Units: 3 Terms Offered: Fa The role of the school counselor. An overview of key elements in increasing access to and equity for primary and secondary education for all students. Instruction Mode: Lecture Grading Option: Letter
EDUC 512 Reading and Writing Methods for Secondary Teaching
Units: 2 Terms Offered: Fa Analysis of reading/writing processes; methods for teaching literacy in grades 9–12; issues in illiteracy and instruction. Instruction Mode: Lecture Grading Option: Letter
EDUC 514 School Counseling Seminar
Units: 3 Terms Offered: Sp Current issues and problems in school counseling; emphasis is on K–12 learning and achievement. Instruction Mode: Lecture Grading Option: Letter
EDUC 515 Theories of Marriage and Family Therapy
Units: 3 Major psychotherapeutic orientations relating to family systems, marital relationships, and communications theory applied to the family unit. Prerequisite: EDUC 500, EDUC 507, EDCO 541. Instruction Mode: Lecture Grading Option: Letter
EDUC 520 Counseling for College and Career Readiness I
Units: 2 Terms Offered: Fa Theoretical foundations of individual and systemic characteristics that impact college and career choices. Consideration of economic, political, social, and policy issues. Instruction Mode: Lecture Grading Option: Letter
EDUC 521 Assessment and Instruction for Diverse Language Learners
Units: 3 Terms Offered: FaSpSm Assessment practices and strategies in English language instruction with special attention to learner differences (social, cultural, physical, intellectual) that influence academic performance. Open only to MAT TESOL and TESOL (online) students. Registration Restriction: Open only to Teaching English to Speakers of Other Languages and Teaching English to Speakers of Other Languages (online). Instruction Mode: Lecture Grading Option: Letter
EDUC 522 Challenges in Urban Education: Accountability
Units: 3 Terms Offered: FaDiversity issues in urban educational settings. Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter
EDUC 523 Challenges in Urban Education: Diversity
Units: 3 Terms Offered: FaDiversity issues in urban educational settings. Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter
EDUC 524 Challenges in Urban Education: Leadership
Units: 3 Terms Offered: Sp Theories, principles, and concepts of leadership in urban K–12 schools and institutions of higher education. Open only to EdD students. Registration Restriction: Open only to Ed.D. students. Instruction Mode: Lecture Grading Option: Letter
EDUC 525 Challenges in Urban Education: Learning
Units: 3 Terms Offered: Fa The role of the school counselor. An overview of key elements in increasing access to and equity for primary and secondary education for all students. Instruction Mode: Lecture Grading Option: Letter
EDUC 527 Assessment in the Language Classroom
Units: 2 Terms Offered: Sm Introduces students to relevant research in language assessment, reviews concepts of reliability and validity and examines assessment
EDUC 528 Course Proposal Project
Units: 2 Terms Offered: Sm Using a framework of course development, students present a course proposal, linking the theoretical, methodological and practical principles gained from all course work in the program. Instruction Mode: Lecture Grading Option: Letter

EDUC 529 Political and Academic Issues Affecting Gifted Students
Units: 3 Terms Offered: FaSpSm Examination of the political and academic issues affecting gifted and high-ability students. Psychosocial reasons contributing to achievement and underachievement. Institutional and personal factors inhibiting potential. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 530 Differentiated Curriculum and Pedagogy for Gifted Students
Units: 3 Terms Offered: FaSpSm Recognizing the talent and potential of gifted and high ability students. How gifted education can be generalized to affect the education of all students. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 531 Student Disability Issues in Higher Education
Units: 3 Terms Offered: Fa: History of the disability movement; current research on the success of students with disabilities in higher education; legal and management issues. Instruction Mode: Lecture Grading Option: Letter

EDUC 532 Inquiry Methods I
Units: 3 Terms Offered: Sp: Logic and methods of quantitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 533 School Leadership: Theory and Practice
Units: 3 Terms Offered: Fa: Theories and principles of leadership and the application of principles to solve authentic problems in elementary and secondary schools. Instruction Mode: Lecture Grading Option: Letter

EDUC 535 Teaching Secondary English and Language Arts
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching English in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 536 Inquiry Methods II
Units: 3 Terms Offered: Sp: Logic and methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. Open only to EdD students. Instruction Mode: Lecture Grading Option: Letter

EDUC 537 Leading with the Community and Culture in Context
Units: 3 Terms Offered: Sp: Creating a positive culture of learning to promote student success. Strategies to engage diverse communities. Instruction Mode: Lecture Grading Option: Letter

EDUC 538 Entrepreneurial School Leadership
Units: 2 Terms Offered: Fa: Entrepreneurial opportunities in education. Developing the skills and knowledge for entrepreneurial leadership to improve educational outcomes. Instruction Mode: Lecture Grading Option: Letter

EDUC 539 Teaching Secondary Science
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching science in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 544 Psychological Assessment
Units: 3 Utilizing a wide range of clinical assessment tools with cultural sensitivity to achieve a comprehensive patient profile to guide the therapeutic process. Duplicates Credit in former EDCO 544 Instruction Mode: Lecture Grading Option: Letter

EDUC 545 Teaching Secondary Mathematics
Units: 4 Terms Offered: FaSpSm Instructional procedures, techniques, strategies, and resources for teaching mathematics in secondary classrooms. Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

EDUC 546 Psychopathology for Marriage and Family Therapy
Units: 3 Theories of psychological impairment emphasizing diagnosis of child and family dysfunction. Practice in utilizing DSM-IV classification of case studies. Duplicates Credit in former EDCO 546. Instruction Mode: Lecture Grading Option: Letter

EDUC 547 Career Development: Theory and Process
Units: 3 Theories and process of career development; principles of career and leisure planning and counseling applicable throughout life. Duplicates Credit in former EDCO 548. Instruction Mode: Lecture Grading Option: Letter

EDUC 548 Data-Driven Leadership for Schools
Units: 3 Terms Offered: Sm: Analyzing, interpreting, and using data to increase effectiveness of instruction and programs, improve student learning, and reduce or eliminate the achievement gap. Instruction Mode: Lecture Grading Option: Letter

EDUC 549 Supervising Instruction for Optimal Learning
Units: 3 Terms Offered: Sm: Application of adult learning theory to evaluate instruction. Appropriate professional development to improve student achievement. Instruction Mode: Lecture Grading Option: Letter

EDUC 550 Literacies in the Content Area
Units: 3 Terms Offered: FaSpSm Literacy and language within content areas. Developing reading, writing, speaking and listening skills for real audiences. Academic language. Instruction Mode: Lecture Grading Option: Letter

EDUC 553 Psychopharmacology and the Effects of Substance Abuse
Units: 3 Terms Offered: Sp: Focus on the effects of psychotropic medication, alcohol, and other substances on behavior. The professions, legal and ethical issues for marriage and family therapists. Instruction Mode: Lecture Grading Option: Letter

EDUC 555 STEM Education in Secondary Classrooms
Units: 3 Terms Offered: FaSpSm Developing innovative practices in designing inquiry-based lesson plans to facilitate integrating the STEM disciplines as a foundation for teaching. Instruction Mode: Lecture Grading Option: Letter

EDUC 557 Civics Education
Units: 3 Terms Offered: FaSpSm Uses of pedagogical practices for increasing student engagement in the study of history and civics. Becoming critical thinkers, problem solvers, and effective citizens. Instruction Mode: Lecture Grading Option: Letter

EDUC 558 Culture Learning in Schools: Latino
Units: 3 History, values, beliefs, and the demography of Spanish-speaking people; implications for the American classroom. Conducted in English. No previous knowledge of Latino culture is needed. Registration Restriction: Open only to USC Rossier School of Education students Instruction Mode: Lecture Grading Option: Letter

EDUC 559 Discourse Analysis and Technology in STEM Classrooms
Units: 3 Terms Offered: FaSpSm Using multiple assessment strategies and technology to assess mathematical and scientific thinking and performance. Instruction Mode: Lecture Grading Option: Letter

EDUC 560 Primary Language Instruction in a Bilingual Setting
Units: 3 Terms Offered: Fa: Bilingual programs, their goals, personnel, teaching methods, and materials. Instruction Mode: Lecture Grading Option: Letter

EDUC 561 TESOL Instruction and Methods of Teaching A
Units: 3 Overview of approaches and methods in TESOL, topics include curriculum and lesson planning, lesson sequencing and delivery and methods for teaching reading, writing, speaking and listening. Registration Restriction: Open only to majors in Teaching English to Speakers of Other Languages. Instruction Mode: Lecture Grading Option: Letter

EDUC 562 Teaching English to Speakers of Other Languages Pedagogy II
Units: 3 Introduction to microcomponents of effective teaching, including curriculum and lesson planning, lesson sequencing and delivery, and creating a classroom environment conducive to English language learning. Instruction Mode: Lecture Grading Option: Letter

EDUC 563 Teaching from a Comparative and International Perspective
Units: 3 Terms Offered: FaSpSm Examines the social context of schooling from a comparative and international perspective, connections between cultural beliefs and societal values; issues of social stratification and marginalization. Instruction Mode: Lecture Grading Option: Letter

EDUC 564 Teacher Leadership
Units: 2 Terms Offered: FaSpSm Strategies of leadership that lead from influencing learning in the classroom to influencing learning across an entire school. Becoming
an instructional leader. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 567 English and Language Arts in Elementary Social Studies**

**Units:** 4 **Terms Offered:** FaSpSm Integrating English and language arts development with learning in elementary social studies classrooms. Factors affecting the teaching and learning of social studies and language arts. Open only to MAT students. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 569a Capstone Portfolio in Learning and Instruction**

**Units:** 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credit track. Open only to MAT students. **Duplicates Credit in former EDUC 569. Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 569b Capstone Portfolio in Learning and Instruction**

**Units:** 2 The culminating experience in the Master of Arts in Teaching Program for students in the non-credit track. Open only to MAT students. **Duplicates Credit in former EDUC 569. Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 570 Research Methods and Data Analysis**

**Units:** 3 **Terms Offered:** FaSpSm Various research designs and their appropriateness for addressing different research questions. Threats to validity and other challenges in research. Basic statistical methods and their use. **Recommended Preparation:** beginning statistics course. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 572a Teaching in an International and Intercultural Context**

**Units:** 2 **Terms Offered:** Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 572b Teaching in an International and Intercultural Context**

**Units:** 2 **Terms Offered:** Fa Examines social context of education from an international and intercultural perspective, linkages between societal values, culture, and schooling, and implications for the role of teachers. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 573 Introduction to Special Education**

**Units:** 3 **Terms Offered:** FaSpSm Effective and appropriate educational settings for students with disabilities. Legal and professional responsibilities. Components for an inclusive classroom. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 574 Collaboration, Families and Case Management**

**Units:** 3 **Terms Offered:** FaSpSm Planning and implementing effective educational services for students receiving special education services. Potential interventions for family support. Coordination of services. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 575 Assessment and Curriculum for Students with Disabilities**

**Units:** 3 **Terms Offered:** FaSpSm Developing effective educational interventions for students with disabilities. Formal and informal assessment. **Curriculum strategies. Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 576 Establishing and Maintaining an Effective Classroom Ecology**

**Units:** 3 **Terms Offered:** FaSpSm Environmental and personal factors affecting student achievement. Intervention methodologies creating an effective learning environment. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 577 Guided Practice: Mild/Moderate Disabilities**

**Units:** 3 **Terms Offered:** FaSpSm Supervised practicum in observation and teaching. Focus on planning, implementing, and assessing instruction for whole classes and individual students with mild/moderate disabilities. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 578 Integrating the Arts into the Secondary Curriculum**

**Units:** 3 **Terms Offered:** FaSpSm Methods for integrating the arts into secondary classroom instruction. Critical and creative thinking, aesthetic education. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 579 Media Selection and Evaluation**

**Units:** 2 **Terms Offered:** FaSpSm Selection and evaluation of media and technologies in support of instructional design based on a survey of current research and recommendations. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 580 Transforming STEM Education into Teaching Science**

**Units:** 3 **Terms Offered:** FaSpSm The convergence of science, technology, engineering, and mathematics (STEM) as a foundation for teaching science. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 581 STEM Education from a Project-Based Learning Approach**

**Units:** 3 **Terms Offered:** FaSpSm Model-based reasoning and inquiry as a means of integrating STEM disciplines. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 582 Assessment and Evaluation**

**Units:** 2 **Terms Offered:** FaSpSm Overview of the concepts and procedures for assessment and evaluation of individual and overall performance in various learning environments. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 583 Counseling through the Lifespan**

**Units:** 3 Developmental issues and life events from infancy to old age and their effect upon individuals, couples, and family relationships. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 584 Facilitating Creativity and Innovation in STEM Classrooms**

**Units:** 3 **Terms Offered:** FaSpSm The role of creativity in STEM education. Theories and approaches to facilitating creative and innovative thinking. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 585 Action Research Project**

**Units:** 3 **Terms Offered:** FaSpSm Design and implementation of a STEM-based project. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 586 Design of Learning Environments**

**Units:** 3 **Terms Offered:** FaSpSm Design of learning environments through application of design principles; project-based practice in aligning instructional design, media selection, and the features of learning spaces. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 587 Master’s Studio A**

**Units:** 2 **Terms Offered:** FaSpSm Students propose and design a capstone project that applies knowledge and skills learned throughout the program and prepare a coursework portfolio. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 588 Master’s Studio B**

**Units:** 4 **Terms Offered:** FaSpSm Students implement the capstone project and submit a portfolio that integrates program coursework. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 589 Human Lifespan Development**

**Units:** 3 **Terms Offered:** FaSpSm Fundamentals of human physical, motor, mental, social, and emotional development, spanning the prenatal period through late adulthood. **Duplicates Credit in the former EDPT 520. Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 590 Directed Research**

**Units:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 **Terms Offered:** FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**EDUC 591 Diversity: Power, Equity and Inclusion**

**Units:** 3 **Terms Offered:** FaSpSm Appraises practices that maintain power; creates strategies to empower individuals and marginalized groups by intervening to achieve equitable outcomes in education, professions and communities. **Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 592a Applied Linguistics for TESOL**

**Units:** 3 **Terms Offered:** FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. **Duplicates Credit in the former EDUC 571. Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 592b Applied Linguistics for TESOL**

**Units:** 3 **Terms Offered:** FaSp Exploration of English language systems including words, sounds, sentence structure, and discourse and application of this knowledge to teaching English as second or foreign language. **Duplicates Credit in the former EDUC 571. Instruction Mode:** Lecture **Grading Option:** Letter

**EDUC 593a Master's Seminar**

**Units:** 2 An examination and analysis of research and literature in the student’s area of focus. **Duplicates Credit in former EDCO 593ab. Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**EDUC 593b Master's Seminar**

**Units:** 2 An examination and analysis of research and literature in the student’s area of focus. **Duplicates Credit in former EDCO 593ab. Instruction Mode:** Lecture **Grading Option:** Credit/No Credit
of focus. Duplicates Credit in former EDCO 593ab. Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 594a Master's Thesis
Units: 2 Credit on acceptance of thesis
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
EDUC 594b Master's Thesis
Units: 2 Credit on acceptance of thesis
Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit
EDUC 594z Master's Thesis
Units: 0 Credit on acceptance of thesis
Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit
EDUC 595 Instructional Design
Units: 3 Terms Offered: FaSpSm Formulation and design of effective instruction and analysis of media characteristics and instrumentation requirements. Duplicates Credit in the former EDFT 520. Instruction Mode: Lecture Grading Option: Letter
EDUC 596 English Language Learning Design
Units: 3 Terms Offered: FaSpSm Students collaboratively design and deliver synchronous and asynchronous online language learning opportunities. Students become versatile with adapting content, technical aspects of video-conferencing and interactional dynamics Duplicates Credit in the former EDUC 540a and EDUC 540b Instruction Mode: Lecture Grading Option: Letter
EDUC 599 Special Topics
Units: 1, 2, 3, 4 Max Units: 9.0 Terms Offered: FaSpSm Selected topics in various areas of education. Instruction Mode: Lecture Grading Option: Letter
EDUC 600 Counseling for College and Career Readiness II
Units: 2 Terms Offered: Fa Planning and implementing theoretical foundations of college and career counseling. The application of contextually relevant strategies for assisting in college and career choices. Instruction Mode: Lecture Grading Option: Letter
EDUC 601 Seminar in Social Psychology
Units: 4 Max Units: max 8 Terms Offered: Fa (Enroll in PSYC 512)
EDUC 602 Self-concept and Motivation
Units: 4 (Enroll in PSYC 602)
EDUC 603 Framing Organizational Change and Leadership
Units: 4 Terms Offered: Fa Students identify and research problems of practice particularly pertinent in urban learning. The presentation of problems of practice requires the use of sound evidence-based research. Instruction Mode: Lecture Grading Option: Letter
EDUC 604 National Perspective on School Leadership
Units: 1 Terms Offered: Sm Students will examine the cultural, political, and economic issues pertinent to urban education within the national context to prepare them to be effective school leaders. Instruction Mode: Lecture Grading Option: Letter
EDUC 605 Framing Educational Leadership
Units: 1 Terms Offered: FaSm Critical analysis and creative expression applied to problems of practice. Supported and unsupported assertions. Evidence-based decision-making. The quality of evidence used to support arguments. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit
EDUC 607 Role of School Counselors in Student Learning and Motivation
Units: 3 Terms Offered: FaSpSm The process of identifying and assessing learning and motivational issues in schools, the application of research-based interventions, and the evaluation of effectiveness of these interventions. Instruction Mode: Lecture Grading Option: Letter
EDUC 608 School Connectedness, Climate, and Classroom Management
Units: 2 Terms Offered: Fa Prevention, education, and training for achievement. Data collection for assessment and evaluation of school climate, crisis and classroom management conducive to learning and success. Instruction Mode: Lecture Grading Option: Letter
EDUC 609 Academic Advising in Postsecondary Education
Units: 3 Terms Offered: Fa Contemporary issues in academic advising in postsecondary education. Examines and analyzes relevant theories, policies, and practices related to academic advising. Instruction Mode: Lecture Grading Option: Letter
EDUC 610 Higher Education Administration in China
Units: 3 Terms Offered: Fa Examination of student affairs and higher education administration practices in the People's Republic of China. Course concludes with a trip to China. Instruction Mode: Lecture Grading Option: Letter
EDUC 611 Athletic Administration
Units: 3 Terms Offered: SpS Analysis and discussion of critical issues in intercollegiate athletics. Student-athlete academic and social accountability; challenges of NCAA policies; commercialization, marketing, and fundraising in college athletics. Instruction Mode: Lecture Grading Option: Letter
EDUC 612 Application of Human Development Theory in School Counseling
Units: 3 Terms Offered: FaSpSm A theoretical perspective of human development across the lifespan. Issues and challenges faced by school counselors. Instruction Mode: Lecture Grading Option: Letter
EDUC 613 Gender Issues in Athletic Administration
Units: 3 Terms Offered: Sp Overview of Title IX and gender issues in institutions of higher education and implications for public schools. Instruction Mode: Lecture Grading Option: Letter
EDUC 614 Research and Assessment in Higher Education
Units: 3 Terms Offered: Sm Theory and practice of outcomes assessment, program evaluation, and research design in postsecondary educational administration. Instruction Mode: Lecture Grading Option: Letter
EDUC 615 Ethics in Athletic Administration
Units: 3 Terms Offered: Fa Ethical concerns in intercollegiate athletics. Review, analysis, and discussion of ethical and moral conduct in sports. Relevance of social justice to ethical behaviors. Instruction Mode: Lecture Grading Option: Letter
EDUC 616 Higher Education Capstone
Units: 3 Terms Offered: FaSpSm Capstone seminar course focused on the future of student affairs and higher education. Registration Restriction: Open only to master students in Postsecondary Administration and Student Affairs. Instruction Mode: Lecture Grading Option: Letter
EDUC 617 The Student Athlete in Higher Education
Units: 3 Terms Offered: Fa Examination of student athletes in higher education. Effective strategies for counseling and advising college student athletes; issues and challenges of athletic amateurism. Instruction Mode: Lecture Grading Option: Letter
EDUC 618 School Counseling Professional Portfolio
Units: 2 Terms Offered: Fa Preparation of an electronic resource portfolio that addresses a field based practice. The culminating experience for the M.Ed. School Counseling program. Instruction Mode: Lecture Grading Option: Letter
EDUC 619 Framing Educational Leadership in a Global Context
Units: 4 Terms Offered: Sm Globalization as a distinct phenomenon and the assessment of impact of globalization on educational systems and institutions. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter
EDUC 620 Fundamentals of Creativity, Innovation, and Entrepreneurship
Units: 3 Terms Offered: Sm The genesis and facilitation of creative ideas in educational practice. The transformation of creativity into innovation and entrepreneurship. Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter
EDUC 621 Measurement and Evaluation for School Counselors
Units: 3 Terms Offered: Fa The use of formal and informal assessments to improve student achievement and well-being. Use of assessment data for intervention and evaluation. Instruction Mode: Lecture Grading Option: Letter
EDUC 622 Educational Theory and Instructional Design
Units: 2 Terms Offered: Fa Theories and elements of learning. Application in educational settings. Methodology for course development and evaluation. Emphasis on strategies, tools, and use of technology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as DHYG-513
EDUC 623 Understanding Research That Informs Leadership
Units: 3 Terms Offered: Fa Understanding, interpreting, and applying education research. Open only to doctoral students. Registration Restriction: Open only to
doctoral students. Instruction Mode: Lecture
Grading Option: Letter

EDUC 624 Educational Organizations: Governance and Finance I
Units: 2
Term Offered: Fa
Prerequisite: EDUC 561
Registration Restriction: Non-Credit
Plan and assessment of competence
Terms Offered: Open only to students admitted to the Ph.D. only. Instruction Mode: Lecture
Grading Option: Letter

EDUC 625a Induction Plan and Assessment of Candidate Competence
Units: 1
Term Offered: Fa
Prerequisite: In former EDUC 595
Instruction Mode: Lecture
Grading Option: Credit/No Credit

EDUC 625b Induction Plan and Assessment of Candidate Competence
Units: 1
Term Offered: Fa
Prerequisite: In former EDUC 595
Instruction Mode: Lecture
Grading Option: Credit/No Credit

EDUC 626 Fostering Entrepreneurship in Educational Systems
Units: 2
Term Offered: Fa
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter

EDUC 627 Education Performance Problems: Role of Learning
Units: 3
Term Offered: Sp
Prerequisite: EDUC 500, EDUC 507, EDCO 541
Instruction Mode: Lecture
Grading Option: Letter

EDUC 630 Organizations and Policy: Current Issues
Units: 4
Term Offered: Fa
Prerequisite: In former EDCO 554
Instruction Mode: Lecture
Grading Option: Letter

EDUC 631 Locating Educational Performance Problems
Units: 3
Term Offered: Sp
Prerequisite: EDUC 500, EDUC 507, EDCO 541
Instruction Mode: Lecture
Grading Option: Letter

EDUC 632 Technology in Higher Education
Units: 2
Term Offered: Sm
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter

EDUC 633 Child and Elder Abuse and Domestic Violence
Units: 2
Prerequisite: In former EDUC 646b
Instruction Mode: Lecture
Grading Option: Letter

EDUC 634 Couples Counseling
Units: 3
Prerequisite: In former EDUC 646b
Instruction Mode: Lecture
Grading Option: Letter

EDUC 635 Psychotherapy with Children and Adolescents
Units: 3
Prerequisite: In former EDCO 554
Instruction Mode: Lecture
Grading Option: Letter

EDUC 636 Perspectives on Human Sexuality
Units: 3
Prerequisite: In former EDCO 554
Instruction Mode: Lecture
Grading Option: Letter

EDUC 637 Group Counseling: Theory and Process
Units: 3
Prerequisite: In former EDCO 554
Instruction Mode: Lecture
Grading Option: Letter

EDUC 638 Multicultural Counseling: Research and Practice
Units: 3
Prerequisite: In former EDCO 554
Instruction Mode: Lecture
Grading Option: Letter

EDUC 639 Approaches and Strategies for Language Teaching
Units: 4
Prerequisite: In former EDCO 554
Instruction Mode: Lecture
Grading Option: Letter

EDUC 640 The Research University in the 21st Century
Units: 3
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter

EDUC 641 Human Capital and School Organization
Units: 3
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter

EDUC 642 Controversies in Learning and Instruction
Units: 4
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter

EDUC 645a Fieldwork in Counseling
Units: 3
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Credit/No Credit

EDUC 645b Fieldwork in Counseling
Units: 3
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Credit/No Credit

EDUC 646 Marriage and Family Therapy Capstone: Leadership Project
Units: 2
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter

EDUC 647 School Leadership Seminar
Units: 2
Prerequisite: In former EDCO 551
Instruction Mode: Lecture
Grading Option: Letter
**EDUC 648a Apprenticeship in School Administration and Leadership**

Units: 2

Terms Offered: FaSp Supervised field experience in administrative areas of K-12 schools. Development of Administrative Services Portfolio. Instruction Mode: Lecture Grading Option: Letter

**EDUC 648b Apprenticeship in School Administration and Leadership**

Units: 2

Terms Offered: FaSp Supervised field experience in administrative areas of K-12 schools. Development of Administrative Services Portfolio. Instruction Mode: Lecture Grading Option: Letter

**EDUC 649 Teaching Practice to Support Language Learners**

Units: 4

Terms Offered: FaSp Introduces components of effective teaching, including lesson and unit planning, creating a classroom environment conducive to learning, and classroom management strategies. Duplicates Credit in EDUC 562. Instruction Mode: Lecture Grading Option: Letter

**EDUC 650 Ways of Seeing: Applying Social Science and Critical Theories to Education**

Units: 4

Terms Offered: FaSp Examines the intersections of inequality and education, focusing on how each disciplinary perspective outlines a logic for change. Registration Restriction: Open only to Urban Education Policy majors. Instruction Mode: Lecture Grading Option: Letter

**EDUC 651 Introduction to Qualitative Research Methods**

Units: 3

Terms Offered: FaSpSm Introduces qualitative methodologies, qualitative data collection and analysis techniques, support in drafting research proposals, and paradigms on how to critically think about inquiry. Instruction Mode: Lecture Grading Option: Letter

**EDUC 652 Inquiry Methods III**

Units: 3

Terms Offered: FaSpSm Logic and methods of qualitative data analysis in the examination of educational issues and the framing of solutions for them. Prerequisite: EDUC 532 and EDUC 536. Registration Restriction: Open only to Organizational Change and Leadership students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 653 Advanced Qualitative Research**

Units: 3

Terms Offered: Sp Interactive seminar that explores the theoretical underpinnings and practicalities of interviews, portraiture, focus groups, life histories, and cultural biographies. Recommended Preparation: introductory statistics. Instruction Mode: Lecture Grading Option: Letter

**EDUC 654 Advanced Qualitative Research Methods II**

Units: 3

Terms Offered: FaSpSm Designed to follow Advanced Qualitative Research, focuses on data analysis in the qualitative research tradition, writing and publishing from qualitative data. Instruction Mode: Lecture Grading Option: Letter

**EDUC 655 Social Foundations of Language Education**

Units: 4

Terms Offered: FaSp Candidates engage in systematic study of the social aspects of language learning and their significance for structuring learning opportunities for diverse students in language classrooms. Duplicates Credit in former EDUC 565a and former EDUC 565b. Instruction Mode: Lecture Grading Option: Letter

**EDUC 656 Applied Linguistics for English Language Educators**

Units: 3

Terms Offered: FaSp Introduction to systems of English language and language in use. Contrasts systems of English to other languages to identify issues of intercultural language teachers. Duplicates Credit in EDUC 592a, EDUC 592b, the former EDUC 571 Instruction Mode: Lecture Grading Option: Letter

**EDUC 657 Social Foundations of Research**

Units: 3

Terms Offered: Fa Foundations in social science research with exposure to broad cross-section of research methods, design, and analytical techniques. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 658 Hierarchical Linear Models**

Units: 3

Terms Offered: Fa Application of two- and three-level multilevel models in educational settings, fixed and random effects, growth models. Recommended Preparation: a working understanding and knowledge of regression analysis and related Stata software. Instruction Mode: Lecture Grading Option: Letter

**EDUC 659 Introduction to Causal Inference in Educational Settings**

Units: 3

Terms Offered: Sm An introduction to quasi- and non-experimental methods researchers use to strengthen causal linkages between educational policies and reforms, and student, teacher, and other outcomes. Recommended Preparation: EDUC 658 Instruction Mode: Lecture Grading Option: Letter

**EDUC 660a Clinical Practice Seminar in Language Teaching**

Units: 2

First of two-course series focused on helping students translate theory to practice. Designed for students completing fieldwork required for the teaching credential. Recommended Preparation: Completion of CTC basic skills and subject matter competency test required to begin student teaching. Instruction Mode: Lecture Grading Option: Letter

**EDUC 660b Clinical Practice Seminar in Language Teaching**

Units: 2

Terms Offered: FaSp Second of two-course series focused on helping students translate theory to practice. Part B also facilitates preparation for and submission of the EdTPA. Prerequisite: EDUC 660a Instruction Mode: Lecture Grading Option: Letter

**EDUC 661 Equity in College and Career Access**

Units: 3

Terms Offered: Fa Focus on College and Career readiness using an equity lens with a foundation in the relevant theories, conceptual frameworks and issues. Recommended Preparation: EDUC 609 Registration Restriction: Open only to EDCN and MFTH students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 670 Introduction to Curriculum and Pedagogy in Urban Schools**

Units: 4

General introduction to curriculum and instruction (pedagogy) affecting teaching and learning across disciplines, grade levels, and different social contexts of schooling. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 671 Contexts for Educational Equity, Access, and Agency**

Units: 3

Terms Offered: FaSpSm Examines how environmental, pedagogical, and curricular choices can be cultivated with greater knowledge of culture, gender, orientation, race, learning differences and language. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 672 Integrated Language Development Across the Curriculum**

Units: 3

Understanding of language development and the connection between language and learning in school, across all curricular areas. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 673 Applications of Curriculum and Pedagogy, Part A**

Units: 4

Candidates apply content-area knowledge utilizing a repertoire of pedagogical practices responsive to the needs and interests of diverse learners. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**EDUC 674 Identifying and Teaching to Student Differences**

Units: 3

Building on EDUC 671, course proceeds with greater focus on learner behavior, ability, and language to access strategies to differentiate, scaffold, and assess learning. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 675 Literacy Development and Instruction in Elementary Education**

Units: 3

Literacy development and instruction, with a focus on the importance of literacy for academic success and civic participation. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 676 Literacy Development and Instruction in Secondary Education**

Units: 3

Prepares prospective secondary teachers to integrate literacy instruction within their content area by creating authentic opportunities for learners to develop literacy skills. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Letter

**EDUC 677 Applications of Curriculum and Pedagogy, Part B**

Units: 4

Max Units: 0

Terms Offered: FaSpSm Building on EDUC 673, prepares candidates to apply curricular principles to lesson development and determine how content should be delivered to maximize learning. Registration Restriction: Open only to MAT students. Instruction Mode: Lecture Grading Option: Credit/No Credit

**EDUC 678 Applying Knowledge and Strategies for Teaching All Students**

Units: 2

Building on EDUC 673, prepares
candiates to apply curricular principals to lesson development and determine how content should be delivered to maximize learning.

EDUC 679 Blended Learning Experiences for Students in Urban Schools
Units: 4 Terms Offered: FaSpSm Development of urban education through the social, historical and political lens as it shapes and influences education research and policy.
Instruction Mode: Lecture Grading Option: Letter

EDUC 680 Critical Research and Reflection in Urban Education
Units: 4 Terms Offered: FaSpSm Using the inquiry as stance research process and critical self-reflection, conduct research to understand the factors for effective teaching and learning in urban education contexts.
Prerequisite: EDUC 670 and EDUC 671 and EDUC 672 and EDUC 674 and (EDUC 675 or EDUC 676) Registration Restriction: Open only to students in the MAT Program Instruction Mode: Lecture Grading Option: Letter

EDUC 681 Research, Policy and Practice in Urban Education
Units: 4 Terms Offered: FaSpSm Development of urban education within the context of history, social class, professional practice, and the interplay of institutions and society.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 682 Introduction to Quantitative Research Methods in Education
Units: 3 Terms Offered: FaSpSm Basic concepts of quantitative/statistical methods common in education research, emphasizing applications with data. Introduces sampling, types of validity, statistical inference, bivariate analysis, internal/external validity.
Instruction Mode: Lecture Grading Option: Letter

EDUC 683 Proseminar in Urban Education
Units: 3 Max Units: 0 Terms Offered: FaSpSm An introduction to faculty and their research; provides professional development on a variety of topics.
Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 684 Responding to Gifted Students
Units: 4 Terms Offered: FaSpSm Addresses the political, social, economic, and educational factors that deter or enhance the identification and education of diverse PreK-12 gifted students.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 687 Capstone Seminar
Units: 3 Terms Offered: Fa Synthesize institutional, public and non-public sources of data to write and orally present an enrollment management plan for both campus and external stakeholders.
Registration Restriction: Open only to Enrollment Management and Policy students Instruction Mode: Lecture Grading Option: Letter

EDUC 688 Institutions, Organizations, and Equity in Education
Units: 3 Terms Offered: Sp Examine how sociologists and organizational theorists conceptualize institutions, stasis, and change. Learn to apply these perspectives to pressing issues of educational equity.
Instruction Mode: Lecture Grading Option: Letter

EDUC 689 Fiscal Support and Expenditure in Higher Education
Units: 3 Terms Offered: Sp Analyses of private and public financial support and expenditure patterns; includes recent trends in state and federal legislation related to higher education.
Instruction Mode: Lecture Grading Option: Letter

EDUC 690 Framing and Enrollment Management
Units: 3 Terms Offered: Sm Identify and research enrollment management practices while developing academic literacy skills. Students will understand roles and responsibilities in Enrollment Management.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 691 Admission Policy and Practice
Units: 3 Terms Offered: Fa Examines admission policy within the contexts of history, social class, professional practice, and the interplay of institutions and society.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 692 Role of Diversity in Admissions
Units: 3 Terms Offered: Fa Addresses college access, the manifestations of diversity through the admission process, and a primer on the role of identities, demographics, and intersectionality within them.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 693 Institutional Positioning in Student Recruitment
Units: 3 Terms Offered: Sm Explores market research, demand, pricing, value, segmentation, positioning, consumer-centric communication, and the characteristics of a market-oriented enrollment management unit.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 694 Legal Issues in Enrollment Management
Units: 3 Terms Offered: Sp Examines legal issues in enrollment management and addresses the intersection of law and policy, including implications for decision-making by higher education officials.
Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 695 Organizations and Leadership in Education
Units: 3 Terms Offered: Sm Emphasizes models of educational organizations and how they are influenced by the contexts and problems they experience, with emphasis on leadership, change management, and governance.
Registration Restriction: Open only to Enrollment Management and Policy Instruction Mode: Lecture Grading Option: Letter

EDUC 696 Financial Aid in Enrollment Management
Units: 3 Terms Offered: Sp Examines institutional budgets, the role of tuition, influences on the price of higher education, and the purpose and processes of applying for and packaging financial aid.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 697 Research, Planning, and Accountability
Units: 3 Terms Offered: Fa Develop a research perspective related to understanding and solving complex problems and strategic planning in enrollment management.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 698 Enhancing Student Retention
Units: 3 Terms Offered: Fa Examines how student characteristics are associated with persistence and graduation, how rates vary with institutional type, and the institutional role in student success.
Registration Restriction: Open only to Enrollment Management and Policy majors Instruction Mode: Lecture Grading Option: Letter

EDUC 700 Research and Practice in the Preparation of Teachers
Units: 3 Research on the preparation of teachers for diverse populations.
Existing practices in teacher education from multiple perspectives.
Instruction Mode: Lecture Grading Option: Letter

EDUC 701 Pedagogy in Teacher Education
Units: 3 A critical examination of pedagogical practices in teacher education. The design of pedagogical approaches and programs for diverse and underserved students in urban schools.
Instruction Mode: Lecture Grading Option: Letter

EDUC 702 Curriculum, Teacher Preparation, and Student Learning
Units: 3 The process and role of curriculum in a variety of urban settings, teacher preparation, and professional growth.
The philosophical and psychological foundations of curriculum development. Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter

EDUC 703 Examining Literacy Theories and Practice
Units: 3 Literacy theories as practiced in urban, teacher education and professional development settings using an inquiry approach to examine best practice.
Open only to doctoral students.
Instruction Mode: Lecture Grading Option: Letter

EDUC 704 Evaluation and Assessment in Teacher Education
Units: 3 Terms Offered: Fa Evaluation and assessment in the context of public schools, teacher preparation and professional growth in urban settings. Policy implications of data-based decision making and program implementation.
Instruction Mode: Lecture Grading Option: Letter
EDUC 705 Survey Design and Analysis
Units: 3
Terms Offered: Fa, Sp, Sm
Description: Design, collection, and analysis of survey data; survey analysis techniques including classical test theory, item response theory, differential item functioning, scaling, linking.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 706 Proseminar in Higher Education
Units: 3
Terms Offered: Fa, Sp, Sm
Description: Critical issues in urban higher education from historical and philosophical perspectives.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 707 Administration in Higher Education
Units: 3
Terms Offered: Fa
Instruction Mode: Lecture
Grading Option: Letter

EDUC 708 Advanced Student Development Theory
Units: 3
Terms Offered: Fa
Description: Examination of traditional and emergent student development theories.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 709 Finance in Higher Education
Units: 3
Terms Offered: Fa
Description: Financial aspects of higher education. Economic and policy environments and their effect on institutional policies and practices.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 710 Assessment, Organizational Learning and Performance
Units: 3
Terms Offered: Fa
Description: The role of assessment in higher education. Analysis of the purpose and value of particular assessment approaches and instruments, in particular those addressing classroom learning and institutional effectiveness.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 711 Social Factors Influencing Learning and Motivation
Units: 3
Terms Offered: Fa
Description: Social psychological principles and research techniques applied to educational problems; school environment, group behavior, teacher effectiveness, teacher-student interaction, behavioral change.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 712 Advanced Study of Motivation: Theory, Research and Application
Units: 3
Terms Offered: Fa
Description: Analysis of motivational principles; diagnosis and solutions to motivation gaps in learning environments; and motivation and efficacy theories and principles.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 713 Human Lifespan Development
Units: 3
Terms Offered: Fa, Sp, Sm
Description: An examination of issues related to the development of diverse students and the development of environments that promote motivated behavior.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 714 Measurement and Evaluation for Decision-Making
Units: 3
Terms Offered: Sm
Description: Collecting, analyzing, and using quantitative data to solve problems of practice and in evaluating educational institutions, programs, and policies. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 715 Current Research in Learning Units: 3
Terms Offered: Fa
Description: Research in the application of learning theories, and the applicability of this research across a variety of contexts.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 716 Instructional Leadership Units: 3
Terms Offered: Sm
Description: Instructional leaders in improving student performance; current issues in curriculum design and implementation; and effective instructional leadership approaches for school improvement. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 717 Resourcing Schools for Equity and Excellence Units: 3
Terms Offered: Fa
Description: Applying economic theory to the study of education. Application of market theory to education, partnerships, allocation of resources and the examination of educational enterprises.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 718 Maximizing Human Resources in Education Units: 3
Terms Offered: Sm
Description: Strategically understanding the management of human capital to ensure high student performance. How to attract and retain top quality teachers. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 719 Education Policy and Politics Units: 3
Terms Offered: Fa
Description: Major issues facing education in the 21st century. Focus on incentives for schools to improve student learning. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 720 Leadership for Principals Units: 3
Terms Offered: Sm
Description: The role of the principal as an instructional leader with a focus on improving student achievement. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 721 Seminar in the Superintendency Units: 3
Terms Offered: Sm
Description: The role of the superintendent in establishing a focus on student achievement, and holding school sites accountable. How superintendents support student learning through leadership.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 722 Evaluating and Assessing Educational System Outcomes Units: 3
Terms Offered: Sm
Description: Evaluating impact. Examination of key assessment theories; planning and implementation of learning and program effectiveness.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 723 Using Communication to Facilitate Organizational Change Units: 2, 3
Terms Offered: Fa, Sp, Sm
Description: Addresses communication strategies that leaders use to facilitate positive change in their organization. Reinforces written, non-verbal, and verbal communication skills through leadership situations.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 724 Creating Policy Alternatives for Educational Settings Units: 3
Terms Offered: Fa
Description: Models of decision making including cost-benefit analysis, risk-benefit analysis, and decision analysis. Ethical considerations and the political environment. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 725 Analyzing Organizational Change and its Effectiveness Units: 3
Terms Offered: Fa
Description: Designed to help leaders apply research about learning and motivation to the strengthening of organizational performance in organizations around the world.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 726 Making Choices: Deciding Among Policy Alternatives Units: 3
Terms Offered: Sp
Description: Models of decision making including cost-benefit analysis, risk-benefit analysis, and decision analysis.Ethical considerations and the political environment. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 727 Implementing Policy in Educational Systems Units: 3
Terms Offered: Fa
Description: Examining the role of policy implementation in educational settings. Focus on incentives for schools to improve student learning. Open only to doctoral students.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 728 Global Trends: Emerging Ideas, Emerging Markets Units: 3
Terms Offered: Sp
Description: Examination of a range of emerging markets in education. Global efforts of institutions of higher education to access new markets through collaborations and offshore endeavors.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 729 Assessing Policy Impact in Educational Settings Units: 3
Terms Offered: Sp
Description: Theory and practice of educational policy evaluation. Limits of rationality and the political forces that shape policy. Preparation of an evaluation design.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 730 Using Communication to Facilitate Organizational Change Units: 2, 3
Terms Offered: Fa, Sp, Sm
Description: Addresses communication strategies that leaders use to facilitate positive change in their organization. Reinforces written, non-verbal, and verbal communication skills through leadership situations.
Instruction Mode: Lecture
Grading Option: Letter

EDUC 731 Economics of Organizational Change and Learning Environments Units: 3
Terms Offered: Fa
Description: Leadership, problem solving, communication, research, reflection, and
professional dispositions will concurrently expand. Candidates will acquire the knowledge and skills to identify and implement economic change. Instruction Mode: Lecture Grading Option: Letter

EDUC 732 Building Capacity for Organizational Change
Units: 3 Terms Offered: FaSpSm Focuses on learning issues related to building organizational capacity for change through leadership and development of personnel within an organization. Instruction Mode: Lecture Grading Option: Letter

EDUC 733 Analyzing Data and Identifying Solutions
Units: 3 Terms Offered: Sp Designed to help students interpret study data and construct evidence-based solutions for real-time organizational problems of practice. Prerequisite: EDUC 629 Registration Restriction: Open only to USC Rossier School of Education students Duplicates Credit in EDUC 725 Instruction Mode: Lecture Grading Option: Letter

EDUC 764a Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. Prerequisite: EDUC 629 Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764b Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. Prerequisite: EDUC 629 Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764c Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. Prerequisite: EDUC 629 Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 764d Dissertation in Practice
Units: 1 Terms Offered: FaSpSm Credit on acceptance of Dissertation in Practice. Prerequisite: EDUC 629 Registration Restriction: Open only to Rossier School of Education Global Executive and Organizational Change and Leadership doctoral students Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

EDUC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 791 Proposal for Doctoral Dissertation
Units: 1 Terms Offered: FaSpSm Preparation of initial dissertation proposal. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 792 Critique of Research in Education
Units: 3 Terms Offered: FaSpSm credit and critical analysis of selected research and literature. Open to students admitted to the EdD only. Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EDUC 794c Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Education Expanded
EDUE 560 Identity and Diversity
Units: 3 Explore the historical and contemporary foundations of hierarchies and relationships of power, sociocultural diversity of experiences and sociopolitical resistance within higher education. Registration Restriction: Open only to Postsecondary Administration and Student Affairs majors Duplicates Credit in EDHP 552 Instruction Mode: Lecture Grading Option: Letter

EDUE 563 History of Higher Education
Units: 3 Terms Offered: Fa Examination of roles and functions of higher education from historical and contemporary perspectives, with a focus on equity and urban education. Registration Restriction: Open only to USC Rossier School of Education PASA students Duplicates Credit in EDHP 500 and EDUC 508 Instruction Mode: Lecture Grading Option: Letter

EDUE 571 Research Methods and Applied Educational Ethnography
Units: 3 Terms Offered: Sp Explores the use of quantitative descriptive and mixed methods research to explore problems/ opportunities of practice in higher education. Registration Restriction: Open only to Postsecondary Administration and Student Affairs majors Duplicates Credit in EDHP 551 and EDUC 570 Instruction Mode: Lecture Grading Option: Letter

EDUE 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 700 Foundations in Urban Education
Units: 3 Terms Offered: Fa Explores urban P-20 education through social, historical, and political lenses and how research and policy shape professional practice in Los Angeles and the United States. Instruction Mode: Lecture Grading Option: Letter

EDUE 701 Foundations in Leadership in Education
Units: 3 Terms Offered: Fa Provides foundational knowledge about leadership theory and practice to support students' development as critically conscious leaders who take action to address inequities in urban contexts. Concurrent Enrollment: EDUE 700 Duplicates Credit in EDUC 524 Instruction Mode: Lecture Grading Option: Letter

EDUE 702 Foundations in Learning
Units: 3 Terms Offered: Sp Supports the development of critically conscious leaders who facilitate learning in urban contexts by understanding how culture, identity and power influence learners' opportunities to learn. Prerequisite: EDUE 700 and EDUE 701 Duplicates Credit in EDUC 525 Instruction Mode: Lecture Grading Option: Letter

EDUE 703 Power, Diversity and Equity
Units: 3 Terms Offered: Sp Explores power, diversity and equity through the social, historical, and political lenses as these constructs shape and impact education (P-20) research, policy and professional practice. Prerequisite: EDUE 700 Duplicates Credit in EDUC 523 Instruction Mode: Lecture Grading Option: Letter

EDUE 704 Leadership Enactment
Units: 3 Terms Offered: Sm Provides students with the opportunity to acquire or deepen knowledge and skills related to acting as a critically conscious leaders who address existing educational inequities. Prerequisite: EDUE 700 and EDUE 701 Instruction Mode: Lecture Grading Option: Letter

EDUE 705 Communicating as Leaders
Units: 3 Terms Offered: Fa Develops critically conscious leaders' ability to communicate effectively and in innovative ways with multiple audiences in multiple formats including scholarly, internal and external communications. Prerequisite: EDUE 700 and EDUE 701 and EDUE 703 and EDUE 704 Instruction Mode: Lecture Grading Option: Letter

EDUE 718 Leading for Instructional Improvement
Units: 3 Terms Offered: Sm Improves K-12 practitioners' instructional leadership capacity, addressing power and its impact on creating and perpetuating educational
inequities for historically marginalized and minorityed children and adults. Instruction Mode: Lecture Grading Option: Letter

EDUE 722 Leading Transformational Learning
Units: 3 Terms Offered: Sm Explores the macro context of policies, structures and procedures that affect those who are responsible for the education of teachers in K-12 and higher education. Prerequisite: EDUE 700 and EDUE 702 Registration Restriction: Open only to Educational Leadership Doctoral Students in Rossier Instruction Mode: Lecture Grading Option: Letter

EDUE 723 Curriculum and Instructional Leadership
Units: 3 Terms Offered: Fa Social, political, economic and scholarly factors determining curriculum and instructional design and implementation and implications for formal and informal leaders in P-20 contexts are explored. Prerequisite: EDUE 722 Instruction Mode: Lecture Grading Option: Letter

EDUE 724 Culturally Responsive Educational Leadership
Units: 3 Terms Offered: Sm Prepares education leaders to enact culturally responsive change in order to transform teaching, learning, and educational practices in their urban professional context. Prerequisite: EDUE 723 Instruction Mode: Lecture Grading Option: Letter

EDUE 725 Inter-Disciplinary Curriculum, Instruction and Assessment P-20
Units: 3 Terms Offered: FaSpSm Educational leaders utilize spatial data and technologies to study their leadership trajectories across urban P-20 settings and bring inter-disciplinary approaches to curriculum, instruction, and assessment. Prerequisite: EDUE 724 Instruction Mode: Lecture Grading Option: Letter

EDUE 726 Research Methods 1
Units: 3 Terms Offered: Fa Explores the historically complex relationship between education research, education (in)equity and social justice; and highlights the possibilities of research to foster justice in education. Instruction Mode: Lecture Grading Option: Letter

EDUE 727 Research Methods 2
Units: 3 Terms Offered: Sp Building on Research Methods 1, students learn to implement a research design by conducting pilot studies to answer quantitative and qualitative research questions. Prerequisite: EDUE 726 Instruction Mode: Lecture Grading Option: Letter

EDUE 780a Dissertations in Practice
Units: 3 Terms Offered: Sp Supports students to prepare a literature review, overview of methodology and other contextual writing for their dissertations in practice and prepare for the qualifying exam. Prerequisite: EDUE 726 and EDUE 727 Duplicates Credit in EDUC 792 Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 780b Dissertation in Practice
Units: 2 Terms Offered: Sm Builds on EDUE 780a as students finalize their literature reviews, overview of methodology and other contextual writing for the dissertation in practice and qualifying exam. Prerequisite: EDUE 726 and EDUE 727 and EDUE 780a Duplicates Credit in EDUC 794a and EDUC 794b Instruction Mode: Lecture Grading Option: Credit/No Credit

EDUE 784a Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students’ knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. Prerequisite: EDUE 726 and EDUE 727 and EDUE 780a and EDUE 780b Instruction Mode: Lecture Grading Option: In Progress and Credit/ No Credit

EDUE 784b Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students’ knowledge and skills for analyzing quantitative and qualitative data and data and reporting results and findings for their Dissertations in Practice. Prerequisite: EDUE 780a and EDUE 780b and EDUE 784a Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784c Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students’ knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. Prerequisite: EDUE 780a and EDUE 780b and EDUE 784a Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EDUE 784d Dissertation in Practice, Data Analysis
Units: 2 Terms Offered: FaSpSm Builds students’ knowledge and skills for analyzing quantitative and qualitative data and reporting results and findings for their Dissertations in Practice. Prerequisite: EDUE 780a and EDUE 780b and EDUE 784d Instruction Mode: Lecture Grading Option: In Progress and Credit/No Credit

EE 101 Introduction to Digital Logic
Units: 4 Terms Offered: Fa Introduction to digital logic. Design of combinational and sequential circuits; state machine design. Prerequisite: PHYS 152L, MATH 126

EE 103L Introduction to Embedded Systems
Units: 4 Terms Offered: Fa Information representations, embedded programming, digital and serial I/O, analog-to-digital conversion, and interrupt mechanisms. Elementary analog, logic, and state-machine design. Corequisite: EE 155L or CSCI 103L Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 114L Applied Linear Algebra for Engineering
Units: 4 Introduction to linear algebra with engineering applications. Weekly laboratory exercises using MATLAB. Prerequisite: Calculus Credit in former EE 241 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 155L Introduction to Computer Programming for Electrical Engineers
Units: 4 Terms Offered: Fa Introduction to solving engineering problems using computational methods. Survey of various programming languages and their strengths and weaknesses. Program structure, input/ output, conditional loops, functions, arrays. Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 202L Linear Circuits
Units: 4 Lumped circuit elements; network equations; zero-input and zero-state responses; sinusoidal steady-state analysis; impedances; resonance; network functions; power concepts; transformers; Laplace transforms. Corequisite: MATH 245 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 250L Distributed Systems for the Internet of Things
Units: 4 Introduction to hardware, operating systems, signal processing and control, network protocols, mobile applications, databases, cloud computing, machine learning and security for the Internet of Things. Prerequisite: EE 109L and (EE 155L or CSCI 103L) Recommended Preparation: Experience with DIY electronics, Linux and programming in a distributed, networked environment Registration Restriction: Open only to students with at least a sophomore standing Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 301L Linear Systems
Units: 4 Terms Offered: FaSp Representation and analysis of linear time-invariant systems primarily for the continuous time case. Convolution, Fourier series and transform, Laplace transform, controls and communications applications. Prerequisite: EE 141L and EE 202L Instruction Mode: Lecture, Lab Grading Option: Letter

EE 322 Introduction to Digital Audio
Units: 3 Terms Offered: Fa Fundamentals of sound, acoustics and digital audio signal processing. Instruction Mode: Lecture Grading Option: Letter

EE 326lx Essentials of Electrical Engineering
Units: 4 Network analysis and theorems; transient analysis; transmission lines; semiconductor physics and circuits; power amplifiers, modulation and demodulation, and pulse, digital, and switching circuits. Introduction to instrumentation. Prerequisite: PHYS 152L, MATH 126
Instruction Mode: Lecture, Lab Required
Grading Option: Letter
EE 330 Electromagnetics I
Units: 3 Terms Offered: FaSp Basic
static and dynamic electromagnetic field
theory and applications: electrostatics,
magnetostatics, Maxwell’s equations,
energy flow, plane waves incident on
planar boundaries, transmission lines.
Prerequisite: EE 202L, MATH 445, PHYS 152L. Instruction Mode: Lecture, Discussion
Grading Option: Letter
EE 337L Engineering Nano-Systems
Units: 3 Terms Offered: Sp Methods to
teach and exploit the phenomena of
nanoscience, and the integration of nano-
technology into systems. Development
of fundamental concepts through a series
of experimental modules. Prerequisite: PHYS 152. Duplicates Credit in former EE 238L.
Instruction Mode: Lecture, Lab Grading
Option: Letter
EE 338 Physical Electronics
Units: 4 Semiconductor device
classifications and applications. Physical
models of electronic conduction in solids,
p-n junctions, bipolar and field effect
transistors and other solid-state devices.
Prerequisite: EE 202L and PHYS 152L
Instruction Mode: Lecture, Discussion
Grading Option: Letter
EE 348L Electronic Circuits
Units: 4 Terms Offered: FaSp Basic
analog and digital circuit design using
Bipolar Junction Transistors, Field Effect
Transistors and integrated circuits.
Corequisite: EE 338. Instruction Mode: Lecture, Lab
Grading Option: Letter
EE 352L Computer Organization and
Architecture
Units: 3 Computer organization and
architecture. Concepts include: computer
evolution and performance, system busses,
cache memory, internal and external
memory, input/output, operating system
support, computer arithmetic. Prerequisite:
CSCI 104. Instruction Mode: Lecture, Lab
Grading Option: Letter
EE 354L Introduction to Digital Circuits
Units: 4 Digital system design and
implementation: synchronous design
of datapath and control; schematic/
Verilog-based design, simulation, and
implementation in Field Programmable
Gate Arrays; timing analysis; semester-end
project. Prerequisite: EE 109L Duplicates
Credit in former EE 254 Instruction Mode: Lecture, Lab
Grading Option: Letter
EE 355x Software Design for Electrical
Engineers
Units: 4 Object-oriented programming
techniques, basic data structures, and
elementary complexity analysis for the
modeling, simulation, and solution of
engineering problems. Prerequisite: EE 155L Credit Restriction: Not available for
credit for CSCI, CSGM, CSBA, or CECS
majors Duplicates Credit in former CSCI
355x Instruction Mode: Lecture, Lab
Grading Option: Letter
EE 364 Introduction to Probability and
Statistics for Electrical Engineering and
Computer Science
Units: 4 Terms Offered: FaSp Introduction
to concepts of randomness and uncertainty:
probability, random variables, statistics.
Applications to digital communications,
signal processing, automatic control,
computer engineering and computer
science. Prerequisite: MATH 225 or MATH
245 Instruction Mode: Lecture, Discussion
Grading Option: Letter
EE 370 Electromagnetics for
Engineering Systems
Units: 4 Electromagnetic plane-wave
propagation and interactions with simple
media, transmission/reception of wireless
signals in complex environments.
Optimization design methods for system
applications. Prerequisite: PHYS 172L or
PHYS 162L Instruction Mode: Lecture, Discussion, Lab Grading
Option: Letter
EE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual
studies. No more than one registration
permitted. Enrollment by petition only.
Instruction Mode: Lecture Grading Option:
Letter
EE 415 Introduction to MEMS
Units: 3 (Enroll in AME 455)
EE 422x Electromagnetic Systems
Design
Units: 3 Terms Offered: FaSp Applied
electromagnetics for large- and small-
scale electromechanical systems.
Comprehensive design project. Capstone
design experience. Prerequisite: EE 330.
Instruction Mode: Lecture Grading Option:
Letter
EE 434Lx Digital Signal Processing
Design Laboratory
Units: 4 Experiments and design project
in digital signal processing (e.g., real-time
DSP, acoustics, video) including: systems
specification, preliminary analysis, trade-off
studies, implementation, presentation.
Capstone design experience. Prerequisite:
EE 483. Instruction Mode: Lecture, Lab
Grading Option: Letter
EE 436 Introduction to Condensed
Matter Physics
Units: 4 Terms Offered: Irregular, Sp (Enroll
in PHYS 440)
EE 439 Principles of Semiconductor
Processing
Units: 3 (Enroll in MASC 439)
EE 443 Introduction to Power Systems
Units: 4 Components of power systems;
analysis techniques in electrical power
generation transmission and utilization;
and environmental and economic
considerations in system operations and
planning. Prerequisite: EE 370 Instruction
Mode: Lecture Grading Option: Letter
EE 444 Power Systems Technology
Units: 4 Terms Offered: Fa Comprehensive
assessment of the technical, environmental,
and regulatory changes that affect the
future delivery and utilization of electric
power. Case-study analysis. Prerequisite:
EE 202L Instruction Mode: Lecture Grading
Option: Letter
EE 445 Introduction to Robotics
Units: 4 (Enroll in CSCI 445)
EE 447Lx Mixed Signal Electronic
Circuits
Units: 4 Application of solid-state
electronic devices to the design of linear
mixed-signal systems. Laboratory
experiments and projects involving the
design of electronic hardware. Capstone
design experience. Prerequisite: EE 348.
Instruction Mode: Lecture, Lab Required
Grading Option: Letter
EE 448L Communication Electronics
Units: 4 Terms Offered: FaSp Analysis,
design, and experimental evaluation of
transistor-level communication circuits
and micro-systems. Transmission lines,
impedance matching, noise, distortion,
tuned amplifiers, mixers, oscillators,
phase-locked loops. Prerequisite: EE 348.
Instruction Mode: Lecture, Lab Required
Grading Option: Letter
EE 450 Introduction to Computer
Networks
Units: 4 Terms Offered: FaSpSm Network
architectures; layered protocols, network
service interface; local, wide area, wireless
networks; Internet protocols; link protocols;
addressing; routing; flow control; software
defined network; multimedia networks.
Registration Restriction: Open only to
junior, senior and graduate students.
Duplicates Credit in CSCI 353 Instruction
Mode: Lecture, Discussion, Quiz Grading
Option: Letter Crosslisted as CSCI 450
EE 451 Parallel and Distributed
Computation
Units: 4 Introduction to parallel
programming techniques, models and
optimization strategies; Application
mapping to multi-core, accelerator, GPU
and cloud platforms; High Performance
Computing and Data Science applications.
Prerequisite: EE 355x or CSCI 201L
Recommended Preparation: High-level
programming Instruction Mode: Lecture,
Lab Grading Option: Letter Crosslisted as
CSCI 452
EE 452L Game Hardware Architectures
Units: 3 Terms Offered: Fa Architectural
principles underlying modern game
console hardware design; introduction to
the programming techniques, optimization
strategies, and hardware insights to create
powerful games. Prerequisite: EE 352.
Instruction Mode: Lecture, Lab Required
Grading Option: Letter Crosslisted as
CSCI 452
EE 453 Computing Platforms and
Paradigms
Units: 4 Microarchitecture performance,
storage technologies, FPGA and GPU
architecture, and cloud-based architectures
combining heterogeneous processing
resources. Programming paradigms
including CUDA, MapReduce and OpenMP.
Prerequisite: EE 250L Instruction Mode:
Lecture, Discussion Grading Option: Letter
EE 454L Introduction to System-on-Chip
Units: 4 Terms Offered: Fa Design flow,
tools, and issues related to System-
on-Chip (SoC) design for real-time
eMBEDDED systems with applications in
mobile, cloud, aerospace, and medical
electronics. Prerequisite: EE 354.
Instruction Mode: Lecture, Lab Required
Grading Option: Letter Crosslisted as CSCI
454

<thead>
<tr>
<th>COURSES OF INSTRUCTION</th>
<th>953</th>
</tr>
</thead>
<tbody>
<tr>
<td>EE 455x Introduction to Programming Systems Design</td>
<td>Units: 4 (Enroll in CSCI 455)</td>
</tr>
<tr>
<td>EE 457 Computer Systems Organization</td>
<td>Units: 4 Terms Offered: FaSpSm Register Transfer level machine organization; performance; arithmetic; pipelined processors; exceptions, out-of-order and speculative execution, cache, virtual memory, multi-core multi-threaded processors, cache coherence. Prerequisite: EE 354 Instruction Mode: Lecture, Discussion, Quiz Grading Option: Letter Crosslisted as CSCI 457</td>
</tr>
<tr>
<td>EE 459Lx Embedded Systems Design Laboratory</td>
<td>Units: 4 Terms Offered: Sp Specification, design, implementation, testing and documentation of a digital system project using embedded processors, programmable logic, analog I/O interfaces and application specific hardware. Capstone design experience. Prerequisite: EE 354L Recommended Preparation: Proficient in programming in the C&quot; language; knowledge of programming on the level of EE 155L or CSCI 103L. Registration Restriction: Open only to seniors Credit Restriction: Not available for graduate credit Instruction Mode: Lecture, Lab Required Grading Option: Letter</td>
</tr>
<tr>
<td>EE 467 Introduction to Communication Systems</td>
<td>Units: 3 Analog and digital communication systems. (De)multiplexing and (de)multiplexing of AM/FM/PM, noise, digital data formats, error rates, and spectral analysis. Review of wireless, networking, and optical systems. Prerequisite: EE 301. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 470 Electromagnetics II</td>
<td>Units: 3 Dynamic field theory and elementary solutions to Maxwell's equations. Introduction to propagation and radiation of electromagnetic fields. Prerequisite: EE 330. Instruction Mode: Lecture, Lab Required Grading Option: Letter</td>
</tr>
<tr>
<td>EE 471 Advanced Quantum Mechanics for Engineers</td>
<td>Units: 4 Introductory quantum mechanics and applications. Schroedinger equation, atomic and molecular processes, time-dependent perturbation theory, applications to lasers, solid-state devices and gaseous devices. Prerequisite: EE 470 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 471</td>
</tr>
<tr>
<td>EE 472 Introduction to Lasers and Laser Systems</td>
<td>Units: 3 Terms Offered: Fa Electric dipole transitions; traveling wave and resonant amplifiers; laser pumping and rate equations; threshold, frequency, and power output of lasers; holography; laser communication systems. Corequisite: EE 470. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHYS-472</td>
</tr>
<tr>
<td>EE 473L Lasers and Optics Laboratory</td>
<td>Units: 3 Terms Offered: Sp Introductory design/research laboratory in lasers and optics, which typically includes fiber optics, photonics, electro-optics, optical sensors, optical communication, optical signal processing and computing. Corequisite: EE 470. Instruction Mode: Lab Required, Lecture Grading Option: Letter Crosslisted as PHYS-473</td>
</tr>
<tr>
<td>EE 474 Introduction to Photonics</td>
<td>Units: 3 Terms Offered: Sp Photonic system requirements; waveguide modes and dispersion; optical fiber modes, loss and dispersion; principles of operation of lasers, optical amplifiers, detectors and modulators; noise. Prerequisite: EE 350, EE 338. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 475 Wireless Communication Technology</td>
<td>Units: 3 Terms Offered: FaSpSm Fundamentals of wireless communication from a device point of view. Lab experiments and design project. Recommended Preparation: EE 467 Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 476 Chemical Engineering Materials</td>
<td>Units: 4 Terms Offered: Fa (Enroll in CHE 476)</td>
</tr>
<tr>
<td>EE 477L MOS VLSI Circuit Design</td>
<td>Units: 4 Terms Offered: FaSpSm Analysis and design of digital MOS VLSI circuits including area, delay and power minimization. Laboratory assignments including design, layout, extraction, simulation and automatic synthesis. Prerequisite: EE 338 or EE 354L Instruction Mode: Lecture, Lab Required Grading Option: Letter</td>
</tr>
<tr>
<td>EE 479 Analog Integrated Circuit Design</td>
<td>Units: 4 Terms Offered: Sp MOSFET and BJT operation and models; elementary amplifier configurations; biasing and references; frequency response; feedback; operational amplifiers. Prerequisite: EE 348. Instruction Mode: Lecture, Discussion Grading Option: Letter</td>
</tr>
<tr>
<td>EE 481L Control Systems Laboratory</td>
<td>Units: 3 Terms Offered: Sp (Enroll in AME 443)</td>
</tr>
<tr>
<td>EE 482 Linear Control Systems</td>
<td>Units: 4 Terms Offered: FaSpSm Analysis of linear time-invariant (LTI) control systems; stability of LTI systems; frequency response, proportional-integral-differential (PID) and root-locus compensation techniques. Prerequisite: EE 301L Duplicates Credit in EE 451 Instruction Mode: Lecture, Lab Grading Option: Letter</td>
</tr>
<tr>
<td>EE 483 Introduction to Digital Signal Processing</td>
<td>Units: 4 Terms Offered: FaSp Fundamentals of digital signal processing covering: discrete time linear systems, quantization, sampling, Z-transforms, Fourier transforms, FFTs and filter design. Prerequisite: EE 301L Recommended Preparation: Familiarity with MATLAB Instruction Mode: Lecture, Discussion Grading Option: Letter</td>
</tr>
<tr>
<td>EE 484x Communication System Design</td>
<td>Units: 3 Terms Offered: Sp Design and analysis of analog and digital communication systems. System models, requirements, development, performance analysis and component selection techniques. Comprehensive system design project. Capstone design experience. Prerequisite: EE 364, EE 475. Recommended Preparation: EE 467. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 490x Directed Research</td>
<td>Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 492a Undergraduate Project</td>
<td>Units: 2 For the undergraduate degree. Credit on acceptance of project. In Progress (IP) (EE 492a) or letter grade (EE 469b). Instruction Mode: Lecture Grading Option: In Progress to Letter</td>
</tr>
<tr>
<td>EE 492b Undergraduate Project</td>
<td>Units: 2 For the undergraduate degree. Credit on acceptance of project. In Progress (IP) (EE 492a) or letter grade (EE 469b). Prerequisite: EE 492a Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 494a Undergraduate Thesis</td>
<td>Units: 2 For the undergraduate degree. Credit on acceptance of thesis. IP (EE 494a) or letter grade (EE 494b). Registration Restriction: Open only to seniors Instruction Mode: Lecture Grading Option: In Progress/Letter</td>
</tr>
<tr>
<td>EE 494b Undergraduate Thesis</td>
<td>Units: 2 For the undergraduate degree. Credit on acceptance of thesis. IP (EE 494a) or letter grade (EE 494b). Prerequisite: EE 494a Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 494 Special Topics</td>
<td>Units: 2, 3, 4 Max Units: 8.0 Course content will be selected each semester from current developments in the field of electrical engineering. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 495 Neural Learning and Computational Intelligence</td>
<td>Units: 4 Computational intelligence techniques that include neural systems, deep learning, adaptive pattern classification, fuzzy function approximation, simulated annealing and evolutionary computing, and hybrid systems. Recommended Preparation: EE 483, EE 510 or equivalent, EE 495 Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>EE 501 Solid State</td>
<td>Units: 4 Terms Offered: Sp (Enroll in MASC 501)</td>
</tr>
<tr>
<td>EE 502 Advanced Solid State</td>
<td>Units: 3 (Enroll in MASC 502)</td>
</tr>
<tr>
<td>EE 503 Probability for Electrical and Computer Engineers</td>
<td>Units: 4 Terms Offered: Sp Rigorous coverage of probability, discrete and continuous random variables, functions of multiple random variables, covariance, correlation, random sequences, Markov chains, estimation, and introduction to statistics. Duplicates Credit in EE 464 and EE 465. Instruction Mode: Lecture, Discussion Grading Option: Letter</td>
</tr>
<tr>
<td>EE 504L Solid-State Processing and Integrated Circuits Laboratory</td>
<td>Units: 4 Laboratory oriented with lectures keyed to practical procedures and processes. Solid-state fabrication and analysis fundamentals; basic device</td>
</tr>
</tbody>
</table>
construction techniques. Prerequisite: EE 507 or EE 508. Recommended Preparation: Basic theory of semiconductor devices, including p-n junctions and MOS transistors. (EE 338 or equivalent). Registration Restriction: Open only to graduate students.

EE 508 Analog, Mixed-Signal, and RF Interconnect-Circuit Tape-Out
Units: 3 Terms Offered: Sm Complete systematic tape-out flow including schematic design, simulation, layout, and post-layout verification of analog, mixed-signal, and RF-system integrated circuits. Prerequisite: EE 536a. Instruction Mode: Lecture Grading Option: Letter

EE 506 Semiconductor Physics
Units: 4 Terms Offered: FaSp Semiconductor bonds, crystallography, band structure assumptions, group theory, band structure results, k.p. method, quantum wells, wires and dots, superlattices, amorphous, organic semiconductors, defects, statistics, surfaces, and valence-band states. Prerequisite: MASC 501 and EE 471 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 506

EE 507 Micro- and Nano-Fabrication Technology
Units: 4 Terms Offered: Sp Physical basis of technologies for the fabrication of micro- and nano-scale devices. Thin-film deposition, etching, and material modification processes; pattern transfer methods. Recommended Preparation: graduate standing in engineering, physics, or chemistry. Duplicates Credit in former EE 508 Instruction Mode: Lecture Grading Option: Letter Crosslisted as MASC 507

EE 509 Electromagnetics for Semiconductors
Units: 3 Overview of electromagnetics needed to understand and design photonic devices. Includes discussion of waveguides and resonant cavities and an introduction to photonic crystals. Instruction Mode: Lecture Grading Option: Letter

EE 510 Linear Algebra for Engineering
Units: 4 Terms Offered: FaSp Introduction to linear algebra and matrix theory and their underlying concepts; applications to engineering problems; mathematically rigorous and foundational to other classes in communication, control, and signal processing. Recommended Preparation: EE 141L and MATH 445 or equivalent (calculus, undergraduate linear algebra, matrix theory). Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 511 Simulation Methods for Stochastic Systems
Units: 1 Project-oriented investigation of simulation methods used for the analysis and design of complex stochastic systems whose operation and performance are affected by random events. Recommended Preparation: MatLab programming experience. Corequisite: EE 503. Instruction Mode: Lecture, Lab Grading Option: Letter

EE 512 Stochastic Processes
Units: 3 Probability theory and stochastic processes, including renewal theory, Markov chains, Brownian motion, martingales, and stochastic calculus. Applications in communication networks, queuing theory and financial systems. Prerequisite: EE 503 and (EE 441 or EE 510 or EE 518). Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 513 Solid State Energy Devices
Units: 3 Design and operation of solar photovoltaic energy converters, thermovoltaic energy converters, thermoelectric energy converters, and solid state light emitters; their roles in renewable and conservation of energy. Recommended Preparation: EE 338. Instruction Mode: Lecture Grading Option: Letter

EE 514 Quantum Energy Correction
Units: 4 A comprehensive introduction to quantum error correction and decoherence control, from the basics to the cutting edge, enabling students to delve into current research topics. Recommended Preparation: EE 520 Instruction Mode: Lecture Grading Option: Letter

EE 515 High-Voltage Technology
Units: 3 High voltage engineering basic concepts; theoretical, design, and practical aspects of overvoltages, travelling-waves, insulation, and aging; breakdown mechanisms; insulation coordination. Instruction Mode: Lecture Grading Option: Letter

EE 516 High-Voltage DC Transmission Systems
Units: 4 AC/DC conversion processes, converter technologies, and design; harmonics, controls, and protection; AC/DC interactions and system performance; modeling, application, and installation; current-source versus voltage-source converters. Prerequisite: EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 517 Statistics and Data Analysis for Engineers
Units: 4 Terms Offered: FaSp Sm Statistics and data analysis emphasizing computation and problem solving: confidence intervals, hypothesis tests, bootstrap and Monte Carlo estimation, regression, Bayesian and statistical learning techniques. Prerequisite: EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 518 Mathematics and Tools for Financial Engineering
Units: 4 Students will build a mathematical background for studying financial engineering. Emphasis is on analysis, proofs and examples. Mathwork’s financial toolbox will be introduced. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 519 Speech Recognition and Processing for Multimedia

EE 520 Introduction to Quantum Information Processing
Units: 4 Terms Offered: FaSpSm Basics of quantum computation and information; quantum bits and registers, unitary gates, algorithms, error correction and cryptography. Experimental realizations and near-term quantum technology. Recommended Preparation: An advanced course in complex linear algebra, such as EE 510 Instruction Mode: Lecture Grading Option: Letter

EE 521 Power Systems Analysis and Design
Units: 4 Power system planning, studies, and design; time-domain modeling and analysis of power-system networks; power flow, stability, fault, and economic dispatch analysis; symmetrical components. Prerequisite: EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 522 Immersive Audio Signal Processing
Units: 3 Terms Offered: Sp Fundamentals of digital audio signal processing, room acoustics, and psychoacoustics. Algorithms for real-time implementation of immersive audio systems for integrated media applications. Prerequisite: EE 483 Instruction Mode: Lecture Grading Option: Letter

EE 523 Advanced Biomedical Imaging
Units: 4 Terms Offered: Sm (Enroll in BME 525)

EE 524 Transients in Power Systems
Units: 3 Overvoltages during faults, voltage recovery, arcing faults, restrikes, theory of switching surges, System grounding, traveling waves, lightning and surge protection, insulation coordination. Prerequisite: EE 443. Instruction Mode: Lecture Grading Option: Letter

EE 525 Power System Protection
Units: 4 Theory of system and equipment protection, characteristics of relays, relay coordination, and system considerations. Prerequisite: EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 526 Renewable Energy in Power Systems
Units: 4 Renewable energy sources and their integration in electrical networks. Power-flow control from highly variable resources. Cost analysis and planning. Instruction Mode: Lecture Grading Option: Letter

EE 527 Net-Centric Power-System Control
Units: 3 Terms Offered: FaSpSm Control and stability of large-scale systems such as the electric power grid. Integration with information networks. Recommended Preparation: EE 482. Corequisite: EE 521. Instruction Mode: Lecture Grading Option: Letter

EE 528 Power Electronics
Units: 4 Terms Offered: FaSpSm Fundamentals of switched-mode power converters operating under steady state and transient conditions. Feedback control systems. Magnetic circuit design. Prerequisite: EE 443 Instruction Mode: Lecture Grading Option: Letter

EE 529 Optics
Units: 4 Geometrical optics, electromagnetic wave propagation, reflection and refraction at interfaces, imaging with lenses and mirrors, optics of the eye, optical instruments (microscopes/telescopes/cameras), and polarization. Recommended Preparation: EE 470 or graduate standing. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 530 Optical Materials, Instruments and Devices
Units: 3 Anisotropic materials and devices;
properties of metals; design and theory of selected optical instruments; properties of electrooptic, acoustooptic, and spatial light modulators; Terahertz Optics. Prerequisite: EE 529. Instruction Mode: Lecture Grading Option: Letter

EE 531 Nonlinear Optics

EE 532 Wireless Internet and Pervasive Computing
Units: 3 Terms Offered: Fa Wireless Internet access technologies, 3G cellular systems, WAP and PKI protocols, mobile computing devices, network security for mobile E-commerce, software and middleware for pervasive, cluster, grid, and Internet computing. Prerequisite: EE 450; Recommended Preparation: EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 533 Network Processor Design and Programming
Units: 3 Terms Offered: Sp Understanding of network processor architecture, applications, and other relevant issues. Program network processor and test under realistic network environment. Design and deploy custom network processor. Prerequisite: EE 459; Recommended Preparation: EE 450. Instruction Mode: Lecture, Quiz Grading Option: Letter

EE 534 Materials Characterization
Units: 3 (Enroll in MASC 534)

EE 535 Wireless Communications
Units: 4 Terms Offered: FaSpSm The mobile communication channel; techniques used to combat the channel; cellular communications; multiple-access techniques; example mobile communication systems. Prerequisite: EE 532. Recommended Preparation: Basic electromagnetic theory, digital communications systems; EE 510 Corequisite: EE 511 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 536a Mixed-Signal Integrated Circuit Design
Units: 4 MOSFET operation and models; elementary amplifier configurations; biasing and references; frequency response; noise; feedback; operational amplifiers; frequency compensation; non-linearity and mismatch; passive and active filters. Prerequisite: EE 448 or EE 479. Instruction Mode: Lecture Grading Option: Letter

EE 536b Mixed-Signal Integrated Circuit Design
Units: 4 Terms Offered: Sp Non-linear integrated circuits, data-converter architectures and implementations, comprehensive design project. Prerequisite: EE 536a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 537 Modern Solid-State Devices
Units: 4 Terms Offered: Fa Integrated-circuit technologies for mixed-signal communication and data systems. Constituent device models and their limitations. Contemporary research topics. Prerequisite: EE 338 Instruction Mode: Lecture Grading Option: Letter

EE 538 Bio-Inspired and Nanoscale Integrated Computing
Units: 2 Terms Offered: FaSp Quantum Dot Cellular Automata, Spin-wave Architectures, Molecular Computing, DNA Computing, Carbon Nanotubes, and Medical Nanorobots. Prerequisite: EE 451 or EE 457 or EE 477L Recommended Preparation: Familiarity with cellular biology Instruction Mode: Lecture Grading Option: Letter

EE 539 Engineering Quantum Mechanics
Units: 4 Terms Offered: Fa Quantum mechanics for engineering majors who work with solid-state devices, quantum electronics, and photonics. Schroedinger equation, perturbation theory, electronic and optical processes. Recommended Preparation: Experience with linear algebra, Newtonian mechanics, Maxwell's equations, and MATLAB Instruction Mode: Lecture, Quiz Grading Option: Letter

EE 540 Introduction to Quantum Electronics
Units: 4 Fundamentals of light amplification; laser amplifiers and oscillators; atomic pumping; maser and laser systems; definitions of coherence; measurements in quantum electronics. Prerequisite: EE 470 Recommended Preparation: Quantum Mechanics at the level of EE 471 or (PHYS 438a and PHYS 438b) Instruction Mode: Lecture Grading Option: Letter

EE 541 Radio Frequency Filter Design
Units: 3 Terms Offered: Fa Theory and realization of passive and transconductance-based active filters for radio frequency communications. Distributed and quasi-distributed passive filters. Circuit testing via scattering parameters. Prerequisite: EE 348. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 542 Internet and Cloud Computing
Units: 3 Terms Offered: FaPr Fundamental technologies of server clusters, virtualized datacenters, Grids/P2P, Internet clouds, social networks, Internet of Things (IoT), and their innovative applications. Recommended Preparation: EE 450 or EE 457. Instruction Mode: Lecture Grading Option: Letter

EE 543a Digital Control Systems
Units: 3 Terms Offered: Fa Design, analysis, and implementation of digital control systems using microcomputers; Z-transform methods; frequency domain and state space approach; computational aspects; sampling and quantization. Prerequisite: EE 482. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME-553A

EE 543b Digital Control Systems
Units: 1 Modeling of real processes; design and implementation of digital control systems in the controls laboratory. Prerequisite: EE 543a. Duplicates Credit in b: former EE 485abL. Instruction Mode: Lab Required Grading Option: Letter Crosslisted as AME-553B

EE 544 Radio Frequency Systems and Hardware
Units: 3 Terms Offered: Sp Elements of radio frequency communication systems: modulation/demodulation strategies, transmission-channel impairments, performance criteria, hardware (low-noise amplifiers, mixers, oscillators), digital back-end, contemporary case studies. Prerequisite: EE 301, EE 348, EE 364. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 545 Robotics
Units: 3 Terms Offered: FaSp Signals (Enroll in CSCI 545)

EE 546 Mathematics of High-Dimensional Data
Units: 4 Terms Offered: Irregular Modern developments in data representation/analysis, nonconvex optimization, high-dimensional probability, sketching, clustering, low-rank models, inverse problems, applications in imaging, machine learning, computer vision and neuroscience. Prerequisite: EE 510 and EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 548 Analytical Methods in Robotics
Units: 3 (Enroll in AME 548)

EE 549 Nanotechnology for Materials, Electronics, and Circuits
Units: 4 Nanotechnology for advanced nanomaterials, nanoelectronics devices, and circuits, including the rigorous treatment of electronic band structures of carbon nanotubes, graphene, and two-dimensional materials. Instruction Mode: Lecture Grading Option: Letter

EE 550 Data Networks: Design and Analysis
Units: 4 Applications of stochastic modeling and optimization techniques to communication network design and analysis. Data link control; performance models; multi-access channels; routing and flow control. Prerequisite: EE 450 and EE 503 Recommended Preparation: Probability analysis and general mathematical analysis Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 551 Principles of Radar
Units: 3 Terms Offered: Irregular Signal propagation, reflections from targets; radar equation; detection of scintillating targets; resolution; ambiguity functions; clutter rejection; tracking radars. Prerequisite: EE 364 and EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 552 Asynchronous VLSI Design
Units: 3 Terms Offered: FaSp Asynchronous channels and architectures; implementation design styles; controller synthesis; hazards, and races; Petri-nets; performance analysis, and optimization; globally asynchronous locally synchronous design. Prerequisite: EE 477. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI-552

EE 553 Computational Solution of Optimization Problems
Units: 3 Terms Offered: Sp Computer algorithms for system optimization. Search techniques, gradient methods, parameter optimization in control systems.
Optimization with constraints; linear and nonlinear programming. Random search techniques. Prerequisite: EE 441 or EE 510 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 553

EE 554 Real Time Computer Systems
Units: 3 Terms Offered: Sp Structure of real-time computer systems; analog signals and devices; scheduling, synchronization of real-time processes; reliability, availability; serial/parallel computations; real-time operating systems and languages; design examples. Prerequisite: EE 457. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-554

EE 555 Broadband Network Architectures
Units: 3 Terms Offered: FaSpSm Broadband network architectures and services, technologies for high-speed access and core networks, optical infrastructure for layered network architectures, high performance switch and router architectures. Prerequisite: EE 450 and EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 556 Stochastic Systems and Reinforcement Learning
Units: 4 Terms Offered: Sp Stochastic system models, Dynamic programming, Linear quadratic control, Kalman filtering and estimation, System identification, approximate dynamic programming methods, adaptive control, reinforcement and online learning. Prerequisite: EE 503 Recommended Preparation: EE 512 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 557 Computer Systems Architecture
Units: 4 Terms Offered: FaSp Computer architecture from a design perspective: Pipelined processors, speculative execution, VLIW, vector processors, GPU/ GPGPU, memory technology and systems, interconnection networks, shared-memory and message-passing multiprocessors, chip multiprocessors. Prerequisite: EE 457 Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 557

EE 558 Optical Fiber Communication Systems
Units: 3 Terms Offered: FaSp State-of-the-art optical fiber communication systems. Emphasis on optoelectronic-device and communication-systems issues necessary to provide high-speed and/or networked optical communications. Recommended Preparation: EE 338; basic knowledge of optics, semiconductors, and communications concepts. Instruction Mode: Lecture Grading Option: Letter

EE 559 Mathematical Pattern Recognition
Units: 3 Terms Offered: Sp Distribution free classification, discriminant functions, training algorithms; statistical classification, parametric and nonparametric techniques; artificial neural networks. Corequisites: EE 503 and (EE 441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CSCI 559

EE 560L Digital System Design
Units: 4 ASIC design, FPGAas, VHDL, verilog, test benches, simulation, synthesis, timing analysis, post-synthesis simulation, FIFOs, handshaking, memory interface, PCI bus protocol, CAD tools, design lab exercises. Prerequisite: EE 457 Instruction Mode: Lecture, Lab Required Grading Option: Letter

EE 561 Foundations of Artificial Intelligence
Units: 3 Terms Offered: FaSp (Enroll in CSCI 561)

EE 562 Random Processes in Engineering
Units: 4 Random vectors, sequences, and functions. Linear transformations, second moment theory, spectral densities, narrowband processes, Gaussian processes, correlation detection, linear minimum mean square error estimation. Prerequisite: EE 503 and (EE 441 or EE 510) Duplicates Credit in former EE 562a Instruction Mode: Lecture Grading Option: Letter

EE 563 Estimation Theory
Units: 3 Terms Offered: Fa Parameter estimation and state estimation technique including: least squares, BLUE, maximum-likelihood, maximum a posteriori, Kalman-prediction, Kalman-filtering and Kalman smoothing and extended Kalman filtering. Prerequisite: EE 503 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 564 Digital Communication and Coding Systems
Units: 4 Digital modulations. Optimal reception. Performance analysis. Classical and modern codes. Viterbi, forward-backward, and iterative decoding. Practical designs for channels with memory or nonlinearities. Example systems. Prerequisite: EE 503 and (EE 441 or EE 510) Recommended Preparation: Basic computer skills (simple programs and plotting) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 565 Information Theory and Its Application to (Big) Data Sciences
Units: 4 Terms Offered: FaSp Entropy and mutual information. Variable and fixed-length, lossless and lossy compression. Universal compression, Text and multimedia compression. Channel capacity. Error-correcting codes. Erasure and Gaussian channels. Prerequisite: EE 503 Duplicates Credit in former EE 565a Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 566 Optical Information Processing
Units: 3 Terms Offered: Sp Coherent and incoherent optical transforming, imaging and two-dimensional information processing systems; optical image processing, spatial frequency response and filtering; digital holography. Recommended Preparation: continuous-time Fourier transforms, linear systems, signals/function Instruction Mode: Lecture Grading Option: Letter

EE 567 Communication Systems
Units: 3 Terms Offered: FaSpSm Analysis of communication systems operating from very low to optical frequencies. Comparison of modulation and detection methods. System components description. Optimum design of communication systems. Recommended Preparation: EE 441 or EE 510 Corequisite: EE 503 Instruction Mode: Lecture Grading Option: Letter

EE 569 Introduction to Digital Image Processing
Units: 4 Terms Offered: Sp Image sampling, 2-D image transform, image enhancement, geometric image modification, morphologic processing, edge detection, texture analysis, image filtering and restoration. Recommended Preparation: EE 503, C/C++ or Matlab programming ability Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570a Advanced Electromagnetic Theory
Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. Prerequisite: EE 470 (or equivalent); working knowledge of vector algebra, vector calculus, differential equations, and complex variables Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 570b Advanced Electromagnetic Theory
Units: 4 Classical electromagnetic field theory and its usage in understanding and analytically modelling advanced applied electrical engineering devices. Prerequisite: EE 470 Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 571a Microwave Networks
Units: 3 Microwave network theory for transmission lines and waveguides, discontinuities, impedance transformers, resonators, multi-junction networks, periodic structures, nonreciprocal and active devices. Prerequisite: EE 470. Instruction Mode: Lecture Grading Option: Letter

EE 571b Microwave Networks
Units: 3 Parameter matrices, approximate design procedures for distributed networks from lumped networks, coupled lines, equivalent coupled-line circuits, Kuroda's identities, and capacitance matrix transformations. Prerequisite: EE 571a. Instruction Mode: Lecture Grading Option: Letter

EE 572a Plasma Dynamics
Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 572b Plasma Dynamics
Units: 3 Particle drifts, collision phenomena, Boltzmann and Vlasov equations, hydrodynamic equations, Coulomb interactions; waves in a cold and hot plasma, plasma oscillations, Landau damping, hydromagnetic waves. Instruction Mode: Lecture Grading Option: Letter

EE 573a Antenna Analysis
Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, aperture radiation, methods of moments, geometrical and physical optics, reflectors, arrays. Prerequisite: EE 470. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 573b Antenna Analysis
Units: 3 Analysis of idealized antenna models, including the dyadic Green's function, reciprocity, aperture radiation,
methods of moments, geometrical and physical optics, reflectors, arrays. 

Prerequisite: EE 470. 
Instructor: Required. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 574 Computer Vision 
Units: 3 
Terms Offered: Fa (Enroll in CSHE 574) 
Lecture 
Prerequisite: CSHE 470, EE 470 or equivalent 
Instructor: Required. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 575 Computational Differential Geometry for Engineers 
Units: 3 
Terms Differential geometry of curves and surfaces, vectors, tensors, manifolds, curvature, Lie groups, Riemannian geometry, numerical PDEs, heat and Laplace equation, Applications to computer vision, machine learning, signal and image processing. 

Recommended Preparation: Good background in calculus and familiarity with Matlab or C++ 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 576 Integrated Memory Devices and Technologies 
Units: 3 
Physical operation and implementation of modern solid-state memory structures. Emerging advanced memory technologies. 

Recommended Preparation: Understanding of basic semiconductor device physics and fabrication technology is useful, but is not required. 
Instruction Mode: Lecture, Discussion 
Grading Option: Letter 

EE 577a VLSI System Design 
Units: 3 
Terms Offered: FaSpSm 
Lecture, Discussion 
Prerequisite: EE 477L or EE 479, EE 348L, CSCI 307, EE 364, etc. 
Instructor: Required. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 577b VLSI System Design 
Units: 3 
Terms Offered: FaSpSm 
Lecture, Discussion 
Prerequisite: EE 477L or EE 479, EE 348L, CSCI 307, EE 364, etc. 
Instructor: Required. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 578 Reflector Antennas 
Units: 3 
Introduction to the analytical and numerical techniques used in the analysis and design of modern reflector antenna systems, including physical optics, asymptotic techniques, shaping and feeds. 

Prerequisite: EE 470. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 580 System Verification 
Units: 4 
Functional/functional/verifier verification of complex systems. Simulation-based, formal/semi-formal/assertion languages and tools (SystemVerilog, UVM, UPF, etc.) FPGA prototyping, hardware acceleration, statistical modeling and machine learning. Instructor permission required. 

Recommended Preparation: EE 457 and EE 477L; scripting using Python, C++, algorithms, statistics and probability 
Instruction Mode: Lecture, Discussion, Quiz 
Grading Option: Letter 

Units: 4 
Fundamental techniques underlying the methodologies for system design, from integrated circuits to cyber-physical systems. Design flows, fundamental classes of models, and verification and synthesis techniques. 

Recommended Preparation: Exposure to the fundamentals of calculus or discrete mathematics, some background in programming, and an inclination to formal reasoning 
Instruction Mode: Lecture, Lab 
Corequisite: Crosslisted as CSI 593 
Grading Option: Crosslisted as CSI 593 

EE 582 CMOS: Nano Neuromorphic Circuits 
Units: 4 
Design and simulation of CMOS and nano electronic circuits modeling brain cells, including neurons and glial cells; low-power design; simulation laboratory. 

Prerequisite: EE 348L 
Recommended Preparation: EE 477L or EE 479 
Instruction Mode: Lecture, Lab 
Corequisite: Crosslisted as CSI 593 
Grading Option: Letter 

EE 583 Statistical Signal Processing 
Units: 3 

Prerequisite: EE 503. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 584 Chaotic Systems 
Units: 3 
Terms Offered: FaSpSm 
Lecture, Discussion 
Prerequisite: EE 483; 
Instructor: Required. 
Instruction Mode: Lecture, Lab 
Grading Option: Letter 

EE 585 Linear System Theory 
Units: 4 
Terms Offered: FaSpSm 
Analysis of linear dynamical systems by state-space and input/output techniques; stability, controllability, observability; observer-based controller; linear quadratic regulator. 

Prerequisite: EE 441 or EE 510 
Recommended Preparation: Solid knowledge of linear algebra 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 586L Advanced DSP Design Laboratory 
Units: 4 
Terms Offered: Sp 
Real-time adaptive signal processing design projects using special purpose DSP processors. 

Suitable project areas include acoustics, speech, arrays, image compression and biomedical signal processing. 

Prerequisite: EE 485. 
Recommended Preparation: At least one 500-level DSP course 
Instruction Mode: Lecture, Lab 
Grading Option: Letter 

EE 587 Nonlinear and Adaptive Control 
Units: 3 
Terms Offered: Fa 
Nonlinear systems, Lyapunov Stability. Parameter identification, direct and indirect adaptive control for linear and nonlinear systems. 

Design analysis, stability, robustness and applications. Backstepping, feedback linearization. 

Prerequisite: EE 482, EE 585. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 588 Optimization for the Information and Data Sciences 
Units: 4 

Prerequisite: EE 510 
Recommended Preparation: EE 503 

Instruction Mode: Lecture, Discussion 
Grading Option: Letter 

EE 589 Quantum Information Theory 
Units: 4 
Terms Offered: Sp 
Quantum Shannon theory; quantum channels and entanglement; dense coding, teleportation, quantum compression, and quantum capacity theorems. Open problems in quantum communication. 

Recommended Preparation: A strong working knowledge of complex linear algebra and probability theory (at the level of MATH 225, MATH 307, EE 364, etc.); knowledge of quantum information at the level of EE 520 or EE 514 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 590 Directed Research 
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. 

Instruction Mode: Lecture 
Grading Option: Credit/No Credit 

EE 591 Magnetic Resonance Imaging and Reconstruction 
Units: 3 
Terms Offered: Fa 
Prerequisite: EE 483 Principles of magnetic resonance imaging. Spin physics, Fourier-based acquisition and reconstruction, generation of tissue contrast, fast imaging, artifact correction, advanced image reconstruction. 

Prerequisite: EE 483; 
Recommended Preparation: EE 441 and EE 503. 
Familiarity with MATLAB is required. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 592 Computational Methods for Inverse Problems 
Units: 4 
Terms Offered: Fa 
A rigorous description of vector space and functional analysis concepts and tools that are useful for solving inverse problems in real-world applications. 

Prerequisite: EE 483 and (EE 441 or EE 510) 
Recommended Preparation: EE 503 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 593 Robust Multivariable Control 
Units: 4 
Terms Offered: Fa 
Corequisite: 
Recommended Preparation: 
Instructor: Required. 
Instruction Mode: Lecture 
Grading Option: Letter 

EE 594a Master's Thesis 
Units: 2 
Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. 
Instruction Mode: Lecture 
Grading Option: In-progress to Credit/No Credit 

EE 594b Master's Thesis 
Units: 2 
Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. 
Instruction Mode: Lecture 
Grading Option: In-progress to Credit/No Credit 

EE 594d Master's Thesis 
Units: 0 
Terms Offered: FaSpSm For the master's degree. Credit on acceptance of thesis. 
Instruction Mode: Lecture 
Grading Option: In-progress to Credit/No Credit
EE 595 Software Design and Optimization
Units: 4
Software strategies for applications constrained by power consumption, memory space and verification time; assignments incorporate key elements of planning, modeling, design simulation and testing. Recommended Preparation: Strong programming skills, (OOP and scripting), knowledge of algorithms, statistics and probability theory

Instruction Mode: Lecture, Discussion, Quiz
Grading Option: Letter

EE 596 Wavelets and Graphs for Signal Processing and Machine Learning
Units: 4
Multirate signal processing, wavelets and filter banks. Overcomplete and sparse signal representations. Graph signal processing. Applications to compression, sensing, time-frequency analysis, and machine learning.

Prerequisite: EE 483 and (EE 441 or EE 510)

Instruction Mode: Lecture
Grading Option: Letter

EE 597 Wireless Networks
Units: 4
Terms Offered: FaSpSm
Introduction to wireless networking technologies; fundamental architectural and design principles used at all protocol layers; optimization, performance evaluation and implementation using mathematical analysis, simulations, and experiments.

Prerequisite: EE 450 and EE 503

Recommended Preparation: EE 467 or equivalent; familiarity with Matlab and C programming

Instruction Mode: Lecture, Discussion
Grading Option: Letter

EE 598 Electrical Engineering Research Seminar
Units: 1
Max Units: 2.0
Introduction to research in electrical engineering. Topics vary by semester. May be repeated for up to one unit of credit for MS students, two units of credit for PhD students.

Registration Restriction: Open only to Master’s and Doctoral Students

Instruction Mode: Lecture
Grading Option: Credit/No Credit

EE 599 Special Topics
Units: 2, 3, 4
Max Units: 9.0
The course content will be selected each semester to reflect current trends and developments in the field of electrical engineering.

Instruction Mode: Lecture
Grading Option: Letter

EE 601 Advanced Semiconductor Device Physics
Units: 4
Terms Offered: Sp

Recommended Preparation: EE 471 or EE 539

Instruction Mode: Lecture, Discussion
Grading Option: Letter

EE 602 System Identification
Units: 4
Terms Offered: Fa

Instruction Mode: Lecture
Crosslisted as MASC 601

EE 606 Nonequilibrium Processes in Semiconductors
Units: 3
Non-equilibrium processes in modern devices. Carriers lifetime and trapping; luminescence; hot carrier and high field effects.

Instruction Mode: Lecture
Crosslisted as MASC-606

EE 607 Microelectromechanical Systems
Units: 3
Terms Offered: FaSp
Exploration of the technology methods and physical principles of MEMS, and survey various MEMS of current interest. Recommended Preparation: Knowledge of microfabrication, electromagnetic fields and waves, and mechanics

Instruction Mode: Lecture
Grading Option: Letter

EE 608L Microelectromechanical Systems Laboratory
Units: 3
Terms Offered: Fa Lab fabrication and analysis of several MEMS applications, including diaphragm-based sensors and actuators, microfluidic components, and deformable mirror array.

Instruction Mode: Lecture, Lab Required
Grading Option: Letter

EE 612 Science and Practice of Nanotechnology
Units: 3
Terms Offered: F
In-depth discussions of important topics in nanotechnology, including both the implementation and the underlying theory.

Prerequisite: EE 330 or EE 470

Instruction Mode: Lecture
Grading Option: Letter

EE 619 Advanced Topics in Automatic Speech Recognition
Units: 3
Terms Offered: FaSpSm
Advanced topics in automatic speech recognition, speaker recognition, spoken dialogue, conversational multimedia interfaces.

Recommended Preparation: EE 519 and CSCI 544 and EE 503

Instruction Mode: Lecture
Grading Option: Letter

EE 632 Integrated Communication Systems
Units: 4
Analysis and design of integrated communication circuits at transistor and system levels. Communication concepts, transceiver architectures, low-noise amplifiers, mixers, oscillators, phase-locked loops, power amplifiers.

Prerequisite: EE 479

Instruction Mode: Lecture
Grading Option: Letter

EE 635 Advanced Wireless Communications
Units: 3
Fundamentals of advanced wireless systems, including multi-antenna, cognitive, and cooperative systems as well as exploration of current standards in wireless networks in use today.

Prerequisite: EE 535

Recommended Preparation: basic programming concepts

Instruction Mode: Lecture
Grading Option: Letter

EE 637L Current and Future Computing Devices and Technology
Units: 4
State-of-the-art computing devices; current trends in device technologies; future directions.

Prerequisite: EE 537

Instruction Mode: Lecture, Lab Required
Grading Option: Letter

EE 638 Applications of Machine Learning for Medical Data
Units: 4
Application of machine learning models and algorithms to medical applications, learning from data and classification of disorders. Overview of health data, collection with sensors, body area network, brain imaging data and other publicly available medical applications data.

Prerequisite: EE 660 or CSCI 561 or INF 552

Instruction Mode: Lecture
Grading Option: Letter

EE 642 Advanced Geometrical Optics
Units: 3
First order design of optical systems; origin of aberrations and their effects on wave propagation and imaging based on geometrical and physical optics.

Prerequisite: EE 529

Instruction Mode: Lecture
Grading Option: Letter

EE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3
Enroll in CE 645

EE 648 Network Economics and Games
Units: 3
Economics of networks; game theory, mechanism design and auctions in networks; spectrum sharing mechanisms in communications; pricing of differentiated services; network security.

Prerequisite: EE 503

Recommended Preparation: Expected to have knowledge of computer networks on the level of EE 450

Instruction Mode: Lecture
Grading Option: Letter

EE 649 Stochastic Network Optimization
Units: 3
Terms Offered: F
Optimization of wireless and ad-hoc mobile networks; opportunistic scheduling, flow control, back-pressure routing; queue stability; energy-delay and utility-delay trade-offs.

Prerequisite: EE 503

Instruction Mode: Lecture
Grading Option: Letter

EE 650 Advanced Topics in Computer Networks
Units: 3
Terms Offered: F
Protocol modeling: flow and congestion control, dynamic routing, distributed implementation; broadcast communication media and multiple access protocols; local networks, satellite networks, terrestrial radio networks.

Prerequisite: EE 450 and EE 503

Recommended Preparation: EE 550 or CSCI 551

Instruction Mode: Lecture
Grading Option: Letter

EE 652 Low-Power Wireless Networks
Units: 3
Terms Offered: Fa
Implementation of low-power wireless protocols for medium access, scheduling, multihop routing, congestion control, localization, synchronization. IP stack for the Internet of Things. Wireless sensor network applications.

Prerequisite: EE 450

Recommended Preparation: CSCI 402, strong programming skills, and experience with Linux.

Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as CSCI-652

EE 653 Advanced Topics in Microarchitecture
Units: 3
Current research topics related to microprocessor architecture. Dynamically/ statically scheduled processors, multithreading, chip multiprocessors, systems on a chip, power, performance, complexity, dependability issues. Impact of technology.

Prerequisite: EE 557

Instruction Mode: Lecture
Grading Option: Letter

EE 657 Parallel and Distributed Computing
Units: 3
Terms Offered: FaSpSm
Scalable multiprocessor systems and clusters, virtual machine, service oriented architecture, network-based computing, peer-to-peer and cloud based storage and computing, case studies.

Prerequisite: EE 557

Recommended Preparation: EE 450

Instruction Mode: Lecture
Grading Option: Letter
EE 658 Diagnosis and Design of Reliable Digital Systems
Units: 3 Terms Offered: Fa Fault models; test generation; fault simulation; self-checking and self-testing circuits; design for testability; fault tolerant design techniques; case studies. Prerequisite: graduate standing. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-658

EE 659 Interconnection Networks
Units: 3 Terms Offered: Sp Theory, design and analysis of interconnection networks for multiprocessor systems. Study of direct and indirect topologies, deadlock-free routing, flow control, network interfaces, optical interconnects. Prerequisite: EE 557, Instruction Mode: Lecture Grading Option: Letter

EE 660 Machine Learning from Signals: Foundations and Methods
Units: 3 Terms Offered: Fa Supervised, semisupervised, and unsupervised machine learning; classification and regression. Model complexity, assessment, and selection; performance (error) on unseen data. Prerequisite: EE 503 and EE 559, and (EE 441 or EE 510) Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 664 Advanced Topics in Communication Theory
Units: 3 Modern communication theory for heterogeneous networks. Novel methods for communication network analysis and design. New theoretical tools: e.g. interference alignment, polar codes, and sparse approximation. Prerequisite: EE 564, Recommended Preparation: EE 555 and EE 655a, EE 565b. Instruction Mode: Lecture Grading Option: Letter

EE 665 Advanced Topics in Information Theory
Units: 3 Terms Offered: Fa Multi-terminal and network information theory. Network coding. Coding for special applications such as data storage. Applications of information theory to computational biology and data analytics. Prerequisite: EE 565 Instruction Mode: Lecture Grading Option: Letter

EE 669 Multimedia Data Compression
Units: 3 Terms Offered: FaSpSm Lossless compression, audio/speech coding, vector quantization, fractal compression, JPEG and MPEG-2000, video compression techniques and MPEG standards, video transmission over wired and wireless networks. Recommended Preparation: EE 503. Instruction Mode: Lecture, Discussion Grading Option: Letter

EE 674a Advanced Topics in Computer Vision
Units: 3 Terms Offered: Irregular (Enroll in CSCI 674a)

EE 674b Advanced Topics in Computer Vision
Units: 3 Terms Offered: Irregular (Enroll in CSCI 674b)

EE 675 Data Analysis and Control Techniques for Neurotechnology Design
Units: 4 Terms Offered: Sp Data analysis, machine learning and control-theoretic mathematical tools used in studying the brain and designing neurotechnologies such as brain-machine interfaces. Prerequisite: EE 503 Recommended Preparation: EE 441 Instruction Mode: Lecture Grading Option: Letter

EE 676 Advanced Computer Vision
Units: 4 (Enroll in CSCI 677)

EE 677 VLSI Architectures and Algorithms
Units: 3 VLSI models; measures of area, volume and time; mapping algorithms; systolic arrays; area time tradeoffs; applications to signal and image processing problems. Recommended Preparation: EE 457 and CSCI 570 Instruction Mode: Lecture Grading Option: Letter

EE 680 Computer-Aided Design of Digital Systems I
Units: 3 Terms Offered: Sp Synthesis; partitioning; placement; routing of digital circuits; integrated circuit design methods; simulation at the switch, gate, register transfer and system levels. Prerequisite: EE 581; Recommended Preparation: EE 577a. Instruction Mode: Lecture Grading Option: Letter

EE 681 Computer-Aided Design of Digital Systems II
Units: 3 Theory and techniques for design and analysis of digital logic; specification, formal models; hardware-descriptive languages; formal verification, high level synthesis; logic synthesis. Instruction Mode: Lecture Grading Option: Letter

EE 682 Law and Intellectual Property for Engineers
Units: 3 Terms Offered: Sp Detailed introduction to the American legal system with a special focus on intellectual-property doctrines. Recommended Preparation: EE 503. Instruction Mode: Lecture Grading Option: Letter

EE 690 Directed Research
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Electrical Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

EE 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

EE 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Endodontics

ENDO 501 Clinical Endodontics
Units: 1 Diagnosis and treatment procedures for basic clinical endodontics, including management of emergencies; relationship of endodontics to the various dental disciplines. Instruction Mode: Lecture Grading Option: Letter

ENDO 502 Advanced Endodontics
Units: 1 Theoretical principles for the treatment of advanced endodontic cases; alternative methods of endodontic therapy; introduction to interspecialty cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 521 Preclinical Endodontics
Units: 3 Theoretical principles of endodontic therapy related to pulpal and periapical disease; training in procedures of localizing, preparing, and filling the root canal of human teeth. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562a Clinic: Concentrated Early Endodontics
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562b Clinic: Concentrated Early Endodontics
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 562c Clinic: Concentrated Early Endodontics
Units: 0 Early clinical experience including assigned clinic demonstration block. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ENDO 661 Clinical Advanced Endodontics
Units: 2 In-depth discussion of endodontic surgery, retreatment, and hemisection cases; includes clinical experience in advanced endodontic cases. Instruction Mode: Lecture Grading Option: Letter

ENDO 701a Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture Grading Option: Letter

ENDO 701b Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic
procedures. Instruction Mode: Lecture

ENDO 701c Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture

ENDO 701d Seminar: Biological Basis of Endodontic Therapy
Units: 1 Investigation of the theoretical and biological bases of clinical endodontic procedures. Instruction Mode: Lecture

ENDO 702 Seminar: Advanced Clinical Endodontics
Units: 2 Course designed to train students in the management of simple and complex endodontic cases. Instruction Mode: Lecture

ENDO 703a Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture

ENDO 703b Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture

ENDO 703c Seminar: Review of Endodontic Literature
Units: 1 Critical review and analysis of classical and current endodontic literature. Instruction Mode: Lecture

ENDO 704a Seminar: Surgical Endodontics
Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture

ENDO 704b Seminar: Surgical Endodontics
Units: 2 Indications, principles, and techniques of surgical endodontics. Instruction Mode: Lecture

ENDO 705a Seminar: Endodontic Case Presentation
Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture

ENDO 705b Seminar: Endodontic Case Presentation
Units: 4 Student presentation of cases for critique and analysis. Instruction Mode: Lecture

ENDO 710 Seminar: Endodontic Practice Management
Units: 1, 2 Organizing, staffing, and evaluation of an endodontic practice. Modes and patterns of management including use of auxiliaries. Emphasis on endodontistsgeneral practitioner relationships; legal aspects of dental practice. Instruction Mode: Lecture

ENDO 711 Alternatives in Endodontics
Units: 4 Alternative endodontic techniques presented by guest clinicians. Emphasis on endodontics and its relationship with periodontal, restorative, and surgical disciplines. Instruction Mode: Lecture

ENDO 712 Seminar: Advanced Endodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Principles of planning, organizing, and executing a clinical or educational research project. Instruction Mode: Lecture

Environmental Engineering

ENE 200 Environmental Engineering Principles
Units: 4 Terms Offered: FaSpSm Analysis of water, air and land pollution, including hazardous waste; engineering of mitigation measures; water and wastewater treatment systems. Prerequisite: (CHEM 105aL or CHEM 115aL) and (MATH 120g or MATH 120) and (PHYS 151Lg or PHYS 161Lg) Recommended Preparation: CE 110 Corequisite: CHEM 105bL or CHEM 115bL Instruction Mode: Lecture

ENE 201 Introduction to Applied Environmental Science and Engineering
Units: 4 Gateway to BS in Civil Engineering (Environmental Engineering), BS, Environmental Engineering, and Minor in Environmental Engineering. Fundamental concepts of environmental science and engineering. Pollution control and remediation for air, water and soil. Pollution remediation for developing countries. Instruction Mode: Lecture

ENE 215 Energy Systems and Environmental Tradeoffs
Units: 4 Terms Offered: Fa Energy fundamentals; critical issues facing energy extraction, cultivation, transformation, transportation, consumption and disposal; environmental impacts. Prerequisite: PHYS 151Lg Instruction Mode: Lecture

ENE 300 Contaminant Transport in the Environment
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enroll by petition only. Instruction Mode: Lecture

ENE 400 Quantitative Sustainability
Units: 4 Terms Offered: Fa Concepts of quantitative sustainable design and engineering decision-making; economic and environmental sustainability assessments linked to design decisions under uncertainty; design of engineered technologies. Prerequisite: ENE 215 Instruction Mode: Lecture

ENE 410 Environmental Fluid Mechanics
Units: 4 Terms Offered: Sp Fluid Statics; equations of motion; continuity, momentum, energy principles; dimensional analysis; mixing, dispersion in environments and between environments; ground water flow; manifold diffusers: hydraulic transients. Prerequisite: MATH 245 Duplicates Credit in former ENE 526 Instruction Mode: Lecture

ENE 426 Particulate Air Pollutants: Properties/Behavior/Measurement
Units: 4 Terms Offered: Sp Particulate air pollutants, their measurement and instrumentation methods and their effects on the environment and human health, optical properties and visibility degradation. Prerequisite: ENE 200 Duplicates Credit in former ENE 526 Instruction Mode: Lecture, Discussion

ENE 428 Air Pollution Fundamentals
Units: 4 Terms Offered: Sp Quantitative overview of air pollution and the physical and chemical processes that describe its behavior. Prerequisite: MATH 245 and PHYS 151Lg and (CHEM 105bL or CHEM 115bL) Recommended Preparation: Environmental engineering principles on the level of ENE 200 Instruction Mode: Lecture

ENE 429 Air Pollution Control
Units: 3 Terms Offered: Sp Emission surveys; engineering controls of aerosols
and gaseous contaminants at emission sources, disposition of contaminants. Field trips. Prerequisite: ENE 428; CE 309 or ENE 410. Instruction Mode: Lecture Grading Option: Letter

ENE 443 Environmental Chemistry
Units: 3 (Enroll in CE 443)

ENE 465 Water Supply and Sewerage System Design
Units: 4 Terms Offered: Sp (Enroll in CE 465)

ENE 486 Design of Solid and Hazardous Waste Engineering Systems
Units: 3 Terms Offered: Fa: Engineering design of solid and hazardous waste facilities such as waste minimization, secured landfill, and hazardous waste treatment. Prerequisite: ENE 200 Instruction Mode: Lecture Grading Option: Letter

ENE 495 Seminars in Environmental Engineering
Units: 1 Term Offered: FaSp: Hazardous waste management, biodegradation of environmental pollutants, groundwater problems, waste minimization, energy resources, and air pollution control. Instruction Mode: Lecture Grading Option: Letter

ENE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Course content to be selected each semester from recent developments in environmental engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

ENE 502 Environmental and Regulatory Compliance
Units: 4 Terms Offered: Sp: Federal and state environmental laws; environmental impact assessment techniques; permitting for industrial facility construction and operation. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

ENE 503 Microbiology for Environmental Engineers
Units: 3 (Enroll in CE 503)

ENE 504 Solid Waste Management
Units: 3 (Enroll in CE 504)

ENE 505 Energy and the Environment
Units: 4 Terms Offered: FaSp The environmental impacts of energy extraction, cultivation, transformation, transportation, and consumption. Instruction Mode: Lecture Grading Option: Letter

ENE 506 Ecology for Environmental Engineers
Units: 3 Terms Offered: Fa: The role of environmental engineering in maintaining stability of freshwater, marine, and terrestrial ecosystems; macroscopic plant and animal forms as indicators of water quality. Instruction Mode: Lecture Grading Option: Letter

ENE 510 Water Quality Management and Practice
Units: 4 Terms Offered: Fa: Surface and ground water quality and resources management; water reclamation and reuse; green stormwater infrastructure; sustainability and carbon footprint for water and wastewater systems. Recommended Preparation: CE 363L and CE 453 Instruction Mode: Lecture Grading Option: Letter

ENE 512 Environmental Fluid Mechanics
Units: 4 Terms Offered: Fa Application of the fundamentals of the physical laws governing fluid flow and analyzing transport of contaminant in the environment and the risks involved. Recommended Preparation: CE 309 or ENE 410 or AME 309 Instruction Mode: Lecture Grading Option: Letter

ENE 514a Advanced Sanitary Engineering Design
Units: 3 (Enroll in CE 514a)

ENE 514b Advanced Sanitary Engineering Design
Units: 3 (Enroll in CE 514b)

ENE 516 Hazardous Waste Management
Units: 3 Standards and regulations for the management of hazardous waste: identification, transportation, monitoring, storage, treatment, and disposal practices. Instruction Mode: Lecture Grading Option: Letter

ENE 517 Industrial and Hazardous Waste Treatment and Disposal
Units: 3 (Enroll in CE 517)

ENE 518 Environmental Systems Engineering and Management
Units: 3 Evaluating, implementing and managing effective environmental systems to prevent pollution, conserve energy and resources, reduce risks and achieve sustainability in business and industries. Instruction Mode: Lecture Grading Option: Letter

ENE 523 Physicochemical Processes in Environmental Engineering
Units: 4 Terms Offered: Fa (Enroll in CE 523)

ENE 527 Climate Change and Atmospheric Aerosols
Units: 4 Terms Offered: Fa: Climate change; climate science fundamentals; Earth’s energy balance and atmosphere; greenhouse gas dynamics; fundamentals of airborne particles; climate-aerosol interactions; particle-radiation and particle-cloud interactions. Recommended Preparation: ENE 428 Registration Restriction: Open only to seniors and graduate students Instruction Mode: Lecture Grading Option: Letter, Discussion Crosslisted as CE 527

ENE 535 Applied Air Quality Management
Units: 4 Terms Offered: Sp Air pollutants, emission levels, and air borne concentrations; Links between pollutant emissions, air quality measurements and health effects: Environmental management in private or public sectors. Recommended Preparation: Knowledge of general chemistry on the level of CHEM 105bL or CHEM 115bL; thermodynamics on the level of AME 310; and calculus on the level of MATH 226g or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

ENE 533 Biological Processes in Environmental Engineering
Units: 3 (Enroll in CE 553)

ENE 560 Environmental Aspects of Oil and Gas Production
Units: 3 Environmental aspects of drilling for and producing oil and gas, and the necessary safety practices. Attention is given to the urban areas. Instruction Mode: Lecture Grading Option: Letter

ENE 562 Aquatic Chemistry
Units: 4 Terms Offered: Sp Quantitative prediction of chemical interaction in aquatic systems, including acid-base chemistry, precipitation/dissolution, complexation, oxidation/reduction and phase partitioning of organics. Applications to water treatment. Recommended Preparation: General Chemistry (CHEM 105aLg and CHEM 105bL); Differential and Integral Calculus (MATH 125g and MATH 129L); Linear Algebra; Familiarity with Thermodynamics (such as PHYS 151Lg). Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 562

ENE 563 Chemistry and Biology of Natural Waters
Units: 3 (Enroll in CE 563)

ENE 580 Applied Environmental Biotechnology
Units: 3 Fundamentals of bioremediation processes; bioremediation technologies for decontamination of air, water, and soil; global applications of bioremediation techniques. Instruction Mode: Lecture Grading Option: Letter

ENE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 594b Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENE 596 Chemical Reactions in the Atmosphere
Units: 3 Terms Offered: Fa Chemical reactions and scavenging processes important in urban air pollution. Effects of solar irradiation on vehicle exhaust gases, oxides of nitrogen and sulfur. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE-596

ENE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: FaSp Course content will be selected each semester to reflect current trends and developments in the field of environmental engineering. Instruction Mode: Lecture Grading Option: Letter

ENE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
ENGL 105x Creative Writing for Non-Majors
Units: 4 Max Units: 8.0 Terms Offered: FaSp Introductory workshop in writing poetry, short fiction and nonfiction for love of the written and spoken word. Instruction Mode: Lecture Grading Option: Letter

ENGL 170g The Monster and the Detective
Units: 4 Terms Offered: FaSp Cultural images of disorder and chaos, and of the search for order and reason, from the eighteenth century to the present. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in ARLT 101g Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 172g The Art of Poetry
Units: 4 Introduction to the pleasures and power of poetry, exploring elements drawn from high-points of English poetry, and the lives and works of major poets. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Duplicates Credit in ARLT 101g Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 174g Reading the Heart: Emotional Intelligence and the Humanities
Units: 4 A study of emotional intelligence through literature, history and the arts with a focus on anger, happiness, love and empathy. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 176g Los Angeles: the City, the Novel, the Movie
Units: 4 An exploration of the culture, vibrancy, heritage, mythology, variety, and pathology of a city that was born in hopes and captured the world's imagination. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 230g Shakespeare and His Times
Units: 4 Close study of Shakespeare's plays and poems to introduce his language, stagecraft, literary "genius," social and literary contexts, precursors and rivals, and legacy. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 250g The African Diaspora
Units: 4 Terms Offered: FaSp (Enroll in AMST 250)

ENGL 261g English Literature to 1800
Units: 4 Terms Offered: FaSpSm Intensive reading of major writers to 1800. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 262g English Literature since 1800
Units: 4 Terms Offered: FaSpSm Intensive reading of major writers, 1800–1950. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 263g American Literature
Units: 4 Terms Offered: FaSpSm Intensive reading of representative writers. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 270g Studying Narrative
Units: 4 Terms Offered: FaSpSm Introduction to major forms, styles and theories of narrative, with attention to characterization, plot, genres, ethics, empathy, perspective, audience and social conditions. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 280g Introduction to Narrative Medicine
Units: 4 Study of literary modes of narrative and their uses in medical understanding, character formation, social identity, and relations between mind and body. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 285m African American Popular Culture
Units: 4 Terms Offered: Sp (Enroll in AMST 285)

ENGL 290 Cultural Studies: Theories and Methods
Units: 4 Terms Offered: FaSpSm Introduction to the theories, methods, and history of cultural studies, with coverage of contemporary debates over censorship and the politics of authorship, saliency and originality. Instruction Mode: Lecture Grading Option: Letter

ENGL 297g Introduction to the Genre of Nonfiction
Units: 4 Terms Offered: FaSpSm Study of forms of nonfiction writing, focusing on craft and process: how it works and how to read, write and write about it. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 298g Introduction to the Genre of Fiction
Units: 4 Terms Offered: FaSpSm An introduction to the close reading of fiction and the understanding of the genre as an aesthetic and historical phenomenon. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 299g Introduction to the Genre of Poetry
Units: 4 Terms Offered: FaSp Historical survey of the traditions of lyric poetry from Shakespeare to the contemporary, examining the genre's multiple forms of literary, visual, and aural expression. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

ENGL 300 Advanced Expository Writing
Units: 2, 3. Intensive practice intended to develop a high level of competence in writing expository prose. Duplicates Credit in former ENGL 400 Instruction Mode: Lecture Grading Option: Letter

ENGL 301 The Rhetoric of Written Composition
Units: 4 Theories of rhetoric as they apply to written composition, with emphasis upon pedagogical applications. The course is designed for but not limited to prospective teachers of English. Duplicates Credit in former ENGL 401 Instruction Mode: Lecture Grading Option: Letter

ENGL 302 Writing Narrative
Units: 4 Terms Offered: FaSpSm Introduction to the techniques and practice of writing narrative in fiction and literary non-fiction. Instruction Mode: Lecture Grading Option: Letter

ENGL 303 Introduction to Fiction Writing
Units: 4 Terms Offered: FaSpSm Introduction to the techniques and practice of writing prose fiction. Instruction Mode: Lecture Grading Option: Letter

ENGL 304 Introduction to Poetry Writing
Units: 4 Terms Offered: FaSpSm Introduction to the techniques and practice of writing poetry. Instruction Mode: Lecture Grading Option: Letter

ENGL 305 Introduction to Nonfiction Writing
Units: 4 Terms Offered: FaSpSm Introduction to the techniques and practice of lyric essay, memoir, personal narrative, and scientific, medical, nature, culinary and travel writing. Instruction Mode: Lecture Grading Option: Letter

ENGL 309 The English Language
Units: 4 Instruction in the major grammatical systems of the English language, with particular emphasis on their relevance to language activities in the elementary classroom. Duplicates Credit in former ENGL 409 Instruction Mode: Lecture Grading Option: Letter

ENGL 310 Editing for Writers
Units: 4 Practical course in relations between editing and the creative process in fiction, poetry, and exposition. Instruction Mode: Lecture Grading Option: Letter

ENGL 311 History and Grammar of Modern English
Units: 4 Terms Offered: FaSp History and grammar of modern English as described by current linguistics; comparison with traditional grammar; application of grammar to stylistic analysis. Duplicates Credit in former ENGL 410 Instruction Mode: Lecture Grading Option: Letter
ENGL 312 Analysis of Written Persuasion
Units: 4 Terms Offered: FaSp Persuasive discourse, including structure, intention, and figurative language; analysis of texts in various humanistic, scientific, and socio-scientific disciplines. Duplicates Credit in former ENGL 412 Instruction Mode: Lecture Grading Option: Letter

ENGL 341 Women in English Literature before 1800
Units: 4 English poetry, plays, novels and discursive prose by and about women from 1375 to 1800. Duplicates Credit in former ENGL 460 Instruction Mode: Lecture Grading Option: Letter

ENGL 342g Women in English and American Literature after 1800
Units: 4 Women as writers and as subjects, with special emphasis on feminist and liberationist traditions and on changing female images after 1800. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 470 Instruction Mode: Lecture Grading Option: Letter

ENGL 343m Images of Women in Contemporary Culture
Units: 4 Terms Offered: FaSp Representations of women and gender relations in contemporary literature and mass culture, using the tools of feminist, literary, and political theory. Duplicates Credit in former ENGL 476 Instruction Mode: Lecture Grading Option: Letter

ENGL 344m Sexual/Textual Diversity
Units: 4 Terms Offered: FaSp Questions of gay/lesbian identity, expression and experience in a variety of literary and cultural forms; emphasis on sexual politics, equality and difference. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 478 Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 344

ENGL 350g Literature of California
Units: 4 Novels, stories, essays, poems, and plays written in and about California from the Gold Rush to the present. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 351 Periods and Genres in American Literature
Units: 4 Max Units: 08 Terms Offered: FaSp A concentrated reading and criticism of the works of one period or one genre of American literature; for example, colonial literature, the American Renaissance, American poetry, American drama. Duplicates Credit in former ENGL 451 Instruction Mode: Lecture Grading Option: Letter

ENGL 352g Bookpacking
Units: 4 Max Units: 08 Terms Offered: SpSm Literary travel using novels to explore regional culture and unify the study of literature, history, geography, politics and social studies. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 355g Anglo-American Law and Literature
Units: 4 Max Units: 8.0 Terms Offered: FaSp Examination of legal problems and concepts in English and American literature. Recommended Preparation: CORE 102 or ARLT 100; WRIT 150. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 360 Modern Poetry
Units: 4 Study of poetry written in English from 1900 to 1945, with special emphasis on American modernists of the first two decades. Recommended Preparation: ENGL 262g, ENGL 263g Duplicates Credit in former ENGL 452 Instruction Mode: Lecture Grading Option: Letter

ENGL 361g Contemporary Prose
Units: 4 Study of prose written in English since 1945, principally fiction of the past two decades. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 362g Contemporary Poetry
Units: 4 Terms Offered: FaSpSm Study of poetry written in English since 1945, with special emphasis on the last two decades. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 456 Instruction Mode: Lecture Grading Option: Letter

ENGL 363g Contemporary Drama
Units: 4 Selected British, Irish, and American drama from the post World War II period (1945 to the present). Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 456 Instruction Mode: Lecture Grading Option: Letter

ENGL 364 The Modern Novel
Units: 4 Terms Offered: FaSp Sm studies of the narrative experiments and innovations in fiction following the realist novel; emphasis on gender, empire and class; and the pluralities of "modernisms." Duplicates Credit in former ENGL 467 Instruction Mode: Lecture Grading Option: Letter

ENGL 371g Literary Genres and Film
Units: 4 Terms Offered: FaSpSm Literary studies in the relationship between fiction and drama and their adaptation as films. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 471 Instruction Mode: Lecture Grading Option: Letter

ENGL 372 Literature and Related Arts
Units: 4 Max Units: 08 Terms Offered: FaSp An examination of how literature and related arts intersect in a particular cultural milieu. Selected topics. Duplicates Credit in former ENGL 472 Instruction Mode: Lecture Grading Option: Letter

ENGL 373g Literature and Society
Units: 4 Terms Offered: FaSp Theoretical and applied studies of literature in English as social activity and cultural production; its expression of, and influence upon, social values, concepts of and behavior. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ENGL 473 Instruction Mode: Lecture Grading Option: Letter

ENGL 374m Literature, Nationality and Otherness
Units: 4 Terms Offered: FaSp English literature written about or in the British colonies and their post-colonial nations, including African, Asian, Pacific, and American countries. Emphasis on texts by other than British and United States authors. Completion of general education literature requirement highly recommended. Duplicates Credit in former ENGL 474 Instruction Mode: Lecture Grading Option: Letter

ENGL 375 Science Fiction
Units: 4 Terms Offered: FaSp Investigation of the scope and possibilities of British and American science fiction as a genre, with some attention to its historical development. Instruction Mode: Lecture Grading Option: Letter

ENGL 376g Comics and Graphic Novels
Units: 4 Terms Offered: FaSpSm Introduction to issues in visual and popular culture, focused on critical and historical interpretation of words and images in comic books and graphic novels. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

ENGL 379 History of Literary Criticism
Units: 4 Terms Offered: FaSp Analysis of philosophies and methods of modern schools of criticism; writing critical essays. Duplicates Credit in former ENGL 480 Instruction Mode: Lecture Grading Option: Letter

ENGL 380 Modern Literary Criticism: Theory and Practice
Units: 4 Terms Offered: FaSp Critical approaches to narrative form in literature and film; readings and films from several genres and periods, emphasis on gender, ethnic, and cultural studies. Duplicates Credit in former ENGL 483 Instruction Mode: Lecture Grading Option: Letter

ENGL 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

ENGL 392 Visual and Popular Culture
Units: 4 Terms Offered: FaSp Course in the theory and practices of "popular culture," highlighting modern and contemporary culture, film, video and popular music, as well as narrative forms. Instruction Mode: Lecture Grading Option: Letter

ENGL 402 Narrative Composition
Units: 4 Max Units: 08 Intermediate practical workshop concentrating on the creation of narrative in fiction and literary nonfiction. Prerequisite: ENGL 302 or ENGL 305 Recommended Preparation: ENGL 261g, ENGL 262g, ENGL 263g Instruction Mode: Lecture Grading Option: Letter
ENGL 403 Nonfiction Writing
Units: 4 Max Units: 8 Terms Offered: FaSp
A practical course in composition of prose fiction. Prerequisite: ENGL 303 or ENGL 305 Instruction Mode: Lecture Grading Option: Letter

ENGL 404 The Writer in the Community
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSp Apprenticeship with experienced writer-teachers, providing students with a pedagogical framework and practical experience for teaching creative writing in schools and community settings. Instruction Mode: Lecture Grading Option: Letter

ENGL 405 Fiction Writing
Units: 4 Max Units: 8 Terms Offered: FaSp A practical course in composition of prose fiction. Prerequisite: ENGL 303 or ENGL 305. Instruction Mode: Lecture Grading Option: Letter

ENGL 406 Poetry Writing
Units: 4 Max Units: 8 Terms Offered: FaSp A practical course in poetry writing. Prerequisite: ENGL 304. Instruction Mode: Lecture Grading Option: Letter

ENGL 407 Advanced Fiction Writing
Units: 4 Max Units: 8 Terms Offered: FaSp Prerequisite: ENGL 405. Instruction Mode: Lecture Grading Option: Letter

ENGL 408 Advanced Poetry Writing
Units: 4 Max Units: 8 Terms Offered: FaSp Prerequisite: ENGL 406. Instruction Mode: Lecture Grading Option: Letter

ENGL 420 English Literature of the Middle Ages (1100–1500)
Units: 4 Terms Offered: FaSp Selected studies in major figures, genres, and themes of Middle English literature to Malory, with special emphasis on Chaucer. Prerequisite: ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 421 English Literature of the 16th Century
Units: 4 Selected studies in the non-dramatic literature of Renaissance England, with emphasis on Sidney, Spenser, and Shakespeare. Prerequisite: ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 422 English Literature of the 17th Century
Units: 4 Selected studies of prose and poetry in the age of Bacon, Donne, Jonson, Herbert, Browne, Marvell, and Milton. Prerequisite: ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 423 English Literature of the 18th Century (1660–1780)
Units: 4 Selected studies in poetry, prose, and fiction, such writers as Defoe, Dryden, Fielding, Richardson, Pope, Swift, and Johnson. Prerequisite: ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 424 English Literature of the Romantic Age (1780–1832)
Units: 4 Selected studies in major writers, including Blake, Austen, Wordsworth, Coleridge, Byron, Mary Shelley, P.B. Shelley, and Keats. Prerequisite: ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 425 English Literature of the Victorian Age (1832–1890)
Units: 4 Selected studies in the prose and poetry of such figures as Tennyson, Dickens, the Brontes, the Brownings, Hopkins, Arnold, Ruskin, and Newman. Prerequisite: ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 426 Modern English Literature (1890–1945)
Units: 4 Studies in English literary modernism, including the prose of Conrad, Joyce, and Woolf and the poetry of Pound, Eliot, Yeats, and Auden. Prerequisite: ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 430 Shakespeare
Units: 4 Terms Offered: FaSp Major history plays, comedies, and tragedies. Instruction Mode: Lecture Grading Option: Letter

ENGL 440 American Literature to 1865
Units: 4 Terms Offered: FaSp American poetry and prose to the Civil War with special attention to Irving, Cooper, Poe, Hawthorne, Emerson, Thoreau, Melville, and Whitman. Corequisite: ENGL 263. Instruction Mode: Lecture Grading Option: Letter

ENGL 441 American Literature, 1865 to 1920
Units: 4 Terms Offered: FaSp American poetry and prose with special attention to Twain, James, Dickinson, Henry Adams, Crane, and Dreiser. Corequisite: ENGL 263. Instruction Mode: Lecture Grading Option: Letter

ENGL 442 American Literature, 1920 to the Present
Units: 4 Terms Offered: FaSp American poetry, fiction, and drama since World War I with special attention to Eliot, Frost, Hemingway, Fitzgerald, O'Neill, Stevens, Faulkner, and Nabokov. Corequisite: ENGL 263. Instruction Mode: Lecture Grading Option: Letter

ENGL 444m Native American Literature
Units: 4 Terms Offered: FaSp Survey of Native American literature, including oral traditions and print genres, such as short story, poetry, novel, and autobiography, from 1700 to the present. Recommended Preparation: ENGL 263. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-444

ENGL 445m The Literatures of America: Cross-Cultural Perspectives
Units: 4 Introduction to African-American, Chicano, Asian American, and Native-American literatures — and to the literary diversity of American cultures. Instruction Mode: Lecture Grading Option: Letter

ENGL 446 African-American Poetry and Drama
Units: 4 Survey of black poetry and plays in America from the Emancipation to the present, with special emphasis on the new poets and dramatists of the current "Black revolution." Instruction Mode: Lecture Grading Option: Letter

ENGL 447m African-American Narrative
Units: 4 Development of the novel in African-American literature beginning with the anti-slavery fiction of William W. Brown and his pre-Emancipation contemporaries and concluding with the emerging novelists of the late sixties. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETST-447

ENGL 448m Chicano and Latino Literature
Units: 4 Terms Offered: FaSp (Enroll in AMST 448)

ENGL 449m Asian American Literature
Units: 4 Terms Offered: FaSp (Enroll in AMST 449)

ENGL 454 Aesthetic Philosophy and Theory
Units: 4 (Enroll in COLT 454)

ENGL 461 English Drama to 1800
Units: 4 Terms Offered: FaSp Representative plays, especially those of the Elizabethan, Jacobean, and Restoration periods. Corequisite: ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 462 British and American Drama 1800–1950
Units: 4 Terms Offered: FaSp Representative plays of England, Ireland, and the United States, especially those written after 1890. Corequisite: ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 465 The English Novel to 1800
Units: 4 Theory and practice of fiction in works of writers such as Defoe, Richardson, Fielding, Sterne, Burney, and Smollett. Corequisite: ENGL 261. Instruction Mode: Lecture Grading Option: Letter

ENGL 466 The 19th Century English Novel
Units: 4 Theory and practice of fiction in works of major writers such as Austen, Dickens, Thackeray, George Eliot, Meredith, and Hardy. Corequisite: ENGL 262. Instruction Mode: Lecture Grading Option: Letter

ENGL 475 Politics and the Novel
Units: 4 (Enroll in COLT 475) Instruction Mode: Lecture Grading Option: Letter

ENGL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ENGL 491 Senior Seminar in Literary Studies
Units: 4 Terms Offered: FaSp Selected problems in literary history and criticism. Instruction Mode: Lecture Grading Option: Letter

ENGL 492 Narrative Studies Capstone Seminar
Units: 4 Individual research, reading, writing and project development as a senior capstone experience in the study of narrative. Registration Restriction: Open only to seniors in Narrative Studies Instruction Mode: Lecture Grading Option: Letter

ENGL 495 Senior Honors Seminar
Units: 4 Terms Offered: FaSp Advanced seminar involving extensive reading, research, and discussions. Selected subjects; offered in Fall only and restricted to Honors students. Instruction Mode: Lecture Grading Option: Letter

ENGL 496 Senior Honors Thesis
Units: 4 Terms Offered: Sp Seminar in workshop form to accompany completion of Senior Honors Thesis. Bi-weekly meetings to complete the thesis according to contract. Prerequisite: ENGL 491. Instruction Mode: Lecture Grading Option: Letter
ENGL 497 Senior Seminar in Early Modern Studies
Units: 4 Terms Offered: Sp. Intensive engagement with current research problems, and methodologies in Early Modern discourses and cultures. Required capstone seminar for interdepartmental minor in early modern studies. Open only to seniors; open only to early modern studies minors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-497. AHIS-497

ENGL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Studies in the works of one or more authors, or in the development of a theme or genre. Instruction Mode: Lecture Grading Option: Letter

ENGL 501 History of Literary and Cultural Theory
Units: 4 The assumptions and practices of major theorists and theoretical schools from Plato to literary modernism. Instruction Mode: Lecture Grading Option: Letter

ENGL 502 Contemporary Literary and Cultural Theory
Units: 4 The assumptions and practices of major post-modern theorists and theoretical schools. Instruction Mode: Lecture Grading Option: Letter

ENGL 503 Theories of History, Ideology and Politics
Units: 4 The principal ways in which history, ideology, and politics have informed the study of literary and cultural discourse. Instruction Mode: Lecture Grading Option: Letter

ENGL 504 Theories of Race, Class, and Gender
Units: 4 The principal methods and assumptions by which race, class, and gender have been studied in reference to literary and cultural discourse. Instruction Mode: Lecture Grading Option: Letter

ENGL 505 History, Theories and Practice of Cultural Studies
Units: 4 Max Units: 12.0 Terms Offered: FaSp Looking at specific case histories, this course introduces students to the basic methods, theories and activities in cultural studies. Instruction Mode: Lecture Grading Option: Letter

ENGL 506 Medieval English Literatures and Cultures
Units: 4 Max Units: 12.0 Investigations of chivalry and romance, allegory, drama, popular literature in the Middle Ages, the reception of medieval literature, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 507 Rhetoric and Language
Units: 4 Examining of rhetorical and linguistic theories; may include the changing structures of English discourse, social, poetic and discourse analysis. Instruction Mode: Lecture Grading Option: Letter

ENGL 508 History, Theories and Practice of Cultural Studies
Units: 4 Max Units: 12.0 Terms Offered: FaSp Looking at specific case histories, this course introduces students to the basic methods, theories and activities in cultural studies. Instruction Mode: Lecture Grading Option: Letter

ENGL 530 Restoration and 18th Century British Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in prose, poetry, drama, and culture of the period 1660–1800. Instruction Mode: Lecture Grading Option: Letter

ENGL 535 Literatures and Cultures of the Romantic Period
Units: 4 Max Units: 12.0 Studies in British literature and culture from the 1790s to 1830s, including gender and genre, authorship and authenticity, "romance" and revolution, forms of belief and doubt, and other topics. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Max Units: 12.0 Studies in British literature and society, 1837–1901, including gender and genre, industrialism, science and technology, empire and race, new forms of media and narrative, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 540 19th Century British Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in the Romantics and Victorians, gender and genre, the new woman and the novel, authorship and the marketplace, science, imperialism, the crisis of narrative, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 550 20th Century British Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in literary modernism, critical scrutiny and moral seriousness, poetry and politics, the Irish revival, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 560 Early American Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in the literature of discovery, exploration and conquest, the Puritan migration, literary genres in Colonial America, history and myth of American origins, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 563 Poetry and Prose Into Drama
Units: 4 Terms Offered: Fa (Enroll in THTR 501)

ENGL 570 18th Century American Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in the rhetoric, literature, and language of the pre-revolutionary and revolutionary periods, narrative and polemical writing, the American Enlightenment, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 580 19th Century American Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in canonic and non-canonic literature in the American Renaissance, cultural nationalism, the consequences of race, immigration, expansion, urbanization, science, and the marketplace, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree must be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 591 20th Century American Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in urban and rural fictions, modernism, the shift from imagism and symbolism to confessional poetry, recovered writers, hemispheric traditions, literature and kindred arts, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 592 Contemporary British and American Literatures and Cultures
Units: 4 Max Units: 12.0 Studies in contemporary women and ethnic writers, "extra-literary" forms (journalism, autobiography), the theatre of the absurd, post-modern fabulations, and other modes and issues since World War II. Instruction Mode: Lecture Grading Option: Letter

ENGL 593 Practicum in Teaching English and Narrative Studies
Units: 2 Max Units: 08 Terms Offered: FaSpSm Practical principles for development of effective teaching within the disciplines of English, Creative Writing, and Narrative Studies. Intended for teaching assistants in English. Registration Restriction: Open only to English and Creative Writing majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 595 Literary Studies Across Cultures
Units: 4 Max Units: 12.0 Studies in Empire and Commonwealth literatures, post-colonialism, American hemispheric connections, African-American literary discourse, Asian American narratives and the folk, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Thematic, theoretical, or experimental studies in British and American literatures and cultures. Duplicates Credit in former ENGL 699. Instruction Mode: Lecture Grading Option: Letter

ENGL 600 Publication in Humanities Journals
Units: 4 Max Units: 8 Terms Offered: FaSp Development of academic strategies for preparing articles for publication in scholarly journals. Aspects of publication will include abstracts, introductions, argumentation, style and footnotes. Instruction Mode: Lecture Grading Option: Letter

ENGL 601 Introduction to Literary Editing and Publishing
Units: 4 Terms Offered: Fa Comprehensive introduction to the MA degree and its range of study, focusing on elements of the craft of editing and the literary marketplace. Instruction Mode: Lecture Grading Option: Letter
ENGL 602 Writers in the World: Text and Context
Units: 4  Terms Offered: Sp Editing and publishing within the tradition of literary and cultural influences upon a wide range of authors, readers and genres. Instruction Mode: Lecture Grading Option: Letter

ENGL 603 The Editorial Experience: The Craft of Publication
Units: 4  Terms Offered: Fa An intensive workshop in applied English, coordinating literary analysis with editing and publishing, including relationships with authors; academic and trade presses; journals; editing and design. Instruction Mode: Lecture Grading Option: Letter

ENGL 604 The Nonfiction Experience: A Literary-Editorial Focus
Units: 4  Terms Offered: Fa Topics on literary and popular forms: profile portrait; science writing; food writing; place and travel; memoir, and personal essay; with venues for publication. Instruction Mode: Lecture Grading Option: Letter

ENGL 605 The History of Rhetoric
Units: 4  Max Units: 12.0 Studies in European and American rhetoric and their contexts. Instruction Mode: Lecture Grading Option: Letter

ENGL 607 Digital Publishing and Literary Writing for New Media
Units: 4  Terms Offered: Sp Discussion of literary texts combined with hands-on digital practice in composition, design and fabrication for electronic publication, including formal, technical and philosophical issues. Instruction Mode: Lecture Grading Option: Letter

ENGL 608 Publishing on Both Sides of the Transom
Units: 4  Terms Offered: Sp Editorial and publishing workshop with an intensive hands-on student project following the progress of a single piece of writing from manuscript to print. Instruction Mode: Lecture Grading Option: Letter

ENGL 609a Internship in Editing and Publishing: Eloquence and Ethics
Units: 2  Terms Offered: Fa Practical experience in the publishing world for acquiring skills and knowledge beyond the classroom. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 609b Internship in Editing and Publishing: Eloquence and Ethics
Units: 2  Terms Offered: Sp Practical experience in the publishing world for acquiring skills and knowledge beyond the classroom. Prerequisite: ENGL 609a Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 610 Theory and Criticism
Units: 4  Max Units: 12.0 Studies in meaning and meaning-making, form, comparative theory, theories of history and culture, theory in the classroom, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 612 History of the Book and Material Bibliography
Units: 4  Max Units: 12 Terms Offered: FaSp Book history and the use of primary source material in literary research. Grading Option: Letter

ENGL 620 Literature and Interdisciplinary Studies
Units: 4  Max Units: 12.0 Issues and theory of studying literature in relation to history, science, politics, psychology, religion, sociology, media, the visual arts, and other disciplines. Instruction Mode: Lecture Grading Option: Letter

ENGL 620 History and Ideology of Gender
Units: 4  Max Units: 12.0 History and ideology of gender studies, feminist theory, gay and lesbian discourse, and other studies in feminisms and masculinities in relation to literature. Instruction Mode: Lecture Grading Option: Letter

ENGL 620 Multicultural Literary Studies
Units: 4  Max Units: 12.0 Theories of race and ethnicity, cultural imperialism, discourse of power and class, literatures of the Americas, and other topics. Instruction Mode: Lecture Grading Option: Letter

ENGL 660 Studies in Genre
Units: 4  Max Units: 12.0 History, transformation, and theory of genre; studies in epic, lyric, drama, comedy, tragedy, the novel, biography, essay, and other forms. Instruction Mode: Lecture Grading Option: Letter

ENGL 678 Seminar in Film Theory and Medium Specificity
Units: 4  Max Units: max 8 (Enroll in CTCS 678)

ENGL 679 Seminar in Genre and/or Narrative Theory
Units: 4  Max Units: max 8 (Enroll in CTCS 679)

ENGL 693 Graduate Nonfiction Form and Theory
Units: 4  Max Units: 16 Terms Offered: FaSp Study of conventional and experimental works of creative nonfiction, from memoir to poetry, criticism and scholarship, focusing on issues of form, ethics, style and audience. Registration Restriction: Open only to English and Creative Writing doctoral students. Instruction Mode: Lecture Grading Option: Letter

ENGL 694 Graduate Nonfiction Writing Workshop
Units: 4  Max Units: 16 Terms Offered: FaSp Intensive practicum in advanced level nonfiction writing, intended to develop high level creative compositional ability. Registration Restriction: Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to Creative Writing PhD degree candidates.

ENGL 695 Graduate Fiction Form and Theory
Units: 4  Max Units: max 16 Terms Offered: FaSp Seminar. Studies in fiction form and function or critical theory. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

ENGL 696 Graduate Poetry Writing Workshop
Units: 4  Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level poetry writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to doctoral English students. Instruction Mode: Lecture Grading Option: Letter

ENGL 697 Graduate Fiction Writing Workshop
Units: 4  Max Units: max 16 Terms Offered: FaSp Intensive practicum in advanced level fiction writing, intended to develop high level creative compositional ability. Open only to Creative Writing PhD degree candidates. Registration Restriction: Open only to English doctoral students. Instruction Mode: Lecture Grading Option: Letter

ENGL 698 Graduate Poetry Form and Theory
Units: 4  Max Units: 16 Terms Offered: FaSp Seminar. Studies in poetry form and function or critical theory. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

ENGL 700x Theories and Practices of Professional Development I
Units: 2  Terms Offered: FaSp A structured environment in which to craft a research project, write a dissertation prospectus, and define areas of professional expertise. Recommended Preparation: passage of screening exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 701x Theories and Practices of Professional Development II
Units: 2  Terms Offered: Fa This two-credit course helps ABD students craft their professional identities and placement materials as they make the transition from graduate school to their academic position. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11
12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ENGL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
### Engineering

**ENGR 100a Engineering Honors Colloquium**
- **Units:** 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**ENGR 100b Engineering Honors Colloquium**
- **Units:** 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**ENGR 100c Engineering Honors Colloquium**
- **Units:** 1 Recent developments in a highly technological society with emphasis on selected topics. Enrollment limited to members of the Viterbi School of Engineering Honors Program.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**ENGR 101 Introduction to Engineering**
- **Units:** 3 Terms Offered: Fa, Gateway to the majors and minors in engineering.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**ENGR 102 Engineering Freshman Academy**
- **Units:** 2 Introduction to the profession of engineering. Ethical, political and societal concerns of engineering innovations.
- **Instruction Mode:** In-progress
- **Grading Option:** Letter

**ENGR 150L Engineering Science and Systems: From Humans to Robots**
- **Units:** 3 Terms Offered: Fa Hands-on multidisciplinary engineering course that uses robotics as a theme to cover material from all areas of engineering. Laboratory, programming, team projects; end-of-semester exhibition. Open only to freshmen. **Recommended Preparation:** Basic programming experience (e.g., C, C++, C#, Java, Python). **Registration Restriction:** Open only to freshmen.
- **Instruction Mode:** Lecture, Lab Required
- **Grading Option:** Letter

**ENGR 301 Technical Entrepreneurship**
- **Units:** 3 (Enroll in BUAD 301)

**ENGR 305 Engineering Biology Matters**
- **Units:** 3 Terms Offered: Fa Engineering students will learn biological phenomena in the context of engineering principles and explore biological mechanisms and processes as analogies for designing engineered systems. **Recommended Preparation:** CHEM 105a, MASC 110.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**ENGR 345 Principles and Practices of Global Innovation**
- **Units:** 3 Terms Offered: Sp Learner-centered, cross-cultural, technology-enabled approaches to principles and industrial practices leveraging cultural diversity to inspire innovations for competitive global markets. Requires an extended semester of 22 weeks, including 2-week overseas project in early summer.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**ENGR 395x Cooperate Education Work Experience**
- **Units:** 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required.
- **Instruction Mode:** Lecture
- **Grading Option:** In-progress & Credit/No Credit

**ENGR 395bx Cooperative Education Work Experience**
- **Units:** 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required.
- **Instruction Mode:** Lecture
- **Grading Option:** In-progress & Credit/No Credit

**ENGR 395cx Cooperative Education Work Experience**
- **Units:** 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required.
- **Instruction Mode:** Lecture
- **Grading Option:** In-progress & Credit/No Credit

**ENGR 395dx Cooperative Education Work Experience**
- **Units:** 1 or 2 Max Units: 5.0 Supervised work experience in a professional environment related to a specific degree program, academic level, and career objective. Acceptance into Cooperative Education Program required.
- **Instruction Mode:** Lecture
- **Grading Option:** In-progress & Credit/No Credit

**ENGR 400 Engineering Honors Project**
- **Units:** 1, 2, 3 Max Units: 12.0 Terms Offered: FaSpSm Supervised interdisciplinary studies and projects. Enrollment limited to members of the Viterbi School of Engineering Honors Program.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**ENGR 401x Communicating Science and Engineering to Children**
- **Units:** 3 Max Units: 6.0 Terms Offered: FaSp Engineers student communicate their knowledge, collaborate constructively with peers, and inspire underserved children to develop a curiosity and persistency for science and engineering.
- **Registration Restriction:** Open only to juniors and seniors engineering students.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**ENGR 410 Social Media for Scientists and Engineers**
- **Units:** 2 Terms Offered: FaSp An introduction to the various ways in which social media and science are intersecting in a compelling manner; new technologies and online communities are powerful tools that are changing the ways in which scientists are engaging one another (inreach) and general audiences (outreach).
- **Instruction Mode:** Lecture
- **Grading Option:** Crosslisted as ITP 410

**ENGR 461 Engineering Economics and Technology Development**
- **Units:** 4 Terms Offered: Sp Introduction to the theory and practice of engineering economics in the context of technology development.
- **Registration Restriction:** Open only to juniors and seniors.
- **Instruction Mode:** Lecture

**ENGR 471a Interdisciplinary Capstone Design**
- **Units:** 2 Terms Offered: Fa A culminating experience in applying technical skills they have acquired in their engineering coursework to solve a design problem sponsored by an external customer.
- **Prerequisite:** ENGR 471a
- **Registration Restriction:** Open only to juniors and seniors.
- **Instruction Mode:** Lecture, Lab
- **Grading Option:** Letter

**ENGR 471b Interdisciplinary Capstone Design**
- **Units:** 2 Terms Offered: Sp A culminating experience in applying technical skills they have acquired in their engineering coursework to solve a design problem sponsored by an external customer.
- **Prerequisite:** ENGR 471a
- **Registration Restriction:** Open only to juniors and seniors.
- **Instruction Mode:** Lecture, Lab
- **Grading Option:** Letter

**ENGR 493 Dean’s Seminar in Entrepreneurship: Disruptive Technologies with an Entrepreneurial Mindset**
- **Units:** 2 Terms Offered: Fa, Wa Understand, evaluate and manage disruptive technologies in the context of starting and developing a new business. Lectures and discussions with a diverse array of successful business leaders and entrepreneurs.
- **Registration Restriction:** Open only to sophomores, juniors, seniors or first year graduate students in Engineering.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**ENGR 499 Special Topics**
- **Units:** 2, 3, 4 Max Units: 8.0 Current developments in the field of engineering.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**ENGR 501x Engineering Writing and Communication for Master’s Students**
- **Units:** 3 Terms Offered: FaSp Academic and discipline-specific writing skills.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**ENGR 502x Writing Skills for Engineering PhD Students**
- **Units:** 2 Max Units: 4.0 Terms Offered: FaSpM Wrting of engineering curriculum- and research-related projects for PhD students. Focus is on conference papers,
dissertations and proposals, journal articles, and other forms. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 503x Oral Communication Skills for Engineering PhD Students
Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Academic and professional presentation skills for PhD students. Preparation for qualifying exams, conference paper presentations, and other forms of oral communication. Use of visual aids and poster displays included. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 504x Fellowship Proposal Writing for Engineering PhD Students
Units: 2 Terms Offered: FaSp Preparation of essays and other materials for research fellowship applications. Open only to PhD engineering students. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 509x Patent Law for Scientists and Engineers
Units: 3 Terms Offered: Sp Tools for engineering and science graduate students to make informed decisions about obtaining and enforcing patent protection for their future inventions: validity, infringement, unenforceability. Recommended Preparation: EE 682 or ISE 565. Instruction Mode: Lecture Grading Option: Letter

ENGR 555 Invention and Technology Development
Units: 3 (Enroll in ISE 555) Grading Option: Graded CR/NC.

ENGR 559a Professional Writing and Communication for Internships
Units: 1 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 559b Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 559a Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 559c Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 559b Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 559d Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 559c Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 559z Professional Writing and Communication for Internships
Units: 0 Terms Offered: FaSpSm Focus on writing and communication skills for master's students pursuing a professional internship. Prerequisite: ENGR 559d Registration Restriction: Open only to graduate engineering students Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 596 Internship in Engineering
Units: 1 Max Units: 3.0 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 597x Internship in Engineering with Professional Writing and Communication
Units: 5 Terms Offered: FaSpSm Practical work experience; professional communication and writing skills. Registration Restriction: Open only to master students in engineering Credit Restriction: Not available for graduate credit Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 598 Professional Internship Experiences
Units: 0 Terms Offered: FaSpSm Part-time or full-time practical work experience in a particular field of study. The internship must be located at an off-campus facility. Prerequisite: ENGR 597x Registration Restriction: Open only to master students in engineering Instruction Mode: Lecture Grading Option: Credit/No Credit

ENGR 599 Special Topics
Units: 2, 3, 4 Current developments in the field of engineering; topics to be selected each semester. Instruction Mode: Lecture Grading Option: Letter

Environmental Studies

ENST 100g Introduction to Environmental Studies
Units: 4 Terms Offered: FaSp Gateway to the majors and minors in Environmental Studies. Provides students with an overview of how government agencies and societal institutions address (or fail to address) the interrelated social and scientific aspects of environmental problems and policies. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

ENST 150gx Environmental Issues in Society
Units: 4 Terms Offered: Fa Exploration of the major social, political, economic, religious, and philosophical disagreements that exist between scholars, leaders, and citizens concerning today's most serious environmental issues and problems. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category C: Social Analysis Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as IR-150

ENST 201 Introduction to Applied Environmental Science and Engineering
Units: 4 (Enroll in EN 201)

ENST 270 Introduction to Environmental Law and Policy
Units: 4 Terms Offered: Sp Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. Recommended Preparation: background in natural science and/or environmental studies Duplicates Credit in former ENST 298 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCG 298a

ENST 298bl Introduction to Scientific Diving
Units: 2 Terms Offered: Sp Extensive academic preparation in the physics, physiology, safety, and methodology for in-water scientific diving. Prerequisite: ENST 298a Recommended Preparation: background in natural science and/or environmental studies Duplicates Credit in former ENST 298 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCG 298b

ENST 310 Sustainable Fisheries Management
Units: 4 Terms Offered: Sp Examination of scientific, social, political, and economic factors of fisheries management, engaging students in key issues of coastal and marine sustainability. Prerequisite: ENST 100g Recommended Preparation: Any introductory Biology course Instruction Mode: Lecture Grading Option: Letter

ENST 320a Water and Soil Sustainability; Energy and Air Sustainability
Units: 4 Terms Offered: Fa Overview of issues related to water and soil sustainability including science, policy and business aspects. Recommended Preparation: ENST 100g Duplicates Credit in former ENST 420. Instruction Mode: Lecture Grading Option: Letter

ENST 320b Water and Soil Sustainability; Energy and Air Sustainability
Units: 4 Terms Offered: Sp Overview of issues related to water and soil sustainability including science, policy and business aspects. Recommended Preparation: ENST 100g Duplicates Credit in former ENST 430. Instruction Mode: Lecture Grading Option: Letter

ENST 323 Politics of Global Environment
Units: 4 (Enroll in IR 323)

ENST 335 Science, Health and the Environment
Units: 4 Terms Offered: Sp Exploration of environmentally transmitted human diseases; understanding the human/pathogen/environment nexus that leads to disease in human populations; disease transmission reduction. Prerequisite: BISC 103Lgx or BISC 120Lgx Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 335

ENST 344 Environmental Ethics
Units: 4 Terms Offered: Sp Explores issues concerning behavior of humans towards the nonhuman world. Examines a wide spectrum of ethical issues. Prerequisite:
**ENST 100 or ENST 150**  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 347 Environmental Law**  
**Units:** 4 (Enroll in POSC 347)

**ENST 352 Conservation Biology**  
**Units:** 4  
**Terms Offered:** Sp (Enroll in BISC 352)

**ENST 370 Marine and Coastal Environmental Policy**  
**Units:** 4  
**Terms Offered:** Sp  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 387 Economics for Natural Resources and the Environment**  
**Units:** 4  
**Terms Offered:** Fa, Sp  
**Recommended Preparation:** ENST 100, ENST 387.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 390 Special Problems**  
**Units:** 1-4  
**Supervised, Individual Studies:** No more than one registration permitted. Enrollment by petition only.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 396 Directed Governmental and Political Leadership Internship**  
**Units:** 2, 3, 4  
**Terms Offered:** Fa, Sp, Sm  
**Instruction Mode:** Lecture  
**Recommended Preparation:** ENST 320a, ENST 320b, Instruction Mode: Lecture  
**Grading Option:** Letter

**ENST 410 Water and Energy Management in the Asia-Pacific Region**  
**Units:** 4  
**Terms Offered:** Sp  
**Prerequisite:** ENST 320a, ENST 320b, Instruction Mode: Lecture  
**Grading Option:** Letter

**ENST 412 Oceans, Climate, and the Environment**  
**Units:** 4  
**Terms Offered:** FaSp  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 413 Sustainable Aquaculture and Food Security**  
**Units:** 4  
**Terms Offered:** Fa  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 440 Environmental Risk Assessment**  
**Units:** 4  
**Terms Offered:** Sp  
**Prerequisite:** ENST 320b or POSC 270  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 445 Earth Climate: Past, Present, and Future**  
**Units:** 4  
**Terms Offered:** Fa, Sp  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 456L Conservation Genetics**  
**Units:** 4  
**Terms Offered:** Sp  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 466 Business and Environmental Sustainability**  
**Units:** 4  
**Terms Offered:** Enroll in MOR 466

**ENST 470 Environmental Hydrogeology**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 480 Integrated Ecosystem Management in Micronesia**  
**Units:** 4  
**Terms Offered:** SpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 483 Tropical Coastal Zone Sustainability**  
**Units:** 4  
**Terms Offered:** Sm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 485 Role of the Environment in the Collapse of Human Societies**  
**Units:** 4  
**Terms Offered:** Sm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 487 Resource and Environmental Economics**  
**Units:** 4  
**Terms Offered:** Enroll in ECON 487

**COURSES OF INSTRUCTION**  

**ENST 495 Senior Seminar in Environmental Studies**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 499 Special Topics**  
**Units:** 1, 2, 3, 4, 5, 6, 7, 8  
**Max Units:** 8  
**Terms Offered:** FaSpSm

**ENST 500 Interdisciplinary Approaches to Environmental Studies**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 501 Environmental Science I**  
**Units:** 2  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 502 Interdisciplinary Approaches to Environmental Studies**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 504 Environmental Science II**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 400 Directed Research**  
**Units:** 1, 2, 3, 4, 5, 6, 7, 8  
**Max Units:** 12.0  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 490 Directed Research**  
**Units:** 1, 2, 3, 4, 5, 6, 7, 8  
**Max Units:** 12.0  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 492 Directed Environmental Policy and Science Internship**  
**Units:** 2, 4  
**Max Units:** 4  
**Terms Offered:** FaSp  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 495 Senior Seminar in Environmental Studies**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 500 Interdisciplinary Approaches to Environmental Studies**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 501 Environmental Science I**  
**Units:** 2  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 502 Interdisciplinary Approaches to Environmental Studies**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 504 Environmental Science II**  
**Units:** 4  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**ENST 490 Directed Research**  
**Units:** 1, 2, 3, 4, 5, 6, 7, 8  
**Max Units:** 12.0  
**Terms Offered:** FaSpSm  
**Instruction Mode:** Lecture  
**Grading Option:** Letter
ENST 505a Advanced Environmental Science Seminar
Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 505b Advanced Environmental Science Seminar
Units: 2 Terms Offered: FaSp Ties together science, technology, and finance with risk assessment and policy. Instruction Mode: Lecture Grading Option: Letter

ENST 510 Statistics for Environmental Analysis
Units: 4 This course introduces graduate students to the various quantitative techniques and methodological approaches used in pollution control, natural resources management, and environmental protection. Instruction Mode: Lecture Grading Option: Letter

ENST 520 Environmental Law and Policy
Units: 4 Terms Offered: Sp Introduces students to the central issues, concepts, and theories in environmental law and policy and analyzes present environmental laws and regulations. Instruction Mode: Lecture Grading Option: Letter

ENST 530 Environmental Risk Analysis
Units: 4 Terms Offered: Fa Analyzes various potential environmental risks and examines how science, government, and business measure and prepare for environmental risks. Instruction Mode: Lecture Grading Option: Letter

ENST 540 California Coastal Zone Science and Policy
Units: 4 Terms Offered: Sp Science and policy issues used to characterize and manage California coastal resources. Key issues include: coastal pollution, public health, ecosystem management, and marine reserves. Recommended Preparation: ENST 500. Instruction Mode: Lecture Grading Option: Letter

ENST 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: in-progress to Credit/No Credit

ENST 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: in-progress to Credit/No Credit

ENST 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: in-progress to Credit/No Credit

ENST 595 Graduate Seminar in Environmental Studies
Units: 4 Terms Offered: Sp Addresses the obstacles to environmental policymaking and management by examining the interrelationships between science, technology, and social science. Recommended Preparation: ENST 500, ENST 501, ENST 502, ENST 503, ENST 504. Instruction Mode: Lecture Grading Option: Letter

ENST 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Subjects specifically relevant to an environmental studies field. Conducted as an intensive short courses. Instruction Mode: Lecture Grading Option: Letter

Design

DES 102 Design Fundamentals
Units: 4 Terms Offered: FaSp Introduction to the basic elements and processes of visual communication and design. Instruction includes studio projects, lectures and readings. Various media used. Duplicates Credit in former FADN 102 Instruction Mode: Lecture Grading Option: Letter

DES 105 Art and Design Studio I
Units: 4 Terms Offered: FaSp (Enroll in ART 105)

DES 106 Art and Design Studio II
Units: 4 Terms Offered: FaSp (Enroll in ART 106)

DES 110 Drawing for Art and Design
Units: 4 Terms Offered: FaSpSm (Enroll in ART 110)

DES 123xg The Design Challenge: Exploring the Design Process
Units: 4 Terms Offered: FaSpSm An overview of the creative design process and introduction to techniques to solve visual problems. Satisfies New General Education in Category A: The Arts Credit Restriction: Not available for credit for Roski majors Instruction Mode: Lecture Grading Option: Letter

DES 202 Design II
Units: 4 Terms Offered: FaSp Exploration of essential elements of traditional and digital design, including color and image-text integration, editing information, typography and sequencing. Prerequisite: DES 102 or FADN 102 Corequisite: DES 203 or FADN 203 Duplicates Credit in former FADN 202 Instruction Mode: Lecture Grading Option: Letter

DES 203 Digital Tools for Design
Units: 2 Terms Offered: FaSp Exploration of the processes of germination, ideation and application/execution in design integrated with computer usage. Corequisite: DES 202 Duplicates Credit in former FADN 203 Instruction Mode: Lecture Grading Option: Letter

DES 213 Digital Tools in 3D Design
Units: 2 Terms Offered: FaSp 3D digital modeling, rendering, digital capture and production methods for product, package and environmental design. Prerequisite: FADN 102 or DES 102 Instruction Mode: Lecture Grading Option: Letter

DES 230 3D Design: Materials and Tools
Units: 4 Terms Offered: FaSp Introduction to the study of 3-D Design. Includes a wide investigation of materials, tools, and techniques specific to dimensional design as they apply to package, product, and environmental design. Prerequisite: DES 102 or FADN 102 or ART 140 Duplicates Credit in former FADN 230 Instruction Mode: Lecture Grading Option: Letter

DES 302 Design III
Units: 4 Terms Offered: FaSp Advanced exploration of typography and image-text integration, including collaborative projects, pre-press and proofing techniques, narrative concepts and information architecture. Prerequisite: DES 202 or FADN 202 Duplicates Credit in former FADN 302 Instruction Mode: Lecture Grading Option: Letter

DES 303 Web Design
Units: 2 Terms Offered: FaSp A workshop-based course that focuses on software applications in design and web design. Prerequisite: DES 203 or FADN 203 Duplicates Credit in former FADN 303 Instruction Mode: Lecture Grading Option: Letter

DES 313 Graphic Design in Fashion
Units: 4 Terms Offered: FaSpSm An intensive studio and lecture course focusing on the applications of graphic design in fashion and related fields. Prerequisite: DES 102 or FADN 102 Recommended Preparation: DES 203 Duplicates Credit in former FADN 313 Instruction Mode: Lecture Grading Option: Letter

DES 314 Illustration for Art and Design
Units: 2 Terms Offered: FaSp (Enroll in ART 314)

DES 322 Publication Design
Units: 4 Terms Offered: FaSp Application of layout, typography, design principles and image making in the design of actual production of books, magazines, zines and digital books. Prerequisite: (DES 202 or FADN 202) and (DES 203 or FADN 203) Recommended Preparation: DES 332a Instruction Mode: Lecture, Lab Grading Option: Letter

DES 323g Design Theory
Units: 4 Terms Offered: FaSp A comprehensive study of visual communication focusing on graphic design from 1900 to the present. An introduction to design thinking, language and principles including political and cultural implications. Satisfies New General Education in Category A: The Arts Duplicates Credit in former FADN 323 Instruction Mode: Lecture Grading Option: Letter

DES 330 3D Design: Objects and Space
Units: 4 Terms Offered: FaSp A continuation of DES 230 to produce finished models and prototypes of package, product and environmentally-based designs in actual and virtual space. Prerequisite: DES 230 or FADN 230 Duplicates Credit in former FADN 330 Instruction Mode: Lecture Grading Option: Letter

DES 332a Typography
Units: 2 Terms Offered: FaSp The study of visual communication through the use of letterforms from historical tradition to contemporary experimental rebellion. Duplicates Credit in former FADN 332a Instruction Mode: Lecture Grading Option: Letter

DES 332b Typography
Units: 2 Terms Offered: FaSp Continuation of DES 332a. Prerequisite: DES 332a or FADN 332a Duplicates Credit in former FADN 332b Instruction Mode: Lecture Grading Option: Letter

DES 333 New York Design Study Tour
Units: 2 Terms Offered: Sp Historical and contemporary aspects of the New York design world, including a one-week trip to New York City to visit design firms, studios and museums. Airfare and accommodations extra. By application only. Duplicates Credit
in former FADN 333 Instruction Mode: Lecture Grading Option: Letter

DES 402 Advanced Design Projects
Units: 4 Max Units: 12 Terms Offered: FaSp Advanced information design within a flexible curriculum. Emphasis on team-oriented projects. Prerequisite: DES 302 or FADN 302 Duplicates Credit in former FADN 402 Instruction Mode: Lecture Grading Option: Letter

DES 413 Professional Practice in Design
Units: 4 Terms Offered: FaSp A summation of one’s practice, with a focus on transitioning to a career as a professional designer. Prerequisite: DES 402 or FADN 402 Registration Restriction: Open only to Seniors in the Roski School of Art and Design Instruction Mode: Lecture Grading Option: Letter

DES 418 Independent Studies in Design
Units: 1, 2, 3, 4 Max Units: 12 Terms Offered: FaSpSm Independent research of specific topics under the direction of a faculty member. Administrative and faculty approval required. Recommended Preparation: appropriate 300-level course work. Topic Mode: Lecture Grading Option: Letter

DES 419 Professional Internship in the Arts
Units: 2 Max Units: 4 Terms Offered: FaSpSm Internship for credit. Students work on projects for outside clients, and receive instruction in professional practices, advanced design techniques, and sophisticated technology. By invitation or portfolio review only. Only open to upper division students. Prerequisite: DES 302 or FADN 302 Duplicates Credit in former FADN 432 Instruction Mode: Lecture Grading Option: Letter

DES 433 International Design Study Tour
Units: 2 Terms Offered: FaSp An immersive experience in the design culture of a global city or region that includes a short (two-week or less) international trip. Instruction Mode: Lecture Grading Option: Letter

DES 494a Senior Thesis
Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. Registration Restriction: Open only to senior BFA Design majors Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

DES 494b Senior Thesis
Units: 2 Terms Offered: FaSpSm Research and writing of a senior-level thesis or thesis project under the supervision of a faculty committee. Prerequisite: DES 494a Registration Restriction: Open only to senior BFA Design majors Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

DES 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

DES 503 Contemporary Issues in Design
Units: 4 Terms Offered: FaSpAn analytic seminar of topics, ideas and concepts in the contemporary design world. Instruction Mode: Lecture Grading Option: Letter

DES 513 Visiting Designers Forum
Units: 2 Max Units: 04 Terms Offered: Fa Professional practice of design featuring formal presentations by visiting designers. Instruction Mode: Lecture Grading Option: Letter

DES 514 Designers in Residence Forum
Units: 2 Max Units: 04 Terms Offered: Sp Seminar in the professional practice of design featuring formal presentations and mentoring opportunities by designers in residence. Instruction Mode: Lecture Grading Option: Letter

DES 520 Individual Studies
Units: 2 Max Units: 06 Terms Offered: FaSp Investigation of creative problems through various design media. Instruction Mode: Lecture Grading Option: Letter

DES 523 Design Theory
Units: 4 Terms Offered: FaSp A critical examination of contextual issues, theories, movements and ideas that are relevant to the contemporary design practice in collaboration with a professional client. Instruction Mode: Lecture Grading Option: Letter

DES 530 Design Studio Co-Lab
Units: 2 Max Units: 06 Terms Offered: FaSpSm A critical examination of contextual issues, theories, movements and ideas that are relevant to the contemporary design practice in collaboration with a professional client. Instruction Mode: Lecture Grading Option: Letter

DES 543 Design Study Tour
Units: 2 Terms Offered: FaSpSm Historical and contemporary aspects of urban design with visits to design firms, studios and museums in selected cities across the United States. Adventures in design, accommodations extra. Instruction Mode: Lecture Grading Option: Letter

DES 550 Advancement
Units: 2 Terms Offered: FaSpSm A preparatory workshop to prepare students to apply to candidacy. Recommended Preparation: Completion of 24 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree are determined by the department. Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 591 Field Internship Experience
Units: 2 Terms Offered: FaSpSm Supervised internship in a design firm, or with an independent designer, on projects and research specific to design practice. Recommended Preparation: Completion of first year of courses Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594a Master’s Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Recommended Preparation: 30 units of course work Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594b Master’s Thesis
Units: 2 Terms Offered: FaSpSm Master’s thesis Prerequisite: DES 594a Recommended Preparation: 30 units of coursework Registration Restriction: Open only to master students in the USC Roski School of Art and Design Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 594z Master’s thesis
Units: 0 Terms Offered: FaSpSm Credit upon acceptance of master’s thesis. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

DES 599 Special Topics
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Selected topics in the various specialty areas within design at the graduate level. Topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Finance and Business Economics
FBE 206 The Power of Personal Finance
Units: 2 Terms Offered: FaSp Develop knowledge and skills in areas of money management, budgeting, financial goal attainment, insurance, credit cards, and investments. Instruction Mode: Lecture Grading Option: Letter

FBE 299 Special Topics
Units: 2, 4 Max Units: 4 Terms Offered: FaSpSm Introduction to current developments in finance and business economics. Instruction Mode: Lecture Grading Option: Letter

FBE 391 Real Estate Finance and Investment
Units: 4 Terms Offered: FaSp Sm introduction to income-producing real estate from the perspective of finance, market analysis, capital markets, development and investment. Includes focus on analytical techniques and computer applications. Prerequisite: BUAD 215 or BUAD 306. Duplicates Credit in former BBE 365. Instruction Mode: Lecture Grading Option: Letter

FBE 400x Introduction to Real Estate Finance and Development
Units: 4 Terms Offered: Fa Case analysis examining economic and financial aspects of real estate decisions for non-business majors. Focuses on dynamics of financing, markets and the development process. Duplicates Credit in former FBE 200x. Instruction Mode: Lecture Grading Option: Letter

FBE 402 Government and Business
Units: 4 American mixed capitalism, welfare, market failure, and the role of government in business; regulation and the public utilities, antitrust policy, and current topics in regulation-deregulation. Instruction Mode: Lecture Grading Option: Letter

FBE 403 Introduction to the Legal Environment of Business
Units: 4 Terms Offered: FaSp Legal
principles of business: litigation process, constitutional law, torts, product liability, crimes, contracts, sales and leases, intellectual property, international law, agency, employment law, and ethics. Duplicates Credit in the former BUAD 403. Instruction Mode: Lecture Grading Option: Letter

FBE 416 Managerial Economics
Units: 4 Application of microeconomic theory to problems of the firm, quantification of demand and cost relationships; pricing policies. Prerequisite: BUAD 311; and BUAD 351 or ECON 203 or ECON 351. Instruction Mode: Lecture Grading Option: Letter

FBE 421 Financial Analysis and Valuation
Units: 4 Terms Offered: FaSp This course develops and uses tools of financial analysis to evaluate the performance and assess the value of individual companies in an industry context. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 423 Introduction to Venture Capital and Private Equity
Units: 4 Terms Offered: FaSp Introduction to venture capital and private equity. Topics include fundraising, valuation of new firms and venture capital securities, and exiting investments through public offerings. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 424 Financial Institutions and Capital Markets
Units: 4 Terms Offered: FaSp Money and capital markets; derivative markets; foreign exchange markets; investment banks and nonbank finance, financial crises; commercial banks, Federal Reserve and conduct of monetary policy. Prerequisite: (BUAD 351 and BUAD 352) or (ECON 203g and ECON 205g) or (ECON 351x and ECON 352x). Registration Restriction: Open only to Sophomores, Juniors and Seniors. Duplicates Credit in former FBE 324 Instruction Mode: Lecture Grading Option: Letter

FBE 427 Real Estate Law
Units: 4 Terms Offered: FaSp Principles of law regarding real property transactions: buyer-seller, debtor-creditor, landlord-tenant relationships; environmental law and land use control; investments and syndication. Instruction Mode: Lecture Grading Option: Letter

FBE 428 Introduction to Employment Law
Units: 4 Terms Offered: FaSpSm Survey of current employment law topics including employment discrimination arising within modern workplaces. Legal and business strategies for managing diversity law, organizational success. Instruction Mode: Lecture Grading Option: Letter

FBE 429 International Business Law
Units: 4 Terms Offered: FaSp Introductory course on the legal and regulatory environment of international business transactions. Instruction Mode: Lecture Grading Option: Letter

FBE 431 Financial Policies and Corporate Governance
Units: 4 Terms Offered: FaSp Presentation of the theory and institutional details of corporate finance, with emphasis on debt and dividend policies, governance/ voting rights, and security issuance and retirement. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 432 Corporate Financial Strategy
Units: 4 Terms Offered: FaSp Linkage between financial theory and policy and corporate strategy, the role of financial managers in developing corporate strategy; applications of concepts and techniques using cases. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 433 Corporate Governance and CEO Pay
Units: 4 Terms Offered: Sp Explores how value is created (or destroyed) through incentive compensation and corporate governance. Focus on bonuses, stock options, executive compensation, and financing policies. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 435 Applied Finance in Fixed Income Securities
Units: 4 Terms Offered: Sp Emphasis on hedging tools necessary for portfolio managers. Introduction of all securities available in fixed income and provision of tools to analyze investments. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 436 Financial Management of Multinational Corporations
Units: 4 Terms Offered: International scope and dimension of financial planning; working capital management; financing and investment decisions of multinational corporations. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 437 Entrepreneurial Finance: Financial Management for Developing Firms
Units: 4 Terms Offered: FaInternal financial management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 440 Trading and Exchanges
Units: 4 Terms Offered: Sp Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 441 Investments
Units: 4 Terms Offered: FaSp Theories and applications of investment decision-making; the behavior of security prices, portfolio theory, asset pricing models, market efficiency, bond valuation and term structure, derivative securities. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 443 Introduction to Forecasting and Risk Analysis
Units: 4 Terms Offered: Sp Introduction to econometric tools and versions of Capital Asset Pricing Models to estimate financial risk, stock market risk premia and to project economic activity. Prerequisite: (BUAD 215x or BUAD 306) and (BUAD 310x or BUAD 312). Instruction Mode: Lecture Grading Option: Letter

FBE 453a Advanced Practicum in Investment Management
Units: 4 Terms Offered: Fa Application of investment management techniques in a laboratory setting. Open only to students admitted to the Marshall Undergraduate Student Investment Fund program. Instruction Mode: Lecture Grading Option: Letter

FBE 453b Advanced Practicum in Investment Management
Units: 4 Application of advanced investment management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization, off-site visits and presentations. Open only to senior business majors. Instruction Mode: Lecture Grading Option: Letter

FBE 458 Law of Forming, Financing and Managing Businesses
Units: 4 Terms Offered: FaSpSm Law and ethics of agency, partnerships, corporations, limited liability companies, governmental regulation, mergers, creditor rights, secured transactions, bankruptcy, securities regulation and antitrust. Instruction Mode: Lecture Grading Option: Letter

FBE 459 Financial Derivatives
Units: 4 Terms Offered: FaA rigorous introduction to the pricing and corporate use of financial derivatives — futures, options, forwards, and swaps — on stocks, exchange rates, bonds, and commodities. Prerequisite: BUAD 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 460 Mergers, Acquisitions and Restructuring
Units: 4 Terms Offered: FaSpSm Practical understanding of the major strategic, economic, financial, human resources, and governance issues of mergers, acquisitions, and restructuring. Prerequisite: BUAD 215x or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 462 International Trade, Finance and Commercial Policy
Units: 4 Terms Offered: FaSp Commercial policies, treaty relationships, examination of policies influencing world trade and finance, the international financial system, exchange rates. Prerequisite: (ECON 203g and ECON 205g) or (BUAD 351 and BUAD 352) or (ECON 351x and ECON 352x). Registration Restriction: Open only to sophomores, juniors, and seniors. Instruction Mode: Lecture Grading Option: Letter

FBE 465 Real Estate Analysis and Computer Modeling
Units: 2 Terms Offered: FaSp Real estate
valuation. Three approaches to valuation: Market comparison, income, and cost. Highest and best use analysis. State of the art real estate software. Prerequisite: FBE 391 or FBE 400 Instruction Mode: Lecture Grading Option: Letter

FBE 466 Management of Real Estate Development: Feasibility Studies Units: 4 Terms Offered: Sp By means of a significant real-world case study chosen each term, the development process is examined from the interrelated perspectives of finance, market analysis, and design and construction technology. Team-generated development proposals are prepared and presented in a consulting environment that includes industry participants. Prerequisite: FBE 391 and FBE 470 or FBE 400. Instruction Mode: Lecture Grading Option: Letter

FBE 469 Mixed Use Development Process Units: 4 Terms Offered: Sp (Enroll in RED 469)

FBE 470 Advanced Real Estate Analysis Units: 4 Terms Offered: FaSpSm A mixed lecture/case approach covering market analysis, asset valuation, ownership structure, negotiation, asset management, corporate real estate, portfolio management, and affordable housing, appraisal and advanced financial modeling. Prerequisite: FBE 391. Duplicates Credit in former FBE 465. Instruction Mode: Lecture Grading Option: Letter

FBE 489 Real Estate Capital Markets Units: 4 Terms Offered: Fa Topics in real estate capital markets including markets for debt and equity; residential and commercial mortgages and mortgage-backed securities; REITs; institutional sources of capital. Prerequisite: FBE 391 or FBE 400 Instruction Mode: Lecture Grading Option: Letter

FBE 491 Real Estate Finance Colloquium Units: 2 Terms Offered: FaSp Sm The economic and financial aspects of the real estate industry. Lessons from history, the origin of real estate markets, how real estate markets work. Instruction Mode: Lecture Grading Option: Letter

FBE 495x Practicum in Business Issues (Internship) Units: 1 Max Units: 12.0 Terms Offered: FBE 495x Combined classroom discussion and structured, supervised field application of business theories and practices within a part-time employment context. Open only to undergraduate students in Finance and Business Economics certificate. Registration Restriction: Open only to undergraduate students in Finance and Business Economics certificate. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 499 Special Topics Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Current developments in the field of finance and business economics; topics to be selected each semester. Prerequisite: BUS 215 or BUAD 306. Instruction Mode: Lecture Grading Option: Letter

FBE 501 Investment Banking Fundamentals Units: 1.5 Terms Offered: FaSpSm The role of an investment banking associate. Students will effectively function as a junior banker through a sell-side merger and acquisition (M & A) process. Registration Restriction: Online registration open only to graduate accounting and business students Instruction Mode: Lecture Grading Option: Letter

FBE 504 The FinTech Revolution: Disrupting Traditional Finance Units: 1.5 Terms Offered: FaSp Emerging business models including crowdfunding, marketplace lending, new payment solutions and wealth management automation. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 506 Quantitative Methods in Finance Units: 3 Terms Offered: Fa The development of single and bivariate mathematical and statistical methods used in modern finance and economics and applications of these methods. Registration Restriction: Open only MS in Finance students Duplicates Credit in former FBE 506a and FBE 506b Instruction Mode: Lecture Grading Option: Letter

FBE 515 Deals Units: 3, 4 (Enroll in LAW 815)

FBE 523 Venture Capital and Private Equity Units: 3 Terms Offered: FaSpSm Advanced analysis of the economics of the private equity markets. Consider and value private securities in venture capital, initial public offerings, and leveraged buyouts. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 524 Money and Capital Markets Units: 3 Terms Offered: Fa Review of financial institutions and markets, the determinants of interest rates, the impact of government regulation and policy on the financial system. Prerequisite: GSBA 521a or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 525 Financial Institution Management, Strategy and Valuation Units: 3 Terms Offered: Fa Application of economic and financial analytic techniques to the managerial problems of financial institutions and implications for financial firm strategy and valuation. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 526 Macroeconomic Analysis for Business Units: 3 Terms Offered: Sp The economic environment of business: American economic and social goals and policies and their impact on business; growth, stability, and the new priorities; international forces influencing business. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

FBE 527 Entrepreneurial Finance: Financial Management for Developing Firms Units: 3 Terms Offered: FaSpSm Internal management of developing firms. Cash flow analysis; capital budgeting; sources of financing; risk analysis; measurement of profits; and mergers and acquisitions. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 529 Financial Analysis and Valuation Units: 3 Terms Offered: FaSp An applications-oriented course to develop the financial and accounting tools required to do financial planning valuation and assessment of financial performance. Prerequisite: GSBA 521b or GSBA 548 Duplicates Credit in FIM 529 Instruction Mode: Lecture Grading Option: Letter

FBE 531 Corporate Financial Policy and Corporate Governance Units: 1.5, 3 Terms Offered: FaSp Advanced analysis of the determinants of corporate capital structure and payout policies, allocation and value of corporate control, and security issuance and retirement. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 532 Corporate Financial Strategy Units: 3 Terms Offered: FaSpSm Linkage between financial theory and policy and corporate strategy; the role of financial managers in developing strategy; applications of concepts and techniques using cases. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 533 CEO Pay, Corporate Governance, and the Politics of Finance Units: 3 Terms Offered: Sp Explores how value is created (or destroyed) in organizations, focusing on compensation and incentive systems and the causes and consequences of government (and populist) intervention. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 535 Applied Finance in Fixed Income Securities Units: 1.5, 3 Terms Offered: FaSp Analysis of underlying fixed income securities and how these principles apply to the practical aspects of fixed income management. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 540 Hedge Funds Units: 3 Terms Offered: FaSpSm Hedge funds, the quantitative tools and business plans used to implement them. Prerequisite: GSBA 521b or GSBA 548. Recommended Preparation: statistics and calculus. Instruction Mode: Lecture Grading Option: Letter

FBE 543 Forecasting and Risk Analysis Units: 3 Terms Offered: SpSm Application of econometric tools and versions of capital asset pricing models to estimate financial risk and stock market risk premia for portfolio management. Prerequisite: FBE 506 or GSBA 506b or GSBA 524a or (GSBA 516 and GSBA 545) Instruction Mode: Lecture Grading Option: Letter

FBE 545 Applied Financial Modeling Units: 3 Terms Offered: FaSp Hands-on Excel skills necessary to analyze complicated financial situations and to present the analysis in a coherent and professional manner. Registration Restriction: Online registration open only to graduate business and accounting students
FBE 550 High Yield Bond Investing - Managing Credit Risk
Units: 1.5
Terms Offered: FaSp Review: the structure of the high yield bond market.
Develop a practical approach to assess credit risk and understand how deals are structured and priced. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

FBE 551 Quantitative Investing
Units: 3
Terms Offered: Fa Build, test and implement the types of models in use by quantitative asset managers. Prerequisite: FBE 555 Instruction Mode: Lecture Grading Option: Letter

FBE 553a Applied Portfolio Management
Units: 3
Terms Offered: Fa Application of portfolio management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. Prerequisite: FBE 553a Instruction Mode: Lecture Grading Option: Letter

FBE 553b Applied Portfolio Management
Units: 3
Terms Offered: Sp Application of advanced portfolio management techniques in a laboratory setting. Bond portfolio management, quantitative stock screens, derivatives trading, portfolio optimization. Off-site visits and presentations. Prerequisite: FBE 553b Instruction Mode: Lecture Grading Option: Letter

FBE 554 Trading and Exchanges
Units: 3
Terms Offered: Sp Theories, practices, and technologies of trading at exchanges and in dealer networks. Sources of liquidity, volatility, profitability, and institutional change. Domestic and international public policy issues. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 555 Investment Analysis and Portfolio Management
Units: 3
Terms Offered: FaSp Analysis and management of common stocks and fixed income securities; development of modern portfolio theory and the efficient market hypothesis; organization of securities markets. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 557 Business Law and Ethics
Units: 3
Terms Offered: FaSpSm Business law of traditional and e-contracts, UCC, crimes, torts, employment, ethics, social responsibility, intellectual property, digital law, e-commerce, accountants' liability, property, estates, and government regulation. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

FBE 558 Law for Structuring, Financing, and Managing Businesses
Units: 3
Terms Offered: FaSp Legal environment of agency law, general and limited partnerships, limited liability companies, corporate formation and financing, corporate governance, securities law, acquisitions, bankruptcy, and business ethics. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

FBE 559 Management of Financial Risk
Units: 3
Terms Offered: FaSp Analysis of commodity, futures, and options contracts; theoretical and empirical approaches; spot and futures price relationships, speculation and hedging strategies; market efficiency. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 580 Mergers and Acquisitions
Units: 3
Terms Offered: Sp Practical application of the critical components of mergers and acquisitions: deal flow strategies, preliminary negotiations, deal structures, due diligence, valuation, post-merger integration, and regulations. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 563 Global Trade and Finance
Units: 3
Terms Offered: Sp Impact of trade globalization on goods, services and financial securities on business decisions; special attention to foreign currency markets, foreign investments and international portfolios investments. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

FBE 564 International Financial Management
Units: 3
Terms Offered: Sm Financial management of the multinational firm; legal entities and taxation abroad; risk in foreign operations; strategies in foreign exchange, money and capital markets and institutions. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 565 Economics of Urban Land Use: Feasibility Studies
Units: 3
Terms Offered: Sp Economic, market and financial analysis related to feasibility of real estate development; theory and case analysis. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 570 Advanced Topics in Real Estate Finance
Units: 3
Terms Offered: Fa Current topics in real estate finance including sources of equity and debt, the role of capital markets, REITs, conduits, portfolio analysis, and acquisition of distressed assets. Cases and analytic methods. Prerequisite: GSBA 521b or GSBA 548; Recommended Preparation: FBE 591. Instruction Mode: Lecture Grading Option: Letter

FBE 571 Introduction to Financial Analysis: Practicum
Units: 3
Terms Offered: FaSp This introductory financial analysis (tools, techniques) practicum, emphasizes practical application of asset valuation and portfolio management techniques for those with little previous experience. Prerequisite: GSBA 548 or GSBA 521b. Duplicates Credit in FBE 572 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 572 Intermediate Financial Analysis: Practicum
Units: 3
Terms Offered: Sp This practicum emphasizes asset valuation, including applications of tools and inputs (including economics, accounting, and quantitative techniques) in asset valuation for those with prior experience. Prerequisite: GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 573. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 573 Advanced Financial Analysis: Practicum
Units: 3
Terms Offered: Sp This is an advanced practicum emphasizing portfolio management skills, including applied strategies (tools, inputs) in equity and fixed-income management for those with extensive prior experience. Prerequisite: GSBA 548 or GSBA 521b. Duplicates Credit in FBE 571 and FBE 572. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 588 Advanced Real Estate Law
Units: 3
Terms Offered: Sm Legal aspects of real estate transactions; partnerships, syndicates, and other ownership forms. Legal aspects of land use control, zoning and environmental impact reports. Registration Restriction: Online registration open only to graduate accounting and business students. Duplicates Credit in RED 562. Instruction Mode: Lecture Grading Option: Letter

FBE 589 Mortgages and Mortgage-Backed Securities and Markets
Units: 3
Terms Offered: FaSpSm Analysis and analysis of residential and commercial mortgages and mortgage-backed securities and related markets. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 591 Real Estate Finance and Investment
Units: 3
Terms Offered: FaSpSm Analysis of investment in and financing of real estate assets including projections, valuation, deal structure, contracts, portfolio and tax and entity considerations. Prerequisite: GSBA 521b or GSBA 548. Instruction Mode: Lecture Grading Option: Letter

FBE 592 Field Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4
Max Units: 12.0
Terms Offered: FaSpSm Individual or team projects studying the business practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

FBE 593 Independent Research in Finance or Business Economics
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4
Max Units: 12.0
Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and
written report/paper required. **Registration Restriction:** Open only to master students. **Instruction Mode:** Lecture Grading Option: Credit/No Credit

**FBE 595 Internship in Finance or Business Economics**
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student’s area of interest. (Curricular Practical Training.) Graded CR/NC. **Recommended Preparation:** Completion of required MBA, MAcc, MBA, or MS Finance course work. **Registration Restriction:** Open only to master and doctoral students. **Instruction Mode:** Lecture Grading Option: Credit/No Credit

**FBE 596 Research Practicum in Finance or Business Economics**
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Finance and Business Economics Department on an ongoing research project. **Registration Restriction:** Open only to master and doctoral students. **Instruction Mode:** Lecture Grading Option: Credit/No Credit

**FBE 597 Consulting Project in Finance or Business Economics**
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12 Terms Offered: FaSp Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. **Recommended Preparation:** Completion of required MBA, MAcc, MBA, or MS Finance course work. **Registration Restriction:** Open only to graduate students. **Instruction Mode:** Lecture Grading Option: Credit/No Credit

**FBE 598 Special Topics**
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. **Registration Restriction:** Online registration open only to graduate and accounting students. **Instruction Mode:** Lecture Grading Option: Credit/No Credit

**FBE 599 Special Topics**
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: Irregular Current developments in the field of Finance and Business Economics; topics to be selected each semester. **Registration Restriction:** Online registration open only to graduate and accounting students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 621 Research Forum**
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Finance and Business Economics. Presentations by faculty, visiting researchers, and advanced students. Open only to Marshall PhD students. **Instruction Mode:** Lecture Grading Option: Credit/No Credit

**FBE 630 Fundamentals of Corporate Finance**
Units: 1.5 Terms Offered: Sp Core theory and empirical evidence in corporate finance. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 631a Advanced Corporate Finance**
Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. A: financial intermediation, investment-cash flow sensitivity, internal capital markets, diversification, and business groups. **Prerequisite:** FBE 630 Registration Restriction: Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 631b Advanced Corporate Finance**
Units: 1.5 Terms Offered: FaSp Advanced and frontier issues in corporate finance. B: mergers and divestitures, product market competition, corporate governance, and finance and development. **Prerequisite:** FBE 630 Registration Restriction: Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 633 Fundamentals of Asset Pricing**
Units: 1.5 Terms Offered: Sp Financial Economics course that focuses on core theory and empirical evidence in asset pricing. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 634a Advanced Asset Pricing**
Units: 1.5 Terms Offered: FaSp Advanced asset pricing in financial economics focusing on advanced empirical methods: (a) emphasis on quantitative models, (b) emphasis on GMM and regression. **Prerequisite:** FBE 633a Registration Restriction: Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 634b Advanced Asset Pricing**
Units: 1.5 Terms Offered: FaSp Advanced asset pricing in financial economics focusing on advanced empirical methods: (a) emphasis on Quantitative models, (b) emphasis on GMM and regression. **Prerequisite:** FBE 634a Registration Restriction: Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 652 Financial Economics I**
Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on management science theory and evidence. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 653 Financial Economics II**
Units: 3 Terms Offered: Irregular Doctoral level seminar in financial economics; concentration on contingent claims and continuous time models. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 654 Ph.D. Seminar-Empirical Research Methods in Finance**
Units: 3 Terms Offered: Irregular Empirical financial research methods are introduced. Applications are discussed and critiqued. Special attention is given to new statistical methods and to identifying fruitful research programs. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 655 Financial Economics III**
Units: 3 Terms Offered: Sp Doctoral-level seminar in financial economics; concentration on the theory of corporate governance and incentives in organizations. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 670 Selected Topics in Finance Research**
Units: 1.5 Max Units: 6 Terms Offered: FaSp Selected topics in finance research. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**FBE 699 Special Topics**
Units: 1, 1.5, 2, 3 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary finance and/or business economics. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**Food Industry Management**

**FIM 410 Leadership in the Food Industry**
Units: 2 Terms Offered: Sp An integrated approach for executives in the food industry to understand different leadership styles, tools, and dynamics while working to further define and improve their own leadership skills. **Registration Restriction:** Open only to Food Industry Management students. **Instruction Mode:** Lecture Grading Option: Letter

**FIM 481 Marketing Management in the Food Industry**
Units: 4 Terms Offered: Sp Development of communication skills required to write well, to speak dynamically and persuasively, to cultivate relationships using interpersonal communication skills, and to implement organizational strategies. **Registration Restriction:** Open only to Food Industry Management students. **Instruction Mode:** Lecture Grading Option: Letter

**FIM 482 Communication Management in the Food Industry**
Units: 2 Terms Offered: Sp Theory and practice of financial analysis and valuation in the food industry. **Registration Restriction:** Open only to Food Industry Management students. **Instruction Mode:** Lecture Grading Option: Letter

**FIM 485 Financial Analysis and Valuation in the Food Industry**
Units: 2 Terms Offered: Sp Theory and practice of financial analysis and valuation in the food industry. **Registration Restriction:** Open only to Food Industry Management students. **Instruction Mode:** Lecture Grading Option: Letter

**FIM 497 Strategic Management in the Food Industry**
Units: 4 Terms Offered: Sp Introduction to the concepts, tools, and principles of strategy formulation and competitive analysis as applied to food industry management decision-making. **Registration Restriction:** Open only to Food Industry Management students. **Instruction Mode:** Lecture Grading Option: Letter

**FIM 529 Financial Analysis and Valuation in the Food Industry**
Units: 2 Terms Offered: Fa The practical application and integration of finance and accounting concepts to valuing investment projects and companies in the food industry. **Registration Restriction:** Open only to students in the MS in Food Industry Leadership program. Duplicates
Credit in FBE 529 Instruction Mode: Lecture Grading Option: Letter

FIM 550 Perspectives on the Food Industry
Units: 1 Terms Offered: Fa Current issues, new technologies, trends, government policy, emerging technologies and business models facing upstream, midstream, and downstream firms in the food industry. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Instruction Mode: Lecture Grading Option: Letter

FIM 554 Leading Change in the Food Industry
Units: 1 Terms Offered: Sp Significant models of change processes; how and why they are used. Change management tools including organizational culture diagnosis, force field analysis, and social network analysis. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Duplicates Credit in MOR 554 Instruction Mode: Lecture Grading Option: Letter

FIM 559 Food Industry Leadership Capstone Project
Units: 3 Terms Offered: Sp Integrative team projects addressing unstructured business situations for actual clients. Application of analytical tools and critical thinking methods spanning multiple disciplines. Registration Restriction: Open only to students in the MS in Food Industry Leadership program Instruction Mode: Lecture Grading Option: Letter

Fixed Prosthodontics
FPRO 520 Preclinical Fixed Prosthodontics (ISP)
Units: 2 Basic fundamentals of fixed prosthodontics; preparation for clinical procedures in posterior PFM's, posterior mandibular FPD's and in restoring endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

FPRO 521 Preclinical Fixed Prosthodontics I
Units: 3 Fundamentals and principles of posterior prosthodontic procedures, including diagnosis, biomechanic principles, and construction of fixed prosthodontic restorations. Instruction Mode: Lecture Grading Option: Letter

FPRO 522 Preclinical Fixed Prosthodontics II
Units: 3 Fundamentals of aesthetic restorations; fabrication of posterior and anterior porcelain-fused-to-metal restorations and anterior porcelain jacket crown; restoration of endodontically treated teeth. Instruction Mode: Lecture Grading Option: Letter

FPRO 561a Clinic: Fixed Prosthodontics I
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 561b Clinic: Fixed Prosthodontics I
Units: 0 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 562a Clinic: Fixed Prosthodontics II
Units: 0, 1, 2, 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

FPRO 562b Clinic: Fixed Prosthodontics II
Units: 0, 1, 2, 3 Clinical application of fixed prosthodontic principles in patient treatment. Instruction Mode: Lecture Grading Option: Letter

FPRO 601 Advanced Fixed Prosthodontics
Units: 4 Critical review and evaluation of the fixed prosthodontic literature; guided experience in the laboratory and clinical phases of fixed prosthodontic therapy. Instruction Mode: Lecture Grading Option: Letter

French
FREN 012x French 120 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. Requires concurrent enrollment in either FREN 120 French I or MIPA 261 French Language and Diction. Credit Restriction: Not available for major or degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 015x French 150 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to French in order to improve students' French language skills; explicit pronunciation and intonation practice. Concurrent Enrollment: FREN 150 Credit Restriction: Not available for degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 020x Course in Reading French
Units: 2 Terms Offered: FaSpSm For graduate students who wish help in meeting the French reading requirement for the PhD degree. Synoptic presentation of French grammar. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 120 French I
Units: 4 Terms Offered: FaSpSm Introduction to current French. Oral practice, listening and reading comprehension; grammar necessary for simple spoken and written expression. Prerequisite: No previous experience or appropriate placement score. Instruction Mode: Lecture Grading Option: Letter

FREN 150 French II
Units: 4 Terms Offered: FaSpSm Continuation of FREN 120. Prerequisite: FREN 120 or MIPA 261 Instruction Mode: Lecture Grading Option: Letter

FREN 202 Intensive French
Units: 8 Terms Offered: FaSpSm Combines FREN 150 and FREN 220 to allow students to complete both courses in the same semester at an accelerated pace. Prerequisite: FREN 120 Duplicates Credit in FREN 150, FREN 220 Instruction Mode: Lecture Grading Option: Letter

FREN 220 French III
Units: 4 Terms Offered: FaSpSm
Continuation of FREN 150. Review of structural patterns of French; selected cultural and literary readings; conversation and composition. Prerequisite: FREN 150 or appropriate placement score. Instruction Mode: Lecture Grading Option: Letter

FREN 235x Intermediate Conversational French
Units: 2 Terms Offered: FaSp Designed for non-majors interested in maintaining and developing French language competency. Builds vocabulary, ease of communication, and cultural knowledge through discussion of contemporary topics. Graded Credit/No Credit. Not available for credit to French majors. Not open to French majors. Prerequisite: FREN 202 or FREN 220 Registration Restriction: Not open to French majors Credit Restriction: Not available for credit to French majors Instruction Mode: Lecture Grading Option: Credit/No Credit

FREN 236x Professional Communication in French
Units: 2 Terms Offered: FaSp Professional communication skills and cultural competency as preparation for working in an international environment. Prerequisite: FREN 220, Instruction Mode: Lecture Grading Option: Letter

FREN 250 French IV
Units: 4 Terms Offered: FaSpSm Introduction to French literature through the study of texts and audiovisuals organized around a central theme; develops close-reading techniques and discursive skills; reviews French grammar. Prerequisite: FREN 202 or FREN 220 Instruction Mode: Lecture Grading Option: Letter

FREN 270gw Black Europe
Units: 4 Terms Offered: FaSp Study of African migration to Europe and the formation of ‘black’/African communities in Europe, focusing on France and Italy. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspectives in Category C: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ITAL 270

FREN 300 French Grammar and Composition
Units: 4 Terms Offered: FaSpSm Grammatical structure and vocabulary building with practical application to written composition. Prerequisite: FREN 250, Instruction Mode: Lecture Grading Option: Letter

- **Instruction Mode:** Letter Grading Option: Letter

**Geriatric Dentistry**

**GDEN 710 Knowledge Assessment for GDEN Students**
- **Units:** 1 Terms Offered:
  - **Credit/No Credit:** 4.0

**GDEN 711a Case Portfolio Preparation for GDEN Students**
- **Units:** 5 Terms Offered:
  - **FaSpSm:** Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to master's and professional dental students. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 711b Case Portfolio Preparation for GDEN Students**
- **Units:** 5 Terms Offered:
  - **FaSpSm:** Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 712a Capstone Research Project for GDEN Students**
- **Units:** 5 Terms Offered:
  - **FaSpSm:** Examination of clinical cases of geriatric patients through online conferences. Development and defense of portfolio of multiple cases. Open only to Master and Professional Dental students. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 712b Capstone Research Project for GDEN Students**
- **Units:** 5 Terms Offered:
  - **FaSpSm:** Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 712c Capstone Research Project for GDEN Students**
- **Units:** 5 Terms Offered:
  - **FaSpSm:** Production and defense of a research plan that demonstrates significant understanding of a topic in geriatric dentistry. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 713 Common Systemic Conditions in Older Patients**
- **Units:** 2 Terms Offered:
  - **FaSpSm:** Lectures on topics pertinent to the aging patient that highlight the differences between aging physiologic changes and disease-caused conditions most common to this demographic. Open only to master's and professional dental students. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 714 Topics in Gerontology**
- **Units:** 2 Terms Offered:
  - **FaSpSm:** Gerontology topics for dentists including clinical assessment tools for aging patients, policy issues, myths, social supports, and consent and communication issues in the clinical setting. Open only to master's and professional dental students. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 715 Geriatric Dentistry Issues**
- **Units:** 2 Terms Offered:
  - **FaSpSm:** Common geriatric dentistry topics including epidemiology of oral diseases, common dental diseases, their management and prevention protocols for older adult patients. Open only to master's and professional dental students. **Registration Restriction:** Open only to Master and Professional Dental students. **Instruction Mode:** Lecture Grading Option: Letter

**GDEN 716 Knowledge Assessment for GDEN Certificate Students**
- **Units:** 1 Terms Offered:
  - **Sm Review:** 0 Credit

**GDEN 720 Internal Medicine and Systemic Disease for Dental Residents**
- **Units:** 2 Terms Offered:
  - **FaSpSm:** 4.0

**GDEN 725 Epidemiology, Nutrition and Aging for Dental Residents**
- **Units:** 2 Terms Offered:
  - **FaSpSm:** 4.0

**GDEN 730 OFPM Case Portfolio Preparation for Dental Residents**
- **Units:** 5 Max
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture Grading Option: Letter
GDEN 731 GDEN Case Portfolio Preparation for Dental Residents
Units: 5 Max Units: 01 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with complex medical conditions through online conferences in preparation, development and defense of portfolio of multiple cases. Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711a, GDEN 711b, GDEN 711c, GDEN 711d Instruction Mode: Lecture Grading Option: Letter
GDEN 732 Case Portfolio Defense for GDEN Students
Units: 5 Terms Offered: FaSpSm Examination of clinical cases of geriatric patients with complex medical conditions through online conferences in preparation, development and in person defense of portfolio of multiple cases. Prerequisite: GDEN 730 and GDEN 731 or (GDEN 711a and GDEN 711b and GDEN 711c and GDEN 711d) Registration Restriction: Open only to master and professional dental students in Geriatric Dentistry Duplicates Credit in GDEN 711d Instruction Mode: Lecture Grading Option: Letter
GDEN 733 Research Methodology
Units: 2 Terms Offered: FaSpSm A coordinated approach to understanding, critically assessing and applying the principles of scientific inquiry through the study of clinical relevant, discipline specific literature. Instruction Mode: Lecture Grading Option: Letter
Earth Sciences
GEOL 105Lg Planet Earth
Units: 4 Terms Offered: FaSpSm Geologic structure and evolution of planet earth. Principles of plate tectonics, rocks and minerals, processes of mountain building, continent and ocean formation, earthquakes, volcanism, development of landforms by running water and glaciers. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 107Lg Oceanography
GEOL 108Lg Crises of a Planet
Units: 4 Terms Offered: FaSpSm Impact of civilization on planet earth, and impact of earth's natural evolution on society. Earthquakes, volcanism, landslides, floods, global warming, acid rain, groundwater depletion and pollution; mineral and fossil fuel depletion, formation of the ozone hole. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 151L Exploring California's National Parks
Units: 4 Terms Offered: FaSpSm Overview of basic geologic principles and California geology taught through California's National Parks; additional focus on park history, policy, economics, and geologic hazards affecting parks. Lecture, 3 hours; laboratory, 2 hours. One all-day and one three-day field trip to a National Park required. Instruction Mode: Lecture, Required Lab Grading Option: Letter
GEOL 125Lg Earth History: A Planet and its Evolution
Units: 4 Terms Offered: FaSpSm Basic principles of physics, chemistry, biology, and mathematics used in evaluating clues written in the rock record, and the processes that have shaped our planet. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 126Lg The History of Life on Earth: A View from the Museum
Units: 4 Terms Offered: FaSp Topically-driven exploration of evolution, environmental change, and the history of life on Earth via the fossil record with the Natural History Museum of Los Angeles as a laboratory. How the changing Earth and life co-evolved through time. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 130Lg The Nature of Scientific Inquiry
Units: 4 Terms Offered: FaSp Examination of the scientific process: what constitutes science; evolution of ideas about the nature of space, time, matter, and complexity; paradigm shifts in the biological and earth sciences. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 145Lg Lies, Damn Lies and Statistics
Units: 4 Terms Offered: FaSp Quantitative reasoning tools to form reliable judgment from quantitative evidence, discerning truth from lies, science from pseudoscience. Application to contemporary scientific and social issues. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter
GEOL 150Lg Climate Change
Units: 4 Terms Offered: FaSp Exploration of factors that influence climate and the scientific basis for concern about rising greenhouse gases, the threat to human society known as global warming. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 157Lg The Logic of Climate Change: From Data to Deeds
Units: 4 Terms Offered: Sp Quantitative underpinnings of the scientific case for man-made climate change. Analysis of climate data, examination of potential causes, attribution of causes, and civilizational consequences. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 160Lg Introduction to Geosystems
Units: 4 Terms Offered: FaSpSm Survey of natural geological/environmental processes (systems) and variability active near the earth's surface in the region that houses most life (the biosphere). Satisfies New General Education in Category E: Physical Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 165g Metals and Life on Earth
Units: 4 Terms Offered: Fa The role of metals in life, from the origin of life to modern environmental problems. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Discussion Grading Option: Letter
GEOL 240Lg Earthquakes
Units: 4 Terms Offered: FaSpSm Causes of earthquakes and nature of large faults; earthquake hazard and risk; world's great earthquakes; understanding the Richter scale. Concurrent Enrollment: Concurrent enrollment: MDA 140. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 241Lg Energy Systems
Units: 4 Terms Offered: FaSpSm Energy resources from a global perspective, including fossil fuels, nuclear, and renewable energy. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 290L Special Laboratory
Units: 1 Terms Offered: FaSp Laboratory component for GEOL 105, GEOL 107, GEOL 108, GEOL 125, GEOG 150, or GEOL 240 for students with equivalent lecture credit from another institution. Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 305L Introduction to Engineering Geology
Units: 4 Terms Offered: Sp Principles of geology with emphasis on structural geology, hydrogeology and geological hazards; basic geologic considerations in civil engineering practice; introduction to mineralogy and petrology. Field trip required. Duplicates Credit in GEO 105 and GEO 108. Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 315L Minerals and Earth Systems
Units: 4 Terms Offered: Fa Minerals and their formation in Earth ecosystems; includes discussions of mineral properties, crystal structures, uses and bio geochemical importance. Recommended Preparation: any introductory GEO course. Corequisite: CHEM 105a or CHEM 115a; Instruction Mode: Lecture, Lab Required Grading Option: Letter
GEOL 316L Petrologic Systems
Units: 4 Terms Offered: Sp Formation and
identification of igneous, metamorphic and sedimentary rocks; interpretation of tectonic and environmental settings based on rock type and chemistry. Prerequisite: GEOL 315. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 320L Surfacal Processes and Stratigraphic Systems
Units: 4 Terms Offered: Fa Process research of erosion, sediment transport, and deposition that shape the land surface; landscape response to tectonism; recognition and interpretation of depositional environments in the stratigraphic record. Corequisite: GEOL 315. Duplicates Credit in former GEOL 334L, GEOL 451L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 321L Structural Geology and Tectonics
Units: 4 Terms Offered: Sp Field and theoretical aspects of rock deformation, analysis of structural systems, and stress and strain; orogenic belts and plate tectonics; introduction to field techniques and interpretation of geologic maps. Recommended Preparation: GEOL 320L, GEOL 321L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 425L Data Analysis in the Earth and Environmental Sciences
Units: 4 Terms Offered: Fa An introduction to mathematical methods giving insight into earth and environmental data. Topics include probability and statistics, time-series analysis, spectral analysis, inverse theory, interpolation. Recommended Preparation: GEOL 107L or GEOL 150L or GEOL 160L Corequisite: MATH 125g and (CHEM 105g or CHEM 103g); Registration Restriction: Not open to freshmen. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 412, BISC 412

GEOL 427 The Global Environment
Units: 4 Terms Offered: FaSpSm An undergraduate team research course in Earth Science. A GE course in Earth Science. Systems behavior in the context of climate dynamics. Prerequisites: MATH 125. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 432L Introduction to Field Techniques
Units: 2 Terms Offered: FaSpSm An introduction to field techniques used in a variety of Earth Science disciplines. Field and digital techniques for map making including use of GIS, GPS, and digital tablets. Field analyses of rocks and rock structure. Map interpretation and digital processing of field data. Includes weekly labs and some weekend field trips. Recommended Preparation: GEOL 316L, GEOL 320L, GEOL 321L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 433L Paleontology and Evolution in Deep Time
Units: 4 Terms Offered: FaOrigin and evolution of life; Precambrian life; evolutionary history of major groups during the Phanerozoa; mass extinctions; deep time and evolutionary processes. Recommended Preparation: any introductory GEOL course. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 440L Geophysics and Geoeengineering
Units: 4 Terms Offered: Sp Plate tectonics, magnetic and gravity fields, earthquakes, seismic waves, reflection and refraction, seisms, heat transport, mantle convection, deep Earth structure, data analysis. Includes field trips. Prerequisite: MATH 126; Corequisite: PHYS 135b or PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 441 Seismic Exploration Geophysics
Units: 4 Terms Offered: FaSp Seismic wave theory, ray theory, reflection, refraction, data processing, signal enhancement, field instrumentation and techniques on land and at sea; geological interpretation of seismic data. One field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 445 Earth Climate: Past, Present, and Future
Units: 4 (Enroll in ENST 445)

GEOL 450L Geosystems
Units: 4 Terms Offered: Fa Geosystems, such as mantle convection, active faults, climate, and the carbon cycle, will be studied using numerical models and concepts such as chaos, universality, emergence, and intermittency. Prerequisite: MATH 125; Recommended Preparation: MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 460L Geochemistry
Units: 4 Terms Offered: Fa Composition, origin, and evolution of the earth; principles of physical chemistry applied to aqueous systems; reaction-diffusion modeling and problems in sedimentary geochemistry; global (bio)geochemical cycles and environmental problems. Prerequisite: CHEM 105b or CHEM 115b and MATH 126. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 465L Field Geology
Units: 4 Max Units: 8.0 Terms Offered: SpSm Ten days to four weeks of field study in an area of geological complexity, with preparatory instruction. Recommended Preparation: introductory earth science course, e.g., GEOL 105, GEOL 315. One or more of GEOL 316L, GEOL 320L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 470 Environmental Hydrogeology
Units: 4 Terms Offered: FaSpSm Concepts in hydrogeology and application to environmental problems. Topics include groundwater and surface water hydrology, chemistry, and contamination. Includes labs, guest lectures, and field trips. Recommended Preparation: GEOL 105, GEOL 160. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ENST-470

GEOL 474 Ecosystem Function and Earth Systems
Units: 4 (Enroll in BISC 474)

GEOL 483 Geobiology and Astrobiology
Units: 4 Terms Offered: Sp (Enroll in BISC 483)

GEOL 485L Tectonic Geomorphology
Units: 4 Terms Offered: FaSpSm Focuses on the analysis of landforms that develop and evolve in tectonically active settings through the interplay of tectonics, climate, and surface processes. Recommended Preparation: GEOL 320L, GEOL 321L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 490X Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter
GEOL 491x Earth Sciences Internship
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8
Terms Offered: FaSpSm Local, national, and international internships providing earth sciences experience in a professional setting. Registration Restriction: Not available for graduate credit. Department permission required Instruction Mode: Lecture Grading Option: Letter

GEOL 494x Senior Thesis
Units: 2 Terms Offered: FaSp Writing of a thesis under individual faculty super vision. Instruction Mode: Lecture Grading Option: Letter

GEOL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in the earth sciences. Field trip required when appropriate to the topic. Instruction Mode: Lecture Grading Option: Letter

GEOL 500 Marine Paleocology
Units: 3, 2 Years Terms Offered: Sp Principles of marine paleocology; interrelationships between marine organisms and their environment in geologic time. Recommended Preparation: GEOL 517. Instruction Mode: Lecture Grading Option: Letter

GEOL 501 Paleobiology

GEOL 505 Introductory Graduate Seminar in Earth Sciences
Units: 2 Terms Offered: Fa Lectures by Earth Sciences faculty about current research; introduction of new graduate students to the breadth of current research; applying for research funding; practicing effective research presentations. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 510L Advanced Stratigraphic Field Methods
Units: 3 Terms Offered: Fa Stratigraphic field methods and computer-assisted data analysis. Field trips incorporating vertical and lateral facies analysis; collection of paleocurrent, fabric, paleomagnetic, photogeologic and compaction data. Recommended Preparation: GEOL 302L Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 511 Depositional Systems
Units: 3 Analysis of depositional systems, including conceptual methods of lithofacies, biostratigraphy, chronostratigraphy, and paleocology; description of major depositional environments. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 512 Introduction to Chemical and Physical Oceanography
Units: 4 Terms Offered: Fa (Enroll in OS 512)

GEOL 514 Marine Geology
Units: 3 Terms Offered: Fa Origin and characteristics of ocean basins; marine sedimentary environments; shoreline classification and character; evolution of oceanic features. Instruction Mode: Lecture Grading Option: Letter

GEOL 515 Introduction to Atmospheric Science
Units: 3 Terms Offered: Fa Elementary physical principles underlying the behavior of Earth's atmosphere. Dry and moist thermodynamics, radiative transfer, conservation laws, fundamental dynamical balances, instability theory, cloud physics. Recommended Preparation: PHYS 161, PHYS 304. Instruction Mode: Lecture Grading Option: Letter

GEOL 520 Biosedimentology
Units: 3 Terms Offered: FaSpSm Ancient and recent bioturbation and microbial structures and their utilization in stratigraphic, paleoenvironmental, paleoecological, sedimentological and geochemical studies. Recommended Preparation: GEOL 320L and GEOL 433L Instruction Mode: Lecture Grading Option: Letter

GEOL 521L Advanced Structural Geology
Units: 3 Terms Offered: FaSp Advanced field and theoretical aspects of rock deformation, strain, stress analysis, and interpretation of structural systems. Includes lab, field trip(s), and class project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 525 The Science of Climate Change
Units: 4 Terms Offered: Sp Introduction to the fundamental aspects and the factors that influence ocean and atmospheric behavior, and how the earth’s climate has varied in the past. Instruction Mode: Lecture Grading Option: Letter

GEOL 530 Modern Perspectives on Crustal Dynamics
Units: 3 Max Units: 12 Terms Offered: FaSpDeformation mechanisms, strength and structure of the crust. Fractal scaling in structures and dynamic processes, Geodetic measurement of crustal deformation and spatio-temporal patterns of seismicity. Instruction Mode: Lecture Grading Option: Letter

GEOL 531 Plate Interactions: Geological Aspects
Units: 3, 2 Years Terms Offered: Sp Principles and geometrics of plate tectonics; geologic characteristics of modern plate boundaries of divergent, convergent, transform type; ocean basin and ocean development from worldwide examples. Field trip. Instruction Mode: Lecture Grading Option: Letter

GEOL 532 Advanced Geologic Mapping
Units: 3 Terms Offered: Fa Principles of mapping geologically complex terranes of different structural style. Fieldwork will be coordinated with seminar review of diverse structural phenomena. Field trips. Recommended Preparation: GEOL 321, GEOL 465. Instruction Mode: Lecture Grading Option: Letter

GEOL 533L Continental Margin Arcs
Units: 3 Evolution of continental margin arcs, magmatic systems within arcs. Arcs as tectonic elements and "differentiation factories" leading to formation and removal of continental material. Recommended Preparation: GEOL 316, GEOL 321. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 534L Mechanics of Lithospheric Deformation
Units: 3 Terms Offered: Fa The mechanical description of deformational processes at both continental and lithospheric scales, and the interpretation of geological and geophysical data in terms of these processes. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 535L Microstructures and Deformation Mechanisms
Units: 3, 3 Years Terms Offered: Fa Examination of deformation mechanisms and resulting microstructures in rocks; chemical and textural equilibria; physical and chemical processes during fluid flow; prophyroblast-matrix relationships; interpretation of kinematic indicators. Laboratory. Prerequisite: GEOL 321. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 536 Principles of Geomagnetism and Paleomagnetism
Units: 3, 2 Years Terms Offered: Sp Historic geomagnetic field behavior, secular variation, rock magnetism, paleomagnetic techniques, magnetic polarity time scale, apparent-polar-wander paths, and applications to strati graphic and tectonic studies. Recommended Preparation: GEOL 440. Instruction Mode: Lecture Grading Option: Letter

GEOL 537 Rock Mechanics
Units: 3, 2 Years Terms Offered: Sp Elasticity, fracture, and flow properties of rocks and minerals; effects of temperature, pressure, petrology, fractures, and interstitial fluids. Experimental techniques and geological applications. Instruction Mode: Lecture Grading Option: Letter

GEOL 538 Tectonic Evolution of Western North America
Units: 3, 2 Years Terms Offered: Sp Geosynclinal and orogenic development of western North America from the Precambrian to present, in the light of plate tectonics concepts. Field trips. Recommended Preparation: GEOL 321. Instruction Mode: Lecture Grading Option: Letter

GEOL 540 The Mantle System
Units: 3 Terms Offered: Sp Dynamics and structure of the deep earth and its relationship to earth evolution. Recommended Preparation: GEOL 440 and GEOL 534. Instruction Mode: Lecture Grading Option: Letter

GEOL 545 Modeling and Numerical Techniques for Marine Scientists
Units: 4 Terms Offered: Sp (Enroll in BISC 545)

GEOL 550 Chemical Equilibrium and Disequilibrium in Geology
Units: 3, 2 Years Terms Offered: Sp Phase equilibria; phase diagrams; thermodynamics of aqueous and solid solutions; irreversible thermodynamics; kinetics, diffusion, and metasomatism, with applications to problems in petrology and geochemistry. Prerequisite: GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 551 Introduction to Seismology
Units: 3, 2 Years Terms Offered: Fa Basic elements of seismology for the study of the earth’s interior and the tectonic process,
utilizing observations of seismic waves. Instruction Mode: Lecture Grading Option: Letter

GEOL 552 Advanced Seismology
Units: 3 Advanced methods of theoretical seismology for studying the generation of seismic waves from natural and artificial sources and the propagation through realistic earth models. Instruction Mode: Lecture Grading Option: Letter

GEOL 553 Physics of Earthquakes
Units: 3, 2 years Terms Offered: Fa Basic physics of earthquakes and seismicity. Continuum elasticity; fracture mechanics; laboratory friction; damage rheology; physics of critical phenomena; spatio-temporal seismicity patterns; analysis of complex data sets. Recommended Preparation: GEOL 537 and/or GEOL 551. Instruction Mode: Lecture Grading Option: Letter

GEOL 555 Paleocoeanography
Units: 3 Mesozoic and Cenozoic paleocoeanography; analytical approaches applied to water mass history, paleocirculation, paleoproductivity, nutrient cycling, and paleotemperature reconstruction. Lecture, readings, and research project. Recommended Preparation: GEOL 412 or GEOL 512 and GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 556 Active Tectonics
Units: 3 Terms Offered: Sp Aspects of deformation and associated seismicity at active plate margins around the world. Includes review of plate tectonics, seismology, geodesy, paleomagnetism, geodynamics. Quaternary dating techniques, tectonic geomorphology, paleoseismology, and seismic hazard assessment. Two weekend field trips required. Prerequisite: GEOL 321. Recommended Preparation: GEOL 425, GEOL 531 Instruction Mode: Lecture Grading Option: Letter

GEOL 557 Numerical Modeling of Earth Systems
Units: 3 Terms Offered: Fa The quantitative modeling of ordinary and partial differential equations as they arise in geology, geophysics, climate modeling and related fields with practical, numerical focus. Recommended Preparation: GEOL 425, GEOL 534, and GEOL 540. Instruction Mode: Lecture Grading Option: Letter

GEOL 558 Inverse Theory in the Earth Sciences
Units: 3 Terms Offered: Fa Pu Short review of probability theory, and extensive coverage of linear inverse theory, including seismic imaging. Non-linear inverse problems and factor analysis. Recommended Preparation: GEOL 425. Instruction Mode: Lecture Grading Option: Letter

GEOL 560 Marine Geochemistry
Units: 3, 2 years Terms Offered: Sp Principles of chemical sedimentology and aquatic chemistry; diagenesis, authigenesis, and the geochemical cycle. Prerequisite: GEOL 460. Instruction Mode: Lecture Grading Option: Letter

GEOL 564 Isotope Geochemistry
Units: 3, 2 years Terms Offered: Sp Variations in the isotopic composition of elements in the earth's crust with applications to geological problems, including geochronology, geothermometry, ore genesis, and crustal evolution. Instruction Mode: Lecture Grading Option: Letter

GEOL 566 Geochemistry Seminar
Units: 1, 2, 3, 4 Current topics in geochemistry. Instruction Mode: Lecture Grading Option: Letter

GEOL 567 Stable Isotope Geochemistry
Units: 3 Theoretical basis; nuclide nomenclature, partition function ratios, mechanisms and rates of isotope exchange, mass spectrometry and extraction techniques; application of stable isotopes to geologic problems. Instruction Mode: Lecture Grading Option: Letter

GEOL 568L Metamorphic Petrology
Units: 3, 2 years Terms Offered: Fa An introduction to advanced study of metamorphic mineral assemblages with use of experimental and field data. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 569L Igneous Petrology
Units: 3, 2 years Terms Offered: Fa Study of igneous and meta-igneous rocks from the basis of experimental and field data and theoretical considerations. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 575 Organic Geochemistry
Units: 3 Terms Offered: Sp Advanced course on the fundamentals and frontiers of organic geochemistry. Topics include biomarker and isotope geochemical approaches to reconstructing past marine, terrestrial environmental change. Recommended Preparation: CHEM 105a, CHEM 105b, CHEM 322a, CHEM 322b, GEOL 150, GEOL 412, or equivalent background. Instruction Mode: Lecture Grading Option: Letter

GEOL 577L Micropaleontology
Units: 3, 2 years Terms Offered: Fa Microscopic fossils, especially foraminifera, their classification, the common genera, morphology, evolutionary trends; laboratory and field techniques. Recommended Preparation: GEOL 425. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GEOL 585 Science of Hazard Prediction
Units: 3 Terms Offered: FaPu Advanced treatment of probabilistic forecasting of natural hazards; physical-process modeling, statistical forecasting, representations of uncertainty, proper scoring, testing and use in risk analysis and decision-making. Prerequisite: MATH 407 and MATH 408 Instruction Mode: Lecture Grading Option: Letter

GEOL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 593 Practicum in Teaching the Liberal Arts
Units: 2 Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College.

Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 594c Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduates. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: Irregular Special topics in the earth sciences. Field trip required when appropriate to the topic. Prerequisite: second-year graduate standing normally required. Instruction Mode: Lecture Grading Option: Letter

GEOL 601 Seminar in Sedimentary Geology
Units: 1, 2, 3 Max Units: 6.0 Terms Offered: FaPu Analysis and discussion of current topics in sedimentary geology; topics will be chosen by students and faculty to focus on areas of recent advances. Instruction Mode: Lecture Grading Option: Letter

GEOL 609 Seminar in Earthquake Physics
Units: 2 Max Units: 6.0 Terms Offered: FaPu Current research on the physics governing earthquakes and faults, including results from continuum and fracture mechanics, statistical physics, lab experiments, and seismological observations. Instruction Mode: Lecture Grading Option: Letter

GEOL 650 Recent Advances in Paleontology
Units: 3 Selected review of recent ideas in paleobiology, evolution, and paleoecology related to examining the current frontiers in paleontology. Instruction Mode: Lecture Grading Option: Letter

GEOL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GEOL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GEOL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: Credit/No Credit
Grading Option: In-progress to Credit/No Credit

GEOL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

GEOL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

GEOL 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture
Grading Option: In-progress to Credit/No Credit

German

GERM 020x Course in Reading German
Units: 2 For graduate students who wish help in meeting the German reading requirement for the PhD degree. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERM 025x Course in Reading German
Units: 2 Continuation of 020x. Reading selections appropriate to candidate's major field. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERM 101 German I
Units: 4 Introduction to modern German. Oral practice, listening and reading comprehension. Basic structures necessary for simple spoken and written expression. Instruction Mode: Lecture Grading Option: Letter

GERM 102 German II
Units: 4 Continuation of German I. Introduction to German culture. Prerequisite: GERM 101. Instruction Mode: Lecture Grading Option: Letter

GERM 201 German III, Conversation and Composition
Units: 4 Intermediate German. Increasing emphasis on listening and speaking skills and a review of basic structures of German. Discussion of cultural aspects. Prerequisite: GERM 102. Instruction Mode: Lecture Grading Option: Letter

GERM 221 Conversational German IV
Units: 4 Conversational German in a variety of topical settings and vocabulary domains. Prerequisite: GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 310 Business German I
Units: 4 Terms Offered: Sp Introduction to German business language structure including correspondence and oral communication. In German. Prerequisite: GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 311 Business German II
Units: 4 Terms Offered: Fa Continuation of GERM 310. Terminology and style of commercial and legal texts, analyzed and applied in oral and written work. In German. Prerequisite: GERM 201. Instruction Mode: Lecture Grading Option: Letter

GERM 320 Composition and Conversation on Contemporary Affairs
Units: 4 Practice in oral and written German, emphasizing contemporary cultural and social developments in the German-speaking countries of Europe.

In German. Prerequisite: GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 325 Composition and Conversation in Cultural History
Units: 4 Practice in oral and written German, emphasizing the cultural history of the German-speaking countries of Europe. In German. Prerequisite: GERM 221. Instruction Mode: Lecture Grading Option: Letter

GERM 330 Introduction to Literary Studies
Units: 4 Review of essential literary terms, concepts, and critical methods through analysis and discussion of selected primary and secondary works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 335 Applied German Drama
Units: 4 Max Units: 8.0 Works of a German playwright in their social and cultural context, leading to a dramatization of one of the works. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 340 German Prose Fiction from Goethe to Thomas Mann
Units: 4 Examine German prose fiction from the late 18th century to the early 20th centuries, with particular emphasis on how narrative texts are constructed. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 346 German Folklore and Popular Culture
Units: 4 Survey and analysis of folklore and cultural phenomena, including tales, legends, and myths; folk and popular music; beliefs and customs. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 351 Colloquium on Drama
Units: 4 German drama from the 18th century, with emphasis on modernism (since Büchner) and the 20th century avant garde styles: Expressionist, Epic, Grotesque, Documentary, and Sprechtheater. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 352 Colloquium on Poetry
Units: 4 Definition and analysis of lyric genre through a study of major poets, such as Goethe, Schiller, Heine, Rilke, and Hofmannsthal; poetic traditions from the 17th century to the present. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 353 Colloquium on Prose
Units: 4 Study of German prose from the 18th century to the present; emphasis on narrative and thematic perspectives in relation to social change and on modernism since Kafka. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 360g 20th Century German Prose: Texts and Films
Units: 4 Aesthetic and historical analysis of major German 20th century novels, complemented by brief study of cinematic adaptation of works in text. Texts in English, films with subtitles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 370 Literature and Culture in Vienna at the Turn of the Century
Units: 4 Literature, culture, and society in Vienna 1890–1925; works by figures such as Schnitzler, Hofmannsthali, Kafka, Musil, Kraus, Schönberg, Kokoschka, Freud, Wittgenstein, and others. In English. Instruction Mode: Lecture Grading Option: Letter

GERM 372g Literature and Culture in Berlin in the 1920s
Units: 4 Literature, culture, and society through works by figures such as Kafka, Toller, Brecht/Weill, Piscator, Th. Mann, Doeblin, Lukacs, Heidegger, etc. Films: Caligari, Metropolis, Berlin, M. Blue Angel. In English. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 375g The German Exile Experience
Units: 4 Terms Offered: FaSp Surveys the work of German intellectuals, writers, artists, and scientists in U.S. exile during the time of the Nazi government in the 1930s and 1940s. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

GERM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERM 410 Profile of German Literature I
Units: 4 Survey of major trends in German literature within their historical and cultural contexts from the beginnings to the Baroque period. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 420 Profile of German Literature II
Units: 4 Survey of major trends, figures, and authors in German literature and culture of the 18th and 19th centuries within the European context. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 430 Age of Goethe
Units: 4 Background and significance of the period; lyrics, major dramatic and prose works from 1770–1832; Storm and Stress; Classicism; Goethe and Schiller. In German. Instruction Mode: Lecture Grading Option: Letter

GERM 440 Women's Literature in Germany I
Units: 4 Reading and analysis of medieval texts from German-speaking countries, written by and about women: science, love, poetry, letters, drama, mysticism, romance. Conducted in German. Instruction Mode: Lecture Grading Option: Letter

GERM 460 Expressionism to the Present
Units: 4 Representative authors and works since 1910; World War I, Expressionism, New Objectivity, World War II; literature after 1945: East and West, Swiss and Austrian. Instruction Mode: Lecture Grading Option: Letter

GERM 465 Germany East and West
Units: 4 Study of the ideological, economic, social, and cultural differences between East and West Germany between 1945 and 1990 and their impact on today's unified Germany. In English. Instruction Mode: Lecture Grading Option: Letter
GERO 340 Policy, Values, and Power in an Aging Society
Units: 4 Terms Offered: FaSp How Americans’ political values affect public policy. Studies of landmark legislation to explore the social contract between generations and role of governments in social welfare. Instruction Mode: Lecture Grading Option: Letter

GERO 350 Administrative Problems in Aging
Units: 2 or 4 Terms Offered: Fa Analysis of the skills, approaches and issues involved in the planning, development, and implementation of programs directed at meeting the needs of older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 353g Social and Behavioral Foundations of Health and Aging
Units: 4 Terms Offered: Fa Explore social and behavioral foundations of health, longevity, and medicine, in the context of an increasingly diverse and long-lived population. Satisfies New General Education in Category C: Social Sciences Instruction Mode: Lecture Grading Option: Letter

GERO 380m Diversity in Aging
Units: 4 Exploring diversity in the older population and variability in the human aging process. Instruction Mode: Lecture Grading Option: Letter

GERO 385 Transitions in Adulthood
Units: 2 or 4 An exploration of the critical issues and transitions in the adult years, including careers, relationships, parenthood, and major turning points for personal development. Instruction Mode: Lecture Grading Option: Letter

GERO 390 Special Problems
Units: 1-4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GERO 402 Housing for the Elderly: Policy, Programs, and Design
Units: 2 An overview of housing policies, programs and design for the elderly, including analysis and evaluation of past, current and proposed government programs. Instruction Mode: Lecture Grading Option: Letter

GERO 411L Physiology, Nutrition, and Aging
Units: 2 or 4 Explores the physiological, psychological, and sociological relationships to nutrition. Laboratory experiments in assessment and evaluation. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 412L Exercise and Aging: Principles and Programs
Units: 2 or 4 Physiological, psychological, and sociological aspects of exercise. Laboratory involvement in assessment and evaluation of fitness. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 414 Neuroaffective Disorders of Aging
Units: 4 Terms Offered: Sp Methods of studying, evaluating, and treating cognitive, psychiatric, and behavioral problems associated with medical conditions of old age. Instruction Mode: Lecture Grading Option: Letter

GERO 416 Health Issues in Adulthood
Units: 4 Terms Offered: FaSpSm Problems, physiological, psychological, and social health problems of adults as they are impacted by health choices throughout life. Instruction Mode: Lecture Grading Option: Letter

GERO 417 Imaging of Human Aging in Health and Disease
Units: 4 Terms Offered: Sp An introduction to the use of imaging techniques to study human senescence and its related diseases. Instruction Mode: Lecture Grading Option: Letter

GERO 435m Women and Aging: Psychological, Social and Political Implications
Units: 4 Terms Offered: FaSpSm Problems and resources of the middle-aged and older woman in a changing society; including discrimination, stereotypes, employment, social interaction, etc. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-434

GERO 437 Social and Psychological Aspects of Death and Dying
Units: 2 or 4 Terms Offered: FaSp Explore social and psychological aspects of death and dying. Instruction Mode: Lecture Grading Option: Letter

GERO 440 Biodemography of Aging
Units: 4 Consideration of the biological and social-cultural factors that govern the evolution of life spans and the life of humans and selected animal models. Prerequisite: BISC 120 or BISC 121 Recommended Preparation: recommended preparation: statistics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 440

GERO 452 Economic Issues and the Aged
Units: 2 or 4 Analysis of economic factors associated with the aged; implications for individuals, society, and the economy; lifecycle economics, retirement, income maintenance, and social security. Instruction Mode: Lecture Grading Option: Letter

GERO 461 Seminar in Molecular and Computational Biology
Units: 2 Terms Offered: FaSpSm (Enroll in BISC 440) and BISC 461) Grading Option: Letter

GERO 470 Aging and Business
Units: 4 Terms Offered: Fa An introduction to the dynamic roles of business in an aging society focusing on workplace issues, marketing to mature consumers, and careers for business gerontologists. Instruction Mode: Lecture Grading Option: Letter

GERO 475 Ethical Issues in Geriatric Health Care
Units: 4 Biomedical ethical issues that are encountered in work with geriatric patients. Examination of ethical theory and the application of theory to clinical settings.
GERO 496 Introduction to Clinical Geriatrics
Units: 4 Medical problems of older adults emphasizing common geriatric syndromes, chronic illness, and alternative approaches to primary health care of older persons and their families. Upper division standing. Prerequisite: BISC 220 or BISC 221.
Instruction Mode: Lecture Grading Option: Letter

GERO 497a Honors Seminar
Units: 2 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. Prerequisite: standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 497b Honors Seminar
Units: 2 Terms Offered: FaSpSm Advanced study of empirical approaches in gerontology. Preparation, progress, presentation, and evaluation of Senior Honors Thesis research. Prerequisite: standing in Gerontology Honors Program. Instruction Mode: Lecture Grading Option: Letter

GERO 498 Nutrition, Genes, Longevity and Diseases
Units: 4 Terms Offered: Sm Examines the role of nutrition and genes and the impact each has on longevity and diseases, particularly diseases related to aging. Offered in Genoa, Italy. Instruction Mode: Lecture Grading Option: Letter

GERO 499 Special Topics
Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontology. Instruction Mode: Lecture Grading Option: Letter

GERO 500 Perspectives on a Changing Society: An Introduction to Aging
Units: 4 Terms Offered: Fa Analysis of physical, mental, and social age-related changes as well as implications of population aging trends for individuals and society. Instruction Mode: Lecture Grading Option: Letter

GERO 501 Applied Legal and Regulatory Issues in Aging
Units: 4 Terms Offered: Fa Analysis of shifting legal and regulatory issues affecting the delivery of aging services. Instruction Mode: Lecture Grading Option: Letter

GERO 502 Marketing and Shifts in Consumer Decision Making
Units: 4 Terms Offered: Fa Branding, marketing, and consumer behavior through examination of transitioning and emerging aging services and organizations. Instruction Mode: Lecture Grading Option: Letter

GERO 504 Current Issues in Aging Services Management
Units: 4 Terms Offered: Sp Basic skills needed for an executive working in an aging services environment. Recommended for entry level administrators and managers. Instruction Mode: Lecture Grading Option: Letter

GERO 505 Housing and Community Policies and Programs
Units: 4 Terms Offered: FaSpExamination of the behavioral and social consequences of design and the environment to create a more satisfying physical environment for both frail and active older adults. Instruction Mode: Lecture Grading Option: Letter

GERO 506 Technological Innovations in Aging (Gerontechnology)
Units: 4 Terms Offered: Sp Reflections on shifts in preferences for aging in place and the market ramifications of innovations in science and technology on older consumers and service providers. Instruction Mode: Lecture Grading Option: Letter

GERO 507 End of Life Care
Units: 4 Terms Offered: Sp Examination of programs related to end of life care. Cultural competencies in working with a diverse population on end of life issues. Instruction Mode: Lecture Grading Option: Letter

GERO 508 The Mind and Body Connection through the Lifespan
Units: 4 Terms Offered: FaSpSm An introduction to mind-body processes involved in healthy aging. Examines the interplay of emotions, beliefs, and behaviors in shaping health-relevant biological processes. Instruction Mode: Lecture Grading Option: Letter

GERO 509 Mindful Aging: Spirituality, Gratitude, and Resilience
Units: 4 Terms Offered: Sp Fosters vital imaginative connections to transform one’s understanding and experience of the aging process from within, in order to re-envision the aging process as a spiritual journey. Instruction Mode: Lecture Grading Option: Letter

GERO 510 Physiology of Development and Aging
Units: 4 Terms Offered: Sp Examination of lifespan physiology of human development, growth, and aging; major emphasis in the physiology of the later years and implications for health maintenance. Instruction Mode: Lecture Grading Option: Letter

GERO 511 Fundamentals of Clinical Nutrition Screening and Assessment
Units: 4 Terms Offered: Sp Examines tools and resources used to evaluate the nutrition status of individuals across the lifespan including biochemical, anthropometric and subjective global assessment. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 512 Communicating Nutrition and Health
Units: 2 Terms Offered: Fa Overview of current understanding of the dietary and nutritional needs of individuals across their lifespan. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 513 Fundamentals of Nutrition: Macronutrients
Units: 3 Terms Offered: Fa A study of the principles of human nutrition throughout the life cycle. Current topics and controversies
in nutrition and health are discussed. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 514 The Art of Geriatric Symptom Management
Units: 4 Terms Offered: Fa Explore issues related to common aging related symptoms/ syndromes, patient and caregiver factors and alternative methods for symptom management. Instruction Mode: Lecture Grading Option: Letter

GERO 515L Food Production and Food Service Management
Units: 4 Terms Offered: FaSp A study of principles and procedures for food systems including techniques of food preparation, development, modification and evaluation of recipes, menus and products. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 516 Introduction to Genomic Science for Biologists
Units: 4 Terms Offered: FaSp Broad introduction to genomics for students with a biology background, including overviews of 'wet' genomics techniques, available public databases and useful analytical tools. Prerequisite: BISC 120Lg and BISC 220Lg Instruction Mode: Lecture Grading Option: Letter

GERO 517L Advanced Therapeutic Nutrition
Units: 4 Terms Offered: Fa Application of nutrition science, physiology, biochemistry, and metabolism to evaluate critically ill patients and plan nutrition intervention and monitoring. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GERO 518 Current Topics in Clinical Nutrition
Units: 4 Terms Offered: Sp Discuss various factors that affect nutrition and aging. Topics include allergies in nutrition, food toxins, weight factors, and prevention and treatment of multiple organ systems. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 519 Recent Advances in Neurobiology and Endocrinology of Aging
Units: 2 or 4 Theories of the biology of aging and the effects of age on functional integrity of the total organism. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC-519

GERO 520 Life Span Developmental Psychology
Units: 2 or 4 Terms Offered: FaSpm Behavior from adulthood to old age; study of major components of behavior such as perception, cognitive processes, personality, intergenerational relationships, sexuality, and life styles. Instruction Mode: Lecture Grading Option: Letter

GERO 522 Counseling Older Adults and Their Families
Units: 2 or 4 Terms Offered: Sp Theory and application of assessment and intervention techniques with older adults and their families. Topics include: treatment modalities, psychopathology, ethical and legal issues, brain disorders. Instruction Mode: Lecture Grading Option: Letter

GERO 530 Life Span Developmental Sociology
Units: 4 Terms Offered: Sp Life span perspective on the sociological theories of marriage and the family, inter-generational relationships, work and retirement, and other forms of social organization. Instruction Mode: Lecture Grading Option: Letter

GERO 540 Social Policy and Aging
Units: 4 Terms Offered: Fa Major legislation and programs; examination and analysis of policy-making and political processes affecting development and implementation of programs for older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 541 Health Care Delivery Models: Comparative Approaches
Units: 4 Examination of current trends and future prospects of finance and reimbursement systems. Topics include major legislation and programs such as Medicare and Medicaid. Instruction Mode: Lecture Grading Option: Letter

GERO 550 Administration and System Management in Programs for Older Adults
Units: 4 Terms Offered: Sp Application of theories of administration and system management to public and volunteer programs and services for older adults including residential institutions and community programs. Instruction Mode: Lecture Grading Option: Letter

GERO 551 Applied Policy Skills in Aging
Units: 4 Terms Offered: Sp An overview and application of techniques and approaches used in the definition and analysis of policy problems in aging. Prerequisite: GER 540. Instruction Mode: Lecture Grading Option: Letter

GERO 552 Human Resources and Aging
Units: 4 Terms Offered: FaSp Addresses legal issues and liability arising out of the employer-employee relationship, and how to identify and act proactively to minimize such risk. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

GERO 554 Evaluation: Incorporating Evidence-Based Practices
Units: 4 Terms Offered: Sp Examination of the evaluation of health and service delivery in aging services industries. Instruction Mode: Lecture Grading Option: Letter

GERO 555 Integrating Gerontology: A Multidisciplinary Approach
Units: 4 Terms Offered: Sp Aging (commonalities and distinctions) as addressed by biologists, psychologists, and sociologists. Topics include research perspectives, normative aging, functional decline and disability, and aging and society. Instruction Mode: Lecture Grading Option: Letter

GERO 557 Geriatric Care Management
Units: 4 Terms Offered: Sp Overview of concepts, issues, and approaches to geriatric care management. Includes analysis and practice of a variety of care management clinical skills. Instruction Mode: Lecture Grading Option: Letter

GERO 560 Micronutrients, Health, and Longevity
Units: 4 Terms Offered: FaSpSm Explores the basis of nutrition needs for vitamins, major minerals and trace minerals including nutrient interaction and their role in health and longevity. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

GERO 561 Introduction to Aging and Normal Changes with Aging
Units: 4 Terms Offered: FaSp Introduces medical and health care professionals to the interdisciplinary field of gerontology. Examines the world's changing demography; effects of aging on physical, psychological and social changes; aging process, ethical issues, aging stereotypes. Instruction Mode: Lecture Grading Option: Letter

GERO 562 Diseases of Aging with Emphasis on Cardiovascular Disease and Diabetes
Units: 4 Terms Offered: FaSp An introduction to the diseases of aging with an emphasis on cardiovascular disease and diabetes. Instruction Mode: Lecture Grading Option: Letter

GERO 563 Geropsychology
Units: 4 Terms Offered: FaSp Understanding geropsychology and cognition in advanced age; psychosocial theories of aging and psychodynamic models. Instruction Mode: Lecture Grading Option: Letter

GERO 564 Multiple Chronic Conditions and Older Adults
Units: 4 Terms Offered: FaSp Complexities of treating older persons with multiple chronic diseases and conditions. Instruction Mode: Lecture Grading Option: Letter

GERO 565 Novel Technologies in Aging and Assisted Living
Units: 4 Terms Offered: FaSp Focuses on the understanding of technology use with older adults. Examines telemedicine and e-health technologies as well as ethical considerations. Instruction Mode: Lecture Grading Option: Letter

GERO 566 Cognitive Decline: Alzheimer's Disease and Dementia and Advances in Imaging
Units: 4 Terms Offered: FaSp Covers cognitive decline for people with Alzheimer's Disease or other forms of dementia. Imaging technology to identify and find treatment options. Instruction Mode: Lecture Grading Option: Letter

GERO 567 Prevention of Chronic Diseases through Nutrition, Physical Activity and Lifestyle Changes
Units: 4 Terms Offered: FaSp Nutrition, psychical engagement and social interaction. Interventions, assessments, screening protocols and guidelines for nutrition in older adults. Instruction Mode: Lecture Grading Option: Letter

GERO 568 Adaptive Age-Friendly Environments and Injury Prevention
Units: 4 Terms Offered: FaSpSm Covers adaptive, age-friendly environment and injury prevention for older adults. Adaptations in household safety, assistive technology, ergonomics and universal design principles. Instruction Mode: Lecture Grading Option: Letter
GERO 569 Healthcare Leadership and Administration
Units: 1 Terms Offered: FaSpSm
Application of basic management concepts in a healthcare setting; achieving patient care goals and objectives via team caregiving. Instruction Mode: Lecture Grading Option: Letter

GERO 574 Leadership and Management in Senior Living
Units: 3 Terms Offered: FaSpSm
Management and leadership in senior living organizations. Managerial techniques as well as leadership styles will be analyzed and reviewed. Instruction Mode: Lecture Grading Option: Letter

GERO 575 Marketing Senior Living
Units: 3 Terms Offered: FaSpSm
Current practices in marketing senior living and associated services. Examines behaviors and preferences of older adults and their families. Explores new media platforms. Instruction Mode: Lecture Grading Option: Letter

GERO 576 Finance and Senior Living
Units: 3 Terms Offered: FaSpSm
Unique aspects of senior living financial structures, revenue management and accounting principles. Instruction Mode: Lecture Grading Option: Letter

GERO 577 Food Service and Senior Living
Units: 2 Terms Offered: FaSpSm
Addresses the food services components of senior living. Covers pricing, menu design and nutrition. Instruction Mode: Lecture Grading Option: Letter

GERO 578 Revenue Management for Senior Living
Units: 2 Terms Offered: FaSpSm
Understanding of revenue sources for senior living. Develop skills and approaches to managing sustainable strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 579 Branding Senior Living
Units: 2 Terms Offered: FaSpSm
Marketing models aimed to provide services for senior living. Analyze various institutions' models for marketing, communicating and technical influence to brand a facility. Instruction Mode: Lecture Grading Option: Letter

GERO 585 The Aging Family
Units: 2 or 4 Terms Offered: Sm Family processes and structure in families with aged persons will be reviewed, including marital and family therapy and intervention strategies. Instruction Mode: Lecture Grading Option: Letter

GERO 589 Case Studies in Leadership and Change Management
Units: 4 Terms Offered: Fa Examination of case studies of issues affecting the aging services industries and the role industry leaders play in reacting to change. Instruction Mode: Lecture Grading Option: Letter

GERO 590 Directed Research
Units: 1-12 Terms Offered: FaSpSm
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 591 Field Practicum
Units: 1-12 Max Units: 12.0 Terms Offered: FaSpSm Supervised experiential learning in one or more organizations that serve older adults; includes a regularly scheduled seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 592 Multidisciplinary Research Seminar in Aging
Units: 2 Max Units: 8.0 Terms Offered: FaSp Multidisciplinary perspectives on current research in gerontology, including physiology, neurobiology, health and medicine, psychology, sociology, and public policy. Topics will change each semester. Instruction Mode: Lecture Grading Option: Letter

GERO 593 Research Methods
Units: 4 Terms Offered: Fa An introduction to research methods and their application to gerontology including problem formulation, research design, data collection, descriptive and analytic statistics, interpretation, and report preparation. Instruction Mode: Lecture Grading Option: Letter

GERO 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 595 Special Topics
Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Examination of special topics in the area of gerontological study. Instruction Mode: Lecture Grading Option: Letter

GERO 596 Gerontology: Molecular and Cellular Biology
Units: 4 Terms Offered: Fa Focuses on mechanisms of aging at the cellular and molecular level. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 597 Field Practicum
Units: 1-12 Max Units: 12.0 Terms Offered: FaSpSm Supervised experiential learning in one or more organizations that serve older adults; includes a regularly scheduled seminar. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 601 Molecular Genetics of Aging
Units: 4 Terms Offered: Sp Explores concepts of molecular and genetic regulation of healthy aging, lifespan, and age-related diseases. Instruction Mode: Lecture, Discussion Grading Option: Letter

GERO 602 Seminar on Discoveries in Biogerontology
Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 602a Seminar on Discoveries in Biogerontology
Units: 2 Terms Offered: FaSp Critical analyses of primary scientific data and interpretations presented in the literature. Duplicates Credit in former GERO 602. Instruction Mode: Lecture Grading Option: Letter

GERO 603 Research Integrity
Units: 2 Terms Offered: Fa Explores scientific integrity, mentoring, scientific record keeping, authorship, peer review, animal and human experimentation, conflict of interest, data ownership and intellectual property, and genetic technology. Instruction Mode: Lecture Grading Option: Letter

GERO 605 Research and Journal Club Presentation Workshop
Units: 2 Terms Offered: Fa Intensive training in journal club and research talk presentations for graduate students in the Biology of Aging Program. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 606 Bioinformatics
Units: 2 Terms Offered: FaSp A bioinformatics lab using a published RNA-seq data set as a testbed for students to learn coding principles, genomic biology and applied genomic statistics. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Grading Option: Letter

GERO 610 The Aging Society
Units: 4 Terms Offered: Sp The interaction of demographic and economic processes, with emphasis on how the contemporary nature of these interactions influence public policy response to an aging population. Instruction Mode: Lecture Grading Option: Letter

GERO 613 Health and Aging
Units: 4 Terms Offered: Sp Examination of changes in health related to aging and changes in health in populations over time, and the key health issues facing older persons. Instruction Mode: Lecture Grading Option: Letter

GERO 614L Laboratory Rotations in the Biology of Aging
Units: 4 Max Units: 12 Terms Offered: FaSpSm Mandatory organized laboratory rotation. Allows students to participate in laboratory activities. Designed to help select dissertation advisor and research. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

GERO 616 Mass Spectrometry
Units: 2 Terms Offered: FaSp Introduction to mass spectrometry and its application to gerontology. Problem formation; research design and data collection; descriptive and analytical statistics; interpretation and report preparation. Registration Restriction: Open only to doctoral students in Biology of Aging Instruction Mode: Lecture Grading Option: Letter

GERO 620 Psychology of Aging
Units: 4 Terms Offered: Fa An overview of topics in the psychology of aging. Includes research and theory bearing on cognitive, personality, adaptive, and social processes throughout the adult life span. Registration Restriction: Open only to doctoral students. Recommended Preparation: undergraduate course work in psychology. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter
GERO 626 Current Research in Alzheimer’s Disease and Related Dementias
Units: 2 Terms Offered: FaSpSm Lectures from researchers at the forefront of research in Alzheimer disease and related disorders. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

GERO 628 Theories of Aging
Units: 4 An examination of the nature and adequacy of existing explanations of aging. Focus will be on psychological, sociological, and biological paradigms, and on the epistemology of theory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-628

GERO 640 Data Analysis Strategies
Units: 4 Terms Offered: FaSpSm Hands-on experience in developing and testing hypotheses using various types of databases, data management and analysis strategies and written presentation of findings. Recommended Preparation: GERO 593. Instruction Mode: Lecture Grading Option: Letter

GERO 645 Politics and Policy Processes in an Aging Society
Units: 4 Terms Offered: Fa The dynamics of the policy-making process in the context of aging policy in the United States; focus on the political system and its social dynamics. Instruction Mode: Lecture Grading Option: Letter

GERO 655 Research Training Grant Proposal Development in Gerontology
Units: 4 Terms Offered: Fa Integrative grant writing and development of collaborative, interdisciplinary projects in gerontology as studied by biomedical, psychological, and social scientists. Instruction Mode: Lecture Grading Option: Letter

GERO 666 Free Radical Chemistry, Biology, and Medicine
Units: 4 Terms Offered: Fa Explores the chemical and physical chemical nature of free radicals and related reactive species. Examines the roles of antioxidants and how they work. Recommended Preparation: Course work in biology and chemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSCI-633

GERO 690 Directed Research
Units: 1-3, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Directed research for PhD candidates. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 790 Research
Units: 1-12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

GERO 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

GERO 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

General Education Seminar
GESM 110g Seminar in the Arts
Units: 4 Terms Offered: FaSpSm The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Satisfies New General Education in Category A. The Arts Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 111g Seminar in the Arts
Units: 4 Terms Offered: FaSpSm The multifaceted history of the creative act, its analysis, production, and context as a representation of human experience. Offered by a USC professional school. Satisfies New General Education in Category A. The Arts Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 110. Instruction Mode: Lecture Grading Option: Letter

GESM 120g Seminar in Humanistic Inquiry
Units: 4 Terms Offered: FaSpSm Interpretation and analysis of works of the imagination, exploring language, thought, and cultural traditions in relation to one another. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 121g Seminar in Humanistic Inquiry
Units: 4 Terms Offered: FaSpSm Critical appreciation of various forms of human expression, evaluating works of literature, philosophy, and the arts to enable informed opinions about ideas and values. Offered by a professional school. Satisfies New General Education in Category B: Humanistic Inquiry Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 120. Instruction Mode: Lecture Grading Option: Letter

GESM 130g Seminar in Social Analysis
Units: 4 Terms Offered: FaSpSm Individual and collective human action as it shapes and is shaped by economic organizations, political institutions, and broad social and cultural settings. Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 131g Seminar in Social Analysis
Units: 4 Terms Offered: FaSpSm The causes and consequences of social phenomena; quantitative and qualitative methods of the social sciences; how people behave and influence the world through cultural forms. Offered by a professional school. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 140g Seminar in the Life Sciences
Units: 4 Terms Offered: FaSpSm Scientific understanding of a full range of living systems from molecules to ecosystems, prokaryotes to humans, past and present. (Satisfies GE-D, Life Sciences). Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 141g Seminar in the Life Sciences
Units: 4 Terms Offered: FaSpSm Scientific understanding of living systems from molecules to ecosystems; how data is generated and interpreted; how scientific discovery spur technological growth and impacts society. Offered by a professional school. Satisfies New General Education in Category D: Life Sciences Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 140. Instruction Mode: Lecture Grading Option: Letter

GESM 150Lg Seminar in the Physical Sciences
Units: 4 Terms Offered: FaSpSm Analysis of natural phenomenon through quantitative description and synthesis; the processes by which scientific knowledge is obtained, evaluated, and placed in social context. (Satisfies GE-E, Physical Sciences) Satisfies New General Education in Category E: Physical Sciences Registration Restriction: Open only to freshmen. Instruction Mode: Lecture, Lab Required Grading Option: Letter

GESM 151Lg Seminar in the Physical Sciences
Units: 4 Terms Offered: FaSpSm Natural phenomena analyzed through quantitative description and synthesis to demonstrate how scientific knowledge is obtained, evaluated and made socially relevant. A separate lab is required. Offered by a professional school. Registration Restriction: Open only to freshmen. Duplicates Credit in GESM 150. Instruction Mode: Lecture, Required Lab Grading Option: Letter

GESM 160g Seminar in Quantitative Reasoning
Units: 4 Terms Offered: FaSpSm Analysis and manipulation of data and information related to quantifiable objects, symbolic elements, or logic; formal reasoning, abstract representation, and empirical analysis. (Satisfies GE-F, Quantitative Reasoning). Satisfies New General Education in Category F: Quantitative Reasoning Registration Restriction: Open only to freshmen. Instruction Mode: Lecture Grading Option: Letter

GESM 189 In-progress
GPR 6105 Review of General Dentistry Literature
Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry.
Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 705b Review of General Dentistry Literature
Units: 1 Terms Offered: FaSpSm Residents learn how to research various topics and to critically review each article in order to practice evidence-based dentistry.
Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 705c Periodontal Treatment Procedures
Units: 5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 705d Periodontal Treatment Procedures
Units: 5, Terms Offered: FaSpSm Presentation of various techniques in current periodontal treatment.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 706b Treatment Planning
Units: 1 Terms Offered: Sm Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences.
Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706c Treatment Planning
Units: 1 Terms Offered: Sp Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences.
Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 706d Treatment Planning
Units: 1 Terms Offered: Sp Residents lead seminars with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences.
Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

GPR 710a Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710b Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 710c Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.
Instruction Mode: Lecture Grading Option: Credit/No Credit
GPR 710d Oral and Maxillofacial Surgery
Units: 1 Terms Offered: FaSpSm
More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 711a Implantology
Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 711b Implantology
Units: 1 Terms Offered: FaSpSm Residents recognize the importance of implant dentistry and various implant systems and their restorative options. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

GPR 722 Occlusion, TMJ Dysfunction, Orofacial Pain
Units: 1 Terms Offered: FaSpSm Residents review the important role that Occlusion plays in General Dentistry and neuromuscular problems of the head and neck. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733a Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733b Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733c Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

GPR 733d Advanced and Maxillofacial Prosthodontics
Units: .5, Terms Offered: FaSpSm Residents train to treat patients requiring various types of removable and fixed prosthetics, including Maxillofacial prostheses. Instruction Mode: Lecture Grading Option: Credit/No Credit

Global Policy, Planning and Development

GPPD 500a Global Policy Challenges and Solutions
Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 500b Global Policy Challenges and Solutions
Units: 2 Consideration of current public policy issues through informed discourse and debate; analysis and policy arguments. Prerequisite: GPPD 500a Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 510 Economic Foundations for Public Policy
Units: 3 Microeconomic foundations; analysis of public sector problems; markets; producer and consumer theory; private and social efficiency. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 520 Leadership in Public-Private Partnerships
Units: 2 Issues across public/private partnerships; leadership and followership in cross-sector settings; organizational and institutional designs; problem solving, negotiation and conflict resolution. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 530 Art and Craft of Public Policy Analysis
Units: 1 Foundations of public policy as a profession, and develops basic skills in policy analytic reasoning, policy design, normative analysis and ethics, and argumentation. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 540 Comparative Institutions and Policy Context
Units: 3 Theoretical and empirical foundations on how institutions affect policy performance; comparative institutional analysis and framework; approaches to organizing public action. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 550 Quantitative Methods for Public Policy
Units: 3 Economic theory and statistical inference methods to estimate the relationship between economic, social and political variables; foundations of data-based argumentation, specifically in regards to public policy in an international context. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 560 Methods for Policy Evaluation
Units: 3 Methods utilized in the analysis of public policy choices; ex ante and ex post analysis; cost-benefit analysis; decision and risk analysis; applied social science methods. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 570 Institutions and Policy Processes
Units: 3 Policy formulation and implementation in a comparative context and in the context of an East-West dichotomy. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 580 Policy Challenges in International Development
Units: 3 Overview of the overarching issues of problem definition of "development" and the policy implications of new ideas for development as it faces a new set of challenges in an increasingly globalized, complex, and interconnected world. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 600a Public Policy Capstone
Units: 2 Terms Offered: Sm Hands-on experience in policy analysis. Participants learn to work on a specific, client oriented public policy issue, assess policy alternatives, and write an official report. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

GPPD 600b Public Policy Capstone
Units: 2 Terms Offered: Sm Hands-on experience in policy analysis. Participants learn to work on a specific, client oriented public policy issue, assess policy alternatives, and write an official report. Registration Restriction: Open only to Master of Global Public Policy majors Instruction Mode: Lecture Grading Option: Letter

Greek

GR 120 Greek I
Units: 4 Terms Offered: FaSpSm Essentials of classical Greek grammar and vocabulary. Instruction Mode: Lecture Grading Option: Letter

GR 150 Greek II
Units: 4 Terms Offered: FaSpSm Essentials of classical Greek grammar and vocabulary, continued. Basic reading skills. Prerequisite: GR 120. Instruction Mode: Lecture Grading Option: Letter

GR 220 Greek III
Units: 4 Terms Offered: FaSpSm Reading Greek literature. Introduction to reading and translation of classical Greek prose and poetry. Extensive grammar review. Prerequisite: GR 150. Instruction Mode: Lecture Grading Option: Letter

GR 345 Greek Tragic Poets
Units: 4 Selected plays of Aeschylus, Sophocles, and Euripides. Instruction Mode: Lecture Grading Option: Letter

GR 353 Plato
Units: 4 Readings from the Republic or other dialogues. Instruction Mode: Lecture Grading Option: Letter

GR 354 Greek Historians
Units: 4 Selections from such representative historians as Herodotus and Thucydides. Instruction Mode: Lecture Grading Option: Letter

GR 355 Aristophanes
Units: 4 A study of at least three comedies. Instruction Mode: Lecture Grading Option: Letter

GR 362 Homer and the Greek Epic
Units: 4 Selections from the Iliad and/or Odyssey. Problems of oral composition and transmission. Instruction Mode: Lecture Grading Option: Letter
GR 365 Greek Lyric Poetry
Units: 4 Readings from Archilochus, Sappho, Alcaeus, Pindar, and other lyric poets. Prerequisite: GR 220. Instruction Mode: Lecture Grading Option: Letter

GR 375 Plutarck
Units: 4 Readings of selected works by the Greek author Plutarck. Prerequisite: GR 220. Instruction Mode: Lecture Grading Option: Letter

GR 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSpSupervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

GR 450 Readings in Greek Literature
Units: 4 Max Units: 12.0 Readings in various authors and genres of Greek literature. Prerequisite: 300-level Greek course. Instruction Mode: Lecture Grading Option: Letter

GR 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

GR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Graduate Studies
GRSC 596 Internship for Curricular Practical Training
Units: 1 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Graduate standing. Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 610 The Innovation Process: Development, Diffusion and Leadership
Units: 1 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Graduate standing. Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 615 Disciplinary Perspectives on Innovation
Units: 4 Terms Offered: Fa A deeper understanding of the innovation process via a survey of various disciplines’ approaches to the subject. Instruction Mode: Lecture Grading Option: Letter

GRSC 791 Directed Research
Units: 2 Terms Offered: FaSpSm Directed Studies in Academic Innovation. Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 800a Studies for the Qualifying Examination
Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. Prerequisite: GRSC 800a Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 800b Studies for the Qualifying Examination
Units: 0 Terms Offered: FaSpSm Studies for the Qualifying Examination. Students may enroll once they have completed all other degree requirements. Prerequisite: GRSC 800b Instruction Mode: Lecture Grading Option: Credit/No Credit

GRSC 802 Studies for Master’s Examination
Units: 0 Terms Offered: FaSpSm Prerequisite: completion of all course work for the master's degree. Permission of the Graduate School. Instruction Mode: Lecture Grading Option: Non-Graded

GRSC 850a The Professoriate: Preparing for the Future
Units: 2 Terms Offered: FaSp Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Instruction Mode: Lecture Grading Option: Non-Graded

GRSC 850b The Professoriate: Preparing for the Future
Units: 2 Terms Offered: FaSp Preparation for academic careers: various methodologies and approaches to teaching, learning, assessment, and research; statements of research and teaching philosophies; creation of online academic portfolio. Instruction Mode: Lecture Grading Option: Credit/No Credit

Graduate School of Business Administration
GSBA 501 The Role of the Manager
Units: 3 Terms Offered: FaSpSm Fundamental roles of a manager and skill sets necessary to performing these roles. Open only to online MBA students. Registration Restriction: Open only to online MBA students. Instruction Mode: Lecture Grading Option: Letter

GSBA 502 Management Communication for Leaders
Units: 3 Terms Offered: Fa Integrates leadership theory and practice with communication skills to improve individual, team, and organizational performance. Emphasizes interpersonal, presentation, and writing skills; teamwork; and value-based leadership. Duplicates Credit in GSBA 502a, GSBA 524, and the former GSBA 502b. Open only to master’s students. Instruction Mode: Lecture Grading Option: Letter

GSBA 503 Contemporary Issues in Competitive Global Strategy
Units: 1.5 Terms Offered: Sp Concepts and tools that help frame strategic issues in a multi-industry and global context. Craft strategies, position businesses and assets, and define firm boundaries. Registration Restriction: Open only to master's degree students Duplicates Credit in the former GSBA 509ab, GSBA 528 and GSBA 546 Instruction Mode: Lecture Grading Option: Letter

GSBA 504a Operations Management
Units: 1.5 Terms Offered: Fa Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. Duplicates Credit in GSBA 534 and former GSBA 504. Instruction Mode: Lecture Grading Option: Letter

GSBA 504b Operations Management
Units: 1.5 Terms Offered: Fa Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of a firm. Duplicates Credit in GSBA 534 and former GSBA 504. Instruction Mode: Lecture Grading Option: Letter

GSBA 505 Fundamentals of Business
Units: 10 Terms Offered: FaSpSm Fundamentals of financial accounting, microeconomics, statistics, analytics and communication. Prerequisite: GSBA 501. Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 510, GSBA 511, GSBA 516, GSBA 524, and GSBA 545. Instruction Mode: Lecture Grading Option: Letter

GSBA 506a Applied Managerial Statistics
Units: 1.5 Terms Offered: FaSpSm Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Duplicates Credit in GSBA 524, GSBA 516, GSBA 545. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSBA 506b Applied Managerial Statistics
Units: 1.5 Terms Offered: FaSpSm Principles of probability theory and classical statistics applied to business decision problems; survey analysis, estimation and prediction methods, evaluation, and control techniques. Duplicates Credit in GSBA 524, GSBA 516, GSBA 545. Instruction Mode: Lecture Grading Option: Letter

GSBA 507 Organizational Behavior
Units: 2 Terms Offered: Sp Study of human thought, motives, and behaviors in business settings. Explore how organizational structures and decisions can help to determine how human beings will respond. Registration Restriction: Open only to master students Duplicates Credit in GSBA 522a, GSBA 522b, GSBA 532, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 509 Marketing Management
Units: 1.5 Terms Offered: Fa Development of analytical, strategic, and planning skills. Application within an integrated strategic framework to the development of a comprehensive marketing plan for a product, service, and/or organization. Registration Restriction: Open only to master students Duplicates Credit in the former GSBA 509ab, GSBA 528 and GSBA 546 Instruction Mode: Lecture Grading Option: Letter
GSBA 510 Accounting Concepts and Financial Reporting
Units: 1.5, 2, 3 Terms Offered: Fa
Information systems for public reporting and for management decision-making; theory of asset and income measurement; interpretation and uses of accounting data and financial statements; analysis of cases. Instruction Mode: Lecture Grading Option: Letter

GSBA 511 Microeconomics for Management
Units: 1.5, 3 Terms Offered: Fa
Microeconomic theory with business applications; consumer demand; production theory, cost theory, and market theory; decision-making within the firm under different market and regulatory environments. Instruction Mode: Lecture Grading Option: Letter

GSBA 512 Interpersonal and Team Communication
Units: 1 Terms Offered: Sp Develop interpersonal effectiveness and leadership capacity when working within, across, and outside an organization. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523 and GSBA 542 Instruction Mode: Lecture Grading Option: Letter

GSBA 514 Leadership Communication Styles and Strategies
Units: 1 Terms Offered: Sm In-depth focus on managerial communication motivation and styles. Implications of leadership communication strategy and practice. Evaluate strategies and emerging tools to facilitate collaboration. Duplicates Credit in GSBA 502, GSBA 523, GSBA 523 and GSBA 542. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523 and GSBA 542 Instruction Mode: Lecture Grading Option: Letter

GSBA 515 Communicating Professional Presence
Units: 1 Terms Offered: Sp Acquire the skills necessary to exhibit the elusive quality of professional presence. Exhibit credible competence. Handle impromptu speaking. Presentation messaging. Duplicates Credit in GSBA 502, GSBA 523, GSBA 523 and GSBA 542. Registration Restriction: Open only to master students Duplicates Credit in GSBA 502, GSBA 523, GSBA 523 and GSBA 542 Instruction Mode: Lecture Grading Option: Letter

GSBA 516 Essentials of Data Analysis and Modeling
Units: 1.5 Terms Offered: Fa Data collection, data analysis, and critical understanding of the role of data in making business decisions. Ways to quantify uncertainty and model decision problems. Duplicates Credit in GSBA 506a, GSBA 506b and GSBA 524. Instruction Mode: Lecture Grading Option: Letter

GSBA 518 Accounting Control Systems
Units: 3 Terms Offered: Fa SpSm Accumulation and interpretation of accounting data by management; profit planning; analysis of operations; systems for control of production and distribution costs; cost and profit centers for decentralized control. Recommended Preparation: GSBA 510 Duplicates Credit in ACC 509, ACC 535, GSBA 536 Instruction Mode: Lecture Grading Option: Letter

GSBA 519a Strategic Formulation for Competitive Advantage
Units: 1.5 Terms Offered: Fa Sm Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 529 and GSBA 540 Instruction Mode: Lecture Grading Option: Letter

GSBA 519b Strategic Formulation for Competitive Advantage
Units: 1.5 Terms Offered: Fa Sm Analyses of environments and competition, the basis of competitive strategy, strategy models, and the achievement of sustainable competitive advantage. Duplicates Credit in GSBA 529 and GSBA 540 Instruction Mode: Lecture Grading Option: Letter

GSBA 520 Business Fundamentals for Non-Business Students
Units: 3, 4 Terms Offered: Fa Sm An overview of concepts, tools and principles of business management to develop a general management point of view. Open only to non-business graduate students. Registration Restriction: Open only to non-business graduate students. Instruction Mode: Lecture Grading Option: Letter

GSBA 521a Corporate Finance
Units: 1.5 Terms Offered: Fa Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. Recommended Preparation: GSBA 510. Duplicates Credit in GSBA 548 and the former GSBA 521 Instruction Mode: Lecture Grading Option: Letter

GSBA 521b Corporate Finance
Units: 1.5 Terms Offered: Fa Basic principles of corporate finance; theory and application; management of short-term and long-term assets; financial instruments and markets; financial policy applications. Recommended Preparation: GSBA 510. Duplicates Credit in GSBA 548 and the former GSBA 521 Instruction Mode: Lecture Grading Option: Letter

GSBA 522a Managerial Perspectives
Units: 1.5 Terms Offered: Fa Sm Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Graded IP. Registration Restriction: Open only to master students Duplicates Credit in GSBA 507, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: In Progress to Letter

GSBA 522b Managerial Perspectives
Units: 1.5 Terms Offered: Fa Sm Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and work. Duplicates Credit in GSBA 507, GSBA 533 and GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 523 Communication for Management
Units: 2, 3 Terms Offered: Fa Sm Internal and external communication, research methods; reports for decision-making; oral presentations and briefings; strategies to assure communication; field studies.
GSBA 534 Operations Management
Units: 2, 3 Terms Offered: FaSpSm
Formulation, modeling, analysis, and optimization of business decision problems; survey of concepts and techniques necessary to manage the operations function of the firm. Recommended Preparation: GSBA 508b or GSBA 524 or GSBA 516 and GSBA 545. Duplicates Credit in GSBA 504a, GSBA 504b. Instruction Mode: Lecture Grading Option: Letter

GSBA 535 Opportunity Recognition and Implementation
Units: 9.5 Terms Offered: FaSpSm
Thematic exploration of entrepreneurship and key aspects of new venture development. Contract law, analytics, negotiations, and communication. Prerequisite: GSBA 505 Registration Restriction: Open only to Marshall Online MBA students Duplicates Credit in BAEP 549, BAEP 550, BAEP 551, GSBA 550a and GSBA 550b. Instruction Mode: Lecture Grading Option: Letter

GSBA 536 Accounting for Management Decision Making
Units: 2 Terms Offered: Sp The development, presentation and understanding of accounting information useful to managers. Techniques and best practices which, combined with accounting information, support enhanced management decision-making. Registration Restriction: Open only to master students Duplicates Credit in ACCT 509, ACCT 535, GSBA 518, GSBA 537 Instruction Mode: Lecture Grading Option: Letter

GSBA 537 Managing Inside the Firm
Units: 9.5 Terms Offered: FaSpSm
Thematic exploration of managerial accounting, employment law, operations management and organizational behavior. Application of analytics and communication to optimize internal operations. Prerequisite: GSBA 505 Registration Restriction: Open only to online MBA students Duplicates Credit in GSBA 504, GSBA 504a, GSBA 504b, GSBA 518, GSBA 522a, GSBA 522b, GSBA 532, GSBA 533, GSBA 534, GSBA 536, GSBA 543 Instruction Mode: Lecture Grading Option: Letter

GSBA 538 Managing Outside the Firm
Units: 9.5 Terms Offered: FaSpSm
Thematic exploration of operations management, corporate finance, marketing, and microeconomics. Coordinating production processes, marketing strategies, and corporate financial plans in order to maximize growth. Prerequisite: GSBA 505, GSBA 509 Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 506a, GSBA 506b, GSBA 508a, GSBA 508b, GSBA 509a, GSBA 509b, GSBA 511, GSBA 521a, GSBA 521b, GSBA 528, GSBA 534, and GSBA 548. Instruction Mode: Lecture Grading Option: Letter

GSBA 539 Business Environment and Leadership
Units: 9.5 Terms Offered: FaSpSm
Thematic exploration of finance, macroeconomics, international business, corporate strategy, and marketing strategy. Prerequisite: GSBA 505, Registration Restriction: Open only to online MBA students. Duplicates Credit in GSBA 519a, GSBA 519b, GSBA 521a, GSBA 521b, GSBA 529, GSBA 540, GSBA 548, GSBA 580a, and GSBA 580b. Instruction Mode: Lecture Grading Option: Letter

GSBA 540 Contemporary Issues in Competitive Strategy
Units: 1.5 Terms Offered: FaSp Introduces the role industry and competitive analysis serve in an organization. Topics covered include global competition, innovation, the use of standards, competence, and building organizational capabilities to sustain competitive advantage. Duplicates Credit in GSBA 519a, GSBA 519b and GSBA 529. Instruction Mode: Lecture Grading Option: Letter

GSBA 541 Foundations of Your Professional Value
Units: 5 Terms Offered: Fa Foundational knowledge to discover, identify and leverage the professional value each person brings to today’s job market. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 542 Communication for Management
Units: 1.5 Terms Offered: Fa Internal and external communication, research methods, reports for decision-making, oral presentations and briefings, strategies to assure communication; field studies. Duplicates Credit in GSBA 523, GSBA 523T and the former GSBA 502ab. Instruction Mode: Lecture Grading Option: Letter

GSBA 543 Managerial Perspectives
Units: 3 Terms Offered: Sp Managerial careers, development of critical executive and managerial abilities, and the dynamics of organizational environment and systems as they impact managerial progression and growth. Registration Restriction: Open only to master students Duplicates Credit in GSBA 507, GSBA 522a, GSBA 522b, GSBA 533 Instruction Mode: Lecture Grading Option: Letter

GSBA 544 The Firm in the Global Economy
Units: 1.5 Terms Offered: Fa The economic environment of business and the forces influencing the firm. Duplicates Credit in GSBA 549 Instruction Mode: Lecture Grading Option: Letter

GSBA 545 Data Driven Decision Making
Units: 1.5 Terms Offered: Fa Data analysis technologies for business decision making: principles and techniques of statistical inference for business problem solving; foundations of data-driven regression and time series analytics. Duplicates Credit in GSBA 506ab and GSBA 524. Instruction Mode: Lecture Grading Option: Letter

GSBA 546 Strategic Marketing Management
Units: 2 Terms Offered: Sp Principles of marketing in a global marketplace. Skills and knowledge required to effectively conduct comprehensive and insightful analyses and develop effective marketing strategies. Registration Restriction: Open only to master students. Duplicates Credit in GSBA 509 and GSBA 528 Instruction Mode: Lecture Grading Option: Letter

GSBA 548 Corporate Finance
Units: 2, 3 Terms Offered: FaSpSm Modern theory of corporate investment and financing decisions. Registration Restriction: Open only to graduate students Duplicates Credit in GSBA 521a and GSBA 521b Instruction Mode: Lecture Grading Option: Letter

GSBA 549 The Firm in the National and International Economy
Units: 3 Terms Offered: Sp The economic environment of business and international forces influencing the firm. Duplicates Credit in former GSBA 526 and GSBA 544. Instruction Mode: Lecture Grading Option: Letter

GSBA 550a Entrepreneurship
Units: 1 Terms Offered: Sp Fundamentals of entrepreneurship. Understanding the new venture creation process. Prerequisite: GSBA 550a. Duplicates Credit in BAEP 549 and BAEP 550 and BAEP 551 and the former GSBA 586. Instruction Mode: Lecture Grading Option: Letter

GSBA 550b Entrepreneurship
Units: 1 Terms Offered: Sp Fundamentals of entrepreneurship. Understanding the new venture creation process. Prerequisite: GSBA 550a. Duplicates Credit in BAEP 549 and BAEP 550 and BAEP 551 and the former GSBA 586. Instruction Mode: Lecture Grading Option: Letter

GSBA 555 Management and Organization of the Creative Industries
Units: 3 Terms Offered: Sp How creative industries (motion pictures, television, publishing, radio, music, arts, games) operate and are organized. Critical discussion of pressing issues that these industries face. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

GSBA 560 The Perspective of Top Management
Units: 2 Terms Offered: Fa Using cases, students are introduced to top management issues of executive leadership, environmental and strategic analysis, use of financial statements, organizational assessment and design, technology management and decision support systems. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 561 Evaluating Market Performance
Units: 9 Terms Offered: Fa Evaluation of the firm by the market forces that affect its success; financial accounting and reporting; competitive market analysis; external communication; microeconomics; labor, customer and financial markets, statistical and decision analysis, financial and organizational measures of effectiveness. Instruction Mode: Lecture Grading Option: Letter

GSBA 562 Management of Operations
Units: 11 Analysis of operations management and business functions;
managerial accounting; finance; marketing; production; data processing and information systems; human resources management.

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 571 Environmental Analysis:** Establishing Competitive Advantage

**Units:** 9

**Terms Offered:** Fa

**Instruction Mode:** Lecture

**Grading Option:** In-progress to Letter Grade

**GSBA 572 Strategic Planning for Growth**

**Units:** 11

**Terms Offered:** Sp

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 572a Strategic Planning for Growth**

**Units:** 3

**Terms Offered:** Fa

**Instruction Mode:** Lecture

**Grading Option:** In-progress to Letter Grade

**GSBA 572b Strategic Planning for Growth**

**Units:** 8

**Terms Offered:** Sp

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 573 Managing Strategic Change and Implementation**

**Units:** 6

**Terms Offered:** Fa

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 573a Managing Strategic Change and Implementation**

**Units:** 5

**Terms Offered:** Fa

**Instruction Mode:** Lecture

**Grading Option:** In-progress to Letter Grade

**GSBA 573b Managing Strategic Change and Implementation**

**Units:** 1

**Terms Offered:** Sm

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**GSBA 574 The Executive of the Future**

**Units:** 2

**Terms Offered:** Sm

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 580 The Global Context of Business - PRIME**

**Units:** 2

**Terms Offered:** Sp

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 581 Technology Innovation and Management**

**Units:** 1.5

**Terms Offered:** Sm

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 582 The Global Context and International Business**

**Units:** 1.5

**Terms Offered:** Sp

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 584a International Business Consulting Project**

**Units:** 3

**Terms Offered:** SpSm

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 584b International Business Consulting Project**

**Units:** 2

**Terms Offered:** Sm

**Instruction Mode:** Lecture

**Grading Option:** Letter

**GSBA 588 Capstone: Futurethon Challenge**

**Units:** 5

**Terms Offered:** Fa

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**GSBA 590 Directed Research**

**Units:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

**Terms Offered:** FaSpSm

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**Instruction Mode:** Lecture

**Grading Option:** Letter
GSBA 592 Field Research in Business
Terms Offered: FaSpSm
Max Units: 12
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 602 Selected Issues in Economic Theory I
Units: 3
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 604 Regression and Generalized Linear Models for Business Applications
Units: 3
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 610 Seminar in Business Research
Units: 3
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 611 Seminar in Research Methodology
Units: 3
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 612 Selected Issues in Economic Theory II
Units: 3
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 625 Designing and Running Experiments
Units: 3
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Restriction: In-progress to Credit/No Credit

Global Security
GSEC 501 Foundations of Global Security
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 502 Global Governance and Globalization
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 503 Economic Analysis and Global Policy Issues
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 504 Research Design for Policy Evaluation
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 505 Statistics for Policy Evaluation
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 593 Independent Research in Business
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.0, 3.5, 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 594 Doctoral Dissertation
Units: 2
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 794a Doctoral Dissertation
Units: 2
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 794b Doctoral Dissertation
Units: 2
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSBA 794c Doctoral Dissertation
Units: 2
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Global Security
GSEC 501 Foundations of Global Security
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 502 Global Governance and Globalization
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 503 Economic Analysis and Global Policy Issues
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 504 Research Design for Policy Evaluation
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

GSEC 505 Statistics for Policy Evaluation
Units: 4
Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit
GSEC 510 Security and Global Governance
Units: 4 Major theoretical approaches to the study of war; focus on recent issues in security studies. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 511 Transnational Crime and Global Illicit Networks
Unusual. Data collection and overview of transnational organized crime; its effects on international security, political, social and economic development of countries around the world. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 521 Human Security and Humanitarian Intervention
Units: 4 Explore causes of human security threats, challenges to state sovereignty and actions to address failed states, conflicts and protect people through humanitarian intervention. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 522 Global Human Rights
Units: 4 Explore core definitions and concepts of human rights, whether human rights are universal, problems of enforcement and the role of human rights in foreign policy. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 523 Emerging Economies in Global Governance
Units: 4 The economic rise of four leading emerging economies, their impact on international economic institutions and the implications for global economic governance. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

GSEC 524 Global Health Governance and Security
Units: 4 An introduction to concepts, history, policy and practice of global health governance and an examination of social science and scientific frameworks for health security. Registration Restriction: Open only to master students Instruction Mode: Lecture Grading Option: Letter

Geriatric and Special Patient Dentistry
GSPD 504 Dental Treatment of the Geriatric and Special Patient
Units: 2 Social, psychological, economic and health factors which influence dental care for the geriatric and special patient populations; specific considerations and modifications of conventional dental treatment. Instruction Mode: Lecture Grading Option: Letter

GSPD 562a Clinic: Geriatric Dentistry
Units: 0 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 562b Clinic: Geriatric Dentistry
Units: 0 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 562c Clinic: Geriatric Dentistry
Units: 1 Clinical experience in dental treatment of geriatric patients at an extramural site. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563a Clinic: Special Patient Care
Units: 0 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563b Clinic: Special Patient Care
Units: 0 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

GSPD 563c Clinic: Special Patient Care
Units: 1 Clinical experience in treatment of the physically, medically, or mentally disabled patient. Instruction Mode: Lecture Grading Option: Letter

Human Behavior
HBHV 310 Interpersonal Skills in Dental Hygiene
Units: 1 Training in the application of behavioral and communication skills. Instruction Mode: Lecture Grading Option: Letter

HBHV 501 Behavioral Skills in Dentistry
Units: 1 Introduction to key personal, interpersonal, and professional factors that shape the doctor-patient relationship; ways interpersonal skills influence the effectiveness, durability, and satisfaction of the doctor-patient relationship. Instruction Mode: Lecture Grading Option: Letter

HBHV 502 Interactional Skills
Units: 1 Introduction to purpose, objectives, and principles of clinical interviewing. Instruction Mode: Lecture Grading Option: Letter

HBHV 504 Patient Education and Management
Units: 1 Management of difficult patients; psychology and behavioral treatment of pain; patient education of treatment planning; smoking cessation program. Instruction Mode: Lecture Grading Option: Letter

HBHV 550 Communications in Clinical Dentistry
Units: 1 Verbal and nonverbal communication in clinical dentistry; clinical experience in use of manual, verbal, and non-verbal communication skills during a traumatic injection procedure. Instruction Mode: Lecture Grading Option: Letter

HBHV 561a Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral and mental health principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561b Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral dental treatment. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561c Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral treatment principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

HBHV 561d Clinic: Behavioral Dentistry
Units: 0 Clinical application of behavioral treatment principles. Data collection, case presentation, fear reduction (iatrosedation), and tobacco cessation. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

Human Biology
HBIO 200Lg The Human Animal
Units: 4 Foundations of the human species. Examination of scientific evidence from Darwinian theory, primate behavior, fossils, and the behavior of modern people. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in former ANTH 200. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ANTH 200

HBIO 202Lg Nutrition for Life
Units: 4 Terms Offered: FaSpSm To develop an understanding of Nutrition, especially as it pertains to optimal health and prevention of diseases. A study of macro and micro nutrients. Satisfies New General Education in Category D: Life Sciences Duplicates Credit in EXSC 202L Instruction Mode: Lecture, Lab Grading Option: Letter

HBIO 203L Individualized Exercise Prescription
Units: 2 Terms Offered: FaSp Principles and theories related to exercise prescription; programs of weight-training, circuit-training, aeroics, flexibility, high and low-intensity training guidelines; safeguards and effectiveness. Duplicates Credit in former EXSC 203L Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 205Lgx The Science of Sport
Units: 4 Terms Offered: FaSpSm The physiological and nutritional basis of human performance. Factors that facilitate and limit athletic achievement. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Duplicates Credit in former EXSC 205Lgx.
HBIO 250g The Pharmacology of Performance Enhancing Drugs
Units: 4
Terms Offered: Sp
Instruction Mode: Lecture, Discussion
Grading Option: Letter

HBIO 300 Evolution, Ecology, and Culture
Units: 4
Terms Offered: FaSpSm
Instruction Mode: Lecture, Discussion
Grading Option: Letter

HBIO 301L Human Anatomy
Units: 4
Terms Offered: FaSpSm
Instruction Mode: Lecture, Lab Required
Grading Option: Letter

HBIO 302L Nutrition and Metabolism
Units: 4
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

HBIO 306 Primate Social Behavior and Ecology
Units: 4
Terms Offered: FaSpSm
Instruction Mode: Lecture, Lab Required
Grading Option: Letter

HBIO 308 Origins and Evolution of Human Behavior
Units: 4
Examination of the evidence for and against evolutionary bases of a range of human behaviors. Topics include sex differences, human reproductive strategies, race, IQ, human ecology. Duplication Credit in former ANTH 308.

HBIO 309 The Human Machine
Units: 4
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

HBIO 310 Sociopsychological Aspects of Sport and Physical Activity
Units: 4
Terms Offered: FaSpSm
Examination of the individual in a social environment related to sport and physical activity; personality, motivation, attitude, and group behavior in physical activity contexts. Duplication Credit in former EXSC 310.

HBIO 320 Muscle Physiology
Units: 4
Terms Offered: Sp Analysis of the skeletal muscular system (anatomy, physiology, biochemistry, and development) and its functional properties under both normal and pathological conditions. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 350 Nutrition and Homeostasis
Units: 4
Terms Offered: Sp Principles and regulations of vitamin/mineral metabolism as it relates to homeostasis of organ systems. Prerequisite: HBIO 302 or CHEM 350 or BISC 330 or BISC 312.

HBIO 360L Nutrition and Disease
Units: 4
Terms Offered: Fa Principles of diet therapy for the prevention and treatment of human disease. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 370 Genetics and Disease
Units: 4
Terms Offered: FaSpSm An overview of the genetic underpinning of human health and disease. Inheritance of mendelian diseases, common diseases, developmental diseases and cancer; prenatal testing, genetic counseling and genetic therapies. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 400L Motor Control and Learning
Units: 4
Terms Offered: FaSpSm Theories of control and learning applied to motor performance; variables affecting performance in exercise, games, sports and dance. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 401L Physiology of Movement
Units: 4
Terms Offered: FaSpSm Terminology, structure and function of muscle, bone and endocrine systems; effects of exercise and training on those systems. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 403L Forensic Science of the Bones
Units: 4
Terms Offered: FaSpSm Comprehensive study of forensic anthropology; emphasis on identification of human remains and creation of biological profiles including age, sex, and manner of death, etc. Prerequisite: HBIO 301L

HBIO 405 Evolutionary Medicine
Units: 4
Terms Offered: FaSpSm Evolutionary, cultural, and environmental factors in the emergence and existence of diseases; a Darwinian examination of illness in the human species. Prerequisite: BISC 120Lg or BISC 121Lg

HBIO 406 Theory and Method in Human Evolutionary Biology
Units: 4
Terms Offered: FaSpSm Historical and theoretical approaches to major issues in the field of human evolutionary biology. Capstone course in which students will undertake an original independent research project. Prerequisite: HBIO 200Lg

HBIO 407L Endocrinology and Metabolism
Units: 4
Terms Offered: Sp Regulation of metabolic pathways and endocrinology in health and metabolic diseases. Prerequisite: HBIO 302L Registration Restriction: not open to freshman, sophomore and junior.

HBIO 408L Biomechanics
Units: 4
Terms Offered: FaSpSm Examination of the etiology, prevention, and treatment of metabolic disorders such as diabetes mellitus and obesity that are major threats to public health. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 420L Applied Human Physiology
Units: 4
Terms Offered: FaSpSm The physiology of the respiratory, cardiovascular, renal, musculoskeletal, digestive, endocrine, and nervous systems in humans, with application to human health and pathology. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 435 Neurobiology of Feeding Behavior and Obesity
Units: 4
Terms Offered: FaSpSm Systems that control feeding behavior and energy balance with an emphasis on the determinants of obesity. Prerequisite: BISC 220Lg or BISC 221Lg

HBIO 439L Human Performance and Bioenergetics
Units: 2
2 of 4 Courses Offered: FaSp Application of physiology, biomechanics and perceptual-motor principles to the study of skill acquisition and human performance. Prerequisite: HBIO 408. Duplication Credit in former EXSC 439L.
HBIO 441L Prevention of Athletic Injuries
Units: 4 Terms Offered: Fa Application of scientific principles to conditioning, protecting, and rehabilitating the athlete. Prerequisite: HBIO 301. Duplicates Credit in former EXSC 441L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 442L Evaluation and Rehabilitation of Athletic Injuries
Units: 4 Terms Offered: Sp Application of scientific principles to evaluating and rehabilitating athletic injuries. Prerequisite: HBIO 301. Duplicates Credit in former EXSC 442L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

HBIO 491L Laboratory Experience in Kinesiology
Units: 2, 4 Terms Offered: FaSpSm Practical laboratory experience in basic and applied exercise physiology, biochemistry, and biomechanics. Emphasizing development of laboratory techniques. Prerequisite: HBIO 203, HBIO 301, HBIO 302, HBIO 320. Duplicates Credit in former EXSC 491L. Instruction Mode: Lecture, Lab Grading Option: Letter

HBIO 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Human and Evolutionary Biology. Instruction Mode: Lecture Grading Option: Letter

Health Care Decision Analysis
HCDA 501 Fundamentals of Healthcare Insurance Design
Units: 3 Terms Offered: Sm Introduction to insurance payer types, functions, actuarial pricing methods, network design and business operations impacting the provision of health benefits and reimbursement for medical products and services. Instruction Mode: Lecture Grading Option: Letter

HCDA 502 Comparative International Healthcare Systems
Units: 3 Terms Offered: Sp Health coverage and funding across seven industrial countries, with examination of variances and similarities in stated policy and outcomes by region and population mix. Instruction Mode: Lecture Grading Option: Letter

HCDA 503 Competitive Healthcare Intelligence
Units: 3 Terms Offered: Fa Analysis and techniques to evaluate marketplace opportunities with product launching, positioning strategies, intelligence gathering and decision-making. Instruction Mode: Lecture Grading Option: Letter

HCDA 506 Foundations of Insurance and Global Access
Units: 3 Terms Offered: Fa Basic overview focused on the coverage, payment, reimbursement and access to healthcare and pharmaceuticals across a global landscape including the US, EU, and the big five countries of Asia-Pacific. Instruction Mode: Lecture Grading Option: Letter

HCDA 507 Foundations of Product Development and Commercialization
Units: 3 Terms Offered: Sp Basic introduction focused on the pathways and principles for managing new health technology discovery, funding, development, Food and Drug Administration (FDA) approval, and commercial market launch. Instruction Mode: Lecture Grading Option: Letter

HCDA 510 Business Implications of Healthcare Policy
Units: 3 Terms Offered: Sm Overview of healthcare policies that impact payers, employers, healthcare industry, state and federal agencies and consumers; individual and mandated benefits, medical loss ratio, health care exchanges and impact of comparative effectiveness review. Instruction Mode: Lecture Grading Option: Letter

HCDA 515 Healthcare Decision Analysis and Modeling

HCDA 520 Health Economic and Outcomes Methodology
Units: 3 Comprehensive review of core biostatistics principles and applications through practical problem solving approach and case studies. Statistical methods, data validation and outcomes research, clinical trials. Instruction Mode: Lecture Grading Option: Letter

HCDA 525 Healthcare Literature Analysis and Applications
Units: 3 Review and critique of health economics, P&T and outcomes literature. Core biostatistical measures used to deconstruct and evaluate published research through case studies. Recommended Preparation: HCDA 520. Instruction Mode: Lecture Grading Option: Letter

HCDA 530 Total Product Development: Benchtop to Launch
Units: 3 Systematic review from discovery to market assessment, bio-targeting through clinical trial design. Profile past and current launch strategies, pharmacovigilance, regulatory and filing requirements. Instruction Mode: Lecture Grading Option: Letter

HCDA 540 Executive Leadership and Healthcare Marketing
Units: 3 Critical principles of leadership, communication, best practice marketing presentations, project management techniques, business innovations and strategy. Use of case studies, team projects, real world examples.

HCDA 550 Healthcare Innovation: Creativity to Value
Units: 3 Systematically review creativity and innovation techniques across healthcare industry, examine breakthrough genomic and biopharmaceutical processes and thinking, evaluate novel therapeutic and economic measures transforming outcomes. Instruction Mode: Lecture Grading Option: Letter

HCDA 553 Advanced Pricing Strategies
Units: 3 Positioning products in global markets; market share targets, payer value, life cycle and launch techniques, tools for formulary positioning and reimbursement. Instruction Mode: Lecture Grading Option: Letter

HCDA 560 Managing Effective Partnerships and Mergers
Units: 3 M&A and partnering in the health care industry; law, due diligence, contracts, research alliances, structured agreements, global partners, and tactical business strategies. Instruction Mode: Lecture Grading Option: Letter

HCDA 570 Asia Pacific: Access, Delivery and Reimbursement
Units: 3 In-depth review China, India, Japan, Korea, Taiwan. Analyzing regional pharmaceutical industry, research, manufacturing, partnerships, licensing, trials. Compare insurance, pricing, access, reimbursement for drugs, healthcare services. Instruction Mode: Lecture Grading Option: Letter

HCDA 580 Seminars in Healthcare Decision Analysis
Units: 3 Max Units: 12.0 Terms Offered: FaSpSm Weekly seminar and literature series, review and discuss policy, biopharmaceuticals, insurance, global healthcare access issues. Student lead discussions, expert guest speakers, group projects, critical thinking. Instruction Mode: Lecture Grading Option: Letter

HCDA 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HCDA 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Requirement: Open only to graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

HCDA 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Special topics in Healthcare Decision Analysis. Instruction Mode: Lecture Grading Option: Letter

Hebrew
HEBR 120 Hebrew I
Units: 4 Terms Offered: FaSpSm Focuses on the acquisition of proficiency and communicative skills in speaking, reading, writing, and comprehension as well as cultural literacy. Instruction Mode: Lecture Grading Option: Letter

HEBR 150 Hebrew II
Units: 4 Terms Offered: FaSpSm A continuation of Hebrew I. Offers a higher level of skill development in reading, writing and conversation. Prerequisite: HEBR 120 Instruction Mode: Lecture Grading Option: Letter

HEBR 220 Hebrew III
Units: 4 Terms Offered: Fa Continuation of Hebrew II; stress on grammar, composition, and conversation. Prerequisite: HEBR 315. Instruction Mode: Lecture Grading Option: Letter
HEBR 315 Modern Hebrew Language (Hebrew IV)
Units: 4
Terms Offered: Sp
Examines Hebrew in depth and introduces students to Modern Hebrew literature through major poems, novels and films from the 20th and 21st centuries. Prerequisite: HEBR 220
Instruction Mode: Lecture Grading Option: Letter

History

HIST 100gm The American Experience
Units: 4
Terms Offered: FaSpSm
Patterns of American development from Colonial times to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former HIST 200gm.
Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 101gp State and Society in the Ancient World
Units: 4
Terms Offered: FaSpSm
Achievements of the near East, Greece, and Rome with emphasis on the development of ideas, arts, and institutions which have influenced modern man. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as CLAS 101

HIST 102gm The Worlds of Medieval Europe
Units: 4
Terms Offered: FaSp
The social, political, religious, intellectual and cultural landscapes of Europe and the Mediterranean, c. 300 to c. 1400. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 103g The Emergence of Modern Europe
Units: 4
Terms Offered: Fa
Political, social and cultural developments in Europe, 1300-1815. Renaissance and Reformation; absolute monarchy, scientific changes, and Enlightenment; French Revolution and Napoleon. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 104gp Modern Europe
Units: 4
Terms Offered: Sp
The Enlightenment, French Revolution, industrialization, Darwinism, socialism, nationalism, technological revolutions, mass culture, imperialism, race, fascism, communism, world wars, genocide, migration, the Cold War, terrorism. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 105g The Korean Past
Units: 4
A topical and chronological study of the major political, social, and intellectual forces that have shaped the history of Korea. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

HIST 106g Chinese Lives: An Introduction to Chinese History
Units: 4
Terms Offered: FaSp
Study of the lives of selected individuals who have helped to shape Chinese politics and culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 107gp Introduction to the History of Japan
Units: 4
Terms Offered: FaSp
Japan from the earliest times to the present; social, cultural, and political dimensions. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 108g Histories of South Asia
Units: 4
History of South Asia from the tenth century to the present day; examines imperialism, capitalism, nationalism, and immigration. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 109g The Latin American Experience
Units: 4
Introduction to Latin American history and cultures, providing tools to grasp the importance of the region within the larger Americas and the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 180gw The Middle East
Units: 4
Terms Offered: FaSpSm
Introduction to the history and the study of the Middle East from ancient to modern times. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 185g A Survey of Armenian History
Units: 4
Terms Offered: FaSp
Introduction to Armenian history and its connections with the region and the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 195 Selected Themes and Topics in History
Units: 4
Terms Offered: Irregular
Study of special historical themes and topics through readings, lecture, discussions, and supervised writings. Instruction Mode: Lecture Grading Option: Letter

HIST 201 Approaches to History
Units: 4
Terms Offered: FaSp
Methods and theories of historical interpretation of evidence; uses of archives; modes of presenting the past to the public. Required of all history majors. Duplicates Credit in former HIST 300.
Instruction Mode: Lecture Grading Option: Letter

HIST 210gw How to Be An American: Global Histories of U.S. Citizenship
Units: 4
Terms Offered: FaSp
History of United States citizenship from its origins to the present day, with particular attention to relationship between law and culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 211gp Race in America
Units: 4
Examines the origins of the idea of race and how this idea influenced the development of the United States from the colonial period to the present day. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 215g Business and Labor in America
Units: 4
Terms Offered: Fa
Expansion of business enterprise from colonial merchants to modern corporations; evolution of the labor force from artisans to skilled and unskilled industrial workers. Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 220gp Murder on Trial in America
Units: 4
Examination of high-profile murders and murder trials in order to explore major social, political, and cultural issues from the colonial period to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

HIST 225g Film, Power, and American History
Units: 4
Terms Offered: Sp
U.S. motion pictures as both a response to and comment upon major events, problems, and themes in 20th century America. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

HIST 235g War and the American Experience
Units: 4
Terms Offered: Fa
Comparative historical analysis of the American experience of war: war decision-making processes; evolution of strategy and tactics; the political, economic, and social effects of war. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

Units: 4 Terms Offered: Sp Examination of the role of cultural, economic, and military forces in shaping relations between two of the most important nations in the Asia/Pacific regions. Recommended Preparation: HIST 363 or appropriate International Relations course. Instruction Mode: Lecture Grading Option: Letter

HIST 465 America in the Cold War World, 1945–1991
Units: 4 Terms Offered: Fa America’s role in the Cold War and the impact of that conflict on its people, society and culture. Instruction Mode: Lecture Grading Option: Letter

HIST 466 New World Orders: US and the Atlantic World, 1918-2018
Units: 4 Terms Offered: FaSp Critical examination of attempts by the United States and major European powers to institute varying kinds of order across borders. Instruction Mode: Lecture Grading Option: Letter

HIST 470 The Spanish Inquisition in the Early Modern Hispanic World
Units: 4, 2 years Terms Offered: FaThe Spanish Inquisition in Spain and Colonial Latin America, major theories and interpretations. Instruction Mode: Lecture Grading Option: Letter

HIST 473 Colonial Latin America Seminar
Units: 4 Terms Offered: SpThe history of colonial Latin America, focusing on the transformation of native Americans and Europeans into participants in a new colonial tradition. Duplication Credit in HIST 371. Instruction Mode: Lecture Grading Option: Letter

HIST 478 The United States, 1789–1850
Units: 4 Terms Offered: Irregular The nation during the first six decades; development of American institutions; constitutional growth, expansion, sectionalism, and the Mexican War; the Compromise of 1850. Instruction Mode: Lecture Grading Option: Letter

HIST 479 History in the Museum: The Past in Objects
Units: 4 An examination of how museums collect and display objects, shaping ideas about human cultures and the world, from the Renaissance to the present. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AHIS 479

HIST 480 Seminar in Middle East History
Units: 4 A readings and research seminar dealing with one topic in the history of the Middle East. Topics will change each time the course is offered. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-480

HIST 481 Producing Film Histories
Units: 4 Terms Offered: Sp History of film
form and its institutions. Students will produce an original written or multimedia research project. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 484 The United States, 1919–1939**
**Units:** 4 **Terms Offered:** Irregular Postwar reaction and the Twenties; the Great Depression and the New Deal; diplomacy between the wars. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 487 The United States since 1939**
**Units:** 4 **Terms Offered:** Irregular A survey of the accelerating changes that transformed the nation's domestic life and revolutionized America's role in world affairs. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 488 Teaching History in the Secondary Schools**
**Units:** 4 **Terms Offered:** Fa Seminar in research methods, textbook and online approaches for teaching history in secondary schools. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 490 Directed Research**
**Mode:** history in secondary schools.

**Units:**

**HIST 488 Teaching History in the Secondary Schools**
**Units:** 4 **Terms Offered:** Fa Seminar in research methods, textbook and online approaches for teaching history in secondary schools. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 493 Law, History and Culture Honors Program**
**Units:** Open only to Law, History and Culture majors **Instruction Mode:** Lecture Grading Option: Letter

**HIST 496 Internship in Public History**
**Units:** 4 Max Units: 8 **Terms Offered:** Sp The ideas and practices of public history explored through a seminar and an internship at a museum, historical society, or archive. **Registration Restriction:** Not open to Freshman students. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 497 Senior Seminar in Early Modern Studies**
**Units:** 4 **Terms Offered:** Sp (Enroll in ENGL 497)

**HIST 498 Seminar on Selected Historical Topics**
**Units:** 4 Max Units: 8.0 **Terms Offered:** FaSp Advanced study in historical analysis and writing on selected topics and themes. Seminar enrollment limited to 15 students. **Recommended Preparation:** HIST 201. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 499 Special Topics**
**Units:** 2, 3, 4 Max Units: 8.0 **Terms Offered:** Irregular **Instruction Mode:** Lecture Grading Option: Letter

**HIST 500 Introduction to Graduate Historical Studies**
**Units:** 4 **Terms Offered:** Fa Techniques, theories, and sub-disciplines of history. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 505 Studies in Early Medieval History**
**Units:** 4 **Terms Offered:** Irregular Intensive study of subjects selected from the early Middle Ages, emphasizing source material, bibliography, and historiographic problems. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 506 Studies in Later Medieval History**
**Units:** 4 **Terms Offered:** Irregular Intensive study of subjects selected from the later Middle Ages, emphasizing source material, bibliography, and historiographic problems. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 507 Studies in the Renaissance**
**Units:** 4 **Terms Offered:** Irregular Europe in the Renaissance: sources; secondary bibliography; and historiography. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 508 Studies in the Reformation**
**Units:** 4 **Terms Offered:** Readings, reports, and discussions of major problems, issues, and interpretations of the Reformation. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 510 Studies in Early Modern Eastern Europe**
**Units:** 4 **Terms Offered:** Irregular Readings of major interpretive studies on the 17th and 18th centuries. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 511 Studies in Early Modern British History**
**Units:** 4 **Readings:** 4 **Terms Offered:** Sp Readings in major interpretive and historiographical studies on 16th and 17th century British history. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 514 Studies in Modern European History, 1789–1914**
**Units:** 4 **Terms Offered:** FaSp Readings and current bibliography in the history of Europe from the French Revolution to the outbreak of World War I; emphasis on cultural history and its interpretation. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 515 Studies in Modern European History: Europe's 20th Century**
**Units:** 4 **Terms Offered:** FaSp Readings in the history and historiography of Europe in the 20th century. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 516 Studies in the History of the Holocaust**
**Units:** 4 Advanced study of the persecution and mass murder of the European Jewry, its historiography. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 517 Studies in Russian History**
**Units:** 4 **Terms Offered:** Irregular Readings, discussions, and student papers in modern Russian history. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 518 Problems in Modern European Jewish History**
**Units:** 4 **Terms Offered:** Major themes, problems and debates in modern European (and global) Jewish history and historiography. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 520 Modernity and Its Visual Cultures**
**Units:** 4 **Terms Offered:** Sp Western visual culture 1850–1930: historical background of changes in high and popular culture, technological reproducibility, display and spectacularization; recent literature and theoretical approaches. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 525 Studies in British History**
**Units:** 4 **Terms Offered:** Irregular Selected topics in English and British Empire history with emphasis on the 19th and 20th centuries. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 534 Studies in Modern Japanese History**
**Units:** 4 **Terms Offered:** Irregular Selected topics and historiography of modern Japan. Open only to doctoral students. **Registration Restriction:** Open only to doctoral students. **Instruction Mode:** Lecture Grading Option: Letter Crosslisted as EALC-535

**HIST 535 Studies in Japanese History**
**Units:** 4 Max Units: 8.0 **Terms Offered:** Selected topics in historical problems dealing with Japan. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 536 Studies in Chinese History**
**Units:** 2 or 4 **Terms Offered:** Irregular Selected topics in historical problems dealing with China. **Prerequisite:** HIST 340. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 540 Studies in Modern East Asian History**
**Units:** 4 Max Units: 8.0 **Terms Offered:** Irregular Readings and analysis of a particular theme in modern Asian history, focusing on broad comparative issues like cultural identity, colonialism, nationalism, revolution, or interstate relations. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 544 Feminist Theory for Historians**
**Units:** 4 **Terms Offered:** FaSp Readings in contemporary feminist theory, focused especially on theories that address the construction, writing and general practice of history. **Registration Restriction:** Open only to graduate students. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 546 Comparative History of Women and Gender in the West to 1800**
**Units:** 4 **Terms Offered:** FaSp Topically-focused readings in the comparative history of women and gender in Europe and the Americas before 1800. **Registration Restriction:** Open only to graduate students. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 550 Studies in the History of Women, Gender and Sexuality**
**Units:** 4 **Terms Offered:** Irregular Readings and current bibliography in the history of women, gender and sexuality. **Instruction Mode:** Lecture Grading Option: Letter

**HIST 554 Readings in Chicano/Latino History**
**Units:** 4 **Terms Offered:** FaSp (Enroll in AMST 554)

**HIST 555 Studies in the American West**
**Units:** 4 **Terms Offered:** Irregular **Instruction Mode:** Lecture Grading Option: Letter
economic, political, ecological, symbolic, cultural, metaphorical — between peoples "west" of the Eurasian land mass since the rise of capitalism global expansion. Instruction Mode: Lecture Grading Option: Letter

HIST 560 Transpacific History
Units: 4 Exploration of the connections and divergences in the Pacific region, 19th century to present. Topics include transnationalism, war, political economy, international relations, immigration, environmentalism, and race. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ASMT-522

HIST 561 Historiography of Colonial Mexico
Units: 4 Terms Offered: Fa An introduction to the historiography of Colonial Mexico from 1500 to 1821. Instruction Mode: Lecture Grading Option: Letter

HIST 565 Studies in American International History
Units: 4 Terms Offered: Fa An introduction to the historiography of American international history, economic, political, ecological, symbolic, mobility; reform and radicalism, leisure. Instruction Mode: Lecture Grading Option: Letter

HIST 566 Historical Scholarship on North America to 1800
Units: 4 Terms Offered: Fa An introduction to research in the fields of American, colonial America, Atlantic world, and the early United States. Open only to graduate students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

HIST 567 Historical Scholarship on 19th Century America
Units: 4 Terms Offered: Sp Introduction to historiography and research in the political, economic, social, cultural, and intellectual history of the 19th century United States. Instruction Mode: Lecture Grading Option: Letter

HIST 568 Historical Scholarship on 20th and 21st Century America
Units: 4 Terms Offered: Sp Introduction to historiography and research in the political, economic, social, cultural, and intellectual history of the 20th and 21st century United States. Instruction Mode: Lecture Grading Option: Letter

HIST 575 Studies in 19th Century United States History
Units: 4 Max Units: 8.0 Terms Offered: Fa Intensive readings and bibliography in the Early National, Jacksonian, Civil War, and Post-Civil War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 583 Studies in Urban History
Units: 4 Readings and analyses in the rise of the city and the impact of urbanization from the colonial era to the present. Instruction Mode: Lecture Grading Option: Letter

HIST 584 Seminar in American Social History
Units: 4 Terms Offered: Irregular Creation of communities and societies; industrialization, urbanization, working class life; families, women, ethnicity; immigration; racism; mobility; reform and radicalism, leisure. Instruction Mode: Lecture Grading Option: Letter

HIST 585 Studies in 20th Century American History
Units: 4 Readings and analyses in social and political problems, movements, and issues. Instruction Mode: Lecture Grading Option: Letter

HIST 586 Studies in American Intellectual and Cultural History
Units: 4 Readings, analyses, and discussion of selected topics relating to the history of American thought and the arts. Instruction Mode: Lecture Grading Option: Letter

HIST 587 Studies in the Politics of American Popular Culture
Units: 4 Selected themes, theories, and key works in the politics of American popular culture. Instruction Mode: Lecture Grading Option: Letter

HIST 589 Fascism, Nazism and Communism
Units: 4 The rise of Nazism, fascism, and communism in 20th and 21st centuries and the ways in which those ideologies conflicted with democracy. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

HIST 910 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSmSm Lecture Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 911 Quantitative Historical Research
Units: 4 Terms Offered: Irregular Teaches statistical concepts, methods, and tools for researching and interpreting past. Instruction Mode: Lecture Grading Option: Letter

HIST 920 Historiography
Units: 4 Terms Offered: Sm Historical criticism; form and mechanics of presenting research; writers of history, their works and philosophies; theories of historical development. Instruction Mode: Lecture Grading Option: Letter

HIST 921 The Art of Historical Writing
Units: 4 Terms Offered: Sp An analysis of conventional forms of historical representation and the artistic and scientific challenges to them. Laboratory training in innovative forms of historical writing will be stressed. Instruction Mode: Lecture Grading Option: Letter

HIST 944a Master's Thesis
Units: 2 Terms Offered: FaSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 944b Master's Thesis
Units: 2 Terms Offered: FaSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 944c Master's Thesis
Units: 2 Terms Offered: FaSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 959x Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa Basic principles of history pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first semester teaching assistants in history. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 602 Seminar in Ancient History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 605 Seminar in Medieval European History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 608 Seminar on Premodern Europe
Units: 4 Max Units: 8.0 Directed research on topics from late antiquity to the 18th century. Students will work with both their faculty advisers and the course instructor. Instruction Mode: Lecture Grading Option: Letter

HIST 610 Seminar in Early Modern European History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems concerning the 17th and 18th centuries. Instruction Mode: Lecture Grading Option: Letter

HIST 615 Seminar in Modern European History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems dealing with Europe since 1789. Instruction Mode: Lecture Grading Option: Letter

HIST 617 Seminar in Russian History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 620 Research Seminar on Modern Visual Culture
Units: 4 Terms Offered: Fa A research seminar focusing on Western visual culture since the mid-18th century. Recommended Preparation: HIST 520. Instruction Mode: Lecture Grading Option: Letter

HIST 630 Seminar in Japanese History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Instruction Mode: Lecture Grading Option: Letter

HIST 635 Seminar in Chinese History
Units: 2 or 4 Max Units: 8.0 Terms Offered: Irregular Directed research in historical problems. Prerequisite: HIST 340. Instruction Mode: Lecture Grading Option: Letter

HIST 650 Seminar on Women's and Family History
Units: 4 Terms Offered: Sp Readings, discussions and directed research on women's and family histories. Instruction Mode: Lecture Grading Option: Letter

HIST 655 Seminar in Western American History
Units: 2 or 4 Max Units: 8.0 Selected topics in the history of the American frontier and the West. Instruction Mode: Lecture Grading Option: Letter

HIST 660 Research Seminar on Transpacific Studies
Units: 4 Terms Offered: FaSm (Enroll in ASMT 622)
HIST 670 Illness and Healing in the Modern World
Units: 4 Terms Offered: Sp; Illness and healing in Europe and the Americas since 1492, especially the changing clinical and cultural definitions and responses to disease and ailments. Instruction Mode: Lecture Grading Option: Letter

HIST 673 Seminar in Early North American History
Units: 4 Max Units: 8.0 Primary research on issues related to the history of the colonial and early national periods with an emphasis on areas that became the United States. Instruction Mode: Lecture Grading Option: Letter

HIST 675 Seminar in 19th Century United States History
Units: 4 Max Units: 8.0 Terms Offered: Sp Research in historical problems of the Antebellum, Civil War, and Post-Civil War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 680 Seminar in 20th Century United States History
Units: 4 Max Units: 8.0 Terms Offered: Fa Directed research in historical problems of the Reform, World War I, interwar, World War II, and Post-War periods. Instruction Mode: Lecture Grading Option: Letter

HIST 700 Historical Explanation and Research Design
Units: 4 Designed for all doctoral candidates in their last year of course work, this practicum helps students define a dissertation topic and produce a prospectus. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

HIST 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

HIST 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Health Care Management
HMGT 510 The Dynamics of Health Care Leadership
Units: 4 A five-day residential provides an intensive, multi-faceted learning experience in leadership, communication, managed care, systems thinking, and the health care environment. Instruction Mode: Lecture Grading Option: Letter

HMGT 512 Information Technology and Patient Engagement
Units: 2 Terms Offered: FaSpSm Strategic management and utilization of healthcare information technology in the delivery of healthcare; patient engagement and the use of technology to facilitate participation in their own care. Registration Restriction: Open only to Executive Master of Health Administration students. Instruction Mode: Lecture Grading Option: Letter

HMGT 520 Leading People and Health Care Organizations
Units: 4 Terms Offered: Fa An exploration of contemporary work force issues and skills development in organizational design, performance measurement, teamwork, conflict resolution, leadership, and change management. Instruction Mode: Lecture Grading Option: Letter

HMGT 525 Managed Care Operations
Units: 4 Focuses on managerial, operational, and organizational aspects of managed care for integrated delivery systems, health plans, and medical groups. Instruction Mode: Lecture Grading Option: Letter

HMGT 540 Health Economics, Financing and Reimbursement
Units: 4 Terms Offered: Fa Provides a framework for the economic analysis of health care issues and provides students with an opportunity to apply economic methods to a number of actual health care problems. Registration Restriction: Open only to Health Administration majors Instruction Mode: Lecture Grading Option: Letter

HMGT 545 Systems Thinking and the Analysis of Data
Units: 4 Quality improvement and statistical tools for health managers. Covers analyzing processes; collecting and analyzing operational data; drawing valid conclusions from data. Instruction Mode: Lecture Grading Option: Letter

HMGT 550 Law, Regulation, and Ethics
Units: 4 An intensive introduction to business and health care law, ethics and regulation; gives executives practical knowledge regarding legal consideration in business transactions. Instruction Mode: Lecture Grading Option: Letter

HMGT 560 Customer-Focused Health Care Organization
Units: 2 Strategies for gaining and using customer-560 derived data in planning, marketing and managing health care organizations. Instruction Mode: Lecture Grading Option: Letter

HMGT 565 Managing the Organization's Financial Health
Units: 4 Terms Offered: Fa Executives confront and solve problems requiring use of accounting, finance, and management control principles; provides core financial skills for non-finance professionals. Instruction Mode: Lecture Grading Option: Letter

HMGT 570 Strategic Management
Units: 4 Terms Offered: Sm Provides skill development and application in the integrative discipline of strategic management including assessment, strategy formulation, implementation and control. Instruction Mode: Lecture Grading Option: Letter

HMGT 575 Managing and Improving Health
Units: 4 Terms Offered: Sp Methods for monitoring and improving the health of populations. Topics include outcomes management, risk-adjustment, development and implementation of practice guidelines. Instruction Mode: Lecture Grading Option: Letter

HMGT 600 Managing Risk
Units: 2 Terms Offered: FaSpSm Overview of reimbursement models in clinical and institutional settings; legal, financial and clinical assumption of risk pursuant to new and evolving federal and state statutory and regulatory provisions. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 601 Operations Management for Accountability
Units: 4 Terms Offered: FaSpSm Improving productivity and efficiency of health care organizations combining the application of key operational analysis principles to improve quality, speed and productivity in the delivery of health care. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 602 Operational Efficiency
Processes in Health Care Organizations
Units: 2 Terms Offered: FaSpSm Overview of contemporary methods used to develop and monitor patient quality and safety outcomes; develop skill in data collection and analysis of clinical care outcomes; focus on operationalizing outcomes that matter to payers, organizations, and clinicians. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

HMGT 603 Developing and Monitoring of Quality and Patient Safe Outcomes
Units: 2 Terms Offered: Sm Overview of contemporary methods used to develop and monitor patient quality and safety outcomes; develop skill in data collection and analysis of clinical care outcomes; focus on operationalizing outcomes that matter to payers, organizations, and clinicians. Registration Restriction: Open only to EMHA students. Instruction Mode: Lecture Grading Option: Letter

Health Promotion and Disease Prevention Studies
HP 101 Current Issues in Medical Education and Healthcare
Units: 2 Terms Offered: SpCurrent critical issues in healthcare delivery; strategies to succeed in medical school and as physicians. Instruction Mode: Lecture Grading Option: Letter

HP 200 Introduction to Health Promotion and Disease Prevention
Units: 4 Terms Offered: Fa Introduction to strategies for promoting health and wellness. Includes self monitoring of health risk behavior, goal setting, and behavior changes. Instruction Mode: Lecture Grading Option: Letter
HP 230 Nutrition and Health  
Units: 4  Terms Offered: FaSp Nutrition as it relates to health promotion across the lifespan and disease prevention. Discussion of nutrients, factors affecting food choices, food safety and global nutrition issues. Instruction Mode: Lecture  Grading Option: Letter

HP 250 Introduction to Addiction Science  
Units: 4  Terms Offered: Fa Causes and consequences of addiction as they relate to the individual, family, community and society are discussed. Instruction Mode: Lecture  Grading Option: Letter

HP 270 Introduction to Global Health  
Units: 4  Terms Offered: Fa Introduction to concepts of global health and disease control. Issues of globalization, global governance, emerging diseases, infectious disease treatment, and outbreak challenges. Instruction Mode: Lecture  Grading Option: Letter

HP 290 Introduction to Research Apprenticeship  
Units: 2 Max Units: 8.0  Terms Offered: FaSp Apprenticeship in health related fields under supervision of a departmental faculty member. Instruction Mode: Lecture  Grading Option: Credit/No Credit

HP 299 Special Topics  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08  Terms Offered: FaSpSm Special topics in Health Promotion and Global Health. Instruction Mode: Lecture  Grading Option: Letter

HP 300 Theoretical Principles of Health Behavior  
Units: 4  Terms Offered: FaSp Overview and analysis of predictors and consequences of health-related behaviors; theoretical viewpoints and strategies for behavior change. Prerequisite: PSYC 100. Recommended Preparation: HP 200. Instruction Mode: Lecture  Grading Option: Letter

HP 320 Biological and Behavioral Basis of Disease  
Units: 4  Terms Offered: FaSp Examination of the major systems of the human body: disease processes and behavioral risk factors. Prerequisite: BISC 220 or BISC 221. Instruction Mode: Lecture  Grading Option: Letter

HP 340Lg Health Behavior Statistical Methods  
Units: 4  Terms Offered: FaSp Intermediate statistics for health behavior studies; topics include descriptive statistics, hypothesis testing, correlation and regression, and use of computer software in data analysis. Satisfies New General Education in F Quantitative Reasoning Instruction Mode: Lecture, Lab Required  Grading Option: Letter

HP 350L Health Behavior Research Methods  
Units: 4  Terms Offered: FaSp Introduction to the design, conduct and evaluation of health behavior research studies; quantitative and qualitative approaches to research and analysis. Recommended Preparation: HP 340. Instruction Mode: Lecture, Lab  Grading Option: Letter

HP 365gm Culture, Lifestyle, and Health  
Units: 4  Terms Offered: FaSp Comparison of national and international differences in health status as influenced by cultural practices and lifestyles within geographic, economic, and political environments. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in HP 400m Instruction Mode: Lecture  Grading Option: Letter

HP 370g Introduction to Epidemiology: Methods and Applications  
Units: 4  Terms Offered: Fa Examines the primary goals and methods of epidemiology, the study of factors that influence health and disease in individuals and populations. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture  Grading Option: Letter

HP 401 Cultural Competence in Medicine  
Units: 4  Terms Offered: Fa Systematic development of specific professional skills for providing effective, culturally sensitive health services to diverse populations. Recommended Preparation: ANTH 101. Instruction Mode: Lecture  Grading Option: Letter

HP 402 Maternal and Child Health  
Units: 4  Terms Offered: Sp Health issues of women of childbearing age from pre-pregnancy through the postpartum period, and of children from their development in utero through early adolescence. Recommended Preparation: PSYC 100. Instruction Mode: Lecture  Grading Option: Letter

HP 403 Behavioral Medicine  
Units: 4  Terms Offered: Sp Examines behavioral risk factors for illness, health-enhancing and health-compromising behaviors, stress/coping in promoting health and preventing illness, and behavioral management of chronic illness. Prerequisite: PSYC 100. Instruction Mode: Lecture  Grading Option: Letter

HP 404 Religion and Health  
Units: 4  Terms Offered: Fa Differential relationships of religiosity and spirituality with health and risk behaviors, physical and mental health outcomes, coping skills and well-being across cultures and religions. Instruction Mode: Lecture  Grading Option: Letter

HP 405 Sexually Transmitted Diseases: A Global Public Health Priority  
Units: 4  An overview of the magnitude and impact of STDs including prevention, diagnosis, and treatment of common STDs, STD/HIV interrelationship, global burden, trends, public health challenges, and STD/HIV prevention and control strategies and programs worldwide. Instruction Mode: Lecture  Grading Option: Letter

HP 408 Environmental Health in the Community  
Units: 4  Survey of occupational and environmental health. Introduction to epidemiology, exposure assessment, toxicology, policy development, risk assessment, and effects of urban development on health. Instruction Mode: Lecture  Grading Option: Letter

HP 409 Environmental Impacts on the Brain  
Units: 4  An examination of the physical and chemical factors in the environment that contribute to neurodevelopmental disorders, cognitive function and neurodegeneration. Instruction Mode: Lecture  Grading Option: Letter

HP 410 Issues in Prevention and Cessation of Drug Abuse  
Units: 4  Terms Offered: Sp Examination of factors related to drug abuse behaviors; overview and assessment of drug abuse prevention and cessation programs; relapse prevention programs. Recommended Preparation: HP 300. Instruction Mode: Lecture  Grading Option: Letter

HP 411 Drug Intervention Program Design and Evaluation  
Units: 4  Terms Offered: Sp Strategies for drug abuse prevention and intervention; introduction to techniques and research methods used in designing, conducting, and evaluating drug abuse prevention programs. Recommended Preparation: HP 410. Instruction Mode: Lecture  Grading Option: Letter

HP 412 Health Promotion and Prevention Policy  
Units: 4  Terms Offered: Sp Overview of health promotion and drug prevention policy at local, state, and federal levels; methods for evaluating policy effectiveness and cost effectiveness. Instruction Mode: Lecture  Grading Option: Letter

HP 420m Gender and Minority Health Issues  
Units: 4  Terms Offered: Fa Examines the nature and roots of health disparities among women, men, and different ethnic and age groups; methods for reducing such disparities; strategies for prevention services. Instruction Mode: Lecture  Grading Option: Letter

HP 421 Violence as a Public Health Issue  
Units: 4  Terms Offered: Fa Patterns and prevalence of violence; psychosocial, environmental, and biological influences on violent behavior; youth gangs; drugs and violence; family violence; and prevention and intervention strategies. Instruction Mode: Lecture  Grading Option: Letter

HP 422 AIDS in Society  
Units: 4  Terms Offered: Sp Provides a broad examination of issues in HIV/AIDS, including behavioral, social, biological, clinical and ethical dimensions of the pandemic in the U.S. and elsewhere. Instruction Mode: Lecture  Grading Option: Letter

HP 430 Obesity and Health  
Units: 4  Terms Offered: Fa Examination of causes and consequences of obesity, with emphasis on health risks of type II diabetes and cardiovascular disease. Recommended Preparation: HP 230. Instruction Mode: Lecture  Grading Option: Letter
HP 431 Behavior and Education Strategies for Nutrition and Fitness
Units: 4
Terms Offered: Sp
Examination of dietary intake and exercise behaviors as they relate to health and illness; methods for measuring diet and exercise. Recommended Preparation: HP 430. Instruction Mode: Lecture Grading Option: Letter

HP 432 Clinical Nutrition
Units: 4
Terms Offered: Irregular
Metabolism of carbohydrates, fats and protein; introduction to vitamins, minerals and dietary modifications in various pathological conditions. Prerequisite: CHEM 105a. Recommended Preparation: HP 230. Instruction Mode: Lecture Grading Option: Letter

HP 433 Advanced Topics in Nutrition
Units: 4
Terms Offered: FaSpSm
In-depth discussion of vitamins and minerals and their role in human nutrition; introduction to the role of vitamins and minerals in selected pathological conditions. Prerequisite: HP 432. Instruction Mode: Lecture Grading Option: Letter

HP 434 Physical Activity and Health
Units: 4
Terms Offered: FaSpSm
Examination of the health impacts of physical inactivity; participation rates across subgroups; physical activity determinants; and interventions, programs, and policies to promote physical activity. Recommended Preparation: HP 200. Instruction Mode: Lecture Grading Option: Letter

HP 440 Happiness, Well-Being, and Health
Units: 4
Terms Offered: Sp
Explores human strengths that promote happiness/well-being and whether they influence physical health; mind-body relationships; and strategies for promoting hope, resilience, and quality of life. Recommended Preparation: HP 200, PSYC 100. Instruction Mode: Lecture Grading Option: Letter

HP 441 Health Promotion in the Workplace
Units: 4
Terms Offered: FaSpSm
Covers phases of workplace health promotion; research, design, implementation and evaluation; concerns regarding escalating medical costs and the role of health promotion in offering solutions. Instruction Mode: Lecture Grading Option: Letter

HP 442 Chronic Disease Epidemiology
Units: 4
Terms Offered: Sp
Overview of causative factors and demographic distributions of the major chronic diseases in the western world; epidemiologic concepts and research designs. Recommended Preparation: HP 320. Instruction Mode: Lecture Grading Option: Letter

HP 443 Communicating Better Health: What Works and Why
Units: 4
Terms Offered: Sp (Enroll in COMM 443)

HP 446 Poisons, People, and Politics
Units: 4
Terms Offered: Fa Case studies of toxic exposures and investigation of the role of government, scientists, labor and industry in protecting against health threats caused by toxic exposures. Instruction Mode: Lecture Grading Option: Letter

HP 448 Global Environmental Changes and Health
Units: 4
Terms Offered: FaSpSm
Discussion of global environmental changes, including climate change, air pollution, water pollution, radiation, and their impacts on human health. Instruction Mode: Lecture Grading Option: Letter

HP 450 Traditional Eastern Medicine and Modern Health
Units: 4
Terms Offered: Fa Overview of traditional Eastern approaches toward health and disease; relevance to modern health issues, emphasizing a comparison between traditional Chinese and modern Western medicine. Recommended Preparation: fundamentals of medicine. Instruction Mode: Lecture Grading Option: Letter

HP 460 Adolescent Health
Units: 4
Terms Offered: Fa Survey of the development of healthy and the prevention of health-risk behaviors during adolescence. Prevention and promotion techniques will be explored emphasizing cultural differences. Instruction Mode: Lecture Grading Option: Letter

HP 465 Health Status of Indigenous Peoples of America
Units: 4
Terms Offered: FaSpSm Survey of indigenous people’s health, including health conditions, special cultural and ethical considerations, the Indian health system, and the politics of indigenous health. Instruction Mode: Lecture Grading Option: Letter

HP 470 Case Studies in Global Health
Units: 4
Terms Offered: Sp Case study examination of programs and organizational structure underlying current international efforts addressing problems related to infection disease, chronic disease, global environmental change, emergencies and emerging disease epidemics. Prerequisite: HP 270. Instruction Mode: Lecture Grading Option: Letter

HP 480 Internship in Health Promotion and Disease Prevention
Units: 2, 3, 4
Terms Offered: FaSpSm Field placement in a community agency such as a county health services agency, a not for profit voluntary agency or a health care setting. Prerequisite: completion or concurrent registration in required core courses. Instruction Mode: Lecture Grading Option: Credit/No Credit

HP 483 Global Health and Aging
Units: 4
Terms Offered: Fa (Enroll in GERO 483)

HP 485 Global Health: Obesity and Nutrition
Units: 4
Terms Offered: FaSpSm
Overview of the epidemiology of obesity and related diseases and the etiology of obesity, including genetic, biological, behavioral, environmental and sociocultural correlations. Instruction Mode: Lecture Grading Option: Letter

HP 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8
Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Recommended Preparation: HP 350, Corequisite: HP 340. Instruction Mode: Lecture Grading Option: Letter

HP 499 Special Topics
Units: 2, 3, 4
Max Units: 8.0
Lecture and discussion focused on specific topics within health promotion and disease prevention. Course topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

Human Resource Management

HRM 500 Human Resource Strategy
Units: 2
Terms Offered: FaSpSm
Explores the strategic role that human resources management plays in providing organizations with sustained competitive advantages by unlocking the productive potential of employees’ human and social capital. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 505 Organizational Culture and Employee Outcomes
Units: 2
Terms Offered: FaSpSm
Prepares students to create, foster, and manage organizations in which people thrive and perform at their best in order to retain talent and reduce costs in a sustainable way. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 510 Leadership in Human Resources
Units: 2
Terms Offered: FaSpSm
Focuses on developing the critical social intelligence skills needed to lead people and change through increased self-awareness, understanding of interpersonal differences, and greater influence. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 515 Organization Design
Units: 2
Terms Offered: FaSpSm
EQUIPs students with a deeper understanding of how to design and develop organizations to increase performance and effectiveness and includes sections on strategy, work, and management processes. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 520 Talent Management
Units: 2
Terms Offered: FaSpSm
Examines talent management processes that impact employee experience and engagement and explores ways to improve data driven decision making processes including workforce and succession planning. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 525 Total Rewards
Units: 2
Terms Offered: FaSpSm
Provides a comprehensive look at the employee rewards strategies that human resource practitioners promote and manage including compensation, performance management, benefits, and non-monetary rewards. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 530 Learning and Development
Units: 2
Terms Offered: FaSpSm
Prepares students to identify, design, and implement
effective learning and development interventions and strategies that drive results and enhance organizational competitiveness. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 535 Employee Relations Units: 2 Terms Offered: FaSpSm Applies practical approaches to building positive employee and labor relations and solving related problems through increased employee motivation, effectiveness, and retention. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 540 Human Resources Analytics Units: 2 Terms Offered: FaSpSm Applies practical approaches to building positive employee and labor relations and solving related problems through increased employee motivation, effectiveness, and retention. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 545 Management of Diverse and Global Human Resources Units: 2 Terms Offered: FaSpSm Analyzes global diversity in today's environment, fostering a broad understanding of diversity and inclusion and the impact of diversity, inclusion, and inclusive behaviors on organizations. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 550 Change Management and Organization Development Units: 2 Terms Offered: FaSpSm Identifies the common challenges in organizational change management and explores the limitations and opportunities of different models of organizational change. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

HRM 555 Anticipating the Future of Human Resources Units: 2 Terms Offered: FaSpSm Explores the forces and emerging trends that are reshaping work, the workforce and workplace – and how to address these transformational changes and be effective as a Human Resources leader. Registration Restriction: Open only to Bovard College Human Resources Management students Instruction Mode: Lecture Grading Option: Letter

Hospitality and Tourism

HT 500 Global Hospitality and Tourism Units: 2 Terms Offered: FaSpSm History, theories, trends and impacts relevant to global hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 505 Managing Service Quality in Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Strategic management of service quality in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 510 Marketing Strategies for Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Principles, strategies and techniques relevant to marketing in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 515 Financial Management in Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Financial analysis methods to support sound, evidence-based decision-making in hospitality and tourism organizations. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 520 Revenue Management for Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Key principles and best practices in revenue management and pricing for hospitality and tourism organizations. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 525 Ethics in Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Ethical theories applied to common and strategic situations in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 530 Strategic Human Resources in Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Broad range of human resource concepts and strategies relevant to hospitality and tourism organizations. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 535 Applied Research Methods for Hospitality and Tourism Units: 2 Terms Offered: FaSpSm Applied research methods relevant to evidence-based decision-making in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 540 Hospitality and Tourism Data Analytics Units: 2 Terms Offered: FaSpSm Analysis, interpretation and presentation of data to support evidence-based decision-making in hospitality and tourism. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 545 Tourism Development Units: 2 Terms Offered: FaSpSm Strategies for planning and evaluating sustainable and responsible tourism development projects. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 550 Hospitality and Tourism Events Units: 2 Terms Offered: FaSpSm Analysis, planning and evaluation of meetings and events in hospitality and tourism settings. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

HT 555 Hospitality and Tourism Capstone Units: 2 Terms Offered: FaSpSm Students synthesize knowledge and skills gained throughout the program in a culminating capstone project. Registration Restriction: Open only to USC Bovard College Hospitality and Tourism students Instruction Mode: Lecture Grading Option: Letter

Integrated Design, Business and Technology

IDSN 505 Intensive Units: 0.5, 1, 1.5, 2 Max Units: 06 Terms Offered: FaSpSm Optional short-term, primarily residential, learning experience paired with an event/facility. Intensive experience aligns with and extends the cross-disciplinary nature of the program. Recommended Preparation: IDSN 510 and IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 510 Integrative Practices Residential Units: 2 Terms Offered: FaSpSm One-week campus residential. Introduction to program themes, content, concepts, theories and processes. Opportunity to build skills and meet cohort, with an emphasis on team building. Concurrent Enrollment: IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Credit/No Credit

IDSN 515 Professional Practices Residential Units: 2 Max Units: 04 Terms Offered: FaSpSm One-week off-campus residential. Applied, intensive workshop format focused on solutions for real-world problems with input from industry experts. Recommended Preparation: IDSN 510, IDSN 520, IDSN 525, IDSN 530, IDSN 540 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 520 Design Essentials Units: 3 Terms Offered: FaSpSm Overview of design language, process and product. Build fluency in applying core visual principles and design-based problem-solving techniques. Explore historical and contemporary design issues. Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 525 Business Essentials Units: 3 Terms Offered: FaSpSm Overview of general business and management concepts and techniques that builds theoretical and analytical fluency and identifies and examines leadership and managerial challenges. Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter
IDSN 530 Technology Essentials
Units: 3
Term Offered: FaSpSm
Overview of core information technology concepts, methods, and frameworks. Develop aptitude in using tools, applications and systems; learn basic programming languages and methodologies. Recommended Preparation: ISDN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 540 Processes and Perspectives
Units: 4
Term Offered: FaSpSm
Discipline-specific, cross-disciplinary and shared approaches to products, services, projects, systems, and organizational development. Topics include creative and user-focused perspectives, feasibility analytics, lean startup techniques. Concurrent Enrollments: ISDN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 545 Integrative Project
Units: 2
Max Units: 06
Term Offered: FaSpSm
Faculty-mentored project. Demonstrate individual and simultaneous skills and competency across fields and within cross-functional, cross-disciplinary teams. Recommended Preparation: ISDN 510 Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 550 Opportunity and Uncertainty
Units: 4
Term Offered: FaSpSm
Discipline-specific, cross-disciplinary, and shared approaches to recognizing/analyzing opportunities, identifying/ framing problems, and developing/iterating solutions. Techniques gleaned from entrepreneurship, creative practices, critical thinking methods, ethnography, systems theory. Recommended Preparation: ISDN 510 and ISDN 540 Registration Restriction: Open only to: Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 560 Narrative and Storytelling
Units: 4
Term Offered: FaSpSm
Discipline-specific, cross-disciplinary, and shared approaches to recognizing/analyzing opportunities, identifying/ framing problems, and developing/iterating solutions. Techniques gleaned from entrepreneurship, creative practices, critical thinking methods, ethnography, systems theory. Recommended Preparation: ISDN 510 and ISDN 540 Registration Restriction: Open only to: Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 570 Decisions and Solutions
Units: 4
Term Offered: FaSpSm
Generate portfolio of solutions for a given “problem.” Explore solutions and decisions, mechanisms for reducing uncertainty and risk. Includes quantitative and qualitative techniques. Recommended Preparation: ISDN 510 and ISDN 540 Registration Restriction: Open only to: Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 575 International Experience
Units: 2
Max Units: 04
Term Offered: Sp
International study experience and trip focusing on a primary subject area of the USC Iovine and Young Academy. Registration Restriction: Open only to IDSN students Instruction Mode: Lecture Grading Option: Letter

IDSN 577 Finance for Entrepreneurs
Units: 3
Term Offered: FaSpSm
The life cycle of a new venture from idea to construction of an enterprise to a decision about financial viability. Recommended Preparation: ISDN 525 Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

IDSN 585 Capstone
Units: 3
Faculty-mentored, applied project with individual and team components. Implement a prototype solution to a problem. Deploy relevant tools, methods, and processes learned throughout the program. Recommended Preparation: All prior required courses (excluding concurrent courses) Registration Restriction: Open only to Integrated Design, Business and Technology majors Instruction Mode: Lecture Grading Option: Letter

IDSN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Term Offered: FaSpSm
Research leading to the master’s degree. Maximum units, which may be applied to the degree, to be determined by the department. Graded CR/NC. Registration Restriction: Open only to IDSN majors Instruction Mode: Lecture Grading Option: Credit/No Credit

IDSN 599 Special Topics
Units: 4
Max Units: 08
Term Offered: Irregular
Selected topics in design, business and technology. Registration Restriction: Open only to Integrated Design, Business and Technology students Instruction Mode: Lecture Grading Option: Letter

Media Arts and Practice
Note: Instructor availability for a particular course or section cannot be guaranteed.

IML 104 Introduction to Digital Studies
Units: 2
Term Offered: FaSpSm
An introduction to the expressive range of screen languages in their cultural, historical, and technological contexts. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 140 Workshop in Multimedia Authoring
Units: 2
Term Offered: FaSpSm
Introduction to the expressive potential of multimedia as a creative tool, supplementing traditional forms of academic work. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 201 The Languages of Digital Media
Units: 4
Term Offered: FaSpSm
An in-depth investigation of the close interrelationships among technology, culture and communication to form a solid foundation for digital authoring. Duplicates Credit in former IML 101. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 202 Media Arts and Practice Studio I
Units: 4
Term Offered: Fa
Intermediate laboratory exploring the foundations of visual culture through a series of critical design prompts. Emphasis on the creative process, documentation and the development of a personal design methodology. Prerequisite: IML 201 Registration Restriction: Open only to Media Arts and Practice students Duplicates Credit in former IML 102 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 203 Media Arts and Practice Studio II
Units: 4
Term Offered: Sp
Intermediate laboratory exploring computational systems through a series of critical design prompts. Emphasis on digital representation, time-based processes, abstract data and the relationship between humans and computers. Prerequisite: IML 202 Registration Restriction: Open only to Media Arts and Practice students Duplicates Credit in former IML 103 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 230 Fundamentals of Media Design
Units: 4
Term Offered: FaSpSm
Introduction to the methods of visual design with respect to digital media authorship. Exploring the creative process through various conceptual workflows and hands-on techniques. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 288 Critical Thinking and Procedural Media
Units: 4
Term Offered: FaSpSm
Investigation of the potentials of computational media to define new expressive modes of representation and structures of communication. Duplicates Credit in IML 388 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 295Lm Race, Class and Gender in Digital Culture
Units: 4
Term Offered: FaSpSm
Critical analysis of the categories of race, class and gender within the diverse digital spaces of contemporary culture, from video games to the digital divide. Instruction Mode: Lecture, Lab, Required Grading Option: Letter

IML 300 Reading and Writing the Web
Units: 4
Term Offered: FaSpSm
An introduction to a broad range of technical and theoretical issues surrounding the production of web-based content. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 309 Integrative Design for Mobile Devices
Units: 4
Term Offered: FaSpSm
Hands-on investigation of opportunities and challenges offered by mobile interaction within both cultural and ideological contexts. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 310 Professionalism for Media Arts
Units: 2
Term Offered: FaSpSm
Development of documentation and archival strategies, with an emphasis on techniques of personal and professional representation. Prerequisite: IML 300 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 320 Designing and Writing for Transmedia Narratives
Units: 4
Term Offered: FaSpSm
Creating a story that uses three or more digital platforms (video, social media, games, comics, etc.) with strategies drawn from entertainment, art and activism. Instruction Mode: Lecture, Lab, Lab Grading Option: Letter

IML 328 Sonic Media Art
Units: 2
Term Offered: FaSpSm
Survey of audio culture and sound technologies, focusing on developing sonic literacy and creating artwork using sound as a primary modality. Instruction Mode: Lecture, Lab Grading Option: Letter
IML 335 Digital Narrative Design I
Units: 2 Terms Offered: F aSp An introduction to audio and video techniques for digital storytelling across various platforms. Students will create multiple short-form projects using contemporary tools and technologies. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 340 Remixing the Archive
Units: 4 Max Units: 8 Terms Offered: F aSp An intermediate level course which approaches archived material from multiple perspectives, in order to develop new avenues of expression, education, and research. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 346 Methods in Digital Research
Units: 2 Terms Offered: F aSp Sm Emphasizing rigorous multimedia research and authorship strategies, this course prepares students to undertake large-scale digital projects. Prerequisite: IML 104 or IML 201 Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 354 Introduction to 3D Modeling
Units: 2 Terms Offered: F aSp An introduction to the history, theory and critical context of 3-D spatial representation, as well as foundational authoring skills in modeling interactive 3-D spaces. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 365 Future Cinema
Units: 4 Terms Offered: F aSp Examination of the history of cinematic experimentation to provide a framework for understanding contemporary virtual reality, augmented reality, interactive installations and large-scale urban screens. Instruction Mode: Lecture Grading Option: Letter

IML 385 Design Fiction and Speculative Futures
Units: 4 Terms Offered: F aSp The history, theory and methods of design fiction, focusing on design videos and physical prototypes as tools for exploring contemporary social, political and ethical life. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 400 Creative Coding for the Web
Units: 4 Terms Offered: F aSp Sm Analysis and development of scholarly media projects using diverse web authoring strategies, technologies and documentation. Prerequisite: IML 300. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 404 Tangible and Spatial Computing
Units: 4 Terms Offered: F aSp Exploration of extended human computer interaction, including new forms of haptic, sonic and other sense modalities, through physical computing and spatial interfaces. Prerequisite: IML 288 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 419 Emotion in Digital Culture
Units: 4 Terms Offered: F aSp Project-based course examining emotion in relation to technology, digital culture and the human experience. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 420n New Media for Social Change
Units: 4 Max Units: 8.0 Terms Offered: F aSp Creating real social change through multimedia, working in collaboration with a local nonprofit organization. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 422 Information Visualization
Units: 4 Terms Offered: F aSp Visualizing information through diverse media platforms, with a focus on critical analysis and hands-on visualization. Duplicates Credit in the former IML 222 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 428 Exploring and Creating Sonic Environments
Units: 4 Terms Offered: F aSp Exploration of spatial sound practices, focusing on sound installation art, sonic visualization and audio storytelling techniques. Prerequisite: IML 328 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 430 Visual Communication and Experience Design
Units: 4 Terms Offered: F aSp Studio course focused on visual design, UX/UI design and the creative process. Emulating design agencies and working with clients and creative briefs. Prerequisite: IML 230 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 435 Digital Narrative Design II
Units: 4 Terms Offered: F aSp Exploration of advanced techniques in digital audio and video storytelling. Emphasis on nonlinearity, computer graphics, sound design and networked media. Prerequisite: IML 335 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 436 Hypercinemas Studio
Units: 4 Terms Offered: F aSp A hands-on exploration of emerging cinematic technologies, situated within a historical context through both theoretical and practical analysis. Prerequisite: IML 335 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 440 Thesis Project
Units: 4 Terms Offered: F aSp Production of a digital thesis project. Prerequisite: IML 346 and IML 203 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 441 Thesis Project I
Units: 2 Terms Offered: Fa Exploration of theoretical and practical concerns of advanced digital media authorship. Prerequisite: IML 346 and IML 203 Registration Restriction: Open only to Media Arts and Practice majors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 444 Thesis Project II
Units: 2 Terms Offered: Sp Production of a digital thesis project. Prerequisite: IML 440 or IML 441 Registration Restriction: Open only to Media Arts and Practice majors Instruction Mode: Lecture, Lab Grading Option: Letter

IML 450 Critical Play and Documentary Games
Units: 4 Terms Offered: F aSp Investigation of the history and theory of games designed to prompt social change, with a hands-on component in the creation of documentary game projects. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 454 Advanced Techniques of Spatial Representation
Units: 4 Terms Offered: F aSp Studio class exploring spatial perception and advanced techniques of 3-D representation. Stereoscopic, panorama, projection mapping, modeling for real-time environments, parametric modeling, and 3-D fabrication. Prerequisite: IML 354 Instruction Mode: Lecture, Lab Grading Option: Letter

IML 456 Nature, Design and Media
Units: 2 Terms Offered: F aSp Investigation of the impact of natural patterns on digital media design. Explores the relationships among chaos, harmony, beauty, proportion, spirituality, holistic systems and shaped experience. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 458 The Embedded Story: Designing Digital Landscapes and Languages
Units: 2 Terms Offered: F aSp Exploration of the imagined territories where language and landscape originate, converge and are transformed. Students will collaborate to create media in cross-platform environments. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 466 Digital Studies Symposium
Units: 2 Terms Offered: F aSp Lectures, presentations, and readings introducing cutting-edge digital media innovations and applications. Analysis of the critical and creative challenges of contemporary digital media practices. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 475 Media Arts Research Lab
Units: 2, 3, 4 Max Units: 8 Terms Offered: F aSp Sm A hands-on mentored research lab experience within the context of media art and in association with a real-world project. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 477 Embodied Storytelling and Immersive Docu-Narratives
Units: 4 Terms Offered: F aSp Examination of art, media, and theatre, to create an immersive, installation-based intervention utilizing the embodied 360-degree docu-narrative form. Instruction Mode: Lecture, Lab Grading Option: Letter

IML 481 Mixed Realities: Histories, Theories and Practices
Units: 4 Terms Offered: F aSp A comprehensive orientation to mixed reality, delving into its theories and histories while grounding students in a hands-on introduction to current tools and techniques. Recommended Preparation: IML 288, IML 354, or experience with programming and 3-D design programs Instruction Mode: Lecture, Lab Grading Option: Letter

IML 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: F aSp Sm Individual research and readings. Prerequisite: IML 104 or IML 201 Instruction Mode: Lecture Grading Option: Letter

IML 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: F aSp Sm An introduction to digital authored content at the graduate level, with a focus on the potential of multimedia scholarship and networked dissemination. Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter

IML 500 The Praxis of Sonic and Visual Media
Units: 4 Terms Offered: F aSp Sm An introduction to digital authored content at the graduate level, with a focus on the potential of multimedia scholarship and networked dissemination. Registration Restriction: Open only to graduate students Instruction Mode: Lecture, Lab Grading Option: Letter
IML 501L Digital Media Authorship and the Archive
Units: 4
Terms Offered: FaSpSm
An in-depth examination of emergent technologies in their cultural and historic contexts, with an equal emphasis on production and analysis. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required
Grading Option: Letter

IML 502 Techniques of Information Visualization
Units: 4
Terms Offered: FaSp
Critical and practical analysis of scholarly data visualization using diverse platforms. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required
Grading Option: Letter

IML 520 Non-Fiction Cinematic Practice I
Units: 2
Terms Offered: Fa
An introduction to video in academic scholarship. Acquisition and editing of images and sound through a series of short, non-fiction media projects. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 521 Non-Fiction Cinematic Practice II
Units: 2
Terms Offered: Sp
Deepening skills in audio/video storytelling methods through a semester-long, non-fiction media project. Prerequisite: IML 520
Instruction Mode: Lecture, Lab Grading Option: Letter

IML 535 Tactical Media Strategies
Units: 4
Terms Offered: FaSp
integrating hardware, software and interactive technology to explore new forms of expression. Emphasis on critical tactics (culture hacking, critical misuse) aimed at activism and social change. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 543 Transdisciplinary Media Design Practicum
Units: 4
Terms Offered: 8
Collaboration of artists and designers with non-art professionals to develop cross-disciplinary, media-based creative interventions. Recommended Preparation: CNTV 503 and CNTV 541. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 555 Digital Pedagogies
Units: 4
Terms Offered: FaSp
An exploration of varied pedagogical approaches and strategies informed by critical engagement with digital media and networked technologies. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 575 Graduate Media Arts Research Lab
Units: 2, 3, 4
Max Units: 8
Terms Offered: FaSpSm
A hands-on mentored graduate research experience within the context of media art and in association with a real-world project. Open only to graduate students. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 585 Creative Critical Writing Workshop
Units: 2
Max Units: 4
Terms Offered: FaSpSm
A writing workshop to explore innovative forms for critical writing, media-rich writing and video that borrow from creative nonfiction, the lyric essay, poetic/ vernacular criticism. Instruction Mode: Lecture Grading Option: Letter

IML 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 599 Special Topics
Units: 2, 3, 4
Max Units: 8
Terms Offered: FaSpSm
Detailed investigation of new or emergent practices in digital media; special subjects offered by visiting faculty; experimental subjects. Instruction Mode: Lecture Grading Option: Letter

IML 600 Historical Approaches to Media Arts and Culture
Units: 4
Terms Offered: FaSp
Introduction to the historical specificities of "old" media (painting, print, photography, film, video, television) and to consequences of the convergences produced by "new" media forms. Duplicates Credit in former CNTV 600. Instruction Mode: Lecture Grading Option: Letter

IML 601 Seminar in Media and Design Studies
Units: 4
Terms Offered: FaSp
Creation of a work of digital culture, informed by cultural theory, and planned using current design methods and practices. Duplicates Credit in former CNTV 601. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 602 Practice of Media Arts
Units: 4
Max Units: 8
Terms Offered: FaSp
Introduction to a range of technologies and media types, while identifying and developing a specialization in one or more areas of practice. Duplicates Credit in former CNTV 602. Instruction Mode: Lecture, Lab
Grading Option: Letter

IML 794c Doctoral Dissertation
Units: 2
Terms Offered: FaSpSm
Credit on acceptance of dissertation. Duplicates Credit in CNTV 794a Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

IML 794d Doctoral Dissertation
Units: 2
Terms Offered: FaSpSm
Credit on acceptance of dissertation. Duplicates Credit in CNTV 794d Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Interdisciplinary — Developmental Dentistry

INDD 501 Applied Growth and Development
Units: 1
Clinical relevance of chronological and biological assessment of maturation related primarily to diagnosis and prognosis. Instruction Mode: Lecture
Grading Option: Letter

INDD 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 501 Applied Growth and Development
Units: 1
Clinical relevance of chronological and biological assessment of maturation related primarily to diagnosis and prognosis. Instruction Mode: Lecture
Grading Option: Letter

INDD 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 501 Applied Growth and Development
Units: 1
Clinical relevance of chronological and biological assessment of maturation related primarily to diagnosis and prognosis. Instruction Mode: Lecture
Grading Option: Letter

INDD 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

INDD 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6
Each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture
Grading Option: Letter

using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INDD 651a Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651b Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651c Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 651d Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 652 Externship
Units: 1, 2, 3, 4, 5, 6 Dental experience at 1, 2, 3, 4, 5, 6 each Practical experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INDD 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INDD 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Basic Science

INTB 504 Human Craniofacial Development and Genetics
Units: 3 Principles of human embryology and genetics; craniofacial developmental biology; molecular genetics, cytogenetics, clinical orofacial genetics, genetic counseling; bioethics. Instruction Mode: Lecture Grading Option: Letter

INTB 521 Basic and Medical Microbiology
Units: 2 Fundamentals of microbial structure, growth and physiology; major bacterial, viral and fungal diseases, symptoms, course, control and treatment; emphasis on diseases related to dental management. Instruction Mode: Lecture Grading Option: Letter

INTB 601 Advances in Oral Biology
Units: 2 Review of basics of scientific methodology; comparison between and indications for scientific studies and case reports; critical review of current dental literature. Instruction Mode: Lecture Grading Option: Letter

INTB 603 Systematic Approach to Scientific Writing
Units: 2 Study of dental research publication and review of writing principles; focus on logical arrangement of information, avoidance of common writing flaws, attainment of syntactical fluency. Instruction Mode: Lecture Grading Option: Letter

INTB 604 Clinics in Craniofacial Malformations
Units: 2 Diagnosis, treatment, and rehabilitation of craniofacial malformations; principles of health care of craniofacial malformation patients. Includes hospital clinical observation. Instruction Mode: Lecture Grading Option: Letter

INTB 650a Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650b Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650c Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650d Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 650e Dental Research Participation
Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

COURSES OF INSTRUCTION 1015
Instruction Mode: Lecture Grading Option: Letter
INTB 650f Dental Research Participation Units: 1, 2, 3, 4, 5, 6 each Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. Instruction Mode: Lecture Grading Option: Letter

INTB 651a Experience in Dental Teaching Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651b Experience in Dental Teaching Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651c Experience in Dental Teaching Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 651d Experience in Dental Teaching Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTB 652 Externship Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean, Academic Affairs. Instruction Mode: Lab Grading Option: Credit/No Credit

INTB 690a Directed Dental Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690b Directed Dental Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTB 690f Directed Dental Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 500 Ethics and Accountability in Biomedical Research Units: 1 Term(s) Offered: Sm The purpose of this course is to engage current (and potential) research trainees in discussions about the responsible conduct of science. The course is designed as an option for meeting current federal regulations which require that all predoctoral and postdoctoral fellows paid from federal contracts and grants have a component of ethical training. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 501 Recent Advances in Vision Science Units: 1 Max Units: 4.0 Terms Offered: FaSp Recent advances in the understanding of the ocular surface are reported and discussed; students will learn how to read papers critically, develop speaking skills to explain a research paper and attend a three-day workshop on NIH proposal development and scientific manuscript preparation. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 504 Molecular Biology of Cancer Units: 4, 2 years Terms Offered: Sp Epidemiology, pathology, carcinogenesis, tumor biology and heterogeneity; tumor suppressors, oncogenes, cell cycle control, genetics of cancer, tumor immunology; treatment strategies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 504, CBG 504, MICB 504

INTD 522 Infection and Host Responses Units: 4 Terms Offered: Sp Overview of microbes, their life cycles and the host response they elicit, evade or exploit, including the manipulation and the malfunction of the immune system. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MIRC 522

INTD 531 Cell Biology Units: 4 Terms Offered: Fa Current perspectives on major research areas in cell biology. Emphasis will be on in-depth examination of cellular structures, regulatory processes, intra-cellular routing and targeting, and cell/environmental interactions. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 531, CNB 531, MICB 531, MPTX 531, PATH 531, PHBI 531, PSCI 531

INTD 535 Continuing Introduction to Clinical Medicine for MD/PhD Students Units: 1 Terms Offered: FaSp Course for MD/PhD students in PhD years designed to allow maintenance and improvement of clinical skills prior to re-entry in clinical rotations in the Year III medical curriculum. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 537 The Structure of Scientific Revolutions in Molecular Biology Units: 1 Terms Offered: Irregular A course in how scientists make breakthrough discoveries and whether there are predictable ingredients for significant changes in perception of the living system. Recommended Preparation: one year in cell and molecular biology. Registration Restriction: Open only to graduate-level students in any of the biological sciences. Instruction Mode: Lecture Grading Option: Letter

INTD 549 Protein Chemistry — Structure and Function Units: 4 Terms Offered: Sp Chemistry of peptides and proteins; protein structure and folding; molecular basis of protein action. Recommended Preparation: general biochemistry. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 549

INTD 550 Introduction to Pathology Units: 4 Terms Offered: Fa Normal histology and introduction to basic pathological concepts. Provides a solid and basic understanding of normal structures and how they relate to function. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH 550

INTD 551 Pathobiology of Disease Units: 4 Terms Offered: Sp Relationship between histopathological and clinical manifestations of disease and their underlying molecular mechanisms. Topics include inflammatory, developmental, environmental, degenerative, and neoplastic disease processes. Prerequisite: INTD 550. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PATH 551

INTD 555 Biochemical and Molecular Bases of Disease Units: 4 Biochemical and molecular abnormalities in disease states. Prerequisite: general biochemistry. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 555, PATH 555

INTD 561 Molecular Biology Units: 4 Terms Offered: Fa Biochemistry and molecular biology of replication, transcription, RNA processing, translation, and regulation of gene expression with emphasis on cellular and molecular events. Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC 561, CBY 561, CNB 561, MICB 561, MPTX 561, PATH 561, PHBI 561, PSCI 561

INTD 567 Molecular and Cellular Neurobiology Units: 4 Enroll in NSCI 531
investigators in the field of homeostatic response to injury such as cell death, inflammation, fibrosis and regeneration. 

Duplicates Credit in former PATH 575 

Instruction Mode: Lecture Grading Option: Letter

INTD 571 Biochemistry 
Units: 4 Terms Offered: Sp Physical-chemistry of life processes: protein structure and enzymic function; synthesis and metabolism of carbohydrates, lipids, amino acids, and nucleotides. Prerequisite: open to qualified students. Duplicates Credit in former BIOC 441. 

Instruction Mode: Lecture Grading Option: Letter Crosslisted as BIOC-571, CBY-571, CNB-571, MCB-571, MPTX-571, PATH-571, PHBI-571, PSCI-571

INTD 572 Medical Physiology I 
Units: 4 Terms Offered: Fa Mammalian organ systems operation during health, and pathophysiological analysis of related diseases with focus on muscle, respiratory, cardiovascular and renal systems. Faculty from basic and clinical sciences. Registration Restriction: Open only to graduate students in biomedical science 

Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 572, CNB 572, MCB 572, MPH 572, MPTX 572, PATH 572, PHBI 572, PM 572

INTD 573 Medical Physiology II 
Units: 4 Terms Offered: Sp Mammalian organ systems operation during health, and pathophysiological analysis of related diseases with focus on neuroscience, immunology, metabolism, endocrine, reproduction, GI and liver. Faculty from basic and clinical sciences. Registration Restriction: Open only to graduate students in biomedical science 

Instruction Mode: Lecture Grading Option: Letter Crosslisted as BISC 574, CNB 573, MPH 573, MPTX 573, PATH 573, PHBI 573, PM 573, MCB 573

INTD 574 Medical Biology Seminar 
Units: 1 Max Units: 16 Terms Offered: FaSp Selection topics in systems biology and disease. Registration Restriction: Open only to Systems Biology and Disease PhD students 

Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 575 Interdisciplinary Research Presentations 
Units: 1 Max Units: 12.0 Terms Offered: FaSp Broad Topics on Biomedical Research, Human Diseases and Career Development. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

INTD 577 Writing in the Biomedical and Biological Sciences 
Units: 1 Terms Offered: Sp Writing insructions for graduate students focusing on grant proposals and scientific papers. Includes both writing and providing critiques of classmates' work. Lectures and discussion. Open only to doctoral students in the school of Medicine. Registration Restriction: Open only to doctoral students in the school of Medicine. 

Instruction Mode: Lecture Grading Option: Letter

INTD 596 Internship for Curricular Practical Training 
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students in the school of medicine 

Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 600 Student Research Presentation 
Units: 1 Max Units: 12.0 Terms Offered: FaSp Students prepare and present their own research to an audience of faculty and peers. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 620 Medical Students Elective Program 
Units: 0 Opportunities for medical students as preceptors in research laboratories or in field medical service under guidance of sponsors approved by faculty committees. 

Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 621a Introduction to Clinical Medicine (ICM) for THE 
Units: 3 Terms Offered: FaSp A strongly patient centered course in which both PhD engineering and MD students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. 

Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 621b Introduction to Clinical Medicine (ICM) for THE 
Units: 3 Terms Offered: FaSp A strongly patient centered course in which both PhD engineering and MD students experience how doctors handle communications, basic diagnostic thinking and engineering perspectives. Open only to Health, Technology and Engineering students. Registration Restriction: Open only to Health, Technology and Engineering students. 

Instruction Mode: Lecture Grading Option: Credit/No Credit

INTD 622L Pre-clinical System Block for Health, Technology and Engineering Students 
Units: 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Open only to doctoral students. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Interdisciplinary — Practice Dynamics 

INTP 501 Behavioral Strategies in Dentistry 
Units: 2 Improvement of time and stress management and effectiveness in working with others; establishment of goals in dentistry; effective presentation of ideas. 

For Advanced Standing Program for International Dentists. Instruction Mode: Lecture Grading Option: Letter

INTP 502a Human Relations in Dental Practice 
Units: 2 Introduction to behavioral concepts related to pain, fear, sedation; interviewing, treatment planning; care of geriatric and handicapped patients; patient education; includes principles of clinical application. 

Instruction Mode: Lecture Grading Option: Letter

INTP 502b Human Relations in Dental Practice 
Units: 2 Introduction to behavioral concepts related to pain, fear, sedation; interviewing, treatment planning; care of geriatric and handicapped patients; patient education; includes principles of clinical application. 

Instruction Mode: Lecture Grading Option: Letter

INTP 503a Evaluation of Scientific Information in Clinical Practice 
Units: 0, 1 Practical guidelines for critically appraising scientific information applicable to the clinical practice of dentistry. Seminars will complement lectures with examples. 

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

INTP 503b Evaluation of Scientific Information in Clinical Practice 
Units: 0, 1 Practical guidelines for critically appraising scientific information applicable to the clinical practice of dentistry. Seminars will complement lectures with examples. 

Instruction Mode: Lecture Grading Option: Letter

INTP 650 Dental Research Participation 
Units: 1, 2, 3, 4, 5, 6 Assist in research in basic science, biomedical, or clinical dental areas. Experience in research strategy, design and methods using practical scientific problem solving. 

Instruction Mode: Lecture Grading Option: Letter

INTP 651 Experience in Dental Teaching 
Units: 1, 2, 3, 4, 5, 6 Practical teaching
considerations. Planning methodologies, and specialty assessment, diagnosis and treatment which will include data collection/didactic course work and workshops focusing on diagnosis and treatment planning through interdisciplinary course focusing on specialty areas; includes clinical assisting. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTP 552a Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTP 552b Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTP 552c Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTP 552d Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTP 552e Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTP 552f Introduction to Clinical Dentistry
Units: 0.1 Clinical operational preparation; asepsis and sterilization; preventive dentistry; introduction to physical evaluation, extra- and intra-oral examinations, treatment sequencing, dental specialty areas; includes clinical assisting. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTN 652 Internship
Units: 1, 2, 3, 4, 5, 6 Dental experience at an off-site location — not limited to clinical experience. Student participation must be approved by Associate Dean for Student and Academic Life. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTN 690 Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTR 503 Preclinical Diagnosis and Treatment Planning
Units: 2 Interdisciplinary course focusing on diagnosis and treatment planning through didactic course work and workshops which will include data collection/assessment, diagnosis and treatment planning methodologies, and specialty considerations. Instruction Mode: Lecture Grading Option: Letter

### INTR 524a Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 524b Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 524c Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 524d Clinical Practice
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 551b Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 551c Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 551d Clinical Diagnosis and Treatment Planning
Units: 0 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 551e Clinical Diagnosis and Treatment Planning
Units: 1 Large and small group seminars focusing on diagnosis and treatment planning involving multiple specialty case presentations; integrated therapy, contingency plans and case presentations will be included. Instruction Mode: Lecture Grading Option: Letter

### INTR 553a Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 553b Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 553c Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 553d Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 553e Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 553f Clinic: Diagnosis and Treatment Planning
Units: 0 Clinical experience in diagnostic procedures and treatment planning in care of dental patients. Includes student preparation of documentation of patient care and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

### INTR 553g Internship
Units: 0 Terms Offered: FaSpSm The clinical component of existing didactic courses in Practice Management and Human Behavior. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTR 690a Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTR 690b Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTR 690c Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTR 690d Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

### INTR 690e Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit
Sciences

by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 690f Directed Dental Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 each Dental clinical and/or basic science research under faculty guidance; proposal developed, research conducted, conclusion drawn, paper written. Units determined by extent of research. Instruction Mode: Lecture Grading Option: Credit/No Credit

INTS 501f Integrated Basic and Applied Science I
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTS 502f Integrated Basic and Applied Science II
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on respiratory, genito-urinary, gastrointestinal, hepato-biliary systems, oral biology, nutrition and hospital dentistry. Instruction Mode: Lecture Grading Option: Letter

INTS 651a Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 652 Externship
Units: 1, 2, 3, 4, 5, 6 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 651b Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 651c Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 651d Experience in Dental Teaching
Units: 1, 2, 3 Max Units: 6.0 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTS 652 Externship
Units: 1, 2, 3, 4, 5, 6 Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods. Instruction Mode: Lecture Grading Option: Letter

INTX 501a Integrated Basic and Applied Science I
Units: 1 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501b Integrated Basic and Applied Science II
Units: 3 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501f Integrated Basic and Applied Science I
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 501c Integrated Basic and Applied Science II
Units: 3 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 502f Integrated Basic and Applied Science II
Units: 2 Principles of anatomy, histology, physiology, pathology applied to patient evaluation and management. Focuses on cell and connective tissue biology, neuromuscular, blood, endocrine and cardiovascular systems. Instruction Mode: Lecture Grading Option: Letter

INTX 651a Experience in Dental Teaching
Units: 1, 2, 3, 4, 5, 6 each Practical teaching experience in dental laboratory and clinic settings under faculty supervision.
Includes instruction in effective methods.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**INTX 651b Experience in Dental Teaching**  
**Units:** 1, 2, 3, 4, 5, 6 each  
Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**INTX 651c Experience in Dental Teaching**  
**Units:** 1, 2, 3, 4, 5, 6 each Max  
Practical teaching experience in dental laboratory and clinic settings under faculty supervision. Includes instruction in effective methods.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**International Relations**  
**IR 100gx The United States and World Affairs**  
**Units:** 4  
The changing character of contemporary international political issues from the Cold War to the future and U.S. foreign policy options for the future; exploration of competing perspectives. Satisfies Old General Education in Category VI: Social Issues  
**Instruction Mode:** Lecture  
**Grading Option:** Letter  
**IR 101gw International Relations**  
**Units:** 4  
Basic concepts of world affairs for non-majors. Development of competency to understand and critically evaluate global relations and international events, stressing empirical approaches. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World  
Satisfies Old General Education in Category VI: Social Issues  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 210gw International Relations: Introductory Analysis**  
**Units:** 4  
Terms Offered: FaSp  
Comprehensive introduction to contending theoretical and analytical approaches; development of critical, evaluative, cognitive, and analytical competencies regarding historical and contemporary issues. Satisfies Global Perspective in Category G: Citizenship in a Diverse World  
**Instruction Mode:** Lecture, Discussion  
**Grading Option:** Letter

**IR 211g International Relations: Approaches to Research**  
**Units:** 4  
Terms Offered: FaSpSm  
Introduction to theoretically oriented research approaches and designs; emphasis on the logic of argumentation. Satisfies New General Education in Category F: Quantitative Reasoning  
**Instruction Mode:** Lecture, Discussion  
**Grading Option:** Letter

**IR 212 Historical Approaches to International Relations**  
**Units:** 4  
Terms Offered: FaSp  
Introduction to historical research methods, with an emphasis on historical texts and modes of discourse.  
**Instruction Mode:** Lecture, Discussion  
**Grading Option:** Letter

**IR 213 The Global Economy**  
**Units:** 4  
Terms Offered: FaSp  
Economic and political concepts necessary to the understanding of the modern global economy. Topics include international trade, foreign investment and migration.  
**Instruction Mode:** Lecture, Discussion  
**Grading Option:** Letter

**IR 302 International Relations of the Great Powers in the Late 19th and 20th Centuries**  
**Units:** 4  
Introductory analysis of the interactions of the great powers during the period; initial focus on Europe, with expansion to include global relations.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 303 Leadership and Diplomacy**  
**Units:** 4  
The role of leaders, diplomatic leadership and crisis in statecraft, providing a deep understanding of the theoretical and practical dimensions of diplomacy.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 304 National Intelligence and the Shaping of Policy**  
**Units:** 4  
The focus is intelligence to improve the making of policy, with attention to collection; overt and covert, operations; domestic intelligence; and oversight in democracies.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 305w Managing New Global Problems**  
**Units:** 4  
Examines strategies for managing global issues in the post Cold War period. Explores ways that international institutions, national governments and non-state actors work separately and together to provide order and control over complex international issues areas. Issues that will receive attention could include financial and monetary relations, trade and foreign investment, preservation of the environment, the spread of weapons of mass destruction, population and migration, terrorism and ethnic strife. Satisfies Global Perspective in Category G: Citizenship in a Diverse World  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 306 Contemporary International Politics**  
**Units:** 4  
Terms Offered: 8.0  
Analysis of recent events, forces, and conditions in the international political system.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 308w Economic Globalization**  
**Units:** 4  
Globalization makes national borders and regulations increasingly obsolete. Analyzes the economic foundation of globalization, its consequences and efforts to manage it. Satisfies Global Perspective in Category G: Citizenship in a Diverse World  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 309 Global Governance**  
**Units:** 4  
Introduction to global governance structure and institutions. Exploration of the appropriate role for states, international organizations, civil society and individuals within the global governance structure.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 310 Peace and Conflict Studies**  
**Units:** 4  
Interdisciplinary study of the pursuit of peace, including causes of war, arms races, conflict resolution, peace movements, nonviolent resistance, and peace with justice.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 311 Research Design and Methods**  
**Units:** 4  
Exploration of critical scholarship on research design, including case selection, hypothesis testing, and field research techniques.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**IR 312 Introduction to Data Analysis**  
**Units:** 4  
Introduction to statistical analysis with R, with applications to the study of International Relations: data manipulation, hypothesis testing, regression, causality, text analysis, visualization, and network analysis.  
**Recommended Preparation:** IR 211g and IR 212 plus a course in research
COURSES OF INSTRUCTION

IR 311 Design such as IR 311 Instruction Mode: Lecture Grading Option: Letter

IR 313 Religions and Political Violence Units: 4 An introduction to debates about the relation of religion and conflict in politics and international affairs; theoretical, classical, and contemporary issues. Instruction Mode: Lecture Grading Option: Letter

IR 315 Ethnicity and Nationalism in World Politics Units: 4 Ethnic identity and nation formation in the global society of states; nation-states; conflict or political accommodation within multinational states; impact of dispersed nations on interstate relations. Instruction Mode: Lecture Grading Option: Letter

IR 316 Gender and Global Issues Units: 4 An examination of the role women have played in world politics focusing on issues of war and peace, the environment and the global economy. Instruction Mode: Lecture Grading Option: Letter

IR 317 The Political Economy of Africa Units: 4 Africa remains the world's poorest region. Why? Since when? Will it remain so? This course discusses tentative answers drawn from a number of disciplines. Instruction Mode: Lecture Grading Option: Letter

IR 318 Violent Conflict Units: 4 Origins and evolution of violent conflict among humans; modern efforts to end conflict; recent research in conflict in archaeology, anthropology, biology, economics, political science and psychology. Instruction Mode: Lecture Grading Option: Letter

IR 319 Human Security and Humanitarian Intervention Units: 4 Explore causes of human security threats, challenges to state sovereignty, and actions to address failed states, conflicts and protect people through humanitarian intervention. Instruction Mode: Lecture Grading Option: Letter

IR 320 Technology and International Relations Units: 4 Impact of technological advances to global security and development. Focus on surveillance and cyber conflict; nuclear weapons, aviation and UAVs, missiles and BMD; submarines and ASW. Instruction Mode: Lecture Grading Option: Letter

IR 322 Financing Development in Mexico Units: 4 Examines the role of investment in Mexican economic development focusing on both traditional sources of loans, grants and investment as well as less traditional modes of finance. Instruction Mode: Lecture Grading Option: Letter

IR 323 Politics of Global Environment Units: 4 Examines the politics of managing the global environment. The nature of ecosystems, common problems, population and resource utilization problems along with biodiversity and global governance are emphasized. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-323

IR 324 Multinational Enterprises and World Politics Units: 4 Political implications of interactions between different types of multinational enterprises and all levels of U.S. government, other industrial nations, and less-developed countries. Instruction Mode: Lecture Grading Option: Letter

IR 325 North-South Relations in the Global Economy Units: 4 Analysis of inequality in relations between developed and developing states; contending views on the causes and legacies of imperialism; development strategies and aid. Instruction Mode: Lecture Grading Option: Letter

IR 326 U.S. Foreign Economic Policy Units: 4 The U.S. economy and political-economic institutions in comparative perspective; economic diplomacy and policy; role of trade barriers, exchange rates, foreign aid, energy, foreign investment. Instruction Mode: Lecture Grading Option: Letter

IR 327 International Negotiation Units: 4 Practicum in negotiation skills. Diagnosis of situations and identification of strategies through case studies and personal exercises. Instruction Mode: Lecture Grading Option: Letter

IR 328 The Evolving Global Economic Architecture-Capital Mobility Units: 4 Exploration of the evolving global economic architecture of the past seventy years and an overview of the possible future contours of economic and political globalization. Recommended preparation: Macro- and Micro-economics. Instruction Mode: Lecture Grading Option: Letter

IR 329 The Global Finance and Monetary Regime Units: 4 The international financial and monetary regime, its evolution and the problems facing it today. Instruction Mode: Lecture Grading Option: Letter

IR 330 Politics of the World Economy Units: 4 Exploration of questions and concepts in international economics and politics, especially as they relate to flows of trade, capital, people, and problems across borders. Instruction Mode: Lecture Grading Option: Letter

IR 331 The Global Economy 2040 Units: 4 Terms Offered: Fa Examination of key ideas from economics, demography and technology. Guest lecturers illuminate possible conditions of the Global Economy in 2040. Instruction Mode: Lecture Grading Option: Letter

IR 333 China in International Affairs Units: 4 Economic reform, the open door, and China's changing role in the international system. Relations with the United States, Japan, and other key powers in Asia. Tensions between the interests of American business and the human rights community over China policy. Instruction Mode: Lecture Grading Option: Letter

IR 334 The Politics and Strategy of Weapons of Mass Destruction Units: 4 Causes and effects of use and spread of nuclear, biological and chemical weapons; responses to WMD, including deterrence, preventive war, and non-proliferation policies and negotiations. Instruction Mode: Lecture Grading Option: Letter

IR 335 U.S. Foreign Policy since World War II Units: 4 Analysis of U.S. foreign policy since 1945 as a basis for understanding significant new trends. Explanation of contemporary issues in U.S. relations with other nations. Instruction Mode: Lecture Grading Option: Letter

IR 336 The Global South in World Politics Units: 4 Origin, concepts, realities and ideals of the non-aligned movement, focusing on the role of the United States in the developing world. Instruction Mode: Lecture Grading Option: Letter

IR 337 The Impact of Remittances on Development in Mexico Units: 4 Examines the nature of remittances and their effects. Can remittances promote development? Explores policy making focused on improving the quality of remittance expenditures in Mexico. Recommended Preparation: working ability with Spanish. Instruction Mode: Lecture Grading Option: Letter

IR 338 The Political Economy of China Units: 4 Sources, consequences, challenges to China's economic growth, including rural and urban economies, entrepreneurship, central and local governments, inequality, trade, investment, finance, demographics, and the environment. Instruction Mode: Lecture Grading Option: Letter

IR 339 Public Health and International Relations Units: 4 Examination of threats to global security, state sovereignty and population health posed by infectious diseases, natural disasters, war and civil conflict. Instruction Mode: Lecture Grading Option: Letter

IR 340 The Political Economy of China Units: 4 Sources, consequences, challenges to China's economic growth, including rural and urban economies, entrepreneurship, central and local governments, inequality, trade, investment, finance, demographics, and the environment. Instruction Mode: Lecture Grading Option: Letter

IR 341 Foreign Policy Analysis Units: 4 Basic concepts and analytical approaches in the study of decision-making at the international level. This is a case-based class, requiring participation of students in interactive discussions of decision forcing and retrospective foreign policy cases. Instruction Mode: Lecture Grading Option: Letter

IR 342 The Politics and Strategy of Weapons of Mass Destruction Units: 4 Causes and effects of use and spread of nuclear, biological and chemical weapons; responses to WMD, including deterrence, preventive war, and non-proliferation policies and negotiations. Instruction Mode: Lecture Grading Option: Letter

IR 343 U.S. Foreign Policy since World War II Units: 4 Analysis of U.S. foreign policy since 1945 as a basis for understanding significant new trends. Explanation of contemporary issues in U.S. relations with other nations. Instruction Mode: Lecture Grading Option: Letter

IR 344 The Global South in World Politics Units: 4 Origin, concepts, realities and ideals of the non-aligned movement, focusing on the role of the United States in the developing world. Instruction Mode: Lecture Grading Option: Letter

IR 345 Russian and Post-Soviet Foreign Policy Units: 4 Overview of Tsarist and Soviet experience as background to detailed examination of the political, economic and ideological forces behind contemporary Russian foreign policy. Instruction Mode: Lecture Grading Option: Letter

IR 346 Communism and Post-Communism: Eastern Europe and the Balkans Units: 4 Analysis of communism and post-communism in East-Central Europe, including economic transitions, nationalism, inter-and intra-state conflicts, NATO and EU enlargement. Instruction Mode: Lecture Grading Option: Letter

IR 347 International Law and Politics Units: 4 Exploration of international law and international politics, including sovereignty, war, international courts, the environment, and human rights. Instruction Mode: Lecture Grading Option: Letter
IR 350 Power and Authority in the Middle East
Units: 4 (Enroll in MDES 345)

IR 351 Insurgency and Counterinsurgency
Units: 4 Terms Offered: Sp Theories of insurgency and counterinsurgency emphasizing works of notable guerrilla writers and the Western experience of putting the theories into practice. Instruction Mode: Lecture Grading Option: Letter

IR 358 The Asia Pacific in World Affairs
Units: 4 The cultural, political, economic, and social aspects of the Asia Pacific's rise to prominence in world affairs. Reasons for the "successes" of many Asian economies and the environmental and social problems accompanying their rapid transformation. The difficulties of interaction in complex cultural situations illustrated by participation in a computer-assisted simulation. Instruction Mode: Lecture Grading Option: Letter

IR 359 The United States and the Middle East
Units: 4 Terms Offered: FaSp (Enroll in MDES 345)

IR 360 International Relations of the Pacific Rim
Units: 4 Political, economic and security relations among the countries in East Asia and the Pacific with the emphasis on the role of the United States, China and Japan. Instruction Mode: Lecture Grading Option: Letter

IR 361 South and Southeast Asia in International Affairs
Units: 4 The historical, cultural, and political reasons for Asia's dramatic transformation into a powerful engine of world economic growth. The secondary consequences of economic growth for environmental protection, gender relations, ethnicity, and military tension. Instruction Mode: Lecture Grading Option: Letter

IR 362 The International Relations of the Contemporary Middle East
Units: 4 Introduction to problems and issues in the Middle East today: religio-ethnic rivalries, conflicting nationalisms and ideologies, the Arab-Israeli conflict, Middle East oil. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES 362

IR 363 Middle East Political Economy
Units: 4 Examination of general economic development issues: population, agriculture, industrialization, trade, oil, etc. Several Mideast case study countries are then explored in depth. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-363

IR 364 The Political Economy of Latin American Development
Units: 4 The main economic development themes and strategies in Latin America over the past century. The interplay between domestic and international variables, and the resulting economic changes. Instruction Mode: Lecture Grading Option: Letter

IR 365 Politics and Democracy in Latin America
Units: 4 Examines Latin America's experience with democracy emphasizing events since the 1980s. Analyzes the roles of interest groups, ideology, domestic politics, bureaucratic processes, perceptions and analogical reasoning. Instruction Mode: Lecture Grading Option: Letter

IR 366 Mexico and its Relations with the United States
Units: 4 Analysis of Mexico and U.S.-Mexico relations, both historically and in the present day, to understand better the challenges in this key bilateral relationship. Instruction Mode: Lecture Grading Option: Letter

IR 367 Africa in International Affairs
Units: 4 General overview of main historical, political, and economic issues as they affect Africa, focusing on nationalism, development, and superpower competition in Africa. Instruction Mode: Lecture Grading Option: Letter

IR 368 French Foreign Policy: 1945 to the Present
Units: 4 Terms Offered: FaSpSm Introduction to historical, thematic perspectives of French foreign policy since 1945 including review of external and internal constraints influencing foreign policy. (Paris semester only). Instruction Mode: Lecture Grading Option: Letter Crosslisted as FREN 368

IR 369 Post-War European Relations
Units: 4 European interstate conflict and cooperation since 1945; history of Western European integration during the Cold War; the European Union in post-Cold War Europe. Instruction Mode: Lecture Grading Option: Letter

IR 370 Global Governance and Health: From Global to Local
Units: 4 Terms Offered: Sm Addressing global health challenges at multiple governance levels ranging from global to national to local. Instruction Mode: Lecture Grading Option: Letter

IR 371 Global Civil Society: Non-State Actors in World Politics
Units: 4 Examination of diplomatic and moral relationships between sovereign states and transnational non-state actors, both benevolent (humanitarian groups and philanthropies) and malevolent (mercenaries; pirates and terrorists). Instruction Mode: Lecture Grading Option: Letter

IR 374 Model Europe: Comparative Public Policy in France and the European Union
Units: 4 Terms Offered: Sm IR Analysis of contemporary challenges to the European Union policy-making in the areas of governance and citizenship, the environment, energy, economics and security. Instruction Mode: Lecture Grading Option: Letter

IR 376 U.S.-Japan Encounters: War, Trade, and Culture
Units: 4 The significance of U.S.-Japan relations is addressed through historical and policy analysis of America, Japan, and the Asia-Pacific region. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-376

IR 379 Cyber Conflict: Problems and Policy Issues
Units: 4 Cyber conflict, where cyber and national security intersect, is about technology and policy; players and prescriptions; crime, hacktivism, espionage, economic espionage, subversion and hybrid war. Instruction Mode: Lecture Grading Option: Letter

IR 380 Conducting Research on Climate Change, Conflict and Natural Resources
Units: 4 Terms Offered: Sp Analyzes and trains students to conduct independent research on the politics of natural resources. Training takes places in the field at a UC Natural Reserve. Instruction Mode: Lab, Grad Grading Option: Letter

IR 381 Introduction to International Security
Units: 4 Key concepts in international security studies; historical evolution of international warfare and diplomacy; contemporary international security issues. Instruction Mode: Lecture Grading Option: Letter

IR 382a Order and Disorder in Global Affairs
Units: 4 Modern and post-modern perspectives on changes in the inter-state system, relations among cultures and civilizations, the conditions of ecologically sustainable human development. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture, Discussion Grading Option: Letter

IR 383 Conflict Mediation & Negotiation

IR 384 Asian Security Issues
Units: 4 Introduction to key security trends in the Asia-Pacific region, emphasizing strategic competition between U.S.; Russia, and China; regional military capabilities; rise of neutrality politics. Instruction Mode: Lecture Grading Option: Letter

IR 385 European Foreign Policy and Security Issues
Units: 4 In-depth analysis of foreign policy events and cases in Europe in the 20th century; focus on security issues. Instruction Mode: Lecture Grading Option: Letter

IR 386 Terrorism and Counterterrorism
Units: 4 Terms Offered: FaSpSm Examination of terrorism and responses to terrorism, including how societies understand and deal with terrorism; focus on ethical and normative issues. Instruction Mode: Lecture Grading Option: Letter

IR 387 Strategic Studies
Units: 4 Strategic theory and its application to national security and warfare from Western and non-Western perspectives. Topics include strategic culture, political decision-making, cyber operations, and non-state challenges. Instruction Mode: Lecture Grading Option: Letter

IR 388 Immigration in Spain: Issues and Controversies
Units: 4 Terms Offered: Sm Analyzes immigration in Spain within a comparative context of the European Union, focusing on challenges in the areas of economics, demography, politics and citizenship rights. Instruction Mode: Lecture Grading Option: Letter

IR 389 Islam in France
Units: 4 (Paris Semester only) Historical
overview of interactions between Muslims and Europeans. Islam: origins, history and circumstances that led to its revival. France's immigration policy. Instruction Mode: Lecture Grading Option: Letter Crosslisted as FREN 389

IR 390 Special Problems
Units: 1, 2, 3. 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

IR 391 Directed International Relations Field Study
Units: 2. 4 Max Units: 8.0. Intensive internship experience in international relations professional areas with academic research component (may be repeated for credit different semesters). Instruction Mode: Lecture Grading Option: Letter

IR 392 Supervised Undergraduate Research Experience
Units: 2 Max Units: 4. Collaborative research projects under faculty supervision. Regular skills training and professionalization workshops. Instruction Mode: Lecture Grading Option: Letter

IR 393 Policy Writing for National Security Affairs
Units: 4. Intensive policy writing related to national and insecurity issues with emphasis on research and writing in varying formats typical in the policy world. Prerequisite: WRIT 340 Instruction Mode: Lecture Grading Option: Letter

IR 401 The United Nations and World Order
Units: 4. The contribution of the United Nations to world order, focusing on its history, principal organs, relationships with global actors, and prospects for reform. Instruction Mode: Lecture Grading Option: Letter

IR 402 Theories of War
Units: 4. Causes of war; means of prevention and consequences of war. Instruction Mode: Lecture Grading Option: Letter

IR 403 Transnational Diplomacy and Global Security
Units: 4. Explores emerging "diplomatic" relations between nation-states and transnational (non-state) entities, such as non-governmental organizations (NGOs), in the development of global peace and security policies. Recommended Preparation: IR 303. Instruction Mode: Lecture Grading Option: Letter

IR 404 International Relations Policy Task Force
Units: 4. Addresses unfinished question of public policy. Provides experience in interacting and field research, oral presentation and collective discussion and deliberation. Open to juniors and seniors only. Instruction Mode: Lecture Grading Option: Letter

IR 405 Cultural Heritage, Religion, and Politics in the Middle East
Units: 4. Terms Offered: Fa (Enroll in REL 402) Instruction Mode: Lecture Grading Option: Letter

IR 406 Ethics and World Politics
Units: 4. Exploration of the relationship between ethics and politics. Special focus on religion, violence and human rights in international relations Instruction Mode: Lecture Grading Option: Letter

IR 407 Chinese Foreign Policy
Units: 4. The domestic and international sources of Chinese foreign policy; political, military, and economic issues in China's relations with its neighbors. Instruction Mode: Lecture Grading Option: Letter

IR 408 Global Democratization

IR 409 Environment and Politics in the Middle East
Units: 4. Terms Offered: FaSp (Enroll in MDES 401)

IR 410 The History of Modern International Relations
Units: 4. Explores modern international relations history, focusing on the role of the U.S. in the global politics. Provides training in historical research methods. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 422

IR 412 Applied Data Science for International Relations 1
Units: 2. Terms Offered: Fa. Introduction to statistical computing and data visualization in R. Focus on visualization of descriptive statistics; create publication-ready figures for actual faculty research projects. Prerequisite: IR 210 and IR 211 Instruction Mode: Lecture Grading Option: Letter

IR 413 Applied Data Science for International Relations 2
Units: 2. Terms Offered: Sp. Intermediate statistical computing and data visualization in R. Focus on the graphical presentation of complex statistical relationships. Students create publication-ready figures for actual faculty research projects. Prerequisite: IR 210 and IR 211 and (IR 412 or IR 307) Instruction Mode: Lecture Grading Option: Letter

IR 422 Ecological Security and Global Politics
Units: 4. Should environmental issues be treated as threats to security? Survey of recent literature explores global environmental politics using a security framework. Recommended Preparation: environmental studies course work. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 422

IR 423 Forced Migration and Conflict
Units: 4. Examines displacement, politics and violent conflict in the international system. Students engage academic debates on forced migration and volunteer with an LA-based organization serving refugees. Instruction Mode: Lecture Grading Option: Letter

IR 424w Citizenship and Migration in International Politics
Units: 4. Changing notions of citizenship in the context of history, and economic, political and sociological theories of international migration; diaspora and migration case studies. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 425 The New Triangle: China, the U.S. and Latin America
Units: 4. China's rise in the international political economy raises policy research questions, including an analysis of how this trend relates to U.S. and Latin American relations. Recommended Preparation: micro and macro economics. Instruction Mode: Lecture Grading Option: Letter

IR 426 Trade Politics in the Western Hemisphere
Units: 4. Focus on the dynamic process of trade integration that has occurred since the mid-1960s in the Western Hemisphere. Instruction Mode: Lecture Grading Option: Letter

IR 427 Seminar on Economics and Security
Units: 4. Introduction to important economic issue areas that are understood as security-related in the contemporary world: food, trade, debt, etc. Instruction Mode: Lecture Grading Option: Letter

IR 428 China's Political Economy
Units: 4. Critical issues surrounding China's economic rise and the implications for international relations; the unique strengths and vulnerabilities of China's political-economic model; prospects for change. Recommended Preparation: IR 210 and a course from International Relations, Political Science, or History with a strong China component. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON 451

IR 430 The Politics of International Trade
Units: 4. Economic approaches and political processes are used to explain observed international trade policy choices. Topics covered include globalization, regionalism, labor standards, the environment and sanctions. Recommended Preparation: micro and macro economics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON 451

IR 431 Commercial and Financial Globalization-Trends, Challenges
Units: 4. Factors determining the feasibility, desirability and limits of economic globalization; the dynamics triggered by the Global Financial Crisis and the backlash against Globalization. Instruction Mode: Lecture Grading Option: Letter

IR 437 Comparative Genocide
Units: 4. An interdisciplinary treatment of the tragic phenomenon of genocide. Subject matter includes historical cases and analysis of contemporary global efforts toward prevention. Instruction Mode: Lecture Grading Option: Letter

IR 438 Nationalism and Ethnic Conflict after Communism
Units: 4. Explores origins and nature of ethnic strife among post-socialist states (ethnicity and national revival, modern histories of East-Central Europe and Russia, problems and conflict resolution). Instruction Mode: Lecture Grading Option: Letter

IR 439 Political Economy of Russia and Eurasia
Units: 4. Interaction of politics and economics in the former Soviet Union and its component republics; the historical planned economy, the politics of reform and the political economy of former Soviet
IR 440 America’s Pacific Century: Dialogues between the U.S. and Asia Units: 4 Terms Offered: Sp.A hands-on analysis of the contemporary U.S. foreign policy towards East Asia through lectures, interviews, and policy paper writing, including an exchange visit to Singapore. Instruction Mode: Lecture Grading Option: Letter

IR 441 Comparative Analysis of Foreign Policy Units: 4 Comparative analysis of foreign policy determinants and decision-making; empirical emphasis. Instruction Mode: Lecture Grading Option: Letter

IR 442 Japanese Foreign Policy Units: 4 Economic, political, territorial, and security issues; foreign policy decision-making; relations with major powers and neighboring states. Instruction Mode: Lecture Grading Option: Letter

IR 443 Formulation of U.S. Foreign Policy Units: 4 Critical discussion of alternative approaches explaining the formulation and implementation of U.S. foreign policy: domestic politics, organizational processes, group dynamics, individual personality and perception. Instruction Mode: Lecture Grading Option: Letter

IR 444w Theories of Global Society Units: 4 Why the world is organized into sovereign nation-states. The challenges to nation-states in the 21st century from globalization, democratization, revolution, technology, and new forms of cultural identity. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter

IR 446 The Role of Norms and International Security Units: 4 The role of ideas, beliefs and norms in understanding state behavior and US foreign policy. From traditional security concepts to modern soft power. Instruction Mode: Lecture Grading Option: Letter

IR 447w Cities of the Middle East Units: 4 Terms Offered: FaSp (Enroll in MDES 44 1w)

IR 449 International Courts and the Globalization of Law Units: 4 Research-based analysis of dramatic development of international courts, exploring causes for their development, autonomy and political relations with states, compliance, effects on international relations. Instruction Mode: Lecture Grading Option: Letter

IR 454 The International Political Economy of Development Units: 4 Provides a critical introduction to scholarship on international political economy (IPE), the interaction of states and markets in a global context. Instruction Mode: Lecture Grading Option: Letter

IR 455 The Political Economy of Autocracy Units: 4 Survey of autocracy, the world’s most common form of government: its political economy, the role of elections, parties, repression, propaganda and civil resistance. Instruction Mode: Lecture Grading Option: Letter

IR 463 Islam and Arab Nationalism Units: 4 Historical, sociological and political processes that have shaped the emergence of and relationship between Arab nationalism and political Islam since the early 20th century. Instruction Mode: Lecture Grading Option: Letter Crosslisted as MDES-463

IR 464 US-Middle East Foreign Policy Issues Units: 4 U.S. and Middle East perspectives on Middle Eastern affairs after the creation of the state of Israel. Instruction Mode: Lecture Grading Option: Letter

IR 465 Contemporary Issues in United States-Latin America Relations Units: 4 Examines major issues in the relationship between the United States and the countries of Latin America and the Caribbean, including trade and financial questions, security, immigration, the environment, narcotics, etc. Major bilateral relations (especially with Mexico, Brazil, and the Caribbean Basin countries) are emphasized, as are regional and multilateral relationships. Instruction Mode: Lecture Grading Option: Letter

IR 466 Contemporary Issues in Latin American Politics Units: 4 Focus on current politics in Latin America. Address a range of themes: electoral democracy, citizenship, political inclusion, human rights, corruption, economic inequality. Instruction Mode: Lecture Grading Option: Letter

IR 468 European Integration Units: 4 Research on the European Union’s role in European international relations; internal EU developments since 1985 as an actor in the world economy. Instruction Mode: Lecture Grading Option: Letter

IR 470 Comparative Regionalism Units: 4 Analysis of the factors that provide different forms of regional arrangements in different parts of the world (e.g. NAFTA, EU, ASEAN). Prerequisite: IR 210. Instruction Mode: Lecture Grading Option: Letter

IR 473 War and Diplomacy: The U.S. in World Affairs Units: 4 Perspective on recent American foreign policy; a case study of conflicting literature on the origins, development and legacy of the Cold War. Instruction Mode: Lecture Grading Option: Letter

IR 484 American Religion, Foreign Policy and the News Media Units: 4 (Enroll in JOUR 484)

IR 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

IR 491x Field Study Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Local, national, and international internships. Instruction Mode: Lecture Grading Option: Letter

IR 494 Honors Thesis Seminar Units: 4 Preparation and oral defense of senior honors thesis before supervising faculty and fellow honors students. Recommended Preparation: IR 311. Instruction Mode: Lecture Grading Option: Letter

IR 499 Special Topics Units: 2, 3, 4 Max Units: 8.0 Selected topics in various special areas within international relations, which may vary from semester to semester or within semesters. Instruction Mode: Lecture Grading Option: Letter

IR 553 Global Internet Governance Units: 4 Terms Offered: FaSp (Enroll in COMM 553)

Persian

IRAN 120 Persian I Units: 4 Introduction to contemporary Persian (Farsi). Oral practice, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. Prerequisite: IRAN 120. Instruction Mode: Lecture Grading Option: Letter

IRAN 150 Persian II Units: 4 Continuation of Persian I. Prerequisite: IRAN 120. Instruction Mode: Lecture Grading Option: Letter

IRAN 220 Persian III Units: 4 Intermediate Persian (Farsi). Building conversational skills, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. Prerequisite: IRAN 150. Duplicates Credit in former MDES 220. Instruction Mode: Lecture Grading Option: Letter

IRAN 250 Persian IV Units: 4 Continuing Intermediate Persian (Farsi). Building conversational skills, listening and reading comprehension, grammar and vocabulary necessary for intermediate level spoken and written expression. Prerequisite: IRAN 220. Duplicates Credit in former MDES 250 Instruction Mode: Lecture Grading Option: Letter

IRAN 320 Advanced Persian I Units: 4 Terms Offered: FaSp Advanced verbal and written expression in Persian, including deeper understanding of Persian culture. Prerequisite: IRAN 250. Duplicates Credit in former MDES 320. Instruction Mode: Lecture Grading Option: Letter

IRAN 325 Business Persian Units: 4 Terms Offered: FaSp Business Persian is an intermediate level course designed to develop communicative skills, written expression and reading comprehension on intermediate business contents. Prerequisite: IRAN 220. Instruction Mode: Lecture Grading Option: Letter

IRAN 350 Advanced Persian II Units: 4 Terms Offered: FaSp Continuation of Advanced Persian I. Prerequisite: IRAN 320. Duplicates Credit in former MDES 350. Instruction Mode: Lecture Grading Option: Letter
Industrial and Systems Engineering

ISE 105 Introduction to Industrial and Systems Engineering
Units: 2 Terms Offered: FaSp A combination of plant tours, laboratory experiences, and lectures are used to introduce the philosophy, subject matter, aims, goals, and techniques of industrial and systems engineering. Instruction Mode: Lecture Grading Option: Letter

ISE 150 Solving Engineering Problems via Computer Programming
Units: 3 Terms Offered: Sp Engineering examples are used as a platform to introduce computer programming skills for problem solving; critical thinking skills. Instruction Mode: Lecture, Lab Grading Option: Letter

ISE 220 Probability Concepts in Engineering
Units: 3 Terms Offered: FaSp Techniques for handling uncertainties in engineering design; discrete and continuous random variables; expectations, probability distributions and transformations of random variables; limit theorems; approximations and applications. Prerequisite: MATH 126. Instruction Mode: Lecture Grading Option: Letter

ISE 225 Engineering Statistics I
Units: 3 Terms Offered: Sp Sampling distributions; parameter estimation, hypothesis testing; analysis of variance; regression; nonparametric statistics. Prerequisite: ISE 220. Instruction Mode: Lecture Grading Option: Letter

ISE 232L Manufacturing Processes
Units: 3 Terms Offered: FaSp Basic manufacturing processes including casting, machining, forming and welding; current trends in manufacturing processes including polymer, ceramic and composite material processing, and electronic device fabrication; introduction to numerical control and computer integrated manufacturing. Recommended Preparation: ASCI 110L or CHEM 105aLg or CHEM 115aLg Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME 232

ISE 310L Facilities and Logistics
Units: 4 Terms Offered: FaSp Facilities layout and design: material handling and transportation; site selection and sourcing; supply chain management. Prerequisite: ISE 330 and ISE 460 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 315L Engineering Project Management
Units: 3 Terms Offered: FaSp Techniques for planning, budgeting, scheduling, obtaining resources, monitoring and control of projects in a corporate environment. Use of software to evaluate performance and assess risks. Prerequisite: ISE 225 and ISE 330 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 327 Six Sigma and Lean Operations
Units: 3 Standardized methodology for problem solving, basic and advanced statistical tools for root cause identification and solution confirmation, key principles for quality management and organizational excellence. Prerequisite: ISE 225 Instruction Mode: Lecture Grading Option: Letter

ISE 330 Introduction to Operations Research: Deterministic Models
Units: 3 Terms Offered: FaA introduction to linear programming; transportation and assignment problems; dynamic programming; integer programming; nonlinear programming. Prerequisite: MATH 225. Instruction Mode: Lecture Grading Option: Letter

ISE 331 Introduction to Operations Research: Stochastic Models
Units: 3 Terms Offered: Sp Stochastic processes; Markov chains; queueing theory and queueing decision models; probabilistic inventory models. Prerequisite: ISE 220; Recommended Preparation: ISE 330. Instruction Mode: Lecture Grading Option: Letter

ISE 335L Supply Chain Design
Units: 3 Terms Offered: FaSp Design of Supply Chains. Product, distribution, transportation and site selection. Analysis and optimization of supply chain networks. Prerequisite: ISE 330 and ISE 460 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 344 Engineering Team Management
Units: 3 Examine team formation and team dynamics including organizational behavior, group dynamics, psychology, and business management, all in the context of engineering development; decision-making and negotiation. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

ISE 350 Principles of Systems Engineering
Units: 3 Terms Offered: FaSp Systems as complex collaborative ensembles of interconnected components. Theory and practice of requirements, design, implementation, testing, deployment, operation, and disposal. Case studies from real projects. Prerequisite: ISE 225 Instruction Mode: Lecture Grading Option: Letter

ISE 370L Human Factors in Work Design
Units: 4 Terms Offered: FaA physiological systems and psychological characteristics; ergonomics; anthropometry; effects of the physical environment on humans; occupational safety and health; work methods. Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 375L Facilities Design
Units: 3 Terms Offered: FaSp Design of facilities for operations and distribution. Product, process flow, material handling, and facility location techniques that lead to making good decisions for facilities layouts. Prerequisite: ISE 331 and ISE 460 Instruction Mode: Lecture, Lab Required Grading Option: Letter

ISE 382 Database Systems: Concepts, Design and Implementation
Units: 4 Terms Offered: FaSp Data models for industry applications. Modeling and designing robust databases. Implementing and querying databases with SQL. Innovations in database applications. Instruction Mode: Lecture, Discussion Grading Option: Lecture Crosslisted as ITP 383

ISE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by permission only Instruction Mode: Lecture Grading Option: Letter

ISE 404 Business and Intellectual Property Law for Engineers
Units: 3 (Enroll in CE 404)

ISE 410 Planning and Scheduling
Units: 3 Terms Offered: FaA production planning, forecasting, scheduling, and inventory; computer integrated decision systems in analysis and control of production systems. Prerequisite: ISE 330. Instruction Mode: Lecture Grading Option: Letter

ISE 422L Configuring Enterprise Resource Planning Systems
Units: 4 (Enroll in ITP 422)

ISE 426 Statistical Quality Control
Units: 3 Terms Offered: FaA Quantitative aspects of statistical quality control (process control, acceptance sampling by attribute and by variable, rectifying inspection), quality assurance and the management of QC/QA functions. Prerequisite: ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 435 Discrete Systems Simulation
Units: 3 Terms Offered: FaSp Model design to simulate discrete event systems with basic input and output analysis using high order languages, applied to industrial systems analysis and design problems. Prerequisite: CSCI 101 and ISE 225. Instruction Mode: Lecture, Lab Grading Option: Letter

ISE 440 Work, Technology, and Organization
Units: 3 Terms Offered: Sp Impact of technology on work and organizational design; effects of automation; design of improvement programs; information infrastructures; teams; individual behavioral outcomes. Upper division standing Instruction Mode: Lecture Grading Option: Letter

ISE 460 Engineering Economy
Units: 3 Terms Offered: FaSpSm Utilizing principles of economic analysis for choice of engineering alternatives and engineering systems. Pre-tax and after-tax economy studies. Upper division standing Instruction Mode: Lecture, Discussion Grading Option: Letter

ISE 470 Human/Computer Interface Design
Units: 3 Terms Offered: Sp Essentials of human factors and computer interface for the design, development, implementation, and evaluation of integrated media systems. Instruction Mode: Lecture Grading Option: Letter

ISE 482 Engineering Database Applications
Units: 3 (Enroll in ITP 482)

ISE 487Lx Enterprise Data Analytics
Units: 4 Terms Offered: Fa (Enroll in ITP 487)

ISE 488x Managing Supply Chains with Advanced Planning and Optimization
Units: 3 (Enroll in ITP 488)

ISE 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSp Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ISE 495ax Senior Design Project
Units: 2, 3, 4
Terms Offered: FaSp Preparation and development of the senior project proposal. Open only to industrial and systems engineering majors. Prerequisite: ISE 225 and ISE 460 and DSO 435 or ISE 382. Instruction Mode: Lecture Grading Option: In Progress to Letter

ISE 495bx Senior Design Project
Units: 2 Terms Offered: FaSp Group work on an industrial engineering design problem in an organization. Open only to industrial and systems engineering majors. Prerequisite: ISE 435 and ISE 370 or ISE 470. Registration Restriction: Open only to Industrial and Systems Engineering majors. Instruction Mode: Lecture Grading Option: Letter

ISE 499 Special Topics
Units: 2, 3, 4
Course content to be selected each semester from recent developments in industrial and systems engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

ISE 500 Statistics for Engineering Managers
Units: 3
Terms Offered: FaSpSm Framing engineering management situations with statistical methods. Experiments, distributions, regression, ANOVA, hypothesis. Registration Restriction: Open only to fifth-year seniors and master's students. Instruction Mode: Lecture Grading Option: Letter

ISE 501 Innovative Conceptual Design for New Product Development
Units: 3
Terms Offered: FaSpSm An introduction to a conceptual design framework with a logic foundation and a systematic process to carry out concept generation and improvement for innovative product developments. Recommended Preparation: Bachelor's degree in engineering or physical sciences. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 501

ISE 502 Construction Accounting, Finance, and Strategy
Units: 4
Terms Offered: FaSp Enroll in CE 502

ISE 505 Modeling for Health Policy and Medical Decision Making
Units: 3
Terms Offered: Fa Modeling techniques to inform decisions in public health, disease control, and hospital operations. Recommended Preparation: Basic probability; advanced undergraduates are encouraged to take the class and should obtain instructor permission to attend. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD 505

ISE 506 Lean Operations
Units: 3
Terms Offered: FaSp Study of lean principles and practices as applied to various industries. Duplicates Credit in former SAE 551. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SAE 551

ISE 507 Six-Sigma Methods and Applications
Units: 3
Terms Offered: FaSpSm Comprehensive study of Six Sigma and Lean metrics, methods, and systems with their applications to manufacturing, services, quality improvement and management. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-507

ISE 508 Health Care Operations Improvement
Units: 3
Terms Offered: Sp Improving operations, patient flow, quality and processes. Students will become familiar with methods for implementing change in healthcare settings such as hospitals or clinics. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PPD-508

ISE 509 Practicum in Health Care Systems
Units: 3
Terms Offered: FaSp Performance improvement projects within hospitals are undertaken by small teams collaborating with hospital staff. Study of tools to improve and optimize operations. Recommended Preparation: Spreadsheet use and general familiarity with the healthcare industry; engineering statistics at the level of ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 510 Advanced Computational Design and Manufacturing
Units: 3
Terms Offered: Sp Study advanced concepts behind computational representations, algorithms, and mathematical foundations, and their applications in computer aided design and manufacturing. Develop hands-on computational skills in team projects. Recommended Preparation: bachelor's degree in industrial engineering; programming experience, C++ preferred. Registration Restriction: Open only to master students. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 510

ISE 511L Mechatronic Systems Engineering
Units: 3
Terms Offered: Fa Use of mechanical, electrical, and computer engineering, math, and computer science to design of high performance and sophisticated products and processes and systems involving mechatronic. Recommended Preparation: bachelor's degree in engineering or physical sciences, and preliminary knowledge of programming in C. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 504

ISE 512 Software Management and Economics
Units: 3
Terms Offered: Fa (Enroll in CSCI 510)

ISE 513 Inventory Systems
Units: 3
Terms Offered: Sp Deterministic and stochastic demand systems with static/dynamic models. Practice in inventory management, computerized procedures, materials requirements planning, just-intime production, Kanban systems. Instruction Mode: Lecture Grading Option: Letter

ISE 514 Advanced Production Planning and Scheduling
Units: 3
Terms Offered: FaSpSm Advanced concepts in production planning and scheduling including resource allocation, lot sizing, flow shop and job shop scheduling, workforce scheduling and assembly line balancing. Recommended Preparation: prior knowledge of operations research and probability theory. Instruction Mode: Lecture Grading Option: Letter

ISE 515 Engineering Project Management
Units: 0
Terms Offered: FaSpSm Applying industrial and systems engineering skills to problems drawn from industry, while working in teams of 3–4 students. Teach project management skills and provide direct experience in managing and executing a group project. Instruction Mode: Lecture Grading Option: Letter

ISE 517 Modern Enterprise Systems
Units: 3
Terms Offered: FaSp Managing the process design, interfaces and resources of service and manufacturing systems, based on the state of their processes. Instruction Mode: Lecture Grading Option: Letter

ISE 520 Optimization Theory and Algorithms: Numerical Optimization
Units: 3
Terms Offered: Fa Numerical methods for multidimensional, non-linear optimization algorithms, simple and quadratic programming. Recommended Preparation: Multivariate Calculus, Linear Algebra, Computer Programming. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 521

ISE 525 Design of Experiments
Units: 3
Terms Offered: FaSp Planning data collection to investigate relationships between product/process design choices (materials, temperatures, etc.) and performance, empirical modeling to predict performance, identification of the best design choices. Recommended Preparation: ISE 225. Instruction Mode: Lecture Grading Option: Letter

ISE 527 Quality Management for Engineers
Units: 3
Terms Offered: FaSp Principles of quality management, quality philosophies and frameworks, quality leadership and strategic planning, process management, and performance measurements. Instruction Mode: Lecture Grading Option: Letter

ISE 528 Advanced Statistical Aspects of Engineering Reliability
Units: 3
Terms Offered: Advanced statistical methods applied to reliability engineering. Experimental design analysis and interpretation of multivariate reliability problems. Instruction Mode: Lecture Grading Option: Letter

ISE 529 Predictive Analytics
Units: 3

ISE 530 Optimization Methods for Analytics
Units: 3
### COURSES OF INSTRUCTION

#### ISE 532 Network Flows
- **Units:** 3
- **Terms Offered:** Sp Tree, path, flow problems, formulation and solution techniques for minimal cost flows.
- **Applications:** 
- **Prerequisite:** ISE 330 or ISE 536.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 533 Integrative Analytics
- **Units:** 3
- **Terms Offered:** Sp
- **The three pillars of analytics (predictive, prescriptive, and validation) together under one framework.**
- **Use of statistics, learning enabled optimization, based on publicly available data sets.**
- **Prerequisite:** ISE 529 and ISE 530
- **Registration Restriction:** Open only to graduate students
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 534 Data Analytics Consulting
- **Units:** 3
- **Terms Offered:** Sp
- **Consulting project concepts, frameworks, analytical tools, and managerial skills with a focus on the use of data analytics, design thinking and insight-driven frameworks.**
- **Prerequisite:** ISE 529 and ISE 530
- **Recommended Preparation:** Working knowledge of machine learning techniques as provided by ISE 529.
- **Basic knowledge of statistics and statistical modeling.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 535 Data Mining
- **Units:** 3
- **Terms Offered:** Sp
- **Data preprocessing, data cleaning, data summarization, data visualization, and predictive modeling for classification and regression; modeling dependencies using association rules.**
- **Recommended Preparation:** Knowledge of engineering statistics on the level of ISE 225 and working knowledge of a programming language
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 536 Linear Programming and Extensions
- **Units:** 3
- **Terms Offered:** Fa
- **Linear programming models for resource allocation; simplex and revised simplex methods; duality; sensitivity; transportation problems; selected extensions to large scale, multiobjective, and special structured models.**
- **Prerequisite:** MATH 225 or EE 441
- **Instruction Mode:** Lecture
- **Grading Option:** Letter
- **Crosslisted as CSCI-536**

#### ISE 537 Financial Analytics
- **Units:** 3
- **Terms Offered:** Fa
- **Portfolio construction and active portfolio management; investment strategies; machine learning models in quantitative finance; equity factor investing.**
- **Recommended Preparation:** Knowledge of Engineering Statistics on the level of ISE 225 and working knowledge of a programming language
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 538 Performance Analysis Using Markov Models
- **Units:** 3
- **Terms Offered:** Fa
- **Sp Random variables, stochastic processes, birth and death processes, continuous- and discrete-time Markov chains with finite and infinite number of states, renewal phenomena and queuing systems.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 539 Stochastic Elements of Simulation
- **Units:** 3
- **Terms Offered:** Sp
- **Simulation techniques combined with probabilistic analysis for solving problems in inventory theory, queuing theory, financial engineering, decision analysis, and other fields having a stochastic element.**
- **Corequisite:** ISE 538.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 540 Text Analytics
- **Units:** 3
- **Terms Offered:** Fa
- **Methods and algorithms for automated text analysis; machine learning; predictive web data analytics; information retrieval; social media data; natural language documents and graphs.**
- **Prerequisite:** ISE 225
- **Recommended Preparation:** Working knowledge of a programming language (R or Python is desirable).
- **ISE 529 Predictive Analytics is highly recommended.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 544 Leading and Managing Engineering Teams
- **Units:** 3
- **Terms Offered:** FaSpSm
- **Design and management of engineering teams.**
- **Group decision-making, motivation, leadership, infrastructural requirements, performance management, team diversity, conflict, and integration.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 545 Technology Development and Implementation
- **Units:** 3
- **Terms Offered:** FaSpSm
- **Principles and practices of technology development and implementation, with application to products and systems in manufacturing and services.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 551 Foundations of Data Management
- **Units:** 3
- **Terms Offered:** FaSpSm
- **Enroll in INF 551**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 554 Innovation and the Engineering Enterprise
- **Units:** 3
- **Term Offered:** FaSpSm
- **Examination of innovation in engineering enterprises including human behavior and human resources, organizational development, engineering management, business structures, financing the enterprise and intellectual property.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 555 Invention and Technology Development
- **Units:** 3
- **This project-oriented course elaborates on the process of engaging creative thought, tools and techniques for invention, and issues involved in bringing inventions to the production phase.**
- **Instruction Mode:** Lecture
- **Credit/No Credit Crosslisted as ENGR-555**

#### ISE 556 Stochastic Systems and Reinforcement Learning
- **Units:** 4
- **Terms Offered:** Sp
- **Enroll in EE 556**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 560 Analysis of Algorithms
- **Units:** 4
- **Enroll in CSCI 570**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 561 Economic Analysis of Engineering Projects
- **Units:** 3
- **Terms Offered:** FaSpSm
- **Economic evaluations of engineering systems for both government and private industry: quantitative techniques for evaluating non-monetary consequences; formal treatment of risk and uncertainty.**
- **Prerequisite:** ISE 500.
- **Recommended Preparation:** An undergraduate course in engineering economy.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 562 Decision Analysis
- **Units:** 3
- **Terms Offered:** FaSp
- **Decision making under risk conditions: utility theory; sufficient statistics; conjugate prior distributions; terminal and pre-posterior analysis; Bayesian statistics versus classical statistics.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 563 Financial Engineering
- **Units:** 3
- **Terms Offered:** Sp
- **Concepts underlying the economic analysis of engineering projects; applications to call and put options; utility theory and mathematical optimizations models; and simulation.**
- **Recommended Preparation:** ISE 220 or equivalent course in probability.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 566 Financial Accounting Analysis for Engineering
- **Units:** 3
- **Terms Offered:** Sp
- **Identification, formulation, and solution of financial accounting problems in engineering enterprises. Legal context of financial decisions, process cost determination and allocation, financial reports and reporting systems.**
- **Open only to graduate students.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter
- **Crosslisted as CE-580**

#### ISE 567 Collaborative Engineering Principles and Practice
- **Units:** 3
- **Terms Offered:** Sp
- **Scientific principles and industrial practices defining how a team of stakeholders should collaboratively work together to reach agreement on complex engineering tasks.**
- **Open only to graduate students in engineering.**
- **Registration Restriction:** Open only to graduate students in engineering.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 568 Machine Learning
- **Units:** 3
- **Terms Offered:** Fa
- **Enroll in CSCI 567**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

#### ISE 570 Human Factors in Engineering
- **Units:** 3
- **Terms Offered:** Fa
- **Psychological and physiological characteristics of humans; how they limit engineering design of machines and human-machine systems.**
- **Instruction Mode:** Lecture
- **Grading Option:** Letter
ISE 573 Work Physiology
Units: 3 Survey of metabolic processes in the performance of physical work, study of individual and environmental factors affecting these processes.

ISE 574 Probabilistic Reasoning
Units: 3 Terms Offered: Fa (Enroll in CSCI 573)

ISE 576 Industrial Ecology: Technology-Environment Interaction
Units: 3 Crosscuts and methods to analyze the environmental impacts of industrial systems, including lifecycle assessment, material flow analysis, design for environment and sustainable consumption. Instruction Mode: Lecture Grading Option: Letter

ISE 580 Performance Analysis with Simulation
Units: 3 Terms Offered: FaSp Introduction to modeling and analysis of stochastic systems, with an emphasis on discrete-event simulation of non-Markovian systems. Recommended Preparation: Probability and statistics, including hypothesis testing and introductory computer programming Instruction Mode: Lecture Grading Option: Letter

ISE 581 Negotiation For Engineering Management
Units: 3 Terms Offered: Sp Decision making techniques for the engineering manager including negotiation principles, contract negotiation, dispute resolution, auctions, bidding, voting and coalition formation. Instruction Mode: Lecture Grading Option: Letter

ISE 582 Web Technology for Industrial Engineering
Units: 3 Terms Offered: Fa A fast-paced, project-based introduction to designing and implementing interactive Web applications. Emphasizes skills for building engineering and market research applications requiring information gathering, analysis, representation. Prerequisite: ISE 382. Instruction Mode: Lecture Grading Option: Letter

ISE 583 Enterprise Wide Information Systems
Units: 3 Terms Offered: FaSp The role of enterprise resource planning systems (ERPs) in an organization and the task of implementing and managing the IS function. Instruction Mode: Lecture Grading Option: Letter

ISE 585 Strategic Management of Technology
Units: 3 Terms Offered: FaSp Management skills and tools for technology intensive enterprises. Life cycle analysis of technology from planning through exploitation, obsolescence and renewal. Instruction Mode: Lecture Grading Option: Letter

ISE 587 Risk Analysis
Units: 4 (Enroll in PPD 587)

ISE 589 Port Engineering: Planning and Operational Analysis
Units: 4 Terms Offered: SpSm (Enroll in CE 589)

ISE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree; maximum units which may be applied to the degree to be determined by the department.

ISE 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 599 Special Topics
Units: 2, 3, 4 Max Units: 9.0 Terms Offered: Fa Course content will be selected each semester to reflect current trends and developments in the field of industrial and systems engineering. Instruction Mode: Lecture Grading Option: Letter

ISE 610 Advance Design of Experiments and Quality Engineering
Units: 3 Terms Offered: Fa Advanced planning for data collection in order to investigate relationships between product/process design choices and performance; empirical modeling to predict performance; identification of the best design. Recommended Preparation: Undergraduate course in Engineering Statistics, including distributions, confidence intervals, ANOVA and Regression. Instruction Mode: Lecture Grading Option: Letter

ISE 620 Foundations of Stochastic Processes
Units: 3 Terms Offered: Sp An introductory PhD course on stochastic processes, covering such topics as conditional expectation, renewal processes, and discrete and continuous time Markov chains. Recommended Preparation: A course in probability. Some knowledge of real analysis. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

ISE 630 Foundations of Optimization
Units: 3 Terms Offered: Sp Convex sets, convex functions, structures of optimization problems, Lagrangian and conjugate duality. First and second order optimality conditions; applications in engineering and management. Recommended Preparation: Calculus III and Linear Algebra. Instruction Mode: Lecture Grading Option: Letter

ISE 631 Linear Programming
Units: 3 Terms Offered: Fa A first graduate course in mathematical programming. For first-year Ph.D. students and M.S. students who intend to pursue a Ph.D. Recommended Preparation: One year of calculus and one semester of linear and matrix algebra Instruction Mode: Lecture Grading Option: Letter

ISE 632 Network Flows and Combinatorial Optimization
Units: 3 Terms Offered: Sp Combinatorial optimization, particularly graph problems. Shortest paths, max flow, minimum cost flows, spanning trees, matroids, submodular functions. Bipartite and general matchings, polyhedral combinatorics, total unimodularity. Prerequisite: ISE 536; Recommended Preparation: familiarity with the theory of linear programming and with mathematical proofs; knowledge of linear algebra. Duplicates Credit in ISE 532. Instruction Mode: Lecture Grading Option: Letter

ISE 633 Large Scale Optimization and Machine Learning
Units: 3 Terms Offered: Fa Large scale optimization algorithms that arise in modern data science and machine learning applications. Stochastic Optimization, Accelerated Methods, Parallelization, Online Optimization, Randomized Linear Algebra Recommended Preparation: Linear Algebra and Probability Instruction Mode: Lecture Grading Option: Letter

ISE 637 Equilibrium Programming
Units: 3 Terms Offered: FaSp Built on the methodology of constrained optimization, a graduate level course on equilibrium programming cast in the framework of finite-dimensional variational inequality and complementarity problems. Prerequisite: ISE 520 and ISE 536. Instruction Mode: Lecture Grading Option: Letter

ISE 638 Stochastic Optimization
Units: 3 Terms Offered: FaSp Stochastic linear and integer programming, multistage stochastic programming, application, models and algorithms. Recommended Preparation: A first graduate course in optimization and the ability to program in a high level language are essential. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE-638

ISE 645 Uncertainty Modeling and Stochastic Optimization
Units: 3 Terms Offered: Sp (Enroll in CE 645)

ISE 651 Seminar in Industrial and Systems Engineering
Units: 1 Max Units: 4.0 Terms Offered: FaSp Current research, guest speakers in the field; review papers; guidance in preparing research proposals and special projects. Open only to fifth-year seniors and master's students. Registration Restriction: Open only to Fifth Year Seniors and Master's Students. Duplicates Credit in the former ISE 650abc. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 662 Advanced Decision Theory
Units: 3 Terms Offered: Sp Rational decision making; value and utility functions; distribution theory and copulas; value of information and control; multi-attribute utility; decision and game theory; behavioral research. Recommended Preparation: Differential equations; mathematical statistics; some knowledge of measurement theory and functional equations Instruction Mode: Lecture Grading Option: Letter

ISE 670 Advanced Analysis of Algorithms
Units: 3 Terms Offered: Fa (Enroll in CS 670)

ISE 671 Randomized Algorithms
Units: 3 Terms Offered: Sp (Enroll in CS 671)

ISE 690 Directed Research
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems by candidates for the degree Engineer in Industrial and Systems Engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit
ISE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the dissertation. Instruction Mode: Lecture Grading Option: Credit/No Credit

ISE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

ISE 794e Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Italian
ITAL 012x Italian 120 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to Italian in order to improve students' Italian language skills; explicit pronunciation and intonation practice. Requires concurrent enrollment in either ITAL 120 Italian I or MPVA 260 Italian Language and Diction. Credit Restriction: Not available for major or degree credit
Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 015x Italian 150 Language Practicum
Units: 1 Terms Offered: FaSpSm English grammar as it relates to Italian in order to improve students' Italian language skills; explicit pronunciation and intonation practice. Concurrent Enrollment: ITAL 150 Credit Restriction: Not available for credit
Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 020x Course in Reading Italian
Units: 2 For graduate students who wish help in meeting the Italian reading requirement for the PhD degree. Synoptic presentation of Italian grammar. Emphasis on development of reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 120 Italian I
Units: 4 Terms Offered: FaSpSm Introduction to current Italian. Oral practice, hearing and reading comprehension; grammar necessary for simple spoken and written expression. Prerequisite: Italian placement exam. Instruction Mode: Lecture Grading Option: Letter

ITAL 150 Italian II
Units: 4 Terms Offered: FaSpSm Continuation of Italian I. Prerequisite: ITAL 120 or MPVA 260 Instruction Mode: Lecture Grading Option: Letter

ITAL 175 Accelerated Italian for Speakers of Spanish and Other Romance Languages
Units: 4 Terms Offered: FaSp Sm Accelerated introduction to written and spoken Italian for students with a high level of proficiency in Spanish or another Romance Language. Students completing this course may enroll in the third semester of the basic language sequence ITAL 220. Prerequisite: SPAN 220 or FREN 220 or PORT 220 Duplicates Credit in ITAL 120, ITAL 150 Instruction Mode: Lecture Grading Option: Letter

ITAL 220 Italian III
Units: 4 Terms Offered: FaSpSm Continuation of Italian II. Review of structure of the language, drill in aural and reading comprehension, practice in oral expression. Prerequisite: ITAL 150 or ITAL 175 Instruction Mode: Lecture Grading Option: Letter

ITAL 224 Constructing Today's Italy Through the Lens of the Media
Units: 4 Terms Offered: FaSpSm Investigation of Italy through social networks, advertising, music, television and newspapers. Communicative skills developed through conversations with native speakers, online posts and YouTube. Prerequisite: ITAL 220 Instruction Mode: Lecture Grading Option: Letter

ITAL 235x Intermediate Conversational Italian
Units: 2 Terms Offered: FaSpSm Designed for students interested in maintaining and developing Italian language competency. Builds and reinforces vocabulary, idioms, communication skills and knowledge of Italian cultural aspects through discussion of contemporary topics. Prerequisite: ITAL 220. Registration Restriction: Not open to Italian majors Credit Restriction: Not available for Italian major credit
Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 270gw Black Europe
Units: 4 Terms Offered: FaSpSm (Enroll in FREN 270gw) Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 320 Critical Writing in Italian
Units: 4 Terms Offered: FaSpSm Advanced composition through critical reading of literary texts; comprehensive analysis of difficult grammatical structures and stylistics. Prerequisite: ITAL 224. Instruction Mode: Lecture Grading Option: Letter

ITAL 340g Italian and French Cinema and Society
Units: 4 Terms Offered: FaSp Sm Analysis of the global impact of cinema from the silent era to the 1980s; tracing the development of French and Italian cinematography and their effect on different cultures and periods; trends and genres such as commedia all’italiana, horror, spaghetti western, feminism and postcolonialism. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as FREN 449

ITAL 345 Contemporary Italy
Units: 4 Italian literature and arts in Italy following World War II. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 347 Italy Today: Youth, Family and Migration
Units: 4 Terms Offered: FaSp Contemporary social, political and economic issues through readings of recent Italian literature onsite. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 350g Gender and Sexuality in Renaissance Italy
Units: 4 Terms Offered: FaSp Interdisciplinary exploration of gender and sexuality in Italian renaissance literature and visual arts by male and female authors and artists from the fourteenth through the sixteenth century. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as SWMS 350

ITAL 352 The Holocaust in Italian Fiction and Film
Units: 4 Terms Offered: FaSp The transformation of the Italian Jewish community before, during and after World War II, through an examination of modern novels, essays and films. Taught in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 360g Italian Cinema
Units: 4 Terms Offered: FaSp Sm Survey of Italian cinema in its relation to social transformation, from the silent era to the present. Weekly screenings, lectures, and discussions. Conducted in English. Satisfies New General Education in Category A: The Arts Duplicates Credit in former ITAL 446. Instruction Mode: Lecture Grading Option: Letter

ITAL 380 Italian Women Writers
Units: 4 Selected poetry, prose, and drama by outstanding Italian women authors and their role in Italian society from the Middle Ages to 20th century. Taught in Italian. Recommended Preparation: ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 381 Storytelling in the Italian Tradition
Units: 4 Terms Offered: FaSp Reading and close textual scrutiny of major short stories from Boccaccio's Decameron to the present. Conducted in English. Duplicates Credit in former ITAL 462. Instruction Mode: Lecture Grading Option: Letter

ITAL 382g Dante
Units: 4 Terms Offered: FaSp Sm Analysis of the Divina Commedia and other works. Conducted in English. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in former ITAL 450. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COLT 449

ITAL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Instruction Mode: Lecture Grading Option: Letter

ITAL 392 Seminar in Literary and Cultural Studies
Units: 4 Terms Offered: FaSp Sm Selected topics in Italian literature and culture. Conducted in English. Instruction Mode: Lecture Grading Option: Letter
ITAL 393 Seminar in Italian Thought
Units: 4 Terms Offered: FaSp Introduction to important trends in recent Italian philosophy, political and social theory, and media studies. Emphasis to be determined by the department. Conducted in English. Instruction Mode: Lecture Grading Option: Letter

ITAL 401 Studies in Early Modernity
Units: 4 Max Units: 8 Terms Offered: FaSp Study and analysis of representative works and major intellectual, cultural, and artistic trends from the early modern period (pre-1800). Taught in Italian. Prerequisite: ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 402 Studies in Modernity
Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of representative works and major intellectual, cultural, and artistic trends from the modern period (post-1800). Taught in Italian. Prerequisite: ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 403 Studies in Colonialism and Postcolonialism
Units: 4 Max Units: 8.0 Terms Offered: FaSp Study and analysis of colonialism and postcolonialism in Italian contexts. Prerequisite: ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 440 Futurism and Fascism in Italy
Units: 4 Terms Offered: FaSp Literature, theatre, visual arts, and politics, from the Futurist Avant-Garde through the reign of Mussolini. Recommended Preparation: ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 461 Italian Theatre
Units: 4 Terms Offered: FaSp Italian dramatic literature from the earliest written documents to the present. Reading and close textual scrutiny of plays by major dramatists from the Renaissance to the present. Taught in Italian. Prerequisite: ITAL 320. Instruction Mode: Lecture Grading Option: Letter

ITAL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

ITAL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Special topics in Italian literature, culture, and society. Conducted in Italian. Prerequisite: ITP 115 or ITP 165. Instruction Mode: Lecture Grading Option: Letter

ITAL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree in cognate fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

ITAL 592 Practicum in Teaching Italian
Units: 2 Terms Offered: Fa A practicum in teaching Italian as a second language. Instruction Mode: Lecture Grading Option: CR/NC

Information Technology Program
All ITP courses are open to non-engineering majors. The "x" designation indicates that engineering students require prior departmental approval to count

ITAL 100-level and above ITP courses for major credit.

ITP 101 Introduction to Business Information Technologies

ITP 104L Web Publishing

ITP 109 Introduction to Java Programming
Units: 2 Terms Offered: FaSp Introduction to object-oriented software design for business problems. Creation of console applications, windowed applications, and interactive Web applets. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 111 What is the Cloud?: An Introduction to DevOps

ITP 115 Programming in Python
Units: 2 Terms Offered: FaSp Python's high level data structures and clear syntax make it an ideal first language with powerful applications to science, business, finance, math, and the web. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 125L From Hackers to CEOs: Introduction to Information Security

ITP 165 Introduction to C++ Programming
Units: 2 Terms Offered: FaSp Fundamentals of C++ syntax and semantics, including function prototypes, overloading, memory management, abstract data types, object creation, pointers to class members, and I/O streams. Prerequisite: any high-level programming language. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 168 Introduction to MATLAB
Units: 2 Terms Offered: FaSp Fundamentals of MATLAB: a high-performance numeric computation and visualization environment. Overview of linear algebra and matrix manipulation; using 2-D and 3-D plotting routines; programming in MATLAB; basic numerical analysis. Recommended Preparation: MATH 118 or MATH 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 190 Tools for Digital Graphics
Units: 2 Digital tools for image creation, editing, composition, layout, web page development, professional page layout, and printing with color accuracy. Duplicates Credit in former ITP 090 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 211 Power-Tools for Visual Communication
Units: 2 Terms Offered: FaSp An applied introduction to the techniques used for modeling, animating, texturing, lighting, rendering, and creating 3D content for games, cinematics, visual effects, animation, and visualizations. Recommended Preparation: knowledge of any 2D paint, drawing or CAD program Instruction Mode: Lecture, Lab Required Grading Option: Letter

ITP 222 Linux and Containers
Units: 4 Terms Offered: FaSp Using and maintaining Linux systems; managing users, resources, networks; developer and scripting tools; container creation, configuration, publication; composing services. Prerequisite: ITP 111 Instruction Mode: Lecture Grading Option: Letter

ITP 228 Computer-Aided Modeling for 3D Product Design
Units: 4 Terms Offered: FaSp Course in computer-aided design for 3D products. Emphasis on modeling, rendering, and animation using 3D software. Recommended Preparation: knowledge of any 3D modeling and animation software. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 230x Video Game Quality Assurance
Units: 4 Terms Offered: FaSp Survey of game software development through quality assurance and in-depth analysis of the development cycle with a focus on bug testing systems and methodologies. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 249 Introduction to Data Analytics
Units: 4 Terms Offered: Fa Sp Introduction to data analytics. Basics of databases, applied statistics, data visualization, leveraging data to make critical business decisions. Duplicates Credit in former ITP 250 and former ITP 251 Instruction Mode: Lecture Grading Option: Letter

ITP 256 Blockchain
Units: 4 Terms Offered: FaSp Explore blockchain technology, a secure and immutable way to record transactions. Learn the workings of cryptocurrencies and explore their impact on financial services, business and contracting. Instruction Mode: Lecture Grading Option: Letter

ITP 265 Object-Oriented Programming
Units: 4 Terms Offered: FaSp Continuation of the fundamentals of programming; problem solving skills within the object-oriented programming paradigm. Prerequisite: ITP 115 or ITP 165 Instruction Mode: Lecture Grading Option: Letter

ITP 280 Video Game Production
Units: 4 Terms Offered: FaSp History of video games; overview of game genres; phases of video game development (concept, preproduction, production, post-production); roles of artists, programmers,
COURSES OF INSTRUCTION

ITP 301 Front-End Web Development
Units: 4
Terms Offered: FaSp Concepts and technologies used to create front-end for web applications. Introduction to programming and client-side web development. User-driven website manipulation and animation. Prerequisite: ITP 104L or IML 300
Instruction Mode: Lecture
Grading Option: Letter

ITP 302 Advanced Web Publishing
Units: 4
Terms Offered: FaSp Advanced topics in Web Publishing including HTML5, CSS3, CSS Pre-processors, CSS topics in Web Publishing including ITP 302 Advanced Web Publishing
Instruction Mode: Lecture
Grading Option: Letter

ITP 303 Full-Stack Web Development
Units: 4
Modern web development techniques and technologies used to create web applications from ground up. Topics include front-end, back-end, and web servers. Prerequisite: ITP 265 or CSCI 103L
Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 304 Back-End Web Development
Units: 4
Terms Offered: FaSp Concepts and technologies used to create database-driven websites. Database design and implementation. Server-side development to connect web applications to databases. Prerequisite: ITP 301
Instruction Mode: Lecture
Grading Option: Letter

ITP 305 Intermediate 3D Modeling and Procedural Asset Pipelines
Units: 4
Terms Offered: Sp Intermediate modeling techniques and procedural asset creation workflows for cinematics, games, animation, design, modeling, texturing, visualization and augmented/virtual reality. Prerequisite: ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L
Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 307 Multimedia for Designers and Entrepreneurs II
Units: 4
(Enroll in ACAD 307)

ITP 308 Computer-Aided Design for Bio-Mechanical Systems
Units: 3
Concepts of computer-aided design in 2-dimensions and 3-dimensions. Creating advanced parts using extrusions, surfaces, and equation driven sketches. Forming assemblies, and sub-assemblies, for motion analysis
Recommended Preparation: MATH 245, strength of materials knowledge
Instruction Mode: Lecture, Lab
Grading Option: Letter Crosslisted as BME 308, ACAD 308

ITP 310 Design for User Experience
Units: 4
Terms Offered: FaSp Fundamental concepts, techniques, practices, workflows, and tools associated with the practice of user experience and interaction design in web and mobile applications. Duplicates Credit in former ITP 140 Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD 311

ITP 315x 3D Character Rigging and Animation
Units: 4
Terms Offered: FaSp Explore the performance methodologies and advanced rigging processes used to bring life to 3D characters for games, cinematics and performance animation. Prerequisite: ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L
Credit Restriction: Not available for major credit in Electrical and Computer Engineering
Instruction Mode: Lecture
Grading Option: Letter

ITP 320 Enterprise Information Systems
Units: 4
Terms Offered: FaSp The role Information Systems play in an organization. Integration of Business Processes by using Enterprise Resource Planning Systems (ERP). Instruction Mode: Lecture
Grading Option: Letter

ITP 322 Using GIS Technology for Social Impact
Units: 2
Terms Offered: FaSp Using geographic information systems to forward a social cause by compiling geographic data, creating and using maps, and analyzing the results; building a social impact technology product or business. Instruction Mode: Lecture
Grading Option: Letter

ITP 325 Ethical Hacking and Systems Defense
Units: 3
Terms Offered: FaSp Hacking from a defense perspective. Hacker ethics and laws. Penetration testing. Vulnerability assessment. Securing workstations, servers, and networks. Prerequisite: ITP 125 Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 333 Digital Infrastructure
Units: 4
Terms Offered: FaSp Virtual machines, storage, networks and autoscaling on various Cloud platforms; serverless applications; managing users, security, performance and costs on the Cloud. Prerequisite: ITP 222 Instruction Mode: Lecture
Grading Option: Letter

ITP 341 Android App Development
Units: 4
Terms Offered: FaSp App development for the Android open-source platform utilizing core mobile device functionalities, third-party API integration, and backend services. Prerequisite: ITP 265 or CSCI 103L
Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD 341

ITP 342 iOS App Development
Units: 4
Terms Offered: FaSp Introduction to the Swift programming language, various frameworks, and design patterns needed to develop applications for iOS mobile devices such as iPhones and iPads. Prerequisite: ITP 265 or CSCI 103 Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD 342

ITP 343 Mobile Development for Content and Media
Units: 1
Creating media-focused mobile applications. Topics include recording/ playback, audio synthesis, stream mixing, and positional audio. Prerequisite: ITP 342. Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD-343

ITP 344 Advanced iOS App Development
Units: 4
Terms Offered: FaSp App development for iOS devices using advanced functionalities including background data processing, network services and push notifications. Prerequisite: ITP 342 Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD 344

ITP 345 Advanced Android App Development
Units: 4
Terms Offered: FaSp Develop sophisticated applications for the Android open-source platform using advanced functionality including background threading, broadcast receivers, sensors and low-level interaction events. Prerequisite: ITP 341 Instruction Mode: Lecture
Grading Option: Letter

ITP 348 Introduction to Physical Computing
Units: 4
Terms Offered: FaSp Design of electronic devices that interact with the physical world; electronic interfaces; development of software algorithms; microcontroller implementation. Prerequisite: ITP 109 or ITP 115 or ITP 165
Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 350 Technologies and Practices for Analytics
Units: 4
Overview of the process of data analysis. Reporting, visualization and prediction. Practical applications of analytics through case studies. Prerequisite: ITP 250x and ITP 251 Instruction Mode: Lecture, Lab
Grading Option: Letter Crosslisted as ACAD 351

ITP 356 Blockchain: Decentralized Applications
Units: 4
Terms Offered: FaSp Blockchain technology; transactions without the need for a trusted third-party; and decentralized applications on public blockchains. Prerequisite: ITP 256 Instruction Mode: Lecture
Grading Option: Letter

ITP 357 Enterprise Network Design
Units: 3
Network technologies; Strategies for managing thousands of systems. Routers and managed switches. Integrated operating systems (IOS). Windows and Linux networking. Subnets. Prerequisite: ITP 125 Instruction Mode: Lecture, Lab
Grading Option: Letter

ITP 360 Advanced Visual Effects and Compositing
Units: 4
Terms Offered: FaSp Advanced techniques for visual effects creation including node-based digital compositing, multi-pass rendering, match-moving, camera tracking, and seamless coordination of live action and 3D content. Prerequisite: ITP 215L or ACAD 187 or ACAD 188 or AME 101L or ARCH 207 or CE 107L Instruction Mode: Lecture
Grading Option: Letter

ITP 365 Managing Data in C++
Units: 4
Terms Offered: FaSp Data structures in C++ including vectors, linked lists, stacks, queues, trees, hash tables, graphs, and parallelism. Prerequisite: ITP 265 Instruction Mode: Lecture
Grading Option: Letter Crosslisted as ACAD 365
ITP 366 Blockchain: Advances and Use Cases
Units: 4  Terms Offered: FaSp Latest advances in blockchain and distributed ledger technologies. Critical analysis of new projects, proposals and protocols. The promise and technical feasibility of use cases. Prerequisite: ITP 256 Instruction Mode: Lecture, Grading Option: Letter

ITP 368 Programming Graphical User Interfaces
Units: 4  Terms Offered: FaSp Programming applications with dynamic graphical user interfaces. Topics include events, controls, resources, data bindings, styles and user experience. Prerequisite: ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter

ITP 370 Information Security Management
Units: 3  Terms Offered: Sp Management techniques for security projects. Security team management. Laws and regulations for information security. Disaster recovery. Security Audits. Prerequisite: ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 375 Digital Forensics
Units: 3  Terms Offered: Fa Forensic science techniques. Digital evidence preservation and presentation. Processes and methodologies for digital analysis. Prerequisite: ITP 125 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 380 Video Game Programming
Units: 4  Terms Offered: FaSp Underlying concepts and principles required for program. Security and games (topics include vectors, transformations, 3-D math, geometric primitives, matrices). Prerequisite: CSCI 104 or ITP 365. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 382 Mobile Game Development
Units: 4  Terms Offered: Sp Application of techniques used to develop games for mobile devices. Sprites, mobile input, mobile graphics and monetization. Prerequisite: ITP 265 or CSCI 103L Instruction Mode: Lecture Grading Option: Letter

ITP 383 Database Systems: Concepts, Design and Implementation
Units: 4  Terms Offered: Sp (Enroll in ISE 382) Instruction Mode: Lecture Grading Option: Letter

ITP 387 Cloud Architecture and Applications
Units: 4  Survey of “Infrastructure as a Service” and online application development. Concepts include online storage, computation, virtualization, messaging, and monetization. Prerequisite: CSCI 104 or ITP 365 Instruction Mode: Lecture Grading Option: Letter

ITP 388 Developing Connected Devices
Units: 4  Terms Offered: FaSp Design and development of production-ready connected devices; PCB design; microcontroller logic; interfacing with the connected world. Prerequisite: ITP 348 Registration Restriction: Not open to Electrical Engineering majors Instruction Mode: Lecture Grading Option: Letter

ITP 392 Designing and Producing Video Games
Units: 4  Terms Offered: FaSp Roles of designers and producers in the video game industry. Managing development, facilitating teams, coordinating with stakeholders. Creation of budgets, pitches, and game design documents. Prerequisite: ITP 250 or ITP 280 Duplicates Credit in former ITP 391a, former ITP 391b, former ITP 393 Instruction Mode: Lecture Grading Option: Letter

ITP 404 Advanced Front-End Web Development
Units: 4  Terms Offered: Fa The technologies, techniques, conventions and best practices used in contemporary front-end web development. Prerequisite: ITP 301 or ITP 303 or ACAD 275 Instruction Mode: Lecture Grading Option: Letter

ITP 405 Advanced Back-End Web Development
Units: 4  Terms Offered: Sp Topics include Model-View-Controller (MVC) pattern, RESTful APIs, Object Relational Mapping (ORM), testing, and Node.js, an asynchronous server-side alternative using JavaScript. Prerequisite: ITP 303 or ITP 304 or ACAD 276 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 407 Multimedia for Designers and Entrepreneurs III
Units: 4  (Enroll in ACAD 407) Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 410 Social Media for Scientists and Engineers
Units: 4  Terms Offered: FaSp (Enroll in ENGR 410) Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 411 Multimedia and Video Production
Units: 3  Terms Offered: FaSp Visual communication and storytelling are essential skills, especially in the digital age. Overview of techniques and software to create, edit, and deliver compelling images and video. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 415 3-D Design and Prototyping
Units: 2  Explore the range of 3-D printing and prototyping technologies, and their application to modern industrial, design, and creative fields. Prerequisite: ITP 215L Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 421x Advanced Programming for Enterprise Information Systems
Units: 3  Object Oriented Programming for Enterprise information systems. Working with classes, objects, database tables, SQL. Designing reports and Graphical user interfaces. Leveraging service oriented architecture. Prerequisite: ITP 320. Recommended Preparation: object oriented programming. Instruction Mode: Lecture Grading Option: Letter

ITP 422 Configuring Enterprise Resource Planning Systems
Units: 4  Business process integration is the core advantage of using ERP systems. Analyze, configure, and test business processes for a company from the ground up. Prerequisite: ITP 320 Duplicates Credit in former ITP 322 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 425 Web Application Security
Units: 4  Web application security techniques. eCommerce vulnerabilities. Online fraud. Solutions to spam and identity theft. Prerequisite: ITP 301 or ITP 325 or ACAD 275 Instruction Mode: Lecture Grading Option: Letter

ITP 435 Professional C++
Units: 4  Terms Offered: FaSp Applications of advanced concepts in C++ including lambda expressions, templates, secure coding, parallel programming, writing performant code, CMake and continuous integration. Prerequisite: CSCI 104L or ITP 365 Instruction Mode: Lecture Grading Option: Letter

ITP 439 Compiler Development
Units: 4  Terms Offered: Sp Practical applications of techniques used to develop a programming language compiler. Prerequisite: ITP 365 or CSCI 104L Instruction Mode: Lecture Grading Option: Letter

ITP 442 Mobile App Project
Units: 3  Capstone course for Mobile App Development minor. Work in project teams to develop new mobile app from start to finish. Meet with client, create app design, develop, test, and demonstrate app to client. Prerequisite: ITP 341 or ITP 342 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 444 Digital Architecture
Units: 4  Terms Offered: Sp Composing provider-agnostic Cloud solutions; availability, performance and cost management; security and compliance. Prerequisite: ITP 333 Instruction Mode: Lecture Grading Option: Letter

ITP 445 Macintosh, OSX, and iOS Forensics

ITP 446 Cyber Breach Investigations

ITP 447 Mobile Device Security and Forensics

ITP 448 Cyber Litigation Support
Units: 3  Terms Offered: Sp Civil Litigation. Digital and Electronic Evidence. Electronic Discovery. Discovery Electronically Stored Information. Prerequisite: ITP 375 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 449 Applications of Machine Learning
Units: 4  Hands-on approach to the fundamental modeling techniques and machine learning algorithms that enable students to build robust predictive models of real-world data and test their validity. Prerequisite: ITP 115 and ITP 249 Instruction Mode: Lecture Grading Option: Letter

ITP 449 Applications of Machine Learning
Units: 4  Terms Offered: Sp Latest advanced techniques in machine learning that enable students to build robust predictive models of real-world data and test their validity. Prerequisite: ITP 115 and ITP 249 Instruction Mode: Lecture Grading Option: Letter
ITP 454x Enterprise Resource Planning, Design, and Implementation
Units: 3 Process and requirements to implement an Enterprise Resource Planning System (ERP). Set up server, implement ERP system, then transfer and configure database for case company. Prerequisite: ITP 320 Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 456 Blockchain: Capstone
Units: 4 Terms Offered: FaSp Use decentralized blockchain technology to propose a use case of trustless peer-to-peer transactions. Prerequisite: ITP 356 and ITP 366 Instruction Mode: Lecture Grading Option: Letter

ITP 457 Network Security
Units: 4 Network policy and mechanism, firewalls, malicious code; intrusion detection, prevention, response; cryptographic protocols for privacy; risks of misuse, cost of prevention, and societal issues. Prerequisite: ITP 357. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 460 Web Application Project
Units: 4 Terms Offered: Sp Skills to plan, analyze, build, and launch professional Web sites with actual clients. Includes project management, documentation, technology assessment, security, UI, Q/A, and various methodologies. Prerequisite: ITP 303 or ITP 304 or ACAD 276. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 460

ITP 466 Building the High Tech Startup
Units: 4 Teach students the basic technologies and processes involved in building a web and mobile startups. Students will be introduced to the different aspects of building a web startup including online business models, Product management, Agile development processes, technology platforms and operations, customer development and online marketing. Instruction Mode: Lecture Grading Option: Letter

ITP 468 Connected Devices Project
Units: 4 Capstone course for the Minor in IoT. Team-based interacting with real-world clients, designing a hardware system, developing firmware, and manufacturing a product. Prerequisite: ITP 348 and ITP 228. Registration Restriction: Not open to Electrical Engineering majors. Instruction Mode: Lecture Grading Option: Letter

ITP 470 Information Technology Practicum
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Independent technology project related to specific topics under the direction of a faculty member. Recommended Preparation: appropriate 300-level course work to topic of study Registration Restriction: Not open to graduate students. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 475 Advanced Digital Forensics

ITP 476 Technologies for Interactive Marketing
Units: 4 Technologies, concepts and strategies in the emerging online advertising ecosystem. Strategies and tactics to drive traffic to a website and measure efficacy. Students will work with a real client and budget to craft and execute an online marketing plan. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 476

ITP 477 Software Based Engineering Design of Roadways
Units: 3 Orient students to using InRoads software and familiarize them with its capabilities to support engineering design of roadways. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 479 Cyber Law and Privacy
Units: 3 Cyber legal issues, search and seizure, 4th amendment and digital evidence, public searches, case law relating to search and seizure. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 480 Information Technology Internship
Units: 1, 2, 3, 4 Max Units: 08 Practical experience in applying information technology skills in real-world settings. Supervised in a real-world internship at companies and start-ups. Balancing academic rigor with corporate challenges and deadlines. Recommended Preparation: knowledge of chosen function area Registration Restriction: Not open to graduate students Instruction Mode: Lecture Grading Option: Letter Cross/No Credit

ITP 481 Game Programming Professional Development
Units: 2 Terms Offered: FaSp Techniques for mathematical, geometry and programming algorithms in the context of game video programming practice. Prerequisite: ITP 380. Instruction Mode: Lecture Grading Option: Letter

ITP 482 Engineering Database Applications
Units: 3 Planning and implementation of engineering information systems that interface with a large database. Emphasis is placed on web-based data entry and retrieval. Prerequisite: ITP 108 or ITP 155L or ITP 115 or ITP 165 or ITP 168 or ISE 150 or CSCI 102L or CSCI 103L and (DSO 435 or ISE 382). Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ACAD 482

ITP 484 Multiplayer Game Programming
Units: 3 Techniques for developing networked multiplayer games. Topics include Internet protocols, network topology, data streams, object sharing, client prediction, latency, and back-end databases. Prerequisite: ITP 380. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 485 Programming Game Engines
Units: 4 Terms Offered: FaSp Techniques for building the core components of a game engine. 2-D/3-D graphics, collision detection, artificial intelligence algorithms, shading, programming input devices. Prerequisite: ITP 380. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as CSCI 485

ITP 486 Securing and Auditing Enterprise Resource Planning Systems
Units: 3 Management and technical issues related to the security of ERP systems. Students will audit ERP systems and apply appropriate security controls. Prerequisite: ITP 320. Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ISE-486

ITP 487 Enterprise Data Analytics
Units: 4 Terms Offered: FaMethodology to store, organize, cleanse, harmonize and stage enterprise data for analytics. Report, visualize, slice and dice, forecast and predict trends. Prerequisite: ITP 249 or ITP 320 or DSCI 351. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 487

ITP 488 Managing Supply Chains with Advanced Planning & Optimization
Units: 3 Drivers and obstacles to the process of coordinating the flow of material/information along the logistics chain. Optimize the supply network, from raw materials to sales. Not available for major credit in engineering except toward undergraduate and graduate programs offered by the Epstein Department of Industrial and Systems Engineering. Prerequisite: ITP 320 Instruction Mode: Lecture, Lab Grading Option: Letter Crosslisted as ISE-488

ITP 489 In-Memory Data Modeling and Analytics
Units: 4 Terms Offered: Sp Examines the design, architecture, and capabilities of in-memory databases and their application to real-time analytics. Prerequisite: ITP 249 or ITP 320 or DSCI 351. Instruction Mode: Lecture Grading Option: Letter

ITP 491 Level Design and Development for Video Games
Units: 4 Theories and practices of defining, prototyping, testing, and refining a video game level, development of game level documents, and the tools for managing the development process. Prerequisite: ITP 230 or ITP 280. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 496 The Startup Launchpad Lab
Units: 2 A real world, hands-on learning experience on what it’s like to actually start a high-tech company. Students will work in teams to design, prototype and implement version 1.0 of a high-tech web/mobile startup. Prerequisite: BAEP 452 and ITP 466 and ITP 476 Corequisite: BAEP 496. Instruction Mode: Lecture, Lab Grading Option: Letter

ITP 499 Special Topics
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: max 8 Recent developments in computers and data processing. Instruction Mode: Lecture, Lab Grading Option: Letter

JOURNALISM

JOUR 190 Introduction to Journalism
Units: 2 Survey of all media and outlets including print, broadcasting, public relations and online journalism, plus analysis of what it means to be a professional journalist. Instruction Mode: Lecture Grading Option: Letter

JOUR 200w The Power and Responsibility of the Press
Units: 4 Explores the role of journalism and social media in society - its influence on government, technology, business, national security, sports, science and entertainment. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter
JOUR 201 Culture of Journalism: Past, Present and Future
Units: 4 Understanding key moments, debates and ideas that have shaped journalism in the United States from the Revolutionary War period through today. Examination of the social, cultural, political and technological aspects of journalism and its impact on the profession and public service. Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 205 Journalism Practicum
Units: 1, 2 Max Units: 04 Terms Offered: FaSp/Sm Field experience in journalism, public relations, or related field. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 206 Reporting and Writing I
Units: 3 Provides students with foundational skills to report, write and produce journalism content across multiple platforms, including broadcast, digital and text. Concurrent Enrollment: JOUR 206 and JOUR 321 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 206 Reporting and Writing II
Units: 3 Report, write and produce in-depth stories for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage communities through field reporting. Registration Restriction: Only open to journalism majors Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 207 Reporting and Writing I
Units: 3 Report, write and produce in-depth stories for diverse audiences; enhance understanding of news judgment; develop and maintain sources; engage communities through field reporting. Registration Restriction: Only open to journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 208 Media Law and Ethics
Units: 2 Introduction to the basics of the U.S. legal system and contemporary case law and ethics; impact of the Web on the practice of journalism; understanding essential legal frameworks and the rights and responsibilities of journalists. Instruction Mode: Lecture Grading Option: Letter

JOUR 210x Basics of News Production for Non-Majors
Units: 2 Max Units: 6.0 Terms Offered: FaSp Introduction to television, radio, and/or digital news production. Examination of issues in journalism. Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 255 Advancing Journalism with Human-Centered Design
Units: 4 (Enroll in ACAD 255)

JOUR 256 Designing for News and Information
Units: 4 (Enroll in ACAD 256)

JOUR 300 Journalism and Society
Units: 4 Examination of media and society by applying concepts on power, ideology, discourse and representation to specific case studies from the field and practice of journalism. Instruction Mode: Lecture Grading Option: Letter

JOUR 307 Reporting and Writing II
Units: 3 Develop reporting skills by studying historical unsolved Italian crimes. Visit crime scenes, examine evidence, interview sources, analyze media reports and write articles for each crime. Instruction Mode: Lecture Grading Option: Letter

JOUR 310 Investigative Reporting
Units: 4 Reportorial and analytical skills and techniques required for portraying and evaluating contemporary newsworthy events; lectures, discussions. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 311 Multimisplatform Editing
Units: 4 Copywriting, headline writing, Search Engine Optimization and other production skills for preparation of content across platforms. Social responsibility and ethical framework also components of this course. Prerequisite: JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 320 Introduction to Coding for Storytelling
Units: 2 Introduction to basic web technologies; conceiving, designing, coding and producing a multimedial storytelling project. Prerequisite: JOUR 207 and JOUR 321 Concurrent Enrollment: JOUR 307 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 321 Visual Journalism
Units: 2 Video for digital platforms, principles of photography, design for web and mobile platforms. Introduction to principles of digital news design, interactivity and presentation in interactive storytelling. Concurrent Enrollment: JOUR 207 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 322 Introduction to Investigative and Data Journalism
Units: 2 Reportorial and analytical skills and techniques required for portraying and evaluating contemporary newsworthy events using basic data journalism techniques and tools for statistical analysis. Prerequisite: JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 323 Journalism and the Audience
Units: 2 Build a personal website that features a culmination of your previous undergraduate journalism work; craft a professional digital profile using various social media platforms; understand the economics of the news business; prepare to enter the industry. Prerequisite: JOUR 322 Instruction Mode: Lecture Grading Option: Letter

JOUR 324 Inside the Newsroom
Units: 2 Observation of daily work in newsrooms across multiple platforms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 372

JOUR 325 Sports, Business and Media in Today's Society
Units: 4 An inside look at the important stories, topical issues, trends and historical developments related to the growing influence of business and media on college and professional sports; identifying the key components and meeting the influencers in class that help shape the business side of sports, while recognizing the role the media plays in providing daily coverage across multiple platforms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 382

JOUR 330 Photographic Journalism
Units: 4 Terms Offered: FaSp Emphasis on fundamental skills necessary for photographic journalism including camera techniques, story ideas and digital darkroom. Instruction Mode: Lecture Grading Option: Letter

JOUR 340 Rewriting History: Reporting RomanoICC
Units: 4 Develop reporting skills by studying historical unsolved Italian crimes. Visit crime scenes, examine evidence, interview sources, analyze media reports and write articles for each crime. Instruction Mode: Lecture Grading Option: Letter

JOUR 350 Introduction to Sports Media
Units: 4 Highlight norms, routines of content, including print, broadcast, video. Focus on opportunities, constraints posed by roles of reporters, fans, players, publicists, agents, leagues, teams. Instruction Mode: Lecture Grading Option: Letter

JOUR 371 Media Censorship and the Law
Units: 4 Terms Offered: FaSp (Enroll in COMM 371)

JOUR 372 Engaging Diverse Communities
Units: 2 Explores how to engage diverse local communities through participatory journalism and communication strategies. Focuses on using digital tools to increase engagement with communities via field reporting and mobile platforms to produce stories across platforms. Prerequisite: JOUR 307 and JOUR 320 Registration Restriction: Open only to Journalism majors Duplicates Credit in former ASCJ 440 Instruction Mode: Lecture Grading Option: Letter

JOUR 373 Journalism Ethics Goes to the Movies
Units: 4 Ethical issues facing journalists in the complex world of legacy media, social media and the Internet as dramatized in the movies and in the newsroom. Instruction Mode: Lecture Grading Option: Letter

JOUR 375 The Image of the Journalist in Popular Culture
Units: 4 The impact of conflicting images of reporters in movies and television on the American public's perception of newsgatherers in the 20th century. A decade-by-decade evaluation. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 372

JOUR 380 Sports, Business and Media in Today's Society
Units: 4 An inside look at the important stories, topical issues, trends and historical developments related to the growing influence of business and media on college and professional sports; identifying the key components and meeting the influencers in class that help shape the business side of sports, while recognizing the role the media plays in providing daily coverage across multiple platforms. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 382

JOUR 381 Entertainment, Business and Media in Today's Society
Units: 4 Terms Offered: FaSp An examination of the symbiotic relationship of the entertainment business and the media; press coverage of the entertainment industry; Hollywood's relationship with news media. Instruction Mode: Lecture Grading Option: Letter

JOUR 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

JOUR 400 Interpretive Writing
Units: 4 Weekly assignments in the shorter forms of newspaper and magazine writing: essays, reviews, editorials, opinion-page articles, profiles; analyses of major 20th century journalists. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter
JOUR 401 Multiplatform Editing for Digital Audiences
Units: 6 Breaking news and real-time editing for digital audiences across platforms, including homepage, social media and mobile. Introduction to analytics for website and social media. Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 402 Advanced Video Reporting
Units: 6 Role of the broadcast journalism reporter; similarities and differences between print and electronic media; application of audio-video equipment; analysis and practical experience. Prerequisite: JOUR 307 Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 403 Television News and Sports Production
Units: 6 Production of television news and sports programs while developing video, writing and communication skills and managing content in collaboration with others under deadline pressure. Prerequisite: JOUR 307 Instruction Mode: Lecture, Lab Grading Option: Letter

JOUR 404 Produce and Host Sports Content in Studio A
Units: 2 Interview, present and design sports segments for television/video in Studio A. Instruction Mode: Lecture Grading Option: Letter

JOUR 405 Non-Fiction Television
Units: 4 Presentation and selection in non-fiction television programs including documentaries, electronic magazines and new series; ethical problems, field research, reporting, interviewing, pre-production. Prerequisite: JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 406 Social Media Storytelling for Latinx Audiences
Units: 2 Create native journalistic content for current social media and emerging platforms with an emphasis on engaging content for Latinx audiences and underrepresented communities. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 406

JOUR 408 Advanced Media Law
Units: 2 Advanced examination of the rights of journalists in the American legal system; understanding the First Amendment and seminal case law to provide a framework for the practice of journalism; recognizing ethical dilemmas confronting members of the media. Prerequisite: JOUR 208 and JOUR 307 and JOUR 320 Instruction Mode: Lecture Grading Option: Letter

JOUR 409 Radio Storytelling and Podcasting
Units: 4 Techniques for audio journalism, including effective use of sound, art of the interview, writing for the ear and crafting stories to engage listeners. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 410 Radio Documentary
Units: 4 In-depth reporting for public radio news: writing, editing, advanced vocal delivery. Production of long-form radio features and short documentaries. Prerequisite: JOUR 409 Instruction Mode: Lecture Grading Option: Letter

JOUR 411 Broadcast and Digital Writing for Video and Audio for Non-Majors
Units: 2 Develop a broad-based knowledge of broadcast news writing and reporting; recognize, research and develop stories; write and format broadcast stories in all forms and learn to produce finished news packages. Registration Restriction: Not open to Journalism majors. Instruction Mode: Lecture Grading Option: Letter

JOUR 414 Advanced Digital Media Storytelling
Units: 2 Production of a well-reported advanced multimedia package, with a blend of text, audio, video, photos, navigation and interactivity; final projects will be published by the Annenberg Media Center. Prerequisite: JOUR 322 and JOUR 372 Instruction Mode: Lecture Grading Option: Letter

JOUR 420 Advanced Photojournalism
Units: 4 Emphasis on advanced photojournalism techniques for complex photo storytelling; focus on style, content, design, expression and ethics. Prerequisite: JOUR 530. Instruction Mode: Lecture Grading Option: Letter

JOUR 422 Visual Journalism for Non-Majors
Units: 4 Emphasis on photographic storytelling in print, video and Web-based media; understanding of visual thinking and imagery techniques. Registration Restriction: Not open to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 425 Advanced Radio News Production

JOUR 430 Writing the Film Review
Units: 4 Techniques of writing the film review; preparation and treatment of form and content; problems, responsibilities and ethics of film reviewing. Instruction Mode: Lecture Grading Option: Letter

JOUR 431 Feature Writing
Units: 4 Techniques of writing newspaper feature stories, including the profile, the light feature, the news feature, the in-depth story; the art of narrative writing. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 432 Sports Commentary
Units: 4 Techniques of reporting and writing sports columns and commentary for print, video, radio and Web-based media. Instruction Mode: Lecture Grading Option: Letter

JOUR 433 Writing About Science
Units: 4 Techniques of writing about science, including news, profiles, features and commentary. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 435 Writing Magazine Non-Fiction
Units: 4 A seminar in "how to" interview, research, write -- and place -- professional quality articles for a full range of magazines/newspapers including women's, sports, ethnic, local and national. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 440 Environmental Journalism
Units: 4 Techniques of reporting and writing about the environment. Includes both theory and practice needed for reporters specializing in this area of journalism. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 441 Sports Reporting
Units: 2 News and feature coverage of sporting events, including social and economic factors influencing sports in America. Instruction Mode: Lecture Grading Option: Letter

JOUR 443 Business Reporting
Units: 2 Techniques of reporting and writing about business, economics and finance. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 444 Reporting on Religion
Units: 4 Provides print, online and broadcast journalists with basic tools for reporting on the religion angle of news stories. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 446 Entertainment Reporting
Units: 2 Techniques of reporting and writing about the entertainment business, economics and finances. Analysis of the skills and background needed for reporters specializing in this area of the news. Instruction Mode: Lecture Grading Option: Letter

JOUR 447 Arts Reporting
Units: 2 Techniques of reporting and writing about the arts, including television, film, theatre, music, graphic arts, architecture and design. Instruction Mode: Lecture Grading Option: Letter

JOUR 448 Government and Public Affairs Reporting
Units: 4 Techniques for covering beats that are the foundation of daily newspaper reporting, including crime, education, immigration and local government. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 449 Reporting Los Angeles
Units: 2 Specialized reporting class focused on Los Angeles that requires intensive fieldwork in the neighborhoods, ethnic communities, and/or among local institutions. Prerequisite: JOUR 307 Instruction Mode: Lecture Grading Option: Letter

JOUR 458 Media, Food and Culture
Units: 4 Analyzes the ways media tell the story of our food and examines the critical issues surrounding what we eat. Instruction Mode: Lecture Grading Option: Letter

JOUR 459 Fact and Fiction: From Journalism to the Docudrama
Units: 4 Historical, legal and ethical limitations to the misrepresentation of fact. Includes print and broadcast journalism, books, theatre, cinema and new technology. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 459

JOUR 460 Social Responsibility of the News Media
Units: 4 News media as instruments of constructive social change; standards of ethics and aesthetics; interactions between
news media and cultural settings; social responsibility of news media personnel. 

**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 462 Law of Mass Communication** 
Units: 4 
Press law; government controls on the news media; legal responsibilities of the journalist. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 465m Latino News Media in the United States** 
Units: 4 
History and growing importance of Latino print and broadcast news media in covering immigration, discrimination, culture, social differences and other aspects of U.S. Latino life. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 466m People of Color and the News Media** 
Units: 4 
Reporting and portrayal of people of color in the United States; impact of racial diversity on media, employment and access, and development of media for individuals and communities of color. Open to non-majors. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 467 Gender and the News Media** 
Units: 4 
Gender and news media evolving images of women and men in print and electronic media. Impact of gender in content and style of news, television and cinema. Open to non-majors. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 469 Money, Markets and Media** 
Units: 3 
Practical approach to understanding and writing about economic concepts through current events, case studies and historical examples. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 470 Community Journalism** 
Units: 2 
Survey of how local journalism functions in a community. Students work as editors/mentors to high school students, writing for school newspaper and other media. 
**Prerequisite:** JOUR 307 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 472 Strategies for Monetizing New Media** 
Units: 4 
Learn strategies for how content creates value in a shifting media landscape. Work with a real client to create a sustainable media business model. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 474 Interviewing and Profile Writing** 
Units: 2 
Techniques of, and intensive application in, researching and writing interviews and profiles for newspapers and magazines. 
**Prerequisite:** JOUR 307 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 475 Print and Digital Design for 21st Century Storytelling** 
Units: 4 
Art, typography, and other graphic elements in publication design; traditional, contemporary, and advanced production methods, processes, and equipment; representative examples; practice in design. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 476 Reporting Urban Affairs** 
Units: 4 
Examination of U.S. urban issues with an eye toward history for context; study of emerging 21st century solutions for urban communities. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 477 Web Analytics for News and Nonprofit Organizations** 
Units: 2 
Introduction to using Web traffic and other audience behavior data to manage Websites and social media for news and nonprofit organizations. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 478 Politics of Sports Writing** 
Units: 4 
Critical examination of different styles of sports writing. Focus on the social context of sports writing and the relationship between sports and politics. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 479 Storytelling for Action Sports** 
Units: 4 
Learn how to cover action sports with cutting-edge technology. In-class lectures and industry guest speakers focus on topics such as gender, race and history. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 480 Sports and Media Technology** 
Units: 4 
Examine and analyze the ever-changing technology sector of the sports business and sports media world. Identify emerging technologies being developed in the sports industry and how they are being utilized to enhance the fan experience. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 481 The Athlete, Sports Media and Popular Culture** 
Units: 4 
Analysis of the images of the athlete and sports media helps us understand how sports dramatically affects such social issues as race, class and gender. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 482 Comparative Media in Europe** 
Units: 4 
Examines print, broadcast and public relations media and their interactive roles in multi-national and supra-national settings at sites in both Western and Eastern Europe. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 483 Negotiating and Reporting Global Change** 
Units: 4 
In-depth multimedia reporting on social, economic and political processes of global impact; combining intensive fieldwork and specialized background knowledge. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 484 American Religion, Foreign Policy and the News Media** 
Units: 4 
Explores the influence of American religion on foreign policy from Colonial Era to present; how the news media, reporting on international stories, shapes public opinion. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 489 Hands-on Disruption: Experimenting with Emerging Technology** 
Units: 2 
Exploration and experimentation of emerging technologies through the lens of journalism and hands-on prototyping. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 490x Directed Research** 
Units: 1, 2, 3, 4, 5, 6, 7, 8 
Max Units: 12.0 
**Terms Offered:** FaSpSm 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 492 Advanced Coding for Storytelling** 
Units: 2 
Focuses on advanced coding techniques for the creation of dynamic, interactive, multimedia and data-driven news stories on the web. 
**Prerequisite:** JOUR 320 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 493 Comics and Graphic Storytelling** 
Units: 4 
Focus on comics as a medium to tell a broad range of stories and speak to diverse kinds of audiences. Develop a core vocabulary for thinking about comics as a medium and analyze how artists have drawn on that vocabulary in a range of contexts. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 494 Python Coding for Data Journalism** 
Units: 2 
Python coding language to gather, parse and analyze data for investigative news reporting. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 495 Journalism for Mobile and Emerging Platforms** 
Units: 2 
Create video, audio and graphic news and information using mobile and emerging technology, such as phones, tablets and laptops, for non-broadcast platforms; understand ethical and legal issues related to journalists working on mobile and emerging platforms. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 496 Interactive Media Design for Publishing** 
Units: 4 
Design, test and distribute engaging news and publishing apps. Learn concepts of interactive design, color, type, UX, and more for digital mobile/tablet platforms. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 497 Data Visualization and Interactive Tools** 
Units: 2 
Present your data in tables, charts, graphs, maps, and complex multimedia pieces using readily available interactive tools. 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 498 Honors Seminar** 
Units: 2 
**Terms Offered:** Sp Intensive study of a subject of contemporary relevance or of professional importance to journalists and public relations practitioners. 
**Restriction:** Admission to Honors Program 
**Instruction Mode:** Lecture 
**Grading Option:** Letter

**JOUR 499 Special Topics** 
Units: 2, 3, 4, 5 
Max Units: 8.0 
**Terms Offered:** FaSpSm 
**Instruction Mode:** Lecture 
**Grading Option:** Letter
COURSES OF INSTRUCTION

JOUR 500 Introduction to Newswriting and English-Language Reporting
Units: 2 Provides students whose first language is not English fundamental skills to report and write journalism content, enhancing ability to succeed in rigorous graduate journalism program. Instruction Mode: Lecture Grading Option: Letter

JOUR 503 Visual Literacy and Introduction to Documentary Storytelling
Units: 1 Terms Offered: Sm An introduction to visual literacy and documentary storytelling. Explore the choices behind visual storytelling that can be applied to long form video journalism. Instruction Mode: Lecture Grading Option: Letter

JOUR 504 Introduction to Emerging Technology
Units: 1 Terms Offered: Sm Introduction to software to produce augmented reality and virtual reality experiences using wearable devices (watches and glasses), sensors and drones. Instruction Mode: Lecture Grading Option: Letter

JOUR 505 The Practice: Journalism's Evolution as a Profession
Units: 1 Terms Offered: Sm Analyzes the history, ethics and evolution of journalism; Students will be introduced to key innovations and innovators in journalism history as well as multimedia platforms. Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 508 Introduction to Video Reporting
Units: 1 Terms Offered: Sm Write, shoot and edit video under deadline; produce high quality work in the Media Center. Instruction Mode: Lecture Grading Option: Letter

JOUR 510 Special Assignment Reporting
Units: 2 Beat reporting with a deep dive into research, source development, and writing/reporting skills. Focus on current trends, history, major actors and key issues. Instruction Mode: Lecture Grading Option: Letter

JOUR 511 Introduction to Narrative Non-Fiction
Units: 1 Terms Offered: Sm Summer intensive focusing on long-form, narrative non-fiction; read and critique exemplary long-form pieces; write short exercises that prepare for longer ones. Instruction Mode: Lecture Grading Option: Letter

JOUR 512 Advanced Interpretive Writing
Units: 2 Terms Offered: Fa Analysis and writing of editorials, essays, Op-Ed page articles, profiles, and other shorter forms of journalism, combined with study of historic practitioners of those forms. Instruction Mode: Lecture Grading Option: Letter

JOUR 515 Introduction to Audio Storytelling
Units: 1 Terms Offered: Sm Introduction to audio reporting and production skills: recording, interviewing, writing and editing for audio, and vocal delivery. Skills applicable for broadcast, podcasting or Web. Instruction Mode: Lecture Grading Option: Letter

JOUR 517 Advanced Investigative Reporting
Units: 4 Terms Offered: Sp Advanced reportorial and analytical skills and techniques required for evaluating newsworthy events. Group research and publication of stories on important current topics. Prerequisite: JOUR 539 Instruction Mode: Lecture Grading Option: Letter

JOUR 519 Advanced Writing and Reporting for Magazine and the Web
Units: 4 Focus on reporting and writing for magazine and the web, learning fundamental production skills, and pitching stories in the magazine market Instruction Mode: Lecture Grading Option: Letter

JOUR 521 Documentary Pre-Production
Units: 2 Terms Offered: Sm Pre-production of video documentary including selection of topic, diversity, ethical and legal problems, research and reporting techniques, interviewing, writing, balanced presentation, visual and audio literacy. Instruction Mode: Lecture Grading Option: Letter

JOUR 522 Video Documentary Production
Units: 4 Terms Offered: Sp Production of video documentary including research and reporting techniques, writing, interviewing, field work, editing, legal issues, economics, aesthetics, balanced presentation, ethics, diversity and production problems. Instruction Mode: Lecture Grading Option: Letter

JOUR 523 Public Radio Reporting
Units: 2 Terms Offered: Fa Reporting for public radio-style news: writing, newsgathering, editing, vocal delivery. Techniques applicable for broadcast or Web audio stories. Open only to journalism majors. Registration Restriction: Open only to Journalism majors. Instruction Mode: Lecture Grading Option: Letter

JOUR 524 Advanced Broadcast Reporting
Units: 4 Terms Offered: Sp Reporting, production and writing for broadcast and other video platforms; practical experience; role of the video broadcast journalist; similarities and differences between media. Prerequisite: JOUR 528 Recommended Preparation: JOUR 552 Instruction Mode: Lecture Grading Option: Letter

JOUR 525 This California Life: Storytelling for Radio and Podcasting
Units: 4 Terms Offered: Sp Advanced production techniques for public radio-style reports: writing, sound, editing, narrative voice. Techniques applicable for broadcast features or Web audio documentaries. Instruction Mode: Lecture Grading Option: Letter

JOUR 526 Advanced Broadcast News Production
Units: 3 Terms Offered: Fa Production of television news programs; preparation and treatment of form and content; procedures, problems and practice in planning and producing broadcast news materials. Instruction Mode: Lecture Grading Option: Letter

JOUR 527 Advanced Disruption: Innovation and Emerging Technology
Units: 2 Terms Offered: Sp Apply emerging technologies to tell innovative stories based on a production trip during spring break. Instruction Mode: Lecture Grading Option: Letter

JOUR 528 Summer Digital Journalism Immersion
Units: 3 Terms Offered: Sm A journalism immersion experience that orients and familiarizes students with the best practices and standards of cutting-edge multimedia, multi-platform fact gathering, reporting and storytelling. Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 531 Fall Digital Journalism Immersion
Units: 3 Terms Offered: Fa Students write, report, produce, code, promote (through social media), and publish/air cross-platform stories in a converged news environment. Open only to Journalism majors. Prerequisite: JOUR 528 Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

JOUR 533 Web Journalism and Editorial Site Management
Units: 2 Report, edit, and manage a major news Website while operating its content management system; understand best standards and practices in online site management. Instruction Mode: Lecture Grading Option: Letter

JOUR 539 Introduction to Investigative Reporting
Units: 2 Terms Offered: Fa Focus on basic investigative reporting; understand its history, how to access records, identify sources, use computer assisted reporting, report in a fair and ethical manner. Instruction Mode: Lecture Grading Option: Letter

JOUR 578 Reporting on Globalization
Units: 3 Understanding globalization, its origins, history and major characteristics. Developing skills in reporting, describing, analyzing, and responding to globalization. Instruction Mode: Lecture Grading Option: Letter
JOUR 579 Journalism Internship
Units: 1, 2 Max Units: 2.0 Terms Offered: Fa Winter Field experience in journalism, public relations, or related field. Instruction Mode: Lecture Grading Option: Letter
JOUR 581 Specialized Journalism: Research Methods
Units: 3 Advanced skills in the use of expert sources, scholarly resources, computer-assisted and investigative reporting in specialized journalism; social and ethical issues in specialized reporting. Instruction Mode: Lecture Grading Option: Letter
JOUR 582 Specialized Journalism: Reporting Decisions
Units: 2 Reporting and analysis of decision making; case studies and analytical tools in dissecting decisions for readers, listeners and viewers. Instruction Mode: Lecture Grading Option: Letter
JOUR 584 Specialized Reporting: Education, Youth and Learning
Units: 3 Terms Offered: Fa Reporting and writing on education; survey of historical and contemporary issues affecting children, families and public education. Instruction Mode: Lecture Grading Option: Letter
JOUR 585 Specialized Reporting: Religion
Units: 4 Terms Offered: Sp Reporting and writing on religion; survey of world religion, religion and public life-including politics, gender and science. Instruction Mode: Lecture Grading Option: Letter
JOUR 586 Specialized Reporting: Science
Units: 3 Reporting and writing on science; survey of scientific research fields and evaluation of evidence and claims. Instruction Mode: Lecture Grading Option: Letter
JOUR 588 Cities, Climate and Risk
Units: 3 Reporting and writing on urbanization, climate change and environmental harm. Instruction Mode: Lecture Grading Option: Letter
JOUR 592 Arts Journalism: Storytelling and Production
Units: 3 Terms Offered: Fa Reporting and writing on arts; strategies for arts journalism in the digital era; survey of essays and reviews by great critics. Instruction Mode: Lecture Grading Option: Letter
JOUR 593 Arts Criticism and Commentary
Units: 3 Terms Offered: Sp Writing workshops and independent fieldwork; development of critical skills to write socially valuable criticism and commentary about art, entertainment and culture. Prerequisite: JOUR 591. Instruction Mode: Lecture Grading Option: Letter
JOUR 594a Master's Thesis
Units: 2 Terms Offered: Fa Spr Winter Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
JOUR 594b Master’s Thesis
Units: 2 Terms Offered: Fa Spr Winter on acceptance of thesis. Instruction Mode: Letter
Lecture Grading Option: In-progress to Credit/No Credit

JOUR 594z Master’s Thesis
Units: 0 Terms Offered: FaSpSm Credit on approval of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

JOUR 595 Critical Thinking: The Art and Science of Not Getting Fooled
Units: 3 Researching and writing about how not to get fooled as a journalist; includes research, writing and discussion. Open only to journalism and specialized journalism majors. Registration Restriction: Open only to Journalism and Specialized Journalism majors Instruction Mode: Lecture Grading Option: Letter

JOUR 596 Follow the Money: Business and Economics
Units: 3 Reporting and writing on business, economics and public finance; students produce a series of professional projects for publication. Instruction Mode: Lecture Grading Option: Letter

JOUR 597 Food Culture Journalism
Units: 4 Use the food lens to view the world with a special emphasis on Los Angeles, and learn good journalism practices with the aim of publishing. Instruction Mode: Lecture Grading Option: Letter

JOUR 598 Journalism Capstone Project
Units: 4 Terms Offered: Sp Production of a journalism capstone project with multimedia elements for a master’s degree. Projects can be single stand-alone pieces, or series of pieces. Prerequisite: JOUR 531L Registration Restriction: Open only to Journalism majors Instruction Mode: Lecture Grading Option: Credit/No Credit

JOUR 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Seminar in selected topics in journalism. Instruction Mode: Lecture Grading Option: Letter

Judaic Studies

JS 100gp Jewish History
Units: 4 Terms Offered: Fa Major ideas, personalities, and movements in Jewish history from antiquity to the present in light of the interaction of the Jews with the general culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

JS 180gp Judaism
Units: 4 Terms Offered: Sp Jewish beliefs, practices, and history from the biblical period to the present; Judaic contributions to Western civilization. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

Units: 3 or 4
Survey of legal aspects of international trade and investment transactions, including tax considerations. Instruction Mode: Lecture Grading Option: Numeric

LAW 765 Intellectual Property Litigation
Units: 1, 2, 3, 4
Analyzes selected contributions to intellectual property scholarship and explores some challenging problems in contemporary intellectual property law. Registration Restriction: Open only to Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 766 Writing for Publication Seminar
Units: 1, 2, 3, 4
Max Units: 8.0 Terms Offered: FaSp
Special seminars to provide a forum for students who wish to produce a paper for academic publication to receive guidance and feedback. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 767a Law Review Staff I
Units: 1 or 2
Writing, source-checking, and preliminary editing of articles and comments for publication in the Southern California Law Review. For second-year students serving as staff members on the Review. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LAW 767b Law Review Staff I
Units: 1 or 2
Writing, source-checking, and preliminary editing of articles and comments for publication in the Southern California Law Review. For second-year students serving as staff members on the Review. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 768a Law Review Writing
Units: 1, 2, 3
Max Units: 4.0 Writing, source-checking and preliminary editing of articles and comments for publication in the Southern California Law Review. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 769a Law Review Editing
Units: 1, 2, 3
Terms Offered: FaSp
Supervision of research and writing, and final editing of articles and comments
for publication in the Southern California Law Review. For officers of the Review.
Instruction Mode: Lecture
Credit/No Credit
LAW 769b Law Review Editing
Units: 1, 2, 3, 4
Terms Offered: FaSp
Supervision of research and writing, and final editing of articles and comments for publication in the Southern California Law Review. For officers of the Review.
Instruction Mode: Lecture
Credit/No Credit
LAW 770 Technology Transactions
Units: 2, 3
Provides students with the foundation for advising clients on transactions involving patents, trade secrets and other technology-related rights.
Instruction Mode: Lecture
Credit/No Credit
LAW 771 Intellectual Property and Technology Law Clinic I
Units: 2, 3, 4
Terms Offered: Fa
Provides law students with the ability to represent clients (under the supervision of the professor) in cutting-edge issues of intellectual property and technology law. Corequisite: LAW 772 or LAW 841.
Instruction Mode: Lecture
Credit/No Credit
LAW 772 Intellectual Property
Units: 2 or 3
The protection of intellectual property and encouragement of creativity. Explores copyright, trademarks, patents, and selected state law theories.
Instruction Mode: Lecture
Credit/No Credit
LAW 773 Internet Law
Units: 2, 3, 4
Terms Offered: Fa
Integration of cyberspace and the Internet into existing legal structures. Topics include: First Amendment issues; intellectual property, privacy and child protection; criminal activity and governance and jurisdictional activities.
Instruction Mode: Lecture
Credit/No Credit
LAW 775 Immigration Law
Units: 2, 3, 4
The development of immigration law to its present state.
Instruction Mode: Lecture
Credit/No Credit
LAW 776 Immigration Clinic I
Units: 2, 3, 4
Terms Offered: FaSpSm
Students represent clients before Immigration and Customs Enforcement, the Immigration Court, and certain law enforcement agencies in cases including applications for relief under the Violence Against Women Act, for asylum, and for relief against deportation. Registration Restriction: Open only to Law students.

Units: 3 or 4 Terms Offered: FaSp Examines decision-making by counsel in the litigation of cases. Emphasis is given to decisions involving tactics and strategies and their implications for the functioning of legal institutions and substantive doctrine. Extensive use of simulated trial practice exercises. Instruction Mode: Lecture Grading Option: Numeric

LAW 822 Alternative Dispute Resolution Clause Drafting
Units: 1 Explores a variety of contract provisions, and teaches students the important drafting skills necessary to achieve a client's goal. Instruction Mode: Lecture Grading Option: Numeric

LAW 824 Arbitration Advocacy
Units: 1, 2 Helps students understand the basic approaches to preparing and presenting cases in the arbitration context. Registration Restriction: Open only to Law School students. Instruction Mode: Lecture Grading Option: Numeric

LAW 825 International Arbitration Competition
Units: 1, 2, 3 Max Units: 6 Covers basic aspects of international commercial arbitration and prepares a USC Law School team for participation in the Willem C. Vis International Commercial Arbitration Moot. Instruction Mode: Lecture Grading Option: Numeric

LAW 826 Employment Dispute Mediation
Units: 1, 2 Provides hands-on experience in mediation of the complex issues of disability, wage and hour, sex and sex harassment, age, race, religion, and national origin. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 827 Counseling the Startup Company
Units: 2, 3, 4 Terms Offered: Sp Role of the attorney in startup firms: business plan, employment agreements, lease, stock option plan, financing documents and distribution and strategic partnership arrangements. Instruction Mode: Lecture Grading Option: Numeric

LAW 828 Mediation Advocacy
Units: 3 Introduces students to the process of mediation, explores the philosophical approaches to mediation and different styles of mediating, develops a working knowledge of the stages of mediation, and cultivates students' skills to become effective advocates throughout each stage of the process. Instruction Mode: Lecture Grading Option: Numeric

LAW 829 Cross-Cultural Dispute Resolution
Units: 2 Brings an international perspective to understanding the impact of culture in the most commonly used international and domestic dispute resolution practices (negotiation, mediation, and arbitration). Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 830 Law Firm Economics and the Public Interest
Units: 1 Introduces students to the tools needed to work in a large law firm pro bono practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 831 International Business Negotiations
Units: 2 Simulated negotiation of an international transaction; will address legal and related business issues that commonly arise in international deals. Registration Restriction: Open only to law students Instruction Mode: Lecture Grading Option: Numeric

LAW 832 Special Education Dispute Resolution
Units: 2 Surveys the continuum of options available to, and emerging issues considered by, contemporary special education dispute resolution professionals. Instruction Mode: Lecture Grading Option: Numeric

LAW 833 Labor Arbitration
Units: 2 Introduces students to the National Labor Relations Act, collective bargaining and the labor arbitration process. Students also prepare labor arbitration briefs. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 834 Veterans Legal Practicum
Units: 3, 4 Max Units: 08 Allows students to hone their legal skills while representing veterans of the United States Armed Forces in administrative proceedings. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 835 Transactional Due Diligence
Units: 1 Prepares students to handle due diligence projects at the level of a first-year or second-year transactional associate through hands-on, practical training. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 837 Diversity: Legal and Social Perspectives
Units: 2, 3 Examines legal and social perspectives on the concept of diversity. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 838 Patent Drafting and Prosecution
Units: 3 Students learn how to prepare and prosecute U.S. patent applications, as well as an overview of design and foreign patent prosecution. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 839 Copyright Law in Practice
Units: 2, 3, 4 Study of federal copyright law, analysis of property rights and interests created thereunder.Manner in which these rights can be exploited in the various entertainment media. Prerequisite: LAW 772 or LAW 841 Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 841 Copyright, Trademark and Related Rights
Units: 3 An introductory survey of statutes and case law, and underlying policy issues, concerning copyright, trademark and certain related legal rights. Registration Restriction: Open only to Law students.
Lecture Mode: Lecture Grading Option: Numeric

LAW 842 Partnership Taxation
Units: 2, 3, 4 Explores the fundamentals of federal income taxation of partners and partnerships, including classification, formation, operations, distributions, disposition of partnership interests, partnership terminations and the drafting of partnership agreements. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 843 Tax Policy Seminar
Units: 2, 3 Students will write and present papers discussing topics in tax policy. Instruction Mode: Lecture Grading Option: Numeric

LAW 844 Prepare for Trial Like a Master
Units: 1 Allows students to practice trial techniques and covers cutting-edge techniques in trial preparation. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 845 Negotiation Skills
Units: 2, 3 Develops students' negotiating skills through role plays, reflection and instructor feedback. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 847 Refugee and Forced Migration Law
Units: 2, 3 Examines refugee law and forced migration, including the causes and consequences of forced migration and the responses to forced migration. Instruction Mode: Lecture Grading Option: Number

LAW 849 International Human Rights Clinic I
Units: 4, 5 Students work under close faculty supervision on cases and projects that involve the application of international law to address human rights violations. Instruction Mode: Lecture Grading Option: Numeric

LAW 850 International Human Rights Clinic II
Units: 4 or 5 Continuation of the International Human Rights Clinic. Prerequisite: LAW 849. Instruction Mode: Lecture Grading Option: Numeric

LAW 851 Topics in Criminal Law and Criminology
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Selected topics in criminal law or criminology. May be repeated with permission of the instructor as topics vary. Instruction Mode: Lecture Grading Option: Numeric

LAW 853 Divorce and Family Mediation
Units: 2 Learn the practice and theory required to navigate many family law issues, including divorce, property, custody and immigration disputes. Instruction Mode: Lecture Grading Option: Numeric

LAW 854 Legal Innovations Lab
Units: 2, 3 Students work in teams to develop innovative ways of addressing shortcomings in our legal systems to improve access, quality, efficiency and global integration and prosperity. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 855 Topics in Maritime and Admiralty Law
Units: 2, 3, 4 Max Units: 6.0 Terms Offered: FaSp Taught in honor of James Ackerman, USC Law graduate of 1948, this class examines selected topics in maritime and admiralty law. May be repeated with permission of the instructor as topics vary. Instruction Mode: Lecture Grading Option: Numeric

LAW 857 Legal Design Challenge
Units: 2 Students develop a proposal in response to the call for solutions to global supply chains problems from the Hague Institute for the Internationalisation of Law. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 858 Law and Psychology
Units: 2, 3, 4 Examines the psychological factors that hinder the making of accurate factual findings. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 859 Communications Law: Internet, Television and Other Media
Units: 2, 3, 4 Terms Offered: FaSpSm Concentrates on the regulation of broadcast television, cable television, telephone, and spectrum management. Instruction Mode: Lecture Grading Option: Numeric

LAW 860 International Criminal Law
Units: 4 Covers the prosecution, trial and punishment of individuals suspected of crimes considered among the most serious violations of international humanitarian and human rights law. Instruction Mode: Lecture Grading Option: Numeric

LAW 861 International Law Seminar
Units: 2, 3 Max Units: 6.0 Terms Offered: Sp Investigation of selected problems of international law. May be repeated with permission of the instructor as topics vary. Instruction Mode: Lecture Grading Option: Numeric

LAW 863 International Negotiations and Mediation
Units: 2, 3, 4 Introduction to negotiation and mediation from an international perspective. Development of interpersonal and negotiation skills for effective client representation in negotiation and mediation. Registration Restriction: Open only to Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 864 Sovereign Debt
Units: 1, 2, 3, 4 Examines the legal regimes that exist to address the problems that arise when a sovereign cannot pay back what it owes. Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 865 Legislative Policy Practicum
Units: 3 Provides students with an opportunity to participate in realworld advocacy on juvenile justice issues. Instruction Mode: Lecture Grading Option: Numeric

LAW 866 Counterterrorism, Privacy and Civil Liberties
Units: 2, 3, 4 Terms Offered: FaSpSm Explores the spectrum of interconnected legal and policy issues known as "homeland security" since the events of September 11, 2001. Instruction Mode: Lecture Grading Option: Numeric

LAW 867 Corporate Fraud
Units: 2, 3, 4 Terms Offered: FaSpSm Introduces law students to the real world issues of major civil and criminal corporate fraud. Instruction Mode: Lecture Grading Option: Numeric

LAW 868 Organizational Ombuds
Units: 2 Terms Offered: FaSp Provides practical foundation in the theories, policies and ethical issues of ombuds practice in a variety of workplaces. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 869 Family Law Mediation Clinic
Units: 2, 4 Teaches the skills and substantive area of the law necessary to successfully mediate cases in the Edelman Children's courthouse in Monterey Park. Prerequisite: LAW 630 Registration Restriction: Open only to Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 870 Legal Writing Fellows
Units: 1, 2, 3, 4 Max Units: 7.0 Terms Offered: FaSpSm Assist in teaching writing and advocacy. Responsibilities include helping prepare lesson plans and drafting writing assignments and sample answers; leading class exercises; and judging first-year moot court practice rounds. Instruction Mode: Lecture Grading Option: Credit/No Credit

LAW 871 First Amendment
Units: 2, 3, 4 Terms Offered: FaSp Freedom of expression (political speech, symbolic expression, obscenity, commercial speech, defamation), rights of the media, religious protection and prohibition of establishment of religion. Instruction Mode: Lecture Grading Option: Numeric

LAW 872 Advanced Legal Writing and Advocacy: Appellate Advocacy
Units: 1, 2, 3, 4 Terms Offered: FaSp Students will research, write, and argue an appellate brief and may work on motions and oral advocacy as well. Instruction Mode: Lecture Grading Option: Numeric

LAW 873 Judicial Opinion Writing
Units: 2, 3, 4 Students write a majority opinion and a dissenting opinion based on cases pending before the U.S. Supreme Court. This is a writing-intensive course. Instruction Mode: Lecture Grading Option: Numeric

LAW 875 Constitutional Theory Seminar
Units: 1, 2, 3, 4 Seminar course devoted to different methods of reading the Constitution. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 880 Equality and Difference
Units: 2, 3 Comparative look at the legal treatment of religious, racial, cultural, gender and sexual differences and differences in physical and mental ability. Registration Restriction: Open only to USC Gould School of Law students Instruction Mode: Lecture Grading Option: Numeric

LAW 881 Constitutional Innovation
Units: 2, 3, 4 Examines the U.S. Constitution in transnational perspective. The focus is democracy, slavery, emancipation, and freedom; empire; and
governmental structures. Instruction Mode: Lecture Grading Option: Numeric

LAW 882 Advanced Legal Writing for Pretrial Practice
Units: 2, 3
The art of persuasive legal writing: how to strategize, analyze and ultimately persuade through the types of writing routinely crafted by litigators. Registration Restriction: Open only to USC Gould School of Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 883 Advanced Legal Writing for Business Lawyers
Units: 2
Students interested in business law and other transactional practice areas will develop the skills to communicate clearly, concisely and correctly in a business law setting. Registration Restriction: Open only to USC Gould School of Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 885 Advanced Legal Writing: A Partnership with Public Counsel
Units: 2
Write office memoranda and sample pleadings modeled after real legal issues faced by attorneys at Public Counsel. Registration Restriction: Open only to USC Gould School of Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 887 Religious Freedom and its Limits
Units: 2, 3
Surveys constitutional doctrines pertaining to the Free Exercise and Establishment Clauses of the First Amendment and the emergent doctrine regarding the application of the federal Religious Freedom Restoration Act and its state offspring. Instruction Mode: Lecture Grading Option: Numeric

LAW 888 First Amendment: Law and Religion
Units: 1, 2, 3
Explores the laws that govern and affect religious groups and religious belief-systems and religious experience in the United States. Instruction Mode: Lecture Grading Option: Numeric

LAW 890 Directed Research
Units: 1, 2, 3, 4
One CR/F unit for a research proposal approved by a full- or part-time faculty supervisor; up to four graded units with academic dean's approval who wish to continue their clinical training. Registration Restriction: Open only to USC Gould School of Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 891 Post-Conviction Justice Project I
Units: 1, 2, 3, 4
A year-long clinical program where second and third year students provide legal representation to men and women serving life sentences in California prisons. Under faculty supervision students represent clients on a variety of post-conviction matters, including parole hearings, state and federal habeas petitions, clemency applications and resentencing hearings and appeals. Experiential units. Registration Restriction: Open only to USC Gould School of Law students. Instruction Mode: Lecture Grading Option:Numeric

LAW 892 Post-Conviction Justice Project II
Units: 1, 2, 3, 4
Sp Continuation of LAW 891. Experiential units. Prerequisite: LAW 891 Registration Restriction: Open only to USC Gould School of Law students Duplicates Credit in LAW 895 Instruction Mode: Lecture Grading Option: Numeric

LAW 893 Advanced Clinical Training
Units: 1, 2, 3, 4, 5
Max Units: 10.0
Terms Offered: FaSp For third-year students who wish to continue their clinical training. Instruction Mode: Lecture Grading Option: Numeric

LAW 894 Advanced Mediation Clinic
Units: 1, 2, 3, 4
Max Units: 8
Students learn mediation skills, conduct live mediations and help to run the regular Mediation Clinic. Registration Restriction: Open only to USC Gould School of Law students. Instruction Mode: Lecture Grading Option: Numeric

LAW 895 Post-Conviction Justice Project II (Writing)
Units: 1, 2, 3, 4, 5
Terms Offered: Sp Alternate continuation of LAW 891 , fulfilling the Writing requirement. Prerequisite: LAW 891 Registration Restriction: Open only to USC Gould School of Law students Duplicates Credit in LAW 892. Instruction Mode: Lecture Grading Option: Numeric

Library and Information Management

LIM 500 Fundamentals of Library and Information Science
Units: 3
Terms Offered: FaSpSm An overview of the history of recorded knowledge from ancient times to the digital age informed by the cultural implications of those eras. Open only to MMLS students. Registration Restriction: Open only to Library and Information Science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 501 Fundamentals of Library Leadership and Management
Units: 3
Terms Offered: FaSpSm Fundamentals of library leadership and management from past, present and future perspectives, including selected case studies. Registration Restriction: Open only to Library and Information Science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 502 Collection Development and Management
Units: 3
Terms Offered: FaSpSm The development of library collections in all formats emphasizing clientele interest, usage patterns, bibliographical and Website sources. Open only to MMLS students. Instruction Mode: Lecture Grading Option: Letter

LIM 503 Information Description, Organization, and Retrieval
Units: 3
Terms Offered: FaSpSm An overview and critical analysis of current practices of information organization, cataloguing, access and reference services, including a conceptual understanding of these skills. Registration Restriction: Open only to Library and Information Science students Instruction Mode: Lecture Grading Option: Letter

LIM 504 Research Methods in Library and Information Management
Units: 3
An overview of research methods in information management including the conceptualization of research problems, literature reviews, research design, sampling, measurement, data collection and data analysis. Open only to MMLS students. Registration Restriction: Open only to Library and Information Science students. Instruction Mode: Lecture Grading Option: Letter

LIM 510 Academic Librarianship
Units: 3
An examination of current research and future trends in academic librarianship, emphasizing the necessary partnership among information culture and technology, academic research and instruction. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Registration Restriction: Open only to Library and Information Science students. Instruction Mode: Lecture Grading Option: Letter

LIM 511 Instructional Strategies for Information Professionals
Units: 3
Terms Offered: FaSpSm An overview of research in learning emphasizing the role of academic librarians as instructors and facilitators of information navigation. Prerequisite: GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to Library and Information Management/Science students Instruction Mode: Lecture Grading Option: Letter

LIM 512 Instructional Technologies for Educators
Units: 3
An overview and critical analysis of past and current instructional technologies used primarily in academic libraries. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 520 Library Information Systems Analysis and Design
Units: 3
The analysis and design of information systems from the perspectives of information theory, technology, retrievability, storage and shelf life, copyright, privacy and related issues. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 521 Database Management Systems for Information Professionals
Units: 3
An overview of and instruction in the skills required to build library and archival relational databases including data integrity, security, maintenance and extraction. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 522 Metadata and Taxonomies
Units: 3
Terms Offered: FaSpSm An overview of developing and assuring metadata for digital resources including the different types of metadata schema, data dictionaries, taxonomies and emerging metadata standards. Prerequisite: GSBA 502 and GSBA 509 and GSBA 510 and
LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 523 Information Delivery in the Digital Environment
Units: 3 An inventory and description of digital competencies, assessments and techniques followed by instruction, practice and testing of these competencies in simulated situations. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 530 Library Resource Management
Units: 3 An overview and assessment of planning, design, allocation and implementation of library finance and resource distribution in a variety of settings. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 531 Global Perspectives in Librarianship
Units: 3 An investigation of the theory and practice of librarianship in the context of international approaches to knowledge creation, research, learning, information discovery and presentation. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 532 The Social Context of Information
Units: 3 An examination of information in the context of social networks, media, and other cultural structures that inform teaching, learning and research. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 534 Library Fundraising and Development
Units: 3 Terms Offered: FaSpSm An overview of fundraising and development including the internal organization of the fundraising and development enterprise, the cultivation of donors and related issues. Prerequisite: GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 535 Library Information Sources and Services
Units: 2 Terms Offered: FaSpSm Overview of concepts, components and developments in reference and user services. Prerequisite: Core courses in a technological environment to think critically about information and become better information seekers and users. Registration Restriction: Open only to library and information management/science students. Instruction Mode: Lecture Grading Option: Letter

LIM 536 Library Project Management
Units: 2 Terms Offered: FaSpSm Working in teams and delivering effective presentations. Prerequisite: Open only to library and information management/science students. Instruction Mode: Lecture Grading Option: Letter

LIM 537 Legal, Ethical and Strategic Fundamentals for Library Managers
Units: 2 Terms Offered: FaSpSm Evidence-based decision making, assessment, legal and ethical frameworks and scenario planning applied to leadership and management competencies in library environments. Prerequisite: LIM 536 Registration Restriction: Open only to library and information management/science students. Instruction Mode: Lecture Grading Option: Letter

LIM 550 Information Behaviors, Ethics and Policy
Units: 3 Terms Offered: FaSpSm A study of information behaviors, policies and ethics including social networks, the interactive effects of information on users, users on information. Prerequisite: GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to library and information management/science majors. Instruction Mode: Lecture Grading Option: Letter

LIM 551 Advanced Research Methods in Library and Information Management
Units: 3 Building on LIM 504, this course provides advanced research methods and analytical techniques and the application of these skills to complex library issues. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 552 Strategic Information and Competitive Analysis
Units: 3 Terms Offered: FaSpSm Searching sophisticated for-fee and free sources of information unique to particular industry client groups, synthesizing and translating information ethically to critical intelligence. Prerequisite: GSBA 502 and LIM 500 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to MMLIS and GCRT-LIM students. Instruction Mode: Lecture Grading Option: Letter

LIM 553 Corporate and Business Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in corporate librarianship, including collection development and management, access, reference and service patterns. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 554 Science Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in science librarianship, including collection development and management, access, reference and service patterns. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 555 Social Science Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in social science librarianship, including collection development and management, access, reference and service patterns. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 556 Health Sciences Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in health sciences librarianship, including collection development and management, access, reference and service patterns. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 557 Cinematic Arts Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in cinematic arts librarianship, including collection development and management, access, reference and service patterns. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 558 Art and Museum Librarianship
Units: 3 An examination and critical analysis of resources, research and literature in art and museum librarianship including collection development and management, access, reference and service patterns. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 559 Marketing and Communications Strategies for Libraries
Units: 3 An introduction to essential marketing concepts such as brand platform, value proposition and message development and their application in a library environment. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 560 Rare Books and Manuscripts
Units: 3 An overview of the organization, management, public and technical service operations and outreach involved in the development and operation of rare and special collections. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 561 Library Program Development and Evaluation
Units: 3 An overview of library program development and evaluation with an emphasis upon linking student learning outcomes to library programs. Qualitative and quantitative methods are covered. Prerequisite: GSBA 502, LIM 500, LIM 501, LIM 502, LIM 503, LIM 504. Instruction Mode: Lecture Grading Option: Letter

LIM 562 Library and Information Technology Management
Units: 3 Terms Offered: FaSpSm Overview of management of library information technologies including computer networks, design, architecture, online databases, data management and technology planning as well as emerging technologies. Prerequisite: GSBA 502 and GSBA 509 and GSBA 510 and LIM 500 and LIM 502 and LIM 503 and LIM 504 Registration Restriction: Open only to MMLIS and GCRT-LIM students.
by brain damage. Prerequisite: LING 210 or PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-406

LING 407 Atypical Language
Units: 4 Analysis of atypical language and language pathologies throughout the lifespan and their relevance to current linguistic and cognitive science theory. Prerequisite: LING 210 or PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-407

LING 409 Linguistic Structure of English Units: 3 An overview of the syntactic, semantic, pragmatic structures of English as they relate to the theoretical literature on language acquisition. Instruction Mode: Lecture Grading Option: Letter

LING 410 Second Language Acquisition Units: 4 Theories of second language acquisition in children and adults; comparison of first and second language acquisition including psychological, social, and individual factors. Prerequisite: LING 210. Duplicates Credit in former LING 396. Instruction Mode: Lecture Grading Option: Letter

LING 411x Linguistics and Education Units: 4 Practical classroom approaches to children's language; relationships between writing, reading, and speaking; social and regional dialects; traditional, structural, and generative-transformational grammars. Instruction Mode: Lecture Grading Option: Letter

LING 412 Language and Law Units: 4 Principles of semantics; analysis of speech acts including informing, promising, threatening, warning; linguistic analysis of consumer contracts and advertisements; readability studies. Instruction Mode: Lecture Grading Option: Letter

LING 415 Phonetics Units: 4 Familiarization with the articulation and transcription of speech sounds. Also vocal tract and anatomy, acoustics, speech technology, non-English sounds, perception. Includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter

LING 433 Children's Learning and Cognitive Development Units: 4 (Enroll in PSYC 433)

LING 450 New Horizons in Forensic Speaker Identification Units: 4 Overview of methods used to identify voices on the basis of their characteristic speech patterns. Instruction Mode: Lecture Grading Option: Letter

LING 465 Philosophy of Language Units: 4 (Enroll in PHIL 465)

LING 466 Word and Phrase Origins Units: 4 Introduction to historical-comparative word study; history of ideas concerning language relationships; types of semantic change; hidden metaphors in English word-stock. Instruction Mode: Lecture Grading Option: Letter

LING 480 Linguistic Structures Units: 4 Analysis of grammatical structures of an individual language. Instruction Mode: Lecture, Discussion Grading Option: Letter

LING 485 Field Methodology Units: 4 Elicitation techniques and methodological principles; recording and analysis of phonological, syntactic, and semantic structures; practical approaches to procedures used in urban, rural, and "primitive" settings. Instruction Mode: Lecture Grading Option: Letter

LING 486 Natural Language Processing Units: 4 Introduction to modern neural network approaches to natural language processing, based on Deep Learning. Recursive and recurrent neural networks: backpropagation; Ngram models. Prerequisite: LING 385Lg Instruction Mode: Lecture Grading Option: Letter

LING 487 Speech Synthesis and Recognition Units: 4 Introduction to speech synthesis and speech recognition technologies from both a phonetics point of view and a computational point of view. Prerequisite: LING 285Lg Instruction Mode: Lecture Grading Option: Letter

LING 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSp Analysis Instruction Mode: Lecture Grading Option: Letter

LING 497 Honors Thesis Units: 4 Terms Offered: FaSp Writing of the honors thesis. Registration is restricted to honors students. Instruction Mode: Lecture Grading Option: Letter

LING 499 Special Topics Units: 2, 3, 4 Max Units: 8.0 Investigation of selected topics in linguistics. Instruction Mode: Lecture Grading Option: Letter

LING 501a Experimental Methods in Linguistics Units: 3 Univariate and bivariate statistical methods with applications to linguistic research; introduction to statistical computer packages. Prerequisite: LING 501a. Duplicates Credit in former LING 601. Instruction Mode: Lecture Grading Option: Letter

LING 501b Experimental Methods in Linguistics Units: 3 The application of advanced multivariate statistical methods to linguistic research. Prerequisite: LING 501a. Duplicates Credit in former LING 601. Instruction Mode: Lecture Grading Option: Letter

LING 505a Seminar in Linguistics Units: 1 Exploration of the professional world of linguistics for first semester graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 505b Seminar in Linguistics Units: 1 Preparation and presentation of M.A./Ph.D. screening papers; discussion of student research. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 512 Linguistic Variation and Language Changes Units: 3 Terms Offered: Fa Linguistic relationships among various correlates of variation: social, psychological, and chronological. Focus on dialectal, registral, and historical variation; the constraints of production and perception in

</table>
principles for the long-term development of effective teaching within college disciplines. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 595 Directed Readings
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

LING 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Research trends as reflected primarily in the current periodical literature. Instruction Mode: Lecture Grading Option: Letter

LING 602 Seminar in Experimental Methods in Linguistics
Units: 3 Topics in quantitative methods in linguistics research, e.g., covariance structure analysis, multi-dimensional scaling, log linear model, meta analysis. Instruction Mode: Lecture Grading Option: Letter

LING 610 Seminar in Linguistic Theory
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

LING 615 Seminar in Linguistics Structures
Units: 3 Max Units: 12.0 Terms Offered: Fa Analysis of the synchronic or diachronic phonology, morphology, and syntax of individual languages. Instruction Mode: Lecture Grading Option: Letter

LING 627 Seminar in Second Language Acquisition
Units: 3 Max Units: 12.0 Terms Offered: FaSp Readings in second language acquisition as the framework for a discussion and research-oriented seminar. Instruction Mode: Lecture Grading Option: Letter

LING 631 Seminar in Phonological Theory
Units: 3 Max Units: 12.0 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter

LING 632 Seminar in Phonetics
Units: 3 Max Units: 12.0 Terms Offered: FaSp Readings in phonetic theory and current research as the framework for a discussion-oriented class. Prerequisite: LING 580. Instruction Mode: Lecture Grading Option: Letter

LING 635 Seminar in Syntax
Units: 3 Max Units: 12.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

LING 636 Seminar in Semantics
Units: 3 Max Units: 12.0 Terms Offered: Fa Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHIL-636

LING 645 Seminar in Language Change
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

LING 675 Seminar in Sociolinguistics
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter

LING 676 Seminar in Psycholinguistics
Units: 3 Max Units: 12.0 Terms Offered: Sp Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC-676

LING 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

LING 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

LING 794e Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Materials Science

MASC 110L Materials Science
Units: 4 Terms Offered: FaSpSm Chemical bonding and structure in crystalline, amorphous, and molecular solids; tendency and mechanisms for chemical change; homogeneous and heterogeneous equilibria. Prerequisite: high school chemistry. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 310 Materials Behavior and Processing
Units: 4 Terms Offered: FaSpSm Principles of mechanical behavior and processing of materials. Relationships between mechanical properties, microstructure and processing methods. Composites and nonmetals included. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 312

MASC 334L Mechanical Behavior of Materials
Units: 4 Terms Offered: Fa (Enroll in CE 334L)

MASC 350L Nanostructured Materials: Design, Synthesis and Processing
Units: 4 Terms Offered: Fa Structure, properties, synthesis, processing and design of metallic, ceramic, polymeric, electronic, photonic, composite, nanophase and biomaterials; nanostructures, microfabrication and smart materials. Prerequisite: CHEM 105aLg or CHEM 115aLg or MASC 110Lg and PHYS 152L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 439 Principles of Semiconductor Processing
Units: 3 Principles relevant to semiconductor processing are covered. Topics include bulk and epitaxial crystal growth, photolithography, evaporation, sputtering, etching, oxidation, alloying, and ion implantation. Prerequisite: MASC 110, EE 338. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 439

MASC 440 Materials and the Environment
Units: 3 Terms Offered: Sp Interactions of metals, alloys and composite materials with liquid and gaseous environments; corrosion protection by alloying and application of inhibitors and metallic or organic coatings. Instruction Mode: Lecture Grading Option: Letter

MASC 455 Computational Materials II: Introduction to Atomistic Simulation
Units: 4 Terms Offered: FaSp Introduction to materials modeling using molecular dynamics simulation methods that include interatomic potentials, and hands-on materials simulation projects on high-performance computing cluster at USC. Recommended Preparation: Introductory differential and integral calculus. Instruction Mode: Lecture Grading Option: Letter

MASC 456 Computational Materials II: Properties and Processing Simulations
Units: 4 Terms Offered: FaSp Computational modeling and simulations of materials and processes using MD simulations, three simulation projects that include structural, thermodynamic, mechanical behavior, and data analysis Prerequisite: MASC 455 Recommended Preparation: Introductory calculus and basic knowledge of metals, ceramics and polymers Instruction Mode: Lecture Grading Option: Letter

MASC 471 Applied Quantum Mechanics for Engineers
Units: 4 (Enroll in EE 471)

MASC 472 Polymer Science and Engineering
Units: 4 Terms Offered: Fa (Enroll in CHE 472)

MASC 475 Physical Properties of Polymers
Units: 4 Terms Offered: Sp (Enroll in CHE 475)

MASC 476 Chemical Engineering Materials
Units: 4 Terms Offered: Fa (Enroll in CHE 476)

MASC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Course content will be selected each semester to reflect current trends and developments in the field of materials science. Instruction Mode: Lecture Grading Option: Letter

MASC 501 Solid State
Units: 4 Terms Offered: Sp Atomic electronic states, molecular bonding, crystal structures, diffraction, reciprocal lattice, Brillouin zones, crystal binding, lattice vibrations, specific heat, anharmonic effects, energy bands, metals, conductivity. Prerequisite: EE 471 or EE 539 Recommended Preparation: Graduate level mathematical methods (such as vector analysis, linear algebra, complex variables, transforms, ordinary and partial second order differential equations, etc.) for engineers Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE 501
MASC 502 Advanced Solid State
Units: 3 Terms Offered: Fa Semiconductors, dielectrics and metals, thermoelectric effects, magnetic, magnetic resonance and superconductivity, Principles of MASC 501, Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-502

MASC 503 Thermodynamics of Materials
Units: 4 Terms Offered: Fa Classical thermodynamics, chemical potential, pure phases and mixtures; interface phase relationships; binary and ternary solutions; free energy and activity; galvanic cell, electrochemical potential and Pourbaix diagram, Instruction Mode: Lecture Grading Option: Letter

MASC 504 Diffusion and Phase Equilibria
Units: 4 Terms Offered: Sp Phase equilibria, phase diagrams, diffusion, planar defects, nucleation and growth, spinodal decomposition, phase transformation, Principles of MASC 503 Instruction Mode: Lecture Grading Option: Letter

MASC 505 Crystals and Anisotropy
Units: 3 Terms Offered: Fa Stereographic projection, Laue back reflection method; crystal orientation; line and planar crystalline defects; tensors; susceptibility; permeability and permittivity; stress and strain; piezoelectricity; elasticity, Instruction Mode: Lecture Grading Option: Letter

MASC 506 Semiconductor Physics
Units: 4 Terms Offered: FaSp (Enroll in EE 506)

MASC 507 Micro- and Nano-Fabrication Technology
Units: 4 Terms Offered: Sp (Enroll in EE 507)

MASC 511 Materials Preparation
Units: 3 Principles and techniques of materials preparation: purification; crystal growth from liquid and vapor phases, sintering, Principles of MASC 504, Instruction Mode: Lecture Grading Option: Letter

MASC 512 Thin Film Science and Technology
Units: 4 Terms Offered: Fa Application of thin film science and technology; vapor phase growth of thin films, their characterization, properties and applications. Recommended Preparation: Upper-division or graduate-level preparation in thermodynamics and quantum mechanics or solid-state physics, Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

MASC 514L Processing of Advanced Semiconductor Devices
Units: 3 Terms Offered: Fa Statistical design of experiments, vapor deposition of thin film dielectrics, plasma etching, advanced lithography, in-situ sensors, process monitoring, quality control, assurance/reliability, Principles of EE 504, Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 515 Basics of Machine Learning for Materials
Units: 4 Terms Offered: Sp Introduction to machine learning, basics of python programming and data science tools; hands-on projects of materials and process modeling based on machine learning methods. Recommended Preparation: Basic Python programming, Calculus, Linear Algebra, and Probability, Basic knowledge of atomic simulations (MASC 575 and MASC 576) Instruction Mode: Lecture Grading Option: Letter

MASC 520 Mathematical Methods for Deep Learning
Units: 4 Terms Offered: Sp Understanding deep learning for PhD students in engineering, physical and life sciences and computer science with mathematical background, Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 520, PTE 520

MASC 523 Principles of Electrochemical Engineering
Units: 3 Techniques and mechanisms in Electrochemical Engineering, Principles of MASC 524 Instruction Mode: Lecture Grading Option: Letter

MASC 524 Techniques and Mechanisms in Electrochemical Engineering
Units: 3 Modern electrochemistry; in-situ techniques; in-situ probes of the near-electrode region; ex-situ emersion techniques; cyclic voltammetry, electrodeposition, electrochemical reduction, reactive film formation, enzyme electrochemistry, Instruction Mode: Lecture Grading Option: Letter

MASC 534 Materials Characterization
Units: 3 Characterization of solids by optical microscopy, electron microscopy, (TEM, SEM) and elemental and structural analysis (EPMA, ESCA, AES, SIMS, HEED, LEED, SED), Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-534

MASC 535L Transmission Electron Microscopy
Units: 4 Transmission electron microscopy and techniques. Specimen-electron beam interaction, electron diffraction and image formation by microanalysis. Laboratory involves hands-on training on the transmission electron microscope. Recommended Preparation: MASC 505, duplicate credit in former MASC 535L, Instruction Mode: Lecture, Lab Required Grading Option: Letter

MASC 539 Engineering Quantum Mechanics
Units: 3 (Enroll in EE 539)

MASC 551 Mechanical Behavior of Engineering Materials
Units: 4 Terms Offered: FaSp Mechanical properties of materials; macroscopic mechanical behavior related to structure and microstructure of the material; elementary dislocation theory related to basic strengthening mechanisms; fatigue and fracture, Principles of MASC 550, Recommended Preparation: Undergraduate introduction to chemistry and the equivalent of MASC 510 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 551

MASC 559 Creep
Units: 3 Terms Offered: Sp Behavior of engineering materials at elevated temperatures; thermal stresses; creep mechanisms; interpretation of creep data; methods of predicting long-term strains. Duplicate Credit in former AME 559 Instruction Mode: Lecture Grading Option: Letter

MASC 560 Fatigue and Fracture
Units: 3 Terms Offered: Sp Behavior of materials under cyclic and static fatigue; plastic instability; life-time predictions; brittle and ductile fracture; crack propagation and plastic blunting. Duplicate Credit in former AME 560 Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 560

MASC 575 Basics of Atomistic Simulation of Materials
Units: 4 Terms Offered: FaSp Introduction to atomistic modeling and simulations of materials using Molecular Dynamics and Monte Carlo methods, basic concepts and how to characterize materials properties, Instruction Mode: Lecture Grading Option: Letter

MASC 576 Molecular Dynamics Simulations of Materials and Processes
Units: 4 Terms Offered: FaSp Modeling of materials and processes such as mechanical, thermodynamical, and transport properties using Molecular Dynamics simulation, principles and examples including long-range coulomb interactions and quantum corrections, Principles of MASC 575 Recommended Preparation: Basics of Molecular Dynamics Instruction Mode: Lecture Grading Option: Letter

MASC 580B Pattern Generation and Processing
Units: 4 Terms Offered: FaSp Pattern generation and processing for digital microfabrication, Principles of MASC 580 Instruction Mode: Lecture Grading Option: Letter

CHE-523 Chemical Engineering Thermodynamics
Units: 4 Terms Offered: Fa Characterization of solids by optical microscopy, electron microscopy, (TEM, SEM) and elemental and structural analysis (EPMA, ESCA, AES, SIMS, HEED, LEED, SED), Instruction Mode: Lecture Grading Option: Letter

CHE 1058 Introduction to Molecular Dynamics
Units: 4 Terms Offered: Fa Characterization of solids by optical microscopy, electron microscopy, (TEM, SEM) and elemental and structural analysis (EPMA, ESCA, AES, SIMS, HEED, LEED, SED), Instruction Mode: Lecture Grading Option: Letter

MASC 583 Materials Selection  
Units: 4  
Terms Offered: F  
Grading Option:  
The degree Engineer in Materials Science.  
Study of specific problems by candidates for  
Units:  
MASC 690 Directed Research  
Units: 1, 2, 3, 4, Max Units: 8.0  
Laboratory study of specific problems by candidates for  
The degree Engineer in Materials Science.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

MASC 584 Fracture Mechanics and Mechanisms  
Units: 3  
Terms Offered: F  
Grading Option:  
Failure modes, stress concentrations, complex stress  
Analysis, linear elastic fracture mechanics, yielding fracture mechanics, experimental  
methods, environmental assisted fracture and fatigue.  
Prerequisite: AME 403  
Duplicates Credit in former AME 584  
Instruction Mode: Lecture  
Grading Option: Letter  
Crosslisted as AME 584

MASC 590 Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  
Research leading to the master's degree.  
Maximum units which may be applied to the degree to be determined by the department.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

MASC 594a Master's Thesis  
Units: 2  
Grading Option:  
For the master's degree.  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

MASC 594b Master's Thesis  
Units: 2  
Grading Option:  
For the master's degree.  
Credit on acceptance of thesis.  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

MASC 594z Master's Thesis  
Units: 0  
Grading Option:  
For the master's degree.  
Credit  
Instruction Mode: Lecture  
Grading Option: In-progress to Credit/No Credit

MASC 598 Materials Science Seminar  
Units: 1  
Max Units: 0.2  
Seminar in Materials Science research.  
Instruction Mode: Lecture  
Grading Option: Credit/No Credit

MASC 599 Special Topics  
Units: 2, 3, 4  
Max Units: 9  
Instruction Mode: Lecture  
Grading Option: Letter

MASC 601 Advanced Semiconductor Device Physics  
Units: 4  
Terms Offered: Sp  
(Enroll in EE 601)

MASC 606 Nonequilibrium Processes in Semiconductors  
Units: 3  
Terms Offered: Sp  
(Enroll in EE 606)

MATH 108g Contemporary Precalculus  
Units: 4  
Terms Offered: F  
Grading Option:  
Equations and inequalities; functions; graphs; polynomial and rational functions; exponential, logarithmic, and trigonometric function; analytic geometry.  
Prerequisite: MATH 104 or passing of placement exam.  
Satisfies New General Education in Category F: Quantitative Reasoning  
Instruction Mode: Lecture, Discussion  
Grading Option: Letter

MATH 110g Fundamentals of Calculus  
Units: 4  
Terms Offered: FaSp  
Grading Option:  
Definite integral; fundamental theorem of calculus.  
Extrema and definite integrals for functions of several variables.  
Prerequisite: MATH 108 or MATH 117  
or placement exam in MATH.  
Satisfies New General Education in Category F: Quantitative Reasoning  
Instruction Mode: Lecture, Discussion  
Grading Option: Letter

MATH 125g Calculus I  
Units: 4  
Terms Offered: FaSpSm  
Grading Option:  
Continuity, derivatives and applications; antiderivatives; the fundamental theorem of calculus; exponential and logarithmic functions.  
Prerequisite: MATH 108 or math placement exam.  
Satisfies New General Education in Category F: Quantitative Reasoning  
Instruction Mode: Lecture, Discussion  
Grading Option: Letter

MATH 126g Calculus II  
Units: 4  
Terms Offered: FaSpSm  
Grading Option:  
Applications of integration, review of techniques of integration, infinite sequences and series, some beginning linear algebra, ordinary differential equations.  
Designed for students who earn a score of 4 or 5 on the Advanced Placement Calculus AB Examination, or a score of 3 or 4 on the BC Examination.  
Admission to course by departmental approval.  
Duplicates Credit in MATH 126g and MATH 129  
Instruction Mode: Lecture, Discussion  
Grading Option: Letter

MATH 127 Enhanced Calculus II  
Units: 4  
Terms Offered: FaSpSm  
Grading Option:  
Applications of integration, review of techniques of integration, infinite sequences and series, some beginning linear algebra, ordinary differential equations.  
Designed for students who earn a score of 4 or 5 on the Advanced Placement Calculus AB Examination, or a score of 3 or 4 on the BC Examination.  
Admission to course by departmental approval.  
Duplicates Credit in MATH 126g and MATH 129  
Instruction Mode: Lecture, Discussion  
Grading Option: Letter

MATH 200 Elementary Mathematics from an Advanced Standpoint  
Units: 4  
Terms Offered: FaSpSm  
Grading Option:  
An explanation of arithmetic and geometry, including the algebraic operations, number bases, plane and solid figures; and coordinate geometry.  
Prerequisite: MATH 104 or math placement exam.  
Instruction Mode: Lecture  
Grading Option: Letter

MATH 208x Elementary Probability and Statistics  
Units: 4  
Terms Offered: FaSpSm  
Grading Option:  
Descriptive statistics, probability, discrete and continuous random variables, expectation and variance, sampling, Central Limit Theorem, estimation, hypothesis testing, correlation and regression.  
Emphasis on health science.  
Prerequisite: MATH 118 or MATH 126  
Instruction Mode: Lecture  
Grading Option: Letter
MATH 225 Linear Algebra and Linear Differential Equations
Units: 4
Terms Offered: FaSp Matrices, systems of linear equations, vector spaces, linear transformations, eigenvalues, systems of linear differential equations. Prerequisite: MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 226g Calculus III
Units: 4
Terms Offered: FaSp Vectors, vector valued functions; differential and integral calculus of functions of several variables; Green's theorem, Divergence theorem, Stokes' theorem. Prerequisite: MATH 126g or MATH 127 or MATH 129 Satisfies New General Education in Category F: Quantitative Reasoning
Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 227 Enhanced Calculus III
Units: 4
Terms Offered: FaSp A continuation of MATH 127; vectors and vector spaces functions of several variables, partial differential equations, optimization theory, multiple integration; Green's Stokes', divergence theorems. Prerequisite: MATH 126, or MATH 127, or MATH 129. Duplicates Credit in MATH 226. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 229 Calculus III for Engineers and Scientists
Units: 4
Terms Offered: FaSp A continuation of MATH 129; vectors, vector valued functions; differential and integral calculus of functions of several variables; Green's theorem. Engineering and physics applications. Prerequisite: MATH 126, or MATH 127, or MATH 129. Duplicates Credit in MATH 226 and MATH 227. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 245 Mathematics of Physics and Engineering I
Units: 4
Terms Offered: FaSp First-order differential equations; second-order linear differential equations; determinants and matrices; systems of linear differential equations; Laplace transforms. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 265 Mathematical and Computational Methods for Neurosciences
Units: 4
Terms Offered: Irregular differential calculus of multivariable functions, optimization, elementary linear algebra and matrix theory, principal component analysis, elementary differential equations, systems, qualitative theory, numerical methods, scientific computation. Prerequisite: MATH 125g Recommended Preparation: MATH 126g or MATH 127 or MATH 129 or equivalent or AP credit for Calculus BC Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 307 Applied Algebra
Units: 4
Terms Offered: Irregular Induction, Euclidean algorithm, factorization, congruence classes, Rings, RSA algorithm, Chinese remainder theorem, codes, polynomials, fundamental theorem of algebra, polynomial multiplication, Fourier transform, and other topics. Prerequisite: MATH 226g or MATH 227 or MATH 229) and (MATH 225 or MATH 245) Instruction Mode: Lecture Grading Option: Letter

MATH 370 Probability Theory
Units: 4
Terms Offered: Sp Probability spaces, discrete and continuous distributions, moments, characteristic functions, sequences of random variables, laws of large numbers, central limit theorem, special probability laws. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 407 Mathematical Statistics
Units: 4
Terms Offered: Sp Principles for testing hypotheses and estimation, confidence intervals, methods of moments, maximum likelihood, information inequality, likelihood ratio tests, goodness of fit and nonparametric methods. Prerequisite: MATH 407 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 410 Fundamental Concepts of Modern Algebra
Units: 4
Terms Offered: FaSp Sets; relations; groups; homomorphisms; symmetric groups; Abelian groups; Sylow's theorems; introduction to rings and fields. Prerequisite: MATH 225; Recommended Preparation: One 400-level Mathematics course, excluding MATH 450. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 425a Fundamental Concepts of Analysis
Units: 4
Terms Offered: Sp The real number system, metric spaces, limits, continuity, derivatives and integrals, infinite series. Prerequisite: MATH 226g or MATH 227 or MATH 229 Recommended Preparation: one 400-level Mathematics course, excluding MATH 450 Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 432 Applied Combinatorics
Units: 4
Terms Offered: Sp Mathematical induction, counting principles, arrangements, selections, binomial coefficients, generating functions, recurrence relations, inclusion-exclusion, symmetric groups, graphs, Euler and Hamiltonian circuits, trees, graph algorithms; applications. Prerequisite: MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 438 Theory of Numbers
Units: 4
Terms Offered: Fa Introduction to the theory of numbers, including prime factorization, congruences, primitive roots, N-th power residues, number theoretic functions and certain diophantine equations. Prerequisite: MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 440 Topology
Units: 4
Terms Offered: Fa Cardinals, topologies, separation axioms. Compactness, metrizability, function spaces; completeness; Jordan curve theorem. Recommended Preparation: upper-division MATH course. Instruction Mode: Lecture Grading Option: Letter

MATH 450 Mathematical Logic
Units: 4
Terms Offered: Sp Logical functions, propositional calculus, predicate calculus, set theory, proof theory, number theory and combinatorics. Prerequisite: MATH 450 Instruction Mode: Lecture Grading Option: Letter

MATH 455 Number Theory
Units: 4
Terms Offered: Sp Number theory, including prime factorization, congruences, primitive roots, N-th power residues, number theoretic functions and certain diophantine equations. Prerequisite: MATH 126g or MATH 127 or MATH 129 Instruction Mode: Lecture Grading Option: Letter

MATH 465 Mathematical Analysis II
Units: 4
Terms Offered: Sp The Euclidean plane and its isometries. Models for the hyperbolic metric, isometries, linear fractional maps, geodesics. Gluing constructions. Knot theory and invariants. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 475 Mathematical Analysis III
Units: 4
Terms Offered: Sp The Euclidean plane and its isometries. Models for the hyperbolic metric, isometries, linear fractional maps, geodesics. Gluing constructions. Knot theory and invariants. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 475 Mathematical Analysis III
Units: 4
Terms Offered: Sp The Euclidean plane and its isometries. Models for the hyperbolic metric, isometries, linear fractional maps, geodesics. Gluing constructions. Knot theory and invariants. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter
MATH 445 Mathematics of Physics and Engineering II
Units: 4 Terms Offered: FaSp Vector field theory; theorems of Gauss, Green, and Stokes; Fourier series and integrals; complex variables; linear partial differential equations; series solutions of ordinary differential equations. Prerequisite: MATH 225 or (MATH 226 and MATH 226g) or (MATH 225 and MATH 227) or (MATH 225 and MATH 229). Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 471 Topics in Linear Algebra
Units: 4 Terms Offered: Sp Polynomial rings, vector spaces, linear transformations, canonical forms, inner product spaces. Prerequisite: MATH 225; Recommended Preparation: MATH 410. Instruction Mode: Lecture Grading Option: Letter

MATH 475 Introduction to Theory of Complex Variables
Units: 4 Terms Offered: Sp Complex numbers and functions. Power series, analytic functions, harmonic functions. Complex integration, Cauchy's theorem, Cauchy's formula. Conformal mapping. Applications in physics and engineering. Prerequisite: MATH 226g or MATH 227 or MATH 229 Instruction Mode: Lecture Grading Option: Letter

MATH 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MATH 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lectures on advanced material not covered in regularly scheduled courses. No more than two registrations allowed. Instruction Mode: Lecture Grading Option: Letter

MATH 500 Graduate Colloquium
Units: 2 Lectures directed to mathematicians graduate students by faculty of the department and by outside speakers. Problem solving workshops. Instruction Mode: Lecture Grading Option: Credit/No Credit

MATH 501 Numerical Analysis and Computation
Units: 3 Terms Offered: Sp Linear equations and matrices, Gauss elimination, error estimates, iteration techniques; contractive mappings, Newton's method; matrix eigenvalue problems; least-squares approximation, Newton-Cotes and Gaussian quadratures; finite difference methods. Prerequisite: linear algebra and calculus. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-501

MATH 502a Numerical Analysis
Units: 3 Terms Offered: Fa Computational linear algebra; solution of general nonlinear systems of equations; approximation theory using functional analysis; numerical solution of ordinary and partial differential equations. Prerequisite: MATH 425a and MATH 471. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-502A

MATH 502b Numerical Analysis
Units: 3 Terms Offered: Sp Computational linear algebra; solution of general nonlinear systems of equations; approximation theory using functional analysis; numerical solution of ordinary and partial differential equations. Prerequisite: MATH 425a and MATH 471. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-502B

MATH 504a Numerical Solution of Ordinary and Partial Differential Equations
Units: 3 Terms Offered: Sp Initial value problems; multistep methods, stability, automatic stepsize control, higher order methods, systems of equations, stiff problems; boundary value problems; eigenproblems. Prerequisite: MATH 501 or MATH 502a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-504A

MATH 504b Numerical Solution of Ordinary and Partial Differential Equations
Units: 3 Terms Offered: Fa Computationally efficient schemes for solving PDE numerically; stability and convergence of difference schemes, method of lines; fast direct and iterative methods for elliptic equations. Prerequisite: MATH 501 or MATH 502a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-504B

MATH 505a Applied Probability
Units: 3 Terms Offered: Fa Populations, permutations, combinations, random variables, distribution and density functions conditional probability and expectation, binomial, Poisson, and normal distributions; laws of large numbers, central limit theorem. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-505A

MATH 505b Applied Probability
Units: 3 Terms Offered: Sp Markov processes in discrete or continuous time; renewal processes; martingales; Brownian motion and diffusion theory; random walks, inventory models, population growth, queuing models, shot noise. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-505B

MATH 507a Theory of Probability
Units: 3 Terms Offered: Fa Probability spaces; distributions and characteristic functions; laws of large numbers, central limit problems; stable and infinitely divisible laws; conditional distributions. Prerequisite: MATH 525a or MATH 570. Instruction Mode: Lecture Grading Option: Letter

MATH 507b Theory of Probability
Units: 3 Terms Offered: Sp Dependence, martingales, ergodic theorems, second-order random functions, harmonic analysis, Markov processes. Instruction Mode: Lecture Grading Option: Letter

MATH 508 Filtering Theory
Units: 3 Terms Offered: Sp Random differential equations and stochastic stability; optimum linear and nonlinear filtering, with discussion of asymptotic behavior of filter. Prerequisite: MATH 507a. Instruction Mode: Lecture Grading Option: Letter

MATH 509 Stochastic Differential Equations
Units: 3 Brownian motion, stochastic integrals, the Ito formula, stochastic differential equations, and analysis of diffusion processes, Girsanov transformation, Feynmann-Kac formula, applications. Prerequisite: MATH 505a, MATH 505b or MATH 507a, MATH 507b. Instruction Mode: Lecture Grading Option: Letter

MATH 510a Applied Analysis
Units: 3 Terms Offered: Fa Group Theory: Isomorphism theorems, group actions, Sylow's theorems, simple and solvable groups; Field Theory: Galois correspondence, radical extensions, algebraic and transcendental extensions, finite fields. Prerequisite: MATH 410, MATH 471. Instruction Mode: Lecture Grading Option: Letter
MATH 510b Algebra
Units: 3
Terms Offered: Sp
Commutative Algebra: Integrity, Hilbert Basis theorem, Hilbert Nullstellensatz; Modules: modules over PIDs, chain conditions, tensor products; Noncommutative Rings: Jacobson radical, Artin-Wedderburn theorem, Maschke's theorem. Prerequisite: MATH 410, MATH 471. Instruction Mode: Lecture Grading Option: Letter

MATH 511a Data Analysis
Units: 4 (Enroll in PM 511a) Instruction Mode: Lecture, 3 hours; laboratory, 1 hour.

MATH 511b Data Analysis
Units: 4 (Enroll in PM 511b)

MATH 512 Financial Informatics and Simulation (Computer Labs and Practitioner Seminar)
Units: 3
Terms Offered: FaSp Experimental laboratory trading for financial markets using double auctions: handling statistical packages for data analysis. Practical training in virtual market environments, using financial trading system software. Instruction Mode: Lecture, Discussion Grading Option: Letter

MATH 520 Complex Analysis
Units: 3
Terms Offered: Sp
Theory of analytic functions — power series and integral representations, calculus of residues, harmonic functions, normal families, approximation theorems, conformal mapping, analytical continuation. Prerequisite: MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 525a Real Analysis
Units: 3
Terms Offered: Fa
Measure and integration over abstract measure spaces, Radon-Nikodym theorem, Fubini's theorem, convergence theorems, differentiation. Prerequisite: MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 525b Real Analysis
Units: 3
Terms Offered: Sp
Metric spaces, contraction principle, category, Banach spaces, Riesz representation theorem, properties of Lp Hilbert spaces, orthogonal expansions, Fourier series and transforms, convolutions. Prerequisite: MATH 525a. Instruction Mode: Lecture Grading Option: Letter

MATH 530a Stochastic Calculus and Mathematical Finance
Units: 3
Stochastic processes revisited, Brownian motion, Martingale theory, stochastic differential equations, Feynman-Kac formula, binomial models, basic concepts in arbitrage pricing theory, equivalent Martingale measure. Recommended Preparation: MATH 225, MATH 407, Duplicates Credit in the former MATH 503. Instruction Mode: Lecture Grading Option: Letter

MATH 530b Stochastic Calculus and Mathematical Finance
Units: 3
Terms Offered: Sp
Advanced topics in stochastic analysis, asset pricing in continuous time, stochastic control, Hamilton-Jacobi-Bellman equations, incomplete markets, American options, exotic options, term structure of interest rates. Duplicates Credit in the former MATH 506. Instruction Mode: Lecture Grading Option: Letter

MATH 532 Combinatorial Analysis
Units: 3
Terms Offered: Fa
Inversion formulas, generating functions and recurrences, partitions, Stirling numbers, distinct representatives, Ramsey's theorem, graph theory, block designs, difference sets, finite geometrics, Latin squares, Hadamard matrices. Instruction Mode: Lecture Grading Option: Letter

MATH 533 Algebraic Combinatorics
Units: 3
Terms Offered: Irregular Walks in graphs, random walks, group actions on boolean algebras, Young diagrams and tableaux, the Matrix-Tree Theorem. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI 533

MATH 535a Differential Geometry
Units: 3
Terms Offered: Fa
Elementary theory of manifolds, Lie groups, homogeneous spaces, fiber bundles and connections. Riemannian manifolds, curvature and conjugate points, second fundamental form, other topics. Prerequisite: MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 535b Differential Geometry
Units: 3
Terms Offered: Sp
Elementary theory of manifolds, Lie groups, homogeneous spaces, fiber bundles and connections. Riemannian manifolds, curvature and conjugate points, second fundamental form, other topics. Prerequisite: MATH 440. Instruction Mode: Lecture Grading Option: Letter

MATH 540 Topology
Units: 3
Terms Offered: Sp
Initial and final topology, product, subspace, quotient topology, connectedness, compactness, compact spaces. Prerequisite: MATH 525a. Instruction Mode: Lecture Grading Option: Letter

MATH 541a Introduction to Mathematical Statistics
Units: 3
Terms Offered: Sp
Parametric families of distributions, sufficiency. Estimation: methods of moments, maximum likelihood, unbiased estimation. Comparison of estimators, optimality, information inequality, asymptotic efficiency. EM algorithm, jackknife and bootstrap. Prerequisite: MATH 505a or MATH 407 or MATH 408. Instruction Mode: Lecture Grading Option: Letter

MATH 541b Introduction to Mathematical Statistics
Units: 3
Terms Offered: Fa
Hypothesis testing, Neyman-Pearson lemma, generalized likelihood ratio procedures, confidence intervals, consistency, power, jackknife and bootstrap. Monte Carlo Markov chain methods, hidden Markov models. Prerequisite: MATH 541a. Instruction Mode: Lecture Grading Option: Letter

MATH 542 Analysis of Variance and Design
Units: 3
Terms Offered: Sp
Least squares estimation in the linear model, analysis of variance and covariance, F-test, multiple comparisons, multiple regression, selection of variables; introduction to experimental design. Recommended Preparation: Linear algebra, multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter

MATH 543 Nonparametric Statistics
Units: 3
Terms Offered: Irregular
Distribution-free methods for comparisons of two or more samples, tests of randomness, independence, goodness of fit; classification, regression. Comparison with parametric techniques. Recommended Preparation: Multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 543

MATH 544L Multivariate Analysis
Units: 3
Terms Offered: SpSm (Enroll in PM 544L)

MATH 545 Introduction to Time Series
Units: 3
Terms Offered: Fa
Transfer function models; stationary, nonstationary processes; moving average, autoregressive models; spectral analysis; estimation of mean, autocorrelation, spectrum; seasonal time series. Recommended Preparation: Linear algebra, multivariable calculus, statistics Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 545

MATH 547 Mathematical Foundations of Statistical Learning Theory
Units: 3
Terms Offered: Fa
Binary classification, empirical risk minimization, support vector machines, voting algorithms and AdaBoost, Vapnik-Chervonenkis combinatorics, concentration-of-measure inequalities, sparse recovery problems, high-dimensional convex geometry. Prerequisite: MATH 407 or MATH 408 Instruction Mode: Lecture Grading Option: Letter

MATH 548 Sequential Analysis
Units: 3
Terms Offered: Sp
Sequential decision procedures: sequential probability-ratio tests, operating characteristic, expected sample size, two-stage procedures, optimal stopping, martingales, Markov processes; applications to gambling, industrial inspection. Prerequisite: MATH 407 or MATH 408 Instruction Mode: Lecture Grading Option: Letter

MATH 550 Sample Surveys
Units: 3
Terms Offered: Sp
Theory of sampling and design of sample surveys; bias and precision; finite populations; stratification; cluster sampling; multistage, systematic sampling; non-sampling errors. Prerequisite: MATH 208. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PM 550

MATH 555a Partial Differential Equations
Units: 3
Terms Offered: Fa
Second-order partial differential equations of elliptic, parabolic, and hyperbolic type; in particular, potential and wave equations. Prerequisite: MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 555b Partial Differential Equations
Units: 3
Terms Offered: Sp
Second-order partial differential equations of elliptic, parabolic, and hyperbolic type; in particular, potential and wave equations. Prerequisite: MATH 425a, MATH 425b. Instruction Mode: Lecture Grading Option: Letter

MATH 565a Ordinary Differential Equations
Units: 3
Terms Offered: Fa
Existence, uniqueness and continuation of solutions, differential inequalities, linear systems, Sturm-Liouville theory, boundary value problems, Poincare-Bendixon theory, periodic solutions, perturbations, stability,

**MATH 565b Ordinary Differential Equations**

- **Units:** 3
- **Terms Offered:** Sp
- **Prerequisite:** MATH 425a
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 570a Methods of Applied Mathematics**

- **Units:** 3
- **Terms Offered:** Fa
- **Prerequisite:** MATH 425a
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 570b Methods of Applied Mathematics**

- **Units:** 3
- **Terms Offered:** Sp
- **Prerequisite:** MATH 425b
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 578a Computational Molecular Biology**

- **Units:** 3
- **Terms Offered:** Sp
- **Prerequisite:** MATH 550a, MATH 541a
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 578b Computational Molecular Biology**

- **Units:** 3
- **Terms Offered:** Fa
- **Prerequisite:** MATH 525a
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 580 Introduction to Functional Analysis**

- **Units:** 3
- **Terms Offered:** Fa
- **Prerequisite:** MATH 570.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 585 Mathematical Theory of Optimal Control**

- **Units:** 3
- **Terms Offered:** Fa
- **Prerequisite:** MATH 570, MATH 525a
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**MATH 590 Directed Research**

- **Units:** 1, 2, 3, 4
- **Terms Offered:** FaSpSm
- **Prerequisite:** MATH 570.
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 592 Computational Molecular Biology Lab**

- **Units:** 2
- **Terms Offered:** Sp
- **Prerequisite:** MATH 577a, BISC 577b
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 594a Master's Thesis**

- **Units:** 2
- **Terms Offered:** FaSpSm
- **Prerequisite:** MATH 570
- **Instruction Mode:** Lecture
- **Grading Option:** In-progress to Credit/No Credit

**MATH 594b Master's Thesis**

- **Units:** 2
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** In-progress to Credit/No Credit

**MATH 594z Master's Thesis**

- **Units:** 1, 2, 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**MATH 596 Internship for Curricular Practical Training**

- **Units:** 1, 2, 3
- **Terms Offered:** FaSpSm
- **Prerequisite:** MATH 570.
- **Instruction Mode:** Lecture
- **Grading Option:** Credit/No Credit

**MATH 599 Special Topics**

- **Units:** 1, 2, 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 600 Topics in Numerical Analysis**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 601 Optimization Theory and Techniques**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 602 Galerkin Approximation Methods in Partial Differential Equations**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 605 Topics in Probability**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 606 Topics in Stochastic Processes**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 610 Topics in Algebra**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 612 Topics in Commutative Ring Theory**

- **Units:** 3
- **Terms Offered:** FaSpSm
- **Instruction Mode:** Lecture
- **Grading Option:** Letter

**MATH 613 Topics in Representation Theory**

- **Units:** 3
Irregular Structure and representation theory of various algebraic structures, such as groups, Lie algebras, Hopf algebras, algebraic groups, or group schemes.

**Prerequisite:** MATH 510a and MATH 510b

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 614 Topics in Algebraic Geometry**

Units: 3 Max Units: 12 Terms Offered: Irregular Introduction to both classical and modern aspects of algebraic geometry. Topics include aspects of commutative algebra, algebraic curves, algebraic varieties and schemes, and sheaf cohomology. **Prerequisite:** (MATH 510a and MATH 510b) or (MATH 535a and MATH 540) **Recommended Preparation:** Familiarity with some ideas of commutative algebra and algebraic geometry

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 620 Topics in Complex Analysis**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 625 Topics in Real Analysis**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 630 Topics in Number Theory**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 635 Topics in Differential Geometry**

Units: 3 Max Units: 12 Topics to be chosen from the following: geometry of complex manifolds, relations between topology and curvature, homogeneous spaces, symmetric spaces, geometry of submanifolds. **Prerequisite:** MATH 535a, MATH 535b. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 641 Topics in Topology**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 647 Topics in Statistics**

Units: 3 Max Units: 12 Terms Offered: Irregular Current methods, techniques, and results in statistics, data science and machine learning. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 650 Seminar in Statistical Consulting**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 655 Topics in Partial Differential Equations**

Units: 3 Max Units: 12 Terms Offered: FaSpSm Topics to be chosen from the following: Elliptic, Parabolic, Hyperbolic, and Dispersive PDEs, Conservation Laws, Mathematical Fluid Dynamics and Variational Methods. **Prerequisite:** MATH 525a; **Recommended Preparation:** MATH 555a. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 665 Topics in Ordinary Differential Equations**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 680 Nonlinear Functional Analysis**

Units: 3 Calculus in Banach spaces, degree theory, fixed point theorems. Study of compact, monotone, accretive and nonexpansive operators. **Prerequisite:** MATH 580. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 681 Selected Topics in Functional Analysis**

Units: 3 Max Units: 12 Course content will vary with professor and academic year offered. It will include topics of current interest in both linear and nonlinear functional analysis and their applications. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 685 Topics in Mathematical Control Theory**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 689 Topics in Mathematical Physics**

Units: 3 Max Units: 12 Terms Offered: Lecture

**Instruction Mode:** Lecture
**Grading Option:** Letter

**MATH 700 Seminar in Numerical Analysis**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 705 Seminar in Probability**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 710 Seminar in Algebra**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 725 Seminar in Analysis**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 730 Seminar in Number Theory**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 735 Seminar in Differential Geometry**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 740 Seminar in Topology**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 761 Seminar in Programming and Computability**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 765 Seminar in Ordinary Differential Equations**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 780 Seminar in Functional Analysis**

Units: 3 **Instruction Mode:** Lecture

**Grading Option:** Letter

**MATH 790 Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MATH 794a Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. **Instruction Mode:** Lecture

**Grading Option:** In-progress to Credit/No Credit

**MATH 794b Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. **Instruction Mode:** Lecture

**Grading Option:** In-progress to Credit/No Credit

**MATH 794c Doctoral Dissertation**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. **Instruction Mode:** Lecture

**Grading Option:** In-progress to Credit/No Credit

**Microbiology and Immunology**

**MBIO 310 Principles of Microbiology and Immunology**

Units: 2 Fundamental concepts of microbiology and immunology. Bacterial, viral and fungal diseases are correlated with host responses; oral manifestations of infectious disease. Emphasis on sanitation and sterilization. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MBIO 501 Immunology**

Units: 2 Fundamentals of immunology; basic immunopathology, especially concerning the oral cavity, including immunogenetics; hypersensitivities and inflammation; auto-immune diseases. **Instruction Mode:** Lecture

**Grading Option:** Letter

**Medical Biophysics**

**MBPH 550 Seminar in Medical Biophysics**

Units: 1 Max Units: 4 Terms Offered: FaSp Seminar course, in which students make oral and written presentations based on original research, published journal articles, or research proposals. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MBPH 590 Directed Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MBPH 594a Master's Thesis**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. **Instruction Mode:** Lecture

**Grading Option:** In-progress to Credit/No Credit

**MBPH 594b Master's Thesis**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. **Instruction Mode:** Lecture

**Grading Option:** In-progress to Credit/No Credit

**MBPH 594c Master's Thesis**

Units: 2 Terms Offered: FaSpSm Credit on acceptance of Thesis. **Instruction Mode:** Lecture

**Grading Option:** In-progress to Credit/No Credit

**MBPH 596 Internship for Curricular Practical Training**

Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least
one semester of enrollment in the graduate program. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MBPH 790 Research**

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12

Max Units: 12

Terms Offered: FaSpSm

**Registration Restriction:**

Open only to doctoral students

**Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MBPH 794a Doctoral Dissertation**

Units: 2

Terms Offered: FaSpSm

On acceptance of dissertation.

**Registration Restriction:**

Open only to doctoral students

**Instruction Mode:** Lecture

**Grading Option:** In Progress/Credit/No Credit

**MBPH 794b Doctoral Dissertation**

Units: 2

Terms Offered: FaSpSm

On acceptance of dissertation. **Prerequisite:** MBPH 794a

**Registration Restriction:**

Open only to doctoral students

**Instruction Mode:** Lecture

**Grading Option:** In Progress/Credit/No Credit

**MBPH 794c Doctoral Dissertation**

Units: 2

Terms Offered: FaSpSm

On acceptance of dissertation. **Prerequisite:** MBPH 794b

**Registration Restriction:**

Open only to doctoral students

**Instruction Mode:** Lecture

**Grading Option:** In Progress/Credit/No Credit

**MBPH 794d Doctoral Dissertation**

Units: 0

Terms Offered: FaSpSm

On acceptance of dissertation. **Prerequisite:** MBPH 794d

**Registration Restriction:**

Open only to doctoral students

**Instruction Mode:** Lecture

**Grading Option:** In Progress/Credit/No Credit

**Multidisciplinary Activities**

**MDA 200 American Popular Culture**

Units: 0

Terms Offered: Sm

Introduction to the popular culture of the United States, including basic history, geography, literature and the arts, as understood by generally well-educated young Americans. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 100a Introduction to the Health Professions**

Units: 1

Terms Offered: FaSp

Introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 100b Introduction to the Health Professions**

Units: 1

Terms Offered: FaSp

Introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 100c Introduction to the Health Professions**

Units: 1

Terms Offered: FaSp

Introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 100d Introduction to the Health Professions**

Units: 1

Terms Offered: FaSp

Introduction to the health professions, through lectures, discussions, clinical experiences, and visits to health care delivery sites; relationships with other clinicians and the community. Departmental approval required. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 101x Health Professions: Prospects and Preparation**

Units: 1

Terms Offered: Sp

Presentations by health professionals, introduced by faculty members from relevant academic units and followed by discussion with the speakers. **Recommended Preparation:** BISC 120 or BISC 220; CHEM 150aL. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 105g Cultural Forms and Values I**

Units: 4

Terms Offered: FaSp

Norms and patterns of civilizations associated with the Greco-Roman and European traditions and the legacy of those traditions in North America. Satisfies Old General Education in Category I: Western Cultures and Traditions. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 120 American Popular Culture**

Units: 3

Terms Offered: Sm

Introduction to the popular culture of the United States, including basic history, geography, literature and the arts, as understood by generally well-educated young Americans. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 125g Scientific Principles**

Units: 4

Terms Offered: FaSp

Fundamental principles underlying a body of scientific knowledge and their evolution; the nature of scientific inquiry; how scientific knowledge is obtained and evaluated. A field experience or practical component required. Satisfies Old General Education in Category III: Scientific Inquiry. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 140 Practicum in Multimedia Authorship**

Units: 2

Terms Offered: FaSp

Introduction to the expressive potential of multimedia as a critical and creative tool, supplementing traditional forms of academic work. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit

**MDA 155g Cultural Forms and Values II**

Units: 4

Terms Offered: FaSp

Cultural norms and patterns of civilizations associated with Africa, Asia, Latin America, the Middle East, Latin America, and elsewhere, alternative to those of the Greco-Roman and European traditions. Satisfies Old General Education in Category II: Global Cultures and Traditions. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 165g Social Inquiry**

Units: 4

Terms Offered: FaSp

Analyses of compelling local, national, and/or international issues; analytical tools examined systematically in a broad range of social phenomena. Satisfies Old General Education in Category VI: Social Issues. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 175g Marginal Groups in America**

Units: 4

Terms Offered: FaSp

Sociological and historical analysis of marginal populations in American society, including racial and ethnic minorities, teenage mothers, drug abusers, criminals, and the mentally ill. Satisfies Old General Education in Category VI: Social Issues. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 170g La Frontera: The U.S.-Mexico Borderlands**

Units: 4

Provides student with a multidisciplinary understanding of the U.S.-Mexico border region. Topics to be covered include: space and place, internationalization, physical environment, gender relations and culture. Satisfies Old General Education in Category VI: Social Issues. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 175LG Science and Technology**

Units: 4

Terms Offered: FaSp

The nature of science and technology, based on a focused study of a single area of research; scientific principles, their technological applications, and social significance. Satisfies Old General Education in Category IV: Science and Its Significance. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 200LG The Cutting Edge: From Basic Science to the Marketplace**

Units: 4

Terms Offered: FaSp

The nature of science and technology, based on a focused study of a single area of research; scientific principles, their technological applications, and social significance. Satisfies Old General Education in Category IV: Science and Its Significance. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 205g Cities and Civilization**

Units: 4

Terms Offered: FaSp

Origins of cities, patterns of migration and resettlement, civic identities and the invention of public culture, from ancient Rome to contemporary Los Angeles. Satisfies Old General Education in Category I: Western Cultures and Traditions. **Instruction Mode:** Lecture

**Grading Option:** Letter

**MDA 210 Contemporary Issues and Cases in Health Care**

Units: 2

Terms Offered: FaSp

An introduction to the major areas of health care; the provider's relationship to choices in professional practice; ethics and historical context. **Corequisite:** BISC 220LG Duplicates Credit in MDA 100a, MDA 100b, MDA 100c, MDA 100d and former MDA 110. **Instruction Mode:** Lecture

**Grading Option:** Credit/No Credit
MDA 250 Internship for Liberal Arts: Work and Career — Theory and Practice
Units: 1, 2, 3, 4 Max Units: 4.0
Terms Offered: FaSpSm Students explore different understandings of work and career in American society while testing theories in an actual work setting.
Instruction Mode: Lecture Grading Option: Letter
Credit Restriction: Not and minors will have priority during the undergraduates, though Dornsife majors.

Grading Option:

Instruction Mode:
Marketplace

Units:

Terms Offered:

MDA 300 The Dornsife Toolkit
Units: 2 Max Units: 08
Terms Offered: FaSpSm An opportunity to acquire an intellectual skill in a small group setting.
Registration Restriction: Open to all undergraduates, though Dornsife majors and minors will have priority during the registration period Credit Restriction: Not for major credit Instruction Mode: Lecture Grading Option: Credit/No Credit

Grading Option:

Instruction Mode:

MDA 320 Global Ethics: Poverty, Health and the Human Condition
Units: 4
Terms Offered: FaSp Ethical challenges and moral obligations of the public and private sectors in global development, access to healthcare, and promotion of civil, political, and economic rights.
Instruction Mode: Lecture, Discussion Grading Option: Letter

MDA 325 Case Studies in Modern Leadership
Units: 2 or 4 Max Units: 6.0
Terms Offered: FaSp Study of a single leader or small set of leaders, including the strengths and weaknesses that distinguish them and the cultural forces that nurture them.
Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-326

MDA 330 The Armenian Heritage: History, Arts, and Culture
Units: 4
Terms Offered: FaSp A multidisciplinary exploration of the Armenian cultural heritage through the ages — folklore, traditions, religious practices, literature, architecture, painting, sculpture, music, theatre, film and dance.
Instruction Mode: Lecture Grading Option: Letter

MDA 333 Colloquium in Armenian Studies: Social and Cultural Issues
Units: 2 Max Units: 4.0
Terms Offered: FaSpSm Analysis of political, social, and cultural issues by the instructor and visiting lecturers with expertise in specific areas of the Armenian Republic and Diaspora community.
Instruction Mode: Lecture Grading Option: Letter

MDA 365 The Art and Adventure of Leadership
Units: 4
Terms Offered: Sp Areas of knowledge and kinds of competencies that are fundamental to the study and practice of leadership in a variety of settings.
Instruction Mode: Lecture Grading Option: Letter

MDA 399a Team Research Communities
Units: 4 Terms Offered: FaSp Cross-disciplinary inquiry in the liberal arts.
Research methodologies.
Instruction Mode: Lecture Grading Option: Letter

MDA 399b Team Research Communities
Units: 4 Terms Offered: FaSp Cross-disciplinary inquiry in the liberal arts.
Individual student and group projects contributing to the team’s collaborative report.
Instruction Mode: Lecture Grading Option: Letter

MDA 423 User Experience
Units: 4
Terms Offered: FaSp Introduction to the field of user experience (UX), with a specific focus on theoretical foundations, research methodology and principles of design.
Instruction Mode: Lecture Grading Option: Letter Crosslisted as PSYC 423

MDA 450 Individual Program of Study
Units: 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 Max Units: 18.0
Terms Offered: FaSpSm An individual educational project approved by a faculty committee, combining directed research with internships, service learning, artistic or literary production, and/or other relevant educational activities.
Registration Restriction: Open only to sophomore, junior or senior standing.
Instruction Mode: Lecture Grading Option: Letter

MDA 460 Collaborative Learning Project
Units: 4, 5, 6, 7, 8 Max Units: 8.0
Terms Offered: FaSpSm A project approved by a faculty committee, requiring students to collaborate on research or an original work in the literary, plastic, or performing arts.
Registration Restriction: Open only to sophomore, junior or senior standing.
Instruction Mode: Lecture Grading Option: Credit/No Credit

MDA 475 The Future of California
Units: 4
Terms Offered: FaSp The challenges facing California; options for governmental and constitutional reform; opportunities for economic growth; demographic and cultural changes; education, environment, and other policy issues. Recommended Preparation: junior or senior standing.
Instruction Mode: Lecture Grading Option: Letter Crosslisted as POSC-475, PPD-475

MDA 476 Policy Research on California
Units: 4
Terms Offered: Sp Research and study in Narrative Medicine; study current culture. The faculty team and specific topics taught seminar addresses issues at the intersection of literary, visual, and material culture. The faculty team and specific topics studied will change each time the course is offered.
Instruction Mode: Lecture Grading Option: Letter

Medical Education

MDED 501 Narrative Medicine I: Witnessing, Listening, Reflecting
Units: 4
Terms Offered: Fa Sp Introduction to Narrative Medicine and history of health humanities; examination of narrative, trauma, witnessing, identity as related to health care and the clinical encounter.
Registration Restriction: Open only to graduate and professional students.
Instruction Mode: Lecture Grading Option: Letter

MDED 502 Narrative Medicine II: Methods and Pedagogy
Units: 6
Terms Offered: Sp Advanced study in Narrative Medicine; study current methods and best practices for designing and evaluating narrative medicine workshops; includes teacher training, practicum and advisement.
Prerequisite: MDED 501 Registration Restriction: Open only to graduate and professional students.
Instruction Mode: Lecture Grading Option: Letter

MDED 503 Creative Writing and Its Applications in Narrative Medicine
Units: 4
Terms Offered: FaSp Introduction to creative writing in the clinical setting; study of nonfiction/journalism, memoir, fiction and poetry; work toward a creative project that incorporates narrative medicine methods.
Registration Restriction: Open only to graduate and professional students.
### COURSES OF INSTRUCTION

**MDES 504 Research Methods in Narrative Medicine**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Explore philosophical underpinnings of qualitative research and its use in health research; develop specific methodologies for data collection and assessment in Narrative Medicine. **Registration Restriction:** Open only to graduate and professional students. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 505 Intersubjectivity: Lived Bodies/Relational Selves**
- **Units:** 4
- **Terms Offered:** FaSpSm
- **Description:** Introduction to philosophical, anthropological and sociological considerations of intersubjectivity and experience; narrative approaches to intersubjectivity and relational self-making focusing, especially on clinical encounters. **Registration Restriction:** Open only to graduate and professional students. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 510 Narrative Ethics: Illness, Disability, Equity and Community**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Examine the relationship between illness and disability narratives and their familial, social and institutional contexts; develop skills in interviewing, close reading and writing toward publication. **Registration Restriction:** Open only to graduate and professional students. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 590 Directed Research**
- **Units:** 1-2-3-4-5-6-7-8-9-10-11-12
- **Terms Offered:** Sp
- **Description:** Research leading to master's degree. **Maximum units:** 4. **Registration Restriction:** Open only to master students in Narrative Medicine. **Instruction Mode:** Lecture. **Grading Option:** Credit/No Credit

**MDES 593 Narrative Medicine Capstone**
- **Units:** 2
- **Terms Offered:** Sp
- **Description:** A summative experience such as a thesis, a clinical practicum or a capstone project; regular meetings with an adviser and a final presentation are required for successful completion. **Registration Restriction:** Open only to Keck master students in Narrative Medicine. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 180g The Middle East**
- **Units:** 4
- **Terms Offered:** FaSpSm (Enroll in HIST 180)

**MDES 201w The Middle East: Global and Environmental Perspectives**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Introduction to the natural and cultural diversity of the Middle East through the prism of globalization and sustainability. Satisfies Global Perspective in Category G: Citizenship in a Diverse World. **Instruction Mode:** Lecture. **Grading Option:** Letter

---

**MDES 301g The Global Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Explores the modern Middle East by focusing on the process of globalization. Satisfies New General Education in Category C: Social/Analytical Inquiry Instruction Mode: Lecture. **Grading Option:** Letter

**MDES 312 Medieval Iran: Society and Culture**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Political and dynastic history of Iran from the Arab conquest in the 7th to the 18th century. **Instruction Mode:** Lecture. **Grading Option:** Letter Crosslisted as HIST 310

**MDES 313 Modern Iran**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** History and culture of modern Iran from the nineteenth century to present through historical and ethnographic approaches to Iran today, richly contextualizing events and people. **Instruction Mode:** Lecture. **Grading Option:** Letter Crosslisted as HIST 389

**MDES 314p Political Thought in the Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Major strands of Islamic political thought from early Islam through the classical Islamic period to contemporary developments and transformations. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture. **Grading Option:** Letter

**MDES 316p The Great Muslim Empires of the Near East and India**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Explores the social, political, and religious forces that helped shape the Ottoman, Safavid, and the Mughal empires, their intellectual trends, and cultural dynamism. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture. **Grading Option:** Letter

**MDES 324 Classical Persian Literature in Translation**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Introduction to literary culture of premodern Persia, from about 800–1800 AD. Emphasis on poetry, the most extensive, prestigious, and influential medium of Persian literature. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 325g Politics of Film and Literature in Modern Iran**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Explores contemporary Iranian society through the study of social tensions created by poverty, wealth, tradition-modernity, masculinity-femininity, and notions of religio-political authority as reflected in the literature and films of the country. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture. **Grading Option:** Letter

**MDES 335 Nation and State in Modern Turkey**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** An examination of nation-state building in modern Turkey through a juxtaposition of academic works from history, anthropology, sociology, political science, and literary criticism. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 340 The United States and the Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Critical perspectives on U.S. relations with the Middle East, including the discourses surrounding democracy and globalization. **Instruction Mode:** Lecture. **Grading Option:** Letter Crosslisted as IR 359

**MDES 342g Arab Intellectuals in Question**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Prominent debates in the Arab world, examining how media and intellectual production reflect, shape, and/or contest prevailing ideas and practices in the public sphere. Satisfies New General Education in Category C: Social/Analytical Inquiry Instruction Mode: Lecture. **Grading Option:** Letter

**MDES 343g Modern Arab Culture and Literature**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Examines contemporary Arab state-society relations using literature to illustrate how people construct meanings and portray issues of national, social, and cultural significance. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture. **Grading Option:** Letter Crosslisted as COLT 347

**MDES 345p Power and Authority in the Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Comparative examination of social relations of power and institutions with a special focus on intellectual traditions, the law, and social movements. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture. **Grading Option:** Letter Crosslisted as IR 350

**MDES 349p Ancient Empires**
- **Units:** 4
- **Terms Offered:** FaSpSm
- **Description:** Enroll in CLAS 349pp

**MDES 362 The International Relations of the Contemporary Middle East**
- **Units:** 4
- **Terms Offered:** FaSp (Enroll in IR 362)

**MDES 363 Middle East Political Economy**
- **Units:** 4
- **Terms Offered:** Sp
- **Description:** Enroll in IR 363

**MDES 375 Politics and Society in the Contemporay Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Examination of a relevant and timely issue in Middle East Studies. **Instruction Mode:** Lecture. **Grading Option:** Letter

**MDES 378 Ptolemaic Egypt**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Enroll in CLAS 378

**MDES 382 The Middle East, 500–1500**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Enroll in HIST 382

**MDES 383 The Modern Middle East**
- **Units:** 4
- **Terms Offered:** Sp
- **Description:** Enroll in HIST 383

**MDES 384 Popular Culture in the Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Enroll in HIST 384

**MDES 394 Archaeology of Egypt and the Near East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Enroll in REL 394

**MDES 401 Environment and Politics in the Middle East**
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Introduction to key environmental and political
challenges facing the contemporary Middle East and North Africa (MENA). Instruction Mode: Lecture Grading Option: Letter Crosslisted as IR 409, ANTH 401

MDES 402 Cultural Heritage, Religion, and Politics in the Middle East
Units: 4 Terms Offered: Fa (Enroll in REL 402)

MDES 403 Technology, Development and Power in the Middle East
Units: 4 Terms Offered: FaSpSm Shed light on the technical and social practices through which infrastructures are constructed, used and maintained in the Middle East. Instruction Mode: Lecture Grading Option: Letter

MDES 437 Arabic Autobiography: Writing and Interpreting the Self
Units: 4 Terms Offered: FaSpSm (Enroll in COLT 437)

MDES 441w Cities of the Middle East
Units: 4 Terms Offered: FaSpSm An examination of the economic, political and cultural forces operating in a number of Middle Eastern cities. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 441, IR 447

MDES 447 Traveling Genres: Politics/ Poetics of Modern Arabic Prose
Units: 4 Terms Offered: FaSpSm (Enroll in COLT 447)

MDES 448m France and Islam
Units: 4 Terms Offered: FaSpSm (Enroll in FREN 448)

MDES 454 Classical Arabic
Units: 4 Max Units: 20 Terms Offered: FaSpSm Introduction to reading and interpretation of pre-modern, classical Arabic, including literature from the 6th to 19th centuries. Prerequisite: ARAB 252 or MDES 252 Instruction Mode: Lecture Grading Option: Letter

MDES 463 Islam and Arab Nationalism
Units: 4 (Enroll in IR 463)

MDES 475 Seminar in Middle East Studies
Units: 4 Terms Offered: FaSpSm Major theoretical and methodological currents and approaches to the study of the Middle East through a close reading of important recent contributions. Instruction Mode: Lecture Grading Option: Letter

MDES 480 Seminar in Middle East History
Units: 4 Max Units: max 8 (Enroll in HIST 480)

MDES 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MDES 492 Honors Thesis
Units: 4 Writing of the honors thesis; for students in the Middle East Studies Honors Program. Instruction Mode: Lecture Grading Option: Letter

MDES 499 Special Topics
Units: 2-4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Middle East studies. Instruction Mode: Lecture Grading Option: Letter

Medical Biology
MEDB 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MEDB 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MEDB 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Medical Sciences (200–400)
MEDS 220 Preparation for the Clinical Experience
Units: 2 Terms Offered: FaSpSm Discussion and exercises in clinically relevant topics (professional behavior, patient privacy, medical ethics, cultural competency, teamwork, etc.) in preparation for experience in the clinical setting. Instruction Mode: Lecture Grading Option: Letter

MEDS 250 Introduction to Healthcare Innovation
Units: 4 Terms Offered: FaSpSm (Enroll in ACAD 260)

MEDS 260 Challenges in the Forefront of Biomedical Ethics
Units: 2 Terms Offered: Sp Examination of fundamental ethical concepts and principles in clinical health care and biomedical research. Use of film, case studies and discussion. Recommended Preparation: MDA 110 or MDES 220. Instruction Mode: Lecture Grading Option: Letter

MEDS 261 Human Health and Technology
Units: 4 Max Units: FaSp (Enroll in ACAD 261)

MEDS 280 The History of Medicine: a Doctor’s Perspective
Units: 2 Terms Offered: Mixed: Fa Explores the role of medicine/surgery in society, whose ideas about health and disease have undergone enormous changes from antiquity to the present day. Instruction Mode: Lecture Grading Option: Letter

MEDS 300q Statistical Methods for Biomedical Research
Units: 4 Terms Offered: Fa Fundamental basis for various statistical tests, underlying assumptions, and statistical analyses used in biomedical and clinical research. Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture Grading Option: Letter

MEDS 315 Human Anatomy, Physiology, and the Technology of Medicine
Units: 2 Introduction to human anatomy and physiology in relation to common disease processes, and an examination of how technology has transformed western medicine throughout history. Prerequisite: BISC 220Lg or BISC 221Lg Instruction Mode: Lecture Grading Option: Letter

MEDS 320 Human Cadaveric Anatomy
Units: 4 Terms Offered: FaSpSm Anatomical structure and function of the major regions of the human body as related to health and disease, using clinical cases, lectures and cadaveric demonstrations. Prerequisite: BISC 220 or BISC 221. Instruction Mode: Lecture Grading Option: Letter

MEDS 330 Bionics: Solutions to Enable the Disabled
Units: 2 Terms Offered: FaSpSm Focused examination of medical bionics with emphasis on solutions that enable the disabled and detailed discussions and evaluations of the social and technological aspects of bionic medical devices. Instruction Mode: Lecture Grading Option: Letter

MEDS 335 Human Development: From Stem to Sternum
Units: 2 Terms Offered: Fa An introduction to transformation of a single cell into a mature organism. Prerequisite: BISC 220 or BISC 221. Recommended Preparation: BISC 320. Instruction Mode: Lecture Grading Option: Letter

MEDS 340 The Brain in Health and Disease
Units: 4 Terms Offered: FaSpSm Study of the human brain through the lens of disease using illustrative case studies, current imaging techniques and potential future treatment for neurological conditions such as Alzheimer’s disease. Prerequisite: BISC 220Lg or BISC 221Lg and CHEM 103Lgx or CHEM 105Lg or CHEM 115aLg Instruction Mode: Lecture Grading Option: Letter

MEDS 350 Neurochemistry of Addiction: Drugs, Brain, and Behavior
Units: 2 Terms Offered: FaSpSm The neurochemistry of psychiatric illness and addiction, introduction to brain and nervous system biochemistry, anatomy and disease states. Covers prescribed medications and drugs of abuse. Prerequisite: (BISC 220Lg or BISC 221Lg) and CHEM 103Lgx or CHEM 105aLg or CHEM 115aLg Recommended Preparation: BISC 320L or BISC 330L and MEDS 330. Instruction Mode: Lecture Grading Option: Letter

MEDS 355 Skeletal Biology and Pathology: No Bones About It
Units: 2 Terms Offered: FaSpSm Overview of the cellular make-up of the human
COURSES OF INSTRUCTION

**Medical Sciences (500)**

**MEDS 500 Basic Concepts in Global Health**
Units: 4
Terms Offered: FaSpSm
Exploration of global health issues facing resource-poor societies; emphasizes contributing factors including behavioral and physiological bases, economic, social, and political context. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 501 Critical Issues in Global Health**
Units: 4
Terms Offered: FaSpSm
Evaluation of government and non-government organizations' new global health responses, and critical issues affecting global health including: environment, workforce conditions, obesity, nutrition, drugs, poverty. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 503L Core Principles System I**
Units: 4
Terms Offered: FaSpSm
Introduction to basic medical concepts and biological system functions; examination of core principles of science and medical treatment. **Instruction Mode:** Lecture, Lab Required Grading Option: Letter

**MEDS 504L Core Principles System II**
Units: 4
Terms Offered: FaSpSm
Continuation of concepts from MEDS 503. Basic medical concepts and biological system functions; examination of core principles of science and medical treatment. **Prerequisite:** MEDS 503. **Instruction Mode:** Lecture, Lab Required Grading Option: Letter

**MEDS 510 Global Health Modules, Malaria**
Units: 2
Terms Offered: FaSpSm
Critical issues in international control and treatment of malaria. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 511 Global Health Modules, Tuberculosis**
Units: 2
Terms Offered: FaSpSm
Exploration of biological and epidemiological fundamentals of tuberculosis including dynamics of transmission among populations. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 512 Global Health Modules, Maternal and Child Health I**
Units: 2
Terms Offered: FaSpSm
Biopsychosocial, cultural and economic aspects of women's health: pregnancy, childbirth, marriage. Examination of health promotion and policy efforts to improve women's health globally. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 514 Global Health Modules, Tropical Disease**
Units: 2
Terms Offered: FaSpSm
Examination of prevalent tropical diseases: epidemiological manifestations, diagnostic testing, impact on economies of tropical countries. Key issues related to these diseases; World Health Organization responses. **Instruction Mode:** Lecture, Lab Grading Option: Letter

**MEDS 515 Global Health Modules, HIV/AIDS**
Units: 2
Terms Offered: FaSpSm

---

**MEDS 445 Cancer: Introduction to Oncology in the Modern Era**
Units: 2
Terms Offered: Fa
Introduction to the spectrum of clinical and scientific issues surrounding contemporary cancer care; molecular diagnostics, genomic medicine, modern therapeutics and community/patient engagement. **Prerequisite:** (BISC 220Lg or BISC 221Lg) and (CHEM 103Lg or CHEM 105aLg or CHEM 115aLg). **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 450 OB/GYN: The Medicine and Surgery of Reproduction**
Units: 2
Terms Offered: Fa
An introduction to the practical realities of modern obstetric and gynecology practice from the point of view of practicing surgeons at USC. **Prerequisite:** BISC 220 or BISC 221; and MEDS 220. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 465 Wilderness and Survival Medicine**
Units: 2
Terms Offered: FaSpSm
Overview of clinical manifestations, diagnosis, and treatment of infections. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 425 Medical Examiner-Coroner: Investigating Death**
Units: 2
Terms Offered: Fa
Emphasizes the team-based approach used by forensic scientists, medical examiners and coroners to investigate the circumstances and determine the cause/manner of death. **Prerequisite:** BISC 220 or BISC 221; and MEDS 220. **Registration Restriction:** Open only to juniors and seniors. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 440 Introduction to Surgical Principles**
Units: 2
Terms Offered: Fa
Introduction to the spectrum of surgical care, taught by surgeons, with the goal of developing an appreciation of the role that surgery plays in society. **Prerequisite:** BISC 220 or BISC 221; and CHEM 103 or CHEM 105a or CHEM 115a; and MEDS 220. **Registration Restriction:** Open only to juniors and seniors. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 370 Organ Failure: Non-Communicable Chronic Disease**
Units: 2
Terms Offered: FaSp
An examination of frequently treated diseases with the greatest impact on society. Involvement of medical specialists as guests. **Prerequisite:** BISC 220Lg or BISC 221Lg. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 380 Stem Cells: Fact and Fiction**
Units: 2
Terms Offered: Sp
Explores how stem cells and regenerative medicine are portrayed in culture, the scientific underpinnings of what is currently possible, and visions into the future. **Prerequisite:** BISC 220 or BISC 221. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 390 Special Problems**
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4
Max Units: 4
Supervised, individual studies. No more than one registration permitted. **Enrollment by petition only.** **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 420 Clinical Pediatrics**
Units: 2
Terms Offered: Sp
Explores enduring and fascinating topics in Pediatrics through a modern lens, incorporating first hand patient-care experiences in clinics and hospitals, and didactic case-based discussions. **Prerequisite:** BISC 220Lg or BISC BISC 221Lg and MEDS 220Lg. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 463 Evidence Based Medicine for Health Innovators**
Units: 2
Terms Offered: FaSp
Enroll in MEDS 463 (Enroll in ACAD 463)

**MEDS 464 Mining Health Data Through Machine Learning**
Units: 4
Terms Offered: FaSp
Enroll in ACAD 464

**MEDS 499 Special Topics**
Units: 1, 2, 3, 4, 5, 6, 7, 8
Max Units: 08
Selected topics in health care studies. **Instruction Mode:** Lecture Grading Option: Letter

---

**Skeletal, the functions of bones, clinical**
application of this knowledge towards**
bone-related diseases, and introduction**
to technological advances in orthopedic**
surgery. **Prerequisite:** BISC 220Lg or BISC 221Lg. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 360 Bench to Bedside: Application of the Basic Sciences**
Units: 2
Terms Offered: FaSp
A theoretical basis of laboratory approaches that help the biomedical or physician scientist in understanding the etiology of disease and targeting disease processes. **Prerequisite:** (BISC 220Lg or BISC 221Lg) and (CHEM 103Lg or CHEM 105aLg or CHEM 115aLg). **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 362 Analytics for Health Innovators**
Units: 4
Terms Offered: FaSp
(Enroll in ACAD 362)

---

**MEDS 368 Integrative Health Care**
Units: 2
Terms Offered: FaSp
Introduction to integrative health care; a holistic approach to medicine combining conventional medical therapies with evidence-informed complementary alternative medicine. **Recommended Preparation:** HP 450, MEDS 220. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 400 Emergency Health Care**
Units: 2
Terms Offered: FaSp
Principles of emergency medical services, ranging from prehospital care and advanced life-saving, to minor injuries and illnesses. Interactive experience with EM physicians/emergency health care providers. **Prerequisite:** BISC 220 or BISC 221; and MEDS 220. **Recommended Preparation:** MEDS 260. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 460 Emergency Health Care**
Units: 2
Terms Offered: FaSp
Principles of emergency medical services, ranging from prehospital care and advanced life-saving, to minor injuries and illnesses. Interactive experience with ER physicians/emergency health care providers. **Prerequisite:** BISC 220 or BISC 221; and MEDS 220. **Recommended Preparation:** MEDS 260. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 483 Evidence Based Medicine for Health Innovators**
Units: 2
Terms Offered: FaSp
Enroll in MEDS 483 (Enroll in ACAD 483)

**MEDS 484 Mining Health Data Through Machine Learning**
Units: 4
Terms Offered: FaSp
Enroll in ACAD 484

**MEDS 492 Directed Research in Biomedical Science**
Units: 2, 3, 4, 5, 6, 7, 8
Max Units: 12.0
Terms Offered: FaSpSm
Individual research and readings. **Prerequisite:** BISC 220 or BISC 221 and MEDS 220. **Instruction Mode:** Lecture Grading Option: Letter

---

**MEDS 490 Directed Research in Biomedical Science**
Units: 2, 3, 4, 5, 6, 7, 8
Max Units: 12.0
Terms Offered: FaSpSm
Individual research and readings. **Prerequisite:** BISC 220 or BISC 221 and CHEM 103 or CHEM 105a or CHEM 115a. **Recommended Preparation:** MEDS 300, MEDS 360. **Instruction Mode:** Lecture Grading Option: Letter

**MEDS 499 Special Topics**
Units: 1, 2, 3, 4, 5, 6, 7, 8
Max Units: 08
Selected topics in health care studies. **Instruction Mode:** Lecture Grading Option: Letter
MEDS 521 Global Mental Health
Units: 2
Terms Offered: FaSpSm
Examines the major mental health diagnoses from clinically relevant perspectives and their prevalence in specific geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 522 Zoonotic Infectious Diseases
Units: 2
Terms Offered: SpSm
Background information on a group of infections that are transmitted via animal contact. Understanding of the epidemiology, clinical manifestations, treatment, and impact of the diseases on the economies of the countries in which they are found. Recommended Preparation: MEDS 500, Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 523 Global Toxicity and Carcinogenesis
Units: 2
Terms Offered: FaSpSm
The basics of human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ systems) and pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 524 Grantwriting for Non-Government Organizations
Units: 2
Terms Offered: FaSpSm
Instruction on the process and methods of writing effective grants from identifying appropriate funders to implementing project upon receipt of funding award. Instruction Mode: Lecture Grading Option: Letter

MEDS 525 Global Mental Health
Units: 2
Terms Offered: FaSpSm
Examines the major mental health diagnoses from clinically relevant perspectives and their prevalence in specific geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 527 Zoonotic Infectious Diseases
Units: 2
Terms Offered: SpSm
Background information on a group of infections that are transmitted via animal contact. Understanding of the epidemiology, clinical manifestations, treatment, and impact of the diseases on the economies of the countries in which they are found. Recommended Preparation: MEDS 500, Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 528 Global Health Modules, Sexually Transmitted Infections
Units: 2
Terms Offered: SpSm
Examines clinically relevant perspectives from distinguished international authors on STI issues and their devastating effect on particular geographical regions around the world. Instruction Mode: Lecture Grading Option: Letter

MEDS 529 Refugee Health Care
Units: 2
Introduction to refugee health care and life events which impact health. Discuss medical needs of long-term displaced populations with specific case studies. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

MEDS 530a Foundation of Medicine: Anatomy, Physiology, and Pathology
Units: 4
Terms Offered: FaSpSm
Fundamentals of physiology, chemistry, anatomy, biochemistry and microbiology, as well as pharmacological issues, mathematical basis of lab instruments or techniques, and computational modeling. Instruction Mode: Lecture Grading Option: Letter

MEDS 530b Foundation of Medicine: Anatomy, Physiology, and Pathology
Units: 4
Terms Offered: FaSpSm
The basics of human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ systems) and pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 530c Foundation of Medicine: Anatomy, Physiology, and Pathology
Units: 4
Terms Offered: FaSpSm
Continues material from MEDS 530a and MEDS 530b, covering human anatomy (gross anatomy, histology, radiographic anatomy), physiology (cellular physiology, organ systems) and pathology (general, systemic, cellular pathology). Instruction Mode: Lecture Grading Option: Letter

MEDS 531 The Politics of Global Health
Units: 2
Terms Offered: FaSpSm
Examines the impact of politics on global health progress and declines. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 532 Non-communicable Diseases
Units: 2
Terms Offered: FaSpSm
A conceptual framework for understanding global challenges faced in the management of non-communicable diseases, including heart disease, diabetes, chronic lung disease, and cancer. Instruction Mode: Lecture Grading Option: Letter

MEDS 533 Culture, Lifestyle, and Health
Units: 2
Terms Offered: FaSpSm
Overview of national and international variations in health status indicators in regard to cultural and lifestyle differences. Instruction Mode: Lecture Grading Option: Letter

MEDS 550 Clinical Medicine and Health Care Reform in Taiwan
Units: 2
Terms Offered: Sm
Two-week in-depth study abroad in Taipei, Taiwan, focused on understanding Taiwan's health care system, health priorities, and needs. Instruction Mode: Lecture Grading Option: Letter

MEDS 551 Clinical Medicine and Socioeconomic Factors in Uganda
Units: 2
Terms Offered: Sm
Two-week course that provides students with hands-on experience in clinical medicine/ public health and exposure to the various socioeconomic factors impacting health in the developing world. Instruction Mode: Lecture Grading Option: Letter

MEDS 553 Clinical Medicine and Health Care Challenges in India
Units: 2
Terms Offered: Sm
Two-week study abroad course that explores the health dynamics and health care settings of India. Instruction Mode: Lecture Grading Option: Letter

MEDS 554 Clinical Medicine and Healthcare Delivery in Panama
Units: 2
Terms Offered: SpSm
A two-week course providing students with a solid understanding of the United Nations' major agencies influential in global health, their mandate, their strengths and challenges. Includes field visit to selected UN organizations all located in NYC. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 555 Clinical Medicine and Healthcare Dynamics in Denmark
Units: 2
Terms Offered: SpSm
Two-week course that provides a venue for careful examination and assessment of the economic, social, political, and specific health issues currently faced by countries in the European Region. Registration Restriction: Open only to Global Medicine majors. Instruction Mode: Lecture Grading Option: Letter

MEDS 559 Clinical Medicine and Healthcare Determinants in China
Units: 2
Terms Offered: SpSm
A two-week intensive course abroad in Shanghai,

Units: 4 Terms Offered: FaSp An introduction to the changing world of a connected consumer. Understanding consumer online, social media and mobile behavior using marketing analytics and strategic tools. Prerequisite: BUAD 307 or MKT 385x Registration Restriction: Open only to sophomore, junior and senior students Instruction Mode: Lecture Grading Option: Letter

MKT 430 Retail Management
Units: 4 Terms Offered: FaA Introduction to the functions of retail management including location, buying, merchandise management, layout, pricing, and promotion; application of concepts to various retail institutions. Instruction Mode: Lecture Grading Option: Letter

MKT 440 Marketing Analysis and Strategy
Units: 4 Terms Offered: FaSp Synthesis of concepts and applications relating to the analysis of market opportunities and the development of product, promotion, distribution, pricing strategies. Recommended during student's final semesters. Prerequisite: BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 445 New Product Development and Branding
Units: 4 Terms Offered: FaSp This class examines how new product ideas are developed, tested, marketed, and, ultimately, brought to the marketplace. Issues about why new products fail and how brand images are managed in the marketplace
are discussed. Legal aspects of brand management such as trademark protection and infringement are also addressed. Prerequisite: BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 461 Marketing Blockbuster Entertainment
Units: 4 Terms Offered: FaSpExamines the relationship of consumer behavior to acquisition, usage, and disposition of products and the psychological, social and cultural influences that affect these decisions. Instruction Mode: Lecture Grading Option: Letter

MKT 465 Global Marketing Management
Units: 4 Terms Offered: FaSp Product and service mix in multinational business; promotion strategies; channel of distribution; pricing, merchandising, and legal barriers; multinational marketing opportunities; problems and information sources. Instruction Mode: Lecture Grading Option: Letter

MKT 489 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSmCurrent developments in the field of Marketing; topics to be selected each semester. Prerequisite: BUAD 307 or MKT 385. Instruction Mode: Lecture Grading Option: Letter

MKT 512 Customer Insights and Analysis
Units: 3 Terms Offered: FaSp Use of marketing research techniques and technologies such as databases and statistical tools to collect, analyze and act upon customer information. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 525 Consumer Behavior
Units: 3 Terms Offered: FaSpSm Theories and applications of consumer behavior in marketing: psychological, social, cultural and ethnic factors influencing consumer behavior. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 526 Advertising and Social Media: Strategy and Analytics
Units: 3 Terms Offered: FaSp Effective advertising in an era of social media including strategy and analytics for crafting ad messages, testing ads, budgeting and media scheduling. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 528 Sales Management: The Art and Science of Sales
Units: 3 Terms Offered: FaSp Emphasis on creating a sales strategy, planning and delivery of sales presentations, and techniques to persuade people to change their opinions in face-to-face meetings. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 530 New Product Development
Units: 3 Terms Offered: FaSpSmSystematic approach to product development and management; processes, techniques, and concepts firms use to develop, test, and introduce products and to manage products over their lifecycle. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 531 Services Marketing Strategy
Units: 3 Analysis and development of sound marketing strategies and an integrated service management plan for service organizations. Examination of best practices among leading service providers. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 533 Branding Strategy
Units: 1.5, 3 Terms Offered: FaSpSm Comprehensive treatment of the behavioral foundations of brands and brand development. Exploration of alternative branding strategies and marketing tools for brand development. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 534 Retail Strategy
Units: 3 Terms Offered: FaSp Frameworks for analysis of retail strategy and functions of a retail firm, including buying, merchandise management, pricing, promotion, and visual merchandising; application of concepts through case studies and student projects. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 535 Business-to-Business Marketing Management
Units: 1.5, 3 Terms Offered: FaSp Business-to-business marketing strategies (as opposed to consumer targeted marketing) including product management, pricing, market sizing, and other issues of importance for professional marketers. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 536 Pricing Strategies
Units: 3 Terms Offered: FaSpIntroduction to the fundamentals of pricing and pricing strategy. Develop a conceptual framework and a set of analytical tools used to make sound pricing decisions. Registration Restriction: Online registration open only to graduate business and accounting students Instruction Mode: Lecture Grading Option: Letter

MKT 543 Market Demand and Sales Forecasting
Units: 3 Terms Offered: FaSp New product concept testing and life cycle forecasting, pricing and advertising response forecasting, consumer purchase intentions, judgmental marketing decision models, time series and regression analysis, computer methods. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

MKT 546 Digital Marketing
Units: 1 Terms Offered: FaSp Marketing of products or services using digital technologies, mainly on the Internet, but also including mobile phones, display advertising, and any other digital media. Prerequisite: GSBA 509 or GSBA 528 or GSBA 546 Instruction Mode: Lecture Grading Option: Letter

MKT 555 Marketing Channels
Units: 1.5, 3 Terms Offered: Sp Examination of strategic decision making in marketing channels. Intensity of distribution, vertical integration, how roles are formulated, types of intermediaries, and multiple channels of distribution. Prerequisite: GSBA 509 or GSBA 528 Instruction Mode: Lecture Grading Option: Letter

Instruction Mode: Lecture Grading Option: Letter
MOR 462 Management Consulting
Units: 4 Terms Offered: FaSp Rule of professional consultants; data gathering methods; consulting approaches from strategy, finance, operations, information systems, marketing, and human resources; action planning; ethical and career issues.
Recommended Preparation: BUAD 304. Instruction Mode: Lecture Grading Option: Letter
MOR 463 Organization Change and Development
Units: 4 Terms Offered: Sp Theories and methods of introducing change in organizations. Techniques for analyzing organizations, developing change programs, and implementing changes. Ethical and career issues of change management. Recommended Preparation: BUAD 304. Instruction Mode: Lecture Grading Option: Letter
MOR 465 Dynamic Strategies for the Business Lifecycle
Units: 4 Terms Offered: Sp Theories and methods for analyzing and developing strategy. Fundamental tools for strategic planning. Advanced methods for analyzing industries and competitors, and determining the scope of the firm.
Instruction Mode: Lecture Grading Option: Letter
MOR 466 Business and Environmental Sustainability
Units: 4 Terms Offered: Sp Focuses on how businesses both contribute to and can help address environmental sustainability challenges and the role of the broader political-economy in shaping that interaction.
Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST 466
MOR 467 Strategic Management of Innovation
Units: 4 Terms Offered: Sp How firms in different industries manage strategic innovation for competitive advantage. Analysis of industry dynamics. Crafting and implementing innovation strategy. Registration Restriction: Open only to sophomores, juniors and seniors. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ACAD 467
MOR 468 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 (Enroll in COMM 468)
MOR 469 Negotiation and Persuasion
Units: 4 Terms Offered: FaSp Theories, strategies, and ethical issues underlying negotiation and persuasion in contemporary organizations and societies. Emphasizes the knowledge and skills needed for effective negotiation and persuasion.
Instruction Mode: Lecture Grading Option: Letter
MOR 470 Global Leadership
Units: 4 Terms Offered: Fa Major theories and practices of leading people in multinational firms. Skills for facilitating cooperation, communication, and motivation among people from different cultures. Recommended Preparation: BUAD 304. Instruction Mode: Lecture Grading Option: Letter
MOR 471 Managing and Developing People
MOR 472 Power, Politics and Influence
Units: 4 Terms Offered: FaSp Theories and practices about how power, politics and influence affect organizational life. Knowledge and skills for diagnosing and managing these features of an organization.
Instruction Mode: Lecture Grading Option: Letter
MOR 473 Designing and Leading Teams
Units: 4 Terms Offered: Sp Theories and practices for developing and leading teams. Skills for creating team structures and facilitating team processes. Knowledge for diagnosing team problems and devising solutions. Recommended Preparation: BUAD 304. Instruction Mode: Lecture Grading Option: Letter
MOR 475 The Art of Leadership - Self Discovery
Units: 1 Terms Offered: FaSp Introductory leadership. Self-examination of personal leadership styles using survey tools, comparative models, and in-class exercises.
Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program. Prerequisite: MOR 475 or MOR 476a
Instruction Mode: Lecture Grading Option: Credit/No Credit
MOR 477 The Art of Leadership - Change Leadership
Units: 1 Terms Offered: Fa Examination of practical challenges facing every leader through a series of in-class discussions and field trips to meet recognized leaders in the social impact sphere. Open only to students in the USC Warren Bennis Scholars Program. Prerequisite: MOR 475 or MOR 476a
Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476d
Instruction Mode: Lecture Grading Option: Credit/No Credit
MOR 478 The Art of Leadership - Practical Leadership
Units: 1 Terms Offered: Sp Application of leadership skills using goal-setting, self-knowledge and execution opportunities. Open only to students in the USC Warren Bennis Scholars program. Prerequisite: MOR 475 or MOR 476a
Registration Restriction: Open only to students in the USC Warren Bennis Scholars Program Duplicates Credit in former MOR 476c
Instruction Mode: Lecture Grading Option: Credit/No Credit
MOR 479 The Business of Sports
Units: 4 Terms Offered: Sp Addresses the business side of the sports industry; examines professional sports, amateur athletics, and collegiate sports and how they relate to corporate America, the media, and the public sector. Recommended Preparation: BUAD 304. Instruction Mode: Lecture Grading Option: Letter
MOR 492 Global Strategy
Units: 4 Terms Offered: FaSp Examination of corporate strategy practices in an international context. Effects of cultures, political systems, markets, and economic systems on developing effective global strategies.
Instruction Mode: Lecture Grading Option: Letter
MOR 495 International Management and Internship
Units: 2, 3, 4 International internship. Develop general/cross-cultural knowledge and management skills, gain an understanding of cross-cultural issues, and develop insights working in international businesses.
Recommended Preparation: BUAD 304. Instruction Mode: Lecture Grading Option: Letter
MOR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics reflecting current trends and recent developments in organizational behavior, business strategy and organizational
theory. Instruction Mode: Lecture Grading Option: Letter

MOR 542 Strategic Issues for Global Business
Units: 3 Terms Offered: Fa Globalization strategies from entry to maturity; alternative approaches from going alone to alliances; strategy implementation issues in different cultures and political systems. Cases, videos and speakers. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 543 Leading with Mindfulness and Compassion
Units: 1.5 Terms Offered: Sp Explores mindfulness (non-judgmental awareness), compassion and their relationship to leadership. Focus is on clarity in productivity using evidence-based cases and direct practice. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 545 Corporate Governance and Board Leadership
Units: 1.5, 1.5 Terms Offered: Fa Corporate Governance is the system by which corporations are directed and controlled. Includes rights and responsibilities of stakeholders; rules and procedures for decision-making. Registration Restriction: Online registration open to only graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 547 Mergers and Acquisitions: Integration and Organization
Units: 1.5 Terms Offered: Sp Organize successful mergers and acquisitions with focus on managing and synthesizing the integration process and impact on people and organizations across functions. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 548 Competitive Advantage Through People
Units: 3 Terms Offered: Sp How firms develop employee talent as a source of competitive advantage. Strategic implications of contemporary practices in recruitment, work systems, training, compensation, and employee relations. Speakers and cases. Registration Restriction: Online registration open to only graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 551 Human Capital Performance and Motivation
Units: 3 Terms Offered: Sp Frameworks for enhancing human capital performance motivation at work, including pay, incentive systems, job design, employee involvement, leadership behavior and self-managed teams. Cases, project and speakers. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 554 Leading Innovation and Change
Units: 3 Terms Offered: FaSm Practical knowledge on helping organizations develop innovations and lead change to leverage them. Exploration of innovation and change in different organizations and competitive environments. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 555 Designing High Performance Organizations
Units: 3 Terms Offered: Sp Theory and practice of organization design. How to maximize organization performance by aligning structure, rewards, staffing, processes, and culture with strategy and environment. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 557 Strategy and Organization Consulting
Units: 3 Terms Offered: FaSp How consultants assist clients to formulate strategic plans and realign organizations; approaches used by major consulting firms; information about consulting industry, fee setting and proposals. Consultant speakers and project. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 559 Strategic Renewal and Transformation
Units: 3 Terms Offered: Fa Dynamic strategic planning; how businesses re-invent themselves; why change is difficult; politics of change process; leadership steps for implementing successful strategic changes. Cases and readings. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 560 Managerial Judgment and Decision-Making
Units: 3 Terms Offered: Sm Development of skills and insight into making effective strategic, financial, and management decisions including awareness of hazards of decisions, issues of rationality, and risk taking. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 561 Strategies in High-Tech Businesses
Units: 3 Terms Offered: Fa How high-tech companies achieve competitive advantage through leveraging technical, management and financial resources. Technology trends and industry evolution. Focus on electronics and bio-technology. Cases and speakers. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 562 Strategic Choice and Valuation Analysis
Units: 3 Terms Offered: Fa Advanced strategic planning using tools of scenario development and activity valuation for assessing market entry, expansion and business portfolio configuration. Exercises, cases and project. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 563 Advanced Strategy: Competing in Dynamic Environments
Units: 3 Terms Offered: Fa Dynamics of competition, dealing with industry transformations, managing alliances and acquisitions and a variety of other strategic situations. Registration Restriction: Online registration open only to graduate accounting and business students. Duplicates Credit in MOR 565. Instruction Mode: Lecture Grading Option: Letter

MOR 564 Strategic Innovation: Creating New Markets
Units: 3 Terms Offered: Sp How firms in rapidly changing global environments innovate to develop new markets, products and services, delivery systems and organizational processes and competencies. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 565 Alliances and Cooperative Strategy
Units: 3 Terms Offered: Fa Essential issues and problems of cooperative strategy. Recognize and evaluate collaborative opportunities to develop and assess an overall cooperative strategy. Readings, cases and group project. Registration Restriction: Online registration open only to graduate business and accounting students. Duplicates Credit in MOR 563. Instruction Mode: Lecture Grading Option: Letter

MOR 566 Environmental Sustainability and Competitive Advantage
Units: 1.5, 3 Terms Offered: Sp How business is changing in order to respond to environmental sustainability challenges — adapting strategy, product design, operations, marketing, and accounting. Cases and speakers. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 567 Interpersonal Influence and Power
Units: 3 Terms Offered: Fa Legitimate and effective use of power to resolve conflicts and mobilize action through understanding the talent and self-interest of people involved in decision-making. Readings, cases. Registration Restriction: Online registration open only to graduate accounting and business majors. Instruction Mode: Lecture Grading Option: Letter

MOR 569 Negotiation and Deal-Making
Units: 3 Terms Offered: FaSpSm Strategies and dynamics of deal-making; practical skills necessary to win in a range of business transactions conducted in domestic and international settings. Cases, role-playing, films and simulations. Registration Restriction: Online registration open only to graduate business and accounting students. Instruction Mode: Lecture Grading Option: Letter

MOR 570 Leading Effective Teams
Units: 3 Terms Offered: Sm Analytical and behavioral tools that will enable students to effectively diagnose complex work group dynamics and take action to improve group performance. Registration
Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 571 Leadership and Executive Development
Units: 3 Terms Offered: FaSp
Contemporary approaches to leadership, including corporate practices to develop leaders; examples of successful and derailed executives. Students self-assess personal leadership and draft development leaders; examples of successful and including corporate practices to develop

MOR 572 Leadership and Self-Management
Units: 3 Terms Offered: Fa Successful leaders are effective at self-managing their thoughts, emotions and actions. Concepts and methods for developing essential self-management skills. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 574a Leading and Coaching: Foundations and Practicum
Units: 1.5 Terms Offered: Sp Marshall MBA Leadership Fellows Program (MLFP). Learn, practice and teach leadership. Engage in critical thinking and problem solving. (a) Foundations. (b) Practicum. Application required. Registration Restriction: Open only to full-time MBA students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 574b Leading and Coaching: Foundations and Practicum

MOR 579 The Business of Sports Entertainment
Units: 3 Terms Offered: FaSp Business practices and issues in different sports markets including growth opportunities and innovative marketing strategies for attracting and retaining fans and corporate sponsors. Industry speakers. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 588 Corporate Strategy and Competitive Dynamics
Units: 1.5, 3 Terms Offered: Sp Central challenges facing executives in multi-business firms; toolkit for analyzing and executing strategic and operational aspects of corporate advantage, M&As and industry evolution. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 592 Field Research in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team projects studying the management practices of an industry, company, government agency, country, geographic region, etc. Proposal, data collection, analyses, and written report. Recommended Preparation: completion of required MBA, MAcc, or MBT course work. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 593 Independent Research in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Independent research beyond normal course offerings. Proposal, research and written report/paper required. Registration Restriction: Open only to master students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 595 Internship in Management and Organization
Units: 0.5, 1, 1.5, 2 Max Units: 09 Terms Offered: FaSpSm Supervised on-the-job business experience in the student's area of interest. Recommended Preparation: completion of required MBA, MAcc, or MBT course work. Registration Restriction: Open only to master students in Accounting and Business Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 596 Research Practicum in Management and Organization
Units: 0.5, 1, 1.5, 2 Max Units: 8.0 Terms Offered: FaSpSm Hands-on practical experience working with a Marshall faculty member in the Management and Organization Department on an ongoing research project. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 597 Consulting Project in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 12.0 Terms Offered: FaSpSm Individual or team project solving real business problems for an existing business entity, domestic and/or international. Proposal, field research, analyses and oral and written presentations. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 598 Research Practicum in Management and Organization
Units: 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5 Max Units: 3 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in management and policy sciences. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 599 Special Topics
Units: 1, 1.5, 2, 3 Max Units: 09 Terms Offered: FaSpSm Selected topics reflecting current trends and recent developments in management and policy sciences. Registration Restriction: Online registration open only to graduate accounting and business students. Instruction Mode: Lecture Grading Option: Letter

MOR 601 Seminar in Organizational Behavior
Units: 3 Terms Offered: Fa In-depth review of the theories and empirical research in the discipline of organizational behavior. Topics include: personality, motivation, job design, leadership, and others. Instruction Mode: Lecture Grading Option: Letter

MOR 602 Seminar in Organization Theory
Units: 3 Terms Offered: Fa Survey of organization theory with focus on the history and development of research on organizations. Registration Restriction: Open only to Business Administration and Public Policy and Management doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 603 Seminar in Strategic Management
Units: 3 Terms Offered: Sp Seminar of strategic management. Topics include historical overview of strategic management, research methods used, current theory, and empirical research on the developing of paradigms. Registration Restriction: Open only to Business Administration doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 604 Research Methods in Strategy and Organization
Units: 3 Terms Offered: Irregular Seminar of research methods with focus on designing and implementing empirical research projects and critical issues faced by researchers. Instruction Mode: Lecture Grading Option: Letter

MOR 605 Research Methods in Organizational Behavior
Units: 3 Terms Offered: Irregular Design and analysis of behavioral research; methods may include experiments, survey research, qualitative research, statistical analysis, special topics. Emphasis on rigor, validity and statistical power. Instruction Mode: Lecture Grading Option: Letter

MOR 621 Research Forum
Units: 1 Max Units: 4.0 Terms Offered: FaSp Seminar. Review and discuss current research in Organizational Theory, Organizational Behavior and Strategy. Presentations by faculty, visiting researchers, and advanced students. Instruction Mode: Lecture Grading Option: Credit/No Credit

MOR 699 Special Topics
Units: 1.0, 1.5, 2.0, 3.0 Max Units: 08 Terms Offered: FaSpSm Exploration of emerging topics, literature and research techniques in contemporary management, strategy, organizational behavior, organization design, and leadership. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

MOR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Registration Restriction: Open only to Marshall Ph.D. students specializing in Management and...
Organization. Instruction Mode: Lecture
Grading Option: Credit/No Credit

Performance (Early Music)

MPEM 201 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instrument for lower division students. Instruction Mode: Lecture
Grading Option: Letter

MPEM 301 Individual Instruction
Units: 1, 2 Max Units: 16 Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and B.A. music majors. Open only to music majors and minors. Registration Restriction: Open only to music majors and minors Instruction Mode: Lecture Grading Option: Letter

MPEM 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture
Grading Option: Letter

MPEM 450 Collegium Workshop
Units: 1 Max Units: 8.0 Terms Offered: FaSp Study directly and rehearsal of music of the Middle Ages, Renaissance, and Baroque; technique, interpretation, improvisation, and ornamentation. Instruction Mode: Lecture Grading Option: Letter

MPEM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture
Grading Option: Letter

MPEM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPEM 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture
Grading Option: Letter

MPEM 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture
Grading Option: Letter

MPEM 554 Graduate Certificate
Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture
Grading Option: Letter

MPEM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture
Grading Option: Credit/No Credit

MPEM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPEM 650 Collegium Directing
Units: 2 Max Units: 4.0 Practical training in the direction of a Collegium Musicum or other early music ensemble; program planning, repertory search and preparation, historical instrumentation and arranging, rehearsal procedure, improvisational techniques, and maintenance of instruments. Instruction Mode: Lecture
Grading Option: Letter

MPEM 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture
Grading Option: Letter

MPEM 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture
Grading Option: Letter

MPEM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Guitar)

MPGU 101x Non-Major Beginning
Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture
Grading Option: Letter

MPGU 120a Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture
Grading Option: Letter

MPGU 120b Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture
Grading Option: Letter

MPGU 120c Beginning Pop/Rock Guitar
Units: 2 Terms Offered: FaSpSm Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture
Grading Option: Letter

MPGU 121 Intensive Beginning
Pop/Rock Guitar
Units: 4 Terms Offered: FaSp Introduction to the performance technique of pop/rock guitar as well as music theory fundamentals, exploring repertoire by artists such as The Beatles and Dave Matthews. Instruction Mode: Lecture
Grading Option: Letter

MPGU 125 Beginning Fingerstyle/Chord Guitar
Units: 2 Terms Offered: FaSp Basic fingerstyle guitar, learned through the study of such pieces as "Greensleeves," "Malaguena," and "Minuet" (Bach); song accompaniment patterns and music notation for the beginner. Instruction Mode: Lecture
Grading Option: Letter

MPGU 150 Functional Skills for the Popular Guitarist
Units: 2 Study of theory, technique and fingerboard organization of melodic and harmonic topics as applied to guitar. Instruction Mode: Lecture
Grading Option: Letter

MPGU 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture
Grading Option: Letter

MPGU 158 Guitarists in the U.S.
Units: 2 Study of the lives and music of influential guitarists; analysis of musical and technical details. Instruction Mode: Lecture
Grading Option: Letter

MPGU 159 Functional Skills for Studio Guitarists I
Units: 2 Study of technique, theory and aural skills as applied to guitar; fingerboard organization of melodic and harmonic topics as applied to guitar. Instruction Mode: Lecture
Grading Option: Letter

MPGU 160a Functional Skills for the Jazz Guitarist
Units: 2 Study of theory, technique, and fingerboard organization of melodic and harmonic topics as applied to guitar. Prerequisite: MPGU 160a Instruction Mode: Lecture
Grading Option: Letter

MPGU 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture
Grading Option: Letter

MPGU 257 Classical Guitar Performance
Class
Units: 2 Max Units: 8.0 Terms Offered: FaSp Technical problems; solo and ensemble literature; interpretation; professional preparation. Required of first and second year Classical Guitar majors each semester in residence. Instruction Mode: Lecture
Grading Option: Letter
MPGU 390 Special Problems
Units: 2 Max Units: 4.0 Terms Offered: Sp
Prerequisite: MPGU 159. Instruction Mode: Lecture
Grading Option: Letter

MPGU 258 Functional Skills for Studio Guitarists I
Units: 2 Max Units: 4.0 Terms Offered: FaSp
Prerequisite: MPGU 101. Instruction Mode: Lecture
Grading Option: Letter

MPGU 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular
Registration Restriction: only for students with previous
enrollment by petition only. Instruction Mode: Lecture
Grading Option: Letter

MPGU 415 Studio Guitar Pedagogy
Units: 2 Teaching techniques and literature; function
of the hands; acoustical properties of instruments.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 416 Evolution of the Guitar in the United States
Units: 3 Historical survey of styles, literature
and performance practice; emphasis on playing
and performance practice. A time-line study
relating guitar to popular music and historical events.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 417 Classical Guitar Pedagogy
Units: 2 Teaching techniques and literature; function
of the hands; acoustical properties of instruments.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 420 Guitar Styles
Units: 2 Max Units: 12 Detailed exploration of a specific style or genre of guitar playing
through study of repertoire, history and practice,
and exploration of techniques. Instruction Mode: Lecture
Grading Option: Letter

MPGU 426 Classical Guitar History and Literature
Units: 2 Survey of the history and literature of the guitar and its relatives, primarily
the lute and vihuela, from 1500 to 1850.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 427 Advanced Topics in Classical Guitar History and Literature
Units: 2 Study of the literature of the modern classical guitar and its antecedents
and relatives with an emphasis on 20th
and 21st century works. Recommended
Preparation: MPGU 426 Instruction Mode: Lecture
Grading Option: Letter

MPGU 428a Improvisation and Arranging for Guitarists
Units: 3 Principles of improvisation and
impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 428b Improvisation and Arranging for Guitarists
Units: 3 Principles of improvisation and
impromptu arranging; comparison and application of techniques and musical styles of the various kinds of guitars and related fretted instruments.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture
Grading Option: Letter

MPGU 457 Classical Guitar Performance Class
Units: 2 Max Units: 8.0 Terms Offered: FaSp Technical problems; solo and ensemble literature.
Required of all third and fourth year classical guitar majors each fall semester in residence.
Instruction Mode: Lecture
Grading Option: Letter

MPGU 458 Current Electric Guitar Styles
Units: 2 Analysis and performance of music and techniques currently in use in the
recording, TV and motion picture studios;
includes study of recordings, videos and
guitar equipment. Instruction Mode: Lecture
Grading Option: Letter

MPGU 459 Functional Skills for Classical Guitarists II
Units: 2 Terms Offered: Sp Advanced theory and composition on the guitar.
Weekly analysis exercises, arranging
projects and studies in improvisation and
ornamentation are directed toward creating
an original solo or chamber work for guitar.
Recommended Preparation: MUCO 232b,
MUCO 233b. Instruction Mode: Lecture
Grading Option: Letter

MPGU 460 Advanced Improvising and Arranging for Jazz Guitar
Units: 2 Max Units: 0.8 Advanced study and
application of principles of improvisation and arranging for Jazz Guitar. Instruction Mode: Lecture
Grading Option: Letter

MPGU 462 Recording and Producing Techniques for the Guitarist
Units: 2 Detailed exploration of arranging,
recording and producing techniques for
contemporary guitarists. Instruction Mode: Lecture
Grading Option: Letter

MPGU 499 Special Topics
Units: 2, 3, 4 Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPGU 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction and related
lab participation for Graduate Certificate
students. Instruction Mode: Lecture
Grading Option: Letter

MPGU 557 Advanced Classical Guitar Performance Class
Units: 1 Max Units: 4.0 Study of advanced classical guitar solo and ensemble
literature; interpretation; professional
preparation and other topics appropriate for
student. Prerequisite: bachelor's degree with music major; principal instrument, classical guitar. Instruction Mode: Lecture
Grading Option: Letter

MPGU 558 Advanced Studio Guitar Performance Class
Units: 1 Max Units: 4.0 Study of advanced
studio guitar and ensemble literature;
interpretation; professional preparation and other topics appropriate for group study. Prerequisite: bachelor's degree with music major; principal instrument, studio guitar. Instruction Mode: Lecture
Grading Option: Letter

MPGU 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research
and readings. Instruction Mode: Lecture
Grading Option: Letter

MUCO 232a, 232b, 233b, 234b

 CPRS 20x Directed Research
Units: 1, 2, 3, 4 Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MUCO 232a
Lecture
Instruction Mode:
Grading Option:

COURSES OF INSTRUCTION
to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPGU 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPGU 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MPGU 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Medical Physiology
MPHY 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MPHY 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MPHY 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to master students. Duplicates Credit in former PHBI 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPHY 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594a. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 594z Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit upon acceptance of thesis. Duplicates Credit in former PHBI 594z. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPHY 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Keyboard Studies)

MPKS 150a Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150b Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150c Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 150d Beginning Piano
Units: 2 Terms Offered: FaSp Techniques of performance, note reading, and basic musicianship. Instruction Mode: Lecture Grading Option: Letter

MPKS 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPKS 160a Functional Skills for Keyboard Majors I
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to intermediate literature; c-clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 160b Functional Skills for Keyboard Majors II
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini survey; basic keyboard literature. Prerequisite: MPKS 160b. Instruction Mode: Lecture Grading Option: Letter

MPKS 206a Functional Skills for Keyboard Majors I
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to intermediate literature; c-clef and open score reading; improvisation and functional harmony. Introduction to standard reference works, periodicals. Required of all keyboard majors. Instruction Mode: Lecture Grading Option: Letter

MPKS 206b Functional Skills for Keyboard Majors II
Units: 2 Terms Offered: FaSp Sight-reading and principles of style as related to lower advanced literature; extended score reading; improvisation and functional harmony. Mini survey; basic keyboard literature. Prerequisite: MPKS 206b. Instruction Mode: Lecture Grading Option: Letter

MPKS 209 Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Duplicates Credit in former MPKS 201 and MPKS 401. Instruction Mode: Lecture Grading Option: Letter

MPKS 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPKS 201 and MPKS 401. Instruction Mode: Lecture Grading Option: Letter

MPKS 350a Keyboard Instruction II
Units: 2 Terms Offered: FaSp Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations. Group and individualized instruction in a keyboard laboratory facility. Prerequisite: MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MPKS 350b Keyboard Instruction II
Units: 2 Terms Offered: FaSp Intermediate and advanced instruction; development of reading, performance and improvisation skills necessary for proficiency examinations. Group and individualized instruction in a keyboard laboratory facility. Prerequisite: MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

**Other Courses**

- MPPM 260: Methods of practical keyboard skills, including reading and realizing chord symbols, basics of voice leading, study of various harmonic and rhythmic styles. Instruction Mode: Lecture | Grade Option: Letter
- MPPM 250: Keyboard Proficiency for the Popular Musician | Units: 2 | FaSp Study of musical elements appropriate to the performance of popular music in a collaborative, interactive environment. Instruction Mode: Lecture | Grade Option: Letter
- MPPM 153: Individual Instruction | Units: 2 | FaSp Individual study in drum set techniques. Instruction Mode: Lecture | Grade Option: Letter
- MPPM 253: Individual Instruction | Units: 1 | FaSp Weekly individual instruction. Instruction Mode: Lecture | Grade Option: Letter
- MPPM 300x: Non-Major Individual Instruction | Units: 1 | FaSp Intermediate and advanced instruction for DMA Performance majors. Instruction Mode: Lecture | Grade Option: Letter
MPPM 320 Popular Music Performance II
Units: 2 Max Units: 8.0 Terms Offered: FaSp Development of ensemble and communication skills through the performance and interpretation of American popular music in concert and studio settings. Development of original compositions. Prerequisite: MPPM 120. Instruction Mode: Lecture Grading Option: Letter

MPPM 325a Arranging in Popular Music
Units: 2 Principles and techniques of arranging for voice and rhythm section in the popular music idiom. Instruction Mode: Lecture Grading Option: Letter

MPPM 325b Arranging in Popular Music
Units: 2 Writing and arranging for small groups of brass, wind, and/or string instruments with rhythm section in the popular music idiom. Prerequisite: MPPM 325a. Instruction Mode: Lecture Grading Option: Letter

MPPM 340 Intermediate Drum Set Proficiency
Units: 2 Terms Offered: FaSp Intermediate level instruction in drum set performance including accompaniment techniques, fills, beat and brush patterns in jazz, Afro-Caribbean and Brazilian styles, interpreting drum charts. Recommended Preparation: MPPM 240. Instruction Mode: Lecture Grading Option: Letter

MPPM 350g A History of Popular Music
Units: 4 The history of popular music particularly as developed in America in the 20th and early 21st centuries. Recommended Preparation: MUHL 250g Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MPPM 353 Individual Instruction
Units: 1, 2 Max Units: 8.0 Weekly individual instruction in primary major instrument. Instruction Mode: Lecture Grading Option: Letter

MPPM 370 The Vocal Edge: Contemporary Vocal Performance Techniques
Units: 2 Max Units: 4 A study of the practical aspects of vocal performance and skills necessary to increase one's opportunities within the music industry. Instruction Mode: Lecture Grading Option: Letter

MPPM 420 Popular Music Performance Styles and Genres
Units: 2 Max Units: 8.0 Terms Offered: FaSp The detailed exploration of a specific style or genre in Popular Music through study of repertoire, history and practice with particular emphasis on performance. Recommended Preparation: MPPM 120 and MPPM 320. Instruction Mode: Lecture Grading Option: Letter

MPPM 450a Final Project
Units: 1 Terms Offered: FaSp Major collaborative performance project in popular music. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPPM 450b Final Project
Units: 1 Terms Offered: FaSp Major collaborative performance project in popular music. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPPM 453 Individual Instruction
Units: 1, 2 Max Units: 8.0 Weekly individual instruction in primary major instrument. Instruction Mode: Lecture Grading Option: Letter

MPPM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Open only to juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

MPPM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPPM 501 Individual Instruction
Units: 1, 2 Max Units: 8.0 Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPPM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the Master's Degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPPM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest Instruction Mode: Lecture Grading Option: Letter

MPPM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Strings)
MPST 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction in the beginning level designed for non-music majors with no previous experience. Instruction Mode: Lecture Grading Option: Letter

MPST 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 163 Class Harp
Units: 2 Max Units: 4 Basic instruction in the fundamentals of solo harp playing, note reading, and basic musicianship. Instruction Mode: Lecture, Lab Grading Option: Letter

MPST 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 262 Double Bass Performance Class
Units: 1 Max Units: 4.0 Terms Offered: FaSp Study of solo and orchestra repertoire, professional preparation, and teaching techniques. Required of all first and second year double bass majors each semester in residence. Prerequisite: music major. Instruction Mode: Lecture Grading Option: Letter

MPST 263 Harp Performance Class
Units: 1 Max Units: 4.0 Terms Offered: FaSp Study of solo and orchestra repertoire, professional preparation, and teaching technique. Required of all first and second year harp majors each semester in residence. Prerequisite: music major. Instruction Mode: Lecture Grading Option: Letter

MPST 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Recommended Preparation: MPST 101. Duplicates Credit in former MPST 201 and MPST 401. Instruction Mode: Lecture Grading Option: Letter

MPST 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPST 201 and MPST 401. Instruction Mode: Lecture Grading Option: Letter

MPST 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPST 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MPST 462 Double Bass Performance Class
Units: 1 Max Units: 8.0 Terms Offered: FaSp Continuation of MPST 262. Required of all third and fourth year double bass majors each semester in residence. Prerequisite: music major. Instruction Mode: Lecture Grading Option: Letter

MPST 463 Harp Performance Class
Units: 1 Max Units: 8.0 Terms Offered: FaSp Continuation of MPST 263. Required of all third and fourth year harp majors each semester in residence. Prerequisite: music major. Instruction Mode: Lecture Grading Option: Letter

MPST 471a String Pedagogy
Units: 2 Terms Offered: FaSp Survey of teaching literature; techniques of teaching beginning, intermediate, and advanced students. Instruction Mode: Lecture Grading Option: Letter

MPST 471b String Pedagogy
Units: 2 Terms Offered: FaSp Survey of teaching literature; techniques of teaching beginning, intermediate, and advanced students. Instruction Mode: Lecture Grading Option: Letter

MPST 472 Orchestra Repertoire--Strings
Units: 2 Max Units: 08 Orchestral literature for string players, covering a broad spectrum of the repertoire, emphasis on preparation for auditions. Instruction Mode: Lecture Grading Option: Letter

MPST 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0
Molecular Pharmacology and Toxicology

MPTX 500 Molecular Pharmacology and Toxicology I
Units: 4 Terms Offered: Fa This is the first part of a two-semester introductory and survey course for the molecular pharmacology and toxicology degree program. Prerequisite: knowledge of biochemistry. Instruction Mode: Lecture Grading Option: Letter

MPTX 501 Molecular Pharmacology and Toxicology II
Units: 4 Terms Offered: Sp The second part of the two-semester course covers the general aspects of molecular pharmacology and toxicology on the basis of biochemical, molecular, biological and environmental approaches. Prerequisite: MPTX 500.

Instruction Mode: Lecture Grading Option: Letter

MPTX 502 Pharmacology
Units: 4 Terms Offered: Fa Fundamentals of pharmacology in the context of the rapidly developing knowledge of related disciplines. Instruction Mode: Lecture Grading Option: Letter

MPTX 510 Topics in Pharmacology: the Other Side of Drugs
Units: 2, 3 Terms Offered: Fa Nexus of pharmacology and toxicology; therapeutic use and toxicity of common drugs; and prescribing these drugs in clinical practice. Instruction Mode: Lecture Grading Option: Letter

MPTX 511 Introduction to Medical Product Regulation
Units: 3 Terms Offered: Sm Introduction to regulatory environments surrounding medical product development, manufacturing, marketing; operation of federal, state and international regulatory bodies. Recommended Preparation: undergraduate degree in pharmacy, 511 medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 512 Regulation of Pharmaceutical and Biological Products
Units: 3 Terms Offered: Sm Ensuring safety and effectiveness of new drugs and biologics; marketing and monitoring approved pharmaceutical/biological products; management of genetically engineered products. Recommended Preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 513 Regulation of Medical Devices and Diagnostics
Units: 3 Terms Offered: Sm Development and testing of new medical products according to U.S. and international regulatory requirements. Recommended Preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 514 Regulation of Food and Dietary Supplements
Units: 3 Terms Offered: Sm Regulation and testing of foods, food additives and dietary supplements in the U.S. and abroad. Recommended Preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

MPTX 515 Quality Systems and Standards
Units: 3 Terms Offered: Sm Principles of quality assurance and quality control for medical-product development and manufacture. Recommended Preparation: undergraduate degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter
MPTX 531 Cell Biology
Units: 4 (Enroll in INTD 531)

MPTX 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

MPTX 571 Biochemistry
Units: 4 Terms Offered: Sp (Enroll in INTD 571)

MPTX 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

MPTX 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

MPTX 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 598a Directed Field-Research Project
Units: 6 Terms Offered: FaSpSm Research/public analysis conducted under preceptor supervision in an industrial or governmental setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 700 Seminar in Molecular Pharmacology and Toxicology
Units: 1 Max Units: 8.0 Terms Offered: FaSp Contemporary advances in molecular pharmacology and toxicology research. Registration required during each year of residency. Instruction Mode: Lecture Grading Option: Letter

MPTX 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPTX 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MPTX 794d Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Performance (Vocal Arts)

MPVA 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSp Fundamentals of singing, diction, and repertoire building. Prerequisite: MPVA 141. Instruction Mode: Lecture Grading Option: Letter

MPVA 140 Vocal Production for Musical Theatre
Units: 2 Exploration of the physiology and acoustics of the human singing voice in a group setting, with an emphasis on musical theatre repertoire. Instruction Mode: Lecture Grading Option: Letter

MPVA 141 Class Voice
Units: 2 Max Units: 4.0 Terms Offered: FaSp Introduction to the fundamental principles of singing: breath control, tone production, diction, and the use of appropriate song material. Instruction Mode: Lecture Grading Option: Letter

MPVA 150 Musical Theatre Song Interpretation: Tin Pan Alley Era
Units: 2 Study and performance of the music and lyrics that created contemporary Broadway: the Tin Pan Alley era 1855-1940. Instruction Mode: Lecture Grading Option: Letter

MPVA 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSp Sm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 203a Acting for Singers I
Units: 2 Terms Offered: FaSp Use of dramatic techniques in the interpretation and performance of music; basic acting techniques for the operatic and recital stages; sensory exercises, movement, improvisation, relaxation and make-up. Recommended Preparation: MPVA 153. Duplicates Credit in former MPVA 303. Instruction Mode: Lecture Grading Option: Letter

MPVA 241 Intermediate Class Voice
Units: 2 Max Units: 4.0 Terms Offered: FaSp Continued development of the fundamentals of singing, diction, and repertoire building. Instruction Mode: Lecture Grading Option: Letter

MPVA 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 260 Italian Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading and writing Italian. Emphasizes musical texts including Italian song and operatic arias. Duplicates Credit in ITAL 120 Instruction Mode: Lecture Grading Option: Letter

MPVA 261 French Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading and writing French. Emphasizes musical texts including French song and operatic arias. Duplicates Credit in FREN 120 Instruction Mode: Lecture Grading Option: Letter

MPVA 262 German Language and Diction
Units: 4 Developing competence in listening, vocal pronunciation, speaking, singing, International Phonetic Alphabet (IPA), reading and writing German. Emphasizes musical texts including German song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16 Intermediate and advanced instruction designed for non-music majors. Credit Restriction: Not available for credit to music majors. Duplicates Credit in former MPVA 201 and former MPVA 401 Instruction Mode: Lecture Grading Option: Letter

MPVA 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction: secondary emphasis for music majors, principal emphasis for music minors and all BA music majors. Duplicates Credit in former MPVA 201 and MPVA 401. Instruction Mode: Lecture Grading Option: Letter

MPVA 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered:
FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MPVA 402 Musical Theatre Workshop I
Units: Study of the acting, musical, and movement elements involved in the performance of the Broadway musical repertoire. Instruction Mode: Lecture Grading Option: Letter

MPVA 403 Acting for Singers II
Units: Acting of operatic roles in different FaSp Continuation of MPVA 203a, MPVA 203b. Acting of operatic roles in different periods and styles; specific recital and audition techniques. Recommended Preparation: MPVA 203a, MPVA 203b. Instruction Mode: Lecture Grading Option: Letter

MPVA 404 Word and Music in Opera
Units: 2 Max Units: 8.0 Terms Offered: FaSp Continuation of MPVA 203a, MPVA 203b. Acting of operatic roles in different periods and styles; specific recital and audition techniques. By audition only. Recommended Preparation: MPVA 203a, MPVA 203b. Instruction Mode: Lecture Grading Option: Letter

MPVA 405 USC Opera
Units: 2 Max Units: 12.0 Terms Offered: FaSp Preparation, rehearsal, and performance of operatic works and excerpts; study of different operatic styles; public appearances. By audition only. Instruction Mode: Lecture Grading Option: Letter

MPVA 406 Opera Coaching Techniques
Units: 2 Max Units: 8.0 Terms Offered: Irregular Score study for pianists, coaches, and conductors; role analysis; transcription techniques for one or two pianos of an orchestral score. Instruction Mode: Lecture Grading Option: Letter

MPVA 407 Directing for the Operatic Stage
Units: 2 Max Units: 8.0 Terms Offered: FaSp Various approaches to operatic style; basic blocking; stage management. Student direction of scenes produced in USC Opera. Instruction Mode: Lecture Grading Option: Letter

MPVA 412 Musical Theatre Workshop II
Units: 3 Max Units: 06 Stylistic and technical features of dramatic and musical elements involved in performance of the Broadway musical and standard operetta repertory; staging of scenes. Prerequisite: MPVA 402 Instruction Mode: Lecture Grading Option: Letter

MPVA 422 Musical Theatre Vocal Book Preparation
Units: 2 Curation and preparation of a professional vocal book for musical theatre auditions. Instruction Mode: Lecture Grading Option: Letter

MPVA 438 Foundations of Vocology
Units: 2 Voice physiology, voice hygiene, voice acoustics, and the cognitive substrates of Motor Learning. Instruction Mode: Lecture Grading Option: Letter

MPVA 440 Italian and French Diction
Units: 2 Principles of pronunciation and enunciation; use of International Phonetic alphabet. Duplicates Credit in former MPVA 442a. Instruction Mode: Lecture Grading Option: Letter

MPVA 441 English and German Diction
Units: 2 Principles of pronunciation and enunciation; use of International Phonetic alphabet. Instruction Mode: Lecture Grading Option: Letter

MPVA 442 Introduction to the International Phonetic Alphabet
Units: 2 Terms Offered: Fa Principles of pronunciation and enunciation; basic application of the International Phonetic Alphabet symbols and sounds to English, German, Italian, French and Latin. Instruction Mode: Lecture Grading Option: Letter

MPVA 443 Cantata and Oratorio
Units: 2, 2 years Terms Offered: Fa Historical survey of literature, style and performance practice; emphasis on performing solo and small ensemble sections of larger works. Instruction Mode: Lecture Grading Option: Letter

MPVA 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 479 Song Literature
Units: 2 Max Units: 04 Song literature of Italy, France, Germany, Russia, Norway, Sweden, England, America; comparative analysis of various composers and their influence on song literature. Duplicates Credit in former MUHL 479 Instruction Mode: Lecture Grading Option: Letter

MPVA 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MPVA 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPVA 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors in the study of non-music majors. Instruction Mode: Lecture Grading Option: Letter

MPVA 540 Special Studies in Vocal Literature
Units: 2 Max Units: 6.0 Terms Offered: Sp Art song, concert and operatic repertoire. Emphasis to be determined by the department. Instruction Mode: Lecture Grading Option: Letter

MPVA 541 Advanced Vocology
Units: 2 Voice physiology, both classical and non-classical vocal techniques, voice hygiene, advanced voice acoustics, survey of literature from expertise studies, and the cognitive substrates of motor learning. Instruction Mode: Lecture Grading Option: Letter

MPVA 542 Vocal Pedagogy Teaching Practicum
Units: 2 Applying principles learned in vocology and/or pedagogy through practice voice teaching in both classical and non-classical singing styles. Prerequisite: MPVA 438 or MPVA 541 Instruction Mode: Lecture Grading Option: Letter

MPVA 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MPVA 560 Graduate Italian Diction
Units: 2 A review of the rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure of the Italian language through the texts of select repertoire in both Italian song and operatic arias. Instruction Mode: Lecture Grading Option: Letter

MPVA 561 Graduate French Diction
Units: 2 A review of French rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure through the in-depth study of song and aria texts. Instruction Mode: Lecture Grading Option: Letter

MPVA 562 Graduate German Diction
Units: 2 A review of German rules of pronunciation, International Phonetic Alphabet (IPA) and grammatical structure through the in-depth study of song and aria texts. Recommended Preparation: An undergraduate course in Diction Instruction Mode: Lecture Grading Option: Letter

MPVA 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MPVA 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MPVA 653 Individual Instruction
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual instruction and vocal performance forum. Instruction Mode: Lecture Grading Option: Letter

MPVA 754 Artist Diploma Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Artist Diploma students. Instruction Mode: Lecture Grading Option: Letter

MPVA 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

Performance (Wind and Percussion)

MPWP 101x Non-Major Beginning Individual Instruction
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience.
MPWP 153 Individual Instruction
Units: 1 or 2 Max Units: 8.0
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

MPWP 252 Individual Instrument
Performance Class I
Units: 1 Max Units: 4.0
Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence. Instruction Mode: Lecture
Grading Option: Letter

MPWP 253 Individual Instruction
Units: 1 or 2 Max Units: 8.0
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

MPWP 300x Non-Major Individual Instruction
Units: 1, 2 Max Units: 16.0
Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors.
Recommended Preparation: MPWP 101.
Duplicates Credit in former MPWP 201 and MPWP 401.
Instruction Mode: Lecture
Grading Option: Letter

MPWP 301 Individual Instruction
Units: 1, 2 Max Units: 16.0
Terms Offered: FaSpSm Intermediate and advanced instruction on secondary instrument for music majors, on principal instrument for music minors and BA music majors.
Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MPWP 201 and MPWP 401.
Instruction Mode: Lecture
Grading Option: Letter

MPWP 353 Individual Instruction
Units: 1 or 2 Max Units: 8.0
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

MPWP 390 Special Problems
Units: 1, 2, 3, 4 Max Units: 4.0
Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only.
Instruction Mode: Lecture
Grading Option: Letter

MPWP 440 Drum Set for Classical Percussionists
Units: 1 Max Units: 2.0
Terms Offered: Fa A progressive course for Classical percussion majors as it pertains to drum set in the symphony orchestra and other classical settings. Registration Restriction: Open only to percussion, and performance (wind instrument or percussion). Instruction Mode: Lecture
Grading Option: Letter

MPWP 452 Individual Instrument Performance Class II
Units: 1 Max Units: 4.0
Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion majors each semester in residence. Instruction Mode: Lecture
Grading Option: Letter

MPWP 453 Individual Instruction
Units: 1 or 2 Max Units: 8.0
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

MPWP 480 Brass Pedagogy Practicum
Units: 2
Teaching and learning of respiration, articulation and phrasing, studio teaching, performance, examination of historically important brass pedagogues and practical training. Instruction Mode: Lecture
Grading Option: Letter

MPWP 481 Interpretation of Baroque Music
Units: 2 Max Units: 6.0
Terms Offered: FaSp Repertoire and performance practice in music of the period: style, phrasing, embellishments, dynamics, tempi. Performance in class of solo and ensemble works, instrumental and vocal. Instruction Mode: Lecture
Grading Option: Letter

MPWP 482 Interpretation of Classic, Romantic, and 20th Century Wind and Percussion Music
Units: 2
Analysis and performance of 18th, 19th, and 20th century ensemble music, octet through symphonic band; historical perspectives of instruments including technical developments. Instruction Mode: Lecture
Grading Option: Letter

MPWP 490 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture
Grading Option: Letter

MPWP 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0
Terms Offered: Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MPWP 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0
Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture
Grading Option: Letter

MPWP 551 Individual Instrument Performance Class III
Units: 1 Max Units: 2.0
Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Intended for MM wind and percussion majors. Instruction Mode: Lecture
Grading Option: Letter

MPWP 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0
Terms Offered: FaSpSm
Instruction Mode: Lecture
Grading Option: Letter

MPWP 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0
Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture
Grading Option: Letter

MPWP 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm Research leading to the masters degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture
Grading Option: Credit/No Credit

MPWP 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0
Terms Offered: Selected topics of current interest. Instruction Mode: Lecture
Grading Option: Letter

MS 101 Foundations of Officership
Units: 1
Terms Offered: FaIntroduces students to issues and competencies that are central to a commissioned officer's responsibilities. Establish framework for understanding officership, leadership, and Army values followed and "life skills" such as physical fitness and time management. Duplicates Credit in former MS 100.
Instruction Mode: Lecture
Grading Option: Letter

MS 102 Basic Leadership
Units: 1
Terms Offered: SpEstablishes foundation of basic leadership fundamentals such as problem solving, communications, briefings and effective writing, goal setting, techniques for improving listening and speaking skills and an introduction to counseling. Duplicates Credit in former MS 110.
Instruction Mode: Lecture, Lab
Grading Option: Letter

MS 201 Individual Leadership Studies
Units: 2
Terms Offered: SpStudents identify successful leadership characteristics through observation of others and self through experimental learning exercises. Students record observed traits (good and bad) in a dimensional leadership journal and discuss observations in small group settings. Duplicates Credit in former MS 200.
Instruction Mode: Lecture
Grading Option: Letter

MS 202 Leadership and Teamwork
Units: 2
Terms Offered: SpStudy examines how to build successful teams, various methods for influencing action, effective communication in setting and achieving goals, the importance of timing the decision, creativity in the problem solving process, and obtaining team buy-in through immediate feedback. Duplicates Credit in former MS 210.
Instruction Mode: Lecture
Grading Option: Letter

MS 301 Leadership and Problem Solving
Units: 3
Terms Offered: FaStudents conduct self-assessment of leadership style, develop personal fitness regimen, and learn to plan and conduct individual/unit tactical training while testing reasoning and problem-solving techniques. Students receive direct feedback on leadership abilities. Duplicates Credit in former MS 300.
Instruction Mode: Lecture, Lab
Grading Option: Letter

MS 302 Leadership and Ethics
Units: 3
Terms Offered: SpExamines the role communications, values, and ethics play in effective leadership. Topics include ethical decision-making, consideration of
others, spirituality in the military, and survey Army leadership doctrine. Emphasis on improving oral and written communication abilities. duplication of credit in former MS 310. Instruction Mode: Lecture Grading Option: Letter

MS 401 Leadership and Management I
Units: 3 Terms Offered: Fa Teaches students about leadership in complex organizations, functioning effectively as a member of a team, and mentoring subordinates. Enroll by petition only. Open only to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Lecture

MSCR 400x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Open only to doctoral students. Instruction Mode: Lecture Graduation Option: In-progress to Credit/No Credit

MSCR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Registration Restriction: Only open to juniors and seniors. Duplication of credit in former MUCH 490. Instruction Mode: Lecture Grading Option: Letter

MSCR 499x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Duplication of credit in former MUCH 490. Instruction Mode: Lecture Grading Option: Letter

MSCR 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MSCR 500 Foundations of Sacred Music
Units: 2 An introduction to the history of sacred music, liturgical practices and worship traditions from antiquity to present day. Duplication of credit in former MUCH 570. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 570 Music of the Great Liturgies
Units: 2 Comparison of the Jewish, Eastern Orthodox, Roman Catholic, Lutheran, and Anglican liturgies and their music; relation to music in the nonliturgical service; the church year. Duplication of credit in former MUCH 571. Instruction Mode: Lecture Grading Option: Letter

MSCR 572 Sacred Music Administration
Units: 2 Terms Offered: FaSpSm Developing, maintaining and administering the music program of the church or other religious institutions. Programming, staffing, developing budgets, techniques and repertoire for the graded choir program, handbell choir and other ensembles. Duplication of credit in former MUCH 572. Instruction Mode: Lecture Grading Option: Letter

MSCR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Duplication of credit in former MUCH 590. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSCR 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MSCR 700 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplication of credit in former MUCH 700. Instruction Mode: Lecture Grading Option: Credit/No Credit

MSCR 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794e Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794f Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794g Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794h Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794i Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794j Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794k Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794l Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794m Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794n Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794o Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794p Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794q Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794r Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794s Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794t Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794u Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794v Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794w Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794x Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794y Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MSCR 794z Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Registration Restriction: Only open to doctoral students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Technology

MTEC 137a Music Production I
Units: 2 Introduction to computer-based audio recording systems and audio recording, editing and mixing procedures and techniques. Instruction Mode: Lecture Grading Option: Letter

MTEC 137b Music Production II
Units: 2 Introduction to studio recording systems, headphone cues and recording session procedures and techniques. Prerequisite: MTEC 137a Instruction Mode: Lecture Grading Option: Letter

MTEC 175 Fundamentals of Audio Recording
Units: 2 Introduction to the principles and techniques of audio recording. Students will gain a basic understanding of signal flow, gain structure, microphones, monitoring systems, signal processing, mixing. Duplication of credit in former MTEC 275a. Instruction Mode: Lecture Grading Option: Letter

MTEC 176 Critical Listening
Units: 2 Introductory course where students...
will develop an understanding of audio quality, the musical aspects of audio production and the vocabulary necessary to offer audio critique. Recommended Preparation: MTEC 175. Duplicates Credit in former MTEC 275a. Instruction Mode: Lecture Grading Option: Letter

MTEC 237a Music Production II
Units: 2 Study of small ensemble (rhythm section, vocals, background vocals) music production in a variety of popular music styles. Prerequisite: MTEC 137b Instruction Mode: Lecture Grading Option: Letter

MTEC 237b Music Production II
Units: 2 Study of large ensemble (rhythm section, vocals, background vocals) music production in a variety of popular music styles. Prerequisite: MTEC 237a Instruction Mode: Lecture Grading Option: Letter

MTEC 245 Introduction to MIDI Sequencing
Units: 1 Terms Offered: FaSp Introductory course where students will learn to use professional MIDI sequencing software to sequence, edit, and realize music compositions. Instruction Mode: Lecture Grading Option: Letter

MTEC 246 Introduction to Audio Recording and Editing
Units: 1 Terms Offered: FaSp Introduction to the techniques and applications of recording and mixing sound on personal computers. Instruction Mode: Lecture Grading Option: Letter

MTEC 248 Introduction to Music Notation
Units: 1 Terms Offered: FaSp Introduction to the skills and techniques required to prepare musical scores and parts using industry standard music notation software. Instruction Mode: Lecture Grading Option: Letter

MTEC 249 Introduction to Web Design for Musicians
Units: 1 Terms Offered: FaSp Introductory course where students will learn to use professional web languages, tools, and techniques to create musical artist and band websites. Instruction Mode: Lecture Grading Option: Letter

MTEC 275 Fundamentals of Audio Engineering
Units: 4 Fundamentals of Audio Engineering is an intermediate course in the principles and techniques of professional audio production as related to music. Recommended Preparation: MTEC 175 and MTEC 176. Duplicates Credit in former MTEC 275b. Instruction Mode: Lecture, Lab Grading Option: Letter

MTEC 277x Introduction to Music Technology
Units: 4 Terms Offered: FaSpSm A survey of the technology used to create, prepare, perform, and distribute music, with an emphasis on recording, MIDI, music production, mastering and Internet technologies. Duplicates Credit in former MUIN 277. Instruction Mode: Lecture Grading Option: Letter

MTEC 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSp Intermediate and advanced instruction in the applications of technology to the creation and performance of music.

Recommended Preparation: experience with audio recording and synthesizers. Instruction Mode: Lecture Grading Option: Letter

MTEC 337a Music Production III
Units: 2 Small group instruction to develop the student's arranging, production and project management skills as related to small budget music and multimedia projects. Prerequisite: MTEC 237b Instruction Mode: Lecture Grading Option: Letter

MTEC 337b Music Production III
Units: 2 Small group instruction to develop the student's arranging, production and project management skills as related to medium budget music and multimedia projects. Prerequisite: MTEC 337a Instruction Mode: Lecture Grading Option: Letter

MTEC 378 Introduction to Mixing and Mastering
Units: 2 Fundamental principles and techniques used to fuse multiple audio elements into clear, comprehensive final products. Prerequisite: MTEC 446a Instruction Mode: Lecture Grading Option: Letter

MTEC 379a Recording Studio Theory
Units: 2 Basic electronic concepts needed to understand operational parameters of a state-of-the-art recording studio; schematics, interface, capacitance, resistance and problem solving. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 379ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 379b Recording Studio Theory
Units: 2 Basic electronic concepts needed to understand operational parameters of a state-of-the-art recording studio; schematics, interface, capacitance, resistance and problem solving. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 379ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 389 Digital Equipment and Recording
Units: 2 Digital equipment including computers, sequencers, digital signal synthesis, MIDI, and rotary and stationary digital recording. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 389. Instruction Mode: Lecture Grading Option: Letter

MTEC 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSpSm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Duplicates Credit in former MUEA 390. Instruction Mode: Lecture Grading Option: Letter

MTEC 392a Acoustics and Speaker Design
Units: 2 Principles of acoustics relating to studio construction, wall treatment, and furnishings; natural reverberation, speaker materials, passive and active crossovers and time alignment. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 392ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 392b Acoustics and Speaker Design
Units: 2 Principles of acoustics relating to studio construction, wall treatment, and furnishings; natural reverberation, speaker materials, passive and active crossovers and time alignment. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 392ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 430 Advanced Instrumental Recording
Units: 2 An in-depth study of the studio practices and techniques of contemporary music recording. Prerequisite: (MTEC 175 and MTEC 176) or MTEC 277 or MTEC 575 Instruction Mode: Lecture Grading Option: Letter

MTEC 437 Advanced Music Production for Non-Majors
Units: 2 Max Units: 4 The study of small music production in a variety of popular music styles with the goal of developing the students' arranging, production and project management skills. Recommended Preparation: MTEC 275, MTEC 443 or MTEC 444, MTEC 446ab, MUSC 255, MUSC 355 Instruction Mode: Lecture Grading Option: Letter

MTEC 442 Operation of the Radio Studio
Units: 2 Recommended Preparation: FaSpSm An in-depth study of radio studio technical operations. Topics include consoles, microphones, transmission considerations, networks, satellites, and digital and analog production situations. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 442. Instruction Mode: Lecture Grading Option: Letter

MTEC 443 Desktop Music Production
Units: 2 Intermediate course where students will learn to use professional MIDI sequencing and digital audio software to compose, edit, and mix songs and other music compositions. Recommended Preparation: MTEC 245. Duplicates Credit in former MUIN 305. Instruction Mode: Lecture Grading Option: Letter

MTEC 444 Non-Linear MIDI Sequencing
Units: 2 Terms Offered: FaSpSm An in-depth course focusing on the principles and techniques of sequencing and performing musical compositions using a non-linear sequencer. Recommended Preparation: MTEC 245. Instruction Mode: Lecture Grading Option: Letter

MTEC 445 Advanced Desktop Music Production
Units: 2 Students will learn to apply their musical and technical skills to create professional quality computer-based arrangements in a variety of musical styles. Recommended Preparation: MTEC 443 or MTEC 444 and MTEC 474a. Instruction Mode: Lecture Grading Option: Letter

MTEC 446a Computer Assisted Recording and Editing
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for ambient sound effects and dialog for film. Duplicates Credit in former MUIN 446ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 446b Computer Assisted Recording and Editing
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording and editing sound on personal computers. Hardware, software, editing for sound, song
effects and dialog for film. Duplicates Credit in former MUIN 446ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 448 Computer Music Notation and Preparation
Units: 2 Techniques and principles of computer music notation including conventions of music notation, idiomatic practices, preparation of significant score types, and MIDI basics. Duplicates Credit in former MUIN 448. Instruction Mode: Lecture Grading Option: Letter

MTEC 451 Performance Technology
Units: 2 Max Units: 04 In-depth course focusing on the concepts, principles and techniques of performing music using audio and MIDI technology. Recommended Preparation: MTEC 444 Instruction Mode: Lecture Grading Option: Letter

MTEC 474a Electronic Synthesizer Techniques
Units: 2, 3, 4 Terms Offered: FaSpSm Electronic music procedures in a multi-track studio. Duplicates Credit in former MUEA 474abx. Instruction Mode: Lecture Grading Option: Letter

MTEC 474b Electronic Synthesizer Techniques
Units: 2, 3, 4 Terms Offered: FaSpSm Electronic music procedures in a multi-track studio. Computer applications. Duplicates Credit in former MUEA 474abx. Instruction Mode: Lecture Grading Option: Letter

MTEC 477 Remote Recording Techniques
Units: 2 Special problems of location recording; specialized equipment; microphone design and operation. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 477. Instruction Mode: Lecture Grading Option: Letter

MTEC 478 Advanced Multichannel Remix
Units: 2 Special problems of multi-channel re-mixing with simultaneous audio re-processing. Album, film, television and multimedia formats will be covered. Prerequisite: MTEC 446a. Duplicates Credit in former MUIN 478. Instruction Mode: Lecture Grading Option: Letter

MTEC 479 Audio Mastering
Units: 2 A survey of the final creative steps of an audio CD. Concepts of mastering suite design, critical listening, frequency, dynamics and sequencing. Prerequisite: MTEC 275; Recommended Preparation: MTEC 446a. Duplicates Credit in former MUIN 479. Instruction Mode: Lecture Grading Option: Letter

MTEC 486 Computer-Assisted Music Editing for Picture
Units: 2 Terms Offered: FaSpSm Techniques and applications of recording, editing and synchronizing music and sounds to film, video or games, using time code and personal computers. Prerequisite: MTEC 446b. Duplicates Credit in former MUIN 486. Instruction Mode: Lecture Grading Option: Letter

MTEC 488a Recording Studio Maintenance
Units: 2 Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 488ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 488b Recording Studio Maintenance
Units: 2 Fundamentals needed to perform maintenance on professional audio equipment including trouble-shooting, interface, and alignment procedures. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 488ab. Instruction Mode: Lecture Grading Option: Letter

MTEC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Duplicates Credit in former MUEA 490x. Instruction Mode: Lecture Grading Option: Letter

MTEC 491 The Recording Console
Units: 4 Introduction to professional analog audio consoles and their use in recording and mixing music for records, video and film. Prerequisite: MTEC 275 and MTEC 446a. Duplicates Credit in former MTEC 291. Instruction Mode: Lecture Grading Option: Letter

MTEC 493 Audio Signal Processing Equipment
Units: 2 Principles and design characteristics of digital and analog signal processing equipment including plate reverb, digital reverbs, synchronizers, digital editing systems and mastering systems. Prerequisite: MTEC 275. Duplicates Credit in former MUIN 493. Instruction Mode: Lecture Grading Option: Letter

MTEC 494 Classical Music Recording
Units: 4 Principles of classical music recording with emphasis on history, equipment, techniques, and locations. Differences in orchestral, choral, opera, and small ensemble recording. Duplicates Credit in former MUIN 494. Instruction Mode: Lecture Grading Option: Letter

MTEC 498a Senior Project
Units: 1 A culmination of the four-year course of study intended to afford students the opportunity to pursue a mentored project to advance their future careers. Instruction Mode: Lecture Grading Option: In-progress Credit/No Credit

MTEC 498b Senior Project
Units: 1 A culmination of the four-year course of study intended to afford students the opportunity to pursue a mentored project to advance their future careers. Instruction Mode: Lecture Grading Option: Credit/No Credit

MTEC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MTEC 501b Human Gross Anatomy
Units: 4 Terms Offered: SpSm A complete dissection of the adult human body. Supplementary lectures and demonstrations. Emphasis on correlating development, structure and function. a. focuses on the following anatomical regions: Abdomen, Pelvis, and Head and Neck. b. focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity. Instruction Mode: Lecture, Lab Required Credit/No Credit

MTEC 502L Advanced Regional Anatomy I
Units: 2 Terms Offered: Fa In-depth dissection of one or more regions of the human body, supplemented with literature research, and teaching practicum. May also enable the student to pursue a minor research investigation in some anatomical region of choice. Focuses on the following anatomical regions: Axial Skeleton, Upper and Lower Limbs, and Thoracic Cavity.
Prerequisite: CNB 501b Recommended Preparation: Courses in general biology, organismal biology, and/or human anatomy Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 503L Advanced Regional Anatomy II
Units: 2 Terms Offered: Sp In-depth dissection of one or more regions of the human body, supplemented with literature research, and teaching practicum. May also enable the student to pursue a minor research investigation in some anatomical field of choice. Focuses on the following anatomical regions: Abdomen, Pelvis, and specific field of choice. Focuses on the following research investigation in some anatomical region of interest. Recommended Preparation: Courses in general biology, organismal biology, and/or human anatomy Registration Restriction: Open only to students (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 504L Human Skeletal Anatomy
Units: 3 Terms Offered: FaSp An intensive introduction to the human skeleton and the fundamentals of bone and dental biology. Covers a variety of topics including: skeletal development; functional interpretation of bone and bony processes; osteological and dental pathology; human anatomical variation; laboratory analyses and imaging techniques; methods for estimating age, sex, and stature; and comparative osteology. Prerequisite: CNB 501b Recommended Preparation: Equivalent dissection-based human anatomy course. Courses in general biology, organismal biology, and/or biological anthropology. Registration Restriction: Open only to freshmen and sophomores Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 511aL Microscopic Anatomy
Units: 3 Terms Offered: FaSp Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 511bL Microscopic Anatomy
Units: 3 Terms Offered: FaSp Lectures and laboratory in microscopic anatomy emphasizing embryonic origin of the basic body plan, cells, tissues, and organs; ultrastructural and functional correlations.

CNB 512L Pharmacology I
Units: 5 Terms Offered: Fa Actions, chemical properties, bodily distribution, and toxicology of drugs. Duplicates Credit in former PHNU 510L. Instruction Mode: Laboratory

CNB 513 Pharmacology II
Units: 3 Terms Offered: Sp Continuation of 512L. Prerequisite: CNB 512L. Duplicates Credit in former PHNU 511.

CNB 521 Neuroanatomy
Units: 3 Terms Offered: Sp Structure and function in the human nervous system with emphasis on central conduction pathways, especially those of clinical significance.

CNB 525 Neural Development
Units: 3 Terms Offered: Fa Cellular, molecular, and physiological features of development and plasticity in the nervous system. Lecture and student presentations and discussion of classic and current research literature. Prerequisite: BISC 524; Recommended Preparation: background in neurosciences.

CNB 530 Anatomy for the Artist
Units: 1, 2 Terms Offered: Irregular This course includes lectures and demonstrations of human anatomy specifically for the artist, and art instruction on drawing the human figure.

CNB 531 Cell Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 531)

CNB 534 Molecular Aspects of Neuropharmacology
Units: 2 Terms Offered: FaSp Current advances in selected areas of molecular neuropharmacology, e.g., mechanisms by which drugs affect neurotransmitter systems, neural plasticity, treatment of neurological and psychiatric diseases.

CNB 550 Cell and Neurobiology Seminar
Units: 1 Max Units: max 6 Terms Offered: FaSp Reports and discussion on recent advances in anatomy. Duplicates Credit in former ANCB 550. Grading Option: Graded CR/NC.

CNB 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

CNB 571 Biochemistry
Units: 4 Terms Offered: Fa (Enroll in INTD 571)

CNB 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

CNB 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

CNB 580L Gross Anatomy Teaching Practicum I
Units: 4 Terms Offered: Fa Obtain a deeper understanding of clinical anatomy, develop pedagogical skills in small-group anatomical demonstration, and learn to prepare practical exams. Prerequisite: CNB 501b Recommended Preparation: Courses in general biology, organismal biology, human anatomy, and/or physiology Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 581L Gross Anatomy Teaching Practicum II
Units: 4 Terms Offered: Sp Obtain a deeper understanding of clinical anatomy, develop pedagogical skills in small-group anatomical demonstration, and learn to prepare practical exams. Prerequisite: CNB 501b Registration Restriction: Open only to senior (fifth year), graduate and professional students Instruction Mode: Lecture, Lab Required Grading Option: Letter

CNB 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC.

CNB 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Grading Option: Graded IP/CR/NC.

CNB 598 Introductory Laboratory Rotations
Units: 1, 2, 3, 4 Max Units: max 8 Terms Offered: FaSp Special topics provides background for instruction and research in the Department of Cell and Neurobiology through lectures, discussions, assigned readings, and student presentations. Duplicates Credit in former ANCB 599 and PHNU 599.

CNB 600 Literature Tutorial
Units: 1 Max Units: max 3 Terms Offered: FaSp Individualized readings and discussions culminating in a literature-review paper; to promote the acquisition of critical thinking skills in the evaluation of scientific problems. Recommended Preparation: background in biological sciences.

CNB 603 Current Topics in Vision Research
Units: 2 Terms Offered: FaBasic science (e.g., anatomy, cell biology, electrophysiology) and clinical aspects of the eye: cornea, lens, retina, and optic nerve. USC faculty and authorities from other institutions will lecture.

CNB 604 Current Topics in Animal Development
Units: 2, 3, 4 Max Units: max 8 Terms Offered: FaSp Current research in selected aspects of mammalian and nonmammalian developmental biology, including the molecular genetics and molecular biology of organogenesis, morphogenesis, lineage specification, and differentiation. Prerequisite: INTD 561 and CNB 542.

CNB 631 Morphogenesis and Regeneration
Units: 2, 3, 4 Max Units: max 8 Terms Offered: FaSp Analysis of developing and regenerating systems: historical and recent interpretations of morphogenetic movements, tissue interactions, fields, gradients, differentiation, and determination.

CNB 641 Brain-Endocrine Interactions in Reproduction
Units: 2 Terms Offered: Fa Past and current experimental approaches to morphology and endocrinology at hypothalamic, pituitary, and gonadal levels in both males and females. Prerequisite: CNB 511aL, CNB 511bL, or a general endocrinology course.
Conducting

MUCD 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction secondary emphasis for music majors and minors. Registration Restriction: Open only to music majors and minors. Duplicates Credit in former MUCD 401.
Instruction Mode: Lecture Grading Option: Letter

MUCD 340 Choral Conducting I
Units: 2 Terms Offered: FaSpSm Basic conducting techniques; score analysis; conducting patterns; problems of tempo, dynamics, articulation and text. Instruction Mode: Lecture Grading Option: Letter

MUCD 343 Instrumental Conducting I
Units: 2 Terms Offered: FaSp Communicating musical ideas to instrumental ensembles; reading and conducting from full score of orchestral compositions. Prerequisite: ability to read a music score. Instruction Mode: Lecture Grading Option: Letter

MUCD 348 Instrumental Conducting and Orchestration
Units: 2 Reading and conducting from scores, communicating musical ideas to instrumental ensembles, arranging for small and large ensembles, notation, playing techniques, timbre, rhythm and intonation. Instruction Mode: Lecture Grading Option: Letter

MUCD 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCD 441 Choral Conducting II
Units: 2 Refinement of techniques developed in MUCD 440; study of styles and interpretations of choral music from the Renaissance to the present. Prerequisite: MUCD 340 Instruction Mode: Lecture Grading Option: Letter

MUCD 443 Instrumental Conducting II
Units: 2 Terms Offered: FaSpSm Principal composers and representative instrumental works since the 18th century; studies of styles and interpretations based on scores and the performance of works in class. Instruction Mode: Lecture Grading Option: Letter

MUCD 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCD 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCD 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate non-music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MUCD 541 Choral Conducting III
Units: 2 Max Units: 6.0 Problems of preparing and conducting contemporary choral music and major choral-orchestral works from full score; special projects according to student's development and interests. Prerequisite: MUCD 441.
Instruction Mode: Lecture Grading Option: Letter

MUCD 543 Instrumental Conducting III
Units: 2 Max Units: 4.0 Terms Offered: FaSp Problems in advanced conducting. Prerequisite: MUCD 443.
Instruction Mode: Lecture Grading Option: Letter

MUCD 550 Orchestral Conducting Seminar
Units: 2 Max Units: 8.0 Terms Offered: FaSp Advanced instrumental conducting techniques. Literature drawn from music of all periods. Prerequisite: MUCD 441, MUCD 443, and admission as candidate for MM degree in conducting. Instruction Mode: Lecture Grading Option: Letter

MUCD 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MUCD 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCD 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCD 641 Choral Conducting IV
Units: 2 Max Units: 8.0 Continuation of MUCD 541, including choral conducting pedagogy. Prerequisite: MUCD 541.
Instruction Mode: Lecture Grading Option: Letter

MUCD 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Duplicates Credit in former MUPF 653.
Instruction Mode: Lecture Grading Option: Letter

MUCD 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 320 Introduction to Choral Music
Units: 2 An introduction to the many facets of choral music. Grounding in the intellectual and practical issues of choirs, singing, and choral literature. Recommended Preparation: ability to read music. Instruction Mode: Lecture Grading Option: Letter

MUCM 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration is permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUCM 440 Choral Development
Units: 2 Problems of achieving proper balance, blend, intonation, diction, precision, etc., in choral groups; criteria for selection of repertoire for particular groups. Instruction Mode: Lecture Grading Option: Letter

MUCM 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUCM 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCM 541 Choral Literature I
Units: 2 Choral composition from c. 1500 to 1800. Performance and analysis of representative works. Instruction Mode: Lecture Grading Option: Letter

MUCM 542 Choral Literature II
Units: 2 19th and 20th century choral works; criteria for program building. Instruction Mode: Lecture Grading Option: Letter

MUCM 543 Seminar in Choral Music
Units: 2 Max Units: 4.0 Advanced choral techniques; historical, analytical and performance problems. Prerequisite: MUCM 541.
Instruction Mode: Lecture Grading Option: Letter

MUCM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Supervised research in preparation for the Master's recital. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUCM 641 Choral Literature III
Units: 2 Detailed study of selected major choral works; historical context, score analysis, performance practices. Prerequisite: MUCM 541, MUCM 542.
Instruction Mode: Lecture Grading Option: Letter

MUCM 643 Seminar in Choral Music II
Units: 2 Max Units: 4.0 Terms Offered: Sp Continuation of MUCM 543, with concentration on the conducting problems in major choral-orchestral works. Instruction Mode: Lecture Grading Option: Letter

MUCM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUCM 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCM 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUCM 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

MUCM 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

### Music Composition

**MUCO 133b**  
**Instruction Mode:** Lecture  
**Grading Option:** Letter  
**MUCO 332a**  
**Aural Skills II**  
**Units:** 2 Terms Offered: FaSp Continuation of MUCO 132a, MUCO 132b.  
**Instruction Mode:** Lecture, Lab Grading Option: Letter  
**MUCO 332b**  
**Aural Skills II**  
**Units:** 2 Terms Offered: FaSp Continuation of MUCO 132a, MUCO 132b.  
**Instruction Mode:** Lecture, Lab Grading Option: Letter  
**MUCO 333a**  
**Theory II**  
**Units:** 3 Terms Offered: FaSp Analysis of representative pieces from the classic and romantic periods; exercises in composition.  
**Prerequisite:** MUCO 133b.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 333b**  
**Theory II**  
**Units:** 3 Terms Offered: Sp Survey of 20th century developments; composition utilizing 20th century techniques.  
**Prerequisite:** MUCO 133b.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 235**  
**Counterpoint II**  
**Units:** 2 Terms Offered: Sp Studies in tonal counterpoint; two-, three- and four-part counterpoint in 18th century style; polyphonic variations; inventions.  
**Prerequisite:** MUCO 137b.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 236**  
**Orchestrating I**  
**Units:** 2 Terms Offered: FaSp Introduction to the principles of instrumentation; ranges techniques, timbres; transpositions of orchestral instruments; beginning exercises in orchestration.  
**Prerequisite:** MUCO 137b.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 237a**  
**Composition II**  
**Units:** 4 Composition in shorter forms, continuation of score analysis and listening assignments.  
**Prerequisite:** MUCO 137b  
**Instruction Mode:** Lecture, Lab Grading Option: Letter  
**MUCO 237b**  
**Composition II**  
**Units:** 4 Composition in shorter forms, continuation of score analysis and listening assignments.  
**Prerequisite:** MUCO 237a  
**Instruction Mode:** Lecture, Lab Grading Option: Letter  
**MUCO 300**  
**Theory Review**  
**Units:** 1 Terms Offered: FaSpSm Review of materials covered in Theory I and II. For students whose entrance examination in music theory indicates the need for further study.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 321x**  
**Composition for Non-Majors II**  
**Units:** 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction in composition for non-composition majors. Continuation of MUCO 221a, MUCO 221b.  
**Prerequisite:** MUCO 221b.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 333**  
**Aural Skills Review**  
**Units:** 1 Terms Offered: FaSp Review of the materials covered in Aural Skills I, II, and III. For students whose entrance examination in aural skills indicates the need for further study.  
**Instruction Mode:** Lecture Grading Option: Letter  
**MUCO 336a**  
**Orchestration II**  
**Units:** 2 Terms Offered: FaSp Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra;
study of the history of orchestration. 

Prerequisite: MUCO 236. Instruction Mode: Lecture Grading Option: Letter

MUCO 336b Orchestration II

Units: 2 Terms Offered: FaSp Intermediate exercises in orchestration, including scoring for chamber ensembles and orchestra; study of the history of orchestration. 

Prerequisite: MUCO 236. Instruction Mode: Lecture Grading Option: Letter

MUCO 337a Composition III

Units: 2 Individual instruction in composition; preparation for the senior recital. 

Prerequisite: MUCO 237b 

Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 337b Composition III

Units: 2 Individual instruction in composition; preparation for the senior recital. 

Prerequisite: MUCO 337a 

Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 338x Elementary Orchestration

Units: 2 Terms Offered: Fa Range, techniques, timbre, transposition of orchestral instruments; exercises in orchestration. 

Recommended Preparation: MUCO 235b. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 339 Orchestration Review

Units: 1 Terms Offered: FaSm Review of materials covered in elementary orchestration; for students whose entrance examination in orchestration indicates a need for further study. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 341 Counterpoint Review

Units: 1 Terms Offered: SpSm Review of materials covered in tonal counterpoint. For students whose entrance examination in counterpoint indicates the need for further study. For graduate students only. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 360 Music Notation and Copying

Units: 1 Development of skills in music calligraphy. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 370a Arranging for the Recording Media

Units: 2 Arranging and composing for studio recording ensembles. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 370b Arranging for the Recording Media

Units: 2 Arranging and composing for studio recording ensembles. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 390 Special Problems

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. 

Enrollment by petition only. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 406a Contemporary Notation

Units: 2 Notating new music; study and comparison of representative scores. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 406b Contemporary Notation

Units: 2 Notating new music; study and comparison of representative scores. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 422 Composers and Interdisciplinary Art Studies

Units: 2 Max Units: 6.0 A structured collaboration between composers and artists outside of music to explore an interdisciplinary area in an environment of practical collaborative creation. 

Prerequisite: MUCO 133b. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 425 Instrumental Music of Debussy and Ravel

Units: 2 Critical examination of the piano, chamber, and orchestral scores; comparison of styles, techniques and aesthetics of these "Impressionist" composers. 

Prerequisite: MUCO 336a or MUCO 338; MUHL 331; MUHL 332. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 432a Advanced Theory

Units: 1 or 2 Special problems in music theory. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 432b Advanced Theory

Units: 1 or 2 Special problems in music theory. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 434 Analytical Techniques

Units: 2 Selected analytical topics. 

Prerequisite: MUCO 232b, MUCO 233b. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 435 Counterpoint III

Units: 2 Terms Offered: Fa Canon and fugue; 19th and 20th century developments. 

Prerequisite: MUCO 235. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 436 Orchestration III

Units: 2 Terms Offered: Sp Continuation of Orchestration II. 

Prerequisite: MUCO 335a, MUCO 336b, Instruction Mode: Lecture Grading Option: Letter

MUCO 437a Composition IV

Units: 2 Individual instruction in composition; preparation for the senior recital. 

Prerequisite: MUCO 337b 

Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 437b Composition IV

Units: 2 Individual instruction in composition; preparation for the senior recital. 

Prerequisite: MUCO 437a 

Instruction Mode: Lecture, Lab Grading Option: Letter

MUCO 438 Arranging for Marching Band

Units: 2 Fundamental concepts; instrumental capabilities; notation; color and scoring; modulation; percussion writing. 

Prerequisite: MUCO 336b or MUCO 336. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 439 Band Arranging

Units: 2 Max Units: 4.0 Characteristics and use of individual instruments; writing for separate choirs; chamber and solo writing; scoring piano, organ, and orchestral music for band. 

Prerequisite: MUCO 237b, MUCO 336b or MUCO 338. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 441 Choral Arranging

Units: 1, 2 Max Units: 4.0 Terms Offered: FaSpSm Arranging and composing for chorus. 

Prerequisite: MUCO 233b. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 470 Electroacoustic Composition

Units: 2 Electronic music for the composer: history of means and styles, aesthetic issues and practical problems, computer usages, bibliography and repertoire. 

Recommended Preparation: MTEC 474a. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 490x Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 499 Special Topics

Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 501 Introduction to the Analysis of Tonal Music

Units: 2 Terms Offered: FaSp Survey of common practice period (1650–1900) approaches to phrase design, tonal organization and type-forms (binary, ternary, rondo, sonata). 

Instruction Mode: Lecture Grading Option: Letter

MUCO 502 Introduction to the Analysis of Post-Tonal Music

Units: 2 Terms Offered: FaSp Introductory survey of 20th/21st century approaches to the organization of pitch (serial, modal, extended tonal, etc.), rhythm, texture and form. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 521x Composition for Non-Majors III

Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction in composition. 

Prerequisite: submission of portfolio of musical compositions. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 533a Analytical Approaches to Tonal Music

Units: 2 Terms Offered: FaSp Introducing to essential structural and prolongational aspects of Schenkerian theory. 

Prerequisite: MUCO 501. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 533b Analytical Approaches to Tonal Music

Units: 2 Terms Offered: FaSp Application of the Schenkerian methods to individual movements and short pieces. 

Prerequisite: MUCO 501. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 536 Advanced Orchestration I

Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 4.0 

Terms Offered: FaSp Continuation of Orchestration III with emphasis on contemporary techniques. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 537 Advanced Composition I

Units: 1 or 2 Max Units: 8.0 For graduates with evidence of preparation for advanced work. 

Instruction Mode: Lecture Grading Option: Letter

MUCO 538a Analytical Approaches to Post-Tonal Music from 1908–1950

Units: 2 Terms Offered: FaSp The breakdown of tonality, rise of atonal/ pantonal pitch organization, new and extended approaches to tonality, modality. 

Prerequisite: MUCO 502. 

Instruction Mode: Lecture Grading Option: Letter
MU CO 538b Analytical Approaches to Post-Tonal Music from 1908–1950
Units: 2 Terms Offered: FaSp Continuation of MU CO 538a; twelve-tone methods, just tuning systems, new approaches to rhythm, texture, timbre. Prerequisite: MU CO 502. Instruction Mode: Lecture Grading Option: Letter

MU CO 539a Theoretical and Aesthetic Issues in Music from 1950 to the Present
Units: 2 Terms Offered: FaSp Anti-modernism of reaction, post-modernism of indeterminacy, ultra-rationality and integral serialism, new performance procedures, electronic music and new technologies, minimalism. Prerequisite: MU CO 502. Instruction Mode: Lecture Grading Option: Letter

MU CO 539b Theoretical and Aesthetic Issues in Music from 1950 to the Present
Units: 2 Terms Offered: FaSp Post-modernism of reaction, post-modernism of resistance, mannerist minimalism, anti-modernism. Prerequisite: MU CO 502. Instruction Mode: Lecture Grading Option: Letter

MU CO 548 Writer and Composer
Units: 3 Terms Offered: Sp Structured collaboration among composers and poets. Activities include fundamentals of poetry, comparative analysis, creative projects. Instruction Mode: Lecture Grading Option: Letter

MU CO 550 Teaching Music Theory
Units: 2 Comparative study of curricula, text materials, and teaching strategies in music theory. Instruction Mode: Lecture Grading Option: Letter

MU CO 571 Comparative Analytical Studies: Traditional Forms
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical survey of the development of a specific form or genre. Specific emphasis to be determined by the department. Recommended Preparation: MU CO 501. Instruction Mode: Lecture Grading Option: Letter

MU CO 572 Comparative Analytical Studies: 20th/21st Century and Non-Traditional Forms
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm In-depth analysis of characteristic forms and genres of 20th century music or of other forms and genres that do not figure largely in the "common practice" tradition. Specific emphasis to be determined by the department. Recommended Preparation: MU CO 501. Instruction Mode: Lecture Grading Option: Letter

MU CO 573 Special Studies in Contrapuntal Music
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm In-depth analytical and historical study of contrapuntal techniques and styles. Emphasis to be determined by the department. Recommended Preparation: MU CO 501. Instruction Mode: Lecture Grading Option: Letter

MU CO 574 Special Studies in Tonal Analysis
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical study of major composers and/or problems in tonal music. Emphasis to be determined by the department. Recommended Preparation: MU CO 501. Instruction Mode: Lecture Grading Option: Letter

MU CO 575 Special Studies in Post-Tonal Analysis
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Analytical study of major composers and/or problems in post-tonal music. Emphasis to be determined by the department. Recommended Preparation: MU CO 502. Instruction Mode: Lecture Grading Option: Letter

MU CO 576 Special Studies in Musical Aesthetics
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm An investigation of aesthetics in general and the application of aesthetic theories to music; readings will be selected from pre-modern, modern, and post-modern texts. Recommended Preparation: MU CO 501 and MU CO 502. Instruction Mode: Lecture Grading Option: Letter

MU CO 580 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MU CO 592 Selected Topics in Graduate Composition
Units: 2 Max Units: 8.0 Terms Offered: Irregular Seminar for graduate students in composition that addresses aesthetic, technical and analytical issues from a composer's perspective. Registration Restriction: Open only to theory and composition majors. Instruction Mode: Lecture Grading Option: Letter

MU CO 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MU CO 594b Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MU CO 594z Master's Thesis
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MU CO 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MU CO 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MU CO 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Music Teaching and Learning

MTAL 330 Fundamentals of Music
Units: 4 Introduction to the content of music through an investigation of its melodic, rhythmic, and harmonic structure. Duplicate Credit in former MU ED 330x Instruction Mode: Lecture Grading Option: Letter

MTAL 440a Music and Movement: The Orff Approach
Units: 2 Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available. Duplicate Credit in former MU ED 440 Instruction Mode: Lecture Grading Option: Letter

MTAL 440b Music and Movement: The Orff Approach
Units: 2 Orff Schulwerk techniques in rhythmic and melodic training through speech, singing, body percussion, playing Orff instruments, improvisation, and elemental movement. Certification available. Prerequisite: MTAL 440a Duplicate Credit in former MU ED 440 Instruction Mode: Lecture Grading Option: Letter

MTAL 443 Teaching Vocal Jazz
Units: 2 Strategies for teaching the principles of vocal jazz; historical perspective, repertoire, recordings, improvisation, scat, accompaniment,
amplification, rehearsing, teaching sequences. No prior jazz experience necessary. Duplicates Credit in former MUED 443 Instruction Mode: Lecture Grading Option: Letter

MTAL 449 Teaching Marching Band
Units: 2 Modern school marching band techniques; precision drill; administration; rehearsal techniques. Duplicates Credit in former MUED 449 Instruction Mode: Lecture Grading Option: Letter

MTAL 470 Improvisation and Composition for Teaching and Learning
Units: 2 An introduction to the craft of musical improvisation and composition, developing personal and idiomatic vocabulary in a variety of traditional and contemporary musical styles. Instruction Mode: Lecture Grading Option: Letter

MTAL 475 Teaching and Learning: Children
Units: 2 Applied study of developmental, contextual, pedagogical and philosophical issues that underlie children's music learning experiences. Instruction Mode: Lecture Grading Option: Letter

MTAL 476 Teaching and Learning: Youth
Units: 2 Applied study of developmental, contextual, pedagogical and philosophical issues that underlie musical experiences of adolescents and young adults. Instruction Mode: Lecture Grading Option: Letter

MTAL 477 Cultural Diversity in Music Teaching and Learning
Units: 1 Study of cultural issues in music teaching and learning. Instruction Mode: Lecture Grading Option: Letter

MTAL 480 Contemporary Pedagogy, Small Instrumental Ensembles
Units: 3 Designed to cover traditional approaches to small group teaching in schools with contemporary techniques. Percussion, guitar, keyboard, informal instruments are featured. Also features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 481 Contemporary Pedagogy, Larger Instrumental Ensembles
Units: 3 Traditional approaches to large group teaching in schools with contemporary techniques. Brass, woodwind and string instruments are featured. Features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 482 Contemporary Pedagogy, Vocal and General Music
Units: 2 Designed to cover traditional approaches to vocal/general music group teaching in schools with contemporary techniques. Vocal and general music techniques are featured. Also features a fieldwork component. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research and readings. Registration Restriction: Open only to juniors and seniors. Duplicates Credit in former MUED 490x Instruction Mode: Lecture Grading Option: Letter

MTAL 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest reflective of changing trends in music education. Duplicates Credit in former MUED 499 Instruction Mode: Lecture Grading Option: Letter

MTAL 500 Research Foundations in Music Teaching and Learning
Units: 3 Introductory exploration of types of research linked to research literature in music teaching and learning; interpreting research reports; organizing and writing research proposals and reports. Duplicates Credit in former MUED 500 Instruction Mode: Lecture Grading Option: Letter

MTAL 501 Historical Foundations of Music Education
Units: 3 A contextual exploration of the historical development of American music education. Duplicates Credit in former MUED 501 Instruction Mode: Lecture Grading Option: Letter

MTAL 502 Sociological Foundations of Music Teaching and Learning
Units: 3 Study of interdependent relationship between society, music and music education. Duplicates Credit in former MUED 502 Instruction Mode: Lecture Grading Option: Letter

MTAL 503 Philosophical and Advocacy Issues in Music Teaching and Learning
Units: 3 Exploration of philosophical thinking in the field of music with emphasis on philosophical foundations for teaching and learning. Duplicates Credit in former MUED 503 Instruction Mode: Lecture Grading Option: Letter

MTAL 504 Psychological Foundations of Music
Units: 3 Exploration of theories, research and practice in psychological foundations of music teaching and learning. Duplicates Credit in former MUED 504 Instruction Mode: Lecture Grading Option: Letter

MTAL 505 Teaching and Learning Music Units
Units: 2 Studies of the latest resources concerning the teaching and learning of music so that musicians can function more effectively as both teachers and performers. Duplicates Credit in former MUED 505 Instruction Mode: Lecture Grading Option: Letter

MTAL 510 Leading a Music Program in a Public School Setting
Units: 2 The philosophy and purposes of music programs combined with early field experiences, music teaching strategies, and music learning assessment. Duplicates Credit in former MUED 510 Instruction Mode: Lecture Grading Option: Letter

MTAL 535 Community Engagement Through Music
Units: 2 Explores the essential role of community and arts partnerships in music education with implications for the expanding entrepreneurial role of musicians/ educators. Instruction Mode: Lecture Grading Option: Letter

MTAL 537 Community Engagement Models and Frameworks in Music
Units: 1 Explores frameworks of partnerships and community organizations to inform innovative design, negotiate complexity and effectively solve in community music organizations. Instruction Mode: Lecture Grading Option: Letter

MTAL 538 Music in the Community, Program Development and Evaluation
Units: 2 Explores the design and development of community music programs, including community needs assessment, program delivery and strategies and applications for program evaluation. Instruction Mode: Lecture Grading Option: Letter

MTAL 550 Teaching Music Fundamentals and Appreciation Courses
Units: 2 Purpose and objectives of music in general education. Survey of current approaches and materials. Duplicates Credit in former MUED 550 Instruction Mode: Lecture Grading Option: Letter

MTAL 552 Music Education Courseware Development
Units: 2 Development of music education courseware using current technology. Two lecture hours per week. Duplicates Credit in former MUED 552 Instruction Mode: Lecture Grading Option: Letter

MTAL 576 Using Technology in the Classroom
Units: 2 Study of the tools and knowledge necessary to the music educator to facilitate the application of computers and electronic music in music education. Duplicates Credit in former MUED 515 Instruction Mode: Lecture Grading Option: Letter

MTAL 584 Early Childhood Music
Units: 2 An overview of significant developmental issues, current research, and appropriate practices for children from birth to age eight. Professor-guided practicum teaching. Duplicates Credit in former MUED 520 Instruction Mode: Lecture Grading Option: Letter

MTAL 585 Research and Practice in Orff Schulwerk
Units: 2 Exploring research on the philosophical and historical bases of the Orff Schulwerk approach and acquiring skills in pedagogical applications in early childhood through collegiate settings. Duplicates Credit in former MUED 640 Instruction Mode: Lecture Grading Option: Letter

MTAL 588 Guided Practice
Units: 3 Student teachers observe and teach under the guidance of the University supervisor (USC professor) and a master teacher. Instruction Mode: Lecture, Lab Grading Option: Letter

MTAL 589 Community Music Practicum
Units: 2 Max Units: 04 Provides structure and support as students develop and execute a community music project as part of an existing organization or a new endeavor. Instruction Mode: Lecture Grading Option: Letter

MTAL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 590 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 592 Final Project
Units: 2 Required for the Master of Music, Teaching and Learning degree. Credit upon acceptance. Prerequisites: MTAL 500 Duplicates Credit in former MUED 592 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 594A Master's Thesis
Units: 2 Credit on acceptance of thesis. Registration Restriction: Open only to master students. Duplicates Credit in former MUED 594A Instruction Mode: Lecture
Grading Option: In Progress/Credit/No Credit

MTAL 594b Master’s Thesis
Units: 2 Credit on acceptance of thesis. Prerequisite: MTAL 594a Registration Restriction: Open only to master students Duplicates Credit in former MUED 594b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 594z Master’s Thesis
Units: 0 Credit on acceptance of thesis. Prerequisite: MTAL 594b Registration Restriction: Open only to master students Duplicates Credit in former MUED 594z Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 599 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest reflective of changing trends in music education. Duplicates Credit in former MUED 599 Instruction Mode: Lecture Grading Option: Letter

MTAL 605 College Teaching in Music Education
Units: 2 Exploration of music education faculty duties at the collegiate level, such as teaching general/secondary methods, working with student teachers, leading professional organizations, and conducting research. Duplicates Credit in former MUED 605 Instruction Mode: Lecture Grading Option: Letter

MTAL 606 Internship in Collegiate Music Education
Units: 3 Students intern with USC professors in training music teachers in traditional and alternative music education practices. Duplicates Credit in former MUED 606 Instruction Mode: Lecture Grading Option: Letter

MTAL 607 Alternative Models in Music Teaching and Learning
Units: 2 Exploration of community music programs in the U.S. and beyond with emphasis on philosophical, sociological, structural, and cultural bases for the diverse programs. Duplicates Credit in former MUED 607 Instruction Mode: Lecture Grading Option: Letter

MTAL 608 Creative Thinking in Music
Units: 3 Review of important developments in music education practice for the encouragement of creative thinking in music for music teaching and learning. Instruction Mode: Lecture Grading Option: Letter

MTAL 615 Assessment and Reflective Practice
Units: 2 Examination of major aspects of measurement and evaluation that comprise the art of assessment of music teaching and learning. Recommended Preparation: MTAL 500 Instruction Mode: Lecture Grading Option: Letter

MTAL 650 Pedagogy for Collegiate Music Appreciation and Fundamentals
Units: 2 Design and teaching strategies for collegiate music appreciation and fundamentals classes developed for the adult, non music major student. Duplicates Credit in former MUED 650 Instruction Mode: Lecture Grading Option: Letter

MTAL 652 Pedagogy for Collegiate Teaching
Units: 2 Preparation for teaching in the modern university environment, examining the role of the professor, and focusing on the development of innovative collegiate teaching skills. Duplicates Credit in former MUED 610 Instruction Mode: Lecture Grading Option: Letter

MTAL 720 Quantitative Research in Music Teaching and Learning
Units: 3 Survey of theories, concepts and procedures for designing, conducting and evaluating quantitative research studies in music teaching and learning. Prerequisite: Duplicates Credit in former MUED 792 Instruction Mode: Lecture Grading Option: Letter

MTAL 721 Qualitative Research in Music Teaching and Learning
Units: 3 Survey of theories, concepts and tools for designing, conducting and evaluating qualitative studies in music teaching and learning. Prerequisite: Duplicates Credit in former MUED 793 Instruction Mode: Lecture Grading Option: Letter

MTAL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 790 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 791 Pedagogical Writing and Media in Music Education
Units: 3 Development of skills in pedagogical writing for professional journals, text books, and multimedia publications, and knowledge of publishing procedures for compositions and arrangements. Duplicates Credit in former MUED 791 Instruction Mode: Lecture Grading Option: Letter

MTAL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUED 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794a Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794b Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794c Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794d Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 790 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 791 Pedagogical Writing and Media in Music Education
Units: 3 Development of skills in pedagogical writing for professional journals, text books, and multimedia publications, and knowledge of publishing procedures for compositions and arrangements. Duplicates Credit in former MUED 791 Instruction Mode: Lecture Grading Option: Letter

MTAL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUED 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794a Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794b Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794c Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794d Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former MUED 790 Instruction Mode: Lecture Grading Option: Credit/No Credit

MTAL 791 Pedagogical Writing and Media in Music Education
Units: 3 Development of skills in pedagogical writing for professional journals, text books, and multimedia publications, and knowledge of publishing procedures for compositions and arrangements. Duplicates Credit in former MUED 791 Instruction Mode: Lecture Grading Option: Letter

MTAL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Duplicates Credit in former MUED 794a Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794a Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794b Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794b Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794c Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

MTAL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Prerequisite: MTAL 794c Registration Restriction: Open only to doctoral students Duplicates Credit in former MUED 794d Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Music Ensemble
Large ensemble requirements in undergraduate curricula must be fulfilled by the following ensembles: University Chorus (MUEN 307); Apollo Chorus (MUEN 308); Oriana Choir (MUEN 311); University Concert Choir (MUEN 310); Chamber Singers (MUEN 312); USC Symphony (MUEN 320); USC Concert Orchestra (MUEN 321); University Wind Ensemble (MUEN 323); or University Band (MUEN 324).

Exceptions to the above policies include: Contemporary Music Ensemble and Early Music Ensemble may fulfill the large ensemble requirement for instrumental majors, with the approval of the conductor of University Symphony or Wind Ensemble and the chair of the student’s major department.

Music Education majors with an instrumental emphasis must take one semester of a choral ensemble. Composition majors must register for at least 2 units in a choral ensemble. Students majoring in Strings, Vocal Arts, or Wind and Percussion may not count USC Concert Orchestra toward their large ensemble requirement.

Vocal Arts majors must register for University Concert Choir, USC Chamber Singers or USC Oriana Choir to fulfill their large ensemble requirement.

Further exceptions may be made subject to departmental approval and approval of the conductor of the appropriate large ensemble.

MUEN 222 Trojan Marching Band
Units: 1 Rehearsal and participation in performances for athletic and other university functions. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 305 Vocal Jazz Ensemble
Units: 1 Terms Offered: FaSp Rehearsal and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 307 University Chorus
Units: 1 Max Units: 8 0 Terms Offered: FaSp Rehearsal and performance of choral literature from all periods of music history. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 308 USC Apollo Chorus
Units: 1 Max Units: 8 The USC Apollo Chorus, a choir open to all students, faculty, and staff of any gender, performs tenor/bass repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 310 University Concert Choir
Units: 1 Max Units: 8 0 Terms Offered: FaSp Rehearsal and performance of choral works of all styles and periods. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 311 USC Oriana Choir
Units: 1 Max Units: 8 The USC Oriana Choir, a choir open to all students, faculty, and staff of any gender, performs treble repertoire. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUEN 312 Chamber Singers
Units: 1 Max Units: 8 Performance of
choral music and choral masterworks from the 16th century to the present. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 314 Opera Chorus
Units: 1 Max Units: 8.0 Terms Offered: FaSp Study and performance of operatic choruses and extended ensembles of all styles and periods. Duplicates Credit in former MUEN 214 and MUEN 414. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 320 Contemporary Music Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. Duplicates Credit in former MUEN 230 and MUEN 430. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 331 Guitar Big Band
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 332 Jazz Chamber Music
Units: 1 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of literature for jazz chamber groups. Duplicates Credit in former MUEN 232 and MUEN 432. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 333 University Brass Band
Units: 1 Max Units: 8.0 Terms Offered: FaSp The study, rehearsal and performance of standard brass choir and brass band literature. Duplicates Credit in former MUEN 235 and MUEN 435. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 344 Vocal Chamber Music
Units: 1 Max Units: 8.0 Terms Offered: Fa Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Duplicates Credit in former MUEN 244 and MUEN 444. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 350 Early Music Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed and plucked strings. Instrumentalists are required to perform on either their own or the school's historical instruments. Duplicates Credit in former MUEN 250 and MUEN 450. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUEN 505 Vocal Jazz Ensemble
Units: 1 Terms Offered: FaSp Study and performance of vocal ensemble literature from the Jazz idiom, with emphasis on improvisational techniques. Instruction Mode: Lecture Grading Option: Letter
MUEN 507 University Chorus
Units: 1 Terms Offered: FaSp Rehearsal and performance of choral literature from all periods of music history. Instruction Mode: Lecture Grading Option: Letter
MUEN 508 USC Apollo Chorus
Units: 1 Max Units: 04 The USC Apollo Chorus, a choir open to all students, faculty, and staff of any gender, performs tenor/ bass repertoire. Instruction Mode: Lecture Grading Option: Letter
MUEN 510 University Concert Choir
Units: 1 Max Units: 4.0 Terms Offered: FaSp Performance of choral works of all styles and periods. Instruction Mode: Lecture Grading Option: Letter
MUEN 530 Contemporary Music Ensemble
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and performance of 20th-century music; readings of student and faculty compositions; experimental music; guest conductors, composers, performers; annual concert series. Duplicates Credit in former MUEN 430. Instruction Mode: Lecture Grading Option: Letter

MUEN 531 Guitar Big Band
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and preparation of big band literature adapted for large guitar ensemble. Guitarists perform in place of the traditional trumpet, trombone and sax sections. Instruction Mode: Lecture Grading Option: Letter

MUEN 532 Jazz Chamber Music
Units: 1 Max Units: 4.0 Terms Offered: FaSp Preparation and performance of advanced literature for jazz chamber groups. Instruction Mode: Lecture Grading Option: Letter

MUEN 535 University Brass Band
Units: 1 Max Units: 4.0 The study, rehearsal and performance of standard brass choir and brass band literature. Duplicates Credit in former MUEN 435. Instruction Mode: Lecture Grading Option: Letter

MUEN 544 Vocal Chamber Music
Units: 1 Max Units: 4.0 Terms Offered: Fa Study of solo ensemble vocal literature such as duets, trios, quartets, madrigals, etc. Duplicates Credit in former MUEN 444. Instruction Mode: Lecture Grading Option: Letter

MUEN 550 Early Music Ensemble
Units: 1 Max Units: 4.0 Terms Offered: FaSp Rehearsal and performance of vocal and instrumental ensemble music of the Renaissance and Baroque, with emphasis on chamber music for solo voices and bowed or plucked strings. Instrumentalists are required to perform on either their own or the school’s historical instruments. Duplicates Credit in former MUEN 450. Instruction Mode: Lecture Grading Option: Letter

MUEN 628 Keyboard Collaboration
Units: 1 Max Units: 4.0 Terms Offered: FaSp Continuation of MUEN 328. Instruction Mode: Lecture Grading Option: Letter

MUEN 650 Early Music Ensemble
Units: 1 Max Units: 8.0 Terms Offered: FaSp Rehearsal and public performance of vocal and instrumental music of the Renaissance and Baroque era; emphasis is on large- and small-scale chamber works. Instrumentalists are required to perform on historical instruments. Instruction Mode: Lecture Grading Option: Letter

Music History and Literature
MUHL 231 Music History
Units: 3 Terms Offered: Fa A study of the musical styles and genres from antiquity to c. 1680 within their historical context. Detailed analysis of selected works. Prerequisite: MUCO 132b, MUCO 133b. Duplicates Credit in MUHL 385b. Instruction Mode: Lecture Grading Option: Letter

MUHL 250g Music and Ideas
Units: 4 A topical study of critical issues and cultural relationships found in music from antiquity to the present and across musical genres and styles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

MUHL 331 Music History III
Units: 3 A study of the musical styles and genres from c. 1850 to the present within their historical context. Detailed analysis of selected works. Prerequisite: MUCO 132b, MUCO 133b; Recommended Preparation: MUCO 232b, MUCO 233b. Duplicates Credit in former MUHL 280a. Instruction Mode: Lecture Grading Option: Letter

MUHL 332 Studies in Musical Culture
Units: 3 Special musical repertoires, issues, and critical problems; emphasis determined by the department. Recommended Preparation: MUHL 231, MUHL 232, MUEN 331, MUCO 232b, MUCO 233b. Duplicates Credit in former MUHL 280b. Instruction Mode: Lecture Grading Option: Letter

MUHL 333 Music History Review
Units: 1, 2 Terms Offered: FaSpSm Supervised review of the materials covered in undergraduate music history courses for students whose music history examinations indicate the need for further study. Instruction Mode: Lecture Grading Option: Letter

MUHL 350g Western Art Music History I
Units: 4 A study of the musical styles and genres from antiquity through early modern periods within their historical context. Detailed analysis of selected works. Recommended Preparation: MUHL 250g Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUHL 351 Western Art Music History II
Units: 4 A study of the musical styles and genres in the late modern and contemporary eras within their historical context. Detailed analysis of selected works. Recommended Preparation: MUHL 250g and MUHL 350 Instruction Mode: Lecture Grading Option: Letter

MUHL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUHL 403 Armenian Musical Culture
Units: 2 Study of the four branches of Armenian music within the context of past and present Armenian culture. Instruction Mode: Lecture Grading Option: Letter

MUHL 476 Music Criticism
Units: 2 Procedure and practice in forming critical judgments of music and in writing music criticism; practical journalism; professional and community ethics. Instruction Mode: Lecture Grading Option: Letter

MUHL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUHL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUHL 550 Music and the Holocaust
Units: 2 Study of the creation and performance of Holocaust-related music from 1933 to the present, including interaction with other arts. Prerequisite: MUHL 570 Instruction Mode: Lecture Grading Option: Letter

MUHL 560 Studies in World Music I
Units: 2 Terms Offered: Fa The indigenous and syncretic musics of Africa, India, Indonesia, and the Balkan countries. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 561 Studies in World Music II
Units: 2 Terms Offered: Sp The indigenous and syncretic musics of the post-Soviet political landscape, the Far East, the Middle East, and Latin America. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 570 Research Materials and Techniques
Units: 2 Terms Offered: FaSpSm Introduction to music research, information science and technical writing. Required of all graduate students majoring in music. Instruction Mode: Lecture Grading Option: Letter

MUHL 572 Seminar in Historical Musical Notation
Units: 2 Terms Offered: Fa Performing, reading, and editing historical notation from original sources. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 573 Music of the Middle Ages
Units: 2, 2 years Terms Offered: SpSm Chief musical developments in Western Europe from the beginning of the Christian era to the middle of the 14th century. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 574 Music of the Renaissance
Units: 2, 2 years Terms Offered: SpSm Chief musical developments in Western Europe from the middle of the 14th century to the end of the 16th. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 575 Music of the Baroque Era
Units: 2, 2 years Terms Offered: FaSpSm Styles, forms, composers, and compositions of the Baroque era. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 576 Music of the Classical Period
Units: 2, 2 years Terms Offered: SpSm Development of classical style in symphonic music, opera, and chamber music. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 577 Music of the 19th Century
Units: 2, 2 years Terms Offered: FaSpSm Vocal and instrumental music of the Romantic era from late Beethoven through Brahms. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter
MUHL 578 Music since 1900
Units: 2 Times Offered: FaSpSm Musical developments in Europe and the Americas from 1900 to the present. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 579 Studies in Music History
Units: 4 Max Units: 16.0 Terms Offered: FaSp Intensive study of major problems, issues, and interpretations in the history of music. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 580 Historical Perspectives in Jazz
Units: 2 Chief musical developments in the principal styles of Jazz from their inception to the present. Prerequisite: graduate standing or departmental approval. Instruction Mode: Lecture Grading Option: Letter

MUHL 583 Special Studies in Medieval Music
Units: 2 Max Units: 4.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 584 Special Studies in Renaissance Music
Units: 2 Max Units: 4.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 585 Special Studies in Baroque Music
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 586 Special Studies in the Music of the Classical Period, 1730–1800
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 587 Special Studies in the Music of the 19th Century
Units: 2 Max Units: 6.0 Terms Offered: Irregular Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 588 Special Studies in Music since 1900
Units: 2 Max Units: 6.0 Music problems and composers of the period. Specific emphasis to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 589 Seminar in Renaissance Repertoires and Performance Practice
Units: 2 Terms Offered: Sp Study and discussion of Renaissance music sources and performance practice treatises. Corequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUHL 591 Seminar in Baroque Repertories and Performance Practice
Units: 2 Study and discussion of Baroque music sources and performance practice treatises. Corequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 594b Master’s Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 594z Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 595 Seminar in Performance Practices
Units: 2 Max Units: 4.0 Scholarly preparation and authentic performance of music written before c. 1770. Ornamentation and improvisation, tunings and temperaments, early language pronunciation, historical instruments, etc. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUHL 681 Studies in Musicology
Units: 4 Max Units: 16.0 Terms Offered: FaSp Close study of musical repertories and issues (particularly ones transcending period divisions) with emphasis on recent scholarship and methodologies. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 683 Seminar in Medieval Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 684 Seminar in Renaissance Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 685 Seminar in Baroque Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 686 Seminar in Classical Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 697 Seminar in Romantic Music
Units: 2, 3 Max Units: 6.0 Terms Offered: Irregular Problems and composers of the period; specific emphasis determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Letter

MUHL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Prerequisite: MUHL 570. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUHL 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUHL 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

MUIN 270 Introduction to the Music Industry
Units: 4 Terms Offered: FaSp A survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, record companies, agents, personal managers and contracts. Instruction Mode: Lecture Grading Option: Letter

MUIN 272x Basics of the Music Industry
Units: 4 Terms Offered: FaSp Introductory survey of the music business. Topics include: copyright, record companies, contracts, music publishing, performance rights societies, managers, agents, and other artist team/income considerations. Duplicates Credit in former MUIN 372ax. Instruction Mode: Lecture Grading Option: Letter

MUIN 280 Communications in the Music Industry
Units: 4 A comprehensive course on
MUIN 296 Record Production Management
Units: 2
Term Offered: FaSp
Function of the record producer, studio procedures, music business law, union relations, artist management, copyright and publishing agreements, record company structure.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 320 Critical Listening, Acoustics and Audio Perception
Units: 4
Term Offered: FaSp
Development of perceptual skills for detailed analysis and awareness of the timbral, dynamical, tonal, and spatial attributes of sound as they relate to audio production.
Instruction Mode: Lecture, Lab
Grading Option: Letter

MUIN 340 Introduction to Sound Reinforcement
Units: 4
Term Offered: FaSp
An introduction to the practical application of large scale sound reinforcement for concerts, sporting events, church services and convention situations.
Instruction Mode: Lecture, Lab
Grading Option: Letter

MUIN 360 Introduction to Music Law
Units: 4
Term Offered: FaSp
A study of entertainment law with a focus on the music industry. Areas of study include contracts, domestic practices, international practices, copyright protection, trademarks, and licenses for traditional/new media.
Prerequisite: MUIN 270, MUIN 272.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 370 Music Publishing and Licensing
Units: 2
Term Offered: Sp
A contemporary survey of the methods used to monetize music through licensing/media placement, covering music publishing, songwriter agreements, performance rights and licenses for traditional/new media.
Prerequisite: MUIN 270 or MUIN 272.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 372 Business and Legal Aspects of the Music Industry
Units: 4
An intermediate/advanced-level survey of music copyright law, artist contract analysis, infringement case studies as they affect modern/emerging business models and global music licensing.
Prerequisite: MUIN 270 or MUIN 272x
Instruction Mode: Lecture
Grading Option: Letter

MUIN 385 Radio in the Music Industry
Units: 4
Term Offered: Fa
A survey of radio; its operation and effect on the music industry. Topics include advertising, playlists, program direction, FCC, networks, news, promotion, payola and format development.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 410 Marketing, Branding and Strategic Alliances in Music
Units: 2
Term Offered: FaSp
An in-depth study of music marketing, non-traditional revenue streams for artists, musicians, and labels including artist endorsements, artist tour sponsorships, digital music programs, music licensing, merchandise, and a primary focus on brand partnership deals in the music space.
Prerequisite: MUIN 270 or MUIN 272.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 420 DIY Music Marketing
Units: 2
Term Offered: FaSp
An exploration of the most current and effective marketing strategies and online branding tools for promoting, monetizing, and sustaining the career of the independent creative artist.
Prerequisite: MUIN 270 or MUIN 272.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 425 Live Music Production and Promotion
Units: 4
A survey of the presentation of the live musical experience. Both classical and popular concert presentation will be examined including venue selection, promotion and security.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 430 Artist Management and Development
Units: 4
A study of issues relating to the personal management of music artists including negotiating contracts, image, career development, agents, touring, merchandising, fees and duties.
Instruction Mode: Lecture, Discussion
Grading Option: Letter

MUIN 435 Manufacture and Distribution of Musical Products
Units: 4
Term Offered: Sp
An in-depth study of musical instrument manufacture and distribution in the United States. Topics covered include sheet music, instrument rentals, lessons and band operations.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 440 Arts Management
Units: 4
Term Offered: FaSp
A survey of the management of non-profit and for-profit arts organizations with emphasis on funding, donor development, tax status and promotion.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 443 The Business of Music for Visual Media
Units: 4
Term Offered: FaSp
Introduction to music designed for synchronization to picture including history of music in cinema, music editing, supervision, performance rights licensing, production, and music scoring procedures.
Prerequisite: MUIN 360 or MUIN 372.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 444 Music Supervision
Units: 4
An advanced focus on the music supervisor’s role, working with directors, producers, licensing representatives and executives to select, budget and clear songs for broadcast/new media.
Prerequisite: MUIN 360 or MUIN 372.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 445 International Music Industry
Units: 4
Term Offered: Sp
A survey of international operations of music distribution, publishing, touring, law, promotion, customs and practices.
Prerequisite: MUIN 360.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 450 Practicum in Music Industry Issues (Internship)
Units: 2, 3, 4
Term Offered: FaSp
Field application of music industry theories and practices; part-time employment. Project jointly defined by student, employer and professor.
Prerequisite: MUIN 360 or MUIN 372.
Instruction Mode: Lecture
Grading Option: Credit/No Credit

MUIN 475 Advanced Concert Management
Units: 4
Term Offered: Sp
Application of theories, technologies, and practices of the live music industry. Focus on the business, management, marketing, promotion, and production of professional concert events.
Prerequisite: MUIN 425.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 476 Advanced Sound Reinforcement
Units: 2
Term Offered: FaSp
Special problems of multimedia mixing with simultaneous audio re-processing for live performance situations including rigging, house mix, monitor mix, venues and power distribution.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Instruction Mode: Lecture
Grading Option: Letter

MUIN 495 Web Design for the Music Industry
Units: 4
Term Offered: FaSp
A hands-on experience in which students work in teams to create web sites specifically designed to promote, market, and sell musical artists’ products online.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 496 Music Media Solutions
Units: 4
Term Offered: FaSp
Group study of current music media issues, focusing on possible solutions with practical applications. Stress on leadership, critical thinking, and professional practices.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 497 Current Topics, Case Studies, and Analysis
Units: 2
Max Units: 6.0
Term Offered: FaSp
Exploration of emerging topics and trends in business and technology in the music and entertainment industries.
Prerequisite: MUIN 270 or MUIN 272.
Instruction Mode: Lecture
Grading Option: Letter

MUIN 498a Final Capstone Project
Units: 1
Term Offered: FaSp
Culmination of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional
demands of the industry. Prerequisite: 
MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit 

**MUIN 498b Final Capstone Project** 
Units: 1 Terms Offered: FaSp Cumulation of the four-year course of study. Affords students the opportunity to experience guided work to meet the professional demands of the industry. Prerequisite: MUIN 270 or MUIN 272. Instruction Mode: Lecture Grading Option: Credit/No Credit

**MUIN 499 Special Topics** 
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

**MUIN 510 The Music Industry: Careers, Rights and Income Streams** 
Units: 4 History, procedures, economics and evolving technologies involved with careers, rights and income connected with artists, songwriters, producers, labels, music publishing, performance rights and visual media. Instruction Mode: Lecture Grading Option: Letter

**MUIN 511 Music Industry History: Entrepreneurs, Moguls and Catalogs** 
Units: 2 Focus on recorded music’s sounds and innovators. Includes in-depth research, discussion, presentations and memorization for greater cultural context. Instruction Mode: Lecture Grading Option: Letter

**MUIN 512 The Management of Live Performances** 
Units: 2 Focus on the Artist, Promoter and Venue, and the roles they play in the Live Performance space, applying theory, technology, and practice. Instruction Mode: Lecture Grading Option: Letter

**MUIN 515 Live Touring Strategy** 
Units: 2 Part of an emphasis track that focuses on advanced live touring strategies, methods and practices. Projects will apply theory and practice in a directed team oriented approach. Instruction Mode: Lecture Grading Option: Letter

**MUIN 520 Artist Management: Campaign Planning, Pitching, Partnerships** 
Units: 2 Lecture and experiential learning focused on the role of an artist’s personal manager including developing their story, assets and strategy for various product release campaigns. Prerequisite: MUIN 510 Instruction Mode: Lecture Grading Option: Letter

**MUIN 521 Music Industry/Producers Forum** 
Units: 1 Student-driven discussion, networking and Q&A with guest industry leaders and role models, including producers, artists, music supervisors, concert promoters, agents, label executives, managers and attorneys. Instruction Mode: Lecture Grading Option: Credit/No Credit

**MUIN 522 Music Marketing, Branding and Campaigns** 
Units: 3 An overview of music specific concepts and opportunities spanning various roles, tools, forms of music consumption, and campaign stages as it pertains to music marketing. Instruction Mode: Lecture Grading Option: Letter

**MUIN 523 Survey/Analysis of Music Agreements** 
Units: 4 Focus on demystifying “legalese” and music industry standards by assessing actual contract examples for context, including recording, songwriter, producer, media licensing, sponsorship and band partnerships. Prerequisite: MUIN 510 Instruction Mode: Lecture Grading Option: Letter

**MUIN 525 Concert Promotion, Venue Management and Event Planning** 
Units: 3 Overview of the three areas that comprise most of the live performance spaces, and focuses on the artist, promoter and venue (“Circle of Live”) and the roles they play in the performance. Instruction Mode: Lecture Grading Option: Letter

**MUIN 526 Music Supervision, Production and Creative Licensing** 
Units: 3 A comprehensive look at contemporary music supervision for all visual media. Students will creatively apply guided lessons using real world example cases and projects. Prerequisite: MUIN 510 and MUIN 511 Instruction Mode: Lecture Grading Option: Letter

**MUIN 530 Mentorship** 
Units: 1 A semester bridge for students working on job preparation, career skills, and continued efforts before launching their final campaign projects and graduation portfolio. Prerequisite: MUIN 520 Instruction Mode: Lecture Grading Option: Credit/No Credit

**MUIN 540 Artist Management: Campaign Execution and Hindsight Analysis** 
Units: 2 Lecture and experiential learning focused on the role of an artist’s personal manager including executing various release campaigns and hindsight assessment to inform future endeavors. Prerequisite: MUIN 520 Instruction Mode: Lecture Grading Option: Letter

**MUIN 541 Data Analytics: Music Marketing Decisions and Presentations** 
Units: 2 The when, why and how data analysis tools are used to assist music professionals with supporting marketing decisions, beyond the realm of intuition and aesthetic appeal. Prerequisite: MUIN 522 Instruction Mode: Lecture Grading Option: Letter

**MUIN 542 Developing Copyright Laws and Business Models** 
Units: 3 Study of advanced copyright law, conflicts and entrepreneurial opportunities to gain insight into what is evolving for the globalized digital music industry. Prerequisite: MUIN 510 Instruction Mode: Lecture Grading Option: Letter

**MUIN 570 The Music Industry** 
Units: 4 Terms Offered: FaSpSm A graduate level survey of the music business with emphasis on distribution of recorded music, music publishing, performance rights societies, music products and live music. Instruction Mode: Lecture Grading Option: Letter

**MUIN 590 Directed Research** 
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**MUIN 598 Internship** 
Units: 1 Max Units: 04 Students gain insight, experience and networking opportunities within the industry areas they wish to consider as a career. Prerequisite: MUIN 510 Instruction Mode: Lecture Grading Option: Credit/No Credit

**MUIN 599 Special Topics** 
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

**MUIN 790 Research** 
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

**Jazz Studies**

**MUJZ 100mx Jazz: America’s Music** 
Units: 4 Music of the jazz greats. Experience through live performances, field trips, readings, recordings, videos and guest lectures. Instruction Mode: Lecture Grading Option: Letter

**MUJZ 101x Non-Major Beginning Individual Instruction** 
Units: 1, 2 Max Units: 2.0 Terms Offered: FaSpSm Individual instruction at the beginning level designed for non-music majors with no previous experience. Instruction Mode: Letter Grading Option: Letter

**MUJZ 105a Jazz Theory** 
Units: 2 Terms Offered: FaSp Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms. Instruction Mode: Lecture Grading Option: Letter

**MUJZ 105b Jazz Theory** 
Units: 2 Terms Offered: FaSp Study of basic and advanced concepts of jazz melody, harmony and form. Includes functional chord idioms and relationships, compositional and improvisational devices, and song forms. Instruction Mode: Lecture Grading Option: Letter

**MUJZ 141a Basic Keyboard Skills for the Improviser** 
Units: 2 Terms Offered: FaSp Reading skills related to jazz accompanying, including the ability to identify and play chords on the piano utilizing different voicings. Instruction Mode: Lecture Grading Option: Letter

**MUJZ 141b Basic Keyboard Skills for the Improviser** 
Units: 2 Terms Offered: FaSp Reading skills related to jazz accompanying, including the ability to identify and play chords on the piano utilizing different voicings. Instruction Mode: Lecture Grading Option: Letter

**MUJZ 142a Jazz Ear Training** 
Units: 2 Terms Offered: FaSp Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation. Instruction Mode: Lecture Grading Option: Letter

**MUJZ 142b Jazz Ear Training** 
Units: 2 Terms Offered: FaSp Sight-singing and melodic/rhythmic reading and dictation applied to jazz repertoire. Includes
vocalization of scales and chord patterns and study of rhythmic reading and jazz articulation. Instruction Mode: Lecture Grading Option: Letter

MUJZ 150 Beginning Jazz Improvisation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of beginning improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style. Instruction Mode: Lecture Grading Option: Letter

MUJZ 153 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 180 Techniques of Jazz Improvisation
Units: 2 Max Units: 4.0 Development of improvisational skills through instrumental performance. Instruction Mode: Lecture Grading Option: Letter

MUJZ 195L Jazz Elements I
Units: 2 Max Units: 8.0 Terms Offered: FaSp Study of compositional, improvisational, performance, and arranging elements found in jazz. Students will model influential groups and jazz artists. Instruction Mode: Lecture, Lab Grading Option: Letter

MUJZ 196 Jazz Combo I
Units: 2 Max Units: 8.0 Terms Offered: FaSp Rehearsal and performance of literature for jazz chamber groups. Duplicates Credit in MUEN 332. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 200a Jazz Styles Analysis
Units: 2 Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. Styles through Progressive Swing. Duplicates Credit in former MUCO 200ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 200b Jazz Styles Analysis
Units: 2 Theoretical skills and analytical techniques related to jazz styles from Dixieland to the present. Bebop to the present. Duplicates Credit in former MUCO 200ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 218a Afro-Latin Percussion Instruments
Units: 2 Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music. Instruction Mode: Lecture Grading Option: Letter

MUJZ 218b Afro-Latin Percussion Instruments
Units: 2 Instruction in the performance of percussion instruments associated with African, South American, and Caribbean music traditions, with special emphasis on adaptation to jazz music. Instruction Mode: Lecture Grading Option: Letter

MUJZ 252 Individual Instrument Performance Class I
Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all first and second year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MUJZ 253 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 286a The History of Jazz
Units: 3 Terms Offered: FaSpSm A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. Prerequisite: MUCO 132b and MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 286b The History of Jazz
Units: 3 Terms Offered: FaSpSm A study of the evolution of American jazz music from its roots in Africa to the present day. Includes an introduction to world music elements. Prerequisite: MUCO 132b and MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 301 Individual Instruction
Units: 1, 2 Max Units: 16.0 Terms Offered: FaSpSm Intermediate and advanced instruction designed for non-music majors. Duplicates Credit in former MUJZ 201 and MUJZ 401. Instruction Mode: Lecture Grading Option: Letter

MUJZ 305a Advanced Jazz Theory
Units: 2 Terms Offered: FaSpSm Analysis and transcription of jazz performances and scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. Prerequisite: MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 305b Advanced Jazz Theory
Units: 2 Terms Offered: FaSpSm Analysis and transcription of jazz performances and scores, encompassing questions of style, form, harmonic and melodic language, and considerations of rhythm. Prerequisite: MUCO 133b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 311 Vocal Jazz Techniques
Units: 2 Max Units: 4.0 Development of skills needed for the professional vocal jazz musician. Study of the standard jazz repertoire, vocal improvisation, lead sheet writing, and working with rhythm sections. Prerequisite: MUJZ 180. Instruction Mode: Lecture Grading Option: Letter

MUJZ 341 Keyboard Skills for Improvisers
Units: 2 Reading skills related to jazz accompanying; “fake” books, chord progressions commonly used in jazz. Prerequisite: MPKS 250a, MPKS 250b. Instruction Mode: Lecture Grading Option: Letter

MUJZ 342a Aural Skills for Improvisers
Units: 1 Terms Offered: FaSp Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. Prerequisite: MUCO 132b. Duplicates Credit in former MUCO 342ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 342b Aural Skills for Improvisers
Units: 1 Terms Offered: FaSp Sight-singing and dictation applied to jazz repertoire. Vocalization of modal and synthetic jazz scales and chordal qualities. Prerequisite: MUCO 132b. Duplicates Credit in former MUCO 342ab. Instruction Mode: Lecture Grading Option: Letter

MUJZ 347 Jazz Composition
Units: 2 Max Units: 4.0 Composing in the jazz medium. Duplicates Credit in former MUCO 347. Instruction Mode: Lecture Grading Option: Letter

MUJZ 350a A History of Jazz Music
Units: 4 A history of jazz music and the styles of music considered antecedents to jazz. Recommended Preparation: MUHL 250 Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

MUJZ 353 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Duplicates Credit in former PLDV 410. Instruction Mode: Lecture Grading Option: Letter

MUJZ 355 Jazz Elements II
Units: 2 Max Units: 8.0 Terms Offered: FaSp Advanced study of compositional, improvisational, performance, conducting, and arranging elements found in the jazz repertory. Students will be encouraged to forge individual musical expressions. Instruction Mode: Lecture, Lab Grading Option: Letter

MUJZ 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: Irregular Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

MUJZ 395 Jazz Elements II
Units: 2 Max Units: 8.0 Terms Offered: FaSp Preparation and performance of literature for jazz combos. Prerequisite: MUJZ 185. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 400 Arranging for Jazz Ensemble
Units: 2 Scoring for jazz ensemble with emphasis on writing for sections of like and mixed instruments as well as full ensemble. Duplicates Credit in former MUCO 400. Instruction Mode: Lecture Grading Option: Letter

MUJZ 403 Studio Singing Techniques
Units: 2 Terms Offered: FaSp Study of technique, theory and aural skills as applied to studio singing; critical listening; study of various styles; ear training and sight singing as these apply to working in a studio. Recommended Preparation: jazz background; can read music and sing well. Instruction Mode: Lecture Grading Option: Letter
MUJZ 419M The Jazz Experience: Myths and Culture
Units: 4 Terms Offered: FaSp An examination of the music, culture, and mythology of jazz revealed through the study of jazz fiction, film, poetry, and recorded examples. Instruction Mode: Lecture Grading Option: Letter

MUJZ 443 Jazz Pedagogy
Units: 2 Terms Offered: Sp Concepts, methods, and resources; examination and comparison of textbooks, recordings, tapes, and materials related to the study and teaching of jazz. Duplicates Credit in former MUED 443. Instruction Mode: Lecture Grading Option: Letter

MUJZ 450 Intermediate Jazz Improvisation
Units: 2 Max Units: 4.0 Terms Offered: FaSp Development of intermediate improvisational skills including underlying principles of theory, harmony, jazz ear training, and jazz style. Recommended Preparation: MUJZ 150. Instruction Mode: Lecture Grading Option: Letter

MUJZ 451 Advanced Jazz Improvisation
Units: 2 Max Units: 4.0 Terms Offered: Sp Development of advanced improvisational skills, including Lydian-chromatic and bi-modal techniques, through instrumental performance. Instruction Mode: Lecture Grading Option: Letter

MUJZ 452 Individual Instrument Performance Class II
Units: 1 Max Units: 4.0 Terms Offered: FaSp Solo and orchestra repertoire, professional preparation, reed making, and other matters appropriate to group study. Required of all third and fourth year wind and percussion majors each semester in residence. Instruction Mode: Lecture Grading Option: Letter

MUJZ 453 Individual Instruction
Units: 1, 2 Max Units: 8.0 Terms Offered: FaSpSm Weekly individual instruction and performance forum. Registration Restriction: Open only to jazz studies majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 486 Jazz Masters from World War II to the Present
Units: 2 Examination of major jazz artists from World War II to the present with emphasis on the innovators of each period. Detailed analysis of selected repertoire. Recommended Preparation: MUJZ 419. Duplicates Credit in former MUHL 486. Instruction Mode: Lecture Grading Option: Letter

MUJZ 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

MUJZ 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUJZ 501 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 545 Jazz Ensemble Development
Units: 2, 2 years Terms Offered: Sp

MUJZ 547 Jazz Composition
Units: 2 Max Units: 4.0 Terms Offered: Fa Application of theoretical and compositional techniques used in jazz to written music. Analysis and performance of historical and contemporary examples will be included. Duplicates Credit in former MUJC 451. Instruction Mode: Lecture Grading Option: Letter

MUJZ 551 Graduate Jazz Improvisation II
Units: 2 Terms Offered: Sp Development of proficiency in improvising to advanced jazz concepts, including transposition, substitute harmony, superimposed harmony, atypical harmonic schemes and contemporary chord and scale types. Prerequisite: MUJZ 451. Instruction Mode: Lecture Grading Option: Letter

MUJZ 553 Individual Instruction
Units: 1 or 2 Max Units: 8.0 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Letter

MUJZ 554 Graduate Certificate Performance
Units: 4 Max Units: 16.0 Terms Offered: FaSpSm Individual instruction and related lab participation for Graduate Certificate students. Instruction Mode: Lecture Grading Option: Letter

MUJZ 588 Special Studies in Jazz Performance
Units: 2 Max Units: 6.0 Performance problems, composers and/or stylistic analysis of music from the jazz idiom. Specific emphasis to be determined by the Jazz Studies department. Instruction Mode: Lecture Grading Option: Letter

MUJZ 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUJZ 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

MUJZ 653 Performance
Units: 1 or 2 Max Units: 12.0 Terms Offered: FaSpSm Individual or master class instruction for DMA Performance majors. Instruction Mode: Lecture Grading Option: Letter

MUJZ 688 Special Topics in Jazz Performance
Units: 2 Max Units: 4.0 Terms Offered: Fa Examination and analysis of solo and compositional repertory of the jazz idiom through transcription and comparative research. Specific emphasis to be determined by the Jazz Studies department. Instruction Mode: Lecture Grading Option: Letter

MUJZ 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

School of Music
MUSC 102gw World Music
Units: 4 Exploration of music and cultures of the world. Engagement with international musicians, global issues, field work and musical diasporas in Los Angeles. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUHL 307. Instruction Mode: Lecture Grading Option: Letter

MUSC 110 Freshman Forum
Units: 1 Terms Offered: FaSp Introduction to issues and skills relevant to the professional musician. Instruction Mode: Lecture Grading Option: Credit/No Credit

MUSC 115gp Western Music as Sounding History
Units: 4 An introduction to Western art music and culture from the Medieval, Renaissance, Baroque, Classical, Romantic and Modern eras through reading, listening, analyzing and writing about music. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category H: Traditions and Historical Foundations Duplicates Credit in former MUHL 315. Instruction Mode: Lecture Grading Option: Letter

MUSC 170g Classics of Music and Literature: from Ancient Greece through Contemporary LA
Units: 4 Terms Offered: FaSp (Enroll in CLAS 170g)

MUSC 200gmw The Broadway Musical: Reflections of American Diversity
Units: 4 A uniquely American genre, the Broadway musical serves as a catalyst for inquiry into human diversity, cross-culturalism, and significant social and political issues. Satisfies New General Education in Category A: The Arts Satisfies Global Perspective in Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 400. Instruction Mode: Lecture Grading Option: Letter

MUSC 210g Electronic Music and Dance Culture
Units: 4 The origins and development of EDM and its relatives such as disco, house, techno, rave and electronica, focusing on cultural and technological influences. Satisfies New General Education in Category A: The Arts

MUSC 250gmw The Music of Black Americans
Units: 4 A chronicle of the musical contributions of Africans and African Americans to American society and to the foundations of musical genres and styles throughout the world. Satisfies New General Education in Category A: The Arts

MUSC 255 Songwriting I
Units: 2 Terms Offered: FaSp Development of musical and lyrical skills, composing,
listening, analysis, and critiques of popular original music. Instruction Mode: Lecture
Grading Option: Letter
MUSC 320gm Hip-hop Music and Culture
Units: 4 A history of hip-hop music from its inception to the present: its musical
processes and styles, as well as attendant social, political and cultural issues. Satisfies
New General Education in Category A: The Arts Satisfies Global Perspective in
Category G: Citizenship in a Diverse World Duplicates Credit in former MUSC 420
Instruction Mode: Lecture Grading Option: Letter
MUSC 355 Songwriting II
Units: 2 Terms Offered: FaSp Continuation of Songwriting I; particular emphasis on
the analysis of the techniques of important popular songwriters and the application
of these techniques to original songs. Prerequisite: MUSC 255. Duplicates Credit
in former MUCO 252. Instruction Mode: Lecture Grading Option: Letter
MUSC 371g Musical Genre Bending
Units: 4 The aesthetic and ethical issues of genre bending music in 20th and 21st
century rock, classical, jazz, and folk music. Satisfies New General Education in
Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
MUSC 372g Music, Turmoil and Nationalism
Units: 4 An exploration of musical practices and styles which reflect and shape national
identities and which focus on those created in response to political turmoil in many
forms. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
MUSC 373g Writing About Popular Music
Units: 4 Immerses students in criticism, scholarship, and creative writing dealing
with popular music. Students participate in that discourse through developing
their own authorial voices. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter
MUSC 422 The Beatles: Their Music and Their Techniques
Units: 4 Music, lyrics, recordings, production techniques, career strategy, social
ramifications, and especially the technological impact of the musical group
known as The Beatles. Instruction Mode: Lecture Grading Option: Letter
MUSC 423 Classic Rock: Popular Music of the Sixties and Seventies
Units: 2 Critical examination of the lyrics, structure, associated mythology, technology, and evolving styles of popular
music reflecting the turbulent societal changes during the Sixties and Seventies. Instruction Mode: Lecture Grading Option: Letter
MUSC 424 Iconic Figures of Popular Music
Units: 2 Max Units: 8.0 Terms Offered: FaSp Music, life, recordings, and attendant
musical, cultural and political influences of a seminal musician or group in 20th or 21st
century popular music. Instruction Mode: Lecture Grading Option: Letter
MUSC 430m Music and the Holocaust
Units: 4 Terms Offered: FaSp Study of the creation and performance of Holocaust
related music from 1933 to the present, including interaction with other arts.
Instruction Mode: Lecture Grading Option: Letter
MUSC 444 American Roots Music: History and Culture
Units: 4 Terms Offered: Irregular The history, genre, styles, songs, lyrics, and influences of American vernacular music in
the 20th century, including the background that spawned these musical genres. Instruction Mode: Lecture Grading Option: Letter
MUSC 455 Songwriting III: The Performing Songwriter
Units: 2 Continuation of Songwriting I and II with emphasis on the development of performance skills of original popular music
in preparation for songwriting showcases. Prerequisite: MUSC 355. Duplicates Credit
in former MUCO 254. Instruction Mode: Lecture Grading Option: Letter
MUSC 460 Film Music: History and Function from 1930 to the Present
Units: 4 Terms Offered: Fa A survey of the art and craft of film music as practiced by outstanding composers in motion pictures. Instruction Mode: Lecture Grading Option: Letter
MUSC 465 Music, Television and American Culture
Units: 4 Terms Offered: Sp An exploration of the social and cultural impact of music written for, popularized by, or exploited by
American television from the 1950s through today. Instruction Mode: Lecture Grading Option: Letter
MUSC 470 Contemporary Popular Music: A Global Perspective
Units: 2 Terms Offered: Sm Contemporary popular music in global culture; includes performance and collaboration opportunities
with local musicians. Instruction Mode: Lecture Grading Option: Letter
MUSC 475 Musician's Health and Wellness
Units: 2 Interactive exploration of injury prevention, body awareness disciplines, effective practice strategies, warm-ups and stretches, performance anxiety, hearing protection, and other pertinent wellness topics for musicians. Recommended Preparation: Music background Instruction Mode: Lecture Grading Option: Letter
MUSC 480 Young Artist Project I
Units: 2 Ideation and development of plans for unique individualized, mentored projects related to students' diversified and often hybrid work as classical musicians. Instruction Mode: Lecture Grading Option: Letter
MUSC 481 Young Artist Project II
Units: 2 Refinement, execution and reflection on unique individualized, mentored projects related to students' diversified and often hybrid work as classical musicians. Prerequisite: MUSC 480 Instruction Mode: Lecture Grading Option: Letter
MUSC 496 Careers in Music
Units: 2 Terms Offered: Sp A study of the practical aspects of the music business, including the history, procedures, standard
practices, economics and technologies employed by the music industry. Instruction Mode: Lecture Grading Option: Letter
MUSC 498x Internship in Music
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Registration Restriction: Open only to Bachelor of Music and Bachelor of Arts, Music majors only. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUSC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter
MUSC 598 Internship in Music
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUSC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter
MUSC 798 Internship in Music
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Practical work experience in the student's field of study, at an off-campus location. Students are individually supervised by faculty. Registration Restriction: Open only to doctoral students in music. Instruction Mode: Lecture Grading Option: Credit/No Credit
MUSC 800 Studies for the Qualifying Examination in Music
Units: 0 Terms Offered: FaSpSm Studies for the qualifying examination. Duplicates Credit in former GRSC 800 Instruction Mode: Lecture Grading Option: Credit/No Credit
Nautical Science
NAUT 301a Seamananship and Navigation
Units: 2 Terms Offered: FaSp An experiential approach to sailing and seafaring, introducing offshore sailing theory and techniques, navigation and basic oceanography as relevant to seamananship, leadership and communication skills. Duplicates Credit in former NAUT 301a Instruction Mode: Lecture Grading Option: Letter
NAUT 301b Seamananship and Navigation
Units: 2 Terms Offered: FaSp An experiential approach to sailing and seafaring, introducing offshore sailing theory and techniques, navigation, and basic oceanography as relevant to seamananship, leadership and communication skills. Prerequisite: NAUT 301a or NAUT 001ax Duplicates Credit in former NAUT 001b Instruction Mode: Lecture Grading Option: Letter
NAUT 302ax Advanced Seamananship and Navigation
Units: 2 Terms Offered: FaSp Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, advanced navigation, ship engineering and oceanography relevant to seamananship. Prerequisite: NAUT 301b or
COURSES OF INSTRUCTION

NAUT 001x Duplicates Credit in former NAUT 002a Instruction Mode: Lecture Grading Option: Letter
NAUT 302bx Advanced Seamanship and Navigation
Units: 2 Terms Offered: FaSp Responsibilities and operations commanding an offshore sailing vessel including sailing theory and advanced techniques, advanced navigation, ships engineering and oceanography relevant to seamanship. Prerequisite: NAUT 302ax or NAUT 002ax Duplicates Credit in former NAUT 002b Instruction Mode: Lecture Grading Option: Letter

Neuroscience (Undergraduate)

NEUR 199 Neuroscience Colloquium
Units: 1 Terms Offered: Sp (Enroll in BISC 199)

NEUR 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

NEUR 407 Cellular and Molecular Neuroscience
Units: 4 Terms Offered: FaSp (Enroll in BISC 407)

NEUR 408 Systems Neuroscience: From Synapses to Perception
Units: 4 Terms Offered: Sp (Enroll in BISC 408)

NEUR 421 Neurobiology
Units: 4 Terms Offered: Fa (Enroll in BISC 421)

NEUR 422 Neuropsychology
Units: 4 Terms Offered: Irregular (Enroll in PSYC 424)

NEUR 423 Epilepsy to Ecstasy: Biological Basis of Neurological Disorders
Units: 4 Terms Offered: Sp (Enroll in BISC 423)

NEUR 424 Brain Architecture
Units: 4 Terms Offered: Sp (Enroll in BISC 424)

NEUR 426 Principles of Neural Development
Units: 4 Terms Offered: Sp (Enroll in BISC 426)

NEUR 440 Introduction to Cognitive Neuroscience
Units: 4 (Enroll in PSYC 440)

NEUR 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

NEUR 493x Neuroscience Honors Seminar
Units: 1 Max Units: 4.0 Terms Offered: FaSp Students attend lectures of distinguished neuroscientists visiting USC and give short, chalk-talk presentations summarizing the lecture. The presentations are critiqued by the students. Prerequisite: BISC 220 or BISC 221; Recommended Preparation: BISC 421. Instruction Mode: Lecture Grading Option: Letter

NEUR 494x Honors Thesis
Units: 2 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

NEUR 534L Computational Neuroengineering
Units: 3 (Enroll in BME 575)

NEUR 535 Brain Theory and Artificial Intelligence
Units: 3 (Enroll in CSCI 564)

NEUR 542 Hearing and Communication Neuroscience
Units: 4 Terms Offered: Sp (Enroll in BISC 521)

Neuroimaging and Informatics

NIIN 500 Neuroimaging and Systems Neuroscience
Units: 3 Terms Offered: Fa Detailed overview of neuroanatomy, neurophysiology, and neural systems with an emphasis on human neuroanatomy and imaging. Examples from clinical cases and their consequences will be explored. Registration Restriction: Open only to NIIN students or with permission of the instructor and director of education Instruction Mode: Lecture Grading Option: Letter

NIIN 510 Fundamentals of Human Neuroimaging
Units: 3 Terms Offered: Fa Survey of anatomical and functional neuroimaging approaches and their use to explore the healthy as well as diseased human brain. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 520 Experimental Design for Neuroimaging
Units: 3 Terms Offered: Sp Examine experimental design approaches for experimental and clinical neuroimaging investigation. Topics on how to develop rigorous experiments to test theories of cognitive and clinical neuroscience. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 530 Neuroimaging Data Acquisition w/ Magnetic Resonance Imaging
Units: 3 Terms Offered: Fa Introduces the various approaches used to image the living brain using MR-based techniques. Covers neuroimaging scanning technologies, pulse sequence design, and sources of image artifact. Recommended Preparation: familiarity with Matlab. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 540 Neuroimaging Data Processing Methods
Units: 3 Terms Offered: Fa Comprehensive investigation of data processing methods, software strategies, and workflow design and execution methodologies. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 550 Computational Modeling in Neuroimaging
Units: 3 Terms Offered: Sp Addresses the current neuroinformatics approaches to large-scale data representations, mining, and visualization in brain imaging. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 560 Brain Architecture and Neuroanatomical Exploratory Techniques in Animal Models
Units: 3 Terms Offered: Sp Introduction to basic theories and methodological approaches to neuroanatomy in animal models including histology, microscopy, behavioral investigations, and neuroinformatics. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture, Lab Grading Option: Letter

NIIN 570 Neuroimaging Genetics
Units: 3 Terms Offered: Sp Lectures on human genetics and epigenetics. Discuss how applying these concepts to brain imaging advances our understanding of healthy development and neurological disease. Emphasis on critical thinking applied both to designing neuroimaging genetics studies and to constructively assessing peer work and existing neuroimaging genetics literature. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 580 Introduction to Data Science in Neuroimaging
Units: 3 Terms Offered: Sp Basics of data science as applied to neuroimaging data. Topics include database use, neuroimaging data preparation and quality control, basics of programming and statistical models and machine learning techniques appropriate for the analyses of neuroimaging data. Recommended Preparation: NIIN 510, NIIN 540 Registration Restriction: Open only to NIIN majors or with the permission of the instructor and NIIN Director of Education Instruction Mode: Lecture, Lab Grading Option: Letter

NIIN 597 Current Topics in Neuroimaging Informatics
Units: 1 Terms Offered: Fa Leading researchers in the areas of basic and clinical brain imaging, computational methods, and informatics formally discuss their work for which students provide written critical review and comment. Registration Restriction: Open only to Neuroimaging and Informatics majors. Instruction Mode: Lecture Grading Option: Letter

NIIN 600 Science Communications
Units: 1 Terms Offered: Sp Learn writing and communication elements critical for success in science-related fields, including clear writing, effective presentations and career development skills. Registration Restriction: Open only to NIIN majors or with the permission of the instructor and NIIN Director of Education Instruction Mode: Lecture Grading Option: Letter

Naval Science

NSC 135 Introduction to Naval Science
Units: 2 Terms Offered: Fa Introduction to the structure, principles, and practices, lines of command and control, and functions of the various components of the naval service. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 137 Seapower and Maritime Affairs
Units: 3 Terms Offered: Sp Analysis of U.S. Navy development and campaigns; evolution of strategic, tactical, and maritime doctrines; interaction of naval affairs with...
national security and domestic policies. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 251 Seamanship and Ship Operations
Units: 3 Terms Offered: Fa Vector solutions of relative motion, tactical problems; tactical communications, instructions; fleet communications, organizations; rules of the Nautical Road; aviation and maritime meteorology; operation plans and orders. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 283 Naval Ships Systems I (Engineering)
Units: 3 Terms Offered: Sp Types, structure, and purpose of Naval ships, compartmentation, propulsion systems, auxiliary power systems, interior communications, ship control, ship design and stability. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 335 Navigation
Units: 3 Terms Offered: Fa Purposes, methods, and instruments of navigation; terrestrial and celestial navigation and nautical astronomy; time diagrams; lines of position by observation of celestial bodies. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 337 Naval Ships Systems II (Weapons)
Units: 3 Terms Offered: Sp Systems approach to naval weapons; linear analysis of ballistics; weapons control systems configurations and dynamics. Field trips. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 343 Evolution of Warfare
Units: 3 Terms Offered: Fa Causes and practice of warfare from ancient times; impact of changes in strategy, tactics, and technology; modern revolutionary warfare, global conflict, and politico-military relationships. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 392 Amphibious Warfare
Units: 3 Terms Offered: Fa Concepts of seaborne military operations; relationship of factors involved; characteristic operations of World War II; amphibious operation planning. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 393 Fundamentals of Maneuver Warfare
Units: 3 Characteristics, requirements and problems of maneuver warfare; modern tactical principles and current military developments; other aspects of warfare and impact on maneuver warfare doctrine; historical perspectives for present and future decision-making. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 453 Leadership and Management I
Units: 3 Terms Offered: Fa Principles of human relationships; principles of decision making and management at the junior officer level: theory and techniques of leadership. Instruction Mode: Lecture, Lab Grading Option: Letter

NSC 454 Leadership and Management II
Units: 3 Terms Offered: Sp Introduction to primary duties of junior naval officers: counseling and interviewing techniques; review of basic administrative responsibilities at the division officer level. Instruction Mode: Lecture, Lab Grading Option: Letter

NSCI 541 Advanced Seminars in Neuroscience
Units: 2 Max Units: 12 Terms Offered: FaSpSm Advanced topic-based, seminar-style courses in the diverse areas of Neuroscience. Prerequisite: NSCI 524. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 541. Instruction Mode: Lecture Grading Option: Letter

NSCI 596 Internship for Curricular Practical Training
Units: 1, 2, 3, 4 Max Units: 0.0 Special topics providing background for instruction and research in neuroscience through lectures, discussions, assigned readings and student presentations. Instruction Mode: Lecture Grading Option: Letter

NSCI 790 Research
Units: 1, 2, 3, 4, 5, 6 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 790. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Registration Restriction: Open only to doctoral students in Neuroscience Graduate and Neuroscience majors. Duplicates Credit in former NEUR 794abcdz. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

NSCI 521 Hearing and Communication Neuroscience
Units: 4 Terms Offered: Sp (Enroll in BISC 521) Prerequisite: BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 524. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHBI 524

NSCI 525 Advanced Overview of Neurosciences II
Units: 4 Terms Offered: Sp Sensory and motor systems, cognitive neuroscience, behavioral neuroscience, computational neuroscience. Prerequisite: BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 525. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INTD 567

NSCI 531 Molecular and Cellular Neurobiology
Units: 4 Terms Offered: FaSpSm Introduces fundamental principles of advanced molecular and cellular neurobiology including proteins and nucleic acids, cell biology of neurons and glia, synaptic transmission and neuronal signaling. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 531. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INTD 567

NSCI 532 Systems and Behavioral Neurobiology
Units: 3 Terms Offered: FaSpSm Systems and behavioral neurobiology: hierarchical mechanisms controlling behavior, experimental techniques; perceptual (visual, auditory, somatosensory) systems; sensorimotor systems; motivated behavior, learning, memory and adaptation. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

NSCI 533 Cognitive Neuroscience
Units: 4 Terms Offered: Sp (Enroll in PSYC 540)

NSCI 539 Seminar in Neurobiology
Units: 1 Max Units: 4 Terms Offered: FaSp Seminar in Neurobiology. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 539. Instruction Mode: Lecture Grading Option: Letter

NSCI 540 Advanced Seminars in Neuroscience
Units: 1 Max Units: 8.0 Terms Offered: FaSpSm Advanced topic based seminar style courses in the diverse areas of Neuroscience. Recommended Preparation: NSCI 524. Registration Restriction: Open only graduate students. Instruction Mode: Lecture Grading Option: Letter

NSCI 524 Advanced Overview of Neurosciences
Units: 4 Terms Offered: Fa Study of the nervous system at multiple levels through the analysis of four themes: motor control; emotion, motivation, and decision-making; memory and learning; and vision. Prerequisite: BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 524. Instruction Mode: Lecture Grading Option: Letter Crosslisted as PHBI 524

NSCI 525 Advanced Overview of Neurosciences II
Units: 4 Terms Offered: Sp Sensory and motor systems, cognitive neuroscience, behavioral neuroscience, computational neuroscience. Prerequisite: BISC 421. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 525. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INTD 567

NSCI 531 Molecular and Cellular Neurobiology
Units: 4 Terms Offered: FaSpSm Introduces fundamental principles of advanced molecular and cellular neurobiology including proteins and nucleic acids, cell biology of neurons and glia, synaptic transmission and neuronal signaling. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 531. Instruction Mode: Lecture Grading Option: Letter Crosslisted as INTD 567

NSCI 532 Systems and Behavioral Neurobiology
Units: 3 Terms Offered: FaSpSm Systems and behavioral neurobiology: hierarchical mechanisms controlling behavior, experimental techniques; perceptual (visual, auditory, somatosensory) systems; sensorimotor systems; motivated behavior, learning, memory and adaptation. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

NSCI 533 Cognitive Neuroscience
Units: 4 Terms Offered: Sp (Enroll in PSYC 540)

NSCI 539 Seminar in Neurobiology
Units: 1 Max Units: 4 Terms Offered: FaSp Seminar in Neurobiology. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former NEUR 539. Instruction Mode: Lecture Grading Option: Letter

NSCI 540 Advanced Seminars in Neuroscience
Units: 1 Max Units: 8.0 Terms Offered: FaSpSm Advanced topic based seminar style courses in the diverse areas of Neuroscience. Recommended Preparation: NSCI 524. Registration Restriction: Open only graduate students. Instruction Mode: Lecture Grading Option: Letter
COURSES OF INSTRUCTION

Grading Option: In-progress & Credit/No Credit
NURS 500 Bridge Course
Units: 2 Key concepts from chemistry, biochemistry, genetics, cell biology, metabolism, microbiology, and immunology in an 8-week format. Successful completion of this unique preparatory course is expected to position students for success in the graduate level pathophysiology and pharmacology courses. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 501 Pathophysiology for Advanced Nursing Practice
Units: 4 Advanced physiology/pathophysiology including general principles that apply across the lifespan. Recommended Preparation: Recent (within five years), satisfactory completion of undergraduate courses that include Organic Chemistry, Nutrition, Anatomy and Physiology. It is expected the enrolled students have reviewed their undergraduate course work in human anatomy and physiology, and possess a working knowledge of cell biology, biochemistry, nutrition, and human genetics at the undergraduate level. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 502 Advanced Health Assessment Across the Life Span
Units: 3 Development of advanced critical thinking and clinical judgement skills through comprehensive health assessment. Health promotion and health maintenance content is utilized to assess health status and evaluate the health risk among individuals and groups. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 503 Theory: Clinical Management of Adult Patients
Units: 3 The scope of practice and responsibilities of the family nurse practitioner in the diagnosis and management of patients with acute, complex and chronic illnesses are explored. Prerequisite: NURS 503 and NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 504 Pharmacology for Advanced Practice Nursing
Units: 3 Advanced pharmacology including pharmacodynamics, pharmacokinetics, and pharmacotherapeutics of all broad categories of agents. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 505 Clinical Practicum: Management of Adult Patients
Units: 3 Primary health care to patients throughout the life cycle with a focus on the prevention of disease, health maintenance, and the diagnosis and management of patients with common illnesses. Prerequisite: NURS 503 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 507 Theory: Clinical Management of the Childbearing/Childrearing Family
Units: 3 Diagnosing and managing childbearing/childrearing women from preconception through uncomplicated pregnancy and postpartum periods and providing primary care to children and their families from newborn through adolescence periods. Prerequisite: NURS 503 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 600 Theory: Clinical Management of Adult Patients with Complex Medical Issues
Units: 3 The scope of practice and responsibilities of the family nurse practitioner in the diagnosis and management of patients with acute, complex and chronic illnesses are explored. Prerequisite: NURS 503 and NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 601 Clinical Practicum: Management of the Childbearing/Childrearing Family
Units: 3 Clinical practicum is intended to prepare FNP students to provide primary health care to childbearing/childrearing families from preconception through adolescence phase of the life cycle. Prerequisite: NURS 507 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 602 Research/Analytical Methods
Units: 3 Understanding and applying commonly used research methodologies and data analysis techniques in healthcare research. Recommended Preparation: statistics Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 603 Transforming Research Evidence into Practice
Units: 3 Preparing the advanced practice nursing student to critically evaluate knowledge, research and evidence for implementation of best practices in healthcare in order to deliver safe, ethical, culturally sensitive evidence based care for patients in diverse settings. Prerequisite: NURS 602 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 604 Clinical Practicum: Management of Adult Patients with Complex Medical Issues
Units: 3 Application of theoretical concepts studied in NURS 600. Comprehensive assessments, formulation of differential diagnoses, and the development of plans of care to manage acute and chronic complex in a variety of practice settings. Prerequisite: NURS 600 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

NURS 605 Professional Issues in Advanced Practice Nursing
Units: 2 The professional role and legal responsibilities of the nurse practitioner at entry to clinical practice and throughout a career are explored. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 606 Health Policy Principles in Changing Health Care Contexts
Units: 2 Foundation for leadership in interprofessional collaborative endeavors to address health policy that prepares learners to analyze and influence health policy and explores the role of nurse practitioners in the creation and modification of health policy. Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 607 Theory: Family Primary Care
Units: 2 Capstone course draws on material and concepts learned throughout the FNP program and explores additional complex issues including management of pain, caregiver burden, palliative care, and end of life. Prerequisite: NURS 503 and NURS 507 and NURS 600 and NURS 602 and NURS 603 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Letter

NURS 608 Clinical Practicum: Family Primary Care
Units: 3 Prepares the family nurse practitioner student for entry into practice in the diagnosis and management of patients with acute, complex, and chronic illnesses in the primary care setting. Corequisite: NURS 607 Registration Restriction: Open only to master students in Nursing Instruction Mode: Lecture Grading Option: Credit/No Credit

Occlusion
OCC 310 Fundamentals of Dental Morphology
Units: 1 Fundamentals of tooth form, carving of the permanent teeth. Instruction Mode: Lecture Grading Option: Letter

OCC 502 Occlusion
Units: 1 Principles of occlusion as related to clinical application of techniques and procedures to diagnose and treatment plan malfunctions of the stomatognathic system. Instruction Mode: Lecture Grading Option: Letter

OCC 521a Dental Morphology and Function
Units: 3 Fundamentals of tooth form; carving of the permanent teeth. Instruction Mode: Lecture Grading Option: Letter

OCC 521b Dental Morphology and Function
Units: 2 Fundamentals of tooth form; principles of occlusion. Instruction Mode: Lecture Grading Option: Letter

OCC 522 Occlusion Laboratory
Units: 1 Laboratory experience in functional analysis and correction of occlusal disharmonies. Instruction Mode: Lecture Grading Option: Letter
OCCL 601 Advanced Concepts of Occlusion  
Units: 1 Historical perspective of occlusion; occlusal equilibration, effect of occlusal adjustment, instrumentation useful in occlusal therapy. Includes clinic and laboratory experience. Instruction Mode: Lecture Grading Option: Letter  

Otolaryngology, Head and Neck Surgery  

OHNS 200 Communication Development and Disorders Across the Life Span  
Units: 4 Terms Offered: Sp Introduction to speech, language and hearing issues across the lifespan; examination of how issues of communication relate to social, medical and educational services needed. Instruction Mode: Lecture Grading Option: Letter  

OHNS 301 The Practice of Educational Speech-Language Pathology  
Units: 4 Terms Offered: Fa Examination of the interprofessional practice of educational speech-language pathologists and the multiple professionals working in the pediatric arena to serve children in schools. Instruction Mode: Lecture Grading Option: Letter  

OHNS 302 Hearing Science and Technology  
Units: 4 Terms Offered: Fa Examination of emerging trends in the protection of hearing and treatment of hearing loss, explored across disciplines, including biology, biomedical engineering, electrical engineering, arts, neuroscience and psychology. Instruction Mode: Lecture Grading Option: Letter  

OHNS 401 The Practice of Medical Speech-Language Pathology  
Units: 4 Terms Offered: Sp Introduction to the practice of medical speech language pathology; examination of the role of the speech language pathologist as a member of the medical speech pathology team. Instruction Mode: Lecture Grading Option: Letter  

OHNS 402 The Dynamic Profession of Audiology  
Units: 4 Terms Offered: Sp Exploration of how our understanding of hearing and balance disorders continues to evolve with advances in science and technology, with opportunities for interprofessional practice and collaboration. Instruction Mode: Lecture Grading Option: Letter  

OHNS 500 Neuroanatomy and Neurophysiology for Speech, Language and Hearing  
Units: 3 Terms Offered: Fa Neuroanatomy and neurophysiology with a concentration on basic human communication and swallowing processes, specifically pertaining to disorders and differences in speech, language and hearing. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 501 Speech Sound Disorders  
Units: 3 Terms Offered: Fa Focus on speech-sound production, assessment and treatment of childhood articulation and phonological disorders, emphasizing the study of efficient and effective procedures and service delivery models. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 502 Language and Literacy Disorders  
Units: 3 Terms Offered: Fa Focus on language and literacy disorders in children from birth through adolescence. Special emphasis on assessment, prevention and intervention methods across populations and multi-cultural backgrounds. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 503 Research Methods in Communication Sciences and Disorders  
Units: 3 Terms Offered: Fa Basic and applied research procedures in communication sciences and disorders, including research design, data collection and analysis and application to evidence-based practice for clinical practice. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 504 Speech-Language Pathology Methods and Evidence-Based Practice  
Units: 3 Terms Offered: Fa Overview of the clinical process for the prevention and remediation of communication disorders with emphasis on clinical methodology. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 505 Audiology for Speech-Language Pathologists  
Units: 2 Terms Offered: Sp Introduction to the discipline and practice of audiology, including the nature of hearing and balance, how these systems are clinically assessed and impacts of altered function. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 506 Autism Spectrum Disorder, AAC and Cognitive Communication Disorders in Children  
Units: 3 Terms Offered: Sp Assessment and treatment of Autism Spectrum Disorders and other cognitive disabilities including language, social skills, behavior, consideration for assistive technology and augmentative and alternative communication. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 507 Voice and Resonance Disorders  
Units: 3 Terms Offered: Fa Nature of normal voice production and the assessment and treatment of physiological and other disorders of pitch, loudness, voice quality, including resonance and alaryngeal voice. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 508 Assessment of Communication Disorders  
Units: 3 Terms Offered: Sp Principles, methods and materials to assess communication disorders. Models of assessment and testing, techniques, administration, scoring and interpretation, report writing and related issues. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 509 Dysphagia  
Units: 3 Terms Offered: Sp Anatomy and physiology of the normal swallow and neurological/oncologic disorders which affect the swallowing process. Current practice for clinical and instrumentation analysis, evaluation and treatment. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 510 Clinical Practicum in Speech-Language Pathology  
Units: 2 Terms Offered: Sp Supervised clinical hours in assessment and treatment of individuals with varying communication disorders at a variety of age levels in educational or medical settings. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 511 Aural (Re)Habilitation  
Units: 3 Terms Offered: FaSpSm Introduction to the theories, concepts and components that underlie aural habilitation and rehabilitation to individuals with hearing loss, and concomitant services to their family members. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 512 Communication Disorders in Early Childhood  
Units: 3 Normal and atypical development relating to prevention, evaluation, treatment planning and remodeling communication disorders in early childhood. Involvement of family, interdisciplinary teaming and legal requirements. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 513 Adult Neurogenic and Related Cognitive Communication Disorders  
Units: 3 Acquired communication disorders including aphasia, right hemisphere disorder, traumatic brain injury, dementia, concussion. Assessment and treatment of these disorders including executive functioning and work/life/family/social implications. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter  

OHNS 514 Clinical Rotations in Speech-Language Pathology  
Units: 3 Max Units: 6 Supervised clinical hours in assessment and treatment of individuals with varying communication disorders at two specialty rotations for six weeks each. Registration Restriction: Open only to master students in the Speech-Language Pathology program. Instruction Mode: Lecture Grading Option: Letter
OHNS 515 School-Based Issues in Speech-Language Programs
Units: 3
Terms Offered: Fa
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 516 Motor Speech Disorders/ Craniofacial Disorders
Units: 3
Terms Offered: Fa
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 517 Multicultural Issues in Speech-Language Pathology
Units: 2
Terms Offered: Fa
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 518 Research/Capstone in Communication Sciences and Disorders
Units: 1 Max Units: 02
Terms Offered: FaSp
Capstone Research Project addressing a problem in the field of communication sciences and disorders. Students will work with a PhD-level faculty member and will culminate in a submission for presentation in a poster session at a professional conference.
Registration Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 519 Externship in Speech-Language Pathology
Units: 3 Max Units: 06
Terms Offered: FaSp
Speech-language pathology clinical experience in a supervised school-based, medically-based or private practice setting.
Registration Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 520 Professional Issues in Speech-Language Pathology
Units: 1
Terms Offered: Sp
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 521 Fluency Disorders
Units: 2
Terms Offered: Sp
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 522 Telepractice and Technological Applications in Speech-Language Pathology
Units: 2
Terms Offered: Sm
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OHNS 523 Counseling in Speech-Language Pathology
Units: 2
Terms Offered: Sm
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OFPM 701 CPR, Blood and Airborne Infections and Common Emergencies for Dental Residents
Units: 1
Terms Offered: Sm
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OFPM 702a Soft Tissue Disease for Dental Residents
Units: 1
Terms Offered: Sm
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OFPM 702b Soft Tissue Disease for Dental Residents
Units: 2
Terms Offered: Fa
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OFPM 703 Local Anesthesia, Minor Surgery and Biopsy Procedures for Dental Residents
Units: 1
Terms Offered: Sm
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OFPM 704 Bony Pathology, Radiology and Advanced Imaging for Dental Residents
Units: 1
Terms Offered: Sm
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

OFPM 705 Neurogenic Based Oral and Facial Pains for Dental Residents
Units: 2
Terms Offered: Sp
Restriction: Open only to master students in the Speech-Language Pathology program
Instruction Mode: Lecture Grading Option: Letter

COURSES OF INSTRUCTION
OFPM 724 Psychological and Psychometric Assessment for Dental Residents
Units: 2. Terms Offered: Sm Seminars on various topics relating to biobehavioral diagnosis and, where appropriate, psychological management of patients with chronic illness in the orofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 725 Epidemiology, Nutrition and Aging for Dental Residents
Units: 2. Terms Offered: Sm Seminar on the epidemiology of oral disease and nutritional topics related to aging patient. Instruction Mode: Lecture Grading Option: Letter

OFPM 726 Immunology and Immunosuppression for Dental Residents
Units: 2. Terms Offered: FaSpSm Seminar course on immunology and immunosuppression as it relates to diseases in the oral and maxillofacial region. Instruction Mode: Lecture Grading Option: Letter

OFPM 727 Infectious Disease, Oral Microbiology and Virology for Dental Residents
Units: 2. Terms Offered: Sm Seminar organized around infectious diseases in the oral, pharyngeal and nasal region. Instruction Mode: Lecture Grading Option: Letter

OFPM 728 Case Presentations by OFP-OM Residents
Units: 2. Terms Offered: Sp Case presentations by Oral Medicine residents in which each resident presents and defends the diagnostic and treatment methods selected for a particular case. Instruction Mode: Lecture Grading Option: Letter

OFPM 729a Capstone Project for OFPOM Residents
Units: 0.5. Terms Offered: Sp Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729b Capstone Project for OFPOM Residents
Units: 0.5. Terms Offered: Fa Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. Prerequisite: OFPM 729a Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 729c Capstone Project for OFPOM Residents
Units: 0.5. Terms Offered: Sp Residents complete their capstone research project in a topic in the area of their chosen focus/specialization. Prerequisite: OFPM 729b Registration Restriction: Open only to Herman Ostrow School of Dentistry students Instruction Mode: Lecture Grading Option: Letter

OFPM 730a Case Portfolio Preparation by Online OFPOM Residents
Units: 5. Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Prerequisite: OFPM 730a Registration Restriction: Open only to Dental students Instruction Mode: Lecture Grading Option: Letter

OFPM 730b Case Portfolio Preparation by Online OFPOM Residents
Units: 5. Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Prerequisite: OFPM 730b Registration Restriction: Open only to Dental students Instruction Mode: Lecture Grading Option: Letter

OFPM 730c Case Portfolio Preparation by Online OFPOM Residents
Units: 5. Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Prerequisite: OFPM 730c Registration Restriction: Open only to Dental students Instruction Mode: Lecture Grading Option: Letter

OFPM 730d Case Portfolio Preparation by Online OFPOM Residents
Units: 5. Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Prerequisite: OFPM 730d Registration Restriction: Open only to Dental students Instruction Mode: Lecture Grading Option: Letter

OFPM 730e Case Portfolio Preparation by Online OFPOM Residents
Units: 5. Terms Offered: FaSpSm Multiple elements including weekly online conferences, presentations and discussions of de-identified patient cases; learning need assignments; preparation and defense of case-based e-Portfolio. Prerequisite: OFPM 730e Registration Restriction: Open only to Dental students Instruction Mode: Lecture Grading Option: Letter

OFPM 731 Case Portfolio Review and Defense
Units: 0.5. Terms Offered: Sm Residents must complete their capstone research project in a topic in the area of their chosen focus/specialization. Prerequisite: OFPM 730b Registration Restriction: Open only to Dental students Instruction Mode: Lecture, Discussion Grading Option: Letter

Orofacial Pain
OFP 705 Neurogenic Based Oral and Facial Pains
Units: 2. Terms Offered: FaSpSm Covers the prevalence, differential diagnosis, prevention and management for the various neurogenic orofacial and headache disorders occurring in the oral regions. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 705 Instruction Mode: Lecture Grading Option: Letter

OFP 706 TMD, Orthopedics, Rheumatology, and Physical Therapy
Units: 2. Terms Offered: FaSpSm Prevalence, differential diagnosis, prevention and management for the common and uncommon temporomandibular, arthrogenous, motor, mobility and growth disorders occurring in the oral region. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 706 Instruction Mode: Lecture Grading Option: Letter

OFP 707 Pharmacology Series
Units: 2. Terms Offered: FaSpSm Educate dental graduate students about the general pharmacologic principles and appropriate use of specific pharmaco-therapeutic classes of drugs. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 707 Instruction Mode: Lecture Grading Option: Letter

OFP 710 Knowledge Assessment
Units: 1. Terms Offered: FaSpSm Students attend USC campus to validate skills and perform in-person evaluations. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 710a Instruction Mode: Lecture Grading Option: Letter

OFP 723 Systems Physiology, Motor Disorders, and Sleep Apnea
Units: 2. Terms Offered: FaSpSm Presentation, diagnosis, mechanism and management of oral motor disorders and sleep disordered breathing providing knowledge about general issues of physiology associated with the masticatory system. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 723 Instruction Mode: Lecture Grading Option: Letter

OFP 724 Psychological and Psychometric Assessment
Units: 2. Terms Offered: FaSpSm Practical aspects of psychological issues (diagnosis and treatment) and psychometrics as they impact patients in an orofacial pain and oral medicine specialty clinic. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 724 Instruction Mode: Lecture Grading Option: Letter

OFP 730a Case Portfolio Preparation
Units: 5. Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730a Instruction Mode: Lecture Grading Option: Letter

OFP 730b Case Portfolio Preparation
Units: 5. Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. Prerequisite: OFP 730a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730b Instruction Mode: Lecture Grading Option: Letter
OFP 730c Case Portfolio Preparation
Units: 5 Terms Offered: FaSpSm Case portfolio preparation with weekly online presentations and discussions of de-identified patient cases. Prerequisite: OFP 730b Registration Restriction: Open only to the Herman Ostrow School of Dentistry Duplicates Credit in OFPM 730c Instruction Mode: Lecture Grading Option: Letter

Oral Medicine Oral Diagnosis
OMOD 501 Emergency Dental Treatment
Units: 6 Current concepts of pain mechanisms; application to differential diagnosis, treatment, and management of chronic head, neck, and dental pain. Instruction Mode: Lecture Grading Option: Letter
OMOD 502 Chronic Orofacial Pain
Units: 2 Current concepts of pain mechanisms; application to differential diagnosis, treatment, and management of chronic head, neck, and dental pain. Instruction Mode: Lecture Grading Option: Letter
OMOD 503 Oral Medicine
Units: 2 Detection, recognition, assessment, management and treatment modification of medical conditions presented by dental patients. Instruction Mode: Lecture Grading Option: Letter
OMOD 504 Oral Medicine
Units: 2 Detection, recognition, assessment, management and treatment modification of medical conditions presented by dental patients. Instruction Mode: Lecture Grading Option: Letter
OMOD 505 Oral Medicine
Units: 2 Detection, recognition, assessment, management and treatment modification of medical conditions presented by dental patients. Instruction Mode: Lecture Grading Option: Letter
OMOD 506 Infection Control
Units: 1 Infection control and clinical asepsis in the dental office; ethical and legal aspects; specific agents of disease; epidemiology. Instruction Mode: Lecture Grading Option: Letter
OMOD 551a Clinic: Physical Evaluation
Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 551b Clinic: Physical Evaluation
Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 551c Clinic: Physical Evaluation
Units: 0 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 551d Clinic: Physical Evaluation
Units: 1 Obtaining medical history, performing modified physical exams and clinical laboratory tests, establishing physical status. Understanding rationale and indications for modifying dental therapy; clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 552a Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 552b Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 552c Clinic: Hospital Dentistry
Units: 0 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 552d Clinic: Hospital Dentistry
Units: 1 Clinical experience in dentistry for the medically compromised and physically handicapped patient in a hospital environment. Instruction Mode: Lecture Grading Option: Letter
OMOD 553a Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 553b Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 553c Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 553d Clinic: Emergency Dental Treatment
Units: 0 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OMOD 554 Clinic: Emergency Dental Treatment
Units: 1 Experience in management and treatment of emergency dental problems, including diagnosis of the pain cause, provision of appropriate therapy, and post operative instructions to the patient. Instruction Mode: Lecture Grading Option: Letter

Operative Dentistry
OPER 520 Preclinical Operative Dentistry (ISP)
Units: 3 Preparation for clinical work through study of cavity design and restoration of cavity preparations on extracted teeth mounted in a manikin. Instruction Mode: Lecture Grading Option: Letter
OPER 521a Preclinical Operative Dentistry I
Units: 1, 2, 3 Introduction to terminology, materials, and instruments used in operative dentistry; fundamentals of amalgam restoration; principles of cavity preparation; amalgam manipulation, condensation, and carving using extracted teeth. Instruction Mode: Lecture Grading Option: Letter
OPER 521b Preclinical Operative Dentistry II
Units: 1, 2, 3 Introduction to terminology, materials, and instruments used in operative dentistry; fundamentals of amalgam restoration; principles of cavity preparation; amalgam manipulation, condensation, and carving using extracted teeth. Instruction Mode: Lecture Grading Option: Letter
OPER 522 Preclinical Operative Dentistry II
Units: 3 Fundamentals of cavity design; restoration of cavity preparations on extracted teeth mounted in the manikin. Instruction Mode: Lecture Grading Option: Letter
OPER 561a Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OPER 561b Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OPER 561c Clinic: Operative Dentistry I
Units: 0 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OPER 561d Clinic: Operative Dentistry I
Units: 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: Letter
OPER 562a Clinic: Operative Dentistry II
Units: 0, 1, 2, 3, 4, 5, 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
OPER 562b Clinic: Operative Dentistry II
Units: 0, 1, 2, 3, 4, 5, 6 Clinical experience treating patients using all modalities of operative dentistry. Instruction Mode: Lecture Grading Option: Letter
OPER 620 Conservative Cast Gold Restorations
Units: 2 Principles of cavity preparation, fabrication technique and finishing for conservative cast gold restorations, includes lab and clinic. Instruction Mode: Lecture Grading Option: Letter
OPER 701a Seminar: Advanced Operative Dentistry I
Units: 2
Terms Offered: Fa In-depth study of the principles of adhesion to dental structures and bonding procedures, and protection of the pulpdentin. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: In-progress to Credit/No Credit

OPER 701b Seminar: Advanced Operative Dentistry I
Units: 2
Terms Offered: Fa In-depth study of the principles of adhesion to dental structures and bonding procedures, and protection of the pulpdentin. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 702a Advanced Dental Morphology for Esthetic Restorations
Units: 3
Terms Offered: Sm In-depth study of the dental morphology, dental optical properties, and laboratorial procedures for restorative replication of esthetical and morphological aspects found in the natural tooth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 702b Advanced Dental Morphology for Esthetic Restorations
Units: 3
Terms Offered: Fa In-depth study of the dental morphology, dental optical properties, and laboratorial procedures for restorative replication of esthetical and morphological aspects found in the natural tooth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

OPER 704a Operative Dentistry and Biomaterials Literature Review
Units: 1
Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Prerequisite: OPER 704c Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704b Operative Dentistry and Biomaterials Literature Review
Units: 1
Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Prerequisite: OPER 704a Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704c Operative Dentistry and Biomaterials Literature Review
Units: 1
Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Prerequisite: OPER 704b Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704d Operative Dentistry and Biomaterials Literature Review
Units: 1
Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Prerequisite: OPER 704c Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704e Operative Dentistry and Biomaterials Literature Review
Units: 1
Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Prerequisite: OPER 704d Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 704f Operative Dentistry and Biomaterials Literature Review
Units: 1
Terms Offered: FaSpSm Weekly seminar devoted to review of the historic, classic, and current literature in advanced operative dentistry and dental biomaterials. Prerequisite: OPER 704e Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Letter

OPER 707a Seminar: Advanced Operative Dentistry II
Units: 1
Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 707b Seminar: Advanced Operative Dentistry II
Units: 1
Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 707c Seminar: Advanced Operative Dentistry II
Units: 1
Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 707d Seminar: Advanced Operative Dentistry II
Units: 1
Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 707e Seminar: Advanced Operative Dentistry II
Units: 1
Terms Offered: FaSpSm Advanced knowledge and scientific background of the principles of adhesion to dental structures and analysis of bonding effectiveness of different adhesive methods and bonding degradation. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit
Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 720b Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 720c Seminar: Advanced Operative Dentistry III
Units: 1 Terms Offered: FaSpSm Advanced studies, technical, and scientific background of esthetic bonded direct restorations with in-depth analysis of mechanical, physical, and optical properties of resin composite restorations. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 725b Cariology
Units: 1 Terms Offered: FaSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors

Instruction Mode: Lecture
Grading Option: Credit/No Credit

OPER 725b Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Prerequisite: OPER 725a Registration Restriction: Open only to Advanced Operative and Adhesive Dentistry majors

Instruction Mode: Lecture
Grading Option: Credit/No Credit

OPER 730a Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 730b Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture
Grading Option: Credit/No Credit

OPER 730c Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 730d Seminar: Advanced Operative Dentistry IV
Units: 1 Terms Offered: FaSpSm In-depth study, analysis, and treatment involved in the management of discolored and developmental defects of the teeth. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 735aL Research Methodology
Units: 2 Terms Offered: FaSpSm Study of research methodologies for scientific investigation on dental biomaterials. Registration Restriction: Open only to the Herman Ostrow School of Dentistry

Instruction Mode: Lecture, Lab Required
Grading Option: Letter

OPER 735bL Research Methodology
Units: 2 Terms Offered: FaSpSm Study of research methodologies for scientific investigation on dental biomaterials. Prerequisite: OPER 735aL Registration Restriction: Open only to the Herman Ostrow School of Dentistry

Instruction Mode: Lecture, Lab Required
Grading Option: Letter

OPER 740a Seminar: Advanced Operative Dentistry V
Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture
Grading Option: Credit/No Credit

OPER 740b Seminar: Advanced Operative Dentistry V
Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 740c Seminar: Advanced Operative Dentistry V
Units: 2 Terms Offered: FaSpSm Cariology and proficiency of dental caries management using preventive methods and minimally invasive restorative techniques.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 750a Seminar: Advanced Operative Dentistry VI
Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 750b Seminar: Advanced Operative Dentistry VI
Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 750c Seminar: Advanced Operative Dentistry VI
Units: 2 Terms Offered: FaSpSm Advanced studies of restorative techniques of severely damaged teeth, selection and use of different post systems, core build-up, and bonding to the root canal. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 760a Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 760b Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit

OPER 760c Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students.

Instruction Mode: Lecture, Discussion
Grading Option: Credit/No Credit
restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760d Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760e Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760f Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 760g Seminar: Advanced Operative Dentistry VII
Units: 1 Terms Offered: FaSpSm Proficiency in advanced esthetic indirect restorations for anterior and posterior teeth, including preparation designs, material selection, cementation and bonding procedures, and alternative resin-bonded fixed-partial dentures. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765c Seminar: Advanced Operative Dentistry VIII
Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 765d Seminar: Advanced Operative Dentistry VIII
Units: 1 Terms Offered: FaSpSm Advanced studies of computer-generated restorations (CAD/CAM) and digital imaging in dentistry for anterior and posterior teeth. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770a Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770b Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770c Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770d Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770e Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770f Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 770g Seminar: Advanced Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit
led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780f Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780h Treatment Planning in Operative Dentistry
Units: 2 Terms Offered: FaSpSm Seminars led by students and invited guests to discuss, analyze and propose a treatment sequence for esthetic challenge clinical cases involving complex multidisciplinary treatment. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OPER 780i Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: In-progress to Credit/No Credit

OPER 795a Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795b Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795c Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795d Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795e Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 10.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795f Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795g Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795i Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

OPER 795j Clinic: Advanced Operative Dentistry
Units: 1, 2, 3 Max Units: 14.0 Terms Offered: FaSpSm Advanced clinical and laboratorial treatment of patients in need of complex multidisciplinary treatment, with special emphasis on esthetic and bonded restorations. Open only to Advanced Operative Dentistry Certificate students. Instruction Mode: Lecture Teaching Option: Credit/No Credit

ORN 701 Bone Pathology and Oral and Maxillofacial Radiology
Units: 1 Terms Offered: Sm Focus on the interpretation of hard tissue imaging studies, including conventional dental imaging in the diagnosis along with the basics of medical radiographic moaldities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 702 Principles and Practice of Oral Medicine
Units: 1 Terms Offered: Sm An overview of patients with primary oral conditions and oral diseases related to systemic pathology. Practice management issues discussed. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 703 General and Systemic Human Pathology
Units: 1 Terms Offered: Sm Focus on the interpretation of hard tissue imaging studies, including conventional dental imaging in the diagnosis along with the basics of medical radiographic moaldities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 704 Oral Pathology and Maxillofacial Medicine
Units: 3 Terms Offered: Fa Review of oral diseases affecting the oral cavity which includes developmental conditions, pigmented lesions, Immune-Mediated and Allergic Conditions, mucosal and connective tissue abnormalities. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 705 Oral Histopathology and Surgical Pathology
Units: 2 Terms Offered: Sp Various diagnostic modalities, interventional diagnostic procedures, and the description of microscopic features of oral developmental, reactive, and neoplastic conditions relevant to surgical pathology. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 706 Evidence-Based Practice and Literature Review
Units: 1 Terms Offered: Sp Focus on discussion of patient-centered approaches to clinical treatment and decision-making. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 730a Case Portfolio Preparation
Units: 0.5 Terms Offered: Fa Weekly online conferences and discussions, and the documentation of six cases or scenarios, to demonstrate understanding of the knowledge and application to real situations. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 730b Case Portfolio Preparation
Units: 0.5 Terms Offered: Sm Weekly online conferences and discussions, and the documentation of six cases or scenarios, to demonstrate understanding of the knowledge and application to real situations. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORN 732 Knowledge Assessment
Units: 1 Terms Offered: Sm Residents attend the USC campus, with several intensive calibration/training/seminar sessions provided by faculty. Registration Restriction: Open only to dentistry students Instruction Mode: Lecture Teaching Option: Letter

ORTH 501a Seminar: Orthodontics
Units: 0, 1 Clinical use of cephalometrics and orthodontic prediction; removable orthodontic appliances and their design; case analysis; mixed dentition cases; adult tooth positioning; orthodontic bonding; molar uprighting. Instruction Mode: Lecture Teaching Option: In-progress to Letter Grade

ORTH 501b Seminar: Orthodontics
Units: 0, 1 Clinical use of cephalometrics
and orthodontic prediction; removable orthodontic appliances and their design; case analysis; mixed dentition cases; adult tooth positioning; orthodontic banding; molar uprighting. Instruction Mode: Lecture Grading Option: Letter

ORTH 521 Preclinical Orthodontics Units: 2 Evaluation, prevention, and treatment of dento-facial malformations. Construction of basic appliances to treat orthodontic problems encountered by the general practitioner. Instruction Mode: Lecture Grading Option: Letter

ORTH 561a Clinic: Orthodontic Therapy Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. Prerequisite: ORTH 521. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561b Clinic: Orthodontic Therapy Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. Prerequisite: ORTH 561a. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561c Clinic: Orthodontic Therapy Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. Prerequisite: ORTH 561b. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561d Clinic: Orthodontic Therapy Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. Prerequisite: ORTH 561c. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561e Clinic: Orthodontic Therapy Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. Prerequisite: ORTH 561d. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

ORTH 561f Clinic: Orthodontic Therapy Units: 0 Diagnosis and limited treatment of orthodontic problems encountered in general practice. Diagnosis of complex orthodontic problems requiring treatment by a specialist. Prerequisite: ORTH 561e. Instruction Mode: Lecture Grading Option: Letter

ORTH 674 Clinical and Molecular Bone Biology Units: 2 Terms Offered: Sp Explore the impact of the application of new molecular techniques to bone biology research on our understanding of osteoporosis, osteosarcoma, hypercalcemia, etc. Open to advanced program students in dentistry only. Instruction Mode: Lecture Grading Option: Letter

ORTH 701a Cephalometrics: Growth and Development Units: 2, 3, 4 Principles and mechanics; measurement techniques; developmental morphology; analysis and diagnosis; treatment rationales; gross radiological anatomy and osteology; facial growth. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 701b Cephalometrics: Growth and Development Units: 2, 3, 4 Principles and mechanics; measurement techniques; developmental morphology; analysis and diagnosis; treatment rationales; gross radiological anatomy and osteology; facial growth. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 701c Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 702 Seminar: Review of the Orthodontic Literature Units: 0 Two trimester Course Review of current orthodontic literature. Instruction Mode: Lecture Grading Option: Letter

ORTH 703a Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703b Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703c Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703d Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703e Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 703f Seminar: Advanced Orthodontics Units: 2, 3, 4, 5, 6, 7, 8 each Terms Offered: FaSpSm Advanced diagnosis and treatment of complex orthodontic cases. Asymmetrical treatment. Hours vary. Instruction Mode: Lecture Grading Option: Letter

ORTH 704 Seminar: Orthodontics in Theory and Practice Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704a Seminar: Orthodontics in Theory and Practice Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704b Seminar: Orthodontics in Theory and Practice Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 704c Seminar: Orthodontics in Theory and Practice Units: 2 Review of various approaches to orthodontic treatment; includes presentation of cases. Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 705a Orthodontic Practice Management Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 705b Orthodontic Practice Management Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 705c Orthodontic Practice Management Units: 2 Terms Offered: FaSpSm Office management and patient relations in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 707 Interdisciplinary Aesthetic Treatment Units: 2 Terms Offered: Sp Commonly encountered interdisciplinary aesthetic problems. Communication and teamwork between orthodontists and general dentists, as well as other specialists will be emphasized. Instruction Mode: Lecture Grading Option: Letter

ORTH 708 Information Technology in Orthodontic Practice Units: 2 Terms Offered: Fa Practical applications of information technology in contemporary orthodontics. Topics include office management systems, videocaphalometrics, and video imaging in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 709 Advanced Information Technology in Orthodontic Practice Units: 2 Terms Offered: Sm Follows ORTH 708 and is designed to provide background and up-to-date information on advanced technologies in orthodontic practice. Instruction Mode: Lecture Grading Option: Letter

ORTH 721 Biomechanics and Orthodontic Technique Units: 8 Primary orthodontic techniques and basic orthodontic procedures. Tyndall treatment of malocclusion, record taking, retention appliances, and beginning biomechanics. Instruction Mode: Lecture Grading Option: Letter
ORTH 744 Statistical Methods and Research Design in Orthodontics
Units: 2 Terms Offered: FaSpSm
Experimental design and analysis as applied to orthodontic basic sciences and clinical research; descriptive and inferential statistics, bioethics, writing a research proposal, and evaluation of literature. Recommended Preparation: high school algebra Registration Restriction: Open only to the Herman Ostrow School of Dentistry Instruction Mode: Lecture Grading Option: Credit/No Credit

ORTH 751a Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751b Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751c Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751d Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751e Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751f Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751h Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

ORTH 751i Clinic: Advanced Orthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical orthodontics; clinical techniques, diagnostic procedures, and applied clinical therapy to selected cases of malocclusion with emphasis on therapy and supervised treatment. Instruction Mode: Lecture Grading Option: Letter

OR 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OS 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OS 794e Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Occupational Science and Occupational Therapy

OT 100THRIVE: Foundations of Well-Being
Units: 1 Terms Offered: FaSp Exploration of themes of thriving including well-being, self-care, and connection. Application to university life, building community, developing identity and integrating learned topics into everyday life. Instruction Mode: Lecture, Discussion Grading Option: Credit/ No Credit

OT 101x Caring For Your Self: Engaging in Healthy Habits and Routines
Units: 2 Terms Offered: FaSp Application of occupational science evidence and occupational therapy principles of lifestyle and self-care behavior change to support self-analysis and integration of healthy habits and routines. Credit Restriction: Not available for major credit for Occupational Therapy students Instruction Mode: Lecture, Discussion Grading Option: Credit/ No Credit

OT 105g Culture, Medicine and Politics
Units: 4 Terms Offered: Fa (Enroll in ANTH 105)

OT 200 Medical Terminology for Health Professions
Units: 1 Foundation of medical terminology and hospital abbreviations useful for practice in health care. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 220 Lifestyle Design: Introduction to Occupational Therapy
Units: 2 Terms Offered: FaSp Introduction to theoretical concepts concerning the relationship of engagement in activities (occupations) to health and well being. Application of these perspectives to students' own lives. Instruction Mode: Lecture Grading Option: Letter
OT 250 Introduction to Occupational Science and Occupational Therapy
Units: 4 Introduction to concept of occupation and overview of human drive for meaningful activity; impact of occupations on health and wellbeing; analysis of personal occupational patterns; selected therapeutic applications. Instruction Mode: Lecture Grading Option: Letter

OT 251x Across the Lifespan: Occupations, Health and Disability
Units: 4 Terms Offered: FaSp Exploration of the transformative power of occupation throughout the lifespan for all individuals. Instruction Mode: Lecture Grading Option: Letter

OT 260 Human Functional Anatomy for Allied Health Professions
Units: 3 Terms Offered: FaSpSm Lecture and cadaver lab-based, human anatomy course focused on the interaction of anatomical systems relative to functional activity, health and wellness. Recommended Preparation: introductory undergraduate course in biology Instruction Mode: Lecture, Lab Grading Option: Letter

OT 261 Human Physiology for Allied Health Professions
Units: 3 Terms Offered: FaSpSm Overview of human physiology emphasizing systems that sustain homeostasis and motion with a focus on biological foundations for a healthy lifestyle. Relevant pathophysiologic issues discussed. Recommended Preparation: introductory undergraduate biology course Instruction Mode: Lecture, Lab Grading Option: Letter

OT 280 Essential Occupations of Emerging Adulthood
Units: 2 Terms Offered: FaSp Examination of challenges associated with the emerging adulthood stage of development through an occupational science lens; strategies to promote health and well-being for this population. Instruction Mode: Lecture Grading Option: Letter

OT 299 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpRecent developments in occupational therapy and occupational science for undergraduate students. Instruction Mode: Lecture Grading Option: Letter

OT 300 Occupational Expressions of Diverse Identities and Lifestyles
Units: 4 Exploration of the diverse ways occupational practices become central to identity, reify standard social ideologies, and are manipulated to redress conventional standards. Instruction Mode: Lecture Grading Option: Letter

OT 310 Creativity Workshop
Units: 2 Terms Offered: FaSpSm Theories and practice of the creative process in varied media, genres and occupations. Explores creativity in the arts, sciences, professions, evolution, daily life, and culture. Instruction Mode: Lecture Grading Option: Letter

OT 312 Creating a Sustainable Lifestyle
Units: 2 Scientists and policymakers advocate lifestyle changes as crucial to solving the environmental crisis. Investigation into the development of habits that promote environmental sustainability and personal wellbeing. Instruction Mode: Lecture Grading Option: Letter

OT 320 The Nature of Human Occupation: Form, Function, and Meaning
Units: 4 The complex nature of human occupation is covered from an interdisciplinary perspective. Emphasis is on how occupation contributes to human experience in a lived world. Instruction Mode: Lecture Grading Option: Letter

OT 325 The Brain: Mind, Body, and Self
Units: 4 Terms Offered: FaSpSm Exploration of neuroscience as it impacts everyday living, from the fundamentals of neurons and synapses, to the neural basis of language, empathy, and social interaction. Instruction Mode: Lecture Grading Option: Letter

OT 330 Perspectives on the Daily Life of Families
Units: 4 Examines family structures and processes, the occupational dimensions of families, and the meanings embedded in the acts of daily life of contemporary families. Instruction Mode: Lecture Grading Option: Letter

OT 333 Sports Ethics
Units: 4 Terms Offered: FaSp Critically examines ethical issues central to the world of sports that range from matters of fair play and cheating to performance-enhancing drugs and gene-doping. Instruction Mode: Lecture Grading Option: Letter

OT 340 Occupational Foundations of Human-Animal Interaction
Units: 4 Terms Offered: Sp Explores how interactions with companion animals expand human capacity for action and contribute to healthy, well-being and participation, in different cultural contexts, across the life-span. Instruction Mode: Lecture Grading Option: Letter

OT 350 Disability, Occupations, and the Health Care System
Units: 4 Exploration of the ways in which able bodiedness, sexism, racism, classism and homophobia contribute to occupational opportunities or barriers and weave their way into health care. Instruction Mode: Lecture Grading Option: Letter

OT 355 Doing Social Justice
Units: 2 Terms Offered: FaSpSm Exploration of solutions to social problems through collective occupations. Introduces theories and practices of social justice, human rights, occupational justice and occupational reconstructions. Instruction Mode: Lecture Grading Option: Letter

OT 360 Creating the Self through Narrative: Acts of Life Story Production
Units: 4 Analysis of life stories, life histories, and testimonies in social interactions, texts, and films. Life stories are an occupation to re-create the "Self" in response to conflict and change. Instruction Mode: Lecture Grading Option: Letter

OT 370 Understanding Autism: Participation Across the Lifespan
Units: 4 Terms Offered: FaSpSm Introduction to Autism Spectrum Disorder (ASD) from a neurodevelopmental perspective, with a focus on the daily living experience and occupational participation for individuals with ASD. Instruction Mode: Lecture Grading Option: Letter

OT 375 The Narrative Structure of Social Action: Narrative, Healing and Occupation
Units: 4 Narrative as guide and structure of practical action. Special emphasis on chronic illness and disability and narrative structure of clinical interactions. Instruction Mode: Lecture Grading Option: Letter

OT 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

OT 405 Foundations: Occupation
Units: 2 Terms Offered: FaSpSm Introduction to basic tenets of occupational therapy history and practice, the profession’s language, and foundations of occupational science; incorporates experience and self-analysis of occupation. Registration Restriction: Open only to upper division and Masters level Occupational Therapy majors. Instruction Mode: Lecture, Discussion Grading Option: Letter

OT 406L Foundations: Creativity, Craft and Activity Analysis
Units: 2 Terms Offered: FaSpSm Exploration of craftsmanship in both historical and contemporary contexts; engagement in the craft experience to encourage creativity and to develop proficiency in analysis of performance. Registration Restriction: Open only to upper division, Master and Professional OT majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 440L Foundations: Kinesiology
Units: 2 Terms Offered: FaSpSm Review of joint and muscle structure and function; application of basic biomechanical, neuromuscular and musculoskeletal principles to the analysis of everyday activities and therapeutic interventions. Registration Restriction: Open only to upper division and master's Occupational Therapy majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 441L Foundations: Neuroscience
Units: 2 Terms Offered: FaSpSm Application of basic neural function to the analysis of daily living tasks and activities; review of pathological conditions that interfere with performance in occupation. Registration Restriction: Open only to upper division and Master's occupational therapy majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

OT 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

OT 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content to be selected in occupational therapy and occupational science. Instruction Mode: Lecture Grading Option: Letter

OT 500a Clinical Problems in Occupational Therapy
Units: 2, 3, 4 Terms Offered: FaSpSm Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for
various populations. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 500b Clinical Problems in Occupational Therapy**
**Units:** 2, 3, 4 **Terms Offered:** FaSpSm
Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 500c Clinical Problems in Occupational Therapy**
**Units:** 2, 3, 4 **Terms Offered:** FaSpSm
Specific applications of occupational therapy practice in varied clinical/health settings. Seminar to integrate theory with application of intervention principles for various populations. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 501L Practice Immersion: Adult Physical Rehabilitation**
**Units:** 8 **Terms Offered:** FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in adult rehabilitation and geriatric; incorporates related Level I Fieldwork. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 401. Instruction Mode:** Lecture, Lab **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 401. Instruction Mode:** Lecture, Lab **Required Grading Option:** Letter

**OT 502L Practice Immersion: Mental Health**
**Units:** 8 **Terms Offered:** FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in mental health practice; incorporates related Level I Fieldwork. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 402. Instruction Mode:** Lecture, Lab **Required Grading Option:** Letter

**OT 503L Practice Immersion: Pediatrics**
**Units:** 8 **Terms Offered:** FaSp Scientific and theoretical underpinnings and knowledge and skills necessary for occupational therapy evaluation and intervention in pediatrics; incorporates related Level I Fieldwork. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 403. Instruction Mode:** Lecture, Lab **Required Grading Option:** Letter

**OT 511 Therapeutic Use of Self**
**Units:** 2 **Terms Offered:** Fa Exploration of efficacy, therapeutic use of self, empathy and mindfulness; development of self-awareness, self-esteem, self-regulation, and self-awareness. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 410. Instruction Mode:** Lecture **Required Grading Option:** Letter

**OT 515 Neuroscience of Behavior**
**Units:** 4 **Terms Offered:** Fa Foundation for understanding neural functions involved in typical/atypical behaviors; review of neural circuitry, experimental methods, basic behavioral systems, higher order cognitive functions and associated disorders. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 451. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 518 Quantitative Research for Evidence-Based Practice**
**Units:** 4 **Terms Offered:** Fa Traditions and methods of qualitative research; emphasis on formulation of clear clinical questions; finding, evaluating, and applying evidence to a clinical problem; includes journal club. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 480. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 521 Clinical Reasoning**
**Units:** 3 **Terms Offered:** Sp Dynamic look at creation and application of professional knowledge and expertise; examines interrelationship between theory and practice; incorporates narrative and illness experiences in clinical reasoning. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 411. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 523 Communication Skills for Effective Practice**
**Units:** 4 **Terms Offered:** Sp Principles of written, verbal, and non-verbal communication with professionals, clients and families, from a personal and professional perspective; group interventions; interview skills; advocacy as communication. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 430. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 525 Qualitative Research for Evidence-Based Practice**
**Units:** 4 **Terms Offered:** Sp Traditions and methods of qualitative research; development of skills for research design, implementation and dissemination; critique of qualitative research for evidence-based practice and occupational science. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 470. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 534 Health Promotion and Wellness**
**Units:** 2 **Terms Offered:** Fa Examination of relationship of occupation to health, wellbeing, participation; critical thinking about lifestyle factors influencing occupational engagement; occupational science and wellness in occupational therapy practice. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 504. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 537 Occupation-Centered Programs for the Community**
**Units:** 4 **Terms Offered:** Fa Development of a proposal for new or extended services; includes trends analysis, needs assessment, literature review, marketing plan, mock funding request, program evaluation and presentation. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 570. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 538 Current Issues in Practice: Adulthood and Aging**
**Units:** 2 **Terms Offered:** Fa Exploration of adulthood, aging and occupation; current topics related to aging population and occupational therapy to promote health

and participation throughout the lifespan. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 558. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 540 Leadership Capstone**
**Units:** 2 **Terms Offered:** Sp Professional capstone in leadership, advocacy, ethical reasoning, professional behavior, and public policy as it impacts the practice of occupational therapy; independent professional externship. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 585. Instruction Mode:** Lecture **Grading Option:** Letter

**OT 545 Advanced Seminar in Occupational Science**
**Units:** 2 **Terms Offered:** FaSp Advanced analysis of occupational science concepts including dimensions of occupation and the impact of occupation on health and wellbeing; factors associated with participation in occupation at the individual, community and global levels. **Registration Restriction:** Open only to Occupational Therapy majors. **Duplicates Credit in former OT 585. Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 560 Contemporary Issues in School-Based Practice**
**Units:** 4 **Terms Offered:** FaSp Current issues in school-based occupational therapy evaluation, ongoing assessment and intervention. Topics include successful collaboration in inclusive classrooms and on IFSP and IEP teams. **Registration Restriction:** Open only to OT majors. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 561 Occupational Therapy in Acute Care**
**Units:** 4 **Terms Offered:** Sp Knowledge and skills for occupational therapy practice in acute care settings using a systems-based approach; includes an experiential learning component at Keck Hospital of USC. **Registration Restriction:** Open only to Occupational Science and Occupational Therapy students. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 562 Advanced Hand Rehabilitation and Certification (PAMs)**
**Units:** 4 **Terms Offered:** Sp Evidence-based and occupation-based practice for hand and upper extremity conditions; application of PAMs as preparatory for occupation. Applicable toward California educational requirements for advanced practice. **Corequisite:** OT 573. **Registration Restriction:** Open only to Occupational Science and Occupational Therapy students. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit

**OT 563 Occupational Therapy in Primary Health Care Environments**
**Units:** 2 **Terms Offered:** FaSp Examines the emerging role of occupational therapy in primary care, including the need for occupational therapy care in this address in primary care. **Registration Restriction:** Open only to Occupational Science and Occupational Therapy majors. **Instruction Mode:** Lecture **Grading Option:** Credit/No Credit
OT 564 Sensory Processing and Sensory Integration
Units: 4
Terms Offered: FaSp
Corequisites: Overview of the basic neuromotor principles underlying sensory processing and sensory integration, patterns of dysfunction, and their relationship to everyday occupations and intervention. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 565 Sensory Integration Interventions
Units: 4
Terms Offered: Sp
 Foundations and application of sensory integration principles in clinical practice, schools and community. Includes critique and integration of evidence, effective communication with parents, and documentation. Corequisites: OT 564. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 566 Healthcare Communication with Spanish-Speaking Clients
Units: 2
Terms Offered: Sp
Development of communicative proficiency and accuracy in Spanish within a therapeutic context. Introduction to Spanish language, adaptive communication strategies, and ethics in language-disorder communication. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 567 Contemporary Issues: Occupational Therapy in Early Intervention
Units: 4
Terms Offered: Sp
Exploration of occupational therapy in early intervention settings including; relevant legislation, family-centered care, cultural context, documentation, ethics, and neuroscientific foundations of infant mental health. Registration Restriction: Open only to Occupational Science and Occupational Therapy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 568 Sensory Processing and Sensory Integration: Special Topics
Units: 4
Terms Offered: FaSp
Applications of sensory integration theory and intervention principles in diverse therapeutic contexts, including school-based settings, early intervention, autism spectrum disorders, and feeding and eating. Registration Restriction: Open only to OT students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 571 Assistive Technology
Units: 4
Terms Offered: Sp
Principles of assessment, selection, training, and follow-up with clients in the use of assistive technologies to enable and enhance participation in a meaningful occupation. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 572 Ergonomics
Units: 4
Terms Offered: Sp
Focus on the effects of physical design in the workplace on users’ injury rate, behavior, performance and stress levels. Intervention for repetitive motion included. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 573 Hand Rehabilitation
Units: 4
Terms Offered: Fa
Occupation-based evaluation and intervention for individuals with acute and chronic hand disorders. Topics include scar management, splinting, peripheral nerve injury, wound healing and physical agent modalities. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 574 Enhancing Motor Control for Occupation
Units: 4
Terms Offered: FaSp
Laboratory examining approaches to assessment and remediation of motor control following upper motor neuron lesions. An occupation-based approach to Neurodevelopmental Treatment (NDT) will be emphasized. Registration Restriction: Open only to OT majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 575 Dysphagia Across the Lifespan: Pediatrics through Geriatrics
Units: 2
Terms Offered: Sp
A comprehensive investigation of the anatomy and physiology of the swallowing. Didactic and hands-on study of assessment and treatment interventions will be addressed. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 576 Universal Design
Units: 4
Terms Offered: Fa
Examination of the concepts and principles of universal design and the benefits of the approach for people with disabilities and for all individuals. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 577 Seminar in Occupational Therapy
Units: 2
Terms Offered: Sp
Occupational therapy and the health care system. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 505. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 578 Therapeutic Communication: Facilitating Change in Clients
Units: 4
Terms Offered: FaSp
Examination of selected therapeutic communication styles intended to facilitate change including motivational interviewing, mindfulness practices, and cognitive approaches to therapeutic intervention. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy. Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 579 Occupational Therapy in Adult-Neurorehabilitation
Units: 4
Terms Offered: Fa
Comprehensive overview of occupational therapy evaluation and intervention in adult neurorehabilitation addressing motor, visual, cognitive, emotion, and language systems. Emphasizes evidence-based interventions with hands-on application. Registration Restriction: Open only to graduate and professional students in Occupational Therapy. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

OT 581 Quantitative Research for the Practicing Clinician
Units: 4
Terms Offered: FaSp
Traditions and methods of quantitative research for practicing clinicians; emphasis on formulation of clear research questions; finding, evaluating, and applying evidence to a clinical problem. Registration Restriction: Open only to Occupational Therapy majors. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 582 Occupational Science Foundations of Lifestyle Redesign
Units: 4
Terms Offered: FaSpSm
Overview of the foundations and philosophy of Lifestyle Redesign®. Includes theoretical underpinnings, therapeutic methods, and examination of how occupational science informs Lifestyle Redesign® interventions. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 583 Current Applications of Lifestyle Redesign
Units: 4
Terms Offered: FaSpSm
Interactive practicum exploring the Lifestyle Redesign® approach to preventing and managing chronic health conditions. Topics include therapeutic process, lifestyle module design and service delivery models. Registration Restriction: Open only to graduate students in Occupational Science and Occupational Therapy Instruction Mode: Lecture, Discussion Grading Option: Credit/No Credit

OT 584 Clinical Applications of Telehealth Technologies in OT
Units: 2
Terms Offered: Sp
Interactive course exploring the history of telehealth technologies; includes definitions, care models, remote services, applications, activity monitoring devices, technology enabled therapy, legislation, reimbursement. Registration Restriction: Open only to Occupational Science and Occupational Therapy graduate students. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 585 Advanced Seminar in Occupational Science
Units: 2
Terms Offered: FaSp
Advanced analysis of occupational science concepts including dimensions of occupation and the impact of occupation on health and wellbeing; factors associated with participation in occupation at the individual, community and global levels. OT 586 Fieldwork with Seminar
Units: 1
Max Units: 06
Terms Offered: FaSpSm
Fieldwork is mandatory to qualify for professional certification/licensure. Seminar facilitates reflective discussion and integration of class concepts to clinical practice. Registration Restriction: Open only to Occupational Therapy majors. Duplicates Credit in former OT 486. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

OT 594a Master's Thesis
Units: 2
Terms Offered: FaSp
Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
<table>

</tr>
<tr>
<td>OT 649 Researching Occupation: Function, Participation, and Health</td>
</tr>
<tr>
<td>Units: 4 Terms Offered: FaSp Approaches to studying health and wellbeing in everyday living from biological to population levels, including prevention, wellness, chronic illness, disability, and rehabilitation, emphasizing quantitative methods. Recommended Preparation: OT 641 and OT 660 Instruction Option: Lecture</td>
</tr>
<tr>
<td>OT 650 Development of Adaptive Skills</td>
</tr>
<tr>
<td>OT 655 Work and Leisure</td>
</tr>
<tr>
<td>Units: 4 Terms Offered: Sp Ontogenesis and phylogenesis of work and leisure. Systems view of person/environmental interactions affecting competence and satisfaction with activity. Occupation and the need for mastery. Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>OT 660 Research Practicum</td>
</tr>
<tr>
<td>Units: 2 Experiential learning through immersion in one or more externally funded research groups in the Division, enabling intense participation in multi-skilled research groups. Instruction Mode: Lecture Grading Option: Credit/No Credit</td>
</tr>
<tr>
<td>OT 661 Grant Writing for Occupational Science</td>
</tr>
<tr>
<td>Units: 2 Terms Offered: SpSm Integration of theory, research design, and methods to develop competitive grant applications for the study of occupation, with a focus on federal granting agencies. Prerequisite: OT 640 and OT 641 and OT 648 and OT 649 and OT 660 Recommended Preparation: At least one advanced course in qualitative, quantitative, or mixed-methods research design or statistical analysis is strongly recommended. Instruction Mode: Lecture Grading Option: Credit/No Credit</td>
</tr>
<tr>
<td>OT 686 Residency</td>
</tr>
<tr>
<td>Units: 6 or 12 Max Units: 24 Terms Offered: FaSpSm Residency involving development, administration, evaluation, or policy formulation for occupation-centered programs in clinical or community settings. Development of portfolio for professional doctorate. Graded CR/NC. Registration Restriction: Open only to OT majors Instruction Mode: Lecture Grading Option: Credit/No Credit</td>
</tr>
<tr>
<td>OT 699 Special Topics</td>
</tr>
<tr>
<td>Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Selected topics in occupational therapy and occupational sciences. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter</td>
</tr>
<tr>
<td>OT 790 Research</td>
</tr>
<tr>
<td>Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit</td>
</tr>
<tr>
<td>OT 794a Doctoral Dissertation</td>
</tr>
<tr>

OT 794b Doctoral Dissertation
Units: 2
Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794c Doctoral Dissertation
Units: 2
Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

OT 794d Doctoral Dissertation
Units: 2
Terms Offered: FaSp Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pain Medicine

PAIN 701 Pharmacotherapeutics for Pain
Units: 2
Terms Offered: Fa Introduction into the complex area of treatment with opioids and other pharmacological options. Instruction Mode: Lecture Grading Option: Letter

PAIN 702 Pain Classification and Diagnosis - Part 1
Units: 2
Terms Offered: Fa Introduction of pain classification and diagnosis to familiarize the student with a standardized approach to painful conditions. Instruction Mode: Lecture Grading Option: Letter

PAIN 703 Psychological Aspects of the Pain Experience: Individual and Group Settings
Units: 2
Terms Offered: Fa Explore the psychological and social perspectives that influence chronic pain, reinforcing the need to look beyond the initial physical diagnosis. Instruction Mode: Lecture Grading Option: Letter

PAIN 704 Pain and Society: Epidemiology and Cultural Issues
Units: 1
Terms Offered: Sp Explores the societal issues related to pain, including the role of culture, ethnicity, caregiving, social and psychological factors related to pain and pain management. Instruction Mode: Lecture Grading Option: Letter

PAIN 705 Pain Assessment: History and Physical Examination
Units: 2
Terms Offered: Sp Evaluation of patients suffering from pain, distinguishing between types of pain that may be acute or chronic. Instruction Mode: Lecture Grading Option: Letter

PAIN 706 Musculoskeletal Anatomy and Pathology
Units: 2
Terms Offered: Sp Anatomical survey of the human musculoskeletal system, focused on common pathologies that generate pain. Instruction Mode: Lecture Grading Option: Letter

PAIN 707 Pain Neuroscience
Units: 2
Terms Offered: Sp Anatomy of peripheral and central nociceptors, molecular and cellular mechanisms that underlie primary responses, neural networks, and neural mechanisms involved in hyperalgesia and allodynia. Instruction Mode: Lecture Grading Option: Letter

PAIN 708 Opioids
Units: 1
Terms Offered: Fa Explores opioid therapeutics including proper use, dosing, side effects and its management, use in special populations, and legal/ethical considerations for prescribers and dispensers. Instruction Mode: Lecture Grading Option: Letter

PAIN 709 Pain Classification and Diagnosis - Part 2
Units: 2
Terms Offered: Fa Knowledge and ability to recognize fine differences in various common pain conditions. Instruction Mode: Lecture Grading Option: Letter

PAIN 710 Advanced Pain Physiology and Neuroscience
Units: 1
Terms Offered: Fa Advanced neurophysiology of pain including immunology and epigenetics, neuropathic pain, inflammation, with a series of lectures and sessions to analyze clinical cases. Instruction Mode: Lecture Grading Option: Letter

PAIN 711 Research Methodology
Units: 2
Terms Offered: Fa Conduct a systematic review, research question, searching the literature, summarizing the evidence and interpreting the findings. Instruction Mode: Lecture Grading Option: Letter

PAIN 712a Pain Medicine Capstone I
Units: 0.5
Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712b Pain Medicine Capstone II
Units: 0.5
Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712c Pain Medicine Capstone III
Units: 0.5
Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 712d Pain Medicine Capstone IV
Units: 0.5
Terms Offered: Sp Collaborative research project or supervised internship (practicum) incorporating a service learning approach. Instruction Mode: Lecture Grading Option: Letter

PAIN 713a Case Studies
Units: 0.5
Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Prerequisite: PAIN 713a Instruction Mode: Lecture Grading Option: Letter

PAIN 713b Case Studies
Units: 0.5
Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. PAIN 713a Instruction Mode: Lecture Grading Option: Letter

PAIN 713c Case Studies
Units: 0.5
Terms Offered: Fa Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Instruction Mode: Lecture Grading Option: Letter

PAIN 713d Case Studies
Units: 0.5
Terms Offered: Sp Multiple elements including weekly online discussions of cases; learning need assignments; defense of an 18 cases or scenarios e-Portfolio. Prerequisite: PAIN 713c Instruction Mode: Lecture Grading Option: Letter

PAIN 714 Public Policy and Legal Issues
Units: 1
Terms Offered: Sp Public Policy and Legal Issues in Pain Medicine including the California Medical Board Guidelines for Pain Medication, CURES, and legislation related to the discipline. Instruction Mode: Lecture Grading Option: Letter

PAIN 715 History of Pain: Theory and Treatment
Units: 1
Terms Offered: Fa Trace through history our collective understanding of pain by examining the people, theories, and technologies which have brought us to our modern understanding. Instruction Mode: Lecture Grading Option: Letter

PAIN 716 Neuropathic Pain
Units: 1
Terms Offered: Sp Focus on pain caused by nervous system dysfunction; assessment, physiology, diagnosis and treatment. Instruction Mode: Lecture Grading Option: Letter

PAIN 717 Psychological Aspects of Chronic Pain
Units: 2
Terms Offered: Sp Information and demonstration of specific psychological treatments to decrease pain levels and manage pain flares. Instruction Mode: Lecture Grading Option: Letter

PAIN 718 Complementary Approaches in Pain Medicine
Units: 2
Terms Offered: Fa Treatment options in pain management; framework for integrative models of care. Instruction Mode: Lecture Grading Option: Letter

PAIN 719 Building a Practice: Institutional or Private Practice
Units: 1
Terms Offered: Building and managing a Pain Practice. Topics include the scope of practice, stratification of care, and marketing. Instruction Mode: Lecture Grading Option: Letter

PAIN 720 Physical and Occupational Therapies
Units: 1
Terms Offered: Sp Physical and Occupational Therapy techniques to assess and treat chronic pain. Instruction Mode: Lecture Grading Option: Letter

PAIN 721 Advanced Therapeutics
Units: 2
Terms Offered: Sp Patients who suffer from chronic pain often fail to respond to basic treatments. Therefore it is crucial for clinicians to be familiar with different treatment options. Instruction Mode: Lecture Grading Option: Letter

PAIN 722 Palliative Care in End of Life Care
Units: 1
Terms Offered: Fa Key concepts in palliative medicine and hospice care, ranging from management of common symptoms, to best practices in communication with patients and their families. Instruction Mode: Lecture Grading Option: Letter

PAIN 723 Orofacial Pain and Headache
Units: 2
Terms Offered: Sp Foundational knowledge of orofacial neurogenic pain and headache disorders; prevalence, differential diagnosis, prevention and management. Instruction Mode: Lecture Grading Option: Letter
Pathology (Herman Ostrow School of Dentistry)

PTHL 312a Medicine and Pathology
Units: 1 Terms Offered: FaSpSm
An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 312b Medicine and Pathology
Units: 3 Terms Offered: FaSpSm
An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 312c Medicine and Pathology
Units: 2 Terms Offered: FaSpSm
An integrated approach to clinical, gross and microscopic study of basic disease processes, systemic pathology, oral pathology, internal medicine, pathophysiology, physical evaluation and emergency medicine for significant organ systems. Clinical-pathologic correlation stressed. Evaluation, classification, and differential diagnosis of oral lesions; disease recognition and dental treatment modification. Instruction Mode: Lecture Grading Option: Letter

PTHL 501 Oral Pathology
Units: 4 Terms Offered: Sm Clinical radiographic, gross and microscopic characteristics of mucosal, skin, fibroeseous and salivary gland diseases; odontogenic tumors and cysts; benign and malignant neoplasms and iatrogenic conditions. Instruction Mode: Lecture Grading Option: Letter

PTHL 504a Seminar: Oral Pathology
Units: 0 Clinicopathologic discussion of oral pathosis cases. A variety of "unknown" cases representing diagnostic problems are analyzed. Etiology, pathogenesis, clinical/radiographic features, therapy and prognosis are stressed. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PTHL 504b Seminar: Oral Pathology
Units: 0 Clinicopohathologic discussion of oral pathosis cases. A variety of "unknown" cases representing diagnostic problems are analyzed. Etiology, pathogenesis, clinical/radiographic features, therapy and prognosis are stressed. Instruction Mode: Lecture Grading Option: Letter

PTHL 601 Advanced Oral Pathology Seminar
Units: 2 Detailed discussion and analysis of many cases representing a wide variety of oral pathologic conditions stressing differential diagnosis and clinical-pathologic correlations. Instruction Mode: Lecture Grading Option: Letter

PTHL 701 Clinico-pathologic Conference
Units: 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13 Clinico-pathologic correlation of diseases of the head and neck. Presented at LAC+USC Medical Center. Instruction Mode: Lecture Grading Option: Letter

Pathology (Keck School of Medicine)

PATH 500a Basic and Applied Systemic Pathology
Units: 2 Terms Offered: Irregular Clinical, gross, and microscopic study of basic disease processes. Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 500b Basic and Applied Systemic Pathology
Units: 2 Terms Offered: Irregular Clinical, gross, and microscopic study of basic disease processes. Pathophysiology of major organ systems; etiology, pathogenesis and histopathology of important diseases; oral manifestations, clinical recognition.

PATH 531 Cell Biology
Units: 4 (Enroll in INTD 531)

PATH 550 Introduction to Pathology
Units: 4 Terms Offered: Fa (Enroll in INTD 550)

PATH 551 Pathobiology of Disease
Units: 4 (Enroll in INTD 551)

PATH 553 Methods in Cellular and Clinical Pathology
Units: 3 Terms Offered: Fa Includes advanced techniques in cell biology, protein and immunohistochemistry. A practical approach to acquaint new graduate students with current methodologies and applications used in biomedical research. Duplicates Credit in former PATH 552a. Instruction Mode: Lecture Grading Option: Letter

PATH 554 Methods in Molecular Pathology
Units: 2 Terms Offered: Sp Theory and practice methods useful in experimental pathology; experimental design; statistical analysis; literature analysis; laboratory and radiation safety. Duplicates Credit in former PATH 552b. Instruction Mode: Lecture Grading Option: Letter

PATH 555 Biochemical and Molecular Bases of Disease
Units: 4 Terms Offered: Sp (Enroll in INTD 555)

PATH 561 Molecular Biology
Units: 4 Terms Offered: Fa (Enroll in INTD 561)

PATH 570a Seminar in Pathology
Units: 1 Terms Offered: FaSpRecent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 570b Seminar in Pathology
Units: 1 Terms Offered: FaSpRecent advances in the understanding of diseased cells and tissues are reported and discussed using standard seminars, as well as autopsy organ reviews. Instruction Mode: Lecture Grading Option: Letter

PATH 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

PATH 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

PATH 581 Essentials of Animal Experimentation
Units: 1 Terms Offered: FaA course providing basic information on the issues and responsibilities of investigators using animals in biomedical research. Recommended Preparation: graduate standing.

PATH 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PATH 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 594 Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PATH 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Instruction Mode: Lecture Grading Option: Letter

PATH 631 Viral Oncology
Units: 2 Terms Offered: Fa (Enroll in INTD 630)

PATH 650 Stem Cell Biology and Medicine
Units: 4 Terms Offered: Sp (Enroll in INTD 650)

PATH 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit
Primary Care Physician Assistant

PCPA 503 Behavioral Sciences I
Units: 4 Terms Offered: Fa First of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Instruction Mode: Lecture Grading Option: Letter

PCPA 506 Behavioral Sciences II
Units: 4 Terms Offered: Sp Second of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Prerequisite: PCPA 503. Instruction Mode: Lecture Grading Option: Letter

PCPA 509 Behavioral Sciences III
Units: 4 Terms Offered: Fa Last of three-semester sequence in current topics in behavioral medicine, psychological and cultural factors in health and illness, interpersonal and sociological aspects of patient care, and competencies for PA practice. Prerequisite: PCPA 506. Instruction Mode: Lecture Grading Option: Letter

PCPA 523 Clinical Skills I
Units: 4 Terms Offered: Fa Laboratory experiences with basic clinical skills essential to medical practice. First of four courses. Instruction Mode: Lecture Grading Option: Letter

PCPA 526 Clinical Skills II
Units: 4 Terms Offered: Sp Designed to prepare the physician assistant to conduct a complete physical examination. Prerequisite: PCPA 523 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 529 Clinical Skills III
Units: 4, 6 Terms Offered: Fa Designed to prepare the physician assistant to complete a series of medical procedures. Prerequisite: PCPA 526 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 530 Basic Medical Sciences I
Units: 3 Terms Offered: Fa Focuses on clinical anatomy and physiology, pathophysiology, and pathology, essential to understanding disease mechanisms commonly encountered in medicine. Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 532 Clinical Skills IV
Units: 3 Terms Offered: Sp Laboratory experiences with basic clinical skills essential to medical practice. Last of four courses. Prerequisite: PCPA 529. Instruction Mode: Lecture Grading Option: Letter

PCPA 536 PA Critical Thinking Course I
Units: 1 Terms Offered: Fa Team-based learning to prepare the physician assistant to learn and practice, applying critical thinking in clinically relevant scenarios. Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 537 PA Critical Thinking Course II
Units: 1 Terms Offered: Sp Builds upon PCPA 536; team-based learning to prepare the physician assistant to learn and practice applying critical thinking in clinically relevant scenarios. Prerequisite: PCPA 536 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 538 PA Critical Thinking Course III
Units: 1 Terms Offered: Fa Builds upon PCPA 537; team-based learning to prepare the physician assistant to learn and practice applying critical thinking in clinically relevant scenarios. Prerequisite: PCPA 537 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 540 Basic Medical Sciences II
Units: 3 Terms Offered: Fa Focuses on clinical anatomy, physiology, pathophysiology and pathology, essential to understanding disease mechanisms commonly encountered in medicine. Prerequisite: PCPA 530 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 543 Topics in Medicine I
Units: 6 Terms Offered: Fa Designed to prepare the physician assistant to learn the requisite medical and pharmacologic knowledge to diagnose and treat patients. Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 546 Topics in Medicine II
Units: 6 Terms Offered: Sp Basic instruction in normal/abnormal states of organ systems in the study of human disease. The second of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. Prerequisite: PCPA 543. Instruction Mode: Lecture Grading Option: Letter

PCPA 549 Topics in Medicine III
Units: 6 Terms Offered: Fa Basic instruction in normal/abnormal states of organ systems in the study of human disease. The third of three courses that includes instruction in pathophysiology, pharmacology, diagnostic studies, and medicine. Prerequisite: PCPA 546. Instruction Mode: Lecture Grading Option: Letter

PCPA 550 Basic Medical Sciences III
Units: 3 Terms Offered: Fa Builds upon PCPA 540; focuses on clinical anatomy, physiology, pathophysiology and pathology, essential to understanding disease mechanisms commonly encountered in medicine. Prerequisite: PCPA 540 Registration Restriction: Open only to students in the Physician Assistant program Instruction Mode: Lecture Grading Option: Letter

PCPA 561 Clinical Assignment I
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 562 Clinical Assignment II
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 563 Clinical Assignment III
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 564a Clinical Assignment IV
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 564b Clinical Assignment IV
Units: 0 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 565a Clinical Assignment V
Units: 3.5 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 565b Clinical Assignment V
Units: 0 Terms Offered: FaSpSm One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit
PCPA 566 Clinical Assignment VI
Units: 3.5 Terms Offered: FaSpSm
One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 567 Clinical Assignment VII
Units: 3.5 Terms Offered: FaSpSm
One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 568 Clinical Assignment VIII
Units: 3.5 Terms Offered: FaSpSm
One discrete consecutive five-day-a-week intensive field placement under a program-approved supervising preceptor in a program-approved clinical setting. Instruction Mode: Lecture Grading Option: Credit/No Credit

PCPA 583 Advanced Topics in PA Studies: Education
Units: 4 Terms Offered: Sp Seminar format: students explore educational theories and methods used by PAs in a variety of settings, including clinical practice, classroom and community. Instruction Mode: Lecture Grading Option: Letter

PCPA 586 Advanced Topics in PA Studies: Research
Units: 4 Terms Offered: Sp Seminar format: students receive an integrated experience in research methods including methodology, data collection, analysis and evaluation. Instruction Mode: Lecture Grading Option: Letter

PCPA 589 Advanced Topics in PA Studies: Medical Care Organization
Units: 4 Terms Offered: Sp Seminar format: students will explore current topics in medical care organization and physician assistant practice including administration, financing, changing organizational settings, and workforce issues. Instruction Mode: Lecture Grading Option: Letter

Pediatric Dentistry
PEDO 310 Principles of Dentistry for Children
Units: 1 Role of the dental hygienist in dental care for the child patient. Principles of pediatric dentistry as related to education of the child patient and the parent. Instruction Mode: Lecture Grading Option: Letter

PEDO 501 Clinical Pediatric Dentistry
Units: 1 Scientific principles underlying contemporary pediatric dentistry, including prevention of disease; dental anomalies; habits and other problems in occlusal development; behavior management; child abuse. Instruction Mode: Lecture Grading Option: Letter

PEDO 521 Preclinical Pediatric Dentistry
Units: 2 Principles and techniques of cavity preparations in primary teeth; pulpotomy; stainless steel crowns; space maintenance; diagnosis, treatment planning. Instruction Mode: Lecture Grading Option: Letter

PEDO 551a Clinic: Dentistry for Children I
Units: 0 Structured clinical experience in caring for the dental needs of the child patient. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 551b Clinic: Dentistry for Children II
Units: 0 Structured clinical experience in caring for the dental needs of the child patient. Includes special case seminars. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 561a Clinic: Dentistry for Children II
Units: 0 Dental treatment of the child patient; preventive and restorative dentistry; space maintenance and interceptive orthodontic procedures. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 561b Clinic: Dentistry for Children II
Units: 0 Dental treatment of the child patient; preventive and restorative dentistry; space maintenance and interceptive orthodontic procedures. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

PEDO 561c Clinic: Dentistry for Children II
Units: 1 Dental treatment of the child patient; preventive and restorative dentistry; space maintenance and interceptive orthodontic procedures. Instruction Mode: Lecture Grading Option: Letter

PEDO 701a Seminar: Advanced Pediatric Dentistry
Units: 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Discussions of literature related to pediatric dentistry. Biologic considerations in operative dentistry, odontogenesis, dental trauma, physiology of occlusion, pulpal biology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 701b Seminar: Advanced Pediatric Dentistry
Units: 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Discussions of literature related to pediatric dentistry. Biologic considerations in operative dentistry, odontogenesis, dental trauma, physiology of occlusion, pulpal biology. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 702a Comprehensive Review of Pediatric Dentistry
Units: 5, 6, 7 each Terms Offered: FaSpSm Critical analysis of current pediatric dentistry literature and case conferences related to the application of contemporary issues in dentistry for the complex child patient. Instruction Mode: Lecture Grading Option: Letter

PEDO 702b Comprehensive Review of Pediatric Dentistry
Units: 5, 6, 7 each Terms Offered: FaSpSm Critical analysis of current pediatric dentistry literature and case conferences related to the application of contemporary issues in dentistry for the complex child patient. Instruction Mode: Lecture Grading Option: Letter

PEDO 703a Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703b Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703c Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 703d Interceptive Orthodontics
Units: 2, 3, 4, 5 each Recognition, evaluation, and treatment of developing orthodontic problems appropriate to the pediatric dentist; emphasis on diagnosis; laboratory experience included. Instruction Mode: Lecture, Lab Grading Option: Letter

PEDO 704a Prevention in Pediatric Dentistry
Units: 2 Discussions and readings pertaining to the analysis and incorporation of the many components of prevention into the contemporary pediatric dentistry practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 704b Prevention in Pediatric Dentistry
Units: 2 Discussions and readings pertaining to the analysis and incorporation of the many components of prevention into the contemporary pediatric dentistry practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 705 Pediatric Diseases
Units: 2 Discussion of medical conditions seen by the pediatric dentist in the hospital environment. Conditions include childhood cancer, HIV, heart disease, diabetes mellitus and blood dyscrasias. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 706 Dental Care for Pediatric Patients with Disabilities
Units: 2 Medical, dental, psychological, and social problems of children with developmental disabilities; effect of problems on delivery of pediatric dentistry. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 707 Seminar: Cleft Palate Rehabilitation
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9 Three trimester
course discussions and case conferences related to treatment of patients with oral and facial anomalies; includes interceptive and corrective orthodontics, preventive and restorative treatment, and selected oral surgery-prosthetic rehabilitative procedures. Instruction Mode: Lecture Grading Option: Letter

PEDO 708 Practice Management
Units: 1 Terms Offered: FaSpSm Discussion of issues related to the contemporary practice of pediatric dentistry (seminars and office visitations). Topics include: purchasing a practice, associational, hospital affiliations, practice administration and marketing, computers, jurisprudence and auxiliary utilization. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 709 Conscious Sedation in Pediatric Dentistry
Units: 1 Terms Offered: Sm Seminar topics include: review of pharmacology and effectiveness of commonly used oral agents, methods of administration, regulatory guidelines, patient monitoring, management of sedation related emergencies. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 721 Pediatric Physical Evaluation
Units: 2 Assessment of patient health status: evaluation and management of acute and chronic disease states which may be observed in the pediatric dental practice. Instruction Mode: Lecture Grading Option: Letter

PEDO 761a Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761b Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761c Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761d Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 761e Clinic: Advanced Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10 each Terms Offered: FaSpSm Clinical application of advanced pediatric dentistry techniques in routine and special problem cases in the outpatient environment. Hours vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 771a Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771b Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771c Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771d Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 771e Clinic: Hospital Pediatric Dentistry
Units: 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 each Terms Offered: FaSpSm Treatment of the child patient in the hospital environment. Emphasis placed on treatment and management with physical, mental, or emotional disabilities. Instruction Mode: Lecture Grading Option: Letter

PEDO 772a Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772b Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 772c Clinic: Interceptive Orthodontics
Units: 1, 2, 3 each Clinical application and treatment procedures for tooth guidance, preventative and interceptive orthodontics. Instruction Mode: Lecture Grading Option: Letter

PEDO 773 Hospital Pediatric Clinics
Units: 2, 3, 4 Observation and participation in affiliated hospital clinics: anesthesiology, hematology, and genetic clinics; grand pediatric rounds and other conferences. Instruction Mode: Lecture Grading Option: Letter

PEDO 774 Clinical Genetics in Pediatric Dentistry
Units: 9 Genetic principles of oral, facial and cranial malformations; teratogen and theory of clinical genetics, differential diagnosis and treatment of disorders of the craniofacial complex. Instruction Mode: Lecture, Discussion, Lab Grading Option: Letter

PEDO 790a Directed Research: Pediatric Dentistry
Units: 1, 2, 3, 4, 5, 6 each An examination and analysis of clinical and laboratory problems in dentistry for children leading to completion of an original research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

PEDO 790b Directed Research: Pediatric Dentistry
Units: 1, 2, 3, 4, 5, 6 each An examination and analysis of clinical and laboratory problems in dentistry for children leading to completion of an original research project. Instruction Mode: Lecture Grading Option: Credit/No Credit

Periodontics
PERI 310a Introduction to Periodontal Diseases
Units: 1 Terms Offered: FaSp Introduction to periodontal disease; emphasis on identification of normal periodontium, distinguishing of gingival and periodontal diseases; includes data collection and classification of gingival and periodontal diseases. Instruction Mode: Lecture Grading Option: Letter

PERI 310b Introduction to Periodontal Diseases
Units: 1 Terms Offered: FaSp Introduction to periodontal disease; emphasis on identification of normal periodontium, distinguishing of gingival and periodontal diseases; includes data collection and classification of gingival and periodontal diseases. Instruction Mode: Lecture Grading Option: Letter

PERI 415 Basic Periodontal Therapy
Units: 1 Basic therapeutic modalities of periodontal treatment; general principles and methods of surgical periodontal treatment. Instruction Mode: Lecture Grading Option: Letter
<table>
<thead>
<tr>
<th>COURSES OF INSTRUCTION</th>
<th>1127</th>
</tr>
</thead>
</table>
| **PERI 502 Periodontal Diseases and Elements of Therapeutic Judgment** | **PERI 507a Seminar: Review of Current Periodontal Literature** Units: 2, 3 Review and critical evaluation of the current periodontal literature. Instruction Mode: Lecture Grading Option: Letter **PERI 504 Advanced Periodontics** Units: 1 Periodontics as related to endodontics, orthodontics, and restorative dentistry; bone induction, osseous grafting, splinting, management of furcation lesions; maintenance, recall, and referral. Instruction Mode: Lecture Grading Option: Letter **PERI 502 Periodontal Surgery** Units: 2 General principles and methods of surgical periodontal treatment; includes laboratory exercises. Instruction Mode: Lecture Grading Option: Letter **PERI 550a Clinic: Introductory Periodontal Therapy** Units: 1 Laboratory and clinical development of periodontal therapy procedures; basic instrumentation principles. Instruction Mode: Lecture Grading Option: Letter **PERI 550b Clinic: Introductory Periodontal Therapy** Units: 1 Laboratory and clinical development of periodontal therapy procedures; basic instrumentation principles. Instruction Mode: Lecture Grading Option: Letter **PERI 561a Clinic: Periodontal Therapy I** Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade **PERI 561b Clinic: Periodontal Therapy I** Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade **PERI 561c Clinic: Periodontal Therapy I** Units: 0 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade **PERI 561d Clinic: Periodontal Therapy I** Units: 1 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: Letter **PERI 562a Clinic: Periodontal Therapy II** Units: 0, 1, 2 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade **PERI 562b Clinic: Periodontal Therapy II** Units: 0, 1, 2 Supervised treatment of periodontal disease at all levels of complexity. Instruction Mode: Lecture Grading Option: Letter **PERI 602 Current Controversies in Periodontology** Units: 2 Examination of the major controversies in the field of periodontology; emphasis on the efficacy of current treatment modalities and future trends. Instruction Mode: Lecture Grading Option: Letter **PERI 704a Seminar: Periodontal Therapy** Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit **PERI 704b Seminar: Periodontal Therapy** Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit **PERI 704c Seminar: Periodontal Therapy** Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit **PERI 704d Seminar: Periodontal Therapy** Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit **PERI 704e Seminar: Periodontal Therapy** Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit **PERI 704f Seminar: Periodontal Therapy** Units: 2 each Presentation and discussion of treatment of clinical cases involving soft tissue and osseous management; rationale for the therapy; surgical wound healing; dental implant surgery. Instruction Mode: Lecture Grading Option: Credit/No Credit
PERI 713f Treatment Planning in Periodontics
Units: 2
each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713g Treatment Planning in Periodontics
Units: 2
each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PERI 713h Treatment Planning in Periodontics
Units: 2
each Presentation of clinical findings, diagnoses, and plan of treatment of clinical cases by advanced students.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PHBI 524 Advanced Overview of Neurosciences
Units: 4
terms Offered: Fa (Enroll in NSCI 524)

PHBI 531 Cell Biology
Units: 4
terms Offered: (Enroll in INTD 531)

PHBI 550 Seminar in Advanced Cellular, Molecular and Systemic Physiology
Units: 1 Max Units: 12.0
terms Offered: FaSp Lectures and student presentations on advanced topics in molecular, cellular and systemic physiology.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PHBI 561 Molecular Biology
Units: 4
terms Offered: Fa (Enroll in INTD 561)

PHBI 571 Biochemistry
Units: 4
terms Offered: Fa (Enroll in INTD 571)

PHBI 572 Medical Physiology I
Units: 4
terms Offered: (Enroll in INTD 572)

PHBI 573 Medical Physiology II
Units: 4
terms Offered: (Enroll in INTD 573)

PHBI 594a Master’s Thesis
Units: 2
terms Offered: FaSpSm Credit upon acceptance of thesis.
Grading Option: Graded IP/CR/NC.

PHBI 594b Master’s Thesis
Units: 2
terms Offered: FaSpSm Credit upon acceptance of thesis.
Grading Option: Graded IP/CR/NC.

PHBI 594z Master’s Thesis
Units: 0
terms Offered: FaSpSm Credit upon acceptance of thesis.
Grading Option: Graded IP/CR/NC.

PHBI 650 Mechanisms of Ion and Solute Transport Across Cell Membranes
Units: 2
terms Offered: Sp Biophysical examination of the mechanisms of ion and solute transport across cell membranes; emphasis on the structures of transport proteins and kinetic models of transport.
Recommended Preparation: graduate level course in biochemistry, physical biochemistry, or cell biology
Instruction Mode: Lecture Grading Option: Letter

PHBI 651 Molecular Modeling and Kinetic Simulations in Membrane Transport
Units: 2
terms Offered: Sp Introduction to the principles of mathematical modeling of biological systems and molecular dynamics simulations, with emphasis on membrane transport.
Recommended Preparation: graduate level courses in biochemistry.
or physical biochemistry, and cell biology

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 660 Understanding Diseases of Ion Transport**

*Units: 2 Terms Offered: Fa Examination of the genetics, biochemical mechanisms, and physiological characteristics of diseases caused by inherited mutations in ion channels and ion transport proteins.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**Physical Education**

**PHED 102a Weight Training**

*Units: 1 Terms Offered: FaSp Improvement of body shape, muscle endurance, and muscle strength; understanding of weight training and nutrition principles that can be utilized for future weight training development.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 102b Weight Training**

*Units: 1 Terms Offered: FaSp Training techniques and application of advanced weight training principles through weekly workouts; personal trainer certification exam preparation.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 104a Self-Defense**

*Units: 1 Terms Offered: FaSp Basic instruction of self-defense for beginners; strategies for standing and ground fighting situations with and without weapons.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 104b Self-Defense**

*Units: 1 Terms Offered: FaSp Intermediate instruction involving more advanced fighting strategies and techniques.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 105 Principles of Self Defense and Personal Safety**

*Units: 2 Terms Offered: FaSpSm Application of learned skills and strategies for identifying physical threats; increased situational awareness; understanding of when physical force may be required.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 106a Physical Conditioning**

*Units: 1 Terms Offered: FaSp Improvement in cardiorespiratory endurance, body composition, muscle endurance and flexibility; running, circuit training, resistance exercises; fitness principles and nutrition to develop individualized program.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 106b Physical Conditioning**

*Units: 1 Terms Offered: FaSp Advanced training methods focusing on continuing gains in fitness level.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 108 High Stress Physical Conditioning**

*Units: 1 Rigorous physical conditioning with emphasis on distance running and development of cardiovascular and upper body strength. A challenging regimen to enhance stamina and endurance.*

**Prerequisite:** PHED 106b or permission of instructor.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 110a Swimming**

*Units: 1 Terms Offered: FaSp Instruction and practice in basic strokes for beginners and intermediate swimmers; elementary springboard diving; water safety techniques; endurance training as a fitness program.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 110b Swimming**

*Units: 1 Terms Offered: FaSp Advanced instruction and practice of strokes; advanced endurance training.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 114 Lifesaving**

*Units: 1 American Red Cross Senior Lifesaving. Prerequisite: PHED 110a.  
PHED 110b or ability to pass Skills Test II.*

**Instruction Mode:** Lecture  
**Grading Option:** Credit/No Credit

**PHED 115 Surfing**

*Units: 1 Terms Offered: FaSpSm Fundamental instruction of surfing skills; water safety and wave etiquette; wave recognition and forecast interpretation; surf culture; board selection; surf related strengthening and conditioning.*

**Recommended Preparation:** Students will need to pass a swim test BEFORE being allowed to participate in the course. Swim test includes the following: continuous 150 yard swim in under 3 minutes; treading water for 10 minutes; surface dive with brick retrieval; and a 25 yard under water swim.  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 119 Introduction to Mindfulness**

*Units: 2 Terms Offered: FaSpSm Introduction to the principles of mindfulness; application of learned techniques to enhance mind body awareness; cultivate strategies to improve physical and mental health.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 120a Yoga**

*Units: 1 Terms Offered: FaSp Introduction to meditation, breathing techniques and postures as a means towards relaxation; increase muscle flexibility; understanding of basic anatomy and nutritional guidelines.  
Duplicates Credit in former PHED 120.**

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 120b Yoga**

*Units: 1 Terms Offered: FaSpA continuing study of intermediate and advanced yoga postures, breathing techniques and meditation as a means towards relaxation and stress-reduction.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 120c Yoga**

*Units: 1 Terms Offered: FaSpSm In-depth study of hatha yoga and its history; includes advanced asanas and meditation as a means toward overall health and wellness.*

**Prerequisite:** PHED 120b instruction Mode:  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 121 Yoga for Athletic Performance**

*Units: 1 Terms Offered: FaSpSm Skills and strategies for injury prevention and recovery from athletic training; application of yoga principles to improve posture, strength, flexibility, core stability and concentration.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 122 Kundalini Yoga and Meditation**

*Units: 1 Terms Offered: FaSpAncient yoga practice combining postures, meditation, breathing, mantras and focus techniques; designed to improve mind body awareness, balance, strength, flexibility, techniques and nervous system function.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 123 Yoga Therapy**

*Units: 2 Terms Offered: FaSpSm Holistic discipline combining traditional yoga techniques with a modern medicine approach to treating a variety of health conditions; includes physical mental and breathing practice.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 124 Walking for Fitness**

*Units: 1 Terms Offered: FaSp Develop a strong fitness foundation through walking; fitness assessment and individualized programs; gait biomechanics and power walking; injury prevention; strategies for special populations.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 125 Restorative Yoga**

*Units: 1 Terms Offered: FaSpSm Introduction to yoga principles for relaxation and rejuvenation of the body and mind; application of specific yoga poses, breathing methods and restorative techniques.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 126 AcroYoga**

*Units: 2 Terms Offered: FaSpSm Teamwork building fitness course combining mindfulness and yoga with the dynamic movement of acrobatics: strength, balance and mind body awareness; stretching; spotting and counter balancing.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 127 Principles of Traditional Yoga Through Community Outreach**

*Units: 2 Terms Offered: FaSpSm Instruction and reinforcement of yoga postures, breathing techniques and meditation; sharing yoga principles and benefits with grade schools; teaching and community service opportunity.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 129a Cardio Group Fitness**

*Units: 1 Terms Offered: FaSpSm Group fitness instruction incorporating a variety of training methods such as cycling, HIIT (high intensity interval training), step, circuits; nutritional guidelines.**

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 129b Cardio Group Fitness**

*Units: 1 Terms Offered: FaSpSm Group exercise teaching techniques and application of fitness principles through weekly workouts; group fitness certification exam preparation. Prerequisite: PHED 129a Instruction Mode:  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 131 Step Aerobics**

*Units: 1 Terms Offered: FaSp Development of physical fitness components through step aerobics; total body workout utilizing step movements and body sculpting exercises.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**PHED 133 Rock Climbing**

*Units: 1 Terms Offered: FaSp Acquisition of basic rock climbing skills, muscle strength, endurance and balance, climbing safety, ethics and environmental considerations; understanding equipment, problem solving.*

**Instruction Mode:** Lecture  
**Grading Option:** Letter
PHED 134 Hiking
Units: 1 Terms Offered: FaSpSm
Introduction to hiking; specific conditioning to develop muscle strength and endurance; equipment; various terrain, weather conditions, safety; environmental impact and trail etiquette. Instruction Mode: Lecture Grading Option: Letter

PHED 135 Backpacking
Units: 1 Terms Offered: FaSpSm
Acquisition of backpacking knowledge and skills; conditioning plan; nutrition and equipment selection; ethics and environmental considerations; navigation, safety and wilderness first aid; trip planning. Recommended Preparation: Students must be able to carry a weighted backpack through varied terrain for extended periods of time. Students must pass a fitness test given on the first day to be eligible. Instruction Mode: Lecture Grading Option: Letter

PHED 138 Beach Volleyball
Units: 1 Terms Offered: FaSpSm
Fundamental instruction of basic strokes for beginners, intermediate and advanced players; rules, scoring, game tactics and strategies. Emphasis on the development of: passing, setting, hitting, serving, blocking, and digging. Instruction Mode: Lecture Grading Option: Letter

PHED 140a Tennis
Units: 1 Terms Offered: FaSpSm
Fundamental instruction of basic strokes for beginners and intermediate players; rules, scoring, court etiquette, strategies; singles and doubles; practice and match play. Instruction Mode: Lecture Grading Option: Letter

PHED 140b Tennis
Units: 1 Terms Offered: FaSp
Reinforcement of basic strokes and instruction of advanced strokes; advanced strategies; singles and doubles; practice and match play. Instruction Mode: Lecture Grading Option: Letter

PHED 140c Tennis
Units: 1 Terms Offered: FaSp
Development of strokes and strategies for advanced tournament players; drills and matches. Instruction Mode: Lecture Grading Option: Letter

PHED 143a Racquetball
Units: 1 Terms Offered: FaSp
Instruction of basic stroke technique for beginners and intermediate players; rules, scoring, game tactics and competition. Instruction Mode: Lecture Grading Option: Letter

PHED 143b Racquetball
Units: 1 Terms Offered: FaSp
Development of advanced skills and strategies; singles and doubles; practice and competition. Instruction Mode: Lecture Grading Option: Letter

PHED 145 Team Handball
Units: 1 Terms Offered: FaSpSm
Instruction and practice of serving, ceiling shots, lobs, three wall shots and passing; rules, offensive and defensive strategies; sport specific conditioning; fundamental drills and games. Instruction Mode: Lecture Grading Option: Letter

PHED 148a Archery
Units: 1 Terms Offered: FaSpSm
Fundamental instruction of archery technique for beginners and intermediates; historical origins; form; the shot cycle; mindfulness; scoring; equipment; sport specific training. Duplicates Credit in former PHED 148a Instruction Mode: Lecture Grading Option: Letter

PHED 148b Archery
Units: 1 Terms Offered: FaSpSm
Continuing study of archery fundamentals focusing on the bio mechanics and mindfulness of the shot process; training methods and competition; setup and tuning. Prerequisite: PHED 148a Duplicates Credit in former PHED 148 Course Mode: Lecture Grading Option: Letter

PHED 150a Table Tennis
Units: 1 Terms Offered: FaSpSm
Fundamental instruction of basic strokes for beginning and intermediate players; rules, scoring strategies; singles and doubles; practices and match play. Duplicates Credit in former PHED 150 Instruction Mode: Lecture Grading Option: Letter

PHED 150b Table Tennis
Units: 1 Terms Offered: FaSpSm
Reinforcement of basic strokes for experienced players; development of advanced strokes including serves, use of spin, counter hits, footwork; drills and match play. Prerequisite: PHED 150a Duplicates Credit in former PHED 150 Instruction Mode: Lecture Grading Option: Letter

PHED 152 Beach Soccer
Units: 1 Terms Offered: FaSpSm
Fundamental instruction of skills and team tactics specific to beach soccer; sport specific conditioning, drills and games; rules and strategies; history and culture. Instruction Mode: Lecture Grading Option: Letter

PHED 153 Futsal
Units: 1 Terms Offered: FaSpSm
Fundamental instruction of skills and tactics specific to Futsal; rules; strategies; elements of play that differ from soccer; conditioning, drills, and games. Instruction Mode: Lecture Grading Option: Letter

PHED 154a Soccer
Units: 1 Terms Offered: FaSpSm
Development of basic skills for beginners, intermediate and advanced players; rules, positioning elements of play, small group and team tactics; full field scrimmages. Instruction Mode: Lecture Grading Option: Letter

PHED 154b Soccer
Units: 1 Terms Offered: FaSp
Advanced development of skills, positioning, tactics and conditioning. Instruction Mode: Lecture Grading Option: Letter

PHED 155a Golf
Units: 1 Terms Offered: FaSpSm
Basic skills development and knowledge in stance, grip and swing mechanics; course strategy; use of woods, irons and putting; history rules and etiquette. Duplicates Credit in PHED 155 Instruction Mode: Lecture Grading Option: Letter

PHED 155b Golf
Units: 1 Terms Offered: FaSpSm
Development and reinforcement of swing mechanics, shot selection, etiquette and rules; application of course strategies on golf course and driving range. Prerequisite: PHED 155a Instruction Mode: Lecture Grading Option: Letter

PHED 156a Basketball
Units: 1 Terms Offered: FaSp Basic skill development in dribbling, passing, shooting, rebouncing and defense; rules, history, and etiquette; drills and full court games. Instruction Mode: Lecture Grading Option: Letter

PHED 156b Basketball
Units: 1 Terms Offered: FaSp Development of advanced skills; team strategy; offenses and zone defenses; drills and full court games. Instruction Mode: Lecture Grading Option: Letter

PHED 160 Stress Management for Healthy Living
Units: 2 Terms Offered: FaSp Instruction on the effects of stress as it relates to work, sport and academics; coping strategies are discussed and applied through physical conditioning interventions. Instruction Mode: Lecture Grading Option: Letter

PHED 161 First Aid
Units: 1 First Aid safety education and infant, child, and adult CPR; demonstrated proficiency and successful completion of exam prepares students for Red Cross certification. Duplicates Credit in former PHED 171. Instruction Mode: Lecture Grading Option: Letter

PHED 162 Principles of Athletic Coaching
Units: 2 Terms Offered: FaSpSm
Introduction to coaching strategies; team management; philosophy; ethics; leadership. Methodologies in sport specific training; skill progression; conditioning; athlete motivation; budgeting; fundraising. Instruction Mode: Lecture Grading Option: Letter

PHED 163 Health Coaching
Units: 3 Terms Offered: FaSpSm Skills and strategies of coaching principles promoting healthy lifestyle change. Motivational communication techniques; goal setting; designing safe, effective exercise program; health coach certification exam preparation. Instruction Mode: Lecture Grading Option: Letter

PHED 165 Varsity Athletics
Units: 1 Max Units: 4.0 Participation in the university's inter-collegiate programs as sanctioned and governed by the PAC-10 Conference and/or the NCAA. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHED 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: Sp Selected topics in Physical Education, including mindfulness and stress management, offered in a variety of settings. Instruction Mode: Lecture Grading Option: Letter
PHIL 100g Central Problems of Philosophy
Units: 4 Explores questions about human beings and their place in nature, including questions about knowledge, mind and body, freedom and determinism, and the existence of God. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, discussion Grading Option: Letter

PHIL 101 Free People, Free Thought and Free Markets
Units: 4 Terms Offered: FaSp Sm The philosophical foundations of modern political and economic thought, including economic rationality, neoclassical economics, free-market vs. socialist economies and behavioral economics. Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ECON 101

PHIL 102gp Historical Introduction to Philosophy
Units: 4 Introduction to the central philosophical works that have shaped western thought. Includes ancient, early modern and contemporary writings. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 103g Philosophy, Politics and Economics in Europe, from Renaissance to Enlightenment
Units: 4 Introduction to the central ideas of philosophy, science, politics and economics in western European history between 1450 and 1800. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 104g Ancient Foundations of Western Thought
Units: 4 Explores writings of ancient philosophers who first raised, and continue to influence our thinking about, fundamental questions concerning nature, knowledge, justice, happiness, and death. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Grading Option: Letter

PHIL 110g Modern Foundations of Western Thought
Units: 4 Explores the writings of philosophers, from Descartes to Kant, who responded to, and helped to shape, the scientific and political upheavals of the modern period. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Duplicates Credit in former PHIL 101 Instruction Mode: Lecture, discussion Grading Option: Letter

PHIL 115g Ancient Greek Culture and Society
Units: 4 Focus on the literary achievement from the beginning of Greek literature to the fourth century with a special emphasis on the philosophers. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 120g Introduction to Formal Logic
Units: 4 Introduces formal tools for distinguishing between good and bad arguments or inferences. Covers both propositional logic and predicate logic. Satisfies New General Education in F Quantitative Reasoning Duplicates Credit in and Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 122a Reasoning and Argument
Units: 2 Terms Offered: FaSp Techniques for constructing good arguments and for assessing and criticizing the arguments of others. Duplicates Credit in former PHIL 250ab. Instruction Mode: Lecture Grading Option: Letter

PHIL 122b Reasoning and Argument
Units: 2 Terms Offered: FaSp Techniques for constructing good arguments and for assessing and criticizing the arguments of others. Duplicates Credit in former PHIL 250ab. Instruction Mode: Lecture Grading Option: Letter

PHIL 130g The Physical World and Our Place In It
Units: 4 Exploration of basic questions about the nature and rationality of reality. Topics may include personal identity, freedom and determinism, causation and laws of nature. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 138g Introduction to the Philosophy of Religion
Units: 4 Explores arguments for and against the existence of God, as well as questions about the nature and rationality of faith. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 141gp The Professions and the Public Interest in American Life
Units: 4 The study of the nature and role of professionals in life and society, forces that shape and direct them, foundations and applications of professional ethics. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category V: Social Issues Instruction Mode: Lecture Grading Option: Letter

PHIL 166gw Current Moral and Social Issues
Units: 4 Terms Offered: FaSp Critical study of controversial social issues such as abortion, euthanasia, the death penalty, war and terrorism, sexual morality, affirmative action and economic justice. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Social Issues Duplicates Credit in former PHIL 140g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 168g The Meaning of Life
Units: 4 Explores philosophical treatments of the problem of the meaning or purpose of human life. Satisfies New General Education in B Humanistic Inquiry Duplicates Credit in Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 172gwm Social Ethics for Earthlings and Others
Units: 4 Terms Offered: FaSp A systematic study of contemporary issues in social and political philosophy engaging multimedia works of science fiction to illuminate classic Western moral and political theories. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former PHIL 137 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 174gw Freedom, Equality, and Social Justice
Units: 4 Terms Offered: FaSp Explores the nature of justice, and how apparently conflicting ideals, such as freedom and equality, are to be balanced within a just society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 178gw Moral Dilemmas in the Legal Domain
Units: 4 Philosophical theories of law and applications to controversies of importance to society and our legal system, such as free speech, civil disobedience, and self defense. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former PHIL 135g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 222g Logic and Language
Units: 4 Introduces symbolic logic and explores its application to the philosophy of language, plus meta-logical and philosophical results about its scope and limits. Satisfies New General Education in Category F: Quantitative Reasoning Duplicates Credit in PHIL 350 Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 236g Issues in Space and Time
Units: 4 What is time? What is the difference between past, present and future? Is time-travel possible? And what paradoxes might it give rise to? Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 286gL Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 240g Mind, Self, and Consciousness
Units: 4 Explores philosophical questions about the human mind and consciousness, and how they relate to the brain and to the physical world more generally. Satisfies New General Education in Category B: Humanistic Inquiry Duplicates Credit in PHIL 262g Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 242 Theories of Art
Units: 4 An introduction to general theories of art and to issues concerning particular arts such as literature and drama, photography and film, painting, architecture

PHIL 245g Theories of Religion
Units: 4 Explores the nature and role of religions in human culture, and how they shape and direct human thought and action. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Duplicates Credit in former PHIL 245 Instruction Mode: Lecture, Discussion Grading Option: Letter
PHIL 246Lg Foundations of Cognitive Science
Units: 4 Terms Offered: FaSp Introduction to research in interdisciplinary cognitive science, highlighting ideas and methods from philosophy, psychology, linguistics, neuroscience, and computer science. Satisfies New General Education in Category D: Life Sciences Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 254gp Science, Knowledge and Objectivity
Units: 4 Max Units: max 4 How does science differ from pseudo-science? When is it rational to accept a scientific theory? And do such theories provide genuine knowledge of reality? Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 255gp Existentialism in Philosophy, Literature and Film
Units: 4 A study of existentialist philosophy and its influence in 19th and 20th century culture, including both literature and film. Focus on works by Kierkegaard, Nietzsche, Camus, Sartre, Beauvoir, Dostoevsky, Godard, and others. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

PHIL 256g Science, Religion, and the Making of the Modern Mind
Units: 4 Terms Offered: FaSp Exploration of the philosophical and religious implications of major scientific revolutions, such as those of Copernicus, Galileo, and Darwin. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture Grading Option: Letter

PHIL 258g Probability and Rational Choice
Units: 4 Explores formal tools for thinking about uncertainty. In an uncertain world, how is it rational to form our beliefs, make decisions, and interact with others? Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 260gw Ethical Theory and Practice
Units: 4 Terms Offered: FaSp Explores various conceptions of morality and what makes actions right or wrong, together with the implications of these views for concrete ethical issues. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category G: Citizenship in a Diverse World in Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 262g Mind and Self: Modern Conceptions
Units: 4 Philosophical problems about the nature of mind associated with the rise of modern science; topics include the mind/ body relation, personal identity, rationality and freedom. Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 284gp Ideas on Trial
Units: 4 The trials of Socrates, Joan of Arc, the Salem witches, Galileo, Scopes and the Nuremberg and Eichmann trials; their social and cultural consequences. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

PHIL 285Lg Knowledge, Explanation, and the Cosmos
Units: 4 Terms Offered: FaSpSm The nature and limits of knowledge and explanation, and challenges in understanding the origin of the universe and the place of intelligent life within it. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 286Lg Issues in Space and Time
Units: 4 Examining the nature of space and time, how they relate, and how material objects relate to them. Some included topics: substantivalism, temporal directionality, persistence, hyperspace. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHIL 288gp Love and its Representation in Western Literature, Film, and Philosophy
Units: 4 Key works that have shaped the European and American cultural inheritance, with a special focus on the nature of love. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

PHIL 311 The Quest for the Individual in Early Modern Europe
Units: 4 The legal, religious, economic and philosophical bases of the rise of individualism from its roots in ancient times through its development in Europe from the 15th through the 18th centuries. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 319

PHIL 314 Origins of Free Market Thought in Early Modern Europe
Units: 4 The varied history of ideas of a free market from Cicero, through the Middle Ages and Renaissance, to the Enlightenment, Adam Smith, Colbert and beyond. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 315

PHIL 315 History of Western Philosophy: Ancient Period
Units: 4 Major figures in the history of Western philosophical thought from the pre-Socratics to the Hellenistic period; emphasis on Plato and Aristotle. Instruction Mode: Lecture Grading Option: Letter

PHIL 317 History of Western Philosophy: Medieval Period
Units: 4 Central themes in Jewish, Christian and Islamic philosophy from late antiquity through the scholastic period. Instruction Mode: Lecture Grading Option: Letter

PHIL 320 History of Western Philosophy: Modern Period
Units: 4 The development of philosophy from the 16th to the 19th centuries; emphasis on Continental Rationalism, British Empiricism, and the philosophy of Kant. Instruction Mode: Lecture Grading Option: Letter

PHIL 336 Philosophy of Mind and Language
Units: 4 Explores how language shapes thought, how social norms impact meaning and communication, the nature of speech acts, with applications to hate speech and pornography. Instruction Mode: Lecture Grading Option: Letter

PHIL 337 Political Philosophy
Units: 4 Analysis of some of the main political philosophies of the modern era; emphasis on the ethical and metaphysical foundations of political philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 339 Philosophy of Economics
Units: 4 Central topics in the philosophy of economics, including models of economic rationality, the aggregation of preferences and the conditions in which markets yield undesirable outcomes. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ECON 339

PHIL 340 Ethics
Units: 4 Terms Offered: FaSpSm Study of major philosophical theories of moral right and wrong, such as utilitarianism, Kantianism, egoism, virtue ethics, and theological ethics. Instruction Mode: Lecture Grading Option: Letter

PHIL 347 Philosophy in Literature
Units: 4 Philosophical content in representative European and American literature: philosophical problems about literature such as the nature of truth and meaning in fiction. Instruction Mode: Lecture Grading Option: Letter

PHIL 350 Symbolic Logic
Units: 4 Introduction to basic techniques of propositional and quantificational logic, and elements of probability. Especially useful to philosophy, mathematics, science, and engineering majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 351 Reasoning and Logic
Units: 4 Study of reasoning as a strategy for arriving at knowledge in dependence upon logical theory. Logical theories are developed alongside historically influential strategies of reasoning. Not open to freshmen. Instruction Mode: Lecture Grading Option: Letter

PHIL 352 Logic and Language
Units: 4 Introduction to modern symbolic logic, with applications to the philosophy of language, plus meta-logical and philosophical results about its scope and limits. Instruction Mode: Lecture Grading Option: Letter

PHIL 355 Existentialism
Units: 4 A critical survey of major 19th and 20th century existentialist writers, including
PHIL 360 Epistemology and Metaphysics
Units: 4 Examination of problems in metaphysics and/or epistemology. Conducted at the intermediate level. Instruction Mode: Lecture Grading Option: Letter

PHIL 361 Philosophy of Religion
Units: 4 The existence of God; mysticism, miracles and the possibility of disembodied existence; the problem of evil; religion and morality; the meaning of religious language. Instruction Mode: Lecture Grading Option: Letter

PHIL 362 Possible Worlds
Units: 4 Introduction to possible worlds as a tool for asking and answering questions about what might be, what must be, and what can never be. Instruction Mode: Lecture Grading Option: Letter

PHIL 363 Philosophy of Perception
Units: 4 Philosophical investigation of sense perception as it relates to issues in epistemology, metaphysics, the philosophy of mind, and the philosophy of science. Instruction Mode: Lecture Grading Option: Letter

PHIL 385 Science and Rationality
Units: 4 Examination of the rationality of the scientific enterprise, and of the relation between science and human values. Instruction Mode: Lecture Grading Option: Letter

PHIL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PHIL 410 Early Greek Thought
Units: 4 A study of the Greek thinkers from Homer to the age of Socrates; emphasis on the pre-Socratic philosophers. Instruction Mode: Lecture Grading Option: Letter

PHIL 411 Plato
Units: 4 A detailed study of the evolution of Plato's thought as revealed in selected dialogues. Instruction Mode: Lecture Grading Option: Letter

PHIL 415 Aristotle
Units: 4 An intensive study of selected topics taken from Aristotle's writings in natural philosophy, in metaphysics, and in other areas of philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 421 Continental Rationalism
Units: 4 Development of philosophy on the continent from the 17th to the 19th centuries; emphasis on the philosophical works of Descartes, Leibniz, and Spinoza. Instruction Mode: Lecture Grading Option: Letter

PHIL 422 British Empiricism
Units: 4 Development of philosophy in Great Britain from the 17th to the 19th centuries; emphasis on Locke, Berkeley, and Hume. Instruction Mode: Lecture Grading Option: Letter

PHIL 423 The Critical Philosophy of Kant
Units: 4 Intensive study of the philosophical works of Kant. Instruction Mode: Lecture Grading Option: Letter

PHIL 424 19th Century Philosophy
Units: 4 Leading figures and movements in 19th century philosophy; works of such philosophers as Hegel, Schopenhauer, Mill, Nietzsche, and Bradley. Instruction Mode: Lecture Grading Option: Letter

PHIL 427 Twentieth Century Anglo-American Philosophy
Units: 4 The rise of analytic philosophy; major ethical, metaphysical, epistemological, views; Frege, Moore, Russell, early and late Wittgenstein and Quine. Instruction Mode: Lecture Grading Option: Letter

PHIL 428 Anglo-American Philosophy Since 1950
Units: 4 The maturing of the analytic tradition from the later Wittgenstein through Ryle, Strawson, Hare, Austin, Grice, Quine, Davidson, Kripke, and beyond. Instruction Mode: Lecture Grading Option: Letter

PHIL 430 Philosophy of Law
Units: 4 Philosophical theories about the nature of law, relations between law and morality, and analysis of normative concepts central to law, such as responsibility, punishment, negligence. Instruction Mode: Lecture Grading Option: Letter

PHIL 431 Law, Society, and Politics
Units: 4 Terms Offered: Fall A systematic presentation of the main philosophical perspectives on the interactions between law and the social-political aspects of our lives. Instruction Mode: Lecture Grading Option: Letter

PHIL 437 Social and Political Philosophy
Units: 4 The nature of man and society, the nature and justification of state and government, political rights and political obligation, justice and equality. Instruction Mode: Lecture Grading Option: Letter

PHIL 440 Contemporary Ethical Theory
Units: 4 Ethical theories in the 20th century; contemporary theories of value and obligation; metaethical theories; intuitionism, naturalism, and non-cognitivism; concepts of justice, human rights, and freedom. Instruction Mode: Lecture Grading Option: Letter

PHIL 442 History of Ethics to 1900
Units: 4 An historical and critical study of the great moral philosophers, including Plato, Aristotle, Aquinas, Kant, and the British moralists. Instruction Mode: Lecture Grading Option: Letter

PHIL 443 Value Theory
Units: 4 The evaluation of individual and social ends; consideration of such topics as values and rational choice, the good of a person, hedonism, welfare, ideals, and utopias. Instruction Mode: Lecture Grading Option: Letter

PHIL 445 Philosophy of the Arts
Units: 4 Principal topics: nature of the arts, and response to art; examination of form and content in various arts; consideration of the role of criticism. Instruction Mode: Lecture Grading Option: Letter

PHIL 446 Aesthetics and the Film
Units: 4 Problems in the philosophy of art raised by film, such as the notion of “cinematic”; the nature of interpretation of films; criteria for evaluating films. Instruction Mode: Lecture Grading Option: Letter

PHIL 450 The Limits of Logic
Units: 4 Systematic study of the formal limits on what can be counted, expressed in language, systematically computed, or rigorously proved, including Goedel's Incompleteness Theorems. Prerequisite: PHIL 350 Instruction Mode: Lecture Grading Option: Letter

PHIL 452 Modal Logic
Units: 4 Elements of propositional and quantified modal logic and the logic of counterfactual conditionals with an eye to some of their applications in contemporary philosophy. Prerequisite: PHIL 350, or PHIL 351, or PHIL 352 Instruction Mode: Lecture Grading Option: Letter

PHIL 455 Phenomenology and Existentialism
Units: 4 Terms Offered: Irregular Close study of major writings of Husserl, Heidegger, and Sartre. Instruction Mode: Lecture Grading Option: Letter

PHIL 460 Metaphysics
Units: 4 Systematic introduction to basic concepts, including identity, difference, existence, individuals, substance, quality, and relation; emphasis on idealism, materialism, and the ontology of intentionality. Instruction Mode: Lecture Grading Option: Letter

PHIL 462 Philosophy of Mind
Units: 4 Examination of contemporary theories of mind and its place in the natural world. Instruction Mode: Lecture Grading Option: Letter

PHIL 463 Theories of Action
Units: 4 Systematic investigation of action, the mental states involved in action, the reasoning processes that lead to action, and related concepts including intentionality and free will. Instruction Mode: Lecture Grading Option: Letter

PHIL 465 Philosophy of Language
Units: 4 The nature of communication, meaning, reference, truth, necessity, speech acts, convention, and language. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-465

PHIL 470 Theory of Knowledge
Units: 4 Examination of contemporary accounts of the nature, scope, sources — and value — of human knowledge and justified belief. Instruction Mode: Lecture Grading Option: Letter

PHIL 471 Metaphysics and Epistemology
Units: 4 Classic issues in epistemology and the philosophy of language, leading up to the application of context-sensitivity in language to the problem of skepticism. Prerequisite: PHIL 350 or PHIL 351 or PHIL 352 Recommended Preparation: at least one 400-level PHIL course. Registration Restriction: Open to Philosophy majors. Instruction Mode: Lecture Grading Option: Letter

PHIL 472 Moral Philosophy
Units: 4 In-depth study of some important work from the last few decades concerning the nature and status of moral reasons, moral obligations, and moral discourse. Prerequisite: PHIL 350 or PHIL 351 or PHIL 352 Recommended Preparation: at least one 400-level PHIL class. Registration Restriction: Open to Philosophy majors. Instruction Mode: Lecture Grading Option: Letter
PHIL 473 Wittgenstein
Units: 4. A detailed study of the philosophical works of Ludwig Wittgenstein. Instruction Mode: Lecture Grading Option: Letter

PHIL 475 Topics in Philosophy, Politics and Economics
Units: 4. The analysis of public policy debates combining the different tools and perspectives of philosophy, political science, and economic theory. Registration Restriction: Open only to Philosophy, Politics and Economics majors Instruction Mode: Lecture Grading Option: Letter

PHIL 480 Philosophy of Mathematics
Units: 4. The nature of mathematical truth and the nature of mathematical entities. Instruction Mode: Lecture Grading Option: Letter

PHIL 484 Philosophy of Physics
Units: 4 Max Units: 12. A comprehensive introduction to two of the central areas of modern philosophy of physics: the philosophy of spacetime, and the philosophy of quantum mechanics. Recommended Preparation: PHYS 304, PHYS 408a, or PHYS 438a Instruction Mode: Lecture Grading Option: Letter

PHIL 485 Development of Physical Science
Units: 4 Concepts central in the advance of physical science such as the concepts of space, time, mass, force; philosophical problems concerning quantum mechanics. Instruction Mode: Lecture Grading Option: Letter

PHIL 486 Methodologies of the Sciences
Units: 4. Comparison of the methodologies of the natural, social, and/or behavioral sciences; consideration of such topics as the concept of scientific law, prediction, explanation, confirmation. Instruction Mode: Lecture Grading Option: Letter

PHIL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PHIL 494 Senior Thesis
Units: 4 Independent studies for philosophy majors, and guidance in the preparation of the senior thesis for students who wish to graduate with honors in philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 495 Honors Capstone
Units: 4 Terms Offered: FaSp In-depth study synthesizing important recent developments in one or more central areas of philosophy pursued at a beginning graduate level. Recommended Preparation: Two 400-level courses in Philosophy Registration Restriction: Open only to senior philosophy majors Instruction Mode: Lecture Grading Option: Letter

PHIL 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in various specialty areas within philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 500 Introduction to Contemporary Philosophical Literature
Units: 4 Terms Offered: Fa Analysis of selected philosophical problems and theses of current interest; exposition of major contemporary papers and/or books is emphasized. Instruction Mode: Lecture Grading Option: Letter

PHIL 501 Seminar in Recent Philosophy
Units: 4 Max Units: 16.0 Terms Offered: Sp Contemporary philosophical issues and literature. Instruction Mode: Lecture Grading Option: Letter

PHIL 503 Introduction to Contemporary Philosophical Literature on Value
Units: 4 Terms Offered: Sp Analysis of selected philosophical problems and theses of current interest; explication of major contemporary papers and/or books is emphasized. Instruction Mode: Lecture Grading Option: Letter

PHIL 505 Pro-Seminar in Central Topics in Contemporary Philosophy
Units: 4 Terms Offered: Irregular. Key developments in central areas of philosophy are used to provide training in philosophical analysis, criticism, and the writing of precise philosophical prose. Instruction Mode: Lecture Grading Option: Letter

PHIL 510 Philosophical Logic
Units: 4 Terms Offered: Sp Applications of logical theory to contemporary philosophical research. Elements of model theory, recursion theory; Goedel's incompleteness results; modal logic and its interpretations. Recommended Preparation: PHIL 350. Instruction Mode: Lecture Grading Option: Letter

PHIL 515 Studies in Ancient and Medieval Philosophy
Units: 4 Max Units: 12.0 Problems in research in selected portions of ancient and medieval philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 520 Studies in Modern Philosophy
Units: 4 Max Units: 16.0 Problems in research in selected portions of modern philosophy. Instruction Mode: Lecture Grading Option: Letter

PHIL 525 Seminar in Phenomenology
Units: 4. The origin, principles, and development of the phenomenological movement from Brentano to Merleau-Ponty. Instruction Mode: Lecture Grading Option: Letter

PHIL 530 Seminar in Philosophy of Law
Units: 4 Max Units: 12.0 Theories of the nature of law; emphasis on recent writing; legal concepts such as rights, powers, liability, legal responsibility, law, and morality. Instruction Mode: Lecture Grading Option: Letter

PHIL 537 Seminar in Social and Political Philosophy
Units: 4 Max Units: 16.0 Advanced literature on selected topics in social and political philosophy, including the nature of law, man, and society; ideals such as justice and freedom. Instruction Mode: Lecture Grading Option: Letter

PHIL 540 Seminar in Ethics
Units: 4 Max Units: 16.0 Advanced topics and literature in ethical theory. Instruction Mode: Lecture Grading Option: Letter

PHIL 545 Seminar in Aesthetics
Units: 4. Advanced topics in the philosophy of the arts. Contemporary views on such problems as the nature of art and the role of criticism. Instruction Mode: Lecture Grading Option: Letter

PHIL 550 Advanced Topics in Formal Logic
Units: 4 Consistency and completeness of the predicate calculus; truth and validity; rudiments of model logic. Prerequisite: PHIL 450. Instruction Mode: Lecture Grading Option: Letter

PHIL 551 Seminar in the Philosophy of Logic
Units: 4 Advanced topics in logic and/or philosophy of logic. Instruction Mode: Lecture Grading Option: Letter

PHIL 560 Seminar in Metaphysics
Units: 4 Max Units: 16.0 Terms Offered: Fa Advanced topics in metaphysics. Instruction Mode: Lecture Grading Option: Letter

PHIL 562 Philosophy of Mind
Units: 4 Max Units: 12.0 Contemporary approaches to a variety of questions about the nature of mental states and our knowledge of them. Instruction Mode: Lecture Grading Option: Letter

PHIL 565 Philosophy of Language
Units: 4 Max Units: 12.0 Terms Offered: FaSp Philosophical issues in the empirical study of language concerning the relationship between linguistic meaning and the use of sentences to assert and convey information. Instruction Mode: Lecture Grading Option: Letter

PHIL 570 Seminar in Epistemology
Units: 4 Max Units: 16.0 Advanced topics in epistemology. Instruction Mode: Lecture Grading Option: Letter

PHIL 574 Seminar in the Philosophy of Physics
Units: 4 Max Units: 12 Selected topics in various specialty areas within the philosophy of physics. Recommended Preparation: PHYS 304, PHYS 408a, or PHYS 438a Instruction Mode: Lecture Grading Option: Letter

PHIL 575 Seminar in Philosophy of Science
Units: 4 Max Units: 16.0 Advanced topics in the philosophy of science. Instruction Mode: Lecture Grading Option: Letter

PHIL 580 Writing for Publication in Philosophy
Units: 4 Max Units: 8.0 Terms Offered: Sp Intensive writing seminar in which students read cutting-edge philosophy and take supervised steps towards crafting critical essays for publication. Prerequisite: PHIL 500, PHIL 505. Instruction Mode: Lecture Grading Option: Letter

PHIL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 593x Teaching Philosophy
Units: 2 Terms Offered: Fa Basic principles of philosophical pedagogy, with emphasis on practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in philosophy. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit
PHIL 594b Master's Thesis
Units: 2 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 594z Master's Thesis
Units: 0 Credit on acceptance of thesis.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Major trends of current thought; specific topics to be announced.
Instruction Mode: Lecture Grading Option: Letter

PHIL 636 Seminar in Semantics
Units: 3 Max Units: max 12 (Enroll in LING 636)

PHIL 700x Dissertation Seminar
Units: 2 Max Units: 12.0 A focused environment in which to present and evaluate dissertation work-in-progress. Focus on peer and faculty feedback, developing professional presentation skills, improving critical communication skills.
Registration Restriction: Open only to Philosophy doctoral students.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PHIL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHIL 794z Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation.
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pharmacy

PHRD 501 Pharmaceutics I
Units: 3 Terms Offered: Fa Introduction to physicochemical principles of dosage forms; properties of molecules in dosage forms, stability of pharmaceuticals, absorption, and metabolism. Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 502 Pharmaceutics II
Units: 2 Principles involved in molecules movement across biological barriers. Properties, characteristics, application of homogeneous and heterogeneous dosage forms, liquid, semi-solid and solid.
Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 503 Biological Systems I
Units: 4 Integration and application to pharmacy of anatomy, histology, physiology and pathophysiology using an organ-based approach.
Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 504 Biological Systems II
Units: 4 Integration and application to pharmacy of anatomy, histology, physiology and pathophysiology using an organ-based approach.
Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 507 Health Care Delivery Systems
Units: 2 Terms Offered: Fa Introduction to understanding the structure of the health care system. Includes health care financing and the role of pharmacy and the pharmacist in health systems.
Instruction Mode: Lecture Grading Option: Letter

PHRD 508 Pharmacy Literature Analysis and Drug Information
Units: 3 Terms Offered: FaSp Literature evaluation and biostatistics of clinical and health services research, and drug information services. Emphasis on drug therapy, patient outcomes, and formulary development.
Instruction Mode: Lecture Grading Option: Letter

PHRD 511 Pharmacy Practice and Professionalism 1
Units: 5 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 512 Pharmacy Practice and Professionalism 2
Units: 3 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 514 Calculations and Compounding
Units: 2 Knowledge and experience in pharmacy calculations, compounding, and sterile IV compounding. Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 515 Metabolism and Cell Biology
Units: 2 Basic principles of drug action and receptor actions. Includes their application to the understanding and treatment of disease. Provides the scientific basis of pharmaceutical action. Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 516 Non-Prescription Therapies
Units: 3 Introduction to self-care health. Includes OTC products, dosages, pharmacology, efficacy, cost, side effects, adverse reactions, contraindications, and drug interactions. Duplicates Credit in the former PHRD 506. Instruction Mode: Lecture Grading Option: Letter

PHRD 517 Pharmacogenetics
Units: 2 Principles of gene expression and the influence of genetics on the effectiveness of drug therapy. Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 520 Pharmacists' Patient Care Process
Units: 1 Ensure competency in the Pharmacists' Patient Care Process (PPCP), which is universally used to provide care to individuals by pharmacists in the health care system. Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 521 Medicinal Chemistry
Units: 2 Principles of medicinal chemistry for common drugs. Mechanism of action, interactions with protein targets, structure-activity relationships, effects of chirality, and physicochemical properties. Credit Restriction: Open only to Doctor of Pharmacy students Duplicates Credit in former PHRD 557. Instruction Mode: Lecture Grading Option: Letter

PHRD 551 Immunology
Units: 3 Terms Offered: Fa Basic principles of immunology and their application to the understanding and treatment of immunologically-mediated diseases. Provides the scientific basis of immunotherapy and immunodiagnosis.
Instruction Mode: Lecture Grading Option: Letter

PHRD 552 Pharmaceutics III
Units: 3 Terms Offered: Sp Principles and applications of controlled, targeted, and self-regulating drug delivery. Methods to deliver therapeutic peptides, proteins and genetic materials. Instruction Mode: Lecture Grading Option: Letter

PHRD 553 Management within Health Care Organizations
Units: 2 Terms Offered: Fa Management of the professional practice of pharmacy in organized health care systems. Introduction to formulary development and outcome analysis.
Instruction Mode: Lecture Grading Option: Letter

PHRD 555 Pharmacy Education 1
Units: 2 Terms Offered: Fa Understanding and application of learning theory and teaching methodology, small group teaching, active learning, student motivation, basic assessment methods, and general online teaching tools.
Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter

PHRD 556 Pharmacy Education 2
Units: 1 Terms Offered: Sp Continuation of Pharmacy Education 1.
Registration Restriction: Open only to Doctor of Pharmacy students.
Instruction Mode: Lecture Grading Option: Letter
PHRD 559 Therapeutics: Pharmacokinetics
Units: 3 Integrated teaching of basic and clinical pharmacokinetic/pharmacodynamic concepts. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 560 Therapeutics II
Units: 3 Terms Offered: Sp Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmacodynamics treating diseases associated with the central nervous system. Instruction Mode: Lecture Grading Option: Letter

PHRD 561 Pharmacy Practice and Experience III
Units: 3 Terms Offered: FaSp Introductory Pharmacy Practice Experiences (IPPEs) in hospital and community settings. Includes: didactic instruction, laboratory practicums, IV training and practical experience hours. Registration Restriction: Open only to Pharmacy majors. Instruction Mode: Lecture, Lab Grading Option: Letter

PHRD 562 Therapeutics IV
Units: 4 Terms Offered: Sp Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs with an emphasis on treating diseases of the renal, GI and pulmonary systems. Instruction Mode: Lecture Grading Option: Letter

PHRD 563 Case Conference 1
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 564 Case Conference 2
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 565 Pharmacy Practice and Professionalism 3
Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 566 Pharmacy Practice and Professionalism 4
Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 567 Pharmacy Law
Units: 2 Provide an introduction to the legal and ethical issues in pharmacy practice. Includes state and federal statutes, regulations, and pharmacy-related cases. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 616. Instruction Mode: Lecture Grading Option: Letter

PHRD 568 Principles and Leadership in Community Health I
Units: 2 Terms Offered: Fa Introduction to public health and the development of community health programs. Topics include health education, health communication, and behavioral determinants of health and disease. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 569 Principles and Leadership in Community Health II
Units: 1 Terms Offered: Sp Builds upon students' knowledge of the field of public health and community health programs to evaluate the efficacy of community-based interventions. Prerequisite: PHRD 568 Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 570 Therapeutics: Central Nervous System
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on the central nervous system. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 560. Instruction Mode: Lecture Grading Option: Letter

PHRD 572 Therapeutics: General Medicine and Inflammatory Disorders
Units: 5 Integrated approach to the management of common renal, liver, pulmonary, gastrointestinal, joint and integumental related disorders, as well as inflammatory disorders. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 562. Instruction Mode: Lecture Grading Option: Letter

PHRD 599 Special Topics
Units: 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8 Max Units: 8 Terms Offered: FaSp Comprehensive exploration of special and emerging topics in the practice of pharmacy. Registration Restriction: Open only to graduate students in the School of Pharmacy Instruction Mode: Lecture Grading Option: Letter

PHRD 601 Therapeutics V
Units: 6 Terms Offered: Fa Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs, with emphasis on pharmacodynamics affecting cardiovascular and circulatory diseases. CPR certification. Instruction Mode: Lecture Grading Option: Letter

PHRD 603 Therapeutics: Endocrine System
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on the endocrine and reproductive system. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 605 Therapeutics VII
Units: 4 Terms Offered: Fa Integrated teaching of the biomedicinal chemistry, pharmacology, clinical pharmacokinetics, and therapeutics of drugs; with emphasis on chemotherapy of infectious disease: bacterial, microbial, viral, parasitic, and fungal. Instruction Mode: Lecture Grading Option: Letter

PHRD 606 Therapeutics VIII
Units: 2 Terms Offered: Sp Advanced topics and clinical therapeutics of drugs, with emphasis on the treatment of infectious disease: bacterial, microbial, viral, parasitic and fungal. Instruction Mode: Lecture Grading Option: Letter

PHRD 607 Nutrition
Units: 2 Terms Offered: Fa Biomedical knowledge is correlated with assessments of clinical case management problems to understand the interrelationship between nutrition and health in both hospitalized and healthy patients. Instruction Mode: Lecture Grading Option: Letter

PHRD 608 Therapeutics: Oncology
Units: 2 Terms Offered: Sp Integrated teaching of biomedicinal chemistry, pharmacology, clinical pharmacokinetics and therapeutics of drugs, with emphasis on pharmacodynamics for managing oncological diseases. Registration Restriction: Open only to Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 610 Therapeutics: Special Populations
Units: 3 Terms Offered: Sp Focuses on the pharmacology, pharmacokinetics, medicinal chemistry and clinical therapeutics that apply to pharmaceutical care of pediatric, geriatric and chronic pain patients. Registration Restriction: Open only Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 611 Therapeutics: Infectious Diseases
Units: 5 Integration of biomedicinal chemistry, pharmacology, pharmacokinetics, and therapeutics, with emphasis on the therapy of infectious diseases caused by bacterial, viral, parasitic, and fungal organisms. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 605 and PHRD 606. Instruction Mode: Lecture Grading Option: Letter

PHRD 612 Therapeutics XI
Units: 2 Terms Offered: Sp Updates students on recent advances in clinical areas, prepares students for advanced practice experiences and assessment of clinical readiness via a final examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 614 Pharmaceutical Economics and Outcome Studies
Units: 3 Terms Offered: Sp Economic analysis of the U.S. health care system, the pharmaceutical industry, and the profession; economic assessment of drug therapy costs and health care outcomes applying pharmacoeconomic research methodologies. Instruction Mode: Lecture Grading Option: Letter

PHRD 616 Pharmacy, Law and Ethics
Units: 3 Terms Offered: Sp To provide students with an understanding of ethical issues that arise in pharmacy practice along with state and federal statutes, regulations, and pharmacy-related cases. Instruction Mode: Lecture Grading Option: Letter
PHRD 619 Therapeutics: Cardiovascular System
Units: 5 Integration of biomedicine, chemistry, pharmacology, pharmacokinetics, and therapeutics with emphasis on pharmacodynamics affecting cardiovascular and circulatory diseases. Registration Restriction: Open only to Doctor of Pharmacy students. Duplicates Credit in PHRD 601. Instruction Mode: Lecture Grading Option: Letter

PHRD 620 Pharmacy Practice and Professionalism 5
Units: 2 A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 621 Pharmacy Practice and Professionalism 6
Units: 1 Terms Offered: Sp A seminar series covering leadership, professionalism and professional development for pharmacy practice. Includes practical experience placements (IPPE). Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 622 Case Conference 3
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 623 Case Conference 4
Units: 2 Case conferences and seminars focusing on contemporary pharmacy practice. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 624 Community Pharmacy Practice
Units: 4 Exploration of the pharmacy profession and the practice of community pharmacy. Includes didactic instruction and Community Pharmacy Practice Experiences (IPPEs). Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 625 Hospital Pharmacy Practice
Units: 3 Exploration of the pharmacy profession and the practice of hospital pharmacy. Includes didactic instruction and Hospital Pharmacy Practice Experiences (IPPEs). Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 626 Elective Pharmacy Practice
Units: 2 Exploration of the pharmacy profession and the practice of pharmacy. Includes an elective Introductory Pharmacy Practice Experience (IPPE) in Community, Hospital, or other pharmacy practice settings. Duplicates Credit in PHRD 626

PHRD 627 Elective Pharmacy Practice Experience
Units: 2 Exploration of the pharmacy profession and the practice of pharmacy. Includes an elective Introductory Pharmacy Practice Experience (IPPE) in Community, Hospital, or other pharmacy practice settings. Duplicates Credit in PHRD 626

PHRD 628 Interprofessional Collaboration for Patient Care/Population Health - Part I
Units: 3 Terms Offered: FaSp Provides future pharmacists with the specialized knowledge, skills, and experiences for individual patient and population health care through interprofessional collaboration (IPC). Fulfills requirements in the Health Systems and Comprehensive Medication Management and High-Risk Populations areas of concentration. Instruction Mode: Lecture Grading Option: Letter

PHRD 633 Pharmacy Management and Economics
Units: 2 Management principles for pharmacy practice, understanding of health care systems and pharmacoconomics. Introduction to formulary management and outcome analysis. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 634 Scholarly Project 1
Units: 1 Terms Offered: Fa Collection and analysis of results in the Pharm.D. Scholarly Project and oral presentation and discussion of these results. Registration Restriction: Open only to Pharmacy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 635 Scholarly Project 2
Units: 1 Terms Offered: Sp Oral and poster presentation of the results of the Pharm.D. Scholarly Project. Registration Restriction: Open only to Pharmacy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 636 Scholarly Project 3
Units: 1 Guides students through the completion of original research with instruction on data analysis, abstract preparation and poster presentation. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 637 Pharmacy Review
Units: 1, 2, 3 Max Units: 03 Terms Offered: Sm Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Registration Restriction: Open only to Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 650 APPE Gateway
Units: 2 Terms Offered: Sp Competency-based course to prepare and assess students for readiness to enter Advanced Pharmacy Practice Experience (APPE). Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 651 Community Pharmacy and Business Management I
Units: 3 Terms Offered: Fa Development of specialized knowledge and skills in community pharmacy practice involving location analysis, pharmacy management principles, and introduction to business law concepts. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 652 Community Pharmacy and Business Management II
Units: 3 Terms Offered: Sp A continuation of PHRD 651 highlighting the subspecialties available in independent pharmacy including but not limited to specialty pharmacy, 340B pharmacy, DME, compounding, LTC and infusion. Prerequisite: PHRD 651 Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 653 Principles of Managed Care
Units: 3 Terms Offered: Fa Understanding formal and informal organizations in institutions, managed care, disease management, health care policy and financing, patients’ chart organization, and clinical monitoring parameters. Instruction Mode: Lecture Grading Option: Letter

PHRD 654 Acute Care II
Units: 3 Terms Offered: Sp Recognizing resources available for drug information, familiarity with institutional formularies, medication counseling, writing chart notes, and clinical activities at an off-campus health care institution. Instruction Mode: Lecture Grading Option: Letter

PHRD 655 Geriatric Pharmacy I
Units: 3 Terms Offered: FaSp Specialized knowledge and skills in geriatric pharmacy, pharmacology of aging, and unique functions of health care team providing care to the elderly patient. Instruction Mode: Lecture Grading Option: Letter

PHRD 656 Geriatric Pharmacy II
Units: 3 Terms Offered: Sp Specialized knowledge and skills in gerontology and geriatric pharmacy including the pathophysiology of selected cardiovascular, endocrine, genitourinary gastrointestinal disorders, osteoarthritis, and osteoporosis. Prerequisite: PHRD 559. Instruction Mode: Lecture Grading Option: Letter

PHRD 657 Basic Research Design
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSp Laboratory, clinical, health economics or regulatory science research experience for pharmacy students. Projects performed working directly with faculty advisers. Registration Restriction: Open only to Pharmacy students. Instruction Mode: Lecture Grading Option: Letter

PHRD 658 Sleep and the Pharmacologic Management of Its Disorders
Units: 3 Terms Offered: FaSp Overview of normal sleep manifestations, and treatment of common sleep disorders, and the pharmacist’s role in assessment, treatment, and referral. Instruction Mode: Lecture Grading Option: Letter

PHRD 659 Molecular Therapeutics: Signal Transduction
Units: 3 Terms Offered: FaSp Principles of molecular therapeutics against signaling pathways; emphasis on biological mechanisms underlying hormone, growth factor, and neurotransmitter-mediated gene regulation, proliferation, and apoptosis. Instruction Mode: Lecture Grading Option: Letter

PHRD 660 Disease State Management I
Units: 3 Terms Offered: FaSp The processes required to develop disease state management protocols based on data drawn from the medical research literature. Instruction Mode: Lecture Grading Option: Letter
PHRD 661 Pharmacy Practice in Women's Health
Units: 3
Terms Offered: FaSp
The pharmaceutical care of women patients is emphasized. Therapeutic, psychosocial factors and current research in women’s health. Instruction Mode: Lecture Grading Option: Letter

PHRD 662 Psychiatric Pharmacy Practice
Units: 3
Terms Offered: Sp
Specialized knowledge and skills in psychiatric pharmacy practice including child, adult, and geriatric psychopharmacology applied to the psychiatric outpatient/inpatient setting. Instruction Mode: Lecture Grading Option: Letter

PHRD 663 Pharmaceutical Development
Units: 3
Terms Offered: FaSp
Examination of pharmaceutical product development process including discovery, preclinical/clinical studies, regulatory-legal issues, and marketing. Instruction Mode: Lecture Grading Option: Letter

PHRD 664 Clinical Problem Solving
Units: 3
Terms Offered: Sp
Integration of physical assessment, laboratory tests, history taking, and diagnosis to formulate decisions for optimal treatment plans in specific disease states. Instruction Mode: Lecture Grading Option: Letter

PHRD 665 Complementary/Alternative Therapeutics
Units: 3
Terms Offered: FaSp
Examine the therapeutic use of complementary/alternative medicines, such as herbal medicines, homeopathic drugs, vitamins and other nutritional supplements. Instruction Mode: Lecture Grading Option: Letter

PHRD 666 Therapeutic Drug Monitoring
Units: 3
Terms Offered: FaSp
Application of pharmacokinetic and pharmacodynamic principles to individualize patient drug regimens. Instruction Mode: Lecture Grading Option: Letter

PHRD 667 Drugs of Abuse
Units: 3
Terms Offered: FaSp
Specialized knowledge and skills in specific substance abuse-related areas. Each area will include addiction, wellness, and prevention components. Instruction Mode: Lecture Grading Option: Letter

PHRD 668 Computing Application
Units: 3
Terms Offered: FaSp
Specialized knowledge and skills using computers in professional practice: telecommunication protocols, typical patient databases in hospital and community pharmacies, drug interactions, insurance billing, inventory control. Instruction Mode: Lecture Grading Option: Letter

PHRD 669 Health Care Needs of Special Populations
Units: 3
Terms Offered: FaSp
Health care needs of the poor will be examined through participation in a multidisciplinary community clinic setting focusing on medication counseling and compliance. Instruction Mode: Lecture Grading Option: Letter

PHRD 670 Marketing and Development in the Pharmaceutical Industry
Units: 3
Terms Offered: FaSp
Basic and advanced strategies for marketing and development of new compounds or indication in the pharmaceutical industry. Prerequisites: PHRD 653 Recommended Preparation: PHRD 663 Instruction Mode: Lecture Grading Option: Letter

PHRD 671 Pharmacy Education Seminar
Units: 3
Terms Offered: FaSp
A seminar course with a focus on educational methods and teaching skills providing career development for students interested in academia. Instruction Mode: Lecture Grading Option: Letter

PHRD 672 Introduction to Critical Care
Units: 3
Terms Offered: Sp
Coupling evidence-based management with a case-based approach; reinforces the clinical thought processes to optimize pharmaceutical care in various critical care settings. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 673 Spanish for Pharmacists
Units: 3
Terms Offered: FaSp
Practical Spanish for pharmacists, including basic conversation of commonly prescribed drugs. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 674 Acute Care I
Units: 3
Terms Offered: Fa
Development of specialized knowledge and skills in evidence-based drug-therapy management in the acute care arena. Duplicates Credit in PHRD 602. Instruction Mode: Lecture Grading Option: Letter

PHRD 675 Management and Practice in Pharmacy Practice
Units: 3
Terms Offered: FaSp
Specific risk management issues, legal and professional expectations of pharmacists, and assessing and avoiding risk. Instruction Mode: Lecture Grading Option: Letter

PHRD 676 Topics in Pharmacology: the Other Side of Drugs
Units: 2, 3
Terms Offered: Fa
Enroll in MPTX 510

PHRD 679 Toxicology and the Media
Units: 2, 3
Terms Offered: Sp
Enroll in MPTX 520

PHRD 688 Global Pharmacy
Units: 3
Opportunity to work with pharmacists, student pharmacists, and other healthcare professionals to experience pharmacy education and practice outside of the United States. Registration Restriction: Open only to Pharmacy majors Instruction Mode: Lecture Grading Option: Letter

PHRD 701 Acute Care Clinical APPE
Units: 6
Terms Offered: FaSp
Application of pharmaceutical care principles to the adult patient population in an acute care environment. Pharmacology, pharmacokinetics, and disease state management will be emphasized. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 704 Primary Care APPE
Units: 6
Terms Offered: FaSp
Disease state management and a primary care setting. Modification and design of drug therapy regimens and primary patient care using a team based approach. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 705 Community Pharmacy APPE
Units: 6
Terms Offered: FaSpSm
Pharmaceutical care principles applied to the community pharmacy environment. Participating in the development, implementation and outcome evaluation of patient care services in the community. Registration Restriction: Open to Doctor of Pharmacy students only. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 714 Nuclear Pharmacy APPE
Units: 6
Terms Offered: FaSp
Provides practical and theoretical aspects of radiopharmacy services delivery. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 718 Hospital Pharmacy Practice APPE
Units: 6
Terms Offered: FaSpSm
Practical experience in the practice of pharmacy in the international setting. Students will visit an international pharmacy practice setting and complete a project. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 725 International Pharmacy Practice Experience
Units: 3, 6
Terms Offered: FaSp
Practical experience in the practice of pharmacy in the international setting. Students will visit an international pharmacy practice setting and complete a project. Instruction Mode: Lecture Grading Option: Letter

PHRD 731 Advanced Geriatrics APPE
Units: 6
Terms Offered: FaSpSm
Directed projects/practical experience in geriatric drug therapy. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 738 Pharmaceutical Industry APPE
Units: 6
Max Units: 12
Terms Offered: FaSp
Practical experience within a pharmaceutical company may include: clinical affairs, drug development, research and/or marketing process. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 750 Advanced Pharmacy Practice Elective (APPE)
Units: 6
Max Units: 12
Terms Offered: FaSpSm
Pharmacy practice experience (internship) course in a health care setting. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 751 Non-traditional Advanced Pharmacy Elective (APPE)
Units: 6
Max Units: 12
Terms Offered: FaSpSm
Pharmacy practice experience (internship) course in a non-traditional or emerging setting. Registration Restriction: Open only to Doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 752 Special Project APPE
Units: 6
The Special Projects advanced
pharmacy practice experiences course gives students the opportunity to demonstrate competency in a variety of pharmacy practice settings. Registration Restriction: Open only to doctor of Pharmacy students Instruction Mode: Lecture Grading Option: Letter

PHRD 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Research leading to doctorate in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHRD 794a Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794b Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794c Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 794d Doctoral Dissertation
Units: 2 Dissertation research required for completion of Doctor of Philosophy in Clinical and Experimental Therapeutics. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 796a Doctor of Pharmacy Capstone
Units: 0 Terms Offered: FaSpSm Capstone course required for completion of Doctor of Pharmacy degree. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHRD 796b Doctor of Pharmacy Capstone
Units: 0, 3 Terms Offered: Sp Capstone course required for completion of Doctor of Pharmacy degree. Registration Restriction: Open only to Doctor of Pharmacy students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Pharmaceutical and Translational Sciences

PHS 654 Computation in Drug Discovery and Development
Units: 2 Terms Offered: Fa Focuses on computational prediction of molecular association and ADME (absorption, distribution, metabolism, excretion) properties in drug discovery and development. Recommended Preparation: Review basic computer skills Instruction Mode: Lecture, Lab, Discussion Grading Option: Credit/No Credit

PHS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to students enrolled in the PHTS umbrella PhD program during their first year Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 051x Problem Solving in Mechanics and Thermodynamics
Units: 4 Intensive practice in solving elementary problems within a student-centered learning environment. Concurrent Enrollment: Concurrent enrollment: PHYS 151. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 100Lgx The Physical World
Units: 4 Terms Offered: FaSpSm The fundamentals of physics presented with emphasis on the structure and beauty of physical laws. Practical component will relate these laws to commonly encountered events. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category II: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 111gx The Physical World and the Universe
Units: 4 Fundamentals of physics and astronomy with emphasis on the tools and evidence leading to our current understanding of the physical Universe. Students who are interested in this course are encouraged to check out PHYS 111gx Representations of Physics and Astronomy in the Arts. Satisfies New General Education in Category E: Physical Sciences Credit Restriction: Not for major credit in Physics and Astronomy majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 125Lg Physics for Architects
Units: 4 Terms Offered: Sp Fundamental laws and principles of physics with emphasis on the application of physical principles to the problems of architecture. Prerequisite: MATH 108. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Duplicates Credit in PHYS 135a, PHYS 135b. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 135ag Physics for the Life Sciences
Units: 4 Terms Offered: FaSpSm Fundamental laws and principles of physics emphasizing areas related to life sciences; prerequisite for biological sciences, medicine, dentistry, and pharmacy. Prerequisite: Passing of Math Placement Exam or MATH 108 or MATH 126 or MATH 226. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 135BL Physics for the Life Sciences
Units: 4 Terms Offered: FaSpSm Fundamental laws and principles of physics emphasizing areas related to life sciences; prerequisite for biological sciences, medicine, dentistry, and pharmacy. Prerequisite: Passing of Math Placement Exam or MATH 108 or MATH 126 or MATH 226. Duplicates Credit in PHYS 125. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 141L Special Laboratory I
Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 151 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 142L Special Laboratory II
Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 152 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 143L Special Laboratory III
Units: 1 Terms Offered: FaSpSm Laboratory component for PHYS 153 for transfer students with equivalent lecture credit from another institution. For transfer students immediately after matriculation. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 151a Fundamentals of Physics I: Mechanics and Thermodynamics
Units: 4 Terms Offered: FaSpSm Gateway to the majors and minors in Physics and Astronomy. Statics and dynamics of particles and rigid bodies, conservation principles, gravitation, simple harmonic oscillators, thermodynamics, heat engines, entropy. Prerequisite: MATH 125g or MATH 126g or MATH 226 or MATH 229 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 152L Fundamentals of Physics II: Electricity and Magnetism
Units: 4 Terms Offered: FaSpSm Gateway to the majors and minors in Physics and Astronomy. Statics and dynamics of particles and rigid bodies, conservation principles, gravitation, simple harmonic oscillators, thermodynamics, heat engines, entropy. Prerequisite: MATH 125g and (MATH 126g or MATH 129) Corequisite: MATH 226g or MATH 229 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter

PHYS 153L Fundamentals of Physics III: Optics and Modern Physics
Units: 4 Terms Offered: FaSpSm Geometrical optics, interference, diffraction, special relativity, quantum mechanics, atomic physics, solid state physics. Prerequisite: PHYS 152. Instruction Mode: Lecture, Lab Required, Quiz Grading Option: Letter
PHYS 161Lg Advanced Principles of Physics I
Units: 4 Terms Offered: Sp Gateway to the major and minors in Physics and Astronomy. Introductory treatment intended for well-qualified students. Dynamics of particles and rigid bodies, conservation laws, wave motion, thermodynamics, heat engines, entropy. Prerequisite: MATH 126 Corequisite: MATH 226 Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category III: Scientific Inquiry Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 162L Advanced Principles of Physics II
Units: 4 Terms Offered: Fa Electrodynamics, magnetoostatics, electrical circuits, electric and magnetic properties of matter, Maxwell's equations, electromagnetic waves, propagation of light. Prerequisite: MATH 226 Recommended Preparation: PHYS 161 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 163L Advanced Principles of Physics III
Units: 4 Terms Offered: Sp Interference and diffraction of waves, special relativity, quantum mechanics, atomic physics, nuclear physics, condensed matter physics, elementary particles. Prerequisite: PHYS 162 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 171Lg Applied Physics I: Mechanics
Units: 4 Mechanics, mechanical vibrations and waves, special relativity. Emphasizes applications in the areas of applied physics and engineering. Prerequisite: MATH 129 Corequisite: MATH 229 Satisfies New General Education in Category E: Physical Sciences Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 172L Applied Physics II: Electricity, Magnetism and Optics
Units: 4 Electric and magnetic fields; electromagnetic waves; optics. Emphasizes applications in the areas of applied physics and engineering. Prerequisite: MATH 229 (PHYS 171L or PHYS 161Lg) Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 173L Applied Physics III: Topics in Modern Physics
Units: 4 Quantum mechanics, statistical mechanics, solid-state physics. Emphasizes applications in the areas of applied physics and engineering. Prerequisite: PHYS 172L or PHYS 162L Instruction Mode: Lecture, Discussion, Lab Required Grading Option: Letter

PHYS 190 Physics Discovery Series
Units: 1 Terms Offered: Fa Introduction to current research activities of the faculty of the department; topics of current and popular interest among the wider community of physicists. Instruction Mode: Lecture, Lab Required Grading Option: Credit/No Credit

PHYS 200Lg The Physics and Technology of Energy
Units: 4 Terms Offered: FaSp Investigation of energy technologies, including development and implementation issues. Topics include the industrial revolution, electromagnetic induction, power transmission, combustion engines, fission and fusion. Satisfies New General Education in Category E: Physical Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 304 Mechanics
Units: 4 Terms Offered: Fa Dynamics of particles, kinematics of rotations, rigid body motion, Lagrangian and Hamiltonian formalism, theory of small vibrations. Prerequisite: PHYS 151 or PHYS 161, MATH 245. Instruction Mode: Lecture Grading Option: Letter

PHYS 316 Thermodynamics and Statistical Mechanics
Units: 4, 2 years Terms Offered: Sp First, second, and third thermodynamic laws; thermodynamic potentials, applications; distribution laws, kinetic theory, transport phenomena, specific heats. Prerequisite: PHYS 152 or PHYS 161, MATH 226. Instruction Mode: Lecture Grading Option: Letter

PHYS 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PHYS 408a Electricity and Magnetism
Units: 4 Terms Offered: Fa Electrodynamics; thermal, chemical, magnetic effects of steady currents; DC circuits. Prerequisite: PHYS 152 or PHYS 162; Corequisite: MATH 245. Instruction Mode: Lecture Grading Option: Letter

PHYS 408b Electricity and Magnetism
Units: 4 Terms Offered: Sp Electromagnetic induction; AC circuits; Maxwell's equations. Prerequisite: PHYS 152 or PHYS 162; Corequisite: MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 430 General Relativity and Gravitation
Units: 4 Terms Offered: Sp Geometry of the Universe, special relativity, curved metrics, black holes, equivalence principle, cosmology, Friedman-Robertson-Walker geometry. Einstein's equations. Prerequisite: PHYS 304; Instruction Mode: Lecture Grading Option: Letter

PHYS 438a Introduction to Quantum Mechanics and its Applications
Units: 4 Terms Offered: Sp Concepts and techniques of quantum mechanics; free and bound states, the hydrogen atom. Prerequisite: PHYS 304; Corequisite: MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 438b Introduction to Quantum Mechanics and its Applications
Units: 4 Terms Offered: Fa Relativity, atomic spectra, quantum statistics, nuclear models, nuclear reactions, elementary particles. Prerequisite: PHYS 304; Corequisite: MATH 445. Instruction Mode: Lecture Grading Option: Letter

PHYS 440 Introduction to Condensed Matter Physics
Units: 4 Terms Offered: Irregular, Sp Crystal structures, x-ray diffraction, thermal properties of solids, diamagnetism and paramagnetism, free-electron model of metals, semiconductors, ferromagnetism, superconductivity, imperfections in crystals. Corequisite: PHYS 438a. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EE-445

PHYS 444 Physical Biology: From Molecules to Cells
Units: 4 Terms Offered: Fa Length, time, and energy scales of life; statistical mechanics of biomolecules and cellular processes; physics of cell shape; biological fluid dynamics; electron transfer and metabolism. Prerequisite: PHYS 152 or PHYS 162; Recommended Preparation: BISC 220. Instruction Mode: Lecture Grading Option: Letter

PHYS 472 Introduction to Lasers and Laser Systems
Units: 3 Terms Offered: Fa (Enroll in EE 472)

PHYS 473L Lasers and Optics Laboratory
Units: 3 Terms Offered: Sp (Enroll in EE 473)

PHYS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

PHYS 492L Senior Lab
Units: 4 Terms Offered: Fa Projects will include experiments in mechanics, thermodynamics, electricity and magnetism. Emphasis on laboratory work with discussion of theoretical background. Prerequisite: PHYS 152. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 493L Advanced Experimental Techniques
Units: 4 Terms Offered: Sp Development of modern experimental techniques, including computer interface with data acquisition hardware and data analysis by software, applied specifically to experiments in modern physics. Emphasis on laboratory work with discussion of theoretical background. Prerequisite: PHYS 492L Instruction Mode: Lecture, Lab Required Grading Option: Letter

PHYS 495 Senior Project
Units: 2 An original project will be constructed applying computer technology (in either hardware or software) to produce a result useful in the physics classroom or laboratory. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CSCI-495

PHYS 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Lectures and discussions on specialized topics in physics. Instruction Mode: Lecture Grading Option: Letter

PHYS 500 Graduate Colloquium
Units: 1 Max Units: 4.0 Terms Offered: FaSp Topics of current research interest in physics and astronomy. Lectures directed to physics graduate students by faculty of the department and by outside speakers. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 502 Advanced Optics
Units: 3 Terms Offered: Irregular Interaction of light and matter; laser oscillation condition; optical resonators; spectroscopy; pumping mechanisms; characteristics of dielectric, semiconductor, gas, and liquid
PHYS 504 Advanced Mechanics
Units: 3 Terms Offered: Fa Newtonian formulation of dynamics; Hamilton's principle; Lagrangian formulation; rigid body motion; Hamiltonian formulation; Hamilton-Jacobi theory; vibrations. Instruction Mode: Lecture Grading Option: Letter

PHYS 505 Thermodynamics and Statistical Mechanics
Units: 3 Terms Offered: Fa Principles of, and relations between, thermodynamics and statistical mechanics; ensembles, partition function formalism; quantum statistics of noninteracting particles; fluctuations. Instruction Mode: Lecture Grading Option: Letter

PHYS 520 Methods for Complex Systems
Units: 3 Terms Offered: Fa Probabilities, random walks, generalized central limit theorems, probabilities in thermodynamics, critical phenomena, self organized criticality, phenomenology of catastrophes, dynamical systems and examples from outside physics. Instruction Mode: Lecture Grading Option: Letter

PHYS 530 Relativity
Units: 3 Terms Offered: Irregular Fundamentals of the special theory and applications to classical and quantum physics; the principle of equivalence; tensor analysis and Einstein's theory of gravitation; relativistic cosmology. Recommended Preparation: PHYS 504, PHYS 508a. Instruction Mode: Lecture Grading Option: Letter

PHYS 540 Solid State Physics
Units: 3 Terms Offered: Fa Fundamental concepts and techniques in solid state physics; electron gas at metallic densities; semiclassical transport; crystallography; band structure; phonons; screening; superconductivity; magnetic ordering. Recommended Preparation: PHYS 518, PHYS 558a. Instruction Mode: Lecture Grading Option: Letter

PHYS 550 Theory of Open Quantum Systems
Units: 4 Terms Offered: Sp The theory of open quantum systems (i.e., systems coupled to an environment) with applications to chemistry, physics and quantum information processing. Recommended Preparation: Knowledge of basic linear algebra and undergraduate-level quantum mechanics in Chemistry or Physics; graduate-level quantum mechanics Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHEM 551

PHYS 558a Quantum Mechanics
Units: 3 Terms Offered: Sp General formulation of quantum mechanics with applications; theory of measurement; exactly solvable problems; angular momentum formalism. Instruction Mode: Lecture Grading Option: Letter

PHYS 558b Quantum Mechanics
Units: 3 Terms Offered: Fa Approximation schemes and applications to atomic and molecular physics and scattering theory; identical particles; electromagnetic properties of atoms. Instruction Mode: Lecture Grading Option: Letter

PHYS 559 Quantum Devices
Units: 4 Terms Offered: Fa Idealized and real-world descriptions of quantum hardware; design principles, methods of operation and possible improvements; applications, advantages and limitations of different technologies. Recommended Preparation: PHYS 438B or equivalent Instruction Mode: Lecture Grading Option: Letter

PHYS 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PHYS 593 Practicum in Teaching Physics and Astronomy
Units: 2 Terms Offered: Fa Practical principles for the long-term development of effective teaching within the physical sciences. Intended for teaching assistants in Domsife College. Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 594a Master's Thesis
Units: 2 Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In-progress to Credit/No Credit

PHYS 594b Master's Thesis
Units: 0 Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PHYS 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to Physics graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PHYS 630 Science of Nanoscale Materials
Units: 3 Terms Offered: Fa Fundamental physics of low dimensional systems, with an emphasis on nanoscale materials (e.g. nanodot, nanowire, graphene) and state-of-the-art research topics, including characterization of nanostucture materials and device concepts that take the advantage of low dimensionality. Instruction Mode: Lecture Grading Option: Letter

PHYS 640 Advanced Condensed Matter Physics
Units: 3 Terms Offered: Sp Magnetism, magnons; superconductivity; transport phenomena; many-body effects; interacting electron gas; Hartree-Fock theory; neutron and X-ray scattering; and other selected topics. Recommended Preparation: PHYS 540, PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 650 Topics in Current Research
Units: 2 Terms Offered: Fa Course content will vary each year. It will include topics of current interest in research conducted in academia and industry. Instruction Mode: Lecture Grading Option: Letter

PHYS 660 Quantum Information Science and Many-Body Physics
Units: 3 Terms Offered: Sp Introduction to advanced techniques in theoretical many-body physics based on quantum information theory. Prerequisite: PHYS 510 and PHYS 558b. Instruction Mode: Lecture Grading Option: Letter

PHYS 668 Advanced Quantum Mechanics
Units: 3 Terms Offered: Sp Relativistic wave equations; second quantization of Klein-Gordon, Dirac and Maxwell fields; applications in quantum electrodynamics and condensed matter physics. Recommended Preparation: PHYS 558b. Instruction Mode: Lecture Grading Option: Letter
PHYS 669a Group Theory and Symmetries in Physics
Units: 3  Terms Offered: Irregular  Abstract group theory; representation theory; point groups; selection rules; crystal tensors; molecular vibrations; rotation group; SU(2); Wigner-Eckart theorem; crystal-field splitting; time-reversal symmetry; gauge invariance; SU(3) and quarks.  Recommended Preparation: PHYS 558b.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 669b Group Theory and Symmetries in Physics
Units: 3  Terms Offered: Irregular  Application of group theory in field theory and particle physics: Lie groups and representations, Young tableaux, Dynkin diagrams, Poincare group, classical groups and supergroups, gauge theories.  Recommended Preparation: PHYS 558b.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 670 High Energy Physics
Units: 3  Terms Offered: Irregular  Elementary particles and the fundamental forces acting on them. Quarks, leptons, symmetries, gauge invariance, spontaneously broken symmetry, electroweak theory, quantum chromodynamics grand unified theory, strings.  Recommended Preparation: PHYS 668.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 678 Relativistic Quantum Field Theory
Units: 3  Terms Offered: Irregular  Computational methods in relativistic quantum field theory: Feynman path integral, covariant perturbation theory, regularization, renormalization group, and non-perturbative techniques.  Recommended Preparation: PHYS 668.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 680 Advanced Quantum Field Theory
Units: 3  Terms Offered: Irregular  Renormalization, quantization of gauge theories, non-Abelian gauge theories, quantum chromodynamics, spontaneous symmetry breaking, the standard model, anomalies.  Recommended Preparation: PHYS 678.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 682 Supersymmetric Field Theory
Units: 3  Terms Offered: Fa  Supersymmetry algebra, Coleman-Mandula theorem, N=1 and N=2 Yang-Mills theory, Seiberg duality, holomorphy, introduction to Seiberg-Witten theory, electromagnetic duality, BPS states.  Recommended Preparation: PHYS 678, PHYS 680.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 684 Advanced String Theory
Units: 3  Terms Offered: Sp  Advanced string theory. Strong coupling and nonperturbative techniques. D-branes, black holes, duality, AdS/CFT. Applications in particle, nuclear and condensed matter physics, and quantum gravity.  Recommended Preparation: PHYS 530, PHYS 678, PHYS 680.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 690 Introduction to Physical Biology
Units: 3  Terms Offered: Sp  Introduces students to the role of physics in biology. Considers both experimental and more fundamental points of view. Explores a few current research directions. Recommended Preparation: Field knowledge of basic statistical mechanics and thermodynamics.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 692 Internship
Units: 3 or 6  Max Units: 6.0  Terms Offered: FaSpSm  Field application of physics in a business or industry setting; part-time employment. Project to be jointly defined by student, employer and professor.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 710 Selected Topics in Experimental Physics
Units: 3  Max Units: 6.0  Course content will vary yearly with current interest. Topics covered may include superconducting quantum interference devices, scanning tunneling microscopy, and laser cooling and trapping of single atoms.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 720 Selected Topics in Theoretical Physics
Units: 3  Max Units: 6.0  Various advanced phases of particle physics. Content will vary yearly; emphasis on superstring theories, advanced topics in quantum gravity, and field theory.  Recommended Preparation: PHYS 678.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 730 Selected Topics in Particle Physics
Units: 3  Max Units: 6.0  Various advanced phases of particle physics. Content will vary yearly; emphasis on superstring theories, advanced topics in quantum gravity, and field theory.  Recommended Preparation: PHYS 678.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 740 Selected Topics in Condensed Matter Physics
Units: 3  Max Units: 6.0  Course content will vary yearly with current interest. Topics covered may include theory of superconductivity, high temperature superconductivity, Green's functions in condensed matter physics, magnetism and transport in disordered metals.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 750 Off Campus Studies
Units: 3  Max Units: 9.0  Course work taken on campus at Caltech as part of the Caltech-USC cross-registration program.  Instruction Mode: Lecture  Grading Option: Credit/No Credit

PHYS 760 Selected Topics in Computational Physics
Units: 3  Terms Offered: Sp  Course content will vary yearly with current interest. Topics covered may include artificial intelligence techniques, Monte Carlo simulations, numerical renormalization group and tensor networks.  Recommended Preparation: Basic linear algebra and familiarity with one programing language. Prior knowledge of machine learning is not necessary.  Instruction Mode: Lecture  Grading Option: Letter

PHYS 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department.  Instruction Mode: Lecture, Lab  Grading Option: Credit/No Credit

PHYS 794a Doctoral Dissertation
Units: 2  Credit on acceptance of dissertation.  Instruction Mode: Lecture, Lab  Grading Option: In-progress to Credit/No Credit

PHYS 794b Doctoral Dissertation
Units: 2  Credit on acceptance of dissertation.  Instruction Mode: Lecture, Lab  Grading Option: In-progress to Credit/No Credit

PHYS 794c Doctoral Dissertation
Units: 2  Credit on acceptance of dissertation.  Instruction Mode: Lecture, Lab  Grading Option: In-progress to Credit/No Credit

PHYS 794d Doctoral Dissertation
Units: 2  Credit on acceptance of dissertation.  Instruction Mode: Lecture, Lab  Grading Option: In-progress to Credit/No Credit

PHYS 794z Doctoral Dissertation
Units: 2  Credit on acceptance of dissertation.  Instruction Mode: Lecture, Lab  Grading Option: In-progress to Credit/No Credit

Project Management

PJMT 500 Principles of Project Management
Units: 2  Terms Offered: FaSpSm  Concepts including delivering project scope within cost, schedule, and resource constraints and the exploration of the tradional or waterfall project management methodology will be explored.  Registration Restriction: Open only to Bovard College Project Management students  Instruction Mode: Lecture  Grading Option: Letter

PJMT 505 Requirements Elicitation and Business Analysis
Units: 2  Terms Offered: FaSpSm  Tasks, techniques, and perspectives on how to approach business analysis along with methods for developing requirement process tools and techniques and best practices.  Registration Restriction: Open only to Bovard College Project Management students  Instruction Mode: Lecture  Grading Option: Letter

PJMT 510 Schedule Management
Units: 2  Terms Offered: FaSpSm  Structured approach to project schedule management, demonstrating how to be proactive and in control of projects by implementing effective schedule management.  Registration Restriction: Open only to Bovard College Project Management students  Instruction Mode: Lecture  Grading Option: Letter

PJMT 515 Cost Estimation and Forecasting
Units: 2  Terms Offered: FaSpSm  Approaches to project cost estimation and the tools and methodologies best suited for estimates and forecasts that need to be prepared.  Registration Restriction: Open only to Bovard College Project Management students  Instruction Mode: Lecture  Grading Option: Letter

PJMT 520 Risk Management
Units: 2  Terms Offered: FaSpSm  Coursework will enable students to prepare a comprehensive risk management plan and discover different approaches to identify, assess, and quantify risks and their impacts.  Registration Restriction: Open only to Bovard College Project Management
students Instruction Mode: Lecture Grading Option: Letter

PJMT 525 Agile Project Management Methodologies
Units: 2 Terms Offered: FaSpSm Agile project management concepts and a set of frameworks that covers the people, products, and techniques required to successfully implement projects. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 530 Quality and Process Improvement
Units: 2 Terms Offered: FaSpSm Quality and performance improvement projects and methodologies used to implement them with a focus on Six Sigma, Lean, and Total Quality Management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 535 Specialized Project Management
Units: 2 Terms Offered: FaSpSm Students learn to cultivate the necessary components for stakeholder management on nearly any change within an organization through change management and business relationship management. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 540 Organizational Change Management and Business Relationships
Units: 2 Terms Offered: FaSpSm Students explore several industries and entities and their developed project management methodologies to meet industry-specific needs through traditional approaches and partnerships in various sectors. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 545 Program Management
Units: 2 Terms Offered: FaSpSm Managing and coordinating multiple organizational projects with a focus on project alignment, organizational goals, performance maximization, risk minimization, and program success. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 550 Portfolio Management
Units: 2 Terms Offered: FaSpSm Structured approach to design, build, and manage a project portfolio, focusing on strategic implementation and operational initiatives to create sustainable value. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

PJMT 555 Project Management Capstone
Units: 2 Terms Offered: FaSpSm Utilize skills gained throughout the program to demonstrate the ability to plan and implement a project from conception to completion. Registration Restriction: Open only to Bovard College Project Management students Instruction Mode: Lecture Grading Option: Letter

Urban and Regional Planning
PLUS 600 Environmental Goods in Planning and Development
Units: 4 Terms Offered: Irregular Production, distribution, and variation of environmental goods with attention to amenity concepts, externalities, public goods, consumer behavior; as characterized in economics, political science, sociology, psychology. Instruction Mode: Lecture Grading Option: Letter

PLUS 601 Advanced Planning Theory I
Units: 4 Terms Offered: Fa Value hierarchies, means-ends continuums, and the nature of social action; problems of prediction and choice under conditions of uncertainty; alternative planning strategies. Instruction Mode: Lecture Grading Option: Letter

PLUS 603 Planning and Development Paradigms
Units: 4 Terms Offered: Sp Introduction to historic, prevalent, and alternative paradigms of professional planning and development practice; seminar format and case studies. Instruction Mode: Lecture Grading Option: Letter

PLUS 612 Analysis of Quantitative Data for Planning and Development
Units: 4 Terms Offered: Fa Planning and development case study approach to identifying data needs, acquisition, evaluation, manipulation, analysis, and multimedia presentation. Prerequisite: PPD 525. Instruction Mode: Lecture Grading Option: Letter

PLUS 615 Behavioral Issues in Environmental Design
Units: 4 Terms Offered: Irregular Planning and design of the physical environment in human activities, e.g., user preferences, privacy, territoriality, stress and adaptation, cognitive mapping, lifestyles. Instruction Mode: Lecture Grading Option: Letter

PLUS 623 Politics of Planning and the Urban Environment
Units: 4 Terms Offered: Sp Historic roots of property rights and obligations related to public policy, focus on current issues and discourse. Instruction Mode: Lecture Grading Option: Letter

PLUS 626 Information Systems for Planning and Development
Units: 4, 2 years Terms Offered: Sp Structure, content, and applications of formal information systems in planning and policy making emphasizing social accounts and indicators, censuses, social reporting, and "futures" research. Instruction Mode: Lecture Grading Option: Letter

PLUS 631 Seminar in Physical Planning and Design in Developing Countries
Units: 4 Terms Offered: Irregular Issues in comparative urbanism; planning and design in developing countries: slums and squatters, housing and infrastructure, new towns, land policy, conservation and redevelopment, city design. Instruction Mode: Lecture Grading Option: Letter

PLUS 632 National Urban Policy in Developing Countries
Units: 4 Terms Offered: Irregular The problems of the primate city, the role of intermediate cities, and the implicit spatial impacts of macro and sectoral policies. Instruction Mode: Lecture Grading Option: Letter

PLUS 633 Seminar in Comparative Housing Policy and Urban Planning Programs
Units: 4 Terms Offered: Irregular Comparative examination of urbanization experience in selected areas and cities throughout the world; housing policies, urban planning approaches, financial, administrative, legal, and other techniques. Instruction Mode: Lecture Grading Option: Letter

PLUS 635 Urban Finance
Units: 4 Terms Offered: Irregular The theory of fiscal federalism and municipal finance, with examples from the USA and other countries, public/private partnerships in urban development, and government decentralization. Instruction Mode: Lecture Grading Option: Letter

PLUS 640 International Urban Development
Units: 4 Terms Offered: Irregular Study of urbanization in developing countries; special attention to urban growth, migration, city size, land use, and urban management. Comparative case studies. Instruction Mode: Lecture Grading Option: Letter

PLUS 650 Public Policy and Globalization
Units: 4 Terms Offered: Fa Challenges of public policymaking and administration; conceptual foundations of public policy as well as the practical and political constraints on government action; theories, models, and analytical frameworks both domestic and abraded.

PLUS 651 Applied Research Design and Inquiry
Units: 4 Provide foundation in applied research skills required for advanced practice in policy, management, planning and development; design and use of applied research; development of research designs; constraints on application of research; translation of findings. Prerequisite: PPD 502

PLUS 652 Place, Institutions, and Governance
Units: 4 Concept of place; investigation of the problems and issues confronting metropolitan communities; how the actions of public, private and nonprofit sectors can affect various areas including economics, health, civic life, and the environment; contemporary issues in policy, planning and development; theoretical frameworks for solutions.

PLUS 653 Leading Change and Innovation in Urban Communities
Units: 4 Terms Offered: Fa In-depth study of the role of public, private, and non-profit leaders in effecting change in public policy and planning practice, with special attention to the goals and processes of social innovation in urban communities.

PLUS 660 Economics of a Productive Development - A Public/Private Perspective
Units: 3 Terms Offered: Fa Introduction to the economic and financial aspects of real estate development; tools and methods of financial analysis; public and private perspectives. Registration Restriction: Open only to online Master of Urban
Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 661 Politics and Process of Urban Development
Units: 2 Terms Offered: Fa Introduction of concepts of formal and informal political institutions with a focus on planning and urban issues at the local, state and national levels; theories and methods to understand contemporary planning conflicts. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 662 Planning and Development Case Studies
Units: 1 Terms Offered: Fa Case study project; students analyze a project and develop recommendations for financing and regulatory issues. Registration Restriction: Open only to online Master of Urban Planning (executive) degree students Instruction Mode: Lecture Grading Option: Letter

PLUS 663 Designing Livable Environments I
Units: 1 Terms Offered: Fa Studio setting; students will go through a design charrette, site visit, and develop an understanding of design principles. Registration Restriction: Open only to online Master or urban planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 664 Urban Political Economy and Urban Development
Units: 2 Planning and development within a complex political landscape: budgetary and fiscal politics, metropolitan fragmentation and sub urbanization, immigration, and race, gender, and ethnicity in urban politics; implications for planning and development. Prerequisite: PLUS 661 Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 665 Economics for a Productive City
Units: 3 Terms Offered: Sp Basic concepts of urban and land economics with an emphasis on how planning and development are shaped by the metropolitan economic context; how key theoretical elements inform planning and development questions. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 667 Effective Engagement with Stakeholders
Units: 3 Approaches and challenges to community engagement; different conceptualizations of citizen; micro-scale forum and macro-scale methods; use of media for participation in communities. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 668 Big Data for Planning and Development
Units: 2 Introduction to data and visualization trends in relation to urban planning and development; train leaders to manage teams and leverage data and information technology resources. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 669 Designing Livable Environments II
Units: 1 Studio setting; students will go through a design charrette, site visit, and develop an understanding of design principles Prerequisite: PLUS 663 Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 670 Communicating Data for Planning and Development
Units: 1 Methods and techniques for data visualization; application to planning and development contexts; critical assessment of data presentation approaches and methods. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 671 Leading a Collaborative City
Units: 4 Leadership skills for planning and development; cross-sectoral collaboration, negotiation, and theories of organizational leadership; metrics for performance assessment, project management, and team building in organizations. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 672 Integrating Concepts for Action
Units: 1 Research a planning and development topic; capstone project. Registration Restriction: Open only to online Master of Urban Planning (executive) students Instruction Mode: Lecture Grading Option: Letter

PLUS 680 Advanced Urban and Regional Transportation Planning
Units: 4, 2 years Terms Offered: Fa Social and environmental impacts; incentive structures; alternate travel; investment guidelines; technological change. Instruction Mode: Lecture Grading Option: Letter

PLUS 692 Conspectus Preparation
Units: 4 Terms Offered: FaSpSm Preparation of a case study of a specific planning and/or development project that defines the student's field of study. Instruction Mode: Lecture Grading Option: Letter

PLUS 694a Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694b Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PLUS 694c Planning, Design and Development Professional Dissertation
Units: 2 Credit on acceptance of planning, design and development professional dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Preventive Medicine
PM 498 Summer Institute in Biostatistics
Units: 2 Terms Offered: Sm Provides undergraduate students in the mathematical or biological sciences with training in fundamental concepts in biostatistics and an introduction to various specialized topics in biostatistics, with a focus on research in heart and lung disease. Instruction Mode: Lecture Grading Option: Letter

PM 499 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Preventive Medicine. Instruction Mode: Lecture Grading Option: Letter

PM 500 Foundations of Health Behavior
Units: 4 Terms Offered: Fa Overview of behavioral theory and research in disease prevention and health promotion and in adaptation of chronic disease, including an introduction to measures of outcomes. Prerequisite: admission to PhD in Preventive Medicine. Instruction Mode: Lecture Grading Option: Letter

PM 501 Foundations in Health Education and Promotion
Units: 4 Terms Offered: FaSpSm Overview and application of behavioral theories to the field of health education and promotion. Examines the determinants of health behavior and strategies for change at the individual, group and community level. Instruction Mode: Lecture Grading Option: Letter

PM 502 Foundations of Public Health
Units: 4 Terms Offered: FaSpSm Overview of public health concepts and issues, including population health; ethics; health disparities, determinants, and systems of care; global health; policy; health promotion; environmental health. Instruction Mode: Lecture Grading Option: Letter

PM 503 Practice of Public Health
Units: 4 Terms Offered: FaSpSm Introduction to the application of strategies and tools for practice in public health, including policy advocacy, leadership and management, program planning and evaluation, health communication. Recommended Preparation: PM 502 Instruction Mode: Lecture Grading Option: Letter

PM 504 Quality in Health Care
Units: 4 Terms Offered: FaSpSm Examines quality assessment at different levels of the health care system including health plans, physicians, hospital and integrated system performance. Recommended Preparation:
<table>
<thead>
<tr>
<th>COURSES OF INSTRUCTION</th>
</tr>
</thead>
</table>

PM 502 or PM 508 Instruction Mode: Lecture Grading Option: Letter

PM 505 Training and Curriculum Design in Public Health
Units: 4 Terms Offered: Sm Curriculum writing and training skills applied to public health needs and settings. Covers adult learning theories, assessment of learning needs, curriculum design, training design, conduct and evaluation. Recommended Preparation: PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 506 Overcoming Real World Challenges in Global Health
Units: 4 Terms Offered: Fa Overview of program implementation challenges in global health contexts, including best practices for establishing effective cross-cultural collaborations, working with key leaders, and operationalizing complex interventions. Instruction Mode: Lecture Grading Option: Letter

PM 507 Public Health Services Research Methods
Units: 4 Terms Offered: FaSp A practical examination of methods and data sources used to evaluate public health services and conduct policy research and evaluation within health care delivery systems. Prerequisite: PM 510L and PM 512 Recommended Preparation: PM 502 or PM 508 Instruction Mode: Lecture Grading Option: Letter

PM 508 Health Service Delivery in the U.S.
Units: 4 Terms Offered: FaSpSm Historical development of the American health care system; determinants of health care utilization; role of health care providers; health policy; public health services; and health care finance. Recommended Preparation: PM 502 Instruction Mode: Lecture Grading Option: Letter

PM 509 Comparative Health Care Systems
Units: 4 Terms Offered: Sp Macro-level analysis of the structure and delivery of health care services around the world, including examination and comparison of health system performance. Instruction Mode: Lecture Grading Option: Letter

PM 510L Principles of Biostatistics
Units: 4 Terms Offered: FaSp Concepts of biostatistics; appropriate uses and common misuses of health statistics; practice in the application of statistical procedures; introduction to statistical software including EXCEL, SPSS, nQuery. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 511aL Data Analysis
Units: 4 Terms Offered: FaSp Major parametric and nonparametric statistical tools used in biomedical research, computer packages including SAS. Includes laboratory. Prerequisite: PM 510. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH 511A

PM 511bL Data Analysis
Units: 4 Terms Offered: Sp Statistical methods for analysis of categorical data including dichotomous, ordinal, multinomial and count data, using Stata package. Includes laboratory. Prerequisite: PM 511a Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH 511b

PM 511cL Data Analysis
Units: 4 Terms Offered: FaSpSm Methods and applications for modeling longitudinal, time-to event and multi-level data. Includes laboratory using R package. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 512 Principles of Epidemiology
Units: 4 Terms Offered: FaSp Terminology uses of epidemiology and demography; sources/uses of population data; types of epidemiologic studies; risk assessment; common sources of bias in population studies; principles of screening. Recommended Preparation: algebra. Instruction Mode: Lecture Grading Option: Letter

PM 513 Experimental Designs
Units: 3 Terms Offered: Sp Statistical methods for analysis of various experimental designs. Parametric analysis of variance (ANOVA), repeated measures methods, crossover designs, non-parametric ANOVA. Prerequisite: PM 510L Recommended Preparation: PM 511aL Instruction Mode: Lecture Grading Option: Letter

PM 514 Sexually Transmitted Infections: a Systems Approach
Units: 4 Terms Offered: Sm Exploration of the interplay between systems, policy, advocacy, programs, and research with sexually transmitted infections. Issues such as health literacy, access to care, and evidence-based interventions designed to avert disparities in health, especially sexual health, will be evaluated. Recommended Preparation: PM 501 and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 515 Multivariate Statistics in Health Behavior Research
Units: 4 Terms Offered: Sp Advanced training in multivariate statistical techniques involving general linear modeling, mixed modeling and basic latent variables analysis in health behavior. Prerequisite: PM 511aL and PM 511bL Instruction Mode: Lecture Grading Option: Letter

PM 516a Statistical Problem Solving
Units: 1 Terms Offered: FaSpSm An overview of the tools used by statisticians for solving statistical problems. Prerequisite: PM 510L. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PM 516b Statistical Problem Solving
Units: 1 Terms Offered: FaSpSm An overview of the tools used by statisticians for solving statistical problems. Prerequisite: PM 510L. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

PM 517a Research Methods in Epidemiology
Units: 4 Terms Offered: FaSp Study design, ascertainment of study objects, questionnaire development, various methodological issues in study design and interpretation including bias, measurement error, confounding and effect modification. Prerequisite: PM 510L and PM 511aL and PM 512 Recommended Preparation: PM 518a Instruction Mode: Lecture Grading Option: Letter

PM 517b Research Methods in Epidemiology
Units: 3 Terms Offered: FaSp Overview of epidemiologic research in cancer. Selected cancer sites will be covered to highlight study design and conduct, exposure assessment, data analysis and interpretation. Prerequisite: PM 517a Instruction Mode: Lecture Grading Option: Letter

PM 518a Statistical Methods for Epidemiological Studies I, II
Units: 3 Terms Offered: Sp Principles and methods used in epidemiology for comparing disease frequencies between groups. Restricted to the analysis of binary outcome variables. Recommended Preparation: PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 518b Statistical Methods for Epidemiological Studies I, II
Units: 3 Terms Offered: Sp Statistical methods for binary outcomes by introducing techniques for cross classified risks and rates and regression models for individual data. Prerequisite: PM 518a. Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 519 Moving Toward Health Equity in the United States
Units: 4 Terms Offered: FaSpSm A thoughtful perspective on U.S. health services delivery while introducing students to social inequalities in health. Instruction Mode: Lecture Grading Option: Letter

PM 520L Advanced Statistical Computing
Units: 3 Terms Offered: SpSm Techniques for the solution of statistical problems through intensive computing; iterative techniques, randomization tests, the bootstrap, Monte Carlo methods.. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PM 522a Introduction to the Theory of Statistics
Units: 3 Terms Offered: FaSp Density distribution and hazard functions; normal, chi-square, student’s t and F distributions; and sampling procedures for single factor and multiple factor designs, distributions. Recommended Preparation: working knowledge of multivariable calculus and familiarity with linear algebra. Instruction Mode: Lecture Grading Option: Letter

PM 522b Introduction to the Theory of Statistics
Units: 3 Terms Offered: FaSp Theory of estimation and testing, inference, analysis of variance, theory of regression. Recommended Preparation: college-level calculus and linear algebra. Instruction Mode: Lecture Grading Option: Letter

PM 523 Design of Clinical Studies
Units: 3 Terms Offered: Sp Design, conduct, and interpretation of results of clinical trials; emphasis on principles of designing, structure, size, duration of a trial, and the impact of ethical and practical considerations. Recommended Preparation: PM 511aL Instruction Mode: Lecture Grading Option: Letter

PM 524a Practicum in Health Behavior
Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as...

PM 524b Practicum in Health Behavior
Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in compliance. Recommended Preparation: PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 524c Practicum in Health Behavior
Units: 2 Terms Offered: FaSpSm Practical experience in a variety of field settings to gain a certain type of skill such as curriculum development, media production, and patient education. Practicum in health behavior topics. Recommended Preparation: PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 525 Culture and Health: Global Perspectives
Units: 4 Terms Offered: FaSpSm International variations in health status with a focus on the impact of socioeconomic status, politics, environment, education and gender in etiology of illness, access to health care, progression of disease, and recovery. Instruction Mode: Lecture Grading Option: Letter

PM 526 Communications in Public Health
Units: 4 Terms Offered: Sp Application of communication theories and methods to community health problems. Includes background assessment, program design, evaluation, social marketing, media advocacy, review of major health campaigns. Recommended Preparation: PM 501 Instruction Mode: Lecture Grading Option: Letter

PM 527 Epidemiology of Infectious Disease
Units: 4 Terms Offered: FaSpSm Survey of natural history of infectious disease, modeling, disease control and outbreak investigation, and an overview of the epidemiology of injury. Prerequisite: PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 528 Program Design and Evaluation
Units: 4 Terms Offered: Sp Core concepts, methods and values of public health program planning and evaluation, including community needs assessment, writing objectives, designing health promotion programs, process and outcome evaluation. Recommended Preparation: PM 501 Instruction Mode: Lecture Grading Option: Letter

PM 529 Environmental Health: An Epidemiological Approach
Units: 4 Terms Offered: FaSpSm An overview of environmental health, identifying issues in assessing effects of exposure on health and potential interventions for reducing adverse health risks. Prerequisite: PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 530 Biological Basis of Disease
Units: 4, 2 years Terms Offered: Sp With a physiological overview, differentiates genetic and environmental disease; emphasis on the relationships between lifestyle, behavior, and health. Prerequisite: admission to PhD in Preventive Medicine, Health Behavior Research or basic biology. Instruction Mode: Lecture Grading Option: Letter

PM 532 Genetics in Public Health and Preventive Medicine
Units: 4 Terms Offered: Sm History and philosophy of public health genetics and mechanisms of genetic diseases. Epidemiologic methods used to identify genetic diseases in individuals, families, and populations. Emphasis on prevention and relevant ethical issues. Recommended Preparation: PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 533 Genetic and Molecular Epidemiology
Units: 3 Terms Offered: FaSpSm Genetic principles; design and analysis of family studies; introduction to likelihood estimation; segregation and linkage analysis; biomarkers of exposure, susceptibility, and disease; laboratory methods; susceptibility genes; association and linkage disequilibrium. Recommended Preparation: PM 510L, PM 511L, PM 512, PM 518a, BIOP 543 Instruction Mode: Lecture Grading Option: Letter

PM 534 Statistical Genetics
Units: 3 Terms Offered: Sp Familial aggregation, segregation analysis, linkage analysis, association, regression models, gene-environment interactions, genetic heterogeneity and linkage disequilibrium. Recommended Preparation: PM 518a, PM 522a Instruction Mode: Lecture Grading Option: Letter

PM 536 Program Evaluation and Research
Units: 4 Terms Offered: Fa Overview of concepts, tools, data collection, analysis methods and designs used to evaluate health promotion programs. Examples from substance abuse prevention, family planning and reproductive health programs. Instruction Mode: Lecture Grading Option: Letter

PM 537 Chronic Disease Epidemiology
Units: 4 Terms Offered: FaSpSm Overview of causative factors and demographic distribution of major chronic diseases in the western world. Epidemiologic concepts, methods and research design as applied to chronic disease prevention will be emphasized. Prerequisite: PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 538 Introduction to Biomedical Informatics
Units: 3 Terms Offered: Sm Overview of current topics, enabling technologies, research initiatives, and practical considerations in biomedical informatics. Instruction Mode: Lecture Grading Option: Letter

PM 539 Nutrient-Drug Interactions
Units: 2 Terms Offered: Sm Examines the various ways foods, and the nutrients contained in them, interact with medications used to treat chronic health conditions. Instruction Mode: Lecture Grading Option: Letter

PM 540 Maternal and Child Nutrition: Practice and Policy
Units: 4 Physiological basis for good nutrition during pregnancy and childhood through adolescence. Design, implementation and evaluation of public health nutrition programs and policies serving women and children. Recommended Preparation: PM 530. Instruction Mode: Lecture Grading Option: Letter

PM 541 Obesity, Metabolism and Health
Units: 4 Terms Offered: Fa Overview of the epidemiology of obesity, related health complications, and weight control. Recommended Preparation: PM 530L. Instruction Mode: Lecture Grading Option: Letter

PM 542 Social Network Analysis
Units: 4 Terms Offered: Sp Theory, methods and procedures of network analysis with emphasis on applications to public health programs. Instruction Mode: Lecture Grading Option: Letter

PM 543L Nonparametric Statistics
Units: 3 Terms Offered: Irregular (Enroll in MATH 543) Instruction Mode: Includes laboratory.

PM 544L Multivariate Analysis
Units: 3 Terms Offered: SpSm Exploratory and inferential techniques for multivariate data, Hotelling’s T2, multivariate analysis of variance, classification analysis, principle components, cluster analysis, factor analysis. Involves computer use. Recommended Preparation: PM 510L, PM 522a Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as MATH 544L

PM 545L Introduction to Time Series
Units: 3 Terms Offered: Fa (Enroll in MATH 545) Instruction Mode: Includes laboratory.

PM 546 Biological Threats and Terrorism
Units: 4 Terms Offered: Fa History of bioweapons and bioterrorism; proper surveillance techniques, capacity building for public health and medical communities, and the importance of effective communications. Methods of preparedness, prevention and response are examined. Recommended Preparation: PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 547 Public Health Policy and Politics
Units: 4 Terms Offered: FaSpSm Examination of major policy issues in the U.S. health care delivery system to understand policy options in reforming health care and reducing health care disparities. Recommended Preparation: PM 502 or PM 508 Instruction Mode: Lecture, Discussion Grading Option: Letter

PM 548 Prevention and Public Policy
Units: 2 Terms Offered: FaSpSm Introduction to prevention policy framework; examination of how the application of epidemiology and behavioral aspects of diseases shapes the development of public health policy. Prerequisite: PM 512 Recommended Preparation: PM 502 or PM 508 Instruction Mode: Lecture, Discussion Grading Option: Letter
PM 549 Human Molecular Genetics and Genomics
Units: 4 Terms Offered: FaSpSm Principles of genetics and genomics as they apply to the study of the molecular basis of human diseases. Recommended Preparation: Introductory (undergraduate) genetics class and INTD 561 (Molecular Genetics) Duplicates Credit in former BIOG 543
Instruction Mode: Lecture Grading Option: Letter

PM 550 Sample Surveys
Units: 3 (Enroll in MATH 550)

PM 551 Statistical Methods in Genome-Wide Association Studies
Units: 3 Terms Offered: FaSpSm Provides epidemiologists with an overview of current statistical problems and approaches in the design and analysis of genome-wide association studies. Prerequisite: PM 511a, PM 512; Corequisite: PM 522a.
Instruction Mode: Lecture Grading Option: Letter

PM 552 Statistical Methods in Clinical Trials
Units: 3 Terms Offered: Sp Stochastic failure process; parametric models for survival data; sample size estimation procedures for clinical trials; multivariate regression models for binary outcome and censored survival data; computer programs; multiple failure modes and competing risks. Recommended Preparation: PM 518a, MATH 408
Instruction Mode: Lecture Grading Option: Letter

PM 553 Human Exposure Assessment for Public Health
Units: 4 Terms Offered: FaSpSm Examines of important routes of exposure to toxic materials; how to measure exposure; strengths and weaknesses of different measurement techniques; design of exposure assessment studies. Recommended Preparation: PM 510 or one semester of statistics and background in science or engineering for graduate students not in MPH.
Instruction Mode: Lecture Grading Option: Letter

PM 554 Health Effects of Environmental Contaminants
Units: 4 Terms Offered: FaSpSm Examines the interrelationships among biology, the environment and health, including the fundamental principles of basic toxicology and the underlying environmental health effects. Recommended Preparation: PM 529
Instruction Mode: Lecture Grading Option: Letter

PM 555 Environmental Health, Policy and Practice
Units: 4 Terms Offered: FaSpSm Examination of environmental public health policies/ regulations, the role of science in assessment and policy initiatives, barriers to change, and competing interests that influence policy adoption. Recommended Preparation: PM 529.
Instruction Mode: Lecture Grading Option: Letter

PM 556 Environment and the Brain
Units: 4 Terms Offered: FaSpSm An examination of the effects of environmental exposures on the brain, addressing both the human health and neurobiologic correlates throughout the lifespan.
Instruction Mode: Lecture Grading Option: Letter

PM 557 Global Environmental Health
Units: 4 Terms Offered: Sp Examination of the health effects of global environmental changes, including climate change, globalization, food safety, air pollution, water pollution, and radiation. Instruction Mode: Lecture Grading Option: Letter

PM 558 Environmental Epidemiology: Concepts, Methods, and Practice
Units: 4 Terms Offered: FaSp Examine epidemiologic methods, concepts, and statistical approaches; case-study seminars with structured critiques of current literature on human-environment interactions affecting public health. Recommended Preparation: PM 510 and PM 512.
Instruction Mode: Lecture Grading Option: Letter

PM 560 Statistical Programming With R
Units: 2 Terms Offered: Sm The contents include: R objects, control structure, data input and output, subsetting objects, data manipulation and aggregations, character manipulation, graphics, and writing user-defined functions. Recommended Preparation: Knowledge of one programming language other than R or a half-year experience programming in R.
Instruction Mode: Lecture Grading Option: Letter

PM 561 Health and Sustainable Development in Costa Rica
Units: 4 Terms Offered: Sp Experiential learning in Costa Rica with daily site visits and lectures on migration, climate change, structural violence in indigenous communities and human rights.
Instruction Mode: Lecture Grading Option: Letter

PM 562 Intervention Approaches for Health Promotion and Disease Prevention
Units: 4 Terms Offered: Sp Approaches for modifying health behavior in various settings and within diverse populations. Emphasis on practical considerations necessary to design and implement interventions with demonstrated effectiveness.
Instruction Mode: Lecture Grading Option: Letter

PM 563 Organizing and Mobilizing Communities for Public Health
Units: 4 Terms Offered: FaSpSm Fa Survey of effective community organizing and mobilization efforts in the U.S. and abroad, using participatory, organizational, community empowerment and public-private partnership models.
Instruction Mode: Lecture Grading Option: Letter

PM 564 Public Health Leadership and Management
Units: 4 Terms Offered: FaSpSm Introduction to leadership and management concepts, tools, and practices in the context of domestic and global public health and healthcare delivery settings.
Instruction Mode: Lecture Grading Option: Letter

PM 565 Introduction to Global Health
Units: 4 Terms Offered: Sp Current public health issues and research topics relating to 21st century challenges and threats. Lessons learned and best practices to strengthen public health systems and enhance public health readiness and preparedness.
Instruction Mode: Lecture Grading Option: Letter

PM 566 Introduction to Health Data Science
Units: 4 Terms Offered: Fa An introduction to the toolsets needed to create workable and reproducible datasets, conduct exploratory analysis and visualizations, learn from data, summarize and communicate analytic results.
Instruction Mode: Lecture Grading Option: Letter

PM 567 Public Health Disaster Management and Response
Units: 4 Terms Offered: FaSpSm Definition and chronology of natural and man-made disasters and their effects on the global community. Structure and organization of disaster management systems and the role of humanitarian organizations.
Recommended Preparation: PM 501, PM 512
Instruction Mode: Lecture Grading Option: Letter

PM 568 Ethical Issues in Public Health
Units: 4 Terms Offered: Fa Ethical principles in the distribution of health resources, conduct of global public health research, and implementation of public health initiatives across different nations, cultures, religions.
Recommended Preparation: PM 501
Instruction Mode: Lecture Grading Option: Letter

PM 569 Spatial Statistics
Units: 3 Terms Offered: FaSpSm An introduction to statistical methods for analyzing and interpreting spatially referenced data topics include: geostatistics, areal data, point pattern data and visualization.
Recommended Preparation: PM 511a and familiarity with R
Instruction Mode: Lecture Grading Option: Letter

PM 570 Statistical Methods in Human Genetics
Units: 4 Terms Offered: Sp An introductory course in the statistical methods used in the analysis of human genetic data.
Recommended Preparation: PM 533
Instruction Mode: Lecture Grading Option: Letter

PM 571 Applied Logistic Regression
Units: 3 Terms Offered: Sm An introduction to the logistic regression model, emphasizing practical data analysis techniques. Prerequisite: PM 510; PM 512; and PM 511a or PM 518a.
Instruction Mode: Lecture Grading Option: Letter

PM 572 Medical Physiology I
Units: 4 Terms Offered: Fa (Enroll in INTD 572)

PM 573 Medical Physiology II
Units: 4 Terms Offered: Sp (Enroll in INTD 573)

PM 574 Programming in Modern Statistical Software
Units: 2 Terms Offered: FaSpSm Programming using SAS Software, including branching, sub-setting, PDV, looping, by-group processing, array, combining data functions, ODS, and macros.
Instruction Mode: Lecture Grading Option: Letter

PM 575 Statistical Methods in Environmental Epidemiology
Units: 3 Terms Offered: FaSpSm Study designs, exposure time response, longitudinal, spatial, ecological correlation and mechanistic models, measurement error interactions, measurement error, public policy implications.
Recommended Preparation: PM 511a and PM 511b and PM 518a
Instruction Mode: Lecture Grading Option: Letter

PM 577 Global Health, Law and Human Rights: Concepts and Methods
Units: 1, 2, 3
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 578 Global Health Governance and Diplomacy
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 579 Statistical Analysis of High-Dimensional Data
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 580 Foundations of Child Health
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 581 Quality and Inequality in Health Care: Examination of Health Services
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 582 Epidemiology and Prevention of Pediatric Injuries
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 583 Foundations of Early Childhood Mental Health
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 584 Systems of Care for Children with Special Needs
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 585 Child Health Policy
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 586 Reproductive and Perinatal Epidemiology
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 587 Qualitative Research Methods in Public Health
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 588 The Practice of Epidemiology
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 589 Global Health Policy in Action: Geneva Course
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 591 Machine Learning for the Health Sciences
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 592 Regression Analysis for Health Data Science
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 593 Systems of Care for Children with Special Needs
Units: 4
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: Letter

PM 594a Master's Thesis
Units: 2
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 594b Master's Thesis
Units: 2
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 595 Internship for Curricular Practical Training
Units: 1, 2, 3
Max Units: 0
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 596 Practicum in Public Health
Units: 1
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 597 Capstone in Public Health
Units: 1
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 598 Special Topics
Units: 2, 3, 4
Max Units: 8
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 601 Basic Theory and Strategies in Prevention
Units: 4, 2
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 602 Basic Theory and Strategies for Compliance/Adaptation
Units: 4, 2
Prerequisite: MPH core course work Duplicates Credit in LAW 707
Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 603 Basic Theory and Strategies for Compliance/Adaptation
COURSES OF INSTRUCTION

Recommended Preparation: PM 500, PM 515. Instruction Mode: Lecture Grading Option: Letter

PM 603 Structural Equation Modeling
Units: 4; 2 years. Terms Offered: Fa Factor analytic and structural equation modeling approaches to health behavior research — conceptual, practical and mathematical. Prerequisite: PM 511b. Instruction Mode: Lecture Grading Option: Letter

PM 604 Health Behavior Research Methods
Units: 4 Terms Offered: Sp Health research/evaluation philosophies, approaches, and development of skills for development and critique of health behavior research projects/studies. Recommended Preparation: PM 511a, PM 511b, PM 511c. Instruction Mode: Lecture Grading Option: Letter

PM 605 Systematic Review and Meta-Analysis
Units: 4 Terms Offered: FaSpSm Theoretical basis and practical approaches for identifying, summarizing and interpreting current bodies of scholarly information addressing a defined research question. Prerequisite: PM 510 and PM 512. Instruction Mode: Lecture Grading Option: Letter

PM 606 Health Data Science Practicum
Units: 3 Terms Offered: FaSpSm Analysis of an external medical research or healthcare industry dataset; project/presentation based. Instruction Mode: Lecture Grading Option: Letter

PM 607 Nutrition and Health: Myths, Controversies and Science
Units: 4 Terms Offered: Sp Introduces students to methods in Nutrition Epidemiology in order to develop skills needed to design, analyze and critically evaluate nutrition related health research. Recommended Preparation: PM 510L and PM 512 Instruction Mode: Lecture Grading Option: Letter

PM 608 Environmental and Genetic/Epigenetic Epidemiology
Units: 2 Terms Offered: FaSpSm A forum in which students develop speaking and presentation skills while critically evaluating epidemiological methods in epidemiology research. Recommended Preparation: Graduate students take this course after their first year of coursework. Instruction Mode: Lecture Grading Option: Letter

PM 610 Seminar in Biostatistics and Epidemiology
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Special topics of current interest to provide background for research in biostatistics and epidemiology. Based largely on student dissertation research. Prerequisite: PhD level. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 611 Advanced Topics in Epidemiology
Units: 3 Terms Offered: Irregular Review of current epidemiologic research contained in recent medical literature; emphasis on critique of studies and interpretation of findings. Instruction Mode: Discussion Grading Option: Letter

PM 612a Clinical Translational Research (CTR)
Units: 4 Terms Offered: Fa First of three courses in CTR, a discipline that fosters multidirectional integration of basic, patient-oriented and population-based research with the long-term goal of improving public health. Recommended Preparation: PM 510. Instruction Mode: Lecture Grading Option: Letter

PM 612b Clinical Translational Research (CTR)
Units: 4 Terms Offered: FaSpSm Process of applying for research grants in health behavior research, including dissertation grants. Concepts of the infrastructure of NIH and other grantmaking agencies, the grant review process, tailoring ideas to the grantmaker's priorities, research design, development of training and mentoring plans, and budgeting. Prerequisite: PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 615 Intervention Research Grant Proposal Development
Units: 4 Terms Offered: FaSpSm Process of applying for research grants in health behavior research, including dissertation grants. Concepts of the infrastructure of NIH and other grantmaking agencies, the grant review process, tailoring ideas to the grantmaker's priorities, research design, development of training and mentoring plans, and budgeting. Prerequisite: PM 500. Instruction Mode: Lecture Grading Option: Letter

PM 690a Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. Recommended Preparation: PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690b Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. Recommended Preparation: PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 690c Directed Research in Health Behavior
Units: 2 Terms Offered: FaSpSm Independent research at an advanced level on a problem in the field of Health Behavior. Recommended Preparation: PM 604. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 756 Research Seminar in Health Behavior
Units: 1 Max Units: 6.0 Terms Offered: FaSp Sm Short seminar presentations and discussions on issues accompanying the development of the field of health behavior and implementation of research in this field. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research applicable to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PM 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PM 794c Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Pharmaceutical Economics and Policy

PMEP 509 Research Design
Units: 4 Terms Offered: Fa Introduction to the concept of research design and examples of the variant research methods utilized in the field. Both the conceptual and practical issues of research including development of the research question, selection of appropriate methods, data sources and analytic approaches to address the research question will be addressed. Instruction Mode: Lecture Grading Option: Letter

PMEP 525 Pharmacoeconomics I
Units: 4 Terms Offered: Sp Introduction to pharmacoeconomics with special emphasis on the role of pharmaceuticals and the pharmaceutical industry, insurance, managed care, regulation and pricing. Recommended Preparation: Excel for Windows or Mac Registration Restriction: Except through discussion with the instructor. Duplicates Credit in form: PMEP 538 Instruction Mode: Lecture Grading Option: Letter

PMEP 526 Pharmacoeconomics II
Units: 2 Terms Offered: Sm Continued development of the use of the economic evaluation model, and application of the methods and techniques of economic assessment of pharmaceuticals and other medical technology. Prerequisite:
PMEP 525 Registration Restriction: Open only to graduate students in Pharmaceuticals Economics and Policy Instruction Mode: Lecture Grading Option: Letter

PMEP 527 Pharmacoeconomics III
Units: 4
Terms Offered: Fall
Advanced methods in economic health intervention assessment and pharmacoeconomics with special emphasis on microeconomic modeling and methods for assessing patient and health state preferences. Prerequisite: PMEP 525 and PMEP 526
Recommended Preparation: Excel for Windows Registration Restriction: Open only to graduate students in Pharmacy and Pharmacoeconomics and Policy Instruction Mode: Lecture Grading Option: Letter

PMEP 534 Health Economics I
Units: 4
Terms Offered: Fall
Enroll in ECON 601, 631 and may address empirical methods. Registrants leading to the doctorate. Research leading to the doctorate. Note: Maximum units which may be applied to the degree to be determined by the department. Grading Option: Credit/No Credit

PMEP 535 Behavioral Science and Policy in Healthcare
Units: 4
Terms Offered: Fall
Principles of probability and statistics, including data selection, SAS/Stata programming under Linux, and review of microeconomic analysis to inform health policy. Topics include: patents and innovation, pharmaceutical regulation, hospitability competition, physician practice. Grading Option: Credit

PMEP 537 Behavioral Science and Policy in Healthcare
Units: 4
Terms Offered: Fall
Sp Use of acquired skills to develop and assess uses of behavioral science to affect health policy. Grading Option: Lecture

PMEP 538 Economic Assessment of Medical Care
Units: 4
Terms Offered: Fall
Enroll in ECON 636
Grading Option: Lecture

PMEP 544 Health Economics II
Units: 4
Terms Offered: Fall
Practices for analysis with applications in medical care and the pharmaceutical field. Prerequisite: ECON 500 and ECON 581.
Grading Option: Lecture

PMEP 547 Programming Methods for Empirical Analysis of Health Data
Units: 4
Terms Offered: Fall
Introduction to methods for analysis of large health data sets, including data selection, SAS/STATA programming under Linux, and review of claims and survey data. Instruction Mode: Lecture Grading Option: Letter

PMEP 551 Introduction to Health Econometrics
Units: 4
Terms Offered: Fall
Statistical analysis and regression modeling for health economics and policy research. Topics include: statistical inference, principles of probability and statistics, regression models, and causal inference.
Grading Option: Credit

PMEP 552 Advanced Health Econometrics I
Units: 4
Terms Offered: Fall
The expansion of students’ knowledge of econometric methods emphasizing, but not limited to, applications to health economics. Serves as a prelude to the advanced study of microeconomics. Prerequisite: PMEP 551 or PPD 585
Grading Option: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 553 Advanced Health Econometrics II
Units: 4
Terms Offered: Spring
Covers the transition to independent producers of high-quality empirical research on health and health care. Peer-reviewed research will serve as case studies for class discussion and may address empirical methods. Prerequisite: PMEP 552
Grading Option: Lecture

PMEP 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: Fall, Spring, Summer Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA.
Grading Option: Lecture/No Credit

PMEP 596 Internship for Curricular Practical Training
Units: 1, 2, 3
Max Units: 03
Terms Offered: Fall, Spring, Summer Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA.
Grading Option: Lecture/No Credit

PMEP 688 Seminar in Pharmaceutical Economics and Policy
Units: 1 Max Units: 4.0
Terms Offered: Fall and Spring Current research in pharmaceutical economics and policy presented by outstanding scholars, faculty and students.
Grading Option: Lecture/No Credit

PMEP 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department.
Grading Option: Lecture/No Credit

PMEP 794a Doctoral Dissertation
Units: 2
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794b Doctoral Dissertation
Units: 2
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PMEP 794c Doctoral Dissertation
Units: 2
Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Political Science and International Relations

POIR 507 Gender and International Relations
Units: 4
An examination of gender and culture in world society. Feminist perspectives on and critiques of various approaches to international relations, theories. MA and other students outside of POIR must obtain faculty permission to register for the course.
Grading Option: Open only to doctoral students
Duplicates Credit in former IR 507
Instruction Mode: Lecture Grading Option: Letter

POIR 509 Culture, Gender and Global Society
Units: 4
Cultural and gendered responses to economic globalization; topics include culture and security, identity politics, clashes of and accommodations among civilizations, modernity, post-modernity and world society. MA and other students outside of POIR must obtain faculty permission to register in the course.
Grading Option: Open only to doctoral students
Duplicates Credit in former IR 510
Instruction Mode: Lecture Grading Option: Letter

POIR 510 Gender, War and Peace
Units: 2
Examination of the extent to which conflict and its resolution have depended on stereotypically gendered associations of men with war and women with peace. MA and other students outside of POIR must obtain faculty permission to register for the course.
Grading Option: Open only to doctoral students
Duplicates Credit in former IR 510
Instruction Mode: Lecture Grading Option: Letter

POIR 516 Advanced Research Methods: Text, Talk and Context
Units: 4
Text and discourse analysis methods and strategies. Themes include the roles of ideas, identities, policies and interests in various institutional contexts. MA and other students outside of POIR must obtain faculty permission to register for the course.
Grading Option: Open only to doctoral students
Duplicates Credit in former IR 516
Instruction Mode: Lecture Grading Option: Letter

POIR 517 International Policy Analysis
Units: 4
Game theory and other methodologies applied to the study of international relations. Topics include global and regional public goods, collective action, externalities, treaty information, market failures. MA and other students outside of POIR must obtain faculty permission to register for the course.
Grading Option: Open only to doctoral students
Duplicates Credit in former IR 517
Instruction Mode: Lecture Grading Option: Letter

POIR 518 Historical Memory and Public Diplomacy
Units: 4
Analyzes national identity formation and justification of foreign policy goals,
particularly its impact on international relations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 518 Instruction Mode: Lecture Grading Option: Letter

POIR 519 Field Research Methods in Political Science and International Relations
Units: 4 Methods of social science field research in political science and international relations. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 519 Instruction Mode: Lecture Grading Option: Letter

POIR 520 Formulating US Foreign Policy: How Washington Works
Units: 4 Analyzes U.S. foreign policy, with emphasis on numerous inputs to the decision-making process, from media to congressional and executive branch to organizational processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 520 Instruction Mode: Lecture Grading Option: Letter

POIR 521 Foreign Policy Analysis
Units: 4 Survey of principal theoretical and empirical approaches to foreign policy analysis; such as bureaucratic politics, game theory, formal theory, rational choice theory, and other topics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 521 Instruction Mode: Lecture Grading Option: Letter

POIR 525 State and Society in International Relations
Units: 4 Discusses the challenges to nation-states and world order presented by trans-border cultural flows, new technologies, and changing patterns of political participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 525 Instruction Mode: Lecture Grading Option: Letter

POIR 526 Migration and Diaspora in International Politics
Units: 4 Examines issues of migration, the relationship between citizen and state, economic factors triggering emigration/immigration, transnationalism, and explores the phenomenon of diasporas. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 526 Instruction Mode: Lecture Grading Option: Letter

POIR 531 Strategy and Arms Control
Units: 4 Impact of nuclear weapons on U.S. and U.S.S.R. postwar military policies and strategies; evolution of postwar defense postures; development of superpower arms control since 1945. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 531 Instruction Mode: Lecture Grading Option: Letter

POIR 534 East Asian Security Issues
Units: 4 Security politics of China, Japan, ASEAN states, and Southwest Pacific nations; their strategic relations with the superpowers; regional security initiatives: nuclear-free zone politics, ZOPPAN, and indigenous military capacities. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 534 Instruction Mode: Lecture Grading Option: Letter

POIR 535 North African and Middle Eastern Politics
Units: 4 The politics of the Middle East and North Africa (MENA) including nation-building; mobilization of human and natural resources; political recruitment, integration, socialization, and conflict. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 535 Instruction Mode: Lecture Grading Option: Letter

POIR 539 Conflict Processes
Units: 4 Seminar in international conflict, crisis and war. General perspectives on factors that bring about war or peace. Focus on ethno-politics and conflict processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 539 Instruction Mode: Lecture Grading Option: Letter

POIR 540 Law and Public Policy
Units: 4 The study of law in political science; law and politics in organized societies; law as a policy science; legal and political institutions; administration of justice; political forces influencing legal change. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 540 Instruction Mode: Lecture Grading Option: Letter

POIR 541 Politics of the World Economy
Units: 4 Survey of approaches to international political economy. Intellectual roots; the management of collective goods; North-South relations are examined. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 541 Instruction Mode: Lecture Grading Option: Letter

POIR 542 Foreign Economic Policies of Industrial Capitalist States
Units: 4 Seminar comparing the political economy and economic policies of countries; evaluation of alternative research methods and theories. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 542 Instruction Mode: Lecture Grading Option: Letter

POIR 543 Policies of International Monetary and Trade Relations
Units: 4 Political analysis of international monetary and trade relations; emphasis on interactions among industrialized nations. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 543 Instruction Mode: Lecture Grading Option: Letter

POIR 544 Religion, Politics, and Conflict
Units: 4 How religion has emerged as a powerful force in politics. Conflict resolution, fundamentalism, terrorism, war, American foreign policy and global civil society. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 544 Instruction Mode: Lecture Grading Option: Letter

POIR 545 Critical Issues in Politics and Policy
Units: 4 Selected topics in political science and policy; focus on current issues shaping the U.S. and the world. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 545 Instruction Mode: Lecture Grading Option: Letter

POIR 546 Environmental Policy
Units: 4 Issues and theories involved in the formulation, implementation, and effectiveness of different environmental policies. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 546 Instruction Mode: Lecture Grading Option: Letter

POIR 547 Political Economy of Global Space and Environment
Units: 4 Regimes in an anarchic world will be examined, particularly global spaces and resources in political economy. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 547 Instruction Mode: Lecture Grading Option: Letter

POIR 548 The International Political Economy of Development
Units: 4 The political aspects of economic growth, efficiency and distribution are explored for underdeveloped nations in a political science and international relations context. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 548 Instruction Mode: Lecture Grading Option: Letter

POIR 550 Economic Bargaining Theory and Practice
Units: 4 Development of analytical skills and strategies for negotiating economic and political problems, through study of recent cases, bilateral bargaining, and multilateral bargaining. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 550 Instruction Mode: Lecture Grading Option: Letter
former IR 550 Instruction Mode: Lecture
Grading Option: Letter

POIR 551 International Political Economy of the Pacific Rim
Units: 4 Terms Offered: Sp Political economy of the Pacific Rim; trade, investment and development strategies. The role of Japan's increasing economic power and that of the changing U.S.–Japan relations and their implications to the rest of the Pacific Rim region. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 551 Instruction Mode: Lecture
Grading Option: Letter

POIR 555 Women in Global Perspective Units: 4 (Enroll in SWMS 554)

POIR 555 Democracy and Democratization in Comparative Perspective
Units: 4 Seminar generates and tests theories of democratization. Readings will focus on Europe, Latin America, Soviet Eurasia emphasizing core theoretical and methodological aspects. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 555 Instruction Mode: Lecture
Grading Option: Letter

POIR 556 Latin America and U.S. Foreign Policy
Units: 4 Latin American challenges to U.S. policymakers; U.S. success in achieving its goals; alternative explanations of U.S. behavior. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 556 Instruction Mode: Lecture
Grading Option: Letter

POIR 557 Africa and U.S. Foreign Policy
Units: 4 Research problems on international issues arising from the emergence of Africa. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 557 Instruction Mode: Lecture
Grading Option: Letter

POIR 560 Feminist Theory
Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 560)

POIR 561 Japanese Foreign Policy and International Relations of East and Southeast Asia
Units: 4 Research problems in political, economic, and security issues in East and Southeast Asia, with special emphasis on the role of Japan. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 561 Instruction Mode: Lecture
Grading Option: Letter

POIR 563 Chinese Foreign Policy
Units: 4 Research problems in political, economic, military, and ideological issues. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 563 Instruction Mode: Lecture
Grading Option: Letter

POIR 581 International Relations of the Middle East
Units: 4 Examination of salient issues in regional politics such as colonialism, nationalism, identity, religion, development and war. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former IR 581 Instruction Mode: Lecture
Grading Option: Letter

POIR 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Grading Option: Graded CR/NC

POIR 593 Practicum in Teaching Politics and International Relations
Units: 2 Terms Offered: FaPractical principles for the long-term development of effective teaching within political science and international relations disciplines. Intended for teaching assistants in Dornsife College. Registration Restriction: Open only to doctoral students. Grading Option: Graded CR/NC

POIR 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program. Registration Restriction: Open only to doctoral students in POIR Instruction Mode: Lecture
Grading Option: Credit/No Credit

POIR 599 Special Topics
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Subjects in one or more fields in political science.

POIR 600 Political Theory
Units: 4 Survey of literature; examination of approaches, concepts, and issues in the field of political theory. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 500.

POIR 610 Research Design
Units: 4 The course will cover the design of experimental and observational research. We will examine both quantitative and qualitative approaches to social science research. Registration Restriction: Open only to doctoral students.

POIR 611 Introduction to Regression Analysis
Units: 4 The course will introduce students to regression analysis and its application to social science research. Registration Restriction: Open only to doctoral students.

POIR 612 Qualitative Research Design
Units: 4 Terms Offered: FaSp Design multiple research approaches using qualitative evidence to evaluate the observable implications of theory. Learn deductive, constructivist, critical, external, and conclusion validity. Recommended Preparation: POIR 610 and POIR 611

POIR 614 Experimental Political Science
Units: 4 Terms Offered: FaSpSm Introduction to experimental techniques and applications of experiments in political science. Addresses both the advantages and disadvantages of experiments in political science research. Registration Restriction: Open only to doctoral students.

POIR 615 Formal Models of Politics
Units: 4 Terms Offered: FaSp Introduces basics of game theory and surveys foundational models of American, comparative, and international politics. Recommended Preparation: POIR 610 and POIR 611 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture
Grading Option: Letter

POIR 616 Advanced Quantitative Methods
Units: 4 Terms Offered: FaSp Bayesian inference in the social sciences and causal inference literature, including experiments, matching, difference-in-difference and regression discontinuity. Prerequisite: POIR 617 Registration Restriction: Open only to graduate students Instruction Mode: Lecture
Grading Option: Letter

POIR 617 Maximum Likelihood Estimation
Units: 4 Maximum likelihood estimation of binary choice models, duration models, count models, and other models in political science, international relations, and social sciences. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 600 Instruction Mode: Lecture
Grading Option: Letter

POIR 618 Problems of American Politics
Units: 4 Theoretical and methodological problems in American politics with emphasis on emerging research paradigms. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 618 Instruction Mode: Lecture
Grading Option: Letter

POIR 619 Supreme Court Politics
Units: 4 Role of the Supreme Court in American political institutions. Influences on judicial decision making; appointment and decision making processes; scope of judicial power. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 619 Instruction Mode: Lecture
Grading Option: Letter

POIR 620 American Politics and Policy Processes
Units: 4 Survey of literature; examination of approaches, concepts, and issues in
the field of American politics and policy processes. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 510.

POIR 621 American Politics Field Seminar Part II
Units: 4 Terms Offered: FaSp A theoretical and empirical overview of the American politics field. Theoretical topics include behavioralism, rational choice, political psychology; empirical topics include causality. Registration Restriction: Open only to doctoral students.

POIR 622 Political Attitudes and Behavior
Units: 4 Determinants, nature, and consequences of political attitudes and behavior exploring psychological-sociological models, political socialization and learning, and factors affecting trends in attitudes and behavior. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 622 Instruction Mode: Lecture Grading Option: Letter

POIR 623 Public Law
Units: 4 Problems and research in American constitutional and administrative law and in modern jurisprudence. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 621 Instruction Mode: Lecture Grading Option: Letter

POIR 624 American Constitutional Law and Theory
Units: 4 Contemporary debates and research on the nature of constitutional interpretation, separation of powers, federalism, civil and political rights and liberties. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 624 Instruction Mode: Lecture Grading Option: Letter

POIR 625 Political Parties
Units: 4 Parties and organizations in the political system; formal and informal organization and roles; party systems; partisanship; and electoral rules. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 610 Instruction Mode: Lecture Grading Option: Letter

POIR 626 Executive and Legislative Institutions
Units: 4 Theory and empirical analysis as it relates to the study of political institutions. Legislative politics, executive branch politics, and legislative-executive relations and bargaining. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 611 Instruction Mode: Lecture Grading Option: Letter

POIR 627 Urban Politics
Units: 4 Problems of government and politics in urban, county, and metropolitan areas. Local and community politics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 612 Instruction Mode: Lecture Grading Option: Letter

POIR 630 European Politics
Units: 4 Selected research topics in comparative European politics; political behavior, parties, legislative and executive institutions and processes. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 630 Instruction Mode: Lecture Grading Option: Letter

POIR 632 Latin American Politics
Units: 4 Comparative analysis of the political structure and institutions of Latin America; participation and alienation; democracies and dictatorships; political science and comparative politics. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 632 Instruction Mode: Lecture Grading Option: Letter

POIR 633 East Asian Politics
Units: 4 Comparative politics of East Asia; modernization; the roots of political thought and behavior; peripheral area relationships; modern political processes and institutions. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 633 Instruction Mode: Lecture Grading Option: Letter

POIR 636 Seminar in African Politics
Units: 4 Governmental process in the People's Republic of China including leadership, ideology, political institutions, behavior, and participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 636 Instruction Mode: Lecture Grading Option: Letter

POIR 637 Chinese Politics
Units: 4 Comparative politics of East Asia; modernization; the roots of political thought and behavior; peripheral area relationships; modern political processes and institutions. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students Duplicates Credit in former POSC 637 Instruction Mode: Lecture Grading Option: Letter

POIR 640 Comparative Politics
Units: 4 Governmental process in the People's Republic of China including leadership, ideology, political institutions, behavior, and participation. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students. Duplicates Credit in former POSC 520.

POIR 641 Comparative Judicial Policies, Processes, and Behavior
Units: 4 Cross-national and intranational comparative analysis of judicial policies, institutions, and processes; legal and judicial elites. MA and other students outside of POIR must obtain faculty permission to register for the course. Registration Restriction: Open only to doctoral students. Duplicates Credit in former IR 501.

POIR 650 Comparative Politics of East and Southeast Asia
Units: 4 Terms Offered: FaSp Comparison of significant political phenomena between the countries in the East and Southeast Asia region and the long-term consequences of such comparisons. Registration Restriction: Open only to doctoral students.

POIR 661 International Relations Theory: Advanced
Units: 4 Examines the specialized nomenclature of international relations and the varied interpretations of basic concepts of international theory; conceptual analysis and criticism. Registration Restriction: Open only to doctoral students.

POIR 662 Governance in International Relations
Units: 4 Rules and rule structures in international relations; major theoretical
portuguese

PORT 120 Portuguese I
Units: 4
Lecture
Terms Offered: FaSp
Description: This course is primarily aimed at students with no proficiency in Portuguese. It introduces Portuguese language, culture, society, and contemporary issues.

PORT 150 Portuguese II
Units: 4
Lecture
Terms Offered: FaSp
Description: This course continues the study of Portuguese and introduces advanced topics such as grammar, conversation, and writing.

PORT 175 Accelerated Portuguese I
Units: 4
Lecture
Terms Offered: FaSp
Description: This course is designed for students with a background in Spanish or another Romance language. It is structured around a proficiency-oriented approach and includes reading, writing, and conversation.

PORT 220 Portuguese III
Units: 4
Lecture
Terms Offered: FaSp
Description: This course is designed for students with a background in either Spanish or another Romance language. It includes intensive reading, writing, and discussion.

PORT 225 Accelerated Portuguese II
Units: 4
Lecture
Terms Offered: FaSp
Description: This course is designed for students with a background in either Spanish or another Romance language. It includes the rapid acquisition of Portuguese through intensive exposure.

PORT 250g Visions of Brazil
Units: 4
Lecture
Terms Offered: FaSp
Description: This course explores Brazilian society through the lenses of its cultural, social, and political landscapes.

PORT 290 Special Problems
Units: 1-3
Lecture
Terms Offered: FaSp
Description: This course is designed for students to explore specific topics in Portuguese language and culture.

PORT 300 Introduction to Social and Literary Studies
Units: 4
Lecture
Terms Offered: FaSp
Description: This course introduces students to the social and literary aspects of Brazil.

PORT 316 Portuguese for Business and the Professions
Units: 4
Lecture
Terms Offered: FaSp
Description: This course provides training in Portuguese for business and professional contexts.

PORT 342 Brazilian Cinema
Units: 4
Lecture
Terms Offered: FaSp
Description: This course explores Brazilian cinema through a historical and critical approach.

PORT 394a Doctoral Dissertation
Units: 2
Lecture
Terms Offered: CR/NC
Description: This course is designed for doctoral students to conduct research and write a dissertation.

PORT 394b Doctoral Dissertation
Units: 2
Lecture
Terms Offered: CR/NC
Description: This course is designed for doctoral students to conduct research and write a dissertation.

PORT 394c Doctoral Dissertation
Units: 2
Lecture
Terms Offered: CR/NC
Description: This course is designed for doctoral students to conduct research and write a dissertation.

PORT 394e Doctoral Dissertation
Units: 2
Lecture
Terms Offered: CR/NC
Description: This course is designed for doctoral students to conduct research and write a dissertation.

PORT 394d Doctoral Dissertation
Units: 2
Lecture
Terms Offered: CR/NC
Description: This course is designed for doctoral students to conduct research and write a dissertation.

PORT 390 Special Problems
Units: 1-3
Lecture
Terms Offered: CR/NC
Description: This course is designed for students to explore specific problems in Portuguese language and culture.

Political Science

POSC 100g Theory and Practice of American Democracy
Units: 4
Lecture
Terms Offered: FaSp
Description: This course explores the theoretical and practical aspects of American democracy.

POSC 110g Ideology and Political Conflict
Units: 4
Lecture
Terms Offered: FaSp
Description: This course examines political ideologies and their impacts on political conflict and social justice.

POSC 120 Comparative Politics
Units: 4
Lecture
Terms Offered: FaSp
Description: This course compares political systems and their effects on society and politics.

POSC 200 Political Psychology
Units: 4
Lecture
Terms Offered: FaSp
Description: This course explores the psychology of political behavior, decision-making, and public opinion.

POSC 240 Political Psychology
Units: 4
Lecture
Terms Offered: FaSp
Description: This course examines political behavior and decision-making from a psychological perspective.

POSC 320 Introduction to Brazilian Literature
Units: 4
Lecture
Terms Offered: FaSp
Description: This course introduces students to Brazilian literature and culture, focusing on how Brazil has been understood and represented through spatial categories.
### COURSES OF INSTRUCTION

**Mode:** Lecture, Discussion

**POS6 130g Law, Politics and Public Policy**

**Units:** 4

- Interaction between law and politics; overview of the American legal system; value conflicts and public policy questions which arise within it. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues

Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

POS 391 Honors I: Undergraduate Seminar
Units: 4 Terms Offered: Fa Selected topics in designated area of political science. Discussion of readings and presentation of papers. Instruction Mode: Lecture Grading Option: Letter

POS 392 Honors II: Undergraduate Thesis
Units: 4 Terms Offered: Sp Thesis written under supervision, based on research begun in Honors I. Instruction Mode: Lecture Grading Option: Letter

POS 395 Directed Governmental and Political Leadership Internship
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Intensive experience in governmental and political offices. Minimum time requirement; evaluation by office and intern report required. Permission of the Director of the Institute of Politics and Government required. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-396

POS 398L Trial Advocacy: Theory and Practice
Units: 1, 2, 4 Max Units: 8.0 Terms Offered: FaSp Course covering substantive law, evidence, public speaking, and use of societal mores in courtroom advocacy. Registration Restriction: Open only to Mock Trial team members. Instruction Mode: Lecture Grading Option: Letter

POS 410x Political Fellows Seminars
Units: 2, 4, 6, 8 Max Units: 0.8 Terms Offered: FaSp Political practitioners will teach on topics such as political strategy, campaigns and speechwriting. Credit Restriction: Not available for Political Science major credit Instruction Mode: Lecture Grading Option: Credit/No Credit

POS 418 Environmental Sustainability and Public Participation
Units: 4 Examines civic participation in international, national, and local environmental politics and sustainability efforts. Instruction Mode: Lecture Grading Option: Letter

POS 420 Practicum in the American Political Process
Units: 4 Max Units: 12 Terms Offered: FaSpSm Fieldwork in governmental institutions and processes. Instruction Mode: Lecture Grading Option: Letter

POS 421 Ethnic Politics
Units: 4 Analysis of the political behavior and roles of ethnic and racial groups in the American political system; public policy issues and patterns of political action are examined. Instruction Mode: Lecture Grading Option: Letter

POS 422 Political Attitudes and Behavior
Units: 4 The citizen's political world; political socialization, opinion formation and dissemination; development of political cultures and subcultures; political mobilization; personality and politics. Instruction Mode: Lecture Grading Option: Letter

POS 423 Presidents and the Presidency
Units: 4 Presidential coalition; sources of presidential power; recent leadership styles; decision-making within the presidency. Instruction Mode: Lecture Grading Option: Letter

POS 424m Political Participation and American Diversity
Units: 4 Terms Offered: Fa Examines how diverse groups in the U.S. interact with the American political system. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-424

POS 425 Legislative Process
Units: 4 Individual behavior and decision-making within legislatures; changing executive-legislative functions; legislative functions; redefining political systems
in comparative perspective. Instruction Mode: Lecture Grading Option: Letter

POSC 426 The United States Supreme Court
Units: 4 Role of the court in American politics; overview of major decisions; the politics of appointment, the process of decision-making; impact of judicial decisions. Recommended Preparation: POSC 130. Instruction Mode: Lecture Grading Option: Letter

POSC 427 Black Politics in the American Political System
Units: 4 The effects of the organization of the American political system and its operations on blacks and other minorities. Instruction Mode: Lecture Grading Option: Letter

POSC 428 Latino Politics
Units: 4 Terms Offered: Fa Analysis of the historic and contemporary roles of Latinos in the American political system; patterns of political participation and representation are examined. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-428

POSC 430 Political Economy of Mexico
Units: 4 Examination of contemporary Mexico: the role of the state in the Mexican economy; development of the government party and opposition groups. Instruction Mode: Lecture Grading Option: Letter

POSC 431 Political Economy of Central America
Units: 4 Focus on economic, social, and political structures and processes in the region and in specific countries, especially Guatemala, El Salvador, and Nicaragua. Instruction Mode: Lecture Grading Option: Letter

POSC 432 Politics of Local Criminal Justice
Units: 4 Roles and behavior of major legal and political participants in the criminal justice system including the police, the legal profession, judges, and the public. Instruction Mode: Lecture Grading Option: Letter

POSC 435 Politics and the Economy
Units: 4 Major techniques, politics, and values involved in the allocation of social and economic resources. Includes such topics as determination of priorities in budgetary processes, economic regulation, control of environmental change, and policies for science. Instruction Mode: Lecture Grading Option: Letter

POSC 436 Environmental Politics
Units: 4 The political realities of selected environmental issues; resolving and implementing social priorities; interests, attitudes, strategies, and tactics of pressure groups; institutional biases and opportunities. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENST-436

POSC 437 Mass Media and Politics
Units: 4 Analysis of political content of mass media. Audience response to alternative sources of political information. Consideration of the institutional and economic as well as political aspects of the mass media. Instruction Mode: Lecture Grading Option: Letter

POSC 439 Critical Issues in American Politics
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of critical issues of particular interest in the field of American politics. Instruction Mode: Lecture Grading Option: Letter

POSC 440 Comparative Law and the Judicial Process
Units: 4 Analysis of courts in comparative perspective; judicial decision-making and development of public policy through the judicial process; theories of law and jurisprudence. Recommended Preparation: POSC 340. Instruction Mode: Lecture Grading Option: Letter

POSC 441m Cultural Diversity and the Law
Units: 4 Jurisprudential approach to the study of cultural differences. Consideration of circumstances under which law should accommodate cultural diversity in the United States and abroad. Instruction Mode: Lecture Grading Option: Letter

POSC 442m The Politics of Human Differences: Diversity and Discrimination
Units: 4 A comparative perspective on social and cultural forces that affect American laws and policies concerning discrimination on the basis of race or ethnicity, gender, sexual orientation, age, and disability. Instruction Mode: Lecture Grading Option: Letter

Units: 4 Analysis of the depiction of law in film; use of film to explore topics in jurisprudence and the politics of law and courts. Recommended Preparation: POSC 130. Instruction Mode: Lecture Grading Option: Letter

POSC 444 Civil and Political Rights and Liberties
Units: 4 An examination of debates and controversies surrounding the nature and scope of civil rights and civil liberties. Recommended Preparation: POSC 340 or POSC 440. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LAW-444

POSC 446 Global Bioethics and Human Rights
Units: 4 Terms Offered: FaSp Overview of historical and contemporary issues in global bioethics law and policy. Instruction Mode: Lecture Grading Option: Letter

POSC 447 Global Justice: Interdisciplinary Perspectives
Units: 4 Terms Offered: FaSp Classical and contemporary theories of justice, from an interdisciplinary perspective. Instruction Mode: Lecture Grading Option: Letter

POSC 448a The Politics of Peace
Units: 4 Issues of social justice, large-scale social change, high technology, impacts on human survival, and uses of national and international institutions. Human rights. Instruction Mode: Lecture Grading Option: Letter

POSC 448b The Politics of Peace
Units: 4 Issues of social justice, large-scale social change, high technology, impacts on human survival, and uses of national and international institutions. Arms limitation, control, and disarmament. Instruction Mode: Lecture Grading Option: Letter

POSC 449 Critical Issues in Comparative Politics
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of critical issues of particular interest in the field of comparative politics. Instruction Mode: Lecture Grading Option: Letter

POSC 450 Political Development
Units: 4 Choice of models in nation-building; party and other means of mass mobilization; elite recruitment and differentiation; peculiarities of cultures and subcultures; integration of ethnic and other minorities; political socialization and secularization; legitimation. Instruction Mode: Lecture Grading Option: Letter

POSC 451 Politics of Resources and Development
Units: 4 Comparison of relationships between rich and poor countries involving political and economic resources and prospects for development; impact on industrialized states; interdependence; new international economic order. Instruction Mode: Lecture Grading Option: Letter

POSC 452 Critical Issues in Law and Public Policy
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of special topics in the field of law and public policy. Instruction Mode: Lecture Grading Option: Letter

POSC 453 Political Change in Asia
Units: 4 Modernization and political development in China and Japan; Asia's economic "miracles" (Taiwan, Japan, Korea, etc.); nationalism and communist movements in East and Southeast Asia. Instruction Mode: Lecture Grading Option: Letter

POSC 456 Women in International Development
Units: 4 How various developmental theories analyze the role of women as producers and how Third World women are increasing their role in development. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-456

POSC 463 European Politics
Units: 4 Institutions, cultures and politics of western Europe, eastern Europe and Russia; internationalization; historical and contemporary political, economic, and social change. Instruction Mode: Lecture Grading Option: Letter

POSC 464 Politics of Russia and Eastern Europe
Units: 4 Culture, society, and politics in Russia and in Eastern Europe. Contemporary political institutions and processes. Instruction Mode: Lecture Grading Option: Letter

POSC 465 Critical Issues in Comparative Politics
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of critical issues of particular interest in the field of comparative politics. Instruction Mode: Lecture Grading Option: Letter

POSC 475 The Future of California
Units: 4 (Enroll in MDA 475)

POSC 476 Contemporary Political Thought
Units: 4 20th century political philosophy dealing with major movements in psychological, existential, socialist, and
nationalist thought as they bear upon the crisis of political authority in our time. Instruction Mode: Lecture Grading Option: Letter

POSC 479 Critical Issues in Political Thought
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Intensive examination of critical issues of particular interest in the field of political thought. Instruction Mode: Lecture Grading Option: Letter

POSC 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

POSC 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

Policy, Planning, and Development

PPD 100m Los Angeles, The Enduring Pueblo
Units: 4 Terms Offered: FaSp Gateway to the minor in Planning and Development. Ethnic history of Los Angeles, emphasis placed on architecture, planning, and development. Multiplicity of cross-connections shaped by race, ethnicity, religion, gender, and sexual orientation. Duplicates Credit in former PLDV 100. Instruction Mode: Lecture Grading Option: Letter

PPD 225 Public Policy and Management

PPD 227 Urban Planning and Development
Units: 4 TA Terms Offered: FaSp Gateway to BS, Public Policy, Management and Planning in minor in Planning and Development. City building and development process; who plans, politics of planning and development; major topics include land use, fiscal policy, transportation, sustainability, and economic development. Instruction Mode: Lecture Grading Option: Letter

PPD 240g Citizenship and Public Ethics
Units: 4 Terms Offered: Fa, Sp Review of legal and ethical traditions of citizenship with emphasis on the latter; consideration of implications for current practice of public policy-making and management. Satisfies New General Education in Category C: Social Analysis Duplicates Credit in former PPMT 240. Instruction Mode: Lecture Grading Option: Letter

PPD 245g The Urban Context for Policy and Planning
Units: 4 Terms Offered: Fa The urban context for planning and policy decisions. Socioeconomic, physical, and spatial structure of cities; and the underlying demographic, economic, and social processes that drive their ongoing transformation. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

PPD 250m Cities in the Developing World
Units: 4 Terms Offered: FaSp The transition from traditional to modern cities in the developing world. Primacy and dualism; comparative urbanism as an expression of cultural variation; contrast in Western cities. Instruction Mode: Lecture Grading Option: Letter

PPD 300 Social Justice Issues in Public Policy and Urban Planning
Units: 4 Terms Offered: FaSp Social justice issues through the lens of public policy and urban planning with main focus on Los Angeles; critical thinking skills about the fields and their relevance to social justice Registration Restriction: Open only to BS, Public Policy and BS, Urban Studies and Planning students Instruction Mode: Lecture Grading Option: Letter

PPD 301 PPD Practices: Internship Seminar
Units: 2 Terms Offered: FaSpSm Policy, planning, and development skills for practice; internship seminar; leadership, group dynamics and presentation skills; application of management; organizational diversity; reflection on experiences. Duplicates Credit in the former PPD 401. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 303 Statistics for Policy, Planning, and Development
Units: 4 Terms Offered: FaSpSm Statistical applications applied to the real world; techniques including probability, sampling; hypothesis formation and testing; correlation, and linear regression. Prerequisite: MATH 117g Duplicates Credit in PPD 404 Instruction Mode: Lecture Grading Option: Letter

PPD 306 Visual Methods in Policy, Management, Planning and Development
Units: 4 Terms Offered: FaSp Introduction to graphic design, photodocumentation, and geographic information systems as employed in planning, policy, and development. Visual explanations. Computer and by-hand applications. Duplicates Credit in former PLDV 410. Instruction Mode: Lecture Grading Option: Letter

PPD 313 Finance of the Public Sector
Units: 4 Terms Offered: FaSp Justifications for and effects of government policies; tax and spending sides of government budgets; public goods; externalities; social insurance; redistribution and welfare; tax policy. Prerequisite: ECON 203. Duplicates Credit in former PPMT 313. Instruction Mode: Lecture Grading Option: Letter

PPD 314 Public Policy and Law
Units: 4 Terms Offered: Fa Institutional foundations and analysis of public policy issues; policy formulation and implementation; application of theories; case analyses. Instruction Mode: Lecture Grading Option: Letter

PPD 315 Analytic Foundations for Public Policy
Units: 4 Terms Offered: Sp Qualitative methods of analysis; ethical and political implications of policy choices; issue diagnosis and policy design skills; critical reasoning and ethics; policy leadership. Instruction Mode: Lecture Grading Option: Letter

PPD 316 Human Resource Management for Public Organizations
Units: 4 Terms Offered: FaSp Human resource development and management; values and processes in civil service career systems; training practices; human relations in supervision; personnel theory. Duplicates Credit in former PPMT 316. Instruction Mode: Lecture Grading Option: Letter

PPD 318 Financial Accounting in Public and Nonprofit Organizations
Units: 4 Terms Offered: FaSp Basic accounting principles and concepts necessary for the preparation and understanding of financial statements; accounting for service organizations in the public/nonprofit sector; fund accounting. Duplicates Credit in former PPMT 351. Instruction Mode: Lecture Grading Option: Letter

PPD 320 Organizational Behavior in Public Administration
Units: 4 Terms Offered: FaSp Understanding human behavior in public organization: motivation, roles, communication; group behavior and decision-making in public context; managing conflict; leadership and change in public complex organizational systems. Duplicates Credit in former PPD 485. Instruction Mode: Lecture Grading Option: Letter

PPD 325 Fundamentals of Health Policy and Management
Units: 4 Terms Offered: FaSp Learning the institutions of health care delivery and financing; evaluating key health policy issues; understanding and using economic, statistical and mathematical tools as ways to inform health policy issues. Duplicates Credit in former PPD 230 Instruction Mode: Lecture Grading Option: Letter

PPD 330 Introduction to Health Care Systems
Units: 4 Terms Offered: Sp Concepts and determinants of health and illness; health care delivery organizations and programs; the role of the administrator; issues in health care financing and access; quality evaluation; future trends. Duplicates Credit in former PPMT 330. Instruction Mode: Lecture Grading Option: Letter

PPD 340 The American System of Justice
Units: 4 Terms Offered: Irregular Introduction to the system of justice administration: components — police services, judiciary, corrections; interrelationships and issues; management strategies for change. Duplicates Credit in former PPMT 340. Instruction Mode: Lecture Grading Option: Letter

PPD 342 Crime and Public Policy
Units: 4 Terms Offered: Fa Public policy agenda-setting, alternatives formulation, and implementation for crime and criminal justice; analysis of specific issues including crime control, death penalty and gun control. Duplicates Credit in former PPMT 342. Instruction Mode: Lecture Grading Option: Letter

PPD 343 Terrorism, Homeland Security, and Public Policy
Units: 4 Terms Offered: Fa Overview of terrorism, government policies and practices, issues of civil liberties, challenges
to public sector management. Instruction Mode: Lecture Grading Option: Letter

PPD 344 Environmental Policy and Sustainable Development
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 357 Government and Business
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 358 Urban and Regional Economics
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 360 Urban Transportation Planning and Policy
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 361 Sustainable Communities, Policy and Planning
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 364 Technology and the City
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 371 The Nonprofit Sector and the Public Interest
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 372m Public Service in an Urban Setting
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 373 Public Policy and Planning Analysis
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 380a International Perspectives on Urban Problem Solving
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 380b International Perspectives on Urban Problem Solving
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 382 International Development
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 390 Special Problems
Units: 1, 2, 3, 4 Instruction Mode: Lecture Grading Option: Letter

PPD 400 Topics in Public Policy and Urban Studies
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 402 Management of Public and Nonprofit Organizations
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 404 Empirical Methods for Public Policy
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 407 Financial Management of Public and nonprofit Organizations
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 410 Comparative Urban Development
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 411a Sacramento Semester
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 411b Sacramento Semester
Units: 4 Instruction Mode: Lecture Grading Option: Letter

PPD 411c Sacramento Semester
Units: 4 Instruction Mode: Lecture Grading Option: Letter
and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 411d Sacramento Semester
Units: 2 Terms Offered: Irregular Exploration of political, economic, and administrative climate of the state government; basic processes and functions considered through seminars, research projects, visits, group discussions, and internships. Duplicates Credit in former PPMT 411abcd. Instruction Mode: Lecture Grading Option: Letter

PPD 412L GeoDesign Practicum
Units: 4 Terms Offered: FaSp (Enroll in SSSCI 412)

PPD 413 Administration of Health Care Organizations
Units: 4 Terms Offered: Sp Theory and practice; role of governing bodies, medical staffs and quality review committees; current trends; community responsibility; regulatory and oversight agencies. Duplicates Credit in former PPMT 439. Instruction Mode: Lecture Grading Option: Letter

PPD 414 Community Health Policy and Planning
Units: 4 Terms Offered: Sp Historical perspectives on and the contemporary practice of community health planning; impact of culture, socioeconomic, and environmental factors; urban planning's role in enhancing and sustaining health. Instruction Mode: Lecture Grading Option: Letter

PPD 415 Health Policy
Units: 4 Terms Offered: Sp Health policy analysis and challenges; price of health; structure of major sectors in health care; role of insurance in policy debates; trade-offs with policy decisions. Prerequisite: PPD 325. Instruction Mode: Lecture Grading Option: Letter

PPD 417 Food Policy and Planning
Units: 2 Terms Offered: Sp Key issues related to the practice of food system planning; practice of creating and implementing food policies; understanding of food systems; issues around community food governance. Instruction Mode: Lecture Grading Option: Letter

PPD 420 Environmental Impact Assessment
Units: 4 Terms Offered: Sp Exploration of the role of the National Environmental Policy Act and the California Environmental Policy Act; study of environmental impact assessments including the regulatory aspects, stakeholder and participatory processes, and legal framework. Instruction Mode: Lecture Grading Option: Letter

PPD 421 Land Use, Environment, and Housing in Developing Countries
Units: 4 Comparative analysis of issues in the built environment in the US and abroad; development, land use, and the supply of housing; housing affordability; land tenure. Instruction Mode: Lecture Grading Option: Letter

PPD 422 Transportation and Technology and the Future of Mobility
Units: 4 Introduction of the role that technology will play in facilitating shared mobility, disrupting transportation markets, and reshaping multi-modal urban transportation systems; analyses of governance issues; the interaction between private markets and regulators; changes in the nature of infrastructure and urban planning that will be required to accommodate the wired future of transportation. Instruction Mode: Lecture Grading Option: Letter

PPD 427L Geographic information Systems and Planning Applications
Units: 4 Terms Offered: Fa Basic GIS concepts, ArcView and other GIS software, planning applications and databases, basic cartography; students select, research and prepare a planning GIS analysis project. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 429 Urban Design Practicum
Units: 4 Terms Offered: Irregular Application of design concepts and graphic skills to a local design problem sponsored by a local public or private client in a studio setting; site visits, community contact, presentations. Prerequisite: PPD 414. Instruction Mode: Lecture Grading Option: Letter

PPD 430 Urban Informatics
Units: 4 Terms Offered: Sp Introduction to urban informatics including the fundamentals of coding, urban data analysis and statistics, visualization, mapping, smart cities/technology and telling stories with data. Instruction Mode: Lecture Grading Option: Letter

PPD 431 Undergraduate Policy, Planning, and Development Studio
Units: 4 Terms Offered: FaSpSm Application of methods in the exploration of a specific project, policy, or organization from the multiple perspectives of the five tracks in the undergraduate program. Registration Restriction: Open only to Price School of Public Policy juniors and seniors. Instruction Mode: Lecture Grading Option: Letter

PPD 438 Local Economic Development
Units: 4 Terms Offered: Fa Economic development in a capitalist system, historic review, current review, funding, strategizing, partnerships, evaluation; class project. Duplicates Credit in former PLDV 427. Instruction Mode: Lecture Grading Option: Letter

PPD 439 Housing and Community Development
Units: 4 Terms Offered: Fa Evolution of government housing and community development programs; present practices, e.g., housing elements, economic development, neighborhood rehabilitation; housing needs and market analysis; housing and health. Duplicates Credit in former PLDV 440. Instruction Mode: Lecture Grading Option: Letter

PPD 446 Urban Government and Management
Units: 4 Terms Offered: Irregular Preparation and discussion of cases dealing with selected policy areas including transportation, housing, poverty, and environmental quality. Duplicates Credit in former PPMPT 427. Instruction Mode: Lecture Grading Option: Letter

PPD 468 Cross-Cultural Negotiations: Communication and Strategy
Units: 4 (Enroll in COMM 468)

PPD 475 The Future of California
Units: 4 (Enroll in MDA 475)

PPD 476 Politics and Administration
Units: 4 Terms Offered: Sp Administrative relationships to the policy processes; influence of political and economic pressures on administrative policy determination; political behavior by administrators; case analysis. Duplicates Credit in former PPMT 498. Instruction Mode: Lecture Grading Option: Letter

PPD 478 Social Innovation
Units: 4 Terms Offered: Fa Strategies and processes of social innovation and change; examination of social change in the market, government, and within the nonprofit sector; dynamics; civic action and activism. Instruction Mode: Lecture Grading Option: Letter

PPD 482 Comparative Public Administration
Units: 4 Terms Offered: Sp Methodology, theories, and models of comparison; functional processes of administration in developing and developed nations compared; role of bureaucracy in development and nation-building; ecology of administration. Duplicates Credit in former PPMT 482. Instruction Mode: Lecture Grading Option: Letter

PPD 485m U.S. Immigration Policy
Units: 4 Terms Offered: Fa Examination of the historical and contemporary components of U.S. immigration policy with emphasis on policies addressing legal permanent immigrants, refugees, asylees, the undocumented. Instruction Mode: Lecture Grading Option: Letter

PPD 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Terms Offered: FaSpSm Individual research and readings. Duplicates Credit in former PLDV 490x and PPMPT 490x. Instruction Mode: Lecture Grading Option: Letter

PPD 497a Senior Thesis
Units: 2 Terms Offered: FaSpSm Writing of the honors capstone project in an area of interest related to the track of study; research and writing skills. Instruction Mode: Lecture Grading Option: Letter

PPD 497b Senior Thesis
Units: 2 Terms Offered: FaSpSm Writing of the honors capstone project in an area of interest related to the track of study; research and writing skills. Instruction Mode: Lecture Grading Option: Letter

PPD 498 Senior Honors Seminar
Units: 4 Terms Offered: FaSpSm Concepts, theories, and methods of analysis of a selected topic within the fields of public policy, management and planning. Students must have a 3.5 GPA in PPD courses; 3.0 GPA overall. Instruction Mode: Lecture Grading Option: Letter

PPD 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in Policy, Management and Planning. Duplicates Credit in former PLDV 499 and PPMPT 499. Instruction Mode: Lecture Grading Option: Letter

PPD 500 Intersectoral Leadership
Units: 2 Roles of public, private, nonprofit, and civil society sectors in policy, planning, and development. Leadership skills in negotiation, conflict resolution, institutional
design, problem solving. Instruction Mode: Lecture Grading Option: Letter
PPD 501a Economics for Policy, Planning and Development
Units: 2 Microeconomic theory as applied to policy, planning, and development; concepts of efficiency; macroeconomic issues. Instruction Mode: Lecture Grading Option: Letter
PPD 501b Economics for Policy, Planning and Development
Units: 2 Microeconomic analysis and modeling to incorporate Market failure and issues of uncertainty and information failure; organization models; policy instruments; policy and planning applications. Instruction Mode: Lecture Grading Option: Letter
PPD 502x Statistical Foundations for Public Management and Policy
Units: 2 Terms Offered: FaSp Statistical analysis concepts and reasoning; sampling and data sources; focus on basic statistical applications in public management and policy analysis. Credit Restriction: Not for graduate credit for MHA, MPA, MIPP and affiliates. Instruction Mode: Lecture Grading Option: Letter
PPD 503 Economics for Public Policy
Units: 4 Terms Offered: FaSpSm Economic theory as applied to public policy. Concepts of efficiency and equity, analysis of market failure and policy interventions. Duplicates Credit in PPD 501a, PPD 501b Instruction Mode: Lecture Grading Option: Letter
PPD 504 Essential Statistics for Public Management
Units: 2 Terms Offered: FaSpSm Essential statistics for public managers and administrators; application of statistical methods in addressing public policy and management questions. Instruction Mode: Lecture Grading Option: Letter
PPD 505 Modeling for Health Policy and Medical Decision Making
Units: 3 Terms Offered: Fa (Enroll in ISE 505)
PPD 506 Introduction to Microeconomics: Applications in Health
Units: 2 Terms Offered: Fa Key microeconomic concepts and economic fundamentals for health policy and management professionals. Ties economic principles to real-world applications in health and healthcare. Instruction Mode: Lecture Grading Option: Letter
PPD 507 Six-Sigma Methods and Applications
Units: 3 Terms Offered: FaSpSm (Enroll in ISE 507)
PPD 508 Health Care Operations Improvement
Units: 3 Terms Offered: Sp (Enroll in ISE 508)
PPD 509 Problems and Issues in the Health Field
Units: 4 Terms Offered: FaSp Introduction to concepts and facts regarding the healthcare system, healthcare policy, epidemiology and disease trends, prevention, healthcare organizations, personnel, diversity, evidence, delivery systems, population health, financing and reimbursement. Registration Restriction: Open only to graduate students Duplicates Credit in former PUAD 530 Instruction Mode: Lecture Grading Option: Letter
PPD 510a Financial Management of Health Services
Units: 4 Terms Offered: FaSp Accounting principles, financial reports, managerial finance, financial planning, capital investments, working capital analysis; elements of budgeting and reimbursement; performance standards; reporting and developing a management system. Prerequisite: PPD 516; Recommended Preparation: PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter
PPD 510b Financial Management of Health Services
Units: 2 Terms Offered: FaSp Changing practices, emerging issues, strategies and innovations in financial planning, management, and regulation; federal and state policies and requirements. Prerequisite: PPD 516; Recommended Preparation: PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter
PPD 511 Health Information Systems
Units: 2 Terms Offered: FaSpSm Conceptual framework for data base development; relational data management; use of health statistics; health indicators; confidentiality, security, privacy. Recommended Preparation: PPD 502 or competence in statistics and PPD 516 or competence in accounting. Instruction Mode: Lecture Grading Option: Letter
PPD 512 Health Administration Residency Seminar
Units: 2 Supervised study of health care administration, governance, professional staff relations, internal operations and controls, legal and regulatory requirements, management policy and strategy. Prerequisite: PPD 509 Instruction Mode: Lecture Grading Option: Letter
PPD 513 Legal Issues in Health Care Delivery
Units: 2 Terms Offered: FaSp Rights of consumers; health care providers; government; rights and responsibilities of health care providers; interrelationships of rights, powers, and responsibilities. Recommended Preparation: PPD 509 or substantial prior work experience in health care organizations. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter
PPD 514 Economic Concepts Applied to Health
Units: 4 Terms Offered: FaSpSm Relationships between economic characteristics and health status; impact of economy on health services industry; demand and resources for health services; utilization, prices, costs, health insurance. Prerequisite: PPD 501a. Duplicates Credit in former PUAD 537. Instruction Mode: Lecture Grading Option: Letter
PPD 515 Strategic Management of Health Organizations
Units: 4 Terms Offered: FaSpSm Application of principles of health administration in several practice settings. Decision-making; strategic management; organizational performance; communication; provider comparisons. Prerequisite: PPD 501a or HMGT 565, PPD 545 or HMGT 520; Recommended Preparation: PPD 509, PPD 511, PPD 513, PPD 514, PPD 557. Instruction Mode: Lecture Grading Option: Letter
PPD 516 Financial Accounting for Health Care Organizations
Units: 4 Accounting as a management tool; accounting systems; basic accounting concepts and procedures; budgets; financial statements. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter
PPD 517 Concepts and Practices in Managing Health Care Organizations
Units: 2 Terms Offered: FaSp Application of principles of health administration. Role of managers; managing people and programs; human resource management concepts and applications; working with professionals; governance; public relations. Instruction Mode: Lecture Grading Option: Letter
PPD 518 Quality of Care Concepts
Units: 2 Terms Offered: Sp Quality issues and complexities affecting health care; fundamentals of quality improvement programs; examination of quality issues and improvement programs in various health care venues; strategies. Instruction Mode: Lecture Grading Option: Letter
PPD 519 Methods and Applications of Health Services Research
Units: 2 Terms Offered: Fa Examination of policy and management issues for empirical research; indicators and measurement of outcomes; impact on policy and management decisions; methodology; analysis of quantitative and qualitative data. Prerequisite: PPD 514. Instruction Mode: Lecture Grading Option: Letter
PPD 520 Economic Approaches to Health Policy Analysis
Units: 2 Terms Offered: Sp Evaluation of current major health policy challenges and issues; economic analysis of behavioral responses to change in health care policy; new legislation; policy trade-offs. Prerequisite: PPD 514. Instruction Mode: Lecture Grading Option: Letter
PPD 521a Information Technology Management Systems in Health Care
Units: 2 Terms Offered: Sm Principles and methods of systems analysis; assessment; strategic planning, design consideration; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. Prerequisite: PPD 511. Instruction Mode: Lecture Grading Option: Letter
PPD 521b Information Technology Management Systems in Health Care
Units: 2 Terms Offered: Sm Principles and methods of systems analysis; assessment; strategic planning, design consideration; e-health and e-commerce system trends; health care information systems application areas; regulatory requirements. Analytic methods used to develop data-driven solutions; specific problems in health care organizations; integrating data; communicating data; interpretation; exploration of new approaches for improvement. Prerequisite: PPD 511. Instruction Mode: Lecture Grading Option: Letter
PPD 522 Planning Theory and History for a Just Society
Units: 4 Terms Offered: Fa Explore the history and theories underlying professional planning practice; evolving theoretical frameworks that will shape the planning field. Focuses on theoretical/historical perspectives on social justice, inclusion, and diversity. Instruction Mode: Lecture Grading Option: Letter

PPD 523 Urban and International Development
Units: 4 Terms Offered: Fa Fundamentals of urban development including role of land markets, externalities, economic analysis of market failures; regulations and stakeholders. Applications to U.S. and international contexts. Instruction Mode: Lecture Grading Option: Letter

PPD 524 Planning Theory
Units: 2 Terms Offered: Fa Development of a critical perspective by becoming more aware of the intellectual roots of the planning profession, with a focus on practical outcomes of actions. Duplicates Credit in former PUD 501. Instruction Mode: Lecture Grading Option: Letter

PPD 525 Statistics and Arguing from Data
Units: 2 Terms Offered: FaSp Fundamentals of probability and statistics, planning analysis techniques, computing standards, and understanding of the rhetoric related to statistical analysis. Duplicates Credit in former PLUS 502. Instruction Mode: Lecture Grading Option: Letter

PPD 526 Comparative International Development
Units: 2 Terms Offered: Fa Introduction to comparative international development with a focus on regional growth and urban development. Duplicates Credit in former PLUS 505. Instruction Mode: Lecture Grading Option: Letter

PPD 527 The Social Context of Planning
Units: 2 Terms Offered: Sp Examination of the formation of the modern urban environment with its consumer culture, social classes, and racial and ethnic diversity. Duplicates Credit in former PLUS 506. Instruction Mode: Lecture Grading Option: Letter

PPD 528 Physical Planning: Urban and Community Design
Units: 2 Terms Offered: Sp Exploration of the theories and concepts of livable communities and good city form. Case studies of historical and current best practices. Instruction Mode: Lecture Grading Option: Letter

PPD 529 Planning Law and Legal Frameworks of Planning
Units: 2 Terms Offered: Sp Understanding of the legal system and its processes and laws applicable to land use and development and the legal nature of powers of public and private entities. Instruction Mode: Lecture Grading Option: Letter

PPD 530 Historical Analysis of Urban Form and Planning Practice
Units: 2 Terms Offered: Sp Awareness, analysis, understanding, and influencing the city building process locally and regionally; isolate and exercise tools and methods of visual literacy. Duplicates Credit in former PLUS 510. Instruction Mode: Lecture Grading Option: Letter

PPD 531L Planning Studio
Units: 4, 8, 12 Max Units: 12.0 Terms Offered: FaSp Application of methods in planning, programming, research, and evaluation in a professional context; data collection and analysis; case studies; practical applications. Duplicates Credit in former PLUS 575L and PLUS 675L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 532L International Planning and Development Laboratory Workshop
Units: 4, 5, 6, 7, 8 Terms Offered: Sm Application of planning principles and methods to specific urban planning problems abroad; involves preparation in the spring semester and an overseas field visit and a collaborative practicum. Duplicates Credit in former PLUS 575L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PPD 533 Planning History and Urban Form
Units: 2 History of urban planning with an emphasis on the evolution of how planning shaped the physical environment in response to political, economic, and social issues. Instruction Mode: Lecture Grading Option: Letter

PPD 534 Data, Evidence, and Communication of the Public Good
Units: 4 Terms Offered: Sp Introduction to data analysis for planning practice. Includes quantitative and qualitative methods. Traditional methods such as regression and emerging methods including social media, visual/spatial analysis, programming. Instruction Mode: Lecture Grading Option: Letter

PPD 535 Fundamentals of Public Administration
Units: 4 Terms Offered: FaSpSm Administrative concepts, institutions, legal systems, and practices; values; facilitation of responsibilities and rights; professional applications for personal, private sector and public administration. Registration Restriction: Open only to graduate students. Duplicates Credit in former PUAD 500. Instruction Mode: Lecture Grading Option: Letter

PPD 541 Public Financial Management and Budgeting
Units: 4 Terms Offered: Fa Financial management applied to public and nonprofit organizations; financial valuation, financial markets, budgeting, tax administration, debt financing, cost-benefit analysis and financial analysis. Duplicates Credit in PPDE 645. Instruction Mode: Lecture Grading Option: Letter

PPD 542 Policy and Program Evaluation
Units: 4 Terms Offered: Sp Methods and models for policy and program evaluation; methods of assessing and analyzing evaluation data; processes for linking evaluation to policy formulation and program management. Prerequisite: PPD 502. Duplicates Credit in former PUAD 525 and former PUAD 529. Instruction Mode: Lecture Grading Option: Letter

PPD 543 Internship Seminar
Units: 1 Terms Offered: FaSp Supervised study of management, analytical, or other professional activities in government; integration of theory, practice and relevant literature. Duplicates Credit in former PUAD 544. Instruction Mode: Lecture Grading Option: Letter

PPD 545 Public and Nonprofit Organizational Behavior
Units: 4 Terms Offered: FaSpSm Behavior in organizations; focus on personal, interpersonal, and group level factors that influence such behavior. Registration Restriction: Open only to graduate students. Duplicates Credit in former PUAD 585. Instruction Mode: Lecture Grading Option: Letter

PPD 546 Capstone in Public Administration
Units: 3 Constitutionally accountable and ethical practice, individually and organizationally; applications of core competencies; practical inquiry, analysis, systems; comparative frameworks; citizenship and public service. Prerequisite: PPD 540 and PPD 545 and PPD 542 or PPD 557. Registration Restriction: Open only to master and doctoral students. Instruction Mode: Lecture Grading Option: Letter

PPD 552 Managing and Financing Public Engineering Works
Units: 3 Terms Offered: FaSpSm (Enroll in CE 552)

PPD 554 Foundations of Policy Analysis
Units: 4 Terms Offered: Fa An introduction to public policy analysis; issue diagnosis and policy design; analytic reasoning and argumentation; the role of the public policy professional; ethical issues in policy analysis. Instruction Mode: Lecture Grading Option: Letter

PPD 555 Public Policy Formulation and Implementation
Units: 4 Terms Offered: FaSpSm Political and organizational perspectives on policy making process; agenda setting, policy design, adoption, implementation, evaluation, modification or termination. Policy leadership skills: negotiation and strategic mapping. Prerequisite: PPD 554. Instruction Mode: Lecture Grading Option: Letter

PPD 557 Modeling and Operations Research
Units: 4 Terms Offered: FaSpSm Management science methods that support decision making in policy, management, and planning settings. Includes linear programming, queuing theory, decision analysis, and forecasting. Prerequisite: PPD 502 or PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 558 Multivariate Statistical Analysis
Units: 4 Terms Offered: FaSp Applied multivariate statistics in support of policy, management, and planning problem solving. Includes regression analysis, logit models, and an introduction to time-series models and multi-equation estimation. Prerequisite: PPD 502 or PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 559 Policy Implementation and Evaluation
Units: 4 Terms Offered: FaSpTheoretical approaches, critical issues, and research methods in public policy implementation. Field-based research project. Duplicates
PPD 560 Methods for Policy Analysis
Units: 4 Terms Offered: Sp Examination of methods used in the analysis of policy methods, including cost benefit analysis, decision and risk analysis, and applied social science methods. Prerequisite: PPD 502 and PPD 554 and PPD 501b. Duplicates Credit in former PUD 572. Instruction Mode: Lecture Grading Option: Letter

PPD 561a Policy Analysis Practicum
Units: 1 Terms Offered: FaSp Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. Prerequisite: PPD 503 and PPD 554 and PPD 555 and PPD 560 and PPD 558. Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

PPD 561b Policy Analysis Practicum
Units: 3 Terms Offered: FaSp Application and integration of the knowledge and techniques of analytic, quantitative, managerial, political and ethical analyses to specific public policy problems. Duplicates Credit in former PUD 589. Instruction Mode: Lecture Grading Option: Letter

PPD 568 Environmental Governance and Sustainability
Units: 2 Terms Offered: Fa Introduction to leading issues of environmental governance and policy in looking toward a more sustainable future; normatively important concerns and the social, cultural, and political dimensions; thematic look from values to action. Instruction Mode: Lecture Grading Option: Letter

PPD 569 Applied International Policy Analysis and Management Project
Units: 4 Terms Offered: Sp Enables students to integrate theory, research and practice into an applied project of their own choosing. The output of this course is a professional report in a selected public policy or management area. Duplicates Credit in former PUD 589. Instruction Mode: Lecture Grading Option: Letter

PPD 570 Applied Statistics for Planning, Policy and Management
Units: 4 Terms Offered: Sm Use of statistical reasoning to answer questions related to public policy and management. Students will review and understand selected statistical techniques for analyzing data and for addressing public policy and management questions of interest using applied data analysis. Duplicates Credit in former PUD 523. Instruction Mode: Lecture Grading Option: Letter

PPD 571 International Public Policy and Management Seminar
Units: 4 Terms Offered: Fa An introduction to the concepts and methods of public policy analysis and management. Highlights some of the constraints of the policy process. Includes examples from the United States but also presents comparative views of the contours of public policy in both developed and developing nations. The course applies public policy and management frameworks to selected areas of social policy. Duplicates Credit in former PUD 524. Instruction Mode: Lecture Grading Option: Letter

PPD 572 Special Issues in International Public Policy
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Current international public policy on issues such as governmental reform, regulation, social welfare, poverty alleviation and international aid. Policy framework and in-depth analysis of specific topics of relevance to governmental agencies and international organizations. Instruction Mode: Lecture Grading Option: Letter

PPD 582 Transportation System Security and Emergency Management
Units: 4 Terms Offered: FaSp (Enroll in CE 582)

PPD 587 Risk Analysis
Units: 4 Concepts of risk analysis, risk in engineered systems, environmental risk, security risks; fault trees, event trees, risk simulations; risks and decision-making. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ISE 587

PPD 588 Introduction to Transportation Planning Law
Units: 2 Terms Offered: FaSm (Enroll in CE 579)

PPD 589 Port Engineering: Planning and Operational Analysis
Units: 4 Terms Offered: SpSm (Enroll in CE 589)

PPD 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 596 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship may be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least one semester of enrollment in the graduate program with a cumulative 3.0 GPA. Registration Restriction: Open only to graduate students in the Sol Price School of Public Policy Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Selected topics in public policy, management and planning. Instruction Mode: Lecture Grading Option: Letter

PPD 600 Management of Managed Care Organizations
Units: 2 Terms Offered: FaSpSm Managed care arrangements, interorganizational relations, management practices and controls, medical staff relations, strategic planning, marketing, utilization review, quality assurance, outcomes measures. Prerequisite: PPD 545 or HMGT 520. Recommended Preparation: PPD 516, PPD 510a or HMGT 565. Instruction Mode: Lecture Grading Option: Letter

PPD 601 Management of Long-Term Care Organizations
Units: 4 Terms Offered: Fa History, development, trends; major policy issues; organization of systems; principles and techniques of administration; management of institutional and community based programs. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PPD 602 Strategic and Operational Planning for Health Services
Units: 4 Terms Offered: FaSpSm Strategic, institutional, and program planning theory and methods; governmental and legal requirements, certificate of need processes, reimbursement controls; financing and marketing considerations; practices, and methods. Duplicates Credit in former PUD 535. Instruction Mode: Lecture Grading Option: Letter

PPD 603 Marketing of Health Services
Units: 4 Terms Offered: Sm Assessing community needs and organizational service capabilities; evaluating competition; qualitative and quantitative market research methods; market communications and advertising; developing marketing plans. Recommended Preparation: PPD 502 or competence in statistics. Instruction Mode: Lecture Grading Option: Letter

PPD 604 Seminar in Hospital Administration
Units: 4 Terms Offered: Sm Hospital systems and functions; managerial processes, theory, and practices; governance structures; legal, regulatory, administrative, and professional requirements; medical and professional staff; multi-institutional arrangements; controls. Prerequisite: PPD 454 or HMGT 520; Recommended Preparation: PPD 516. Instruction Mode: Lecture Grading Option: Letter

PPD 605 Frontline Issues in Health Services Administration and Policy
Units: 2 Max Units: 6.0 Terms Offered: FaSpSm Emphasis on current or emergent issues in the health care industry. Focus on impact of recent health legislation and/or health care system responsiveness. Instruction Mode: Lecture Grading Option: Letter

PPD 606 Urban Health Policy
Units: 4 Terms Offered: Fa Addresses current U.S. health policy issues and the critical processes that shape them, with an emphasis on urban populations; institutional, economic, social, ethical, and political factors. Instruction Mode: Lecture Grading Option: Letter

PPD 607 Introduction to Public Health Policy
Units: 4 Terms Offered: Sp Public health policy and analysis methods; evaluation
of the public health system and safety net programs. Instruction Mode: Lecture Grading Option: Letter

PPD 608 Leadership Symposium in Health Management and Policy
Units: 1 Max Units: 3.0 Terms Offered: FaSpSm A forum for leading executives and policymakers to address ways they or their organizations improve healthcare financing, delivery, and management, in the U.S. and internationally. Instruction Mode: Lecture Grading Option: Letter

PPD 609 Physician Practice Management

PPD 610 Managed Care Contracting
Units: 2 Terms Offered: Fa Provides practical and strategic decision-making skills in managed care contracting, including contract types, terms and conditions; financial assessment; proposal development and analysis; and negotiation. Prerequisite: PPD 600; Recommended Preparation: PPD 510a or HMGT 565, PPD 514. Instruction Mode: Lecture Grading Option: Letter

PPD 611 Policy Issues in Planning and Development
Units: 4 Terms Offered: Fa Overview of policy issues in planning and development professions in the U.S. and abroad. Special attention to collective decision making, role of institutions, and ethics. Duplicates Credit in former PLUS 523. Instruction Mode: Lecture Grading Option: Letter

PPD 612 Research and Analytical Techniques
Units: 4 Terms Offered: Sp Professional practice-oriented analytic skills; fundamentals of data manipulation; spreadsheet applications and forecasting; and communication of results. Duplicates Credit in former PLUS 504. Instruction Mode: Lecture Grading Option: Letter

PPD 613a Policy, Planning, and Development International Laboratory
Units: 1 Max Units: 0.0 Terms Offered: SpSm Research methods for intensive practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad. Instruction Mode: Lecture Grading Option: Letter

PPD 613b Policy, Planning, and Development International Laboratory
Units: 1 Max Units: 0.0 Terms Offered: SpSm Research methods for intensive practical field research and evaluation; policy, management and planning practice in intercultural contexts; preparation for professional-level consulting abroad. Instruction Mode: Lecture Grading Option: Letter

PPD 614 Management in Planning Practice
Units: 2 or 4, 2 years Terms Offered: Sp Administrators, management, political, and other problems faced by the practicing professional planner. Duplicates Credit in former PLUS 521. Instruction Mode: Lecture Grading Option: Letter

PPD 615 Comparative Urbanization, Development, and Inequality
Units: 4 Terms Offered: Irregular Theories of inequality, dependency and dualism in relation to urbanization, growth, and poverty in developing countries; development and underdevelopment; core-periphery linkages. Duplicates Credit in former PLUS 534. Instruction Mode: Lecture Grading Option: Letter

PPD 616 Participatory Methods in Planning and Policy
Units: 4 Approaches to community participation, introducing students to the theories behind participatory methods as well as to the skills to implement them. Instruction Mode: Lecture Grading Option: Letter

PPD 617 Urban Demography and Growth
Units: 4 Terms Offered: Fa Theory and policy regarding population change in urban areas; housing; cohort analysis; immigration; ethnicity; employment; education. Methods of graphic representation; census data manipulation, interpretation, forecasting. Duplicates Credit in former PLUS 539. Instruction Mode: Lecture Grading Option: Letter

PPD 618 Housing Facilities and Community Development
Units: 4 Terms Offered: Irregular Structure of the building industry and technology. Housing markets and programs; environmental standards. Community development and redevelopment. Planning, program development, finance, and coordination of public facilities and services. Duplicates Credit in former PLUS 540. Instruction Mode: Lecture Grading Option: Letter

PPD 619 Smart Growth and Urban Sprawl: Policy Debates and Planning Solutions
Units: 4 Terms Offered: Irregular Determinants and analytical models of land use; interaction of land uses with environmental quality and natural resources, land use policy instruments; regulation, taxation, public services. Duplicates Credit in former PLUS 562. Instruction Mode: Lecture Grading Option: Letter

PPD 620 General Plans
Units: 4 Terms Offered: Fa Assessment of a recently adopted general plan, analysis of the general plan process, and detailed review of each major element and issue. Duplicates Credit in former PLUS 563. Instruction Mode: Lecture Grading Option: Letter

PPD 621 Environmental Impacts
Units: 4 Terms Offered: Sp Legal, political/institutional, and technical aspects of environmental impact reports for urban planning. Duplicates Credit in former PLUS 561. Instruction Mode: Lecture Grading Option: Letter

PPD 622 Seminar in Urban Development
Units: 4 Terms Offered: Irregular Central city housing and renewal problems and policies. Site selection, organization; land valuation, acquisition, disposition; relocation and management; reuse; site planning and development; politics; financing. Duplicates Credit in former PLUS 541. Instruction Mode: Lecture Grading Option: Letter

PPD 623 Community Development and Site Planning
Units: 4 Terms Offered: Sp Urban form and emerging community design practices; design project development; evaluation and assessment of site planning in cities and local communities. Instruction Mode: Lecture Grading Option: Letter

PPD 624 Local Economic Development: Theory and Finance
Units: 4 Terms Offered: Sp Socioeconomic change, economic development theory, assessment techniques, and economic indicators in the context of planning and development policies and programs. Duplicates Credit in former PLUS 547. Instruction Mode: Lecture Grading Option: Letter

PPD 625 Planning and Economic Development Finance
Units: 4 Terms Offered: Fa Fundamentals for economic development professionals and policy makers including feasibility analysis and the financing of facilities, social services, and community-based enterprises. Duplicates Credit in former PLUS 546. Instruction Mode: Lecture Grading Option: Letter

PPD 626 Public/Private and Mixed Enterprises Planning
Units: 2, 4 Terms Offered: SpFaCase studies of planning and public/private and mixed enterprises; public production of private goods; privatization of public services; public/private partnerships; mixed enterprises. Instruction Mode: Lecture Grading Option: Letter

PPD 627 Design Skills for Urban Planners
Units: 4 Terms Offered: Fa Develop observation, description, analysis, and conceptualization skills related to urban spatial conditions; advance professional communication proficiencies. Duplicates Credit in former PLUS 573. Instruction Mode: Lecture Grading Option: Letter

PPD 628 Urban Planning and Social Policy
Units: 4 Terms Offered: Irregular Urban planning and social work: theory, values, techniques of inquiry, and problem-solving methods appropriate to urban planning and social work. Duplicates Credit in former PLUS 552. Instruction Mode: Lecture Grading Option: Letter

PPD 629 Capstone in Urban Planning
Units: 4 Terms Offered: Sp Successful completion of a comprehensive written and oral project-oriented assessment; analysis, interpretation, and solution of a real-world planning problem. Instruction Mode: Lecture Grading Option: Letter

PPD 630 Urban Economic Analysis
Units: 4 Terms Offered: Sp Economic models of cities and city development and structure; housing and land markets; transportation systems; problems of congestion and pollution; evaluation of urban policies. Duplicates Credit in former PLUS 566. Instruction Mode: Lecture Grading Option: Letter

PPD 631 Geographic Information Systems for Policy, Planning, and Development
Units: 2 Introduction to GIS systems and usage in the public sector; spatial data; understanding software and the application
of technology; analysis of data using GIS. 
Instruction Mode: Lecture Grading Option: Letter 

PPD 632 Planning Analysis and Evaluation of Urban Systems 
Units: 4 Terms Offered: Sp Methods of policy, program, and plan evaluation: economic principles and theoretical concepts introduced, followed by case studies. Duplicates Credit in former PLUS 57A. Instruction Mode: Lecture Grading Option: Letter 

PPD 633 Methods and Modeling Tools for Transportation Planning 
Units: 4 Terms Offered: Fa Background applications of established urban travel forecasting procedures; land use; trip-generation, trip-distribution, modal-choice, trip-assignment; evaluation; criticisms. Instruction Mode: Lecture Grading Option: Letter 

PPD 634 Institutional and Policy Issues in Transportation 
Units: 4 Terms Offered: Sp Analysis of policies relating to transportation alternatives; institutional environment and strategies; federal, state, regional, and local agency responsibilities and interactions. Duplicates Credit in former PLUS 581. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 633 

PPD 635 Principles of Transportation Systems Analysis 
Units: 4 Terms Offered: Fa Planning, design, modeling, and operation of inter- and intra-urban transportation networks. Analysis of contemporary engineering-economic issues relevant to transport, especially questions pertaining to infrastructure. Duplicates Credit in former PLUS 582. Instruction Mode: Lecture Grading Option: Letter 

PPD 636 Infrastructure and Modern Society 
Units: 2 Terms Offered: Sp Survey of infrastructure issues that relates principles from multiple disciplines to the provision of vital services and encourages critical thinking within a systems context. Instruction Mode: Lecture Grading Option: Letter 

PPD 637 Forecasting and Urban Planning: A Survey of Theory and Methods 
Units: 4 Terms Offered: Sp Overview of forecasting methods and applications in urban planning processes used to determine urban futures; includes theoretical and institutional factors as well as quantitative methods. Instruction Mode: Lecture Grading Option: Letter 

PPD 638 Integrative Seminar 
Units: 4 Terms Offered: FaSpSm Individual research and preparation of an integrated comprehensive study coordinated with a sponsoring agency or a government agency or development firm. Prerequisite: PPD 611, PPD 612. Duplicates Credit in former PLUS 591. Instruction Mode: Lecture Grading Option: Letter 

PPD 639 Introduction to Community and Economic Development 
Units: 4 Terms Offered: FaSp Theories of community and economic development and a contextual understanding of the forces that change the development and community life of urban areas. Instruction Mode: Lecture Grading Option: Letter 

PPD 640 Leadership Foundations: Competencies and Core Values 
Units: 4 Terms Offered: Sm An intensive introduction to leading through core values. Focuses on developing leadership skills at the personal level to build a foundation for leadership at all levels. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter 

PPD 641 Leading Individuals, Groups and Teams 
Units: 4 Terms Offered: Fa Leadership styles in various settings; team demographics, and dynamics; problem-solving; decision-making; diversity and critical thinking skills; effect of culture on small group communication; managing conflict. Prerequisite: PPD 640. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter 

PPD 642 Strategic Leadership of Organizations 
Units: 4 Terms Offered: Sp Longitudinal leadership performance assessment; leadership style, management; control systems; organizational structure and networks; organizational culture; organizational learning and change. Prerequisite: PPD 641. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter 

PPD 643 Leading Transformations Across Sectors: Integrative Seminar 
Units: 4 Terms Offered: Sm Application and practice of leadership skills working across the public, private and nonprofit sectors. Skills include negotiation, collaboration, communication, political management and ethical responsibilities. Prerequisite: PPD 642. Registration Restriction: Open only to Executive Master in Leadership students. Instruction Mode: Lecture Grading Option: Letter 

PPD 644 Shaping the Built Environment 
Units: 4 Introduction to the theories and concepts and good city form. Explores the options for designing more livable and sustainable urban communities. Instruction Mode: Lecture Grading Option: Letter 

PPD 645 Professional Development 
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: Irregular Selected topics in the practical application of administrative concepts. Duplicates Credit in former PUAD 502. Instruction Mode: Lecture Grading Option: Credit/No Credit 

PPD 646 Fieldwork 
Units: 1, 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Supervised study of management activities in governmental agencies. Duplicates Credit in former PUAD 503. Instruction Mode: Lecture Grading Option: Credit/No Credit 

PPD 647 Finance of the Public Sector 
Units: 4 Terms Offered: Sp Sources of government revenue, intergovernmental financial relations, public goods theory. Theoretical and applied skills in analysis of equity and efficiency issues. Prerequisite: PPD 501b. Duplicates Credit in former PUAD 513. Instruction Mode: Lecture Grading Option: Letter 

PPD 648 Concepts and Practices of Public Budgeting 
Units: 4 Terms Offered: Irregular Budget planning, budget formulation, tools for budget analysis and budget implementation. Duplicates Credit in former PUAD 515. Instruction Mode: Lecture Grading Option: Letter 

PPD 649 Concepts and Practices in Public Personnel Administration 
Units: 4 Terms Offered: FaSm Concepts of man and of work; workforce; government personnel systems, including merit concepts, classification, and compensation; collective bargaining; organizational justice; training and development. Duplicates Credit in former PUAD 516. Instruction Mode: Lecture Grading Option: Letter 

PPD 650 Organization Development in Public Administration 
Units: 4 Terms Offered: FaSp Overview of concepts and methodologies of organization development; diagnosing organizational needs; developing change strategies; selecting appropriate interventions. Duplicates Credit in former PUAD 517. Instruction Mode: Lecture Grading Option: Letter 

PPD 651 Seminar in the Administration of Local Government 
Units: 4 Terms Offered: Irregular Intensive consideration of the functions of the municipal executive and his environment. Research preparation and discussion of cases. Duplicates Credit in former PUAD 520. Instruction Mode: Lecture Grading Option: Letter 

PPD 652 Financial Administration in Local Government 
Units: 4 Terms Offered: Irregular Revenue sources, fees and charges, benefit assessments; financing economic development and redevelopment, issuing and managing debt, current asset management, and state-local relations. Duplicates Credit in former PUAD 521. Instruction Mode: Lecture Grading Option: Letter 

PPD 653 Training in the Public Sector 
Units: 4 Terms Offered: Fa Emergence of public service training; learning theories; program development process — assessing needs, design, delivery, and evaluation; role of media; individual, group, organization development; managing training. Duplicates Credit in former PUAD 522. Instruction Mode: Lecture Grading Option: Letter 

PPD 654 Information Technology Management in the Public Sector 
Units: 4 Terms Offered: FaSpSm Application of computer and information technology in government; e-government; information technology architecture; systems project management. Duplicates Credit in former PPD 518. Instruction Mode: Lecture Grading Option: Letter 

PPD 655 Administrative Law and Public Management 
Units: 4 Terms Offered: FaSpSm Administrative perspectives on legal principles of agency rule-making and adjudication; distinctions between the two; informal administrative actions; decision-making; judicial review; public control of
administrative decisions. Instruction Mode: Lecture Grading Option: Letter

PPD 656 Political Management: Theory and Applied Techniques
Units: 4 Terms Offered: Sm Political management theories; strategy formation; research and data collection approaches; computer applications; electronic databases; issue management; problem-solving techniques; ethical considerations. Duplicates Credit in former PUAD 545. Instruction Mode: Lecture Grading Option: Letter

PPD 664 Contract Management
Units: 2 Terms Offered: Sp Contract management techniques in the public and private sectors; micro and macro management; compliance and negotiation; conflicts of interest and ethical issues. Instruction Mode: Lecture Grading Option: Letter

PPD 665 Contemporary Issues in Philanthropy
Units: 4 Motivations and strategies of philanthropists; philanthropic foundations and emerging institutions for philanthropy; issues of philanthropic stewardship, public policy and public accountability. Instruction Mode: Lecture Grading Option: Letter

PPD 666 Administrative Research and Analysis
Units: 4 Terms Offered: Irregular Theory and methods for study of administrative effectiveness: problem solving, performance measurement, administrative and organizational research, quality improvement, and change implementation. Prerequisite: PPD 502. Duplicates Credit in former PUAD 506. Instruction Mode: Lecture Grading Option: Letter

PPD 667 Public Ethics
Units: 4 Terms Offered: Sp Following an introduction to the study of ethics, relationships among administrative, political and policy ethics are examined, emphasizing the ethics of the administrative role. Duplicates Credit in former PUAD 580. Instruction Mode: Lecture Grading Option: Letter

PPD 668 Entrepreneurship in the Public Sector
Units: 4 Terms Offered: Irregular Providing public services through the private and nonprofit sectors; public-private partnerships; political and organizational skills required for public entrepreneurship. Duplicates Credit in former PUAD 561. Instruction Mode: Lecture Grading Option: Letter

PPD 669 Federal Management Systems
Units: 4 Terms Offered: FaSp Principal institutions and processes in federal government for overhead leadership and control; examines Office of Management and Budget, Office of Personnel Management, Merit Systems Protection Board, General Services Administration, and General Accounting Office. Duplicates Credit in former PUAD 564, Instruction Mode: Lecture Grading Option: Letter

PPD 670 Management of Intergovernmental Programs
Units: 4 Terms Offered: Sp Analysis of relationships among governmental units in delivery of governmental programs; historical development of intergovernmental relations; present status and future implications. Duplicates Credit in former PUAD 566. Instruction Mode: Lecture Grading Option: Letter

PPD 671 Decision-Making in Regulatory Agencies
Units: 4 Terms Offered: Irregular Risk assessment, management, and communication concepts and practices; comparisons of regulatory decision making in regulatory agencies; emerging benefit assessment, cost-effectiveness, and communication issues. Duplicates Credit in former PUAD 567. Instruction Mode: Lecture Grading Option: Letter

PPD 672 Collaborative Governance
Units: 4 Terms Offered: SpAnalysis/field application of action research models for strategic planning in public agencies; design of effective public systems; citizens/ administrators' roles in strategic decision-making. Duplicates Credit in former PUAD 574. Instruction Mode: Lecture Grading Option: Letter

PPD 673 Strategic Planning in the Public Sector
Units: 4 Terms Offered: Irregular Impact of science/technology on governmental policy, processes, institutions; critical policy areas in science/technology; machinery for formulating science policy; governmental impact on science/technology. Duplicates Credit in former PUAD 575. Instruction Mode: Lecture Grading Option: Letter

PPD 674 Science, Technology, and Government
Units: 4 Terms Offered: Irregular Impact of science/technology on governmental policy, processes, institutions; critical policy areas in science/technology; machinery for formulating science policy; governmental impact on science/technology. Duplicates Credit in former PUAD 579. Instruction Mode: Lecture Grading Option: Letter

PPD 675 Nonprofit Management and Leadership
Units: 4 Terms Offered: FaSpSm Issues in nonprofit management and leadership including: the role of boards; strategic planning; marketing and fund-raising; financial management; and volunteer and human resource management. Recommended Preparation: PPD 589. Instruction Mode: Lecture Grading Option: Letter

PPD 676 Comparative Public Administration
Units: 4 Terms Offered: Irregular Methodologies, theories and models of comparison; administrative systems; role and functions of the public sector; administrative cultures. Duplicates Credit in former PUAD 579. Instruction Mode: Lecture Grading Option: Letter

PPD 677 International Development Administration
Units: 4 Terms Offered: Sp Development of theories; role of international institutions in resource exchanges; foreign investment and trade policies; national planning and allocation systems; development and modernization strategies and implementation. Duplicates Credit in former PUAD 581. Instruction Mode: Lecture Grading Option: Letter

PPD 678 Processes of Change in Developing Societies
Units: 4 Terms Offered: Irregular Nature of traditional and transitional societies; theories and practice of developmental change; role of bureaucracy in development; institution building; public enterprise; technology assessment and transfer. Duplicates Credit in former PUAD 582. Instruction Mode: Lecture Grading Option: Letter
PPD 679 Financial Administration in Developing Countries
Units: 4
Terms Offered: Sm Public sector finance; tax policy and administration; budgeting and auditing; debt management; public enterprise and development banks; planning; techniques; project assessment. Duplicates Credit in former PUAD 583. Instruction Mode: Lecture Grading Option: Letter

PPD 680 Development of Effective Groups and Organizations
Units: 4
Terms Offered: Fa Theories and techniques of assessing and improving interpersonal relationships and group dynamics in an organizational context; action research-based approaches to implementing organizational change. Duplicates Credit in former PUAD 586. Instruction Mode: Lecture Grading Option: Letter

PPD 681 Public Organization and Management Theory
Units: 4
Terms Offered: FaSp Nature and management of public organizations; examination of organizational characteristics, forms, and processes, including the relationship with the broader environment. Duplicates Credit in former PUAD 595. Instruction Mode: Lecture Grading Option: Letter

PPD 682 Justice Administration: A Management Perspective
Units: 4
Terms Offered: Fa Justice administration as an interactive system: law, etiology of crime, police, the judiciary and corrections. Interface of offenders with community and political force fields. Duplicates Credit in former PUAD 540. Instruction Mode: Lecture Grading Option: Letter

PPD 683 Homeland Security and Public Policy
Units: 4
Terms Offered: FaAn overview of leadership concepts, frameworks and skills; application of leadership in complex or inter-sectoral settings. Instruction Mode: Lecture Grading Option: Letter

PPD 684 Leadership Development in the Public and Non-Profit Sectors
Units: 2
Terms Offered: Fa An overview of leadership concepts, frameworks and skills; application of leadership in complex or inter-sectoral settings. Instruction Mode: Lecture Grading Option: Letter

PPD 685 Human Resources Management in Public and Non-Profit Sectors
Units: 2
Terms Offered: Fa Merit principles, position classification, recruitment and selection, compensation, organizational development, labor relations; challenges and strategies for managing a diverse workforce. Instruction Mode: Lecture Grading Option: Letter

PPD 686 U.S. Immigration Policy
Units: 4
Terms Offered: Sp Overall understanding of contemporary U.S. immigration policy. Instruction Mode: Lecture Grading Option: Letter

PPD 687 Strategic Management in the Nonprofit Sector
Units: 4
Terms Offered: Sp Strategic management of nonprofit organizations, social entrepreneurship, and management practice. Prerequisite: PPD 675 and PPD 689. Instruction Mode: Lecture Grading Option: Letter

PPD 688 Business and Public Policy
Units: 4
Terms Offered: Irregular The business-government relationship; effects of selected public policies (antitrust, economic, and social regulation, industrial policies, legal policy) on firm and industry behavior. Prerequisite: PPD 501b. Duplicates Credit in former PUAD 557. Instruction Mode: Lecture Grading Option: Letter

PPD 689 The Nonprofit Sector and Philanthropy
Units: 4
Terms Offered: FaSp Nonprofit organizations and their relationship to government and business; the role of philanthropy, social enterprise and public support; and implications for policy, strategy and management. Instruction Mode: Lecture Grading Option: Letter

PPD 690 Alternative Dispute Resolution
Units: 4
Terms Offered: Fa Theory and methods of conflict analysis, negotiation, facilitation and mediation in the public sector. Duplicates Credit in former PUAD 519. Instruction Mode: Lecture Grading Option: Letter

PPD 692 Transportation and the Environment
Units: 4
Terms Offered: Sp Analysis of the benefits and costs of urban transportation; concepts of social costs; benefits and externalities; environmental costs; social justice issues; policy and planning alternatives for sustainable transportation. Duplicates Credit in former PPD 584. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 692

PPD 693 Communicating Public Policy
Units: 4
Terms Offered: Sp Exploring the complex relationships that exist among policies, policymakers, and the media; analyzing the role of journalists and policy analysts in the public policy process. Instruction Mode: Lecture Grading Option: Letter

PPD 694 Coastal Policy and Planning
Units: 4
Terms Offered: Sp Coastal management issues in the context of public and private users competing for land resources, the costs and benefits of seaports, compare coastal development models. Instruction Mode: Lecture Grading Option: Letter

PPD 695 Clinical Issues for Managers
Units: 1
Terms Offered: Fa Introduces key information and concepts for managers of clinical services. Examines problems and issues facing health care managers and clinician relations. Instruction Mode: Lecture Grading Option: Letter

PPD 696 Health Care Venture Development
Units: 2
Terms Offered: SpSm Focuses on developing the resourcefulness, know-how and decision support skills needed to identify, assess, and develop new health ventures. Includes business planning, financing, strategy, entrepreneurship. Recommended Preparation: PPD 510a or HMGT 565. Instruction Mode: Lecture Grading Option: Letter

PPD 697 Cultural Proficiency in Health Management and Policy
Units: 2
Terms Offered: Sp Provides an understanding of what social factors contribute to racial/ethnic, socioeconomic, and gender disparities in health and the culturally proficient provision of health care. Instruction Mode: Lecture Grading Option: Letter

PPD 698 Strategic Management and Change
Units: 4
Terms Offered: Theory and applied skills in management of social sector organizations with applications in international settings. Strategic management and planning; communication strategies; marketing and promotion; leadership skills; organizational development and change. Instruction Mode: Lecture Grading Option: Letter

PPD 699 Special Topics
Units: 2, 3, 4
Max Units: 08
Terms Offered: FaSpSm Selected topics in public policy, management and planning. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 700 Teaching Seminar
Units: 2
Terms Offered: Pedagogy: learning objectives, curriculum design, teaching methods, evaluation. Duplicates Credit in former PPD 700ab. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 706 Paradigms of Research and the Design of Inquiry
Units: 4
Terms Offered: FaSp Philosophy of social science; applied social research; research design; sampling and validity; overview of qualitative and quantitative methods. Instruction Mode: Lecture Grading Option: Letter

PPD 707 Survey Research Methods
Units: 4
Terms Offered: Sp Collection and use of survey data: basic orientation, mechanics of using SAS, and interpretation of survey tabulations. Prerequisite: PPD 525. Duplicates Credit in former PLUS 608. Instruction Mode: Lecture Grading Option: Letter

PPD 708 Qualitative Methods
Units: 4
Terms Offered: Sp Reflective and critical approach that questions data collection techniques, positions relative to those being studied, and explanatory methods. Recommended Preparation: PPD 525 or PPD 612. Duplicates Credit in former PLUS 609. Instruction Mode: Lecture Grading Option: Letter

PPD 709 Applications in the Advanced Quantitative Methods
Units: 4
Terms Offered: Sp Statistical and econometric modeling in real estate finance, urban economics, public policy, and planning research. Building, estimating and adjusting models for real-world. Prerequisite: PPD 525. Instruction Mode: Lecture Grading Option: Letter

PPD 710a Research Seminar
Units: 2
Terms Offered: FaSp Research fields and design; literature reviews; critical reading and critiquing; project development. Prerequisite: PPD 706. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 710b Research Seminar
Units: 2
Terms Offered: FaSp Research fields and design; literature reviews; critical reading and critiquing; project development. Prerequisite: PPD 706. Instruction Mode: Lecture Grading Option: Credit/No Credit
PPD 711 Theoretical Foundation of Public Management
Units: 4 Terms Offered: Fa Theories of the role, structure, and growth of the public sector; political economy of public bureaucracies; the voluntary nonprofit sector. Prerequisite: PPD 501b. Instruction Mode: Lecture Grading Option: Letter

PPD 712 Seminar in Public Policy
Units: 4 Terms Offered: Fa Critical analysis of the policy field; theoretical foundations; integration of quantitative, organizational, and political considerations; policy research. Prerequisite: PPD 501b, PPD 554. Duplicates Credit in former PUAD 626. Instruction Mode: Lecture Grading Option: Letter

PPD 713 Advanced Planning Theory
Units: 4 Terms Offered: Fa Positive and normative attitudes of public plans, policies, programs, organizational and institutional settings; policy analysis; modeling of social choices; evaluation; applied welfare analysis; performance assessment. Duplicates Credit in former PLUS 605. Instruction Mode: Lecture Grading Option: Letter

PPD 714 Advanced Urban Development
Units: 4 Terms Offered: Fa Urbanization, urban economics, land use, the politics of growth, governance, regulation, and the state, immigration, and place promotion. Instruction Mode: Lecture Grading Option: Letter

PPD 715 Political Economy and Institutional Analysis
Units: 4 Institutional dimension of political economy; analytic approaches in institutional analysis and their relevance for understanding the interactions between political and economic factors in public-sector issues. Instruction Mode: Lecture Grading Option: Letter

PPD 716 Econometrics for Policy, Planning and Management I
Units: 4 Implementation of microeconomic techniques and assessment of studies; empirical strategies for data collection and data preparation and analytic tasks in Stata. Prerequisite: PPDE 668 Instruction Mode: Lecture Grading Option: Letter

PPD 717 Econometrics for Policy, Planning and Management II
Units: 4 Identification of a significant and innovative empirical research question; production of a dissertation chapter or draft manuscript for publication in policy, planning or management. Prerequisite: PPD 716 Instruction Mode: Lecture Grading Option: Letter

PPD 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 18.0 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Duplicates Credit in former PLUS 790 and PUAD 790. Instruction Mode: Lecture Grading Option: Credit/No Credit

PPD 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PPD 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Duplicates Credit in former PLUS 794abcdz and PUAD 794abcdz. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Policy, Planning, and Development — Expanded

PPDE 505 Professional Workshop in Public Administration
Units: 2 Evidence-based argumentation, written reporting and communication in public administration; research skills for effective stakeholder engagement. Instruction Mode: Lecture Grading Option: Letter

PPDE 506 Professional Residency in Public Administration
Units: 1 Skills in written reporting, professional briefings and social media for public administrators; effective engagement for stakeholders and constituencies; research, analysis and reporting on current policy or management cases Instruction Mode: Lecture Grading Option: Letter

PPDE 507 Capstone Residency in Public Administration
Units: 1 Development of enhanced skills in issue framing and options analysis in public administration for internal and external audiences. Instruction Mode: Lecture Grading Option: Letter

PPDE 580 Social Innovation
Units: 4 Strategies and processes of social innovation in the context of economics, institutional, and innovation theory. How social innovation materializes across all sectors, including the government, nonprofit, and for-profit spheres. Critical thinking and practical application development to solve social problems. Instruction Mode: Lecture Grading Option: Letter

PPDE 589 Public Policy and Administration in the European Union, Germany, and the United States
Units: 6 Terms Offered: Sm Governance issues from a comparative perspective with a special focus on the US, Germany and the European Union. Instruction Mode: Lecture Grading Option: Letter

PPDE 610 Population Health Management
Units: 2 Terms Offered: Sm Principles and concepts of population health management; application of key principles that drive health and well being of populations; development and evaluation of strategies in management of disease and prevention of illness. Instruction Mode: Lecture Grading Option: Letter

PPDE 611 Digital Health
Units: 2 Terms Offered: FaOrigins and impact of Digital health on the healthcare industry; acquire knowledge on how to identify and implement strategies on incorporating digital health in the workplace. Instruction Mode: Lecture Grading Option: Letter

PPDE 612 Consulting in Healthcare Organizations
Units: 2 The application of decision analysis principles necessary for determining priorities for uses of strategic human, facility and financial resources in healthcare organizations; analytic and consulting skills; case studies. Instruction Mode: Lecture Grading Option: Letter

PPDE 628 Introduction to Lean Health Care
Units: 2 Performance improvement methods and principles in health care; how Lean, Six-Sigma, and Human Centered Design (HCD) methodologies are applied to health care organizations to improve quality and efficiency. Instruction Mode: Lecture Grading Option: Letter

PPDE 629 Transitional Care and Hospital Readmission Prevention
Units: 2 Alternatives within the healthcare delivery system beyond the acute hospital; how social, medical and financial determinants provide alternatives to acute care and impact a patient’s disposition; Hospital Readmission Penalty Program; effect of the Affordable Care Act of 2010 on patient care. Instruction Mode: Lecture Grading Option: Letter

PPDE 630 Community Health Planning
Units: 4 Terms Offered: Sp The role of planning in sustaining community health; examines relationship between health and environment; historical development, conceptualization and practice of community health planning. Instruction Mode: Lecture Grading Option: Letter

PPDE 631 Public Space: Theory, Policy, and Design
Units: 4 Examination of contemporary issues and practices in the design, production, and uses of public space in a comparative perspective; implications for future design and public policy. Instruction Mode: Lecture Grading Option: Letter

PPDE 632 Sustainable Cities
Units: 4 Terms Offered: FaSp Exploration of environmental problems linked to urbanization, drawing on historical analysis, social theory, scientific research, and city planning/design practice. Alternative policy options for urban sustainability. Duplicates Credit in the former GEOG 701. Instruction Mode: Lecture Grading Option: Letter

PPDE 633 Communicating City Design: Positions and Representations
Units: 2 Communicating the processes, products, and concepts of city design; merging theoretical and skill-based
exercises for effective communication; verbal and graphic communication; physical components of urban landscape and dimensional attributes. Instruction Mode: Lecture Grading Option: Letter

PPDE 634 Methodology, Methods and Tools for Urban Sustainability
Units: 2, 3
Terms Offered: FaSp
Methodology, assessment and planning methods for urban sustainability and land use planning; how the choice and use of theory and methods impact the planning process; systems and spatial analysis. Instruction Mode: Lecture Grading Option: Letter

PPDE 635 Housing and Land Use in Rapidly Urbanizing Regions
Units: 4
Terms Offered: Fa
Interdisciplinary approach to conceptualize urban land and property rights; property rights strategies; design and policy interventions; the struggle for rights to space in the city. Instruction Mode: Lecture Grading Option: Letter

PPDE 636 Urban Spatial Ethnography and Critical Cartography
Units: 4
Theories and methods of how to determine spatial data about, analyze, and produce visualizations of urban space; conventional conceptualization and representations of cities and urban spatial data. Recommended Preparation: PPD 631 or other GIS course work. Instruction Mode: Lecture Grading Option: Letter

PPDE 637 Urban Mass Transit
Units: 4
Terms Offered: Fa Fundamentals of urban mass transit planning. Topics include the fiscal context of mass transit planning, fares and farebox recovery, ridership forecasts, land development near transit, and transit operations, scheduling, and network design. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CE 637

PPDE 638 Race, Arts, and Placemaking
Units: 4
Exploration of the interrelationships between race, arts, and urban space through an inter-disciplinary inquiry of art practice, history, and policy, and the role of design in economic development, and cultural geography fields. Instruction Mode: Lecture Grading Option: Letter

PPDE 639 Housing Dynamics for Policy and Planning
Units: 4
Comprehensive introduction to the dynamics of the housing sector, problems, programs, and policies. Attention to both publicly assisted and market rate housing, recent trends and current debates. Instruction Mode: Lecture Grading Option: Letter

PPDE 640 Environmental Planning and Analysis
Units: 4
Fundamentals of environmental planning and policy from an urban planning perspective; role of markets and market failures; environmental risks; policy approaches; modeling tools for environmental impact assessment and forecasts. Instruction Mode: Lecture Grading Option: Letter

PPDE 641 Art and the City
Units: 4
Role of art in modern society with a particular emphasis on the urban context including public spaces, the process of gentrification, and redevelopment; theoretical and research approaches.

Duplicates Credit in former PPD 424
Instruction Mode: Lecture Grading Option: Letter

PPDE 644 Land Use and Transportation Planning
Units: 4
Key theories of land use — transportation interactions; understanding of land markets and derived-demand approach; use of evidence for information; travel data collection methods; application of land use. Instruction Mode: Lecture Grading Option: Letter

PPDE 645 Financial Management of Nonprofit Organizations
Units: 4
Accounting and financial management principles and practices in nonprofit organizations: budgeting financial analysis, internal controls, financial policies, grant making and financial reporting. Duplicates Credit in PPD 541. Instruction Mode: Lecture Grading Option: Letter

PPDE 646 Grant Writing Practicum
Units: 2
Grant making process and proposal development; philanthropic foundations; strategies for funding; budgeting, legal models, and evaluation; peer review. Instruction Mode: Lecture Grading Option: Letter

PPDE 647 Civic Engagement in Governance
Units: 4
Roles of citizens, civic associations, nonprofit organizations, government and business in democratic governance; civil society as the interface among these entities; techniques, purposes and contexts of civic engagement. Instruction Mode: Lecture Grading Option: Letter

PPDE 648 Performance Management
Units: 4
Concept and practice of performance management; examination of performance measurement; analysis and reporting practices for organizational accountability and improvements; performance design, indicators, utilization of information. Instruction Mode: Lecture Grading Option: Letter

PPDE 649 International Development NGOs: Theory, Policy and Management Issues
Units: 4
Critical issues involved in International Development NGO management; theoretical and analytical framework to understand organizational features; NGO management, issues and challenges. Instruction Mode: Lecture Grading Option: Letter

PPDE 650 Social and Nonprofit Marketing
Units: 4
Marketing techniques in nonprofits and philanthropies, government agencies, health systems, application of marketing for social purposes; outreach strategies and efforts in nonprofits. Instruction Mode: Lecture Grading Option: Letter

PPDE 660 Environmental Policy Design and Analysis
Units: 4
Analytical foundation for design of institutions and policies; environmental policy; welfare economics and market failure; policy evaluation; economic policy instruments; climate change policy issues; other policy issues. Prerequisite: PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPDE 661 Methods for Equity Analysis
Units: 4
Techniques to measure inequality and segregation. Policy evaluation using techniques for causal inference. Prerequisite: PPD 558. Instruction Mode: Lecture Grading Option: Letter

PPDE 662 China from a US Policy Perspective
Units: 4
Examination of China through the lens of the US federal government; trade issues; economic coordination and stability; environment and sustainability; defense and security; human development. Instruction Mode: Lecture Grading Option: Letter

PPDE 663 Media for Policy Change
Units: 4
Terms Offered: Sp The use of media as an implement of social policy and change at the state and federal level; analysis of social problems and the effect policy practitioners influence on change. Instruction Mode: Lecture Grading Option: Letter

PPDE 664 Seminar in Social Justice and Public Policy
Units: 4
Major theories of social justice in the US and globally; how theories of social justice influence policy, urban planning, and public administration; how to bridge theories about justice for professional practice. Instruction Mode: Lecture Grading Option: Letter

PPDE 665 Economic Impact Analysis: Methods and Applications
Units: 2
Terms Offered: Sp Economic models for understanding and measuring impacts of man-made and natural disasters; analysis of public policy initiatives to mitigate environmental threats; model construction and software. Prerequisite: PPD 503 Instruction Mode: Lecture Grading Option: Letter

PPDE 668 Applied Econometrics for Program Evaluation
Units: 4
Terms Offered: FaSp Application of econometric methods for causal inference. Production and evaluation of empirical estimates of causal relationships to inform evidence-based policy decisions. Prerequisite: PPD 558 Instruction Mode: Lecture Grading Option: Letter

PPDE 669 U.S. Education Policy
Units: 4
The role of public policy in education; application of theoretical frameworks to analyze policy design, implementation and impact; key concepts of policy analysis and key issues in education policy. Instruction Mode: Lecture Grading Option: Letter

PPDE 670 American Contemporary Homegrown Violent Extremism
Units: 4
Terms Offered: Sp Examination of the past half-century in America in understanding how public organizations and supporting legislation may deal with the threat of various forms of homegrown violent extremism. Instruction Mode: Lecture Grading Option: Letter

PPDE 671 Economic Analysis of Education Policy
Units: 4
Terms Offered: Sp Exploration of key educational policy issues and the relation of economic theories and principles; using economic theory to predict how policy affects education outcomes. Instruction Mode: Lecture Grading Option: Letter
Note: Prerequisite: A grade of C or better in COMM 391.

PR 209 Effective Writing for Strategic Public Relations
Units: 4 Terms Offered: FaSp Focus on the unique writing requirements of social, online, broadcast, print and other media in the new rules of the game. Media is social. Influencers reign. Prerequisite: PR 209 and PR 250

Term Offered: FaSp: Focus on the unique writing requirements of social, online, broadcast, print and other media in the new rules of the game. Media is social. Influencers reign. Prerequisite: PR 209 and PR 250

Units: 4 Media is social. Influencers reign. Prerequisite: PR 209 and PR 250

PR 250 Specific Public Relations: An Introduction
Units: 4 Terms Offered: FaSp Focus on the unique writing requirements of social, online, broadcast, print and other media in the new rules of the game. Media is social. Influencers reign. Prerequisite: PR 209 and PR 250

Term Offered: FaSp: Focus on the unique writing requirements of social, online, broadcast, print and other media in the new rules of the game. Media is social. Influencers reign. Prerequisite: PR 209 and PR 250

Units: 4 Media is social. Influencers reign. Prerequisite: PR 209 and PR 250

PR 340 Introduction to Advertising
Units: 4 Terms Offered: FaSp History and development of advertising; basic advertising campaigns showing relationships of marketing, creative, print and electronic media. Duplicates Credit in former JOUR 340 Instruction Mode: Lecture Grading Option: Letter

Units: 4 Learn to build, promote and manage a personal brand through critical analysis, case study, interactive interpretation and creative problem solving. Duplicates Credit in former JOUR 492 Instruction Mode: Lecture Grading Option: Letter
PR 498 Public Relations Honors Seminar
Units: 2 Terms Offered: Sp Leadership workshop inspires students to be braver and more creative; encourages them to discover their leadership potential/ explore new challenges inside and outside of classroom. Registration Restriction: Admission to Honors Program Instruction Mode: Lecture Grading Option: Letter
PR 501 Advocacy Communications
Units: 4 Study and evaluation of communications campaigns by civil society actors to influence public policy with a focus on messaging and shaping news coverage. Duplicates Credit in former JOUR 501 Instruction Mode: Lecture Grading Option: Letter
PR 504 Strategic Public Relations Research, Evaluation and Insights
Units: 3 Terms Offered: Fa Covers use of primary and secondary research methods, analysis, web monitoring and analytics, pre- and post-campaign testing, and other techniques in program planning and evaluation. Prerequisite: PR 508 Duplicates Credit in former JOUR 504 Instruction Mode: Lecture Grading Option: Letter
PR 508 Public Relations and Advertising Fundamentals and Strategy
Units: 3 Explores the practice of public relations and advertising in a broad strategic communication and digital context; emphasizing strategy, critical thinking
and problem solving. Duplicates Credit in former JOUR 508

Instruction Mode: Lecture

Grading Option: Letter

PR 510 Legal, Ethical and Social Foundations of Strategic Public Relations

Units: 3 Terms Offered: Sp: Explores the origins, effects of, and processes for adhering to the complex network of legal, ethical, and social responsibilities of the contemporary PR practitioner. Duplicates Credit in former JOUR 510

Instruction Mode: Lecture Grading Option: Letter

PR 522 Storytelling with Data Intelligence

Units: 3 Provides the foundations of quantitative research methods, the basics of storytelling with data and critical thinking skills in public relations, advertising and related fields. Instruction Mode: Lecture Grading Option: Letter

PR 523 Advanced Audience Insight Mining

Units: 3 Provides student training with cutting-edge digital research methods and applied data analytic skills relevant to current and future public relations and advertising practices. Instruction Mode: Lecture Grading Option: Letter

PR 524 Multimedia Content Creation for Brand Storytelling I

Units: 3 Covers the conceptualization and creation of strategy-based, engaging, primarily web-based multimedia content for use by organizations of all types. Instruction Mode: Lecture Grading Option: Letter

PR 525 Multimedia Content Creation for Brand Storytelling II

Units: 3 Conceptualization and creation of strategic, research-based, primarily image and video multimedia content for use by organizations of all types. Prerequisite: PR 524 Instruction Mode: Lecture Grading Option: Letter

PR 526 Understanding Transmedia Audiences

Units: 3 Understanding contemporary media audiences through theoretical concepts and developing applied business insights from research using interviews, ethnography, netnography, content analysis, data interpretation and visualization. Instruction Mode: Lecture Grading Option: Letter

PR 527 Multimedia Content Creation for Strategic Public Relations

Units: 3 Terms Offered: Sp: Covers the conceptualization and creation of strategy-based, engaging, primarily web-based multimedia content for use by organizations of all types. Prerequisite: PR 508 and PR 526 Duplicates Credit in former JOUR 527 Instruction Mode: Lecture Grading Option: Letter

PR 529 Business and Economic Foundations for Communicators

Units: 3 Speaking the language of the board room; understanding business goals and objectives; economic literacy; financial/investor relations; understanding organizational disciplines and how they relate to corporate communication; PR/communication business processes and management. Instruction Mode: Lecture Grading Option: Letter

PR 530 Strategic Public Relations Management

Units: 3 An analytical, case study-based approach to strategic campaign planning, management and execution, with heavy emphasis on problem solving and the role of research. Duplicates Credit in former JOUR 530 Instruction Mode: Lecture Grading Option: Letter

PR 532 International Public Relations

Units: 3 Public information policies and practices of national and supranational government units and national and multinational corporations involved in international relations. Duplicates Credit in former JOUR 532 Instruction Mode: Lecture Grading Option: Letter

PR 534 Case Studies in Public Relations

Units: 3 Analysis of landmark and contemporary public relations cases; evaluation of current literature, programs, and professional personnel; identification of emerging issues. Duplicates Credit in former JOUR 534 Instruction Mode: Lecture Grading Option: Letter

PR 535 Persuasive Writing

Units: 3 Teaches persuasive writing for practitioners in public relations, advertising, influencer relations and brand activation through in-class writing drills with and without deadline pressure. Duplicates Credit in former JOUR 535 Instruction Mode: Lecture Grading Option: Letter

PR 536 Digital, Social and Mass Media Public Relations Strategies

Units: 3 Analysis of shifting media environment; development and execution of multi-platform campaigns based on organizational goals and audience characteristics. Duplicates Credit in former JOUR 536 Instruction Mode: Lecture Grading Option: Letter

PR 537 Public Relations and Branding

Units: 3 Concept of branding, including brand definition, brand engagement, brand management and the role of public relations in creating brand value. Duplicates Credit in former JOUR 537 Instruction Mode: Lecture Grading Option: Letter

PR 538 Image Management in Entertainment

Units: 3 In-depth study of the creation and protection of reputations for entertainment properties of all types and the characteristics that distinguish it from other disciplines. Duplicates Credit in former JOUR 538 Instruction Mode: Lecture Grading Option: Letter

PR 539 Lifestyle Public Relations Audience Engagement

Units: 3 Terms Offered: Sp: Examines engagement/activation as well as the nuances of lifestyle practitioner. Dissects segments such as towns and neighborhoods; race/ethnicity by cultural practices/norms. Recommended Preparation: PR 444 Instruction Mode: Lecture Grading Option: Letter

PR 540 International Journalism Seminar I

Units: 3 (Enroll in JOUR 540)

PR 561 Principles of Public Relations

Units: 4 Terms Offered: Other Practical and theoretical survey of the public relations profession as it is currently practiced, providing a social/contextual backdrop for further study of the field. Duplicates Credit in former JOUR 561 Instruction Mode: Lecture Grading Option: Letter Crosslisted as CMGT 561

PR 562 Foundations of Effective PR Writing

Units: 4 Terms Offered: Other Specialized writing for persuasive and strategic communication contexts. Intensive focus on public relations writing for print, online, the broadcast, and social media. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CMGT 562

PR 563 Promotional and Product Public Relations

Units: 3 Planning, managing and evaluating integrated communications campaigns utilizing public relations strategies in concert with advertising and other marketing disciplines; emphasis on research, case studies and campaign development. Duplicates Credit in former JOUR 563 Instruction Mode: Lecture Grading Option: Letter

PR 565 Corporate Public Relations and Reputations

Units: 3 Earn all aspects of corporate communications and reputation management through real-time news analysis, cases and senior guest speakers from the world’s largest, most admired companies. Duplicates Credit in former JOUR 565 Instruction Mode: Lecture Grading Option: Letter

PR 566 Public Relations for Multicultural and Niche Audiences

Units: 2 Developing, managing and evaluating campaigns designed to reach audiences segmented by culture, lifestyle and other factors. Duplicates Credit in former JOUR 566 Instruction Mode: Lecture Grading Option: Letter

PR 568 Crisis Management in Strategic Public Relations

Units: 3 Focuses on theories, concepts and practices in risk assessment, issues monitoring, and crisis anticipation/management in a wide variety of organizational contexts, and from multiple perspectives. Duplicates Credit in former JOUR 568 Instruction Mode: Lecture Grading Option: Letter

PR 569 Ethics in Public Relations

Units: 3 Application of public relations principles to ethical conduct in a business, government agency, non-profit organization or consulting entity; emphasis on applicable cases and dialogue. Duplicates Credit in former JOUR 569 Instruction Mode: Lecture Grading Option: Letter

PR 583 Managing Communication in the Entertainment Industry

Units: 4 (Enroll in CMGT 543)

PR 590 Directed Research

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: Fa/Sp/Sm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PR 594a Master’s Thesis

Units: 2 Terms Offered: Fa/Sp/Sm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit
PR 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture, Lab Grading Option: In Progress to Credit/No Credit

PR 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: Credit/No Credit

PR 597 Financial and Investor Communications
Units: 3 Provides a practical, working understanding of financial communications, concerned primarily with articulating a company's value. This applies to matters of corporate image and financial/investment environment. Prerequisite: PR 508 Registration Restriction: Open only to Public Relations and Strategic Public Relations majors. Duplicates Credit in former JOUR 507. Instruction Mode: Lecture Grading Option: Letter

PR 598 Improvisational Leadership
Units: 3 Leadership workshop inspires stepping outside of comfort zones to be braver and more creative. Encourages discovery of leadership potential by exploring new ideas and challenges. Instruction Mode: Lecture Grading Option: Letter

PR 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: max 8 Terms Offered: FaSpSm Seminar in selected topics in journalism. Instruction Mode: Lecture Grading Option: Letter

Product Innovation
PRIN 501 The Creator's Mindset
Units: 4 In-depth exploration of the mindsets, personalities and social, cultural and political factors that led to the world's greatest breakthroughs. Instruction Mode: Lecture Grading Option: Letter

PRIN 502 History and Theory of Product Innovation
Units: 2 Covers milestones of product design, including game-changing concepts and processes that led to discovery of innovative and new enterprise opportunities. Instruction Mode: Lecture Grading Option: Letter

PRIN 503 Principles of Human-Centered Design
Units: 2 Advanced methods and techniques for applying human-centered design to the development and launch of products and enterprises. Includes workshop design and facilitation, co-creation and synthesis. Instruction Mode: Lecture Grading Option: Letter

PRIN 504 Aesthetics of Form I
Units: 4 In-depth look at what shapes our aesthetic values. Students gain facility in critical dialog, recognition and practice of aesthetic decisions across physical and virtual product platforms. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 505 Aesthetics of Form II
Units: 4 Through case studies and applied learning students gain advanced knowledge in consumer desirability and the functional aspects of virtual and physical form and aesthetic design. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 510 Foundation Studio
Units: 4 An intensive look at the process of bringing a product from concept to market. Includes theory and applied techniques for both physical and virtual products. Instruction Mode: Lecture Grading Option: Letter

PRIN 515 Maker Foundation I
Units: 2 Advanced visualization concepts, techniques and tools used to communicate ideas, solve problems and enhance collaboration for product design and development. Corequisite: PRIN 516 Instruction Mode: Lecture Grading Option: Letter

PRIN 516 Maker Foundation II
Units: 2 Advanced explorations of digital design tools, including industry standard software. Corequisite: PRIN 515 Instruction Mode: Lecture Grading Option: Letter

PRIN 520 Creator's Studio
Units: 4 Max Units: 12 Research, ideation, design, development and fabrication of products; applied principles of human-centered design, blue ocean strategies and product desirability, feasibility and viability. Recommended Preparation: PRIN 510 Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 525 Physical Maker Lab
Units: 2 Max Units: 12 Fabrication of physical products; includes explorations of soft goods, hard goods and products suitable for hybrid or unique applications. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 526 Virtual Maker Lab
Units: 2 Max Units: 12 Making and execution of virtual products; includes explorations of digital and interactive systems and experiences, and products suitable for hybrid or unique applications. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 530 Business Essentials for Product Innovators
Units: 4 Foundational concepts, methodologies and techniques for developing and launching products and enterprises; product road-mapping, supply chain, market research and user/consumer insight. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 531 Product Venture Design and Foresight
Units: 4 What if doing business was re-framed as a medium for design? Students uncover their ability to see and activate groundbreaking opportunities in new product development. Prerequisite: PRIN 530 Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 532 Leading Product Enterprises
Units: 4 Advanced concepts, methodologies and techniques for developing and launching products and enterprises; organizational structure and culture, finance and sustainable growth. Prerequisite: PRIN 531 Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 535 Entrepreneur Lab
Units: 2 Max Units: 12 Selected topics covering development of products for new enterprises; product viability, enterprise models, talent acquisition and management and legal considerations. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 550 Industry Lab
Units: 2 Max Units: 12 Practicum through which student teams serve as design strategists for industry collaborators, and learn advanced methods and processes to solve problems in collaborative, field-specific environments. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 575a The Garage Experience
Units: 2 Product innovation capstone leading to innovative outcomes, including advanced research artifacts, operational prototypes and breakthrough enterprises across multiple fields and industries. Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 575b The Garage Experience
Units: 2 Max Units: 6 Continuation of PRIN 575a. Students refine and perfect outcomes, leading to a pitch/presentation to faculty and industry experts for funding or validation and critical networking. Prerequisite: PRIN 575a Instruction Mode: Lecture, Lab Grading Option: Letter

PRIN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Letter

PRIN 591 Individual Instruction
Units: 1, 2, 3, 4 Max Units: 8 Weekly, individual instruction with an Academy professor for deep exploration and study within a Product Innovation core discipline. Instruction Mode: Lecture Grading Option: Letter

PRIN 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 8 Comprehensive exploration of particular aspects of product innovation. Selected topics. Instruction Mode: Lecture Grading Option: Letter

Pharmaceutical Sciences
PSCI 501 Drugs: Principles of ADME and Bioavailability
Units: 4 Terms Offered: Fa Principles of drug formulation, delivery, metabolism and transport; influence of physicochemical properties, physiology, and pharmacogenetics on these properties; drug-drug interactions; and pharmacokinetics. Instruction Mode: Lecture Grading Option: Letter

PSCI 502 Principles of Therapeutic Mechanisms
Units: 4 Terms Offered: Fa Principles of mechanisms of actions of common drug classes, medicinal chemistry, pharmacology, drug interactions with protein targets, biologics, drug targeting and nanotechnology. Instruction Mode: Lecture Grading Option: Letter

PSCI 503 Principles of Research Methodology
Units: 4 Terms Offered: Sp Covers various topics focused on the analysis of biological molecules and samples. Techniques in detection, separation and quantitative analysis of biological molecules will be presented and discussed. Instruction Mode: Lecture Grading Option: Letter

PSCI 511 Drugs: Solubility, Dissolution and Absorption
Units: 2 Terms Offered: Fa Drug
formulation based on physicochemical properties, ionization, solubility, rate of solution, partitioning; methods to improve these properties to enhance absorption. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 512 Drugs: Metabolism and Transports**
- **Units:** 2
- **Terms Offered:** Sp, Drug metabolism system and transport, mechanism of CYP P450 enzymes, chemistry of metabolic pathways, prediction of metabolism, mechanism of drug uptake and efflux, drug-drug interactions. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 513 Drugs: Biologies and Specialty Pharmaceuticals**
- **Units:** 2
- **Terms Offered:** Sp, Formulation and delivery of biologics, mechanism of action and use of biologics in major disease states, and value of specialty pharmaceuticals. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 515 Drugs: Genetics and Pharmacogenetics**
- **Units:** 2
- **Terms Offered:** Sp, Drug-related genetics principles; pharmacogenetics influencing drug action, including individual responses to drugs based on SNPs; and genetic engineering and gene therapy. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 516 Free Radical Biology in Health and Disease**
- **Units:** 4
- **Terms Offered:** Fa, Principles of free radical biochemistry and its effects on pathophysiology; redox regulation of cell signaling and transcriptional pathways. *Recommended Preparation:* Undergraduate course in Biochemistry or Molecular Biology or Cell Biology. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 531 Cell Biology**
- **Units:** 4
- **Enroll in:** INTD 531

**PSCI 556 Principal Research Approaches and Scientific Writing**
- **Units:** 4
- **Terms Offered:** Fa, Familiarizes new graduate students with basic approaches used in biomedical research, with a focus on approaches in pharmaceutical, pathological and translational sciences. Provides an understanding of what to expect in the coming years as a graduate student doing biomedical research and in scientific writing. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 557 Introduction to Tools and Techniques for Chemical Biology**
- **Units:** 2
- **Terms Offered:** Sp, Multidisciplinary science where the knowledge of chemistry is utilized to solve problems in biology, and biological systems are evolved to gain new functions. This course aims to establish a great opportunity for graduate students at the interface of biology and chemistry. *Recommended Preparation:* formal course work in chemistry and biochemistry. *Instruction Mode:* Lecture, Discussion *Grading Option:* Letter

**PSCI 561 Molecular Biology**
- **Units:** 4
- **Terms Offered:** Fa, Enroll in INTD 561

**PSCI 571 Biochemistry**
- **Units:** 4
- **Terms Offered:** Fa, Enroll in INTD 571

**PSCI 590 Directed Research**
- **Units:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- **Terms Offered:** Fa, Sp, Sm, Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. *Instruction Mode:* Lecture *Grading Option:* Credit/No Credit

**PSCI 594a Master's Thesis**
- **Units:** 2
- **Terms Offered:** Fa, Sp, Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. *Instruction Mode:* Lecture *Grading Option:* In-progress to Credit/No Credit

**PSCI 594b Master's Thesis**
- **Units:** 2
- **Terms Offered:** Fa, Sp, Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. *Instruction Mode:* Lecture *Grading Option:* In-progress to Credit/No Credit

**PSCI 594z Master's Thesis**
- **Units:** 0
- **Terms Offered:** Fa, Sp, Credit on acceptance of thesis. *Prerequisite:* completion of all required course work for the MS degree. *Instruction Mode:* Lecture *Grading Option:* In-progress to Credit/No Credit

**PSCI 596 Internship for Curricular Practical Training**
- **Units:** 1, 2, 3, 4 Max
- **Terms Offered:** Fa, Sp, Sm, Credit

**PSCI 599 Special Topics**
- **Units:** 2, 3, 4 Max
- **Terms Offered:** Fa, Sp, Credit

**PSCI 633 Free Radical Chemistry, Biology, and Medicine**
- **Units:** 4
- **Terms Offered:** Fa, Enroll in GER 666

**PSCI 655 Immunopharmaceutics**
- **Units:** 2, 2
- **Terms Offered:** Fa, Lectures and discussion sessions on pharmaceutics related immunology, including drugs affecting the immune system, antibodies and cytokines as drugs, and new developments in immunobiotechnology. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 662 Advanced Pharmacokinetics/ Pharmacodynamics**
- **Units:** 2 Max
- **Terms Offered:** 4.0, Credit

**PSCI 664 Drug Discovery and Design**
- **Units:** 4
- **Terms Offered:** Fa, Sp, Credit

**PSCI 665 Drug Transport and Delivery**
- **Units:** 4
- **Terms Offered:** Fa, Sp, Credit

**PSCI 667 Intracellular Drug Delivery and Targeting**
- **Units:** 2, 2
- **Terms Offered:** Fa, Sp, Credit

**PSCI 734 Seminar in Pharmaceutical Science**
- **Units:** 1
- **Terms Offered:** Fa, Sp, Sm, Review of current pharmaceutical and related research topics. *Instruction Mode:* Lecture *Grading Option:* Letter

**PSCI 790 Research**
- **Units:** 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
- **Terms Offered:** Fa, Sp, Sm, Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. *Instruction Mode:* Lecture *Grading Option:* Credit/No Credit

**PSCI 791L Research**
- **Units:** 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max
- **Terms Offered:** Fa, Sp, Sm, Credit

**PSCI 794a Doctoral Dissertation**
- **Units:** 2
- **Terms Offered:** Fa, Sp, Sm, Credit

**PSCI 794b Doctoral Dissertation**
- **Units:** 2
- **Terms Offered:** Fa, Sp, Sm, Credit

**PSCI 794c Doctoral Dissertation**
- **Units:** 2
- **Terms Offered:** Fa, Sp, Sm, Credit

**PSCI 794d Doctoral Dissertation**
- **Units:** 2
- **Terms Offered:** Fa, Sp, Sm, Credit

**Psychology**
- **PSYC 100L Introduction to Psychology**
- **Units:** 4
- **Terms Offered:** Fa, Sp, Sm, Credit

Introduction to psychological science,
including historical and contemporary approaches. Behavior examined from biological, cognitive, social, developmental, and personality perspectives. Disorders and treatments. Satisfies New General Education in Category D: Life Sciences

PSYC 165Lg Drugs, Behavior, and Society
Units: 4 Terms Offered: Irregular An integrative systems perspective of drugs; including their historical, economic, and cultural importance, psychopharmacology, addiction, relationship to crime, and therapeutic use in treating psychological disorders. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 201Lg The Science of Happiness
Units: 4 Evaluates scientific research on human happiness. Integrates research from psychology, economics, and neuroscience in the evaluation of personal and public policy choices. Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 210gm Social Analysis of Gender
Units: 4 Terms Offered: FaSpSm (Enroll in SWMS 210) Satisfies Global Perspective in Category G: Citizenship in a Diverse World

PSYC 240gx Scientific Inquiry and Reasoning in Health Care
Units: 4 Critical analysis and reasoning skills required to solve scientific problems in human behavior, including presentation of data, logic of research design, statistics, and research ethics. Satisfies New General Education in Category F: Quantitative Reasoning

PSYC 274L Statistics
Units: 4 Terms Offered: FaSpSm Introduction to the use of statistics in psychology: basic ideas in measurement; frequency distributions; descriptive statistics; concepts and procedures in statistical inference. Recommended Preparation: PSYC 100. Satisfies New General Education in Category F: Quantitative Reasoning

PSYC 275Lg Language and Mind
Units: 4 Terms Offered: FaSp Sm (Enroll in LING 275)

PSYC 290x Supervised Research in Psychology
Units: 2 or 4 Max Units: 8.0 Terms Offered: FaSpSm Supervised Research with department faculty. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 301L Cognitive Processes
Units: 4 Terms Offered: Irregular Experimental and theoretical aspects of human memory, perception, thinking, and language. Prerequisite: PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 304L Sensation and Perception
Units: 4 Terms Offered: Irregular Receptor processes and stimulus organization; traditional topics in the perception of objects, space, time. Prerequisite: PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 305 Learning and Memory
Units: 4 Terms Offered: Irregular Principles involved in classical and operant conditioning. Concentration on basic causes of behavior; consideration of the relevance of simple behavioral laws to complicated human behavior. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 314L Experimental Research Methods
Units: 4 Terms Offered: FaSp Sm Experimental research methods in psychology: nature and concepts of scientific method. Prerequisite: PSYC 100 and PSYC 274. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 316L Non-Experimental Research Methods
Units: 4 Terms Offered: FaSpSm Non-experimental research methods in psychology. Observational, survey and data analysis exercises. Prerequisite: PSYC 100 and PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 320 Principles of Psychobiology
Units: 4 Terms Offered: Irregular The integrative study of bio-behavioral systems. Evolutionary, developmental, ecological, social, ethological, and physiological factors mediating representative behavioral and psychological phenomenon are examined in detail. Prerequisite: PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter

PSYC 326 Behavioral Neuroscience
Units: 4 Terms Offered: FaSp Sm Neural bases of behavior. Concentration on sensory and motor processes and the interaction of neural, chemical, and hormonal systems. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 336L Developmental Psychology
Units: 4 Terms Offered: FaSp Sm Child and adolescent behavior and associated theories; exploration of the continuity between child and adult behavior. Prerequisite: PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 337L Adult Development and Aging
Units: 4 Genetic, physical, and social influences during adult years on perception, learning and memory, intelligence, personality, social roles, and normal and deviant behavioral patterns. Prerequisite: PSYC 100. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 339Lg Origins of the Mind
Units: 4 Terms Offered: Irregular Exploration of ancient philosophical questions concerning the origins of human knowledge through empirical studies of infants, animals, and adults from diverse cultures. Satisfies New General Education in Category D: Life Sciences Satisfies Old General Education in Category IV: Science and Its Significance Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 353g Close Relationships
Units: 4 Terms Offered: FaSp Sm Scientific perspective of close relationships: intimate relationships, friendships and others, evolutionary and biological bases of attraction and love, historical, social, cultural influences. Prerequisite: PSYC 100. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

PSYC 355 Social Psychology
Units: 4 Terms Offered: FaSp Theoretical and experimental analysis of human behavior. Social processes involved in attitudes, conformity, interpersonal perception, liking, affiliation, aggression, altruism, and group dynamics. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 360 Abnormal Psychology
Units: 4 Terms Offered: FaSp The commonly diagnosed behavior pathologies; biological, social, cultural, and developmental antecedents of abnormal behavior; principles of learning, perception, and motivation as they relate to psychopathology. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 361 Introduction to Clinical Psychology
Units: 4 Terms Offered: Irregular Introduction to the scientist-practitioner model of clinical psychology, including research methods, psychological assessment and diagnosis, psychotherapeutic interventions, and treatment of special populations. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 363 Criminal Behavior
Units: 4 Genetic, biological, psychological, and sociological characteristics of those who evidence criminal behavior; theoretical formulations to be reviewed and appraised. Prerequisite: PSYC 100. Duplicates Credit in the former PSYC 463. Instruction Mode: Lecture Grading Option: Letter

PSYC 365 Introduction to Forensic Psychology
Units: 4 Terms Offered: FaSpSm Survey of current topics, technologies and techniques. Students acquire a basic understanding of how forensic psychologists contribute their unique expertise to the American legal system. Prerequisite: PSYC 100. Duplicates Credit in the former PSYC 465. Instruction Mode: Lecture Grading Option: Letter

PSYC 367 Stress, Health, and the Mind-Body Connection
Units: 4 Terms Offered: Irregular Introduction to psychological, biological and behavioral processes affecting physical health, including stress, coping with disease, health behaviors and socioeconomic and cultural influences on health. Prerequisite: PSYC 100Lg Satisfies New General Education in Category C: Social Analysis Registration Restriction: Open only to Health and Human Sciences, Psychology, Social Sciences (Psychology) majors Instruction Mode: Lecture Grading Option: Letter

PSYC 372 Human Sexuality
Units: 4 Psychological and physiological base of sexuality; gender identity, childbearing, birth control, venereal diseases; dysfunctions and treatments.
through studies of nonhuman animals.

Exploration of human nature

Letter

Instruction Mode: Lecture Grading Option: Letter

PSYC 380 Junior Honors Seminar
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Advanced study of scientific inquiry in psychology with in-depth analysis of current research by faculty in the Psychology Department. Preparation for senior honors thesis research. Corequisite: PSYC 314. Instruction Mode: Lecture Grading Option: Letter

PSYC 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PSYC 391 Directed Field Experience in Psychology
Units: 1, 2, 3, 4 Max Units: 4.0 Terms Offered: FaSpSm Individual field experience and independent study supervised by an on-site professional and USC faculty sponsor. Prerequisite: PSYC 100; Recommended Preparation: minimum of three courses completed in psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 404L Psychophysiology of Emotion
Units: 4 Terms Offered: Irregular Introduction to the scientific study of emotional behavior. Emphasizes research into relations between physiological and psychological variables underlying emotional experience. Prerequisite: PSYC 100, PSYC 274, and PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 405 Child Language Acquisition
Units: 4 (Enroll in LING 405)

PSYC 406 Psycholinguistics
Units: 4 (Enroll in LING 406)

PSYC 407 Atypical Language
Units: 4 (Enroll in LING 407)

PSYC 412 Current Topics In Social Psychology
Units: 4 Terms Offered: Sp Extensive examination of select current research in social psychology, based on original research papers. Specific topics change by semester. Prerequisite: PSYC 274Lg and PSYC 314L Instruction Mode: Lecture Grading Option: Letter

PSYC 415L Psychological Measurement
Units: 4 Classical and modern approaches to psychological measurement; scaling; test construction; true score reliability model; generalizability theory; validity; decision theory; item analysis; item response theory. Prerequisite: PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 418 Experimental Exploration into the Origins of Cognition
Units: 4 Exploration of the origins of cognition via the basics of experimental design, 3D computer modeling, data analysis, and scientific presentation. Recommended Preparation: PSYC 314 or background in experimental research. Instruction Mode: Lecture Grading Option: Letter

PSYC 420 Animal Behavior
Units: 4 Exploration of human nature through studies of nonhuman animals, including topics of navigation, culture, object representation, social cognition, music, and morality. Prerequisite: PSYC 100; Instruction Mode: Lecture Grading Option: Letter

PSYC 421L Data Analysis for Psychological Research
Units: 4 Multivariate analysis emphasizing model estimation and testing; topics vary, e.g., multiple regression, logistic regression, factor analysis, multilevel linear modeling, structural equation modeling, multiway frequency analysis. Prerequisite: PSYC 314. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 422 Human Judgment and Decision Making
Units: 4 Descriptive and normative models of decision making; topics include probability judgments, inference, correlation, emotion, mental accounting, decision analysis, lens model, equity, social dilemmas, time, risk. Prerequisite: PSYC 314. Instruction Mode: Lecture Grading Option: Letter

PSYC 423 User Experience
Units: 4 Terms Offered: FaSp (Enroll in MDA 423)

PSYC 424 Neuropsychology
Units: 4 Terms Offered: Irregular Effects of brain damage on human behavior and abilities, particularly language, memory, and emotion. Prerequisite: PSYC 100Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR 422

PSYC 425 Functional Imaging of the Human Brain
Units: 4 Terms Offered: Irregular Introduction to the physical and physiological bases of Magnetic Resonance Imaging (MRI), and principles of functional MRI, safety, design and analysis of experiments, and operation. Prerequisite: PSYC 100Lg and PSYC 274Lg Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-440

PSYC 426 Motivated Behaviors and Addiction
Units: 4 Terms Offered: Other Social, environmental, and physiological influences on behaviors associated with aggression, eating, reproduction, and sleep. Will focus on behavioral disorders such as addiction. Prerequisite: PSYC 100 Recommended Preparation: Junior or Senior Standing Instruction Mode: Lecture Grading Option: Letter

PSYC 428 Advanced Psychobiology Seminar
Units: 4 Terms Offered: FaSp Topics in psychobiology, including brain mechanisms that provide for perception, motivation, and memory. Students present mini-lectures and discussion in seminar format. Prerequisite: PSYC 304L or PSYC 326 Instruction Mode: Lecture Grading Option: Letter

PSYC 430 Social Development of Infants, Children and Adolescents
Units: 4 An analysis of selected topics and issues in child social development. Prerequisite: PSYC 100; Recommended Preparation: PSYC 274, PSYC 314, PSYC 336. Instruction Mode: Lecture Grading Option: Letter

PSYC 431 Children’s Learning and Cognitive Development
Units: 4 Principles of cognitive development, learning, and motivation applied to the development of literacy; includes tutoring a child two hours per week. Prerequisite: PSYC 336; Instruction Mode: Lecture Grading Option: Letter

PSYC 432 Intelligence, Problem Solving and Creativity
Units: 4 Psychometric and experimental approaches to the study of intelligence, problem solving, reasoning and creativity, including analysis of mental test construction and validity. Prerequisite: PSYC 100 and PSYC 274. Instruction Mode: Lecture Grading Option: Letter

PSYC 433 Adolescent Development
Units: 4 Terms Offered: FaSp The adolescent years from both an applied and a research-oriented perspective. Topics include physical, cognitive, and moral development; socialization; and sexual and sex-role development. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter

PSYC 434 Behavioral Genetics
Units: 4 Terms Offered: Irregular Inheritance and evolution of behavioral characteristics in man and other species. Prerequisite: PSYC 274. Instruction Mode: Lecture Grading Option: Letter

PSYC 440 Introduction to Cognitive Neuroscience
Units: 4 Terms Offered: Sp Introduction to the major components of cognition (perception, memory, intelligence) in terms of the neural coding characteristic of the relevant brain areas. Prerequisite: PSYC 100. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NEUR-440

PSYC 450 Neural Network Models of Social and Cognitive Processes
Units: 4 Terms Offered: Irregular Introduction to using neural network or connectionist models to simulate cognitive, social, emotional and motivational processes; basic concepts and tools in computational neuroscience. Prerequisite: PSYC 100Lg Recommended Preparation: Basic knowledge of programming is helpful, but not required. Instruction Mode: Lecture Grading Option: Letter

PSYC 451 Formation and Change of Attitudes
Units: 4 Terms Offered: Irregular Effects of socialization, personal influence, propaganda and social structure on private attitudes and public opinion. Prerequisite: PSYC 100 and PSYC 355. Instruction Mode: Lecture Grading Option: Letter

PSYC 452 Social Neuroscience
Units: 4 Terms Offered: Irregular Overview of principles and research in social neuroscience, which uses neuroscience approaches to inform social processes including empathy, inter-group relations, emotion, morality and social decision-making. Prerequisite: PSYC 100Lg Recommended Preparation: PSYC 355 Instruction Mode: Lecture Grading Option: Letter

PSYC 453 Intergroup Relations
Units: 4 Examination of the nature of relations between human groups and the psychological mechanisms relating to intergroup conflict, war, genocide, stereotyping, prejudice, and discrimination.

</tr>
<tr>
<td><strong>PSYC 454 Social Cognition</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Irregular <strong>Theory and research on cognitive processes in social behavior, to include social inference, cognition and emotion, the Self, social categorization, person memory, and attribution processes. Prerequisite:</strong> PSYC 100; PSYC 355 recommended. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 456 Conservation Psychology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>Examination of theories, research, interventions regarding psychology of environmental sustainability including cognition, emotion, behavior, attitudes, persuasion, values, social identity, consumerism, and science of happiness. Recommended Preparation:</strong> PSYC 100L <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 459 Industrial/Organizational Psychology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>U/O Psychologists develop and apply scientifically supported solutions to the workplace. &quot;Industrial&quot; deals with human resource functions, and &quot;Organizational&quot; with psychological aspects of the organization. Prerequisite:</strong> PSYC 100 <strong>Recommended Preparation:</strong> PSYC 316 <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 462m Culture and Mental Health</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Irregular <strong>The influence of culture, ethnicity, race and gender on human behavior. Mental health issues relevant to ethnic minorities in the U.S. Recommended Preparation:</strong> sophomore standing or higher; PSYC 100 <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 464 Psychology of Marriage and the Family</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Theories and research on family relationships across the life span, including research methods, cultural and development perspectives, communication, conflict, attachment, individual psychopathology and family violence. Prerequisite:</strong> PSYC 100 <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 467 Introduction to Autism Spectrum Disorder</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Sp <strong>A comprehensive overview of the assessment, diagnosis and treatment of individuals diagnosed with autism spectrum disorder. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 469 Schizophrenia Research</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Irregular <strong>Current research on possible causes of schizophrenia. Topics: history, diagnosis, genetics, neural development, obstetrics, psychosocial factors, brain imaging, psychopharmacology, premorbid signs and aging. Prerequisite:</strong> PSYC 100; <strong>Recommended Preparation:</strong> read current professional journals related to schizophrenia. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 480x Senior Honors Seminar</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 2, 3, 4 <strong>Max Units:</strong> 8.0 <strong>Terms Offered:</strong> Sp <strong>Advanced study of empirical approaches in psychology. Progress presentations and evaluations of Senior Honors Thesis research. In-depth exploration of issues in science. Prerequisite:</strong> senior standing in Psychology Undergraduates Honors Program. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 490x Directed Research</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 1, 2, 3, 4, 5, 6, 7, 8 <strong>Max Units:</strong> 12.0 <strong>Terms Offered:</strong> FaSpSm <strong>Individual research and readings. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 499 Special Topics</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 2, 3, 4 <strong>Max Units:</strong> 8.0 <strong>Terms Offered:</strong> FaSpSm <strong>Selected topics in the various specialty areas within psychology. Topic will vary from semester to semester. Prerequisite:</strong> PSYC 100. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 500L An Overview of Quantitative Methods in Psychology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>Team taught introduction to analysis of variance, regression analysis, multivariate measurement, and significance testing. Computer laboratory linked to class material using SAS, SPSS, and R. Instruction Mode:</strong> Lecture, Lab Required <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 501L Classic and Modern Statistical Methods I</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>An introduction to classic statistical techniques as well as modern robust methods for dealing violations of standard assumptions. Instruction Mode:</strong> Lecture, Lab Required <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 502 Classic and Modern Statistical Methods II</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Sp <strong>A comprehensive overview of classical and modern ANOVA, ANCOVA methods, multiple comparison procedures, basic multivariate methods, robust regression methods and basic methods for analyzing categorical data. Prerequisite:</strong> PSYC 501L <strong>Instruction Mode:</strong> Lecture, Lab Required <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 503L Regression and the General Linear Model</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>Multiple regression as a tool in experimental and non-experimental data; analysis of variance and covariance as regression on coded variables. Computer applications Laboratory exercises. Prerequisite:</strong> PSYC 501L <strong>Instruction Mode:</strong> Lecture, Lab Required <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 504 Research Design</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Sp <strong>Intensive review of research methods in the behavioral sciences. Problem analysis, formulation of research propositions, and procedures for research inference. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 505 Research Methods in Applied Social Psychology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> FaSpSm <strong>Various research techniques that are useful in a variety of different real world settings, such as business, governmental agencies and charities. Registration Restriction:</strong> Open only to M.S., Applied Psychology students. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 506 Learning and Cognition</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Irregular <strong>Survey of learning theory and research, including conditioning and information-processing approaches with human and animal subjects. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 508 Historical Foundations of Psychology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Irregular <strong>History of psychology: clinical, cognitive, developmental, experimental, quantitative, and social; epistemology and philosophy of science as applied to psychology. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 512 Seminar in Social Psychology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>Problems and theories of the person in the social context. Person perception, interpersonal relations, attitude dynamics, social systems. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter <strong>Crosslisted as EDUC-601</strong></td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 513 Attitudes and Social Influence</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> FaSpSm <strong>Current theories of attitudes and behavior, measurement, attitudes as predictors of behaviors, effects on changing attitudes and behavior. Registration Restriction:</strong> Open only to M.S., Applied Psychology students. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 514 Psychopathology</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>Study of psychopathology: in-depth survey of theory and research concerning psychological disorders; introduction of diagnosis. (One of three clinical psychology core courses:</strong> PSYC 514, PSYC 515, PSYC 619.) <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 515 Clinical Assessment</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> Fa <strong>Study of clinical assessment: test construction, measurement and prediction of behavior, major cognitive and personality assessment instruments. (One of three clinical psychology core courses:</strong> PSYC 514, PSYC 515, PSYC 619.) <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 517 Group Dynamics and Leadership</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> FaSpSm <strong>Theory and research on effective teams and characteristics of strong leaders. Negotiation, morale-building, managing expectations, utilization of cultural diversity as a strength. Registration Restriction:</strong> Open only to M.S., Applied Psychology students. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 520 Fundamentals of Psychological Measurement</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> FaSpSm <strong>Factor analysis; latent variable; scaling; test construction; classical true score reliability model; generalizability theory; validity; decision theoretic approaches to selection; item analysis; item response theory. Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
<tr>
<td><strong>PSYC 521 Cross Cultural Psychology in Applied Settings</strong></td>
<td></td>
</tr>
<tr>
<td><strong>Units:</strong> 4 <strong>Terms Offered:</strong> FaSpSm <strong>Examination of major theoretical frameworks mapping worldwide cultures and values with a focus on applying that knowledge in organizations. Registration Restriction:</strong> Open only to students in Applied Psychology. <strong>Instruction Mode:</strong> Lecture <strong>Grading Option:</strong> Letter</td>
<td></td>
</tr>
</tbody>
</table>
PSYC 523 User Experience (UX) Research
Units: 4 Terms Offered: FaSpSm Provides a broad introduction to the social science methods UX researchers most commonly use, including qualitative approaches, and quantitative approaches. Registration Restriction: Open only to master students
Instruction Mode: Lecture Grading Option: Letter

PSYC 524 Research Design in Developmental Psychology
Units: 4 Terms Offered: Irregular Review and practice in the analysis and design of experimental and quasi experimental paradigms for research on ontogenetic age changes and generational differences in behavior. Instruction Mode: Lecture Grading Option: Letter

PSYC 530 Concepts and Principles of Behavior Analysis
Units: 3 Terms Offered: Fa Provides intensive training in behavioral principles and laws of learning and motivation. Focuses on broad application of principles, from both research with nonhumans, to application across human clinical populations. Instruction Mode: Lecture Grading Option: Letter

PSYC 531 Behavioral Assessment
Units: 3 Terms Offered: Fa Studies theory and application of behavioral methods for skill assessment, functional assessment of destructive behavior, and learner motivation. Discusses relative strengths and limitations of direct versus indirect methods. Instruction Mode: Lecture Grading Option: Letter

PSYC 532 Ethics for Behavior Analysts
Units: 3 Terms Offered: Fa Provides training in legal and ethical issues as they pertain to the professional practice of behavior analysis. Reviews the Guidelines for Responsible Conduct for Behavior Analysts, as well as the American Psychological Association's Ethical Principles of Psychologists and Code of Conduct. Instruction Mode: Lecture Grading Option: Letter

PSYC 533 Cognitive Development in Children
Units: 4 Terms Offered: Sp Review of theories of cognitive development. Analysis of research on brain functioning, perception, memory, language, reasoning and academic skills from birth to adolescence.
Instruction Mode: Lecture Grading Option: Letter

PSYC 534 Social and Emotional Development in Children
Units: 4 Terms Offered: Fa Theories of social and emotional development, including sociocultural perspectives.
Analysis of research on temperament, social relationships, individualization and moral development from birth to adolescence. Instruction Mode: Lecture Grading Option: Letter

PSYC 535 Research Methods in Behavior Analysis
Units: 3 Terms Offered: Sp Survey of methods for measuring behavior. Examines theoretical background for single subject research methods, practical application of research methods to treatment evaluation, and analyzes strengths and limitations of single subject research methods. Instruction Mode: Lecture Grading Option: Letter

PSYC 536 Behavioral Interventions
Units: 3 Terms Offered: Sp Examines empirically supported behavioral interventions across a range of socially relevant behavioral excesses, skill deficits, disorders, and age ranges. Focuses on least-intrusive, person-centered approaches. Instruction Mode: Lecture Grading Option: Letter

PSYC 537 Behavioral Supervision
Units: 2 Terms Offered: Fa Analyzes evidence-based approaches to designing behavior change systems at the individual, family, group, and organizational levels. Examines family and systems variables that affect the likelihood of initial and continued success of interventions. Prerequisite: PSYC 530 and PSYC 536 Instruction Mode: Lecture Grading Option: Letter

PSYC 538 Origins of Human Nature
Units: 4 Exploration of the evolutionary and developmental origins of human nature. Topics include navigation, object and number cognition, culture, sexual behavior, cooperation, language, and morality. Instruction Mode: Lecture Grading Option: Letter

PSYC 539 Behavioral Approaches to Skill Acquisition
Units: 2 Terms Offered: Fa Examines contemporary research on behavioral procedures for teaching complex skills to individuals of a variety ages and populations, including language, social, cognitive, vocational, and independent living skills. Instruction Mode: Lecture Grading Option: Letter

PSYC 540 Cognitive Neuroscience
Units: 4 Terms Offered: Sp An examination of the major components of cognition (e.g., perception, memory, intelligence) in terms of the neural coding characteristic of the relevant brain areas. Instruction Mode: Lecture Grading Option: Letter Crosslisted as NSCI 533

PSYC 544 Psychophysiology
Units: 4 Max Units: 8.0 Terms Offered: Irregular Recent research on relations between basic psychological states (e.g., cognition, learning, emotion) and physiological response processes (e.g., autonomic responses, covert muscle activity). Instruction Mode: Lecture Grading Option: Letter

PSYC 545 Neuropsychology
Units: 4 Terms Offered: Irregular Brain mechanisms underlying perceptual and cognitive functioning; brain damage, loss of function, and clinical assessment. Instruction Mode: Lecture Grading Option: Letter

PSYC 547 Functional Neuroanatomy
Units: 4 Terms Offered: Irregular Regional organization and systems of the mammalian nervous system and their functions. Instruction Mode: Lecture Grading Option: Letter

PSYC 550a Proseminar in Human Behavior
Units: 4 Terms Offered: FaSpSm The nature of the human mind, social interactions, conflicts, cooperative behavior, mutual influence and effectiveness. Application of psychological principles to the dynamics of commercial entities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 550b Proseminar in Human Behavior
Units: 4 Terms Offered: FaSpSm The nature of the human mind, social interactions, conflicts, cooperative behavior, mutual influence and effectiveness. Application of psychological principles to the dynamics of commercial entities. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 551 Decision Neuroscience
Units: 4 Neuroscientific studies attempting to understand the neural basis of judgment and decision-making, social behavior, and market economies. Recommended Preparation: PSYC 547. Instruction Mode: Lecture Grading Option: Letter

PSYC 552 Principles of Consumer Psychology
Units: 4 Examination of the attitudes and decisions of consumers, and how to effectively reach consumers by using persuasion and proper positioning in the marketplace. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 555 Introduction to Functional Magnetic Resonance Imaging
Units: 4 Terms Offered: FaSpSm The physical and physiological bases of MRI and fMRI. Design and analysis of fMRI experiments. Operation of a magnetic resonance imaging system. Instruction Mode: Lecture Grading Option: Letter

PSYC 556 Psychology of Interactive Media
Units: 4 Examination of the diverse methods of communicating with a target audience with a special emphasis on the newest computer-based tools for providing information and influence. Registration Restriction: Open only to Applied Psychology (MS) students. Instruction Mode: Lecture Grading Option: Letter

PSYC 565x Organizational Psychology
Units: 4 Terms Offered: FaSpSm Examination of the psychological factors that impact employee motivation, job satisfaction, teamwork, leadership, and organizational development. Registration Restriction: Open only to Master of Applied Psychology students. Instruction Mode: Lecture Grading Option: Letter

PSYC 566 The Psychology of Employee Selection and Assessment
Units: 4 Terms Offered: FaSpSm Develop an understanding of recruitment and selection practices, processes, and approaches into the strategic role that recruitment and selection plays in organizational success. Prerequisite: PSYC 565x Registration Restriction: Open only to graduate Applied Psychology students
Instruction Mode: Lecture Grading Option: Letter

PSYC 575L Multilevel Modeling
Units: 4 Terms Offered: Irregular Topics in multilevel modeling including two- and three-level hierarchical linear models (HLM), random intercepts and slopes, longitudinal models and growth curve
models, non-nested models as well as some recent development. Recommended Preparation: PSYC 503 Instruction Mode: Lecture, Lab Required Grading Option: Letter

PSYC 576 Psycholinguistics
Units: 3 Terms Offered: Fa (Enroll in LING 576)

PSYC 577 Analysis of Covariance Structures
Units: 4 Terms Offered: Irregular Multivariate analysis of non-experimental data, including structural equation modeling, path analysis, and confirmatory factor analysis. Computer applications using variety of optimization routines and purpose-written software. Prerequisite: PSYC 503. Instruction Mode: Lecture Grading Option: Letter

PSYC 578 Workshop in Quantitative Methods
Units: 1-2 Max Units: 8.0 Practical, hands-on experience in the application of selected quantitative methods to empirical data. Includes training in use of relevant computer software. Prerequisite: PSYC 501 and either PSYC 502 or PSYC 503. Instruction Mode: Lecture Grading Option: Letter

PSYC 586 Advanced Psycholinguistics
Units: 3 Max Units: max 9 (Enroll in LING 586)

PSYC 587 Practicum in Applied Behavior Analysis
Units: 2 Max Units: 10 Terms Offered: FaSpSm Provides supervised practical experience in implementing behavior analytic assessment and treatment services. Meets supervision requirements for the Board Certified Behavior Analyst exam. Students meet with course instructor to present and discuss cases for two hours per week every semester, including one summer session. Practicum hours in the field vary from 18-20 hours per week during the academic year to 30 hours per week during the summer. Instruction Mode: Lecture Grading Option: Letter

PSYC 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 591 Applied Psychology Internship
Units: 2, 3, 4, 5, 6, 7, 8 Max Units: 8.0 Terms Offered: FaSpSm Internship in a non-university setting, such as business, governmental agency, or NGO. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 592 Applied Psychology Treatise
Units: 2 Terms Offered: FaSpSm Requires a research paper of substantial length and high quality that integrates the Internship experience with concepts and principles of human behavior. Registration Restriction: Open only to M.S., Applied Psychology students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 595 Practicum in Clinical Psychology
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Supervised experience in interviewing skills and assessment, including psychological test administration and the preparation of reports. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 596 Advanced Behavioral Theory
Units: 3 Terms Offered: Sp Examines advanced topics in behavioral theory and philosophy, including a comprehensive behavioral approach to language and cognition. Discusses the nature of productive relations between behavior analysis and other psychological theories. Prerequisite: PSYC 530 Instruction Mode: Lecture Grading Option: Letter

PSYC 597 Internship for Curricular Practical Training
Units: 1, 2, 3 Max Units: 03 Terms Offered: FaSpSm Part-time or full-time, practical work experience in the student's field of study. The internship must be located at an off-campus facility. Students are individually supervised by faculty. May not be taken until the student has completed at least two semesters of enrollment in the graduate program. Registration Restriction: Open only to Psychology graduate students Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 597a Capstone Project in Behavior Analysis
Units: 2 Terms Offered: FaSpSm Supervision for completing independent project, consisting of practical treatment evaluation, program development, or literature review. Instruction Mode: Lecture Grading Option: Letter

PSYC 597b Capstone Project in Behavior Analysis
Units: 2 Terms Offered: FaSpSm Supervision for completing independent project, consisting of practical treatment evaluation, program development, or literature review. Instruction Mode: Lecture Grading Option: Letter

PSYC 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in the various specialty areas within psychology at the graduate level. Topic will vary from semester to semester. Instruction Mode: Lecture Grading Option: Letter

PSYC 602 Self-concept and Motivation
Units: 4 Graduate-level depth-and-breadth course using a social psychological perspective on self-concept. Instruction Mode: Lecture Grading Option: Letter Crosslisted as EDUC-602

PSYC 612 Seminar in Advanced Social Psychology
Units: 4 Terms Offered: Irregular An intensive consideration of selected concepts, theories, and research problems in social psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 616 Research Techniques for Non-Experimental Social Science
Units: 4 Terms Offered: Irregular Quasiexperimental designs; causal inference from correlational research, techniques for evaluating measures of attitude, personality, and social motives: observational methods; content analysis; sampling and survey techniques. Instruction Mode: Lecture Grading Option: Letter

PSYC 619 Psychological Intervention
Units: 4 Terms Offered: Sp Study of clinical psychological treatment: research and theory about major psychological approaches to intervention. (One of three clinical psychology core courses: PSYC 514, PSYC 515, PSYC 619.) Instruction Mode: Lecture Grading Option: Letter

PSYC 621 Seminar in Quantitative Psychology
Units: 4 Max Units: 12.0 Terms Offered: Irregular Selected topics in mathematical psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 622 Decision Analysis and Behavioral Decision Theory
Units: 4 Terms Offered: Irregular Normative and descriptive theories and research on human decision-making, with special emphasis on applications to real social decision problems. Instruction Mode: Lecture Grading Option: Letter

PSYC 625 Applied Machine Learning
Units: 4 Terms Offered: Fa Machine learning techniques, including Bayesian and Neural Networks, for analyzing different types of human-generated data. Recommended Preparation: PSYC 501L. Instruction Mode: Lecture Grading Option: Letter

PSYC 660 Seminar in Clinical Psychology
Units: 4 Max Units: 8.0 Terms Offered: Irregular Selected topics in clinical psychology. Instruction Mode: Lecture Grading Option: Letter

PSYC 676 Seminar in Psycholinguistics
Units: 3 Max Units: max 12 (Enroll in LING 676)

PSYC 691a Internship in Clinical Psychology
Units: 0 Terms Offered: FaSp Sm Supervised clinical work in an approved mental health setting. Prerequisite: good standing in clinical program and departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 691b Internship in Clinical Psychology
Units: 0 Terms Offered: FaSp Supervised clinical work in an approved mental health
setting. Prerequisite: good standing in clinical program and departmental approval. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 695 Advanced Practicum in Clinical Psychology
Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSp Lecture Didactic practicum combining theory and research on psychological intervention with clinical practice in assessment and treatment, focused on particular client groups or disorders. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSp Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PSYC 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PSYC 794z Doctoral Dissertation
Units: 0 Terms Offered: FaSpSm Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Physical Therapy

PT 509 Cellular and Systems Physiology
Units: 3 Terms Offered: Fa Selected subjects in cellular and systems physiology. Emphasis on molecular and cellular aspects of neuromuscular function; also renal and endocrine physiology. Instruction Mode: Lecture Grading Option: Letter

PT 514L Musculoskeletal Anatomy
Units: 4 Terms Offered: Fa Musculoskeletal anatomy, innervation, blood supply, and function: intensive study of the head, neck, trunk, and limbs. Lecture, dissection laboratory. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 516 Principles of Disease
Units: 1 Term Offered: Sm Principles and mechanisms of genetics, immunology, infection, wound healing, and oncology. Instruction Mode: Lecture Grading Option: Letter

PT 521L Basics of Patient Management
Units: 4 Terms Offered: Fa Development of basic decision-making skills, professional behaviors and impairment assessment in patients with musculoskeletal neurologic and/or cardiopulmonary dysfunction. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 529 Life Span Motor Control
Units: 2 Terms Offered: Sm Introduction to sensorimotor systems, overview of current perspectives in motor control from fetus through late adulthood, and clinical tests of motor proficiency. Instruction Mode: Lecture Grading Option: Letter

PT 530a Therapeutic Exercise
Units: 2 Terms Offered: Sm Theoretical and practical principles for evaluation of exercise need and prescription of exercise programs. Emphasis on approaches for patients with musculoskeletal deficits. Duplicates Credit in former PT 530. Instruction Mode: Lecture Grading Option: Letter

PT 530b Therapeutic Exercise
Units: 2 Terms Offered: Sm Examination of needs analysis and prescription of exercise programs for special patient populations and assessment of current community trends in exercise and wellness. Duplicates Credit in former PT 530. Instruction Mode: Lecture Grading Option: Letter

PT 534L Neuroanatomy
Units: 3 Terms Offered: Fa Organized approach to structures in the brain, spinal cord and peripheral nervous systems that subserve motor, sensory, and integrative functions, memory, cognitive and special senses. Instruction Mode: Lecture, Lab, Required Grading Option: Letter

PT 536 Pathology of Cardiopulmonary Disease and General Medical Conditions
Units: 3 Terms Offered: Fa Pathology and pathophysiologic mechanisms in disease of the cardiac, pulmonary and circulatory systems; examination of diabetes, burns, and other disabling medical disorders. Prerequisite: PT 509, PT 514, PT 516, PT 621, PT 529. Instruction Mode: Lecture Grading Option: Letter

PT 539 Clinical Pharmacology
Units: 1 Term Offered: Fa Effects of commonly used drugs in patients with physical disability; side effects that alter physical performance or responses to exercise. Instruction Mode: Lecture Grading Option: Letter

PT 546 Neuropathology
Units: 3 Terms Offered: Sm Pathology in the central and peripheral nervous systems that alter motor and sensory performance. Emphasis on loss of motion, excessive and involuntary movement disorders. Prerequisite: PT 516, PT 534. Instruction Mode: Lecture Grading Option: Letter

PT 549L Clinical Exercise Physiology
Units: 4 Terms Offered: Fa Adaptation of the human body to exercise and the use of exercise to modify human function. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 551 Therapeutic Application of Physical Agents
Units: 3 Terms Offered: Sm Physiologic responses to the application of thermal, mechanical, electromagnetic and hydrodynamic therapeutic procedures. Evaluation procedures and intervention planning. Prerequisite: PT 521L. Instruction Mode: Lecture, Lab Grading Option: Letter

PT 554L Analytical Anatomy
Units: 3 Terms Offered: Sm Detailed kinesiologic analysis of axial, spine, head, neck, face and bulbar muscles. Prerequisite: PT 514. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 561a Evidence for Physical Therapist Practice
Units: 2 Introduction to a patient-centered Evidence Based Practice model with emphasis on professional communication skills, ethics, professional guidelines, laws and regulations. Instruction Mode: Lecture Grading Option: Letter

PT 561b Evidence for Physical Therapist Practice
Units: 2 Introduction to acquiring, appraising and integrating research evidence. Instruction Mode: Lecture Grading Option: Letter

PT 561c Evidence for Physical Therapist Practice
Units: 2 Advanced critical analysis and application of research of evidence. Instruction Mode: Lecture Grading Option: Letter

PT 561d Evidence for Physical Therapist Practice
Units: 2 Advanced integration of patient values as influenced by culture, ethnicity, lifestyles, gender, and age into patient-centered clinical decision making. Instruction Mode: Lecture Grading Option: Letter

PT 566 Disorders of the Musculoskeletal System
Units: 3 Terms Offered: Sm Regional description of pathology and pathophysiologic mechanisms of disorders of bone, connective tissue, and joints. Lecture, demonstration. Instruction Mode: Lecture Grading Option: Letter

PT 569 Fundamentals of Neuroscience
Units: 4 Terms Offered: Sm Detailed analysis of neurophysiologic mechanisms underlying normal and abnormal motor and sensory function. Prerequisite: PT 509, PT 516, PT 529, PT 534. Instruction Mode: Lecture Grading Option: Letter

PT 571L Clinical Management of Cardiopulmonary Dysfunction
Units: 4 Terms Offered: Fa Physical therapy evaluation and intervention in the care of patients with circulatory, cardiac, or pulmonary dysfunction. Lecture, case presentations, laboratory. Prerequisite: PT 521. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 574 Clinical Biomechanics
Units: 3 Terms Offered: Sm Introduction to the principles of biomechanics (statics, dynamics) as they apply to physical therapy practice. Emphasis on tissue mechanics, joint function and gait. Prerequisite: PT 554. Instruction Mode: Lecture Grading Option: Letter

PT 581L Clinical Management of the Patient with Neurological Dysfunction
Units: 5 Terms Offered: Sm Physical therapy theory and methods for intervention in neurological dysfunction. Prerequisite:
PT 509, PT 516, PT 521, PT 529, PT 534. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 582 Mechanics of Human Gait
Units: 2 Terms Offered: An introduction to both normal and pathological gait. Emphasis on the basic components of abnormal ambulation including temporal-spatial factors, joint motion, kinematics, kinetics, and muscle activity. Instruction Mode: Lecture Grading Option: Letter

PT 583L Clinical Electrophysiology
Units: 1 Terms Offered: Sp Use of electrical currents to evaluate and treat musculoskeletal, neurological and work disorders. Theory and practice. Prerequisite: PT 514L and PT 554L Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSpSm Selected topics in Physical Therapy. Instruction Mode: Lecture Grading Option: Letter

PT 600a Clinical Experience
Units: 1 Terms Offered: FaSpSm Practical experience in two- or six-week physical therapy manual skills, decision making and professional behaviors. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600b Clinical Experience
Units: 3 Terms Offered: FaSpSm Practical experience in six-week physical therapy manual skills, decision making, and professional behaviors. Prerequisite: PT 600a Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600c Clinical Experience
Units: 1 Terms Offered: FaSpSm Practical experience in two-week physical therapy psychomotor skills, decision making and professional behaviors. Prerequisite: PT 600b Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600d Clinical Clerkship
Units: 4 Terms Offered: FaSpSm Practical experience in eight-week physical therapy psychomotor skills, decision making and professional behaviors. Prerequisite: PT 600c Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 600z Clinical Clerkship
Units: 6 Terms Offered: FaSpSm Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 606 Clinical Imaging
Units: 2 Terms Offered: Sp Elements of reading roentgenographs, CAT and MRI scans for the physical therapist. Lecture, demonstration, practical experience. Instruction Mode: Lecture Grading Option: Letter

PT 621L Clinical Management of the Patient with Musculoskeletal Dysfunction
Units: 2 Terms Offered: Sp Physical therapy theory and methods of evaluation and treatment of orthopedic dysfunction. Prerequisite: PT 514, PT 521. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PT 625 Emerging Topics in Physical Therapy
Units: 3 Terms Offered: FaSpSm Familiarize the developing PT with emerging research, technology and skills that show promise in preparation for advances in patient management. Corequisite: PT 561e and PT 650 Instruction Mode: Lecture Grading Option: Letter

PT 630 Integrated Patient Management Clinical Skills
Units: 6 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists. Corequisite: PT 632 Duplicates Credit in former PT 631 Instruction Mode: Lecture Grading Option: Letter

PT 632 Integrated Patient Management Seminar
Units: 5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal, cardiopulmonary and/or neurologic disorders. Prerequisite: PT 571, PT 581, PT 621. Instruction Mode: Lecture Grading Option: Letter

PT 640a Hybrid Integrated Patient Management Clinical Skills
Units: 3 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists (musculoskeletal conditions focus on upper quarter body regions). Duplicates Credit in PT 630 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 640b Hybrid Integrated Patient Management Clinical Skills
Units: 3 Terms Offered: FaSp Advanced evaluation and management of patients with movement dysfunction spanning all diagnoses seen by physical therapists (musculoskeletal conditions focus on lower quarter body regions). Prerequisite: PT 640a Duplicates Credit in PT 630 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 642a Hybrid Integrated Patient Management Seminar
Units: 2.5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal (concentrating on upper quarter body regions), cardiopulmonary and/or neurologic disorders. Duplicates Credit in PT 632 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 642b Hybrid Integrated Patient Management Seminar
Units: 2.5 Terms Offered: FaSp Integration of physical therapy management of complicated patients with concurrent musculoskeletal (concentrating on lower quarter body regions), cardiopulmonary and/or neurologic disorders. Prerequisite: PT 642a Duplicates Credit in PT 632 Instruction Mode: Lecture Grading Option: In Progress to Letter

PT 650 Differential Diagnosis in Physical Therapy
Units: 2 Terms Offered: Sm Consideration of principle of differential diagnosis with emphasis on mastering this skill. Recommended Preparation: completion of years 1 and 2. Instruction Mode: Lecture Grading Option: Letter

PT 660 Advanced Clinical Experience
Units: 5 Terms Offered: FaSp A 16-week clerkship consisting of a minimum of 24 hours per week in a part-time setting. Emphasis on the care of orthopedic, neurologic, pediatric or complicated medical conditions. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 665 Advanced Clinical Experience
Units: 8 Terms Offered: FaSp A 16-week clerkship consisting of a minimum of 36 hours per week in a full-time setting. Emphasis on care of orthopedic, neurologic, pediatric or complicated medical conditions. Instruction Mode: Lecture Grading Option: Credit/No Credit

PT 670a Hybrid Advanced Clinical Experience with Academic Integration
Units: 6.5 Terms Offered: FaSp A 13-week clerkship consisting of a minimum of 36 hours per week in a full-time setting. Emphasis on care of orthopedic, neurologic, pediatric or complicated medical conditions. Duplicates Credit in PT 660 Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

Petroleum Engineering

PTE 202x Energy and Society
Units: 4 Terms Offered: Irregular Study of the impact of the development, production, and global distribution of energy on societal, political, and economic behavior. Not available for major credit to engineering majors. Prerequisite: pass Math Skill Level. Instruction Mode: Lecture Grading Option: Letter

PTE 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

PTE 411 Introduction to Transport Processes in Porous Media
Units: 3 Terms Offered: Fa Properties of porous rocks; capillary effect, single-phase and multiphase fluid flow through porous media; diffusion and dispersion, miscible displacement heat transfer. Lecture, 3 hours. Not available for credit to Petroleum Engineering majors. Prerequisite: (CHEM 105aLg or CHEM 115aLg) and (CE 309 and MATH 245 and PHYS 151Lg ) Instruction Mode: Lecture Grading Option: Letter

PTE 412x Petroleum Reservoir Engineering
Units: 3 Terms Offered: Fa Properties of reservoir fluids, volumetric and material balances for gas and oil reservoirs; reservoir modeling concepts. Instruction Mode: Lecture Grading Option: Letter

PTE 461 Formation Data Sensing with Well Logs
Units: 4 Terms Offered: Fa Measurement theory and petroleum/geothermal applications of electrical, radioactive, acoustic, and production logging tools. Estimation of rock porosity, water
saturation, permeability, shale content, gas flow rate. Recommended Preparation: Mechanics of materials, fundamentals of physics on the level of PHYS 152L and PHY 408b Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 461, AME 461

PTE 462 Economic, Risk and Formation Productivity Analysis Units: 3 Terms Offered: Sp Principle of economic evaluation, risk analysis, reserves estimation, decline curves, energy prices, and well transients for flow prediction. Prerequisite: PTE 461. Instruction Mode: Lecture Grading Option: Letter Crosslisted as CHE 462, ME 462, AME 462

PTE 463L Introduction to Transport Processes in Porous Media Units: 4 Terms Offered: Fa Fundamentals of flow and transport in porous materials including: Properties of porous rocks, capillarity effect, single- and multiphase flow, diffusion and dispersion in miscible displacements. Prerequisite: MATH 245 and CHEM 151Lg and (CHEM 105aLg or CHEM 115aLg). Instruction Mode: Lecture. Lab Required Grading Option: Letter Crosslisted as CHE 463, AME 463

PTE 464L Modeling and Simulation of Subsurface Flow Systems Units: 4 Terms Offered: Sp Properties of reservoir fluids, volumetric and material balances for gas and oil reservoirs; reservoir modeling concepts. Prerequisite: PTE 463L Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as CHE 404, AME 464

PTE 466 Drilling Technology and Subsurface Methods Units: 3 Terms Offered: Fa Theory and practice in drilling technology; mechanical properties of reservoir rocks; well completion; acidizing and fracturing, oil production technology. Prerequisite: PTE 464. Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as AME 465, CHE-465

PTE 467 Petroleum Geology Units: 3 Terms Offered: Sm Introductory topics of physical and historical geology will be focused on the components that relate to the formation of oil and gas accumulations. Instruction Mode: Lecture Grading Option: Letter

PTE 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

PTE 499 Special Topics Units: 2, 3, 4 Max Units: 8.0 Course content to be selected each semester from recent developments in petroleum engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

PTE 500 Computational Reservoir Modeling Units: 3 Terms Offered: Fa Introduction to mathematical and computational methods in characterizing, modeling, and describing the subsurface flow and transport phenomena. Recommended Preparation: Familiarity with basic calculus, differential equation, and MATLAB programming. Registration Restriction: Open only to Engineering students. Instruction Mode: Lecture Grading Option: Letter

PTE 502 Advanced Reservoir Characterization Units: 3 Terms Offered: Irregular Sources of data for reservoir characterization; cross-disciplinary integration; geologic models; sequence stratigraphic, lithologic, well test and geophysical models; 4-D seismic; compartmentalized and fractured reservoirs; error and risk analysis. Prerequisite: PTE 411, PTE 461. Instruction Mode: Lecture Grading Option: Letter

PTE 503 Technology of Unconventional Oil and Gas Resources Development Units: 3 Terms Offered: Fa Geology of unconventional resources, exploration, development, laboratory testing, drilling, formation evaluation, design and monitoring of hydraulic fracturing, forecasting, technology of oil sand and environmental issues. Recommended Preparation: PTE 507, graduate standing in petroleum engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 504 Geophysics for Petroleum Engineers Units: 3 Terms Offered: Sm Geosciences concepts and technologies with applications in petroleum engineering: 2D-3D-4D seismic, borehole geophysics, passive seismic, controlled source electromagnetics, geophysical and geological modeling and inversion. Recommended Preparation: familiarity with Matlab. Instruction Mode: Lecture Grading Option: Letter

PTE 505 Inverse Modeling for Dynamic Data Integration Units: 3 Terms Offered: Sp Introduction to fundamentals of deterministic and stochastic inverse modeling, integration of dynamic data into predictive reservoir models, reservoir parameterization, derivation of adjoint models. Recommended Preparation: PTE 506, basic knowledge of calculus, linear algebra and probability/statistics. Instruction Mode: Lecture Grading Option: Letter

PTE 506 Geothermal Reservoirs Units: 3 Terms Offered: Fa Geothermal reservoirs, heat and mass flow in fracture network, enhanced geothermal systems (EGS), exploration methods, exploitation of hydrothermal and EGS fields, supercritical CO2 sequestration and viscous fingering problems. Prerequisite: MATH 245. Lecture Only to Graduate Students. Instruction Mode: Lecture Grading Option: Letter

PTE 507 Engineering and Economic Evaluation of Subsurface Reservoirs Units: 3 Terms Offered: Fa Studies, data and methods for estimating size of underground fluid deposits for predicting physical and economic behavior of designed flow schemes, and for quantifying uncertainty. Prerequisite: PTE 464. Instruction Mode: Lecture Grading Option: Letter

PTE 508 Numerical Simulation of Subsurface Flow and Transport Processes Units: 3 Terms Offered: Sp Formulation and solution of the equations describing the underground flow of fluids through porous media. Includes mass (contaminant) transport in single and multiphase flow. Recommended Preparation: PTE 507. Instruction Mode: Lecture Grading Option: Letter

PTE 509 High-Resolution Simulations of Porous Media Flows Units: 4 Terms Offered: Sp High-order finite difference, finite volume and spectral methods to simulate contaminant transport, CO2 sequestration and viscous fingering problems in high resolution using Matlab/Python. Recommended Preparation: Concepts covered in MATH 225 and MATH 245. Introductory knowledge of MATLAB or Python programming language Instruction Mode: Lecture Grading Option: Letter

PTE 511 Advanced Phase Behavior of Petroleum Reservoir Fluids Units: 3 Terms Offered: Irregular From classical thermodynamics to engineering application; equations of state based calculations; PVT experiments; reservoir fluid characterization; PT-flash calculations and stability analysis; compositional grading; transport properties. Recommended Preparation: CHE 330, MATH 226. Instruction Mode: Lecture Grading Option: Letter

PTE 512 Gas Injection Processes — Analytical Solutions and Analysis Units: 3 Terms Offered: Fa Gas injection and enhanced oil/gas recovery; conservation equations; flow and phase behavior; displacement efficiency; dispersion; method of characteristics; development of multicontact miscibility in multicomponent systems. Recommended Preparation: CHE 330, MATH 226 and MATH 245 (or similar). Instruction Mode: Lecture Grading Option: Letter

PTE 514 Drilling Engineering Units: 3 Terms Offered: Sp Graduate level course on drilling engineering with an emphasis on field design and applications. Topics covered include well planning; rock mechanics; rotary drilling processes; drilling rig components; drill string and bottom hole assemblies; well hydraulics and drilling muds; casing design and cementing; directional drilling; offshore drilling and drilling economics. Registration Restriction: Open only to Engineering graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 515 Natural Gas Engineering Units: 3 Terms Offered: Sp Characterization, development and prediction of natural gas reservoirs, including natural gas surface production equipment and systems, forecasting natural gas well and reservoir performance and current LNG developments Prerequisite: PTE 411 and PTE 412x Recommended Preparation: Good handle of Excel, running VBA apps, programming macros and Matlab programming; concurrent enrollment in a computer programming class would be helpful Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 517 Testing of Wells and Aquifers Units: 3 Terms Offered: Sp Principles of well testing; down hole device; Aquifer tests; slug tests; DST; pressure transient modeling in homogeneous and heterogeneous systems; parameter estimation; computer aided techniques.
COURSES OF INSTRUCTION

Lecture, Discussion Instruction Mode: Lecture Grading Option: Letter

PTE 519 Integrated Physical and Cyber Security for Oil and Gas Operations Units: 3 Terms Offered: Fa Infrastructure Security, Resilience and Management of Digital Oil Fields, Process Control Networks in exploration and production, refining and chemical plants, Asset Integrity principles, case histories. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 520 Mathematical Methods for Deep Learning Units: 4 Terms Offered: Sp (Enroll in MASC 520)

PTE 531 Enhanced Oil and Gas Recovery Units: 4 Terms Offered: Sm Enhanced recovery from conventional and unconventional hydrocarbon resources including: Water, surfactant and polymer processes, miscible gas and WAG displacements, and thermal recovery processes. Prerequisite: PTE 500 and PTE 582 Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Discussion Grading Option: Letter

PTE 542 Carbonate Rocks Units: 3 Terms Offered: Fa Classification; porosity development; source rocks; wettability, capillary pressure curves; compressibility; surface areas; relative permeabilities; various petrophysical properties; formation evaluation; overpressures; thin section analysis. Recommended Preparation: Basic familiarity with linear algebra and general reservoir engineering. Registration Restriction: Open only to graduate Engineering students. Instruction Mode: Lecture Grading Option: Letter

PTE 545 Corrosion Control in Petroleum Production Units: 3 Terms Offered: Sp Types of corrosion encountered in petroleum production; methods for practical control including use of inhibitors, coatings, and cathodic protection. Prerequisite: CHEM 430 or CHEM 430a Registration Restriction: Open only to graduate students in Engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 555 Well Completion, Stimulation, and Damage Control Units: 3 Terms Offered: Sm This course reviews current practices related to well completion methods, wellbore stimulation, and damage control. Formation damage prevention and stimulation methods are emphasized. Prerequisite: graduate standing. Instruction Mode: Lecture Grading Option: Letter

PTE 572L Applied Geostatistical Modeling for Subsurface Characterization Units: 4 Terms Offered: Sp Introduction to conventional and modern geostatistical estimation and simulation techniques, combining theory with hands-on computer application of geostatistical methods in modeling the spatial phenomena. Recommended Preparation: Basic knowledge and familiarity with general calculus, linear algebra, and probability Registration Restriction: Open only to graduate students. Instruction Mode: Lecture, Lab Required Grading Option: Letter

PTE 574 Optimization Methods for Subsurface Energy Resources Development Units: 3 Terms Offered: Sp Optimization algorithms for oilfield development, including well control optimization, well placement, open-loop and closed-loop model predictive control, and robust optimization. Prerequisite: PTE 500; Recommended Preparation: Familiarity with linear algebra, vector calculus, general reservoir engineering and MATLAB programming. Registration Restriction: Open only to Engineering graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 578 Advanced Production Engineering Units: 3 Terms Offered: Sp Principles of onshore and offshore oil well & gas well production; design of artificial lift systems and surface operations; field problems of enhanced oil recovery operations. Registration Restriction: Open only to graduate students in the School of Engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 581 Environmental Technology in the Petroleum Industry Units: 3 Terms Offered: Irregular This course examines engineering and scientific principles necessary for understanding, assessing, and remediating environmental problems in the petroleum industry including drilling, production, transportation and refining operations. Graduate standing. Instruction Mode: Lecture Grading Option: Letter

PTE 582 Fluid Flow and Transport Processes in Porous Media Units: 3, 2 years Terms Offered: Fa Principles of single and multiphase flow through porous media; mechanisms of immiscible and miscible displacement; momentum, heat and mass transport in porous media. Instruction Mode: Lecture Grading Option: Letter

PTE 586 Intelligent and Collaborative Oilfield Systems Characterization and Management Units: 3 Terms Offered: Fa Review of soft computing methods such as neural networks, fuzzy logic, problematic reasoning in reservoir characterization, dynamic reservoir modeling, oilfield data integration and analysis of uncertainty in prediction. Limited to students with graduate standing. Recommended Preparation: prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 587 Smart Completions, Oilfield Sensors and Sensor Technology Units: 3 Terms Offered: Sp Intelligent Wellbore completion, technology of subsurface and surface sensors, deployment and data acquisition, telemonitoring and feedback, reliability of sensors, data transmission, systems networks. Recommended Preparation: prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 588 Smart Oilfield Data Mining Units: 3 Terms Offered: Fa Methods for oilfield data mining, data preparation mining images, prediction and knowledge discovery, subset selection, pattern recognition. Limited to students with graduate standing. Recommended Preparation: prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 589 Advanced Oilfield Operations with Remote Immersive Visualization and Control Units: 3 Terms Offered: Sp Immersive subsurface and surface environments, web based monitoring and feedback, visualizing risk, unattended operation. Limited to students with graduate standing. Recommended Preparation: prerequisites for non-majors. Instruction Mode: Lecture Grading Option: Letter

PTE 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 591 Petroleum Geochemistry Units: 3 Terms Offered: Fa Application of chemical principles to the study of the origin, migration, accumulation, and alteration of petroleum. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 592 Geomechanics for Energy and Environment Units: 3 Terms Offered: Fa Sp Physical, mathematical and simulation aspects of coupled flow and geomechanics in petroleum/geothermal reservoirs. Coupled flow-geomechanics simulator development using finite element and finite volume methods. Recommended Preparation: Familiarity with concepts covered in PTE 500, PTE 508, AME 535a, AME 404, AME 507, CE 529a Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 594 Formation Damage in Petroleum Reservoirs Units: 3 Terms Offered: Fa Overview of background and techniques required for understanding, assessing, and mitigating formation damage in petroleum and subsurface reservoirs. Recommended Preparation: Reservoir engineering, thermodynamics, petroleum reservoir fluids, fluid mechanics, Excel worksheets Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

PTE 594a Master's Thesis Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 594b Master's Thesis Units: 2 For the master's degree. Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Grading Option: Lecture

PTE 599 Special Topics
Units: 2, 3, 4 Max: 9.0 Course content will be selected each semester to reflect current trends and developments in the field of petroleum engineering. Instruction Mode: Lecture Grading Option: Letter

PTE 611 Stochastic Modeling and Simulation
Units: 3 (Enroll in CE 611)

PTE 690 Directed Research
Units: 1, 2, 3, 4 Max: 8.0 Terms Offered: FaSpSm Laboratory study of specific problems for candidates for the degree engineer in petroleum engineering. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

PTE 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

PTE 794d Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Public Administration
Frequency of course offerings varies from campus to campus. Check with individual campuses regarding availability.

PUAD 613 Seminar in Financial Policy
Units: 4 Terms Offered: Irregular Historical development and trends in public revenues and expenditures. Political, economic, and administrative significance of decisions in the field of financial management. Prerequisite: PPD 647. Instruction Mode: Lecture Grading Option: Letter

PUAD 617 Seminar in Behavioral Aspects of Training and Development
Units: 4 Terms Offered: Irregular Theoretical concepts governing the administration of socio-technical systems, organization development, action training and research, and other development and change processes utilized in public service. Instruction Mode: Lecture Grading Option: Letter

PUAD 675 Institutional Context of the Public Sector
Units: 4 Terms Offered: Sp Theories of the role, structure and growth of the public sector; public choice processes; political economy of public bureaucracies; the voluntary nonprofit sector. Prerequisite: PPD 501b. Instruction Mode: Lecture Grading Option: Letter

PUAD 685 Seminar on Organizational Behavior in Public Systems
Units: 4 Terms Offered: FaSp Organizing processes; decision-making; communication; leadership; behavioral models; political and social behavior in organizations. Prerequisite: PPD 545. Instruction Mode: Lecture Grading Option: Letter

PUAD 692 Multivariate Statistical Analysis
Units: 4 Terms Offered: Fa Multivariate analysis of qualitative and quantitative variables including multiple linear regression, multiple contingency table analysis, log-linear and logit models, and path analysis. Prerequisite: PPD 502. Instruction Mode: Lecture Grading Option: Letter

PUAD 695 Seminar in Administrative Theory
Units: 4 Terms Offered: FaSp Assessment of current normative and descriptive theories of public administration; variety of conceptual systems; operationalism; levels of organizational analysis. Prerequisite: PPD 540. Instruction Mode: Lecture Grading Option: Letter

PUAD 697 Seminar in Public Management
Units: 4 Terms Offered: Irregular Public management research and theory; differences between private and public organizations; contextual influences on public management; contemporary empirical studies; bibliographic research. Prerequisite: admission to the DPA program. Instruction Mode: Lecture Grading Option: Letter

PUAD 791a Public Administration Research Seminar
Units: 1 Terms Offered: FaSp Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Registration Restriction: Open only to Ph.D. and D.P.A. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

PUAD 791b Public Administration Research Seminar
Units: 1 Terms Offered: FaSp Presentation and discussion of research histories and current research projects of members of the faculty and distinguished guest scholars. Registration Restriction: Open only to Ph.D. and D.P.A. students. Instruction Mode: Lecture Grading Option: Credit/No Credit

Public Diplomacy
PUAD 369w Public Diplomacy and Global Citizenship
Units: 4 Introduces public diplomacy as a central feature of contemporary international relations and challenges students to locate themselves as both its target and practitioners. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 369

PUAD 417 Global Engagement: Designing Public Diplomacy Strategies
Units: 4 Examines issues on the global political agenda and the tools and approaches that the Public Diplomacy practitioner might profitably employ to address them. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 417

PUBD 418 International Exchanges and Public Diplomacy
Units: 4 Examines international exchanges, their role in the foreign policy process, and their challenges in a world marked by rapid change and innovation in communication technologies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 418

PUBD 419 Public Diplomacy in Los Angeles
Units: 4 Examines how the City of Los Angeles and other local actors use public diplomacy tools to strengthen ties between themselves and foreign audiences. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 419

PUBD 420 Regional Studies in Public Diplomacy
Units: 4 Max: 08 Analyzes the role and effectiveness of public diplomacy in different countries, examining a region’s influence on global affairs and the development of diplomatic strategies. Instruction Mode: Lecture Grading Option: Letter Crosslisted as COMM 420

PUBD 500 Introduction to the Advanced Study of Public Diplomacy
Units: 4 Introduction to the advanced academic study of public diplomacy from multidisciplinary perspectives: including media and communication, international relations and history. Instruction Mode: Lecture Grading Option: Letter

PUBD 502 Historical and Comparative Approaches to Public Diplomacy
Units: 4 Examines historical and comparative approaches to public diplomacy. Explores public diplomacy operations in public and private settings, by individuals and institutions. Reviews traditional, critical, war, and peace perspectives. Instruction Mode: Lecture Grading Option: Letter

PUBD 504 Global Issues and Public Diplomacy
Units: 4 Focuses on critical global issues/ challenges that require some form of intervention from the international community. Taught with active leading strategies: case studies and "problem-based learning." Instruction Mode: Lecture Grading Option: Letter

PUBD 508 The Rhetoric of War and Peace
Units: 4 Special exercise in "Think Tank" procedure that explores rhetorics of war and peace from a 21st century perspective. Instruction Mode: Lecture Grading Option: Letter

PUBD 509 Advocacy in Public Diplomacy: Argumentation and Debate
Units: 4 Skills and theory based approach to the criticism and development of public diplomacy campaigns. Emphasizes the instruction of advocacy skills to assess the utility of specific campaigns. Instruction Mode: Lecture Grading Option: Letter
PUBD 510 Technologies and Public Diplomacy  
Units: 4  
Explains relationship between diplomacy and technological change. Emphasis on question of how new media may force us to rethink traditional frameworks of public diplomacy. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 512 Cultural Diplomacy  
Units: 4  
Provides overview of formal cultural diplomacy and concentrates on ways in which non-governmental entities communicate across international boundaries and the effects of those interchanges. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 514 Corporate Diplomacy  
Units: 4  
Provides basic public diplomacy and public relations tools for global organizations and their foreign publics. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 515 Transnational Diplomacy and Global Security  
Units: 4  
Examination of the historical and theoretical basis of diplomatic relationships between states, international organizations, and transnational nonstate actors in developing global peace and security policies. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 516 International Broadcasting  
Units: 4  
History, context and practice of global international broadcasting strategies; technological and financial parameters that shape future international broadcasting strategies; use of radio, television, and Internet. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 518 International Exchanges and Public Diplomacy  
Units: 4  
Examination of educational and cultural exchanges; variety and experience of participants, flagship exchange programs, economic and social implications of the programs, and measurement of outcomes. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 519 News Media and the Foreign Policy Process  
Units: 4  
Analysis of news media's role in contemporary diplomacy; historical context; consideration of the professional practices of journalists and those who devise and implement foreign policy. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 520 Regional Studies in Public Diplomacy  
Units: 4 Max Units: 16.0  
In-depth examination of historical, political, economic, cultural factors that influence public diplomacy efforts within specific geographic regions. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 522 Hard Power, Soft Power and Smart Power  
Units: 4  
Institutional and cultural perspectives on instruments of state power: military, intelligence, trade, and traditional diplomacy; strategic analyses for determining proper use; desirability of combining resources. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 524 The Public Diplomacy of Trade  
Units: 4  
Public diplomacy's role in shaping ideas about trade and development and in creating trade agreements, and the use of trade agreements as public diplomacy. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 526 Public Diplomacy Evaluation  
Units: 4  
Critical examination of challenges and benefits of measuring public diplomacy's impact; terminology and mechanics of evaluation, the measurement community, and varying approaches for evaluation. *Instruction Mode: Lecture*  
Grading Option: Letter

PUBD 590 Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the school. *Instruction Mode: Lecture*  
Grading Option: Credit/No Credit

Quantitative Biology  
QBIO 105 Introduction to Quantitative Biology Seminar  
Units: 2  
*Terms Offered: FaSp*  
Introduction to quantitative biology including a definition of its role within the Biological Sciences and relationship with Chemistry, Computer Science, Engineering, Mathematics, Medicine and Physics. *Registration Restriction:* Open to QBIO majors or by permission of the department. *Instruction Mode: Lecture*  
Grading Option: Letter

QBIO 310 Statistical Thinking for Quantitative Biology  
Units: 4  
*Terms Offered: Sp*  
Introduction to general statistical theory with higher-level biological/quantitative biology research. *Instruction Mode: Lecture, Discussion*  
Grading Option: Letter  
Crosslisted as BISC 310

QBIO 401 Introduction to Computational Analysis of Biological Data  
Units: 4  
*Terms Offered: FaSp*  
A project-based course integrating biology, computer science, and statistics through the analysis of genomic datasets available publicly or collected and analyzed during the semester. *Instruction Mode: Lecture, Discussion*  
Grading Option: Letter  
Crosslisted as BISC 401

QBIO 430 Principles and Applications of Systems Biology  
Units: 4  
*Terms Offered: Fa* (Enroll in BME 430)  
*Instruction Mode: Lecture*  
Grading Option: Letter  
Crosslisted as BISC 478

QBIO 479L Computational Genome Analysis Laboratory  
Units: 4  
*Terms Offered: Sp*  
Bioinformatic analysis of sequence data. Analysis of genome structure, genetic variation, gene expression, functional DNA and genetic association. *Recommended Preparation:* BISC 478 (cross-listed as QBIO 478)  
*Instruction Mode: Lecture, Lab*  
Required Grading Option: Letter  
Crosslisted as BISC 479

QBIO 481 Structural Bioinformatics: From Atoms to Cells  
Units: 4  
*Terms Offered: Fa* (Enroll in BISC 481)

QBIO 482 Systems Biology: From Cells to Oceans  
Units: 4  
*Terms Offered: Sp*  
Foundational skill-building in statistics, modeling and computational analyses. Hands-on instruction in MATLAB for developing and coding models of dynamic systems in biological/quantitative biology research. *Instruction Mode: Lecture*  
Grading Option: Letter  
Crosslisted as BISC 482

QBIO 490x Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12  
*Terms Offered: FaSp*  
Individual research and readings. Project approval by QBIO committee or faculty advisor required. *Registration Restriction:* Open only to QBIO undergraduates. *Credit Restriction:* Not available for graduate credit. *Instruction Mode: Lecture*  
Grading Option: Letter

QBIO 493 Quantitative Biology Honors Seminar  
Units: 2  
*Terms Offered: FaSp*  
Open only to Quantitative Biology undergraduates. *Instruction Mode: Lecture*  
Grading Option: Letter

QBIO 494x Quantitative Biology Honors Thesis  
Units: 2  
*Terms Offered: FaSp*  
Experience in conducting research and writing a thesis under supervision of a faculty advisor. *Prerequisite:* QBIO 105  
*Registration Restriction:* Open only to Quantitative Biology undergraduates. *Credit Restriction:* Not available for graduate credit. *Instruction Mode: Lecture*  
Grading Option: Letter

QBIO 499 Special Topics  
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08  
*Terms Offered: FaSp*  
Topics in specialized areas of the quantitative biological sciences. *Registration Restriction:* Open only to QBIO majors only. Other majors require permission from the instructor. *Instruction Mode: Lecture, Discussion*  
Grading Option: Letter

QBIO 502 Molecular Biology for Quantitative Scientists  
Units: 4  
*Terms Offered: FaSp*  
In-depth study of molecular biology techniques and experiments with an emphasis on those that are able to generate “big data.” Intended for quantitative science students. *Instruction Mode: Lecture*  
Grading Option: Letter

QBIO 590 Directed Research  
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12  
*Terms Offered: FaSp*  
Research leading to the graduate degree. Maximum units which may be applied to the degree to be determined by the department. *Registration Restriction:* Open only to Quantitative and Computational Biology students. *Instruction Mode: Lecture*  
Grading Option: Credit/No Credit

Real Estate Development  
RED 351 Land Use Regulation  
Units: 4  
*Terms Offered: Sp*  
Land use planning and zoning; community and...
government relations; environmental regulation. Recommended Preparation: RED 362 Instruction Mode: Lecture Grading Option: Letter
RED 362 Real Estate Development Fundamentals
Units: 4 Real estate overview; evolution of cities and neighborhoods; product types; introduction to valuation. Prerequisite: (PPD 227 or PPD 245) and (MATH 108 or MATH 117 or MATH 118 or MATH 125) Instruction Mode: Lecture Grading Option: Letter
RED 375 Real Estate Development Analysis
Units: 4 Terms Offered: FaSp Real estate development feasibility and analysis; underwriting local fundamentals including neighborhood and city change, real estate capital flows Prerequisite: BUAD 215x and ECON 203g and RED 362 Duplicates Credit in the former PPD 375 Instruction Mode: Lecture Grading Option: Letter
RED 398 Shaping Cities Through Real Estate
Units: 2, 3, 4 Max Units: 08 Terms Offered: FaSpSm Cities and urban form created through the various real estate product types. Case studies and site visits. Recommended Preparation: RED 362 Instruction Mode: Lecture Grading Option: Letter
RED 417 History of Planning and Development
Units: 4 Terms Offered: FaSp Historical evolution of planning and development. How changing modes of planning and development have shaped the built landscape throughout the century. Prerequisite: PPD 227 or PPD 245g Duplicates Credit in the former PPD 417 Instruction Mode: Lecture Grading Option: Letter
RED 425 Designing Livable Communities
Units: 4 Terms Offered: FaSp Theories and concepts of livable communities and good city form; case studies of historical and current best practices; field visits; collaborative design project. Prerequisite: PPD 227 or PPD 245g Duplicates Credit in the former PPD 425 Instruction Mode: Lecture Grading Option: Letter
RED 435 Analyzing Real Estate Markets
Units: 4 Terms Offered: FaSpMacro and micro-analysis of urban property markets; demographics; location choice; regulation Prerequisite: PPD 303 and RED 375 Duplicates Credit in the former PPD 435 Instruction Mode: Lecture Grading Option: Letter
RED 437 Advanced Finance and Investment for Real Estate Development
Units: 4 Terms Offered: FaSpSm Advanced real estate principles. Underwriting property valuation and deal structure including risk and return. Debt and equity markets; difference between development and existing assets. Prerequisite: RED 425 Duplicates Credit in the former PPD 437 Instruction Mode: Lecture Grading Option: Letter
RED 469 Mixed Use Development Process
Units: 4 Terms Offered: Sp Design, financial, legal and management challenges of mixed use real estate development; field project. Prerequisite: FBE 391 or RED 375 or ARCH 302BL Instruction Mode: Lecture Grading Option: Letter Crosslisted as FBE 469, ARCH 469
RED 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Terms Offered: FaSpSm Individual research and readings. Instruction Mode: Lecture Grading Option: Letter
RED 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Terms Offered: FaSpSm Selected topics in real estate development. Instruction Mode: Lecture Grading Option: Letter
RED 500 Real Estate Development and the Economy
Units: 2 Terms Offered: Sm Linkages between national and regional economies and the performance of the real estate sector. Anticipating development trends. Public policy applications. Instruction Mode: Lecture Grading Option: Letter
RED 509 Market Analysis for Real Estate
Units: 4 Terms Offered: Fa Explores macro and micro aspects of residential, retail, office, and industrial markets and examines methodologies for analyzing such markets for real estate development/ investment purposes. Prerequisite: RED 542. Instruction Mode: Lecture Grading Option: Letter
RED 510 Real Estate Practice and Principles
Units: 4 Terms Offered: FaSp Fundamental principles of real estate analysis; economics; capital markets; development decision-making; relationships between real estate markets and federal, state and local government policies; property value. Instruction Mode: Lecture Grading Option: Letter
RED 511 Foundations of Real Estate Analysis
Units: 4 Terms Offered: FaSp Principles of real estate analysis; capital markets; importance of uncertainty and metrics of risk; investments; valuation techniques; use of debt and equity, leases, taxes. Prerequisite: RED 510. Instruction Mode: Lecture Grading Option: Letter
RED 512 Real Estate Project Analysis
Units: 4 Terms Offered: FaSpFundamental economic theories; analytical techniques; practical applications for market analysis of various forms of real estate. Prerequisite: RED 511. Instruction Mode: Lecture Grading Option: Letter
RED 541 Finance Fundamentals for Real Estate Development
Units: 2 Terms Offered: Sm Introduction to the general principles of finance with application to real estate development, including capital markets, financial institutions, valuation and risk management. Instruction Mode: Lecture Grading Option: Letter
RED 542 Finance of Real Estate Development
Units: 3 Terms Offered: FaSm Theory and methods of real estate finance and investment. Real estate investment analysis, real estate entities, taxation; introduction to securitization of real estate equities, debt. Prerequisite: RED 541. Instruction Mode: Lecture Grading Option: Letter
RED 544 Real Estate Capital Markets
Units: 2 Terms Offered: Fa Explore structure, instruments and institutions of real estate capital markets. Consider linkages between real estate and capital markets. Assess role of Real Estate Investment Trusts. Prerequisite: RED 542 Instruction Mode: Lecture Grading Option: Letter
RED 545 Advanced Real Estate and Financial Modeling
Units: 2 Terms Offered: Sp Quantitative problem solving using computerized modeling. Complex debt financing, including lender participation, subordination, joint venture structuring, systematic treatment of real estate portfolios. Prerequisite: RED 542. Instruction Mode: Lecture Grading Option: Letter
RED 546 Applications of Real Estate Finance to Problems of Development
Units: 3 Terms Offered: Sp Advanced topics in finance applied to cases and problems of real estate development; emphasis on structuring, finance and evaluation of various types of development projects. Prerequisite: RED 542. Instruction Mode: Lecture Grading Option: Letter
RED 547 Project Management and Construction
Units: 2 Terms Offered: Sm Managing the building phase of development. Architectural and engineering aspects of construction management for the real estate developer. Instruction Mode: Lecture Grading Option: Letter
RED 551 The Approval Process
Units: 4 Terms Offered: FaSpSm Approval process for real estate development including land use entitlement, site selection, zoning, environmental review, community and government relations, infrastructure financing, ethical issues, negotiation skills. Instruction Mode: Lecture Grading Option: Letter
RED 562 Legal Issues in Real Estate Development
Units: 4 Terms Offered: FaSp Ownership and transfer of real estate; formation and enforcement of contracts; business associations; environmental regulation; taxation of property transfers; acquiring, financing, leasing of commercial property. Duplicates Credit in former RED 662. Instruction Mode: Lecture Grading Option: Letter
RED 563 Introduction to the Asset Management of Real Estate
Units: 2 Terms Offered: Fa Overview of institutional asset management: creating and implementing investment and portfolio strategies through the development, acquisition, underwriting, and operational stages of the investment, asset disposition. Instruction Mode: Lecture Grading Option: Letter
RED 564 Issues in Asset Management of Real Estate
Units: 2 Terms Offered: Sp Advanced issues in institutional asset management. How value is created during investment process with focus on tactical, operational, and strategic goals of asset and owner. Prerequisite: RED 563. Instruction Mode: Lecture Grading Option: Letter
RED 571 Introduction to Appraisal Principles, Procedures, and Standards
Units: 4 Terms Offered: Fa Valuation

RED 573 Design History and Criticism Units: 2 Terms Offered: Sm The concepts, language and metaphors of design-related disciplines are examined in relation to design and construction values and choices in real estate development. Duplicates Credit in former RED 673. Instruction Mode: Lecture Grading Option: Letter

RED 574 Building Typologies Units: 2 Terms Offered: Fa The exploration of categories of building types, including retail, industrial, residential, office and institutional, using key examples or case studies from each. Duplicates Credit in former RED 674. Instruction Mode: Lecture Grading Option: Letter

RED 575L Community Design and Site Planning Units: 2, 3, 4 Max Units: 8.0 Terms Offered: Sp Physical implementation of development projects. Students will develop concept plan, preliminary design and marketing plan for selected domestic and/or international development sites. Duplicates Credit in former RED 675L. Instruction Mode: Lecture, Lab Required Grading Option: Letter

RED 583 International Development Opportunities Units: 2 Terms Offered: Sp A survey of various markets prominent in the global real estate community. Protocols for analyzing international development opportunities and cultural, political, and socioeconomic considerations. Instruction Mode: Lecture Grading Option: Letter

RED 585 Comparative International Development Workshop Units: 2, 3, 4 Terms Offered: Sm Comparative study tour focused on understanding international real estate development practices and markets, site visits and meeting with principals. Instruction Mode: Lecture Grading Option: Letter

RED 590 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RED 598 Real Estate Product Development Units: 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm An evaluation of various real estate development types. Case studies and site visits. Instruction Mode: Lecture Grading Option: Letter

RED 599 Special Topics Units: 2, 3, 4 Max Units: 8.0 Current issues, trends, and developments in real estate development. Instruction Mode: Lecture Grading Option: Letter

Religion

REL 111g The World of the Hebrew Bible Units: 4 The Hebrew Bible in the cultural setting of the Ancient Near East; the formation of theological and ethical concepts which have shaped Western culture. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 112g Religions of Ancient Egypt and the Near East Units: 4 Religions, cultures, and values of ancient Egypt and Near East (Iran, Iraq, Israel, Syria, Lebanon, Arabia, Turkey) and their legacies in contemporary society. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 114g The Mediterranean: A Religious History Units: 4 Explores multiple religious traditions of the Mediterranean as networks that emerge within and among the landscapes, cultures, and politics of this highly interconnected geographic space. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 115g Jerusalem, City of Three Faiths Units: 4 History of Jerusalem as a window onto the nature of the three Abrahamic faiths. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 121g The World of the New Testament Units: 4 Historical investigation of New Testament characters, events, ethics and theology in relation to its social, intellectual, and religious contexts in the Jewish and GrecoRoman world. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 125g Introduction to Christianity: Antiquity to 1500 Units: 4 Survey of the changing beliefs and practices of the Christian religion from its origins through early modernity (100 CE - 1500 CE), with special attention to different varieties of Christian literature. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 132g Origins of Western Religions Units: 4 Examination of Judaism, Christianity, and Islam in their origins and their development in relation to Western civilization. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category I: Western Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 134g Introduction to Buddhism Units: 4 Focus primarly on works of Buddhist literature written in a variety of genres. Introduction of basic teachings that link Buddhist traditions across time and space. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 135g Chinese Religions and Culture Units: 4 Historical and thematic survey of Chinese religious history from earliest times to the present. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 136g Sense and Sensuality in Indian Religions and Culture Units: 4 Exploration of the senses and the technologies of pleasure in India, relating this material to some fascinating examples of Hindu, Jain, and Buddhist literature. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 137g Introduction to Islam Units: 4 Introduction to Islam, emphasizing its historical and cultural development since the seventh century C.E., and the basic teachings of Islam. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category II: Global Cultures and Traditions Instruction Mode: Lecture Grading Option: Letter

REL 138g Japanese Religions and Culture Units: 4 Major religious traditions of Japan (such as Buddhism, Shinto, Christianity, Confucianism) and their broader social and cultural contexts. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 141g Global Religions in Los Angeles Units: 4 Congregational and individual expressions of religion in Los Angeles. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 146g Spirituality in America Units: 4 Examination of the historical continuities and disjunctions between "spiritual but not religious" Americans; the relationship between spirituality, politics and social change, and the role of religion. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter
REL 147g Religion, Media and Popular Culture
Units: 4 Exploration of the manner in which the media frame discussions and understandings of ethical issues, moral dilemmas, spirituality and religious imagination. Satisfies New General Education in Category B: Humanistic Inquiry. Instruction Mode: Lecture Grading Option: Letter, Discussion

REL 301 Introduction to the Study of Religion
Units: 4 Terms Offered: Fa Survey of academic approaches to the study of religion. When possible this course will be taken during the first year of the major or minor. Instruction Mode: Lecture Grading Option: Letter

REL 302 Religions of Ancient Egypt and the Near East
Units: 4 Religious experience and values of ancient Egypt and Near East through material culture, literature, art, and cultic practices; and their legacies in contemporary society. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST 301

REL 303g Exploring Ancient Ways of Living: Experimental Archaeology
Units: 4 Active learning course enables students to acquire and experience survival skills devised in pre-modern times and to apply this knowledge in an experimental context. Satisfies New General Education in Category C: Social Analysis. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ANTH 303

REL 304g Ethics and Global Heritage
Units: 4 Archaeology and global heritage debates, laws, ethical conundrums, and stakeholder perspectives reveal goals and guiding values of society's exploration of the past. Recommended Preparation: REL 301 or ANTH 202g Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as ARGC 304, ANTH 318

REL 305g Virtual and Digital Culture, Heritage and Archaeology
Units: 4 Max Units: 04 Terms Offered: FaSpSm (Enroll in ARGC 305L)

REL 310 Anti-Semitism, Racism and Other Hatreds
Units: 4 Terms Offered: FaSp (Enroll in JS 315g)

REL 311g The Bible in Western Literature
Units: 4 Comparative analysis of biblical works and how they were employed by various writers in major works of Western literature. Instruction Mode: Lecture Grading Option: Letter

REL 312 Biblical Wisdom Literature
Units: 4 Survey of and inquiry into the biblical wisdom literature; emphasis on the Book of Job. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 314 Introduction to Shiism
Units: 4 Examination of the major branches of Shiism, the second largest articulation of Islam, both historically and in the world today. Instruction Mode: Lecture Grading Option: Letter

REL 315 Thought and Life of Islam
Units: 4 History, thought, institutions, and religious practices of Islam. Instruction Mode: Lecture Grading Option: Letter

REL 316 Women and the Islamic Tradition
Units: 4 Terms Offered: Fa Overview of social and legal status of women in Islamic society, past and present. Examination of social roles established both for and by Muslim women. Instruction Mode: Lecture Grading Option: Letter

REL 317g The Bible in Its Ancient Context
Units: 4 A close consideration of ancient Near Eastern myths — especially those from Mesopotamia and Canaan — with special attention to their influence on the Bible. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 319 Religious and Ethical Issues in Death and Dying
Units: 4 Analysis of religious and ethical approaches to death and dying, including refusal of treatment for competent and incompetent patients, voluntary and involuntary euthanasia, and resuscitation. Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 323 Aegean Archaeology
Units: 4 (Enroll in CLAS 323) Instruction Mode: Lecture Grading Option: Letter

REL 324g Sex and the Bible: Gender, Sexuality, and Scripture
Units: 4 Role the Bible has played in debates about sex, gender, and sexuality in Western history. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 325g Religious Experience in the Greco-Roman World
Units: 4 Terms Offered: FaSpSm Varieties of religious experience as reflected in the literature, art, and cultic practices of the Hellenistic world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 326g Historical Jesus
Units: 4 Examination of the question of how ancient and modern Christians and scholars have reconstructed the life of Jesus of Nazareth, founding figure of Christianity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter

REL 327g Heretics, Martyrs, and Miracles
Units: 4 Examines Christianity in the second century including theology, ethics and identity. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 328g Archaeology of Religion in the Greco-Roman World
Units: 4 (Enroll in CLAS 328)

REL 329 Themes in the Religions of China
Units: 4 A study of selected themes in the history of Chinese religions and culture. Compares cases and materials from several historical periods and religious traditions. Instruction Mode: Lecture Grading Option: Letter

REL 330 Introduction to the Religions of India
Units: 4 Terms Offered: FaSpSm History, teaching, and practice of Hinduism, Buddhism, and other religious traditions of India. Instruction Mode: Lecture Grading Option: Letter

REL 331 Religions of East Asia
Units: 4 History, teaching, and practice of the religions of China, Tibet, and Japan. Instruction Mode: Lecture Grading Option: Letter

REL 332 Religions of Japan
Units: 4 The development of religious thought and practice in the Japanese islands, with Buddhism and Shintō being the most prominent. Instruction Mode: Lecture Grading Option: Letter

REL 333 Religion in the Borderlands
Units: 4 Survey of religious history of U.S./Mexico borderlands. Emphasis is given to definitions of place and transformations in culture and forms of belief. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 333

REL 334g Religion and Colonial Encounter
Units: 4 Terms Offered: FaSpSm Survey of religious responses to colonial encounter in the Americas. Emphasis given to study of religious innovations of Amerindians, Africans and Europeans. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 335 Gender, Religion, and Sexuality
Units: 4 The construction of gender and sexuality in Western religious traditions; its continued impact on contemporary intellectual, cultural, and social life. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS 335

REL 336w Re-Viewing Religion in Asian America
Units: 4 Interdisciplinary analysis of the religions traditions, institutions, and experiences of Asians and Pacific Islanders in the U.S. Satisfies Global Perspective in Category G: Citizenship in a Diverse World Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST 336

REL 337 Islam in Black America: From Slavery to Hip Hop
Units: 4 (Enroll in AMST 337)

REL 338 Mysticism and Religious Desire
Units: 4 How human appetites for sex, food, community or immortality are articulated as mystical desires in different religions, either within institutional structures or working against them. Instruction Mode: Lecture Grading Option: Letter

REL 339 Studies in the History of Christianity
Units: 4 In-depth exploration of one of the pivotal moments in the history of Christianity and Western society. Instruction Mode: Lecture Grading Option: Letter

REL 340 Introduction to Indian Philosophy
Units: 4 An introduction to Indian philosophy, including major schools of
thought in Hindu, Buddhist, and Jain philosophies. No previous knowledge of Indian religions or philosophy required. Instruction Mode: Lecture Grading Option: Letter

REL 341 Technology, Culture, and Ethics
Units: 4 Examination of value questions arising from the impact of technology on individuals, social institutions, and culture. Instruction Mode: Lecture Grading Option: Letter

REL 342g Buddhist Modernism
Units: 4 Examines various topics in the process of rapid modernization and globalization in Buddhism including environmentalism, gender, nationalism, social activism, and war and peace. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

REL 344 Islamic Law and American Society
Units: 4 (Enroll in AMST 344)

REL 345 Islamic Mysticism: Sufism
Units: 4 Examination of the origins, development, and basic concepts and practices of Sufism, as well as its relationship to other areas of Islamic life. Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

REL 350 Drugs, Alcohol, Visions and Altered States in Religion
Units: 4 Examines the history and meaning of drugs, alcohol and altered states of mind in world religions across history. Instruction Mode: Lecture Grading Option: Letter

REL 359g Culture in Diaspora: The Jews of Spain
Units: 4 Course traces the Jewish diaspora from Spain and Portugal with particular attention to how Sephardic Jews maintained ties of culture, commerce, language, and identity. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Old General Education in Category V: Arts and Letters Instruction Mode: Lecture, Discussion Grading Option: Letter Crosslisted as HIST-371

REL 360 Ethical Issues in the New Medical Revolution
Units: 4 Multimedia-oriented analysis of issues; definition of life and death; research on human subjects, health care delivery, euthanasia, abortion, genetic counseling, behavior control. Instruction Mode: Lecture Grading Option: Letter

REL 361 Law and Religion
Units: 4 Explores the intersection between law and religion including ways in which religious traditions conceive of, create, order, and contest law. Instruction Mode: Lecture Grading Option: Letter

REL 364 Religion and Ethics
Units: 4 Traces the development of how religious ideas have informed ethics, or accounts of the good life, including notions of justice, righteousness, virtue, duty, charity and happiness. Instruction Mode: Lecture Grading Option: Letter

REL 365 Global Ethics
Units: 4 Provide an overview of debates concerning moral, cultural ethics in a globalizing world. Encourage critical reflection on global justice, ethical systems, role of religion. Instruction Mode: Lecture Grading Option: Letter

REL 366 Religion and Social Change
Units: 4 Empirical and theoretical analysis of social change and its effect on religious institutions as well as the impact of religious movements on society. Instruction Mode: Lecture Grading Option: Letter

REL 370 Religion and Visuality
Units: 4 Examination of the deep connections between visuality and religions, including visions, controversies over religious images, and other connections between religion and visual art. Instruction Mode: Lecture Grading Option: Letter

REL 371 Religion and the Supernatural
Units: 4 Methods of religious studies, history, anthropology, and psychology used to analyze religious beliefs in and responses to the supernatural. Instruction Mode: Lecture Grading Option: Letter

REL 376g Religion and Human Rights
Units: 4 Close examination and discussion of a variety of religious views regarding human rights. Forges useful frameworks for interpreting the complexity of competing ideas. Satisfies New General Education in Category C: Social Analysis Instruction Mode: Lecture Grading Option: Letter

REL 382gw Zen and Daoism in Asian Literature
Units: 4 (Enroll in COLT 382gw)

REL 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

REL 394 Archaeology of Egypt and the Near East
Units: 4 Study of archaeology and excavated artifacts from Egypt and the Near East. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-304, MDES-394

REL 401 Seminar in Religious Studies
Units: 4 Term Offered: Sp Survey of methods and selected issues in the field of religious studies; required of all majors during their junior or senior year. Recommended Preparation: REL 301. Duplicates Credit in former REL 399. Instruction Mode: Lecture Grading Option: Letter

REL 402 Cultural Heritage, Religion, and Politics in the Middle East
Units: 4 Terms Offered: Fa In-depth exploration of archaeology and heritage issues in the Middle East and their implications for politics and practice in modern Islam, Judaism and Christianity. Instruction Mode: Lecture Grading Option: Letter Crosslisted as HIST-402, IR-405, MDES-402

REL 414 History of Islamic Law
Units: 4 Terms Offered: Sp Examines legal methods and religious sources used in Islamic law. Emphasis is placed on the way cultural developments affect legal thought and the administration of justice. Instruction Mode: Lecture Grading Option: Letter

REL 425 Communicating Religion
Units: 4 (Enroll in COMM 425)

REL 426 Religion, Media and Hollywood: Faith in TV
Units: 4 (Enroll in COMM 426)

REL 431 The Taoist Tradition
Units: 4 (Enroll in EALC 431)

REL 435 Religious Thought After the Enlightenment
Units: 4 Changes in religious thought between the late 18th and early 20th centuries in the wake of the emergence of modernity in the West. Instruction Mode: Lecture Grading Option: Letter

REL 440 Christian Thought in the 20th Century
Units: 4 Examination of dynamic new directions taken by Christian understandings of self, God, and salvation in response to the novel conditions of modern culture, politics and philosophy. Instruction Mode: Lecture Grading Option: Letter

REL 441 Origins of Modern Theology
Units: 4 19th century liberal, rationalist, and historical theology. Instruction Mode: Lecture Grading Option: Letter

REL 442 Religion and Science
Units: 4 Explores whether religion and science offer competing or complementary models for understanding the world and the human place within it. Instruction Mode: Lecture Grading Option: Letter

REL 448m France and Islam
Units: 4 Terms Offered: FaSp (Enroll in FREN 448)

REL 455 Philosophy of Religion: Bases of Belief and Disbelief
Units: 4 Rational and empirical foundations for religious faith and for skepticism. Instruction Mode: Lecture Grading Option: Letter

REL 460 Senior Seminar: Medical Ethics
Units: 4 Analysis of ethical problems related to new developments in medical science. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 462 Religion and Violence
Units: 4 Religious and moral perspectives on war, pacifism, violent and nonviolent protest, and religion-based terrorism and militia. Instruction Mode: Lecture Grading Option: Letter

REL 465 Archaeology and Society
Units: 4 Terms Offered: FaSpSm (Enroll in CLAS 465)

REL 468 Sociology of Religion
Units: 4 The role of religion in modern society from the standpoint of sociological theory and research. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SOCI-468

REL 469 Black Religion in America
Units: 4 Historical, sociological, and theological analysis of the nature and role of black religion in the American setting. Instruction Mode: Lecture Grading Option: Letter Crosslisted as ETST-469

REL 471 Seminar in South Asian Religions
Units: 4 Exploration of particular themes and/or traditions in South Asian religions. Instruction Mode: Lecture Grading Option: Letter

REL 482 Religion and Law
Units: 4 (Enroll in EALC 482)

REL 485 Feminist Religion
Units: 4 (Enroll in EALC 485)

REL 487 Buddhism in America
Units: 4 The influence of Buddhism in America. Instruction Mode: Lecture Grading Option: Letter

REL 489 Field Work in America
Units: 4 Field work in America. Instruction Mode: Lecture Grading Option: Letter
REL 471 Jesus
Units: 4 A study of major interpretations of the figure of Jesus, with focus on the interaction between religious traditions and culture. Instruction Mode: Lecture Grading Option: Letter

REL 473 Advanced Hebrew Bible Studies
Units: 4 Consideration of specific topics in Old Testament studies; particular topics determined each semester. Instruction Mode: Lecture Grading Option: Letter

REL 474 Advanced New Testament Studies
Units: 4 Consideration of specific topics in New Testament studies. Particular topics determined each semester. Instruction Mode: Lecture Grading Option: Letter

REL 475 Religion, Material Culture and the Senses
Units: 4 A comparative study of the role of material culture and the senses in religions based on a number of case studies and problem sets. Instruction Mode: Lecture Grading Option: Letter

REL 479 Seminar in Christian Thought
Units: 4 Studies a theme, period, or problem from the history of Christian thought within its intellectual and social contexts. Instruction Mode: Lecture Grading Option: Letter

REL 481 History of Religion in America
Units: 4 Intellectual, institutional, and social history of religion in America from colonial times to the present. Instruction Mode: Lecture Grading Option: Letter

REL 483 Religion and Popular Culture in the United States
Units: 4 Terms Offered: Sp Critical analysis of the relationship between religion, mass media, and popular cultural forms in the U.S. Recommended Preparation: REL 301. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AMST-483

REL 484 American Religion, Foreign Policy and the News Media
Units: 4 (Enroll in JOUR 484)

REL 485 Transnational Religion
Units: 4 Explores the role of transnational religion in relation to both the formation of new diasporic communities and problems of conflict and peace building. Instruction Mode: Lecture Grading Option: Letter

REL 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings. Instruction Mode: Lecture Grading Option: Letter

REL 491x Undergraduate Honors Research
Units: 4 Individual research for honors in the major leading to a substantial project. Instruction Mode: Lecture Grading Option: Letter

REL 493 Art and Archaeology of Religion
Units: 4 Terms Offered: FaSp The history of religion through its material expression: art, architecture and artifact. Exploration of different themes and time periods. Instruction Mode: Lecture Grading Option: Letter

REL 494 Lab Methods and Theories in Archaeology
Units: 4 Archaeological research design, data recovery, artifact analysis, interpretation and analogy, publication and ethics. Recommended Preparation: ANTH 202g Instruction Mode: Lecture Grading Option: Letter Crosslisted as ARCG 494

REL 495 Field Methods and Theories in Archaeology
Units: 4 Max Units: 12.0 Terms Offered: FaSpSm Archaeological field study emphasizing current paradigms of data collection and evaluation; social scientific study of material culture and its relationship to religious expression. Instruction Mode: Lecture Grading Option: Letter

REL 499 Special Topics in Religion
Units: 2, 3, 4 Max Units: 8.0 Selected topics in religious studies. Instruction Mode: Lecture Grading Option: Letter

REL 500 Methods and Theories in the Study of Religion
Units: 4 Introduction to the major topics, trends, and theoretical approaches in the study of religion. Instruction Mode: Lecture Grading Option: Letter

REL 502 Themes in the Study of Religion
Units: 4 Max Units: 8.0 Thematic approaches to the study of religion and religions transcending particular traditions, time periods and geographic regions. Course topic varies by semester according to faculty. Instruction Mode: Lecture Grading Option: Letter

REL 525 Colloquium in Global Islam
Units: 4 Introduces major issues that have defined Islamic Studies in premodern and modern periods. Generally taken in the first year. Instruction Mode: Lecture Grading Option: Letter

REL 535 Colloquium in Christian Studies
Units: 4 Research methods and recent scholarship in Christian Studies.

REL 545 Colloquium in Asia Pacific Religions
Units: 4 Research methods, tools and current scholarship in the study of Asian Pacific Religions. Instruction Mode: Lecture Grading Option: Letter

REL 554 Colloquium in Global Islam
Units: 4 Foundation for and exposure to a number of sub-fields in Jewish Studies. Instruction Mode: Lecture Grading Option: Letter

REL 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 592 Professionalization Proseminar in Religious Studies
Units: 2 Offers students a structured environment in which to consider issues in professional development and to discuss their dissertation proposals. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 593 Practicum in Teaching the Liberal Arts
Units: 2 Practical principles for the long-term development of effective teaching within liberal arts disciplines. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Instruction Mode: Lecture Grading Option: Letter

REL 625 Advanced Graduate Seminar in Global Islam
Units: 4 Exploration of themes and traditions of Islam as they appear globally in a variety of specific country contexts Instruction Mode: Lecture Grading Option: Letter

REL 635 Advanced Graduate Seminar in Christian Studies
Units: 4 Comparative and transhistorical methods for understanding the most prominent developments in premodern or modern globalized Christianity. Registration Restriction: Open only to graduate students. Instruction Mode: Lecture Grading Option: Letter

REL 645 Advanced Graduate Seminar in Asia Pacific Religions
Units: 4 Application of comparative and transhistorical methods for understanding the most prominent themes in Asian Pacific Religions. Instruction Mode: Lecture Grading Option: Letter

REL 650 Readings in Islamic Texts
Units: 4 Max Units: 12 Study of Islamic religious texts in multiple genres, primarily in Arabic, though other languages may be offered. Recommended Preparation: Advanced Arabic language ability. Instruction Mode: Lecture Grading Option: Letter

REL 651 Readings in Christian Texts
Units: 4 Max Units: 12 Survey of the different genres of texts in the history of Christian spirituality from ancient Christianity to the present. Instruction Mode: Lecture Grading Option: Letter

REL 652 Readings in Buddhist Texts
Units: 4 Max Units: 12 Study of varied Asian Buddhist texts in translation and in original languages. Exploration of the major secondary literature on Buddhist texts. Instruction Mode: Lecture Grading Option: Letter

REL 653 Readings in Indic Religions
Units: 4 Max Units: 12 Study of varied Hindu, Buddhist, and Jain texts, primarily in Sanskrit. The class covers multiple genres from Puranas to Tantra. Recommended Preparation: Two years of previous study of Sanskrit Instruction Mode: Lecture Grading Option: Letter

REL 654 Readings in Chinese Religious Texts
Units: 4 Max Units: 12 Study of Chinese religious texts primarily in literary Chinese. Covers multiple genres of texts from Buddhist sutras to Daoist texts. Recommended Preparation: Advanced Chinese language and at least one year of training in classical Chinese. Instruction Mode: Lecture Grading Option: Letter

REL 655 Readings in Japanese Religious Texts
Units: 4 Max Units: 12 Study of Japanese Buddhist texts in classical or modern Japanese and/or kambug. Covers multiple genres from sutras to vernacular text. Recommended Preparation: Advanced Japanese language ability. Instruction Mode: Lecture Grading Option: Letter
COURSES OF INSTRUCTION

REL 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11
12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

REL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

REL 794e Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: Credit/No Credit

Restorative Dentistry

REST 314 Physiology of Occlusion for Hygienists
Units: 1 Biology and function of the gnathostomatic system. Role of the hygienist in diagnosis and treatment of occlusal dysfunctions. Instruction Mode: Lecture Grading Option: Letter

REST 501 Preclinical Operative and Fixed Prosthodontics (Conjoint)
Units: 2 Fundamental concepts of restoring an individual tooth with a cast restoration; principles of cavity preparation; casting, fabrication and cementation. Instruction Mode: Lecture Grading Option: Letter

REST 503a Clinical Restorative Dentistry
Units: 1 Application of pre-clinical procedures in operative dentistry, fixed prosthodontics, removable prosthodontics and dental materials. Instruction Mode: Lecture Grading Option: Letter

REST 503b Clinical Restorative Dentistry
Units: 1 Application of pre-clinical procedures in operative dentistry, fixed prosthodontics, removable prosthodontics and dental materials. Instruction Mode: Lecture Grading Option: Letter

REST 504 Diagnosis and Treatment Planning
Units: 1 Utilizing a restorative approach, enhance students’ knowledge and ability to choose treatment best suited for existing dental conditions, patients’ requests and their financial ability. Instruction Mode: Lecture Grading Option: Letter

REST 521 Preclinical Operative/Fixed Prosthodontics Laboratory
Units: 3 Experience in cavity preparation; casting fabrication and cementation on extracted teeth and plastic dentiforms. Instruction Mode: Lecture Grading Option: Letter

REST 522 Aesthetics in Dentistry
Units: 1 Definition and relationship of elements of aesthetics; application in patient motivation and care. Instruction Mode: Lecture Grading Option: Letter

REST 602a Participation in Advanced Dental Care
Units: 0, 1, 2, 3 Participation in advanced dental treatment in Faculty Private Practice Clinic, techniques of difficult case presentation and efficiency in practice. Clinic and seminar. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

REST 602b Participation in Advanced Dental Care
Units: 0, 1, 2, 3 Participation in advanced dental treatment in Faculty Private Practice Clinic, techniques of difficult case presentation and efficiency in practice. Clinic and seminar. Instruction Mode: Lecture Grading Option: Letter

REST 701 Orientation to Advanced Prosthodontics
Units: 5 Preclinical overview of materials, techniques, instrumentation, and treatment procedures necessary for providing advanced prosthodontic care in the clinical environment. Instruction Mode: Lecture Grading Option: Letter

REST 702a Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702b Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702c Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702d Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702e Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 702f Seminar: Treatment Planning
Units: 2 each Seminars led by students with case presentations of complex multidisciplinary treatment plans, completed therapy and staff conferences. Instruction Mode: Lecture Grading Option: Letter

REST 703 Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703a Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703b Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703c Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703d Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703e Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 703f Seminar: Review of the Prosthodontic Literature — Fixed
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in fixed prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704a Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704b Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704c Seminar: Review of the Prosthodontic Literature — Removable
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter
REST 704d Seminar: Review of the Prosthodontic Literature — Removable Prosthodontics
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704e Seminar: Review of the Prosthodontic Literature — Removable Prosthodontics
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704f Seminar: Review of the Prosthodontic Literature — Removable Prosthodontics
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 704h Seminar: Review of the Prosthodontic Literature — Removable Prosthodontics
Units: 1 each Weekly two hour seminars devoted to review of the historic, classic, and current literature in removable prosthodontics. Instruction Mode: Lecture Grading Option: Letter

REST 705 Advanced Fixed Prosthodontics Techniques
Units: 1 Tooth preparation and advanced laboratory techniques necessary to implement full mouth rehabilitation. Instruction Mode: Lecture Grading Option: Letter

REST 706 Advanced Complete Denture Techniques
Units: 1 Advanced laboratory and clinical skills for a specialty prosthodontic practice. Instruction Mode: Lecture Grading Option: Letter

REST 708a Dental Ceramics, Color, and Aesthetics
Units: 2 Theory of color and dental aesthetics; history and development of dental ceramics; design and techniques in fabrication of ceramo-metal restorations. Instruction Mode: Lecture Grading Option: Letter

REST 708b Dental Ceramics, Color, and Aesthetics
Units: 2 Theory of color and dental aesthetics; history and development of dental ceramics; design and techniques in fabrication of ceramo-metal restorations. Instruction Mode: Lecture Grading Option: Letter

REST 709a Seminar: Removable Partial Dentures
Units: 1, 2 Diagnosis, treatment planning, and design of removable partial dentures using extracoronal and intracoronal retainers. Instruction Mode: Lecture Grading Option: Letter

REST 709b Seminar: Removable Partial Dentures
Units: 1, 2 Diagnosis, treatment planning, and design of removable partial dentures using extracoronal and intracoronal retainers. Instruction Mode: Lecture Grading Option: Letter

REST 710a Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710b Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710c Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 710d Implant Dentistry
Units: 1 Implant modalities and types; basis for selection; techniques of placement and of supervision of prosthodontic restoration. Includes a review of classic implant literature. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 712 Maxillofacial Prosthodontics
Units: 2 Theory and techniques for fabrication of prostheses to correct maxillofacial deformities including cleft palate. Instruction Mode: Lecture Grading Option: Letter

REST 721a Principles of Occlusion
Units: 2 Application of current occlusal concepts in removable prosthodontics. Techniques of occlusal adjustment and additive waxing for development of occlusal morphology. Instruction Mode: Lecture Grading Option: Letter

REST 721b Principles of Occlusion
Units: 2 Application of current occlusal concepts in removable prosthodontics. Techniques of occlusal adjustment and additive waxing for development of occlusal morphology. Instruction Mode: Lecture Grading Option: Letter

REST 761a Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761b Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761c Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761d Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761e Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761f Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761i Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 761j Clinic: Advanced Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Students treat patients with complex interdisciplinary problems. A minimum of five full mouth reconstructions and 10 sets of complete dentures will be completed. Instruction Mode: Lecture Grading Option: Letter

REST 781 Clinic: Maxillofacial Prosthetics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Clinical experience in fabrication of prostheses to correct maxillofacial deformities. Instruction Mode: Lecture Grading Option: Letter

REST 782a Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782b Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782c Clinic: Implant Prosthodontics
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthodontic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit
Removable complete and partial dentures

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthetic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthetic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782d Clinic: Implant Prosthodontics

Units: 0, 1, 2, 3, 4,5, 6, 7, 8, 9, 10, 11, 12 Opportunities for research in clinical and experimental prosthodontics. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 790 Directed Research: Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Opportunities for research in clinical and experimental prosthodontics. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782e Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthetic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

REST 782f Clinic: Implant Prosthodontics

Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each Clinical procedure in implants for prosthetic rehabilitation. Instruction Mode: Lecture Grading Option: Credit/No Credit

Robotics

ROBO 601L Fundamentals of Robotics I

Units: 4 Terms Offered: Fa Fundamental knowledge of robotics principles, including state estimation in theory and practice for mobile and manipulator robots. Recommended Preparation: Knowledge of linear algebra at the level of MATH 225 is strongly encouraged; knowledge of probability theory at the level of MATH 407 or EE 465 Registration Restriction: Not open to undergraduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

ROBO 602L Fundamentals of Robotics II

Units: 4 Terms Offered: Sp Fundamental knowledge of robotics principles, including planning and control in theory and practice for mobile and manipulator robots. Prerequisite: ROBO 601L Recommended Preparation: Knowledge of linear algebra at the level of MATH 225 is strongly encouraged; knowledge of probability theory at the level of MATH 407 or EE 465 Registration Restriction: Not open to undergraduate students Instruction Mode: Lecture, Lab Required Grading Option: Letter

Prosthodontics

RPRO 501 Preclinical Removable Complete Prosthodontics

Units: 1 Fundamental theory for the fabrication of removable complete dentures. Instruction Mode: Lecture Grading Option: Letter

RPRO 502 Removable Complete Prosthodontics

Units: 1 Complete denture treatment: phases, clinical procedures, philosophy, concept, rationale, and need. Instruction Mode: Lecture Grading Option: Letter

RPRO 503a Preclinical Removable Prosthodontics and Implants

Units: 2 Introduction to disciplines of removable complete and partial dentures and implants, including classification and progress of edentulism, support sources and principles, design, fabrication and evaluation. Instruction Mode: Lecture Grading Option: Letter

RPRO 503b Preclinical Removable Prosthodontics and Implants

Units: 1 Introduction to disciplines of removable complete and partial dentures and implants, including classification and progress of edentulism, support sources and principles, design, fabrication and evaluation. Instruction Mode: Lecture Grading Option: Letter

1 Complete denture treatment:

Units: 1 4 Partial denture design, fabrication, and function; repair; patient education. Instruction Mode: Lecture Grading Option: Letter

1 Partial denture design, fabrication, and function; repair; patient education. Instruction Mode: Lecture Grading Option: Letter

1 Clinical partially edentulous patient. Includes procedures necessary for the treatment of temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1 Laboratory experience in the fabrication of removable partial dentures. Instruction Mode: Lecture Grading Option: Letter

1 Laboratory experience in the fabrication of removable partial dentures. Instruction Mode: Lecture Grading Option: Letter

1 Clinical partial denture diagnosis and treatment planning: basic principles of partial denture design, fabrication, and function. Instruction Mode: Lecture Grading Option: Letter

1 Partial denture design, fabrication, and function; repair; patient education. Instruction Mode: Lecture Grading Option: Letter

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

1, 2, 3 Diagnosis, treatment planning, and care of edentulous patients. Complex cases involving temporomandibular joint dysfunction, surgical and congenital defects; seminars on clinical treatment. Instruction Mode: Lecture Grading Option: In-progress to Letter Grade
**RPRO 571e Clinic: Removable Partial Prosthodontics**
Units: 0
Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment.
*Instruction Mode: Lecture*  
*Grading Option: In-progress to Letter Grade*

**RPRO 571f Clinic: Removable Partial Prosthodontics**
Units: 2
Clinical experience in diagnosis, treatment planning, and laboratory procedures necessary for the treatment of the partially edentulous patient. Includes seminars related to clinical treatment.
*Instruction Mode: Lecture*  
*Grading Option: In-progress to Letter Grade*

**RPRO 602 Advanced Removable Prostheses**
Units: 4
Critical review and evaluation of the removable prosthetic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy.
*Duplicates Credit in RPRO 604a, RPRO 604b, RPRO 604c. Instruction Mode: Lecture*  
*Grading Option: Letter*

**RPRO 603 The Edentulous Patient — Conventional or Implant Prosthesis**
Units: 1
Effective management of the edentulous patient who is unable to adapt to a prosthesis; includes a review of implant dentistry with a hands-on session.
*Instruction Mode: Lecture*  
*Grading Option: Letter*

**RPRO 604a Advanced Removable Prosthodontics**
Units: 0
Critical review and evaluation of the removable prosthetic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy.
*Duplicates Credit in RPRO 602. Instruction Mode: Lecture*  
*Grading Option: In-progress to Letter Grade*

**RPRO 604b Advanced Removable Prosthodontics**
Units: 0
Critical review and evaluation of the removable prosthetic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy.
*Duplicates Credit in RPRO 602. Instruction Mode: Lecture*  
*Grading Option: In-progress to Letter Grade*

**RPRO 604c Advanced Removable Prostheses**
Units: 4
Critical review and evaluation of the removable prosthetic literature; guided experience in the laboratory and clinical phases of removable prosthodontic therapy.
*Duplicates Credit in RPRO 602. Instruction Mode: Lecture*  
*Grading Option: In-progress to Letter Grade*

**RSCI 525 Introduction to Drug and Food Toxicology**
Units: 3
Factors affecting toxic responses to foods and drugs: dose-response relationships, absorption, distribution, biotransformation, elimination of toxicants; target organ toxicity, teratogenesis, mutagenesis, carcinogenesis, food allergies, risk assessment. Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.
*Instruction Mode: Lecture*  
*Grading Option: Letter*

**RSCI 527 Medical Product Safety**
Units: 3
Management of medical product safety by manufacturers/suppliers including: safe manufacturing, labeling, packaging; pharmacovigilance, field observations, complaint handling; record-keeping, safety issues documentation; crisis management recalls. Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.
*Instruction Mode: Lecture*  
*Grading Option: Letter*

**RSCI 529 Application of Risk Management Tools and Techniques**
Units: 2
Use of risk management tools in the medical products arena: functional analysis, fault-tree analysis, failure modes and effects analysis, HACCP and six sigma methods. Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience.
*Instruction Mode: Lecture*  
*Grading Option: Letter*

**RSCI 531 Industrial Approaches to Drug Discovery**
Units: 4
Terms Offered: FaSpSm Examines the process of drug discovery from selection of disease and therapeutic target to characterization and validation of lead drug candidates. Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science, Certificate in Preclinical Drug Development and MS, Management of Drug Development.
*Instruction Mode: Lecture*  
*Grading Option: Letter*

**RSCI 532 Early Stage Drug Development**
Units: 3
Terms Offered: FaSpSm Explores the activities involved in transforming an early drug or biological candidate to a drug approved for marketing by regulatory authorities. Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS, Regulatory Science, Certificate in Preclinical Drug Development and MS, Management of Drug Development.
*Instruction Mode: Lecture*  
*Grading Option: Letter*
RSCI 533 Safety Evaluation during Drug Development
Units: 3 Safety pharmacology/toxicology requirements mandated by FDA and other regulatory agencies to move a new chemical entity from discovery stage to market approval. Instruction Mode: Lecture Grading Option: Letter

RSCI 534 Drug Development in CNS Disorders
Units: 4 Successes and challenges related to central nervous system therapeutics. Major brain disorders, current and future therapeutic targets and clinical trial designs. Instruction Mode: Lecture Grading Option: Letter

RSCI 535 Methods Development and Validation
Units: 3 Foundation in the process of developing and validating analytical methodology for purposes of pharmaceutical, biological and medical device development. Instruction Mode: Lecture Grading Option: Letter

RSCI 540 Analysis of Food and Dietary Supplement Regulations
Units: 3 Changes and interpretation of regulations affecting food supply and dietary supplements impacting global markets. Product development, health-claim positioning, advertising, media messaging, consumer choices, personal health outcomes. Instruction Mode: Lecture Grading Option: Letter

RSCI 541 Drug Development, Reimbursement, and Marketing
Units: 3 Survey of drug development strategies; health economics and outcomes researches and reimbursements; emphasis on coverage determination process and FDA and CMS parallel review process. Instruction Mode: Lecture Grading Option: Letter

RSCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 596 Internship for Curricular Practical Training in Regulatory Science
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Part-time or full-time practical work experience in Regulatory Science. The internship must be located at an off-campus facility. Students are individually supervised by faculty. Recommended Preparation: undergraduate or professional degree in pharmacy, medicine or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS (Regulatory Science). Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 601 Biomedical Commerce
Units: 4 Introduction to business principles appropriate to medical products, including: supply and demand, product entry-exit strategies, financing, reimbursement, marketing and pricing in global marketplace. Recommended Preparation: undergraduate degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience; enrollment in MS (Regulatory Science). Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 603 Managing Complex Projects
Units: 3 Theory and methods to manage complex projects in medical products sectors; timelines, intellectual property, security, contracts, budgets, review activities, reports, electronic tools, cross-cultural communication. Recommended Preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 604 Regulatory Strategy in Asia
Units: 4 Terms Offered: FaSpSm Regulatory policy, standards and practices in different Asian markets: product licensing, import/export management, materials sourcing, quality systems compliance, reimbursement, prescribing practices. Travel may be required. Recommended Preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 605 Managing Organizations and Human Resources
Units: 3 Theory and practice of personnel management, organizational structure and industrial relations in small, growing enterprises and large global companies typical of pharmaceutical and medical device sectors. Recommended Preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 606 Regulation of Emerging Technologies and Biological Products
Units: 3 Policies, testing and regulatory requirements affecting commercialization of biologics and novel medical technologies. Focus on biologics, blood and tissue products, radiopharmaceuticals and nanotechnology. Instruction Mode: Lecture Grading Option: Letter

RSCI 607 Theory, Methods and Practice of Medical Products Research
Units: 4 Terms Offered: FaSpSm Statistical and research design methods, data analysis, survey and interview techniques laying the foundation for the dissertation. Instruction Mode: Lecture Grading Option: Letter

RSCI 608 Regulatory Strategy in Europe and the Americas
Units: 4 Regulatory strategy in EU, Canada, Mexico and South America; culture, health-care practices, reimbursement, product registration, quality systems, trade restrictions, import/export requirements. Travel may be required. Recommended Preparation: undergraduate or professional degree in pharmacy, medical or independent health sciences, engineering or equivalent mix of post-secondary training and industry experience. Instruction Mode: Lecture Grading Option: Letter

RSCI 790 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Max Units: 12.0 Terms Offered: FaSpSm Research leading to the doctorate. Maximum units which may be applied towards the degree be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

RSCI 794a Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794b Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 794c Doctoral Dissertation
Units: 2 Dissertation research required for completion of doctoral degree in regulatory science. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

RSCI 800 Studies for the Qualifying Exam
Units: 0 Terms Offered: FaSpSm Preparation for the qualifying exam. Instruction Mode: Lecture Grading Option: Credit/No Credit

Russian
RUSU 120 Beginning Russian I
Units: 4 Terms Offered: FaSpSm Introduction to the Russian language with emphasis on basic conversational skills, major points of grammar and reading. Duplicates Credit in former SLL 120 Instruction Mode: Lecture Grading Option: Letter

RUSU 150 Beginning Russian II
Units: 4 Terms Offered: FaSpSm Continuation of RUSS 120. Prerequisite: RUSU 120 Duplicates Credit in former SLL 150 Instruction Mode: Lecture Grading Option: Letter

RUSU 220 Intermediate Russian I
Units: 4 Terms Offered: FaSpSm Development of thematic conversational skills with emphasis on extended dialogue. Review of basic morphology with special attention to verbs of motion. Reading of authentic material is emphasized. Prerequisite: RUSS 150 Duplicates Credit in former SLL 220 Instruction Mode: Lecture Grading Option: Letter

RUSU 250 Intermediate Russian II
Units: 4 Terms Offered: FaSpSm Continuation of RUSS 220. Development of proficiency in conversation skills reading and writing. Prerequisite: RUSS 220 Duplicates Credit in former SLL 250 Instruction Mode: Lecture Grading Option: Letter
RUSS 250x The Trans-Siberian Experience
Units: 2 Max Units: 04 Units Offered: Sp Introduction to Russian language and culture by means of a study-tour on the Trans-Siberian Railway. Credit Restriction: Not available for major credit for students in Russian and Central European Studies majors. Duplicates Credit in former SLL 250
Instruction Mode: Lecture Grading Option: Letter

RUSS 310 Advanced Russian in Popular Culture
Units: 4 Terms Offered: FaSpSm Advanced conversation, reading, grammar and topical analysis of Russian press, films and other popular sources. Conducted in Russian.
Prerequisite: RUSS 250 Duplicates Credit in former SLL 310
Instruction Mode: Lecture Grading Option: Letter

Pharmaceutical and Regulatory Science

RXRS 200 Approaches to Pharmacology and Drug Development
Units: 4 Pharmacology and Drug Development explored through the lens of Clinical Pharmacy. Translational and Bench Research, Regulatory Science and Global Policy.
Instruction Mode: Lecture Grading Option: Letter

RXRS 201p The History and Geography of Drugs
Units: 4 Global perspectives; discovery and use of drugs (legal/illegal); poisons. How they helped shape, modify or change history as described in classical literature through present day.
Satisfies Global Perspective in Category H: Traditions and Historical Foundations
Instruction Mode: Lecture Grading Option: Letter

RXRS 302 Introduction to Pharmacology and Therapeutics
Units: 4 Drug/Receptor interactions, pharmacodynamics, pharmacokinetics. Safe and effective drug administration; differences in pediatric and geriatric populations. Current therapies, adverse effects and drug interactions.
Instruction Mode: Lecture Grading Option: Letter

RXRS 304 Mysterious Deaths: From Poisons in Literature and History to Forensic Toxicology
Units: 4 The story of poisons and their deliberate use told through the prism of history and literature, as a fun way to discover forensic toxicology.
Instruction Mode: Lecture Grading Option: Letter

RXRS 402 Human Pharmacology: Challenge of Therapeutics in Society
Units: 4 Principles of human pharmacology/toxicology related to prescription, over the counter medications; nutraceuticals; drug-drug interactions; polypharmacy; hot topics related to recently approved drugs.
Recommended Preparation: Students should have at completed at least one year of undergraduate biology and/or chemistry
Instruction Mode: Lecture Grading Option: Letter

RXRS 403 Neuroparmacology in Health and Disease
Units: 4 Neuropsychopharmacological treatments of brain disorders including neurodegenerative disorders, injury, and disease; influence of environment and experiences on neuroplasticity and brain development; drug discovery.
Recommended Preparation: one year of biology
Instruction Mode: Lecture Grading Option: Letter

RXRS 404 Neuromunity in Health and Disease
Units: 2 Social, psychological, economical, biological reasons associated with drug use/abuse; prevention strategies; Pharmacology and Phamacotherapy; successes/ challenges; current trends; case studies; roles of health care professionals.
Recommended Preparation: background in or completion of a year of biological science course work.
Instruction Mode: Lecture Grading Option: Letter

RXRS 405 Breaking Brains: The Pharmacology of Addiction
Units: 4 Neurological basis of addiction to drugs of abuse including alcohol, marijuana, opioids and sugar; focusing on neuroparmacology and challenges of current and future therapies.
Instruction Mode: Lecture Grading Option: Letter

RXRS 406 Clinical Pharmacology and Medication Management
Units: 4 Comprehensive Medication Management Applications in Pharmacotherapy; evidence-based, pharmacist driven medication selection; improved and/or optimized medication therapy; patient compliance; better and safer health outcomes.
Recommended Preparation: clinical pharmacology course
Instruction Mode: Lecture Grading Option: Letter

RXRS 407 The Discovery, Development and Marketing of Medicines
Units: 4 Principles, concepts, challenges and short comings of modern day drug discovery and development of medicines. Inter-relationships with regulatory, ethical and societal sectors presented.
Instruction Mode: Lecture Grading Option: Letter

RXRS 408 Arming the Immune System for Novel Therapies
Units: 4 Principles of human immunological responses to maintain wellness and perturbation in disease. Focus on discovery, development and use of therapeutic strategies targeting immune mechanisms.
Recommended Preparation: One year of biology and chemistry
Instruction Mode: Lecture Grading Option: Letter

RXRS 410 Cancer Biology and Pharmacotherapy
Units: 4 Cancer and the complex molecular basis leading to tumor oncogenesis, invasion and metastasis; current therapeutic strategies and strategies on the horizon.
Prerequisite: BISC 120L and BISC 220Lg or (CHEM 105Sa and CHEM 105SL)
Instruction Mode: Lecture Grading Option: Letter

RXRS 411 Innovations in Medical Product Development
Units: 4 Developing new medical technologies; political, regulatory, financing and reimbursement issues that may be associated; case studies looking at the newest medical technologies.
Instruction Mode: Lecture Grading Option: Letter

RXRS 412 Ethics, Drugs and Society
Units: 4 Ethical and moral issues have arisen from responsibilities within different fields of pharmaceutical practice.

Exploration of the broad solutions those responsibilities have presented.
Instruction Mode: Lecture Grading Option: Letter

RXRS 413 Globalization of the Biomedical Industry
Units: 4 Globalization: pharmaceuticals, biologics, medical devices, and combination products in advanced, emerging, and developing markets; regional and national regulations, global and regional harmonization efforts, ethical considerations. Satisfies Global Perspective in Category G: Citizenship in a Diverse World
Instruction Mode: Lecture Grading Option: Letter

RXRS 414 Buzzed: Modern Substances of Abuse and Addiction
Units: 4 Modern perspectives; discovery and use of legal and illicit drugs including alcohol and opioids. How drugs have helped, shaped, modified or changed individuals and society.
Instruction Mode: Lecture Grading Option: Letter

RXRS 415 Pharmaceutical and Health Economics
Units: 4 Application of economics principles to pharmaceutical and health care issues; prescription drug pricing, access and innovation; hot topics related to pharmaceutical policy.
Instruction Mode: Lecture Grading Option: Letter

RXRS 416 Medical Products: From Idea to Market
Units: 4 Progress of medical product development through intellectual property, animal and clinical trials and commercialization. Emphasis on safety, quality systems and efficacy.
Instruction Mode: Lecture Grading Option: Letter

RXRS 417 Food Safety: The Good, The Bad and The Deadly
Units: 4 Critical thinking, science translation, effective communications, personal health, and public policy development are at the interface of food safety, nutrition intervention and health controversies.
Instruction Mode: Lecture Grading Option: Letter

RXRS 418 Plant Medicines in Modern Medicine
Units: 4 Plant medicines; how discovered; activity; pharmacology, toxicity and human benefit; emphasis on the US, Europe and China.
Instruction Mode: Lecture Grading Option: Letter

RXRS 424 Organ Physiology, Drug Delivery, and Drug Action
Units: 4 Principles of cellular and organ physiology. Interplay between the physiology of these organ systems, drug delivery, and drug action.
Instruction Mode: Lecture Grading Option: Letter

RXRS 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12 Individual research, reading, writing and project development.
Instruction Mode: Lecture Grading Option: Letter

Systems Architecting and Engineering

SAE 496 Systems Engineering Through Motorsports
Units: 3 Terms Offered: Irregular Applied systems architecting, engineering and management to motorsports from design to validation and verification; venues include
SAE 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content will be selected each semester from recent developments in Systems Architecting and Engineering and related fields. Instruction Mode: Lecture Grading Option: Letter

SAE 515 Sustainable Infrastructure Systems
Units: 3 Terms Offered: Fa Explores broad issues and mitigation measures involved in the analysis and design of complex, uncertain, interacting infrastructure systems needing to be resilient and sustainable. Instruction Mode: Lecture Grading Option: Letter

SAE 541 Systems Engineering Theory and Practice
Units: 3 Terms Offered: FaSpSm Integration of engineering problem solving methodologies based on systems concepts. Application to complex, large scale technical systems and problems faced by engineering managers. Case studies. Duplicates Credit in former ISE 541 Instruction Mode: Lecture Grading Option: Letter

SAE 542 Advanced Topics in Systems Engineering
Units: 3 Terms Offered: FaSpSm Probability theory in systems engineering: test design and performance, reliability and maintainability, quantitative decision models. Constraint theory to manage and de-conflict complex requirements. Complexity theory. Prerequisite: SAE 541 Recommended Preparation: Calculus, linear algebra and multivariate probability Duplicates Credit in former ISE 542 Instruction Mode: Lecture Grading Option: Letter

SAE 543 Case Studies in Systems Engineering and Management
Units: 3 Terms Offered: FaSp Real-world case studies in DoD, NASA, and commercial arenas, employing new methodologies to cover the fundamental positive and negative development learning principles of systems engineering. Instruction Mode: Lecture Grading Option: Letter

SAE 546 Engineered Resilient Systems and System-of-Systems
Units: 3 Terms Offered: Sp FaSp Formal methods for the design and analysis of resilient systems and system-of-systems (SoS); Disruption risks as a function of system scale and complexity, management, and architectures. Recommended Preparation: SAE 549 Instruction Mode: Lecture Grading Option: Letter

SAE 547 Model-Based Systems Architecting and Engineering
Units: 3 Approaches for modeling systems using software such as SySML: modeling system, requirements, structure, behavior, and parametrics; mapping to hardware description language and behavioral code generation. Recommended Preparation: Modeling and simulation courses. Instruction Mode: Lecture Grading Option: Letter

SAE 548 Systems/System-of-Systems Integration and Communication

SAE 549 Systems Architecting
Units: 3 Terms Offered: FaSp Introduction to systems engineering in aerospace, electrical, computer, and manufacturing systems emphasizing the conceptual and acceptance phases and using heuristics. Prerequisite: BS degree in a related field of engineering. Instruction Mode: Lecture Grading Option: Letter Crosslisted as AME 549

SAE 550 Systems Architecting and the Political Process
Units: 3 Analysis of risks inherent in managing high tech/high-cost government-funded engineering programs; tools and techniques for coping with the impacts of politically-driven budgets on the engineering design process. Recommended Preparation: two years of work experience. Duplicates Credit in former ISE 550. Instruction Mode: Lecture Grading Option: Letter

SAE 551 Lean Operations
Units: 3 Terms Offered: FaSp (Enroll in ISE 505)

SAE 560 Economic Considerations for Systems Engineering
Units: 3 Terms Offered: Sp Impact of economic factors for systems architects and engineers, tools for understanding these factors, fundamental quantitative analysis of cash flow, life-cost estimating for systems and software engineering. Instruction Mode: Lecture Grading Option: Letter

SAE 574 Net-Centric Systems Architecting and Engineering
Units: 3 Terms Offered: FaSp In-depth examination of the technical design approaches, tools, and processes to enable the benefits of net-centric operations in a networked systems-of-systems. Instruction Mode: Lecture Grading Option: Letter

SAE 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SAE 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SAE 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSpSm Course content will be selected each semester to reflect current trends and developments in the field of systems architecting and engineering. Instruction Mode: Lecture Grading Option: Letter

Screen Scoring
SCOR 403 Introduction to Scoring Movies and Television
Units: 2 Practical composition course covering the unique art, craft, and technology involved in writing and integrating music for animated and live-action visual media. Prerequisite: MUCO 133b Recommended Preparation: Component in back. Instruction Mode: Lecture Grading Option: Letter

SCOR 405 Introduction to Scoring Video Games
Units: 2 Practical composition course covering the unique art, craft, and technology involved in composing and integrating video-game music. Prerequisite: MUCO 133b Recommended Preparation: Composition background, MTEC 443 or MTEC 445 Duplicates Credit in former MUCO 445 Instruction Mode: Lecture Grading Option: Letter

SCOR 490x Directed Research
Units: 1, 2, 3, 4 Max Units: max 12 Individual research and readings. Not available for graduate credit. Registration Restriction: Open only to juniors and seniors Instruction Mode: Lecture Grading Option: Letter

SCOR 499 Special Topics
Units: 2, 3, 4 Max Units: 8 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

SCOR 501 Individual Instruction
Units: 1, 2 Max Units: 08 Secondary instruction for graduate music majors or instruction for graduate non-music majors. Instruction Mode: Lecture Grading Option: Letter

SCOR 502 Individual Instruction in Advanced Screen Scoring
Units: 1, 2 Max Units: 4 Individual instruction and review of students' work. Selected composers, orchestrators, filmmakers, and other important industry collaborators offer their insights on scoring and career building. Duplicates Credit in former MUCO 520 and MUCO 545 Instruction Mode: Lecture, Lab Grading Option: Letter

SCOR 503a Advanced Scoring for Motion Pictures and Television
Units: 2 Scoring principles involved in designing, timing, and composing scores for video projects, including documentaries, animated, and live-action projects. Will also include composing for live recording sessions. Duplicates Credit in former MUCO 440a Instruction Mode: Lecture Grading Option: Letter

SCOR 503b Advanced Scoring for Motion Pictures and Television
Units: 2 Scoring principles involved in designing, timing, and composing scores for video projects, including documentaries,
SCOR 50a Orchestral Scoring
Units: 2 Explores the sounds of and notations for the major orchestral instruments; provides instruction on implementation of those instruments in scoring and orchestrating for the screen. Prerequisite: SCOR 50a Duplicates Credit in former MUCO 440b Instruction Mode: Lecture Grading Option: Letter

SCOR 50b Orchestral Scoring
Units: 2 Explores the sounds of and notations for the major orchestral instruments; provides instruction on implementation of those instruments in scoring and orchestrating for the screen. Prerequisite: SCOR 50a Duplicates Credit in former MUCO 443a Instruction Mode: Lecture Grading Option: Letter

SCOR 50c Advanced Game Scoring and Integration
Units: 2 Explores more sophisticated principles and techniques involved in the unique aspects of composing and integrating music for video games. Prerequisite: SCOR 50b Duplicates Credit in former MUCO 540a Instruction Mode: Lecture Grading Option: Letter

SCOR 50d Advanced Game Scoring and Integration
Units: 2 Explores more sophisticated principles and techniques involved in the unique aspects of composing and integrating music for video games. Prerequisite: SCOR 50c Duplicates Credit in former MUCO 540b Instruction Mode: Lecture Grading Option: Letter

SCOR 50e Applied Techniques in Contemporary Scoring
Units: 2 Explores the most recent artistic and technological innovations in film/television scoring, and includes creating cues from adapted themes. Prerequisite: SCOR 50d Instruction Mode: Lecture Grading Option: Letter

SCOR 51a History of Film Scoring
Units: 2 Examines the evolution of movie music from 1920s to present. Includes recorded interviews with the most significant film composers and film clips of their work. Prerequisite: SCOR 50e Duplicates Credit in former MUCO 442a Instruction Mode: Lecture Grading Option: Letter

SCOR 51b History of Film Scoring
Units: 2 Examines the evolution of movie music from 1920s to present. Includes recorded interviews with the most significant film composers and film clips of their work. Prerequisite: SCOR 51a Duplicates Credit in former MUCO 442b Instruction Mode: Lecture Grading Option: Letter

SCOR 52a Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. Prerequisite: SCOR 51a Duplicates Credit in former MUCO 560a Instruction Mode: Lecture Grading Option: Letter

SCRM 515 Bringing Stem Cells to the Clinic
Units: 4 Terms Offered: Sp Lectures addressing the business, legal, ethical, manufacturing and regulatory aspects involved in moving stem cells or related product into clinical practice. Recommended Preparation: SCRM 513 Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 517 Historical and Contemporary Stem Cell Research
Units: 2 Terms Offered: Sp Historical and contemporary stem cell research using hematopoietic stem cells as a model system. Prerequisite: SCRM 513 Registration Restriction: Open only to master and doctoral students Instruction Mode: Lecture Grading Option: Letter

SCRM 519 Historical and Contemporary Research: Neural Stem Cells
Units: 2 Terms Offered: Sp Focuses on historic achievements in stem cell research and how contemporarily, research and its related technological advances have fostered breakthroughs the understanding of NSCs. Recommended Preparation: SCRM 513 Registration Restriction: Open only to graduate students Instruction Mode: Lecture Grading Option: Letter

SCRM 521a Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. Prerequisite: SCOR 51a Duplicates Credit in former MUCO 560a Instruction Mode: Lecture Grading Option: Letter

SCRM 521b Recording, Mixing and Editing for the Screen Composer
Units: 2 Addresses the need for modern-day screen composers to produce and digitally record, sweeten, mix, and edit much of their own music. Prerequisite: SCOR 51a Duplicates Credit in former MUCO 560a Instruction Mode: Lecture Grading Option: Letter

SCRM 523a Advanced Screen Scoring Technology
Units: 2 Explores sophisticated principles and applications of technologies for screen scoring, including the use of synthesizers, samplers, and sequencers. Prerequisite: SCOR 523a Duplicates Credit in former MUCO 523b Instruction Mode: Lecture Grading Option: Letter

SCRM 523b Advanced Screen Scoring Technology
Units: 2 Explores sophisticated principles and applications of technologies for screen scoring, including the use of synthesizers, samplers, and sequencers. Prerequisite: SCOR 523a Duplicates Credit in former MUCO 523b Instruction Mode: Lecture Grading Option: Letter

SCRM 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the Master's Degree. Maximum units which may be applied to the degree to be determined by the department. Graded CR/NC. Instruction Mode: Lecture Grading Option: Credit/No Credit

SCRM 599 Special Topics
Units: 2, 3, 4 Max Units: max 8 Selected topics of current interest. Instruction Mode: Lecture Grading Option: Letter

SCRM 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

STEM CELL BIOLOGY AND REGENERATIVE MEDICINE

SCRM 511 Developmental Biology and Human Embryology
Units: 4 Terms Offered: Fa Survey of anatomical, cellular and molecular processes that underlie human development and congenital malformations, with discussion of other species for comparison. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 513 Stem Cells and Regenerative Medicine
Units: 4 Terms Offered: Fa A comprehensive investigation of embryonic, fetal and adult stem cells and the application of stem cell biology to treat disease. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 522L Biological Imaging in Stem Cell Research
Units: 2 Terms Offered: Sp Theory and practice of using microscopy and flow cytometry in stem cell biology, including sample preparation, digital processing and data analysis. Concurrent Enrollment: SCRM 524L Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

SCRM 524L Culture and Differentiation of Human Pluripotent Stem Cells
Units: 2 Terms Offered: Sp Classroom and laboratory experience in the techniques for deriving, culturing and differentiating human pluripotent stem cells (hPSCs) and related cell types. Concurrent Enrollment: Concurrent enrollment: SCRM 522 Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Lab Required Grading Option: Letter

SCRM 525 Tools and Techniques in Stem Cell Biology
Units: 2 Max Units: 10 Terms Offered: Fa Introduces students to classical and cutting-edge techniques used to assess stem cells and regenerating systems. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine master students Instruction Mode: Lecture Grading Option: Letter
SCRM 555 Writing About Stem Cell Biology and Regenerative Medicine
Units: 1 Terms Offered: Fa Instruction in writing for various audiences on topics related to stem cell biology and regenerative medicine. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture Grading Option: Letter

SCRM 574 Stem Cell and Developmental Biology Seminar Series
Units: 1 Terms Offered: FaSp (Enroll in DSR 574)

SCRM 580 SCR External Speaker Seminar Series
Units: 2 Max Units: 8.0 Terms Offered: FaSp Reading and discussion of recent papers by the SCRM speaker of the week, and attendance at the speaker's seminar. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Discussion Grading Option: Letter

SCRM 590 Independent Research
Units: 1, 2, 3, 4 Max Units: 16.0 Independent research conducted under the guidance of faculty in the Department of Stem Cell Biology and Regenerative Medicine. Prerequisite: SCRM 511, SCRM 513, SCRM 515, SCRM 522, SCRM 524, SCRM 555, SCRM 580. Registration Restriction: Open only to Stem Cell Biology and Regenerative Medicine majors. Instruction Mode: Lecture, Lab Grading Option: Credit/No Credit

SCRM 610 Current Topics in Regenerative Medicine
Units: 1 Terms Offered: Sp (Enroll in DSR 610)

SCRM 620 Current Topics in Stem Cell Biology and Organogenesis
Units: 1 Terms Offered: Fa (Enroll in DSR 620)

Slavic Languages and Literatures

SLL 020 Course in Reading Russian
Units: 2 For graduate students wishing to use Russian as a scholarly tool. Emphasis on basic grammar and reading skills. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 025 Course in Reading Russian
Units: 2 Continuation of SLL 020. Reading of authentic materials from Russian press and students' areas of interest. Prerequisite: SLL 020. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 101g Russia in the Modern Era
Units: 4 Terms Offered: FaSp Key moments in the development of Russian culture since its westernization in the early eighteenth century to the present day. Focus on works of literature, art and other products of the culture that have significantly influenced Russian self-understanding as well as the ways in which Russians perceive the rest of the world. Satisfies New General Education in Category B: Humanistic Inquiry Instruction Mode: Lecture, Discussion Grading Option: Letter

SLL 122 Elementary Polish I
Units: 4 Structure of the language, pronunciation, basic communication, and reading in modern Polish. Instruction Mode: Lecture Grading Option: Letter

SLL 130a Elementary Czech
Units: 4 Structure of the language, basic grammar, pronunciation, and oral communication. Readings in Czech: discussion of Czech history and culture. Instruction Mode: Lecture Grading Option: Letter

SLL 130b Elementary Czech
Units: 4 Continuation of SLL 130a. Prerequisite: SLL 130a. Instruction Mode: Lecture Grading Option: Letter

SLL 152 Elementary Polish II
Units: 4 Continuation of SLL 122. Prerequisite: SLL 122. Instruction Mode: Lecture Grading Option: Letter

SLL 199 Chess and Critical Thinking
Units: 2 Analysis of significant chess games, reflecting societal attitudes toward science, competition, art, gender, psychology, politics, and technology. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 210 Masterpieces of the Russian Short Story

Units: 3 Max Units: 9.0 Theme varies from year to year. An author or major work will be selected for intensive study; research paper required. May be repeated, with departmental permission, if content of the seminar is different. Prerequisite: three years of college Russian; Recommended Preparation: one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 665 Seminar in Russian Culture and the Arts
Units: 3 Max Units: 9.0 Subject varies from year to year. A trend or major figure will be studied in its cultural and artistic contexts. May be repeated, with departmental permission, if content of the seminar is different. Prerequisite: three years of college Russian; Recommended Preparation: one year of graduate study. Instruction Mode: Lecture Grading Option: Letter

SLL 670 Seminar in Eastern European Cinema
Units: 3 Max Units: 09 Terms Offered: FaSp Topics in Eastern European cinema selected for intensive study. May be repeated with varying content. Recommended Preparation: two years of graduate study Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SLL 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the doctorate. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SLL 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SLL 794e Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Sociology

SOCl 100gm Los Angeles and the American Dream
Units: 4 Los Angeles as a metaphor for the American Dream, exploring the city's history and potential futures, including economic opportunity, social justice, spatial organization, and environmental sustainability. Satisfies Old General Education in Category C: Social Analysis Satisfies Old General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCl 142gm Diversity and Racial Conflict
Units: 4 Terms Offered: FaSp Introduction to the causes and effects of contemporary race relations in a diverse U.S. society. Exploration of racial conflict at the personal and institutional levels. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

Units: 4 Terms Offered: FaSp Investigation of health as a social category and the varied ways that social and cultural factors shape bodies and health. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCl 242g Sociology, Demography and Health
Units: 4 Terms Offered: FaSpSm Sociological and demographic concepts focusing on the causes of disease, health and wellness. Empirical analysis of population composition and its connection to health. Prerequisite: BISC 120L or BISC 121L or BISC 221L Recommended Preparation: Prepares pre-health students for sociology portion of the MCAT. Registration priority given to pre-health students Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCl 250gmw Grassroots Participation in Global Perspective
Units: 4 Theory and history behind the ideal of "the local, grassroots volunteer"; a direct link between theory and research using Los Angeles as a case study. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter

SOCl 255g Sociology of Globalization
Units: 4 Terms Offered: FaSp This course examines globalization through social and economic processes and its consequences for social conflict, economic development, human rights, social movements, and national identity. Satisfies New General Education in Category C: Social Analysis Satisfies Old General Education in Category C: Social Analysis Satisfies Old General Education in Category VI: Social Issues Instruction Mode: Lecture, Discussion Grading Option: Letter
SOCI 270g Sociological Theory
Units: 4
Terms Offered: FaSp Historical and contemporary approaches to sociological theory; analysis of conceptual frameworks applied to the study of society and social interaction. Prerequisite: SOCI 200gm
Satisfies New General Education in Category C: Social Analysis
Duplicates Credit in former SOCI 370
Instruction Mode: Lecture Grading Option: Letter

SOCI 275 Sociology of Everyday Life
Units: 4
The social philosophy of understanding everyday life; describing and analyzing forms of interaction, emotions, knowledge, and the social self.

SOCI 305m Sociology of Childhood
Units: 4
Terms Offered: FaSp Social construction of childhood; children's social relations and cultures; issues of childcare, poverty, violence and children's rights; effects of children on adults. Prerequisite: SOCI 200gm and SOCI 270g
Instruction Mode: Lecture Grading Option: Letter

SOCI 310 Gender and Social Justice
Units: 4
Terms Offered: FaSp (Enroll in SWMS 310)

SOCI 313L Sociological Research Methods
Units: 4
Terms Offered: FaSp Logic of theory construction, research design, elementary data collection and analysis. Prerequisite: SOCI 200gm
Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 314Lg Analyzing Social Statistics
Units: 4
Terms Offered: FaSpSm Sociological measurement, univariate description, elementary correlation, introduction to statistical inference. Prerequisite: SOCI 200gm Satisfies New General Education in Category F: Quantitative Reasoning Instruction Mode: Lecture, Lab Required Grading Option: Letter

SOCI 325 Applied Social Research Methods
Units: 4
Terms Offered: FaSp Use quantitative or qualitative analysis skills to study major social issues using large existing survey data sets or qualitative methods. Become conversant in describing data to a variety of audiences. Prerequisite: SOCI 200gm and SOCI 270 and SOCI 313L and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 335 Society and Population
Units: 4
Terms Offered: FaSp World population trends and their consequences: determinants of fertility, mortality and migration; development of elementary models of population change. Prerequisite: SOCI 200gm and SOCI 314Lg Instruction Mode: Lecture Grading Option: Letter

SOCI 336 Health, Gender and Ethnicity
Units: 4
Terms Offered: Sp (Enroll in SWMS 336)

SOCI 340 Organizations: Bureaucracy and Alternatives to Bureaucracy
Units: 4
Importance of organizations in social life; techniques for using and changing organizations; examination of strategies for building and sustaining nonbureaucratic organizations. Instruction Mode: Lecture Grading Option: Letter

SOCI 342m Race Relations
Units: 4
Terms Offered: FaSp Past and present relations between the White majority and minoritized groups; conflict vs. assimilation perspectives. Prerequisite: SOCI 200gm and SOCI 270g
Instruction Mode: Lecture Grading Option: Letter

SOCI 345 Social Institutions
Units: 4
Cultural and interactional aspects of social institutions as complex social systems; religious, political, industrial, and familial institutions.

SOCI 350 Social Exclusion, Social Power and Deviance
Units: 4
Terms Offered: FaSp Current theories of origin, distribution and control of deviant behavior; examination of processes involved in the career deviance of drug addicts, alcoholics, sexual deviants, gamblers and mentally disordered. Prerequisite: SOCI 200gm and SOCI 270g Instruction Mode: Lecture Grading Option: Letter

Units: 4
Terms Offered: FaSp
Examines race/ethnic relations with U.S. and selected countries from a global perspective, causes/social effects of globalization on people's lives, U.S. attitudes and political policies.
Prerequisite: SOCI 200gm and SOCI 270g
Instruction Mode: Lecture Grading Option: Letter
Crosslisted as AMST 432

SOCI 435m Women in Society
Units: 4
Terms Offered: FaSp
Women today in the labor force, in politics, and in the family. Past and contemporary attempts to expand the position of women in society.
Prerequisite: SOCI 200gm and SOCI 313L and SOCI 314Lg
Instruction Mode: Lecture Grading Option: Letter

SOCI 445 Political and Social Theory
Units: 4 Max Units: 08
Terms Offered: FaSp
Classical and contemporary theories of power, inequality, sociability, symbols and language, politics and political organizations.
Prerequisite: SOCI 200gm and SOCI 270g
Instruction Mode: Lecture
Grading Option: Letter
Crosslisted as SWMS 435

SOCI 450 Non-Governmental Organizations/Non-profits Field Practicum
Units: 4
Terms Offered: FaSp
Internship in a Non-Governmental Organization (NGO). Students will conduct sociological research on issues surrounding NGOs and the work they do.
Prerequisite: (SOCI 250gmw or SOCI 408 or IR 371 or PPD 371) and (SOCI 313L or SOCI 314Lg)
Registration Restriction: Open only to juniors and seniors
Instruction Mode: Lecture Grading Option: Letter

SOCI 460 Key Issues in Contemporary International Migration
Units: 4
Terms Offered: FaSp
Overview of contemporary patterns of international migration and its implications for receiving and sending countries, with a special emphasis on immigration to the United States.
Prerequisite: SOCI 200gm and SOCI 313L and SOCI 314Lg
Instruction Mode: Lecture Grading Option: Letter

SOCI 464 Sociology of Gender and Work
Units: 4
Terms Offered: FaSp
Examination of gender inequality in the U.S. labor market; work-family conflict; employer remedies; comparative social policy.
Prerequisite: SOCI 200gm and SOCI 270g
Instruction Mode: Lecture Grading Option: Letter

SOCI 465 Visual Sociology of the City and Its Residents
Units: 4
Terms Offered: FaSpSm
Students examine images of urban America and use the camera to produce visual representation in their analysis of social relations.
Prerequisite: SOCI 200gm and SOCI 270g
Corequisite: SOCI 313L Duplicates Credit in former SOCI 365
Instruction Mode: Lecture
Grading Option: Letter

SOCI 468 Sociology of Religion
Units: 4
Terms Offered: Enroll in REL 468
Instruction Mode: Lecture
Grading Option: Letter

SOCI 470 Social Change in Low-Income Countries
Units: 4
Theories and case studies on social, economic, political, and cultural development and change in the Third World: Latin America, Asia, or Africa.
Prerequisite: SOCI 200gm and SOCI 313L and SOCI 314Lg
Instruction Mode: Lecture Grading Option: Letter

SOCI 472 Health, Disease, Language and Culture: Guatemala
Units: 3
Terms Offered: Sm
Studies health, illness, disease, culture, language and social-economic burdens that affect Guatemala. Students will be immersed into day-to-day life, studying from practitioners in the field.
Instruction Mode: Lecture
Grading Option: Letter

SOCI 475 Medical Sociology
Units: 4
Social and cultural factors in causation of disease, health care utilization and health care delivery.
Instruction Mode: Lecture Grading Option: Letter

SOCI 480 The Sociology of Risk and Disaster
Units: 4
Terms Offered: FaSp
Is there such a thing as a "natural" disaster? Examination of both natural and technological disasters, and exploration of the centrality of risk in industrialized societies.
Prerequisite: SOCI 200gm and SOCI 313L and SOCI 314Lg
Instruction Mode: Lecture Grading Option: Letter

SOCI 490x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm
Individual research and readings.
Instruction Mode: Lecture
Grading Option: Letter

SOCI 494 Sociology Honors Seminar I
Units: 4
Terms Offered: Fa Advanced seminar involving extensive reading, research and discussions. Selected subjects; offered in fall only and restricted to honors students. Acceptance into the Honors Program.
Prerequisite: SOCI 200gm and SOCI 313L and SOCI 314Lg
Instruction Mode: Lecture Grading Option: Letter

SOCI 495 Sociology Honors Seminar II
Units: 4
Terms Offered: Sp Seminar in workshop form to accompany completion of Senior Honors Thesis under faculty guidance. Acceptance into Honors Program.
Prerequisite: SOCI 313, SOCI 494
Instruction Mode: Lecture
Grading Option: Letter

SOCI 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0
An interdisciplinary examination of selected emerging issues.
Instruction Mode: Lecture
Grading Option: Letter

SOCI 500 Sociology Professional Seminar
Units: 2
Terms Offered: FaSp
Introduces students to the theoretical questions and methodological approaches that comprise the discipline of sociology. Experts in each subfield share their latest research with students.
Registration Restriction: Open only to doctoral Sociology majors
Instruction Mode: Lecture Grading Option: Letter

SOCI 510 Sociological Theory I
Units: 4
Terms Offered: Fa Developments in sociological theory from the discipline's 19th century origins to World War II.
Instruction Mode: Lecture Grading Option: Letter

SOCI 511 Sociological Theory II
Units: 4
Developments in sociological theory from World War II to the present.
Duplicates Credit in former SOCI 610.
Instruction Mode: Lecture
Grading Option: Letter

SOCI 520 Qualitative Research Methods
Units: 4
Terms Offered: Fa Seminar in epistemologies, ethics, and techniques of qualitative research. Critical reading and practice in social observation, interviewing, fieldwork, and research design.
Preparation of IRB proposal.
Instruction Mode: Lecture
Grading Option: Letter

SOCI 521 Quantitative Methods and Statistics
Units: 4
Terms Offered: Fa
Introduction to the logic and methods of quantitative analysis in sociology; covers the basic elements of designing and researching, summarizing and exploring patterns in data, and making generalizations about populations based on characteristics of samples.
Instruction Mode: Lecture, Lab
Required Grading Option: Letter

SOCI 525 Sociology Proseminar: Approaches to Sociological Research
Units: 4
Terms Offered: FaSpGraduate students begin their customized literature reviews and develop a paper that will frame the research they pursue in the empirical paper requirement.
Instruction Mode: Lecture
Grading Option: Letter

SOCI 554 Women in Global Perspective
Units: 4
Terms Offered: Enroll in SWMS 554
Instruction Mode: Lecture
Grading Option: Credit/No Credit

SOCI 560 Feminist Theory
Units: 4
Terms Offered: Enroll in SWMS 560
Instruction Mode: Lecture
Grading Option: Credit/No Credit

SOCI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Terms Offered: FaSpSm
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture
Grading Option: Credit/No Credit

SOCI 593 Practicum in Teaching the Liberal Arts
Units: 2
Terms Offered: Fa Practical principles for the long-term development of effective teaching within college disciplines. Intended for teaching assistants in Dornsife College.
Instruction Mode: Lecture
Grading Option: Credit/No Credit

SOCI 599 Internship in Teaching the Liberal Arts
Units: 2
Terms Offered: Fa
Internship in Teaching the Liberal Arts
Instruction Mode: Lecture
Grading Option: Credit/No Credit

SOCI 599x Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
Terms Offered: FaSpSm
Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department.
Instruction Mode: Lecture
Grading Option: Credit/No Credit

SOCI 600 Seminar in Teaching the Liberal Arts
Units: 1
Terms Offered: Fa
Teaching the Liberal Arts...

| Units | 2 Terms Offered: FaSpSm Credit on acceptance of thesis. | Grading Option: Lecture Grading Option: In-progress to Credit/No Credit |

**SOCI 594c Master’s Thesis**

| Units | 0 Terms Offered: FaSpSm Credit on acceptance of thesis. | Grading Option: Lecture Grading Option: In-progress to Credit/No Credit |

**SOCI 599 Special Topics**

| Units | 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Seminar in selected topics in sociology. | Grading Option: Lecture Grading Option: Letter |

**SOCI 620 Advanced Methods – Qualitative Research**

| Units | 4 Terms Offered: FaSp Seminar and practicum in conducting and interpreting original qualitative research. | Grading Option: Letter |

**SOCI 621L Quantitative Methods and Statistics II**

| Units | 4 Terms Offered: Sp Casual modeling and the inter-relationships among social phenomena: covers the basic elements of casual inference and generalizability, linear regressions analysis, and categorical data analysis. | Grading Option: Letter |

**SOCI 622L Advanced Methods – Quantitative Research**

| Units | 4 Terms Offered: Fp Advance in social research methodology in survey technique, evaluation research, instrument construction, and demographic analysis. Duplicates Credit in former SOCI 523 Instruction Mode: Lecture, Lab Required Grading Option: Letter |

**SOCI 625 Demographic Methods**

| Units | 4 Terms Offered: FaSp Procedures and techniques for the collection, evaluation, and analysis of demographic data: censuses and vital registration systems; basic measures of demographic components, and the construction of life tables and population projections. Prerequisite: SOCI 521. Duplicates Credit in former SOCI 540. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 628 Theories of Aging**

| Units | 4 (Enroll in GER 628) |

**SOCI 640 Sociology of Gender and Sexuality**

| Units | 4 Terms Offered: FaSp Approaches to gender and sexuality within sociology and social theory, highlighting contemporary empirical research on sexualities. Registration Restriction: Open only to master and doctoral students. Duplicates Credit in former SOCI 530. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-640 |

**SOCI 642 Sex and Gender in Society**

| Units | 4 Terms Offered: FaSpSm The social organization of gender in the contexts of work, families, intimacy, sexuality, reproduction, violence. Variations by race, ethnicity, social class. Processes of social change. Duplicates Credit in former SOCI 552. Instruction Mode: Lecture Grading Option: Letter Crosslisted as SWMS-642 |

**SOCI 643 Sociology of Labor**

| Units | 4 Terms Offered: FaSp Viewing labor and labor movements from a macro/meso/micro perspective. Examination in the formation of labor markets, global economy, organization of conditions of work, movements. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 644 Population Trends: Public and Private Policies**

| Units | 4 Terms Offered: FaSp World and national population trends; causes and implications for economic, health, and social policies. Duplicates Credit in former SOCI 544. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 645 Seminar in World Population Problems**

| Units | 4 Terms Offered: FaSp Demographic characteristics of the major regions of the world; social, economic, and political implications of population trends and methods of demographic analysis. Prerequisite: 335. Duplicates Credit in former SOCI 545. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 646 Economic Sociology**

| Units | 4 Terms Offered: FaSp Classical/ neoclassical economic models of human action, sociological alternatives, the history of the large corporation, sociological models of production/labor/financial markets... and the role of economic institutions in the larger society. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 647 Political Sociology: Politics, Symbols and Everyday Life**

| Units | 4 Terms Offered: FaSp Political power, conflict and apathy; public symbols, debate and discourse; nationalism; relations between politics, provision of social services and economics in comparative and historical perspective. Duplicates Credit in former SOCI 537. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 648 Fertility Control Policies**

| Units | 4 Terms Offered: FaSp Fertility control policies, and their consequences, including family planning and other pronatalist and antinatalist programs. Duplicates Credit in former SOCI 548. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 649 Migration Policies**

| Units | 4 Terms Offered: FaSp Analysis of migration and population redistribution; policies affecting such migration and redistribution. Duplicates Credit in former SOCI 549. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 651 Seminar in Social Stratification**

| Units | 4 Terms Offered: FaSp Critique of research literature and research methods in the area of social stratification: major theories and theoretical implications of current research. Duplicates Credit in former SOCI 551. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 653 Seminar in Science and Technology Studies**

| Units | 4 Max Units: 8.0 Terms Offered: FaSp Introduction to key concepts and theories in the interdisciplinary field of Science and Technology Studies. Duplicates Credit in former SOCI 552. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 654 Social Movements**

| Units | 4 Terms Offered: FaSp Theories explaining collective action and the outcomes of those struggles. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 655 Seminar in Race Relations**

| Units | 4 Terms Offered: FaSp Current racial problems in the United States and other countries; critiques of literature on race relations. Duplicates Credit in former SOCI 555. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 656 Social Demography**

| Units | 4 Terms Offered: FaSp Theoretical perspectives of population, historical and contemporary accounts of population trends and statistics, and the latest research on the causes and consequences of demographic processes. Recommended Preparation: enrollment in a PhD program. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 657 Sociology of Culture**

| Units | 4 Terms Offered: FaSpSm Cultural theories and forms of cultural analysis appropriate for sociological research; critical examination of theory and research on how culture relates to social structure, social inequality, politics, institutions, and everyday interaction. Recommended Preparation: SOCI 510 or prior undergraduate or graduate coursework in social science or communication studies. Duplicates Credit in former SOCI 553. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 658 Sociology of Health and Medicine**

| Units | 4 Terms Offered: FaSp Analyze social causes of sickness, study medical power, the social constructions of health/illness, examine medicine as a site of sociological action and struggle. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 659 Critical Theories of Race and Culture**

| Units | 4 Terms Offered: FaSp (Enroll in COMM 657) |

**SOCI 667 Seminar in Social Deviance**

| Units | 4 Terms Offered: FaSp Deviance and social rules in groups and communities; contemporary social policies involving ethnic, cultural, and social factors. Duplicates Credit in former SOCI 566. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 669 Seminar in Family Sociology**

| Units | 4 Terms Offered: FaSp Origins and consequences of historical change and variation between groups in family structures and processes, relationships, well-being and connections with other social institutions. Instruction Mode: Lecture Grading Option: Letter |

**SOCI 670 Seminar in Organizational Analysis**

| Units | 4 Terms Offered: FaSp Literature evaluation, theory building, and research in the area of large-scale organizations, and other types of institutionalized groups. Duplicates Credit in former SOCI 550. |
or SOCI 622L
Lecture
States and implications for public policy.

4 Historic and philosophical roots of inequality for minority groups in the United

4 The incidence of gangs (particularly in the Los Angeles area), gang interventions, and policies developed to address the growing gang situation. Instruction Mode: Lecture Grading Option: Letter

SOWK 324 Juvenile Justice in America
Units: 4 Terms Offered: FaSp The historical and current context of America’s juvenile justice system and its influence on children, youth, and families. Instruction Mode: Lecture Grading Option: Letter

SOWK 390 Special Problems
Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

SOWK 417 Introduction to Substance Use Disorders and Recovery
Units: 4 Terms Offered: FaSp Casual exploration of substance related and behavioral addictive disorders. Evidence-based and practical informed treatment models for vulnerable individuals, groups and families. Instruction Mode: Lecture Grading Option: Letter

SOWK 424 Community Experience in Juvenile Justice Environments
Units: 4 Term Offered: FaSp Provides in-class and on-site community experiences to increase knowledge and understanding of youth experience in a range of social environments focused on juvenile justice. Instruction Mode: Lecture Grading Option: Letter

SOWK 499 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Selected topics in various specialty areas within social work. Instruction Mode: Lecture Grading Option: Letter

SOWK 506 Human Behavior and the Social Environment
Units: 3 The person-in-environment, bio-psycho-social perspective is the lens through which theories of personality, family, group, organization, community, culture and their interactions are explored. Duplicates Credit in the former SOWK 503 and SOWK 505. Instruction Mode: Lecture Grading Option: Letter

SOWK 535 Social Welfare
Units: 3 Structure and operation of current American social welfare programs (social policy analysis). Prerequisite: the former SOWK 534. Instruction Mode: Lecture Grading Option: Letter

SOWK 536 Policy and Advocacy in Professional Social Work
Units: 3 A study of the complex and interconnecting systems of policy, programs and communities that directly and indirectly impact Social Workers’ clients’ lives. Duplicates Credit in the former SOWK 534. Instruction Mode: Lecture Grading Option: Letter

SOWK 544 Social Work Practice With Individuals, Families, and Groups
Units: 3 Principles underlying generic social work practice with emphasis on working with individuals, families, and groups. Duplicates Credit in SOWK 543 and SOWK 545. Instruction Mode: Lecture Grading Option: Letter

SOWK 546 Science of Social Work
Units: 3 Introduction to the role of scientific inquiry in advancing social work goals. Inspires students to include science in their social work identity and professional decision-making. Duplicates Credit in SOWK 562. Instruction Mode: Lecture Grading Option: Letter

SOWK 589a Applied Learning in Field Education
Units: 3 Supervised field education where students learn and apply evidence-based interventions and clinical skills in practice labs and social work settings. Concurrent Enrollment: SOWK 544, Duplicates Credit in SOWK 586a. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 589b Applied Learning in Field Education
Units: 3 Supervised field education where students learn to apply coursework concepts while practicing in a field setting that aligns with students’ academic department. Prerequisite: SOWK 589a. Concurrent Enrollment: SOWK 588. Duplicates Credit in SOWK 586b. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 599 Special Topics
Units: 1, 2, 3, 4 Max Units: 13.0 Instruction Mode: Lecture Grading Option: Letter

SOWK 601 Advanced Theories and Interventions with Children and Adolescents
Units: 3 Advances students’ knowledge and clinical skills working with children and adolescents. Emphasis on problems affecting children, including developmental
derailments and disruptions. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture
Grading Option: Letter
SOWK 602 Advanced Theories and Clinical Interventions with Families Units: 3 Advances students' knowledge and clinical skills working with diverse urban families experiencing various stressors. Exploration and application of a range of family therapy models. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 544 or SOWK 545) Registration Restriction: Open only to master's Social Work students. Instruction Mode: Lecture Grading Option: Letter
SOWK 605 Human Development and Mental Health Units: 3 Understanding problem-producing behaviors and their ramifications on individuals, families and groups that comprise the clientele in mental health settings. Required for students in Mental Health concentration. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter
SOWK 607 Feminist Theory, Social Action, and Social Work: Philippines Units: 4 Terms Offered: Sm Understanding and awareness of the political, economic, social, and cultural contexts through a feminist perspective, using the Philippines as a case study. Prerequisite: SOWK 505, SOWK 535. Instruction Mode: Lecture Grading Option: Letter
SOWK 608 Research and Critical Analysis for Social Work with Children and Families Units: 3 Critical analysis and application of various data, information, and evidence to understand client problems and service needs, identify appropriate interventions, and evaluate practice decisions. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 603. Instruction Mode: Lecture Grading Option: Letter
SOWK 609 Introduction to Social Work Practice with Children, Youth and Families Units: 3 Understanding development of children and families from birth to adolescence and the developmental difficulties from an ecological perspective. Assessment/engagement of families and interventions are introduced. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter
SOWK 610 Social Work Practice with Children and Families Across Settings Units: 3 Terms Offered: Other Theory and principles underlying social work in host settings and non-specialty sector settings with a primary emphasis on working with Children, Youth, and Families. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter
SOWK 611 Leadership and Management in Social Work Units: 3 Methods and principles of leadership and management applied to social work practice, understood as policy, management and clinical practice in the non-profit sector, health and human service organizations, and non-traditional social work settings. Registration Restriction: Open only to master's Social Work students. Instruction Mode: Lecture Grading Option: Letter
SOWK 612 Assessment and Diagnosis of Mental Disorder Units: 3 Assessment of mental disorders, and the rationale and organization of the system for diagnosis. Emphasis is on developing differential diagnostic skills. Instruction Mode: Lecture Grading Option: Letter
SOWK 613 Social Work Practice with Children and Families in Early and Middle Childhood Units: 3 Provides understanding of the development of problems in early childhood, and skills for engagement, assessment, intervention, and evaluation of effectiveness for treatment of these problems. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter
SOWK 614 Social Work Practice in School Settings Units: 3 Based on ecosystems perspectives, this course examines policies, theories and principles of social work practice in school settings. Instruction Mode: Lecture Grading Option: Letter
SOWK 615 Brief Therapy and Crisis Intervention Units: 3 Theory and multimodal approaches for brief therapy and crisis intervention with diverse clientele in a range of mental health and health settings. Instruction Mode: Lecture Grading Option: Letter
SOWK 616 Clinical Practice with Older Adults Units: 3 Developmental tasks of adulthood and later life, as well as assessment and intervention for problems and disorders associated with aging. Instruction Mode: Lecture Grading Option: Letter
SOWK 617 Substance Related and Behavioral Addictive Disorders and Recovery Units: 3 Causal exploration of substance related and behavioral addictive disorders. Evidence-based and practice informed treatment models for vulnerable individuals, groups and families. Instruction Mode: Lecture Grading Option: Letter
SOWK 618 Systems of Recovery from Mental Illness in Adults Units: 3 Terms Offered: FaSpSm Focus on the multi-level impact of mental illness on adults and families. Evidence-based interventions promoting increased quality of life and stability are emphasized. Instruction Mode: Lecture Grading Option: Letter
SOWK 619 Social Work in Public Child Welfare Settings Units: 3 This advanced seminar will provide tools to enhance the practitioner's response to the special challenges (substance abuse, HIV/AIDS, domestic violence) in public child welfare. Instruction Mode: Lecture Grading Option: Letter
SOWK 620 Social Work Practice With Transitional Youth Units: 3 Terms Offered: FaSpSm

Students will be introduced to policies affecting transitional youth and use a biopsychosocial perspective to work with them on macro, meso, and micro levels. Duplicates Credit in former SOWK 525. Instruction Mode: Lecture Grading Option: Letter
SOWK 621 Social Work Practice with Adolescents, Young Adults and their Families Units: 3 Intervention with adolescents, young adults and addressing their developmental problems, challenges and solutions. Engagement and evidence based interventions in working with youth will be covered. Prerequisite: SOWK 506 and SOWK 544 and SOWK 608 and SOWK 609 and SOWK 610 Registration Restriction: Open only to Masters students in Social Work. Instruction Mode: Lecture Grading Option: Letter
SOWK 622 Threat Assessment and Management Units: 3 Terms Offered: FaSpSm Provides an overview to students with an interest in violence prevention and crisis response. Instruction Mode: Lecture Grading Option: Letter
SOWK 623 Social Work in Early Care and Education Settings Units: 3 Provides tools to enhance social work practice skills supporting young children and their families, and preparation for leadership in early care and education settings. Instruction Mode: Lecture Grading Option: Letter
SOWK 624 Social Work in Juvenile Justice Settings Units: 3 Provides orientation to the context and operations of juvenile justice systems, and advanced skills for social work practitioners working with youth, families and communities. Instruction Mode: Lecture Grading Option: Letter
SOWK 625 Evaluation of Research: Mental Health Units: 3 Range of research conducted in mental health; evaluation of selected research reports and their application to social work practice. Required for students in Mental Health concentration. Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter
SOWK 626 Social Conflict, Empowerment and Creative Practice in Israel Units: 4 Terms Offered: Sm The summer global immersion program in Israel focuses on understanding social problems and alleviating them through empowerment approaches and the utilization of expressive practices. Instruction Mode: Lecture Grading Option: Letter
SOWK 627 Policy and Macro Practice in Child, Youth and Family Services Units: 3 Provides context and preparation for social work practitioners holding policy, management and macro practice roles in communities and organizational serving children, youth and families. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter
OPEN ONLY TO MASTERS STUDENTS IN THE SUZANNE DWORAK-P Eck SCHOOL OF SOCIAL WORK

SOWK 629 Research and Evaluation for Community, Organization and Business Environments
Units: 3 Research/evaluation skills and critical analysis of data information systems to inform decision making to improve effectiveness of social work practice in community, organizations, and business.
Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Letter Grading Option: Letter

SOWK 630 Diversity, Social Justice, and Culturally Competent Social Work Practice
Units: 3 Introduction to diversity and social justice in the context of social work practice. Enhance cultural competence by raising awareness of one's own values/assumptions/biases. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 631 Advanced Theories and Clinical Interventions in Health Care
Units: 3 Evaluation of theory, best practices, emerging issues, and skill development in health settings; interaction among cultural, socioeconomic, and organizational factors. Prerequisite: SOWK 505 or SOWK 506 and (SOWK 544 or SOWK 545) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 633 Life in the US Military: Foundations of Practice in Military Social Work
Units: 3 Examines the experience of military service, including challenges and theoretical and empirical foundations of military social work clinical practice. Prerequisite: SOWK 506 and SOWK 536 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 634 Violence Against Women: A Transnational Perspective
Units: 3 Broad understanding of violence against women within a global context, moving beyond the examination of violence as a phenomenon in order to effect social change. Prerequisite: SOWK 506 and SOWK 544 and SOWK 546 and SOWK 536 and SOWK 595a Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Duplicates Credit in former SOWK 522 Instruction Mode: Lecture Grading Option: Letter

SOWK 635 Research and Evaluation for Social Work with Adults and Older Adults
Units: 3 Critical analysis and application of health and mental health research evidence to inform, enhance and strengthen social work practice with adults and aging populations with a focus on evaluating published research, identifying and interpreting available sources of data, appraising practical measures/assessments and selecting appropriate evidence-based interventions. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction:

SOWK 637 Assessing Wellness to Improve Relevance of Integrated Care
Units: 3 Assessing and promoting wellness and recovery, interacting systems of mind, brain, and body. Evidence-based integrated care interventions in a new era of health care reform. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 638 Policy in Integrated Care
Units: 3 Analysis of policies and health care delivery with focus on implications for social workers and their clients in settings with adults, families, and older adults. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 636. Instruction Mode: Lecture Grading Option: Letter

SOWK 639 Policy Advocacy and Social Change
Units: 3 Analysis of efforts to improve local human services organizations and agencies with consideration of political, social, demographic and organization contexts. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 640 Clinical Practice with the Military Family
Units: 3 Theoretical and practical approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic. Prerequisite: SOWK 505 or SOWK 506 and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 641 Clinical Practice with Service Members and Veterans
Units: 3 Needs of service members/veterans within the context of their families/communities. Approaches to treatments with goal of advancing knowledge of best practices and current evidence-based models. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 643 Social Work Practice in Integrated Care Settings
Units: 3 Social work processes and skills required for the implementation of short-term interventions in medical, behavioral health and integrated care settings with individuals, families and groups. Prerequisite: SOWK 544 and SOWK 637 Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 644 Explanatory Theories of Health and Mental Health
Units: 3 Behavioral health theory course that integrates theories of health and mental health and builds on the content from the Human Behavior and Social Environment course. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 645 Clinical Interventions: Evidence Based Practice in Health and Mental Health Settings
Units: 3 Social work processes from intake to termination; emphasis on clinical skills required for social work practice in a broad spectrum of health and mental health settings. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 647 Advanced Practice with Complex Social Work Cases
Units: 3 Introduction to advanced practice concepts essential to understanding engagement, assessment and diagnosis with complex social work cases from a meta-framework perspective. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 635 and SOWK 637 and SOWK 638 and SOWK 643 and SOWK 644 Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 648 Management and Organizational Development for Social Workers
Units: 3 Methods and principles of management focusing on health and human service organizations, including strategic management, financial analysis, and innovative project development in social work. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Instruction Mode: Lecture Grading Option: Letter

SOWK 650 Military and Veteran Policy and Program Management
Units: 3 Understanding the development and implementation of military and veteran policy and programs including family advocacy, prevention of sexual assault, suicide, alcohol/substance use and homelessness. Prerequisite: SOWK 534 or SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Masters students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 651 Clinical Psychopharmacology for Social Workers
Units: 3 Understanding major psychoactive drugs used in treatment of psychological and behavioral disorders in behavioral and primary care medical settings. Theoretical/practical approaches to treatment are examined. Prerequisite: SOWK 546 or SOWK 562 Instruction Mode: Lecture Grading Option: Letter

SOWK 652 Social Work Practice in Workplace Settings
Units: 3 Social Work services designed to improve and/or maintain the productivity and healthy functioning of individuals in the workplace. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 545 Registration Restriction: Open only to Masters Students in Social Work Duplicates Credit in SOWK 671 Instruction Mode: Lecture Grading Option: Letter

SOWK 653 Social Work with Older Adults
Units: 3 Terms Offered: FaSpSm Integrates foundation and advanced knowledge and
skill for practice with and in behalf of older adults. Instruction Mode: Lecture Grading Option: Letter

SOWK 654 National Immersion in Washington, DC: Child Development and Social Policy
Units: 3 Terms Offered: Sp A short study in Los Angeles and Washington, DC, addressing the development and change of Federal social policy concerning child development, especially as it pertains to local programs and services for children and their families. Priority enrollment given to currently enrolled MSW students. Instruction Mode: Lecture Grading Option: Letter

SOWK 655 Global Immersion in Military Culture: U.S. Forces Abroad
Units: 4 Terms Offered: Sm This course will enhance students' understanding of the delivery of human services on overseas military installations. Instruction Mode: Lecture Grading Option: Letter

SOWK 656 National Military Immersion in Washington, DC: Military and Veterans Policy and Practice
Units: 3 Terms Offered: Sp A short study at the campus, online, and in Washington, DC addressing policies and programs for military members, veterans, and their families. Priority enrollment given to currently enrolled MSW students. Prerequisite: SOWK 536 and SOWK 544 Instruction Mode: Lecture Grading Option: Letter

Units: 3 Terms Offered: Sp Understanding and applying social work practice with Native American children, families and communities through a community immersion experience on Indian Reservation. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 658 Organizational Practice and Program Development in Business Environments
Units: 3 Prepares students for organizational practice and program development in business environments, emphasizing organizational change initiatives, employee program development and corporate social responsibility initiatives. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Duplicates Credit in SOWK 673. Instruction Mode: Lecture Grading Option: Letter

SOWK 659 Pathways to Immigration: Global Immersion to Mexico
Units: 3 Terms Offered: Sp Understanding of immigration issues in Southern California via an immersion experience to expose students to the realities that immigrants from Mexico and Central America face. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546 Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 660 Health Care Delivery Systems: Planning for Health and Social Services
Units: 3 Evaluating health care delivery systems in the U.S. and internationally including community social capital, health disparities, access to care, and policy implications for diverse populations. Instruction Mode: Lecture Grading Option: Letter

SOWK 663 Clinical Practice with Couples
Units: 3 Examination of major models and diverse intervention strategies to ameliorate common presenting problems of couples. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 664 Consultation, Coaching and Social Entrepreneurship
Units: 3 Expanding roles that social workers play within both non-profit and for profit corporations. Prerequisite: (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 535) and (SOWK 535 and SOWK 536) Registration Restriction: Open only to master students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 665 Grant Writing and Program Development for Social Workers
Units: 3 Grant writing and program development that are generalized to any settings and relevant to direct and macro social work practice expertise. Prerequisite: (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 535) and (SOWK 535 or SOWK 536) Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 666 Domestic and Intimate Partner Abuse
Units: 3 Recognition of domestic and intimate partner abuse and examination of effective intervention measures and preventive methods. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 535) and (SOWK 534 or SOWK 535) and (SOWK 534 or SOWK 535) Registration Restriction: Open only to master students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 668 Social Work and Law
Units: 3 Examination of roles, opportunities, and concerns for the practice of social work in the structures and procedures of the law. Prerequisite: (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 534 or SOWK 536) Registration Restriction: Open only to master’s students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 669 Managing Change and Organization Development
Units: 3 Conceptual framework and practical skills needed to design, implement and evaluate effective change and organization development programs. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 670 Global Dimensions in Social Policy and Social Work Practice
Units: 3 Exploration and critique of how political, economic, cultural, religious, and environmental factors impact social welfare policies, social work practice, and social development globally. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to Masters Students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 672 Social Work and Business Settings
Units: 3 Terms Offered: FaSpSm Examining the roles social workers play in business, how their skills integrate and support business practice, and how the profession can impact internal/external business environments. Prerequisite: SOWK 506 and SOWK 536 and SOWK 544 and SOWK 546. Instruction Mode: Lecture Grading Option: Letter

SOWK 674 Human Sexuality in Clinical Social Work Practice
Units: 3 Explores physiological, psychological, and sociocultural variables associated with sexual identity, sexual orientation, and sexual behavior to increase student understanding and appreciation for human sexual behavior. Prerequisite: SOWK 505, SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 675 Play Therapy in Social Work with Children and Adolescents
Units: 3 Advances student theoretical knowledge and clinical practice skills in working with children, adolescents, and their families and explores the process of child psychotherapy. Prerequisite: (SOWK 503 and SOWK 543 and SOWK 545) or (SOWK 506 and SOWK 544) Registration Restriction: Open only to Master Students in the USC Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 676 Psychopharmacology for Therapists and Counselors
Units: 1 Terms Offered: FaSpSm Overview of various classes of basic psychotherapeutic medications. Useful to social workers, counselors, therapists, and other individuals who counsel and treat mentally ill patients. Instruction Mode: Lecture Grading Option: Letter

SOWK 677 Mental Health Practice with Children and Adolescents
Units: 3 The assessment and treatment of children with serious emotional disturbance, including the service delivery models and policies that influence service delivery. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536) Registration Restriction: Open to master’s students in the Suzanne Dworak-Peck School of Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 678 Child Abuse and Neglect: Intervention and Treatment
Units: 3 Advanced practice course focusing on interventions with and treatment of complex family systems where the effects of child maltreatment are the presenting problems. Prerequisite: SOWK 505, SOWK 535. Instruction Mode: Lecture Grading Option: Letter
SOWK 679 Organizational Group Behaviors and Interventions
Units: 3
Emphasizing group and organizational dynamics, this course provides an understanding of human behavior in work-related environments, and prepares students for mezzo practice in these settings. Prerequisite: SOWK 505 and SOWK 536 and SOWK 544 and SOWK 546. Instruction Mode: Lecture Grading Option: Letter

SOWK 680 Social Work Spanish for Culturally Competent Services
Units: 3
Integration of cross-cultural practice skills with Spanish language development through the class instruction and practice development. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 681 Managing Diversity in a Global Context
Units: 3
Interdisciplinary approach to innovative practices that make the workplace more inclusive and productive. Prerequisite: (SOWK 503 or SOWK 505) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536). Registration Restriction: Open to master’s students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 682 Spirituality, Religion, and Faith in Clinical Practice
Units: 3
Examination of diverse spiritual and religious traditions. Spiritually-sensitive treatment approaches applied to psychological and spiritual clinical problems of individuals, couples, and families. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536). Registration Restriction: Open to master’s students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 683 Hypnosis Social Work Practice
Units: 3
Examination of major theoretical and practice applications of hypnosis in social work practice and development of a beginning level of competency. Prerequisite: SOWK 503, SOWK 505, SOWK 534, SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 684 Community Practice for Social Innovation
Units: 3
Working effectively within marginalized, underserved populations and diverse community settings on their wicked, consistent, and complex issues by providing innovative and sustainable solutions. Prerequisite: (SOWK 503 or SOWK 506) and (SOWK 505 or SOWK 506) and (SOWK 534 or SOWK 536) and (SOWK 535 or SOWK 536). Registration Restriction: Open to master’s students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 685 Working with Adolescents: Practice, Systems and Advocacy
Units: 3
Enhance knowledge and skill in working with adolescents involved in the child welfare, juvenile justice and other systems. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536). Registration Restriction: Open to Masters Students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 686 Alcohol and Drug Abuse
Units: 3
An advanced integrative learning that incorporates field experiences, evidenced-based interventions, case vignettes and dialogical inquiry through a problem based learning framework. Prerequisite: SOWK 588 and SOWK 589b Concurrent Enrollment: SOWK 689a. Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 687 Media in Social Work
Units: 3
Creation of short documentaries for social change. Techniques in media production, strategies for media outreach, and development of media literacy skills to deconstruct media messages. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536). Registration Restriction: Open only to MSW students. Instruction Mode: Lecture Grading Option: Letter

SOWK 688 School Violence
Units: 3
Examines theoretical, empirical and practice-based literature on school violence including how students' physical well-being, academic functioning, social relations, and emotional and cognitive development are affected. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536). Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 690a Research
Units: 1, 2, 3, 4
Intensive individual study of specific problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 690b Research
Units: 1, 2, 3, 4
Intensive individual study of specific problems. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 692 Loss, Grief and Bereavement
Units: 3
Focus on the experiences of loss, death and bereavement as it is viewed by individuals, families and loved ones. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536). Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 694 Group Psychotherapy in Mental Health Settings
Units: 3
Focus on group therapy for clinical social workers as practiced in various mental health settings. The entire process of group development is examined. Prerequisite: (SOWK 505 or SOWK 506) and (SOWK 535 or SOWK 536). Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: Letter

SOWK 696 LGBT Psycho/Social/Political Issues
Units: 3
Overview of clinical, social and political issues with which social workers should be familiar when working with lesbian, gay, bisexual and transgender clients. Prerequisite: SOWK 505, SOWK 535. Instruction Mode: Lecture Grading Option: Letter

SOWK 698 Integrative Learning for Advanced Social Work Practice
Units: 1
An advanced integrative learning that incorporates field experiences, evidenced-based interventions, case vignettes and dialogical inquiry through a problem based learning framework. Prerequisite: SOWK 588 and SOWK 589b. Concurrent Enrollment: SOWK 699a. Registration Restriction: Open only to Master students in the Suzanne Dworak-Peck School of Social Work. Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SOWK 699 Advanced Applied Learning in Field Education
Units: 4
Advanced supervised field education where students practice social work skills and apply evidence-based interventions, including some that are specific to their academic department. Prerequisite: SOWK 588 and SOWK 589a and SOWK 589b. Concurrent Enrollment: SOWK 699a. Duplicates Credit in SOWK 686a. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 702 Theories of Human Behavior in the Contexts of Social Environments
Units: 3
A focus on human behavior in interaction with the social environment; major paradigms including general systems theory, ego psychology, and role theories are examined. Instruction Mode: Lecture Grading Option: Letter

SOWK 703 Explanatory Theories for Larger Social Systems
Units: 3
Theories of organizational and community behavior are examined in relation to their influence on the development of social services. Instruction Mode: Lecture Grading Option: Letter

SOWK 704 Strategic Innovations for the Grand Challenges
Units: 3
Grand Challenge initiatives and interventions from diverse perspectives are explored. Multidisciplinary strategies of innovation are analyzed to effect broad-based opportunities and barriers to change. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 705 Leading Public Discourse
Units: 3
Leading public discourse for the purposes of increasing civic engagement and public participation, building broad based public support and enabling competencies. Prerequisite: SOWK 704 and SOWK 706. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

SOWK 706 Leading and Managing Large Complex Systems
Units: 3
Examining large scale national, state and local intervention programs as well as modeling potential organizational
redesign to improve service delivery strategies. Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 707 Financial Management for Social Change**
Units: 3 Senior financial management and planning in human service organizations, emphasizing fiscal approaches that focus on strategy, including how to maximize revenue, control costs, allocate resources, improve decision-making and support successful social programs and disruptive social change. Preerequisite: SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 710 Preparatory Scholarship for Capstone**
Units: 3 Design and develop an innovative, feasible, logical, and defensible Grand Challenge Capstone Project; consider contextual issues, and enhance innovation and communication skills. Preerequisite: SOWK 704 and SOWK 711 and SOWK 723 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 711 Design Laboratory for Social Innovation I**
Units: 3 Integrates design thinking with a norms-driven approach for social innovation. Students will diagnose social norms and apply design-thinking techniques to develop design criteria. Corequisite: SOWK 704 Registration Restriction: Open only to doctoral students in USC School of Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 712 Residency I**
Units: 3 Terms Offered: Sm Five-day campus based residency in the third semester of the DSW program designed to bring students together for a series of presentations and workshops by ‘thought leaders’ on the Grand Challenges of Social Work. Prequisite: SOWK 704 and SOWK 711 and SOWK 723 Corequisite: SOWK 705 and SOWK 710 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 713 The Application of Implementation Science**
Units: 3 Introduction to doctoral level research and evaluation, introducing concepts of effectively using literature, formulating a problem for research and effectively identifying a research or evaluative approach. Prequisite: SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 714 Executive Leadership: Leaders as Maestros**
Units: 3 The Leader/Maestro Concept (enlarging a virtuoso perspective - individual performance - to include an organizational performance in leading, creating and measuring change. Prequisite: SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 720 Communication and Influence for Social Good**
Units: 3 Explores how communication and new information technology influence decision-makers and the general public to address the Grand Challenges in the interest of the public good. Prequisite: SOWK 704 and SOWK 705 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 721 Data Driven Decision Making in Social Services**
Units: 3 Practical introduction to using quantitative administrative data to identify trends, track performance, evaluate programs and drive decision making. Prequisite: SOWK 704 and SOWK 706 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 722 Implementing Your Capstone and Re-envisioning Your Career**
Units: 3 Culminates in the completion of a fully implementable Grand Challenge capstone project with a plan that re-envision career pathways conducive to launching the project. Prequisite: SOWK 705 and SOWK 710 and SOWK 711 and SOWK 723 Corequisite: SOWK 724 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 723 Design Laboratory for Social Innovation II**
Units: 3 Continues the exploration of design thinking and norms-driven innovation. Students will design and test innovative solutions through the creation of prototypes and design labs. Prequisite: SOWK 704 and SOWK 706 and SOWK 711 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 724 Residency II**
Units: 3 Terms Offered: Sm Campus-based residency in the final semester of the DSW program bringing students together to present their Capstone Projects to different professional audiences. Prequisite: SOWK 704 and SOWK 705 and SOWK 706 and SOWK 707 and SOWK 710 and SOWK 711 and SOWK 712 and SOWK 713 and SOWK 714 and SOWK 721 and SOWK 723 Corequisite: SOWK 720 and SOWK 722 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: Letter

**SOWK 725a Preparatory Scholarship for Capstone**
Units: 2 Terms Offered: FaSpSm Design and develop an innovative, feasible, and defensible Capstone Project focusing on a selected Grand Challenge for Social Work. Credit granted on acceptance of capstone project. Prequisite: SOWK 704 and SOWK 705 and SOWK 706 and SOWK 707 and SOWK 710 and SOWK 711 and SOWK 713 and SOWK 714 and SOWK 720 and SOWK 721 and SOWK 723 Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**SOWK 725b Preparatory Scholarship for Capstone**
Units: 2 Terms Offered: FaSpSm Refine a fully implementable, innovatively designed Grand Challenge Capstone Project. Future-focused on garnering support, piloting and launching students’ capstone prototype. Credit granted on acceptance of capstone project. Prequisite: SOWK 725a Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**SOWK 725c Preparatory Scholarship for Capstone**
Units: 2 Terms Offered: FaSpSm Complete a fully implementable, innovatively designed Grand Challenge Capstone Project. Future-focused on garnering support, piloting and launching students’ capstone project. Credit granted on acceptance of capstone project. Prequisite: SOWK 725b Registration Restriction: Open only to doctoral students in Social Work Instruction Mode: Lecture Grading Option: In Progress to Credit/No Credit

**SOWK 732 Policy Analysis and Advocacy in a Comparative Social Policy Context**
Units: 3 Examination of the evolution of American and other welfare states in selected nations. Analysis of global welfare institutions. Engaging in policy analysis in a comparative context. Instruction Mode: Lecture Grading Option: Letter

**SOWK 743 Theories for Practice with Small Systems**
Units: 3 Early practice theories and their historical roots are examined. Implications for evolving current practice theories with individuals, families, and groups are discussed. Instruction Mode: Lecture Grading Option: Letter

**SOWK 744 Theories for Practice with Large Systems**
Units: 3 Examination of the development and utility of theories, models and approaches to social work community and administrative practice. Instruction Mode: Lecture Grading Option: Letter

**SOWK 760L Introduction to Social Work Statistics**
Units: 3 Foundation course covering univariate and bivariate descriptive and inferential statistics. Required lab covering basic computer skills and utilization of statistical software. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**SOWK 761L Multiple Regression for Social Work Research**
Units: 3 Multivariate statistical methods including descriptive and inferential statistics, parametric and non-parametric tests of hypotheses; correlation, analysis of variance, multiple regression, and factor analysis; utilization of computer programs for statistical analysis. Instruction Mode: Lecture, Lab Required Grading Option: Letter

**SOWK 762 Social Work Research Methods I**
Units: 3 Models of research, the nature of inquiry, and the research process including problem formulation, measurement, designs, sampling and data sources. Prerequisite: doctoral standing. Instruction Mode: Lecture Grading Option: Letter
SOWK 763 Social Work Research Methods II: Issues in Research for Social Work Practice
Units: 3 Research methods to provide students with advanced methodological knowledge in two areas related to social work practice: psychotherapy outcome research and program research. Prerequisite: SOWK 762. Instruction Mode: Lecture Grading Option: Letter

SOWK 764 Advanced Multivariate Statistics
Units: 3 Introduction to single equation statistical modeling using limited dependent variables (categorical and ordered categorical). Methods are drawn from statistics and econometrics. Instruction Mode: Lecture Grading Option: Letter

SOWK 765 Writing Successful Dissertation Research Grants
Units: 3 Terms Offered: FaSp Prepares doctoral students to write and submit applications to obtain extramural funding to support their dissertation research. Students will learn about opportunities and eligibility requirements for federal and foundation supported dissertation research grants, how grants are reviewed, and how to write successful proposals. Recommended preparation: Completion of a qualitative or mixed methods course is preferred. Prerequisite: SOWK 702 and SOWK 703 and SOWK 761 and SOWK 762 and SOWK 763 and SOWK 764. Recommended Preparation: Completion of a qualitative or mixed methods course is preferred. Instruction Mode: Lecture Grading Option: Letter

SOWK 770 Introduction to Qualitative and Mixed Research Methods
Units: 3 Overview of the use of qualitative and mixed methods in social, clinical and health services research. Instruction Mode: Lecture Grading Option: Letter

SOWK 781 Guided Teaching Experience
Units: 2 Mentorship with a member of the teaching faculty; discussions of curriculum design; observation; preparation and delivery of selected course sessions. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 785 Guided Research Internship
Units: 2 Research practicum designed to provide students with hands-on professional experience with an ongoing faculty research project. Prerequisite: SOWK 763. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the dissertation. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SOWK 794a Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794c Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SOWK 794z Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Spanish

SPAN 202x Spanish for Reading Knowledge
Units: 0 Preparation for the ETS standardized examination, with readings related to the student's major area. Offered upon sufficient demand. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 120 Spanish I
Units: 4 For students with limited proficiency in Spanish. Practice in listening comprehension, oral communication, elementary reading and writing. Prerequisite: Spanish placement exam. Instruction Mode: Lecture Grading Option: Letter

SPAN 150 Spanish II
Units: 4 Continuation of SPAN 120; increased emphasis on listening comprehension, oral communication, reading, and writing. Prerequisite: SPAN 120. Instruction Mode: Lecture Grading Option: Letter

SPAN 220 Spanish III
Units: 4 Continuation of SPAN 150; intensive work in listening comprehension, oral communication, reading and writing, with emphasis on free expression; readings related to Hispanic culture and civilization. Prerequisite: SPAN 150. Instruction Mode: Lecture Grading Option: Letter

SPAN 231x Business Spanish: Job Search
Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students create culturally appropriate professional documents, execute job searches in Spanish/Latin America; engage in face-to-face and phone interviews in Spanish. Prerequisite: SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x. Instruction Mode: Lecture Grading Option: Letter

SPAN 232x Business Spanish: Business Culture
Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students engage in research about the culture of business practices in Spain/Latin America; write company profile, including NGOs, in Spanish. Prerequisite: SPAN 220 Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x. Instruction Mode: Lecture Grading Option: Letter

SPAN 233x Business Spanish: Case Studies
Units: 2 Terms Offered: FaSp Four-skills language and culture course. Students read/analyze Spanish-language case studies and present their own case studies orally and in writing in Spanish. Prerequisite: SPAN 220. Registration Restriction: Not open to Spanish majors Duplicates Credit in SPAN 250x. Instruction Mode: Lecture Grading Option: Letter

SPAN 240 Spanish IV
Units: 4 Terms Offered: FaSp Intensive review of Spanish grammar with emphasis on four skills. Audiovisual materials and readings related to Hispanic culture and civilization. Prerequisite: SPAN 220. Instruction Mode: Lecture Grading Option: Letter

SPAN 250x Spanish for Business Communication
Units: 4 Four-skills language and culture course for intermediate-high Spanish students interested in Business/Communications. Prepares students to communicate in the Spanish-speaking commercial market in a linguistically sensitive manner. Prerequisite: SPAN 240. Instruction Mode: Lecture Grading Option: Letter

SPAN 260 Advanced Spanish: Arts and Sciences
Units: 4 Terms Offered: FaSpSm Development of students' oral and writing skills using literary and scientific materials; grammar review. Prerequisite: SPAN 220. Duplicates Credit in the former SPAN 266. Instruction Mode: Lecture Grading Option: Letter

SPAN 261 Advanced Spanish: Society and the Media
Units: 4 Terms Offered: FaSpSm Analysis of cultural issues in the contemporary world. Discussions, presentations, writing assignments, and grammar instruction designed to improve students' proficiency in Spanish. Prerequisite: SPAN 220. Duplicates Credit in the former SPAN 266. Instruction Mode: Lecture Grading Option: Letter

SPAN 270 Spanish for Heritage Speakers
Units: 4 Terms Offered: FaSp Culture-based course designed for Spanish speakers not formally trained in the language. Review language and grammar and hone presentational skills. Prerequisite: SPAN 220 Recommended Preparation: Heritage profile Duplicates Credit in SPAN 260. Instruction Mode: Lecture Grading Option: Letter

SPAN 280x Conversational Spanish
Units: 2 Max Units: 4.0 Terms Offered: FaSp Discussions of short films, cultural and literary texts and other activities designed to improve conversational skills. Prerequisite: SPAN 220. Instruction Mode: Lecture Grading Option: Letter

SPAN 290gp Introduction to Latin American and Iberian Studies
Units: 4 Introduction to the cultural history
of Spain, Portugal and Latin America with a focus on literature and visual works from the early-modern period to the twenty-first century. Satisfies New General Education in Category B: Humanistic Inquiry Satisfies Global Perspective in Category H: Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SPAN 301 Introduction to Literature and Film Units: 4 Terms Offered: FaSpSm Introduction to critical reading and interpretation of poetry, narrative fiction, drama, and film from Spain and Latin America. Prerequisite: SPAN 260 and SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 302 Screen Cultures: From Film to the Internet Units: 4 Terms Offered: FaSp Lecture, Discussion Prerequisite: SPAN 260 or SPAN 301 Instruction Mode: Lecture Grading Option: Letter

SPAN 304 The Art of Fiction Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American fiction from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to narrative. Conducted in Spanish. Prerequisite: SPAN 260 or SPAN 261 Recommended Preparation: SPAN 301 Instruction Mode: Lecture Grading Option: Letter

SPAN 306 Performance from Street to Stage Units: 4 Terms Offered: FaSp A survey of Spanish and Latin American plays from the Middle Ages to the present, acquainting students with various critical and theoretical approaches to drama. Conducted in Spanish. Prerequisite: SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 310 Structure of Spanish Units: 4 Terms Offered: FaSp A systematic study of the structure of Spanish. Topics include fundamental aspects of the sound system; word classes; sentences and their meaning; linguistic change and variation; standard and colloquial usage. Prerequisite: SPAN 260 and SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 311 Advanced Spanish Through Contemporary Issues: Oral Expression Units: 4 Terms Offered: Sm (Summer sessions abroad) Advanced Spanish with emphasis on grammar and oral communication. Recommended Preparation: SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 315 Advanced Grammar and Translation Units: 4 Terms Offered: FaSp Contrastive study of Spanish and English structures designed to explore the similarities and differences between the two languages and to familiarize students with translation techniques. Emphasis on a variety of text types with the aim of increasing linguistic and cultural appreciation of the Spanish language. Prerequisite: SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 316 Spanish for the Professions Units: 4 Terms Offered: FaSp The language and culture of a particular area of study or profession, such as medicine and healthcare, political and social sciences, business and the law. Limited to 4 units for major or minor credit. Prerequisite: SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 318x Creative Writing in Spanish Units: 4 Terms Offered: FaSp An introduction to the art and craft of creative writing in Spanish. Conducted with a focus on narrative fiction; writing workshop, literary readings. Prerequisite: SPAN 260 or SPAN 261 Instruction Mode: Lecture Grading Option: Letter

SPAN 320 Politics, Thought, Society Units: 4 Terms Offered: FaSp Introduction to the study of Iberian and Latin American cultural patterns through readings on such topics as history, gender, ethnicity, and politics. Conducted in Spanish. Prerequisite: SPAN 260 or SPAN 261 Duplicates Credit in former SPAN 360 and former SPAN 370 Instruction Mode: Lecture Grading Option: Letter

SPAN 321 Sounds, Images, Objects Units: 4 Terms Offered: FaSp A survey of Spanish art and architecture. Field trips. Instruction Mode: Lecture Grading Option: Letter

SPAN 325 Cultural Cross-Currents of the Iberian Middle Ages Units: 4 Terms Offered: FaSp From 1040 to 1499 examining the rich cultural diversity of the Iberian Middle Ages in the symbiosis of Christian, Moslem and Jewish traditions. Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308. Duplicates Credit in former SPAN 377 and former SPAN 450. Instruction Mode: Lecture Grading Option: Letter

SPAN 352 The Transatlantic Golden Age: New Worlds Real and Imagined Units: 4 Terms Offered: FaSp Selected readings from 1500 to 1700 exploring Renaissance and baroque visions of the classical and new worlds. Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308 Instruction Mode: Lecture Grading Option: Letter

SPAN 372 Modern and Contemporary Latin American Fiction Units: 4 Terms Offered: FaSp Studies of major trends in Latin American fiction from the 1930s to the present with a focus on narrative experimentation. Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 373 Modern and Postmodern Spanish Fiction Units: 4 Terms Offered: FaSp An exploration of the literary and filmic narratives of contemporary Spain focusing on major historical and cultural movements of the 20th century. Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308. Duplicates Credit in former SPAN 378. Instruction Mode: Lecture Grading Option: Letter

SPAN 375 Latin American Cultural and Literary Theory Units: 4 (Enroll in COLT 375) Satisfies New General Education in B Humanistic Inquiry Instruction Mode: Lecture Grading Option: Letter

SPAN 380 Introduction to the Internet Units: 4 Terms Offered: FaSp Recommended Preparation: SPAN 260 or SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 382 The Aesthetics of Violence in Latin America Units: 4 Terms Offered: FaSp An exploration of representations of violence and violent representations in Latin American narrative, poetry, music, and film. Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308. Instruction Mode: Lecture Grading Option: Letter

SPAN 383 Mexican Noir Units: 4 Terms Offered: FaSp Comparative study of the noir form in Mexico through readings in literature and cinema, with attention on questions of modernity, technology, politics and gender. Taught in Spanish. Prerequisite: (SPAN 260 and SPAN 261) or (SPAN 265 and SPAN 266). Instruction Mode: Lecture Grading Option: Letter

SPAN 385 The Culture of Food in Hispanic Los Angeles Units: 4 Terms Offered: FaSp Experiential learning and project-based course designed to familiarize students with the food culture of Hispanic Los Angeles. Students create Spanish language blogs about their experiences. Prerequisite: SPAN 260 and SPAN 261. Instruction Mode: Lecture Grading Option: Letter

SPAN 390 Special Problems Units: 1, 2, 3, 4 Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter
SPAN 391 Introduction to Contemporary Spanish Literature (USC Madrid Center)  
Units: 4  
Readings in contemporary Spanish literature. Includes lectures by recognized Spanish writers and scholars.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 395 Visualizing Cuba: Arts, Politics and Society in Today's Cuba  
Units: 4  
Terms Offered: Sp Examines Cuban contemporary culture and society through the analysis of visual arts, literature, music and dance.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 396 Oaxaca and Oaxacalifornia: Food, Culture, Art and Migration  
Units: 4  
Terms Offered: Sp Explore Oaxaca's mountains, beaches, villages and capital city; first hand experience in culture, traditional food, street artists and agricultural systems.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 405 History of the Spanish and Portuguese Languages  
Units: 4  
Development of sounds, forms, words, meanings and structures from their origins to modern Spanish and Portuguese.  
Prerequisite: SPAN 310 or SPAN 315.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 412 Spanish Rhetoric and Style Units: 4  
Terms Offered: FaSp Close grammatical and rhetorical analysis of a variety of text types (general, literary, technical, journalistic) as the basis for practice in advanced written and oral expression as well as translation.  
Prerequisite: SPAN 310 or SPAN 315.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 413m Social and Geographic Varieties of Spanish Units: 4  
Prerequisite: Reading knowledge of Spanish.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 420 Spanish Language Acquisition Units: 4  
Terms Offered: FaSp A study of the bilingual acquisition of Spanish and English by children, and of Spanish as a second language by adults; focus on linguistic, psychological and social factors.  
Prerequisite: SPAN 310 or SPAN 315.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 421 Picaresque Itineraries: Empire and Its Discontents Units: 4  
Terms Offered: FaSp A study of the rise of the picaresque novel in Spain and Latin America as a medium for social, political, and cultural criticism.  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 460 Don Quijote: Text and Film Units: 4  
Terms Offered: FaSpSm A close reading of Cervantes' masterpiece and analysis of film adaptations of the novel.  
Prerequisite: SPAN 301.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 461 Literary Cartographies of Latin America and Spain, 1810–1898 Units: 4  
Terms Offered: FaSp Comparative analysis of Spanish and Latin American literatures with a focus on trans-Atlantic relations and the rise of such movements as romanticism, realism, and modernismo.  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 464 Introduction to Contemporary Spanish Theatre Units: 4  
(Madrid Center only) Historical evolution of the contemporary Spanish theatre; reading of dramatic texts supported by attendance at live stage performances.  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 465 Cultural Perspectives of the Iberian Peninsula Units: 4  
Terms Offered: Sm (Madrid Summer Program) Study of cultural plurality in the Iberian Peninsula.  
Recommended Preparation: SPAN 260 or SPAN 261.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 466 Argentina, Society and the Arts Units: 4  
Terms Offered: Sm Study of the arts in the cultural landscape of Argentina and in the context of developments in Europe, Latin America and the United States.  
Recommended Preparation: SPAN 260 or SPAN 261.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 469 Immigration in Spain Units: 4  
Terms Offered: Sm Sociopolitical issues of immigration in Spain, including economic impact, legal evolution, history, geographic location, and culture.  
Recommended Preparation: SPAN 220.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 470 Literature and Media in Latin America Units: 4  
Terms Offered: Enroll in COLT 470)  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 471 Postdictatorship Spanish and Latin American Cinema Units: 4  
Terms Offered: Fa A study of the historical, political and cultural context of post-dictatorship Spanish and Latin American cinema by focusing on debates on memory and trauma.  
Taught in Spanish.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 472 The Sixties in Latin America Units: 4  
Terms Offered: Fa Study of the explosive Latin American cultural formations of the sixties (literary boom, third cinema, protest song, theories of armed struggle).  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 481 Literature and Popular Culture Units: 4  
Terms Offered: FaSp An examination of popular culture and literary genres with an emphasis on the evolving canons and identities of Latin America and Spain.  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 482 Literature and the City Units: 4  
Terms Offered: FaSp An examination of the literary representations of urban spaces and cultures within the context of Iberian, Latin American, and U.S. Latino societies.  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 483 Gender and Sexuality Units: 4  
Terms Offered: FaSp An examination of gender, sexuality, and power in Iberian and Latin American literatures and cultures.  
Recommended Preparation: SPAN 304 or SPAN 306 or SPAN 308.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 484 Studies in Visual and Material Culture Units: 4  
Terms Offered: FaSp An examination of the role of visual and material culture in cultural and social context in the Hispanic world, focusing on a selected time period and geographical region.  
Recommended Preparation: SPAN 260 and SPAN 261 if taken for Spanish major credit.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 490 Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0 Individual research and readings.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 495 Seminar for Majors and Minors Units: 4  
Two options: (1) Study of a major work or writer, a principal literary theme or movement; or (2) a selected topic in Spanish language and linguistics.  
Recommended Preparation: two courses in the upper division in the same area as the seminar topic (i.e., language or literature).  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 499 Special Topics Units: 2, 3, 4 Max Units:  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 501 Cultural Narratives of Spain and Latin America Units: 4  
Theoretical and methodological approaches to cultural narratives in Spanish and Latin American literary and cultural studies.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 511 Techniques and Procedures of Teaching Spanish as a Second Language Units: 3  
Practical classroom application of language teaching methods; evaluation of available textbooks; critique of master classes.  
Instruction Mode: Lecture  
Grading Option: Letter

SPAN 512 Spanish Morphology and Phonology Units: 3  
Terms Offered: FaSp A survey of research on the interaction between Spanish morphology and phonology in light of critical readings and discussion of selected studies as contributions to the general theory of grammar.  
Duplicates Credit in former SPAN 512.  
Instruction Mode: Lecture  
Grading Option: Letter  
Crosslisted as LING-513

SPAN 514 Spanish Syntax Units: 3  
Terms Offered: FaSp A survey of Spanish syntax in the light of critical readings and discussion of selected studies and their comparative contribution
SPAN 515 Spanish Grammar in Discourse
Units: 3 Terms Offered: FaSp Semantic and pragmatic approaches to the analysis of the structure of Spanish sentences and discourse. Instruction Mode: Lecture Grading Option: Letter Crosslisted as LING-515

SPAN 516 Historical Aspects of Spanish and Portuguese
Units: 3 Terms Offered: FaSp Processes of language change in the development of the Spanish and Portuguese languages from their origin in spoken Latin to their modern stage. Instruction Mode: Lecture Grading Option: Letter

SPAN 517 Spanish Applied Linguistics
Units: 3 Terms Offered: FaSp Modern theories of first and second language acquisition and their application to Spanish. Instruction Mode: Lecture Grading Option: Letter

SPAN 518 Spanish Sociolinguistics
Units: 3 Terms Offered: FaSp Principles of sociolinguistics and dialectology: sociolinguistic patterns in the Hispanic languages. Instruction Mode: Lecture Grading Option: Letter

SPAN 525 Medieval and Early Modern Spanish World
Units: 4 Max Units: 8.0 Study of literature and other cultural artifacts pertaining to the Middle Ages in Spain and the early modern world in both Spain and the Americas. Instruction Mode: Lecture Grading Option: Letter

SPAN 529 The Transatlantic 19th Century
Units: 4 Max Units: 8.0 Study of authors, texts and literary and cultural currents in Spain and Latin America in the 19th century. Instruction Mode: Lecture Grading Option: Letter/Credit

SPAN 539 20th and 21st Century Spanish Literature and Culture
Units: 4 Max Units: 8.0 Study of cultural currents, authors, literary texts, films and other media in Spain in the 20th and 21st centuries. Instruction Mode: Lecture Grading Option: Letter

SPAN 545 20th and 21st Century Latin American Literature and Culture
Units: 4 Max Units: 8.0 Study of cultural currents, authors, literary texts, films and other media in Latin America in the 20th and 21st centuries. Instruction Mode: Lecture Grading Option: Letter

SPAN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 592 Practicum in Teaching Spanish
Units: 2 Approaches and techniques in the teaching of Spanish and/or Portuguese as a second language. Registration Restriction: Open only to Master and Doctoral students in Comparative Literature, Comparative Culture in Literature and Studies (Spanish and Latin American Studies), Linguistics (Hispanic Linguistics) and Spanish. Instruction Mode: Lecture Grading Option: Credit/No Credit

SPAN 594a Master's Thesis
Units: 2 Credit in accordance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 594b Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 594c Doctoral Dissertation
Units: 1 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 594d Doctoral Dissertation
Units: 2 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SPAN 594e Doctoral Dissertation
Units: 0 Credit on acceptance of dissertation. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

Spatial Sciences Institute
SSCI 135g Maps in the Digital World
Units: 4 Terms Offered: FaSp The role of formal reasoning, abstract representation and empirical analysis in building maps for sharing knowledge across the physical, life and social sciences and humanities. Satisfies New General Education in Category F: Quantitative Reasoning
### Analysis Instruction Mode: Lecture Grading Option: Letter

SSCI 165Lgw Sustainability Science in the City
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** The influence of sustainability science on public policy and vice versa in the context of social/ethical theories, analytical methods, and solutions. Satisfies New General Education in Category C: Social Analysis Satisfies Global Perspective in Category G: Citizenship in a Diverse World Satisfies Old General Education in Category VI: Social Issues

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 201 Principles of GeoDesign
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Foundations of geodesign combining place-making, design, collective action, and the science of location-based information to improve human interaction with the functioning of the Earth.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 214g Human Populations and Natural Hazards
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Introduction to the complex relationship between human development and natural hazards, which are increasingly causing damage to the social, economic, and environmental systems.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 220L Spatial Data Collection Using Drones
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Develop the requisite knowledge and practical skills to source, analyze, and produce GIS and simulation-based projects with unmanned aerial systems-derived data.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 265Lgw The Water Planet
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Exploration of earth’s water, ranging from water properties, chemistry, and pollution, to groundwater dynamics, watershed management, and oceanic-atmospheric circulation. Implications for past and future societies.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 301L Maps and Spatial Reasoning
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Role of maps and spatial reasoning in the production and use of geographic information for representing and analyzing human and environmental activities and events.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 311 International Geodesign Studio - Europe
- **Units:** 12
- **Terms Offered:** Sm
- **Description:** Critical and spatial thinking while engaged in classroom and field settings to propose geodesign strategies that address a societal challenge in an Amsterdam neighborhood.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 312 International Geodesign Studio - Asia
- **Units:** 12
- **Terms Offered:** Sm
- **Description:** Examine geodesign applications in locations throughout Asia and utilize these experiences to interrogate applications of geodesign and how they might be applied in the U.S.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 340 Community Health Scan
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Critical thinking and techniques of statistics and how they can be used with geographic data to produce actionable information across multiple spatial scales.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 350 International GeoDesign
- **Units:** 4 Max
- **Terms Offered:** 12.0
- **Description:** Intensive learning-research and field experience in Los Angeles and abroad; application of GeoDesign strategies to local societal challenges.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 381 Statistics for the Spatial Sciences
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Conceptual foundations and techniques of statistics and how they can be used with geographic data.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 382L Geographic Information Science: Spatial Analytics
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Various ways in which geography can be used to acquire, represent, organize, analyze, model, and visualize information.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 383L Geographic Information Science: Geospatial Modeling and Customization
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Fundamentals of spatial modeling and remote sensing and how to use GIS customization and programming to streamline complex spatial analysis and modeling workflows.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 397 Spatial Sciences Internship
- **Units:** 2, 3
- **Terms Offered:** FaSpSm
- **Description:** Intensive experience in local public agency, private firm, or nonprofit agency engaged in applied geospatial analysis, modeling, and mapping work.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Credit/No Credit</th>
</tr>
</thead>
</table>

SSCI 401L Geospatial Intelligence
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Introduction to basic geospatial intelligence knowledge and related practical applications that assist in informing decision-making in a variety of human security settings.

<table>
<thead>
<tr>
<th>Recommended Preparation: IR 381 and SSCI 301L Instruction Mode: Lecture, Lab Required Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 402 Geospatial Technology Management for Sustainability Science
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Principles and techniques for leveraging geospatial technologies and information in support of sustainability, with emphasis on coupling human and natural systems for global sustainable development.

<table>
<thead>
<tr>
<th>Prerequisite: (SSCI 165Lgw or SSCI 265Lgw) and (SSCI 301L and SSCI 382L and SSCI 383L) Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 412L Geospatial Practicum
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Application of design concepts, planning protocols, and spatial analysis skills to a complex planning or design problem sponsored by a local public, private or not-for-profit client in a studio setting.

<table>
<thead>
<tr>
<th>Prerequisite: ARCH 403, PPD 425, SSCI 314, SSCI 483 Instruction Mode: Lecture, Lab Required Grading Option: Letter Crosslisted as ARCH-412, PPD 412</th>
</tr>
</thead>
</table>

SSCI 420 Human Security and Geospatial Intelligence Practicum
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Conceptual solutions for a real-world human security and geospatial intelligence issue by developing a problem set and recommended solution to the same.

<table>
<thead>
<tr>
<th>Prerequisite: SSCI 401L Recommended Preparation: SSCI 301L Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 490x Directed Research
- **Units:** 1, 2, 3, 4, 5, 6, 7, 8 Max
- **Terms Offered:** 12.0
- **Description:** Individual research and reading. Registration Restrictions: Open only to juniors and seniors.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 499 Special Topics
- **Units:** 2, 3, 4 Max
- **Terms Offered:** 8.0
- **Description:** Intensive study of selected topics or regions.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 572 GIS and Landscape Architecture
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** The use of GIS, spatial analysis, modeling, and 2- and 3-D mapping to support landscape architecture projects that span multiple spatiotemporal scales.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 574 Spatial Econometrics
- **Units:** 4
- **Terms Offered:** FaSpSm
- **Description:** Introduction to the theoretical foundations, methods, and software systems for spatial econometrics using a variety of use cases.

<table>
<thead>
<tr>
<th>Recommended Preparation: SSCI 583 Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 576 Remote Sensing Applications and Emerging Technologies
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Explore ways remote sensing systems provide geospatial information that is relevant, accurate, timely, accessible, appropriately formatted and cost-effective.

<table>
<thead>
<tr>
<th>Recommended Preparation: SSCI 581 Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 577 Human Security and Disaster Management
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** The relationship between human security (population growth, urbanization, conflict) and disasters, both man-made and natural, where complex emergencies are impactful to human populations.

<table>
<thead>
<tr>
<th>Instruction Mode: Lecture Grading Option: Letter</th>
</tr>
</thead>
</table>

SSCI 578 The Practice of Geospatial Leadership
- **Units:** 4
- **Terms Offered:** FaSp
- **Description:** Geospatial value proposition and the qualities and skills leaders will need to help their geospatial information management groups and organizations achieve success.

| Recommended Preparation: SSCI 581 |
Instruction Mode: Lecture Grading Option: Letter

SCSI 579 Geospatial Intelligence Tradecraft
Units: 4 Terms Offered: FaSpSm Typical geospatial intelligence tasks and their use in military operations, national and homeland security, international relief work and disaster management. Recommended Preparation: SCSI 581. Instruction Mode: Lecture Grading Option: Letter

SCSI 580 Spatial Computing
Units: 4 Terms Offered: FaSp Theoretical foundations, methods, techniques, and software systems for spatial computing, including geospatial web and linked data, spatial data mining, geocoding, and document linking. Recommended Preparation: SCSI 581 or INF 510 . Instruction Mode: Lecture Grading Option: Letter

SCSI 581 Concepts for Spatial Thinking
Units: 4 Terms Offered: FaSpSm The unique characteristics and importance of spatial information as they relate to the evolving science, technology, and applications of Geographic Information Systems. Duplicates Credit in the former GEOG 581. Instruction Mode: Lecture Grading Option: Letter

SCSI 582 Spatial Databases
Units: 4 Terms Offered: FaSpSm Design, implementation, and interrogation of relational, object-oriented and other types of geospatial databases. Recommended Preparation: SCSI 581. Duplicates Credit in the former GEOG 582. Instruction Mode: Lecture Grading Option: Letter

SCSI 583 Spatial Analysis
Units: 4 Terms Offered: FaSpSm Provides the knowledge and skills necessary to investigate the spatial patterns which result from social and physical processes operating at or near the Earth's surface. Recommended Preparation: SCSI 581. Duplicates Credit in former GEOG 583. Instruction Mode: Lecture Grading Option: Letter

SCSI 585 Geospatial Technology Project Management
Units: 4 Terms Offered: FaSm Concepts, principles, and use of project management tools and the people issues encountered running GIS projects. Recommended Preparation: SCSI 581. Duplicates Credit in the former GEOG 585. Instruction Mode: Lecture Grading Option: Letter

SCSI 586 GIS Programming and Customization
Units: 4 Terms Offered: FaSpSm Typical of global positioning systems, maps, geocoding, and other kinds of sensors as geospatial data sources. Includes field data acquisition excursions on Catalina Island. Recommended Preparation: SCSI 581. Duplicates Credit in former GEOG 587. Instruction Mode: Lecture Grading Option: Letter

SCSI 588 Remote Sensing for GIS
Units: 4 Terms Offered: SpSm Principles of remote sensing, satellite systems, and role of remote sensing data in GIS applications. Recommended Preparation: SCSI 581. Duplicates Credit in the former GEOG 588. Instruction Mode: Lecture Grading Option: Letter

SCSI 589 Cartography and Visualization
Units: 4 Terms Offered: SpSm Principles of visual perception, spatial cognition and cartographic design and their contributions to the maps, animations, virtual reality and multimedia displays produced with modern GIS. Recommended Preparation: SCSI 581. Duplicates Credit in the former GEOG 589. Instruction Mode: Lecture Grading Option: Letter

SCSI 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree in cartographic fields. Maximum units which may be applied to the degree to be determined by the department. Instruction Mode: Lecture Grading Option: Credit/No Credit

SCSI 591 Web GIS
Units: 4 Terms Offered: FaSm Design and implementation of locally served and cloud-based geospatial web applications. Construction of web maps, mashups, and Volunteered Geographic Information interfaces. Recommended Preparation: SCSI 581. Duplicates Credit in the former GEOG 591. Instruction Mode: Lecture Grading Option: Letter

SCSI 592 Mobile GIS
Units: 4 Terms Offered: SpSm Design, coding, and implementation of mobile GIS applications using the Java and Javascript object-oriented programming languages. Recommended Preparation: SCSI 591. Instruction Mode: Lecture Grading Option: Letter

SCSI 593 Geospatial Data Integration
Units: 4 Terms Offered: FaSm Role of crowdsourcing, volunteered geographic information, spatial data infrastructures, and web portals in helping with the collection, storage, curation, and distribution of geospatial data assets. Recommended Preparation: SCSI 581. Duplicates Credit in the former GEOG 593. Instruction Mode: Lecture Grading Option: Letter

SCSI 594a Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SCSI 594b Master's Thesis
Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress to Credit/No Credit

SCSI 594z Master's Thesis
Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instruction Mode: Lecture Grading Option: In-progress & Credit/No Credit

SCSI 595 Applied Geospatial Intelligence Problem Solving
Units: 2 Terms Offered: FaSpSm Provides hands-on problem solving opportunities that requires knowledge and GEONET skills to provide an informed recommendation involving a variety of human security settings. Prerequisite: SCSI 577 and SCSI 588 and SCSI 579 and SCSI 581. Corequisite: SCSI 585 Instruction Mode: Lecture Grading Option: Letter

SCSI 596 Internship in Spatial Sciences
Units: 1 Max Units: 4.0 Terms Offered: FaSpSm Part-time or full-time practical work experience in the student's field of study at an off-campus facility under faculty direction. Instruction Mode: Lecture Grading Option: Credit/No Credit

SCSI 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics in the spatial sciences. Instruction Mode: Lecture Grading Option: Letter

SCSI 600 The Geography of Life and Death
Units: 4 Terms Offered: Fa Meaning and significance of place and role of social, natural, and built environments in disease occurrence in different places and populations. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Letter

SCSI 601a Population, Health and Place Research Practicum
Units: 2 Max Units: 4 Terms Offered: Sm The use of population science, public health, and spatial science theory and practice to advance our understanding of one or more aspects of human well-being. Prerequisite: SCSI 600 Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SCSI 601b Population, Health and Place Research Practicum
Units: 2 Max Units: 4 Terms Offered: Sm The use of population science, public health, and spatial science theory and practice to advance our understanding of one or more aspects of human well-being. Prerequisite: SCSI 601a Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SCSI 680 Advanced Spatial Computing
Units: 4 Terms Offered: FaSpSm The role of spatial computing in understanding the world, in knowing and communicating our relationships to specific places, and for navigating through those places. Instruction Mode: Lecture Grading Option: Letter

SCSI 681 Advanced Quantitative Methods for Population, Health and Place
Units: 4 Terms Offered: FaSp Fundamentals of temporal and spatiotemporal data analysis; modern methods for evaluating, managing, and visualizing spatiotemporal data; hands-on use cases. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

SCSI 683 Principles of Spatial Data Analysis
Units: 4 Terms Offered: Sp The theoretical foundations and techniques of spatial
analysis and the ways in which they have been used to identify spatial processes and patterns. Recommended Preparation: Enrollment in a USC PhD Program.

COURSES OF INSTRUCTION

SSCI 684 Spatial Modeling with GIS
Units: 4 Terms Offered: Sp
An introduction to spatial models identifying the key issues influencing the success of these models in simulating key social and environmental processes and health exposures.

Instruction Mode: Lecture Grading Option: Letter

SSCI 693 Practicum in Teaching the Liberal Arts
Units: 2 Terms Offered: Fa
Principles of teaching the liberal arts, focusing on issues and technologies for spatial thinking. Required for first-semester teaching assistants in spatial sciences.

Registration Restriction: Open only to doctoral students

Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 790 Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Max Units: 12 Terms Offered: FaSpSm
Research leading to the doctoral degree. Maximum units which may be applied to the degree must be determined by the department. Registration Restriction: Open only to doctoral students

Instruction Mode: Lecture Grading Option: Credit/No Credit

SSCI 794a Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm
Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.

Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794b Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm
Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.

Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794c Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm
Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.

Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

SSCI 794d Doctoral Dissertation
Units: 2 Terms Offered: FaSpSm
Credit on acceptance of Dissertation. Registration Restriction: Open only to doctoral students in Population, Health, and Place major.

Instruction Mode: Lecture Grading Option: In Progress/Credit/No Credit

Sophomore Seminars
SSEM 200 Sophomore Seminar
Units: 1, 2 Terms Offered: FaSp
Special Sessions Special seminar courses for sophomores; limited to 18 students; topics will vary.

Instruction Mode: Lecture Grading Option: Credit/No Credit

Oral Surgery

SSUR 501 Oral Surgery
Units: 2 Introduction to surgical dentistry, armamentarium and procedures; exodontics; infection; post operative care; repair of bone and soft tissue; acute injury; cysts, sinususes, nerve injury, biopsy.

Instruction Mode: Lecture Grading Option: Letter

SSUR 562a Clinic: Oral Surgery I
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 562b Clinic: Oral Surgery I
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 562c Clinic: Oral Surgery I
Units: 1 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars.

Instruction Mode: Lecture Grading Option: Letter

SSUR 563a Clinic: Oral Surgery II
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 563b Clinic: Oral Surgery II
Units: 0 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 563c Clinic: Oral Surgery II
Units: 1 Supervised clinical experience in health history, surgical evaluation, extraction of teeth, and minor oral surgery procedures. Includes special case seminars.

Instruction Mode: Lecture Grading Option: Letter

SSUR 564a Clinic: Hospital Oral Surgery
Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 564b Clinic: Hospital Oral Surgery
Units: 0 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 564d Clinic: Hospital Oral Surgery
Units: 1 Observation of inpatient and outpatient oral and maxillofacial surgery, participation in clinic care of patients with dento-alveolar pathology, introduction to management of medically compromised patient.

Instruction Mode: Lecture Grading Option: Letter

SSUR 611a Oral and Maxillofacial Surgery
Units: 0 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.

Instruction Mode: Lecture Grading Option: In-progress to Letter Grade

SSUR 611b Oral and Maxillofacial Surgery
Units: 0 More advanced instruction in oral and maxillofacial surgery and related diseases as appropriate to the practice of general dentistry; extensive clinical experience.

Instruction Mode: Lecture Grading Option: Letter

SSUR 701a Seminar: Advanced Oral Surgery
Units: 2 Problems in advanced oral surgery and hospital oral surgery including student presentations and critique of clinical cases.

Instruction Mode: Lecture Grading Option: Letter

SSUR 701b Seminar: Advanced Oral Surgery
Units: 2 Problems in advanced oral surgery and hospital oral surgery including student presentations and critique of clinical cases.

Instruction Mode: Lecture Grading Option: Letter

SSUR 702a Seminar: Review of the Oral Surgery Literature
Units: 2 Critical analysis of recent oral surgery and other related literature.

Instruction Mode: Lecture Grading Option: Letter

SSUR 702b Seminar: Review of the Oral Surgery Literature
Units: 2 Critical analysis of recent oral surgery and other related literature.

Instruction Mode: Lecture Grading Option: Letter

SSUR 708a Orthognathic Surgery
Units: 2 Terms Offered: Fa
Surgical planning and treatment of patients with skeletal deformities.

Instruction Mode: Lecture Grading Option: Letter

SSUR 708b Orthognathic Surgery
Units: 2 Terms Offered: Sp
Surgical planning and treatment of patients with skeletal deformities.

Instruction Mode: Lecture Grading Option: Letter

SSUR 721 Surgical Anatomy
Units: 2 Intensive review of anatomy relevant to the practice of oral surgery. Includes dissections and animal surgery.

Instruction Mode: Lecture Grading Option: Letter
SURT 761a Clinic: Advanced Oral Surgery
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic.
 Instruction Mode: Lecture Grading Option: Letter

SURT 761b Clinic: Advanced Oral Surgery
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic.
 Instruction Mode: Lecture Grading Option: Letter

SURT 761c Clinic: Advanced Oral Surgery
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Clinical evaluation and surgical treatment of dento-alveolar disease in out-patient clinic.
 Instruction Mode: Lecture Grading Option: Letter

SURT 761d Clinic: Advanced Oral Surgery
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center.
 Instruction Mode: Lecture Grading Option: Letter

SURT 762a Clinic: Advanced Hospital Oral Surgery and Anesthesia
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center.
 Instruction Mode: Lecture Grading Option: Letter

SURT 762b Clinic: Advanced Hospital Oral Surgery and Anesthesia
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center.
 Instruction Mode: Lecture Grading Option: Letter

SURT 762c Clinic: Advanced Hospital Oral Surgery and Anesthesia
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center.
 Instruction Mode: Lecture Grading Option: Letter

SURT 762d Clinic: Advanced Hospital Oral Surgery and Anesthesia
 Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 each
 Surgical treatment of patients and service in medical anesthesia at the LAC+USC Medical Center.
 Instruction Mode: Lecture Grading Option: Letter

Gender and Sexuality Studies

SWMS 105g Identity Development of the Contemporary Female
 Units: 4 Terms Offered: FaSp
 Exploration of identity development in terms of social, political, and cultural constructs; examination of collegiate athletics and the contributions of women of color. Satisfies New General Education in Category C; Social Analysis
 Instruction Mode: Lecture Grading Option: Letter

SWMS 210gw Social Analysis of Gender
 Units: 4 Terms Offered: FaSp
 Multidisciplinary survey of gender assumptions in relation to sexuality, mental health, social and political relations, and artistic expression. Satisfies New General Education in Category C; Social Analysis

SWMS 212gw Introduction to Gender and Sexuality: American Perspectives
 Units: 4 Terms Offered: Sp
 Examination of how gender and sexuality have been constructed, experienced and legislated. Satisfies New General Education in Category B; Humanistic Inquiry Satisfies Global Perspective in Category H; Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 215gw Introduction to Gender and Sexuality: International Perspectives
 Units: 4 Terms Offered: Fa
 History and theory of global feminist movements; case studies in bodily autonomy; labor rights; gender justice. Satisfies New General Education in Category B; Humanistic Inquiry Satisfies Global Perspective in Category H; Traditions and Historical Foundations Duplicates Credit in former SWMS 301 Instruction Mode: Lecture Grading Option: Letter

SWMS 219gp Introduction to Feminist Theory
 Units: 4 Terms Offered: Fa
 Emergence of feminist thought from the Enlightenment to the present; historical development of female subjectivity; advancement of women's rights; feminisms from alternative ideological perspectives. Satisfies New General Education in Category B; Humanistic Inquiry Satisfies Global Perspective in Category H; Traditions and Historical Foundations Duplicates Credit in former SWMS 301 Instruction Mode: Lecture Grading Option: Letter

SWMS 221g Introduction to Queer Theory
 Units: 4 Terms Offered: Sp
 Genealogies of queer theory from psychoanalytic theories to feminism and post-structuralism; evolving concepts of gender; relation to social justice, resistance and power. Satisfies New General Education in Category B; Humanistic Inquiry Satisfies Global Perspective in Category H; Traditions and Historical Foundations Instruction Mode: Lecture, Discussion Grading Option: Letter

SWMS 222gw Death and Gender in Urban Contexts
 Units: 4 Terms Offered: Sp
 Experiential course examining how beliefs about mortality are produced by history, gender, culture, and context; how the handling of death shapes urban society. Satisfies New General Education in Category B; Humanistic Inquiry Satisfies Global Perspective in Category H; Traditions and Historical Foundations Instruction Mode: Lecture Grading Option: Letter

SWMS 225 The Science of Sex Differences: A Gender and Sexuality Studies Approach
 Units: 4 Terms Offered: FaSp
 Critical examination of sex and gender in science using a multidisciplinary gender and sexuality studies approach. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Duplicates Credit in former SWMS 225 Instruction Mode: Lecture Grading Option: Letter

SWMS 300 Women in Antiquity
 Units: 4 (Enroll in CLAS 300)

SWMS 305 Childhood, Birth and Reproduction
 Units: 4 (Enroll in ANTH 305)

SWMS 306 Contemporary Issues in LGBTQ Studies
 Units: 4 Terms Offered: FaSp
 Interdisciplinary analysis of LGBTQ issues; examination of the intersections of gender and sexuality with social class, race, religion and nationality. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 308 Advanced Gender Theory
 Units: 4 Terms Offered: FaSp
 Contemporary debates and research in three areas: health bodies, science technologies; feminist/queer analytics in media and representation; critical approaches to race, culture and power. Prerequisite: (SWMS 210gw or SWMS 212gw or SWMS 215gw) and (SWMS 219gp or SWMS 221g) Instruction Mode: Lecture Grading Option: Letter

SWMS 310 Gender and Social Justice
 Units: 4 Terms Offered: FaSp
 Exploration of the ways in which developments and policies, including neoliberalism, the carceral state, and economic precarity, are connected and gendered. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 219gp or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 311 Gender and Sexuality Studies: Internship
 Units: 2, 4, 6, 8 Max Units: 08 Terms Offered: FaSpSm
 Intensive experience with gender-focused community organizations; analysis of relationships between organizations and feminist and queer theory. Registration Restriction: Open only to Dornsife College students Instruction Mode: Lecture Grading Option: Letter

SWMS 316 Gender and Global Issues
 Units: 4 (Enroll in IR 316)

SWMS 321 Gender and Judaism
 Units: 4 (Enroll in JS 321)

SWMS 324 Women in Medieval and Renaissance Europe
 Units: 4 (Enroll in COLT 324)

SWMS 325 The Science of Sex Differences: A Gender and Sexuality Studies Approach
 Units: 4 Terms Offered: FaSp
 Critical examination of sex and gender in science using a multidisciplinary gender and sexuality studies approach. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Duplicates Credit in former SWMS 225 Instruction Mode: Lecture Grading Option: Letter

SWMS 330m Culture, Gender and Politics in South Asia
 Units: 4 (Enroll in ANTH 330)

SWMS 335 Gender, Religion, and Sexuality
 Units: 4 (Enroll in REL 335)

SWMS 336 Health, Gender and Ethnicity
 Units: 4 Terms Offered: Sp Cross-cultural notions of the body, health, and healing; historic and cultural variability of ideas of reproduction, birth, sexuality, mental illness and disability. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 337 The LGBTQ Revolution and the Media
 Units: 4 Terms Offered: Irregular (Enroll in COMM 337)

SWMS 340 LGBTQ Studies in the Social Sciences
 Units: 4 Terms Offered: FaSp
 Examination of studies in the social sciences and the humanities that focus on gender and sexual identities and experiences. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 341 LGBTQ Studies in the Natural Sciences
 Units: 4 Terms Offered: FaSp
 Examination of studies in the natural sciences that focus on gender and sexual identities and experiences. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 342 LGBTQ Studies in the Humanities
 Units: 4 Terms Offered: FaSp
 Examination of studies in the humanities that focus on gender and sexual identities and experiences. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 343 LGBTQ Studies in the Social Sciences
 Units: 4 Terms Offered: FaSp
 Examination of studies in the social sciences and the humanities that focus on gender and sexual identities and experiences. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 344 LGBTQ Studies in the Natural Sciences
 Units: 4 Terms Offered: FaSp
 Examination of studies in the natural sciences that focus on gender and sexual identities and experiences. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

SWMS 345 LGBTQ Studies in the Humanities
 Units: 4 Terms Offered: FaSp
 Examination of studies in the humanities that focus on gender and sexual identities and experiences. Prerequisite: SWMS 210gw or SWMS 212gw or SWMS 215gw or SWMS 221g Instruction Mode: Lecture Grading Option: Letter

practical applications and the importance of career-long skill development. Required for first-semester teaching assistants in gender studies. Registration Restriction: Open only to doctoral students. Instruction Mode: Lecture Grading Option: Credit/No Credit

SWMS 599 Special Topics
Units: 2, 3, 4 Max Units: 8.0 Seminar in selected topics relating to gender and feminism. Instruction Mode: Lecture Grading Option: Letter

SWMS 621 Gender Discrimination
Units: 1, 2, 3, 4 Terms Offered: FaSp (Enroll in LAW 621)

SWMS 623 Family Law
Units: 3 or 4 (Enroll in LAW 623)

SWMS 630 Studies in Gender
Units: 4 Max Units: max 12 (Enroll in ENGL 630)

SWMS 640 Sociology of Gender and Sexuality
Units: 4 Terms Offered: FaSp (Enroll in SOCI 640)

SWMS 642 Sex and Gender in Society
Units: 4 (Enroll in SOCI 642)

Dramatic Arts

THTR 101 Introduction to Acting
Units: 2 Terms Offered: FaSp Study of genres, terminology, and disciplines of acting; fundamental techniques necessary for performance; scene study from contemporary plays. Instruction Mode: Lecture Grading Option: Letter

THTR 105 Introduction to Screen Acting
Units: 2 Terms Offered: FaSp Introduction to the theoretical and foundational practices, techniques and strategies specific to screen acting in relation to the basic dynamics of acting for the stage. Prerequisite: THTR 252a or THTR 120a Instruction Mode: Lecture Grading Option: Letter

THTR 115a Movement I
Units: 2 Terms Offered: Fa Basic training for the actor's body for expression and communication. Awareness and control through mind-body techniques. Corequisite: THTR 120a and THTR 140a Registration Restriction: Open only to Theatre (Acting) majors Duplicates Credit in former THTR 115 Instruction Mode: Lecture Grading Option: Letter

THTR 115b Movement I
Units: 2 Terms Offered: Sp Basic training for the actor's body for expression and communication. Awareness and control through mind-body techniques. Prerequisite: THTR 115a Concurrent Enrollment: THTR 120b and THTR 140b Duplicates Credit in former THTR 115 Instruction Mode: Lecture Grading Option: Letter

THTR 120aL Acting I
Units: 2 Terms Offered: Fa Basic principles and techniques of acting through theatre games and improvisation. Introduction to contemporary texts, basic characterization and cold reading techniques. Registration Restriction: Open only to Acting and Musical Theatre majors Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 120b Acting I
Units: 2 Terms Offered: Sp Basic principles and techniques of acting through theatre games and improvisation. Introduction to contemporary texts, basic characterization and cold reading techniques. Prerequisite: THTR 120aL Instruction Mode: Lecture Grading Option: Letter

THTR 121aX Fundamentals of Acting
Units: 2 Terms Offered: FaSp The elements of the actor's imaginative skills. Instruction Mode: Lecture Grading Option: Letter

THTR 121bx Fundamentals of Acting
Units: 2 Terms Offered: FaSp Continuation of THTR 121a. Instruction Mode: Lecture Grading Option: Letter

THTR 122 Improvisation and Theatre Games
Units: 2 Max Units: 4.0 Terms Offered: FaSp Individual and group exercise to free the actor physically and emotionally and to stimulate creativity, imagination, and self-expression. Instruction Mode: Lecture Grading Option: Letter

THTR 124aX Character Acting
Units: 2 Terms Offered: FaSp Concentration of imaginative processes which develop the individual characteristics of a dramatic role. Instruction Mode: Lecture Grading Option: Letter

THTR 124bx Character Acting
Units: 2 Terms Offered: FaSp Continuation of THTR 124a. Instruction Mode: Lecture Grading Option: Letter

THTR 125 Text Studies for Production
Units: 4 Terms Offered: Fa Focuses on the questions, artistic choices, methodologies, and approaches of an actor/director/designer in the preparation of a production score prior to rehearsal. Instruction Mode: Lecture Grading Option: Letter

THTR 130 Introduction to Theatrical Production
Units: 2 Terms Offered: FaSp Introduction to the nonperformance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 131a Advanced Theatrical Production
Units: 2 Terms Offered: FaSp Advanced understanding of non-performance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 131b Advanced Theatrical Production
Units: 2 Terms Offered: FaSp Advanced understanding of non-performance areas of theatrical production (administrative, design, and technical fields) through hands-on participation in USC productions. Prerequisite: THTR 131a Instruction Mode: Lecture, Lab Required Grading Option: Letter

THTR 132a Art of Theatrical Design
Units: 2 Terms Offered: FaSp A guided student exploration of the fundamentals of applied design elements and their use as creative tools in the design process. Instruction Mode: Lecture Grading Option: Letter

THTR 132b Art of Theatrical Design
Units: 2 Terms Offered: FaSp Development of the artistic process and theatrical design vocabulary of the individual within the environment of collaborative storytelling. Instruction Mode: Lecture Grading Option: Letter

THTR 140a Voice I
Units: 2 Terms Offered: Fa Physiological mechanism of voice: breath control, phonation, resonance, articulation of language for the stage; expressive use of stress, intonation and rhythm. Corequisite: THTR 115a and THTR 120a Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 140b Voice II
Units: 2 Terms Offered: Fa Physiological mechanism of voice: breath control, phonation, resonance, articulation of language for the stage; expressive use of stress, intonation and rhythm. Corequisite: THTR 120b. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 152 Introduction to Scene Study: Contemporary Plays
Units: 2 Terms Offered: FaSp Application and consolidation of the skills, knowledge and techniques acquired in the study of fundamentals of acting encountered in THTR 101. Prerequisite: THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 195g Theatre on Film
Units: 4 Terms Offered: FaSp Introduction to the theatre and its relationship to society through major plays in film versions. Separate screenings to be arranged. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 195h Shakespeare on Film
Units: 4 Introduction to the formalized plays of William Shakespeare as texts for performance through reading, viewing and analysis of selected plays in textual and film versions. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 197g Comedy and Performance
Units: 4 Comedy and Performance traces the history of comedy in performance from its earliest incarnations to the present day. Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 202 The Fundamentals of Comedy
Units: 2 Terms Offered: FaSp Introduction to the fundamental elements of comedy and how to apply those elements to create short, original pieces of comedy in performance and writing. Instruction Mode: Lecture Grading Option: Letter

THTR 213 Corset Construction
Units: 3 Terms Offered: FaSp Design and construct period corsets, along with the materials and terminology needed to sew (machine and hand) corsets. Instruction Mode: Lecture Grading Option: Letter

THTR 215 Movement II
Units: 2 Terms Offered: Fa Training of the actor's body with focus on development of precision and strength. Prerequisite: THTR 115; Corequisite: THTR 220a, THTR 240a. Instruction Mode: Lecture Grading Option: Letter

THTR 215b Movement II
Units: 2 Terms Offered: Sp Training of the actor's body with focus on mask work for
the development of precision, strength and expressiveness. Prerequisite: THTR 215a; Corequisite: THTR 220b, THTR 240b; Instruction Mode: Lecture Grading Option: Letter

THTR 216 Movement for Actors
Units: 2 Terms Offered: FaSp Training and practice in the coordination of the physical apparatus of the actor utilizing various movement techniques through improvisation. Instruction Mode: Lecture Grading Option: Letter

THTR 220a Intermediate Acting I
Units: 2 Terms Offered: FaSp Continuing development of imagination leading to an increased range of dramatic expression through the formalized text of William Shakespeare. Prerequisite: THTR 120b; Instruction Mode: Lecture Grading Option: Letter

THTR 220b Intermediate Acting I
Units: 2 Terms Offered: FaSp Continuing development of imagination leading to an increased range of dramatic expression through the formalized text of William Shakespeare. Prerequisite: THTR 120b; Instruction Mode: Lecture Grading Option: Letter

THTR 222 Stage Make-up
Units: 2 Terms Offered: FaSp Principles of stage make-up materials and skills allowing the actors to enhance their features and techniques for moderation and extreme aging, injuries, and character roles. Instruction Mode: Lecture Grading Option: Letter

THTR 225g Theatre Across History and Cultures
Units: 4 Terms Offered: FaSp The analysis of a range of plays from different times and cultures with a consideration of the roles of actor, director, dramaturg and designer. Recommended Preparation: THTR 125 Satisfies New General Education in Category A: The Arts Instruction Mode: Lecture Grading Option: Letter

THTR 230 Communicating Theatrical Design Concepts
Units: 3 Terms Offered: FaSp The visualization and communication of design ideas through free-hand and mechanical drawing, including orthographics, isometrics, perspective, shades and shadows, plans, sections and elevations. Instruction Mode: Lecture Grading Option: Letter

THTR 231 Costume Construction
Units: 3 Terms Offered: FaSp Historical survey, theory and practice in construction of costume. Prerequisite: THTR 125 Duplicates Credit in former THTR 231ab Instruction Mode: Lecture Grading Option: Letter

THTR 232 Stage Lighting
Units: 3 Terms Offered: FaSp Theory and practice of theatrical lighting design including electricity, radiant energy, refraction, reflection, absorption, chromatic variation and electronic controls. Prerequisite: THTR 130 or (THTR 131a and THTR 131b) Instruction Mode: Lecture Grading Option: Letter

THTR 233 Historic Costumes for the Theatre
Units: 3 Terms Offered: FaSp Historical survey, theory and practice of the use of costume in theatrical production; emphasis on period and style. Instruction Mode: Lecture Grading Option: Letter

THTR 236 Stage Sound
Units: 2 Terms Offered: FaSp Basic audio engineering science, how sound is measured, basic transducers and signal flow. Operation of recording and playback equipment used in theatrical sound design/mixing. Instruction Mode: Lecture Grading Option: Letter

THTR 240a Voice II
Units: 2 Terms Offered: FaSp Development of the voice using material which explores the techniques of Shakespeare and his contemporaries. Prerequisite: THTR 140b; Corequisite: THTR 215a, THTR 220b; Instruction Mode: Lecture Grading Option: Letter

THTR 240b Voice II
Units: 2 Terms Offered: FaSp Development of the voice using material which explores the techniques of Shakespeare and his contemporaries. Prerequisite: THTR 140b; Corequisite: THTR 215b, THTR 220b; Instruction Mode: Lecture Grading Option: Letter

THTR 241 Methods and Materials
Units: 2 Terms Offered: FaSp Cutting-edge and traditional methods and materials that enhance both the planning stages and realization of the theatrical design. Instruction Mode: Lecture Grading Option: Letter

THTR 250 Camera and Improvisation
Units: 2 Terms Offered: FaSp Understanding on-camera acting and improvisation by creating original material both in front and behind the camera. Prerequisite: THTR 220a or THTR 252a; Instruction Mode: Lecture Grading Option: Letter

THTR 252a Intermediate Acting I: American Drama
Units: 2 Terms Offered: FaSp Polishing the actor’s skills through analysis and class performance of scenes from plays, 1950 - 1970. Prerequisite: THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 252b Intermediate Acting I: American Drama
Units: 2 Terms Offered: FaSp Polishing the actor’s skills through analysis and class performance of scenes from plays, 1900 - 1950. Continuation of THTR 252a. Prerequisite: THTR 252a Instruction Mode: Lecture Grading Option: Letter

THTR 259 Introduction to Medical Clowning
Units: 2 Terms Offered: FaSp Explores the art of clowning in hospitals for the purpose of improving the well-being of those in need. Instruction Mode: Lecture Grading Option: Letter

THTR 295 Theatre in Los Angeles
Units: 2 Terms Offered: FaSp Current state and practice of theatrical lighting design including electricity, radiant energy, refraction, reflection, absorption, chromatic variation and electronic controls. Prerequisite: THTR 130 or (THTR 131a and THTR 131b) Instruction Mode: Lecture Grading Option: Letter

THTR 301 Greek and Roman Theatre
Units: 4 Terms Offered: FaSp Examines the function of theatre, production and acting conventions, and the drama of classical Greece and Rome. Recommended Preparation: THTR 125, THTR 201. Duplicates Credit in former THTR 213. Instruction Mode: Lecture Grading Option: Letter

THTR 302 Shakespeare in His World
Units: 4 Terms Offered: FaSp The plays and theatre of Shakespeare, the influences on his work and his contemporary world. Recommended Preparation: THTR 201, THTR 210, THTR 211. Duplicates Credit in former THTR 214. Instruction Mode: Lecture Grading Option: Letter

THTR 303 Project Design I
Units: 3 Terms Offered: FaSp Investigation of the projection design process, equipment, multi-media, digital technology concepts, and related documentation. Prerequisite: THTR 131b and THTR 132a and THTR 132b Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 304 Advanced Medical Clowning
Units: 2 Terms Offered: FaSp Explores the practice of bringing clowns into places of healing (hospitals, trauma sites, etc.) for the purpose of improving the physical and mental well-being of those in need. Prerequisite: THTR 290 Instruction Mode: Lecture Grading Option: Letter

THTR 305a Directing
Units: 4 Terms Offered: FaSp Examination of basic directorial principles. Pre-production analysis and rehearsal procedures; relationship of the director to actor; integration of technical aspects of production. Recommended Preparation: THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 305b Directing
Units: 4 Terms Offered: FaSp Examination of basic directorial principles. Pre-production analysis and rehearsal procedures; relationship of the director to actor; integration of technical aspects of production. Prerequisite: THTR 305a before b. Instruction Mode: Lecture Grading Option: Letter

THTR 307 Comedy in LA
Units: 2 Terms Offered: FaSp Experiential and discussion-based; examines Los Angeles-based live comedy as it continues to evolve, both through text and performance. Prerequisite: THTR 202 Instruction Mode: Lecture Grading Option: Letter

THTR 308 Programming for Lighting
Units: 3 Terms Offered: FaSp Strategies and principles in computerized programming for theatre lighting, emphasizing its applied use in creating kinetic, responsive environments. Instruction Mode: Lecture Grading Option: Letter

THTR 310 Comedy and Diversity
Units: 4 Terms Offered: FaSp Issues of diversity are central to the societal function of comedy. Students will explore the techniques, structures and performance of sitcoms, sketch comedy and stand-up. Recommended Preparation: THTR 125 and THTR 225 Instruction Mode: Lecture Grading Option: Letter

THTR 312 LGBTQ Theatre
Units: 4 Terms Offered: FaSp Explores the range and genealogy of LGBTQ theatre and performance across political, historical, and theatrical contexts. Prerequisite: THTR
THTR 313 Comedy of Manners
Units: 4 Terms Offered: FaSp Study of the development of Comedy of Manners, with primary focus on Restoration Comedy of Manners. Prerequisite: THTR 225g
Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 315a Physical Theatre I
Units: 2 Terms Offered: FaSp Actor training anchored by rigorous physical movements. Activities include comedy, clowning, juggling, and mask work. Instruction Mode: Lecture Grading Option: Letter

THTR 315b Physical Theatre I
Units: 2 Terms Offered: FaSp Actor training anchored by rigorous physical movements. Activities include comedy, clowning, juggling, and mask work. Instruction Mode: Lecture Grading Option: Letter

THTR 316 Advanced Movement for Actors
Units: 2 Terms Offered: FaSp Advanced physical training for the B.A. actor utilizing various movement techniques through improvisation. Prerequisite: THTR 216. Instruction Mode: Lecture Grading Option: Letter

THTR 317 Theatre Clown
Units: 2 Terms Offered: FaSp Introduction to techniques of clown performance and key techniques including complicit, play, looks and drops. Prerequisite: THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 320a Intermediate Acting II
Units: 2 Terms Offered: FaSp Further development of range and breadth of performance skills with emphasis on texts of heightened language and style. Corequisite: THTR 315a, THTR 340a. Instruction Mode: Lecture Grading Option: Letter

THTR 320b Intermediate Acting II
Units: 2 Terms Offered: FaSp Further development of range and breadth of performance skills with emphasis on texts of heightened language and style. Corequisite: THTR 315b, THTR 340b. Instruction Mode: Lecture Grading Option: Letter

THTR 322 Improv 2: Advanced Improv
Units: 2 Terms Offered: FaSp An in-depth study of improvised comedy stage work. An exploration of the primary tools and structure for creating improvised scenes and developing characters for stage and screen. Prerequisite: THTR 101 or THTR 122 Instruction Mode: Lecture Grading Option: Letter

THTR 330 Scene Design I
Units: 4 Terms Offered: FaSp Historical styles, methods, and dramatic analysis for scene design as applied in contemporary practice. Recommended Preparation: THTR 130. Instruction Mode: Lecture Grading Option: Letter

THTR 331 Costume Design I
Units: 4 Terms Offered: Sp Historical styles, methods, and dramatic analysis in costume design as applied in contemporary practice. Execution of costume designs for assigned works. Recommended Preparation: THTR 231a, THTR 231b. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 332 Lighting Design I
Units: 4 Terms Offered: FaSp Historical styles, methods, and dramatic analysis in lighting design as applied in contemporary practice. Instruction Mode: Lecture Grading Option: Letter

THTR 333 Stage Management
Units: 3 Terms Offered: FaSp Basic skills, including assembly of prompt book, blocking notation, and organizational and communication procedures applied in theatre production. Instruction Mode: Lecture Grading Option: Letter

THTR 335 Scenic Construction
Units: 3 Terms Offered: FaSp Technology, organization, and operation of the theatrical scene shop centered around the proper and safe use of tools, the choosing of materials, and methods of construction. Duplicates Credit in former THTR 131. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 336 Introduction to Sound Design
Units: 3 Terms Offered: FaSp The art and techniques of theatrical sound design. The use of music and ambient sound in theatrical presentations. Design elements as metaphor. Instruction Mode: Lecture Grading Option: Letter

THTR 340a Intermediate Voice
Units: 2 Terms Offered: FaSp Extended development of vocal freedom and range, acquisition of articulate speech. Enhancement of vocal power and resonance, techniques for performing with a dialect. Concurrent Enrollment: Concurrent enrollment: THTR 315a, THTR 315b, THTR 320a, THTR 320b. Instruction Mode: Lecture Grading Option: Letter

THTR 340b Intermediate Voice
Units: 2 Terms Offered: FaSp Extended development of vocal freedom and range, acquisition of articulate speech. Enhancement of vocal power and resonance, techniques for performing with a dialect. Concurrent Enrollment: Concurrent enrollment: THTR 315a, THTR 315b, THTR 320a, THTR 320b. Instruction Mode: Lecture Grading Option: Letter

THTR 341x Voice for the Non-Theatre Major
Units: 2 Terms Offered: Fa Designed for the non-theatre major focusing on the range, color, texture, and projection of the human voice in a variety of situations. Instruction Mode: Lecture Grading Option: Letter

THTR 342a Basic Voice
Units: 2 Terms Offered: FaSp Examination of the individual voice centering on resonance, tone, flexibility, and support through dramatic selections for transmitting meaning and emotion of character. Instruction Mode: Lecture Grading Option: Letter

THTR 342b Basic Voice
Units: 2 Terms Offered: FaSp Continuation of THTR 342a. Instruction Mode: Lecture Grading Option: Letter

THTR 343 Musical Theatre Audition
Units: 3 Terms Offered: FaSp Designed to give students confidence and integrity for auditions in musical theatre. Choosing appropriate material and preparation for the audition and performance. Audition required. Instruction Mode: Lecture Grading Option: Letter

THTR 352a Intermediate Acting II
Units: 2 Terms Offered: FaSp Building and sustaining character in drama with special focus on realism, subtext, heightened language and period style: 19th and Early 20th Century Realism. Prerequisite: THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 352b Intermediate Acting II
Units: 2 Terms Offered: FaSp Building and sustaining character in drama with special focus on heightened language and period style: Jacobean, Restoration, 19th Century Comedy. Prerequisite: THTR 352a Instruction Mode: Lecture Grading Option: Letter

THTR 354 Acting Shakespeare
Units: 2 Terms Offered: FaSp Basic approach to the acting and analysis of the highly formalized texts of William Shakespeare. Prerequisite: THTR 101 Instruction Mode: Lecture Grading Option: Letter

THTR 355 Acting for Sitcoms
Units: 2 Terms Offered: FaSp Essential elements of playwriting through weekly assignments, students’ initiative, occasional productions of scenes, and extensive classroom analysis. Instruction Mode: Lecture Grading Option: Letter

THTR 365 Playwriting I
Units: 4 Terms Offered: FaSp Essential elements of playwriting through weekly assignments, students’ initiative, occasional productions of scenes, and extensive classroom analysis. Instruction Mode: Lecture Grading Option: Letter

THTR 366 Playwriting II
Units: 4 Terms Offered: FaSp Continuation of the work begun in THTR 365. Prerequisite: THTR 365. Instruction Mode: Lecture Grading Option: Letter

THTR 380 Immersive Theatre
Units: 2 Terms Offered: FaSp History, principles and practice of Immersive Theatre, one of the most important contemporary movements in the field. Prerequisite: THTR 225g and THTR 252b Instruction Mode: Lecture Grading Option: Letter

THTR 390 Special Problems
Units: 1, 2, 3, 4 Terms Offered: FaSp Supervised, individual studies. No more than one registration permitted. Enrollment by petition only. Instruction Mode: Lecture Grading Option: Letter

THTR 395m Drama as Human Relations
Units: 4 A focus on American ethnic and multicultural diversity from the perspectives of gender, race, and myth as revealed in plays, film, and other performance media. Instruction Mode: Lecture Grading Option: Letter
THTR 396 God, Drama and Entertainment
Units: 4 Terms Offered: FaSp An exploration of the origins of theatre and the role of theatre in relation to secular and spiritual values represented by contemporary theatre media. Instruction Mode: Lecture Grading Option: Letter
THTR 397 Theatre Practicum
Units: 1, 2, 3 Max Units: 12.0 Terms Offered: FaSpSm Substantive participation in productions sponsored by the school and supervised by the faculty. Instruction Mode: Lecture Grading Option: Letter
THTR 400 Eco-Theatre: Art and Science in Contemporary Plays
Units: 4 Terms Offered: FaSp Explores theatre artists' responses to the growing environmental crisis and provides a model for the intersection of theatre and other disciplines. Prerequisite: THTR 225 Instruction Mode: Lecture Grading Option: Letter
THTR 401 Contemporary Theatre in a Changing World
Units: 4 Terms Offered: FaSp Explores the bold approaches that characterize the best of contemporary theatre, as well as the artists who are groundbreakers in a changing world. Prerequisite: THTR 225 Instruction Mode: Lecture Grading Option: Letter
THTR 402 Projection Design II
Units: 3 Terms Offered: FaSp Projection design process, software, equipment, multi-medium and digital technology concepts, and related documentation. Prerequisite: THTR 131b or THTR 132a and THTR 132b Instruction Mode: Lecture, Lab Grading Option: Letter
THTR 403 The Performing Arts
Units: 4 Terms Offered: FaSp An interdisciplinary inquiry into the aesthetics of the performing arts. Examines a dramatic classic and its adaptation into musical theatre, opera, ballet, and film. Duplicates Credit in the former THTR 303. Instruction Mode: Lecture Grading Option: Letter
THTR 404 Acting Theory
Units: 4 Terms Offered: FaSp Examination of the theoretical foundations of acting as an art form through the reading of primary historical texts. Prerequisite: THTR 101 and THTR 125 Instruction Mode: Lecture Grading Option: Letter
THTR 405m Performing Identities
Units: 4 Terms Offered: FaSp This course explores the live performance medium as a creative means of social redress and personal expression. Duplicates Credit in the former THTR 393m. Instruction Mode: Lecture Grading Option: Letter
THTR 406 Theatre on the Edge
Units: 4 Terms Offered: FaSp An exploration of the art of theatre at the edge of possibilities. Instruction Mode: Lecture Grading Option: Letter
THTR 407a Drawing and Rendering for the Theatre
Units: 2 Terms Offered: FaSp Drawing and rendering techniques appropriate for theatre designers. Drawing and rendering theory. Duplicates Credit in former FA 407ab. Instruction Mode: Lecture Grading Option: Letter
THTR 407b Drawing and Rendering for the Theatre
Units: 2 Terms Offered: FaSp Drawing and rendering techniques appropriate for theatre designers. Drawing and rendering. Duplicates Credit in former FA 407ab. Instruction Mode: Lecture Grading Option: Letter
THTR 408a Dialects
Units: 2 Terms Offered: FaSpSm The study of standard American stage dialect using the international phonetic alphabet. Instruction Mode: Lecture Grading Option: Letter
THTR 408b Dialects
Units: 2 Terms Offered: FaSpSm The study of accents and regional dialects. Prerequisite: THTR 408a. Instruction Mode: Lecture Grading Option: Letter
THTR 409 Advanced Drafting:
Vectorworks
Units: 3 Terms Offered: FaSp An exploration of computer aided drafting (CAD) software, including drafting standards as achieved with Vectorworks and related software. Prerequisite: THTR 130 and THTR 32a and THTR 132b Recommended Preparation: LRI Designs Vectorworks Tutorials Instruction Mode: Lecture, Lab Grading Option: Letter
THTR 410 The Digital Actor
Units: 2 Terms Offered: FaSp Empowers the student to forge a career in acting by managing and utilizing the many facets of social and digital media. Prerequisite: THTR 252a and THTR 252b Instruction Mode: Lecture, Lab Grading Option: Letter
THTR 411 The Business of Acting
Units: 2 Terms Offered: FaSp Develops the student's ability to connect and combine managerial, economic and business-related skills with the craft and career of acting. Prerequisite: THTR 252a and THTR 252b Instruction Mode: Lecture Grading Option: Letter
THTR 412 Performing Content
Units: 4 Terms Offered: FaSp Introductory skills for the creation and realization of performance on camera. Prerequisite: THTR 480a Registration Restriction: Not open to Freshmen Instruction Mode: Lecture Grading Option: Letter
THTR 413 Writing Your Own Material
Units: 2 Terms Offered: Sp Develop and write one of a range of comic forms learning the discipline, structure necessary in a longer narrative piece. Prerequisite: THTR 470 or THTR 474 or THTR 479 or THTR 482 or THTR 483 Instruction Mode: Lecture Grading Option: Letter
THTR 415 Physical Theatre II
Units: 2 Terms Offered: FaSp Advanced Physical Acting focusing on principles of verbal/non-verbal improvisation and communication. Elements of textual analysis, including development of character mask and of the ensemble. Prerequisite: THTR 315b Duplicates Credit in former THTR 415b Instruction Mode: Lecture Grading Option: Letter
THTR 416 Creating Content for the Actor
Units: 2.0 Terms Offered: FaSp Development of skills to create content for stage and screen. Instruction Mode: Lecture Grading Option: Letter
THTR 417 Stage Combat
Units: 2 Terms Offered: FaSp Introduction to safe and effective portrayals of violence for the stage. Training and practice of unarmed stage combat skills. Recommended Preparation: THTR 216. Instruction Mode: Lecture Grading Option: Letter
THTR 419 Alexander Technique for Performers
Units: 2 Terms Offered: FaSp Training and practice in the work of F.M. Alexander. A clear and systematic look into the underlying principles that govern human movement. Prerequisite: THTR 101 Instruction Mode: Lecture Grading Option: Letter
THTR 420 Senior Project
Units: 2 Terms Offered: Fa Contemporary material from plays and screenplays with an emphasis on individual challenges and problems. Prerequisite: THTR 320b Registration Restriction: Open only to Theatre (Acting) majors Duplicates Credit in former THTR 420ab Instruction Mode: Lecture Grading Option: Letter
THTR 421 Public Speaking as Performance: A Course for Non-Actors
Units: 2 Terms Offered: FaSpSm Public speaking approached as performance, using acting techniques to communicate with confidence, clarity and charisma. Instruction Mode: Lecture Grading Option: Letter
THTR 422 Improv 3: Long Form Improvisation
Units: 2 Terms Offered: FaSp Focus on Full Length Improvised Performances including the styles of various playwrights, genres of films, "the Harold," improvised plays and musicals. Building on the groundwork of THTR 122 Improvisation and Theatre Games and THTR 322 Improv 2, students apply the techniques to long form unscripted performances. Prerequisite: THTR 122 and THTR 322 Recommended Preparation: THTR 101 and THTR 483 and THTR 470 Instruction Mode: Lecture Grading Option: Letter
THTR 423 Magic
Units: 2 Terms Offered: FaSp The dramatic art of making an audience believe something is impossible. The history and performance of magic including illusion, mentalism, vanishing, coin and card tricks. Instruction Mode: Lecture Grading Option: Letter
THTR 424 The Stage Artist as Entrepreneur
Units: 2 Terms Offered: FaSp Explores all the tools required to forge a career as a stage artist, with an emphasis on producing new work. Prerequisite: THTR 101 and THTR 305a Instruction Mode: Lecture Grading Option: Letter
THTR 425 Dynamics of Technical Theatre
Units: 3 Terms Offered: FaSp Advanced technical direction topics involving the technical analysis and design of moving scenery and theatrical systems. Recommended Preparation: THTR 438 Instruction Mode: Lecture Grading Option: Letter

Units: 2 Terms Offered: FaSp Using original and existing scripted material for film, television and new media students will act, film and edit scenes to form a professional performance reel. Prerequisite: THTR 352a or THTR 320a
Instruction Mode: Lecture Grading Option: Letter

THTR 465 Playwriting III
Units: 4 Analysis of a full-length play or its equivalent with continued production opportunity. Prerequisite: THTR 366
Instruction Mode: Lecture Grading Option: Letter

THTR 466 Playwriting IV
Units: 4 Continuation of the work begun in THTR 465. Prerequisite: THTR 465
Instruction Mode: Lecture Grading Option: Letter

THTR 467 Going Viral: Performance for New Media
Units: 2 Terms Offered: FaSp A writing and performance course (partially online) for new media. Students will learn to create original short form and web series content for new media including YouTube, Funny or Die, Periscope and other Internet platforms. Instruction Mode: Lecture Grading Option: Letter

THTR 468 Theatre in Education
Units: 4 Terms Offered: Sp Exploration of the theory and practice of theatre arts in the learning environment. Design and implement projects to support elementary and secondary education. Recommended Preparation: THTR 201, EDUC 200
Instruction Mode: Lecture Grading Option: Letter

THTR 469 Satire and Parody in Performance
Units: 2 Terms Offered: FaSp A survey of the history and implementation of American satire and parody in performance from Mark Twain to Jon Stewart and beyond. Building on the past, students will learn the structures and techniques for parodying and satirizing the contemporary world through writing and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 470 Sketch Comedy for Theatre
Units: 2 A writing-performance workshop in which the students create, rehearse, and perform original sketch comedy material. Instruction Mode: Lecture Grading Option: Letter

THTR 471 Industry Landscape
Units: 4 Designed to provide the graduating students with opportunity to select, prepare and promote for agents, directors, and producers in film, television and theatre. Also includes the study of the business of acting. Instruction Mode: Lecture Grading Option: Letter

THTR 472 Professional Preparation for Actors
Units: 2 Terms Offered: FaSp Introduction to the skills, knowledge, and promotional materials that will enable the student to manage an independent career in the performing arts. Prerequisite: THTR 252b
Instruction Mode: Lecture Grading Option: Letter

THTR 473 Sketch Comedy in Performance
Units: 2 Terms Offered: Sp A workshop in the techniques of performing humorous sketches, in collaboration with writers, directors, and technicians in the production of a live sketch comedy show. Recommended Preparation: THTR 101, THTR 122, THTR 470. Instruction Mode: Lecture Grading Option: Letter

THTR 474 Introduction to Stand Up Comedy
Units: 2 An introduction to the discipline of conceiving, writing, and creating original Stand Up Comedy routines. Instruction Mode: Lecture Grading Option: Letter

THTR 475 Acting on Camera: The Collaborative Process
Units: 4 Max Units: 08 Terms Offered: FaSp Acting students will learn to develop on-camera acting skills and to collaborate with student directors and cinematographers from the School of Cinematic Arts. Prerequisite: THTR 252b
Instruction Mode: Lecture Grading Option: Letter

THTR 476m African American Theatre, Dance, and Performance
Units: 4 A survey of African American theatre and cultural performance traditions as a reflection of both African American culture and American history. Satisfies Global Perspective in Category G: Citizenship in a Diverse World
Instruction Mode: Lecture Grading Option: Letter

THTR 477 Theatre and Therapy
Units: 4 Terms Offered: Fa Explores theatre as a healing art form. Techniques include games, improv, playback theatre, Boal’s and Moreno’s drama therapy, and Jungian dream theatre to name a few. Work with incarcerated youth, gay/lesbian/bi teens, elderly, disabled and other populations. Instruction Mode: Lecture Grading Option: Letter

THTR 478a Theatre for Youth
Units: 2 Theory and practice of youth theatre, including development and rehearsal of mainstage productions. Emphasis on multicultural and bilingual pieces. Enroll by audition or interview only. Instruction Mode: Lecture Grading Option: Letter

THTR 478b Theatre for Youth
Units: 2 Continuation of a, bringing developed pieces into production for regional K–12. Instruction Mode: Lecture Grading Option: Letter

THTR 479 Solo Performance
Units: 4 Terms Offered: Fa A writing-performance workshop in which students write, develop, and rehearse original, autobiographical and character monologues and perform them at the end of the semester. Instruction Mode: Lecture Grading Option: Letter

THTR 480a Performance for Camera
Units: 2 Terms Offered: FaSpSm Structured to address the dynamics of acting in relation to film/television. Refining the students’ understanding of the similarities/differences between acting on stage/film. Prerequisite:

THTR 480b Performance for Camera
Units: 2 Terms Offered: FaSpSm Continued exploration of acting for film/television. Furthering the student’s understanding of the similarities/differences between acting on stage/film. Prerequisite: THTR 480a
Instruction Mode: Lecture Grading Option: Letter

THTR 481 From The Border to Broadway
Units: 4 Terms Offered: Fa An investigation of the role that Latina/o plays and performances have played in creating and documenting a contemporary American experience of the theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 482 Stand Up 2
Units: 2 Terms Offered: FaSp Enhancement and extension of the student’s comedic set using new forms and structures to develop the student’s comedic sensibility and content. Prerequisite: THTR 474
Instruction Mode: Lecture Grading Option: Letter

THTR 483 Characters of Comedy
Units: 2 Terms Offered: FaSp An in-depth study of the performance of archetypal characters of comedy focused on the lineage from commedia to sit-com. Students will create original characters from archetypal forms and explore their relationships in classical and contemporary comedic performance. Instruction Mode: Lecture Grading Option: Letter

THTR 484 Acting in Television Commercials
Units: 2 Terms Offered: FaSm An on-camera, workshop-style introduction to techniques, perspectives and theories unique to performing in television commercials. Recommended Preparation: THTR 101
Instruction Mode: Lecture Grading Option: Letter

THTR 485 Advanced Solo Performance
Units: 4 Terms Offered: Sp An advanced writing and performance workshop. Students will write and rehearse an extended personal monologue to be presented at the end of the semester. Prerequisite: THTR 479
Instruction Mode: Lecture Grading Option: Letter

THTR 486 Creating Characters
Units: 4 A writing workshop devoted to the creation of living, breathing characters, exploring a range of techniques designed to develop authenticity. Instruction Mode: Lecture Grading Option: Letter

THTR 487 Promotion for the Performing Arts
Units: 4 Terms Offered: Fa Introduction and overview of all aspects of marketing the arts including both non-profit and commercial organizations. Instruction Mode: Lecture Grading Option: Letter

THTR 488m Theatre in the Community
Units: 4 Terms Offered: Fa Research and actively develop the theory of theatre as a moving political, social, economic and spiritual force of change within the local community. Satisfies Global Perspective in Category G: Citizenship in a Diverse World
Instruction Mode: Lecture Grading Option: Letter

THTR 489 Theatre Internship
Units: 2, 3, 4, 5, 6 Terms Offered: FaSpSm
completed in other MFA in Dramatic Writing courses or that was submitted as a sample for program entry. Instruction Mode: Lecture Grading Option: Letter

THTR 501 Poetry and Prose into Drama Units: 4 Max Units: 12 Terms Offered: Sp Plays for the stage shall be written using public-domain poetry and prose as inspiration and source material, complemented with exploring poetry, prose, and varied dramas as context for the student writer. Students should be well-versed in literature, and have written in one or more genres. Recommended Preparation: reading poetry and novels
Instruction Mode: Lecture Grading Option: Letter Crosslisted as ENGL 563

THTR 504 The Art of Collaboration and Ensemble Units: 2 Terms Offered: FaSp An investigation of the role that collaboration plays in making ensemble work. MFA Actors will collaborate with MFA Dramatic Writers in creating an ensemble company.
Instruction Mode: Lecture Grading Option: Letter

THTR 505 Staging Community-based Theatre Units: 3 Terms Offered: Sp Explores the theory and practice of staging community-based popular theatre, including Theatre of the Oppressed, street theatre, witness theatre, agit-prop and festival theatre events. Instruction Mode: Lecture Grading Option: Letter

THTR 506 Advanced Creating Characters Units: 2 An advanced writing workshop that focuses on continuing development of the crafting of character, centering on depth, breadth, dimensionality, and authenticity.
Instruction Mode: Lecture Grading Option: Letter

THTR 507 Casting Director Workshop Units: 2.0 Terms Offered: FaSp The development and building of auditioning skills for film, television and new media venues. Instruction Mode: Lecture Grading Option: Letter

THTR 510 Writing the Short Drama Units: 2 Terms Offered: FaSp The art and craft of dramatic writing. In particular exploring its dimensions with regard to character and story development in the ten minute play.
Instruction Mode: Lecture Grading Option: Letter

THTR 512 Studies in Dramatic Analysis Units: 2 Terms Offered: FaSp A skill-based workshop that uses a historical survey of theatre texts to develop critical reading skills along two different tracks: Acting and Dramatic Writing.
Instruction Mode: Lecture Grading Option: Letter

THTR 513 Seminar in History of the Theatre Units: 4 Bibliography, historical evolution, patterns, and techniques of the theatre from primitive to modern times. Instruction Mode: Lecture Grading Option: Letter

THTR 515a Advanced Movement Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 515b Advanced Movement Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Instruction Mode: Lecture Grading Option: Letter

THTR 515c Advanced Movement Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Corequisite: THTR 480, THTR 540e, THTR 555, THTR 575.
Instruction Mode: Lecture Grading Option: Letter

THTR 515d Advanced Movement Units: 2 Terms Offered: FaSp Advanced exercises in movement for the use of the body in relation to the stage. Corequisite: THTR 520c, THTR 540f, THTR 591.
Instruction Mode: Lecture Grading Option: Letter

THTR 516 Filmmaking for Actors Units: 2 Terms Offered: FaSp The execution and breakdown of a film project from idea to completion. Registration Restriction: Open only to USC School of Dramatic Arts students
Instruction Mode: Lecture Grading Option: Letter

THTR 520a Advanced Acting Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs.
Instruction Mode: Lecture Grading Option: Letter

THTR 520b Advanced Acting Units: 4 Terms Offered: FaSp Advanced training in acting skills including camera work; emphasis upon individual needs.
Prerequisite: THTR 520a
Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 520c Advanced Acting Units: 2 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs and solo performance.
Prerequisite: THTR 520b
Instruction Mode: Lecture Grading Option: Letter

THTR 520d Advanced Acting Units: 4 Terms Offered: FaSp Advanced training in acting skills; emphasis upon individual needs. Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 520e Advanced Acting Units: 2 Terms Offered: FaSp Advanced training in acting skills; includes performing for agents, directors and producers in film, television and theatre. Prerequisite: THTR 520d
Instruction Mode: Lecture Grading Option: Letter

THTR 521 Engaging Community Narratives Units: 3 Terms Offered: Fa Provides training for actors performing for audience in community-based theatre projects.
Instruction Mode: Lecture Grading Option: Letter

Practical experience in the entertainment industry. Instruction Mode: Lecture Grading Option: Letter

THTR 490x Directed Research Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 12.0
Terms Offered: FaSpSm Individual research and readings. Not available for graduate credit. Instruction Mode: Lecture Grading Option: Letter

THTR 491 Theatre Organization and Administration Units: 4 Terms Offered: Fa Budgets, contracts, box-office procedures, public relations; personnel and executive policies of the school, community, and professional theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 492a Periods and Styles Units: 2 Terms Offered: FaSp A survey of the influence of historical and cultural events on the evaluation of theatrical styles. Classical to Jacobean.
Instruction Mode: Lecture Grading Option: Letter

THTR 493b Periods and Styles Units: 2 Terms Offered: FaSp A survey of the influence of historical and cultural events on the evaluation of theatrical styles.
Restoration to 20th century.
Instruction Mode: Lecture Grading Option: Letter

THTR 494 Raising Money for the Arts Units: 4 Terms Offered: Sp Overview of fundraising techniques for non-profit theatre including grantmanship, board development, direct mail soliciting, and money raising activities and events.
Instruction Mode: Lecture Grading Option: Letter

THTR 495 Experimental Theatre Workshop I Units: 4 Max Units: 08 Terms Offered: FaSp Guidance and direction in the production of new and experimental plays for a public audience. By audition.
Instruction Mode: Lecture Grading Option: Letter

THTR 496 Experimental Theatre Workshop II Units: 4 Max Units: 8.0 Terms Offered: FaSp Continuation of THTR 495.
Enrollment by audition only.
Instruction Mode: Lab Grading Option: Letter

THTR 497 Advanced Theatre Practicum Units: 2 Max Units: 4.0 Terms Offered: FaSp Intensive participation in a production sponsored by the school and supervised by the faculty, to increase and develop artistic growth.
Prerequisite: THTR 397.
Instruction Mode: Lecture Grading Option: Letter

THTR 498 Production Analysis and Performance Units: 4 Terms Offered: FaSp Investigation and analysis of the work of a major dramatist and his milieu; production of one of his plays. By audition.
Instruction Mode: Lecture Grading Option: Letter

THTR 499 Special Topics Units: 2, 3, 4 Max Units: 8.0 Terms Offered: FaSp Studies in selected areas of theatre art. Intensive practice in role and script interpretation and its psychological relationship to the audience.
Instruction Mode: Lecture Grading Option: Letter

THTR 500 Dramaturgical Perspectives and Approaches Units: 2 Max Units: 10.0 Investigates art and craft of dramatic writing initiated/
COURSES OF INSTRUCTION

THTR 525 Seminar in Contemporary Theatre
Units: 4 Terms Offered: FaSp Advanced
Preparation: Includes study of trends, problems, and the work of major figures in the contemporary theatre. Instruction Mode: Lecture Grading Option: Letter

THTR 526 Seminar in Dramatic Literature
Units: 4 Study and analysis of world drama best representing changes in philosophies, aesthetics, and tastes of audiences. Instruction Mode: Lecture Grading Option: Letter

THTR 527 Writing the Pacific Rim: Global and Western Dramatic Writing
Units: 4 Writing dramatically, utilizing the Pacific Rim and the Western United States as cultural sites of knowledge and as inspirations. Instruction Mode: Lecture Grading Option: Letter

THTR 528 Seminar in Dramatic Analysis
Units: 4 Terms Offered: FaSp Advanced
Preparation: Application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 529a Textual Studies for Performance
Units: 4 Terms Offered: Fa Close textual reading of dramatic texts as a fundamental tool for rehearsal and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 529b Textual Studies for Performance
Units: 4 Terms Offered: Sp Close textual reading of dramatic texts as a fundamental tool for rehearsal and performance. Instruction Mode: Lecture Grading Option: Letter

THTR 530 Seminar in Dramatic Criticism
Units: 4 Dramatic criticism from the classical Greek period to the modern. Instruction Mode: Lecture Grading Option: Letter

THTR 533 Seminar in the American Theatre
Units: 4, 2 years Terms Offered: SpSm History and literature of the American theatre from its beginning to the present day. Instruction Mode: Lecture Grading Option: Letter

THTR 535 Seminar in Aesthetics of the Theatre
Units: 4 Aesthetic theories which apply to the art of the theatre; emphasis upon acting and play direction. Instruction Mode: Lecture Grading Option: Letter

THTR 540a Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540b Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540c Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540d Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Instruction Mode: Lecture Grading Option: Letter

THTR 540e Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances. Corequisite: THTR 515e, THTR 575, THTR 480, THTR 555. Instruction Mode: Lecture Grading Option: Letter

THTR 540f Advanced Voice Diction
Units: 2 Terms Offered: FaSp Advanced individual vocal development and application to a variety of professional and performance circumstances including voice-over work. Prerequisite: THTR 540e Instruction Mode: Lecture, Lab Grading Option: Letter

THTR 541 Diction and Dialects
Units: 2 Terms Offered: Fa Fundamentals of speech, dialects, dialects and accents, including work in the International Phonetic Alphabet. Instruction Mode: Lecture Grading Option: Letter

THTR 542 Singing for Actors
Units: 2 An introduction to the various facets of singing in theatrical performance. Instruction Mode: Lecture Grading Option: Letter

THTR 544 Embodied Poetics
Units: 2 Terms Offered: Fa Explores the relationship between vocal and physical expression and the spontaneity of human impulse within the community-based context. Instruction Mode: Lecture Grading Option: Letter

THTR 545 Visiting Artists Master Seminar
Units: 4 Terms Offered: Sp A workshop taught by a master visiting artist, concentrating on his/her specific expertise in relation to dramatic writing. Course topics determined by the instructor. Recommended Preparation: reading or viewing the work of the visiting master artist. Instruction Mode: Lecture Grading Option: Letter

THTR 550a Seminar in Scene Design
Units: 3 Terms Offered: FaSp Theory and practice of scene design; an intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 550b Seminar in Scene Design
Units: 3 Terms Offered: FaSp Theory and practice of scene design; an intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 552a Seminar in Costume Design
Units: 3 Terms Offered: FaSp Theory and practice of costume design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 552b Seminar in Costume Design
Units: 3 Terms Offered: FaSp Theory and practice of costume design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 553a Seminar in Lighting Design
Units: 3 Terms Offered: FaSp Theory and practice of lighting design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 553b Seminar in Lighting Design
Units: 3 Terms Offered: FaSp Theory and practice of lighting design; intensive investigation into the relationship of a script to the visual statement. Instruction Mode: Lecture Grading Option: Letter

THTR 554 Visual and Spatial Relationship
Units: 2 To provide the basic foundations for the conceptualization and execution of works for the stage. Instruction Mode: Lecture Grading Option: Letter

THTR 556a Directing
Units: 2 A seminar/workshop in developing and testing directorial skills: text, design, acting, producing, and communication with an audience. Prerequisite: THTR 555. Instruction Mode: Lecture Grading Option: Letter

THTR 556b Directing
Units: 2 A seminar/workshop in developing and testing directorial skills: text, design, acting, producing, and communication with an audience. Prerequisite: THTR 555a. Instruction Mode: Lecture Grading Option: Letter

THTR 558a Design for Directors
Units: 2 Basic elements of scenic, costume, props, lighting, sound, and make-up design, as they apply to the art of directing. Prerequisite: THTR 555.

THTR 558b Design for Directors
Units: 2 Basic elements of scenic, costume, props, lighting, sound, and make-up design, as they apply to the art of directing. Prerequisite: THTR 555a.

THTR 566 Dramatic Writing Studio
Units: 4 Max Units: 24 Terms Offered: FaSp Investigates gestalt of the student writer's professional development from the empty page and writing fundamentals to the first-draft script, business affairs, and dramaturgical advancement. Instruction Mode: Lecture Grading Option: Letter

THTR 567a Studies in Playwriting
Units: 4 Extensive examination of playwriting, dramatic development, and readings of work toward the completion of professionally promising plays. Instruction Mode: Lecture Grading Option: Letter

THTR 567b Studies in Playwriting
Units: 4 Extensive examination of playwriting, dramatic development, and readings of work toward the completion of professionally promising plays. Instruction Mode: Lecture Grading Option: Letter

THTR 568 Popular Theatre for Education and Development
Units: 3 Terms Offered: Sp Theory and practice of Theatre in Education and Theatre for Development as resources for conscientization and liberation of
communities at the margins of power.  
*Instructor Mode: Lecture Grading Option: Letter*

**THTR 570 Acting on Camera: The Collaborative Process**  
*Units: 2 Study of acting methods and techniques for the camera, focusing on collaboration with directors in the realization of screenplays. Instructor Mode: Lecture Grading Option: Letter*

**THTR 571 Professional Seminar**  
*2 Terms Offered: Sp Introduction to the world of the professional actor. Instructor Mode: Lecture Grading Option: Letter*

**THTR 572 Global Dramatic Writing**  
*Terms: 4 Advanced creative projects for production with emphasis on theatre as a synthesis of the performing arts. Instructor Mode: Lecture Grading Option: Letter*

**THTR 574a Dramatic Writing Across Media for Playwrights**  
*Units: 2 Terms Offered: Fa Intensive overview of career paths for playwrights in a wide array of media as they exist now, and as new opportunities arise. Prerequisite: THTR 574a Duplicate Credit in former THTR 574. Instructor Mode: Lecture Grading Option: Letter*

**THTR 574b Dramatic Writing Across Media for Playwrights**  
*Units: 2 Terms Offered: Sp Intensive overview of career paths for playwrights in a wide array of media as they exist now, and as new opportunities arise. Prerequisite: THTR 574a Duplicate Credit in former THTR 574. Instructor Mode: Lecture Grading Option: Letter*

**THTR 575 Creative Production Projects**  
*Units: 6 Advanced creative projects for the development of the students' skills in selected areas of the performing arts. Instructor Mode: Lecture Grading Option: Letter*

**THTR 576 Creative Process for Dramatic Writers**  
*Units: 4 Terms Offered: Sp An advanced writing workshop on critical and deep development of plays that are the centerpieces of student's thesis portfolios. Instructor Mode: Lecture Grading Option: Letter*

**THTR 577 Theatre and Therapy for Cultural Fieldwork**  
*Units: 3 Terms Offered: Sp Explores the theory and practice of theatre and therapy in the cultural fieldwork and community development settings. Recommended Preparation: THTR 587. Instructor Mode: Lecture Grading Option: Letter*

**THTR 578 Theatre of the Oppressed: Theory, Games, and Techniques**  
*Units: 4 Terms Offered: FaSpSm Basic theoretical foundations of game playing for populations at the margins of power. Recommended Preparation: THTR 521, THTR 544. Instructor Mode: Lecture Grading Option: Letter*

**THTR 579 Writing Culture**  
*Units: 3 Terms Offered: FaSpSm Borrow from anthropology, popular/communities-based theatre, cultural studies, and literature to provide an array of methodologies and approaches to artistic collaboration across cultures and difference. Instructor Mode: Lecture Grading Option: Letter*

**THTR 580a Performance with Camera**  
*Units: 2 Terms Offered: FaSp Structured to address the dynamics of acting in relation to film/television. Refining the students' understanding of the similarities/differences between acting on stage/film. Instructor Mode: Lecture Grading Option: Letter*

**THTR 580b Performance with Camera**  
*Units: 2 Terms Offered: FaSp Structured to address the dynamics of acting in relation to film/television. Refining the students' understanding of the similarities/differences between acting on stage/film. Prerequisite: THTR 580a. Instructor Mode: Lecture Grading Option: Letter*

**THTR 586a Applied Theatre Arts: Los Angeles Residency**  
*Units: 2 Terms Offered: FaSp Academic and group process context for students' work in their chosen local internships to help students engage with communities as cultural fieldworkers. Instructor Mode: Lecture Grading Option: Letter*

**THTR 586b Applied Theatre Arts: Los Angeles Residency**  
*Units: 2 Terms Offered: FaSp Supervisory, logistical, and theoretical container for THTR 586a. Engages students in their curricular experiences in the cultural field in partnership with their community-based organizations. Instructor Mode: Lecture Grading Option: Letter*

**THTR 587 Liberation Arts and Community Engagement — Theory**  
*Units: 4 Terms Offered: Fa Historical foundations of liberationary movements using expressive arts towards community-based goals of reciprocal and collaborative empowerment, civil rights, psychological or political freedom and justice. Instructor Mode: Lecture Grading Option: Letter*

**THTR 588 Liberation Arts and Community Engagement — Praxis**  
*Units: 3 Terms Offered: Sp Theory and practice of developing liberatory and Theatre of the Oppressed events, from first community contact to staged public event. Prerequisite: THTR 587. Instructor Mode: Lecture Grading Option: Letter*

**THTR 590 Directed Research**  
*Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 Terms Offered: FaSpSm Research leading to the master's degree. Maximum units which may be applied to the degree to be determined by the department. Instructor Mode: Lecture Grading Option: Credit/No Credit*

**THTR 591 Seminar in Producing Theatre**  
*Units: 4 A seminar in the theories and processes of producing theatre (commercial and non-profit).*

**THTR 592a Participatory Action Research for Community-based Theatre**  
*Units: 2 Terms Offered: FaSp Examination of theories and practices of Participatory Action Research (PAR) to better understand its various forms in community-based contexts using theatre as the research mode. Instructor Mode: Lecture Grading Option: Letter*

**THTR 592b Participatory Action Research for Community-based Theatre**  
*Units: 2 Terms Offered: Sm Implements the theories and practices of THTR 592a towards the creation of a summative research paper on the local and international applied theatre arts experience. Instructor Mode: Lecture Grading Option: Letter*

**THTR 593 MFA Project**  
*Units: 2 Max Units: 4.0 Terms Offered: FaSpSm Credit awarded upon completion of project. Instructor Mode: Lecture Grading Option: Credit/No Credit*

**THTR 594a Master's Thesis**  
*Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instructor Mode: Lecture Grading Option: In-progress to Credit/No Credit*

**THTR 594b Master's Thesis**  
*Units: 2 Terms Offered: FaSpSm Credit on acceptance of thesis. Instructor Mode: Lecture Grading Option: In-progress to Credit/No Credit*

**THTR 594z Master's Thesis**  
*Units: 0 Terms Offered: FaSpSm Credit on acceptance of thesis. Instructor Mode: Lecture Grading Option: Credit/No Credit*

**THTR 595a Graduate Playwrights' Workshop**  
*Units: 4 Development of thesis plays utilizing faculty dramaturgical support and involvement of student actors/directors. Includes readings with/without audiences. Simulates professional development process. Instructor Mode: Lecture Grading Option: Letter*

**THTR 595b Graduate Playwrights' Workshop**  
*Units: 4 Continued development of thesis plays in a simulated professional development workshop process utilizing dramaturgy and involvement of student actors/directors. Culminates in staged readings. Instructor Mode: Lecture Grading Option: Letter*

**THTR 596 Thesis Development and Attainment**  
*Units: 2 Max Units: 10.0 Designed to guide the MFA student toward refinement of thesis including vision, development, and execution. Instructor Mode: Lecture Grading Option: Letter*

**THTR 597 Theatre Practicum**  
*Units: 1, 2, 3, 4 Max Units: 12.0 Terms Offered: FaSpSm Preparation, rehearsal, and performance of dramatic works in main stage repertory. Instructor Mode: Lecture Grading Option: Letter*

**THTR 598 Applied Theatre Arts: International Externship**  
*Units: 2 Supervisory, logistical and theoretical container for students exploring cultural fieldwork in international settings. Prerequisite: THTR 588. Instructor Mode: Lecture Grading Option: Letter*

**THTR 599 Special Topics**  
*Units: 2, 3, 4 Max Units: 8.0 Studies in selected areas of theatre art. Instructor Mode: Lecture Grading Option: Letter*

**Dramatic Arts Expended**

**THTE 201aL Acting for Musical Theatre**  
*Units: 2 Terms Offered: Fa Analysis and investigation of role interpretation and character development by working on two or more scenes from the same play. Introduction of techniques to unlock objectives based on the text. Prerequisite: THTR 120b and THTR 125 Registration Restriction: Open only to Musical Theatre*
THTE 403L Contemporary Scene Into Musical Comedy
Units: 2
Terms Offered: Fa
Description: Analysis of musical films from the 1960s and genre - through script analysis, as they pertain to the practical demands of a working entertainment professional. Instruction Mode: Lecture
Grading Option: Letter

THTE 407 Building Your Cabaret
Units: 2
Terms Offered: Fa, Sp
Description: The process of collaboration for musical theatre through a series of structured writing exercises to create new works. Prerequisite: THTR 125
Registration Restriction: Open only to Musical Theatre students
Instruction Mode: Lecture, Lab
Required Grading Option: Letter

THTE 408L Movie Musical Development
Units: 2
Terms Offered: Sp
Description: Survey and analysis of musical films from the 1960s to the present towards the creation of an original musical project. Prerequisite: THTR 480a
Registration Restriction: Open only to Musical Theatre seniors
Instruction Mode: Lecture, Lab
Required Grading Option: Letter

THTR 120aL and THTR 120b

TRGN 525 Applications of Genomic Technology in Biomedical Research I
Units: 4
Terms Offered: Fa
Description: FaSp Molecular biotechnology, genomics, next-generation sequencing, epigenomics, drug discovery, biomarkers, microarrays, commercialization, microarray analysis, expression, proteomics. Instruction Mode: Lecture
Grading Option: Letter

TRGN 526 Clinical Bioinformatics in Genomic Testing
Units: 2
Terms Offered: Fa
Description: FaSp Covers basic understandings of clinical bioinformatics methodologies and practices, along with the genomic technologies used for clinical diagnostic purposes. Recommended Preparation: Bachelor's degree in biology, healthcare, biochemistry, or related biomedical field
Registration Restriction: Open only to master students
Instruction Mode: Lecture
Grading Option: Letter

TRGN 527 Applied Data Science and Bioinformatics
Units: 4
Terms Offered: Fa
Description: FaSp Data science and bioinformatics tools in the study of human health and disease using R and Bioconductor for students from non-quantitative backgrounds. Registration Restriction: Open only to graduate and doctoral students
Instruction Mode: Lecture
Grading Option: Letter

TRGN 536 Biotechnology Primer
Units: 4
Terms Offered: Fa
Description: FaSp Examination of classical and novel techniques used to explore and manipulate biology, with an emphasis on the function and implications for the use of biotechnology in areas of global need. Recommended preparation: Two semesters of Introductory biology; two semesters of molecular biology and genetics. Recommended Preparation: Two semesters of introductory biology; two semesters of molecular biology and genetics
Duplicates Credit in former MEDS 536
Institution Mode: Lecture
Grading Option: Letter

TRGN 537 Pathway and Target Discovery
Units: 4
Terms Offered: Fa
Description: FaSp Exploration of the process of discovering and developing novel therapeutic treatments. Recommended Preparation: Two semesters of Introductory Biology plus two semesters of Molecular Biology, Genetics, or Cell Biology
Duplicates Credit in former MEDS 537
Instruction Mode: Lecture
Grading Option: Letter

TRGN 538 Seminar in Translational Biotechnology
Units: 2
Terms Offered: Fa
Description: FaSp Series of seminars that provide updated views on various sub-specialties in biotechnology. Recommended Preparation: Two semesters of Introductory Biology plus two semesters of Molecular Biology, Genetics, or Cell Biology
Duplicates Credit in former MEDS 538
Instruction Mode: Lecture
Grading Option: Letter

TRGN 539 Translational Biotechnology Practicum
Units: 2, 3, 4
Terms Offered: Fa
Description: FaSpMm Experiential training based on a project in a biomedical, biotechnology or pharmaceutical setting. Recommended Preparation: Students must have completed one core and one elective course of the program prior to enrollment
Duplicates Credit in former MEDS 539
Instruction Mode: Lecture
Grading Option: Credit/No Credit

TRGN 540 Translational Biotechnology Capstone Preparation
Units: 1
Terms Offered: Fa
Description: FaSpMm Preparation for capstone defense course. Duplicates Credit in former MEDS 540
Instruction Mode: Lecture
Grading Option: Credit/No Credit
TRGN 541 Translational Biotechnological Capstone Defense
Units: 2 Terms Offered: FaSpSm
Finalization and defense of capstone project. Prerequisite: TRGN 539 and TRGN 540 Duplicates Credit in former MEDS 541 Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 542 Biotechnology-based Therapeutic Applications
Units: 2 Terms Offered: FaSp Covers advanced biotechnology principles and applications. Duplicates Credit in former MEDS 542 Instruction Mode: Lecture Grading Option: Letter

TRGN 543 Biotechnology Entrepreneurship and Commercialization I
Units: 2 Terms Offered: FaSp Covers advanced biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, company exits. Instruction Mode: Lecture Grading Option: Letter

TRGN 544 Biotechnology Entrepreneurship and Commercialization II
Units: 2 Terms Offered: FaSp Advanced discussion: global biotechnology industry, idea generation, business plan formulation, intellectual property protection, funding, personnel management including board composition, regulatory body interaction, company exits. Prerequisite: TRGN 543 Instruction Mode: Lecture Grading Option: Letter

TRGN 545 Exploring Chemical and Biological Therapeutic Modalities
Units: 2 Terms Offered: FaSp Turning molecules into drugs and cells into therapeutics. Emphasizing selection, development and optimization of appropriate modalities to target specific key defects in diseases. Instruction Mode: Lecture Grading Option: Letter

TRGN 546 Biotechnology Intellectual Property, Regulatory, and Corporate Law
Units: 2 Terms Offered: FaSp Core concepts in intellectual property law, regulatory law, healthcare law, corporate law, and M&A law to the biopharmaceutical and diagnostic device sectors. Open to students who are pursuing or have already attained graduate degrees (MS, PhD or PharmD) in the biosciences disciplines, or students from professional schools who have college-level bioscience background. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 548 Seminar in Translation and Entrepreneurship in Biomedical Sciences
Units: 1 Max Units: 02 Terms Offered: FaSp Series of seminars that provide updated views on various sub-specialties in translation and entrepreneurship in biomedical sciences. Instruction Mode: Lecture Grading Option: Letter

TRGN 549 Translation and Entrepreneurship in Biomedical Science Capstone Project
Units: 2 Terms Offered: FaSpSm Experiential training based on a project in translation and entrepreneurship in biomedical sciences. Registration Restriction: Open only to TEBS majors Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 550 Communicating Science: Writing
Units: 1 Terms Offered: FaSp Written communication modalities for accurate and effective transmission of scientific information to a wide audience in biomedical, healthcare, and related industries. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 551 Communicating Science: Speaking
Units: 1 Terms Offered: FaSp Verbal communication modalities for accurate and effective transmission of scientific information to a wide audience in biomedical, healthcare, and related industries. Registration Restriction: Open only to graduate and professional students Instruction Mode: Lecture Grading Option: Letter

TRGN 590 Directed Research
Units: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Max Units: 12 Terms Offered: FaSpSm Research leading to the master’s degree. Maximum units which may be applied to the degree to be determined by the department. Registration Restriction: Open only to students enrolled in MS, Translational Biotechnology Instruction Mode: Lecture Grading Option: Credit/No Credit

TRGN 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Selected topics in Translational Genomics. Instruction Mode: Lecture Grading Option: Letter

University of Southern California

USC 101 Honors Research Apprenticeship
Units: 1 Max Units: 2.0 Students work directly with faculty on faculty research projects, gain experience in the process of research and thereby contribute to new scholarship. Instruction Mode: Lecture Grading Option: Credit/No Credit

USC 250 The Academic Culture
Units: 2 Terms Offered: FaSp Study the meaning of culture in society, experience the culture of learning on campus, and examine the relationship between the two. Topics will vary. Instruction Mode: Lecture Grading Option: Credit/No Credit

Visual Studies

VISS 501 Introduction to Visual Studies: Methods and Debates
Units: 4 Terms Offered: Fa A critical introduction to the field of visual studies focusing on interdisciplinary approaches to images, objects, and visual technologies as well as key texts and interpretive debates. Registration Restriction: Open only to doctoral students Duplicates Credit in MDA 501 Instruction Mode: Lecture Grading Option: Letter

VISS 599 Special Topics
Units: 1, 2, 3, 4, 5, 6, 7, 8 Max Units: 08 Terms Offered: FaSp Special Topics in Visual Studies. Registration Restriction: Open only to doctoral students Instruction Mode: Lecture Grading Option: Letter

Writing Program

WRIT 095x Writing Tutorial
Units: 1 Terms Offered: FaSpSm Individualized instruction in writing to support instruction in WRIT 120. Concurrent Enrollment: WRIT 120 Credit Restriction: Not available for degree credit Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 120 Introduction to College Writing
Units: 4 Terms Offered: FaSpSm Intensive instruction and practice in the writing process. Focuses upon the formal conventions and conceptual expectations of college writing, with emphasis upon the grammatical, stylistic, and rhetorical techniques required in successful writing. Limited to and required of students who score below specified level on the USC Writing Examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 121 Introduction to College Writing in a Second Language
Units: 4 Terms Offered: FaSp Intensive instruction and practice in the writing process for non-native speakers of English. Focuses on the formal and conceptual conventions of college writing, with emphasis upon the grammatical, stylistic, and rhetorical techniques required in successful writing. Limited to and required of students who score below specified level on the USC Writing Examination. Instruction Mode: Lecture Grading Option: Credit/No Credit

WRIT 130 Analytical Writing
Units: 4 Terms Offered: Sp Focuses on analytical and argumentative writing skills requisite to academic and professional writing. Emphasizes logical analysis of texts and other data, effective use of evidence, ethical argumentation, and grammatical fluency. Enrollment limited to specified groups of students. Students must achieve a satisfactory score on the verbal portion of the SAT, the USC Writing Examination, or credit for WRIT 120 or WRIT 121 before enrolling in WRIT 130. Instruction Mode: Lecture Grading Option: Letter

WRIT 133 College Writing for International Students
Units: 4 College writing for International Students, emphasizing the expectations of academic discourse in U.S. higher education while drawing upon a context informed by cross-cultural perspectives. Recommended Preparation: International Academy course work. Instruction Mode: Lecture Grading Option: Letter

WRIT 150 Writing and Critical Reasoning–Thematic Approaches
Units: 4 Terms Offered: FaSpSm Academic writing, emphasizing analysis and argumentation, rhetorical judgment, critical reasoning, creative insight, the careful use of evidence, ethical perspectives, logical organization, stylistic and grammatical fluency. Duplicates Credit in WRIT 130 and former WRIT 140. Instruction Mode: Lecture Grading Option: Letter

WRIT 320 Inside-Out Writing Workshop
Units: 2 Terms Offered: FaSpSm A writing workshop that allows students to

1230 USC CATALOGUE 2020-2021
deepen their writing skills while working collaboratively with diverse groups, programs, or populations outside of USC. **Prerequisite:** WRIT 150 or WRIT 130

**Instruction Mode:** Lecture  
**Grading Option:** Letter

**WRIT 340 Advanced Writing**  
Units: 3, 4  
Terms Offered: FaSpSm  
Instruction in writing for various audiences on topics related to a student's professional or disciplinary interests, with some emphasis on issues of broad public concern. **Prerequisite:** WRIT 130 or WRIT 150. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**WRIT 380 Writing in Global Contexts**  
Units: 2, 4  
Terms Offered: FaSpSm  
Integrates global travel with experiential learning as a means of helping students to sharpen their writing and critical reasoning skills. **Prerequisite:** WRIT 150 or WRIT 130. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**WRIT 385 Writing Fellows Practicum**  
Units: 2  
Terms Offered: FaSpSm  
WRIT 340 Practical, hands-on instruction in the teaching of writing in different contexts. **Prerequisite:** WRIT 150  
**Instruction Mode:** Lecture  
**Grading Option:** Letter

**WRIT 440 Writing in Practical Contexts**  
Units: 4  
Terms Offered: FaSpSm  
Advanced training in analytical and argumentative writing for particular purposes, in professional and practical contexts. **Prerequisite:** CORE 112 or WRIT 340. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**WRIT 450 Advanced Research Writing**  
Units: 4  
Terms Offered: FaSpSm  
Instruction in writing and research techniques in support of a capstone undergraduate research thesis in the humanities, social sciences, or sciences. **Prerequisite:** WRIT 150 and WRIT 340  
**Registration Restriction:** Not open to freshman and sophomore students. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**WRIT 499 Special Topics**  
Units: 1, 2, 4  
Max Units: 08  
Selected topics of current interest. **Instruction Mode:** Lecture  
**Grading Option:** Letter

**About the Catalogue**

The USC Catalogue is the document of authority for all students. The program requirements listed in the USC Catalogue supersede any information that may be contained in any bulletin of any school or department. The university reserves the right to change its policies, rules, regulations, requirements for graduation, course offerings and any other contents of this catalogue at any time.

University Park Campus  
Los Angeles, California 90089  
(213) 740-2311

**Contact Us**

The USC Catalogue is published online annually in June. A print version is no longer offered though the Web pages are easily printable. (Look for the icon in the upper-right corner of each page.) Once the Catalogue is published, changes can only be made to correct inaccuracies. From October through May, the Catalogue Office is in production on the next year's Catalogue, known as the "Production" Catalogue. The Catalogue Office works in conjunction with the Curriculum Coordination Office to update curricular information in the upcoming Catalogue during the production months. For information, contact the Catalogue Office at regpub@usc.edu.

**Credits**

The USC Catalogue is published by the Office of the Registrar, Catalogue Office, regpub@usc.edu. The catalogue publishes online in June 2020 as the document of authority for the following academic year.

**Managing Editor:** Diane Ver Steeg Anderson  
**Curriculum Administrator:** John DeMartini  
**Contributing Editors:** Julie Wood, Lesley Zanich (The Oak Co)
