connected. Achieving these goals demands that residents actively advocate for their communities.

Suggested courses for students selecting this concentration include
- PPD 606 Urban Health Policy Units: 4
- PPD 617 Urban Demography and Growth Units: 4
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 620 General Plans Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 686 U.S. Immigration Policy Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4

Sustainable Land Use Planning
centers on community land use planning set in the context of regional growth or decline. The planning process involves forecasting transportation means, population growth and housing needs, together with providing comprehensive planning to accommodate that growth in a way that preserves and enhances local quality of life. Envisioning better futures, livability, environmental protection accessibility, mobility and affordable housing production
are all part of smart growth strategies for sustainable regional growth.

**Suggested courses for students selecting this concentration include**
- PLUS 611
- PPD 615 Comparative Urbanization, Development, and Inequality Units: 4
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 620 General Plans Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 627 Design Skills for Urban Planners Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 4
- PPD 692 Transportation and the Environment Units: 4
- PPD 694 Coastal Policy and Planning Units: 4

**Transportation and Infrastructure Planning**

is the combination of vital functions that determine the efficiency and productivity of a city. Issues of access and mobility of urban residents must be addressed. Circulation of workers from home to workplace, and of residents to shopping and services, are fundamental determinants of land use and urban form. Students in this concentration acquire mastery of the basics of transportation analysis, with emphasis on analysis of different policies that serve transportation and infrastructure needs within urban areas.

**Suggested courses for students selecting this concentration include**
- PPD 557 Modeling and Operations Research Units: 4
- PPD 588 Introduction to Transportation Planning Law Units: 3
- PPD 589 Port Engineering: Planning and Operations Units: 3
- PPD 621 Environmental Impacts Units: 4
- PPD 630 Urban Economic Analysis Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 635 Principles of Transportation Systems Analysis Units: 4
- PPD 692 Transportation and the Environment Units: 4

**Concentration Gateway Courses**

Students are required to complete one methodology course related to participating in the comprehensive examination. The following courses are required for their concentration:

**Economic Development:**
- PPD 639 Introduction to Community and Economic Development Units: 4

**Preservation and Design of the Built Environment:**
- PPD 644 Shaping the Built Environment Units: 4

**Social and Community Planning:**
- PPD 628 Urban Planning and Social Policy Units: 4

**Sustainable Land Use Planning:**
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4

**Transportation and Infrastructure Planning:**
- PPD 634 Institutional and Policy Issues in Transportation Units: 4

**Concentration Methodology Courses**

Students are required to complete one methodology course related to their concentration. Students are encouraged to complete a second methodology course among their electives. The following courses are required for their concentration:

**Economic Development:**
- PPD 625 Planning and Economic Development Finance Units: 4

**Preservation and Design of the Built Environment:**
- PPD 627 Design Skills for Urban Planners Units: 4

**Social and Community Planning:**
- PPD 616 Participatory Methods in Planning and Policy Units: 4

**Sustainable Land Use Planning:**
- PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4

**Transportation and Infrastructure Planning:**
- PPD 633 Urban Transportation Planning and Management Units: 4, 2 years

**Additional Requirements**

**Comprehensive Examination**

Successful completion of a comprehensive examination is required of each student seeking the Master of Planning degree (except for students pursuing the dual degree with either economics or gerontology). Students pursuing the dual degree with real estate development can choose the MPI or MRED examination. The comprehensive examination integrates accumulated lessons of the core courses and planning studios. Students are also expected to utilize material covered in their concentration and electives.

The comprehensive examination is given only in the spring semester of each year. Students usually take the examination in the last semester of their second year. Students must declare their concentration during the fall semester prior to completing the comprehensive examination in the spring semester. They must have completed the gateway and methodology courses in the declared concentration prior to taking the comprehensive examination.

The MPI Program degree committee administers the comprehensive examination. Examinations are graded on a pass/fail basis. Students who fail the examination may take it a second time the next year. The examination may only be repeated once.

**Planning Electives**

Students are encouraged to select electives related to their course of study. A Price international laboratory course is especially encouraged.

**Internship**

Students working toward the Master of Planning degree must complete an internship of at least 10 weeks duration and 400 hours in an organization engaged in planning or a closely related activity. Students must submit a report to the director of career services describing and evaluating the internship experience. Arrangements must also be made for an evaluative report of the internship by the student's supervisor submitted directly to the academic adviser. The internship is not for unit credit.

Students often fulfill their internship while working part-time in a planning-related job during their course of study in the program or in the summer between the two academic years. If a student has had equivalent career experience prior to admission to the program, the MPI director may waive the internship requirement on the recommendation of the student's academic adviser.

The Price Office of Career Services actively works with school alumni and area planning organizations to assist students in obtaining appropriate internships. Numerous internship opportunities are available in the greater Los Angeles area. The student is responsible for securing the internship and fulfilling the requirement.

**Directed Research**

With the advice of the faculty, a student may elect to enroll in directed research as an elective. Working directly with a faculty member, the student pursues an interest or problem appropriate to the student's program of study.

The faculty member supervising the student must approve the final product of directed research. The final product may be a written report, article, graphic formulation, physical model, mathematical—statistical analysis, computer output or film — depending on the most appropriate expression of the research undertaken.

**General Requirements**

**Residence and Course Load**

The Master of Planning normally requires two academic years of full-time study. Courses are also scheduled to allow completion on a part-time basis.
At least 36 units of graduate-level study must be done in residence at USC. The residency requirement may not be interrupted without prior permission from the Price School of Public Policy. Students accepted into the program with academic deficiencies will require a correspondingly longer time to complete their course work. Students seeking the degree on a part-time basis must take at least one course each semester.

Students must be enrolled at USC for the fall and spring semesters each year until all degree requirements have been met. Students who find it necessary to be excused from a semester of registration must request a leave of absence from the Academic Programs Office by the last day to drop/add courses of the semester in question; such leaves may be granted for up to one year. For additional information refer to USC policies governing continuous enrollment, readmission, and leaves of absence in the Academic Policies section of this catalogue.

Time Limits
All requirements for the Master of Planning must be completed within five calendar years from the beginning of the semester in which the student was admitted to the program. University regulations prohibit the acceptance of credits for courses taken toward the Master of Planning degree more than seven years after the date they were successfully completed.

Grade Point Average Requirement
While enrolled in the program a student must maintain a grade point average of at least a 3.0 for all courses taken toward the degree.

Probation and Disqualification
Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on academic warning.

A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines that the student is deficient in academic achievement or in another qualification required for the attainment of the Master of Planning degree.

Course Exemptions and Transfer of Credits
Graduate work by transfer may be accepted from approved graduate schools as determined by the USC Articulation Office upon recommendation of the dean of the school. Not more than 12 units of graduate work, with grades of B or better may be transferred for credit to the Master of Planning degree.

The following courses, or their equivalents, cannot normally be transferred for unit credit from other institutions: PPD 500, PPD 501a, PPD 524, PPD 525, PPD 526, PPD 527, PPD 529, PPD 531, PPD 533, PPD 590, PPD 594a, PPD 594b. Undergraduate work will not be credited for advanced or graduate standing. Students may petition to receive subject credit for these courses; but unit requirements must be met through the completion of additional electives.

Some applicants for admission to the school have been engaged in work in planning, development or closely related activities. Although this experience may have been beneficial to the students involved and may satisfy the internship requirement, it may not be considered equivalent to academic education.

Planning and Development Studies (MPDS)
The Master of Planning and Development Studies degree is designed for mid-career professionals in planning, development or related disciplines who desire to update and/or redirect their professional skills and careers. The program is very flexible, allowing students to pursue areas of expertise that they find valuable in their present or future careers. Entering students must have a minimum of five years of planning, development or related professional work experience.

Curriculum Requirements
The Master of Planning and Development Studies program requires completion of 28 units. Basic degree requirements consist of two core courses; 16 units in a concentration area approved by an adviser; and an integrative seminar course during which the student completes a written and oral comprehensive examination.

Required Courses
- PPD 611 Policy Issues in Planning and Development Units: 4
- PPD 612 Research and Analytical Techniques Units: 4
- PPD 638 Integrative Seminar Units: 4 (normally in the last semester in conjunction with the comprehensive examination)

Concentration Area(s)
Students elect a concentration area from one of three already defined or, with prior approval by an adviser, design a concentration from Price School of Public Policy courses and USC graduate courses. A minimum of eight units must be Price School of Public Policy courses. The three defined concentration areas are:

Community Economic Development
Select 16 units from the following courses:
- PPD 618 Housing Facilities and Community Development Units: 4
- PPD 623 Community Development and Site Planning Units: 4
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 625 Planning and Economic Development Finance Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- RED 501 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3

Environmental Policy and Planning
Select 16 units from the following courses:
- PLUS 600 Environmental Goods in Planning and Development Units: 4
- PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs Units: 4
- PPD 531L Planning Studio Units: 4, 8, 12
- PPD 617 Urban Demography and Growth Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 620 General Plans Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 622 Seminar in Urban Development Units: 4
- PPD 631 Geographic Information Systems for Policy, Planning, and Development Units: 2
- PPD 634 Institutional and Policy Issues in Transportation Units: 4
- PPD 712 Seminar in Public Policy Units: 4

International Planning and Development
Select 16 units from the following courses:
- PLUS 631 Seminar in Physical Planning and Design in Developing Countries Units: 4
- PLUS 632 National Urban Policy in Developing Countries Units: 4
- PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs Units: 4
- PLUS 635 Urban Finance Units: 4
- PLUS 640 International Urban Development Units: 4
- PPD 626 Public/Private and Mixed Enterprises Planning Units: 2, 4
- RED 583 International Development Opportunities Units: 2
- RED 585 Comparative International Development Workshop Units: 2, 3, 4
Admission

education. For students involved, it may not be considered equivalent to academic work engaged in planning, development or closely related fields.

Transferred for unit credit from other institutions: PPD 611, PPD 612 for the Master of Planning and Development Studies degree. Credit toward the Master of Planning and Development Studies degree may be transferred for unit credit, with grades of B or better, from approved graduate schools as determined by the USC Degree Progress Office and/or development office or firm. The student will: (1) prepare a professional-quality document; (2) present the solution to a faculty committee with invited sponsor guests; and (3) have an oral defense. Students who fail the examination may take it again within one year, but it may only be repeated once.

General Requirements

Residence and Course Load

The Master of Planning and Development Studies may be completed in one academic year of 12 units in the fall and spring semesters and the four-unit integrative seminar/comprehensive examination the following summer semester.

At least 18 units of graduate study must be done in residence at the University Park Campus, the USC State Capital Center or at an approved off-campus study center.

Time Limit

Students in the program must complete all requirements for the Master of Planning and Development Studies within five calendar years from the beginning of the semester in which the student was admitted to the program.

Grade Point Average Requirement

While enrolled in the program, a student must maintain a grade point average of at least 3.0 (A = 4.0) for all courses taken toward the degree.

Probation and Disqualification

Any student with a cumulative grade point average below 3.0 for all courses taken in the program will be placed on academic probation. A student whose semester grade point average is below 3.0, but whose cumulative grade point average is 3.0 or higher, will be placed on warning.

A student may be disqualified to continue toward a graduate degree if the student has been on academic probation for two consecutive semesters. Whether or not on academic probation or warning, a student may be disqualified at any time from continuing in the program if the dean of the school, after consultation with the faculty, determines the student is deficient in any degree requirement.

Course Exemption and Transfer of Credits

Credit for graduate work may be transferred from approved graduate schools as determined by the USC Degree Progress Department in the Office of Academic Records and Register on recommendation of the dean of the school. Not more than four units of graduate work, with grades of B or better, can be transferred for credit toward the Master of Planning and Development Studies degree.

The following courses, or their equivalents, may not normally be transferred for unit credit from other institutions: PPD 611, PPD 612 and PPD 638. Undergraduate work may not be transferred into the degree program for unit credit.

Some applicants for admission to the school will have been engaged in work in planning, development or closely related activities. Although this experience should be beneficial to the students involved, it may not be considered equivalent to academic education.

Public Administration (MPA)

Admission

The Master of Public Administration programs are under the jurisdiction of the Price School of Public Policy. All admissions decisions are made by the school, following guidelines set by the university. See the Admission section of this catalogue.

All questions about the programs and all materials required for admission should be submitted to: MPA Programs, Admissions Office, RGL 111, University of Southern California, Los Angeles, CA 90089-0626.

Admission to each of these programs is determined by the faculty and admissions committees connected with those areas. Application packages should be sent directly to the program office.

Applications

The admission decision is made using criteria which include verification that the applicant has completed a bachelor's degree from an accredited college, has maintained a B average in undergraduate course work and has earned an acceptable score on the verbal and quantitative portions of the Graduate Record Examinations (GRE) or the Graduate Management Admissions Test (GMAT). Other elements of the applicant's educational and experiential background are also evaluated. International students whose native language is not English must also submit a Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) score.

Each candidate should submit the following to the school: (1) official transcripts of all previous college and university work, showing an awarded degree where appropriate; (2) copies of GRE or GMAT scores; (3) an essay answering questions on the admission questionnaire provided by the school; (4) an up-to-date resume which includes academic and professional accomplishments; (5) three or more letters of evaluation from previous instructors and from professional associates who can attest to the applicant's potential; (6) completed USC Graduate Admission Application, along with the nonrefundable processing fee; and (7) completed Price School of Public Policy Supplemental Graduate Application.

International applicants may be asked to supply additional information. See the Graduate Admission section of this catalogue.

Deadlines

Applications for admission are evaluated monthly. Those students who are also applying for financial aid, or who must meet other deadlines for admission, should submit application materials early enough to allow the admissions decision to be made in advance of those other deadlines.

The admissions process generally takes about four to six weeks after all necessary materials have been submitted.

Pre-Service/In-Service Designation

Most MPA students are classified as pre-service or in-service students at the time of admission. Pre-service students are those who enter the program with at least two years of professional work experience. In addition to course work, pre-service students complete an internship. Students pursuing the Intergovernmental Management specialization or one of the dual degree programs are not classified as pre-service or in-service. Appeals for reclassification of this designation must be submitted during the first semester of enrollment.

Prerequisites

Social Science

Any undergraduate major is acceptable as preprofessional background, provided the applicant has had at least 12 semester units (16 quarter units) of undergraduate course work in cultural anthropology, economics, ethnic studies, social and human geography, political science, sociology or related social science area courses; no more than two of these courses may be in the same field.

Deficiencies in the social science prerequisite may be met while in residence by taking appropriate courses in other departments, but such course work may not be counted toward the course requirements for the master's degree.

Statistics

A basic competence in descriptive and inferential statistics is also
required for the MPA programs. This prerequisite may be met in one of two ways:

1. Entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation.
2. If students do not satisfy this prerequisite, they will be required to take PPD 502x Statistical Foundations for Public Management and Policy, a two-unit graduate level inferential statistics course. They must complete the course with a grade of "B" or better. The units associated with this class may not be used toward the MPA degree.

All prerequisites must be fulfilled within the first 12 units of graduate course work. The statistics prerequisite must also be met before enrolling in PPD 542, PPD 557, PPD 638 or PPD 666.

International Students

Students applying for graduate programs should send applications and appropriate documents to the MPA Programs Admissions Office, which processes all such applications.

Admission

A student is accepted for admission only for the semester indicated on the letter of admission. If the student desires to enter at another time, or if the student cannot arrive on campus in time for the semester in which he or she was admitted, the student must contact the MPA Programs Admissions Office in writing. That office will contact the Office of International Admissions.

Students who do not enroll for the semester indicated on the letter of admission cannot be guaranteed admission to a later session. They will need to work with the MPA Programs Admissions Office to determine procedures to follow.

Registration Requirements

International students on student visas must be registered as full-time students as arranged by the Office of International Services. Doctoral students must carry a load of at least 6 units to be considered full-time students. A full-time graduate load is eight units. Such students are not eligible to be considered students without formal registration and may be in violation of immigration laws when not properly registered.

International students who have questions about registration requirements should contact the Office of Recruitment and Student Affairs.

Admission Status

MPA applicants may be permitted to take courses before the admission process is completed or they may be admitted before certain conditions have been met; each student must, however, attain regular status (standing) admission to the school prior to or upon completion of 8 graduate units.

Limited Status Students (Preadmission)

Students taking courses who have not been admitted to the school are designated limited status students. These students may be taking courses to meet prerequisites; they may be waiting for part of their application package materials to arrive; or they may be investigating whether an MPA is the best choice for them.

To be considered for limited status enrollment, interested students need to complete the Price School of Public Policy Limited Student Application for Enrollment form and submit official or unofficial copies of their transcripts from their bachelor's degree granting institution. Students with a 3.0 grade point average (A = 4.0) may enroll in up to 8 units of graduate courses in the Price School of Public Policy.

Price School of Public Policy Limited Student Application for Enrollment forms may be obtained from the Admissions Office, Price School of Public Policy, University of Southern California, RGL 111, Los Angeles, CA 90089-0626; (213) 740-6842. Limited students may only enroll during the in-person registration period (the week before classes begin).

Limited status students may apply only 8 units of appropriate graduate work toward the MPA after admission. Units beyond these first 8 must be petitioned for through the school. Students on limited status are encouraged to complete the application and admission processes before completing those first 8 units.

PhD Candidates

PhD students who pass the qualifying examinations and complete the MPA course requirements or their equivalent during their course work at USC may, with the recommendation of the coordinator of the MPA program, apply for and receive the MPA degree.

MPA Curriculum

The MPA course requirements are designed to address current and future professional competencies for accomplishment; to establish a sequence of basic required courses; and to maximize student choice and depth in specialized studies. The curriculum requires 40 units for completion (41 for pre-service students). Pre-service students, that is, those who have less than 25 months' employment experience in a professional level position, are also required to take an internship that includes a one-unit seminar.

Core Courses

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 546 Capstone in Public Administration Units: 4

Note:

Three of the required core courses (PPD 500, PPD 501a, PPD 501b and PPD 540) provide the foundation to the field and the fourth (PPD 546) serves as a capstone course. PPD 540 must be taken in the first semester or within the first 12 units and PPD 546 must be taken in the final semester or last 12 units of the student's program.

Management Competencies

MPA students are expected to develop managerial competencies in three areas by taking at least one course in each of the following areas:

Management Competencies

Analytic Methods

- PPD 542 Policy and Program Evaluation Units: 4 * or
- PPD 557 Modeling and Operations Research Units: 4 *

Organizational Behavior

- PPD 545 Human Behavior in Public Organizations Units: 4

Note:

(With the approval of the MPA or center director, the student may choose a human resource management elective to fulfill this requirement.)

Finance

- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Note:

(With the approval of the MPA or center director, the student may choose a financial management elective to fulfill this requirement.)

*The statistics requirement must be met before enrolling in PPD 542, PPD 557 or PPD 666.

Additional Requirements

Area Cluster Electives

Students may elect to devote their elective courses (14 units) to gain depth in a designated area cluster. These areas include the following: community and economic development, environmental management and land-use policy, financial management, health administration, human resources management, information technology management, intergovernmental management, international policy and management, local government, nonprofit
management, planning, public policy, real estate development, transportation, and urban form and design.

Students may elect to follow a more generalist perspective and take their elective courses from the array of elective offerings.

**Thesis Option**

Thesis option, PPD 594a Master's Thesis, PPD 594b Master's Thesis (4 units), may be taken as part of the elective category. Information regarding the thesis contract is available from the MPA director. All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to form and method of preparation.

**Internships**

Pre-service students — that is, those with fewer than 25 months' employment in a professional level position — are required to complete at least 300 hours of an internship and an internship seminar (PPD 543). MPA students may enroll in the internship seminar during their first semester. Students complete internships in conjunction with the internship seminar.

**Specialization in Intergovernmental Management**

In addition to the substantive area cluster, MPA students may choose the specialization in intergovernmental management.

Students enroll in courses and serve in internships in at least two levels of governance. A student may take courses toward this specialization at either the Los Angeles or USC State Capital Center. Internships may be taken through either of these centers. Students electing this specialization meet with the intergovernmental management coordinator at either the Los Angeles or the USC State Capital Center to design their program.

To complete this specialization, students complete three courses from the following lists (with at least two drawn from the first list):

**List 1.**
- PPD 661 Intergovernmental Management: Local Perspective Units: 4
- PPD 662 Intergovernmental Management: State Perspective Units: 4
- PPD 663 Intergovernmental Management: Federal Perspective Units: 4
- PPD 669 Federal Management Systems Units: 4
- PPD 670 Management of Intergovernmental Programs Units: 4

**List 2.**
- PPD 688 Business and Public Policy Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4

**Public Policy (MPP)**

The Master of Public Policy (MPP) program is designed to prepare students for careers as professional policy analysts. Through an interdisciplinary curriculum and real world experience, students gain an understanding of the policy process, and develop the capacity to formulate, analyze and implement public policy.

The MPP degree is offered at the University Park Campus only.

**Requirements for Admission**

Candidates for admission must have maintained a minimum B (3.0) average during their undergraduate degree work and attain a score of at least 500 on the verbal and at least 500 on the quantitative sections of the GRE. Exceptions to these requirements are allowed if justified by outstanding work experience, letters of recommendation, or demonstrated improvement in academic performance during undergraduate studies.

Applicants must have a bachelor's degree from an accredited institution and have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation, and must pass the MPP lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502, the units associated with this class may not be used toward the MPP degree.

**Degree Requirements**

Students are required to complete 48 units of graduate work, with 24 units of core and 24 elective units divided between management, analytic and specialization areas.

**Required Core Courses**

- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 1, 3

**Note:**

*During a student's final semester of the program, the Policy Analysis Practicum is required as a component of the program's 48 units of course work. The practicum is an opportunity for students to apply their analytic skills to a current problem for an actual client. Admission to the practicum is granted on the approval of the MPP director, and normally requires prior completion of most required courses.

**Electives**

Students complete 4 units of management elective, 8 units of analytic elective and 12 units of specialization elective. These electives typically are selected to support specialization in a substantive policy area (e.g., environment or community economic development).

**Management Elective (Choose 4 Units)**

- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- PPD 654 Information Technology Management in the Public Sector Units: 4
- PPD 656 Political Management: Theory and Applied Techniques Units: 4
- PPD 662 Intergovernmental Management: State Perspective Units: 4
- PPD 673 Strategic Planning in the Public Sector Units: 4
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

**Analytic Elective (Choose 6-8* Units)**

- COMM 650 Survey Construction and Validation Units: 4
- PM 542 Social Network Analysis Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 557 Modeling and Operations Research Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 617 Urban Demography and Growth Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 2
- PPDE 661 Methods for Equity Analysis Units: 4
- SOCI 621L Quantitative Methods and Statistics II Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

**Note:**

*Students who select PPDE 660 to meet their analytic requirement will add the remaining 2 units to the 12 specialization units in consultation with their academic adviser.

**Additional Requirements**

In addition, students take 12-14 units of additional electives selected by the students with the advice of the academic adviser or
The core of the EMUP revolves around the interlocking themes of urban economics, citizen participation and governance, urban design and site analysis, and data analytics and visualization. The degree does not train narrow experts in any of those four areas. Instead, the degree trains professionals who will be leaders in fields where the interplay of those themes is essential to private sector development, public sector planning and policy, and the goals of non-profit entities.

The target audience is experienced professionals in fields allied with urban planning and public policymaking, where place is a central feature: community development and redevelopment, real estate development, architecture, urban design, law, public policy, economic development, and infrastructure.

The degree is designed to be completed by working professionals in four semesters of part-time study. The degree will be 24 units, taken over four semesters. Each semester is 5 units of online course work. There are also two four-day in-person intensives.

For admission information, please go to the USC Price Website.

**Required Courses (24 Units)**

Students will take 12 courses for this program.

- PLUS 660 Economics of a Productive Development - A Public/ Private Perspective Units: 3
- PLUS 661 Politics and Process of Urban Development Units: 2
- PLUS 662 Planning and Development Case Study Units: 1
- PLUS 663 Designing Livable Environments I Units: 1
- PLUS 664 Urban Political Economy and Urban Development Units: 2
- PLUS 665 Economics for a Productive City Units: 3
- PLUS 667 Effective Engagement with Stakeholders Units: 3
- PLUS 668 Big Data for Planning and Development Units: 2
- PLUS 669 Designing Livable Environments II Units: 1
- PLUS 670 Communicating Data for Planning and Development Units: 1
- PLUS 671 Leading a Collaborative City Units: 4
- PLUS 672 Integrating Concepts for Action Units: 1

**Graduate Certificate**

**City/County Management Certificate**

The graduate Certificate in City/County Management is for students interested in acquiring the foundational training needed to pursue a career in public service leadership and provides students with the necessary knowledge, training and skills development that will ensure their professional success as a future city/county manager.

The Certificate in City/County Management consists of 16 units of graduate course work.

**Required Courses (16 Units)**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 651 Seminar in the Administration of Local Government Units: 4
- PPD 685 Human Resources Management in Public and Non-Profit Sectors Units: 2

**Additional Requirements**

**Admission Requirements and Application Procedures**

Applicants for the Certificate in City/County Management who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the program administrator.

Applicants for the Certificate in City/County Management who have not matriculated at USC must make a formal application for admission to the certificate program; provide transcripts of all college work, a resume and one letter of recommendation.

Please contact the USC Price Office of Admissions at uscprice@usc.edu for more information.
Health Management and Policy Programs Certificate

The Health Management and Policy Programs of the Price School of Public Policy offers certificate programs in specialized areas of health care administration. The certificates are designed to provide practitioners with means for improving or updating their knowledge and experience in a challenging and professionally relevant course of study. Certificates are offered in Administration of Long Term Care Programs and Management of Ambulatory Care Systems. Applicants for the certificate programs must make formal application for admission to the certificate program, provide transcripts of all college work, supplemented by three letters of recommendation, including one from a former instructor, a resume and a personal statement describing their career goals and the relationship of the certificate to those ends.

It is expected that applicants to the certificate programs should have graduated from a recognized college with an approximate grade point average of B in the last 60 units of college work. Non-graduates may be admitted if the director believes that there is evidence to suggest that the applicant is capable of graduate level work.

Successful completion of the certificate will not be a deciding factor in the admission decision for the degrees offered by the Health Management and Policy Programs or the Price School of Public Policy.

Ambulatory Care

The Ambulatory Care program requires 20 units of graduate credit including a 16-unit core and a four-unit specialized seminar in the area of the certificate concentration.

Core courses (16 units) are:

- PPD 509 Problems and Issues in the Health Field Units: 4
- PPD 510a Financial Management of Health Services Units: 4 or
- PPD 516 Financial Accounting for Health Care Organizations Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4 or
- PPD 557 Modeling and Operations Research Units: 4
- one elective

One specialized seminar as follows (four units):

- PPD 600 Management of Managed Care Organizations Units: 2
- PPD 601 Management of Long-Term Care Organizations Units: 4
- GER 550 Administration and System Management in Programs for Older Adults Units: 4

Certificate in Administration of Long Term Care Programs

The Certificate in Administration of Long Term Care Programs requires 16 units of course work

The required courses are

- GER 500 Perspectives on a Changing Society: An Introduction to Aging Units: 4
- PPD 513 Legal Issues in Health Care Delivery Units: 2
- PPD 518 Quality of Care Concepts Units: 2
- PPD 601 Management of Long-Term Care Organizations Units: 4
- PPD 510a Financial Management of Health Services Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Note:
The program can be completed via distance learning.

Additional Requirements

Completing a certificate program does not constitute completion of or admission to the Master of Health Administration (MHA) or Executive Master of Health Administration (EMHA) degree programs nor will it be a deciding factor in the admission decision to those programs. Students in the MHA program, however, may qualify for award of these certificates if they complete the applicable course requirements.

Homeland Security and Public Policy Certificate

This graduate certificate program provides students with a foundation in homeland security and public policy. It is designed to provide expertise to individuals working in the field with an interest in refining their risk and security analysis skills as well as others with interest in the field. The certificate develops risk analysis skills and provides students with the knowledge needed to understand the issues surrounding the increasingly important issues of homeland security and public policy.

Applicants for the Certificate in Homeland Security and Public Policy who are currently enrolled in a graduate program at USC in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services adviser.

Applicants for the Certificate in Homeland Security and Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The certificate in homeland security and public policy consists of 15–16 units of graduate course work depending on the course selected.

Required Core Course (4 units)

- PPD 683 Homeland Security and Public Policy Units: 4

Choose three of the following (11–12 units):

- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 557 Modeling and Operations Research Units: 4 or
- ISE 530 Optimization Methods for Analytics Units: 3 or
- ISE 562 Value and Decision Theory Units: 3
- PPD 347 Risk Analysis Units: 4

International Policy and Planning Certificate

The Graduate Certificate in International Policy and Planning strengthens students' understanding of global policy, planning and public management issues underscoring comparative differences in policy approaches and governance institutions across countries, builds a core foundation of knowledge about the governing institutions and agreements that operate on a global level, and prepares students for working in international organizations. The professions of graduate students in the Price School (public administration, public policy, urban planning, health policy and management, and real estate development) are globalizing. To analyze and understand the impact of globalization on their chosen field and to be competitive in a global context, emerging leaders in these professions should be conversant in thinking and operating on a global scale. Earning this certificate better prepares students for the professional demands of the globalized era.

The Certificate in International Policy and Planning consists of 14 units of graduate course work.

Required Courses (8 units)

Core Courses (8 units)

- PPD 677 International Development Administration Units: 4

Plus one of the following (4 units):

- PPD 531L Planning Studio Units: 4, 8, 12
- PPD 532L International Planning and Development Laboratory Workshop Units: 4, 5, 6, 7, 8
- PPD 613a Policy, Planning, and Development International Laboratory Units: 1
- PPD 613b Policy, Planning, and Development International Laboratory Units: 3
Note:
*If students select PPD 613a and PPD 613b, both must be completed.

Elective Courses (6 units)
Students select at least 6 units of elective courses. The elective courses may be taken from within the Price School of Public Policy course offerings or other USC units. The electives will be selected from three topic areas: international development; urbanization, policy issues and sustainability; and global health. The electives will be selected in consultation with and approved by the faculty advisor for the certificate program. The electives should be chosen such that the combination of core classes and electives produces a well-rounded and rigorous preparation for professional practice in a globalized context.

Additional Requirements

Admission Requirements and Application Procedures
Applicants for the Certificate in International Policy and Planning who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the program administrator.

Applicants for the Certificate in International Policy and Planning who have not matriculated at USC must make a formal application for admission to the certificate program; provide transcripts of all college work, a resume and one letter of recommendation.

Please contact the USC Price Office of Admissions at uscprice@usc.edu for more information.

Nonprofit Management and Policy Certificate
This graduate certificate program provides students with a foundation in nonprofit management and policy. The certificate develops nonprofit management skills and provides students the knowledge needed to understand the increasing importance of nonprofits in society and their role in forming and influencing public policy.

Applicants for the Certificate in Nonprofit Management and Policy who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program, which may be obtained from the student services adviser.

Applicants for the Certificate in Nonprofit Management and Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The certificate in nonprofit management and policy consists of 16 units of graduate course work.

Core Courses (12 Units)
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 687 Strategic Management in the Nonprofit Sector Units: 4
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4

Additional Requirements

Elective Course
Students select 4 elective units. The elective course(s) may be taken from within the Price School of Public Policy course offerings or other USC units. The elective selection must be approved by the faculty adviser for the certificate program.

Up to 10 units of the certificate may be applied to both the certificate and the core requirements or electives in the Master of Public Administration program. Up to 12 units may be applied toward both the certificate and core or electives in the Master of Public Policy program.

The Master of Public Administration director will provide advisement.

Political Management Certificate
This graduate certificate program provides students with a foundation in political management. It is designed to provide expertise for students who wish to work in public policy advocacy, in political relations, with elected officials and with the public, nonprofit or private sectors.

Applicants who are currently enrolled in a graduate program at USC and are in good standing with a 3.0 GPA only need to submit the appropriate paperwork for adding the certificate program which may be obtained from the student services adviser.

Applicants who have not matriculated at USC must make a formal application for admission to the certificate program, as well as provide transcripts of all college work, a resume and one letter of recommendation.

The Certificate in Political Management consists of 14–16 units of graduate course work depending on the courses selected.

Core Course (4 Units)
- PPD 658 Advocacy in Public Administration Units: 4

Foundation Course
Select one: 2 or 4 units
- PPD 500 Intersectoral Leadership Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 684 Leadership Development in the Public and Nonprofit Sectors Units: 2

Choose Two of the Following (8 Units)
- PPD 616 Participatory Methods in Planning and Policy Units: 4
- PPD 656 Political Management: Theory and Techniques Units: 4
- PPD 657 Political Leadership in Public Organizations Units: 4
- PPD 693 Communicating Public Policy Units: 4

Note:
Up to 10 units of the certificate may be applied toward both the certificate and to the core requirements or electives in the Master of Public Administration. Up to 12 units may be applied toward both the certificate and toward core or electives in the Master of Public Policy or Master of Planning.

The director of the graduate programs in public policy and management will provide advisement.

Public Financial Management Certificate
Complex social and economic climates - at the national, state, and local level - make sound public financial management essential to the fiscal sustainability and growth of communities everywhere. This graduate certificate program provides students with the skills to analyze financial information, assess public sector finance systems, prepare and manage budgets, and ensure the financial accountability of public organizations.

Required Courses
Complete each of the following courses (12 units):
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 647 Finance of the Public Sector Units: 4

Elective Courses
Complete one of the following (4 units):
- PPD 624 Local Economic Development: Theory and Finance Units: 4
- PPD 625 Planning and Economic Development Finance Units: 4
- PPD 652 Financial Administration in Local Government Units: 4

Note
Course substitutions are permitted with advanced approval of the
program director. Any of the above courses taken to satisfy normal degree requirements count also toward this certificate requirements up to the university’s maximum double counting rules.

Public Management Certificate
This program provides students with a solid foundation of training and skills in management. Individuals who need training in public administration but who are unable to enroll for the Master of Public Administration (MPA) degree may find this certificate program of particular interest. Key to the program’s success is the close integration of the academic curriculum and the application of skills and theory to managerial work assignments. Students may enroll at any time throughout the year.

The program consists of four courses:
• PPD 540 Public Administration and Society Units: 4
• PPD 542 Policy and Program Evaluation Units: 4
• PPD 545 Human Behavior in Public Organizations Units: 4
• and one elective selected from any 500-level offering in the Price curriculum.

Public Policy Certificate
This graduate certificate program provides students with a foundation in public policy analysis. It is designed to provide expertise in public policy to individuals who do not want to pursue the Master of Public Policy degree. Potential students include those who are pursuing another degree and want to complement that work with a specialization in public policy, as well as qualified students holding a bachelor’s degree who have not matriculated at USC. The certificate develops policy analytic skills and their integration with a policy issue area of interest to the student.

Applicants for the Certificate in Public Policy who have not matriculated at USC must make a formal application for admission to the certificate program, provide transcripts of all college work, a resume and one letter of recommendation.

The program consists of 16 units of graduate course work.

Core Courses (8 Units)
• PPD 554 Foundations of Policy Analysis Units: 4
• PPD 555 Public Policy Formulation and Implementation Units: 4

Choose 4 units from:
• PPD 501a Economics for Policy, Planning and Development Units: 2
• PPD 501b Economics for Policy, Planning and Development Units: 2
• PPD 557 Modeling and Operations Research Units: 4
• PPD 558 Multivariate Statistical Analysis Units: 4
• PPD 560 Methods for Policy Analysis Units: 4

Additional Requirements
Choose one course from a policy area (4 Units)
There are many policy issues courses from which to choose (e.g., health, nonprofit, transportation, environment, housing).

The Master of Public Policy director will provide advisement.

Real Estate Development Certificate
This graduate certificate program provides students with a foundation of the key elements of real estate development. It is designed to provide these foundations for non-Master of Real Estate Development students who wish to obtain this knowledge to complement their graduate program of study as well as their careers. For admissions information, visit the Price School Website.

The certificate in real estate development consists of 12 units of graduate course work: RED 510, RED 511, and RED 512.

Social Innovation Certificate
Persistent social problems such as concentrated poverty, environmental degradation, and income inequality demand innovative new solutions to addressing these issues and improving the quality of life for all members of society. This certificate prepares future social innovators to design innovative policy solutions, create social enterprises and develop new financial tools to speed the pace of social innovation.

Students will take 13-15* units of course work depending on the electives chosen. There are two required courses (7 units) and students select two elective courses.

*Total unit value depends on elective courses selected.

Required Courses
• BAEP 591 Social Entrepreneurship Units: 2, 3
• PPDE 580 Social Innovation Units: 4

Electives (Student Select Two)*
*Students select two electives. Price courses are 4 units. Marshall courses are 3 units. Therefore, the total unit value completed for the certificate will vary depending on the courses selected.
• BAEP 564 Investing in Impact Ventures Units: 3
• MOR 555 Designing High Performance Organizations Units: 3
• MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3
• PPD 665 Contemporary Issues in Philanthropy Units: 4
• PPD 688 Business and Public Policy Units: 4
• PPD 689 The Nonprofit Sector and Philanthropy Units: 4
• PPDE 683 Social Finance and Development Units: 4

Social Justice Certificate
The graduate certificate in Social Justice is for students interested in understanding the set of factors that contribute to a broad range of disparities (or inequities) and the challenges that exist when managing, planning and policy making among diverse populations. The course work in this certificate focuses on the theories and analytic tools that are needed to assess issues in social justice.

The certificate in Social Justice consists of 12 units of graduate course work.

Core Courses (8 units)
Students will take two core courses.
• PPDE 664 Seminar in Social Justice and Public Policy Units: 4
• PPD 616 Participatory Methods in Planning and Policy Units: 4 or PPDE 661 Methods for Equity Analysis Units: 4

Elective Course
Students select one 4-unit elective course from the following:
• AMST 560 Readings on Race and Ethnicity Units: 4
• AMST 580 Readings in Cultural Studies Units: 4
• COMM 653 Research, Practice and Social Change Units: 4
• PPD 606 Urban Health Policy Units: 4
• PPD 616 Participatory Methods in Planning and Policy Units: 4 *
• PPD 617 Urban Demography and Growth Units: 4
• PPD 618 Housing Facilities and Community Development Units: 4
• PPD 628 Urban Planning and Social Policy Units: 4
• PPD 686 U.S. Immigration Policy Units: 4
• PPD 690 Alternative Dispute Resolution Units: 4
• PPDE 636 Urban Spatial Ethnography and Critical Cartography Units: 4
• PPDE 661 Methods for Equity Analysis Units: 4 *
• PPDE 663 Media for Policy Change Units: 4
• SOCI 642 Sex and Gender in Society Units: 4

Note:
* Students will take PPD 616 or PPDE 661 as their methodology course for the certificate. They may select the alternate course to satisfy the elective requirement but can not double count either course for this program.

Sustainable Policy and Planning Certificate
This graduate certificate program provides students with a foundation in policy and planning issues in sustainability and the environment. The certificate develops analytic and methodological skills and provides students the knowledge to understand the
increasing importance of issues surrounding the environment and sustainability in policy and planning.

For admissions information, please visit the Price Website. The Master of Planning director will provide advisement.

The Certificate in Sustainable Policy and Planning consists of 12-14* units of graduate course work:

**Required Courses (6 units)**
- PPD 568 Environmental Governance and Sustainability Units: 2
- PPDE 634 Methodology, Methods and Tools for Urban Sustainability Units: 2, 3, 4 *
- PPDE 660 Environmental Policy Design and Analysis Units: 2

**Elective Courses (6-8 units)**

Students select 6 to 8* units of electives.
- ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings Units: 3 *
- ENE 502 Environmental and Regulatory Compliance Units: 3 *
- ENE 505 Energy and the Environment Units: 3 *
- GEOL 525 The Science of Climate Change Units: 4
- MOR 566 Environmental Sustainability and Competitive Advantage Units: 1.5, 3 *
- PPD 587 Risk Analysis Units: 4
- PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions Units: 4
- PPD 621 Environmental Impacts Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4
- PPD 692 Transportation and the Environment Units: 4
- PPD 694 Coastal Policy and Planning Units: 4
- PPDE 632 Sustainable Cities Units: 4
- PPDE 644 Land Use and Transportation Planning Units: 4

**Note:**
*Students in the certificate program will take the 2-unit version of PPDE 634.

*If students select 3-unit courses, they will take 6-7 units of electives. Others will take 8.

**Transportation Systems Certificate**

The graduate Certificate in Transportation Systems is an interdisciplinary program administered by the Department of Civil Engineering. The certificate program allows students to specialize in transportation applications, while simultaneously receiving a degree in their home department. The certificate in transportation systems combines elements of transportation engineering with transportation policy, planning and project management. The program is especially appropriate for students intending to pursue careers as developers of transportation technologies or as implementors of technologies within government agencies.

Students electing the certificate program apply to the Department of Civil Engineering.

Course prerequisites for the program are:
1. one course in statistics or uncertainty, equivalent to CE 408, ISE 225 or PPD 404x;
2. one or two courses in engineering economy, equivalent to ISE 460;
3. one course in microeconomics, equivalent to ECON 203; and
4. one course in a high level programming language, such as C or Fortran.

These prerequisites may be satisfied after enrollment in the certificate program by taking the indicated courses or their equivalent. Graduate students cannot receive credit for courses numbered below 400. Detailed admissions requirements are published by the Department of Civil Engineering.

**Requirements for Completion**
The curriculum consists of five graduate courses for a total of 17 units.

**Required Courses**
- CE 471 Principles of Transportation Engineering Units: 3 or
- CE 519 Transportation Engineering Units: 3
- CE 583 Design of Transportation Facilities Units: 3 or
- CE 585 Traffic Engineering and Control Units: 3
- ISE 515 Engineering Project Management Units: 3
- PPD 633 Urban Transportation Planning and Management Units: 4, 2 years
- PPD 634 Institutional and Policy Issues in Transportation Units: 4

**Note:**
Qualified students holding a bachelor's degree also have the option of enrolling in the certificate program without receiving a separate graduate degree.

**Dual Degree Juris Doctor/Master of Public Administration (JD/MPA)**

**Curriculum Requirements**

**First Year**
Required law school courses

**Second and Third Year**
The remaining 39 units of law school courses, 32 additional units of public administration courses.

**MPA Core**
These courses are from the MPA core
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 546 Capstone in Public Administration Units: 4

**Management Competencies**
- PPD 542 Policy and Program Evaluation Units: 4 or
- PPD 557 Modeling and Operations Research Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4 or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4

6 units of PPD electives.

**Master of Health Administration/Master of Science in Gerontology (MHA/MS)**

Gerontology and health administration students can specialize in health care administration (profit and nonprofit) through the dual degree with the USC Leonard Davis School of Gerontology and the USC Price School of Public Policy's Health Administration Program. Students in the dual degree program must be admitted by both academic units and complete 78 units of post-graduate academic work.

**Gerontology Requirements**
- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GERO 591 Field Practicum Units: 1-12
- GERO 593 Research Methods Units: 4

**Total units: 36**

**Health Administration Requirements**
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 509 Problems and Issues in the Health Field Units: 4
USC PRICE SCHOOL OF PUBLIC POLICY

• PPD 510a Financial Management of Health Services Units: 4
• PPD 513 Legal Issues in Health Care Delivery Units: 2
• PPD 514 Economic Concepts Applied to Health Units: 4
• PPD 515 Strategic Management of Health Organizations Units: 4
• PPD 516 Financial Accounting for Health Care Organizations Units: 4
• PPD 517 Concepts and Practices in Managing Health Care Organizations Units: 2
• PPD 518 Quality of Care Concepts Units: 2
• PPD 545 Human Behavior in Public Organizations Units: 4
• PPD 558 Multivariate Statistical Analysis Units: 4
• PPD 601 Management of Long-Term Care Organizations Units: 4
• PPD 512 Health Administration Residency Seminar Units: 2

Total units: 42

Additional Requirements

Statistics: The statistics requirement for dual degree students is the same as those that apply to the Master of Health Administration. Program Adaptation: The USC Davis School of Gerontology will waive GERO 589 because students enrolled in this program will have a primary professional focus in health administration.

Students enrolled in the dual degree are not required to take PPD 511 (as opposed to the stand alone MHA degree students) because they develop the necessary proiciencies related to their career goals in long term care administration through other courses such as GERO 550, GERO 591 and GERO 593. In addition, PPD 601 is required for the dual degree (and not the stand alone MHA program) because most of these students will work in long-term care facilities and this course is critical for success in that market.

Students in the MHA stand alone program are required to complete a 1,000 hour residency at a health care organization, generally during the second year of study. Students in the dual degree program may be waived from this requirement with enrollment in GERO 591 which is a supervised experiential learning experience. Student in this situation may then waive PPD 512 and will take 2 units of Price electives for this dual degree.

Any course substitutions are done by petition on an individual basis and should be part of a carefully developed course of study. The USC Price School of Public Policy should be consulted concerning this program of study.

Master of Planning/Master of Arts, Economics (MPI/MA)

The USC Price School of Public Policy and the Department of Economics jointly offer a two-year program leading to the MPI and MA degrees. Applicants must apply to the Price School of Public Policy and the USC Graduate School and meet the admission requirements of both.

Requirements

Requirements for completion of the dual degree program are 58 units, including 24 units in economics and 34 units in planning.

Economics

• ECON 500 Microeconomic Analysis and Policy Units: 4
• ECON 501 Macroeconomic Analysis and Policy Units: 4
• ECON 513 Practice of Econometrics Units: 4
• ECON 594a Master's Thesis Units: 2
• ECON 594b Master's Thesis Units: 2
• ECON 594z Master's Thesis Units: 0
• Electives Economics Units: 8

Planning

• PPD 500 Intersectoral Leadership Units: 2
• PPD 524 Planning Theory Units: 2
• PPD 526 Comparative International Development Units: 2
• PPD 527 The Social Context of Planning Units: 2
• PPD 529 Legal Environment of Planning Units: 2
• PPD 533 Planning History and Urban Form Units: 2

Note:
2-unit courses may be offered in seven-and-a-half week blocks.

Additional Requirements

Planning Studios: PPD 531 (4, 4) to total 8 units.
Electives: 14 units of elective courses taken within the Price School of Public Policy.

Thesis: A thesis is required on a subject interrelating economics and urban planning and development. Students must register in a minimum of 4 units of ECON 594a, ECON 594b, ECON 594z (2-2-0) and maintain continuous registration until completion of the thesis.

Internship: Dual degree students in this program must fulfill the internship requirement.

During the summer after the first year of graduate study, the student normally serves an internship in a planning organization. The student must complete a thesis acceptable to both faculties.

Master of Planning/Master of Public Administration (MPI/MPA)

The Master of Planning/Master of Public Administration dual degree program is designed for the study of the relationships between planning and public administration. Administrative skills, budgeting and fiscal analysis, a knowledge of operations services of local governments, and formulation and conduct of planning operations within the context of municipal management are required. This dual degree program normally requires five semesters in residence.

Requirements

Requirements for completion of the dual degree program are 60 units, including 26 units in public administration, 20 units in planning and 14 units of electives (8 in planning), as follows:

Prerequisites: 12 undergraduate course credit units of social science, not more than 8 units in any one field, are required. Students must also satisfy the MPA statistics prerequisite and other prerequisites. PPD 525 satisfies the Price School of Public Policy prerequisite in descriptive and inferential statistics for students in the Master of Planning/Master of Public Administration dual degree program. Dual degree students completing PPD 525 with a grade of B or higher (A = 4.0) need not take PPD 502x Statistical Foundations for Public Management and Policy.

Public Administration

• PPD 500 Intersectoral Leadership Units: 2
• PPD 501a Economics for Policy, Planning and Development Units: 2
• PPD 501b Economics for Policy, Planning and Development Units: 2
• PPD 540 Public Administration and Society Units: 4
• PPD 541 Public Financial Management and Budgeting Units: 4 or
• PPDE 645 Financial Management of Nonprofit Organizations Units: 4
• PPD 542 Policy and Program Evaluation Units: 4 or
• PPD 557 Modeling and Operations Research Units: 4
• PPD 545 Human Behavior in Public Organizations Units: 4
• PPD 546 Capstone in Public Administration Units: 4

Planning

• PPD 524 Planning Theory Units: 2
• PPD 525 Statistics and Arguing from Data Units: 2
• PPD 526 Comparative International Development Units: 2
• PPD 527 The Social Context of Planning Units: 2
• PPD 529 Legal Environment of Planning Units: 2
• PPD 533 Planning History and Urban Form Units: 2

Note:
2-unit courses may be offered in seven-and-a-half week blocks.

Additional Requirements

Planning Studios: PPD 531 (4, 4) to total 8 units.
Electives: 14 units of elective courses taken within the Price
School of Public Policy. Eight of these elective units must be taken in the planning program. Dual degree students who complete PPD 502 with a grade of C or higher need not take PPD 525. Instead, they should take 2 additional elective units for a total of 16.

Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

**Master of Planning/Master of Public Health (MPI/MPH)**

The Master of Planning/Master of Public Health (MPI/MPH) dual degree is designed for individuals who envision a career that combines urban planning and public health disciplines. This dual degree combines the knowledge of urban planning with an understanding of health from a population perspective. It will provide training for planning, evaluating and guiding healthy community and urban development, and will enable graduates who seek to be agents of change within the profession to assume leadership roles in planning and in public health at the local, state and national levels. A total of 66 units are required for the dual degree. For further information about dual degree requirements, see the Master of Public Health/Master of Planning (MPH/MPI).

**Master of Planning/Master of Real Estate Development (MPI/MRED)**

The Master of Planning/Master of Real Estate Development dual degree program enables students to expand their skills in planning, land development, market analysis, finance and economics. Exposure to both fields becomes an educational as well as a professional asset for careers in either real estate development or planning. This dual degree program normally requires five semesters, including one summer, in residence.

**Requirements**

A total of 74 units is required for the dual degree, all from within the Price School of Public Policy.

**Required Courses**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2

**Planning Core**

- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 531L Planning Studio Units: 4, 8, 12
- PPD 533 Planning History and Urban Form Units: 2

**Real Estate Core**

- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 562 Legal Issues in Real Estate Development Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4

**Note:**

2-unit courses may be offered in seven-and-a-half week blocks.

**Additional Requirements**

**Concentration Methodology:** A 4-unit course selected from the concentration list shown in MPI program.

**Planning Studios:** PPD 531 (4, 4) to total 8 units.

**Electives:** 8 units of elective courses taken within the Price School of Public Policy.

**Thesis:** A thesis is required on a subject interrelating gerontology and planning. Students must register in a minimum of 4 units of PPD 594a, PPD 594b, PPD 594z (2,2,0) or GERO 594a, GERO 594b, GERO 594z (2,2,0). Students must maintain continuous registration until completion of the thesis.

**Program Adaptation:** The USC Davis School of Gerontology waives GERO 589 Case Studies in Leadership and Change Management because students enrolled in this program will have a primary professional focus in planning.

**Master of Planning/Master of Social Work (MPI/MSW)**

The dual degree program between the USC Suzanne Dworak-Peck School of Social Work and the USC Price School of Public Policy offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery. Students with a dual degree will have broader employment options beyond those in traditional planning or social work.

The schedule of courses allows students to experience direct service in the first year so that course work planning is supplemented by a knowledge of consumers, service delivery, etc. Courses for both schools are taken simultaneously, intermingling social work and planning content. Two years of field practicums in social work provide in-depth exposure to social service issues from both
Planning and direct service perspectives, thus satisfying some of the planning laboratory/workshop requirements and eliminating the need for a separate planning internship requirement.

Requirements

Requirements for completion of the MSW/MPA degree are 83 units including 51 units in social work and 32 units in planning. Students must select a community organization, planning and administration concentration in the second year of their social work program.

Social Work

Contact the USC Suzanne Dworak-Peck School of Social Work for Social Work requirements.

Note:

*Students who have taken a leadership course in PPD are not required to take SOWK 611.

Planning

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2
- PPD 628 Urban Planning and Social Policy Units: 4

Note:

2-unit courses may be offered in seven-and-a-half week blocks.

Additional Requirements

Planning Studios: PPD 531 (4) for 4 units.

Electives: 8 units of elective courses taken within the Price School of Public Policy.

Dual degree students, like all other MPA students, must take a comprehensive examination and fulfill the internship requirement.

Master of Public Administration with Seoul National University

This graduate program offers students a unique opportunity to develop skills and expertise in the field of public administration from a U.S. and Korean perspective. The program is designed and offered in partnership with Seoul National University (SNU). Students spend a year at USC Price and a year at Seoul National University and earn the MPA degree.

Admissions

Students wishing to pursue the dual MPA degree will have to apply to both SNU GSPA and USC Price separately and fulfill both institutions’ admissions criteria independently. Please see the Price Website for further information.

Sample Program - Price Students

Year One - USC (24 Units)

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2 and
- PPD 501b Economics for Policy, Planning and Development Units: 2
  or
- PPD 540 Public Administration and Society Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- Electives

Year Two - SNU (19 Units)

M2856.000100* Theories of Global Public Administration, or M2856.000600 Economics and Public Administration Units: 3

Electives Units: 6

PPD 546 ** Capstone in Public Administration Units: 4

*Price students would take either PPD 540 or PPD 501a and PPD 501b in their first year, and then would take the equivalent SNU GSPA course for the other one in their second year.

**The capstone course is taken in the last semester at Price.

Sample Program - SNU Students

Year One - SNU (18 Units)

M2856.000100 Theories of Global Public Administration Units: 3
M2856.000300 Social Research Methods of Public Administration Units: 3
Electives Units: 6

Independent study (thesis preparation) Units: 6

Year Two - USC (24 Units)

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- Electives

Variations from the above:

Price students could take both the PPD 540 and PPD 501a and PPD 501b courses in either their first year or their second year, instead of one of the two in each year.

GSPA students could take Economics and Public Administration in their first year rather than in their second year at Price, and they could take PPD 540 in their second year at Price rather than in their first year.

Price students could take Social Research Methods of Public Administration at GSPA in their second year instead of Policy and Program Evaluation (PPD 542) in their first year, and GSPA students could take Policy and Program Evaluation (PPD 542) at Price in their second year instead of Social Research Methods of Public Administration in their first year.

Master of Public Administration/Master of Arts, Jewish Nonprofit Management (MPA/MA)

The Master of Public Administration/Master of Arts in Jewish Nonprofit Management (MPA/MA) has been developed, in cooperation between the USC Price School of Public Policy and the Zelikow School of Jewish Nonprofit Management at HUC-JIR, to prepare those students who want to pursue a career in Jewish nonprofit management. Students in this dual degree program develop policy and leadership practices that support a strategic understanding of how the application of financial and program resources shape a community’s future. The MA in Jewish Nonprofit Management program is project based. Through paid field internships in Jewish organizations and consulting projects, students apply what is learned in the classroom in a real world experience that develops their professional expertise.

Students must complete 70 units of course work, 36 in Public Administration and a minimum of 34 credits in Jewish Nonprofit Management. There is an opportunity to spend either 12 months in Sacramento, California, or Washington, D.C. At these sites, students attend classes while serving internships in the offices of politicians, lobbyists or other advocates.

Students must meet admission requirements and be admitted by both the Price School of Public Policy and the Zelikow School of Jewish Nonprofit Management.

Curriculum Requirements

The program begins in June of each year and continues for the next 24 months. Students are expected to work out individual course plans with advisers from each school.

In addition to applying to the Price School of Public Policy, those interested in the program should contact Melissa Garai at the
Zelikow School at (213) 765-2173 or visit the Website at ZSJNM. HUC.edu, for more information about its requirements.

Public administration course work may be taken in Los Angeles or Sacramento. In Sacramento, a student will complete the Price core and elective courses, will take independent study with an HUC professor, and will serve in an internship while enrolled in HUC fieldwork classes.

**Public Administration Requirements**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4
- or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD electives Units: 14 *

**An Elective is Defined as One of the Following Courses (Select 14 Units)**

- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 684 Leadership Development in the Public and Nonprofit Sectors Units: 2
- PPD 685 Human Resources Management in Public and Non-Profit Sectors Units: 2
- PPD 689 The Nonprofit Sector and Philanthropy Units: 4
- PPDE 646 Grant Writing Practicum Units: 2
- PPDE 649 International Development NGOs: Theory, Policy and Management Issues Units: 4

**Note:**

Select 14 units from the list above. Substitutions may be requested by petition to the graduate adviser in the Price School of Public Policy.

**Additional Requirements**

**Fieldwork Requirement**

Throughout the program, students are expected to serve in supervised internships. Fieldwork is administered cooperatively by the faculties of HUC-JIR School of Jewish Nonprofit Management and the Price School of Public Policy.

**Program Adaptation**

Students enrolled in the dual degree are not required to take a research methods course (PPD 542, PPD 557 or PPD 666) in the MPA program (as opposed to the stand alone MPA degree students) because they develop the necessary proficiencies in research methods in the course offered in the Zelikow School of Jewish Nonprofit Management (CS 900C Capstone and CS900D Capstone). Students in the dual degree may elect an alternative four units within the Price School.

**Master of Public Administration/Master of Science in Gerontology (MPA/MS)**

The Master of Public Administration/Master of Science in Gerontology (MPA/MS) dual degree offers students interested in management of agencies and institutions the opportunity to gain in-depth knowledge of the administrative and organizational processes and management skills necessary for the effective delivery of services to older persons.

In the MPA/MS dual degree, students spend their first year taking the required courses in the USC Leonard Davis School of Gerontology. The research course, GERO 593 Research Methods and the capstone course GERO 555 Integrating Gerontology; A Multidisciplinary Approach, are taken in the USC Leonard Davis School of Gerontology. The student begins courses in the Price School of Public Policy during the second semester of the first year.

Two versions of this dual degree are available, one with a general orientation and one with an emphasis on health services administration. Students must apply to both schools and, if accepted to both, participate in a specially designed program combining course work from both schools.

Curriculum requirements for the general focus dual degree are detailed in the USC Leonard Davis School of Gerontology section of this catalogue. Students are encouraged to seek advisement as they plan their actual programs, since curriculum changes may occur.

**Gerontology Requirements**

- GERO 510 Physiology of Development and Aging Units: 4
- GERO 520 Life Span Developmental Psychology Units: 2 or 4
- GERO 530 Life Span Developmental Sociology Units: 4
- GERO 540 Social Policy and Aging Units: 4
- GERO 550 Administration and System Management in Programs for Older Adults Units: 4
- GERO 555 Integrating Gerontology: A Multidisciplinary Approach Units: 4
- GERO 591 Field Practicum Units: 1-12
- GERO 593 Research Methods Units: 4
- Gerontology elective Units: 4

**Total units: 40**

**Public Administration Requirements**

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4
- or
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD electives Units: 14 *

**Note:**

Students can enter this program only with the written consent of both schools. Students who apply initially to the USC Suzanne Dworak-Peck School of Social Work must declare their intention to pursue the MPA/MSW dual degree at the time of their application. If admission is approved, such students will be admitted to the dual degree program. Social work students selecting this program are required to select the Community Organization, Planning and Administration concentration in their second year program.
Students must complete 82 units (54 in social work and 28 in public administration).

Social Work (54 Units)
Contact the USC Suzanne Dworak-Peck School of Social Work for Social Work requirements.

Note: *Students who have taken a Price leadership course are not required to take SOWK 611.*

Public Administration (28 Units)
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 541 Public Financial Management and Budgeting Units: 4 or PPDE 645 Financial Management of Nonprofit Organizations Units: 4
- PPD 546 Capstone in Public Administration Units: 4
- PPD electives Units: 10 **

Note: **Electives in public administration need to be approved by the graduate adviser in the Price School of Public Policy.

Master of Public Policy/Juris Doctor (MPP/JD)
The Price School of Public Policy and the USC Gould School of Law offer a dual degree that enables qualified students to earn both a Juris Doctor and a Master of Public Policy in approximately four years of study.

The dual degree allows students to acquire a blend of the analytic skills of public policy and an understanding of legal institutions and processes. This combination of knowledge is well suited for law students who want to affect the policy-making process and craft legislation to aid in the achievement of public policy goals. It is equally appropriate for prospective policy analysts who are interested in law and public policy.

Students must apply to, and be accepted by, both schools. They may be accepted to the dual degree at the time of their acceptance to the law school or at the beginning of their second year of law school.

Dual degree students spend the first year of the program completing the required first year of law school. The remaining units of law school courses and the required 36 units of core MPP courses are taken by students in the second through fourth years.

Students are required to complete 114 units of course work, 78 units in the law school and 36 units in the Price School of Public Policy. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honor programs. In addition, the MPP program has a statistics prerequisite. Please see the MPP degree in the Price School of Public Policy section of the catalogue for the requirements.

Required MPP Courses
The required MPP courses are
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- PPD 561a Policy Analysis Practicum Units: 1
- PPD 561b Policy Analysis Practicum Units: 1, 3

Management Elective
4 units of a management elective
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Human Behavior in Public Organizations Units: 4
- PPD 654 Information Technology Management in the Public Sector Units: 4
- PPD 656 Political Management: Theory and Applied Techniques Units: 4
- PPD 662 Intergovernmental Management: State Perspective Units: 4
- PPD 673 Strategic Planning in the Public Sector Units: 4
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Analytic Elective
and 8 units of an analytic elective
- COMM 650 Survey Construction and Validation Units: 4
- PM 542 Social Network Analysis Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 557 Modeling and Operations Research Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 617 Urban Demography and Growth Units: 4
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 661 Methods for Equity Analysis Units: 4
- SCI 621L Quantitative Methods and Statistics II Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Master of Public Policy/Master of Planning (MPP/MP)
The Master of Public Policy/Master of Planning dual degree program gives students the opportunity to develop a depth of analytic and design skills with which to effectively address the problems of urban communities. The dual degree program normally requires six semesters in residence.

Requirements
Completion of the dual degree requires 72 units.

Prerequisites
Applicants must have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed an undergraduate inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation, and must pass the MPP lab associated with PPD 554 Foundations of Policy Analysis, or (2) take PPD 502x Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502, the units associated with this class may not be used for graduate credit.

Required Courses
- PPD 501a Economics for Policy, Planning and Development Units: 2

Public Policy Courses
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 554 Foundations of Policy Analysis Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4
- PPD 560 Methods for Policy Analysis Units: 4
- Public policy elective Units: 4

Analytic Electives
Units: 6-8*
- COMM 650 Survey Construction and Validation Units: 4
- PM 542 Social Network Analysis Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 557 Modeling and Operations Research Units: 4
- PPD 587 Risk Analysis Units: 4
- PPD 617 Urban Demography and Growth Units: 4 or
- PPD 647 Finance of the Public Sector Units: 4
- PPDE 660 Environmental Policy Design and Analysis Units: 2
- PPDE 661 Methods for Equity Analysis Units: 4
- SOCI 621L Quantitative Methods and Statistics II Units: 4
- SSCI 581 Concepts for Spatial Thinking Units: 4

Note:
Students who select PPDE 660 will take an additional 2 units of electives in consultation with the adviser.

One management elective from the following list:
- PPD 541 Public Financial Management and Budgeting Units: 4
- PPD 545 Human Behavior in Public Organizations: 4
- PPD 654 Information Technology Management in the Public Sector Units: 4
- PPD 656 Political Management: Theory and Applied Techniques Units: 4
- PPD 662 Intergovernmental Management: State Perspective Units: 4
- PPD 673 Strategic Planning in the Public Sector Units: 4
- PPD 675 Nonprofit Management and Leadership Units: 4
- PPD 690 Alternative Dispute Resolution Units: 4
- PPDE 645 Financial Management of Nonprofit Organizations Units: 4

Planning
- PPD 524 Planning Theory Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 529 Legal Environment of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2

Concentration electives in planning from the Price School
(includes 4 units of methodology to be selected with adviser from the following list)
- PPD 612 Research and Analytical Techniques Units: 4
- PPD 616 Participatory Methods in Planning and Policy Units: 4
- PPD 617 Urban Demography and Growth Units: 4
- PPD 627 Design Skills for Urban Planners Units: 4
- PPD 634 Institutional and Policy Issues in Transportation Units: 4

Total units: 12
Total units: 22

Additional Requirements

Electives
Students are required to take 6-8* units of electives from the curriculum offered by the university. Non-Price School courses may be selected by the students with the approval of an academic adviser.

Practicum/Planning Studios
After finishing the core courses of both programs, students are required to take 8 units in practicum/planning studios: 4 units from the public policy program (PPD 561a, PPD 561b) and 4 units from the planning program (PPD 531).

Comprehensive Exam and Internship
Dual degree students, like all other MPI students, must take a comprehensive examination and fulfill the internship requirement.

Master of Real Estate Development/Juris Doctor (MRED/JD)
The Juris Doctor/Master of Real Estate Development dual degree program provides the opportunity for in-depth study of legal issues and real estate development. The increasingly regulatory environment developers work within demands that professionals in the real estate industry have a strong understanding of the legal system. Lawyers who plan to specialize in real estate law will benefit from a thorough understanding of the development process, including financial, planning, marketing and design issues.

Application must be made to both the USC Gould School of Law and the USC Price School of Public Policy. This program normally requires three years (including one summer) of full-time study in residence to complete.

Requirements for completion of the dual degree program are 112 units, including 78 units in law and 34 units in planning and development. To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs.

Law School
- LAW 502 Procedure I Units: 4
- LAW 503 Contracts Units: 2, 3, 4
- LAW 504 Criminal Law Units: 3
- LAW 505 Legal Profession Units: 2, 3, 4
- LAW 507 Property Units: 2, 3, 4
- LAW 508 Constitutional Law: Structure Units: 2, 3, 4, 5
- LAW 509 Torts I Units: 2, 3, 4
- LAW 512 Law, Language and Values Units: 2, 3, 4
- LAW 515 Legal Research, Writing and Advocacy I Units: 2, 3
- LAW 516 Legal Research, Writing and Advocacy II Units: 2
- LAW electives including fulfillment of the upper division writing requirement and skills course Units: 45

Real Estate Development
- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4
- Elective from the Price School of Public Policy Units: 2

Additional Requirements

Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students are required to complete a comprehensive examination administered by faculty members from both the law school and the Price School of Public Policy.

Students must have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Master of Real Estate Development/Master of Business Administration (MRED/MBA)
The Master of Real Estate Development/Master of Business Administration dual degree program enables students to expand their skills in planning, land development, marketing, decision sciences, accounting, management, finance and economics. The program is targeted for students who have a clear career goal of becoming real estate developers but who lack formal training in business. The program normally requires two years (including summers) of full-time study in residence to complete.

Requirements
A total of 82 units is required. Required courses include: all required courses in an MBA program; FBE 565 Economics of Urban Land Use: Feasibility Studies (3 units); FBE 588 Advanced Real Estate Law (3 units); graduate business electives sufficient to bring the total units completed in the USC Marshall School of Business to at least 48; and Policy, Planning, and Development courses (34 units). Dual degree students may not count courses taken outside the USC Marshall School of Business toward the 48 units. Students must
have an approved laptop computer as required by instructors and must demonstrate calculator and spreadsheet skills.

Real Estate Development
- PPD 500 Intersectoral Leadership Units: 2
- RED 509 Market Analysis for Real Estate Units: 4
- RED 542 Finance of Real Estate Development Units: 3
- RED 544 Real Estate Capital Markets Units: 2
- RED 546 Applications of Real Estate Finance to Problems of Development Units: 3
- RED 547 Project Management and Construction Units: 2
- RED 551 The Approval Process Units: 4
- RED 573 Design History and Criticism Units: 2
- RED 574 Building Typologies Units: 2
- RED 575L Community Design and Site Planning Units: 2, 3, 4
- RED 598 Real Estate Product Development Units: 2, 3, 4
- Elective from the Price School of Public Policy Units: 4

Additional Requirements
Comprehensive Examination: Students are required to complete a comprehensive examination administered by faculty members from both the Marshall School of Business and the Price School of Public Policy.

Doctoral Degree
Policy, Planning, and Development (DPPD)
The USC Price Doctor of Policy, Planning, and Development offers established professionals in the public, private and nonprofit sectors a high level academic experience to enhance their leadership capabilities, to develop their capacities in social change and innovation, and to extend their knowledge of policy, administration, planning and development. Through their interaction with Price faculty and advanced practitioners, including members of their cohort, participants in the program will become more adaptive agents of change as they address the most complex and challenging governance problems of our times.

The goals of the DPPD are: to create a unique educational environment that will forge advanced professionals into a cadre for effective social, political and economic change; to develop professionals who can apply new policy, planning and administrative tools to design and implement new and integrative public policies; to establish and impart a new set of problem-solving paradigms for examining and altering decision making; and to equip professionals with sophisticated analytical tools and a sharper global and cultural awareness.

The DPPD offers a rigorous curriculum, an applied approach and an interdisciplinary course of study that provides knowledge, practice-based skills, and research capabilities for today's leaders. Moreover, the program prepares advanced professionals to provide change leadership in social innovation, particularly in urban communities. Doctoral candidates will specialize in a particular domain, one often cutting across disciplinary boundaries, that enables students to align their research and doctoral thesis with their professional and intellectual interests.

Applicants are expected to hold a master's degree in planning, public policy, public administration, leadership, real estate development or a closely related field. Applicants without master's degrees in other fields will be expected to complete foundation courses prior to entering the degree core courses in consultation with the appropriate degree director. Those admitted without advanced standing complete a total of 60 units.

Prerequisite
Applicants are required to have a basic competence in descriptive and inferential statistics. This prerequisite may be met in one of two ways: (1) entering students must have passed a college level inferential statistics class, with a grade of "B" or better, at an approved university within three years of matriculation or (2) take PPD 502 Statistical Foundations for Public Management and Policy and complete with a grade of "B" or better. If students select to take PPD 502, the units associated with this class may not be used toward the DPPD degree.

Professional Advisory Committee
By the end of the second year of study, the student will form a three-member Professional Advisory Committee consisting of three persons. The chair of the committee will be a full-time USC Price faculty member (tenured, tenure-track or full-time teaching or research faculty member). However, other committee members may include either faculty or professionals in the field of the student's area of interest. This committee will oversee the student's program to its conclusion. One member of the committee must be a tenure-track or tenured professor at USC.

Curriculum Requirements
The DPPD program is administered by the Price School of Public Policy. A minimum of 60 units of course work beyond the baccalaureate is required for a doctoral degree including research courses and 4 units of doctoral dissertation. A minimum of 36 units of course work beyond the first graduate degree, exclusive of dissertation units, is required for doctoral degree students admitted with Advanced Standing. If a student enters with a related master's degree, he or she may be admitted with advanced standing and complete a minimum of 40 units.

Foundation Courses (20 units)
Up to 20 units of foundation courses are required for students admitted without advanced standing. These courses may be taken from the school's master's degree programs or, with prior approval, from other USC graduate programs.

Required Courses
Students are required to complete 16 units of required core courses, 4 units of methodology, 16 units of field coursework, and 4 units of professional dissertation (PLUS 694a PLUS 694b PLUS 694c PLUS 694d)

Core Courses (16 units)
- PLUS 650 Public Policy and Globalization Units: 4
- PLUS 651 Applied Research Design and Inquiry Units: 4
- PLUS 652 Place, Institutions, and Governance Units: 4
- PLUS 653 Leading Change and Innovation in Urban Communities Units: 4

Methodology Course (4 units)
Students select one 4-unit methods course, to be determined and approved by the student's professional advisory committee.

Field of Study (16 units)
In consultation with their faculty advisor and Professional Advisory Committee, students will craft the field of study and identify associated courses related to their professional area of interest. The field may or may not reflect standard academic boundaries and we expect most fields would cut across traditional disciplinary boundaries. Students should take advantage of USC's resources in developing the field, especially taking into consideration the relationship of practice to theory. The field of study should be seen as providing the tools to effective practice in the student's area of interest. Sixteen units of course work are required for the field of study, of which 8 may be taken outside the Price School of Public Policy. Four units of the 16 units of field courses should be directed research with the student's Professional Advisory Committee Chair, to prepare for writing the professional dissertation.

Qualifying Exam
Students will hold a formal defense of their dissertation topic at the end of year three as the qualifying examination. Upon successful completion, students advance to doctoral candidacy and enroll in PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z.

Dissertation (4 units)
The professional dissertation is a research-based study of a policy issue, an administrative process, or other element of professional practice. Students are expected to enroll in PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z in fall and spring semesters for a minimum of four units, typically with their cohort, once they have defended a professional dissertation proposal. PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694e will be taken in year four to satisfy this requirement.
Each professional dissertation should be designed to present an innovative or original contribution to the world of practice, and is expected to be a substantial work that satisfies the rigorous standards of academic research and creativity. It is likely that dissertations will cut across various fields and disciplines. The parameters of the professional dissertation are intentionally left open, allowing the project to be produced as solely text, or text in conjunction with film, computer program, design or other multimedia format.

The dissertation is supervised by the student's Professional Advisory Committee. Students must then maintain continuous registration in the PLUS 694a, PLUS 694b, PLUS 694c, PLUS 694d and PLUS 694z series until completion of the professional dissertation. Upon completion of an approved draft of the dissertation, students will present their findings in an open session but the Professional Advisory Committee will be the sole evaluator.

General Requirements

The DPPD is administered by the Price School of Public Policy. At least 24 units must be fulfilled in residence at USC. The total length of study must not exceed six academic years. Policies regarding time limits, leaves of absence, scholarship standing, academic warning and other issues not directly addressed here are consistent with those of the Graduate School.

Public Policy and Management (PhD)

Doctoral Degrees

The Price School offers two PhD programs. Both the Doctor of Philosophy (PhD) in Public Policy and Management and the Doctor of Philosophy (PhD) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to Graduate and Professional Education and The Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by The Graduate School.

The PhD programs in the Price School both emphasize rigorous programs of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. The programs are designed to provide students with the opportunity to develop their own specialization and expertise in either major field — public policy and management or urban planning and development — while also offering them a breadth of knowledge in an especially rich intellectual environment.

Curriculum Requirements

The Doctor of Philosophy in Public Policy and Management and the Doctor of Philosophy in Urban Planning and Development are administered by the doctoral committee of the school. The PhD program in Public Policy and Management requires the completion of 64 units of course work, comprising the following elements: master's core in a substantive field (15–17 units), theoretical core (11–12 units), methodology (10–12 units), field/specialization courses (12 units), directed research (4 units), teaching seminar (2 units), research seminar (4 units) and dissertation (4 units minimum). The PhD program in Urban Planning and Development requires the completion of 64 units of course work, comprising the following elements: master's core (14–16 units), doctoral core (8 units), methodology (10–12 units), field/specialization courses (16 units), directed research (4 units), teaching seminar (2 units), research seminar (4 units) and dissertation (4 units minimum).

PhD, Public Policy and Management

Core Curriculum

Theoretical Core (11-12 Units)*

- PPD 711 Theoretical Foundation of Public Management Units: 4
- PPD 712 Seminar in Public Policy Units: 4
- PPD 715 Political Economy and Institutional Analysis Units: 4

Note:

*Students may petition to substitute PPD 715 with a different theory course derived from a discipline. Examples include MOR 602, ECON 500, etc.

Methodology (10-12 Units)

- PPD 706 Paradigms of Research and the Design of Inquiry Units: 4
- PPD 558 Multivariate Statistical Analysis Units: 4 or
- ECON 513 Practice of Econometrics Units: 4
- One additional methods course selected with qualifying exam committee approval Units: 2-4

Field Courses (12 units)

Students select 12 units of field courses which can be used to develop disciplinary expertise related to specialization interest or additional methodological expertise. Fields are developed with qualifying exam committee approval, can include any combination of the Price School and outside courses and are unique to each student.

Directed Research (2, 2; 4 units total)

Students will enroll in four units of directed research during their first year (2 units fall and 2 units spring). This will ensure they get involved in a research experience during their first year with faculty mentors.

- PPD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research Seminar (4 units)

Students will take PPD 710a, PPD 710b (2 units each, 4 total units), the Price School research seminar course.

- PPD 710a Research Seminar Units: 2
- PPD 710b Research Seminar Units: 2

Teaching Seminar (2 units)

Students will take two semesters of the teaching seminar, PPD 700 (2 units).

Students entering the doctoral program without a relevant master's degree in public administration or public policy or a related field will be required to complete prerequisites (15–17 units) relevant to their program.

- PPD 700 Teaching Seminar Units: 2

For the PhD in Public Policy and Management, possible courses include:

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 540 Public Administration and Society Units: 4
- PPD 542 Policy and Program Evaluation Units: 4
- PPD 555 Public Policy Formulation and Implementation Units: 4

Additional Requirements

Admission with Advanced Standing

Students entering the doctoral program with a master's degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either PhD program. In the Public Policy and Management program, students must complete a minimum of 39–41 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794e Doctoral Dissertation units, for a minimum of 43–45 semester units. In the Urban Planning and Development program, students must complete a minimum of 40–42 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794e Doctoral Dissertation units, for a minimum of 44–46 semester units. Additional course work may be required if deemed necessary by the student's faculty following the screening examination.

A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing. Only course work not used to complete the master's degree described above is available for transfer credit. No exceptions are allowed.
Qualifying Exam Committee

Students will form an initial qualifying exam committee by the end of the first fall semester, which officially oversees the development of the student's academic program through the qualifying examination. Five tenure or tenure track committee members are designated to provide guidance in the field developed by the student. A minimum of three members, including at least one tenured member, must be from among the faculty participating in this Doctor of Philosophy program, and at least one member must be from outside the Price School of Public Policy. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Screening Procedures

Students must have a 3.3 overall GPA in first-year courses to continue in the program.

Work Plans

At the end of each spring semester, the student submits an academic work plan for the coming year to his or her qualifying exam committee chair. The plan should include courses, degree progress, seminar attendance and what was learned from those, and a research plan that articulates the major research questions being explored. At the conclusion of year one, the chair reviews and approves the work plan and at the end of year two, the chair reviews the work plan and the second year paper.

Qualifying Examination

The qualifying exam committee prepares a comprehensive written examination covering the fields of study. Following completion of the written portion, the entire committee conducts an oral examination of the student, focusing on material both complementary and supplementary to the written examination but relevant to the field and overall program selected by the student. Upon passing both portions of the qualifying examination, the student becomes a candidate for the Doctor of Philosophy degree. The qualifying exam will occur in the fall of year three.

Proposal Defense

Students are expected to have a proposal defense within one year of passing the qualifying exam.

Doctoral Dissertation

The dissertation is based on original research. The research is supervised by a dissertation committee of three or more regular USC faculty, at least one of whom must be from outside the Price School of Public Policy. A two-semester minimum registration in PPD 794a, PPD 794b, PPD 794c, PPD 794d, PPD 794z is required of all candidates. Students must maintain continuous registration until completion of the dissertation.

Defense of the Dissertation

Oral defense of the dissertation before the dissertation committee is usually made on a preliminary draft.

Format for Theses and Dissertations

All theses and dissertations submitted in fulfillment of requirements for graduate degrees must conform to university regulations with regard to format and method of preparation. Regulations for Format and Presentation of Theses and Dissertations is available from the Graduate School, Grace Ford Salvatori 315, or online at the Graduate School Website.

General Requirements

Refer to the Graduate School section in this catalogue for policies regarding time limits, leave of absence, scholarship standing and probation.

Urban Planning and Development (PhD)

The Price School offers two PhD programs. Both the Doctor of Philosophy (PhD) in Public Policy and Management and the Doctor of Philosophy (PhD) in Urban Planning and Development degree programs are under the jurisdiction of the Graduate School. Students should also refer to Graduate and Professional Education and The Graduate School sections of this catalogue for general regulations. All courses applied toward the degrees must be courses accepted by The Graduate School.

The PhD programs in the Price School both emphasize rigorous programs of advanced study and research, stressing qualitative or quantitative analysis and the theoretical foundations of their field of study. The programs are designed to provide students with the opportunity to develop their own specialization and expertise in either major field — public policy and management or urban planning and development — while also offering them a breadth of knowledge in an especially rich intellectual environment.

Curriculum Requirements

The Doctor of Philosophy in Public Policy and Management and the Doctor of Philosophy in Urban Planning and Development are administered by the doctoral committee of the school. The PhD program in Public Policy and Management requires the completion of 64 units of course work, comprising the following elements: master's core in a substantive field (15–17 units), theoretical core (11–12 units), methodology (10–12 units), field/specialization courses (12 units), directed research (4 units), teaching seminar (2 units), research seminar (4 units) and dissertation (4 units minimum). The PhD program in Urban Planning and Development requires the completion of 64 units of course work, comprising the following elements: master's core (14–16 units), doctoral core (8 units), methodology (10–12 units), field/specialization courses (16 units), directed research (4 units), teaching seminar (2 units), research seminar (4 units) and dissertation (4 units minimum).

PhD, Urban Planning and Development

Core Curriculum

Theoretical Core (8 Units)

- PPD 713 Advanced Planning Theory Units: 4
- PPD 714 Advanced Urban Development Units: 4

Methodology (10-12 Units)

- PPD 706 Paradigms of Research and the Design of Inquiry Units: 4
- Two additional methods courses selected with qualifying exam committee approval Units: 6-8

Specialized Field Courses (16 units)

Students take a minimum of four courses to develop their specialized area of study. Courses may be taken in the Price School or other USC units. Students, working with their qualifying exam committees, have considerable flexibility in forming specializations.

Directed Research (2, 2; 4 units total)

Students will enroll in four units of directed research during their first year (2 units fall and 2 units spring). This will ensure they get involved in a research experience during their first year with faculty mentors.

- PPD 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Research Seminar (4 units)

Students will take PPD 710a, PPD 710b (2 units each, 4 total units), the Price School research seminar course.

- PPD 710a Research Seminar Units: 2
- PPD 710b Research Seminar Units: 2

Teaching Seminar (2 units)

Students will take two semesters of the teaching seminar, PPD 700 (2 units).

Students entering the doctoral program without a relevant master's degree in urban planning or a related field will be required to complete prerequisites (16–18 units) relevant to their program.

- PPD 700 Teaching Seminar Units: 2
For the PhD in Urban Planning and Development, possible courses include:

- PPD 500 Intersectoral Leadership Units: 2
- PPD 501a Economics for Policy, Planning and Development Units: 2
- PPD 501b Economics for Policy, Planning and Development Units: 2
- PPD 524 Planning Theory Units: 2
- PPD 525 Statistics and Arguing from Data Units: 2
- PPD 526 Comparative International Development Units: 2
- PPD 527 The Social Context of Planning Units: 2
- PPD 533 Planning History and Urban Form Units: 2
- PPD 634 Institutional and Policy Issues in Transportation Units: 4

Additional Requirements

Admission with Advanced Standing

Students entering the doctoral program with a master's degree from an accredited institution in public management/administration, public policy, planning, or urban development or related field may be admitted with advanced standing to either PhD program. In the Public Policy and Management program, students must complete a minimum of 39–41 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 43–45 semester units. In the Urban Planning and Development program, students must complete a minimum of 40–42 units of doctoral classes beyond that graduate degree, exclusive of PPD 794a Doctoral Dissertation, PPD 794b Doctoral Dissertation, PPD 794c Doctoral Dissertation, PPD 794d Doctoral Dissertation, PPD 794z Doctoral Dissertation units, for a minimum of 44–46 semester units. Additional course work may be required if deemed necessary by the student's faculty following the screening examination.

A maximum of 6 units of transfer credit may be applied toward a doctoral degree with advanced standing. Only course work not used to complete the master's degree described above is available for transfer credit. No exceptions are allowed.

Qualifying Exam Committee

Students will form an initial qualifying exam committee by the end of the first fall semester, which officially oversees the development of the student's academic program through the qualifying examination. Five tenure or tenure track committee members are designated to provide guidance in the field developed by the student. A minimum of three members, including at least one tenured member, must be from among the faculty participating in this Doctor of Philosophy program, and at least one member must be from outside the Price School of Public Policy. Students should refer to the Graduate School section regarding the qualifying exam committee and the outside member. The complete qualifying exam committee must be in place no later than the third semester.

Aerospace Studies

Physical Education Building 112  
(213) 740-2670

Administration
Olivia D. Nelson, Lieutenant Colonel, USAF

Faculty
Professor: Olivia D. Nelson (Lieutenant Colonel, USAF)  
Assistant Professor: Shaina Thompson, (Captain, USAF); Enoch Wong, (Captain, USAF)

The Department of Aerospace Studies offers a three- to four-year program of instruction leading directly to commissioning as an officer in the United States Air Force. To obtain a commission, qualified students must pass an aptitude test, physical fitness assessment and a medical examination; complete the Aerospace Studies program of instruction and concurrently receive an undergraduate or graduate degree. Credits earned in Aerospace Studies courses may be counted as electives in some degree programs. Those students who qualify for and are selected to enter Air Force pilot training will be given flight instruction upon graduation. Qualified applicants may compete for a variety of Air Force scholarships, some of which pay full tuition, books and associated fees. USC also offers a matching $4,000 scholarship per year for all AFROTC scholarship recipients. See the Tuition and Fees page for additional scholarship information. Students dual-enrolled as AFROTC cadets are offered competitive opportunities to attend various related symposia and professional development opportunities throughout the year.

Military Science

Physical Education Building 110  
(213) 740-4026

Administration
Justin M. Chezem (Lieutenant Colonel, U.S. Army)

Faculty
Professor/Commander: Justin M. Chezem (Lieutenant Colonel, U.S. Army)

The Department of Military Science provides professional training for students leading to a commission, upon graduation, in the Active Army, Army Reserve or the Army National Guard. Through the Army Reserve Officers’ Training Corps Program (AROTC), scholarship benefits include full tuition, fees and book stipends. Scholarships are also available for Guaranteed Reserve Forces Duty. Military science instruction is focused on hands-on leadership development and the practical application of military skills needed to produce America’s future leaders. Additionally, military science courses count as electives in many degree programs. MS 101 and MS 102 are open to students who are not enrolled in the program, but have an interest in leadership, management, military history or military training. Enrollment in the Army ROTC program is open to qualified full-time students.

Scholarship Program
The majority of Army ROTC cadets attend USC on Army scholarships. All Army scholarships are merit-based and are not dependent on individual financial need. Scholarships are available for both Active Duty and Guaranteed Reserve Forces Duty. Scholarships are awarded on a competitive basis to qualified applicants for two-, three- or four-year periods depending on the applicant’s academic level and program of study. Scholarship cadets receive benefits that cover full tuition, fees and a book stipend, and are available to all majors. See the Tuition and Fees page for additional scholarship information.

Enrolled Cadets
Contracted scholarship and non-scholarship cadets can receive a monthly stipend subsistence allowance, based on academic class. Contracted scholarship cadets receive an annual book allowance. All enrolled scholarship and non-scholarship cadets receive uniforms and military science textbooks from the department.

Four-Year Program
The four-year military science curriculum is designed to be part of the student’s undergraduate degree program. During the freshman and sophomore years, students receive introductory instruction in the theory of warfare, military history, military leadership and basic military skills. Cadets participate during their junior and senior years in a professional development program with instruction in leadership, management, military justice and advanced military skills.

Three-Year Program
The three-year program is available to qualified sophomore undergraduate students. Students may compress the first two years of the ROTC program by attending two ROTC classes per semester during their sophomore year. Scholarships are available, on a competitive basis, for students with three years remaining toward the completion of their undergraduate degree. Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for the four-year program.

Two-Year Program
The two-year program is available to qualified junior and senior military science students who meet all the same criteria as for the three-year program.

Program Requirements
Academic Year Program
This program consists of up to eight semesters of Aerospace Studies academic and Leadership Laboratory courses (AEST 100a, AEST 100b through AEST 400a, AEST 400b) plus a four-week summer field training course. All students, regardless of desire to pursue a military commission, may enroll in the academic courses that focus on such disciplines as Leadership Theory, Air and Space Power History and Theory, and National Security Studies. The program can be tailored for students who join after their freshman year. The open enrollment classes consist of one hour of academics for the AEST 100 and AEST 200 courses and three hours of academics for the AEST 300 and AEST 400 courses. The Leadership Laboratory courses are for AFROTC Cadets only.

Summer Training Courses
Field training is offered during the summer at Maxwell Air Force Base in Montgomery, Alabama. Students participate in two weeks of intensive training, normally between their sophomore and junior years.

The major areas of study in the field training course include junior officer leadership training, career orientation, survival training, weapons training, physical training, base functions and the Air Force environment.

Additional summer training courses at locations around the world are available to interested students to build leadership and human relations skills, develop cultural and language proficiency, provide a general orientation in Air Force specialties and motivate cadets toward an Air Force career. The training opportunities vary each year but may include cultural and language immersion programs, engineering research and apprenticeships, and orientation programs related to other air, space and cyberspace specialties.
undergraduate students and graduate students who have two years of academic work remaining. Veterans who have achieved junior academic status and meet enrollment criteria are also eligible for this program. Students may receive credit for the first two years of the ROTC program by attending the ROTC Leaders Training Course or by previous junior ROTC participation. Transfer students who meet the same criteria are also eligible for scholarships. Upon acceptance, students then follow the military science program described for junior and senior cadets in the four-year program.

Field Training
Several military training programs are available to qualified cadets. A five-week paid Leaders Training Course at Fort Knox, Kentucky, qualifies students for the two-year program. All cadets attend a 32-day paid ROTC Leadership Development and Assessment Course at Fort Lewis, Washington, after their junior year. This course provides practical application of advanced military and leadership skills required for commissioning.

Adventure Training
Qualified candidates may also receive training in Airborne school, Air Assault school (rappelling from helicopters), Cadet Troop Leadership Training (training in Army units around the world), Northern Warfare school (Arctic survival) and Mountain Warfare school.

Naval Science

Physical Education Building (PED) 101
(213) 740-2663

Administration
Christopher J. Michelsen BA, MS (Colonel, U.S. Marine Corps), Commanding Officer

Faculty
Professor: Christopher J. Michelsen, BA, MS, (Colonel, U.S. Marine Corps)
Associate Professor: Robert H. Hill, BS, MA (Commander, U.S. Navy)
Assistant Professors: Nicholas D. Patitasas, BS (Captain, U.S. Marine Corps); Matthew Cox, MS (Lieutenant, U.S. Navy); Eric Tan, BA (Lieutenant, U.S. Navy); Bradley D. Harden, BS (Lieutenant, U.S. Navy)

The Department of Naval Science provides professional training for undergraduate students (midshipmen) leading to a commission, upon graduation, in the United States Navy or the United States Marine Corps. Through the Naval Reserve Officers Training Corps Program (NROTC), scholarship students receive full tuition, fees, book stipend and $250–$400 per month subsistence allowance. The university also provides an additional automatic scholarship of $4,000 per year for each NROTC scholarship recipient. Non-scholarship students may apply to participate as members of the midshipman battalion with limited financial assistance, earning a commission upon completion of the baccalaureate degree. Because of the rapid development of highly technical ship systems, aviation and other military equipment, the majority of Navy scholarships are awarded to science and engineering majors; however, limited Navy scholarships and all Marine Corps scholarships are currently available to students pursuing any major offered by the university, as long as they complete basic technical requirements. In addition to university requirements, midshipmen must complete 15–22 units of naval science courses, a physical fitness test and three active duty summer training sessions, each about three to six weeks long.

All naval science courses are open to students who are not in the program but have an interest in the Navy and Marine Corps related fields, such as engineering, navigation, amphibious warfare, naval operations, history and leadership/management.

Program Requirements
Scholarship Program
The majority of naval science students attend the university on Navy or Marine Corps scholarships. Scholarships are awarded primarily on a four-year basis to high school seniors selected in nationwide competition. Two- and three-year scholarship programs are also available with a similar selection process. In addition to tuition and fees, books and uniforms, students receive subsistence allowance of $250–$400 per month. Navy Option midshipmen later will be required upon graduation to serve a minimum of five years of active military service. Additional requirements may be required for specific job assignments. The NROTC program only commissions Naval officers into the following communities: Aviation (pilot or naval flight officer), Submarine Warfare, Surface Warfare, Special Operations (Explosive Ordnance Disposal), Special Warfare (SEALs) or Medical/Dental Corps.

College Program
Students may join NROTC as non-scholarship "College Program" students. These students receive uniforms and participate as regular midshipmen in the program but do not receive scholarship or stipend funds or attend summer training. College Program students must complete and be selected for a two- or three-year scholarship or be placed in an "Advanced Standing" status in order to continue in the program and receive an active duty commission.

Marine Corps Option
The Marine Corps option prepares midshipmen for service as second lieutenants in the United States Marine Corps. Marine Option Midshipmen must successfully complete Officer Candidate School (OCS) in order to earn their commission. This intensive 6-week course is completed during their final summer training session. Marine Corps Option students also participate, on a limited basis, in local field training exercises during the academic year. Marine Corps Option midshipmen will be required upon graduation to serve at least four years on active duty.

Requirements for Commissioning
Students must meet USC degree requirements in their chosen fields and complete the prescribed naval science courses and Professional Laboratory (PROLAB). In addition, Navy scholarship students must include in their programs MATH 125 Calculus I and MATH 126 Calculus II and PHYS 151Lg Fundamentals of Physics I: Mechanics and Thermodynamics and PHYS 152L Fundamentals of Physics II: Electricity and Magnetism; two courses of English, one course in American history/national security policy and one course in language or culture.

For more detailed program information, go to the USC NROTC Website at usc.edu/dept/nrotc.
USC Suzanne Dworak-Peck School of Social Work

The USC Suzanne Dworak-Peck School of Social Work offers programs of study leading to the Master of Social Work (MSW) and Doctor of Philosophy (PhD) in social work. These programs provide the student a broad background of knowledge about health and welfare problems, the meaning of programs past and present that have been established to meet them, and current issues and policy trends in the field.

At the same time, the student is helped to become a professional person through development of a philosophy in harmony with that of the profession: to prevent and mitigate severe social problems that challenge the viability of culturally diverse and complex urban settings; to build on the strengths of individuals, families and communities; and to lead the scholarly search for innovative, efficacious and just solutions.

MSW; Mary Baron, MSW; Debra Berl, MSW; Sherry Blair, MSW; Ann Marie Brown, MSW; John Bucholtz, MSW; Susan Bueker, MSW; Dana Caballero, MSW; Stephanie Carter, MSW; Linda Cox, MSW; Todd Creager, MSW; Marcia Cunha, MSW; Wilhelmina De Castro, MSW; Lorraine Demi, MSW; Julie Emmer, MSW; William Feureborn, DSW; Dan Field, MSW; Tina Fietsam, MSW; Terri Fong, MSW; Amy Giesler, MSW; Alan Gordon, MSW; Leah Hanzlick, MSW; Jason Harley, MSW; Joseph Harper, MSW; Trang Hoang, PhD; Kenneth Howard, MSW; Jazmin Jackson, MSW; Lisa Kabot, MSW; Shawnmari Kaiser, MSW; Stephen Koffman, MSW; Karen Leaf, MSW; Eileen Lemus, MSW; Marsaille Malatesa, MSW; Sofia Martinez, MSW; Elizabeth Misener, PhD; Nadia Mishael, PsyD; Sheila Monaghan, MA; Helena Morgan, MSW; Britanni Morris, MSW; Debbie Murad, MSW; Sherri Nader, PsyD; Deidre Norville, MSW; Katherine November, MSW; Laura Owen, MSW; Michelle Parra, PhD; Thomas Peterson, MBA; Sofia Reddy, MSW; Evangelina Reina, MSW; Jennifer Roberts, MSW; Lily Ross, MSW; Samih Samaha, MSW; Heidi Schnell-Cisneros, MSW; Stacy Story, MSW; Rocio Martinez-Sanchez Terry, MSW; Arlene Tippy, MSW; Russell Vergara, MSW; Tessa Wallace, MSW; Matthew Wells, MSW; Sharon Wheeler, MSW; Victoria Winssett, MSW

**Research Professors:** Charles Kaplan, PhD; Haluk Soydan, PhD
**Research Associate Professors:** Donald Lloyd, PhD; Janet Schneiderman, PhD

**Research Assistant Professors:** Hazel Atuel, PhD; Sara Kintzle, PhD; Sonya Negriff, PhD; John Prindle, PhD; Harmony Rhoades, PhD; Sherrie Wilcox, PhD; Hsin Yi Hsiao, PhD

**Emeritus Professors:** Howard J. Parad, DSW*; Rino Patti, DSW*; Barbara Solomon, DSW*
**Emeritus Field Education Faculty:** Rhoda G. Sarnat, MA

*Recipient of university-wide or school teaching award.

## Degree Programs

The Suzanne Dworkar-Peck School of Social Work offers the Master of Social Work (MSW), the Master of Science in Nursing (MSN), the Doctor of Social Work (DSW), the Doctor of Philosophy (PhD) and the dual Master of Social Work/Doctor of Philosophy, Social Work (MSW/PhD) degrees. In addition, the school offers dual degrees with the schools of business; gerontology; law; medicine; public policy; and Hebrew Union College.

### Dual Degree Programs

The Suzanne Dworkar-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworkar-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

### Master of Social Work/Master of Science, Gerontology

The MS/MSW dual degree offers the student interested in direct service or community organization the credentials most valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MSW as well as an MS in Gerontology. This dual degree requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworkar-Peck School of Social Work. The course work is usually completed over a 24-month period for full-time students.

Students must complete MSW course work in foundation, foundation field instruction and core courses specific to the AMHW or SCI departments.

See the Master of Social Work/Master of Science, Gerontology (MSW/MS) in the USC Leonard Davis School of Gerontology for course requirements.

### Master of Social Work/Master of Public Administration, Public Policy

The Dual Degree Programs

Public Policy

The Master of Public Administration/Master of Social Work (MPA/MSW) dual degree program provides those students interested in careers as administrators of social service agencies the opportunity to combine preparation in the substantive field of social work with the acquisition of the administrative capabilities necessary in the public sector. Students must complete 82 units: 54 units in social work and 28 units in public administration.

Dual degree students must complete MSW course work in foundation, field and core courses specific to the AMHW, SCI or CYF departments.

Most students complete both program requirements over a 24-month period for full-time students. See the USC Price School of Public Policy for course requirements.

### Master of Social Work/Juris Doctor, Law

The Juris Doctor and Master of Social Work (JD/MSW) dual degree program with the USC Gould School of Law is a four-year program in which students complete a total of 121 units. This includes 45 units in social work and 76 units in law.

To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

**First and Second Years:** Complete both the first year JD program of study and MSW course work in foundation, field and core courses specific to the AMHW, SCI or CYF departments.

**Third Year:** Complete the second year JD program.

**Fourth Year:** Complete the remaining required core department and field courses and one semester of field instruction and the final semester of the JD program in the spring.

The law school gives credit for the third semester in the Suzanne Dworkar-Peck School of Social Work, while the latter recognizes law courses as substitutions for a one-semester practice course, special topics courses, a third semester of social policy and one semester of field instruction (for which a clinical law semester is substituted).

### Master of Social Work/Master of Business Administration, Business

The MSW/MBA dual degree develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management.

Prospective students must apply to both the Suzanne Dworkar-Peck School of Social Work and the USC Marshall School of Business.

The MSW/MBA requires completion of a total of 96 units: 48 in the Marshall School of Business and 48 in the Suzanne Dworkar-Peck School of Social Work.

Students must select Department of Social Change and Innovation (SCI). Dual degree students must complete MSW course work in foundation, field and core courses specific to the SCI department.

Course requirements in the Marshall School of Business include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. For MBA admission and degree requirements, visit USC Marshall School of Business.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.
Hamovitch Center for Science in the Human Services

The Hamovitch Center for Science in the Human Services, located in the Suzanne Dworak-Peck School of Social Work, serves as the administrative umbrella for the school’s centers of research excellence. These centers of interdisciplinary research include the areas of aging, behavioral health, child welfare, homelessness, severe mental illness, veterans and military families, and management and policy. The center hosts seminars and colloquia, which are open to the university and community.

Research projects are supported by federal, state, county and school resources. The center engages faculty in research, demonstration and application in building and testing theory, developing research instruments, testing models of service and treatment modalities, evaluating programs and service policy. The center also provides opportunities for doctoral students to acquire research training through ongoing and newly initiated faculty research projects. Doctoral students are encouraged to apply to participate in such projects which often lead to dissertation possibilities. Predoctoral fellowships and/or research assistantships for projects conducted at the center are sometimes available to incoming and ongoing doctoral students. The center also enables doctoral students to conduct their own research through the auspices of the center, including their dissertation research. All doctoral students are encouraged to attend and participate in the center’s colloquia and programs to enhance their involvement with and skills in research and knowledge development.

Master’s Degree

Master of Science in Nursing, Family Nurse Practitioner (MSN-FNP)

The program of study that leads to the Master of Science in Nursing, Family Nurse Practitioner (MSN-FNP) degree consists of 49 units (31 units of theory; 12 units of clinical practicum; and 6 units of Social Work courses). The program, which prepares students to practice as family nurse practitioners (FNP), is administered primarily online via the Virtual Academic Center within the Suzanne Dworak-Peck School of Social Work, and features two on-campus intensives (OCI) providing students with opportunities for skills assessments and patient simulations. The clinical practice can be taken in various healthcare settings, including private practice and community-based facilities, and are based on the student’s geographical location. The USC MSN-FNP degree is offered in a full-time (five-semester) or part-time (eight-semester) format.

The Department of Nursing is committed to achieving distinction and preparing diverse leaders in research, education and advanced nursing practice. The department aims to work collaboratively with its Suzanne Dworak-Peck School of Social Work and Keck School of Medicine and other health science colleagues to improve patient care by preparing outstanding advanced practice nurses who provide evidence-based health care, and transform the health care system by preparing leaders in health care policy and research.

Required Courses

MSN-FNP Students are required to take the following courses:

- NURS 501 Pathophysiology for Advanced Nursing Practice Units: 4
- NURS 502 Advanced Health Assessment Across the Life Span Units: 3
- NURS 503 Theory: Clinical Management of Adult Patients Units: 3
- NURS 504 Pharmacology for Advanced Practice Nursing Units: 3
- NURS 505 Clinical Practicum: Management of Adult Patients Units: 3
- NURS 507 Theory: Clinical Management of the Childbearing/ Childrearing Family Units: 3
- NURS 507 Theory: Clinical Management of the Childbearing/ Childrearing Family Units: 3
- NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family Units: 3
- NURS 602 Research/Analytical Methods Units: 3
- NURS 603 Transforming Research Evidence into Practice Units: 3
- NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 605 Professional Issues in Advanced Practice Nursing Units: 2
- NURS 606 Health Policy Principles in Changing Health Care Contexts Units: 2
- NURS 607 Theory: Family Primary Care Units: 2
- NURS 608 Clinical Practicum: Family Primary Care Units: 3
- SOWK 506 Human Behavior and the Social Environment Units: 3
- Plus one elective in Social Work (3 units)

Bridge Course Requirement

During the admissions process, applicants will be identified for NURS 500 Bridge Course based on grades in prior science courses and/or length of time away from an academic program of more than five years. Students that successfully complete and receive credit for the Bridge Course will start the full- or part-time MSN-FNP program course sequence in the following semester. Students who do not receive credit for the Bridge Course will not be admitted to the program of study but may reapply to the program in one year.

- NURS 500 Bridge Course Units: 2

Nursing (MSN)

The program of study that leads to the Master of Science in Nursing degree consists of 49 units (31 units of theory; 12 units of clinical practicum; and 6 units of Social Work courses). The program, which prepares students to practice as family nurse practitioners (FNP), is administered primarily online via the Virtual Academic Center within the Suzanne Dworak-Peck School of Social Work, and features two on-campus intensives (OCI) providing students with opportunities for skills assessments and patient simulations. The clinical practica can be taken in various healthcare settings, including private practice and community-based facilities, and are based on the student’s geographical location. The USC MSN degree is offered in a full-time (five-semester) or part-time (eight-semester) format.

The Department of Nursing is committed to achieving distinction and preparing diverse leaders in research, education and advanced nursing practice. The department aims to work collaboratively with its Suzanne Dworak-Peck School of Social Work and Keck School of Medicine and other health science colleagues to improve patient care by preparing outstanding advanced practice nurses who provide evidence-based health care, and transform the health care system by preparing leaders in health care policy and research.

Required Courses

MSN Students are required to take the following courses:

- NURS 501 Pathophysiology for Advanced Nursing Practice Units: 4
- NURS 502 Advanced Health Assessment Across the Life Span Units: 3
- NURS 503 Theory: Clinical Management of Adult Patients Units: 3
- NURS 504 Pharmacology for Advanced Practice Nursing Units: 3
- NURS 505 Clinical Practicum: Management of Adult Patients Units: 3
- NURS 507 Theory: Clinical Management of the Childbearing/ Childrearing Family Units: 3
- NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues Units: 3
- NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family Units: 3
- NURS 602 Research/Analytical Methods Units: 3
- NURS 603 Transforming Research Evidence into Practice Units: 3
- NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues Units: 3
• NURS 605 Professional Issues in Advanced Practice Nursing Units: 2
• NURS 606 Health Policy Principles in Changing Health Care Contexts Units: 2
• NURS 607 Theory: Family Primary Care Units: 2
• NURS 608 Clinical Practicum: Family Primary Care Units: 3
• SOWK 506 Human Behavior and the Social Environment Units: 3
Plus one elective in Social Work (3 units)

**Bridge Course Requirement**

During the admissions process, applicants will be identified for NURS 500 Bridge Course based on grades in prior science courses and/or length of time away from an academic program of more than five years. Students that successfully complete and receive credit for the Bridge Course will start the full- or part-time MSN program course sequence in the following semester. Students who do not receive credit for the Bridge Course will not be admitted to the program of study but may reapply to the program in one year.

• NURS 500 Bridge Course Units: 2

**Social Work (MSW)**

The program of study that leads to the Master of Social Work degree consists of 60 units (42 units of course work and 18 units of field practicum). The program is available at these locations: University Park Campus and Virtual Academic Center via the Internet and can be completed in a full-time (four-semester) program or part-time (six- or eight-semester) program. In addition, some classes are offered at City Center in downtown Los Angeles.

The basic generalist curriculum introduces students to the range of social welfare problems and programs, and to the varieties of human behavior with which social work is concerned. At the same time, students learn the methods by which the social worker, the social agency and the organized community work with people and problems. Field instruction, under supervision in a social agency, is scheduled for two or three days a week, enabling students to apply theory to practice. All content areas include content on diversity, social work values and ethics, and economic justice and populations at risk. At the completion of foundation requirements, students are expected to have acquired a sense of professional responsibility and the ability to use knowledge on behalf of the individual, the group and the community.

The school is organized into three departments: 1) Children, Youth and Families; 2) Adult Mental Health and Wellness; 3) Social Change and Innovation. Students will select one of these departments of study and, upon completion of the generalist curriculum, take required courses and electives focused on department-specific issues. Student take six required department courses, a required diversity courses, and three electives focused on the student's individual interests.

Specific course content includes:

**Department of Children, Youth and Families (CYF)**

This department prepares students to address the needs of vulnerable children, youth and families from the earliest years of childhood through adolescence and the transition to adulthood. Course work focuses on promoting wellness and preventing trauma, as well as which kinds of service programs are showing the best results for families with different makeups from a variety of racial, ethnic and socioeconomic groups. Students are trained to serve families in a variety of service settings, including health, mental health, early education, schools, child welfare and juvenile justice.

**Department of Adult Mental Health and Wellness (AMHW)**

This department is focused on enhancing the health and well-being of younger and older adults within families, agencies, institutions, communities and other environments, and eliminating disparities. The curriculum offers course work in mental health and substance use, integrated primary and behavioral health care, wellness and recovery, promotion of healthy aging, social welfare policy, and program and policy evaluation and analysis.

**Department of Social Change and Innovation (SCI):**

This department prepares students to lead bold, large-scale solutions to social problems and drive positive change in organizations, businesses and government agencies. Students can customize their learning experience by specializing in community organization, workplace interventions or military social work, and taking courses in social change, advocacy, evaluation research, organizational planning and development. The community track prepares students to think critically about problems in communities and organizations, identify barriers to progress and design interventions to facilitate change. The business track prepares students for corporate settings, where they may help employees manage the demands between work and life and companies build positive relationships with their communities.

This system of curriculum offerings provides a strong educational program with a continuing commitment to a generalist base and a focused set of specialized content, in combination with a range of options to meet special interests. This program enables graduates to move into the social work community with a combination of knowledge and skills in a broad arena, as well as in-depth knowledge and skills in a particular method, population or area of service.

The curriculum builds on a liberal arts foundation that all entering students are required to have. The applicant should have a range of undergraduate courses in the humanities and the social and physical sciences.

**General Requirements**

The Master of Social Work degree requires a minimum of 60 semester units of courses, including field education (1000 clock hours).

The degree is not awarded solely on the basis of credits earned but also requires evidence of competence in both theory and practice. At their discretion, the faculty may require courses or fieldwork or both beyond the minimum requirements.

**Time Limit**

The master's degree program requires two academic years of full-time study or a structured part-time program that must be completed in a maximum of four years.

**Grade Point Average Requirement**

In accordance with the requirements of the Graduate School, a grade point average of 3.0 (A = 4.0) is required for admission to the USC Suzanne Dwork-Peck School of Social Work. Likewise, the university requires an overall GPA of 3.0 for graduation from the master's degree program.

**Course Requirements**

All newly admitted MSW students will follow a program that includes one course in social work practice; one course in policy; one course in human behavior; one course in research methods; one course in diversity; four semesters of field education; six department-specific core courses and three electives.

Course requirements are organized into one semester of generalist practice course work and three semesters of specialized practice course work. Academic credit is not granted for life experience or work experience in lieu of the field practicum or any other courses in the curriculum.

**Required Courses**

MSW students are required to take the following courses:

• SOWK 506 Human Behavior and the Social Environment Units: 3
• SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
• SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
• SOWK 546 Science of Social Work Units: 3
• SOWK 588 Integrative Learning for Social Work Practice Units: 2
• SOWK 589a Applied Learning in Field Education Units: 3
• SOWK 589b Applied Learning in Field Education Units: 3
Additional Requirements

Field Education

Field education is an integral part of the Master of Social Work curriculum. Two-year-long field education courses are required. The school works closely with thousands of community agencies, organizations, businesses and other field partners to ensure students receive valuable hands-on practice experience that complements their classroom learning. Students must complete two field internships, or 1,000 field hours in order to be awarded the Master of Social Work degree. The first placement requires 16 hours a week at a practicum agency that aligns with a student’s department and includes a two-hour practice lab in the first semester. In these labs, students will be trained to apply three evidence-based interventions: motivational interviewing, problem-solving therapy and cognitive behavioral therapy. In the second semester, students will participate in a two-unit field seminar while completing 16 hours a week at a practicum agency. In the second year of the program, students will increase their field time to 20 hours a week, and in some cases, they may be able to remain at their original field site if the organization can facilitate advanced learning experiences. Additionally, second-year students will participate in a one-unit field seminar where they will learn to apply evidenced-based interventions specific to their department.

Field education takes place in selected agencies and centers, which represent the complete range of social services. Field placements are approved on the basis of the quality of their professional practice, commitment to social justice and to addressing social work problems, interest in participating in professional education, and ability to make personnel and resources available. Field instructors, who are employed by either the agency or the school, are responsible for teaching students in their field placements. The senior associate dean for field education is administratively responsible for all field assignments.

Each placement in field education is made on an individual basis, which takes into consideration the following: geographic location, previous experiences, future goals, professional interests, special needs and stipend requirements. In these placements, students engage in selected and organized social work activities that provide practical experience in applying skills learned in the classroom.

The number of field placement options for non-driving students is limited. Students are encouraged to have access to an automobile for field placement.

Research Requirement

The research requirement consists of one foundation course. In the generalist course of study, SOWK 546 is designed to impart knowledge of research methodology and statistics. Students are required to enroll in courses that combine research skills with evaluation and program development in their department field of study.

Transfer Students

Applicants who have recently completed part or all of the first half of graduate study at a Council on Social Work Education-accredited school of social work may apply as transfer students. In addition to materials described in the section on application procedures, transfer students should forward course syllabi and a bulletin of the school for the year in which the course or courses were taken.

Transfer credits may be applied for those courses determined to be equivalent to USC’s first-year courses or to meet the expectation of the second-year electives. The grade point average for any course taken at another school of social work must be at least 3.0 on a 4.0 grading scale. Where foundation courses are similar, but not equivalent, transfer students may be permitted to take a waiver examination for possible exemption from those courses. Transferred credit for fieldwork will be computed on the basis of clock hours completed as well as on the breadth and depth of contents covered.

Military Social Work and Veteran Services

The Suzanne Dworak-Peck School of Social Work offers a Military Social Work and Veteran Services program in the MSW curriculum targeting military personnel, spouses and other military dependents and military retirees who wish to maintain a post-military career affiliation with the armed forces; military veterans who wish to provide professional services to their military comrades; and civilian personnel who are committed to assisting military personnel, their families and military veterans with adapting, coping and managing the stresses and strains of military life and post-military life.

Course Requirements

Beyond the basic professional social work foundation course requirements of the Master of Social Work degree, the program in Military Social Work and Veteran Services will offer a series of specialized courses focusing on the needs of military personnel, veterans and their families. Students will take two courses in special topics that focus on this area of practice. Individuals pursuing the Military Social Work and Veteran Services program options will also be able to select from a variety of highly relevant elective courses that will serve to enhance their training and future service delivery capabilities.

Advanced Standing Option

The Suzanne Dworak-Peck School of Social Work offers an advanced standing option for students who have graduated with a Bachelor of Social Work (BSW) degree from a Council on Social Work Education (CSWE)-accredited BSW program within the past five years. To be eligible for the advanced standing option, students must have successfully completed their BSW with a minimum GPA of 3.00 for the last 60/90 units of undergraduate work. A cumulative 3.5 GPA for all social work courses with a grade of B or better is required for admission.

Students admitted to advanced standing will bypass 23 units of the MSW program and be required to complete 37 units total of the following course work:

- SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3
- SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 698b Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 699a Advanced Applied Learning in Field Education Units: 4
- SOWK 699b Advanced Applied Learning in Field Education Units: 4

Plus six additional department core courses and two additional Social Work electives totaling 24 units.

Note:

Our Advanced Standing Program is only offered online through our Virtual Academic Center and can be completed in three semesters (full-time) or five semesters (part-time).

Dual Degree

Master of Social Work/Doctor of Philosophy (MSW/PhD)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional
schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

**Master's/PhD Requirements**

The MSW/PhD dual degree program is a course of study leading to both a graduate degree (Master of Social Work) and doctor of philosophy (PhD) in social work. This course of study is offered to exemplary students seeking advanced research based study in social work to become professional leaders who will make significant contributions to the knowledge base of the profession in the social work academic world.

**Application:**

Prospective students must meet both the MSW and PhD standing admission requirements.

**Program Requirements:**

A total of at least 90 units is required for the dual degree with at least 42 units in the MSW program and at least 48 units in the PhD program (exclusive of SOWK 794a, SOWK 794b, SOWK 794c, SOWK 794d, SOWK 794z, Doctoral Dissertation). The program can be completed within four years.

**Required MSW Courses**

Course requirements include the required MSW courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 588 Integrative Learning for Social Work Practice Units: 2
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 698a Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 698b Integrative Learning for Advanced Social Work Practice Units: 1
- SOWK 699a Advanced Applied Learning in Field Education Units: 4
- SOWK 699b Advanced Applied Learning in Field Education Units: 4

**PhD Course Requirements**

Students must complete a minimum of 48 course units beyond the master’s degree (exclusive of SOWK 794a SOWK 794b SOWK 794c SOWK 794d SOWK 794z Doctoral Dissertation). Students must complete at least 24 units within the Suzanne Dworak-Peck School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the Suzanne Dworak-Peck School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the Suzanne Dworak-Peck School of Social Work (such as gerontology; sociology; psychology; preventive medicine; business; policy; planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness. An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.

**Core Content**

All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

**Required PhD Courses**

**Substantive Courses – Students choose four:**

- SOWK 702 Theories of Human Behavior in the Context of Social Environments Units: 3
- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3
- SOWK 743 Theories for Practice with Small Systems Units: 3
- SOWK 743 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3
- SOWK 744 Theories for Practice with Large Systems Units: 3
- Macro focus: students with a macro focus in policy, community organization or administration must complete either SOWK 702 or SOWK 743.
- Micro focus: students with a micro focus in direct practice must complete either SOWK 703, SOWK 733 or SOWK 744.

**Core Courses:**

- SOWK 760L Introduction to Social Work Statistics Units: 3
- SOWK 761L Multiple Regression for Social Work Research Units: 3
- SOWK 762 Social Work Research Methods I Units: 3
- SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice Units: 3
- SOWK 764 Advanced Multivariate Statistics Units: 3

**Other Requirements**

Elective* Units: 3
Research or statistics course* Units: 3
Three external courses outside of Social Work Units: 9
SOWK 790 Research Units: 6

*Must be taken in the Suzanne Dworak-Peck School of Social Work or elsewhere at USC

**Individualized Study Plan**

MSW/PhD dual degree students will develop an Individualized Study Plan (ISP) at two points in their educational process. They will develop a plan with their mentor before the fall semester begins in year 1 to identify courses they plan to take in their first and second years. It will be approved by the doctoral committee. Students will develop a plan with their mentor in the spring semester of their second year to identify courses and tutorials they will take in their third and fourth years.

**Master of Social Work/Juris Doctor, Law (MSW/JD)**

The Master of Social Work and Juris Doctor (MSW/JD) dual degree program is a four-year program. Students are required to complete 121 units of course work, including 76 units in the USC Gould School of Law and 45 units in the USC Suzanne Dworak-Peck School of Social Work.

**Program Requirements:**

To earn the JD, all students (including dual degree students) must complete 35 numerically graded law units at USC after the first year. The associate dean may make exceptions to this rule for students enrolled in law school honors programs. Students must apply to both programs prior to matriculation. The program of study is as follows:

**First Year:** Complete the first year JD program of study.

**Second Year:** Begin taking course requirements in the Suzanne Dworak-Peck School of Social Work, which includes the required courses outlined in the Social Work (MSW) section of the catalogue. Students will also begin to take department core courses specific to the MSW in either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

**Third Year:** Complete the second year JD program.
Fourth Year: Complete the remaining required MSW courses, per advisement, and the final semester of the JD program in the spring.

The law school gives credit for the third semester in the Suzanne Dworak-Peck School of Social Work, while the latter recognizes law courses as substitutions for a one-semester practice course, special topics courses, a third semester of social policy and one semester of field instruction (for which a clinical law semester is substituted).

Master of Social Work/Master of Arts
Jewish Nonprofit Management (MSW/MA)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master’s Requirements

The dual degree program combines in-class learning and fieldwork under the auspices of the Hebrew Union College-Jewish Institute of Religion’s School of Jewish Nonprofit Management (formerly the School of Jewish Communal Service) and the University of Southern California's Suzanne Dworak-Peck School of Social Work.

Application:
Students must apply to both programs prior to matriculation.

Program Requirements:
Students in this dual degree program simultaneously pursue graduate studies leading to the MSW and an MA in Jewish Nonprofit Management over a 24-month period for full-time students. A total of 80 units must be completed to meet the requirements of both degrees (42 units in social work and 38 units at the HUC-JIR School of Jewish Nonprofit Management).

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

See Hebrew Union College for MAINM degree requirements.

Required MSW Courses

- SOWK 506 Human Behavior and the Social Environment
  Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work
  Units: 3
- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3

Master of Social Work/Master of Business Administration (MSW/MBA)

The MSW/MBA dual degree develops knowledge and skills in working with individuals, families and groups, as well as organizational dynamics, marketing, decision sciences, accounting and human relations. Students interested in working in the management of human services and not-for-profit organizations will develop knowledge of human resources, philanthropic and corporate social responsibility, organizational development and information management.

Application:
Prospective students must apply to both the Suzanne Dworak-Peck School of Social Work and the USC Marshall School of Business.

Program Requirements:
The MSW/MBA requires completion of a total of 96 units: 48 in the Marshall School of Business and 48 in the Suzanne Dworak-Peck School of Social Work.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses in the Department of Social Change and Innovation (SCI). Students will be advised into the appropriate courses.

Course requirements in the Marshall School of Business include all required courses in an MBA program and graduate business electives sufficient to bring the total units completed in the Marshall School of Business to at least 48. Dual degree students may not count courses taken outside the Marshall School of Business toward the 48 units. For MBA admission and degree requirements, visit USC Marshall School of Business.

The MBA and the MSW degrees are awarded simultaneously upon completion of all program requirements.

Master of Social Work/Master of Planning (MSW/MPH)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master’s Requirements

The Master of Social Work and Master of Planning (MSW/MPH) dual degree program offers unique opportunities for students who want to devote their professional careers to social policy, social planning or social services delivery. Dual degree students in this program receive an MSW as well as a MPH.

Application:
Students must apply to both programs prior to matriculation.

Program Requirements:
The MPH/MSW degree requires completion of a total of 80 units: 51 units in social work and 29 units in planning. The course work is normally completed over a period of 28 months for full-time students.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

See the Master of Planning/Master of Social Work (MP/MSW) in the Price School of Public Policy for course requirements.
Master of Social Work/Master of Public Administration (MSW/MPA)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements

The Master of Social Work/Master of Public Administration/ (MSW/MPA) dual degree program provides those students interested in careers as administrators of social service agencies the opportunity to combine preparation in the substantive field of social work with the acquisition of the administrative capabilities necessary in the public sector.

Program Requirements:

Students must complete 82 units: 54 units in social work and 28 units in public administration.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses in outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

For MPA degree requirements, see USC Price School of Public Policy.

Most students complete both program requirements over a 24-month period for full-time students.

Master of Social Work/Master of Public Health (MSW/MPH)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements

The Master of Social Work/Master of Public Health (MSW/ MPH) dual degree offers the student interdisciplinary preparation in the fields of public health and social work leading to the Master of Social Work (MSW) and Master of Public Health (MPH) degrees.

The dual degree program is a collaborative effort between the Suzanne Dworak-Peck School of Social Work and the Department of Preventive Medicine in the Keck School of Medicine. The objectives of the program are to provide students with the knowledge and skills necessary to promote health, prevent disease and enhance the delivery of health and social services in the community. Students will build interdisciplinary skills and an interdisciplinary professional identity by developing an understanding of the breadth of each field and their interface, while permitting concentration in particular specialization areas. The program prepares graduates for work in a variety of interdisciplinary settings; and for some, it will provide the basis for doctoral study.

Students must complete a minimum of 82 units for completion of this dual degree; 48 units in Social Work and 34 units in Public Health. Most students complete both program requirements over three years for full-time students; however, the program may be completed in less time if the student takes a full course load during the two summer sessions (MPH course work only; MSW is not available during the summer).

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined in the Social Work (MSW) section of the catalogue. Students will take their remaining MSW units in department core courses specific to either the AMHW, SCI or CYF department. Students will be advised into the appropriate courses.

Students will take MPH course work specific to the following public health concentrations, based on their chosen MSW department:

- AMHW and CYF Students will take required curriculum in the Community Health Promotion concentration.
- SCI Students will take required curriculum in the Health Services and Policy concentration.

Master of Social Work/Master of Science, Gerontology (MSW/MSG)

Dual Degree Programs

The Suzanne Dworak-Peck School of Social Work currently offers dual degree programs with a number of other USC professional schools. In addition, the school maintains a dual degree program at Hebrew Union College located adjacent to the USC campus.

The goal of these programs is to encourage graduate students to gain a recognized competence in another discipline which has direct relevance to the roles filled by social workers in society. Dual degree programs are based on the premise that some topics covered in the school are also addressed in the curricula of other departments, so that some credit toward an MSW degree may be given for specific courses in the cooperating department. Similarly, these departments have recognized that some credit toward their corresponding degree may be awarded for work completed in the Suzanne Dworak-Peck School of Social Work. For this reason, students enrolled in dual degree programs can obtain both degrees with a reduced number of total units. Students wishing to enroll in dual degree programs must apply for and be admitted to both schools.

Master's Requirements

The Master of Social Work and Master of Science, Gerontology (MSW/MSG) dual degree offers the student interested in direct service or community organization the credentials most valued in clinical and therapeutic practice. Students enrolled in this dual degree receive an MSW as well as an MS in Gerontology.

Program Requirements:

This dual degree requires completion of 73 units: 32 units of work in the Davis School of Gerontology and 41 units in the Suzanne Dworak-Peck School of Social Work. The course work is usually completed over a 24-month period for full-time students.

Course requirements in the Suzanne Dworak-Peck School of Social Work include the required courses outlined below. Students will take their remaining MSW units in department core courses specific to either the AMHW or SCI departments only. Students will be advised into the appropriate courses.

For MSG degree requirements, see the USC Davis School of Gerontology.
Required MSW Courses

- SOWK 506 Human Behavior and the Social Environment Units: 3
- SOWK 536 Policy and Advocacy in Professional Social Work Units: 3
- SOWK 544 Social Work Practice With Individuals, Families, and Groups Units: 3
- SOWK 546 Science of Social Work Units: 3
- SOWK 588 Integrative Learning for Social Work Practice Units: 2
- SOWK 589a Applied Learning in Field Education Units: 3
- SOWK 589b Applied Learning in Field Education Units: 3
- SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice Units: 3

Doctoral Degree

Social Work (DSW)

The Doctorate of Social Work (DSW) program is designed to address a different population of advanced learners and a distinct set of educational needs beyond the Master's in Social Work degree. Students entering with a Master of Social Work or other master's degree in a closely allied field from an accredited institution are admitted with Advanced Standing. They are required to complete a minimum of 42 units of DSW course work beyond their first graduate degree. The core DSW curriculum consists of 14 courses total (at 3 units each). There are no specializations or electives available in this program. The following themes are infused throughout the curriculum: organizational leadership, public leadership, innovation and change, technological fluency, and data driven practice and management.

The DSW program will be administered primarily online via the Virtual Academic Center within the Suzanne Dworak-Peck School of Social Work, and includes two-week-long in-residence institutes, one in each year of the program. The purpose of the residencies is to bring together the cohort for a series of lectures, seminars and discussions with "thought leaders" of the grand challenges in Social Work. The program can be completed in six consecutive semesters and culminates in a capstone project that will tie together the students' goals and objectives with skills learned in the DSW program.

Required Courses

DSW students are required to take the following courses:

- SOWK 704 Strategic Innovations for the Grand Challenges Units: 3
- SOWK 705 Leading Public Discourse Units: 3
- SOWK 706 Leading and Managing Large Complex Systems Units: 3
- SOWK 707 Financial Management for Social Change Units: 3
- SOWK 710 Preparatory Scholarship for Capstone Units: 3
- SOWK 711 Design Laboratory for Social Innovation I Units: 3
- SOWK 712 Residency I Units: 3
- SOWK 713 The Application of Implementation Science Units: 3
- SOWK 714 Leaders as Maestros: Designing Change in the Grand Challenges Units: 3
- SOWK 720 Communication and Influence for Social Good Units: 3
- SOWK 721 Data Driven Decision Making in Social Services Units: 3
- SOWK 722 Implementing Your Capstone and Re-envisioning Your Career Units: 3
- SOWK 723 Design Laboratory for Social Innovation II Units: 3
- SOWK 724 Residency II Units: 3

Social Work (PhD)

With the enrollment of a small group of highly qualified experienced social workers, the Suzanne Dworak-Peck School of Social Work established the first social work doctoral program in the Western United States in 1953. Over the years, the school has continued the tradition of providing opportunities for learning in small classes, seminars and tutorials.

The major goal of the doctoral program in social work is to produce social work scholars who will have the capacity to make valuable and significant contributions to the knowledge base of the profession. Students acquire the skills necessary to become professional scholars and develop a significant capacity for professional leadership. Toward this end, the school is committed to pursuing excellence in education with persons of definite promise and to seeking gifted students of varied social, ethnic and economic backgrounds.

Through training in specific areas, graduates of the program develop theoretical, conceptual, critical and analytic skills which can be applied to social, organizational, interpersonal and personal problems. They emerge from the program with substantive knowledge and analytic skills that enable them to contribute to understanding social problems and ways of solving them. With these skills, they are able to take a disciplined approach to the issues confronting the profession of social work and the field of social welfare and are prepared to make a significant contribution to the research and scholarship that informs society's effort to improve the human condition.

The PhD program in social work is administered by the Doctoral Committee of the Suzanne Dworak-Peck School of Social Work in accordance with the policies set by the Graduate School. The requirements listed below are special to the Suzanne Dworak-Peck School of Social Work and must be read in conjunction with the general requirements of the Graduate School.

Admission Requirements

Applicants for admission to the doctoral program must meet the following requirements:

1. A master's degree from a program accredited by the Council on Social Work Education or from another field related to social work.
2. Academic promise, as evidenced by above average achievement in undergraduate and professional education and a personal statement outlining the applicant's scholarly goals.
3. Professional competence as demonstrated through substantial experience in responsible social work, internships or other positions either during or subsequent to the master's program.
4. Personal qualities compatible with performance in social work and indicating a potential for leadership in the field: skill in relationships, flexibility and openness to new ideas, maturity, identification with the profession of social work, and commitment to furthering the development of the profession.
5. Satisfactory performance on the Graduate Record Examinations — existing test scores may be submitted if the GRE has been completed no more than five years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.
6. Satisfactory performance on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) for all international students prior to the date of application. Existing test scores may be submitted if the TOEFL or IELTS has been completed no more than two years prior to the date of application. Information may be obtained from the USC Center for Testing and Assessment, Student Union 301, Los Angeles, CA 90089-0896, (213) 740-7166, or from the Educational Testing Service at ets.org.
7. Submission of application materials as required. Instructions for application to the Doctor of Philosophy in Social Work program may be obtained by writing to the director of the program.

Under unusual circumstances, applications from persons who do not meet these requirements, including those who have just been awarded the MSW degree, will be considered. In cases where the MSW (or its equivalent) has recently been granted and the applicant does not have the prerequisite post-master's degree employment
experience, it may be required that such experience be acquired concurrent with enrollment in the doctoral program.

Under very unusual circumstances, applications to the doctoral program in social work will be considered from those who do not hold the MSW or an equivalent degree. Such applicants, in order to be admitted to the program, must have a master's degree (or its equivalent) in a field related to social work and a demonstrated commitment to the field of social work as evidenced by substantial contribution to the knowledge base of the profession. Admission decisions on applicants who do not hold an MSW or equivalent degree will be made by the full Doctoral Program Committee of the Suzanne Dworak-Peck School of Social Work rather than by a subcommittee of that body.

Priority will be given to applications that are completed by January 1.

Application Procedure

All applicants to the doctoral program must submit the following information: (1) graduate admission application using the university's online system; (2) statement of purpose which is submitted as part of the online application; (3) current resume which is uploaded as part of the online application; (4) all undergraduate and graduate transcripts; (5) four letters of reference, at least three of which are from persons who can assess the student's scholarly potential; (6) recent GRE scores; (7) recent TOEFL or IELTS scores; (8) documented evidence of financial support is required of all international applicants; (9) PhD Information Form for the Suzanne Dworak-Peck School of Social Work; (10) career plans and goals; and (11) scholarly writing sample.

Foreign Language/Research/English Language Requirements

There is no foreign language requirement for the PhD degree. Competence in advanced research methodology and statistics is required through satisfactory completion of required courses. All international students are required to submit their TOEFL or IELTS scores from a test date prior to application and to meet university requirements for teaching.

Course Requirements

Students must complete a minimum of 48 course units beyond the master's degree (exclusive of SOWK 794a, SOWK 794b, SOWK 794c, SOWK 794d, SOWK 794z Doctoral Dissertation). Students must complete at least 24 units within the Suzanne Dworak-Peck School of Social Work and at least three courses in other departments or schools within the university. At least 8 of these 12 units must be in courses with a substantive rather than a research-methodology or statistic focus. Students must also take at least one 3-unit elective and one additional research or statistics course either in the Suzanne Dworak-Peck School of Social Work or elsewhere in the university. Each student must develop a concentration either in another discipline outside the Suzanne Dworak-Peck School of Social Work (such as gerontology; sociology; psychology; preventive medicine; business; policy, planning and development; or political science) or in a problem area where different external courses in different departments or schools bear on a specific social problem like homelessness. An overall grade point average of B (3.0) on all graduate work attempted in the doctoral program is required for graduation.

Core Content

All students are expected to master core content. They must also complete 12 units from the substantive five core courses.

Required Courses

24 units from the following:

- SOWK 702 Theories of Human Behavior in the Contexts of Social Environments Units: 3
- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3
- SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3
- SOWK 743 Theories for Practice with Small Systems Units: 3
- SOWK 744 Theories for Practice with Large Systems Units: 3
- SOWK 761L Multiple Regression for Social Work Research Units: 3
- SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice Units: 3
- SOWK 764 Advanced Multivariate Statistics Units: 3

Core Courses:

- SOWK 760L Introduction to Social Work Statistics Units: 3
- SOWK 761L Multiple Regression for Social Work Research Units: 3
- SOWK 762 Social Work Research Methods I Units: 3
- SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice Units: 3
- SOWK 764 Advanced Multivariate Statistics Units: 3

Macro focus: students with a macro focus in policy, community organization or administration must complete either SOWK 702 or SOWK 743 as part of their core curriculum.

- SOWK 702 Theories of Human Behavior in the Contexts of Social Environments Units: 3 or
- SOWK 743 Theories for Practice with Small Systems Units: 3

Micro focus: students with a micro focus in direct practice must complete either SOWK 703, SOWK 733 or SOWK 744.

- SOWK 703 Explanatory Theories for Larger Social Systems Units: 3 or
- SOWK 733 Policy Analysis and Advocacy in a Comparative Social Policy Context Units: 3 or
- SOWK 744 Theories for Practice with Large Systems Units: 3

Other Requirements

- Elective Units: 3 *
- Research or statistics course Units: 3 *
- SOWK 790 Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 (6 units required)

Note:

*Must be taken in the Suzanne Dworak-Peck School of Social Work or elsewhere at USC

Additional Requirements

Students must complete a minimum of 12 units per semester in their first semester and second semester of their first year in the program to maintain their status as full-time students and eligibility for financial support from the Suzanne Dworak-Peck School of Social Work.

Individualized Course of Study

The second year of the curriculum is largely individualized to meet each student's educational goals. It is organized around a specific field of social work practice or a problem area. In the case of fields of practice or problem area, students gain knowledge of that field's development and policies; one level of comparative practice theory applicable to that field; comparative explanatory theory appropriate to the field and the chosen practice level; and advanced research methods which can be used to explore field-specific questions.

Field of Practice is defined as a field of activity in which there is an identifiable service delivery system, a continuum of care for clients, and a defined or established role for social workers.

Given the current expertise of the faculty and available faculty resources, students may choose from the following fields of practice specializations:

- Given the current expertise of the faculty and available faculty resources, students may choose from the following fields of practice specializations: (1) families and children, (2) mental health, (3) health, (4) occupational/industrial employment, (5) aging/gerontology, or (6) economic security/income maintenance.

- Additional fields of practice can be added to the above choices depending on faculty interest, expertise and availability.

Problem Area is defined as a social or service delivery problem that is relevant to the field of social work such as homelessness or urban health systems.

Practice Theory is defined as advanced knowledge of comparative practice theories at one point on the intervention continuum as they relate to the field of practice chosen. The
practice intervention continuum is defined to include practice with individuals, families and groups, as well as community practice, administration, planning and policy practice.

**Explanatory Theory** is defined as advanced knowledge of comparative social science theories as they relate to the field of practice and level of intervention chosen.

**Specialized Research Skills** is defined as advanced skills in research methodology and statistics which support the student's dissertation within the field of practice.

Students fulfill the requirement for the mastery of the content of their individualized course of study through a combination of at least three (2-unit) directed tutorials (SOWK 790) with members of the social work faculty, at least three university courses in other departments of the university and an elective.

Students prepare an individualized course study plan with their faculty adviser in the spring of the first year that is approved by the doctoral committee. It details classes and tutorials that each student will take during the second year of the program.

**Opportunities for Further Skill Development**

The program offers students skills training in both teaching and research.

**Teaching Skills**

All doctoral students must teach for two semesters before they graduate. Requirements may be fulfilled by coteaching, teaching as an assistant or solo teaching. Before beginning these teaching experiences, students must take a teaching course approved by the doctoral committee. International students must meet the English proficiency standards set forth by the American Language Institute and participate, if necessary, in specialized training offered by the Center for Excellence in Teaching.

**Additional Research Skills**

Students are also offered the opportunity for enhanced skills building in research through a research internship. The one- or two-semester internship (SOWK 785), starting typically in the spring of the second year, is designed to provide students with hands-on, practical experience with an ongoing faculty research project prior to the start of their own dissertation research. Typically, activities include data collection and/or analysis. The practicum is expected to yield a paper of publishable quality co-authored by the student and the faculty member.

Students may enroll in SOWK 599 by petitioning the doctoral committee in writing. The decision to grant or deny admission will be based on each applicant's learning and research interests and permission of the instructor.

The usual program includes two years of full-time course work, plus an additional period for completing the qualifying examinations and dissertation. In rare cases, students who are not able to take the full-time program because of employment may spread course work over three years. They must, however, have the equivalent of full-time study in residence for at least one year.

Students should specify whether they are applying for the full-time or part-time program at the time they apply to the program. Part-time students usually carry two courses per semester during the academic year. They may wish to accelerate their progress by enrolling in appropriate courses when available during the summer session.

The time limit for completing all requirements for the PhD degree is eight years from the first course taken at USC to be applied toward the degree. Students who have completed an applicable master's degree at USC or elsewhere (almost all students in the social work doctoral program) must complete the PhD in six years.

**Transfer of Credit**

The transfer of post-master's doctoral course work from another institution will only be considered if a grade of B or better (A = 4.0) has been obtained, and the course has been completed within the last five years. Transfer of credits must be petitioned and approved by both the Suzanne Dworak-Peck School of Social Work and the Graduate School.

**Screening Procedures**

When students have completed a minimum of 16 units (but not more than 24 units) of doctoral course work, the doctoral committee assesses their performance and makes a decision about their readiness to continue in the program. If the decision is to deny permission to continue, the students are so notified. If permission is granted, a qualifying exam committee is established.

**Qualifying Exam Committee**

The qualifying exam committee is composed of five faculty members, four of whom, including the chair, are from the Suzanne Dworak-Peck School of Social Work and one from an academic unit of the university other than the Suzanne Dworak-Peck School of Social Work. The function of the qualifying exam committee is to oversee the development of the student's academic program through the qualifying examination.

**Qualifying Examination**

As a prerequisite to candidacy for the PhD degree, students must pass written and oral qualifying examinations. In order to take the examinations, students must complete all core courses, at least 6 units of SOWK 790 tutorials and at least 32 units of course work in the doctoral program with a minimum grade point average of 3.0.

All students must pass a qualifying examination by completing a paper that the examination committee judges to be of publishable quality and passing an oral examination on subject matter related to the paper. The paper must deal with a substantive theoretical, model-building or methodological issue in the student's chosen area. Critical reviews of the literature or reports of empirical studies conducted by the student specifically for the qualifying examination are acceptable. The topic of the paper will be chosen in conjunction with the student's chair and must be defended before and agreed to by the entire examination committee. The content of the paper is to go beyond products developed for tutorials and must be an independent effort. Further details for completing the paper and oral examination are provided as needed. When students pass the written and oral portions of the qualifying examination, they advance to candidacy.

In accordance with university policy, since the two portions of the qualifying examination are considered part of a single examination, only one retake of either portion of the examination is permitted. When the oral examination has been passed, the student is formally admitted to candidacy.

**Doctoral Dissertation**

When the student is admitted to candidacy, a dissertation committee is established consisting of three members of the qualifying exam committee, one of whom must be from outside the Suzanne Dworak-Peck School of Social Work. The dissertation committee has the responsibility of providing consultation in research, approving the dissertation, conducting the final oral examination and recommending the candidate for the PhD degree. The doctoral dissertation should make a contribution to knowledge and theory related to the profession of social work. Dissertations must not only show technical mastery of the subject and research methodology but also must demonstrate the candidate's ability to work independently as a scholar.

The first step in the dissertation process is the development of a dissertation proposal. Normally about 25-30 pages, the proposal should contain a clear statement of purpose, a rationale for the research, research questions or hypotheses, a review of pertinent literature, and an explication of the research methods to be used including the design, instrumentation, sampling procedures and plan for analysis. The proposal must include human subject clearances for analysis. The proposal must be accepted. The topic of the paper will be chosen in conjunction with the student's chair and must be defended before and agreed to by the entire examination committee. The content of the paper is to go beyond products developed for tutorials and must be an independent effort. Further details for completing the paper and oral examination are provided as needed. When students pass the written and oral portions of the qualifying examination, they advance to candidacy.

In accordance with university policy, since the two portions of the qualifying examination are considered part of a single examination, only one retake of either portion of the examination is permitted. When the oral examination has been passed, the student is formally admitted to candidacy.

**Doctoral Dissertation**

When the student is admitted to candidacy, a dissertation committee is established consisting of three members of the qualifying exam committee, one of whom must be from outside the Suzanne Dworak-Peck School of Social Work. The dissertation committee has the responsibility of providing consultation in research, approving the dissertation, conducting the final oral examination and recommending the candidate for the PhD degree. The doctoral dissertation should make a contribution to knowledge and theory related to the profession of social work. Dissertations must not only show technical mastery of the subject and research methodology but also must demonstrate the candidate's ability to work independently as a scholar.

The first step in the dissertation process is the development of a dissertation proposal. Normally about 25-30 pages, the proposal should contain a clear statement of purpose, a rationale for the research, research questions or hypotheses, a review of pertinent literature, and an explication of the research methods to be used including the design, instrumentation, sampling procedures and plan for analysis. The proposal must include human subject clearances for analysis. The proposal must be accepted. The topic of the paper will be chosen in conjunction with the student's chair and must be defended before and agreed to by the entire examination committee. The content of the paper is to go beyond products developed for tutorials and must be an independent effort. Further details for completing the paper and oral examination are provided as needed. When students pass the written and oral portions of the qualifying examination, they advance to candidacy.

In accordance with university policy, since the two portions of the qualifying examination are considered part of a single examination, only one retake of either portion of the examination is permitted. When the oral examination has been passed, the student is formally admitted to candidacy.
examinations, and that an acceptable proposal will be presented within three months of the completion of the examination.

Abstract of Dissertation

Since the abstract of the dissertation is also published in *Dissertation Abstracts International*, it should be written with care and must be representative of the final draft of the dissertation. A shorter abstract for publication in *Social Work Research and Abstracts* is also required.

Final Oral Examination

Upon approval of the final draft of the dissertation by all members of the dissertation committee, the candidate must pass a general final oral examination. After the candidate successfully completes the final oral examination, the committee recommends the candidate to the Graduate School for the PhD degree.
Courses of Instruction

The terms indicated are expected but are not guaranteed. For the courses offered during any given term, consult the Schedule of Classes.

Arts, Technology and the Business of Innovation

**ACAD 174 Innovators Forum**
Units: 2 Max Units: 04 Terms Offered: FaSp Leaders in diverse disciplines, industries, and the arts present and discuss problems facing society, and critique real-world projects that challenge the concept of innovation. Registration Restriction: Open only to Technology and the Business of Innovation majors Duplicates Credit in former ACAD 175 Instruction Mode: Lecture Grading Option: Letter

**ACAD 176 Rapid Visualization**
Units: 4 Terms Offered: Fa Basic techniques, methods, concepts, tools, and materials that are used to quickly communicate ideas and concepts in a visual manner. Recommended Preparation: Photoshop; iPad and/or laptop skills; iPad drawing apps such as Sketchbook or iDraw. Instruction Mode: Lecture Grading Option: Letter

**ACAD 177 Digital Toolbox for Design**
Units: 2 Terms Offered: Fa Eight-week session covering the basics of industry-standard creative, analytical and presentation software. Applications include: design, presentation, publishing and business management. Registration Restriction: Open only Arts, technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

**ACAD 178 Digital Toolbox: Motion Graphics**
Units: 2 Terms Offered: Fa Eight-week course covering the basics of industry-standard digital video and motion graphics software used for visual effects, non-linear video production and editing. Registration Restriction: Open only Arts, technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

**ACAD 179 Digital Toolbox: Excel for Business Management**
Units: 2 Terms Offered: Sp Eight-week course designed to provide a spreadsheet format to analyze information and build Microsoft Excel-based models for business management and creative data visualization. Registration Restriction: Open only to Arts, Technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

**ACAD 180 Digital Toolbox: Sound and Audio**
Units: 2 Terms Offered: FaSp An eight-week course covering the basics of industry-standard hardware and software used for designing, creating, processing, and distributing sound and audio. Instruction Mode: Lecture Grading Option: Letter

**ACAD 181g Disruptive Innovation**
Units: 4 Terms Offered: Fa Critical approaches to social and cultural changes stemming from disruptive innovations in the arts, science, technology, communications, new media, politics and business. Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to Arts, Technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

**ACAD 182 Case Studies in Innovation**
Units: 4 Terms Offered: Sp Employing a case-study methodology, students analyze the artistic, technological, and entrepreneurial factors and address the conceptual, ethical, and logistical issues that lead to disruptive innovation. Prerequisite: ACAD 181. Registration Restriction: Open only to Arts, Technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

**ACAD 183 Digital Toolbox: 3D Design**
Units: 2 Terms Offered: Sp An eight-week course covering the basics of industry-standard 3D modeling, rendering, and capturing software used for product, packaging, industrial and environmental design. Open only to Arts, Technology and the Business of Innovation majors. Registration Restriction: Open only to Arts, Technology and the Business of Innovation Instruction Mode: Lecture Grading Option: Letter

**ACAD 187 Digital Toolbox: 3D Design Products I**
Units: 2 Terms Offered: Tools and techniques specific to CAD design and design improvements, focused on the ideation and development new products. Instruction Mode: Lecture Grading Option: Letter

**ACAD 188 Digital Toolbox: Modeling Products II**
Units: 2 An investigation of the tools and techniques specific to intermediate CAD design and design improvements, focused on the ideation and development new products. Corequisite: ACAD 188 Instruction Mode: Lecture Grading Option: Letter

**ACAD 200 Advanced Sound and Audio**
Units: 4 Terms Offered: FaSp An in-depth study of sound, acoustics, psychoacoustics, and the standard components of the audio signal chain, including microphones, mixers, interfaces, signal processors, amplifiers, loudspeakers, and audio-distribution systems. Recommended Preparation: ACAD 180. Instruction Mode: Lecture Grading Option: Letter

**ACAD 202 Modeling Physical Systems**
Units: 4 Terms Offered: Fa The physics of mechanics and motion is integrated with differential and integral calculus. The concepts are linked through a computational, problem-solving, methodology. Instruction Mode: Lecture, Lab Grading Option: Letter

**ACAD 203 Statics**
Units: 3 Terms Offered: FaSp (Enroll in AME 201)

**ACAD 204 Strength of Materials**
Units: 3 Terms Offered: FaSp (Enroll in AME 204)

**ACAD 206 Communication and Culture**
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 206)

**ACAD 207 Multimedia for Designers and Entrepreneurs I**
Units: 4 Terms Offered: Fa Basics of industry-standard hardware and software specific to creating effective and compelling multimedia experiences. Prerequisite: ACAD 177 and ACAD 178 and ACAD 180 Instruction Mode: Lecture Grading Option: Letter

**ACAD 230 3D Design: Materials and Tools**
Units: 4 Terms Offered: FaSp (Enroll in DES 230)

**ACAD 240 Materials: Denim to Nanotubes**
Units: 4 Terms Offered: Fa Covers the fundamentals of materials science and introduce students to the principles of designing with specific materials in mind. Instruction Mode: Lecture Grading Option: Letter

**ACAD 245 Product Design I**
Units: 4 Terms Offered: Sp A wide investigation of techniques specific to dimensional design as they apply to package, product and spatial design, in analog and digital environments. Prerequisite: ACAD 176 or DES 102 Instruction Mode: Lecture Grading Option: Letter

**ACAD 250 Database Systems for Analytics**
Units: 2 (Enroll in ITP 250)

**ACAD 251 Applied Statistics for Analytics**
Units: 2 (Enroll in ITP 251)

**ACAD 257 Dev I**
Units: 4 Terms Offered: Sp Web page design and creation, web objects, scripting and interactivity. Includes developing skills to design and build interactive websites. Duplicates Credit in former ITP 204 Instruction Mode: Lecture Grading Option: Letter

**ACAD 258 Dev II**
Units: 4 Terms Offered: Fa Fundamentals of server-side scripting and web templates. Design and creation of data structures and databases. Visualize analytics and data. Prerequisite: ACAD 275 Instruction Mode: Lecture Grading Option: Letter

**ACAD 277 Dev III: Advanced Topics**
Units: 4 Max Units: 08 Terms Offered: Sp An accelerated approach to object-oriented programming, including foundations of applications for devices, with a focus on user interface design. Prerequisite: ACAD 276 Instruction Mode: Lecture Grading Option: Letter

**ACAD 280 Designing for Experiences**
Units: 4 Terms Offered: Sp Designing effective and elegant interfaces and experiences for the ways people interact with data, devices, systems, and environments. Prerequisite: ACAD 178 and ACAD 275 and ACAD 276 Instruction Mode: Lecture
ACAD 300x Database Web Development  
Units: 3 Terms Offered: FaSpSm (Enroll in ITP 300)

ACAD 301 Understanding Play  
Units: 4 Examines various theories of play and how it shapes and defines human experiences. Instruction Mode: Lecture  
Grading Option: Letter

ACAD 302 The Hacker Imagination: from Ancient Greece to Cupertino  
Units: 4 Explores issues in innovation, design and invention from the perspective of the hacker imagination. Instruction Mode: Lecture  
Grading Option: Letter

ACAD 303 Web Design  
Units: 2 Terms Offered: FaSp (Enroll in DES 303)

ACAD 306 Innovation, Entertainment, and the Arts  
Units: 4 Designing and delivering compelling multimedia experiences, including the application of intermediate tools and techniques related to state-of-the-art creative hardware and software.  
Prerequisite: ACAD 207 Instruction Mode: Lecture  
Grading Option: Letter  
Crosslisted as ITP 307

ACAD 308 Computer-Aided Design for Bio-Mechanical Systems  
Units: 3 (Enroll in ITP 308)

ACAD 309g Dreams & Madness: The Art of Japan’s Golden Age of Animation  
Units: 4 Terms Offered: FaSp An in-depth look at the art, politics, and cultural impact of several Japanese filmmakers including Isao Takahata, Hayao Miyazaki, Satoshi Kon, Mamoru Hosoda and Makoto Shinkai. Satisfies New General Education in Category A: The Arts  
Instruction Mode: Lecture  
Grading Option: Letter

ACAD 310 Launching Disruptive Ventures  
Units: 4 Terms Offered: FaSp (Enroll in BAEP 310)

ACAD 312 Materials Behavior and Processing  
Units: 3 Terms Offered: Fa (Enroll in MASC 312)

ACAD 315x Basics of Project and Operations Management for Non-Majors  
Units: 2 Terms Offered: Fa (Enroll in BUAD 315x)

ACAD 323g Design Theory  
Units: 4 Terms Offered: FaSp (Enroll in DES 323g)

ACAD 324g The Practice of Design: Ideation to Innovation  
Units: 4 History and application of proven collaborative design processes and methodologies as they relate to ideation and innovation. Satisfies New General Education in Category A: The Arts  
Instruction Mode: Lecture  
Grading Option: Letter

ACAD 325 Justice Innovation Startup Lab  
Units: 4 (Enroll in LAW 325)

ACAD 330 3D Design: Objects and Space  
Units: 4 Terms Offered: FaSp (Enroll in DES 330)

ACAD 331x Influence and Collaboration  
Units: 2 Terms Offered: FaSp (Enroll in MOR 331x)

ACAD 332a Typography  
Units: 2 Terms Offered: FaSp (Enroll in DES 332a)

ACAD 332b Typography  
Units: 2 Terms Offered: FaSp (Enroll in DES 332b)

ACAD 341 App Development for Phones and Tablets  
Units: 3 (Enroll in ITP 341)

ACAD 342 Mobile Application Development  
Units: 3 (Enroll in ITP 342)

ACAD 343 Mobile Development for Content and Media  
Units: 1 (Enroll in ITP 343)

ACAD 344 Advanced Topics in Mobile App Development  
Units: 3 (Enroll in ITP 344)

ACAD 345 Product Design II  
Units: 4 A thorough look into developing a feasible consumer product through implementing all aspects of the R&D process, including consumer insights, competitive analysis, ideation, and manufacturability.  
Prerequisite: ACAD 240 and ACAD 245 Corequisite: ACAD 188 and ACAD 189 Instruction Mode: Lecture  
Grading Option: Letter

ACAD 350 International Experience  
Units: 2 Max Units: 08 Terms Offered: Sp  
An international study experience and trip focusing on a primary subject area of the USC Iovine and Young Academy.  
Instruction Mode: Lecture  
Grading Option: Letter

ACAD 351 Technologies and Practices for Analytics  
Units: 4 (Enroll in ITP 350)

ACAD 352 Digital Audio Recording and Processing  
Units: 4 Terms Offered: FaSp  
The principles, techniques, and aesthetics of digital audio recording and processing with an emphasis on mastering for multimedia integration.  
Recommended Preparation: ACAD 200.  
Instruction Mode: Lecture  
Grading Option: Letter

ACAD 354 Synthesis and Sound Design  
Units: 4 Terms Offered: FaSp  
A comprehensive study of the elements of electronic synthesis and sampling, as well as the use of “live” and “found” audio recordings for creative sound design purposes.  
Recommended Preparation: ACAD 200 Instruction Mode: Lecture  
Grading Option: Letter

ACAD 356 Audio and Media Integration  
Units: 4 Terms Offered: FaSp  
Methods and techniques for integrating audio into various media and applications including: film and video, Internet streaming, mobile devices, and other digital and computer applications.  
Recommended Preparation: ACAD 200  
Instruction Mode: Lecture  
Grading Option: Letter

ACAD 360 Design Consulting: Problem Solving for Organizations  
Units: 4 Terms Offered: Sp A professional, collaborative and multidisciplinary consulting approach to diagnosing problems and applying design-based solutions on behalf of organizations.  
Prerequisite: ACAD 181g and ACAD 182 Instruction Mode: Lecture  
Grading Option: Letter

ACAD 365 Managing Data in C++  
Units: 3 (Enroll in ITP 365)

ACAD 366 Designing Media and Communication Projects for Social Change  
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 366)

ACAD 367x Advanced Coding  
Units: 4 (Enroll in ITP 367x)

ACAD 375 Business and Professional Communication  
Units: 4 Terms Offered: FaSpSm (Enroll in COMM 375)

ACAD 376 Discerning and Making I: Concept and Feasibility  
Units: 4 Terms Offered: Fa A broad look at innovation from the perspectives of designers, engineers, and entrepreneurs as applied to concept/feasibility of art, design, products, services and experiences.  
Prerequisite: ACAD 177 and ACAD 178 and ACAD 180 and ACAD 187 Registration Restriction: Open only to Arts, Technology and the Business of Innovation majors  
Instruction Mode: Lecture  
Grading Option: Letter

ACAD 377 Discerning and Making II: Creation and Implementation  
Units: 4 Terms Offered: Sp Students create and implement - from conception through prototype – new ventures, products, services, and processes; building upon the innovations of designers, engineers, and entrepreneurs.  
Prerequisite: ACAD 376. Registration Restriction: Open only to Arts, Technology and the Business of Innovation students  
Instruction Mode: Lecture, Lab  
Grading Option: Letter

ACAD 382 Mobile Game Programming  
Units: 3 (Enroll in ITP 382)

ACAD 385x Marketing of Creative Disruption and Innovation  
Units: 4 Terms Offered: Fa (Enroll in MKT 385x)

ACAD 387x Cloud Architecture and Applications  
Units: 4 (Enroll in ITP 387)

ACAD 404 Modern Technologies of Web Development  
Units: 3 Terms Offered: Fa (Enroll in ITP 404)

ACAD 405 Professional Applications and Frameworks in Web Development  
Units: 3 (Enroll in ITP 405)

ACAD 407 Multimedia for Designers and Entrepreneurs III  
Units: 4 Designing persuasive multimedia experiences; new and experimental media types; intermediate production methods;
advanced techniques for creative software. 

**Prerequisite:** ACAD 307 Instruction Mode: Lecture Grading Option: Letter Crosslisted as ITP 407

**ACAD 419 Professional Internship**  
Units: 2 Max Units: 08 Terms Offered: FaSpSm An experiential/academic opportunity in an arts, technology and business related facility. Written analysis, evaluation, and working internship. Instruction Mode: Lecture Grading Option: Letter

**ACAD 423 Management of Small Businesses**  
Units: 4 Terms Offered: FaSp (Enroll in BAEP 423)

**ACAD 425 Web Application Security**  
Units: 4 (Enroll in ITP 425)

**ACAD 435 Professional C++**  
Units: 3 Terms Offered: Sp (Enroll in ITP 435)

**ACAD 442 Mobile App Project**  
Units: 4 (Enroll in ITP 442)

**ACAD 445 Product Design III**  
Units: 4 An understanding of bringing a product to market through the process of determining consumer pain points, competitive analysis, marketability, feasibility, and the supporting business model. **Prerequisite:** ACAD 345 Instruction Mode: Lecture Grading Option: Letter

**ACAD 449 Data Mining: Descriptive and Predictive**  
Units: 4 (Enroll in ITP 449)

**ACAD 460 Web Application Project**  
Units: 4 Terms Offered: Sp (Enroll in ITP 460)

**ACAD 467 Strategic Management of Innovation**  
Units: 4 Terms Offered: Sp (Enroll in MOR 467)

**ACAD 475a The Garage Experience**  
Units: 4, 8 Terms Offered: FaSp Academy capstone experience, innovative projects leading to operational prototypes and viable enterprises, mentored by faculty and industry experts. **Prerequisite:** ACAD 377 Registration Restriction: Open only to Arts, Technology and the Business of Innovation students. Instruction Mode: Lecture Grading Option: Letter

**ACAD 475b The Garage Experience**  
Units: 4, 8 Terms Offered: FaSp Academy capstone experience, innovative projects leading to operational prototypes and viable enterprises, mentored by faculty and industry experts. **Prerequisite:** ACAD 475a Registration Restriction: Open only to Arts, Technology and the Business of Innovation students Instruction Mode: Lecture Grading Option: Letter

**ACAD 476 Technologies for Interactive Marketing**  
Units: 4 (Enroll in ITP 476)

**ACAD 480 Information Technology Internship**  
Units: 1, 2, 3, 4 Max Units: max 8 (Enroll in ITP 480)

**ACAD 490 Directed Research**  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

**ACAD 491 Individual Instruction**  
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Weekly, individual instruction with an Academy professor for deep exploration and study within an Academy core discipline. Instruction Mode: Lecture Grading Option: Letter

**ACAD 499 Special Topics**  
Units: 2, 3, 4 Max Units: 8.0 Comprehensive exploration of particular aspects of art, technology and the business of innovation. Instruction Mode: Lecture Grading Option: Letter

**ACAD 590 Directed Research**  
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACAD 599 Special Topics**  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Comprehensive exploration of particular aspects of art, technology and the business of innovation. Instruction Mode: Lecture Grading Option: Letter

**Accounting**

**Major Restrictions**

Enrollment in most 500-level business courses by non-business graduate students requires special permission. For information about the registration application process for non-business students, visit the Schedule of Classes.

**ACCT 370 External Financial Reporting Issues**  
Units: 4 Terms Offered: FaSp Understanding of decision-making, problem solving, and research skills as a supplement to financial accounting knowledge for accounting professionals. **Prerequisite:** BUAD 281 or BUAD 285 or BUAD 286 or BUAD 305. Duplicates Credit in former ACCT 370a. Instruction Mode: Lecture Grading Option: Letter

**ACCT 371 Introduction to Accounting Systems**  
Units: 4 Terms Offered: FaSpSm Understanding of technology and controls needed to capture data used by professionals in financial and managerial accounting, auditing and taxation. **Prerequisite:** BUAD 281 or BUAD 285 or BUAD 286 or BUAD 305. Duplicates Credit in former ACCT 371a. Instruction Mode: Lecture, Discussion Grading Option: Letter

**ACCT 372 Internal Reporting Issues**  
Units: 2 Terms Offered: FaSpSm Understanding of decision-making, problem solving, and research skills as a supplement to managerial accounting knowledge for accounting professionals. **Prerequisite:** BUAD 281 or BUAD 285 or BUAD 286 or BUAD 305. Instruction Mode: Lecture Grading Option: Letter

**ACCT 373 Introduction to Auditing and Assurance Services**  
Units: 2 Terms Offered: FaSp Exploration of the requisite skills and knowledge needed to offer services in assurance, attestation or auditing engagements. **Prerequisite:** ACCT 370 and ACCT 371. Instruction Mode: Lecture, Discussion Grading Option: Letter

**ACCT 374 Introduction to Tax Issues**  
Units: 2 Terms Offered: FaSp Basic tax principles, introduction to U.S. federal, state and local tax systems, income and expense definitions, property transactions, and fundamentals of individual taxation. **Prerequisite:** BUAD 281 or BUAD 285 or BUAD 286 or BUAD 305. Instruction Mode: Lecture Grading Option: Letter

**ACCT 377 Valuation for Financial Statement Purposes**  
Units: 2 Terms Offered: FaSp Explores Accounting Standards Codification (ASC) 820 "Fair Value Measurements and Disclosures" and reviews the historical background of US GAAP fair value guidance. **Prerequisite:** ACCT 370.

**Instruction Mode:** Lecture Grading Option: Letter

**ACCT 380x Introduction to Enterprise Risk Management**  
Units: 4 Terms Offered: Irregular Understand the concept of risk, risk assessment and management frameworks; learn to identify, analyze, manage and mitigate and communicate this risk to stakeholders. Credit Restriction: Not available for major credit in Accounting Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 380

**ACCT 385x Introduction to Risk Management and Insurance**  
Units: 4 Terms Offered: Irregular Understand the underlying economics, structure, and business models of an organization (often an insurance carrier) willing to accept risk for diverse situations: property, life, healthcare. Credit Restriction: Not available for major credit in Accounting Instruction Mode: Lecture Grading Option: Letter Crosslisted as BUAD 385

**ACCT 390 Special Problems**  
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**ACCT 410x Foundations of Accounting**  
Units: 4 Terms Offered: FaSpSm Non-technical presentation of accounting for users of accounting information; introduction to financial and managerial accounting. Not open to students with course credits in accounting. Not available for unit or course credit toward a degree in Accounting or Business Administration. Instruction Mode: Lecture Grading Option: Letter

**ACCT 415x Intermediate Financial Accounting for Non-Accounting Majors**  
Units: 4 Terms Offered: FaSp In-depth study of balance sheet, income statement, and cash flow statement issued from the perspective
of a user (not preparer) of corporate financial reports. 

Prerequisite: ACCT 410x or BUAD 281 or BUAD 285b or BUAD 286b or BUAD 305. Duplicates Credit in former ACCT 411x and ACCT 412x. Instruction Mode: Lecture Grading Option: Letter

ACCT 416 Financial Reporting and Analysis
Units: 2 Terms Offered: FaSp Examination of the role of financial statement analysis in the prediction of a firm's future financial performance. Prerequisite: BUAD 215 or BUAD 306; ACCT 370 or ACCT 415. Instruction Mode: Lecture Grading Option: Letter

ACCT 430 Accounting Ethics
Units: 4 Terms Offered: FaSp Theoretical and practical application accountants need to identify ethical issues and reconcile conflicts among competing stakeholders' interests in all major areas of accounting practice. Prerequisite: ACCT 372 and ACCT 373 and ACCT 374 and ACCT 377 Instruction Mode: Lecture, Discussion Grading Option: Letter

ACCT 442 The Ethics of Financial and Political Accountability
Units: (Enroll in HIST 442)

ACCT 462 Detecting Fraudulent Financial Reporting
Units: 2 Terms Offered: FaSp Understanding/identifying methods of fraudulent financial reporting, and signals that financial statements were fictitiously prepared; major frameworks for analyzing ethical dilemmas; reforms in corporate reporting environment. Prerequisite: ACCT 370 or ACCT 415x. Instruction Mode: Lecture Grading Option: Letter

ACCT 463 Internal Audit
Units: 2 Terms Offered: FaSp Examination of internal audit/auditors and their relationship to management, the investors, the regulators, and the external auditors. Prerequisite: ACCT 370, ACCT 373. Instruction Mode: Lecture Grading Option: Letter

ACCT 470 Advanced External Financial Reporting Issues
Units: 4 Terms Offered: FaSp Develop capabilities to identify and resolve advanced external financial reporting challenges, focusing primarily on operating, financing, and investing activities of business enterprises. Duplicates credit in ACCT 470ab. Prerequisite: ACCT 370 Corequisite: ACCT 377 Duplicates Credit in former ACCT 470ab Instruction Mode: Lecture Grading Option: Letter

ACCT 471 Accounting Information Systems
Units: 2 Terms Offered: FaSp Issues related to the design, control, and implementation of accounting information systems. Prerequisite: ACCT 371. Instruction Mode: Lecture Grading Option: Letter

ACCT 472 Managerial Accounting
Units: 2 Terms Offered: FaSp Understanding of systems providing cost information useful in management decision-making and problem solving. Prerequisite: ACCT 372. Instruction Mode: Lecture Grading Option: Letter

ACCT 473 Financial Statement Auditing
Units: 2 Terms Offered: FaSp Course builds on the background developed in ACCT 373, specifically the process used by external auditors to conduct financial statement audits. Prerequisite: ACCT 373. Instruction Mode: Lecture, Discussion Grading Option: Letter

ACCT 474 Tax Issues for Business
Units: 2 Terms Offered: FaSp Capabilities to identify and articulate tax issues related to a business entity's life: formation, investing, financing and operations, and change of form. Prerequisite: ACCT 374. Duplicates Credit in former ACCT 451. Instruction Mode: Lecture Grading Option: Letter

ACCT 475 Systems Security and Audit
Units: 2 Terms Offered: FaSp Issues related to the security, control, and auditing of accounting information systems. Prerequisite: ACCT 371. Instruction Mode: Lecture Grading Option: Letter

ACCT 476 Performance Measurement Issues
Units: 2 Terms Offered: FaSp Introduction to understanding how management control systems can enhance achievement of the organization's objectives and strategies. Prerequisite: ACCT 410x or BUAD 281 or BUAD 285b or BUAD 286b or BUAD 305. Instruction Mode: Lecture Grading Option: Letter

ACCT 477 Intermediate Fair Value Issues in Accounting
Units: 2 Terms Offered: FaSp Develops the ability to identify and understand new areas of emerging guidance involving fair value issues and to recognize and demonstrate appropriate application of methodologies. Prerequisite: ACCT 377. Instruction Mode: Lecture Grading Option: Letter

ACCT 478 Accounting Systems Design
Units: 4 Terms Offered: FaSp Explores the design of accounting systems. Introduction to tools and techniques for analyzing and designing accounting systems with an emphasis on system controls and reporting. Prerequisite: ACCT 371. Instruction Mode: Lecture Grading Option: Letter

ACCT 479 Accounting Systems Development
Units: 4 Terms Offered: FaSp Examines the fundamentals of accounting systems development. Introduction to the concepts of implementation and support, with emphasis on system quality assurance, evaluation and attestation. Prerequisite: ACCT 478. Duplicates Credit in former ACCT 454. Instruction Mode: Lecture Grading Option: Letter

ACCT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ACCT 493 Leventhal Honors Research Seminar
Units: 2 Terms Offered: Sp Provides the methodological tools to identify research problems, develop researchable hypotheses, apply appropriate methodologies, conduct research, derive meaningful conclusions from data, write a research proposal. Registration Restriction: Open only to Accounting and Business Majors Instruction Mode: Lecture Grading Option: Letter

ACCT 494 Marshall Honors Research and Thesis
Units: 2 Max Units: 04 Terms Offered: FaSpSm Experience in conducting research and writing a thesis under supervision of a faculty adviser. Prerequisite: ACCT 493 or BUAD 493 Registration Restriction: Open only to Leventhal and Marshall Honors students Duplicates Credit in BUAD 494 Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 495 Accounting Internship: Work, Ethics and Communication
Units: 2 Terms Offered: Sp Provides insights and tools for the work environment specifically integrating technical, communication and ethical decision-making; bridging classroom learning and "real world" experience. Recommended Preparation: ACCT 370, BUAD 302T. Registration Restriction: Open only to accounting majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

ACCT 499 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in the field of accounting. Topics vary each semester. Instruction Mode: Lecture Grading Option: Letter

ACCT 509 Concepts of Financial and Management Accounting
Units: 2 Max Units: 08 Terms Offered: FaSpSm Concepts of financial and management accounting. The course will provide coverage of key concepts needed by managers of businesses in order to communicate information important in decision-making. Prerequisites: Not open to business or accounting majors Duplicates Credit in GSBA 510 and GSBA 518. Instruction Mode: Lecture Grading Option: Letter

ACCT 525x Intensive Accounting Principles and Practices
Units: 15 Terms Offered: Sm Technical accounting theory and principles necessary for graduate work. Satisfies the prerequisite requirements for intermediate and advanced accounting, auditing, and tax. Recommended Preparation: introductory accounting courses. Instruction Mode: Lecture Grading Option: Letter

ACCT 526 Global Accounting Experience
Units: 1.5 Terms Offered: Sm Cross-border transactions in the global economy examining accounting, legal, and tax environments, economic and political systems, and cultural differences. Includes international travel to selected region. Instruction Mode: Lecture Grading Option: Letter

ACCT 527 Financial Statement Analysis - Audit Perspective
Units: 1.5 Terms Offered: Sm Analysis
of corporate financial reports to evaluate the firm's past and present performance as well as to predict likely future performance from an auditor's perspective. Prerequisite: ACCT 541L. Registration Restriction: Online registration open only to Master of Accounting students Duplicates Credit in ACCT 581 Instruction Mode: Lecture Grading Option: Letter

ACCT 528 Fair Value Accounting: GAAP, IFRS and Emerging Issues
Units: 1.5 Terms Offered: FaSp Case study approach to explore fair value issues in accounting; research and analysis of causes of valuation differences. Registration Restriction: Online registration open only to graduate business and accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 530L Ethics for Professional Accountants
Units: 3 Terms Offered: FaSp Provides the ethical grounding that accountants need to identify ethical issues and reconcile conflicts among competing stakeholder interests. Registration Restriction: Open only to business and accounting students. Instruction Mode: Lecture, Lab Grading Option: Letter

ACCT 532 Financial Accounting for Mergers and Acquisitions
Units: 1.5 Terms Offered: FaSp Practical problems in accounting for business combinations. Consolidated financial statements: fair value, acquisition and equity basis accounting. Prerequisite: GSBA 510 Duplicates Credit in former ACCT 582 Instruction Mode: Lecture Grading Option: Letter

ACCT 533 Mergers and Acquisitions: Tax Planning and Strategy
Units: 1.5 Terms Offered: FaSp Tax planning and strategy in corporate restructuring including mergers, acquisitions, and divestitures. Tax background not required to be successful in this course. Prerequisite: GSBA 510 Duplicates Credit in former ACCT 582 Instruction Mode: Lecture Grading Option: Letter

ACCT 535 Management and Cost Accounting
Units: 3 Terms Offered: FaSp Presentation of accounting data for management use in decision making; cost accounting, profit planning, decision analysis, systems for revenue and costs control, responsibility accounting. Prerequisite: ACCT 585 or GSBA 510. Registration Restriction: Open only to business and accounting students. Duplicates Credit in GSBA 518 and GSBA 536. Instruction Mode: Lecture Grading Option: Letter

ACCT 536 Advanced Cost Analysis and Management Accounting
Units: 3 Terms Offered: Sm Analysis and design of systems that provide cost information useful in making strategic and operating decisions. Advantages and limitations of activity-based costing methods. Prerequisite: GSBA 518 or ACCT 535. Instruction Mode: Lecture Grading Option: Letter

ACCT 537 Performance Measurement, Evaluation, and Incentives
Units: 3 Terms Offered: Sp Financial responsibility centers, financial and nonfinancial performance measures, budgets and other targets, evaluation techniques and styles, incentives. Strategy implementation and execution. Corporate governance. Registration Restriction: Online registration limited to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

ACCT 540 Technological Innovations in Accounting and Auditing
Units: 3 Terms Offered: Sp New, emerging and potential technologies for accounting and audit, emphasizing data and analytics. Actual and potential effects of new technologies in accounting and auditing settings. Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture Grading Option: Letter

ACCT 541L Auditing in the Enhanced Data Age
Units: 3 Terms Offered: Fa Framework of the audit model including use of large data sets with automated audit tools. A lab environment is an integral part of the course. Corequisite: ACCT 545 Registration Restriction: Online registration open only to Master of Accounting (Data and Analytics) students Instruction Mode: Lecture, Lab Required Grading Option: Letter

ACCT 542 Fraud Analytics in the Audit
Units: 1.5 Terms Offered: Sm Understanding/identifying fraud risk from an auditor's perspective; development of an analytics skillset to detect financial fraud risk. Prerequisite: ACCT 541L Registration Restriction: Online registration open only to Master of Accounting students Instruction Mode: Lecture Grading Option: Letter

ACCT 546 Auditing and Assurance Services
Units: 3 Terms Offered: FaSp Concepts and principles governing independent professional services that provide assurance on the reliability and relevance of information, including financial statement information. Topics include demand and supply issues for these services, basic principles of evidence, risk assessment and testing. Recommended Preparation: ACCT 525x. Instruction Mode: Lecture Grading Option: Letter

ACCT 547 Enterprise Information Systems
Units: 3 Terms Offered: Fa Focuses on accounting enterprise database models and information technology required to support those systems. Includes analysis and design of interfunctional process flows through reengineering to exploit technology capabilities. Instruction Mode: Lecture Grading Option: Letter

ACCT 548L IT Audit and Data Applications
Units: 3 Terms Offered: Fa Exploration of the role systems play in organizations, the technology that supports these systems and issues relating to technology risk, system/ application security and system review/audit. Corequisite: ACCT 541L Registration Restriction: Online registration open only to graduate accounting majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

ACCT 549 Advanced Enterprise Systems and Technologies
Units: 3 Terms Offered: Fa Design, control and development of advanced enterprise systems, using reengineering, focusing on accounting and financial systems, using a wide range of emerging existing technologies. Registration Restriction: Online registration open only to graduate accounting majors Instruction Mode: Lecture Grading Option: Letter

ACCT 550T Tax Research and Professional Responsibilities
Units: 3 Terms Offered: Fa Tax law research methods; interpreting statutes, cases and rulings; communicating research results; administration and professional responsibilities of tax practice. Registration Restriction: Online registration limited to graduate business taxation students Instruction Mode: Lecture Grading Option: Letter

ACCT 551T Taxation of Partnerships and S-Corps
Units: 3 Terms Offered: Fa Federal taxation of flow-through entities, including: partnerships, S corporations, limited liability partnerships (LLPs) and limited liability companies (LLCs). Recommended Preparation: ACCT 550T or ACCT 560T or LAW 600. Instruction Mode: Lecture Grading Option: Letter

ACCT 552T Tax Policy and Strategic Tax Planning
Units: 3 Introduction to business taxes and their impact on management decisions. For prospective managers and business consultants, topics include discounted cash flow, financial accounting, and overall business impacts of taxes on decision making. Recommended Preparation: GSBA 518. Instruction Mode: Lecture Grading Option: Letter

ACCT 553T Advanced Financial Statement Auditing Topics
Units: 3 Terms Offered: FaSp Advanced coverage of topics in financial statement auditing including market effects of auditing, auditor litigation and client acceptance, errors and fraud, analytical procedures, and going-concern assessment. Prerequisite: ACCT 525x. Instruction Mode: Lecture Grading Option: Letter

ACCT 555T Advanced Accounting Valuation
Units: 1.5 Terms Offered: Sp Explores complex valuation issues arising in financial reporting and the related professional standards and guidance. Prerequisite: ACCT 528. Instruction Mode: Lecture Grading Option: Letter

ACCT 559 Strategy and Operations Through CFO Lens
Units: 3 Terms Offered: FaSp Examination of strategic objectives and operations
within specific industries and companies. Chief Financial Officers present how they view the business as a whole and measure performance effectively. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 560T Tax Theory and Ethics Units: 3 Terms Offered: FaSp Taxation and its relationship to business and investment decisions; the effects of taxation on business organization, capital structure, policies, operation, and expansion. Recommended Preparation: An introductory tax course. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 561T Income Tax of Corporations and Their Shareholders Units: 3 Terms Offered: FaSp Concepts and principles governing the taxation of corporations and shareholders; the effect of taxes on corporate formation, capital structure, distributions, and liquidations. Recommended Preparation: ACCT 550T or ACCT 560T or LAW 600. Instruction Mode: Lecture Grading Option: Letter

ACCT 562 Methods and Motivations of Financial Reporting Fraud Units: 1.5 Terms Offered: FaSp Discover and analyze signals of major and frequently committed methods of fraudulent financial reporting; explore current reforms in financial reporting, auditing, and corporate governance. Recommended Preparation: ACCT 572 or other intermediate accounting course. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 563T Federal Tax Procedure Units: 3 Terms Offered: FaSp Taxation of decedents' estates and lifetime gifts; valuation of property subject to estate and gift taxes. Prerequisite: ACCT 550T. Registration Restriction: Online registration open only to graduate accounting students. Instruction Mode: Lecture Grading Option: Letter

ACCT 567T Taxation of Transactions in Property Units: 3 Terms Offered: FaSp Taxation of gains and losses from sales, exchanges and other transactions involving property, especially real estate; tax planning. Prerequisite: ACCT 550T. Registration Restriction: Open only to graduate accounting majors. Instruction Mode: Lecture Grading Option: Letter

ACCT 568T International Taxation Units: 3 Terms Offered: FaSp Taxation of cross-border transactions of U.S. citizens and corporations and of U.S. source income of foreign persons and corporations; planning for organization of international operations under the tax laws. Prerequisite: ACCT 561T. Instruction Mode: Lecture Grading Option: Letter

**ACCT 572 Registration Restriction:** Online registration limited to graduate accounting students. Instruction Mode: Lecture Grading Option: Letter

**ACCT 587 Forensic Accounting**
- Units: 1.5, 3 Terms Offered: FaSpSm Role of the accountant in litigation matters. Identification and exploration of the analytical and communication tools necessary to be an effective forensic accountant. **Prerequisite:** ACCT 572. Instruction Mode: Lecture Grading Option: Letter

**ACCT 588 Analysis and Implications of SEC Registration and Reporting**
- Units: 3 Terms Offered: Sp Legal, institutional, and economic implications of being a U.S. public company. The Securities and Exchange Commission and its influence on investors, management, underwriters, and accountants. **Recommended Preparation:** ACCT 572. Instruction Mode: Lecture Grading Option: Letter

**ACCT 590 Directed Research**
- Units: 1, 2, 3, 4 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the School of Accounting. Maximum units which may be applied to the degree to be determined by the school. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACCT 592 Field Research in Accounting**
- Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. **Recommended Preparation:** Completion of MAcc or MBT course work. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture, Guided Independent Study Grading Option: Credit/No Credit

**ACCT 593 Independent Research in Accounting**
- Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACCT 595 Internship in Accounting**
- Units: 5, 1, 1.5, 2, 2 Max Units: 09 Supervised on-the-job business experience in the field of Accounting. (Curricular Practical Training). Application required. **Recommended Preparation:** Completion of required MAcc or MBT course work Registration Restriction: Open only to graduate accounting students Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACCT 596 Research Practicum in Accounting**
- Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Leventhal faculty member on an ongoing research project.

**Registration Restriction:** Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACCT 597 Consulting Project in Accounting**
- Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACCT 599 Special Topics**
- Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular New developments in contemporary accounting. Specific topics vary each semester. Registration Restriction: Online registration limited to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

**ACCT 602 Survey of Judgment and Decision-Making Research in Accounting**
- Units: 3 Survey of major topics in judgment and decision-making research in accounting with coverage of both key research questions and frequently used methods. Instruction Mode: Lecture Grading Option: Letter

**ACCT 604 Survey of Management Accounting Research**
- Units: 3 Survey of major topics in accounting research with coverage of both key research questions and frequently used methods. Instruction Mode: Lecture Grading Option: Letter

**ACCT 605 Survey of Financial Reporting Research**
- Units: 3 Terms Offered: Fa Survey of major topics and methods in research on financial reporting with coverage of both key research questions and frequently used methods. Registration Restriction: Open only to Business Administration doctoral students. Instruction Mode: Lecture Grading Option: Letter

**ACCT 606 Survey of Tax Research**
- Units: 3 Survey of major topics and methods in research on taxation with coverage of both key research questions and frequently used methods. Instruction Mode: Lecture Grading Option: Letter

**ACCT 608 Positive Accounting Research**
- Units: 3 Survey of major topics related to positive accounting research with coverage of both key research questions and frequently used methods. Instruction Mode: Lecture Grading Option: Letter

**ACCT 610 Survey of Accounting Research**
- Units: 3 Terms Offered: FaSp Advanced seminar that surveys both seminal and cutting edge research in financial accounting, managerial accounting, accounting information systems, and tax accounting. Instruction Mode: Lecture Grading Option: Letter

**ACCT 611 Selected Topics in Accounting Research**
- Units: 1.5 Max Units: 6.0 Terms Offered: FaSp Advanced seminar to address issues/topics covered in accounting research. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**ACCT 621 Research Forum**
- Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Accounting. Presentations by faculty, visiting researchers, and advanced students. Registration Restriction: Open only to Marshall Ph.D. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ACCT 630 Auditing and Archival Research**
- Units: 1.5 Terms Offered: Sp Survey of major topics and methods in archival auditing research, research design methodologies, use of STATA and statistical modeling. **Recommended Preparation:** Graduate level econometrics course. Registration Restriction: Open only to PhD students in Accounting. Instruction Mode: Lecture Grading Option: Letter

**ACCT 661a Accounting Research Methodology**
- Units: 2 Advanced doctoral seminar concerned with review and critique of accounting research forum papers and with the preparation, presentation, and defense of research proposals and papers. Instruction Mode: Lecture Grading Option: Letter

**ACCT 661b Accounting Research Methodology**
- Units: 2 Advanced doctoral seminar concerned with review and critique of accounting research forum papers and with the preparation, presentation, and defense of research proposals and papers. Instruction Mode: Lecture Grading Option: Letter

**ACCT 699 Special Topics**
- Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary accounting. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

**Academic Medicine**

**ACMD 501 Introduction to Academic Medicine Worldwide**
- Units: 3 Introduces the master's program; includes historical development of training in the health professions; current issues, challenges and opportunities in academic medicine and health worldwide. Instruction Mode: Lecture Grading Option: Letter

**ACMD 502 Becoming a Leader in Academic Medicine Worldwide**
- Units: 3 Current approaches to leadership within the context of global academic medicine and health professions education; individual applications, group dynamics, teamwork, and interpersonal skill enhancement. Instruction Mode: Lecture Grading Option: Letter

**ACMD 503 Leading Change in Academic Medical Centers**
- Units: 3 Exploration and practice of skills for promoting programs within academic medicine and health professions’ education; building trust, organizational change, conflict

**COURSES OF INSTRUCTION**
ACMD 604 Supporting the Educational

ACMD 511 Competencies in Academic Medicine and Health I
Units: 3 Acquisition of cognitive knowledge and problem-solving skills in health professions worldwide; instructional methods, assessment techniques, designing curricula for health professions education.
Instruction Mode: Lecture Grading Option: Letter

ACMD 512 Competencies in Academic Medicine and Health II
Units: 3 Learning theory, teaching methods, assessment techniques related to acquisition and reinforcement of competencies related to patient care, practice based learning and improvement and systems-based practice.
Instruction Mode: Lecture Grading Option: Letter

ACMD 513 Professionalism in Academic Medicine and Health
Units: 3 Acquisition and evaluation of interpersonal and communication skills and professionalism including ethics and cultural competence; within the context of health care disparities and health initiatives.
Instruction Mode: Lecture Grading Option: Letter

ACMD 514 Accreditation and Program Evaluation in Academic Medicine
Units: 3 Evaluating health professions training programs within guidelines of relevant accreditation organizations; models of evaluation, designing plans and tools for evaluation of program elements.
Instruction Mode: Lecture Grading Option: Letter

ACMD 591 Designing Research on Innovations in Academic Medicine
Units: 2 Introduction to design and scholarly review of innovations in health professions education; needs assessment, problem selection, use of research methods to study an innovation.
Instruction Mode: Lecture Grading Option: Letter

ACMD 592 Implementing Research on Innovation in Academic Medicine
Units: 2 Mentored research on an innovation in academic medicine leading to the master's degree. The project will result in a formal written research report. Prerequisite: ACMD 591.
Instruction Mode: Lecture Grading Option: Letter

ACMD 593 Foundations of Academic Writing
Units: 1 Academic writing for conference papers, grant proposals and journal articles. Recommended Preparation: A completed study of an innovation in academic medicine or other health-related field that is ready to move to publication.
Instruction Mode: Lecture Grading Option: Letter

ACMD 598 Fieldwork: Designing Innovations for the Health Professions
Units: 1, 2, 3 Max Units: 3.0 Individual projects designing curricular or other innovations for the home program as an application of Year 1 concepts and as part of the capstone experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit

ACMD 604 Supporting the Educational

Enterprise in Academic Medicine
Units: 3 Explores support functions in academic medical centers and health professions schools; financial, scientific, educational, faculty and student affairs, departments, and offices of medical education.
Instruction Mode: Lecture Grading Option: Letter

ACMD 605 Faculty Development for Health Sciences Faculty Educators
Units: 2 Role of faculty development programs in health professions schools; tools for delivering effective continuing education and faculty development; models for mentoring clinical faculty.
Instruction Mode: Lecture Grading Option: Letter

ACMD 615 Maintenance of Competence in the Health Professions
Units: 2 Maintenance of competence and continuing professional development (CPD) of physicians and other health care professionals; trends, needs, strategies, assessing outcomes, examining effectiveness of CPD programs.
Instruction Mode: Lecture Grading Option: Letter

Advanced Dental Education Conjoint Program

ADNT 701 Research Methodologies in Dentistry
Units: 2 Critical evaluation of the scientific principles in the development, execution, and interpretation of methodologies used in dentistry.
Instruction Mode: Lecture Grading Option: Letter

ADNT 702 Physical Diagnosis
Units: 2 Didactic and clinical experience in physical diagnosis relevant to practice of the dental specialties.
Instruction Mode: Lecture Grading Option: Letter

ADNT 703a Seminar: Combined Treatment Planning
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.
Instruction Mode: Lecture Grading Option: Letter

ADNT 703b Seminar: Combined Treatment Planning
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.
Instruction Mode: Lecture Grading Option: Letter

ADNT 703c Seminar: Combined Treatment Planning
Units: 2 Each Interdisciplinary consideration of complex cases which involve several of the dental specialties.
Instruction Mode: Lecture Grading Option: Letter

ADNT 707 Behavior of the Child Patient
Units: 2 Child and adolescent psychological growth and development: Human communication, needs, motivation, and learning. Critical analysis of patient management, team treatment, and practice administration.
Instruction Mode: Lecture Grading Option: Letter
AEST 100a Aerospace Studies I: Air Force Mission and Organization
Units: 1 Terms Offered: FaSp Introduction to U.S. Air Force and the military profession; USAF organization and functions; Strategic Air Command organization, command, control, and weapons systems; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 110b Leadership Laboratory I
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 200a Aerospace Studies III: Air Force Mission and Organization
Units: 1 Terms Offered: FaSp Organization and function of NORAD; tactical air, military airlift, systems, logistics, air training and communications commands; Army, Navy, Marines; reserves; separate operating agencies. Instruction Mode: Lecture Grading Option: Letter

AEST 200b Aerospace Studies III: Air Force History
Units: 1 Terms Offered: FaSp Development of aerospace power in the U.S. through World War II; emphasis on the Army Air Corps; communication skills. Instruction Mode: Lecture Grading Option: Letter

AEST 210a Leadership Laboratory II
Units: 1 Terms Offered: FaSp Introduction to the military experience focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 220a Advanced Leadership Laboratory II
Units: 1 Terms Offered: FaSp Additional exposure to the military experience for continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 220b Advanced Leadership Laboratory II
Units: 1 Terms Offered: FaSp Additional exposure to the military experience for continuing AFROTC cadets, focusing on customs and courtesies, drill and ceremonies, and the environment of an Air Force officer. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 300a Aerospace Studies III: Air Force Management and Leadership
Units: 3 Terms Offered: FaSp Air Force management focusing on the new manager in the Air Force milieu. Emphasis on communication skills peculiar to the Air Force. Instruction Mode: Lecture Grading Option: Letter

AEST 300b Aerospace Studies III: Air Force Management and Leadership
Units: 3 Terms Offered: FaSp Air Force management focusing on the new manager in the Air Force milieu. Emphasis on communication skills peculiar to the Air Force. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 310a Leadership Laboratory III
Units: 1 Terms Offered: FaSp Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 310b Leadership Laboratory III
Units: 1 Terms Offered: FaSp Practical introduction to Air Force leadership focusing on military communicative skills, group dynamics, and application of theories of leadership and management. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 400a Aerospace Studies IV: National Security Forces in Contemporary American Society
Units: 3 Terms Offered: FaSp Military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice. Instruction Mode: Lecture Grading Option: Letter

AEST 400b Aerospace Studies IV: National Security Forces in Contemporary American Society
Units: 3 Terms Offered: FaSp Military professionalism and the context in which defense policy is formulated and implemented; national security policy, political/social constraints, and military justice. Instruction Mode: Lecture Grading Option: Letter

AEST 410a Leadership Laboratory IV
Units: 1 Terms Offered: FaSp Advanced Air Force leadership experience focusing on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 410b Leadership Laboratory IV
Units: 1 Terms Offered: FaSp Advanced Air Force leadership experience focusing on the practical development of the Air Force officer through command and staff positions within the Cadet Corps. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 420a Leadership Laboratory V
Units: 1 Terms Offered: FaSp Advanced leadership experiences for AFROTC continuing cadets. Instruction Mode: Lecture Grading Option: Credit/No Credit

AEST 420b Leadership Laboratory V
Units: 1 Terms Offered: FaSp Advanced leadership experiences for AFROTC continuing cadets. Instruction Mode: Lecture Grading Option: Credit/No Credit

AHIS 100g Introduction to Visual Culture
Units: 4 Terms Offered: Sp The description and analysis of various forms of visual culture, including both mass media and "high" art representations, both Western and non-Western images. Satisfies New General Education in Category C: Historical and Cultural Perspectives in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 120gp Foundations of Western Art
Units: 4 Terms Offered: Fa Mediterranean and European art and architecture presented in historical, cultural and social context that introduces art history as a discipline. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 121gp Art and Society: Renaissance to Modern
Units: 4 Terms Offered: FaSpSim European art and its legacy in the Americas. Painting, sculpture, architecture and other visual media considered in relation to social and cultural history. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 125gp Arts of Asia I: Antiquity to 1300
Units: 4 Terms Offered: Fa An introduction to the major art forms and monuments of religious art in India, Southeast Asia, China, and Japan from pre-history to 1300. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter
AHIS 126g Arts of Asia II: 1500 to the Present
Units: 4 Terms Offered: Sp A survey of the art and architecture of India, China, Korea, and Japan from 1300 to the present. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 127g Arts of the Ancient Americas
Units: 4 Terms Offered: Fa A survey of the art, architecture, and archaeology of the diverse array of peoples and cultures in ancient Mesoamerica and the South American Andean Mountains. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 128g Arts of Latin America
Units: 4 Terms Offered: Sp Survey of the art, architecture, and visual culture of Latin America from the colonial period to the present, focusing on connections to culture and society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 201g Digging into the Past
Units: 4 Terms Offered: Sp A broad survey, covering some 8,000 years and focusing on the material culture of the ancient world in a historical and social context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 215g Studies in Architecture and Urbanism
Units: 4 Terms Offered: Fa,SpMn Analyzing a wide range of case studies, this course provides a roadmap to analyze and interpret the built environment in many different eras and contexts. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 220g Medieval Visual Culture
Units: 4 Terms Offered: Fa Medieval visual culture as an introduction to the Christian heritage of western civilization and to the interaction of Church and state from the 3rd to the 13th century. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

AHIS 230 Art and Culture in Early Modern Europe
Units: 4 Survey of European art from the 15th to the 17th century. Case studies in Renaissance and Baroque art with emphasis on artists in major urban centers. Instruction Mode: Lecture Grading Option: Letter

AHIS 240g Introduction to American Art
Units: 4 Terms Offered: Fa An introduction to American visual and material culture from the late sixteenth century to the present. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 250gm Art, Modernity and Difference
Units: 4 Terms Offered: Fa Consideration of various categories of "The Modern" as they have been constructed in Western art of the late 19th and 20th centuries. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

AHIS 255g Culture Wars: Art and Social Conflict in the Modern World
Units: 4 Terms Offered: FaSp Examination of social conflicts and political controversies in American culture through the lens of visual art and photography. Satisfies New General Education in Category A: The Arts Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 270 L.A. Now: Contemporary Art in Los Angeles
Units: 4 Explores the production, display and critical reception of contemporary art, taking Los Angeles as its laboratory. Instruction Mode: Lecture Grading Option: Letter

AHIS 282 Korean Art
Units: 4 Introduction to the richness and complexity of artistic expression in Korean art through the study of painting, sculpture, ceramics, and architecture through the 19th century. Instruction Mode: Lecture Grading Option: Letter

AHIS 301 Guardians of the Past? Art Preservation, Ethics, and the Law
Units: 4 Terms Offered: FaSpMn Introduction to key ethical, historical, and legal debates about art preservation and collecting across the globe. Instruction Mode: Lecture Grading Option: Letter

AHIS 304m Gender and Difference in the Early Modern Period
Units: 4 An introduction to Italian Renaissance art with emphasis on the role of gender and sexuality in the creation of "masterpieces." Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 304

AHIS 318 Arts of the Ancient Andes
Units: 4 Survey of the art and architecture of the ancient cultures of the Andes in South America. Instruction Mode: Lecture Grading Option: Letter

AHIS 319 Mesoamerican Art and Culture
Units: 4 Introductory survey of painting, sculpture, and architecture of Mesoamerica before the Spanish conquest presented in their social, cultural, and political contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETST-319

AHIS 320 Aegean Archaeology
(Enroll in CLAS 323)

AHIS 321 Greek Art and Archaeology
Units: 4 Terms Offered: Fa Survey of artistic works and monuments of ancient Greece from the Geometric through the Hellenistic period (c. 1000 - 30 BCE). Instruction Mode: Lecture Grading Option: Letter

AHIS 322 Roman Art and Archaeology
Units: 4 Terms Offered: Sp Survey of the art and architecture of ancient Rome and its empire, from the beginnings of the city through Constantine (8th century BCE to 4th century CE). Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 322, ARCG 322

AHIS 324 Late Antique Art and Archaeology
Units: 4 (Enroll in CLAS 324)

AHIS 325 Roman Archaeological Excavation: Methods and Practice
Units: 4 Terms Offered: SpMn Students learn about archaeological methodology and practice by visiting archaeological sites in Rome and excavating a nearby ancient site. Instruction Mode: Lecture Grading Option: Letter

AHIS 326 Archaeology of Religion in the Greco-Roman World
Units: 4 (Enroll in CLAS 328)

AHIS 328 Colonial Latin American Art
Units: 4 Terms Offered: FaSpMn A survey of the art, architecture, and visual culture of colonial Latin America, focusing on connections to culture and society. Instruction Mode: Lecture Grading Option: Letter

AHIS 330 Medieval Art
Units: 4 Introductory survey of art and architecture of Christianity from 300–1300; biblical themes and classical traditions; cultural and historical analysis of medieval art. Instruction Mode: Lecture Grading Option: Letter

AHIS 336 Bodies of Knowledge: Art and Anatomy in Renaissance Europe
Units: 4 Terms Offered: FaSpMn Explores anatomical knowledge and art making in Renaissance Europe, focusing on collaborations between medical professions, printers and artists in illustrated anatomy books. Recommended Preparation: AHIS 120 Instruction Mode: Lecture Grading Option: Letter

AHIS 343 Renaissance Art
Units: 4 Painting, sculpture and architecture in Renaissance Europe, north and south, from 1300–1600. Recommended Preparation: AHIS 120 or AHIS 121. Duplicates Credit in former AHIS 340 and AHIS 342. Instruction Mode: Lecture Grading Option: Letter

AHIS 344 Baroque Art
Units: 4 Painting, sculpture and architecture in 17th century Europe, north and south. Duplicates Credit in former AHIS 353 and AHIS 356. Instruction Mode: Lecture Grading Option: Letter

AHIS 357 History of French Art 1860–1920
Units: 4 Terms Offered: Sp (Paris Semester only) Exploration of the main movements of late 19th and early 20th century French art using the resources of Parisian museums
COURSES OF INSTRUCTION

and monuments. Visits to Paris museums are an integral part of the course work.

Recommended Preparation: familiarity with modern European history. Instruction Mode: Lecture Grading Option: Letter

AHIS 361 British Modernism, 1879-1918
Units: 4 A survey of art and architecture in Britain from the age of Hogarth to Art Nouveau. Among the artists studied are Constable, Turner, and the Pre-Raphaelites. Duplicates Credit in the former AHIS 461
Instruction Mode: Lecture Grading Option: Letter

Units: 4 Terms Offered: FaSp Studies the art and visual culture of the United States between 1876, the date of the Centennial Fair in Philadelphia, to the eve of World War II. Recommended Preparation: any 100-level art history course
Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 368 Modern Art I: 1700–1850
Units: 4 A cultural and historical examination of European art and architecture from 1700 (Rococo) to 1850 (Realism), focusing on the beginnings of modernism in the age of revolution. Duplicates Credit in former AHIS 360
Instruction Mode: Lecture Grading Option: Letter

AHIS 369 Modern Art II: 1851–1940
Units: 4 An examination of European modern art and design, focusing on industrialization, urbanism, primitivism, colonialism, and their relations to the arts. Instruction Mode: Lecture Grading Option: Letter

AHIS 370g Modern Art III: 1940 to the Present
Units: 4 Terms Offered: Sp Questions of social engagement and political structure address this examination of major international movements in art since 1940. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

AHIS 372g History and Theory of Photography
Units: 4 Terms Offered: Irregular Explores key moments in the history of photography from its invention to the present. Issues include modernity and mass culture; photography as a fine art; technologies of vision. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

AHIS 374 Introduction to African Art
Units: 4 An introduction to sub-Saharan art (sculpture, textiles, architecture, masquerades, performances and body arts) in the context of issues of function, gender, politics and ethnic diversity. Instruction Mode: Lecture Grading Option: Letter

AHIS 375 Modern Russian Art
Units: 4 (Enroll in SLL 378)

AHIS 381g Visual Cultures of Asia
Units: 4 Terms Offered: FaSp Exploration of one or more major traditions of visual culture in Asia through cross-cultural, interdisciplinary perspectives. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 381

AHIS 382 Art and Cultural Heritage in East Asia
Units: 4 Terms Offered: FaSpSm (Enroll in EALC 382)

AHIS 384 Early Chinese Art
Units: 4 A survey of Chinese architecture, ceremonial bronzes, sculpture, ceramics and painting from antiquity through the Tang Dynasty. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-384

AHIS 385 Later Chinese Art
Units: 4 A survey of Chinese painting from 900 to the present, emphasizing the role of painting within the context of Chinese intellectual history. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-383

AHIS 386 Early Japanese Art
Units: 4 A survey of Japanese Buddhist and secular architecture, sculpture and painting from antiquity to 1333, stressing the relation of art to cultural context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-387

AHIS 387 Later Japanese Art
Units: 4 A survey of Japanese architecture, garden design, ceramics, and painting from 1333 to the present, stressing the role of art within cultural context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-388

AHIS 390 Special Problems
Units: 1 Max Units: 4.0 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

AHIS 400x Undergraduate Apprenticeship
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Independent work in art museums, galleries or art history related institutes supervised by on-site professionals and USC faculty. Not available for credit to art history majors. Available to upper-division art history majors only. Instruction Mode: Lecture Grading Option: Credit/No Credit

AHIS 415 Object-Worlds: Histories and Theories of Things
Units: 4 Developing strategies for analyzing what material culture of the past can tell us about the individuals and cultures that interacted with it. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 415, ARCG 415

AHIS 420 Studies in Ancient Art
Units: 4 Max Units: 16.0 Terms Offered: Irregular In-depth exploration of specified topics within the area of Ancient art and architecture. Instruction Mode: Lecture Grading Option: Letter

AHIS 425 Interdisciplinary Studies in Classical Art and Archaeology: Research and Methodology
Units: 4 Max Units: 8.0 Terms Offered: Irregular Each year a different topic in Greek and Roman art and archaeology will be examined in depth. Emphasis on interdisciplinary methodological approaches and research techniques. Instruction Mode: Lecture Grading Option: Letter

AHIS 427 Archaeological Theories, Methods, and Practice
Units: 4 Terms Offered: FaSp Examined are various theoretical approaches, methods, and practice of archaeology in a seminar style format, with lectures, oral presentations, and museum visits. Instruction Mode: Lecture Grading Option: Letter

AHIS 428 Studies in Colonial Latin American Art
Units: 4 Terms Offered: FaSpSm In-depth exploration of specified topics within colonial Latin American art. Instruction Mode: Lecture Grading Option: Letter

AHIS 429 Studies in Art, Science, and Technology
Units: 4 Terms Offered: FaSpSm Examination of the connections between art, science, and technology, focusing on a specific time period and/or set of questions. Instruction Mode: Lecture Grading Option: Letter

AHIS 430 Studies in Renaissance Art
Units: 4 In-depth exploration of specified topics within the area of Renaissance art and architecture. Recommended Preparation: AHIS 230 or AHIS 330. Duplicates Credit in former AHIS 444 and AHIS 446. Instruction Mode: Lecture Grading Option: Letter

AHIS 433 Studies in Medieval Art
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Medieval art and architecture. Instruction Mode: Lecture Grading Option: Letter
AHIS 436 The Philosophy of Art
Units: 4
Terms Offered: FaSp
Discusses writings on aesthetics, the history of aesthetics and art criticism, the philosophy of art, and modern philosophical notions such as genius and originality. Instruction Mode: Lecture Grading Option: Letter

AHIS 449 History of Prints and Drawings
Units: 4
Terms Offered: Irregular
Aspects of the history of the graphic arts; stylistic and technical considerations may both be included or specific areas stressed at the choice of the instructor. Instruction Mode: Lecture Grading Option: Letter

AHIS 453 Studies in Baroque Art
Units: 4 Max Units: 8.0 In-depth exploration of specified topics within the area of 17th century art and architecture. Recommended Preparation: AHIS 230 or AHIS 344. Instruction Mode: Lecture Grading Option: Letter

AHIS 460 Studies in 18th and 19th Century Art
Units: 4 Max Units: 8.0 In-depth exploration of specified topics within the area of 18th and 19th century art and architecture. Instruction Mode: Lecture Grading Option: Letter

AHIS 465 Studies in American Art
Units: 4 Max Units: 8.0 In-depth exploration of a specified topic in the history of American art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-465

AHIS 466 Studies in the Decorative Arts and Design
Units: 4 Exploration of a specified topic in the history of the decorative arts and design in Europe and America. Instruction Mode: Lecture Grading Option: Letter

AHIS 467 19th Century French Art
Units: 4
Terms Offered: FaSp Exploration of the main movements in 19th century French art, using the city of Paris and its museums. Field trips in conjunction with classwork. Instruction Mode: Lecture Grading Option: Letter

AHIS 468 Studies in Modern Art
Units: 4 Max Units: 8.0 Terms Offered: Irregular In-depth exploration of a specified topic in the art of the late 19th and/or early 20th centuries. Instruction Mode: Lecture Grading Option: Letter

AHIS 469 Critical Approaches to Photography
Units: 4
Terms Offered: Irregular Selected problems in the history, theory and criticism of photography; recent scholarship considered in relationship to specific photographers and photographic images. Instruction Mode: Lecture Grading Option: Letter

AHIS 470 Studies in Contemporary Art
Units: 4
In-depth exploration of specified topics within the area of contemporary art and architecture. Instruction Mode: Lecture Grading Option: Letter

AHIS 475m Blackness in American Visual Culture
Units: 4
A historical overview of how people of African descent have been represented visually in American culture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-475

AHIS 477 Studies in Visual and Material Culture
Units: 4 Max Units: 16.0 In-depth exploration of selected topics in visual and material culture. Instruction Mode: Lecture Grading Option: Letter

AHIS 481 Studies in Japanese Art
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Japanese art and architecture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-481

AHIS 482 Japanese Photography
Units: 4
Terms Offered: FaSp Surveys the evolution of Japanese photography from 1850 to 21st century and examines how photography has helped define Japan's national and cultural identity. Recommended Preparation: AHIS 125gp Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC 482

AHIS 484 Studies in Chinese Art
Units: 4 Max Units: 16.0 In-depth exploration of specified topics within the area of Chinese art and architecture. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EALC-484

AHIS 486 Introduction to Museums: Past, Present, and Future
Units: 4
Terms Offered: Sp Comprehensive exploration of the role of art museums in society. Inquiry into the present and future potential of museums as a complex force in society. Instruction Mode: Lecture Grading Option: Letter

AHIS 488 Topics in Art Conservation
Units: 4
Terms Offered: FaSp Introduction to heritage conservation, an interdisciplinary field devoted to preserving material objects and structures that are deemed to hold cultural significance. Instruction Mode: Lecture Grading Option: Letter

AHIS 490x Directed Research
Units: 2, 3, 4, 5, 6, 7, 8
Max Units: 12.0
Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

AHIS 492 Museum Educator Training
Units: 2 Terms Offered: FaSp Experiential research conducted at the Getty Center museum; supervised development of docent skills. Instruction Mode: Lecture Grading Option: Letter

AHIS 494 Undergraduate Proseminar in Art History
Units: 4
Terms Offered: FaSp Historiography and methodology: introduction to techniques of research and writing. Required of all art history majors, preferably in the junior year. Instruction Mode: Lecture Grading Option: Letter

AHIS 495a Undergraduate Honors Thesis
Units: 2 Terms Offered: FaSp Research and writing of original thesis under guidance of faculty member. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

AHIS 495b Undergraduate Honors Thesis
Units: 2
Terms Offered: FaSp Research and writing of original thesis under guidance of faculty member. Departmental approval. Instruction Mode: Lecture Grading Option: Letter

AHIS 496 Paintings in the Prado Museum
Units: 4
Terms Offered: Irregular (Madrid Center only) From Romanticism through Goya in relation to European and Mediterranean antecedents using paintings in the Prado Museum. Field trips in conjunction with classwork. Instruction Mode: Lecture Grading Option: Letter

AHIS 497 Senior Seminar in Early Modern Studies
Units: 4
Terms Offered: Sp (Enroll in ENGL 497)

AHIS 498 The Gods and Goddesses of the Renaissance
Units: 4
Terms Offered: FaSp Renaissance visual and material culture and the visual representation of Ancient mythology, recovery and reception of ancient art, and collecting practices. Instruction Mode: Lecture Grading Option: Letter

AHIS 499 Special Topics
Units: 2, 3, 4
Max Units: 8.0 Comprehensive exploration of particular aspects of the history of art. Instruction Mode: Lecture Grading Option: Letter

AHIS 500 Methods and Theory of Art History
Units: 4
Terms Offered: Fa Methodologies, theories and critical traditions that have shaped the discipline. Emphasis will vary depending on faculty. Required of all first-year MA and PhD candidates. Instruction Mode: Lecture Grading Option: Letter

AHIS 501 Problems in the History and Theory of Collecting and Display
Units: 4
Explores the history of patronage, collecting and display in the private and the public spheres (e.g., salons, galleries, museums, and international expositions). Instruction Mode: Lecture Grading Option: Letter

AHIS 502 Markets, Value and the Institutions of Art
Units: 4
Intensive examination of economic, societal, and aesthetic frameworks in which art was sold, bought, exhibited and reviewed. Explores how perceptions of art and value were shaped. Instruction Mode: Lecture Grading Option: Letter

AHIS 503 Categories and Collections
Units: 4
How collections are organized by category — e.g., period, culture, materials, or mode of production. Examines collecting protocols, historiography and modes of collecting and viewing associated with that category. Instruction Mode: Lecture Grading Option: Letter

AHIS 504 Museum Research Assistantship
Units: 1
Terms Offered: FaSp Working within an institution with a collection and reflecting, in class meetings, upon how collections are formed, shaped and used. Instruction Mode: Lecture Grading Option:
Units: 12 Required for international students assessed to have no proficiency in English by the International Student English Examination (ISE). Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 103x Elective Courses in English as a Second Language for International Students
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Specialized tutorial classes in listening, speaking, reading, or writing. A maximum of 4 units may be counted toward a degree. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 134 Intermediate Oral Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 135 Intermediate Writing Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 144 High Intermediate Oral Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 145 High Intermediate Writing Skills
Units: 1 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 200 Elementary English as a Second Language for International Students
Units: 12 Terms Offered: FaSpSm Required for international students assessed to be at the beginning level by the International Student English Examination (ISE) or by the completion of a lower level ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 211 Low Intermediate ESL (II) for International Students
Units: 6 Required for international students assessed to have intermediate level writing skills, but pre-intermediate level oral skills or by completion of a lower level ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 224 Low Intermediate Oral Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the low intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 210. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 225 Low Intermediate Writing Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the low intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 210. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 234 Intermediate Oral Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 220. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 235 Intermediate Writing Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 220. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 242 High Intermediate Pronunciation
Units: 2 Terms Offered: FaSpSm Required for international students whose pronunciation skills are assessed at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 244 High Intermediate Oral Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 230 and ALI 240. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 245 High Intermediate Writing Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the high intermediate level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 231 and ALI 240. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 246 Intermediate Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) whose oral skills are assessed to be at the intermediate level by the ITA exam or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 252 Advanced Pronunciation
Units: 3 Terms Offered: FaSpSm Required for international students whose pronunciation skills are assessed at the advanced level by the International Student English Examination (ISE) or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 254 Advanced Oral Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose oral skills are assessed to be at the advanced level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 259. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 255 Advanced Writing Skills
Units: 2 Terms Offered: FaSpSm Required for international students whose writing skills are assessed to be at the advanced level by the International Student English Examination (ISE) or previous ALI course. Duplicates Credit in former ALI 258. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 256 High Intermediate Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Required for international teaching assistants (ITAs) whose oral skills are assessed to be at the high intermediate level by the ITA exam or previous ALI course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 270 Advanced Oral Communication for ITAs
Units: 3 Terms Offered: FaSpSm Classroom interaction skills for international teaching assistants, with a focus on the language needed to lead discussions and make presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 271 Language Tutorial for International Teaching Assistants
Units: 2 Terms Offered: FaSpSm Individualized tutorial on the language and oral skills used by international teaching assistants in the performance of his or her duties. Based on observation and feedback. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 274 Advanced Academic and Professional Spoken English
Units: 2 Terms Offered: FaSpSm Required for International Teaching Assistants (ITAs) who, after taking the ITA Oral Interview Exam, are determined to need the particular skills taught in this course. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 275 Writing for Publication and Dissertations
Units: 2 Terms Offered: FaSpSm Elective course for international graduate students focusing on conventions of advanced academic writing and problems in syntax, vocabulary, and register for writing and/or publishing dissertations. Instruction Mode: Lecture Grading Option: Credit/No Credit

ALI 276 Workshop for International Teaching Assistants
Units: 2 Max Units: 08 Terms Offered: Sm Language assistance and individualized instruction to help International Teaching Assistants develop the skills and language proficiency necessary to perform their classroom duties. Graded CR/NC. Registration Restriction: Open only to International Teaching Assistants. Instruction Mode: Lecture Grading Option: Credit/No Credit
Aerospace and Mechanical Engineering

AME 101L Introduction to Mechanical and Graphical Engineering
Units: 3 Terms Offered: Fa Gateway to the bachelor of science degree in mechanical engineering. Introduction to mechanical engineering disciplines and practice; graphical communication and layout of machine parts; introduction to computer-aided drafting and drawing. Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 105 Introduction to Aerospace Engineering
Units: 4 Terms Offered: Fa Gateway to the Aerospace Engineering major. Introduction to flight vehicle performance and propulsion. Elements of the physics of gases. Laboratory: computers and graphics; model rocket and glider test flights. Instruction Mode: Lecture, Lab Grading Option: Letter

AME 150L Introduction to Computational Methods
Units: 4 Terms Offered: Sp Computer programming; organization of problems for computational solution; introduction to software for computation and graphics; applications to engineering problems. Corequisite: MATH 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 201 Statics
Units: 3 Terms Offered: FaSp Analysis of forces acting on particles and rigid bodies in static equilibrium; equivalent systems of forces; friction; centroids and moments of inertia; introduction to energy methods. Prerequisite: PHYS 151Lg or PHYS 161Lg or PHYS 171Lg Recommended Preparation: MATH 151Lg Instruction Mode: Lecture Grading Option: Letter

AME 203 Dynamics of Fluids
Units: 3 Terms Offered: FaSp Fluid statics; conservation of mass, momentum, and energy in integral and differential form; applications. Laminar and turbulent pipe flow; compressible flow; potential flow over bodies. Prerequisite: AME 201 Recommended Preparation: AME 310 Corequisite: MATH 245 Instruction Mode: Lecture Grading Option: Letter

AME 310 Engineering Thermodynamics I
Units: 3 Terms Offered: FaSp Fundamental laws of thermodynamics applied to actual and perfect gases and vapors; energy concepts, processes, and applications. Prerequisite: MATH 226 or MATH 227 or MATH 229 Recommended Preparation: PHYS 151Lg, high-level programming language Instruction Mode: Lecture, Discussion Grading Option: Letter

AME 312 Engineering Thermodynamics II
Units: 3 Terms Offered: Sp Application of thermodynamic principles to fluid flow, power cycles, and refrigeration. Prerequisite: AME 310, Recommended Preparation: high-level programming language. Instruction Mode: Lecture Grading Option: Letter

AME 331L Heat Transfer
Units: 3 Terms Offered: Sp General principles underlying heat transfer by conduction, convection, and radiation; steady and transient conditions; heat exchangers. Prerequisite: AME 310; Corequisite: AME 309 or CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 341L Aerospace Structures Laboratory I and II
Units: 3 Terms Offered: FaSpA coordinated laboratory and lecture sequence on fundamentals of structural design. Prerequisite: AME 201 or CE 205. Instruction Mode: Lecture, Lab Grading Option: Letter

AME 390 Special Problems
Units: 1 Max Units: 4.0 Terms Offered: FaSpI and II Recommended Preparation: AME 101L Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 403 Stress Analysis
Units: 3 Terms Offered: Sp Theories of failure; shear center, unsymmetrical bending, curved beams, torsion of non-circular sections; cylinders, rotating discs, thermal stresses, inelastic strains, energy methods. Prerequisite: AME 204. Instruction Mode: Lecture Grading Option: Letter

AME 404 Computational Solutions to Engineering Problems
Units: 3 Terms Offered: Fa Mathematical aspects of the solutions to typical advanced mechanical engineering problems. Modeling, simulation, computational aspects, computer
solutions, and computational tools. Recommended Preparation: FORTRAN, MATLAB, and Maple. Instruction Mode: Lecture Grading Option: Letter

AME 405 Functional Approach to Computational Methods Units: 3 Terms Offered: Sp Introduction to computational methods in engineering: learning to develop and implement numerical algorithms for solving a range of mathematics, physics, and engineering problems. Suitable for undergraduate students in aerospace, bio, civil and mechanical engineering. Recommended Preparation: 1 year of college-level calculus and physics Instruction Mode: Lecture Grading Option: Letter

AME 408 Computer-Aided Design of Mechanical Systems Units: 3 Terms Offered: FaSp Design of mechanical systems using advanced graphics techniques; computer-aided drafting, design optimization, elements of computer graphics, solids modeling; introduction to computer-aided manufacturing. Prerequisite: AME 204 or CE 225; Recommended Preparation: AME 308. Instruction Mode: Lecture Grading Option: Letter

AME 409 Senior Design Project Units: 4 Terms Offered: Sp Modeling, analysis, integration, layout and performance analysis of a mechanical system to meet specified design requirements. Prerequisite: senior standing. Instruction Mode: Lecture, Lab Grading Option: Letter

AME 410 Engineering Design Theory and Methodology Units: 3 Terms Offered: Fa Product planning and task clarification, voice of customers, quality function deployment, conceptual and embodiment design, axiomatic theory of design, product quality and manufacturability, design decision-making. Recommended Preparation: AME 305. Instruction Mode: Lecture Grading Option: Letter

AME 412 Molecular Theory of Gases Units: 3 Terms Offered: Irregular Molecular structure; intermolecular potentials; molecular processes in gases; molecular interpretation of concepts of classical thermodynamics; radiative transport phenomena in gases. Prerequisite: AME 310. Instruction Mode: Lecture Grading Option: Letter

AME 415 Turbine Design and Analysis Units: 3 Terms Offered: Fa Physics of turbine operation; design and analysis for the development of turbine hardware for propulsion and power generation. Recommended Preparation: familiarity with Matlab. Instruction Mode: Lecture Grading Option: Letter

AME 420 Engineering Vibrations 1 Units: 3 Terms Offered: Fa Theory of free and forced vibrations with and without damping; systems of single and multiple degrees of freedom; iteration; methods; vibration isolation; instrumentation. Prerequisite: MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

AME 423L Loudspeaker and Sound-System Design Units: 3 Terms Offered: Sp Enroll in EE 423Lx

AME 428 Mechanics of Materials Units: 3 (Enroll in CE 428)

AME 430 Thermal Systems Design Units: 3 Terms Offered: Fa Design methodology for thermal systems; boilers, condensers, air conditioning, power generation, air pollution control, combustion and alternative fuels. Prerequisite: AME 331; Recommended Preparation: AME 312. Instruction Mode: Lecture Grading Option: Letter

AME 436 Energy and Propulsion Units: 3 Terms Offered: Fa Performance and analysis of reciprocating, jet, rocket engines, and hybrid systems. Characteristics of inlets, compressors, combustors, turbines, nozzles and engine systems. Energy and environmental problems. Prerequisite: AME 310; AME 309 or CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 441aL Senior Projects Laboratory Units: 3 Terms Offered: Sp Individual engineering projects designed and constructed to model and test a physical principle or system. Prerequisite: AME 341bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 441bL Senior Projects Laboratory Units: 3 Terms Offered: Sp Individual engineering projects designed and constructed to model and test a physical principle or system. Prerequisite: AME 341bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

AME 443 Control Systems Laboratory Units: 3 Terms Offered: Vibration measurement and analysis; simulation, design, and experimental verification of mechanical control systems; identification of system parameters, implementation of controllers, verification of closed-loop performance via experimentation and simulation. Prerequisite: AME 420 or AME 451 or EE 482. Duplicates Credit in former AME 442bL. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as EE-441

AME 451 Linear Control Systems 1 Units: 3 Transform methods, block diagrams; transfer functions; stability; root-locus and frequency domain analysis and design; state space and multiloop systems. Prerequisite: AME 302 and MATH 245. Duplicates Credit in EE 482. Instruction Mode: Lecture Grading Option: Letter

AME 453 Engineering Dynamics Units: 3 Terms Offered: Sp Principles of dynamics applied to mechanical and aerospace problems. Introduction to gyroscopic motion and rigid body dynamics. Prerequisite: MATH 245. Instruction Mode: Lecture Grading Option: Letter

AME 455 Introduction to MEMS Units: 3 Terms Offered: Sp Introduction to micro-electro-opto-mechanical systems; scaling effects on material properties, fluid flows, dynamical behavior; fabrication methods; design considerations for MEMS sensors and actuators. Recommended Preparation: AME 301; AME 309 and AME 310. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-415

AME 457 Engineering Fluid Dynamics Units: 3 Terms Offered: Fa Laminar and turbulent boundary layer flow with and without heat transfer; boundary layer separation, stability, transition and control; introduction to compressible fluid flow. Prerequisite: AME 310; AME 309 or CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 458 Theory of Structures II Units: 3 (Enroll in CE 458)

AME 459 Flight Mechanics Units: 3 Terms Offered: Fa Applications of basic aerodynamics to aircraft and missile performance, power and thrust, stability and control, compressibility effects. Recommended Preparation: AME 309. Instruction Mode: Lecture Grading Option: Letter

AME 460 Aerodynamic Theory Units: 3 Basic relations describing the inviscid flow field about bodies and wings moving at subsonic and supersonic speeds. Prerequisite: AME 309. Instruction Mode: Lecture Grading Option: Letter

AME 461 Formation Evaluation Units: 3 (Enroll in PTE 461)

AME 462 Economic, Risk and Formation Productivity Analysis Units: 4 (Enroll in PTE 462)

AME 463L Introduction to Transport Processing in Porous Media Units: 3 (Enroll in PTE 463L)

AME 464L Petroleum Reservoir Engineering Units: 3 (Enroll in PTE 464L) Instruction Mode: Lecture, 3 hours; laboratory, 3 hours.

AME 465L Drilling Technology and Subsurface Methods Units: 3 (Enroll in PTE 465L) Instruction Mode: Lecture, 3 hours; laboratory, 3 hours.

AME 481 Aircraft Design Units: 4 Terms Offered: Sp Aircraft design and analysis, design requirements and specifications; integration of structure, propulsion, control system, and aerodynamic configuration; performance analysis and prediction. Instruction Mode: Lecture Grading Option: Letter

AME 485 Aerospace Structures 1 Units: 3 Terms Offered: FaSp Design, qualification, and workmanship verification of aerospace structures. Analysis for assessing buckling and crippling, welds, and analysis of connections and thin-walled structures. Prerequisite: AME 204 Recommended Preparation: AME 311 or MASC 310 Duplicates Credit in former AME 353 Instruction Mode: Lecture Grading Option: Letter

AME 486 Mechanics of Composite Materials for Modern Structures Units: 3 Terms Offered: Sp Current and potential applications of composite
materials including manufacturing methods; determining mechanical properties; failure analysis; and design, inspection, and repair considerations. Prerequisite: AME 204

AME 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

AME 491 Undergraduate Design Projects II
Units: 1 Max Units: 4.0 Terms Offered: FaSp Analysis, design, fabrication, and evaluation of devices intended for entry in local and national design competitions. Intended for students with prior project experience. Upper division standing. Instruction Mode: Lecture Grading Option: Credit/No Credit

AME 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Course content to be selected each semester from recent developments in mechanical engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

AME 502 Modern Topics in Aerospace Design
Units: 3 Terms Offered: Fa Current topics in Aerospace Engineering are addressed by a number of industry panelists. Students, under panelists' supervision and guidance, complete independent research reports and briefings. Recommended Preparation: AME 261, AME 441, AME 481 or equivalents. Genuine interest in design of flight vehicles. Registration Restriction: Open only to seniors, master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

AME 503 Advanced Mechanical Design
Units: 3 Terms Offered: Fa Specific problems and methods of analysis in mechanical systems design. Instruction Mode: Lecture Grading Option: Letter

AME 505 Engineering Information Modeling
Units: 3 Terms Offered: Sp Symbolic and object-oriented modeling, product and process modeling for design and manufacturing, information models for computer integrated and collaborative engineering, information modeling for life-cycle engineering. Instruction Mode: Lecture Grading Option: Letter

AME 507 Mechanics of Solids I
Units: 3 (Enroll in CE 507)

AME 509 Applied Elasticity
Units: 3 Terms Offered: Sp Condensed treatment dealing with engineering applications of the principles of elasticity, using the theories of elasticity, elastic stability, and plates and shells. Prerequisite: AME 403 Instruction Mode: Lecture Grading Option: Letter

AME 511 Compressible Gas Dynamics
Units: 3 Terms Offered: Sp Thermodynamics, kinetic theory, compressible flow equations, shock and expansion waves, similarity, shock-expansion techniques and linearized flow applied to bodies, characteristics, theory of boundary layers. Instruction Mode: Lecture Grading Option: Letter

AME 513 Principles of Combustion
Units: 3 Terms Offered: Fa Thermochemistry, equilibrium, chemical kinetics, flame temperature, flame velocity, flame stability, diffusion flames spray combustion, detonation. Equations of motion including reaction, heat transfer, and diffusion. Instruction Mode: Lecture Grading Option: Letter Corelisted as CHE-513

AME 514 Applications of Combustion and Reacting Flows
Units: 3 Terms Offered: Sp Advanced topics and modern developments in combustion and reacting flows including ignition and extinction, pollutant formation, microscale and microgravity combustion, turbulent combustion and hypersonic propulsion. Recommended Preparation: AME 513. Instruction Mode: Lecture Grading Option: Letter

AME 515 Advanced Problems in Heat Conduction
Units: 3 Terms Offered: Sp Review of analytical methods in heat conduction; moving boundaries melting and freezing; sources and sinks, anisotropic and composite media; numerical methods for steady and unsteady problems. Recommended Preparation: AME 331, AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 516 Convection Processes
Units: 3 Terms Offered: Sp Analysis of isothermal and nonisothermal boundary layers. Exact and approximate solutions of laminar and turbulent flows. Variable-property and high-speed effects; dimensional analysis. Prerequisite: AME 457; Recommended Preparation: AME 526, AME 531. Instruction Mode: Lecture Grading Option: Letter

AME 517 Radiation Heat Transfer
Units: 3 Terms Offered: Fa Radiation properties; black body radiation; shape factors of radiation network analogy and solar radiation. Prerequisite: AME 331; Corequisite: AME 525 or AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 520 Modeling of Bio-Systems
Units: 3 Terms Offered: Sp Interacting population dynamics, Cheyne-Stokes respiration, reaction kinetics, biological switches, neuronal models, BZ reaction, phase locking, reaction diffusion, chemotaxis, biological waves, and animal coat patterns. Recommended Preparation: MATH 245. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC-522, BME-520

AME 521 Engineering Vibrations II
Units: 3 Terms Offered: Fa Multi-degree of freedom systems; modal analysis. Rayleigh's quotient. Continuous systems; modal analysis. Beams, rods, membranes. Colocations, Galerkin, Rayleigh Ritz methods; finite elements. Prerequisite: AME 420. Instruction Mode: Lecture Grading Option: Letter

AME 522 Nonlinear Dynamical Systems, Vibrations, and Chaos
Units: 3 Terms Offered: Fa Lagrange equations; nonlinear maps and differential equations; fixed points; periodic motion; qualitative/quantitative and local/global analysis; higher order systems; stability; bifurcations; chaos; fractals. Instruction Mode: Lecture Grading Option: Letter

AME 523 Random Vibrations
Units: 3 Terms Offered: Irregular Random processes, ergodic theory. Ito calculus. Linear systems under stationary and nonstationary excitations. Fokker-Planck equations. Failure analysis and first passage problems. Prerequisite: AME 420, basic probability (or MATH 407), AME 451 recommended. Instruction Mode: Lecture Grading Option: Letter

AME 524 Advanced Engineering Dynamics

AME 525 Engineering Analysis
Units: 3 Terms Offered: FaSpSm Typical engineering problems discussed on a physical basis. Vector analysis; functions of complex variables, infinite series, residues. Instruction Mode: Lecture Grading Option: Letter

AME 526 Engineering Analytical Methods
Units: 3 Terms Offered: FaSpSm Typical engineering problems discussed on a physical basis. Fourier series; Fourier integrals; Laplace transform; partial differential equations; Bessel function. Instruction Mode: Lecture Grading Option: Letter

AME 527 Elements of Vehicle and Energy Systems Design
Units: 3 Terms Offered: Irregular Design synthesis of aero/hydro/mechanical systems; techniques of design; conceptual thinking; problem definition, configurational development, analytic engineering approximation, oral briefings and group problem solving. Instruction Mode: Lecture Grading Option: Letter

AME 528a Finite Element Analysis
Units: 3 Terms Offered: Fa (Enroll in CE 529a)

AME 528b Finite Element Analysis
Units: 3 Terms Offered: Sp (Enroll in CE 529b)

AME 529 Aircraft Structures Analysis
Units: 3 Terms Offered: Sp The direct stiffness (finite element) method for analysis of semimonocoque structures; energy methods; elasticity, plates and shells, vibration, and stability; system identification. Instruction Mode: Lecture Grading Option: Letter
AME 530a Dynamics of Incompressible Fluids
Units: 3 Terms Offered: FaSp A unified discussion of low-speed fluid mechanics including exact solutions; approximation techniques for low and high Reynolds numbers; inviscid flows; surface waves; dynamic stability; turbulence. Instruction Mode: Lecture Grading Option: Letter

AME 530b Dynamics of Incompressible Fluids
Units: 3 Terms Offered: FaSp A unified discussion of low-speed fluid mechanics including exact solutions; approximation techniques for low and high Reynolds numbers; inviscid flows; surface waves; dynamic stability; turbulence. Instruction Mode: Lecture Grading Option: Letter

AME 532a Flight Vehicle Stability and Control
Units: 3 Terms Offered: FaSp Response of flight to linear, nonlinear, and randomly defined disturbances. Generation and measurement of error signals in navigational systems. Stability and control techniques. Recommended Preparation: AME 459. Instruction Mode: Lecture Grading Option: Letter

AME 532b Flight Vehicle Stability and Control
Units: 3 Terms Offered: FaSp Response of flight to linear, nonlinear, and randomly defined disturbances. Generation and measurement of error signals in navigational systems. Stability and control techniques. Recommended Preparation: AME 459. Instruction Mode: Lecture Grading Option: Letter

AME 533 Multi-Phase Flows
Units: 3 Terms Offered: Sp Physics of the interaction between phases, empirical and analytical methods of solution to relevant technological problems. Prerequisite: AME 457. Instruction Mode: Lecture Grading Option: Letter

AME 534 Nuclear Thermal-Hydraulics
Units: 3 Terms Offered: FaSp Thermal-fluid phenomena for nuclear power stations. Heat generation by nuclear reactions, conduction in fuel rods, and transport of generated heat by convection, boiling, and condensation. Prerequisite: AME 457 or AME 530a; and AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering. Instruction Mode: Lecture Grading Option: Letter

AME 535a Introduction to Computational Fluid Mechanics
Units: 3 Terms Offered: FaSp Convergence, consistency, stability: finite difference, finite element, and spectral methods; direct and iterative procedures for steady problems; linear diffusion and advection problems; non-linear advection problems. Recommended Preparation: AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 535b Introduction to Computational Fluid Mechanics
Units: 3 Terms Offered: FaSp Generalized curvilinear coordinates; grid generation; numerical techniques for transonic and supersonic inviscid flows; boundary layer flows; reduced Navier-Stokes equations; compressible and incompressible viscous flows. Recommended Preparation: AME 511 or AME 530a, AME 535a. Instruction Mode: Lecture Grading Option: Letter

AME 537 Microfluidics
Units: 3 Terms Offered: Fa Introduction to fluid dynamics in the microscale. Scaling parameters, dynamic, thermodynamic, electroosmotic and electrochemical forces. Flow in microdevices, external flow measurement and control, microvalves and micropumps. Limited to students with graduate standing. Recommended Preparation: AME 309, MATH 445. Instruction Mode: Lecture Grading Option: Letter

AME 539 Multi-body Dynamics
Units: 3 Terms Offered: Sp Kinematics and kinetics of rigid body motion, quaternions; elastic vibrations of continua; geometric and material nonlinearities; Galerkin methods; meshless finite elements; complex dynamical systems; computational methods. Instruction Mode: Lecture Grading Option: Letter

AME 541 Linear Control Systems II
Units: 3 Terms Offered: Fa State space representation, linearization, solution of state equations; controllability and observability; state feedback, state observers; optimal control; output feedback. Prerequisite: AME 541 Duplicates Credit in EE 585. Instruction Mode: Lecture, Discussion Grading Option: Letter

AME 542 Theory of Plates
Units: 3 (Enroll in CE 542)

AME 543 Foundations for Manufacturing Automation
Units: 3 Terms Offered: Fa Fundamentals of contemporary manufacturing automation; underlying building blocks of the automation system; mechanics-based models for designing automation system; and physical and decision-making aspects of automation. Recommended Preparation: AME 451 Instruction Mode: Lecture Grading Option: Letter

AME 544 Computer Control of Mechanical Systems
Units: 3 Terms Offered: Sp Computer control as applied to machine tools, mechanical manipulators, and other mechanical machinery; discrete time controller design; microprocessor implementation of motion and force control servos. Prerequisite: AME 451. Instruction Mode: Lecture Grading Option: Letter

AME 545 Modeling and Control of Distributed Dynamic Systems
Units: 3 Terms Offered: Sp Modeling and analysis of complex flexible mechanical systems; distributed transfer function synthesis; frequency-domain control methods; smart structure design; applications in vibration and noise control. Prerequisite: AME 521 and AME 541. Instruction Mode: Lecture Grading Option: Letter

AME 548 Analytical Methods in Robotics
Units: 3 Terms Offered: Irregular Homogeneous transformations; formal description of robot manipulators; kinematic equations and their solution; differential relationships; dynamics; control; static forces; compliance. Prerequisite: EE 545; EE 542 or AME 451; knowledge of linear algebra. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-548

AME 549 Systems Architecting
Units: 3 Terms Offered: FaSp (Enroll in SAE 549)

AME 550 Seminar in Aerospace and Mechanical Engineering
Units: 1 Max Units: 03 Terms Offered: FaSp Recent developments and research in aerospace and mechanical engineering and related fields. Oral and written reports. Registration Restriction: Open only to AME graduate students. Duplicates Credit in former AME 550a and former AME 550b. Instruction Mode: Lecture Grading Option: Letter

AME 551 Mechanical Behavior of Engineering Materials
Units: 3 (Enroll in MASC 551)

AME 552 Nonlinear Control Systems
Units: 3 Terms Offered: Sp Phase plane, describing functions, applications to mechanical and aerospace systems. Lyapunov direct and indirect methods, applications; Popov circle criteria applications. Prerequisite: AME 541. Instruction Mode: Lecture Grading Option: Letter

AME 553a Digital Control Systems
Units: 3 (Enroll in EE 543aL, EE 543bL) Instruction Mode: (Lab is required for the b section only.)

AME 553b Digital Control Systems
Units: 3 (Enroll in EE 543aL, EE 543bL)

AME 559 Creep
Units: 3 Terms Offered: Fa (Enroll in MASC 559)

AME 560 Fatigue and Fracture
Units: 3 Terms Offered: Sp (Enroll in MASC 560)

AME 561 Dislocation Theory and Applications
Units: 3 (Enroll in MASC 561)

AME 567 Collaborative Engineering Principles and Practice
Units: 3 Terms Offered: Sp (Enroll in ISE 567)

AME 572 Experimental Engineering Projects
Units: 3 Experimental methods appropriate to engineering research, emphasizing interdisciplinary investigations. Individual projects. Instruction Mode: Lab Required Grading Option: Letter

AME 573 Aerosol Physics and Chemistry
Units: 3 Terms Offered: Sp Examination of the fundamentals of aerosol formation and evolution, aerosol effects on health and climate, and the principles of aerosol measurement. Instruction Mode: Lecture Grading Option: Letter

AME 575 Advanced Engineering Analysis
Units: 3 Terms Offered: Fa Solution of engineering problems by methods of calculus...
of radiation, quantification and measurement relevant to human health. Biological effects of radiation, quantification and measurement of different types of radiation affecting living tissue, radiation protection, nuclear accidents. Prerequisite: AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering and PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 576 Advanced Engineering Analytical Methods
Units: 3 Terms Offered: Sp Solution of engineering problems by methods of linear and nonlinear partial differential equations of first and second order; perturbations. Prerequisite: AME 525 or AME 526 or CE 525 or CE 526. Instruction Mode: Lecture Grading Option: Letter

AME 577 Survey of Energy and Power for a Sustainable Future
Units: 3 Terms Offered: FaSp Power production includes conventional fossil fuels, synthetic fuels, hydroelectric, solar, wind, geothermal, biomass and nuclear. The environmental consequences of various energy sources are discussed. Duplicates Credit in CHE 510. Instruction Mode: Lecture Grading Option: Letter

AME 578 Modern Alternative Energy Conversion Devices
Units: 3 Terms Offered: FaSp Alternative energy/power conversion including fuel cells, photovoltaic, batteries, and biologically inspired energy processes; biomass conversion and utilization; Environmental implications of alternative energy processes. Instruction Mode: Lecture Grading Option: Letter

AME 579 Combustion Chemistry and Physics

AME 581 Introduction to Nuclear Engineering
Units: 3 Terms Offered: Fa Review of basic nuclear physics, binding energy, reactor kinetics, thermal transport in reactor systems, radioactivity, shielding, reactor safety and health effects of radiation, risk assessment. Open only to graduate students. Recommended Preparation: Undergraduate degree in engineering; AME 310, MATH 245, PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 582 Nuclear Reactor Physics
Units: 3 Terms Offered: Sp Neutron-induced fission chain reactions, reactor criticality. Neutron transport and diffusion in nuclear reactors. Mathematical/computational foundation for diffusion theory and transport calculations for fission reactor design/analysis. Prerequisite: AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering and PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 583 Effects of Radiation on Health
Units: 3 Terms Offered: Sp Nuclear physics relevant to human health. Biological effects of radiation, quantification and measurement of different types of radiation affecting living tissue, radiation protection, nuclear accidents. Prerequisite: AME 526 and AME 581; Recommended Preparation: undergraduate degree in engineering and PHYS 153L. Instruction Mode: Lecture Grading Option: Letter

AME 584 Fracture Mechanics and Mechanisms
Units: 3 Terms Offered: Fa (Enroll in MASC 584)

AME 585 Aerospace Structures II
Units: 3 Terms Offered: FaSp Analysis of repairs in aircraft/launch vehicles. Flexible dynamics for spacecraft, random vibration, deployable spacecraft components, certification of thermal protection systems. Practical finite element analysis. Prerequisite: AME 485 Instruction Mode: Lecture Grading Option: Letter

AME 588 Materials Selection
Units: 3 Terms Offered: Sp (Enroll in MASC 583)

AME 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

AME 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 594z Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 594t Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: FaSp Course content will be selected each semester to reflect current trends and developments in the field of mechanical engineering. Instruction Mode: Lecture Grading Option: Letter

AME 620 Aero and Hydrodynamic Wave Theory
Units: 3 Linear and nonlinear wave motion in fluids: group velocity, dispersion, wave action, wave patterns, evolution equations, solitons and solitary waves, resonance phenomena. Recommended Preparation: AME 526 and CE 309. Instruction Mode: Lecture Grading Option: Letter

AME 621 Stability of Fluids
Units: 3 Linear and nonlinear stability analysis applied to free shear layers, boundary layers and jets; Rayleigh-Benard convective instabilities and centrifugal instability of rotating flows. Recommended Preparation: AME 530b. Instruction Mode: Lecture Grading Option: Letter

AME 623 Dynamics of Stratified and Rotating Flows
Units: 3 Fluid motions in which density gradients and/or rotation are important, including internal wave motions with rotation, flow past obstacles, viscous effects, singular perturbations. Recommended Preparation: AME 530b. Instruction Mode: Lecture Grading Option: Letter

AME 624 The Fluid Dynamics of Natural Phenomena
Units: 3 Application of the basic concepts of rotating, stratified fluid motion to problems in meteorology, oceanography, geophysics and astrophysics. Instruction Mode: Lecture Grading Option: Letter

AME 626 Singular Perturbation Methods

AME 630 Transition to Chaos in Dynamical Systems
Units: 3 Bifurcation theory and universal routes to chaos in deterministic systems; application to maps and differential flows; characterization of strange attractors. Recommended Preparation: AME 526. Instruction Mode: Lecture Grading Option: Letter

AME 640 Advanced Theory of Elasticity
Units: 3 (Enroll in CE 640)

AME 645 Uncertainty Modeling and Stochastic Organization
Units: 3 (Enroll in CE 645)

AME 647 Multiscale Methods in Mechanics
Units: 3 (Enroll in CE 647)

AME 651 Statistical Theories of Turbulence

AME 652 Turbulent Shear Flows

AME 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Laboratory study of specific problems by candidates for the degree Engineer in Mechanical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

AME 694a Thesis
Units: 2 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

AME 694b Thesis
Units: 2 Required for the degree Engineer in Aerospace Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: Letter
use of cardiac drugs, and prosthetic valve management. Instruction Mode: Lecture Grading Option: Letter

**AMED 750a Physical Evaluation and Anesthesia**

Units: 2 In-depth examination of physical evaluation, emergency medicine, basic life support, inhalation sedation, intravenous sedation, local anesthesia, and patient monitoring; includes clinical experience. Instruction Mode: Lecture Grading Option: Letter

**AMED 750b Physical Evaluation and Anesthesia**

Units: 2 In-depth examination of physical evaluation, emergency medicine, basic life support, inhalation sedation, intravenous sedation, local anesthesia, and patient monitoring; includes clinical experience. Instruction Mode: Lecture Grading Option: Letter

**American Studies and Ethnicity**

**AMST 101gmw Race and Class in Los Angeles**

Units: 4 Terms Offered: FaSp Examines the social dimensions of contemporary Los Angeles including topics such as residential segregation, economic inequality, and city politics. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues

**AMST 111g Sex in America**

Units: 4 Explores how the proliferation of sexual cultures, identities, politics shape everyday lives in the U.S. and beyond. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

**AMST 133g Religions of Latin America**

Units: 4 (Enroll in REL 133g) Prerequisite: REL 133g

**AMST 135gmw Peoples and Cultures of the Americas**

Units: 4 Terms Offered: FaSp An introduction to cultures and people in the Americas; the social, historical, economic and cultural formations that together make up the Latino/a American imaginary. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

**AMST 140gw Borderlands in a Global Context**

Units: 4 Interdisciplinary survey of theory and borderland site cases, national sentiment, linguistic and cultural conflicts, exploration of local, regional, and national identities in cultural contact zones. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

**AMST 150gw The American War in Vietnam**

Units: 4 Examination of the ways that different nations and cultures have remembered the Vietnam War or the American War as it is called in Vietnam. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters

**AMST 201g LGBTQ America**

Units: 4 Examines how U.S. sexual identity and experience are represented in the 20th and 21st century and introduces the interdisciplinary field of LGBTQ Studies. Provides an overview of major theories, concepts, and issues. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

**AMST 205g Introduction to American Studies and Ethnicity**

Units: 4 Terms Offered: FaSp Introduction to American studies and ethnic studies. Provides an overview of major theories, concepts, and issues. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

**AMST 202m Interethic Diversity in the West**

Units: 4 Introduction to community, culture, and ethnicity within the Western United States with emphasis on African American, Asian American, and Chicano/Latino cultures and social patterns. Instruction Mode: Lecture Grading Option: Letter

**AMST 204g Introduction to Native Studies**

Units: 4 Terms Offered: FaSp Overview of Native American studies, including Indigenous intellectualism and resistance through language revitalization, film-making, and the recognition of one another. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

**AMST 205g Introduction to American Popular Culture**

Units: 4 Terms Offered: FaSp Examines the relation between U.S. national culture, race, and popular culture. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

**AMST 206gm The Politics and Culture of the 1960s**

Units: 4 Terms Offered: Sp Examines political and cultural change in the United
AMST 220gmw The Making of Asian America
Units: 4 Terms Offered: FaSp Historical, social, and cultural analysis of (East, South, and Southeast) Asians in the United States. Themes examined: immigration, race and gender relations, ethnic culture, community and identity. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

AMST 230g Introduction to African American Studies
Units: 4 Examine the socio-historical and political imperatives of multi-disciplinary scholarship foundational to the study of African Americans. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 240gm Representing 9/11 and Hurricane Katrina
Units: 4 Offered: FaSp (Enroll in ANTH 240gm)

AMST 242gm Social Responses to Disaster
Units: 4 Exploration of social complexities associated with U.S. disasters; influences of (political) action on mitigation, response, recovery; how activities and investment vary along racial and economic lines. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 250gmw The African Diaspora
Units: 4 Offered: FaSp History, political-economy and aesthetics of the African Diaspora with emphasis on Latin America, the Caribbean, Europe and Africa. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENGL-250

AMST 252gmw Black Social Movements in the U.S.
Units: 4 This course examines black social movements for freedom, justice, equality, and self-determination. Beginning with Reconstruction, movements include labor, civil rights, radical feminism, socialism, reparations, Black Nationalism, prisoners' rights, and Hip Hop. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

AMST 274gmw Exploring Ethnicity through Film
Units: 4 Offered: FaSpSm Examination of the constructions of American ethnicity/race in film. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former AMST 374m. Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 285gm African American Popular Culture
Units: 4 Offered: Sp Examine history of popular cultural forms such as literature, music, dance, theatre, and visual arts produced by and about African Americans. Concurrent Enrollment: Concurrent enrollment: MDA 140. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ENGL-285

AMST 301gmw America, the Frontier, and the New West
Units: 4 Offered: FaSp Introduction to the interdisciplinary study of American political, cultural, and social life with a particular emphasis on the Western United States as a region. Recommended Preparation: HIST 100, ENGL 263. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

AMST 305 Art and Performance in the Americas
Units: 4 Offered: Irregular Critically examine the histories, formations, and possibilities of art and performance from the 1970s forward. Instruction Mode: Lecture Grading Option: Letter

AMST 320 Social Construction of Race and Citizenship
Units: 4 Offered: FaSp Comparative perspective on the social construction of race and citizenship. Social, economic and political experiences of selected groups in the U.S. are examined. Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-322

AMST 328 Asian American Politics
Units: 4 Offered: FaSp (Enroll in POSC 328)

AMST 330m Black Music and the Political Imagination
Units: 4 Explores the changing political meanings of "Black music" throughout the 20th century, from freedom to a threat to civil order, from racial integration to Black liberation. Duplicates Credit in the former GEOG 350. Instruction Mode: Lecture Grading Option: Letter

AMST 332m Post-Civil Rights Black America
Units: 4 Analyzes the political, economic, and cultural experiences of the post-1965 period through an interrogation of contemporary conditions, movements, and responses to power in Black America. Instruction Mode: Lecture Grading Option: Letter

AMST 333 Religion in the Borderlands
Units: 4 (Enroll in REL 333)

AMST 336 Re-Viewing Religion in Asian America
Units: 4 (Enroll in REL 336)

AMST 337m Islam in Black America: From Slavery to Hip Hop
Units: 4 Exploration of the rise of Islam in Black America, and the relationship of Black American Muslims to more recent Muslim immigrants using historical and sociopolitical frameworks. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-337

AMST 340m Latina/o LA
Units: 4 Examination of spatial and social patterns of the Latino population in Los - Angeles. Emphasis on economic, demographic and cultural processes. Duplicates Credit in the former GEOG 340. Instruction Mode: Lecture Grading Option: Letter

AMST 342m Law and Identities
Units: 4 Examines the complex and contested interaction between the law and racial, gender, religious, ethnic, and sexual identities using historical and contemporary cases. Instruction Mode: Lecture Grading Option: Letter

AMST 343 Food, Health and Culture in Los Angeles
Units: 4 Offered: FaSp Examination of Los Angeles' diverse food cultures as well as the food justice issues that affect many low-income residents of neighborhoods surrounding USC campus. Duplicates Credit in SPAN 385 Instruction Mode: Lecture Grading Option: Letter

AMST 344m Islamic Law and American Society
Units: 4 Examination of the nature and substance of Islamic law (Shari'a) and how it relates to American democracy, society and secularism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-344

AMST 345 Law and American Indian Studies
Units: 4 Offered: FaSp Examines indigenous sovereignties and the historical and contemporary legal histories and cases which inform them. Instruction Mode: Lecture Grading Option: Letter

AMST 348m Race and Environmentalism
Units: 4 Relationships between environmentalism, environmental problems and racial-ethnic minorities. Rise of environmental justice movement. Assessment of social science methods used to investigate these relationships. Instruction Mode: Lecture Grading Option: Letter

AMST 350 Junior Seminar in American Studies and Ethnicity: Theories and Methods
Units: 4 Offered: FaSp Advanced study in interdisciplinary theories and methods for analyzing race and ethnicity in the United States, including a comparative study of topics such as inequality, gender, and class. Instruction Mode: Lecture Grading Option: Letter

AMST 353m Race and Racism in the Americas
Units: 4 Offered: FaSp Examination of
selected topics in the historical development of racism with the goal of understanding the complex ways in which race has functioned in the modern world. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-353

AMST 357m Latino Social Movements Units: 4 Terms Offered: FaSp Focuses on the political experience of Latinos in the U.S. Comparative analysis of their political experiences and perspectives, their histories of identity formation, and their political organizations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-357

AMST 364m African American Art Units: 4 Terms Offered: FaSp (Enroll in AHIS 365m)

AMST 365 Leadership in the Community — Internship Units: 4 Terms Offered: FaSp Eight to 10 hours per week in a community-based internship plus two hour lecture. Theoretical and practical issues associated with community leadership. Instruction Mode: Lecture Grading Option: Letter

AMST 373m History of the Mexican American Units: 4 Terms Offered: FaSp Racial and cultural background of Mexico; immigration and conquest; the Mexican in California and the southwest; the rise of contemporary Mexican-American consciousness. Duplicates Credit in former HIST 472. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-373

AMST 376m Contemporary Issues in Asian American Communities Units: 4 Terms Offered: FaSp (Enroll in SOCI 376m)

AMST 378m Introduction to Asian American History Units: 4 Terms Offered: FaSp Comparative examination of the social, economic, and political experiences of Asian immigrants and their descendants in the U.S., 1840s–present. Duplicates Credit in former HIST 378. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-378

AMST 379 Arab in America Units: 4 Terms Offered: FaSp Arab immigration and acculturation in the U.S. from late 19th century to present; emphasis on community formation, race, religion and gender. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-379

AMST 380 American Popular Culture Units: 4 Terms Offered: FaSp (Enroll in HIST 380)

AMST 382 America and the World: Japan Case Study Units: 4 Terms Offered: Sm Transnational, global perspective on American culture to examine the relationship between Los Angeles and various cities in Japan. Trip to Japan. Instruction Mode: Lecture Grading Option: Letter

AMST 383 Jews in American Popular Culture Units: 4 Terms Offered: FaSp (Enroll in JS 383)

AMST 385 African American Culture and Society Units: 4 Terms Offered: Sp Examines social and cultural issues affecting the past and present lives of African Americans in the United States. Instruction Mode: Lecture Grading Option: Letter

AMST 389m Carceral Geographies Units: 4 Terms Offered: FaSp Focusing on California, interdisciplinary research teams will study why there are so many new U.S. prisons. What is their relationship to shopping malls, gated communities, globalization? Prerequisite: AMST 200. Instruction Mode: Lecture Grading Option: Letter

AMST 390 Special Problems Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration; by petition only. Instruction Mode: Lecture Grading Option: Letter

AMST 392 Undergraduate Research Methods Units: 2 Terms Offered: FaSpSm Examines processes of scholarly research; quantitative and qualitative research methods; faculty mentorship; experiential learning; research proposal writing; careers in research. Sophomore or junior standing in the major. Departmental approval. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-392

AMST 395m African American Humor and Culture Units: 4 Terms Offered: FaSp Examination of one of several traditions of African American humor for insights into shifting notions of race, culture, language and identity in and beyond Black America. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH-395

AMST 414 Latina/o Screen Cultures Units: 4 Terms Offered: FaSpSm (Enroll in CTCS 414)

AMST 424m Political Participation and American Diversity Units: 4 Terms Offered: Fa (Enroll in POSC 424m)

AMST 428 Latino Politics Units: 4 Terms Offered: Fa (Enroll in POSC 428)

AMST 432m Racial and Ethnic Relations in a Global Society Units: 4 Terms Offered: FaSp (Enroll in SOCI 432m)

AMST 435m Women in Society Units: 4 Terms Offered: FaSp (Enroll in SOCI 435m)

AMST 442 American Literature, 1920 to the Present Units: 4 Terms Offered: FaSp (Enroll in ENGL 442)

AMST 444m Native American Literature Units: 4 Terms Offered: FaSp (Enroll in ENGL 444m)

AMST 445 African American Anthropology Units: 4 Terms Offered: FaSp (Enroll in ANTH 445)

AMST 446 Cultural Circuits in the Americas Units: 4 Terms Offered: FaSp How does culture move within and across the Americas? What are the relationships between new global media conglomerates, "national cultural industries," and local cultural practices? Instruction Mode: Lecture Grading Option: Letter

AMST 447 Caribbean Literature Units: 4 An introduction to Caribbean studies, using literature and film, with a focus on specific islands examined in their transnational and global contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL-448

AMST 449m Asian American Literature Units: 4 Terms Offered: FaSp Survey of Asian American literature from the earliest time to the present; development of prose, poetry and novel. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL 449

AMST 452m Race, Gender and Sexuality Units: 4 Examination of sexual discourses in the United States in the context of slavery, empire, sex work, labor markets, schools and prisons. Instruction Mode: Lecture Grading Option: Letter

AMST 456m People of Color and the News Media Units: 4 (Enroll in JOUR 466m)

AMST 458m Race and Ethnicity in Entertainment and the Arts Units: 4 Terms Offered: FaSp (Enroll in COMM 458m)

AMST 464m Latino News Media in the United States Units: 4 (Enroll in JOUR 465m)

AMST 465 Studies in American Art Units: 4 Max Units: max 8 Terms Offered: FaSp (Enroll in COMM 465m)

AMST 466m The Psychology of African Americans Units: 4 Terms Offered: FaSp Provides an introduction to the study of health, mental health, and social behavior among African Americans. Instruction Mode: Lecture Grading Option: Letter

AMST 475m Blackness in American Visual Culture Units: 4 Terms Offered: FaSp (Enroll in AHIS 475m)

AMST 483 Religion and Popular Culture in the United States Units: 4 Terms Offered: Sp (Enroll in REL 483)
AMST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

AMST 492 Research Methods in American Studies and Ethnicity
Units: 4 Develop the research proposal and methods for completing a senior honors thesis; for students in one of the four American Studies and Ethnicity honors programs. Instruction Mode: Lecture Grading Option: Letter

AMST 493 Senior Honors Thesis in American Studies and Ethnicity
Units: 4 Writing the honors thesis; for students in one of the four American Studies and Ethnicity majors and Honors Program. Instruction Mode: Lecture Grading Option: Letter

AMST 498 Senior Seminar in American Studies and Ethnicity
Units: 4 Terms Offered: FaSp Capstone course for majors, highlighting interdisciplinary study of race and ethnicity in a comparative context. Prerequisite: AMST 200. Instruction Mode: Lecture Grading Option: Letter

AMST 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Departmental approval required. Instruction Mode: Lecture Grading Option: Letter

AMST 500 Introduction to American Studies and Ethnicity
Units: 4 Terms Offered: Fa An exploration of themes, theoretical influences, and methodological approaches current in American Studies and Ethnic Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 509 Key Topics in Linguistic Anthropology
Units: 4 Terms Offered: FaSp (Enroll in ANTH 509)

AMST 510 Readings in Chicano/Latino Studies
Units: 4 Terms Offered: FaSp Perspectives from the major debates that have driven the development of the field of Chican/o/Latino/a studies across the disciplines. Instruction Mode: Lecture Grading Option: Letter

AMST 519 Indigenous, Decolonial and Transhemispheric American Studies
Units: 4 Terms Offered: FaSp Evaluate pressing social science and humanities concerns hemispherically in relation to first peoples, decolonialization, land, cultural memory, and politics within comparative ethnic studies. Instruction Mode: Lecture Grading Option: Letter

AMST 520 Readings in Asian American Studies
Units: 4 Terms Offered: FaSp Graduate seminar covering critical themes in the interdisciplinary field of Asian American Studies, including perspectives from anthropology, literature, sociology, history, political science, religious studies, cultural studies, women/gender studies and psychology. Instruction Mode: Lecture Grading Option: Letter

AMST 522 Transpacific History
Units: 4 (Enroll in HIST 560)

AMST 525 Seminar in American Art
Units: 4 Terms Offered: FaSp (Enroll in AHIS 525)

AMST 530 Readings in African American Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Seminar exploring crucial theoretical, methodological and historical issues in the development of African American Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 543 Critical Studies in Whiteness
Units: 4 Max Units: 8.0 Terms Offered: FaSp Examines meaning of "whiteness" from historical and other disciplinary perspectives; focus is on how whiteness operates within specific racial regimes to perpetuate inequality. Instruction Mode: Lecture Grading Option: Letter

AMST 552 Archives and Subcultures
Units: 4 Terms Offered: FaSm Introduction to the practice of archival research with an emphasis on the literary and historical methods of documenting subcultural groups, particularly racial and sexual minorities. Instruction Mode: Lecture Grading Option: Letter

AMST 553 Race, Gender and Sexuality
Units: 4 Interdisciplinary investigation of concepts, theories, and debates in the study of race and its intersection with gay, lesbian, trans, heterosexual and other sexualities/ genders. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-553

AMST 554 Readings in Chicano/Latino History
Units: 4 Terms Offered: FaSp Readings, analyses, and discussion of various approaches, topics, and genres in the field of Chicano/Latino history. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-554

AMST 560 Readings on Race and Ethnicity
Units: 4 Terms Offered: FaSp Exploration of research on race and ethnicity in the United States as it pertains to political, social, economic, cultural and historical issues. Instruction Mode: Lecture Grading Option: Letter

AMST 562 The Practice of Ethnography
Units: 4 (Enroll in ANTH 562)

AMST 570 Readings on Los Angeles and Urban Culture
Units: 4 Terms Offered: FaSp Exploration of some of the leading scholarship from a variety of disciplines writing about Los Angeles and the Southern California area. Particular emphasis is placed on the intersections of historical, contemporary and cultural issues that inform recent scholarship on Los Angeles. Instruction Mode: Lecture Grading Option: Letter

AMST 572 Quantitative Methods for a Diverse Society
Units: 4 Terms Offered: FaSp Diversity and empirical social research; conceptualization, design and measurement; conducting, analyzing and evaluating surveys and experiments; focus on obstacles in the empirical study of diversity. Instruction Mode: Lecture Grading Option: Letter

AMST 580 Readings in Cultural Studies
Units: 4 Terms Offered: FaSp Seminar in theoretical approaches to cultural studies, with an emphasis on the analysis of race, gender, sexuality, and class in the U.S. Instruction Mode: Lecture Grading Option: Letter

AMST 585 Topics in Cultural Theory
Units: 4 Max Units: 8.0 Terms Offered: FaSp Introduction to key texts on poststructuralism and its theorizing of the body, power, and historical trauma. Instruction Mode: Lecture Grading Option: Letter

AMST 586 Utopia and Dystopia

AMST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the program. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 593 Practicum in Teaching the Liberal Arts: American Studies
Units: 2 Terms Offered: FaSp Practical principles for the long term development of effective teaching within college disciplines, intended for teaching assistants in American Studies and Ethnicity. Duplicates Credit in MDA 593. Instruction Mode: Lecture Grading Option: Credit/No Credit

AMST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics in American studies and ethnicity. Instruction Mode: Lecture Grading Option: Letter

AMST 600 Interdisciplinary Research Seminar in Chicano/Latino Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Exploration of issues involved in conducting research in the interdisciplinary field of Chicano/Latino Studies and guides students through the design and completion of a journal- quality research paper. Recommended Preparation: graduate reading course in Chicano/ Latino Studies. Instruction Mode: Lecture Grading Option: Letter

AMST 622 Research Seminar on Transpacific Studies
Units: 4 Terms Offered: FaSp Interdisciplinary research seminar foregrounding a multilateral approach towards understanding the political, cultural, economic, and military relations and conflicts between Asia, the Americas, and the Pacific. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-660

AMST 630 Interdisciplinary Research
ANST 501 Advanced Pharmacology of Anesthesia Practice I
Units: 4 Terms Offered: Fa Pharmacokinetic and pharmacodynamic principles, uptake and distribution of inhalational anesthetics, and pharmacology of respiratory and cardiovascular drugs. Application of pharmacologic principles to anesthetic management. Instruction Mode: Lecture Grading Option: Letter

ANST 502 Principles of Nurse Anesthesia Practice
Units: 4 Terms Offered: Fa Basic theory of anesthesia administration, preanesthetic assessment, physical examination, monitoring. Case management including airway and blood/fluid management, anesthesia machine, and postoperative pain. Lecture/case study format. Instruction Mode: Lecture Grading Option: Letter

ANST 503 Advanced Pharmacology of Anesthesia Practice II
Units: 4 Terms Offered: Sp Pharmacokinetic/pharmacodynamic principles of drugs covering different organs systems (cardiovascular, CNS, hematology, endocrine), herbal therapies, chemotherapeutics, antimicrobials. Application of pharmacology to anesthetic management using problem-based learning. Prerequisite: ANST 501 and ANST 502.

ANST 504 Advanced Pathophysiology Related to Anesthesia Practice
Units: 4 Terms Offered: Sp In-depth study of cardiovascular, respiratory, renal, liver, endocrine and neurophysiology and pathophysiology with application of these principles to anesthetic case management using problem-based learning. Prerequisite: ANST 501, ANST 502.

ANST 505 Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Registration Restriction: Open only to Nurse Anesthesia majors. Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 506 Advanced Principles of Nurse Anesthesia Practice
Units: 4 Terms Offered: Sm Advanced theory of anesthesia management for general and specialized procedures, diagnostic procedures, pediatrics and obstetrics. Prerequisite: ANST 503, ANST 504, ANST 505.

ANST 507 Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 503, ANST 504.
504, ANST 505: Registration Restriction: Open only to Nurse Anesthesia majors. Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 508 Research: Investigative Inquiry
Units: 3 Terms Offered: Fa Utilization of research, which includes the evaluation of research, problem identification within the practice setting, awareness of practice outcomes and the clinical application of research. Recommended Preparation: research course; basic statistics. Instruction Mode: Lecture Grading Option: Letter

ANST 509 Advanced Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to geriatric, obstetrical, and pediatric anesthesia; anesthetic management to include medically compromised patients. Prerequisite: ANST 505, ANST 506, ANST 507. Registration Restriction: Open only to Nurse Anesthesia majors. Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 510 Leadership and Professional Aspects of Nurse Anesthesia
Units: 3 Terms Offered: Fa Emphasis on the professional components of nurse anesthesia practice, including socialization, regulation, culture, ethics, law, employment, advocacy, and contemporary practice issues. Instruction Mode: Lecture Grading Option: Letter

ANST 511 Advanced Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Registration Restriction: Open only to Nurse Anesthesia majors. Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 512 Research Integration: Capstone Experience
Units: 2 Terms Offered: FaSpSm A capstone course that requires students to demonstrate ability to integrate theory, research, and practice through a mentored research experience with direct relevance to graduate specialization. Registration Restriction: Open only to Nurse Anesthesia majors. Instruction Mode: Lecture Grading Option: Letter

ANST 513 Advanced Clinical Residency in Nurse Anesthesia III
Units: 2 Terms Offered: FaSpSm Correlation of advanced techniques of anesthesia administration with application of scientific and pharmacologic theory in diverse specialty anesthesia rotations. Prerequisite: ANST 511. Registration Restriction: Open only to Nurse Anesthesia majors. Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 514 Specialty Fellowship
Units: 2 Terms Offered: Fa Optional internship to develop advanced skills and critical assessment of anesthesia specialty or clinical research. Prerequisite: ANST 513;

ANST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree in nurse anesthesia. Maximum units which may be applied to the degree to be determined by the department. Prerequisite: ANST 508. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 591 Special Projects
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Supervised learning in functional and/or clinical area of focus reflecting current trends and development in the field of nurse anesthesia. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 600 Gateway Tools
Units: 2 Emphasize strategies that build critical skills for the transition from clinician to doctoral level scholarship and clinical practice. Discussions used to develop self awareness, self regulation, internal motivation, empathy, social skills and role transition. Acceptance into the USC Program of Nurse Anesthesia. Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

ANST 601 Professional Integration to the Clinical Environment
Units: 2 Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical environment with observation and supervised clinical instruction. Registration Restriction: Open only to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Letter

ANST 602 Analytical Methods for Evidence-Based Practice
Units: 3 Evaluation of the appropriateness of statistical methods applied to answer research questions and impact of statistical choices on the clinical evidence-based medicine to nurse anesthesia practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 603 Anatomy and Advanced Health Assessment
Units: 4 Terms Offered: FaSpSm Lectures and laboratory simulation in anatomy emphasizing structure and function of major organs to include brain, cardiovascular, lungs, liver, kidneys and musculoskeletal systems. Acceptance into the USC Program of Nurse Anesthesia. Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Letter

ANST 604 Healthcare Policy for Advocacy in Health Care
Units: 3 Examining the health care system focusing on policy development, health care costs, quality and patient safety, access to care, disparities, and future trends. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 605 Clinical Prevention and Population Health
Units: 3 Focuses on positive/protective social and behavioral factors influencing well-being of individuals and populations. Public health promotion strategies, clinical prevention and lifestyle choices will be reviewed. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 607 Advanced Health Assessment
Units: 2 Terms Offered: Sm Advanced health assessment of all human systems utilizing advanced assessment techniques, concepts and approaches. Registration Restriction: Open only to Nurse Anesthesia students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 611 Leadership and Collaborative Practice
Units: 3 Emphasis on the professional components of nurse anesthesia practice including scope of practice, organizational leadership, accountability, ethics and collaborative practice. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 613 Clinician-Technology Interface
Units: 3 Exploring informatics, the integration of computer science, cognitive science, and informational science to manage and communicate data, information, knowledge and wisdom in healthcare delivery. Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 614 Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 501 and ANST 502 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 615 Clinical Residency in Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 614 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 616 Advanced Clinical Residency in Nurse Anesthesia I
Units: 2 Terms Offered: FaSpSm Correlating techniques of anesthesia administration with application of scientific and pharmacologic theory in the clinical setting with observation and supervised clinical residency. Prerequisite: ANST 614 and ANST 615 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 617 Advanced Clinical Residency in
Nurse Anesthesia II
Units: 2 Terms Offered: FaSpSm
Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 618 Advanced Clinical Residency in Nurse Anesthesia III
Units: 2 Terms Offered: FaSpSm
Correlation of techniques of anesthesia administration with application of scientific and pharmacologic theory expanded to neuroanesthesia, cardiac anesthesia, trauma anesthesia, critical care and pain management. Prerequisite: ANST 614 and ANST 615 and ANST 616 and ANST 617 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Lab Grading Option: Letter

ANST 620a Clinical Synthesis I
Units: 2 Terms Offered: FaSpSm
Correlation of topics integral to nurse anesthesia planning, management, and delivery. A continuation of ANST 620. Prerequisite: ANST 620a and ANST 620b Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 620b Clinical Synthesis II
Units: 2 Terms Offered: FaSpSm
Correlation of topics integral to nurse anesthesia planning, management, and delivery. A continuation of ANST 620. Prerequisite: ANST 620a and ANST 620b Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture, Discussion Grading Option: Letter

ANST 694a Doctoral Capstone Project
Units: 1 Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 694 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Credit/No Credit

ANST 694b Doctoral Capstone Project
Units: 1 Terms Offered: FaSpSm Mentored research on an individualized topic of interest leading to the professional doctorate. The project will culminate in a formal written research paper or presentation. Prerequisite: ANST 694 Registration Restriction: Open to Doctor of Nurse Anesthesia Practice students only Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 101g Spirit, Mind and Healing in Africa
Units: 4 Terms Offered: FaSpSm The body etc. Satisfies New General Education in Category A: The Arts, Category D: Life Sciences Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: In Progress to Letter

ANTH 105g Culture and Life
Units: 4 Terms Offered: Fa TEST Survey of the impact of public institutions, the private sector, and cultural practices on health and the delivery of health care in the United States. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Credit/ No Credit Crosslisted as OT 105

ANTH 125g Social Issues in Human Sexuality and Reproduction
Units: 4 Terms Offered: FaSp Examination of the "natural" (biological) and "unnatural" (social and cultural) dimensions of human sexuality and reproduction. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 140g Mesoamerican Cosmovision and Culture
Units: 4 Terms Offered: Sp An exploration of the nature and contributions of pre-Columbian high civilizations (Maya, Aztecs, etc.) and their descendants as they resist and assimilate to the modern world. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 200g The Human Animal
Units: 4 Max Units: 12.0 (Enroll in HBIO 200L) Instruction Mode: Lecture Grading Option: Letter

ANTH 201g Principles of Human Organization
Units: 4 Terms Offered: FaSpSm Major culture types, nomadic hunters and herders, peasant and tribal societies, sophisticated kingdoms; social, political, economic, and religious institutions. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 202g Archaeology: Our Human Past
Units: 4 Terms Offered: FaSp Archaeology as the means of investigating our shared human past, from the origins of humanity to the foundations of current civilization. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLAS 202, ARCG 202

ANTH 205g Introduction to Global Studies and Overseas Research
Units: 4 Terms Offered: Sp Cultural differences and social processes examined in global and regional networks. Issues are studied ethnographically, using materials from several disciplines. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 225g Gender, Sex, and Science: A Gender Studies Approach
Units: 4 (Enroll in SWMS 225)

ANTH 235g The Changing Pacific: History, Culture, Politics
Units: 4 Terms Offered: Fa Current social and political developments in the South Pacific analyzed from the perspective of the historical relationship between indigenous cultures and the West. Concurrent
COURSES OF INSTRUCTION

Enrollment: Concurrent enrollment: MDA 140. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

ANTH 240gm Representing 9/11 and Hurricane Katrina
Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 308) Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 240

ANTH 250g Race and Sexual Politics in Southeast Asia
Units: 4 Southeast Asia is studied as a meeting place of different races and cultural traditions, with emphasis on the precolonial heritage of sexual equality and postcolonial reinterpretations of men's and women's worlds. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 263g Exploring Culture through Film
Units: 4 Terms Offered: FaSpSm Concepts of social anthropology using filmic representations of societies throughout the world in contrast to written ethnography. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 273g Shamans, Spirits and Ancestors: Non-Western Religious Traditions
Units: 4 Terms Offered: Fa An intensive study of local systems of belief and knowledge in selected societies in the Pacific, Asia, Africa, the Caribbean and Latin America with emphasis on ideas of the spirit world. Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 300 Evolution, Ecology, and Culture
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm (Enroll in HBIO 300) Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 301 The Performance of Healing Units: 4 Survey of the performance of healing in cross-cultural perspective. The course culminates in field research to Spiritist centers outside the United States. Instruction Mode: Lecture Grading Option: Letter

ANTH 302 Humans and Ancient Environments
Units: 4 Terms Offered: FaSpSm Examine ways that humans have caused and adapted to environmental change in the past.

Recommended Preparation: ANTH 202 and GEOL 105Lg or GEOL 150Lg. Instruction Mode: Lecture Grading Option: Letter

ANTH 303 Exploring Ancient Ways of Living: Experimental Archaeology
Units: 4 (Enroll in REL 303) Instruction Mode: Lecture Grading Option: Letter

ANTH 304 Prehistoric Archaeology
Units: 4 Examination of the rise of human social complexity from the first Homo Sapiens through the development of agriculture, chiefdoms, states and empires. Recommended Preparation: HBIO 200Lg Instruction Mode: Lecture Grading Option: Letter

ANTH 305 Childhood, Birth and Reproduction
Units: 4 Terms Offered: Fa Cross-cultural analysis and comparison of the experience and cultural conception of birth, maternity, parenthood, and childhood in western and non-western societies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-305

ANTH 306 Primate Social Behavior and Ecology
Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 306) Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ARCG 307

ANTH 307 Trojan Archaeology: Excavating USC
Units: 4 Archaeological excavation on USC's campus features training in research design, digging, survey, mapping, archive use, artifact analysis, public communication, and confronting political and ethical challenges. Recommended Preparation: ANTH 202g Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ARCG 307

ANTH 308 Origins and Evolution of Human Behavior
Units: 4 (Enroll in HBIO 308) Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ARCG 305L

ANTH 309L Virtual and Digital Culture, Heritage and Archaeology
Units: 4 (Enroll in ARCG 305L) Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ARCG 310

ANTH 310 Archaeology of the Americas
Units: 4 Terms Offered: Irregular Pre-Columbian culture from early hunters to the Spanish conquest in major geographical areas of Mexico, Central America, Peru, or the United States. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ARCG 310

ANTH 311 Old World Archaeology
Units: 4 Terms Offered: Irregular Neolithic revolution and origins of civilization in major culture centers such as Mesopotamia, Egypt, India, or China. Instruction Mode: Lecture Grading Option: Letter

ANTH 314g The Nature of Maya Civilization
Units: 4 A seminar forum on Maya culture from the earliest form to present; problems of origins, classic florescence, systems collapse, conquests, persistence, and transformation today. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 315g North American Indians
Units: 4 Terms Offered: Fa North American Indian societies, their major cultural themes, ethological significance, and comparability with Western European cultural forms; lectures, visuals, and indigenous demonstrations. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 316gmp North American Indians in American Public Life
Units: 4 Terms Offered: Fa An introduction to the methodology of social anthropology, focusing on the culture of the indigenous people of North America. Instruction Mode: Lecture Grading Option: Letter

ANTH 317 Imaging Indians: From Warriors to Windtalkers
Units: 4 Terms Offered: Fa An historical and anthropological overview of 500 years of the presentation of differing and, often, contradictory perceptions of Native American life and character in popular and academic media. Instruction Mode: Lecture Grading Option: Letter

ANTH 318 Ethics and Global Heritage
Units: 4 (Enroll in REL 304) Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as SWMS-320

ANTH 320 Male and Female in Pacific Society
Units: 4 Terms Offered: Sp Cultural variations in gender systems and historical changes due to colonialism and development in Polynesia, Melanesia, Indonesia, and other Pacific Rim cultures. Instruction Mode: Lecture Grading Option: Letter

ANTH 322 Anthropology of Bali
Units: 4 Terms Offered: Sp An introduction to the methodology of social anthropology, focusing on the culture of the island of Bali. Instruction Mode: Lecture Grading Option: Letter

ANTH 323 Southeast Asian Cultures Today: Globalization and Multiple Modernities
Units: 4 The cultural and social diversity of Southeast Asia today, focusing on globalization, modernity, and change. Instruction Mode: Lecture Grading Option: Letter

ANTH 324 Regional Ethnology: China
Units: 4, 2 years Terms Offered: Sp Anthropological perspective of the ordinary citizens of the People's Republic of China: peasants, workers, bureaucrats, students, and women. Instruction Mode: Lecture Grading Option: Letter

ANTH 325 Global Studies Research Methods
Units: 4 Terms Offered: Fa Methods for field research in international settings include ethnography, archival work, surveying and documentation; preparation for overseas
research and senior thesis. Recommended Preparation: ANTH 205. Instruction Mode: Lecture Grading Option: Letter

ANTH 326 Ethnography of European Culture
Units: 4 Terms Offered: Irregular Europe as a geographic area in terms of its linguistic, ethnic, racial, and cultural diversity; particular focus on peasant society and the Little Tradition. Instruction Mode: Lecture Grading Option: Letter

ANTH 327 Anthropology of the Middle East and Islam
Units: 4 Terms Offered: Sp Explores written and visual ethnography for study of Middle East community, sociopolitical forms and religious life. Examines scriptural and living Islam and dynamics of contemporary Islamic revival. Instruction Mode: Lecture Grading Option: Letter

ANTH 328m Culture Change and the Mexican People
Units: 4 Terms Offered: Irregular Culture change, theory and methods (archaeology, community studies, participant-observation) used to examine the varied experiences of peoples in Mexico and the U.S. Southwest. Instruction Mode: Lecture Grading Option: Letter

ANTH 329 Archaeology and Global Cultural Heritage
Units: 4 Exploration of the role archaeology plays in the creation of modern national, ethnic, racial and other types of identities worldwide. Instruction Mode: Lecture Grading Option: Letter

ANTH 330m Culture, Gender and Politics in South Asia
Units: 4 Terms Offered: Fa Examination of violence, identity, law, religion, nationalism, development, caste, kinship, gender, and the South Asian diaspora. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 330

ANTH 332g Anthropology and Narrative Medicine
Units: 4 Terms Offered: Fa Exploration of illness, disability, and healing narratives, how narratives are culturally shaped, and their significance for western biomedical practices. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 333m Forms of Folklore
Units: 4 Terms Offered: Fa Introduction to folklore as a discipline, including folklore research methods and theory. Core course for the minor in Folklore and Popular Culture. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 335 Comparative Muslim Societies
Units: 4 Terms Offered: Irregular Examines issues of nationality, religion, and culture among Muslim peoples in the Middle East, Africa, East Asia, and the Soviet Union from an anthropological perspective. Instruction Mode: Lecture Grading Option: Letter

ANTH 336 Health, Gender and Ethnicity
Units: 4 Terms Offered: Sp Enroll in SWMS 336)

ANTH 337 Anthropology of Warfare
Units: 4 Examination of the origins of warfare, its evolution and the changes it brought to human civilization. Recommended Preparation: ANTH 202, ANTH 304. Instruction Mode: Lecture Grading Option: Letter

ANTH 338g Cultures of Food: The Anthropology of What We Eat and Why
Units: 4 Terms Offered: Sp An introduction to the field of food studies, as a historical and cross-disciplinary study of the place of food in culture and society. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 344 Living History: An Anthropological Inquiry into the Past as Ritual, Experience and Practice
Units: 4 Terms Offered: Sp Focuses on the use of practice, craft, ritual, and phenomenology in the production of historic narratives and knowledge. Using anthropology, social history, and practical archaeology, explores the complex relationship between vernacular traditions and formal or official histories. Instruction Mode: Lecture Grading Option: Letter

ANTH 345 Politics, Social Organization, and Law
Units: 4, 2 years Terms Offered: Sp Political and legal systems of primitive societies, social control, and structure. Instruction Mode: Lecture Grading Option: Letter

ANTH 355 Urban Anthropology
Units: 4 Terms Offered: Irregular Exploration of empirical and analytical approaches employed by anthropologists in studying urban phenomena cross-culturally; urban origins, structure, and social processes. Instruction Mode: Lecture Grading Option: Letter

ANTH 357g Cultures of Genocide
Units: 4 Terms Offered: FaSp The comparative analysis of genocide in different cultures and historical moments in order to understand the processes through which genocide has been perpetuated, as well as different cultural responses to it. Prerequisite: ANTH 100 Recommended Preparation: ANTH 200g. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ANTH 360 Symbolic Anthropology
Units: 4 Terms Offered: Fa The role of symbols in the evolution of culture; symbolic aspects of myth, ritual, and social life. Prerequisite: sophomore standing. Instruction Mode: Lecture Grading Option: Letter

ANTH 365 Life History in Anthropological Perspective
Units: 4 Terms Offered: Irregular Examination of one's life within its sociocultural context; study of family history, autobiography, diary, journal, and film; research and writing of a life history. Instruction Mode: Lecture Grading Option: Letter

ANTH 370 Sex, Love, and Marriage: An Introduction to Kinship
Units: 4 Terms Offered: Sp Comparative examination of family and kinship in tribal, peasant, and complex societies, emphasizing non-Western cultures, societal and normative consequences of forms and functions in family. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 370

ANTH 371gm Cross-Cultural Research on Urban Gangs
Units: 4 Terms Offered: FaSpSm Youth gang dynamics and their effects on institutions. Comparative analysis of Asian, African, and Mexican American gangs. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

ANTH 372 Interpretation of Myth and Narrative
Units: 4 Terms Offered: Fa Oral narratives from non-Western cultures, communications about deeply-held beliefs, psychological tensions, social problems, and the structure of the mind. Instruction Mode: Lecture Grading Option: Letter

ANTH 373 Magic, Witchcraft and Healing
Units: 4 Analysis of the practices of witches and witch doctors, priests, diviners and traditional healers in Western and non-Western societies, relating their practices to religion and medicine. Instruction Mode: Lecture Grading Option: Letter

ANTH 375 Human-Centered Research Practicum
Units: 4 Terms Offered: FaSpSm Practical training in qualitative research methods for design consulting and real-world problem solving in development, government, and corporate contexts. Socially-engaged ethnography; anthropology as cultural critique. Recommended Preparation: Previous course work in Anthropology Instruction Mode: Lecture Grading Option: Letter

ANTH 376 Scientific Analysis in Archaeology
Units: 4 Examination of the range of scientific techniques and technologies used for the analysis and interpretation of material culture recovered during archaeological excavations. Recommended Preparation: ANTH 202g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 376

ANTH 377g Archaeological Interpretation of Complex Societies
Units: 4 Archaeologists translate raw data sets into broader understanding through interpretation. Students engage specific examples and develop their own perspectives on past societies. (Block semester) Recommended Preparation: ANTH 202g Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 377

ANTH 380 Sex and Gender in Anthropological Perspective
Units: 4 Cultural construction of gender in a number of non-Western societies is compared
to ideas of sex and sexual differences in American society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-380

**ANTH 385m Men and Masculinity**
Units: 4 (Enroll in SWMS 385m)

**ANTH 390 Special Problems**
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**ANTH 393 Directed Internship**
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Real-world work experience in an internship position, while also learning to apply anthropological theory and research methods to complete a related research project. Enrollment requires permission from department. Recommended Preparation: ANTH 200 or 300-level course with a grade of B or higher Registration Restriction: Only open to juniors, seniors, and graduate anthropology and related majors Instruction Mode: Lecture Grading Option: Letter

**ANTH 395m African American Humor and Culture**
Units: 4 (Enroll in AMST 395m)

**ANTH 400 Maya Resilience: Constructing Past and Present Identities**
Units: 4 Terms Offered: Sm Examination of how the Maya, past and present, have forged their cultural identity. Issues are explored through visits to sites and communities. Recommended Preparation: ANTH 202g, ANTH 310, ANTH 314g or another anthropologically based archaeology course Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 400

**ANTH 405 Evolutionary Medicine**
Units: 4 Terms Offered: Fa (Enroll in HBIO 405)

**ANTH 406 Theory and Method in Human Evolutionary Biology**
Units: 4 Terms Offered: FaSpSm (Enroll in HBIO 406)

**ANTH 407 Peasant Society**
Units: 4 Terms Offered: Sp Comparative study of the social, economic, political, and religious characteristics of peasant societies as they have existed and continue to exist in Asia, Africa, and Latin America. Instruction Mode: Lecture Grading Option: Letter

**ANTH 409 Indigenous Languages in the Contemporary World**
Units: 4 Terms Offered: Sm Examination of indigenous languages in Northern Ireland, with a focus on the sociopolitical dimension of revitalization movement. Instruction Mode: Lecture Grading Option: Letter

**ANTH 410a Ethnographic Field Methods and Practicum**
Units: 4 Terms Offered: FaSp Survey of anthropological methods for acquiring and analyzing data. Ethnographic research methods and modes of analysis; development of a field research project. Prerequisite: ANTH 201. Instruction Mode: Lecture Grading Option: Letter

**ANTH 410b Ethnographic Field Methods**
Units: 2 or 4 Terms Offered: Irregular Application of broad cast journalism, cinema, and anthropology to ethnographic film making. Instruction Mode: Lecture Grading Option: Letter

**ANTH 472 Visual Techniques in Anthropology: Styles**
Units: 4 Terms Offered: Fa Visual techniques for data collection and analysis in anthropological research. Visual anthropology research using 35 mm. photography skills, fieldwork procedures, data analysis, and presentation formats. Instruction Mode: Lecture Grading Option: Letter

**ANTH 474 Posthuman Anthropology**
Units: 4 Terms Offered: Sp Examinations how posthumanism is reshaping our understanding of humankind, including the ways in which "vernacular posthumanisms" are increasingly enacted in our everyday lives. Recommended Preparation: Introductory courses in Anthropology and/or Philosophy Registration Restriction: Not open to freshmen Instruction Mode: Lecture Grading Option: Letter

**ANTH 475 Ethnographic Film Analysis**
Units: 4 Terms Offered: Irregular Analysis of film as a tool for investigating primitive and modern cultures and societies. Instruction Mode: Lecture Grading Option: Letter

**ANTH 476 Ethnographic Film Theory from an Historical Perspective**
Units: 4 Technologies and uses of, theoretical frameworks for, and the presentation styles of ethnographic materials are examined from an historical perspective. Instruction Mode: Lecture Grading Option: Letter

**ANTH 481L GIS for Investigating the Past**
Units: 4 Training of archaeology students in the use of GIS through the understanding of basic principles and theoretical restrictions of geospatial sciences. Recommended Preparation: ANTH 202g, SSCI 382L Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCG 481

**ANTH 490x Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

**ANTH 491 Directed Research for Honors**
Units: 4 Terms Offered: Irregular Individually guided research and readings culminating in the production of an honors thesis. Prerequisite: 3.0 GPA; ANTH 201 plus 8 units of upper-division anthropology courses. Instruction Mode: Lecture Grading Option: Letter

**ANTH 499 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Current literature: social change, comparative institutions, urbanization, ideology. Instruction Mode: Lecture Grading Option: Letter

**ANTH 501 History and Foundations of Anthropology**
Units: 4 Terms Offered: Fa An historical survey of the development of theory and methods in social anthropology. Instruction Mode: Lecture Grading Option: Letter
ANTH 502 Contemporary Theory in Anthropology
Units: 4 Terms Offered: Sp Continuation of ANTH 501, focusing on current models, methods, and issues in social anthropology. Instruction Mode: Lecture Grading Option: Letter

ANTH 503 Regional Ethnography
Units: 4 Terms Offered: Sp An intensive analysis of the anthropology of a major culture area. Instruction Mode: Lecture Grading Option: Letter

ANTH 506 Primate Behavior and Sociobiology
Units: 4 Terms Offered: Fa Introduction to the behavior, ecology and socio-biology of living primates. Takes a Darwinian approach to behaviors such as parenting, mating, diet and feeding, competition, and demography. Instruction Mode: Lecture Grading Option: Letter

ANTH 509 Key Topics in Linguistic Anthropology
Units: 4 Terms Offered: Fa/Sp Introduction to key topics in linguistic anthropology with special focus on interrelations between language, identity, culture, gender, and power in the U.S. and beyond. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMSF-509

ANTH 510 Urban Anthropology
Units: 4 Terms Offered: Fa Intensive ethnographic analysis of specialized urban niches, microsettings, ethnicity, community studies. Instruction Mode: Lecture Grading Option: Letter

ANTH 554 Women in Global Perspective
Units: 4 (Enroll in SWMS 554)

ANTH 562 The Practice of Ethnography
Units: 4 Terms Offered: Sp Major approaches to ethnographic fieldwork are explored in classic cases. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMSF-562

ANTH 575 Seminar in Ethnographic Film
Units: 4 Terms Offered: Fa/Sp/Sm A survey of ethnographic film using both the dimensions of natural history descriptions and process, contrasted with naturalism and structuralism as tools of controlled comparison and analysis. Instruction Mode: Lecture Grading Option: Letter

ANTH 576L Anthropological Media Seminar
Units: 4 Max Units: 8.0 A hands-on laboratory-based survey of preproduction techniques in video and audio production, including exercises to prepare students to shoot their own documentaries. Recommended Preparation: visual anthropology background. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ANTH 577L Advanced Anthropological Media Seminar
Units: 4 Max Units: 8.0 A hands-on laboratory-based survey of post-production technologies, including editing both new and older footage. Students should be finishing their own documentaries. Prerequisite: ANTH 576. Instruction Mode: Lecture, Lab

ANTH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: Fa/Sp/Sm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa/Sp (Enroll in MDA 593) Grading Option: Graded CR/NC.

ANTH 594a Master's Thesis
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 594b Master's Thesis
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 594z Master's Thesis
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Fa/Sp/Sm Instruction Mode: Lecture Grading Option: Letter

ANTH 601 Feminist Issues in Anthropology
Units: 4 Terms Offered: Fa/Sp/Sm Feminist concerns in both Western and Non-Western societies are examined in relation to globalization; the practice of ethnography and issues of power. Instruction Mode: Lecture Grading Option: Letter

ANTH 602 The Anthropology of Popular Culture
Units: 4 Terms Offered: Fa/Sp/Sm The relationship between anthropology and popular culture is explored through a critical examination of the category "popular culture." Instruction Mode: Lecture Grading Option: Letter Crosslisted as LBST-502

ANTH 603 Experiments in Ethnographic Writing
Units: 4 Terms Offered: Fa/Sp/Sm The problems of representation involved in rendering experience into narrative are examined in a number of contemporary"experiments." Instruction Mode: Lecture Grading Option: Letter

ANTH 604 Bodies and Practices
Units: 4 Terms Offered: Fa/Sp/Sm The cultural construction of body image, embodied practice, race, sexuality and healing. Instruction Mode: Lecture Grading Option: Letter

ANTH 605 Race: Performance, Politics, Cultural Production
Units: 4 Terms Offered: Fa/Sp/Sm Focuses on the performance and social construction of race and its intersection with gender, sexuality, class, place, nation and empire. Instruction Mode: Lecture Grading Option: Letter

ANTH 606 Seminar on Nationalism and Ethnicity
Units: 4 Cross-cultural analysis of nationalism and ethnicity from an ethnographic perspective. Instruction Mode: Lecture Grading Option: Letter

ANTH 650 Seminar in Ethnography and Interpretation
Units: 4 A seminar where issues in contemporary ethnography and interpretation are discussed, grouped around a theme of current concern, such as power and resistance, colonialism, Marxism, feminism, etc. Prerequisite: ANTH 501. Instruction Mode: Lecture Grading Option: Letter

ANTH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: Fa/Sp/Sm Research leading to the doctorate. Minimum 8 units, maximum number of units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ANTH 794a Doctoral Dissertation
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794b Doctoral Dissertation
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794d Doctoral Dissertation
Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ANTH 794e Doctoral Dissertation
Units: 0 Terms Offered: Fa/Sp/Sm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Arabic

ARAB 122 Arabic I
Units: 4 Terms Offered: Fa/Sp Sm Introduction to Modern Standard Arabic: Development of speaking, listening, reading, and writing skills in contemporary cultural contexts. Duplicates Credit in former MDES 122. Instruction Mode: Lecture Grading Option: Letter

ARAB 152 Arabic II
Units: 4 Terms Offered: Fa/Sp Continuation of Arabic I. Prerequisite: ARAB 122. Duplicates Credit in former MDES 152. Instruction Mode: Lecture Grading Option: Letter

ARAB 222 Arabic III
Units: 4 Terms Offered: Fa/Sp Intermediate Modern Standard Arabic. Continued development of speaking, listening, reading, and writing skills. Prerequisite: ARAB 152. Duplicates Credit in former MDES 222.
ARCH 102a Architectural Design I
Units: 4 Terms Offered: FaSpSm
Introduction to principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the design of simplified architectural projects. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 102bL Architectural Design I
Units: 4 Terms Offered: FaSpSm
Introduction to principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the design of simplified architectural projects. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 105L Fundamentals of Design Communication
Units: 2 Terms Offered: Fa
Introduction to the ways architecture is created and understood, for minors and non-majors. Hands-on discussion and laboratory session with some drawing and model building. Instruction Mode: Lecture Grading Option: Letter

ARCH 114 Architecture: Culture and Community
Units: 2 Terms Offered: Fa
Introduction to the ways architecture represents aspirations of culture, satisfies practical and spiritual needs, shapes the social and urban environment, and helps preserve the planet. Instruction Mode: Lecture Grading Option: Letter

ARCH 202aL Architectural Design II
Units: 6 Terms Offered: FaSpSmContinuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 102bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 202bL Architectural Design II
Units: 6 Terms Offered: FaSpSmContinuing development of principles and processes; sequence of projects selected to broaden awareness of design issues at various scales in the urban context. Prerequisite: ARCH 102bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 203 Visualizing and Experiencing the Built Environment
Units: 4 Methods for direct observation and
recording of the directly experienced built environment through drawing, diagramming, photographing, and writing. Course includes exercises and field experience. Instruction Mode: Lecture Grading Option: Letter

ARCH 205aL. Building Science I
Units: 4 Terms Offered: FaSp The process and communication of building design: physical building shell, systems for structure, enclosure, and space ordering. Prerequisite: CE 106L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 205bL. Building Science I
Units: 4 Terms Offered: FaSp The process and communication of building design: physical building shell, systems for structure, enclosure, and space ordering. Prerequisite: CE 106. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 207 Computer Applications in Architecture
Units: 2 Terms Offered: Fa An introduction for the non-programmer to the uses of the computer in architecture, including the application of existing programs and their implications for design. Overview and use of software types. Instruction Mode: Lecture Grading Option: Letter

ARCH 211 Materials and Methods of Building Construction
Units: 3 Terms Offered: Sp Basic considerations and design implications of the problem of determination of the materials and construction details and processes for buildings. Instruction Mode: Lecture Grading Option: Letter

ARCH 213a Building Structures and Seismic Design
Units: 3 Terms Offered: FaSp Investigation and design of elements and systems for building structures; applied mechanics, strength of materials, structural investigation as a design tool. Recommended Preparation: PHYS 125 and MATH 108g. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

ARCH 213b Building Structures and Seismic Design
Units: 3 Terms Offered: FaSp Investigation and design of structure systems: their resistance to seismic and wind forces and integration with architectural design for synergy of form and structure. Recommended Preparation: PHYS 125 and MATH 108g. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 214ag World History of Architecture
Units: 3 Terms Offered: Sp A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, 1500 BCE to present. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

ARCH 214bg World History of Architecture
Units: 4 Terms Offered: Fa A world-wide perspective of architectural history as a product of social, cultural, religious, and political dimensions, 1500 CE to present. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

ARCH 215 Design for the Thermal and Atmospheric Environment
Units: 3 Terms Offered: Fa Ideas, problems, and computations related to the design of buildings in response to the thermal and atmospheric environment; passive solar systems, mechanical control systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 220 The Architect's Sketchbook
Units: 2 Terms Offered: FaSp The architect's sketchbook as a portable laboratory for perceiving and documenting space introduces the study of the built environment. On-site sessions develop drawing, observation, and visualization skills. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 302aL. Architectural Design III
Units: 6 Terms Offered: FaSp Special integrative year including design issues relating to housing. Prerequisite: ARCH 202bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 302bL. Architectural Design III
Units: 6 Terms Offered: FaSp Special integrative year including design issues relating to housing. Prerequisite: ARCH 202bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 303 Principles of Spatial Design I
Units: 4 Introduction to design principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the creation of simplified urban space design projects. Prerequisite: ARCH 203. Instruction Mode: Lecture Grading Option: Letter

ARCH 304a Intensive Survey: Prehistory to the Present
Units: 4 Terms Offered: Fa An intensive historical overview of architecture from prehistory to the present, emphasizing interrelationships of various global cultures and how social considerations were translated into form. Instruction Mode: Lecture Grading Option: Letter

ARCH 305aL. Building Science II
Units: 4 Terms Offered: FaSp The design of a building as a complex of interacting systems; relations of subsystems; influences of production and marketing on design. Prerequisite: ARCH 205aL, ARCH 205bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 305bL. Building Science II
Units: 4 Terms Offered: FaSp The design of a building as a complex of interacting systems; relations of subsystems; influences of production and marketing on design. Prerequisite: ARCH 205aL, ARCH 205bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 306m Shelter
Units: 4 Terms Offered: Sp Investigation of issues, processes, and roles of individuals, groups and communities in relation to present and future shelter needs and aspirations. Instruction Mode: Lecture Grading Option: Letter

ARCH 307 Digital Tools for Architecture
Units: 3 Exploration of digital tools with an emphasis on building information modeling (BIM), parametric modeling, and interoperability including special topics in Architecture/Engineering/Construction (AEC) and sustainable design. Recommended Preparation: basic computer skills. Instruction Mode: Lecture Grading Option: Letter

ARCH 313 Design of Building Structures
Units: 3 Terms Offered: Fa Problems and processes of design of building structures; structural investigation for design; codes and standards; design of elements and systems of wood, steel, masonry, and concrete for gravity and lateral loads. Prerequisite: ARCH 213a. Instruction Mode: Lecture Grading Option: Letter

ARCH 314 History of Architecture: Contemporary Issues
Units: 3 Terms Offered: Fa Examination of the buildings, issues and images, the polemics and personalities that are animating current architectural discourse and practice. Prerequisite: ARCH 214bg. Instruction Mode: Lecture Grading Option: Letter

ARCH 315 Design for the Luminous and Sonic Environment
Units: 3 Terms Offered: Sp Ideas, problems, and computations related to the design of buildings in response to the luminous and sonic environment. Instruction Mode: Lecture Grading Option: Letter

ARCH 316 Place and Culture
Units: 3 Terms Offered: FaSpSn (Study abroad programs only) Study of the relationships between places and culture through readings, lectures, discussion and weekly field trips. Instruction Mode: Lecture Grading Option: Letter

ARCH 326 The Modern Movement in Architecture
Units: 4 Terms Offered: Sp Major theories of modern architecture are presented by studying the work of masters such as Gropius, Mies van der Rohe, Corbusier, and Kahn. Instruction Mode: Lecture Grading Option: Letter

ARCH 341 History of Italian Architecture 1400–1990
Units: 4 Terms Offered: Sp Introduction to the important buildings, architects and architectural movements in Italy from the Renaissance to the present. Instruction Mode: Lecture Grading Option: Letter

ARCH 370 Architectural Studies — Expanding the Field
Units: 2 Survey of opportunities, specializations, and professions related to architecture provides a resource for professional growth for architecture majors, and introduction to the field for non-majors. Instruction Mode: Lecture Grading Option: Letter

ARCH 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more
than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ARCH 402AL Architectural Design IV
Units: 6 Terms Offered: FaSpSm Selected areas of specialization; three projects chosen with advisement from a variety of studio offerings that concentrate on different areas of vital concern. Prerequisite: ARCH 302AL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 402BL Architectural Design IV
Units: 6 Terms Offered: FaSpSm Selected areas of specialization; three projects chosen with advisement from a variety of studio offerings that concentrate on different areas of vital concern. Prerequisite: ARCH 302BL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 403 Principles of Spatial Design II
Units: 4 Emphasis on developing advanced urban spatial design solutions set within contemporary urban conditions, with a particular emphasis on ecology, public space, neighborhoods and districts. Prerequisite: ARCH 303. Instruction Mode: Lecture Grading Option: Letter

ARCH 404 Topics in Modern Architecture in Southern California
Units: 3 Terms Offered: Sp Investigation of modern architecture in southern California within its cultural and historic contexts. Instruction Mode: Lecture Grading Option: Letter

ARCH 405AL Building Science III
Units: 4 Terms Offered: FaSp Design of building systems as an experimental process. Prerequisite: ARCH 305AL, ARCH 305BL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 405BL Building Science III
Units: 4 Terms Offered: FaSp Design of building systems as an experimental process. Prerequisite: ARCH 305AL, ARCH 305BL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 406 Global Studies: Topics in Architecture, Urbanism, History and Art
Units: 2 Max Units: 6.0 Offered for particular geographic areas of study. Required prerequisite for all full semester undergraduate global programs. Also intended for general interest in focused study on particular geographic area. Prerequisite: ARCH 214ag, ARCH 214bg or ARCH 304. Instruction Mode: Lecture Grading Option: Letter

ARCH 407 Advanced Computer Applications
Units: 4 Terms Offered: Sp Investigation of computer graphic applications, emphasizing the role of computers in helping designers create and communicate using color (rendering), form (modeling), and time (animation) and the implications of future technological advancements. Prerequisite: ARCH 207. Instruction Mode: Lecture Grading Option: Letter

ARCH 409L Design Foundation
Units: 2 Terms Offered: Fa Introduction to basic architectural design principles for problem solving scenarios; foundational architectural design course for systematic thinking. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 410 Computer Transformations
Units: 2 Terms Offered: FaSpSm To explore the potential of computer-integrated design software; to develop techniques for critical analysis of architectural precedents; to expand the ability to visualize options; to expand perception; and to learn the basics of computer-integrated design. Instruction Mode: Lecture Grading Option: Letter

ARCH 411 Architectural Technology
Units: 3 Terms Offered: Sp Architectural design considered as a technological problem; influence of technology on design; buildings as integrated sets of subsystems. Prerequisite: ARCH 313. Instruction Mode: Lecture Grading Option: Letter

ARCH 412L GeoDesign Practicum
Units: 4 Terms Offered: FaSp (Enroll in SSC 412L)

ARCH 414 Perspectives in History and Theory in Architecture
Units: 2 Max Units: 6.0 Perspectives in Architecture and Urbanism is an advanced course that allows students to delve deeply into one aspect of world history, theory and/or contemporary issues to develop more focused and critical understanding of that discourse. Prerequisite: ARCH 214ag, ARCH 214bg or ARCH 304. Instruction Mode: Lecture Grading Option: Letter

ARCH 417 Computer Programming in Architecture
Units: 3 Terms Offered: Fa Principles underlying computer programming, emphasizing algorithms, procedures, and program structures applicable to architecture. Instruction Mode: Lecture Grading Option: Letter

ARCH 418 Designing with Natural Forces
Units: 3 Terms Offered: Fa Investigation of natural force effects and their relationships to architecture; laboratory work includes drawing, photography, model building and tests on models. Instruction Mode: Lecture Grading Option: Letter

ARCH 419 Architectural Sustainability Tools and Methods
Units: 3 Terms Offered: Sp Lectures, comparative studies and exercises on international architectural sustainability rating and certification systems. Instruction Mode: Lecture Grading Option: Letter

ARCH 420 Visual Communication and Graphic Expression
Units: 3 Terms Offered: Fa An exploratory study of fundamental and innovative visual communication principles and graphic expression techniques to facilitate the design enquiry process for architects. Registration Restriction: Not open to Freshman and Sophomore students. Instruction Mode: Lecture, Lab Grading Option: Letter

ARCH 421 Digital Architectural Photography
Units: 2 Terms Offered: FaSp Perceiving and documenting the built environment through the perspective and frame of the digital camera. Mastering the basic principles of the digital image through an understanding of frame, light, exposure, color correction, and printing output. Instruction Mode: Lecture Grading Option: Letter

ARCH 422L Architectural Photography — Film and Digital
Units: 3 Terms Offered: FaSp See how light alters the visual impact of architectural forms; master high-resolution images both with film and digital; become a professional image developer/processor utilizing photographic software. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 423 Light, Color and the Character of Material
Units: 2 Terms Offered: Sp Color theory, constructed drawings, constructed shadows, descriptive geometry, constructed perspective drawing, and layered wash techniques lead to experimentation with methods representing materiality and construction in design projects. Registration Restriction: Not open to Freshman and Sophomore students Instruction Mode: Lecture Grading Option: Letter

ARCH 424L Field Studies in Architecture
Units: 2 Terms Offered: FaSpSm (Study abroad programs only) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in architecture. Prerequisite: Department approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 425L Field Studies in Urbanism
Units: 2 Terms Offered: FaSpSm (Study abroad programs only) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in urbanism. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 426L Field Studies in Tectonics
Units: 2 Terms Offered: FaSpSm (Study abroad programs only) Field studies using direct observation, site recordings/ documentation, analysis and evaluation supplemented by discussions and readings in tectonics. Prerequisite: Departmental approval. Recommended Preparation: core curriculum. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 439 Design Teaching Methods
Units: 2 The teaching of architectural design is introduced through readings, seminar discussions, and the observation of teaching in action. In addition to a one hour per week seminar, each student will participate in a design practicum. Prerequisite: ARCH 302L. Instruction Mode: Lecture Grading Option: Letter

ARCH 432 People, Places and Culture: Architecture of the Public Realm
Units: 4 Terms Offered: Sp Critical observation of the architecture of public buildings and places and the importance of
design in promoting a better contemporary public life. Instruction Mode: Lecture
Gradning Option: Letter
ARCH 439 Landscape Architecture Media Workshop
Units: 1 Terms Offered: Fa Introductory media workshop for new landscape architecture students in the 3-year graduate program. Topics include: hand drawing, measuring, architectural drawings, computer software tutorials, and field trips. Registration Restriction: Open only to master students in Landscape Architecture Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 440m Literature and the Urban Experience
Units: 4 Terms Offered: Sp Post-industrial revolution urban environments and dynamic relationships in cities such as Manchester, Paris, St. Petersburg, New York, and Los Angeles, as revealed in novels, architecture, and urban forms. Instruction Mode: Lecture Grading Option: Letter
ARCH 442m Women's Spaces in History: "Hussies," "Harems" and "Housewives"
Units: 4 Terms Offered: Fa Methods for studying patterns of spatial differentiation of women throughout history from home to city embodied in gender specific language and gendered spaces. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-442
ARCH 444 Great Houses of Los Angeles
Units: 4 Terms Offered: FaSp An introduction to the architectural philosophies of seven influential California architects through readings and site visits to significant case studies. Duplicates Credit in former ARCH 322. Instruction Mode: Lecture Grading Option: Letter
ARCH 447 Ecological Factors in Design
Units: 3 Lectures, laboratory exercises and field trips introduce basic knowledge of incorporating ecological factors in urban design and interaction of landscape science with the human environment. Duplicates Credit in former ARCH 361 Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 454 Contemporary Asian Architecture
Units: 4 Terms Offered: Fa Exploration of various "Asian" architectures, comparisons of areas, identifying current trends and impact of Asia on Southern California and Los Angeles. Instruction Mode: Lecture Grading Option: Letter
ARCH 465 The Landscape Imaginary
Units: 4 A cross-cultural introduction to ideas about and attitudes toward nature, landscape and the environment. Instruction Mode: Lecture Grading Option: Letter
ARCH 470a Architectural Studies Capstone
Units: 1 Introduction to methods of inquiry, research framework, and scholarly writing necessary to develop a comprehensive foundation for the Architectural Studies Capstone (ARCH 470b). Registration Restriction: Open only to seniors in Architectural Studies Duplicates Credit in former ARCH 470 Instruction Mode: Lecture Grading Option: Letter
ARCH 470b Architectural Studies Capstone
Units: 3 Collaborative research project and research paper in an area of concentration. Prerequisite: ARCH 470a Registration. Restriction: Open only to seniors in Architectural Studies Duplicates Credit in former ARCH 470 Instruction Mode: Lecture Grading Option: Letter
ARCH 481 Furniture Design
Units: 3 Terms Offered: FaSp An investigation into 20th century furniture design and its relationships to architecture, art and design. Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter
ARCH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in various specialty areas of architecture. Instruction Mode: Lecture Grading Option: Letter
ARCH 500a Comprehensive Architectural Design
Units: 6 Terms Offered: Fa Selected areas of specialization; projects chosen from a variety of studio offerings, all with an emphasis on the comprehensive design of buildings. Prerequisite: ARCH 402a and ARCH 402b Corequisite: ARCH 501. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 500aL Comprehensive Architectural Design
Units: 6 Terms Offered: Fa Selected areas of specialization; projects chosen from a variety of studio offerings, all with an emphasis on the comprehensive design of buildings. Prerequisite: ARCH 402aL and Corequisite: ARCH 501. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 505aL Comprehensive Architectural Design
Units: 0 Terms Offered: Fa Selected areas of specialization; projects chosen from a variety of studio offerings, all with an emphasis on the comprehensive design of buildings. Prerequisite: ARCH 402aL Corequisite: ARCH 501. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade
ARCH 501 Critical Topics in Architecture
Units: 2 Terms Offered: Fa Seminar supporting the research, development, and writing of Degree Project Paper provides a comprehensive base of information for the final Bachelor of Architecture studio. Prerequisite: ARCH 402L Instruction Mode: Lecture Grading Option: Letter
ARCH 502aL Architectural Design V
Units: 6 Terms Offered: Sp The final architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Prerequisite: ARCH 500aL and ARCH 501 Registration Restriction: Open only to Architecture seniors Instruction Mode: Lecture, Lab Required Grading Option: In Progress and Letter
ARCH 502zL Architectural Design V
Units: 0 Terms Offered: Sp The final comprehensive architectural project under the guidance of a faculty adviser to demonstrate architectural knowledge, skills, and professional interests and goals. Instruction Mode: Lecture, Lab Required Grading Option: In-progress & Letter Grade
ARCH 505aL Graduate Architecture Design I
Units: 6 Terms Offered: FaSp A general introduction to architectural principles, intended to develop design and critical thinking skills and proficiency to communicate those ideas effectively. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 505bL Graduate Architecture Design II
Units: 6 Terms Offered: FaSp A general introduction to architectural principles, intended to develop design and critical thinking skills and proficiency to communicate those ideas effectively. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 507x Computer Technology
Units: 3 Terms Offered: FaSp Fundamental theories and meanings of computation as a technique in architectural design. Instruction Mode: Lecture Grading Option: Letter
ARCH 510 Independent Degree Project Preparation
Units: 1 Terms Offered: Fa Research and analysis, including written and graphic components, that tests a question/proposition in detail in preparation for Independent Degree Project Document. Corequisite: ARCH 501. Instruction Mode: Lecture Grading Option: Letter
ARCH 511L Building Systems: Materials and Construction
Units: 4 Terms Offered: Fa Studies of construction system development within the architectural design context; processes and issues of selection, evaluation, optimization, integration, design control, and innovation. Prerequisite: Departmental approval. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 512 Material + Process: Material Systems
Units: 2 Confronts the conventional concepts behind modern building science and material applications, reapplying the processes of fabrication and methods of construction to investigate materiality. Prerequisite: ARCH 211 or ARCH 511L Instruction Mode: Lecture Grading Option: Letter
ARCH 513L Seminar: Advanced Structures
Units: 4 Terms Offered: Fa Issues and problems in the development of structural systems for buildings; design criteria, system choice, design development, optimization, subsystem integration. Instruction Mode: Lab Required Grading Option: Letter
ARCH 514a Global History of Architecture
Units: 3 Terms Offered: FaSp A historical survey of global architecture, analyzed as a product of social, cultural, religious and political forces. 4500 BCE to 1500 CE. Instruction Mode: Lecture Grading Option: Letter
ARCH 514b Global History of Architecture
ARCH 515L Seminar: Advanced Environmental Systems
Units: 4 Terms Offered: Fa A compressed course in design criteria and calculation methods for mechanical and passive solar systems (loads, plant system, duct, and storage sizing) and lighting and acoustics (CIE and IES methods, dBA and NC systems). Instruction Mode: Lab Required Grading Option: Letter

ARCH 517 Current Topics in Building Science
Units: 1 Max Units: 6.0 Critical studies in building science ranging from sustainability, lighting, acoustics, materials and methods, structures, energy issues, digital media, and fabrication. Students focus on minimum of two topics. Instruction Mode: Lecture Grading Option: Letter

ARCH 518 Advanced Surface Tectonics: Methods in Material and Enclosure
Units: 2 Terms Offered: Fa Studies in contemporary building systems through analysis, research, and computational methods leading to the design of a prototypical building surface. Recommended Preparation: A prior knowledge of fundamental building systems and 3D modeling. Instruction Mode: Lecture Grading Option: Letter

ARCH 519 Sustainability in the Environment: Infrastructures, Urban Landscapes, and Buildings
Units: 3 Terms Offered: Fa Methodologies and exercises on contextual design and environmentally sound technologies (EST’s) applications for the sustainability of urban infrastructures, operative landscapes, and building integration in the urban system. Instruction Mode: Lecture Grading Option: Letter

ARCH 520 Housing and Community Design for an Aging Population
Units: 2 Exploration of the role design plays in enhancing independence and well-being for older people by examining cross-cultural models of housing and community design. Instruction Mode: Lecture Grading Option: Letter

ARCH 521 Health and the Designed Environment: Landscape, Place, and Architecture
Units: 4 Case study-oriented course presenting critical relationships between human health and well-being and architectural and landscape architectural design at three scales: buildings, public space, and the urban landscape. Instruction Mode: Lecture Grading Option: Letter

ARCH 523aL Structural Design and Analysis
Units: 3 Terms Offered: FaSp Introduction to behavior and analysis of building structures. Structural loading, materials, and element types will be explored to understand the basic building blocks of buildings. Recommended Preparation: One-semester college-level course in physics or calculus. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 523bL Structural Design and Analysis
Units: 3 Terms Offered: FaSp Investigation and design of building structural systems for gravity, wind and seismic loading. Comprehensive design exploration of framing type, materials, detailing, layout, form and integration. Recommended Preparation: One-semester college-level course in physics or calculus. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 524 Professional Practicum
Units: 1 Max Units: 2.0 Terms Offered: FaSp Comparative studies of professional practice between U.S. firms and firms in other countries. Registration Restriction: Open to international upper-division undergraduate and graduate architecture students only Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 525 Professional Practice: Pre-Design, Project and Office Administration
Units: 3 Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect’s responsibilities during construction. Instruction Mode: Lecture Grading Option: Letter

ARCH 526 Professional Practice: Legal and Economic Context, Project Documentation
Units: 3 Terms Offered: Sp Design methodology, typology programming, site analysis, budget formulation and pro-forma procedures. Office management, emphasizing professional service and professional ethics as well as project management focusing on the architect’s responsibilities during construction. Prerequisite: ARCH 500a or ARCH 605b. Instruction Mode: Lecture Grading Option: Letter

ARCH 527 Case Studies: The Development of Urban Housing
Units: 2 Terms Offered: Fa An exploration of the various elements and stages of the housing development process. Recommended Preparation: a preliminary understanding of real estate or housing. Instruction Mode: Lecture Grading Option: Letter

ARCH 528 Urban Housing: Types and Typologies
Units: 2 Terms Offered: Fa Applications and precedents for the architect interested in designing multi-family housing. Review of the sources of modern housing types, the impact of building codes and technology on the form and construction of housing, and study of housing densities; comparative analysis of multi-family residential patterns. Major emphasis on critical knowledge of historic housing typologies as they are applied to site conditions and groupings, building form, section, organization, and the design of individual dwellings. Recommended Preparation: two years of undergraduate architectural studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 529 Urban Housing: Programs, Precedents, and Recent Case Studies
Units: 2 Terms Offered: Sp Historical overview of the major domestic and international housing developments and innovations since the early 20th century. Case study format examining a wide range of issues that determine the form of urban housing in various cultures. Major emphasis on the detail analysis of social, technical, and design factors affecting recent housing developments. Recommended Preparation: two years of undergraduate architectural studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 530 Landscape Architecture Practice
Units: 3 Terms Offered: FaSp Introduction to the principles and ethics, scope and activities, and types of organization for landscape architecture practice. Duplicates Credit in former ARCH 630. Instruction Mode: Lecture Grading Option: Letter

ARCH 531 The Natural Landscape
Units: 3 Terms Offered: FaSp Lectures, laboratory exercises and field trips introducing basic knowledge of the continually transforming landscape as a base for human settlement. Instruction Mode: Lecture Grading Option: Letter

ARCH 532 Elements of the Urban Landscape
Units: 2 Terms Offered: Fa Study of the basic spatial and infrastructure elements of the city, and how urban places are formed. Typological analysis of buildings, open space, and urban patterns. Instruction Mode: Lecture Grading Option: Letter

ARCH 533 Urban Landscape Case Studies
Units: 2 Terms Offered: Sp Lectures, discussion, and individual research on the physical, formal, and spatial characteristics of historical urban centers. Instruction Mode: Lecture Grading Option: Letter

ARCH 534 Landscape Construction: Topographic Design
Units: 3 Terms Offered: Sp Techniques, strategies, materials, and standards to topographic design and construction in landscape architecture. In-class labs practice basic grading, drainage design, and stormwater management. Instruction Mode: Lecture Grading Option: Letter

ARCH 535 Landscape Construction: Performance Approaches
Units: 3 Terms Offered: Fa Develop tools and knowledge to expand the performative boundaries of landscape architecture beyond common typologies. Topics range from ecological infrastructure to design with weather patterns. A systematic approach to case studies, landscape technologies, and field trips seeds the knowledge base and respresentational methods necessary to design and build these complex landscape
intervention, phasing, and design of initial strategies for urban infrastructure repair and planning and project implementation issues and strategies. Instruction Mode: Lecture Grading Option: Letter

ARCH 537 Urban Plant Ecology: Environmental Perspectives
Units: 3 Terms Offered: Fa Principles and concepts of plant ecology for urban planting design; introduction to California native plant species and communities with field trips and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 538L Urban Plant Ecology: Cultural Perspectives
Units: 4 Cultural perspectives of urban planting design and plant species found in Southern California emphasizing aesthetic, functional and ecological designs. Prerequisite: ARCH 537. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 539L Media for Landscape Architecture
Units: 3 Terms Offered: Fa Development of methods and skills for the study of landscape architecture design and for project presentation, including natural resource and urban mapping. Registration Restriction: Open only to Planning and Landscape Architecture majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 540 Topics in Media for Landscape Architecture
Units: 2 Max Units: 6.0 Terms Offered: FaSp Exploration of emerging techniques for landscape architecture study, presentation and documentation; topics vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 541aL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects on urban sites with emphasis on cultural and ecological purpose and on urban place and form; use of traditional and digital media. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 541bL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects in urban settings with emphasis on landscape continuities as well as development of integrative schematic proposals and detailed open space design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 542aL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Project strategies for urban infrastructure repair and intervention, phasing, and design of initial catalytic projects. Prerequisite: ARCH 541bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 542bL Landscape Architecture Design
Units: 6 Terms Offered: FaSp Projects for the public realm with emphasis on urbanity and connectivity, place and meaning. Prerequisite: ARCH 541bL. Instruction Mode: Lab Required, Lecture Grading Option: Letter

ARCH 543 Research Methods
Units: 1 Terms Offered: Fa Introduction to methods of inquiry and documentation including critical review of published materials, techniques for systematic observation, generating findings from comparative studies of relevant precedents and problems, and legible presentation of outcomes. Instruction Mode: Lecture Grading Option: Letter

ARCH 544 Urban Landscape: Process and Place
Units: 3 Terms Offered: Fa Projects are examined as incremental interventions in the formation and qualities of the evolving urban landscape. Case studies are explored to understand purposes, typologies, catalytic capacities, and strategies for urban landscape design. Instruction Mode: Lecture Grading Option: Letter

ARCH 545 Urban Landscape: Contemporary History and Prospect
Units: 3 Terms Offered: Sp Explores contemporary landscape architecture propositions and projects in the context of cities. The exploration methodology includes the study of epochal projects and theoretical texts organized by central themes of nature and culture. Instruction Mode: Lecture Grading Option: Letter

ARCH 546 Topics in Landscape Architecture: Issues and Practices
Units: 2 Max Units: 06 A broad range of developing urban landscape conditions and issues, both domestic and global, are given focused attention. Instruction Mode: Lecture Grading Option: Letter

ARCH 547 Urban Nature
Units: 3 Terms Offered: Sp Interactions of cities and nature: introduction to the ecology of cities; major threats to urban biodiversity interacting with human attitudes; review of restoration and conservation projects. Recommended Preparation: ARCH 531. Instruction Mode: Lecture Grading Option: Letter

ARCH 548 Media for Landscape Architecture: 3D Design
Units: 3 Developing and communicating landscape architecture design intent using visualization tools for three-dimensional studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 549 Fundamentals of Heritage Conservation
Units: 3 Terms Offered: FaSm Concepts and strategies for conservation of significant elements of the built environment: buildings, sites and communities as revealed by readings, site visits, and case studies. Instruction Mode: Lecture Grading Option: Letter

ARCH 550 Heritage Conservation Policy and Planning
Units: 3 Terms Offered: Sp Conservation practice within an economic, political, and cultural context looking at the regulatory environment, public advocacy and policy, real estate development, heritage tourism, environmental sustainability, cultural diversity, and interpretation. Recommended Preparation: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 551 Conservation Methods and Materials
Units: 3 Terms Offered: Sp Concepts and techniques for building conservation including identification of treatments, recordation and research, material properties and behavior, building forensics, and project implementation. Recommended Preparation: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 552 Introduction to Historic Site Documentation
Units: 2 Terms Offered: Sp Survey of basic guidelines and standards for documentation in historic preservation, including cultural resource surveys, historic structures reports and Historic American Building Survey and Historic American Engineering Record documentation. Instruction Mode: Lecture Grading Option: Letter

ARCH 553 History of American Architecture and Urbanism
Units: 3 Terms Offered: Fa History of American architecture and urbanism from prehistory to World War II examined in relation to European influences and indigenous developments. Instruction Mode: Lecture Grading Option: Letter

ARCH 554 Heritage Conservation Practicum — Advanced Documentation
Units: 3 Max Units: 12.0 Terms Offered: FaSp Heritage conservation practicum utilizing in-depth documentation methodology to explore the historic built environment of greater Los Angeles. Topics will vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture Grading Option: Letter

ARCH 555 Global Perspectives in Heritage Conservation
Units: 2 Max Units: 4.0 Terms Offered: Fa In-depth analysis of international heritage conservation practice with a focus on a single country, continent, or world region outside the United States. Topics will vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture Grading Option: Letter

ARCH 556 Readings in Heritage Conservation Theory
Units: 2 Terms Offered: Fa Trans-disciplinary intensive reading and discussion course related to issues in contemporary heritage conservation. Prerequisite: ARCH 549. Instruction Mode: Lecture Grading Option: Letter

ARCH 557 Sustainable Conservation of...
the Historic Built Environment
Units: 2 Terms Offered: Fa Analysis of the intersection between "green building" and historic resources with an emphasis on stewardship and sustainability. Instruction Mode: Lecture Grading Option: Letter
ARCH 558 Fundamentals of Place-Making
Units: 2 Concepts and strategies for urban design and place-making for heritage conservation as revealed by place-making exercises, site visits, and case studies. Instruction Mode: Lecture Grading Option: Letter
ARCH 560 A History of Architectural Theory: 1400-1914
Units: 2 A seminar on architectural history from Alberti to Scott, reviewing primary texts and subsequent criticisms. Duplicates Credit in former ARCH 441 Instruction Mode: Lecture Grading Option: Letter
ARCH 561 Urbanism Themes and Case Studies
Units: 2 Terms Offered: Fa Examines urbanism through case studies in theory and design to understand the impacts of globalization, technology, and sustainability on the contemporary city. Instruction Mode: Lecture Grading Option: Letter
ARCH 562 Architecture Themes and Case Studies
Units: 2 Terms Offered: Fa Architectural themes and case studies focusing on the design and development of architecture, from the industrial city to today. Instruction Mode: Lecture Grading Option: Letter
ARCH 563 Contemporary Architectural Theory
Units: 2 Terms Offered: Sp Investigates, compares, and critiques modern and contemporary theories of the designed and built environment by focusing on key figures, movements, and texts. Instruction Mode: Lecture Grading Option: Letter
ARCH 564 Descriptive and Computational Architectural Geometry
Units: 2 Terms Offered: Sp Introduction to the history, methods, and cases of descriptive and computational geometry impacting representational, modeling, and historically significant paradigms of architectural design. Introduces a range of geometric first principles, techniques through contemporary design tools. Instruction Mode: Lecture Grading Option: Letter
ARCH 565 Global History of Landscape Architecture
Units: 3 Terms Offered: Fa Understanding of the global history of landscape design in relation to social, political, religious, environmental and aesthetic principles; current design theory, projects and their historical references are critically reviewed and analyzed. Corequisite: ARCH 414 Duplicates Credit in ARCH 465 Instruction Mode: Lecture Grading Option: Letter
ARCH 566 Cross Cultural Topics in Landscape Architecture History
Units: 3 Max Units: 6.0 Terms Offered: FaSp Comparative analysis and appreciation of landscape architecture as a manifestation of nature, society, and design. Topics and world regions vary from year to year; may be repeated for credit when subject matter is different. Instruction Mode: Lecture Grading Option: Letter
ARCH 567L Landscape Architecture Vertical Workshop and Debate Series
Units: 0.5 Max Units: 3 Terms Offered: FaSpA dynamic and topical supplement that provides critical content in the form of a post-mid review workshop and series of debates led by distinguished guests. Corequisite: ARCH 541aL and ARCH 541bL and ARCH 542aL and ARCH 542bL and ARCH 642L and ARCH 698bL Registration Restriction: Open only to master students in Landscape Architecture Instruction Mode: Lab Required Grading Option: Letter
ARCH 573 Seismic Design
Units: 2 Terms Offered: Fa Theory, design methodology and practice of how seismicity affects architecture and structural system selection required for robust earthquake performance and seismic sustainability. Recommended Preparation: Basic knowledge of physics and/or exposure to architectural design. Two semesters of building structures required for MArch students. Instruction Mode: Lecture Grading Option: Letter
ARCH 574 Parametric Design
Units: 3 An in depth and critical look into the reasons and uses for parametric design and its relationship to contemporary form, fabrication, and construction of the built environment. Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 575a Systems
Units: 3 Terms Offered: Sp Application of the scientific principles governing the thermal environment and human physiology to contemporary issues of environmentally responsive building energy concepts and systems. Recommended Preparation: ARCH 505aL, ARCH 505bL. Instruction Mode: Lecture Grading Option: Letter
ARCH 575b Systems
Units: 3 Terms Offered: Sp The fundamental scientific principles governing light and sound in the built environment will be examined in the context of human physiological, psychological and biological needs. Prerequisite: ARCH 575a Recommended Preparation: ARCH 505aL, ARCH 505bL. Instruction Mode: Lecture Grading Option: Letter
ARCH 576 Sustainable Design for Healthy Indoor Environments
Units: 3 Course outlines the building design and its performance diagnostic processes required to assure indoor environmental quality and the building occupants' environmental health, productivity, and physiological comfort. Instruction Mode: Lecture Grading Option: Letter
ARCH 577L Lighting Design
Units: 4 Terms Offered: FaSp The physics, technical knowledge, professional knowledge, design, and documentation processes used in architectural lighting design, including first principles, manual calculations and computer simulations. Recommended Preparation: Some knowledge of physics and exposure to the design process and design presentation skills. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 579 Sustainable Building and Environment using LEED Metrics
Units: 3 Fundamental knowledge of sustainable building concepts, current environmental design building rating systems, building performance and diagnostics metrics, as well as reference standards related to sustainable design. Instruction Mode: Lecture Grading Option: Letter
ARCH 580L Field Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Off-campus field studies using direct observation, site recordings, analysis and evaluation supplemented by discussions and readings. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 581 Techniques in Digital Fabrication
Units: 3 A practical introduction to digital fabrication. Covered topics include 3D surface milling, thermoforming, materials, casting and shop technology as applied to repeatable surfaces in architecture. Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 585 Visual Storytelling and Entrepreneurship in Media
Units: 2 Investigating visual stories as an active tool to critically explore and express design ideas; positions social media and crowdfunding as a foundation for creative action. Registration Restriction: Not open to Freshmen and Sophomores. Instruction Mode: Lecture Grading Option: Letter
ARCH 586 City Cine: Visuality, Media and Urban Experience
Units: 4 Explores the relationship between urban experience and visual media (from the photographic, to the filmic, to the digital) from circa 1880 to the present. Duplicates Credit in the former ARCH 434 Instruction Mode: Lecture Grading Option: Letter
ARCH 588 Physical Computing: Linking Architectural Computing with the Physical World
Units: 3 Provides hands-on prototyping experience with environmental sensing, actuation, and embedded computing technologies. Recommended Preparation: While no experience working with electronics is required, basic knowledge and willingness to learn programming and physical prototyping is assumed. Registration Restriction: Not open to Freshmen and sophomores Instruction Mode: Lecture, Lab Grading Option: Letter
ARCH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction
investigates the urban condition of Los Angeles through lectures, readings, and field visits. Aims to heighten awareness of the entwinement of environment, culture, architecture and the contemporary city. Instruction Mode: Lecture Grading Option: Letter
ARCH 609 Advanced Fabrication
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Introduction to a range of new technologies and techniques examining technical and theoretical implications including a range of digital fabrication technologies, robotics and film-making techniques. Instruction Mode: Lecture Grading Option: Letter
ARCH 610L Advanced Graduate Architecture Design
Units: 6 Terms Offered: FaSpSm Elective advanced design and research studio investigations. As faculty-led topical themes, the design-based projects will engage critical topics engaging diverse areas of specialization. Prerequisite: ARCH 605b. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 611 Advanced Building Systems Integration
Units: 4 Terms Offered: Sp Design criteria development, material and construction process methods, occupancy based load profiles, performance/material life-cycle-mandates, durability for advanced building systems including integrity in sustainable urban systems. Instruction Mode: Lecture Grading Option: Letter
ARCH 613L Seminar: Structures Research
Units: 1 Terms Offered: Fa Preparation and Thesis Prerequisite: ARCH 549 and ARCH 553. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit
ARCH 614 Contemporary Issues in Architecture: A Critical Dialectic
Units: 3 Terms Offered: Fa Issues that are important to the contemporary built environment are explored using a dialectical format to encourage debate, augmented by invited speakers and topical readings. Prerequisite: ARCH 214a, ARCH 214b and ARCH 514a, ARCH 514b. Instruction Mode: Lecture Grading Option: Letter
ARCH 615L Seminar: Environmental Systems Research
Units: 4 Terms Offered: Sp A detailed examination of current issues in the thermal, acoustical, and radiant environment; recent developments in criteria, systems, controls, design tools and simulations; an understanding of the relationships between environmental factors, economics, and architectural goals. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 635 Landscape Construction: Assembly and Documentation
Units: 3 Terms Offered: Sp Learn and practice the process by which a landscape design is assembled through materials systems and design documentation. Instruction Mode: Lecture Grading Option: Credit/No Credit
ARCH 642L Landscape Architecture Design
Units: 6 Terms Offered: Fa Fully integrated landscape place design; reclamation sites at significant urban or natural locations. Prerequisite: ARCH 542aL, ARCH 542bL. Instruction Mode: Lecture, Lab Required Grading Option: Letter
ARCH 690AL Directed Research
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit
ARCH 690BL Directed Research
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit
ARCH 691a Heritage Conservation Thesis Preparation and Thesis
Units: 1 Terms Offered: Sp Introduction to, and exploration of, topics leading to the development of a thesis prospectus and directed research towards the completion of the master's thesis in heritage conservation. Prerequisite: ARCH 549 Registration Restriction: Open only to Master of Heritage Conservation students. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit
ARCH 691b Heritage Conservation Thesis Preparation and Thesis
Units: 4 Terms Offered: Sp Introduction to, and exploration of, topics leading to the development of a thesis prospectus and directed research towards the completion of the master's thesis in heritage conservation. Prerequisite: ARCH 549 Registration Restriction: Open only to master students in Heritage Conservation Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit
ARCH 692aL Directed Research
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit
ARCH 692bL Directed Research
Units: 2, 3, 4, 5, 6, 7, 8 Terms Offered: FaSpSm Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit
ARCH 693aL M.Arch. Thesis, Option I
Units: 2 Terms Offered: FaSpSm Directed research option for M.Arch. degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 693bL M.Arch. Thesis, Option I
Units: 8 Terms Offered: FaSpSm Directed research option for M.Arch. degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 694 Research Publication Methods for Building Science
Units: 2 Technical documentation, graphic representation, and verbal presentation for writing and presenting journal articles and conference presentations in building science. Recommended Preparation: completion of MBS Core Seminars Registration Restriction: Open only to Master of Building Science students. Instruction Mode: Lecture Grading Option: Letter

ARCH 695aL M.Arch. Thesis, Option II
Units: 2 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Registration Restriction: Open only to Master's level Architecture students. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 695bL M.Arch. Thesis, Option II
Units: 8 Terms Offered: FaSpSm Design thesis for the Master of Architecture degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696a Building Science Thesis
Units: 1 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696b Building Science Thesis
Units: 6 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 696c Building Science Thesis
Units: 8 Research and thesis for the Master of Building Science degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 697aL MLArch Thesis, Option II
Units: 2 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 697bL MLArch Thesis, Option II
Units: 8 Terms Offered: FaSpSm Field studies and thesis for the MLArch degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 698aL MLArch Thesis
Units: 2 Terms Offered: FaSpSm Directed research option for the MLArch degree. Registration Restriction: Open only to master students in Landscape Architecture and in Planning/Landscape Architecture Instruction Mode: Lecture Grading Option: In Progress/ Credit/No Credit

ARCH 698bL MLArch Thesis, Option I
Units: 0 Terms Offered: FaSpSm Directed research option for the MLArch degree. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 702L Advanced Graduate Architecture Design – Themes
Units: 6 Advanced thematic topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 705L Advanced Graduate Architecture Design – Topics
Units: 6 Max Units: 12.0 Terms Offered: FaSm Advanced topical investigations emphasizing diverse areas of specialization. Projects will be faculty-led research investigations that concentrate on diverse areas of vital concern. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ARCH 791 Proposal for Doctoral Dissertation
Units: 1 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ARCH 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ARCH 795aL Architecture Thesis Option II
Units: 2 Terms Offered: FaSp Thesis option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

ARCH 795bL Architecture Thesis Option II
Units: 6 Terms Offered: FaSp Thesis option for graduate level architecture degree. Prerequisite: ARCH 605bL or ARCH 702L. Registration Restriction: Open only to Architecture majors. Instruction Mode: Lecture, Lab Required Grading Option: In-progress to Credit/No Credit

ARCH 796 Doctoral Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the School of Architecture. Instruction Mode: Lecture Grading Option: Credit/No Credit

ARCH 797 Proposal for Doctoral Dissertation
Units: 0 Thesis option for graduate level architecture degree. Credit on acceptance of
research project. **Prerequisite:** ARCH 795b. 
Instruction Mode: Lecture Grading Option: Credit/No Credit

### Art

**ART 105 Art and Design Studio I**
Units: 4 Terms Offered: FaSp Introduction to the fundamental elements in art making, design creation and thinking, including key principles of process and critical analysis. 
Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 105

**ART 106 Art and Design Studio II**
Units: 4 Terms Offered: FaSp Introduction to the fundamental elements in art making, design creation and thinking, including the key principles of process and critical analysis. 
Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 106

**ART 110 Drawing for Art and Design**
Units: 4 Terms Offered: FaSpSm An introduction to drawing, both skill and perception oriented, as the basic tool for all the visual arts and design. Duplicates Credit in former FADW 101 
Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as DES 110

**ART 120 Painting I**
Units: 4 Terms Offered: FaSpSm Practical introduction to oil and acrylic pigments, painting equipment, processes, and media. 
Primary experience in: color, composition and perception through representational and abstract painting. Duplicates Credit in former FAPT 105 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 130 Ceramics**
Units: 4 Terms Offered: FaSpSm Practical and theoretical exploration of the nature of surface, form, volume and mass as fundamental elements of clay sculpture and the ceramic object. Duplicates Credit in former FACE 112 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 140 Sculpture I**
Units: 4 Terms Offered: FaSp Practical and theoretical introduction to sculpture as dimensional manipulation. Primary exploration of form, mass, gravity, surface, structure and associative recognition in three-dimensional art. Duplicates Credit in former FASC 106 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 141xg Creating and Understanding Visuals**
Units: 4 Terms Offered: FaSpSm Lecture-studio course on the theory and history behind contemporary art, design, and visual communication; students also create work, informed by ideas from the lecture. 
Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors 
Instruction Mode: Lecture Grading Option: Letter

**ART 142 Modeling and Mold Making**
Units: 2 Terms Offered: FaSp Introduction to plaster mold making using clay and wax for both ceramics and sculpture. Exploration of various casting materials. Duplicates Credit in former FASC 136 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 150 Introduction to Photography**
Units: 4 Terms Offered: FaSp Introduction to the practice of photographic image-making within fine arts. Emphasis on developing technical skills in relation to personal vision. 
Work in black and white. Duplicates Credit in former FAPH 209 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 151 Digital Photography**
Units: 4 Terms Offered: FaSp An introductory course exploring the processes and practices of digital capture, imaging and printing, from web-based image posting to large-scale printing. Duplicates Credit in former FAIN 210 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 207ax Two-Dimensional Art Workshop**
Units: 2 Max Units: 08 Terms Offered: FaSpSm Studio practice to develop standards of judgment and appreciation of the visual arts. 
Duplicates Credit in former FA 207a 
Instruction Mode: Lecture Grading Option: Letter

**ART 207bx Two-Dimensional Art Workshop**
Units: 2 Max Units: 08 Continuation of ART 207ax. **Prerequisite:** ART 207ax Duplicates Credit in former FA 207b 
Instruction Mode: Lecture Grading Option: Letter

**ART 208a Three-Dimensional Art Workshop**
Units: 2 Terms Offered: FaSpSm Studio practice to develop standards of judgment and appreciation of the visual arts. Duplicates Credit in former FA 208a 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 208b Three-Dimensional Art Workshop**
Units: 2 Terms Offered: FaSpSm 
**Prerequisite:** ART 208a Duplicates Credit in former FA 208b 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 210 Drawing II**
Units: 4 Terms Offered: FaSpSm Drawing methods and concepts, with emphasis on observing and rendering the human form and anatomy. 
Continued acquisition of skills, with compositional, gestural, and interpretive elements. **Prerequisite:** ART 110 or FADW 101 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 220 Painting II**
Units: 4 Terms Offered: FaSpSm 
**Prerequisite:** ART 208a Duplicates Credit in former FA 205 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 230 Wheel Throwing**
Units: 4 Terms Offered: FaSp Sm An introductory course using wheel throwing techniques for ceramics to explore a variety of forms through three-dimensional exercises. Duplicates Credit in former FACE 212 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 240 Sculpture II**
Units: 4 Terms Offered: FaSp Continued examination of the concepts of three-dimensional art: interrelation of material and image, public, human and intimate scale. **Prerequisite:** ART 140 or FASC 106 
Duplicates Credit in former FASC 206 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 242 Metal**
Units: 2 Terms Offered: FaSp Introduction to metal in fine art. Emphasis on technical proficiencies and effective solutions working in a variety of metals. **Recommended Preparation:** ART 140 Duplicates Credit in former FASC 236 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 243 Construction Techniques**
Units: 2 Terms Offered: FaSp Exploration of art fabrication and the techniques and philosophies of working with a variety of materials. **Recommended Preparation:** ART 150 or ART 151 or FAIN 210 or FAPH 209 
Duplicates Credit in former FAPH 309a 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 250 Photography II**
Units: 4 Terms Offered: FaSp Continued examination of the conceptual, technical, aesthetic and historical tools necessary for a well-informed deliberate art practice with an emphasis on color photography. 
Work is in digital or analog. **Prerequisite:** ART 150 or ART 151 or FAIN 210 or FAPH 209 
Duplicates Credit in former FAPH 309a 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 260 Video and Time-based Media**
Units: 4 Terms Offered: FaSp An introductory course exploring contemporary processes and practices of video experimentation including the camera, desktop production, and editing. 
Experimentation with multiple modes of execution, presentation, and distribution. Duplicates Credit in former FAIN 220 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 280 Studio Critique I**
Units: 2 Interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, discuss materials related to their research interests, and critique the work of their peers. 
Instruction Mode: Lecture Grading Option: Letter

**ART 300 Professional Practices**
Units: 2 Terms Offered: FaSpSm Instruction on producing written and visual documentation of art/design work, proposals, statements, and portfolios; applications for art/design employment opportunities, grants, research projects, and graduate school. 
Registration Restriction: Open only to sophomores, juniors and seniors Duplicates Credit in former FA 300 
Instruction Mode: Lecture, Lab Grading Option: Letter

**ART 310 Advanced Drawing**
Units: 4 Terms Offered: FaSpSm Directed examination of personal approaches in drawing; emphasis on making visual
and artistic decisions and developing an appropriate attitude towards individual expression. Prerequisite: ART 210 or FADV 201 Duplicates Credit in former FADV 301 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 311 Anatomical Drawing from Life Units: 2 An advanced, concentrated study of the human figure; expands on skills depicting and visualizing the human form. Prerequisite: ART 110 or FADV 101 Recommended Preparation: ART 210 or permission of instructor Duplicates Credit in former FADV 321 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 312 Comics Project Units: 4 Max Units: 8 Terms Offered: FaSp All aspects of comics will be covered, from writing and composition to inking and marketing through the production of an individual 15-page comic creation. Recommended Preparation: Any drawing, graphic design or creative writing course Instruction Mode: Lecture Grading Option: Letter

ART 315 Studies in Drawing and Painting Units: 4 Max Units: 12 Terms Offered: FaSp A studio examination of rotating topics in drawing/painting, either media-based or concept-driven, with individual and collaborative projects; topics change each semester. Recommended Preparation: ART 310 or ART 320 or permission of instructor Registration Restriction: Open only to sophomores, juniors, and seniors Duplicates Credit in former FADV 331 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 320 Advanced Painting Units: 4 Terms Offered: FaSp/Sm Directed examination of aesthetic concepts; investigation into personal ideas related to the development of a creative visual language in painting. Prerequisite: ART 220 or FAPT 205 Duplicates Credit in former FAPT 305 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 321 Advanced Ceramics Units: 4 Terms Offered: FaSpSm Directed examination of aesthetic concepts and investigation into personal ideas as they relate to the development of a creative visual language in ceramics. Prerequisite: ART 130 or FACE 112 Duplicates Credit in former FACE 312 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 330 Clay and Glazes Units: 2 Terms Offered: Sp A foundation in the formulation of clay bodies and glaze materials through lectures and studio exercises to suit specific needs with the artist in mind. Recommended Preparation: ART 130 or ART 230 Duplicates Credit in former FACE 313 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 340 Advanced Sculpture Units: 4 Terms Offered: FaSp Directed examination of three-dimensional aesthetic concepts; development of an individual creative vision. Prerequisite: ART 240 or FASC 206 Duplicates Credit in former FASC 306 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 350 Advanced Photography Units: 4 Terms Offered: FaSp/Sm Continued examination of the conceptual, technical, aesthetic and historical tools necessary for a well-informed deliberate art practice with an emphasis on color photography. Work is in digital or analog. Prerequisite: ART 250 or FAPH 309a Duplicates Credit in former FAPH 309b Instruction Mode: Lecture, Lab Grading Option: Letter

ART 360 Video Studio Units: 4 Terms Offered: FaSp/An intensive video studio in the understanding and method of time-based, narrative and non-narrative art. Prerequisite: ART 260 or FAIN 220 Duplicates Credit in former FAIN 320 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 361 Internet Studio and Online Experimentation Units: 4 Terms Offered: FaSp A technically and conceptually intensive studio exploring contemporary processes and practices of Internet art and online expression. Duplicates Credit in former FAIN 315 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 362 Ideas in Intermedia Units: 4 Max Units: 0 Terms Offered: FaSp/Sm An introduction to various printmaking techniques; necessary skills and inherent expressive qualities of different printmaking methods are explored. Duplicates Credit in former FAIN 330 Instruction Mode: Lecture, Discussion Grading Option: Letter

ART 370 Printmaking Units: 4 Terms Offered: FaSp Introductory course in various printmaking techniques; necessary skills and inherent expressive qualities of printmaking methods are explored. Duplicates Credit in former FAIN 311 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 380 Studio Critique II Units: 2 A continuation of ART 280 for third-year students, providing an interdisciplinary forum for artistic practice and a deepening critique of one's work and the work of peers. Instruction Mode: Lecture Grading Option: Letter

ART 390 Special Problems Units: 1, 2, 3, 4 Terms Offered: FaSp/Sm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former FA 390 Instruction Mode: Lecture Grading Option: Letter

ART 410 Topics in Advanced Drawing Units: 4 Max Units: 12 Terms Offered: FaSpSm Continued directed examination of personal approaches in drawing, emphasis on making visual and artistic decisions and developing an appropriate attitude toward visual expression. Prerequisite: ART 310 or FADV 301 Duplicates Credit in former FA 401 and FADV 401 Instruction Mode: Lecture Grading Option: Letter

ART 418 Independent Studies in Studio Arts Units: 1, 2, 3, 4 Terms Offered: FaSp/Sm Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. Recommended Preparation: appropriate 300-level course work Duplicates Credit in former FA 418 Instruction Mode: Lecture Grading Option: Letter

ART 419 Professional Internship in the Arts Units: 2 Max Units: 0 Terms Offered: FaSp/Sm An experiential/academic opportunity in a museum, gallery, community cultural center, or related facility. Lectures, seminars, written analysis, and working internship. Registration Restriction: Open only to upper-division fine arts majors Duplicates Credit in former FA 419 Instruction Mode: Lecture Grading Option: Letter Crosslisted as DES 419

ART 420 Topics in Advanced Painting Units: 4 Max Units: 12 Terms Offered: FaSpSm Directed painting with continued emphasis on personal choices regarding appropriation of conceptual images and arrangement, material processes, scale, number of paintings. Ongoing critical response to painting. Prerequisite: ART 320 or FAPT 305 Duplicates Credit in former FAPT 405 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 430 Topics in Advanced Ceramics Units: 4 Max Units: 12 Terms Offered: FaSpSm Continued directed examination of aesthetic concepts and investigation into personal ideas as they relate to the development of a creative visual language in ceramics. Prerequisite: ART 330 or FACE 312 Duplicates Credit in former FACE 412 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 434 Sound Art Units: 2 Terms Offered: Sp A survey of developments in non-traditional musical instrument making in clay including design, fabrication and composition, culminating in a musical performance. Recommended Preparation: ART 130 or FACE 112 Duplicates Credit in former ART 414 Instruction Mode: Lecture Grading Option: Letter

ART 440 Topics in Advanced Sculpture Units: 4 Max Units: 12 Terms Offered: FaSp Individual direction of the study of aesthetic issues in sculpture; investigation of an individual creative vision. Prerequisite: ART 340 or FASC 306 Duplicates Credit in former FASC 406 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 442 Art and Technology Units: 4 Terms Offered: Sp An interdisciplinary course between art and engineering that addresses creative thinking in the manipulation of media and the communication of ideas. Duplicates Credit in former FASC 436 Instruction Mode: Lecture Grading Option: Letter

ART 450 Topics in Advanced Photography Units: 4 Max Units: 12 Terms Offered: FaSp In-depth exploration of photographic and artistic concepts as they apply to the articulation of personal work. Prerequisite: ART 350 or FAPH 309b Duplicates Credit in
ART 460 Post-Material Studio
Units: 4 Max Units: 08 Terms Offered: FaSp Advanced studio and discussion course that affords the student a conceptual and practical platform from which to discuss and realize a major work or series. Duplicates Credit in former FAIN 440 Instruction Mode: Lecture, Lab Grading Option: Letter

ART 470 Topics in Advanced Printmaking
Units: 4 Max Units: 12 Terms Offered: FaSp Directed examination of specific printmaking media in relation to personal aesthetic goals and expressive concepts. Prerequisite: ART 370 or FAPR 311 Duplicates Credit in former FAPR 411 Instruction Mode: Lecture Grading Option: Letter

ART 480 International Art Study Tour
Units: 2 Max Units: 02 Terms Offered: FaSp An immersive experience in the artistic culture of a specific city or region that includes a short (less than two weeks) international trip. Instruction Mode: Lecture Grading Option: Letter

ART 484 Contemporary Issues in Art
Units: 4 Max Units: 12 Terms Offered: FaSp An advanced studio and discussion course aims to expand a student's relationship to, and understanding of, contemporary artistic dissemination, discourse, and display via a series of rotating topics. Recommended Preparation: junior status or permission of instructor Instruction Mode: Lecture Grading Option: Letter

ART 485 Studio Capstone
Units: 4 Terms Offered: Sp A faculty-mentored course supporting advanced conceptual exploration and the development of an ambitious, self-defined series or body of work, culminating in an exhibition. Registration Restriction: Open only to seniors in Art and Fine Arts majors Instruction Mode: Lecture Grading Option: Letter

ART 490s Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSp Individual research and readings. Credit Restriction: Not available for graduate credit Duplicates Credit in former FA 490 Instruction Mode: Lecture Grading Option: Letter

ART 494a Senior Thesis
Units: 2 Max Units: 04 Terms Offered: FaSp Individual research under guidance of faculty member for senior-level BFA students, leading to a substantial paper or other project. Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 494b Senior Thesis
Units: 2 Terms Offered: FaSp Individual research under the guidance of faculty for senior level BFA students, leading to a substantial paper or project. Prerequisite: ART 494a Registration Restriction: Open only to seniors in Fine Arts Instruction Mode: Lecture Grading Option: Letter

ART 499 Special Topics
Units: 2, 3, 4 Max Units: 04 Terms Offered: FaSp Sm Comprehensive exploration of particular aspects of visual art. Duplicates Credit in former FA 499 Instruction Mode: Lecture Grading Option: Letter

ART 515 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp Lecture and discussion course in the professional practice of art featuring formal presentations by visiting artists and scholars. Duplicates Credit in FA 515. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CRIT 515

ART 520 Individual Studies
Units: 2 Max Units: 8.0 Terms Offered: FaSp Investigation of creative problems through various media. Course may be repeated. Duplicates Credit in former FA 520. Instruction Mode: Lecture Grading Option: Letter

ART 525 Making and Curating Art: Pedagogy and Praxis
Units: 4 Terms Offered: Sp (Enroll in CRIT 525)

ART 530 Global Art Seminar: the Globalization of Art and Culture
Units: 4 Terms Offered: Sm An examination of the emergence of the idea of "globalism" through the lens of art practice and theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CRIT 530

ART 535 Group Critique
Units: 2 Max Units: 8 Terms Offered: FaSp Presentation and critique which builds students' skills in presenting and contextualizing their artwork for peer review; analytic discussion regarding directions in contemporary art. Instruction Mode: Lecture Grading Option: Letter

ART 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Duplicates Credit in former FA 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

ART 594a Master's Thesis
Units: 2 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594b Master's Thesis
Units: 2 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 594z Master's Thesis
Units: 0 Credit on acceptance of Thesis. Registration Restriction: Open only to masters students. Duplicates Credit in former FA 594abz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ART 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Comprehensive exploration of particular aspects of the history of art. Duplicates Credit in former FA 599. Instruction Mode: Lecture Grading Option: Letter

Arts and Letters
ARTL 100g Arts and Letters
Units: 4 Terms Offered: FaSp Critical analysis of significant works of literature, philosophy, visual arts, music and/or film; intensive reading and writing to develop knowledge of analytical techniques in the humanities. Limited to freshmen and sophomores. Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARKT 101 and in former LTA 100 and in former LTA 101. Instruction Mode: Lecture Grading Option: Letter

ARTL 101g Studies in Arts and Letters
Units: 4 Terms Offered: FaSp Critical analysis of significant works of literature, philosophy, visual arts, music and/or film; intensive reading and writing to develop knowledge of analytical techniques in the humanities. Limited to students with sophomore status or higher. Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARKT 100g and ARKT 101g. Instruction Mode: Lecture Grading Option: Letter

Arts Leadership
ARTL 310 Music and Dance In Paris Salon Culture
Units: 2 Terms Offered: Sp During this twenty-four day Maymester course in Paris, students will explore moments in Parisian salon culture as sites of artistic inspiration and collaboration. Registration Restriction: Priority will be given to majors in Thornton and Kaufman, then minors in Thornton and Kaufman, then the general USC population. Instruction Mode: Lecture Grading Option: Letter

ARTL 490s Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

ARTL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

ARTL 500 Arts Leadership and Arts Entrepreneurship
Units: 2 Terms Offered: FaSp Introduction to key issues involved in both managing an arts organization and creating sustainable enterprise. For students in music, arts, public policy, and related fields. Instruction Mode:
Lecture Grading Option: Letter
ARTL 501 Executive Leadership in the Arts
Units: 2 Terms Offered: FaSp Investigation into a variety of leadership approaches within an arts organization, with a focus on the development of the student's own leadership capacity. Instruction Mode: Lecture Grading Option: Letter

ARTL 502 Issues in the Arts and the Contemporary World
Units: 2 Terms Offered: FaSp Examination of major environmental trends including changing demographics, new business models, rapidly developing technology and globalization, and understanding their implications for the arts. Instruction Mode: Lecture Grading Option: Letter

ARTL 503 Arts Organizations: Innovation and New Models
Units: 2 Terms Offered: FaSp Designed for current and future arts leaders interested in looking critically at organizational practice and bringing innovative solutions to old problems in a contemporary context. Instruction Mode: Lecture Grading Option: Letter

ARTL 504 Arts and the Community: Current Practice and New Visions
Units: 2 Terms Offered: FaSp Exploration of a range of ideas, ideologies and strategies that have historically been used to connect arts organizations to their communities. Instruction Mode: Lecture Grading Option: Letter

ARTL 510 Arts Leadership Practicum
Units: 2 Max Units: 4.0 Terms Offered: FaSp Year-long practicum which puts ideas and concepts into practice. Each student will conceptualize, develop, and complete an arts project of his/her own choosing. Instruction Mode: Lecture Grading Option: Letter

ARTL 512 Essentials of Orchestra Management
Units: 2 Ten day seminar that provides in depth, participative instruction in orchestra management and the practicalities of being a successful leader of an arts organization. Instruction Mode: Lecture Grading Option: Letter

ARTL 520 Arts Leadership Intensive
Units: 1 Five-day, intensive course that serves as a deep-dive introduction to the field for all Arts Leadership students. Instruction Mode: Lecture Grading Option: Letter

ARTL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 280x Foundations of Astronautics and Space Technology
Units: 3 Terms Offered: Sp Coordinate systems and transformations. Spherical trigonometry. Orientation angles. Spacecraft orbits and orbital maneuvers. Introduction to rocket propulsion, spacecraft attitude dynamics and control, and space environment. Prerequisite: MATH 226 and PHYS 152L. Recommended Preparation: Skill in MATLAB programming. Instruction Mode: Lecture Grading Option: Letter

ASTE 291 Team Projects I
Units: 1 Max Units: 4.0 Terms Offered: FaSp Participation in ASTE undergraduate student team projects. Intended for lower-division students or those with little prior project experience. Instruction Mode: Lecture Grading Option: Letter

ASTE 301a Thermal and Statistical Systems
Units: 3 Terms Offered: FaSp Thermodynamics and statistical mechanics; kinetics of atoms, molecules, and photons; compressible fluid dynamics. Prerequisite: MATH 245, PHYS 153L. Duplicates Credit in former AME 311 lab. Instruction Mode: Lecture Grading Option: Letter

ASTE 301b Thermal and Statistical Systems
Units: 3 Terms Offered: FaSp Thermodynamics and statistical mechanics; kinetics of atoms, molecules, and photons; compressible fluid dynamics. Prerequisite: MATH 245, PHYS 153L. Duplicates Credit in former AME 311 lab. Instruction Mode: Lecture Grading Option: Letter

ASTE 330 Introduction to Spacecraft Systems and the Space Environment
Units: 3 Terms Offered: Fa Spacecraft systems: attitude determination and control, power, thermal, command and data handling, telecommunication, structures and mechanisms, propulsion. Space environment: atmosphere, gravity gradients, radiation. Prerequisite: ASTE 280 and PHYS 153. Instruction Mode: Lecture Grading Option: Letter

ASTE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.

ASTE 421x Space Mission Design
Units: 3 Terms Offered: Sp Space systems engineering process: requirements definition; trade studies; system integration; technical reviews; cost and schedule development; case studies; ethics. Capstone design experience. Prerequisite: ASTE 330. Registration Restriction: Open only to seniors. Instruction Mode: Lecture Grading Option: Letter

ASTE 445 Molecular Gas Dynamics
Units: 3 Physical description of kinetic nature of gas flows; distribution function; introduction to the Boltzmann equation; free-molecule flow; surface and molecular reflection properties; Monte Carlo flow calculations. Recommended Preparation: AME 309 or ASTE 301b. Duplicates Credit in former AME 485. Instruction Mode: Lecture Grading Option: Letter

ASTE 470 Spacecraft Propulsion
Units: 3 Introduction to rocket engineering.
Space missions and thrust requirements. Compressible gas dynamics. Propellant chemistry and thermodynamics. Liquid- and solid-fueled rockets. Nuclear and electric propulsion. \textit{Prerequisite:} senior or graduate standing. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 480 Spacecraft Dynamics}
Units: 3 Two-body motion, rigid-body motion, attitude dynamics and maneuvers, spacecraft stabilization: gravity gradient, reaction wheels, magnetic torquers, thruster attitude control. \textit{Prerequisite:} senior standing. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 490x Directed Research}
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Sm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 491 Team Projects II}
Units: 1 Max Units: 4.0 Terms Offered: FaSp Participation in ASTE undergraduate student team projects. Intended for students with prior project experience. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 499 Special Topics}
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from current developments in astrophysics, space technology, and related fields. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 501a Physical Gas Dynamics}
Units: 3 Terms Offered: FaSp Molecular structure; radiative processes; microscopic description of gas phenomena; translational, rotational, vibrational, and electronic freedom degrees; particle energy distributions; microscopic representation of thermodynamic functions. \textit{Prerequisite:} graduate standing or departmental approval. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 501b Physical Gas Dynamics}
Units: 3 Terms Offered: FaSp Kinetic concepts in gas physics; thermal non-equilibrium; intermolecular potentials; transport of radiation and particles in high-temperature gas; dissociation and ionization equilibrium; energy relaxation. \textit{Prerequisite:} ASTE 501a. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 505a Plasma Dynamics}

\textbf{ASTE 505b Plasma Dynamics}

\textbf{ASTE 520 Spacecraft System Design}
Units: 3 System components; vehicle structure, propulsion systems, flight dynamics, thermal control, power systems, telecommunication. Interfaces and tradeoffs between these components. Testing, system reliability, and integration. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 523 Design of Low Cost Space Missions}
Units: 3 Terms Offered: Sp Reviews all aspects of space mission design for practical approaches to reducing cost. Examines "LightSat" mission experience and potential applicability to large-scale missions. Graduate standing in engineering or science. \textit{Recommended Preparation:} ASTE 520 or some experience in space engineering. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 524 Human Spaceflight}
Units: 3 Engineering, technologies, and systems for human spaceflight. Life support, space environments, crew accommodations. Mission operations, safety. Astrodynamics, launch and space vehicles, space stations, planetary bases. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 527 Space Studio Architecting}
Units: 3 Terms Offered: Sp Programmatic/conceptual design synthesis/choice creation methods for complex space missions. Aerospace system engineering/architecture tools to create innovative projects. Evaluated by faculty/industry/NASA experts. \textit{Recommended Preparation:} ASTE 520 or experience in space industry. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 528 Reliability of Space Systems}
Units: 3 Terms Offered: Fa Reliable space system design and operations for human and robotic space, applications, and commercial space. Reliability of space systems, subsystems, hardware, software and human reliability. \textit{Recommended Preparation:} ASTE 520 or equivalent course on fundamentals of space systems Registration Restriction: Open only to graduate students in science or engineering. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 529 Safety of Space Systems and Space Missions}
Units: 3 Engineering methodology and analysis techniques for safety certification and mission assurance of robust and human space systems and space missions by government and commercial industry. \textit{Recommended Preparation:} ASTE 520 or some experience in space engineering. Registration Restriction: Open only to Engineering graduate students. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 535 Space Environments and Spacecraft Interactions}
Units: 3 Space environments and interactions with space systems. Vacuum, neutral and ionized species, plasma, radiation, micrometeoroids. Phenomena important for spacecraft operations. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 545 Computational Techniques in Rarefied Gas Dynamics}

\textbf{ASTE 546 Computational Plasma Dynamics}
Units: 3 Terms Offered: Sp Plasma simulation techniques; particle-in-cell (PIC); PIC with Monte Carlo; computational electromagnetics; computational magnetohydrodynamics. Parallelization. Applications in engineering and space plasma physics. \textit{Prerequisite:} ASTE 505a. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 552 Spacecraft Thermal Control}
Units: 3 Terms Offered: Sp Spacecraft and orbit thermal environments; design, analysis, testing of spacecraft thermal control system and components; active and passive thermal control, spacecraft and launch vehicle interfaces. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 553 Systems for Remote Sensing from Space}
Units: 3 The operation, accuracy, resolution, figures of merit, and application of instruments which either produce images of ground scenes or probe the atmosphere as viewed primarily from space. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 554 Spacecraft Sensors}
Units: 3 Terms Offered: Fa Spacecraft sensors from concept and design to building, testing, interfacing, integrating, and operations. Optical and infrared sensors, radiometers, radars, phased arrays, signal processing, noise reduction. \textit{Recommended Preparation:} ASTE 520. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 555 Space Cryogenic Systems and Applications}
Units: 3 Terms Offered: Fa Theory and practice in cryogenic engineering as applied to space systems, emphasizing sensor cooling techniques; cryostats; cryoradiators; mechanical cryocoolers; introductions to superfluidity and superconductivity. \textit{Recommended Preparation:} ASTE 520 or equivalent course on fundamentals of space systems Registration Restriction: Graduate standing in science or engineering. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 556 Spacecraft Structural Dynamics}
Units: 3 Applied analytical methods (vibrations of single and multidegree of freedom systems, finite element modeling, spacecraft applications); requirements definition process; analytical cycles; and design verification. Instruction Mode: Lecture Grading Option: Letter

\textbf{ASTE 557 Spacecraft Structural Strength and Materials}
in orbital mechanics; satellite dynamics; averaging methods; resonance; mission analysis. Recommended Preparation: ASTE 580. Instruction Mode: Lecture Grading Option: Letter

ASTE 594 Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content to be selected each semester from current developments in astronautics, space technology, and related fields. Instruction Mode: Lecture Grading Option: Letter

ASTE 683 Advanced Spacecraft Navigation
Units: 3 Advanced topics in spacecraft navigation: rendezvous, frozen/sun synchronous orbits, stationkeeping. Nonlinear filtering for orbit and attitude determination. Optical navigation. Mission applications. Recommended Preparation: ASTE 580 and ASTE 583; Recommended Preparation: skill in MATLAB programming. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory studies of specific problems by candidates for the degree Engineer in Astronautical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 694a Thesis
Units: 2 Terms Offered: FaSpSm Required for the degree Engineer in Astronautical Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 694b Thesis
Units: 2 Terms Offered: FaSpSm Required for the degree Engineer in Astronautical Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 700 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the division. Instruction Mode: Lecture Grading Option: Credit/No Credit

ASTE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ASTE 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

</table>
Entrepreneurship Mode: Lecture Grading Option: Letter

BAEP 472 The Science of Peak Performance
Units: 2 Terms Offered: Sp Ingrains expertise and application of the science of peak performance, broadens preparation for personal challenge, and builds business-centered critical thinking and applied analytical skills. Registration Restriction: Open only to sophomores, juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

BAEP 474 The Entrepreneur’s Guide to Intellectual Property
Units: 2 Terms Offered: FaSp The fundamentals of intellectual property -- its value, its basic workings, and its role in entrepreneurship, business in general, science, the arts, and the professions. Instruction Mode: Lecture Grading Option: Letter

BAEP 475 Entrepreneurship
Units: 2 Terms Offered: FaSp Explore the current entrepreneurial trends and opportunities in the entertainment industry and uncover the key success factors for entrepreneurs in this industry. Instruction Mode: Lecture Grading Option: Letter

BAEP 480 Entrepreneurial Family Business
Units: 4 Terms Offered: FaSp Explores the dynamics of family and privately held businesses. Exploring generational and extended family issues, opportunities and obstacles faced in today's environment. Instruction Mode: Lecture Grading Option: Letter

BAEP 491 Introduction to Social Entrepreneurship
Units: 4 Terms Offered: FaSp Analysis of social enterprise models from micro-finance to job development. Analysis of basic issues regarding the difference between socially responsible companies, for-profit, and non-profit-run enterprises. Instruction Mode: Lecture Grading Option: Letter

BAEP 495 Practicum in Business Issues (Internship)
Units: 1 Terms Offered: FaSpSm Combined classroom discussion and field application of business theories and practices; part-time internship employment. Project to be jointly defined by student, employer and professor. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 496 The Digital Startup Launchpad
Units: 2 Terms Offered: FaSp Real-life challenge of imagining, prototyping, testing and iterating, building, pricing, marketing, distributing and selling a digital product or service. Prerequisite: BAEP 452 and ITP 466 and ITP 476 Corequisite: ITP 496 Instruction Mode: Lecture Grading Option: Letter

BAEP 497 Field Project in Entrepreneurship
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Individual or team projects solving real problems for an enterprise. Situation analyses; research proposal composition; field research techniques; statistical analysis; oral and written presentations. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Credit/No Credit

BAEP 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Current developments in the field of entrepreneurship: topics to be selected each semester. Instruction Mode: Lecture Grading Option: Letter

BAEP 549 The Entrepreneurial Journey
Units: 2 Terms Offered: FaSpSm An introduction to entrepreneurship with a focus on opportunity recognition and the entrepreneurial mindset. Development of knowledge and skills in launching new ventures. Registration Restriction: Online registration open only to BUSV, ENTR, and MMM majors Duplicates Credit in BAEP 550, BSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 550 Entrepreneurship and Venture Management
Units: 1.5 Terms Offered: FaSp Develop conceptual and practical knowledge in entrepreneurship and new venture management. Registration Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in BAEP 549, BAEP 551, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 551 Introduction to New Ventures
Units: 3 Terms Offered: FaSp Study and development of analytical and conceptual skills in the management of new enterprises and new ventures within large organizations. Registration Restriction: Online registration limited to graduate business and accounting students Duplicates Credit in BAEP 549, BAEP 550, GSBA 550a and GSBA 550b Instruction Mode: Lecture Grading Option: Letter

BAEP 552 Cases in Feasibility Analysis
Units: 3 Terms Offered: FaSpSm Study of analytical techniques used to evaluate business concepts and new business development. Corequisite: BAEP 549 or BAEP 550 or BAEP 551 or (GSBA 550a andGSBA 550b) Registration Restriction: Online registration open only to graduate business and accounting majors. Duplicates Credit in BAEP 556 Instruction Mode: Lecture Grading Option: Letter

BAEP 553 Cases in New Venture Management
Units: 1.5, 3 Terms Offered: FaSpSm Cases and readings expose students to the challenges of developing long-range strategies for entrepreneurial ventures. Case work emphasizes developing new industries, growth through strategic alliances, and issues involved in the long-term strategic positioning of emerging companies. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

BAEP 554 Venture Initiation
Units: 3 Terms Offered: Sp Learn to launch and scale a new business through entrepreneurial action and execution. Prerequisite: BAEP 552 or BAEP 556 or BAEP 566. Instruction Mode: Lecture Grading Option: Letter

BAEP 555 Founder’s Dilemmas: Anticipate and Avoid Startup Pitfalls
Units: 3 Terms Offered: Sp Delves into founders' early decisions about when and whether to found, co-founders, hires, and investors that tend to get them into trouble down the road. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 556 Technology Feasibility
Units: 3 Terms Offered: Fa Learn critical thinking and analytical skills they need to evaluate, value, and manage technology as intellectual property. Understand the technology commercialization process, use data mining and assessment techniques for patent databases, and study the unique business issues facing high technology start-ups. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 557 Technology Commercialization
Units: 3 Terms Offered: FaSpSm Focused on evaluating and commercialization of new technologies. Emphasis will be placed on the legal, financial and marketing aspects of technology transfer and development. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 558 The Entrepreneurial Advisor: Problem Solving for Early-Stage Companies
Units: 1.5, 3 Terms Offered: FaSp Experiential course designed to develop skills in framing and solving complex problems in young companies. Apply skills to real ventures participating in course projects. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 559 Investing in New Ventures
Units: 3 Terms Offered: FaSpSm Focus on the entrepreneurial skill set applied to new venture opportunities. Taught from the business plan reader's point of view; focus on selecting opportunities, structuring the relationship, adding value and realizing the value of that investment. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

BAEP 560 Acquiring Your Own Business or Opportunity
Units: 3 Terms Offered: Sp Issues faced by the entrepreneur who wishes to acquire an enterprise; appropriateness of an enterprise, understanding financing sources and valuation methods, developing a plan for due diligence, negotiating and consummating
the transaction. The acquisition process, approaches to valuation, and the roles of the various parties in negotiating and consummating an acquisition of an existing business. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences
Units: 1.5 Terms Offered: Sp The challenges of new venture creation in the biotechnology, medical device, and healthcare areas; experience, evaluate, and analyze profits of current impact in the life sciences. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 562 Entrepreneurship in eCommerce
Units: 1.5 Terms Offered: FaSp Introduction to building, funding, and running an entrepreneurial eCommerce venture. Registration Restriction: Online registration open to only graduate and business students. Instruction Mode: Lecture Grading Option: Letter

BAEP 563 Corporate Entrepreneurship
Units: 3 Terms Offered: To develop skills needed to lead and manage teams within large organizations, leading to entrepreneurship. Preparation: Prerequisite: BAEP 556 Entrepreneurship in eCommerce. Instruction Mode: Lecture Grading Option: Letter

BAEP 564 Investing in Impact Ventures
Units: 3 Terms Offered: To explore the role of social impact investing, learn how social entrepreneurs attract for-profit investors and how conscious investors are using business as a tool to achieve social impact. Registration Restriction: Online registration open only to graduate business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

BAEP 566 Cases in Feasibility Analysis for Social Ventures
Units: 3 Terms Offered: FaSp Study of analytical techniques used to evaluate business opportunities. Prerequisite: BAEP 556 Entrepreneurship in eCommerce. Instruction Mode: Lecture Grading Option: Letter

BAEP 567 Social Entrepreneurship: Design, Develop, and Deliver
Units: 3 Terms Offered: To develop social entrepreneurs with a specific focus on the development of a new social venture. Prerequisite: BAEP 561 Entrepreneurship in Innovative Industries: Life Sciences. Corequisite: BAEP 552 Instruction Mode: Lecture Grading Option: Letter

BAEP 567 Social Innovation Design
Units: 3 Terms Offered: To develop social entrepreneurs with a specific focus on the development of a new social venture. Prerequisite: BAEP 556 Registration Restriction: Open only to master students in Social Entrepreneurship Instruction Mode: Lecture Grading Option: Letter

BAEP 568 Applications of Physical Methods in Biochemistry
Units: 2 Terms Offered: FaSp Study of analytical techniques used to evaluate business opportunities. Prerequisite: BAEP 556 Entrepreneurship in eCommerce. Instruction Mode: Lecture Grading Option: Letter
utilized in research in biochemistry and molecular biology. Concurrent Enrollment: Concurrent enrollment: CHEM 521.

BIOC 531 Cell Biology
Units: 4 (Enroll in INTD 531)

BIOC 536 Molecular Biology of Cellular Communication in the Nervous System
Units: 2 Terms Offered: Sp Discussion of cellular communications in the nervous system through neurotransmitters and their receptors, neuromodulators; biochemical changes during development and the impact of human genomic research. Recommended Preparation: one year of general biochemistry or molecular biology. (Tokes)
Instruction Mode: Lecture Grading Option: Letter

BIOC 542 Cellular and Molecular Basis of Animal Development
Units: 4 Terms Offered: Fa Processes of cell type specification, determination, and morphogenesis in metazoa from vertebrates to insects. Genetic, paragenetic and molecular biological approaches to developmental processes. Prerequisite: INTD 571. (Maxson) Instruction Mode: Lecture Grading Option: Letter

BIOC 543 Human Molecular Genetics
Units: 4 Terms Offered: Fa Comprehensive course covering basic principles of human genetics, genetic disease, the Human Genome Project, and gene therapy. Recommended Preparation: undergraduate genetics. (Aifayee) Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM-549

BIOC 549 Protein Chemistry – Structure and Function
Units: 4 Terms Offered: FaSpSm (Enroll in INTD 549)

BIOC 551 Procaryotic Molecular Genomics
Units: 4 Terms Offered: Fa (Enroll in MICE 551)

BIOC 555 Biochemical and Molecular Bases of Disease
Units: 4 (Enroll in INTD 555)

BIOC 557 Biochemistry of Anti-Cancer Agents
Units: 2 Explore how the development of various classes of anti-cancer drugs came about: the rationales behind their design, what was discovered about their biochemical mechanisms of action and whether their clinical activities came up to the original expectations. Other aspects such as the origin of the concepts of combination chemotherapy and biochemical modulation will also be addressed. Instruction Mode: Lecture Grading Option: Letter

BIOC 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

BIOC 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

BIOC 573 Optimal Research Presentations by PhD Students
Units: 1 Max Units: 12 Terms Offered: FaSp

Students will attend lectures by peers, and after their first year in the PhD program, prepare and present their own research to an audience of faculty and peers. Registration Restriction: Open only to Biochemistry and Molecular Medicine and Molecular Epidemiology majors Instruction Mode: Lecture Grading Option: Credit/No Credit

BIOC 574 Systems Physiology and Disease II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

BIOC 575 Predictive and Prognostic Biomarkers in Cancer Treatment
Units: 2 Exploration of how appropriate biomarkers can predict response to cancer therapy, tumor recurrence after surgery, rapid detection of tumor response and overall prognosis. Recommended Preparation: INTD 571 and a basic understanding of molecular biology. Instruction Mode: Lecture Grading Option: Letter

BIOC 581 Toolbox for Biochemistry and Molecular Biology
Units: 4.0 Terms Offered: Fa Explores the principles and applications of traditional and state-of-the-art methods in molecular biology and biochemistry with live demonstrations of techniques when feasible. Recommended Preparation: Fundamental knowledge of DNA, RNA and protein Concurrent Enrollment: BIOC 571 Instruction Mode: Lecture Grading Option: Letter

BIOC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BIOC 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 594c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 794d Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BIOC 794e Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Biological Sciences

BISC 101Lgx Cellular and Molecular Biology
Units: 4 Terms Offered: FaSp Smaller cell biology with examples related to human biology and diseases. Fundamental life processes examined at the genetic, cellular and molecular levels. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Credit Restriction: Not for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 102Lgx Humans and Their Environment
Units: 4 Terms Offered: FaSp An examination of the physical and biological laws that influence agriculture, pollution, population dynamics (including humans), climate, biodiversity and ecosystem structure and function. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 103Lgx General Biology for the Environment and Life
Units: 4 Study of common skills in biology, including basics of evolution, systematics, ecology, genetics, biochemistry and molecular biology, physiology, and anatomy. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Grading Option: Letter

BISC 104Lgx How the Body Works
Units: 4 Terms Offered: Fa Structure and function of the human body, including the role of organ systems, tissue, and cells in normal function. Malfunctions relating to disease, substance abuse and lifestyle. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 108L Special Laboratory I Units: 1 Laboratory component for BISC 120 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 109L Special Laboratory II Units: 1 Laboratory component for BISC 220 for entering freshmen or transfer students with advanced placement or equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 110L Introduction to Research I Units: 1 Terms Offered: A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Corequisite: BISC 120L or BISC 121L; Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 112L Introduction to Research II Units: 1 Terms Offered: A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Corequisite: BISC 220L or BISC 221L; Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 115L The Biology of Food Units: 4 Terms Offered: Fa Exploration of molecular biology, biochemistry, microbiology, nutrition and the history of biology through the study of food, focusing on food's relationship to the biological world. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in BISC 115L, BISC 115L.x, and BISC 221L; Instruction Mode: Lecture; Lab Required Grading Option: Letter

BISC 120L Advanced General Biology: Organismal Biology and Evolution Units: 4 Terms Offered: Fa In-depth survey of key topics related to advances in our knowledge of the diversity of life and evolution; origin of life; eukaryotes/prokaryotes; ecology. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in BISC 112L, BISC 113L, and BISC 120L; Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 140L Our Blue Planet in a Changing Climate Units: 4 Terms Offered: Sp Introduction to biological oceanography and marine ecosystems. Impacts of climate changes on marine ecosystems. Analysis of ocean-related case studies being discussed by mainstream media. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 150L The Nature of Human Health and Disease Units: 4 Terms Offered: FaSp The human organism: the nature of inherited and acquired diseases; the biological and societal basis for the AIDS epidemic; therapy, drug design and the future. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for credit in any major. Instruction Mode: Lecture; Lab Required Grading Option: Letter

BISC 180L Evolution Units: 4 Terms Offered: Sp Changes in the physical and biological universe over time; origins of life, dinosaurs, human evolution. Implications of evolutionary mechanisms and mass extinctions for human survival. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for credit in any major. Instruction Mode: Lecture; Lab Required Grading Option: Letter

BISC 193 Introduction to Research I Units: 1 Terms Offered: Fa A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Corequisite: BISC 120L or BISC 121L; Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 194 Introduction to Research II Units: 1 Terms Offered: Sp A series of lectures and discussions at which faculty of the department introduce their research activities to students entering biology and related majors. Corequisite: BISC 220L or BISC 221L; Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 199 Neuroscience Colloquium Units: 1 Terms Offered: Sp Introduction to research activities conducted by Neuroscience faculty at USC. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as NEUR 199

BISC 220L General Biology: Cell Biology and Physiology Units: 4 Terms Offered: Sp In-depth survey of key topics related to advances in our knowledge of cellular biology and physiology: cell composition/metabolism; gene action; organism structure and function. Recommended Preparation: high school chemistry; BISC 120L or BISC 121L; Satisfies New General Education in Category D: Life Sciences Duplicates Credit in BISC 110L, BISC 111L, and BISC 221L; Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 221L Advanced General Biology: Cell Biology and Physiology Units: 4 Terms Offered: Sp Equivalent to 220L, but taught at a higher level for exceptionally well-prepared students. Admission to the course by departmental approval only. Corequisite: BISC 120L, BISC 121L or CHEM 105BL or CHEM 115BL; Satisfies New General Education in Category D: Life Sciences Duplicates Credit in BISC 110L, BISC 111L, and BISC 220L; Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 230L The Biology of the Brain Units: 4 Terms Offered: FaSpSm The structure and function of the mammalian brain including the role of the brain in regulating behavior, both in normal and diseased states; in relation to mind; and in comparison with machine forms of intelligence. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Credit Restriction: Not available for major credit Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 290 Introduction to Biological Research Units: 2 or 4 Max Units: 4.0 Terms Offered: FaSpSm Experience in basic techniques through supervised research in the research laboratory of a departmental faculty member. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; CHEM 105BL or CHEM 115BL; departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 300L Introduction to Microbiology Units: 4 Terms Offered: Sp Comparative approach to bacteria, Archaea and viruses; their structure, life cycles, geochemical activity, ecology and nutrition. Fundamentals of metabolism and microbial genetics. Prerequisite: BISC 320L or BISC 321L or CHEM 325L; Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 305 Introduction to Statistics for Biologists Units: 4 Terms Offered: Fa Statistical methods in biological science and medicine, including populations and samples, random sampling, confidence intervals, paired samples and regression. Instruction Mode: Lecture, Discussion Grading Option: Letter

BISC 307L General Physiology Units: 4 Terms Offered: Sp Physiological functions of the circulatory, digestive, endocrine, integumentary, musculoskeletal, nervous, respiratory, and urogenital systems of animals. Prerequisite: BISC 220Lg or BISC 221Lg; Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 312L Molecular Biochemistry Units: 4 Terms Offered: FaSp Structure and function of biological macromolecules; major metabolic pathways including glycolysis and photosynthesis. DNA replication, repair, and recombination; gene expression, regulation and epigenetics. Recommended Preparation: BISC 220 or BISC 221; Instruction Mode: Lecture Gradining
terrestrial ecosystems with emphasis on protecting biological diversity and balancing the needs of nature with those of humans. **Recommended Preparation:** Introductory course in biology such as BISC 103, BISC 120 or BISC 121, or AP Biology credit. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ENST-352

**BISC 369L Ecology and the Natural History of California**
Units: 4 Terms Offered: Sp Marine, freshwater, and terrestrial communities of California. Life histories, morphology, special evolutionary adaptations. Relationships between organisms and their biological-physical-chemical environment. Offered on Catalina. Emphasis on field biology. **Prerequisite:** BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 371L Molecular Approaches to the Diversity of Life**
Units: 4 Terms Offered: Patterns of evolutionary change investigating the molecular basis of heredity utilizing DNA data. History, principles and application of molecular systematics, and genetic variation. Taught on Catalina Island. **Prerequisite:** BISC 120Lg or BISC 121Lg. **Recommended Preparation:** BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 390 Special Problems**
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. **Instruction Mode:** Lecture Grading Option: Letter

**BISC 403 Advanced Molecular Biology**
Units: 4 Terms Offered: Molecular mechanisms and control of DNA replication, DNA repair, recombination, gene expression, cell growth, and development in prokaryotic and eukaryotic organisms. Taught on Catalina Island. **Prerequisite:** BISC 320. **Recommended Preparation:** BISC 313 or BISC 325. Instruction Mode: Lecture, Lab Grading Option: Letter

**BISC 405L General Embryology**
Units: 4 Terms Offered: Sensory systems applied to prokaryotic and eukaryotic model systems; neural integration and mechanisms of neurotransmission; intracellular and extracellular signaling; hormonal regulation of reproductive cycles; cleavage through neurulation and subsequent development of primary organs. **Prerequisite:** BISC 120Lg or BISC 121Lg. **Recommended Preparation:** two from BISC 313, BISC 320L, BISC 325 and BISC 330L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 406L Biotechnology**
Units: 4 Terms Offered: Techniques in molecular biology and biochemistry applied to prokaryotic and eukaryotic model systems; applications of recombinant DNA and genomic technology. **Prerequisite:** BISC 320L. **Recommended Preparation:** BISC 313 or BISC 325. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 407 Cellular and Molecular Neuroscience**
Units: 4 Terms Offered: FaSpSm An examination of individual nerve cell development, target location, and establishment of functional synapses; how dysfunction in these processes contributes to neurological and neuropsychiatric diseases. **Recommended Preparation:** BISC 421. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR-407

**BISC 408 Systems Neuroscience: From Synapses to Perception**
Units: 4 Terms Offered: Sp Advances and trends in the understanding, diagnosis and treatment of human diseases. **Prerequisite:** BISC 330L. **Instruction Mode:** Lecture Grading Option: Letter

**BISC 411 Advanced Cell Biology**
Units: 4 Terms Offered: FaSpSm The synthesis, transport and assembly of the complex structures that mediate eukaryotic cellular function. Electrical and biochemical mechanisms underlying intercellular communication. **Prerequisite:** BISC 220Lg or BISC 221Lg; BISC 320L. Instruction Mode: Lecture Grading Option: Letter

**BISC 414 Biology of Cancer**
Units: 4 Terms Offered: Sp Focus on the advances in molecular biology of cancer, from fundamental molecular signaling pathways to DNA repair to stem cell biology, through primary research literature reviews. **Prerequisite:** BISC 325. **Instruction Mode:** Lecture Grading Option: Letter

**BISC 419L Environmental Microbiology**
Units: 4 Terms Offered: FaSpSm Qualitative and quantitative appraisal of microbial activities in pure and contaminated environments; microbial community and its development; interspecific relationships; effects of microorganisms on their surroundings. **Prerequisite:** BISC 330L. **Recommended Preparation:** BISC 300L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 421 Neurobiology**
Units: 4 Terms Offered: FaSpSm The structure, function, and development of nervous systems; neural integration and mechanisms of behavior; organization and operation of brains. **Prerequisite:** BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as NEUR-421

**BISC 422L Neurobiology Laboratory**
Units: 2 Terms Offered: FaSpSm Experiments on excitable cells, synapses, and neural circuits; intracellular and extracellular techniques for recording, stimulation, and identification of neuron and muscle cells. **Corequisite:** BISC 421. **Instruction Mode:**
Lab Required Grading Option: Letter

**BISC 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders**
Units: 4 Terms Offered: Sp Examination of various neurological disorders originating from developmental signaling and/or anatomical abnormalities. Prerequisite: BISC 421 Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 423

**BISC 424 Brain Architecture**
Units: 4 Terms Offered: Sp How the parts of the brain are interconnected to form a complex biological computer, from historical, evolutionary, and developmental perspectives. Prerequisite: BISC 421 Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 424

**BISC 425 Advanced Genetics through the Primary Scientific Literature**
Units: 4 Terms Offered: Sp Literature-based seminar in current and classical topics in genetics. Prerequisite: BISC 325, Instruction Mode: Lecture Grading Option: Letter

**BISC 426 Principles of Neural Development**
Units: 4 Terms Offered: Sp Basic phenomena and principles of neural development, their relation to functional development of neural circuits, behavior, and disease. General concepts and experimental approaches are emphasized. Prerequisite: BISC 421. Instruction Mode: Lecture Grading Option: Letter

**BISC 427 The Global Environment**
Units: 4 Terms Offered: FaSpSm Earth's development as a habitable planet, from origin to human impacts on global biogeochemical cycles in the ocean, land, and atmosphere. Discussion of environmental alternatives. Prerequisite: ((BISC 120Lg or BISC 121Lg) and (CHEM 105bL or CHEM 115bL)) or (BISC 103Lg and CHEM 103Lg)). Registration Restriction: Open only to Biological Sciences, Environmental Studies, Earth Sciences, and Geological Sciences majors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 427, GEOL 427

**BISC 428 The Biology of Tropical Diseases**
Units: 4 Terms Offered: FaSpSm Biological and biochemical approaches to the prevention and treatment of infectious and chronic tropical diseases. Course is offered off campus and summer only. Instruction Mode: Lecture Grading Option: Letter

**BISC 429 Cancer Immunology**
Units: 4 Terms Offered: Sp In-depth study of the role of the immune system in oncogenesis. Discussion of cellular transformation, immune surveillance, immune-based therapies, and new approaches in cancer treatment. Prerequisite: BISC 220Lg or BISC 221Lg. Recommended Preparation: Familiarity with Molecular Biology, Genetics, Principles of Immunology. Instruction Mode: Lecture Grading Option: Letter

**BISC 431L Aquatic Microbiology**
Units: 4 Terms Offered: FaSpSm Introduction to the habitat, phylogenetic, physiological and metabolic diversity of microbial life in aquatic environments. Prerequisite: BISC 220Lg or BISC 221Lg. Duplicates Credit in BISC 419L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 434 Introduction to Genome Science**
Units: 4 Terms Offered: Sp Characterization of the sequence, function and evolution of genomes; study of the molecular basis of phenotypes and the relationship between genomics and synthetic biology. Recommended Preparation: BISC 325. Instruction Mode: Lecture Grading Option: Letter

**BISC 435 Advanced Biochemistry**
Units: 4 Terms Offered: Sp Macro molecular structure and function; enzymology; metabolic regulation. Prerequisite: BISC 330L. Instruction Mode: Lecture Grading Option: Letter

**BISC 437L Comparative Physiology of Animals**
Units: 4 Terms Offered: Sp Control of the internal environment of animals in relation to their external environment. Thermal regulation, osmoregulation, excretion, and ion balance. Offered on Catalina. Prerequisite: BISC 120 or BISC 121; BISC 220 or BISC 221; Recommended Preparation: two from BISC 313, BISC 320L, BISC 325 and BISC 330L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 438 Nutritional Biochemistry**
Units: 4 Terms Offered: FaSpSm Metabolism of carbohydrates, proteins, fats. Biochemical basis of nutrition's impact on metabolic functions, including vitamins, minerals and biologically active non-nutrients; medical aspects of nutrition. Prerequisite: BISC 330L. Instruction Mode: Lecture Grading Option: Letter

**BISC 440 Biodemography of Aging**
Units: 4 (Enroll in GERO 440) Instruction Mode: Lecture Grading Option: Letter

**BISC 441 Seminar in Primary Scientific Literature**
Units: 2 Terms Offered: FaSpSm Overview of lectures, laboratory exercises and field techniques used in oceanography and biological oceanography. Required Grading Option: Letter

**BISC 442 Seminar in Marine and Biological Oceanography**
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Seminar in marine and environmental biology. Instruction Mode: Lecture Grading Option: Letter

**BISC 445L Fundamentals of Vertebrate Biology**
Units: 4 Terms Offered: Sp Evolution and comparative anatomy of vertebrates. Prerequisite: BISC 120Lg or BISC 121Lg. Recommended Preparation: two from BISC 313, BISC 320L, BISC 325 and BISC 330L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 447L Island Biogeography and Field Ecology**
Units: 4 Terms Offered: Sp Biogeography, ecology, climate, flora, and fauna of terrestrial and marine environments of Catalina and the Channel Islands including laboratory and field techniques of ecology. Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 450L Principles of Immunology**
Units: 4 Terms Offered: Fa Immune processes, humoral and cellular; immunoglobulins; antibody formation; antigen-antibody interactions; immune dyscrasias; transplantation and tumor immunology; basic hematology and immunohematology. Prerequisite: BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 455L Molecular Approaches to Microbial Diversity — Catalina Semester**
Units: 4 Terms Offered: Fa Overview and practical application of genetic and immunological techniques for examining diversity and community structure of natural microbial assemblages in aquatic ecosystems. Prerequisite: BISC 320L; Corequisite: BISC 431L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 456L Conservation Genetics**
Units: 4 Terms Offered: Sp Biological principles underlying conservation including ecology, evolution, genetics and biogeography. Covers both marine and terrestrial environment, with special emphasis on island biology. Catalina semester only. Prerequisite: BISC 120Lg or BISC 121Lg; BISC 220Lg or BISC 221Lg; Recommended Preparation: BISC 320L; BISC 313 or BISC 325. Duplicates Credit in BISC 373L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 457L Methods in Marine Biology and Biological Oceanography**
Units: 4 Terms Offered: Sp Introduction to standard methods used in oceanography and marine biology through a combination of lectures, laboratory exercises and field experiences. Prerequisite: BISC 103 or BISC 120 or BISC 121. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**BISC 460 Seminar in Marine and Environmental Biology**
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Seminar in marine and environmental biology. Instruction Mode: Lecture Grading Option: Letter

**BISC 461 Seminar in Molecular and Computational Biology**
Units: 2 Terms Offered: FaSpSm Seminar in molecular and computational biology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GERO-461

**BISC 462 Seminar in Neurobiology**
Units: 2 Max Units: 04 Terms Offered: FaSpSm Seminar in neurobiology. Registration Restriction: Open only to juniors, seniors, master and doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 462

**BISC 469L Marine Biology**
Units: 4 Terms Offered: FaSpSm Oceanography and marine biology, sampling techniques, evolutionary adaptations, morphology, systematics. Prerequisite: BISC 103Lg or BISC 120Lg or BISC 121Lg. Recommended...
**BISC 473L Instruction Mode:** Lecture, Lab Required Grading Option: Letter

**BISC 473L Biological Oceanography**
Units: 4 Terms Offered: Fa Biological, physical, chemical dynamics and analysis of the ocean; primary production of phytoplankton, secondary production by zooplankton, bacterial remineralization; physiology, ecology of fishes, marine mammals. Prerequisite: BISC 103 or BISC 120 or BISC 121Lg. Registration Restriction: Junior, Senior, or with permission from the instructor Instruction Mode: Lecture, Lab Grading Option: Letter

**BISC 474L Ecosystem Function and Earth Systems**
Units: 4 Terms Offered: Fa General principles of ecosystem function, energy flow and materials cycling in marine systems at various scales and the importance of microbial processes in these systems. Taught on Catalina Island. Prerequisite: BISC 120Lg or BISC 121Lg. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as GEOL-474

**BISC 478 Computational Genome Analysis**
Units: 4 Terms Offered: Sp Introduction to and applications of algorithms and statistics to genome analysis. Analysis of physical and genetic maps, DNA sequencing, sequence comparisons, DNA chips. Instruction Mode: Lecture Grading Option: Letter Crosslisted as QBIO 478

**BISC 480 Developmental Biology**
Units: 4 Terms Offered: FaSp Basic mechanisms of animal development are considered at different levels of analysis. Emphasis is on molecular, genetic, and cellular processes underlying vertebrate and invertebrate development. General concepts and evolutionary mechanisms are emphasized. Prerequisite: BISC 220Lg or BISC 221Lg. Instruction Mode: Lecture Grading Option: Letter

**BISC 481 Structural Bioinformatics: From Atoms to Cells**
Units: 4 Terms Offered: Fa Introduction to computational and experimental methods for structural bioinformatics. Analysis of macro molecules and their complexes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as QBIO 481

**BISC 483 Geobiology and Astrobiology**
Units: 4 Terms Offered: Sp Relationships between microbiota and the earth environment including the hydrosphere, lithosphere and atmosphere, with consideration of the potential for life on other planets. Prerequisite: BISC 120Lg, CHEM 105Lg. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GEOB-483

**BISC 485 Advanced Seminar in Bacterial Survival and Evolution**
Units: 4 Terms Offered: Sp Literature-based seminar in current topics in microbial evolution and adaptation. Prerequisite: BISC 120 or BISC 121, BISC 220 or BISC 221, BISC 320, CHEM 322a or CHEM 325a. Instruction Mode: Lecture Grading Option: Letter

**BISC 486 Regenerative Medicine: Principles, Paradigms and Practice**
Units: 4 Terms Offered: Fa Examination of molecular and cellular processes that generate, maintain and repair body systems. Special emphasis on stem cell biology with clinical applications to regenerative medicine. Prerequisite: (BISC 220Lg or BISC 221Lg) or BISC 320L Instruction Mode: Lecture Grading Option: Letter

**BISC 490 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSn Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

**BISC 493x Honors Seminar**
Units: 1 Max Units: 4.0 Terms Offered: FaSp Prerequisite: BISC 120Lg or BISC 121Lg. Lecture Grading Option: Letter

**BISC 494x Honors Thesis**
Units: 2 Terms Offered: FaSp Prerequisite: BISC 493. Instruction Mode: Lecture Grading Option: Letter

**BISC 499 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Lecture and discussion in specialized areas of the biological sciences. Students cannot register more than twice for this course. Recommended Preparation: BISC 220Lg or BISC 221Lg, BISC 320L, BISC 325 and BISC 330L. Instruction Mode: Lecture Grading Option: Letter

**BISC 502a Molecular Genetics and Biochemistry**

**BISC 502b Molecular Genetics and Biochemistry**

**BISC 503 Laboratory Techniques in Cellular and Molecular Biology**
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Rotation of graduate students through Molecular Biology research laboratories to learn the major technological skills required in the field. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**BISC 503 Laboratory Techniques in Cellular and Molecular Biology**
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Rotation of graduate students through Molecular Biology research laboratories to learn the major technological skills required in the field. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**BISC 504L Laboratory Techniques in Cellular and Molecular Biology**
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Rotation of graduate students through Molecular Biology research laboratories to learn the major technological skills required in the field. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**BISC 505 Genomics and Molecular Genetics**
Units: 4 Terms Offered: Sp Molecular genetics (mutagenesis, repair, recombination, and gene regulation) from quantitative and mechanistic approaches. Simple and complex genome analysis using recombinant DNA, physical, and computational techniques. Recommended Preparation: BISC 502b. Instruction Mode: Lecture Grading Option: Letter

**BISC 510a Evolutionary Biology**
Units: 4 Terms Offered: Fa Current topics in integrative biology including form, function and energy use throughout the lifespan in the context of genetics, natural selection and ecology. Duplicates Credit in the former BISC 510a. Instruction Mode: Lecture Grading Option: Letter

**BISC 512 Evolution and Human Biology**
Units: 4 Terms Offered: Fa Topics in evolution and human biology with emphasis on life span, form, function and energy use in the context of genetics, natural selection and ecology. Instruction Mode: Lecture Grading Option: Letter

**BISC 515 Evolution and Human Biology**
Units: 4 Terms Offered: Fa Topics in evolution and human biology with emphasis on life span, form, function and energy use in the context of genetics, natural selection and ecology. Instruction Mode: Lecture Grading Option: Letter

**BISC 518 Recent Advances in Neurobiology and Endocrinology of Aging**
Units: 2, 4 (Enroll in GERO 519)

**BISC 520 Recent Advances in Neurobiology**
Units: 2 or 4 Max Units: 12.0 Terms Offered: Fa Lectures on selected topics in neurobiology. Registration restricted to three semesters. Prerequisite: graduate status in departmental program or departmental approval. Instruction Mode: Lecture Grading Option: Letter

**BISC 521 Hearing and Communication Neuroscience**
Units: 4 Terms Offered: Sp A basic grounding in broad aspects of the neuroscience of hearing and vocal communication. Prerequisite: BISC 421 and NSCI 524 Instruction Mode: Lecture Grading Option: Letter Crosslisted as NSCI 521

**BISC 522 Nonlinear Dynamical Systems, Vibrations, and Chaos**
Units: 3 Terms Offered: Sp (Enroll in AME 520)

**BISC 529 Seminar in Marine Biology**
Units: 1 Max Units: 4.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Credit/No Credit

**BISC 530 Advanced Seminar in Plankton Biology**
Units: 2 Terms Offered: FaSp An overview of phytoplankton and zooplankton taxa, their morphologies and life histories using material collected from the local environment off LA and near the Phillip K. Wrigley Marine Science Center on Catalina Island. Instruction Mode: Lecture Grading Option: Letter

**BISC 531 Advanced Seminar on the Physiology of Marine Organisms**
Units: 2 Terms Offered: FaSp Physiological processes dictate survival potential, growth rates, and many other biological
processes that affect the distribution of species in the oceans. Emphasis on the diverse environmental factors that influence physiological adaptations of marine organisms. Examples from a wide variety of marine organisms, from bacterial to animals, will be studied. Instruction Mode: Lecture Grading Option: Letter

BISC 532 Advanced Seminar in Molecular and Microbial Ecology
Units: 2 Terms Offered: FaSp
Microorganisms dominate biological processes in the ocean. These species pose significant problems for estimating species diversity, abundance and activity. Examination of modern molecular biological approaches for analyzing aquatic microbial communities and their ecological roles. Instruction Mode: Lecture Grading Option: Letter

BISC 533 Advanced Seminar in Remote Sensing and Modeling
Units: 2 Modern oceanographic methods for making remote measurements of aquatic and terrestrial ecosystems using satellite imagery and other means. Integrating these data into models that describe ecosystem structure and enable interpretation of ecosystem function. Instruction Mode: Lecture Grading Option: Letter

BISC 534 Advanced Seminar in Population Genetics of Marine Organisms
Units: 2 An overview of the theory underlying population and quantitative genetics, with applications to marine systems. Basic evolutionary mechanisms (mutation, migration, drift, selection, nonrandom mating) and modern evidence for their roles in structuring genetic variation within and among marine populations. Instruction Mode: Lecture Grading Option: Letter

BISC 535 Seminar in Physiology
Units: 2 Max Units: 8.0 Terms Offered: FaSp
Instruction Mode: Lecture Grading Option: Letter

BISC 536 Advanced Seminar in Marine Biogeochemistry
Units: 2 Examination of the interplay between ocean biology and the cycling of carbon, nitrogen and other elements on a local, regional and global scale. Instruction Mode: Lecture Grading Option: Letter

BISC 537 Seminar in Cellular and Molecular Biology
Units: 2 Max Units: 8.0 Terms Offered: FaSp
Instruction Mode: Lecture Grading Option: Letter

BISC 538 Metals and Biology in Oceanic Regimes
Units: 2 Terms Offered: Sp Relationships between metals in reducing regimes and microbes that utilize them for metalloenzymes. Focus on biological availability of micronutrient and processes like chemosynthesis or biomethanogenesis. Instruction Mode: Lecture Grading Option: Letter

BISC 542 Seminar in Molecular Biology
Units: 1 Max Units: 6.0 Terms Offered: FaSp
Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 543 Human Molecular Genetics
Units: 4 (Enroll in BIOC 543)

BISC 544 Advanced Reading in Molecular Biology
Units: 1, 2 Max Units: 04 Terms Offered: FaSpSm Advanced training for molecular biology graduate students in reading primary journal articles. Emphasis on critical analyses of primary scientific literature. Registration Restriction: Open only to master and doctoral students in Computational Molecular Biology, Molecular Biology, Computational Biology and Bioinformatics majors. Instruction Mode: Lecture Grading Option: Letter

BISC 545 Modeling and Numerical Techniques for Marine Scientists
Units: 4 Terms Offered: Sp Statistical analyses of data sets, development of modeling frameworks, numerical models of varying complexity, and techniques for analyzing model results. Recommended Preparation: Suggested reading MATLAB Primer (Timothy Davis) Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as GEOL 545, OS 545

BISC 549 Seminar in Integrative and Evolutionary Biology
Units: 2 Max Units: 6.0 Terms Offered: FaSp
Current topics in integrative and evolutionary biology. Instruction Mode: Lecture Grading Option: Letter

BISC 572 Systems Physiology and Disease I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

BISC 574 Systems Physiology and Disease II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

BISC 576 Practical Statistics and Bioinformatics
Units: 2 Terms Offered: Fa Practical experience in statistics and bioinformatics methods, software packages applicable to molecular biology, genomics analysis, and structural bioinformatics and their underlying principles. Instruction Mode: Lecture Grading Option: Letter

BISC 577a Computational Molecular Biology Laboratory
Units: 2 Terms Offered: Sp Practical experience in computational molecular biology applications. Mathematical and statistical software packages relevant to genomic analysis. Retrieval and analysis of genomic data from databases. Recommended Preparation: higher level programming language. Duplicates Credit in former MATH 577Lab. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MATH-577A

BISC 577b Computational Molecular Biology Laboratory
Units: 2 Terms Offered: Fa Practical experience in computational molecular biology applications. Mathematical and statistical software packages relevant to genomic analysis. Retrieval and analysis of genomic data from databases. Recommended Preparation: higher level programming language. Duplicates Credit in former MATH 577lb. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MATH-577B

BISC 581L Current Problems in Marine Sciences
Units: 4 Max Units: 16.0 Terms Offered: Irregular In-depth studies on selected problems of current interest in the marine sciences. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BISC 582 Advanced Biological Oceanography
Units: 4 Terms Offered: Fa Aspects of physics and chemistry of the oceans. Qualitative and quantitative considerations of the ecology of pelagic and benthic communities. Instruction Mode: Lecture Grading Option: Letter Crosslisted as OS-582

BISC 583 Evolution and Adaptation of Marine Organisms
Units: 4 Terms Offered: Sp Fundamentals of evolutionary patterns and processes in the marine environment, with emphasis on rates of adaptation to a changing ocean. Instruction Mode: Lecture Grading Option: Letter

BISC 584 Faculty Lecture Series
Units: 2 Terms Offered: Sp Multi-instructor course designed to introduce students to the breadth and depth of faculty interests within the Marine Environmental Biology section of Biological Sciences and the Natural History Museum. Instruction Mode: Lecture Grading Option: Letter

BISC 585 Scientific Writing and Reviewing
Units: 2 Terms Offered: Sp Hands-on experience in writing and reviewing scientific literature. The review process and participation in writing and reviewing their own proposals. Instruction Mode: Lecture Grading Option: Letter

BISC 586 Biological Oceanographic Instrumentation
Units: 2 Terms Offered: Sp Survey of analytical principles, theory and application behind commonly used methodologies in biological oceanography. Instruction Mode: Lecture Grading Option: Letter

BISC 587 Communicating Ocean Science
Units: 4 Terms Offered: Sp Multi-instructor, interdisciplinary course focused on student awareness and improvement of cognitive processes used in research development, and communication of ocean literacy in the public sector. Recommended Preparation: Graduate level understanding of oceanographic principles. Instruction Mode: Lecture Grading Option: Letter

BISC 588L Quantitative Analysis for Biological and Earth Sciences
Units: 4 Terms Offered: Sp Basics of biometrics, biodiversity, quantitative methods in ecology, environmental impact assessments and other topics in quantitative analysis. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as GEOL-588

BISC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 539 Practicum in Teaching the Biological Sciences
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

BSC 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Instruction Mode: Lecture Grading Option: Letter

BSC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BISC 794 Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 550 Neurobehavioral Basis of Movement
Units: 4 Terms Offered: Sp Introduction to the neurobehavioral and neurobiological basis of movement. Review of information processing, neural basis of perception/action, motor systems, and higher cognitive function and behavior. Recommended Preparation: biology and physiology. Instruction Mode: Lecture Grading Option: Letter

BKN 551 Musculoskeletal and Biomechanical Basis of Movement
Units: 4 Terms Offered: Fa Introduction to the mechanical properties of the musculoskeletal system. Review of connective tissue and muscle mechanics, arthrology, anatomical design and statics. Laboratory dissections illustrate biomechanical concepts. Instruction Mode: Lecture Grading Option: Letter

BKN 552 Physiological Basis of Voluntary Movement
Units: 4 Terms Offered: Sp Consideration of the neuromuscular and musculoskeletal physiology of voluntary movement. Instruction Mode: Lecture Grading Option: Letter

BKN 553 Experimental Methods for the Analysis of Human Movement
Units: 4 Terms Offered: Fa Introduces students to the techniques and hardware used to record movement, measure movement-related variables, and analyze those variables to address hypotheses. Instruction Mode: Lecture Grading Option: Letter

BKN 557L Functional Neuroanatomy with Lab Dissection
Units: 3 Terms Offered: FaSpSm Comprehensive survey of regional neuroanatomy covered in lecture and laboratory format with dissection. In-depth consideration is given to neuroanatomical basis of sensory and motor function. Topics include neuroanatomical basis of cellular function, somatotopography, special senses, movement and distributed motor control, and homeostasis regulation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BKN 558 Systematic Research Writing
Units: 3 Terms Offered: Sp Introduces students to the techniques and hardware used to record movement, measure movement-related variables, and analyze those variables to address hypotheses. Instruction Mode: Lecture Grading Option: Letter

BKN 574 Advanced Topics in Biomechanics
Units: 2, 2 years Terms Offered: Sp Advanced study of the kinematics of human motion. Emphasis on the inverse dynamics solution to qualify forces and moments of force. Instruction Mode: Lecture Grading Option: Letter

BKN 566 Neurobiology of Locomotion
Units: 2 Terms Offered: FaSpSm Topics include developmental biology of embryonic motility, central pattern generators, descending neural regulation, sensory modulation, and perception/action influences on the motor control of locomotion. Prerequisite: BISC 524, BISC 525, Recommended Preparation: BKN 550. Instruction Mode: Lecture Grading Option: Letter

BKN 567 Advanced Topics in Biomechanics
Units: 2 Terms Offered: Sp Advanced examination of motion-analysis techniques, applications and data interpretation. Magnetic tracking techniques, upper-extremity kinematics, energy/work/impulse concepts, intersegmental dynamics, and EMG muscle modeling are examined. Prerequisite: BKN 563. Instruction Mode: Lecture Grading Option: Letter

BKN 573a Advanced Dissection Anatomy
Units: 2 Terms Offered: FaSpSm Advanced analysis of systems or structures with dissection. Emphasis on correlations with function. Instruction Mode: Lecture Grading Option: Letter

BKN 573b Advanced Dissection Anatomy
Units: 2 Terms Offered: FaSpSm Advanced analysis of systems or structures with dissection. Emphasis on correlations with function. Instruction Mode: Lecture Grading Option: Letter

BKN 575 Principles of Musculoskeletal Imaging
Units: 2 Terms Offered: Sm Basic principles of musculoskeletal imaging as it relates to biomechanics research. Topics include MRI physics, variable imaging parameters and selection of pulse sequences. Instruction Mode: Lecture Grading Option: Letter

BKN 578 Classic Readings in Biokinesiology
Units: 2 A seminar course in which students read and discuss classic scientific papers that have shaped the development of the movement sciences over the past 150 years. Instruction Mode: Lecture Grading Option: Letter

BKN 585 Systematic Research Writing
Units: 3 Terms Offered: Sm Development of analytical journal reading skills and proficiency in scientific writing. Lecture and tutorial format. Instruction Mode: Lecture Grading Option: Letter

BKN 587a Physiological Correlates of Therapeutic Exercise
Units: 4 Terms Offered: FaSpSm Responses of the physically handicapped to exercise. Emphasis on muscle, energy metabolism, body temperature, environment, endocrine considerations. Strengthening, training, endurance, and evaluation of performance. Instruction Mode: Lecture Grading Option: Letter

BKN 587b Physiological Correlates of Therapeutic Exercise
Units: 4 Terms Offered: FaSpSm Responses of the physically handicapped to exercise, with emphasis on cardiovascular and respiratory adaptations and pathology. Instruction Mode: Lecture Grading Option: Letter

BKN 588 Physiology and Biomechanics of Resistance Exercise
Units: 2 Terms Offered: Sp Science of resistance-exercise prescription, adaptation, and outcome assessment. Topics include periodization, neuromuscular and connective tissue adaptation, special populations, and biomechanical
considerations. Instruction Mode: Lecture Grading Option: Letter

BKN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 593 Behavioral Basis of Motor Control and Learning
Units: 3 Terms Offered: Fa
Movement science dealing with the behavioral basis of motor control and learning from an information processing perspective. Recommended Preparation: statistics; psychology. Instruction Mode: Lecture Grading Option: Letter

BKN 594a Master's Thesis
Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 594b Master's Thesis
Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 594c Master's Thesis
Units: 0 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Studies of scientific theory in physical therapy. Instruction Mode: Lecture Grading Option: Letter

BKN 600 Sports Science Internship
Units: 2, 3, 4 Terms Offered: FaSpSm A combination of observation, participation (testing, assessments, training) and analysis and interpretation of data. Supervision and guidance from the internship mentor will vary depending on the setting and credit hours. Allows students a progressively increasing amount of responsibility with respect to athlete/subject and/or data involvement. Prerequisite: BKN 551 and BKN 552 and BKN 550 and BKN 553
Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 610L Technology in Sport: Field Assessment of Athlete Performance
Units: 2 Terms Offered: FaSpSm
Introduction to training methods and techniques as they pertain to high performance athletes with a focus on advanced resistance training programs and periodization schemes. Prerequisite: BKN 551 and BKN 552 and BKN 550 and BKN 553
Instruction Mode: Lecture, Lab Required Grading Option: Letter

BKN 611L Technology in Sport: Physiological Assessments
Units: 2 Terms Offered: FaSpSm
Introduction to the physiological assessment of athlete performance. Focus on understanding, performing and interpreting physiological assessments such as metabolic testing (VO2max), hydration, oxygen saturation, body composition, lactate threshold, heart rate, core body temperature. Prerequisite: BKN 551 and BKN 552 and BKN 553
Instruction Mode: Lecture, Lab Required Grading Option: Letter

BKN 615 Principles of Skeletal Adaptation
Units: 4, 2 years
Terms Offered: Sp
Introduction to the integrative physiology of skeletal adaptation to mechanical loading. Emphasis on mechanical and chemical regulation of bone mass. Instruction Mode: Lecture Grading Option: Letter

BKN 617 Modeling the Motor System: An Introduction
Units: 2, 2 years
Terms Offered: Sp
Introduction of basic principles and models of the primate motor system. Emphasis on arm control. Instruction Mode: Lecture Grading Option: Letter

BKN 618L Modeling the Motor System: Laboratory
Units: 1, 2 years
Terms Offered: Sp
Introduction of computer programming and implementation of computational models in a laboratory setting. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BKN 621 Electromyography in Research and Practice
Units: 3, 2 years
Terms Offered: Fa
Physiology and electrophysiology of muscular contraction, how it is collected, quantified and processed. Uses of electromyographic information for research and clinical assessments. Recommended Preparation: human anatomy, skeletal muscle physiology. Instruction Mode: Lecture Grading Option: Letter

BKN 623 Neuroplasticity and Neural Repair
Units: 3, 2 years
Terms Offered: Fa
Integration of basic research on neuroplasticity and clinical research on central nervous system reorganization after brain injury. Implication for neurorecovery and rehabilitation. Instruction Mode: Lecture Grading Option: Letter

BKN 630 Resistance Training Techniques for High Performance Athletes
Units: 2 Terms Offered: FaSpSm
Introduction to training methods and techniques as they pertain to high performance athletes with a focus on advanced resistance training programs and periodization schemes. Prerequisite: BKN 551 and BKN 552 and BKN 550 and BKN 553
Instruction Mode: Lecture Grading Option: Letter

BKN 672 Advanced Independent Study in Biomechanics
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Examination of selected mechanisms underlying normal movement and pathological movement. Instruction Mode: Lecture Grading Option: Letter

BKN 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BKN 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 794c Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BKN 794d Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Biopharmaceutical Marketing
BPMK 500 Biopharmaceutical Market: Reimbursement Strategy
Units: 3 Terms Offered: Sm
Gain fundamental analytic skills and insights of medical trends directly from global payers, industry and government policy leaders covering healthcare reform, access and future therapies. Recommended Preparation: Graduate degree in pharmacy, medicine, or related MS or PhD program
Instruction Mode: Lecture Grading Option: Letter

BPMK 501 Healthcare Payers, Insurance and Coverage Policy
Units: 3 Terms Offered: Sm
Review evolution, design, forecasting future healthcare and coverage policies. Actuarial costs impact and controls on insurance premiums. Master and design successful formulary and reimbursement tactics. Instruction Mode: Lecture Grading Option: Letter

BPMK 502 Biopharmaceutical Product Development and Marketing
Units: 3 Terms Offered: Sm
Portfolio role of clinical trials, regulatory and government agencies in product development. Winning through strategy! Planning profiles for novel products R&D vs. unmet medical needs. Instruction Mode: Lecture Grading Option: Letter

BPMK 503 Biopharmaceutical Advertising and Communication
Units: 3 Terms Offered: Fa
Understand product positioning, timing and market opportunities. Key message development and communication pathways, budgets, quantitative measures for Grab and Growth! Integrated launch and market planning. Instruction Mode: Lecture Grading Option: Letter

BPMK 504 Payer Formulary Placement: Value and Access
Units: 3 Terms Offered: Sp
Profile insurance categories, controls and public demands.
Aligning formulary and value measures and research. Play to Win! Quantitative assessment of market segmentation and evidence generation. Instruction Mode: Lecture Grading Option: Letter

BME 300L Introduction to Biomedical Engineering

BME 302L Medical Electronics
Units: 4 Terms Offered: Sp Electronic design and measurements for medical applications. Use of integrated circuits, biopotential measurements, static and dynamic calibration of physiological transducers. Prerequisite: EE 202L Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 308L Computer-Aided Design for Biomechanical Systems
Units: 3 (Enroll in ITP 308) Prerequisite: BME 201 Corequisite: CHEM 322aL Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 340L Introduction to Bioengineering in Medicine
Units: 3 Terms Offered: Fa Bioengineering concepts and technologies applied to cancer diagnosis, drug discovery, immunotherapeutic development, and mechanistic research. Recommended Preparation: General cell biology (e.g., BISC 220Lg) and chemistry (e.g., CHEM 105aL) Instruction Mode: Lecture Grading Option: Letter

BME 340L Introduction to Biomedical and Tissue Engineering
Units: 3 Terms Offered: Fa Application of principles of physical chemistry, biochemistry, and materials engineering to biomedical problems, e.g., materials selection and design for implants and tissue replacement. Prerequisite: CHEM 322aL Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE-410

BME 412 Craniofacial and Dental Technology
Units: 4 (Enroll in DENT 412)

BME 413 Bioengineering Signals and Systems
Units: 4 (Enroll in ITP 413)
BME 414 Rehabilitation Engineering
Units: 3 Terms Offered: Sp An introduction to rehabilitation technology: limb and spinal orthoses; limb prostheses; functional electrical stimulation; sensory aids. Recommended Preparation: AIEEE Mode: Lecture, Discussion Grading Option: Letter

BME 416 Development and Regulation of Medical Products
Units: 3 Terms Offered: Sp An introduction to the process of medical product development with emphasis on the regulations that govern the design, fabrication, and maintenance of medical products. Instruction Mode: Lecture Grading Option: Letter

BME 423 Statistical Methods in Biomedical Engineering
Units: 4 Terms Offered: Fa Applications of parametric and nonparametric tests, analysis of variance, linear regression, time-series analysis, and autoregressive modeling, with biomedical applications to statistical analysis of biomedical data. Prerequisite: MATH 245 Instruction Mode: Lecture, Discussion Grading Option: Letter

BME 425 Basics of Biomedical Imaging
Units: 3 Terms Offered: Fa Engineering, clinical applications and modern physics concepts underlying X-ray imaging, Computed Tomography (CT), magnetic resonance imaging, diagnostic ultrasound imaging. Prerequisite: PHYS 152L Instruction Mode: Lecture Grading Option: Letter

BME 430 Principles and Applications of Systems Biology
Units: 3 Terms Offered: Fa Computational methods for simulation and analysis of metabolic networks, cellular signaling pathways, and gene regulatory networks. Biochemical kinetics, differential equations, stability analysis, sensitivity analysis. Prerequisite: MATH 245 and (BME 210 or CHE 205) Recommended Preparation: BISC 220L Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 430

BME 451 Fundamentals of Biomedical Microdevices
Units: 3 Terms Offered: Fa Introduction to biomedical microdevices with emphasis on microtechnologies and biomedical microelectromechanical systems (bioMEMS). Principles for measurement of small-scale biological phenomena and clinical applications. Prerequisite: EE 202L; Recommended Preparation: basic biology and electronics. Instruction Mode: Lecture Grading Option: Letter

BME 452 Introduction to Biomimetic Neural Engineering
Units: 3 Terms Offered: Fa Engineering principles, biology, technological challenges and state-of-the-art developments in design of implantable biomimetic microelectronic devices that interface with the nervous system. Prerequisite: EE 202L; Recommended Preparation: basic biology and electronics. Instruction Mode: Lecture Grading Option: Letter

BME 453 Engineering Biomedical Innovations
Units: 3 Terms Offered: Sp Engineering principles in design, modeling, and analysis of biomedical innovations will be presented to develop creative solutions for real-world medical problems or treatment implementation. Recommended Preparation: BME 416. Corequisite: BME 405L Instruction Mode: Lecture Grading Option: Letter

BME 459 Introduction to Nanomedicine and Drug Delivery
Units: 3 Terms Offered: Sp Introduction to drug delivery and biomedical applications of nanomedicine, including nanotechnology-based drug delivery, imaging, and tissue engineering approaches. Nanotoxicology and regulatory landscape is included. Prerequisite: CHEM 322a Recommended Preparation: BISC 220 Instruction Mode: Lecture Grading Option: Letter

BME 489 Biochemical Engineering
Units: 3 Terms Offered: Sp (Enroll in CHE 489) Recommended Preparation: BME 523

BME 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

BME 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Current trends and developments in the field of biomedical engineering. Instruction Mode: Lecture Grading Option: Letter

BME 501 Advanced Topics in Biomedical Systems
Units: 4 Terms Offered: FaSpSm Advanced topics in biomedical engineering: cardiovascular, neuromuscular, renal and endocrine. Instruction Mode: Lecture Grading Option: Letter

BME 502 Advanced Studies of the Nervous System
Units: 4 Terms Offered: Fa Advanced topics on the structure and function of the nervous system examined from the viewpoint of computational systems science. Instruction Mode: Lecture Grading Option: Letter

BME 504 Neuromuscular Systems
Units: 3 Terms Offered: Fa Introduces the fundamentals of mathematical, Newtonian, and robotic analysis applicable to multi-muscle biomechanical systems. Combines physiology with numerical simulations to understand and predict motor function. Recommended Preparation: Matlab programming, fundamentals of mechanics, linear algebra. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BKN-504

BME 505a Laboratory Projects in Biomedical Engineering
Units: 4 Terms Offered: FaSpSm Integration of biomedical science, engineering principles and state-of-the-art technology for the study of selected physiological systems in the laboratory setting. Laboratory. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

BME 505b Laboratory Projects in Biomedical Engineering
Units: 4 Terms Offered: FaSpSm Integration of biomedical science, engineering principles and state-of-the-art technology for the study of selected physiological systems in the laboratory setting. Laboratory. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

BME 506 Bioengineering of Disease and Cell Therapeutics
Units: 3 Terms Offered: Fa Introduction to the materials, tools, and techniques used to engineer functional biological tissues. Topics include stem cells, biomaterials, microfabrication, regenerative medicine, and Organics on Chips. Recommended Preparation: General cell biology (e.g. BISC 101L) and chemistry (e.g. CHEM 103L) Instruction Mode: Lecture Grading Option: Letter

BME 510 Cellular Systems Engineering
Units: 3 Terms Offered: Fa Introduction to micro- and nanotechnologies, microscopy, single-cell techniques, materials, surface chemistry, pathology, cancer, immunology, cell therapy, and grant writing in biomedical research. Recommended Preparation: General cell biology (e.g. BISC 101Lxg) and chemistry (e.g. CHEM 103Lxg) Instruction Mode: Lecture Grading Option: Letter

BME 511 Physiological Control Systems
Units: 3 Terms Offered: Fa Application of control theory to physiological systems; static analysis of closed-loop systems; time-domain analysis of linear control identification methods; nonlinear control. Recommended Preparation: BME 513. Instruction Mode: Lecture Grading Option: Letter

BME 513 Signal and Systems Analysis
Units: 3 Terms Offered: Fa Classification; representation; statistical analysis; orthogonal expansions; least-squares estimation; harmonic analysis; Fourier, Laplace, and Z transforms; the linear system; filtering; modeling and simulation; linear control theory. Instruction Mode: Lecture Grading Option: Letter

BME 520 Modeling of Bio-Systems
Units: 3 Terms Offered: Sp (Enroll in AME 520)

BME 523 Measurement and Processing of Biological Signals
Units: 3 Terms Offered: Sp Acquisition, analysis, and display of medical and biological data. Instruction Mode: Lecture Grading Option: Letter

BME 525 Advanced Biomedical Imaging
Units: 3 Terms Offered: Sp Advanced
scientific and engineering principles of biomedical imaging including magnetic resonance, X-ray computed tomography, ultrasound, and single photon and positron emission tomography. Prerequisite: BME 513 or EE 483. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-523

BME 527 Integration of Medical Imaging Systems
Units: 3 Medical imaging quality, comparison of data standards, workflow analysis and protocols, broadband networks, image security, fault tolerance, picture archive communication system (PACS), image database and backup. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INF 562

BME 528 Medical Diagnostics, Therapeutics and Informatics Applications
Units: 3 Terms Offered: Sp Picture archive communication system (PACS) design and implementation; clinical PACS-based imaging informatics; telemedicine/teleradiology; image content indexing, image data mining; grid computing in large-scale imaging informatics; image-assisted diagnosis, surgery and therapy. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INF 563

BME 530 Introduction to Systems Biology

BME 533 Seminar in Bioengineering
Units: 1 Max Units: 3.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 535 Ultrasound Imaging
Units: 3 Terms Offered: Sp All aspects of ultrasound imaging, including ultrasound and tissue interaction, ultrasonic transducers, instrumentation, imaging methods, clinical applications, bioeffects, safety, and recent developments in the field. Instruction Mode: Lecture Grading Option: Letter

BME 536 Ultrasound Transducers
Units: 3 Terms Offered: Fa Background and foundation covering the design, fabrication and testing of ultrasonic transducers and arrays. Design approaches, modeling tools will be discussed. Design project assigned. Instruction Mode: Lecture Grading Option: Letter

BME 551 Introduction to Bio-MEMS and Nanotechnology
Units: 3 Terms Offered: Sp Principles and biomedical applications of micro-electromechanical systems (MEMS) and nanotechnology, including microfluidics, nanowire sensors, nanomotors, quantum dots, biofuel cells and molecular imaging. Recommended Preparation: Basic biology and electronics. Instruction Mode: Lecture Grading Option: Letter

BME 552 Neural Implant Engineering
Units: 3 Terms Offered: Sp Advanced studies of the basic neuroscience, engineering design requirements and technological issues associated with implantable neural prostheses, with particular emphasis on retinal and cortical function. Instruction Mode: Lecture Grading Option: Letter

BME 559 Nanomedicine and Drug Delivery
Units: 3 Terms Offered: Fa Drug delivery and nanoengineered materials; cutting-edge nanoparticle-based therapy; imaging and tissue engineering; Nanotoxicology and regulatory landscape. Recommended Preparation: Organic Chemistry (CHEM 322A, equivalent) and Cell Biology and Physiology (BISC 220Lg equivalent) Instruction Mode: Lecture Grading Option: Letter

BME 566a Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Fa Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Registration Restriction: Open only to Health, Technology and Engineering majors. Instruction Mode: Lecture Grading Option: Letter

BME 566b Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Sp Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Registration Restriction: Open only to Health, Technology and Engineering majors. Instruction Mode: Lecture Grading Option: Letter

BME 566c Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Fa Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Concurrent Enrollment: Concurrent enrollment: BME 566a. Instruction Mode: Lecture Grading Option: Letter

BME 566d Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Sp Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Concurrent Enrollment: Concurrent enrollment: BME 566b. Instruction Mode: Lecture Grading Option: Letter

BME 566e Topics in Health, Technology and Engineering
Units: 2 Terms Offered: Fa Interdisciplinary approach to impart the skills, knowledge and familiarity with stages of collaborative projects related to medical device and methods innovation in health care settings. Concurrent Enrollment: Concurrent enrollment: BME 566c. Instruction Mode: Lecture Grading Option: Letter

BME 567a Case Studies in Health, Technology and Engineering
Units: 1 Terms Offered: Fa Learning from cases illustrating paths from health care problems to solutions. Faculty, students and invited guests will provide examples of both successful and unsuccessful innovation attempts. Concurrent Enrollment: Concurrent enrollment: BME 566d. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Letter

BME 567b Case Studies in Health, Technology and Engineering
Units: 1 Terms Offered: Sp Learning from cases illustrating paths from health care problems to solutions. Faculty, students and invited guests will provide examples of both successful and unsuccessful innovation attempts. Concurrent Enrollment: Concurrent enrollment: BME 566e. Registration Restriction: Open only to Health, Technology and Engineering students. Instruction Mode: Lecture Grading Option: Letter

BME 575L Computational Neuroengineering
Units: 3 Terms Offered: Sp Introduction to computational modeling in neuroengineering, anchored in examples of brain function. Topics include transduction, synapses, spiking, networks, normalization, learning, Bayesian models, and Kalman filtering. Prerequisite: BME 502. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as NEUR-534

BME 582 CMOS: Nano Neuromorphic Circuits
Units: 4 (Enroll in EE 582)

BME 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

BME 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

BME 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Current trends and developments in the field of biomedical engineering. Instruction Mode: Lecture Grading Option: Letter

BME 620L Applied Electrophysiology
Units: 4 Terms Offered: Fa Theoretical and applied principles of medical devices and instrumentation that interact with electrically excitable tissues of the body. Prerequisite: BME 502. Instruction Mode: Lecture, Lab Required Grading Option: Letter

BME 650 Biomedical Measurement and Instrumentation
Units: 3 Terms Offered: Sp Design of measurement systems and biomedical
instrumentation; architecture of electronic instruments used to measure physiological parameters, analysis of major process functions integrated in these instruments. Recommended Preparation: BME 513. Instruction Mode: Lecture Grading Option: Letter

**BME 670 Early Visual Processing**
Units: 4 Terms Offered: Fa Interdisciplinary topics in biological and artificial low-level visual processing. Retina, lateral geniculate nucleus; computer vision; neurophysiology, retinal prosthesis; molecular biology; phototransduction; edge detection; movement. Prerequisite: NSCI 524 or BME 502 or CSCI 574. Instruction Mode: Lecture Grading Option: Letter

**BME 671 Late Visual Processing**
Units: 4 Terms Offered: Sp Interdisciplinary topics in biological and artificial high-level visual processing. Visual cortex; computer vision; neurophysiology; psychophysics; MRI; computational models; orientation selectivity; stereopsis; motion; contours; object recognition. Prerequisite: NSCI 524 or BME 502 or CSCI 574. Instruction Mode: Lecture Grading Option: Letter

**BME 680 Modeling and Simulation of Physiological Systems**
Units: 3 Terms Offered: Irregular Mathematical theories and computation techniques for modeling physiological systems, with emphasis on cardiorespiratory, metabolicendocrine, and neuronal functions. Instruction Mode: Lecture Grading Option: Letter

**BME 790 Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research applicable to the doctorate. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794a Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794b Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794c Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**BME 794d Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Business Administration**

**BUAD 020x Survey of Business Administration**
Units: 3 Terms Offered: FaSpSurvey of the important topics in business administration, including marketing, accounting, finance, management information systems, leadership, business communication, and human resource management. Recommended Preparation: 2–5 years management experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 040 Executive Development**
Units: 4 Problems and cases in contemporary management and business economics in American society. Registration Restriction: Open to USC employees. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 100x Foundations of Finance and Accounting**
Units: 2 Accounting information in decision-making from the perspective of users and preparers. Basics of financial asset valuation. Consideration of time-value of money and risk. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 101 Freshman Leadership Seminar**
Units: 2 Terms Offered: FaSpSmColloquium of leading researchers, authors, and administrators in the Marshall School of Business and other schools at USC. Industry leaders will also be invited to talk about leadership challenges. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 102 Global Leadership Seminar**
Units: 2 Terms Offered: FaSpSmColloquium of researchers and industry leaders discussing international business and the challenges faced by leaders in a global environment, with a specific focus on China. International travel may require additional fees. Prerequisite: BUAD 101. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 104 Learning About International Commerce**
Units: 2 Terms Offered: FaSpSmProvides insight into the opportunities and challenges faced by business professionals operating in a global environment by focusing on international cultural norms. Registration Restriction: Open only to Business and Accounting majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 105 The Business Experience**
Units: 2 Terms Offered: FaIntro to the and overview of key business functions, their relationships, and how various professional disciplines come together to help form a successful enterprise. Registration Restriction: Open only to business and accounting majors. Instruction Mode: Lecture Grading Option: Letter

**BUAD 200x Economic Foundations for Business**
Units: 2 Terms Offered: FaSp Examines fundamental concepts of both microeconomics and macroeconomics as they pertain to business and financial decisions. Instruction Mode: Lecture Grading Option: Letter

**BUAD 201x Introduction to Business for Non-Majors**
Units: 4 Terms Offered: FaSp Introduction to the principles and practices of businesses, sequence of exercises developing the basic skills, and influence of the economy on business and individual decisions. Instruction Mode: Lecture Grading Option: Letter

**BUAD 204 Global Business from a Local Perspective**
Units: 2 Terms Offered: Sp Concepts, frameworks and cultural insights into global business. Includes readings, group projects and visits with Los Angeles area companies that have an international presence. Registration Restriction: Open only to Business and Accounting majors. Duplicates Credit in BUAD 102 and BUAD 104. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 206 Transfer International Experience**
Units: 2 Max Units: 4.0 Terms Offered: Sp Experiential study of international business. Analysis of the impacts of global and international business on an industry. International travel required. Registration Restriction: Open only to transfer business and accounting majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 206a Transfer International Experience**
Units: 1 Max Units: 2.0 Terms Offered: FaSp Experiential study of international business. Analysis of the impacts of global and international business on an industry. International travel required. Registration Restriction: Open only to transfer business and accounting majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 206b Transfer International Experience**
Units: 1 Max Units: 2.0 Terms Offered: FaSp Experiential study of international business. Analysis of the impacts of global and international business on an industry. International travel required. Registration Restriction: Open only to transfer business and accounting majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 215x Foundations of Business Finance**
Units: 4 Terms Offered: FaSpSmPrinciples and practices of modern financial management; use of financial statements; valuation of investment; asset pricing under uncertainty; elements of financial decisions. Prerequisite: ACCT 410x or BUAD 280 or BUAD 285a or BUAD 305. Duplicates Credit in BUAD 306. Instruction Mode: Lecture Grading Option: Letter

**BUAD 252 Choosing and Planning a Future Career in Business**
Units: 2 Terms Offered: FaSpSmExplore and plan for future career choices and options in business. Learn theoretical principles, best practices and strategies, and contemporary workplace issues/trends. Instruction Mode: Lecture Grading Option: Credit/No Credit

**BUAD 280 Introduction to Financial Accounting**
Units: 3 Terms Offered: FaSpSm Emphasis on understanding financial statements and the impact of business transactions on information presented to management and interested stakeholders. Duplicates Credit in BUAD 285a, BUAD 286a, BUAD 286b, BUAD 305. Instruction Mode: Lecture Grading Option: Letter

**BUAD 281 Introduction to Managerial**
Accounting
Units: 3 Terms Offered: FaSpSm An emphasis on how accounting information, combined with a variety of techniques and best practices, supports enhanced management decision making. Prerequisite: BUAD 280 Duplicates Credit in BUAD 285a, BUAD 285b, BUAD 286b, BUAD 305. Instruction Mode: Lecture Grading Option: Letter

BUAD 285a Accounting Fundamentals, Financial and Managerial Accounting
Units: 4 Terms Offered: FaSpSm Development and use of accounting information important to investors and professionals with a focus on the analysis of business operations, financial position, and cash flows. Duplicates Credit in former BUAD 250ab, and BUAD 280, BUAD 286b and BUAD 305. Instruction Mode: Lecture Grading Option: Letter

BUAD 285b Accounting Fundamentals, Financial and Managerial Accounting

BUAD 286a Accounting Fundamentals, Managerial and Financial Accounting
Units: 4 Terms Offered: FaSpSm Development and use of accounting information important to executives, managers, and other decision-makers, with a focus on the analysis of business operations and organizational performance. Duplicates Credit in former BUAD 250b, BUAD 281, BUAD 285b and BUAD 305. Instruction Mode: Lecture Grading Option: Letter

BUAD 286b Accounting Fundamentals, Managerial and Financial Accounting
Units: 2 Terms Offered: FaSpSm Continuation of BUAD 286a: accounting information useful for the analysis of the income statement, balance sheet and cash flow statement. Corequisite: BUAD 286a. Duplicates Credit in former BUAD 250a, and BUAD 280, BUAD 285a and BUAD 305. Instruction Mode: Lecture Grading Option: Letter

BUAD 301 Technology Entrepreneurship
Units: 3 Terms Offered: FaSpSm Starting and managing a technological business: developing a viable concept, market and financial planning, product development, organizing the venture, protecting intellectual property rights. Duplicates Credit in BAEP 310, BAEP 423, BAEP 450, BAEP 451. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGR-301

BUAD 302 Communication Strategy in Business
Units: 4 Terms Offered: FaSpSm Theory, practices, and techniques of business communication strategy essential to external and organizational communication; group and interpersonal communication; development of skill in oral and written communication. Instruction Mode: Lecture Grading Option: Letter

BUAD 302T Communication Strategy in Accounting
Units: 4 Terms Offered: FaSpSm Theory, practices, and techniques essential to communication in accounting. Interpersonal and group communication; oral presentations; writing; use of communication technologies; communication strategies for varied audiences. Registration Restriction: Open only to accounting and prospective accounting majors. Duplicates Credit in BUAD 302. Instruction Mode: Lecture, Lab Grading Option: Letter

BUAD 304 Organizational Behavior and Leadership
Units: 4 Terms Offered: FaSpSm The role of leadership in business organizations; concepts and skills for managing oneself and others. Registration Restriction: Open only to freshmen, sophomores and juniors. Instruction Mode: Lecture Grading Option: Letter

BUAD 305 Abridged Core Concepts of Accounting Information
Units: 4 Terms Offered: FaSpSm Uses of accounting information in decision-making; accounting issues concerning income and cash flows, economic resources and capital. Registration Restriction: Open only to transfer business and accounting majors. Duplicates Credit in BUAD 280, BUAD 281, BUAD 285a, BUAD 285b, BUAD 286a and BUAD 286b. Instruction Mode: Lecture Grading Option: Letter

BUAD 306 Business Finance
Units: 4 Terms Offered: FaSpSm Financial problems of business enterprise; function of financial manager; sources of funds; instruments, institutions, and practices of finance; problems of financial management using case studies. Prerequisite: ACCT 410 or BUAD 280 or BUAD 285a or BUAD 286b or BUAD 305 and ECON 351x. Corequisite: ECON 352 and BUAD 310. Duplicates Credit in BUAD 215x. Instruction Mode: Lecture Grading Option: Letter

BUAD 307 Marketing Fundamentals
Units: 4 Terms Offered: FaSpSm Develops a managerial viewpoint in planning and evaluating marketing decisions of the firm: products, pricing, channels, promotion, information processing, legal implications, and marketing in contemporary society. Duplicates Credit in MKT 385x. Instruction Mode: Lecture, Discussion Grading Option: Letter

BUAD 310g Applied Business Statistics
Units: 4 Terms Offered: FaSpSm Statistical methods for business analysis; data exploration and description; sampling distributions; estimation; hypothesis testing, simple and multiple regression; model building. Extensive computer applications. Satisfies New General Education in Category F: Quantitative Reasoning. Duplicates Credit in ITP 251. Instruction Mode: Lecture, Discussion Grading Option: Letter

BUAD 311 Operations Management
Units: 4 Terms Offered: FaSpSm Fundamentals of operations management. Skills needed to analyze, manage, and improve business processes. Topics include: process, capacity, service, and inventory management and optimization. Prerequisite: BUAD 310g or EE 364 or MATH 407. Duplicates Credit in BUAD 311T. Instruction Mode: Lecture Grading Option: Letter

BUAD 311T Operations Management for Accounting Majors
Units: 4 Learn the fundamentals of operations management and acquire skills to analyze, measure, control and improve production processes. Duplicates Credit in BUAD 311. Instruction Mode: Lecture Grading Option: Letter

BUAD 315x Basics of Project and Operations Management for Non-Majors
Units: 2 Terms Offered: FaSp Introduction to tools and methods for the design, production, and delivery of goods and services. Techniques for planning, monitoring, and controlling complex projects. Registration Restriction: Not open to business and accounting majors and exchange students. Duplicates Credit in BUAD 311 and BUAD 311T. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-315

BUAD 350 Macroeconomic Analysis for Business Decisions
Units: 4 Terms Offered: FaSpSm Behavior of economic indicators over business fluctuations, economic growth, monetary and fiscal policy, exchange rate movements. Prerequisite: ECON 203, ECON 205. Instruction Mode: Lecture Grading Option: Letter

BUAD 351 Economic Analysis for Business Decisions
Units: 4 Terms Offered: FaSpSm Theory of the firm in the enterprise system; profits, demand, and cost analysis; market competition and resource allocation; problems of size efficiency and growth. Prerequisite: ECON 203, ECON 205 and either MATH 118 or MATH 125. Instruction Mode: Lecture Grading Option: Letter

BUAD 380x Introduction to Enterprise Risk Management
Units: 4 Terms Offered: Irregular (Enroll in ACCT 380x)

BUAD 385x Introduction to Risk Management and Insurance
Units: 4 Terms Offered: Irregular (Enroll in ACCT 385x)

BUAD 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

BUAD 425 Data Analysis for Decision Making
Units: 2 Terms Offered: FaSpSm Leveraging large corporate datasets; slice and dice data; dash boards; data mining and statistical tools; neural network; multiple and logistic regression; decision tree; gain inference and decision making; clustering. Prerequisite: (BUAD 281 or BUAD 305 or BUAD 285b or BUAD 286b) and (BUAD 302 or BUAD...
BUAD 490s Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

BUAD 493 Marshall Honors Research Seminar
Units: 2
Terms Offered: Sp Provides the methodological tools to identify research problems, develop researchable hypotheses, apply appropriate methodologies, conduct research, derive meaningful conclusions from data, write a research proposal. Registration Restriction: Open only to Business and Accounting students. Instruction Mode: Lecture
Grading Option: Letter

BUAD 494 Marshall Honors Research and Thesis
Units: 2 Max Units: 04 Terms Offered: FaSpSm Experience in conducting research and writing a thesis under the supervision of a faculty adviser. Prerequisite: ACCT 493 or BUAD 493 Registration Restriction: Open only to students in the Marshall Honors program. Duplicates Credit in ACCT 494
Instruction Mode: Lecture
Grading Option: Credit/No Credit

BUAD 495 Practicum in Business Issues (Internship)
Units: 1 Max Units: 12.0 Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Registration Restriction: Open only to: Freshmen, Sophomore, Junior, Senior. Instruction Mode: Lecture
Grading Option: Credit/No Credit

BUAD 497 Strategic Management
Units: 4 Terms Offered: FaSpSm Examination of managerial decision-making, planning, and policy under changing environments; readings, cases, exercises, simulations. Prerequisite: ACCT 410 or BUAD 281 or BUAD 285b or BUAD 286b or BUAD 305 and (BUAD 304 and BUAD 307 and BUAD 215x) or (BUAD 306 and BUAD 302) or BUAD 302T Corequisite: BUAD 311 or BUAD 311T Instruction Mode: Lecture
Grading Option: Credit/No Credit

BUAD 498 Business Field Project (Undergraduate)
Units: 1 or 2 Max Units: 3.0 Terms Offered: FaSpSm Unpaid individual or team projects solving real business problems for client companies; situation analyses; statistical analysis; consulting practicum; oral and written presentations. Instruction Mode: Lecture
Grading Option: Credit/No Credit

BUAD 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Examination of current literature relevant to the total and changing environment in which business operates.

Instruction Mode: Lecture
Grading Option: Letter

BUAD 252 The Art of Case Analysis and Presentation
Units: 2 Terms Offered: FaSpSm Develop analytical problem-solving and persuasive presentation skills to successfully analyze strategic business situations and convincingly argue your position in a competitive environment. Instruction Mode: Lecture
Grading Option: Letter

BUAD 260 Business Communication Across Cultures
Units: 2 Terms Offered: FaSp Develop intercultural communication competencies, analyze international business situations, build on/ or prepare for GLP and LINC trips, internships abroad, and international exchange programs. Instruction Mode: Lecture
Grading Option: Letter

BUAD 333nw Communication in the Working World - Managing Diversity
Units: 4 Terms Offered: FaSp Communication strategies to manage workplace diversity. Historical, social, legal precedents. Institutional barriers to diversity. Race, gender, sexual orientation, age, physical disabilities, culture. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture
Grading Option: Letter

BUCO 425 Ethics and Professional Communication
Units: 4 Terms Offered: FaSp Study the intersection between business and professional leadership, language, and ethics. Analyze and present results to public audiences through publications, professional conferences, ethics case competitions. Instruction Mode: Lecture
Grading Option: Letter

BUCO 445 Building Oral Communication Expertise
Units: 4 Terms Offered: FaSp Personal branding development; building expertise in persuasive business briefings and presentations, both in-person and via new media channels; framing the message based upon emotional intelligence. Instruction Mode: Lecture
Grading Option: Letter

BUCO 450 Communication for Organizations: Exploring Creativity
Units: 2 Terms Offered: FaSp Development of individual creative thinking and problem-solving skills; exploration of workplace creativity; advancement of managerial communication skills necessary to foster organizational innovation. Instruction Mode: Lecture
Grading Option: Letter

BUCO 485 Business Communication Management for Nonprofits
Units: 4 Communication environment; communication activities for fundraising and visibility; research and evaluation methods; grant proposals; strategies for communicating social mission to media, government and for-profit partners. Instruction Mode: Lecture
Grading Option: Letter

BUCO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of business communication. Topics vary from semester to semester. Instruction Mode: Lecture
Grading Option: Letter

BUCO 503 Advanced Managerial Communication
Units: 1.5, 3 Terms Offered: FaSpSm Optimize individual, interpersonal communication dynamics and advance skill development through executive coaching model and applied business communication theory. Recommended Preparation: prior course work or experience in management or business communication. Registration Restriction: Open only to graduate business and taxation students. Instruction Mode: Lecture
Grading Option: Letter

BUCO 504T Writing for Accounting and Tax Professionals
Units: 3 Terms Offered: FaSpSm Effective written communication for accounting and tax professionals. Registration Restriction: Open only to graduate accounting and taxation students. Instruction Mode: Lecture
Grading Option: Letter

BUCO 533 Managing Communication in Organizations
Units: 1.5, 3 Terms Offered: FaSpSm Analyze, design, develop, and present theory-based communication solutions and strategies to sophisticated interpersonal, group, organizational, and environmental communication issues and problems. Recommended Preparation: GSBA 502 or GSBA 523 or GSBA 542. Registration Restriction: Open only to graduate business and accounting students. Instruction Mode: Lecture
Grading Option: Letter

BUOC 460 International Business Communication
Units: 4 Terms Offered: FaSpSm Explore the cultural dynamics and organizational communication models that contribute to successful business practices in multinational corporations and other global settings. Instruction Mode: Lecture
Grading Option: Letter

BUOC 485 Business Communication Management for Nonprofits
Units: 4 Communication environment; communication activities for fundraising and visibility; research and evaluation methods; grant proposals; strategies for communicating social mission to media, government and for-profit partners. Instruction Mode: Lecture
Grading Option: Letter

BUOC 503 Advanced Managerial Communication
Units: 1.5, 3 Terms Offered: FaSpSm Optimize individual, interpersonal communication dynamics and advance skill development through executive coaching model and applied business communication theory. Recommended Preparation: prior course work or experience in management or business communication. Registration Restriction: Open only to graduate business and taxation students. Instruction Mode: Lecture
Grading Option: Letter

BUOC 504T Writing for Accounting and Tax Professionals
Units: 3 Terms Offered: FaSpSm Effective written communication for accounting and tax professionals. Registration Restriction: Open only to graduate accounting and taxation students. Instruction Mode: Lecture
Grading Option: Letter

BUOC 533 Managing Communication in Organizations
Units: 1.5, 3 Terms Offered: FaSpSm Analyze, design, develop, and present theory-based communication solutions and strategies to sophisticated interpersonal, group, organizational, and environmental communication issues and problems. Recommended Preparation: GSBA 502 or GSBA 523 or GSBA 542. Registration Restriction: Open only to graduate business and accounting students. Instruction Mode: Lecture
Grading Option: Letter

BUOC 536 Leading with Digital Communication
Units: 1.5 Terms Offered: FaSpSm Theory and practice of communicating via social media and other forms of new media to achieve business goals and build your credibility as a leader. Registration Restriction: Online registration open only to graduate business and accounting majors. Instruction Mode: Lecture
Grading Option: Letter

BUOC 552 Defining and Communicating Your Professional Value
CBG 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CBG 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CBG 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CBG 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Craniofacial Biology

CBY 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

CBY 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

CBY 573 Molecular Embryology
Units: 4 Principles of developmental biology; emphasis on molecular genetics and cell and molecular mechanisms of tissue interaction and morphodifferentiation.

CBY 574 Statistical Methods in Bioexperimentation
Units: 3 Experimental design and analysis as applied to all levels of biologic organization; hypothesis construction; probability; univariate and multivariate analysis; basic epidemiology.

CBY 575 Biologic Basis of Oral-facial Disease
Units: 3 Terms Offered: FaSpSm Cell and molecular biology of oral tissues in disease: emphasis on immunopathology. Duplicates Credit in former CBY 575a.

CBY 576 Biochemical Aspects of Periodontal Disease
Units: 3 Terms Offered: FaSpSm Cell and molecular biology of oral tissues in disease; emphasis on molecular oral pathology. Duplicates Credit in former CBY 575b.

CBY 578 Pathological Conditions of the Craniofacial Complex
Units: 3 Terms Offered: FaSpSm Acquired and inherited, systemic and local disease resulting in clinical craniofacial morbidity: cellular and molecular expression as related to etiology, diagnosis, treatment, and prognosis.
CBY 579L. Craniofacial Molecular Genetics
Units: 4 Principles and methodologies of mammalian molecular genetics; laboratory exercises applied to pre- and postnatal craniofacial growth and development.

CBY 580a Seminars in Craniofacial Biology
Units: 2 Seminars presented by recognized researchers in the various disciplines relating to craniofacial biology; selected readings in preparation for discussion. Grading Option: Graded CR/NC.

CBY 580b Seminars in Craniofacial Biology
Units: 2 Seminars presented by recognized researchers in the various disciplines relating to craniofacial biology; selected readings in preparation for discussion. Grading Option: Graded CR/NC.

CBY 582L. Laboratory Methods
Units: 3 Contemporary methods of laboratory analysis, including theoretical and practical exposure to procedures and equipment in the research laboratory.

CBY 583 Craniofacial Clinical Genetics
Units: 4 Principles of human genetics; clinically oriented normal and abnormal human embryology; diagnosis and natural history of human craniofacial birth defects; genetic counseling and bioethics.

CBY 585 Systematic Research Writing
Units: 3 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

CBY 586x Scientific Writing Practicum
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: Graded CR/NC.

CBY 587 Cell and Molecular Biology of Craniofacial Tissues
Units: 3 Contemporary cell and molecular biology as applied to the development, structure, and function of craniofacial tissues.

CBY 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CBY 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CBY 599 Special Topics
Units: 2, 3, 4 Max Units: max 8 Seminars on craniofacial biology in subject areas of special interest to faculty and students.

CBY 671 Epistemology and Ethos of Bioscience
Units: 2 Classical and contemporary thought on knowledge acquisition, truth, and method as applied to bioscience; characteristic spirit, beliefs, and moral assumptions of bioscientists in modern history.

CBY 672 Advances in Development and Differentiation
Units: 2 Integration of recent advances in cell and molecular developmental biology into classical and emerging thematic frameworks.

CBY 673 Biominalization
Units: 2 Fundamental principles and mechanisms of matrix mediated mineralization in model systems from bacteria to humans.

CBY 674 Advanced Oral Microbiology
Units: 2 Cell and molecular aspects of microbiology as applied to oral infections: microbial physiology and genetics; oral microbial ecology; host resistance factors in oral infections.

CBY 709 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CBY 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

CBY 794e Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Grading Option: Graded IP/CR/NC.

Civil Engineering

CE 106L. Design and Planning of Civil Engineering Systems
Units: 3 Terms Offered: FaSpSm History of civil engineering; introduction to the synthesis and design of systems dependent upon civil engineering technology; structuring, modeling, and simulation of systems using graphics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CE 107 Introduction to Civil Engineering Graphics
Units: 3 Terms Offered: Sp Graphic communication and drawing; use of instruments, lettering, dimensioning, and detailing of engineering drawing; free-hand sketching, drafting, and modeling. Instruction Mode: Lecture Grading Option: Letter

CE 108 Introduction to Computer Methods in Civil Engineering
Units: 2 Terms Offered: Sp Computer programming, organization of programs for computational solution, flow charts, programming; numerical methods; analysis and solution of civil engineering problems. Instruction Mode: Lecture Grading Option: Letter

CE 110 Introduction to Environmental Engineering
Units: 3 Terms Offered: Fa Basic concepts of environmental engineering. Air, water, and soil pollution control technologies; pollution prevention strategies. Design of simple water distribution and treatment systems. Instruction Mode: Lecture Grading Option: Letter

CE 205 Statics
Units: 2 Terms Offered: FaSp Statics of particles and rigid bodies; equivalent force systems; distributed forces; applications to trusses, frames, machines, beams, and cables; friction; moments of inertia. Prerequisite: PHYS 151Lg. Instruction Mode: Lecture Grading Option: Letter

CE 207L. Introduction to Design of Structural Systems
Units: 2 Terms Offered: Sp Structural materials, components and systems; gravity and lateral forces; structural performance and failures; introduction to structural plans and analysis; computer applications, case studies, design project. Prerequisite: CE 205 Corequisite: CE 106 and CE 225. Instruction Mode: Lecture, Lab Grading Option: Letter

CE 210L. Introduction to Environmental Engineering Microbiologypathogens; microorganisms and air pollution; microorganisms in soil; water pollution microbiology; biodegradation of hazardous chemicals; eutrophication. Recommended Preparation: CE 106 or CE 110. Corequisite: CHEM 105a or CHEM 115aLg. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CE 225 Mechanics of Deformable Bodies
Units: 3 Terms Offered: Sp Analysis of stress and strain; axial, flexural, and torsional behavior of slender bars; elastic deflections; combined stresses; introduction toelastic stability and energy methods. Prerequisite: CE 205. Instruction Mode: Lecture Grading Option: Letter

CE 235 Dynamics
Units: 3 Terms Offered: Sp Elements of vector algebra; dynamics of particles, systems of particles and rigid bodies; kinematics; momentum relations, energy methods; vibrations; Euler's equations of motion. Prerequisite: CE 205. Duplicates credit in CE 325. Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 309 Fluid Mechanics
Units: 3 Terms Offered: Fa Fluid statics; relative velocity field; total acceleration; divergence theorem; conservation of mass, energy, and momentum applied to engineering problems in laminar and turbulent flow. Prerequisite: MATH 226 or MATH 229 Corequisite: CE 235 Instruction Mode: Lecture Grading Option: Letter

CE 334L. Mechanical Behavior of Materials
Units: 3 Terms Offered: Fa Measurement of...
stress and strain; tensile, impact, creep, and fatigue behavior; statistical methods, brittle fracture; properties of structural materials. Prerequisite: CE 225 or AME 204, CHEM 105aLg or CHEM 115aLg and PHYS 152L. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MASC-3341

CE 358 Theory of Structures I
Units: 3 Terms Offered: Fa Deformations and deflections of elastic systems; statically indeterminate beams, arches, and frames; secondary stresses. Prerequisite: CE 225. Instruction Mode: Lecture Grading Option: Letter

CE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CE 402 Computer Methods in Engineering
Units: 3 Terms Offered: Sp Fundamentals of mainframe and digital computers; simulation of nonlinear physical systems; numerical analysis and solution of engineering problems. Prerequisite: CE 225. Instruction Mode: Lecture Grading Option: Letter

CE 404 Business and Intellectual Property Law for Engineers
Units: 3 Terms Offered: Fa An examination of legal issues confronting the professional engineer. Topics include the legal system, contracts, risk management, forms of doing business, capital formation and intellectual property rights. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-404

CE 408 Risk Analysis in Civil Engineering
Units: 3 Terms Offered: Fa An examination of nondeterministic problems in civil engineering; quantitative analysis of structural and system reliability; optimal design and design with specified risk. Prerequisite: CE 225 and (MATH 226 or MATH 229). Instruction Mode: Lecture Grading Option: Letter

CE 409L Computer-Aided Design
Units: 3 Applications of interactive computer graphics to design problems; automated drafting; 3-D graphic algorithms. Analysis of design process from information processing viewpoint. Prerequisite: CE 225. Instruction Mode: Lecture, Lab Grading Option: Letter

CE 409L Computer-Aided Design
Units: 3 Applications of interactive computer graphics to design problems; automated drafting; 3-D graphic algorithms. Analysis of design process from information processing viewpoint. Prerequisite: CE 225. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CE 412 Construction Law and the Property Development Process
Units: 3 Terms Offered: Sp Legal aspects of property development and construction; land use, construction practices and specifications, architecture and engineering contracts, agency, subcontracting, professional registration, liability, insurance, liens, and bonds. Recommended Preparation: CE 404 or a general business law course. Instruction Mode: Lecture Grading Option: Letter

CE 428 Mechanics of Materials
Units: 3 Analysis of stress and deformation; equations of elasticity; bending of beams; elastic instability; torsion problems; introduction to plates and shells; elastic wave propagation; numerical methods. Prerequisite: CE 225. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-428

CE 443 Environmental Chemistry
Units: 3 Terms Offered: Fa Chemistry of water, gas, liquid and solid wastes. Chemical principles applicable to environmental engineering. Prerequisite: CHEM 105L or CHEM 115L. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-443

CE 450 Basic Coastal Engineering
Units: 3 Terms Offered: FaSp Mechanics of wave motion; wave refraction, diffraction and reflection; wave forecasting; shore processes; planning of coastal engineering projects; design of seawalls, breakwaters and offshore installations. Instruction Mode: Lecture Grading Option: Letter

CE 451 Water Resources Engineering
Units: 3 Terms Offered: FaSp Discussion of broad perspectives on control and utilization of water, quantitative hydrology, ground water, probability concept, economic study, hydraulic structures, multipurpose water resource projects. Prerequisite: CE 309 or ENE 410. Instruction Mode: Lecture Grading Option: Letter

CE 453 Water Quality Science and Engineering
Units: 3 Terms Offered: FaSp Water quality criteria and fundamental considerations of acceptability. Natural purification of surface waters. Processes employed in the treatment of waste waters for disposal or re-use. Prerequisite: CHEM 105L or CHEM 115L or Corequisite: CE 309 or ENE 410. Instruction Mode: Lecture, Discussion Grading Option: Letter

CE 456 Design of Steel Structures
Units: 3 Terms Offered: Fa Fundamentals of analysis and design of steel structures; structural elements; simple and eccentric connections; design project. Prerequisite: CE 207L, CE 225, Corequisite: CE 358. Instruction Mode: Lecture Grading Option: Letter

CE 457 Reinforced Concrete Design
Units: 3 Terms Offered: Sp Strength and deformation of reinforced concrete; beams in flexure and shear; bond and development of bars; deflections; columns; slabs; footings; introduction to prestressed concrete. Prerequisite: CE 207L, CE 225, Corequisite: CE 358. Instruction Mode: Lecture Grading Option: Letter

CE 458 Theory of Structures II
Units: 3 Terms Offered: FaSp Matrix algebra; stiffness method; force method; computer analysis of planar structures. Prerequisite: CE 108 and CE 358 Instruction Mode: Lecture Grading Option: Letter

CE 459 Introduction to Structural Dynamics
Units: 3 Terms Offered: Fa Response of single and multiple degree of freedom systems to dynamic excitation; structural modeling and approximate solutions; introduction to earthquake resistant design. Corequisite: CE 458. Instruction Mode: Lecture Grading Option: Letter

CE 460 Construction Engineering
Units: 3 Terms Offered: FaSp Introduction to the construction processes, estimating and bidding, construction administration, planning and scheduling, equipment and methods, labor relations, cost control systems, and safety. Instruction Mode: Lecture Grading Option: Letter

CE 461 General Construction Estimating
Units: 3 Terms Offered: Fa Theory of estimating. Quantity surveying; unit cost synthesis and analysis. Bid organization and preparation; competitive simulation and exercises. Instruction Mode: Lecture Grading Option: Letter

CE 462 Construction Methods and Equipment
Units: 3 Terms Offered: Sp Current procedures in selected fields of construction; organization and planning, equipment economics; machinery. Instruction Mode: Lecture Grading Option: Letter

CE 463L Water Chemistry and Analysis
Units: 3 Terms Offered: Sp Chemistry of water purification technology and water pollution control. Chemical processes in natural and engineering aquatic environments; physical/chemical and biological characterization of water and wastewater. Prerequisite: CE 453, CHEM 105b or CHEM 115b. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENE-463

CE 464 Geotechnical Engineering
Units: 3 Fundamentals of soil mechanics and foundation engineering; soil classification, seepage, stress-strain behavior, shear strength, consolidation, design of retaining structures and foundations, and slope stability. Instruction Mode: Lecture, Lab Grading Option: Letter

CE 465 Water Supply and Sewerage System Design
Units: 3 Terms Offered: Sp Design of water supply systems, storm drains, sanitary sewers, and lift stations. Prerequisite: CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-465

CE 466 Design of Free-Surface Hydraulic Systems
Units: 3 Terms Offered: Sp Hydrological and hydraulic design for uniform and non-uniform flows, channel transition, sedimentation controls, design discharge for tributary watersheds, flood routing, flood detention, computer aided design. Prerequisite: CE 309. Instruction Mode: Lecture Grading Option: Letter

CE 467L Geotechnical Engineering
Units: 4 Terms Offered: Sp Fundamentals of geotechnical engineering; soil classification, seepage, stress-strain behavior, shear
CE 460 Sustainable Design and Construction
Units: 3 Terms Offered: FaSp Leadership in Energy and Environmental Design (LEED); Green Building strategies; Carbon Footprinting; calculating the embodied energy of building materials; cyclical processes in design and construction. Instruction Mode: Lecture Grading Option: Letter

CE 470 Building Information Modeling and Integrated Practice
Units: 3 Terms Offered: FaSp Planning, design, construction, information management throughout building lifecycle; project delivery systems and technologies for integrated practice. Instruction Mode: Lecture Grading Option: Letter

CE 471 Principles of Transportation Engineering
Units: 3 Terms Offered: FaSp Planning, design, construction, information management throughout building lifecycle; project delivery systems and technologies for integrated practice. Instruction Mode: Lecture Grading Option: Letter

CE 473 Engineering Law, Finance and Ethics
Units: 3 Terms Offered: Fa An examination of the legal, financial and ethical issues regularly considered by all practicing engineers. Instruction Mode: Lecture Grading Option: Letter

CE 476 Design of Pressurized Hydraulic Systems
Units: 3 Terms Offered: Sp Application of hydraulic principles to the engineering design of hydraulic structures with pressurized flow: piping network, water hammer, surge suppression, pumps and turbines, manifold hydraulic design. Prerequisite: CE 309. Instruction Mode: Lecture Grading Option: Letter

CE 478 Timber and Masonry Design
Units: 3 Terms Offered: Fa Properties of wood, beams, columns, trusses, connectors, and diaphragms. Properties of masonry, working stress and strength design, seismic design requirements. Prerequisite: CE 207, CE 225. Instruction Mode: Lecture Grading Option: Letter

CE 480 Structural Systems Design
Units: 3 Terms Offered: Sp Evaluate, design and analyze buildings. Organize and perform calculations for vertical loads, wind loads, and seismic loads on building projects. Prerequisite: CE 456 or CE 457 or CE 478; CE 358, CE 467L, CE 473, CE 482. Instruction Mode: Lecture Grading Option: Letter

CE 482 Foundation Design
Units: 3 Terms Offered: Fa Analysis and design principles of building foundations, including spread footings, piles, drilled shafts, sheetpile walls and retaining structures. Prerequisite: CE 467. Instruction Mode: Lecture Grading Option: Letter

CE 484 Water Treatment Design
Units: 3 Terms Offered: FaPredesign studies, precipitation softening, coagulation and flocculation, sedimentation, filtration, sludge handling, chlorination, chloramination, ozonation; plant hydraulics, flow measurement, pumps, instrumentation and control, tertiary treatment. Prerequisite: CE 451. Instruction Mode: Lecture Grading Option: Letter

CE 485 Wastewater Treatment Design
Units: 3 Terms Offered: Sp Process kinetics, mass balance, reactor design, pretreatment, clarification, chemical treatment, biological treatment (aerobic and anaerobic), disinfection, sludge treatment, nitrogen and phosphorus removal, carbon adsorption. Prerequisite: CE 451, CE 463L, CE 473. Instruction Mode: Lecture Grading Option: Letter

CE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in civil engineering and related fields. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 501 Functions of the Constructor
Units: 3 Terms Offered: Fa Systems, processes, and constraints governing the initiation, direction, engineering, and delivery of major construction projects. Professional construction management, responsibilities, and practice. Instruction Mode: Lecture Grading Option: Letter

CE 502 Construction Accounting and Finance
Units: 3 Terms Offered: Fa Cost control, finance, and engineering economy for construction operations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-502

CE 503 Microbiology for Environmental Engineers
Units: 3 Basic microbiology of water, air, and soil. Application of microbiology to the practice of environmental pollution control. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-503

CE 504 Solid Waste Management
Units: 3 Characterization, production, storage, collection, and transport of solid wastes; alternative disposal methods; design principles and environmental impact; management of radiological solid wastes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-504

CE 505 Data Management for Civil and Environmental Engineering
Units: 3 Terms Offered: FaSp The basics of databases and database management systems as applied to engineering problems. Introduction to data mining concepts, techniques, and knowledge discovery in database principles. Instruction Mode: Lecture Grading Option: Letter

CE 506 Heavy Construction Estimating
Units: 3 Terms Offered: Fa Methods engineering, work analysis and pricing for route construction. Grading, draining, paving, haul economy, plant-materials production, pipeline and bridge building. Instruction Mode: Lecture Grading Option: Letter

CE 507 Mechanics of Solids I
Units: 3 Terms Offered: Fa Analysis of stress and strain; constitutive equations for elastic materials; plane stress and strain; torsion; introduction to plates and shells; energy methods. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-507

CE 508 Mechanics of Solids II
Units: 3 Terms Offered: Fa Methods engineering, work analysis and pricing for route construction. Grading, draining, paving, haul economy, plant-materials production, pipeline and bridge building. Instruction Mode: Lecture Grading Option: Letter

CE 509 Mechanics of Solids III
Units: 3 Advanced topics in mechanics of solids; complex variable methods for plane problems; three-dimensional problems; introduction to fracture mechanics. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter

CE 510 Groundwater Management
Units: 3 Groundwater hydrology, aquifer testing technology, groundwater quality and contamination, geophysical method, well design and development, basin water balance, computer modeling, legal aspects, groundwater management system. Instruction Mode: Lecture Grading Option: Letter

CE 511 Flood Control Hydrology
Units: 3 Flood frequency, storm characteristics, net rain, surface drainage, peak discharge, flood runoff. Instruction Mode: Lecture Grading Option: Letter

CE 514a Advanced Sanitary Engineering Design
Units: 3 Design of water and waste treatment works. Prerequisite: CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-514a

CE 514b Advanced Sanitary Engineering Design
Units: 3 Design of water and waste treatment works. Prerequisite: CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-514B

CE 516 Geohydrology
Units: 3 Principles of groundwater motion; acquifer characteristics, prospecting,
practical engineering problems, well design, maintenance and rehabilitation; hydrodynamic dispersion, field testing essentials and procedures, groundwater quality, artificial recharge. Instruction Mode: Lecture Grading Option: Letter

CE 517 Industrial and Hazardous Waste Treatment and Disposal
Units: 3, 2 years Terms Offered: 5m Physical, chemical, and biological treatment processes for industrial and hazardous wastes; pretreatment systems, biodegradation of toxic chemicals; groundwater and soil decontamination; biofilters for air decontamination. Prerequisite: CE 463L Instruction Mode: Lecture Grading Option: Letter

CE 518 Carbon Capture and Sequestration
Units: 3 The needs for carbon capture and sequestration (CCS) and systematic introduction to CCS technologies. Main topics include: introduction to global change, world energy consumption, greenhouse gases control, carbon capture and separation, and carbon sequestration. Instruction Mode: Lecture Grading Option: Letter

CE 519 Transportation Engineering

CE 520a Ocean and Coastal Engineering
Units: 3 Linear and nonlinear wave theories with engineering applications; wind waves; wave spectra; wave interactions with marine structures; ship mooring, harbor resonance; sediment transport; diffusion processes. Prerequisite: CE 309 or ENE 410. Instruction Mode: Lecture Grading Option: Letter

CE 520b Ocean and Coastal Engineering
Units: 3 Linear and nonlinear wave theories with engineering applications; wind waves; wave spectra; wave interactions with marine structures; ship mooring, harbor resonance; sediment transport; diffusion processes. Instruction Mode: Lecture Grading Option: Letter

CE 522 Groundwater Hydrologic Modeling
Units: 3 Simulation of groundwater hydrologic processes through mathematical, analog, and physical models. Instruction Mode: Lecture Grading Option: Letter

CE 523 Physiochemical Processes in Environmental Engineering
Units: 3 Concepts and applications of processes that affect water quality in engineered and natural systems, including coagulation, sedimentation, filtration, adsorption, air stripping, and membrane processes. Prerequisite: CE 453 or CE 463. Instruction Mode: Lecture Grading Option: Letter

CE 524 Engineering Mathematical Analysis
Units: 3 Terms Offered: Sp Engineering problems discussed on a physical basis with solutions via mathematical tools: Vector analysis; functions of complex variables, infinite series, residues and conformal mappings. Duplicates Credit in the former CE 525a. Instruction Mode: Lecture Grading Option: Letter

CE 525 Engineering Mathematical Analysis
Units: 3 Terms Offered: Sp Engineering problems discussed on a physical basis with solutions via mathematical tools: Vector analysis; functions of complex variables, infinite series, residues and conformal mappings. Duplicates Credit in the former CE 525a. Instruction Mode: Lecture Grading Option: Letter

CE 526 Engineering Mathematical Methods
Units: 3 Engineering problems discussed on a physical basis with solutions via mathematical tools: Fourier series; Fourier and Laplace transforms; partial differential equations, wave and Laplace equations. Recommended Preparation: undergraduate multivariable calculus and ordinary differential equations. Duplicates Credit in the former CE 525b. Instruction Mode: Lecture Grading Option: Letter

CE 528 Seismic Analysis and Design of Reinforced Concrete Bridges
Units: 3 Terms Offered: Fundamental concepts, methods and current codes used in the analysis and design of reinforced concrete bridge structures. Experimental and earthquake observations of bridge performance. Prerequisite: CE 457; Recommended Preparation: CE 538. Instruction Mode: Lecture Grading Option: Letter

CE 529a Finite Element Analysis
Units: 3 Terms Offered: Fa Basic concepts; stiffness method; variational methods; displacement method; isoparametric formulation; plane stress and strain; plates and shells; dynamics; stability; nonlinear analysis, heat transfer; computer applications. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as AME 528a

CE 529b Finite Element Analysis
Units: 3 Terms Offered: Sp Basic concepts; stiffness method; variational methods; displacement method; isoparametric formulation; plane stress and strain; plates and shells; dynamics; stability; nonlinear analysis, heat transfer; computer applications. Prerequisite: CE 529a Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 528b

CE 530 Nonlinear Mechanics
Units: 3 Nonlinear problems in structural dynamics; elastic-plastic response; approximate methods of nonlinear analysis; stability theory; stability of periodic nonlinear oscillations; Liapounov's method; nonlinear buckling problems. Instruction Mode: Lecture Grading Option: Letter

CE 531 Soil Mechanics
Units: 3 Soil formation; clay mineralogy; steady state seepage; mechanical coupling between interstitial water and soil skeleton; experimental soil behavior and its modeling with constitutive equations. Prerequisite: CE 464. Instruction Mode: Lecture Grading Option: Letter

CE 532 Principles of Foundation Engineering
Units: 3 Fundamental methods in foundation engineering; plastic collapse, limit equilibrium, bearing capacity, slope stability; soil-structure interaction; application of numerical methods, finite differences and finite elements. Prerequisite: CE 464. Instruction Mode: Lecture Grading Option: Letter

CE 533 Geotechnical Earthquake Engineering
Units: 3 Provides a design-oriented understanding of the “stateof-the-practice” of soil mechanics and foundation engineering aspects of earthquake engineering. Instruction Mode: Lecture Grading Option: Letter

CE 534 Design of Earth Structures
Units: 3 Designed to provide a thorough understanding of the analytical and design principles underlying the construction of a broad range of earth structures. Instruction Mode: Lecture Grading Option: Letter

CE 535 Earthquake Engineering: Strong Motion Studies
Units: 3 Terms Offered: Fa Earthquake source mechanisms; wave propagation, scattering, diffraction and amplification; empirical scaling of strong ground motion; seismic hazard analysis for earthquake resistant design codes and mapping. Duplicates Credit in former CE 535a. Instruction Mode: Lecture Grading Option: Letter

CE 536 Structural Design for Dynamic Loads
Units: 3 Earthquake resistant design criteria with application to steel reinforced concrete and timber structures. Design of blast resistant structures and structures subject to impact loads. Prerequisite: CE 459 or CE 541a. Instruction Mode: Lecture Grading Option: Letter

CE 537 Advanced Reinforced Concrete
Units: 3 Terms Offered: Sp Fundamental principles of prestressing by pre- and post-tensioning; elastic and time dependent losses; stress analysis and design of prestressed and precast concrete structures. Instruction Mode: Lecture Grading Option: Letter

CE 539 Advanced Steel Structures
Units: 3 Terms Offered: Sp Design of tubular members and plate girders; design for torsional and seismic loads; general flexural theory; introduction to plastic design; connections. Instruction Mode: Lecture Grading Option: Letter

CE 540 Limit Analysis of Structures
Units: 3 Plastic analysis and design of frames. Fundamental theorems of plastic analysis; general methods of plastic analysis, design requirements, minimum weight design theorems and applications, shakedown theorems. Instruction Mode: Lecture Grading Option: Letter

CE 541a Dynamics of Structures
Units: 3 Terms Offered: Fa Forced vibrations of discrete MDOF systems; modal analysis;
energy methods; analytical dynamics; vibration of continuous systems; wave propagation; computational techniques; application of commercial software tools. 

Prerequisite: CE 541a. Instruction Mode: Lecture Grading Option: Letter

CE 541b Dynamics of Structures
Units: 3

Terms Offered: Sp Continuous system responses; approximate methods; introduction to structural control; random vibration concepts; response of continuous systems to random excitation; nonlinear systems (geometric theory), (approximate methods). Prerequisite: CE 541a. Instruction Mode: Lecture Grading Option: Letter

CE 542 Theory of Plates
Units: 3

Theory of plate bending; rectangular and circular plates; anisotropic plates; energy methods; numerical methods; large deformations; sandwich plates. Prerequisite: CE 428 or CE 507. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-542

CE 543 Stability of Structures
Units: 3

Critical loads of columns, beams, thin-wall bars, plates, shells; stability of frames and trusses; effect of inelastic behavior of materials; effect of dynamic loading. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-543

CE 544 Theory of Shell Structures
Units: 3

General bending theory of shells; membrane theory; shells of revolution; numerical methods; dynamic response. Prerequisite: CE 428 or CE 507. Instruction Mode: Lecture Grading Option: Letter

CE 545a Advanced Finite Element Method in Structural and Continuum Mechanics
Units: 3

Finite elements in nonlinear mechanics; elasticity, plasticity, viscoelasticity; advanced finite element applications in fracture mechanics, heat transfer, fluid mechanics; computational implementation of finite element method. Prerequisite: CE 529a. Instruction Mode: Lecture Grading Option: Letter

CE 545b Advanced Finite Element Method in Structural and Continuum Mechanics
Units: 3

Mathematical aspects of the finite element method; correctness of discretizations for elliptic, parabolic, and hyperbolic equations; accuracy and convergence considerations; stability of time dependent algorithms. Prerequisite: CE 545a. Instruction Mode: Lecture Grading Option: Letter

CE 546 Structural Mechanics of Composite Materials
Units: 3

Applications and manufacturing of composites: anisotropic materials; laminated composite plates and shells; buckling and dynamics; strength and failure; interlaminar stresses; delamination; thermal properties; design considerations. Instruction Mode: Lecture Grading Option: Letter

CE 547 Earthquake Engineering: Response of Structures
Units: 3

Terms Offered: Sp Solutions of seismic structural response: vibrational vs. wave methods, spectral superposition, probabilistic response estimation, nonlinear response; soil-structure interaction; identification and structural health monitoring; experimental methods. Duplicates Credit in former CE 535b. Instruction Mode: Lecture Grading Option: Letter

CE 549 Building Design Project
Units: 3

Terms Offered: Sp Integrated design project following design office procedures. A building will be designed in detail using the team approach. Capstone for MEng in Structural Design. Prerequisite: CE 459 or CE 541a, CE 458 or CE 529a, CE 537; Corequisite: CE 539. Instruction Mode: Lecture Grading Option: Letter

CE 550 Computer-Aided Engineering
Units: 3

Basic concepts of computer-aided engineering. Modeling; simulation; visualization; optimization; artificial intelligence; manufacturing; information management. Organization and management of computer-aided engineering projects. Instruction Mode: Lecture Grading Option: Letter

CE 551 Computer-Aided Engineering Project
Units: 3

Computer-aided engineering in a project environment. Responding to RFIs; conceptual design; preliminary analysis; overall and detailed analysis and design; trade-off studies; project management; project presentation. Instruction Mode: Lecture Grading Option: Letter

CE 552 Managing and Financing Public Engineering Works
Units: 3

Terms Offered: FaSpSm Tools for improving the efficiency and effectiveness of public engineering works, taking into account the political and policy context. Recommended Preparation: microeconomic theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-552

CE 553 Biological Processes in Environmental Engineering
Units: 3

Fundamentals and design of aerobic and anaerobic biological treatment processes with a focus on removing organic and inorganic pollutants and recovering resources. Prerequisite: CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-553

CE 554 Risk and Reliability Analysis for Civil Infrastructure Systems
Units: 3

Terms Offered: Sp Elements of feasibility, reliability, and risk analysis of civil infrastructure systems, simulation, optimization, life-cycle cost, evaluation and decision making. Instruction Mode: Lecture Grading Option: Letter

CE 555 Underwater Structures
Units: 3

Loads on underwater structures; stress analysis of typical structural elements; buckling problems; dynamic response. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter

CE 556 Project Controls — Budgeting and Estimating
Units: 3

Terms Offered: FaSp Fundamental principles and practices of cost estimating, budgeting, and cost control of construction projects. Case studies and software exercises based on project data. Instruction Mode: Lecture Grading Option: Letter

CE 557 Advanced Building Estimating
Units: 3

Terms Offered: Sp Processes in compiling a bid for construction of nonresidential building. Instruction Mode: Lecture Grading Option: Letter

CE 558 International Construction and Engineering
Units: 3

Terms Offered: Sp Business development and project management in international markets. Topics include marketing, planning, contracts and negotiations, procurements, logistics, personnel and financing. Construction operations in adverse environments. Instruction Mode: Lecture Grading Option: Letter

CE 559 Strategic Planning in Construction Engineering
Units: 3

CE 560 Simulation of Civil Infrastructure Systems Performance
Units: 3

Time/space and frequency/wave number domain analysis, spectral representation of wind, earthquake and other natural loads, FEM techniques for system response simulation. Instruction Mode: Lecture Grading Option: Letter

CE 561 Uncertainty Quantification
Units: 3

Methods of quantifying uncertainty in civil engineering and related fields. Basic uncertainty modeling; advanced topics such as reliability analysis, Bayesian updating, random processes, random fields. Instruction Mode: Lecture Grading Option: Letter

CE 562 Aquatic Chemistry
Units: 3

Terms Offered: FaSp (Enroll in ENE 562)

CE 563 Chemistry and Biology of Natural Waters
Units: 3

Chemical and biological limnology; cycles of carbon, nitrogen, phosphorous, sulfur, and other biologically-mediated chemical transformations; effect of pollution on biology and chemistry of natural waters. Prerequisite: CE 443 and CE 453. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENE-563

CE 565 Wave Propagation in Solids
Units: 3

Elastic waves in infinite and semi-infinite regions; plates and bars; steady-state and transient scattering; dynamic stress concentration; viscoelastic and plastic bodies. Instruction Mode: Lecture Grading Option: Letter

CE 566 Project Controls — Planning and Scheduling
Units: 3

Terms Offered: FaSp Fundamental
principles and practices of planning, CPM scheduling, and resource management. Development of project schedules using CPM theory applied to current and emerging software applications. Prerequisite: Recommended Preparation: CE 556. Instruction Mode: Lecture Grading Option: Letter

CE 567 Smart Infrastructures
Units: 3 Examination of smart infrastructures relating to energy, water, waste and transportation drawing from the fields of engineering, sustainability, communications, sociology, and psychology. Instruction Mode: Lecture Grading Option: Letter

CE 570 Building Information Modeling for Collaborative Construction
Units: 3 Terms Offered: Sp Multidisciplinary and geographically distributed virtual project teams used to simulate engineering and construction problems for projects selected in collaboration with industry partners. Prerequisite: CE 470; Recommended Preparation: CE 556, CE 566. Instruction Mode: Lecture Grading Option: Letter

CE 571 Nuclear Safety and Security: Human Performance and Safety Culture
Units: 3 Provides an overview of human-systems integration considerations, human performance and safety culture in the nuclear power operations. Instruction Mode: Lecture Grading Option: Letter

CE 572 Construction Labor Management
Units: 2 Unionism in construction. Craft tradition, objectives, regulation, motivation, labor force economics, productivity, and technical change. Hiring systems, supervision of project labor operations, jurisdictional administration.

CE 579 Introduction to Transportation Planning Law
Units: 3 Federal and state statutory and regulatory requirements affecting California transportation systems, including transportation planning and funding law; and government contracting, environmental, and civil rights requirements. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-588

CE 580 Law and Finance for Engineering Innovation
Units: 3 (Enroll in ISE 565)

CE 581 Negotiation For Engineering Management
Units: 3 Terms Offered: Sp (Enroll in ISE 581)

CE 582 Transportation System Security and Emergency Management
Units: 4 Terms Offered: FaSp Multimodal transportation resilience with emphasis on transit systems. Principles of emergency management, preparedness, vulnerability assessment, countermeasures. Related topics in policy and economics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD 582

CE 583 Design of Transportation Facilities
Units: 3 Planning, design, staging, construction, test, and maintenance of the public works and facilities for land, water, and air transportation. Recommended Preparation: CE 471 and CE 457; probability and statistics on the level of CE 408. Instruction Mode: Lecture Grading Option: Letter

CE 584 Intelligent Transportation Systems
Units: 3 Fundamentals of intelligent transportation systems, automated vehicles, communication systems, connected vehicle technologies, mobile devices, policy and planning, international research, standards, architecture, and economics of ITS. Instruction Mode: Lecture Grading Option: Letter

CE 585 Traffic Engineering and Control
Units: 3 Terms Offered: Sp Conceptual engineering geometric design, installation, and calibration of vehicular storage and traffic controls; safe flow optimization of vehicles on various thoroughfares. Recommended Preparation: CE 471. Instruction Mode: Lecture Grading Option: Letter

CE 586x Management for Engineers
Units: 4 (Enroll in AME 589x)

CE 587 Transportation Energy Analysis
Units: 3 Energy consumption and socioeconomic impacts of past, present, and future transportation systems; analysis of alternatives between energy-intensive and low-cost transportation modes. Instruction Mode: Lecture Grading Option: Letter

CE 588 Railroad Engineering
Units: 3 Railroad infrastructure including passenger and freight operations, track alignment (horizontal and vertical) design, basic components and terminology used in rail design and an understanding of this mode of transportation. Recommended Preparation: CE 471. Instruction Mode: Lecture Grading Option: Letter

CE 589 Port Engineering: Planning and Operations
Units: 3 Terms Offered: Fa Physical and operational characteristics of marine ports; impact analysis of modern logistics on port operation, planning and management; optimization and efficiency solutions for container terminals. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-589, PPD-589

CE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content will be selected each semester to reflect current trends and developments in the field of civil engineering. Instruction Mode: Lecture Grading Option: Letter

CE 603 System Identification
Units: 4 Terms Offered: FaSp Methods for building linear and nonlinear dynamical models from input and output time series data; theoretical models, algorithms, and toolbox implementation. Prerequisite: EE 482 or AME 451 Recommended Preparation: Basic probability (e.g., CE 408, EE 364, or MATH 407); Exposure to basic optimization (e.g., ISE 330 or ISE 536) Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 603

CE 611 Stochastic Modeling and Simulation
Units: 3 Stochastic methods for modeling and simulating physical, chemical and biological processes. Topics include: Stochastic partial differential equations, Monte Carlo simulations, moment equation methods, stochastic expansions. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PTE-611, CHE-611

CE 633 Urban Transportation Planning and Management
Units: 4, 2 years Terms Offered: Fa (Enroll in PPD 633)

CE 634 Institutional and Policy Issues in Transportation
Units: 4 Terms Offered: Sp (Enroll in PPD 634)

CE 638 Stochastic Optimization
Units: 3 Terms Offered: FaSp (Enroll in ISE 638)

CE 640 Advanced Theory of Elasticity
Units: 3 Curvilinear tensors; equations of nonlinear elasticity; elementary solutions; small deformations superimposed on large deformations; bifurcation of equilibrium states; nonlinear shell theory. Prerequisite: CE 507. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-640

CE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3 Introduction to the mathematical foundations, numerical algorithms, and computational tools necessary for solving problems of optimization under uncertainty. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-645, ISE-645, EE-645

CE 647 Multiscale Methods in Mechanics
Units: 3 Behavior of man-made and natural materials at different scales; experimental methods to characterize behavior; governing equations, interscale coupling, information exchange; probabilistic representations; error analysis. Prerequisite: AME 525 or AME 526 or CE 525 or CE 526. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-647

CE 670 Advanced Research Methods for Built Environment Informatics
Units: 3 Terms Offered: FaSp Research methods in informatics for intelligent built environments; data acquisition, analysis and interpretation for adaptive and responsive
built environments and their interactions with end users. Instruction Mode: Lecture Grading Option: Letter

CE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Laboratory study of specific problems by candidates for the degree in Civil Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 692 Transportation and the Environment
Units: 4 (Enroll in PPD 692)

CE 694a Thesis
Units: 2 Required for the degree in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 694b Thesis
Units: 2 Required for the degree in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 694z Thesis
Units: 0 Required for the degree in Civil Engineering. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CE 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Chemical Engineering

CHE 120 Introduction to Chemical Engineering
Units: 4 Terms Offered: FaSp Problem-solving techniques in chemical engineering, including an introduction to engineering problem analysis, mass balances, and energy balances. Corequisite: MATH 125g and (CHEM 105aL or CHEM 115aL) Registration Restriction: Open only to the Viterbi School of Engineering Instruction Mode: Lecture Grading Option: Letter

CHE 205 Numerical Methods in Chemical Engineering
Units: 3 Terms Offered: Fa Computational tools for solving numerical problems in Chemical Engineering. Prerequisite: MATH 125. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 301g Introduction to Engineering Biology
Units: 4 Terms Offered: Fa Engineering methods to understand and design molecules, cells, and living organisms. Techniques to analyze biological systems at the molecular and microscopic level. Computational analysis. Prerequisite: CHEM 105a or CHEM 115a or MASC 110 Recommended Preparation: Basic understanding of chemistry, atoms, and molecules. Completion of an Advanced Placement chemistry class in high school is acceptable preparation for CHE 301g. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to Viterbi School of Engineering students Instruction Mode: Lecture Grading Option: Letter

CHE 330 Chemical Engineering Thermodynamics
Units: 3 Terms Offered: Fa Elements of chemical engineering thermodynamics, including generalized correlations of properties of materials, phase behavior, physical and chemical equilibria. Corequisite: MATH 226. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 350 Introduction to Separation Processes
Units: 3 Terms Offered: Fa Use of equilibrium phase relations and principles of material and energy balance for design, operation, and optimization of separation procedures such as distillation, absorption, etc. Prerequisite: CHEM 105bL or CHEM 115bL. Recommended Preparation: CHE 330. Instruction Mode: Lecture Grading Option: Letter

CHE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CHE 391L Introduction to Nanotechnology Research
Units: 2 Planning and execution of an experiment, and presentation of findings through oral presentations and a written report. Application of the scientific method learned through immersion in a lab environment. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

CHE 405 Applications of Probability and Statistics for Chemical Engineers
Units: 3 Terms Offered: Fa Principles of probability and statistics, random variables and random functions. Application to chemical engineering problems, including process design, process safety, heterogeneous materials and processes. Prerequisite: MATH 245. Instruction Mode: Lecture Grading Option: Letter

CHE 410 Introduction to Biomaterials and Tissue Engineering
Units: 3 Terms Offered: Fa (Enroll in BME 410) Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 442 Chemical Reactor Analysis
Units: 3 Terms Offered: Fa Basic concepts of chemical kinetics and chemical reactor design. Prerequisite: MATH 245. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHE 443 Viscous Flow
Units: 3 Terms Offered: Sp Constitutive equations and rate laws, momentum equations and kinetic theory of Newtonian, Non-Newtonian and complex flows. Applications to chemical engineering systems. Corequisite: CHE 350, MATH 245.

CHE 444aL Chemical Engineering Laboratory
Units: 3 Terms Offered: FaSp Resolution of chemical engineering problems that require original planning, observations, and data interpretation. Written and oral reports. Prerequisite: CHE 330, CHE 350, CHE 442; Corequisite: CHE 443. Instruction Mode: Lab Required Grading Option: Letter

CHE 444bL Chemical Engineering Laboratory
Units: 3 Terms Offered: FaSp Resolution of chemical engineering problems that require original planning, observations, and data interpretation. Written and oral reports. Prerequisite: CHE 330, CHE 350, CHE 442; Corequisite: CHE 443. Instruction Mode: Lab Required Grading Option: Letter

CHE 445 Heat Transfer in Chemical Engineering Processes
Units: 2 Phenomenological rate laws, differential and macroscopic equations, and elementary kinetic theory of heat transfer processes with emphasis on conduction and convection. Prerequisite: CHE 443, MATH 245. Duplicates Credit in AME 331. Instruction Mode: Lecture Grading Option: Letter

CHE 446 Mass Transfer in Chemical Engineering Processes
Units: 2 Terms Offered: Sp Molecular and continuum approaches to diffusion and convection in fluids and multiphase mixtures; simultaneous mass, heat and momentum transfer; steady-state and time-dependent diffusion; Maxwell-Stefan equations. Prerequisite: MATH 245, CHE 443. Instruction Mode: Lecture Grading Option: Letter

CHE 450 Sustainable Energy
Units: 3 Terms Offered: Fa A comparison of various forms of sustainable energy from a perspective ranging from molecules and materials to industrial-scale processes, including biomass, geothermal, and solar energy as well as carbon dioxide capture and utilization. Prerequisite: PHYS 151Lg and PHYS 152L Recommended Preparation: CHE 330 Instruction Mode: Lecture Grading Option: Letter

CHE 460L Chemical Process Dynamics and Control
Units: 3 Terms Offered: Sp Simulation, stability, and automatic control of chemical processes. Open and closed loop control schemes and introduction to optimal control
theory. Computer implementation and laboratory application. Prerequisite: CHE 120; Corequisite: MATH 245. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHE 461 Formation Evaluation
Units: 3 (Enroll in PTE 461)

CHE 462 Economic, Risk and Formation Productivity Analysis
Units: 4 (Enroll in PTE 462)

CHE 463L Introduction to Transport Processes in Porous Media
Units: 3 (Enroll in PTE 463L)

CHE 464L Petroleum Reservoir Engineering
Units: 3 (Enroll in PTE 464L)

CHE 465L Drilling Technology and Subsurface Methods
Units: 3 (Enroll in PTE 465L)

CHE 472 Polymer Science and Engineering
Units: 3 Terms Offered: Sp The preparation, characterization, and properties of synthetic polymers. An interdisciplinary approach to polymers as materials. Recommended Preparation: CHEM 322aL. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC-472

CHE 474L Polymer Science and Engineering Laboratory
Units: 3 Terms Offered: Sp Experimental methods for the preparation, characterization, and properties of synthetic polymers. Recommended Preparation: CHE 472. Instruction Mode: Lab Required Grading Option: Letter

CHE 475 Physical Properties of Polymers
Units: 3 Terms Offered: Fa Theoretical methods and semi-empirical correlations for estimating mechanical, thermodynamic, transport, optical, and electrical properties of polymer solutions, melts, networks, glasses, polymer blends and semi-crystalline polymers. Recommended Preparation: CHEM 472. Instruction Mode: Lecture Grading Option: Letter

CHE 476 Chemical Engineering Materials
Units: 3 Terms Offered: Sp Chemical and physical properties of solid materials used by chemical engineers, including polymers, metals, and ceramics. Materials design for industrial applications. Prerequisite: CHEM 322aL. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-476, MASC-476

CHE 477 Computer Assisted Polymer Engineering and Manufacturing I
Units: 3 Terms Offered: Sp Estimation of physical, mechanical, chemical and processing properties of thermal plastics. Major molding processes. Mold flow simulation and residual stresses analysis. Case studies. Prerequisite: junior class standing. Instruction Mode: Lecture Grading Option: Letter

CHE 480 Chemical Process and Plant Design
Units: 3 Terms Offered: Sp Applications of unit operations, thermodynamics, kinetics, and economic balance; energy conservation in heat exchanger networks and in sequencing of separational devices. Safety aspects. Prerequisite: senior standing. Instruction Mode: Lecture Grading Option: Letter

CHE 485 Computer-Aided Chemical Process Design
Units: 3 Terms Offered: Fa Use and optimization of modern computer software for chemical process design. Prerequisite: CHE 442, CHE 443. Instruction Mode: Lecture, Lab Grading Option: Letter

CHE 486 Design of Environmentally Benign Process Plants
Units: 3 Terms Offered: Sp Chemical Process Plants interact with the environment as an integrated system. This course discusses design procedures to minimize unwanted effluents to air, water and solid wastes. Corequisite: CHE 480 or CHE 485. Instruction Mode: Lecture Grading Option: Letter

CHE 487 Nanotechnology and Nanoscale Engineering through Chemical Processes
Units: 3 Properties and processing of nanomaterials including polymeric, metallic, and ceramic nanoparticles, composites, colloids, and surfactant self-assembly for templated nanomaterial production. Prerequisite: CHEM 105aLg or CHEM 115aLg or MASC 110L. Instruction Mode: Lecture Grading Option: Letter

CHE 488 Molecular and Cellular Bioengineering
Units: 3 Terms Offered: Fa Design, synthesis, and analysis of biological molecules; routes to understand and engineer living systems at the molecular and cellular level, systems and synthetic biology. Prerequisite: BISC 320. Instruction Mode: Lecture Grading Option: Letter

CHE 489 Biochemical Engineering
Units: 3 Terms Offered: Sp Application of chemical engineering principles to biological and biochemical processes and materials. Design of biochemical reactors and of processes for separation and purification of biological products. Prerequisite: CHE 330, BISC 320L. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BME-489

CHE 490s Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CHE 491 Nanotechnology Research for Undergraduates
Units: 2 Max Units: 4.0 Independent research in nanotechnology. Research project selected by the student in close consultation with a research adviser. Prerequisite: CHE 391L. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

CHE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in chemical engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

CHE 501 Modeling and Analysis of Chemical Engineering Systems
Units: 3 Terms Offered: Fa Application of mathematics to problems in chemical engineering; mathematical modeling, differential and integral equations, linear systems analysis and stability, asymptotic and numerical methods. Instruction Mode: Lecture Grading Option: Letter

CHE 502 Numerical Methods for Diffusive and Convective Transport
Units: 3 Terms Offered: Sp Numerical solution of ordinary and partial differential equations describing fluid flow, diffusion with chemical reaction, and conduction in heterogeneous media. Instruction Mode: Lecture Grading Option: Letter

CHE 510 Energy and Process Efficiency
Units: 3 Terms Offered: Sp Management and engineering strategies utilized to improve energy efficiency. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in AME 577. Instruction Mode: Lecture Grading Option: Letter

CHE 513 Principles of Combustion
Units: 3 (Enroll in AME 513)

CHE 523 Principles of Electrochemical Engineering
Units: 3 (Enroll in MASC 523)

CHE 530 Thermodynamics for Chemical Engineers
Units: 3 Terms Offered: Sp Application of thermodynamics to chemical engineering systems. Recommended Preparation: CHE 330. Instruction Mode: Lecture Grading Option: Letter

CHE 531 Enhanced Oil Recovery
Units: 3 (Enroll in PTE 531)

CHE 532 Vapor-Liquid Equilibrium
Units: 3 Thermodynamics of phase relations; prediction and correlation of phase behavior. Prerequisite: CHE 330. Instruction Mode: Lecture Grading Option: Letter

CHE 540 Viscous Flow
Units: 3 Fluid mechanical problem of interest to chemical engineers involving laminar flows of incompressible fluids, viscous-dominated creeping flows, and motion of bubbles and drops. Prerequisite: CE 309 or AME 309 or CHE 443. Instruction Mode: Lecture Grading Option: Letter

CHE 541 Mass Transfer
Units: 3 Fundamentals of mass transfer within a single phase and between phases; applications to separation processes. Recommended Preparation: CHE-445. Instruction Mode: Lecture Grading Option: Letter

CHE 542 Chemical Engineering Kinetics
Units: 3 Terms Offered: Sp Reaction kinetics applied to problems of engineering design and operation. Recommended Preparation: CHE 442. Instruction Mode: Lecture Grading Option: Letter

CHE 544 Heat Transmission
Units: 3 Principles of conduction, radiation, and convection of heat; application to chemical and related industries. Recommended Preparation: CHE 330, CHE 445. Instruction Mode: Lecture Grading
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 596 Chemical Reactions in the Atmosphere
Units: 3 (Enroll in ENE 596)

CHE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content will be selected each semester to reflect current trends and developments in the field of chemical engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHE 611 Stochastic Modeling and Simulation
Units: 3 (Enroll in CE 611)

CHE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree in Chemical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHE 700 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHE 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 050x General Chemistry Tutorial
Units: 2 Weekly tutorial for selected students in CHEM 105a.Lg. Strong emphasis on chemical mathematics and key concepts in general chemistry. Concurrent Enrollment: Concurrent enrollment in CHEM 105a.Lg. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as Topics parallel lectures in CHEM 105a.Lg.

CHEM 051x General Chemistry Tutorial
Units: 2 Structured tutorial for selected students in CHEM 105b.L. Strong emphasis on chemical mathematics and key concepts in general chemistry. Prerequisite: CHEM 105a; Concurrent Enrollment: Concurrent enrollment in CHEM 105b.L. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as Topics parallel lectures in CHEM 105b.L.

CHEM 102 The Molecular World
Units: 4 Basic chemistry and its impact on the contemporary world. Topics include: structures and reactions of molecules, stoichiometry, nomenclature, gases, solutions. Instruction Mode: Lecture, Discussion Grading Option: Letter

CHEM 103Lx General Chemistry for the Environment and Life
Units: 4 Terms Offered: FaSpSm Chemistry for environmental studies, neuroscience and other life sciences: organic and inorganic structures, nomenclature, stoichiometry, solutions, gases, non-covalent interactions, equilibria, acid-base and redox reactions. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 105a.Lg General Chemistry
Units: 4 Terms Offered: FaSpSm Fundamental principles and laws of chemistry; laboratory work emphasizes quantitative procedures. Prerequisite: Prerequisite to all more advanced courses in chemistry. CHEM 050 or passing of placement test. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in CHEM 115a.L or CHEM 115b.L. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CHEM 105b.L General Chemistry
Units: 4 Terms Offered: FaSpSm Fundamental principles and laws of chemistry; laboratory work emphasizes quantitative procedures. Prerequisite: Prerequisite to all more advanced courses in chemistry. CHEM 105a.Lg or CHEM 115a.Lg. Duplicates Credit in CHEM 115a.L or CHEM 115b.L. Instruction Mode: Lecture, Quiz, Lab Required Grading Option: Letter

CHEM 107Lx General Chemistry for Chemistry Majors
Units: 4 Terms Offered: FaSp Fundamental principles and laws of chemistry emphasizing contemporary chemistry; laboratory work focuses on quantitative procedures. Satisfies New General Education in Category E: Physical Sciences Registration Restriction: Open only to Chemistry and Biochemistry majors Duplicates Credit in CHEM 105a and CHEM 115a. Instruction Mode: Lecture, Lab, Quiz Grading Option: Letter
CHEM 108L. General Chemistry for Chemistry Majors: Kinetics and Equilibrium
Units: 4 Terms Offered: FaSp Fundamental principles and laws of chemistry emphasizing contemporary chemistry; laboratory work focuses on quantitative procedures. Second-semester general chemistry course for majors. Recommended Preparation: CHEM 107L. Registration Restriction: Open only to Chemistry and Biochemistry majors. Corequisites: Credit in CHEM 105L and CHEM 115L. Instruction Mode: Lecture, Lab, Required, Quiz Grading Option: Letter

CHEM 115aLg Advanced General Chemistry
Units: 4 Terms Offered: Fa Sp Equivalent to CHEM 105a-CHEM 105b , but taught at a higher level for exceptionally well-prepared students. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in CHEM 105aL or CHEM 105bL. Instruction Mode: Lecture, Lab Required, Discussion, Lab, Required, Quiz Grading Option: Letter

CHEM 115bL Advanced General Chemistry
Units: 4 Terms Offered: Sp Equivalent to CHEM 105a - CHEM 105b , but taught at a higher level for exceptionally well-prepared students. Prerequisite: CHEM 115aLg. Duplicates Credit in CHEM 105aL or CHEM 105bL. Instruction Mode: Lecture, Lab Required, Discussion, Quiz Grading Option: Letter

CHEM 201Lgx Chemistry in the Environment, Energy and Society
Units: 4 A range of issues where chemistry impacts society will be explored. Topics such as global warming, pollution, energy utilization and genetic engineering will be covered. Students who have taken CHEM 105a, CHEM 105b previously or concurrently with CHEM 201 will not receive credit for CHEM 201. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 203Lgx AIDS Drug Discovery and Development
Units: 4 Terms Offered: Fa Scientific principles underlying molecular approaches to diagnosis and treatment of diseases, using specific models within a societal (business, legal, ethical) context. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 205Lgx Chemical Forensics: The Science, and Its Impact
Units: 4 Scientific principles underlying forensic approaches to the investigation of crimes and its societal impact on law, culture and media. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

CHEM 211x Organic Chemistry Problem Solving Workshop
Units: 2 Terms Offered: Sp Distance learning course designed to bridge the gap between general and organic chemistry. Focus on problem solving and understanding the language of organic chemistry. Not for major credit for chemistry, chemistry (chemical nanoscience), chemistry (chemical physics), chemistry (research) or chemistry (chemical biology) majors. Prerequisite: CHEM 105b. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 250x Organic Chemistry Tutorial A
Units: 2 Major principles of organic chemistry and its relevance. Topics covered parallel to those of CHEM 322aL. Prerequisite: CHEM 322aL. Corequisite: CHEM 322bL. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 251x Organic Chemistry Tutorial B
Units: 2 Terms Offered: FaSp Structured tutorial course, which enables students to understand fundamental principles, better approach problems with success. Explores the major principles of organic chemistry and its relevance. Topics covered will parallel CHEM 322b. Prerequisite: CHEM 322aL. Corequisite: CHEM 322bL. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 280x Research Design, Interpretation and Statistics
Units: 2 Fundamental principles behind the design and execution of scientific research in the chemical, physical and biological sciences, emphasizing scientific reasoning, data interpretation and statistical analysis. Instruction Mode: Lecture Grading Option: Letter

CHEM 290a Special Laboratory
Units: 1 Terms Offered: FaSpSm Laboratory component for CHEM 105a, CHEM 105b, 322, or CHEM 322b for students with equivalent lecture credit from another institution. Prerequisite: consent of department head. Instruction Mode: Lab Required Grading Option: Letter

CHEM 290b Special Laboratory
Units: 1 Terms Offered: FaSpSm Laboratory component for CHEM 105a, CHEM 105b, 322, or CHEM 322b for students with equivalent lecture credit from another institution. Prerequisite: consent of department head. Instruction Mode: Lab Required Grading Option: Letter

CHEM 290c Special Laboratory
Units: 1 Terms Offered: FaSpSm Laboratory component for CHEM 105a, CHEM 105b, 322, or CHEM 322b for students with equivalent lecture credit from another institution. Prerequisite: consent of department head. Instruction Mode: Lab Required Grading Option: Letter

CHEM 290d Special Laboratory
Units: 1 Terms Offered: FaSpSm Laboratory component for CHEM 105a, CHEM 105b, 322, or CHEM 322b for students with equivalent lecture credit from another institution. Prerequisite: consent of department head. Instruction Mode: Lab Required Grading Option: Letter

CHEM 292 Supervised Research
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Supervised laboratory experience. Corequisite: CHEM 105a or CHEM 115a. Instruction Mode: Lecture Grading Option: Letter

CHEM 294 Undergraduate Research Seminar
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminars in current research in the chemical and molecular sciences. Corequisite: CHEM 105a or CHEM 115a. Instruction Mode: Lecture Grading Option: Letter

CHEM 300L Analytical Chemistry
Units: 4 Terms Offered: FaSp Theory and practice in chemical analysis, emphasizing instrumental techniques; error analysis, fractional distillation, extraction; chromatography; visible, ultraviolet, and infrared spectroscopy; introductions to electrochemistry and nuclear magnetic resonance spectroscopy. Prerequisite: CHEM 105bL or CHEM 115bL. Instruction Mode: Lecture, Lab Required, Discussion Grading Option: Letter

CHEM 322aL Organic Chemistry
Units: 4 Terms Offered: FaSpSm Chemistry of the carbon compounds of the aliphatic and aromatic series; laboratory preparation of typical compounds of both series. Enroll in CHEM 325a , CHEM 325b Prerequisite: CHEM 105bL or CHEM 115bL. Instruction Mode: Lecture, Lab Required, Discussion, Quiz Grading Option: Letter

CHEM 322bL Organic Chemistry
Units: 4 Terms Offered: FaSpSm Chemistry of the carbon compounds of the aliphatic and aromatic series; laboratory preparation of typical compounds of both series. Enroll in CHEM 325a , CHEM 325b Prerequisite: CHEM 105bL or CHEM 115bL. Instruction Mode: Lecture, Lab Required, Discussion, Quiz Grading Option: Letter

CHEM 325aL Organic Chemistry
Units: 4 Terms Offered: FaSpSm Chemistry of the carbon compounds of the aliphatic and aromatic series; laboratory preparation of typical compounds of both series. Enroll in CHEM 325a , CHEM 325b Prerequisite: CHEM 105bL or CHEM 115bL. Instruction Mode: Lecture, Lab Required, Discussion, Quiz Grading Option: Letter

CHEM 325bL Organic Chemistry
Units: 4 Terms Offered: Sp Required of majors in chemistry. Enroll in CHEM 322a , CHEM 322b Prerequisite: CHEM 105bL or CHEM 115bL. Instruction Mode: Lecture, Lab Required, Discussion, Quiz Grading Option: Letter

CHEM 330L Biochemistry
Units: 4 Terms Offered: FaSp (Enroll in BISC 330L)

CHEM 332L Physical Chemical Measurements
Units: 4 Experimental study of topics discussed in CHEM 430 and CHEM 431; adsorption, magnetic susceptibility; electron spin resonance, kinetics, equilibria, molecular spectra and structure, viscosity, dielectric properties. Corequisite: CHEM 807
430 or CHEM 431 Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

**CHEM 350g Molecular Principles of Biochemistry**
Units: 4 Terms Offered: FaSp Biomolecular structures, protein and nucleic acid chemistry and functions, carbohydrates, lipids, membranes, enzyme catalysis and kinetics, coenzymes, biochemical signaling, major metabolic pathways, control of gene expression, replication, transcription, and translation. Prerequisite: CHEM 105b or CHEM 115b; Recommended Preparation: BISC 220 or BISC 221. Corequisite: CHEM 322a or CHEM 325a; Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 390 Special Problems**
Units: 1, 2, 3, 4 Supervised, individual study. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**CHEM 421L/422L Advanced Laboratory Techniques in Organic and Inorganic Chemistry**
Units: 4 Terms Offered: Sp Advanced synthetic, analytical, and physical measurement techniques in organic and inorganic chemistry. Emphasis on laboratory work with discussion of theoretical background. Prerequisite: CHEM 300L, CHEM 322b or CHEM 325bL. Instruction Mode: Lecture, Lab Required, Discussion Grading Option: Letter

**CHEM 426 Advanced Organic Chemistry**
Units: 4 Terms Offered: Fa Advanced treatment of organic chemistry from a mechanistic point of view according to the following topics: polar and isopolar reactions, intermediates. Prerequisite: CHEM 322b or CHEM 325bL. Instruction Mode: Lecture Grading Option: Letter

**CHEM 430 Physical Chemistry: Thermodynamics and Kinetics**
Units: 4 Terms Offered: Fa Kinetic theory; equations of state; thermodynamics; phase equilibria; chemical equilibrium; nuclear chemistry, wave mechanics; spectroscopy; statistical thermodynamics; kinetics; electrochemistry; surface and colloid chemistry. Prerequisite: CHEM 300L or CHEM 322al or CHEM 325aL and (MATH 225 or MATH 226) and PHYS 151Lg Duplicates Credit in CHEM 430a Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 431 Physical Chemistry: Quantum Mechanics**
Units: 4 Kinetic theory; equations of state; thermodynamics; phase equilibria; chemical equilibrium; nuclear chemistry, wave mechanics; spectroscopy; statistical thermodynamics; kinetics; electrochemistry; surface and colloid chemistry. Prerequisite: PHYS 152L Duplicates Credit in CHEM 430d Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 432 Physical Chemistry for the Life Sciences**
Units: 4 Terms Offered: Fa Principles of physical chemistry relevant for the life sciences: thermodynamics, chemical equilibria, molecular dynamics, kinetics, molecular structures and interactions, spectroscopy, statistical thermodynamics and macromolecular structures. Prerequisite: CHEM 300L or CHEM 322aL or CHEM 325aL; MATH 126; PHYS 135a L or PHYS 151Lg Duplicates Credit in CHEM 430a. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 453 Advanced Inorganic Chemistry**
Units: 4 Terms Offered: Sp Atomic structure, theory of bonding, molecular structure, metallic state, coordination compounds, transition and nontransition metals, magnetic and optical properties, crystal field theory, mechanism of reactions. Prerequisite: CHEM 105bL or CHEM 115bL and CHEM 322aL or CHEM 325aL. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 455 Chemical Nanotechnology**
Units: 4 Studies in the fundamental principles governing nanoscale materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of nanoscale materials and applications. Prerequisite: CHEM 322aL or CHEM 325aL. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 463L Chemical Nanotechnology Laboratory**
Units: 2 Experimental techniques in the synthesis and characterization of nanoscale materials. Emphasis on examining size-dependent properties of various nano-scale materials using spectroscopic techniques. Prerequisite: CHEM 322aL or CHEM 325aL. Instruction Mode: Lecture, Lab Grading Option: Letter

**CHEM 465L Chemical Instrumentation**
Units: 4 Principles of operation of instruments used in physical sciences. Basic electronics, interconnection of building blocks, data acquisition and data reduction, noise, instrument systems. Prerequisite: CHEM 332L or CHEM 430b or CHEM 431 Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CHEM 467L Advanced Chemical Biology Laboratory**
Units: 2 Principles, methods and protocols of chemical biology through experimentation focusing on the interactions of small molecules with biomacromolecules such as proteins and DNA. Prerequisite: CHEM 322h or CHEM 325b Corequisite: CHEM 300 Instruction Mode: Lecture, Lab Grading Option: Letter

**CHEM 488 Introduction to Theory and Practice of X-ray Crystallography**
Units: 4 Terms Offered: Fa Introduction to single crystal X-ray diffraction theory and its extension to two-dimensional diffraction. Application of modern instrumentation and software techniques to problems of current chemical interest. Prerequisite: CHEM 300; CHEM 322a or CHEM 325a; and CHEM 322b or CHEM 325b. Instruction Mode: Lecture Grading Option: Letter

**CHEM 490 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

**CHEM 494x Advanced Research Experience**
Units: 2, 4 Max Units: 4.0 Terms Offered: FaSpSm Directed undergraduate research supervised by faculty, with advanced capstone research experience. Prerequisite: CHEM 490. Instruction Mode: Lecture Grading Option: Letter

**CHEM 495 Beyond the Classroom - Research in Modern Chemistry**
Units: 2 Current topics in chemical research, understanding structures of modern graduate training program and navigating the process of graduate program application. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

**CHEM 499 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Lectures and discussions on specialized topics in chemistry. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 510x/511x Alternative Energy Technologies and Options**
Units: 4 Introduce the essential scientific background to understand complex issues involving energy use and its environmental consequences. Critically analyze energy issues that will shape policy decisions. Instruction Mode: Lecture Grading Option: Letter

**CHEM 515 Structure and Bonding in Inorganic and Organometallic Chemistry**
Units: 4 An integrated core course of structure and bonding in inorganic, coordination and organometallic chemistry within an oxidation state framework. Symmetry, electronic properties. Instruction Mode: Lecture, Discussion Grading Option: Letter

**CHEM 516 Synthesis, Reactivity, and Mechanism in Inorganic and Organometallic Chemistry**
Units: 4 A reactivity framework for inorganic and organometallic chemistry. Synthesis, reaction mechanisms and energetics. Homogenous catalysis. Prerequisite: CHEM 515. Instruction Mode: Lecture Grading Option: Letter

**CHEM 519 Biochemistry and Molecular Biology: An Introduction for Chemists**
Units: 4 Amino acids and peptides; protein structure and function; enzyme kinetics; structure, analysis and synthesis of nucleic acids; chemical biology of DNA and RNA; biotechnology. Instruction Mode: Lecture Grading Option: Letter

**CHEM 521 Basic Principles of Physical Methods in Biochemistry**
Units: 2 Principles underlying physical analytical methods commonly utilized in research in biochemistry and molecular biology. Instruction Mode: Lecture Grading Option: Letter
CHEM 523 Introduction to Functional Inorganic Materials
Units: 2
An introduction to functional inorganic materials emphasizing crystalline materials and how their properties can be understood based on their structure, elemental composition, and electronic structure. Recommended Preparation: A basic understanding of molecular orbital theory and electronic structure of extended solids. Instruction Mode: Lecture, Discussion.
Grading Option: Letter

CHEM 524 Inorganic Materials Chemistry
Units: 2
Studies in the fundamental principles governing inorganic materials. Structure and chemical bonding, preparative methods, and electrical, optical and magnetic properties of inorganic materials and applications. Prerequisite: CHEM 515. Instruction Mode: Lecture. Grading Option: Letter

CHEM 526 Structure and Mechanism in Organic Chemistry
Units: 4
Review of modern structural theory of organic chemistry; and relation to the mechanisms of organic chemical reactions. Instruction Mode: Lecture. Grading Option: Letter

CHEM 527 Synthetic Organic Chemistry
Units: 4
A survey of representative groups of widely used synthetic organic reactions; emphasis on scope, limitations, and stereocchemical consequences. Instruction Mode: Lecture. Grading Option: Letter

CHEM 535 Introduction to Molecular Spectroscopy
Units: 4
Theory and experimental methods of molecular spectroscopy and applications to chemistry. Rotational, vibrational, electronic and nuclear magnetic resonance spectroscopies. Prerequisite: CHEM 544. Instruction Mode: Lecture. Grading Option: Letter

CHEM 536 Molecular Dynamics
Units: 2 or 4
Potential energy surfaces, reaction dynamics, scattering theories, classical trajectories, statistical theories, molecular energy transfer, photodissociation dynamics, gas-surface interactions, experimental results, beam and laser techniques. Instruction Mode: Lecture. Grading Option: Letter

CHEM 538 Mathematical Techniques of Physical Chemistry
Units: 4

CHEM 539 Surface Chemistry
Units: 4
Physical and chemical properties of solid surfaces; thermodynamics and kinetics of gas chemisorption; chemical bonding at surfaces; applications to catalysis and electronic materials. Instruction Mode: Lecture. Grading Option: Letter

CHEM 540 Introduction to Statistical Mechanics
Units: 4
Study of macroscopic systems from molecular viewpoint using statistical mechanics: ensembles, fluctuations, gases, gas-solid interfaces, crystals, polymers, critical phenomena, non-equilibrium systems. Instruction Mode: Lecture, Discussion. Grading Option: Letter

CHEM 544 Introduction to Quantum Chemistry
Units: 4
Basic principles of quantum mechanics and their application to chemistry. Electronic structure of atoms and molecules. Instruction Mode: Lecture. Grading Option: Letter

CHEM 545 Theory and Practice of Molecular Electronic Structure
Units: 4
Provide working knowledge and hands-on experience in current quantum chemical methods for chemists who would like to employ these techniques in their own research. Prerequisite: CHEM 538, CHEM 544. Instruction Mode: Lecture. Grading Option: Letter

CHEM 546 Mathematics in Physical Chemistry
Units: 4

CHEM 547 Numerical Calculations in Physical Chemistry
Units: 2
Introduction to numerical calculations in physical chemistry and quantum mechanics: translational and vibrational wavepackets, tunneling motions, particle in a potential, rotational-vibrational spectra of diatomic molecules. Duplicates Credit in CHEM 538. Instruction Mode: Lecture, Discussion. Grading Option: Letter

CHEM 548 Computer Simulations of Chemical and Biological Systems
Units: 4
Key aspects of the rapidly growing field of computer simulation of molecular systems in general and biological molecules in particular. Recommended Preparation: Undergraduate course in physical chemistry or equivalent. Instruction Mode: Lecture. Grading Option: Letter

CHEM 550 Special Topics in Chemical Physics
Units: 2, 3, 4
Max Units: 8.0
Study of selected areas of chemical physics. Critical evaluation of recent advances in the field. Instruction Mode: Lecture. Grading Option: Letter

CHEM 555 Computational Quantum Chemistry: Methods and Applications
Units: 2, 3, 4
Max Units: 04
Introduction to modern computational quantum chemistry. Prediction of molecular structure, molecular spectra and molecular reaction mechanisms using ab initio and semi-empirical methods. Prerequisite: CHEM 430B or CHEM 431. Recommended Preparation: CHEM 544. Instruction Mode: Lecture, Discussion. Grading Option: Letter

CHEM 556 Polymer Synthesis
Units: 4
Concepts of polymer structure and stereochemistry. Organic chemistry of polymerization reactions with emphasis on condensation, radical, cationic, anionic, and coordination -- metathesis polymerization. Instruction Mode: Lecture. Grading Option: Letter

CHEM 565L Advanced Practical Nuclear Magnetic Resonance Spectroscopy
Units: 2
Application of multidimensional and time resolved NMR spectroscopy to problems in structure determination and thermochemistry. Prerequisite: CHEM 322b or CHEM 325y. Recommended Preparation: CHEM 625. Instruction Mode: Lecture, Lab. Required Grading Option: Letter

CHEM 570 Seminar in Chemical Biology
Units: 2
Max Units: 4
Introduces students to emerging research areas in chemical biology through a thorough discussion of seminal research articles and presentations of current research topics. Recommended Preparation: Some research experience and familiarity with literature search. Instruction Mode: Lecture. Grading Option: Letter

CHEM 575 Modern Trends in Physical Chemistry
Units: 2
Max Units: 4
Emerging research areas in physical and theoretical chemistry through a thorough discussion of seminal research articles and presentations of current research topics. Recommended Preparation: Some research experience and familiarity with literature search. Instruction Mode: Lecture. Grading Option: Letter

CHEM 577a Medicinal Chemistry and Drug Design
Units: 2
Introduction to fundamentals of medicinal chemistry with special attention to the drug discovery process. Recommended Preparation: PSCI 664 and CHEM 519. PSCI 664. Instruction Mode: Lecture. Grading Option: Letter

CHEM 577b Medicinal Chemistry and Drug Design
Units: 2
Concepts, methods and examples of current approaches to drug design including computer-based molecular modeling techniques. Recommended Preparation: PSCI 664 and CHEM 519. PSCI 664. Instruction Mode: Lecture. Grading Option: Letter

CHEM 580 Current Topics in Inorganic Chemistry and Nanoscience
Units: 2
Max Units: 4
Introduction to emerging research areas in inorganic chemistry and nanoscience through a discussion of seminal research articles and presentations of current research topics. Instruction Mode: Lecture, Discussion. Grading Option: Letter

CHEM 581 Current Topics in Sustainable Energy Generation and Storage
Units: 2
Introduction to emerging research areas in the chemistry of sustainable energy generation and storage through discussion of core research areas and presentations on current research. Instruction Mode: Lecture, Discussion. Grading Option: Letter

CHEM 588 Advanced Practical X-ray Structure Determination of Small Molecules
CHEM 589 Macromolecular Crystallography
Units: 2 Advanced techniques and methods in X-ray crystal structure determination of biological macromolecules with emphasis on practical work. Duplicates Credit in former CHEM 588a Instruction Mode: Lecture Grading Option: Letter

CHEM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 594z Practicum in Teaching Chemistry
Units: 2 Practical principles for effective teaching in the laboratory. Intended for teaching assistants in Chemistry. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 661 Selected Topics in Polymer Synthesis
Units: 2, 3, 4 Max Units: 8.0 Advanced level study in selected areas of polymer synthesis. Critical evaluation of recent advances. Topic examples: ionic polymerization; stereochemistry of polymers; silicon polymers; ladder polymers. Instruction Mode: Lecture Grading Option: Letter

CHEM 662 Natural Products Chemistry
Units: 2 Survey of the chemistry and biogenesis of the major classes of secondary metabolites along biogenous lines: terpenes, acetogenins, and alkaloids. Instruction Mode: Lecture Grading Option: Letter

CHEM 630 Fundamentals of Electrochemical Energy Systems
Units: 2 Fundamentals of electrochemical energy systems including various batteries, fuel cells and electrolyzers with a focus on materials, operating principles and applications. Instruction Mode: Lecture Grading Option: Letter

CHEM 632 Introduction to Surface Chemistry and Electrocatalysis
Units: 2 Introduction to principles governing physical and chemical behavior of surfaces: structures, thermodynamics, adsorption, desorption, diffusion, electron transfer and electrocatalytic reactions, and experimental surface analytical techniques. Instruction Mode: Lecture Grading Option: Letter

CHEM 690 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CHEM 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CHEM 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 150g The Greeks and their Legacies
Units: 4 Terms Offered: FaSp Introduction to the culture of ancient Greece and its influence on contemporary ideas, institutions, values, and literary and artistic works of the imagination. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

CLAS 151gp The Legacy of Rome
Units: 4 Terms Offered: FaSp Ancient Roman values, ideas, and institutions of relevance to later periods of civilization. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

CLAS 160gp Ancient Lives
Units: 4 Terms Offered: FaSp The lives of prominent Greeks, Romans and others in their ancient historical and biographical contexts and in modern reevaluations through various written and visual media. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

CLAS 170gp Classics of Music and Literature: from Ancient Greece Through Contemporary LA
Units: 4 Terms Offered: FaSp Joint introduction to classical music and classical literature through close study of works of music inspired by the Greek and Roman literary tradition. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as MUSC 170

CLAS 202 Archaeology: Our Human Past
Units: 4 (Enroll in ANTH 202)

CLAS 212 Archaeology: Interpreting the Past
Units: 4 Terms Offered: Sp Methods and techniques employed in modern archaeological research, including the tools and principles of allied scientific fields and the impact of analytical and technological advances. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CLAS 280gp Classical Mythology in Art and Literature
Units: 4 Terms Offered: FaSp Classical Greek and Roman mythology as inspiration for literature, art, music, and film in various historical contexts. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode:

<tbody>
<tr>
<td><strong>CLAS 300 Women in Antiquity</strong></td>
</tr>
<tr>
<td>Units: 4 Theoretical approaches to women's history; evidence for the daily life, legal status, and religion of ancient Greek and Roman women; the female in literature and art. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>CLAS 321 Greek Art and Archaeology</strong></td>
</tr>
<tr>
<td>Units: 4 Terms Offered: Fa (Enroll in AHIS 321)</td>
</tr>
<tr>
<td><strong>CLAS 322 Roman Art and Archaeology</strong></td>
</tr>
<tr>
<td>Units: 4 Terms Offered: Sp (Enroll in AHIS 322)</td>
</tr>
<tr>
<td><strong>CLAS 323 Aegean Archaeology</strong></td>
</tr>
<tr>
<td>Units: 4 Terms Offered: FaSp Survey of the Bronze Age Aegean societies of Minoan Crete and Mycenaean Greece; emphasis on archaeological theory and method in a prehistoric context. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-320, REL-323</td>
</tr>
<tr>
<td><strong>CLAS 324 Late Antique Art and Archaeology</strong></td>
</tr>
<tr>
<td>Units: 4 Investigation of the transformation between classical antiquity and the middle ages through examination of cities, buildings, images and artifacts of the 3rd–8thcentury Mediterranean. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-324</td>
</tr>
<tr>
<td><strong>CLAS 325 Ancient Epic</strong></td>
</tr>
<tr>
<td>Units: 4 Representative epics of the Greek and Roman world; development of the character of the hero; later influences. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>CLAS 328 Archaeology of Religion in the Greco- Roman World</strong></td>
</tr>
<tr>
<td>Units: 4 Examination of ancient objects, images and archaeological sites as evidence for religious practice and ideas about the sacred in the GrecoRoman world. Recommended Preparation: AHIS 120gp, AHIS 201g Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS-326, REL-328</td>
</tr>
<tr>
<td><strong>CLAS 330 Ancients VS. Moderns</strong></td>
</tr>
<tr>
<td>Units: 4 Terms Offered: FaSp The history of the conflicts and compromises between advocates of antiquity and of modernity that continues to shape our own approaches to the past. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td><strong>CLAS 333 Cult and City in Ancient Greece</strong></td>
</tr>
<tr>
<td>Units: 4 Explores the relationship between civic and religious institutions in ancient Greece: city planning, warfare, mystery cults, drama, sacrifice, and women's rituals. Instruction Mode: Lecture Grading Option: Letter</td>

</table>
cultural, and political history of Egypt from Alexander to Cleopatra; state formation; immigration and cultural interaction between ethnic groups. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES 378, HIST 328

CLAS 380 Approaches to Myth
Units: 4 Advanced study of uses and interpretations of myth. Approaches include myth and ritual; psychology; gender; myth in literature, film and art. Recommended Preparation: CLAS 280. Instruction Mode: Letter Crosslisted as ANTH 465, REL 465, ARCG 465

CLAS 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CLAS 401a Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 401b Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 401c Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 401d Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 410a Research in Classical Studies
Units: 2 Current approaches to study of the ancient world. Research methods and resources. Registration Restriction: Open only to Classics majors. Instruction Mode: Lecture Grading Option: Letter

CLAS 410b Research in Classical Studies
Units: 2 Supervised independent research and writing of project developed in CLAS 410a. Registration Restriction: Open only to Classics majors. Instruction Mode: Lecture Grading Option: Letter

CLAS 415 Object-Worlds: Histories and Theories of Things
Units: 4 (Enroll in AHIS 415)

CLAS 420 Science and Empire from Baghdad to Byzantium
Units: 4 Terms Offered: FaSp terms Offered: FaSp Sm The interaction of archaeology and contemporary societies through political and moral claims; archaeologists’ role as stewards and interpreters of ancient cultures and their remains. Capstone course for the Archaeology major. Recommended Preparation: background in archaeology, classics, or related field Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 465, REL 465, ARCG 465

CLAS 470 Democracies Ancient and Modern
Units: 4 Democratic and republican governments in Athens and Rome; their influence on republicanism in early modern Italy and 18th-century America; their relevance for contemporary democracies. Instruction Mode: Lecture Grading Option: Letter

CLAS 485 Comparative Grammar of Greek and Latin
Units: 4 A systematic comparative and historical linguistic study of the phonological, morphological and syntactic components of the grammars of the ancient Greek and Latin languages. Instruction Mode: Lecture Grading Option: Letter

CLAS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

CLAS 495x Honors Research
Units: 4 Individual research for honors in the major leading to a substantial paper or other project. Instruction Mode: Lecture Grading Option: Letter

CLAS 498 Special Topics
Units: 2, 3, 4 Instruction Mode: Lecture Grading Option: Letter

CLAS 500 Proseminar
Units: 21/2 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 501a Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 501b Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 501c Cross Registration with UCLA
Units: 21/2 Instruction Mode: Lecture Grading Option: Letter

CLAS 501d Cross Registration with UCLA
Units: 21/2 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

UCLA
Units: 21/2 Special studies in selected areas of classical civilization and literature. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 510 Seminar in Classical Philology
Units: 4, 3 years Terms Offered: Fa Close study of the Greek and Latin languages and linguistic theory. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 511 Sanskrit I
Units: 4 Introduces the student to the fundamentals of Sanskrit grammar, the ancient Indo-European language most closely related to Greek. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 512 Sanskrit II
Units: 4 Completes the acquisition of the fundamentals of Sanskrit grammar and enables the student to read a variety of Vedic and classical Sanskrit texts. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 515 Topics in Classical Scholarship
Units: 4, 3 years Terms Offered: Fa Study in the history and theory of classical scholarship. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 520 Approaches to Antiquity
Units: 4, 3 years Terms Offered: Sp Study of individual authors, genres, periods, or areas of classical scholarship. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 525 Studies in Ancient and Pre-Modern Cultures
Units: 4, 3 years Terms Offered: Sp Investigation of cultural interaction among Greeks, Romans and other ancient peoples. Includes a comparative study of pre-modern cultures. Recommended Preparation: This course requires a knowledge of Greek or Latin. Instruction Mode: Lecture Grading Option: Letter

CLAS 540 Seminar in Early Greek Literature
Units: 4, 3 years Terms Offered: Fa Homer through Aeschylus. Instruction Mode: Lecture Grading Option: Letter

CLAS 545 Seminar in Theoretical Approaches to Greek Culture and Literature
Units: 4, 3 years Terms Offered: Fa Introduces students to the study of Greek culture and to the range of theories useful for modeling that culture and its literature. Instruction Mode: Lecture Grading Option: Letter

CLAS 550 Seminar in Classical and Hellenistic Literature
COURSES OF INSTRUCTION

Units: 4, 3 years Terms Offered: Sp Tragic poetry, comic poetry, Hellenistic poetry. Instruction Mode: Lecture Grading Option: Credit

CLAS 559 Seminar in Greek History, Culture, and Society
Units: 4, 3 years Terms Offered: Sp Develops a historical framework for Greek culture from the Mycenaean period through the Hellenistic world. Emphasis on prose texts: historians, philosophers, orators. Instruction Mode: Lecture Grading Option: Letter

CLAS 560 Seminar in Republican Latin Literature
Units: 4, 3 years Terms Offered: Fa Early Latin literature through Virgil. Instruction Mode: Lecture Grading Option: Letter

CLAS 565 Seminar in Theoretical Approaches to Roman Culture and Literature
Units: 4, 3 years Terms Offered: Fa Introduces students to the study of Roman culture and to a range of theories useful for modeling that culture and its literature. Instruction Mode: Lecture Grading Option: Letter

CLAS 570 Seminar in Imperial Latin Literature
Units: 4, 3 years Terms Offered: Sp Latin literature from the Augustan period to that of the Antonines. Instruction Mode: Lecture Grading Option: Letter

CLAS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CLAS 593x Practicum in Teaching Liberal Arts: Classics
Units: 2 Terms Offered: Fa Basic principles of philosophical pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in Classics. Registration Restriction: Open only to doctoral students in Classics. Instruction Mode: Lecture Grading Option: Credit/No Credit

CLAS 594a Master’s Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 594b Master’s Thesis
Units: 2 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 594c Master’s Thesis
Units: 0 Terms Offered: FaSp Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in classical language, literature and culture. Instruction Mode: Lecture Grading Option: Letter

CLAS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CLAS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 794e Doctoral Dissertation
Units: 0 Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CLAS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

CMDT 501 Introduction to Community Dentistry Programs
Units: 1 Lectures and practical field experiences introducing the role of the dentist in a variety of organized public health programs. Instruction Mode: Lecture Grading Option: Letter

CMDT 502a Contemporary Dental Practice
Units: 2 Economic, legal, and professional aspects of dental practice; alternative careers in dentistry. Instruction Mode: Lecture Grading Option: Letter

CMDT 502b Contemporary Dental Practice
Units: 2 Economic, legal, and professional aspects of dental practice; alternative careers in dentistry. Instruction Mode: Lecture Grading Option: Letter

CMDT 507a Ethical Issues in the Practice of Dentistry
Units: 0 Examination of the major ethical issues in the current practice of dentistry; study of effective and proper methods of addressing the issues. Instruction Mode: Lecture Grading Option: Letter

CMDT 507b Ethical Issues in the Practice of Dentistry
Units: 0 Examination of the major ethical issues in the current practice of dentistry; study of effective and proper methods of addressing the issues. Instruction Mode: Lecture Grading Option: Letter
CMGT 504 Writing for Strategic Communication
Units: 4 Writing skills necessary for an organizational communicator; review of strategic writing fundamentals; development of portfolio of diverse media applications based on strategic corporate communication requirements. Instruction Mode: Lecture Grading Option: Letter
CMGT 505 Communication in Work Settings
Units: 4 How work settings determine communication: basic structures of communication, influence of technology, social contexts, and physical space. Applications to management. Instruction Mode: Lecture Grading Option: Letter
CMGT 506 Images and Image Management
Units: 4 Examines images and image manipulation in communication, management and social control. Synthesizes work ranging from cognition and interpersonal behavior to mass media and popular culture. Instruction Mode: Lecture Grading Option: Letter
CMGT 507 Information Management
Units: 4 Develops conceptual frameworks for understanding information, uncertainty, ambiguity, and knowledge. Principles for decision-making, awareness of biases, mathematics of risk-taking, and practices for sense-making. Duplicates Credit in former COMM 507. Instruction Mode: Lecture Grading Option: Letter
CMGT 508 Communicating Strategy and Change
Units: 4 Examination of role of communication in developing and implementing business strategy; critical assessment and practice with models, tools, and techniques for communicating change. Instruction Mode: Lecture Grading Option: Letter
CMGT 509 Influential Communication in the Marketplace
Units: 4 Promotional messages as both creative expressions and agents for behavioral change; application of social science theories of persuasion and compliance in interpersonal and mass-media venues. Instruction Mode: Lecture Grading Option: Letter
CMGT 510 Communication, Values, Attitudes and Behavior

Units: 4 A multidisciplinary examination of the unintended consequences of interpersonal, mass media, political, commercial and social communication by analyzing tactical and strategic errors in communication campaigns. Instruction Mode: Lecture Grading Option: Letter
CMGT 515 Innovation and the Information Economy
Units: 4 Analysis of the innovation dynamics fueled by the information and communication technology revolution; economic, technological, institutional and personal underpinnings of innovation and entrepreneurship. Instruction Mode: Lecture Grading Option: Letter
CMGT 520 Social Roles of Communication Media
Units: 4 How mass media shape public images of groups, channel political power, promote consumption of goods, Social and political theories as tools in evaluating media impact. Instruction Mode: Lecture Grading Option: Letter
CMGT 528 Web Designs for Organizations
Units: 4 Students learn to assess organizations' online needs, to examine the use of the Internet in terms of electronic commerce and global pressures, and design Web page strategies. Instruction Mode: Lecture Grading Option: Letter
CMGT 530 Social Dynamics of Communication Technologies
Units: 4 Impact of television, satellites, computers, and other new technologies; competing theories about the role of technology in society; historical effects of introducing new technologies. Instruction Mode: Lecture Grading Option: Letter
CMGT 531 Communication and the International Economy
Units: 4 Examines the impact of global economic changes on communications industries, the political and economic forces shaping these industries and the roles of its managers. Instruction Mode: Lecture Grading Option: Letter
CMGT 532 Development of American Electronic Media Industry
Units: 4 Origins of American radio and television broadcasting industry and analysis of its development into the contemporary media industry; covers history, technology, regulation, and business practices. Instruction Mode: Lecture Grading Option: Letter
CMGT 533 Emerging Communication Technologies
Units: 4 Basics of multimedia; new forms of audio and video interactive technologies; computer communication networks; social, political, cultural, interpersonal, organizational issues related to emerging communication technologies. Duplicates Credit in former COMM 533. Instruction Mode: Lecture Grading Option: Letter
CMGT 535 Online Communities for Organizations
Units: 4 How Web-based technologies affect organizational communication, including issues related to collaboration, innovation and knowledge management, forecasting, and networking. Duplicates Credit in former COMM 535. Instruction Mode: Lecture Grading Option: Letter
CMGT 536 Team Communication and Leadership
Units: 4 Theories of effective team communication and leadership; case studies of effective and ineffective teams and leaders; teamwork and communication development; and distributed work teams. Instruction Mode: Lecture Grading Option: Letter
CMGT 537 The Industry, Science and Culture of Video Games
Units: 4 How communication technologies affect product marketing and advertising; communication's role in developing domestic and international marketplaces; practical applications of persuasion theory. Instruction Mode: Lecture Grading Option: Letter
CMGT 540 Uses of Communication Research
Units: 4 Applications of both data and interpretation in communications management. Topics include: audience ratings, surveys, experimental tests of programs and campaigns, formative evaluation, secondary data sources. Registration Restriction: Open only to Communication Management and Communications Management Online students. Instruction Mode: Lecture Grading Option: Letter
CMGT 541 Integrated Communication Strategies
Units: 4 Communication strategies for product marketing and advertising; communication's role in developing domestic and international marketplaces; practical applications of persuasion theory. Instruction Mode: Lecture Grading Option: Letter
CMGT 542 Business Strategies of Communication and Entertainment Firms
CMGT 543 Managing Communication in the Entertainment Industry
Units: 4 Examination, application and critique of traditional and contemporary organizational communication theory as it applies to the entertainment industry's unique internal and external environments. Instruction Mode: Lecture Grading Option: Letter Courselisted as PR 583
CMGT 544 Creating Organizational Identity: Meaning Through Messages
Units: 4 Use of rhetorical theories and communication models to create organizational identification with internal and external audiences; the role of values and ethics in creating identities. Instruction Mode: Lecture Grading Option: Letter
CMGT 545 Communication and Global Competition
Units: 4 How communication technologies...
are used to secure competitive advantage; how firms use communication systems to sustain effective positioning in an industry; convergence of communication industries. Instruction Mode: Lecture Grading Option: Letter

CMGT 546 Sports Media and Society
Units: 4 History and evolution of sports media industry; traditional, new and alternative sports media; globalization of sports; sports promotions and personalities. Instruction Mode: Lecture Grading Option: Letter

CMGT 547 Distribution of Recordings: Media, Retail and Online Channels
Units: 4 Cultural and critical analyses of radio and recording industry development and business strategy; influence of legal and regulatory institutions, impact of new forms of distribution. Instruction Mode: Lecture Grading Option: Letter

CMGT 548 Issues in Children's Media
Units: 4 Historical review of children's programming; programming genres; ethical and business issues of marketing to children; children's uses of various media. Instruction Mode: Lecture Grading Option: Letter

CMGT 549 Case Studies in Digital Entertainment
Units: 4 Explores foundation of U.S. media policy in the digital age; students prepare White Papers on an urgent issue of contemporary digital media and entertainment policy. Instruction Mode: Lecture Grading Option: Letter

CMGT 550 Hollywood 3.0 — Entertainment Industry in the Convergence Age
Units: 4 In-depth analysis of the challenges confronting the entertainment industry in the wake of media convergence including a survey of media convergence history and theories. Instruction Mode: Lecture Grading Option: Letter

CMGT 551 Communicating Entertainment Media Identities
Units: 4 Understanding dynamics in entertainment markets enabled by emerging digital technologies; broad and niche strategies to target appropriate audiences, building audience engagement with entertainment content identities. Instruction Mode: Lecture Grading Option: Letter

CMGT 552 Visual Storytelling: Production, Management and Culture
Units: 4 Focuses on management, production and distribution of scripted film, television and web stories to understand visual storytelling as a communicative strategy for advertising and education. Instruction Mode: Lecture Grading Option: Letter

CMGT 554 Copywriting and Creativity
Units: 4 Foundational and advanced practices for copywriting and related design in communication; integrated analysis of concepts and pragmatics surrounding creativity for communication effectiveness. Instruction Mode: Lecture Grading Option: Letter

CMGT 555 Online Marketing Communication Development and Analysis
Units: 4 Analysis and development of online communication and marketing campaigns; exploration of current Internet best practices in social media, SEM, privacy, location-based marketing, and online measurement. Instruction Mode: Lecture Grading Option: Letter

CMGT 556 Global Marketing Communication
Units: 4 Communication strategies in a global marketing environment; analysis of global-local challenges and opportunities; effective global integrated communication to create and sustain competitive advantage. Instruction Mode: Lecture Grading Option: Letter

CMGT 557 Communication Policy in the Global Marketplace
Units: 4 Comparative analysis of various countries' communication and information technology policies; examines developments in telecommunications, broadcasting, and entertainment industries and policy questions for global media marketplace. Instruction Mode: Lecture Grading Option: Letter

CMGT 558 The International Entertainment Marketplace
Units: 4 Global influences on entertainment industries (broadcasting, film, telecommunications, Internet, video games, and music); case analyses of specific organizations and geographic regions; impact on local cultures. Instruction Mode: Lecture Grading Option: Letter

CMGT 559 Global Hollywood
Units: 4 Examines the influence of the transglobal flow of media between the U.S. entertainment industries and other national media industries. Instruction Mode: Lecture Grading Option: Letter

CMGT 560 Communications Policy
Units: 4 Evolving regulation of telephone, radio, television, cable, print, and other media. Major policy-makers and decision points in policy-making at local, state, national, and international levels. Instruction Mode: Lecture Grading Option: Letter

CMGT 562 Foundations of Effective PR Writing
Units: 4 Terms Offered: Other (Enroll in PR 562)

CMGT 564 Methodological Fundamentals of Big Data in Communication
Units: 4 Understanding of fundamental methodological issues about big data: types, platforms, tools, analysis techniques, and relevant theoretical frameworks. Instruction Mode: Lecture Grading Option: Letter

CMGT 565 Communication Law and Broadcasting
Units: 4 History and present status of broadcast regulations; emphasis on the Federal Communications Act, character of regulatory agencies, impact of court decisions, influence of technological advances. Instruction Mode: Lecture Grading Option: Letter

CMGT 566 Communication Law and New Technologies
Units: 4 Development of law in new technologies. Cases include cable television, low-power television, direct broadcast satellites, teletext, video cassettes, telephone, data networks, computer regulation. Instruction Mode: Lecture Grading Option: Letter

CMGT 567 Internet Policy, Practice and Regulation
Units: 4 Examines how legal decisions impact commercial and personal uses of the Internet; regulatory responses to court decisions. Instruction Mode: Lecture Grading Option: Letter

CMGT 571 Communications Technologies
Units: 4 Basic technological concepts necessary to understand the workings of modern communications products and services, to include frequency, bandwidth, electricity, modulation, and digital conversion. Instruction Mode: Lecture Grading Option: Letter

CMGT 573 Evaluating Communication Needs
Units: 4 Participation as consultants in field projects. Use of organizational, interpretive, and statistical methods to design organizational communication systems is emphasized. Instruction Mode: Lecture Grading Option: Letter

CMGT 574 Tele-Media: Strategic and Critical Analysis
Units: 4 Strategic and critical analyses of emerging and new communication technologies from historical, business, financial, consumer, and policy perspectives. Instruction Mode: Lecture Grading Option: Letter

CMGT 576 Communication Strategies for Conflict Management
Units: 4 Communication strategies for effective negotiation, mediation and facilitation of disputes; structures for public interventions; emergence of online dispute resolution systems. Instruction Mode: Lecture Grading Option: Letter

CMGT 577 Communicating Corporate Social Responsibility
Units: 4 Evolution, models, metrics and stakeholders. Key communication issues in designing and implementing initiatives, CSR reporting, strategic partnerships and online communities. Analysis of communication paradoxes. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Examination of the communicative elements of leadership in entertainment products and processes; the role of communication experts in supporting, coaching and facilitating entertainment leadership. Instruction Mode: Lecture Grading Option: Letter

CMGT 586 Entertainment Media: Content, Theory, and Industry Practices
Units: 4 Examination of social scientific theory and research on patterns of media content; effects of mass media exposure on individuals and society; and industry practices. Instruction Mode: Lecture Grading Option: Letter

CMGT 587 Audience Analysis
Units: 4 Fundamental principles of audience research; critique of existing methodologies; implications for global audiences and mass media markets. Instruction Mode: Lecture Grading Option: Letter

CMGT 588 Global Storytelling: The Power of Narrative
Units: 4 Theory, structure and effects of culture on narrative. Story in non-profit and health organizations; new fields that recognize the importance of storytelling; storytelling in diverse media. Instruction Mode: Lecture Grading Option: Letter

CMGT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 591 Communication Internship
Units: 1, 2 Max Units: 03 Terms Offered: FaSpSm Field experience in applying communication principles to settings in organizations, campaigns, or other contexts; analysis and assessment of issues and problems. Registration Restriction: Open only to graduate students in the following majors: Communication PhD, Communication Management, Global Communication, Digital Social Media, Public Diplomacy, Public Diplomacy (Practitioner and Mid-Career Professional) Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 592 Theory and Practice of Professional Presentations
Units: 2 Application of communication and persuasion theories in the creation of oral presentations; critical assessment of the role of new technologies for professional presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMGT 597a Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. Prerequisite: CMGT 501 and CMGT 540. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 597b Communication Research Practicum
Units: 2 Terms Offered: FaSpSm Students design and produce an original project appropriate for their emphasis area within the Master of Communication degree. Prerequisite: CMGT 501 and CMGT 540. Duplicates Credit in former CMGT 597. Instruction Mode: Lecture Grading Option: Letter

CMGT 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Motion Picture Producing
Note: Instructor availability for a particular course or section cannot be guaranteed.

CMPP 541a Producing Workshop
Units: 4 Terms Offered: Fa Hands-on workshops in creative and physical filmmaking. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 541b Producing Workshop
Units: 4 Terms Offered: Sp Further hands-on creative and physical filmmaking, making more advanced short films. Duplicates Credit in CTPR 504 and former CMPP 541L. Instruction Mode: Lecture Grading Option: Letter

CMPP 548 Introduction to Producing for Television
Units: 2 Terms Offered: Fa An introduction to the creative and business aspects of producing for television. Registration Restriction: Open only to PFTM students. Instruction Mode: Lecture Grading Option: Letter

CMPP 550 Script Analysis for the Producer
Units: 2 Terms Offered: FaSp Detailed evaluation of completed scripts and of the producer’s role in bringing them to fruition. Instruction Mode: Lecture Grading Option: Letter

CMPP 560 Script Development
Units: 2 Terms Offered: FaSp From idea and story to finished shooting script. Instruction Mode: Lecture Grading Option: Letter

CMPP 561 Motion Picture and Television Marketing
Units: 2 Terms Offered: Fa Analysis and preparation of film and television show marketing campaigns from creative concept to targeting across various media. Instruction Mode: Lecture Grading Option: Letter

CMPP 563 Producing Symposium
Units: 1 Terms Offered: Fa Lectures on creative aspects of producing. Instruction Mode: Lecture Grading Option: Credit/No Credit

CMPP 564 Digital Media and Entertainment
Units: 2 Terms Offered: Sp Exploring the economic structure of the television landscape. Instruction Mode: Lecture Grading Option: Letter

CMPP 565 Scheduling and Budgeting
Units: 4 Terms Offered: FaSp Concept and preparation of a complete schedule and budget. Instruction Mode: Lecture Grading Option: Letter

CMPP 566 Finance
Units: 2 Terms Offered: FaSp Seminar on financial aspects of film industry and methods of financing films. Instruction Mode: Lecture Grading Option: Letter

CMPP 568 Producing for Television
Units: 2 Terms Offered: Fa Discussions of the creative and financial aspects of television producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 569 Seminar on Non-Mainstream Producing
Units: 2 Terms Offered: FaSp Discussions on non-major studio producing options, including non-traditional financing and non-theatrical producing. Instruction Mode: Lecture Grading Option: Letter

CMPP 570 Advanced Television
Units: 2 Terms Offered: Fa Advanced studies of the business of television, including the economic structure of the television industry. Instruction Mode: Lecture Grading Option: Letter

CMPP 571 Producing the Screenplay
Units: 2 Terms Offered: FaSp Workshop for the creation and development of a screenplay or teleplay. Instruction Mode: Lecture Grading Option: Letter

CMPP 589a Graduate Film Business Seminar
Units: 3 Terms Offered: Fa Economics of the entertainment industry, including entertainment law, and rights acquisition.
Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 589b Graduate Film Business Seminar
Units: 4 Terms Offered: Sp Economics of the entertainment industry, including entertainment law, and rights acquisition. Includes weekly film screening. Instruction Mode: Lecture Grading Option: Letter

CMPP 591 Producing Practicum
Units: 2 Terms Offered: Irregular Producing workshop encompassing all aspects of producing, including script development, budgeting, casting and actual production. Instruction Mode: Lecture Grading Option: Letter

CMPP 592 Individual Project Seminar
Units: 4 Terms Offered: Sp Directed research project and seminars in related topics. Duplicates Credit in former CTPR 592. Instruction Mode: Lecture Grading Option: Letter

CMPP 599 Special Topics
Units: 2 Terms Offered: Irregular Investigation of new and emerging aspects of producing motion pictures and television; special and experimental subjects. Instruction Mode: Lecture Grading Option: Letter

Cinematic Arts
Note: Instructor availability for a particular course or section cannot be guaranteed.

CNTV 101 Reality Starts Here
Units: 2 Terms Offered: Fa Introduction to emerging forms of immersive entertainment, to Cinematic Arts faculty, and to guest speakers who will comment on the changing nature of the industry. Instruction Mode: Lecture Grading Option: Credit/No Credit

CNTV 325 Film and Digital Cinematography
Units: 3 Terms Offered: Sm The craft of cinematography for film and digital media; includes lectures, on-set film and video production exercises, and scene studies. Instruction Mode: Lecture Grading Option: Letter

CNTV 332 The Art of Motion Picture Editing
Units: 2 Analyzing and deconstructing all the elements of the art of creatively manipulating visual images through editing. Instruction Mode: Lecture Grading Option: Letter

CNTV 367 The Music Video: Business and Practice
Units: 4 Terms Offered: Sm Creating concepts, writing treatments, pitching, and the realities and details of music video production including budgeting, pre- and post-production. Duplicates Credit in CTPR 497 Music Video Production. Instruction Mode: Lecture Grading Option: Letter

CNTV 370 3-D Animation for Film and Video
Units: 4 Terms Offered: Sm The basics of 3-D computer animation techniques and their use in creating animated characters. Instruction Mode: Lecture Grading Option: Letter

CNTV 372 Developing the Screenplay
Units: 2 Terms Offered: Sm The process of script development, examining a project from the initial idea and tracking its progress through to the completed screenplay ready for production. Instruction Mode: Lecture Grading Option: Letter

CNTV 375 Breaking Into the Entertainment Industry
Units: 2 Terms Offered: Fa The overview of the entertainment industry and the tools needed to secure jobs and survive and succeed in the market. Instruction Mode: Lecture Grading Option: Letter

CNTV 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CNTV 392 Beginning Digital Filmmaking
Units: 4 Terms Offered: Sm The basic technical and aesthetic concepts underlying motion picture production and an exploration of visual language. Instruction Mode: Lecture Grading Option: Letter

CNTV 393 16mm Filmmaking: Structuring Scenes That Work
Units: 4 Terms Offered: Sm The creative and technical aspects of 16mm filmmaking, particularly as they apply to the short film or the individual scene. Instruction Mode: Lecture Grading Option: Letter

CNTV 405 Studio Producing and Directing
Units: 4 Terms Offered: Sm Understanding the craft and art of directing in the studio system, and developing a working methodology for creative producing. Instruction Mode: Lecture Grading Option: Letter

CNTV 410 Non-Fiction Filmmaking
Units: 4 Terms Offered: Sm Conceiving, researching, writing, producing, directing, and editing an original non-fiction work and exploring practical training in techniques of non-fiction film. Instruction Mode: Lecture Grading Option: Letter

CNTV 411 Directing Intensive
Units: 4 Terms Offered: Sm An overview of the concerns, functions and responsibilities of the director. The core of the course is casting, producing and directing an individual project. Instruction Mode: Lecture Grading Option: Letter

CNTV 413 Digital Editing
Units: 4 Terms Offered: Sm Introduction to non-linear editing techniques, hardware, digitizing, logging, and special effects, using the AVID Media Composer editing system. Instruction Mode: Lecture Grading Option: Letter

CNTV 415 Commercial Production: The Art of the Sixty-Second Story
Units: 4 Terms Offered: Sm The three main components of commercials: agency creation, spot production, and post-production. Writing, pitching, casting, directing, and editing commercials. Instruction Mode: Lecture Grading Option: Letter

CNTV 419 Inside the Business of Film and Television
Units: 4 Terms Offered: Fa Sp Sm An overview of the contemporary studio system, independent films, and television, including script analysis, pitching, optioning properties, the marketplace, representation, career management, and networking. Instruction Mode: Lecture Grading Option: Letter

CNTV 420 Independent Feature Filmmaking
Units: 2 Terms Offered: Fa Sp Sm Independent feature film development, financing, production, and distribution. Discussions with independent filmmakers. Instruction Mode: Lecture Grading Option: Letter

CNTV 427 The Art and Commerce of Independent Film
Units: 4 Terms Offered: Fa Sp Sm A comprehensive analysis of the development-to-release life cycle of independently produced films. Instruction Mode: Lecture Grading Option: Letter

CNTV 440 The Business of the Entertainment Industry: Motion Pictures, Television, Animation, Video Games, and Interactive Entertainment
Units: 2 Terms Offered: Fa An in-depth analysis of the history, evolution, and current state of the motion picture, television, animation, video game, and interactive entertainment industries. Instruction Mode: Lecture Grading Option: Letter

CNTV 441 Business and Cinematic Arts Entertainment Practicum
Units: 2 Terms Offered: Sp Application of business and cinematic arts concepts to entertainment industry networking and career-building experiences. Peer collaboration/competition, and identifying organizational compatibility. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 447 The Entertainment Entrepreneur: Getting Your First Project Made
Units: 2 Terms Offered: Fa The practical aspects of entrepreneurial producing in the entertainment industry. Identifying and understanding the pitfalls and benefits of creating one's own projects. Instruction Mode: Lecture Grading Option: Letter

CNTV 458 Producing and Marketing Feature Length Films
Units: 2 Terms Offered: Fa Sp Sm The principles and business practices of producing and marketing feature length films in the motion picture industry. Registration Restriction: Open only to Business Administration (Cinematic Arts) majors Instruction Mode: Lecture Grading Option: Letter

CNTV 463 Television: Integrating Creative and Business Objectives
Units: 2 Terms Offered: Fa Sm An investigation of the creative and business sides of television and how they connect, including changes caused by fractionalization and digital technology. Registration Restriction:
Open only to Business Administration (Cinematic Arts) students. Instruction Mode: Lecture Grading Option: Letter

CTNV 467 The Future of Digital Media and the Entertainment Industry
Units: 2 Terms Offered: Sp Examines how digital media will affect the future of the television, motion picture, game, music, and interactive industries. Instruction Mode: Lecture Grading Option: Letter

CTNV 474 Digital DNA: Media Redefined
Units: 2 Terms Offered: FaSp A practical, hands-on learning experience in creating media content and turning that content into a myriad of viable businesses. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTNV 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CTNV 495 Internship in Cinematic Arts
Units: 1, 2, 4 Max Units: 04 Terms Offered: FaSpSm On-the-job film, television, and interactive industry experience in the areas of interest of the individual student. Requires departmental approval. Duplicates Credit in former CTIN 495 and former CTPR 495 Instruction Mode: Lecture Grading Option: Credit/No Credit

CTNV 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CTNV 501 Cinematic Arts Seminar
Units: 1 Max Units: 4.0 Terms Offered: FaSp Smaller section of a larger course, emphasizing methods and designs frequently used in evidence-based community oral health program development. Instruction Mode: Lecture Grading Option: Letter

CTNV 512 The World of the Producer
Units: 4 Terms Offered: FaSp A comprehensive overview of the role of the producer in creating television programming, feature films, and new media content. Instruction Mode: Lecture Grading Option: Letter

CTNV 522 The Television Industry: Networks, Cable and the Internet
Units: 4 Terms Offered: FaSp The current state of the television industry and future business paradigms. Instruction Mode: Lecture Grading Option: Letter

CTNV 523 Feature Film Financing and the Studio System

CTNV 524 Digital Technologies and the Entertainment Industry
Units: 4 Terms Offered: FaSp The impact of digital technologies on the film, television, and music industries from content creation to distribution. Instruction Mode: Lecture Grading Option: Letter

CTNV 525 Entertainment Marketing in Today's Digital Environment
Units: 4 Terms Offered: FaSp Entertainment industry marketing disciplines, covering motion pictures, television, music, theme parks, home entertainment, and video games. Current principles and business practices. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTNV 530 Cinematic Ethics
Units: 2 Terms Offered: FaSp An introductory course in the ethical questions professionals encounter in the field of cinematic arts. Case studies and guest lectures. Registration Restriction: Open only to students in the School of Cinematic Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

CTNV 589 Graduate Film Seminar
Units: 2 or 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigations and discussion of various aspects of film. Instruction Mode: Lecture Grading Option: Letter

CTNV 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTNV 594a Master’s Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTNV 594b Master’s Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTNV 594 Master’s Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTNV 595 Professional Practicum
Units: 1, 2, 4 Max Units: 8 Terms Offered: FaSpSm Film, media, archival and interactive industry experience in areas of interest to the individual student, and development of a personal brand. Requires departmental approval. Registration Restriction: Open only to graduate students. Grading Option: Credit/No Credit

CTNV 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Detailed investigation of new or emerging aspects of cinematic arts; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTNV 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTNV 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

CTNV 794 Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

Community Oral Health

COH 593a Capstone Project
Units: 2 Terms Offered: FaSpSm Guided learning of the research process by the design and implementation of an approved project. Instruction Mode: Lecture Grading Option: Letter

COH 593b Capstone Project
Units: 2 Terms Offered: FaSpSm Independent study to prepare an oral defense of the Capstone project. Prerequisite: COH 593 Instruction Mode: Lecture Grading Option: Letter

COH 701 Community Health Sciences
Units: 2 Terms Offered: FaSpSm Examination of common theoretical and conceptual models, health education methodologies and emerging technology to provide health services in community settings. Instruction Mode: Lecture Grading Option: Letter

COH 702 Social and Behavioral Sciences
Units: 2 Terms Offered: FaSpSm Social and behavioral factors of diverse groups that can affect the health status and choices of communities. Instruction Mode: Lecture Grading Option: Letter

COH 703 Community Health Program Planning and Implementation
Units: 2 Terms Offered: FaSpSm Introduction to the concepts and processes used in evidence-based community oral health program development. Instruction Mode: Lecture Grading Option: Letter

COH 704 Environmental Health Sciences
Units: 3 Terms Offered: FaSpSm Environmental factors affecting community health and evidence-based approaches to control or reduce the risks of these health problems. Instruction Mode: Lecture Grading Option: Letter

COH 705 Research and Biostatistics in Healthcare
Units: 2 Terms Offered: FaSpSm Introduction to research processes; emphasizes methods and designs frequently used to study health and health care delivery. Instruction Mode: Lecture Grading Option: Letter

COH 706 Foundations and Strategies in Health Education
Units: 2 Terms Offered: FaSpSm Examines
the impact of education in community oral health, identifying strategies to engage and empower the members of the community to achieve health and wellness. Instruction Mode: Lecture Grading Option: Letter

COH 707 Epidemiology
Units: 2 Terms Offered: FaSpSm The fundamental understanding of epidemiology that concerns various domains and disciplines; application of epidemiologic principles in community oral health projects. Instruction Mode: Lecture Grading Option: Letter

COH 708 Community Health Science Administration, Assessment and Evaluation
Units: 2 Terms Offered: FaSpSm Development of foundational knowledge and skills to be administrative and executive leaders in the healthcare industry. Instruction Mode: Lecture Grading Option: Letter

COH 709 Community Health Program Execution and Communication
Units: 1 Terms Offered: FaSpSm Development of communication skills as an administrator, including social marketing techniques for health promotion. Instruction Mode: Lecture Grading Option: Letter

COH 710 Health Assessment
Units: 1 Terms Offered: FaSpSm The importance of health assessment; identification of strategies to understand the needs and priorities of a healthy community. Instruction Mode: Lecture Grading Option: Letter

COH 711 Practicum 1
Units: 1 Terms Offered: FaSpSm Provides the opportunity to apply acquired competencies to real world settings to improve health promotion and disease prevention. Instruction Mode: Lecture Grading Option: Letter

COH 712 Practicum 2
Units: 5 Terms Offered: FaSpSm Incorporates a service learning approach involving a partnership between the student, community organization and designated faculty or research team members. Instruction Mode: Lecture Grading Option: Letter

COH 713 Health Education and Promotion
Units: 1 Terms Offered: FaSpSm Development of an action plan for health education and promotion, including the planning, designing and evaluation of instruction and materials. Instruction Mode: Lecture Grading Option: Letter

COH 714 Community Health Funding and Support
Units: 1 Terms Offered: FaSpSm Approaches to the generation and allocation of financial support for community oral health policies, programs and systems. Instruction Mode: Lecture Grading Option: Letter

COH 715 Community Health Practice Standards
Units: 1 Terms Offered: FaSpSm Standards of practice, regulations, policies and ethical principles that affect healthcare providers, payers and other stakeholders in community healthcare settings. Instruction Mode: Lecture Grading Option: Letter

COH 716 Healthcare Communication Technology
Units: 1 Terms Offered: FaSpSm Emerging technology for patient and professional health-related education and applications for patient access to care. Instruction Mode: Lecture Grading Option: Letter

COH 717 Practicum 3
Units: .5 Terms Offered: FaSpSm Participation in a multidisciplinary team; collection of community health data to build a plan for sustainability and maintenance. Instruction Mode: Lecture Grading Option: Letter

Comparative Literature

COLT 101g Masterpieces and Masterminds: Literature and Thought
Units: 4 Terms Offered: Fa A broad introduction to the great works of Western culture from antiquity to 1800. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former COLT 150x. Units: 4 Introduction to critical reflection on the image. Analysis of criticism, fiction, film, and visual artifacts. Instruction Mode: Lecture Grading Option: Letter

COLT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Prerequisite: departmental approval. Instruction Mode: Lecture Grading Option: Letter

COLT 495 Senior Honors Thesis
Units: 4 Writing of an honors thesis under individual faculty supervision. Instruction Mode: Lecture Grading Option: Letter

COLT 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected author or authors in the context of a major literary tradition. Instruction Mode: Lecture Grading Option: Letter

COLT 510 Introduction to Translation Studies
Units: 4 Terms Offered: FaSp Introduction to the graduate certificate in Translation Studies; study of canonical works in translation theory. Registration Restriction: Only open to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 510

COLT 511 Translating Race
Units: 4 Max Units: 08 Terms Offered: FaSp Contemporary notions of racial, cultural, and religious difference across languages and history. Recommended Preparation: COLT 510 Registration Restriction: Only open to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 511

COLT 512 Literary and Cinematic Translingualism and Translation
Units: 4 Max Units: 08 Terms Offered: FaSp Introduces key debates regarding translingualism and translation in postcolonial, comparative, and cross-cultural literary and cinematic contexts. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 512

COLT 519 Translation in Theory and Practice
Units: 4 Terms Offered: FaSp Workshop in translation; capstone to graduate certificate in Translation Studies. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 519

COLT 525 Studies in Literary and Cultural History
Units: 4 Max Units: 8.0 Literary and cultural currents from classical antiquity through modernity. Varying focus on specific genres, periods, movements, or problematics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CLSC-525

COLT 545 Studies in Literature and the Other Arts
Units: 4 Max Units: 8.0 Study of intersections between the literary arts and music, opera, film, theatre, photography, dance, or painting. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC-545

COLT 555 Studies in Literatures of the Americas
Units: 4 Max Units: 8.0 Comparative study of literary currents in the U.S., Canada, Latin America, and the Caribbean. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 555

COLT 565 Studies in Literatures of Asia
Units: 4 Max Units: 8.0 Study of major cultural paradigms and their divergent influences in the literatures of China, Japan, Korea, and Southeast Asia. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC 565

COLT 575 Studies in Literature and Ethnicity
Units: 4 Max Units: 8.0 Study of literary expression in different cultural, racial, or religious communities. Possible focus on African, Asian, Hispanic, or Jewish themes across several national traditions. Instruction Mode: Lecture Grading Option: Letter

COLT 585 Studies in Literature and Gender
Units: 4 Max Units: 8.0 Emphasis on gender difference and sexual difference as signifying categories for literary works, criticism, or theory. Instruction Mode: Lecture Grading Option: Letter

COLT 593 Teaching Practicum for Graduate Students
Units: 2 Terms Offered: FaSp Practical principles for the long-term development of effective teaching within College disciplines. Intended for teaching assistants in Dornsife college. Registration Restriction: Open only to Dornsife College doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

COLT 602 Seminar in Literary Theory
Units: 4 Max Units: 12.0 Intensive study of a theoretical tradition or critical movement, or of an individual topic or thinker, in literary criticism or theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC-602

COLT 620 Seminar in Literature, Culture, and Thought
Units: 4 Max Units: 12.0 Varying focus on social and political thought, psychoanalysis, and philosophy in relation to literary and cultural analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSLC-620

Communication

COMM 200 Communication and Social Science
Units: 4 Terms Offered: FaSp Social scientific inquiry into human communication; core theories of message production and reception in interpersonal, group and organizational contexts. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 203 Communication and Mass Media
Units: 4 Terms Offered: FaSp Survey of mass
communication research; history, content, effects, theories and policy implications of various media. Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 204 Public Speaking
Units: 4 Principles and practices of effective oral communication; analysis of the speaking-listening process; selection and organization of speech materials; use of new presentation technologies. Instruction Mode: Lecture Grading Option: Letter

COMM 205 Communication Practicum
Units: 1, 2 Max Units: 4.0 Students address communication issues in a field setting. They will evaluate communication practices using appropriate methodology. Projects are jointly evaluated by internship supervisor and professor. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 206 Communication and Culture
Units: 4 Terms Offered: FaSpSm Examines cultural institutions, ideologies, artifacts, and productions; role of culture in everyday life; cultural studies as methodology; culture and power. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ACAD-206

COMM 209 Communication and Media Economics
Units: 4 Terms Offered: FaSp Economic and political economic principles for the analysis of communication and media industries including broadcasting, newspapers, motion pictures, music, video games, advertising and public relations. Duplicates Credit in the former COMM 207 and COMM 208 Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 300 Entertainment, Communication and Society
Units: 4 Terms Offered: FaSpSm Examines the interplay between media and society, including analysis, research and evidence, case construction, refutation; discursive and visual argument; diverse fields of advocacy including law, politics, organizations, interpersonal relations. Instruction Mode: Lecture Grading Option: Letter

COMM 301 Empirical Research in Communication
Units: 4 Terms Offered: FaSpSm Experimental and survey methods for communication study; basic statistical concepts, procedures, and tests. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

COMM 302 Persuasion
Units: 4 Theories and research in social influence; strategies and tactics of persuasive communications in such settings as politics, public relations, advertising, business. Instruction Mode: Lecture Grading Option: Letter

COMM 303 Learning from Case Studies in Culturalization
Units: 4 Case study approaches to communication research; reliability, validity, generalizability, and ethics in qualitative social research; cases in communication policy and practices. Instruction Mode: Lecture Grading Option: Letter

COMM 304 Interpersonal Communication
Units: 4 Analysis of face-to-face interaction; role of communication in the development, maintenance and destruction of relationships; communication processes in managing interpersonal conflict. Instruction Mode: Lecture Grading Option: Letter

COMM 305 Understanding Social Science Research
Units: 4 Students learn to be consumers rather than creators of social science research. Examines the challenges and opportunities of communicating research through mass media. Instruction Mode: Lecture Grading Option: Letter

COMM 306 Innovation, Entertainment, and the Arts
Units: 4 Terms Offered: FaSpSm Explorations of innovation in the entertainment business. The effects of digital mobile media on TV, movies, music, advertising, social networks and art. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-306

COMM 307 Sound Clash: Popular Music and American Culture
Units: 4 Music as inter-cultural communication and method for exploring race and ethnicity in the constitution of American culture and American self; role of music industry. Instruction Mode: Lecture Grading Option: Letter

COMM 308 Communication and Conflict
Units: 4 Nature and functions of communication in human conflict; development of communication skills for managing conflict productively in interpersonal, organizational and intercultural contexts. Instruction Mode: Lecture Grading Option: Letter

COMM 309 Communication and Technology
Units: 4 Terms Offered: FaSp Cultural, social, political, and economic dynamics of communication technologies, including internet architecture, social media, participatory cultures, privacy, surveillance, networked journalism, big data, algorithms, online activism. Duplicates Credit in the former COMM 202 Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 310 Media and Society
Units: 4 Interplay between media and society, including family and children's socialization, inter-group relations and community, pornography and violence, gender and race, media ethics, conduct of politics. Instruction Mode: Lecture Grading Option: Letter

COMM 311 Rhetoric and the Public Sphere
Units: 4 Terms Offered: FaSp Humanistic approaches to inquiry in communication; qualitative research techniques; core theories of message production and reception in social, political, and mediated contexts. Duplicates Credit in the former COMM 201 Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 312 The Business and Culture of Celebrity
Units: 4 Employs the concept of "celebrity" as an optic through which to view and assess some of the key aspects of the communication revolution. Instruction Mode: Lecture Grading Option: Letter

COMM 313 Communication and Mass Media
Units: 4 Terms Offered: FaSp Survey of mass communication research; history, content, effects, theories, and policy implications of various media. Duplicates Credit in COMM 203 Instruction Mode: Lecture, Discussion Grading Option: Letter

COMM 315 Health Communication
Units: 4 Behavioral approaches to health communication; communication competencies in health care settings, theories of risky behaviors, and behavioral change programs; special emphasis on AIDS-related issues. Recommended Preparation: COMM 301Lg. Instruction Mode: Lecture Grading Option: Letter

COMM 320 Small Group and Team Communication
Units: 4 Group process theories relevant to communicative behavior in small group/team settings, including information exchange, decision making, leadership, and meetings; student team projects testing theoretical propositions. Instruction Mode: Lecture Grading Option: Letter

COMM 321 Communication and Social Media
Units: 4 Social media within the broader social, political, and historical contexts; key themes include labor, Web 2.0, self-branding, celebrity, participation, privacy, online shaming, and activism. Instruction Mode: Lecture Grading Option: Letter

COMM 322 Argumentation and Advocacy
Units: 4 Basic argumentation theory including analysis, research and evidence, case construction, refutation; discursive and visual argument; diverse fields of advocacy including law, politics, organizations, interpersonal relations. Instruction Mode: Lecture Grading Option: Letter

COMM 323 Public Deliberation
Units: 4 Introduction to deliberative democracy in culture and governance; examines historical and contemporary institutions of democratic discourse and emerging communication norms. Instruction Mode: Lecture Grading Option: Letter

COMM 324 Intercultural Communication
Units: 4 Terms Offered: FaSpSm Cultural variables and social psychological processes that influence intercultural interaction; relationship between communication and culture in diverse settings including business, medicine, and education. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

COMM 325 Intercultural Britain: Media, History and Identity
Units: 4 Examines urgent social and political issues as they are shaped, represented and
expressed by the institutions of media, culture and communication within the United Kingdom. Instruction Mode: Lecture Grading Option: Letter

COMM 330 Rhetoric in Classical Culture
Units: 4 Theories of communication and persuasion in ancient Greece and Rome; cultural and social contexts of classical rhetorical theory; major historical figures and concepts. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter

COMM 335 Rhetoric in Contemporary Culture
Units: 4 Theories of communication and persuasion in contemporary society; cultural and social contexts of contemporary rhetorical theory; major theorists, concepts and controversies. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter

COMM 336 Communicating About Sex
Units: 4 Terms Offered: Irregular Communicating with partners, friends, parents and health care professionals about sexual behavior; interpersonal and mediated contexts; understanding of sexual scripts; current theory and research. Instruction Mode: Lecture Grading Option: Letter

COMM 337 The LGBTQ Revolution and the Media
Units: 4 Terms Offered: Irregular Explores the role of the media in the LGBTQ revolution that transformed the lives of sexual and gender minorities in the United States. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 337

COMM 339 Communication Technology and Culture
Units: 4 Examination of philosophies and popular representations of technology from the origins of western culture to the present and identifies the complex attitudes toward technology. Instruction Mode: Lecture Grading Option: Letter

COMM 340 The Cultures of New Media
Units: 4 Cultural implications of computer-mediated communication and related media. Ideological responses to media innovation; debates over artificial intelligence, virtual communities, and virtual reality. Recommended Preparation: COMM 339. Instruction Mode: Lecture Grading Option: Letter

COMM 345 Social and Economic Implications of Communication Technologies
Units: 4 Social and economic impacts of information and communication technologies; social factors that shape technological change; issues include access, privacy, freedom of expression, productivity, democratic control. Instruction Mode: Lecture Grading Option: Letter

COMM 350 Video Games: Content, Industry, and Policy
Units: 4 Introduction to the medium; history of video games; video games as aesthetic products, cultural products, economic outputs; policy issues, effects, and sites of community. Instruction Mode: Lecture

COMM 355 Advertising and Communication
Units: 4 Advertising as a mode of communication; U.S. advertising history and institutions; economic and policy contexts (domestic and global); critical analysis of advertising texts. Instruction Mode: Lecture Grading Option: Letter

COMM 360 The Rhetoric of Los Angeles
Units: 4 Representations of Los Angeles communicated in diverse media; the city as a rhetorical text; analysis of cultural identities, art, architecture, and representations in popular culture. Instruction Mode: Lecture Grading Option: Letter

COMM 362 Media Consumption
Units: 4 Theoretical approaches to the study of media consumption and audiences; examines international media and consumption practices; explores news media's impact on consumption. Instruction Mode: Lecture Grading Option: Letter

COMM 363 Media Consumption
Units: 4 Theoretical approaches to the study of media consumption and audiences; examines international media and consumption practices; explores news media’s impact on consumption. Instruction Mode: Lecture Grading Option: Letter

COMM 365 The Rhetoric of London
Units: 4 Terms Offered: FaSpSm Examination of the modern city as a communicative text with London as the case study. Instruction Mode: Lecture Grading Option: Letter

COMM 366 Designing Media and Communication Projects for Social Change
Units: 4 Terms Offered: FaSpSm Students explore the theoretical and practical issues involved in designing effective media and communication projects for social change in international contexts. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-366

COMM 367 Community Engagement and Service Learning
Units: 2 Max Units: 04 Students engage with a community partner, bridging classroom learning with “real world” experiences by working within the diverse community surrounding USC. Instruction Mode: Lecture Grading Option: Letter

COMM 369w Public Diplomacy and Global Citizenship
Units: 4 (Enroll in PUBD 369w) Instruction Mode: Lecture Grading Option: Letter

COMM 370 The Rhetoric of Ideas: Ideology and Propaganda
Units: 4 Techniques of propaganda in public discourse; communication strategies through which ideas become ideologies; case studies in wartime and corporate propaganda, imperialism, and cultural colonialism. Instruction Mode: Lecture Grading Option: Letter

COMM 371 Censorship and the Law: From the Press to Cyberspace
Units: 4 The study of current and historical battles over the limits of free expression from press and public parks to television, movies, music and cyberspace. Duplicates Credit in former JOUR 371. Instruction Mode: Lecture Grading Option: Letter Crosslisted as JOUR-371

COMM 372 The Image of the Journalist in Popular Culture
Units: 4 (Enroll in JOUR 375)

COMM 375 Business and Professional Communication
Units: 4 Terms Offered: FaSpSm Oral and written communication skills demanded in the workplace including informative and persuasive speeches; interviewing; team communication; and training material preparation. Recommended Preparation: COMM 204. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD-375

COMM 380 Forensics Laboratory
Units: 1, 2, 3, 4 Max Units: 8.0 Directed individual research studies of contemporary problems. Supervised laboratory experience. Registration Restriction: Open only to members of the University debate squad. Instruction Mode: Lecture Grading Option: Letter

COMM 381 Issues in Contemporary Sport
Units: 4 Explores social, political and ethical issues in elite sports and how issues are addressed through popular media; examination includes the relationship between sports and politics. Instruction Mode: Lecture Grading Option: Letter

COMM 382 Sports, Business and Media in Today's Society
Units: 4 (Enroll in JOUR 380)

COMM 383m Sports, Communication and Culture
Units: 4 Contact with U.S. and U.K. media; focuses on news and entertainment media products; examines content, industries, technologies and audiences. Instruction Mode: Lecture Grading Option: Letter

COMM 385 Organizational Communication
Units: 4 How communication processes both create organizations and are constrained by them. Theory and research into topics such as culture, technology, power, leadership and decision-making in a variety of organizational contexts. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Seminar examining the relationship between propaganda, ideology, critical thinking and rhetoric; application to contemporary controversies, both domestic and global; role of public argument. Duplicates Credit in COMM 370. Instruction Mode: Lecture Grading Option: Letter

COMM 414 Communication and Social Change in China
Units: 4 Examines social, political, and cultural implications of media and communication in Chinese society; regulations relevant to Chinese communication; market reforms, telecommunication, Internet and creative industries. Instruction Mode: Lecture Grading Option: Letter

COMM 415m African American Rhetoric and Image
Units: 4 Interactive course addresses how people of color use symbols to construct identities and communities and disrupt networks through media, politics, entertainment and technology. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter

COMM 417 Global Engagement: Designing Public Diplomacy Strategies
Units: 4 (Enroll in PUBD 417)

COMM 418 International Exchanges and Public Diplomacy
Units: 4 (Enroll in PUBD 418)

COMM 419 Public Diplomacy in Los Angeles
Units: 4 (Enroll in PUBD 419)

COMM 420 Regional Studies in Public Diplomacy
Units: 4 Max Units: 08 (Enroll in PUBD 420)

COMM 421 Legal Communication
Units: 4 How lawyers and judges communicate in the courtroom; how legal issues are discussed by lay people; how lawyers and judges are viewed in popular culture. Prerequisite: COMM 322 Instruction Mode: Lecture Grading Option: Letter

COMM 422 Legal Issues and New Media
Units: 4 Examines laws and regulatory policies shaping new media, especially the Internet; impact of regulation on development and use of communication technology. Instruction Mode: Lecture Grading Option: Letter

COMM 425 Communicating Religion
Units: 4 Genres of religious communication, including sermon, prayer, ritual, polemic, and revival. Impact of technological and cultural change on religious advocacy, beliefs, and practices. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-425

COMM 426 Religion, Media and Hollywood: Faith in TV
Units: 4 How religion, ethics and spirituality are embedded, embodied and emplotted in television drama; how secular texts represent "lived religion" to increasingly diverse audiences. Instruction Mode: Lecture Grading Option: Letter Crosslisted as REL-426

COMM 427 Topics in Media Economics, Law and Policy
Units: 4 Max Units: 8 Selected current topics in the overlapping areas of media economics, law, and policy. Instruction Mode: Lecture Grading Option: Letter

COMM 429 The Internet, Economy, and Society
Units: 4 Terms Offered: Sp Examines the effects of the Internet on communication industries, the economy, economic policy, and on social, political, and cultural practices. Instruction Mode: Lecture Grading Option: Letter

COMM 430 Global Entertainment
Units: 4 Survey of economic, political, and cultural dimensions of the global entertainment marketplace; focuses on the international production and distribution of media products and services. Instruction Mode: Lecture Grading Option: Letter

COMM 431 Global Strategy for the Communications Industry
Units: 4 Addresses the practical and theoretical aspects of the international economy that are most relevant to management strategy in the communications industry. Instruction Mode: Lecture Grading Option: Letter
COMM 432 American Media and Entertainment Industries
Units: 4 Examines the history, technology, regulations and business practices of American broadcast and entertainment industries. Instruction Mode: Lecture Grading Option: Letter

COMM 433 Home Entertainment
Units: 4 History and impact of television and ancillary home entertainment (pay television, cable television, home video, DVD, DVR, video-on-demand, etc.) on media industries and consumer experience. Instruction Mode: Lecture Grading Option: Letter

COMM 434 Italian Media: Popes, Politicians, and Popular Culture
Units: 4 Terms Offered: FaSpSm Examines issues of visual images in communication related to history, modernity, cityscapes, news media, advertising, evidence, science, digital technology, and globalization. Instruction Mode: Lecture Grading Option: Letter

COMM 435 Advertising and Society
Units: 4 Examination of the role of advertising in contemporary society as an economic force and a cultural form of representation. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter

COMM 440 Music as Communication
Units: 4 Examines music's unique characteristics as a communicative form and the cultural, economic, political and social influences in music interpretation and production. Instruction Mode: Lecture Grading Option: Letter

COMM 443 Communicating Better Health: What Works and Why
Units: 4 Terms Offered: Sp How communication -- interpersonal, mass media, information technologies -- shapes health behavior. Topics: doctor-patient consults; marketing campaigns; health in entertainment, news; internet; social media; mobile devices. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HP 443

COMM 444 Critical Theories of Sport
Units: 4 Examines critical theories that examine social and political roles of sport in society and how these roles play out in media and broadcast platforms. Instruction Mode: Lecture Grading Option: Letter

COMM 445 Environmental Communication
Units: 4 How communication and information technologies are linked to organizational control, design, cultures; technology and competitive advantage; ethics and policy issues; technology-mediated work. Recommended Preparation: COMM 385 Instruction Mode: Lecture Grading Option: Letter

COMM 446 Social Responsibility of the News Media
Units: 4 Enroll in JOUR 460 Instruction Mode: Lecture Grading Option: Letter

COMM 447 Gender and the News Media
Units: 4 Enroll in JOUR 467 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MOR-468, PPD-468

COMM 448 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 Application of intercultural communication theories and negotiation theories in the preparation and execution of global negotiations; strategies for creating mutual gains and sustained partnerships. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MOR-468, PPD-468

COMM 449 Fact and Fiction: From Journalism to the Docudrama
Units: 4 Terms Offered: Sm Examines representations of youth and youth as audience. Prerequisite: COMM 300 Instruction Mode: Lecture Grading Option: Letter

COMM 450 Media, Money, and Society
Units: 4 Money as communication; social scientific analysis of money and financial markets; money and popular culture; the business press; representations of Wall Street in Hollywood cinema. Instruction Mode: Lecture Grading Option: Letter

COMM 451 Visual Communication and Social Change
Units: 4 Analysis of photography's evolution; new strategies for the photographic image, photo documentary work and global social issues; analysis of images on blogs and Websites. Instruction Mode: Lecture Grading Option: Letter

COMM 452 American Media and Entertainment Industries
Units: 4 Examines the history, technology, regulations and business practices of American broadcast and entertainment industries. Instruction Mode: Lecture Grading Option: Letter

COMM 453 Home Entertainment
Units: 4 History and impact of television and ancillary home entertainment (pay television, cable television, home video, DVD, DVR, video-on-demand, etc.) on media industries and consumer experience. Instruction Mode: Lecture Grading Option: Letter

COMM 454 Advertising and Society
Units: 4 Examination of the role of advertising in contemporary society as an economic force and a cultural form of representation. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter

COMM 455 Environmental Communication
Units: 4 How communication and information technologies are linked to organizational control, design, cultures; technology and competitive advantage; ethics and policy issues; technology-mediated work. Recommended Preparation: COMM 385 Instruction Mode: Lecture Grading Option: Letter

COMM 456 Social Responsibility of the News Media
Units: 4 Enroll in JOUR 460 Instruction Mode: Lecture Grading Option: Letter

COMM 457 Gender and the News Media
Units: 4 Enroll in JOUR 467 Instruction Mode: Lecture Grading Option: Letter

COMM 458 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 Application of intercultural communication theories and negotiation theories in the preparation and execution of global negotiations; strategies for creating mutual gains and sustained partnerships. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MOR-468, PPD-468

COMM 459 Fact and Fiction: From Journalism to the Docudrama
Units: 4 Terms Offered: Sm Examines representations of youth and youth as audience. Prerequisite: COMM 300 Instruction Mode: Lecture Grading Option: Letter

COMM 460 Collaboration and Group Decision Making
Units: 4 Advanced seminar examining the theoretical, empirical and practical aspects of human and technological communication in group processes; experiential and/or field experiences in group observation. Instruction Mode: Lecture Grading Option: Letter

COMM 461 Communication and Social Change
Units: 4 Analysis of photography's evolution; new strategies for the photographic image, photo documentary work and global social issues; analysis of images on blogs and Websites. Instruction Mode: Lecture Grading Option: Letter

COMM 462 American Media and Entertainment Industries
Units: 4 Examines the history, technology, regulations and business practices of American broadcast and entertainment industries. Instruction Mode: Lecture Grading Option: Letter

COMM 463 Home Entertainment
Units: 4 History and impact of television and ancillary home entertainment (pay television, cable television, home video, DVD, DVR, video-on-demand, etc.) on media industries and consumer experience. Instruction Mode: Lecture Grading Option: Letter

COMM 464 Advertising and Society
Units: 4 Examination of the role of advertising in contemporary society as an economic force and a cultural form of representation. Recommended Preparation: COMM 311 Instruction Mode: Lecture Grading Option: Letter

COMM 465 Media, Money, and Society
Units: 4 Money as communication; social scientific analysis of money and financial markets; money and popular culture; the business press; representations of Wall Street in Hollywood cinema. Instruction Mode: Lecture Grading Option: Letter

COMM 466 Social Responsibility of the News Media
Units: 4 Enroll in JOUR 460 Instruction Mode: Lecture Grading Option: Letter

COMM 467 Gender and the News Media
Units: 4 Enroll in JOUR 467 Instruction Mode: Lecture Grading Option: Letter

COMM 468 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 Application of intercultural communication theories and negotiation theories in the preparation and execution of global negotiations; strategies for creating mutual gains and sustained partnerships. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MOR-468, PPD-468

COMM 469 Fact and Fiction: From Journalism to the Docudrama
Units: 4 Terms Offered: Sm Examines representations of youth and youth as audience. Prerequisite: COMM 300 Instruction Mode: Lecture Grading Option: Letter

COMM 470 Information and Communication Technologies Strategic Analysis
Units: 4 Frameworks for strategically analyzing information and communication technologies; issues of regulation, control and social impacts of evolving ICTs; original research project of ICT strategy. Duplicates Credit in COMM 345. Instruction Mode: Lecture Grading Option: Letter

COMM 471 Advanced Issues in Communication and Technology
Units: 4 Advanced level readings into human-computer interfaces; social interaction with artifacts; concept of presence, and emerging social and psychological issues of new communication and computer technologies. Prerequisite: COMM 301. Instruction Mode: Lecture Grading Option: Letter

COMM 472 Environmental Communication
Units: 4 Communication about environmental controversies in the public sphere: history of environmentalism; forms of citizen participation; media coverage; advocacy campaigns and movements; scientific and industrial discourses. Instruction Mode: Lecture Grading Option: Letter

COMM 473 Nonverbal Communication
Units: 4 Theory and research; examination of the influence of environmental factors, physical behavior, and vocal cues on human communication. Instruction Mode: Lecture Grading Option: Letter

COMM 474 Comparative Media in Europe
Units: 4 Terms Offered: Sm (Enroll in JOUR 482)

COMM 475 Human and Technological Systems in Organizations
Units: 4 How communication and information technologies are linked to organizational control, design, cultures; technology and competitive advantage; ethics and policy issues; technology-mediated work. Recommended Preparation: COMM 385 Instruction Mode: Lecture Grading Option: Letter

COMM 476 Communication and Global Organizations
Units: 4 The role of communication in global organizations; information, networks, and communication technologies for global organizing; computer-based collaborative work and virtual organizations. Recommended Preparation: COMM 385. Instruction Mode: Lecture Grading Option:
COMM 488 Communication Research in Organizations
Units: 4 Seminar in application of communication research tools; diagnosis and analysis of communication problems; current topics in organizational communication scholarship; students complete original research projects. Recommended Preparation: COMM 385. Instruction Mode: Lecture Grading Option: Letter

COMM 489 Campaign Communication
Units: 4 Problems in political communication: creating an informed electorate, use of mass media, factors in voter persuasion. Guest experts in political analysis, opinion polling, communication evaluation. Instruction Mode: Lecture Grading Option: Letter

COMM 490s Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

COMM 494s Research Practicum
Units: 2, 3, 4 Max Units: 4.0 Students gain research experience in the design, implementation, analysis, and reporting of communication research. Students serve as research assistants to faculty members. Instruction Mode: Lecture Grading Option: Letter

COMM 495 Honors Seminar
Units: 4 Max Units: 8.0 Advanced study of issues in communication; recent developments in communication and rhetorical theories. Recommended for seniors. Recommended Preparation: COMM 301Lg. Registration Restriction: Open only to students in COMM honors program. Instruction Mode: Lecture Grading Option: Letter

COMM 497s Honors Thesis
Units: 4 Terms Offered: FaSpWriting of the honors thesis. Instruction Mode: Lecture Grading Option: Letter

COMM 498 Ethical Issues in Entertainment and Communication
Units: 4 Terms Offered: FaSpEvaluates ethical issues in social and political controversies over conflicting ethical standards for communication in a variety of media: mass-media, communication technology, and entertainment. Prerequisite: COMM 310. Instruction Mode: Lecture Grading Option: Letter

COMM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in communication. Instruction Mode: Lecture Grading Option: Letter

COMM 502 Theoretical Approaches to Multidisciplinary Design Projects
Units: 4 Terms Offered: Fa Focuses on theoretical research in communication and social sciences to bridge disciplines to produce a proposal, business plan, publication, or a research project. Registration Restriction: Open only to Communication Data Science and to Digital Social Media majors. Instruction Mode: Lecture Grading Option: Letter

COMM 504x Interpersonal Communication
Units: 4 Theories of communication behavior in relatively unstructured face-to-face situations; examination of decoder-encoder, message, channel, and situational variables. Instruction Mode: Lecture Grading Option: Letter

COMM 508x Power, Politics and Conflict in Communication
Units: 4 Human communicative behavior involving the creation and resolution of conflict in interpersonal, small group, and formal organizational settings. Instruction Mode: Lecture Grading Option: Letter

COMM 509x Classical Rhetorical Theory
Units: 4 Theories of rhetoric from the fifth century B.C. through the fifth century A.D.; emphasis on the Sophists, Plato, Aristotle, Cicero, Quintilian, and St. Augustine. Instruction Mode: Lecture Grading Option: Letter

COMM 511x Contemporary Rhetorical Theory
Units: 4 Theories of rhetoric from the 18th century to the present; emphasis on Perelman, Burke, Habermas, Grassi, and Booth. Instruction Mode: Lecture Grading Option: Letter

COMM 512x Rhetorical Criticism
Units: 4 Theories and methods of assessing popular persuasive art forms such as contemporary drama, music, poetry, and journalism as well as traditional forms of public address. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Theories of rhetoric from the fifth century A.D. through the 18th century; emphasis on dictamin, praedicandi, poetriae, Alquin, Ramus, Port-Royalists, Bacon, Campbell, Blair, and Whately. Instruction Mode: Lecture Grading Option: Letter

COMM 514s Social Movements as Rhetorical Form
Units: 4 Study of the rhetoric of social change; methodologies for analysis and appraisal; investigation of specific collective protest and reform movements. Instruction Mode: Lecture Grading Option: Letter

COMM 515x Postmodern Rhetorical Theory
Units: 4 Implications of postmodernism for rhetorical theory and criticism; issues of textuality, agency, and subjectivity in communication; study of selected postmodern figures. Instruction Mode: Lecture Grading Option: Letter

COMM 516s Feminist Theory and Communication
Units: 4 Implications of feminist theory for communication; topics include epistemology, critique of science/technology, women and language, feminist approaches to media and film, women and the workplace. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-516

COMM 517s Rhetorical Theory and Culture
Units: 4 Issues of culture in recent rhetorical theory; in-depth examination of representative idealist, pragmatist, structuralist, critical, and post-modern accounts of the symbolic construction of cultural forms. Instruction Mode: Lecture Grading Option: Letter

COMM 518s American Public Address
Units: 4 History and criticism of major American speakers and speeches with reference to the social, political, and intellectual background of their times. Instruction Mode: Lecture Grading Option: Letter

COMM 519s Cultural Studies in Communication
Units: 4 Theoretical foundations, history, and development of cultural studies in communication; implications of issues of nationalism, colonialism, technologies, popular culture, and politics of bodies for communication. Instruction Mode: Lecture Grading Option: Letter

COMM 520 The Rhetoric of the Presidential Campaign Trail
Units: 4 Students follow the ongoing presidential campaign and consider topics such as gender, race, new media, polling, religion, and advertising on election outcomes. Instruction Mode: Lecture Grading Option: Letter

COMM 521x Argumentation
Units: 4 Foundation of critical deliberation; the nature of informal reasoning; logical and ethical problems; analysis and appraisal of naturalistic argument. Instruction Mode: Lecture Grading Option: Letter

COMM 522x Kenneth Burke's Dramatic Theory
Units: 4 Studies the contributions of Kenneth Burke, among the most significant figures in the development of contemporary rhetorical theory and criticism. Instruction Mode: Lecture Grading Option: Letter

COMM 524x Small Group Process
Units: 4 Contemporary theoretical models; problems in determination and measurement of variables in small group communication environments; assessment of recent research. Instruction Mode: Lecture Grading Option: Letter

COMM 525x Humanistic and Social Scientific Approaches to Human Communication I
Units: 4 Overview of the humanistic and social scientific approaches to the study of communication; emphasis on rhetorical/ critical and macro social scientific perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 526x Humanistic and Social Scientific Approaches to Human Communication II
Units: 4 Overview of the humanistic and social scientific approaches to the study of communication; emphasis on macro and micro social scientific, symbolic and structural perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 546 The Political Economy of Innovation
Units: 4 How does innovation occur and
spread? How has innovation changed over time? Instruction Mode: Lecture Grading Option: Letter

**COMM 550 Quantitative Research Methods in Communication**
Units: 4 Epistemological assumptions, design, and beginning methods of quantitative analysis in communication research. Instruction Mode: Lecture Grading Option: Letter

**COMM 552 Qualitative Research Methods in Communication**
Units: 4 Developing expertise in qualitative methods, including participant-observation, ethnography, discourse analysis and historiography in communication research. Instruction Mode: Lecture Grading Option: Letter

**COMM 553 Political Economy of Global Telecommunications and Information**
Units: 4 The political, economic, regulatory, and technological changes that are together creating a new world information economy. The politics of international telecommunications is emphasized. Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR-553

**COMM 554 Regression and Multivariate Communication Research**
Units: 4 Advanced analysis of variance, regression models, path analysis, MANOVA, and discriminant analysis. Instruction Mode: Lecture Grading Option: Letter

**COMM 556 Advanced Methods in Communication Research**
Units: 4 Structural Equation Modeling, LISREL, log linear and other advanced statistical methods used in contemporary communication research. Instruction Mode: Lecture Grading Option: Letter

**COMM 559 Globalization, Communication and Society**
Units: 4 Comparative analysis of social, cultural and political impacts of communication technology and media; emphasis given to communication's influence in the social dimensions of globalization. Instruction Mode: Lecture Grading Option: Letter

**COMM 560 Global Media and Communication in China and Asia**
Units: 4 The characteristics of global communication in global capitalism and the political economic processes within which policies, interests, and implications of global communication are embedded. Instruction Mode: Lecture Grading Option: Letter

**COMM 561 Leading and Communicating Change in Global Organizations**
Units: 4 Communication perspectives on the process and outcomes of globalization; role of large media organizations in the global flow of information; and leadership and multiculturalism. Instruction Mode: Lecture Grading Option: Letter

**COMM 563 Black Popular Culture: Theory and Central Debates**
Units: 4 Examines black popular cultures as indexes for historical struggles over race, gender, nationalism, identity, subjectivity, aesthetics, institutional resources, political/cultural autonomy, and ideology. Instruction Mode: Lecture Grading Option: Letter

**COMM 564 Communication, Culture and Capitalism**
Units: 4 A survey of scholarship about the relationship between money and culture, with emphasis on poststructural accounts of neoliberalism. Instruction Mode: Lecture Grading Option: Letter

**COMM 566 Using Theory to Craft Policies to Affect Change**
Units: 4 Review path-breaking ideas from Nobel-winning economists; examine specific cases, trying to understand the process by which markets and institutions transform ideas into results. Instruction Mode: Lecture Grading Option: Letter

**COMM 567 The Political Economy of Privacy and Cybersecurity**
Units: 4 Considers the challenges of maintaining and protecting privacy while improving cybersecurity in the United States and globally. Instruction Mode: Lecture Grading Option: Letter

**COMM 570 Economics of the Communication Industries**
Units: 4 The economic forces that determine the structure and outputs of communication and media industries, including newspapers, broadcasting, cable, and telecommunications. Instruction Mode: Lecture Grading Option: Letter

**COMM 572 Theories of Computer-Mediated Communication**
Units: 4 Selected topics in the study of new technologies for human communication: adoption of CMC technologies; social networking; self-presentation and impression formation in CMC; online friendships. Instruction Mode: Lecture Grading Option: Letter

**COMM 573 Networked Publics: Theories and Encounters**
Units: 4 Examines models of a democratic public sphere, with special focus on design and use of networked information infrastructures supporting free speech. Instruction Mode: Lecture Grading Option: Letter

**COMM 574 Science and Technology Studies for Communication and Media**
Units: 4 Introduction to the field of Science and Technology Studies; examines sociotechnical models of knowledge, power and society as related to communication and media. Instruction Mode: Lecture Grading Option: Letter

**COMM 575 Advocacy and Social Change in Entertainment and the Media**
Units: 4 Examines how diverse groups (i.e., governmental agencies, advertisers, health organizations, advocacy groups, actors, social scientists) attempt to influence audiences through entertainment and traditional media channels. Instruction Mode: Lecture Grading Option: Letter

**COMM 576 Civic Media and Participatory Politics**
Units: 4 Examines tools and practices enabling activists to exert voice and influence public policies; ways citizens are working to meet the information needs of their communities. Instruction Mode: Lecture Grading Option: Letter

**COMM 577 Fandom, Participatory Culture and Web 2.0**
Units: 4 Emerging models of audience engagement and participation in a networked culture with a strong focus on grassroots communities and their relationships with cult media content. Instruction Mode: Lecture Grading Option: Letter

**COMM 578 New Media Literacies**
Units: 4 Examines intersection of education and participatory culture, literacy and media change, the participation gap, informal learning and knowledge communities, emerging social skills and cultural competencies. Instruction Mode: Lecture Grading Option: Letter

**COMM 579 Entrepreneurship in the New Media**
Units: 4 Examination of how the digital revolution is creating news media entrepreneurs, and changing the way news is disseminated by journalists and heard by consumers. Instruction Mode: Lecture Grading Option: Letter

**COMM 580 Media and Politics**
Units: 4 Mass media in American political life, including political reporting, election campaigns, non-electoral politics, and the media as a political issue. Instruction Mode: Lecture Grading Option: Letter

**COMM 582 Information and Communication Technology for Development**
Units: 4 Roles of media institutions and communications behavior in national development, including political, economic, and social spheres; Western and non-Western conceptions of development processes. Instruction Mode: Lecture Grading Option: Letter

**COMM 585x Organizational Communication**
Units: 4 Theory and research; field experience in analyzing and solving communication problems in organizations. Instruction Mode: Lecture Grading Option: Letter

**COMM 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. Duplicates Credit in former COMM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

**COMM 594 Master's Thesis**
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**COMM 594b Master's Thesis**
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**COMM 594c Master's Thesis**
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
COMM 598 Practicum in Global Communication Research
Units: 4 Terms Offered: Sp Development and assessment of research into global communication; selection of appropriate research methodologies; production of scholarly research; and completion of an internship/practicum. Registration Restriction: Open only to Global Communication master students Instruction Mode: Lecture Grading Option: Letter

COMM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

COMM 602 Seminar in Persuasion
Units: 4 Classical and contemporary theories of persuasion, attitude formation and change; impact of cognition, affect and emotions; cultural and group influences; message strategies and framing. Instruction Mode: Lecture Grading Option: Letter

COMM 605 Advanced Macro Theories of Communication
Units: 4 Advanced macro theories of communication and culture creation/change; emphasis on structural-functionalism, neo-Marxism, critical theory, symbolic interactionism, phenomenology, post-structuralism, deconstruction. Instruction Mode: Lecture Grading Option: Letter

COMM 610 Studies in Rhetorical Theory
Units: 4 Max Units: 12.0 Problems in rhetorical theory and criticism; advanced, specialized interest areas of individual faculty on the frontiers of knowledge. Instruction Mode: Lecture Grading Option: Letter

COMM 611 Communication Technology and Healthcare
Units: 4 Impact on healthcare and patient empowerment of new communication technologies including social media and mobile communications, online interventions, syndromic surveillance, user-generated reviews, electronic health records. Instruction Mode: Lecture Grading Option: Letter

COMM 612 Designing Health Communication Interventions
Units: 4 Effectively changing health outcomes for target population using games, mobile and online interventions; formative and summative evaluation; virtual environments for fMRI studies. Instruction Mode: Lecture Grading Option: Letter

COMM 613 Grant Writing in Communication
Units: 4 Finding the right grant; how to develop theory, optimize funding, write critical components of grants, form collaborations with experts; how review panels work. Instruction Mode: Lecture Grading Option: Letter

COMM 614 Computational Approaches in Health Communication
Units: 4 Statistical and computational approaches to health communication data; better understanding, using simulations, of how theory might better guide empirical research. Instruction Mode: Lecture Grading Option: Letter

COMM 615 Health Communication
Units: 4 Evaluation of research about communication in patient care, health campaigns for diverse publics, tools for disease management, and outreach to producers in mass media. Instruction Mode: Lecture Grading Option: Letter

COMM 616 Health Communication for Prevention
Units: 4 Examination of health communication efforts for the prevention of diseases or other adverse physical or mental health outcomes by the promotion of behavior change. Instruction Mode: Lecture Grading Option: Letter

COMM 618 Mass Media Effects
Units: 4 Theoretical and research questions about mass communication effects; criticism and interpretation of current research and theory, and formulation of new theory. Instruction Mode: Lecture Grading Option: Letter

COMM 620 Studies in Communication Theory
Units: 4 Max Units: 12.0 Current problems in communication theory and research: advanced, specialized interest areas of individual faculty on the frontiers of knowledge. Instruction Mode: Lecture Grading Option: Letter

COMM 629 Global Culture
Units: 4 Examines the relationship of culture to globalization, ranging from nationalism and colonialism to global cultural products, multinational cultural production, diasporic cultures, global media, and cosmopolitanism. Instruction Mode: Lecture Grading Option: Letter

COMM 630 Communication Technology and Social Change
Units: 4 Impact of technological advances on human communication practices and theories; trends, forecasts, implications. Instruction Mode: Lecture Grading Option: Letter

COMM 635 Economics of Information
Units: 4 Applications of macro and microeconomic principles: economic role of the information sector; production, distribution, and pricing of information products; information in the functioning of markets. Instruction Mode: Lecture Grading Option: Letter

COMM 636 Interpretive and Cultural Approaches in Organizational Communication
Units: 4 Interpretive, critical and cultural research in organizational communication; emphasis on narrative approaches to ethnographic studies, critical essays, and quantitative intercultural research in organizational communication. Instruction Mode: Lecture Grading Option: Letter

COMM 637 Current Readings in Organizational Communication
Units: 4 Recent developments in organizational communication theory and research; emerging issues and methodologies; future directions. Instruction Mode: Lecture Grading Option: Letter

COMM 638 Global, International and Intercultural Communication in Organizations
Units: 4 Communication processes in global organizational transformation; influences of information technology, intercultural variables, and globalization on decision-making, operations and practices of international and transnational organizations. Instruction Mode: Lecture Grading Option: Letter

COMM 640 Communication and Organizational Change
Units: 4 Analysis of communication and information networks in organizations and their relationships with communication technologies, organizational behavior, and management. Instruction Mode: Lecture Grading Option: Letter

COMM 641 Organizations and Communication Technologies
Units: 4 Communication technology impacts on organizations; organizational influence on technology development and deployment; methods for organizational communication technology studies; critiques and implications for theory and research. Instruction Mode: Lecture Grading Option: Letter

COMM 645 Communication Networks
Units: 4 Conceptual and analytic issues in network perspectives; emphasis on communication patterns, processes, content, influences and impacts. Instruction Mode: Lecture Grading Option: Letter

COMM 647x Network Society
Units: 4 Advanced research seminar examining the interaction between communication technology, society, economy, politics and culture from interdisciplinary and cross-cultural perspectives. Instruction Mode: Lecture Grading Option: Letter

COMM 648 Online Communities and Networks
Units: 4 Examination of academic research on the social, cultural, political, and economic effects of online communities; policy implications of this research; mobile technology's role in community building. Instruction Mode: Lecture Grading Option: Letter

COMM 650 Survey Construction and Validation
Units: 4 Principles of survey construction and validation; format selection, sampling, question wording, adaptation for international audiences, response option formats, order, and avoiding acquiescence bias and breakoffs. Instruction Mode: Lecture Grading Option: Letter

COMM 651 Experimental and Quasi-Experimental Designs
Units: 4 Advantages and drawbacks to experimental designs and quasi experimental designs for social research and theory building. Emphasis on how to design and report experiments. Instruction Mode: Lecture Grading Option: Letter

COMM 652 Field Research in Communication
Units: 4 Examines quantitative and...
and student develop a syllabus that permits exploration of advanced or specialized topics. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 694 Preliminary Research Paper
Units: 2 Independent research designed to demonstrate the student's ability to conceptualize, conduct, and present scholarly research. Instruction Mode: Lecture Grading Option: Credit/No Credit Crosslisted as Parallel to COMM 794a COMM 794b COMM 794c COMM 794d COMM 794e.

COMM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the school. Instruction Mode: Lecture Grading Option: Credit/No Credit

COMM 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

COMM 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Thematic Option
CORE 101g Symbols and Conceptual Systems: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Study of the structures through which we shape our experience in religion, philosophy, literature, music, and the visual arts, and of competing theories of interpretation. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion, Lab Grading Option: Credit/No Credit

CORE 102gp Culture and Values: Thematic Option Honors Program
Units: 4 Terms Offered: FaSp Study of the structures through which we shape our experience in religion, philosophy, literature, music, and the visual arts, and of competing theories of interpretation. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion, Lab Grading Option: Credit/No Credit

CORE 400 Capstone
Units: 2 Guided study of select works of classical literature in relation to contemporary issues and concerns. Capstone for minor in Classical Perspectives. Recommended Preparation: completion of at least 10 units towards the Classical Perspectives minor, including CORE 200 Registration Restriction: registration requires departmental approval (D-clearance) Instruction Mode: Lecture Grading Option: Credit/No Credit

CORE 401x Ethics and Leadership
Units: 4 Terms Offered: FaSp Sm Seminar Debates concerning moral and cultural ethics in a globalizing world; paradigms of leadership, ethical conduct, moral courage, and humanitarianism. Instruction Mode: Lecture Grading Option: Credit/No Credit

CORE 450 Los Angeles: A Polymathic Inquiry
Units: 2, 4 Max Units: 4 Terms Offered: 2
FaSp A guided polymathic inquiry into Los Angeles as fact and imaginative creation, featuring in-depth student research and projects. Instruction Mode: Lecture Grading Option: Letter

CORE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive interdisciplinary exploration of a selected theme, problem process, or period. Instruction Mode: Lecture Grading Option: Letter

CORE 601 Teaching Analytical Writing Through Readings in the Humanities
Units: 1 Max Units: 4.0 Terms Offered: Fa Theories and practices in the university-level teaching of close-reading and analytical writing, using texts central to Western tradition. Graduate student professionalism through topical workshops and discussions. Instruction Mode: Lecture Grading Option: Credit/No Credit

School of Art and Design (Critical Studies)

CRIT 150gp Histories of Art, Design and Visual Culture
Units: 4 Terms Offered: FaSp An issues-focused chronological, thematic survey of art, visual culture, design, and critical theory from the early modern period through modernism (1500 – 1950). Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former FACS 150 Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 160g Critical Theory in Art, Design and Visual Culture
Units: 4 Terms Offered: FaSp An issues-based introduction to critical theory in the twentieth and twenty-first centuries, especially as it relates to philosophy, art, design, and visual culture. Recommended Preparation: CRIT 150g Satisfies New General Education in Category B: Humanistic Inquiry Restriction: Open only to Roski Art majors and minors Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 350gw Global Art, Design, and Visual Culture since 1960
Units: 4 Terms Offered: FaSp A critical history of art, design, visual culture, and visual theory since 1960, addressing through a postcolonial/decolonial lens the concepts and practices of "global" art. Recommended Preparation: CRIT 150g and CRIT 160g Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Restriction: Open only to Roski Art majors and minors Duplicates Credit in former FA 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

CRIT 371 Art in the Public Realm: Contemporary Issues
Units: 4 Terms Offered: FaSpSm Critical frameworks and theoretical perspectives of contemporary public art issues explored through case studies and discussions with artists, architects, and designers engaging the public realm. Duplicates Credit in former PAS 371. Instruction Mode: Lecture Grading Option: Letter

CRIT 410 Deconstruction in Design
Units: 4 Terms Offered: FaSpSm Addresses overlapping issues in contemporary design and art relating to activism, audience, and technologies of making and dissemination. Recommended Preparation: CRIT 150g, CRIT 160 and CRIT 350, or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 415 Event, Action, and Situation: Performance Art since 1960
Units: 4 Terms Offered: FaSpSm The role of the body, performance, action, and the question of the "event" in contemporary art and design. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 420 The Artist in History and Popular Culture
Units: 4 Addresses relationships among contemporary art, design, and popular culture, with a focus on specific visual media and their histories. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 425 Identity and Visual Representation
Units: 4 A critical study of the relationship between identity or coalitional politics and specific practices, meanings, and sitings of contemporary art and design. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 430 Undergrounds and Avant-Gardes in Film and Visual Culture
Units: 4 Terms Offered: FaSpSm Study of theories of critique or resistance in art and cultural studies, particularly in relation to developments in contemporary art, design, and/or popular culture. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 435 Artists’ Magazines as Alternative Spaces
Units: 4 Terms Offered: FaSpSm Histories of art and/or design from alternative points of view, exposing the limits of conventional histories of art and design. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 440 Exhibition and Museum Histories
Units: 4 Terms Offered: FaSpSm History and theory of curating, exhibitions, and museums, critically examining the historical structures and current politics informing contemporary practices and institutions. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350gw or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 445 Art in the Public Realm
Units: 4 Terms Offered: FaSpSm Focuses on contemporary artistic and design practices in relation to questions of the public sphere and audience, addressing topics from public art to social practice. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350 or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 450 Visual Culture in Southern California: Images in and of the City
Units: 4 Terms Offered: FaSpSm Exploration of the relationships among art, design, visual culture, urban spaces and institutions, through urban, social, and visual theory. Recommended Preparation: CRIT 150g, CRIT 160g, CRIT 350 or permission of instructor Instruction Mode: Lecture Grading Option: Letter

CRIT 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Comprehensive exploration of particular aspects of public art. Duplicates Credit in former PAS 499 Instruction Mode: Lecture Grading Option: Letter

CRIT 510 History and Theory of Art and Exhibitions
Units: 4 Terms Offered: FaSpSm Discussion visits relating to art and curatorial practices, from art museums and artists’ studios to public art offices and performance venues, and meet professionals. Instruction Mode: Lecture Grading Option: Letter

CRIT 512 Art and Curatorial Visits
Units: 2 Terms Offered: Fa Site visits relating to art and curatorial practices, from art museums and artists’ studios to public art offices and performance venues, and meet professionals. Instruction Mode: Lecture Grading Option: Letter

CRIT 515 Visiting Artist and Scholar Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp (Enroll in ART 515)

CRIT 525 Making and Curating Art: Pedagogy and Praxis
Units: 4 Terms Offered: SpSm Provides students with a foundation in the history and theory of studio art and curatorial education and develops their teaching skills in these areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ART-525

CRIT 530 Global Art Seminar: the Globalization of Art and Culture
Units: 4 Terms Offered: Sm (Enroll in ART 530)

CRIT 555 Methods of Curating: Introduction to Curatorial Practice
Units: 4 Terms Offered: Sp First in a sequence of three courses on history/theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public. Duplicates Credit in PAS 555a. Instruction Mode: Lecture Grading Option: Letter

CRIT 556 Curatorial Practicum: Individual/Group Projects
Units: 4 Terms Offered: Fa Second in a sequence of three courses on history/theory of curatorial methods, with practical experience necessary to mounting exhibitions and...
and devising interfaces with the public.

Prerequisite: CRIT 555. Duplicates Credit in PAS 555b. Instruction Mode: Lecture
Grading Option: Letter

CRIT 557 Curatorial Practicum: Group Project Summation
Units: 4 Terms Offered: Sp Third in a sequence of three courses on history/theory of curatorial methods, with practical experience necessary to mounting exhibitions and devising interfaces with the public.

Prerequisite: CRIT 556. Duplicates Credit in PAS 555c. Instruction Mode: Lecture
Grading Option: Letter

CRIT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former PAS 590. Instruction Mode: Lecture
Grading Option: Credit/No Credit

CRIT 591 Field Internship Experience
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Supervised internship in an art institution or an art agency, or with an independent curator or artist, on projects and research specific to public space.

Recommended Preparation: Completion of first year of courses. Duplicates Credit in former PAS 591. Instruction Mode: Lecture
Grading Option: Credit/No Credit

CRIT 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 28 units of coursework. Duplicates Credit in former PAS 594abz. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CRIT 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 28 units of coursework. Duplicates Credit in former PAS 594abz. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CRIT 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 28 units of coursework. Duplicates Credit in former PAS 594abz. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

CRIT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in various specialty areas of public art. Duplicates Credit in former PAS 599. Instruction Mode: Lecture
Grading Option: Letter

Computer Science

CSCI 100xg Explorations in Computing
Units: 4 A behind-the-scenes overview of the computational/algorithmic principles that form the basis of today's digital society. Exploration areas include social media, web search, videogames and location-based services. Satisfies New General Education in Category F: Quantitative Reasoning
Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 101L Fundamentals of Computer Programming
Units: 3 Terms Offered: FaSp Introduction to the design of solutions to computer solvable problems. Algorithm design, solution implementation using a high-level programming language, program correctness and verification. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 102L Fundamentals of Computation
Units: 2 Fundamental concepts of algorithmic thinking as a primer to programming. Introduction to C++. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 103L Introduction to Programming
Units: 4 Terms Offered: FaSp Basic datatypes, assignments, control statements (if, switch, for, while), input/output (printf, scanf, cin, cout), functions, arrays, structures, recursion, dynamic memory, file handling. Programming in C/C++. Corequisite: CSCI 109 or EE 109 Instruction Mode: Lecture
Lab Required, Quiz Grading Option: Letter

CSCI 104L Data Structures and Object Oriented Design
Units: 4 Terms Offered: FaSp Introduces the student to standard data structures (linear structures such as linked lists, (balanced) trees, priority queues, and hashstables), using the C++ programming language. Prerequisite: CSCI 103L; Corequisite: CSCI 170. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

CSCI 109 Introduction to Computer Science
Units: 2 Terms Offered: FaSp An introduction to, and overview of, Computer Science; both as a discipline and a body of knowledge. Instruction Mode: Lecture
Grading Option: Letter

CSCI 110 Introduction to Digital Logic
Units: 3 (Enroll in EE 101)

CSCI 170 Discrete Methods in Computer Science
Units: 4 Terms Offered: FaSp Sets, functions, series. Big-O notation and algorithm analysis. Propositional and first-order logic. Counting and discrete probability. Graphs and basic graph algorithms. Basic number theory. Prerequisite: CSCI 103L and (CSCI 109 or EE 109L) Duplicates Credit in former CSCI 271 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

CSCI 201L Principles of Software Development
Units: 4 Terms Offered: FaSp Object-oriented paradigm for programming-in-the-large in Java; writing sophisticated concurrent applications with animation and graphic user interfaces; using professional tools on team project. Prerequisite: CSCI 104L

CSCI 270 Introduction to Algorithms and Theory of Computing
Units: 4 Terms Offered: FaSpSm Algorithm analysis. Greedy algorithms, divide and conquer, dynamic programming, graph algorithms. NP-completeness and basic recursion theory and undecidability. Sorting lower bounds. Number-theory based cryptography. Prerequisite: CSCI 104L and CSCI 170. Duplicates Credit in former CSCI 303 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

CSCI 280 Video Game Production
Units: 4 Terms Offered: FaSpSm (Enroll in ITP 280)

CSCI 281 Pipelines for Games and Interactives
Units: 4 Terms Offered: FaSp Explores the aesthetic development/technical implementation necessary to achieve unique, compelling, intuitive visual design in games. Students will develop group visual game design portfolios. Instruction Mode: Lecture
Grading Option: Letter

CSCI 310 Software Engineering
Units: 4 Terms Offered: Sp Introduction to the software engineering process and software lifecycle. Covers project management, requirements, architecture, design, implementation, testing, and maintenance phase activities in team based projects. Prerequisite: CSCI 201L Duplicates Credit in former CSCI 377 Instruction Mode: Lecture
Grading Option: Letter

CSCI 350 Introduction to Operating Systems
Units: 4 Basic issues in concurrency, deadlock control, synchronization scheduling, memory management, protection and access control, inter-process communication, and structured design. Laboratory experiences with Unix-like operating system. Duplicates credit in CSCI 402. Prerequisite: CSCI 201L and (CSCI 356 or EE 354L) Duplicates Credit in CSCI 402 Instruction Mode: Lecture, Quiz Grading Option: Letter

CSCI 352L Computer Organization and Architecture
Units: 3 Terms Offered: Sp (Enroll in EE 352L)

CSCI 353 Introduction to Internetworking
Units: 4 Global Internet: design principles, layering, protocol design/analysis. Networked applications, Internet structure/ architecture, Protocols for transport/ congestion control, network layer/routing, link layer/MAC. Network security. Prerequisite: CSCI 201; Recommended Preparation: Familiarity with C and C++. Duplicates Credit in EE 450. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 356 Introduction to Computer Systems
Units: 4 Computer organization; entity abstraction and representation; program execution; code optimization; memory usage; exception handling; processing control; computer performance; hands-on work done in C and assembly. Prerequisite: CSCI 104L Recommended Preparation: Familiarity with memory management and parameter passing used in the C++ programming language Duplicates Credit in EE 352L Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 360 Introduction to Artificial
Intelligence
Units: 4 Concepts and algorithms underlying the understanding and construction of intelligent systems. Agents, problem solving, search, representation, reasoning, planning, machine learning. Prerequisite: CSCI 104L and CSCI 170 Duplicates Credit in former CSCI 460 Instruction Mode: Lecture Grading Option: Letter

CSCI 368 Programming Graphical User Interfaces
Units: 3 (Enroll in ITP 368)

CSCI 380 Video Game Programming
Units: 4 Terms Offered: FaSp (Enroll in ITP 380)

CSCI 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

CSCI 401 Capstone: Design and Construction of Large Software Systems
Units: 4 Max Units: max 8 Terms Offered: FaSp

CSCI 402 Operating Systems
Units: 4 Terms Offered: FaSpSm

CSCI 404 Capstone: Creating Your High-Tech Startup
Units: 4 Capstone class in which students create their own technology startup, leveraging comprehensive CS knowledge and best industry practices. Prerequisite: CSCI 201 and CSCI 300. Duplicates Credit in former CSCI 477a and CSCI 477b Instruction Mode: Lecture Grading Option: Letter

CSCI 410x Translation of Programming Languages
Units: 3 Terms Offered: FaSp

CSCI 420 Computer Graphics
Units: 4 Terms Offered: FaSp

CSCI 423 Native Console Multiplayer Game Development
Units: 4 Implementation of AA style multiplayer game running on consoles and DX11. Console development in native C++, console SDKs, engine components, gameplay, networking, data prediction/replication. Prerequisite: CSCI 522 or ITP 380; Recommended Preparation: ITP 485. Instruction Mode: Lecture Grading Option: Letter

CSCI 426 Game Prototyping
Units: 4 Developing games or technology based on current and relevant special topics. Instruction Mode: Lecture Grading Option: Letter

CSCI 430 Introduction to Computer and Network Security
Units: 4 Terms Offered: Sp

CSCI 439 Compiler Development
Units: 3 (Enroll in ITP 439)

CSCI 445 Introduction to Robotics
Units: 3 (Enroll in ITP 445)

CSCI 450 Introduction to Computer Networks
Units: 3 Terms Offered: FaSpSm

CSCI 451 Parallel and Distributed Computation
Units: 4 (Enroll in EE 450)

CSCI 454L Introduction to System-on-Chip
Units: 4 Terms Offered: Fa (Enroll in EE 454L)

CSCI 455x Introduction to Programming Systems Design
Units: 4 Terms Offered: FaSp

CSCI 457 Computer Systems Organization
Units: 3 (Enroll in EE 457)

CSCI 458 Numerical Methods
Units: 4 (Enroll in MATH 458)

CSCI 459 Computer Systems and Applications Modeling Fundamentals
Units: 3 Terms Offered: Sp Techniques and tools needed to construct/evaluate models of computer systems and applications. Analytical and simulation methods, capacity planning, performance/reliability evaluation, and decision-making. Prerequisite: MATH 225, CSCI 201. Instruction Mode: Lecture Grading Option: Letter

CSCI 467 Introduction to Machine Learning
Units: 4 Methods for building intelligent and adaptive systems from statistical analyses; theoretical understanding of such analyses; and the computational implications. Prerequisite: (CSCI 270 and MATH 225) and (EE 364 or MATH 407) Recommended Preparation: CSCI 360, comfortable with mathematical derivations, such as those in MATH 225; comfortable with manipulating vectors and matrices Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 476 Cryptography: Secure Communication and Computation
Units: 4 Introduction to modern Cryptography; mathematical/algorhithmic studies of methods for protecting information in computer and communication systems: Public-Key Cryptosystems, zero-knowledge proofs, data privacy. Prerequisite: CSCI 270. Instruction Mode: Lecture Grading Option: Letter

CSCI 485 File and Database Management
Units: 4 Terms Offered: FaSp File input/output techniques, basic methods for file organization, file managers, principles of databases, conceptual data models, and query languages. Prerequisite: CSCI 201 Instruction Mode: Lecture Grading Option: Letter

CSCI 487 Programming Game Engines
Units: 4 Terms Offered: FaSp (Enroll in ITP 485)

CSCI 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CSCI 491a Final Game Project
Units: 4 Terms Offered: FaSpSm Design, iterative prototyping, and development of a 1st playable level. Registration Restriction: Open only to seniors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 491b Final Game Project
Units: 2 Terms Offered: FaSpSm Design, iterative stage 2 prototyping and development of a refined game. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 495 Senior Project
Units: 3 (Enroll in PHYS 495)

CSCI 499 Special Topics
Units: 2, 3, 4 Selected topics in computer science. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 501 Numerical Analysis and
COURSES OF INSTRUCTION

Computation
Units: 3 (Enroll in MATH 501)

CSCI 502a Numerical Analysis
Units: 3 (Enroll in MATH 502a, MATH 502b)

CSCI 502b Numerical Analysis
Units: 3 (Enroll in MATH 502a, MATH 502b)

CSCI 504a Numerical Solutions of Ordinary and Partial Differential Equations
Units: 3 (Enroll in MATH 504a, MATH 504b)

CSCI 504b Numerical Solutions of Ordinary and Partial Differential Equations
Units: 3 (Enroll in MATH 504a, MATH 504b)

CSCI 505a Applied Probability
Units: 3 (Enroll in MATH 505a, MATH 505b)

CSCI 505b Applied Probability
Units: 3 (Enroll in MATH 505a, MATH 505b)

CSCI 510 Software Management and Economics
Units: 4 Theories of management and their application to software projects. Economic analysis of software products and processes. Software cost and schedule estimation, planning and control. Instruction Mode: Lecture Grading Option: Letter

CSCI 511 Personal Software Process (PSP) and Project
Units: 3 Terms Offered: Sp Individual analysis, planning, development and maintenance of a software product or development artifact, using the principles and practices of PSP. Analysis of project's lessons learned. Instruction Mode: Lecture Grading Option: Letter

CSCI 512 Testing and Analysis of Software Systems
Units: 4 Introduces students to the topic of automated testing and analysis of large-scale modern software systems. Recommended Preparation: CSCI 571; Java programming skills; Linux system administration. Instruction Mode: Lecture Grading Option: Letter

CSCI 520 Computer Animation and Simulation
Units: 4 Fundamental techniques of computer animation and simulation, knowledge and/or experience in the design, scripting, production and post-production stages of computer animation. Prerequisite: CSCI 420 or CSCI 580 Recommended Preparation: Familiarity with calculus, linear algebra, and numerical computation; C/C++ programming skills Instruction Mode: Lecture Grading Option: Letter

CSCI 521 Optimization: Theory and Algorithms
Units: 3 Terms Offered: Fa The principles of developing game engines targeted at modern PC and game console hardware. Instruction Mode: Lecture Grading Option: Letter

CSCI 522 Game Engine Development
Units: 4 Terms Offered: Fa The principles of developing game engines targeted at modern PC and game console hardware. Instruction Mode: Lecture Grading Option: Letter

CSCI 523L Networked Games
Units: 4 Terms Offered: FaSpSm Design and implementation of networked games, from the origins of the supporting technologies in distributed systems, visual simulations, networked virtual environments, and shipped games. Recommended Preparation: CSCI 420 or CSCI 580 or an equivalent course in graphics. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 524 Networked Artificial Intelligence
Units: 4 Networked game communication architectures, protocol development, architected networked game AI clients/services. Character following, knowledge representation and reasoning, dynamic play strategies, search, learning, and planning. Recommended Preparation: CSCI 420 or CSCI 580 or an equivalent course in graphics Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 526 Advanced Mobile Devices and Game Consoles
Units: 4 Terms Offered: FaSpSm Explore the complex engineering process required to design and build a real-time graphics engine to support physical realism on mobile devices. Recommended Preparation: CSCI 420 or CSCI 580 or an equivalent course in graphics Instruction Mode: Lecture, Lab Required Grading Option: Letter

CSCI 529a Advanced Game Projects
Units: 4 Terms Offered: FaSpSm Team projects intended to address the multifaceted technical and creative challenges that are inherent to comprehensive game development. Recommended Preparation: CSCI 522 or CTIN 488. Instruction Mode: Lecture Grading Option: Letter

CSCI 529b Advanced Game Projects
Units: 2 Terms Offered: FaSpSm Provides students in various areas of game specialization the practice of design, iterative stage 2 prototyping and development of a refined game. Prerequisite: CSCI 529a Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 530 Security Systems
Units: 4 Terms Offered: FaSp Protecting computer networks and systems using cryptography, authentication, authorization, intrusion detection and response. Includes lab to provide practical experience working with such systems. Prerequisite: CSCI 402. Instruction Mode: Lecture Grading Option: Letter

CSCI 531 Applied Cryptography
Units: 4 Intensive overview of cryptography for practitioners, historical perspective on early systems, number theoretic foundations of modern day cryptosystems and basic cryptanalysis. Recommended Preparation: Programming in C/C++ (CSCI 103), Data structures (CSCI 104) Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 533 Algebraic Combinatorics
Units: 3 Terms Offered: Irregular (Enroll in MATH 533)

CSCI 534 Affective Computing
Units: 4 Terms Offered: Sp Overview of the theory of human emotion, techniques for recognizing and synthesizing emotional behavior, and design applications. Recommended Preparation: CSCI 561 Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC 532

CSCI 535 Multimodal Probabilistic Learning of Human Communication
Units: 4 Principles and techniques to understand, build, and utilize multimodal machine learning algorithms through automatically understanding, recognizing, and analyzing phenomena of human communication. Recommended Preparation: CSCI 542 or CSCI 567 or CSCI 573 or equivalent Instruction Mode: Lecture Grading Option: Letter

CSCI 536 Linear Programming and Extensions
Units: 3 Terms Offered: Fa (Enroll in ISE 536)

CSCI 537 Foundations of Data Management
Units: 4 Terms Offered: FaSp

CSCI 538 Augmented, Virtual and Mixed Reality
Units: 4 Terms Offered: FaSp Technical design and implementation of immersive environments; visual simulations, interactive 3D graphics and games. Recommended Preparation: CSCI 420 or CSCI 580 Instruction Mode: Lecture, Lab Grading Option: Letter

CSCI 540 Self-Organzation
Units: 4 Massively distributed systems whose global behavior emerges from local interactions of components. Global to local compilation; robot swarms; formation of shapes/spatial patterns; self-assembly; programmable matter. Registration Restriction: Graduate standing in science or engineering Instruction Mode: Lecture Grading Option: Letter

CSCI 541 Foundations and Applications of Data Mining
Units: 4 (Enroll in ISE 553)

CSCI 542 Neural Computation with Artificial Neural Networks
Units: 3 Terms Offered: Sp Computation and adaptation in networks of interconnected distributed processing units; classical and statistical approaches to neural nets; state-of-the-art neural network research. Recommended Preparation: basic statistics, linear algebra. Instruction Mode: Lecture Grading Option: Letter

CSCI 544 Applied Natural Language Processing
Units: 4 Introduction to key components of human language technologies, including: information extraction, sentiment analysis, question answering, machine translation. Recommended Preparation: proficiency in programming, algorithms and data structures, basic knowledge of linear algebra. Instruction Mode: Lecture Grading Option: Letter
CSCI 454 Robotics
Units: 4 Terms Offered: FaSpSm
Fundamental skills for modeling and controlling of dynamic systems for robotic applications and graphics animations; control theory; kinematics; dynamics; sensor processing; real-time operating systems; robot labs. *Recommended Preparation:* Basic knowledge in linear algebra (matrices and vectors), calculus, programming in C/ C++ or another language or permission of the instructor Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as EE-545

CSCI 548 Information Integration on the Web
Units: 4 Terms Offered: FaSpSm
Foundations and techniques in information integration as it applies to the Web, including view integration, wrapper learning, record linkage, and streaming dataflow execution. *Prerequisite:* CSCI 561 *Recommended Preparation:* CSCI 585 and some programming experience Instruction Mode: Lecture Grading Option: Letter

CSCI 549 Nanorobotics
Units: 3 Terms Offered: Sp
Introduction to nanotechnology. Nanorobotic systems: sensing; actuation and propulsion; control; communication; power; programming and coordination of robot swarms. Nanomanipulation and nanomanufacture with atomic force microscopes. Instruction Mode: Lecture Grading Option: Letter

CSCI 550 Advanced Data Stores
Units: 4 Selected topics on highly available, elastic data stores. Topics include non-relational data models, simple interfaces and query languages, weak consistency and benchmarking techniques. *Prerequisite:* CSCI 485 or CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 551 Computer Networking
Units: 4 Protocol design for computer communication networks, network routing, transport protocols, internetworking. *Prerequisite:* CSCI 350 (CSCI 353 or EE 450) and (CSCI 350 or CSCI 402) *Recommended Preparation:* C-language programming Instruction Mode: Lecture, Quiz Grading Option: Letter

CSCI 552 Asynchronous VLSI Design
Units: 3 (Enroll in EE 554)

CSCI 553 Computational Solution of Optimization Problems
Units: 3 Terms Offered: Sp (Enroll in EE 553)

CSCI 554 Real Time Computer Systems
Units: 3 (Enroll in EE 554)

CSCI 555L Advanced Operating Systems
Units: 4 Advanced topics in operating system research: new OS structures, novel memory management, communication, file system, process management, reliability and security techniques. *Prerequisite:* CSCI 350 or CSCI 402 *Instruction Mode:* Lecture, Lab Required Grading Option: Letter

CSCI 556 Introduction to Cryptography
Units: 4 Modern secret codes. Public key cryptography systems of Rivest-Shamir-Adleman, Diffie-Hellman and others. The underlying number theory and computational complexity theory. *Prerequisite:* CSCI 570 or CSCI 581 Instruction Mode: Lecture Grading Option: Letter

CSCI 557 Computer Systems Architecture
Units: 4 Terms Offered: FaSp (Enroll in EE 557)

CSCI 558L Interconnecting and Distributed Systems Laboratory
Units: 3 Terms Offered: FaSp Students complete laboratory exercises in operating system and network management, distributed systems, TCP/IP, SNMP, NFS, DNS, etc. Term project required. *Prerequisite:* CSCI 402 and EE 450/CSCI 450; *Recommended Preparation:* CSCI 551 and CSCI 555

CSCI 559 Mathematical Pattern Recognition
Units: 3 Terms Offered: Sp (Enroll in EE 559)

CSCI 560 Information Visualization
Units: 4 Terms Offered: Fa (Enroll in INF 554)

CSCI 561 Foundations of Artificial Intelligence
Units: 4 Terms Offered: FaSpSm Foundations of symbolic intelligent systems, search, logic, knowledge representation, planning, learning. *Recommended Preparation:* good programming and algorithm analysis skills Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as EE 561

CSCI 563 Building Knowledge Graphs
Units: 4 Terms Offered: Fa (Enroll in INF 558)

CSCI 564 Brain Theory and Artificial Intelligence
Units: 3 Terms Offered: Fa Introduces neural modeling, distributed artificial intelligence and robotics approaches to vision, motor control and memory. *Prerequisite:* graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-535

CSCI 565 Compiler Design
Units: 4 Terms Offered: Sp Formal grammar; parsing methods and lexical analysis; code generation; local and global code optimization; and dynamic allocation. *Prerequisite:* CSCI 455x. Instruction Mode: Lecture Grading Option: Letter

CSCI 567 Machine Learning
Units: 4 Terms Offered: Fa Statistical methods for building intelligent and adaptive systems that improve performance from experiences; focus on theoretical understanding of these methods and their computational implications. *Recommended Preparation:* Undergraduate level course in linear algebra, multivariate calculus, basic probability and statistics; an undergraduate level course in Artificial Intelligence may be helpful but is not required. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ISE-568

CSCI 568 Requirements Engineering
Units: 4 Techniques for successful requirements analysis and requirements engineering (RE) of software-intensive systems. Systematic process of developing requirements through cooperative problem analysis, representation, and validation. *Prerequisite:* CSCI 577a Instruction Mode: Lecture Grading Option: Letter

CSCI 569 Social Media Analytics
Units: 4 Introduction to quantitative analysis of social data. Topics include social network analysis, text analysis, machine learning and statistical methods and they are used to study influence, information diffusion, sentiment analysis and prediction of individual and social behavior online. *Recommended Preparation:* statistics, AI and/or machine learning, knowledge of at least one programming language (Java, C++, Python) Instruction Mode: Lecture Grading Option: Letter

CSCI 570 Analysis of Algorithms
Units: 4 Terms Offered: FaSpSm Explores fundamental techniques such as recursion, Fourier transform ordering, dynamic programming for efficient algorithm construction. Examples include arithmetic, algebraic, graph, pattern matching, sorting, searching algorithms. Instruction Mode: Lecture Grading Option: Letter

CSCI 571 Web Technologies
Units: 4 Terms Offered: FaSpSm Advanced study of programming languages with application to the Web. Languages for client-side and server-side processing. Examples taken from: HTML, Java, JavaScript, Perl, XML and others. *Recommended Preparation:* knowledge of at least two programming languages. Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 572 Information Retrieval and Web Search Engines
Units: 4 Terms Offered: FaSpSm Examines key aspects of information retrieval as they apply to search engines; web crawling, indexing, querying and quality of results are studied. *Recommended Preparation:* Familiarity in programming in multiple languages, C, C++, and/or Java and experience with a database Instruction Mode: Lecture Grading Option: Letter

CSCI 573 Probabilistic Reasoning
Units: 3 Terms Offered: Fa Reasoning under uncertainty, statistical directed and undirected graphical models, temporal modeling, inference in graphical models, parameter learning, decisions under uncertainty. *Recommended Preparation:* An undergraduate level course in probability theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE-574

CSCI 574 Computer Vision
Units: 3 Terms Offered: Fa Description and recognition of objects, shape analysis, edge and region segmentation, texture, knowledge based systems, image understanding. *Prerequisite:* CSCI 455x. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-574

CSCI 575 Wireless and Mobile Networks Design and Library
Units: 3 (Enroll in EE 579)
COURSES OF INSTRUCTION

CSCI 576 Multimedia Systems Design
Units: 4 End-to-end multimedia systems - content creation, compression, distribution using modern standards, DRM solutions, Digital-Cinema pipeline, multimedia classification, virtual-augmented reality, natural-language multimedia queries, multimodal media analysis, stereoscopic-holographic technologies. Recommended Preparation: familiarity with C or C++
Instruction Mode: Lecture Grading Option: Letter

CSCI 577a Software Engineering
Units: 4 Terms Offered: FaSp Software life cycle processes; planning considerations for product definition, development, test, implementation, maintenance. Software requirements elicitation and architecture synthesis. Team project. Prerequisite: graduate standing. Instruction Mode: Lecture Grading Option: Letter

CSCI 577b Software Engineering
Units: 4 Terms Offered: FaSp Software development, test, implementation, and maintenance methods. CASE tools and software environments. Software product engineering, configuration management, quality engineering, documentation. Application via projects. Prerequisite: CSCI 577a. Instruction Mode: Lecture Grading Option: Letter

CSCI 578 Software Architectures
Units: 4 Study of concepts, principles and scope of software system architectures, including architectural styles, languages, connectors, middleware, dynamism, analysis, testing and domain-specific approaches.
Instruction Mode: Lecture Grading Option: Letter

CSCI 579a Computational Molecular Biology
Units: 3 Terms Offered: FaSp (Enroll in MATH 578a, MATH 578b)

CSCI 579b Computational Molecular Biology
Units: 3 Terms Offered: FaSp (Enroll in MATH 578a, MATH 578b)

CSCI 580 3-D Graphics and Rendering
Units: 4 Course outlines the process of creating images from 3D models. Includes transformations, shading, lighting, rasterization, texturing, and other topics.
Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 581 Logic and its Applications
Units: 3 Formal systems, first order logic, truth, completeness, compactness, Gödel incompleteness, recursive functions, undecidability. Selected applications, e.g., theorem proving, artificial intelligence, program verification, databases, computational complexity. Prerequisite: CSCI 430 and MATH 470.
Instruction Mode: Lecture Grading Option: Letter

CSCI 582 Geometric Modeling
Units: 3 Terms Offered: Sp Mathematical models and computer representations for threedimensional solids; underlying topics from set theory, geometry, and topology. Fundamental algorithms; applications to CAD/CAM and robotics. Recommended Preparation: Linear algebra and data structures. Instruction Mode: Lecture Grading Option: Letter

CSCI 583 Machine Learning Theory
Units: 4 Developing the core concepts and techniques, inherent abilities, and limitations of learning algorithms in well-defined learning models. Recommended Preparation: CSCI 270, CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 585 Database Systems
Units: 4 Terms Offered: FaSpSm Database system architecture; conceptual database models; semantic, object-oriented, logic-based, and relational databases; user and program interfaces; database system implementation; integrity, security, concurrency and recovery. Recommended Preparation: Knowledge of relational databases, SQL, relational algebra and physical database design is required
Registration Restriction: Open only to graduate students.
Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

CSCI 586 Database Systems Interoperability
Units: 4 Federated and multi-database systems, database networking, conceptual and schematic diversity, information sharing and exchange, knowledge discovery, performance issues. Prerequisite: CSCI 585
Instruction Mode: Lecture Grading Option: Letter

CSCI 587 Geospatial Information Management
Units: 4 Techniques to efficiently store, manipulate, index and query geospatial information in support of real-world geographical and decision-making applications. Prerequisite: CSCI 485 or CSCI 585 or SSCL 582 Recommended Preparation: Familiarity with conceptual data modeling tools such as Entity-Relationship (ER) data model, logical data models such as the relational and object-relational data model, SQL3 as a commercial query language, normal forms and logical data design. Familiarity with the physical design of a database using persistent data structures such as B+-tree and Hash indexes.
Instruction Mode: Lecture Grading Option: Letter

CSCI 589 Software Engineering for Embedded Systems
Units: 4 Terms Offered: FaSpSm Software engineering methods and techniques for embedded, resource constrained, and mobile environments. Applications to real-time operating systems and wireless networking systems. Class project.
Instruction Mode: Lecture Grading Option: Letter

CSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 591 Computer Science Research Colloquium
Units: 1 Max Units: 2 Exploration and critical assessment of research activities in computer science. Course will serve as a forum for current research presentations from academia and industry.
Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 593 Mathematical Foundations for Computer-Aided Design of VLSI Circuits
Units: 3 (Enroll in EE 581)

CSCI 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 594b Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 596 Scientific Computing and Visualization
Units: 4 Hands-on training on the basics of parallel computing and scientific visualization in the context of computer simulations in science and engineering. Recommended Preparation: CSCI 455x and MATH 458.
Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 598 Professional Writing and Communication for Computer Scientists
Units: 1 Instruction in discipline-specific workplace writing and communication skills for computer science graduate students.
Registration Restriction: Open only to graduate students in Computer Science.
Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Course content to be selected each semester from recent developments in computer science.
Instruction Mode: Lecture Grading Option: Letter

CSCI 610 Advanced Program Analysis and Verification
Units: 4 Advanced techniques for analyzing and verifying software systems; topics include program analysis, automated verification, and software testing. Recommended Preparation: CSCI 512, Java Programming Skills Instruction Mode: Lecture Grading Option: Letter

CSCI 620 Computer Animation and Simulation
Units: 4 Animation and Simulation techniques for computer games, virtual reality, and film visual effects. Research methods, SIGGRAPH papers. Deformable objects, fluids, sound, collision detection, haptics, rigid bodies, GPUs. Prerequisite: CSCI 420 or CSCI 520 or CSCI 580
Recommended Preparation: Familiarity with calculus, linear algebra, and numerical computation and C++ programming skills
Registration Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter
CSCI 621 Digital Geometry Processing
Units: 4 Digital geometry processing (subfield of computer graphics), that covers the full pipeline from 3D scanning, processing, to 3D printing. Recommended Preparation: Solid background in linear algebra, numerical optimization, and C/C++ programming. CSCI 420 Computer Graphics is recommended. Open only to Computer Science students. Registration Restriction: Open only to Computer Science students. Instruction Mode: Lecture Grading Option: Letter

CSCI 631 Privacy in the World of Big Data
Units: 4 Privacy challenges that arise in the world driven by data. An overview of algorithmic and technical approaches to addressing them. Recommended Preparation: thorough understanding of algorithms, proof-based mathematics, and basic probability Instruction Mode: Lecture Grading Option: Letter

CSCI 644 Natural Language Dialogue Systems
Units: 4 Computational models of natural language dialogue; conversational interfaces to artificial systems; dialogue system architectures and applications; Reinforcement learning of dialogue policies. Recommended Preparation: CSCI 544 or CSCI 561 or CSCI 662 or EE 619; Java, C++, or Python Instruction Mode: Lecture Grading Option: Letter

CSCI 646 Coordinated Mobile Robotics
Units: 4 State-of-the-art techniques for coordinating robot teams. Distributed approaches; task allocation; control and stability; network topology; coverage and monitoring; caging; bio-inspired approaches; persistence; probabilistic methods. Recommended Preparation: Solid background in linear algebra, programming and algorithm analysis skills. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 648 Advanced Information Integration
Units: 4 Focus on foundations and techniques for information integration. Topics include Semantic Web, linked data, data integration, entity linkage, source modeling, and information extraction. Recommended Preparation: CSCI 561; Recommended Preparation: CSCI 585 and programming experience. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 651 Advanced Computer Networking
Units: 4 Computer communication protocols and systems, including classic and contemporary literature. The emphasis is on conceptual issues in the design and implementation of computer internetworks. Recommended Preparation: EE 450 (CSCI 353 or CSCI 350) and (CSCI 350 or CSCI 402) Registration Restriction: Open to PhD students in Computer Science Instruction Mode: Lecture Grading Option: Letter

CSCI 652 Internet Measurement
Units: 4 The investigation of problems, techniques, results, and challenges that arise in measuring the Internet, including what measurements tell us about the Internet and how to improve Internet services. Recommended Preparation: CSCI 551 Instruction Mode: Lecture Grading Option: Letter

CSCI 653 High Performance Computing and Simulations
Units: 4 Terms Offered: FaSpSm Advanced high-performance computer simulation techniques; multiscale deterministic and stochastic simulation algorithms on parallel and distributed computing platforms; immersive and interactive visualization of simulation data. Recommended Preparation: CSCI 596 Instruction Mode: Lecture, Discussion Grading Option: Letter

CSCI 656 Networked Systems in Cloud Computing
Units: 4 Systems and network design and protocols in cloud computing and data centers networks. Recommended Preparation: CSCI 551 or CSCI 651 Instruction Mode: Lecture Grading Option: Letter

CSCI 657 Advanced Distributed Systems
Units: 4 The foundations and modern applications of distributed systems. Topics include: logical time, fault tolerance, group communication, consensus, consistency, transactions, and peer-to-peer. Recommended Preparation: Proficiency in a high-level language, ideally C++, and familiarity with Git. Registration Restriction: Open only to Computer Science doctoral students. Instruction Mode: Lecture Grading Option: Letter

CSCI 658 Diagnosis and Design of Reliable Digital Systems
Units: 3 (Enroll in EE 658)

CSCI 659 Introduction to Online Optimization
Units: 4 Foundation and advances of the theory of online learning/online convex optimization/sequential decision making. Recommended Preparation: Familiarity with probability, convex analysis, calculus, and analysis of algorithms Instruction Mode: Lecture Grading Option: Letter

CSCI 662 Advanced Natural Language Processing
Units: 4 Computational models of natural language. Formalisms for describing structures of human language, and algorithms for learning language structures from data. Recommended Preparation: proficiency in programming, algorithms and data structures, discrete math, probability theory, and calculus. Registration Restriction: Open only to doctoral students Duplicates Credit in former CSCI 562. Instruction Mode: Lecture Grading Option: Letter

CSCI 668 Advanced Topics in Computer Vision
Units: 4 Foundations of the design and implementation of search and planning techniques from artificial intelligence, including their theory and applications. Recommended Preparation: CSCI 561 Instruction Mode: Lecture Grading Option: Letter

CSCI 670 Advanced Topics in Computer Vision
Units: 4 Advanced visual perception, including image segmentation, shape analysis and object recognition, 2.5-D data representation, and machine learning. Recommended Preparation: CSCI 574. Instruction Mode: Lecture Grading Option: Letter

CSCI 671 Randomized Algorithms
Units: 4 Basic background in probability and linear algebra Instruction Mode: Lecture Grading Option: Letter

CSCI 672 Approximation Algorithms
Units: 4 Algorithmic techniques include combinatorial algorithms and rounding of linear and semi-definite programs. Applications include network design, graph cuts, covering problems, and approximation hardness. Recommended Preparation: CSCI 570 or CSCI 670 Instruction Mode: Lecture Grading Option: Letter

CSCI 673 Structure and Dynamics of Networked Information
Units: 4 Algorithms for analyzing network data and spreading information over networks. Focuses on broadly applicable mathematical tools and techniques, including spectral techniques, approximation algorithms and randomization. Recommended Preparation: CSCI 570 or CSCI 670 Instruction Mode: Lecture Grading Option: Letter

CSCI 674a Advanced Topics in Computer Vision
Units: 4 Selected topics from current research areas including image segmentation, shape analysis and object recognition, inference of 3-D shape, motion analysis, knowledge-based system, neural nets. Recommended Preparation: CSCI 574. Instruction Mode: Lecture Grading Option: Letter
as EE-674B

CSCI 675 Convex and Combinatorial Optimization
Units: 4 Topics include: Convex sets and functions; convex optimization problems; geometric and Lagrangian duality; simplex algorithm; ellipsoid algorithm; matroid theory; submodular optimization. Prerequisite: CSCI 570 or CSCI 670 Recommended Preparation: Mathematical maturity and a solid grounding in linear algebra Instruction Mode: Lecture Grading Option: Letter

CSCI 677 Advanced Computer Vision
Units: 4 Fundamental issues in computer vision: theory, algorithms and applications. Image formation, image segmentation, inference and measurement of 3-D, motion analysis, object and activity recognition. Recommended Preparation: 1. Mathematics: Knowledge of and ability to use calculus, analytical geometry, linear algebra and probability theory. 2. Programming: Ability to program in C or C++, facility with data structures such as trees and graphs. Students should also be familiar with basic algorithms such as sorting and searching, traversing trees and graphs and finding minimum cost paths. Instruction Mode: Lecture Grading Option: Letter

CSCI 685 Advanced Topics in Database Systems
Units: 4 Advanced techniques in database management. Topics include optimization, cache management, data mining and knowledge discovery, decision support, spatial indexes, parallel and distributed systems, extendible storage. Prerequisite: CSCI 485 or CSCI 585 Instruction Mode: Lecture Grading Option: Letter

CSCI 686 Advanced Big Data Analytics
Units: 4 Advanced statistical inference and data mining techniques for data analytics, including: topic modeling, structure learning, time-series analysis, learning with less supervision, and massive-scale data analytics. Prerequisite: CSCI 567 Instruction Mode: Lecture Grading Option: Letter

CSCI 697 Seminar in Computer Science Research
Units: 1 Max Units: 2.0 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSCI 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 794e Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CSCI 794f Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Comparative Studies in Literature and Culture

CSLC 501 Introduction to Comparative Media Studies
Units: 4 Ways of thinking about the differences and relations among different cultural media: literature, film, video, manga/comics, "new media," and so forth. Instruction Mode: Lecture Grading Option: Letter

CSLC 502 Introduction to Literary Theory
Units: 4 Major developments in 20th century literary criticism, with special attention to theoretical work of the past three decades. Duplicates Credit in former COLT 502. Instruction Mode: Lecture Grading Option: Letter

CSLC 503 Introduction to Comparative Studies in Culture
Units: 4 Examines culture as an instrument of discursive practice that shapes social formations in Asia, Europe, North and Latin America. Instruction Mode: Lecture Grading Option: Letter

CSLC 510 Introduction to Translation Studies
Units: 4 Terms Offered: FaSp (Enroll in COLT 510)

CSLC 511 Translating Race
Units: 4 Max Units: 8 Terms Offered: FaSp (Enroll in COLT 511)

CSLC 512 Literary and Cinematic Translingualism and Translation
Units: 4 Max Units: 8 Terms Offered: FaSp (Enroll in COLT 512)

CSLC 519 Translation in Theory and Practice
Units: 4 Terms Offered: FaSp (Enroll in COLT 519)

CSLC 525 Studies in Literary and Cultural History
Units: 4 Max Units: max 8 (Enroll in COLT 525)

CSLC 545 Studies in Literature and the Other Arts
Units: 4 Max Units: max 8 (Enroll in COLT 545)

CSLC 555 Studies in Literatures of the Americas
Units: 4 Max Units: max 8 (Enroll in COLT 555)

CSLC 565 Studies in Literatures of Asia
Units: 4 Max Units: max 8 (Enroll in COLT 565)

CSLC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Duplicates Credit in former COLT 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 600 Professional Development I: Publication
Units: 2 Terms Offered: Sp Preparation of book and article manuscripts for publication and placement in presses and journals; revising dissertations for publication; preparing papers for conferences. Students produce an article manuscript ready for submission to a journal. Registration Restriction: Open only to doctoral students. Duplicates Credit in former COLT 603. Instruction Mode: Lecture Grading Option: Credit/No Credit

CSLC 601 Seminar in Comparative Media Studies
Units: 4 Max Units: 12.0 Intensive comparative study of visual and literary media. Instruction Mode: Lecture Grading Option: Letter

CSLC 602 Seminar in Literary Theory
Units: 4 Max Units: max 12 (Enroll in COLT 602)

CSLC 603 Seminar in Comparative Studies in Culture
Units: 4 Max Units: 12.0 Intensive study of intellectual and cultural history, with a focus on key literary and theoretical texts. Instruction Mode: Lecture Grading Option: Letter

CSLC 620 Seminar in Literature, Culture, and Thought
Units: 4 Max Units: max 12 (Enroll in COLT 620)

CSLC 640 Seminar in Film and Visual Studies
Units: 4 Max Units: 12.0 Intensive study of various types of discourse (film, photography, literature) and their intersection with wider social, political, and theoretical issues. Instruction Mode: Lecture Grading Option: Letter

CSLC 700 Professional Development II: Writing the Prospectus
Units: 2 Terms Offered: Fa Methodology of writing a dissertation prospectus; a structured
workshop environment for completing a prospectus. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CSLC 790 Research**
Units: 1 Max Units: 12.0 Research leading to the doctorate. Maximum units that may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CSLC 794a Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSLC 794b Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSLC 794c Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSLC 794d Doctoral Dissertation**
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CSLC 794e Doctoral Dissertation**
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Animation**
Note: Instructor availability for a particular course or section cannot be guaranteed.

**CTAN 101L Introduction to the Art of Animation**
Units: 2 Terms Offered: Fa Theory and practice of animation across organic and digital media with an emphasis on self-exploration. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 102L Introduction to the Art of Movement**
Units: 2 Terms Offered: Sp Theory and practice of animation with a focus on movement, gesture, timing and performance. Prerequisite: CTAN 101. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 200g The Rise of Digital Hollywood**
Units: 4 Terms Offered: Sp An overview of the evolution of computer graphics in modern media. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

**CTAN 201L Intermediate Animation Production**
Units: 3 Terms Offered: Fa Tools, skills and procedures used in animation production with a focus on professional execution of independent and collaborative productions. Prerequisite: CTAN 102. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 202L Introduction to 3-D Character Animation**
Units: 3 Terms Offered: Sp 3-D animation performance utilizing preset rigs and virtual characters. Emphasis on timing, gesture, and performance. Prerequisite: CTAN 201L. Registration Restriction: Open only to sophomores in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 301L 3-D Character Performance Animation**
Units: 3 Terms Offered: Fa Advanced 3-D character animation with an emphasis on performance, lip-syncing, timing and execution. Prerequisite: CTAN 202L. Registration Restriction: Open only to juniors in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 302L Expanded Concepts in 2-D/3-D Animation**
Units: 3 Terms Offered: Sp Integration of advanced concepts to create and produce a short 2-D/3-D animated work with original sound and content. Prerequisite: CTAN 301L. Registration Restriction: Open only to juniors in Animation and Digital Arts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 305 Professionalism of Animation**
Units: 2 Terms Offered: FaSp Understanding the business of the animation industry. Developing presentation skills for interviewing and pitching, preparing personal marketing tools, researching employment opportunities, and practicing networking techniques. Instruction Mode: Lecture Grading Option: Letter

**CTAN 330 Animation Fundamentals**
Units: 2 Terms Offered: Sp An introduction to the fundamentals of animation, covering such topics as timing, anticipation, reaction, overlapping action, and metamorphosis. Instruction Mode: Lecture Grading Option: Letter

**CTAN 336 Ideation and Pre-Production**
Units: 2 Terms Offered: Sp Emphasis on lateral thinking working across boundaries to find underlying principles in terms of ideation: the act of becoming an agent of ideas. Prerequisite: CTAN 301L. Registration Restriction: Open only to juniors in the School of Cinematic Arts Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 401a Senior Project**
Units: 4 Terms Offered: Fa Understanding the requirements and relationships between theory and practice regarding the complexity of an animated film in idea and execution. Prerequisite: CTAN 336 Registration Restriction: Open only to seniors in the School of Cinematic Arts Instruction Mode: Lecture Grading Option: Letter

**CTAN 401b Senior Project**
Units: 4 Terms Offered: FaSp Completion and exhibition of the short animated film to demonstrate understanding and further examination of the possibilities of animation time based graphic media. Prerequisite: CTAN 401a Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 410 Audio Design for Animation and Immersive Media**
Units: 2 Terms Offered: FaSp Experimental and traditional audio design practices for animation, culminating in an immersive audio project utilizing acoustic design, surround sound, and professional recording and editing tools. Instruction Mode: Lecture Grading Option: Letter

**CTAN 420 Concept Design for Animation**
Units: 2 Terms Offered: FaSp Creating characters and environments for animation, live action, and video games. Instruction Mode: Lecture Grading Option: Letter

**CTAN 423L Principles of Digital Animation: Visualizing Science**
Units: 2 Terms Offered: FaSp Principles of 2-D and 3-D digital animation applied to scientific themes and research topics. Duplicates Credit in former CTAN 523. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 432 The World of Visual Effects**
Units: 2 Terms Offered: FaSp Using basic storyboarding techniques to develop a sense of character, plot, and continuity. Technical aspects of developing ideas into films. Instruction Mode: Lecture Grading Option: Letter

**CTAN 436 Writing for Animation**
Units: 2 Terms Offered: Fa Workshop exploring concept and structure of long and short form animated films through practical writing exercises. Instruction Mode: Lecture Grading Option: Letter

**CTAN 443L Character Development for 3-D Animation and Games**
Units: 2 Terms Offered: FaSpSm Development, modeling, and animation with an emphasis on character setup features: rigging, skeletons, deformers, and scripting. Applying principles of traditional animation to 3-D character rig/puppet. Prerequisite: CTAN 452. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**CTAN 444 Introduction to Film Graphics — Animation**
Units: 4 Terms Offered: FaSp An introduction to methods for creating analog animation through experimentation with imagery, concepts and materials. Emphasis on basic timing principles and hands-on techniques. Instruction Mode: Lecture Grading Option: Letter

**CTAN 450a Animation Theory and Techniques**
Units: 2 Terms Offered: FaSp Methods for creating animation blending traditional techniques with contemporary technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

**CTAN 450b Animation Theory and Techniques**
Units: 2 Terms Offered: FaSp Instruction in methods for planning and executing a short animated film. Topics covered include storyboarding, visual development and production planning. Instruction Mode:
Lecture Grading Option: Letter
CTAN 450c Animation Theory and Techniques
Units: 2 Terms Offered: FaSp Practical completion of a short animated film. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 451 History of Animation
Units: 2 Terms Offered: Fa In-depth survey of historical developments, styles, techniques, theory and criticism of animation as an art form. Instruction Mode: Lecture Grading Option: Letter

CTAN 452s Introduction to 3-D Computer Animation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Lecture and laboratory in computer animation: geometric modeling, motion specification, lighting, texture mapping, rendering, compositing, production techniques, systems for computer-synthesized animation. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 455L Organic Modeling for Animation
Units: 2 Terms Offered: FaSp The art of digital sculpting for animated characters, with visual effects integration. Recommended Preparation: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 460 Character Design Workshop
Units: 2 Terms Offered: Sp The basics of character design for animation: anatomy, poses, facial expressions, silhouettes, and anthropomorphism. Development of a portfolio. Instruction Mode: Lecture Grading Option: Letter

CTAN 462 Visual Effects
Units: 2 Terms Offered: FaSp Survey of contemporary concepts and approaches to production in the current state of film and video effects work. Digital and traditional methodologies will be covered, with a concentration on digital exercises illustrating modern techniques. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 463L Creative Workflow in Visual Effects
Units: 2 Terms Offered: FaSp Spherical panoramic photography, 3-D digital environment techniques and a range of visual effects work while providing the stage for the student's storytelling. Prerequisite: CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 464L Digital Lighting and Rendering
Units: 2 Terms Offered: FaSp Concepts, tools and techniques used to create cinematic lighting and rendering in computer-generated imagery (CGI). Prerequisite: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 465L Digital Effects Animation
Units: 2 Terms Offered: FaSp All aspects of digital effects animation, including particles, dynamics, and fluids. Creating water, fire, explosions, and destruction in film. Prerequisite: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 470 Documentary Animation Production
Units: 2 Terms Offered: FaSp Examination of the history, techniques, and methods of documentary animation production. Collaboration on a short film project. Instruction Mode: Lecture Grading Option: Letter

CTAN 485L Pipeline and Character Modeling for Animation
Units: 2 Terms Offered: FaSp Modeling and pipeline integration for 3-D animation props, sets and characters. Prior knowledge in Maya preferred. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 495 Visual Music
Units: 2 Terms Offered: Fa Experimental animation providing the opportunity to produce individual or group projects. Focus is non-conventional techniques for image creation and collaboration between composer and visual artist. Instruction Mode: Lecture Grading Option: Letter

CTAN 496 Directed Studies
Units: 2 Max Units: 4 Terms Offered: FaSp Individual research under faculty guidance. Registration Restriction: Open only to Animation and Digital Arts majors. Instruction Mode: Lecture Grading Option: Letter

CTAN 497L Generative Animation
Units: 2 Terms Offered: FaSp Introduction to software packages and practices exploring current animation techniques that leverage simulation systems. Artificial intelligence as a tool for animation. Prerequisite: CTAN 452. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Sm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTAN 501 Experiments in 2-D Digital Animation
Units: 2 Terms Offered: FaSp 2-D Digital animation exploring the art form as a fertile terrain for experimentation, exhibition and activism. Recommended Preparation: 2-D digital experience. Instruction Mode: Lecture Grading Option: Letter

CTAN 502L Experiments in Immersive Design
Units: 2 Terms Offered: FaSp An in-depth exploration of aesthetics and techniques involved in the conceptualization, design and creation of immersive media and stereoscopic imaging. Duplicates Credit in former CTAN 502a. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 503 Storyboarding for Animation
Units: 2 Terms Offered: Sp Focus on film grammar, perspective, and layout, staging and acting as it relates to storyboarding for animation. Instruction Mode: Lecture Grading Option: Letter

CTAN 504L Creative Production in Virtual Reality
Units: 2 Terms Offered: FaSp A creative studio course in producing both a linear cinematic virtual reality short film and associated real-time immersive experience. Prerequisite: CTAN 502L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 505 The Business of Animation
Units: 2 Terms Offered: Sp Professional knowledge and application of fundamental business skills associated with working in the animation industry, academia or the arts. Instruction Mode: Lecture Grading Option: Letter

CTAN 508LL Live Action Integration with Visual Effects
Units: 2 Terms Offered: Sp Survey of the digital techniques required to successfully marry live action shooting with CGI elements and green screen post-production. Prerequisite: CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 522 Animation Department Seminar
Units: 1 Max Units: 6.0 Terms Offered: FaSp Weekly seminar required of all MFA Animation students. This course includes guest speakers, faculty and student presentations followed by lively and critical discussion. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTAN 524 Contemporary Topics in Animation and Digital Arts
Units: 2 Terms Offered: FaSp Topics exploring the evolution of the brain, development of art, technology, science and culture. How this correlates to the evolution of animation-digital media. Instruction Mode: Lecture Grading Option: Letter

CTAN 525 Gesture Movement for Animation
Units: 2 Terms Offered: FaSp The concepts of animation performance, body and facial gesture, and the emotional and psychological resonance through cinematic arts. Instruction Mode: Lecture Grading Option: Letter

CTAN 536 Storytelling for Animation
Units: 2 Terms Offered: Sp Storytelling workshop for animators; application of dramatic techniques to visual concepts to derive three-dimensional stories which can serve as bases for finished films. Registration Restriction: Open only to cinematic arts students. Duplicates Credit in CTAN 436. Instruction Mode: Lecture Grading Option: Letter

CTAN 544 Introduction to the Art of Animation
Units: 3 Terms Offered: Fa Fundamentals of film, video and computer animation production. Orientation to assist students on determining future emphases and specialties. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 547 Animation Production I
Units: 3 Terms Offered: Sp Practicum
in film, video and computer animation emphasizing the production process through individual projects. Prerequisite: CTAN 544. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 550 Stop Motion Puppet and Set Design
Units: 2 Terms Offered: Fa Puppet and set design for stop motion animation while providing guidance on armature rigs that allow the character to be animated effectively. Instruction Mode: Lecture Grading Option: Letter

CTAN 551 Stop Motion Performance
Units: 2 Terms Offered: Sp Incorporating classic stop motion techniques for puppet performance and animation. Emphasis on timing, performance, movement, animation and gesture. Prerequisite: CTAN 550. Instruction Mode: Lecture Grading Option: Letter

CTAN 555 Animation Design and Production
Units: 4 Terms Offered: Fa Exploring creative strategies to designing form and content. Developing style and investigating multiple techniques, including live action and sound. Production of a 30–60 second work. Prerequisite: CTAN 547. Instruction Mode: Lecture Grading Option: Letter

CTAN 563 Advanced Computer Animation
Units: 2 Terms Offered: Irregular Investigation of advanced computer techniques related to character representation and various types of algorithmically defined animation produced on either film or videotape. Prerequisite: CTAN 443L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 564L Motion Capture Fundamentals
Units: 2 Terms Offered: Fa Fundamental principles of motion capture technology explored while working through a structured series of assignments based around performance, gesture and motion. Prerequisite: CTAN 452 or CTAN 462. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 565L Motion Capture Performance
Units: 2 Terms Offered: Sp The art of directing, acting, and creating story for motion capture will be explored while learning the technology behind bringing virtual actors to life. Prerequisite: CTAN 564. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTAN 577a Fundamentals of Animation
Units: 2 Terms Offered: Fa The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture Grading Option: Letter

CTAN 577b Fundamentals of Animation
Units: 2 Terms Offered: Sp The exploration of the techniques of the art of character animation with an emphasis on discipline, performance and personality observation, specializing in classical Hollywood animation. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture, Lab Grading Option: Letter

CTAN 579 Expanded Animation
Units: 2 Terms Offered: Sp Incorporation of traditional image making methods as well as digital and new media technologies to convey non-linear narratives over internal and external landscapes. Instruction Mode: Lecture Grading Option: Letter

CTAN 582 Basic Animation Production Technologies
Units: 2 Terms Offered: Fa Introduction for animation majors to the basic techniques and processes of film, video and computer systems, including cinematography, editing and sound. Registration Restriction: Open only to M.F.A. animation and digital arts students. Duplicates Credit in former CTAN 482. Instruction Mode: Lecture Grading Option: Letter

CTAN 591 Animation Pre-Thesis Seminar
Units: 2 Terms Offered: Fa A pre-production seminar, where students complete the research, development, script and storyboards for their thesis project to be executed in CTAN 594a, CTAN 594b, CTAN 594c. Instruction Mode: Lecture Grading Option: Letter

CTAN 592 Master Class
Units: 2, 3, 4, 5, 6 Max Units: 12.0 Terms Offered: Fa A special projects course in which students produce a major work through weekly meetings with a master artist/animator. Topics must be approved prior to enrollment. Recommended Preparation: previous advanced animation production experience. Instruction Mode: Lecture Grading Option: Letter

CTAN 593 Directed Studies in Animation
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Individual exploration in the areas of contemporary technology, animation techniques or experimental film through internships, residencies or directed studies. Registration Restriction: Open only to Animation and Digital Arts master students. Instruction Mode: Lecture Grading Option: Letter

CTAN 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

CTAN 594z Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTCS 190g Introduction to Cinema
Units: 4 Terms Offered: FaSp Gateway to majors and minors in cinematic arts. Technique, aesthetics, criticism, and social implications of cinema. Lectures accompanied by screenings of appropriate films. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 191 Introduction to Television and Video
Units: 4 Terms Offered: FaSpSm Exploration of the economic, technological, aesthetic, and ideological characteristics of the television medium; study of historical development of television and video including analysis of key works; introduction to TV/video theory and criticism. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 192gm Race, Class, and Gender in American Film
Units: 4 Terms Offered: FaSpSm Analyzes issues of race, class and gender in contemporary American culture as represented in the cinema. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

CTCS 200g History of the International Cinema I
Units: 4 Terms Offered: Fa The development of international cinema from its beginnings to World War II. Lectures, screenings, and discussions. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter

CTCS 201 History of the International Cinema II
Units: 4 Terms Offered: Sp The development of international cinema from World War II to the present. Lectures, screenings, and discussions. Instruction Mode: Lecture Grading Option: Letter

CTCS 303 Japanese Anime
Units: 2 Explores the visual, dramatic and social conventions of Japanese animation in film and television. Examines anime fan communities, manga and their impact. Instruction Mode: Lecture Grading Option: Letter

CTCS 306 Cinema and Media Theory and Practice
Units: 2 Max Units: max 10 Terms Offered: FaSpSm Theories and case studies of contemporary issues in film, television and digital media research. Students will be required to design their own undergraduate research projects. Instruction Mode: Lecture Grading Option: Letter

CTCS 367 Global Media
Units: 4 Terms Offered: FaSpSm Studies in the global configurations of television industries and cultures, including new technologies and the textual and sociological analysis of global
media events and programming. Instruction Mode: Lecture Grading Option: Letter

CTCS 373 Literature and Film
Units: 4 (Enroll in COLT 373)

CTCS 379 Nationalism and Postcolonialism in Southeast Asian Cinema
Units: 4 (Enroll in COLT 379)

CTCS 392 History of the American Film, 1925–1950
Units: 4 Terms Offered: Sp Screenings of American film classics and their relationship to society. Lectures and discussions. Instruction Mode: Lecture Grading Option: Letter

CTCS 393 Postwar Hollywood, 1946–1962
Units: 4 Terms Offered: Fa Cinematic and extra-cinematic determinants of Post-Classical and Modernist Hollywood studio and independent genres, styles, and the star-phenomenon and their relationship to American history and culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 394 History of the American Film, 1977–present
Units: 4 Terms Offered: Sp Cinematic and extra-cinematic determinants of Postmodernist Hollywood studio and independent genres, styles, and the star-phenomenon and their relationship to American history and culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 400 Non-Fiction Film and Television
Units: 4 Terms Offered: Fa An international survey of documentary, informational, and independent experimental film, video and television. Instruction Mode: Lecture Grading Option: Letter

CTCS 402 Practicum in Film/Television Criticism
Units: 4 Max Units: 8.0 Terms Offered: FaSp Exercise in writing film and television criticism using new and classic films and television programs. Instruction Mode: Lecture Grading Option: Letter

CTCS 403 Studies in National and Regional Media
Units: 4 Terms Offered: FaSp Detailed investigation of traditions, achievements, and trends of film and/or electronic media in a particular country or region. Instruction Mode: Lecture Grading Option: Letter

CTCS 404 Television Criticism and Theory
Units: 4 Terms Offered: Sp The evaluation of television programs and their reception from various theoretical perspectives which may include cultural studies, race and ethnic studies, psychoanalysis, gender and queer studies, and semiotics. Instruction Mode: Lecture Grading Option: Letter

CTCS 406 History of American Television
Units: 4 Terms Offered: Fa History of television as an entertainment, information, and art medium. Emphasis on programming and institutional history, including issues of regulation, censorship, aesthetics and activism. Instruction Mode: Lecture Grading Option: Letter

CTCS 407 African American Cinema
Units: 4 Terms Offered: Irregular Intensive survey of African American cinema; topics include history, criticism, politics, and cinema's relationship to other artifacts of African American culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 408 Contemporary Political Film and Digital Media
Units: 4 Terms Offered: Irregular Examination of a variety of politically engaged films and digital media recently produced in the U.S. and abroad, with particular emphasis on aesthetic strategies. Instruction Mode: Lecture Grading Option: Letter

CTCS 409 Censorship in Cinema
Units: 4 Terms Offered: Fa An inquiry into the practice and patterns of censorship in cinema. Instruction Mode: Lecture Grading Option: Letter

CTCS 411 Film, Television and Cultural Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp Detailed examination of film/television from the perspectives and insights of Cultural Studies; focus on the production and reception of cultural texts, practices, and communities. Instruction Mode: Lecture Grading Option: Letter

CTCS 412 Gender, Sexuality and Media
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Examine how gender and sexuality are figured in cinema and television with an emphasis on the development of feminist media theory. Instruction Mode: Lecture Grading Option: Letter

CTCS 414 Latina/o Screen Cultures
Units: 4 Terms Offered: FaSpSm Examination of Latino/a moving image production including film, video, and digital media in the context of the politics of race, class, gender, sexuality, and international relations. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-412

CTCS 417 African American Television
Units: 4 Terms Offered: Irregular Intensive survey of the history of African American images on American television. Topics include history, criticism, politics, and television's relationship to African American culture. Instruction Mode: Lecture Grading Option: Letter

CTCS 421 Critical Theory and Analysis
Units: 4 Terms Offered: FaSp Sm Examines techniques of close reading and contextual analysis of film. Analysis of historical, stylistic, cultural, and economic aspects of film. Instruction Mode: Lecture Grading Option: Letter

CTCS 422 Cultural and Aesthetic Analysis of Film
Units: 4 Terms Offered: FaSp Sm Examines the cultural and aesthetic dimensions of film. Topics include the theoretical and historical dimensions of film, and the relation of film to other media. Instruction Mode: Lecture Grading Option: Letter

CTCS 424 Film and/or Television Genres
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm Rigorous examination of film and/or television genres: history, aesthetics, cultural context, social significance, and critical methodologies. Instruction Mode: Lecture Grading Option: Letter

CTCS 466 Theatrical Film Symposium
Units: 4 Max Units: 8.0 Terms Offered: FaSp Lectures and readings on creative problems in the motion picture industry; current films; interviews with visiting producers, directors, writers, performers. Instruction Mode: Lecture Grading Option: Letter

CTCS 473 Film and Media Theory
Units: 4 Terms Offered: FaSp Sm Influential ideas and theoretical approaches that have shaped the making and study of film. Students are encouraged to take this course in their junior year. Prerequisite: CTCS 190 Instruction Mode: Lecture Grading Option: Letter

CTCS 478 Culture, Technology and Communications
Units: 4 Terms Offered: FaSp Cultural study of communications technology and its relationship to society. Evaluation of the social and cultural impact of technologies from the telegram to the Internet. Instruction Mode: Lecture Grading Option: Letter

CTCS 482 Transmedia Entertainment
Units: 4 Terms Offered: FaSp Sm An examination of transmedia, or cross-platform, entertainment: commercial and grassroots texts, theoretical framework, historical context, and commercial projects. Developing transmedia strategies for existing media properties. Instruction Mode: Lecture Grading Option: Letter

CTCS 494 Advanced Cinema and Media Studies Seminar
Units: 4 Terms Offered: FaSp Sm Advanced work in the historical, cultural and aesthetic analysis of film, television, and new media technologies. Registration Restriction: Not open to freshmen Instruction Mode: Lecture Grading Option: Letter

CTCS 495 Honors Seminar
Units: 4 Terms Offered: FaSpSm Advanced work in the historical, cultural and aesthetic analysis of film, television, and new media technologies. Corequisite: CTCS 473. Registration Restriction: Open only to students in CTCS Honors program. Instruction Mode: Lecture Grading Option: Letter

CTCS 497 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Sm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTCS 500 Seminar in Film Theory
Units: 4 Terms Offered: Fa Introduction to classical and contemporary film theory; exploration of their relationship to filmic
experimentation. Instruction Mode: Lecture Grading Option: Letter

**CTCS 501 World Cinema Before 1945**
Units: 2 Terms Offered: FaSp Historical survey of global cinema from its beginnings until 1945. Instruction Mode: Lecture Grading Option: Letter

**CTCS 502 World Cinema After 1945**
Units: 2 Terms Offered: Fa Historical survey of film from a global perspective from 1945 until the present. Instruction Mode: Lecture Grading Option: Letter

**CTCS 503 Survey History of the United States Sound Film**
Units: 2 Terms Offered: Sp Survey history of the United States film from 1927 to the present, with emphasis upon film as art form, economic institution, technology, and cultural product. Instruction Mode: Lecture Grading Option: Letter

**CTCS 504 Survey of Television History**
Units: 2 Terms Offered: Sp An exploration of the historical, cultural, business, creative, and technological aspects of television. Instruction Mode: Lecture Grading Option: Letter

**CTCS 505 Survey of Interactive Media**
Units: 2 Terms Offered: Fa A survey course exploring the historical, cultural, business, creative and technological aspects of the new interactive media. Instruction Mode: Lecture Grading Option: Letter

**CTCS 506 Critical Studies Colloquium/Professional Seminar**
Units: 2 Terms Offered: FaSpSm Provides orientation to the profession, opportunities for academic and professional growth and development. Recommended for entering students. Instruction Mode: Lecture Grading Option: Letter

**CTCS 510 Case Studies in National Media and/or Regional Media**
Units: 4 Max Units: 12.0 Terms Offered: FaSp Seminar on media's impact in defining nation and/or region in specific cultural contexts. Also addresses issues of exile, diaspora, transnationalism and globalization. Instruction Mode: Lecture Grading Option: Letter

**CTCS 511 Seminar: Non-Fiction Film/Video**
Units: 4 Terms Offered: Sp Aesthetic, rhetorical, and ideological issues in nonfiction film and video. Instruction Mode: Lecture Grading Option: Letter

**CTCS 517 Introductory Concepts in Cultural Studies**
Units: 4 Terms Offered: Fa An introduction to the concepts, key theories, and/or leading figures in cultural studies, particularly as they relate to issues of popular culture and visual media. Instruction Mode: Lecture Grading Option: Letter

**CTCS 518 Seminar: Avant-Garde Film/Video**
Units: 4 Terms Offered: Irregular Aesthetic, historical and ideological issues in avant-garde film and video. Instruction Mode: Lecture Grading Option: Letter

**CTCS 520 Film History Through the Ages and Special Collections**
Units: 4 Terms Offered: Fa A historical exploration of film and television through the artifacts, images and writings used in their creation. Instruction Mode: Lecture Grading Option: Letter

**CTCS 521 Media Archiving: History and Practice**
Units: 4 Terms Offered: Sp An introduction to the field of moving image archive and the complexities of preserving and managing moving image collections. Instruction Mode: Lecture Grading Option: Letter

**CTCS 564 Seminar in Film and Television Genres**
Units: 4 Max Units: 8 Terms Offered: FaSp Advanced study of a selected genre of film and/or television — its relationship to history, society, and culture, as well as to genre theory. Instruction Mode: Lecture Grading Option: Letter

**CTCS 565 Seminar in Film/Television and a Related Art**
Units: 4 Max Units: 8 Terms Offered: Irregular Historical, critical, aesthetic, and theoretical issues raised by a comparison of cinema and television and other allied art forms. Instruction Mode: Lecture Grading Option: Letter

**CTCS 569 Seminar in Film and Television Authority**
Units: 4 Max Units: Sp Seminar in the style of an auteur, studio, filmmaking, or televisual mode in terms of thematic and formal properties and their influences upon the art of film and/or television. Instruction Mode: Lecture Grading Option: Letter

**CTCS 585 Seminar in Film/Television Critical Theory and Production**
Units: 4 Terms Offered: Irregular A conjoint theory/prodiction seminar, in which the study of media texts will be combined with media production informed by the theoretical study. Specific themes and area of focus may vary. Instruction Mode: Lecture Grading Option: Letter

**CTCS 587 Seminar in Television Theory**
Units: 4 Max Units: 8.0 Terms Offered: Sp Detailed investigation and discussion of various aspects of television, including genre, textual analysis, production and distribution systems and audience studies. Instruction Mode: Lecture Grading Option: Letter

**CTCS 599 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

**CTCS 673 Topics in Theory**
Units: 4 Max Units: 8.0 Terms Offered: FaSp Contemporary theoretical frameworks and their relationship to film and television studies. Topics differ from semester to semester. Instruction Mode: Lecture Grading Option: Letter

**CTCS 677 Cultural Theory**
Units: 4 Terms Offered: FaSp Seminar in theoretical approaches to cultural studies; focus on interdisciplinary research of media and audiences, covering a range of methods and theoretical frameworks; concentration varies. Instruction Mode: Lecture Grading Option: Letter

**CTCS 678 Seminar in Film Theory and Medium Specificity**
Units: 4 Max Units: 8.0 Terms Offered: Irregular Explores the way film has been theorized in relationship to traditional media that preceded it and electronic media that followed. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL-678

**CTCS 679 Seminar in Genre and/or Narrative Theory**
Units: 4 Terms Offered: Irregular Seminar in theoretical issues concerning genre and/or narrative as they pertain to media, literature or cultural forms. Areas of focus vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL-679

**CTCS 688 Moving Image Histories: Methods and Approaches**
Units: 4 Terms Offered: FaSpSm Research seminar in methods and approaches to moving image history including film, television, and digital media. Focus on archival research and issues in writing history. Instruction Mode: Lecture Grading Option: Letter

**CTCS 690 Special Problems**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Field production; organization and administration of local film-producing units; experimental aspects of film communication; advanced work in film history and criticism; teaching cinema. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CTCS 791 Historical and Critical Research Methods**
Units: 2 Max Units: 4.0 Terms Offered: FaSp Methods and procedures for historical and critical research in the visual media. Required tutorial with Ph.D. student's dissertation committee chair, designed to assist initial work on dissertation. Instruction Mode: Lecture, Lab Grading Option: Letter

**CTCS 794a Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**CTCS 794b Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
CTCS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

CTCS 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Interactive Media
Note: Instructor availability for a particular course or section cannot be guaranteed.

CTIN 101 Fundamentals of Procedural Media
Units: 2 Terms Offered: FaSp Introduction to the procedural nature of interactive media and games, though the coding language Processing. Students will develop proficiency in reading and creating computational media. Duplicates Credit in former CTIN 400 Instruction Mode: Lecture Grading Option: Letter

CTIN 110 Statistical Analysis for Games: Storytelling with Numbers
Units: 4 Terms Offered: Sp An introductory course on using statistical analysis for user research and assessment of interactive projects. Instruction Mode: Lecture Grading Option: Letter

CTIN 190 Introduction to Interactive Entertainment
Units: 4 Terms Offered: FaSp Critical vocabulary and historical perspectives on interactive entertainment; students articulate their own ideas, while wrestling with the larger conceptual issues at play within the field. Duplicates Credit in former CTIN 309 Instruction Mode: Lecture Grading Option: Letter

CTIN 191 Survey of Themed Entertainment
Units: 4 Terms Offered: FaSp Introduction to the field of themed entertainment and education design, covering its history, and, especially, current practice. Instruction Mode: Lecture Grading Option: Letter

CTIN 200L The New Games Industry
Units: 2 Terms Offered: Sm An overview of what it means to be a professional game developer in the modern and rapidly changing economic environment. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 209L Visual Design for Games
Units: 2 Terms Offered: FaSp Introduction to the visual design of games. Duplicates Credit in former CTIN 309 Instruction Mode: Lecture Grading Option: Letter

CTIN 401L Interface Design for Games
Units: 2 Terms Offered: Fa Introduction to the aesthetics, terminology and common trends of interface design for games. Topics include 2-D and 3-D spaces and user/camera perspectives. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 403L Advanced Visual Design for Games
Units: 2 Terms Offered: Sp The scope of visual game design, including the role of characters, architecture, indoor and outdoor spaces, and environmental effects and sounds. Prerequisite: CTIN 401L; Recommended Preparation: CTAN 443L Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 404L Usability Testing for Games
Units: 2 Terms Offered: Sp Concepts and methods of usability assessment. The emphasis will be on understanding the issues surrounding game interfaces, and utilizing usability assessment methods. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 405L Design and Technology for Mobile Experiences
Units: 2 Terms Offered: Sp Critical and pragmatic insights into designing mobile experiences and technology. Design groups will develop a mobile project using principles from readings and class discussions. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 406L Sound Design for Games
Units: 2 Terms Offered: Sp Introduction to the techniques, terminology, and implementation of sounds in games, including establishing a sense of place and concepts of realistic sound. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 426 Video Games, Identity, and Diversity
Units: 2 Terms Offered: FaSp Thinking about video games in relation to many personal and cultural factors, including race, disability, class, gender, sexuality, and body type. Instruction Mode: Lecture Grading Option: Letter

CTIN 444 Audio Expression
Units: 2 Terms Offered: Sp Foundational aesthetic principles and creative technologies for game audio. Processing, mixing, and controlling sound for games for expressive effect. Recommended Preparation: CTIN 406L Instruction Mode: Lecture Grading Option: Letter

CTIN 452L Themed Entertainment Design
Units: 4 Terms Offered: FaSp The fundamentals of design, technology, operations and process for the creation of themed entertainment experiences and story-centric place-making. Prerequisite: CTIN 488 or CTIN 541; Recommended Preparation: CTIN 489 or CTIN 532 Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 456 Game Design for Business
Units: 2 Terms Offered: Sp Designed to provide the business professional with effective communication skills in working with the designers of games and game related venues. Instruction Mode: Lecture Grading Option: Letter

CTIN 485 Business and Management of Games
Units: 2 Terms Offered: FaSp Overview of current business models in games and interactive media, methods for pitching and getting products funded; copyright and intellectual property. Instruction Mode: Lecture Grading Option: Letter

CTIN 489L Game Industry Workshop
Units: 4 Terms Offered: Fa Exploration of industry-related game play research questions. Student teams will develop concepts and materials to solve a research problem posed by an industry partner. Prerequisite: CTIN 488; Recommended Preparation: CTIN 489. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 462 Critical Theory and Analysis of Games
Units: 4 Terms Offered: Sp Formal, aesthetic, and cultural aspects of digital games, critical discourse around gameplay, and the relationship of digital games to other media. Recommended Preparation: CTIN 488. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CTCS-462

CTIN 463 Anatomy of a Game
Units: 4 Terms Offered: Fa Examine two game products from concept to delivery; introduce students to each of the professional disciplines involved in making digital games. Recommended Preparation: CTIN 488. Instruction Mode: Lecture Grading Option: Letter

CTIN 464 Game Studies Seminar
Units: 2 Max Units: 4.0 Terms Offered: Fa Sp Rigorous examination of interactive entertainment: genres, history, aesthetics, cultural context, and social significance. Topics vary by semester. Instruction Mode: Lecture Grading Option: Letter

CTIN 478 Level Design Workshop
Units: 2 Terms Offered: FaSp A workshop on focused design tasks, creating many levels on paper and in game engines. Prerequisite: CTIN 488 or CTIN 541 Recommended Preparation: CTIN 483 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 479 Documentary and Activist Games
Units: 2 Terms Offered: Sp How interaction design and games document reality. The unique abilities of interactive media in the realms of non-fiction, documentary, and activism. Recommended Preparation: CTIN 190, CTIN 488 or CTIN 541. Instruction Mode: Lecture Grading Option: Letter

CTIN 482 Designing Social Games
Units: 2 Max Units: 04 Terms Offered: FaSp Leading industry techniques and networking fundamentals; designing an original social game. Duplicates Credit in former CNTV 482 Instruction Mode: Lecture Grading Option: Letter

CTIN 483 Introduction to Game Development
Units: 4 Terms Offered: FaSp Introduction to technical and creative aspects of
game development, including the art of creating the digital game prototype and development of games; coding experience required. Prerequisite: CTIN 101 or ITP.

CTIN 484L Intermediate Game Development
Units: 2 Terms Offered: FaSpSm
Advanced topics in game programming and implementation such as using game engines, creating digital prototypes, player controls, and level design. Prerequisite: CTIN 483, CTIN 488 or CTIN 541; Concurrent Enrollment: concurrent enrollment: CTIN 489. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 485L Advanced Game Development
Units: 2 Terms Offered: Sp
Advanced concepts in 3-D game development: story and character development, emergent gameplay, comprehensive game mechanics, and artificial intelligence. Prerequisite: CTIN 483, CTIN 484L, CTIN 488, CTIN 489. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 486 Alternative Control Workshop
Units: 4 Terms Offered: FaSpSm
Development of play mechanics, feedback systems, and game design for immersive environments. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 488 Game Design Workshop
Units: 4 Terms Offered: FaSpSm
An introduction to making games. Students will explore the principles of game design through the entirely analog creation of card, board, and tabletop games. Recommended Preparation: CTIN 190 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 489 Intermediate Game Design Workshop
Units: 2 Terms Offered: FaSpSm
A follow-up to the introductory game design class, this course will introduce more advanced concepts, creating digital prototypes and game mechanics, including ideation, digital prototyping, and level design. Prerequisite: CTIN 483, CTIN 488 or CTIN 541; Concurrent Enrollment: concurrent enrollment: CTIN 484. Instruction Mode: Lecture Grading Option: Letter

CTIN 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

CTIN 491L Advanced Game Project I
Units: 4 Max Units: 08 Terms Offered: FaSpSm
Students work in teams on pre-production and production of a functional digital game suitable for showcases, festivals, and further development. Prerequisite: CTIN 404L or CTIN 406L or CTIN 484L or CTIN 452 or ART 442 or FASC 436 Duplicates Credit in former CTIN 491a Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 492L Experimental Game Topics
Units: 4 Max Units: 8.0 Terms Offered: FaSpSm
Development of a game around a custom-made physical interface; various technologies and techniques involved in a software/hardware integration; peripheral design. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 493L Advanced Game Project II
Units: 2 Max Units: 4.0 Terms Offered: Sp
Students work in teams to polish and finalize a functional digital game suitable for distribution via the web and submission into independent games festivals. Duplicates Credit in former CTIN 491b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 497 Interactive Media Startup
Units: 1 Max Units: 3.0 Terms Offered: FaSp
FaSp Pitching, production planning, forming a company and seeking funding for your creative media idea. Duplicates Credit in former CTIN 479ab. Instruction Mode: Lecture Grading Option: Letter

CTIN 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema, television, and/or interactive media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTIN 501 Interactive Cinema
Units: 2 Terms Offered: FaSp
Provide students with a vocabulary of conceptual and artistic means to create computer based interactive works. Instruction Mode: Lecture Grading Option: Letter

CTIN 502a Experiments in Stereoscopic Imaging
Units: 2 (Enroll in CTAN 502ab) Instruction Mode: Lecture Grading Option: Letter

CTIN 502b Experiments in Stereoscopic Imaging
Units: 2 (Enroll in CTAN 502ab) Instruction Mode: Lecture Grading Option: Letter

CTIN 503 Interactive Entertainment, Science, and Healthcare
Units: 2 Terms Offered: FaSpSm Overview of foundational concepts required for design, development, and evaluation of interactive entertainment and transmedia-based interventions at the intersection of neuroscience, public health, and medicine. Recommended Preparation: Proficiency in conducting literature reviews; social media use; using interactive media and playing games. Registration Restriction: Open only to seniors and graduate students. Instruction Mode: Lecture Grading Option: Letter

CTIN 506 Procedural Expression
Units: 2 Terms Offered: Fa Developing procedural literacy in the analysis and creation of computational media; an introduction to how we create meaningful experiences using rules and interaction. Duplicates Credit in former CTIN 400. Instruction Mode: Lecture Grading Option: Letter

CTIN 510 Research Methods for Innovation, Engagement and Assessment
Units: 2 Terms Offered: Sp Planning, designing, and analyzing a research study for a digital media project. Production of a written report and presentation. Recommended Preparation: CTIN 506, CTIN 541, and CTCS 505. Instruction Mode: Lecture Grading Option: Letter

CTIN 511 Interactive Media Seminar
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminars on latest trends in interactive media content, technology, tools, business and culture. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTIN 520 Experience and Design of Public Interactives
Units: 2 Terms Offered: Sp
Introduction to the design of public interactives, the meaning of built space and environmental experiences, and the relationship between interactivity and social communication. Instruction Mode: Lecture Grading Option: Letter

CTIN 532L Interactive Design and Production I
Units: 4 Terms Offered: Fa
The development of interactive experiences with an emphasis on prototyping and development. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTIN 534L Experiments in Interactivity I
Units: 4 Terms Offered: FaSpSm
A company and seeking funding for your creative media idea. Duplicates Credit in former CTIN 479ab. Instruction Mode: Lecture Grading Option: Letter

CTIN 541 Design for Interactive Media
Units: 2 Terms Offered: FaSpSm
Practical exploration and practicum on the fundamental technical and aesthetic principles in the design of interactive media. Students will develop design and prototyping skills. Instruction Mode: Lecture Grading Option: Letter

CTIN 542 Interactive Design and Production II
Units: 4 Terms Offered: FaSpSm Interactive design, prototyping and testing of projects developed in CTIN 548. Prerequisite: CTIN 532. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 544 Experiments in Interactivity II
Units: 2 Terms Offered: Sp
Experimental studio course in application of technology to interactive experience. Prerequisite: CTIN 534. Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 548 Preparing the Interactive Project
Units: 2 Terms Offered: Sp
An advanced production workshop in which students design and prepare for the production of their advanced project. Prerequisite: CTIN 532. Instruction Mode: Lecture Grading Option: Letter

CTIN 558 Business of Interactive Media
Units: 2 Terms Offered: FaSpSm
An in-depth investigation of publication, distribution, business and legal aspects of the interactive entertainment business. Instruction Mode: Lecture Grading Option: Letter

CTIN 583 Game Development for Designers
Units: 2 Terms Offered: Sp
The fundamentals
of 3-D real time game engines, scripting for interactivity, and building games with digital tools. Recommended Preparation: CTIN 506 Instruction Mode: Lecture, Lab Grading Option: Letter

CTIN 584a Individual Interactive Workshop
Units: 4 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 584b Individual Interactive Workshop
Units: 2 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 584c Individual Interactive Workshop
Units: 2 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTIN 584z Individual Interactive Workshop
Units: 0 Individual experimental projects involving the creative use of interactive media and film production skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTPR 240x Practicum in Production
Units: 2 or 4 Terms Offered: Sm Basic production techniques: introduction to the cinematic elements, production techniques, and equipment; film and/or videotape production. Instruction Mode: Lecture Grading Option: Letter

CTPR 241 Fundamentals of Cinema Technique
Units: 2 Terms Offered: FaSp Introduction to cinema production techniques and equipment including producing, directing, camera, lighting, and editing. Instruction Mode: Lecture Grading Option: Letter

CTPR 242 Fundamentals of Cinematic Sound
Units: 2 Terms Offered: FaSp Introduction to sound design, recording, editing, mixing and finishing. Lectures, demonstrations and exercises. Instruction Mode: Lecture Grading Option: Letter

CTPR 280 Structure of the Moving Image
Units: 2 Terms Offered: FaSp Basic theory and application of the concepts of time, space, composition, movement, light and color in motion picture production. Instruction Mode: Lecture Grading Option: Letter

CTPR 285 Lateral Thinking for Filmmaking Practice
Units: 2 Terms Offered: FaSp Introduces contemporary concepts of production, emphasizing the variety of contemporary media and significant related concepts. Projects created using laptops, phones and networks. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 288 Originating and Developing Ideas for Film
Units: 2 Terms Offered: FaSp Exercises in observation, imaginative association, visualization, etc., that deepen the creative process, leading to ideas, stories, characters and images for narrative, documentary and experimental films. Instruction Mode: Lecture Grading Option: Letter

CTPR 290 Cinematic Communication
Units: 4, 6 Terms Offered: FaSpSm Introduction to the interrelationships of visuals, sound, and editing in cinematic communication. Workshops in directing and producing. Individual and group projects. Recommended Preparation: CTPR 285. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 294 Directing in Documentary, Fiction and New Media
Units: 4 Terms Offered: FaSp Basic concepts of directing in new media, documentary and fictional narrative. Includes work with directors, documentary concepts, and creation of short new media projects. Concurrent Enrollment: CTPR 295L Instruction Mode: Lecture Grading Option: Letter

CTPR 295L Cinematic Arts Laboratory
Units: 4 Terms Offered: FaSp The aesthetics and tools of the major disciplines of cinematic arts: producing, cinematography, sound, and editing. Concurrent Enrollment: CTPR 294. Instruction Mode: Lecture, Lab Required Grading Option: Letter

CTPR 301 Creating the Non-Fiction Film
Units: 4, 6 Terms Offered: FaSpSm Principles of visual and aural communication; idea development and realization using image, movement, pace, the spoken word and other sounds; small crew projects. Prerequisite: CTPR 294, CTPR 295L. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 327 Motion Picture Cinematography
Units: 3 Terms Offered: FaSpSm Use of high definition motion picture equipment to explore the fundamentals of shot design, movement and lighting. In class group projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 335 Motion Picture Editing
Units: 3 Terms Offered: FaSp Theory, techniques, and practices in picture editing; use of standard editing equipment; individual projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 340 Creating the Motion Picture Sound Track
Units: 2 Terms Offered: FaSpSm Techniques and aesthetics for recording production sound, editing dialogue, sound effects, music, Foley and preparing for the mix. For film, television, and other media. Instruction Mode: Lecture Grading Option: Letter

CTPR 371 Directing for Television
Units: 4 Terms Offered: FaSp Preparation of director's preproduction blockout; study of direction for live, tape, and film production, for both dramatic and informational television. Instruction Mode: Lecture Grading Option: Letter

CTPR 375 Functions of a Director
Units: 4 Terms Offered: Sp Theoretical considerations of the director in relationship to the multiple facets of film production. Instruction Mode: Lecture Grading Option: Letter

CTPR 382 Advanced Multi-Camera Television Comedy Pilot
and contemporary modes. Instruction Mode: Lecture

CTPR 385 Colloquium: Motion Picture Production Techniques
Units: 4 Terms Offered: FaSp Basic procedures and techniques applicable to the production of all types of films; demonstration by production of a short film from conception to completion. Instruction Mode: Lecture Grading Option: Letter

CTPR 386 Art and Industry of the Theatrical Film
Units: 4 Terms Offered: FaSp Detailed analysis of one theatrical film from conception through critical reception to development of understanding of motion pictures as art, craft, and industry. Instruction Mode: Lecture Grading Option: Letter

CTPR 405 Filmic Expression
Units: 4 Terms Offered: Irregular Creative aspects of film production; analysis of audio and visual forces that make the film an expressive means of communication; individual projects. Prerequisite: CTPR 310 Instruction Mode: Lecture Grading Option: Letter

CTPR 409 Practicum in Television Production
Units: 2, 4 Max Units: 8.0 Terms Offered: FaSpTelevision production laboratory course covers operating cameras, creating graphics, technical operations, controlling audio and floor-managing live productions. Students plan and produce actual Trojan Vision programs. Instruction Mode: Lecture Grading Option: Letter

CTPR 410 The Movie Business: From Story Concept to Exhibition
Units: 2 Terms Offered: FaSp Examination of the industry from story ideas through script development, production and exhibition; evaluation of roles played by writers, agents, studio executives, marketing and publicity. Instruction Mode: Lecture Grading Option: Letter

CTPR 421 Practicum in Editing
Units: 2 Terms Offered: FaSpSm Workshop in how editing can shape storytelling, using content from a variety of media and in various styles. Modern non-linear equipment and techniques. Prerequisite: CTPR 310 or CTPR 335. Instruction Mode: Lecture Grading Option: Letter

CTPR 422 Makeup for Motion Pictures
Units: 2 Terms Offered: FaSp Lecture-laboratory in makeup relating it to mood of the story and emulsion of the camera stock. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 423 Introduction to Special Effects in Cinema
Units: 2 Terms Offered: FaSp Introductory workshop in the aesthetics and practices of special effects, embracing both the classical and contemporary modes. Instruction Mode: Lecture Grading Option: Letter

CTPR 424 Practicum in Cinematography
Units: 2 Terms Offered: FaSp Camera and lighting workshop in color cinematography, beginning with digital still photography and moving into 16mm and advanced digital cameras. Instruction Mode: Lecture Grading Option: Letter

CTPR 425 Production Planning
Units: 2 Terms Offered: FaSp Theory, discussion, and practical application of production planning during preproduction and production of a film. Instruction Mode: Lecture Grading Option: Letter

CTPR 426 The Production Experience
Units: 2 Terms Offered: FaSp To provide students with basic working knowledge of both the skills of the motion picture set and production operations through classroom lectures and hands-on experience. Instruction Mode: Lecture Grading Option: Letter

CTPR 427 Introduction to Color Grading
Units: 2 Terms Offered: FaSpSm Exploration of the various aspects of color grading and how it can enhance storytelling. Prerequisite: CTPR 310 or CTPR 456 Instruction Mode: Lecture Grading Option: Letter

CTPR 428 Summer Production Workshop
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sm To investigate disciplines of Cinema-TV with emphasis on one of the following areas: writing, directing, editing, camera, sound, editing, producing, interactive, computer animation or digital. Instruction Mode: Lecture Grading Option: Letter

CTPR 431 Developing the Documentary Production
Units: 2 Terms Offered: FaSp The tools and skills necessary to turn an idea into a documentary story, using sample reels, pitches, and writing to develop a professional proposal. Instruction Mode: Lecture Grading Option: Letter

CTPR 432 Practicum in Producing
Units: 2 Terms Offered: FaSp A comprehensive overview of the role of the producer. How projects are conceived, developed, packaged, financed and marketed. Prerequisite: CTPR 310 or CTPR 425. Instruction Mode: Lecture Grading Option: Letter

CTPR 440 Practicum in Sound
Units: 2 Max Units: 4.0 Terms Offered: FaSpAcoustic and technical skills of production and postproduction sound necessary to create a motion picture soundtrack. Prerequisite: CTPR 310 or CTPR 340. Instruction Mode: Lecture Grading Option: Letter

CTPR 441 Sound Design
Units: 2 Terms Offered: FaSp The historical, theoretical, and practical aspects of sound design for genre films. Exploration of the techniques and processes for creating sounds that do not exist. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

CTPR 447 Producing Visual Effects
Units: 2 Terms Offered: FaSp The complex creative, technical, financial, logistical and political challenges of incorporating visual effects into film projects from initial pre-production through final delivery. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 448 World Building Design Studio
Units: 2 Terms Offered: FaSp Integrating visual and scenario design in the construction of worlds as containers for narrative in documentary, drama, fiction, fantasy, and immersive media. Instruction Mode: Lecture Grading Option: Letter

CTPR 450 The Production and Post-Production Assistant
Units: 2 Terms Offered: FaSp Detailed view of the process of making media. Introducing fundamental thinking typical of each craft. Weekend crew experience and responsibilities. Prerequisite: CTPR 310. Registration Restriction: Open only to Cinematic Arts Film and Television Production majors. Instruction Mode: Lecture Grading Option: Letter

CTPR 451 Acting for Film and Television
Units: 4 Terms Offered: FaSp Intensive examination of skills and techniques necessary for successful performances in film and television. Practical application through in-class exercises and assigned projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 457 Creating Poetic Cinema
Units: 2 Terms Offered: FaSp Sm An investigation of poetic cinema from four different perspectives: found poetry; applied poetry; poetic as image; and poetry in narrative fiction. Production of short films. Instruction Mode: Lecture Grading Option: Letter

CTPR 458 Organizing Creativity: Entertainment Industry Decision Making
Units: 2 Terms Offered: FaSp Analysis of the unique structures in the entertainment industry for organizing and managing creativity. Students research and chart pathways to leadership. Registration Restriction: Open only to juniors, seniors, and graduate students. Instruction Mode: Lecture Grading Option: Letter

CTPR 459 Introduction to Media and Social Change
Units: 4 The history and theory of media and social change, including various disciplines and approaches: social marketing, communication campaign design, entertainment-education and specific media. Instruction Mode: Lecture Grading Option:
COURSES OF INSTRUCTION

CTPR 460 Film Business Procedures and Distribution
Units: 2 or 4 Max Units: 8.0 Terms Offered: FaSpSm Financing, budgeting, management as applied to films; problems of distribution, including merchandising, cataloging, evaluation, and film library management. Instruction Mode: Lecture Grading Option: Letter

CTPR 461 Managing Television Stations and Internet Media
Units: 2 Terms Offered: FaSpSm Managing electronic media, including radio and television stations, broadcast and cable networks, and the Internet. Instruction Mode: Lecture Grading Option: Letter

CTPR 462 Masters of Directorial Style
Units: 2 Max Units: 4 Terms Offered: FaSp The study of exceptional directors from different eras with contrasting stylistic approaches, and how these techniques can creatively inform the student's own work. Instruction Mode: Lecture Grading Option: Letter

CTPR 464 Directing the Television Sketch Comedy Show
Units: 2 Max Units: 4 Terms Offered: FaSp Concepts and skills in directing sketch comedy shows, using the techniques of live television. Hands-on experience on live weekly shows. Recommended Preparation: CTPR 371 or CTPR 476 or CTPR 484 or CTPR 523 or CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTPR 465 Practicum in Production Design
Units: 2 Terms Offered: FaSp Practical instruction in script breakdown, location surveys, traditional and computer-aided working drawings, model making, set decoration, construction and scenic departments. Prerequisite: CTPR 310 or CTPR 456 Instruction Mode: Lecture Grading Option: Letter

CTPR 466 The Art of the Pitch
Units: 2 Terms Offered: FaSpSm Presenting ideas for feature and television projects to buyers: shaping ideas for pitching, assessing and targeting the marketplace, in-class pitching of projects. Prerequisite: CTPR 310. Instruction Mode: Lecture Grading Option: Letter

CTPR 469 Creating Webisodes
Units: 2 Max Units: 4 Terms Offered: FaSp Production of a fully realized pilot episode, series bible and sizzle reel for a web series. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 470 Practicum in On-screen Direction of Actors
Units: 4 Terms Offered: FaSp Concentration on the basic skills in working with actors from a director's point of view. Instruction Mode: Lecture Grading Option: Letter

CTPR 473 Spotting Music for Cinema
Units: 2 Terms Offered: FaSp A real world approach to spotting music for film: why film music exists and the many ways it is used in storytelling. For filmmakers as well as composers. Instruction Mode: Lecture Grading Option: Letter

CTPR 474 Documentary Production
Units: 4 Terms Offered: FaSpSm Pairs produce, direct, shoot, and edit a short documentary on a subject of their choice. Finished projects will be suitable for broadcast/festivals. Instruction Mode: Lecture Grading Option: Letter

CTPR 476 Directing The Comedic Scene
Units: 2 Terms Offered: FaSp Sm Directing comedy: casting, rehearsing, directing actors, scene analysis, staging, shooting, and editing, leading to the filming of a two-person comic scene. Instruction Mode: Lecture Grading Option: Letter

CTPR 477 Special Problems in Directing
Units: 2 or 4 Terms Offered: FaSp Detailed investigation and analysis of problems in directing. Individual projects. Prerequisite: CTPR 476 or CTPR 478 or CTPR 532. Instruction Mode: Lecture Grading Option: Letter

CTPR 478 Practicum in Directing
Units: 2 Terms Offered: FaSp Concepts of directing for motion pictures, emphasizing the working relationship of actors and directors. Scenes will be staged in class and filmed for class presentation. Prerequisite: CTPR 310. Instruction Mode: Lecture Grading Option: Letter

CTPR 479 Single Camera Television Dramatic Pilot
Units: 2 Terms Offered: Fa Collaborative writing, preproduction and shooting of a pilot act for an original episodic television drama, shot on stage sets built for the show. Instruction Mode: Lecture Grading Option: Letter

CTPR 480 Advanced Production Workshop
Units: 4 Terms Offered: FaSpSm Directors, producers, cinematographers, editors and sound designers collaborate to produce, shoot, edit and deliver fictional, documentary or experimental projects. Prerequisite: CTPR 450 Recommended Preparation: CTPR 478 required to direct Registration Restriction: Open only to Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 484 Advanced Multi-Camera Television Workshop
Units: 4 Max Units: 08 Terms Offered: FaSp Exercises and practical application for writing and producing a multi-camera television project. Special attention to the development of the sitcom. Recommended Preparation: CTPR 371 required for undergraduate students who wish to direct a sitcom and CTPR 523 for graduate students who wish to direct. Instruction Mode: Lecture Grading Option: Letter

CTPR 486 Single Camera Television Dramatic Series
Units: 4 Max Units: 08 Terms Offered: FaSp Sm Collaborative production and postproduction of an original episodic drama, shot on original sets on stage and on location. Prerequisite: CTPR 450 or CTPR 504 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 487 Recording for Film Scores
Units: 2 Terms Offered: FaSp Exploration of the role of the recording studio in professional film and video productions. Emphasis on technical and hardware considerations. Instruction Mode: Lecture Grading Option: Letter

CTPR 496 The Film Industry: Career Challenges and Choices for Women
Units: 2 Terms Offered: FaSp This class discusses women’s roles in the entertainment industry and career opportunities available for women in the business, corporate and creative sectors. Instruction Mode: Lecture Grading Option: Letter

CTPR 497 Music Video Production
Units: 2 Terms Offered: FaSpSm Writing the concept, budgeting, shooting, editing and directing a music video. Also covered: getting the job, dealing with the band, working with the record company. Prerequisite: CTPR 310 or CTPR 508 Instruction Mode: Lecture Grading Option: Letter

CTPR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTPR 504 Fundamentals of Production
Units: 4 Terms Offered: FaSpSm Each student writes/directs a group exercise; includes: collaboration, script breakdown, story beats, casting, directing, camera operation, expressive cinematography, scene structure, AVID, editing and sound design. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTPR 506 Visual Expression
Units: 2 Terms Offered: FaSp Exploring the relationship between story structure and visual structure, discussion of aesthetics and technical controls, in-class examples and screenings, photographic assignments. Prerequisite: CTAN 547 or CTIN 534L or CTPR 504 or CTPR 507 Instruction Mode: Lecture Grading Option: Letter

CTPR 507 Production I
Units: 4 Terms Offered: FaSpSm The effective communication of ideas through the language of cinema; one directing exercise; two short HD projects; introductions to producing, directing, editing, cinematography, and sound. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 508 Production II
Units: 6 Terms Offered: FaSpSm Practicum in group production, emphasizing the collaborative process and the expressive use of sound and image. Prerequisite: CTPR 507 and CTPR 510 and CTWR 505. Instruction Mode: Lecture, Lab Grading Option: Letter

CTPR 510 Concepts of Cinematic Production
Units: 2 Terms Offered: FaSpSm Overview of the process of making media. Introduces fundamental thinking typical of each craft. Presents realities of careers and ethical issues
sequences. Duplicates Credit in former techniques, practices and theories of editorial units. 2 terms offered: FaSp principles, Connecticut Production Research 536 Editing for Scriptwriters Lecture, discussion grading option: Letter

CTPR 522 Reality Television Survey Units: 2 terms offered: FaSpSm A comprehensive overview of the world of reality television; each student will develop and pitch an original reality-based program. Instruction mode: lecture grading option: Letter

CTPR 523 Introduction to Multiple-Camera Production Units: 2 terms offered: FaSp how to direct comedy or dramatic scenes, using multiple camera techniques. Students also serve as crew members, learning lighting, mixing, studio controls, and stage management. Prerequisite: CTPR 508. Instruction mode: Lecture grading option: Letter

CTPR 531 Planning the Documentary Production Units: 2 terms offered: FaSpSm A preproduction workshop for the research and planning of a documentary project to be executed in CTPR 547 or an advanced production workshop class. Prerequisite: CTPR 508. Instruction mode: Lecture, discussion grading option: Letter

CTPR 532 Intermediate Directing Units: 2 terms offered: FaSp practical experience in staging dramatic narrative scenes, emphasizing directing actors, rehearsal techniques and camera blocking. Prerequisite: CTPR 508. Instruction mode: Lecture grading option: Letter

CTPR 533 Directing Techniques Units: 2 terms offered: FaSp Practicum in more complex directing issues concentrating both on performance and exploration of shaping scenes visually through blocking of action and placement of camera. Prerequisite: CTPR 532. Instruction mode: Lecture grading option: Letter

CTPR 534 Intermediate Production Design Units: 2 terms offered: Irregular Exercises concentrating on script analysis, blocking the scene, ground plans, elevations, visual research and concepts, departmental collaboration, and presentation of work. Prerequisite: CTPR 508 Instruction mode: Lecture, discussion grading option: Letter

CTPR 535 Intermediate Editing Units: 2 terms offered: FaSp Editing of film sequences to analyze the interrelationships of the various film elements, both visual and aural. Prerequisite: CTPR 508 or CTAN 547. Instruction mode: Lecture grading option: Letter

CTPR 536 Editing for Scriptwriters Units: 2 terms offered: FaSp Principles, techniques, practices and theories of editorial construction of film and TV scenes and sequences. Duplicates credit in former CTPR 536. Instruction mode: Lecture grading option: Letter

CTPR 537 Intermediate Cinematography Units: 2 terms offered: FaSp close study through practical in class exercises of the technical and aesthetic principles of cinematography. Introduction to 16mm film and advanced digital cameras. Prerequisite: CTPR 508 or CTAN 547. Instruction mode: Lecture grading option: Letter

CTPR 538 Intermediate Producing Units: 2 terms offered: FaSp Definition, examination and practical experience in the role of the line producer as it relates to preproduction, production and post production. Prerequisite: CTPR 508. Instruction mode: Lecture grading option: Letter

CTPR 540 Intermediate Sound Units: 2 terms offered: FaSp practical and aesthetic considerations relating to recording, editing and sound design. Prerequisite: CTPR 507 or CTAN 547. Instruction mode: Lecture grading option: Letter

CTPR 543 Editing the Advanced Project Units: 2 terms offered: Irregular Utilitarian seminar focused on editing advanced projects. Corequisite: CTPR 481a, CTPR 581a or CTPR 587a. Instruction mode: Lecture grading option: Letter

CTPR 546l. Production III, Fiction Units: 6 max units: 12.0 terms offered: FaSp an intensive workshop experience in which students, crewing in their area of specialization, complete the shooting and postproduction of projects up to thirty minutes in length. Qualifying courses: for directors, CTPR 532, and for cinematographers, CTPR 537; Prerequisite: CTPR 508. Instruction mode: Lab required, lecture grading option: Letter

CTPR 547l. Production III, Documentary Units: 6 terms offered: FaSp intensive workshop; students shoot and finish documentary projects up to about 25 minutes. Qualifying courses: for directors, CTPR 431 or CTPR 531; for cinematographers, CTPR 424 or CTPR 537. Prerequisite: CTPR 450 or CTPR 508 Instruction mode: Lecture, lab required grading option: Letter

CTPR 551 Directing in a Virtual World Units: 2 terms offered: FaSp Telling cinematic stories using visual effects and virtual backgrounds, environments, and characters. Hands-on exercises emphasizing directing. Prerequisite: CTAN 462; Recommended preparation: CTAN 555 or CTPR 532 or CTPR 537. Registration restriction: Open only to Cinematic Arts students. Instruction mode: Lecture grading option: Letter

CTPR 552 Advanced Directing Units: 2 terms offered: FaSpAn advanced production class in directing. Encounters with experienced directors; and individual student production of a short. Prerequisite: CTPR 532 Recommended Preparation. CTPR 533 Instruction mode: Lecture, discussion grading option: Letter

CTPR 553 Developing the Advanced Project Units: 1 terms offered: FaSp Script workshop for advanced projects. Covers key screenwriting elements, including protagonist and objective, conflict, obstacles, premise and opening, main tension, emotional throughline, etc. Prerequisite: CTPR 508. Instruction mode: Lecture grading option: Letter

CTPR 554 Advanced Sound Units: 2 terms offered: FaSpSm study of the technical and aesthetic elements of sound design at the professional level. Intended for those contemplating a career in the field of audio. Prerequisite: CTPR 540 or one of the following in equivalent crew position: CTPR 546l or CTPR 547l. Instruction mode: Lecture, lab grading option: Letter

CTPR 555 Advanced Production Design Units: 2 terms offered: FaSpSm Advanced editorial theory and practice intended for those specializing in film and electronic editing. Prerequisite: CTPR 535 or one of the following in equivalent crew position: CTPR 546l or CTPR 547l. Instruction mode: Lecture grading option: Letter

CTPR 557 Advanced Cinematography Units: 2 terms offered: FaSpSm Advanced camera and lighting techniques for those considering a professional career in cinematography. Prerequisite: CTPR 424 or CTPR 537 Instruction mode: Lecture grading option: Letter

CTPR 558 Advanced Producing Units: 2 terms offered: FaSpSm Defines and examines the role of the Executive/Feature Producer through the preproduction, production and post production phases. Prerequisite: CTPR 538 or one of the following in equivalent crew position: CTPR 486, CTPR 546, CTPR 547. Instruction mode: Lecture grading option: Letter

CTPR 561 Publicity for Cinema and Television Units: 4 terms offered: Sp Analysis and preparation of advertising and publicity campaigns for entertainment films and television. Instruction mode: Lecture grading option: Letter

CTPR 562 Seminar in Motion Picture Business Units: 2 or 4 max units: 8.0 terms offered: FaSp problems of studio operation, production, distribution, exhibition, or legal procedures relating to the motion picture. Instruction mode: Lecture grading option: Letter

CTPR 563 The Business of Representation Units: 4 terms offered: FaSp Various roles and functions an agent, manager, attorney or publicist play in representing talent, producers and writers. Taught by professionals who are at the forefront of the entertainment industry. Instruction mode: Lecture grading option: Letter

CTPR 581a or CTPR 587a. Instruction mode: Seminar focused on editing advanced projects. Prerequisite: CTPR 481a, CTPR 581a or CTPR 587a. Instruction mode: Lecture grading option: Letter

CTPR 546l. Production III, Fiction Units: 6 max units: 12.0 terms offered: FaSp an intensive workshop experience in which students, crewing in their area of specialization, complete the shooting and postproduction of projects up to thirty minutes in length. Qualifying courses: for directors, CTPR 532, and for cinematographers, CTPR 537; Prerequisite: CTPR 508. Instruction mode: Lab required, lecture grading option: Letter

CTPR 547l. Production III, Documentary Units: 6 terms offered: FaSp intensive workshop; students shoot and finish documentary projects up to about 25 minutes. Qualifying courses: for directors, CTPR 431 or CTPR 531; for cinematographers, CTPR 424 or CTPR 537. Prerequisite: CTPR 450 or CTPR 508 Instruction mode: Lecture, lab required grading option: Letter

CTPR 551 Directing in a Virtual World Units: 2 terms offered: FaSp Telling cinematic stories using visual effects and virtual backgrounds, environments, and characters. Hands-on exercises emphasizing directing. Prerequisite: CTAN 462; Recommended preparation: CTAN 555 or CTPR 532 or CTPR 537. Registration restriction: Open only to Cinematic Arts students. Instruction mode: Lecture grading option: Letter

CTPR 552 Advanced Directing Units: 2 terms offered: FaSp An advanced production class in directing. Encounters with experienced directors; and individual student production of a short. Prerequisite: CTPR 532 Recommended Preparation. CTPR 533 Instruction mode: Lecture, discussion grading option: Letter

CTPR 553 Developing the Advanced Project Units: 1 terms offered: FaSp Script workshop for advanced projects. Covers key screenwriting elements, including protagonist and objective, conflict, obstacles, premise and opening, main tension, emotional throughline, etc. Prerequisite: CTPR 508. Instruction mode: Lecture grading option: Letter

CTPR 554 Advanced Sound Units: 2 terms offered: FaSpSm study of the technical and aesthetic elements of sound design at the professional level. Intended for those contemplating a career in the field of audio. Prerequisite: CTPR 540 or one of the following in equivalent crew position: CTPR 546l or CTPR 547l. Instruction mode: Lecture, lab grading option: Letter

CTPR 555 Advanced Production Design Units: 2 terms offered: FaSpSm Advanced editorial theory and practice intended for those specializing in film and electronic editing. Prerequisite: CTPR 535 or one of the following in equivalent crew position: CTPR 546l or CTPR 547l. Instruction mode: Lecture grading option: Letter

CTPR 557 Advanced Cinematography Units: 2 terms offered: FaSpSm Advanced camera and lighting techniques for those considering a professional career in cinematography. Prerequisite: CTPR 424 or CTPR 537 Instruction mode: Lecture grading option: Letter

CTPR 558 Advanced Producing Units: 2 terms offered: FaSpSm Defines and examines the role of the Executive/Feature Producer through the preproduction, production and post production phases. Prerequisite: CTPR 538 or one of the following in equivalent crew position: CTPR 486, CTPR 546, CTPR 547. Instruction mode: Lecture grading option: Letter

CTPR 561 Publicity for Cinema and Television Units: 4 terms offered: Sp Analysis and preparation of advertising and publicity campaigns for entertainment films and television. Instruction mode: Lecture grading option: Letter

CTPR 562 Seminar in Motion Picture Business Units: 2 or 4 max units: 8.0 terms offered: FaSp problems of studio operation, production, distribution, exhibition, or legal procedures relating to the motion picture. Instruction mode: Lecture grading option: Letter

CTPR 563 The Business of Representation Units: 4 terms offered: FaSp Various roles and functions an agent, manager, attorney or publicist play in representing talent, producers and writers. Taught by professionals who are at the forefront of the entertainment industry. Instruction mode: Lecture grading option: Letter
COURSES OF INSTRUCTION  849

Letter

CTPR 565 Making Media for Social Change
Units: 2 Terms Offered: FaSp Each student will produce and direct a film incorporating a social issue of his/her choice into the narrative of the film. Prerequisite: CTPR 310 or CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 566 Developing and Selling Your Film and TV Projects
Units: 2 Terms Offered: FaSp Developing, pitching, and selling your feature motion picture and TV projects. Instruction Mode: Lecture Grading Option: Letter

CTPR 572 The World of Television: From Concept to Air and Everything in Between
Units: Terms Offered: took projects from conception to sale, including development, production, post-production, and marketing. Students will develop original projects. Prerequisite: CTPR 508. Instruction Mode: Lecture Grading Option: Letter

CTPR 573 Producing the Advanced Project
Units: 1 Terms Offered: FaSp Basic skills of production planning as applied to students' advanced project scripts. Covers all steps from breakdown to delivery. Prerequisite: CTPR 508; Recommended Preparation: submission of script required. Instruction Mode: Lecture Grading Option: Letter

CTPR 581a Individual Production Workshop
Units: 4 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Qualifying courses: CTPR 532 (for directors); CTPR 558 (for producers). Graded IP/Letter. Prerequisite: CTPR 573 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 581b Individual Production Workshop
Units: 2 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter. Prerequisite: CTPR 581a Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 581c Individual Production Workshop
Units: 2 Terms Offered: FaSpSm Individual experimental projects involving the creative use of visuals (live action or animated) and sound. Graded IP/Letter. Prerequisite: CTPR 581c Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 581z Individual Production Workshop
Units: 0 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. Prerequisite: CTPR 585b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 582a Advanced Production Seminar
Units: 2 Terms Offered: FaSpSm Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Qualifying courses: CTPR 532 (for directors); CTPR 558 (for producers). Graded IP/Letter. Prerequisite: CTPR 573 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 582b Advanced Production Seminar
Units: 0 Terms Offered: FaSpSm Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Graded IP/Letter. Prerequisite: CTPR 582b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 582z Advanced Production Seminar
Units: 0 Terms Offered: FaSpSm Advanced individual film or video projects under the guidance of a faculty mentor, without benefit of university equipment or resources. Graded IP/Letter. Prerequisite: CTPR 582b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 583 Graduate Television Production
Units: 6 Terms Offered: FaSp Advanced television group production workshop for students who want to produce an advanced multi-camera project. Qualifying courses: CTPR 532 (for directors); CTPR 558 (for producers). Prerequisite: CTPR 573 Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: Letter

CTPR 585a Advanced Producing Project
Units: 2 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. Prerequisite: CTPR 585b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 585b Advanced Producing Project
Units: 2 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. Prerequisite: CTPR 585a Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter

CTPR 585z Advanced Producing Project
Units: 0 Terms Offered: FaSpSm Supervised, individual study leading to the creation of a producer's package. The package will include script, schedule, budget, finance and marketing plan. Graded IP/Letter. Prerequisite: CTPR 585b Registration Restriction: Open only to Cinematic Arts, Film and Television Production majors Instruction Mode: Lecture Grading Option: In Progress and Letter
Curriculum, Teaching and Special Education

CTSE 593a Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature from the student's area of focus. Required of all master's candidates who do not enroll in the Master's Thesis (594abz). Instruction Mode: Lecture Grading Option: Credit/No Credit

CTSE 593b Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature from the student's area of focus. Required of all master's candidates who do not enroll in the Master's Thesis (594abz). Instruction Mode: Lecture Grading Option: Credit/No Credit

Writing
Note: Instructor availability for a particular course or section cannot be guaranteed.

CTWR 100g Story: Character, Conflict, and Catharsis
Units: 4 Terms Offered: FaSp SmAn introduction to non-verbal elements of images and sounds which convey meaning, mood, and emotion. Instruction Mode: Lecture Grading Option: Letter

CTWR 105 Nonverbal Thinking: Visual and Aural
Units: 2 Terms Offered: Sp Sm An introduction to the elements of screen writing, story structure, and character development. Registration Restriction: Open only to majors in Writing for Screen and Television. Instruction Mode: Lecture, Discussion Grading Option: Letter

CTWR 106a Screenwriting Fundamentals
Units: 4 Terms Offered: FaSpSm An introduction to and overview of the elements of theme, plot, character, and dialogue in dramatic writing for film. Instruction Mode: Lecture Grading Option: Letter

CTWR 106b Screenwriting Fundamentals
Units: 4 Terms Offered: FaSpSm Exercise in dramatic writing: theme, plot, character, dialogue and images. Integration of these elements into stories, scenes from popular comedy series and films. Instruction Mode: Lecture Grading Option: Letter

CTWR 120 Genesis of the Screenplay
Units: 2 Terms Offered: Sp Sm The evolution of the screenplay from its roots in myths, plays, and short stories. Writing original treatments for film and television inspired by literary masters. Instruction Mode: Lecture Grading Option: Letter

CTWR 206a Writing the Screenplay
Units: 4 Terms Offered: FaDevelopment of synopsis and treatment for a theatrical or documentary screenplay: theme, plot, character, mise-en-scene and utilization of cinematic elements. Instruction Mode: Lecture Grading Option: Letter

CTWR 206b Writing the Screenplay
Units: 4 Terms Offered: SpWriting a feature-length screenplay based on treatment developed in CTWR 206a. Includes a first draft and a polish. Instruction Mode: Lecture Grading Option: Letter

CTWR 211g The Television Writer: An Agent of Change
Units: 4 Terms Offered: FaSpSm The television writer as an agent of change across current social issues including, but not limited to: race, gender, and class. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

CTWR 212 Fundamental Topics of Writing for Film and TV
Units: 2, 4 Max Units: max 8 Terms Offered: FaSpSm Instruction Mode: Letter focusing on varying topics of fundamentals for feature writing and television writing. Instruction Mode: Lecture Grading Option: Letter

CTWR 213 Content and Consciousness
Units: 2 Terms Offered: FaSpSm An inquiry into the relationship between cognitive and affective knowledge as it relates to the art of screenwriting. Instruction Mode: Lecture Grading Option: Letter

CTWR 215 Practicum in Writing Short Films
Units: 2 Terms Offered: FaSpSm Developing stories less than feature length; writing screenplays from them; understanding what length each story demands; creating idiosyncratic forms and styles. Instruction Mode: Lecture Grading Option: Letter

CTWR 250 Breaking the Story
Units: 2 Terms Offered: FaSpSm Examination of the fundamental elements of a good story, and how to use those elements to develop new screenplay ideas. Recommended Preparation: CTWR 106b. Instruction Mode: Lecture Grading Option: Letter

CTWR 305 Advanced Screenwriting: The Relationship Screenplay
Units: 4 Terms Offered: FaSpSm An inquiry into the complex nature of human relationships by writing an original feature length screenplay that examines the multidimensional world of characters and the ties that bind them together. Registration Restriction: Open only to Writing for Screen and Television majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 306 Advanced Screenwriting: Alternative Narrative
Units: 4 Terms Offered: FaSpSm Development and write an original feature-length screenplay utilizing a non-linear narrative story structure that examines the creative use of time, perspective, and point of view to enhance both character and story. Prerequisite: CTWR 305. Instruction Mode: Lecture Grading Option: Letter

CTWR 314 Writing To Be Performed
Units: 2 Terms Offered: FaSpSm Understanding the elements of screen performance to enhance the writing of complex characters and relationships. Prerequisite: CTWR 100. Registration Restriction: Open only to Writing for Screen and Television majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 315x Filmmaking
Units: 3 Terms Offered: FaSpSm The basics of screenwriting: theme, story structure, characterization, format, dialogue, and scene description. A character profile, short treatment, and first 30 pages of the screenplay are written. Lectures, screenings, and in-class readings. Instruction Mode: Lecture Grading Option: Letter

CTWR 321 Introduction to Hour-Long Television Writing
Units: 2 Terms Offered: FaSpSm The fundamentals of writing for dramatic episodic television. Writing scenes from popular television shows and examination of television story structure. Prerequisite: CTWR 100 or CTWR 402 or CTWR 412 or CTWR 413. Instruction Mode: Lecture Grading Option: Letter

CTWR 324 Introduction to Half-Hour Television Writing
Units: 2 The fundamentals of writing for comedic episodic television. Writing scenes from popular comedy series and examination of half-hour television comedy story structure. Prerequisite: CTWR 412 or CTWR 413 Recommended Preparation: CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 401 Writing the First Draft Feature Screenplay
Units: 4 Max Units: 8.0 Terms Offered: Sm Writing an outline and the first draft of a feature-length screenplay. Emphasis on character interrelationships, conflict, and three-act structure. Instruction Mode: Lecture Grading Option: Letter

CTWR 402 Writing and Social Change
Units: 2 An introductory course in writing for the screen with an emphasis on social issues. Duplicates Credit in CTWR 412. Instruction Mode: Lecture Grading Option: Letter

CTWR 404 Foundations of Comedy
Units: 2 Study of comedy theory and practical applications in film, television, and social media. Lectures and screenings of comedic forms tracing past, present and future. Instruction Mode: Lecture Grading Option: Letter

CTWR 405 Storytelling for Virtual and Augmented Reality
Units: 2 Terms Offered: FaSpSm Storytelling for the 360-degree visual arena. Focus on immersive worlds, challenges of virtual and augmented reality, and active audience engagement. Prerequisite: CTAN 436 or CTAN 536 or CTWR 100g or CTWR 412 or CTWR 413 or CTWR 505 or CTWR 518. Instruction Mode: Lecture Grading Option: Letter

CTWR 407 Creating the Comedic Character
Units: 2 Utilization of various techniques for character to emerge naturally in scene and stories. Creating multiple comedic characters to generate future stories. Recommended Preparation: CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 410 Character Development and Storytelling for Games
Units: 4 Terms Offered: FaSpSm An exploration of characters and story worlds as they relate to gaming with an emphasis on emotionally rich environments in interactive entertainment.
INTRODUCTION TO MOTION PICTURE INDUSTRY

COURSES OF INSTRUCTION

CTWR 411 Television Script Analysis
Units: 2 Terms Offered: Sp In-depth analysis of the craft of writing prime-time episodic television. Examination of situation comedies and dramas through weekly screenings and lectures. Instruction Mode: Lecture Grading Option: Letter

CTWR 412 Introduction to Screenwriting
Units: 2 Introduction to the formal elements of writing the short film. Instruction Mode: Lecture Grading Option: Letter

CTWR 413 Writing the Short Script I
Units: 2 Preparation of scripts for short films: form, structure, planning. Registration Restriction: Open only to Cinematic Arts Film and Television production majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 414 The Screenplay
Units: 2 Students study story structure and develop several story outlines, write a short script for possible production, a feature film outline and first act. Prerequisite: CTWR 415; Recommended Preparation: CTWR 416. Registration Restriction: Open only to Cinematic Arts Film and Television Production majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 415a Advanced Writing
Units: 2 Principles of the feature film; creating theme, character and structure that combine into a feature-length story treatment. Prerequisite: CTWR 412 or CTWR 413; Recommended Preparation: CTWR 416. Instruction Mode: Lecture Grading Option: Letter

CTWR 415b Advanced Writing
Units: 2 Creation of script with extensive work-shopping of scenes in class leading to a first draft and revision as a final assignment. Instruction Mode: Lecture Grading Option: Letter

CTWR 416 Motion Picture Script Analysis
Units: 2 Critical analysis of story structure from classic films to contemporary works. Identification of key story concepts and elements of three-act structure. Instruction Mode: Lecture Grading Option: Letter

CTWR 417 Script Coverage and Story Analysis
Units: 2 Terms Offered: FaSp Evaluation of completed scripts prior to their production. Coverage and analysis of scripts as potential properties from the perspective of a production company. Instruction Mode: Lecture Grading Option: Letter

CTWR 418a Senior Thesis
Units: 4 Terms Offered: FaA Creation of feature-length treatment and first draft senior thesis screenplay, including “pitching” experiences. Instruction Mode: Lecture Grading Option: Letter

CTWR 418b Senior Thesis
Units: 4 Terms Offered: Sp Completion and revision of senior thesis project and introduction to motion picture industry procedures and practices through interaction with industry representatives. Prerequisite: CTWR 305. Instruction Mode: Lecture Grading Option: Letter

CTWR 419a Senior Thesis in Dramatic Television
Units: 4 Terms Offered: Fa Advanced workshop developing an original hour-long dramatic series including characters, world, and story lines for season one. Final assignment is completed hour-long pilot episode. Prerequisite: CTWR 305 and CTWR 421; Recommended Preparation: CTWR 411. Instruction Mode: Lecture Grading Option: Letter

CTWR 419b Senior Thesis in Dramatic Television
Units: 4 Terms Offered: Sp Revision of original pilot script, writing of mid-season episode, and completion of bible for original dramatic series developed in first semester. Instruction Mode: Lecture Grading Option: Letter

CTWR 420a Senior Thesis in Half-Hour Television Comedy
Units: 2 Intense study in developing an original half-hour television comedy pilot including special attention to development of multiple seasons and character evolution. Prerequisite: CTWR 437 or CTWR 439. Recommended Preparation: CTWR 404. Registration Restriction: Open only to Writing for Television and Screen majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 420b Senior Thesis in Half-Hour Television Comedy
Units: 4 Rewrite, casting, and stage performance of the comedy development process. A rewrite of the final draft and completion of the series bible with multiple seasons. Prerequisite: CTWR 420a. Registration Restriction: Open only to Writing for Television and Screen majors. Instruction Mode: Lecture Grading Option: Letter

CTWR 421 Writing the Hour-Long Dramatic Series
Units: 2 Max Units: 4 Writing an episode of an existing dramatic television series within the hour-long format with an emphasis on conception, pitching, characterization and structure. Prerequisite: CTWR 321 or CTWR 324 or CTWR 514a or CTWR 529. Recommended Preparation: CTWR 411. Instruction Mode: Lecture Grading Option: Letter

CTWR 422 Creating the Dramatic Television Series
Units: 2 Max Units: 4.0 Terms Offered: FaSp Examination and creation of the world, and the works they've influenced. Lectures include screenings and visiting screenwriters. Instruction Mode: Lecture Grading Option: Letter

CTWR 423 Television Writers and Their Work
Units: 2 Max Units: 06 Terms Offered: FaSp Detailed investigation of various television writers' styles, the worlds they have created, and the works they've influenced. Lectures include screenings and visiting television writers. Instruction Mode: Lecture Grading Option: Letter

CTWR 430 The Writer in American Cinema and Television
Units: 2 Terms Offered: FaSp American and international writers in cinema; screenwriting; political and economic aspects of the writer in the motion picture industry. Lectures, guest speakers, screenings.

CTWR 431 Screenwriters and Their Work
Units: 2 Max Units: 6.0 Terms Offered: FaSp Detailed investigation of a specific screenwriter's style and the works they've influenced. Lectures include screenings and visiting screenwriters. Instruction Mode: Lecture Grading Option: Letter

CTWR 432 Television Writers and Their Work
Units: 2 Max Units: 06 Terms Offered: FaSp Detailed investigation of various television writers' styles, the worlds they have created, and the works they've influenced. Lectures include screenings and visiting television writers. Instruction Mode: Lecture Grading Option: Letter

CTWR 433 Adaptations: Transferring Existing Work to the Screen
Units: 2 Terms Offered: FaAn examination of motion picture adaptations; problems attendant upon translating a novel, play, or other creative forms into screenplays. Prerequisite: CTWR 206b or CTWR 414 or CTWR 514a or CTWR 529. Instruction Mode: Lecture Grading Option: Letter

CTWR 434 Writing the Half-Hour Comedy Series
Units: 2 Max Units: 6 Writing an episode of an existing half-hour comedy series, with emphasis on the anatomy of a joke, comedic structure, and character. Prerequisite: CTWR 321 or CTWR 324 or CTWR 529. Recommended Preparation: CTWR 404. Instruction Mode: Lecture Grading Option: Letter

CTWR 435 Writing for Film and Television Genres
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSp Preparation of proposals and scripts for different types of film or television programming: emphasis on conception, structure, characterization and format. Prerequisite: CTWR 206b or CTWR 415b. Recommended Preparation: CTWR 416. Instruction Mode: Lecture Grading Option: Letter

CTWR 437 Writing the Original Situation Comedy Pilot
Units: 4 Max Units: 8 Advanced workshop for writing an original half-hour comedy series, including a pilot script, summary of characters, and story lines for first season. Prerequisite: CTWR 421 or CTWR 434. Recommended Preparation: CTWR 411. Instruction Mode: Lecture Grading Option: Letter

CTWR 438 Linked Narrative Storytelling for the Web
Units: 2, 4 Max Units: max 8 Terms Offered: FaSp Create, develop, and execute episodic video content for the web. Focus on content and characters that are viable in the internet landscape. Prerequisite: CTWR 206b or CTWR 414 or CTWR 514b or CTWR 529. Instruction Mode: Lecture Grading Option: Letter

CTWR 439 Writing the Original Dramatic Series Pilot
Units: 4 Max Units: 8 Terms Offered: FaSp
An advanced workshop in which students create an original dramatic series, including a first script and a summary of characters and storylines. Prerequisite: CTRW 421 or CTRW 434. Instruction Mode: Lecture Grading Option: Letter

CTRW 441 Writing Workshop in Creativity and Imagination
Units: 2 Terms Offered: FaSp Students will explore a variety of problem solving techniques to strengthen their creative work and apply these techniques to individual writing projects. Instruction Mode: Lecture Grading Option: Letter

CTRW 449 Rewriting the Original Dramatic Series Pilot
Units: 4 Max Units: 8.0 An advanced workshop in which an original hour-long television pilot will be rewritten with emphasis on character, world creation and future story lines. Prerequisite: CTRW 439; Recommended Preparation: CTRW 411. Instruction Mode: Lecture Grading Option: Letter

CTRW 453 Advanced Feature Rewriting
Units: 4 Max Units: max 8 Terms Offered: FaSpSm An advanced workshop in which a feature length screenplay will be rewritten using a specific methodology that focuses on a macro to micro approach to revision. Prerequisite: CTRW 305 or CTRW 415b Instruction Mode: Lecture Grading Option: Letter

CTRW 459a Entertainment Industry Seminar
Units: 2 Terms Offered: Fa Examination and analysis of various topics, issues and resources pertaining to creative, legal and business perspectives for writers in the entertainment industry. Prerequisite: CTRW 459a for CTRW 459b. Instruction Mode: Lecture Grading Option: Letter

CTRW 459b Entertainment Industry Seminar
Units: 2 Terms Offered: Sp Examination and analysis of various topics, issues and resources pertaining to creative, legal and business perspectives for writers in the entertainment industry. Prerequisite: CTRW 459a for CTRW 459b. Instruction Mode: Lecture Grading Option: Letter

CTRW 468 Screenwriting in Collaboration
Units: 4 Max Units: 8.0 Terms Offered: FaSp Working on the writing staff of an original single-camera half-hour television series, with emphasis on the writers’ room experience and challenges of single-camera half-hour television. Prerequisite: CTRW 434 or CTRW 514b; Recommended Preparation: CTRW 410. Instruction Mode: Lecture Grading Option: Letter

CTRW 497 Staff Writing the Single-Camera Half-Hour Series
Units: 4 Max Units: 8.0 Terms Offered: FaSp Working on the writing staff for an original single-camera half-hour television series, with emphasis on the writers’ room experience and challenges of single-camera half-hour television. Prerequisite: CTRW 434 or CTRW 514b; Recommended Preparation: CTRW 410. Instruction Mode: Lecture Grading Option: Letter

CTRW 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Detailed investigation of new or emerging aspects of cinema and/or television; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

CTRW 502 Graduate Writing Symposium
Units: 1 Terms Offered: Sp A survey of the creative and professional range of the working screenwriter. Recommended Preparation: CNTV 501. Instruction Mode: Lecture Grading Option: Credit/No Credit

CTRW 505 Creating the Short Film
Units: 2 Terms Offered: FaSp Strengthening and deepening the ability to conceive and develop ideas that will lead to compelling, authentic, and emotionally involving films. Concurrent Enrollment: Concurrent enrollment: CTPR 507, CTPR 510. Duplicates Credit in CTRW 528. Instruction Mode: Lecture Grading Option: Letter

CTRW 509 Understanding the Process of Film Making
Units: 2 Terms Offered: Sp An introduction for screenwriters to the process of creating a feature film, from script through release print, including pre-production, production and post-production. Instruction Mode: Lecture Grading Option: Letter

CTRW 513 Writing the Short Script
Units: 2 Terms Offered: Fa Preparation of scripts for short films; dramatic, informational, experimental, and other forms. Concurrent Enrollment: Concurrent enrollment: CTRW 514a. Instruction Mode: Lecture Grading Option: Letter

CTRW 514a Basic Dramatic Screenwriting
Units: 2 Terms Offered: Fa Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical script. Open to graduate screenwriting majors (CTRW) and dramatic writing (Theatre) majors only. Emphasizes narrative development, through short scripts, sequences, and story outlines. Concurrent Enrollment: Concurrent enrollment: CTRW 513. Instruction Mode: Lecture Grading Option: Letter

CTRW 515b Basic Dramatic Screenwriting
Units: 2 Terms Offered: Sp Dramaturgy for the fiction and nonfiction work. Techniques for creating the original or adapted theatrical script. Open to graduate screenwriting majors (CTRW) and dramatic writing (Theatre) majors only. Development of an outline and feature length, original script. Instruction Mode: Lecture Grading Option: Letter

CTRW 515a Practicum in Screenwriting
Units: 4 Terms Offered: FaSp Creation of a feature screenplay from presentation through treatment, including some scene work. Prerequisite: CTRW 514a; CTRW 515a for CTRW 515b; CTRW 515b for CTRW 515c; CTRW 515c for CTRW 515d. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTRW 515c Practicum in Screenwriting
Units: 1 Terms Offered: FaSp Supervised rewrite of feature screenplay. Prerequisite: CTRW 514a; CTRW 515a for CTRW 515b; CTRW 515b for CTRW 515c; CTRW 515c for CTRW 515d. Instruction Mode: Lecture Grading Option: In-progress & Letter Grade

CTRW 515d Practicum in Screenwriting
Units: 1 Terms Offered: FaSp Supervised rewrite of feature screenplay. Prerequisite: CTRW 514a; CTRW 515a for CTRW 515b; CTRW 515b for CTRW 515c; CTRW 515c for CTRW 515d. Instruction Mode: Lecture Grading Option: Letter

CTRW 516 Advanced Motion Picture Script Analysis
Units: 2 Terms Offered: FaSp Critical analysis of the structure of films from the classics to current award winners. Students will learn how to identify key story concepts and break down three act structure in finished films and scripts. Instruction Mode: Lecture Grading Option: Letter

CTRW 517a Thesis in Half-Hour Television Comedy
Units: 4 Terms Offered: Fa Developing an original half-hour comedy television series, including characters, world and storylines for season one. Completion of a first draft script, polish, and series bible. Prerequisite: CTRW 514b; Corequisite: CTRW 534. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTRW 517b Thesis in Half-Hour
Television Comedy
Units: 4 Terms Offered: Fa Developing an original half-hour comedy television series, including characters, world and storylines for season one. Completion of a first draft script, polish, and series bible. The re-write, casting, and performance stages of television comedy development. The completion of a final draft of the pilot script and series bible. Prerequisite: CTWR 514a; Corequisite: CTWR 534. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 518 Introduction to Interactive Writing
Units: 2 Terms Offered: Sp A series of exercises written and discussed for interactive experiences. Instruction Mode: Lecture Grading Option: Letter

CTWR 519a Thesis in Television Drama
Units: 4 Terms Offered: FaSpSm Part A — writing the pilot — is an intensive workshop in which master's students develop an original television 1-hour series including characters, world and storylines for season one. Final assignment is the finished pilot episode of the series. Prerequisite: CTWR 514b. Corequisite: CTWR 521. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 519b Thesis in Television Drama
Units: 4 Part A — Writing the series bible and mid-season episode — is part two of the television thesis course. Students develop their original series further by writing the bible for the series and the mid-season episode which is reflective of storylines, characters and settings developed in part A of the course. Open to Writing for Screen and Television master students only. Instruction Mode: Lecture Grading Option: Letter

CTWR 520 Advanced Scene Writing Workshop
Units: 2 Terms Offered: SpSm Intensive workshop oriented specifically to writing and rewriting the most effective and telling dramatic scenes to heighten audience participation and greater story impact. Prerequisite: CTWR 514b or CTWR 533a. Instruction Mode: Lecture Grading Option: Letter

CTWR 521 Advanced Hour-Long Television Drama
Units: 2 Max Units: 4.0 Terms Offered: Fa Writing the first draft and revision of an episode of an existing dramatic television series. Prerequisite: CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and In Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter

CTWR 522 Advanced Hour-Long Television Development
Units: 2 Terms Offered: FaSp Investigation of development process for hour-long television, addressing issues of character, world, story, and concept. Vetting of multiple series ideas for viability. Prerequisite: CTWR 514a or CTWR 529. Instruction Mode: Lecture Grading Option: Letter

CTWR 523 Introduction to the Screenplay
Units: 4 Introduction to formal elements of the screenplay through lectures and the workshops of a complete first draft of a feature-length script. Prerequisite: CTAN 536 or CTWR 505 or CTWR 518; Recommended Preparation: CTWR 516. Instruction Mode: Lecture Grading Option: Letter

CTWR 526 Advanced Storytelling for Interactive Media
Units: 2 Advanced writing workshop addressing issues specific to interactive storytelling regarding construction of narrative and character as seen in games and other forms of interactive media. Prerequisite: CTWR 518. Instruction Mode: Lecture Grading Option: Letter

CTWR 528 Screenwriting Fundamentals
Units: 2 Terms Offered: FaSp Introduction to the principles of screenwriting with special emphasis on story, characterization and dramatization. Prerequisite: CTWR 514b. Corequisite: CTWR 521. Registration Restriction: Open only to Writing for Screen and Television master students. Instruction Mode: Lecture Grading Option: Letter

CTWR 529 Intermediate Screenwriting
Units: 2 Terms Offered: FaSp Emphasizes structural elements crucial to the feature film. Techniques for creating an original and adapted theatrical-length script. Prerequisite: CTPR 507 and CTWR 505. Instruction Mode: Lecture Grading Option: Letter

CTWR 533a Writing the Feature Script
Units: 4 Terms Offered: FaSp Advanced screenwriting workshop. Development of characters and story to complete a treatment and first draft of a feature length script. Prerequisite: CTWR 529 Corequisite: CTWR 516 Registration Restriction: Open only to masters students in Cinematic Arts, Film and Television Production Instruction Mode: Lecture Grading Option: Letter

CTWR 533b Writing the Feature Script
Units: 4 Terms Offered: FaSp Advanced screenwriting workshop. Rewriting the first draft into a second draft through advanced work-shopping of script. A third draft polish is the final assignment. Prerequisite: CTWR 553a. Instruction Mode: Lecture Grading Option: Letter

CTWR 534 Advanced Half-Hour Television Comedy
Units: 2 Max Units: 4.0 Terms Offered: FaA Advanced workshop in writing the first draft and revision of an episode of an existing comedic television series. The comedy writing room will be emphasized. Corequisite: CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and In Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter

CTWR 537 Advanced Half-Hour Comedy Series Pilot
Units: 4 Max Units: 8.0 Development of an original half-hour comedy series; writing of the pilot episode and series bible. Prerequisite: CTWR 514a. Registration Restriction: Open only to master students in Theatre (Dramatic Writing) and Writing for Screen and Television. Instruction Mode: Lecture Grading Option: Letter
experiences on set. **Prerequisite:** CTWR 537 or CTWR 539. Instruction Mode: Lecture Grading Option: Letter

**CTWR 559 The Business of Writing for Screen and Television**
Units: 2 Terms Offered: FaSp Examination and in-depth analysis of the studio system, the television development process, literary representation, new emerging markets, and the Writers Guild of America. **Prerequisite:** CTWR 514b. Instruction Mode: Lecture Grading Option: Letter

**CTWR 560 Advanced Business Practices for Writers**
Units: 2 Advanced seminar and analysis of the current state of the film and television markets as it relates to writers. Weekly industry guests and current trends. **Prerequisite:** CTWR 559. Instruction Mode: Lecture Grading Option: Letter

**CTWR 572 Practicum in Directing Actors for Film**
Units: 2 or 4 Terms Offered: FaSp Seminar in directing actors for film; emphasis on demonstration and laboratory exercises, script analysis, and detailed study in character motivations. Instruction Mode: Lecture Grading Option: Letter

**CTWR 574 Advanced Seminar in Directing Actors for Film**
Units: 2 Terms Offered: FaSp Emphasis on detailed script analysis and character motivation. Individual projects. **Prerequisite:** CTWR 572, CTCS 673 or CTPR 532. Instruction Mode: Lecture Grading Option: Letter

**CTWR 585 Advanced Genre Writing**
Units: 2 or 4 Max Units: 8.0 Development and execution of writing in various genres of film, television, or new media scripts. **Prerequisite:** CTWR 514b. Instruction Mode: Lecture Grading Option: Letter

**CTWR 587 Advanced Television Staff Writing**
Units: 4 Max Units: max 8. An advanced workshop course in the development and writing of a television series as a writing staff including the production of episodes. **Prerequisite:** CTWR 521 or CTWR 534. **Recommended Preparation:** CTWR 557 or CTWR 539 Instruction Mode: Lecture Grading Option: Letter

**CTWR 599 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Detailed investigation of new or emerging aspects of cinema; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

**Clinical and Experimental Therapeutics**

**CXPT 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**CXPT 594a Master's Thesis**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of Master's thesis. **Recommended Preparation:** Completion of all required course work for MS degree Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**CXPT 594b Master's Thesis**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of master's thesis. **Prerequisite:** CXPT 594a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**CXPT 594c Master's Thesis**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of Masters thesis. **Prerequisite:** CXPT 594b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**CXPT 594d Master's Thesis**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of master's thesis. **Prerequisite:** CXPT 594c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**CXPT 594e Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. **Prerequisite:** CXPT 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**CXPT 794f Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. **Prerequisite:** CXPT 794e Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**CXPT 794g Doctoral Dissertation**
Units: 0 Terms Offered: FaSpSm Independent research course for students enrolled in the CXPT PhD program who have passed their written and oral qualifying examination and advanced to PhD candidacy. **Prerequisite:** CXPT 794f Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

**Dance**

**DANC 101 Colloquium: What is the Medium of Dance Today?**
Units: 1 Max Units: 2.0 Terms Offered: FaSpSm Topics related to dance techniques, repertory and varied art forms. Aimed at the interdisciplinary expansion of dance literacy and connections to allied art forms. Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

**DANC 103 Conditioning for Dancers**
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Designed for the specific needs of the dancer in preparation for professional training, combining somatic work with the foundation of scientific principles. Instruction Mode: Lecture Grading Option: Letter

**DANC 105 Dance Science: Analysis of Dance Movement**
Units: 4 Max Units: 08 Terms Offered: FaSpSm A broad overview of the scientific principles of exercise physiology, functional anatomy, kinesiology, and bio-mechanics with applications to dance. **Prerequisite:** DANC 103 Instruction Mode: Lecture Grading Option: Letter

**DANC 107 World Perspective on Dance Performance**
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm The practice and aesthetics of international dance styles through lecture and participant-driven interaction. Instruction Mode: Lecture Grading Option: Letter
DANC 110 Dance Technique I
Units: 3 Max Units: 12 Terms Offered:
FaSpSm Fundamental technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers’ development. Placement audition required. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 120L Repertory and Performance I
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Study and guided practice of traditional and contemporary choreographic repertory. Emphasis in choreographic intention, stylistic approaches and performance technique. Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 130 Improvisation and Composition I: Introduction
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An introduction to improvisational and composition skills that start to prepare students for the creative processes of dancing, dancemaking and performance. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 131 Improvisation and Composition II: Introduction
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Continued investigation and introduction to improvisational and compositional skills in preparation for the creative processes of dancing, dancemaking and performance. Prerequisite: DANC 130 Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 170 Choreography and Performance
Units: 2 Max Units: 08 Terms Offered:
FaSpSm Compositional methods and approaches to developing choreographic ideas; integration of improvisational techniques as a means to generate movement ideas and expand movement vocabulary, edit choreographic material, and evaluate and execute choreography and performance. Duplicates Credit in former DANC 385 and former THTR 385 Instruction Mode: Lecture Grading Option: Letter

DANC 171 Commercial Dance: Professional Dance Preparation
Units: 1, 2 Max Units: 08 Terms Offered:
FaSpSm Designed to explore the commercial dance industry in Los Angeles and provide specific tools in preparation for auditions, on-screen performances, and interactions with agents. Recommended Preparation: DANC 184b and DANC 184c Instruction Mode: Lecture Grading Option: Letter

DANC 175 Choreography for the Screen
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Creative choreography of theatrical dance for the screen. Emphasis on rhythmic analysis, versatility, composition, notation techniques, and stylizing. Duplicates Credit in former DANC 482 and former THTR 482 Instruction Mode: Lecture Grading Option: Letter

DANC 181a Contemporary Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An introduction to methods developed from modern and post-modern dance techniques, including the study of the rebellious, individualistic, and democratic nature of dance in the 20th and 21st centuries. Duplicates Credit in former THTR 181a Instruction Mode: Lecture Grading Option: Letter

DANC 181b Contemporary Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Continued study in the fusion of modern, post-modern dance and classical ballet techniques encompassing the study of the democratic nature of dance and choreographic composition in the 20th and 21st centuries. Prerequisite: DANC 181a Duplicates Credit in former THTR 181b Instruction Mode: Lecture Grading Option: Letter

DANC 181c Contemporary Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An advanced exploration of modern, post-modern dance and classical ballet techniques encompassing the study of the democratic nature of dance, improvisation and choreographic composition in the 20th and 21st centuries. Prerequisite: DANC 181b Duplicates Credit in former DANC 182a Instruction Mode: Lecture Grading Option: Letter

DANC 183a Ballet
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An introduction to Classical Ballet technique with beginning-level barre and center work, focusing on correct body alignment and musicality. Development of a basic knowledge of ballet history and terminology. Duplicates Credit in former THTR 183a Instruction Mode: Lecture Grading Option: Letter

DANC 183b Ballet
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Continued study of Classical Ballet technique with intermediate-level barre and center work, focusing on developing greater clarity, coordination, musicality, and knowledge of ballet history and terminology. Duplicates Credit in former DANC 183a Duplicates Credit in former THTR 183b Instruction Mode: Lecture Grading Option: Letter

DANC 183c Ballet
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Advanced study of Classical Ballet technique with emphasis on clarity, precision, musicality, movement quality, and artistic expression. Introduction of beats, tours, advanced adagio and allegro combinations, and pointe work. Prerequisite: DANC 183b Duplicates Credit in former THTR 183c Instruction Mode: Lecture Grading Option: Letter

DANC 183d Ballet
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Elementary to intermediate-level pointe technique for women and men, including strengthening exercises, barre and center work, and variations from classical and contemporary ballets. Prerequisite: DANC 183c Duplicates Credit in former THTR 183d Instruction Mode: Lecture Grading Option: Letter

DANC 184a Jazz Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An introduction to Jazz Dance technique, focusing on African and Latin based diaspora dances with European influences, improvisation, and strength/stretching series. Duplicates Credit in former THTR 184a Instruction Mode: Lecture Grading Option: Letter

DANC 184b Jazz Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Advanced study of Jazz Dance technique at the intermediate level, focusing on African and Latin based diaspora dances with European influences, improvisation, center work, performance techniques, and strength/stretching series. Prerequisite: DANC 184a Duplicates Credit in former THTR 184b Instruction Mode: Lecture Grading Option: Letter

DANC 184c Jazz Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Advanced study of Jazz Dance technique, focusing on Broadway, commercial, and concert Jazz Dance, with a continued emphasis on improvisation, center work, and performance techniques. Prerequisite: DANC 184b Duplicates Credit in former THTR 184c Instruction Mode: Lecture Grading Option: Letter

DANC 185a Hip Hop Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An introduction to elements of Hip Hop Dance, including technique, movement, musical rhythm, tempo, and phrasing, as well as the historical context required to develop the skills needed to practice and perform this popular dance form. Duplicates Credit in former THTR 185 and former DANC 185 Instruction Mode: Lecture Grading Option: Letter

DANC 185b Hip Hop Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm Continued study of Hip Hop Dance elements on an intermediate level, augmenting the historical context, technique, fluidity, and musicality required to execute the form with greater movement acuity. Prerequisite: DANC 185a Instruction Mode: Lecture Grading Option: Letter

DANC 186 Afro Cuban Dance
Units: 2 Max Units: 4 Terms Offered:
FaSpSm An introduction to Afro Cuban Dance techniques, basic drum rhythms, and musicality, with an understanding of cultural practices and vocalizations. Afro Cuban Dance examines the traditions related to specific ethnic groups in Latin Europe and West Africa, and the influences of Rumba and Salsa Dance on the form. Instruction Mode: Lecture Grading Option: Letter

DANC 187 Bollywood Dance
Units: 2 Max Units: 04 Terms Offered:
FaSpSm An introduction to basic and intermediate Bollywood Dance, including technique, movement, musical rhythm, phrases, and choreography. Inspired by the high energy music from Indian films.
Bollywood is a fusion form that combines traditional Indian folk and classical dances with Hip Hop, Jazz, Latin, and Middle-eastern dance. Instruction Mode: Lecture Grading Option: Letter

DANC 188a International Style Ballroom Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Introduction to International Standard, International Latin, and American Style ballroom dances. Designed to introduce students to the fundamentals of ballroom dance, emphasizing partner connection, communication, and creativity, with the practical application of dance within a social setting. Duplicates Credit in former THTR 188a Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 188b International Style Ballroom Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study in International Standard, International Latin, and American Style ballroom dances. Designed for advanced knowledge in ballroom styles, emphasizing rhythmic sequences, partnering techniques, complex patterns, and performance quality. Prerequisite: DANC 188a Duplicates Credit in former THTR 188b Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 189a Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm An introduction to basic Tap Dance technique, rhythms, syncopation, and musicality, developing into complex steps and elementary dances with progressive understanding of weight change, improvisation, and combinations of sound. Duplicates Credit in former THTR 189a Instruction Mode: Lecture Grading Option: Letter

DANC 189b Tap Dance
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued study of Tap Dance technique, focusing on more complex rhythmic patterns and combinations and introducing advanced steps and combinations, all with continued emphasis on improvisation and musicality. Prerequisite: DANC 189a Duplicates Credit in former THTR 189b Instruction Mode: Lecture Grading Option: Letter

DANC 190 Gaga: People
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Explore the movement language, rooted in guided improvisation, developed by Ohad Naharin of Batsheva Dance Company. Open to all, regardless of dance or movement background. Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 191 Gaga: Dancers
Units: 1, 2 Max Units: 08 Terms Offered: FaSpSm Explore the movement language, rooted in guided improvisation, developed by Ohad Naharin of Batsheva Dance Company. Previous dance experience is required. Instruction Mode: Lecture Grading Option: Credit/No Credit

DANC 201 Colloquium: History of Performance and Cultural Context
Units: 1 Max Units: 02 Terms Offered: FaSpSm Study of the historical and cultural context of selected dance techniques. Guest lectures and student presentations will inform class discussions. Prerequisite: DANC 101 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 210 Dance Technique II
Units: 3 Max Units: 12 Terms Offered: FaSpSm Intermediate technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. Prerequisite: DANC 110 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 212g Dance in Popular Culture
Units: 4 Terms Offered: FaSpSm Examination of the role of dance in popular culture in a studio setting. Practical studies in styles and their evolution in recreational and professional settings. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

DANC 218 Introduction to Dance for the Camera: New Media and Editing
Units: 2 Max Units: 04 Terms Offered: FaSpSm Effective navigation and utilization of ubiquitous, portable digital technologies in film to create an individualized archive and portfolio of their choreographic projects and performances. Instruction Mode: Lecture Grading Option: Letter

DANC 220L Repertory and Performance II
Units: 2 Max Units: 04 Terms Offered: FaSpSm Continued studies and guided practice of choreographic repertory. Investigation of choreographic vocabulary, intention, stylistic approaches, and performance technique for group work. Prerequisite: DANC 220L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 230 Impromvisation and Composition III: Intermediate
Units: 2 Max Units: 04 Terms Offered: FaSpSm Expansion of improvisation and composition skills for the creative processes of dancing, dance-making and performance. Prerequisite: DANC 131 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 231 Impromvisation and Composition IV: Intermediate
Units: 2 Max Units: 04 Terms Offered: FaSpSm Further development of improvisation and composition skills for the creative processes of dancing, dance-making and performance. Prerequisite: DANC 230 Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 280g Introduction to Dance as an Art Form
Units: 4 Terms Offered: FaSpSm Gateway to the minor in dance. An interdisciplinary overview of dance relating to the aesthetic and art in various subjects. Applications of the elements of dance studies, art criticism, and viewing productions to explore topics such as architecture, photography, poetry, technology, cinematic arts, sports, medicine, and more. Satisfies New General Education in Category A: The Arts Duplicates Credit in former THTR 280 Instruction Mode: Lecture Grading Option: Letter

DANC 285 Elements of Dance Production
Units: 4 Max Units: 08 Terms Offered: FaSpSm Theoretical aspects of creativity, choreography, accompaniment, dance notation, and production; application in individual and group composition. Duplicates Credit in former THTR 285 Instruction Mode: Lecture Grading Option: Letter

DANC 301 Colloquium: The Role of the Dance Artist in Society
Units: 1 Max Units: 02 Terms Offered: FaSpSm Examination of the role of the artist in society. Development of an individual understanding and guiding philosophy for professional development in the dance field. Prerequisite: DANC 201 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 302g Hip Hop Don't Stop: Exploring Black Vernacular Dance
Units: 4 Terms Offered: FaSpSm Introduction to the history and practice of Urban Folk Dance including hip hop, freestyle, street dance and the relevant social dances of the 20th century. Satisfies New General Education in Category A: The Arts Duplicates Credit in former DANC 402 Instruction Mode: Lecture Grading Option: Letter

DANC 305 Dance and New Media
Units: 1 Max Units: 02 Terms Offered: FaSpSm An introduction to existing and emerging technologies used in creating and delivering dance works. Instruction Mode: Lecture Grading Option: Letter

DANC 310 Dance Technique III
Units: 3 Max Units: 12 Terms Offered: FaSpSm Advanced technique studies in a studio setting. Concentration on classical ballet, hip hop and its derivatives, partnering and contemporary techniques essential to the dancers' development. Prerequisite: DANC 210 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 312gw African American Dance
Units: 4 Terms Offered: FaSpSm Exploration of the discursive foundations, political motivations, and aesthetic strategies of dance writers and artists whose works have enabled the category of "black dance." Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former DANC 412 Instruction Mode: Lecture Grading Option: Letter

DANC 320l Repertory and Performance III
Units: 2 Max Units: 04 Terms Offered: FaSpSm Study and guided practice of new works and developing roles. Emphasis on... as a collaboration in the creative process. Prerequisite: DANC 220L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 333gw Origins of Jazz Dance
Units: 4 Terms Offered: FaSpSm Examining the role that vernacular dance and music play in the creation of Jazz Dance, taught in lecture format; practical studies in Jazz Dance, from recreational to professional settings. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

DANC 342gp International and Historical Perspectives on Dance
Units: 4 Terms Offered: FaSpSm Exploration of dance as an art form in its artistic, political, and socio-cultural climate. Studies of the continuum of dance within its historical context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former DANC 442a Instruction Mode: Lecture Grading Option: Letter

DANC 345 Artist in Residence
Units: 1, 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Investigation and development of choreographic methods and practices through observation and active participation with the guest artist. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 347 Artist Collaborative
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Development of an artistic work of two or more media, working with colleagues and or faculty in allied disciplines. Registration Restriction: Open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 350 Composition
Units: 2 Max Units: 08 Terms Offered: FaSpSm Explore a variety of compositional forms and methods to develop a personalized choreographic approach. Prerequisite: DANC 231 Registration Restriction: Open only to dance majors Duplicates Credit in former DANC 330 and former DANC 430 Instruction Mode: Lecture Grading Option: Letter

DANC 355 Performance Lab
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Intermediate and advanced solo and partnering techniques in classical, contemporary, and street dance. Some sections are open only to dance majors. Instruction Mode: Lecture Grading Option: Letter

DANC 362 Pilates Mat Training
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Mat exercises designed to promote healthy movement practices, develop strength, balance, flexibility and coordination. Instruction Mode: Lecture Grading Option: Letter

DANC 363g Dancing on the Screen
Units: 4 Terms Offered: FaSpSm The study of dance in movies, television, internet, mobile devices and new media. Examining dance on screen, influenced by storytelling, camera technology and editing. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

DANC 370 Dance in Los Angeles
Units: 1, 2 Max Units: 04 Terms Offered: FaSpSm Explore the multifaceted world of dance in Los Angeles, where history, socioeconomics, race, gender, sexuality, commerce and entertainment intersect to create genres that influence contemporary life. Instruction Mode: Lecture Grading Option: Letter

DANC 388 Senior Seminar in Dance
Units: 4 Max Units: 08 Terms Offered: FaSpSm Synthesis of principles, philosophy, and history of dance, culminating in senior individual project. Duplicates Credit in former THTR 388 Instruction Mode: Lecture Grading Option: Letter

DANC 399 Maymester: Dance Capitals of the World
Units: 1, 2, 3, 4 Max Units: 16 Terms Offered: Sp Investigate various dance topics across major cities of artistic inspiration in a Maymester format. Courses may include lectures, site visits and practical studies and may be held at USC or off campus, including abroad. Instruction Mode: Lecture Grading Option: Letter

DANC 410 Dance Technique IV
Units: 3 Max Units: 12 Terms Offered: FaSpSm Pre-professional technique studies in a studio setting with concentration on classical ballet, hip hop and its derivatives, and contemporary techniques essential to the dancers’ development. Prerequisite: DANC 310 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 420L Repertory and Performance IV
Units: 2 Max Units: 04 Terms Offered: FaSpSm Study and guided practice of significant roles in new and existing choreography. Emphasis on refinement of partnering, solo and group performance technique. Prerequisite: DANC 320L Registration Restriction: Open only to dance majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

DANC 432 Creativity, Culture, Commerce and Community
Units: 4 Terms Offered: FaSpSm Exploration of artistic entrepreneurial mechanisms to initiate innovative endeavors in the professional dance world which are relevant to today’s culture, communities, customs, and business landscape. Instruction Mode: Lecture Grading Option: Letter

DANC 442 International and Historical Perspectives on Dance II
Units: 4 Terms Offered: FaSpSm Exploration of dance as an art form in its artistic, political, and socio-cultural climate. Studies of the continuum of dance within its historical context. Prerequisite: DANC 342g Duplicates Credit in former DANC 442b Instruction Mode: Lecture Grading Option: Letter

DANC 452 Dancing with Words
Units: 4 Terms Offered: FaSpSm Development of descriptive and analytical skills for dance writing (journalism, education, scholarship, audience development, marketing) and refinement of social-media expertise to connect with relevant audiences. Instruction Mode: Lecture Grading Option: Letter

DANC 470 Dance Leadership
Units: 2 Terms Offered: FaSpSm Preparation for leadership in the dance world including structuring companies, marketing choreography, obtaining financing as a dance-maker, collaborating on dance initiatives, and leading in dance education. Instruction Mode: Lecture Grading Option: Letter

DANC 480 Advanced Performance Studies: Senior Seminar
Units: 1 Max Units: 02 Terms Offered: FaSpSm Seminar and studio course in preparation of the senior project to be presented in spring semester, in performance, choreography, scholarship or entrepreneurship. Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 483 Dance Performance
Units: 2 Max Units: 08 Terms Offered: FaSpSm Preparation, rehearsal, and performance of experimental choreography in main stage repertory. Duplicates Credit in former THTR 483 Instruction Mode: Lecture Grading Option: Letter

DANC 485 Advanced Performance Studies: Senior Project
Units: 1 Max Units: 02 Terms Offered: FaSpSm Development and presentation of senior project in performance, choreography, media, music, scholarship or entrepreneurial enterprise. Senior project presented to faculty panel in open performance venue. Prerequisite: DANC 480 Registration Restriction: Open only to dance majors Instruction Mode: Lecture Grading Option: Letter

DANC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Registration Restriction: Open only to dance majors and minors Instruction Mode: Lecture Grading Option: Letter

DANC 495 Dance Internship
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16 Max Units: 16 Terms Offered: FaSpSm Practical experience linked with information and learned skills. Providing supervised field application of dance theories and practices within an employment context in dance. Registration Restriction: Open only to dance majors and minors. Instruction Mode: Lecture Grading Option: Letter

DANC 499 Special Topics
COURSES OF INSTRUCTION

- **DHYG 415b Directed Clinical Teaching**
  Units: 2 Experience in clinical teaching with supervision and evaluation of undergraduate dental hygiene and doctoral dental students engaging in patient care. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 417 Issues in Dental Health Care Delivery**
  Units: 1 Study of current trends in public health care delivery, manpower, finance mechanisms, and quality assurance. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 422 Essentials of Dental Hygiene Practice**
  Units: 1 A review of the moral, legal, and ethical responsibilities of the dental hygienist. Other topics: securing a position, dental economics, taxes, insurance, and human relationships in the dental office. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 424 Research Methods**
  Units: 2 Terms Offered: Sm Research design and methods, scientific database searching, evidence resources and evaluating information based on evidence-based principles. Application of basic research design methodology for analysis of literature. Duplicates Credit in former DHYG 424ab. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 430 Seminar: Initial Periodontal Therapy**
  Units: 2 Presentation of selected clinical cases with documentation of clinical findings, diagnosis, treatment planning, and therapy. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 431 Seminar: Periodontal Treatment Planning**
  Units: 2 Periodontal treatment planning; case presentations of uncomplicated periodontitis progressing to complex treatment involving multidisciplinary approach. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 460a Clinic: Advanced Dental Hygiene**
  Units: 2 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 460b Clinic: Advanced Dental Hygiene**
  Units: 2 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 460c Clinic: Advanced Dental Hygiene**
  Units: 1 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 460d Clinic: Advanced Dental Hygiene**
  Units: 1 Clinical experience in advanced dental hygiene; preventive and therapeutic skills with emphasis on advanced periodontal instrumentation and expanded functions for the registered dental hygienist. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 501 Dental Hygiene Theory and Science I**
  Units: 3 Terms Offered: Fa Issues related to professional development and the advancement of the discipline of dental hygiene. Concurrent Enrollment: Concurrent enrollment: DHYG 502. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 502 Dental Hygiene Seminar I**
  Units: 1 Terms Offered: Fa Ethical principles guiding research and practice in the health care setting, with an emphasis on the rights and protection of human subjects. Concurrent Enrollment: Concurrent enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 504 Dental Hygiene Theory and Science II**
  Units: 3 Terms Offered: Sp Issues related to oral health promotion and disease prevention, and health services research. Includes epidemiology, health disparities, quality assurance, literacy and cultural competency. Concurrent Enrollment: Concurrent enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 505 Dental Hygiene Seminar II**
  Units: 1 Terms Offered: Sp Design of community health programs and health research. Includes project and study design, and applying methodological and statistical knowledge to project development. Concurrent Enrollment: Concurrent enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 506 Research Methodologies and Statistics**
  Units: 3 Terms Offered: Sm Analysis of disease diagnoses, medical complications, pharmacologic interventions and therapeutic treatment modalities associated with a variety of system diseases. Concurrent Enrollment: Concurrent enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 507 Dental Hygiene Theory and Science III**
  Units: 3 Terms Offered: Sm Analysis of disease diagnoses, medical complications, pharmacologic interventions and therapeutic treatment modalities associated with a variety of system diseases. Concurrent Enrollment: Concurrent enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 508 Dental Hygiene Seminar III**
  Units: 1 Terms Offered: Sm Strategies for project data management and analysis, and dissemination of scholarly information through journal publications and oral and poster scientific presentations. Concurrent Enrollment: Concurrent enrollment: DHYG 501. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 510 Capstone Project**
  Units: 4 Terms Offered: Fa Students will complete independent field work to implement planned scholarly activities in their professional area of interest, culminating in a written paper and an oral defense. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 511 Classroom and Clinical Instruction Design**
  Units: 2 Terms Offered: Sp Apply teaching and learning theories to the development of educational interventions to teach clinical dental hygiene skills in both clinical and laboratory classroom settings. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 512 Student Teaching**
  Units: 2 Terms Offered: Sm Applied study of dental hygiene education, with practical experience teaching in the classroom and laboratory settings, and teaching in the dental hygiene clinic. Prerequisite: DHYG 511. Instruction Mode: Lecture Grading Option: Letter

- **DHYG 513 Educational Theory and Instructional Design**
  Units: 2 Terms Offered: Fa (Enroll in EDUC 622)

- **DHYG 514 Technology in Higher Education**
  Units: 2 Terms Offered: Sm (Enroll in EDUC 632)

- **DHYG 600 Dental Hygiene Professional Issues**
  Units: 2 Terms Offered: Fa Explore issues related to professional development and advancement of the discipline of dental hygiene and addressing the growth of the knowledge base of the profession. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

- **DHYG 601 Development of Systematic Investigations**
  Units: 1 Terms Offered: Fa Focus of research study development that impacts the dental hygiene profession by exploring the ethical and legal principles that guide research and practice in healthcare. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

- **DHYG 602 Research Methods and Biostatistics**
  Units: 2 Terms Offered: Fa Understand research process with fundamentals of research protocol design and statistical methods commonly used in healthcare. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

- **DHYG 603 Learning Theories and Technology**
  Units: 2 Terms Offered: Fa Theories of learning with emphasis will be placed on teaching strategies to a variety of audiences and use of technology in the learning process. Registration Restriction: Open
only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 604 Health Advocacy Program Planning and Evaluation
Units: 2 Terms Offered: Sp Explore issues related to oral health promotion and disease prevention and health services research by investigating oral health reports and surveys influencing the DH profession. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 605 Professional Leadership in Program Development
Units: 2 Terms Offered: Sp Introduce concepts of business planning for the healthcare professional. Grant writing; application of leadership theory; professional leadership development in education, healthcare, research and business settings. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 606 Multidisciplinary Population Health Management Strategies
Units: 2 Terms Offered: Sm Explore population health management of multidisciplinary team care for complex patient populations and strategies for group dynamics for collaborative practice. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 607 Knowledge Assessment
Units: 1 Terms Offered: Sm An intensive course developing and evaluating dental hygiene skills and scholarly activities for application in advanced professional careers. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture, Lab, Quiz Grading Option: Letter

DHYG 608 Current Trends in Oral Healthcare
Units: 1 Terms Offered: Sm Current trends in oral healthcare is explored by evaluating the evolving discoveries of wellness, pathology and risk factors affecting oral health. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 609 Capstone Project Fieldwork
Units: 1 Terms Offered: Fa Guided learning of the research process by the design and fieldwork implementation of an approved Capstone project with proper data management. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 610 Capstone Project
Units: 2 Terms Offered: Sp Independent study through guided learning to complete a capstone project including preparation of a publishable manuscript that will be defended in an oral presentation. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 611 Research Writing
Units: 2 Terms Offered: Fa Enhancement of critical research thinking by fulfilling anticipated conceptual components of the journal article; perfection of writing skills by correcting inter- and intra-sentence distractions. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 612 Dental Hygiene Curriculum and Program Design
Units: 2 Terms Offered: Sp Prepare dental hygienists with basic guidelines and skills for development of dental hygiene program and curriculum. Focus on designing academic courses, course materials and overall evaluation methods. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture, Discussion Grading Option: Letter

DHYG 613 Laboratory and Clinical Course Development
Units: 2 Terms Offered: Sm Curriculum design for teaching psycho-motor skills in a simulation laboratory and providing feedback and strategies for achieving competence in student-patient clinical setting. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 614 Dental Hygiene Student Teaching Practicum
Units: 3 Terms Offered: Fa Application of theory and skills developed through student teaching in the classroom, laboratory and clinical settings. Prerequisite: DHYG 612 and DHYG 613 Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 615 Geriatric Healthcare Program Planning
Units: 1 Terms Offered: Fa Independent learning environment of interactive experiences to understand the complexities of oral health care management of older people and geriatric care facilities. Registration Restriction: Open only to master students in Dental Hygiene Instruction Mode: Lecture Grading Option: Letter

DHYG 616 Oral Diagnosis and Radiology

DIAG 415 Radiographic Techniques
Units: 1 Clinical application of radiographic chairside and dark room techniques and quality control. Instruction Mode: Lecture Grading Option: Letter

DIAG 521 Principles of Oral Radiology
Units: 2 Introduction to ionizing radiation and its use in the health professions; radiation biology, physics and hygiene; descriptive terms used in radiography, with illustrations; documentation. Instruction Mode: Lecture Grading Option: Letter

DIAG 522 Radiographic Techniques
Units: 1 Clinical applications of radiographic chairside and darkroom techniques; quality control and evaluation of the radiograph. Instruction Mode: Lecture Grading Option: Letter

DIAG 523 Oral Maxillofacial Imaging
Units: 2 Terms Offered: Sm Clinical application of intraoral and extraoral radiographic techniques; emphasis upon radiation physics, biology, safety, film and digital imaging and image interpretation. Instruction Mode: Lecture Grading Option: Letter

DIAG 615 Digital and Oral Maxillofacial Imaging
Units: 2, 3, 4 Terms Offered: FaSp Introduction to computer based imaging in dentistry. Student will learn to use video cameras, scanners, intraoral sensors and advanced imaging technology. Prerequisite: DIAG 521, DIAG 522. Instruction Mode: Lecture Grading Option: Letter

DIAG 621 CAD/CAM in Dentistry
Units: 1 Modern principles of dental Computer Assisted Design/Computer Assisted Manufacturing and will fabricate such restorations in the laboratory. Instruction Mode: Lecture Grading Option: Letter

Dental Materials

DMAT 316L Dental Materials and Clinical Procedures
Units: 2 Biomechanical principles, properties, and manipulation of dental materials; armamentarium for various dental procedures. Instruction Mode: Lecture, Lab Required Grading Option: Letter

DMAT 505 Dental Materials Update
Units: 1 Biocompatibility of dental materials, restorative materials and techniques update, critical analysis of published literature. Includes specific laboratory testing research methodology and design of clinical trials. Instruction Mode: Lecture Grading Option: Letter

DMAT 521a Dental Materials
Units: 2 Properties, biomechanical function, manipulation, and clinical application of dental materials. Correlates restorative, biological, and materials sciences. Instruction Mode: Lecture Grading Option: Letter

DMAT 521b Dental Materials
Units: 2 Properties, biomechanical function, manipulation, and clinical application of dental materials. Correlates restorative, biological, and materials sciences. Instruction Mode: Lecture Grading Option: Letter

DMAT 701 Advanced Biomaterials
Units: 2 Terms Offered: FaSpSm Fundamental principles of materials science and clinical dentistry relative to proper selection and manipulation of dental materials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

Dental Problem Based Learning

DPBL 501a Dental Problem Based Learning — Human Structure I
Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human
COURSES OF INSTRUCTION

DPBL 501b Dental Problem Based Learning — Human Structure I
Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 503b Dental Problem Based Learning — Human Behavior I
Units: 2 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 501c Dental Problem Based Learning — Human Structure I
Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 502a Dental Problem Based Learning — Human Function I
Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 504a Dental Problem Based Learning — Human Clinical Dentistry I
Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 502b Dental Problem Based Learning — Human Function I
Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 504b Dental Problem Based Learning — Human Clinical Dentistry I
Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 502c Dental Problem Based Learning — Human Function I
Units: 8 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 504c Dental Problem Based Learning — Human Clinical Dentistry I
Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 503a Dental Problem Based Learning — Human Behavior I
Units: 2 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Acceptance to DDS program required. Instruction Mode: Lecture Grading Option: Letter

DPBL 505a Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 505b Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 511c Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 511b Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 511a Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal structures including anatomy, cell biology, embryology, histology, pathology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512c Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512b Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512a Dental Problem Based Learning — Human Function II
Units: 5 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter
physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 513a Dental Problem Based Learning — Human Behavior II Units: 3 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Letter

DPBL 513b Dental Problem Based Learning — Human Behavior II Units: 2 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal behavior including communication, ethics, multiculturalism, patient management, phobias associated with treatment of patients with and without special needs. All material discussed with direct relationship to a well-characterized human clinical case. Letter

DPBL 513c Dental Problem Based Learning — Human Behavior II Units: 8 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 504c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512b Dental Problem Based Learning — Human Function II Units: 1 Term Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512c Dental Problem Based Learning — Human Function II Units: 4 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512d Dental Problem Based Learning — Human Function III Units: 7 Terms Offered: FaSpSm Problem based learning presentation of normal and abnormal function including biochemistry, endocrinology, genetics, immunology, microbiology, nutrition, pharmacology, physiology from cells, tissues and organs of the human body. All material discussed with direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 512c. Instruction Mode: Lecture Grading Option: Letter

DPBL 512e Dental Problem Based Learning — Human Function III Units: 14 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 512c. Instruction Mode: Lecture Grading Option: Letter
oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 524c Dental Problem Based Learning — Human Clinical Dentistry III Units: 14 Terms Offered: FaSpSm Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPBL 510 Introduction to Digital Social Media Units: 4 Terms Offered: Sp Explores the sector of digital social media and online communities, with a focus on user experience, social impact, strategic content creation, and models for success. Registration Restriction: Open only to Digital Social Media majors. Duplicates Credit in former CMGT 534. Instruction Mode: Lecture Grading Option: Letter

DPBL 535b Dental Problem Based Learning — Human Clinical Dentistry IV Units: 13 Terms Offered: FaSp Problem based learning approach to the delivery of dental health care. Didactic, preclinical and clinical principles of endodontics, geriatrics, oral diagnosis, oral pathology, oral radiology, oral surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics and restorative dentistry will be presented with a direct relationship to a well-characterized human clinical case. Prerequisite: DPBL 502c. Instruction Mode: Lecture Grading Option: Letter

DPHR 410 Principles of Pharmacology Units: 2 Basic principles of drug action; application of drugs in the prevention and treatment of disease; harmful effects of drugs on biological systems. Instruction Mode: Lecture Grading Option: Letter

DPHR 501 Pharmacology Units: 3 General principles of drug action: prescription writing; toxicology; pharmacology of drugs affecting cardiovascular, autonomic, endocrine, and central nervous systems; drug control of pain, anxiety, infection.

DPHR 601 Clinical Drug Therapy in Dentistry Units: 2 Clinical pharmacology of drug therapy important to dental practice using case history disease signs and symptoms and attendant drug therapy. Instruction Mode: Lecture Grading Option: Letter

DPHR 701 Advanced Pharmacology Units: 1 Pharmacologic principles and practice of drug use to control anxiety, pain, and infection. Treatment of drug and medical emergencies as they relate to dental specialty practice. Instruction Mode: Lecture Grading Option: Letter

Digital Social Media

DSM 510 Introduction to Digital Social Media Units: 4 Terms Offered: Sp Explores the sector of digital social media and online communities, with a focus on user experience, social impact, strategic content creation, and models for success. Registration Restriction: Open only to Digital Social Media majors. Duplicates Credit in former CMGT 534. Instruction Mode: Lecture Grading Option: Letter

DSM 520 Managing Technologies for Digital Media Units: 4 Terms Offered: Sp Strategies and decision-making for development and management of online sites, mobile apps, and social platforms, including search optimization, monetization, product development, and user experience testing. Registration Restriction: Open only to Digital Media majors Duplicates Credit in former CMGT 538 Instruction Mode: Lecture Grading Option: Letter

DSM 550 Analytics and Research Methodology Units: 4 Terms Offered: Sm Teaches the use and interpretation of digital analytics as well as the use of research design, methodology, and basic statistics for digital sites and apps. Prerequisite: DSM 510 and DSM 520. Registration Restriction: Open only to digital social media majors. Instruction Mode: Lecture Grading Option: Letter

DSM 560 Digital Media Policy, Law, Practices, and Regulation Units: 4 Terms Offered: Sp Explores laws, policies, and regulations affecting online sites, mobile apps, games, and social platforms, including intellectual property, contracts, libel/defamation, and financial aspects of digital content. Restriction: Open only to digital social media majors Instruction Mode: Lecture Grading Option: Letter

DSM 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to graduate degree. Maximum units which may be applied to degree determined by department. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSM 596 Final Project Capstone Units: 4 Terms Offered: Sm Students produce a working site, app, or embedded social platform project with digital/social media elements. Development includes pitching, conceptualization, and launching of the final project. Prerequisite: COMM 502 and DSM 520 and DSM 560 and INF 549 Registration Restriction: Open only to Digital Social Media majors Instruction Mode: Lecture Grading Option: Letter

DSM 599 Special Topics Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08
Terms Offered: FaSpSm Special Topics in Digital Social Media. Instruction Mode: Lecture Grading Option: Letter

Data Sciences and Operations

DSO 401 Business Information Systems – Spreadsheet Applications
Units: 2 Terms Offered: FaSp Applied understanding of how spreadsheets are used to analyze business information. Create real world software applications for use in accounting, finance, marketing and operations. Duplicates Credit in former IOM 401. Instruction Mode: Lecture Grading Option: Letter

DSO 402 Business Information Systems – Database Applications
Units: 2 Terms Offered: Fa Applied understanding of how work group databases are used to analyze business information. Create real world software applications used in accounting, finance, marketing and operations. Duplicates Credit in former IOM 402. Instruction Mode: Lecture Grading Option: Letter

DSO 424 Business Forecasting
Units: 4 Terms Offered: Sp A variety of forecasting techniques used by a variety of businesses. Emphasis on learning to apply these techniques to real data. Prerequisite: BUAD 310. Duplicates Credit in former DSO 424. Instruction Mode: Lecture Grading Option: Letter

DSO 427 Designing Spreadsheet-Based Business Models
Units: 4 Terms Offered: Fa Application of decision analysis, simulation, and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business problems. Recommended Preparation: BUAD 310. Duplicates Credit in former IOM 427. Instruction Mode: Lecture Grading Option: Letter

DSO 431 Foundations of Digital Business Innovation
Units: 4 Terms Offered: FaSp Foundational frameworks for understanding the planning and execution of digitally-enabled strategic initiatives. Duplicates Credit in former IOM 431. Instruction Mode: Lecture Grading Option: Letter

DSO 432 Business Process Design
Units: 4 Terms Offered: Sp Analyzing and improving business processes with digital technologies; use cases; business case design. Duplicates Credit in former IOM 432. Instruction Mode: Lecture Grading Option: Letter

DSO 435 Enterprise Data Architecture
Units: 4 Terms Offered: Fa Management of enterprise data architecture including data structures, conceptual data modeling, logical data modeling, structured query language (SQL), and physical optimization of high performance data architecture. Duplicates Credit in former IOM 435. Instruction Mode: Lecture Grading Option: Letter

DSO 443 The Business of Digital Entertainment
Units: 4 Terms Offered: Irregular Understanding the entertainment and media industries, the effects of the internet, mobile and new information-communication technologies on the business models and management of these industries. Duplicates Credit in former IOM 443. Instruction Mode: Lecture Grading Option: Letter

DSO 455 Project Management
Units: 4 Terms Offered: FaSp Topics related to project management in a variety of industries such as real estate projects, new product launch, plant location, etc. Duplicates Credit in former IOM 455. Instruction Mode: Lecture Grading Option: Letter

DSO 462 Managing a Small Business on the Internet
Units: 2 Terms Offered: FaSp Topics related to project management in a variety of industries such as real estate projects, new product launch, plant location, etc. Duplicates Credit in former IOM 462. Instruction Mode: Lecture Grading Option: Letter

DSO 482 Supply Chain Management

DSO 483 Operations Consulting
Units: 4 Terms Offered: Sp Study of concepts and techniques for improving operations, formulation and implementation of operations strategies, and development of frameworks for process design, selection and performance evaluation. Prerequisite: BUAD 311. Duplicates Credit in IOM 483. Instruction Mode: Lecture Grading Option: Letter

DSO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics reflecting current trends and recent developments in data sciences, information systems, operations management, and statistics. May be repeated only if topic is different. Instruction Mode: Lecture Grading Option: Letter

DSO 505 Sustainable Supply Chains
Units: 1.5 Terms Offered: Fa Sustainability concepts and frameworks, design for environment, closed-loop supply chains, sustainability in sourcing, green facilities, renewable energy, facility location and transportation decisions, strategic sustainability implementation. Web registration open only to graduate business and accounting students. Registration Restriction: Open only to graduate business and accounting students. Duplicates Credit in former IOM 505. Instruction Mode: Lecture Grading Option: Letter

DSO 506 Sourcing and Supplier Management
Units: 1.5 Terms Offered: Fa Factors to consider when making sourcing decisions (costs, prices, ethics, globalization); impact of sourcing on other activities such as product design or inventory management. Open only to graduate business students. Registration Restriction: Open only to graduate business students. Duplicates Credit in former IOM 506. Instruction Mode: Lecture Grading Option: Letter

DSO 510 Business Analytics
Units: 1.5, 3 Terms Offered: FaSpSm Foundational knowledge for business analytics, including strategies, methods, and tools integrated with hands-on skills for defining business analytics for data-driven decision making and innovation. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

DSO 516 Probability and Data Modeling
Units: 1.5 Terms Offered: FaSp Principles of probability methodology. Application for providing structure to uncertainty. Develop, implement, and use probability models. Registration Restriction: Online registration limited to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

DSO 520 Logistics Management
Units: 3 Terms Offered: SmGives students a managerial knowledge of basic logistics concepts and principles. Some topics include management of logistics cost integration, transportation, distribution, and customer service. Open only to graduate business students. Registration Restriction: Open only to graduate business students. Duplicates Credit in the former IOM 520. Instruction Mode: Lecture Grading Option: Letter

DSO 522 Applied Time Series Analysis for Forecasting
Units: 1.5, 3 Terms Offered: FaSp Survey of forecasting and time series methods. Models for stationary and nonstationary time series; ARIMA model identification, estimation, and forecast development. Seasonal and dynamic models. Web registration open only to graduate business and accounting students. Recommended Preparation: GSBA 506a, GSBA 506b or GSBA 524 or (GSBA 516 and GSBA 545) Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 522. Instruction Mode: Lecture Grading Option: Letter

DSO 528 Data Warehousing, Business Intelligence, and Data Mining
Units: 1.5, 3 Terms Offered: FaSm Introduction to data-warehousing, multidimensional database, on-line analytical processing, and survey of business intelligence applications that extract useful information from data warehouses. Business applications emphasized. Registration
Networked Digital Industry
Units: 3 Terms Offered: Fa Assessing business impact of emerging technologies on companies, business models and strategies in the "converging" digital communications, media and entertainment industries: incorporates company field projects. Open only to graduate business students. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 543 Instruction Mode: Lecture Grading Option: Letter

DSO 545 Statistical Computing and Data Visualization
Units: 3 Terms Offered: FaSp Data cleaning and reshaping; good vs. bad graphics; univariate, bivariate, trivariate, hypervariate, and time series graphics; interactive graphics; web-related computing. Extensive computer applications using R. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

DSO 547 Designing Spreadsheet-Based Business Models
Units: 3 Terms Offered: FaSp Application of decision analysis, simulation and optimization techniques to managerial problems. Learn how to create and present useful spreadsheet models to analyze practical business models. Recommended Preparation: completion of first-year MBA courses Registration Restriction: Online registration open only to graduate business and accounting majors Duplicates Credit in former IOM 547 Instruction Mode: Lecture Grading Option: Letter

DSO 549 Application of Lean Six Sigma
Units: 3 Terms Offered: SpSm Application of Six Sigma techniques and practices to improve operations in organizations. Open only to graduate business students. Registration Restriction: Open only to graduate business students. Duplicates Credit in ISE 507 and former IOM 549 Instruction Mode: Lecture Grading Option: Letter

DSO 551 Digital Transformation in the Global Enterprise
Units: 3 Terms Offered: Sp Leveraging large enterprise system applications for strategic value; managing organizational transformation of global enterprises through digital business platforms; coping with disruptive technologies. Open only to business majors. Registration Restriction: Open only to business majors. Duplicates Credit in former IOM 551 Instruction Mode: Lecture Grading Option: Letter

DSO 552 SQL Databases for Business Analysts
Units: 1.5 Terms Offered: FaSp SQL; relational database systems; data storage; data manipulation; data aggregation. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

DSO 553 NoSQL Databases in Big Data
Units: 1.5 Terms Offered: FaSp NoSQL; semi-structured and unstructured databases; data storage; data manipulation; distributed databases. Prerequisite: DSO 552 Registration Restriction: Online registration open only to graduate accounting and business majors Instruction Mode: Lecture Grading Option: Letter

DSO 556 Business Models for Digital Platforms
Units: 3 Terms Offered: FaSp Managing Business models in digital platform ecosystems; designing new products and services for digital platforms; establishing digital platform leadership; assessing emerging niches in digital spaces. Registration Restriction: Online registration open only to specified graduate business and accounting majors. Duplicates Credit in former IOM 556 Instruction Mode: Lecture Grading Option: Letter

DSO 557a Global Supply Chain Management in International Settings
Units: 1.5 Terms Offered: Fa The influence of value-added services and regulatory issues on suppliers and supply chains. Readings, team research and presentation, international site visits, and final written report. Open only to Global Supply Chain Management majors. Registration Restriction: Open only to Global Supply Chain Management majors. Duplicates Credit in former IOM 557ab Instruction Mode: Lecture Grading Option: Letter

DSO 557b Global Supply Chain Management in International Settings
Units: 1.5 Terms Offered: Fa The influence of value-added services and regulatory issues on suppliers and supply chains. Readings, team research and presentation, site visits (LA), and final written report. Open only to Global Supply Chain Management majors. Registration Restriction: Open only to Global Supply Chain Management majors. Duplicates Credit in former IOM 557ab Instruction Mode: Lecture Grading Option: Letter

DSO 562 Fraud Analytics
Units: 3 Terms Offered: Sp Fraud detection model systems; identify normal vs. outlying behavior; malicious adversaries; complex datasets; supervised and unsupervised fraud statistical models; measures of model efficacy. Recommended Preparation: Basic statistics and probability, database management, basic programming skills. Registration Restriction: Online registration open only to graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Letter

DSO 570 The Analytics Edge: Data, Models, and Effective Decisions
Units: 3 Terms Offered: Sp Decision making under uncertainty using real data applying the most advanced optimization, statistical and probability methods. Registration Restriction: Online registration open only to graduate accounting and business majors Duplicates Credit in former IOM 570 Instruction Mode: Lecture Grading Option: Letter

DSO 573 Data Analytics Driven Dynamic Strategy and Execution
Units: 3.0 Terms Offered: FaSp Advanced
applications of data analytics in dynamic strategy formulation and execution; analytics and business methods for data connected enterprises to continuously enhance their competitive advantage. Instruction Mode: Lecture Grading Option: Letter

DSO 580 Project Management
Units: 3 Terms Offered: FaSp Applications of systems theory and concepts, matrix organizational structures, PERT/CPM project modeling, and management information systems to the management of complex and critical projects. Open only to business majors. Recommended Preparation: GSBA 504b or GSBA 534. Registration Restriction: Open only to business majors. Duplicates Credit in former IOM 596. Instruction Mode: Lecture Grading Option: Letter

DSO 581 Supply Chain Management
Units: 3 Terms Offered: FaSp Issues in supply chain management. Supply chain performance and dynamics. Tools for planning, control and coordination. Supply chain design and strategy. Open only to business majors. Recommended Preparation: GSBA 504b or GSBA 534. Registration Restriction: Online registration open only to graduate accounting and business students. Duplicates Credit in former IOM 581. Instruction Mode: Lecture Grading Option: Letter

DSO 582 Service Management: Economics and Operations
Units: 3 Terms Offered: Sp Examination of the service industry from a managerial and entrepreneurial perspective; emphasis on the tactical decisions needed to design and deliver successful and profitable services. Recommended Preparation: GSBA 504b or GSBA 534 Registration Restriction: Online registration open only to graduate accounting and business students. Duplicates Credit in former IOM 582. Instruction Mode: Lecture Grading Option: Letter

DSO 583 Operations Consulting
Units: 3 Terms Offered: Sp Development of conceptual and analytic skills for improving operations. Analysis of business strategy, formulating and implementing operations strategy, process analysis and design, and project management. Recommended Preparation: GSBA 504a or GSBA 534 Registration Restriction: Online registration open only to graduate students and accounting students. Duplicates Credit in former IOM 583 Instruction Mode: Lecture Grading Option: Letter

DSO 586 Global Healthcare Operations Management
Units: 3 Terms Offered: Sp Application of operations management tools and techniques to improve the performance of healthcare delivery systems. May include international travel. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in former IOM 586. Instruction Mode: Lecture Grading Option: Letter

DSO 590 Directed Research
Units: 1, 2, 3, 4, 5 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Open only to master's students. Registration Restriction: Open only to master's students. Duplicates Credit in former IOM 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 592 Field Research in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Open only to graduate students. Recommended Preparation: completion of required MBA, MACc, or MBT courses. Registration Restriction: Open only to graduate students. Duplicates Credit in former IOM 592. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 593 Independent Research in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2, 3, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Open only to graduate students. Recommended Preparation: completion of required MBA, MACc, or MBT courses. Registration Restriction: Open only to graduate students. Duplicates Credit in former IOM 593. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 595 Internship in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2 Max Units: max 9 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest (Curricular Practical Training). Recommended Preparation: completion of required MBA, MSGS, or MS-BUAN courses Registration Restriction: Open only to master's business students. Duplicates Credit in former IOM 595 Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 596 Research Practicum in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Data Sciences and Operations Department on an ongoing research project. Open only to graduate students. Recommended Preparation: completion of all required courses in the student's program. Registration Restriction: Open only to graduate students. Duplicates Credit in former IOM 596 Instruction Mode: Lecture Grading Option: Letter

DSO 597 Consulting Project in Data Sciences or Operations
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Open only to graduate business students. Registration Restriction: open only to graduate business students. Duplicates Credit in former IOM 597. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 598 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in data sciences, operations management, supply chain management and/or decision support systems. Online registration open only to graduate business students. Registration Restriction: Open only to graduate business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in data sciences, operations management, supply chain management and/or decision support systems. Online registration open only to graduate accounting and business students. Duplicates Credit in former IOM 599 Instruction Mode: Lecture Grading Option: Letter

DSO 606 Bayesian Data Analysis
Units: 3 Terms Offered: Fa Principles of Bayesian inference, subjective probability, posterior inference via Markov chain Monte Carlo, applications to latent variable models. Hierarchical models and shrinkage estimation. Model averaging. Duplicates Credit in former IOM 606. Instruction Mode: Lecture Grading Option: Letter

DSO 607 High Dimensional Statistics and Big Data Problems
Units: 3 Terms Offered: Fa Overview of cutting-edge developments of methodologies, theory, and algorithms in high-dimensional statistical learning and big data problems; their applications to business and many other disciplines. Recommended Preparation: Courses in calculus, linear algebra and linear regression Model Averaging. Duplicates Credit in former IOM 607. Instruction Mode: Lecture Grading Option: Letter

DSO 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Data Sciences and Operations. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. Open only to Marshall PhD students. Instruction Mode: Lecture Grading Option: Credit/No Credit

DSO 670 Current Research in Operations Management
Units: 1, 3 Max Units: 06 Terms Offered: FaSp Critique of the current research-based literature in operations management to include scheduling, forecasting, MRP, technology planning, inventory management, and facilities location and layout. Duplicates Credit in former IOM 670 Instruction Mode: Lecture Grading Option: Letter

DSO 671 Inventory Models and Supply Chain Management
Units: 3 Terms Offered: FaA Single product, single location inventory models; multi-echelon inventory models; assembly systems; inventory and pricing; value of information; incentives and coordination in supply chains.
Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 671.

Instruction Mode: Lecture Grading Option: Letter

DSO 673 Mathematical Programming
Units: 3 Terms Offered: Fa Integer programming; duality theory; shortest path and max flow problems; network flow; matching problems; convex sets and functions; lagrange duality; unconstrained minimization methods; optimization problems. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 673.

Instruction Mode: Lecture Grading Option: Letter

DSO 674 Queueing and Stochastic Networks
Units: 3 Terms Offered: Sp Jackson Networks; Kelly networks; the M/G/1 model and the Pollaczek–Khintchine formula; the G/G/1 queue; the GI/GI/1 queue and its diffusion approximation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 674.

Instruction Mode: Lecture Grading Option: Letter

DSO 676 Dynamic Programming and Markov Decision Processes
Units: 3 Terms Offered: Sp Jackson Networks: Kelly networks; the M/G/1 model and the Pollaczek–Khintchine formula; the G/G/1 queue; the GI/GI/1 queue and its diffusion approximation. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IOM 677.

Instruction Mode: Lecture Grading Option: Letter

EALC 110gp East Asian Humanities: The Great Tradition
Units: 4 Terms Offered: FaSpSm The basics of reading and writing modern Chinese; intensive reading and writing of paragraphs, essays, and stories; extensive reading of beginner-level authentic materials.

Instruction Mode: Lecture Grading Option: Letter

EALC 115 Korean I
Units: 4 Terms Offered: FaSp Summer session in South Korea.

Instruction Mode: Lecture, Discussion Grading Option: Letter

East Asian Languages and Cultures

EALC 101x Conversational Chinese and Intercultural Communication
Units: 2 Terms Offered: FaSp Basic Mandarin conversational skills for effective communication in familiar, everyday Chinese contexts and better understanding of intercultural communication through content-based language acquisition. Not available for credit to East Asian Area Studies and East Asian Languages and Cultures majors and minors.

Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 102 Language, Art and Culture: Calligraphy
Units: 2 Terms Offered: FaSp This course introduces students to the origin of the basic Chinese scripts and the basic principles and styles of calligraphy.

Instruction Mode: Lecture Grading Option: Letter

EALC 103a Fundamental Chinese I
Units: 2 Terms Offered: FaSpSm Basic listening, speaking, reading and writing abilities in Mandarin Chinese. Duplicates Credit in EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 103b Fundamental Chinese II
Units: 2 Terms Offered: FaSpSm Basic listening, speaking, reading and writing abilities in Mandarin Chinese. Prerequisite: EALC 103a Duplicates Credit in EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 104 Chinese I
Units: 4 Terms Offered: FaSpSm The sound system of modern Chinese; aural comprehension, oral expression, basic patterns, and writing system.

Instruction Mode: Lecture Grading Option: Letter

EALC 106 Chinese II
Units: 4 Terms Offered: FaSpSm Dialogue practice and conversation; reading of simple stories and essays; comparison of Chinese and English grammar; writing of paragraphs. Prerequisite: EALC 104 Instruction Mode: Lecture Grading Option: Letter

EALC 108 Reading and Writing Chinese
Units: 4 Terms Offered: FaSpSm The basics of reading and writing modern Chinese; intensive reading and writing of paragraphs, essays, and stories; extensive reading of beginner-level authentic materials.

Instruction Mode: Lecture Grading Option: Letter

EALC 110gp East Asian Humanities: The Great Tradition
Units: 4 Terms Offered: FaSp Introduction to the major humanities traditions of China, Japan, and Korea through an examination of representative works drawn from literature, aesthetics, philosophy, religion, and historical writing. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 115 Korean I
Units: 4 Terms Offered: FaSpSm Aural comprehension and oral practice; the writing system; grammar drill, sentence patterns. Instruction Mode: Lecture Grading Option: Letter

EALC 117 Korean II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 115. Progressive drill in dialogue, reading, and writing. Prerequisite: EALC 115. Instruction Mode: Lecture Grading Option: Letter

EALC 118 Essential Communications in Korean I
Units: 2 Max Units: 4 Terms Offered: FaSpSm A basic foundation of Korean, focusing on conversation skills. Students communicate on a variety of familiar topics and handle basic transactions. Registration Restriction: Open to all majors, no class standing restrictions, no school restrictions. Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 120 Japanese I
Units: 4 Terms Offered: FaSpSm Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana (Japanese alphabetical systems). Instruction Mode: Lecture Grading Option: Letter

EALC 121 Extensive Reading in Japanese I
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of reading skill in Japanese for elementary level students through short stories written for learners of Japanese and authentic materials written for native Japanese speakers. Prerequisite: EALC 120. Instruction Mode: Lecture Grading Option: Letter

EALC 122 Japanese II
Units: 4 Terms Offered: FaSpSm Continuation of EALC 120. Basic Japanese conversation practice, basic grammar and building proficiency of reading and writing Hiragana and Katakana and basic kanji. Prerequisite: EALC 120. Instruction Mode: Lecture Grading Option: Letter

EALC 125g Introduction to Contemporary East Asian Cinema and Culture
Units: 4 The introduction to and overview of the contemporary cinemas of East Asia: China (Hong Kong, the People's Republic, and Taiwan), Japan, and Korea. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 130gp Introduction to East Asian Ethical Thought

EALC 145g Introduction to Chinese Culture, Art and Literature
Units: 4 Terms Offered: FaSp Introduction to the civilization, art and literature of pre-modern China through the lens of the cultural products of identity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 150g Global Chinese Cinema and Cultural Studies
Units: 4 Terms Offered: FaSp Examination of the transnational production and circulation of Chinese-language cinema. Analysis of the larger sociocultural significance of films by engaging their historical context. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EALC 202 Language, Art, and Culture: Calligraphy II
Units: 2 Max Units: 4 Terms Offered: FaSpSm Furthers students' knowledge in the Chinese writing system and develops students' skills in a more advanced calligraphy style. Prerequisite: EALC 102. Instruction Mode: Lecture Grading Option: Letter

EALC 204 Chinese III
Units: 4 Terms Offered: Fa Conv. Conversational practice: reading of stories and essays; writing of short essays. Prerequisite: EALC 106. Instruction Mode: Lecture Grading Option: Letter

EALC 206 Chinese IV
Units: 4 Terms Offered: Sp Continuation of EALC 204, with emphasis on reading and writing, frequent interaction with native speakers. Prerequisite: EALC 204. Instruction Mode: Lecture Grading Option: Letter

EALC 207a Intermediate Chinese: Reading and Oral Communication
Units: 4 Terms Offered: Sm Improving Chinese reading techniques and oral presentation skills in an immersive environment. Offered only in Taiwan. Prerequisite: EALC 106. Instruction Mode: Lecture Grading Option: Letter

EALC 207b Intermediate Chinese: Reading and Oral Communication
Units: 4 Terms Offered: Sm Improving Chinese reading techniques and oral presentation skills in an immersive environment. Offered only in Taiwan. Prerequisite: EALC 106. Instruction Mode: Lecture Grading Option: Letter

EALC 215 Korean III
Units: 4 Terms Offered: Fa Drill to increase proficiency in dialogue, reading, and writing; intermediate level readings. Prerequisite: EALC 204. Instruction Mode: Lecture Grading Option: Letter

EALC 217 Korean IV
Units: 4 Terms Offered: Sp Advanced level reading of modern Korean and exercises in written composition. Prerequisite: EALC 215. Instruction Mode: Lecture Grading Option: Letter

EALC 220 Japanese III
Units: 4 Terms Offered: FaSpSm Continuation of EALC 122. Conversation practice, basic to intermediate grammar, and building proficiency of reading and writing Hiragana and Katakana with additional kanji. Prerequisite: EALC 122. Instruction Mode: Lecture Grading Option: Letter

EALC 221 Extensive Reading in Japanese II
Units: 2 Max Units: 4 Terms Offered: FaSp Development of reading skills in Japanese for intermediate level students through short stories written for learners of Japanese and authentic materials written for native speakers. Prerequisite: EALC 220. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Seminar on the impact of Buddhism on the literary tradition of medieval Japan. Selected topics. Instruction Mode: Lecture Grading Option: Letter

EALC 620 Seminar in East Asian Linguistics
Units: 4 Max Units: 12.0 Terms Offered: FaSp Detailed theoretical discussions and empirical studies of the issues and development in East Asian linguistics. Instruction Mode: Lecture Grading Option: Letter

EALC 650 Research Seminar in Chinese Documents
Units: 4 An introduction to the different genres of documents for the study of Chinese civilization, and training in their use. Instruction Mode: Lecture Grading Option: Letter

EALC 700 Professionalization Seminar for Advanced Graduate Students
Units: 2 Max Units: 04 Terms Offered: FaSp Familiarizes advanced graduate students with topics relevant to academic work in East Asian humanities, including research planning, dissertation writing, publishing, and conference presentation. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794z Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 700 Professionalization Seminar for Advanced Graduate Students
Units: 2 Max Units: 04 Terms Offered: FaSp Enhances the teaching experience of teaching assistants in East Asian studies through a collaborative study of relevant pedagogical principles, resources, and techniques. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

EALC 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EALC 794z Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EAST Asian Studies

EASC 150gp East Asian Societies
Units: 4 Terms Offered: FaSp Main patterns of change in modern China, Japan, and Korea; historical framework and the insights of geography, economics, political science, and other disciplines. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 160gmp China and the World
Units: 4 Terms Offered: FaSp Advanced-level introduction to China and its relations with the wider world in historic and contemporary perspective. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

EASC 360 Global East Asia
Units: 4 Max Units: 12 Terms Offered: Sp Maymester Study Abroad Program to China or Japan with a focus on globalization. Instruction Mode: Lecture Grading Option: Letter

EASC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

EASC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Interdisciplinary examination of various areas of East Asian studies. Instruction Mode: Lecture Grading Option: Letter

EASC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 591 Interdisciplinary Seminar
Units: 4 Max Units: 8.0 Terms Offered: Irregular An examination of a broad topic in the study of China, Korea, or Japan. Guest speakers, student reports, papers. Readings in English and the appropriate Asian language(s). Instruction Mode: Lecture Grading Option: Letter

EASC 592 Seminar on Issues and Trends in Contemporary East Asia
Units: 4, 2 years Terms Offered: Fa Introduction to graduate level study of policy issues and major trends in contemporary China, Japan, and Korea; contributions of various academic disciplines. Instruction Mode: Lecture Grading Option: Letter

EASC 593s Understanding East Asia: An Introduction for Professional School Students
Units: 3 Terms Offered: Sp Historical, social, political and cultural survey of China, Japan and Korea with focus on topics of particular relevance for business practitioners and other professionals. Instruction Mode: Lecture Grading Option: Letter

EASC 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EASC 599 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EASC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in East Asian Area Studies. Instruction Mode: Lecture Grading Option: Letter

Economics

ECON 203g Principles of Microeconomics
Units: 4 Terms Offered: FaSp Behavior of firms and consumers, functions of the price system, competition and monopoly, labor markets, poverty, government regulation, international trade, and the environment. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

ECON 205g Principles of Macroeconomics

ECON 238xg Political Economy and
Social Issues
Units: 4 Terms Offered: Fa Contending politico-economic perspectives in modern Western thought: conservatism, liberalism, radicalism, and their relevance for contemporary policy issues including government and markets, class, race, gender, poverty and inequality. Satisfies Old General Education in Category VI: Social Issues
Instruction Mode: Lecture, Discussion
Grading Option: Letter

ECON 303 Intermediate Microeconomic Theory
Units: 4 Terms Offered: FaSp Decision-making by business firms, consumer preferences and behavior, uncertainty, competition, monopoly, labor and resource markets, efficient resource allocation, externalities, and government policy.
Prerequisite: ECON 203; MATH 118gx or MATH 125; Corequisite: ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 304 Mathematical Microeconomics
Units: 4 Terms Offered: FaSp Explores the theoretical framework of how economic agents make choices and what the implications of these choices are; presentation and application of analytical tools. Prerequisite: ECON 203g and (MATH 118gx or MATH 125g) Instruction Mode: Lecture Grading Option: Letter

ECON 305 Intermediate Macroeconomic Theory
Units: 4 Terms Offered: FaSp The determinants of aggregate income, employment, and inflation; economic fluctuations; fiscal and monetary policy; financial markets; the national debt.
Prerequisite: ECON 203 and ECON 205; MATH 118gx or MATH 125. Instruction Mode: Lecture Grading Option: Letter

ECON 317 Introduction to Statistics for Economists
Units: 4 Terms Offered: FaSp Introduction to statistical methods appropriate for analyzing economic data: probability theory, random variables and probability distributions, sampling, estimation, statistical inference.
Prerequisite: MATH 118gx or MATH 125. Instruction Mode: Lecture Grading Option: Letter

ECON 318 Introduction to Econometrics
Units: 4 Terms Offered: FaSp Application of statistical methods to economic data: estimating economic relationships using regression analysis, testing hypotheses involving economic behavior, forecasting economic variables. Prerequisite: ECON 317 Duplicates Credit in former ECON 414 Instruction Mode: Lecture Grading Option: Letter

ECON 322 Economic History and Modernization of the Middle East
Units: 4 Terms Offered: Irregular Economic history of the Middle East from the rise of Islam to the modern era. Roles of law, religion. Processes of institutional transformation, stagnation, modernization.
Prerequisite: ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 330 The Political Economy of Institutions
Units: 4 Social functions served by the rules, laws, regulations, and customs that constrain human activity. Processes whereby such institutions adapt, or fail to adapt, to changing circumstances. Prerequisite: ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 332 Contracts, Organizations and Institutions
Units: 4 Contract law and economic organization, determinants of firm boundaries, transaction cost economics, agency theory, incomplete contracting, business strategy, bureaucracy, institutional environment, politics and property rights. Prerequisite: ECON 203. Instruction Mode: Lecture Grading Option: Letter

ECON 338 Political Economy and Social Issues
Units: 4 Terms Offered: Sp Contending politico-economic perspectives in modern Western thought and culture; absolutist, liberal, democratic, Marxist, anarchist, and other traditions, topics and issues. Prerequisite: ECON 205. Duplicates Credit in former ECON 121x.

ECON 340 Economics of Less Developed Countries
Units: 4 Causes of economic underdevelopment: historical, institutional, structural, ideological, technological, cultural. Patterns and theories of development. Role of government, international trade, and education in economic growth. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 342 Economic Development of the Middle East
Units: 4 Terms Offered: FaSp Contemporary economic problems of the Middle East: comparative and historical perspectives on issues of institutions, investment, oil, trade, migration, finance, inequality, labor and capital markets. Prerequisite: ECON 203; Recommended Preparation: ECON 205 and ECON 303. Instruction Mode: Lecture Grading Option: Letter

ECON 343 Economic Development of East Asia
Units: 4 Contemporary economic problems of East Asian countries: management, labor, technology, trade, investment. Determinants of their high growth rates in the late 20th century. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 344 Economic Development of Sub-Saharan Africa
Units: 4 Terms Offered: FaSpSm Contemporary economic problems of sub-Saharan African economies: policies and endowments. Focus on issues of poverty, agriculture, health, macroeconomy and political economy. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 346 Economics of Transition and Development: China
Units: 4 Terms Offered: FaSpSm A focus on the Chinese economy, its reform and transition to a market economy, its relation with East Asian countries and integration into the world economy. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 348g Current Problems of the American Economy
Units: 4 Terms Offered: Fa A comprehensive investigation of problems stemming from changing composition of the work force, urban decline, new technologies, inequalities, ethnic relations, government deficits, Prospects for continued growth. Prerequisite: ECON 203 or ECON 205. Satisfies Old General Education in Category VI: Social Issues
Instruction Mode: Lecture, Discussion
Grading Option: Letter

ECON 350 The World Economy
Units: 4 Terms Offered: SpSm International cooperation and conflict in the world economy. Global economic problems of growth and development, trade and finance, migration, economic stability, and the environment. Prerequisite: ECON 203 or ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 351x Microeconomics for Business
Units: 4 Terms Offered: FaSpSm Development and business applications of: theory of the firm; theory of the consumer; intertemporal decisions; decisions under risk; market failures; industrial and enterprise structure. Not for major credit for: economics, economics/mathematics, social sciences (economics) majors. Prerequisite: MATH 118 or MATH 125 or MATH 126 or MATH 226; Corequisite: ECON 352x Duplicates Credit in former ECON 251. Instruction Mode: Lecture Grading Option: Letter

ECON 352x Macroeconomics for Business
Units: 4 Terms Offered: FaSpSm Theoretical development and significance to business and markets of economic growth; inflation; unemployment; monetary and fiscal policy; business cycles; savings and investment; exchange rates. Recommended Preparation: introductory economics course, high school math, and algebra. Corequisite: ECON 351x Duplicates Credit in former ECON 252x. Instruction Mode: Lecture Grading Option: Letter

ECON 357 Money, Credit, and Banking
Units: 4 The money, bond, stock, and other financial markets; portfolio choice; determinants of asset prices and interest rates; inflation; interactions between financial markets and government policies. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

ECON 360 Public Finance
Units: 4 Role of the government; income and corporate taxation; direct versus indirect taxation; optimal tax structure; public goods; public sector pricing; public debt and macroeconomic stability. Prerequisite: ECON 203 and ECON 205. Instruction Mode: Lecture Grading Option: Letter

Instruction Mode: Lecture Grading Option: Letter

**ECON 501 Macroeconomic Analysis and Policy**
Units: 4 Terms Offered: Sp Theories of aggregate economic activity; design and use of macroeconomic models; stabilization and control of inflation, unemployment, and growth. **Prerequisite:** ECON 303, ECON 305, and ECON 401. Instruction Mode: Lecture Grading Option: Letter

**ECON 502 Mathematical Methods in Economic Dynamics**
Units: 4 Terms Offered: SpSm The role of values in economic development. We will witness the wide range of applications that is amenable to game theoretical analysis. **Prerequisite:** ECON 303 and ECON 404 and MATH 544L and MATH 547 Instruction Mode: Lecture Grading Option: Letter

**ECON 504 Game Theory with Economic and Financial Applications**
Units: 4 Terms Offered: FaSpSm Students will cover large ground in applying game theory to economic and financial markets and interactions in a diverse set of examples like reputation, herding, bubbles and crashes, auctions, strategic information revelation and information accumulation in markets. We will witness the wide range of applications that is amenable to game theoretical analysis. **Prerequisite:** ECON 303 and ECON 404 and MATH 544L and MATH 547 Instruction Mode: Lecture Grading Option: Letter

**ECON 513 Practice of Econometrics**
Units: 4 Terms Offered: FaSpSm Application of econometric tools using standard econometric software packages for microcomputers; empirical applications to selected economic problems of estimation and inference. **Prerequisite:** ECON 318. Instruction Mode: Lecture Grading Option: Letter

**ECON 515 Time Series Analysis**
Units: 4 Terms Offered: FaSpSm Understanding and implementing models commonly used in time series econometrics. Emphasis is placed on intuition and application. Assists students understanding how to use time series data to test hypotheses and serve as an introduction to the ideas and techniques of forecasting. **Prerequisite:** ECON 513 Instruction Mode: Lecture Grading Option: Letter

**ECON 521 Open Economy Macroeconomics**
Units: 4 Terms Offered: FaSpSm The balance of payments, macroeconomic policy in an open economy, exchange rate determination, exchange rate systems, currency crises, international financial arrangements and monetary history. **Prerequisite:** ECON 501 Instruction Mode: Lecture Grading Option: Letter

**ECON 523 Economic History and Development**
Units: 4 Historical trends in developed and developing societies in various aspects of modernization such as human resources, capital, technology, resource allocation, income distribution, international relations.

**Prerequisite:** ECON 303. Instruction Mode: Lecture Grading Option: Letter

**ECON 527 Theory of Value: Classical Origins and Neoclassical Critique**
Units: 4 Terms Offered: Fa Classical economic theory; its precursors, main contributors, extensions, and critics; focus upon the writings and ideas of Smith, Say, Malthus, Ricardo, Mill, and Marx. **Prerequisite:** ECON 303 and ECON 305. Instruction Mode: Lecture Grading Option: Letter

**ECON 533 Capstone Research Seminar**
Units: 2 Terms Offered: FaSp Provides Masters students with a centerpiece of their graduate experience whereby they are able to experience first-hand turning the theory of their studies into practice under the guidance of an experienced faculty member. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 537 Contracts, Organizations, and Institutions**
Units: 4 Information, property rights, bargaining, transaction costs, incentives, free-riding and contracting in organizations; the nature of cooperation; bureaucracies. **Prerequisite:** ECON 303. Instruction Mode: Lecture Grading Option: Letter

**ECON 538 Values and Social Analysis**
Units: 4 Factors that make values an essential feature of human society; how values develop, change, and are abandoned; role of values in economic development. **Prerequisite:** ECON 303. Instruction Mode: Lecture Grading Option: Letter

**ECON 541 Economic Development**
Units: 4 Development, underdevelopment and the problems thereof; agriculture, industry, trade, population, human capital, capital formation; structural, technological, environmental and institutional changes; political economy of the state. **Prerequisite:** ECON 303 and ECON 305. Instruction Mode: Lecture Grading Option: Letter

**ECON 570 Big Data Econometrics**
Units: 4 Terms Offered: FaSpProvides an introduction to the theory and practice of causal econometrics in modern settings of large-scale data. **Prerequisite:** MATH 225 and MATH 226G and ECON 513 Instruction Mode: Lecture Grading Option: Letter

**ECON 580 Antitrust Economics and Competition Policy**
Units: 4 Terms Offered: FaSpSm Efficiency, market failure, government regulation, some basics for antitrust economics, competition policy analysis and collusion and agreements among competitors. **Prerequisite:** ECON 500 or ECON 513. Instruction Mode: Lecture Grading Option: Letter

**ECON 584 Economic Consulting and Applied Econometrics**
Units: 4 Terms Offered: Fa, Sp Economic consulting and applied econometric methods applied to real world problems including issues of intellectual property, environmental damage, trademark infringement, brand value, and consumer demand. **Prerequisite:** ECON 303 and ECON 318 Instruction Mode: Lecture Grading Option: Letter

**ECON 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 593x Practicum in Teaching the Liberal Arts**
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students in Economics. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 594a Master's Thesis**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**ECON 594b Master's Thesis**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/NoCredit

**ECON 595 Research Seminar in Spatial Economics and Data Sciences**
Units: 4 Terms Offered: FaSpSmOriginal spatial analysis research; integrate econometrics, data creation, and spatial analytics. Instruction Mode: Lecture Grading Option: Letter

**ECON 596 Internship for Curricular Practical Training**
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSmPart-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 599 Special Topics**
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSmSelected topics in economics as developed by the instructor. Instruction Mode: Lecture Grading Option: Letter

**ECON 600 Economics of Choice**
Units: 4 Reviews the normative and positive theories of choice drawing upon recent theoretical and empirical work in cognitive and evolutionary psychology, artificial intelligence, linguistics and economics. **Prerequisite:** ECON 500. Instruction Mode: Lecture Grading Option: Letter

**ECON 601 Microeconomic Theory I**
Units: 4 Optimization of the consumer and the firm; duality and imputed value; perfect
and imperfect competition in product and factor markets. Prerequisite: ECON 401; Recommended Preparation: ECON 500. Duplicates Credit in former ECON 503. Instruction Mode: Lecture Grading Option: Letter

**ECON 602 Macroeconomic Theory I**
Units: 4 Aggregate demand, supply and government policy; theories of economic growth and business cycles; static and dynamic implications of government policies. Prerequisite: ECON 401. Duplicates Credit in former ECON 505. Instruction Mode: Lecture Grading Option: Letter

**ECON 603 Microeconomic Theory II**
Units: 4 Terms Offered: Sp General equilibrium theory; existence, uniqueness, and stability; welfare economics; social choice; dynamic models and uncertainty; special topics. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 604 Game Theory**
Units: 4 Strategies and equilibrium concepts; dynamic and repeated games; incomplete information and learning in games. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 605 Macroeconomic Theory II**
Units: 4 Terms Offered: Sp Macroeconomic theory based on the concepts of optimal growth and intertemporal equilibrium; overlapping generations models; recent developments in macroeconomic theory. Prerequisite: ECON 601 and ECON 602. Instruction Mode: Lecture Grading Option: Letter

**ECON 606 Behavioral Theories of Decision-Making**
Units: 4 Examination of behavioral theories used to describe and predict choices made in both an individual decision-making setting and strategic environments. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 607 Topics in Dynamic Optimization**
Units: 4 Theory and numerical methods for dynamic optimization and control; selected applications in economic analysis and econometrics. Prerequisite: ECON 502 and knowledge of FORTRAN. Instruction Mode: Lecture Grading Option: Letter

**ECON 608 Advanced Neuroeconomics**
Units: 4 Advanced methodology of neuroeconomics including neural activity, memory, value and reward systems, emotions, and risk. Prerequisite: ECON 503. Instruction Mode: Lecture Grading Option: Letter

**ECON 609 Econometric Methods**
Units: 4 Terms Offered: FaSp Review of statistical methods of estimation and inference, linear regression with multicollinearity and serial correlation; multivariate regression and simultaneous equations. Prerequisite: ECON 611. Duplicates Credit in former ECON 511. Instruction Mode: Lecture Grading Option: Letter

**ECON 610 Quantitative Analysis in Macroeconomics**
Units: 4 Terms Offered: Sp Dynamic economics, applied general equilibrium models, computational and calibration tools, discrete-state dynamic programming, log-linearization of Euler equations. Prerequisite: ECON 602, ECON 605. Instruction Mode: Lecture Grading Option: Letter

**ECON 611 Probability and Statistics for Economists**
Units: 4 Terms Offered: FaSp Introduction to probability theory and statistical inference to prepare students for graduate courses in econometrics and economic theory; probability, random variables, distributions, estimation, testing, asymptotics. Prerequisite: MATH 226. Duplicates Credit in former ECON 514. Instruction Mode: Lecture Grading Option: Letter

**ECON 612 Econometric Theory**
Units: 4 Inference and prediction, generalized and restricted least squares, specification analysis, multivariate and seemingly unrelated regressions, simultaneous equations techniques, dynamic models, instrumental variable estimation. Prerequisite: ECON 609. Instruction Mode: Lecture Grading Option: Letter

**ECON 613 Economic and Financial Time Series I**
Units: 4 Terms Offered: FaSimultaneous equation models, dynamic structural econometric models, vector autoregressions, causality, forecasting, univariate and multivariate nonstationary time series, tests for unit roots, cointegration, autoregressive conditional heteroskedasticity models, time series models with changes in regime. Prerequisite: ECON 609. Instruction Mode: Lecture Grading Option: Letter

**ECON 614 Economic and Financial Time Series II**
Units: 4 Terms Offered: Sp Stock returns, predictability and volatility, random walk and variance-bounds tests, estimation of capital asset, multifactor, and derivative pricing models, term structure of interest rates. Prerequisite: ECON 604. Instruction Mode: Lecture Grading Option: Letter

**ECON 615 Applied Econometrics**
Units: 4 Terms Offered: FaUse of quantitative models to describe and forecast economic activity; estimation and application of such models to selected policy problems. Prerequisite: ECON 609. Instruction Mode: Lecture Grading Option: Letter

**ECON 616 Experimental Economics**
Units: 4 Laboratory methods for testing economic theory; experimental comparison of alternative market and non-market institutions; identification of behavioral responses to alternative regulations. Prerequisite: ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 620a Experimental Methods**
Units: 2 Experimental methods of and design of computer-based experiments. Use of standard software for data collection in individual decision-making experiments and games. Prerequisite: ECON 601; Recommended Preparation: ECON 616. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**ECON 620b Experimental Methods**
Units: 2 Experimental methods relying on non-choice data. Design methods of experiments that record information in decision-making and physiological data of emotions. Prerequisite: ECON 601; Recommended Preparation: ECON 616. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**ECON 625 Economic Analysis of Social Networks**
Units: 4 Terms Offered: FaSp Mathematical tools for the study of social and economic networks. Prerequisite: ECON 609 Recommended Preparation: ECON 615 Instruction Mode: Lecture Grading Option: Letter

**ECON 633 Law and Economics**
Units: 4 Terms Offered: Sp (Enroll in LAW 633)

**ECON 634 Political Economy of Institutions**
Units: 4 The functions of laws, rules, customs, conventions, and other restrictions on economic and social activity. Theories of institutional evolution. Prerequisite: ECON 500 or ECON 601. Duplicates Credit in former ECON 534. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PEPPE-634

**ECON 636 Health Economics I**
Units: 4 Terms Offered: FaTechniques of microeconometric analysis to inform health policy. Topics include: demand for health, medical care, and insurance, risk selection, medical innovation. Recommended Preparation: ECON 601, ECON 611 Duplicates Credit in former PMEP 534 Instruction Mode: Lecture Grading Option: Letter Crosslisted as PMEP 534

**ECON 639 Contemporary Economic Policy: Theory and Practice**
Units: 4 History and analysis of the fundamental continuing policy issues: recession, inflation, public debt, regulation, international competition, energy resources and environmental issues, welfare and income distribution. Prerequisite: ECON 500 and ECON 501. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PEPPE-639

**ECON 641 Empirical Analysis of Economic Development**
Units: 4 Terms Offered: FaSp Theory and empirics of the sources of and barriers to economic development and the micro underpinnings of macroeconomic dynamics of growth, inequality, and productivity. Prerequisite: ECON 601, ECON 609. Instruction Mode: Lecture Grading Option: Letter

**ECON 642 Poverty, Human Resources and Economic Development**
Units: 4 Terms Offered: FaSpSm Household production models and intra-household models of behavior and their empirical implementation, focus on poverty, human...
resource investments and their interaction with public policies. Prerequisite: ECON 501, ECON 609. Instruction Mode: Lecture Grading Option: Letter

**ECON 644 Economic Development Programming and Policy Planning**  
Units: 4 Model construction and application to policy and planning: open economy macroeconomics, trade and investment, institutions, technology, income inequality, environment, policy reforms, political economy. Prerequisite: ECON 501 or ECON 602, ECON 609 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 645 Economic Growth**  
Units: 4 Terms Offered: Fa Surveys theoretical and empirical developments in growth macroeconomics. To equip students to undertake frontier research and policy work to reduce global income inequality. Prerequisite: ECON 602. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

**ECON 650 International Trade Theory**  
Units: 4 General equilibrium theory applied to theory and practice of commercial policy, economic growth, and trade. Prerequisite: ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 651 International Monetary Theory**  
Units: 4 Balance of payments concepts and measures; price theory and the foreign exchange market; international monetary systems; adjustment mechanisms; speculation and official intervention. Prerequisite: (choose two): ECON 500 or ECON 501 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 652 Economics of Financial Markets I**  
Units: 4 Terms Offered: Sp Financial market equilibrium and partial equilibrium asset pricing in discrete and continuous time; properties of equilibria with and without complete markets; theory of option prices; Black-Scholes pricing formula; term structure of interest rates; hedging strategies and managing market risk using options, futures and swaps; hedging exchange-rate risks. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 653 Empirical International Economics**  
Units: 4 Empirical treatment of advanced topics in international finance including the determination of real and nominal exchange rates; stabilization policies in developing currencies and currency crisis models. Econometric methods in analyzing foreign exchange data and in forecasting. Prerequisite: ECON 501, ECON 513, Recommended Preparation: ECON 625, ECON 651. Instruction Mode: Lecture Grading Option: Letter

**ECON 659 Economics of Financial Markets I**  
Units: 4 Terms Offered: Fa Equilibrium model of finance economy; absence of arbitrage; complete and incomplete markets; asset pricing theory; representative agent pricing. Capital Asset Pricing Model, martingale property of security prices. Prerequisite: ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 663 Financial and Monetary Macroeconomics**  
Units: 4 Terms Offered: FaSp Macroeconomic models of financing and nominal rigidities. Focuses on the ways through which the financial system or financing constraints can affect macroeconomic fluctuations. Prerequisite: ECON 601 and ECON 602 and ECON 605 and ECON 611 Instruction Mode: Lecture Grading Option: Letter

**ECON 671 Economics of Labor and Human Capital**  
Units: 4 A human capital interpretation of labor demand and supply; wage determination, differentials, and discrimination; job turnover and occupational mobility; unions and collective bargaining. Prerequisite: ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 673 Program Evaluation**  
Units: 4 This course first proposes various means of evaluating an economic program. It then applies the tools to specific problems. Prerequisite: ECON 500 or ECON 601; ECON 609. Instruction Mode: Lecture Grading Option: Letter

**ECON 680 Industrial Organization**  
Units: 4 Decision making, economic behavior and organization in firms; types of competition and market structure; property rights, nonprofit decision making. Prerequisite: ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 681 Economics of Regulated Industries**  
Units: 4 Theories and methods of government regulation; effects of regulation on various industries; behavior of regulatory agencies. Prerequisite: ECON 500 or ECON 601. Instruction Mode: Lecture Grading Option: Letter

**ECON 682 Urban Economics**  
Units: 4 Terms Offered: Fa, Sp Economic models will be used to understand the main facts observed in cities in the developed and developing world. Special attention will be paid to empirical hypothesis testing and developing an urban economics research agenda. Students will be exposed to new data sets being collected using Smart Phones and other novel technologies that have greatly expanded our ability to test relevant hypotheses. Prerequisite: ECON 500 and ECON 501. Instruction Mode: Lecture Grading Option: Letter

**ECON 688 Empirical Industrial Organization**  
Units: 4 Econometric analysis of industrial organization issues including industry regulation and deregulation, collisions and pricing in differentiated oligopolistic markets, entry and exit, auction mechanisms, contractual relationships. Prerequisite: ECON 601, ECON 603; Recommended Preparation: ECON 600, ECON 603, ECON 612, ECON 615, ECON 680. Instruction Mode: Lecture Grading Option: Letter

**ECON 690 Seminar in Economic Theory**  
Units: 2 Max Units: 8.0 Terms Offered: FaSp Students and faculty present research in economic theory presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 691 Seminar in Econometrics**  
Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in econometrics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 692 Seminar in Economic Development**  
Units: 2 Max Units: 8.0 Terms Offered: FaSp Current research in international, regional, and urban development economics presented by faculty, students and outside scholars. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 693 Seminar in Applied Economics and Public Policy**  
Units: 2 Max Units: 8.0 Terms Offered: FaSp Topics in dynamic economics involving business fluctuations, economic growth and development, micro-economic adjustments and market mechanisms; related quantitative and qualitative methods; empirical research involving economic change. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 694 Seminar in Dynamic Economics**  
Units: 2 Max Units: 8.0 Terms Offered: FaSp Topics in dynamic economics involving business fluctuations, economic growth and development, micro-economic adjustments and market mechanisms; related quantitative and qualitative methods; empirical research involving economic change. Application of mathematical finance to real financial markets. Instruction Mode: Lecture Grading Option: Letter

**ECON 695 Internship in Mathematical Finance**  

**ECON 696 Empirical Microeconomics Seminar**  
Units: 2 Max Units: 8.0 Terms Offered: FaSp Presentations on current research in empirical microeconomics by outstanding scholars from leading economics departments and faculty at USC. Registration Restriction: Open only to Economics Ph.D. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**ECON 715 Advanced Topics in Econometrics**  
Units: 4 Time-series methods; aggregation; structural models and methods such as factor analysis and multiple indicator models; various special topics. Prerequisite: ECON 612 and ECON 613. Instruction Mode: Lecture Grading Option: Letter
COURSES OF INSTRUCTION

EDCO 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctoral degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDCO 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDCO 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Counseling
EDCO 630x The Process of Paraprofessional Counseling for Young Adults
Units: 2 Terms Offered: Sp Explores the theoretical processes involved in paraprofessional counseling with specific application to issues faced by young adults. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 324m Asian American Psychology
Units: 4 Terms Offered: Sp Psychological issues of Asian Americans such as cultural identity, intergenerational conflict, stereotypes, interracial dating and marriage, educational achievement, and mental health. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 503 Ethical and Legal Issues in Counseling
Units: 3 Terms Offered: Sp Examination of current legal, ethical, and other professional issues in the practice of counseling and psychotherapy. Prerequisite: EDCO 500. Instruction Mode: Lecture Grading Option: Letter

EDCO 504 Behavior Management in the Classroom
Units: 3 Terms Offered: Sp Analysis of student behavior in school settings. Emphasis is on a problem-solving functional approach to behavioral changes. Instruction Mode: Lecture Grading Option: Letter

EDCO 505 Counseling and Collaborative Consultation in the School Setting
Units: 3 Terms Offered: Sp Theory and practice of collaborative consultations provided by school counselors and school psychologists to improve student achievement and the learning environment. Instruction Mode: Lecture Grading Option: Letter

EDCO 506 Development, Administration and Evaluation of Pupil Personnel Services
Units: 3 Terms Offered: FaSp Develop skills in the evaluation and management of pupil personnel services programs in the public schools for comprehensive support of student learning and achievement. Instruction Mode: Lecture Grading Option: Letter

EDCO 541 Theories in Counseling
Units: 3 Terms Offered: FaSp Theory, research, and practice of psychological counseling. Corequisite: EDCO 550. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 547 School Counseling Practicum
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Supervised practice in school counseling. Prerequisite: EDCO 550, EDCO 541. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDCO 575 School Counseling Field Experience
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Supervised field experience in applying knowledge and skills within a K-12 school setting. Prerequisite: EDCO 574. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDPO 500 Foundations of Higher, Adult, and Professional Education
Units: 3 Terms Offered: FaSp Degree education in the United States; analytic perspectives from various disciplines (history, philosophy, sociology); implications for policy and practice. Instruction Mode: Lecture Grading Option: Letter

EDHP 502 Administration of Higher, Adult, and Professional Education
Units: 3 Terms Offered: Sp Policies and theories for governance and management. Relations between historical and contemporary organizational processes in postsecondary education. Critique and applications of current research. Instruction Mode: Lecture Grading Option: Letter

EDHP 503 Curriculum, Teaching, and Learning in Higher, Adult, and Professional Education
Units: 3 Terms Offered: Sp Curriculum, teaching, and learning strategies for general, vocational, and professional education; planning for lifelong learning; theories, policies, and practices for higher, adult, and professional education. Instruction Mode: Lecture Grading Option: Letter

EDHP 551 Applied Educational Ethnography
Units: 3 Terms Offered: Fa Research for improving leadership in higher, adult, and professional education. Ethnographically motivated field designs, observations, focused and unstructured interviews and unobtrusive techniques. Instruction Mode: Lecture Grading Option: Letter

EDHP 552 The Politics of Difference
Units: 3 Explores strategies for restructuring institutions of higher education to improve student support and achievement among historically marginalized groups. Instruction Mode: Lecture Grading Option: Letter

EDHP 560 Feminist Theory
Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

EDHP 563 Student Affairs Work in College
Units: 3 Terms Offered: FaSpSm Corequisites, services, and organizational patterns of student affairs programs and services for two-year, four-year and professional higher education institutions. Instruction Mode: Lecture Grading Option: Letter

EDHP 565 Intervention Strategies in College Student Development
Units: 3 Terms Offered: FaSpSm Exploration of current campus issues such as violence, diversity and academic remediation, and their related intervention strategies (policy-based, programmatic, and counseling-based). Instruction Mode: Lecture Grading Option: Letter

EDHP 580 The Community College
Units: 3 Terms Offered: SpSm The community college movement; history; aims; curriculum; types of administrative organization; teaching procedures; relation to lower and higher institutions; profiles of faculty and students; evaluation. Instruction Mode: Lecture Grading Option: Letter

EDHP 587 Fieldwork in Higher, Adult, and Professional Education
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Structured participation in supervised teaching or administrative activities. Assignments matched with student's goals, training, experience. Recommended Preparation: EDHP 563, EDHP 565. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 593a Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594c). Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 593b Master's Seminar
Units: 2 Terms Offered: FaSpSm An examination and analysis of research and literature in the student's area of focus. Required for all master's candidates who do not enroll in the Master's Thesis (EDHP 594a, EDHP 594b, EDHP 594c). Instruction Mode: Lecture Grading Option: Credit/No Credit

EDHP 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
**EDHP 594b Master's Thesis**
Units: 2 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**EDHP 594z Master's Thesis**
Units: 0 Terms Offered: FaSpSm Required for all master's candidates who do not enroll in the Master's Seminar (EDHP 593a, EDHP 593b). Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**EDHP 657 Management of Student Services in Higher Education**
Units: 3 Terms Offered: SpLab Required Grading Option: Letter

**EDHP 667 Legal Issues in the Administration of Higher Education**
Units: 3 Terms Offered: Sm Analysis of legal issues related to the administration of higher education; emphasis on relations with students, faculty, staff, alumni, and campus communities. Prerequisite: EDHP 500 or appropriate experience. Instruction Mode: Lecture Grading Option: Letter

**EDHP 687 Student Development in Higher Education**
Units: 3 Terms Offered: Sp Theories of college student development and application of developmental models to program design, interventions, outreach, and research programs. Instruction Mode: Lecture Grading Option: Letter

**Educational Policy, Planning and Administration**

**EDPA 308 Politics and American Education**
Units: 4 Terms Offered: FaSpSm Historical study of political, legislative, judicial decisions that have shaped American education; interaction of educators, courts, legislative bodies; emphasis on in-depth analysis of current issues. Instruction Mode: Lecture Grading Option: Letter

**EDPA 612 Qualitative Methods in Educational Research**
Units: 3 Terms Offered: SpSm Overview of the assumptions, methods and techniques of qualitative educational research; discussion and application of analytical tools derived from anthropology, sociology, history, and related social sciences. Instruction Mode: Lecture Grading Option: Letter

**Educational Psychology and Technology**

**EDPT 310 Parental Influences on Children's Educational Development**
Units: 4 Terms Offered: FaSpSm Basic principles and theories of child development and learning with emphasis on parent-child, parent-school, and child-school relationships. Instruction Mode: Lecture Grading Option: Letter

**EDPT 502 Learning and Individual Differences**
Units: 3 Terms Offered: FaSpSm Theory and research in learning, development, and individual differences, and social psychology related to education or training contexts. Instruction Mode: Lecture Grading Option: Letter

**EDPT 540 Introduction to Educational Measurement and Evaluation**
Units: 3 Terms Offered: FaSpSm Survey of theories, concepts, and procedures for assessing intellectual and non-intellectual characteristics and for evaluating individual and program performances. Instruction Mode: Lecture Grading Option: Letter

**EDPT 550 Statistical Inference**
Units: 3 Terms Offered: FaSpSm Application of statistical techniques in education; emphasis on underlying principles and concepts coupled with selected inferential techniques using desk-top computer software. Instruction Mode: Lecture Grading Option: Letter

**EDPT 557 Language and Cultural Diversity in Learning**
Units: 3 Terms Offered: FaSpSm Analysis of current research and theory regarding the influences of language and culture on learning and cognition, with a special focus on academic achievement and instructional transactions. Instruction Mode: Lecture Grading Option: Letter

**EDPT 559 Technology in Contemporary Education and Training**
Units: 3 Terms Offered: FaSpSm Development and scope of instructional technology and its role in modern educational and training systems; overview of instructional development; innovation and trends in the field. Instruction Mode: Lecture Grading Option: Letter

**EDPT 642 Measurement Theory**
Units: 3 Terms Offered: FaMathematical concepts and psychometric theory underlying test construction and interpretation; emphasis on current research in the area. Prerequisite: EDPT 652. Instruction Mode: Lecture Grading Option: Letter

**EDPT 652 Multiple Regression**
Units: 3 Terms Offered: SpApplied multiple regression analysis using Stata. Recommended Preparation: Introductory Statistics Instruction Mode: Lecture Grading Option: Letter

**EDPT 654 Multivariate Statistical Techniques**
Units: 3 Terms Offered: FaSpSm Multivariate statistical procedures in the analysis of behavioral inquiries; particular emphasis on multivariate analysis of variance. Prerequisite: EDPT 652. Instruction Mode: Lecture Grading Option: Letter

**EDPT 655 Advanced Research Methods in Education**
Units: 3 Terms Offered: Sp Focuses on principles of research design in education including literature synthesis, formulation of research problem and questions, selection of methodology and integration of research proposal. Prerequisite: EDPT 550. Instruction Mode: Lecture Grading Option: Letter

**Education**

**EDUC 140m Mind, Belief and Behavior: Learning in a Diverse World**
Units: 4 Terms Offered: FaSpSm Examination of current research about learning and motivation in the context of human diversity. Instruction Mode: Lecture Grading Option: Letter

**EDUC 200 Introduction to the Teaching Profession**
Units: 2 Identification and discussion of current issues and trends in schools and the teaching profession. Introduction to the development of a professional portfolio. Instruction Mode: Lecture Grading Option: Letter

**EDUC 204L Sociological Foundations of Education**
Units: 3 Terms Offered: FaSpSm Introduction to the sociological foundations of education through focused study of schools, teacher-student relations, and classroom processes as they relate to social stratification. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**EDUC 205L Child Development and Learning in Schools**
Units: 3 Terms Offered: FaSpSm Introduction to processes of development and learning in school aged children, with an emphasis on school contexts. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**EDUC 210 Breaking the Code of College Success**
Units: 2 Terms Offered: SpSm Examination and application of research-based self-regulation and learning strategies to increase performance outcomes in any academic subject. Duplicates Credit in EDPT 110 Instruction Mode: Lecture Grading Option: Letter

**EDUC 392 Undergraduate Research Methods**
Units: 2 Terms Offered: SpSm Overview of research and current theories in bilingual, second language, and foreign language instruction. Instruction Mode: Lecture Grading Option: Letter

**EDUC 409 Foundations of Language Education**
Units: 3 Terms Offered: FaSpSm Overview of research and current theories in bilingual, second language, and foreign language instruction. Instruction Mode: Lecture Grading Option: Letter

**EDUC 410 The Teaching of Reading and Writing**
Units: 4 Terms Offered: FaSpSm Analysis of reading/writing processes; methods/materials for teaching literacy in elementary schools; issues in biliteracy and instruction; classroom observation/participation in small-group instruction. Admission to the major. Instruction Mode: Lecture Grading Option: Letter

**EDUC 411 Foundation of TESOL**
Units: 4 Terms Offered: FaSpSm Focuses on principles of research design in education including language systems and acquisition influence, English language learning and teaching. Instruction Mode: Lecture Grading Option: Letter
EDUC 422 Instructional Methods in TESOL
Units: 4 Terms Offered: FaSp Introduction to approaches in Teaching English to Speakers of Other Languages and methods for teaching reading, writing, listening, speaking, and access to schooling and quality education across student difference indexed by race, class and gender. Promotes understanding of U.S. public schooling for equitable outcomes. Instruction Mode: Lecture Grading Option: Letter
EDUC 423 Unrealized Promise and Hope for Education in 21st Century
Units: 4 Terms Offered: FaSpSm Investigates the promise of education and often-failed outcomes though the lens of literacy/language. Focuses on literacy to promote student agency for successful educational attainment. Recommended Preparation: Freshman Seminar on a topic in education Instruction Mode: Lecture Grading Option: Letter
EDUC 424a Curriculum and Methods in Elementary Education
Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. Concurrent Enrollment: concurrent enrollment: EDUC 425a Instruction Mode: Lecture Grading Option: Letter
EDUC 424b Curriculum and Methods in Elementary Education
Units: 2 Terms Offered: FaSp Curriculum materials and teaching procedures in the elementary school. Concurrent Enrollment: concurrent enrollment: EDUC 425b Instruction Mode: Lecture Grading Option: Letter
EDUC 425a Observation and Directed Teaching in Elementary Schools
Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). Concurrent Enrollment: Concurrent enrollment: EDUC 424a. Instruction Mode: Lecture Grading Option: Letter
EDUC 425b Observation and Directed Teaching in Elementary Schools
Units: 3 Terms Offered: FaSp Observation and experience in teaching under supervision in elementary schools (one semester at the kindergarten-primary level and one semester in the intermediate or upper grades). Concurrent Enrollment: Concurrent enrollment: EDUC 424b. Instruction Mode: Lecture Grading Option: Letter
EDUC 426 Educational Inquiry
Units: 4 Terms Offered: FaSp Introduction to the skills and knowledge required to be competent consumers and producers of education research. Students will be asked to design an educational study. Instruction Mode: Lecture Grading Option: Letter
EDUC 427 Vectors that Influence Early Childhood Development
Units: 4 Terms Offered: FaSp Investigating early childhood issues from professional perspectives: historian, journalist, premedical, and law. Instruction Mode: Lecture Grading Option: Letter
EDUC 428 The Effects of Curriculum and Institution on Early Childhood
Units: 4 Terms Offered: FaSp The study of research, philosophy, and pedagogy that informs political, parents, community members, schools and their curriculum. Instruction Mode: Lecture, Lab Grading Option: Letter
EDUC 429 Early Childhood and Contemporary Society
Units: 4 Terms Offered: FaSp Consequences of "corporate world" on developing expectations of young children as consumers and scholars, an emphasis on films, television, and toys that effect intellectual growth. Instruction Mode: Lecture Grading Option: Letter
EDUC 430 Early Childhood: Action Research Focus
Units: 4 Terms Offered: FaSp Selecting an instructional or developmental problem of young children to investigate through an action research design. Instruction Mode: Lecture Grading Option: Letter
EDUC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter
EDUC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in education. Specific topics to be determined at the time seminar is offered. Instruction Mode: Lecture Grading Option: Letter
EDUC 500 The Counseling Process
Units: 3 Theoretical foundations, models, values, and assumptions underlying psychological counseling; cross-cultural perspectives, ethical and legal considerations. Concurrent Enrollment: Concurrent enrollment: EDUC 507. Duplicates Credit in former EDCC 500. Instruction Mode: Lecture Grading Option: Letter
EDUC 501 Instruction for Teaching English as a New Language
Units: 3 Theoretical foundations, models, values, and assumptions underlying psychological counseling; cross-cultural perspectives, ethical and legal considerations. Concurrent Enrollment: Concurrent enrollment: EDUC 507. Duplicates Credit in former EDCC 500. Instruction Mode: Lecture Grading Option: Letter
EDUC 502a Teaching Science in Secondary Classrooms
Units: 3, 4 Terms Offered: FaSpSm Teaching linguistically and culturally responsively to linguistic minority students. Topics include learning theories, sociocultural contexts of language development, and assessment of language and non-language competencies. Open only to MAT and MAT (online) students. Registration Restriction: Open only to MAT and TESOL students. Duplicates Credit in EDUC 543ab. Instruction Mode: Lecture Grading Option: Letter
EDUC 502b Teaching Science in Secondary Classrooms
Units: 3, 4 Terms Offered: FaSpSm Teaching linguistically and culturally responsively to linguistic minority students. Topics include learning theories, sociocultural contexts of language development, and assessment of language and non-language competencies. Open only to MAT and MAT (online) students. Registration Restriction: Open only to MAT and TESOL students. Duplicates Credit in EDUC 543ab. Instruction Mode: Lecture Grading Option: Letter
Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Duplicates Credit in EDUC 539. Instruction Mode: Lecture Grading Option: Letter

EDUC 503 Learning and Motivation
Units: 3 Terms Offered: FaSpSm Design and advancement of learning and motivation outcomes in various environments through a systematic examination and application of current research. Instruction Mode: Lecture Grading Option: Letter

EDUC 504 Foundations of Literacy Development and Instruction
Units: 2 Terms Offered: FaSpSm Application of a balanced, integrated, interactive perspective to teaching reading in an elementary classroom. Foundational skills needed in the developmental phase of learning to read. Open only to MAT Multiple Subject and Multiple Subject (online) students. Registration Restriction: Open only to MAT Multiple Subject students. Instruction Mode: Lecture Grading Option: Letter

EDUC 505 Integrating Literacy in Secondary Content Instruction
Units: 2 Terms Offered: FaSpSm Facilitation, mediation and intervention in the development of literacy and language integrated within the content areas. Connection between language and literacy to developing content knowledge. Open only to MAT Single Subject, Single Subject (online), TESOL and TESOL (online) students. Instruction Mode: Lecture Grading Option: Letter

EDUC 506 New Media Literacies in High Needs Schools
Units: 2 Terms Offered: FaSpSm Instructional procedures and resources for encouraging secondary students’ interests in communications, cultural studies, media production, and literacy education. Open only to MAT Single Subject, Single Subject (online), TESOL and TESOL (online) students. Instruction Mode: Lecture Grading Option: Letter

EDUC 507 Professional Identity, Law and Ethics for Counselors
Units: 3 History of the field of counseling and professional identity development for counselors are addressed. Examination of current legal, ethical, and other professional issues in counseling. Concurrent Enrollment: Concurrent enrollment: EDUC 500. Instruction Mode: Lecture Grading Option: Letter

EDUC 508 Creating Communities of Interest
Units: 2 Terms Offered: FaSpSm Framing the graduate experience for master’s students. Establishing a professional foundation and philosophy as educators. Instruction Mode: Lecture Grading Option: Letter

EDUC 509a Teaching Mathematics in Secondary Classrooms
Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching mathematics to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (Online). Instruction Mode: Lecture Grading Option: Letter

EDUC 509b Teaching Mathematics in Secondary Classrooms
Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching mathematics to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (Online). Duplicates Credit in EDUC 545. Instruction Mode: Lecture Grading Option: Letter

EDUC 510 Theories of Language Learning and Teaching
Units: 3 Terms Offered: FaSpSm Application of learning theories to the design of second language instruction and student assessment to promote motivation, investment, self-regulation and engagement among language learners. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages Instruction Mode: Lecture Grading Option: Letter

EDUC 511 Introduction to Counseling
Units: 3 Terms Offered: Fa The role of the school counselor. An overview of key elements in increasing access to and equity for primary and secondary education for all students. Instruction Mode: Lecture Grading Option: Letter

EDUC 512 Reading and Writing Methods for Secondary Teaching
Units: 2 Terms Offered: Fa Analysis of reading/writing processes; methods for teaching literacy in grades 9–12: issues in biliteracy and instruction. Instruction Mode: Lecture Grading Option: Letter

EDUC 513a Teaching English Language Arts in Secondary Classrooms
Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching English to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 513b Teaching English Language Arts in Secondary Classrooms
Units: 3, 4 Terms Offered: FaSpSm Strategies, methods, and materials for teaching English to all learners in secondary classrooms. Open only to MAT Single Subject and Single Subject (online) students. Registration Restriction: Open only to Single Subject Teaching and Single Subject Teaching (online). Duplicates Credit in EDUC 555. Instruction Mode: Lecture Grading Option: Letter

EDUC 514 School Counseling Seminar
Units: 3 Terms Offered: Sp Current issues and problems in school counseling; emphasis is on K–12 learning and achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 515 Theories of Marriage and Family Therapy
Units: 3 Major psychotherapeutic orientations relating to family systems, marital relationships, and communications theory applied to the family unit. Prerequisite: EDUC 500, EDUC 507, EDCO 541. Instruction Mode: Lecture Grading Option: Letter

EDUC 516 Framing the Social Context of High Needs Schools
Units: 3 Terms Offered: FaSpSm Introduction to the Master of Arts in Teaching Program. Relationship between the actions of the teacher and student learning in the classroom and school context. Open only to MAT and MAT (online) students. Duplicates Credit in EDUC 517ab. Instruction Mode: Lecture Grading Option: Letter

EDUC 518 Application of Theories of Learning to Classroom Practice
Units: 3 Terms Offered: FaSpSm Learning theories and instructional practices for teaching. Procedures involved in curriculum development, planning, evaluation, and practical application. Open only to MAT and MAT (online) students. Registration Restriction: Open only to Multiple Subject Teaching, Multiple Subject Teaching (online), Single Subject Teaching, and Single Subject Teaching (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 519 Human Differences
Units: 3 Equity and diversity in learning environments. Issues in teaching special populations. Beliefs about how people learn. Inclusive environment for special populations in the general classroom. Open only to MAT and MAT (online) students. Registration Restriction: Open only to Single Subject (Music Education), Multiple Subject Teaching, Multiple Subject Teaching (online), Single Subject Teaching, and Single Subject Teaching (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 520 Counseling for College and Career Readiness I
Units: 2 Terms Offered: Fa Theoretical foundations of individual and systemic characteristics that impact college and career choices. Consideration of economic, political, social, and policy issues. Instruction Mode: Lecture Grading Option: Letter

EDUC 521 Assessment and Instruction for Diverse Language Learners
Units: 3 Terms Offered: FaSpSm Assessment practices and strategies in English language instruction with special attention to learner differences (social, cultural, physical, intellectual) that influence academic performance. Open only to MAT TESOL and TESOL (online) students. Registration Restriction: Open only to Teaching English to Speakers of Other Languages and Teaching English to Speakers of Other Languages (online). Instruction Mode: Lecture Grading Option: Letter

EDUC 522 Challenges in Urban Education: Accountability
Units: 3 Terms Offered: Sp Issues related
to accountability theory and practice in urban education settings. Open only to EdD students. Registration Restriction: Open only to EdD. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 523 Challenges in Urban Education: Diversity
Units: 3 Terms Offered: Fa Diversity issues in urban educational settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 524 Challenges in Urban Education: Leadership
Units: 3 Terms Offered: Sp Theories, principles, and concepts of leadership in urban K–12 schools and institutions of higher education. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 525 Challenges in Urban Education: Learning
Units: 3 Terms Offered: Fa Theory and research in learning, motivation, and instruction for diverse educational settings. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter

EDUC 527 Assessment in the Language Classroom
Units: 2 Terms Offered: Sm Introduces students to relevant research in language assessment, reviews concepts of reliability and validity and examines assessment practices in the classroom. Instruction Mode: Lecture Grading Option: Letter

EDUC 528 Course Proposal Project
Units: 2 Terms Offered: Sm Using a framework of course development, students present a course proposal, linking the theoretical, methodological and practical principles gained from all course work in the program. Instruction Mode: Lecture Grading Option: Letter

EDUC 529 Political and Academic Issues Affecting Gifted Students
Units: 3 Terms Offered: FaSpSm Examination of the political and academic issues affecting gifted and high-ability students. Psychosocial reasons contributing to achievement and underachievement. Institutional and personal factors inhibiting potential. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students
Units: 3 Terms Offered: FaSpSm Recognizing the talent and potential of gifted and high ability students. How gifted education can be generalized to affect the education of all students. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 531 Student Disability Issues in Higher Education
Units: 3 Terms Offered: Fa History of the disability movement; current research on the success of students with disabilities in higher education; legal and management issues. Instruction Mode: Lecture Grading Option: Letter

EDUC 532 Inquiry Methods I
Units: 3 Terms Offered: Sp Logic and methods of quantitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 533 School Leadership: Theory and Practice
Units: 3 Terms Offered: Fa Theories and principles of leadership and the application of principles to solve authentic problems in elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 535 Teaching Secondary English and Language Arts
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching English in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 536 Inquiry Methods II
Units: 3 Terms Offered: Sp Logic and methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 537 Leading with the Community and Culture in Context
Units: 3 Terms Offered: Sp Creating a positive culture of learning to promote student success. Strategies to engage diverse communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 538 Entrepreneurial School Leadership
Units: 2 Terms Offered: Fa Entrepreneurial opportunities in education. Developing the skills and knowledge for entrepreneurial leadership to improve educational outcomes. Instruction Mode: Lecture Grading Option: Letter

EDUC 539 Teaching Secondary Science
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching science in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 541a Teaching Social Studies in Secondary Classrooms
Units: 3 Strategies, methods, and materials for teaching social studies to all learners in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 541b Teaching Social Studies in Secondary Classrooms
Units: 3 Strategies, methods, and materials for teaching social studies to all learners in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 542 Theories and Practice
Units: 3 Terms Offered: FaTheories and methods of quantitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 543A Measurement Procedures for Counselors
Units: 3 Educational and psychological instruments; psychometric concepts and the rationale for the use of psychological instruments in the counseling relationship. Duplicates Credit in former EDUC 544. Instruction Mode: Lecture Grading Option: Letter

EDUC 545 Teaching Secondary Mathematics
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching mathematics in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 546 Psychopathology for Marriage and Family Therapy
Units: 3 Theories of psychological impairment emphasizing diagnosis of child and family dysfunction. Practice in utilizing DSM-IV classification of case studies. Duplicates Credit in former EDCO 546. Instruction Mode: Lecture Grading Option: Letter

EDUC 547 Career Development: Theory and Process
Units: 3 Theories and process of career development; principles of career and leisure planning and counseling applicable throughout life. Duplicates Credit in former EDCO 548. Instruction Mode: Lecture Grading Option: Letter

EDUC 548 Data-Driven Leadership for Schools
Units: 3 Terms Offered: Sm Analyzing, interpreting, and using data to increase effectiveness of instruction and programs, improve student learning, and reduce or eliminate the achievement gap. Instruction Mode: Lecture Grading Option: Letter

EDUC 549 Supervising Instruction for Optimal Learning
Units: 3 Terms Offered: Sm Application of adult learning theory to evaluate instruction. Appropriate professional development to improve student achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 550 Multimedia Literacy
Units: 3 Terms Offered: FaSpSm Applying new technology in the classroom. Exploration of the use of multimedia tools to increase literacy. Examination of multiple forms of technology to facilitate learning. Open only to MAT and Gifted Education Certificate students. Instruction Mode: Lecture Grading Option: Letter

EDUC 551 Teaching Physical Education
Units: 1 Terms Offered: FaSpSm Instructional approaches for integrating physical education content across the elementary curriculum. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter
EDUC 552 Literacies in the Content Area
Units: 3 Terms Offered: FaSpSm Literacy and language within content areas.
Developing reading, writing, speaking and listening skills for real audiences. Academic language. Instruction Mode: Lecture Grading Option: Letter

EDUC 553 Psychopharmacology and the Effects of Substance Abuse
Units: 3 Terms Offered: Sp Focus on the effects of psychotropic medication, alcohol, and other substances on behavior. The professional and ethical issues for marriage and family therapists. Instruction Mode: Lecture Grading Option: Letter

EDUC 554 Visual and Performing Arts in Elementary Subjects
Units: 2 Terms Offered: FaSpSm Instructional approaches for integrating visual and performance arts content across the elementary curriculum. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 555 STEM Education in Secondary Classrooms
Units: 3 Terms Offered: FaSpSm Developing innovative practices in designing inquiry-based lesson plans to facilitate integrating the STEM disciplines as a foundation for teaching. Instruction Mode: Lecture Grading Option: Letter

EDUC 556 Integrating English Language Arts and Social Studies
Units: 3 Terms Offered: FaSpSm Strategies and methods for integrating English language arts in social studies classrooms. Reinforces the concept of social studies as a conduit to further student learning. Open only to MAT Multiple Subject and Multiple Subject (online) students. Duplicates Credit in EDUC 567. Instruction Mode: Lecture Grading Option: Letter

EDUC 557 Civics Education
Units: 3 Terms Offered: FaSpSm Uses of pedagogical practices for increasing student engagement in the study of history and civics. Becoming critical thinkers, problem solvers, and effective citizens. Instruction Mode: Lecture Grading Option: Letter

EDUC 558 Culture Learning in Schools: Latino
Units: 3 History, values, beliefs, and the demography of Spanish-speaking people; implications for the American classroom. Conducted in English. No previous knowledge of Latino culture is needed. Registration Restriction: Open only to USC Rossier School of Education students. Instruction Mode: Lecture Grading Option: Letter

EDUC 559 Discourse Analysis and Technology in STEM Classrooms
Units: 3 Terms Offered: FaSpSm Using multiple assessment strategies and technology to assess mathematical and scientific thinking and performance. Instruction Mode: Lecture Grading Option: Letter

EDUC 560 Primary Language Instruction in a Bilingual Setting
Units: 3 Terms Offered: Fa Bilingual programs, their goals, personnel, teaching methods, and materials. Instruction Mode: Lecture Grading Option: Letter

EDUC 561 TESOL Instruction and Methods of Teaching A
Units: 3 Overview of approaches and methods in TESOL. Topics include curriculum and lesson planning, lesson sequencing and delivery and methods for teaching reading, writing, speaking and listening. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages. Instruction Mode: Lecture Grading Option: Letter

EDUC 562 Teaching English to Speakers of Other Languages Pedagogy II
Units: 3 Introduction to microcomponents of effective teaching, including curriculum and lesson planning, lesson sequencing and delivery, and creating a classroom environment conducive to English language learning. Instruction Mode: Lecture Grading Option: Letter

EDUC 563 Teaching from a Comparative and International Perspective
Units: 3 Terms Offered: FaSpSm Examines the social context of schooling from a comparative and international perspective, connections between cultural beliefs and societal values; issues of social stratification and marginalization. Instruction Mode: Lecture Grading Option: Letter

EDUC 564 Teacher Leadership
Units: 2 Terms Offered: FaSpSm Strategies of leadership that lead from influencing learning in the classroom to influencing learning across an entire school. Becoming an instructional leader. Instruction Mode: Lecture Grading Option: Letter

EDUC 565a Social Foundations of TESOL
Units: 2 Terms Offered: FaSpSm Teaching sociolinguistically and culturally responsive to English language learners. Topics include sociolinguistic theories, sociocultural contexts of language development, and multifaceted assessment of learner competencies. Prerequisite: EDUC 565a. Duplicates Credit in EDUC 501 Instruction Mode: Lecture Grading Option: Letter

EDUC 565b Social Foundations of TESOL
Units: 2 Terms Offered: FaSpSm Teaching linguistically and culturally responsive to English language learners. Topics include sociolinguistic theories, sociocultural contexts of language development, and multifaceted assessment of learner competencies. Prerequisite: EDUC 565a. Duplicates Credit in EDUC 501 Instruction Mode: Lecture Grading Option: Letter

EDUC 566 Teaching Mathematics and Science
Units: 4 Terms Offered: FaSpSm Instructional approaches for integrating mathematics and science with other content areas in elementary and secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 567 English and Language Arts in Elementary Social Studies
Units: 4 Terms Offered: FaSpSm Integrating English and language arts development with learning in elementary social studies classrooms. Factors affecting the teaching and learning of social studies and language arts. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 568a Guided Practice
Units: 3 Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students. Open only to MAT students. Duplicates Credit in former EDUC 568. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 568b Guided Practice
Units: 3 Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students. Open only to MAT students. Duplicates Credit in former EDUC 568. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 569a Capstone Portfolio in Learning and Instruction
Units: 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credential track. Open only to MAT students. Duplicates Credit in former EDUC 569. Instruction Mode: Lecture Grading Option: Letter

EDUC 569b Capstone Portfolio in Learning and Instruction
Units: 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credential track. Open only to MAT students. Duplicates Credit in former EDUC 569. Instruction Mode: Lecture Grading Option: Letter

EDUC 570 Research Methods and Data Analysis
Units: 3 Terms Offered: FaSpSm Various research designs and their appropriateness for addressing different research questions. Threats to validity and other challenges in research. Basic statistical methods and their use. Recommended Preparation: beginning statistics course. Instruction Mode: Lecture Grading Option: Letter

EDUC 572a Teaching in an International and Intercultural Context
Units: 2 Terms Offered: Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. Instruction Mode: Lecture Grading Option: Letter

EDUC 572b Teaching in an International and Intercultural Context
Units: 2 Terms Offered: Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. Instruction Mode: Lecture Grading Option: Letter

EDUC 573 Introduction to Special Education
Units: 3 Terms Offered: FaSpSm Effective and appropriate educational settings for students with disabilities. Legal and professional responsibilities. Components for an inclusive classroom. Instruction Mode:
Lecture Grading Option: Letter
EDUC 574 Collaboration, Families and Case Management
Units: 3 Terms Offered: FaSpSm Planning and implementing effective educational services for students receiving special education services. Potential interventions for family support. Coordination of services. Instruction Mode: Lecture Grading Option: Letter
EDUC 575 Assessment and Curriculum for Students with Disabilities
Units: 3 Terms Offered: FaSpSm Developing effective educational interventions for students with disabilities. Formal and informal assessment. Curriculum strategies. Instruction Mode: Lecture Grading Option: Letter
EDUC 576 Establishing and Maintaining an Effective Classroom Ecology
Units: 3 Terms Offered: FaSpSm Environmental and personal factors affecting student achievement. Intervention methodologies. Creating an effective learning environment. Instruction Mode: Lecture Grading Option: Letter
EDUC 577 Guided Practice: Mild/Moderate Disabilities
Units: 3 Terms Offered: FaSpSm Supervised practice in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students with mild/moderate disabilities. Instruction Mode: Lecture Grading Option: Letter
EDUC 578 Integrating the Arts into the Secondary Curriculum
Units: 3 Terms Offered: FaSpSm Methods for integrating the arts into secondary classroom instruction. Critical and creative thinking, aesthetic education. Instruction Mode: Lecture Grading Option: Letter
EDUC 579 Media Selection and Evaluation
Units: 2 Terms Offered: FaSpSm Selection and evaluation of media and technologies in support of instructional design based on a survey of current research and recommendations. Instruction Mode: Lecture Grading Option: Letter
EDUC 580 Transforming STEM Education into Teaching Science
Units: 3 Terms Offered: FaSpSm The convergence of science, technology, engineering, and mathematics (STEM) as a foundation for teaching science. Instruction Mode: Lecture Grading Option: Letter
EDUC 581 STEM Education from a Project-Based Learning Approach
Units: 3 Terms Offered: FaSpSm Model-based reasoning and inquiry as a means of integrating STEM disciplines. Instruction Mode: Lecture Grading Option: Letter
EDUC 582 Assessment and Evaluation
Units: 2 Terms Offered: FaSpSm Overview of the concepts and procedures for assessment and evaluation of individual and overall performance in various learning environments. Instruction Mode: Lecture Grading Option: Letter
EDUC 583 Counseling through the Lifespan
Units: 3 Developmental issues and life events from infancy to old age and their effect upon individuals, couples, and family relationships. Instruction Mode: Lecture Grading Option: Letter
EDUC 584 Facilitating Creativity and Innovation in STEM Classrooms
Units: 3 Terms Offered: FaSpSm The role of creativity in STEM education. Theories and approaches to facilitating creative and innovative thinking. Instruction Mode: Lecture Grading Option: Letter
EDUC 585 Action Research Project
Units: 3 Terms Offered: FaSpSm Design and implementation of a STEM-based project. Instruction Mode: Lecture Grading Option: Letter
EDUC 586 Design of Learning Environments
Units: 3 Terms Offered: FaSpSm Design of learning environments through application of design principles; project-based practice in aligning instructional design, media selection, and the features of learning spaces. Instruction Mode: Lecture Grading Option: Letter
EDUC 587 Master's Studio A
Units: 2 Terms Offered: FaSpSm Students propose and design a capstone project that applies knowledge and skills learned throughout the program and prepare a coursework portfolio. Instruction Mode: Lecture Grading Option: Letter
EDUC 588 Master's Studio B
Units: 4 Terms Offered: FaSpSm Students implement the capstone project and submit a portfolio that integrates program coursework. Instruction Mode: Lecture Grading Option: Letter
EDUC 589 Human Lifespan Development
Units: 3 Terms Offered: FaSpSm Fundamentals of human physical, motor, mental, social, and emotional development, spanning the prenatal period through late adulthood. Duplicates Credit in the former EDPT 520. Instruction Mode: Lecture Grading Option: Letter
EDUC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 591 Diversity: Power, Equity and Inclusion
Units: 3 Terms Offered: FaSpSm Appraises practices that maintain power; creates strategies to empower individuals and marginalized groups by intervening to achieve equitable outcomes in education, professions and communities. Instruction Mode: Lecture Grading Option: Letter
EDUC 592a Applied Linguistics for TESOL
Units: 3 Terms Offered: FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. Duplicates Credit in the former EDUC 592b. Instruction Mode: Lecture Grading Option: Letter
EDUC 592b Applied Linguistics for TESOL
Units: 3 Terms Offered: FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. Duplicates Credit in the former EDUC 571. Instruction Mode: Lecture Grading Option: Letter
EDUC 593a Master's Seminar
Units: 2 An examination and analysis of research and literature in the student's area of focus. Duplicates Credit in former EDCCO 593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 593b Master's Seminar
Units: 2 An examination and analysis of research and literature in the student's area of focus. Duplicates Credit in former EDCCO 593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
EDUC 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit
EDUC 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit
EDUC 595 Instructional Design
Units: 3 Terms Offered: FaSpSm Formulation and design of effective instruction; emphasis on analysis of media characteristics and instrumentation requirements. Duplicates Credit in the former EDPT 520. Instruction Mode: Lecture Grading Option: Letter
EDUC 596 English Language Learning Design, Teaching and Technology
Units: 3 Terms Offered: FaSp Students collaboratively design and deliver synchronous and asynchronous online language learning opportunities. Students become versatile with adapting content, technical aspects of video-conferencing and interactional dynamics Duplicates Credit in the former EDUC 540a and EDUC 540b. Instruction Mode: Lecture Grading Option: Letter
EDUC 599 Special Topics
Units: 1, 2, 3, 4 Max Units: 9.0 Terms Offered: FaSpSm Selected topics in various areas of education. Instruction Mode: Lecture Grading Option: Letter
EDUC 600 Counseling for College and Career Readiness II
Units: 2 Terms Offered: Fa Planning and implementing theoretical foundations of college and career counseling. The application of contextually relevant strategies
for assisting in college and career choices.
Instruction Mode: Lecture Grading Option: Letter
EDUC 601 Seminar in Social Psychology
Units: 4 Max Units: max 8 Terms Offered: Fa (Enroll in PSYC 512)
EDUC 602 Self-concept and Motivation
Units: 4 (Enroll in PSYC 602)
EDUC 603 Framing Organizational Change and Leadership
Units: 4 Terms Offered: Fa Students identify and research problems of practice particularly pertinent in urban learning. The presentation of problems of practice requires the use of sound evidence-based research.
Instruction Mode: Lecture Grading Option: Letter
EDUC 604 National Perspective on School Leadership
Units: 1 Terms Offered: Sm Students will examine the cultural, political, and economic issues pertinent to urban education within the national context to prepare them to be effective school leaders.
Instruction Mode: Lecture Grading Option: Letter
EDUC 605 Framing Educational Leadership
Units: 1 Terms Offered: FaSm Critical analysis and creative expression applied to problems of practice. Supported and unsupported assertions. Evidence-based decision-making. The quality of evidence used to support arguments. Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 607 Role of School Counselors in Student Learning and Motivation
Units: 3 Terms Offered: FaSm The process of identifying and assessing learning and motivational issues in schools, the application of research-based interventions, and the evaluation of effectiveness of these interventions.
Instruction Mode: Lecture Grading Option: Letter
EDUC 608 School Connectedness, Climate, and Classroom Management
Units: 2 Terms Offered: Fa Prevention, education, and training for achievement. Data collection for assessment and evaluation of school climate, crisis and classroom management conducive to learning and success.
Instruction Mode: Lecture Grading Option: Letter
EDUC 609 Academic Advising in Postsecondary Education
Units: 3 Terms Offered: Fa Contemporary issues in academic advising in postsecondary education. Examines and analyzes relevant theories, policies, and practices related to academic advising.
Instruction Mode: Lecture Grading Option: Letter
EDUC 610 Higher Education Administration in China
Units: 3 Terms Offered: Sm Examination of student affairs and higher education administration practices in the People's Republic of China. Course concludes with a trip to China.
Instruction Mode: Lecture Grading Option: Letter
EDUC 611 Athletic Administration
Units: 3 Terms Offered: Sp Analysis and discussion of critical issues in intercollegiate athletics. Student-athlete academic and social accountability; challenges of NCAA policies; commercialization, marketing, and fundraising in college athletics.
Instruction Mode: Lecture Grading Option: Letter
EDUC 612 Application of Human Development Theory in School Counseling
Units: 3 Terms Offered: FaSpSm A theoretical perspective of human development across the lifespan. Issues and challenges faced by school counselors.
Instruction Mode: Lecture Grading Option: Letter
EDUC 613 Gender Issues in Athletic Administration
Units: 3 Terms Offered: Sp Overview of Title IX and gender issues in institutions of higher education and implications for public schools.
Instruction Mode: Lecture Grading Option: Letter
EDUC 614 Research and Assessment in Higher Education
Units: 3 Terms Offered: Sm Theory and practice of outcomes assessment, program evaluation, and research design in postsecondary educational administration.
Instruction Mode: Lecture Grading Option: Letter
EDUC 615 Ethics in Athletic Administration
Units: 3 Terms Offered: Fa Ethical concerns in intercollegiate athletics. Review, analysis, and discussion of ethical and moral conduct in sports. Relevance of social justice to ethical behaviors.
Instruction Mode: Lecture Grading Option: Letter
EDUC 616 Higher Education Seminar
Units: 3 Terms Offered: FaSpSm Theories and strategies, tools, and use of technology.
Instruction Mode: Lecture Grading Option: Letter
EDUC 617 The Student Athlete in Higher Education
Units: 3 Terms Offered: Fa Examination of student athletes in higher education. Effective strategies for counseling and advising college student athletes; issues and challenges of athletic amateurism.
Instruction Mode: Lecture Grading Option: Letter
EDUC 618 School Counseling Professional Portfolio
Units: 2 Terms Offered: Fa Preparation of an electronic resource portfolio that addresses a field based practice. The culminating experience for the M.Ed., School Counseling program.
Instruction Mode: Lecture Grading Option: Letter
EDUC 619 Framing Educational Leadership in a Global Context
Units: 4 Terms Offered: Sm Globalization as a distinct phenomenon. Assessment of impact of globalization on educational systems and institutions. Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter
EDUC 620 Fundamentals of Creativity, Innovation, and Entrepreneurship
Units: 2 Terms Offered: Sm The genesis and facilitation of creative ideas in educational practice. The transformation of creativity into innovation and entrepreneurship. Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter
EDUC 621 Measurement and Evaluation for School Counselors
Units: 3 Terms Offered: Fa The use of formal and informal assessments to improve student achievement and well-being. Use of assessment data for intervention and evaluation.
Instruction Mode: Lecture Grading Option: Letter
EDUC 622 Educational Theory and Instructional Design
Instruction Mode: Lecture Grading Option: Letter
EDUC 623 Understanding Research That Informs Leadership
Units: 3 Terms Offered: Fa Understanding, interpreting, and applying education research. Open only to doctoral students.
Registration Restriction: Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter
EDUC 624 Educational Organizations: Governance and Finance
Units: 2 Terms Offered: Fa Overview of economic concepts of education. Linkages between economic growth, development, and education. Impact of globalization. Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter
EDUC 625a Induction Plan and Assessment of Candidate Competence
Units: 1 Terms Offered: FaSpSm The development of an individualized induction plan and assessment of competence for meeting requirements for the Clear Administrative Services Credential. Duplicates Credit in former EDUC 595.
Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 625b Induction Plan and Assessment of Candidate Competence
Units: 1 Terms Offered: FaSpSm The development of an individualized induction plan and assessment of competence for meeting requirements for the Clear Administrative Services Credential.
Duplicates Credit in former EDUC 596.
Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 626 Fostering Entrepreneurship in Educational Systems
Units: 2 Terms Offered: Fa The role of entrepreneurship in education and conditions that support entrepreneurship within an educational organization. How social entrepreneurship partnerships improve educational outcomes. Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter
EDUC 627 Education Performance Problems: Role of Learning
Units: 3 Terms Offered: Sp Contemporary
**EDUC 628 Educational Organizations: Governance and Finance II**  
Units: 2  
Terms Offered: Sp  
Prerequisite: EDUC 540  
Duplicates Credit in former EDCO 540.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 629 Consulting Practicum Context Analysis**  
Units: 3  
Terms Offered: Sm  
Registration Restriction: Open only to doctoral students.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 630 Organizations and Policy: Current Issues**  
Units: 4  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDUC 507, EDCO 541.  
Duplicates Credit in former EDCO 560.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 631 Locating Educational Performance Problems**  
Units: 3  
Terms Offered: Sp  
Prerequisite: EDUC 500, EDCO 510.  
Duplicates Credit in former EDCO 561.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 632 Technology in Higher Education**  
Units: 2  
Terms Offered: Sm  
Prerequisite: EDUC 500, EDUC 507, EDCO 541.  
Duplicates Credit in former EDCO 561.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 633 Child and Elder Abuse and Domestic Violence**  
Units: 2  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 510.  
Duplicates Credit in former EDCO 561.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 634 Couples Counseling**  
Units: 3  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 635 Psychotherapy with Children and Adolescents**  
Units: 3  
Terms Offered: Sm  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 636 Perspectives on Human Sexuality**  
Units: 3  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 637 Group Counseling: Theory and Process**  
Units: 3  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 638 Cross-Cultural Counseling: Research and Practice**  
Units: 3  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 640 The Research University in the 21st Century**  
Units: 4  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 641 Human Capital and School Organization**  
Units: 3  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 642 Controversies in Learning and Instruction**  
Units: 4  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter

**EDUC 643 Advancing Community Support through Social Media**  
Units: 2  
Terms Offered: FaSp  
Prerequisite: EDUC 500, EDCO 541.  
Instruction Mode: Lecture  
Grading Option: Letter
EDUC 650 Ways of Seeing: Applying Social Science and Critical Theories to Education  
Units: 4  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to Urban Education Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 651 Introduction to Qualitative Research Methods  
Units: 3  Terms Offered: FaSpSm Introduces qualitative methodologies, qualitative data collection and analysis techniques, support in drafting research proposals, and paradigms on how to critically think about inquiry. Instruction Mode: Lecture Grading Option: Letter

EDUC 652 Inquiry Methods III  
Units: 3  Terms Offered: FaSp Sm Logic and methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. Prerequisite: EDUC 532 and EDUC 536 Registration Restriction: Open only to Organizational Change and Leadership students Instruction Mode: Lecture Grading Option: Letter

EDUC 653 Advanced Qualitative Research  
Units: 3  Terms Offered: Sp Introduction to systematic study of the social aspects of language learning and their significance for structuring learning opportunities for diverse students in language classrooms. Prerequisites: Credit in EDUC 565a and EDUC 565b Instruction Mode: Lecture Grading Option: Letter

EDUC 655 Social Foundations of Language Education  
Units: 3  Terms Offered: FaSp Sm Systems of English to other languages to identify issues of interest for systems of English language and language education policy. Recommended Preparation: Letters of reference. Instruction Mode: Lecture Grading Option: Letter

EDUC 656 Applied Linguistics for English Language Educators  
Units: 3  Terms Offered: FaSp Introduction to systems of English language and language in use. Prerequisites: Credit in EDUC 565a or EDUC 565b Instruction Mode: Lecture Grading Option: Letter

EDUC 657 Social Foundations of Research  
Units: 3  Terms Offered: Fa Foundations in social science research with exposure to broad cross-section of research methods, design, and analytical techniques. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 658 Hierarchical Linear Models  
Units: 3  Terms Offered: SpFa Application of mixed-effects models to educational data. Prerequisite: EDUC 658 Foundational Statistics for Data Science. Instruction Mode: Lecture Grading Option: Letter

EDUC 659 Introduction to Causal Inference in Educational Settings  
Units: 3  Terms Offered: SmAn introduction to quasi- and non-experimental methods for causal inference in educational settings. Prerequisite: EDUC 658. Instruction Mode: Lecture Grading Option: Letter

EDUC 660 Clinical Practice Seminar in Language Teaching  
Units: 2  Terms Offered: Second of two-course series focused on helping students translate theory to practice. Part B also facilitates preparation for and submission of the EdTPA. Prerequisite: EDUC 660a Instruction Mode: Lecture Grading Option: Letter

EDUC 661 Equity in College and Career Access  
Units: 3  Terms Offered: Fa Focus on College and Career Readiness using an equity lens with a foundation in the relevant theories, conceptual frameworks and issues. Recommended Preparation: EDUC 609. Registration Restriction: Open only to EDCN and MFTH students Instruction Mode: Lecture Grading Option: Letter

EDUC 663 Introduction to Curriculum and Pedagogy in Urban Schools  
Units: 4  Terms Offered: General introduction to curriculum and instruction (pedagogy) affecting teaching and learning across disciplines, grade levels, and different social contexts of schooling. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 664 Clinical Practice Seminar in Language Teaching  
Units: 2  Terms Offered: Second of two-course series focused on helping students translate theory to practice. Part B also facilitates preparation for and submission of the EdTPA. Prerequisite: EDUC 660a. Instruction Mode: Lecture Grading Option: Letter

EDUC 665 Contexts for Educational Equity, Access, and Agency  
Units: 3  Terms Offered: SpFaSpSm Examines how environmental, pedagogical, and curricular choices can be cultivated with greater knowledge of culture, gender, and interests of diverse learners. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 666 b Clinical Practice Seminar in Language Teaching  
Units: 2  Terms Offered: Second of two-course series focused on helping students translate theory to practice. Part B also facilitates preparation for and submission of the EdTPA. Prerequisite: EDUC 660a. Instruction Mode: Lecture Grading Option: Letter

EDUC 667 Introducing and Teaching to Student Differences  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 668 Literacy Development and Instruction in Elementary Education  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 669 Literacy Development and Instruction in Secondary Education  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 670 Applications of Curriculum and Pedagogy, Part A  
Units: 4  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 671 Applications of Curriculum and Pedagogy, Part B  
Units: 4  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 672 Integrated Language Development Across the Curriculum  
Units: 3  Terms Offered: Understanding of language development and the connection between language and learning in school, across all curricular areas. Registration Restriction: MAT Students Only Duplicates Credit in EDUC 501 Instruction Mode: Lecture Grading Option: Letter

EDUC 673 Social Foundations of Language Education  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 674 Identifying and Teaching to Student Differences  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 675 Literacy Development and Instruction in Elementary Education  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 676 Literacy Development and Instruction in Secondary Education  
Units: 3  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 677 Applications of Curriculum and Pedagogy, Part B  
Units: 4  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 678 Applying Knowledge and Strategies for Teaching All Students  
Units: 2  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture Grading Option: Letter

EDUC 679 Blended Learning Experiences for Students in Urban Schools  
Units: 2  Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to MAT students Instruction Mode: Lecture
EDUC 688 Institutions, Organizations, and Equity in Education
Units: 3 Terms Offered: Sp
Examine how sociologists and organizational theorists conceptualize institutions, status, and change. Learn to apply these perspectives to pressing issues of educational equity. Instruction Mode: Lecture Grading Option: Letter

EDUC 689 Fiscal Support and Expenditure in Higher Education
Units: 3 Terms Offered: Sp
Analyze public and private financial support and expenditure patterns; includes recent trends in state and federal legislation related to higher education. Instruction Mode: Lecture Grading Option: Letter

EDUC 690 Framing and Enrollment Management
Units: 3 Terms Offered: Sm
Identify and research enrollment management practices while developing academic literacy skills. Students will understand roles and responsibilities in Enrollment Management offices. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 691 Admission Policy and Practice
Units: 3 Terms Offered: Fa
Examine admission policy within the context of history, social class, professional practice, and the interplay of institutions and society. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 692 Role of Diversity in Admissions
Units: 3 Terms Offered: Fa
Address college access, the manifestations of diversity through the admission process, and a primer on the role of identities, demographics, and intersectionality within them. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 693 Institutional Positioning in Student Recruitment
Units: 3 Terms Offered: Sm
Explore market research, demand, pricing, value, segmentation, positioning, consumer-centric communication, and the characteristics of a market-oriented enrollment management unit. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 694 Legal Issues in Enrollment Management
Units: 3 Terms Offered: Sp
Examine legal issues in enrollment management and addresses the intersection of law and policy, including implications for decision-making by higher education officials. Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 695 Organizations and Leadership in Education
Units: 3 Terms Offered: Sm
Emphasizes models of educational organizations and how they are influenced by the contexts and problems they experience, with emphasis on leadership, change management, and governance. Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 696 Financial Aid in Enrollment Management
Units: 3 Terms Offered: Sp
Examine institutional budgets, the role of tuition, influences on the price of higher education, and the purpose and processes of applying for and packaging financial aid. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 697 Research, Planning, and Accountability
Units: 3 Terms Offered: Fa
Develop a research perspective related to understanding and solving current problems and strategic planning in enrollment management. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 698 Enhancing Student Retention
Units: 3 Terms Offered: Fa
Examine how student characteristics are associated with persistence and graduation, how rates vary with institutional type, and the institutional role in student success. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 699 Capstone Seminar
Units: 3 Terms Offered: Fa
Synthesize institutional, public, and non-public sources of data to write and orally present an enrollment management plan for both campus and external stakeholders. Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 700 Research and Practice in the Preparation of Teachers
Units: 3

EDUC 701 Pedagogy in Teacher Education
Units: 3
A critical examination of pedagogical practices in teacher education. The design of pedagogical approaches and programs for diverse and underserved students in urban schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 702 Curriculum, Teacher Preparation, and Student Learning
Units: 3
The process and role of curriculum in a variety of urban settings, teacher preparation, and professional growth. The philosophical and psychological foundations of curriculum development. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 703 Examining Literacy Theories and Practice
Units: 3
Literacy theories as practiced in urban, teacher education and professional development settings using an inquiry approach to examine best practice. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 704 Evaluation and Assessment in Teacher Education
Units: 3 Terms Offered: Fa
Evaluation and assessment in the context of public schools, teacher preparation and professional growth in urban settings. Policy implications of data-based decision making and program implementation. Instruction Mode: Lecture Grading Option: Letter

EDUC 705 Survey Design and Analysis
Units: 3 Terms Offered: FasSm
Design, collection, and analysis of survey data; survey analysis techniques including classical test theory, item response theory, differential item functioning, scaling, linking. Instruction Mode: Lecture Grading Option: Letter

EDUC 706 Proseminar in Higher Education
Units: 3
Critical issues in urban higher education from historical and philosophical perspectives. Instruction Mode: Lecture Grading Option: Letter

EDUC 707 Administration in Higher Education
Units: 3 Terms Offered: Fa

EDUC 708 Advanced Student Development Theory
Units: 3
Examination of traditional and emergent student development theories. Instruction Mode: Lecture Grading Option: Letter

EDUC 709 Finance in Higher Education
Units: 3
Local, national, and global economic and policy environments and their effect on institutional policies and practices. Instruction Mode: Lecture Grading Option: Letter

EDUC 710 Assessment, Organizational Learning and Performance
Units: 3
The role of assessment in higher education. An analysis of the purpose and value of particular assessment approaches and instruments, in particular those addressing classroom learning and institutional effectiveness. Instruction Mode: Lecture Grading Option: Letter

EDUC 711 Social Factors Influencing Learning and Motivation
Units: 3
Social psychological principles and research techniques applied to educational problems; school environment, group behavior, teacher effectiveness, teacher-student interaction, behavioral change. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 712 Issues in Human Motivation
Units: 3
Units: 3 Analysis of motivational principles; diagnosis and solutions to motivation gaps in learning environments; and motivation and efficacy theories and principles. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 713 Issues in Lifespan Development
Units: 3 An examination of issues related to the development of diverse students and the development of environments that promote motivated behavior. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 714 Measurement and Evaluation for Decision-Making
Units: 3 Terms Offered: Sm Collecting, analyzing, and using quantitative data to solve problems of practice and in evaluating educational institutions, programs, and policies. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 716 Instructional Leadership
Units: 3 Terms Offered: Sm The role of instructional leaders in improving student performance; current issues in curriculum design and implementation; and effective instructional leadership approaches for school improvement. Open only to doctoral students. Duplicates Credit in former EDPA 618. Instruction Mode: Lecture Grading Option: Letter

EDUC 717 Schooling as an Economic Enterprise
Units: 3 Terms Offered: Fa Applying economic theory to the study of education. Application of market theory to education, partnerships, allocation of resources, and the examination of educational enterprises. Open only to doctoral students. Duplicates Credit in former EDPA 610. Instruction Mode: Lecture Grading Option: Letter

EDUC 718 Maximizing Human Resources in Education
Units: 3 Terms Offered: Sm Strategically understanding the management of human capital to ensure high student performance. How to attract and retain top quality teachers. Open only to doctoral students. Duplicates Credit in former EDPA 610. Instruction Mode: Lecture Grading Option: Letter

EDUC 719 The Policies and Politics of Education Governance
Units: 3 Terms Offered: Fa Major issues facing educators in the 21st century. Emphasis on how educational policy can focus on incentives for schools to improve student learning. Open only to doctoral students. Duplicates Credit in former EDPA 613. Instruction Mode: Lecture Grading Option: Letter

EDUC 720 Leadership for Principals
Units: 3 Terms Offered: Sm The role of the principal as an instructional leader with a focus on improving student achievement. Open only to doctoral students. Duplicates Credit in former EDPA 600. Instruction Mode: Lecture Grading Option: Letter

EDUC 721 Leadership for Superintendents
Units: 3 Terms Offered: Sm The role of the superintendent in establishing a focus on student achievement and holding school sites accountable. How superintendents support student learning through leadership. Open only to doctoral students. Duplicates Credit in former EDPA 618. Instruction Mode: Lecture Grading Option: Letter

EDUC 723 Evaluating and Assessing Educational System Outcomes
Units: 3 Terms Offered: Sm Evaluating impact. Examination of key assessment theories; planning and implementation of learning and program effectiveness. Prerequisite: EDUC 631 Instruction Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 724 Creating Policy Alternatives for Educational Settings
Units: 3 Terms Offered: Sm Effective policy-making and constructing alternatives. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 725 Analyzing Organizational Change and Its Effectiveness
Units: 3 Terms Offered: Fa Designed to help leaders apply research about learning and motivation to the strengthening of organizational performance in organizations around the world. Instruction Mode: Lecture Grading Option: Letter

EDUC 726 Making Choices: Deciding Among Policy Alternatives
Units: 3 Terms Offered: Fa Models of decision making including cost-benefit analysis, risk-benefit analysis, and decision analysis. Ethical considerations and the political environment. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 727 Implementing Policy in Educational Systems
Units: 3 Terms Offered: Sp Effective policy-making. Human and financial resources to support implementation. Targeting resources to support implementation to attain policy goals. Prerequisite: EDUC 726 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 728 Global Trends: Emerging Ideas, Emerging Markets
Units: 3 Terms Offered: Sp Examination of a range of emerging markets in education. Global efforts of institutions of higher education to access new markets through collaborations and offshore endeavors. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 729 Assessing Policy Impact in Educational Settings
Units: 3 Terms Offered: Sp Theory and practice of educational policy evaluation. Limits of rationality and the political forces that shape policy. Preparation of an evaluation design. Prerequisite: EDUC 727 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

EDUC 730 Using Communication to Facilitate Organizational Change
Units: 2, 3 Terms Offered: FaSpSm Addresses communication strategies that leaders use to facilitate positive change in their organization. Reinforces written, non-verbal, and verbal communication skills through leadership situations. Registration Restriction: Open only to Organizational Change and Leadership majors Instruction Mode: Lecture Grading Option: Letter

EDUC 731 Economics of Organizational Change and Learning Environments
Units: 3 Terms Offered: FaSpSm Leadership, problem solving, communication, research, reflection, and professional dispositions will concurrently expand. Candidates will acquire the knowledge and skills to identify and implement economic change. Instruction Mode: Lecture Grading Option: Letter

EDUC 732 Building Capacity for Organizational Change
Units: 3 Terms Offered: FaSpSm Focuses on learning issues related to building organizational capacity for change through leadership and development of perseverance within an organization. Instruction Mode: Lecture Grading Option: Letter

EDUC 733 Analyzing Data and Identifying Solutions
Units: 3 Terms Offered: Sp Designed to help students interpret study data and construct evidence-based solutions for real-time organizational problems of practice. Prerequisite: EDUC 629 Instruction Restriction: Open only to USC Rossier School of Education students Duplicates Credit in EDUC 725 Instruction Mode: Lecture Grading Option: Letter

EDUC 764a Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764b Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764c Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764 Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764a Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764b Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764c Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 764 Consulting Project
Units: 1 Terms Offered: FaSpSm Credit on acceptance of consulting project. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 791 Proposal for Doctoral Dissertation
Units: 1 Terms Offered: FaSpSm Preparation of initial dissertation proposal. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 792 Critique of Research in Education
Units: 3 Terms Offered: FaSp A survey and critical analysis of selected research and literature. Open to students admitted to the EdD only. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpM Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpM Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpM Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpM Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpM Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Expanded

EDUE 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

Electrical Engineering

EE 101 Introduction to Digital Logic
Units: 3 Terms Offered: FaSpM Boolean algebra; number systems; Boolean function synthesis; binary arithmetic; codes; combinational logic devices; sequential circuits; state machine design and implementation. Duplicates Credit in former EE 154. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-110

EE 105 Introduction to Electrical Engineering
Units: 4 Terms Offered: Fa Electrical engineering overview: communications, computers, circuits, components, signals, electromagnetics, microelectronics; data encoding and compression, USPES and UPC product codes, DVDs, semiconductor devices, and integrated circuits. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 109L Introduction to Embedded Systems
Units: 4 Terms Offered: Fa Information representations, embedded programming, digital and serial I/O, analog-to-digital conversion, and interrupt mechanisms. Elementary analog, logic, and state-machine design. Corequisite: EE 155L or CSCI 103L Instruction Mode: Lecture, Lab, Required Grading Option: Letter

EE 141L Applied Linear Algebra for Engineering
Units: 4 Introduction to linear algebra with engineering applications. Weekly laboratory exercises using MATLAB. Duplicates Credit in former EE 241 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 150L Engineering Computational Methods
Units: 3 Terms Offered: Fa Algorithms and computational methods for efficient solution of engineering problems. Introduction to engineering software tools. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 155L Introduction to Computer Programming for Electrical Engineers
Units: 4 Terms Offered: Fa Introduction to solving engineering problems using computational methods. Survey of various programming languages and their strengths and weaknesses. Program structure, input/output, conditional, loops, functions, arrays. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 202L Linear Circuits
Units: 4 Terms Offered: FaSpSm Lumped circuit elements; network equations; zero-input and zero-state responses; sinusoidal steady-state analysis; impedance; resonance; network functions; power concepts; transformers; Laplace transforms. Prerequisite: PHYS 152L Corequisite: MATH 245. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 209 Foundations of Digital System Design
Units: 4 Logic-function synthesis, state machines, combinational and sequential data-path components. Physical principles used to analyze and design digital integrated circuits. Prerequisite: EE 109 Instruction Mode: Lecture Grading Option: Letter

EE 222 Fundamentals of Audio Engineering
Units: 3 Terms Offered: Fa Introduction to basic audio engineering principles and techniques, with emphasis on practical sound-system analysis and design. Sound measurements, microphones, amplifiers, loudspeakers, and system integration. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-222

EE 250L Distributed Systems for the Internet of Things
Units: 4 Introduction to hardware, operating systems, signal processing and control, network protocols, mobile applications, databases, cloud computing, machine learning, and security for the Internet of Things. Prerequisite: EE 109L and EE 155L Recommended Preparation: Experience with DIY electronics, Linux, and programming in a distributed, networked environment Registration Restriction: Open only to students with at least a sophomore standing Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 277L Introduction to Digital Integrated Circuits
Units: 2 Physical principles and circuit theory used to analyze and design digital integrated circuits. Introduction to digital abstractions that bridge the gap between basic circuit theory and VLSI. Prerequisite: EE 109. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 301L Linear Systems
Units: 4 Terms Offered: FaSpM Representation and analysis of linear time-invariant systems primarily for the continuous time case. Convolution, Fourier series and transform, Laplace transform, controls and communications applications. Prerequisite: EE 202L. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 322 Introduction to Digital Audio
Units: 3 Terms Offered: Fa Fundamentals of sound, acoustics and digital audio signal processing. Instruction Mode: Lecture Grading Option: Letter

EE 326Lx Essentials of Electrical Engineering
Units: 4 Network analysis and theorems; transient analysis; transformers; semiconductor physics and circuits; power amplifiers, modulation and demodulation, and pulse, digital, and switching circuits. Introduction to instrumentation. Prerequisite: PHYS 152L, MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 330 Electromagnetics I
Units: 3 Terms Offered: FaSpM Basic static and dynamic electromagnetic field theory and applications; electrostatics, magnetostatics, Maxwell's equations, energy flow, plane waves incident on planar boundaries, transmission lines. Prerequisite: EE 202L, MATH 445, PHYS 152L. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 337L Engineering Nano-Systems
Units: 3 Terms Offered: Sp Methods to control and exploit the phenomena of nanoscience, and the integration of nanotechnology into systems. Development of
fundamental concepts through a series of experimental modules. Prerequisite: PHYS 152. Duplicates Credit in former EE 238L.

EE 338 Physical Electronics
Units: 4 Semiconductor device characteristics and applications. Physical models of electronic conduction in solids, p-n junctions, bipolar and field effect transistors and other solid-state devices. Prerequisite: EE 202L and PHYS 152L. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

EE 348L Electronic Circuits

EE 351 Programming and Multimedia on the World Wide Web
Units: 3 Terms Offered: FaSpSm (Enroll in CSCI 351)

EE 352L Computer Organization and Architecture
Units: 3 Computer organization and architecture. Concepts include: computer evolution and performance, system busses, cache memory, internal and external memory, input/output, operating system support, computer arithmetic. Prerequisite: CSCI 104. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI-352

EE 354L Introduction to Digital Circuits
Units: 4 Digital system design and implementation; synchronous design of datapath and control; schematic/Verilog-based design, simulation, and implementation in Field Programmable Gate Arrays; timing analysis; semester-end project. Prerequisite: EE 101 or EE 209. Duplicates Credit in EE 254. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 355x Software Design for Electrical Engineers
Units: 4 Object-oriented programming techniques, basic data structures, and elementary complexity analysis for the modeling, simulation, and solution of engineering problems. Prerequisite: EE 155L

EE 364 Introduction to Probability and Statistics for Electrical Engineering and Computer Science
Units: 4 Terms Offered: FaSpSm. Basic introduction to concepts of randomness and uncertainty: probability, random variables, statistics. Applications to digital communications, signal processing, automatic control, computer engineering and computer science. Prerequisite: MATH 225 or MATH 245. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 370 Electromagnetics for Engineering Systems
Units: 4 Electromagnetic plane-wave propagation and interactions with simple media, transmission/reception of wireless signals in complex environments. Optimization design methods for system applications. Prerequisite: PHYS 172L or PHYS 162L. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

EE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

EE 415 Introduction to MEMS
Units: 3 (Enroll in AME 455)

EE 422x Electromagnetic Systems Design
Units: 3 Terms Offered: FaSpSm. Applied electromagnetics for large- and small-scale electromechanical systems. Comprehensive design project. Capstone design experience. Prerequisite: EE 423. Instruction Mode: Lecture Grading Option: Letter

EE 423Lx Loudspeaker and Sound-System Design
Units: 3 Terms Offered: Sp. Project-based design of loudspeaker transducers, filters, and enclosures. Measurement of transfer functions, acoustical performance, distortion, Thiele-Small parameters, and ports handling. Listening evaluations. Capstone design experience. Prerequisite: EE 301 or AME 302; PHYS 152; Recommended Preparation: EE 330. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME-423

EE 434Lx Digital Signal Processing Design Laboratory
Units: 4 Experiments and design project in digital signal processing (e.g., real-time DSP, acoustics, video) including: systems specification, preliminary analysis, trade-off studies, implementation, presentation. Capstone design experience. Prerequisite: EE 483. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 436 Introduction to Condensed Matter Physics
Units: 4 Terms Offered: Irregular, Sp (Enroll in PHYS 440)

EE 438L Processing for Microelectronics
Units: 3 Applications and electrical evaluation of selected processes used in electronic microfabrication. Prerequisite: EE 338. Duplicates Credit in former MASC 438L. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MASC-438

EE 439 Principles of Semiconductor Processing
Units: 3 (Enroll in MASC 439)

EE 443 Introduction to Power Systems
Units: 4 Components of power systems; analysis techniques in electrical power generation transmission and utilization; and environmental and economic considerations in system operations and planning. Prerequisite: EE 370. Instruction Mode: Lecture Grading Option: Letter

EE 444 Power Systems Technology
Units: 4 Terms Offered: FaSpSm. Comprehensive assessment of the technical, environmental, and regulatory challenges that affect the future delivery and utilization of electric power. Case-study analysis. Prerequisite: EE 202L. Instruction Mode: Lecture Grading Option: Letter

EE 445 Introduction to Robotics
Units: 4 (Enroll in CSCI 445)

EE 447Lx Mixed Signal Electronic Circuits
Units: 4 Application of solid-state electronic devices to the design of linear and mixed-signal systems. Laboratory experiments and projects involving the design of electronic devices. Capstone design experience. Prerequisite: EE 348. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 448L Communication Electronics
Units: 4 Terms Offered: FaSpSm. Analysis, design, and experimental evaluation of transistor-level communication circuits and micro-systems. Transmission lines, impedance matching, noise, distortion, tuned amplifiers, mixers, oscillators, phase-locked loops. Prerequisite: EE 348. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 450 Introduction to Computer Networks
Units: 3 Terms Offered: FaSpSm. Network architectures; layered protocols, network service interface; local networks; long-haul networks; internal protocols; link protocols; addressing; routing; flow control; higher level protocols. Registration Restriction: Open only to junior standing and above. Duplicates Credit in CSCI 353 Instruction Mode: Lecture, Discussion, Quiz, Grading Option: Letter Crosslisted as CSCI-450

EE 451 Parallel and Distributed Computation
Units: 4 Introduction to parallel programming techniques, models and optimization strategies; Application mapping to multi-core, accelerator, GPU and cloud platforms; High Performance Computing and Data Science applications. Prerequisite: EE 355x or CSCI 211L. Recommended Preparation: High-level programming Language. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI-452

EE 452L Game Hardware Architectures
Units: 3 Terms Offered: FaSpSm. Architectural principles underlying modern game console hardware design; introduction to the programming techniques, optimization strategies, and hardware insights to create powerful games. Prerequisite: EE 352. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CSCI-452

EE 453 Computing Platforms and Paradigms
Units: 4 Microarchitecture performance, storage technologies, FPGA and GPU architecture, and cloud-based architectures combining heterogeneous processing resources. Programming paradigms
including CUDA, MapReduce and OpenMP.

**Prerequisite:** EE 250L

**Instruction Mode:** Lecture, Discussion Grading

**Option:** Letter

### EE 454L Introduction to System-on-Chip

Units: 4

**Terms Offered:** Fa Design flow, tools, and issues related to System/Network-on-Chip (S/Noc) design for real-time embedded systems with applications in mobile, cloud, aerospace, and medical electronics. **Prerequisite:** EE 354

**Instruction Mode:** Lecture, Lab

**Required Grading Option:** Letter

**Crosslisted as:** CSCI 454

### EE 455x Introduction to Programming Systems Design

Units: 4 (Enroll in CSCI 455)

### EE 457 Computer Systems Organization

Units: 4

**Terms Offered:** FaSp

**Transfer level machine organization; performance; arithmetic; pipelined processors; exceptions, out-of-order and speculative execution, cache, virtual memory, multi-core multi-threaded processors, cache coherence.** **Prerequisite:** EE 354

**Instruction Mode:** Lecture

**Quiz Grading Option:** Letter

**Crosslisted as:** CSCI 457

### EE 459Lx Embedded Systems Design Laboratory

Units: 3

**Terms Offered:** Sp

**Specification, design, implementation, testing and documentation of a digital system project using embedded processors, programmable logic, analog I/O interfaces and application specific hardware.** Capstone design experience. **Prerequisite:** EE 354L

**Registration Restriction:** Open only to seniors

**Instruction Mode:** Lecture

**Grading Option:** Letter

**Crosslisted as:** CSCI 452

### EE 460 Introduction to Artificial Intelligence

Units: 3 (Enroll in CSCI 460)

**Instruction Mode:** Lecture

### EE 467 Introduction to Communication Systems

Units: 3

**Analog and digital communication systems. (De)modulation and (de) multiplexing of AM/FM/PM, noise, digital data formats, error rates, and spectral analysis. Review of wireless, networking, and optical systems.** **Prerequisite:** EE 301

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 470 Electromagnetics II

Units: 3

**Dynamic field theory and elementary solutions to Maxwell's equations.** Introduction to propagation and radiation of electromagnetic fields. **Prerequisite:** EE 330

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 471 Applied Quantum Mechanics for Engineers

Units: 3

**Introductory quantum mechanics and applications.** Schrodinger equation, atomic and molecular processes, time-dependent perturbation theory. Applications to lasers, solid-state demos and gaseous devices. **Prerequisite:** EE 330 or graduate standing

**Instruction Mode:** Lecture

**Grading Option:** Letter

**Crosslisted as:** MASC-471

### EE 472 Introduction to Lasers and Laser Systems

Units: 3

**Terms Offered:** Fa

**Electric dipole transitions; traveling wave and resonant amplifiers; laser pumping and rate equations; threshold, frequency, and power output of lasers; holography; laser communication systems.** **Prerequisite:** EE 470

**Instruction Mode:** Lecture

**Grading Option:** Letter

**Crosslisted as:** PHYS-472

### EE 473L Lasers and Optics Laboratory

Units: 3

**Terms Offered:** Sp

**Introductory design/research laboratory in lasers and optics, which typically includes fiber optics, photons, electro-optics, optical sensors, optical communication, optical signal processing and computing.** **Prerequisite:** EE 470

**Instruction Mode:** Lab

**Required Grading Option:** Letter

**Crosslisted as:** PHYS-473

### EE 474 Introduction to Photonics

Units: 3

**Terms Offered:** Sp

**Photonic system requirements; waveguide modes and dispersion; optical fiber modes, loss and dispersion; principles of operation of lasers, optical amplifiers, detectors and modulators; noise.** **Prerequisite:** EE 330, EE 338

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 475 Wireless Communication Technology

Units: 3

**Terms Offered:** FaSp

**Fundamentals of wireless communication from a device point of view. Lab experiments and design project.** **Recommended Preparation:** EE 467

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 476 Chemical Engineering Materials

Units: 3

**Terms Offered:** Sp

**Enroll in CHE 476**

### EE 477L MOS VLSI Circuit Design

Units: 4

**Terms Offered:** FaSp

**Analysis and design of digital MOS VLSI circuits including area, delay and power minimization.** Laboratory assignments including design, layout, extraction, simulation and automatic synthesis. **Prerequisite:** EE 338 or EE 354L

**Instruction Mode:** Lecture

**Required Grading Option:** Letter

### EE 479 Analog Integrated Circuit Design

Units: 4

**Terms Offered:** Sp

**MOSFET and BJT operation and models; elementary amplifier configurations; biasing and references; frequency response; feedback; operational amplifiers.** **Prerequisite:** EE 334

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 481L Control Systems Laboratory

Units: 3

**Terms Offered:** Sp

**Enroll in AME 443**

### EE 482 Linear Control Systems

Units: 3

**Terms Offered:** FaSp

**Analysis of linear control systems; continuous and sampled data systems, various stability criteria; frequency response and root locus compensation techniques.** **Prerequisite:** EE 301 or graduate standing

**Duplicates Credit in AME 451**

**Instruction Mode:** Lecture, Discussion

**Grading Option:** Letter

### EE 483 Introduction to Digital Signal Processing

Units: 3

**Terms Offered:** FaSp

**Fundamentals of digital signal processing covering: discrete time linear systems, quantization, sampling, Z-transforms, Fourier transforms, FFTs and filter design.** **Prerequisite:** EE 301

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 484x Communication System Design

Units: 3

**Terms Offered:** Sp

**Analysis of analog and digital communication systems.** System models, requirements, development, performance analysis and component selection techniques. Comprehensive system design project. **Capstone design experience.** **Prerequisite:** EE 364, EE 475

**Recommended Preparation:** EE 467

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 490 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8

**Max Units:** 12.0

**Individual research and readings.**

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 492a Undergraduate Project

Units: 2

**For the undergraduate degree.** Credit on acceptance of project. **In Progress (IP) (EE 492a) or letter grade (EE 492b).** **Grading Option:** Lecture

### EE 494a Undergraduate Thesis

Units: 2

**For the undergraduate degree.** Credit on acceptance of thesis. **IP (EE 494a) or letter grade (EE 494b).** **Grading Restriction:** Open only to seniors

**Instruction Mode:** Lecture

**Grading Option:** In Progress

### EE 494b Undergraduate Thesis

Units: 2

**For the undergraduate degree.** Credit on acceptance of thesis. **IP (EE 494a) or letter grade (EE 494b).** **Prerequisite:** EE 494a

**Registration Restriction:** Open only to seniors

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 496 Capstone Design

Units: 4

**Capstone design project for the undergraduate degree.** Project topics vary from semester to semester.

**Instruction Mode:**

**Grading Option:** Letter

### EE 499 Special Topics

Units: 2, 3, 4

**Max Units:** 8.0

**Course content will be selected each semester from current developments in the field of electrical engineering.** **Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 500 Neural Learning and Computational Intelligence

Units: 4

**Computational intelligence techniques that include neural systems, deep learning, adaptive pattern classification, fuzzy function approximation, simulated annealing and evolutionary computing, and hybrid systems.** **Recommended Preparation:** EE 483, EE 503 or equivalent

**Instruction Mode:** Lecture

**Grading Option:** Letter

### EE 501 Solid State

Units: 3

**Enroll in MASC 501**

### EE 502 Advanced Solid State
Units: 3 (Enroll in MASC 502)
EE 503 Probability for Electrical and Computer Engineers
Units: 4 Terms Offered: FaSp Rigorous coverage of probability, discrete and continuous random variables, functions of multiple random variables, covariances, correlation, random sequences, Markov chains, estimation, and introduction to statistics. Duplicates Credit in EE 464 and EE 465. Instruction Mode: Lecture, Discussion Grading Option: Letter
EE 504L Solid-State Processing and Integrated Circuits Laboratory
Units: 3 Laboratory oriented with lectures keyed to practical procedures and processes. Solid-state fabrication and analysis fundamentals; basic device construction techniques. Instruction Mode: Lecture, Lab Required Grading Option: Letter
EE 505 Analog, Mixed-Signal, and RF Integrated-Circuit Tape-Out
Units: 3 Terms Offered: Sm Complete systematic tape-out flow including schematic design, simulation, layout, and post-layout verification of analog, mixed-signal, or radio-frequency integrated circuits. Prerequisite: EE 536a Instruction Mode: Lecture Grading Option: Letter
EE 506 Semiconductor Physics
Units: 3 Terms Offered: FaSp Semiconductor bonds, crystallography, band structure assumptions, group theory, band structure results, k.p. method, quantum wells, wires and dots, superlattices, amorphous, organic semiconductors, defects, statistics, surfaces. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 506
EE 507 Micro- and Nano-Fabrication Technology
Units: 3 Physical basis of technologies for the fabrication of micro- and nano-scale devices. Thin-film deposition, etching, and material modification processes; patterntransfer methods. Recommended Preparation: graduate standing in engineering, physics, or chemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 507
EE 508 Nano-Fabrication Lithography
Units: 3 Physical basis of lithography methods for nano-scale devices. Photon-, electron-, and ion-based systems, advanced processes; resolution enhancement techniques; directed self assembly. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 508
EE 509 Electromagnetics for Semiconductor Photonics
Units: 3 Overview of electromagnetics needed to understand and design photonic devices. Includes discussion of waveguides and resonant cavities and an introduction to photonic crystals. Instruction Mode: Lecture Grading Option: Letter
EE 510 Linear Algebra for Engineering
Units: 4 Terms Offered: FaSp Introduction to linear algebra and matrix theory and their underlying concepts; applications to engineering problems; mathematically rigorous and foundational to other classes in communication, control, and signal processing. Recommended Preparation: EE 141L and MATH 445 or equivalent (calculus, undergraduate linear algebra, matrix theory) Instruction Mode: Lecture, Discussion Grading Option: Letter
EE 511 Simulation Methods for Stochastic Systems
Units: 1 Project-oriented investigation of simulation methods used for the analysis and design of complex stochastic systems whose operation and performance are affected by random events. Recommended Preparation: MatLab programming experience. Corequisite: EE 503; Instruction Mode: Lecture Grading Option: Letter
EE 512 Stochastic Processes
Units: 3 Probability theory and stochastic processes, including renewal theory, Markov chains, Brownian motion, martingales, and stochastic calculus. Applications in communication networks, queueing theory, and financial systems. Prerequisite: EE 503 and (EE 441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter
EE 513 Solid State Energy Devices
Units: 3 Design and operation of solar photovoltaic energy converters, thermovoltaic energy converters, thermoelectric energy converters, and solid state light emitters; their roles in renewal and conservation of energy. Recommended Preparation: EE 338. Instruction Mode: Lecture Grading Option: Letter
EE 514 Quantum Error Correction
Units: 3 A comprehensive introduction to quantum error correction and decoherence control, from the basics to the cutting edge, enabling students to delve into current research topics. Recommended Preparation: EE 520. Instruction Mode: Lecture Grading Option: Letter
EE 515 High-Voltage Technology
Units: 3 High voltage engineering basic concepts; theoretical, design, and practical aspects of overvoltages, travelling-waves, insulation, and aging; breakdown mechanisms; insulation coordination. Instruction Mode: Lecture Grading Option: Letter
EE 516 High-Voltage DC Transmission Systems
Units: 4 AC/DC conversion processes, converter technologies, and design; harmonics, controls, and protection; AC/DC interactions and system performance; modeling, application, and installation; current-source versus voltage-source converters. Prerequisite: EE 443 Instruction Mode: Lecture Grading Option: Letter
EE 517 Statistics and Data Analysis for Engineers
Units: 4 Terms Offered: FaSpSm Statistics and data analysis emphasizing computation and problem solving: confidence intervals, hypothesis tests, bootstrap and Monte Carlo estimation, regression, Bayesian and statistical learning techniques. Prerequisite: EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter
EE 518 Mathematics and Tools for Financial Engineering
Units: 4 Students will build a mathematical background for studying financial engineering. Emphasis is on analysis, proofs and examples. Mathwork’s financial toolbox will be introduced. Instruction Mode: Lecture, Discussion Grading Option: Letter
EE 519 Speech Recognition and Processing for Multimedia
EE 520 Introduction to Quantum Information Processing
Units: 3 Terms Offered: FaSpSm Introduces the basics of quantum computation and quantum information theory; quantum bits and registers, unitary gates, algorithms, error correction, and quantum cryptography. Recommended Preparation: EE 503 and (EE 441 or EE 510) Instruction Mode: Lecture Grading Option: Letter
EE 521 Power Systems Analysis and Design
Units: 4 Power system planning, studies, and design; time-domain modeling and analysis of power-system networks; power flow, stability, fault, and economic dispatch analysis; symmetrical components. Prerequisite: EE 443 Instruction Mode: Lecture Grading Option: Letter
EE 522 Immersive Audio Signal Processing
Units: 3 Terms Offered: Sp Fundamentals of digital audio signal processing, room acoustics, and psychoacoustics. Algorithms for real-time implementation of immersive audio systems for integrated media applications. Prerequisite: EE 483 Instruction Mode: Lecture Grading Option: Letter
EE 523 Advanced Biomedical Imaging
Units: 3 Enroll in BME 525
EE 524 Transients in Power Systems
Units: 3 Overvoltages during faults, voltage recovery, arcing faults, restrikes, theory of switching surges. Systems grounding, traveling waves, lightning and surge protection, insulation coordination. Prerequisite: EE 443. Instruction Mode: Lecture Grading Option: Letter
EE 525 Power System Protection
Units: 3 Theory of system and equipment protection, characteristics of relays, relay coordination, and system considerations. Prerequisite: EE 443. Instruction Mode: Lecture Grading Option: Letter
EE 526 Renewable Energy in Power Systems
Units: 4 Renewable energy sources and their integration in electrical networks. Power-flow control from highly variable resources. Cost analysis and planning. Instruction Mode: Lecture Grading Option: Letter
EE 527 Net-Centric Power-System Control
Units: 3 Terms Offered:FaSpSm Control
COURSES OF INSTRUCTION

EE 530 Optical Materials, Instruments and Devices
Units: 3 Anisotropic materials and devices; properties of metals; design and theory of selected optical instruments; properties of electrooptic, acoustooptic, and spatial light modulators; optical detectors. Prerequisite: EE 529. Instruction Mode: Lecture Grading Option: Letter

EE 531 Nonlinear Optics
Units: 3 Theory of nonlinear optical susceptibility and application to self-focusing, harmonic generation, and parametric interactions. Raman and Brillouin scattering. Coherent spectroscopy. Prerequisite: EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 532 Wireless Internet and Pervasive Computing
Units: 3 Terms Offered: Fa Wireless Internet access technologies, 3G cellular systems, WAP and PKI protocols, mobile computing devices, network security for mobile E-commerce, software and middleware for pervasive, cluster, grid, and Internet computing. Prerequisite: EE 450; Recommended Preparation: EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 533 Network Processor Design and Programming
Units: 3 Terms Offered: Sp Understanding of network processor architecture, applications, and other relevant issues. Program network processor and test under realistic network environment. Design and deploy custom network processor. Prerequisite: EE 457; Recommended Preparation: EE 450. Instruction Mode: Lecture Grading Option: Letter

EE 534 Materials Characterization
Units: 3 (Enroll in MASC 534)

EE 535 Mobile Communications
Units: 3 Terms Offered: FaSpSm The mobile communication channel; techniques used to combat the channel; cellular communications; multiple-access techniques; example mobile communication systems. Prerequisite: EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 536 Mixed-Signal Integrated Circuit Design
Units: 4 MOSFET operation and models; elementary amplifier configurations; biasing and references; frequency response; noise; feedback; operational amplifiers; frequency compensation; non-linearity and mismatch; passive and active filters. Prerequisite: EE 448 or EE 479. Instruction Mode: Lecture Grading Option: Letter

EE 539 Engineering Quantum Mechanics
Units: 4 Terms Offered: Fa Quantum mechanics for engineering majors who work with solid-state devices, quantum electronics, and photonics. Schroedinger equation, perturbation theory, electronic and optical processes. Recommended Preparation: Experience with linear algebra, Newtonian mechanics, Maxwell's equations, and MATLAB. Instruction Mode: Lecture, Quiz Grading Option: Letter Crosslisted as MASC 539

EE 540 Introduction to Quantum Electronics
Units: 3 Fundamentals of light amplification; laser amplifiers and oscillators; atomic pumping; maser and laser systems; definitions of coherence; measurements in quantum electronics. Prerequisite: EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 541 Radio Frequency Filter Design
Units: 3 Terms Offered: Fa Theory and realization of passive and transconductance-based active filters for radio frequency communications. Distributed and quasi-distributed passive filters. Circuit testing via scattering parameters. Prerequisite: EE 348. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 542 Internet and Cloud Computing
Units: 3 Terms Offered: Fa Principles and technologies of server clusters, virtualized datacenters, Grids/P2P, Internet clouds, social networks, Internet of Things (IoT), and their innovative applications. Recommended Preparation: EE 450 or EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 543aL Digital Control Systems
Units: 3 Terms Offered: Fa Design, analysis, and implementation of digital control systems using microcomputers; Z-transform methods; frequency domain and state space approach; computational aspects; sampling and quantization. Prerequisite: EE 482. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-553A

EE 543bL Digital Control Systems
Units: 1 Modeling of real processes; design and implementation of digital control systems in the controls laboratory. Prerequisite: EE 543a. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lab Required Grading Option: Letter Crosslisted as AME-553B

EE 544 Radio Frequency Systems and Hardware
Units: 3 Terms Offered: Sp Elements of radio frequency communication systems: modulation/demodulation strategies, transmission-channel impairments, performance criteria, hardware (low-noise amplifiers, mixers, oscillators), digital back-end, contemporary case studies. Prerequisite: EE 301, EE 348, EE 364. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 545 Robotics
Units: 3 Terms Offered: FaSp (Enroll in CSCI 545)

EE 546 Mathematics of High-Dimensional Data
Units: 4 Terms Offered: Irregular Modern developments in data representation/analysis, nonconvex optimization, high-dimensional probability, sketching, clustering, low-rank models, inverse problems, applications in imaging, machine learning, computer vision and neuroscience. Prerequisite: EE 510 and EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 548 Analytical Methods in Robotics
Units: 3 (Enroll in AME 548)

EE 549 Nanotechnology for Materials, Electronics, and Circuits
Units: 4 Nanotechnology for advanced nanomaterials, nanoelectronics devices, and circuits, including the rigorous treatment of electronic band structures of carbon nanotubes, graphene, and two-dimensional materials. Instruction Mode: Lecture Grading Option: Letter

EE 550 Design and Analysis of Computer Communication Networks
Units: 3 Applications of stochastic modeling and optimization techniques to communication network design and analysis. Data link control; performance models; multi-access channels; routing and flow control. Prerequisite: EE 450 and EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 551 Principles of Radar
Units: 3 Terms Offered: Irregular Signal propagation, reflections from targets, radar equation; detection of scintillating targets;
resolutions; ambiguity functions; clutter rejection; tracking radars. Prerequisite: EE 364 and EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 552 Asynchronous VLSI Design
Units: 3 Terms Offered: FaSp Asynchronous channels and architectures; implementation design styles; controller synthesis; hazards, and races; Petri-nets; performance analysis, and optimization; globally asynchronous locally synchronous design. Prerequisite: EE 477. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-552

EE 553 Computational Solution of Optimization Problems
Units: 3 Terms Offered: Sp Computer algorithms for system optimization. Search techniques, gradient methods, parameter optimization in control systems. Optimization with constraints; linear and nonlinear programming. Random search techniques. Prerequisite: EE 441 or EE 510 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 553

EE 554 Real Time Computer Systems
Units: 3 Terms Offered: Sp Structure of real-time computer systems; analog signals and devices; scheduling, synchronization of multiprocessors; reliability, availability; serial/parallel computations; real-time operating systems and languages; design examples. Prerequisite: EE 457. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-554

EE 555 Broadband Network Architectures
Units: 3 Terms Offered: FaSp Broadband network architectures and services, technologies for high-speed access and core networks, optical infrastructure for layered network architectures, high performance switch and router architectures. Prerequisite: EE 450 and EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 556 Stochastic Systems and Reinforcement Learning
Units: 4 Terms Offered: Sp Stochastic system models, Dynamic programming, Linear quadratic control, Kalman filtering and estimation, System identification, approximate dynamic programming methods, adaptive control, reinforcement and online learning. Prerequisite: EE 503 Recommended Preparation: EE 512 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ISE 556

EE 557 Computer Systems Architecture
Units: 4 Terms Offered: FaSp Computer architecture from a design perspective: Pipelined processors, speculative execution, VLIW, vector processors, GPU/GPGPU, memory technology and systems, interconnection networks, shared-memory and message-passing multiprocessors, chip multiprocessors. Prerequisite: EE 457 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 557

EE 558 Optical Fiber Communication Systems
Units: 3 Terms Offered: FaSp State-of-the-art optical fiber communication systems. Emphasis on optoelectronic-device and communication-systems issues necessary to provide high-speed and/or networked optical communications. Recommended Preparation: EE 338; basic knowledge of optics, semiconductor, and communications concepts. Instruction Mode: Lecture Grading Option: Letter

EE 559 Mathematical Pattern Recognition
Units: 3 Terms Offered: Sp Distribution-free classification, Discriminant functions, training algorithms; statistical classification, parametric and nonparametric techniques; artificial neural networks. Corequisite: EE 503 and (EE 441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 559

EE 560 Digital System Design
Units: 4 ASIC design, FPGAs, VHDL, verilog, test benches, simulation, synthesis, timing analysis, post-synthesis simulation, FIFOs, handshaking, memory interface, PCI bus protocol, CAD tools, design lab exercises. Prerequisite: EE 457 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 561 Foundations of Artificial Intelligence
Units: 3 Terms Offered: FaSp (Enroll in CSCI 561)

EE 562 Random Processes in Engineering
Units: 3 Random vectors, sequences, and functions. Linear transformations, second moment theory, spectral densities, narrowband processes, Gaussian processes, correlation detection, linear minimum mean square error estimation. Prerequisite: EE 503 and (EE 441 or EE 510) Duplicates Credit in former EE 562a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 563 Estimation Theory
Units: 3 Terms Offered: Fa Parameter estimation and state estimation technique including: least squares, BLUE, maximum-likelihood, maximum a posteriori, Kalman-prediction, Kalman filtering and Kalman smoothing and extended Kalman filtering. Prerequisite: EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 564 Digital Communication and Coding Systems
Units: 4 Digital modulations. Optimal reception. Performance analysis. Classical and modern codes. Viterbi, forward-backward, and iterative decoding. Practical designs for channels with memory or nonlinearities. Example systems. Prerequisite: EE 503 and (EE 441 and EE 510) Recommended Preparation: Basic computer skills (simple programs and plotting) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 565 Information Theory and Compression

EE 566 Optical Information Processing
Units: 3 Terms Offered: Sp Coherent and incoherent optical transforming, imaging and two-dimensional information processing systems; optical image processing, spatial frequency response and filtering; optical and digital holography. Recommended Preparation: Solid knowledge of linear systems, signals, and continuous-time Fourier transforms Corequisite: EE 483 Instruction Mode: Lecture Grading Option: Letter

EE 567 Communication Systems
Units: 3 Terms Offered: FaSp Analysis of communication systems operating from very low to optical frequencies. Comparison of modulation and detection methods. System components description. Optimum design of communication systems. Recommended Preparation: EE 441 or EE 510 Corequisite: EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 569 Introduction to Digital Image Processing
Units: 4 Terms Offered: Sp Image sampling, 2-D image transform, image enhancement, geometric image modification, morphologic processing, edge detection, texture analysis, image filtering and restoration. Recommended Preparation: EE 503, C/C++ or Matlab programming ability Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570a Advanced Electromagnetic Theory
Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. Recommended Preparation: EE 470 (or equivalent); working knowledge of vector algebra, vector calculus, differential equations, and complex variables Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570b Advanced Electromagnetic Theory
Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. Prerequisite: EE 570a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 571a Microwave Networks
Units: 3 Microwave network theory for transmission lines and waveguides, discontinuities, impedance transformers, resonators, multi-junction networks, periodic structures, nonreciprocal and active devices. Prerequisite: EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 571b Microwave Networks
Units: 3 Parameter matrices, approximate design procedures for distributed networks from lumped networks, coupled lines, equivalent coupled-line circuits, Kuroda's identities, and capacitance matrix transformations. Prerequisite: EE 571a. Instruction Mode: Lecture Grading Option: Letter
EE 572a Plasma Dynamics
Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 572b Plasma Dynamics
Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 573a Antenna Analysis
Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, apertures, radiation, methods of moments, geometrical and physical optics, reflectors, arrays. Prerequisite: EE 470. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 573b Antenna Analysis
Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, apertures, radiation, methods of moments, geometrical and physical optics, reflectors, arrays. Prerequisite: EE 470. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 574 Computer Vision
Units: 3 Terms Offered: Fa (Enroll in CSCI 574)

EE 575 Computational Differential Geometry for Engineers
Units: 3 Differential geometry of curves and surfaces, vectors, tensors, manifolds, curvature, Lie groups, Riemannian geometry, numerical PDEs, heat and Laplace equation, Applications to computer vision, machine learning, signal and image processing. Recommended Preparation: Good background in calculus and familiarity with Matlab or C++. Instruction Mode: Lecture Grading Option: Letter

EE 576 Integrated Memory Devices and Technologies
Units: 3 Physical operation and implementation of modern solid-state memory structures. Emerging advanced memory technologies. Recommended Preparation: Understanding of basic semiconductor device physics and fabrication technology is useful, but is not required. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 577a VLSI System Design
Units: 3 Terms Offered: FaSp Integrated circuit fabrication; circuit simulation; basic device physics; simple device layout; structured chip design; timing; project chip; MOS logic; system design silicon compilers. Prerequisite: EE 477. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 577b VLSI System Design
Units: 3 Terms Offered: FaSp VLSI design project; chip level design issues; power and clock distribution, packaging, I/O; design techniques; testability; chip fabrication and test. Prerequisite: EE 477. Instruction Mode: Lecture Grading Option: Letter

EE 578 Reflectors Antennas
Units: 3 Introduction to the analytical and numerical techniques used in the design and analysis of modern reflector antenna systems, including optical, asymptotic techniques, shaping and feeds. Prerequisite: EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 579 Wireless and Mobile Networks Design and Laboratory
Units: 3 Terms Offered: Sp Mobile ad hoc networks, ad hoc and geographic routing, resource discovery, medium access control, IP-mobility, mobility modeling, wired/wireless networks. Lab: wireless LAN measurement, mobile-IP, ad hoc routing. Prerequisite: CSCE 551 or EE 550 or EE 555. Recommended Preparation: programming, network simulation. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCE 575

EE 580 System Verification
Units: 4 Functional/timing/power verification of complex systems. Simulation-based, formal/semi-formal/assertion languages and tools (SystemVerilog, UVM, UPF, etc.) FPGA prototyping, hardware acceleration, statistical modeling and machine learning. Instructor permission required. Recommended Preparation: EE 457 and EE 477L; scripting using Python, OOP using C++; algorithms, statistics and probability. Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter

Units: 4 Fundamental techniques underlying the methodologies for system design, from integrated circuits to cyber-physical systems. Design flows, fundamental classes of models, and verification and synthesis techniques. Recommended Preparation: Exposure to the fundamentals of calculus or discrete mathematics, some background in programming, and an inclination to formal reasoning. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCE 593

EE 582 CMOS: Nano Neuromorphic Circuits
Units: 4 Design and simulation of CMOS and nano electronic circuits modeling brain cells, including neurons and glial cells; low-power design; simulation laboratory. Prerequisite: EE 348L Recommended Preparation: EE 477L or EE 479 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ECE 582

EE 583 Statistical Signal Processing
Units: 3 Characterization of discrete-time random processes. Parametric and non-parametric spectral estimation, adaptive filtering, signal subspace methods, independent components analysis, non-Gaussian signal processing. Prerequisite: EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 584 Chaotic Systems

EE 585 Linear System Theory
Units: 3 Terms Offered: FaSpSm Analysis of linear dynamical systems by state-space techniques; controllability, observability, stability, passivity. Application of feedback control and network synthesis. Prerequisite: EE 441 or EE 510 Duplicates Credit in AME 541 Instruction Mode: Lecture Grading Option: Letter

EE 586L Advanced DSP Design Laboratory
Units: 4 Terms Offered: Sp Real-time adaptive signal processing projects using special purpose DSP processors. Suitable project areas include acoustics, speech, arrays, image compression and biomedical signal processing. Permission of instructor required. Prerequisite: EE 483 Recommended Preparation: At least one 500-level DSP course. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 587 Nonlinear and Adaptive Control
Units: 3 Terms Offered: Fa Nonlinear systems, Lyapunov Stability, Parameter Identification, direct and indirect adaptive control for linear and nonlinear systems. Design analysis, stability, robustness and applications. Backstepping, feedback linearization. Prerequisite: EE 482, EE 585. Instruction Mode: Lecture Grading Option: Letter

EE 588 Optimization for the Information and Data Sciences
Units: 4 Convex sets, functions, and optimization problems. Basic convex analysis and theory of convex programming. Novel, efficient first-order algorithms. Applications in the information and data sciences. Prerequisite: EE 441 Recommended Preparation: EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 591 Magnetic Resonance Imaging and Reconstruction
Units: 3 Terms Offered: FaSpM Principles of magnetic resonance imaging. Spin physics, Fourier-based acquisition and reconstruction, generation of tissue contrast, fast imaging, artifact correction, advanced image reconstruction. Prerequisite: EE 483; Recommended Preparation: EE 441 and EE 503. Familiarity with MATLAB is required. Instruction Mode: Lecture Grading Option: Letter
Letter

EE 592 Computational Methods for Inverse Problems
Units: 3 Terms Offered: FaSpSm Vector-space methods for solving inverse problems. Existence and uniqueness of solutions; conditioning and regularization; iterative algorithms; constrained optimization; applications in signal and image processing. Prerequisite: EE 483 and (EE 441 or EE 510) Recommended Preparation: EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 593 Robust Multivariable Control
Units: 3 Terms Offered: FaSpSm The master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 596 Wavelets and Graphs for Signal Processing and Machine Learning
Units: 4 Multirate signal processing, wavelets and filter banks. Overcomplete and sparse signal representations. Graph signal processing. Applications to compression, sensing, time-frequency analysis, and machine learning. Prerequisite: EE 483 and (EE 441 or EE 510) Instruction Mode: Lecture Grading Option: Letter

EE 597 Wireless Networks
Units: 3 Terms Offered: FaA Prerequisite: EE 529. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 598 Electrical Engineering Research Seminar
Units: 1 Max Units: 2.0 Introduction to research in electrical engineering. Topics vary by semester. May be repeated for up to one unit of credit for MS students, two units of credit for PhD students. Registration Restriction: Open only to Master's and Doctoral Students. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 The course content will be selected each semester to reflect current trends and developments in the field of electrical engineering. Instruction Mode: Lecture Grading Option: Letter

EE 601 Advanced Semiconductor Device Physics
Units: 4 Terms Offered: Sp Fundamentals and limitations of nanoscale electronic and photonic semiconductor components. Engineering classical, mesoscale, and quantum electron and photon dynamics in advanced devices. Recommended Preparation: EE 471 or EE 539 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ASC 601

EE 603 System Identification
Units: 4 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

EE 609 Nonequilibrium Processes in Semiconductors
Units: 3 Non-equilibrium processes in modern semiconductor devices. Carriers lifetime and trapping; luminescence; hot carrier and high field effects. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ASC 606

EE 607 Microelectromechanical Systems
Units: 3 Terms Offered: FaSpSm Exploration of the technology methods and physical principles of MEMS, and survey various MEMS of current interest. Recommended Preparation: Knowledge of microfabrication, electromagnetic fields and waves, and mechanics Instruction Mode: Lecture Grading Option: Letter

EE 608L Microelectromechanical Systems Laboratory
Units: 3 Terms Offered: FaLab fabrication and analysis of several MEMS applications, including diaphragm-based sensors and actuators, microfluidic components, and deformable mirror array. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 612 Service and Practice of Nanotechnology
Units: 3 Terms Offered: Fa In-depth discussions of important topics in nanotechnology, including both the implementation and the underlying theory. Prerequisite: EE 330 or EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 619 Advanced Topics in Automatic Speech Recognition
Units: 3 Terms Offered: FaSpSm Advanced topics in automatic speech recognition, speaker recognition, spoken dialogue, conversational multimedia interfaces. Recommended Preparation: EE 519 and CSCE 544 and EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 620 Advanced Topics in Applied Stochastic Models
Units: 3 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

EE 623 Integrated Communication Systems
Units: 4 Analysis and design of integrated communication circuits at transistor and system levels. Communication concepts, transceiver architectures, low-noise amplifiers, mixers, oscillators, phase-locked loops, power amplifiers. Prerequisite: EE 479 Instruction Mode: Lecture Grading Option: Letter

EE 635 Advanced Wireless Communications
Units: 3 Fundamentals of advanced wireless systems, including multi-antenna, cognitive, and cooperative systems as well as exploration of current standards in wireless networks in use today. Prerequisite: EE 535; Recommended Preparation: basic programming course. Instruction Mode: Lecture Grading Option: Letter

EE 636 Current and Future Computing Devices and Technology
Units: 4 State-of-the-art computing devices; current trends in device technologies; future directions. Prerequisite: EE 537 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 637 Applications of Machine Learning for Medical Data
Units: 4 Application of machine learning models and algorithms to medical applications, learning from data and classification of disorders. Overview of health data, collection with sensors, body area networks, brain image data and other publicly available medical applications data. Prerequisite: EE 660 or CSCE 561 or INF 552 Instruction Mode: Lecture Grading Option: Letter

EE 642 Advanced Geometrical Optics
Units: 3 First order design of optical systems; origin of aberrations and their effects on wave propagation and imaging based on geometrical and physical optics. Prerequisite: EE 529. Instruction Mode: Lecture Grading Option: Letter

EE 644 Network Economics and Games
Units: 3 Economics of networks; game theory, mechanism design and auctions in networks; spectrum sharing mechanisms in communications; pricing of differentiated services; network security. Prerequisite: EE 450 and EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3 (Enroll in CE 645)

EE 648 Network Economics and Games
Units: 3 Economics of networks; game theory, mechanism design and auctions in networks; spectrum sharing mechanisms in communications; pricing of differentiated services; network security. Prerequisite: EE 450 and EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 649 Current and Future Computing Devices and Technology
Units: 4 State-of-the-art computing devices; current trends in device technologies; future directions. Prerequisite: EE 537 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 650 Advanced Topics in Computer Networks
Units: 3 Terms Offered: Irregular Protocol Optimization of wireless and ad-hoc mobile networks; opportunistic scheduling, flow control; back-pressure routing; queue stability; energy-delay and utility-delay trade-offs. Prerequisite: EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 650 Advanced Topics in Computer Networks
Units: 3 Terms Offered: Irregular Protocol modeling: flow and congestion control, dynamic routing, distributed implementation; broadcast communication media and multiple access protocols; local networks, satellite networks, terrestrial radio networks. Prerequisite: EE 450 and EE 503; Recommended Preparation: EE 550 or CSCE 551. Instruction Mode: Lecture Grading
Option: Letter

**EE 652 Low-Power Wireless Networks**
Units: 3 Terms Offered: Fa Implementation of low-power wireless protocols for medium access, scheduling, multi-hop routing, congestion control, localization, synchronization. IP stack for the Internet of Things. Wireless sensor network applications. **Prerequisite:** EE 450; **Recommended Preparation:** CSCI 402, strong programming skills, and experience with Linux. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-652

**EE 653 Advanced Topics in Microarchitecture**
Units: 3 Current research topics related to microprocessor architecture. Dynamically/statically scheduled processors, multithreading, chip multiprocessors, systems on a chip. Power, performance, complexity, dependability issues. Impact of technology. **Prerequisite:** EE 557. Instruction Mode: Lecture Grading Option: Letter

**EE 657 Parallel and Distributed Computing**
Units: 3 Terms Offered: FaSpSm Scalable multiprocessor systems and clusters, virtual machine, service oriented architecture, network-based computing, peer-to-peer, grid and cloud based storage and computing, case studies. **Prerequisite:** EE 557; **Recommended Preparation:** EE 450. Instruction Mode: Lecture Grading Option: Letter

**EE 658 Diagnosis and Design of Reliable Digital Systems**
Units: 3 Terms Offered: Fa Fault models; test generation; fault simulation; self-checking and self-testing circuits; design for testability; fault tolerant design techniques; case studies. **Prerequisite:** graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-658

**EE 659 Interconnection Networks**
Units: 3 Terms Offered: Sp Theory, design and analysis of interconnection networks for multiprocessor systems. Study of direct and indirect topologies, deadlock-free routing, flow control, network interfaces, optical interconnects. **Prerequisite:** EE 557. Instruction Mode: Lecture Grading Option: Letter

**EE 660 Machine Learning from Signals: Foundations and Methods**
Units: 3 Terms Offered: Fa Supervised, semisupervised, and unsupervised machine learning; classification and regression. Model complexity, assessment, and selection; performance (error) on unseen data. **Prerequisite:** EE 503 and EE 559 and (EE 441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter

**EE 664 Advanced Topics in Communication Theory**
Units: 3 Modern communication theory for heterogeneous networks. Novel methods for communication network analysis and design. New theoretical tools: e.g. interference alignment, polar codes, and sparse approximation. **Prerequisite:** EE 564 **Recommended Preparation:** EE 535 and EE 565a, EE 565b. Instruction Mode: Lecture Grading Option: Letter

**EE 665 Advanced Topics in Information Theory**
Units: 3 Terms Offered: Fa Multi-terminal and network information theory. Network coding. Coding for special applications such as data storage. Applications of information theory to computational biology and data analytics. **Prerequisite:** EE 565 Instruction Mode: Lecture Grading Option: Letter

**EE 667 Array Signal Processing**
Units: 3 Terms Offered: Sp Beamforming principles, monopulse and conical-scan concepts, phased arrays, synthetic multiple beam arrays; signal processing techniques for synthetic aperture formation, adaptivity, and retro-directing. **Prerequisite:** EE 562a, EE 562b. Instruction Mode: Lecture Grading Option: Letter

**EE 669 Multimedia Data Compression**
Units: 3 Terms Offered: FaSpSm Lossless compression, audio/speech coding, vector quantization, fractal compression, JPEG and JPEG-2000, video compression techniques and MPEG standards, video transmission over wired and wireless networks. **Recommended Preparation:** EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

**EE 674a Advanced Topics in Computer Vision**
Units: 3 Terms Offered: FaIrregular (Enroll in CSCI 674a, CSCI 674b) Instruction Mode: Lecture Grading Option: Letter

**EE 674b Advanced Topics in Computer Vision**
Units: 3 Terms Offered: Irregular (Enroll in CSCI 674a, CSCI 674b)

**EE 677 VLSI Architectures and Algorithms**
Units: 3 VLSI models; measures of area, volume and time; mapping algorithms; systolic arrays; area time tradeoffs; applications to signal and image processing problems. **Recommended Preparation:** EE 457 and CSCI 570 Instruction Mode: Lecture Grading Option: Letter

**EE 680 Computer-Aided Design of Digital Systems I**
Units: 3 Terms Offered: Sp Synthesis; partitioning; placement; routing of digital circuits; integrated circuit design methods; simulation at the switch, gate, register transfer and system levels. **Prerequisite:** EE 581; **Recommended Preparation:** EE 577a. Instruction Mode: Lecture Grading Option: Letter

**EE 681 Computer-Aided Design of Digital Systems II**
Units: 3 Theory and techniques for design and analysis of digital logic; specification, formal models; hardware-descriptive languages; formal verification, high level synthesis; logic synthesis. Instruction Mode: Lecture Grading Option: Letter

**EE 682 Law and Intellectual Property for Engineers**
Units: 3 Terms Offered: Sp Detailed introduction to the modern American legal system with a special focus on intellectual-property doctrines. **Recommended Preparation:** EE 503. Instruction Mode: Lecture Grading Option: Letter

**EE 690 Directed Research**
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Electrical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

**EE 790 Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**EE 794a Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**EE 794b Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**EE 794c Doctoral Dissertation**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**EE 794d Doctoral Dissertation**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**Endodontics**

**ENDO 501 Clinical Endodontics**
Units: 1 Diagnosis and treatment procedures for basic clinical endodontics, including management of endodontic emergencies; relationship of endodontics to the various dental disciplines. Instruction Mode: Lecture Grading Option: Letter

**ENDO 502 Advanced Endodontics**
Units: 1 Theoretical principles for the treatment of advanced endodontic cases; alternative methods of endodontic therapy; introduction to interspecialty cases. Instruction Mode: Lecture Grading Option: Letter

**ENDO 521 Preclinical Endodontics**
Units: 3 Theoretical principles of endodontic therapy related to pulpal and periapical disease; training in procedures of localizing, preparing, and filling the root canal of human teeth. Instruction Mode: Lecture Grading Option: Letter

**ENDO 562a Clinic: Concentrated Early Endodontics**
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

**ENDO 562b Clinic: Concentrated Early**
ENDO 562c Clinic: Concentrated Early Endodontics
Units: 1 Early clinical experience including assigned clinic demonstration block.
Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 610 Clinical Advanced Endodontics
Units: 2 In-depth discussion of endodontic surgery, retreatment, and hemisection cases; includes clinical experience in advanced endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 705a Seminar: Endodontic Case Presentation
Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture Grading Option: Letter

ENDO 703b Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 704a Seminar: Surgical Endodontics
Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture Grading Option: Letter

ENDO 704b Seminar: Surgical Endodontics
Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture Grading Option: Letter

ENDO 705d Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture Grading Option: Letter

ENDO 707b Seminar: Endodontic Case Presentation
Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture Grading Option: Letter

ENDO 710 Seminar: Endodontic Practice Management
Units: 2 Organizing, staffing, and evaluation of an endodontic practice. Modes and patterns of management including use of auxiliaries. Emphasis on endodontist/general practitioner relationships; legal aspects of dental practice. Instruction Mode: Lecture Grading Option: Letter

ENDO 711 Alternatives in Endodontics
Units: 4 Alternative endodontic techniques presented by guest clinicians. Emphasis on endodontics and its relationship with periodontal, restorative, and surgical disciplines. Instruction Mode: Lecture Grading Option: Letter

ENDO 761a Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761d Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 761e Clinic: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 each Advanced clinical experience emphasizing the diagnosis and management of complicated endodontic cases. Instruction Mode: Lecture Grading Option: Letter

Environmental Engineering
ENE 201 Introduction to Applied Environmental Science and Engineering
Units: 4 Gateway to BS in Civil Engineering (Environmental Engineering), BS, Environmental Engineering, and Minor in Environmental Engineering. Fundamental concepts of environmental science and engineering. Pollution control and remediation for air, water and soil. Pollution remediation for developing countries. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-201

ENE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ENE 410 Environmental Fluid Mechanics
Units: 3 Equation of motion; continuity, momentum, energy principles; dimensional analysis, similarities; groundwater flows; transports in conduits and channels; mixing, dispersion in environments; manifold diffusers; hydraulic transients. Prerequisite: MATH 245. Duplicates Credit in CE 309
and AME 309. Instruction Mode: Lecture Grading Option: Letter

**ENE 426 Particulate Air Pollutants: Properties/Behavior/Measurement**
Units: 3 Particulate air pollutants, their measurement and instrumentation methods, and their effects on the environment and human health; optical properties and visibility degradation. **Prerequisite:** ENE 200 or ENE 400. Duplicates Credit in former ENE 526. Instruction Mode: Lecture Grading Option: Letter

**ENE 428 Air Pollution Fundamentals**
Units: 3 Terms Offered: Fa Air pollution effects on man, vegetation, materials; pollutant sampling and analysis; air quality standards and criteria; meteorological factors and dispersion modeling. **Prerequisite:** MATH 245 and PHYS 151 and CHEM 115b or CHEM 115b. **Recommended Preparation:** ENE 200 or CHE 350. Instruction Mode: Lecture Grading Option: Letter

**ENE 429 Air Pollution Control**
Units: 3 Terms Offered: Sp Emission surveys; engineering controls of aerosols and gaseous contaminants at emission sources, disposition of contaminants. Field trips. **Prerequisite:** ENE 428, CE 309 or ENE 410. Instruction Mode: Lecture Grading Option: Letter

**ENE 443 Environmental Chemistry**
Units: 3 (Enroll in CE 443)

**ENE 453 Water Quality Control**
Units: 3 (Enroll in CE 453)

**ENE 463L Water Chemistry and Analysis**
Units: 3 (Enroll in CE 463)

**ENE 465 Water Supply and Sewage System Design**
Units: 3 (Enroll in CE 465)

**ENE 486 Design of Solid and Hazardous Waste Engineering Systems**
Units: 3 Terms Offered: Fa Engineering design of solid and hazardous waste facilities such as waste minimization, secured landfill, and hazardous waste treatment. **Prerequisite:** ENE 200. Instruction Mode: Lecture Grading Option: Letter

**ENE 487 Environmental Biotechnology and Bioremediation**
Units: 3 Understanding and designing microbiological processes for environmental protection; learning how processes in environmental biotechnology work; emerging applications for bioremediation of hazardous chemicals in the environment. **Prerequisite:** CE 210, BISC 320. Instruction Mode: Lecture Grading Option: Letter

**ENE 495 Seminars in Environmental Engineering**
Units: 1 Terms Offered: FaSp Hazardous waste management, biodegradation of environmental pollutants, groundwater problems, waste minimization, energy resources, and air pollution control. Instruction Mode: Lecture Grading Option: Letter

**ENE 499 Special Topics**
Units: 2, 3, 4. Max Units: 8.0 Terms Offered: FaSp Course content to be selected each semester from recent developments in environmental engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

**ENE 502 Environmental and Regulatory Compliance**
Units: 3 Federal and state environmental laws; environmental impact assessment techniques; permitting for industrial facility construction and operation. **Prerequisite:** Graduate standing. Instruction Mode: Lecture Grading Option: Letter

**ENE 503 Microbiology for Environmental Engineers**
Units: 3 (Enroll in CE 503)

**ENE 504 Solid Waste Management**
Units: 3 (Enroll in CE 504)

**ENE 505 Energy and the Environment**
Units: 3 Terms Offered: Fa Environmental effects of energy development using fossil and fissile fuels, geothermics, photosynthesis, and other sources. Relationship of elemental cycles to the life supporting systems. Instruction Mode: Lecture Grading Option: Letter

**ENE 506 Ecology for Environmental Engineers**
Units: 3 Terms Offered: Fa The role of environmental engineering in maintaining stability of freshwater, marine, and terrestrial ecosystems; macroscopic plant and animal forms as indicators of water quality. Instruction Mode: Lecture Grading Option: Letter

**ENE 510 Water Quality Management and Practice**
Units: 3 Terms Offered: Fa Surface and ground water quality and resources management; water pollution in aquatic environment; water/wastewater infrastructure systems and management. Instruction Mode: Lecture Grading Option: Letter

**ENE 512 Environmental Fluid Mechanics**
Units: 3 Terms Offered: FaSp Environmental fluid mechanics (air and surface/ground water); flow kinematics; viscous/inviscid flow; boundary layer theory; steady/unsteady groundwater flows; turbulence; Reynolds equations; contaminant transport. **Recommended Preparation:** undergraduate fluid mechanics (e.g., CE-309 or ENE-410 or AME-309). Instruction Mode: Lecture Grading Option: Letter

**ENE 514a Advanced Sanitary Engineering Design**
Units: 3 (Enroll in CE 514a, CE 514b)

**ENE 514b Advanced Sanitary Engineering Design**
Units: 3 (Enroll in CE 514a, CE 514b)

**ENE 516 Hazardous Waste Management**
Units: 3 Standards and regulations for the management of hazardous waste: identification, transportation, monitoring, storage, treatment, and disposal practices. Instruction Mode: Lecture Grading Option: Letter

**ENE 517 Industrial and Hazardous Waste Treatment and Disposal**
Units: 3 (Enroll in CE 517)

**ENE 518 Environmental Systems Engineering and Management**
Units: 3 Evaluating, implementing and managing effective environmental systems to prevent pollution, conserve energy and resources, reduce risks and achieve sustainability in business and industries. Instruction Mode: Lecture Grading Option: Letter

**ENE 523 Physiochemical Processes in Environmental Engineering**
Units: 3 (Enroll in CE 523)

**ENE 527 Climate Change and Atmospheric Aerosols**
Units: 3 Terms Offered: Fa Climate change; climate science fundamentals; Earth's energy balance and atmosphere; greenhouse gas dynamics; fundamentals of airborne particles; climate-aerosol interactions; particle-radiation and particle-cloud interactions. **Recommended Preparation:** ENE 428. Instruction Mode: Letter Crosslisted as CE 527

**ENE 535 Air Pollution Management:**
Exposure, Health Effects and Risk
Units: 3 Terms Offered: Sp Pollutant sampling; occupational, community, and personal exposures; receptor modeling; data analysis; health effects of air pollutants. Instruction Mode: Lecture Grading Option: Letter

**ENE 553 Biological Processes in Environmental Engineering**
Units: 3 (Enroll in CE 553)

**ENE 560 Environmental Aspects of Oil and Gas Production**
Units: 3 Environmental aspects of drilling for and producing oil and gas, and the necessary safety practices. Attention is given to the urban areas. Instruction Mode: Lecture Grading Option: Letter

**ENE 562 Aquatic Chemistry**
Units: 3 Terms Offered: FaSp Quantitative prediction of chemical speciation in aquatic systems, including acid-base chemistry, precipitation/dissolution, complexation, and oxidation/reduction. Applications to water treatment. **Prerequisite:** CE 453. **Recommended Preparation:** CHEM 105aLg or CHEM 115bLg and CHEM 105bLg or CHEM 115blg. MATH 245 and PHYS 151Lg. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 562

**ENE 563 Chemistry and Biology of Natural Waters**
Units: 3 (Enroll in CE 563)

**ENE 580 Applied Environmental Engineering Biotechnology**
Units: 3 Fundamentals of bioremediation processes; bioremediation technologies for decontamination of air, water, and soil; global applications of bioremediation techniques. Instruction Mode: Lecture Grading Option: Letter

**ENE 590 Directed Research**
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12. **Research leading to the master's degree.** Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
ENEL 594a Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594b Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594c Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594d Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594e Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594f Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594g Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594h Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594i Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 594j Master's Thesis  
Units: 2  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 599 Special Topics  
Units: 2, 3, 4  
Max Units: 9  
Terms Offered: FaSp  
Instruction Mode: Lecture  
Grading Option: Letter

ENEL 790 Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  
Research leading to the doctorate.  
Maximum units which may be applied to the degree to 
be determined by the department.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

ENEL 794a Doctoral Dissertation  
Units: 2  
Credit on acceptance of dissertation.  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

ENEL 794b Doctoral Dissertation  
Units: 2  
Credit on acceptance of dissertation.  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

ENEL 794c Doctoral Dissertation  
Units: 2  
Credit on acceptance of dissertation.  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

ENEL 794d Doctoral Dissertation  
Units: 2  
Credit on acceptance of dissertation.  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

ENEL 794e Doctoral Dissertation  
Units: 2  
Credit on acceptance of dissertation.

Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Thematic, theoretical, or experimental studies in British and American literatures and cultures. Duplicates Credit in former ENGL 699. Instruction Mode: Lecture Grading Option: Letter

ENGL 600 Publication in Humanities Journals
Units: 4 Max Units: 8 Terms Offered: FaSp Development of academic strategies for preparing articles for publication in scholarly journals. Aspects of publication will include abstracts, introductions, argumentation, style and footnotes. Instruction Mode: Lecture Grading Option: Letter

ENGL 601 Introduction to Literary Editing and Publishing
Units: 4 Terms Offered: Fa Comprehensive introduction to the MA degree and its range of study, focusing on elements of the craft of editing and the literary marketplace. Instruction Mode: Lecture Grading Option: Letter

ENGL 602 Writers in the World: Text and Context
Units: 4 Terms Offered: Sp Editing and publishing within the tradition of literary and cultural influences upon a wide range of authors, readers, and genres. Instruction Mode: Lecture Grading Option: Letter

ENGL 603 The Editorial Experience: The Craft of Publication
Units: 4 Terms Offered: Fa An intensive workshop in applied English, coordinating literary analysis with editing and publication, including relationships with authors; academic and trade presses; journals; editing, and design. Instruction Mode: Lecture Grading Option: Letter

ENGL 604 The Nonfiction Experience: A Literary-Editorial Focus
Units: 4 Max Units: 8 Terms Offered: Fa Topics on literary and popular forms: profile portrait; science writing; food writing; place and travel; memoir; and personal essay; with venues for publication. Instruction Mode: Lecture Grading Option: Letter

ENGL 605 The History of Rhetoric
Units: 4 Max Units: 12.0 Studies in European and American rhetoric and their contexts. Instruction Mode: Lecture Grading Option: Letter

ENGL 607 Digital Publishing and Literary Writing for New Media
Units: 4 Terms Offered: Sp Discussion of literary texts combined with hands-on digital practice in composition, design, and fabrication for electronic publication, including formal, technical, and philosophical issues. Instruction Mode: Lecture Grading Option: Letter

ENGL 608 Publishing on Both Sides of the Transom
Units: 4 Terms Offered: Sp Editorial and publishing workshop with an intensive hands-on student project following the progress of a single piece of writing from manuscript to print. Instruction Mode: Lecture Grading Option: Letter

ENGL 609a Internship in Editing and Publishing: Eloquence and Ethics
Units: 2 Terms Offered: Fa Practical experience in the publishing world for acquiring skills and knowledge beyond the classroom. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 609b Internship in Editing and Publishing: Eloquence and Ethics
Units: 2 Terms Offered: Sp Practical experience in the publishing world for acquiring skills and knowledge beyond the classroom. Prerequisite: ENGL 609a Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 610 Theory and Criticism
Units: 4 Max Units: 12.0 Studies in meaning and meaning-making, form, comparative theory, theories of history and culture, theory in the classroom, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 612 History of the Book and Material Bibliography
Units: 4 Max Units: 12 Terms Offered: FaSp Book history and the use of primary source material in literary research. Grading Option: Letter

ENGL 620 Literature and Interdisciplinary Studies
Units: 4 Max Units: 12.0 Issues and theory of studying literature in relation to history, science, politics, psychology, religion, sociology, media, the visual arts, and other disciplines. Instruction Mode: Lecture Grading Option: Letter

ENGL 630 Studies in Gender
Units: 4 Max Units: 12.0 History and ideology of gender studies, feminist theory, gay and lesbian discourse, and other studies in feminisms and masculinities in relation to literature. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-630

ENGL 640 Individual Writers
Units: 4 Max Units: 12.0 Studies in major and minor, canonic and non-canonic writers. Instruction Mode: Lecture Grading Option: Letter

ENGL 650 Multicultural Literary Studies
Units: 4 Max Units: 12.0 Theories of race and ethnicity, cultural imperialism, discourse of power and class, literatures of the Americas, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 660 Studies in Genre
Units: 4 Max Units: 12.0 History, transformation, and theory of genre; studies in epic, lyric, drama, comedy, tragedy, the novel, biography, essay, and other forms. Instruction Mode: Lecture Grading Option: Letter

ENGL 678 Seminar in Film Theory and Medium Specificity
Units: 4 Max Units: max 8 (Enroll in CTCS 678)

ENGL 679 Seminar in Genre and/or Narrative Theory
Units: 4 Max Units: max 8 (Enroll in CTCS 679)

ENGL 695 Graduate Fiction Form and Theory
Units: 4 Max Units: max 16 Terms Offered: FaSp Seminar. Studies in fiction form and function or critical theory. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

ENGL 696 Graduate Poetry Writing Workshop
Units: 4 Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level poetry writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

ENGL 697 Graduate Fiction Writing Workshop
Units: 4 Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level fiction writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to English doctoral students Instruction Mode: Lecture Grading Option: Letter
ENGR 100b Engineering Honors Colloquium
Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 100d Engineering Honors Colloquium
Units: 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 101 Introduction to Engineering
Units: 3 Terms Offered: Fa Gateway to the majors and minors in engineering.

ENGR 102 Engineering Freshman Academy
Units: 2 Introduction to the profession of engineering. Ethical, political and societal consequences of engineering innovations and the impact of engineering on everyday life. Team projects and guest lectures. Open to freshmen only. Instruction Mode: Lecture Grading Option: Letter

ENGR 150L Engineering Science and Systems: From Humans to Robots
Units: 3 Terms Offered: Fa Hands-on multidisciplinary engineering course that uses robotics as a theme to cover material from all areas of engineering. Laboratory; programming; team projects; end-of-semester exhibition. Open only to freshmen. Recommended Preparation: Basic programming experience (e.g., C, C++, C#, Java, Python). Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Lab Required Grading Option: Letter

ENGR 301 Technical Entrepreneurship
Units: 3 (Enroll in BUAD 301)

ENGR 305 Engineering Biology Matters
Units: 3 Terms Offered: Fa Engineering students will learn biological phenomena in the context of engineering principles and explore biological mechanisms and processes as analogies for designing engineered systems. Recommended Preparation: CHEM 105a, MASC 110. Instruction Mode: Lecture Grading Option: Letter

ENGR 345 Principles and Practices of Global Innovation
Units: 3 Terms Offered: Sp Learner-centered, cross-cultural, technology-enabled approaches to principles and industrial practices leveraging cultural diversity to inspire innovations for competitive global markets. Requires an extended semester of 22 weeks, including 2-week overseas project in early summer. Instruction Mode: Lecture Grading Option: Letter

ENGR 395x Cooperative Education Work Experience
Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 395y Cooperative Education Work Experience
Units: 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

ENGR 401x Communicating Science and Engineering to Children
Units: 3 Max Units: 6.0 Terms Offered: FaSpSm Supervised interdisciplinary studies and projects. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 402 Engineering Honors Project
Units: 1, 2, 3 Max Units: 12.0 Terms Offered: FaSpSm Supervised interdisciplinary studies and projects. Enrollment limited to members of the Viterbi School of Engineering Honors Program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 410 Social Media for Scientists and Engineers
Units: 2 Terms Offered: FaSp An introduction to the various ways in which social media and science are intersecting and changing the ways in which scientists are engaging one another (inreach) and general audiences (outreach). Instruction Mode: Lecture Grading Option: Letter Crosslisted
as ITP 410

ENGR 461 Engineering Economics and Technology Development
Units: 4 Terms Offered: Sp Introduction to the theory and practice of engineering economics in the context of technology development. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

ENGR 471a Interdisciplinary Capstone Design
Units: 2 Terms Offered: Fa A culminating experience in applying technical skills they have acquired in their engineering course work to solve a design problem sponsored by an external customer. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture, Lab Grading Option: Letter

ENGR 471b Interdisciplinary Capstone Design
Units: 2 Terms Offered: Sp A culminating experience in applying technical skills they have acquired in their engineering coursework to solve a design problem sponsored by an external customer. Prerequisite: ENGR 471a Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture, Lab Grading Option: Letter

ENGR 493x Dean's Seminar in Entrepreneurship
Units: 2 Terms Offered: Sp Overview of starting and developing a new business. Discussions with successful business leaders and entrepreneurs. Not available for students admitted to the Entrepreneur Program. Open only to seniors or graduate students in business or engineering. Registration Restriction: Open only to seniors or graduate students in Business or Engineering. Duplicates Credit in former BUAD 493x. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Current developments in the field of engineering. Instruction Mode: Lecture Grading Option: Letter

ENGR 501x Engineering Writing and Communication for Master's Students
Units: 3 Terms Offered: FaS No Credit Academic and discipline-specific writing skills. Emphasis on structure of discourse and writing process. Presentation and oral communication skills also addressed. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 502x Writing Skills for Engineering PhD Students
Units: 2 Max Units: 4.0 Terms Offered: FaSpm Writing of engineering curriculum- and research-related projects for PhD students. Focus is on conference papers, dissertations and proposals, journal articles, and other forms. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 503x Oral Communication Skills for Engineering PhD Students
Units: 2 Max Units: 4.0 Terms Offered: FaSpm Academic and professional presentation skills for PhD students. Preparation for qualifying exams, conference paper presentations, and other forms of oral communication. Use of visual aids and poster displays included. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 504x Fellowship Proposal Writing for Engineering PhD Students
Units: 2 Terms Offered: FaSpm Preparation of essays and other materials for research fellowship applications. Open only to PhD engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 509 Patent Law for Scientists and Engineers
Units: 3 Terms Offered: Sp Tools for engineering and science graduate students to make informed decisions about obtaining and enforcing patent protection for their future inventions: validity, infringement, unenforceability. Recommended Preparation: EE 682 or ISE 565. Instruction Mode: Lecture Grading Option: Letter

ENGR 555 Invention and Technology Development
Units: 3 (Enroll in ISE 555) Grading Option: Graded CR/NC

ENGR 595a Professional Writing and Communication for Internships
Units: 1 Terms Offered: FaSpm Focus on writing and communication skills for master's students pursuing a professional internship. Registration Restriction: Open only to graduate engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595b Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 595a Registration Restriction: Open only to graduate engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595c Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 595b Registration Restriction: Open only to graduate engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595d Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 595c Registration Restriction: Open only to graduate engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 595z Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 595d Registration Restriction: Open only to graduate engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 596 Internship in Engineering
Units: 0 Terms Offered: FaSpm Part-time or full-time practical work experience in a particular field of study. The internship must be located at an off-campus facility. Prerequisite: ENGR 597x Registration Restriction: Open only to master students in engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 597x Internship in Engineering
Units: 2, 3, 4 Current developments in the field of engineering; topics to be selected each semester. Instruction Mode: Lecture Grading Option: Letter

Environmental Studies

BISC 412 Oceans, Climate, and the Environment
Units: 4 Terms Offered: Fa Credit Restriction: Open only to seniors or graduate students in Environmental Engineering.

ENST 150g Environmental Issues in Society
Units: 4 Terms Offered: FaSpm Gateway to the majors and minors in Environmental Studies. Provides students with an overview of how government agencies and societal institutions address (or fail to address) the interrelated social and scientific aspects of environmental problems and policies. Satisfies New General Education in Category C: Social Analysis. Instruction Mode: Lecture Grading Option: Letter

ENST 150h Environmental Issues in Society
Units: 4 Terms Offered: FaSpm Exploration of the major social, political, economic, religious, and philosophical disagreements that exist between scholars, leaders, and citizens concerning today's most serious environmental issues and problems. Satisfies New General Education in Category C: Social Analysis. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as IR-150
ENST 201 Introduction to Applied Environmental Science and Engineering  
Units: 4 (Enroll in ENE 201)

ENST 255 American Environmentalism  
Units: 4 (Enroll in GEOG 255)

ENST 270 Introduction to Environmental Law and Politics  
Units: 4 Terms Offered: Sp (Enroll in POSC 270)

ENST 298aL Introduction to Scientific Diving  
Units: 2 Terms Offered: Sp  
Prerequisite: ENST 298 Instruction Mode: Lecture, Lab Required  
Grading Option: Letter  
Recommended Preparation: Duplicates Credit in former ENST 298

ENST 298bL Introduction to Scientific Diving  
Units: 2 Terms Offered: Sp  
Prerequisite: ENST 298 Instruction Mode: Lecture, Lab Required  
Grading Option: Letter  
Recommended Preparation: Duplicates Credit in former ENST 298

ENST 300 Sustainable Fisheries Management  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 300 Instruction Mode: Lecture Grading Option: Letter  
Recommended Preparation: Any introductory Biology course

ENST 310 Water and Soil Sustainability; Energy and Air Sustainability  
Units: 4 Terms Offered: Fa  
Prerequisite: ENST 310 Instruction Mode: Lecture Grading Option: Letter

ENST 320b Water and Soil Sustainability; Energy and Air Sustainability  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 320b Instruction Mode: Lecture Grading Option: Letter

ENST 323 Politics of Global Environment  
Units: 4 (Enroll in IR 323)

ENST 335 Science, Health and the Environment  
Units: 4 Terms Offered: Sp  
Prerequisite: BISC 103L or BISC 120L Instruction Mode: Lecture

ENST 344 Environmental Ethics  
Units: 4 Terms Offered: Sp  
Prerequisite: any ENST or BISC 335 Instruction Mode: Lecture Grading Option: Letter

ENST 345 Conservation of Natural Resources  
Units: 4 (Enroll in GEOG 345)

ENST 347 Environmental Law  
Units: 4 (Enroll in POSC 347)

ENST 352 Conservation Biology  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 352 Instruction Mode: Lecture Grading Option: Letter

ENST 360 Environmental Disasters  
Units: 4 (Enroll in BISC 360)

ENST 370 Marine and Coastal Environmental Policy  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 370 Instruction Mode: Lecture Grading Option: Letter

ENST 387 Economics for Natural Resources and the Environment  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 387 Instruction Mode: Lecture Grading Option: Letter

ENST 390 Special Problems  
Units: 1, 2, 3, 4  
Prerequisite: ENST 100 Instruction Mode: Lecture Grading Option: Letter

ENST 396 Directed Governmental and Political Leadership Internship  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 396 Instruction Mode: Lecture Grading Option: Letter

ENST 400 Environmental Engineering Principles  
Units: 3 (Enroll in ENE 400)

ENST 410 Water and Energy Management in the Asia-Pacific Region  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 410 Instruction Mode: Lecture Grading Option: Letter

ENST 412 Oceans, Climate, and the Environment  
Units: 4 Terms Offered: FaSp  
Prerequisite: ENST 412 Instruction Mode: Lecture Grading Option: Letter

ENST 422 Ecological Security and Global Politics  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 422 Instruction Mode: Lecture Grading Option: Letter

ENST 427 The Global Environment  
Units: 4 Terms Offered: FaSpSm  
Prerequisite: ENST 427 Instruction Mode: Lecture Grading Option: Letter

ENST 432 Environment and Governance: International and National Policy  
Units: 4 Terms Offered: SpSm  
Prerequisite: ENST 432 Instruction Mode: Lecture Grading Option: Letter

ENST 436 Environmental Politics  
Units: 4 (Enroll in POSC 436)

ENST 440 Environmental Risk Assessment  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 440 Instruction Mode: Lecture Grading Option: Letter

ENST 442 Global Climate Change: Policy and Society  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 442 Instruction Mode: Lecture Grading Option: Letter

ENST 445 Earth Climate: Past, Present, and Future  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 445 Instruction Mode: Lecture Grading Option: Letter

ENST 450L Conservation Genetics  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 450L Instruction Mode: Lecture Grading Option: Letter

ENST 466 Business and Environmental Sustainability  
Units: 4 (Enroll in MOR 466)

ENST 470 Environmental Hydrogeology  
Units: 4 Terms Offered: FaSpSm  
Prerequisite: ENST 470 Instruction Mode: Lecture Grading Option: Letter

ENST 480 Integrated Ecosystem Management in Micronesia  
Units: 4 Terms Offered: SpSm  
Prerequisite: ENST 480 Instruction Mode: Lecture Grading Option: Letter

ENST 485 Role of the Environment in the Collapse of Human Societies  
Units: 4 Terms Offered: Sp  
Prerequisite: ENST 485 Instruction Mode: Lecture Grading Option: Letter

ENST 487 Resource and Environmental Economics  
Units: 4 (Enroll in ECON 487)
ENST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ENST 492 Directed Environmental Policy and Science Internship
Units: 2, 4 Max Units: 4 Terms Offered: FaSp Provides opportunities for professional development in environmental policy and science and prepares students for career or graduate school in environmental-related fields. Students are placed in internships and guided before and during the internship period. Students gain practical experience and learn how government and nongovernmental organizations pursue and implement environmental policy and science work. Registration Restriction: Open only to Juniors and Seniors in Environmental Science and Health, and Environmental Studies majors Instruction Mode: Lecture Grading Option: Letter

ENST 495 Senior Seminar in Environmental Studies
Units: 4 Terms Offered: Sp Students form multidisciplinary teams and are asked to study and resolve a major environmental problem facing a particular region or target population. Instruction Mode: Lecture Grading Option: Letter

ENST 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics dealing with environmental issues and problems. Instruction Mode: Lecture Grading Option: Letter

ENST 500 Interdisciplinary Approaches to Environmental Studies
Units: 4 Terms Offered: Fa Students will develop advanced skills to address complex environmental issues that society faces today. Different approaches for studying environmental processes and resources will be examined. Instruction Mode: Lecture Grading Option: Letter

ENST 501 Environmental Science I
Units: 2 Terms Offered: Fa Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Corequisite: ENST 502. Instruction Mode: Lecture Grading Option: Letter

ENST 502 Environmental Science Seminar I
Units: 1 Terms Offered: Fa A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Instruction Mode: Lecture Grading Option: Letter

ENST 503 Environmental Science II
Units: 2 Terms Offered: Sp A continuation of ENST 501. Exposes students to critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Corequisite: ENST 501; Prerequisite: ENST 501, 502. Instruction Mode: Lecture Grading Option: Letter

ENST 504 Environmental Science Seminar II
Units: 1 Terms Offered: Sp A continuation of ENST 502. A series of biweekly guest lectures on critical scientific principles, concepts, and issues related to pollution control, remediation, and ecology. Instruction Mode: Lecture Grading Option: Letter

ENST 505a Advanced Environmental Science Seminar
Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 505b Advanced Environmental Science Seminar
Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 510 Statistics for Environmental Analysis
Units: 4 This course introduces graduate students to the various quantitative techniques and methodological approaches used in pollution control, natural resources management, and environmental protection. Instruction Mode: Lecture Grading Option: Letter

ENST 520 Environmental Law and Policy
Units: 4 Terms Offered: Sp Introduces students to the central issues, concepts, and theories in environmental law and policy and analyzes present environmental laws and regulations. Instruction Mode: Lecture Grading Option: Letter

ENST 530 Environmental Risk Analysis
Units: 4 Terms Offered: Fa Analyzes various potential environmental risks and examines how science, government, and business measure and prepare for environmental risks. Instruction Mode: Lecture Grading Option: Letter

ENST 536 The Landscape Planning Process
Units: 3 (Enroll in ARCH 536)

ENST 540 California Coastal Zone Science and Policy
Units: 4 Terms Offered: Sp Science and policy issues used to characterize and manage California coastal resources. Key issues include: coastal pollution, public health, ecosystem management, and marine reserves. Recommended Preparation: ENST 500. Instruction Mode: Lecture Grading Option: Letter

ENST 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENST 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

ENST 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENST 595 Graduate Seminar in Environmental Studies
Units: 4 Terms Offered: Sp Addresses the obstacles to environmental policymaking and management by examining the interrelationships between science, technology, and social science. Recommended Preparation: ENST 500, ENST 501, ENST 502, ENST 503, ENST 504. Instruction Mode: Lecture Grading Option: Letter

ENST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Subjects specifically relevant to an environmental studies field, sometimes conducted as intensive short courses. Instruction Mode: Lecture Grading Option: Letter

Design

DES 102 Design Fundamentals
Units: 4 Terms Offered: FaSp Introduction to the basic elements and processes of visual communication and design. Instruction includes studio projects, lectures and readings. Various media used. Duplicates Credit in former FADN 102 Instruction Mode: Lecture Grading Option: Letter

DES 105 Art and Design Studio I
Units: 4 Terms Offered: FaSp (Enroll in ART 105)

DES 106 Art and Design Studio II
Units: 4 Terms Offered: FaSp (Enroll in ART 106)

DES 110 Drawing for Art and Design
Units: 4 Terms Offered: FaSpSm (Enroll in ART 110)

DES 123xg The Design Challenge: Exploring the Design Process
Units: 4 Terms Offered: FaSpSm An overview of the creative design process and introduction to techniques to solve visual problems. Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors Instruction Mode: Lecture Grading Option: Letter

DES 202 Design II
Units: 4 Terms Offered: FaSp Exploration of essential elements of traditional and digital design, including color and image-text integration, editing information, typography and sequencing. Prerequisite: DES 102 or FADN 102 Corequisite: DES 203 or FADN 203 Duplicates Credit in former FADN 202 Instruction Mode: Lecture Grading Option: Letter

DES 203 Digital Tools for Design
Units: 2 Terms Offered: FaSp Exploration of the processes of germination, ideation and application/execution in design integrated with computer usage. Corequisite: DES 202 Duplicates Credit in former FADN 203 Instruction Mode: Lecture Grading Option: Letter
DES 213 Digital Tools in 3D Design
Units: 2 Terms Offered: FaSp 3D digital modeling, rendering, digital capture and production methods for product, package, and environmental design. Prerequisite: FADN 102 or DES 102
Instruction Mode: Lecture
Grading Option: Letter

DES 230 3D Design: Materials and Tools
Units: 4 Terms Offered: FaSp Introduction to the study of 3-D Design. Includes a wide investigation of materials, tools, and techniques specific to dimensional design as they apply to package, product, and environmental design. Prerequisite: ACAD 176 or DES 102 or FADN 102
Duplicates Credit in former FADN 230
Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as ACAD 230

DES 302 Design III
Units: 4 Terms Offered: FaSp Advanced exploration of typography and image-text integration, including collaborative projects, pre-press and proofing techniques, narrative concepts and information architecture. Prerequisite: DES 202 or FADN 202
Duplicates Credit in former FADN 302
Instruction Mode: Lecture
Grading Option: Letter

DES 303 Web Design
Units: 2 Terms Offered: FaSp A workshop-based course that focuses on software applications in design and web design. Prerequisite: ACAD 177 or DES 203 or FADN 203
Duplicates Credit in former FADN 303
Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as ACAD 303

DES 313 Graphic Design in Fashion
Units: 4 Terms Offered: FaSpSm An intensive studio and lecture course focusing on the applications of graphic design in fashion and related fields. Prerequisite: DES 102 or FADN 102
Recommended Preparation: DES 203
Duplicates Credit in former FADN 313
Instruction Mode: Lecture
Grading Option: Letter

DES 322 Publication Design
Units: 4 Terms Offered: FaSp Application of layout, typography, design principles and image making in the design and production of books, magazines, zines and digital books. Prerequisite: (DES 202 or FADN 202) and (DES 203 or FADN 203) Recommended Preparation: DES 332a
Instruction Mode: Lecture, Lab
Grading Option: Letter

DES 323G Design Theory
Units: 4 Terms Offered: FaSp A comprehensive study of visual communication focusing on graphic design from 1900 to the present. An introduction to design thinking, language and principles including political and cultural implications. Satisfies New General Education in Category A: The Arts
Duplicates Credit in former FADN 323
Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as ACAD 323

DES 330 3D Design: Objects and Space
Units: 4 Terms Offered: FaSp A continuation of FADN 230 to produce finished models and prototypes of package, product and environmentally-based designs in actual and virtual space. Prerequisite: DES 230 or FADN 230
Duplicates Credit in former FADN 330
Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD 330

DES 332a Typography
Units: 2 Terms Offered: FaSp The study of visual communication through the use of letterforms from historical tradition to contemporary experimental rebellion. Dupicates Credit in former FADN 332a
Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as ACAD 332a

DES 332b Typography
Units: 2 Terms Offered: FaSp Continuation of DES 332a. Prerequisite: DES 332a or FADN 332a
Duplicates Credit in former FADN 332b
Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as ACAD 332b

DES 333 New York Design Study Tour
Units: 2 Terms Offered: Sp Historical and contemporary aspects of the New York design world, including a one-week trip to New York City to visit design firms, studios and museums. Airfare and accommodations extra. By application only. Duplicates Credit in former FADN 333
Instruction Mode: Lecture
Grading Option: Letter

DES 402 Advanced Design Projects
Units: 4 Max Units: 12 Terms Offered: FaSp Advanced information design within a flexible curriculum. Emphasis on team-oriented projects. Prerequisite: DES 302 or FADN 302
Duplicates Credit in former FADN 402
Instruction Mode: Lecture
Grading Option: Letter

DES 413 Professional Practice in Design
Units: 4 Terms Offered: FaSpA summation of one’s practice, with a focus on transitioning to a career as a professional designer. Prerequisite: DES 402 or FADN 402
Registration Restriction: Open only to Seniors in the Roski School of Art and Design Instruction Mode: Lecture
Grading Option: Letter

DES 418 Independent Studies in Design
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. Recommended Preparation: appropriate 300-level course work Instruction Mode: Lecture
Grading Option: Letter

DES 419 Professional Internship in the Arts
Units: 2 Max Units: 4 Terms Offered: FaSpSm (Enroll in ART 419)

DES 432 Special Projects in Design
Units: 2 Terms Offered: FaSp Students work on projects for outside clients, and receive instruction in professional practices, advanced design techniques, and sophisticated technology. By invitation or portfolio review only. By open to upper division students. Prerequisite: DES 302 or FADN 302
Duplicates Credit in former FADN 432
Instruction Mode: Lecture
Grading Option: Letter

DES 433 International Design Study Tour
Units: 2 Terms Offered: FaSp An immersive experience in the design culture of a global city or region that includes a short (two-week or less) international trip. Instruction Mode: Lecture
Grading Option: Letter

DES 494a Senior Thesis
Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. Registration Restriction: Open only to senior Design majors Instruction Mode: Lecture
Grading Option: In Progress/Letter

DES 494b Senior Thesis
Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. Prerequisite: DES-494a
Registration Restriction: Open only to senior Design majors Instruction Mode: Lecture
Grading Option: In Progress/Letter

DES 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

DES 503 Contemporary Issues in Design
Units: 4 Terms Offered: Fa An analytic seminar of topics, ideas and concepts in the contemporary design world. Instruction Mode: Lecture
Grading Option: Letter

DES 513 Visiting Designers Forum
Units: 2 Max Units: 04 Terms Offered: Fa Professional practice of design featuring formal presentations by visiting designers.
Instruction Mode: Lecture
Grading Option: Letter

DES 514 Designers in Residence Forum
Units: 2 Max Units: 04 Terms Offered: FaSp Sm In residence. Instruction Mode: Lecture
Grading Option: Letter

DES 520 Individual Studies
Units: 2 Max Units: 06 Terms Offered: FaSp Investigation of creative problems through various design media. Instruction Mode: Lecture
Grading Option: Letter

DES 523 Design Theory
Units: 4 Terms Offered: FaSp A critical examination of issues, theories, movements and practices that are relevant to the contemporary professional designer.
Instruction Mode: Lecture
Grading Option: Letter

DES 530 Design Studio Co-Lab
Units: 2 Max Units: 06 Terms Offered: FaSp A critical examination of contextual issues, theories, movements and ideas that are relevant to the contemporary design practice in collaboration with a professional client.
Instruction Mode: Lecture
Grading Option: Letter

DES 540 Design Pedagogy
Units: 4 Terms Offered: Sp A critical examination and application of the issues, theories, and ideas that support the studio practice and teaching of contemporary...
DES 543 Design Study Tour
Units: 2 Terms Offered: FaSp Historical and contemporary aspects of urban design with visits to design firms, studios and museums in selected cities across the United States. Airfare and accommodations extra. Instruction Mode: Lecture Grading Option: Letter

DES 550 Advancement
Units: 2 Terms Offered: Sm A preparatory workshop to prepare students advancing to candidacy. Recommended Preparation: Completion of 24 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Letter

DES 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 591 Field Internship Experience
Units: 2 Terms Offered: FaSpSm Supervised internship in a design firm, or with an independent designer, on projects and research specific to design practice. Recommended Preparation: Completion of first year of courses Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 30 units of coursework Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Master's thesis Prerequisite: DES 594a Recommended Preparation: 30 units of coursework Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594c Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit upon acceptance of master's thesis. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 599 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics in the various speciality areas within design at the graduate level. Topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Finance and Business Economics
FBE 206 The Power of Personal Finance
Units: 2 Terms Offered: FaSp Develop knowledge and skills in areas of money management, budgeting, financial goal attainment, insurance, credit cards, and investments. Instruction Mode: Lecture Grading Option: Letter

FBE 299 Special Topics
Units: 2, 4 Max Units: 4 Terms Offered: FaSpSm Introduction to current developments in finance and business economics. Instruction Mode: Lecture Grading Option: Letter

FBE 324 The Financial System
Units: 4 Financial intermediaries in the flow of funds; aggregate financial asset analysis; money markets and interest rates; government debt and its economic effects. Prerequisite: BUAD 350 or BUAD 351; or ECON 203 and ECON 205; or ECON 351 and ECON 352. Instruction Mode: Lecture Grading Option: Letter

FBE 391 Real Estate Finance and Investment
Units: 4 Terms Offered: FaSp Introduction to income-producing real estate from the perspective of finance, market analysis, capital markets, development and investment. Includes focus on analytical techniques and computer applications. Prerequisite: BUAD 215 or BUAD 306. Duplicates Credit in former FBE 365. Instruction Mode: Lecture Grading Option: Letter

FBE 400x Introduction to Real Estate Finance and Development
Units: 4 Terms Offered: Fa Case analysis examining economic and financial aspects of real estate decisions for non-business majors. Focuses on dynamics of financing, markets and the development process. Duplicates Credit in former FBE 200x. Instruction Mode: Lecture Grading Option: Letter

FBE 402 Government and Business
Units: 4 American mixed capitalism, welfare, market failure, and the role of government in business; regulation and the public utilities, antitrust policy, and current topics in regulation-deregulation. Instruction Mode: Lecture Grading Option: Letter

FBE 403 Introduction to the Legal Environment of Business
Units: 4 Terms Offered: FaSp Legal principles of business: litigation process, constitutional law, torts, product liability, crimes, contracts, sales and leases, intellectual property, international law, agency, employment law, and ethics. Duplicates Credit in the former BUAD 403. Instruction Mode: Lecture Grading Option: Letter

FBE 416 Managerial Economics
Units: 4 Application of microeconomic theory to problems of the firm, quantification of demand and cost relationships; pricing policies. Prerequisite: BUAD 311; and BUAD 351 or ECON 203 or ECON 351. Instruction Mode: Lecture Grading Option: Letter

FBE 421 Financial Analysis and Valuation
Units: 4 Terms Offered: FaSp This course develops and uses tools of financial analysis to evaluate the performance and assess the value of individual companies in an industry context. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 423 Introduction to Venture Capital and Private Equity
Units: 4 Terms Offered: FaSp Introduction to venture capital and private equity. Topics include fundraising, valuation of new firms and venture capital securities, and exiting investments through public offerings. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 427 Real Estate Law
Units: 4 Terms Offered: FaSp Principles of law regarding real property transactions; buyer-seller, debtor-creditor, landlord-tenant relationships; environmental law and land use control; investments and syndication. Instruction Mode: Lecture Grading Option: Letter

FBE 428 Principles of Employment Law
Units: 4 Terms Offered: FaSp Introductory course on the legal and regulatory environment of international business transactions. Instruction Mode: Lecture Grading Option: Letter

FBE 431 Financial Policies and Corporate Governance
Units: 4 Terms Offered: FaSp Presentation of the theory and institutional details of corporate finance, with emphasis on debt and dividend policies, governance/voting rights, and securities law. Instruction Mode: Lecture Grading Option: Letter

FBE 432 Corporate Financial Strategy
Units: 4 Terms Offered: FaSp Linkage between financial theory and policy and corporate strategy, the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 433 Corporate Governance and CEO Pay
Units: 4 Terms Offered: Sp Explores how value is created (or destroyed) through incentive compensation and corporate governance. Focus on bonuses, stock options, executive compensation, and financing policies. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 435 Applied Finance in Fixed Income Securities
Units: 4 Terms Offered: Sp Emphasis on hedging tools necessary for portfolio managers. Introduction of all securities available in fixed income and provision of tools to analyze investments. Prerequisite:
COURSES OF INSTRUCTION

BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 436 Financial Management of Multinational Corporations
Units: 4 International scope and dimension of financial planning; working capital management; financing and investment decisions of multinational corporations. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms
Units: 4 Terms Offered: Fa Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 440 Trading and Exchanges
Units: 4 Terms Offered: Sp Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 441 Investments
Units: 4 Terms Offered: FaSpSm Theories and applications of investment decision-making; the behavior of security prices, portfolio theory, asset pricing models, market efficiency, bond valuation and term structure, derivative securities. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 443 Introduction to Forecasting and Risk Analysis
Units: 4 Introduction to econometric tools and versions of Capital Asset Pricing Models to estimate financial risk, stock market risk premia and to project economic activity. Prerequisite: BUAD 215 or BUAD 310. Instruction Mode: Lecture Grading Option: Letter

FBE 453a Advanced Practicum in Investment Management
Units: 4 Application of investment management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations. Prerequisite: BUAD 215 or BUAD 306. Corequisite: FBE 421 or FBE 441. Open only to senior business majors. Instruction Mode: Lecture Grading Option: Letter

FBE 453b Advanced Practicum in Investment Management
Units: 4 Application of advanced investment management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. Open only to senior business majors. Instruction Mode: Lecture Grading Option: Letter

FBE 458 Law, Finance and Ethics
Units: 4 Terms Offered: FaSpSm Law and ethics of agency, partnerships, corporations, limited liability companies, governmental regulation, mergers, creditor rights, secured transactions, bankruptcy, securities regulation, and antitrust. Instruction Mode: Lecture Grading Option: Letter

FBE 459 Financial Derivatives
Units: 4 Terms Offered: FaA rigorous introduction to the pricing and corporate use of financial derivatives — futures, options, forwards, and swaps — on stocks, exchange rates, bonds, and commodities. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 460 Mergers, Acquisitions and Restructuring
Units: 4 Terms Offered: FaSpSm Practical understanding of the major strategic, economic, financial, human resources, and governance issues of mergers, acquisitions, and restructuring. Prerequisite: BUAD 215x or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 462 International Trade, Finance and Commercial Policy
Units: 4 Terms Offered: FaSpSm Commercial policies, treaty relationships, examination of policies influencing world trade and finance, the international financial system, exchange rates. Prerequisite: ECON 203 and ECON 205; or ECON 351 and ECON 352. Open only to sophomores, juniors and seniors. Registration Restriction: Open only to sophomores, juniors, and seniors. Instruction Mode: Lecture Grading Option: Letter

FBE 465 Real Estate Analysis and Computer Modeling
Units: 2 Terms Offered: FaSpSm Real estate valuation. Three approaches to valuation: Market comparison, income, and cost. Highest and best use analysis. State of the art real estate software. Prerequisite: FBE 391 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 466 Management of Real Estate Development: Feasibility Studies
Units: 4 Terms Offered: Sp By means of a significant real-world case study chosen each term, the development process is examined from the interrelated perspectives of finance, market analysis, and design and construction technology. Team-generated development proposals are proposed and presented in a consulting environment that includes industry participants. Prerequisite: FBE 391 and FBE 470 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 470 Advanced Real Estate Analysis
Units: 4 Terms Offered: FaSpSm Mixed lecture-case approach covering market analysis, asset valuation, ownership structure, negotiation, asset management, corporate real estate, portfolio management, and affordable housing, appraisal and advanced financial modeling. Prerequisite: FBE 391. Duplicates Credit in former FBE 465. Instruction Mode: Lecture Grading Option: Letter

FBE 489 Real Estate Capital Markets
Units: 4 Terms Offered: Fa Topics in real estate capital markets including markets for debt and equity; residential and commercial mortgages and mortgage-backed securities; REITs; institutional sources of capital. Prerequisite: FBE 391 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 491 Real Estate Finance Colloquium
Units: 2 Terms Offered: FaSpSm The roles of economics and finance in real estate. Lessons from history, the origin of real estate bubbles, how real estate markets work. Prerequisite: FBE 391 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 495x Practicum in Business Issues (Internship)
Units: 1 Max Units: 12.0 Terms Offered: FaSpSm Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Open only to undergraduate students in Finance and Business Economics certificate. Registration Restriction: Open only to undergraduate students in Finance and Business Economics certificate. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 498x Business Field Project (Undergraduate)
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of finance and business economics; topics to be selected each semester. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 501 Investment Banking Fundamentals
Units: 1.5 Terms Offered: FaSpSm The role of an investment banking associate. Students will effectively function as a junior banker through a sell-side merger and acquisition (M & A) process. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 506a Quantitative Methods in Finance
Units: 1.5 Terms Offered: Sm The development of single and bivariate mathematical and statistical methods used in modern finance and economics and applications of these methods. Duplicates credit in FBE 506. Registration Restriction: Open only MS in Finance students. Duplicates Credit in former FBE 506 Instruction Mode: Lecture Grading Option: Letter

FBE 506b Quantitative Methods in Finance
Units: 1.5 Terms Offered: Fa The development of multivariate mathematical and statistical methods used in modern
FBE 515 Deals
Units: 3, 4 (Enroll in LAW 815)

FBE 523 Venture Capital and Private Equity
Units: 3 Terms Offered: FaSp Advanced analysis of the economics of the private equity markets. Consider and value private securities in venture capital, initial public offerings, and leveraged buyouts.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 524 Money and Capital Markets
Units: 3 Terms Offered: Fa Review of financial institutions and markets, the determinants of interest rates, the impact of government regulation and policy on the financial system.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 525 Financial Institution Management, Strategy and Valuation
Units: 3 Terms Offered: Fa Application of economic and financial analytic techniques to the managerial problems of financial institutions and implications for financial firm strategy and valuation.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 526 Macroeconomic Analysis for Business
Units: 3 Terms Offered: Sp The economic environment of business: American economic and social goals and policies and their impact on business; growth, stability, and the new priorities; international forces influencing business.
Registration Restriction: Online registration open only to graduate business and accounting students.
Instruction Mode: Lecture Grading Option: Letter

FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms
Units: 3 Terms Offered: FaSp Internal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 529 Financial Analysis and Valuation
Units: 3 Terms Offered: FaAn applications-oriented course to develop the financial and accounting tools required to do financial planning valuation and assessment of financial performance.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 531 Corporate Financial Policy and Corporate Governance
Units: 1.5, 3 Terms Offered: FaSp Advanced analysis of the determinants of corporate capital structure and payout policies, allocation and value of corporate control, and security issuance and retirement.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 532 Corporate Financial Strategy
Units: 3 Terms Offered: FaSpSm Linkage between financial theory and policy and corporate strategy; the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 533 CEO Pay, Corporate Governance, and the Politics of Finance
Units: 3 Terms Offered: Sp Explores how value is created (or destroyed) in organizations, focusing on compensation and incentive systems and the causes and consequences of government (and populist) intervention.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 535 Applied Finance in Fixed Income Securities
Units: 1.5, 3 Terms Offered: FaSp The basic principles underlying fixed income securities and how these principles apply to the practical aspects of fixed income management.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 540 Hedge Funds
Units: 3 Terms Offered: FaSp Introduction to the investment strategies used by hedge funds, the quantitative tools and business plans used to implement them.
Prerequisite: GSBA 521b or GSBA 548. Recommended Preparation: statistics and calculus.
Instruction Mode: Lecture Grading Option: Letter

FBE 543 Forecasting and Risk Analysis
Units: 3 Terms Offered: FaSp Application of econometric tools and versions of Capital Asset Pricing Models to estimate financial risk and stock market risk premia for portfolio management.
Prerequisite: FBE 506b or GSBA 506b or GSBA 524 or (GSBA 516 and GSBA 545).
Instruction Mode: Lecture Grading Option: Letter

FBE 550 High Yield Bond Investing - Managing Credit Risk
Units: 1.5 Terms Offered: FaSp Review the structure of the high yield bond market. Develop a practical approach to assess credit risk and understand how deals are structured and priced.
Registration Restriction: Online registration open only to graduate business and accounting students.
Instruction Mode: Lecture Grading Option: Letter

FBE 553a Applied Portfolio Management
Units: 3 Terms Offered: Fa Application of portfolio management techniques in a laboratory setting. Stock selection, asset allocation, industry analysis, investment thesis research; off-site visits; oral and written presentations.
Prerequisite: GSBA 521b or GSBA 548. Corequisite: FBE 555.
Instruction Mode: Lecture Grading Option: Letter

FBE 553b Applied Portfolio Management
Units: 3 Terms Offered: Sp Application of advanced portfolio management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization.
Off-site visits and presentations.
Prerequisite: FBE 553a.
Instruction Mode: Lecture Grading Option: Letter

FBE 554 Trading and Exchanges
Units: 3 Terms Offered: Sp Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 555 Investment Analysis and Portfolio Management
Units: 3 Terms Offered: FaSp Analysis and management of common stocks and fixed income securities; development of modern portfolio theory and the efficient market hypotheses; organization of securities markets.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 557 Business Law and Ethics
Units: 3 Terms Offered: FaSpSm Business law of traditional and e-contracts, UCC, crimes, torts, employment, ethics, social responsibility, intellectual property, digital law, e-commerce, accountants' liability, property, estates, and government regulation.
Registration Restriction: Online registration open only to graduate business and accounting students.
Instruction Mode: Lecture Grading Option: Letter

FBE 558 Law for Structuring, Financing, and Managing Businesses
Units: 3 Terms Offered: FaSpSm Legal environment of agency law, general and limited partnerships, limited liability companies, corporate formation and financing, corporate governance, securities law, acquisitions, bankruptcy, and business ethics.
Registration Restriction: Online registration open only to graduate accounting and business students.
Instruction Mode: Lecture Grading Option: Letter

FBE 559 Management of Financial Risk
Units: 3 Terms Offered: FaSp Analysis of commodity, futures, and options contracts; theoretical and empirical approaches; spot and futures price relationships, speculation and hedging strategies; market efficiency.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter

FBE 560 Mergers and Acquisitions
Units: 3 Terms Offered: Sp Practical application of the critical components of mergers and acquisitions: deal flow strategies, preliminary negotiations, deal structures, due diligence, valuation, post-merger integration, and regulations.
Prerequisite: GSBA 521b or GSBA 548.
Instruction Mode: Lecture Grading Option: Letter
COURSES OF INSTRUCTION

FBE 563 Theory of International Trade
Units: 3 Terms Offered: Sp Comparative advantage and gains from trade; factor proportions and efficiency; factor price equalization; terms of trade; tariffs, customs, unions and trade agreements. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 564 International Financial Management
Units: 3 Terms Offered: Sm Financial management of the multinational firm; legal entities and taxation abroad; risk in foreign operations; strategies in foreign exchange, money and capital markets and institutions. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 565 Economics of Urban Land Use: Feasibility Studies
Units: 3 Terms Offered: Sp Economic, market and financial analysis related to feasibility of real estate development; theory and case analysis. Prerequisite: GSBA 521b or GSBA 548. Recommended Preparation: FBE 591. Instruction Mode: Lecture Grading Option: Letter

FBE 570 Advanced Topics in Real Estate Finance
Units: 3 Terms Offered: Fa Current topics in real estate finance including sources of equity and debt, the role of capital markets, REITs, conduits, portfolio analysis, and acquisition of distressed assets. Cases and analytic methods. Prerequisite: GSBA 521b or GSBA 548. Recommended Preparation: FBE 591. Instruction Mode: Lecture Grading Option: Letter

FBE 571 Introduction to Financial Analysis: Practicum
Units: 3 Terms Offered: FaSp This introductory financial analysis (tools, techniques) practicum, emphasizes practical application of asset valuation and portfolio management techniques for those with little previous experience. Prerequisite: GSBA 548 or GSBA 521b. Duplicates Credit in FBE 572 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 572 Intermediate Financial Analysis: Practicum
Units: 3 Terms Offered: FaSp This practicum emphasizes asset valuation, including applications of tools and inputs (including economics, accounting, and quantitative techniques) in asset valuation for those with prior experience. Prerequisite: GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 573 Advanced Financial Analysis: Practicum
Units: 3 Terms Offered: FaSp This is an advanced practicum emphasizing portfolio management skills, including applied strategies (tools, inputs) in equity and fixed-income management for those with extensive prior experience. Prerequisite: GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 572. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 578 Advanced Real Estate Law
Units: 3 Terms Offered: Sm Legal aspects of real estate transactions; partnerships, syndicates, and other ownership forms. Legal aspects of land use control, zoning and environmental impact reports. Registration Restriction: Online registration open only to graduate accounting and business students Duplicates Credit in RED 562 Instruction Mode: Lecture Grading Option: Letter

FBE 589 Mortgages and Mortgage-Backed Securities and Markets
Units: 3 Terms Offered: Fa Valuation and analysis of residential and commercial mortgages and mortgage-backed securities and related markets. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpM Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 591 Real Estate Finance and Investment
Units: 3 Terms Offered: FaSp Analysis of investment in and financing of real estate assets including projections, valuation, deal structure, contracts, portfolio and tax and entity considerations. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 592 Field Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpM Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 593 Independent Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpM Independent or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 594 Field Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4 Max Units: 12.0 Terms Offered: FaSpM Independent or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 595 Advanced Corporate Finance
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpM Hands-on practical experience working with a Marshall faculty member in the Finance and Business Economics Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 597 Consulting Project in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3.0, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSpM Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Recommended Preparation: Completion of required MBA, MAcc, MBT, or MS Finance course work Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 598 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 599 Field Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSpM Seminar. Review and discuss current research in Finance and Business Economics. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 630 Fundamentals of Corporate Finance
Units: 1.5 Terms Offered: Sp Core theory and empirical evidence in corporate finance. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

FBE 631a Advanced Corporate Finance
Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. A: financial intermediation, investment-cash flow sensitivity, internal capital markets; diversification, and business groups. Prerequisite: FBE 630 Registration Restriction: Open only to doctoral students Duplicates Credit in former FBE 631 Instruction Mode: Lecture Grading Option: Letter

FBE 631b Advanced Corporate Finance
Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. B: mergers and divestitures, product market
tools, and dynamics while working to further understand different leadership styles, an approach for executives in the food industry. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**FBE 633 Fundamentals of Asset Pricing**
Units: 1.5 Terms Offered: Sp Financial Economics course that focuses on core theory and empirical evidence in asset pricing. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**FBE 634 Advanced Asset Pricing**
Units: 3 Terms Offered: Fa Continuous time finance and advanced empirical methods. Registration Restriction: FBE 633 Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**FBE 652 Financial Economics I**
Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on corporate finance theory and evidence. Instruction Mode: Lecture Grading Option: Letter

**FBE 653 Financial Economics II**
Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on contingent claims and continuous time models. Instruction Mode: Lecture Grading Option: Letter

**FBE 654 Ph.D. Seminar-Empirical Research Methods in Finance**
Units: 3 Terms Offered: Irregular Empirical financial research methods are introduced. Applications are discussed and critiqued. Special attention is given to new statistical methods and to identifying fruitful research programs. Instruction Mode: Lecture Grading Option: Letter

**FBE 655 Financial Economics III**
Units: 3 Terms Offered: Sp Doctoral-level seminar in financial economics; concentration on the theory of corporate governance and incentives in organizations. Instruction Mode: Lecture Grading Option: Letter

**FBE 670 Selected Topics in Finance Research**
Units: 1.5 Max Units: 6 Terms Offered: FBE 670 Selected topics in finance research. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**FBE 699 Special Topics**
Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FBE 699 Exploration of emerging topics, literature and research techniques in contemporary finance and/or business economics. Registration Restriction: Open to doctoral students only. Instruction Mode: Lecture Grading Option: Letter

**Food Industry Management**
**FIM 410 Leadership in the Food Industry**
Units: 2 Terms Offered: Sp An integrated approach for executives in the food industry to understand different leadership styles, tools, and dynamics while working to further define and improve their own leadership skills. Registration Restriction: Open only to Food Industry Management students. Instruction Mode: Lecture Grading Option: Letter

**FIM 420 Food Retailing Management**
Units: 4 Terms Offered: FIM 420 Strategic techniques of merchandising, pricing, and distributing products in the food industry with emphasis on new product development, including market segmentation and positioning. Instruction Mode: Lecture Grading Option: Letter

**FIM 481 Marketing Management in the Food Industry**
Units: 4 Terms Offered: FIM 481 An integrated approach to marketing new and existing products and services within a strategic food industry management context. Registration Restriction: Open only to Food Industry Management students. Instruction Mode: Lecture Grading Option: Letter

**FIM 482 Communication Management in the Food Industry**
Units: 4 Terms Offered: FIM 482 Development of communication skills required to write well, to speak dynamically and persuasively, to cultivate relationships using interpersonal communication skills, and to implement organizational strategies. Registration Restriction: Open only to Food Industry Management students. Instruction Mode: Lecture Grading Option: Letter

**FIM 485 Financial Analysis and Valuation in the Food Industry**
Units: 2 Terms Offered: FIM 485 Theory and practice of financial analysis and valuation in the food industry. Registration Restriction: Open only to Food Industry Management students. Instruction Mode: Lecture Grading Option: Letter

**FIM 497 Strategic Management in the Food Industry**
Units: 4 Terms Offered: FIM 497 Introduction to the concepts, tools, and principles of strategy formulation and competitive analysis as applied to food industry management decision-making. Registration Restriction: Open only to Food Industry Management students. Instruction Mode: Lecture Grading Option: Letter

**FIM 582 Food Industry Decision-Making**
Units: 4 Terms Offered: FIM 582 Involvement with specific management situations related to the food industry, its environment, and its consumers. Emphasizes managerial functions and decision-making through case studies. Instruction Mode: Lecture Grading Option: Letter

**Fixed Prosthodontics**
**FPRO 520 Preclinical Fixed Prosthodontics (ISP)**
Units: 2 Basic fundamentals of fixed prosthodontics; preparation for clinical procedures in posterior PFM’s, posterior mandibular FPD’s and in restoring endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

**FPRO 521 Preclinical Fixed Prosthodontics I**
Units: 3 Fundamentals and principles of posterior prosthodontic procedures, including diagnosis, biomechanic principles, and construction of fixed prosthodontic restorations. Instruction Mode: Lecture Grading Option: Letter

**FPRO 522 Preclinical Fixed Prosthodontics II**
Units: 3 Fundamentals of aesthetic restorations; fabrication of posterior and anterior porcelain-fused-to-metal restorations and anterior porcelain jacket crown; restoration of endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

**FPRO 561a Clinic: Fixed Prosthodontics I**
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

**FPRO 561b Clinic: Fixed Prosthodontics II**
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

**FPRO 561d Clinic: Fixed Prosthodontics I**
Units: 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

**FPRO 561e Clinic: Fixed Prosthodontics II**
Units: 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

**FPRO 601 Advanced Fixed Prosthodontics**
Units: 4 Critical review and evaluation of the fixed prosthodontic literature; guided experience in the laboratory and clinical phases of fixed prosthodontic therapy. Instruction Mode: Lecture Grading Option: Letter

**French**
**FREN 012x French 120 Language Practicum**
Units: 1 Terms Offered: FREN 012x English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. Instruction Mode: Lecture Grading Option: Letter

**FREN 120x French 120 Language Practicum**
Units: 1 Terms Offered: FREN 120x English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. Concurrent Enrollment: FREN 120 Credit Restriction: Not available for credit. Instruction Mode: Lecture Grading Option: Credit/No Credit
practice. Concurrent Enrollment: FREN 150
Credit Restriction: Not available for degree
credit Instruction Mode: Lecture Grading
Option: Credit/No Credit

FREN 020x Course in Reading French
Units: 2 Terms Offered: FaSpSm
For graduate students who wish help in meeting
the French reading requirement for the PhD
degree. Synoptic presentation of French
grammar. Emphasis on development of
reading skills. Instruction Mode: Lecture
Grading Option: Credit/No Credit

FREN 120 French I
Units: 4 Terms Offered: FaSpSm
Introduction to current French. Oral practice,
listening and reading comprehension;
grammar necessary for simple spoken and
written expression. Prerequisite: No previous
experience or appropriate placement score.
Instruction Mode: Lecture Grading Option: Letter

FREN 150 French II
Units: 4 Terms Offered: FaSpSm
Continuation of FREN 120. Prerequisite:
FREN 120 or appropriate placement score.
Instruction Mode: Lecture Grading Option: Letter

FREN 220 French III
Units: 4 Terms Offered: FaSpSm
Continuation of FREN 150. Review of
structural patterns of French; selected
cultural and literary readings; conversation
and composition. Prerequisite: FREN 150
or appropriate placement score. Instruction
Mode: Lecture Grading Option: Letter

FREN 235x Intermediate Conversational
French: Culture, Society, and
Communication
Units: 2 Terms Offered: FaSp Designed for
non-majors/minors interested in maintaining
and developing French language competency.
Builds vocabulary, ease of communication,
and cultural knowledge through discussion
of contemporary topics. Prerequisite: FREN
220. Instruction Mode: Lecture Grading
Option: Credit/No Credit

FREN 236x Professional Communication
in French
Units: 2 Terms Offered: FaSp Professional
communication skills and cultural
competency as preparation for working in
an international environment. Prerequisite:
FREN 220. Instruction Mode: Lecture
Grading Option: Letter

FREN 250 French IV
Units: 4 Terms Offered: FaSpSm
Introduction to French literature through the
study of texts and audiovisuals organized
around a central theme; develops close-
reading techniques and discursive skills;
reviews French grammar. Prerequisite: FREN
220 or French placement exam.
Instruction Mode: Lecture Grading Option: Letter

FREN 300 French Grammar and
Composition
Units: 4 Terms Offered: FaSpSm
Grammatical structure and vocabulary
building with practical application to written
composition. Prerequisite: FREN 250.
Instruction Mode: Lecture Grading Option:
Letter

FREN 310 Media French
Units: 4 Terms Offered: FaSpSm Analysis of
French media. Practice in sustained
conversation. Emphasis on spoken sentence
patterns. Prerequisite: FREN 250. Instruction
Mode: Lecture Grading Option: Letter

FREN 315 Inside the Courts: the French
Legal Language and Culture
Units: 4 Terms Offered: Sp Broaden
understanding of differences between
American and French cultures; acquire
specialized vocabulary; develop ability to
address legal issues in writing and orally.
Taught in French. Prerequisite: FREN 300
Instruction Mode: Lecture Grading Option: Letter

FREN 320g The French New Wave and
its Legacy
Units: 4 Terms Offered: FaSp Film-making
in France from the earliest experiments to
current trends. Emphasis on the political,
social, historical context of French films.
Taught in English. Reading knowledge of
French recommended. Satisfies New
General Education in Category A: The Arts
Instruction Mode: Lecture Grading Option: Letter

FREN 330 Critical Writing in French
Units: 4 Terms Offered: FaSpSm Advanced
composition through critical reading of
literary texts; comprehensive analysis of
difficult grammatical structures and stylistics.
Prerequisite: FREN 300. Instruction Mode:
Lecture Grading Option: Letter

FREN 340g Italian and French Cinema
and Society
Units: 4 Terms Offered: Fa (Enroll in ITAL
340)

FREN 347 Race, Gender and Power in
Francophone Literature
Units: 4 Terms Offered: FaSpSm Study of
post-colonialism as a ferment for literary
creation in the literature of French expression
from Africa, the Caribbean and Canada.
Conducted in French. Corequisite: FREN
330. Instruction Mode: Lecture Grading
Option: Letter Crosslisted as SWMS-347

FREN 351 Introduction to Research in
French and Francophone Cultures
Units: 4 Terms Offered: FaSp Introduction
to research methods through the study of a
specific topic in French and/or Francophone
literature and culture. Corequisite: FREN
330. Instruction Mode: Lecture Grading
Option: Letter

FREN 360 Business and Technical French
Units: 4 Specific vocabulary and formulae
used in international commerce. Attention
given to developing vocabulary and standard
forms appropriate to individual career
objectives. Recommended Preparation:
FREN 330. Instruction Mode: Lecture
Grading Option: Letter

FREN 365 French Foreign Policy: 1945 to
the Present
Units: 4 Terms Offered: FaSpSm (Enroll in IR
365)

FREN 370gm Equality and Difference
around the Enlightenment
Units: 4 Terms Offered: FaSpSm 18th -
and 20th century debates around the idea
of equality and the notion of difference.
Relevance of the Enlightenment to
temporary discussions of identity,
citizenship, and human rights. Conducted in
English. Satisfies New General Education in
Category B: Humanistic Inquiry Instruction
Mode: Lecture Grading Option: Letter

FREN 373g Remembering Loss, Writing
Memory
Units: 4 Terms Offered: FaSp An exploration
into how genocides and episodes of
mass violence have been thought about,
remembered and expressed in France and the
Francophone world. Conducted in English.
Satisfies New General Education in Category
B: Humanistic Inquiry Instruction Mode:
Lecture Grading Option: Letter

FREN 375gmv Global Narratives of
Illness and Disability
Units: 4 Terms Offered: FaSp Study of
difference as represented through French,
Francophone and related narratives of
disability and illness, with attention to
race and gender. Conducted in English.
Satisfies New General Education in Category
B: Humanistic Inquiry Satisfies Global
Perspective in Category G: Citizens in a
Diverse World Instruction Mode: Lecture
Grading Option: Letter

FREN 382 Paris Avant-Gardes
Units: 4 Exploration of experimental artistic
collaborations between poets, novelists, art
critics and artists of the Paris Avant-gardes
in 19th and 20th century. Taught in French.
Prerequisite: FREN 330; Corequisite: FREN
330; Corequisite: FREN 330. Instruction Mode:
Lecture Grading Option: Letter

FREN 383 French Women Writers
Units: 4 Terms Offered: FaSp Major figures and
their roles in French society and contributions to French literature. Conducted in French.
Corequisite: FREN 330. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-383

FREN 389 Islam in France
Units: 4 (Enroll in IR 389)

FREN 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual
studies. No more than one registration
permitted. Enrollment by petition only.
Instruction Mode: Lecture Grading Option: Letter

FREN 392 Seminar in Literary and
Cultural Studies
Units: 4 Max Units: 8.0 Terms Offered: FaSp
Selected topics in French and Francophone
literature and culture. Conducted in French.
Corequisite: FREN 330. Instruction Mode:
Lecture Grading Option: Letter

FREN 393 Seminar in French Thought
and Theory
Units: 4 Terms Offered: FaSp Introduction to
important trends in recent French philosophy,
political and social theory, psychoanalysis,
ethnology, semiotics, and media studies.
Emphasis to be determined by department.
Conducted in English. Instruction Mode:
Lecture Grading Option: Letter

FREN 401 Studies in Early Modernity
REL 137 for Religion majors and minors.
Instruction Mode: Lecture Grading Option: Letter
FREN 449 Studies in French Civilization
Units: 4 Terms Offered: Sp (Paris Semester only) An analysis of the prestige of Paris, past and present, based upon close examination of literary texts and graphic materials, and visits to sites and monuments. Recommended Preparation: FREN 330. Instruction Mode: Lecture Grading Option: Letter
FREN 464 Colloquium: French Civilization
Units: 4 Max Units: 8 Terms Offered: FaSpSm Selected topics such as the press, educational institutions, French cinema today, and French colonial history. Conducted in French. Prerequisite: FREN 330. Instruction Mode: Lecture Grading Option: Letter
FREN 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter
FREN 499 Special Topics
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Selected topics in French. Prerequisite: FREN 330. Instruction Mode: Lecture Grading Option: Letter
FREN 501 Early Modernities
Units: 4 Terms Offered: FaSpBroad introduction to French culture from the late Middle Ages through the 18th century; investigation of works of literature, philosophy, and visual culture. Instruction Mode: Lecture Grading Option: Letter
FREN 503 Modernities
Units: 4 An intellectual genealogy of French modernity and modernism through the examination of canonical literary texts and theories. Instruction Mode: Lecture Grading Option: Letter
FREN 504 Studies in Francophone Literature and Thought
Units: 4 Topics in Francophone literature and intellectual history of Africa, Asia and the Americas. Emphasis on colonial history and political and aesthetic concerns. Instruction Mode: Lecture Grading Option: Letter
FREN 520 Studies in Diaspora and Transnationalism
Units: 4 An introduction to contemporary literature and thought on the dynamics of diaspora, transnationalism, and globalization. Instruction Mode: Lecture Grading Option: Letter
FREN 530 Studies in a Genre
Units: 4 Studies of one of the genres in French literature (including novel, poetry, drama, and essay) in any historical period or periods. Instruction Mode: Lecture Grading Option: Letter
FREN 540 Studies in French Literature and Philosophy
Units: 4 Examines literary and philosophical works side by side in any historical period or periods in France. Instruction Mode: Lecture Grading Option: Letter
FREN 550 Studies in Literature and Other Media
Units: 4 Survey-like review of the interaction between verbal and other artistic media such as print, music, dance, theater, and painting and the visual arts. Instruction Mode: Lecture Grading Option: Letter
FREN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
FREN 592 Practicum in Teaching French
Units: 2 Terms Offered: FaSpIntroduction to the approaches and techniques of teaching French as a second language. Open only to master's and PhD students who will be assistant lecturers in French. Registration Restriction: Only open to Master and PhD students who will be Assistant Lecturers in French. Instruction Mode: Lecture Grading Option: CR/NC
FREN 603 Seminar on an Author
Units: 4 Examines the work of a significant French author along with its critical and theoretical assessments. Instruction Mode: Lecture Grading Option: Letter
FREN 604 Topics in Contemporary French Thought
Units: 4 Examines French thought from 1960 to the present day. Instruction Mode: Lecture Grading Option: Letter
FREN 605 Topics and/or Themes in Francophone Literature
Units: 4 Max Units: 12.0 Instruction Mode: Lecture Grading Option: Letter
FREN 606 Topics and/or Themes in Francophone Literature
Units: 4 Max Units: 12.0 Advanced seminar with varying focus on the Francophone literature and culture of West Africa, North Africa, the Caribbean, Quebec and Southeast Asia. Instruction Mode: Lecture Grading Option: Letter
FREN 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
FREN 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
FREN 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
FREN 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
FREN 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
FREN 794e Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
FREN 794f Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Professional Dental students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Freshman Seminars
FSEM 100 Freshman Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp A seven-to-ten-week course offered for incoming freshmen; limited to 18 students. Instruction Mode: Lecture Grading Option: Credit/No Credit

FSEM 101 Freshman Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp A seven-to-ten-week course offered for incoming freshmen; limited to 18 students. Letter graded. Instruction Mode: Lecture Grading Option: Letter

FSEM 180 First Year College Seminar
Units: 2 Max Units: 4.0 Terms Offered: FaSp A thematic seminar for entering students in the USC Dornsife College of Letters, Arts and Sciences, exploring an area of academic study, research, or creative work. Instruction Mode: Lecture Grading Option: Credit/No Credit

Geriatric Dentistry
GDEN 710 Knowledge Assessment for GDEN Students
Units: 1 Terms Offered: Sm Review of topics explored in the previous courses of the program, including lectures and practical demonstrations or simulations and examinations of overall discipline knowledge. Prerequisite: OFPM 722 and 725 and GDEN 713 and GDEN 715 Registration Restriction: Open only to Geriatric Dentistry students Duplicates Credit in GDEN 716 Instruction Mode: Lecture Grading Option: Letter

GDEN 711a Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711b Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711c Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 711d Case Portfolio Preparation for GDEN Students
Units: .5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 712a Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research project that demonstrates significant understanding of a topic in geriatric dentistry. Prerequisite: GDEN 712b Registration Restriction: Open only to GDEN students Duplicates Credit in OFPM 729 Exam Mode: Lecture Grading Option: Letter

GDEN 712b Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. Prerequisite: GDEN 712a Duplicates Credit in OFPM 729 Instruction Mode: Lecture Grading Option: Letter

GDEN 712c Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. Prerequisite: GDEN 712b Registration Restriction: Open only to GDEN students Duplicates Credit in OFPM 729 Instruction Mode: Lecture Grading Option: Letter

GDEN 712d Capstone Research Project for GDEN Students
Units: .5 Terms Offered: FaSpSm Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. Prerequisite: GDEN 712c Duplicates Credit in OFPM 729d Instruction Mode: Lecture Grading Option: Letter

GDEN 713 Common Systemic Conditions in Older Patients
Units: 2 Terms Offered: FaSpSm Lectures on topics pertaining to the aging patient that highlight the differences between aging physiologic changes and disease-caused conditions most common to this demographic. Open only to master's and professional dental students. Registration Restriction: Open only to Master and

GDEN 714 Topics in Gerontology
Units: 2 Terms Offered: FaSpSm Gerontology topics for dentists including clinical assessment tools for aging patients, policy issues, myths, social supports, and consent and communication issues in the clinical setting. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 715 Geriatric Dentistry Issues
Units: 2 Terms Offered: FaSpSm Common geriatric dentistry topics including epidemiology of oral diseases, common dental diseases, their management and prevention protocols for older adult patients. Open only to master's and professional dental students. Registration Restriction: Open only to Master and Professional Dental students. Instruction Mode: Lecture Grading Option: Letter

GDEN 716 Knowledge Assessment for GDEN Certificate Students
Units: 1 Terms Offered: Sm Review of topics explored in the certificate program, including lectures and practical demonstrations or simulations and examinations of overall discipline knowledge. Open only to certificate in Geriatric Dentistry students. (Duplicates credit in GDEN 710) Prerequisite: GDEN 711a and GDEN 711b and GDEN 713 and GDEN 714 and GDEN 715 and OFPM 722 and OFPM 725 Registration Restriction: Open only to certificate in Geriatric Dentistry students. Duplicates Credit in GDEN 710 Instruction Mode: Lecture, Quiz Grading Option: Letter

GDEN 722 Internal Medicine and Systemic Disease for Dental Residents
Units: 2 Terms Offered: FaSpSm (Enroll in OFPM 722)

GDEN 725 Epidemiology, Nutrition and Aging for Dental Residents
Units: 2 Terms Offered: FaSpSm (Enroll in OFPM 725)

GDEN 730 OFPM Case Portfolio Preparation for Dental Residents
Units: 5 Max Units: 61 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with orofacial pain and oral lesions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d Instruction Mode: Lecture Grading Option: Letter

GDEN 731 GDEN Case Portfolio Preparation for Dental Residents
Units: 5 Max Units: 61 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with complex medical conditions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and
professional dental students in Geriatric Dentistry. Satisfies Old General Education in Category E: Physical Sciences. Prerequisite: GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d. Registration Requirement: Limited to professional dental students who are at least in their second year of dental school. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

GEOG 257g Environment and Ethics

GEOG 105Lg Planet Earth

GEOG 108Lg Crises of a Planet

GEOG 115L Exploring California's National Parks
Units: 4 Terms Offered: FaSpSm. Overview of basic geologic principles and California geology taught through California's National Parks. Satisfaction of Old General Education in Category D: Life Sciences. Instruction Mode: Lecture. Required Lab Grading Option: Letter

GEOG 125Lg Earth History: A Planet and Its Evolution

GEOG 130Lg The Nature of Scientific Inquiry

GEOG 150Lg Climate Change
Units: 4 Terms Offered: FaSp. Examination of the scientific process: what constitutes science; evolution of ideas about the nature of space, time, matter, and complexity; paradigm shifts in the biological and earth sciences. Satisfaction of New General Education in Category II: Physical Sciences. Instruction Mode: Lecture, Lab. Required Lab Grading Option: Letter

GEOG 255 American Environmentalism

GEOG 257g Environment and Ethics
Units: 4 Terms Offered: SpSm. Examination of ethical issues in environmental context: systematic analysis of problems associated with protection and use of selected environments. Satisfaction of Old General Education in Category VI: Social Issues. Instruction Mode: Lecture, Discussion. Credit on acceptance of dissertation. Lecture Mode: Lecture, Discussion. Credit/No Credit

GEOG 345 Conservation of Natural Resources
Units: 4 Terms Offered: Fa. Interaction between resource conservation and people based on recent advances, current developments, and future resource utilization. Special attention to the western United States. Field trips. Instruction Mode: Lecture Grading Option: Letter. Crosslist as ENST-345

GEOG 360 Environmental Disasters
Units: 4 Terms Offered: Sp. Evaluates the causes, effects, and responses to international environmental disasters. Emphasis is on contemporary case studies in a theoretical context. Instruction Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp. Supervised, individual study. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 411 California's Changing Landscapes
Units: 4 Terms Offered: Sp. Type study of a region; distribution of physical and cultural phenomena; delimitation into natural regions; analysis of human-environment interaction in regions of the state. Field trips. Instruction Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: max of 12 Terms Offered: FaSp. Individual research and readings. Lecture Grading Option: Letter

GEOG 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

GEOG 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Seminar in selected topics in geography. Instruction Mode: Lecture. Credit on acceptance of dissertation. Instruction Mode: Lecture. Credit/No Credit

GEOG 700 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm. Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

GEOG 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit

Earth Sciences

GEOL 105Lg Planet Earth

GEOL 107Lg Oceanography

GEOL 108Lg Crises of a Planet

GEOL 115L Exploring California's National Parks
Units: 4 Terms Offered: FaSpSm. Overview of basic geologic principles and California geology taught through California's National Parks. Additional focus on park history, policy, economics, and geologic hazards affecting parks. Lecture, 3 hours; laboratory, 2 hours. One all-day and one three-day field trip to a National Park required. Instruction Mode: Lecture. Required Lab Grading Option: Letter

GEOL 125Lg Earth History: A Planet and Its Evolution

GEOL 130Lg The Nature of Scientific Inquiry

GEOL 150Lg Climate Change

GEOL 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp. Supervised, individual study. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture. Credit on acceptance of dissertation. Lecture Mode: Lecture. Credit/No Credit
Option: Letter

**GEOL 157Lg The Logic of Climate Change: From Data to Deeds**
Units: 4 Terms Offered: Sp Quantitative underpinnings of the scientific case for man-made climate change. Analysis of climate data, examination of potential causes, attribution of causes, and civilizational consequences. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 160Lg Introduction to Geosystems**
Units: 4 Terms Offered: FaSpSm Survey of natural geological/ environmental processes (systems) and variability active near the earth’s surface in the region that houses most life (the biosphere). Satisfies New General Education in Category E: Physical Sciences  
Recommended Preparation: GEOL 105, GEOL 107, GEOL 108, GEOL 125, GEOL 150, or GEOL 240 for students with equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 240Lg Earthquakes**
Units: 4 Terms Offered: FaSpSm Causes of earthquakes and nature of large faults; earthquake hazard and risk; world’s great earthquakes; understanding the Richter scale. *Concurrent Enrollment: Concurrent enrollment: MDA 140. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance  
Recommended Preparation: GEOL 105, or GEOL 240L, GEOL 451L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 241Lg Energy Systems**
Units: 4 Terms Offered: FaSpSm Energy resources from a global perspective, including fossil fuels, nuclear, and renewable energy. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 290L Special Laboratory**
Units: 1 Terms Offered: FaSpSm Survey of natural geological/ environmental processes (systems) and variability active near the earth’s surface in the region that houses most life (the biosphere). Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 305L Introduction to Engineering Geology**
Units: 4 Terms Offered: Sp Principles of geology with emphasis on structural geology, hydrogeology and geological hazards; basic geologic considerations in civil engineering practice; introduction to mineralogy and petrology. Field trip required. Duplicates Credit in GEOL 105 and GEOL 108. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 315L Minerals and Earth Systems**
Units: 4 Terms Offered: Fa Minerals and their formation in Earth geosystems; includes discussions of mineral properties, crystal structures, uses and bio geochemical importance.  
Recommended Preparation: any introductory GEOL course.  
Corequisite: CHEM 105a or CHEM 115a. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 316L Petrologic Systems**
Units: 4 Terms Offered: Sp Formation and identification of igneous, metamorphic and sedimentary rocks; interpretation of tectonic and environmental settings based on rock type and chemistry.  
Prerequisite: GEOL 315. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 320L Surficial Processes and Stratigraphic Systems**
Units: 4 Terms Offered: Fa Processes of erosion, sediment transport, and deposition that shape the land surface; landscape response to tectonism; recognition and interpretation of depositional environments in the stratigraphic record.  
Corequisite: GEOL 315. Duplicates Credit in former GEOL 334L, GEOL 451L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 321L Structural Geology and Tectonics**
Units: 4 Terms Offered: Sp Field and theoretical aspects of rock deformation, analysis of structural systems, and stress and strain; orogenic belts and plate tectonics; introduction to field techniques and construction of geologic maps.  
Recommended Preparation: GEOL 320. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 351L Climate Systems**
Units: 4 Terms Offered: FaSpSm Introduces systems behavior in the context of climate dynamics. Modules of instruction geared to climate system application to real world problems.  
Prerequisite: MATH 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 378ag Undergraduate Team Research**
Units: 2 Terms Offered: FaSpSm Introduction to scientific inquiry, field research opportunities, and history of physical sciences; strategies, research methodologies, and writing skills for proposals, abstracts, papers, and professional development.  
Recommended Preparation: A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture Grading Option: Letter

**GEOL 378bg Undergraduate Team Research**
Units: 2 Max Units: 4.0 Terms Offered:  
Recommended Preparation: A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture, Discussion Grading Option: Letter

**GEOL 378eg Undergraduate Team Research**
Units: 2 Max Units: 4.0 Terms Offered:  
Recommended Preparation: A GE course in Earth Science. b. Multidisciplinary, learner-centered, individual and team-based student research, abroad and in the U.S.; field data collection and interpretation, mentored by domestic and international scientists. Duplicates Credit in the former GEOL 385. Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

**GEOL 390 Special Problems**
Units: 1, 2, 3, 4 Supervised individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**GEOL 412 Oceans, Climate, and the Environment**
Units: 4 Terms Offered: FaSpSm Fundamentals of climate including atmosphere and ocean. Topics include radiative energy balance, ocean-atmosphere linkages and approaches to study climate while building quantitative and qualitative skills.  
Recommended Preparation: GEOL 107Lg or GEOL 150Lg or GEOL 160Lg Corequisite: MATH 125 and (CHEM 105aLg or CHEM 103Lgx)  
Registration Restriction: Not open to freshmen Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 412, BISC 412

**GEOL 425L Data Analysis in the Earth and Environmental Sciences**
Units: 4 Terms Offered: Fa Sp Sm Introduction to mathematical methods giving insight into earth and environmental data. Topics include probability and statistics, timeseries analysis, spectral analysis, inverse theory, interpolation.  
Recommended Preparation: MATH 126, familiarity with matrix algebra. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 427 The Global Environment**
Units: 4 Terms Offered: FaSpSm (Enroll in BISC 427)

**GEOL 432L Introduction to Field Techniques**
Units: 2 Terms Offered: FaSpSm Introduction to field techniques used in a variety of Earth Science disciplines. Field and digital techniques for map making including use of GIS, GPS, and digital tablets. Field analyses of rocks and rock structures. Map interpretation and digital processing of field data. Includes weekly labs and some weekend field trips.  
Recommended Preparation: GEOL 316L, GEOL 320L, GEOL 321L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GEOL 433L Paleontology and Evolution in Deep Time**
Units: 4 Terms Offered: Fa Origin and evolution of life; Precambrian life; evolutionary history of major groups during the Phanerzoic; mass extinctions; deep time and evolutionary processes.  
Recommended Preparation: any introductory GEOL course. Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 485L Tectonic Geomorphology
Units: 4 Terms Offered: Sp Plate tectonics, magnetic and gravity fields, earthquakes, seismic waves, reflection and refraction seisms, heat transport, mantle convection, deep Earth structure, data analysis. Includes field trip. Prerequisite: MATH 126; Corequisite: PHYS 135b or PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 444 Seismic Exploration Geophysics
Units: 4 Terms Offered: FaSp Emphasis on seismology, theory and practice, fracture, refraction, data processing, signal enhancement, field instrumentation and techniques on land and at sea; geological interpretation of seismic data. One field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 445 Earth Climate: Past, Present, and Future
Units: 4 (Enroll in ENST 445)

GEOL 450L Geosystems
Units: 4 Terms Offered: FaSp Geosystems, including mantle convection, active faults, climate, and the carbon cycle, will be studied using numerical models and concepts such as chaos, universality, emergence, and intermittency. Prerequisite: MATH 125. Recommended Preparation: MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 460L Geochemistry
Units: 4 Terms Offered: FaComposition, origin, and evolution of the earth; principles of physical chemistry applied to aqueous systems; reaction-diffusion modeling and problems in sedimentary geochemistry; global (bio)geochemical cycles and environmental problems. Prerequisite: CHEM 105b or CHEM 115b and MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 465L Field Geology
Units: 4 Max Units: 8 Terms Offered: FaSp Field practice and application of geological methods and instrumentation, with emphasis on geological complexity, with one field trip. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 440L Geophysics and Geoenineering
Units: 4 Terms Offered: Sp Plate tectonics, magnetic and gravity fields, earthquakes, seismic waves, reflection and refraction seisms, heat transport, mantle convection, deep Earth structure, data analysis. Includes field trip. Prerequisite: MATH 126; Corequisite: PHYS 135b or PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GEOL 491x Earth Sciences Internship
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8 Terms Offered: FaSpSm Local, national, and international internships providing earth sciences experience in a professional setting. Registration Restriction: Not available for graduate credit. Department permission required. Instruction Mode: Lecture Grading Option: Letter

GEOL 494x Senior Thesis
Units: 2 Terms Offered: FaSp Writing of a thesis under individual faculty super vision. Instruction Mode: Lecture Grading Option: Letter

GEOL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Instruction Mode: Lecture Grading Option: Letter

GEOL 500 Marine Paleoecology
Units: 3, 2 years Terms Offered: Sp Principles of marine paleoecology, interrelationships between marine organisms and their environment in geologic time. Recommended Preparation: GEOL 577. Instruction Mode: Lecture Grading Option: Letter

GEOL 501 Paleobiology

GEOL 505 Introductory Graduate Seminar in Earth Sciences
Units: 2 Terms Offered: Fa Lectures by Earth Sciences faculty about current research; introduction of new graduate students to the breadth of current research; application for research funding; practicing effective research presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 510L Advanced Stratigraphic Field Methods
Units: 3 Terms Offered: Fa Stratigraphic field methods and computer-assisted data analysis. Field trips incorporating vertical and lateral facies analysis; collection of paleocurrent, fabric, paleomagnetic, photo and compaction data. Recommended Preparation: GEOL 430L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 511L Depositional Systems
Units: 3 Analysis of depositional systems, including conceptual methods of lithostratigraphy, biostratigraphy, chronostratigraphy, and paleoecology; description of major depositional environments. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 512 Introduction to Chemical and Physical Oceanography
Units: 4 Terms Offered: Fa (Enroll in OS 512)

GEOL 514 Marine Geology
Units: 3 Terms Offered: Fa Origin and characteristics of ocean basins; marine sedimentary environments; shoreline classification and character; evolution of oceanic features. Instruction Mode: Lecture Grading Option: Letter

GEOL 515 Introduction to Atmospheric Science
Units: 3 Terms Offered: Fa Elementary physical principles underlying the behavior of Earth's atmosphere. Dry and moist thermodynamics, radiative transfer, conservation laws, fundamental dynamical balances, instability theory, cloud physics. Recommended Preparation: PHYS 161, PHYS 304. Instruction Mode: Lecture Grading Option: Letter

GEOL 520 Biogeochemistry
Units: 3 Terms Offered: FaSp Ancient and recent borings and bioturbation structures and their utilization in stratigraphic, paleoenvironmental, paleoecological, sedimentological, and geochemical studies. Recommended Preparation: GEOL 320L and GEOL 433L. Instruction Mode: Lecture Grading Option: Letter

GEOL 521L Advanced Structural Geology
Units: 3 Terms Offered: FaSp Advanced field and theoretical aspects of rock deformation, strain and stress analyses, and evolution of structural systems. Includes lab, field trip(s), and class project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 525 The Science of Climate Change
Units: 4 Terms Offered: Sp Introduction to the fundamental aspects and the factors that influence ocean and atmospheric behavior, and how the earth's climate has varied in the past. Instruction Mode: Lecture Grading Option: Letter

GEOL 530 Modern Perspectives on Crustal Dynamics
Units: 3, 2 years Terms Offered: Sp Deformation mechanisms, strength and structure of the crust. Fractal scaling in structures and dynamic processes. Geode tic measurement of crustal deformation and spatio-temporal patterns of seismicity. Instruction Mode: Lecture Grading Option: Letter

GEOL 531 Plate Interactions: Geological Aspects
Units: 3, 2 years Terms Offered: Sp Principles and geometrics of plate tectonics; geologic characteristics of modern plate boundaries of divergent, convergent, transform type; ocean basin and ocean development from worldwide examples. Field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 532 Advanced Geologic Mapping
COURSES OF INSTRUCTION

Recommended Preparation: GEOL 425, GEOL 534, and GEOL 540. Instruction Mode: Lecture Grading Option: Letter

GEOL 558 Inverse Theory in the Earth Sciences
Units: 3 Terms Offered: FaSp Short review of probability theory, and extensive coverage of linear inverse theory, including seismic imaging. Non-linear inverse problems and factor analysis. Recommended Preparation: GEOL 425. Instruction Mode: Lecture Grading Option: Letter

GEOL 560 Marine Geochemistry
Units: 3, 2 years Terms Offered: Sp Principles of geochemistry, analytical geochemistry, and aquatic chemistry; diagenesis, authigenesis, and the geochemical cycle. Prerequisite: GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 564 Isotope Geochronology
Units: 3, 2 years Terms Offered: Sp Variations in the isotopic composition of elements in the earth's crust with applications to geological problems. History of geochronology, geothermometry, ore genesis, and crustal evolution. Instruction Mode: Lecture Grading Option: Letter

GEOL 567 Stable Isotope Geochemistry
Units: 3 Theoretical basis; nuclide nomenclature, partition function ratios, mechanisms and rates of isotope exchange; mass spectrometry and extraction techniques; application of stable isotopes to geologic problems. Instruction Mode: Lecture Grading Option: Letter

GEOL 568L Metamorphic Petrology
Units: 3, 2 years Terms Offered: Fa An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 569L Igneous Petrology
Units: 3, 2 years Terms Offered: Fa Study of igneous and meta-igneous rocks from the basis of experimental and field data and theoretical considerations. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 575 Organic Geochemistry
Units: 3 Terms Offered: Sp Advanced course on the fundamentals and frontiers of organic geochemistry. Topics include biomarker and isotopic approaches to reconstructing past marine, terrestrial environmental change. Recommended Preparation: CHEM 105a, CHEM 105b, CHEM 322a, CHEM 322b, GEOL 150, GEOL 412, or equivalent background. Instruction Mode: Lecture Grading Option: Letter

GEOL 577L Micropaleontology
Units: 3, 2 years Terms Offered: Fa Microscopic fossils, especially foraminifera, their classification, the common genera, morphology, evolutionary trends, laboratory and field techniques. Recommended
GEOL 601 Seminar in Sedimentary Geology
Units: 1, 2, 3 Max Units: 6.0 Terms Offered: Sp Analysis and discussion of current topics in sedimentary geology; topics will be chosen by students and faculty to focus on areas of recent advances. Instruction Mode: Lecture Grading Option: Letter

GEOL 609 Seminar in Earthquake Physics
Units: 2 Max Units: 6.0 Terms Offered: FaSp Current research on the physics governing earthquakes and faults, including results from continuous and fracture mechanics, statistical physics, lab experiments, and seismological observations. Instruction Mode: Lecture Grading Option: Letter

GEOL 650 Recent Advances in Paleontology
Units: 3 Selected review of recent ideas in paleobiology, evolution, and paleoecology related to examining the current frontiers in paleontology. Instruction Mode: Lecture Grading Option: Letter

GEOL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 593 Practicum in Teaching the Liberal Arts
Units: 2 Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: Prerequisite: GEOL 433. Instruction Mode: Lecture Grading Option: Lecture

GERM 101 German I
Units: 4 Introduction to modern German. Oral practice, listening and reading comprehension. Basic structures necessary for simple spoken and written expression. Instruction Mode: Lecture Grading Option: Letter

GERM 102 German II
Units: 4 Continuation of 020x. Reading selections appropriate to candidate's major field. Instruction Mode: Lecture Grading Option: Letter

GERM 201 German III, Conversation and Composition
Units: 4 Intermediate German. Increasing emphasis on listening and speaking skills and a review of basic structures of German. Discussion of cultural aspects. Prerequisite: GERM 102. Instruction Mode: Lecture Grading Option: Letter

GERM 203 Business German II
Units: 4 Terms Offered: Fa Continuation of GERM 201. Terminology and style of commercial and legal texts, analyzed and applied in oral and written work. In German. Prerequisite: GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 204 Composition and Conversation on Contemporary Affairs
Units: 4 Practice in oral and written German, emphasizing contemporary cultural and social developments in the German-speaking countries of Europe. In German. Prerequisite: GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 221 Conversational German IV
Units: 4 Conversational German in a variety of topical settings and vocabulary domains. Prerequisite: GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 230 Composition and Conversation in Cultural History
Units: 4 Practice in oral and written German, emphasizing the cultural history of the German-speaking countries of Europe. In German. Prerequisite: GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 235 Applied German Drama
Units: 4 Max Units: 8.0 Works of a German playwright in their social and cultural context, leading to a dramatization of one of the works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 240 German Prose Fiction from Goethe to Thomas Mann
Units: 4 Examines German prose fiction from the late 18th to the early 20th centuries, with particular emphasis on how narrative texts are constructed. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 246 German Folklore and Popular Culture
Units: 4 Survey and analysis of folklore and cultural phenomena, including tales, legends, and myths; folk and popular music; beliefs and customs. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 301 Colloquium on Drama
Units: 4 German drama from the 18th century, with emphasis on modernism (since Büchner) and the 20th century avant garde styles: Expressionist, Epic, Grotesque, Documentary, and Sprechtheater. In German. Instruction Mode: Lecture Grading Option: Letter
GERM 352 Colloquium on Poetry
Units: 4 Definition and analysis of lyric genre through a study of major poets, such as Goethe, Schiller, Heine, Rilke, and Hofmannsthal; poetic traditions from the 17th century to the present. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 353 Colloquium on Prose
Units: 4 Study of German prose from the 18th century to the present; emphasis on narrative and thematic perspectives in relation to social change and on modernism since Kafka. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 360g 20th Century German Prose: Texts and Films
Units: 4 Aesthetic and historical analysis of major German 20th century novels, complemented by brief study of cinematic adaptation of each text. Texts in English; films with subtitles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 370 Literature and Culture in Vienna at the Turn of the Century
Units: 4 Literature, culture, and society in Vienna 1890–1925; works by figures such as Schnitzler, Hoffmannsthal, Kafka, Musil, Kraus, Schönberg, Kokoschka, Freud, Wittgenstein, and others. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 372g Literature and Culture in Berlin in the 1920s
Units: 4 Literature, culture, and society through works by figures such as Kaiser, Toller, Brecht/Weill, Piscator, Th. Mann, Doeblin, Lukacs, Heidegger, etc. Films: Caligari, Metropolis, Berlin, M, Blue Angel. In English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 375g The German Exile Experience
Units: 4 Terms Offered: FaSp Surveys the work of German intellectuals, writers, artists, and scientists in U.S. exile during the time of the Nazi government in the 1930s and 1940s. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERM 410 Profile of German Literature I
Units: 4 Survey of major trends in German literature within their historical and cultural contexts from the beginnings to the Baroque period. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 420 Profile of German Literature II
Units: 4 Survey of major trends, figures, and authors in German literature and culture of the 18th and 19th centuries within the European context. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 430 Age of Goethe
Units: 4 Background and significance of the period; lyric, major dramatic and prose works from 1770–1832; Storm and Stress; Classicism; Goethe and Schiller. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 440 Women's Literature in Germany I
Units: 4 Reading and analysis of medieval texts from German-speaking countries, written by and about women: science, love, poetry, letters, drama, mysticism, romance. Conducted in German. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-440

GERM 460 Expressionism to the Present
Units: 4 Representative authors and works since 1910; World War I, Expressionism, New Objectivity, World War II; literature after 1945. East and West, Swiss and Austrian. Instruction Mode: Lecture Grading Option: Letter

GERM 465 Germany East and West
Units: 4 Study of the ideological, economic, social, and cultural differences between East and West Germany between 1945 and 1990 and their impact on today's unified Germany. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 466 The German Speaking Nations
Units: 4 Focus on the culture, history, and society of Austria, East and West Germany, and Switzerland. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 470 Advanced Composition and Stylistics
Units: 4 Development of competence in written expression; fundamentals of style in expository writing. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GERM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Intensive study of selected topics or regions. Instruction Mode: Lecture Grading Option: Letter

GERM 593 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: FaSp (Enroll in MDA 593)

Gerontology
GERO 200 Gerontology: The Science of Adult Development
Units: 4 Terms Offered: FaSp Introduction to adult development through the lifespan; biological, psychological, and social processes; gerontology as a career for the future. Instruction Mode: Lecture Grading Option: Letter

GERO 310 Physiology of Aging
Units: 4 Terms Offered: Fa Effects of normative aging processes on homeostatic mechanisms and how these changes relate to development of disorder and disease in later life. Instruction Mode: Lecture Grading Option: Letter

GERO 315g A Journey into the Mind
Units: 4 Terms Offered: Sp Introduction to the brain and mind: A unique multimedia approach to stress how knowledge about the mind is gained from scientific and clinical investigations. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture Grading Option: Letter

GERO 320g Psychology of Adult Development
Units: 4 Terms Offered: FaSp An introduction to the core curriculum in the study of Gerontology. Research perspectives on adult development and aging; methodological issues; personality and relationship issues; general mental and emotional components of aging; research methods. Duplicates Credit in GERO 320g

GERO 321 Introduction to Psychology and Aging
Units: 4 Terms Offered: FaSp An introduction to the core curriculum in the study of Gerontology. Research perspectives on adult development and aging; methodological issues; personality and relationship issues; general mental and emotional components of aging; research methods. Duplicates Credit in GERO 320g

GERO 350 Administrative Problems in Aging
Units: 2 or 4 Terms Offered: FaSp How social relationships affect adults of different ages; the changing contract across generations; interaction of culture, race, family and social values with adult development. Instruction Mode: Lecture Grading Option: Letter

GERO 355 Social and Behavioral Foundations of Health and Aging
Units: 4 Terms Offered: FaExplore social and behavioral foundations of health, longevity, and medicine, in the context of an increasingly diverse and long-lived population. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture

GERO 380m Diversity in Aging
Units: 4 Exploring diversity in the older
population and variability in the human aging process. Instruction Mode: Lecture Grading Option: Letter

**GERO 385 Transitions in Adulthood**
Units: 2 or 4 An exploration of the critical issues and transitions in the adult years, including careers, relationships, parenthood, and major turning points for personal development. Instruction Mode: Lecture Grading Option: Letter

**GERO 390 Special Problems**
Units: 1-4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

**GERO 402 Housing for the Elderly: Policy, Programs, and Design**
Units: 2 An overview of housing policies, programs and design for the elderly, including analysis and evaluation of past, current and proposed government programs. Instruction Mode: Lecture Grading Option: Letter

**GERO 411L Physiology, Nutrition, and Aging**
Units: 2 or 4 Explores nutritional needs and the physiological, psychological, and sociological relationships to nutrition. Laboratory experiments in assessment and evaluation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GERO 412L Exercise and Aging: Principles and Programs**
Units: 2 or 4 Physiological, psychological, and sociological aspects of exercise. Laboratory involvement in assessment and evaluation of fitness. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GERO 414 Neurobiology of Aging**
Units: 4 Terms Offered: Fa Age-related changes in nervous system structure and function; relationship of brain changes to changes in cognitive function and perception; Alzheimer's and Parkinson's diseases. Lecture and discussion. Prerequisite: BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

**GERO 415 Neuroaffective Disorders of Aging**
Units: 4 Terms Offered: Sp Methods of studying, evaluating, and treating cognitive, psychiatric, and behavioral problems associated with medical conditions of old age. Instruction Mode: Lecture Grading Option: Letter

**GERO 416 Health Issues in Adulthood**
Units: 4 Terms Offered: Sp Physiological, psychological, and social health problems of adults as they are impacted by health choices throughout life. Instruction Mode: Lecture Grading Option: Letter

**GERO 421 Managed Care for an Aging Society**
Units: 4 Terms Offered: FaSpExamines key legislation, policies, practice, and outcomes of managed care and how population aging affects health care delivery. Instruction Mode: Lecture Grading Option: Letter

**GERO 423 Psychological Development through Autobiography**
Units: 4 Introduction to autobiography as a source of individual psychological development, with emphasis on integration of cognitive, emotional, and decision processes. Instruction Mode: Lecture Grading Option: Letter

**GERO 435m Women and Aging: Psychological, Social and Political Implications**
Units: 4 Terms Offered: FaSpSm Problems and resources of the middle-aged and older woman in a changing society; including discrimination, stereotypes, employment, social interaction, etc. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-434

**GERO 437 Social and Psychological Aspects of Death and Dying**
Units: 2 or 4 Terms Offered: FaSp Introduction and critical survey of the current issues, concepts, and research of the social and psychological aspects of death and dying. Instruction Mode: Lecture Grading Option: Letter

**GERO 440 Biodemography of Aging**
Units: 4 Consideration of the biological and social-cultural factors that govern the evolution of life spans and the life of humans and selected animal models Prerequisite: BISC 120 or BISC 121 Recommended Preparation: recommended preparation: statistics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 440

**GERO 451 Policy and Program Development in Aging**
Units: 4 Policy trends and changing roles of local, state, and federal agencies in planning, managing, and evaluating programs in comprehensive, coordinated systems of service for older persons. Instruction Mode: Lecture Grading Option: Letter

**GERO 452 Economic Issues and the Aged**
Units: 2 or 4 Analysis of economic factors associated with the aged; implications for individuals, society, and the economy; lifecycle economics, retirement, income maintenance, and social security. Instruction Mode: Lecture Grading Option: Letter

**GERO 461 Seminar in Molecular and Computational Biology**
Units: 2 Terms Offered: FaSpSm (Enroll in BISC 461) Grading Option: Letter

**GERO 470 Aging and Business**
Units: 4 Terms Offered: Fa An introduction to the dynamic roles of business in an aging society focusing on workplace issues, marketing to mature consumers, and careers for business gerontologists. Instruction Mode: Lecture Grading Option: Letter

**GERO 475 Ethical Issues in Geriatric Health Care**
Units: 4 Biomedical ethical issues that are encountered in working with geriatric patients. Examination of ethical theory and the application of theory to clinical settings. Instruction Mode: Lecture Grading Option: Letter

**GERO 481 Case Management for Older Adults**
Units: 4 Terms Offered: Fa Overview of the concepts, characteristics, skills, and clinical issues of case management in a variety of settings serving older persons. Instruction Mode: Lecture Grading Option: Letter

**GERO 483 Global Health and Aging**
Units: 4 Terms Offered: Fa Overview of the impact aging populations will have on global institutions from a variety of perspectives. Examination of public health policy issues. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HP-483

**GERO 490s Directed Research**
Units: 1-8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Credit/No Credit

**GERO 492 Senior Seminar**
Units: 4 Terms Offered: Sp An in-depth integration of major research and professional themes in the study of human development and aging. Instruction Mode: Lecture Grading Option: Letter

**GERO 493p Longevity and Death among Ancient and Modern European Populations (Italy)**
Units: 2 Terms Offered: SpSm The discoveries of ancient humans and bodies that have been preserved illuminate the connection between diet, health, and disease. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Credit/No Credit

**GERO 494 Emotion-Cognition Interactions and Aging**
Units: 4 Terms Offered: Sm Covers the paradox of emotion in aging, as well as how stress and emotion influence cognition and the brain across the lifespan. Instruction Mode: Lecture Grading Option: Letter

**GERO 495 Practicum in Geriatric Care**
Units: 4 Terms Offered: FaSpSm Supervised experience in a geriatric health care setting which allows students to put theories and ideas into practice. Graded CR/NC. Lecture, discussion, and fieldwork. Instruction Mode: Lecture Grading Option: Letter

**GERO 496 Introduction to Clinical Geriatrics**
Units: 4 Medical problems of older adults emphasizing common geriatric syndromes, chronic illness, and alternative approaches to primary health care of older persons and their families. Upper division standing. Prerequisite: BISC 220 or BISC 221. Instruction Mode: Lecture

**GERO 497a Honors Seminar**
Units: 2 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. Prerequisite: standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

**GERO 497b Honors Seminar**
Comparative Approaches
Units: 4 Examination of current trends and future prospects of finance and reimbursement systems. Topics include major legislation and programs such as Medicare and Medicaid. Instruction Mode: Lecture Grading Option: Letter

GERO 543 Continuum of Care: Systems Perspective
Units: 4 Structural and organizational aspects of institutional and community programs; public policies, fiscal management, regulation, administration; obstacles to interagency coordination; the continuum of care. Instruction Mode: Lecture Grading Option: Letter

GERO 550 Administration and System Management in Programs for Older Adults
Units: 4 Terms Offered: Sp Application of theories of administration and system management to public and volunteer programs and services for older adults including residential institutions and community programs. Instruction Mode: Lecture Grading Option: Letter

GERO 551 Applied Policy Skills in Aging
Units: 4 Terms Offered: Sp An overview and application of techniques and approaches used in the definition and analysis of policy problems in aging. Prerequisite: GERO 540. Instruction Mode: Lecture Grading Option: Letter

GERO 554 Evaluation: Incorporating Evidence-Based Practices
Units: 4 Terms Offered: Sp Examination of the evaluation of health and service delivery in aging services industries. Instruction Mode: Lecture Grading Option: Letter

GERO 555 Integrating Gerontology: A Multidisciplinary Approach
Units: 4 Terms Offered: Sp Aging (commonalities and distinctions) as addressed by biologists, psychologists, and sociologists. Topics include research perspectives, normative aging, functional decline and disability, and aging and society. Instruction Mode: Lecture Grading Option: Letter

GERO 556 Program Development
Units: 2 or 4 Principles and procedures of assessing needs, collecting resources, designing activities, and implementing programs for older people in a variety of community and institutional settings. Instruction Mode: Lecture Grading Option: Letter

GERO 557 Geriatric Care Management
Units: 4 Terms Offered: Sp Overview of concepts, issues, and approaches to geriatric care management. Includes analysis and practice of a variety of care management clinical skills. Instruction Mode: Lecture Grading Option: Letter

GERO 560 Micronutrients, Health, and Longevity
Units: 4 Terms Offered: FaSpSm Explores the basis of nutrition needs for vitamins, major minerals and trace minerals including nutrient interaction and their role in health and longevity. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 570 Corporate Policies and Aging
Units: 4 An introduction to the evolving roles of corporations in an aging society including such topics as retaining older workers, retiree benefits, and the mature consumer. Instruction Mode: Lecture Grading Option: Letter

GERO 585 The Aging Family
Units: 2 or 4 Terms Offered: Sp Family processes and structure in families with aged persons will be reviewed, including marital and family therapy and intervention strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 589 Case Studies in Leadership and Change Management
Units: 4 Terms Offered: Fa Examination of case studies of issues affecting the aging services industries and the role industry leaders play in reacting to change. Instruction Mode: Lecture Grading Option: Letter

GERO 590 Directed Research
Units: 1-12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 591 Field Practicum
Units: 1-12 Max Units: 12.0 Terms Offered: FaSpSm Supervised experiential learning in one or more organizations that serve older adults; includes a regularly scheduled seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 592 Multidisciplinary Research Seminar in Aging
Units: 2 Max Units: 8.0 Terms Offered: FaSpSm Multidisciplinary perspectives on current research in gerontology, including physiology, neurobiology, health and medicine, psychology, sociology, and public policy. Topics will change each semester. Instruction Mode: Lecture Grading Option: Letter

GERO 593 Research Methods
Units: 4 Terms Offered: Fa An introduction to research methods and their application to gerontology including problem formulation, research design, data collection, descriptive and analytic statistics, interpretation, and report preparation. Instruction Mode: Lecture Grading Option: Letter

GERO 594a Master’s Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594b Master’s Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594z Master’s Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 599 Special Topics
Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontological study. Instruction Mode: Lecture Grading Option: Letter

GERO 600 Geroscience: Molecular and Cellular Biology
Units: 4 Terms Offered: Fa Emphasizes the molecular and cellular biology of aging and age-related pathologies and other aspects of basic aging research, including evolutionary biology, demography, epidemiology and bioinformatics. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 601 Molecular Genetics of Aging
Units: 4 Terms Offered: Sp Emphasizes concepts of molecular and genetic regulation of healthy aging, lifespan, and age-related diseases. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 602 Seminar on Discoveries in Biogerontology
Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 605 Research and Journal Club Presentation Workshop
Units: 2 Terms Offered: Fa An intensive training in journal club and research talk presentations for graduate students in the Biology of Aging PhD program. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 610 The Aging Society
Units: 4 Terms Offered: Sp The interaction of demographic and economic processes, with emphasis on how the contemporary nature of these interactions influence public policy response to an aging population. Instruction Mode: Lecture Grading Option: Letter

GERO 613 Health and Aging
Units: 4 Terms Offered: Sp Examination of changes in health related to age, changes in health in populations over time, and the key health issues facing older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 614L Laboratory Rotations in the Biology of Aging
Units: 4 Max Units: 12 Terms Offered: FaSpSm Mandatory organized laboratory rotation. Allows students to participate
in laboratory activities. Designed to help select dissertation advisor and research. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

**GERO 620 Psychology of Aging**
Units: 4 Terms Offered: Fa Overview of topics in the psychology of aging. Includes research and theory bearing on cognitive, personality, adaptive, and social processes throughout the adult life span. Open only to doctoral students. Recommended Preparation: undergraduate course work in psychology. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**GERO 628 Theories of Aging**
Units: 4 An examination of the nature and adequacy of existing explanations of aging. Focus will be on psychological, sociological, and biological paradigms, and on the epistemology of theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-628

**GERO 640 Data Analysis Strategies**
Units: 4 Terms Offered: FaSpSm Hands-on experience in developing and testing hypotheses using various types of databases, data management and analysis strategies and written presentation of findings. Recommended Preparation: GER 593. Instruction Mode: Lecture Grading Option: Letter

**GERO 645 Politics and Policy Processes in an Aging Society**
Units: 4 Terms Offered: Fa Dynamics of the policy-making process in the context of aging policy in the United States; focus on the political system and its social dynamics. Instruction Mode: Lecture Grading Option: Letter

**GERO 655 Research Training Grant Proposal Development in Gerontology**
Units: 4 Terms Offered: Fa Integrative grant writing and development of collaborative, interdisciplinary projects in gerontology as studied by biomedical, psychological, and social scientists. Instruction Mode: Lecture Grading Option: Letter

**GERO 666 Free Radical Chemistry, Biology, and Medicine**
Units: 4 Terms Offered: Fa Explores the chemical and physical chemical nature of free radicals and related reactive species. Examines the roles of antioxidants and how they work. Recommended Preparation: Course work in biology and chemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSCI-633

**GERO 790 Research**
Units: 1-12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**GERO 794a Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**GERO 794b Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**GERO 794c Doctoral Dissertation**
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**GERO 794d Doctoral Dissertation**
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

**General Education Seminar**

**GESM 110g Seminar in the Arts**
Units: 4 Terms Offered: FaSpSm The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Satisfies New General Education in Category A: The Arts Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

**GESM 111g Seminar in the Arts**
Units: 4 Terms Offered: FaSpSm The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Offered by a USC professional school. Satisfies New General Education in Category A: The Arts Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 110 Instruction Mode: Lecture Grading Option: Letter

**GESM 120g Seminar in Humanistic Inquiry**
Units: 4 Terms Offered: FaSpSm Interpretation and analysis of works of the imagination, exploring language, thought, and cultural traditions in relation to one another. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

**GESM 121g Seminar in Humanistic Inquiry**
Units: 4 Terms Offered: FaSpSm Critical appreciation of various forms of human expression, evaluating works of literature, philosophy, and the arts to enable informed opinions about ideas and values. Offered by a professional school. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 120 Instruction Mode: Lecture Grading Option: Letter

**GESM 130g Seminar in Social Analysis**
Units: 4 Terms Offered: FaSpSm Individual and collective human action as it shapes and is shaped by economic organizations, political institutions, and broad social and cultural settings. Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

**GESM 140g Seminar in the Life Sciences**
Units: 4 Terms Offered: FaSpSm Scientific understanding of a full range of living systems from molecules to ecosystems, prokaryotes to humans, past and present. (Satisfies GE-D, Life Sciences). Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

**GESM 150Lg Seminar in the Physical Sciences**
Units: 4 Terms Offered: FaSpSm Analysis of natural phenomenon through quantitative description and synthesis; the processes by which scientific knowledge is obtained, evaluated, and placed in social context. (Satisfies GE-E, Physical Sciences) Satisfies New General Education in Category E: Physical Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**GESM 151Lg Seminar in the Physical Sciences**
Units: 4 Terms Offered: FaSpSm Analysis of natural phenomenon through quantitative description and synthesis; the processes by which scientific knowledge is obtained, evaluated, and made socially relevant. A separate lab is required. Offered by a professional school. Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 150 Instruction Mode: Lecture, Required Lab Grading Option: Letter
More advanced instruction in oral and maxillofacial surgery. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 604b Practice Management
Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604d Practice Management
Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 604a Practice Management
Units: .5, Terms Offered: FaSpSm Residents learn the tools and principles of running or working in a private practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 603c Dental Ethics
Units: .5, Terms Offered: Sp Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603b Dental Ethics
Units: .5, Terms Offered: Fa Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 603a Dental Ethics
Units: .5, Terms Offered: FaSpSm Residents prepare for ethical dilemmas which may occur when they are practicing dentistry. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 602 General Dentistry Overview
Units: .5, Terms Offered: FaSpSm Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 701b Compromised Dental Patients
Units: 1, Terms Offered: FaSpSm Residents learn of various medical problems, how they relate to dental treatment and how to manage patients with various medical problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 701a Compromised Dental Patients
Units: 1, Terms Offered: FaSpSm Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 701 Compromised Dental Patients
Units: 1, Terms Offered: FaSpSm Residents learn of various medical problems, how they relate to dental treatment and how to manage patients with various medical problems. Instruction Mode: Lecture Grading Option: Credit/No Credit
as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710b Oral and Maxillofacial Surgery Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710c Oral and Maxillofacial Surgery Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710d Oral and Maxillofacial Surgery Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 711a Implantology Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 711b Implantology Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 722 Occlusion, TMJ Dysfunction, Orofacial Pain Units: 1 Terms Offered: FaSpSm Residents review the important role that Occlusion plays in General Dentistry and neuromuscular problems of the head and neck. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733a Advanced and Maxillofacial Prosthodontics Units: 5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733b Advanced and Maxillofacial Prosthodontics Units: 5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733c Advanced and Maxillofacial Prosthodontics Units: 5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733d Advanced and Maxillofacial Prosthodontics Units: 5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPPD 500a Global Policy Challenges and Solutions Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 500b Global Policy Challenges and Solutions Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments. Prerequisite: GPPD 500a Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter
